HARRIS' PUBLIC LAND GUIDE

A COMPILATION OF PUBLIC LAND LAWS AND DEPARTMENTAL REGULATIONS THEREUNDER

REVISED STATUTES AND ACTS OF CONGRESS ANNOTATED
WITH DECISIONS OF THE DEPARTMENT OF THE
INTERIOR RELATING TO PUBLIC LAND

A GUIDE SHOWING THE LOCATION OF VACANT LANDS BY COUNTIES AND STATES ON JULY 1st, 1911

The homestead, desert, timber and stone, isolated tracts, mineral, oil, gas, petroleum, reclamation, scrip, townsites and parks, and other important laws relating to public land, with Departmental Regulations thereunder, compiled together with RULES OF PRACTICE annotated.

The work treats many subjects from abandonment to words and phrases, among which are applications, absences, accretions, alienation, administrator, approximation, assignments, amendments, contests, cancellations, canals and ditches, citizenship, Carey Act, claims (private), coal lands, commutation, cultivation, death of entrymen, decisions, depositions, desert land, deserted wife, equitable homesteads, fees, fencing, forest lands, guardian, gas lands, homesteads, improvements, insanity, isolated tracts, judgment, jurisdiction, Kinkaid law, lieu selection, lost and obliterated corners, married women, mill sites, mineral claims, mining, mortgages, newspapers, occupancy, oil lands, parks and cemeteries, petroleum, practice, railroad grants, repayment, relinquishments, reclamation lands, residence, supervisory control, settlements, second entries, soldiers' homesteads, soldiers' additional rights, scrip regulations, States and Territories, town lots, United States Commissioners, vacant lands, widows and heirs, wagon roads, witnesses, withdrawals, words and phrases, and other important matter relating to public lands.

The work contains important approved forms in use by the Department of the Interior, also a number of unapproved forms.

It contains a table of circulars, instructions and regulations; a table of overruled and modified cases, and a table of revised statutes and laws with annotations dating from Volume 1 of decisions of the Department of the Interior relating to public lands.

The digest and other features of the work will be found useful in the investigation of the subjects treated.

PREFACE.

There is need for a work of this nature. That will explain the reason for the publication.

We have not attempted to compile all of the public land laws, nor all of the rules and regulations of the Department of the Interior thereunder. We have addressed our efforts to the more important of the public land laws, and official regulations thereunder. The work covers a wide range of subjects. We have attempted to present the law, the official regulation thereunder, and the decisions of the Department of the Interior, so the reader may draw his own conclusion as to what doctrine to follow.

The index method should be understood in order that the best results may be obtained. Read instructions HOW TO USE INDEX.

That mistakes have been made is as sure as human accuracy is given to err in such matters. We have exercised such care as would justify the belief that the work will be found uniformly trustworthy.

It is not a digest, analysis, or an annotated work, although it contains some of each of such features. It is intended to meet the wants of the lawyer, the entryman, and those having to do with public lands, to the end that their labors may be lessened in investigating the subjects treated herein.

HOW TO USE INDEX.

First. This work is indexed by subjects. The subjects contain a separate index, either at the commencement or at the end of the subject. By referring to such subject indexes you will readily find the matter under investigation. For example, suppose you are looking up the matter of leave of absence under the three year homestead law. You will first turn to the subject index, which will give you the page number of the subject of leave of absence. When this subject is located you will find a short contents index, and under title 5 you will find the matter we are investigating. Turn to the corresponding number and this will give you the law and regulations of leave of absence as applied to the three year homestead law.

Second. In cases where the subjects are short, contents indexes are not given. The subject index in such cases will be found sufficient.

Third. How to find a section of the Revised Statutes. Supposing you are looking up Sec. 2289 of the Revised Statutes, and first you wish to know whether or not this section is contained in this book. Turn to the table of Revised Statutes cited and construed, page 342, and if the section appears in the work the fact will be noted in boldface type, giving the page number. In the table mentioned you will find the decisions of the Department of the Interior construing or citing this section. The same rule should be followed in locating an act of Congress. For example, if we are looking for the Act of June 22, 1910 (36 Stat., 583), we will consult the table of acts of Congress cited and construed; turning to statute No. 36-583, under date given, we will find the act, and if the same appears in the work the fact will be indicated by **boldface type**, giving page number. Here, too, you will find all the decisions of the Department of the Interior construing this statute.

