

MANLEY HOT SPRINGS ROADHOUSE

"Where Sourdoughs Meet"

Aug 2, 1948

Mr. Frank Nash  
Alaska Road Commission  
Fairbanks, Aaa

Dear Sir:

Enclosed are the equipment sheets for July-- also the time sheets for the past two weeks.

Art Peterson was in today, and I shipped twelve heavy barrels and twelve light ones.

Please send the following parts with Bob Byers:

Ford dump 588) 2 gauge assembly (electric fuel) tank unit  
Ford dump 589) 2 muffler and tail pipe  
4 clutch and brake pedal pads

A C tractor 590 1 adjusting rod-- governor to carbeurator  
1 set (8) 18MM spark plugs  
1 set (8) 13MM spark plugs

If you remember the timbers I showed you over by the warehouse, four 12x12-14' fir, think with those and a few others scattered around, also coming from Tanana, (which Black is bringing up tomorrow) I would have plenty to make another portable trap. I also have plenty of cable and enough old grader blades to shoe the skids. About all I would need would be the bolts and metal trap. Black will be in town for a week or two. If you have the parts you might send them with him.

I could build it this fall, or early next spring, and use it on the Eureka road. I am moving the other trap to the Sullivan pit in a few days.

Also need some large envelopes.

Very truly yours,

*Robert A. Isaacson*

Robert A. Isaacson

*P.S.*

*For trucks 588-89 2 Ground cable connectors  
motor to dash.*
