

**ANNUAL REPORT**  
**ALASKA ROAD COMMISSION**

1938

## ALASKA ROAD COMMISSION

FUNDS

Money for the prosecution of the work of The Alaska Road Commission was provided from six sources, as follows:

- (1) Appropriation by the Federal Government to the Department of the Interior for expenditure in conformity with act of Congress approved January 27, 1905, and amendments thereto.
- (2) From a portion of the Alaska Fund, a fund covered into the Federal Treasury but derived entirely from special taxes imposed by the Federal Government upon various industries in the Territory.
- (3) Funds appropriated by the Territorial Legislature and turned over to the Treasurer of the United States for expenditure on construction, repair and maintenance of roads, bridges, ferries, trails and related works in the Territory as provided by act of Congress approved June 30, 1921. These funds are expended upon projects designated by the Territorial Board of Road Commissioners.
- (4) Money allotted by the National Park Service and expended under its direction entirely within the boundaries of national parks and monuments.
- (5) Contributions, by individuals, companies, corporations, et cetera.
- (6) Funds from the Works Progress Administration.

For the fiscal year 1938, the following funds were made available from the above sources:

Item 1 .....	\$535,000
" 2 .....	141,609
" 3 .....	78,120
" 4 .....	90,632
" 5 .....	4,080

While no new allocations were made under Item 6, there remained a balance of \$388,386.34 unexpended from an earlier allotment which was available for fiscal year 1938.

For the current year or fiscal year 1939 an appropriation of \$535,000 under item 1 and \$160,000 under item 2 was made available by Act approved May 9, 1938. Under item 4 the National Park Service has allotted \$100,700 and it is estimated that \$90,000 will be available under items 3 and 5.

SUMMARY OF ALL EXPENDITURES TO JUNE 30, 1938

The Commission has expended the following funds since the beginning of road and trail development in the Territory:

Fiscal Year	Congressional appropriations	Alaska fund	Other funds	Total
1905-1930 .....	\$10,433,824.29	\$3,566,870.84(1)	\$1,984,826.03	\$15,985,521.16
1931 .....	751,366.08	202,547.78	334,359.60	1,288,273.46
1932 .....	710,738.05	68,270.32	260,022.41	1,039,030.78
1933 .....	448,777.90	162,310.04	83,948.22	695,036.16
1934 .....	467,737.60	88,433.89	42,834.21	599,005.70
1934 (N I R A)	780,396.23	-- -- --	53,479.55	833,875.78
1935 .....	522,914.86	242,253.92	72,107.68	837,276.46
1935 (N I R A)	734,751.86	-- -- --	93,727.33	828,479.19
1935 (E R A)	1,454.28	-- -- --	-- -- --	1,454.28
1936 .....	446,805.60	149,562.32	203,749.55	800,117.47
1936 (N I R A)	77,797.00(2)	-- -- --	2,793.12	80,590.12
1936 (E R A) ..	559,945.03	-- -- --	-- -- --	559,945.03
1937 .....	558,472.55	122,394.77	208,313.82	889,181.14
1937 (E R A) ..	170,723.05	-- -- --	-- -- --	170,723.05
1938 .....	659,793.86	159,163.39	181,669.48	1,000,626.73
1938 (E R A) ..	376,455.02	-- -- --	-- -- --	376,455.02
Totals	\$17,701,953.26	\$4,761,807.27	\$3,521,831.00	\$25,985,591.53

(1) Includes U. S. Treasury adjustment in 1912, \$17,052.23.

(2) Revised to cover repayments received in 1938 fiscal year.

"Other funds" in the foregoing table include the following expenditures from other appropriations:

Fiscal Year	Increase of Compensation Acts	Quartermaster General	Funds Contributed	National Park Service
1918-1930 .....	\$95,076.45	\$4,694.80	\$1,453,212.53	\$431,842.25
1931 .....	-- -- --	937.47	165,604.86	167,817.27
1932 .....	-- -- --	2,324.83	161,459.79	96,237.79
1933 .....	-- -- --	-- -- --	6,698.71	77,249.51
1934 .....	-- -- --	-- -- --	36,027.35	6,806.86
1934 (N I R A)	-- -- --	-- -- --	-- -- --	53,479.55
1935 .....	-- -- --	-- -- --	51,607.68	20,500.00
1935 (N I R A)	-- -- --	-- -- --	-- -- --	93,727.33
1936 .....	-- -- --	-- -- --	60,101.48	143,648.07
1936 (N I R A)	-- -- --	-- -- --	-- -- --	2,793.12
1937 .....	-- -- --	-- -- --	76,656.30	131,657.52
1938 .....	-- -- --	-- -- --	90,845.47	90,824.01
Totals	\$95,076.45(1)	\$7,957.10	\$2,102,214.17(2)	\$1,316,583.28(3)

(1) Includes refunds of \$16.95.

