Dog Ear Mountain: mountain, 3,360 ft., between East and Northeast Arms Uganik Bay, on N coast of Kodiak Island, 57° 44' 40" N, 153° 25' 00" W; (map 34). Descriptive name published in 1911 by USC&GS.

Dog Island: island, 0.1 miles long, in Iliamna Lake, at mouth of Roadhouse Bay, 0.8 miles E of Iliamna, Bristol Bay Lowland; 59° 44' 50" N, 154° 49' 15" W; (map 51). Local name published in 1954 by USGS.

Dog Island: island, 1.5 miles long, in Koyukuk River, 30 miles NE of Hughes, Hogatza Highlands; 66° 22' N, 153° 30' W; (map 116). Local name reported by Orth in 1956.

Dog Island: island, 2 miles long, in Pond Bay, on N coast of Duke Island, Alexander Archipelago; 54° 59' N, 131° 19' W; (map 2). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Dog Lake: lake, 1,200 ft. across, W of Talachulitna River, 52 miles NW of Tyonek, Alaska Range; 61° 49' 15" N, 151° 22' 40" W; (map 70). Local name reported in 1954 by USGS.

Dog Lake: lake, 2.6 miles long, at head of Charlieskin Creek, 5.4 miles SE of Northway, Alaska Range; 62° 53' N, 141° 46' W; (map 84). Local name reported by USGS in 1954.

Dog Lake: lake, 3 miles long, 1 mile N of Lake Louise and 36 miles NW of Glennallen, Copper River Basin; 62° 23' N, 146° 30' W; (map 83) Local name reported in 1951 by USGS.

Dog Lake: lake, 3.4 miles long, in course of Dog Creek, 3 miles W of Ewan Lake and 26 miles NNW of Glennallen, Copper River Basin; 62° 28' N, 145° 56' W; (map 83). Local name reported in 1951 by USGS.

Dog Point: point of land, on W tip of Lisianski Peninsula, 9 miles N of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 10' 10" N, 135° 25' 20" W; (map 9). Variant: Mys Sabachey. This is an 1882 translation by USC&GS of the name given in 1809 by the Russian

navigator Ivan Vasiliev the first, IRN; reported by Lt. Sarichev (1826, map 19), IRN, as “M[ys] Sabachey.”

Dog Salman: bay, see Koyuktolik Bay.

Dog Salmon Creek: stream, flows NE 4.7 miles to Polk Inlet, near center of Prince of Wales Island, Alexander Archipelago; 55° 20' 55" N, 132° 30' 05" W; (map 4) Local name published in 1943 by USC&GS.

Dog Salmon Creek: stream, heads at Fraser Lake, flows S 6 miles to Olga Bay, 33 miles SE of Karluk, in SW part of Kodiak Island; 57° 07' 40" N, 154° 01' 40" W; (map 35). Descriptive local name published in 1943 by USC&GS.

Dog Salmon Flats: delta, 1 mile across, at mouth of Dog Salmon Creek, 33 miles SE of Karluk Kodiak Island; 57° 08' 00" N, 154° 01' 30" W, (map 35). Local name reported in 1952 by USGS.

Dog Salmon River: stream, flows NW 70 miles to Ugashik River 4 miles SE of Ugashik Bay, on N coast of Alaska Peninsula, 4 miles SW of Ugashik, Bristol Bay Lowland; 57° 29' 40" N, 157° 30' 00" W; (map 36). Local name reported in 1900 by Lt. Comdr. J. F. Moser, USN, of the USBF steamer Albatross.

Dog Village: settlement, see Dogfish Village.

Dogbone Lake: lake, 2 miles long, between Henry Creek and Kogosukrok River, 16 miles N of Umiat, Arctic Plain; 69° 36' N, 152° 03' W; BGN 1959; (map 141). So named by geologists of Naval Petroleum Reserve No. 4 in 1945 “because the lake is shaped like a dog bone.”

Dogfish Island: island, 0.3 miles long, at E end of Naha Bay, on W coast of Revillagigedo Island, 18 miles N of Ketchikan, Alexander Archipelago; 55° 35' 45" N, 131° 37' 45" W; (map 3). Local navigators' name obtained in 1904 by H. C. Fassett, USBF.

Dogfish Mountain: mountain, 1,783 ft., in Ilivit Mountains E of Baldhead Mountain, on N bank of Yukon River 13 miles NE of Russian Mission, Nulato Hills; 61° 56' N, 161° 62' W; (map 73). Named for Dogfish Village, located at its foot. Shown on a 1922 manuscript river chart.

Dogfish Village: settlement, on N bank of Yukon River 11.5 miles NE of Russian Mission, Yukon-Kuskokwim Delta; 61° 54' 15" N, 161° 04' 30" W; (map 73). Variant: Dog Village, Ikaligwigmjut, Ikaligvigmiut, Ikalinigmjut, Ikaligvigmyut. This name is a form of a translation of the Eskimo name reported in Russian by Lt. L. A. Zagoskin, IRN, in 1842-44, as “Ikaligvigmyut,” meaning “fish village people.” R. H. Sargent, USGS, shows Dogfish Village on a 1916 field sheet. This place is probably a fishing camp, now consisting of about 3 cabins. Most of the inhabitants died of influenza in 1900 (Hrdlicka, 1943, p. 63).

Dogfish: bay, see Koyuktolik Bay.

Doggetlikakat: stream, see Dagitili River.

Doggetlikat: stream, see Dagitili River.

Doggetlooscat River: stream, see Dagitli River.

Doggetlooskat River: stream, see Dagitli River.

Doghouse Cabin: locality, on right bank of Black River 10 miles NE of Chalkyitsik, Yukon Flats; 66° 41' N, 143° 21' W; (map 120). Local name obtained in 1956 by T. E. Taylor and R. C. Foley, USGS.

Doghouse Lake: lake, 0.3 miles long, on Kenai Peninsula W of Fish Lake, 22 miles NE of Kenai Cook Inlet Lowland; 60° 43' 30" N, 150° 44' 15" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Doghouse Lake: lake, 1.1 miles long, 2.7 miles SSE of Lake Snohomish and 13 miles SSW of village of Lake Minchumina, Tanana Lowland; 63° 42' 25" N, 152° 27' 10" W; (map 88). Local name reported in 1954 by USGS.

Dogitskakak: stream, see Dagitli River.

Dogpatch: locality, 3 miles N of College and 5 miles NW of Fairbanks, Yukon-Tanana Highlands; 64° 54' N, 147° 50' W; (map 100). Name reported in 1954 by USGS.

Dogshead Glacier: glacier, in Tordrillo Mountains N of Capps Glacier, trends SE 3.3 miles to its terminus, 35 miles NW of Tyonek, Alaska Range; 61° 21' 30" N, 151° 58' 30" W; (map 70). Local name reported in 1958 by USGS.

Dogteam Lake: lake, 0.2 miles long, on Kenai Peninsula W of Upper Jean Lake, 36 miles E of Kenai, Chugach Mountains; 60° 31' 50" N, 150° 13' 40" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for Administrative purposes.

Dogtooth Bend: bend, in Yukon River, at mouth of Reindeer River, 19 miles W of Marshall Yukon-Kuskokwim Delta; 61° 54' N, 162° 40' W; (map 74). Riverboat pilots' name shown on a fieldsheet by R. H. Sargent, USGS, in 1916.

Doherty Creek: stream, flows SE 12 miles to Michigan Creek 5 miles NW of its junction with George River, 22 miles SE of Flat, Kilbuck-Kuskokwim Mountains; 62° 16' N, 157° 26' W; (map 79). Local name obtained in 1945 by USGS topographers.

Dok Point: point of land, on N bank of Chilkat River, 3 miles NW of McClellan Flats and 17 miles SW of Skagway, Coast Mountains; BGN 1922; 59° 15' 55" N, 135° 36' 15" W; (map 45). This is a contracted form of the Tlingit Indian name "dokhaku," formed by the words "dok," meaning "cottonwood," and "haku," meaning "point of land." The Indian name is also sometimes given as "doq xaku." The shortened form of the name was given by USC&GS in 1922.

Doleika, Mount: mountain, see McKinley, Mount.

Doleika: mountain, see McKinley, Mount.

Doleyka: mountain, see McKinley, Mount.

Dolgay Island: island, see Long Island.

Dolgoi Cape: point of land, on S coast of Dolgoi Island, in Pavlov Islands, Aleutian Range; 55° 03' 30" N, 161° 04' 30" W; (map 28). Russian word meaning "long" given by W. H. Dall, USC&GS, in 1880.

Dolgoi Harbor: bay, 5 miles long, nearly separates E and W parts of Dolgoi Island, in Pavlof Is, Aleutian Range; 55° 07' N, 161° 47' W; (map 28). Probably a local name; shown on 1882 USC&GS chart. It is Russian for "long."

Dolgoi Island: island, 1.6 miles long, at mouth of Port Bazan on SW coast of Dall Island, Alexander Archipelago; 54° 49' 15" N, 132° 58' 30" W; (map 1). Variant: Long Island, Ostrov Dolgay. Descriptive name transliterated in 1869 by the U.S. Navy, Hydrog. Office from "O[strov] Dolgoy," meaning "long island," given by Capt. Lt. Zarembo, IRN, in 1834.

Dolgoi Island: island, 10 miles long, one of Pavlof Islands, Aleutian Range; 55° 07' N, 161° 44' W; (map 28). Variant: Ananakeik, Long Island. Shown by Capt. Tebenkov (1852, map 24), IRN, as "O[strov] Dolgoi," meaning "long island" and reported by Capt. F. P. Lutke, IRN, 1836, as "Lile Dolgoi." The Aleut name was "Ananakeik," according to Father Veniaminov (1840, v. 1, p. 252).

Dolgoi Island: island, 2.2 miles long, 2.4 miles W of Redfield Cove and 4.5 miles NE of Yakutat, Malaspina Coastal Plain; 59° 36' 15" N, 139° 41' 00" W; (map 46). Descriptive name given by Capt. Tebenkov (1852, map 7), IRN, as "O[strov] Dolgoy," meaning "long island."

Dolgoi Island: island, see Long Island.

Dolgoi Lake: lake, 0.8 miles long, on Long Island, 4.8 miles SE of Kodiak, NE of Kodiak Island, 57° 45' 50" N, 152° 16' 40" W; (map 34). Variant: Lower Lake, Nizhni Lake, Ozero Dolgoye, Ozero Nizhniye. Transliteration of the descriptive name "Oz[ero] Dolgoye," meaning "long lake," published by Lt. Sarichev (1826, map 16) IRN. This lake was called "Oz[ero] Nizhniye" by Capt. Tebenkov, IRN (1852, map 23). Baker (1906, p. 415) published "Lower Lake," the translation of Capt. Tebenkov's name, for this feature. Because of duplication, the name was changed to its present form about 1909.

Dolgoy, Ostrov: island, see Dolgoi Island.

Dolgoy, Ostrov: island, see Long Island.

Dolgoye, Ozero: lake, see Dolgoi Lake.

Dolina Point: point of land, on NW coast of Sitkinak Island, in Trinity Islands, Kodiak Island; 56° 36' 45" N, 154° 13' 10" W; BGN 1934; (map 32). Russian name meaning "valley," given to the point by USC&GS in 1934 "because of its peculiar conformation."

Doll Creek: stream, flows NW to Pinnell River which flows to Inmachuk River between Snow and Hurd Creeks, about 14 miles N of Imuruk Lake, Seward Peninsula Highlands; (map 110).

Local name published on a precinct map of Seward Peninsula by Monroe and Hutchins; corrected to June 1903 by Arthur Gibson. This stream cannot be precisely identified on current maps.

Dollar Creek: stream, flows NW 2.3 miles to Beaver Creek, 8 miles SW of Ophir and 33 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 02' 30" N, 156° 39' 45" W; BGN 1936; (map 90). Prospectors' name obtained in 1933 by J. B. Mertie, Jr. (in Smith, P. S., 1936, pl. 4), USGS.

Dollar Creek: stream, flows SW 5.3 miles to Dime Creek, 5 miles SE of Haycock, Seward Peninsula Highlands; 65° 09' N, 161° 08' W; (map 109). Local name reported in 1917 by G. L. Harrington, USGS.

Dollar Creek: stream, heads in Dutch Hills, flows S 7 miles to Cache Creek, 31 miles NW of Talkeetna, Alaska Range; 62° 27' 05" N, 151° 02' 10" W; (map 81). Prospectors' name reported in 1906 by Sidney Paige and Adolph Knopf, USGS.

Dolls Island: island, see Young Island.

Dolly Varden Lake: lake, 1.5 miles long, on Kenai Peninsula W of Drake Lake, 18 miles NE of Kenai, Cook Inlet Lowland; 60° 42' 30" N, 150° 47' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for the Dolly Varden (*Salvelinus parkeii*), sometimes called "salmon trout."

Dolly, Mount: mountain, 4,300 ft., in Reverdy Mountains on Alaska-Canada boundary, 3.5 miles N of Hyder, Coast Mountains; 55° 58' 15" N, 130° 00' 30" W; (map 3). Local name recorded in 1915 by Theodore Chapin (in Brooks and others, 1916, fig. 5), USGS.

Dolomi Bay: estuary, on SE coast of Prince of Wales Island, extends S 0.8 miles to Port Johnson, Alexander Archipelago; 55° 07' 20" N, 132° 03' 00" W; (map 4). Local name derived from the town of Dolomi, reported in 1923 and published in the 1925 Coast Pilot (p. 77).

Dolomi: locality, site of mining village, at head of Dolomi Bay, 0.8 miles N of Port Johnson, on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 08' 00" N, 132° 03' 05" W; (map 4). Former mining camp established in the late 1890's and named "Dolomite" because of the predominance of dolomite rock in the area. The name was later shortened to "Dolomi" In 1906 it had a population of 50. The Dolomi post office was established in 1900 and was discontinued in 1926 (Ricks, 1965, p. 17).

Dolores, Port: bay, 1.4 miles long, on NW coast of Suemez Island, Alexander Archipelago; 55° 20' N, 133° 25' W; (map 4). Variant: Proliv Dolores, Puerto de los Dolores, Zaliv de los Dolores. Name given by Francisco Antonio Maurelle as "Puerto de los Dolores," i.e. "port of the sorrows," on "June 4 or 5, 1779, as he was there both days" (Wagner, 1937, p. 384).

Dolores, Proliv: bay, see Dolores, Port.

Dolores, Puerto de los: bay, see Dolores, Port.

Dolores, Puerto de: water passage, "perhaps the entrance to Kaigani Strait * * * named by [Don Jacinto] Caamano in 1792" (Wagner, 1937, p. 448).

Dolores, Zaliv de los: bay, see Dolores Port.

Dolph Rock: rock, in Peril Strait, 1 mile E of mouth of Ushk Bay, on Chichagof Island, 22 miles SE of Chichagof, Alexander Archipelago; 57° 33' 25" N, 135° 32' 45" W; (map 9). Named in 1895 by Lt. Comdr. E. K. Moore, USN, for quartermaster George Dolph, USN, of the SS Patterson. The name was published in 1900 by USC&GS on Chart 8282.

Dolphin Bay: bay, see Delphin Bay.

Dolphin Point: point of land, 15.5 miles NW of Afognak, on SW coast of Afognak Island; 58° 06' 30" N, 153° 09' 00" W; (map 43). Local name reported in 1900 by Lt. Comdr. J. F. Moser, USN, commander of the USBF steamer Albatross.

Dolphin Point: point of land, NE tip of Whale Island, N of Kodiak Island; 57° 59' 10" N, 152° 43' 25" W; (map 34). Variant: Mys Melkowadia, Mys Melkouodiya. Called "M[ys] Melkouodiya," meaning "shallow water cape," in 1839 or 1840 by Sub Lt. Mikhail Murashev, IRN. The name "Dolphin Point" was given in 1900 by Lt. Comdr. J. F. Moser, USN, of the USBF steamer Albatross.

Dolphin Point: point of land, see Delphin Point.

Dome Camp: locality, on left bank of Dome Creek, 14 miles N of Fairbanks, Yukon-Tanana Highlands; 65° 02' N, 147° 37' W; (map 105). Variant: Dome City, Dome. Name of a former mining camp. Settled about 1905 (Kitchener, 1954, p. 297); a post office, established here in 1906 was transferred to Olnes in 1922 (Ricks, 1965, p. 17). Name published in 1907 by USGS.

Dome City: locality, see Dome Camp.

Dome Creek: locality, on N bank of Dome Creek, at mouth of Georgie Creek, 29 miles S of Eagle, Yukon-Tanana Highlands; 64° 23' 30" N, 141° 15' 10" W; (map 102). Mining camp, now abandoned, reported in 1903 by Prindle (1905, p. 10), USGS.

Dome Creek: stream, flows N 1.3 miles to Porcupine Creek, 2 miles NW of Porcupine Dome and 48 miles SW of Circle, Yukon-Tanana Highlands; 65° 32' 25" N, 145° 34' 00" W; (map 104). Named by prospectors and reported in 1936 by Mertie (1938a, p. 225), USGS.

Dome Creek: stream, flows N 2 miles to Hudson Creek, N of Gold Mountain, about 8 miles NNW of Birches, Kokrines-Hodzana Highlands; 65° 15' N, 153° 40' W; (map 107). Local name reported by Maddren (1910, pl. 5), USGS.

Dome Creek: stream, flows N 4.6 miles to Beaver Creek, 10 miles SE of Ruby, Kilbuck-Kuskokwim Mountains; 64° 35' 12" N, 155° 23' 10" W; BGN 1936; (map 98). Prospectors' name reported in 1908 by A. G. Maddren (in Brooks and others, 1909, p. 230), USGS.

Dome Creek: stream, flows NE 1.2 miles to Jim Creek, in Kougarok River basin, 7 miles SE of Midnight Mountain and 40 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 41' N, 164° 33' W; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Dome Creek: stream, flows NE 1.4 miles to Coffee Creek, in Kougarok River basin, 49 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 19' N, 164° 44' W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Dome Creek: stream, flows NE 13 miles to Kiwalik River, 39 miles NW of Haycock, Seward Peninsula Highlands; 65° 41' N, 161° 52' W; (map 109). Local name shown on a 1903 fieldsheet by D.C. Witherspoon, USGS.

Dome Creek: stream, flows NE 7 miles to Cripple Creek, 75 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 44' 30" N, 159° 34' 30" W; (map 59). Prospectors' name reported in 1914 by A. G. Maddren (in Brooks, 1915, pl. 11), USGS.

Dome Creek: stream, flows NE 8 miles to Washington Creek, 14 miles S. of that stream's junction with Yukon River and 40 miles NW of Eagle, Yukon-Tanana Highlands; 65° 07' 30" N, 142° 17' 30" W; (map 103) Prospectors' name from an unpublished map by E. J. Chamberlain, dated 1902.

Dome Creek: stream, flows NW 3 miles to Teddys Forks, 12 miles SW of Eagle, Yukon-Tanana Highlands; 64° 39' N, 141° 26' W; (map 102). Prospectors' name obtained in 1898 by E. C. Barnard, USGS.

Dome Creek: stream, flows NW 5.3 miles to Donlin Creek 1.9 miles NE of its junction with Flat Creek, 15 miles N of village of Crooked Creek and 42 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 62° 05' 15" N, 158° 09' 50" W; BGN 1936; (map 79). Prospectors' name obtained in 1913 by Eakin (1914, pl. 1), USGS.

Dome Creek: stream, flows NW 7 miles to Chatanika River, 16 miles N of Fairbanks, Yukon-Tanana Highlands; 65° 04' 30" N, 147° 45' 00" W; (map 105). Local name derived from Pedro Dome located at head of stream. The name was reported in 1903 by T. G. Gerdine (Prindle, 1905, pl. 13), USGS.

Dome Creek: stream, flows NW 9 miles to American River, 29 miles NE of Teller, Seward Peninsula Highlands; 65° 34' N, 165° 42' W; (map 111). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Dome Creek: stream, flows S 4.4 miles to Tisuk River, 39 miles NW of Nome, Seward Peninsula Highlands; 64° 55' N, 166° 18' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Dome Creek: stream, flows S W 9 miles to Innoko River, 1.4 miles SE of Ophir and 30 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 08' N, 156° 28' W; (map 90). Prospectors' name reported in 1912 by A. G. Maddren and H. M. Eakin, USGS.

Dome Creek: stream, flows SE 0.5 miles to Big Skookum Creek 0.5 miles N of its junction with Mills Creek, 45 miles W of Talkeetna, Alaska Range; 62° 21' 30" N, 151° 30' 40" W; (map 81). Prospectors' name reported in 1911 by Capps (1913, fig. 7), USGS.

Dome Creek: stream, flows SE to Agiapuk River, about 15 miles NW of Teller, Seward Peninsula Highlands; (map 111). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This feature cannot be precisely identified on current maps.

Dome Creek: stream, flows W 15 miles to O'Brien Creek, 32 miles S. of Eagle, Yukon-Tanana Highlands; 64° 21' N, 141° 23' W; (map 102). Prospectors' name obtained in 1898 by E. C. Barnard, USGS.

Dome Creek: stream, flows W 3.3 miles to Tolstoi Creek, 19 miles NW of Ophir and 50 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 13' N, 157° 06' W; (map 90). Prospectors' name published in 1921 by USGS.

Dome Creek: stream, flows WNW 4 miles to Woodchopper Creek, 2 miles S of that stream's junction with Yukon River and 40 miles SE of Circle, Yukon-Tanana Highlands; 65° 19' 30" N, 143° 20' 00" W; (map 103). Local name reported in 1938 by Mertie (1942, p. 248), USGS.

Dome Creek: stream, heads at junction of Telegram and Eldorado Creeks, flows NW 2.3 miles to join Canyon Creek to form Iron Creek, 25 miles NW of Solomon, Seward Peninsula Highlands; 64° 54' N, 164° 43' W; (map 95). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Dome Creek: stream, heads on Dome, flows 0.8 miles E to North Fork Stag River, 22 miles ENE of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 44' N, 161° 34' W; (map 39). Local name shown on a 1937 fieldsheet by J. B. Mertie, Jr., USGS.

Dome Creek: stream, heads on Serpentine Ridge and flows S 1.5 miles to Quartz Creek, 4.5 miles S of Roughtop Mountain and 36 miles E. of Tanana, Yukon-Tanana Highlands; 65° 07' 35" N, 150° 52' 00" W; (map 106). Local name reported in 1952 by USGS.

Dome Creek: stream, in Kokrines Hills, flows NW 7 miles to Melozitna River, 30 miles NNW of Birches, Kokrines-Hodzana Highlands; 65° 30' 50" N, 154° 03' 35" W; (map 107). Local name obtained in 1954 by USGS topographers.

Dome Islets: islands, extend 0.3 miles across, N Maurelle Islands, Alexander Archipelago; 55° 41' 30" N, 133° 37' 45" W; (map 4). Descriptive name given in 1924 by USC&GS.

Dome Mountain: mountain, 1,424 ft., 4.5 miles NE of Pyramid Mountain and 8 miles SE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 04' 15" N, 161° 23' 30" W; (map 53). Local descriptive name published in 1915 by USC&GS on Chart 9103.

Dome Mountain: mountain, 3,109 ft., in Peabody Mountains, 2.7 miles NE of Hidden Inlet, Coast Mountains; 55° 03' 45" N, 130° 17' 00" W, (map 3). Descriptive name given in 1868 by Staff Comdr. David Pender, RN.

Dome Mountain: mountain, see Fortymile Dome.

Dome Pass: pass, 3,800 ft., on Cascade Glacier, 6.5 miles SSW of Mount Augusta and 54 miles NNW of Yakutat, St. Elias Mountains; 60° 13' N, 140° 30' W; (map 66). Named in 1890 by Russell (1891, p. 146), USGS.

Dome Peak: mountain, 1,853 ft., on Afognak Island, 5 miles SE of Black Cape and 26 miles N of Afognak, Kodiak Island; 58° 22' 30" N, 152° 45' 30" W; (map 43). Local descriptive name reported in 1952 by USGS.

Dome Peak: mountain, 5,271 ft., in Rousseau Range, 4.8 miles NW of Breezy Point on Portland Canal and 62 miles E of Ketchikan, Coast Mountains; 55° 23' 15" N, 130° 10' 40" W; (map 3). Descriptive name given in 1868 by staff Comdr. David Pender, RN, because of its shape.

Dome Peak: mountain, see Nun Mountain.

Dome Peak: peak, 5,570 ft., 18 miles NW of Devils Thumb and 100 miles E of Sitka, Coast Mountains; 57° 11' 15" N, 132° 49' 35" ; (map 8). Descriptive name given in 1887 by Lt. C. M. Thomas, USN; published in 1888 by USC&GS.

Dome Point: point of land, on S coast of Alaska Peninsula, E shore of Stepovak Bay, Aleutian Range; 55° 40' N, 159° 42' W; (map 27). Named by W. H. Dall, USC&GS in 1880; published in 1888 by USBF.

Dome Rock: rock, off E coast of Amatignak Island, Aleutian Islands; 51° 18' 00" N 179° 07' 10" W; (map 16). Local name published in 1954 on a USGS map.

Dome Rock: rock, off Repetition Point, in Kuliliak Bay, on S coast of Unalaska Island, Aleutian Islands; 53° 26' 55" N, 167° 02' 28" W, BGN 1939; (map 23). Descriptive name given by a USC&GS field party in 1937.

Dome Spur: railroad station, on The Alaska Railroad, 13 miles NW of Fairbanks, Yukon-Tanana Highlands; 64° 55' 25" N, 148° 06' 00" W; (map 100). Variant: Drouin Ranch. Local name published in 1949 by USGS.

Dome, The: hill, SW of junction of Ahtell Creek and its West Fork, 8 miles NNW of junction of Copper and Slana Rivers, Alaska Range; 62° 48' 30" N, 144° 05' 30" W; BGN 1936; (map 83). Local name reported in 1936 by USGS.

Dome, The: mountain, see Fortymile Dome.

Dome: hill, 767 ft., 8 miles NNE of Slug Mountain and 21 miles ENE of Cape Newenham Kilbuck-Kuskokwim Mountains; 58° 44' N, 161° 36' W; (map 39). Local descriptive name shown on 1937 fieldsheet by J. B. Mertie, Jr., USGS.

Dome: locality, see Dome Camp.

Dome: locality, see Olnes.

Dome: mountain, see Fortymile Dome.

Dome: mountain, see Roundtop Mountain.

Domingo Creek: stream, flows NE 1.5 miles to Faro Creek, 24 miles N of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 27' N, 161° 31' W, (map 53). Name reported in 1920 by G. L. Harrington (in Brooks and others, 1921, pl. 7), USGS.

Dominion Creek: stream, flows NE 2 miles to Mission Creek, 11 miles SW of Eagle, Yukon-Tanana Highlands; 64° 42' N, 141° 31' W, (map 102). Prospectors' name obtained in 1898 by E. C. Barnard, USGS.

Dominion Creek: stream, flows NW 5 miles to Tolovana River, 10 miles SE of Livengood, Yukon-Tanana Highlands; 65° 28' 30" N, 148° 12' 45" W; (map 105). Local name published by USGS in the 1950's.

Dominion Creek: stream, flows SE 10 miles to Salmon River, 80 miles NE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 58' N, 159° 24' W; (map 59). Prospectors' name reported in 1914 by A. G. Maddren (in Brooks, 1915, pl. 11), USGS.

Dominion Creek: stream, flows SE 5.7 miles to Flint Creek, 10 miles NE of Long and 20 miles SE of Ruby, Nowitna Lowland; 64° 29' 00" N, 155° 11' 20" W; (map 98). Prospectors' name reported in 1912 by H. M. Eakin (in Brooks and others, 1913, pl. 10), USGS.

Dominion Creek: stream, flows SW 6.2 miles to Independence Creek, in Kugruk River basin, 20 miles NE of Imurok Lake, Seward Peninsula Highlands; 65° 36' N, 162° 27' W; (map 110). Prospectors' name reported in 1901 by D. L. Reaburn (in Mendenhall, 1902, pl. 4a), USGS.

Dominion Creek: stream, heads on Caribou Mountain, flows NE 25 miles to Folger Creek, 25 miles NE of Ophir and 40 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 28' 10" N, 156° 14' 30" W; BGN 1936; (map 90). Prospectors' name reported in 1933 by USGS.

Don Albert River: stream, see Don River.

Don Miller Hills: mountains, 2,000 ft., extend 9 miles S from Bering Lake to Controller Bay, 6 miles NE of Katalla, Chugach Mountains; 60° 14' N, 144° 20' W; (map 64). Named in 1963 by USGS for Don Miller, 1919-61, geologist with USGS.

Don River: stream, flows SW 19 miles to Breving Lagoon, 17 miles NW of Teller, Seward Peninsula Highlands; 65° 23' N, 166° 53' W; (map 111). Variant: Don Albert River, Linden River, Rapid River. Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS. Shown as "Don Albert River" on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee and as "Linden River" on a map of Cape Nome goldfields by David Fox, Jr., dated 1901.

Don-che-loch-no: stream, see Donchelok Creek.

Donahoe Lake: lake, 0.5 miles long, drains W to Hay Slough, 8 miles ESE of Tanana, Yukon-Tanana Highlands; 65° 09' N, 151° 51' W; (map 106). Local name reported in 1952 by USGS.

Donahue Mountain: hill, 575 ft., on shore of Norton Sound, 0.8 miles E of village of Bluff and 22 miles E of Solomon, Seward Peninsula Highlands; 64° 34' N, 163° 44' W; (map 95). Local name reported on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Donald Ridge: ridge, elev. 2,500 ft., 3 miles long, in Robertson Mountains between Bering Glacier and Kosakuts River, 90 miles SE of Cordova, St. Elias Mountains; 60° 15' N, 143° 07' W; BGN 1960; (map 65). Named by Don Miller, USGS, for Corporal Donald, RCAF, who was killed in a plane crash on this ridge about 1943.

Donaldson Creek: stream, on Kenai Peninsula, flows NE 3.5 miles to Canyon Creek, 9 miles SE of Sunrise, Chugach Mountains; 60° 45' 40" N, 149° 27' 00" W; (map 63). Local name reported in 1912 by Grant and Higgins (1913, pl. 1), USGS.

Donchelok Creek: stream, flows NE 9 miles from North Snohomish Lake, through Slim Lake, to Lake Minchumina, Tanana Lowland; 63° 52' N, 152° 21' W; (map 88). Variant: Don-che-loch-no. Tanana Indian name obtained in 1899 by Lt. J. S. Herron, USA, who spelled it "Don-che-loch-no."

Dondadulik: locality, see Tuntutuli.

Doneleys: locality, see Donnelly.

Donkey Bay: bay, 0.7 miles across, on NW shore of Pybus Bay, on Admiralty Island, 20 miles SE of Angoon, Alexander Archipelago; 57° 20' 15" N, 134° 09' 30" W; (map 9). Name published in 1924 by USC&GS on Chart 8200.

Donkey Creek Lake: lake, 0.9 miles long, 5 miles W of Mount Yenlo and 44 miles SW of Talkeetna, Alaska Range; 62° 09' 00" N, 151° 26' 30" W; (map 81). Local name reported in 1958 by USGS.

Donkey Creek Slough: stream, anabranch of Yentna River, flows SE 15 miles, 43 miles SW of Talkeetna, Alaska Range; 62° 02' N, 151° 18' W; (map 81). Local name reported in 1958 by USGS.

Donkey Creek: stream, heads in lake, flows SE 26 miles to Donkey Creek Slough, 43 miles SW of Talkeetna, Alaska Range; 62° 05' 10" N, 151° 19' 45" W; (map 81). Prospectors' name reported in 1911 by S. R. Capps (in Brooks, 1912, pl. 9), USGS.

Donkey Lake: lake, 1.6 miles long, on Kenai Peninsula, 1.5 miles E of Elephant Lake and 12 miles NE of Kenai, Cook Inlet Lowland; 60° 35' 45" N, 150° 55' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Donlin Creek: stream, flows SW 14 miles, joins Flat Creek to form Crooked Creek, 15 miles NW of village of Crooked Creek and 43 miles NW of Sleetmute, Kilbuck-Kuskokwim

Mountains; 62° 04' 45" N, 158° 13' 00" W; (map 79). Prospectors' name reported in 1910 by A. G. Maddren, USGS.

Donnelly Dome: mountain, 3,910 ft., W of Richardson Highway, 18 miles S of Delta Junction, Alaska Range; 63° 47' 00" N, 145° 47' 15" W; BGN 1937; (map 86). Variant: Delta Dome, Donnellys Dome. Local name established in the 1920's and derived from name of nearby telegraph station. Prior to that time it was called "Delta Dome"; named after Delta River.

Donnelly Point: point of land, on SE shore of Naha Bay, on W coast of Revillagigedo Island, 17 miles N of Ketchikan, Alexander Archipelago; 55° 35' 35" N, 131° 39' 00" W; (map 3). Local navigators' name obtained in 1904 by H. C. Fassett, USBF.

Donnelly: locality, on Richardson Highway, 26 miles S of Delta Junction, Alaska Range; 63° 40' 30" N, 145° 52' 55" W; (map 86). Variant: Doneleys, Donnellys Roadhouse. Established as a telegraph station about 1904 by the U.S. Army Signal Corps, and a stage station on the Fairbanks-Chitina trail.

Donnellys Dome: mountain, see Donnelly Dome.

Donnellys Roadhouse: locality, see Donnelly.

Donoho Peak: peak, 6,696 ft., between Root and Kennicott Glaciers, 8 miles N of McCarthy, Wrangell Mountains; 61° 33' 30" N, 142° 58' 00" W; (map 67). Name reported by USGS in 1931 (Moffit, 1938, pl. 1).

Donovan Creek: stream, heads on Mount Hurst, flows SW 5.7 miles to Tolstoi Creek, 19 miles NW of Ophir and 50 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 11' 15" N, 157° 06' 20" W; (map 90). Prospectors' name published in 1921 by USGS.

Dontsolakhmena: lake, see Slim Lake.

Dontsolakhmena: stream, see Deep Creek.

Doo-Nuk-Chav-Uk: watercourse, see Dunukchavuk Slough.

Dooksook Lagoon: lagoon, 1.4 miles long, at mouth of Dooksook River, 43 miles NW of Cape Mendenhall, on SW coast of Nunivak Island; 60° 03' 50" N, 167° 15' 45" W; (map 57). Variant: Duksuk Lagoon. Eskimo name obtained in 1949 by USC&GS.

Dooksook River: stream, flows SW 7 miles to Dooksook Lagoon, 2 miles W of Ingriruk Hill and 44 miles NW of Cape Mendenhall, Nunivak Island; 60° 05' N, 167° 16' W; (map 57). Variant: Duksuk River, Tuxsuk River. Eskimo name obtained in 1949 by USC&GS.

Doolth Mountain: mountain, 2,159 ft., NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 40' 30" N, 136° 06' 30" W; BGN 1908; (map 9). Variant: Dulth Mountain. Tlingit Indian name given by USC&GS in 1907 and published in 1909 on Chart 8280. The word "doolth" [dulth], according to Andrew Braid, "means everything good and plentiful, referring to the abundance of game, fish, berries, and other resources in this whole region."

Doone Creek: stream, flows E 3.7 miles to Chickaloon River, W of Puddingstone Hill, 30 miles NE of Palmer, Talkeetna Mountains; 61° 51' 30" N, 148° 53' 15" W; (map 69). Local name reported in 1913 by USGS.

Doonerak, Mount: mountain, 7,610 ft., one of highest in Brooks Range, 32 miles SE of Anaktuvuk Pass and 38 miles N of Wiseman, Brooks Range; 67° 54' N, 150° 37' W; BGN 1932; (map 124). Named in 1929 by Marshall (1956, p. 22). He wrote, "I called it ' Matterhorn of the Koyukuk' * * * Later I renamed it ' Doonerak' * * * the name ' Doonerak' I took from an Eskimo word which means ' a spirit,' or, as they would translate it, ' a devil.' " It was first climbed June 30, 1952 by G. W. Beadle, Gunnar Bergman, and Alfred Tissieres (Farquhar, 1959, p. 218).

Dootny Lake: lake, see Tutna Lake.

Dora Bay: estuary, extends S 4 miles off Cholmondeley Sound, on SE coast of Prince of Wales Island, 40 miles SE of Craig, Alexander Archipelago 55° 14' N, 132° 13' W; (map 4). Named in 1886 by Lt. Comdr. R. Clover, USN, for the steamer Dora, one of Alaska's most famous vessels with a record of over 40 years of service in northern waters. See Brooks (1953,p.402).

Dora Creek: stream, flows NE 0.6 miles to Cleary Creek, 1.2 miles SE of Chatanika and 20 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 06' N, 147° 27' W; (map 105). Local name published by USGS in the 1950's.

Dora Creek: stream, flows NW 4 miles to Healy Creek, 5 miles E of Healy, Alaska Range, 63° 51' 30" N, 148° 48' 10" W; BGN 1946; (map 87). Local name reported in 1944 by USGS.

Dora Creek: stream, flows S through Muskrat Lake 6.5 miles to Chitina River, 2.2 miles W of junction of Gilahina River and 31 miles W of McCarthy, Copper River Basin; 61° 23' N, 143° 57' W; (map 67). Variant: Dark Creek, Dare Creek. Named in 1885 by Lt. Allen (1887, p. 57), USA, for Miss Dora Johnston of Chicago, later his wife. Probably he applied it to the stream subsequently known as the Gilahina River. The name "Dora Creek" applied as above was reported by the USGS in 1951.

Dora Harbor: harbor, 1 mile across, on Ikaton Peninsula, Unimak Island, Aleutian Islands; 54° 42' N, 163° 16' W; (map 25). Variant: Loras Harbor Lords Harbor. Local name published by USBF as "Loras Harbor" in 1888, and as "Lords Harbor" by USC&GS in 1900.

Dora Island: island, 0.1 miles long, 3 miles S of Sanak Islands, one of Sanak Islands, Aleutian Range; 54° 19' 40" N, 162° 37' 40" W; (map 25). Name published in 1949 on a USGS map.

Dora Island: island, 1 mile long, on W coast of Adak Island in Bay of Islands, Aleutian Islands; 51° 48' 45" N, 176° 47' 10" W; BGN 1936; (map 17). Variant: Dorothy Island. Named in 1934 by members of the U.S. Navy Aleutian Island Survey Expedition, for the steamer Dora, "long engaged in trade in southwestern Alaska."

Dora Island: island, southernmost of Twin Islands, 34 miles SW of Seward, Chugach Mountains; 59° 39' 45" N, 149° 42' 45" W; BGN 1930; (map 49). Named in 1928 by USC&GS "after the steamship Dora which plied these waters in 1912 and earlier."

Dora Keen Range: ridge, elev. 8,500 ft., extends NE 30 miles from College Point, between Harvard and Yale Glaciers, 40 miles NW of Valdez, Chugach Mountains; 61° 20' N, 147° 25' W; BGN 1965; (map 69). Named in 1965 by Lawrence Nielsen for Dora Keen Handy, 1871-1963, who led the first expedition into this area in 1914, and in 1912 had made the first ascent of Mount Blackburn.

Dora Lake: lake, 1.3 miles long, at head of Dora Bay, on SE coast of Prince of Wales Island, 41 miles SE of Craig, Alexander Archipelago; 55° 10' 00" N, 132° 14' 30" W; (map 4). Name published by Wright and Wright (1908, fig. 16), USGS; derived from Dora Bay.

Dora Passage: water passage, extends S 4 miles from Aialik Bay to the Gulf of Alaska, between Harbor Island and Twin Islands, 32 miles SW of Seward, Chugach Mountains; 59° 40' N, 149° 41' W; BGN 1930; (map 49). Named in 1912 by USC&GS "after the ship Dora". See Dora Island.

Dora Peak: mountain, 1,798 ft., 13 miles SE of False Pass, Ikatan Peninsula, on Unimak Island, Aleutian Islands; 54° 42' 45" N, 163° 11' 30" W; (map 25). Local name derived from Dora Harbor and reported in 1926 by USC&GS.

Dora Peak: mountain, 5,572 ft., 10 miles S of Jumbo Dome and 8 miles SE of Healy, Alaska Range; 63° 49' 30" N, 148° 42' 30" W; (map 87). Name reported in 1950 by USGS.

Dora Reef: reef, in Gulf of Alaska, 3.3 miles WSW of Perl Island and 25 miles SW of Seldovia, Chugach Mountains; 59° 00' 20" N, 151° 48' 00" W; BGN 1908; (map 50). Local name reported by USC&GS in 1908.

Dorai Bay: bay, see Kuiu Bay.

Doran Point: mountain, see Doran, Mount.

Doran Strait: water passage, 1.2 miles across, at mouth of Harriman Fiord, 57 miles SE of Anchorage, Chugach Mountains; 61° 04' 45" N, 148° 09' 30" W; (map 69). Named in 1899 by members of the Harriman Alaska Expedition for Capt. Peter Doran of their steamer SS George W. Elder.

Doran, Mount: mountain, 4,000 ft., 4 miles SW of Point Doran and 57 miles SW of Anchorage, Chugach Mountains; 61° 01' 20" N, 148° 14' 00" W; BGN 1911; (map 69). Variant: Doran Point. Named in 1911 by U. S. Grant, USGS, for Peter Doran, captain of the SS George W. Elder, the ship used by the Harriman Alaska Expedition.

Doran, Point: point of land, between Harriman Fiord and Barry Arm Port Wells, 59 miles SE of Anchorage, Chugach Mountains; 61° 04' 20" N, 148° 10' 00" W; BGN 1910; (map 69). Named in 1910 by U. S. Grant, USGS. See Doran, Mount.

Dorenoi Bay: bay, 2 miles across, on W shore of Stepovak Bay, Alaska Peninsula, Aleutian Range; 55° 38' N, 160° 22' W; (map 28). Local Russian name reported by Atwood (1911, pl. 2), USGS.

Doric Creek: stream, flows S 1.3 miles to diversion ditch parallel to Pioneer Creek, 1 mile NE of Eureka and 22 miles S of Rampart, Yukon-Tanana Highlands; 65° 11' 10" N, 150° 11' 30" W; (map 106). Prospectors' name reported in 1904 by Prindle and Hess (1906, pl. 3), USGS.

Doris Bay: estuary, see Mud Bay.

Dorn Island: island, 1 mile long, in Seymour Canal, 27 miles NE of Angoon, on E coast of Admiralty Island, Alexander Archipelago; 57° 47' N, 134° 03' W; (map 9) Named in 1890 by Lt. Comdr. R. W. Meade, USN, for Lt. Edward J. Dorn, USN, a member of his party. The name was published in 1890 by USC&GS.

Dornin Rock: rock, sunk in Stephens Passage at entrance to Fritz Cove, 0.3 miles NW of Outer Point and 10 miles W of Juneau, Coast Mountains 58° 19' 40" N, 134° 41' 05" W; (map 11). Named in 1890 by Lt. Comdr. H. B. Mansfield, USN, for J. B. Dornin, a member of his party; published by USC&GS in the 1891 Coast Pilot (p.150).

Dorokhova Bay: estuary, see Deep Inlet.

Dorokhova, Bukhta: estuary, see Deep Inlet.

Doroshin Bay: cove, 0.4 miles across, on E shore of Skilak Lake, on Kenai Peninsula, 40 miles ESE of Kenai, Chugach Mountains; 60° 25' 30" N, 150° 08' 00" W; (map 62). Local name reported in 1959 by USGS. Possibly named for Peter P. Doroshin, a Russian mining engineer who made investigations in Cook Inlet in 1848.

Doroshin Glacier: glacier, heads at 59° 28' N, 151° 00' W, trends NW 6 miles to its terminus at unnamed stream, 20 miles ENE of Seldovia Chugach Mountains; 59° 29' N, 151° 08' W; (map 50). So named by W. H. Dall in 1880, "after Peter P. Doroshin, a Russian mining engineer, who made investigations in Cook Inlet in 1848."

Doroshin Lake: lake, 0.7 miles long, on Kenai Peninsula, 1.3 miles S of the Finger Lakes and 9 miles NE of Kenai, Cook Inlet Lowland; 60° 36' 30" N, 150° 53' 45" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Dorothy Cove: bay, 1 mile across, near head of Necker Bay, on SW coast of Baranof Island, Alexander Archipelago; 56° 43' 40" N, 135° 04' 30" W; (map 5). Local name used by fishermen; published in 1925 by USC&GS.

Dorothy Creek: stream, flows NE 2.3 miles to Nome River, 23 miles NE of Nome, Seward Peninsula Highlands; 64° 49' N, 165° 14' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Dorothy Creek: stream, flows SW 19 miles to Lake Creek, 11 miles NNW of Rabbit Mountain and 38 miles NW of Coleen Mountain, Brooks Range; 67° 37' N, 142° 24' W; (map 121). Local name reported in 1956 by T. E. Taylor, USGS.

Dorothy Creek: stream, flows WSW 5 miles, through Lake Dorothy and Lieuy and Bart Lakes, to Taku Inlet, 16 miles ESE of Juneau, Coast Mountains; 58° 14' 15" N, 37° 03' 20" W; (map 11). Name reported by USGS about 1950; probably derived from Lake Dorothy.

Dorothy Island: island, see Dora Island.

Dorothy Narrows: water passage, 1.2 miles S of Goddard, between Elovai Island and W coast of Baranof Island, Alexander Archipelago; 56° 49' 00" N, 135° 22' 30" W; (map 5). Local name used by fishermen; published in 1925 by USC&GS.

Dorothy Narrows: water passage, see Windy Passage.

Dorothy Slough: stream, 1 mile long, on left bank of Koyukuk River, 6 miles SW of Allakaket, Kokrines-Hodzana Highlands; 66° 30' N, 152° 47' W; (map 117). Named in 1899 for the riverboat Dorothy which wintered there in 1898-99.

Dorothy, Lake: lake, 3.3 miles long, 5 miles S of Taku Inlet and 17 miles SE of Juneau, Coast Mountains; 58° 15' N, 133° 58' W; (map 12). Name published in 1943 by USC&GS.

Dorozhnoy, Ostrov: island, see Road Island.

Dorozhoi Island: island, see Road Island.

Dorsey Creek: stream, see Dewey Creek.

Dosennaughten Lake: lake, 0.8 miles long, on E bank of Alatna River, 3.5 miles N of Allakaket, Kanuti Flats; 66° 37' N, 152° 36' W; (map 117). Koyukan Indian name obtained in 1956 at Allakaket by T. E. Taylor, USGS.

Dot Hill: hill, see Ridge Hill.

Dot Island: island, 0.2 miles long, between El Capitan and Cap Islands, Alexander Archipelago; 55° 54' 20" N, 133° 19' 50" W; (map 4). Named in 1904 by E. F. Dickins, USC&GS for the " Name of signal Dot."

Dot Island: island, 300 ft. across, in Afognak Bay, 3.3 miles N of Afognak, on S coast of Afognak Island; 58° 03' 20" N, 152° 45' 25" W; (map 43). Named in 1900 by Lt. Comdr. J. F. Moser USN, commander of the USBF steamer Albatross.

Dot Lake: lake, 1,500 ft. long, E of Alaska Highway, at Dot Lake village, 40 miles NW of Tok, Tanana Lowland; 63° 39' 45" N, 144° 04' 00" W (map 86). Name published on relatively recent maps.

Dot Lake: village, pop. 56, on Alaska Highway at Dot Lake, 40 miles NW of Tok, Tanana Lowland; 63° 39' 45" N, 144° 04' 00" W; (map 86). Commercial and Indian settlement established about 1954 on the highway at an emergency landing field.

Dotle: locality, on the Koyukuk River, (map 108). Variant: Dotlekakat. Koyukan Indian camp or small settlement listed by Hodge (1907, p. 399), who lists a population of 12 in 1885.

Dotlekakat: locality, see Dotle.

Dotsons Landing: locality, on W shore of Favorite Channel, on Amalga Harbor, 0.7 miles N of Pearl Harbor and 19 miles NW of Juneau, Coast Mountains; 58° 29' 30" N, 134° 47' 05" W; (map 11). Variant: Eagle River Landing. Named for John Dotson, 1862-1937, and his wife, 1866-1933. They came to Juneau in 1912 and lived near this landing for many years (DeArmond, 1957, p. 14). Called Eagle River Landing prior to about 1940.

Doty Cove: cove, 1 mile across, on NE coast of Glass Peninsula, 3 miles S of False Arden and 16 miles SE of Juneau, Alexander Archipelago; 58° 07' N, 134° 10' W; BGN 1930; (map 11). Variant: Dotys Cove. Locally named for Charles Doty, who was born in Massachusetts and served in the U.S. Navy during the Civil War. He came to Alaska in 1886 and about 1900 claimed a homestead at Doty Cove. He died at Douglas in 1914 (DeArmond, 1966). The name was reported by USFS in 1929.

Dotys Cove: cove, see Doty Cove.

Double Bay: estuary, on N coast of Hinchinbrook Island, at mouths of Bear and Double Creeks, 25 miles SW of Cordova, Chugach Mountains; 60° 28' N, 146° 28' W; (map 64). So named locally "because a short peninsula extends into a large bay, partially dividing it into two smaller bays." Name published in 1950 by USGS.

Double Cove: cove, 0.2 miles across, 5 miles S. of Chichagof, on Takeena Peninsula, W coast of Chichagof Island, Alexander Archipelago; 57° 35' 30" N, 136° 03' 30" W; BGN 1908; (map 9). Variant: Portage Cove. Descriptive name given in 1908 by USC&GS "because the cove is divided into two parts by islands."

Double Creek: stream, on Hinchinbrook Island, flows NE 3.5 miles to Double Bay, 25 miles SW of Cordova, Chugach Mountains; 60° 28' N, 146° 27' W; (map 64). Name published in 1950 by USGS; derived from Double Bay to which the stream flows.

Double Glacier: glacier, trends E 11 miles to head of its Big River Lobe, 47 miles WNW of Kenai Aleutian Range; 60° 42' N, 152° 38' W; (map 62). Local name reported in 1958 by USGS. So named because the glacier is divided into two lobes.

Double Glacier: glacier, trends N 2 miles to its 1958 terminus S of Johnson Glacier terminus, 12 miles W of Slope Mountain, 68 miles SW of Kenai Aleutian Range; 60° 06' N, 152° 58' W (map 62). Local descriptive name reported in 1958 by USGS.

Double Headed Point: island, see Twoheaded Island.

Double Island: island, 0.1 miles across, in Krestof Sound, 13 miles NW of Sitka, Alexander Archipelago; 57° 11' 25" N, 135° 34' 30" W; (map 9). Descriptive name given in 1908 by USC&GS and published in 1909 on Chart 8280. It was "so named because it is shaped like a figure '8'."

Double Island: islands, extend 0.5 miles in Clarence Strait, on SW coast of Etolin Island, Alexander Archipelago; 55° 56' 45" N, 132° 27' 00" W; (map 4). Descriptive name given in 1886 by Lt. Comdr. A. S. Snow, USN. "The island is double at high water."

Double Island: islands, extend 1,600 ft., in Cordova Bay, on SW coast of Prince of Wales Island, at entrance to Klakas Inlet, Alexander Archipelago; 54° 52' 45" N, 132° 24' 00" W; (map 1). Descriptive name given in 1897 by Lt. Comdr. J. F. Moser, USN.

Double Islands: islands, extend 0.5 miles in Cat Passage, 27 miles SE of Duke Island, Alexander Archipelago; 55° 00' 10" N, 131° 18' 15" W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN; so called because they consist of two islands.

Double Lake: lake, see Lodge Lake.

Double Mountain: mountain, 5,899 ft., 9 miles NW of Fang Mountain, 24 miles SW of Healy, Alaska Range; 63° 36' 15" N, 149° 28' 10" W; (map 87). Local name shown on a 1916 fieldsheet by C. E. Griffin, USGS.

Double Mountain: mountain, 6,750 ft., on W bank of Sheenjek River, 28 miles NW of Table Mountain, Brooks Range; 68° 45' N, 143° 48' W; (map 137). Local name reported in 1956 by USGS.

Double Peak: peak, 6,818 ft., N of Double Glacier, 47 miles WNW of Kenai, Aleutian Range; 60° 43' 45" N, 152° 35' 30" W; (map 62). Local name published in 1912 by USC&GS; derived from the glacier.

Double Point Mountain: mountain, 1,700 ft., N of Koyukuk River, extends W 10 miles from Henshaw Creek, 7.5 miles NE of Allakaket, Hogatza Highlands; 66° 40' N, 152° 25' W; (map 117). Descriptive name given in 1885 by Lt. Allen (1887, map 4), USA.

Double Point: point of land, on SW coast of Little Sitkin Island, Rat Islands, Aleutian Islands; 51° 55' 45" N, 178° 27,45" E; (map 15). Name reported by Snyder (1959, p. 1771-79), USGS.

Doubtful Creek: stream, flows 5.4 miles NW to Nizina River, 4 miles E of Nizina Mountain and 19 miles NE of McCarthy, Wrangell Mountains; 61° 35' 45" N, 142° 27' 45" W; (map 67). Local name obtained by USGS and published on maps since 1954.

Doubtful Slough: stream, about 6 miles long, on left bank of Yukon River, encloses southeastern half of Ninemile Island, 4 miles SW of Nulato, Koyukuk Lowland; 64° 37' 00" N, 158° 16' 30" W. (map 97). Riverboat pilots' name shown on a 1940 "Navigation Chart of Tanana-Yukon Rivers" published by U.S. Dept. of Interior.

Dougherty Creek: stream, flows NE 13 miles to Gerstle River, 29 miles SE of Delta Junction, Alaska Range; 63° 47' 20" N, 144° 58' 30" N; BGN 1937; (map 86). Local name shown on a 1927 manuscript map of the "Endicott and Haley Hunting Expedition."

Dougherty, Point: point of land, on N shore of Bertha Bay, 13 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 48' 30" N, 136° 21' 20" W; (map 9). Name published in 1928 by USC&GS on Chart 8258.

Doughton Peak: peak, 2,600 ft., on Carbon Mountain, 1 mile NW of Berg Lake and 64 miles E of Cordova, Chugach Mountains; 60° 26' N, 143° 53' W; (map 65). Prospectors' name reported in 1905 by G. C. Martin, USGS.

Douglas Bay: bight, 5 miles across, on S coast of Kupreanof Island, Alexander Archipelago; 56° 28' N, 133° 17' W; (map 6). Variant: Douglass Bay. Named in 1886 by Lt. J. M. Helm, USN, for charting purposes; name published in 1887 on USC&GS Chart 706.

Douglas City: town, see Douglas.

Douglas Creek: stream, flows SW 9 miles to Noatak River, 26 miles SE of Howard Pass, Brooks Range; 67° 52' N, 156° 32' W; (map 126). Local personal name obtained at Noatak by Orth in 1956.

Douglas Creek: stream, flows W 7.5 miles to Jim River, 31 miles E of Bettles, Kokrines-Hodzana Highlands; 66° 51' 20" N, 150° 34' 30" W; (map 117). Local name reported in 1956 by T. E. Taylor, USGS.

Douglas Island: island, 0.4 miles long, in Cordova Bay, on SW coast of Prince of Wales Island, 3 miles NW of Point Marsh, Alexander Archipelago; 54° 45' 30" N, 132° 20' 40" W; (map 1). Local name reported in 1951 by USGS.

Douglas Island: island, 17 miles long, extends NW-SE between Gastineau Channel and Stephens Passage, 0.5 miles S of Juneau, Coast Mountains; 58° 15' 30" N, 134° 16' 30" W; (map 11). Variant: Douglass Island. Named by Capt. Vancouver (1798, v. 3, p. 277), RN, for John Douglas, who in 1791 became Bishop of Salisbury. He was the editor of Capt. James Cook's journal (Wagner, 1937, p. 384).

Douglas Island: island, see Forrester Island.

Douglas Reef: reef, extends 2 miles, in Shelikof Strait, on NE coast of Alaska Peninsula, in Katmai National Monument, 5 miles S of Cape Douglas and 39 miles S of Augustine Island; Aleutian Range; 58° 45' 45" N, 153° 16' 00" W; BGN 1910; (map 43). Variant: Beaver Reef, Bobrof, Bobrovoi, Bobrow, Sea Otter Reef, Sea Otter Rocks. Name derived from Cape Douglas and given by USC&GS in 1910 in an effort to eliminate duplication of the names "Bobrovyy," (meaning "sea otter"), and "Sea Otter" in this area. Baker (1906, p. 558) published the name "Sea Otter" for this feature.

Douglas River: stream, heads at 58° 48' N, 153° 48' W, flows N 28 miles to Kamishak Bay, 25 miles SW of Augustine Island, Aleutian Range; 59° 04' 30" N, 153° 48' 30" W; (map 51). Variant: Andrews River, Chuiu River, Chuyu River, Tschuiou River, Tschuiow River. Local name reported in 1904 by G. C. Martin, USGS. It was also locally called Andrews River (Brooks and others, 1905, p. 138). This is probably the same stream shown by Capt. Tebenkov (1852, map 5), IRN, as "R[eka] Chuyu," i.e. "Chuyu River."

Douglas Village: town, see Douglas.

Douglas, Cape: point of land, on Bering Sea, 51 miles NW of Nome, Seward Peninsula Highlands; 65° 00" N, 166° 42' W; (map 94). Variant: Mys Duglas, Ongneak. Named in 1826 by Capt. Beechey (1831, map facing p. 328), RN.

Douglas, Cape: point of land, S entrance to Sukoi Bay, on NE coast of Alaska Peninsula, in Katmai National Monument, 33 miles SE of Augustine Island, Aleutian Range; 58° 51' N, 153° 15' W; (map 43). Variant: Kamieshatskoi, Koukhat, Kuchat, Kukuak. Name given by Capt. Cook (1785, p. 385), RN, on May 25, 1778, who wrote "This promontory I named Cape Douglas in honor of my very good friend, Dr. [John] Douglas, canon of Windsor * * *". Wagner (1937, p. 384) says "in reality he [Cook] considered the two-headed mountain to be the cape as he was at some distance from it * * *." Baker (1906, p. 224) reported "The native name is given as Kukuak, Koukhat, and Kuchat * * *."

Douglas, Mount: mountain, 2,074 ft., 11 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 47' 45" N, 136° 16' 00" W; (map 9). Variant: Davison Peak. Name published in 1928 by USC&GS on Chart 8258. It was published as Davison Peak by Overbeck (1919, pl. 2), USGS.

Douglas, Mount: peak, 7,000 ft., on NE coast of Alaska Peninsula, in Katmai National Monument, 32 miles S of Augustine Island, Aleutian Range; 58° 51' 35" N, 153° 32' 00" W; (map 43). Name derived from Cape Douglas and reported by G. C. Martin, USGS, in 1904.

Douglas: town, pop. 1,042, on NE coast of Douglas Island, on Gastineau Channel, 1.8 miles SW of Juneau, Coast Mountains; 58° 16' 40" N, 134° 23' 35" W; (map 11). Variant: Douglas City, Douglas Village, Edwardsville. Named about 1886 for the island on which it is located. The early name was "Edwardsville," perhaps for H. H. Edwards, an early miner and resident. The town was established in 1881 as the result of mining activity in the area. It became an incorporated city in 1902. Since then it has suffered several serious fires which have destroyed much of the original town (DeArmond, 1957, pp. 14-15).

Douglass Bay: bay, 0.6 miles across, between Patterson Bay and South Arm Hoonah Sound, 13 miles E of Chichagof, on S central Chichagof Island, Alexander Archipelago; 57° 41' N, 135° 44' W; (map 9). Named in 1895 by Lt. Comdr. Moore, USN.

Douglass Bay: bight, see Douglas Bay.

Douglass Entrance: water passage, see Dixon Entrance.

Douglass Island: island, see Douglas Island.

Douglass: locality, see Kaguyak.

Doushnai Bay: cove, see Close Bay.

Dova Bay: bay, extends SW 2 miles off Tlevak Strait, on N coast of Long Island, Alexander Archipelago; 54° 55' 30" N, 132° 42' 15" W; BGN 1929; (map 1). Named in 1928 by Capt. R. S. Patton, USC&GS, who derived it "from the last part of the name ' Cordova,' the adjoining bay."

Dove Island: island, 0.1 miles across, in Jamestown Bay, 2 miles SE of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 02' 25" N, 135° 17' 30" W; (map 9) Variant: Dove Islet. Named by USN in 1880 for "Mr. Dove," who was employed on the U.S.S. Jamestown that year. The name was published by USC&GS in the 1883 Coast Pilot (p. 144).

Dove Island: island, 0.1 miles long, in Davidson Inlet, 0.4 miles E of White Cliff Island, Alexander Archipelago; 55° 54' 50" N, 133° 27' 55" W; (map 4). Descriptive name given in 1917 by USC&GS because "fancied resemblance of charted outline * * * to a dove."

Dove Islet: island, see Dove Island.

Dovelawik Bay: bight, 4 miles SE of Gambell, between Meruwtu Point and Agtapuk Point, on N coast of Saint Lawrence Island; 63° 44' N, 171° 39' W; BGN 1951; (map 93). Variant: Tiflighak Bay, Tivlarak Bay. Eskimo name reported in 1944 by Lawrence Kulukhan of Gambell. Orth recorded the name "Tivlarak," meaning "portage," in 1965 at Gambell; named because it is the east end of a trail which extends over the hills from Gambell and south end of Troutman Lake.

Doverspike Creek: stream, flows SE 1 mile to Adam Creek, 10 miles N of Solomon, Seward Peninsula Highlands; 64° 42' N, 164° 27' W; (map 95). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Dovolno Point: point of land, at head of Kizhuyak Bay, 16 miles SW of Kodiak, on N coast of Kodiak Island; 57° 44' 30" N, 152° 50' 40" W; (map 34). Variant: Mys Nizmenny. Russian name meaning "sufficiently," published in 1943 by USC&GS. The descriptive name "M[ys] Nizmenny, ' ' meaning "low cape," was given to this point in 1839 or 1840 by Sub-Lt. Mikhail Murashev, IRN, and published in 1849 on Russian Hydrog. Dept. Chart 1425.

Dowling Peak: peak, 4,104 ft., 2.5 miles SW of Mount Carter and 48 miles NE of Valdez, Chugach Mountains; 61° 46' 15" N, 145° 47' 00" W; (map 68). Named in 1898 by Capt. W. R. Abercrombie, USA.

Downbeat Mountain: mountain, 2,140 ft., 2.5 miles E of Red Mountain and 16 miles NW of Hagemeister Island, Kilbuck-Kuskokwim Mountains; 58° 58' N, 161° 03' W; (map 39). Local name published in 1951 by USGS.

Downer Glacier: glacier, trends W 2.6 miles, in Dora Keen Range, 46 miles NW of Valdez, Chugach Mountains; 61° 16' 50" N, 147° 38' 30" W; BGN 1930; (map 69). Named in 1910 by Lawrence Martin for the Milwaukee-Downer College for Women, Milwaukee, Wis.

Downey Creek: stream, flows NE 16 miles to Kuskokwim River, 14 miles NW of Red Devil and 20 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 52' 45" N, 157° 39' 10" W; BGN 1943; (map 72). Named in 1943 by USGS "for a trapper who lived near the mouth."

Downwind Lake: lake, 0.5 miles long, N of Denali Highway, 22 miles W of Paxson, Alaska Range; 63° 04' 40" N, 146° 11' 20" W; (map 86). Named between 1948 and 1955 by T. L. Pewe, USGS.

Dowry Creek: stream, flows SE 1 mile to Salmon River, 1.5 miles E of Red Mountain and 27 miles NE of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 57' N, 161° 42' W; BGN 1938; (map 39) Local name established before 1933.

Doyhof: area, see Scow Bay.

Doyhof: settlement, on N coast of Mitkof Island, 1 mile SW of Petersburg, Alexander Archipelago; 56° 47' 00" N, 132° 58' 30" W; (map 6). Variant: Doyhoff. Former cannery, the name of which was derived from part of the last names of Myer Hofstad and his partner "Doyen." The Doyhof post office was established in 1918; discontinued in 1936 (Ricks, 1965, p. 17). See Scow Bay.

Doyhoff: settlement, see Doyhof.

Doyle Bay: cove, 1.3 miles across, on W coast of Prince of Wales Island, 5 miles SE of Craig, Alexander Archipelago; 55° 24' 50" N, 133° 02' 40" W; BGN 1966; (map 4). Local name reported in 1963 by USFS. "Pioneer residents in Craig and general area believe the bay was named after an old prospector by the name of Doyle, who lived in the area in the early settlement of Craig."

Doyle Island: island, extends E-W 4 miles, in Yukon River, 0.4 miles N of Edith Island and 38 miles NE of Ruby, Nowitna Lowland; 64° 56' N, 154° 17' W; (map 98). Riverboat pilots' name shown on 1940 "Navigation Chart, Tanana-Yukon Rivers" of the River Boat Service, U.S. Dept. of Interior.

Drag Island: island, 0.2 miles long, in Chichagof Pass between Etohin and Woronofski Islands, Alexander Archipelago; 56° 21' 05" N, 132° 32' 50" W; BGN 1917; (map 6). Named in 1913 by USC&GS.

Dragon Point: point of land, on S coast of Carlisle Island, Aleutian Islands; 52° 51' 35" N, 170° 02' 50" W; (map 20). Name published by USC&GS in the 1944 Aleutian Coast Pilot (p. 77).

Dragonfly Creek: stream, flows W 1.5 miles to Nenana River, 4.5 miles N of village of McKinley Park, Alaska Range; 63° 47' 45" N, 148° 55' 27" W; BGN 1965; (map 87). Named in 1965 by Alaska Dept. of Highways for the "dragonflies that are abundant in the area." See Iceworm Gulch.

Drake Head: point of land, between Kempff and Lazy Bays, on Alitak Bay at S end of Kodiak Island; 56° 56' 20" N, 154° 12' 50" W; (map 32). Name reported in 1900 by Lt. Comdr. J. F. Moser, USN.

Drake Island: island, 3.2 miles long, in Glacier Bay, at N end of Whidbey Passage, in Glacier Bay National Monument, 3 miles W of Marble Mountain and 48 miles NW of Hoonah, St. Elias Mountains; 58° 39' 15" N, 136° 13' 30" W; (map 10). Origin of name unknown. It first appears an Brit. Adm. Chart 2431, corrected in 1890.

Drake Lake: lake, 1 mile long, on Kenai Peninsula, E of Dolly Varden Lake, 20 m. NE of Kenai, Cook Inlet Lowland; 60° 42' 15" N, 150° 45' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range for administrative purposes.

Drake, Mount: mountain, 1,925 ft., 12.5 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 49' 10" N, 136° 16' 10" W; (map 9) Name published in 1928 by USC&GS on Chart 8258.

Dranish, Mount: mountain, see Dranishnikof, Mount.

Dranishikoff Settlement: locality, see The Redoubt.

Dranishnikof, Mount: mountain, 3,220 ft., 10 miles S of Sitka, on W coast of Baranof Island, Alexander Archipelago; 56° 54' N, 135° 17' W; (map 5). Variant: Dranishnikoff Peak, Gora Dranishnikova, Mount Dranish, Redoubt Mountain. Named in 1809 by the Russian navigator, Ivan Vasiliev the first, IRN; published by Lt. Sarichev (1826, map 19), IRN, as "G[ora] Dranishnikova" or "Dranishnikov Mountain."

Dranishnikoff Peak: mountain, see Dranishnikof, Mount.

Dranishnikov River: stream, on W side of Baranof Island, heads on S side of Mount Dranishnikof, flows S 1 mile to head of Redoubt Bay, Alexander Archipelago; 56° 53' 15" N, 135° 17' 15" W; (map 5). Variant: Ryka Dranishnikova. Name published by Lt. Sarichev (1826, map 19), IRN, as "Ryka Dranishnikova," or "Dranishnikov River." This feature is not shown on current maps.

Dranishnikova, Gora: mountain, see Dranishnikof, Mount.

Dranishnikova, Ryka: stream, see Dranishnikov River.

Draper, Mount: mountain, 5,670 ft., 2.3 miles SW of Nunatak and 29 miles NE of Yakutat, St. Elias Mountains; 59° 48' 25" N, 139° 04' 40" W; (map 46). Named by Russell (1892, p. 86) for John W. Draper, his "highly esteemed teacher."

Dravnoi' : cove, 0.3 miles across, SW of Garden Cove, on SE coast of St. George Island, Pribilof Islands; 56° 33' 30" N, 169° 32' 00" W; (map 38). Variant: Kologho. Russian name listed by Putnam (1903, p. 1014), USC&GS, meaning "wooded"; "so called because of the amount of drift-wood found on the beach." The Russian word "drove" means "fire-wood." Putnam (p. 1015) lists the Aleut name as "Kologho" meaning "choked" or "full," again referring to beach drift-wood.

Drayham Creek: stream, flows NW 6 miles to Charley River, 16 miles SW of that stream's junction with Yukon River, Yukon-Tanana Highlands; 65° 07' N, 143° 02' W; (map 103). Prospectors' name from an unpublished map by E. J. Chamberlain, dated 1902.

Dream Creek: stream, flows W 6 miles to Gibraltar Lake, 30 miles SE of Iliamna, Aleutian Range; 59° 20' N, 154° 36' W; (map 51). Name published by K. F. Mather (in Brooks and others, 1925, pl. 3), USGS, because in 1923 a field party led by R. H. Sargent "experienced some dreams there."

Dream Gulch: ravine, on W slope of Fourth of July Hill, trends W to Deep Creek, 23 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 04' N, 147° 08' W; BGN 1939; (map 105). Local name published in 1939 by USGS.

Dreamland Creek: stream, in Ray Mountains, flows N 10 miles to Big Salt River, 27 miles NNW of Rampart and 67 miles NE of Tanana, Kokrines-Hodzana Highlands; 65° 52' 12" N, 150° 30' 00" W; (map 106). Prospectors' name reported in 1956 by Orth. The name expresses a ribald connotation.

Dreamy Gulch: ravine, trends NW to Kougarok River, between Arctic and Eldorado Creeks, 11 miles SW of Midnight Mountain and 47 miles W of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Monroe and Hutchins; corrected to 1903 by Arthur Gibson. This ravine cannot be precisely located on current maps.

Dredge Lake: lake, 0.1 miles across, near head of Duck Creek, 1.2 miles S of Mendenhall Lake and 8.7 miles NW of Juneau, Coast Mountains; 58° 24' 00" N, 134° 33' 30" W; (map 11). Local name published by USGS in 1962.

Dreist Point: point of land, see Driest Point.

Drenchwater Creek: stream, heads in DeLong Mountains, flows NE 10 miles to Kiligwa River, 22 miles N of Feniak Lake, Brooks Range; 68° 07' N, 158° 30' W; BGN 1960; (map 132). So named in 1951 by Island L. Tailleux, USGS, "because of excessive rain experienced there."

Dress Point: point of land, between Gedney and Hassler Passes, on NW coast of Revillagigedo Island, Alexander Archipelago; 55° 51' 10" N, 131° 33' 40" W; (map 3). One of many arbitrary names applied to features in this area in 1891 by USC&GS.

Drew Creek: stream, flows SE to Snowshoe Creek which flows to Cripple River, about 33 miles NW of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Drew Point: point of land, on coast of Beaufort Sea, E point of entrance to Smith Bay, Arctic Plain; 70° 52' 30" N, 153° 56' 00" W; (map 148). Variant: Amil-rhoen, Point Drew. On July 28, 1837, Thomas Simpson (1843, p. 138) wrote, "we reached a point, named after Richard Drew, Esquire, of the Hudson's Bay Company * * *." The Eskimo name "Amil-rhoen" appears on Maguire's map (Great Britain, 1854, facing p. 186).

Drier Bay: estuary, on W coast of Knight Island, extends SW 5 miles to Knight Island Passage, 7.5 miles NE of Chenega, Chugach Mountains; 60° 18' 30" N, 147° 52' 30" W; (map 63). Local name reported in 1900 by F. C. Schrader, USGS.

Driest Point: point of land, between Port Chester and Sylburn Harbor, on W coast of Annette Island, 11 miles S of Ketchikan, Alexander Archipelago; 55° 10' 40" N, 131° 36' 15" W; (map 3). Variant: Dreist Point. Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Drift River Lobe Double Glacier: glacier, extends S 4 miles from Double Glacier to its 1958 terminus, at head of tributary of Drift River, 42 miles W of Kenai, Aleutian Range; 60° 38' N, 152° 28' W; (map 62). Local name reported in 1958 by USGS.

Drift River: stream, heads at glacier terminus, flows E 35 miles to Redoubt Bay, Cook Inlet, 30 miles W of Kenai, Cook Inlet Lowland; 60° 35' N, 152° 07' W; (map 62). Local name reported in 1912 by USC&GS.

Drifting Snow Creek: stream, heads in Canada at 66° 06' N, 140° 15' W, flows NW 35 miles to Salmon Fork Black River, 30 miles NW of Midnight Hill, Porcupine Plateau; 66° 27' 32" N, 141° 27' 40" W; BGN 1959; (map 120). Variant: Bern Creek. Local name reported in 1956 by R. E. Isto, USGS. The name is a translation of the Indian name "khattsiltatlenjik."

Driftwood Bay: bay, 1.7 miles across, on N coast of Unalaska Island, Aleutian Islands; 53° 59' N, 166° 51' W; (map 23). This name was published in the 1944 Aleutian Coast Pilot (p. 42).

Driftwood Bay: bay, 2 miles across, on S coast of Umnak Island, Aleutian Islands; 52° 56' N, 168° 45' W; (map 21). Variant: Bay of Firewood, Bukhta Drovenaya, Drovenaia, Drovianaia, Dvoinoi, Dvoynoy, Staraiia gavan, Twin Bay. Name taken from descriptive Russian name published by Capt. Tebenkov (1852, map 25), IRN, as "B[ukhta] Drovenaya," meaning "bay of firewood." This feature was also called "Dvoynoy," meaning "double," because of its shape.

Driftwood Bay: bay, 2 miles wide, on W coast of Resurrection Peninsula, 16 miles SE of Seward, Chugach Mountains; 59° 56' N, 149° 13' W; (map 49). Local name reported in 1908 by U. S. Grant, USGS.

Driftwood Cove: bay, 0.3 miles across, 7 miles W of Port Alexander, on E coast of Baranof Island, Alexander Archipelago; 56° 16' 15" N, 134° 49' 15" W; (map 5). Descriptive name given for charting purposes by USC&GS in the 1925 Coast Pilot (p. 279)

Driftwood Creek: stream, heads at Thunder Mountain, in DeLong Mountains, and flows NW 35 miles to Utukok River, 42 miles N of Misheguk Mountain, Brooks' Range; 68° 51' N, 161° 07' W; BGN 1961; (map 131). Variant: Karvak Creek. Named by the 1925 USGS exploring expedition, "because of the utilization of driftwood found along its banks for fuel." The Eskimo name for this stream is "Karkak" (Chapman and Sable, 1960, p. 53).

Driftwood Slough: watercourse, in distributary system of Yukon River, extends NW 22 miles between Kashunuk Slough and Yukon River, 43 miles NW of Marshall, Yukon-Kuskokwim Delta; 62° 02' 30" N, 163° 22' 30" W; (map 77). Local name reported by Harrington (1918, p. 1),USGS.

Drill Creek: stream, flows SW 16 miles to Beluga River, 1 mile E of Beluga Lake and 24 miles NW of Tyonek, Cook Inlet Lowland; 61° 23' 30" N, 151° 26' 45" W; BGN 1964; (map 70). So named in 1962 by USGS because "there was extensive drilling along the stream by the U.S. Bureau of Mines in 1959-1961."

Drill Lake: lake, 2,100 ft. long, W of Chickaloon 24 miles NE of Palmer, Talkeetna Mountains; 61° 47' 35" N, 148° 00' 45" W; (map 69). Local name reported in 1942 by AMS; so named for the oil wells that were drilled in the area.

Drip Point: point of land, W point of an unnamed island, in Ogden Passage, 2.5 miles W of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 39' 22" N, 139° 09' 50" W; (map 9). Name published in 1928 by USC&GS on Chart 8280.

Driver Bay: bight, 1 mile across, on NW coast of Raspberry Island, 22 miles WNW of Afognak, Kodiak Island, 58° 06' 30" N, 153° 20' 30" W; (map 43). Local name published in 1943 by USC&GS.

Drolette' s: locality, see Kings Slough Village.

Drop Creek: stream, heads at Drop Glacier terminus, flows N 25 miles to Copper River, 57 miles SW of Tok, Copper River Basin; 62° 40' N, 144° 06' W; (map 83). Descriptive name derived in 1902 by F. C. Schrader, USGS "from its steep slope and torrential flow."

Drop Glacier: glacier, heads on Mount Sanford, trends NE 12 miles to its 1960 terminus at head of Drop Creek, 11 miles WSW of Copper Lake, Wrangell Mountains; 62° 23' N, 143° 58' W; (map 83). Named in 1902 by F. C. Schrader, USGS, for Drop Creek.

Drouin Ranch: railroad station, see Dome Spur.

Drovenaia: bay, see Driftwood Bay.

Drovenaya, Bukhta: bay, see Driftwood Bay.

Drovianaia: bay, see Driftwood Bay.

Drozdof Island: island, see Blackbird Island.

Drozdov, Ostrov: island, see Blackbird Island.

Drug Island: island, 200 ft. across, in Ryus Bay, N of Duke Island, Alexander Archipelago; 54° 57' 55" N, 131° 24' 45" W; (map 2). Local name published in 1920 by USC&GS.

Drum, Mount: mountain, 12,010 ft., 18 miles SW of Mount Sanford and 21 miles SE of Gulkana, Wrangell Mountains; 62° 07' N, 144° 38' W; (map 83). Named in 1885 by Lt. Allen (1887, p. 59), USA, for Adj. Gen. Richard Coulter Drum, 1825-1909, who entered the army in 1846, served in the Mexican War, participated in an expedition against the Sioux Indians in 1856, and became a Brig. Gen. during the Civil War. It was first climbed June 4, 1954 by Heinrich Harrer, Keith Hart, and George Schaller (Farquhar, 1959, p. 219).

Drunkard Bay: bay, on SE coast of Kodiak Island, (map 34). Variant: Drunkard's Bay. Name recorded in 1805 as "Drunkard's Bay" by Lisianski (1814, p. 178). Location unknown.

Drunkard's Bay: bay, see Drunkard Bay.

Dry Bay: bay, 2.7 miles long, on E coast of Alaska Peninsula, 47 miles W of Karluk, Aleutian Range; 57° 37' 40" N, 155° 43' 00" W; (map 35). Descriptive local name obtained from J. L. McPherson of Iliamna, reported in 1903, and published by G. C. Martin (1905, pl. 6) USGS.

Dry Bay: bay, 1 miles across, 3 miles N of Point Vandeput, 88 miles E of Sitka, Coast Mountains; 57° 03' 30" N, 133° 01' 08" W; (map 8). Local name reported in 1951 by USGS.

Dry Bay: bay, see Sukhoi Bay.

Dry Bay: bay, see Sukoi Bay.

Dry Bay: bight, on S coast of Iniskin Peninsula, SW of Chinitna Point, Aleutian Range; 59° 40' N, 153° 08' W; (map 51). Named by prospectors; published by G. C. Martin (1905, p. 48), USGS.

Dry Bay: delta, 16 miles across, on NE shore of Gulf of Alaska, at mouth of Alsek River, 48 miles SE of Yakutat, Malaspina Coastal Plain; 59° 08' N, 138° 25' W; BGN 1966; (map 46). Variant: Beerings Bay, Behrings River, Five Rivers, Shallow Bay. Named in 1869 by G. Davidson, USC&GS, because it appeared to be a shallow lagoon fed by silt laden glacial streams. In 1778 Capt. James Cook (1785, v. 2, 347), RN, named it "Bearing's Bay" as he thought that Bering anchored here in 1741.

Dry Bay: tidal flat, 0.5 miles across and 2 miles long on E shore of Stephens Passage, 1 miles S of Point Lookout and 53 miles SE of Juneau, Coast Mountains; 57° 38' 15" N, 133° 40' 15" W; (map 8). Prospectors' name reported in 1903 by Spencer and Wright (1906, fig. 4), USGS.

Dry Birch Creek: stream, see Birch Creek.

Dry Canyon Creek: stream, flows NW 11 miles to Arathlatuluk Creek, 26 miles NW of Elim and 55 miles NE of Solomon, Seward Peninsula Highlands; 64° 55' N, 162° 48' W; (map 95). Variant: Box Canyon. Prospectors' name published as "Dry or Box Canyon" on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Dry Cove: cove, extends SE 1 mile to Portage Bay, on N coast of Kupreanof Island, Alexander Archipelago; 56° 59' N, 133° 20' W; (map 6). Descriptive name given in 1882 by Lt. Comdr. H. E. Nichols, USN.

Dry Creek Mountain: mountain, see Newton Peak.

Dry Creek: locality, see Lignite.

Dry Creek: stream, flows NE 12 miles to Nenana River, 2 miles N of Healy, Alaska Range; 63° 53' 20" N, 148° 58' 30" W; (map 87). Local name shown on a 1916 fieldsheet by C. E. Griffin, USGS.

Dry Creek: stream, flows NW 1 mile to Timberline Creek, 67 miles SE of Healy, Alaska Range; 63° 11' N, 147° 26' W; (map 87). Local descriptive name obtained in 1951 by USGS.

Dry Creek: stream, flows NW 3 miles to Faro Creek, 25 miles N of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 27' 30" N, 161° 31' 00" W; (map 53). Name reported in 1920 by G. L. Harrington (in Brooks and others, 1921, p. 17), USGS.

Dry Creek: stream, flows NW 4 miles to Tuluksak River, 58 miles NE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 58' 30" N, 160° 06' 00" W; (map 59). Local descriptive name reported in 1955 by J. M. Hoare, USGS.

Dry Creek: stream, flows S 4.8 miles to Camp Creek, which flows to Sinuk River, 24 miles NW of Nome, Seward Peninsula Highlands; 64° 40' N, 166° 10' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901 pl. 17), USGS.

Dry Creek: stream, flows SE 1.8 miles to Casadepaga River, 23 miles NE of Solomon, Seward Peninsula Highlands; 64° 53' N, 164° 13' W; (map 95). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr. dated 1901.

Dry Creek: stream, flows SE 6 miles to Copper River, 4 miles E of Glennallen, Copper River Basin; 62° 07' 45" N, 145° 25' 00" W; (map 83). Named in 1898 by Capt. W. R. Abercrombie (in Glenn and Abercrombie, 1899, map 7), USA.

Dry Creek: stream, flows SW 3 miles to Kuskulana River, 35 miles NW of McCarthy, Wrangell Mountains; 61° 33' N, 143° 56' W; (map 67). Local descriptive name reported in 1912 by D. C. Witherspoon, USGS.

Dry Creek: stream, flows SW 5 miles to Snake River at Nome, Seward Peninsula Highlands; 64° 30' N, 165° 25' W; (map 94). Prospectors' name reported in 1899 by D. C. Witherspoon (in Schrader and Brooks, 1900, map 2), USGS.

Dry Creek: stream, heads at 63° 50' N, 147° 36' W, flows N 66 miles to Clear Creek, 24 miles S of Fairbanks, Tanana Lowland; 64° 31' N, 147° 35' W; (map 100). Variant: Silok Creek. So called locally because "It is said to join Wood River in times of flood, but during low water it sinks into the gravels and disappears" (Capps, 1912, p. 13).

Dry Creek: stream, heads at a small lake 1.5 miles W of Crescent Lake, flows NW 4.5 miles to Quartz Creek, 1 mile NW of Kenai Lake, 28 miles NW of Seward, Chugach Mountains; 60° 29' 15" N, 149° 42' 25" W; (map 63). Local name reported in 1952 by USGS.

Dry Creek: stream, heads in Darby Mountains, flows W. to Arathlatuluk Creek or Omilak Creek, about 30 miles NW of Elim, Seward Peninsula Highlands; (map 95). Local name reported in 1909 by Smith and Eakin (1911, pl. 1), USGS. The exact application of the name cannot be determined from maps.

Dry Creek: stream, heads in Dutch Hills, flows SE 2 miles to Cottonwood Creek, 27 miles NW of Talkeetna, Alaska Range; 62° 32' 45" N, 150° 49' 15" W; (map 81). Local descriptive name reported in 1958 by USGS.

Dry Creek: stream, heads in lake, on Macomb Plateau, and flows NE 15 miles to Johnson Slough, 2 miles SE of junction of Johnson and Tanana Rivers and 43 miles SE of Delta

Junction, Tanana Lowland; 63° 42' 00" N, 144° 34' 05" W; (map 86). Name published on relatively recent maps.

Dry Creek: stream, heads on Caribou Mountain, in Zane Hills, flows E 6 miles to Moraine Creek, 40 miles WNW of Hughes, Hogatza Highlands; 66° 10' 15" N, 155° 38' 00" W; (map 116). Descriptive name applied about 1955 by mining engineers; reported in 1956 by Orth.

Dry Creek: stream, in Kantishna Hills, flows SW 2 miles to Moose Creek, 3.2 miles ENE of Wonder Lake, Alaska Range; 63° 31' N, 150° 47' W; BGN 1932; (map 88). Local name reported in 1916 by Capps (1919, p. 74), USGS.

Dry Creek: stream, on E coast of Alaska Peninsula, flows NE 6.3 miles to Teresa Creek, 5 miles NNE of Cape Aklek and 45 miles NW of Karluk, Aleutian Range; 57° 44' 50" N, 155° 37' 20" W; (map 35). Local name obtained from J. L. McPherson of Iliamna; published by G. C. Martin (1905, p.54), USGS.

Dry Creek: stream, on Seward Peninsula, flows NW 3 miles to Lopp Lagoon, 15 miles NE of Cape Prince of Wales and 48 miles NW of Teller, Kotzebue-Kobuk Lowland; 65° 43' N, 167° 38' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Dry Creek: stream, see Lanagan Creek.

Dry Creek: stream, trends S 4 miles to Chignik Bay, on Alaska Peninsula, 13 miles N of Chignik, Aleutian Range; 56° 29' N, 158° 20' W; (map 30). Local name published in 1927 by USC&GS.

Dry Creek: village, see Healy.

Dry Gulch: ravine, extends 0.7 miles S to White Creek, 2 miles SW of head of Chititu Creek and 17 miles SE of McCarthy, St. Elias Mountains; 61° 17' N, 142° 32' W; (map 67). Local name obtained by USGS and published on maps since 1954.

Dry Gulch: ravine, extends W 2.4 miles to Middle Fork Koyukuk River, 1 mile downstream from Moose Creek and 3.2 miles from Wiseman, Brooks Range; 67° 21' 30" N, 150° 08' 00" W; (map 124). Local descriptive name obtained in 1956 by USGS topographers.

Dry Gulch: ravine, in Nutzotin Mountains, extends SE 2.5 miles from Chavolda Creek 4.2 miles SE of its junction with Chisana River, Alaska Range; 62° 08' N, 142° 01' W; (map 84). Name used by prospectors because of insufficient water for sluicing operations; reported in 1914 by S. R. Capps (in Brooks and others, 1915, p. 222), USGS.

Dry Gulch: ravine, trends NW 0.8 miles to Hidden Creek, 7 miles N of Medfra, Kilbuck-Kuskokwim Mountains; 63° 13' N, 154° 45' W; (map 89). Prospectors' name obtained in 1924 by J. S. Brown (in Smith, P. S., 1926, pl. 5), USGS.

Dry Gulch: ravine, trends SE 0.5 miles to Platinum Creek, 25 miles NE of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 55' 15" N, 161° 44' 15" W; BGN 1938; (map 39). Local name established before 1933.

