

MANLEY HOT SPRINGS ROADHOUSE

"Where Sourdoughs Meet"

May 14, 1947

Frank Nash
Fairbanks, Aaa

Dear Frank:

Received your letter of the 8th today. I have had three men taking care of the culverts and ditches during the Spring run-Off. Tom Dean worked from Miller to Blowback and Fred South worked from town to Blowback on the Tefty road. Al Fredlund took care of the Eureka road. All of this is finished but there is a few days work on the landing road.

I think we will have a quiet summer in the roadhouse so I can take care of a road crew.

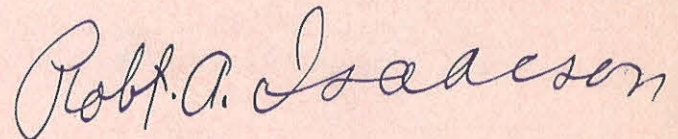

I have three men here besides myself and Eric Bergman may want to work also, so that would be crew enough unless you want to send two truck drivers.

All the boys here would board and room at home so that would eliminate a camp and mess-house.

It will be two weeks before much truck or cat work could be done but if it is okay with you they could cut brush and clean the ditches on the landing road.

Will expect to hear from you soon and kindest personal regards.

Very truly yours,

Bob Isaacson