(2) Includes refunds of \$10,571.43 but is exclusive of reversions to Treasury (Economy Legislation) of \$302.39.

(3) Includes refunds of \$20.94 but is exclusive of reversions to Treasury (Economy Legislation) of \$3,777.23.

Total Congressional appropriations .....			\$18,155,667.56
Less - Reversions to Treasury .....	\$4,226.39		
Reversions to Treasury (Economy Legislation) ..	47,094.50		
Transfer to U. S. Engineer Department (Lowell Creek flood control).....	417.21		
Balance unexpended .....	<u>425,221.83</u>		<u>476,959.93</u>
Amount expended .....			\$17,678,707.63
Add - Navy Department reimbursement .....	3,976.19		
Repayments and voucher corrections, 1920-1929 ..	<u>19,269.44</u>		<u>23,245.63</u>
Total expenditures .....			<u>\$17,701,953.26</u>
Total Alaska Fund to June 30, 1937 .....			\$4,602,643.88
Congressional authorization f. y. 1938 (1) ..	\$130,000.00		
Plus unexpended balance from previous f.y. ..	30,022.53		
Plus repayments .....	25,311.66	\$185,334.19	
Less - Balance unexpended June 30, 1938 ..	859.14		
Repayments .....	<u>25,311.66</u>	<u>26,170.80</u>	<u>159,163.39</u>
Total net expenditures .....			\$4,761,807.27

- (1) By provision of Act of Congress approved May 9, 1935 (Indefinite Appropriation Act) the Alaska Fund will henceforth be expended upon basis of Congressional authorization.

These expenditures are summarized as follows:

Federal Appropriations

Congressional appropriations .....	\$17,701,953.26
Alaska Fund 1905-1938 .....	4,744,755.04
U. S. Treasury adjustment, 1931 .....	17,052.23
Increase of compensation acts, 1918-1925 .....	95,076.45
Quartermaster General, 1925-1932 .....	7,957.10
National Park Service, 1925-1938 .....	<u>1,316,583.28</u>
Total .....	\$23,883,377.36

\* Includes adjusted balance from prior years.

Contributed Funds

Territory of Alaska, 1920-1938 .....	\$1,915,627.18
Miscellaneous .....	<u>186,586.99</u>
Total .....	<u>\$2,102,214.17</u>
Grand Total .....	<u>\$25,985,591.53</u>

In addition to the above funds, disbursed through the United States Treasury, the Commission has supervised the expenditure of the following funds, disbursed by other agencies, for road and trail development:

Territorial funds and forest revenues prior to 1921 .....	\$684,239.64
Territorial divisional commissioners, 1921-1929 .....	194,939.60
Seward Peninsula tramway, 1923 .....	24,014.00
Tolovana tramway, 1924 .....	6,425.00
Katag portage survey, 1925 .....	312.72
Miscellaneous, 1926-1930 .....	<u>22,349.50</u>
Total .....	\$932,280.46

Territorial Funds

The Territorial Legislature biennially appropriates funds for the construction and maintenance of roads and trails. A portion of these funds is allocated to projects by the Territorial Road Board and is expended under the direction of the Alaska Road Commission.

For the working season of 1938 (fiscal year 1939), the Territorial Board has allotted to the Alaska Road Commission the following amounts:

Co-operative road projects ...	\$63,500
Shelter cabins .....	<u>2,000</u>
Total .....	\$65,500

MATERIALS, SUPPLIES AND EQUIPMENT

Alaskan products are preferably used in the work when the price and quality compare favorably with the cost of the same items landed at warehouses in Alaska.

All supplies not procured in Alaska are purchased for the Commission by a governmental purchasing agency in Seattle, acting also for various other bureaus operating in the Territory. The cost of this service is shared by the individual bureaus on a pro rata basis. The share for the Alaska Road Commission is approximately 3 per cent of the invoice price of items thus purchased.

