Commission's rules governing Domestic Public Radio Services (other than Maritime Mobile) to provide for the assignment of frequencies in the 450-460 Mc/s band to control stations in the Domestic Public Land Mobile and Point-to-Point Microwave Radio Services, Docket No. 13348.

Report and order. 1. In a "Third Notice of Proposed Rule Making" (FCC 68-886, 33 F.R. 12787), released September 4, 1968, the Commission proposed adoption of rules governing the Domestic Public Radio Service to permit the establishment of a regular air-ground radiotelephone system. The amended rules would provide inter alia for a reduction in separation from 50 kc/s to 25 kc/s in the present frequency allocation of 454.6625-455.000 Mc/s and 459.6625-460.000 Mc/s, thus making available for the first time 12 channels in lieu of the present six channels, and at the same time afford the land mobile and air-ground radiotelephone systems the opportunity to share the frequencies. Interested parties were invited to file comments by December 2, 1968, and reply comments by January 2, 1969. By order released December 20, 1968, the latter date was extended to February 3, 1969.¹

2. Interested parties, including both wireline and miscellaneous common carriers (MCCs), agree essentially that the vast increase in air-passenger traffic and private aircraft service has created a pressing need for a public air-ground radiotelephone service; that the limited service currently authorized by the wireline carriers no longer serves this need;

¹ Also issued in Docket No. 15073 were: Notice of proposed rule making released July 2, 1968 (FCC 68-869); second notice of proposed rule making released May 30, 1968 (FCC 68-438); memorandum opinion and order released Sept. 4, 1968 (FCC 68-885).

² By the memorandum opinion and order released Sept. 4, 1968, supra, extension and expansion in the developmental service for operation in the 450 Mc/s band was authorized consistent with the proposed rule making.

³ Pertinent comments were filed by: Aircraft Owners and Pilots Association (AOPA); American Telephone and Telegraph Co. (A.T. & T.); Chalfont Communications (Chalfont); General Communications Service, Inc. (General); G.T. & E. Service Corp. (G.T. & E.); Hawaiian Telephone Co.