Dry Island: island, 6 miles long, at S end of Frederick Sound, 20 miles SE of Petersburg and 12 miles NW of Wrangell, Coast Mountains; 56° 39' N, 132° 30' W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN.

Dry Lagoon: lagoon, trends NW 1 mile, inner Pavlof Bay, Bristol Bay Lowland, Alaska Peninsula, Aleutian Range; 55° 35' 30" N, 161° 36' 50" W; (map 28). Local name reported in 1929 by USGS.

Dry Lake: lake, 1,200 ft. long, in Matanuska Valley 6.9 miles NW of Palmer, Cook Inlet Lowland; 61° 37' 35" N, 149° 18' 50" W; (map 69). Local name reported in 1942 by AMS.

Dry Lake: lake, intermittent, 1.8 miles long, 4 miles SE of Barrow, Arctic Plain; 71° 20' N, 156° 36' W; (map 153). Descriptive name of a drained lake used in 1957 for scientific purposes.

Dry Mystery Creek: stream, flows SW 4.5 miles to Niukluk River, 3.5 miles SE of Council and 33 miles NE of Solomon, Seward Peninsula Highlands; 64° 51' N, 163° 35' W; (map 95). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Dry Pass: water passage, 10 miles NW of Chichagof, between Hill Island and W coast of Chichagof Island, Alexander Archipelago; 57° 46' N, 136° 18' W; BGN 1925; (map 9). Variant: El Capitan Passage, Klawak Passage. Local name reported about 1903 by USC&GS. "It is called 'dry' because during the ebb of large tides the narrows are dry." It was called Klawak Passage by USC&GS on Chart 8050 in 1902, which is the name of a passage 50 miles to the south. The name El Capitan Passage was suggested in 1904 by E. F. Davidson, USC&GS, because of the nearby El Capitan marble quarries.

Dry Pass: water passage, in W end of El Capitan Passage, 2.5 miles E of Shakan Bay, between Prince of Wales and Kosciuszko Islands, Alexander Archipelago; 56° 09' 45" N, 133° 24' 30" W; BGN 1925; (map 6). Variant: El Capitan Passage, Klawak Passage. Local descriptive name obtained from Capt. Cyrus Orr, of Shakan, reported in 1904 by E. F. Dickins, USC&GS; so called because "in the narrows it runs dry at ebb of every large tide." This feature was called " 'Klawak Passage' by the local fishermen because it is the beginning of the inside passage taken * * * from Shakan to Klawak."

Dry Pass: water passage, see El Capitan Passage.

Dry Rock: rock, 0.8 miles S of Tugidak Passage, in Trinity Islands, Kodiak Island; 56° 29' 15" N, 154° 25' 25" W; (map 32). Descriptive name published in 1943 by USC&GS.

Dry Spruce Bay: bay, 1 mile across, in Kupreanof Strait, on N coast of Kodiak Island; 57° 56' N, 153° 02' W; (map 34). Variant: Elnik, Eminik Bay, Sucho, Sukhoi, Zaliv Sukhoy Yelnik. Translation of the name "Z[aliv] Sukhoy Yelnik," published by Capt. Tebenkov (1852, map 23); derived from the name given to "Dry Spruce Island" in 1839 or 1840 by Sub-Lt. Mikhail Murashev, IRN. See Dry Spruce Island.

Dry Spruce Island: island, 1.5 miles long, between Dry Spruce Bay and Kupreanof Strait, off N coast of Kodiak Island; 57° 57' 20" N, 153° 02' 30" W; (map 34). Variant: Poluostrov Sukhago Yelnika. Named "Poluostrov Sukhago Yelnika," meaning "dry spruce peninsula," in

1839 or 1840 by Sub-Lt. Mikhail Murashev, IRN; published in 1849 on Russian Hydrog. Dept. Chart 1425 which shows a sand bar connecting this island to the north coast of Kodiak Island.

Dry Strait: stream, see Blind River.

Dry Strait: water passage, extends SE 5 miles from Frederick Sound to Koknuk Flats, at mouth of Stikine River, 10 miles NW of Wrangell, Alexander Archipelago: 56° 36' N, 132° 31' W; (map 6). Variant: Proliv Sukhoy, Soukhoi Strait, Suchoi Channel, Sukhoi Strait. Translation about 1880 by USC&GS of the name "Proliv Sukhoy" published in 1853 on Russian Hydrog. Dept. Chart 1493.

Dry Strait: water passage, see Sukoi Inlet.

Dry Tok Creek: stream, flows E 18 miles to Tok River, 25 miles SW of Tok, Alaska Range; 63° 09' N, 143° 42' W; BGN 1936; (map 85). Variant: Big Tokio River, Dry Tok River. Local name reported by USGS in 1936. So named because "it is so often dry during midsummer."

Dry Tok River: stream, see Dry Tok Creek.

Dry Wash: stream, flows SE 2 miles from Mount Basargin to Stikine River, 17 miles NE of Wrangell, Coast Mountains; 56° 42' 15" N, 132° 10' 30" W; (map 6). Local descriptive name recorded in 1960 by USGS.

Dryas Cone: hill, 762 ft., 6.5 miles E of Lava Lake and 12 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 35' N, 163° 39' W; (map 110). Reported in 1950 by D. M. Hopkins, USGS; one of "four conspicuous volcanic cones * * * named for wildflowers which are common on the slopes of all four cones."

Dryas Creek: stream, flows SW 2 miles to Glacier River, 4 miles E of Foggytop Mountain and 19 miles N of Wiseman, Brooks Range; 67° 40' N, 150° 24' W; BGN 1932; (map 124). Named about 1930 by Robert Marshall, because of "the abundance of the white flower of the genus dryas, growing near the mouth of the stream."

Drying Point: point of land, on E shore of Dry Spruce Bay, 24 miles NW of Kodiak, Kodiak Island; 57° 57' 15" N, 152° 59' 40" W; BGN 1939; (map 34). Variant: Cape Obsiekaiushie, Cape Obsikhaiuschchi, Mys Obsykhayushchiy, Portage Point. Translation in 1910 by USC&GS of the name "M[ys] Obsykhayushchiy," given in 1839 or 1840 by Sub-Lt. Mikhail Murashev, IRN; and published in 1849 on Russian Hydrog. Dept. Chart 1425. Baker (1906, p. 507) applied "Drying Point" to "Perenosa Point" and calls this feature "Portage Point." See Perenosa Point.

Drying Point: point of land, see Perenosa Point.

Dtehshuh: village, see Haines.

Dual Head: promontory, 1,732 ft., on E coast of Kenai Peninsula, between Icy Bay and Whole Bay, 4.5 miles SW of Chenega, Chugach Mountains; 60° 15' N, 148° 12' W; BGN 1934; (map

63). So named in 1933 by a USC&GS field party “because the two peaks close together at the summit are the dominant feature.”

Dubin Point: point of land, on right bank of Koyukuk River, 8 miles S of Roundabout Mountain, Koyukuk Lowland; 65° 27' N, 156° 27' W; (map 108). Local name obtained at Huslia by USGS in 1954 or 1955.

Dubli River: stream, see Dulbi River.

Dublin Bay: bight, see Cataract Cove.

Dubuque Mountain: mountain, 2,405 ft., on Annette Island, 5.8 miles E of Metlakatla, Alexander Archipelago; 55° 07' 05" N, 131° 25' 30" W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN; “named after the city in Iowa.”

Duchess Island: barrier island, 2 miles long, on Beaufort Sea coast, in Maguire Islands, 4 miles NW of Flaxman Island, Arctic Plain; 70° 14' N, 146° 24' W; (map 151). Named by Leffingwell (1919, p. 95) in 1913 after the schooner Duchess of Bedford of the Anglo-American Polar Expedition, 1906-07.

Duchikmiut River: stream, heads at Karon Lake, flows SE 12 miles to Duchithluk Bay, 2.5 miles N of Cape Mendenhall, Nunivak Island; 59° 51' N, 166° 09' W; (map 55). Variant: Duchixthluk River, Dutchikamiut. Eskimo name obtained in 1949 by USC&GS.

Duchikmiut: locality, on right bank of Duchikmiut River, 2.5 miles N of Cape Mendenhall, Nunivak Island; 59° 51' 20" N, 166° 08' 30" W; (map 55). Variant: Duchixthluk, Tachikhthlamiut. Eskimo fish camp reported in 1932 by USC&GS.

Duchikthluk Bay: bay, 5 miles across, N of Cape Mendenhall, Nunivak Island; 59° 49' N, 166° 08' W; (map 55). Variant: Tachikthluk Bay. Eskimo name reported in 1937 by USAAF.

Duchixthluk River: stream, see Duchikmiut River.

Duck Bay: bay, 6 miles across, 13 miles NE of Afognak, on SE coast of Afognak Island, N of Kodiak Island; 58° 06' N, 152° 28' W; (map 43). Variant: Kalagin, Selezneva. Translation by Baker (1906, p. 227) of “Z[aliv] Selezneva” as “drake [wild duck] bay,” published by Capt. Tebenkov (1852, map 23) IRN.

Duck Bay: cove, “an indentation of the coast line of Udagak Strait on Unalaska Island” (Wagner, 1937, p. 449). Name published in 1791 by Alexander Dalrymple (p. 356).

Duck Cape: point of land, in Seal Bay, 33 miles NE of Afognak, on NE coast of Afognak Island, N of Kodiak Island; 58° 23' N, 152° 13' W; (map 43). Variant: Selezneva. Translation of the name “M[ys] Selezneva” published in 1849 by the Russian American Company.

Duck Creek: stream, flows 3.5 miles SW to Gastineau Channel at Juneau Airport, 7.8 miles NW of Juneau, Coast Mountains, 58° 24' N 134° 27' W; (map 11). Variant: Knudson Creek, Sand Bar Creek. Originally named by Daniel Foster in 1885. In 1886 the name was changed by Frederick Barney to “Sand Bar Creek.” For many years the creek was also known locally

as “Knudson Creek,” for Thomas Knudson, who it is said was the first (1905) Alaskan homesteader to secure title to his ground. The name “Duck Creek” reappeared on a map by USGS in 1912 and it has been in use since then (DeArmond, 1957, p. 16).

Duck Creek: stream, flows NE 2.5 miles to W shore of Red Bay, on N coast of Prince of Wales Island; Alexander Archipelago; 56° 18' N, 133° 21' W; (map 6). Named in 1886 by Lt. J. M. Helm, USN, for charting purposes; name published in 1887 on USC&GS Chart 706.

Duck Creek: stream, flows NE 33.5 miles to Buckland River, 49 miles SW of Selawik, Kotzebue-Kobuk Lowland; 66° 06' N, 161° 12' W; (map 114). Local name reported in 1908 by USGS (Brooks and others, 1909, fig. 21).

Duck Creek: stream, flows SE 13 miles to Imuruk Basin, 25 miles SE of Teller, Seward Peninsula Highlands; 65° 10' N, 165° 32' W; (map 111). Prospectors' name published in 1956 by USGS.

Duck Creek: stream, heads in lake, flows SE 4.7 miles to Kvichak River, 3 miles N of Telephone Point and 15 miles N of Naknek, Bristol Bay Lowland; 58° 57' 30" N, 157° 01' 30" W; (map 41). Local name reported in 1952 by USGS.

Duck Flats: flats, extend 6 miles W of mouth of Matanuska River, between Knik Arm Cook Inlet and Palmer Slough, 7.5 miles SW of Palmer, Cook Inlet Lowland; 61° 31' 30" N, 149° 20' 30" W; (map 69). Local name reported in 1942 by AMS.

Duck Island: island, 0.2 miles long, in mouth of Tuxedni Bay, E of Chisik Island, in Cook Inlet, 55 miles SW of Kenai, Aleutian Range; 60° 09' N, 152° 34' W; (map 62). Local name published in 1912 by USC&GS.

Duck Island: island, 0.3 miles long, in Sagavanirktok River Delta, on Beaufort Sea coast, 33 miles SE of Beechey Point, Arctic Plain; 70° 18' 29" N, 147° 54' 30" W; (map 150). Named by Leffingwell (1919, p. 95) in 1911.

Duck Island: island, 150 ft. across, 2.5 miles WNW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 40' 30" N, 136° 09' 33" W; (map 9). Name published in 1928 by USC&GS on Cart 8258.

Duck Island: islands, see Duck Islands.

Duck Island: peninsula, (at high water an island), 1 mile across, on S shore of Bradfield Canal 4 miles SW of its head, Coast Mountains; 56° 11' 30" N, 131° 36' 00" W; (map 7). Named in 1886 by Lt. Comdr. A. S. Snow, USN.

Duck Islands: islands, extend 1 mile along NE coast of Duke Island, Alexander Archipelago; 54° 59' 00" N, 131° 14' 30" W; (map 2). Variant: Duck Island. Name reported by USFS as “Duck Island”; published in 1943 by USC&GS as Duck Islands.

Duck Lake: lake, 0.6 miles long, on Kenai Peninsula, 2.5 miles NW of Swan Lake and 24 miles NE of Kenai, Cook Inlet Lowland; 60° 41' 45" N, 150° 37' 15" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Duck Lake: lake, 1 mile across, 4 miles SW of Solsmunket Lake and 65 miles SE of Shungnak, Koyukuk Lowland; 65° 02' N, 156° 15' W; (map 115). Local name reported by USGS in 1952.

Duck Lake: lake, 250 ft. across, 12 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 47' 40" N, 136° 18' 45" W; (map 9). Name published in 1928 by USC&GS on Chart 8258.

Duck Lake: lake, 3.5 miles SW of Roundabout Mountain, Koyukuk Lowland; 65° 30' N, 156° 38' W; (map 108). Local name obtained at Huslia by USGS in 1954 or 1955.

Duck Mountain: mountain, 2,048 ft., 16 miles NE of Afognak, on SE coast of Afognak Island, N of Kodiak Island; 58° 10' 10" N, 152° 29' 00" W, (map 43). Name derived from Duck Bay and published by USC&GS in 1843.

Duck Point: point of land, on NW tip of Duck Island, on S shore of Bradfield Canal 4.5 miles SW of its head, Coast Mountains; 56° 11' 40" N, 131° 36' 40" W; (map 7). Local name derived from Duck Island and published in 1955 by USGS.

Duck Point: point of land, on S end of Whitney Island, in Fanshaw Bay, 71 miles E of Sitka, Coast Mountains; 57° 12' 45" N, 133° 31' 00" W; (map 8). Name published in 1891 by USC&GS.

Duck River: stream, flows SW 1.5 miles from Silver Lake to the Lagoon at head of Galena Bay, 40 miles NW of Cordova, Chugach Mountains; 60° 57' N, 146° 33' W; (map 64). Prospectors' name reported in 1912 by USGS (in Brooks and others, 1912, pl. 4).

Duck Village: locality, E shore of Kazakof Bay, S coast of Afognak Island, 12 miles NE of Afognak, Kodiak Island; 58° 06' 30" N, 152° 33' 00" W; (map 43). Variant: Kalagin, Selezneva. Translation by Baker (1906, p. 227) of "Seleniye Selezneva," meaning "drake village," published by Capt. Tebenkov (1852, map 23), IRN. The Russian Hydrog. Dept. published the name "M[y]sl Seleznevskago Seleniya," meaning "drake village cape," in 1849 on Chart 1425. According to Father Veniaminov (1846) the Aleut name for this village is "Kalagak," which according to R. H. Geoghegan, comes from the word "kalagaq" meaning "drake."

Duck Village: locality, see Little Afognak.

Duckbill Lake: lake, 0.3 miles long, on Kenai Peninsula between Otter and Weasel Lakes, 21 miles NE of Kenai, Cook Inlet Lowland; 60° 39' 45" N, 150° 41' 10" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Duckling Lake: lake, 0.6 miles long, on Kenai Peninsula SE of Kayak Lake, 4 miles N of Swan Lake and 28 miles NE of Kenai, Cook Inlet Lowland; 60° 44' 30" N, 150° 33' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Ductoth River: stream, see Duktoth River.

Dude Creek: stream, flows N 9 miles to Liberty Creek, 19 miles SE of Chicken and 61 miles NE of Tok, Yukon-Tanana Highlands; 63° 53' N, 141° 28' W; (map 85). Local name reported by USGS in 1950.

Dude Mountain: mountain, 2,848 ft., on Revillagigedo Island, 5 miles N of Ketchikan, Alexander Archipelago; 55° 24' 55" N, 131° 36' 50" W; (map 3). Named in 1886 by USC&GS.

Dudosa, Isla: island, see Wingham Island.

Duff, Mount: mountain, 7,170 ft., on Alaska-Canada boundary, 4.5 miles SE of Mount Armour and 42 miles NE of Yakutat, St. Elias Mountains; 59° 50' 30" N, 138° 40' 30" W; BGN 1954; (map 46). Variant: Boundary Peak 174. Named by IBC in 1923 for Sir Lyman Poore Duff, 1865-1948, a junior counsel before IBC in 1903, and Judge of the Supreme Court of Canada. Born in Canada, he was educated at the Univ. of Toronto and later served as Judge of the Supreme Court of British Columbia and the Supreme Court of Canada. He became Chief Justice in 1933, which position he held until his retirement in 1944.

Duffield Glacier: glacier, see Turner Glacier.

Duffield Peninsula: peninsula, 8 miles long, on N coast of Baranof Island, 30 miles N of Sitka, Alexander Archipelago; 57° 30' N, 135° 25' W; (map 9). Named in 1895 by Lt. Comdr. E. K. Moore, USN, for Gen. William Ward Duffield, 1823-1907, a general in the Civil War, an engineer, and superintendent of USC&GS, 1894-97.

Duga Point: point of land, see Nemo Point.

Dugan Creek: stream, flows NE 10 miles to Yukon River S. of Eagle Island, 47 miles SE of Unalakleet, Nulato Hills; 63° 29' 30" N, 159° 00' 50" W; (map 91). Local name reported in 1949 by USC&GS.

Dugan Creek: stream, flows SW 12 miles to Tanana River, 58 miles NE of Bitzshtini Mountains, Tanana Lowland; 64° 56' N, 150° 20' W; (map 99). Local name reported in 1937 by USGS.

Dugan Hills: hills, trends W 33 miles from Tolovana River, along N side of Tanana River, 60 miles WNW of Fairbanks, Yukon-Tanana Highlands; 65° 00' N, 150° 00' W; BGN 1965; (map 105). Local name reported in 1963 by USGS; derived from nearby Dugan River.

Dugan River: stream, see Kantishna River.

Duglas, Mys: point of land, see Douglas, Cape.

Duitatuk Lake: lake, 1.8 miles long, 3 miles NW of Tikyitsal Mountain and 5 miles NE of Arctic Village, Brooks Range; 68° 11' N, 145° 23' W; (map 136). Kutchin Indian name obtained at Arctic Village in 1956 by T. E. Taylor, USGS.

Duke Hill: hill, 540 ft., on E coast of Duke Island, Alexander Archipelago; 54° 55' N, 131° 12' W; (map 2). Name derived from Duke Island; given in 1879 by W. H. Dall, USC&GS.

Duke Island: island, 12 miles across, between Clarence Strait and Revillagigedo Channel, Alexander Archipelago; 54° 55' N, 131° 20' W; (map 2). Named in 1879 by W. H. Dall, USC&GS. He probably took the name from the Duke of Northumberland, after whom the southern tip of this island had been named in 1793 by Capt. Vancouver, RN. See Cape Northumberland.

Duke of Clarences Strait: water passage, see Clarence Strait.

Duke of York Island: island, see Zarembo Island.

Duke Point: point of land, on E coast of Duke Island, extends into Revillagigedo Channel, Alexander Archipelago; 54° 55' 00" N, 131° 11' 20" W; (map 2). Name derived from Duke Island; given in 1879 by W. H. Dall, USC&GS.

Dukes, The: peaks, 6,300 ft., two peaks 0.2 miles apart, in Taku Range 0.7 miles SE of Emperor Peak and 19 miles N of Juneau, Coast Mountains; 58° 34' 40" N, 134° 22' 15" W; BGN 1965; (map 11). Descriptive name submitted by personnel of the Juneau Icefield Research Project in 1964.

Duksuk Lagoon: lagoon, see Dooksook Lagoon.

Duksuk River: stream, see Dooksook River.

Duktoth Mountain: mountain, 4,000 ft., 6.5 miles N of mouth of Duktoth River and 106 miles NW of Yakutat, Chugach Mountains; 60° 10' 50" N, 142° 29' 30" W; (map 65). Local name derived from the Duktoth River and published in 1951 by USGS.

Duktoth River: stream, heads at glacier terminus, flows SW and SE 28 miles to Gulf of Alaska, 4 miles WNW of Cape Yakataga, St. Elias Mountains; 60° 05' 15" N, 142° 32' 30" W; (map 65). Variant: Ductoth River, Quetoth River. Indian name reported as "Ductoth" in 1903 by G. C. Martin, USGS, and published by error as "Quetoth" by him (1905).

Dulbatna Mountain: mountain, 2,811 ft., N of Dulbi River and W of Radio Creek, 53 miles WNW of Birches, Kokrines-Hodzana Highlands; 65° 22' 00" N, 155° 16' 30" W; (map 107). Local name reported in 1956 as "Dalbatna Mountain" by Orth.

Dulbi Flats: flat, extends NE 30 miles from Dulbi Slough to Koyukuk River, 35 miles NW of Hochandochtla Mountain, Kokrines-Hodzana Highlands; 65° 45' N, 155° 45' W; (map 107). Local name shown on a 1932 sketch map of the area; author unknown.

Dulbi River: stream, flows NW 121 miles to Koyukuk River, 6 miles SE of Roundabout Mountain, Koyukuk Lowland; 65° 27' N, 156° 31' W; BGN 1961; (map 108). Variant: Dalbatna, Dulbikakat, Dulebekakat, Dubli River. Koyukuk Indian name published by Lt. Allen (1887, map), USA, as "Dulbikakat," meaning "mouth of the Dulbi." This name is shown as "Dulebekakat" by Lt. B. H. Camden, USRCS, in 1900 (Cantwell, 1904, p. 244). In 1956 Orth recorded the stream name as "Dalbatna," meaning "river of young geese."

Dulbi Slough: stream, heads at 65° 39' N, 156° 02' W, flows SW 63 miles to Koyukuk River, 9 miles SE of Roundabout Mountain, Koyukuk Lowland; 65° 27' N, 156° 19' W; (map 108). Name published in 1959 by USGS. See Dulbi River.

Dulbikakat: stream, see Dulbi River.

Dulebekakat: stream, see Dulbi River.

Dull Ax Lake: lake, 0.7 miles long, drains NW to Dry Creek, 5 miles SW of Carey Lake and 39 miles SSW of village of Lake Minchumina, Kuskokwim Lowland; 63° 20' 45" N, 152° 42' 30" W; (map 88). Local name obtained in 1962 from "Val" Blackburn and Fabian Carey by USGS.

Dulth Mountain: mountain, see Doolth Mountain.

Dumbbell Lake: lake, 0.8 miles long, on N shore of Iliamna Lake, between Pedro and Pile Bays, Aleutian Range; 59° 47' N, 154° 03' W; (map 51). Locally so named, because the lake is shaped like a dumbbell; published by USGS in 1954.

Dumbell Lake: lake, see Dumbbell Lake.

Dummy Creek: stream, flows W 20 miles to Mulchatna River, 40 miles W of Nondalton, Lime Hills; 60° 30' N, 155° 36' W; (map 61). Local name reported in 1914 by R. H. Sargent (in Smith and others, 1917, pl. 1), USGS.

Dumpling Mountain: mountain, 2,520 ft., between Lake Brooks and Naknek Lake, on Alaska Peninsula, in Katmai National Monument, 39 miles NW of Mount Katmai, Aleutian Range; 58° 35' N, 155° 51' W; BGN 1924; (map 42). Descriptive name given in 1919 by R. F. Griggs, National Geographic Society.

Dumplings, The: hills, see Klotz Hills.

Dunbar Inlet: estuary, extends NE 2.7 miles, off Tlerak Strait on W coast of Sukkwan Island, 30 miles SE of Craig, Alexander Archipelago; 55° 04' 30" N, 132° 52' 00" W; (map 4). Named in 1882 by W. H. Dall, USC&GS, "for Miss Margaret J. Dunbar, of Steubenville, Ohio, who began missionary work in Alaska in 1879" (Jackson, 1880, p. 375).

Dunbar: railroad station, mile 431.6 on The Alaska Railroad, 33 miles SW of Fairbanks, Yukon-Tanana Highlands; 64° 45' 30" N, 148° 47' 30" W; (map 100). Variant: Goldstream. Local name published on a timetable in 1922. The station was first called Goldstream because it was near the crossing over Goldstream Creek.

Duncan Canal: estuary, extends SE 22 miles to Sumner Strait, on Kupreanof Island, Alexander Archipelago; 56° 30' N, 133° 03' W; (map 6). Variant: Duncan Channel, Canal de Duncan. Named on August 30, 1793, by Capt. George Vancouver, RN, "for Admiral Adam Duncan" (Wagner, 1937, p. 315).

Duncan Channel: estuary, see Duncan Canal.

Duncan Creek: stream, flows NE 3.4 miles to Bullion Creek, in Pargon River basin, 12 miles NE of Council and 38 miles S of Imuruk Lake, Seward Peninsula Highlands; 65° 01' N, 163° 25' W; (map 110). Variant: Anaconda Creek. Prospectors' name reported in 1906 by USGS geologists (in Collier and others, 1908, pl. 8).

Duncan Creek: stream, flows SW 1.5 miles to Poorman Creek, 1.2 miles SE of Poorman and 46 miles S of Ruby, Kilbuck-Kuskokwim Mountains; 64° 05' 25" N, 155° 30' 45" W; BGN 1936; (map 98). Prospectors' name reported in 1914 by H. M. Eakin, USGS.

Duncan Creek: stream, flows W 6.7 miles to Tolovana River, 12 miles E of Livengood, Yukon-Tanana Highlands; 65° 30' 40" N, 148° 08' 40" W; (map 105). Named by prospectors; reported in 1916 by J. B. Mertie, Jr. (in Brooks and others, 1918, pl. 13), USGS.

Duncan Creek: stream, flows W 7.3 miles to head of Duncan Canal, 11 miles W of Petersburg, on W coast of Lindenberg Peninsula, Kupreanof Island, Alexander Archipelago; 56° 46' 30" N, 133° 14' 00" W; BGN 1960; (map 6). Local name reported in 1937 by USFS.

Duncan Passage: water passage, see Beecher Pass.

Duncan Peaks: peaks, 3,600 ft., on Portage Mountain, W coast of Lindenberg Peninsula, Kupreanof Island, 12 miles W of Petersburg, Alexander Archipelago; 56° 51' 15" N, 133° 13' 10" W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN.

Dunce Cap Point: point of land, on right bank of Yukon River, 2 miles NE of Old Kaltag and 51 miles SW of Nulato, Nulato Hills; 64° 02' N, 158° 46' W; (map 97). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the U.S. Dept. of Interior.

Dundas Bay: bay, 6 miles long, in Glacier Bay National Monument, in Icy Strait, N of North Inian Pass, 35 miles WNW of Hoonah, St. Elias Mountains; 58° 19' N, 136° 14' W, (map 10). Named by W. H. Dall, USC&GS, in 1879, probably for Dundas Point. Name was published in the 1883 Coast Pilot (p. 188).

Dundas River: river, in Glacier Bay National Monument, heads in Abyss Lake, flows SE 16 miles to Dundas Bay on Icy Strait, 4 miles N of Point Dundas and 37 miles NW of Hoonah, St. Elias Mountains; 58° 22' 30" N, 136° 19' 00" W; (map 10). Local name published by USGS in the 1950's.

Dundas, Point: point of land, in Glacier Bay National Monument, on N coast of Icy Strait, at North Inian Pass, 3 miles N of Inian Islands, 34 miles WNW of Hoonah, St. Elias Mountains; 58° 19' 00" N, 136° 16' 45" W; (map 10). Named in 1794 by Capt. George Vancouver, RN, for Henry Dundas, Treasurer of the British Navy at the time (Wagner, 1937, p. 385). Henry Dundas was born in Edinburgh and became Solicitor General of Scotland in 1766. He was elected to Parliament in 1774 and became Treasurer of the Navy in 1782. He was appointed Home Secretary in 1791 and First Lord of the Admiralty in 1804.

Dune Lake: lake, 1.3 miles long, 9 miles N of Totek Hills, Tanana Lowland; 64° 25' 30" N, 149° 53' 50" W; (map 100). Local name reported in 1950 by USGS topographers.

Duncan, Canal de: estuary, see Duncan Canal.

Dunlin Lake: lake, 0.4 miles across, on NW coast of Kenai Peninsula SW of Gull Lake, 20 miles NE of Kenai, Cook Inlet Lowland; 60° 48' 30" N, 150° 57' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Dunukchavuk Slough: watercourse, in Yukon Delta, narrow portion of Kwikpak Pass, extends NW 10 miles between Apoon and Kawanak Passes, 19 miles N of Kwiguk Yukon-Kuskokwim Delta; 63° 01' N, 164° 19' W; (map 92). Variant: Dook-Nuk-Chav-Uk. Eskimo name obtained in 1952 by USC&GS.

Dunuletak Creek: stream, flows S 14 miles to Paint River, 1.6 miles W of Akjemguiga Cove and 34 miles SW of Augustine Island, Aleutian Range; 59° 09' 30" N, 154° 17' 00" W; (map 51). Native name reported in 1923 by K. F. Mather (in Brooks and others, 1925, pl. 3), USGS.

Dunulimjingia Point: point of land, 14 miles SE of Cape Etolin, on NE coast of Nunivak Island; 60° 20' 00" N, 165° 48' 40" W; (map 57). Eskimo name obtained in 1949 by USC&GS.

Dununak: village, see Tanunak.

Dununuk: village, see Tanunak.

Dupone Creek: stream, see Dupont Creek.

Dupont Creek: stream, 1.2 miles long, flowing SW to Gastineau Channel at Dupont, 7.5 miles SE of Juneau, Coast Mountains; 58° 13' 45" N, 134° 15' 00" W; (map 11). Variant: Dupone Creek, Mission Creek. Named for the Dupont Powder Co., which stored powder for miners in a magazine built in 1914 near the mouth of the creek. Also called Mission Creek by miners for many years. There is some evidence that a Friends Mission was located here. Land along the beach, including the creek, was claimed for such a mission in 1889 (DeArmond, 1957, p. 16). The name Dupont Creek was published by USGS in 1918.

Dupont Peak: mountain, 3,765 ft., 17 miles ENE of Petersburg, Coast Mountains; 56° 53' 45" N, 132° 32' 40" W; (map 6). Named by USC&GS for charting purposes; name published in 1943.

Dupont: locality, on NE shore of Gastineau Channel, 4.2 miles NW of Point Salisbury and 7.5 miles SE of Juneau, Coast Mountains; 58° 13' 45" N, 134° 15' 00" W; (map 11). Named for the Dupont Powder Co. powder magazine built here in 1914 and used until the local mines closed (DeArmond, 1957, p. 16).

Durants Cove: cove, 0.3 miles across, at E end of Iliamna Lake, on S shore of Pile Bay, 8 miles NE of Squirrel Point, Aleutian Range; 59° 42' 35" N, 154° 02' 30" W; (map 51). Local name published in 1954 by USGS.

DuRelle, Mount: mountain, 4,074 ft., 10 miles NW of Tonsina and 51 miles NE of Valdez, Chugach Mountains; 61° 44' 25" N, 145° 25' 00" W; (map 68). Variant: Durelle Mountain. Named in 1898 by Capt. W. R. Abercrombie, USA.

Durham Creek: stream, heads in lake, flows NE 10 miles to Tazlina River, 13 miles SW of Glennallen, Copper River Basin, 62° 04' N, 145° 56' W; (map 83). Local name reported by USGS (in Chapin, 1918, pl. 1)

Durrant Creek: stream, flows NE 3.7 miles to Stewart River, 20 miles NW of Nome, Seward Peninsula Highlands; 64° 47' N, 165° 38' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Dushistoi Island: island, see Fragrant Island.

Dushistoy, Ostrov: island, see Fragrant Island.

Dushkin Lagoon: lagoon, 3 miles long, arm of Volcano Bay, 5 miles NW of Dolgoi Island, Aleutian Range; 55° 13' 30" N, 161° 55' 00" W; (map 28). Local Russian name reported by USGS in 1929.

Dushkot Island: island, 0.4 miles long, in Beaver Inlet, on E coast of Unalaska Island, Aleutian Islands; 53° 45' 35" N, 166° 30' 05" W; (map 23). Name published by Lt. Sarichev (1826, map 14), IRN, as "O[strov] Dushkhot" or "Dushkot Island." The name may have been derived from the Aleut word "daxtuk" meaning "kidney."

Dushnaia Bay: cove, see Close Bay.

Dushnaya, Bukhta: cove, see Close Bay.

Dusk Islands: islands, two, each less than 2,000 ft. long, in Kiliuda Bay, 0.7 miles W of Ermine Point, on SE coast of Kodiak Island; 57° 17' 15" N, 152° 53' 15" W; BGN 1930; (map 34). Variant: Dark Islands. Called "Dark Islands" in 1928 by USC&GS, "because of the characteristic dark appearance * * *." The name was changed to "Dusk Islands" in 1930 by USC&GS, "by reason of numerous duplications."

Dust Creek: stream, flows NW 19 miles to Tonsina River, 4.7 miles NE of Tonsina and 56 miles NE of Valdez, Chugach Mountains; 61° 42' 15" N, 145° 03' 00" W; (map 68). Local name published in 1950 by USGS.

Dusty Mountain: mountain, 4,400 ft., 4 miles N of Vermont Dome and 13 miles N of Wiseman, Brooks Range; 67° 35' 30" N, 150° 15' 00" W; BGN 1932; (map 124). Named by Robert Marshall about 1930.

Dutch Camp: flat, see Dutch Flat.

Dutch Creek: stream, flows W 2.5 miles to Snowball Creek, 7 miles NNE of Council and 39 miles NE of Solomon, Seward Peninsula Highlands; 65° 00' N, 163° 36' W; (map 95). Prospectors' name reported in 1899 by Schrader and Brooks (1900, map 3), USGS.

Dutch Creek: stream, heads W of Dutch Hills, flows SW 10 miles to Granite Creek, 37 miles NW of Talkeetna, Alaska Range; 62° 32' 10" N, 151° 10' 10" W; (map 81). Prospectors' name reported in 1906 by R. W. Porter, USGS.

Dutch Flat: flat, 2 miles long, along Lowe River, N of Keystone Canyon, 14 miles E of Valdez, Chugach Mountains; 61° 06' N, 145° 52' W; (map 68). Variant: Dutch Camp. Named in 1898 by Capt. W. R. Abercrombie (in Glenn and Abercrombie, 1899, map 7), USA.

Dutch Group: islands, 1.5 miles long, in NW part of Prince William Sound, at E end of Wells Passage, 30 miles E of Whittier, Chugach Mountains; 60° 45' 45" N, 147° 48' 00" W; (map 63). Name reported in 1908 by U.S. Grant (in Brooks and others, 1909, pl. 4), USGS.

Dutch Harbor Bay: anchorage, see Dutch Harbor.

Dutch Harbor: anchorage, on E coast of Amaknak Island, in Unalaska Bay, on N coast of Unalaska Island, Aleutian Islands; 53° 54' N, 166° 31' W; (map 23). Variant: Dutch Harbor Bay, Holland Harbor, Ougadakh Harbor, Udakhta Harbor, Ulakhta Harbor. It was so named by the Russians because it is believed that a Dutch vessel was the first to enter the harbor; Father Veniaminov (1840, v. 1, p. 188) reported that earlier navigators called it "Holland Harbor." Its Aleut name was published by Lt. Sarichev (1826, map 14, dated 1792), IRN, as "Udakhta," which may be from the words "uddaq" and "daxtakuqing." According to R. H. Geoghegan; these words mean "bay" and "to rest." Sarichev may have used this name because he spent the winter of 1791-92 in this bay (Lutke, 1836, p. 282).

Dutch Harbor: bay, 0.7 miles across, near N entrance to Port Johnson, on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 09' 20" N, 132° 00' 15" W; BGN 1966; (map 4). Local name recorded in 1948 by USGS.

Dutch Harbor: village, pop. 52, on Amaknak Island, on shore of Dutch Harbor, on Unalaska Bay, Unalaska Island, Aleutian Islands; 53° 53' 27" N, 166° 32' 05" W; BGN 1931; (map 23). Name published by USC&GS in 1931.

Dutch Hill: ridge, elev. 4,400 ft., extends NE 15 miles from 1958 terminus of Kahiltna Glacier, 30 miles NW of Talkeetna, Alaska Range; 62° 35' 30" N, 150° 58' 00" W; (map 81). Prospectors' name reported in 1911 by S. R. Capps (in Brooks, 1912, pl. 9), USGS.

Dutchikamiut: stream, see Duchikmiut River.

Dutton, Mount: mountain, 4,834 ft., 18 miles E of village of Cold Bay, NW of head of Belkofski Bay, at SW end of Alaska Peninsula, Aleutian Range; 55° 11' N, 162° 16' W; (map 29). Named by T. A. Jaggar, USGS, in 1927 for Clarence Edward Dutton, a volcano geologist of the 19th century.

Dutton: locality, in Chigmit Mountains, at head of Cottonwood Bay, 6 miles WNW of South Head Aleutian Range; 59° 38' N, 153° 52' W; (map 51). This mining camp was named for George W. Dutton who was its first postmaster in 1905. The post office was discontinued in 1909.

Duvna Lake: lake, see Tutna Lake.

Dvoini Bratev: islands, see Twins, The.

Dvoinoi: bay, see Driftwood Bay.

Dvoinoi: rocks, see Twin Islet.

Dvoynoy, Ostrova: rocks, see Twin Islet.

Dvoynoy: bay, see Driftwood Bay.

Dyckman Mountain: mountain, 1,910 ft., 69 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 50' N, 153° 11' W; (map 89). Local name reported in 1958 by USGS.

Dyea Inlet: estuary, see Taiya Inlet.

Dyea Pass: pass, see Chilkoot Pass.

Dyea Point: point of land, on Taiya Inlet, 1 mile S of mouth of Taiya River and 1.2 miles W of Skagway, Coast Mountains; 59° 27' 45" N, 135° 20' 45" W; (map 45). Indian name published in 1951 by USGS. Name probably derived from the former village of Dyea, a short distance north of the point.

Dyea River: stream, see Taiya River.

Dyea: locality, at mouth of Taiya River, 3 miles NW of Skagway, Coast Mountains; 59° 29' 35" N, 135° 21' 45" W; BGN 1898; (map 45). Variant: Daiye, Dayay, Dejah, Taiya, Tyya. Former Chilkat Tlingit Indian village which became noted during the Yukon gold excitement in the late 1800's. The name seems to have been derived from the Indian name "Dyaytahk." Dyea was the port of entry to the Dyea Trail through Chilkoot Pass, one of the most popular routes to the Klondike. After the construction of the White Pass and Yukon Railroad in 1902 the town began to decline. The Dyea post office was established in 1896; discontinued in 1902 (Ricks, 1965, p. 17).

Dyer, Cape: point of land, on Chukchi Sea coast, 16 miles S of Cape Lisburne, Arctic Slope; 68° 39' 08" N, 166° 13' 50" W; (map 129). Variant: Capaloo, Kapaloo, Kapalook, Kapalowa. Named about 1827 by Capt. Beechey (1831, map p. 328), RN. The Eskimo name for Cape Dyer, as well as the old village, is Capaloo [Kapalook], according to J. B. Driggs, a Point Hope missionary (Collier, 190h. p. 44).

Dyer, Point: point of land, on S shore of Scammon Bay, E point of entrance to Kongishluk Bay and 12 miles E of Cape Romanzof, Yukon-Kuskokwim Delta; 61° 50' 30" N, 165° 44' 30" W; (map 75). Named by Dall (1870, p. 277), in 1869, for Lt. Joseph T. Dyer of Washington D.C. who, with Capt. E. E. Smith, explored the delta of the Yukon River in 1867 for the Western Union Telegraph Co.

Dyevison Cape: point of land, see Davison, Point.

Dyevison, Mys: point of land, see Davison. point.

Dying Glacier: glacier, former glacier, in Glacier Bay National Monument, trended E-W, 1 mile SE of Pyramid Peak and 57 miles NW of Hoonah, St. Elias Mountains; 58° 49' 50" N, 136° 15' 10" W; (map 10). Descriptive name given in 1890 by Reid (1892, p. 36), USGS,

“because the glacier was rapidly melting away. Between 1886 and 1890 it had receded more than 1,000 yards.” It has now entirely disappeared.

Dyke Mountain: mountain, 5,660 ft., 3.2 miles SW of Powell Peak and 41 miles N of Valdez, Chugach Mountains; 61° 42' 00" N, 146° 07' 45" W; (map 68). Named in 1898 by Capt. W. R. Abercrombie, USA.

Dyrovatyy, Mys: point of land, see Dirovati Point.

E

E-ko-go-mute: village, see Ohogamiut.

E-oo-vogen Island: island, see Saint Lawrence Island.

E-ow-ick: island, see Chamisso Island.

E-ow-ick: locality, see Chamisso.

E-tu-le-lig-a-mute: locality, see Itulilik.

E-vel-she-ark: stream, see Redstone River.

E. Smith's Bay: bay, see Smith Bay.

Eagan's River: stream, see Egans Creek.

Eagle Bay Creek: stream, on N shore of Iliamna Lake, flows SW 6 miles to Eagle Bay, 9 miles E of Iliamna, Aleutian Range; 59° 46' 15" N, 154° 38' 30" W; (map 51). Local name published by USGS in 1954.

Eagle Bay Island: island, 0.7 miles long, in Iliamna Lake, S of Eagle Bay, 8 miles E of Iliamna Aleutian Range, 59° 45' N, 154° 40' W; (map 51). Local name published in 1954 by USGS.

Eagle Bay: bay, 1 mile across, on N shore of Iliamna Lake, 9 miles E of Iliamna, Aleutian Range; 59° 45' 35" N, 154° 40' 00" W; (map 51). Name published by Martin and Katz (1912, pl. 1), USGS.

Eagle Bay: bay, 1.2 miles across, on S coast of Unalaska Island, Aleutian Islands; 53° 26' 30" N, 166° 56' 30" W; (map 23). Name given by the USBF in 1888.

Eagle Bay: bay, 3.6 miles across, in Knik Arm at mouth of Eagle River, 8.5 miles NE of Anchorage, Cook Inlet Lowland; 61° 21' N, 149° 45' W; (map 69). Name reported in 1922 by USGS; derived from Eagle River.

Eagle Bay: estuary, of Eagle River, 0.2 miles across enters Bradfield Canal, 5 miles SW of its head, Coast Mountains; 56° 10' 45" N, 131° 36' 30" W; (map 7). Local name reported in 1935 by USGS.

Eagle Bay: estuary, on N coast of Glacier Island, extends NE 1.5 miles to Prince William Sound 54 miles NE of Whittier, Chugach Mountains. 60° 54' 10" N, 147° 10' 00" W; (map 63). Local name reported in 1916 by J. W. Bagley, USGS.

Eagle Bluff: bluff, 2,000 ft., at junction of Mission Creek and Yukon River, 0.5 miles N of Eagle, Yukon-Tanana Highlands; 64° 48' N, 141° 11' W; (map 102). Variant: Boundary Butte, Ta-tot-lee. Local name given in the late 1890' s; so named because of American eagles nesting there (Henning, 1965, p. 204). It was called "Boundary Butte" in 1883 by Lt. Schwatka

(1885, p. 260), USA, because of its relationship to the Canada-Alaska boundary. Schawatka gives the Indian name as "Ta-tot-lee."

Eagle Bluff: promontory, on S shore of Iliamna Lake, 3 miles NE of Big Mountain and 25 miles SW Iliamna, Aleutian Range; 59° 25' 30" N, 155° 10' 00" W; (map 51). Name published in 1951 by USGS.

Eagle Bluff: promontory, see Eagle Slide.

Eagle Cape: point of land, on W coast of Shuyak Island, 44 miles N of Kodiak Island; 58° 32' 20" N, 152° 39' 30" W; (map 43). Variant: Amakaktuli, Orline Cape. Translation of the name "M[ys] Orlinyy" (Amakhkaktuli) published by the Russian American Company in 1849, who "seem to have taken it from the native name Amakaktuli, supposed to mean eagle" (Baker, 1906, p. 229).

Eagle Cape: point of land, see Eagle Point.

Eagle City Camp: village, see Eagle.

Eagle City: village, see Eagle.

Eagle Cliff: hill, opposite mouth of Hidden Creek, on South Fork Koyukuk River, 24.5 miles S of Wiseman, Brooks Range; 67° 03' 15" N, 150° 00' 00" W; (map 124). Local name obtained in 1956 by USGS topographers.

Eagle Creek: locality, see Berry Camp.

Eagle Creek: stream, flows 4 miles W from glacier terminus to Copper Creek 3 miles SE of its junction with Dan Creek and 18 miles SE of McCarthy, Wrangell Mountains, 61° 20' 30" N, 142° 24' 30" W; (map 67). Local name obtained by USGS and published on maps since 1954.

Eagle Creek: stream, flows N 0.8 miles to Treasure Creek, 11 miles N of Fairbanks, Yukon-Tanana Highlands; 65° 01' N, 147° 46' W; (map 105). Local name published in 1933 by USGS.

Eagle Creek: stream, flows N 3.5 miles, then E 4 miles to John River, 5 miles S of mouth of Wolverine Creek and 56 miles W of Wiseman, Brooks Range; 67° 32' 30" N, 152° 12' 00" W; (map 124). Local name obtained in 1956 by USGS topographers.

Eagle Creek: stream, flows NE 1.5 miles to Karluk Lake, 22 miles SE of Karluk, Kodiak Island; 57° 19' 30" N, 154° 0' 30" W; (map 35). Local name reported in 1952 by USGS.

Eagle Creek: stream, flows NE 5 miles to Right Fork Bluestone River, 11 miles S. of Teller, Seward Peninsula Highlands; 65° 06' N, 166° 22' W; (map 111). Variant: Igloo Creek. Local name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Eagle Creek: stream, flows NW 1 mile to Iron Creek, 26 miles NW of Solomon, Seward Peninsula Highlands; 64° 55' 20" N, 164° 41' 15" W; (map 95). Variant: Easy Creek.

Prospectors' name published in 1956 by USGS. Reported as "Easy" on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Eagle Creek: stream, flows NW 19 miles to Shaw Creek, 17 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 21' N, 145° 33' W; (map 101). Local name reported in 1908 by J. W. Bagley, USGS.

Eagle Creek: stream, flows NW 7 miles to Washington Creek, 13 miles S of that stream's junction with Yukon River and 40 miles NW of Eagle, Yukon-Tanana Highlands; 65° 08' N, 142° 17' W; (map 103). Prospectors' name reported by Brooks (in Brooks and others, 1907, p. 201), USGS.

Eagle Creek: stream, flows S 2 miles to Mosquito Fork, 56 miles SW of Eagle, Yukon-Tanana Highlands; 64° 04' N, 141° 57' W; (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Eagle Creek: stream, flows S 7.5 miles to East Fork Chistochina River, 28 miles NE of Chistochina, Alaska Range; 62° 57' 45" N, 144° 27' 30" W; (map 83). Local name reported by USGS (in Mendenhall, 1905, p. 41).

Eagle Creek: stream, flows S W 1.2 miles to Bonanza River, 18 miles NW of Solomon, Seward Peninsula Highlands; 64° 46' 05" N, 164° 47' 10" W; (map 95). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Eagle Creek: stream, flows S W 14 miles to Kachauik Creek, 22 miles NW of Elim and 45 miles NE of Solomon, Seward Peninsula Highlands; 64° 42' N, 162° 59' W; (map 95). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Eagle Creek: stream, flows S W 3 miles to McAdam Creek, 40 miles SE of Nenana, Alaska Range; 64° 02' N, 148° 40' W; (map 100). Prospectors' name reported in 1950 by USGS topographers.

Eagle Creek: stream, flows S W 3 miles, joins Ptarmigan Creek to form Birch Creek, 50 miles SW of Circle, Yukon-Tanana Highlands; 65° 26' 20" N, 145° 31' 45" W; (map 104). Named by prospectors; reported in 1896 by USGS (Spurr, 1898, p. 354).

Eagle Creek: stream, flows SE 12 miles to Salmon River, 75 miles E of Bethel. Kilbuck-Kuskokwim Mountains; 60° 38' N, 150° 32' W; (map 59). Prospectors' name reported in 1914 by A. G. Maddren (in Brooks, 1915, pl. 11), USGS.

Eagle Creek: stream, flows SE 3.8 miles to Bear Creek, 27 miles N of Haycock, Seward Peninsula Highlands; 65° 36' N, 161° 08' W; (map 109). Local name shown on a 1903 fieldsheet by D. C. Witherspoon, USGS.

Eagle Creek: stream, flows SE 4.8 miles to Crooked Creek 9 miles NW of its junction with Kuskokwim River, 9 miles NW of village of Crooked Creek, Kilbuck-Kuskokwim Mountains; 61° 58' 45" N, 158° 15' 45" W; BGN 1948; (map 72). Local name reported in 1944 by USGS.

Eagle Creek: stream, flows SE 7 miles to Yukon River, 4 miles N of Bullfrog Island, Nulato Hills; 63° 48' N, 159° 12' W; (map 91). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the U.S. Dept. of Interior.

Eagle Creek: stream, flows SW 5 miles to Crooked Creek, 6 miles W of Medfra, Kilbuck-Kuskokwim Mountains; 63° 06' N, 154° 54' W; (map 89). Local name reported in 1958 by USGS.

Eagle Creek: stream, flows W 3.7 miles to Tolovana River, 10 miles S of Livengood, Yukon-Tanana Highlands; 65° 23' 30" N, 148° 39' 00" W; (map 105). Local name reported by USGS in 1950.

Eagle Creek: stream, heads in Canada at 64° 42" N, 140° 10' W, flows NW 30 miles to Yukon River, 5 miles SE of Eagle, Porcupine Plateau, 64° 46' 20" N, 141° 02' 45" W; (map 102). Named by prospectors and reported in 1898 by E. C. Barnard, USGS. So named because eagles nested on the bluffs near the stream's mouth.

Eagle Creek: stream, heads in Franklin Mountains, flows W 23 miles through Ikiakpuk Valley to Canning River 1 mile S of junction of Cache Creek, 44 miles NW of Mount Michelson, Arctic Slope; 69° 23' N, 146° 04' W, BGN 1960; (map 139). Variant: Ikiakpuk Creek. Named by S. J. Marsh, prospector, about 1902 (Leffingwell, 1919, p. 95).

Eagle Creek: stream, heads in glacier, flows NE 2.5 miles to Bremner River, 1.6 miles SW of mouth of Salmon Creek and 64 miles E of Valdez, Chugach Mountains; 61° 00' 30" N, 144° 19' 50" W; (map 68). Local name published by USGS (Moffit, 1914, pl. 1).

Eagle Creek: stream, heads in lake, flows N 3 miles to South Fork Koyukuk River, W of Davis Creek, 33 miles NE of Betties, Kokrines-Hodzana Highlands; 66° 59' 45" N, 150° 30' 00" W; (map 117). Variant: Bear Creek. Name originally applied to a nearby stream; reported in 1901 by W. J. Peters (in Schrader, 1904, pl. 2), USGS.

Eagle Creek: stream, in DeLong Mountains, flows NW 36 miles to Kukpowruk River, 6 miles W of Igloo Mountain and 39 miles SE of Cape Sabine, Arctic Slope; 68° 46' 35" N, 163° 08' 00" W; BGN 1965; (map 130). Variant: Bulwark Creek. Name proposed in 1965 by geologists of the B. P. Exploration Co., Inc.

Eagle Creek: stream, in Glacier Bay National Monument, flows S 7 miles to Gulf of Alaska 1.5 miles N of La Chaussee Spit and 89 miles NW of Hoonah Malaspina Coastal Plain; 58° 38' 50" N, 137° 40' 20" W; (map 10). Local name published by USGS in the 1950's.

Eagle Creek: stream, on Hinchinbrook Island, flows NE 2.5 miles to Anderson Bay, 28 miles SW of Cordova, Chugach Mountains; 60° 28' N, 146° 34' W; (map 64). Name published in 1950 by USGS.

Eagle Creek: stream, on N part of Douglas Island flows 3 miles NE to Gastineau Channel 2 miles NW of Juneau, Coast Mountains; 58° 18' 50" N, 134° 27' 25" W; (map 11). Variant: Auk Creek Fall Creek. Local name first appears in mining records in 1884 and was published by USGS in 1904 Auk Creek and Fall Creek were local names used by early miners (DeArmond, 1957, p. 16).

Eagle Creek: stream, on Seward Peninsula, flows NE 14 miles to Goodhope River, 33 miles SSW of Deering, Kotzebue-Kobuk Lowland; 66° 01' N, 163° 53' W; (map 113). Prospectors' name reported in 1908 by F. F. Henshaw (in Brooks and others, 1909, fig. 21), USGS.

Eagle Creek: stream, see Ingle Creek.

Eagle Glacier: glacier, heads at 58° 36' N, 134° 38' W, trends generally SW 9 miles to unnamed lake at head of Eagle River, 22 miles NW of Juneau, Coast Mountains; 58° 32' N, 134° 42' W; BGN 1965; (map 11). Variant: Auk Glacier. So named by Comdr. Richard W. Meade, USN, in 1869, because of the feature's resemblance to an eagle with outstretched wings.

Eagle Glacier: glacier, trends NW 8 miles to its terminus at head of Eagle River, 29 miles SE of Anchorage, Chugach Mountains; 61° 07' 45" N, 149° 08' 50" W; (map 69). Local name reported about 1911 by B. L. Johnson (in Martin and others, 1915, pl. 2), USGS.

Eagle Gorge: canyon, of McKinley River, extends NW-SE 4 miles, at N boundary of Mount McKinley National Park, SSW of Kantishna Hills and 8.5 miles SSW of Wonder Lake, Alaska Range; 63° 27' N, 151° 11' W; (map 88). Local name reported in 1925 by S. R. Capps, USGS.

Eagle Harbor: bay, 1.5 miles across, on W coast of Nagai Island, in Shumagin Islands, Aleutian Range; 55° 07' 30" N, 160° 08' 00" W; (map 28). Named by W. H. Dall, USC&GS, in 1872.

Eagle Harbor: bight, 0.5 miles across, on NE coast of Forrester Island, Alexander Archipelago; 54° 49' 45" N, 133° 31' 15" W; (map 1). Local name published by USC&GS in 1943.

Eagle Harbor: bight, 2 miles across, on S shore of Ugak Bay, on E coast of Kodiak Island; 57° 25' 30" N, 152° 41' 00" W; (map 34). Local name recorded by Petroff (1881, p. 32) in the 10th Census in 1880. See Eagle Harbor, locality.

Eagle Harbor: cove, 0.5 miles across, on E shore of Favorite Channel, 1 mile N of Pearl Harbor and 19 miles NW of Juneau, Coast Mountains; 58° 29' 45" N, 134° 47' 30" W; (map 11). Local name, part of the "Eagle" name complex derived from Eagle Glacier. It was published by USC&GS in 1919 on Chart 8300.

Eagle Harbor: locality, on Eagle Harbor, on S shore of Ugak Bay, E coast of Kodiak Island; 57° 25' 45" N, 152° 43' 30" W; (map 34). Variant: Orlova, Orlovsk, Saint Orloff, Saint Orlovsk, Seleniye Orlovsk. Former Eskimo village reported in 1890 in the 11th Census (1893, p. 76), which stated "The native village on Eagle Harbor was named Orlova by the Russians, and erroneously renamed St. Orloff on our coast survey maps. It [Eagle Harbor] is now popularly known only by the name of the bay. The Kodiak Eskimo inhabiting this village number between 60 and 70." Petroff (1881, p. 32) wrote, "The next inhabited point * * * is Orlovsk village, situated on * * * Eagle Harbor. Here is a large settlement of 278 natives and creoles." This village was called "S[eleniye] Orlovsk," or "Orlovsk Settlement," by Capt. Tebenkov (1852, map 23), IRN which was misinterpreted as "St. Orlovsk" in 1868 by USC&GS.

Eagle Island: island, 0.25 miles across, off S shore of Alaska Peninsula, round, flat topped, in SW entrance to Amber Bay, 5.5 miles W of Cape Kunmik, Aleutian Range; 56° 46' N, 157° 20' W; (map 31). Local name published by USC&GS in the 1947 Coast Pilot, (p. 281).

Eagle Island: island, 1 mile long, in Rocky Pass of Keku Strait between Kuiu and Kupreanof Islands, 19 miles N of Point Baker, Alexander Archipelago; 56° 37' 15" N, 133° 41' 30" W; (map 6). Local name published in 1943 by USC&GS.

Eagle Island: island, 2 miles across, in Sea Otter Sound, Alexander Archipelago; 55° 53' N, 133° 30' W; (map 4). Named in 1903 or 1904 by E. F. Dickins, USC&GS, who wrote "named by our party, has no local name."

Eagle Island: island, 2 miles long, in Yukon River N of Bullfrog Island, Innoko Lowland; 63° 46' N, 159° 18' W; (map 91). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the U.S. Dept. of Interior.

Eagle Island: island, 2 miles long, N of Onslow Point, at mouth of Ernest Sound, Alexander Archipelago; 55° 52' N, 132° 19' W; (map 4). Named in 1886 by Lt. Comdr. A. S. Snow, USN.

Eagle Island: island, 6 miles long, in Yukon River, 16 miles N of Anvik and 48 miles N of Holy Cross, Innoko Lowland; 62° 56' N, 160° 00' W; (map 78). Variant: Grayling Island. Local name obtained in 1952 by USGS.

Eagle Island: island, 9.5 miles long, in Yukon River, 44 miles SE of Unalakleet, Innoko Lowland; 63° 34' N, 159° 28' W; (map 91). Variant: Blackburn Island. Local name reported in 1949 by USC&GS.

Eagle Lake: lake, 0.3 miles long, on Kenai Peninsula, 5.5 miles SW of Caribou Lake and 19 miles NE of Homer, Cook Inlet Lowland; 59° 49' 40" N, 151° 08' 00" W; (map 50). Local name reported and published by USGS in the 1950's.

Eagle Lake: lake, 0.8 miles long, on Kenai Peninsula between Elephant and Woodpecker Lakes, 8 miles NE of Kenai, Cook Inlet Lowland; 60° 36' 30" N, 151° 00' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, probably for the Northern Bald Eagle (*Haliaeetus leucocephalus alascanus*), which occurs from northwestern Alaska south to British Columbia (Pearson, 1944, pt. 2, p. 81).

Eagle Lake: lake, 4 miles long, at head of Eagle River, 12 miles S of head of Bradfield Canal, Coast Mountains; 56° 03' N, 131° 28' W; (map 7). Local name reported in 1955 by USGS.

Eagle Lake: lake, see Little Eagle Lake.

Eagle Mountain Creek: stream, flows SW 10 miles to Stony River, 5.3 miles NW of its junction with Telaquana River, 65 miles N of Lake Clark, Alaska Range; 61° 08' N, 154° 29' W; (map 71). Prospectors' name published in 1951 by USGS.

Eagle Mountain: mountain, 1,700 ft., near head of Eagle Harbor, on Nagai Island, Shumagin Islands, Aleutian Range; 55° 05' N, 160° 03' W; (map 28). Named by W. H. Dall, USC&GS, in 1872.

Eagle Mountain: mountain, 3,369 ft., between Lake Kulik and Nuyakuk Lake, 60 miles NW of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 51' N, 158° 57' W; BGN 1932; (map 52). So named in 1932 by Gerald FitzGerald, USGS, because of the “numerous bald eagles which were observed on the mountain during the summer of 1931.”

Eagle Peak: mountain, see Newton Peak.

Eagle Peak: peak, 4,650' ft., 2.5 miles SW of Young Lake on Admiralty Island and 14 miles SW of Juneau, Alexander Archipelago; 58° 06' 50" N, 134° 32' 45" W; (map 11). Local name published by USGS in 1951.

Eagle Peak: peak, 6,955 ft., in Chugach Mountains, about 3 miles ESE of Eagle Lake and 20 miles ESE of Anchorage, Chugach Mountains; 61° 10' 00" N, 149° 16' 15" W; BGN 1966; (map 69). Variant: Polar Bear Peak. Local name reported in 1966 by the Mountaineering Club of Alaska.

Eagle Point: point of land, formed by junction of Salmon River and Portland Canal, on Alaska-Canada boundary, Coast Mountains; 55° 54' 30" N, 130° 01' 00" W; (map 3). Name published in 1891 by USC&GS; possibly named in 1868 by Staff Comdr. David Pender, RN.

Eagle Point: point of land, on N coast of Chichagof Island, in Icy Strait 2.2 miles NW of Burger Point and 11 miles NW of Hoonah, Alexander Archipelago; 58° 13' 50" N, 135° 38' 30" W; (map 11). Named by John F. Pratt, USC&GS, in 1901 and published in 1904 on Chart 8304.

Eagle Point: point of land, on N coast of Hinchinbrook Island, 28 miles SW of Cordova, Chugach Mountains; 60° 29' N, 146° 32' W; (map 64). Name published in 1950 by USGS.

Eagle Point: point of land, on NW tip of Dall Island, Alexander Archipelago; 55° 14' 30" N, 133° 13' 10" W; (map 4). Name published in 1914 by USC&GS.

Eagle Point: point of land, S coast of Unalaska, Aleutian Islands; 53° 23' 40" N, 166° 59' 00" W; (map 23). Variant: Amtchik Peninsula, Amchik Point, Eagle Cape, East Point. Name published by USBF in 1888. Lt. Sarichev (1826, map 14), IRN, called it “Amchik” or “Amtchik.” It was also published, in 1869, by USC&GS as “East Point.”

Eagle Point: promontory, see Eagle Slide.

Eagle Reef: reef, 0.4 miles long, in Favorite Channel, 1.8 miles SW of Pearl Harbor and 18 miles NW of Juneau, Coast Mountains; 58° 27' 40" N, 134° 49' 15" W; (map 11). Named by Comdr. Joseph B. Coghlan, USN, in 1884 and published by USC&GS in 1885, on Chart 728.

Eagle River Flats: swamp, extends 2.5 miles S from mouth of Eagle River, 8 miles NE of Anchorage, Cook Inlet Lowland; 61° 19' N, 149° 44' W; (map 69). Local name reported in 1952 by USGS.

Eagle River Landing: locality, see Dotsons Landing.

Eagle River: locality, mile 126.6 on The Alaska Railroad, 3.5 miles SE of mouth of Eagle River and 11 miles NE of Anchorage, Cook Inlet Lowland; 61° 19' 40" N, 149° 38' 30" W; (map 69). Name of a flagstop on The Alaska Railroad; published in timetables in 1922. Name derived from nearby Eagle River.

Eagle River: stream, heads at Eagle Glacier, flows NW 40 miles to Eagle Bay, 9 miles NE of Anchorage, Cook Inlet Lowland; 61° 19' 40" N, 149° 44' 25" W; BGN 1916; (map 69). Variant: Yukla Creek, Yuklahina River, Yuklahitna River. Local name reported in 1916 by the Alaska Engineering Commission. Its Indian name was "Yukla-hina" according to USGS in 1898.

Eagle River: stream, heads in Eagle Lake, flows NW 8 miles to Eagle Bay, 5 miles SW of the head of Bradfield Canal, Coast Mountains; 56° 10' N, 131° 36' W; (map 7). Local name published in 1943 by USC&GS.

Eagle River: stream, heads in unnamed lake S of 1962 terminus of Eagle Glacier and flows 5 miles SW to unnamed bay on Favorite Channel, 2 miles N of Dotsons Landing and 20 miles NW of Juneau, Coast Mountains; 58° 31' 20" N, 134° 48' 00" W; (map 11). Variant: Glacier River, Sitk Creek. Name derived from Eagle Glacier, which it drains, and published in 1906 by USGS (Spencer and Wright, p. 129). Early miners called this stream Glacier River and Sitk Creek (DeArmond, 1957, p. 17).

Eagle River: village, pop. 130, on N bank of Eagle River on Glenn Highway, 13 miles NE of Anchorage, Cook Inlet Lowland; 61° 19' 20" N, 149° 34' 00" W; (map 69). Local name reported in 1939 by USGS. The Eagle River post office was established in 1961.

Eagle Rock: rock, 0.5 miles across, in Chignik Bay, 250 yds. off NW entrance point to Anchorage Bay, 3 miles N of Chignik, Aleutian Range; 56° 20' N, 158° 24' W; (map 30). Name reported in 1923 by R. H. Sargent, USGS; published in 1927 by USGS.

Eagle Rock: rock, at mouth of Agamgik Bay, on NE coast of Unalaska Island, Aleutian Islands; 53° 52' 06" N, 166° 19' 10" W; (map 23). This name was published in the 1944 Aleutian Coast Pilot (p. 32).

Eagle Rock: rock, in Northeast Harbor, Sanak Island, Aleutian Range; 54° 26' 37" N, 162° 35' 35" W; (map 25). Name reported by Ferdinand Westdahl, USC&GS, commander of the Coast Survey steamer McArthur, who made surveys in this area in 1901.

Eagle Rock: rock, near E shore of Herendeen Bay, off North coast of Bristol Bay Lowland; 55° 49' 30" N, 160° 45' 40" W; (map 28). Named by Z. L. Tanner, USN, in 1890.

Eagle Rock: rock, off Kruzof Island, 2 miles S of mouth of Salisbury Sound. 27 miles NW of Sitka, Alexander Archipelago; 57° 18' 25" N, 135° 52' 45" W; (map 9). Named in 1897 by Lt. Comdr. E. K. Moore, USN, and published in 1900 by USC&GS on Chart 8282.

Eagle Rocks: rocks, on W shore of Ommaney Bay, at S tip of Baranof Island, Alexander Archipelago; 56° 10' 30" N, 134° 42' 20" W; (map 5). Local name published in 1926 by USC&GS.

Eagle Slide: promontory, 847 ft., on right bank of Yukon River, 1.6 miles N of Bullfrog Island and 47 miles E of Unalakleet, Nulato Hills; 63° 47' N, 159° 15' W; (map 91). Variant: Eagle Bluff, Eagle Point. Name reported about 1950 by R. M. Chapman, USGS; so called because of a prominent landslide at the point.

Eagle Summit: pass, 3,624 ft., between Mastodon and Porcupine Domes 45 miles SW of Circle, Yukon-Tanana Highlands; 65° 29' N, 145° 25' W; (map 104). Named after Eagle Creek by prospectors about 1902.

Eagle Village: village, on left bank of Yukon River, 3 miles E of Eagle, Yukon-Tanana Highlands; 64° 47' N, 141° 07' W; (map 102). Variant: Johnnys Indians, Johns Village. Han Kutchin Indian village associated with nearby Eagle which was the original site of this Indian village before the mining camp was established there. The early village was called "Johnnys" by "the whites" because its chief was known as "John." See Eagle.

Eagle: village, pop. 92, on left bank of Yukon River at mouth of Mission Creek, 6 miles W of Alaska-Canada boundary, Yukon-Tanana Highlands; 64° 47' N, 141° 12' W; BGN 1944. Variant: Belle Isle, Eagle City, Eagle City Camp, Fort Egbert. Established as a log house trading station called "Belle Isle" by Moses Mercier about 1874 and operated intermittently until its development as a mining camp in 1898 (Kitchener, 1954, p. 255). The village, then with a population of about 800, was platted and named "Eagle City" for the American eagles nesting on nearby Eagle Bluff (Henning, 1965, p. 204). The Eagle post office was established in 1898 and the Valdez-Eagle telegraph line was completed in 1903. The U.S. Army established the "Eagle City Camp" in 1899 at Eagle and a year later Fort Egbert was built; abandoned in 1911. The population of Eagle was 383 in 1900; 178 in 1910; 98 in 1920; 54 in 1930; 73 in 1939; 55 in 1950.

Eaglek Bay: estuary, extends S 8 miles to Prince William Sound, 34 miles NE of Whittier, Chugach Mountains; 60° 50' N, 147° 42' W; (map 63). Name published by Capts. Glenn and Abercrombie (1899, map 63), USA.

Eaglek Glacier: glacier, 1.5 miles across, on S coast of Alaska, 1 mile N of head of Cascade Bay, 32 miles NE of Whittier, Chugach Mountains; 60° 56' 15" N, 147° 48' 30" W; (map 63). Local name reported in 1952 by USGS.

Eaglek Island: island, 0.5 miles long, in Prince William Sound at W entrance to Eaglek Bay, 33 miles NE of Whittier, Chugach Mountains; 60° 49' N, 147° 43' W; (map 63). Name published in 1943 by USC&GS.

Eaglet Rocks: rocks, 100 yds. across, E of Ringgold Island, in S part of Bay of Islands, Adak Island, Aleutian Islands; 51° 47' 55" N, 176° 48' 10" W; BGN 1936; (map 17). Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1933.

Eanceec Hill: hill, see Ingri Butte.

Ear Mountain: mountain, 2,329 ft., 3 miles across, consisting of Ears Peak, East Peak, and West Peak, 13 miles SW of Shishmaref Inlet and 46 miles N of Teller, Seward Peninsula Highlands; 65° 55' N, 166° 15' W; BGN 1944; (map 111). Variant: Air Mountain. Named for

"The Ears," the two granite pinnacles at the summit of Ears Peak. Shown as "Ears" by Capt. Beechey (1831, map facing p. 328), RN, and as "Ear Mountain" by Collier (1902, pl. 12), USGS. See The Ears.

Ear Peak: peak, 5,620 ft., 4.5 miles E of Shainin Lake between Erratic Creek and Kanayut River, 26 miles NE of Anaktuvuk Pass, Brooks Range; 68° 19' 20" N, 150° 52' 30" W; (map 134). Descriptive name given by USGS geologists during the exploration of Naval Petroleum Reserve No. 4; name given in 1944.

Ear River: stream, heads in lake, flows S 25 miles to Kum River 3.5 miles E of village of Scammon Bay, Yukon-Kuskokwim Delta; 61° 51' N, 165° 28' W; (map 75). This is an abbreviated translation of an Eskimo name "Tsut-muilk," reported by USC&GS in 1949.

Earl Cove: cove, 0.6 miles across, on N part of Inian Islands, on South Inian Pass, 0.4 miles E of Inian Cove and 23 miles NW of Hoonah, St. Elias Mountains; 58° 15' 20" N, 136° 17' 40" W; (map 10). Named by E. F. Dickins, USC&GS, in 1902; published on Chart 8304 in 1904.

Earl River: stream, heads at Simpson Pass, flows NW 7 miles to Tatina River 12 miles NE of its junction with South Fork Kuskokwim River, 93 miles SE of McGrath, Alaska Range; 62° 22' N, 153° 02' W; (map 80). Named in 1899 by Lt. J. S. Herron, USA.

Earle Cove: bight, 1 mile across, on NW coast of Attu Island at mouth of Earle River, Aleutian Islands; 53° 00' 05" N, 172° 43' 15" E; (map 13). Variant: Eftugem Bay. Name published in 1948 by AMS; shown as "Eftugem Bay" on a manuscript map by L. M. Turner in the 1880's.

Earle Lake: lake, 0.4 miles long, on NW coast of Attu Island SE of Earle Cove, Aleutian Islands; 52° 59' 25" N, 172° 44' 30" E; (map 13). Name derived from Earle Cove; published in 1948 by AMS.

Earle River: stream, on NW Attu Island, flows N through Etienne Pass, 6.5 miles to Earle Cove, Aleutian Islands; 53° 00' 00" N, 172° 43' 53" E; (map 13). Name derived from Earle Cove; published in 1948 by AMS.

Ears Peak: peak, 2,292 ft., on Ear Mountain, 0.5 miles NE of West Peak and 46 miles N of Teller, Seward Peninsula Highlands; 65° 55' 35" N, 166° 13' 45" W; (map 111). Variant: North Summit Ear Mountain. Descriptive name given in 1945 by a USGS field party.

Ears, The: mountains, 1,300 ft., between Chukchi Sea and Akalolik Creek, 5 miles S of Cape Dyer, Arctic Slope; 68° 35' N, 166° 09' W; (map 129). Descriptive name given about 1827 by Capt. Beechey (1831, map p. 328), RN; presumably applied to a small feature or features on the eroded cliffs. Because it lacks a positive object for application, the name subsequently was transferred to the mountains behind the cliff.

Ears, The: pinnacles, two, on Ears Peak on Ear Mountain, 13 miles SW of Shishmaref Inlet and 46 miles N of Teller, Seward Peninsula Highlands; 65° 55' 35" N, 166° 13' 45" W; (map 111). Variant: Enigarok. Shown as "Ears" by Capt. Beechey (1831, map facing p. 328), RN. The Ears were distinguished from Ear Mountain by Collier (1902, pl. 7), USGS. Collier (1902, p. 9) also noted: "The Eskimo know it by the name ' Enigarok,' which translated into English is

said to mean ears, so that it is probable that this name could also have been applied to the two hills now referred to as Iviangik Mountain.”

Easley Creek: stream, flows NE 7 miles to Ketchem Creek, 5.5 miles SE of Central and 26 miles SW of Circle, Yukon-Tanana Highlands; 65° 31' 30" N, 144° 39' 00" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

East Albert Creek: stream, flows SE 12 miles to Albert Creek, 3 miles NE of Central and 24 miles SW of Circle, Yukon-Tanana Highlands; 65° 36' N, 144° 43' W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

East Alek River: stream, distributary of Alek River, heads 0.6 miles W of upper rapids, flows 10 miles SW through marshes to a lagoon, 7 miles SE of Dry Bay and 56 miles SE of Yakutat, Malaspina Coastal Plain; 59° 05' 20" N, 138° 26' 30" W; (map 46). Local name published in 1959 by USGS.

East Amatuli Island: island, 2.5 miles long, in Gulf of Alaska, easternmost of Barren Islands, 70 miles NE of Afognak, Chugach Mountains; 58° 55' N, 152° 00' W; (map 43). Variant: Amatuli Island, Islas de Langara. Named by USGS in 1908. This island is part of the group named "O[strova] Amatuli" by Capt. Tebenkov (1852, map 22), IRN. The island is also one of the "Isles de Langara" named in 1779 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle for Juan de Langara.

East Anchor Cove: cove, 2 miles across, on Ikatán Peninsula, Unimak Island, Aleutian Islands; 54° 41' 30" N, 163° 04' 00" W; (map 25). Descriptive name given in 1888 by USBF.

East Arcuate Ridge: ridge, on E side of Okmok Caldera, on NE part of Umnak Island, Aleutian Islands; 54° 27' N, 168° 03' W; (map 22). Name published by Byers (1959, pl. 41), USGS.

East Arm Holtz Bay: bay, 0.9 miles across, SE part of Holtz Bay on NE coast of Attu Island, Aleutian Islands; 52° 55' 15" N, 173° 10' 15" E; (map 13). Descriptive name published in 1947 Coast Pilot (pt. 2, p. 492).

East Arm Naknek Lake: bay, see Iliuk Arm Naknek Lake.

East Arm Nevidiskov Bay: bay, 1.6 miles across, NE part of Nevidiskov Bay on S coast of Attu Island, Aleutian Islands; 52° 47' 20" N, 172° 52' 00" E; (map 13). Descriptive name referred to as the "East Arm" in the 1946 supplement to the 1944 Aleutian Coast Pilot.

East Arm Nuka Bay: estuary, 2.5 miles wide, on SE coast of Kenai Peninsula, 45 miles E of Seldovia, Chugach Mountains; 59° 28' N, 150° 27' W; BGN 1929; (map 50). Descriptive local name reported by USC&GS in 1927.

East Arm Uganik Bay: bay, extends SE 4 miles inland to mouth of Uganik River, on N coast of Kodiak Island; 57° 43' N, 153° 29' W; (map 34). Descriptive name given in 1897 by Lt. Comdr. J. F. Moser, USN, of the USBF steamer Albatross.

East Arm Yale Fiord: estuary, see Yale Arm College Fiord.

East Bay Lagoon: lagoon, see Long John Lagoon.

East Bay: bay, see Nazan Bay.

East Bay: lagoon, see Long John Lagoon.

East Bee Rock: rock, one of Bee Rocks in Clarence Strait, 3 miles SW of Duke Island, Alexander Archipelago; 54° 53' 15" N, 131° 32' 00" W; (map 2). Local name published in 1943 by USC&GS.

East Bight: bay, 3 miles across, on E coast of Nagai Island, in Shumagin Islands, Aleutian Range; 55° 06' N, 159° 55' W; (map 27). Named by W. H. Dall, USC&GS, in 1872.

East Boulder Creek: stream, flows SW 8.4 miles to Boulder Creek, 36 miles NE of Palmer, Talkeetna Mountains; 61° 53' 00" N, 148° 10' 20" W; (map 69) Local name reported in 1948 by USGS.

East Bradfield River: stream, see East Fork Bradfield River.

East Brother Island: island, 2 miles across, one of The Brothers Islands in Stephens Passage, 5 miles E of Point Pybus and 61 miles E of Sitka, Alexander Archipelago; 57° 18' N, 133° 43' W; (map 8). Descriptive name published in 1940 by USGS.

East Buttons: mountain, elev. 3,420 ft., 6 miles E of West Buttons and 22 miles SSW of Chandalar, Brooks Range; 67° 15' N, 149° 04' W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

East Buttress: ridge, elev. 14,000 ft., in Mount McKinley National Park, extends W 3 miles from head of Traleika Glacier to Thayer Basin, Alaska Range; 63° 03' 30" N, 150° 53' 00" W; (map 88). Mountain climbers' name published on recent maps.

East Cape Volcano: volcano, 1,667 ft., eastern Buldir Island, Aleutian Islands; 52° 21' 30" N, 175° 56' 25" E; (map 14). Name reported by Coats (1953, p. 8). USGS.

East Cape: point of land, E tip of Amchitka Island, Rat Islands. Aleutian Islands; 51° 22' 45" N, 179° 27' 00" E; BGN 1937; (map 15). Named by the U.S. Navy 1855 North Pacific Exploring Expedition.

East Cape: point of land, E tip of Buldir Island, Aleutian Islands; 52° 21' 45" N, 175° 58' 30" E; (map 14). Descriptive name shown on a 1950 AMS map.

East Cape: point of land, E tip Spruce Island, NE of Kodiak Island; 57° 55' 00" N, 152° 19' 30" W; (map 34). Variant: Mys Vostochnyy, Ostrovskoi Point, Vostochnie. Translation of the descriptive name "M[ys] Vostochnyy" given in 1839 or 1840 by Sub-Lt. Mikhail Murashev, IRN, and published in 1849 on Russian Hydrog. Dept. Chart 1425.

East Cape: point of land, see Apavawook Cape.

East Cape: point of land, see Chirikof Point.

East Channel Hayward Strait: water passage, between Krestof Island, and Magoun Islands, 1 mile NW of Sitka, Alexander Archipelago; 57° 10' N, 135° 33' W; (map 9). Descriptive name published in 1900 by USC&GS on Chart 8281.

East Channel Island: island, 0.5 miles long, in Wide Bay, S of Coal Point, on S coast of Alaska Peninsula, 13 miles SW of Kanatak, Aleutian Range; 57° 24' 35" N, 156° 11' 50" W; (map 36). Descriptive name given in 1923 by USC&GS "because of its location east of the main channel to Wide Bay."

East Channel Massacre Bay: water passage, eastern entrance to Massacre Bay, on SE coast of Attu Island, Aleutian Islands; 52° 48' 30" N, 173° 16' 30" E; (map 13). Descriptive name listed in 1944 Aleutian Coast Pilot.

East Channel: water passage, between Iliuliuk Harbor and Iliuliuk Bay, in Unalaska Bay, on NE coast of Unalaska Island, Aleutian Islands; 53° 52' 42" N, 166° 32' 00" W; (map 23). This name was published in the 1944 Aleutian Coast Pilot (p. 37).

East Chester: area, in S part of Anchorage, Cook Inlet Lowland; 61° 12' 18" N, 149° 51' 50" W, (map 69). Variant: Eastchester. Local name reported in 1954 by the city engineer of Anchorage.

East Chugach Island: island, 4 miles long, off S tip of Kenai Peninsula, 22 miles S of Seldovia, Chugach Mountains; 59° 08' N, 151° 28' W; BGN 1908; (map 50). Variant: Isla de San Angel. Local name reported by USC&GS in 1908. This island was called "Isle (or Ysla) de San Angel" by Don Ignacio Arteaga about August 1, 1779, "after El Santo Angel celebrated in Tortosa August 2" (Wagner, 1937, p. 496).

East Clem Creek: stream, flows NE 4 miles to Kanik Creek, 53 miles NW of Haycock, Seward Peninsula Highlands; 65° 58' N, 161° 15' W; (map 109). Local name published on maps after 1950.

East Clump: island, 400 ft. long, in Tongass Narrows, along NE coast of Gravina Island, 1 mile W of Ketchikan, Alexander Archipelago; 55° 20' 42" N, 131° 41' 15" W; (map 3). Variant: Seat Island. Named by local pilots about 1880: it was called "Seat Island" in 1883 by W. H. Dall, USC&GS, because of a seat-shaped rock at its outer end.

East Cove: cove, 1 mile across, on E coast of Yunaska Island, Aleutian Islands, 52° 39' 40" N, 170° 33' 30" W; (map 20). Descriptive name published by USC&GS in the 1944 Aleutian Coast Pilot (p. 78).

East Cove: cove, see Mutton Cove.

East Creek: stream, flows W 4.5 miles to Michigan Creek, 5.5 miles NW of Ipnek Mountain and 29 miles W of Wiseman, Brooks Range; 67° 23' N, 151° 11' W; BGN 1932; (map 124). Local name reported by Robert Marshall in 1932.

East Creek: stream, on Kenai Peninsula, flows NW 6.5 miles to Resurrection Creek, 16 miles SW of Hope, Chugach Mountains; 60° 42' 15" N, 149° 45' 05" W; (map 63). Local prospectors' name reported in 1904 by Moffit (1906, pl. 2), USGS.

East Douglass River: stream, see East Fork Kuskokwim River.

East End Creek: stream, see Glacial Fan Creek.

East Finger Lake: lake, 0.7 miles long, easternmost of the Finger Lakes, on Kenai Peninsula, 13 miles NE of Kenai, Cook Inlet Lowland; 60° 39' N, 150° 53' W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

East Flank Island: island, 0.5 miles long, at SE end of Esther Passage, 28 miles NE of Whittier, Chugach Mountains; 60° 49' 15" N, 147° 52' 25" W; (map 63). Local name reported in 1952 by USGS.

East Foreland: point of land, on E shore of Cook Inlet, 13 miles NE of Kenai, Cook Inlet Lowland; 60° 43' N, 151° 24' W; (map 62). Variant: Cap Mikischkin, Mys Kamyushkin, Mys Vostochnyy, Mys Vostoi Forland, Punta de Martinez, South Foreland, Tuchan Tan. Named by Capt. George Vancouver, RN, about April 18, 1794. The Tanaina Indian name, reported by the Russian scientist Island G. Wosnesenski in 1840, was "Mikischkin" or "Tuchan Tan," "tan," meaning "cape." This point of land appears to be the same called "Punta de Martinez" by Don Juan de la Bodega y Quadra in 1791. "Perhaps Bodega named it from some account by Mondofia who was in charge of the launch [that went ashore near there], or Mondofia himself, who had been with Esteban Martinez in 1788, named it" (Wagner, 1937, p. 471).

East Forest Lake: lake, 0.6 miles long, on Kenai Peninsula E of West Forest Lake, 15 miles NE of Kenai, Cook Inlet Lowland; 60° 40' N, 150° 09' W; (map 62). Variant: Forest Lake. Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

East Fork Anan Creek: stream, flows NW 8 miles to Anan Creek, 4 miles E of mouth of Bradfield Canal, Coast Mountains; 56° 10' 00" N, 131° 52' 20" W; (map 7). Local name reported in 1955 by USGS.

East Fork Andreafsky River: stream, heads on Iprugalet Mountain at 63° 09' N, 161° 35' W, flows SW 125 miles to Andreafsky River, 5 miles NE of its junction with Yukon River, Nulato Hills; 62° 03' 30" N, 163° 06' 30" W; (map 77). Local name reported in 1942 by USC&GS.

East Fork Aniak River: stream, see Atsaksovluk Creek.

East Fork Arolic River: stream, see East Fork Arolik River.

East Fork Arolik River: stream, heads at Arolik Lake, flows NW 8 miles to join South Fork Arolik River where it forms the Arolik River 30 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 31' N, 161° 21' W; (map 53). Variant: East Fork Arolic River, East Fork Arolic Creek. Name published by G. L. Harrington (in Brooks and others, 1921, pl. 7), USGS, as "East Fork Arolic Creek."

East Fork Bear Creek: stream, flows NW 5.5 miles to Bear Creek, 4.8 miles NE of Nyac and 39 miles SW of Aniak, Kilbuck-Kuskokwim Mountains; 61° 02' 15" N, 159° 48' 50" W; (map 73). Prospectors' name shown on a 1914 field sheet by A. G. Maddren, USGS.

East Fork Bradfield River: stream, flows SW 20 miles to join North Fork to form Bradfield River, 2 miles E of head of Bradfield Canal, Coast Mountains; 56° 14' N, 131° 27' W; BGN 1959; (map 7). Variant: East Bradfield River. Named by IBC surveyors; published in 1927 on sheet 5.

East Fork Chandalar River: stream, heads at 69° 00' N, 144° 06' W, flows SW 175 miles to Chandalar River, 44 miles SW of Chandalar, Brooks Range; 67° 06' N, 147° 15' W; (map 123). Prospectors' name reported in 1899 by Schrader (1900b, pl. 60), USGS.

East Fork Chena River: stream, heads at 65° 05' 32" N, 144° 43' 25" W and flows SW 53 miles to Chena River, 43 miles ENE of Fairbanks, Yukon-Tanana Highlands; 64° 56' 28" N, 146° 15' 05" W; BGN 1965; (map 101). Variant: Chena River. Local name published in 1966 by USGS.

East Fork Chetaslina River: stream, heads in a glacier, flows SW 19 miles to Chetaslina River 3.8 miles NE of its junction with Copper River, 68 miles NW of Valdez, Wrangell Mountains; 61° 45' 15" N, 144° 40' 40" W; (map 68). Local name published in the 1950's by USGS.

East Fork Chistochina River: stream, flows SW 18 miles from Mankomen Lake to Chistochina River, 15 miles N of Chistochina, Alaska Range; 62° 46' 50" N, 144° 39' 48" W; (map 83). Local name reported by USGS.

East Fork Chulitna River: stream, flows W 30 miles to join Middle Fork Chulitna River to form Chulitna River, 55 miles SW of Healy, Talkeetna Mountains; 63° 06' 30" N, 149° 31' 30" W; (map 87). Name reported in 1913 by J. W. Bagley, USGS.

East Fork Clearwater Creek: stream, heads at glacier in Mount McKinley National Park, flows NW 14 miles to Clearwater Creek, 8 miles SSE of Wonder Lake, Alaska Range; 63° 21' 30" N, 150° 43' 30" W; (map 88). Local name reported in 1925 by S. R. Capps, USGS.

East Fork Copper Creek: stream, flows NW 3.5 miles to Copper Creek, 1 mile S of Kotsina River, 83 miles ENE of Valdez, Wrangell Mountains; 61° 41' 45" N, 144° 03' 15" W; (map 68). Local name obtained in 1912 by D. C. Witherspoon, USGS.

