

Office Memorandum • UNITED STATES GOVERNMENT

TO : Headquarters, Alaska Road Commission, Juneau DATE: October 11, 1950

FROM : B. D. Stewart, Jr., District Engineer, Valdez *BDS*

SUBJECT: A. R. C. Order No. 34

THROUGH ROADS

It is suggested that the Richardson Highway in the Valdez District be carried under one Route Number, as is done in the Fairbanks District. At present only the lower 130 miles is maintained the year round, but it is believed that within the next two years, or whenever reconstruction and paving are completed, the entire section will be kept open the year round.

It is believed misleading to call the present three sections of the Richardson Highway "Roads", as they are not separate entities, merely arbitrary sections picked for accounting purposes. The distance shown for Route 4BA is incorrect; it should be 63.0 miles.

Route 4DB is incorrectly named as the Leila Lake-Tazlina Road. This section extends from Leila Lake to the Richardson Highway at Mile 116. Tazlina Lodge is 30 miles from the Richardson Highway and the Tazlina River bridge crossing is 3 miles south of the junction of the Glenn and Richardson Highways. It is recommended that Route 4DB continue to be designated as Leila Lake-Richardson Highway.

Route 65A is maintained both summer and winter, and extends from Tok Junction to Big Timber Junction. The term Gulkana is misleading as there is no such definite place. The Gulkana Field is 10 miles south of the Tok Cutoff junction, and the Gulkana River crossing is 2 miles south of the junction. It is recommended that the designation be Tok Junction-Big Timber Junction.

FEEDER ROADS

Route 76C - Paxson-Cantwell Road was omitted from your list. It is suggested that this be given one Route Number, 76, and designated Paxson-Cantwell Road.

LOCAL ROADS

It is suggested that only two Routes in the McCarthy district be carried, the others being inactive. The two active roads are Route 57 - McCarthy-Dan Creek and 57D - Chititu Branch.

Office Memorandum • UNITED STATES GOVERNMENT

TO : A. F. Ghiglione, Chief Engineer

FROM : D. H. Miller, Chief, Administrative Division 

SUBJECT: Numerical system for identifying routes

DATE: August 8, 1950

In connection with the establishment of account numbers for use in establishing budgetary controls over our 1951 appropriations, we plan to adopt a numerical system identifying each of our routes. Such a numerical system will not permit us to use the existing route identification numbers as contained on the attached list.

It would seem that a comprehensive numbering system should be applied to our accounts to identify

1. the type of road according to the categories used in our estimates,
2. the District to which responsibility for the road has been assigned, and
3. an identifying number.

I recommend that someone in the Engineering Division review the attached list for completeness and for accuracy of road description, and also would appreciate your recommendations as to the type of numerical designation best suited to this purpose.

We have received several requests for an outline of our budgetary control accounts and would appreciate early action in this respect.

DEPARTMENT OF THE INTERIOR
ALASKA ROAD COMMISSION
Juneau, Alaska

September 15, 1950

A.R.C. ORDER NO. 34

SUBJECT: Classification of Roads and Highways

Effective September 1, 1950, the roads and highways under the jurisdiction of the Alaska Road Commission have been officially classified as listed below:

THROUGH ROADS

<u>Title</u>	<u>Route</u>	<u>Description</u>	<u>Miles</u>
Alaska Highway	65 L	Boundary to Delta Junction Road	203.0
Richardson Highway	4 BA	Valdez-Ernestine Road	63.5
	4 C	Ernestine-Paxson's Road	125.0
	4 G	Paxson's-Rapids Road	42.3
	4 K	Rapids-Fairbanks Road and Untitled Connections	135.6
Glenn Highway	75 L	Anchorage-Palmer Road	40.7
	75	Anchorage-Monument Road	7.0
	35 I	Palmer-Moose Creek Road	7.0
	96 B	Moose Creek-Leila Lake Road	68.8
	4 DB	Leila Lake-Tazlina Road <i>Chena Junction</i>	65.5
Tok Cut-Off	65 A	Tok Junction-Gulkana Road	134.0
Haines Highway	3 AB	Haines-Boundary Road	40.3
Seward-Anchorage Highway	75 P	Anchorage-Potter Road	10.7
	75 Q	Potter-Girdwood Road	25.6
Other Through Roads	75 M	Anchorage-Fourth Avenue Road	0.8
	75 A	Anchorage-Spenard Road	3.0
	7 D	Fairbanks-College Road	4.0

FEEDER ROADS

<u>Title</u>	<u>Route</u>	<u>Description</u>	<u>Miles</u>
Edgerton Cut-Off	6 A	Willow Creek-Chitina Road	39.0
Steese Highway	7 A	Summit-Chatanika Road	9.3
	7 G	Fairbanks-Gilmore Road	11.5
	7 I	Gilmore-Summit Road	7.2
	15	Circle-Miller House Road	47.0
	15 A	Central-Circle Hot Springs Road	18.0
	16	Chatanika-Miller House Road	87.0

It will be noted in the above classifications that roads with several route numbers are included in the same grouping. Also, it is well known that roads of different standards for maintenance are sometimes included under the same route number.

It is desired that each District Engineer review the above classifications of routes and submit recommendations for correcting the faults noted in the preceding paragraph. A revised route numbering system will soon be issued, based in part on the recommendations of the District Engineers, so as to group roads of the same standard, maintained in the same manner, i.e., Year round, or summer only. The purpose is to simplify the numbering system for cost and accounting purposes.

John R. Noyes
Commissioner of
Roads for Alaska

A. F. Chiglione, Chief Engineer

August 4, 1950

D. H. Miller, Chief, Administrative Division

Numerical system for identifying routes

In connection with the establishment of account numbers for use in establishing budgetary controls over our 1951 appropriations, we plan to adopt a numerical system identifying each of our routes. Such a numerical system will not permit us to use the existing route identification numbers as contained on the attached list.

It would seem that a comprehensive numbering system should be applied to our accounts to identify

1. the type of road according to the categories used in our estimates,
2. the District to which responsibility for the road has been assigned, and
3. an identifying number.

I recommend that someone in the Engineering Division review the attached list for completeness and for accuracy of road description, and also would appreciate your recommendations as to the type of numerical designation best suited to this purpose.

We have received several requests for an outline of our budgetary control accounts and would appreciate early action in this respect.