Fourth. Overruled and modified cases. When you find a citation or decision and you wish to know whether or not the same has been overruled or modified, consult table of Overruled and Modified Cases, and this will give you the information. This work covers all of volumes 1 to 39, inclusive, and 608 pages of volume 40 of the decisions of the Department of the Interior relating to public lands.

Fifth. How to find circulars. If you know the number of the circular consult the subject index. If the circular was issued without number consult Table of Circulars, Regulations and Instructions, under the subject in which you are interested. If you do not find what you are looking for under one head try another, continuing this practice till you locate the circular. When found you will find notation of all circulars issued on that subject, and if the same appears in the work the page number will be indicated in boldface type. The circular will be found by referring to the volume and page of the land decisions as given in the table,

It may be said without exception that all circulars, regulations and instructions are based upon either a Revised Statute or an act of Congress. When these laws are found, all the decisions thereunder will be found by consulting the Table of Revised Statutes and acts of Congress cited and construed.

The following circular showing vacant lands is a reproduction of the one issued by the General Land Office at Washington, D. C.

Department of the Interior,
General Land Office,
July 1, 1911.

[Circular No. 42.]

VACANT PUBLIC LANDS IN THE UNITED STATES.

The following tables, based on reports furnished by the district land offices, show, by States, Territories, land districts, and counties, the area of unappropriated and unreserved public lands, surveyed and unsurveyed, and a brief description of the character of the vacant lands. No more specific description of the character of the land, climate, water, or timber can be given by the General Land Office. Counties and States in which there are no unappropriated lands are omitted.

A township diagram, showing only entered lands in any township, can be procured by sending \$1 to the register and receiver of the land office for that district. The diagram required should be specified by township and range number.

While the figures in the tables may not be absolutely correct, owing to liability of error in a work of such magnitude and to the necessity of making estimates of unsurveyed lands, it is believed that they afford a close approximation to the actual areas. The statement is intended to inform correspondents and the general public as to whether there is much or little public land in the several land States and Territories and the land districts therein and in particular counties or localities.

In many counties only a few acres are reported as vacant. Neither the General Land Office nor the local land officers can furnish information as to the location of such tracts, but such information may be obtained from the records of the local land offices, which, when not in official use, are open to inspection by prospective home seekers or their agents.

Before entry personal inspection of the lands should be made to ascertain if they are suitable, and when the applicant is satisfied on this point entry can be made at the local land office in the manner prescribed by law, under the direction of the local land officers, who will give full information. Should anyone desire information in regard to vacant lands in any district before going there for a personal inspection, he should address the register and receiver of the proper local land office, who will give full information regarding vacant lands and the steps necessary to be taken in making entry.

All vacant unappropriated public lands, nonmineral and non-saline in character, are subject to entry under the homestead laws.

VACANT PUBLIC LANDS IN THE UNITED STATES.

Statement, by States, Territories, Land Districts, and Counties, Showing the Area of Land Unappropriated and Unreserved on July 1, 1911.

[Counties containing no unappropriated lands are omitted.]

¹The unreserved lands in Alaska are mostly unsurveyed and unappropriated.

LEAVE OF ABSENCE.

1. Grounds for.
2. Generally.
3. Law.
4. Application form.
5. Three-year law absence.
6. Special cases; see also Reclamation Lands.
7. Official Employment.

1. Grounds for leave of absence from a homestead are as follows: Sickness, total or partial failure of crops, or unavoidable casualty.

(a) Applications for leaves of absence should be addressed to the register and receiver of the land office where the entry was made and should be sworn to by the applicant and some other disinterested person before such register or receiver or before some officer in the land district using a seal and authorized to administer oaths, except in cases where, through age, sickness, or extreme poverty, the entryman is unable to visit the district for that purpose, when the oath may be made outside of the land district.

(b) The law authorizes registers and receivers to grant leaves of absence for a period not exceeding one year at any one time, subject to the approval of the Commissioner of the General Land Office, whenever it shall be made to appear that the settler is "unable, by reason of a total or partial destruction or failure of crops, sickness, or other unavoidable casualty, to secure a support for himself, herself, or those dependent upon him or her, upon the lands settled upon * * *."

