

## EXHIBIT E

Exhibit E is still under development. When completed, it will identify portions of the right-of-way where Klutina Lake Road has or is likely to become impassable in the near future. The exhibit will be finalized prior to execution of the Agreement. A joint field trip will take place this summer so that the Parties can work cooperatively to identify relocations consistent with Paragraph 4.1 of the Proposed Agreement. Exhibit E will have both a map and approximate latitude-longitude coordinates of the relocation sections.