Work is performed by mechanical equipment to every extent deemed advantageous. Small jobs in remote sections are necessarily done by hand. The Commission is now fully equipped to handle construction and maintenance work within the present limits of appropriations except for replacement of unserviceable or obsolete equipment. During the fiscal year just closed the following pieces of mechanical equipment were purchased:

1 freight truck	4 motor graders
3 pickup trucks, $\frac{1}{2}$ -ton	1 trailbuilder for 75 h.p. tractor
9 dump trucks, $1\frac{1}{2}$ -yard	1 trailbuilder for 44 h.p. tractor
1 tractor, 30 h.p. with trailbuilder	1 small air compressor

#### ORGANIZATION

Labor, both common and skilled, is secured entirely from local residents. Labor has been plentiful the past year. It is encouraging to note the exceptional loyalty to the organization which is manifested generally even by the lowest paid laborers. This may be attributed in part to the fact that, though work is only seasonal, many of these men have worked for the Commission continuously for 5 to 10 seasons and in part to the fact that as a whole Alaska labor is probably superior to that found elsewhere.

At the Juneau headquarters, located in the Federal and Territorial Building, is the general office staff consisting of a chief engineer and an assistant chief engineer with necessary clerical assistants.

Five district offices and one district suboffice are located at strategic points in the field. The suboffice is closed during the winter months. The work near or adjacent to Juneau, and known as the "Southeastern District", is supervised from the headquarters office.

The organization, with its widespread activities throughout the Territory, is equipped to handle many phases of construction work, and in many instances, has lent itself to the supervision of construction work of various kinds for other branches of the Federal Government, and for the Territorial Government. This consolidation of work has doubtless saved considerable public expenditure, particularly on small projects in isolated sections. Especially is this true of small road projects undertaken by the Territorial Government and which were not included in the general road program of the Commission.

### CONSTRUCTION METHODS

Although standard construction and maintenance methods are employed in Alaska so far as practicable, it is necessary to vary therefrom in some instances because of special physical and climatic conditions.

The frozen condition of the subsoil and the constant thawing during summer require special precautions for drainage. Intercepting ditches on the up-hill side of the road are frequently necessary and after the vegetation has been stripped from the roadway the ground must be allowed to thaw, settle, and consolidate for several months before completing the grading and applying the surfacing. Frequently one or more seasons are required for such drainage and consolidation and in order to maintain traffic during this period corduroy must be used. Sloughing banks, due to thawing of the subsurface ice, frequently cause slides which cover and block the roads.

Special methods of revetment and stream control must be used to withstand the destructive effects of sudden and frequent freshets and washouts that result from heavy rains in the mountains or the release of impounded waters by breaks in glaciers. The most suitable type of revetment for this purpose is built of brush weighted down with stone in bundles wrapped in wire mesh to prevent its washing away.

Gravel for road surfacing is generally available within reasonable hauling distance. Surfacing is necessary for practically all roads which are used by automobiles. Concrete or other forms of hard-surfaced roads are nowhere warranted in the present stage of development of the Territory.

Bridges are built of native or imported timber or steel, depending on their importance. Fir has been found to be the most suitable material for timber bridges but local timber is used for part of these structures. Metal culverts are used to replace culverts of native timber ordinarily used on new construction.

### OPERATIONS DURING THE FISCAL YEAR

The work in the past fiscal year was somewhat larger than usual as a result of the balance of \$388,000 available from the allocation of emergency funds by the Works Progress Administration for the fiscal year 1937. This balance was expended in the completion of specific road and airfield projects. Ordinary funds were applied to maintenance of the existing system with some improvement in the way of widening and surfacing.

The Richardson Highway was open from Valdez to Fairbanks from June 13 to October 24.

The highway through Mt. McKinley National Park was opened to the north boundary an additional distance of 4 miles. In addition, the branch road 1.7 miles long from Mile 84.9 to the hotel site at Wonder Lake, was surfaced. The standardization of the east end of the road consisting of widening and placing crushed gravel surfacing was completed to Mile 32.4 and grading to Mile 35.2 was practically completed.

The gravel surfacing of the Elliott Highway from Fox to Livengood was completed to the extent that the road can now be used in any kind of weather.

The season's work also saw the completion of all graveling on the Anchorage-Palmer Highway, a total of 21 miles of surfacing being placed.

Gravel surfacing of the Lucky Shot-Willow Station road was completed.

Grading of the Peters Creek Road was completed and two miles through the canyon were widened.