(c) In each case full particulars should be given in the application, which should state the failure or destruction of crops, if the crops have failed or been destroyed, to what extent, and the cause thereof. In case of sickness, what disease or injury and to what extent claimant is prevented thereby from continuing on the land, and certificate from the physician in attendance, setting forth the facts, should be furnished when practicable. In the case of "other unavoidable casualty," the character, cause, and extent thereof and its effect upon the land or the claimant should be stated.

(d) Residence must be established upon the land within six months after date of entry, and additional time can not be granted within which to establish such residence, nor will the leave of absence be granted unless bona fide residence shall have been first established upon the land.

(e) The time of actual absence under such leave can not be considered as constructive residence or be deducted from the period of actual residence required by law.

2. The place of one's domicile determines the place of his residence.

Absence immediately following final proof is indicative of bad faith.

Leave of absence is no protection against a contest for abandonment where the entryman prior to such leave has failed to comply with the law.

Contest on the ground of abandonment will not lie until after the expiration of six months following the expiration of the leave of absence.

A second and third year's leave of absence may be granted a homestead entryman upon proper showing therefor, without requiring an intervening period of residence on the land, provided sufficient time remains within which to comply with the law.

See case of James McCourt (33 L. D., 386).

Action of Register and Receiver granting leave of absence under Sec. 3 of the act of March 2, 1889, is in all cases subject to review by the Commissioner of the General Land Office.

See case of Leola Farlow (35 L. D., 269).

3. The law applicable generally may be found in Sec. 3, of an act entitled, "An Act to Withdraw Certain Public Lands from Private Entry, and for Other Purposes"; approved March 2, 1889 (25 Stat., 854). This section was amended by an act of December 29, 1894, 28 Stat., 599, so as to reconfer a second right on those who forfeited their entry on account of any of the reasons mentioned. There are two other acts of congress with reference to leave of absence from homesteads, besides resolutions of Congress granting temporary absences from homesteads, but they are not considered of value to the present day entryman, and therefore such laws are not embodied in this work. The act of Congress upon which the present day homestead entrymen are granted leave of absence, as far as may be applicable to the subject, is as follows:

Public Lands Withdrawn from Private Entry, Except in Missouri—Homestead Laws Modified. (28 Stat., 599.)

An Act to withdraw certain public lands from private entry, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That from and after the passage of this act no public lands of the United States, except those in the State of Missouri, shall be subject to private entry.

* * * * *

Sec. 3. That whenever it shall be made to appear to the register and receiver of any public-land office, under such regulations as the Secretary of the Interior may prescribe, that any settler upon the public domain under existing law is unable, by reason of a total or partial destruction or failure of crops, sickness, or other unavoidable casualty, to secure a support for himself, herself, or those dependent upon him or her upon the lands settled upon, then such register and receiver may grant to such a settler a leave of absence from the claim upon which he or she has filed for a period not exceeding one year at any one time, and such settler so granted leave of absence shall forfeit no rights by reason of such absence: Provided, That the time of such actual absence shall not be deducted from the actual residence required by law.

Sec. 4. That the price of all sections and parts of sections of the public lands within the limits of the portions of the several grants of lands to aid in the construction of railroads which have been heretofore and which may hereafter be forfeited, which were by the act making such grants or have since been increased to the double minimum price, and also of all lands within the limits of any such railroad grant, but not embraced in such grant, lying adjacent to and coterminous with the portions of the line of any such railroad which shall not be completed at the date of this act, is hereby fixed at one dollar and twenty-five cents per acre.

4. Applications for leave of absence should conform to the form herewith, which has been approved by the Department, and should be properly verified and corroborated. The application may be acknowledged before a Notary Public, U. S. Commissioner, Judge or Clerk of Court of Record or any other officers using a seal and authorized to administer an oath, or before the Register and Receiver of the land office in which the application is filed.

For further information on the subject consult title "Residence."

THREE YEAR LAW ABSENCE.

5. The act of Congress approved June 6, 1912, known as the Three Year Homestead Law, makes provision for leave of absence from the homestead as follows: * * * "Provided, That upon filing in the local land office notice of the beginning of such absence, the entryman shall be entitled to a continuous leave of absence from the land for a period of not exceeding five months in each year after establishing residence, and upon the termination of such absence the entryman shall file a notice of such termination in the local land office, but in case of commutation the fourteen months' actual residence as now required by law must be shown, and the person commuting must be at the time a citizen of the United States." * * *

Forms of Notice.