East Fork Dennison Fork: stream, flows SW 28 miles to Dennison Fork, 40 miles NE of Tok, Yukon-Tanana Highlands; 63° 37' 30" N, 141° 54' 00" W; (map 85). Local name reported by J. B. Mertie, Jr. (1937 b, p. 29), USGS.

East Fork Etivluk River: stream, heads in Brooks Range, flows NW 55 miles to Etivluk River, 49 miles NNE of Howard Pass, Arctic Slope; 68° 51' N, 156° 07' W; (map 132). This name appears on a 1925 fieldsheet by Gerald FitzGerald, USGS.

East Fork Fishhook Creek: stream, flows S 1.2 to Fishhook Creek, 13 miles NW of Palmer Talkeetna Mountains; 61° 46' 45" N, 149° 16' 40" W; (map 69). Local name reported in 1942 by AMS.

East Fork Flat Creek: stream, flows NE 12 miles, joins West Fork Flat Creek to form Flat Creek 25 miles SE of Beaver, Yukon-Tanana Highlands; 66° 04' N, 146° 52' W; (map 119). Local name obtained in 1956 by USGS.

East Fork George River: stream, heads at junction of Munther Creek and Little East Fork, flows SW 60 miles to George River, 7.4 miles NE of its junction with Kuskokwim River, 25 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 59' 40" N, 157° 36' 20" W; (map 72). Local name reported in 1914 by R. H. Sargent, USGS.

East Fork Glen Creek: stream, in Kantishna Hills, flows S 1.5 miles, joins West Fork to form Glen Creek 6 miles NE of Wonder Lake, Alaska Range; 63° 33' 20" N, 150° 44' 25" W; (map 88). Prospectors' name reported in 1905 by L. M. Prindle, USGS.

East Fork Grouse Creek: stream, heads in York Mountains, flows NW 7.5 miles to join South Fork Grouse Creek to form Grouse Creek, 41 miles NW of Teller, Seward Peninsula Highlands; 65° 38' N, 167° 27' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

East Fork Henshaw Creek: stream, heads on Heart Mountain in Alatna Hills, flows S 30 miles, joins West Fork to form Henshaw Creek, 14 miles NE of Allakaket, Hogatza Highlands; 66° 43' N, 152° 20' W; (map 117). Koyukan Indian name obtained in 1956 at Allakaket by T. E. Taylor, USGS.

East Fork Hess Creek: stream, see Bear Creek.

East Fork Hills: hills, 1,900 ft., trend NE-SW 15 miles between North Fork and East Fork Kuskokwim River, 24 miles NE of Medfra, Kuskokwim Lowland; 63° 12' N, 154° 00' W; (map 89). Local name reported in 1954 by USGS.

East Fork Indian Creek: stream, flows NE 5 miles to Indian Creek, 88 miles SW of Talkeetna, Alaska Range; 62° 08' 50" N, 152° 49' 10" W; (map 81). Local name reported in 1958 by USGS.

East Fork Indian Creek: stream, heads in lake, flows SW 14 miles to Indian Creek, 14 miles NE of Chistochina, Alaska Range; 62° 44' N, 144° 26' W; (map 83). Variant: Indian Creek. Name used by prospectors; reported in 1903 by F. C. Schrader, USGS.

East Fork Iron Creek: stream, flows NW 18 miles to Iron Creek, 12 miles SE of its junction with Talkeetna River and 30 miles E of Talkeetna, Talkeetna Mountains; 62° 20' 45" N, 149° 09' 50" W; (map 82). Local name recorded by S. R. Capps (in Martin, 1919, pl. 4), USGS.

East Fork Jack River: stream, flows NW to Jack River, 40 miles SE of Healy, Talkeetna Mountains; 63° 17' 30" N, 148° 40' 40" W; (map 87). Local name reported in 1910 by D. C. Witherspoon and J. W. Bagley (in Moffit, 1915, pl. 1), USGS.

East Fork Jackson Creek: stream, see Jackson Creek.

East Fork Kahiltna Glacier: glacier, in Mount McKinley National Park, trends SW 7 miles to Kahiltna Glacier, 6 miles SW of Mount McKinley, Alaska Range; 63° 00' N, 151° 10' W; (map 88). Local name reported in 1954 by USGS.

East Fork Kejulik River: stream, flows 7.4 miles NW to Kejulik River, on Alaska Peninsula, 13 miles E of Becharof Lake and 34 miles SW of Mount Katmai, Aleutian Range; 57° 54' 25" N, 155° 36' 25" W; (map 35). Descriptive name published by W. R. Smith and A. A. Baker (in Brooks and others, 1924, p. 9), USGS.

East Fork Kiagna River: stream, flows 7 miles NW to Kiagna River, 6 miles S of Bear Island and 34 miles SE of McCarthy, St. Elias Mountains; 61° 01' 10" N, 142° 22' 40" W; (map 67). Local name obtained by USGS and published on maps since 1954.

East Fork Koyuk River: stream, flows SW 33 miles to Koyuk River, 8 miles SE of Haycock, Seward Peninsula Highlands; 65° 07' N, 161° 00' W; (map 109). Local name reported in 1909 by P.S. Smith, USGS.

East Fork Kuskokwim River: stream, 40 miles long, heads at confluence of Slow Fork and Tonzona River, flows WSW to join North Fork Kuskokwim River to form Kuskokwim River, 5 miles E of Medfra, Kuskokwim Lowland; 63° 07' N, 154° 35' W; BGN 1964; (map 89). Variant: Chedotlotna River, Chedtlothno River, East Douglass River. The stream's Indian name was shown in 1899 as "Chedotlothno River" on a map by Lt. J. S. Herron, USA. The name "East Fork Kuskokwim River" was published in 1898 by Spurr (1900, map 14), USGS.

East Fork Kuskokwim River: stream, see Tonzona River.

East Fork Kuyukutuk River: stream, flows W 9 miles to Kuyukutuk River, 16.5 miles NW of Russian Mission, Nulato Hills; 61° 58' N, 161° 39' W; (map 73). Prospectors' name reported by Harrington (1918, map), USGS.

East Fork Little Bremner River: stream, heads in glacier, flows W 12 miles to Little Bremner River, 1.6 miles SE of mouth of Porcupine Creek and 63 miles E of Valdez, Chugach Mountains; 61° 05' 20" N, 144° 20' 35" W; (map 68). Name published by USGS (Moffit, 1914, fig. 2).

East Fork Little Delta River: stream, heads at Gillam Glacier terminus, flows NE 23 miles, joins West Fork to form Little Delta River, 25 miles NW of Mount Hayes, Alaska Range; 63° 57' 40" N, 146° 55' 20" W; (map 86). Name reported in 1910 by J. W. Bagley, USGS.

East Fork Little Tonzona River: stream, heads at glacier, flows NW 11 miles to Little Tonzona River, 15 miles NW of Shellabarger Pass, Alaska Range; 62° 44' 10" N, 152° 56' 50" W; (map 81). Local name reported in 1958 by USGS.

East Fork Maclaren River: stream, heads at glacier terminus, flows SW 6.5 miles to Maclaren River, 1.2 miles S of Maclaren Glacier terminus and 26 miles SE of Mount Hayes, Alaska Range; 63° 15' 50" N, 146° 30' 45" W; (map 86). Local name reported in 1910 by C. E. Giffin, USGS.

East Fork Matanuska River: stream, flows N and SW 17 miles to where it joins South Fork, to form Matanuska River, 55 miles NE of Palmer, Copper River Basin; 61° 47' 30" N, 147° 30' 15" W; BGN 1960; (map 69). Variant: East Fork. Local name reported in 1951 by USGS.

East Fork McCarthy Creek: stream, flows SW 6 miles to McCarthy Creek, E of Porphyry Mountain, 5 miles NE of McCarthy, Wrangell Mountains; 61° 28' N, 142° 47' W; (map 67). Local name reported in 1908 by D. C. Witherspoon, USGS.

East Fork Middle River: stream, see East Middle River.

East Fork Mineral Creek: stream, flows NW 2 miles to Mineral Creek, 6.2 miles NW of Valdez, Chugach Mountains; 61° 12' 05" N, 146° 19' 05" W; (map 68). Prospectors' name obtained in 1911 by C. E. Giffin, USGS.

East Fork Moose River: stream, heads in Peterson Lake of the Seven Lakes, on Kenai Peninsula, flows NW 10 miles to Moose River, 24 miles ENE of Kenai, Cook Inlet Lowland; 60° 36' 15" N, 150° 36' 00" W; (map 62). Local name reported in 1958 by USGS.

East Fork Neukluk River: stream, see Niukluk River.

East Fork Ninuluk Creek: stream, flows N 12 miles to Ninuluk Creek, 27 miles SW of Umiat, Arctic Slope; 69° 02' 30" N, 152° 47' 30" W; (map 141). Name published in 1956 by USGS.

East Fork Noxapaga River: stream, flows SW 4 miles to Noxapaga River, 25 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 32' N, 164° 07' W; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

East Fork of Birch Creek: stream, see Yukon Fork.

East Fork Oolamnagavik River: stream, flows NE 21 miles to Oolamnagavik River 11 miles SW of its junction with Colville River, Brooks Range; 68° 52' N, 154° 09' W; BGN 1960, (map 133). Named about 1950 by USGS geologists during exploration of Naval Petroleum Reserve No. 4.

East Fork Salcha River: stream, see Salcha River.

East Fork Sheenjok River: stream, flows S 30 miles to Sheenjok River, 18 miles SE of Table Mountain, Brooks Range; 68° 10' N, 143° 11' W; (map 137) Local name reported in 1926 by J. B. Mertie, USGS.

East Fork Short Creek: stream, flows S 3.5 miles to Short Creek, 12 miles S of Bradfield Canal, Alexander Archipelago; 56° 00' 30" N, 131° 32' 00" W; (map 7) Local name reported in 1955 by USGS.

East Fork Sixmile Creek: stream, on Kenai Peninsula, heads at junction of Granite Creek and Center Creek, flows NW 6.5 miles to Sixmile Creek, 7 miles S of Sunrise, Chugach Mountains; 60° 47' 00" N, 149° 25' 20" W, (map 63). Local descriptive name reported in 1898 by W. C. Mendenhall, USGS.

East Fork Skagway River: stream, heads in South Glacier, flows 5.5 miles NW to Skagway River, 4.5 miles NE of Yakutania Point on Taiya Inlet and 3.5 miles NE of Skagway, Coast Mountains; 59° 30' 00" N, 135° 15' 00" W; (map 45). Name published in 1951 by USGS.

East Fork Snag Creek: stream, in Nutzotin Mountains, flows NW 9 miles to Snag Creek, 8 miles SW of Carden Hills, Alaska Range; 62° 14' N, 141° 28' W; (map 84). Name reported by Capps (1916, pl. 1), USGS.

East Fork Snake River: stream, see Goldbottom Creek.

East Fork Solomon River: stream, flows SW 7.5 miles to Solomon River, 10 miles NE of Solomon, Seward Peninsula Highlands; 64° 42' N, 164° 17' W; (map 95). Variant: Right Branch Solomon River, Right Fork Solomon River, Trilby Creek. Prospectors' name shown on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904. "Trilby Creek" was misapplied to this stream by Schrader and Brooks (1900, map 3), USGS. The name "Right Branch" was reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

East Fork Steller River: stream, on Attu Island, flows N, through East Steller Valley, 4.5 miles to Steller River, Aleutian Islands; 52° 58' 35" N, 172° 54' 25" E; (map 13). Name derived from Steller Cove; published in 1948 by AMS.

East Fork Susitna River: stream, heads at a glacier, flows SW 15 miles to Susitna River, 65 miles SE of Healy, Alaska Range; 63° 19' 30" N, 147° 17' 00" W; (map 87). Local name reported in 1910 by D. C. Witherspoon (in Moffit, 1912, pl. 1), USGS.

East Fork The Forks: stream, heads at 66° 32' 30" N, 148° 26' 30" W; flows SW 50 miles to join the West Fork to form The Forks, 15 miles N of Stevens Village, Yukon Flats; 66° 13' N, 149° 05' W; (map 118). Local name obtained in 1956 by USGS.

East Fork Thumb River: stream, flows NW 7.5 miles to Thumb Lake E of Karluk Lake, Kodiak Island; 57° 21' 10" N, 153° 58' 20" W; (map 34). Local name reported in 1954 by USGS.

East Fork Toklat River: stream, heads at glacier terminus, in Mount McKinley National Park, flows NNW 40 miles to Toklat River, 36 miles W. of Healy, Alaska Range; 63° 54' 20" N, 150° 08' 40" W; (map 88). Local name shown on a 1916 fieldsheet by C. E. Giffin, USGS.

East Fork Tolovana River: stream, see Tatalina River.

East Fork Tonowek Creek: stream, heads in a small lake, flows S 0.4 miles to Tonowek Creek, on E coast of Heceta Island, Alexander Archipelago; 55° 46' 15" N, 133° 22' 50" W; (map 4). Local name recorded in 1951 by USGS. See Tonowek Bay.

East Fork Tuluga River: stream, flows NW 13 miles to join the West Fork to form Tuluga River, 6 miles W of Heart Lake and 53 miles N of Anaktuvuk Pass, Brooks Range; 68° 54' N, 151° 34' W; (map 134). Named by USGS geologists during the exploration of Naval Petroleum Reserve No. 4; name given in 1944.

East Fork Twelvemile Creek: stream, see North Fork Twelvemile Creek.

East Fork Twin Creek: stream, heads at 57° 34' N, 152° 19' W, flows NNE to join West Fork Twin Creek at Chiniak Bay, 14 miles SE of Kodiak, Kodiak Island; 57° 37' 10" N, 152° 15' 30" W; BGN 1966; (map 34). Local name reported in 1966 by the Alaska State Geographic Board.

East Fork Willow Creek: stream, flows SW 1.1 miles to Willow Creek 7.4 miles SE of Marshall, Nulato Hills; 61° 48' 50" N, 161° 54' 00" W; (map 73). Prospectors' name reported by G. L. Harrington, USGS, in 1914.

East Fork Yentna River: stream, heads at branch of Dall Glacier, 5 miles N of terminus of Yentna Glacier, flows SE 20 miles, joins West Fork to form Yentna River, 53 miles W of Talkeetna, Alaska Range; 62° 16' 50" N, 151° 46' 30" W; (map 81). Name reported in 1906 by R. W. Porter, USGS.

East Fork Yuki River: stream, flows NE 45 miles to the Yuki River, 57 miles SW of Nulato, Kilbuck-Kuskokwim Mountains; 64° 22' N, 156° 23' W; (map 97). Local name reported in 1911 by A. G. Maddren (in Brooks, 1912, pl. 14), USGS.

East Fork: locality, at junction of East Fork Solomon River and Solomon River, 10 miles NE of Solomon, Seward Peninsula Highlands; 64° 42' N, 164° 17' W; (map 95). Site of a mining camp and railroad station along the Council City and Solomon River Railroad. Reported in 1904 by T. G. Gerdine, USGS.

East Fork: ravine, see East Gulch.

East Fork: stream, see Atsaksovluk Creek.

East Fork: stream, see East Fork Matanuska River.

East Francis Rock: rock, in Canoe Pass, at W end of Peril Strait, off NW coast of Baranof Island, Alexander Archipelago; 57° 24' 05" N, 135° 38' 10" W; (map 9). Discovered and named in 1884 by Comdr. J. B. Coghlan, USN, "for pilot E. H. Francis, who was the first person to make soundings on it" (USC&GS, 1891, p. 187).

East Glacier Creek: stream, flows SE 10 miles to Chinitna Bay, 52 miles NW of Homer, Aleutian Range; 59° 53' N, 152° 56' W; (map 50). Local name reported and published by USGS in the 1950's.

East Gulch: ravine, trends SW 0.5 miles to Bear Creek, 4 miles NE of Nome, Seward Peninsula Highlands; 64° 34' N, 165° 20' W; (map 94). Variant: East Fork. Published as "East Fork [Dry Creek]" on the 1902 "Map of the Nome and Snake River Country" by J. M. Davidson.

East Head: point of land, on NW coast of Popof Island, in Shumagin Islands, Aleutian Range; 55° 21' 30" N, 160° 29' 25" W; (map 28). Named by W. H. Dall, USC&GS, in 1872.

East Head: promontory, NE entrance point to Sanborn Harbor, on NW coast of Nagai Island, in Shumagin Islands, Aleutian Range, 55° 12' N, 160° 03' W; (map 28). Named by W. H. Dall, USC&GS, in 1872.

East Island: island, 0.5 miles long, in Revillagigedo Channel, 1.2 miles SE of Duke Island, Alexander Archipelago; 54° 52' 30" N, 131° 12' 00" W; (map 2). Descriptive name given in 1883 by Lt. Comdr. H. E. Nichols, USN.

East Island: island, 1.8 miles long, in Kashevarof Islands, off NE coast of Prince of Wales Island, Alexander Archipelago; 56° 10' N, 132° 55' W; (map 6). Descriptive name given in 1886 by Lt. Comdr. A. S. Snow, USN, because it is the easternmost of the central group of the Kashevarof Islands.

East Island: island, 100 ft. long, in Tongass Narrows, near mouth of Ward Cove, 4 miles NW of Ketchikan, Alexander Archipelago; 55° 23' 47" N, 131° 44' 42" W; (map 3). Named by W. E. George, a local pilot; published in 1883 by USC&GS.

East Island: island, see Keski Island.

East Kennel Lake: lake, 750 ft. across, center of Kiska Island, Aleutian Islands; 51° 57' 50" N, 177° 22' 00" E; (map 14). An arbitrary name beginning with "E" to correspond to "E" grid used by the U.S. Army for tactical purposes during World War II; published in 1953 by AMS.

East Killem Lake: lake, 300 ft. across, center of Kiska Island, Aleutian Islands; 51° 57' 45" N, 177° 21' 20" E; (map 14). An arbitrary name beginning with "E" to correspond to "E" grid used by the U.S. Army for tactical purposes during World War II; published in 1953 by AMS.

East Kiska Lake: lake, 1.6 miles long, connected with Middle and West Kiska Lakes, northcentral Kiska Island, Aleutian Islands; 52° 04' N, 177° 35' E; (map 14). One of many arbitrary names applied to features on Kiska Island by USAAF for tactical purposes during World War II.

East Landing: beach, just SE of Saint Paul, on S coast of Saint Paul Island, in Pribilof Islands; 57° 07' 10" N, 170° 16' 00" W; (map 38). Local descriptive name reported in 1897 by W. W. Duffield, USC&GS. So called because it is on the east side of the peninsula.

East Massacre Valley: valley, on Attu Island, extends 2.2 miles from Clevesy Pass to Massacre Bay, SW of Gilbert Ridge, Aleutian Islands; 52° 51' 35" N, 173° 12' 30" E; (map 13). Descriptive name derived from Massacre Bay by U.S. Army during World War II; published in 1948 by AMS.

East Middle River: stream, distributary, flows N 10 miles from Nenana River to Tanana River, 1.6 miles W of Nenana, Tanana Lowland; 64° 34' 35" N, 149° 08' 20" W; BGN 1952; (map 100). Variant: East Fork Middle River. Local name originally published in 1916 on a GLO (BLM) survey plat as East Fork Middle River.

East Mountain: mountain, 2,120 ft., on E coast of Woronkofski Island, Alexander Archipelago; 56° 24' 10" N, 132° 26' 00" W; BGN 1917; (map 6). Variant: East Peak. Named in 1916 by USC&GS.

East Nagai Strait: water passage, between Nagai and Spectacle Islands, in Shumagin Islands, Aleutian Range; 55° 08' N, 159° 47' W; (map 27). Named by W. H. Dall, USC&GS, in 1872 and published in 1888.

East Nunatak Glacier: glacier, heads at 59° 37' N, 138° 39' W, trends NW 17 miles to Nunatak Fiord, 35 miles NE of Yakutat, St. Elias Mountains; 59° 48' 30" N, 138° 53' 00" W; BGN 1965; (map 46). Variant: Nunatak Glacier. Named by USGS in 1961. Originally this glacier was part of Nunatak Glacier, named in 1891 by Russell (1892, p. 86), because it then appeared to be a single glacier with a nunatak or rock island projecting through the ice near its terminus. Since then the glacier has retreated seven miles, completely uncovering the nunatak. The glacier now consists of two arms. The arms to the northeast is East Nunatak Glacier, the other arm is West Nunatak Glacier.

East Patuk Creek: stream, in Romanzof Mountains, flows NW 8.2 miles to Hulahula River, 12 miles SW of Mount Michelson, Brooks Range; 69° 11' N, 144° 35' W; (map 139). Eskimo name reported in 1956 by USGS.

East Peak: mountain, see East Mountain.

East Peak: peak, 1,319 ft., on NE coast of Attu Island, E of Chichagof Harbor, Aleutian Islands; 52° 55' 30" N, 173° 15' 50" E; (map 13). Descriptive name given in July 1855 by Lt. William Gibson, USN.

East Peak: peak, 2,010 ft., on Ear Mountain, 1 mile E of Ears Peak and 46 miles N of Teller, Seward Peninsula Highlands; 65° 55' 40" N, 166° 11' 30" W; (map 111). Named in 1941 by R. R. Coats, USGS.

East Peak: peak, 6,600 ft., 2 miles SE of terminus of Camicia Glacier and 7 miles NE of Valdez, Chugach Mountains; 61° 08' 50" N, 146° 02' 35" W; (map 68). Descriptive name given in 1898 by Capt. W. R. Abercrombie, USA.

East Point: point of land, at E side of mouth of Portage Bay, on N coast of Kupreanof Island, 77 miles E of Sitka, Alexander Archipelago; 57° 00' 15" N, 133° 19' 25" W; (map 8). Descriptive name given in 1882 by Lt. Comdr. H. E. Nichols, USN; published in 1885 by USC&GS.

East Point: point of land, between Uganik Bay and Uganik Passage, on N coast of Kodiak Island; 57° 50' 30" N, 153° 28' 30" W; (map 34). Descriptive name given in 1897 by Lt. Comdr. J. F. Moser, USN, of the USBF steamer Albatross.

East Point: point of land, E entrance point to Chichagof Bay, on NW shore of Stepovak Bay, Aleutian Range; 55° 39' 30" N, 160° 13' 00" W; (map 28). Named by C. Palache of the Harriman Alaska Expedition of 1899 (1910, v. 4, p. 75).

East Point: point of land, easternmost point of Naked Island, in Prince William Sound, 38 miles NE of Chenega, Chugach Mountains; 60° 39' 40" N, 147° 18' 05" W; (map 63). Local name reported in 1951 by USGS.

East Point: point of land, on E coast of Chichagof Island, at mouth of Pavlof Harbor, on SW shore of Freshwater Bay, 8 miles NE of Tenakee Springs, Alexander Archipelago; 57° 50' 30" N, 135° 01' 15" W; (map 9). Descriptive name given by Comdr. R. W. Meade, USN; published in 1869 on Hydrog. Chart 225. Name not shown on recent maps.

East Point: point of land, on E coast of Woronkofski Island, Alexander Archipelago; 56° 23' 00" N, 132° 24' 20" W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow, USN; name published in 1887 on USC&GS Chart 706.

East Point: point of land, on E shore of Whitewater Bay, on SW coast of Admiralty Island, 20 miles S of Angoon, Alexander Archipelago; 57° 13' 40" N, 134° 33' 20" W; (map 9). Named in 1881 by Comdr. Henry Glass, USN, and published by USC&GS on Chart 726.

East Point: point of land, on N bank of Yukon River, W of Hills Island and 33 miles W of Marshall, Yukon-Kuskokwim Delta; 61° 55' N, 163° 05' W; (map 74). Riverboat pilots' name shown on a fieldsheet by R. H. Sargent, USGS, in 1916.

East Point: point of land, see Chernofski Point.

East Point: point of land, see Chirikof Point.

East Point: point of land, see Eagle Point.

East Point: point of land, see Orient Point.

East Point: point of land, see Uganik, Cape.

East Portage Creek: stream, flows NW 5 miles to Portage Creek which flows to American River, 12 miles NE of Kougarak Mountain and 22 miles SE of Ear Mountain, Seward Peninsula Highlands; 65° 47' N, 165° 32' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

East Portage Creek: stream, see Carson Creek.

East Pyramid Peak: peak, 11,250 ft., in Mount McKinley National Park, on Mt. Tripyramid, 13 miles NE of Mount McKinley, Alaska Range; 63° 10' N, 150° 40' W; BGN 1948; (map 88). Named in 1948 by Bradford Washburn.

East Rock: rock, in Pacific Ocean, 10 miles SE of Dolgio Island, Aleutian Range; 55° 01' 00" N, 161° 25' 10" W; (map 28). Name shown on a 1953 USGS map.

East Rock: rock, in Sumner Strait, 0.8 miles NE of village of Point Baker, on N coast of Prince of Wales Island, Alexander Archipelago; 56° 21' 30" N, 133° 36' 00" W; (map 6). Local descriptive name reported in 1949 by USGS.

East Rookery: rookery, see Great East Rookery.

East San Lorenzo Island: island, 1 mile long, one of San Lorenzo Islands, in Gulf of Esquibel, 1.5 miles SSW of Esquibel Island, Alexander Archipelago; 55° 35' N, 133° 36' W;

BGN 1917; (map 4). Variant: Barbarossa Island. Named in 1916 by USC&GS. See Lorenzo Islands.

East Sentinel Island: island, 500 ft. long, in McKenzie Inlet, on E coast of Prince of Wales Island, S of Skowl Arm Kasaan Bay, Alexander Archipelago; 55° 23' 35" N, 132° 22' 15" W; (map 4). Local descriptive name obtained in 1905 by E. F. Dickins, USC&GS.

East Spit: point of land, 0.5 miles N of village of Cape Fanshaw, extends into South Passage, 72 miles E of Sitka, Coast Mountains; 57° 13' 15" N, 133° 30' 15" W; (map 8). Descriptive name given in 1891 by Lt. Comdr. H. E. Nichols, USN; published by USC&GS in the 1891 Coast Pilot (p. 145).

East Steller Valley: valley, 2.5 miles long, formed by East Fork Steller River, on N coast of Attu Island, Aleutian Islands; 52° 58' 35" N, 172° 54' 25" E; (map 13). Descriptive name derived from Steller Cove by U.S. Army during World War II; published in 1948 by AMS.

East Sunshine Lake: lake, 0.4 miles long, one of Sunshine Lakes, 10 miles S. of Talkeetna, Cook Inlet Lowland; 62° 10' 50" N, 150° 02' 05" W; (map 81). Local name reported in 1958 by USGS.

East Twin Bay: estuary, on N side of Perry Island, extends N 3 miles to E end of Wells Passage, 24 miles ESE of Whittier, Chugach Mountains, 60° 44' 30" N, 147° 56' 30" W; BGN 1914; (map 63). So named in 1914 by USC&GS because it is "the eastern one of two bays * * * ."

East Twin Glacier: glacier, heads in Hades Highway, trends S 5 miles to Twin Glacier Lake, 6 miles W of Kluchman Mountain, Coast Mountains, 58° 33' 25" N, 133° 53' 25" W; BGN 1966; (map 12). Variant: Twin Glacier, Twin Glaciers. Named relative to West Twin Glacier, published by Lawrence (1950, p. 195). East and West Twin Glaciers were at one time joined and the resultant feature was reported as "Twin Glacier" by USC&GS in 1895. Subsequent recession of the glacial front has resulted in two separate glaciers.

East Twin Lake: lake, 1.3 miles long, 6.8 miles SE of Barrow, Arctic Plain; 71° 16' 30" N, 156° 27' 30" W; (map 153). Descriptive name used for scientific purposes (Carson and Hussey, 1912).

East Twin Lake: lake, 4 miles E of West Twin Lake and 40 miles E of Bitzshtini Mountains, Tanana Lowland; 64° 26' N, 150° 40' W; (map 99). Local descriptive name reported in 1952 by USGS.

East Twin Peak: peak, 5,873 ft., 2.5 miles N of Eklutna Lake and 11 miles S of Palmer Chugach Mountains; 61° 26' 45" N, 149° 08' 30" W; (map 69). Descriptive name reported in 1960 by USGS.

East Yahtse River: stream, see Yahtse River.

East-northeast Indent: bight, 2.5 miles wide, on NE coast of Semisopochnoi Island, Rat Islands, Aleutian Islands; 51° 59' 40" N, 179° 42' 40" E; (map 15). Name published on a 1943 AMS map.

East-northeast Point: point of land, on NE coast of Little Sitkin Island, Rat Islands, Aleutian Islands; 51° 58' 05" N, 178° 34' 15" E; (map 15). Name published on a 1943 AMS map.

East-southeast Bight: bight, 1.2 miles wide, on SE coast of Semisopochnoi Island, Rat Islands, Aleutian Islands; 51° 56' 40" N, 179° 43' 20" E; (map 15). Name published on a 1943 AMS map.

East-southeast Head: point of land, includes Southeast Point and East-southeast Point, on SE coast of Semisopochnoi Islands, Rat Islands, Aleutian Islands; 51° 55' 50" N, 179° 44' 00" E; (map 15) Name published on a 1943 AMS map.

East-southeast Point: point of land, part of East-southeast Head, on SE coast of Semisopochnoi Island, Rat Islands, Aleutian Islands; 51° 56' N, 179° 44' E; (map 15). Name published on a 1943 AMS map.

Easter Creek: stream, flows NE 1.5 miles to Chelatna Lake, 47 miles NW of Talkeetna, Alaska Range; 62° 31' 35" N, 151° 30' 30" W (map 81). Prospectors' name reported in 1911 by R. W. Porter, USGS.

Easter Creek: stream, flows NE 1.6 miles to Seventymile River, 38 miles NW of Eagle, Yukon-Tanana Highlands; 64° 59' 30",N 142° 20' 30" W; (map 102). Local name published in 1956 by USGS.

Easter Creek: stream, flows NW 36 miles to Killik River, 19 miles SE of Kurupa Lake, Brooks Range; 68° 09' N, 154° 10' W; (map 133). Probably named by J. B. Mertie, Jr., of the 1924 USGS expedition, who explored this stream on Easter Sunday. Shown on a fieldsheet by Gerald FitzGerald.

Easter Creek: stream, see Foster Creek.

Easterly Island: island, 0.3 miles long, 3.2 miles N of Vixen Point, in SE Ernest Sound. Alexander Archipelago; 55° 53' 40" N, 132° 05' 15" W; (map 4). Variant: Oval Island. Descriptive name given in 1923 by USC&GS "to distinguish this from Westerly Island, on opposite side of fairway."

Eastern Anchorage: anchorage, near mouth of Jamestown Bay, 1 mile SE of Sitka. on W coast of Baranof Island, Alexander Archipelago; 57° 02' 20" N, 135° 18' 00" W; (map 9). "Old local descriptive name" published by USC&GS in the 1891 Coast Pilot (p. 174).

Eastern Arm Nakwasina Passage: sound, see Nakwasina Sound.

Eastern Bay: bay, 1 mile across, between Siginaka Islands and E coast of Krestof Island, 9 miles NW of Sitka, Alexander Archipelago; 57° 10' N, 135° 28' W; (map 9) Name published in 1962 by USC&GS on Chart 8281.

Eastern Channel: water passage, extends E 6 miles from Sitka Sound to Silver Bay, 2.5 miles S of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 01' N, 135° 20' W;

(map 9). Variant: Farvater Vostochnyy An 1882 translation by USC&GS of the name "Farv[ater] Vostochnyy" published by Tebenkov (1852, map 38).

Eastern Glacier: glacier, see South Crillon Glacier.

Eastern Ocean: sea, see Bering Sea.

Eastern Passage: water passage, extends SE 18 miles from mouth of Stikine River to The Narrows, between Wrangell Island and mainland, Alexander Archipelago; 56° 28' N, 132° 15' W; (map 6). Named in 1877 by W. H. Dall, USC&GS.

Eastern Passage: water passage, in Marmot Bay, between Skipwith Reefs and Hog Island, 3 miles E of Afognak, between Afognak and Kodiak Islands; 58° 00' 30" N, 152° 41' 00" W; (map 43). Named in 1900 by Lt. Comdr. J. F. Moser, USN, commander of the USBF steamer Albatross.

Eastern Point: point of land, on E coast of Krestof Island, 9.5 miles NW of Sitka, Alexander Archipelago; 57° 10' 40" N, 135° 27' 10" W; (map 9). Probably named by W. H. Dall, USC&GS, and published in the 1883 Coast Pilot (p. 152).

Eastern Sitkin Island: island, see Great Sitkin Island.

Eastland Creek: stream, on Kenai Peninsula, flows S 3 miles to Kachemak Bay, 16 miles NE of Homer, Cook Inlet Lowland; 59° 45' 30" N, 151° 09' 30" W; (map 50). Local name reported and published by USGS in the 1950's.

Eastman Creek: stream, flows W to Nome River, about 20 miles NE of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Easy Cove: cove, 0.6 miles across, on S tip of Akun Island, E of Jackass Point, Krenitzin Islands; 54° 06' 45" N, 165° 33' 25" W; (map 24). Named in 1901 by J. J. Gilbert, USC&GS.

Easy Creek: stream, flows SW 0.7 miles to Cache Creek, E of Hansen Bar, 31 miles NW of Talkeetna, Alaska Range; 62° 26' 20" N, 151° 02' 40" W; (map 81). Prospectors' name reported in the 1930's by USGS.

Easy Creek: stream, see Eagle Creek.

Easy Money Creek: stream, flows NE 4.3 miles to Tip Creek, 11 miles NE of Long and 23 miles SE of Ruby, Nowitna Lowland; 64° 27' 15" N, 155° 11' 10" W; (map 98). Prospectors' name reported in 1912 by H. M. Eakin (in Brooks and others, 1913, pl. 10), USGS.

Easy Moose Creek: stream, flows SW 9 miles to Kandik River 12 miles NE of that stream's junction with Yukon River, Porcupine Plateau; 65° 28' N, 142° 09' W; (map 103). Local name published in 1956 by USGS.

Easy Pass: pass, 3,700 ft., trends E-W 1 mile, 3.7 miles S of Sable Mountain and 42 miles SW of Healy, Alaska Range; 63° 22' N, 149° 42' W; (map 87). Name shown on a 1923 manuscript map of The Alaska Railroad

Eaton Creek: stream, flows NW to Inmachuk River, about 16 miles N of Imurak Lake, Seward Peninsula Highlands; (map 110). Prospectors' name reported in 1901 by USGS (Collier, 1902, pl. 12). This stream cannot be identified on current maps.

Eaton Point: point of land, on W coast of Cleveland Peninsula, 2.5 miles E of Brownson Island, Alexander Archipelago; 55° 56' 20" N, 132° 04' 10" W; (map 4). Named by local fishermen and reported in 1904 by H. C. Fassett, USBF.

Eaton River: stream, flows NW to Imuruk Basin, about 25 miles SE of Teller, Seward Peninsula Highlands; (map 111). Variant: Fish River. Local name reported in 1899 by Schrader and Brooks (1900, map 3), USGS. This name may have been an early name for the Kuzitrin River or Pilgrim River. Baker (1906, p. 234), USGS, said this stream was "Formerly called Fish River * * * s."

Eaton River: stream, see Niukluk River.

Eauwan Lake: lake, see Ewan Lake.

Eavok Channel: stream, distributary of Kobuk River, heads at Melvin Channel and flows SW 19 miles to Riley Channel, Kobuk River, 44 miles NW of Selawik, Kotzebue-Kobuk Lowland; 66° 45' N, 161° 33' W; (map 114). Eskimo name obtained by U.S. Army Corps of Engineers in 1955.

Eavok Lake: lake, 1 mile across, in Kobuk River Delta, 42 miles NW of Selawik, Kotzebue-Kobuk Lowland; 66° 49' N, 161° 25' W; (map 114). Eskimo name obtained by U.S. Corps of Engineers in 1955.

Eayagit Point: point of land, on E coast of Saint Lawrence Island, 1.3 miles S of Northeast Cape; 63° 17' N, 168° 42' W; (map 93). Variant: Cape Eayagit. Eskimo name reported in 1932 by Otto W. Geist, Univ. of Alaska.

Eayagit, Cape: point of land, see Eayagit Point.

Ebcyeet: lava bed, see Ibkikwit Lava Bed.

Eberly Glacier: glacier, heads 1.6 miles W of Mount Eberly, trends W 4 miles to Yakataga Glacier, 95 miles NW of Yakutat, Chugach Mountains; 60° 08' 15" N, 142° 06' 15" W; BGN 1945; (map 65). Named reported by USGS in 1945.

Eberly, Mount: mountain, 7,030 ft., in Robinson Mountains, 4.4 miles N of Munday Peak and 88 miles NW of Yakutat, Chugach Mountains; 60° 08' 15" N, 141° 57' 20" W; BGN 1945; (map 65). Name reported in 1913 by A. G. Maddren, USGS, and published by G. C. Martin (1921, pl. 6), USGS.

Ebner Falls: fans, just above Last Chance Basin 1 mile W of Juneau, Coast Mountains, 58° 17' 30" N, 134° 22' 36" W; (map 11). Variant: Big Falls. Named for William Ebner, 1853-1938, a mining operator from Wisconsin who organized the Ebner Gold Mining Co. with a stamping mill near the falls about 1896. In 1908 he sold the property and left Juneau. Big Falls was the early miners' name for these falls. The present name was not used until about 1900 (DeArmond, 1957, p. 17).

Eccles Creek: stream, flows W 1 mile to Orca Inlet, 1.5 miles SW of Cordova, Chugach Mountains; 60° 32' N, 145° 47' W; BGN 1937; (map 64). Local name reported by USFS in 1936. Name derived from Mount Eccles.

Eccles Lagoon: estuary, on SE shore of Orca Inlet, 1.5 miles SW of Cordova, Chugach Mountains; 60° 32' N, 145° 47' W; BGN 1937; (map 64). So named by USFS in 1936 "because Eccles Creek flows into it."

Eccles, Mount: mountain, 2,357 ft., in Heney Range, 1.5 miles SE of Cordova, Chugach Mountains; 60° 31' 30" N, 145° 43' 30" W; BGN 1959; (map 64). Local name reported by USGS in 1933. Named for S. W. Eccles, first president of the Copper River and Northwestern Railroad.

Echeatnu River: stream, see South Fork Kuskokwim River.

Echo Cove: bay, 1.8 miles long, on S shore of Berners Bay 1.4 miles E of Point Bridget and 33 miles NW of Juneau, Coast Mountains; 58° 40' 15" N, 134° 56' 00" W; (map 11). Local name reported in 1903 and published by USGS in 1912 (Spencer and Wright, pl. 37).

Echo Cove: cove, 0.2 miles across, on S tip of Catherine Island, off NE coast of Baranof Island, Alexander Archipelago; 57° 18' N, 134° 49' W; BGN 1935; (map 9) Local name reported in 1935 by P. S. Smith, USGS. The name was suggested "by perfect echoes audible on boats anchored there."

Echo Creek: stream, in Glacier Bay National Monument, flows 2 miles SW to a marsh 2 miles SW of mouth of Justice Creek, 92 miles NW of Hoonah, Malaspina Coastal Plain; 58° 42' N, 137° 44' W; (map 10). Local name reported by the IBC in 1894 and published by J. B. Mertie, Jr. (in Smith, P. S., and others, 1933, fig. 4, p. 118), USGS.

Echo Glacier: glacier, heads N of Echo Mountain, trends N 4 miles to Avalanche Canyon, 32 miles N of Juneau, Coast Mountains; 58° 46' 15" N, 134° 25' 15" W [1948]; BGN 1965; (map 11). Named in 1964 by members of the Juneau Research Project.

Echo Island: island, 0.3 miles long, one of Kashevarof Islands, in Kashevarof Passage, off N coast of Prince of Wales Island, Alexander Archipelago; 56° 14' 10" N; 133° 01' 20" W; (map 6). Local navigators' name reported in 1904 by H. C. Fassett, USBF.

Echo Lake: lake, 0.5 miles long, in Matanuska Valley, 4.3 miles SW of Palmer, Cook Inlet Lowland; 61° 33' 15" N, 149° 12' 45" W; (map 69). Local name reported in 1942 by AMS.

Echo Mountain: mountain, 3,400 ft., in DeLong Mountains, 20 miles NNE of Misheguk Mountain, Brooks Range; 68° 32' N, 160° 53' W; BGN 1966; (map 131). So called by the B. P.

Exploration Co., in 1965, because of “the acoustical properties of a col on the south side of the mountain.”

Echo Mountain: peak, 5,300 ft., 4.5 miles E of The Tusk and 29 miles N of Juneau, Coast Mountains; 58° 42' 45" N, 134° 22' 17" W, BGN 1965; (map 11). Descriptive name given by members of the Juneau Icefield Research Project in 1964.

Echo Pass: pass, S of Amherst Peak on Morris Glacier, 13.5 miles N of Juneau, Coast Mountains; 58° 30' 00" N, 134° 21' 30" W; (map 11). Local name published by USGS in 1962.

Echoing Lake: lake, 2 miles long, 19 miles NW of Stevens Village, Yukon Flats; 66° 16' 30" N, 149° 20' 00" W; (map 118). Local descriptive name obtained in 1956 by USGS.

Echooka River: stream, heads at glacier in Brooks Range 68° 53' 30" N, 146° 29' 30" W, flows NW 65 miles to Ivishak River 8 miles SE of junction with Sagavanirktok River, Arctic Slope; 69° 25' N, 148° 16' W; BGN 1960; (map 140). Eskimo name reported to mean “wing”; given in 1951 by A. S. Keller and R. L. Ditterman, USGS.

Eckholmes Islands: islands, see Eckholms, The.

Eckholms, The: islands, 0.2 miles across, S of Eastern Channel, Sitka Sound, 3 miles S of Sitka, Alexander Archipelago; 57° 00' 40" N, 135° 21' 30" W; (map 9). Variant: Beacon Group, Eckholmes Island, Ek-galit-tch-an, Ostrova Yekgolm Ekgalit-tch. Named in 1809 by the Russian navigator Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN as “O[strova] Yekgolm” or “Yekgolm Islands.” Eckholm is a Swedish family name.

Eckman Beach: beach, 0.5 miles long, on Hodikof Bay, Attu Island, Aleutian Islands; 52° 53' 23" N, 173° 17' 20" E; (map 13). Name shown on an AMS map published in 1948 and given by the U.S. Army during World War II. The name is not used today.

Eckman Creek: stream, on E coast of Attu Island, flows E 1.7 miles to Hodikof Bay, Aleutian Islands; 52° 53' 12" N, 173° 16' 52" E; (map 13). Named by U.S. Army during World War II; published in 1948 by AMS.

Eclipse Creek: stream, flows W 3.8 miles to Melsing Creek 5 miles NE of Council and 37 miles NE of Solomon, Seward Peninsula Highlands; 64° 57' N, 163° 35' W; (map 95). Variant: Clipper Creek. Prospectors' name reported in 1899 by Schrader and Brooks (1900, map 3), USGS.

Eclipse Slough: stream, anabranch of South Fork Koyukuk River near its mouth, 20 miles E of Allakaket, Kanuti Flats; 66° 35' N, 151° 55' W; (map 117). Variant: Steamer Eclipse Slough. Named in 1899 for the riverboat Eclipse which wintered there in 1898-99.

Ecol-ena: stream, see Ekolina Creek.

Ecolik Point: point of land, see Ikolik Cape.

Ed Berg Slough: stream, flows NW 9 miles to Yukon River, 8 miles NE of Beaver, Yukon Flats; 66° 22' 02" N, 147° 06' 45" W; (map 118). Variant: Ed Burkes Slough. Local name obtained in 1956 by USGS.

Ed Burkes Slough: stream, see Ed Berg Slough.

Edaburge Creek: stream, flows SW 7 miles to Medicineman Creek, 56 miles NE of Medfra, Kuskokwim Lowland; 63° 35' N, 153° 17' W; (map 89). Local name reported in 1958 by USGS.

Edakh, Cape: point of land, see Idak, Cape.

Eddington, Mys: point of land, see Addington, Cape

Eddy Creek: stream, flows N 13.5 miles to Khotol River, 22 miles SE of Nulato, Koyukuk Lowland; 64° 19' N, 157° 58' W; (map 97). Local name reported in 1935 by Frederica de Laguna, BAE.

Eddy Island: island, 0.5 miles across, on W coast of Adak Island, Aleutian Islands; 51° 49' 45" N, 176° 54' 00" W; BGN 1936; (map 17). Variant: Oglala Island. So named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934, "because of the eddies in the water."

Eddy Point: point of land, W tip of Amlia Island, Aleutian Islands; 52° 07' 50" N, 174° 03' 00" W; (map 18). Name published by the USC&GS on a 1943 coast chart and "so called because of the strong current off the point."

Eddy Rock: rock, 1.7 miles W of Kanaga Island, Aleutian Islands; 51° 41' 20" N, 177° 44' 00" W; (map 17). Name published by USC&GS in the 1944 Aleutian Coast Pilot (p. 116).

Eddys Range: ridge, elev. 2,200 ft., 4 miles long, at head of Womens Bay, SW of Kodiak, on E coast of Kodiak Island; 57° 40' N, 152° 37' W; (map 34). Local name reported in 1949 by USGS.

Edelman Creek: stream, in Tilted Hills, on Iniskin Peninsula, flows NW 1.5 miles to Bowzer Creek, 3.3 miles N of Oil Bay, Aleutian Range; 59° 43' 10" N, 153° 15' 50" W; BGN 1962; (map 51). Named locally for a prospector who staked mining claims in the area in 1892; published in 1958 by USGS.

Eden Creek: stream, flows SE 22 miles to North Fork Kuskokwim River, 48 miles NE of Medfra Kilbuck-Kuskokwim Mountains; 63° 32' N, 153° 34' W; (map 89). Local name reported in 1958 by USGS.

Edes Lake: lake, 1.3 miles long, 1 mile SE of Mirror Lake, in Broad Pass, 37 miles S of Healy, Talkeetna Mountains; 63° 19' 45" N, 149° 05' 30" W; BGN 1927; (map 87). Variant: Summit Lake. Named in 1927 by BGN for William C. Edes, 1856-1922, Chief Engineer and Chairman of the Alaska Engineering Commission, 1914-1920. It was originally called "Summit Lake" but because of duplication the name was changed.

Edes: railroad station, see Turnagain.

Edgar Creek: stream, flows SE 4.5 miles to Kuyukutuk River 12.5 miles NW of Russian Mission, Nulato Hills; 61° 52' 20" N, 161° 40' 30" W; (map 73). Prospectors' name reported by Harrington (1918, map), USGS; probably named for Andrew Edgar who staked claims in the area in 1913.

Edgar Creek: stream, flows SW 6 miles to Yanert Fork, 35 miles SE of Healy, Alaska Range; 63° 35' 30" N, 148° 01' 00" W; (map 87). Local name obtained in 1913 by J. W. Bagley, USGS; published by Moffit (1915, pl. 1).

Edgcombe, Cape: point of land, see Edgecumbe, Cape.

Edgecumbe, Cape: point of land, see Edgecumbe, Cape.

Edge Creek: stream, heads in Nutzotin Mountains, flows NE 14 miles to Chisana River, Alaska Range; 62° 24' N, 141° 42' W; (map 84). Named in 1902 by F. C. Schrader, USGS, because of its position at edge of Nutzotin Mountains; published by USGS (Mendenhall and Schrader, 1903, pl. 3).

Edge Mountain: mountain, 1,928 ft., on SE coast of Afognak Island, 24 miles NE of Afognak; 58° 11' 30" N, 152° 06' 30" W; (map 43). Name published by USC&GS in 1911 on Chart 8555.

Edge Point: point of land, S tip of Mary Island, Alexander Archipelago; 55° 02' 40" N, 131° 11' 35" W; (map 3). Descriptive name published in 1917 by USC&GS.

Edgecomb Lake: lake, see Edgecombe Lake.

Edgecombe Lake: lake, 0.5 miles long, on Annette Island, 2.5 miles ESE of Metlakatla, Alexander Archipelago; 55° 07' 10" N, 131° 29' 30" W; (map 3). Variant: Edgecomb Lake, Edgecumbe Lake. Named in 1897 by USC&GS. See Edgecumbe, Cape.

Edgecombe, Cape: point of land, see Edgecumbe, Cape.

Edgecumb Island: island, see Kruzof Island.

Edgecumb, Mount: volcano, see Edgecumbe, Mount.

Edgecumbe Lake: lake, see Edgecombe Lake.

Edgecumbe, Cape: point of land, on S coast of Kruzof Island, 20 miles W of Sitka, Alexander Archipelago; 56° 59' 45" N, 135° 51' 00" W; (map 5). Variant: Cabo del Engano, Cape Edgcombe, Cape Edgcumbe, Cape Edgecombe, Cape Edgcomb, Cape Edjecumbe, Cape Saint Lazaria, Cape Saint Lazarius, Cape Trubitsina, Mys Svataya Lazarya, Mys Trubitsina, Sitka Point, Trubitsin Point. Named on May 2, 1778 by Capt. Cook 1785, v. 2, p. 344), RN, for Mount Edgecumbe. In 1775, F. A. Maurelle and Don Juan de la Bodega y Quadra named this point "Cabo del Engano," meaning "cape of deceit." Lt. Sarichev (1826, map 19), IRN, published three names for this feature: "Cabo del Engano"; "Mys Sv [ataya] Lazarya," or "Saint Lazarus' Cape," derived from the name applied in 1741 to Mount Edgecumbe by Capt.

A. Island Chirikov, IRN; and "Mys Trubitsina," or "Trubitsin Cape," given in the 1790's by A. A. Baranov of the Russian American Company, first governor of the Russian American Colonies, for Grigori Trubitsin, a boatswain under Capt. Chirikov's command.

Edgecumbe, Cape: point of land, see Sitka Point.

Edgecumbe, Mount: volcano, 3,201 ft., on S central Kruzof Island, 16 miles W of Sitka, Alexander Archipelago; 57° 03' N, 135° 45' W; (map 9). Variant: Gora Edgkom, Gora Edzhkomb, Mount Saint Hyacinthe, Mount Saint Lazaria, Mount San Jacinto, Mount Edgecumb, Svataya Lazarya. Named in 1778 by Capt. James Cook, RN, "probably after Mt. Edgecumbe at the entrance of Plymouth Harbor, England, but possibly after George, the first Earl of Edgecumbe. The name was adopted by Vancouver" (Wagner, 1937, p. 385). This feature was also called "Montana de San Jacinto," or "Saint Jacinto Mountain," on August 16, 1775, by Don Juan de la Bodega y Quadra, "in honor of the saint whose day it was" (Wagner, p. 501); "Gore Svataya Lazarya," or "Saint Lazarus Mountain," by Lt. Sarichev (1826, map 19), IRN. This mountain was climbed in July 1805 by Capt. U. T. Lisianski, IRN.

Edgkom, Gora: volcano, see Edgecumbe, Mount.

Edgkomb, Cape: point of land, see Edgecumbe, Cape.

Edison, Mount: mountain, 11,400 ft., in Dora Keen Range, near head of Columbia Glacier, 36 miles NW of Valdez, Chugach Mountains; 61° 24' 20" N, 147° 11' 15" W; (map 69). Named by members of the Chugach Mountains Expedition in 1955 for Thomas Alva Edison, 1847-1931, American inventor; reported by Nielsen (1963, p. 135).

Edith Island: island, extends E-W 3.6 miles, between East and Main Channels Yukon River, 0.4 miles S of Florence Island and 36 miles NE of Ruby, Nowitna Lowland; 64° 56' N, 154° 22' W; (map 98). Riverboat pilots' name shown on 1940 "Navigation Chart, Tanana-Yukon Rivers" of the River Boat Service, U.S. Dept. of Interior.

Edith Point: point of land, N point of entrance to Checats Cove, on E bank of Behm Canal, 2.3 miles NE of Winstanley Island, Coast Mountains; 55° 29' 45" N, 130° 52' 48" W; (map 3). Local navigators' name obtained in 1904 by H. C. Fassett, USBF.

Edjecumbe, Cape: point of land, see Edgecumbe, Cape.

Edmonds Cove: cove, see Kongishluk Bay.

Edmonds Lake: lake, 3.2 miles NE of Birchwood and 22 miles NE of Anchorage, Cook Inlet Lowland; 61° 26' 00" N, 149° 23' 20" W; (map 69). Local name reported in 1942 by AMS.

Edna Bay: bay, 2 miles across, SE Kosciusko Island, Alexander Archipelago; 55° 56' N, 133° 37' W; (map 4). Named in 1903 or 1904 by E. F. Dickins, USC&GS, who wrote "named by our party, has no local name."

Edna Bay: village, pop. 135, on SE coast of Kosciusko Island at W edge of Edna Bay, Alexander Archipelago; 55° 57' N, 133° 40' W; (map 4). This is a logging village. A post office was established here in 1943 but was transferred to Ketchikan in 1960 (Ricks, 1965, p. 18).

Edna Creek: stream, flows SE 0.8 miles to Saunders Creek, 8 miles E of Nome, Seward Peninsula Highlands; 64° 29' 42" N, 165° 06' 00" W; (map 94). Prospectors' name shown on the 1902 "Map of the Nome and Snake River Country" by J. M. Davidson.

Eduard, Mys: point of land, see Edward, Cape.

Eduards Creek: stream, see Edward Creek.

Edvard, Mys: point of land, see Edward, Cape.

Edward Creek: stream, flows SW 1 mile to Cripple River 1 miles above its mouth on Norton Sound and 12 miles W of Nome, Seward Peninsula Highlands; 64° 33' N, 165° 46' W; (map 94). Variant: Eduards Creek. Local name reported as "Eduards Creek" in 1899 by D. C. Witherspoon (in Schrader and Brooks, 1900, map 2), USGS. Subsequent maps show "Edward."

Edward Islands: islands, 0.7 miles across, 6 miles W of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 40' N, 136° 15' W; (map 9). Name published in 1928 by USC&GS on Chart 8250.

Edward Passage: water passage, extends 2.5 miles NW from Pearse Canal to Fillmore Inlet, NE of Fillmore Island, Coast Mountains; 54° 50' N, 130° 30' W; (map 2). Local name published in 1943 by USC&GS.

Edward, Cape: point of land, W tip of Elkugu Island, 6.1 miles WNW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 40' 45" N, 136° 15' 20" W; (map 9). Variant: Mys Eduard, Mys Edvard, Mys Elkugu. Named on July 29, 1794, by Capt. George Vancouver, RN (Wagner, 1937, p. 385). The Tlingit Indian name was published by Capt. Tebenkov (1852, map 8), IRN, as "M[ys] Elkugu," i.e. "Elkugu Cape."

Edward, Point: point of land, NE tip of Cape Rozhnof, 9 miles W of settlement of Port Moller, Bristol Bay Lowland; 55° 56' 00" N, 160° 52' 30" W; (map 28). Named by W. H. Dall, USC&GS, in 1882, but first applied to the northern tip of Deer Island, which is now called Fawn Point. Point Edward is named for Capt. Edward Perry Herendeen, who commanded the USC&GS schooner Yukon, 1873-74 and 1880.

Edward, Point: point of land, see Fawn Point.

Edwardes River: stream, flows 15 miles SW to Controller Bay, 14 miles SE of Katalla, Malaspina Coastal Plain; 60° 07' N, 144° 08' W; (map 64). Variant: Puffy River. Local name reported in 1903 by G. C. Martin, USGS. Named for Cecil Edwardes, brother of Lord Kensington, who was associated with the Alaska Development Co. in 1899.

Edwards Creek: stream, flows S 11 miles to Yukon River, 13 miles W of junction of Charley River, Porcupine Plateau; 65° 23' N, 143° 07' W; (map 103). Local name published in 1956 by USGS.

Edwards Island: island, 1.7 miles long, in Port Beauclerc, on E coast of Kuiu Island, Alexander Archipelago; 56° 18' N, 133° 57' W; (map 6). Named in 1886 by Lt. J. M. Helm, USN, for charting purposes; name published in 1887 on USC&GS Chart 706.

Edwardsville: town, see Douglas.

Edzhkomb, Gora: volcano, see Edgecumbe, Mount.

Ee-gah-rook: hills, see Igrarok Hills.

Ee-ree-nick Cape: promontory, see Lewis, Cape.

Eebruligorruk: promontory, see Thompson, Cape.

Eebrulikgorruk: stream, see Ibrulikorak Creek.

Eebrulioruk Creek: stream, see Ibrulikorak Creek.

Eedalook: point of land, see Prominence, Cape.

Eegikrattusuq Creek: stream, see Ibrulikorak Creek.

Eegik-kah-Lik Creek: stream, see Thetis Creek.

Eegikruttoosook Creek: stream, see Ibrulikorak Creek.

Eegikruttoosook Creek: stream, see Ikijaktusak Creek.

Eegillerak Mountain: hill, see Igilerak Hill.

Eegyak: stream, see Throat River.

Eeikrook Mountain: mountain, see Iyikrok Mountain.

Eek Channel Kuskokwim Bay: water channel, extends S 20 miles from Kuskokwak Channel to point 19 miles SW of Kwinhagak and 25 miles NW of Carter Bay, Yukon-Kuskokwim Delta; 59° 38' N, 162° 18' W; (map 54). Local name published in 1943 by USC&GS; derived from nearby Eek River.

Eek Channel: channel, extends S 11 miles from Eek Point to Kuskokwim Bay, 55 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 03' N, 162° 20' W; (map 58). Named in 1913 by USC&GS; derived from name "Eek River."

Eek Fish Camp: locality, see Aklut.

Eek Inlet: estuary, extends NW 1 mile off Hetta Inlet, just N of Eek Point, on SW coast of Prince of Wales Island, Alexander Archipelago; 55° 08' 30" N, 132° 39' 30" W; (map 4). Variant: Eeke Inlet. Name published in 1899 by USC&GS.

Eek Island: island, 0.8 miles long, in Kuskokwim River, 4 miles N of mouth of Eek Channel, 49 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 10' N, 162° 20' W; (map 58). Named in 1913 by USC&GS.

Eek Lake: lake, 0.8 miles long, on SW coast of Prince of Wales Island, 2.2 miles N of Eek Point Alexander Archipelago; 55° 10' 35" N, 132° 40' 30" W, (map 4). Variant: Eeke Lake. Indian name recorded in 1897 as "Eeke" by Lt. Comdr. J. F. Moser, USN.

Eek Lake: lake, 1.4 miles long, between Eek and Kwethluk Rivers, 15 miles SE of Eluwaktak Mountain and 53 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 14' N, 160° 19' W; (map 59). Local name reported in 1935 by USGS.

Eek Lake: lake, 4 miles across, 20 miles S of Bethel, Yukon-Kuskokwim Delta; 60° 30' N, 161° 45' W; (map 59). Local name reported in 1949 by USGS.

Eek Mountains: mountains, 4,000 ft., trend NE 28 miles from junction of Nakailingak Creek and Kanektok River to Eek River, 75 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 60° 00' N, 160° 30' W; (map 53). Name derived from Eek River; published in 1951 by USGS.

Eek Point: point of land, at junction of Eek and Eenayarak Rivers, 45 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 12' N, 162° 15' W; (map 58). Named in 1898 by USC&GS after the Eek River.

Eek Point: point of land, between Hetta Inlet and Sukkwan Strait, on SW coast of Prince of Wales Island, Alexander Archipelago; 55° 08' 15" N, 132° 39' 55" W; (map 4). Local name reported in 1905 by E. F. Dickins, USC&GS; derived from Eek Inlet.

Eek River: stream, heads at 59° 59' N, 160° 05' W, flows NW 108 miles, joins Eenayarak River to form Eek Channel Kuskokwim River, 45 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 12' N, 162° 15' W; (map 58). Variant: Reka Ik. Eskimo name published as "Ik" by Lt. Sarichev (1826, map 3). It has been spelled "Eek" since 1880.

Eek: village, pop. 200, on left bank of Eek River 12 miles E of Kuskokwim River and 41 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 13' 30" N, 162° 01' 30" W; (map 58). Variant: Ik. Eskimo village named for the stream. It had a reported population of 170 in 1939 and 141 in 1950. The Eek Post Office was established in 1949.

Eekahgyak: ford, see Ikagiak Shallows.

Eekayruk Creek: stream, flows 2 miles W from Eekayruk Mountain to Hammond River, 32.5 miles N of Wiseman, Brooks Range; 67° 52' 15" N, 150° 10' 00" W; (map 124). Named for the mountain from which it heads; reported in 1930 by Marshall (1956, map).

Eekayruk Mountain: mountain, 6,635 ft., E of Hammond River and E of Apoon Mountain, 34 miles, N of Wiseman, Brooks Range; 67° 54' N, 150° 04' W; (map 124). Eskimo name reported in 1930 by Marshall (1956, map).

Eeke Inlet: estuary, see Eek Inlet.

Eeke Lake: lake, see Eek Lake.

Eekheezhaktusuk Creek: stream, see Ikijaktusak Creek.

Eekuknuk Pond: lake, see Ikaknak Pond.

Eel Island: island, see Esquibel Island.

Eelikrak Creek: stream, see Ilikrak Creek.

Eelooweehook: hill, see Iluituk Hill.

Eeluichuk Mountain: hill, see Iluituk Hill.

Eelyeerak Creek: stream, see Ilyirak Creek.

Eenanukhto Bluffs: bluffs, see Einahnuhto Bluffs.

Eenanukhto Hills: hills, see Einahnuhto Hills.

Eenayarak River: stream, heads at 60° 19' N, 161° 25' W, flows SW 48 miles to join Eek River to form Eek Channel, Kuskokwim River, 45 miles: SW of Bethel, Yukon-Kuskokwim Delta; 60° 12' N, 162° 15' W; (map 58). Variant: Inayarak River. Eskimo name reported in 1910 by A. G. Maddren. USGS.

Eenyitkaleeoom Tehsaya: lagoon, see Krusenstern Lagoon.

Eenyookpasook: hill, see Inukpasuk Hill.

Eepkagnaktowgruk: mountain, see Ipkagnaktaugrak Mountain.

Eerie Point: point of land, in Glacier Bay National Monument, on E side of Brady Glacier, 5.8 miles S of July Fourth Mountain, and 57 miles NW of Hoonah, St. Elias Mountains; 58° 33' 30" N, 136° 43' 00" W; (map 10). Local name published by USGS in the 1950's.

Eesook Creek: stream, see Isuk Creek.

Eetiblaeruk: locality, see Itublarak.

Eetiptigveerak: neck of land, see Itiptigvirak Neck.

Eetiptigvik: portage, see Itiptigvik.

Eetiviahk: portage, see Itiviak Portage.

Eetublaruk: locality, see Itublarak.

Eeveagech Mountain: hills, see Iviangik Mountain.

Eevook Lake: lake, 0.3 miles long, on Kenai Peninsula, 1.3 miles E of Sunken Island Lake, and 14 miles E of Kenai, Cook Inlet Lowland; 60° 35' 45" N, 150° 49' 40" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Eevruktoosuk: locality, see Ivruktusuk.

Eevwak Point: point of land, 5 miles SW of Savoonga, N coast of St. Lawrence Island; 63° 40' N, 170° 39' W, BGN 1951; (map 93). Variant: Cape Evwak, Cape Evwahak, Eevwak Cape, Evwahak Cape, Evwahak Point, Ivwak Cape. Eskimo name recorded by Orth as "Ivwak," meaning "to go around." The name appears to have been first reported in 1932 as "Cape Evwahak" by O. W. Geist, Univ. of Alaska. This name is synonymous with "Wevok" near Cape Lisburne.

Eeyikrook Mountain: mountain, see Iyikrok Mountain.

Eftugem Bay: bight, see Earle Cove.

Egaksrak Entrance: water passage, in barrier bar connecting Beaufort Sea and Beaufort Lagoon, near mouth of Aichilik River, 21 miles NW of Demarcation Point, Arctic Plain, 69° 49' N, 141° 55' W; (map 138). Named by USC&GS for the nearby Egaksrak River.

Egaksrak Lagoon: lagoon, 2 miles across, on Beaufort Sea coast, E of Siku Point and 17 miles NW of Demarcation Point, Arctic Plain; 69° 49' N, 141° 58' W; (map 138). See Egaksrak River.

Egaksrak River: stream, heads in Romanzof Mountains at 69° 13' N, 142° 15' W, flows NW and NE 56 miles to Beaufort Lagoon, 20 miles NW of Demarcation Point, Arctic Plain: 69° 50' N, 142° 03' W; BGN 1959; (map 138). Variant: Aichilik River, Aichillik River. Eskimo name of undetermined meaning reported by USC&GS in 1948.

Egan, Mount: mountain, see Logan, Mount.

Egans Creek: stream, flows N 2 miles to Bering Sea, 2 miles E of Tomname Lagoon, St. Lawrence Island; 63° 21' N, 169° 21' W; BGN 1951; (map 93). Variant: Eagan's River. Local name recommended in 1949, for map use, by the Savoonga village council.

Eganut' a-koverushka: hill, see Maynard Hill.

Eganuta: bluffs, see High Bluffs.

Egashak River: stream, see Igushik River.

Egashik River: stream, see Igushik River.

Egaupak Lake: lake, 0.8 miles across, 2 miles SE of junction of Kerchurak Creek and Kugarak; River, 27 miles SW of Shungnak, Kotzebue-Kobuk Lowland; 66° 48' N, 158° 06' W; (map 115). Eskimo name shown on a 1927 manuscript map by the "trader at Selawik."

Egavik Creek: stream, flows SW 29 miles to Norton Sound, 38 miles SW of Christmas Mountain, Nulato Hills; 64° 03' N, 160° 55' W; (map 96). Variant: Egawik Creek, Egowik Creek Igavik Creek, Igouik Creek, Igowik Creek. Eskimo name reported in 1867 by members of the Western Union Telegraph Expedition as "Igouik Creek."

Egavik: village, pop. 23, on Norton Sound, 0.2 miles S of mouth of Egavik Creek and 39 miles SW of Christmas Mountain, Nulato Hills; 64° 02' N, 160° 55' W; (map 96). Variant: Egawik, Egowik, Igavik, Ighauvik, Igouik, Igowik, Iguik. Eskimo village reported in 1867 by members of the Western Union Telegraph Expedition.

Egawik Creek: stream, see Egavik Creek.

Egawik: village, see Egavik.

Egegak: village, see Egegik.

Egegik Bay: bay, extends E 5 miles off Kvichak Bay at mouth of Egegik River, on N coast of Alaska Peninsula, 38 miles SW of Naknek, Bristol Bay Lowland; 58° 13' N, 157° 31' W; (map 41). Name published in 1955 by USGS. See Egegik.

Egegik River: stream, heads in Becharof Lake, flows NW 28 miles to Egegik Bay, on N coast of Alaska Peninsula, 38 miles SW of Naknek, Bristol Bay Lowland; 58° 12' N, 157° 24' W; BGN 1917; (map 41). Variant: Agouyak River, Igagik River, Fleuve Ougagouck, Ugagik River, Ugaguk River. Eskimo name published in 1835 by Adm. A. J. von Krusenstern, IRN, as "F[leuve] Ougagouck." It was shown in 1888 as "Ugaguk River" by USBF and reported in 1915 as "Egegik River" by mineral surveyor G. A. Parks. See Egegik.

Egegik River: stream, see Ugashik River.

Egegik: village, pop. 150, on S bank and near mouth of Egegik River on N coast of Alaska Peninsula, 38 miles SW of Naknek, Bristol Bay Lowland; 58° 13' N, 157° 22' W; BGN 1917; (map 41). Variant: Agouyak, Egegak, Igagik, Igiagik, Ougagik, Ougagouk, Ugagik, Ugaguk, Ugiagik. Eskimo name published in 1888 as "Igagik" by USBF; the spelling "Egegik" was given in field notes of a 1903 mineral survey.

Egg Bay: bay, 1.3 miles across, on N coast of Atka Island, Aleutian Islands; 52° 12' N, 174° 28' W; (map 18). Variant: Iatchnoi. Translation of "Iatchnaia baie" published by Capt. Lutke (1836, p. 314), IRN.

Egg Cape: point of land, see Egg Point.

Egg Harbor: estuary, 1.5 miles long, W of Alikula Bay, NW coast of Coronation Island, Alexander Archipelago; 55° 55' 30" N, 134° 19' 15" W; (map 4). Descriptive name given in 1886 by Lt. Comdr. A. S. Snow, USN. "It is a rendezvous for the Indians, who here await favorable weather to go out to the Hazy Islands to gather eggs."

Egg Island Channel: channel, 3.5 miles long, E of Egg Island, 10 miles S of Cordova, Malaspina Coastal Plain; 60° 22' N, 145° 43' W; (map 64). Local name published in 1951 by USGS.

Egg Island Passage: water passage, see Sedanka Pass.

Egg Island: barrier island, 1.5 miles long, one of Return Islands, on Beaufort Sea coast, 10 miles SE of Beechey Point, Arctic Plain; 70° 26' N, 148° 43' W; (map 150). Variant: Return Reef. Named by Leffingwell (1919, p. 95) in 1911. This island is probably Sir John Franklin's Return Reef.

Egg Island: island, 0.1 miles across, on W shore of Alitak Bay, Kodiak Island; 56° 53' 35" N, 154° 13' 00" W; (map 32). Name reported in 1900 by Comdr. J. F. Moser, USN.

Egg Island: island, 0.4 miles across, in middle of Popof Strait, in Shumagin Islands, Aleutian Range; 55° 06' 50" N, 160° 31' 00" W; (map 28). Variant: Egg Islands. Egg Island and Little Egg Island were listed in the 1916 USC&GS Coast Pilot (p. 177); they were named Egg Islands by W. H. Dall, USC&GS, in 1872.

Egg Island: island, 0.4 miles long, in Norton Sound 12 miles NE of Saint Michael; 63° 36' 30" N, 161° 44' 15" W; (map 91). Variant: L' ile des Oeufs, Ostrov Iachnoi, Ostrov Yaichnyy, Ostrov Yaignoy, Ostrov Zharof, Ostrov Zharov. This is a translation of the Russian name "Yaichnoi" which was translated into French in 1827 by Capt. F. P. Lutke, IRN, who gave it as "L' ile des Oeufs" meaning "the island of eggs." It is so named because of the thousands of bird eggs found there certain times of the year. Capt. Archimandritov shows the name "Zharov" on a chart dated about 1850.

Egg Island: island, 0.5 miles across, at mouth of Morzhovoi Bay, Aleutian Range; 54° 56' 00" N, 162° 54' 20" W; (map 25). Name reported by Ferdinand Westdahl, USC&GS, commander of the Coast Survey steamer McArthur, who made surveys in this area in 1901.

Egg Island: island, 0.7 miles across, 2 miles NE of NE tip of Sedanka Island, Aleutian Islands; 53° 51' 50" N, 166° 03' 00" W; (map 23). Variant: Gagalgin Island, Iachnie Island, Iachnoi Island, Jaitschoi Island, Kigalgin Island, Orieshik Island, Ugalgal Island, Ugalgan Island, Ugalohan Island. Translation from the descriptive Russian name given by Lt. Sarichev (1826, map 14, dated 1792), IRN, as "O[strov] Yaichnoy, meaning "island of egg." Sarichev also called the island "O[strov] Ugalgan" or "Ugalgan Island," probably from Capt. Lt. Krenitzin, IRN, 1768 (Coxe, 1787, Chart 2, dated 1780, p. 205). It was published by USBF as "Egg Island" in 1888.

Egg Island: island, 0.7 miles long, in Egg Bay. N coast of Atka Island, Aleutian Islands; 52° 10' 30" N, 174° 26' 15" W; (map 18). Name published by the USC&GS in the 1944 Aleutian Coast Pilot (p. 93). The island could have been so named because of its steep-sided, round-topped shape.

Egg Island: island, 1.3 miles long, in Egegik River 2.5 miles E of Egegik and 37 miles SW of Naknek, Bristol Bay Lowland; 58° 12' N, 157° 17' W; (map 41). Local name reported in 1952 by USGS.

Egg Island: island, 1.5 miles long, off S coast of Alaska Peninsula, 12 miles E of Stepovak Bay. Aleutian Range; 55° 50' N, 159° 22' W; (map 27). Reported by USC&GS in 1943; published in its 1947 Coast Pilot (v. 2, p. 299).

Egg Island: island, N of Wosnesenski Island, 14 miles NE of Dolgoi Island, Aleutian Range; 55° 13' 50" N, 161° 21' 10" W; (map 28). Name shown on a 1964 USC&GS chart.

Egg Island: island, off NE shore of Port Moller, Bristol Bay Lowland; 55° 53' 10" N, 160° 23' 00" W; (map 28). Name shown on a 1963 USC&GS chart.

Egg Island: island, see Cenotaph Island.

Egg Island: island, see Deranof Island.

Egg Island: island, see Fish Egg Island.

Egg Island: island, see Haenke Island.

Egg Island: island, see Hunt Island.

Egg Islands: island, see Egg Island.

Egg Islands: island, see Guibert Islets.

Egg Islands: island, see Little Egg Island.

Egg Islands: islands, 2.5 miles long, off S coast of Alaska, 6 miles SE of Point Whitshed and 12 miles S of Cordova, Malaspina Coastal Plain; 60° 23' N, 145° 46' W; (map 64). Local name reported in 1905 by G. C. Martin (1906, pl. 12), USGS.

Egg Islands: islands, group, extend 1 mile near entrance to Moira Sound, on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 03' 15" N, 132° 04' 00" W; (map 4). Descriptive name recorded in 1885 by Lt. Comdr. R. C. Clover, USN.

Egg Islets: islands, see Guibert Islets.

Egg Passage: water passage, 2 miles long, in Barrier Islands, E of Round Islands, Alexander Archipelago; 54° 47' N, 132° 29' W; (map 1). Local name reported in 1951 by USGS.

Egg Point: point of land, on N coast of Atka Island, Aleutian Islands; 52° 13' 00" N, 174° 27' 20" W (map 18). Variant: Egg Cape, Iachnoi, Iaitchnoi Cap, Cape Jaichnoi, Mys Yaichnoy, Mys Yaichnyy, Mys Yaitchni. Russian name published as "Iaitchnoi Cap," or "egg cape," by Capt. Lutke (1836, p. 313), IRN.

Egg Rock: rock, in Cordova Bay, a western rock of Barrier Islands group, Alexander Archipelago; 54° 47' 45" N, 132° 30' 05" W; (map 1). Local name published by USC&GS in 1943.

Egg Rock: rock, see Oval Rock.

Egg Rocks: rocks, off SE coast of Esther Island, in Wells Passage, 24 miles E of Whittier, Chugach Mountains; 60° 46' 30" N, 147° 57' 45" W; (map 63). Descriptive name given in 1913 by USC&GS.

Egil Island: peninsula, 0.6 miles across, surrounded by an oxbow lake of Birch Creek, 23 miles SW of Fort Yukon, Yukon Flats; 66° 15' 00" N, 145° 24' 30" W; (map 119). Local name reported in 1956 by T. E. Taylor, USGS.

Egilka Island: island, see Igitkin Island.

Egithrotogh: point of land, see Cascade Point.

Egoashik River: stream, see Igushik River.

Egoochshac: bay, on NE coast of Unalaska Island Aleutian Islands; (map 23). Capt. Cook (1785, v. 2, p. 492), RN, entered this bay in 1778 and wrote "I hauled into a bay, that lies 10 miles to the westward of Samganoodeha [English Bay], known by the name of ' Egoochshac'; but we found very deep water; so that we were glad to get out again." This name was published by Baker (1906, p. 237), but is not found on modern maps. It is possible that Capt. Cook may have been referring to Unalaska Bay.

Egoosik Creek: stream, see Egusik Creek.

Egorkovskoi: point of land, see Tanak, Cape.

Egorkovskoi: village, formerly located near Cape Tanak, on N coast of Umnak Island, Aleutian Islands; 53° 33' 50" N, 168° 00' 00" W; (map 22). Baker (1906, p. 615) says that this Aleut village was destroyed in 1817 by the explosion of Tulik volcano. He further states the "village was rebuilt in Inanudak bay and is, presumably the Nikolski village of to-day "

Egoushik River: stream, see Igushik River.

Egowik Creek: stream, see Egavik Creek.

Egowik: village, see Egavik.

Egozuk Creek: stream, flows NW 10 miles to Holokuk River, 22 miles SE of Little Mountain Village and 47 miles SW of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 17' N, 158° 17' W BGN 1948; (map 72). Eskimo name said to mean "elbow"; reported in 1945 by USGS.

Eguia, Punta de: point of land, see Martin, point.

Egumen Lake: lake, 0.6 miles long, on Kenai Peninsula, one of Seven Lakes in course of East Fork Moose River, 4 miles NW of Hidden Lake and 29 miles SE of Kenai, Cook Inlet Lowland; 60° 31' 30" N, 150° 25' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range for administrative purposes.

Egusik Creek: stream, flows SW 8 miles to Shaktoolik River, 28 miles NE of Christmas Mountain, Nulato Hills; 64° 42' N, 159° 42' W; (map 96). Variant: Egoosik Creek. Eskimo name reported about 1954 by U.S. Army Corps of Engineers.

Egypt Mountain: mountain, 3,190 ft., on W bank of South Fork Kuskokwim River 6 miles N of its junction with Post River, 74 miles SE of McGrath, Alaska Range; 62° 29' N, 153° 33' W; (map 80). So named in 1898 by W. S. Post and J. E. Spurr, USGS, "because of the fancied resemblance to the Egyptian pyramids."

Eickelberg Bay: estuary, extends SE 1.5 miles to Prince William Sound, 1.5 miles NW of Glacier Island, 50 miles NE of Whittier, Chugach Mountains; 60° 55' 00" N, 147° 17' 30" W; (map 63). Local name reported in 1951 by USGS.

Eickelberg Peak: mountain, 3,590 ft., on W Unimak Island, Aleutian Islands; 54° 40' 40" N, 164° 28' 30" W; (map 24). Local name published in 1951 on USGS map.

Eidannoo: village, see Wales.

Eider Creek: stream, flows SE 1.5 miles to Glacier Creek, 2 miles S of Glacier Lake and 28 miles W of Chandalar, Brooks Range; 67° 29' 30" N, 149° 32' 30" W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Eider Duck Island: island, 0.3 miles long, in Norton Sound, W of Klikitarik and 16 miles E of Saint Michael, Yukon-Kuskokwim Delta, 63° 28' 15" N, 161° 29' 50" W; (map 91). Local name reported in 1952 by USC&GS.

Eider Island: island, 0.3 miles long, in Narrow Strait between Spruce and Kodiak Islands; 57° 53' 10" N, 152° 23' 50" W; (map 34). Local name published in 1943 by USC&GS.

Eider Lake: lake, 0.7 miles long, on Kenai Peninsula S of Pepper Lake, 34 miles NE of Kenai, Cook Inlet Lowland; 60° 49' 30" N, 150° 26' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, probably for Steller's Eider (*Polystica stelleri*), "considered the swiftest of all Alaskan ducks" (Gabrielson and Lincoln, 1959, p. 214).

Eider Point: point of land, see Tekegakrok Point.

Eider Point: point of land, W shore of Unalaska Bay, NE coast of Unalaska Island, Aleutian Islands; 53° 57' 40" N, 166° 35' 30" W; (map 23). Variant: Igognak, Pestriakovo. Named derived from a village located on this point. The name was published by Lt. G. A. Sarichev, IRN, in 1826 as "Sel[o] Pestrekovo" (map 14) and as "Sel[o] Igognak ili Pestryakovo" (map 15) meaning "Igognak or Eiderduck village" (Baker, 1906, p. 238).

Eider Reef: reef, 0.5 miles E of Trunk Point, off E coast of Tanaga Island, Aleutian Islands; 51° 45' 45" N, 177° 46' 00" W; (map 17). Name published by USC&GS in 1956 on Chart 9145.

Eider Rock: rock, in Nikolski Bay, off SW coast of Umnak Island, Aleutian Islands; 52° 52' 13" N, 168° 52' 30" W; BGN 1940; (map 21). Named in 1938 by USC&GS, "because of the number of eider ducks that nest there."

Eider: village, at Eider Point, N coast of Unalaska Island, Aleutian Islands; (map 23). Variant: Selo Pestrekovo. This village was called "Sel[o] Pestrekovo," meaning "eider duck village," by Lt. Sarichev (1826, map 14), IRN. Father Veniaminov (1840, v. 1, p. 177-178) says it was composed of 5 huts (yourts) and 37 people in 1830. The name "Eider" was published by Baker (1906, p. 238) but does not appear on modern maps.

Eielson, Mount: peak, 5,802 ft., in Mount McKinley National Park, 3.5 miles S of Eielson Visitor Center, Alaska Range; 63° 23' N, 150° 10' W; BGN 1932; (map 88). Variant: Copper Mountain. Named by U.S. Congress on June 14, 1930, for Carl Ben Eielson "in honor of the pioneer work in aviation performed in Alaska and the North * * *." Eielson had recently been killed in a plane crash in Siberia. The local name "Copper Mountain" was reported in 1925 by S. R. Capps, USGS.

Eigalorak Mountain: hill, see Eigalorak Mountain.

Eigaloruk Mountain: hill, 757 ft., in Igichuk Hills, 10 miles NE of Cape Krusenstern, Arctic Slope; 67° 15' N, 163° 30' W; (map 128). Variant: Eigalorak Mountain. Eskimo name meaning "little window" according to USC&GS in 1950.

Eiganuta Bluffs: bluffs, see Einahnuhto Bluffs.

Eiganuta Hills: hills, see Einahnuhto Hills.

Eight Fathom Bight: bight, 0.5 miles across, in Salt Lake Bay on Port Frederick on Chichagof Island, 2 miles SW of South Bight and 13 miles SW of Hoonah, Alexander Archipelago; 58° 00' N, 135° 44' W; (map 11). Name published by USGS in 1962.

Eight Gulch: ravine, extends SE 1.2 miles to Fourth of July Creek, 33 miles NW of Eagle, Yukon-Tanana High; 65° 08' 30" N, 141° 57' 20" W; (map 103). Local name published in 1956 by USGS.

Eight Thousand Nine Hundred, Peak: mountain, see Aylesworth, Mount.

Eighteen Gulch: ravine, in Kantishna Hills, extends N 0.6 miles to Glacier Creek, 6 miles N of Wonder Lake, Alaska Range; 63° 35' 00" N, 150° 54' 38" W; BGN 1932; (map 88). Prospectors' name reported in 1931 by F. G. Wells and S. C. Kain, USGS.

Eighteen Hundred Forty-eight Hill: mountain, see 1848 Hill.

Eighteen-mile Arm: estuary, see Twelvemile Arm Kasaan Bay.

Eightmile Bend: bend, in the Koyukuk River, 5 miles E of Allakaket, Kanuti Flats; 66° 33' 25" N, 152° 30' 00" W; (map 117). Named in 1885 by Lt. Allen (1887, map 4), USA; so called because it is 8 miles upstream from the mouth of the Alatna River.

Eightmile Cove: bay, 1 mile wide, off Norton Sound, 7 miles SE of Saint Michael, Yukon-Kuskokwim Delta; 63° 27' N, 161° 49' W; (map 91). "Sled runners' name" reported in 1952 by USC&GS.

Eightmile Creek: stream, flows NE 11 mile to Kuskokwim River, 8.8 miles NW of Red Devil and 15 miles NE of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 49' N, 157° 33' W; BGN 1943; (map 72). Named in 1910 at the time of the Georgetown gold strike by prospectors who thought it to be 8 miles upstream from Georgetown on the Kuskokwim; name reported in 1943 by USGS.

Eightmile Creek: stream, flows NW 3.6 miles to Bettles River, opposite mouth of Limestone Creek, 24 miles WNW of Chandalar, Brooks Range; 67° 34' 15" N, 149° 22' 30" W; (map 123). Prospectors' name obtained in 1901 by Schrader (1904, pl. 3), USGS.

Eightmile Creek: stream, heads in lake, flows SE and NW 28 miles to Skwentna River at Skwentna, 62 miles N of Tyonek, Cook Inlet Lowland; 61° 57' 35" N, 151° 01' 55" W; (map 70). Local name reported in 1954 by USGS.

Eightmile Creek: stream, see Kiklukh River.

Eightmile Island: island, 2 miles long, in Tanana River, 6.5 miles ESE of Tanana, Nowitna Lowland; 65° 08' N, 151° 57' W; (map 106). Riverboat pilots' name shown on Navigation Chart of the Tanana-Yukon Rivers dated 1940.

Eightmile Lake: lake, 0.6 miles long, on Fish Creek, 9 miles NW of Healy, Alaska Range; 63° 53' 30" N, 149° 15' 15" W; (map 87). Local name reported in 1951 by USGS.

Eightmile Lake: lake, 0.8 miles long, drains into Eightmile Creek, 53 miles N of Tyonek, Cook Inlet Lowland; 61° 50' 45" N, 151° 08' 40" W; (map 70). Local name reported in 1954 by USGS.

Eightmile Slough: stream, flows N 1.3 miles from Tanana River to Hay Slough, 6 miles E of Tanana, Nowitna Lowland; 65° 10' N, 151° 53' W; (map 106). Local name reported in 1952 by USGS.

Eightmile Slough: stream, heads at Seventeenmile Slough, flows NW 12 miles to Porcupine River, 6 miles NE of Fort Yukon, Yukon Flats; 66° 40' 00" N, 145° 06' 30" W; (map 119). Local name reported in 1956 by T. E. Taylor, USGS; so called because the stream is 8 miles from Fort Yukon along the Yukon and Porcupine Rivers.

Eighty-nine Hundred, Peak: mountain, see Aylesworth, Mount.

Ein-ahnuh-to Cliffs: bluffs, see Einahnuhto Bluffs.

Einahnuhto Bluffs: bluffs, on W coast of Saint Paul Island, in Pribilof Islands; 57° 11' 05" N, 170° 24' 40" W; (map 38). Variant: Eenanukhto Bluffs, Eiganuta Bluffs, Ein-ahnuh-to Cliffs, High Bluffs. Aleut name reported by Elliott (1881, Saint Paul notes) as "Ein-ahnuh-to Cliffs" meaning "three mammae [breasts]." See Einahnuhto Hills.

Einahnuhto Hills: hills, 655 ft., includes Rush Hill, on W coast of Saint Paul Island, in Pribilof Islands; 57° 11' 15" N, 170° 24' 00" W; (map 38). Variant: Eenanukhto Hills, Eiganuta Hills,

Rush Hills. This is an Aleut name, according to Elliott (1881, St. Paul notes), meaning “three mammae [breasts]”; so called because the hills appear to consist of three tops.

Einstein, Mount: mountain, 11,552 ft., at head of Yale Glacier, 32 miles NW of Valdez, Chugach Mountains, 61° 21' 25" N, 147° 05' 45" W; (map 69). Named in 1955 by members of the Chugach Mountains Expedition (Nielsen, 1963,p. 135), for Albert Einstein, 1879-1955, physicist.

Eisenmenger Fork: stream, flows NW 24 miles to Goodpaster River, 52 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 28' 15" N, 144° 15' 10" W; BGN 1965; (map 101). Variant: Goodpaster River, South Fork Goodpaster River. Originally reported in 1903 as South Fork Goodpaster River (Prindle, 1913a, pl. 16). However, another stream, nearer to the mouth of the Goodpaster River, was later called by that name. Therefore, to avoid confusion, this stream was named for William Eisenmenger who “was a miner in this area at the headwaters of the Goodpaster River. He is now deceased.”

Eivoogiena Island: island, see Saint Lawrence Island.

Eivugen Island: island, see Saint Lawrence Island.

