From this line I turn 10° 12' right to Cer. 1, making true bearing of line 6-1, S. 38° 47' E. from which all courses of this survey are deflected.

Distances were all measured with a 200ft. steel tape of standard make, and plummet used on sloping or brushy ground.

## ESTABLISHMENT OF U.S. LOCATION MONUMENT

The U.S.L.M. Sur. 1162 is a lime stone block about 8ft. sq. and 4ft. above ground, chiseled U.S.L.M. S. 1162, with cross (x) cut on top surface for true point and stone mound erected on said block.

This monument is situate on left bank of Cripple River, about 200ft. from channel of same, in Lat. 64° 37' 1/2 N. Long. 165° 51' 1/2 W.

Cer. 1 Sur. 1162, bears N. 34° 11' W. 1868.2ft.

Mouth of Melbourne Creek bears N. 39° 40' W. 1070ft.

Mouth of Sidney Creek bears N. 59° W. 1570ft.

A cross (x) cut on limestone boulder, 18ins. x 30ins. 1ft. above ground and marked B.R. Sur. 1162, bears N. 60° 59' E. 33.3ft.

A mountain top bears S. 63° 32' E. about 3 miles,

No other bearings available.

-----

The survey of this claim is identical with its location, on the ground and the disagreement between these field notes and the certificate of location with regard to the courses and lengths of the boundary lines, is due to errors in the latter.

The adjoining claims are, on the north the A.H. Jose Association placer Sur. No. 1134, on the east and west claims unsurveyed and names and owners unknown on the south the Croesus Association placer unsurveyed, owners unknown.

DIRECTIONS.—1. Carry out the area in acres to three decimals, and all other calculations to two decimals only.

2. In balancing Lat. and Dep. do not obliterate or change the original figures:

Put the corrected figure or figures above in red ink. Do not change the footing of the original figures, but put below them the corrected footing in red ink.

The corrections for balancing fallings should be proportional to the lengths of the lines.

3. In calculations of fallings take result to nearest hundredth. In calculations of N. and S. areas drop all after second decimal. Surveyors are advised to use the Standard Field Tables issued by G. L. O.

Corroborative Affidavit under Circular No.398

of April-9-1915.

Territory of Alaska )  
( ss.  
Cape Nome Precinct. )

A. F. McIntosh, being first duly sworn, deposes and says, that he is well acquainted with the SEA HORSE ASSOCIATION Placer on Cripple River, in Cape Nome Mining District, Alaska, and has known said claim ever since the location thereof in 1909, and is familiar with the work done and improvements made on said claim. (Survey No.1162)

That during the year 1912, one Webb, with a crew of men was testing said ground by sinking shafts, running cuts and with a Keystone drill, and said Webb and crew of men run cut No. 1, 2, and sunk shafts No. 3,4,5,6,7,8,9,11,12, as shown on Plat Survey No.1162; also did a large amount of drilling on said claim in 1912, that does not show on plat, and that said drilling was of at least the value of \$1500.00.

That Cut No. 10, was made during the summer of 1910 or 1911 by David Geve, and others, and shaft No. 14, was sunk during the summer of 1911 by David Geve, and others.

That cuts No. 15,16,17,18, and 19, was done by John Harmuth and others during the summer of 1914.

That during the summer of 1913 affiant drilled six holes across the claim situate about one hundred feet from the lower or southerly line thereof, averaging 18 feet deep, at a cost of more than one hundred dollars, which does not show on said Survey No 1162. That affiant also during the summer of 1913 drilled three holes on said claim across the river opposite the lower end of the bluff on right limit and about 1800 feet from the lower line of said claim, at a cost of more than one hundred dollars, said holes averaging 18 feet deep, which do not show on said survey.

That during the summer of 1914 affiant drilled eighteen drill holes on said claim averaging from four to fifteen feet deep, at a cost of two hundred dollars, with a hand drill, which do not show on said plat. That said holes were drilled as follows: Three holes on the lower end of said claim on the right limit, and one hole about one hundred feet above said three holes; eight holes were drilled opposite said bluff in the river, and about four hundred feet farther up stream, four holes were drilled and a further distance of two hundred feet upstream three holes were drilled.

That affiant has no interest in said claim, and further saith not.

- 20- Other small, scattering pits and prospect holes.

Drill holes 3 to 6 in. dia. 8 to 18 ft. deep, and 28 and more in number, have been sunk in the channel of Cripple River, but all traces of same have been obliterated by ice and freshets.

D The nearest post office to the claim is Nome on the shore of Bering Sea at the mouth of Snake River and distant about 16 miles southeasterly from the claim. The nearest railroad station is also at Nome, being the terminus of the Nome-Arctic railroad. (This road is not in operation at present)

E. There are <sup>no</sup> individual lodes or systems of lode deposits in the vicinity or on the claim.

F This claim is well suited and adapted for placer mining by dredge or steam shovel, the depth and character of gravel being such as will make for economical mining. The higher parts of the claim can be ~~be~~ mined by hydraulic methods, the river affording ample room for disposal of tailing, and abundance of water can be procured from Cripple River by ditch, to cover all parts of the claim.

G The works and expenditures done and made by the claimant or its granters, consist of the items mentioned under paragraph C of this report.

H There are no mines, salt licks, salt springs or mill seats on this claim and there are no known hot springs or medicinal springs on the claim or within one half mile of same.