At this time no prescribed form for use in cases of absences under the above law have been provided. It is presumed that any form of notice which will serve to fully notify the local office of the time of commencement and termination of leave of absence under this law will be sufficient. We submit such forms as may be used or modified:

Notice of Beginning of Leave of Absence.

.....
(Date)
To the Register and Receiver, United States Land Office,
.....

Gentlemen: You will please take notice that, having made homestead entry, serial No., dated the day of, for (described land), Sec., Tp., R., and wishing to avail myself of the provisions and benefits of the Act of Congress approved June 6, 1912, known as "The Three Year Homestead Law," I did, on the day of, begin a leave of absence therefrom not to exceed five months. I established residence on my said homestead on the day of,

(Name)
(P. O. Address)

Notice of Termination of Leave of Absence.

.....
(Date)
To the Register and Receiver, United States Land Office,
.....

Gentlemen: You are hereby notified that leave of absence from my homestead entry, serial No. for (described land), Sec., Tp., R., granted by the provisions of the Act of Congress approved June 6, 1912, known as "The Three Year Homestead Law," beginning on the

..... day of,, was by me terminated on the day of,, and that I have re-established residence on said land.

(P. O.)

6. For leave of absence to certain homesteader in special localities, see the act of Congress approved August 19, 1911, 40 L. D., pages 263 and 264. See also Reclamation Lands.

[Circular No. 54.]

LEAVES OF ABSENCE FROM HOMESTEADS.

Department of the Interior,
General Land Office,
Washington, September 8, 1911.

Registers and Receivers,

United States Land Offices (named below).

Gentlemen: Your attention is directed to the provisions of the act of Congress approved August 19, 1911 (Public, No. 27), entitled "An act granting leaves of absence to certain homesteaders," which reads as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That all persons who have heretofore made homestead entries in the Lemmon, Timber Lake, Rapid City, Chamberlain, Belle Fourche, Gregory, and Pierre land districts in the State of South Dakota; in the Denver, Pueblo, Sterling, Hugo, Lamar, and Glenwood Springs land districts, in the State of Colorado; in the Valentine, O'Neill, North Platte, Broken Bow, and Alliance land districts, in the State of Nebraska; in the Lawton, Woodward, and Guthrie land districts, in the State of Oklahoma; in the Dickinson, Minot, Williston, Devils Lake, and Bismarck land districts, in the State of North Dakota; in the Cheyenne, Evanston, Sundance, Buffalo, Lander, and Douglas land districts, in the State of Wyoming; in the Clayton, Fort Sumner, Las Cruces, Tucumcari, Roswell, and Santa Fe land districts, in the Territory of New Mexico; in the Phoenix land district, in the Territory of Arizona; in the former Spokane Indian Reservation, in the State of Washington; and in the Burns, Vale, La Grand, and The Dalles land districts, in the State of Oregon, are hereby relieved from the necessity of residence and cultivation upon their lands from the date of approval of this act to April fifteenth, nineteen hundred and twelve; Provided, That the time of actual absence during the period named shall not be deducted from the full time of residence required by law.

Homestead entrymen coming under the above act who are absent from their claims for any period between the dates of August 19, 1911, and April 15, 1912, are not required to file application for such leave.

In the examination of final proofs, and in cases of contest alleging abandonment during the above period, you will give due consideration to the foregoing provisions.

Very respectfully,

John McPhaul,
Acting Assistant Commissioner.

Approved September 8, 1911.

Samuel Adams,
Acting Secretary.

7. CONSTRUCTIVE RESIDENCE—OFFICIAL EMPLOYMENT.

Instructions.

Department of the Interior,
General Land Office,
Washington, D. C., February 16, 1909.

Registers and Receivers,

United States Land Offices.

Gentlemen: For many years it has been the practice of the Department to permit a homestead entryman who had established

residence upon his claim and afterwards had been elected or appointed to a federal, state, or county office, to be absent from his entry if required by his official duty, and to consider such absence constructive residence upon his claim. This ruling includes deputies and assistants in such offices. See 2 L. D., 147; 6 L. D., 668; 7 L. D., 88; 9 L. D., 523, 525; 17 L. D., 195; 21 L. D., 155.

This privilege, which is not a statutory right but rests solely upon departmental rulings, has led to such grave abuse that the objects of the homestead laws have been to a great extent defeated. Therefore, the Department has decided to discontinue the said practice in so far as it has been applied to persons appointed to office, and limit it to persons elected to office. All decisions and instructions heretofore given, not in harmony with this view, are hereby overruled or modified in so far as they accredit such absence as residence, to persons not elected to office.