Ek-galit-tch-an: islands, see Eckholms, The.

Ekadokuch Point: point of land, see Chuniksak Point.

Ekakevik Mountain: mountain, 3,040 ft., in Brooks Range, 25 miles N of Howard Pass; 68° 35' N, 157° 00' W; BGN 1949; (map 132). Named by geologists connected with the Naval Petroleum Reserve No. 4 explorations; Eskimo name meaning “basin” published by USGS in 1951.

Ekalgruak Lake: lake, 5 miles long, 7 miles W of Admiralty Bay and 22 miles SE of Barrow, Arctic Plain; 70° 58' N, 156° 23' W; (map 147). Eskimo name obtained in 1956 at Wainwright by T. E. Taylor, USGS.

Ekalooksik River: stream, see Ikalooksik River.

Ekaluakat River: stream, flows 28 miles NE to Egaksrak River, 20 miles NW of Demarcation Point, Arctic Plain; 69° 45' N, 142° 05' W; BGN 1939; (map 138). Variant: Aichilik River, Aichillik River. Eskimo name reported by USC&GS in 1948, to mean “small fish place.”

Ekalukliurak Creek: stream, see Carter Creek.

Ekaluktagumiut: locality, see Ekaluktaluk.

Ekaluktaluk: locality, “in the Kuskokwim district.” Variant: Ekaluktagumiut. Former Eskimo camp or settlement listed as “Ekaluktagumiut” with a population of 24 in the 1890 Census (Hodge, 1907, p. 420).

Ekashluak Creek: stream, heads in Towak Mountain, flows N 3.7 miles to Scammon Bay, 6.6 miles E of Cape Romanzof, Yukon-Kuskokwim Delta; 61° 49' 35" N, 165° 54' 10" W; (map

75). Variant: Ekashluktuli River, Ikashlocktuli River. Eskimo name reported by USC&GS in 1949. It appears to be somewhat similar to the name "Ekasluktuli River, the name of a stream" on the other side of Towak Mountain.

Ekashluktuli River: stream, see Ekashluak Creek.

Ekashluktuli River: stream, see Ekasluktuli River.

Ekasluktuli River: stream, in Askinuk Mountains, flows SW 4.5 miles to Igiak Bay, 8 miles SE of Cape Romanzof, Yukon-Kuskokwim Delta; 61° 43' N, 165° 58' W; (map 75). Variant: Ekashluktuli River. Eskimo name which means "trout"; obtained at Hooper Bay by USC&GS in 1951.

Ekaterina, Lake: lake, 2.5 miles long, 11 miles E of Goddard, on central Baranof Island, Alexander Archipelago; 56° 51' 00" N, 135° 03' 30" W; BGN 1935; (map 5). Named in 1935 by USFS "for one of the ships of the Shelikov Company, sent to Alexander Baranof, in 1794." See Baranof Island.

Ekathlic: stream, see Fish River.

Ekichuk Lake: bay, 4 miles across, on Hotham Inlet, 48 miles NW of Selawik. Kotzebue-Kobuk Lowland; 66° 58' N, 161° 33' W; (map 114). Eskimo name obtained by U.S. Army Corps of Engineers in 1955.

Ekiek Creek: stream, flows N 17 miles to Selawik River, 55 miles SW of Shungnak. Kotzebue-Kobuk Lowland; 66° 26' N, 158° 45' W; (map 115). Eskimo name shown on a 1927 manuscript map by the "trader at Selawik."

Ekiligamut: locality, 2 miles N of Togiak Village, on right bank of Togiak River, 44 miles E of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 05' N, 160° 22' W; (map 53). Variant: Ekilik, Ikalinkamiut, Ikaliukha. This Eskimo village was first mentioned by Ivan Petroff in the 10th Census in 1880 as "Ekilik;" later it was called "Ikalinkamiut," or "Ikalink people." This may have been the same village as Ekilik because the names are similar or possibly the same group of people reported at two places.

Ekiligamut: locality, see Ekilik.

Ekilik: locality, on right bank of Togiak River, 45 miles E of Goodnews, Kilbuck-Kuskokwim Mountains, 59° 11' N, 160° 19' W; (map 53). Variant: Ekiligamut, Ikalinkamuit, Ikaliukha. Eskimo village or camp first mentioned by Ivan Petroff in the 10th census in 1880 as "Ikaliukha." Its name was reported in 1898 as "Ekiligamut," meaning "Ekilik people," by J. E. Spurr and W. S. Post, USGS. Its population was 192 in 1880; 60 in 1890; it is now abandoned. See Ekiligamut.

Ekilik: locality, see Ekiligamut.

Ekiluk Pass: water passage, see Eluitkak Pass.

Ekilukruak Entrance: water passage, on Beaufort Sea coast, between Cooper Island and the Tapkaluk Islands, 20 miles W of Barrow, Arctic Plain; 71° 15' N, 155° 50' W; (map 153). Eskimo name recorded at Barrow in 1951 by USC&GS, and is reported to mean “wide, rough inlet.”

Eklootna Creek: stream, see Eklutna River.

Eklootna Lake: lake, see Eklutna Lake.

Eklutna Creek: stream, see Eklutna River.

Eklutna Glacier: glacier, trends N 7.7 miles to its terminus at head of Eklutna River, 23 miles SE of Palmer, Chugach Mountains; 61° 17' N, 148° 58' W; BGN 1964; (map 69). Local name reported in 1964 by USGS; derived from the river. See Eklutna Lake and Eklutna River.

Eklutna Lake: lake, 6.9 miles long, near head of Eklutna River, 13 miles S of Palmer, Chugach Mountains; 61° 23' N, 149° 03' W; (map 69). Variant: Eklootna Lake. Tanaina Indian name reported in 1906 as “Eklootna” by T. G. Gerdine, USGS. Present spelling was published in 1915 by S. R. Capps (in Brooks and others, 1916, pl. 1), USGS.

Eklutna River: stream, heads at Eklutna Glacier terminus, flows NW through Eklutna Lake 22 miles to Knik Arm, 4 miles NE of Birchwood and 23 miles NE of Anchorage, Cook Inlet Lowland; 61° 27' 25” N, 149° 25' 00” W; (map 69). Variant: Eklootna Creek, Eklutna Creek. Tanaina Indian name reported in 1906 as “Eklootna” (Eklut River) by T. G. Gerdine, USGS. Reported in 1915 as “Eklutna Creek” by S. R. Capps (in Brooks and others, 1916, pl. 1), USGS.

Eklutna, Mount: mountain, 4,110 ft., 4 miles E of Birchwood, between Thunder Bird and Peters Creeks, 22 miles NE of Anchorage, Chugach Mountains; 61° 24' 15” N, 149° 21' 00” W; (map 69). Local name reported in 1942 by AMS; derived from nearby Eklutna River.

Eklutna: village, pop. 50, mile 141.2 on The Alaska Railroad at the head of Knik Arm at the mouth of Eklutna River 25 miles NE of Anchorage, Cook Inlet Lowland; 61° 28' N, 149° 22' W; (map 69). Variant: Old Knik. Tanaina Indian village and railroad station, the latter established in 1918. This place may have originally been one of the Knik Villages. See Knik. The Eklutna Power House, a hydro-electric project supplying electricity to Anchorage is located near here. The Eklutna post office was established in 1926; discontinued in 1945 (Ricks, 1965, p. 18).

Ekogmute: village, see Russian Mission.

Ekok Cape: point of land, see Clarks Point.

Ekokpuk Creek: stream, flows E 22 miles to John River, 12 miles SW of Anaktuvuk Pass, Brooks Range; 68° 01' 20” N, 152° 05' 45” W; BGN 1932; (map 134). Variant: Ikiakpuk Creek. Name reported by Robert Marshall in 1932; said to be of Eskimo origin and means “split in two.”

Ekolina Creek: stream, flows SW 9 miles to East Fork Kuskokwim River, 30 miles NE of Medfra, Kuskokwim Lowland; 63° 10' N, 153° 47' W; (map 89). Variant: Ecol-ena. Indian name obtained in 1899 by Lt. J. S. Herron, USA, who wrote it "Ecol-ena."

Ekouk: village, see Ekuk.

Ekouk: village, see Ekwok.

Ekron, Mount: mountain, 2,830 ft., in the Lockwood Hills 50 miles NW of Hughes, Kokrines-Hodzana Highlands; 66° 39' N, 155° 15' W; (map 116). Name shown on an 1886 manuscript map by Lt. G. M. Stoney, USN, with the note: "Bible Name." Probably named for Ekron, a city on the Philistine Plain mentioned in the Book of Joshua 13:3 and 15:11.

Ekrugavik Lake: lake, see Ikroavik Lake.

Ekseavuk: locality, near Kobuk River, about 50 miles NE of Selawik, Brooks Range; near 67° 00' N, 159° 00' W; (map 126). Archeological site reported by Giddings (1964, p. 28).

Ekuk Bluff: bluff, 170 ft., extends 5 miles, on E shore of Nushagak Bay, SE of Ekuk and 18 miles S of Dillingham, Bristol Bay Lowland; 58° 47' N, 158° 30' W; (map 40). Name published by USC&GS in 1916 Coast Pilot (p. 239).

Ekuk Cape: point of land, on E shore of Nushagak Bay, 3 miles S of village of Clarks Point and 16 miles S of Dillingham, Bristol Bay Lowland; 58° 48' N, 158° 33' W; (map 40). Variant: Clarks Point. Eskimo name spelled "Ekouk" by F. P. Lutke in 1828. Called "Clarks Point" by USBF in 1898.

Ekuk Spit: spit, on E shore of Nushagak Bay, N of Ekuk, 15 miles S of Dillingham, Bristol Bay Lowland; 58° 49' 05" N, 158° 33' 25" W; (map 40). Variant: Haller Spit. Name published by USC&GS in 1947 Coast Pilot (p. 524). The Eskimo village of Ekuk is located on this spit. It was also called "Hailer Spit" after the Hallers Cannery located there.

Ekuk Village: village, see Ekuk.

Ekuk: village, pop. 40, Ekuk Spit, on E shore of Nushagak Bay, 16 miles S of Dillingham, Bristol Bay Lowland; 58° 49' 00" N, 158° 33' 30" W; (map 40). Variant: Ekouk, Ekuk Village, Ikuk, Village Ekouk, Yekuk. Eskimo settlement reported in 1828 as "V[illage] Ekouk" and "S[eleniye] Ikuk" by F. P. Lutke. It had a population of 37 in 1930. It is the location of a cannery. It appears that this village has sometimes been confused with Ekwok.

Ekuk: village, see Ekwok.

Ekwak: village, see Ekwok.

Ekwok: village, pop. 106, on W bank of Nushagak River at junction with Klutuk Creek, 42 miles NE of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 22' N, 157° 30' W; BGN 1966; (map 52). Variant: Billy Hurleys, Ekouk, Ekuk, Ekwak, Ikwok, Ikwokhamut, Yekuk. Eskimo village reported in 1828 as "Ekouk" by "Ekwak" by Capt. F. P. Lutke, IRN. H. C. Fassett, USBF, established the present spelling on his 1910 map. The village has also been known as "Billy

Hurleys," the name of a "white" trader who had a store here. The village population was 40 in 1930 [Ekwak]; 68 in 1939 [Ekwok]; and 1,311 in 1950. A post office called "Ekwak" was established here in 1935.

El Nido: locality, on W shore of Lisiansky Inlet, on Chichagof Island, 2 miles W of Pelican, Alexander Archipelago; 57° 58' N, 136° 16' W; (map 9). Spanish name meaning "the nest" reported by A. F. Buddington (in Brooks and others, 1925, fig. 5) USGS. This gold mining camp was established about 1920. There were two camps here, one on the Inlet called the Beach Camp and the other 1.5 miles south near the mine workings called El Nido Camp.

El Patrone Creek: stream, flows NW 1 mile to Canyon Creek, between Coal Creek and Kate and Anna Creek, 23 miles NW of Solomon, Seward Peninsula Highlands; 64° 52' N, 164° 46' W; (map 95) Prospectors' name reported on a 1901 map of Cape Nome gold fields by David Fox, Jr.

El Sombrero: island, see Chatham Island.

El-yog-o-lok-tok: stream, see Kogoluk River.

El-yog-o-lok-tok: stream, see Kogoluktuk River.

Elaine Creek: stream, flows N 1 mile to No Mans Creek near its head, in Casadepaga River basin, 25 miles NE of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name reported on a prospector's manuscript map dated 1902. This stream cannot be precisely located on current maps.

Elaktoveach Channel: stream, tributary of Kupigruak Channel, in Colville River Delta, flows NW 8 miles to Harrison Bay, Arctic Plain; 70° 28' N, 150° 47' W; (map 149). Eskimo name reported by USC&GS in 1951, meaning "the wide stream in the middle."

Elapuk Hill: hill, see Alapak Hill.

Elaroniluk Creek: stream, heads in Waring Mountains, flows N and W 9.5 miles to Kobuk River 5 miles S of its junction with Kallarichuk River, 17 miles NE of Kiana, Brooks Range; 67° 03' N, 159° 50' W; (map 127). Eskimo name obtained in 1955 by U.S. Army Corps of Engineers.

Elbo Mountain: hill, see Elbow Mountain.

Elbow Bay: bay, extends S and E 1.5 miles off Cordova Bay, on E coast of Long Island, Alexander Archipelago; 54° 54' 30" N, 132° 39' 30" W; BGN 1929; (map 1). Descriptive name given by USC&GS in 1928.

Elbow Creek: stream, flows NE and NW 8.5 miles to Sharatin Bay, 12 miles W of Kodiak, Kodiak Island; 57° 49' 00" N, 153° 44' 15" W; BGN 1933; (map 34). Descriptive name given in 1933 by Gerald FitzGerald, USGS, "because of the very abrupt change in the course of the creek."

Elbow Creek: stream, heads in De Long Mountains, flows NW and NE to Driftwood Creek, 36 miles NNE of Mishegak Mountain, Brooks Range; 68° 44' 15" N, 160° 42' 00" W; BGN 1961; (map 131). Named by USGS geologists in 1951 "because of the elbow-like bends in its course."

Elbow Hill: hill, 420 ft., at SW end of Umnak Island, Aleutian Islands; 52° 52' 10" N, 169° 00' 13" W; (map 21). Name published by USC&GS in 1944 Aleutian Coast Pilot (p. 68).

Elbow Lake: lake, 2 miles long, N of Hodzana Slough, 12 miles W of Beaver, Yukon Flats; 66° 19' N, 147° 52' W; (map 118). Probably named by William Yanert who showed it on a 1916 manuscript map of the Yukon Flats (Stuck, 1917, map facing p. 122).

Elbow Mountain: hill, 904 ft., 23 miles NW of Eek Lake and 44 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 19' N, 160° 57' W; (map 59). Variant: Elbo Mountain. Local name reported in 1955 by J. M. Hoare, USGS; named for the bend in Kwethluk River.

Elbow Mountain: mountain, 2,950 ft., 12 miles SE of Kodiak, Kodiak Island; 57° 45' 30" N, 152° 45' 05" W; BGN 1933; (map 34). Name derived from Elbow Creek, given in 1933 by Gerald FitzGerald, USGS.

Elbow Mountain: mountain, 4,246 ft., on Alaska-Canada boundary, 3 miles N of Stikine River, Coast Mountains; 56° 42' 10" N, 131° 51' 30" W; (map 7). Descriptive name given by USC&GS, probably in the 1890's.

Elbow Passage: water passage, 2 miles long, 3.5 miles S of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 37' N, 136° 05' W; BGN 1903; (map 9). Descriptive name given in 1907 by Andrew Braid and published by USC&GS in the 1908 Coast Pilot (p. 172).

Elbow Point: point of land, between the two arms of Lake Nerka, at W end of Frog Mountains, 40 miles NW of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 33' N, 159° 00' W; BGN 1931; (map 52). Name reported in 1929 by USBF; so called because of the "point's location at the bend or elbow of Lake Nerka."

Elbow Point: point of land, on E coast of Little Tanaga Island, Aleutian Islands; 51° 50' 40" N, 176° 01' 40" W; BGN 1936; (map 17). Descriptive name given by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

Elder Point: point of land, northernmost point on Glacier Island, 2 miles S of Flent Point, on S coast of Alaska, 56 miles NE of Whittier, Chugach Mountains; 60° 54' 50" N, 147° 08' 00" W; (map 63). Local name reported in 1951 by USGS.

Elder, Mount: mountain, 4,600 ft., in Glacier Bay National Monument, 4.7 miles NW of Berg Mountain and 70 miles NW of Juneau, St. Elias Mountains; 58° 58' 50" N, 135° 50' 50" W; (map 11). Variant: Snow Dome. Local name published in 1962 by USGS.

Eldorado Camp: locality, E of headwaters of Little Eldorado Creek, 12 miles N of Fairbanks, Yukon-Tanana Highlands; 65° 03' 45" N, 147° 31' 10" W; (map 105). Variant: Eldorado.

Mining camp reported in 1908 by USGS. A post office was established here in 1907 and discontinued in 1910.

Eldorado Creek: stream, flows N 1.5 miles to Gold Creek, 48 miles N of Big Delta, Yukon-Tanana Highlands; 64° 49' 30" N, 145° 35' 50" W; (map 101). Named by prospectors and reported in 1905 by Witherspoon (Prindle, 1913a, pl. 1), USGS.

Eldorado Creek: stream, flows N 20 miles to Serpentine River, 21 miles SE of Shishmaref Kotzebue-Kobuk Lowland; 66° 07' N, 165° 23' W; (map 112). Prospectors' name reported in 1950 by USGS.

Eldorado Creek: stream, flows N 3 miles, joins Telegram Creek to form Dome Creek 23 miles NW of Solomon, Seward Peninsula Highlands; 64° 53' N, 164° 38' W; (map 95). Prospectors' name reported on a 1901 map of Cape Nome gold fields by David Fox, Jr.

Eldorado Creek: stream, flows N 3.5 miles to Roosevelt Creek, 72 miles SE of Healy, Alaska Range; 63° 11' 35" N, 147° 13' 30" W; (map 87). Local name obtained in 1951 by USGS.

Eldorado Creek: stream, flows NE 15 miles to Kiwalik River, 43 miles NW of Haycock, Seward Peninsula Highlands; 65° 46' N, 161° 51' W; (map 109). Local name shown on a 1903 fieldsheet by D. C. Witherspoon, USGS.

Eldorado Creek: stream, flows NW 1.2 miles to Kougarok River, 9 miles SW of Midnight Mountain and 47 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 40' N, 164° 48' W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Eldorado Creek: stream, flows NW 4.5 miles to Crooked Creek, 18 miles NW of Eagle, Yukon-Tanana Highlands; 64° 56' 30" N, 141° 39' 40" W; (map 102) Local name published in 1956 by USGS.

Eldorado Creek: stream, flows NW 4.5 miles to Tisuk River, 40 miles NW of Nome, Seward Peninsula Highlands; 64° 58' N, 166° 13' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Eldorado Creek: stream, flows NW 5.4 miles to Madison Creek 6.7 miles NE of its junction with Tolstoi Creek and 53 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 27' N, 156° 56' W; (map 90). Prospectors' name reported in 1917 by G. L. Harrington, USGS.

Eldorado Creek: stream, flows S and W 8.5 miles to Fish Lake, "3 miles ESE of Tanana, Nowitna Lowland; 65° 03' N, 151° 20' W; (map 106). Prospectors' name reported in 1903 by T. G. Gerdine, USGS.

Eldorado Creek: stream, flows SE 10 miles to Fish River, 32 miles NE of Solomon, Seward Peninsula Highlands; 64° 37' N, 163° 25' W; (map 95). Prospectors' name published in 1956 by USGS.

Eldorado Creek: stream, flows SE 11 miles to Noxapaga River, 23 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 39' N, 164° 04' W; BGN 1952; (map 110). Variant: North

Fork Kugrukruk River, North Fork Noxapaga River. Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS. This appears to be the North Fork of Noxapaga River in Brooks (1901, pl. 11), USGS.

Eldorado Creek: stream, flows SE 2 miles to Flint Creek, 4.5 miles SE of Long and 26 miles S of Ruby, Kilbuck-Kuskokwim Mountains; 64° 22' 10" N, 155° 25' 00" W; (map 98). Prospectors' name reported in 1911 by A. G. Maddren, USCG. The identity of this stream is in doubt.

Eldorado Creek: stream, flows SE 4 miles to Dime Creek at Haycock, Seward Peninsula Highlands; 65° 11' N, 161° 08' W; (map 109). Local name reported in 1917 by G. L. Harrington, USGS.

Eldorado Creek: stream, flows SE 4.9 miles to Poorman Creek, 4.4 miles SW of Poorman and 47 miles SW of Ruby, Kilbuck-Kuskokwim Mountains; 64° 04' 20" N, 155° 40' 25" W; BGN 1936; (map 98). Prospectors' name reported in 1935 by USGS.

Eldorado Creek: stream, flows SW 3.4 miles to Norton Sound, 19 miles E of Solomon, Seward Peninsula Highlands; 64° 34' N, 163° 47' W, (map 95). Variant: Ryan Creek. Prospectors' name shown on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Eldorado Creek: stream, flows SW 8.5 miles to George River, 26 miles E of Flat, Kilbuck-Kuskokwim Mountains; 62° 24' 20" N, 157° 11' 30" W; (map 79). Prospectors' name obtained in 1952 by USGS topographers.

Eldorado Creek: stream, flows W 7 miles to Budd Creek which flows to American River, 40 miles NE of Teller, Seward Peninsula Highlands; 65° 39' N, 165° 22' W; (map 111). Prospectors' name reported in 1900 by Messrs. Kemp and David Fox (in Brooks, 1901, pl. 11).

Eldorado Creek: stream, heads in Jack White Range, flows SE 2.2 miles to South Fork Koyukuk River, 22 miles E of Bettles, Kokrines-Hodzana Highlands; 66° 56' N, 150° 54' W; (map 117). Local name reported in 1956 by T. E. Taylor, USGS.

Eldorado Creek: stream, in Kantishna Hills, flows NE 5.5 miles to Moose Creek, 3.5 miles NNW of Wonder Lake Alaska Range; 63° 31' 50" N, 150° 58' 15" W; (map 88). Name shown on a 1905 manuscript map of "Kantishna Gold Fields" by A. Friedrich, prospector.

Eldorado Creek: stream, NE of Ear Mountain, flows E 3 miles to Kreuger Creek which flows to Arctic River, Seward Peninsula Highlands; 65° 56' N, 166° 06' W; (map 111). Prospectors' name reported in 1907 by Knopf (1908, p. 27), USGS.

Eldorado Creek: stream, see Eldorado River.

Eldorado Creek: stream, see Little Eldorado Creek.

Eldorado Narrows: water passage, extends S 4 miles from Sandspit Point, between Renard Island and Resurrection Peninsula, 14 miles SE of Seward, Chugach Mountains; 59° 55' N, 149° 19' W; (map 49). Local name reported in the early 1950's by USC&GS.

Eldorado River: stream, flows SE 30 miles to Flambeau River, 4 miles N of Safety Sound and 14 miles W of Solomon, Seward Peninsula Highlands; 64° 32' N, 164° 55' W; (map 95). Variant: Eldorado Creek. Local name reported in 1899 by Schrader and Brooks (1900, map 3), USGS.

Eldorado: locality, see Eldorado Camp.

Eldred Passage: water passage, 0.7 miles wide, SE of Yukon Island, along SE shore of Kachemak Bay, 8 miles SSE of Homer, Chugach Mountains; 59° 31' N, 151° 28' W; (map 50). Named by W. H. Dall, USC&GS, in 1880 for Sarah Eldred, wife of Marcus Baker.

Eldred Rock: rock, in Lynn Canal, 2.7 miles SE of Kataguni Island, and 55 miles NW of Juneau, Coast Mountains; 58° 58' 15" N, 135° 13' 10" W; (map 11). Variant: Nechraje. Visited, located, and named in 1880 by Marcus Baker for his wife, Sarah Eldred. Name published by USC&GS in 1883 Coast Pilot (p. 196). According to Dr. Arthur Krause the Tlingit Indian name is "Nechraje."

Eldridge Glacier: glacier, heads on Explorers Peak and trends SE 30 miles to its terminus (1951) at head of Fountain River, 40 miles N of Talkeetna, Alaska Range; 62° 54' 30" N, 149° 59' 00" W; (map 82). Variant: Chulitna Glacier, Fidele Glacier. Named in 1913 by A. H. Brooks, USGS, for George Homans Eldridge, 1854-1905, USGS geologist who, with Robert Muldrow, made a reconnaissance in the Susitna River basin in 1898.

Eldridge, Mount: mountain, 6,250 ft., 12 miles SE of North Peak and 18 miles W of Eagle, Yukon-Tanana Highlands; 64° 45' N, 141° 47' W; (map 102). Named by prospectors and reported in 1899 by W. J. Peters, USGS.

Eldridge, Mount: peak, 10,456 ft., 21 miles ENE of Mount McKinley, Alaska Range; 63° 08' 03" N, 150° 20' 48" W; (map 88). Named in 1953 by Bradford Washburn for George Homans Eldridge, 1854-1905, USGS geologist, who made a reconnaissance of the Susitna River basin and crossed Broad Pass in 1898.

Eleanor Cove: cove, 1.2 miles across, 1 miles E of Knight Island, 14 miles NE of Yakutat, Malaspina Coastal Plain; 59° 42' 15" N, 139° 29' 30" W; (map 46). Variant: Eleanors Cove. Named in 1794 by Lt. Peter Puget (in Vancouver, 1798, v. 3, p. 226-227).

Eleanor Island: island, 0.4 miles across, 0.8 miles SE of Knight Island and 13 miles NE of Yakutat, Malaspina Coastal Plain; 59° 42' 05" N, 139° 30' 15" W; (map 46). Named by H. E. Smith, USFS, in 1928, probably for nearby Eleanor Cove.

Eleanor Island: island, 4 miles long, in Prince William Sound, 4 miles SW of Naked Island and 24 miles NE of Chenega, Chugach Mountains; 60° 33' N, 147° 35' W; BGN 1908; (map 63). Local name reported in 1908 by Andrew Braid, USC&GS. Capt. George Vancouver, RN, gave the name "Eleanor" to the prominent northern point of the island in 1794. This name was later adopted for the entire island.

Eleanor Lake: lake, 0.5 miles long, in Anaktuvuk Pass, drains into headwaters of Anaktuvuk River, Brooks Range; 68° 09' N, 151° 42' W; (map 134). Named in 1901 by F. C. Schrader or W. S. Peters, USGS, on their reconnaissance expedition into northern Alaska.

Eleanor Lake: lake, 600 ft. long, 1.7 miles W of terminus of Sheridan Glacier and 10 miles E of Cordova, Chugach Mountains; 60° 32' N, 145° 25' W; (map 64). Name published in 1950 by USGS.

Eleanor Passage: water passage, see Upper Passage.

Eleanor, Mount: peak, 3,988 ft., in Chigmit Mountains at head of Iniskin Bay, Aleutian Range; 59° 47' N, 153° 22' W; (map 51). Name published by G. C. Martin (1905, pl. 4), USGS.

Eleanor, Point: point of land, northernmost point of Eleanor Island, 28 miles NE of Chenega, Chugach Mountains; 60° 34' 55" N, 147° 33' 45" W; (map 63). Named in 1794 by Capt. George Vancouver, RN. The name appears on Vancouver's chart, but is not mentioned in his text (Wagner, 1937, p. 385).

Eleanors Cove: cove, see Eleanor Cove.

Elena Bay: estuary, 5 miles long, on Kuiu Island, on E shore of Tebenkof Bay, Alexander Archipelago; 56° 30' N, 134° 06' W; BGN 1929; (map 5). Named in 1928 by USC&GS for "the vessel Elena in which [Capt. M. D.] Tebenkiv [sic] [IRN] sailed for Sitka in 1835 to carry on explorations in Alaska."

Elephant Creek: stream, flows N 2 miles to Trail Creek, 6.5 miles E of Long and 25 miles SSE of Ruby, Kilbuck-Kuskokwim Mountains; 64° 23' 30" N, 155° 16' 20" W; (map 98). Prospectors' name reported in 1913 by Eakin (1914), pl. 3), USGS. The stream's identity is in doubt.

Elephant Creek: stream, flows NW 2.1 miles to join Brehnard Creek to form Wilson Creek 7 miles E of Marshall, Nulato Hills; 61° 52' 10" N, 161° 52' 15" W; (map 73). Prospectors' name reported by Harrington (1918, p. 59), USGS, in 1916.

Elephant Gulch: ravine, trends SE 2 miles to Hutlinana Creek, 20 miles SE of Rampart, Yukon-Tanana Highlands; 65° 13' 30" N, 149° 59' 00" W; (map 105). Named by prospectors; reported in 1908 by USGS (Covert and Ellsworth, 1909, pl. 5).

Elephant Head Point: point of land, on S shore of Alaska Peninsula, NE shore of Cape Kumlik, extends 0.6 miles into Aniakchak Bay, 12 miles SW of Cape Kunmik, Aleutian Range; 56° 40' N, 157° 29' W; (map 31). Local name published by USC&GS in the 1947 Alaska Coast Pilot (p. 281).

Elephant Hill: hill, see Middle Hill.

Elephant Lake: lake, 0.3 miles long, on Woody Island, 3 miles SE of Kodiak, NE of Kodiak Island; 57° 46' 20" N, 152° 19' 30" W; (map 34). Local name published in 1943 by USC&GS.

Elephant Lake: lake, 1.6 miles long, on Kenai Peninsula 8 miles ENE of Kenai, Cook Inlet Lowland; 60° 35' 45" N, 150° 59' 15" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Elephant Mountain: mountain, 2,200 ft., on Alaska Peninsula, 25 miles NW of Cape Kunmik, Aleutian Range; 56° 57' N, 157° 46' W; (map 31). Descriptive name shown on a 1915 USGS map.

Elephant Mountain: mountain, 2,275 ft., On N part of Chichagof Island, 4.4 miles S of Neck Point in Icy Strait and 37 miles SW of Juneau, Alexander Archipelago; 58° 03' 10" N, 135° 19' 30" W; BGN 1959; (map 11). Local name published by USGS in 1962.

Elephant Mountain: mountain, 3,300 to 3,800 ft., extends NE 6.8 miles between Eureka Dome and Wolverine Mountain, 16 miles SSE of Rampart, Yukon-Tanana Highlands; 65° 15' N, 150° 00' W; (map 106). Prospectors' name reported in 1906 by USGS.

Elephant Nose: mountain, see Elephants Nose.

Elephant Point: point of land, between American and Orzinski Bays, on W shore of Stepovak Bay, Alaska Peninsula, Aleutian Range; 55° 42' 20" N, 160° 04' 00" W; (map 28). Local name published in 1916 by USC&GS Coast Pilot.

Elephant Point: point of land, extends NE into Eschscholtz Bay, 44 miles SW of Selawik, Kotzebue-Kobuk Lowland; 66° 16' N, 161° 20' W; (map 114). Named in 1826 by Capt. Beechey (1831, p. 232), RN, who wrote, "I bestowed the name of Elephant upon the point, to mark its vicinity to the place where the fossils [bones of elephants] were found * * *." Name published on British Admiralty Chart 593.

Elephant Point: village, pop. 87, on a spit on S coast of Eschscholtz Bay, 44 miles SW of Selawik, Kotzebue-Kobuk Lowland; 66° 16' N, 161° 20' W; (map 114). Variant: Baldwin, Buckland, Reindeer Point. Eskimo village and reindeer station; its population in 1950 was 108. This place appears to be the site of the Baldwin post office from 1930 to 1936 and the Buckland post office established in 1962. See Buckland.

Elephant Promontory: peak, 7,320 ft., on Alaska-Canada boundary, 5.5 miles SE of Mount Ogilvie and 38 miles N of Juneau, Coast Mountains; 58° 49' 00" N, 134° 07' 20" W; BGN 1965; (map 11). Named by members of the Juneau Icefield Research Project in 1964.

Elephant Rock: point of land, at mouth of Delarof Harbor, on SE coast of Unga Island, in Shumagin Islands, Aleutian Range; 55° 10' 02" N, 160° 29' 35" W; (map 28). Local name published in 1916 USC&GS Coast Pilot.

Elephant Rock: rock, in Bering Sea, at N tip of Hall Island, 8 miles NW of Glory of Russia Cape, St. Matthew Island; 60° 42' N, 173° 03' W; (map 56). Name published by USC&GS in 1932 on Chart 8851; "so called because of its resemblance to an elephant's head."

Elephants Head: promontory, NW ridge of Stewart Peak, at head of Thomas Bay, 103 miles E of Sitka, Coast Mountains; 57° 05' 15" N, 132° 45' 15" W; BGN 1923; (map 8). Variant:

Elephant Head. Descriptive name given in 1887 by C. M. Thomas' USN; published in 1888 by USC&GS.

Elephants Nose: mountain, 1,150 ft. on N coast of Woronkofski Island, Alexander Archipelago; 56° 25' 45" N, 132° 30' 10" W; BGN 1917; (map 6). Variant: Elephant Nose. Descriptive name given in 1917 for charting purposes by USC&GS "because of its shape."

Eleutak: locality, on left bank of Kwemeluk Pass, 3.3 miles S of Sheldon Point and 22 miles SW of Kwiguk, Yukon-Kuskokwim Delta; 62° 29' 10" N, 164° 52' 00" W; (map 77). Variant: Eleutakamiut. Eskimo camp or village, now abandoned, reported in 1899 by G. R. Putnam, USC&GS, and spelled by him "Eleutakamiuk" meaning "Eleutak people."

Eleutakamiut: locality, see Eleutak.

Elevenmile Creek: stream, on N part of Douglas Island. flows 1 mile N to Fritz Cove, 1.6 miles SW of Entrance Point and 8.6 miles W of Juneau, Coast Mountains; 58° 19' 10" N, 134° 38' 30" W; (map 11). Local name published by USGS in 1962.

Elf Cove: cove, 0.1 miles across, on N shore of Ford Arm, 7 miles SE of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 35' 30" N, 135° 57' 10" W; (map 9). Name published in 1928 by USC&GS on Chart 8280.

Elf Island: island, 2 miles long, off SE coast of Adak Island, Aleutian Islands; 51° 43' N, 176° 32' W; (map 17). Name published by USC&GS in 1957.

Elf Point: point of land, at E entrance to Columbia Bay, 58 miles NE of Whittier, Chugach Mountains; 60° 56' 45" N, 147° 03' 25" W; BGN 1911; (map 63). So named about 1910 by U. S. Grant, USGS, "because of the smallness of the point's tip."

Elf Point: point of land, on Revillagigedo Island, on E shore of Thorne Arm, Alexander Archipelago; 55° 19' 15" N, 131° 13' 20" W; (map 3). Local name reported in 1917 by USC&GS on Chart 8075.

Elfendahl, Lake: lake, 2.5 miles long, 14.5 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 51' N, 136° 18' W; (map 9). Local name reported in 1917 by R. M. Overbeck (in Martin and others, 1919, pl. 2), USGS.

Elfin Cove: cove, 1 mile across, on W coast of Inian Peninsula, on N coast of Chichagof Island, 1 mile S of Point Lavinia, 34 miles NW of Hoonah, Alexander Archipelago; 58° 12' 15" N, 136° 21' 30" W; BGN 1933; (map 10). Local name reported by the USFS in 1935.

Elfin Cove: settlement, pop. 20, on E shore of Elfin Cove, N part of Chichagof Island, 2 miles S of Point Lavinia and 33 miles NW of Hoonah, Alexander Archipelago; 58° 11' 40" N, 136° 20' 35" W; (map 10). Village shown on maps since 1930. The Elfin Cove post office was established in 1935 (Ricks, 1965, p. 19). Its 1958 population was 48.

Elghi Island: island, 0.4 miles long, between Prince of Wales and Tuxekan Islands, 30 miles NW of Craig, Alexander Archipelago; 55° 54' N, 133° 16' W; (map 4). Indian name published in 1964 by USC&GS.

Elgolm Island: island, see Error Island.

Eli River: stream, heads in Baird Mountains, at 67° 40' N, 161° 16' W, flows SW 90 miles to Noatak River, 10 miles S of Noatak, Arctic Slope; 67° 25' N, 163° 00' W; (map 128). Variant: Ely River. Eskimo name reported in 1926 by USGS.

Eliazak: island, see Inner Iliasik Island.

Eliazik: island, see Outer Iliasik Island.

Elice, Point: point of land, see Ellice, Point.

Elilakok: locality, on left bank of Nushagak River, 5 miles S of Nunachuak and 62 miles NE of Dillingham, Bristol Bay Lowland; 59° 33' N, 157° 07' W; BGN 1931; (map 52). Variant: Ah-lai-luk-ah. Eskimo camp or small village reported in 1910 by H. C. Fassett, USBF, as Ah-lai-luk-ah. The present spelling was first used in 1925 by USBF. The site is now abandoned.

Elim Mission Roadhouse: village, see Elim.

Elim: village, pop. 160, on NW shore of Norton Bay, 65 miles E of Solomon, Seward Peninsula Highlands; 64° 37' N, 162° 15' W; BGN 1937; (map 95). Variant: Elim Mission Roadhouse. Eskimo village established about 1915. A post office was established in 1943 and is continuous today. The population was 162 in 1920; 97 in 1930; and 154 in 1950.

Elingit Lake: bay, see Islands, Bay of.

Eliot Glacier: glacier, heads on Mount Marcus Baker, trends SE 7 miles to Harvard Glacier, 47 miles NE of Valdez, Chugach Mountains; 61° 21' N, 147° 37' W; BGN 1930; (map 69). Named in 1910 by Lawrence Martin (in Tarr and Martin, 1914, p. 298), for Charles William Eliot, 1834-1926, former president of Harvard College.

Elitnik: locality, see Litnik.

Eliza Harbor: estuary, 7 miles long on SE coast of Admiralty Island, 26 miles SE of Angoon, Alexander Archipelago; 57° 09' N, 134° 17' W; (map 9). Discovered in 1799 by "Mr. Bumstead" of the fur trading ship Eliza, out of Boston, commanded by "Capt. Rowan." Mr. Bumstead, with members of the crew in a whale boat, "finally * * * got in and opened a fine harbor, completely land-locked, which, as our Indian navigator informed us had no name, we called Eliza Harbour, in compliment to our ship." (U.S. Coast and Geodetic Survey, 1883, p. 130)

Eliza Lake: lake, 1.5 miles long, between Chisana River and Alaska Highway, 7 miles SE of Northway Junction, Alaska Range; 62° 59' N, 141° 40' W; (map 84). Local name reported by USGS in 1954.

Eliza Lake: lake, 2 miles long, on Admiralty Island, drains into Eliza Harbor, 23 miles SE of Angoon, Alexander Archipelago; 57° 12' N, 134° 20' W; BGN 1923; (map 9). Named in 1923 by USFS, probably for Eliza Harbor.

Eliza, Point: point of land, between Port Conclusion and Port Armstrong, on E coast of Baranof Island, 2 miles N of Port Alexander, Alexander Archipelago; 56° 17' 40" N, 134° 39' 00" W; (map 5). Named by Capt. George Vancouver, RN, "during his stay in Port Conclusion between August 1 and 22, 1794" (Wagner, 1937, p. 385).

Elizabeth Creek: stream, flows E 1 mile to Ruby Creek which flows to Bluestone River, 10 miles SE of Teller, Seward Peninsula Highlands; 65° 08' N, 166° 13' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Elizabeth Creek: stream, flows NW to Nucksack Creek which flows to Kuzitrin River near its head, about 20 miles SW of Imurak Lake, Seward Peninsula Highlands; (map 110). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This stream cannot be precisely located on current maps.

Elizabeth Creek: stream, flows SE 1.5 miles to Cripple River, 16 miles NW of Nome, Seward Peninsula Highlands; 64° 39' N, 165° 52' W; (map 94). Prospectors' name reported on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Elizabeth Island: island, 3 miles across, in Chugach Islands, 20 miles SW of Seldovia, Chugach Mountains; 59° 10' N, 151° 50' W; BGN 1908; (map 50). Variant: Cape Elizabeth Island, Isla San Aniceto. Named for the west point of the island which Capt. James Cook, RN, called "Cape Elizabeth," because he did not realize the point was on an island. It was originally called "Cape Elizabeth Island," but changed to "Elizabeth Island" by USC&GS. It was called "Isle San Aniceto" by Arteaga on August 2, 1779.

Elizabeth Lake: lake, 1 mile long, drains NE into Lower Ugashik Lake, on Alaska Peninsula, 21 miles SE of Ugashik, Aleutian Range; 57° 24' 15" N, 156° 53' 00" W; (map 36). Named in 1923 by R. H. Sargent, USGS.

Elizabeth Mountain: mountain, 1,335 ft., at head of Green Gulch, 14 miles NW of Nome, Seward Peninsula Highlands; 64° 41' N, 165° 55' W; (map 94) Local name reported on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Elizabeth, Cape: point of land, at W tip of Elizabeth Island, 21 miles SW of Seldovia, Chugach Mountains; 59° 09' 30" N, 151° 53' 00" W; (map 50). Variant: Cape St. Elizabeth, Mys Elisaveta. Named by Capt. Cook, RN, in 1778 (v. 2, p. 382), "as the discovery of it was connected with the Princess Elizabeth's birthday, I named it Cape Elizabeth." It was published by Lt. Sarichev (1826, map 5), IRN, as "M[ys] Elisaveta," or "Cape Elizabeth."

Elizabeth, Mount: mountain, 3,547 ft., on SE coast of Baranof Island, Alexander Archipelago; 56° 39' 45" N, 134° 39' 30" W; BGN 1917; (map 5). Variant: Mount Cecil, The Sisters. Local name published by USC&GS in 1910; reported to be named for one of the daughters of Superintendent E. Lester Jones, USC&GS. However, in 1915, Jones stated "not named by me * * * named by native of Alaska of 30 years residence."

Elizabeth, Point: point of land, 1 mile N of Rodman Bay, on Duffield Peninsula, N coast of Baranof Island, Alexander Archipelago; 57° 30' 40" N, 135° 17' 30" W; (map 9). Named in 1895 by Lt. Comdr. E. K. Moore, USN, and published by USC&GS on Chart 8283.

Elk Creek: stream, flows SE 1.4 miles to Nome River, 7 miles NE of Nome, Seward Peninsula Highlands; 64° 34' 18" N, 165° 14' 30" W; (map 94). Prospectors' name shown on the 1902 "Map of the Nome and Snake River Country" by J. M. Davidson.

Elk Creek: stream, see Elkington Creek.

Elk Creek: stream, see Fourmile Creek.

Elk Creek: stream, see Slow Creek.

Elk Head Point: point of land, on NE tip of Peak Island, at SE end of Liljegren Passage, 40 miles NE of Chenega, Chugach Mountains; 60° 42' 55" N, 147° 21' 40" W; (map 63). Local name reported in 1910 by USC&GS.

Elkamok: island, see Chirikof Island.

Elkhorn Creek: stream, flows NE 3 miles to Niukluk River, 8.5 miles NW of Council and 30 miles NE of Solomon, Seward Peninsula Highlands; 64° 56' 05" N, 163° 56' 50" W; (map 95). Prospectors' name reported in 1899 by Schrader and Brooks (1900, map 3), USGS.

Elkhorn Island: island, 2.8 miles long, in Yukon River, 26 miles N of Holy Cross, Nulato Hills; 62° 33' N, 160° 11' W; (map 78). Riverboat pilots' name shown on a 1916 fieldsheet by R. H. Sargent, USGS.

Elkington Creek: stream, flows SW 7 miles to Don River which flows to Breving Lagoon, 25 miles NW of Teller, Seward Peninsula Highlands; 65° 32' N, 167° 53' W; (map 111). Variant: Elk Creek. Prospectors' name shown on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Elkugu Bay: bay, 0.5 miles across, on W coast of Herbert Graves Island, 6 miles W of Chichagof, Alexander Archipelago; 57° 40' 30" N, 136° 15' 00" W; (map 9). Tlingit Indian name for Cape Edward; name given to the bay by USC&GS and published in 1928 on Chart 825B.

Elkugu Island: island, 0.4 miles long, W of Herbert Graves Island, 6 miles W of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 40' 50" N, 136° 15' 00" W; BGN 1926; (map 9). Named in 1926 by USC&GS. This is the Tlingit Indian name applied to Cape Edward, the western point of land on this island, by Tebenkov (1852, map 8).

Elkugu, Mys: point of land, see Edward, Cape.

Eli Cove: cove, 0.1 miles across, on NE coast of Baranof Island, between Waterfall Cove and Kasnyku Bay, Alexander Archipelago; 57° 12' 00" N, 134° 50' 30" W; (map 9). Local name reported in 1951 by USGS.

Ella Bay: estuary, extends SW 0.7 miles, off Behm Canal, on E coast of Revillagigedo Island, Alexander Archipelago; 55° 30' 15" N, 130° 58' 45" W; (map 3). Local name recorded in 1955 by USGS.

Ella Creek: stream, drains Ella and Lower Ella Lakes, flows E 5 miles to Ella Bay, on E coast of Revillagigedo Island, Alexander Archipelago; 55° 29' 50" N, 130° 59' 30" W; (map 3). Local name recorded in 1955 by USGS. See Ella Point.

Ella Creek: stream, heads in Bendeleben Mountains, flows NW 10 miles to Kuzitrin River, 28 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 24' N, 163° 55' W; BGN 1952; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Ella Lake: lake, 5 miles long, on Revillagigedo Island, at head of Ella Creek, Alexander Archipelago; 55° 28' N, 131° 06' W; BGN 1966; (map 3). Variant: Manzanita Lake. Local name reported in 1926 by R. H. Sargent and F. H. Moffitt (in Brooks and others, 1929, pl. 5), USGS.

Ella Lake: lake, see Manzanita Lake.

Ella Point: point of land, between Ella Bay and Behm Canal, on E coast of Revillagigedo Island, Alexander Archipelago; 55° 30' N, 130° 59' W; (map 3). Local navigators' name obtained in 1904 by H. C. Fassett, USBF.

Ella, Mount: hill, 864 ft., on right bank of Yukon River, about 4 miles N of Koyukuk and 20 miles NE of Nulato, Koyukuk Lowland; 64° 56' N, 157° 38' W; (map 97). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the U.S. Dept. of Interior.

Ellamar Mountain: mountain, 3,051 ft., on E shore of Valdez Arm, 42 miles NW of Cordova, Chugach Mountains; 60° 55' 00" N, 146° 40' 30" W; (map 64). Locally named for the village reported by R. H. Sargent and C. E. Giffin (in Brooks and others, 1913, pl. 4), USGS.

Ellamar: village, pop. 46, on E shore of Virgin Bay, 40 miles NW of Cordova, Chugach Mountains; 60° 53' 45" N, 146° 42' 30" W; (map 64). The Ellamar Mining Co. was formed in 1898, a year after the first claims were located. A post office was established at this copper mining camp in 1900; it was discontinued in 1929 (Ricks, 1965, p.19).

Ellen, Lake: lake, 0.4 miles across, on Prince of Wales Island, near head of Kasaan Bay, W of village of Salt Chuck, Alexander Archipelago; 55° 37' 35" N, 132° 34' 15" W; (map 4). Variant: Lake Number 2. Local name published in 1907 by USC&GS.

Ellice Point: point of land, see Pogik Point.

Ellice, Point: point of land, on coast of Beaufort Sea, E of Smith River, Arctic Plain; (map 148). Variant: Elice Point, Point Elice. On July 26, 1837, Thomas Simpson (1843, p. 134) wrote, "rounding a point, distinguished by the name of the Right Honorable Edward Ellice * * *; a member of Parliament (presumably a privy councillor from his 'right honorable')" (Stuck, 1920, p. 272). This feature is probably present-day Pogik Point.

Elliot Beach: beach, 0.2 miles long, 2.4 miles NE of Theodore Point, on SW shore of Temnac Bay, Attu Island, Aleutian Islands; 52° 46' 00" N, 172° 57' 20" E; (map 13). Name shown on an

AMS map published in 1948, and given by the U.S. Army during World War II. The name is not used today.

Elliot Creek: stream, see Elliott Creek.

Elliott Creek: stream, flows SE 6 miles to Sorrels Creek, 32 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 06' 45" N, 146° 53' 30" W; (map 104). Local name reported in 1903 by T. G. Gerdine (in Prindle, 1905, pl. 13), USGS.

Elliott Creek: stream, heads 1.6 miles NE of Iron Mountain, flows WNW 10 miles to Kotsina River, 3.2 miles S of Hubbard Peak and 76 miles NE of Valdez, Wrangell Mountains; 61° 43' N, 144° 17' W; (map 68). Variant: Elliot Creek. Prospected and named in 1899 by "Messrs. Elliott and Hubbard from Copper Creek * * *" (Mendenhall, 1905, p. 98).

Elliott Island: island, 0.8 miles across, in Southwest Islands, in Pybus Bay, on SE coast of Admiralty Island, Alexander Archipelago; 57° 15' 30" N, 134° 03' 30" W; (map 9). Name reported in 1924 by USC&GS and published in 1928 on Chart 8200.

Ellis Creek: stream, flows SE 1 mile to Glacier Creek, 7 miles N of Nome, Seward Peninsula Highlands; 64° 36' N, 165° 22' W; (map 94). Prospectors' name shown on a 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Ellis, Point: point of land, between Tebenkof Bay and Bay of Pillars, on W coast of Kuiu Island, 25 miles NE of Port Alexander, Alexander Archipelago; 56° 33' 40" N, 134° 19' 00" W; (map 5). Named by Capt. George Vancouver, RN, on August 6, 1794, "probably in honor of George Ellis, who accompanied Sir James Harris * * * on a diplomatic mission" (Wagner, 1937, p. 386).

Ellsworth Cut: water passage, 2.5 miles SE of Sitka, between Harris Island and W coast of Baranof Island, Alexander Archipelago; 57° 02' 10" N, 135° 16' 40" W; (map 9). Variant: Ellsworths Cut. Named in 1880 by the U.S. Navy and published by USC&GS in 1883 Coast Pilot (p. 144).

Ellsworth Glacier: glacier, on Kenai Peninsula, trends 18 miles SW to its terminus, 2 miles NE of Day Harbor, 14 miles SE of Seward, Chugach Mountains; 60° 05' N, 149° 01' W; BGN 1910; (map 63). Variant: Copper Glacier. Name published in 1907 by USC&GS.

Ellsworths Cut: water passage, see Ellsworth Cut.

Elma Island: island, 2.7 miles long, between Sanak and Caton Islands, one of Sanak Islands, Aleutian Range 54° 22' 15" N, 162° 29' 30" W; (map 25). Named in 1890 by USBF.

Elmendorf Air Force Base: military installation, N of Anchorage, Cook Inlet Lowland; 61° 14' N, 149° 50' W; (map 69). Named in 1940 by U.S. Army Air Force for Capt. Hugh M. Elmendorf, USA, who was killed in an air accident on January 15, 1934

Elmendorf Moraine: moraine, avg. elev. 400 ft., 30 miles long, extends S from Big Lake to Knik Arm Cook Inlet, 3.5 miles NW of Anchorage, extends NE from Cairn Point to Birchwood,

Cook Inlet Lowland; 61° 16' N, 149° 55' W; BGN 1962; (map 69). So named in 1955 by Robert D. Miller, USGS, because part of the moraine extends into Elmendorf Air Force Base.

Elmer Creek: stream, flows NE 1.4 miles to Discovery Creek, 12 miles NE of Nome, Seward Peninsula Highlands; 64° 36' N, 165° 02' W; (map 94). Prospectors' name shown on map dated September 1901 of Cape Nome gold fields by David Fox, Jr.

Elnik: bay, see Dry Spruce Bay.

Elongozheek Slough: watercourse, see Elongozhik Slough.

Elongozhewik Slough: watercourse, see Elongozhik Slough.

Elongozhik Slough: stream, in Yukon Delta, flows NW 2.6 miles to Kawokhawik Pass, 11.5 miles W of Kwiguk, Yukon-Kuskokwim Delta 62° 47' 30" N, 164° 51' 30" W; (map 77). Eskimo name obtained in 1952 by U.S. Army Corps of Engineers.

Elongozhik Slough: watercourse, in Yukon Delta, heads at Mahtkwingak Slough, flows N 20 miles to Norton Sound, 34 miles N of Kwiguk, Yukon-Kuskokwim Delta; 63° 14' N, 164° 17' W; (map 92). Variant: Elongozheek Slough, Elongozhewik Slough. Eskimo name reported in 1899 by G. R. Putnam, USC&GS; published in 1901 on Chart 9372.

Elooweechook: hill, see Iliutuk Hill.

Elovoi Cape: point of land, see Spruce Cape.

Elovoi Island: island, 0.1 miles long, in Peril Strait 1 mile NW of Duffield Peninsula, on Baranof Island, 13 miles SE of Chichagof, Alexander Archipelago; 57° 34' N, 135° 28' W; (map 9). Variant: Elovoi Islet Firtree Island, Ostrov Yelovoy, Peril Straits Spruce Island, Yelowoi Island. Russian name meaning "spruce," given in 1833 by the navigator Ens. Vasiliev, IRN; published in 1848 on Russian Hydrog. Dept. Chart 1397 as "Os[trov] Yelovoy."

Elovoi Island: island, 1.5 miles across, 1 mile SW of Goddard, on W coast of Baranof Island, Alexander Archipelago; 56° 49' N, 135° 24' W; BGN 1897; (map 5). Variant: Fir-tree Island, Ostrov Yelovoy, Spruce Island, Yelowoi Island. Named in 1809 by the Russian navigator, Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19) IRN as "O[strov] Yelovoy," meaning "spruce island."

Elovoi Island: island, see Spruce Island.

Elovoi Islet: island, see Elovoi Island.

Elovoi Strait: water passage, see Narrow Strait.

Elovoi Vneshnie Cape: point of land, see Spruce Cape.

Elovoi: point of land, see Chinaik, Cape.

Elovoi: point of land, see Uzinki Point.

Elovyy, Ostrov: island, see Spruce Island.

Elow Island: island, see Spruce Island.

Elrington island: island, extends NE-SW 12 miles at SW end of Prince William Sound, between Latouche and Evans Islands, 20 miles S of Chenega, Chugach Mountains; 60° 00' N, 148° 03' W; BGN 1910; (maps 49 and 63). Local name reported in 1905 by U. S. Grant, USGS; name derived from Point Elrington at the southern tip of the island.

Elrington Passage: water passage, 5 miles long between Elrington Island and Evans Island, on SW edge of Prince William Sound, 20 miles S of Chenega, Chugach Mountains; 60° 00' N, 148° 04' W; BGN 1908; (map 63). Variant: Prince of Wales Passage. Local name published in 1908 by USC&GS; name derived from nearby Point Elrington.

Elrington, Point: point of land, at SW tip of Elrington Island, 45 miles SE of Seward, Chugach, Mountains; 59° 56' 20" N, 148° 15' 00" W; (map 49). Named by Joseph Whidbey, RN, about May 27, 1794, (Vancouver, 1798, v. 3, p. 176j).

Elsie Creek: stream, flows NE 13 miles to California Creek, 38 miles SE of Nenana, Alaska Range; 64° 03' 20" N, 148° 43' 45" W; (map 100). Local name published in 1915 on a GLO [BLM] survey Plateau

Elsie Island: island, 1 mile long, on right shore of Yukon River, 18 miles SW of Russian Mission, Yukon-Kuskokwim Delta; 61° 37' N, 161° 46' W; (map 73). Riverboat pilots' name shown on a 1940 navigation chart of Yukon River.

Elsie Point: point of land, E point of Bell Island, between Anchor Pass and Behm Canal, Alexander Archipelago; 55° 57' 40" N, 131° 24' 18" W; (map 3). Named in 1891 by USC&GS.

Elsner, Lake: lake, 1 mile long, 3 miles W of terminus of Sheridan Glacier and 10 miles E of Cordova, Chugach Mountains; 60° 33' N, 145° 28' W; (map 64). Name published in 1950 by USGS.

Elson Bay: lagoon, see Elson Lagoon.

Elson Lagoon: lagoon, extends SE 25 miles from Point Barrow, between Plover Islands and mainland, Arctic Plain; 71° 15' N, 155° 51' W; BGN 1916; (map 153). Variant: Elson Bay, Elson's Bay, Tashuk, Tasuk, Tas'yuk. Named Elson's Bay by Capt. Beechey (1831, p. 302), RN, in September 1826 for Master Thomas Elson, RN, of H.M.S. Blossom. Elson was placed in charge of a party sent in an open boat to explore the coast from NE of Icy Cape to Point Barrow (Beechey, p. 301-321). Comdr. Maguire (Great Britain, 1854, map facing p. 186), RN, shows the name Tasuk, which is the common Eskimo generic (tasik) for an enclosed body of water.

Elson's Bay: lagoon, see Elson Lagoon.

Elting Creek: stream, flows NW 10 miles to Johnson River, 40 miles NE of Paxson, Alaska Range; 63° 31' 15" N, 144° 49' 10" W; (map 86). Name published on relatively recent maps.

Eluitkak Pass: water passage, on coast of Beaufort Sea, between Plover Point and Doctor Island, 3.5 miles SE of Point Barrow, Arctic Plain; 71° 21' 40" N, 156° 21' 15" W, (map 153). Variant: Ekiluk Pass, Ikiraaluk, Ikkeraluk, Moore Channel, Moores Channel. Eskimo name recorded by USC&GS in 1951 and means "it's bad [difficult]" referring to the strong current. It was originally named Moore Channel, after Comdr. E. L. Moore, RN, and shown on Comdr. Rockfort Maguire's map (Great Britain, 1854, facing p. 186) with the Eskimo name "Ikkeraluk," which is reported to mean, "a worthless provision rack" (Leffingwell, 1919, p. 97).

Elukozuk Slough: watercourse, in distributary system of Yukon River, trends SW 5.4 miles from Kawokhawik Slough to Norton Sound, 11 miles W of Kwiguk, Yukon-Kuskokwim Delta; 62° 44' N, 164° 52' W; (map 77). Eskimo name reported to mean "having many branches" (USC&GS, 1952).

Eluksingiak Point: point of land, E point of entrance between Kugrua and Peard Bays, 8.5 miles SW of Point Franklin and 24 miles NE of Wainwright, Arctic Plain; 70° 49' N, 159° 04' W; (map 146). Eskimo name recorded in 1956 by T. E. Taylor, USGS. In 1965 Orth was told by the people at Wainwright that the name means "Eluk's entrance."

Eluktuk: locality, see Lamont.

Elupak: locality, on coast of Beaufort Sea, on NW coast of Barter Island, Arctic Plain; 70° 08' N, 143° 42' W; (map 152). Eskimo name of an "old village" site reported by USC&GS in 1952.

Elurachea Point: point of land, see Humphrey Point.

Eluraucha Point: point of land, see Humphrey Point.

Elusive Creek: stream, flows NE 25 miles to Utukok River, N of Omicron Hill, 83 miles S of Wainwright, Arctic Slope; 69° 26' 30" N, 160° 04' 30" W; BGN 1966; (map 144). Name proposed in 1924 by W. T. Foran, USGS, because of the "deceptive appearance of the valley and the difficulty of determining its junction with the Utukok River." The name first appears on a 1924 fieldsheet by O. L. Wix.

Elusive Lake: lake, 2 miles long, in Philip Smith Mountains, drains E to Ribdon River 15 miles of SE of its junction with Sagavanirktok River, Brooks Range; 68° 39' 30" N, 148° 30' 00" W; BGN 1960; (map 135). Variant: Sagavanirktok Lake. So named by USGS geologists in 1951 because it "is elusive to ground traveler because [the lake is] hidden behind low hills on its NE side."

Elusive, Mount: mountain, 11,465 ft., in Dora Keen Range, 35 miles NW of Valdez, Chugach Mountains; 61° 25' 40" N, 147° 07' 30" W; BGN 1965; (map 69). So named because "of its elusive character in trying to locate its position on the map from aerial photos." Named about 1957 by members of the Chugach Mountain Expedition sponsored by the Arctic Institute of North America (Nielsen, 1963, p. 135).

Elutuc: locality, see New Hamilton.

Elutuli Creek: stream, flows W 40 miles to Hoholitna River 2 miles E of its junction with Holitna River and 15 miles SE of Sleetmute, Stony River Lowland; 61° 30' 45" N, 156° 55' 50" W; (map 72). Eskimo name obtained in 1948 by USC&GS.

Eluwaktak Mountain: mountain, 1,490 ft., 5 miles SW of junction of Kwethluk River and Johnson Creek and 50 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 17' N, 160° 47' W; (map 59). Variant: Eluwuktuk Mountain. Eskimo name reported in 1955 by J. M. Hoare, USGS.

Eluwuktuk Mountain: mountain, see Eluwaktak Mountain.

Elva Lake: lake, 1.5 miles long, between Amakuk Arm and Little Togiak Lake, 3.5 miles NW of Lake Nerka, 45 miles NW of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 38' N, 159° 09' W; BGN 1932; (map 53). Locally named for Mrs. Elva Polley, who first reported the lake about 1930.

Elvoi Mission: locality, on E coast of Spruce Island NE of Kodiak Island; 57° 54' 20" N, 152° 21' 20" W; (map 34). Russian name meaning "spruce," published in 1934 by USC&GS.

Elwood, Lake: lake, 0.2 miles across, in West Massacre Valley, on eastern Attu Island, Aleutian Islands; 52° 51' 37" N, 173° 10' 35" E; (map 13). Name shown on an AMS map published in 1948, and given by the U.S. Army during World War II. The name is not used today.

Ely River: stream, see Eli River.

Emagayten Island: island, see Emgeten Island.

Emaiksoun Lake: lake, 1.5 miles long, on Chukchi Sea coast, 3 miles S of Barrow, Arctic Plain 71° 14' 30" N, 156° 46' 15" W; (map 153). Variant: Emarksoun Lake, Imexsaan. Eskimo name reported by USC&GS about 1950. The first part of the name probably means "fresh water."

Emangak: locality, on point of land between Kawanak and Kwikpak Passes, 16 miles NE of Kwiguk, Yukon-Kuskokwim Delta; 62° 54' N, 164° 06' W; (map 77). Eskimo name obtained in 1952 by U.S. Army Corps of Engineers.

Emanguk: locality, on right bank of Kwiguk Pass, 1.4 miles N of Kwiguk, Yukon-Kuskokwim Delta; 62° 46' 40" N, 164° 31' 45" W; (map 77). Variant: Emonguk. Eskimo name obtained in 1948 by USC&GS.

Emanvicrok Channel: stream, tributary of Kobuk River, heads at Nazuruk Channel, Kobuk River, and flows SW 8 miles to Hotham Inlet, 43 miles NW of Selawik, Kotzebue-Kobuk Lowland; 66° 33' N, 161° 33' W; (map 114). Eskimo name obtained by U.S. Army Corps of Engineers in 1955.

Emarksoun Lake: lake, see Eamiksoun Lake.

Embryo Lake: lake, 0.8 miles long, on Kenai Peninsula, 0.7 miles W of Falcon Lake and 34 miles NE of Kenai Cook Inlet Lowland; 60° 47' 15" N, 150° 26' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Emegek Cape: point of land, see Emeghee Point.

Emeghee Cape: point of land, see Emeghee Point.

Emeghee Point: point of land, on S coast of Saint Lawrence Island, 4 miles NW of Southeast Cape; 62° 58' N, 169° 46' W; BGN 1951; (map 93). Variant: Emegek Cape, Emeghee Cape, Southeast Cape. Eskimo name recommended by the Savoonga village council; reported in 1949 by Maj. H. B. Allen, USAF.

Emekyalok Cape: point of land, see Emekyalok Point.

Emekyalok Point: point of land, 5 miles E of Siknik Cape and 65 miles SE of Gambell, S coast of St. Lawrence Island; 63° 10' N, 170° 09' W; BGN 1951; (map 93). Variant: Emekyalok Cape, Umeyalak Point. Eskimo name often written "Umeyalak," and of undetermined meaning. This name was recommended in 1949, for map usage, by the Gambell village council.

Emerald Bay: cove, 0.2 miles across, on NE coast of Kenai Peninsula, on S side of Passage Canal, 4 miles NE of Whittier, Chugach Mountains; 60° 48' 25" N, 148° 34' 20" W; BGN 1966; (map 63). Variant: King Cove. Local descriptive name published in 1954 by USC&GS.

Emerald Bay: estuary, 0.5 miles long, W coast of Cleveland Peninsula, 3 miles S of Eaton Point, Alexander Archipelago; 55° 53' 30" N, 132° 02' 45" W; (map 4). Descriptive name given in 1923 by USC&GS.

Emerald Cove: cove, 0.5 miles across, on SE side of Columbia Bay, 58 miles NE of Whittier, Chugach Mountains; 60° 57' 15" N, 147° 02' 00" W; BGN 1911; (map 63). So named in 1910 by U. S. Grant, USGS, "because of the greenness of shores and water."

Emerald Creek: stream, flows NW 0.7 miles to Kasson Creek near its head, E of Nobhill Creek and about 9 miles N of Solomon, Seward Peninsula Highlands; 64° 41' 40" N, 164° 23' 00" W; (map 95). Variant: Ruby Creek. Prospectors' name reported on Arthur Gibson's 1904 "Map of Cape Nome Precinct." Gibson applied the name "Ruby Creek" to this stream and showed "Emerald Creek" as a SW flowing tributary of Kasson Creek. The above location was reported in 1907 by USGS geologists (Smith, P. S., 1910, p. 13).

Emerald Creek: stream, heads at glacier, flows NE 9.5 miles to Skwentna River, 6 miles SE of Mount Estelle and 73 miles NW of Tyonek, Alaska Range; 61° 49' 05" N, 152° 43' 45" W; (map 70) Local name reported by S. R. Capps (in Smith and others, 1926, pl. 1), USGS.

Emerald Island: island, 0.1 miles long, in Iphigenia Bay, 1.3 miles W of Heceta Island, Alexander Archipelago; 55° 43' 58" N, 133° 40' 45" W; (map 4). Variant: Green Island. Descriptive name given in 1908 by USC&GS. In 1907 E. F. Dickins, USC&GS, reported the local name "Green Island." The name was changed to reduce duplication of the name "Green."

Emerald Island: island, 0.3 miles across, off SW tip of Unalaska Island, Aleutian Islands; 53° 17' 20" N, 167° 51' 20" W; BGN 1939; (map 23). Descriptive name given by USC&GS in 1936, because, "during the summer months, this island, which is about 200 ft. high, and entirely grass covered, is a brilliant green color."

Emerald Island: island, at mouth of King Cove, on S side of Passage Canal, 4 miles NE of Whittier, Chugach Mountains; 60° 48' 25" N, 148° 34' 10" W; BGN 1915; (map 63). Variant: Emerald Isle, Shamrock Isle. Named in 1915 by USC&GS.

Emerald Island: island, extends NW-SE 0.9 miles in Yukon River, 0.5 miles SW of Mickey Island and 30 miles NE of Ruby, Nowitna Lowland; 64° 55' N, 154° 34' W; (map 98). Riverboat pilots' name shown on 1940 "Navigation Chart, Tanana-Yukon Rivers" of the River Boat Service, U.S. Dept. of Interior.

Emerald Isle: island, see Emerald Island.

Emerald Lake: lake, 1 mile long, 3 miles S of Gibraltar Lake and 32 miles SE of Iliamna, Aleutian Range; 59° 18' 30" N, 154° 43' 00" W; (map 51). So named in 1923 by R. H. Sargent, USGS, because of its emerald-like appearance and published by K. F. Mather (in Brooks and others, 1925, pl. 3), USGS.

Emerson Glacier: glacier, see Coxe Glacier.

Emerson, Mount: mountain, 5,077 ft., on W bank of College Fiord, 8 miles N of Point Pakenham and 63 miles E of Anchorage, Chugach Mountains; 61° 07' N, 148° 01' W; BGN 1910; (map 69). Named in 1908 by U. S. Grant and D. F. Higgins, USGS, for Benjamin Kendall Emerson, 1843-1920, professor of geology at Amherst College, Amherst, Massachusetts. He was a member of the Harriman Alaska Expedition in 1899.

Emery Creek: stream, flows N 3 miles to Bettles River, S of Wiehl Mountain, 30 miles WNW of Chandalar, Brooks Range; 67° 34' 15" N, 149° 36' 30" W; (map 123). Variant: Emory Creek. Named about 1900 for his son by August L. Tobin, who prospected in this area from 1898 to 1919.

Emgeten Island: island, 0.3 miles across, 3.5 miles S of Sitka, W of Baranof Island, Alexander Archipelago; 57° 00' 00" N, 135° 19' 30" W; BGN 1897; (map 5). Variant: Emagayten Island, Emheleni Island, Engaylen Island, Luce Island, Ostrov Emgeten. Named in 1809 by Ivan Vasiliev IRN; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Emgeten," or "Emgeten Island."

Emghem Mountain: hill, 777 ft., 3.5 miles NW of Southeast Cape, 85 miles SE of Gambell, on Saint Lawrence Island; 62° 58' N, 169° 44' W; BGN 1951; (map 93). Eskimo name reported in 1949 by Maj. H. B. Allen, USAF.

Emheleni Island: island, see Emgeten Island.

Emikpuk Lake: lake, see Imikpuk Lake.

Emile Creek: stream, heads in a glacial lake in Brabazon Range, flows S 6 miles to Alsek River, 4.6 miles NE of Dry Bay and 50 miles SE of Yakutat, St. Elias Mountains; 59° 12' 00" N, 138° 28' 20" W; (map 46). Local name published in 1959 by USGS.

Emile Lake: lake, 1 mile long, 3.5 miles SE of Fort Yukon, Yukon Flats; 66° 32' 30" N, 145° 07' 00" W; (map 119). Local name obtained in 1956 by USGS.

Emily Island: island, 0.1 miles long, in Little Duncan Bay, 16 miles SW of Petersburg, on S coast of Kupreanof Island, Alexander Archipelago; 56° 35' 50" N, 133° 07' 50" W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for charting purposes; name published in 1888 on USC&GS Chart 705.

Eminik Bay: bay, see Dry Spruce Bay.

Emma Creek: stream, flows E 5 miles to Middle Fork Koyukuk River, 5 miles SE of Emma Dome and 6.5 miles S of Wiseman, Brooks Range; 67° 19' 20" N, 150° 10' 00" W; (map 124). Named by August L. Tobin, who prospected and mined in the area from 1897 to 1918, for his wife, Emma L. Tobin; name reported by Robert Marshall in 1930.

Emma Creek: stream, flows NE 5 miles, joins Marguerite Creek to form California Creek, 40 miles SE of Nenana, Alaska Range; 64° 00' 45" N, 148° 43' 30" W; (map 100). Local name reported in 1910 by USGS (Capps, 1912, pl. 1).

Emma Creek: stream, flows SE 2.3 miles to Alder Creek, 11 miles W of Fairbanks, Yukon-Tanana Highlands; 64° 49' 15" N, 148° 04' 55" W; (map 100). Name reported in 1907 and published in 1908 by USGS.

Emma Creek: stream, on Revillagigedo Island, E of Naha Bay, flows SW through Emma Lake 2 miles to Jordan Lake, Alexander Archipelago; 55° 36' N, 131° 34' W; BGN 1962; (map 3). Local name reported in 1961 by USFS.

Emma Dome: mountain, 5,680 ft., 3.5 miles SE of Bluecloud Mountain and 7 miles SW of Wiseman Brooks Range; 67° 22' N, 150° 25' W; BGN 1932, (map 124). Named by August L. Tobin. See Emma Creek.

Emma Lake: lake, 0.6 miles long, on Revillagigedo Island, E of Naha Bay, in course of Emma Creek, Alexander Archipelago; 55° 37' N, 131° 33' W; BGN 1962; (map 3). Local name reported in 1961 by USFS.

Emma, Lake: lake, 0.5 miles long, on Kenai Peninsula, drains S to Indian Creek, 3 miles E of Tustumena Lake and 40 miles SE of Kenai, Chugach Mountains; 60° 08' N, 150° 33' W; (map 62). Local name reported in 1904 by Moffit (1906, pl. 2), USGS.

Emma, Mount: mountain, 3,235 ft., on Baranof Island, 3 miles E of Whale Bay, Alexander Archipelago; 56° 37' 50" N, 134° 54' 20" W; (map 5). Local name published in 1943 by USC&GS.

Emmerich, Mount: mountain, 6,405 ft. in Chilkat Range, 2 miles W of terminus of Garrison Glacier, 23 miles SW of Skagway, St. Elias Mountains; 59° 11' 40" N, 135° 42' 10" W; (map

45). Variant: Cathedral Peak, Mount Emmerick. So named by the USC&GS in 1897. According to E. G. Robertson, USGS, the local name is Cathedral Peak, "because of the mountain's prominence and cathedral-like appearance."

Emmerick, Mount: mountain, see Emmerich, Mount.

Emmerson Peaks: ridge, in Glacier Bay National Monument, 2 miles long, trends NW with a maximum elev. of 4,830 ft., 4 miles SE of Triangle Island and 67 miles NW of Hoonah, St. Elias Mountains; 58° 55' 15" N, 136° 26' 15" W; (map 10). Named by the American Geographical Society's Glacier Bay Expedition of 1941 for Benjamin Kendall Emerson, 1843-1932, professor of geology, who visited the Muir Glacier with the Harriman Alaska Expedition in 1899. Emerson taught geology at Amherst College from 1878-1912. He worked for USGS from 1890 until his death and he is noted for his investigations of the geology of Massachusetts.

Emmet Island: island, 0.1 miles long, in Felice Strait, off N coast of Duke Island, Alexander Archipelago; 54° 58' 30" N, 131° 24' 45" W; (map 2). Local name published in 1943 by USC&GS.

Emmikroak Creek: stream, see Ikijaktusak Creek.

Emmikroak Creek: stream, see Imikrak Creek.

Emmons Island: island, 2 miles across, in Hoonah Sound, off S coast of Chichagof Island, 11 miles SE of Chichagof, Alexander Archipelago; 57° 36' N, 135° 32' W; (map 9). Named by USC&GS for Lt. George Thornton Emmons, USN, and published in 1899 on Chart 8050.

Emmons Lake: lake, 5 miles long, 1 mile S of Mount Emmons, 25 miles NE of village of Cold Bay, near SW end of Alaska Peninsula, Aleutian Range; 55° 19' N, 162° 06' W; (map 29). Name derived from Mount Emmons and published by USGS (Kennedy and Waldron, 1955, p. 10).

Emmons Point: point of land, SE tip of Emmons Island, in Hoonah Sound, off S coast of Chichagof Island, 11 miles SE of Chichagof, Alexander Archipelago; 57° 35' 45" N, 135° 30' 40" W; (map 9). Named in 1895 by Lt. Comdr. E. K. Moore, probably for Lt. George Thornton Emmons, USN, and published in 1900 by USC&GS on Chart 8282.

Emmons, Mount: mountain, 4,350 ft., 27 miles NE of village of Cold Bay near SW end of Alaska Peninsula, Aleutian Range; 55° 20' N, 162° 05' W; (map 29). Local name published in 1943 on a USGS map.

Emnavak Ridge: ridge, elev. 1,600 ft., along E side of Lost Temper Creek, 25 miles E of Liberator Lake, Arctic Slope; 68° 50' N, 157° 20' W; (map 132). Eskimo name reported in 1956 by T. E. Taylor, USGS.

Emogarikchoit: lake, see Inland Lake.

Emonguk: locality, see Emanguk.

Emory Creek: stream, flows NW 3 miles to Beaver Creek 2 miles E of that stream's junction with South Fork Chena River and 46 miles NW of Big Delta, Yukon-Tanana Highlands; 64° 45' 50" N, 146° 24' 15" W; (map 101). Local name reported in 1958 by USGS.

Emory Creek: stream, see Emery Creek.

Empalizada, Punta: point of land, see Palisade Point.

Emperor Island: island, 1.5 miles long, in Kolavinarak River at mouth of Talaghun River, 93 miles W of Bethel, Yukon-Kuskokwim Delta; 60° 33' N, 164° 30' W; (map 58). Named about 1964 by personnel of Clarence Rhode National Wildlife Range for the Emperor Goose.

Emperor Peak: peak, 6,805 ft., in Taku Range, S of Taku Towers and 20 miles N of Juneau, Coast Mountains; 58° 35' 00" N, 134° 23' 10" W; BGN 1965; (map 11). Variant: Project Peak. Named in 1964 by members of the Juneau Icefield Research Project.

Empinado, Cape: point of land, on Prince of Wales Island extending into Bucareli Bay between Tranquil Point and Point Providence, Alexander Archipelago; 55° 22' N, 133° 15' W; (map 4). Variant: Etpinado Cape. Spanish name meaning "pointed cape" given by the Don Jacinto Arteaga 1779 expedition. The descriptive name does not seem to fit this point and may instead apply to one farther northeast.

Empire Gulch: ravine, trends NW 1 miles to Casadepaga River 2 miles SW of its junction with Niukluk River, 28 miles NE of Solomon, Seward Peninsula Highlands; 64° 57' N, 164° 07' W; (map 95). Prospectors' name reported in 1907 by USGS geologists (Smith, P. S., 1910, pl. 4).

Empress Mountain: peaks, see Snow Towers, The.

Empress Peak: peak, see Princess Peak.

Emukpun: lake, see Imikpuk Lake.

Emuruk Lake: lake, see Imuruk Lake.

Enatalik Creek: stream, flows NE 20 miles to Chukowan River, 80 miles SW of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 45' N, 158° 31' W; BGN 1948; (map 60). Variant: Little Swift River, Pylim Creek, West Fork Chukowan River. Eskimo name reported in 1945 by USGS. This stream is known locally by white prospectors and trappers as the "Little Swift River."

Encampment Creek: stream, flows N 15 miles to Confusion Creek, 9 miles NW of Natvakruak Lake and 22 miles NW of Anaktuvuk Pass, Brooks Range; 68° 25' 40" N, 152° 01' 00" W; (map 134). So named in 1950 by W. W. Patton and A. S. Keller, USGS, "because our field party camped on the creek."

Enchantment, Cape: promontory, on W shore of Russell Fiord, opposite mouth of Nunatak Fiord, 26 miles NE of Yakutat, St. Elias Mountains; 59° 51' 15" N, 139° 18' 35" W; (map 46).

So named by Russell (1891, p. 86), USGS, because of the “magnificent views from this point.”

Encio Gulch: ravine, trends SE 0.5 miles to Hidden Creek, 8 miles N of Medfra, Kilbuck-Kuskokwim Mountains; 63° 13' N, 154° 44' W; (map 89). Local name reported in 1958 by USGS.

Endicott Arm: estuary, fiord, 30 miles long, extends NW from terminus of Dawes Glacier to Holkham Bay, 44 miles SE of Juneau, Coast Mountains; 57° 45' N, 133° 35' W; BGN 1961; (map 8). Named in 1889 by Lt. Comdr. H. B. Mansfield, USN, for William Crowninshield Endicott, 1826-1900, Secretary of War under President Grover Cleveland, 1885-89. The name was published by USC&GS in 1891 Coast Pilot (p. 147).

Endicott Gap: pass, in Glacier Bay National Monument, 0.5 miles W of Endicott Lake and 59 miles NW of Juneau, St. Elias Mountains; 58° 49' 30" N, 135° 42' 30" W; (map 11). Name published in 1962 by USGS.

Endicott Lake: lake, 0.6 miles long, on Endicott River, in Glacier Bay National Monument, 0.5 miles E of Endicott Gap and 58 miles NW of Juneau, St. Elias Mountains; 58° 49' 30" N, 135° 40' 30" W; (map 11). Variant: Main Lake. Named in 1890 by Harry F. Reid. The valley in which it is located was named “Main” by John Muir, and the lake was called “Main Lake.” The name of the valley and the lake was changed to “Endicott” by Reid when their relation to the Endicott River was established.

Endicott Lake: lake, see Main Lake.

Endicott Mountains: mountains, extend 150 miles from Noatak River, Kaluluktok Creek, and Walker Lake at W end to Atingun River, Dietrich River, and Middle Fork Koyukuk River at E end, Brooks Range; 68° 10' N, 149° 30' W [E end], 67° 30' N, 154° 45' W [W end]; (map 124). Named in 1885 by Lt. H. T. Allen, USA, for William Crowninshield Endicott, 1826-1900, Secretary of War under President Grover Cleveland, 1885-89.

Endicott River: stream, heads in unnamed glacier 2 miles S of Mount Young, flows W and then mainly E 25 miles to Lynn Canal, 25 miles NW of Juneau, St. Elias Mountains; 58° 46' 45" N, 135° 14' 30" W; (map 11). Named in 1880 by U.S. Navy officers for William Crowninshield Endicott, 1826-1900, Secretary of War under President Grover Cleveland, 1885-89.

Endicott Valley: valley, of Endicott River, E of Endicott Gap and 56 miles NW of Juneau, St. Elias Mountains; 58° 48' N, 135° 40' W; (map 11). Variant: Main Valley. Named by H. F. Reid (1896, pl. 86).

Endicott Valley: valley, see Main Valley.

Endora Mountain: mountain, see Eudora Mountain.

Enekalikruak Creek: stream, flows E 8 miles to Killik River 4 miles N of its junction with Easter Creek, Brooks Range; 68° 12' N, 154° 07' W; (map 133) Eskimo name reported in 1956 by T. E. Taylor, USGS.

Engano Point: point of land, on SW coast of Kruzof Island, 10 miles W of Sitka, Alexander Archipelago; 57° 00' 45" N, 135° 51' 00" W; BGN 1926; (map 9). The name "Cabo del Engano" meaning "cape of deception (or deceit)" was given to Cape Edgecumbe in 1775 by F. A. Maurelle (in La Perouse, 1798, pl. 26). The USC&GS applied the name to this point of land in 1926

Engano, Cabo del: point of land, see Edgecumbe, Cape.

Engaylen Island: island, see Emgeten Island.

Engineer Creek: stream, flows SW 15 miles, through Engineer Lake, to Yukon River, 12 miles SE of Marshall, Nulato Hills; 61° 43' N, 161° 56' W; (map 73). Prospectors' name reported by Harrington (1918, map), USGS, in 1916.

Engineer Creek: stream, flows W 5 miles to Goldstream Creek, 9 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 56' 45" N, 147° 40' 55" W; (map 100). Local name reported in 1903 by T. G. Gerdine (in Prindle, 1905, pl. 16), USGS.

Engineer Creek: stream, see Little Blanche Creek.

Engineer Hill: hill, 625 ft., at NW end of Gilbert Ridge, on eastern Attu Island, Aleutian Islands; 52° 53' 05" N, 173° 11' 45" E; (map 13). Named by the U.S. Army when it occupied the island during World War II.

Engineer Hill: hill, 633 ft., 2 miles NW of Engineer Lake and 11 miles SE of Marshall, Nulato Hills; 61° 45' 20" N, 161° 51' 10" W; (map 73). Local name reported by the U.S. Army Corps of Engineers in 1952; named for Engineer Lake and Creek.

Engineer Lake: lake, 0.8 miles across, on Kenai Peninsula, W of Hidden Lake, 33 miles ESE of Kenai, Cook Inlet Lowland; 60° 29' N, 150° 20' W; (map 62). Local name reported in 1958 by USGS.

Engineer Lake: lake, 4.5 miles long, E of Yukon River, 13 miles SE of Marshall, Yukon-Kuskokwim Delta; 61° 44' N, 161° 48' W; (map 73). Local name reported by the U.S. Army Corps of Engineers in 1952; named for Engineer Creek.

Engineer: locality, on Engineer Creek, 9 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 56' N, 147° 40' W; (map 100). Name of a mining camp whose name was derived from Engineer Creek. A post office was established here in 1909 and discontinued in 1911. (Ricks, 1965, p. 19). The camp is now only an abandoned site.

Engle Creek: stream, flows NW to Nucksack Creek which flows to Kuzitrin River near its head, about 22 miles SW of Imuruk Lake Seward Peninsula Highlands; (map 110). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This stream cannot be precisely located on current maps.

English Bay Reef: reef, in Cook Inlet, at SW entrance to Port Graham, off SW end of Kenai Peninsula, 11 miles SW of Seldovia. Chugach Mountains; 59° 21' 45" N, 151° 56' 45" W; (map 50). Name derived from English Bay and published by USC&GS in 1940.

English Bay River: stream, flows NW 11 miles to English Bay, on S end of Kenai Peninsula, 10 miles SW of Seldovia, Chugach Mountains; 59° 18' 30" N, 151° 51' 30" W; (map 50). Name derived from English Bay and published by USGS in 1951.

English Bay: bay, 0.6 miles across, NE coast of Unalaska Island, Aleutian Islands; 53° 56' 15" N, 166° 14' 30" W; BGN 1904; (map 23). Variant: Samganoodha Bay, Samganuda Bay, Samganooda Bay. Aleut name reported by Capt. James Cook (1785, v. 2, p. 424), RN, as "Samganoodha." Lt. Sarichev (1826, map 14), IRN, published the name as "Zaliv Samganuda," or "Samganuda Bay." Because Cook surveyed the area, Father Veniaminov (1840, v. 1, p. 165) called it "Angliiskii," or "English."

English Bay: bay, 1.5 miles across, on SW coast of Saint Paul Island, in Pribilof Islands; 57° 08' 30" N, 170° 18' 30" W; (map 38). According to Elliott (1881, Saint Paul notes), this bay was so named because a "large British vessel" was wrecked here, on a reef, in 1847, as it was coming in to anchor off Zapadni Point.

English Bay: bay, see Graham, Port.

English Bay: bay, see Womens Bay.

English Bay: cove, 0.5 miles wide, on Hinchinbrook Island. on S shore of Port Etches, 35 miles SW of Cordova, Chugach Mountains; 68° 10' N, 146° 40' W; (map 64). Local name reported in 1908 by Grant and Higgins (1909, pl. 4), USGS.

English Bay: cove, 1.2 miles across, at mouth of English Bay River, on SW end of Kenai Peninsula, 10 miles SW of Seldovia, Chugach Mountains; 59° 21' 15" N, 151° 56' 00" W; (map 50). The Russians originally applied the name "Bukh[ta] Anglitskaya" (English Bay), to what is now called Port Graham (Tebenkov, 1852, map 5) probably because the area was mapped by the English (Portlock, 1789, map facing p. 102). Capt. Nathaniel Portlock, however, called the bay "Grahams Harbour" [Port Graham] and the translated Russian name, "English Bay," was reapplied to the above described small cove by USC&GS in 1909.

English Bay: village, pop. 78, on Kenai Peninsula at S entrance to Port Graham, 10 miles SW of Seldovia, Chugach Mountains; 59° 21' 30" N, 151° 55' 20" W; BGN 1954; (map 50). Variant: Alexander, Alexandro, Alexandrovek, Alexandrovsk, Odinochka. Local name derived from nearby English Bay and reported by the census of 1940. This village appears to have been originally a Russian Post called Alexandrovsk, meaning "Alexander" (Sarichev, 1826, map 5). It was later called "Odinochka," meaning "a person living in solitude" (Tebenkov, 1852 map 5).

Englishshoe Bar: bar, on Black River, 1 mile S of Graveyard Lakes and 30 miles NE of Fort Yukon, Yukon Flats; 66° 42' 30" N, 144° 16' 00" W; (map 119). Local descriptive name obtained in 1956 by USGS.

Enigarok: pinnacles, see Ears, The.

Ennis, Point: promontory, see Bald Head.

Enochkin Bay: estuary, see Iniskin Bay.

Enright Creek: stream, flows NE to Niukluk River, between Bear River and Holyoke Creek near Council, about 32 miles NE of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This stream cannot be precisely located on current maps.

