Frank Nash -

I received your letter^{to} close down on the 27th so we hauled the graders & tools in on the 28th & it will take a day to put tools etc away & take tents down beside the inventory.

I took all the memorandum bills of lading to Brennan to day except for George Black which I am enclosing

Enclosed are the time sheets for the past two weeks & equipment sheets

There will be no more time turned in except for Al Fredlund for last fall which you know about. I will send it in when I send the Inventory.

The equipment books are in separate envelope The welder & scrapers were not used.

Yours Truly
Bob A. Isaacson
