

MEMORANDUM

State of Alaska

Department of Transportation and Public Facilities

TO: Regional/System Directors

DATE: February 21, 1991

FILE NO.:

TELEPHONE NO.: 465-2171

FROM: 
Frank G. Turbin
Commissioner

SUBJECT: Designation of the
Alaska Highway System

The attached lists of routes for Central Region are designated as the interim Alaska Highway System for this region in accordance with AS19.10.020 and 17AAC20.040. This designation supercedes previous conflicting designations, if any. The Alaska Highway System is viewed as a dynamic system and this designation forms the initial configuration for this region. For existing routes, we have defined the Alaska Highway System to be routes where the department has maintenance responsibility, (including some routes which currently receive no maintenance). Proposed routes are also included. No commitment to build proposed routes is implied. However, if built, it is expected that maintenance responsibility would rest with the department. It is our intent to include Alaska Marine Highway routes in the Alaska Highway System at some future date. Routes in Northern and Southeast Regions were designated by former Commissioner Hickey in December, 1990.

Implicit in this designation are that Category III roads are considered to be "sunset" roads which the department intends to transfer to more appropriate jurisdictions for future maintenance. The structure and scope of that transfer will be the result of a process of negotiation between the department and those affected jurisdictions.

This designation is consistent with the provisions of 17AAC20.040 which states that "no road maintenance of any nature shall be performed by the State on a highway which is not part of the Alaska Highway System, except by reimbursable agreement". The provisions of 17AAC20.040 will not prevent the department from dropping maintenance from or transferring routes included in the Alaska Highway System designation.

The Division of Plans, Programs and Budget will develop procedural guidelines for additions and deletions to the designated system. These guidelines will be distributed to the regions.

cc: Ron B. Lind, Director, Plans, Programs & Budget
Clyde Stoltzfus, Chief, Strategic Management Planning & Policy