An eleven mile branch to the Steese Highway was opened up to Porcupine Creek and a three mile branch from the same highway was graded up Mastadon Creek.

Four miles were graded from the end of the McKinley Park Highway to the Kantishna mining district.

A nine mile road from Mile 292 on the Alaska Railroad was built up the West Fork of the Chulitna River to lode properties.

The Bunker Hill-Kougarok Road was extended  $5\frac{1}{4}$  miles.

The Takotna-Nixon Fork Route,  $16\frac{1}{2}$  miles, was opened as a winter tractor road; all clearing and bridges being completed. One mile over corduroy was surfaced.

Seventeen and one fourth miles of new short roads and extensions not mentioned above were built in farming and mining areas.

The work accomplished during the fiscal year is summarized as follows:

New Construction:  $56\frac{3}{4}$  miles of road of which  $16\frac{1}{2}$  were surfaced, 54 miles of sled road, 90 linear feet of timber bridges over 30-foot span, 740 linear feet of steel bridges of 80-foot span or over, 180 linear feet of steel trestle span bridges and 3,205 linear feet of timber trestle span bridges.

Improvement:  $74\frac{1}{4}$  miles of road regraded and widened,  $127\frac{1}{2}$  miles of road surfaced, 871 metal culverts, averaging 20 feet in length, installed principally as replacements for wooden culverts.

Maintenance: 1,915 miles of road,  $80\frac{1}{4}$  miles of tramway, 557 miles of sled road,  $2,061\frac{1}{2}$  miles of permanent trail and 304 miles of temporary flagged trail.

The Total mileage of all routes as of June 30, 1938, is as follows:

	* Road	Sled Road	Trail	Flagged Trail	Grand Total
June 30, 1937. . . . .	2,058- $\frac{3}{4}$	1,612	6,940 $\frac{1}{2}$	304	10,915 $\frac{1}{4}$
Fiscal Year 1938:					
New Mileage . . . . .	33- $\frac{3}{4}$	14- $\frac{3}{4}$	8	---	56 $\frac{1}{2}$
Reclassified, abandoned and transferred . . . . .	-4 $\frac{1}{2}$	-36	-25 $\frac{1}{2}$	---	-65- $\frac{3}{4}$
Total . . . . .	(a) 2,088 $\frac{1}{4}$	1,590- $\frac{3}{4}$	6,923	304	10,906

No work of either maintenance or improvement during fiscal year 1938 . . . . . 93 $\frac{1}{2}$  1,033- $\frac{3}{4}$  4,861 $\frac{1}{2}$  --- 5,988- $\frac{3}{4}$

(a) Includes  $80\frac{1}{4}$  miles tram road.

#### PROPOSED OPERATIONS

In addition to \$535,000 from appropriated funds, it is estimated there will be available from the "Alaska Fund" and Territorial appropriation \$250,000 for the fiscal year ending June 30, 1939.

These funds will be required for normal maintenance of the existing system and for a very limited improvement of certain sections. Surfacing will be provided where possible with available funds.

#### RECOMMENDATIONS

For the fiscal year ending June 30, 1940 an appropriation of \$1,180,000 is recommended in addition to funds available from other sources. This will provide for necessary maintenance to the existing system and for the continuance of a reasonable program of construction on projects now under way and on needed new projects.

The principal projects on which new work would be performed are as follows:

Bunker Hill-Kougarok. Extension of road to serve mining area.

Kantishna-Park Boundary. Surfacing of extension of Park road beyond boundary to serve mining area.

Takotna-Nixon Fork. Improvement of this winter tractor to dry weather truck road standard.

Hot Springs-Tofty. Improvement of this tractor road to dry weather truck road standard.

Chistochina-Slate Creek. Construction of a summer tractor road.

Takleetna-Peters Creek-Cache Creek. Extension of road from head of Peters Creek Canyon into Cache Creek, a distance of 8 miles.

Ruby-Poorman. Continued major improvements.

Cantwell-Valdez Creek. Improvement of trail to summer tractor road.

Eagle-Liberty. Major improvements.

Homer-Kachemak Bay. Improvement and extension of roads to serve farming area.

Colorado Station-Wells Mine. Surfacing.

Lake Iliamna-Lake Clark. Construction eight miles road.

In addition to the above listed projects work will be required on a number of small projects to serve developments as they occur.

