

MANLEY HOT SPRINGS ROADHOUSE

"Where Sourdoughs Meet"

Sept 2 47

Frank Nash

Enclosed are the Time + equipment sheets also the forms for Dines Windish + Fount Isaacson

The Standard Oil have their station almost completed here now, but I dont know if they will be fill this fall. I should have about 20 more barrels of gas to carry over till spring, If you can find out about these tanks being filled you wouldn't have to ship from Fairbanks

I sent seven tires in with George Black yesterday + 13 heavy drums with Art Peterson today.

Also enclosed is the Baker Lbr Co statement + the Allis Chalmers Tractor book, which is filled.

I need a new "front cross member for main frame" Ford Dump #589

Yours Truly

Robt. A. Isaacson
