August 29, 1955

Chief, Operations Division

Winter Trail - Noorvik-Selawik

Your recommendations on trail and shelter cabin work near Noorvik have been discussed with Mr. Reed.

Mr. Reed will visit Nome shortly and make a decision at that time, however, it will be necessary to separate the shelter cabin work from the trail staking, as different funds cover the two operations. Please prepare individual estimates of the two projects and give them to Mr. Reed on his arrival next week.

Reference is made to our memorandum of August 10, 1955 concerning the subject.

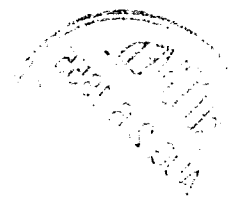

We have since contacted Noorvik Native Community President James K. Wells and have obtained the following additional information:

1. He estimates this trail to be 40 miles long.
2. This trail is used all through the year by travelers.
3. The name of the shelter cabin requiring repairs is called the Singauruk Cabin.
4. The work to be done to the trail consists of guying the stakes with wire to replace the manila rope used in 1951 and which has since begun to rot.

Enclosed is a 1:250000 scale map showing the trail location sketched. Please advise us if you desire this work to be done as we would wish to send out invitations to bid in October.

A request for funds to flag a winter trail from Noorvik to Selawik has been received from James K. Wells, President Noorvik Native Community.

This work will consist of setting stakes for about 50 miles across the tundra and completing a shelter cabin. President Wells estimates this can be accomplished for \$240.00, excluding the cost of 1000' of wire to tie down the stakes, - it must be very windy up there.

In 1951 this trail was flagged and the shelter cabin begun, apparently the Territory furnished the money, which was not enough to complete the cabin.

It is desirable that W.O. 49 be increased by \$300.00 that we might distribute invitations to bid on the work.

No doubt it would be well to check with Territorial Highway Engineer Irving Reed to avoid duplication of our efforts as indications are that his office received an earlier request and made no acknowledgment.

Frank Morris  
District Engineer

Mr. James K. Wells, President  
Noorvik Native Community  
Noorvik, Alaska

Dear Mr. Wells:

Your request of August 6, 1955 for assistance to flag the winter trail and repair the shelter cabin between Noorvik and Selawik has been received.

Please sketch the route of this trail on the enclosed map and give the length in miles. Upon the return of this map we will give your request every consideration.

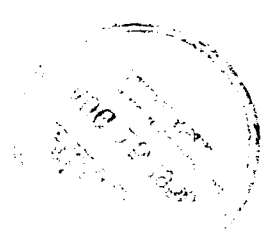

Our Headquarters Office in Juneau will check with the office of the Territorial Highway Engineer to determine the possible source of funds for this work.

We will advise you at a later date if the funds become available in time to accomplish the work during October 1955.

Very truly yours,

Frank Morris  
District Engineer