Enterprise Creek: stream, flows E 6 miles to join Silver Bow Creek to form McKinley Creek, 64 miles SW of Eagle, Yukon-Tanana Highlands; 64° 17' N, 142° 58' W; (map 102). Variant: Left Fork McKinley Creek. Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Enton Point: point of land, on SE end of Sanak Island, Aleutian Range; 54° 23' 00" N, 162° 32' 20" W; (map 25). Name published in 1949 on a USGS map.

Entrance Cape: point of land, see Ustia Point.

Entrance Island: island, 0.1 miles across, in Neva Strait, at mouth of Saint John Baptist Bay, 9 miles N of Sitka, Alexander Archipelago; 57° 17' 30" N, 135° 36' 10" W; (map 9). Descriptive name given in 1884 by Comdr. J. B. Coghlan, USN, and published in 1885 by USC&GS on Chart 727.

Entrance Island: island, 0.15 miles long, at mouth of Dolgoi Harbor, Dolgoi Island, in Pavlof Islands Aleutian Range; 55° 05' 30" N, 161° 49' 00" W, (map 28). Name shown on a 1907 USC&GS chart.

Entrance Island: island, 0.2 miles long, at mouth of Edna Bay, Kosciusko Island, Alexander Archipelago; 55° 56' N, 133° 37' W; (map 4). Local name recorded in 1951 by USGS.

Entrance Island: island, 0.2 miles long, in Behm Canal, NW of Winstanley Island, Coast Mountains; 55° 28' N, 130° 55' W; (map 3). Descriptive name given in 1891 by USC&GS.

Entrance Island: island, 0.2 miles long, on S shore of Port Valdez, SW of Valdez, Chugach Mountains; 61° 05' 05" N, 146° 36' 30" W; (map 68). Name reported in 1901 by H. P. Ritter, USGS; so called because it lies near the entrance to Port Valdez.

Entrance Island: island, 0.3 miles long, in Clarence Strait, SW coast of Etolin Island, Alexander Archipelago; 55° 59' 40" N, 132° 27' 40" W; (map 4). Descriptive name given in 1900 by Lt. Comdr. J. F. Moser, USN. "It is the guide to the channel at the entrance to McHenry Inlet."

Entrance Island: island, 0.5 miles across, at SE end of Upper Passage, 0.5 miles S of Eleanor Island, 24 miles NE of Chenega, Chugach Mountains; 60° 31' N, 147° 35' W; (map 63). Local name reported in 1910 by USC&GS. So named "because the island is at the south entrance to Upper Passage between Eleanor and Ingot Islands"

Entrance Island: island, 0.5 miles long, in Icy Strait, at entrance to Swanson Harbor, 1.6 miles NW of Point Couverden and 26 miles SW of Juneau, St. Elias Mountains; 58° 11' 50" N, 135° 05' 55" W; (map 11). Descriptive name given in 1880 by U.S. Navy officers; published by USC&GS in 1883 Coast Pilot (p. 193).

Entrance Island: island, 0.6 miles across, at entrance to Hobart Bay on E shore of Stephens Passage, 77 miles NE of Sitka, Coast Mountains; 57° 24' 45" N, 133° 26' 30" W; (map 8). Variant: Entrance Islet. Descriptive name given by USC&GS and published in 1891 Coast Pilot (p. 146).

Entrance Island: island, 0.6 miles long, between Baldy Bay and Coco Harbor. on E coast of Dall Island, Alexander Archipelago; 55° 02' 20" N, 133° 00' 00" W; (map 4). Local name recorded in 1948 by USGS.

Entrance Island: island, 0.8 miles long, in Keku Strait, 12 miles SE of Kake and 2 miles W of Big John Bay, on W coast of Kupreanof Island, Alexander Archipelago; 56° 48' 45" N, 133° 47' 30" W; (map 6) Local name published in 1943 by USC&GS.

Entrance Island: island, 300 ft. long. at entrance to Sea Otter Harbor, off W coast of Dall Island, Alexander Archipelago; 55° 06' 35" N, 133° 14' 30" W, (map 4). Descriptive name given in 1924 by USC&GS.

Entrance Island: island, see Table Island.

Entrance Island: islands, see Twins, The.

Entrance Island: locality, pop. 3, on S coast of Entrance Island in Hobart Bay, 2.5 miles NE of Point Hobart, 77 miles NE of Sitka, Coast Mountains; 57° 24' 40" N, 133° 26' 30" W; (map 8). Named for Entrance Island. Recent maps show two houses or cabins here. A post office was maintained here from 1946 to 1956 (Ricks, 1965, p. 19).

Entrance Islet: island, 0.1 miles across, on N coast of Biorika Island, off W coast of Baranof Island, Alexander Archipelago; 56° 51' 55" N, 135° 31' 20" W; (map 5). Named in 1879 by Lt. F. M. Symonds, USN.

Entrance Islet: island, see Entrance Island.

Entrance Point: point of land, 9.5 miles NW of Kodiak, Kodiak Island; 57° 54' 35" N, 152° 31' 45" W; (map 34). Variant: Mys Nachalny Nachalnie. Translation of the descriptive name "M[ys] Nachalny" given in 1839 or 1840 by Sub-Lt. Mikhail Murashev and published in 1849 on Russian Hydrog. Dept. Chart 1425.

Entrance Point: point of land, N entrance point of Sandy Cove, on Little Koniuji Island, in Shumagin Islands, Aleutian Range; 55° 02' 10" N, 159° 20' 50" W; (map 27). Reported by USC&GS in 1943; published in 1954 Coast Pilot (p. 301).

Entrance Point: point of land, on E shore of Valdez Narrows, 1.2 miles NE of Potato Point and 14 miles SW of Valdez, Chugach Mountains; 61° 03' 45" N, 146° 39' 35" W; (map 68). Name reported in 1898 by Capt. W. R. Abercrombie, USA.

Entrance Point: point of land, on N coast of Douglas Island, in Fritz Cove, 1 mile SE of tip of Mendenhall Peninsula and 7.4 miles NW of Juneau, Coast Mountains; 58° 20' 00" N, 134° 36' 20" W; (map 11). Descriptive name given in 1880 by Lt. F. M. Symonds, USN, who made surveys of the area. Published by USC&GS in the 1883 Coast Pilot (p. 173).

Entrance Point: point of land, S tip of an island between Klawak Inlet and San Alberto Bay, S of Wadleigh Island, Alexander Archipelago; 55° 31' 10" N, 133° 08' 55" W; (map 4). Descriptive name given in 1897 by Comdr. J. F. Moser, USN. It is at the entrance to Klawak Inlet.

Entrance Point: point of land, see Crist Point.

Entrance Point: point of land, see Hoonah Point.

Entrance Point: point of land, see Nachalni Point.

Entrance Point: spit, at settlement of Port Moller, at SW end of Alaska Peninsula, Bristol Bay Lowland, Alaska Peninsula, Aleutian Range; 55° 59' 30" N, 160° 34' 00" W; (map 28). Named by W. H. Dall, USC&GS, in 1880.

Entrance Rock: rock, near SW shore of Cook Inlet, in mouth of Iniskin Bay, E of Knoll Head, Aleutian Range; 59° 38' 30" N, 153° 28' 50" W; (map 51). Name published in 1917 on USC&GS Chart 8665.

Entry Cove: cove, trends SW to N entrance of Passage Canal, 12 miles NE of Whittier, Chugach Mountains; 60° 48' 15" N, 148° 21' 45" W; BGN 1915; (map 63). Named in 1914 by USC&GS, "because it is at the entrance to Passage Canal."

Eolus Point: point of land, 2 miles SE of Breezy Bay, on E coast of Dall Island, Alexander Archipelago; 55° 08' 20" N, 133° 01' 30" W; (map 4). Named in 1882 by W. H. Dall, USC&GS, for "the Greek god of the wind [Aeolus]."

Epiavik Lagoon: lagoon, see Ipiavik Lagoon.

Epizetka River: stream, heads in Amatusuk Hills at 69° 14' N, 162° 05' W, flows NW 75 miles to Kasegaluk Lagoon, 8 miles S of Point Lay, Arctic Plain; 69° 30' 30" N, 163° 03' 00" W; (map 145). Variant: Epizetko River, Epizotka River, Kipisatkak River, Kipisatkuk River. Eskimo name reported by A. J. Collier (in Brooks and others, 1905, p. 177), USGS, and probably represents the word sometimes written "qipigsatqaq," meaning "it twists" or "crooked." Collier probably obtained the name from a manuscript map (so-called Cullinghow's map of Cape Lisburne) drawn by an Eskimo about 1890. This map shows "Epizetko=crooked."

Epizetko River: stream, see Epizetka River.

Epizotka River: stream, see Epizetka River.

Epperson Knob: hill, 1,369 ft., on Kenai Peninsula, 9.5 miles E of Anchor Point and 9 miles NW of Homer, Cook Inlet Lowland; 59° 46' 15" N, 151° 36' 00" W; (map 50). Local name reported and published by USGS in the 1950's.

Epsilon Rock: rock, 0.1 miles long, in Woods Islands, Maurelle Islands, Alexander Archipelago; 55° 40' 28" N, 133° 43' 28" W; (map 4). Local name recorded in 1951 by USGS; the 5th letter of the Greek alphabet.

Equibel Boca Fina, Gulf of: bay, see Esquibel, Gulf of.

Erathlic: stream, see Fish River.

Erchakrtuk Mountain: mountain, 1,500 ft. on Nelson Island, 2.5 miles S of Ukak, 105 miles W of Bethel, Yukon-Kuskokwim Delta; 60° 42' N, 164° 55' W; (map 58). Eskimo name reported by USC&GS in 1949.

Erecheck Mountain: hills, see Mulik Hills.

Erechek River: stream, see Hugo Creek.

Eric Cove: cove, see Quisling Cove.

Erickson Creek: stream, flows NW 15 miles to Hess Creek, 36 miles NE of Rampart, Yukon-Tanana Highlands; 65° 40' N, 149° 00' W; (map 105). Name reported in 1902 by Lt. Hjalmar Erickson, USA; published by USGS (Prindle, 1905, pl. 11). This creek may have been named for Lt. Erickson by W. Yanert.

Erickson Creek: stream, heads at 65° 11' N, 143° 05' W, flows S 5 miles to Charley River 17 miles SW of junction of Charley and Yukon Rivers, Yukon-Tanana Highlands; 65° 06' N, 143° 08' W; (map 103). Prospectors' name taken from an unpublished map by E. J. Chamberlain dated 1902. It may have been named for Lt. Hjalmar Erickson, USA, who prepared a map of the area dated 1902.

Erickson Creek: stream, heads at glacier terminus, flows W 5 miles to Canyon Creek, 6 miles N of its junction with Chitina River and 29 miles SE of McCarthy, St. Elias Mountains; 61° 12' 55" N, 142° 10' 45" W; (map 67). Local name obtained by USGS and published on maps since 1954.

Erickson Gulch: ravine, in Nutzotin Mountains, extends W 1.5 miles to Chathenda Creek 5.3 miles E of its junction with Chisana River, Alaska Range; 62° 04' N, 141° 56' W; (map 84). Local name reported by USGS in 1960.

Erickson Gulch: ravine, trends SE 0.6 miles to Glacier Creek, 8 miles NE of Nome, Seward Peninsula Highlands; 64° 36' 58" N, 165° 20' 40" W; (map 94). Variant: Ericson Gulch. Prospectors' name shown on the 1902 "Map of the Nome and Snake River Country" by J. M. Davidson.

Ericson Gulch: ravine, see Erickson Gulch.

Ermine Island: island, 0.4 miles long, 9 miles NE of Port William, on E coast of Shuyak Island, 45 miles N of Kodiak Island; 58° 31' 30" N, 152° 21' 00" W; (map 43). Variant: Gornostai. Translation of the name "Os[trov] Gornastay," published in 1849 by the Russian American Company.

Ermine Lake: lake, 0.6 miles long, on Kenai Peninsula, 1.6 miles NE of Konovalof Lake, 9 miles NE of Kenai, Cook Inlet Lowland; 60° 40' 45" N, 151° 05' 45" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Ermine Point: point of land, on NE shore of Kiliuda Bay, on SE coast of Kodiak Island; 57° 17' 30" N, 152° 52' 40" W; BGN 1930; (map 34). Descriptive name given in 1928 by USC&GS, "because of numerous ermine seen around the base of the cliffs at this point."

Ermoshkinskie: point of land, see Kovrizhka, Cape.

Ernest Point: point of land, S tip of Onslow Island, on N entrance to Ernest Sound, Alexander Archipelago; 55° 51' N, 132° 22' W; (map 4). Local navigators' name reported in 1904 by H. C. Fassett, USBF; derived from Ernest Sound.

Ernest Sound: water passage, extends 30 miles SW, from mouth of Bradfield Canal at 56° 11' N, 132° 18' W, to Clarence Strait, Alexander Archipelago; 55° 48' N, 132° 18' W; (map 4). Variant: Prince Ernest Sound. This feature was explored on August 25, 1793, by James Johnstone, RN, on Capt. George Vancouver's second expedition, and named "Prince Ernest Sound" by Vancouver after one of the sons of King George III (Wagner, 1937, p. 486).

Ernestine Creek: stream, heads in a glacier and flows N and NW 8 miles to join Mosquito Creek to form Tiekel River, 44 miles NE of Valdez, Chugach Mountains; 61° 26' 05" N, 145° 07' 00" W; (map 68). Prospectors' name reported in 1913 by Moffit (1914, pl. 1), USGS.

Ernestine: locality, on Richardson Highway, 0.8 miles N of junction of Mosquito Creek and Ernestine Creek, 44 miles NE of Valdez, Chugach Mountains; 61° 26' 45" N, 145° 06' 30" W; (map 68). Mining camp reported in 1909 by Moffit and Maddren (1909, pl. 1), USGS.

Ernie Creek: stream, flows C 14 miles from Ernie Pass to North Fork Koyukuk River, 28 miles SE of Anaktuvuk Pass and 39 miles NW of Wiseman, Brooks Range; 67° 55' N, 150° 51' W; BGN 1932; (map 124). Named about 1930 by Marshall (1956, p. 7, 8) for "Ernie Johnson of Bettles, the most famous trapper of the North Fork * * *."

Ernie Lake: lake, 1.5 miles long, between Mattenpherg Creek and Iniakuk River, 27 miles S of Sillyasheen Mountain and 76.5 miles W of Wiseman, Brooks Range; 67° 23' 45" N, 153° 00' 00" W; (map 124). Locally named for "Ernie" Johnson who reportedly had a cabin here; name obtained in 1956 by USGS.

Ernie Pass: pass, 3,200 ft., across Arctic divide, diverts headwaters of Anaktuvuk River to N and Ernie Creek to S, W of Limestack Mountain, 21 miles E of Anaktuvuk Pass, Brooks Range; 68° 05' N, 150° 55' W; BGN 1932; (map 134). Named in 1932 by Marshall (1956, p. 16) who wrote, "I could look into the head of Anaktuvuk River, though the pass to it (later named Ernie Pass) [for his companion, Ernie Johnson, a locally well-known prospector] was hidden * * *."

Ernivwing: locality, see Ireniviq.

Eroded Mountain: mountain, 3,236 ft., N of junction of Tinayquk and North Fork Koyukuk Rivers and 29 miles NW of Wiseman, Brooks Range; 67° 37' 30" N, 151° 04' 00" W, (map 124). Name reported in 1939 by Marshall (1956, map).

Erok: locality, see Solomon.

Erratic Creek: stream, flows NW 13 miles from Marshmallow Mountain to Welcome Creek, 7 miles NNE of Shainin Lake and 30 miles NE of Anaktuvuk Pass, Brooks Range; 68° 26' 40" N, 150° 55' 00" W; (map 134). So named in 1950 by A. S. Keller, USGS, "because the valley of the creek is dotted with numerous large glacial erratics."

Error Island: island, 0.2 miles across, in Kutchuma Islands, 3 miles S of Sitka, off W coast of Baranof Island, Alexander Archipelago; 57° 00' 35" N, 135° 19' 10" W; (map 9). Variant: Elgalm Island, Oshibki Islet, Oshinpi Island, Oshipki Island, Ostrov Oshibki, Ship Island, White Island. This is an 1882 translation by USC&GS of the name given in 1809 by the Russian navigator Ivan Vasiliev the first; reported by Lt. Sarichev (1826, map 19), IRN, as "Os[trov] Oshibki."

Erskine Bay: bay, 0.7 miles across, part of Beaver Inlet on E coast of Unalaska Island, Aleutian Islands; 53° 44' 30" N, 166° 34' 30" W; (map 23). Variant: Kikukalen Bay, Kikukali Bay, Kikukalia Bay, Kikukalya Bay. Named for Capt. Melville C. Erskine of the Alaska Commercial Company by USBF in 1888. Lt. Sarichev (1826, map 14), IRN, referred to it as "Zal[iv] Kikukalen," or "Kikukalen Bay." Father Veniaminov (1840, v. 1, p. 162) called it "Kikukalya."

Erskine Mountain: mountain, 2,563 ft., 7.5 miles SW of Kodiak, Kodiak Island; 57° 44' 35" N, 152° 35' 30" W; BGN 1941; (map 36). Named in 1940 by USC&GS for Capt. Melville Cox Erskine, 1835-1909, master of the first American vessel, the Fideleter, owned by the Alaska Commercial Company, to be registered in the new Territory of Alaska in 1867. Capt. Erskine superintended the building of the steamer St. Paul at Philadelphia in 1875. The St. Paul was the first iron ship to sail in the Bering Sea, and it was commanded by Capt. Erskine until 1893 when he was appointed as a San Francisco bar pilot.

Erskine Point: point of land, on NE coast of Unalaska Island, Aleutian Islands; 53° 58' 55" N, 166° 16' 30" W; (map 23). Named by USBF in 1888 for Capt. M. C. Erskine of the Alaska Commercial Company.

Esatkuat Lagoon: estuary, 1.5 miles long, on Chukchi Sea coast, E of Barrow, Arctic Plain; 72° 17' 45" N, 156° 45' 00" W; (map 153). Variant: Esutkwa, Isetkoak, Isutkwa, Village Slough. Eskimo name recorded by Murdoch (1892, p. 27) in 1881 as "Isutkwa." He also stated that an ancient village with the same name was located at the estuary's northwest end.

Escape Cape: point of land, on E shore of Port Krestof, on E coast of Kruzof Island, Alexander Archipelago; 57° 09' 10" N, 135° 34' 40" W; (map 9). Variant: Mys Koloshskoy Strechi. USC&GS derived this name about 1882 from translation of part of "Mys Koloshskoy Strechi," meaning "cape Koloshian-escape"; published by Lt. Sarichev (1826, map 19), IRN;

given in 1809 by the navigator Ivan Vasiliev the first. Kolosh is the Russian name for the Tlingit Indians.

Escape Point: point of land, on W coast of Revillagigedo Island, at S point of entrance to Francis Cove and 2.7 miles N of Indian Point, Alexander Archipelago; 55° 39' N, 131° 43' W; (map 3). Variant: Mys Iskep, Mys Izbavleniya, Point Escape. Named by Capt. Vancouver, RN, "August 12, 1793, because of his escape here from the Indians" (Wagner, 1937, p. 386); Capt. Tebenkov (1852, map 9) published the name "Mys Izbavleniya," meaning "rescue cape."

Esch Creek: stream, in York Mountains, flows SE 3 miles to Lost River which flows to Bering Sea, 28 miles NW of Teller, Seward Peninsula Highlands; 65° 28' N, 167° 11' W; BGN 1948; (map 111). Variant: West Creek. Named in 1940 by J. B. Mertie, Jr. "after Peter Esch, deceased, a former prospector and assayer of this area." Shown as "West Creek" on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Eschholtz Bay: bay, see Eschscholtz Bay.

Escholtz Bay: bay, see Eschscholtz Bay.

Eschscholtz Bay: bay, 11 miles across, arm of Kotzebue Sound, 45 miles SW of Selawik Kotzebue-Kobuk Lowland; 66° 20' N, 161° 30' W, BGN Sixth Report; (map 114). Variant: Escholtz Bay, Eschholtz Bay. Named in 1816 by Lt. Otto von Kotzebue, IRN, for his ship's physician, Dr. Frederick Eschscholtz.

Escures, Mount: mountain, 4,377 ft., in Glacier Bay National Monument, 9 miles E of Cape Fairweather and 95 miles NW of Hoonah, St. Elias Mountains; 58° 46' 55" N, 137° 42' 00" W; (map 10). Name reported by USFS in 1946.

Escurial Island: island, 0.3 miles long, one of the Maurelle Islands, 15 miles NW of Craig, Alexander Archipelago; 55° 36' 30" N, 133° 35' 20" W; (map 4). Escurial [Escorial] is a palace near Madrid, Spain, built in 1563-84. Name was published in 1925 Coast Pilot (p. 187).

Esetuk Creek: stream, in Romanzof Mountains, heads at Esetuk Glacier 3 miles NW of Mount Michelson, flows N 8 miles to the Hulahula River, Brooks Range; 69° 26' N, 144° 27' W; BGN 1961; (map 139). Named for an Eskimo man who died on this stream. It was obtained at Barter Island by USGS and reported in 1960 by C. L. Whittington.

Esetuk Glacier: glacier, in Romanzof Mountains, at head of Esetuk Creek, between Tugak Peak and Mount Michelson, Brooks Range; 69° 18' N, 144° 20' W; (map 139). Probably named in 1948 or 1958 by USGS for the stream that heads at its foot.

Eshamey Bay: bay, see Eshamy Bay.

Eshamy Bay: bay, on E coast of Kenai Peninsula, extends NE 2.5 miles to Knight Island Passage, 14 miles NE of Chenega, Chugach Mountains; 60° 28' 30" N, 147° 58' 30" W; BGN 1942; (map 63). Variant: Eshamey Bay. Local name published in 1906 by USGS. The name signifies "good fishing grounds among the natives."

Eshamy Creek: stream, on Kenai Peninsula, heads at Eshamy Lake, flows E 0.3 miles to Eshamy Lagoon, 12 miles N of Chenega, Chugach Mountains; 60° 27' 15" N, 148° 05' 45" W, BGN 1942; (map 63). Variant: Chenega Creek, Cheniga Creek. Local name adopted in 1942 by USGS; derived from nearby Eshamy Bay.

Eshamy Lagoon: estuary, on E coast of Kenai Peninsula, extends E 3 miles from mouth of Eshamy Creek to head of Eshamy Bay, 13 miles NE of Chenega, Chugach Mountains; 60° 27' 40" N, 148° 00' 30" W; BGN 1942; (map 63). Local name published in 1919 by USC&GS; derived from Eshamy Bay.

Eshamy Lake: lake, on E side of Kenai Peninsula 5 miles long, 9 miles N of Chenega, Chugach Mountains, 60° 26' 30" N, 148° 06' 30" W; BGN 1942; (map 63). Variant: Chenega Lake, Cheniga Lake. Local name published in 1935 by USC&GS; derived from nearby Eshamy Bay.

Eshamy Peak: peak, 2,978 ft., on E side of Kenai Peninsula, 1.5 miles N of Eshamy Lagoon, 14 miles N of Chenega, Chugach Mountains; 60° 28' 55" N, 148° 04' 30" W; BGN 1929; (map 63). Variant: Nowel Peak. Named in 1929 by USC&GS.

Eska Creek: stream, heads at a glacier on Eska Mountain, flows S 8.7 miles to Matanuska River, 9.5 miles NE of Palmer, Cook Inlet Lowland; 61° 42' 15" N, 148° 55' 00" W; (map 69). Local name reported in 1905 by G. C. Martin (in Brooks and others, 1906, fig. 5), USGS.

Eska Mountain: mountain, 5,680 ft., SW of Granite Peak, 14 miles NE of Palmer, Talkeetna Mountains; 61° 47' N, 148° 57' W; BGN 1946; (map 69). Local name reported in 1945 by USGS; derived from Eska Creek.

Eska Peak: mountain, see Granite Peak.

Eska: village, pop. 53, on Eska Creek, 12 miles NE of Palmer, Cook Inlet Lowland; 61° 44' 15" N, 148° 54' 20" W; (map 69). Name of a mining community and railroad station on a branch of The Alaska Railroad. A post office was established here in 1917, discontinued in 1922, but reinstated in 1943 (Ricks, 1965, p. 19).

Esker Stream: stream, heads in Atrevida Glacier 0.5 miles W of Amphitheater Knob, flows S and SE 4.5 miles to Yakutat Bay, 4.6 miles SW of Bancas Point and 25 miles N of Yakutat, St. Elias Mountains; 59° 54' 35" N, 139° 43' 55" W; (map 46). Named by Russell (1892, pl. 4), USGS. An esker is a serpentine ridge of sand and gravel deposited by a stream in association with glacier ice.

Eskimo Creek: stream, flows NW to Anikovik River, about 15 miles E of Cape Prince of Wales, Seward Peninsula Highlands; (map 111). Prospectors' name shown on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This feature cannot be precisely identified on current maps.

Eskimo Creek: stream, flows NW to Granite Creek which flows to Kuzitrin River, about 20 miles NE of Mount Bendeleben, Seward Peninsula Highlands; (map 110). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This stream cannot be precisely located on current maps.

Eskimo Creek: stream, flows SW 26 miles to Sheenjek River, 22 miles SE of Table Mountain, Brooks Range; 68° 05' N, 143° 09' W; (map 137). Local name reported in 1956 by USGS.

Eskimo Creek: stream, heads in lake, flows SW through King Salmon, 7 miles to Naknek River on Alaska Peninsula, 13 miles SE of Naknek, Bristol Bay Lowland; 58° 41' 00" N, 156° 40' 30" W; (map 41). Local name reported in 1952 by USGS.

Eskimo Hill: mountain, 1,110 ft., at junction of Carbon Creek and Utukok River, 87 miles S of Wainwright, Arctic Slope; 69° 22' N, 159° 46' W; (map 144). Named in 1924 by W. T. Foran (in Chapman and Sable, 1960, p. 53), USGS.

Eskimo Island: islands, see Eskimo Islands.

Eskimo Islands: islands, each 2 miles long, in Harrison Bay, at mouth of Kogru River, Arctic Plain; 70° 34' 30" N, 151° 55' 00" W; BGN 1961; (map 149). Variant: Eskimo Island, Esquimaux Island, Saktuina Islands. On August 7, 1837, P. W. Dease and Simpson (Simpson, Thomas, 1843, p. 170) named one of the islands "Esquimaux Island" because, "On landing upon it, we found numerous vestiges of Esquimaux, * * *." Comdr. Rochfort Maguire's map (Great Britain, 1854, facing p. 186) shows "Saktuina Island," a name that is now applied to the mainland point west of the islands. Leffingwell (1919, p. 95) is responsible for the present plural form and application to a place "near the place where Dease and Simpson put the name."

Eskims Creek: stream, flows W to Sinuk River, about 31 miles NW of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Esmeralda Mountain: mountain, 1,970 ft., on W coast of Baker Island, Alexander Archipelago; 52° 20' 28" N, 133° 37' 45" W; BGN 1923; (map 4). Spanish word meaning "emerald," given in 1923 by USC&GS because this feature is "conspicuous, and vividly green in summer."

Esogemunga: ravine, 0.5 miles long, SE of Fox Castle, talus slide on W coast of Saint George Island, in Pribilof Islands; 56° 36' N, 169° 45' W; (map 38). This is an Aleut name meaning "hair seal trail"; reported by Putnam (1903, p. 1014), USC&GS. He said "Hair seals are found on the rocks west of the base of this slide, and the natives can pass up and down here when hunting them."

Esook Trading Post: locality, on coast of Beaufort Sea, 11 miles NW of Cape Halkett, Arctic Plain; 70° 53' 10" N, 152° 36' 15" W; (map 149). This place has been abandoned for many years.

Esook: locality, see Ikpek.

Espada, Point: point of land, W tip of San Clemente Island, in Portillo Channel, between Lulu and San Fernando Islands, Alexander Archipelago; 55° 28' 25" N, 133° 24' 45" W; (map 4).

Variant: Punta del Espada, Sword Point. Spanish name given in 1779 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as “Punta del Espada,” meaning “sword point.”

Espada, Punta de: point of land, see Horn, Point.

Espada, Punta del: point of land, see Espada, Point.

Espagnols, Iles des: islands, see Spanish Islands.

Espanol, Cabo: point of land, see Saint Elias.

Espanol, Cabo: point of land. “The name must have been given to the present Cape Hinchinbrook by Salvador Fidalgo when he entered Prince William Sound May 24, 1790. He says he located it in $60^{\circ} 15' 1/2''$, nearly the latitude of Cape Hinchinbrook. Nevertheless on [Capt. Alessandro] Malaspina's map we find the name attached to the point now called St. Elias in $59^{\circ} 50'$ at the south end of Kayak Island and he refers to it as in $59^{\circ} 59''$ ” (Wagner, 1937, p. 451)

Espanol, Punta de: point of land, see Hinchinbrook, Cape.

Espanol, Punta: point of land, see Saint Elias, Cape.

Espenberg Cape: point of land, on Seward Peninsula, extends into Kotzebue Sound, 42 miles NW of Deering, Kotzebue-Kobuk Lowland; $66^{\circ} 33' N$, $163^{\circ} 36' W$; BGN 1944; (map 113). Variant: Cape Espenburg, Cape Spanberg. Named in 1816 by Lt. Otto von Kotzebue for Dr. Karl Espenberg, a surgeon who accompanied Adm. A. J. von Krusenstern on his voyage around the world in 1803-06.

Espenberg River: stream, on Seward Peninsula, flows NE 21 miles to Chukchi Sea, 50 miles NW of Deering, Kotzebue-Kobuk Lowland; $66^{\circ} 36' N$, $163^{\circ} 58' W$; (map 113). Local name reported in 1901 by A. J. Collier and T. G. Gardine, USGS. Name derived from the nearby point of land.

Espenberg: locality, on Seward Peninsula, at mouth of Espenberg River, on Chukchi Sea, 50 miles NW of Deering, Kotzebue-Kobuk Lowland; $66^{\circ} 36' N$, $163^{\circ} 58' W$; (map 113). Variant: Toatut. Former Eskimo settlement named for a nearby cape; reported in 1950 by USGS. Lt. Jarvis (1899, p. 60), USRCS, mentioned a village of “Toatut” consisting of 2 huts and 20 people.

Espenburg, Cape: point of land, see Espenberg, Cape.

Esperanto Creek: stream, flows NW 4.7 miles to Madison Creek, 5 miles N of Madison Mountain and 23 miles NW of Ophir, Kilbuck-Kuskokwim Mountains; $63^{\circ} 27' N$, $156^{\circ} 50' W$; (map 90). Local name reported in 1917 by G. L. Harrington, USGS.

Esperanza Creek: stream, flows NW 8.5 miles to Goodhope River, 22 miles NW of Imuruk Lake, Seward Peninsula Highlands; $65^{\circ} 48' N$, $163^{\circ} 51' W$; BGN 1952; (map 110). Prospectors' name reported in 1901 by USGS (Collier, 1902, pl. 12).

Esperanza, Punta de la: point of land, see Latouche Point.

Esquibel Bay: bay, see Esquibel, Gulf of.

Esquibel Island: island, 2.5 miles long, in Maurelle Islands, Alexander Archipelago; 55° 38' N, 133° 35' W; BGN 1917; (map 4). Variant: Eel Island. Named in 1916 by USC&GS; derived from Gulf of Esquibel. See Wagner (1937, p. 386).

Esquibel, Bahia de: bay, see Esquibel, Gulf of.

Esquibel, Gulf of: bay, 15 miles long, between Prince of Wales Island and Maurelle Islands, Alexander Archipelago; 55° 38' N, 133° 30' W; (map 4). Variant: Bahia de Esquibel, Esquibel Bay, Gulf of Esquibel Boca Fina, Gulf of Esquible. Named "Bahia de Esquibel," or "Esquibel Bay" by Francisco Antonio Maurelle "about May 22, 1779, in honor of Mariano Nunez de Esquivel, the surgeon of the ship La Favorita" (Wagner, 1937, p. 386).

Esquible, Gulf of: bay, see Esquibel, Gulf of.

Esquimaux Island: islands, see Eskimo Islands.

Ess Lake: lake, 0.6 miles long, 4 miles SE of Point Agassiz Peninsula and 13 miles NE of Petersburg, Coast Mountains; 56° 57' 30" N, 132° 44' 55" W; (map 6). Local descriptive name reported in 1961 by USGS.

Essawa Harbor: lagoon, see Essowah Harbor.

Essawa Lakes: lakes, see Essowah Lakes.

Essie Creek: stream, flows NW 10 miles to Charley River 30 miles SW of that stream's junction with Yukon River, Yukon-Tanana Highlands; 65° 01' 45" N, 143° 20' 30" W; (map 103). Prospectors' name; from an unpublished map by E. J. Chamberlain, dated 1902.

Essowah Harbor: estuary, 1 mile long, between Essowah Lakes and Pacific Ocean, on SW coast of Dall Island, 12 miles NW of Cape Muzon, Alexander Archipelago; 54° 46' 45" N, 132° 53' 15" W; (map 1). Variant: Essawa Harbor. Indian name reported in 1897 by Lt. Comdr. J. F. Moser, USN, who spelled it "Essawa."

Essowah Lakes: lakes, on SW side of Dall Island, 12 miles NW of Cape Muzon, Alexander Archipelago; 54° 47' N, 132° 52' W; (map 1). Variant: Essawa Lakes. Indian name reported in 1897 as "Essawa" by Lt. Comdr. J. F. Moser, USN.

Essowah Point: point of land, S point of entrance to Essowah Harbor, on SW coast of Dall Island, Alexander Archipelago; 54° 46' 20" N, 132° 54' 15" W; BGN Sixth Report; (map 1). Name derived from Essowah Harbor; given by Capt. R. S. Patton, USC&GS, in 1928.

Estelle, Mount: mountain, 6,575 ft., between Skwentna and Styx Rivers, 4 miles S of Mount Stoney and 80 miles NW of Tyonek, Alaska Range; 61° 51' 10" N, 152° 55' 15" W; (map 70). Named in 1898 by W. S. Post (in Spurr, 1900, map 6), USGS.

Ester City: village, see Ester.

Ester Creek: stream, flows E 5.3 miles to Cripple Creek, 6.5 miles W of Fairbanks, Yukon-Tanana Highlands; 64° 50' 25" N, 147° 57' 20" W; (map 100). Variant: Esther Creek. Named by prospectors and shown on a manuscript map of the Fairbanks Mining District by C. W. Joint in 1905 as "Esther Creek." By 1907 the present form had become established and was published in 1908 by USGS.

Ester Creek: stream, flows SW 2 miles to Dollar Creek 1.5 miles SE of its junction with Beaver Creek, 8 miles SW of Ophir and 31 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 01' 50" N, 156° 37' 15" W; (map 90). Prospectors' name reported in 1912 by H. M. Eakin, USGS.

Ester Creek: stream, flows SW 2.5 miles to Tolovana River, 3 miles SE of Livengood, Yukon-Tanana Highlands; 65° 28' 30" N, 148° 30' 00" W; (map 105). Named by prospectors; reported in 1915 by USGS (Brooks and others, 1916, pl. 9). The name is probably derived from Ester Creek near Fairbanks.

Ester Dome: mountain, 2,350 ft., 9.5 miles NW of Fairbanks, Yukon-Tanana Highlands; 64° 52' 50" N, 148° 03' 05" W; (map 100). Local name derived from Ester Creek. The mountain is on the northern limit of the creek drainage basin. The name was reported in 1912 by P. S. Smith (in Prindle, 1913a, fig. 20), USGS.

Ester Siding: railroad station, see Ester Station.

Ester Station: railroad station, mile 465.6 on The Alaska Railroad, 4.6 miles NW of Fairbanks, Yukon-Tanana Highlands; 64° 51' 45" N, 147° 52' 20" W; (map 100). Variant: Ester Siding, Esther. Name derived from the Ester mining camp, which the station served. The name was published in a timetable in 1922. Ester Siding was published in 1908 by USGS.

Ester: village, pop. 81, 2.5 miles SE of Ester Dome and 8.5 miles W of Fairbanks, Yukon-Tanana Highlands; 64° 50' 50" N, 148° 01' 00" W; BGN 1965; (map 100). Variant: Berry, Ester City, Esther, Discovery. Mining camp name derived from Ester Creek and reported in 1908 by USGS. According to Kitchener (1954, p. 297), the mining camp existed before 1905. The Berry post office was located here for a while; name changed to Ester post office in 1965. See Berry.

Esteriles, Islas: islands, see Barren Islands.

Esther Bay: estuary, on SE coast of Esther Island, extends S 2.5 miles to Wells Passage, 24 miles E of Whittier, Chugach Mountains; 60° 48' 00" N, 147° 58' 30" W; (map 63). Local name reported in 1952 by USGS.

Esther Creek: stream, see Ester Creek.

Esther Island Passage: water passage, see Esther Passage.

Esther Island: island, 0.1 miles across, at S end of Lisianski Strait, 18 miles NW of Chichagof on W coast of Chichagof Island, Alexander Archipelago; 57° 50' 45" N, 136° 26' 00" W; (map 9). Name published by USC&GS in the 1925 Coast Pilot (p. 324).

Esther Island: island, 1 mile long, between Flora Island and the main channel of Yukon River 5 miles S of Russian Mission, Yukon-Kuskokwim Delta; 61° 43' N, 161° 19' W; (map 73). Riverboat pilots' name shown on a 1940 navigation chart of the Yukon River.

Esther Island: island, 12 miles long, off NE coast of Kenai Peninsula, 20 miles NE of Whittier, Chugach Mountains, 60° 52' N, 148° 01' W; (map 63). Named in 1794 by Capt. George Vancouver, RN. The name is shown on Vancouver's chart but is not mentioned in the text (Wagner, 1937, p. 387).

Esther Lagoon: lagoon, 0.2 miles across, in Bluefox Bay, on N coast of Afognak Island, Kodiak Island; 58° 25' 40" N, 152° 40' 00" W; (map 43). Name published by USC&GS in 1928 on Chart 8573.

Esther Lake: lake, on S side of Esther Island, trends N-S 4 miles, 22 miles NE of Whittier, Chugach Mountains; 60° 50' N, 148° 05' W; (map 63). Name published in 1952 on USGS map; derived from name of island.

Esther Passage: water passage, extends SE 1 mile from Port Wells to NE end of Wells Passage, between Esther Island and S coast of Alaska, 27 miles NE of Whittier, Chugach Mountains; 60° 53' N, 147° 56' W; (map 63). Variant: Esther Island Passage. Local name reported by U.S. Grant (1908, pl. 4), USGS; derived from Esther Island.

Esther Rock: rock, off SW coast of Esther Island, in SE end of Port Wells, 18 miles E of Whittier, Chugach Mountains; 60° 48' 05" N, 148° 10' 40" W; BGN 1914; (map 64). Local name reported in 1914 by USC&GS; derived from nearby Esther Island.

Esther, Point: point of land, on SW coast of Esther Island, at junction of Port Wells and Wells Passage, 19 miles E of Whittier, Chugach Mountains; 60° 47' 45" N, 148° 08' 30" W; BGN 1914; (map 63). Local name reported in 1914 by USC&GS derived from the name of the island.

Esther: railroad station, see Ester Station.

Esther: village, see Ester.

Estrella, Port: estuary, extends E 2 miles, off Bucareli Bay, at N entrance to Ulloa Channel, on W coast of Prince of Wales Island, Alexander Archipelago; 55° 21' 30" N, 133° 16' 30" W; (map 4). Variant: Puerto de Estrella, Puerto de la Estrella, Zaliv de la Yestrellya. Named "Puerto de Estrella," or "port of the star," on June 3, 1779, by Francisco Antonio Maurelle (Wagner, 1937, p. 387). The "star" referred to is probably the North Star.

Estrella, Puerto de: estuary, see Estrella Port.

Estremadura, Ensenada de: bay, in the vicinity of Icy Cape. Shown on a 1791 map by Capt. Alessandro Malaspina.

Estu-y-a-rok: stream, see Kakhtul River.

Estu-y-a-rok: stream, see Stuyarok River.

Estu-y-a-rok: stream, see Swan River.

Estuanto, Isla: island, on Don Juan de la Bodega y Quadra's map of 1791 either for Shuyak Island or a small one to the north of it. On his 1792 map it appears as a "cabo." See Wagner (1937, p. 452). Variant: Isla Estuardo.

Estuardo, Isla: island, see Estuanto, Isla.

Estus Point: point of land, in Hagemeister Strait, 5 miles SE of Virgo Mountain and 8 miles NW of Hagemeister Island, Kilbuck-Kuskokwim Mountains; 58° 47' N, 161° 12' W; (map 39). Local name reported in 1948 by USAAF.

Esuktak River: stream, see Usuktuk River.

Esukteo River: stream, see Usuktuk River.

Esuktu River: stream, see Usuktuk River.

Esuktuk River: stream, see Usuktuk River.

Esutkwa: estuary, see Esatkuat Lagoon.

Etchepuk River: stream, heads on NW side of Mount Kachauik, flows NW 20 miles to Fish River, 32 miles N of Golovin, Seward Peninsula Highlands; 64° 58' 30" N, 163° 06' 00" W; BGN 1910; (map 95). Eskimo name reported in 1910 by USGS.

Etchepuk River: stream, see Cliff Creek.

Etches Creek: stream, on Hinchinbrook Island, flows N 2 miles to Port Etches, 33 miles SW of Cordova, Chugach Mountains; 60° 19' N, 146° 34' W; (map 64). Name published in 1950 by USGS; derived from Port Etches to which the stream flows.

Etches, Port: bay, 10 miles long, on SW coast of Hinchinbrook Island, 30 miles SW of Cordova, Chugach Mountains; 60° 20' N, 146° 37' W; (map 64). Variant: Noocheck, Nooscha, Nuchek, Nutschek, Port Rose, Puerto de Santiago. Named by Capt. Portlock (1789, p. 244) in July 1787, presumably for John Cadman Etches, who with "other traders entered into a commercial partnership, under the title of The King George's Sound Company, for carrying a fur trade from the western coast of America to China (1789, p. 4)." Baker (1906, p. 246), USGS, stated that the port was named for "John and Camden Etches and Co., of London, early fur traders of the Northwest coast." Capt. George Dixon, RN, who accompanied Portlock on the voyage, called it "Port Rose." The Russians adopted the Indian name "Nuchek" for this feature, referring to it as "Zaliv Nuchek" on their Hydrog. Dept. Chart 1378, dated 1847. The bay was named "Puerto de Santiago," July 23, 1779, by Don Ignacio Arteaga as a novena was prepared to celebrate the saint's day on July 25.

Ethel Cove: cove, 0.5 miles across, on NW shore of Gertrude Cove, S coast of Kiska Island, Aleutian Islands; 51° 56' 10" N, 177° 26' 00" E; (map 14). One of many arbitrary names applied to features on Kiska Island by USAAF for tactical purposes during World War II.

Etholin, Point: point of land, see Etolin Point.

Etholine Harbor: harbor, see Wrangell Harbor.

Etienne Bay: bay, on SW coast of Attu Island, extends E 5.5 miles from Etienne Head, Aleutian Islands; 52° 54' N, 172° 35' E; BGN 1938; (map 13). Variant: Portage Bay. Name was proposed in 1938 by U.S. Navy Hydrog. Office; shown as Portage Bay on a manuscript map by L. M. Turner in the 1880's. "Saint Etienne" was possibly a former name for Attu Island (Baker, 1906, p. 108).

Etienne Head: point of land, on SW coast of Attu Island, W point of entrance to Etienne Bay, Aleutian Islands; 52° 54' 25" N, 172° 32' 00" E, BGN 1938; (map 13). Variant: Muchoo Point. Name derived from Etienne Bay; proposed in 1938 by U.S. Navy Hydrog. Office. Shown as "Muchoo Point" on a manuscript map by L. M. Turner in the 1880's.

Etienne Lake: lake, 0.8 miles long, on W coast of Attu Island, ENE of Etienne Bay, Aleutian Islands; 52° 55' 45" N, 172° 40' 00" E; (map 13). Name derived from Etienne Bay; published in 1948 by AMS.

Etienne Pass: pass, 800 ft., on Attu Island, 3 miles ENE of Etienne Bay, Aleutian Islands; 52° 56' 30" N, 172° 42' 30" E; (map 13). Name derived from Etienne Bay, published in 1948 by AMS.

Etigonik Mountain: hill, 1,909 ft., extends E-W 9 miles along right bank of Colville River, NE of Liberator Lake, Arctic Slope; 68° 55' N, 158° 00' W; (map 132). Eskimo name obtained at Anaktuvuk Pass by T. E. Taylor, USGS, in 1956 and reported to mean "to smell of [fox] urine."

Etikamiut: locality, on E coast of Cape Mendenhall, 2.5 miles NW of Irwakyaruk Point, Nunivak Island; 59° 48' 30" N, 166° 07' 00" W; (map 55). Eskimo summer and winter camp reported in 1932 by USC&GS.

Etivlik Lake: lake, 2 miles across, in Brooks Range, 21 miles ESE of Howard Pass; 68° 07' 30" N, 156° 04' 00" W; BGN 1960; (map 132). Variant: Etivluk Lake, Itivlik Lake, Nigu Lake, Titarlilik Lake. Eskimo name published as "Itivlik" by Irving (1954, p. 204). It probably has the same word derivation as the nearby Etivluk River.

Etivluk Lake: lake, see Etivilik Lake.

Etivluk River: stream, heads in Nigtun Lake at Howard Pass in Howard Hills, flows NE 56 miles to Colville River 13 miles E of its junction with Ipnarik River, Brooks Range; 68° 57' N, 155° 57' W; (map 133). Eskimo name obtained by Ens. W. L. Howard, USN, on April 21, 1886, on his expedition from Fort Cosmos on the Kobuk River to Point Barrow (Stoney, 1900, p. 68). Lt. Stoney (p. 39) also appears to have been on this stream in December, 1885, but he

did not give it a name. The name is spelled “E-tiv-lik” on a manuscript map done by an Eskimo about 1890.

Etivolipar Creek: stream, see Kutchaurak Creek.

Etohlugamiut: locality, see Etoluk.

Etokek Slough: stream, flows NE 5.4 miles to Apoon Pass, 27 miles NE of Kwiguk, Yukon-Kuskokwim Delta 62° 59' 40" N, 163° 48' 00" W; (map 77). Variant: Chopeluk Slough, Etokok Slough. Eskimo name obtained in 1952 by U.S. Army Corps of Engineers.

Etokok Slough: stream, see Etokek Slough.

Etolin Bay: bay, 25 miles SW of Cape Vancouver, off E coast of Cape Etolin, on Nunivak Island; 60° 26' N, 166° 08' W; (map 57). Name reported about 1908 by USC&GS.

Etolin Island: island, extends NW-SE 32 miles, separated from Prince of Wales Island on W by Clarence Strait, 9 miles S of Wrangell, Alexander Archipelago; 56° 06' N, 132° 21' W; (map 6). Named by USC&GS for charting purposes; name published in 1925 Coast Pilot (p. 120).

Etolin Point: locality, on E shore of Nushagak Bay, 27 miles SE of Dillingham, Bristol Bay Lowland; 58° 40' 05" N, 158° 19' 45" W; (map 40). Eskimo settlement or camp reported in 1936 by USGS.

Etolin Point: point of land, between Kvickak and Nushagak Bays, 30 miles SE of Dillingham, Bristol Bay Lowland; 58° 37' N, 158° 15' W; (map 40). Variant: Cap Etoline, Mys Etolin, Mys Etolina, Mys Bristolskiy, Point Etholin, Bristol Cape. Name reported in 1828 by Capt. Lutke (1836, map 14), IRN, as “M[ys] Etolin” and “C[ap] Etoline”; named for Capt. Adolph Karlovich Etolin, governor of the Russian-American colonies from 1841 to 1845, who explored this region in 1821.

Etolin Strait: water passage, 50 miles long, near E shore of Bering Sea, between Nunivak Island and Yukon-Kuskokwim Delta; 60° 00' N, 165° 00' W; (map 57). Variant: Cook Strait. Discovered in 1821 by Capt. A. K. Etolin, later governor of the Russian American colonies, who named it “Cook Strait” for Capt. James Cook, RN. Adm. A. J. von Krusenstern, RN, later proposed that it be named for its discoverer.

Etolin, Cape: point of land, 25 miles SW of Cape Vancouver, extends into Bering Sea, off N coast of Nunivak Island; 60° 26' N, 166° 09' W; (map 57). Variant: Khromchenko, Cape. Named “M[ys] Etolina” by the Russians for Capt. Adolph Karlovich Etolin, governor of the Russian American colonies, 1841-45, who with Khromchenko, explored this area in 1821.

Etolin, Mount: mountain, 3,705 ft., on Etolin Island, 2.5 miles W of Canoe Passage and 32 miles S of Wrangell, Alexander Archipelago; 56° 02' 15" N, 132° 16' 45" W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow USN, for Capt. Adolph Karlovich Etolin, governor of the Russian American colonies in 1841-45.

Etolin, Mys: point of land, see Etolin Point.

Etolina, Gavan: harbor, see Wrangell Harbor.

Etolina, Gavan: harbor, see Wrangell Harbor.

Etolina, Mys: point of land, see Etolin Point.

Etoline, Cap: point of land, see Etolin Point.

Etoluk: locality, "in the Kuskokwim district." Variant: Etohlugamiut. Former Eskimo camp or settlement listed as "Etohlugamiut" with a population of 25 in the 1890 Census.

Etpinado Cape: point of land, see Empinado, Cape.

Etta Creek: stream, flows SW 1.2 miles to East Fork Solomon River, 13 miles NE of Solomon, Seward Peninsula Highlands; 64° 42' N, 164° 10' W; (map 95) Prospectors' name reported on a 1902 prospector's manuscript map.

Ettrain Creek: stream, heads in Canada at 65° 17' N, 140° 42' W, flows NW 26 miles to Nation River, 48 miles N of Eagle, Porcupine Plateau; 65° 27' 50" N, 141° 16' 10" W; BGN 1912; (map 103). Named in 1910 by the IBC survey and reported by Thomas Riggs, of the survey, to be an Indian word meaning "mosquito."

Euchalon Point: point of land, see Hooligan Point.

Euchre Mountain: mountain, 6,862 ft., near terminus of Chisana Glacier, 68 miles SW of Northway Junction, Wrangell Mountains; 62° 03' N, 142° 11' W; (map 84). Named in 1899 by A. H. Brooks, USGS, for a favorite horse used on his field trip.

Eudocia Islands: islands, see Semidi Islands.

Eudokievskie Islands: islands, see Semidi Islands.

Eudora Mountain: mountain, 3,515 ft., on Prince of Wales Island between Cholmondeley and Moira Sounds, Alexander Archipelago; 55° 07' 40" N, 132° 14' 50" W; (map 4). Variant: Endora Mountain. Named in 1886 by Lt. Comdr. R. Clover, USN. This name was erroneously published as "Endora" in the 1891 Coast Pilot (p. 87).

Eudoxia Islands: islands, see Semidi Islands.

Eugenia, Point: point of land, on NW coast of San Juan Bautista Island, Alexander Archipelago; 55° 26' 45" N, 133° 17' 25" W; (map 4). Variant: Punta de Eugenia, Punta San Eugenio. Spanish name given in 1779 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Punta San Eugenio," meaning "Point Saint Eugene."

Eugenia, Punta de: point of land, see Eugenia, Point.

Eulachon Slough: channel, see Hooligan Slough.

Eureka Bight: cove, 2.2 miles across, on E coast of Tanaga Island, Aleutian Islands; 51° 43' 45" N, 177° 49' 30" W; (map 17). Name published by USC&GS in 1956 on Chart 9145.

Eureka Channel: water passage, 4 miles long, between Barrier Islands and SW coast of Prince of Wales Island, Alexander Archipelago; 54° 47' N, 132° 23' W; BGN 1908; (map 1). Variant: Eureka Pass. Local name reported in 1908 as "Eureka Pass" by USC&GS; BGN changed the generic to "Channel."

Eureka Creek: ravine, see Eureka Gulch.

Eureka Creek: stream, flows E 1 mile to O'Connor Creek, 9 miles NW of Fairbanks, Yukon-Tanana Highlands; 64° 57' 25" N, 147° 52' 55" W; (map 100). Name applied by prospectors; published in 1908 by USGS.

Eureka Creek: stream, flows N to Humboldt Creek which flows to Goodhope River, about 37 miles NW of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name reported in 1901 by USGS (Collier, 1902, pl. 12). This stream cannot be identified on current maps.

Eureka Creek: stream, flows NE 1 mile to Canyon Creek which flows to Casadepaga River, 21 miles NE of Solomon, Seward Peninsula Highlands; 64° 51' N, 164° 21' W; (map 95). Prospectors' name reported in 1905 by T. G. Gerdine, USGS.

Eureka Creek: stream, flows NE 1.2 miles to Elkhorn Creek which flows to Niukluk River, 28 miles NE of Solomon, Seward Peninsula Highlands; 64° 55' N, 164° 00' W; (map 95). Prospectors' name published in 1956 by USGS.

Eureka Creek: stream, flows NE 4 miles to Dominion Creek, 77 miles NE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 59' N, 159° 32' W; (map 59). Prospectors' name reported in 1914 by A. G. Maddren (in Brooks, 1915, pl. 11), USGS.

Eureka Creek: stream, flows NE 7 miles to Agiapuk River, 17 miles E of Teller, Seward Peninsula Highlands; 65° 15' N, 165° 46' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Eureka Creek: stream, flows NW 0.8 miles through Eureka Gulch to Inmachuk River 1.1 miles SW of its junction with Hannum Creek, 17 miles N of Imuruk Lake, Seward Peninsula Highlands; 65° 52' N, 163° 11' W; (map 110). Prospectors' name reported in 1903 by D. C. Witherspoon (in Moffit, 1905, pl. 2), USGS.

Eureka Creek: stream, flows NW 1 mile to Baituk Creek which flows to Bering Sea, 11 miles E of Cape Prince of Wales and 44 miles NW of Teller, Seward Peninsula Highlands; 65° 33' N, 167° 43' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Eureka Creek: stream, flows NW 1 mile to Candle Creek, 11 miles SW of Candle and 34 miles NE of Imuruk Lake, Seward Peninsula Highlands; 65° 46' 00" N, 162° 06' 30" W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Eureka Creek: stream, flows NW 13 miles to Little Melozitna River, 19 miles N of Birches, Kokrines-Hodzana Highlands; 65° 24' 30" N, 153° 28' 20" W; (map 107). Prospectors' name reported in 1908 by Maddren (1910, pl. 5), USGS.

Eureka Creek: stream, flows SE 1.2 miles to Bonanza River, 10 miles NW of Solomon, Seward Peninsula Highlands; 64° 39' N, 164° 43' W; (map 95). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Eureka Creek: stream, flows SW 12 miles to Baker Creek at Overland Bluff, 53 miles ESE of Tanana, Yukon-Tanana Highlands; 65° 05' 30" N, 150° 17' 00" W; (map 106). Prospectors' name shown on a manuscript map by Gibbs and Patterson (cna), dated 1902. Gold was discovered here in February 1899.

Eureka Creek: stream, flows SW 3 miles to North Fork Kougarok River, 4 miles SW of Harris Dome and 43 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 36' N, 164° 42' W; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Eureka Creek: stream, flows SW 3 miles to Skookum River which flows to Klokerblok River, 19 miles NE of Solomon, Seward Peninsula Highlands; 64° 41' N, 163° 52' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Eureka Creek: stream, flows W 0.5 miles to Solomon River, 0.3 miles S of Rock Creek and 3.3 miles NE of Solomon, Seward Peninsula Highlands; 64° 36' 15" N, 164° 22' 45" W; (map 95). Variant: Chambers. Prospectors' name reported in 1905 by T. G. Gerdine, USGS. This appears to be the stream indicated as "Chambers" on a prospector's manuscript map dated 1902.

Eureka Creek: stream, flows W 12 miles to Yukon River 28 miles NW of its junction with Charley River, Porcupine Plateau; 65° 26' 15" N, 143° 34' 00" W; (map 103). Variant: Thirtymile River. Name used by prospectors and reported in 1915 by USGS.

Eureka Creek: stream, heads at glacier terminus, flows E 18 miles to Delta River, 18 miles NW of Paxson, Alaska Range; 63° 15' 20" N, 145° 48' 00" W; (map 86). Variant: Canyon Creek. Prospector's name reported on 1910 fieldsheet by C. E. Giffin, USGS.

Eureka Creek: stream, heads in lake, flows 17 miles SW through Lake Leila and NE through Tahnetta Lake to Nelchina River, 49 miles SE of Glennallen, Copper River Basin; 61° 54' 35" N, 147° 00' 20" W; BGN 1960; (map 69). Local name published in 1951 by USGS.

Eureka Creek: stream, in Kantishna Hills, flows SW 4 miles to Moose Creek, S of Quigley Ridge, 3 miles NNW of Wonder Lake, Alaska Range; 63° 31' 40" N, 150° 57' 40" W; (map 88). Name shown on a 1905 manuscript map of "Kantishna Gold Fields" by A. Friedrich, prospector.

Eureka Creek: stream, see Yuonglik River.

Eureka Dome: mountain, 2,393 ft., 3 miles N of Eureka and 20 miles S of Rampart, Yukon-Tanana Highlands; 65° 13' 20" N, 150° 14' 00" W; (map 106). Prospectors' name reported in

1906 by USGS (Prindle, 1908, pl. 5); so named because tributaries of Eureka Creek head on its slopes.

Eureka Gulch: ravine, in Nutzotin Mountains, extends NW of 1.8 miles to Lamb Creek, 5 miles NE of Braye Pass, Alaska Range; 62° 04' N, 141° 02' W; (map 84). Variant: Eureka Creek. Local name obtained from prospectors; reported as Eureka Creek by USGS (Capps, 1916, p. 90).

Eureka Gulch: ravine, trends NE 0.7 miles to Snake River, N of Pioneer Gulch, 13 miles N of Nome, Seward Peninsula Highlands; 64° 42' N, 165° 25' W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Eureka Gulch: ravine, trends NW 0.8 miles to Inmachuk River 1.1 miles SW of its junction with Hannum Creek, 17 miles N of Imurok Lake, Seward Peninsula Highlands; 65° 52' N, 163° 11' W; BGN 1952; (map 110). Reported in 1903 as "Eureka Creek" by D. C. Witherspoon (in Moffit, 1905, pl. 2), USGS.

Eureka Lake: lake, see Tahneta Lake.

Eureka Lake: lakes, see Startup Lakes.

Eureka Ledge: reef, see Wayanda Ledge.

Eureka Mountain: mountain, 3,000 ft., on central Baranof Island, 8 miles SE of Sitka, Alexander Archipelago; 56° 58' 10" N, 135° 10' 30" W; (map 5). Local name recorded in 1951 by USGS.

Eureka Pass: water passage, see Eureka Channel.

Eureka Road House: locality, former roadhouse on Valdez Trail which is now Richardson Highway, along Ptarmigan Creek, 1.5 miles W of Ptarmigan and 21 miles NE of Valdez, Chugach Mountains; 61° 11' 37" N, 145° 39' 00" W; (map 68). Name published in 1909 by USGS.

Eureka: locality, see Kantishna.

Eureka: locality, site of mining camp, at junction of Pioneer and Eureka Creeks, 3 miles S of Eureka Dome and 23 miles S of Rampart, Yukon-Tanana Highlands; 65° 11' N, 150° 13' W; (map 106). Variant: Glen, Glenn. This camp was established in 1899. A telegraph station called "Glen" was established here about 1904 and, in 1909, a post office called "Eureka" which was discontinued in 1918 (Ricks, 1965, p. 20).

Eva Creek: stream, flows E 4 miles to Elsie Creek, 38 miles SE of Nenana, Alaska Range; 64° 03' N, 148° 45' W; (map 100). Variant: North Fork Elsie Creek. Local name reported in 1916 by G. C. Martin (in Brooks and others, 1917, pl. 17), USGS. In 1915, the stream had been named North Fork (Elsie Creek), on the GLO [BLM] survey plat of the township, but local usage preferred Eva Creek.

Eva Creek: stream, flows NW 3 miles to My Creek, 80 miles SW of Eagle, Yukon-Tanana Highlands; 64° 07' N, 143° 16' W; (map 102). Local name published in 1956 by USGS.

Eva Creek: stream, flows SE 2.5 miles to Ester Creek, 7.5 miles W of Fairbanks, Yukon-Tanana Highlands; 64° 51' N, 147° 59' W; (map 100). Named by prospectors; shown in 1905 on a manuscript map by C. W. Joint.

Eva Island: island, 0.4 miles long, at mouth of Hamilton Bay, 4.5 miles S of Kake, on NW coast of Kupreanof Island, Alexander Archipelago; 56° 54' 50" N, 133° 55' 00" W; (map 6). Named in 1892 by Lt. W. Island Moore, USN.

Eva Islands: islands, 0.5 miles across, N of Catherine Island, off Baranof Island, 7 miles SW of Angoon, Alexander Archipelago; 57° 25' 45" N, 134° 55' 45" W; (map 9). Named in 1895 by Lt. Comdr. E. K. Moore USN, and published on Chart 8283.

Eva Mountain: mountain, 1,240 ft., 1 mile E of Mukacharni Mountain and 10 miles NE of Teller, Seward Peninsula Highlands; 65° 22' N, 166° 09' W; (map 111). Local name published in 1956 by USGS.

Eva Peak: mountain, 6,005 ft., 4.5 miles NE of Rainy Pass Lodge and 83 miles WSW of Talkeetna, Alaska Range; 62° 09' 00" N, 152° 39' 30" W; (map 81). Named in 1898 by W. S. Post, USGS.

Eva, Lake: lake, 1.7 miles long, drains into Hanus Bay, on N coast of Baranof Island, 12 miles NW of Baranof, Alexander Archipelago; 57° 24' 00" N, 135° 06' 30" W; (map 9). Named in 1895 by Lt. Comdr. E. K. Moore, USN, and published by USC&GS on Chart 8283.

Eva, Point: point of land, on mainland, N point of entrance to Rudyerd Bay, on Behm Canal, Coast Mountains; 55° 33' 40" N, 130° 52' 30" W; BGN 1906; (map 3). Variant: Slide Point. Named in 1891 by USC&GS; USC&GS published the name "Slide Point" in 1894 for this feature.

Evan Lake: lake, 2 miles NW of Clay Lake and 22 miles N of Roundabout Mountain, Koyukuk Low; 65° 51' N, 156° 38' W; (map 108). Local name obtained at Huslia by USGS in 1954 or 1955.

Evans Bay: bay, see Sawmill Bay.

Evans Island: island, extends NE-SW 12 miles at SW end of Prince William Sound, between Prince of Wales Passage on W and Elrington and Latouche Passages on E, 10 miles SE of Chenega, Chugach Mountains; 60° 03' N, 148° 04' W; BGN 1918; (map 63). Variant: Bache Island, Flemming Island, Hoodoo Island. Named in 1918 by USC&GS for Adm. Robley Evans, USN, 1846-1912, "who many years before, as Captain, had policed the Alaska Sealing grounds." U. S. Grant, USGS, reported the local name of this island as "Hoodoo," a name shown on Federal maps for many years. However, it was found that many mariners feared to approach the island because of its name, which prompted the proposal to commemorate Adm. Evans.

Evans Point: point of land, on SW side of Knight Island Pass, on NE tip of Evans Island, 12 miles SE of Chenega, Chugach Mountains; 60° 08' 00" N, 147° 54' 45" W; BGN 1929; (map 63). Named in 1929 by USC&GS; derived from name of the island.

Evans, Mount: mountain, 6,379 ft., 1.4 miles NW of terminus of Klutina Glacier, 20 miles N of Valdez, Chugach Mountains, 61° 24' 45" N, 146° 09' 15" W; (map 68). Named in 1898 by Capt. W. R. Abercrombie, USA.

Evansville: village, pop 77, on S bank of Koyukok River, 5 miles E of Bettles; 66° 55' 30" N, 151° 30' 00" W; (map 117). Variant: Bettles Field. This Indian village developed in 1945 when Bettles Field was built as an attendant facility for exploration of Naval Petroleum Reserve No. 4. Work at the airfield, located about five miles upstream from Bettles, attracted the natives and settlement began near the north end of the landing strip. A post office was established at Bettles Field in 1950 (Ricks, 1965, p. 7).

Evarashichiche: water passage, see Marmot Strait.

Evasha River: stream, see Ivishak River.

Evdokeeff: island, see Chowiet Island.

Evdokeevskie Islands: islands, see Semidi Islands.

Eve Point: point of land, on Revillagigedo Island, on W shore of Thorne Arm, 15 miles E of Ketchikan, Alexander Archipelago; 55° 19' 55" N, 131° 15' 48" W; (map 3). Local name published in 1917 by USC&GS on Chart 8075.

Evelookpalik River: stream, see Evelukpalik Creek.

Evelukpalik Creek: stream, heads on Milokrawlok Mountain, flows W 9 miles to Krusenstern Lagoon, 5 miles NE of Cape Krusenstern, Kotzebue-Kobuk Lowland; 67° 11' N, 163° 40' W; (map 128). Variant: Evelookpalik River, Evilukpalik River. Eskimo name meaning "place of big clams," according to USC&GS in 1950.

Evelyn Lake: lake, 4 miles long, trends N-S at mouth of Lacy River, 3 miles N of Berners Bay and 40 miles NW of Juneau, Coast Mountains; 58° 52' N, 134° 55' W; (map 11). Name reported in 1923 by J. P. Walker, USFS.

Evening Star Creek: stream, flows W 1 mile to Rose Creek, 11 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 58' 10" N, 147° 29' 45" W; (map 100). Named by prospectors; published in 1908 by USGS.

Everett Creek: stream, flows N 6 miles to Charley River 12 miles S of that stream's junction with Yukon River, Yukon-Tanana Highlands; 65° 09' N, 142° 51' W; (map 103). Prospectors' name from an unpublished map by E. J. Chamberlain, dated 1902.

Everett Peak: mountain peak, elev. 3,797 ft., 2 miles N of Point Styleman on Stephens Passage and 28 miles SE of Juneau, Coast Mountains; 58° 00' 25" N, 133° 54' 15" W; (map

12). Named in 1888 by Lt. Comdr. C. M. Thomas, USN, for Edward Everett, 1794-1865, American clergyman, orator, and statesman.

Evershichie Bay: bay, see Marmot Bay.

Evesheark: stream, see Redstone River.

Evghinak Cape: point of land, see Evghinak Point.

Evghinak Point: point of land, 9 miles NW of Southwest Cape, SW coast of St. Lawrence Island; 63° 21' N, 171° 42' W; (map 93). Variant: Evghinak Cape. Eskimo name recorded in 1949 by Maj. H. B. Allen, USAF, from a survivor of the Eskimo village once located at Southwest Cape. Its meaning is unknown.

Evia, Punta: point of land, "on the east side of Prince of Wales Island." Named by Lt. Don Jacinto Caamano on July 23, 1792, "probably in honor of Jose de Evia who was at that time exploring in the Gulf of Mexico" (Wagner, 1937, p. 452).

Evilukpalik River: stream, see Evelukpalik Creek.

Evrashichie Island: island, see Marmot Island.

Evrulivik Lake: lake, 4.5 miles long, 17 miles S of Barrow, Arctic Plain; 71° 01' 28" N, 156° 40' 00" W; (map 153). Variant: liveruuleviq Lake. Eskimo name recorded by USC&GS about 1950. The name was originally applied to the large lake just NE of this one, and would be best rendered as "Ivirulivik" meaning "place where there is moss [for house building]."

Evwak, Cape: point of land, see Eevwak Point.

Ewhak Point: point of land, see Eevwak Point.

Ewakewigamiut: locality, see Iwarawiramiut.

Ewakalik, Mount: mountain, 1,860 ft., in Ilivit Mountains, E of Mount Chiniklik and 15 miles NE of Russian Mission, Nulato Hills; 61° 50' N, 161° 01' W; (map 73). Eskimo name reported by Harrington (1918, map), USGS, in 1916.

Ewan Bay: estuary, on E coast of Kenai Peninsula, extends SE 3.5 miles to Dangerous Passage, 6.5 miles NW of Chenega, Chugach Mountains; 60° 22' N, 148° 07' W; (map 63). Local name reported in 1908 by Grant and Higgins (1910, pl. 2), USGS.

Ewan Lake: lake, 4.5 miles long, 4 miles ENE of Crosswind Lake and 22 miles NNW of Glennallen, Copper River Basin; 62° 26' N, 145° 47' W; (map 83). Variant: Eauwan Lake. Local name recorded in 1910 by D. C. Witherspoon (in Moffit, 1912, pl. 1), USGS. It may be a corruption of the name "Ivan," an Indian chief on the Tanana River.

Ewan Lake: lake, on E side of Kenai Peninsula, extends N-S 1 miles, 10 miles NW of Chenega, Chugach Mountains; 60° 24' 30" N, 148° 10' 30" W; (map 63). Name published on recent USGS map s; derived from nearby Ewan Bay.

Ewan Point: point of land, on E coast of Kenai Peninsula, at N entrance to Ewan Bay, on W side of Dangerous Passage, 6 miles N of Chenega, Chugach Mountains; 60° 22' 15" N, 148° 05' 45" W; BGN 1934; (map 63). Named in 1933 by a USC&GS field party.

Ewdokijefftian Islands: islands, see Semidi Islands.

Ewe Creek: stream, flows NW 3 miles to Savage River, 12 miles SW of Healy, Alaska Range; 63° 47' N, 149° 18' W; (map 87). Local name shown on a 1916 fieldsheet by C. E. Giffin, USGS.

Ewe Ledge: cliff, on N coast of Yakobi Island, on W shore of Lisianski Inlet, 2 miles SE of Sandstone Point and 37 miles W of Hoonah, Alexander Archipelago; 58° 05' 15" N, 136° 27' 25" W; (map 10). Name published by USC&GS in 1929.

Ewratschitze Bay: bay, see Marmot Bay.

Ex: locality, along Seward Peninsula Railroad, 1 mile N of King Mountain and 8 miles NE of Nome, Seward Peninsula Highlands; 64° 37' N, 165° 20' W; (map 94). Site of a railroad station established in 1905. "The name came from the fact that two large water supply ditches crossed each other's paths near the station, forming a huge X" (Cole, 1953, p. 14).

Excelsior Creek: stream, flows E 10 miles to Mission Creek 7 miles NW of Eagle, Yukon-Tanana Highlands; 64° 49' 50" N, 141° 26' 45" W; (map 102). Variant: Twelve Mile Creek. Named by prospectors and reported in 1898 by E. C. Barnard, USGS; called "Twelve Mile Creek" in 1896 by Spurr (1898, pl. 48), USGS.

Excelsior Creek: stream, flows S 17 miles to Gakona River, 21 miles ESE of Paxson Lake, Alaska Range; 62° 48' 30" N, 145° 03' 45" W; (map 83). Name used by prospectors and reported by Mendenhall and Schrader (1903, pl. 3), USGS.

Excelsior Creek: stream, flows SW to Cripple River, about 30 miles NW of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name reported in 1901 by USGS (Collier, 1902, pl. 12). This stream cannot be identified on current maps.

Excelsior Glacier: glacier, trends S 6.5 miles to its terminus, 1.5 miles N of Johnstone Bay, on Kenai Peninsula, 25 miles SE of Seward, Chugach Mountains; 59° 59' N, 148° 47' W; BGN 1910; (map 49) Local name obtained in 1908 by Grant and Higgins (1910, pl. 1), USGS.

Excelsior Lake: lake, on Kenai Peninsula, 2.5 miles long, on E lobe of Excelsior Glacier, 26 miles SE of Seward, Chugach Mountains; 60° 02' 30" N, 148° 41' 30" W; (map 63). Name of a water-filled depression in a glacier; published in 1951 by USGS; name derived from nearby Excelsior Glacier.

Exchange Cove: cove, extends N 3.5 miles to Kashevarof Passage, on N coast of Prince of Wales Island, Alexander Archipelago; 56° 12' N, 133° 04' W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow, USN; published in 1887 on USC&GS Chart 706.

Exchange Creek: stream, heads in Exchange Lake, flows E 1 mile to Exchange Cove, on Prince of Wales Island, 34 miles SW of Wrangell, Alexander Archipelago; 56° 10' 12" N, 133° 05' 40" W; (map 6). Local name reported in 1961 by USFS.

Exchange Island: island, 1.2 miles long, at mouth of Exchange Cove, on N coast of Prince of Wales Island, Alexander Archipelago; 56° 12' 30" N, 133° 03' 30" W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow, USN; name published in 1887 on USC&GS Chart 706.

Excursion Bay Inlet: estuary, see Excursion Inlet.

Excursion Inlet: estuary, trends 8 miles S from mouth of Excursion River to Icy Strait, 38 miles W of Juneau, St. Elias Mountains; 58° 25' N, 135° 26' W. (map 11). Variant: Excursion Bay Inlet, Hudson Bay Inlet. Named by pilot Capt. E. G. George, who entered the estuary in 1883 on the excursion steamer Idaho. Published by USC&GS in the 1883 Coast Pilot (p. 190).

Excursion Inlet: village, pop. 23, cannery at mouth of Excursion Inlet, 5 miles N of the Porpoise Islands and 38 miles NW of Juneau, St. Elias Mountains. 58° 25' 00" N, 135° 26' 30" W; (map 11). Name published by USC&GS in the 1943 Coast Pilot (p. 409).

Excursion River: stream, in Glacier Bay National Monument, heads in unnamed glacier and flows SE 24 miles to Excursion Inlet, 43 miles NW of Juneau, St. Elias Mountains; 58° 30' 55" N, 135° 31' 10" W; BGN 1962; (map 11). Local name published in 1962 by USGS. Name derived from Excursion Inlet.

Expedition Harbor: bay, 4 miles long, on W coast of Adak Island, at head of Bay of Islands, Aleutian Islands; 51° 47' 30" N, 176° 45' 30" W; BGN 1936; (map 17). Named in 1934 by members of the U.S. Navy Aleutian Island Survey Expedition, "to commemorate the expedition."

Expedition Island: island, 0.2 miles long, off S coast of Amaknak Island, in Unalaska Bay, on NE coast of Unalaska Island, Aleutian Islands. 53° 52' 42" N, 166° 32' 55" W; (map 23). Variant: Expedition Islet. Named by W. H. Dall, USC&GS, in 1871.

Expedition Islet: island, see Expedition Island.

Expedition Point: point of land, on unnamed island, in Security Bay, on Kuiu Island, 41 miles SE of Sitka, Alexander Archipelago; 56° 50' 45" N, 134° 19' 05" W; (map 5). Named in 1869 by Comdr. R. W. Meade, USN.

Exploration Peak: mountain, 5,805 ft., just E of junction of Matthes and Taku Glaciers, 3.8 miles SE of Centurian Peak and 28 miles NE of Juneau, Coast Mountains; 58° 41' 15" N, 134° 12' 45" W; (map 11). Name proposed in 1949 by members of the Juneau Icefield Research Project and published in 1960 by USGS.

Explorer Basin: bay, 2 miles across, on W coast of Kuiu Island, at S entrance to Tebenkof Bay, Alexander Archipelago; 56° 26' N, 134° 13' W; BGN 1929; (map 5). Named in 1928 by USC&GS for its vessel Explorer.

Explorer Bay: bay, 1 mile across, on S coast of Atka Island, W of Kobakof Bay, NW of Sagchudak Island, Aleutian Islands; 52° 03' 15" N, 174° 32' 00" W; BGN 1961; (map 18). Named for the USC&GS ship Explorer which surveyed the bay for the first time during the summer of 1959.

Explorer Glacier: glacier, on Kenai Peninsula, trends NW 1.5 miles to its terminus, 4 miles SE of head of Turnagain Arm and 8 miles W of Whittier Chugach Mountains; 60° 47' 10" N, 148° 55' 30" W, BGN 1964; (map 63). Local name reported by the Mountaineering Club of Alaska. So named because Explorer Scouts were trained in glacier techniques on this and neighboring glaciers.

Explorer Island: island, 0.2 miles long, in Hidden Lake on Kenai Peninsula, 33 miles ESE of Kenai; 60° 29' 20" N, 150° 15' 50" W; BGN 1962; (map 62). Named in 1962 by Grant B. Walther for Explorer Post No. 25 of the Boy Scouts of America.

Explorer Mountain: mountain, 2,660 ft., contains several peaks, 10 miles N of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 15' N, 161° 33' W; (map 53). Named in 1914 by USC&GS for its surveying vessel, the S.S. Explorer; published in 1915 on Chart 9103.

Explorer Passage: water passage, between Annoy Rock and Hazard Point, off E coast of Tanaga Island, Aleutian Islands; 51° 42' N, 177° 48' W; (map 17). Name published by USC&GS in 1956 on Chart 9145.

Explorers Peak: peak, 8,540 ft., at head of Eldridge Glacier, 12 miles ESE of Mount McKinley, Alaska Range; 63° 02' 30" N, 150° 38' 00" W; (map 88). Climbed in 1910 and named for the Explorers Club of New York by H. C. Parker and Belmore Browne.

Extra Dry Creek: stream, flows NE 1.6 miles to Nome Creek, 6 miles NE of Nome, Seward Peninsula Highlands; 64° 34' N, 165° 15' W; (map 94). Prospectors' name reported in 1899 by D. C. Witherspoon (in Schrader and Brooks, 1900, map 2), USGS. Named relative to Dry Creek which is in the same area.

Extra Dry Creek: stream, see Tripple Creek.

Eyack Lake: lake, see Eyak Lake.

Eyak Cannery: locality, on right bank of Eyak River, 4 miles SE of Cordova, Chugach Mountains; 60° 30' N, 145° 40' W; (map 64). Name of a cannery; published on a 1951 USGS map.

Eyak Lake: lake, Y-shaped, each arm 3 miles long, 0.3 miles E of Cordova, Chugach Mountains; 60° 33' N, 145° 40' W; BGN 1901; (map 64). Variant: Eyack Lake, Eyuk Lake, Ighiak Lake, Ikhiak Lake, Odiak Lake. Named for the nearby Indian village and reported in 1888 by Capt. W. R. Abercrombie, USA, who called it "Eyack Lake."

Eyak River: stream, flows S from Eyak Lake 6 miles to Gulf of Alaska, Malaspina Coastal Plain; 60° 28' N, 145° 41' W; (map 64). Local name reported in 1905 by G. C. Martin (1906, pl. 12), USGS.

Eyak Village: locality, see Eyak.

Eyak, Mount: mountain, 2,506 ft., between Orca Inlet and Eyak Lake, 2 miles N of Cordova, Chugach Mountains; 60° 34' N, 145° 43' W; BGN 1933; (map 64). Variant: Ugalak Mountain. Originally named "Ugalak" for the Eskimo village of Ugalakmiut ("far people") once located at the entrance to Port William Sound. Present name reported by H. E. Smith, USFS, in 1933.

Eyak: locality, along Copper River Highway, 5.5 miles SE of Cordova, Malaspina Coastal Plain; 60° 31' 30" N, 145° 36' 00" W; (map 64). Variant: Eyak Village, Hyacks, Ighiak, Ikhiak, Odiak. Former Eskimo village reported in 1869 as "Hyacks" by Maj. Gen. W. E. Halleck, USA. It was listed by Ivan Petroff in the 1880 Census as "Ihiak." The population was 94 in 1890; 222 in 1900. In 1899 Lt. Comdr. J. F. Moser, USN, reported it as a cannery called "Odiak" with a population of 273 (Hodge, 1907, p. 448).

Eye Opener Islet: rocks, see Abrejo Rocks.

Eye Opener, The: rock, in Sumner Strait, 13 miles E of village of Point Baker, between Kupreanof and Prince of Wales Islands, Alexander Archipelago; 56° 23' 10" N, 132° 16' 30" W; (map 6). Variant: Atkroiglaza, Otkroy Glaza, Shoo Fly Rock. Translation about 1882 by USC&GS of "Otkroy Glaza"; published in 1853 on Russian Hydrog. Dept. Chart 1494. Lt. Comdr. H. E. Nichols, USN reported the name "Shoo Fly Rock" as being used by local navigators for this feature, in 1891 Coast Pilot (p. 128).

Eyeautuk Lagoon: lagoon, see Aiautak Lagoon.

Eyeautuk Lagoon: lagoon, see Ayutatak Lagoon.

Eyuk Lake: lake, see Eyak Lake.

Ezrok River: stream, see Kolipsun Creek.

F

Face Mountain: mountain, 1,275 ft., on SW Kiska Island, Aleutian Islands; 51° 53' 53" N, 177° 16' 00" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Fafnir, Mount: mountain, 10,620 ft., in Dora Keen Range, 33 miles NW of Valdez, Chugach Mountains; 61° 26' 30" N, 147° 02' 15" W; BGN 1965; (map 69). Named for a dragon in Norse mythology; published by Nielsen (1963, p. 135).

Faint Mountain: mountain, 1,335 ft., SW part of Kiska Island, Aleutian Islands; 51° 54' 23" N, 177° 17' 15" E; (map 14). Variant: Bison Hill. An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II. The name "Bison Hill" was published for this feature on a 1943 USAAF map.

Fair Island: island, 1 mile long, between Beecher Pass and Duncan Canal, 16 miles SW of Petersburg, on N coast of Woewodski Island; Alexander Archipelago; 56° 35' 30" N, 133° 03' 00" W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for charting purposes; name published in 1888 on USC&GS Chart 705.

Fairangel Creek: stream, heads in a lake, flows E 1 mile to Archangel Creek, 16 miles NW of Palmer, Talkeetna Mountains; 61° 49' 10" N, 149° 14' 25" W; (map 69). Variant: Fair Angel Creek. Local name reported in 1910 by F. J. Katz (in Brooks and others, 1911, p. 140), USGS.

Fairbanks Creek Camp: locality, W of Fairbanks Creek, 11 miles SE of Chatanika and 20 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 03' N, 147° 09' W; (map 105). Local name of a former gold mining camp; derived from Fairbanks Creek in whose valley gold was found in 1902.

Fairbanks Creek: stream, flows SE 8 miles to Fish Creek, 20 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 03' N, 147° 07' W; (map 105). Named by prospectors for Charles W. Fairbanks, 1852-1918, U.S. Senator from Indiana; reported in 1903 by USGS (Prindle, 1905, pl. 13).

Fairbanks Creek: stream, heads 6 miles SW of Swinging Dome, flows NE 19 miles to Iditarod River, 6.5 miles SW of Flat and 53 miles NE of Holy Cross, Kilbuck-Kuskokwim Mountains; 62° 25' 10" N, 158° 12' 00" W; (map 79). Prospectors' name published in 1921 by USGS.

Fairbanks Slough: stream, see Chena Slough.

Fairbanks Slough: stream, see Piledriver Slough.

Fairbanks: city, pop. 13,311, on Chena River, Tanana Lowland; 64° 50' 45" N, 147° 43' 15" W; BGN 1944; (map 100). Variant: Barnettes Cache. Founded in 1901 when a trading post was established here by E. T. Barnette. First called "Barnettes Cache," the name was changed in 1902 to honor Charles Warren Fairbanks, 1852-1918, Senator from Indiana and later Vice President of the United States under Theodore Roosevelt. The town began as the

supply center for the mining region to its north after gold was discovered by Felix Pedro in 1902, and has since become the commercial and transportation hub of north and central Alaska. Its population was 3,541 in 1910; 1,155 in 1920; 2,101 in 1930; 3,455 in 1939; and 5,771 in 1950. The Fairbanks post office was established in 1903.

Fairfield, Cape: promontory, on SE coast of Kenai Peninsula, at E end of Whidbey Bay, 25 miles SE of Seward, Chugach Mountains; 59° 56' N, 148° 53' W; (map 49). Local name reported in 1908 by U. S. Grant, USGS.

Fairfield, Mount: mountain, 3,609 ft., 3 miles NE of Cape Fairfield, on Kenai Peninsula, 24 miles SE of Seward, Chugach Mountains; 59° 58' N, 148° 51' W; BGN 1929; (map 49). Named in 1929 by USC&GS; "name taken from adjoining cape."

Fairhaven Creek: stream, flows NW 22 miles to Buckland River, 52 miles N of Haycock, Seward Peninsula Highlands; 65° 57' N, 161° 08' W; (map 109). Local name reported in 1908 by USGS (Brooks and others, 1909, fig. 21).

Fairhaven: locality, at N end of Stephens Passage, 0.7 miles E of Point Louisa and 12 miles NW of Juneau, Coast Mountains; 58° 22' 35" N, 134° 42' 25" W; (map 11). Name published in 1962 by USGS.

Fairman Lake: lake, see Jerome Lake.

Fairmount Bay: estuary, extends SW 1.5 miles to Prince William Sound, 46 miles NE of Whittier, Chugach Mountains; 60° 53' 30" N, 147° 23' 45" W; (map 63). Local name published on recent USGS maps; derived from nearby Fairmount Island.

Fairmount Island: island, 2 miles long, in Prince William Sound, 4 miles W of Glacier Island and 43 miles NE of Whittier, Chugach Mountains; 60° 52' 30" N, 147° 26' 30" W; (map 63). Local name reported in 1900 by F. C. Schrader, USGS.

Fairmount Point: point of land, at E side of entrance to Wells Bay, 44 miles NE of Whittier, Chugach Mountains; 60° 53' 45" N, 147° 27' 00" W; (map 63). Local name published on recent USGS maps; derived from nearby Fairmount Island.

Fairplay, Mount: mountain, 5,541 ft., at head of Logging Cabin Creek, 34 miles NE of Tok, Yukon-Tanana Highlands; 63° 40' N, 142° 13' W; (map 85). Name taken from sketch map compiled by Maj. W. M. Glassford, U.S. Army Signal Corps in 1905.

Fairs Island: island, in Stockdale Harbor on the W side of Montague Island, Prince William Sound; 60° 01' N, 147° 12' W. Named by Capt. Nathaniel Portlock in 1787. See Wagner (1937, p. 352).

Fairview Creek: stream, flows NW 10 miles to Bering Sea, 37 miles NW of Nome, Seward Peninsula Highlands; 64° 50' N, 166° 23' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Fairview Creek: stream, flows SE to Fairview River which flows to Cripple River, about 31 miles NW of Nome, Seward Peninsula High; (map 94). Prospectors' name reported on the

1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Fairview Mountain: mountain, 3,266 ft., 7 miles SW of Chelatna Lake and 47 miles W of Talkeetna, Alaska Range; 62° 21' 40" N, 151° 34' 30" W; (map 81). Local name reported in 1911 by S. R. Capps (in Brooks, 1912, pl. 9), USGS.

Fairview: area, SE part of Mountain View, in Anchorage, Cook Inlet Lowland; 61° 13' 36" N, 149° 47' 55" W; (map 69). Local name reported in 1954 by the city engineer of Anchorage.

Fairway Island: island, 0.2 miles across, at E end of Peril Strait, 1.5 miles S of Point Craven, 6 miles SW of Angoon, Alexander Archipelago; 57° 28' N, 134° 52' W; (map 9). Named by Comdr. R. W. Meade, USN, and published in 1869 on Hydrog. Chart 225.

Fairway Island: island, 0.2 miles across, on S coast of Kuiu Island, at S end of Affleck Canal, Alexander Archipelago; 56° 02' 25" N, 134° 03' 10" W; (map 5). Named in 1886 by Lt. Comdr. A. S. Snow; published in 1887 on USC&GS Chart 706.

