

MANLEY HOT SPRINGS ROADHOUSE

"Where Sourdoughs Meet"

July 17 1947

Frank Nash -

Received your letter of July 15
in regards to time sheets, I mailed
them here on the 7th

Morman suckling quit as
dozer operator to take over the man-
agement of the local M.C. store

I have been dozing since, also driving
truck. We can get along with the
crew I have, but if you have plenty
funds & a dozer operator to spare
I could sure use him, he would
have to board & room with us.

George Black is in Hot Springs
to mile so I'm sending up 48 barrels

I ordered 20 barrels of gas & 2 drums of
30. oil before, but I think now it should
be 40 of gas & 2 ⁷/₃₀ oil one Stoddard solvent.

The motor in Ford 1164 uses about
6 pints of oil every day & has no power
if you have a rebuilt motor you could
send it with Black. over

MANLEY HOT SPRINGS ROADHOUSE

I will need some planking for some of the small bridges, I would like to know if I can order from the Baker Creek mill.

I would also like to know if metal culverts are available. I would like to put in two on the landing road this fall after the river traffic is over and the road is not in use

Yours Truly
Robt. A. Isaacson

P. S.

Twenty Eight of the barrels were from Bayless's work last fall
