

MANLEY HOT SPRINGS ROADHOUSE

"Where Sourdoughs Meet"

April 8 1917

Dear Friend.

Mr. Fred South, who has been with us all winter, asked me to write you about a job for the summer down here, as truck driver.

He has had quite a bit of repair experience & could help with overhauling work.

He has been in the country several years in mines & C. A. A., 46 years old & world war one veteran.

We still have lots of snow here & not disappearing very fast, the road has been dozed out to Eureka & Miller.

I suppose we'll be seeing some of your crew before to long.

Yours Truly
Robt. A. Isaacson
