P.E.

Dear Mr.

This is to inform you that a complaint was filed against you for the unlicensed practice of land surveying in connection with the stamped drawings you submitted on the Road Milepost 16.4 to 22.4 Project No. STP-0466(14)51618, dated May 5, 1999.

In this instance your drawing is considered to constitute the practice of land surveying, rather than construction surveying, since you tied existing land surveying monuments into the drawing. Unless registered as a land surveyor you are prohibited from stamping land surveys, and any future occurrences could subject your professional license to disciplinary sanctions. If you should have any questions in the future regarding the propriety of stamping a drawing you are urged to contact this office prior to sealing the designs or drawings.

This letter is a private communication between you and the Division, and is not a disciplinary action. The contents of this letter are not releasable to the public, nor will this letter become a part of your licensing file. No further action on your part is required.

Sincerely yours,

Richard W. Slisz
Investigator