A well planned program required definite assurance that funds will be provided at a uniform rate. This allows for a definite plan for procurement and economical use of equipment as well as the building up of a well balanced and competent supervisory force. Such a plan is impossible under wide fluctuation of available funds from year to year.

#### THIRTY-FOUR YEARS' SERVICE

With the period covered by this report the Alaska Road Commission concludes its thirty-fourth year of service. The work accomplished consists of the construction and maintenance of 2,088 $\frac{1}{4}$  miles of road and tram road, 78% of which is suitable for automobiles in all summer weather, 1,590- $\frac{3}{4}$  miles of winter sled road, 6,923 miles of trail and 304 miles of flagged trail. The total costs to the end of the fiscal year are \$25,250,920.44, of which \$13,086,040.46 was for new work and \$12,164,879.98 was for maintenance and improvement. The total expenditures to date are

\$25,985,591.53 of which \$19,121,570.09 was derived from Federal appropriation acts. The Balance, \$6,864,021.44, or 27 per cent of the total expenditures, was obtained from Alaskan sources.

All existing mileage has been maintained and improved, so far as funds have permitted. The present system of roads serves as the basis for future development of overland routes throughout the Territory. This development calls only for additional funds for construction.

A standard cost system is maintained in all districts, from which over a period of years, valuable information can be secured in the preparation of estimates. In the use of such data, however, consideration must be given to the large differences in freight rates, labor costs and climatic conditions in the various sections.

In the interior of Alaska the average cost for construction of a mile of gravel-surfaced road capable of continuous traffic in any kind of summer weather, and of such width as to enable cars to pass at any point is \$8,000.

Annual maintenance costs, including improvements, are estimated as \$350 per mile for roads, \$25 for sled roads, \$10 for trail and \$5 for flagged trails. For the working season of 1937 the cost of maintenance, per mile, including minor improvements, was \$307 for roads, \$27 for sled roads, \$7 for trails and \$5 for flagged trails. Roads were kept open for traffic, except in unusual circumstances but maintenance was insufficient due to lack of funds.

Very little engineering is done on roads after the final survey is made. A resident engineering force is never maintained. To take the place of a permanent engineering force on a new job, foremen of long experience are employed and advised frequently by superintendents who are either engineers or men of wide experience on engineering work of this nature in Alaska.

Dispensing with relatively large engineering forces has reduced costs materially and, due to the low type of construction undertaken, has not adversely affected the work to any extent.

The Richardson Highway, which with the Edgerton Cutoff from Chitina totals 410 miles, is now in such condition that a 2-ton truck can ordinarily travel from Valdez to Fairbanks, 370 miles, in 18 hours. Actually the first automobile went over this route in 1913, after the route had been used as a packtrail and wagon road for 8 years, but due to lack of funds improvement to a fair standard proceeded slowly. The average cost per mile to June 30, 1938 including all costs for construction and maintenance over the 33 year period of use for the 410 miles, is \$19,191.

$$\begin{array}{r} 370 \\ 370 \\ \hline 1450 \\ \hline 2950 \end{array}$$

$$\begin{array}{r} 19191 \\ 410 \\ \hline 191910 \\ 767640 \\ \hline 1868310 \end{array}$$

The Steese Highway extending from Fairbanks to Circle, a distance of 162 miles, is suitable for traffic not exceeding 2-ton trucks. Including maintenance, the total cost per mile of this road to June 30, 1938, is \$12,261. This includes its life as a sled road from 1906 and partly constructed wagon road beginning in 1908.

The Elliott Highway branches from the Steese Highway at Mile 11 near Fox and extends to Livengood; a total length of 71 miles. At the end of the fiscal year sufficient surfacing had been provided to class it as an all-weather road. It was started as a summer wagon road from Fox to Olnes in 1906 and this section has been used as such since 1907. In 1915 the section from Olnes to Livengood was completed as a sled road, used as such for several years and then abandoned except as a summer foot trail, in favor of the less hilly route from Dunbar; in 1931 operations were begun toward completion of this section as an automobile road. The total cost per mile over the above period, to June 30, 1938, is \$8,921.

The Mt. McKinley National Park road was started in 1922. Progress has been slow due to limited funds but the route is now open to the North Boundary as planned. The total cost per mile to date of 88 miles including maintenance of completed sections since construction is \$15,208.

The total cost per mile of the Gulkana-Nabesna road including maintenance is \$7,908.

A consolidated cost statement of all projects follows:
