TYPE AND QUANTITY OF MATERIAL DESIRED: Gravel - 75,000 cu. yds.

INTENDED USE OF MATERIALS: For construction and/or maintenance of  
Federal Aid Project No. F-062-4(11).

Materials to be removed are to be used for the purpose noted herein and none of the materials to be removed hereunder are to be sold or bartered and removal of materials may begin only upon receipt of an approved copy of this permit.

The permittee hereunder agrees to comply with all applicable laws, and with any rules and regulations issued thereunder.

The permittee agrees to indemnify the State against and hold it harmless from any and all claims, demands, suits, loss, liability and expense for injury to or death of persons and damage to or loss of property arising out of or connected with the exercise of the privileges covered by this permit. (Not applicable when permit is issued to Department of Public Works or other State Agencies.)

The permittee certifies that the statements made in this application are true, complete and correct to the best of his knowledge and belief, and are made in good faith.

T. Kurasonis

Signature of Applicant

Interior District Right of Way Agent

This permit is issued for the materials applied for above, but may be cancelled if it appears that the permit was issued erroneously. Further, it is revocable at the discretion of the Director of the Division of Lands, at any time, if it appears in the best interests of the State to do so. This permit is issued subject to the following special conditions:

This permit expires Aug 13 1975.

State of Alaska

Approved Aug 13 1974.

Division of Lands

By:

JA Sutton

Acting Chief Water Resources Section  
(Title)

The application must be prepared in duplicate and filed with the Division of Lands, 344-6th Avenue, Anchorage, Alaska, together with two copies of a sketch plat indicating the area from which the materials are to be removed.

Attn: Greg Young

TELEPHONE NO: 452-1911, ext. 298

FROM: Harold A. Cameron *HAC*  
Regional Chief  
Right of Way Agent

SUBJECT: ADL #408583  
M.S. 62-4-105-2

The Department of Transportation and Public Facilities requests a Land Use Permit for the use of an area approximately 500' x 1000' to the west of ADL #408583 (M.S. 62-4-105-2) in Section 27, T7S, R7E, F.M., as indicated on the attached map. The site is needed from the present to September 15, 1982. It presently has 6 foot alder and willow brush which will have to be removed. An office trailer, a lab trailer and a portable toilet will be set up, and material will be stockpiled in the area.

If you need any additional information, please contact Shari Howard at extension 298.

Ms. Doris Loennig  
Attorney at Law  
Suite 206  
613 Cushman Street  
Fairbanks, Alaska 99701

Dear Ms. Loennig:

In reference to your letter of December 9, 1981, enclosed, find:

1. Department of Natural Resources Free Use Permit with plat and stipulations
2. Materials Section report indicating our material source and right of extraction in the area of the Eryph Taylor property. A survey of the access and source have not been made.

If you have any further questions, please contact Shari Howard, 452-1911, ext. 299.

Sincerely,

Stephen C. Sisk  
Director  
Design and Construction

TELEPHONE NO: 452-1911 Ext. 246

FROM:

Hal Livingston *HL*  
Regional Geologist

SUBJECT: Material Source  
Renewals-Canyon  
Creek to Shaw Creek

The following material sources should be renewed for a period of at least 10 years for use by the DOT/PF in rebuilding, upgrading, and maintaining the public highways and roads in the vicinity:

62-4-103-2/62-4-054-2  
62-4-104-2 Gravel  
62-4-105-2 Gravel  
62-4-163-2 Gravel  
62-4-160-2 Quarry  
62-4-162-2 Gravel  
62-3-122-2 Quarry

The gravel sources especially will be required for a paving project scheduled for construction this summer.

Quantities of material to be removed from the sources for this project are relatively small (less than 20,000 c.y.) and will not impose an erosion problem from the Tanana River. M.S. 62-4-104-2 is located on the flood plain and the adjacent highway is situated on schist bedrock at least 50 feet above the river.

M.S. 62-4-162-2 is separated from the roadway by the channel of Shaw Creek, the highway side of which is already protected from erosion by riprap. Utilization of this source will require construction of an access across a small channel that contains water during high stages of the Tanana but is ordinarily dry. A temporary bridge may be required if the use of culverts is not adequate.

-Excavated areas shall be left smoothed and/or graded to a neat condition, free of trenches, holes, ridges, or piles.

-Cleared and grubbed material shall be disposed of, except where timber salvage is stipulated, by removal from the site to an approved area, by burning (subject to applicable regulations), or by burying.

I will send these stipulations directly to the Interior District, Department of Highways, to facilitate their inclusion in the contract, in order to save time. If any changes should be necessary, please contact me immediately.

*Attachments: Applications*

cc: Harold Cameron, R/W Section, ADH, Interior District

undisturbed between any excavation or other disturbance and the seasonal channel marked "Dry Slough" on the Material Source map.

3. Prior to completion of the Project, the access road to the Material Source shall be obliterated, and the area under it smoothed down to the original grade and left in a neat condition.

M.S. 62-4-160-2

1. This permit is issued subject to valid existing rights, such as may exist. Attention is directed toward the possibility of valid unpatented mining claims within the permit area.
2. No excavation of material will be done within the N $\frac{1}{2}$  NE $\frac{1}{4}$  Section 5 without prior authorization by amendment of this permit.
3. All trees within the permit area which measure six inches (6") or more D.B.H. (diameter, breast height) and which contain sixteen feet (16') or more in length below a four-inch (4") top trunk diameter shall be severed from the roots, limbed, topped, and neatly piled in an area accessible to the access road. Timber thus salvaged remains the property of the State.

~~M.S. 62-4-162-2~~

- ~~1. A strip of land at least 50 feet in width shall be left undisturbed between any waste area and the river channel as indicated on the Material Source map.~~

M.S. 62-4-163-2

1. A strip of land at least 50 feet in width shall be left undisturbed between any waste area, excavation, or other disturbance and the Tanana River (Slough) as indicated on the Material Source map.
2. A strip of land at least 50 feet in width shall be left undisturbed between any waste area, excavation, or other disturbance and the northerly highway Right-of-Way limit.
3. Waste piles shall be no higher than 15 feet above surrounding grade.