Fairway Reef: reef, N of Elma Island, Sanak Islands, Aleutian Range; 54° 22' 50" N, 162° 29' 30" W; (map 25). Name published in 1949 on a USGS map.

Fairway Rock: rock, 0.1 miles S of Kinky Island, 12 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 47' 12" N, 136° 19' 45" W; (map 9). Name published by USC&GS in 1925 Coast Pilot (p. 322).

Fairway Rock: rock, in Bering Strait, 10 miles SE of Little Diomedes Island and 18 miles W of Cape Prince of Wales, at W end of Seward Peninsula, Seward Peninsula Highlands; 65° 38' N, 168° 45' W; (map 111). Variant: Okivaki, Oo-ghee-ak, Ookeek, Ugiyak. So named in 1826 by Capt. Beechey (1831, p. 246), RN, because "it is an excellent guide to the eastern channel, which is the widest and best." Beechey records its Eskimo name as "Oo-ghee-ak" (p. 290).

Fairway Rocks: rocks, see Green Rocks.

Fairweather Glacier: glacier, in Glacier Bay National Monument. heads on W slope of Mount Salisbury and trends W 19 miles to its 1961 terminus, 0.2 miles E of Cape Fairweather and 100 miles NW of Hoonah, Malaspina Coastal Plain; 58° 47' N, 138° 52' W; (map 10). Local name published by USGS in the 1950's.

Fairweather Range: mountain range, extends SE 70 miles from Grand Pacific and Grand Plateau Glaciers to Cross Sound and Icy Strait, in Glacier Bay National Monument, 80 miles NW of Hoonah St. Elias Mountains; 58° 43' N, 137° 10' W; (map 10). Variant: Mount Fairweather Range. The name was used by USC&GS in 1891 Coast Pilot (p. 207), and presumably derived from Mount Fairweather, the highest peak in the range.

Fairweather, Cape: point of land, in Glacier Bay National Monument, on E shore of Cape of Alaska, 5 miles S of mouth of Sea Otter Creek and 103 miles NW of Hoonah, Malaspina Coastal Plain; 58° 48' 30" N, 137° 56' 45" W; (map 10). Variant: Cape Beautems, Cape Buen-tiempo, Cape de Beautemps, Cape Gutwetter, Mys Horoshiy Pogody, Mys Ltua. Named

“Cape Fair Weather” in 1778 by Capt. Cook (1785, v. 2, p. 346), RN. presumably because of the good weather encountered at the time. The name has been translated variously. It was called “Cape Beautemps” by La Perouse in 1786, “Cape Buen-tiempo,” by Galiano in 1802, and “M[ys] Hor[oshiy] Pogody” by the Russians in 1847. Capt. Tebenkov (1852, map 8), IRN, called it “M[ys] Ltua” meaning “Cape Ltua.”

Fairweather, Mount: mountain, 15,300 ft., in Glacier Bay National Monument, on Alaska-Canada boundary, 2.6 miles W of Mount Quincy Adams, St. Elias Mountains; 58° 54' 30" N, 137° 31' 30" W; BGN 1922; (map 10). Variant: Boundary Peak 164, Koroshiy Pogodi, Mount Beautemps, Mount Buentiempo, Schonwetterberg, Tanaku. Named in 1778 by Capt. Cook (1785, v. 2, p. 345), RN, presumably because of the good weather encountered at the time of his visit. The name has been variously translated. It was called “Mt. Beautemps” by La Perouse (1786, atlas), “Mte. Buen-tiempo” by Galiano (1802, map 3), “Gor[a]-Khoroshy-pogody” on Russian Hydrog. Dept. Chart 1378 in 1847, and “G[ora] Fayerveder” by Capt. Tebenkov (1852, map 7), IRN. It was called “Schonwetterberg” by Constantin Grewingk in 1850 and “Schonwetter Berg” by Justus Perthes in 1882. The Tlingit Indians' name for the mountain is reportedly “Tanaku.” The mountain was first climbed June 8, 1932. by Allen Carpe and Terris Moore (Farquhar, 1959, p. 220).

Fairy Hill: hill, 1,335 ft., SW of Fatal Hill, on SW part of Kiska Island. Aleutian Islands; 51° 54' 28" N, 177° 17' 40" E; (map 14). An arbitrary name beginning with “F” to correspond to “F” grid used by the U.S. Army for tactical purposes during World War II: published on a 1953 AMS map.

Faith Creek: locality, on left bank of Chatanika River, opposite mouth of Faith Creek, 76 miles SW of Circle, Yukon-Tanana Highlands; 65° 17' 20" N, 146° 22' 45" W; (map 104). Name of a former roadhouse and small settlement: published in 1916 Polk's Gazetteer.

Faith Creek: stream, flows SW 5 miles to Spruce Creek, 11 miles SE of Marshall, Nulato Hills; 61° 47' 20" N, 161° 48' 30" W; (map 73). Prospectors' name reported in 1916 by Harrington (1918, map). USGS.

Faith Creek: stream, heads at junction of Charity and Hope Creeks, flows S 10 miles to Chatanika River, 76 miles SW of Circle, Yukon-Tanana Highlands; 65° 17' 20" N, 146° 22' 45" W; (map 104). Named by prospectors: reported in 1903 by T. G. Gerdine (in Prindle, 1905, pl. 13), USGS.

Faith Hill: hill, 800 ft., 2 miles SW of Lief Cove, on SW part of Kiska Island, Aleutian Islands; 51° 54' 45" N, 177° 17' 45" E; (map 14). An arbitrary name beginning with “F” to correspond to “F” grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Fake Creek: stream, heads in a glacier, W of Alapah Mountain, flows NW 2 miles, then SW 5 miles, joins Graylime Creek to form Anaktuvut River; 68° 07' 00" N, 151° 05' 30" W; BGN 1939; (map 134). Named by Marshall (1956, p. 123) in 1938. About it he wrote, “we pushed on across a high ridge to the place where all of us except Jesse Allen thought the main Anaktuvuk lay * * *. He was right-the creek proved to be nothing but a false alarm-so we called it Fake Creek, and climbed over another ridge.”

Fake Pass: water passage, 0.7 miles long, 0.5 miles N of Whale Head Island, near mouth of Davidson Inlet, Alexander Archipelago; 55° 52' 40" N, 133° 41' 15" W; (map 4). Descriptive name given in 1904 by E. F. Dickins, USC&GS, because "we thought we had discovered a good passage but it turned out to be a fake."

Falcon Arm: bay, 0.3 miles across, 2 miles long, 10 miles SE of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 32' N, 135° 58' W; BGN 1908; (map 9). Variant: Hawkes Arm. Named in 1908 by USC&GS and published in the 1908 Coast Pilot (p. 172). It was named Hawkes Arm by E. F. Dickins in 1906 for ' Dr. Hawkes" a member of his party.

Falcon Cliffs: bluff, on right bank of Yukon River, 12 miles SW of Nulato, Nulato Hills; 64° 32' N, 158° 25' W; (map 97). Riverboat pilots' name shown on a 1940 " Navigation Chart of the Tanana-Yukon Rivers" published by U.S. Dept. of the Interior.

Falcon Lake: lake, 1.5 miles long, on Kenai Peninsula, N of Snowshoe Lake, 35 miles NE of Kenai. Cook Inlet Lowland; 60° 47' 15" N, 150° 23' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, probably for the Gray Gyrfalcon (*Falco rusticolus rusticolus*) which breeds from Alaska east to southern Greenland (Pearson, 1944, pt. 2, p. 85).

Falfan Point: point of land, on E coast of Baker Island, in Port Asumcion, 17 miles WSW of Craig, Alexander Archipelago; 55° 22' 30" N, 133° 32' 00" W; (map 4). Variant: Mys de Falfan, Punta de Falfan, Punta de Farfan. Spanish name given in 1775-79 by Bodega y Quadra and Francisco Antonio Maurelle as "Punta de Falfan," i.e. "Falfan Point." Wagner (1937, p. 453) spelled the name "Farfan ' and said it was a well-known family name.

Fall Camps Lake: lake, 5 miles S of junction of Khotol River and Tsurotlurna Slough, 28 miles SE of Nulato, Koyukuk Lowland; 64° 20' N, 158° 20' W; (map 97). Variant: Khatsulstit Lake. Appears to be a translation of an Indian name: reported in 1935 by Frederica de Laguna, BAE.

Fall Creek Station: locality, see Falls.

Fall Creek: stream, flows 2 miles N to Nugget Creek, 1.5 miles E of Mendenhall Glacier and 8.5 miles NNW of Juneau, Coast Mountains; 58° 25' 30" N, 134° 32' 00" W; (map 11). Name published in 1912 by USGS (Knopf, pl. 1).

Fall Creek: stream, flows N 8 miles to Tiekkel River, 2.4 miles SW of Ernestine and 43 miles NE of Valdez, Chugach Mountains; 61° 25' 10" N, 145° 09' 10" W; (map 68). Local name reported in 1899 by Oscar Rohn.

Fall Creek: stream, flows NE 11 miles to Imuruk Basin, 20 miles SE of Teller, Seward Peninsula Highlands; 65° 05' N, 165° 49' W; (map 111). Local name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Fall Creek: stream, flows S 4.6 miles to Kluvesna River, 18 miles W of Mount Blackburn Wrangell Mountains; 61° 46' N, 143° 55' W; (map 67). Prospectors name reported in 1900 by T. G. Gerdine, USGS.

Fall Creek: stream, flows SW 2 miles to Knik River 20 miles SE of Palmer, Chugach Mountains; 61° 27' 15" N, 148° 35' 30" W; (map 69). Local name reported in 1960 by USGS.

Fall Creek: stream, flows SW 2 miles to Pacific Ocean, on SW coast of Kiska Island, Aleutian Islands; 51° 51' 40" N, 177° 16' 20" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Fall Creek: stream, flows W 6 miles to Michigan Creek, 6 miles SW of Ipnek Mountain and 31 miles W of Wiseman, Brooks Range; 67° 18' 15" N, 151° 14' 00" W; BGN 1932; (map 124). Local name reported by Robert Marshall in 1932.

Fall Creek: stream, in Glacier Bay National Monument, flows 2.5 miles NW to Lituya Bay, 1.7 miles SW of Crillon Inlet and 84 miles NW of Hoonah, St. Elias Mountains; 58° 38' 30" N, 137° 31' 00" W; BGN 1959; (map 10). Variant: Mudslide Creek. Local name reported by USGS in 1930. The name "Mudslide Creek" was published by members of the Harvard-Dartmouth Expedition, 1933-34 (Washburn and Goldthwaite, 1936, map).

Fall Creek: stream, see Eagle Creek.

Fall Creek: stream, see Falls Creek.

Fall Lake: lake, 1 mile long, on Harding River, 5 miles N of Bradfield Canal, Coast Mountains; 56° 16' 20" N, 131° 40' 00" W; (map 7). Name published in 1943 on a USGS map.

Falling Glacier: glacier, heads at NW end of Sargent Ice Field, trends NW 3 miles to E side of Kings Bay, 20 miles S of Whittier, Chugach Mountains; 60° 29' 30"-N, 148° 34' 45" W; BGN 1910; (map 63). So named in 1910 by U. S. Grant, because of its "falling" appearance.

Falling Mountain: peak, 3,805 ft., on Alaska Peninsula in Katmai National Monument, 8 miles W of Mount Katmai, Aleutian Range, 58° 15' 20" N, 155° 10' 25" W; BGN 1924; (map 42). So named in 1917 by R. F. Griggs, National Geographic Society, "on account of the frequent rock avalanches."

Falls Bay: bay, 1.3 miles across, on E coast of Kenai Peninsula, on W side of Prince William Sound, 18 miles NE of Chenega, Chugach Mountains; 60° 31' 40" N, 147° 59' 15" W; BGN 1914; (map 63). Local name published in 1913 by USC&GS.

Falls Creek: stream, 8 miles long, flows E and W to Wrangell Narrows, 10 miles S of Petersburg, Alexander Archipelago; 56° 41' 00" N, 132° 55' 30" W; (map 6). Variant: Fall Creek, Taain Creek. Local name published as "Fall Creek" in 1929 by USFS.

Falls Creek: stream, flows E 3 miles to Birch Creek, 6 miles NE of Long and 19 miles SSE of Ruby, Kilbuck-Kuskokwim Mountains; 64° 28' 20" N, 155° 23' 00" W; (map 98). Prospectors' name reported in 1913 by Eakin (1914, pl. 3), USGS. The stream's exact application is in doubt.

Falls Creek: stream, flows NE 2.4 miles to Canyon Creek which flows to Imuruk Basin, 33 miles NW of Nome, Seward Peninsula Highlands; 64° 55' N, 165° 54' W; (map 94). Variant: Fall Creek. Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Falls Creek: Stream, flows NW 4.5 miles to O'Malley River, 0.5 miles SE of Karluk Lake, Kodiak Island; 57° 16' 25" N, 153° 59' 05" W; (map 34). Local name reported in 1954 by USGS.

Falls Creek: stream, flows S 2.5 miles to Turnagain Arm, 7.5 miles NW of Sunrise, Chugach Mountains; 60° 59' 05" N, 149° 34' 30" W; (map 63). Local name published in 1922 by USGS, "because of the falls on the stream."

Falls Creek: stream, flows S 5 miles to Thorne River, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 42' 32" N, 132° 36' 47" W; BGN 1960; (map 4). Descriptive name given by C. L. Sainsbury, USGS, in 1956, because of "the large number of waterfalls in its center portion."

Falls Creek: stream, flows SW 6 miles through McHenry Lake to McHenry Inlet, on SW coast of Etolin Island, Alexander Archipelago; 56° 02' 00" N, 132° 22' 40" W; (map 6). Local descriptive name reported in 1900 by Lt. Comdr. J. F. Moser, USN.

Falls Creek: stream, flows W 1 mile to Dick Creek, 12 miles NE of Katalla, Chugach Mountains; 60° 19' N, 144° 19' W; (map 64). Local name used by prospectors, reported in 1905 by G. C. Martin, USGS.

Falls Creek: stream, flows WNW 9 miles to Trail River. 23 miles N of Seward, Chugach Mountains; 60° 25' 50" N, 149° 27' 25" W; BGN 1912; (map 63). Variant: False Creek. Local name published by D. H. Sleem on his map of Central Alaska dated 1910. It was called False Creek in 1906 by F. H. Moffit, USGS.

Falls Creek: stream, heads at glacier terminus flows NW 3.8 miles to Delta River, crosses Richardson Highway, 35 miles NW of Paxson, Alaska Range; 63° 31' 05" N, 145° 51' 30" W; (map 86). Name published on relatively recent maps.

Falls Creek: stream, heads in a glacier, flows W and S 3 miles to Canyon Creek, 2.3 miles NW of Summit Lake and 67 miles NE of Valdez. Chugach Mountains: 61° 20' 25" N, 144° 16' 45" W. (map 68). Local name published in the 1950 s by USGS.

Falls Creek: stream, heads in Dutch Hills, flows S 5.5 miles to Cache Creek, 31 miles NW of Talkeetna, Alaska Range; 62° 28' 30" N, 151° 00' 45" W; (map 81). Descriptive name reported in 1906 by R. W. Porter, USGS. Gold was first mined here in 1905.

Falls Creek: stream, heads in glacier, flows SSE 9 miles to Little Bremner River, 3.5 miles SW of Tebay Lakes and 61 miles E of Valdez, Chugach Mountains; 61° 09' 05" N, 144° 25' 20" W; (map 68). Local name reported in 1913 by F. F1 Moffit, USGS.

Falls Creek: stream, heads in Lake Morris, flows S 2.5 miles to Sea Level Slough, 12 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 48' N, 136°

18' W; (map 9). Local descriptive name reported in 1920 by G. H. Canfield (in Brooks and others, 1922, p. 96), USGS.

Falls Creek: stream, on Admiralty Island, 1.2 miles long, flows NW to Stephens Passage, 1.5 miles W of Oliver Inlet and 11 miles S of Juneau, Alexander Archipelago; 58° 08' 55" N, 134° 22' 10" W; (map 11). Name published in 1951 by USGS.

Falls Creek: stream, on E coast of Cleveland Peninsula, flows SE 1.3 miles to Smugglers Cove, E of Helm Bay, Alexander Archipelago; 55° 36' N, 131° 59' W; (map 3). Local name reported in 1949 by USGS.

Falls Creek: stream, on Kenai Peninsula, flows N 3 miles in a swamp E of Sterling Highway, 13 miles NE of Ninilchik and 26 miles S of Kenai, Cook Inlet Lowland; 60° 11' 30" N, 151° 25' 30" W; (map 62). Local name reported about 1947 by Barnes and Cobb (1959, pl. 17), USGS.

Falls Creek: Stream, on Kenai Peninsula, flows S 4.5 miles to Kachemak Bay, 17 miles NE of Homer, Cook Inlet Lowland; 59° 46' 10" N, 151° 08' 00" W; (map 50). Local name reported by Stone (1906, pl. 3), USGS. Probably so named because of the drop in elevation along the course of the stream.

Falls Creek: stream, on Kenai Peninsula, flows W 6.5 miles to Juneau Creek, 1 mile S of Juneau Lake and 27 miles SW of Hope, Chugach Mountains; 60° 33' N, 149° 53' W; (map 63). Local name published in 1940 by USGS, "because of the falls on the stream."

Falls Creek: stream, on N end of Douglas Island, flows NE 2 miles to Gastineau Channel, 2.9 miles NW of Juneau, Coast Mountains; 58° 19' 25" N, 134° 28' 45" W; (map 11). Local name published in 1962 by USGS.

Falls Creek: stream, on N end of Kenai Peninsula, flows NW 4.5 miles to Sixmile Creek, 0.5 miles S of Sunrise, Chugach Mountains; 60° 52' 35" N, 149° 25' 20" W; (map 63). Local name reported by Martin and others (1915, pl. 2), USGS. Presumably named because of the falls that occur on the stream.

Falls Creek: stream, on Revillagigedo Island, flows W 1.3 miles, drains Swan Lake into Carroll Inlet, Alexander Archipelago; 55° 36' 50" N, 131° 21' 15" W; (map 3). Local name reported in 1948 by USGS.

Falls Creek: stream, see Reindeer Creek.

Falls Creek: stream, see Whipple Creek.

Falls Lake: lake, 0.5 miles long, on Cascade Creek, 2 miles E of Thomas Bay, 103 miles E of Sitka, Coast Mountains; 57° 01' 15" N, 132° 45' 15" W; BGN 1923; (map 8). Local descriptive name: reported in 1922 by USFS.

Falls Lake: lake, 0.8 miles across, on E coast of Baranof Island, 18 miles S of Baranof, Alexander Archipelago; 56° 49' 30" N, 134° 42' 00" W; (map 5). Local descriptive name obtained in 1951 by USGS.

Falls Lake: lake, trends E-W 2 miles, on Kenai Peninsula, 0.7 miles SW of head of Falls Bay, 15 miles N of Chenega, Chugach Mountains; 60° 30' 10" N, 148° 02' 30" W; (map 63). Local name reported in 1952 by USGS.

Falls Point: point of land, on N coast of Tanaga Island, Aleutian Islands; 51° 55' 05" N, 178° 02' 35" W (map 16). Local name published on a 1954 USGS map.

Falls, The: falls, on Seventymile River, 21 miles NW of Eagle, Yukon-Tanana Highlands; 64° 55' 50" N, 141° 50' 00" W; (map 102). Variant: Seventymile River at the falls. Named by prospectors and reported in 1911 by E. A. Porter (in Brooks and others, 1912, p. 232), USGS, as "Seventymile River at the falls. "

Falls, The: rapids, on W central Admiralty Island, between Salt Lake and Mitchell Bay, 9.3 miles NE of Angoon, Alexander Archipelago; 57° 33' 30" N, 134° 21' 20" W; (map 9). Local descriptive name reported in 1951 by USGS.

Falls: locality, on Seward Highway, 22 miles N of Seward, Chugach Mountains; 60° 25' 10" N, 149° 22' 00" W; (map 63). Variant: Fall Creek Station. Name of a former station on The Alaska Railroad Reported as Fall Creek Station by B. L. Johnson (in Martin and others, 1915, pl. 2), USGS. Recent USGS maps show it with five buildings.

Falmouth Harbor: bay, 1.5 miles across, on W coast of Nagai Island, in Shumagin Islands, Aleutian Range; 55° 05' N, 160° 09' W; (map 28). Named by W. H. Dall, USC&GS, in 1872, for a vessel of that name which was driven into the harbor by a gale.

Falsa. Bahia: bay, in about 59° 10' N. So called because Capt. Alessandro Malaspina found no such feature here in 1791, as indicated on a chart. See Wagner (1937, p. 452).

False Arden: point of land, N end of Glass Peninsula, on Stephens Passage, 1.2 miles NW of Arden Point and 12 miles SE of Juneau, Alexander Archipelago; 58° 10' 00" N, 134° 12' 15" W; (map 11). Named in 1925 by the USC&GS and published in 1925 on Chart 8300.

False Bay: bay, 1.5 miles across, 17 miles NE of Tenakee Springs, on NE coast of Chichagof Island, Alexander Archipelago; 57° 58' N, 134° 55' W (map 9). Descriptive name given by fur traders prior to 1869 and published in 1869 by U.S. Navy on Hydrog. Chart 225. It is " * * * said to be fair anchorage in the summer but bad in blowing weather' (USC&GS, 1883, p. 181).

False Bay: bay, 2.5 miles across, on S coast of Adak Island, Aleutian Islands; 51° 37' 30" N, 176° 45' 30" W; (map 17). Name published by USC&GS in the 1944 Aleutian Coast Pilot (p. 115).

False Cape: point of land, between Peard Bay and Chukchi Sea, E of Point Franklin, Arctic Plain; (map 147). This unidentified point of land appears to have been named by British naval officers as the name is shown on Brit. Adm. Chart 593. 1827-55. Capt. Hooper (1881, p. 40), USRCS mentions anchoring near False Cape in Peard Bay in 1880.

False Channel Bay: cove, 0.5 miles across, at NE end of Stillwater Anchorage, in Kootznahoo Inlet, on Admiralty Island, 1.5 miles NE of Angoon, Alexander Archipelago; 57° 31' 00" N, 134° 32' 45" W; (map 9). Named in 1869 by Comdr. R. W. Meade, USN; published in 1881 on Hydrog. Chart 882. The name does not appear on recent charts.

False Chilkah: estuary, see Chilkoot Inlet.

False Chilkat Pass: pass, see Chilkoot Pass.

False Cove: bay, 0.7 miles wide, E coast of Warren Island, Alexander Archipelago; 55° 53' 50" N, 133° 50' 30" W; BGN 1924; (map 4). Named in 1924 by USC&GS, "because it is often entered by mistake for Warren Cove."

False Creek: stream, see Falls Creek.

False Ears: mountain, on Seward Peninsula S of Goodhope Bay, Kotzebue Sound, Seward Peninsula Highlands; 65° N, 163° W; (map 110). Name shown on Brit. Adm. Chart 573 (1882), also on USC&GS Chart 3093 (1900): perhaps reported by some English naval officers in the Franklin search expeditions 1849-54. Not shown on recent maps.

False Island Head: promontory, see Boussole Head.

False Island Point: point of land, on E coast of Lindenberg Peninsula, Kupreanof Island, 11 miles S of Petersburg, Alexander Archipelago; 56° 39' 40" N, 132° 56' 00" W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN.

False Island: island, 0.4 miles long. in Peril Strait, off S coast of Chichagof Island 9 miles S of Tenakee Springs, Alexander Archipelago; 57° 31' 50" N, 135° 13' 00" W; (map 9). Named in 1895 by Lt. Comdr. E. K. Moore, USN, and published by USC&GS on Chart 8283. Probably so named because it is connected at low tide to the mainland by a sand bar.

False Island: island, 210 ft. long, 0.5 miles N of village of Point Baker, on NW tip of Prince of Wales Island, Alexander Archipelago; 56° 21' 32" N, 133° 37' 30" W; (map 6). Local name recorded in 1955 by USC&GS.

False Lindenberg Head: point of land, 2 miles W of Todd, on S coast of Chichagof Island, Alexander Archipelago; 57° 28' N, 135° 05' W, (map 9). Local name probably from Alaskan coastal pilots; published by USC&GS in the 1891 Coast Pilot (p. 187). Probably so named because of its similarity to Lindenberg Head 2 miles to the west.

False Mount Calder: mountain, see Red Bay Mountain.

False Pass: village, pop. 41, on Isanotski Strait, on E coast of Unimak Island, Aleutian Islands; 54° 51' 15" N, 163° 24' 30" W; (map 25). An early English name for Isanotski Strait. The strait was called "False Pass" because it was thought to be impassable at the northern end. A cannery was built which provided the nucleus of the settlement. A post office was established in 1921 (Ricks, 196S, p. 20).

False Pass: water passage, see Isanotski Strait.

False Point Pybus: point of land, on E coast of Admiralty Island, 5.5 miles NE of Pybus and 61 miles E of Sitka, Alexander Archipelago; 57° 22' 15" N, 133° 51' 40" W; (map 8). Variant: Point Pybus. Named by W. H. Dall, USC&GS: published in 1883 Coast Pilot (p. 130). "This point was mistakenly called Point Pybus on the Russian Hydrographic Department, U.S. Hydrographic, and British Admiralty Charts, but it is not the Point Pybus originally named by Vancouver in 1794, which is six miles to the southeast therefore the name False Point Pybus."

False Point Retreat: point of land, on W coast of N end of Mansfield Peninsula, 2.8 miles S of Point Retreat and 20 miles NW of Juneau, Alexander Archipelago; 58° 22' 10" N, 134° 58' 15" W; (map 11). So named in 1891 by USC&GS because, from the south, the feature resembles Point Retreat. Published in the 1891 Coast Pilot (p. 198)

False Point: point of land, on N coast of Chichagof Island, in Port Frederick, 0.4 miles S of Hoonah and 40 miles SW of Juneau. Alexander Archipelago; 58° 06' 00" N, 136° 26' 30" W; (map 11). So named by U.S. Navy officers and published in 1880 on Hydrog. Chart 225.

False Rock: rocks, see Liar Rocks.

Falsoola Mountain: mountain, 6,470 ft., E of Blarney Creek and 37 miles N of Wiseman, Brooks Range; 67° 57' N, 150° 04' W; (map 124). Name reported in 1939 by Marshall (1956, map); so named because it could be easily mistaken for Oolah Mountain, farther to the north.

Fan Creek: stream, flows NW 12 miles to Black Lake, 2 miles N of head of Chignik River and 23 miles NW of Chignik, Aleutian Range; 56° 27' N, 158° 56' W; (map 30). Name reported in 1923 by R. H. Sargent, USGS; published in 1927 by USGS.

Fan Lake: lake, 0.2 miles long, on SW part of Kiska Island, Aleutian Islands; 51° 53' 20" N, 177° 19' 22" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Fan Mountain: hill, 1,020 ft., on SW part of Kiska Island, Aleutian Islands; 51° 54' 55" N, 177° 16' 20" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Fan Mountain: mountain, 7,090 ft., between Anaktuvuk River and Alapah Creek, 18 miles E of Anaktuvak Pass, Brook Range; 68° 10' 30" N, 151° 04' 00" W, BGN 1932; (map 134). So named by Robert Marshall in 1930 "because of the [fanlike] appearance of the rock strata."

Fan Point: point of land, on NW coast of Tanaga Island, Aleutian Islands; 51° 50' 30" N, 178° 10' 15" W; (map 16). Local name published on a 1954 USGS map.

Faneto Hill: peak, 2,610 ft., on Attu Island, 0.9 miles E of Winter Lake, Aleutian Islands; 52° 56' 15" N, 173° 01' 33" E; (map 13). Named by U.S. Army during World War II; published in 1948 by AMS.

Fang Mountain: mountain, 6,736 ft., 14 miles NW of Cantwell, 22 miles SW of Healy, Alaska Range; 63° 33' 30" N, 149° 11' 00" W; (map 87). Local descriptive name published in 1952 by USGS.

Fang Point: point of land, W point of entrance to Port Hobron, on N coast of Sitkalidak Island, SE of Kodiak Island; 57° 11' 10" N, 153° 09' 50" W; BGN 1930; (map 34). Descriptive name given in 1930 by USC&GS, "because of a lone [fang-like] rock off the point."

Fankuda Islet: island, 0.2 miles across, in Redoubt Bay, 5.2 miles N of Goddard, on W coast of Baranof Island, Alexander Archipelago; 56° 54' 35" N, 135° 21' 30" W; (map 5). Variant: Ostrov Fankuda. Named in 1809 by the Russian navigator, Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Fankuda" or "Fankuda Island."

Fankuda, Ostrov: island, see Fankuda Islet.

Fannie Island: island, 0.4 miles across, in Port Snettisham, 2.4 miles N of Sharp Point and 30 miles SE of Juneau, Coast Mountains; 58° 02' 45" N, 133° 47' 10" W; (map 6). Named in 1888 by Lt. Comdr. C. M. Thomas, USN.

Fanny Mountain: mountain, 2,044 ft., 5 miles SE of Bear Mountain and 38 miles W of Midnight Hill, Porcupine Plateau; 66° 00' 20" N, 142° 27' 00" W; (map 120). Local name obtained in 1956 by T. E. Taylor and R. C. Foley, USGS.

Fanshaw Bay: bight, extends SW 3 miles, from Whitney Island to Cape Fanshaw, 66 miles E of Sitka, Coast Mountains, 57° 12' N, 133° 33' W; (map 8). Named in 1887 for Cape Fanshaw by Lt. Comdr. C. M. Thomas, USN; published in 1888 by USC&GS.

Fanshaw Range: mountain range, trends S 10 miles from Steamboat Bay along E shore of Cleveland Passage, 72 miles E of Sitka, Coast Mountains; 57° 14' N, 133° 28' W; (map 8). Named in 1887 for Cape Fanshaw by Lt. Comdr. C. M. Thomas, USN; published in 1888 by USC&GS.

Fanshaw, Cape: point of land, at S end of Stephens Passage, between Fanshaw Bay and Frederick Sound, 68 miles E of Sitka, Coast Mountains; 57° 11' N, 133° 33' W; (map 8). Named by Capt. George Vancouver, RN, when it was discovered on August 14, 1794, by Lt. J. Whidbey, RN (Wagner, 1937, p. 387).

Fanshaw, Mount: mountain, 2,720 ft., in Fanshaw Range, 3 miles E of Whitney Island and 73 miles E of Sitka, Coast Mountains; 57° 12' 35" N, 133° 27' 00" W; (map 8). Named in 1887 by Lt. Comdr. C. M. Thomas, USN; published in 1888 by USC&GS.

Fanshaw: locality, see Cape Fanshaw.

Fantasy Knob: hill, 700 ft., on SW end of Kiska Island, Aleutian Islands; 51° 54' 47" N, 177° 16' 02" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II. published on a 1953 AMS map.

Far Hill: mountain, 1,350 ft., on southern Kiska Island, Aleutian Islands; 51° 54' 10" N, 177° 16' 20" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Far Mountain: mountain, 4,694 ft., 8 miles ENE of Chena Hot Springs and 70 miles SW of Circle, Yukon-Tanana Highlands; 65° 04' 50" N, 145° 46' 04" W; (map 104). Named by prospectors and reported in 1904 by D. C. Witherspoon, USGS.

Far Point: point of land, on N coast of Whale Island, N of Kodiak Island: 57° 58' 40" N, 152° 47' 30" W; (map 34). Variant: Mys Dalniy. Translation of the descriptive name "M[ys] Dalniy," given in 1839 or 1840 by Sub-Lt. Mikhail Murashev, IRN, and published in 1849 on Russian Hydrog. Dept. Chart 1425.

Far Point: point of land, on one of Barrier Islands, at W entrance to Eureka Channel, Alexander Archipelago; 54° 46' 35" N, 132° 23' 35" W; (map 1). Descriptive name published in 1899 by USC&GS.

Faraday Gulch: ravine, trends NE 0.7 miles to St. Michaels Creek, 9 miles NE of Nome, Seward Peninsula Highlands; 64° 32' 45" N, 165° 08' 20" W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Faraker, Mount: peak, see Foraker, Mount.

Farallon Bay: bay, extends W 1.2 miles off Tlevak Strait, on E coast of Dall Island, Alexander Archipelago; 55° 11' 40" N, 133° 04' 45" W; BGN 1908; (map 4). Variant: South Bay. Spanish word meaning "rock (or cliff) in the sea"; given in 1907 by E. F. Dickins, USC&GS. This feature was called "South Bay" in 1881 by H. E. Nichols, USN. See Kekur Island.

Farewell Island: island, see Pyramid Island.

Farewell Lake: lake, 2 miles long, 2.2 miles W of junction of South Fork Kuskokwim and Jones Rivers, 69 miles SE of McGrath, Kuskokwim Lowland; 62° 33' 30" N, 153° 38' 00" W; (map 80). Local name, derived from that of the mountain, reported in 1958 by USGS.

Farewell Landing: locality, on SE bank of Kuskokwim River 3.7 miles E of its junction with its Middle Fork, 24 miles E of McGrath, Kuskokwim Lowland; 62° 59' 25" N, 154° 56' 00" W; (map 80). River landing reported in 1949 by USGS.

Farewell Mountain: mountain, 2,600 ft., on W bank of Tin Creek, 1.5 miles S of Farewell Lake and 71 miles SE of McGrath, Alaska Range: 62° 31' N, 153° 37' W; (map 80). So named in 1898 by W. S. Post and J. E. Spurr, USGS, because "it was the last of the high mountains."

Farewell, Point: point of land, on SW coast of Chernabura Island, in Shumagin Islands, Aleutian Range; 54° 45' 45" N, 159° 35' 30" W; (map 26). Name recorded by USC&GS on an 1882 coast chart.

Farfan, Punta de: point of land, see Flafan Point.

Faris Peak: mountain, 5,426 ft., on W end of Unimak Island, Aleutian Islands; 54° 31' 50" N, 164° 40' 00" W; BGN 1954; (map 24). Named by O. H. Tittmann, USC&GS, for Robert Lee Faris, Assistant Director of USC&GS until his death in 1932. A member of Ferdinand Westdahl's party, Faris determined the geographic position of this peak in 1901.

Farm Island: island, 8 miles long, at mouth of Stikine River, 10 miles N of Wrangell, Coast Mountains; 56° 38' N, 132° 25' W; (map 6). Name given in 1887 by Lt. Comdr. C. M. Thomas, USN "because island is low and flat."

Farmer Hill: hill, 700 ft., on SW part of Kiska Island, Aleutian Islands; 51° 53' 40" N, 177° 18' 30" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II: published on a 1953 AMS map.

Farmer, Cape: point of land, in Dixon Entrance. Named by Capt. William Douglas, June 8, 1789. See Wagner (1937, p. 453) for a discussion on its identification.

Farmington: town, see Palmer.

Faro Creek: stream, flows N 14 miles to Arolik River, 32 miles N of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 33' N, 161° 28' W; (map 53). Variant: West Fork Arolic Creek. Local name reported in 1914 by P. S. Smith and A. G. Maddren (in Brooks and others, 1915, p. 358), USGS.

Farragut Bay: bay, 5 miles across, at NE shore of Frederick Sound, 14 miles SE of Cape Fanshaw and 80 miles E of Sitka, Coast Mountains; 57° 06' N, 133° 14' W; (map 8). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for Admiral David Glascoe Farragut, 1801-70, American admiral, hero of the battles of New Orleans and Mobile Bay in the Civil War. The name was published by USC&GS in 1891 Coast Pilot (p. 136).

Farragut Lake: lake, 4 miles long, in course of Farragut River, 11 miles NW of Farragut Bay and 95 miles E of Sitka, Coast Mountains; 57° 14' 25" N, 132° 57' 30" W; (map 8). Local name reported in 1961 by USGS.

Farragut River: stream, heads at Glory Lake and flows SW 15 miles to Francis Anchorage of Farragut Bay, 84 miles E of Sitka, Coast Mountains; 57° 09' 30" N, 133° 08' 45" W; (map 8). Name published by USGS (Brooks and others, 1916, pl. 4); derived from Farragut Bay.

Farrar Cape: point of land, see Krugloi Point.

Fartalesa, Mys de la: point of land, see Fortaleza, Point.

Farthing Horn: peak, 20,125 ft., in Mount McKinley National Park, NE of summit of Mount McKinley, Alaska Range; 63° 04' 25" N, 151° 00' 15" W; BGN 1947; (map 88). Named in 1913 by Archdeacon Stuck (1921, p. 185) for Annie Farthing, a missionary who died at the Nenana mission "three years ago [1910]." See Carter Horn.

Fasseet Island: island, see Fassett Island.

Fasset Islet: island, see Fassett Island.

Fassett Glacier: glacier, on S slope of Brabazon Range, trends 3 miles S to its 1961 terminus at Tanis Lake, 46 miles SE of Yakutat, St. Elias Mountains; 59° 16' 50" N, 138° 31' 30" W; (map 46). Named by Lt. Comdr. J. F. Moser, USN, in 1901, for H. C. Fassett, USBF,

who was involved in Alaskan affairs for several years and contributed to our knowledge of native geographic names.

Fassett Island: island, 300 ft. across, in Kutchuma Islands, 3 miles S of Sitka, off W coast of Baranof Island, Alexander Archipelago; 51° 00' 40" N, 135° 18' 15" W; (map 9) Variant: Fasseet Island, Fasset Islet. Named by U.S. Navy in 1880 for Thomas O. Fassett, sailmaker, USN. The name was published by USC&GS in the 1883 Coast Pilot (p. 144).

Fassett Island: island, see Bassett Island.

Fassett Point: point of land, on E shore of Moser Bay, at S end of Kodiak Island, 2 miles N of Miller Island; 56° 59' 50" N, 154° 08' 00" W; (map 32). Named in 1900 by Lt. Comdr. J. F. Moser, USN, commander of the Albatross, for Harry C. Fassett, a member of his party.

Fat John Slough: stream, in drainage system of the Yukon River, flows SW 6.5 miles between Walker and Big Bend Sloughs, 7.2 miles SW of Holy Cross, Innoko Lowland; 62° 06' 40" N, 159° 53' 45" W; (map 78). Local name obtained in 1952 by USGS.

Fat Mountain: mountain, 1,100 ft., on SW Kiska Island, Aleutian Islands; 51° 54' 10" N, 177° 15' 16" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Fatal Hill: mountain, 1,270 ft., on southern Kiska Island, Aleutian Islands; 51° 54' 40" N, 177° 18' 22" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published by AMS in 1953.

Fathometer Reef: reef, 8 miles E of Billings Head, Akun Island, Aleutian Islands; 54° 16' 30" N, 165° 17' 10" W; BGN 1939; (map 24). Variant: Swirl Reef. Named in 1937 by USC&GS, because it was discovered by the use of the fathometer, an instrument used for measuring water depth.

Fatigue Bay: bay, see McKay Inlet.

Fatigue Bay: lagoon, 8 miles long, trends SE from Tangent Point at mouth of Dease Inlet, 40 miles SE of Barrow, Arctic Plain; 71° 07' 30" N, 154° 58' 00" W; BGN 1966; (map 153). Variant: Mackay Inlet, McKay Inlet, M' Kay Inlet. So named in 1837 by Thomas Simpson after he completed an arduous walk around the bay.

Fault Creek: stream, heads in lake, flows S 3 miles to Stellar Creek, 0.4 miles NW of Devish Lake and 19 miles SW of Valdez, Chugach Mountains; 61° 03' 10" N, 146° 48' 50" W; (map 68). Prospectors' name reported in 1911 by J. W. Bagley and C. E. Giffin, USGS.

Fault Creek: stream, in Mount McKinley National Park, flows W 1 mile to Thorofare River, 4.3 miles SSE of Eielson Visitor Center, Alaska Range. 63° 22' 35" N, 150° 14' 45" W; BGN 1932; (map 88). So named by J. C. Reed, Sr., USGS, because "an important geologic fault occurs along this creek."

Fault Creek: stream, on N part of Chichagof Island, flows SE 2.5 miles to Lisianski Inlet, 1.8 miles N of Miner Island and 33 miles SW of Hoonah, Alexander Archipelago; 58° 02' 15" N, 136° 20' 00" W; (map 10). Local name published by USGS in the 1950's.

Fault Point: point of land, on E shore of Day Harbor, 16 miles SE of Seward, Chugach Mountains; 59° 58' N, 149° 07' W; BGN 1929; (map 49). So named by the 1928 USC&GS field party "because of two prominent faults in the cliff-line of the point which gives the crest a sawtooth appearance."

Fauna Creek: stream, flows E 20 miles to Aniak River, S of Howard Pass, Brooks Range; 68° 10' N, 157° 03' W; BGN 1926; (map 132). Named by Gerald FitzGerald, USGS, in 1925.

Faust Island: island, 0.4 miles across, in Seymour Canal, 28 miles NE of Angoon, on E coast of Admiralty Island, Alexander Archipelago; 57° 48' 30" N, 134° 03' 30" W; (map 9). Named in 1890 by Lt. Comdr. H. B. Mansfield, USN, for Ens. W. H. Faust, USN, a member of his party. The name was published in 1892 by USC&GS on Chart 8300.

Faust Rock: rock, off N end of Mansfield Peninsula, 1 mile NE of Point Retreat and 20 miles NW of Juneau, Alexander Archipelago; 58° 25' 05" N, 134° 55' 40" W; (map 11). Discovered and named in 1890 by Lt. Comdr. H. B. Mansfield, USN for Ensign W. H. Faust, a member of his party. Published by USC&GS in the 1891 Coast Pilot (p. 198).

Favor Peak: mountain, 1,888 ft., on E coast of Mitkof Island, 10 miles NW of Wrangell, Alexander Archipelago; 56° 35' 30" N, 132° 34' 00" W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for charting purposes; name published in 1888 on USC&GS Chart 705.

Favorita Island: island, 0.6 miles long, W island of Twin Islands, Maurelle Islands, Alexander Archipelago; 55° 39' 30" N, 133° 40' 45" W; (map 4). Spanish name meaning "favorite"; published in the 1925 Alaska Coast Pilot (p. 185).

Favorite Anchorage: water passage, in Deadman Reach, on NW coast of Duffield Peninsula, N coast of Baranof Island, 6 miles SE of Todd, Alexander Archipelago; 57° 32' 30" N, 135° 28' 20" W; (map 9). Named by U.S. Navy in 1880 for the SS Favorite, the trading steamer owned by North Western Trading Co., and used in exploring southeastern Alaska.

Favorite Bay: bay, 4 miles long, SE of Angoon, on W coast of Admiralty Island, Alexander Archipelago; 57° 28' 30" N, 134° 31' 00" W; (map 9). Named in 1895 by Lt. Comdr. E. K. Moore, USN, and published by USC&GS in the 1901 Coast Pilot (p. 165). It was probably named for the SS Favorite, the trading steamer owned by North Western Trading Co., which navigated these waters.

Favorite Channel: water passage, 16 miles long, extends NW from Stephens Passage to Lynn Canal, N of Lincoln Island and 28 miles NW of Juneau, Coast Mountains; 58° 35' N, 135° 00' W; (map 11). Named in 1880 by U.S. Navy officers for the 80 ft. steamboat Favorite, built in 1874. The vessel was chartered by the Navy for Alaskan surveying work and was later used to conduct trading and fishing for the herring reduction plant at Killisnoo. It was in operation until about 1900 (DeArmond, 1957, p. 19).

Favorite Fiord: estuary, see Charpentier Inlet.

Favorite Inlet: estuary, see Tidal Inlet.

Favorite Reef: reef, 0.4 miles long, off SW coast of Shelter Island, 1.2 miles E of Barlow Point, Alexander Archipelago; 58° 22' 50" N, 134° 51' 45" W; (map 11). Name recorded in 1885 by the USC&GS on Chart 728 for the 80 ft. steamboat Favorite, which was built in 1874 and chartered by the U.S. Navy for Alaskan surveying. The vessel was later used to conduct trading and fishing for the herring reduction plant at Killisnoo. The vessel was in operation until about 1900 (DeArmond, 1957, p. 19).

Favorite, Mount: mountain, 2,230 ft., in Glacier Bay National Monument, 2.2 miles W of Hugh Miller Mountain, 56 miles NW of Hoonah, St. Elias Mountains; 58° 43' 05" N, 136° 29' 30" W; (map 10). Local name reported by USGS in 1951.

Fawcett, Mount: mountain, 6,213 ft., on Alaska-Canada boundary, 15 miles SE of Stikine River, Coast Mountains; 56° 33' 15" N, 131° 28' 15" W; BGN 1927; (map 7). Named in 1927 by IBC "for Thomas Fawcett, [IBC] surveyor, Gold Commissioner in the Yukon Territory from 1897-99."

Fawn Creek: stream, heads in lake, flows NW 3.5 miles to Gwydyr Bay, 11 miles SE of Beechey Point, Arctic Plain; 70° 25' N, 147° 37' W; BGN 1916; (map 150). Variant: Fawn River. Named Fawn River by P. W. Dease and Thomas Simpson, who recorded on August 8, 1837, "In the evening a little fawn came to the tents * * *; an incident that furnished a name for the streamlet" (in T. Simpson, 1843, p. 174).

Fawn Hill: hill, 630 ft., at SW end of Kiska Island, Aleutian Islands; 51° 52' 30" N, 177° 16' 15" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Fawn Island: island, 0.2 miles long, 1 mile S of Deer Island, Aleutian Range; 54° 49' 30" N, 162° 21' 05" W; BGN 1942; (map 25). Variant: Little Sandy Island. So named by USC&GS in 1939 "partly because of proximity to Fawn Point and because triangulation station Fawn * * * is on it."

Fawn Island: island, 0.3 miles long, between Mosman and Burnett Inlets, on SW coast of Etolin Island, Alexander Archipelago; 56° 03' 05" N, 132° 29' 45" W; BGN 1914; (map 6). Named in 1914 by USC&GS.

Fawn Lake: lake, 0.5 miles across, 23 miles N of village of Port Alexander, on SE coast of Baranof Island, Alexander Archipelago; 56° 30' 30" N, 134° 41' 00" W; BGN 1933; (map 5). Named in 1933 by USFS "for its proximity to larger Deer Lake to the Northwest."

Fawn Lake: lake, 600 ft. long, on Revillagigedo Island, 0.6 miles NE of Ketchikan, Alexander Archipelago; 55° 21' 07" N, 131° 37' 05" W; (map 3). Name recorded in 1954 by USGS; derived from Fawn Mountain.

Fawn Mountain: mountain, 1,853 ft., on Revillagigedo Island, 3.4 miles SE of Ketchikan, Alexander Archipelago; 55° 19' 05" N, 133° 33' 18" W; (map 3). Named in 1883 by H. E. Nichols, USN. See Deer Mountains.

Fawn Point: point of land, N tip of Deer Island, at entrance to Herendeen Bay, Bristol Bay Lowland, Aleutian Range; 55° 57' N, 160° 49' W; (map 28). Variant: Point Edward. Originally called Point Edward or Edward Point but named Fawn Point by Z. L. Tanner, USN, in 1890.

Fawn Point: point of land, on S coast of Deer Island at SW end of Aleutian Range 54° 49' 40" N, 162° 19' 00" W; (map 25). Variant: South Cape. Named by W. H. Dall and published in 1882 by USC&GS on Chart 806. This point was called South Cape by USBF in 1888.

Fawn River: stream, see Fawn Creek.

Fay Creek: stream, heads on Kavaksurak Mountain, flows NE 9 miles to the Etivluk River, 12 miles NE of Howard Pass, Brooks Range; 68° 22' N, 156° 42' W; BGN 1932; (map 132). This name appears on a fieldsheet by Gerald FitzGerald, USGS, in 1925. This feature is "probably named for Fay Delezene, of Nenana, who was a camp hand with the expedition."

Feather River: stream, flows W 17 miles to Bering Sea, 38 miles NW of Nome, Seward Peninsula Highlands; 64° 51' N, 166° 24' W; (map 94). Local name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Feather Rock: island, 0.1 miles long, in Maurelle Islands, 1.5 miles N of Wood Islands, Alexander Archipelago; 55° 41' 35" N, 133° 41' 05" W; (map 4). Named in 1924 by USC&GS for triangulation station Feather located here.

Featherly Creek: stream, heads on Mount Burls, flows NE 13 miles to Becharof Lake, on Alaska Peninsula, 14 miles NW of Kanatak, Aleutian Range. 57° 46' 20" N, 156° 07' 00" W; (map 36). Variant: West Branch Simeon Creek. Name reported in 1920 by G. C. Martin, USGS, as a tributary to Simeon Creek. Featherly Creek is shown as the main stream with Simeon Creek as a tributary, on a map published in 1924 by S. R. Capps, USGS.

Featherly Pass: pass, 870 ft., between Blue Creek and W tributary of Featherly Creek, on Alaska Peninsula, 13 miles NW of Kanatak, Aleutian Range; 57° 41' 40" N, 156° 18' 45" W, (map 36). Name reported in 1920 by G. C. Martin (1921, pl. 10), USGS; based on J. L. McPherson's surveys of 1902.

Felice Strait: water passage, 20 miles long, extends NE from Sealed Passage to Revillagigedo Channel, N of Duke Island, Alexander Archipelago; 55° 00' N, 131° 20' W; (map 2). Named in 1883 by USC&GS "for the Felice, one of [Capt. John] Meares ships which visited this coast in 1788."

Feliks, Mys: point of land, see Felix, Cape.

Felix, Cape: point of land, SW tip of Suemez Island, Alexander Archipelago; 55° 12' 35" N, 133° 26' 00" W; (map 4). Variant: Cabo de San Antonio Maurelle, Cabo de San Feliz, Mys Feliks, Point Saint Felix, Saint Felix Point. Named by F. A. Maurelle on May 18, 1779, "when

Mourelle [sic] began his exploration of Bucareli Bay opposite this point; after San Felix whose day it was" (Wagner, 1937 p. 499)

Fellows, Mount: mountain, 4,476 ft., 5 miles E of McKinley Park, 12 miles SE of Healy, Alaska Range; 63° 42' 30" N, 148° 45' 00" W; (map 87). Name reported in 1950 by USGS.

Fels Glacier: glacier, heads on Snow White and M' Ladies Mountain, trends NW 9 miles to its 1954 terminus, 25 miles NW of Paxson, Alaska Range; 63° 23' 10" N, 145° 40' 00" W; (map 86). Name published on relatively recent maps.

Felt Lake: lake, 0.9 miles long, between Scarp Creek and Beluga River, 14 miles NW of Tyonek, Cook Inlet Lowland; 61° 15' 25" N, 151° 17' 45" W; (map 70). Local name reported in 1954 by USGS.

Felton Creek: stream, flows 1.5 miles SW to Gulf of Alaska, 4.5 miles NW of Umbrella Reef and 92 miles NW of Yakutat, St. Elias Mountains; 60° 02' 30" N, 142° 10' 50" W; (map 65). Local name published in 1950 by USGS.

Fender Hills: hills, 520 ft., on southern Kiska Island, Aleutian Islands; 51° 51' 50" N, 177° 17' 40" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Feniak Lake: lake, 4 miles long, on Makpik Creek in the Noatak River Valley, 36 miles W of Howard Pass, Brooks Range; 68° 15' N, 158° 20' W; BGN 1960; (map 132). Variant: Navarak. Named by USGS geologists in 1950 for Michael Feniak, a geologist of the Canadian Geological Survey, who drowned in Northwest Canada while on a fieldtrip in the summer of 1949.

Fenimore Pass: water passage, between Fenimore Rock and Tagalak Island, Andreanof Islands, Aleutian Islands; 51° 58' N, 175° 34' W; BGN 1936; (map 18) Named in 1936 by U.S. Navy Hydros. Office for the U.S.S. Fenimore Cooper, one of the ships of the North Pacific Exploring Expedition of 1855. Name published by the USC&GS in the 1954 Coast Pilot (p. 435).

Fenimore Rock: island, elev. 214 ft., 300 yd. across, between Atka and Tagalak Islands, Aleutian Islands. 51° 58' 45" N, 175° 32' 55" W; BGN 1936; (map 18). Named in 1936 by the U.S. Navy Hydros. Office for the U.S.S. Fenimore Cooper, one of the ships of the North Pacific Exploring Expedition of 1855. Name published by the USC&GS in the 1944 Aleutian Coast Pilot (p. 104).

Fenner Creek: stream, heads at Fenner Lake, flows S 4 miles to South-southeast Bay, on SE coast of Semisopchnoi Island, Rat Islands, Aleutian Islands; 51° 54' 10" N, 179° 39' 50" E; BGN 1950; (map 15). Named in 1950 by R. R. Coats USGS, for Clarence Norman Fenner, 1870-1949, authority on Alaskan geology.

Fenner Lake: lake, 1.7 miles long, Semisopchnoi Island, Rat Islands, Aleutian Islands; 51° 57' 45" N, 179° 38' 00" E; BGN 1950; (map 15). Named in 1950 by R. R. Coats, USGS, for Clarence Norman Fenner, 1870-1949, authority on Alaskan geology.

Fenno Creek: stream, flows NW 5 miles to River Bay, 30 miles NW of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 25' N, 158° 48' W; BGN 1931; (map 52). Local name published by USBF in 1929.

Ferabee Rock: rock, see Ferebee Rock.

Ferebee Glacier: glacier, heads at 59° 45' N, 135° 40' W, trends SE 9 miles to its terminus, 4.4 miles W of Parsons Peak and 9 miles NW of Skagway. Coast Mountains. 59° 28' 45" N, 135° 33' 10" W; (map 45). Variant: Dejahssankessit Glacier. Named by the U.S. Navy in 1880 for surgeon Nelson MacPherson Ferebee, USN, who visited the region in 1880. The name was published by USC&GS in the 1883 Coast Pilot (p. 200). According to Krause (1883, map), the Tlingit Indian name is "Dejahssankessit."

Ferebee River: stream, heads in Ferebee Glacier, flows SE 13 miles to Taiyasanka Harbor, at head of Chilkoot Inlet, 10 miles SW of Skagway, Coast Mountains; 59° 19' 45" N, 135° 26' 00" W; (map 45). Named in 1880 by the U.S. Navy for surgeon Nelson MacPherson Ferebee, USN, who visited the region in 1880. The name was published by USC&GS in the 1883 Coast Pilot (p. 194).

Ferebee Rock: rock, in Galankin Islands, 1 mile S of Sitka, Alexander Archipelago; 57° 02' 01" N, 135° 20' 16" W; (map 9). Variant: Ferabee Rock. Named by U.S. Navy in 1880 for Nelson MacPherson Ferebee, surgeon, USN, who at that time was on duty at Sitka. The name was published by USC&GS in the 1883 Coast Pilot (p. 143).

Ferebee Valley: valley, extends SE 22 miles from head of Ferebee Glacier to Chilkoot Inlet, 11 miles E of Klukwah Mountain and 12 miles S of Skagway, Coast Mountains; 59° 19' 45" N, 135° 26' 00" W; (map 45). Named in 1880 by the U.S. Navy for surgeon Nelson MacPherson Ferebee, USN, who visited the region in 1880. The name was published by USC&GS in the 1891 Coast Pilot (p. 203).

Ferguson Draw: ravine, extends SW 1 mile to Cache Creek, 6 miles S of Roughtop Mountain and 37 miles ESE of Tanana, Yukon-Tanana Highlands; 65° 06' N, 150° 49' W; BGN 1961; (map 106). Variant: Ferguson Gulch. Prospectors' name reported in 1931 by J. B. Mertie, USGS.

Ferguson Glacier: glacier, heads 3 miles W of Ninemile Mountain, trends N 3 miles to its 1955 terminus 12 miles NW of Hyder, Coast Mountains; 56° 02' 50" N, 130° 14' 00" W; (map 7). Local name published by A. F. Buddington (in Brooks and others, 1925, p. 85), USGS.

Ferguson Gulch: ravine, see Ferguson Draw.

Ferguson Gulch: stream, see Cache Creek.

Ferguson Peak: mountain, 2,760 ft., 9 miles SE of Ineruvuk Mountain and 14 miles NE of Shungnak, Brooks Range; 66° 56' N, 156° 38' W; (map 115). Prospectors' name reported by USGS after 1940.

Fergusson, Point: point of land, see Rocky Point.

Fergy Gulch: ravine, extends NW 0.8 miles, between Chicago and Wagner Gulches, near head of Mills Creek, 46 miles W of Talkeetna, Alaska Range. 62° 21' 30" N, 151° 31' 20" W; (map 81). Prospectors name reported in 1911 by Capps (1913, fig. 7),USGS.

Fern Creek: stream, flows E 1.8 miles to Vega Bay, on southern Kiska Island, Aleutian Islands: 51° 54' 42" N, 177° 21' 13" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Fern Harbor: water passage, 1.6 miles long, in Glacier Bay National Monument, W of Taylor Island, 4 miles W of Point Wimbledon and 40 miles NW of Hoonah. St. Elias Mountains, 58° 17' 30" N, 136° 28' 30" W; (map 10). Name published by USC&GS in the 1925 Coast Pilot (p. 330).

Fern Lake: lake, 1 mile long, 6 miles SW of junction Of Cheslina and Nabesna Rivers and 21 miles SW of Northway, Alaska Range: 62° 42' 15" N, 142° 17' 30" W; (map 84). Local name reported by USGS in 1960.

Fern Point: point of land, on E coast of San Fernando Island. Alexander Archipelago; 53° 30' 15" N, 133° 16' 45" W; (map 4). Variant: Punta Almejas, Mussel Point. Named in 1897 by Lt. Comdr. J. F. Moser USN. This feature was called "Punta Almejas" meaning "point of the clams" on Francisco Antonio Maurelle and Don Juan de la Bodega y Quadra's chart (in La Perouse, 1798, pl. 26).

Fern Reef: reef, extends 0.3 miles in San Alberto Bay, 0.8 miles SE of Fern Point. on E coast of San Fernando Island, Alexander Archipelago; 55° 29' 30" N, 133° 15' 50" W; (map 4). Named in 1897 by Lt. Comdr. J. F. Moser, USN.

Fernandez, Volcan de: mountain, see Shishaldin Volcano.

Fernando Daoiz. Isla: island, "one of the group of islands W of Umnak Island," Aleutian Islands Probably named for Fernando Daoiz, a teniente general in the Spanish navy who died in 1808. Name published on a 1791 chart by Don Juan de la Bodega y Quadra.

Ferrell Creek: stream, flows E 14 miles to Oshetna River 10 miles SW of its junction with Susitna River, Talkeetna Mountains; 62° 29' 40" N, 147° 30' 30" W; (map 82). Name reported in 1943 by ARC.

Ferrer Maldonado, Abra de: water passage, at the head of Disenchantment Bay, Yakutat Bay. Spanish name meaning "entrance of Ferrer Maldonado" given by Capt. Alessandro Malaspina July 4, 1791 because it was where the entrance to the Strait of Maldonado should have been. but was not (Wagner, 1937, p.453).

Ferrum Creek: stream, on Kenai Peninsula, flows E 3 miles to Beauty Bay, at NW end of West Arm Nuka Bay, 32 miles ESE of Homer, Chugach Mountains: 59° 33' N, 150° 40' W; BGN 1929; (map 50). Variant: Iron Creek. The local name for this stream was Iron Creek. However, because of numerous "Iron Creeks" in Alaska, a 1927 USC&GS field party recommended substituting the Latin word "Ferrum."

Ferry Road House: locality, at junction of Birch Creek and Fairbanks-Circle Trail (Steese Highway), 11 miles SW of Circle, Yukon Tanana Highlands; 65° 42' N, 144° 22' W; (map 104). Name of a former roadhouse derived from the ferry used to cross Birch Creek: reported in 1915 by G. A. Waring, USGS.

Ferry: village, pop. 31, mile 371.2 on The Alaska Railroad, at Nenana River, 39 miles S of Nenana, Alaska Range: 64° 01' N, 149° 07' W; (map 100). Variant: Nenana River. Name published as railroad station on a timetable in 1922. Earlier, the place was listed as Nenana River on a Seattle Chamber of Commerce promotion folder.

Fetutlin: locality, "on upper Yukon River." Variant: Fetoulin. Former Indian camp or settlement listed by Ivan Petroff as "Fetoulin," population 106 in the 1880 Census.

Fick Cove: cove, 0.6 miles across, part of South Arm Hoonah Sound, 15.5 miles SE of Chichagof, on S central Chichagof Island, Alexander Archipelago; 57° 38' N, 135° 40' W; (map 9). Named in 1895 by Lt. Comdr. E. K. Moore, USN, and published in 1900 by USC&GS on Chart 8282.

Fickett Creek: stream, flows E and S 12 miles to Howzerah Creek 3.5 miles NW of its junction with Koyukuk River, 13 miles SUP of Bettles. Kanuti Flats: 66° 43' 30" N, 151° 48' 30" W; (map 117). In 1885, Lt. Allen (1887, p. 101), USA, applied the name "Fickett River" to what is now called the John River in honor of Pvt. Frederick W. Fickett, U.S. Army Signal Corps, who was a member of Lt. Allen's small party. Local usage, however, did not follow Lt. Allen's naming in this case, and in order to save the historical name T. G. Gerdine, USGS, transferred the name "Fickett" to this stream in 1899.

Fickett Glacier: glacier, trends NE 2 miles to its terminus 3 miles W of Copper River, 30 miles NW of Katalla. Chugach Mountains: 60° 34' N, 144° 59' W; BGN 1930; (map 64). Named about 1912 by Lawrence Martin for Pvt. Fred W. Fickett, USA, "who saw this glacier when he accompanied Lt. H. T. Allen" on his Alaskan expedition of 1885.

Fickett River: stream, see John River.

Fidalgo, Port: estuary, 3 miles wide and 25 miles long, on E shore of Prince William Sound, 40 miles NW of Cordova, Chugach Mountains: 60° 47' N, 146° 45' W. (map 64). Variant: Puerto Fidalgo, Puerto Mazarredo. This estuary was discovered by Senor Don Salvador Fidalgo's launch party on June 14, 1790 but there is no record that he named it. The name is not shown on Capt. Alessandro Malaspina's or Don Bodega y Quadra's maps of 1791. As Capt. George Vancouver, RN, who had Fidalgo's maps, referred to the feature as "Puerto Fidalgo," it can be assumed that the name appeared either on Fidalgo's own map or Vancouver named it for Fidalgo (Wagner, 1937, p. 387). It appears more likely that Fidalgo intended to call this estuary "Puerto de Mazarredo" in honor of Jose de Mazarredo.

Fidalgo, Puerto: estuary, see Fidalgo, Port.

Fidele Glacier: glacier, see Eldridge Glacier.

Fielding Lake: lake, 4 miles long, drains N to Phelan Creek, 10 miles NW of Paxson, Alaska Range; 63° 10' N, 145° 41' W (map 86). Name published on relatively recent maps.

Fifteen Gulch: ravine, in Kantishna Hills, extends N 0.9 miles to Glacier Creek, 6.7 miles NNW of Wonder Lake, Alaska Range, 63° 37' 40" N, 150° 55' 30" W; BGN 1932; (map 88). Prospectors' name reported in 1931 by F. G. Wells and S. C. Kain, USGS.

Fifteen Gulch: ravine, trends SE 1.5 miles to Wade Creek, at Jack Wade, 46 miles SW of Eagle, Yukon-Tanana Highlands; 64° 09' 15" N, 141° 27' 40" W; (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Fifteen Mile Creek: stream, flows S 13 miles to Nushagak River, 88 miles S of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 28' N, 157° 02' W; (map 60). Local name reported in 1952 by USC&GS.

Fifteen Pup: stream, flows E 1.2 miles to Deadwood Creek, 9.5 miles SSW of Central and 36 miles SW of Circle, Yukon-Tanana Highlands; 65° 26' 50" N, 144° 56' 50" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Fifteenmile Island: island, 0.8 miles long, in Stikine River, 15 miles NE of Wrangell, Coast Mountains; 56° 41' 45" N, 132° 12' 00" W; (map 6). Local descriptive name obtained in 1953 by USGS.

Fifth Berg Lake: lake, see Fifth Lake.

Fifth Lake: lake, 3 miles across, at 1961 terminus of Steller Glacier, E of Berg Lake and 70 miles E of Cordova, Chugach Mountains; 60° 23' 30" N, 143° 44' 00" W; (map 65). Variant: Fifth Berg Lake, Fourth Berg Lake, Fourth Lake. The local name Fifth Berg Lake was reported in 1905 by G. C. Martin (1908, pl. 2), USGS, and was originally applied to the easternmost of five Berg Lakes. With the retreat of the Steller and Bering Glaciers in recent times, Fourth Berg Lake and Fifth Berg Lakes were united to form Fifth Lake.

Fifth of July Creek: stream, flows NW 2.8 miles to Long Creek, 2.5 miles SW of Long and 25 miles S of Ruby, Kilbuck-Kuskokwim Mountains; 64° 23' N, 155° 33' W; (map 98). Variant: 5th of July Creek. Prospectors' name reported in 1913 by Eakin (1914, pl. 3), USGS.

Fiftynine Mile Creek: stream, flows NE and SE 31 miles to Tiekel River, 2 miles NE of Tiekel Cache and 41 miles NE of Valdez, Chugach Mountains; 61° 24' 05" N, 145° 11' 00" W; (map 68). Local name published in the 1950's by USGS.

Figarok: point of land and village, see Hope, Point and Point Hope.

Figgins Point: point of land, on E coast of Prince of Wales Island, W point of entrance to Lyman Anchorage, on Kasaan Peninsula, Alexander Archipelago; 55° 33' N, 132° 18' W; (map 4). Local name reported in 1905 by E. F. Dickins, USC&GS.

Fighting John Peak: mountain peak, 5,080 ft., 4 miles E of Thomas Bay on Frederick Sound and 103 miles E of Sitka, Coast Mountains; 57° 03' 25" N, 132° 44' 30" W; (map 8). Named by Lt. Comdr. C. M. Thomas USN; published in 1889 by USC&GS on Chart 733.

Figure Creek: stream, flows SE 5 miles to Stone Creek, 48 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 40' N, 153° 51' W; (map 89). Local name reported in 1958 by USGS.

Figure Eight Creek: stream, heads W on Lone Hill, flows NW through a lake 22 miles to Dog Salmon River, on Alaska Peninsula, 22 miles SE of Ugashik, Aleutian Range; 57° 19' N, 157° 01' W; (map 36). Descriptive name given in 1923 by R. H. Sargent, USGS, because of "its sinuosities".

Figure Eight Lake: lake, 0.8 miles long, on right bank of Stikine River, 16 miles NE of Wrangell, Coast Mountains; 56° 42' N, 132° 16' W; (map 6). Local descriptive name obtained in 1953 by USGS.

Figure Eight Lake: lake, 1 mile long, on SW part of Tanaga Island, Aleutian Islands; 57° 41' 30" N, 178° 03' 30" W; (map 16). Descriptive name applied because the lake's outline is like a figure eight; published on a 1954 USGS map.

Figure Eight Lake: lake, 3 miles long in Susitna River delta, 19 miles NW of Anchorage, Cook Inlet Lowland; 61° 18' 45" N, 150° 27' 00" W; (map 70). Local descriptive name reported in 1958 by USGS.

Figure Four Mountain: mountain, 2,421 ft., 4 miles NW of Mitlak Mountain and 25 miles N of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 28' 15" N, 161° 36' 30" W; (map 53). Variant: Figure IV Mountain. Local name obtained as "Figure IV Mountain" in 1898 from Rev. J. H. Romig, missionary, by J. E. Spurr and W. S. Post, USGS. So called because the deep valleys on the mountain side, when filled with snow, form the numeral IV when seen from the west.

File Point: point of land, on E coast of Liesnoi Island, at entrance to Woewodski Harbor, on Admiralty Island, 26 miles SE of Angoon, Alexander Archipelago; 57° 09' 35" N, 134° 15' 20" W; (map 9). Named in 1889 by Lt. Comdr. H. B. Mansfield, USN, and published by USC&GS in the 1891 Coast Pilot (p. 142).

Fillmore Inlet: estuary, extends NE 14 miles from mouth of Pearse Canal, between Fillmore Island and mainland, Coast Mountains; 54° 47' 15" N, 130° 37' 15" W, (map 2). Variant: Nakat Inlet. Named in 1891 by USC&GS. Name derived from the island.

Fillmore Island: island, 6 miles long, between Fillmore Inlet and Pearse Canal, Coast Mountains; 54° 49' 30" N, 130° 33' 15" W; (map 2). Named in 1885 by USC&GS for Ens. John Hudson Fillmore, USN.

Fillmore Peak: peak, 3,700 ft., 0.2 miles E of Everett Peak and 29 miles SE of Juneau, Coast Mountains; 58° 00' 30" N, 133° 53' 00" W; (map 12). Named in 1888 by Lt. Comdr. C. M. Thomas, USN, for Millard Fillmore, 1800-74, 13th President of the United States.

Fillmore Rock: rock, in Port Chester, 1.7 miles N of Metlakatla, Alexander Archipelago; 55° 09' 20" N, 131° 35' 10" W; (map 3). Variant: Fillmore Rocks. Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Fillmore Rocks: rock, see Fillmore Rock.

Fillmore: locality, on east shore of Nakat Harbor, 25 miles NE of head of Nakat Bay, Alexander Archipelago; 54° 50' N, 130° 42' W; (map 2). This place was shown as an abandoned cannery in 1938 on USC&GS Chart 8141. Name derived from nearby Fillmore Island.

Filthy Hill: hill, 447 ft., on S coast of Kiska Island, Aleutian Islands; 51° 51' 23" N, 177° 19' 25" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Fin Creek: stream, flowing SW Island 1 mile to Pacific Ocean, 1.5 miles SE of Cape St. Stephen, on S coast of Kiska Island, Aleutian Islands; 51° 52' 33" N, 177° 14' 10" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Fin Creek: stream, heads in Brooks Range, flows NW 30 miles to Juniper Creek, 13 miles SE of head of Shaviovik River, Arctic Plain; 69° 33' N, 147° 28' W; BGN 1960; (map 140). So named in 1951 by A. S. Keller, USGS, "to delineate a suggestion of a 'fin' [tributary] to Juniper Creek."

Fin Point: point of land, SE tip of Hassler Island, N of Gedney Pass, Alexander Archipelago; 55° 51' 15" N, 131° 35' 20" W; (map 3). Local name published in 1943 by USC&GS.

Fina, Boka: water passage, see Finas, Bocas de.

Final Bay: bay, 0.6 miles across, part of Beaver Inlet, on E coast of Unalaska Island, Aleutian Islands; 53° 42' 30" N, 166° 31' 45" W; (map 23). Named by J. J. Gilbert, commander of the USC&GS steamer Pathfinder during 1900-01.

Finas, Bocas de: water passage, extends 4 miles NW from Gulf of Esquibel, between Heceta Island and Maurelle Islands, Alexander Archipelago; 55° 41' 30" N, 133° 35' 00" W; (map 4). Variant: Boka Fina, Bokas de Finas. Spanish name given in 1779 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Bocas de Finas," i.e. "final [?] passage." According to Wagner (1937, p. 389), "It is perhaps an error for fines-probably the limit of Bucareli Bay at the north end of Mourelle's [sic] reconnaissance in 1779."

Finas, Bokas de: water passage, see Finas, Bocas de.

Finch Cove: bight, 2 miles across, on NE coast of Seguam Island, Aleutian Islands; 52° 22' 30" N, 172° 23' 00" W; (map 19). Name published by USC&GS in 1944 Aleutian Coast Pilot (p. 87).

Finch Point: point of land, N tip of Seguam Island, Aleutian Islands; 52° 23' 20" N, 172° 24' 30" W; (map 19). Named by a special U.S. Navy survey party, and published by USC&GS in 1944 Aleutian Coast Pilot (p. 87).

Fine Cape: point of land, see Tonki Cape.

Finegan Point: locality, see Finnegans Point.

Finger Bay: bay, 1 mile across, on S shore of Kuluk Bay, on NE coast of Adak Island, Aleutian Islands; 51° 50' 45" N, 176° 35' 00" W; BGN 1936; (map 17). So named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934, "because of its shape."

Finger Bay: bay, 3.6 miles long, on W shore of Whidbey Passage, in Glacier Bay National Monument, 2 miles W of Willoughby Island and 41 miles NW of Hoonah, St. Elias Mountains; 58° 35' 00" N, 136° 11' 30" W; BGN 1942; (map 10). Named by USC&GS in 1939 because "it consists of five small inlets on the west, which suggest the name."

Finger Cove: cove, 0.2 miles across, on W shore of Finger Bay, on NE coast of Adak Island, Aleutian Islands; 51° 50' 00" N, 176° 37' 20" W; (map 17). Descriptive name derived from Finger Bay and published by USC&GS in 1963 on Chart 9119.

Finger Glacier: glacier, in Glacier Bay National Monument, heads on E slope of Mount Perouse, trends SW 9 miles to its 1961 terminus 1 mile N of Gulf of Alaska, 67 miles WNW of Hoonah, St. Elias Mountains; 58° 26' 15" N, 137° 10' 00" W; (map 10). Local name published by USGS in the 1950's.

Finger Glacier: glacier, on Alaska Peninsula, on E slope of Mount Veniaminof, trends E 4 miles to its terminus 5.5 miles SW of Knife Peak, Aleutian Range; 56° 12' N, 159° 09' W; (map 30). Descriptive name reported in 1923 by R. H. Sargent, USGS.

Finger Islands: islands, 0.3 miles long, S of entrance to Shipley Bay, on NW coast of Kosciusko Island, Alexander Archipelago; 56° 04' 30" N, 133° 42' 20" W; (map 6). Variant: Finger Islets. Descriptive name given for charting purposes by USC&GS in 1883 Coast Pilot (p. 101) as "Finger Islets."

Finger Islets: islands, see Finger Islands.

Finger Lake: lake, 1 mile long, empties into Patterson Bay, on SE coast of Baranof Island, Alexander Archipelago; 56° 36' 15" N, 134° 41' 30" W; BGN 1933; (map 5). Named in 1933 by USFS "because of its shape."

Finger Lake: lake, 1.3 miles long, N of Skwentna River, 70 miles NW of Tyonek, Alaska, Range; 61° 59' 00" N, 152° 04' 30" W; (map 70). Local name reported in 1958 by USGS.

Finger Lake: lake, 1.8 miles long, in Matanuska Valley, 5 miles W of Palmer, Cook Inlet Lowland; 61° 36' 25" N, 149° 16' 30" W; (map 69). Descriptive name given in 1898 by Capt. E. F. Glenn, USA. So named "because when viewing the lake on a map, a point of land in the lake gives the impression of a finger."

Finger Lake: lake, 2 miles long, between Diamond Lake and Papoose Twins, 21 miles N of Anchorage, Cook Inlet Lowland; 61° 31' 10" N, 150° 03' 00" W; (map 70). Local name reported by USGS in 1929.

Finger Lakes: lakes, four, largest of which is 1.5 miles long, 9 miles NW of Sterling and 13 miles NW of Kenai, Cook Inlet Lowland; 60° 39' N, 150° 54' W; (map 62). Named about 1963 by officials of the Kenai National Moose Range, for administrative purposes.

Finger Lakes: lakes, on N bank of Knik River, 11 miles SE of Palmer, Cook Inlet Lowland; 61° 30' 15" N, 148° 49' 30" W; (map 69). Local name published as Finger Lake on D. H. Sleem's 1910 map of central Alaska.

Finger Mountain: mountain, 2,700 ft., 3 miles NE of Hoonah Sound, on Chichagof Island, 22 miles W of Chichagof, Alexander Archipelago; 57° 40' 20" N, 135° 28' 45" W; (map 9). Descriptive name given in 1895 by Lt. Comdr. E. K. Moore, USN.

Finger Point: point of land, 0.1 miles long, on E coast of Lindenberg Peninsula, Kupreanof Island, 9 miles S of Petersburg, Alexander Archipelago; 56° 40' 45" N, 132° 56' 35" W; (map 6). Descriptive name given in 1881 by Lt. Comdr. H. E. Nichols, USN.

Finger Point: point of land, between Kritoi Basin and Port Banks, in Whale Bay, on SW coast of Baranof Island, Alexander Archipelago; 56° 36' 00" N, 135° 00' 15" W; BGN 1926; (map 5). Descriptive name given in 1925 by USC&GS because of its shape.

Finger Point: point of land, on NW coast of Little Sitkin Island, Rat Islands, Aleutian Islands; 51° 58' 40" N, 178° 27' 00" E; (map 15). Descriptive name reported by Snyder (1959, p. 173), USGS.

Finger Shoal: shoal, 0.6 miles NE of Lucky Point, in Kuluk Bay, off NE end of Adak Island, Aleutian Islands; 51° 51' 42" N, 176° 34' 09" W; BGN 1936; (map 17). Name derived from Finger Bay, and given by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

Finigan's Point: locality, see Finnegans Point.

Fink Creek: settlement, on left bank Inmachuk River, 1 mile SW of Utica and 20 miles NNE of Imuruk Lake, Seward Peninsula Highlands; 65° 54' N, 163° 01' W (map 110). Reported in 1923 on an ARC map.

Fink Creek: stream, flows NW 1.8 miles to Inmachuk River, 20 miles NE of Imuruk Lake, Seward Peninsula Highlands; 65° 50' N, 162° 59' W; (map 110). Prospectors' name reported in 1901 by USGS (Collier, 1902, pl. 12).

Finland Creek: stream, flows NW 16 miles to Innoko River, 1.9 miles E of Rennies Landing and 37 miles NW of Ophir, Innoko Lowland; 63° 36' 50" N, 157° 01' 00" W; (map 90). Local name obtained from Joseph Ferris in 1954 by R. E. Isto, USGS.

Finn Lake: lake, see Otto Lake.

Finn Mountain: mountain, 2,480 ft., 36 miles N of Sleitat Mountain and 75 miles S of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 35' N, 157° 10' W; BGN 1932; (map 60). Local name obtained in 1931 by Gerald FitzGerald, USGS; name "used by trappers on the Upper Nushagak."

Finn, The: point of land, extends 1.4 miles W from Hole-in-the-Wall Glacier, 23 miles NE of McCarthy, Wrangell Mountains; 61° 36' N, 142° 19' W; (map 67). Local name obtained by USGS in 1954.

Finnegan: railroad station, see Turnagain.

Finnegans Point: locality, on Dyea (Taiya) River 5 miles above its mouth and about 7 miles N of Skagway; (map 45). Variant: Finegan Point, Finigan's Point. Prospectors' name reported as Finegan in 1898 by J. A. Flemer, USC&GS. This point marked the end of the wagon road from Dyea, on the trail to Chilkoot Pass. It is described in "En Route to the Klondike," a series of photographic views by F. LaRoche, published in 1898 by W. B. Conkey Co., Chicago. Not identified on modern maps.

Finney Beach: beach, see Finny Beach.

Finneys Bay: bay, 1 mile across, on NE shore of Sanak Island, near Finneys Island, Sanak Islands, Aleutian Range; 54° 25' 15" N, 162° 33' 00" W; (map 25). Name reported by Ferdinand Westdahl, USC&GS, commander of the Coast Survey steamer McArthur, who made surveys in this area in 1901.

Finneys Island: island, 0.5 miles long, between Sanak and Wanda Islands. Sanak Islands, Aleutian Range; 54° 25' N, 162° 32' W; (map 25). Name reported by Ferdinand Westdahl, USC&GS, commander of the Coast Survey steamer McArthur, who made surveys in this area in 1901.

Finny Beach: beach, 0.3 miles long, at head of Nyman Peninsula, on N shore of Womens Bay, 5 miles SW of Kodiak, Kodiak Island; 57° 44' 10" N, 152° 29' 35" W; (map 34). Variant: Finney Beach. Name published as "Finney Beach" in the 1930's by USC&GS.

Finski Bay: cove, on NE coast of Glacier Island, 0.7 miles across, 3 miles S of entrance to Columbia Bay, 55 miles NE of Whittier, Chugach Mountains; 60° 54' 00" N, 147° 05' 15" W; BGN 1911; (map 63). Named in 1905 by U. S. Grant, USGS, "for a prospector who had a cabin there."

Finski Point: point of land, on NE coast of Glacier Island, E point of entrance to Finski Bay, 56 miles NE of Whittier, Chugach Mountains; 60° 54' 00" N, 147° 04' 30" W; BGN 1911; (map 63). Named in 1911 by U. S. Grant, USGS, "for a prospector who had a claim there."

Fir Island: island, see Sosnovoi Island.

Fir Rock: rock, in SW El Capitan Passage, SW of Teal Island, Alexander Archipelago; 55° 55' N, 133° 22' W; (map 4) Local name published in 1925 Coast Pilot (p. 154).

Fire Cove: cove, 1 miles long, on SW coast of Harris Peninsula, 34 miles SW of Seward and 1.8 miles NW of Aligo Point, Chugach Mountains; 59° 39' 30" N, 149° 46' 45" W; BGN 1911; (map 49). Named in 1908 by U. S. Grant, USGS.

Fire Cove: cove, extends SW 0.8 miles off Neets Bay, on NW coast of Revillagigedo Island, Alexander Archipelago; 55° 46' 40" N, 131° 32' 15" W; BGN 1931; (map 3). Named in 1931 by USFS.

Fire Creek: stream, flows NE 12 miles to Meadow Creek, 40 miles N of Medfra, Kilbuck-Kuskokwim Mountains; 63° 42' N, 154° 44' W; (map 89). Local name reported in 1924 by J. S. Brown (in Smith, P. S., and others, 1926, pl. 5), USGS.

Fire Creek: stream, heads at glacier terminus, flows NE 9 miles to Okokmilaga River 26 miles SE of its junction with Killik River, Brooks Range; 68° 27' N, 153° 10' W; (map 133). Named in 1951 by W. W. Patton, W. R. Brosge, and M. D. Mangus, USGS, during exploration of Naval Petroleum Reserve No. 4.

Fire Creek: stream, heads in Lower Fire Lake, flows N 6.7 miles to Knik Arm, W of Birchwood, 18 miles NE of Anchorage, Cook Inlet Lowland; 61° 24' 30" N, 149° 32' 50" W; (map 69). Local name reported in 1906 by T. G. Gerdine and R. H. Sargent, USGS.

Fire Creek: stream, heads in Shublik Mountains, flows NE 13 miles to Sadlerochit River 6 miles W of its junction with Kekiktuk River, 22 miles NW of Mount Michelson, Brooks Range; 69° 31' 25" N, 144° 57' 00" W; BGN 1961; (map 139). So named by USGS geologists in 1948 because it flows partly through Ignek Valley; "ignek" means "fire" in Eskimo.

Fire Island: island, 0.1 miles long, 1.5 miles N of Exchange Island, in Kashevarof Passage, on N coast of Prince of Wales Island, Alexander Archipelago; 56° 14' 05" N, 133° 03' 15" W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow, USN. name published in 1887 on USC&GS Chart 706.

Fire Island: island, 0.2 miles across, in Bering Sea, 0.5 miles N of Bogoslof Island and 27 miles N of Umnak Island, Aleutian Islands; 53° 56' 40" N, 168° 02' 55" W; (map 22). Variant: New Bogoslof Island, Old Bogoslof Island. Name published in 1943 by USC&GS. The island first emerged in 1883 and was called "Old Bogoslof"; it was connected to Bogoslof Island by a spit from 1884 to 1890.

Fire Island: island, 5.5 miles long, in head of Cook Inlet, 9 miles SW of Anchorage, Cook Inlet Lowland; 61° 09' N, 150° 12' W; (map 70). Variant: Mushukli Island, Ostrov Mushukhli, Turnagain Island. Name published in 1895 by USC&GS. Named "Turnagain Island" on April 20, 1794, by Capt. George Vancouver (Wagner, 1937, p. 521). The Tanaina Indian name was published in 1847 as "Os[trov] Mushukhli," or "Mushokhli Island," on Russian Hydrog. Dept. Chart 1378.

Fire Lake: lake, 0.5 miles long, on Kenai Peninsula W of Skilak Lake, 25 miles SE of Kenai, Cook Inlet Lowland; 60° 26' 30" N, 150° 33' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Fire Lake: lake, see Lower Fire Lake.

Fire Point: point of land, N point of entrance to Saks Cove, on E side of Behm Canal, Coast Mountains; 55° 56' N, 131° 09' W; (map 3). One of many arbitrary names applied to features in this area in 1891 by USC&GS.

Fire River: estuary, see Knik Arm.

Fireweed Creek: stream, on Alaska Peninsula, heads at Island Glacier, flows N 22 miles to Blueberry Creek, 28 miles N of Mount Veniaminof, Bristol Bay Lowland; 56° 35' N, 159° 14' W; (map 30). Name reported in 1923 by R. H. Sargent, USGS; published in 1927 by USGS.

Fireweed Mountain: mountain, 6,660 ft., 5 miles W of McCarthy, Wrangell Mountains; 61° 27' N, 143° 06' W; BGN 1966; (map 67). The Mountaineering Club of Alaska reports that this is a local name given by Molly Gilmore, lifelong resident of the McCarthy area who, at age 17, named this mountain for the abundance of fireweed that followed forest fires on its slopes in the 1920's. Though the most common and well known flower in Alaska it is commemorated on no other Alaskan mountain.

Firewood, Bay of: bay, see Driftwood Bay.

First Berg Lake: lake, see Berg Lake.

First Bluff: cliff, 570 ft., E of High Bluffs, along N coast of St. George Island, Pribilof Islands, 56° 36' 10" N, 169° 37' 30" W; (map 38). Descriptive name published by USC&GS; so called because it is the first bluff going west from Saint George.

First Canyon: canyon, on left bank of Unuk River, 15 miles NE of its mouth at Burroughs Bay, Coast Mountains; 56° 15' N, 130° 50' W; (map 7). Descriptive name given in 1906 by F. Morse, USC&GS, as it was "the first canyon [in this area] to be caused by a lava flow"; published in 1927 on IBC Sheet 3.

First Chance Cabin: locality, see Last Chance.

First Chance Creek: stream, flows NE 1.4 miles to Kiwalik River, 50 miles NW of Haycock, Seward Peninsula Highlands; 65° 51' N, 161° 54' W; (map 109). Local name published on maps after 1950.

First Chance Creek: stream, flows NW 2.3 miles to Goldstream Creek, 9 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 58' N, 147° 36' W; (map 100). Named by prospectors; published in 1908 by USGS.

First Chance Creek: stream, flows NW 20 miles to Iditarod River, 25 miles N of Flat and 50 miles SE of Holikachuck, Kilbuck-Kuskokwim Mountains; 62° 49' N, 157° 56' W; (map 79). Prospectors' name reported in 1912 by H. M. Eakin, USGS.

First Chance Creek: stream, flows SE 3.3 miles to Bonanza Creek, 9 miles SE of Flat and 50 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 62° 20' 25" N, 157° 52' 30" W; (map 79). Prospectors' name published in 1921 by USGS.

First Chance Creek: stream, flows SW 16 miles to Koyuk River, 26 miles NW of Haycock, Seward Peninsula Highlands; 65° 20' N, 162° 00' W; (map 109). Local name shown on a 1903 fieldsheet by D. C. Witherspoon, USGS.

First Chance Creek: stream, flows W 3.2 miles to Wilson Creek Slough, 2 miles S of Marshall, Yukon-Kuskokwim Delta; 61° 51' 20" N, 162° 02' 40" W; (map 74). Local miners' name reported in 1916 by Harrington (1918, map), USGS.

First Creek: stream, flows NW 13 miles to Reindeer Cove, 12 miles SW of Christmas Mountain, Nulato Hills; 64° 32' N, 161° 00' W; (map 96). Local name reported about 1954 by U.S. Army Corps of Engineers.