It is not intended, however, to disturb the status of persons who have acted under the rule heretofore prevailing, nor to deny the benefit of the rule to persons who, prior to March 1, 1909, shall have been appointed to such office. Persons having homestead entries, who enter upon public service in non-elective positions to which they were not appointed prior to above date, will be required to comply fully with all of the provisions of the homestead law just as other settlers.

Very respectfully,

Fred Dennett,
Commissioner.

Approved:

Frank Pierce,
Acting Secretary.

ACCRETIONS.

See Public Lands, Riparian Rights and Survey.

See Table of Circulars and Instructions, pages 117 to 137.

The disposal of land that is bounded by a water line that is shown by the official survey, conveys to the patentee a patent right, including subsequent accretions.

Gleason vs. Pent, 14 L. D. 375.

Accretions of an island reservation for military purposes becomes in fact and in law a part of such reservation, subject to the Act of July 5, 1884, on the abandonment of such reservation.

R. M. Snyder, 27 L. D. 82.

Where a sudden change occurs in the course of a navigable river that forms the boundary between a State and Territory, the reliction lying within the State is not the property of the United States or subject to survey as such; but that portion of the patented bed of the stream lying within the territory is the property of the United States and therefore subject to survey.

John P. Serry et al., 27 L. D. 330.

The interests of the Government as riparian proprietor ceases on the sale of the meandered tract; and all accretions of said tract, after survey and prior to sale, passes to the purchaser, and accretions thereof become the property of the riparian owner.

John J. Serry et al., 27 L. D. 330.

A tract belongs either to the owner of the adjacent land or passes to the State under the Swamp Grant and the Department will take no action in determining the ownership thereof, as the question involved lies properly within the jurisdiction of the Court.

Middleground, 7 L. D. 255.

Land formed by accretion belongs to the owner of the adjacent land.

W. G. Holland, 6 L. D. 20.

Middleground, 7 L. D. 255.

An application for the survey of land covered by a non-navigable lake must be denied where it appears that said lake has been meandered to the

adjacent land, disposed of by the Government, as the land covered by such lake belongs to the adjacent proprietors and not to the United States.

James Popple et al., 12 L. D. 433. Overruled.

John P. Hoel, 13 L. D. 588.

The application for the survey of an island in a non-navigable stream will not be allowed.

J. J. Lessard, 13 L. D. 724.

Land lying within the banks of a meandered stream and forming a part of the bed thereof as surveyed and subsequently left dry by a change in the channel thereof, cannot be entered under the homestead law, where patents have issued for the adjacent lands.

Max Loibl, 21 L. D. 429.

Land formed between the meander and shore line of Lake Michigan, through the acts of persons or corporations, is not the property of the Government, or subject to the jurisdiction thereof under the public land laws.

George W. Streeter et al., 21 L. D. 131.

The riparian ownership of the allottee, whose lands are adjacent to a meandered, non-navigable lake extends to the middle of said lake.

Amanda Hines, 14 L. D. 156.

The control and right to dispose of public lands lying under a navigable stream, that forms the boundary of a State and within the limits thereof, passes to the government of the State on its admission to the Union. But if a sudden change occurs thereafter of the course of said stream the reliction lying within such State is not the property of said State.

Gillespie vs. State of Nebraska, 28 L. D. 124.

Purchasers and grantees of meandered subdivisions bordering upon a body of water take title thereto for all the intents of ownership in which is that of the right of relictions. This right pertains to the ownership of lands bounded by a water line without reference to the accretion land, and hence passes to the United States in the case of a title acquired under the Swamp Grant.

French-Glenn Live Stock Co. vs. Marshall, 28 L. D. 444.

Accretions to an island formed by washing or recession become part of the lands they adjoin.

1 L. D. 596.

An island formed in a river, after the survey or disposition of the adjoining shore lands, does not belong to the United States, and the Department therefore has no jurisdiction to direct its survey.

L. F. Scott, 14 L. D. 433.

Where an island has been surveyed, sold and patented by the Government, and subsequently creates erosion, all the soil resulting in the formation of the island in a navigable stream occupying the area of the formerly surveyed and sold land does not operate to vest the title in the Government of such formation, and authorize the public survey of the same.

James C. McLaughlin, 12 L. D. 281.