First Creek: stream, heads in Dutch Hills, flows W 1.4 miles to Dutch Creek, 35 miles NW of Talkeetna, Alaska Range; 62° 35' 45" N, 151° 02' 00" W; (map 81). Prospectors' name reported in the 1930's by USGS.

First Creek: stream, heads in Tokosha Mountains, flows SE 13 miles to Tokositna River, 22 miles NW of Talkeetna, Alaska Range: 62° 37' 30" N, 150° 37' 40" W; (map 81). Local descriptive name reported in 1958 by USGS.

First Creek: stream, heads in Zane Hills, flows NE and E 12 miles to Hogatza River, 33 miles WNW of Hughes, Hogatza Highlands; 66° 07' 30" N, 155° 25' 00" W; (map 116). So named about 1955 because it is the first stream which crosses the road between Hog Landing and Hogatza; reported in 1956 by Orth.

First Fork Koksuktapaga: stream, see Lower Willow Creek.

First Fork Selatna River: stream, flows N 30 miles to Selatna River 3.5 miles E of its junction with Kuskokwim River, 32 miles S of McGrath, Kilbuck-Kuskokwim Mountains; 62° 30' 15" N, 155° 41' 30" W; (map 80). Local name obtained in 1954 by USGS.

First Glacier: glacier, see Popof Glacier.

First Hill Lake: lake, 1.5 miles long, between Crosswind and Second Hill Lakes, 27 miles NW of Glennallen, Copper River Basin; 62° 22' N, 146° 08' W; (map 83). Local name reported in 1951 by USGS.

First Hills Slough: stream, flows NE 10 miles to Huslia River, 15 miles NW of Roundabout Mountain. Koyukuk Lowland; 65° 31' N, 156° 39' W; (map 108). Local name obtained at Huslia by USGS in 1954 or 1955.

First Kekour: rock, see First Kekur.

First Kekur: rock, 0.1 miles across, S of Kekur Peninsula, 14 miles NW of village of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 22' 25" N, 134° 56' 30" W; (map 5). Variant: First Kekour. Descriptive name meaning "pinnacle rock" given in 1849 by the Russian American Company. See Kekur Island.

First Lake: lake, 0.5 miles long, 1.3 miles N of Chitina and 66 miles NE of Valdez, Copper River Basin; 61° 32' 20" N, 144° 26' 55" W; (map 68). Local name published in the 1950's by USGS.

First Lake: lake, 4 miles E of Whitefish Lake and 21 miles NE of Roundabout Mountain, Koyukuk Lowland; 65° 47' N, 156° 05' W; (map 108). Local name obtained at Huslia by USGS in 1954 or 1955.

First Lake: lake, 700 ft. long, in course of Indian Creek, on W shore of Cook Inlet, Cook Inlet Lowland; 61° 04' 10" N, 151° 08' 50" W; (map 70). Local name reported in 1958 by USGS; named because it is the first lake encountered when traveling from Tyonek to the Chuitna River.

First Lake: lake, see Roaring Bear Lake.

First Narrows: water passage, between Lodge Island and N shore of Rakof Islands, 6.5 miles SE of Goddard, on W coast of Baranof Island, Alexander Archipelago; 56° 45' 20" N, 135° 16' 45" W; (map 6). Local fishermen's name reported in 1947 by USC&GS.

First Narrows: water passage, between Midway Island and W shore of Redfish Bay, 10.2 miles NW of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 19' 25" N, 134° 52' 10" W; (map 5) Named in 1897 by Lt. Comdr. J. F. Moser, USN, commander of USBF steamer Albatross.

First North Tributary: glacier, see Casement Glacier.

First Point: point of land, see Shoals Point.

First Pup: stream, flows NW 1.5 miles to Flat Creek, 39 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 12' 30" N, 146° 50' 00" W; (map 104). Named "First Pup" by prospectors; published by USGS (Prindle, 1908, pl. 4). See Second Pup and Third Pup.

First Rapid: rapids, see North Rapid.

First Rapids: rapids, on Alsek River, 6 miles NE of Dry Bay and 52 miles SE of Yakutat, Malaspina Coastal Plain; 59° 11' 20" N, 138° 25' 10" W; (map 46). Local name published by USGS in 1959.

First Timber Creek: stream, flows SE 4 miles to Nushagak River, 80 miles SE of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 36' N, 156° 35' W; (map 60). Local name reported in 1952 by USC&GS.

First Waterfall Creek: stream, flows NW 4.5 miles to Clover Passage, 1.7 miles NE of Potter Point, on W coast of Revillagigedo Island, Alexander Archipelago; 55° 29' 18" N, 131° 45' 52" W; (map 3). Local name recorded in 1954 by USGS.

Firth River: stream, heads at E end of Davidson Mountains, flows NE 125 miles across Alaska-Canada boundary to Beaufort Sea, SW of Herschel Island, in Yukon, Canada, 69° 33' N, 139° 30' W; BGN 1954; (map 137). Named by J. H. Turner, USC&GS, in 1890, for John Firth, Hudson's Bay Company agent at Rampart House, who accompanied Turner to the Arctic coast that year.

Firth River: stream, see Malcolm River.

Firtree Island: island, see Elovoi Island.

Fisch Bay: bay, see Fish Bay.

Fish Bay Creek: stream, flows NW 8 miles to Fish Bay, on NW coast of Baranof Island, Alexander Archipelago; 57° 21' 30" N, 135° 29' 00" W; (map 9). Local name reported in 1916 by G. A. Waring (1917, fig. 3), USGS.

Fish Bay: bay, 1.2 miles wide, on N coast of Port Fidalgo, 30 miles NW of Cordova, Chugach Mountains; 60° 49' N, 146° 26' W; (map 64). Name reported in 1903 by H. P. Ritter, USC&GS, while doing topographic and hydrographic surveys in the Copper River Delta region.

Fish Bay: bay, extends W 6 miles to Peril Straits, on NW coast of Baranof Island, 12 miles NE of Sitka, Alexander Archipelago; 57° 23' N, 135° 37' W; (map 9). Variant: Fisch Bay, Fishing Bay, Guba Rybya, Ribnaia Bay, Rieba Bay Rubia Bay. An 1882 translation by USC&GS of name published in 1848 on Russian Hydrog. Dept. chart 1397 as "Guba Rybya."

Fish Bay: bay, on Hinchinbrook Island, at mouth of Honker Creek, 22 miles SW of Cordova, Chugach Mountains; 60° 27' N, 146° 22' W. (map 64). Name published in 1950 by USGS.

Fish Camp Lake: lake, 1 mile across, 1.8 miles SW of junction of Kalutna and Tanana Rivers and 25 miles SW of Tok, Yukon-Tanana Highlands; 63° 09' N, 142° 17' W; (map 85). Local name reported in 1963 by USGS.

Fish Choked Creek: stream, flows NE 2.7 miles to Khotol River, 1 mile SW of junction of Khotol River and Kalyuh Slough, 21 miles SE of Nulato, Koyukuk Lowland; 64° 25' N, 157° 59' W; (map 97). Variant: Dlugatanzaratlna. Appears to be a translation of an Indian name; reported in 1935 by Frederica de Laguna, BAE.

Fish Creek Island: island, 2.5 miles long, in Tanana River, at mouth of Fish Creek, 14 miles SE of Tanana, Nowitna Lowland; 65° 05' N, 151° 39' W; (map 106). Riverboat pilots' name shown on a 1940 Navigation Chart, Tanana-Yukon Rivers.

Fish Creek Lake: lake, 0.4 miles long, 1 mile NW of junction of Jacksina Creek and Nabesna River, Wrangell Mountains; 62° 21' 45" N, 142° 54' 00" W; (map 84). Local name reported in 1960 by USGS.

Fish Creek Lake: lake, 0.9 miles long, 7 miles WSW of Lake Snohomish and 17 miles SW of village of Lake Minchumina, Tanana Lowland; 63° 42' N, 152° 43' W; (map 88). Variant: Lake Telida, Lhakatruntamena. Name reported in 1954 by USGS. The Tanana Indian name is given as "Lhakatruntamena," meaning "lake where one catches fish."

Fish Creek Lake: lake, 2.4 miles long, drains N to Fish Creek 3 miles E of its junction with South Fork Koyukuk River, 22 miles SE of Bettles, Kanuti Flats; 66° 35' N, 151° 28' W; (map 117). Local name reported in 1956 by T. E. Taylor, USGS.

Fish Creek: locality, site of a settlement at N end of Douglas Island at mouth of Fish Creek, 6 miles NW of Juneau, Coast Mountains; 58° 19' 50" N, 134° 35' 30" W; (map 11). Local name

from the creek of the same name. Homestead claims were filed here in 1880, and later a settlement was formed which was called Fish Creek. A school located here in 1936 was in use for several years (DeArmond, 1957, p. 19).

Fish Creek: stream, 2.7 miles long, flows W to join Taku River at S end of Canyon Island, 32 miles NE of Juneau, Coast Mountains; 58° 32' 40" N, 133° 40' 50" W; (map 12). Local name reported in 1951 by USGS.

Fish Creek: stream, distributary of Beaver Creek, flows NW 30 miles to Fish Slough, Yukon River, 5.5 miles SE of Beaver, Yukon Flats; 66° 17' 15" N, 147° 18' 00" W; (map 118). Local name obtained in 1956 by USGS.

Fish Creek: stream, flows N 17 miles to Wood River, 34 miles SW of Fairbanks, Tanana Lowland; 64° 24' N, 148° 11' W; (map 100). Local name reported by R. H. Sargent, USGS.

Fish Creek: stream, flows N' W 18 miles to Middle Fork Fortymile River, 55 miles SW of Eagle, Yukon-Tanana Highlands; 64° 24' N, 142° 49' W; (map 102). Prospectors' name obtained in 1898 by E. C. Barnard, USGS.

Fish Creek: stream, flows NE 9.5 miles to Jacksina Creek 2 miles SW of its junction with Nabesna River, Wrangell Mountains; 62° 20' N, 142° 55' W; BGN 1939; (map 84). Local name reported in 1939 by P. S. Smith, USGS.

Fish Creek: stream, flows NW 1.1 miles to Bering Sea, on SW Kiska Island, Aleutian Islands; 51° 54' 40" N, 177° 15' 15" E; (map 14). An arbitrary name beginning with F to correspond to "F" grid by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Fish Creek: stream, flows NW 18 miles to Garnet Creek 2 miles S of that streams junction with Yukon River, 19 miles SSW of Rampart, Yukon-Tanana Highlands; 65° 24' N, 150° 46' W; (map 106). Riverboat pilots' name shown on Edwards Track Chart of the Yukon, dated 1899.

Fish Creek: stream, flows NW 20 miles to Seventeen Mile Slough, 4 miles S of Nenana, Tanana Lowland; 64° 30' 20" N, 149° 06' 45" W; (map 100). Local name published in 1917 on a GLO [BLM] survey Plateau

Fish Creek: stream, flows S 20 miles to Porcupine River, 11 miles E of Coleen Mountain, Brooks Range; 67° 06' N, 142° 23' W; (map 121). Name reported by M. G. White (1952, fig. 1), USGS, in 1948.

Fish Creek: stream, flows S 4.5 miles to Salmon River, 3 miles N of Hyder, Coast Mountains; 55° 57' 25" N, 130° 03' 40" W; BGN 1930; (map 3) Local name reported in 1915 by Theodore Chapin (in Brooks and others, 1916, fig. 5), USGS.

Fish Creek: stream, flows S 5.4 miles to Mentasta Lake, 5 miles W of Mentasta Pass, Alaska Range; 62° 55' N, 143° 49' W; (map 84). Local name reported in 1951 by USGS.

Fish Creek: stream, flows SE 35 miles to Kroto Slough, 4.6 miles NE of Susitna and 33 miles NW of Anchorage, Cook Inlet Lowland; 61° 36' 30" N, 150° 28' 25" W; (map 70). Local name reported in 1958 by USGS.

Fish Creek: stream, flows SE 6.5 miles from Gray Mountain to Kachwona Creek, 2 miles NW of Frigid Crags, 28 miles SE of Anaktuvuk Pass and 38 miles NW of Wiseman, Brooks Range; 67° 51' N, 151° 00' W; BGN 1932; (map 124). So named in 1932 by Robert Marshall "because of the quantity of fish caught in the stream."

Fish Creek: stream, flows SE to Birch Creek, 50 miles SW of Eagle, Yukon-Tanana Highlands; 65° 25' 20" N, 145° 33' 50" W; (map 104). Named by prospectors; reported in 1909 by C. E. Ellsworth (in Brooks and others, 1910, p. 267), USGS.

Fish Creek: stream, flows SW 0.8 miles to Solomon River, 11 miles NE of Solomon, Seward Peninsula Highlands; 64° 43' N, 164° 18' W; (map 95). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Fish Creek: stream, flows SW 21 miles to Hess Creek, 35 miles NE of Rampart, Yukon-Tanana Highlands; 65° 41' N, 149° 05' W; (map 105). Local name reported in 1903 by T. G. Gerdine (in Prindle, 1905, pl. 16), USGS.

Fish Creek: stream, flows SW 5.6 miles to Breving Lagoon, 9 miles NW of Teller, Seward Peninsula Highlands; 65° 21' N, 166° 36' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Fish Creek: stream, flows SW to Solomon River near its head, about 15 miles N of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This stream cannot be precisely located on current maps.

Fish Creek: stream, flows W 10 miles to Savage River, 15 miles NW of Healy, Alaska Range; 63° 54' 30" N, 149° 26' 20" W; (map 87). Variant: Sunday Creek. Local name reported in 1951 by USGS.

Fish Creek: stream, flows W 60 miles to South Fork Koyukuk River, 20 miles S of Bettles, Kanuti Flats; 66° 37' 15" N, 151° 35' 30" W; (map 117). Name reported in 1899 by G. H. Wonson, Master of the steamer Dorothy, on his manuscript map of the Koyukuk River.

Fish Creek: stream, flows W then N 6.4 miles to Bootlegger Cove in Anchorage. Cook Inlet Lowland; 61° 12' 27" N, 149° 55' 45" W; (map 69). Local name reported in 1942 by AMS.

Fish Creek: stream, heads at Fish Lake, flows NW 11 miles to Tanana River at Fish Creek Island, 15 miles SE of Tanana, Nowitna Lowland; 65° 05' N, 151° 38' W; (map 106). Variant: Boulder Creek, Guthna Creek. This name was probably given or obtained in 1902 by Lt. Gibbs, U.S. Army Signal Corps. The Indian name was "Guthna," meaning "Gush River," according to Lt. J. S. Herron, USA, in 1899. About 1908 local usage applied the name "Boulder Creek" to the stream's head. Cartographers compromised and used "Fish Creek" for the lower part below Fish Lake and applied the name "Boulder Creek" above the lake.

Fish Creek: stream, heads at glacier, flows NE 8.5 miles to Hartman River 10 miles SW of its junction with South Fork Kuskokwim River, 95 miles NW of Tyonek, Alaska Range; 61° 50' 15" N, 153° 29' 00" W; (map 71). Local name reported in 1958 by USGS.

Fish Creek: stream, heads at junction of Barnes and Pearl Creeks, flows NE 11 miles to Little Chena River, 28 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 03' 25" N, 146° 57' 55" W; (map 104). Local name reported in 1903 by T. G. Gerdine (in Prindle, 1905, pl. 13), USGS.

Fish Creek: stream, heads at Lake Mansfield, flows S 4.7 miles to Little Tanana Slough, 2.3 miles NW of Tanacross, Yukon-Tanana Highlands; 63° 25' N, 143° 24' W; (map 85). Local name reported in 1950 by USGS.

Fish Creek: stream, heads in Big Lake, flows SE 12 Mi. to Knik Arm, 2 miles SW of Knik and 16 miles NE of Anchorage, Cook Inlet Lowland; 61° 26' 15" N, 149° 46' 05" W; (map 69). Local name obtained from GLO[BLM] survey plats of 1911.

Fish Creek: stream, heads in Indian Mountains, flows N 9 miles to Koyukuk River, 19 miles NNE of Hughes, Kokrines-Hodzana Highlands; 66° 17' N, 153° 53' W; (map 116). Local name recorded at Hughes in 1956 by Orth.

Fish Creek: stream, heads in lake at 69° 52' N, 153° 04' W, flows NE 110 miles to Harrison Bay, W of Colville River Delta, Arctic Plain; 70° 22' 45" N, 151° 13' 30" W; (map 149). Local name reported in 1951 by USC&GS.

Fish Creek: stream, heads in lake, flows N 40 miles to North Fork Kuskokwim River, 11 miles W of village of Lake Minchumina, Tanana Lowland; 63° 55' 10" N, 152° 40' 20" W; (map 88). Local name reported in 1925 by USGS.

Fish Creek: stream, heads in Red Shirt Lake, flows SW 26 miles through Flat Horn Lake to Susitna River, 23 miles NW of Anchorage, Cook Inlet Lowland; 61° 22' N, 150° 30' W; (map 70). Local name reported in 1958 by USGS.

Fish Creek: stream, heads in Upper Fish Lake, flows NW through Lower Fish Lake 3.5 miles to Gulkana River, 4.5 miles N of Paxson, Alaska Range; 63° 06' 08" N, 145° 29' 20" W; (map 86). Name published on relatively recent maps.

Fish Creek: stream, in Glacier Bay National Monument, flows S 0.5 miles from Fish Lake to Lituya Bay, 88 miles NW of Hoonah, Malaspina Coastal Plain; 58° 38' 40" N, 137° 38' 00" W; (map 10). Name published by members of the Harvard-Dartmouth Expedition, 1933-34 (Washburn and Goldthwaite, 1936, map).

Fish Creek: stream, on N end of Douglas Island, heads in Cropley Lake and flows 6 miles NW to Fritz Cove, 0.4 miles SE of Hut Point and 7 miles NW of Juneau; 58° 19' 50" N, 134° 35' 30" W; (map 11). This name first appeared in mining records in 1885 when the water was claimed for the Treadwell mines. The stream subsequently became the northern end of the Treadwell Ditch (DeArmond, 1957, p. 19). The name was reported in 1902 by W. J. Peters, USGS.

Fish Creek: stream, on Revillagigedo Island, flows S 16 miles through several lakes to Thorne Arm, Alexander Archipelago; 55° 23' 30" N, 131° 11' 45" W; (map 3) Local name reported by F. E. Wright and C. W. Wright (1908, fig. 12), USGS.

Fish Creek: stream, see Barabara Creek.

Fish Creek: stream, see Bonanza Creek.

Fish Creek: stream, see Ketchikan Creek.

Fish Creek: stream, see Monte Cristo Creek.

Fish Creek: stream, see Sunday Creek.

Fish Egg Island: island, 1.8 miles long, 1 mile N of Ballena Islands, between Klawak Inlet and San Alberto Bay, on W coast of Prince of Wales Island, NW of Craig, Alexander Archipelago; 55° 29' 20" N, 133° 10' 15" W; (map 4). Variant: Egg Island, Fish Egg Islets, Isla de Paba, La Ballena. Named in 1897 by Comdr. J. F. Moser, USN. This island was given the Spanish name "La Ballena" meaning "the whale" by Don Juan de la y Quadra and Francisco Antonio Maurelle. H. E. Nichols, USN, published the name "Egg" for this island and "Fish Egg Islets" for Balandra and the Ballena Islands (U.S. Coast and Geodetic Survey, 1891, p. 121). Baker (1906, p. 257) says "Moser, 1897, uses the name Fish Egg for a much larger island about a mile north of these [Balandra Island, Ballena Islands] * * * Moser's name is here adopted for the island and the islets near it."

Fish Egg Islets: island, see Fish Egg Island.

Fish Egg Reef: reef, extends E 1,000 ft. from Fish Egg Island, in Klawak Inlet, 0.4 miles N of Craig, Alexander Archipelago; 55° 29' 00" N, 133° 09' 20" W; (map 4). Name published in 1932 Coast Pilot (p. 211).

Fish Egg: village, see Craig.

Fish Hill: hill, 400 ft., on S coast of Kiska Island, Aleutian Islands; 51° 52' 00" N, 177° 19' 20" E. (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II: published on a 1953 AMS map.

Fish Island: island, in Yukon River, 46 miles E of Nulato, Koyukuk Lowland; 64° 39' N, 156° 30' W; (map 97). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by U.S. Dept. of Interior.

Fish Islands: islands, two, each 200 ft. long, in Felice Strait, near W entrance to Cat Passage, Alexander Archipelago; 55° 00' 30" N, 131° 19' 00" W; (map 3). Variant: Fish Islet. This feature was named "Fish Islet" by Lt. Comdr. H. E. Nichols, USN, in 1883.

Fish Islet: islands, see Fish Islands.

Fish Lake Creek: stream, heads in northernmost Fish Lakes, flows S 4.6 miles to Yentna River, 59 miles N of Tyonek, Cook Inlet Lowland; 61° 55' 30" N, 150° 57' 30" W; (map 70). Local name reported in 1954 by USGS.

Fish Lake: lake, 0.1 miles long, on Latouche Island, 18 miles SE of Chenega, Chugach Mountains; 60° 02' 29" N, 147° 53' 45" W; (map 63). Local name reported in 1909 by Grant and Higgins (1910, pl. 12), USGS.

Fish Lake: lake, 0.2 miles long, 1.1 miles S of Sixmile Lake and 4.7 miles NE of Anchorage, Cook Inlet Lowland; 61° 16' 24" N, 149° 48' 20" W; (map 69). Local name reported in 1952 by USGS.

Fish Lake: lake, 0.5 miles long, 22 miles NE of Palmer, between Castle Mountain and Glenn Highway, Talkeetna Mountains; 61° 47' 05" N, 148° 33' 40" W; (map 69). Local name reported in 1942 by AMS.

Fish Lake: lake, 0.5 miles long, on Kenai Peninsula NW of Waterfowl Lake, 22 miles NE of Kenai, Cook Inlet Lowland; 60° 43' 30" N, 150° 43' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Fish Lake: lake, 0.6 miles long, N of Glenn Highway, 34 miles W of Glennallen, Copper River Basin; 62° 03' N, 146° 32' W; (map 83). Local name reported in 1949 by USGS.

Fish Lake: lake, 0.8 miles long, SW of Knob Ridge, 43 miles NW of Tok, Alaska, Range; 63° 33' 30" N, 144° 17' 20" W; BGN 1961; (map 86). Local name reported in 1958 by USGS.

Fish Lake: lake, 1 mile long, 0.5 miles NNE of Big Lake and 24 miles SSW of village of Lake Minchumina, Tanana Lowland; 63° 32' 45" N, 152° 30' 00" W; (map 88). Variant: White Fish Lake. Local name reported in 1954 by USGS.

Fish Lake: lake, 1 mile long, in course of Birch Creek, 4.7 miles S of Talkeetna, Cook Inlet Lowland; 62° 15' 05" N, 150° 03' 45" W; (map 81). Local name reported by Alaska Railroad surveyors in 1917.

Fish Lake: lake, 1 mile long, in Glacier Bay National Monument, 0.3 miles N of Lituya Bay and 88 miles NW of Hoonah, Malaspina Coastal Plain; 58° 38' 45" N, 137° 38' 00" W; (map 10). Local name published by USGS in the 1950's.

Fish Lake: lake, 2 miles long, drains N to Eureka Creek, 20 miles NW of Paxson, Alaska Range; 63° 13' 45" N, 145° 59' 45" W; (map 86). Name published on relatively recent maps.

Fish Lake: lake, 2.5 miles long, 2.5 miles E of Northway, Alaska Range; 62° 57' N, 141° 50' W; (map 84). Local name reported in 1954 by USGS.

Fish Lake: lake, 2.7 miles long, in course of Little Fish Creek, 6 miles N of Tanacross, Yukon-Tanana Highlands; 63° 28' N, 143° 16' W; (map 85). Local name reported in 1950 by USGS.

Fish Lake: lake, 3 miles NW of Long Lake and 7 miles E of Roundabout Mountain, Koyukuk Lowland; 65° 35' N, 156° 20' W; (map 108). Local name obtained at Huslia by USGS in 1954 or 1955.

Fish Lake: lake, 3.5 miles across, at head of Fish Creek, 21 miles ESE of Tanana, Yukon-Tanana Highlands; 65° 04' N, 151° 21' W; (map 106). Prospectors' name reported in 1906 by USGS (Prindle, 1908, p. 5).

Fish Lake: lake, 4 miles long, E of Tetlin Lake, 21 miles SE of Tok, Alaska Range; 63° 02' 30" N, 142° 36' 00" W; (map 85). Local name reported in 1964 by USGS.

Fish Lake: lake, 4.5 miles long, in course of Dog Creek 1 mile S of its junction with West Fork Gulkana River, 30 miles NNW of Glennallen, Copper River Basin; 62° 33' N, 145° 51' W; (map 83). Name reported by D. C. Witherspoon (in Moffit, 1912, pl. 1), USGS.

Fish Lake: lake, see Big Lake.

Fish Lakes: lakes, extend 3.5 miles in course of Fish Lake Creek, 59 miles N of Tyonek, Cook Inlet Lowland; 61° 57' 10" N, 150° 57' 30" W; (map 70). Local name reported in 1954 by USGS.

Fish Lakes: lakes, in course of Moose Creek, 10 miles SE of Northway, Alaska Range; 62° 48' 30" N, 141° 52' 00" W; (map 84). Local name reported in 1954 by USGS.

Fish Mountain: mountain, 2,624 ft., on Revillagigedo Island, 2.5 miles NE of Ketchikan, Alexander Archipelago; 55° 22' 40" N, 131° 36' 15" W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Fish Point: point of land, N entrance to Fish Bay, at W end of Peril Strait, on Baranof Island, 26 miles NW of Sitka, Alexander Archipelago; 57° 23' 25" N, 135° 37' 30" W; (map 9). Variant: Mys Rybnyy, Point Ribni. Named "Mys Rybnyy", meaning "fish cape," in 1848 by the Russian Hydrog. Dept. published on its Chart 1397.

Fish Point: point of land, on N bank of Chickamin River at Behm Canal, Coast Mountains; 55° 48' N, 130° 59' W; (map 3). One of many arbitrary names applied to features in this area in 1891 by USC&GS.

Fish River: stream, flows NW 28 miles to Highpower Creek, 33 miles SW of village of Lake Minchumina, Kuskokwim Lowland; 63° 28' 30" N, 152° 53' 10" W; (map 88). Name obtained locally in 1962 from Fabian Carey and "Val" Blackburn by USGS.

Fish River: stream, flows SW 24 miles to a lake, 5 miles NE of Selawik, Kotzebue-Kobuk Lowland; 66° 40' N, 159° 58' W; (map 114). Local name reported by the U.S. Army Corps of Engineers in 1955.

Fish River: stream, flows SW 30 miles to the Buckland River, 49 miles NE of Haycock, Nulato Hills; 65° 51' N, 160° 26' W; (map 109). Variant: Reka Ikeut. Local name obtained in 1900 by USGS.

Fish River: stream, heads in Bendeleben Mountains, flows S 47 miles to Golovnin Lagoon, 35 miles E of Solomon, Seward Peninsula Highlands; 64° 35' N, 163° 21' W; BGN 1911; (map 95). Variant: Ekathlic, Erathlic, Icahluik, Ikakhtulik, Ikalikhvik, Ikathluik, Ikeutpak, Iksutpak, Irathluik, Kusluik, Nusluik. Eskimo name reported in 1838 as "Ikalikhvik" meaning "fish or fish place" by Kashevarov. Various spellings were reported by Western Union Telegraph Expedition 1865-47. Dall (1870, p. 284) appears to be the first to have applied the name "Fish River" when he wrote: "Golofnina Bay is connected with a large lagoon which opens in Grantley Harbor by the extremely winding channel of the Fish River, which has one principal tributary, the Kavi-ava-zak." Dall's application heads the Fish River on what is now the Niukluk River.

Fish River: stream, see Eaton River.

Fish Rock: rock, at W point of entrance to Margaret Bay, in Iliuliuk Harbor, on S coast of Amaknak Island, off N coast of Unalaska Island, Aleutian Islands; 53° 52' 59" N, 166° 32' 48" W; (map 23). Named by W. H. Dall, USC&GS, in 1871, but not shown on recent maps.

Fish Slough: stream, an anabranch of Yukon River, flows W 10 miles, 3 miles S of Beaver, Yukon Flats; 66° 18' 40" N, 147° 03' 00" W; (map 118) Local name obtained in 1956 by USGS.

Fish Village: locality, on W bank of Newhalen River, at S end of Sixmile Lake, 1.5 miles S of Nondalton, Aleutian Range; 59° 56' 45" N, 154° 51' 30" W; (map 51). Local name reported by P. S. Smith (1917, pl. 1), USGS.

Fish Village: village, on right bank of Kwikpak Pass, 26 miles SE of Kwiguk, Yukon-Kuskokwim Delta; 62° 31' 15" N, 163° 50' 50" W; (map 77). Eskimo settlement that had a population of 27 in 1940.

Fisher Caldera: caldera, 7 miles long, on Unimak Island, Aleutian Islands; 54° 35' N, 164° 26' W; BGN 1948; (map 24). Named in 1948 for Bernard Fisher, USGS, who lost his life in Umnak Pass while investigating the volcanic geology of the Aleutian Islands.

Fisher Creek: stream, flows NE 8 miles to Fairhaven Creek, 46 miles NE of Haycock, Seward Peninsula Highlands; 65° 52' N, 161° 06' W; (map 109). Local name published on maps after 1950.

Fisher Creek: stream, flows NE and NW 22 miles, joins Derwent Creek to form Bonanza Creek, 10 miles SE of junction of Charley and Yukon Rivers, Yukon-Tanana Highlands; 65° 11' 45" N, 142° 34' 00" W; (map 103). Prospectors' name; from an unpublished map by E. J. Chamberlain, dated 1902.

Fisher Creek: stream, flows SW 3 miles to Burke Creek which flows to American River, 11 miles W of Kougarok Mountain and 37 miles NE of Teller, Seward Peninsula Highlands; 65° 41' N, 165° 36' W; (map 111). Variant: Fletcher Creek. Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Fisher Creek: stream, heads at Fisher Dome, flows SE 11 miles to Salmon River, 75 miles E of Bethel, Kilbuck-Kuskokwim Mountains; 60° 50' N, 159° 34' W; (map 59). Prospectors' name reported in 1914 by A. G. Maddren (in Brooks, 1915, pl. 11), USGS.

Fisher Creek: stream, see Burke Creek.

Fisher Dome: mountain, 2,973 ft., in Kilbuck Mountains, 68 miles E of Bethel, Kilbuck-Kuskokwim Mountains; 60° 50' N, 159° 46' W; (map 59). Local name reported in 1914 by A. G. Maddren (in Brooks, 1915, pl. 11), USGS.

Fisherman Chuck: water passage, extends S 1 mile from Menefee Inlet, 0.5 miles W of Menefee Point, on SE coast of Etolin Island, Alexander Archipelago; 56° 03' N, 132° 10' W; (map 6). Named by USC&GS for charting purposes; name published in 1924. See Salt Chuck, village.

Fisherman Cove: cove, 0.4 miles across, on SW shore of Bay of Islands, Adak Island, Aleutian Islands; 51° 47' 50" N, 176° 50' 00" W; BGN 1936; (map 17) Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1933.

Fisherman Cove: cove, extends NE 0.8 miles off Pacific Ocean, on W coast of Dall Island, Alexander Archipelago; 55° 01' 15" N, 133° 10' 10" W; (map 4). Local name published in 1923 by USC&GS.

Fisherman Point: point of land, see Fisherman's Point.

Fishermans Harbor: estuary, 0.9 miles long, E of Pole Anchorage, SW coast of Kosciusko Island, Alexander Archipelago; 55° 58' N, 133° 48' W; (map 4). Variant: Little Pole Anchorage. Local name recorded in 1937 by USC&GS.

Fishermans Point: point of land, on Brundage Head, on NE coast of Unalaska Island, Aleutian Islands; 53° 56' 15" N, 166° 13' 30" W; BGN 1965; Variant: Fisherman Point. Name given by J. J. Gilbert, commander of the USC&GS steamer Pathfinder during 1900-01.

Fishery Creek: stream, flows E 13 miles to Chatham Strait, 8 miles E of mouth of Tenakee Inlet, on W coast of Admiralty Island, 20 miles N of Angoon, Alexander Archipelago; 57° 46' N, 134° 43' W; (map 9). Local name reported in 1929 by USFS. "So named because a salmon fishing station was established at the mouth of the Creek by the Indians during the season of run" (U.S. Coast and Geodetic Survey, 1883, p. 179).

Fishery Point: bluff, elev. 75 ft., on S bank of Naknek River, on Alaska Peninsula, 4.5 miles E of Naknek, Bristol Bay Lowland; 58° 43' 45" N, 156° 53' 10" W; (map 41). Local name reported in 1952 by USGS.

Fishery Point: point of land, on Chatham Strait, 8 miles E of mouth of Tenakee Inlet, on Admiralty Island, 10 miles E of Tenakee Springs, Alexander Archipelago; 57° 47' 30" N, 134° 42' 45" W; (map 9). Local name published by USC&GS in the 1883 Coast Pilot (p. 179). "So named because there was an Indian fishing station just to south on Fishery Creek."

Fishhook Bay: lagoon, trends 1.5 miles NE to Kuiukta Bay, 14 miles SW of Ship Mountain, on S shore of Alaska Peninsula, Aleutian Range; 56° 01' N, 158° 39' W; (map 30). So named "because of the hook-shaped spit extending from the southeast entrance to lagoon": name reported in 1951 by USGS.

Fishhook Bend: bend, at head of Sixtymile River, on Divide Mountain, 56 miles N of Northway Junction, Yukon-Tanana Highlands; 63° 47' N, 141° 14' W; (map 85). Descriptive name reported in 1956 by USGS.

Fishhook Bend: bend, of Porcupine River, 19 miles NE of Coleen Mountain, Brooks Range; 67° 13' N, 142° 10' W; (map 121). Name published by Kindle (1908, fig. 1), USGS.

Fishhook Creek: stream, flows SW 25 miles to Black River, 0.5 miles NE of Chalkyitsik, Yukon Flats; 66° 38' N, 143° 43' W; (map 120). Name derived from the former name for Chalkyitsik; reported in 1940 by FitzGerald (1944, pl. 18), USGS.

Fishhook Creek: stream, heads in lake, flows SE 4.5 miles to Little Susitna River, 11 miles NW of Palmer, Talkeetna Mountains; 61° 45' 15" N, 149° 13' 45" W; (map 69). Local name reported in 1910 by F. J. Katz (in Brooks and others, 1911, fig. 18), USGS.

Fishhook Island: island, 1,500 ft. long, in South Pass, N of Passage Island, Alexander Archipelago; 55° 11' 15" N, 132° 52' 35" W; (map 4). Local name published in 1965 by USC&GS.

Fishhook Junction: locality, at road junction on Glenn Highway, 1.5 miles N of Palmer, Cook Inlet Lowland; 61° 37' 45" N, 149° 07' 15" W; (map 69). Local name reported in 1951 by USGS.

Fishhook Lake: lake, see Kings Lake.

Fishhook Ridge: ridge, on NE coast of Attu Island, extends SW and E 4 miles from West Peak to Mirror Lake, on E shore of Holtz Bay, Aleutian Islands; 52° 55' 15" N, 173° 12' 00" E; (map 13). Variant: Fish Hook Ridge. Descriptive name by U.S. Army during World War II; shown as "Fish Hook Ridge" on an AMS map published in 1948.

Fishhook Town: village, see Chalkyitsik.

Fishhook Village: village, see Chalkyitsik.

Fishhook: village, see Chalkyitsik.

Fishing Bay: bay, see Fish Bay.

Fishless Creek: stream, flows NW 4 miles to North Fork Koyukuk River, 5 miles SW of Boreal Mountain and 34 miles NW of Wiseman, Brooks Range; 67° 46' 30" N, 150° 56' 00" W; BGN 1932; (map 124). Named in 1932 by Robert Marshall "because no fish were caught in the stream."

Fishnet Lake: lake, 3.5 miles long, between Clochacohua and Gushiata Lakes, 18 miles NE of Stevens Village, Yukon Flats; 66° 15' N, 148° 50' W; (map 118). Local name reported in 1956 by T. E. Taylor.

Fishrack Bay: bay, 2.5 miles wide, the northeast arm of Mitrofanina Bay, 23 miles SW of Chignik, on S shore of Alaska Peninsula, Aleutian Range; 55° 59' N, 158° 45' W; (map 27). Name published in 1963 by USGS.

Fishtrap Lake: lake, 2 miles long, on Little Mulchatna River, 38 miles NE of Nondalton, Alaska Range; 60° 29' 30" N, 154° 20' 00" W; (map 61). Local name reported in 1954 by USGS.

Fitch Creek: stream, see Chokosna River.

Fitz Creek: stream, on Iniskin Peninsula, flows NE 8 miles to Chinitna Bay. Aleutian Range; 59° 48' 30" N, 153° 09' 00" W; (map 51). Named in 1922 by USGS for Gerald FitzGerald, USGS, topographer, who spent several seasons doing field work in Alaska.

Fitz Island: island, 0.2 miles long, in Kimshan Cove, 2 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 41' 20" N, 136° 07' 20" W; BGN 1908; (map 9). Named in 1908 by USC&GS and published in the 1908 Coast Pilot (p. 174).

Fitzgerald Island: island, 0.3 miles across, off SE shore of Yakutat Bay, 0.6 miles E of S tip of Dolgoi Island and 4.2 miles NE of Yakutat, Malaspina Coastal Plain; 59° 35' 50" N, 139° 39' 30" W; (map 46). Named in 1892 by Lt. G.B. Harber, USN, for C. W. Fitzgerald, one of his party.

Fitzgibbon Cove: estuary, extends N 1.8 miles off Behm Canal, 1.4 miles SE of Point Fitzgibbon, Coast Mountains; 55° 57' 45" N, 131° 11' 15" W; (map 3) Named in 1891 by USC&GS.

Fitzgibbon, Point: point of land, on mainland, E point of entrance to Burroughs Bay from Behm Canal, Coast Range; 55° 59' N, 131° 13' W; (map 3). Named by Capt. George Vancouver, RN, "August 10, 1793, no doubt in honor of John Fitzgibbon, Earl of Clare, Lord Chancellor of India 1789" (Wagner, 1937, p. 388).

Five Day Slough: stream, see Atchuelinguk River.

Five Fingers, The: Islands, group of, in S entrance to Stephens Passage, 5 miles NW of Whitney Island and 67 miles E of Sitka, Alexander Archipelago; 57° 17' 30" N, 133° 40' 15" W; (map 8). Descriptive name given in 1869 by Comdr. R. W. Meade, USN, " * * perhaps on account of its appearance from certain points of view" (U.S. Coast and Geodetic Survey, 1883, p. 129).

Five Rivers: delta, see Dry Bay.

Five Sheep Creek: stream, flows SW 2 miles to Elliott Creek, 1.9 miles SW of Sheep Mountain and 78 miles NE of Valdez, Wrangell Mountains; 61° 39' 55" N, 144° 10' 30" W; (map 68). Local name reported in 1907 by A. G. Maddren, USGS.

Five, Lake: lake, 1,700 ft. long, between Lake Four and Question Lake, 7 miles S of Talkeetna, Cook Inlet Lowland; 62° 13' 05" N, 150° 04' 00" W; (map 81). Local descriptive name reported in 1958 by USGS.

Fivefathom Patch: shoal, 200 ft. across, in central Redfish Bay, 9.5 miles NW of village of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 18' 45" N, 134° 51' 50" W; (map 5). Named in 1897 by Lt. Comdr. J. F. Moser, USN, commander of USBF steamer Albatross.

Fivemile Creek: stream, flows NE 7 miles to Copper River, 5 miles N of Chitina and 68 miles NE of Valdez, Chugach Mountains; 61° 35' 15" N, 144° 25' 50" W; (map 68). Local name published in the 1950's by USGS.

Fivemile Creek: stream, flows SE 4 miles to Frederick Sound, on E coast of Lindenber Peninsula, Kupreanof Island, 5 miles N of Petersburg, Alexander Archipelago; 56° 53' 00" N, 132° 57' 45" W; (map 6). Local name recorded in 1951 by USGS.

Fivemile Hill: hill, see Fourmile Hill.

Fivemile Island: island, 0.2 miles long, 5 miles W of Wrangell, Alexander Archipelago; 56° 28' 10" N, 132° 30' 40" W; (map 6). Variant: Five Mile Island, Ostrov Pyati Milnyy, Piatimilni Island, Scraggy Island. Translation of Russian name "Ostrov Pyati-Milnyy" given in 1863 by the surveyors from the corvette Rynda. "Scraggy Island" was applied to this feature in 1868 by Comdr. R. W. Meade, USN. See Rynda Island.

Fivemile Lake: lake, 4 miles NW of Boat Lake and 17 miles NE of Roundabout Mountain, Koyukuk Lowland; 65° 45' N, 156° 13' W; (map 108). Local name reported by Orth in 1957; so called because the lake was thought to be 5 miles from Huslia.

Fivemile Point: point of land, on Norton Sound, 5 miles SE of St. Michael, Yukon-Kuskokwim Delta; 63° 27' N, 161° 54' W; (map 91). So called "because it is the place where the winter trail leaves the shore and crosses the bay five miles from Saint Michael;" reported in 1952 by USC&GS.

Fixem Lake: lake, 300 ft. across, on southern Kiska Island, Aleutian Islands; 51° 52' 30" N, 177° 18' 18" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Flag Creek: stream, heads on Mount Kilskon flows SW 5.1 miles to East Fork Yentna River, 54 miles W of Talkeetna, Alaska Range; 62° 19' 50" N, 151° 48' 00" W; (map 81). Prospectors' name reported in 1911 by S. R. Capps (in Brooks, 1912, pl. 9), USGS.

Flag Crossing: crossing, on Tanana River, 8 miles downstream from mouth of Kantishna River, Tanana Lowland; 64° 49' 45" N, 150° 09' 30" W, (map 99). Riverboat crossing (a shift from one side of the stream to the other) published on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" by U.S. Dept. of Interior.

Flag Hill: hill, 1,445 ft., on E bank of Tanana River, W of Harding Lake, 37 miles NW of Big Delta, Tanana Lowland; 64° 25' N, 146° 57' W; (map 101). Descriptive name given in 1898 by Brooks (1900, map 23), USGS. The name is not shown on recent USGS maps.

Flag Hill: hill, 250 ft., on W bank of Ogotoruk Creek, 6.5 miles E of Cape Thompson, Arctic Slope; 68° 07' 50" N, 165° 43' 50" W; BGN 1963; (map 129). Named about 1962 by personnel of Project Chariot.

Flag Hill: hill, 600 ft., 0.4 miles SE of Farmer Hill, on SW part of Kiska Island, Aleutian Islands; 51° 53' 40" N, 177° 18' 45" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Flag Point Channel: stream, anabranch of Copper River, between Flag Point and Round Island, 26 miles NW of Katalla, Malaspina Coastal Plain; 60° 26' N, 145° 05' W; (map 64). Local name published in 1952 by USGS.

Flag Point: point of land, E coast of Duke Island, Alexander Archipelago; 54° 58' 00" N, 131° 14' 15" W; (map 2). Local name published in 1917 by USC&GS.

Flag Point: point of land, on right bank of Copper River, 26 miles NW of Katalla, Malaspina Coastal Plain; 60° 27' N, 145° 05' W; (map 64). Local name published in 1952 by USGS. Flag Point Station of the Copper River and Northwestern Railway was established on this point in 1911.

Flag Point: point of land, on SW shore of Whitewater Bay, on Admiralty Island, 18 miles S of Angoon, Alexander Archipelago; 57° 14' 00" N, 134° 36' 10" W; (map 9). Named in 1881 by Comdr. Henry Glass, USN, and published by USC&GS in the 1883 Coast Pilot (p. 174).

Flagstaff Creek: stream, heads on Granite Mountain, on E coast of Prince of Wales Island, flows N 3.6 to Karta Lake, Alexander Archipelago; 55° 33' 30" N, 132° 37' 15" W; BGN 1960; (map 4). Named by C. L. Sainsbury, USGS, in 1956, who stated "The name as such is not in local usage, but is always referred to as the 'creek that flows past the Flagstaff Mines.' The name is suggested by the Flagstaff Mine."

Flagstaff Hill: hill, 81 ft., at Unga, on Delarof Bay, on SE coast of Unga Island, in Shumagin Islands, Aleutian Range; 55° 10' 54" N, 160° 30' 13" W; (map 28). Local name published by USC&GS in 1916. So called because a flagpole was located on the hill.

Flahart Lake: lake, 0.5 miles long, in Teocalli Mountains, 4 miles NE of junction of South Fork Kuskokwim and Hartman Rivers and 94 miles NW of Tyonek, Alaska Range; 61° 59' 30" N, 153° 12' 30" W; (map 71). Local name reported in 1958 by USGS.

Flambeau Creek: stream, see Flambeau River.

Flambeau River: stream, flows SE 23 miles to Safety Sound, 15 miles SW of Solomon, Seward Peninsula Highlands; 64° 28' N, 164° 53' W; (map 95). Variant: Discovery Creek, Flambeau Creek. Shown as "Discovery Creek" by Schrader and Brooks (1900, map 3), USGS.

Flanner Glacier: glacier, see Battle Glacier.

Flapjack Island: island, 0.5 miles long, N end of Beardslee Islands in Glacier Bay, Glacier Bay National Monument, 5 miles NW of Strawberry Island and 59 miles NW of Juneau, St. Elias Mountains; 58° 35' 15" N, 135° 56' 30" W; BGN 1948; (map 11). Descriptive name given by USC&GS in 1942. So named because the island is in shallow water and at low tide "spreads out" like thin batter on a griddle.

Flat Bay: cove, 1 mile long, on E coast of Chilkat Peninsula, 4 miles S of Battery Point and 22 miles S of Skagway, Coast Mountains; 59° 09' 00" N, 135° 20' 30" W; BGN 1966; (map 45). Variant: Mud Bay. Local name reported by USGS in 1952. It was published in 1923 as "Flat Bay" on IBC Sheet 9 (1951 atlas). According to E. C. Robertson the name "Mud Bay" is now commonly used.

Flat Bight: cove, 2 miles across, on SW coast of Akutan Island, Aleutian Islands; 54° 04' 45" N, 166° 03' 30" W; (map 23). Descriptive name, given by J. J. Gilbert, Comdr. of the USC&GS steamer Pathfinder during 1900-01.

Flat Cape: promontory, extends N to S 3 miles along shore of Kuskokwim Bay, 1.5 miles W of Thorsen Mountain and 23 miles NE of Cape Newenham, Kilbuck-Kuskokwim Mountains: 58° 53' N, 161° 47' W; (map 39). Descriptive name published in 1951 by USGS.

Flat City: settlement, see Flat.

Flat Cove: cove, 0.5 miles across, in Slocum Arm, 1.5 miles SE of Cobol, on Chichagof Island, 16 miles SE of Chichagof, Alexander Archipelago; 57° 28' N, 135° 50' W; BGN 1908; (map 9). Variant: Shoal Cove. Named in 1908 by USC&GS and published in 1910 on Chart 8250. It was named Shoal Cove by USC&GS also because of the low flats at its head.

Flat Creek Flats: valley, extends 5.6 miles NE, along Flat Creek, 55 miles NE of McCarthy, Alaska Range; 61° 58' N, 141° 41' W; (map 67). Local name published by USGS in 1954.

Flat Creek Lake: lake, 0.5 miles long, at head of West Fork Flat Creek, 26 miles S of Beaver, Yukon Flats; 66° 00' 15" N, 147° 01' 30" W; (map 118). Local name obtained in 1956 by USGS.

Flat Creek: settlement, see Flat.

Flat Creek: stream, flows E 5 miles to Ahtell Creek, 4.8 miles NW of junction of Copper and Slana Rivers, Alaska Range: 62° 45' 15" N, 144° 04' 20" W; BGN 1936; (map 83). Local name reported in 1936 by USGS.

Flat Creek: stream, flows N 5 miles to Otter Creek, 0.6 miles W of Flat and 59 miles NE of Holy Cross, Kilbuck-Kuskokwim Mountains, 62° 27' 15" N, 158° 01' 30" W; (map 79). Name shown on a 1910 manuscript map of "Iditarod Placer Fields."

Flat Creek: stream, flows NE 12 miles to Big Creek, 28 miles SE of Beaver, Yukon-Tanana Highlands; 66° 05' 25" N, 146° 38' 15" W; (map 119). Local name published in 1951 by USGS.

Flat Creek: stream, flows NE 2.4 miles to Indian River, 1.3 miles E of Utopia and 48 miles NE of Hochandochtla Mountain, Kokrines-Hodzana Highlands; 65° 59' 33" N, 153° 38' 33" W; (map 107). Local name obtained in 1954 by USGS topographers.

Flat Creek: stream, flows NE 6.1 miles to Salman Creek, 22 miles SW of Haycock, Seward Peninsula Highlands; 65° 08' N, 161° 52' W; (map 109). Local name reported in 1917 by G. L. Harrington, USGS.

Flat Creek: stream, flows NW 1.5 miles to Anikovik River, 15 miles SE of Cape Prince of Wales and 40 miles NW of Teller, Seward Peninsula Highlands; 65° 30' N, 167° 38' W; (map 111). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Flat Creek: stream, flows NW 16 miles to Salcha River, 32 miles NW of Big Delta, Yukon-Tanana Highlands; 64° 35' 15" N, 146° 08' 30" W; BGN 1964; (map 101). Variant: McCoy Creek. Local name originally applied by mistake by USGS to the stream now known as McCoy Creek (Capps, 1912, pl. 1).

Flat Creek: stream, flows NW 2.5 miles to Peace River, 5 miles N of Haycock, Seward Peninsula Highlands; 65° 16' N, 161° 07' W; (map 109). Local name reported in 1917 by G. L. Harrington, USGS.

Flat Creek: stream, flows NW 3 miles to Shaw Creek, 10 miles NE of Big Delta, Tanana Lowland; 64° 15' 45" N, 145° 45' 00" W; (map 101). Name derived from the Shaw Creek Flats through which the stream flows for almost its entire length. The name was reported in 1908 by J. W. Bagley, USGS.

Flat Creek: stream, flows NW 5.5 miles to Moose Creek, 13 miles NE of Livengood, Yukon-Tanana Highlands; 65° 39' N, 148° 13' W; (map 105). Local name reported by J. B. Mertie (in Brooks and others, 1918, pl. 13), USGS.

Flat Creek: stream, flows NW 9 miles to Chatanika River, 5 miles NNE of Twin Buttes and 40 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 13' 45" N, 146° 52' 55" W; (map 104). Named by prospectors and reported in 1907 by C. C. Covert (in Henshaw and Covert, 1908 pl. 9), USGS.

Flat Creek: stream, flows S 15 miles to Wild River E of Mathews Dome, 7 miles S of Wild Lake and 36 miles W of Wiseman, Brooks Range; 67° 23' 30" N, 151° 28' 00" W; BGN 1932; (map 124). Local name reported by Robert Marshall in 1932.

Flat Creek: stream, flows S 3 miles to Fortymile River, 35 miles S of Eagle, Yukon-Tanana Highlands; 64° 17' 30" N, 141° 19' 30" W; (map 102). Named by prospectors; reported in 1911 by E. A. Porter (in Brooks and others, 1910, p. 217), USGS.

Flat Creek: stream, flows S 4.7 miles to its junction with Dunlin Creek to form Crooked Creek, 15 miles NW of village of Crooked Creek and 43 miles NW of Sleetmute, Kilbuck-Kuskokwim

Mountains; 62° 04' 45" N, 158° 13' 00" W; BGN 1944; (map 79). Prospectors' name obtained in 1913 by Eakin (1914, pl. 1), USGS.

Flat Creek: stream, flows S 5 miles to Ophir Creek, 12 miles NW of Council and 39 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 03' N, 163° 42' W; (map 110). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Flat Creek: stream, flows S 7.8 miles to Von Frank Creek, 26 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 27' N, 154° 26' W; (map 89). Variant: Wanita Creek. Local name reported in 1955 by USGS.

Flat Creek: stream, flows SE 2 miles to Hutlinana Creek, 18 miles SE of Rampart, Yukon-Tanana Highlands; 65° 18' N, 149° 51' W; (map 105). Named by prospectors; published in 1906 by USGS.

Flat Creek: stream, flows SE 6 miles to Agiapuk River. 7 miles N of Imuruk Basin and 17 miles E of Teller, Seward Peninsula Highlands; 65° 17' N, 165° 49' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Flat Creek: stream, flows SE 9 miles to Chena River, 27 miles E of Fairbanks, Yukon-Tanana Highlands; 64° 52' 15" N, 146° 46' 00" W; (map 101). Local name published in 1956 by USGS.

Flat Creek: stream, flows SW 2 miles to Timber Creek, 3.5 miles SW of Poorman, Kilbuck-Kuskokwim Mountains; 64° 03' N, 155° 36' W; (map 98). Local name reported in 1915 by H. M. Eakin (in Brooks and others, 1916, pl. 10), USGS.

Flat Creek: stream, flows SW 28 miles from S of Ackerman Lake to Chandalar River at Caro, 27 miles SE of Chandalar, Brooks Range; 67° 10' N, 148° 00' W; (map 123). Prospectors' name shown on an 1899 field sheet by T. G. Gerdine, USGS.

Flat Creek: stream, flows SW 3.5 miles to Long Creek, 7 miles SW of Long and 29 miles S of Ruby, Kilbuck-Kuskokwim Mountains; 64° 19' 15" N, 155° 37' 30" W; (map 98). Prospectors' name reported in 1908 by A. G. Maddren, USGS. So called because the lower course of the stream is in a low wetland.

Flat Creek: stream, flows SW 9 miles to Agiapuk River, 13 miles N of Imuruk Basin and 21 miles NE of Teller, Seward Peninsula Highlands; 65° 21' N, 165° 39' W; (map 111). Variant: Chicago Creek. Prospectors' name reported in 1901 by T.G. Gerdine (in Collier, 1902, pl. 12), USGS.

Flat Creek: stream, flows W 5 miles to Keno Creek, 30 miles N of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 33' N, 161° 17' W. (map 53). Name reported in 1919 by G. L. Harrington (in Brooks and others, 1921, pl. 8), USGS.

Flat Creek: stream, heads at junction of Marks and Orthmer Creeks, flows NE 12 miles to Charley River 9 miles S of its junction with Yukon River, Yukon-Tanana Highlands; 65° 11' 15" N, 142° 47' 40" W; (map 103). Name used by prospectors; taken from an unpublished map by E. J. Chamberlain dated 1902.

Flat Creek: stream, heads in Cooper Gulch, flows SW 2 miles to lake at head of Center Creek, 2.5 miles N of Nome, 64° 32' 15" N, 165° 23' 40" W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Flat Creek: stream, heads in lake, in Flat Creek Flats, flows NE 4.5 miles to Beaver Creek in Nutzotin Mountains, 5.5 miles SE of Beaver Lake, Alaska Range; 62° 00' 25" N, 141° 38' 10" W; (map 84). Local descriptive name reported by Capps (1915, pl. 1), USGS.

Flat Creek: stream, heads in Limestone Hills, flows NE 9.5 miles to Little Nelchina River, 15 miles N of Tahnetta Pass and 65 miles SW of Gulkana, Talkeetna Mountains; 62° 06' N, 147° 19' W; (map 82). Local name published by Theodore Chapin (in Brooks and others, 1915, fig. 3), USGS.

Flat Creek: stream, in Kantishna Hills, flows N 7.5 miles to Glacier Creek 3.5 miles S of that stream's junction with Bearpaw River and 13 miles NNW of Wonder Lake, Alaska Range. 63° 41' 25" N, 150° 59' 30" W; (map 88). Name shown on a 1905 manuscript map of "Kantishna Gold Fields" by A. Friedrich, prospector.

Flat Creek: stream, see McCoy Creek.

Flat Horn Lake: lake, 3 miles long, E of Susitna River, 23 miles NW of Anchorage, Cook Inlet Lowland; 61° 27' 45" N, 150° 25' 30" W; BGN 1962; (map 70). Variant: Mud Lake. Local name published in 1943 by AMS.

Flat Island: island, 0.1 miles across, in Pavlof Bay, Alaska Peninsula, Aleutian Range; 55° 23' 30" N, 161° 37' 00" W; (map 28). Descriptive name published by USC&GS in 1924.

Flat Island: island, 0.1 miles across, in Security Bay, on N coast of Kuiu Island, Alexander Archipelago; 56° 52' 05" N, 134° 21' 30" W; (map 5). Descriptive name given in 1869 by Comdr. R. W. Meade, USN, because of its shape.

Flat Island: island, 0.1 miles long, in El Capitan Passage, between El Capitan and Teal Islands, Alexander Archipelago; 55° 55' 30" N, 133° 20' 45" W; (map 4). Local name published in 1925 Coast Pilot (p. 154).

Flat Island: island, 0.1 miles long, in Port Wrangell, on S coast of Alaska Peninsula, 37 miles NE of Sutwik Island, Aleutian Range; 57° 02' 40" N, 156° 34' 10" W; (map 36). Local descriptive name published in 1956 by USGS.

Flat Island: island, 0.4 miles long, in Lake Clark 0.7 miles SW of Chi Point and 11 miles NE of Nondalton, Aleutian Range; 60° 06' 20" N, 154° 33' 30" W; (map 61). Local name reported in 1954 by USGS.

Flat Island: island, 0.5 miles long, 2.6 miles SE of Kaguyak on SE coast of Kodiak Island; 56° 49' 50" N, 153° 44' 15" W; (map 33). Descriptive name reported in the 1930's by USC&GS.

Flat Island: island, 0.5 miles long, in Red Bay, on N coast of Prince of Wales Island, Alexander Archipelago; 56° 18' 45" N, 133° 19' 30" W; (map 6). Named in 1886 by Lt. J. M. Helm, USN, for charting purposes; name published in 1887 on USC&GS Chart 706,

Flat Island: island, 0.9 miles long, among offshore islands of Yukon Delta, between Acharon and Kwikluak Channels, 19 miles SW of Kwiguk Yukon-Kuskokwim Delta; 62° 35' 20" N, 164° 59' 30" W; (map 77). Local descriptive name reported in 1936 by U.S. Army Corps of Engineers.

Flat Island: island, 2 miles long, in Yukon River along S coast of Fox Point Island, Innoko Lowland; 63° 01' N, 159° 53' W; (map 93). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the U.S. Dept. of Interior

Flat Island: island, 3.7 miles across, in Iliamna Lake, W of Porcupine Island, 23 miles E of Iliamna Aleutian Range; 59° 44' N, 154° 17' W; (map 51). Local descriptive name published in 1954 by USGS.

Flat Island: island, see Wolf Rock.

Flat Islands: islands, group of islands in Cook Inlet, 1 mile W of SW end of Kenai Peninsula and 13 miles SW of Seldovia, Chugach Mountains; 59° 19' 45" N, 151° 59' 45" W; (map 50). Variant: Flat Islet. Descriptive name given presumably by W. H. Dall, USC&GS, in 1880.

Flat Islet: islands, see Flat Islands.

Flat Lake: lake, 0.6 miles long, on Kenai Peninsula, 2.6 miles NW of Lake Outka and 12 miles NNE of Kenai, Cook Inlet Lowland; 60° 42' 45" N, 151° 05' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Flat Lake: lake, 1 mile across, 2 miles NW of Tanjoga Lake and 23 miles NE of Stevens Village, Yukon Flats; 66° 18' N, 148° 40' W (map 118). Local name obtained in 1956 by USGS.

Flat Lake: lake, 1.3 miles long, W of Big Lake, 22 miles N of Anchorage, Cook Inlet Lowland; 61° 31' 50" N, 150° 00' 30" W; (map 70). Local name reported in 1958 by USGS.

Flat Mountain: hill, 908 ft., 3.5 miles NW of Dome Mountain 4 miles SE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 05' 30" N, 161° 28' 45" W; (map 53). Descriptive name given in 1914 by USC&GS: published in 1915 on Chart 9103.

Flat Mountain: mountain, 1,585 ft., E of Bostwick Inlet, on SE coast of Gravina Island, Alexander Archipelago; 55° 14' 50" N, 131° 42' 40" W; (map 3). Descriptive name published in 1885 by USC&GS; "given because of its shape."

Flat Point: point of land, in Portage Bay, 19 miles NW of Petersburg, on N coast of Kupreanof Island, Alexander Archipelago; 56° 59' 45" N, 133° 20' 00" W; (map 6). Descriptive name given in 1882 by Lt. Comdr. H. E. Nichols, USN.

Flat Point: point of land, on left bank of Yukon River, across river from Kaltag, 32 miles SW of Nulato, Koyukuk Lowland; 64° 20' N, 158° 12' W; (map 97). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the U.S. Dept. of Interior.

Flat Point: point of land, on N shore of Nazan Bay, on E coast of Atka Island, Aleutian Islands; 52° 13' 35" N, 174° 07' 10" W; (map 18). Name published by the USC&GS on a 1943 coast chart.

Flat Point: point of land, on W shore of Taku Inlet, 1.6 miles S of Scow Cove and 13 miles E of Juneau, Coast Mountains; 58° 19' 50" N, 134° 03' 30" W; (map 11). Descriptive name published in 1925 by USC&GS on Chart 8300.

Flat Top Mountain: mountain, 1,736 ft., 4.5 miles SE of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 37' N, 136° 00' W; BGN 1939 (map 9). Variant: Flattop Mountain. Descriptive local name published in 1930 by USC&GS as Flattop Mountain, on Chart 8280.

Flat Top Mountain: mountain, 2,000 ft., between Waterboot and Atsaksovluk Creeks, 82 miles SW of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 53' N, 158° 52' W; (map 60). Local descriptive name reported in 1950 by USGS.

Flat Top Mountain: mountain, 4,679 ft., 6.3 miles long, W of Paxson Lake, Alaska Range; 62° 55' N, 145° 42' W; (map 83). Local descriptive name reported by USGS in 1950.

Flat Top Peak: mountain peak, 9,000 ft., 1 mile E of Mount Haley and 31 miles NW of Valdez, Chugach Mountains; 61° 26' 00" N, 146° 55' 35" W; BGN 1965; (map 68). Descriptive name probably given in 1959 by L. E. Nielsen (1963, p.135).

Flat Top Peak: mountain, 3,445 ft. on W part of Akutan Island, Aleutian Islands; 54° 06' 45" N, 166° 01' 07" W; (map 23). Variant: Flattop Peak. Descriptive name, given by J. J. Gilbert, USC&GS, commander of the USC&GS steamer Pathfinder during 1900-01.

Flat Top: point of land, see Lava Point.

Flat: settlement, pop. 27, on Otter Creek, 7 miles E of junction with Iditarod River, 59 miles NE of Holy Cross, Kilbuck-Kuskokwim Mountains; 62° 27' 30" N, 158° 00' 30" W; (map 79). Variant: Flat City, Flat Creek. Mining camp reported in 1910 by A. G. Maddren, USGS, at which time Flat was the leading settlement on Otter Creek with a population of about 400. The post office has been in operation since 1912. Its population was 158 in 1920 and 124 in 1930.

Flatiron: ridge, elev. 11 600 ft., in Mount McKinley National Park, extends E from Pioneer Ridge to Muldrow Glacier, 5 miles NNE of summit of Mount McKinley, Alaska Range; 63° 08' 15" N, 150° 57' 00" W; (map 88). Local name reported in 1954 by USGS.

Flatrock Creek: stream, flows SE 15 miles to East Fork Chandalar River, 33 miles NE of Arctic Village, Brooks Range; 68° 33' N, 145° 02' W; (map 136). Local descriptive name obtained in 1956 by USGS.

Flattop Mountain: mountain, 3,550 ft., between South Fork Campbell and Rabbit Creeks, 11 miles SE of Anchorage, Chugach Mountains; 61° 05' 25" N, 149° 40' 05" W; BGN 1964; (map 69). Variant: Flat Top Mountain. Local descriptive name reported in 1963 by the Mountaineering Club of Alaska.

Flattop Peak: mountain, see Flat Top Peak.

Flaw Point: point of land, at entrance to Mole Harbor, on E coast of Admiralty Island, 24 miles NE of Angoon, Alexander Archipelago; 57° 40' 30" N, 134° 02' 40" W; (map 9). Named in 1889 by Lt. Comdr. H. B. Mansfield, USN, and published by USC&GS in the 1891 Coast Pilot (p. 144).

Flaxman Island: barrier island, 7 miles long, between Beaufort Sea and Lion Bay, Arctic Plain; 70° 11' N, 146° 03' W, (map 151). Variant: Sidrak Island. Named August 6, 1826 by Franklin (1828, p. 151) J "in honour of the late eminent sculptor. It is about four miles long, and two broad, and rises, at its highest elevation, about fifty feet * * *." John Flaxman, 1755-1826, was an English sculptor and draftsman, who will probably be remembered "best as the designer of the exquisite little cameos that stand out so charmingly in dead white on the dead blue background of Wedgwood pottery; * * *" (Stuck, 1920, p. 289). The Eskimo name, "Sidrak," was reported in 1912 to mean "foxhole," by Leffingwell (1919, p. 95).

Fleches, Iles des: island, see Pinnacle Island.

Fleece Rock: island, 0.1 miles long, at S end of Lord Islands, in mouth of Nakat Bay, Coast Mountains; 54° 43' 30" N, 130° 47' 15" W; (map 2). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Fleischmann Glacier: glacier, 1 mile long, in Kichatna Mountains, 0.8 miles NE of Simpson Pass and 87 miles W of Talkeetna Alaska Range; 62° 20' 40" N, 152° 50' 10" W; (map 81). Named in 1899 by Lt. J. S. Herron, USA.

Fleishman Ridge: ridge, 3.5 miles long, between O'Donnell Creek and Addison Creek, Attu Island, Aleutian Islands; 52° 54' 10" N, 173° 04' 00" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II; name shown on an AMS map published in 1948.

Flemer River: stream, heads in British Columbia, flows SE 12 miles to Tahini River, 2 miles W of Mount Raymond and 28 miles WNW of Skagway, St. Elias Mountains; 59° 39' 15" N, 136° 00' 30" W; (map 45). Named by Canada in 1951 for John Adolph Flemer, USC&GS, who had general charge of two surveying parties in 1898 making topographic surveys of the area near the head of Lynn Canal. He was one of the original surveyors (1904-05) with the IBC while making Sheet 9 (1951 atlas).

Flemer, Mount: mountain, 4,654 ft., 4 miles W of Alaska-Canada boundary, 3 miles S of Stikine River, Coast Mountains; 56° 37' 30" N, 131° 57' 15" W; BGN 1922; (map 7). Named in 1893 by Capt. A. C. Talbot of a Canadian survey party for John Adolph Flemer, USC&GS. The name was published in 1927 on IBC Sheet 5 (1951 atlas).

Fleming Channel: water passage, between Kinky and Fleming Islands, 12 miles NW of Chichagof. on W coast of Chichagof Island, Alexander Archipelago; 57° 47' 15" N, 136° 19' 40" W; (map 9). Named by USC&GS and published in 1928 on Chart 8258. Name probably derived from Fleming Island.

Fleming Creek: stream, flows SW 1 mile to Orca Inlet, 1 mile N of Cordova, Chugach Mountains; 60° 34' N, 145° 45' W; (map 64). Local name published in 1951 by USGS.

Fleming Island: island, 0.5 miles across, 12 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 47' 30" N, 136° 19' 00" W; (map 9). Local name reported in 1917 by R. M. Overbeck (in Martin and others, 1919, p. 125), USGS.

Fleming Island: island, see Evans Island.

Fleming Spit: spit, on SE shore of Orca Inlet, 1 mile N of Cordova, Chugach Mountains; 60° 33' 50" N, 145° 44' 30" W; (map 64). Local name reported in 1900 by F. C. Schrader, USGS.

Flemming Island: island, 2.5 miles long, in N end of Prince of Wales Passage, 8 miles SE of Chenega, Chugach Mountains; 60° 10' N, 148° 01' W; BGN 1910; (map 63). Variant: Gage Island. Local name reported in 1900 by F. C. Schrader, USGS, who misapplied the name to Evans Islands. This error was corrected in 1904 when USC&GS applied the name "Flemming" to the proper island. The island was probably named for George Flemming, of Ellamar, who had a fox farm there since 1896.

Flemming Island: island, see Bainbridge Island.

Flemming Island: island, see Evans Island.

Flemming Passage: water passage, see Prince of Wales Passage.

Flent Point: point of land, W entrance to Columbia Bay, 56 miles NE of Whittier, Chugach Mountains; 60° 56' 30" N, 147° 08' 00" W; BGN 1911; (map 63). Variant: Flint Point. Local name reported about 1910 by U. S. Grant, USGS.

Fleshlanana Creek: stream, heads in Ray Mountains, flows S 13 miles to Tozitna River, 37 miles NNE of Tanana, Kokrines-Hodzana Highlands; 65° 32' 30" N, 151° 28' 00" W; (map 106). Indian name obtained in 1956 at Tanana by Orth.

Fletcher Creek: stream, see Fisher Creek.

Flicker Creek: stream, flows N 5 miles to Sumner Strait, 4 miles E of Point Baker, on N coast of Prince of Wales Island, Alexander Archipelago; 56° 20' 20" 133° 32' 00" W; BGN 1923; (map 6). Named in 1923 by USFS.

Flickinger Creek: stream, flows N 1.5 miles to Venetia Creek 2 miles E of its junction with Eldorado River, 22 miles NW of Solomon, Seward Peninsula Highlands; 64° 47' N, 164° 54' W; (map 95). Prospectors name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Flint Creek: stream, flows E 27 miles to Sulatna River, 6 miles NW of Monzonite Hills, Nowitna Lowland; 64° 28' 36" N, 154° 47' 30" W; (map 98). Prospectors' name reported in 1911 by A. G. Maddren (in Brooks and others, 1921, p. 294-296), USGS.

Flint Point: point of land, see Flent Point.

Flock Rock: rock, in Farragut Bay, 0.5 miles N of Read Island and 82 miles E of Sitka; Coast Mountains; 57° 07' 59" N, 133° 12' 30" W; (map 8). Named by USC&GS; published in the 1891 Coast Pilot (p. 137).

Flood Creek: stream, flows 7.8 miles SE to White River at terminus of Russell Glacier, 39 miles NE of McCarthy, Wrangell Mountains; 61° 41' N, 141° 50' W; (map 67). Local name published by USGS in 1954.

Flood Creek: stream, flows SW 3 miles to Delta River, crosses Richardson Highway, 30 miles NW of Paxson, Alaska Range; 63° 26' 40" N, 145° 48' 20" N: (map 86). Name published on relatively recent maps.

Flood Creek: stream, heads in Brooks Range at 68° 50' N, 147° 36' W, flows NW 20 miles to Ivishak River 3 miles E of junction of Saviukviayak River, Arctic Slope; 69° 04' 30" N, 147° 54' 00" W; BGN 1960; (map 140). Named in 1951 by A. S. Keller and R. L. Detterman, USGS.

Flooded Lake: lake, 1 mile across, 10 miles SW of Christian, Brooks Range; 67° 16' N, 145° 30' W; (map 122). Local name reported in 1956 by T. E. Taylor, USGS.

Floprock Peak: peak, 5,500 ft., 2.2 miles SE of Exploration Peak and 27 miles NE of Juneau, Coast Mountains; 58° 40' 20" N, 134° 09' 25" W; (map 11). Local name published in 1960 by USGS.

Flora Creek: stream, heads in Inyorurak Lakes, flows W 19 miles to Aniuk River, S of Howard Pass, Brooks Range; 68° 12' N, 156° 57' W; BGN 1926; (map 132). Named by Gerald FitzGerald, USGS, in 1925.

Flora Island: island, 2 miles long, between Mason Slough and Yukon River, W of Cronin Island and Cronin Slough, 3.5 miles E of Birches, Kokrines-Hodzana Highlands; 65° 18' 30" N, 153° 25' 00" W; (map 107). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the Department of the Interior.

Flora Island: island, 4 miles long, near left bank of Yukon River, 5 miles S of Russian Mission, Yukon-Kuskokwim Delta; 61° 43' N, 161° 17' W; (map 73). Riverboat pilots' name shown on a 1922 manuscript chart of Yukon River. This island was reportedly named for the riverboat Flora which was built at Lake Bennett, British Columbia, in 1898.

Floral Hills: mountain, 4,000 ft., between Hayden Glacier and Lucia Glacier, 12 miles W of Bancas Point and 30 miles NW of Yakutat, St. Elias Mountains; 59° 58' 39" N, 139° 57' 30" W; (map 46). Named in 1890 by Russell (1891, p. 105), because "of the luxuriance of the vegetation covering them."

Floral Pass: pass, 2 miles long, in Floral Hills, extends E from Hayden Glacier to Lucia Glacier, 11 miles NW of Blizhni Point and 31 miles NW of Yakutat, St. Elias Mountains; 59° 58' 30" N, 140° 00' 00" W; (map 46). Named in 1890 by Russell (1891, p. 105), USGS. The name was derived from "Floral Hills."

Florence Bay: bay, 0.7 miles across, an arm of Sitkoh Bay, on SE tip of Chichagof Island, 25 miles SE of Tenakee Springs, Alexander Archipelago; 57° 29' 30" N, 134° 52' 30" W; (map 9). Name reported by Lt. Comdr. Moser (1899a, p. 124), USN.

Florence Creek Lake: lake, 1 mile across, 1 mile NE of junction of Florence Creek and North Fork Koyukuk River and 27.5 miles SW of Wiseman, Brooks Range; 67° 09' N, 150° 52' W; (map 124). Local name obtained in 1956 by USGS topographers.

Florence Creek: stream, flows E 2 miles to Eldorado River, 16 miles NW of Solomon, Seward Peninsula Highlands; 64° 41' N, 164° 54' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Florence Creek: stream, flows S 10 miles and E j miles to North Fork Koyukuk River, 7 miles NE of mouth of Middle Fork Koyukuk River and 28.5 miles SW of Wiseman, Brooks Range; 67° 07' 30" N, 150° 54' 00" W; (map 124). Named for his daughter, Florence, by August L. Tobin, who prospected in the Wiseman region from 1897 to 1918; name reported in 1899 by T. G. Gerdine, USGS.

Florence Gulch: ravine, trends SW 2 miles to Otter Creek, 3 miles E of Nome, Seward Peninsula Highlands; 64° 29' 45" N, 165° 17' 35" W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Florence Island: island, between Western and Main Channels, Yukon River, 36 miles NE of Ruby, Nowitna Lowland; 64° 57' N, 154° 23' W; (map 98). Riverboat pilots' name reported in 1900 by Lt. J. C. Cantwell, USRCS. The name was originally applied to several islands; now is applied to only one.

Florence Islands: islands, 2.7 miles long, between Fortymile Slough and Koyukuk River, E of Fry Island, 18 miles N of Hochandochtla Mountain, Kokrines-Hodzana Highlands; 65° 48' N, 154° 53' W; (map 107). Prospectors' name reported in 1899 by F. C. Schrader, USGS, applied to the feature then described as a "bar on the river."

Florence Lake: lake, 1 mile long, 2.7 miles SW of Willow and 35 miles N of Anchorage, Cook Inlet Lowland; 61° 43' 15" N, 150° 06' 45" W; BGN 1959; (map 70). Named in 1959 by Jack E. Cole of Anchorage for his wife, Florence Cole.

Florence, Lake: lake, 4 miles long, 21 miles N of Angoon, on W coast of Admiralty Island, Alexander Archipelago; 57° 48' 10" N, 134° 38' 00" W; (map 9). Named in 1920 by W. T. Tolch, a mining engineer of Juneau.

Flores, Canal de: water passage, see Shelikof Strait.

Flores, Cape: point of land, N tip of Joe Island, between Port Estrella and Ulloa Channel, on W coast of Prince of Wales Island, Alexander Archipelago; 55° 21' 15" N, 133° 17' 30" W;

(map 4). Variant: Cabo de Flores, Mys Flores, Point Flores. Spanish name found on the maps of the 1779 Don Ignacio Arteaga expedition. Shown as “Cabo de Flores” meaning “cape of flowers”; more likely the place was named after some individual whose name was Flores (Wagner, 1937, p. 388).

Flores, Don Jose de: island, see Unimak Island.

Flores, Puerto de: bay, see Chalmers, Port.

Florida Blanca: island, see Kodiak Island.

Florida Creek: stream, flows NW 1.7 miles to Minook Creek SW of McDonald Bar, 6 miles S of Rampart, Yukon-Tanana Highlands; 65° 25' 12" N, 150° 07' 20" W; (map 106). Prospectors' name reported in 1904 by Prindle and Hess (1906, pl. 3), USGS.

Flotilla Island: island, 0.3 miles long, in Maurelle Islands, Alexander Archipelago; 55° 36' 35" N, 133° 37' 30" W; BGN 1923; (map 4). Spanish name meaning “a small fleet,” given in 1923 by USC&GS. “A flotilla of as many as 30 or 40 gas boats at once can be observed, during the salmon season, fishing in the straits adjacent to the E shore of this island.”

Flotsam Island: island, 0.1 miles across, 1.4 miles NE of Port Alexander, on E coast of Baranof Island, Alexander Archipelago; 56° 15' 05" N, 134° 37' 55" W; (map 5). Descriptive name given in 1927 for charting purposes by USC&GS.

Flounder Creek: stream, see Suntaheen Creek.

Flounder Flat: tidal flat, extends SE 11 miles from Ekuik Bluff, on E shore of Nugashak Bay, 18 miles S of Dillingham, Bristol Bay Lowland; 58° 44' N, 158° 22' W; (map 40). Local name reported in 1952 by USGS.

Flower Hill: hill, 500 ft., on southern Kiska Island 0.7 miles NW of Vega Bay, Aleutian Islands; 51° 54' 20" N, 177° 19' 15" E; (map 14). An arbitrary name beginning with “F” to correspond to the “F” grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 AMS map.

Flower Lakes: lakes, in group extending 1.4 miles SE near junction of Hunter Creek and Chitina River, 25 miles SE of McCarthy, St. Elias Mountains; 61° 05' 30" N, 142° 35' 00" W; (map 67). Local name reported in 1915 by F. H. Moffit, USGS.

Flower Mountain: mountain, 6,300 ft., 1.8 miles S of terminus of Saksai Glacier and 38 miles SW of Skagway, St. Elias Mountains; 59° 21' 30" N, 136° 22' 25" W; (map 45). Name reported in 1952 by E. C. Robertson, USGS, to have been given by “an unknown botanist between 1932-42, who found a luxuriant growth of a great variety of flowers on the mountain.”

Flower Tower: peak, 5,830 ft., on Taku Range at edge of Taku Glacier, 2 miles N of Little Matterhorn and 24 miles N of Juneau, Coast Mountains; 58° 39' 05" N, 134° 22' 25" W; (map 11). Descriptive name proposed in 1949 by members of the Juneau Icefield Research Project and published in 1960 by USGS.

Flume Creek: locality, on S bank of Seventymile River at mouth of Flume Creek, 40 miles NW of Eagle, Yukon-Tanana Highlands; 64° 59' N, 142° 27' W; (map 102). Mining camp reported in 1925 by ARC.

Flume Creek: stream, flows NE 13 miles to Seventymile River, 40 miles NW of Eagle, I Yukon-Tanana Highlands; 64° 59' N, 142° 27' W; (map 102). Variant: Plume Creek. Local name shown on a 1902 manuscript map by E. J. Chamberlain, U.S. Deputy Surveyor.

Flume Creek: stream, flows S 1.5 miles to Gold Creek, 48 miles N of Big Delta, Yukon-Tanana Highlands; 64° 49' 30" N, 145° 32' 50" W; (map 101). Named by prospectors and reported in 1905 by D. C. Witherspoon (Prindle, 1913a, pl. 1), USGS.

Flume Creek: stream, flows SE 1.8 miles to Pedro Creek, 12 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 59' 45" N, 147° 31' 45" W; (map 100). Local name reported in 1903 by T. G. Gerdine (in Prindle, 1905, pl. 16), USGS.

Flume Creek: stream, heads in Kantishna Hills, flows NW 20 miles to Bearpaw River, Tanana Lowland; 64° 00' 05" N, 150° 47' 05" W; (map 99). Name shown on a 1905 manuscript map of the "Kantishna Gold Fields," by A. Friedrich, prospector.

Flume Creek: stream, heads S of Limestone Hills, flows S 8 miles to Alfred Creek, 57 miles NE of Palmer, Talkeetna Mountains; 61° 57' 05" N, 147° 33' 05" W; BGN 1960; (map 69). Named by USGS in 1956 "for a 400 foot flume constructed on the east side of the stream in 1922."

Flume Gulch: ravine, trends NW 1 mile to Crooked Creek, 18 miles NW of Eagle, Yukon-Tanana Highlands; 64° 56' N, 141° 40' W; (map 102). Local name published in 1956 by USGS.

Fluss Cheuweren: stream, see Kaviruk River.

Flying Eagle Harbor: cove, 0.5 miles across, on E coast of Big Koniuji Island, in Shumagin Islands, Aleutian Range; 55° 09' N, 159° 30' W; (map 27). Published by USC&GS in 1938 Coast Pilot.

Flynn Cove: cove, 0.4 miles across, on N coast of Chicagof Island, 2.2 miles SE of Eagle Point and 9 miles NW of Hoonah, Alexander Archipelago; 58° 12' 45" N, 135° 35' 45" W; (map 11). Named for H. F. Flynn, USC&GS, assistant with the Edmund F. Dickins survey party in 1901.

Flynn Creek: stream, flows NE 2.5 miles to Mickey Creek 1.5 miles S of that stream's mouth, 4 miles SW of Caro and 26 miles SSE of Chandalar, Brooks Range; 67° 08' 30" N, 148° 09' 00" W, (map 123). Prospectors' name obtained in 1909 by A. G. Maddren (in Brooks and others, 1910, pl. 7), USGS.

Fog Creek: stream, flows NW 24 miles to Susitna River, 43 miles SE of Cantwell, Talkeetna Mountains; 62° 46' 35" N, 148° 42' 55" W; (map 82). Local name reported in 1951 by USGS.

Fog Creek: stream, heads on Susie Mountain, flows SE 4 miles to Kinegnak River, 7 miles E of Red Mountain and 30 miles NE of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 55' N, 161° 33' W; BGN 1938; (map 39). Local name reported in 1938 by USGS.

Fog Creek: stream, on Alaska Peninsula, heads at Fog Glacier, flows NW 26 miles to Ilnik River, 44 miles SW of Port Heiden Airfield, Bristol Bay Lowland; 56° 35' N, 159° 37' W; (map 30). Name reported in 1923 by R. H. Sargent, USGS; published in 1927 by USGS.

Fog Glacier: glacier, on Alaska Peninsula, on NW slope of Mount Veniaminof, trends NW 4.5 miles to head of Fog Creek, Aleutian Range; 56° 16' N, 159° 29' W; (map 30). Name reported in 1923 by R. H. Sargent, USGS; published in 1927 by USGS.

Fog Lakes: lakes, group extends E-W 9 miles between Fog Creek and Susitna River, 43 miles SE of Cantwell; Talkeetna Mountains; 62° 47' 30" N, 148° 23' 30" W; (map 82). Local name reported in 1951 by USGS.

Fog River: stream, heads in Kilbuck Mountains at 61° 55' N, 159° 45' W, and flows NW 75 miles to Tuluksak River 7 miles E of Tuluksak and 52 miles SE of Russian Mission, 61° 05' N, 160° 45' W; (map 73). Variant: Fogg River. Local name shown in a 1912 manuscript map by H. W. Reeth as Fogg River. A. G. Maddren, USGS, spelled it "Fog" on his 1914 fieldsheet.

Fogenera Pass: pass, 6,300 ft., between tributaries of North Fork White River and Ophir Creek, 10 miles NW of Rock Lake and 55 miles NE of McCarthy, Alaska Range; 61° 53' 45" N, 141° 33' 00" W; (map 67). Local name published in 1954 by USGS.

Fogg River: stream, see Fog River.

Foggi Cape: point of land, see Foggy Point.

Foggy Bay: bay, 5 miles wide, E shore Revillagigedo Channel, Coast Mountains; 54° 58' N, 130° 58' W; (map 2). Named in 1880 by USC&GS; name derived from Foggy Point.

Foggy Beach: beach, 0.4 miles long, 0.7 miles W of Vega Point, SW coast of Kiska Island, Aleutian Islands; 51° 49' 52" N, 177° 19' 15" E; (map 14). One of many arbitrary names applied to features on Kiska Island by USAAF for tactical purposes during World War II.

Foggy Cape: peninsula, see Kumliun, Cape.

Foggy Cape: promontory, elev. 418 ft., near S shore of Alaska Peninsula, at E end of Sutwik Island, 18 miles SE of Cape Kunmik, Aleutian Range; 56° 32' N, 156° 58' W; (map 31). Variant: Cape Brumeaux, Cap Brumeux, Cape Kunliun. On June 16, 1778, Capt. James Cook located a cape to which he gave this name, concluding that this was Vitus Bering's "Foggy Island." The exact identity of Cook's "Foggy Cape" is also uncertain, as might be guessed from the weather conditions prevailing when it was named. Capt. Lutke (1836, p. 277) identified it as Cape Kumliun. He called this point of land "Cape Brumeaux."

Foggy Harbor: cove, see Mulgrave, Port.

Foggy Hill: hill, 950 ft., E of Fatal Hill on southern Kiska Island, Aleutian Islands; 51° 54' 40" N, 177° 18' 45" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Foggy Island Bay: bay, 14 miles across, between Foggy and Tigvariak Islands, on Beaufort Sea coast, 35 miles SE of Beechey Point, Arctic Plain; 70° 15' N, 147° 30' W; (map 150). So named July 20, 1837 by P. W. Dease and Thomas Simpson (in Thomas Simpson, 1843, p. 124).

Foggy Island: island, 3.5 miles long, in Foggy Island Bay, Sagavanirktok River Delta, on Beaufort Sea coast, 35 miles SE of Beechey Point, Arctic Plain; 70° 16' N, 147° 48' W; (map 150). Named by Franklin (1828, p. 155) August 11, 1826, who, having been detained eight days by fogs, described "this dreary place by the name of Foggy Island."

Foggy Island: island, see Andronica Island.

Foggy Island: island, see Chirikof Island.

Foggy Island: island, see Poa Island.

Foggy Islands: islands, see Hazy Islands.

Foggy Islands: islands, see Semidi Islands.

Foggy Pass: pass, 3,100 ft., trends NE-SW 1.5 miles, 8 miles W of Cantwell and 32 miles S of Healy, Alaska Range; 63° 24' 45" N, 149° 14' 10" W; (map 87). Descriptive name published by The Alaska Railroad on a 1923 manuscript map.

Foggy Point: point of land, S end Foggy Bay, E shore Revillagigedo Channel, Coast Mountains 54° 55' 30" N, 130° 58' 30" W; (map 2). Variant: Brumez (Tumannie), Mys Foggi, Foggi Cape, Point Brumez, Bryumez (Foggy). Descriptive name given August 4, 1793 by Capt. Vancouver (1798, v. 2, p. 347), RN. In 1853 the Russian Hydrog. Dept. published the name as "M[ys] Foggi ili Bryumez (Tumannyy)," or "Foggi Cape or Bryumez (Foggy)."

Foggytop Mountain: mountain, 4,400 ft., S of Chimney Mountain, between Clear and Glacier Rivers, 22 miles NW of Wiseman, Brooks Range; 67° 41' N, 150° 34' W; (map 124). Descriptive name reported in 1939 by Marshall (1956, map).

Fogniak: island, see Afognak Island.

Fogoi Islas: islands, see Semidi Islands.

Fohlin Creek: stream, flows S 5 miles to Lakina River, 12 miles NW of McCarthy, Wrangell Mountains; 61° 27' 30" N, 143° 15' 15" W; (map 67). Named in 1899 by Oscar Rohn, for a member of his survey party, John Fohlin, cook and dog handler.

Foley Creek: stream, flows SW 6.2 miles to Sulatna River E of Tamarack Bluff, 7 miles NE of Poorman, Kilbuck-Kuskokwim Mountains; 64° 10' 00" N, 155° 22' 30" W; (map 98). Prospectors' name reported in 1913 by Eakin (1914, pl. 3), USGS.

Folger Creek: stream, formed by junction of South Fork Folger and Canyon Creeks, flows NW 18 miles to Innoko River, 29 miles N of Ophir and 47 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 33' N, 156° 23' W; (map 90). Prospectors' name obtained in 1908 by Maddren (1910, pl. 1), USGS.

Folger Slough: stream, anabranch, flows NE 1.7 miles along right bank of Kantishna River, 45 miles SE of Bitzshtini Mountains, Tanana Lowland; 64° 14' N, 150° 35' W; (map 99). Local name reported in 1952 by USGS.

Folger: locality, on E bank of Cripple Creek 2.6 miles SE of its junction with Graham Creek and 32 miles NE of Ophir, Kilbuck-Kuskokwim Mountains; 63° 33' 45" N, 156° 05' 00" W; (map 90). Mining camp named for nearby Folger Creek. The Folger post office was maintained in the area from 1935 to 1954.

Folger: locality, on E bank of Innoko River, 3 miles SW of junction of Folger Creek and 26 miles N of Ophir, Kilbuck-Kuskokwim Mountains; 63° 30' 45" N, 156° 27' 00" W; (map 90). This was a supply landing for the mining camps on Folger Creek. See Folger on Cripple Creek.

Font, Streights du: water passage, name used by Joseph Ingraham apparently intended to apply to the entrance of Portland Canal or Revillagagedo Channel, or possibly both (Wagner, 1937, p. 455).

Fontain Island: island, see Fontaine Island.

Fontaine Island: island, 0.3 miles long, at head of Shakan Bay, between Prince of Wales and Kosciusko Islands, Alexander Archipelago; 56° 09' 00" N, 133° 28' 15" W; (map 6). Variant: Fountain Island. Named in 1886 by Lt. J. M. Helm, USN, for charting purposes; name published in 1887 on USC&GS Chart 706.

Fontan, Podvodnyy Kamen: rock, see Fontain Rock.

Fool Creek: stream, flows E 0.5 miles to Casadepaga River between Bonanza and Dawson Creeks, about 27 miles NE of Solomon, Seward Peninsula Highlands; 64° 56' N, 164° 08' W; (map 95). Prospectors' name reported on a prospector's manuscript map dated 1902.

Fool Creek: stream, see Sixtymile Creek.

Fool Hill: hill, 500 ft., 3.4 miles NW of Vega Point, on southern Kiska Island, Aleutian Islands; 51° 52' 20" N, 177° 17' 00" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Fool Inlet: estuary, 5 miles long, on W coast of Glass Peninsula, trends NW to Seymour Canal, 19 miles SE of Juneau, Alexander Archipelago; 58° 02' N, 134° 14' W; (map 11). Local name published in 1951 by USGS.

Fool Island: island, 0.5 miles long, in Prince William Sound, 3 miles SE of Esther Island and 26 miles E of Whittier, Chugach Mountains; 60° 45' 55" N, 147° 54' 45" W; (map 63). Name published in 1913 by USC&GS.

Fools Inlet: estuary, extends SE 4 miles to Ernest Sound, on S coast of Wrangell Island, 23 miles SE of Wrangell, Alexander Archipelago; 56° 11' 00" N, 132° 00' 30" W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow, USN; name published in 1887 on USC&GS Chart 706.

Fools Point: point of land, on Portland Canal, 0.9 miles NE of Sandfly Bay, Coast Mountains; 55° 10' 15" N, 130° 08' 00" W; (map 3). Named in 1891 by USC&GS.

Foot Bay: bay, 1.5 miles across, on W coast of Kuiukta Bay, 20 miles SW of Chignik, on S shore of Alaska Peninsula, Aleutian Range; 56° 03' N, 158° 39' W; (map 30). Local name published by USC&GS in the 1916 Coast Pilot (p. 161).

Foot Island: island, 0.6 miles across, in Steamboat Bay, 2 miles N of Whitney Island and 71 miles E of Sitka, Coast Mountains; 57° 16' 15" N, 133° 31' 30" W; (map 8). Named in 1889 by Lt. Comdr. H. B. Mansfield, USN; published by USC&GS in 1891 Coast Pilot (p. 146).

Foot Island: island, see Latouche Island.

Foot Lake: lake, 1,500 ft. long, on Prince of Wales Island, near head of Kasaan Bay, 2.3 miles NW of village of Salt Chuck, Alexander Archipelago; 55° 38' N, 132° 37' W; BGN 1960; (map 4). Local descriptive name reported by C. L. Sainsbury, USGS, in 1956, who stated that the name "is suggested by the shape of the Lake."

Foot Mountain: mountain, 1,220 ft., S. of Fox Hill, on southern Kiska Island, Aleutian Islands; 51° 55' 15" N, 177° 18' 50" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published in 1953 by AMS.

Foot Peak: peak, 5,175 ft., 5 miles E of Thomas Bay, 2.5 miles N of Swan Lake and 105 miles E of Sitka, Coast Mountains; 57° 03' 25" N, 132° 44' 00" W; (map 8). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for Rear Adm. A. H. Foote, USN. The name was published in 1888 by USC&GS on Chart 705.

Footprint Lake: lake, intermittent, 1.8 miles long, 2.5 miles SE of Barrow, Arctic Plain; 71° 16' 20" N, 156° 39' 00" W; (map 153). So named because it looks like a large human footprint from the air (Carson and Hussey, 1962).

Foraker Glacier: glacier, in Mount McKinley National Park, trends N 15 miles from Mount Foraker to head of Foraker River, 19 miles W of Mount McKinley, Alaska Range; 63° 08' N, 151° 35' W; (map 88). Name reported in 1925 by S. R. Capps, USGS.

Foraker Pond: lake, 0.5 miles across, 4.6 miles N of junction of Herron and Foraker Rivers and 12 miles SSE of village of Lake Minchumina, Tanana Lowland; 63° 42' 45" N, 152° 11' 45" W; (map 88). Local name reported in 1954 by USGS.

Foraker River: stream, heads in Mount McKinley National Park at Foraker Glacier, flows NW 60 miles to Lake Minchumina, Tanana Lowland; 63° 52' 45" N, 152° 06' 00" W; (map 88). Variant: Kotalhno River, Kwalana, Gotothna River. Name derived from Mount Foraker; reported in 1925 by S. R. Capps, USGS. In 1907, according to Gordon (1917, p. 62), its Tanana Indian name was "Kwalana"; another Indian name reported in 1952 by USGS is "Kotalhno."

Foraker, Mount: peak, 17,400 ft., at head of Foraker Glacier, in Mount McKinley National Park, 15 miles SW of Denali Pass, Alaska Range; 62° 57' 40" N, 151° 23' 45" W; (map 81). Variant: Bolshoi, Din-al-ee, Din-az-ee, Mount Faraker. Named in 1899 by Lt. J. S. Herron, USA, for Joseph Benson Foraker, 1846-1917, U.S. Senator from Ohio. Its North Peak was first climbed August 6, 1934, and its South Peak was climbed August 10, 1934, by C. S. Houston, T. G. Brown, and Chychele Waterston (Farquhar, 1959, p. 221). This peak along with Mount McKinley was called "Bolshaya Gora," or "big mountain," by the Russians. The Tanaina Indians of the Susitna River valley and Tanana Indians to the north are reported to have had the same name [Denali] for Mount Foraker as they had for Mount McKinley, and it appears as if the names were not applied to individual peaks but instead to the Mount McKinley massif. The Tanana Indians in the Lake Minchumina area, however, had a broadside view of the mountains and thus gave distinctive names to each. According to Rev. Hudson Stuck, these Indians had two names for Mount Foraker: "Sultana" meaning "the woman" and "Menlale" meaning "Denali's wife," Denali being Mount McKinley.

Ford Arm: bay, 0.3 miles across, 4 miles long, 8.5 miles SE of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 33' N, 136° 00' W; BGN 1908; (map 9). Named in 1897 by Lt. Comdr. E. K. Moore, USN, for yeoman Harry L. Ford, a member of his party. The name was published by USC&GS in the 1901 Coast Pilot (p. 199).

Ford Creek: stream, flows SE 1.7 miles to Fern Creek, near NW shore of Vega Bay, Kiska Island, Aleutian Islands; 51° 54' 48" N, 177° 21' 00" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Ford Hill: hill, 700 ft., 0.6 miles S of Lief Cove, on southern Kiska Island, Aleutian Islands; 51° 55' 35" N, 177° 20' 00" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Ford Lake: lake, oxbow, 1.5 miles long, 0.5 miles W of Yukon River and 7.5 miles N of Eagle, Yukon-Tanana Highlands; 64° 53' 30" N, 141° 13' 00" W; (map 102). Local name published in 1956 by USGS.

Ford Rock: rock, in N part of Peril Strait, between Ushk Bay and N tip of Duffield Peninsula 23 miles SE of Chichagof, Alexander Archipelago; 57° 34' N, 135° 31' W; (map 9). Named in 1895 by Lt. Comdr. E. K. Moore, USN, for yeoman Harry L. Ford, USN, a member of his party from 1895 to 1897.

Forde, Mount: mountain, 6,880 ft., in Glacier Bay National Monument, on Alaska-British Columbia boundary, 4 miles W of terminus of Margerie Glacier and 72 miles WSW of Skagway, St. Elias Mountains; BGN 1954; 59° 01' 50" N, 137° 10' 30" W; (map 45). Named

by Canada in 1929 for John Preston Forde, an engineer of the Public Works Dept. of the Dominion of Canada, who visited Tarr Inlet in 1925 and 1928 and measured the recession of the glacier at the head of the inlet.

Fords Terror: estuary, heads 2 miles W of terminus of Brown Glacier, trends S 7.5 miles to Endicott Arm, 66 miles SE of Juneau, Coast Mountains; 57° 36' 45" N, 133° 11' 00" W; (map 8). Named in 1889 by Lt. Comdr. H. B. Mansfield, USN, for H. L. Ford, USN, Master-of-Arms and a member of his surveying party. "It is very narrow at one point. Floating ice from glaciers, with falling tide, jamming in this contracted throat make it a dangerous place" giving it the name "Fords Terror."

Forest Creek: stream, flows SW 4 miles to Walker Fork, 55 miles SW of Eagle, Yukon-Tanana Highlands; 64° 03' N, 141° 35' W; (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Forest Creek: stream, in Glacier Bay National Monument, heads in Casement Glacier, flows W 2 miles to Muir Inlet, 0.8 miles SE of Goose Cove and 62 miles NW of Hoonah, St. Elias Mountains; 58° 56' 15" N, 136° 04' 30" W; (map 10). So named in 1947 by members of the American Geographical Society "because the stream flows through the remains of an interglacial forest."

Forest Lake: lake, see East Forest Lake.

Forest Lake: lake, see West Forest Lake.

Foresta, Mount: mountain, 11,960 ft., 11 miles NW of Mount Seattle and 47 miles N of Yakutat, St. Elias Mountains; 60° 12' 05" N, 139° 24' 00" W; BGN 1960; (map 66). Named for Foresta Hodgson Wood, 1904-51, who was responsible for logistic planning of Project Snow Cornice of the Arctic Institute of North America. She was killed in an airplane crash about July 27, 1951 with her daughter (see Valerie Glacier) somewhere in the vicinity of this mountain. The name was proposed in 1957 by the Arctic Institute of North America.

Fork Creek: stream, flows NW 12 miles to Crooked Creek, 67 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 18' N, 160° 09' W; BGN 1959; (map 59). Local name reported in 1955 by J. M. Hoare, USGS.

Fork Creek: stream, flows NW 4 miles to Taylor Creek, 6 miles SE of center of Taylor Mountains and 60 miles S of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 53' N, 157° 17' W; BGN 1948; (map 60). Local name reported in 1945 by USGS. "This name given by prospectors on Taylor Creek, refers to the 'fork' where the stream joins Taylor Creek."

Fork Hill: stream, flows SE 2.8 miles to Pacific Ocean, 3 miles N of Vega Point, on southern Kiska Island, Aleutian Islands; 51° 52' 30" N, 177° 19' 28" E; (map 14). Variant: Ginger Creek. An arbitrary name beginning with "F" to correspond to "F" grid used by U.S. Army for tactical purposes during World War II; published on a 1953 AMS map. Variant published on a 1943 USAAF map.

Fork Peak: peak, 6,063 ft., on E side of John River, 4 miles S of mouth of Kollutuk Creek and 11 miles SW of Anaktuvuk Pass, Brooks Range; 68° 00' 30" N, 151° 57' 00" W; (map 134). So

named in 1901 by F. C. Schrader and W. J. Peters, USGS, because the peak lies near the confluence of several forks of the John River.

Forks Creek: stream, in Rampart Mountains, flows S 4.5 miles to Bear Creek, 30 miles NE of Tanana, Kokrines-Hodzana Highlands; 65° 25' 15" N, 151° 15' 00" W; (map 106). Local name reported in 1956 by Orth.

Forks, The: stream, formed by its East and West Forks, flows SW 16 miles to Dall River, 10 miles N of Stevens Village, Yukon Flats; 66° 09' N, 149° 13' W; (map 118). Local descriptive name obtained in 1956 by USGS.

Forky Creek: stream, on Iniskin Peninsula, flows SE 1.3 miles to Fitz Creek, 3.5 miles S of Chinitna Bay, Aleutian Range; 59° 46' 20" N, 153° 12' 30" W; BGN 1947; (map 51). Local descriptive name reported by USGS in 1947.

Form Lake: lake, 450 ft. long, on southern Kiska Island, Aleutian Islands; 51° 51' 50" N, 177° 18' 15" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Form Point: point of land, 0.5 miles long., on W shore of Ryus Bay and N coast of Duke Island, Alexander Archipelago; 54° 58' 00" N, 131° 25' 30" W; (map 2). Local name published in 1920 by USC&GS.

Forney River: stream, see Osar stream.

Forney Stream: stream, headed in Malaspina Glacier, flowed 5 miles S to Yakutat Bay, 5 miles NE of Point Manby and 20 miles NW of Yakutat, Malaspina Coastal Plain; 59° 44' 45" N, 140° 09' 30" W; (map 46). Variant: Fotney River, Fotney stream. Named by J. E. McGrath, USC&GS, probably for Stehman Forney, USC&GS. This name may have been originally applied to what is now Oscar stream. More likely the original Forney stream, except for a small lagoon, has been destroyed by the advance of the Malaspina Glacier.

Forrest, Cape: point of land, see Icy Point.

Forrester Island: island, 5.2 miles long, in Pacific Ocean, 20 miles W of Dall Island, Alexander Archipelago; 54° 48' N, 133° 31' W; (map 1). Variant: Douglas Island, San Blas Island, San Carlos Island, Santa Catalina Island, Santa Christina Island, Santa Cristina Island. Named by Capt. George Dixon "about July 1, 1787 and named no doubt after his steward, Henry Forrester" (Wagner, 1937, p. 388). Capt. George Vancouver, RN, adopted Dixon's name in 1793, giving it permanency. Juan Perez called it "Santa Christina" in 1774; F. A. Maurelle called it "San Carlos" in 1775, and Capt. William Douglas named it "Douglas Island" in 1788 (Meares, 1790, p. 327). Forrester Island is a National Wildlife Refuge under the jurisdiction of USF&WS.

Forrester's Island: rock, see Wolf Rock.

Forss Cove: cove, 0.7 miles long, on E coast of Prince of Wales Island, 2.2 miles N of Thorne Head, Alexander Archipelago; 55° 43' 10" N, 132° 27' 15" W; (map 4). Name published in 1925 Coast Pilot (p. 85).

Forss Island: island, 0.4 miles long, in Helm Bay, 3.7 miles NW of Helm Point, on E coast of Cleveland Peninsula, Alexander Archipelago; 55° 37' 45" N, 131° 58' 15" W; (map 3). Local navigators' name obtained in 1904 by H. C. Fassett, USBF.

Fort Adams (American Station): locality, see Tanana.

Fort Alexander: locality, see Nushagak.

Fort Alexandra: locality, see Nushagak.

Fort Alexandrofskaia: locality, see Nushagak.

Fort Archangel Gabriel: locality, see Old Sitka.

Fort Cosmos: locality, on right bank of Kobuk River at mouth of Cosmos Creek; 66° 52' N, 157° 18' W; (map 115). Winter camp, 1885-86, established and named in August 1885 by Lt. Stoney (1900, p. 19), USN, after the Cosmos Club in San Francisco, Calif., "of which the officers were members."

Fort Creek: stream, heads at 66° 52' N, 141° 03' W, flows SE 25 miles to the Black River in Canada, 8 miles E of the Alaska-Canada boundary, 50 miles NE of Midnight Hill, Porcupine Plateau; 66° 41' N, 140° 42' W; (map 120). Variant: Rat Creek. Named in 1908 by IBC surveyors; published in 1914 on IBC Sheet 12 (1918 Atlas).

Fort Davis: locality, at mouth of Nome River at Norton Sound, 4 miles SE of Nome, Seward Peninsula Highlands; 64° 29' N, 165° 19' W; (map 94). U.S. Army post established in 1900 and named for Gen. Jefferson Columbus Davis, commander of the military district of Alaska in 1867. Much unrest resulted from claim jumping, filing errors, and lack of authority at the outset of the Nome gold rush in 1899 and 1900. The Army was stationed here to maintain order.

Fort Egbert: locality, see Eagle.

Fort Gibbon: locality, see Tanana.

Fort Glenn: military reservation, on NE end of Umnak Island, Aleutian Islands; 53° 24' N, 167° 53' W; (map 23). Named by the U.S. Army for Brig. Gen. E. F. Glenn, USA, in 1942 and published in 1947 on a USGS map.

Fort Hamilton: village, see Hamilton.

Fort Hamlin Hills: mountains, 2,000 ft., extend NW 30 miles from Yukon River at Fort Hamlin, 32 miles NW of Livengood, Kokrines-Hodzana Highlands; 66° 00' N, 149° 45' W; (map 105). Name reported in 1956 by USGS.

Fort Hamlin: locality, on left bank of Yukon River, N of Hamlin Creek, 40 miles NE of Rampart, Yukon-Tanana Highlands; 65° 53' 45" N, 149° 13' 15" W; BGN 1954; (map 105). Name of a trading post of the Alaska Commercial Company named for Charles Sumner

Hamlin, 1861-1938, Assistant Secretary of the Treasury from 1893-1897; commissioner at convention between Great Britain and United States to determine the fur seal-fishery controversy in 1897. Name published by USC&GS in 1897.

Fort Islet: island, NE island of Nichols Islands, in Tlevak Strait between Dall and Goat Islands, Alexander Archipelago; 55° 10' 40" N, 132° 57' 50" W; (map 4). Local descriptive name recorded in 1907 by H. C. Graves, USC&GS. This island "is the site of an old Indian stockade."

Fort Kenai: village, see Kenai.

Fort Liscum: locality, on S shore of Port Valdez 4 miles SW of Valdez, Chugach Mountains; 60° 05' N, 146° 21' W; Variant: Dayville. Former military post established in 1900, reported to have been named for "Colonel Liscom," USA, commander of the 9th Infantry during the Boxer Rebellion, who died of wounds in China just prior to the founding of this post. The Fort Liscum post office was established in 1900; discontinued in 1922 (Ricks, 1965, p. 21).

Fort Mikhailovsky: locality, see Fort Saint Michael.

Fort New Archangel: town, see Sitka.

Fort Nicholas: village, see Kenai.

Fort Point: point of land, at entrance to Steamboat Bay, 7 miles N of Cape Fanshaw and 61 miles E of Sitka, Coast Mountains; 57° 16' 45" N, 133° 31' 30" W; (map 8). Named in 1889 by Lt. Comdr. H. B. Mansfield, USN; name published in 1892 by USC&GS.

Fort Point: point of land, on NE end of Tongass Island, at NW entrance to Port Tongass, Coast Mountains; 54° 46' 15" N, 130° 44' 15" W, (map 2). Descriptive name given in 1891 by L. Comdr. H. E. Nichols, USN.

Fort Randall: village, see Cold Bay.

Fort Saint Michael: locality, on Baranof Island, at Old Sitka, 6 miles N of Sitka, Alexander Archipelago; 57° 17' 50" N, 135° 22' 10" W; (map 9). Variant: Archangel Michael, Fort Archangel Gabriel, Fort Mikhailovsky, Fort Svyatty Mikhail, Mikhailovsk, New Archangel, Novo Arkhangelsk, Redoubt Saint Gabriel. This is the first Russian settlement built in 1799 at Sitka by Alexander Baranov, first governor of Russian American colonies, who named it "Fort Archangel Gabriel." The site was purchased from the Tlingit Indians. In 1802 natives attacked and destroyed the fort and killed or captured most of its inhabitants. The captives were released after an ultimatum was issued by the officer aboard a British ship in the harbor (Bancroft, 1886, p. 405-406). The Russians recaptured the area in 1804 and erected a new fort called "Fort Archangel Michael" at a new location 5 miles to the south which developed into the present city of Sitka. See Sitka.

Fort Saint Michael: village, see Saint Michael.

Fort Shoemaker: locality, on Dall River just above its junction with the Yukon River Kokrines-Hodzana Highlands; 66° 02' N, 149° 15' W; (map 118). Winter camp established in 1899-

1900 for the crew of the revenue cutter Nunivak; named by Lt. Cantwell (1902, p. 46), USRCS, for Capt. Charles F. Shoemaker, USRCS, "who, as chief of the Revenue Cutter Service, had been indefatigable in his effort to extend the operations of the Service to this region * * *."

Fort Souworoff: village, see Naknek.

Fort Stikine: town, see Wrangell.

Fort Suvaroff: village, see Naknek.

Fort Suworof: village, see Naknek.

Fort Svyatty Mikhail: locality, see Fort Saint Michael.

Fort Tomgas: locality, see Tongass.

Fort Tongas: locality, see Tongass.

Fort William H. Seward: village, see Port Chilkoot.

Fort Wrangell: town, see Wrangell.

Fort Yukon Village: village, see Fort Yukon.

Fort Yukon: village, pop. 701, on right bank of Yukon River at its junction with Porcupine River, Yukon Flats; 66° 34' N, 145° 16' W; BGN 1944; (map 119). Variant: Fort Yukon Village. Founded as a Hudson's Bay Company trading post by Alexander H. Murray in 1847; originally the post and Indian village was located about a mile or two upstream but moved to its present location about 1864. After the purchase of Alaska it was determined by Capt. C. W. Raymond, U.S. Engineers, that the British trading post was on United States territory and the site was soon taken over by Moses Mercier, trader of the new Alaska Commercial Company. The village population was 107 in 1880; 189 in 1890; 321 in 1910, 319 in 1920; 304 in 1930; 274 in 1939; and 446 in 1950. The Fort Yukon post office was established in 1898 (Ricks, 1965, p. 21).

Fortaleza Bay: bight, 1 mile across, on SE coast of Baker Island, Alexander Archipelago; 55° 18' N, 133° 35' W; (map 4). Named in 1923 by USC&GS; derived from Fortaleza, Point.

Fortaleza Ridge: ridge, 1,500 ft., extends E-W 3 miles across S end of Baker Island, W of Point Fortaleza, 55° 17' 15" N, 133° 37' 40" W; (map 4). Named in 1923 by USC&GS; derived from Fortaleza, Point.

Fortaleza, Lake: lake, 0.6 miles long, W of Fortaleza Bay, on SE coast of Baker Island, Alexander Archipelago; 55° 17' 45" N, 133° 36' 30" W; (map 4). Named in 1923 by USC&GS; derived from Fortaleza Point.

Fortaleza, Lake: lake, 0.6 miles long, W of Fortaleza Bay, on SE coast of Baker Island, Alexander Archipelago; 55° 17' 45" N, 133° 36' 30" W; (map 4). Named in 1923 by USC&GS; derived from Fortaleza Point.

Fortaleza, Point: point of land, S point of entrance to Fortaleza Bay, on SE coast of Baker Island, Alexander Archipelago; 55° 17' 40" N, 133° 35' 30" W; (map 4). Variant: Mys de la Fartalesa, Punta de la Forteleza. The name "Punta de la Forteleza" or "stronghold point" was given by Francisco Antonio Maurelle who discovered it on May 18, 1779. This was "no doubt a settlement of Indians on top of the high rock near Punta San Bartolome [Cape Bartolome], described by Mourelle [sic] in his journal" (Wagner, 1937, p. 388-389).

Forteleza, Punta de la: point of land, see Fortaleza, Point.

Fortification Bluff: cliff, 1,200 ft., 3 miles long, on E coast of Alaska Peninsula S of Step Mountain, 16 miles NW of Augustine Island, Aleutian Range; 59° 25' 30" N, 153° 47' 30" W; BGN 1916; (map 51). So named in 1914 by USC&GS because of its fort-like appearance as it rises 1,200 ft. from the shore.

Fortman Lake: lake, see Patching Lake.

Fortress Creek: stream, flows NE 15 miles to Ayiyak River, 7 miles NW of Castle Mountain and 44 miles NW of Anaktuvuk Pass, Arctic Slope; 68° 38' N, 152° 48' W; (map 134). Descriptive name given in 1944 by W. W. Patton, USGS, during the exploration of Naval Petroleum Reserve No. 4, for nearby Fortress Mountain.

Fortress Creek: stream, flows SE 6.1 miles to Caribou Creek, 51 miles NE of Palmer, Talkeetna Mountains; 61° 50' 15" N, 147° 39' 25" W; BGN 1960; (map 69). Named by USGS in 1956; derived from Fortress Ridge through which the stream flows.

Fortress Mountain: mountain, 2,870 ft., 10 miles W of Castle Mountain and 44 miles NW of Anaktuvuk Pass, Arctic Slope; 68° 35' N, 152° 58' W; (map 134). Descriptive name given in 1944 by W. W. Patton, USGS, during the exploration of Naval Petroleum Reserve No. 4, because of its fortress appearance.

Fortress Point: point of land, between Gusty and Rough Bays, on NE coast of Tanaga Island, Aleutian Islands; 51° 50' 40" N, 177° 52' 00" W; (map 17). Name published by USC&GS in 1956 on Chart 9145.

Fortress Ridge: ridge, elev. 5,000 ft., extends 6.5 miles along W bank of Caribou Creek, 47 miles NE of Palmer, Talkeetna Mountains; 61° 51' 45" N, 147° 40' 00" W; BGN 1960; (map 69). Descriptive name given in 1956 by USGS. So named "because bold cliff is suggestive of fortress walls when viewed from the southeast."

Fortuna Channel: water passage, see Fortuna Strait.

Fortuna Island: island, see Klokachef Island.

Fortuna Ledge: village, see Marshall.

Fortuna Passage: water passage, see Fortuna Strait.

Fortuna Point: point of land, on Klokachef Island, off SW coast of Chichagof Island, 18 miles SE of Chichagof, Alexander Archipelago; 57° 25' 00" N, 135° 53' 45" W; BGN 1930; (map 9). Named in 1930 by USC&GS for Fortuna Strait. Fortuna was the former name of Klokachef Island.

Fortuna Reefs: reefs, off NW coast of Klokachef, Island, SW of Chichagof Island, Alexander Archipelago; 57° 25' 20" N, 135° 55' 00" W; BGN 1930; (map 9). Named in 1930 by USC&GS for Fortuna Strait.

Fortuna Strait: water passage, between Klokachef Island and Khaz Peninsula, Chichagof Island, Alexander Archipelago; 57° 25' N, 135° 53' W; (map 9). Variant: Fortuna Channel, Fortuna Passage, Proliv Fortuny. Named by the Russians; published in 1848 on Russian Hydrog. Chart 1397 as "Proliv Fortuny" meaning "Fortuny Strait." "The Spanish schooner Fortuna, * * * was found ashore here and taken by the Russian American Company's vessels as a prize in 1819. The name has doubtless come from this circumstance" (Baker, 1906, p. 262).

Fortune Creek: stream, flows E 7 miles to Cache Creek, 20 miles W of Fairbanks, Yukon-Tanana Highlands; 64° 52' 55" N, 148° 22' 20" W; (map 100). Name given by prospectors; published in 1906 by USGS.

Fortune Creek: stream, flows NW to Mystery Creek which flows to Cripple River, about 23 miles NW of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name reported on a precinct map of Seward Peninsula by Monroe and Hutchins; corrected to June 1903 by Arthur Gibson. This stream cannot be precisely located on current maps.

Fortune Hunter Creek: stream, flows SW to Fish River, on N side of White Mountain about 32 miles ENE of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. W. Blakeslee. The stream cannot be precisely located on current maps.

Fortuny, Proliv: water passage, see Fortuna Strait.

Forty and One-half Mile Creek: stream, flows NE 18 miles to Fortymile Creek, 0.8 miles W of its junction with Hadweenzic River and 31 miles N of Beaver, Yukon Flats; 66° 48' N, 147° 25' W; (map 118). Local name obtained in 1956 by USGS; name derived from the distance to Beaver via a year-round trail.

Forty Mile Creek: stream, see Fortymile River.

Forty Mile: village, see Tetlin Junction.

Forty-seven Gulch: ravine, trends W 3 miles to Ninety-two Hunter Creek, 8 miles E of Rampart, Yukon-Tanana Highlands; 65° 28' 30" N, 149° 54' 30" W; (map 105). Variant: Fortyseven Pup, 47 Pup. Named by prospectors; reported in 1904 by L. M. Prindle and F. L. Hess (in Brooks and others, 1905, fig. 6), USGS, as "47 Pup".

Fortyfive Pup: stream, flows SE 7 miles to Buckskin Creek, 50 miles SW of Eagle, Yukon-Tanana Highlands; 64° 11' 30" N, 142° 01' 00" W; (map 102). Prospectors' name shown on a 1902 manuscript map by E. J. Chamberlain, U.S. Deputy Surveyor.

Fortymile Creek: stream, heads in lake, flows NE 16 miles to Hadweenzic River, 31 miles N of Beaver, Yukon Flats; 66° 48' N, 147° 23' W; (map 118). Local name obtained in 1956 by USGS; name derived from the distance to Beaver via a year-round trail.

Fortymile Dome: mountain, 4,187 ft., 1 miles W of Alaska-Canada boundary, 25 miles SE of Eagle, Yukon-Tanana Highlands; 64° 26' 20" N, 141° 01' 00" W; (map 102). Variant: Dome, Dome Mountain, The Dome. Named by prospectors and published in 1898 by the USGS. In 1896, the mountain was called "The Dome" by Spurr (1898, pl. 38), USGS.

Fortymile Lake: lake, 0.3 miles across, in course of Fortymile Creek, 29 miles N of Beaver, Yukon Flats; 66° 46' 40" N, 147° 32' 30" W; (map 118). Local name derived from Fortymile Creek; obtained in 1956 by USGS.

Fortymile Lake: lake, 0.6 miles across, 1.2 miles SSW of Thirtyeight Mile Lake and 15 miles W of junction of Herron and Foraker Rivers, Tanana Lowland; 63° 40' N, 152° 40' W; (map 88). Local name reported in 1954 by USGS.

Fortymile River: stream, formed by its North and South Forks, flows NE 60 miles into Canada to Yukon River, 32 miles SE of Eagle, Yukon-Tanana Highlands; 64° 26' N, 140' 32' W; (map 102). Variant: Cone-Hill River, Forty Mile Creek, Forty-Mile River, Shitando River. Prospectors' name given about 1886; so called because the mouth of the stream is about 40 miles below the former Hudson's Bay post called "Fort Reliance." It was called "Cone-Hill River" by Lt. Schwatka (1885, p. 248), USA, "from the fact that there is a prominent conical hill in the center of its broad valley, near its mouth." Gold was discovered here late in 1886 (Spurr, 1898, p. 115).

Fortymile River: stream, see Dennison Fork.

Fortymile Slough: stream, anabranch of Koyukuk River, flows W 3 miles along the N side of Florence Islands, 18 miles N of Hackandochtla Mountain, Kokrines-Hodzana Highlands; 65° 48' 00" N, 154° 55' 20" W; (map 107). Local name shown on a 1932 sketch map of the area; author unknown.

Fortymile: locality, at junction of Bullion Creek and North Fork Fortymile River 37 miles SW of Eagle, Yukon-Tanana Highlands; 64° 26' 30" N, 142° 08' 20" W; (map 102). Variant: North Fork. Former telegraph station established in 1903 by the U.S. Army Signal Corps and originally called "North Fork" after the stream. The prospectors called it "Fortymile."

Fortyseven Pup: ravine, see Forty-seven Gulch.

Fortyseven Pup: stream, flows NW 1.6 miles to Hoosier Creek 2.7 miles SE of that stream's junction with Minook Creek, 7 miles SSE of Rampart, Yukon-Tanana Highlands; 65° 25' 10" N, 150° 03' 00" W; (map 106). Prospectors' name reported in 1904 by L. M. Prindle, USGS.

Fortythree Pup: stream, flows N 1.3 miles to Deadwood Creek, 12 miles SW of Central and 38 miles SW of Circle, Yukon-Tanana Highlands; 65° 25' 30" N, 145° 01' 00" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Fortytwo Gulch: ravine, trends NW 1 mile to Mastodon Creek, 1.5 miles NE of Mastodon Dome and 44 miles SW of Circle, Yukon-Tanana Highlands; 65° 27' N, 145° 18' W; (map 104). Named by prospectors and reported in 1936 by Mertie (1938a, p. 206), USGS.

Fortytwo Mile Creek: stream, flows E 17 miles to Hadweenzic River, 33 miles N of Beaver, Yukon Flats; 66° 49' 50" N, 147° 23' 30" W, (map 118). Local name obtained in 1956 by USGS; name derived from the distance to Beaver via a year-round trail.

Forward Lake: lake, see Chuck Lake.

Fossil Bluffs: bluffs, on Kuiu Island, on NE shore of Halleck Harbor, in Saginaw Bay, Alexander Archipelago; 56° 55' 00" N, 134° 12' 30" W; (map 5). Local name recorded in 1948 by USGS.

Fossil Creek: stream, flows NE 25 miles to Colville River, 7 miles SW of Umiat, Arctic Slope; 69° 18' N, 152° 22' W; BGN 1964; (map 141). Variant: Ikaksigilak Creek. So named by USGS geologists during exploration of Naval Petroleum Reserve No. 4 in 1947 "because of the excellent fossil collection made here." The Eskimo name, according to T. E. Taylor, USGS, in 1956, is Ikaksigilak, meaning "hard to cross in summer."

Fossil Creek: stream, flows SW 23 miles to Beaver Creek, 25 miles SE of Livengood, Yukon-Tanana Highlands; 65° 28' 30" N, 147° 39' 30" W; (map 105). Named in 1905 by L. M. Prindle, USGS, for "the fossiliferous limestone pebbles in its valley" (Prindle and Hess, 1906, p. 13).

Fossil Creek: stream, flows W 2.7 miles to Lake Kiowa, 9.2 miles NE of Anchorage, Cook Inlet Lowland; 61° 17' 54" N, 149° 40' 10" W; (map 69). Local name reported in 1942 by AMS.

Fossil Lake: lake, see Carrot Lake.

Fossil Mountain: hill, 875 ft., 0.5 miles SE of Lief Cove on W coast of Kiska Island, Aleutian Islands; 51° 55' 45" N, 177° 20' 00" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II, published on a 1953 AMS map.

Fossil Mountain: mountain, 2,673 ft., 43 miles NW of Medfra, Kilbuck-Kuskokwim Mountains; 63° 23' N, 155° 54' W; (map 89). Variant: Fossil Ridge. Local name shown as "Fossil Ridge" on a map published in 1921 by USGS; shown as "Fossil Mountain" on a 1954 USGS map.

Fossil Peak: peak, 4,115 ft., 0.5 miles S of head of Charpentier Glacier, in Glacier Bay National Monument, 58 miles NW of Hoonah St. Elias Mountains; 58° 39' 50" N, 136° 36' 50" W., (map 10). Local name reported in 1951 by USGS.

Fossil Point: point of land, on S shore of Tuxedni Bay, N point of entrance to Tuxedni Channel, 56 miles SW of Kenai, Aleutian Range; 60° 10' N, 152° 41' W; (map 62). Name published in 1912 by USC&GS.

Fossil Ridge: mountain, see Fossil Mountain.

Fossil River: stream, flows N 16 miles to Bering Sea at Camp Ivetok, on NE coast of St. Lawrence island; 63° 29' 30" N, 170° 03' 00" W BGN 1951; (map 93). Variant: Ivektuk River. Named by USC&GS in 1932.

Foster Creek: stream, flows SW 3.5 miles to Lefthand Bay, 12 miles N of Unga Island, near SW end of Alaska Peninsula, Aleutian Range; 55° 33' 30" N, 160° 44' 00" W, (map 28). Named in 1929 by USGS.

Foster Glacier: glacier, see Taku Glacier.

Foster, Mount: mountain, 7,127 ft., on Alaska-Canada boundary, 6 miles NW of Mount Van Wagenen and 24 miles NNW of Skagway, Coast Mountains; BGN 1954; 59° 47' 50" N, 135° 28' 30" W; (map 45). Named by United States and Canada for John Watson Foster, 1836-1917, former U.S. Secretary of State, who as agent of the United States participated in the Alaska Boundary Tribunal in London in 1903. Foster was born in Indiana and graduated from the Harvard Law School. After serving in the army during the Civil War, he was employed as an editor and as a postmaster. He served as Minister to Mexico, Russia, and Spain from 1873-85. He was Secretary of State under President Harrison, 1892-93, and in 1893 he represented the United States in arbitration for the Bering Fur-Seal Controversy.

Fosters Camp: locality, on W shore of Albatross Anchorage, 15 miles N of Unga Island, near SW end of Alaska Peninsula, Aleutian Range; 55° 36' 00" N, 160° 36' 25" W; (map 28). Named by Atwood (1911, pl. 2), USGS.

Fotney Stream: stream, see Forney Stream.

Fotshou's Village: locality, "near Taku Inlet Coast Mountains," (map 11). Former Tlingit Indian summer camp listed by Ivan Petroff in the 1880 Census with a population of 24.

Fou-sang: a country east of China, identified by Joseph de Guignes about 1750 to be northwest America. See Wagner (1937, p. 455).

Foul Bay: bay, 1.5 miles across, N of Sea Otter Harbor, on W coast of Dall Island, Alexander Archipelago; 55° 08' 20" N, 133° 13' 20" W; (map 4). Descriptive name published in 1920 by USC&GS.

Foul Bay: bay, 1.5 miles across, on E coast of Kenai Peninsula, on W side of Prince William Sound 22 miles N of Chenega, Chugach Mountains; 60° 35' N, 148° 04' W; BGN 1914; (map 63). Name published in 1913 by USC&GS.

Foul Bay: bay, extends SE 7 miles, off Shelikof Strait, OD W coast of Afognak Island, 25 miles N of Afognak, N of Kodiak island; 58° 22' N, 152° 54' W; (map 43) Local descriptive name reported in 1952 by USGS.

Foul Pass: water passage, trends NW-SE 2 III between Disk and Ingot Islands, in Prince William Sound, 42 miles SE of Whittier, Chugach Mountains; 60° 30' 00" N, 147° 38' 15" W; (map 63). Local name published in 1910 by USC&GS.

Found Fish Lake: lake, 1.8 miles long, N of Khaali Lake, 1.4 miles SW of Arctic Village Brooks Range; 68° 06' 30" N, 145° 36' 30" W; (map 136). Translation of a Kutchin Indian name reported in 1956 by T. E. Taylor, USGS.

Found Island: island, 0.5 miles long, in Ernest Sound S of Wrangell Island, 28 miles SE of Wrangell, Alexander Archipelago; 56° 06' 15" N, 132° 04' 30" W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow, USN; name published in 1887 on USC&GS Chart 706.

Fountain River: stream, heads at Eldridge Glacier, flows SW 9 miles to Chulitna River, 33 miles N of Talkeetna, Alaska Range; 62° 47' 50" N, 150° 05' 10" W; (map 81). Local name reported in 1951 by USGS.

Fountain Rock: rock, in Gulf of Alaska, 5 miles NW of Middleton Island, Malaspina Coastal Plain; 59° 35' N, 146° 21' W; (map 48). Variant: Podvodnyy Kamen Fontan. This is an 1868 translation by USC&GS of part of the Russian name "Podvodnyy Kamen Fontan," meaning "sunken fountain rock"; published by Capt. Tebenkov (1852, map 6).

Four Bear Creek: stream, flows SW 6 miles to Canoe Bay River at Canoe Bay, 11 miles E of Pavlof Bay, at SW end of Alaska Peninsula, Aleutian Range; 55° 31' 50" N, 161° 08' 40" W; (map 28). Named in 1929 by USGS.

Four Craters, Islands of the: islands, see Four Mountains, Islands of.

Four F Creek: stream, flows SW 2.3 miles to Pacific Ocean, on southern Kiska Island, Aleutian Islands; 51° 52' 20" N, 177° 14' 50" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Four Gulch: ravine, in Kantishna Hills, trends SE 1 mile to Glen Creek, 6 miles ENE of Wonder Lake, Alaska Range; 63° 31' 50" N, 150° 42' 20" W; BGN 1932; (map 88). Prospectors' name reported in 1931 by F. G. Wells and S. C. Kain, USGS.

Four Mountains, Islands of: islands, between Fox Islands and Andreanof Islands, Aleutian Islands; 52° 55' N, 169° 40' W, (E end); 52° 30' N, 171° 19' W, (W end); BGN 1963; (map 21). Variant: Islands of the Four Craters, Islands of the Four Mountains, Oone-agun, Ostrova Chetyre Soposhnye, Unigun. Translation of the Russian "O[strova] Chetyre Soposhnye," meaning "Islands of Four Volcanoes" (Sarichev, 1826, map 3). This name was given because of four prominent volcanoes on four of the five islands. The Aleut name "Unigun" was reported in 1840 by Father Veniaminov. There appears to be much confusion regarding the application of the variant names of these islands, possibly because only four of the five islands are shown on most of the early maps and charts. The present names were gathered in 1894 by a field party on the U.S.S. Concord and published in 1895 by the U.S. Navy Hydrog. Office (Chart 8). See Carlisle, Chuginadak, Herbert, Kagamil, and Uliaga Islands.

Four Winds Mountain: mountain, 6,512 ft., 6 miles NE of Porcupine and 29 miles W of Skagway, St. Elias Mountains; 59° 29' 55" N, 136° 08' 45" W; (map 45). Variant: Kukwahyekukwo Mountain. Local name published in 1952 by USGS. The name, according to E. C. Robertson, USGS, refers to the exposed position of the mountain. He reports that the Indian name is "Kukwahyekukwo," which refers to the abundance of cranberries in the large glacial amphitheater near the top.

Four, Lake: lake, 1,200 ft. across, between Lakes One and Five, 7.5 miles S of Talkeetna, Cook Inlet Lowland; 62° 12' 45" N, 150° 03' 15" W; (map 81). Local descriptive name reported in 1958 by USGS.

Fourmile Camp: locality, on right bank of Yukon River, 30 miles SW of Nulato, Nulato Hills; 64° 22' N, 158° 41' W; (map 97). Local descriptive name reported in 1954 by USGS.

Fourmile Creek: stream, flows N 17 miles to Innoko River, 4 miles NW of Cripple Landing, 43 miles N of Ophir and 60 miles NW of McGrath, Innoko Lowland; 63° 44' 20" N, 156° 26' 10" W; (map 90). Local name obtained in 1954 by R. E. Isto, USGS. So called because it is about four miles from Cripple Landing.

Fourmile Creek: stream, flows NW and W 30 miles to North Fork Innoko River, 52 miles N of Ophir and 69 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 54' 30" N, 156° 25' 30" W; BGN 1964; (map 90). Variant: Elk Creek, Silver Creek. Local name obtained in 1954 by R. E. Isto, USGS. So called because the stream was about four miles from Hogan's cabin.

Fourmile Creek: stream, flows S 4 miles to Chena River, 34 miles ENE of Fairbanks, Yukon-Tanana Highlands; 64° 54' 15" N, 146° 31' 10" W; (map 101). Descriptive name reported in 1950 by USGS.

Fourmile Creek: stream, heads on S slope of Madison Mountain, flows E 8 miles to Innoko River, 17 miles N of Ophir and 42 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 23' N, 156° 35' W; (map 90). Local name obtained in 1954 by R. E. Isto, USGS. So called because stream's mouth is about 4 miles from the Carlson cabin.

Fourmile Creek: stream, in Glacier Bay National Monument, flows SW 6 miles to Gulf of Alaska, 2 miles NW of mouth of Eagle Creek and 91 miles NW of Hoonah, Malaspina Coastal Plain; 58° 40' 20" N, 137° 41' 50" W; (map 10). Local name published by USGS in the 1950's.

Fourmile Creek: stream, in Nutzotin Mountains, flows SE and NE 10 miles across Alaska-Canada boundary to Beaver Creek, Alaska Range; 62° 10' N, 141° 00' W; BGN 1912; (map 84). Variant: Four Mile Creek. Local name reported in 1908 by F. H. Moffit (in Brooks and others, 1909, pl. 7), USGS.

Fourmile Hill: hill, 1,239 ft., 3.5 miles E of Big Delta, Alaska Range; 64° 09' N, 145° 43' W; (map 101). Variant: Fivemile Hill. Local name published in 1956 by USGS. So named because it is 4 miles east-southeast of the junction of the Delta and Tanana Rivers. In 1951 the USGS reported that the hill was called "Fivemile Hill."

Fourpeaked Mountain: mountain, 6,903 ft., on NE coast of Alaska Peninsula, in Katmai National Monument, 38 miles S of Augustine Island, Aleutian Range; 58° 46' 15" N, 153° 40' 25" W; BGN 1957; (map 43). Variant: Four Peaked Mountain, Gora Chetierek Glavaia, Island of the Four Peaks, Mount Tapirag, Saint Dolmat. Descriptive name translated by George Davidson, USC&GS, in 1869 from "G[ora] Chetyrekhglavaya," meaning literally four-headed mountain," published by Tebenkov (1852, map 5). The Russian Hydro. Dept. had published the name "G[ora] Chetyrekh glavaya," meaning "mountain of four heads," in 1847 on Chart 1378. This may be the mountain called "Saint Dolmat" on a 1748 Russian manuscript map (Wagner, 1937, P- 493).

Fourteen Creek: stream, flows W 2.4 miles to Lower Lake George, 29 miles SE of Palmer, Chugach Mountains; 61° 19' 05" N, 148° 28' 15" W, (map 69). Local name reported in 1960 by USGS.

Fourteenmile House: locality, on Birch Creek, 2 miles S of Twelvemile House and 14 miles SW of Circle, Yukon-Tanana Highlands; 65° 40' N, 144° 25' W; (map 104). Name of a roadhouse reported in 1908 by Covert and Ellsworth (1909, pl. 4), USGS. The roadhouse is no longer there.

Fourth Berg Lake: lake, 5 miles long, at 1905 terminus of Bering Glacier, 4 miles NE of Doughton Peak and 69 miles E of Cordova, Chugach Mountains; 60° 27' 30" N, 143° 46' 00" W; (map 65). Variant: Fourth Lake. Local name reported in 1905 by G. C. Martin (1908, pl. 2), USGS. This lake was originally one of five Berg Lakes. As a result of the retreat of Steller and Bering Glaciers in recent times, Fourth Berg Lake has joined with Fifth Berg Lake to form Fifth Lake.

Fourth Berg Lake: lake, see Fifth Lake.

Fourth Glacier: glacier, heads 1.4 miles W of Black Tit, trends SW 2.8 miles to its 1961 terminus 2.6 miles SE of Mount Pinta, 20 miles NE of Yakutat, St. Elias Mountains; 59° 35' 30" N, 139° 09' 00" W; BGN 1910; (map 46). Variant: Beasley Glacier. Local name reported in 1909 by Lawrence Martin as having been used since 1897 or 1898. This was the fourth glacier within Yakutat Bay, which the prospectors attempted to traverse in the late 1890's to reach the Alsek valley gold fields. The first was the Turner Glacier, the Hubbard Glacier was the second, and Nunatak Glacier was the third. The name "Beasley Glacier" was proposed by Blackwelder (1907, p. 417-418), instead of "Fourth Glacier," for R. W. Beasley of Yakutat, but this name was not accepted by BGN.

Fourth Lake: lake, 0.4 miles across, 1 mile E of Luke Lake and 17 miles W of Beaver, Yukon Flats; 66° 22' 30" N, 147° 57' 00" W; (map 118). Local name shown on a 1916 manuscript map by William Yanert (in Stuck, 1917, map facing p. 122); so named because it is fourth in a series of lakes which include Roaring Bear, Doctor Cook, and Luke Lakes.

Fourth Lake: lake, see Fifth Lake.

Fourth Lake: lake, see Fourth Berg Lake.

Fourth Lake: lake, see Mikchalk Lake.

Fourth of July Creek: stream, flows N 5.5 miles to Sanona Creek, 22 miles S of junction of Oshetna and Susitna Rivers, Talkeetna Mountains; 62° 19' 20" N, 147° 17' 30" W; (map 82). Local name reported by F. H. Moffit (in Brooks and others, 1915, fig. 3), USGS.

Fourth of July Creek: stream, flows NE 12 miles to Yukon River, 34 miles NW of Eagle, Yukon-Tanana Highlands; 65° 11' 50" N, 141° 49' 45" W; (map 103). Prospectors' name from an 1898 unpublished map by E. F. Ball, prospector.

Fourth of July Creek: stream, flows NE 3.2 miles to Sulatna River, 1.7 miles SE of Sulatna Crossing and 39 miles S of Ruby, Kilbuck-Kuskokwim Mountains; 64° 10' N, 155° 26' W; (map 98). Prospectors' name reported by Mertie and Harrington (1924, p. 95), USGS.

Fourth of July Creek: stream, flows NNE 4 miles to Slate Creek, 4.6 miles NW of Ernestine and 44 miles NE of Valdez, Chugach Mountains; 61° 29' 30" N, 145° 13' 00" W; (map 68). Local name published in the 1950's by USGS.

Fourth of July Creek: stream, flows NW 2 miles to Long Creek, S of long, 24 miles S of Ruby, 350 Kilbuck-Kuskokwim Mountains; 64° 23' 20" N, 155° 30' 45" W; (map 98). Variant: 4th of July Creek. Prospectors' name reported in 1913 by Eakin (1914, pl. 3), USGS.

Fourth of July Creek: stream, flows NW 2 miles to Susitna River, 67 miles SE of Healy, Alaska Range; 63° 09' 30" N, 147° 29' 45" W; (map 87). Local name obtained in 1951 by USGS.

Fourth of July Creek: stream, flows S 2 miles to Totatlanika River, 33 miles SE of Nenana Alaska Range; 64° 02' N, 148° 32' W; (map 100). Prospectors' name reported in 1910 by USGS (Capps, 1912, pl. I).

Fourth of July Creek: stream, flows SE 4.9 miles to Kennicott Glacier, 7 miles NW of McCarthy, Wrangell Mountains; 61° 30' N, 143° 01' W; (map 67). Variant: Kennicott Pass. Name used by prospectors; reported in 1907 by D. C. Witherspoon, USGS.

Fourth of July Creek: stream, flows SW 4.5 miles to Middle Fork Chulitna River, 47 miles SW of Healy, Talkeetna Mountains; 63° 12' 30" N, 149° 21' 10" W; (map 87). Local name reported by The Alaska Railroad on a 1918 manuscript map.

Fourth of July Creek: stream, heads 6.5 miles N of village of Moore Creek, flows NE 35 miles to Takotna River, 3 miles SW of Mount Joaquin, 23 miles SW of McGrath, Kilbuck-Kuskokwim Mountains; 62° 49' 45" N, 156° 19' 30" W; (map 79). Variant: July Creek. Prospectors' name reported as "July Creek" in 1910 by A. G. Maddren, USGS, and called "Fourth of July Creek" in 1913 by H. M. Eakin, USGS.

Fourth of July Creek: stream, heads at glacier, 7 miles SE of Augustin Peak, flows SE 22 miles to West Fork Yentna River, 58 miles W of Talkeetna, Alaska Range; 62° 18' 00" N, 151° 54' 30" W; BGN 1962; (map 81). Variant: Clearwater Creek, Fourth-of-July Creek. Prospectors' name reported in 1954 by USGS.

Fourth of July Creek: stream, heads on Resurrection Peninsula, flows W 5 miles to Resurrection Bay, 2.5 miles SE of Seward, Chugach Mountains 60° 05' 45" N, 149° 22' 00"

W; BGN 1912, (map 63). Variant: Godwin River, Goodwin River. Local name published by D. H. Sleem on his map of Central Alaska dated 1910.

Fourth of July Creek: stream, see July Creek.

Fourth of July Hill: mountain, 1,870 ft., 25 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 04' N, 147° 04' W; (map 105). Named by prospectors; published in 1908 by USGS.

Fowl Hill: hill, 700 ft., on southern Kiska Island, 0.5 miles SE of Fox Hills, Aleutian Islands 51° 55' 20" N, 177° 19' 40" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published by AMS in 1953.

Fowler Creek: stream, 2 miles long, flowing mostly NE to Young Bay on Stephens Passage, 14 miles SW of Juneau, Alexander Archipelago; 58° 09' 45" N, 134° 41' 55" W; BGN 1929; (map 11). Named in 1928 by H. E. Smith, USFS, for Guy Fowler who homesteaded at the mouth of the stream.

Fowler Island: island, 0.8 miles long, in Kuskokwim River, 27 miles NW of Eek and 20 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 36' N, 162° 12" W; (map 58). Local name obtained in 1914 by USC&GS.

Fox Bay: bay, 0.6 miles across, on N coast of Whale Island, 2.3 miles SE of Afognak, N of Kodak island; 57° 58' 45" N, 152° 45' 00" W; (map 34). Local name reported in 1900 by Lt. Comdr. J. F. Moser, USN, commander of the USBF steamer Albatross.

Fox Bay: bay, 2.5 miles across, on S coast of Alaska Peninsula, on E shore of Stepovak Bay, Aleutian Range; 55° 38' N, 159° 40' W; (map 27). Named by W. H. Dall, USC&GS, in 1880 and published in 1888.

Fox Bay: cove, 1.5 miles across, on N shore of Iliamna Lake between Chekok and Knutson Bays, 9 miles E of Iliamna, Aleutian Range; 59° 47' 15" N, 154° 21' 00" W; (map 51). Local name published in 1954 by USGS.

Fox Beach: beach, 0.1 miles long, on SE coast of Shemya Island in the Semichi Islands, Aleutian Islands; 52° 42' 30" N, 174° 08' 55" E; (map 13). Listed in 1946 supplement to 1944 Aleutian Coast Pilot; shown as a "military designation" in 1947 Coast Pilot.

Fox Cairn: hill, see Fox Castle.

Fox Cape: point of land, on E side of Kupreanof Peninsula, 5 miles E of Stepovak Bay, on S. coast of Alaska Peninsula, Aleutian Range; 55° 39' N, 159° 33' W; (map 27). Variant: Mys Leesy. Named "M[ys] Leesy," or "fox cape" by Capt. Tebenkov (1852, map 24); published on Russian Hydrog. Dept. Chart 1379 (1847). "Fox Cape" was shown in 1888 on USC&GS Chart 806.

Fox Cape: point of land, see Lises, Cape.

Fox Castle: hill, 671 ft., on W coast of St. George Island, Pribilof Islands; 56° 36' 15" N, 169° 45' 30" W; (map 38). Variant: Fox Cairn, Krad' igy. Local name reported in 1891 by Joseph Stanley-Brown, USGS, and given as "Fox Cairn" in 1897 by W. W. Duffield, USC&GS. Putnam (1903, p. 1015) reported the Aleut name as "Krad' igy."

Fox Creek: ravine, see Fox Gulch.

Fox Creek: stream, east bank tributary of Flat Creek, S of Otter Creek, S of Flat, Kilbuck-Kuskokwim Mountains; 62° 05' N, 158° 00' W; (map 79). Prospectors' name published in 1921 by USGS; not identified on current sources.

Fox Creek: stream, flows E 0.6 miles to Ready Bullion Creek, in Pargon River basin, 9 miles NE of Council and 21 miles SE of Mount Bendeleben, Seward Peninsula Highlands; 65° 01' N, 163° 29' W; (map 110). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Fox Creek: stream, flows E 2.8 miles to Cripple River, 17 miles NW of Nome, Seward Peninsula Highlands; 64° 39' N, 165° 54' W; (map 94). Name was used by C. C. Nelson when filing his claim in June 1899.

Fox Creek: stream, flows E 5 miles to Eldorado River, 21 miles NW of Solomon, Seward Peninsula Highlands; 64° 46' N, 164° 59' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Fox Creek: stream, flows E 7.1 miles to Alexander Lake, 48 miles NE of Tyonek, Cook Inlet Lowland; 61° 45' 10" N, 150° 54' 40" W; (map 70). Local name reported in 1954 by USGS.

Fox Creek: stream, flows N 3 miles to Arolik River, 31 miles N of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 33' N, 161° 25' W; (map 53). Name reported in 1919 by G. L. Harrington (in Brooks and others, 1921, pl. 7), USGS.

Fox Creek: stream, flows N 8 miles to Rogers Creek, 57 miles NE of Rampart, Yukon-Tanana Highlands; 65° 57' 25" N, 148° 32' 45" W; (map 105). Named by prospectors; reported by Lt. Hjalmar Erickson, USA; published by USGS (Prindle, 1904, pl. 16).

Fox Creek: stream, flows NE 1 mile to Joint Platte Creek to form Homestake Creek, 16 miles NE of Healy, Alaska Range; 63° 59' 00" N, 148° 33' 25" W; (map 87). Local name reported in 1910 by S. R. Capps, USGS.

Fox Creek: stream, flows NE 12 miles to Melozitna River, 2 miles S of mouth of Turnaround Creek, 48 miles WSW of Birches, Kokrines-Hodzana Highlands; 65° 03' 15" N, 155° 11' 00" W; (map 107). Local name reported in 1913 by Eakin (1916, pl. 2), USGS.

Fox Creek: stream, flows NE 3.5 miles to South Fork Serpentine River, 12 miles N of Kougarok Mountain and 28 miles SE of Ear Mountain, Seward Peninsula Highlands; 65° 51' N, 165° 17' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Fox Creek: stream, flows NW 1 mile to Coal Creek which flows to Solomon River, 14 miles NE of Solomon, Seward Peninsula Highlands; 64° 45' N, 164° 18' W; (map 95). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Fox Creek: stream, flows NW 2 miles to Port Clarence, 7 miles SW of Teller, Seward Peninsula Highlands; 65° 10' N, 166° 29' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Fox Creek: stream, flows NW 3.5 miles to Bear Creek, 7.8 miles NE of Nyac and 37 miles SW of Aniak, Kilbuck-Kuskokwim Mountains; 61° 04' 30" N, 159° 44' 30" W; (map 73). Prospectors' name shown on a 1914 field sheet by A. G. Maddren, USGS.

Fox Creek: stream, flows NW 9 miles to Arctic River, 7 miles SE of Ear Mountain and 45 miles NE of Teller, Seward Peninsula Highlands; 65° 53' N, 166° 00' W; (map 111). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Fox Creek: stream, flows S 1.5 miles to Valdez Creek, 68 miles SE of Healy, Alaska Range, 63° 12' N, 147° 21' W; (map 87). Local name obtained in 1951 by USGS.

Fox Creek: stream, flows S 3 miles to Sand Bay, Great Sitkin Island, Aleutian Islands; 51° 59' 53" N, 176° 05' 48" W; (map 17). Variant: Big Fox Creek. Name published in 1951 on a USGS map.

Fox Creek: stream, flows S 4.6 miles to Goldstream Creek, 7 miles N of Fairbanks, Yukon-Tanana Highlands; 64° 56' 45" N, 147° 41' 00" W; (map 100). Local name reported in 1903 by T. G. Gerdine (in Prindle, 1905, pl. 16), USGS.

Fox Creek: stream, flows SE 0.7 miles to Jackson Creek which flows to Bonanza River, 7 miles NW of Solomon, Seward Peninsula Highlands; 64° 39' N, 164° 31' W; (map 95). Prospectors' name shown on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Fox Creek: stream, flows SE 5 miles to Salmon Lake, 30 miles NE of Nome, Seward Peninsula Highlands; 64° 54' N, 165° 01' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Fox Creek: stream, flows SE 6 miles to O'Brien Creek, 1.2 miles NW of Taral and 63 miles ENE of Valdez, Chugach Mountains; 61° 28' 55" N, 144° 38' 50" W; (map 68). Local name published in the 1950's by USGS.

Fox Creek: stream, flows SE 7 miles to Seventymile River, 13 miles NW of Eagle, Yukon-Tanana Highlands; 64° 54' N, 141° 31' W; (map 102). Named by prospectors and shown on a 1902 manuscript map by E. J. Chamberlain, U.S. Deputy Surveyor.

Fox Creek: stream, flows SW 1 mile to Nenana River, 3.4 miles N of village of McKinley Park, Alaska Range; 63° 46' 50" N, 148° 54' 30" W; BGN 1965; (map 87). Named in 1965 by Alaska Dept. of Highways "because foxes are said to live in the area." See Iceworm Gulch.

Fox Creek: stream, flows W 3.2 miles to Grant Creek W of Gold Hill, 22 miles WNW of Tanana, Kokrines-Hodzana Highlands; 65° 14' 40" N, 152° 49' 30" W; (map 106). Prospectors' name reported in 1956 by Orth.

Fox Creek: stream, flows W to Quartz Creek which flows to Solomon River, about 7 miles NE of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name reported on prospector's manuscript map dated 1902. This stream cannot be precisely located on current maps.

Fox Creek: stream, on Kenai Peninsula, flows NW 3 miles to Tustumena Lake, 31 miles SE of Kenai, Cook Inlet Lowland; 60° 09' N, 150° 54' W; (map 62). Local name reported in 1904 by F. H. Moffit, USGS.

Fox Creek: stream, on Kenai Peninsula, flows NW 6.5 miles to Resurrection Creek, 14 miles S. of Hope, Chugach Mountains; 60° 44' 15" N, 149° 43' 00" W; (map 63). Local name reported in 1904 by F. H. Moffit (in Brooks and others, 1905, p. 91), USGS.

Fox Creek: stream, on Kenai Peninsula, flows S 7.5 miles to Kachemak Bay, 21 miles NE of Homer, Cook Inlet Lowland; 59° 47' 45" N, 151° 03' 30" W; (map 50). Local name reported by Grant and Higgins (1913, pl. 2). Possibly so named because of its proximity to the Fox River.

Fox Creek: stream, on Seward Peninsula, flows N 0.7 miles to Goodhope Bay, 22 miles W of Deering, Kotzebue-Kobuk Lowland; 66° 04' 15" N, 163° 31' 30" W; (map 113). Prospectors' name obtained in 1903 by D. C. Witherspoon, USGS (Moat, 1905, pl. 2).

Fox Farm Lodge: locality, on Richardson Highway, 5 miles S of Harding Lake and 35 miles NW of Big Delta, Yukon-Tanana Highlands; 64° 20' 45" N, 146° 52' 00" W; (map 101). Variant: Overland Roadhouse, Silver Farm Lodge, Silver Fox Lodge, Silver Fox Roadhouse. This is the site of a roadhouse whose name was originally published in 1913 by USGS as "Overland Roadhouse." During the ensuing years it was reported under a variety of names until it was published in 1955 as Fox Farm Lodge.

Fox Flats: flats, extend 5 miles W of Big River, 31 miles WNW of Kenai, Cook Inlet Lowland; 60° 41' N, 152° 08' W; (map 62). Local name reported in 1958 by USGS.

Fox Gulch: ravine, in Peters Hills, trends SW 3.5 miles to Cache Creek, N of Spruce Creek, 30 miles NW of Talkeetna, Alaska Range; 62° 25' 30" N, 151° 01' 50" W; (map 81). Prospectors' name reported in the 1930's by USGS.

Fox Gulch: ravine, trends E 1 mile to Otter Creek, 3 miles NE of Nome, Seward Peninsula Highlands; 64° 30' 55" N, 165° 17' 58" W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Fox Gulch: ravine, trends NE 2.8 miles to Dome Creek, 13 miles S of Ruby, Kilbuck-Kuskokwim Mountains; 64° 33' 24" N, 155° 25' 30" W; (map 98). Prospectors' name reported in 1933 by Mertie (1936, pl. 2) USGS.

Fox Gulch: ravine, trends SE 0.7 miles to Platinum Creek, 25 miles NE of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 55' 15" N, 161° 44' 45" W; BGN 1938; (map 39). Variant: Fox Creek. Local name reported in 1938 by USGS.

Fox Hill: hill, 463 ft., S of Ridge Hill, on westcentral St. Paul Island, Pribilof Islands; 57° 10' 40" N, 170° 23' 00" W; (map 38). Local name published in 1875 by USC&GS; probably obtained from Elliott (1881, Saint Paul map) who was there in 1873-74.

Fox Hill: hill, 671 ft., on mainland near W entrance to Nakat Bay, Coast Mountains; 54° 46' 45" N, 130° 49' 50" W; (map 2). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Fox Hill: mountain, 1,400 ft., S of Lief Cove, on S end of Kiska Island, Aleutian Islands; 51° 55' 35" N, 177° 18' 55" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published in 1953 by AMS.

Fox Hills: hills, 1,866 ft., extend 6 miles NE Reindeer River, 19 miles E of Holy Cross, Kilbuck-Kuskokwim Mountains; 62° 13' N, 159° 06' W; (map 78). Local name obtained in 1952 by USGS.

Fox Hole: anchorage, 0.4 miles across, on NE coast of Popof Island, in Shumagin Islands, Aleutian Range; 55° 20' 45" N, 160° 19' 40" W; BGN 1966; (map 28). Variant: Little Harbor. Local name reported in 1963 by USGS. The 1916 Coast Pilot (p. 175) recorded the name for this feature as "Fox Hole, also called Little Harbor."

Fox Island Anchorage: anchorage, 2.5 miles across, on NW shore of Deer Island, SW end of Alaska Peninsula, Aleutian Range; 54° 57' N, 162° 23' W; (map 25). Name published in 1949 on a USGS map,

Fox Island: island, 0.3 miles long, off S coast of Alaska, 1 mile S of Cape Martin, 3.5 miles SW of Katalla, Malaspina Coastal Plain; 60° 10' N, 144° 37' W; BGN 1966; (map 64). Variant: Kiktak Island, Ostrov Kikhtak. Local name reported in 1905 by G. C. Martin, USGS. The Eskimo name published by Capt. Tebenkov (1852, map 6) was "O[strov] Kikhtak" or "Kiktak Island."

Fox Island: island, 0.5 miles long, off Cape Fox in NE Dixon Entrance, Coast Mountains; 54° 45' 50" N, 130° 51' 00" W; (map 2). Local name published in 1943 by USC&GS.

Fox Island: island, 0.7 miles long, in Deadman Bay, S of Kodiak island; 56° 59' 30" N, 154° 01' 45" W; (map 32). Name published in 1943 by USC&GS.

Fox Island: island, 1 mile long, 1 mile NW of Deer Island, at SW end of Aleutian Range; 54° 57' 00" N, 162° 25' 30" W; (map 25). Variant: Leesy Island. Translation of the Russian name "O[strov] Lisiy" meaning "fox's island" published by Capt. Tebenkov (1852, map 24).

Fox Island: island, extends NE-SW 1.8 miles, in Yukon River, 0.7 miles N of Ham Island and 22 miles NE of Ruby, Nowitna Lowland; 64° 54' N, 154° 52' W; (map 98). Riverboat pilots' name shown on a 1940 "Navigation Chart, Tanana-Yukon Rivers" of the River Boat Service, U.S. Dept. of Interior.

Fox Island: island, see Busby Island.

Fox Island: island, see Marble Island.

Fox Island: island, see Renard Island.

Fox Island: island, see Sumdum Island.

Fox Islands: islands, chain composes E end of Aleutian Islands, between Alaska Peninsula to the E, and Islands of Four Mountains to the W, extend from Isanotski Strait SW about 290 miles to Samalga Pass; include Samalga, Umnak, Unalaska, Unimak and the Krenitzin Islands, along with other smaller islands; 52° 46' N, 169° 15' W [W end], 54° 51' N, 163° 24' W [E end]; BGN 1963. Variant: Andreanof Islands, Anglice Islands, Iles aux Renards, Leesy, Ostrova Lisyy. Name first recorded in May, 1778 by Capt. Cook (1785, v. 2, p. 380), RN. Sarichev (1826, map 1) published the name in Russian as "Ostrova Lisyy," or "fox islands" and Capt. Lutke (1836, p. 279) published the name in French as "lies aux Renards." Baker (1906, p. 265) says "The whole Aleutian chain is known to mariners and whalers as the Fox Islands * * *." See Aleutian Islands.

Fox Islands: islands, see Aleutian Islands.

Fox Islands: islands, see Andreanof Islands.

Fox Islands: islands, see Martin Islands.

Fox Lake: lake, 1 mile long, on Kenai Peninsula near N shore of Tustumena Lake, 22 miles SE of Kenai, Cook Inlet Lowland; 60° 17' 15" N, 150° 56' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Fox Lake: lake, 1.5 miles long, between Black and Cow Lakes, 18 miles W of Beaver, Yukon Flats; 66° 19' N, 148° 04' W; (map 118). Probably named by William Yanert who showed it on a 1916 manuscript map of the Yukon Flats (Stuck, 1917, map facing p. 122).

Fox Lake: lake, trends NW-SE 1.5 miles, 13 miles E of Nome and 16 miles W of Solomon, Seward Peninsula Highlands; 64° 31' N, 164° 58' W; (map 95). Local name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Fox Point Island: island, 5 miles long, in Yukon River, 55 miles N of Holy Cross, Innoko Lowland; 63° 01' N, 159° 52' W; (map 91). Variant: Helen Island. Local name reported in 1949 by USC&GS.

Fox Point: mountain, 7,610 ft., in Romanzof Mountains at head of Okpirourak Creek, 9 miles E of Mt. Michelson, Brooks Range; 69° 19' N, 143° 58' W; (map 138). Named about 1957 by personnel participating in the International Geophysical Year glaciological work in the Romanzof Mountains.

Fox Point: point of land, on N coast of Umnak Island, Aleutian Islands; 53° 33' 10" N, 168° 07' 20" W; BGN 1940; (map 22). Descriptive name given in 1938 by USC&GS "because of the large number of red foxes noted along the beach in the vicinity."

Fox Point: point of land, on NE coast of Herbert Graves Island, 2.5 miles NW of Chichagof, off W coast of Chichagof Island, Alexander Archipelago; 57° 41' 30" N, 136° 08' 00" W; (map 9). Local name published in 1928 by USC&GS on Chart 8258.

Fox Point: point of land, on NW coast of Hawkins Island, 7 miles NW of Cordova, Chugach Mountains; 60° 35' N, 145° 57' W; (map 64). Name published in 1950 by USGS.

Fox Point: point of land, on SE coast of Revillagigedo Island, 2.2 miles SW of Rudyerd Island, Alexander Archipelago; 55° 15' 40" N, 131° 03' 50" W; (map 3). Arbitrary name given in 1891 by USC&GS.

Fox Point: point of land, on W coast of Staten Island, in Bay of Islands, Adak Island, Aleutian Islands; 51° 47' 55" N, 176° 47' 40" W; BGN 1936; (map 17). Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1933.

Fox River: stream, flows E 18 miles to Fish River, 32 miles NE of Solomon, Seward Peninsula Highlands; 64° 47' N, 163° 29' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Fox River: stream, heads at Inland Lake and flows NW 3 miles to Tuklomarak Lake, 11 miles SW of Selawik, Kotzebue-Kobuk Lowland; 66° 27' N, 160° 01' W; (map 114). Local name reported by the U.S. Army Corps of Engineers in 1955.

Fox River: stream, on Kenai Peninsula, heads at terminus of Chernof Glacier, flows SW 27 miles to NE end of Kachemak Bay, 24 miles NE of Homer, Cook Inlet Lowland; 59° 48' N, 150° 59' W; (map 50). Name reported by Dall (1895, pl. 51), USGS, and may have been named for Theodore Fox, Vice President of the North Pacific Mining and Transportation Co., which was operating on Kachemak Bay in 1894.

Fox Rock: island, 0.1 miles long, in SE Davidson Inlet, Alexander Archipelago; 55° 53' 10" N, 133° 32' 00" W; (map 4). Named in 1903 or 1904 by E. F. Dickins, USC&GS, who wrote "named by our party, has no local name."

Fox, Cape: point of land, between Nakat Bay and Revillagigedo Channel, on NE shore of Dixon Entrance, Coast Mountains; 54° 46' 10" N, 130° 50' 45" W; (map 2). Named in 1793 by Capt. George Vancouver for Charles James Fox (Wagner, 1937, p. 389).

Fox, Cape: point of land, on E shore of Revillagigedo Channel, 4 miles S of Boca de Quadra, Coast Mountains; 55° 00' 25" N, 131° 00' 30" W; (map 3). Name published by Ivan Petroff in the 10th Census, in 1880.

Fox: settlement, on right bank of Fox Creek as it enters Goldstream Creek valley, 10 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 57' 35" N, 147° 37' 30" W; (map 100). Former mining camp established before 1905. The Fox post office was established in 1908; discontinued in 1947 (Ricks, 1965, p. 21). Its population was 25 in 1950.

Fracture Creek: stream, on Alaska Peninsula, flows NW 15 miles to Ocean River, 24 miles NW of Mount Veniaminof, Bristol Bay Lowland; 56° 28' N, 159° 45' W; (map 30). Name reported in 1923 by R. H. Sargent, USGS; published in 1927 by USGS.

Fragrant Island: island, 0.7 miles long, in Necker Islands, W of Baranof Island, 15 miles S of Sitka, Alexander Archipelago; 56° 50' 30" N, 135° 25' 00" W; (map 5). Variant: Dushistoi Island, Goddard Island, Ostrov Dushistoy. Translation in 1929 by USC&GS of the name given in 1809 by the navigator Ivan Vasiliev the first, IRN. Lt. Sarichev (1826 map 19), IRN, published it as "O[strov] Dushistoy." "Goddard Island" was published in the 1925 Coast Pilot (p. 286).

Frailles, Los: rocks, see Nagahut Rocks.

Fran Reef: reef, in Portlock Harbor, 6.5 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 44' 00" N, 136° 13' 25" W; (map 9). Local name published in 1928 by USC&GS on Chart 8258.

Francais, Port des: bay, see Lituya Bay.

Frances Creek: stream, flows S 3.5 miles to Lignite Creek, 4.5 miles NE of Healy, Alaska Range; 63° 54' 30" N, 149° 53' 30" W; (map 87). Local name reported in 1950 by USGS.

Francie Creek: stream, flows SW 2 miles to Willow Creek 1 mile W of Shorty Creek and 18 miles NW of Palmer, Talkeetna Mountains; 61° 45' 55" N, 149° 31' 00" W; (map 69). Local name reported in 1951 by USGS.

Francis Anchorage: bay, 3 miles across, in South Arm Farragut Bay, 1.5 miles N of Read Island and 83 miles E of Sitka, Coast Mountains; 57° 09' N, 133° 10' W; (map 8). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for Alaskan ship pilot E. H. Francis. Published in 1888 by USC&GS.

Francis Cove: cove, 0.7 miles across, between Naha Bay and Traitors Cove, on W coast of Revillagigedo Island, Alexander Archipelago; 55° 39' 30" N, 131° 43' 00" W; (map 3). Local name recorded in 1949 by USGS.

Francis Creek: stream, flows 11 miles E to Ptarmigan Creek, 0.7 miles N of Ptarmigan Lake and 66 miles NE of McCarthy, Alaska Range; 61° 52' 28" N, 141° 08' 30" W; (map 67). Local name published by USGS in 1954.

Francis Creek: stream, on Seward Peninsula, flows NW 3.3 miles to Goodhope Bay, 25 miles SW of Deering, Kotzebue-Kobuk Lowland; 66° 04' N, 163° 37' W; (map 113). Name used by local prospectors; reported in 1903 by D. C. Witherspoon, USGS.

Francis Island: island, 0.6 miles long, in Glacier Bay National Monument, 0.7 miles SE of Drake Island and 45 miles NW of Hoonah, St. Elias Mountains; 58° 37' 45" N, 136° 10' 45" W; (map 10). Apparently named by the British Admiralty and published on its Chart No. 2431 in 1890.

Francis Point: point of land, on SW tip of Nellay Island, at head of Sea Otter Harbor, on W coast of Dall Island, Alexander Archipelago; 55° 06' 45" N, 133° 11' 10" W; (map 4). Local name recorded in 1920 by USC&GS.

Francis River: stream, see Stikine River.

Francis, Mount: mountain, 2,690 ft., S of Shipley Bay, on NW coast of Kosciusko Island, Alexander Archipelago; 56° 03' 40" N, 133° 36' 10" W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow, USN, for "E. H. Francis, a local pilot."

Francis, Mount: mountain, 5,435 ft., 2.5 miles SW of Washbowl Basin, 5 miles SE of Valdez, Chugach Mountains; 61° 02' 30" N, 146° 12' 20" W; (map 68). Named in 1898 by Capt. W. R. Abercrombie, USA.

Francis, Point: point of land, S point of entrance to Port Stewart, on E coast of Cleveland Peninsula, Alexander Archipelago; 55° 40' 15" N, 131° 50' 00" W; (map 3). Named in 1886 by USC&GS for local pilot, E. H. Francis.

Francisco Creek: stream, heads at junction of Berkley Canyon and Canine Gulch, flows SE 1.7 miles to Stewart River, 20 miles NE of Nome, Seward Peninsula Highlands; 64° 48' N, 165° 29' W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Frank Creek: stream, flows 7 miles NE to Nelson Lagoon, 25 miles W of village of Port Moller, Bristol Bay Lowland; 55° 57' 20" N, 161° 13' 40" W; (map 28). Named in 1929 by USGS.

Frank Creek: stream, flows NE to Agiapuk River near its junction with American River, about 20 miles NE of Teller, Seward Peninsula Highlands; (map 111). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This feature cannot be precisely identified on current maps.

Frank Creek: stream, heads at 57° 33' 30" N, 152° 25' 15" W; flows N 3 miles to SE side of Kalsin Bay, 14 miles S of Kodiak, Kodiak island; 57° 35' 30" N, 152° 25' 45" W; BGN 1966; (map 34). Local name reported in 1966 by the Alaska State Geographic Board.

Frank Hill: hill, 850 ft., on southern Kiska Island, Aleutian Islands; 51° 54' 20" N, 177° 16' 00" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Franklin Bluffs: bluffs, 830 ft., on E bank of Sagavanirktok River, 30 miles S of Prudhoe Bay, Arctic Plain; 69° 48' N, 148° 40' W; (map 140). Named in 1951 by USGS.

Franklin Creek: stream, flows E 6 miles to South Fork Fortymile River 48 miles SW of Eagle Yukon-Tanana Highlands; 64° 09' 50" N, 141° 46' 30" W; (map 102). Variant: Franklin Gulch, Franklins Creek. Named by prospectors for Howard Franklin, prospector, who in 1886 "went up the Fortymile, where on September 7 he found gold in the river bars 25 miles from the mouth and a little later on Franklin Creek, a tributary of the main river" (Brooks, 1953, p. 328). The name was first reported in 1890 by E. H. Wells of the Leslie Expedition.

Franklin Creek: stream, flows SE 1.5 miles to Livengood Creek, 1.5 miles NE of Livengood, Yukon-Tanana Highlands; 65° 32' N, 148° 30' W; (map 105). Variant: Franklin Gulch. Named by prospectors for Calvin Franklin, a local prospector; reported in 1915 by Brooks (Brooks and others, 1916, pl. 9), USGS.

Franklin Creek: stream, flows SE 5 miles to Iditarod River, 11 miles N of Flat, Kilbuck-Kuskokwim Mountains; 62° 36' 30" N, 158° 06' 00" W; (map 79). Prospectors' name obtained in 1952 by USGS topographers.

Franklin Extreme: locality, on Elson Lagoon, E of Point Barrow, Arctic Plain; (map 153). Beechey (1831, p. 302) wrote in 1826 "I named * * * the extreme point of our discoveries after Captain Franklin [Sir John] * * * of the land expedition. I could have wished that this point had been marked by some conspicuous headland worthy of the name bestowed upon it; but my hope is that the officer who may be so fortunate as to extend our discoveries will do him the justice to transfer his name to the first object beyond it more deserving of honour."

Franklin Gulch: locality, see Franklin.

Franklin Gulch: stream, see Franklin Creek.

Franklin Hill: hill, 800 ft., between Hoelsher and Kaufman Creeks, on southern Attu Island, Aleutian Islands; 52° 49' 22" N, 172° 58' 15" E; (map 13). Name shown on an AMS map published in 1948, and given by the U.S. Army during World War II. The name is not used today.

Franklin Mountains: mountains, in block 30 miles wide, bounded on S and W by Canning River, on N by Ikiakpuk Valley and Lake Schrader, on E by Hulahula River, in Brooks Range, NE of Philip Smith Mountains, 69° 10' N, 145° 10' W; (map 139). On July 20, 1837, Thomas Simpson (1843, p. 125) wrote: "The portion at the Rocky Mountains [Brooks Range] visible from the coast does not terminate, as conjectured by Sir John Franklin, with the Romanzof chain. After a brief interval, another chain commences, less lofty perhaps, but equally picturesque; which in honor of the distinguished officer whose discoveries we were following up, we named the Franklin Range."

Franklin Peaks: peaks, elev. 4,005 ft., on ridge 1.5 miles long, 1 mile NW of Hamilton Peak and 88 miles E of Sitka, Coast Mountains; 57° 08' 15" N, 133° 02' 10" W; (map 8). Named in 1887 by Lt. Comdr. C. M. Thomas, USN; name published in 1888 by USC&GS.

Franklin, Point: point of land, between Peard Bay and Chukchi Sea, 33 miles NE of Wainwright, Arctic Plain; 70° 54' 28" N, 158° 47' 50" W; (map 147). Variant: Franklin Point. Capt. Beechey (1831, p. 273), RN, wrote on August 15, 1826, "a cape, which proved the most distant land seen from the ship, I named after Captain [Sir John] Franklin, RN, under whose command I had the pleasure to serve on the first Polar expedition." His map shows "Point Franklin." It is interesting to note that it was just two days later when Sir John Franklin named his "farthest point" after Capt. Beechey.

Franklin: locality, at junction of Franklin Creek and South Fork Fortymile River, 48 miles SW of Eagle, Yukon-Tanana Highlands; 64° 09' 50" N, 141° 46' 30" W; (map 102). Variant: Franklin Gulch. This mining camp was originally reported as "Franklin Gulch" by Brooks

(1900, pl. 47), USGS. A post office named "Franklin" was established here in 1902 and maintained until 1945 (Ricks, 1965, p. 22). The place had a population of 5 in 1940.

Franklins Creek: stream, see Franklin Creek.

Franks Camp: locality, see Unguriak Camp.

Franks Lagoon: lagoon, on Alaska Peninsula, trends SW 1.5 miles to Bristol Bay, 5.5 miles NE of Port Moller, Bristol Bay Lowland; 56° 03' N, 160° 30' W; (map 30). Local name reported by a 1951 USGS field party.

Franz Point: point of land, on S shore of Nelson Lagoon, 21 miles W of village of Port Moller, Bristol Bay Lowland; 55° 57' 30" N, 161° 06' 30" W; (map 28). Name shown on 1963 USC&GS chart.

Fraser Glacier: glacier, heads at 60° 43' N, 141° 11' W, trends NW 6 miles to Baldwin Glacier, 65 miles NE of Cape Yakataga, St. Elias Mountains; 60° 47' 30" N, 141° 17' 00" W; (map 65). Local name published in 1942 by USGS.

Fraser Lake: lake, 9 miles long, 23 miles SE of Karluk, Kodiak island; 57° 15' N, 154° 08' W; (map 35). Variant: Frazer Lake. Local name reported in 1952 by USGS.

Frazer Lake: lake, see Fraser Lake.

Frazier Creek: stream, flows SE 1 mile to Moonlight Creek which flows to Grantley Harbor, 6 miles NE of Teller, Seward Peninsula Highlands; 65° 18' N, 166° 12' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Freak Lake: lake, 300 ft. across, on west-central Kiska Island, Aleutian Islands; 51° 55' 42" N, 177° 21' 58" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Fred Creek: stream, flows NW 2.5 miles to Stewart River, 20 miles N of Nome, Seward Peninsula Highlands; 64° 48' N, 165° 27' W; (map 94). Variant: Mackey Creek. Prospectors' name reported on a 1901 map of Cape Nome gold fields by David Fox, Jr.

Fred Creek: stream, flows NW 6 miles to Porcupine River 3 miles W of Canalaska Mountain and 49 miles NE of Coleen Mountain, Porcupine Plateau; 67° 23' N, 141° 07' W; (map 121). Name reported by M. G. White (1952, fig. 1), USGS, in 1948.

Fred Creek: stream, flows SW 1.2 miles to Canyon Creek which flows to Imuruk Basin, 29 miles NW of Nome, Seward Peninsula Highlands; 64° 54' N, 165° 47' W; (map 94). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Frederick Cove: estuary, extends W 1.8 miles, off West Arm Moira Sound, at S end of Prince of Wales Island, Alexander Archipelago; 54° 59' N, 132° 16' W; (map 1). Local name recorded in 1904 by H. C. Fassett, USBF.

Frederick Creek: stream, flows S to Hungry Creek which flows to Cripple River, about 33 miles NW of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Frederick Harbor, Port: harbor, see Hoonah Harbor.

Frederick Point: point of land, on NE coast of Mitkof Island, W shore of Frederick Sound, 5.5 miles E of Petersburg, Alexander Archipelago; 56° 47' 40" N, 32° 49' 20" W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for charting purposes; name published in 1888 on USC&GS Chart 705.

Frederick Sound: water passage, 70 miles long, extends E from Chatham Strait to Dry Strait, Alexander Archipelago; 56° 50' N, 134° 25' W; (map 8). Variant: Frederick Strait, Fridrikhe Zund, Prince Frederick Sound, Prince Fredericks Sound. Named in 1794 by Capt. George Vancouver, RN, for His Royal Highness Frederick, Duke of York, son of King George III of England, "because of the possession taken at Point Vandeput, August 16, 1794" (Wagner, 1937, p. 486). The Russian transliteration of this name, "Fridrikhe Zund," was published in 1848 on Russian Hydrog. Dept. Chart 1396.

Frederick Strait: water passage, see Frederick Sound.

Frederick, Port: estuary, on N end of Chichagof Island, 19 miles long, from Salt Bay extends NE to Icy Strait, 4 miles N of Hoonah, Alexander Archipelago; 58° 13' N, 135° 30' W; (map 9). Variant: Komtok Hon, Port Fridrikh. Named in July, 1794, by Capt. George Vancouver, RN, "no doubt after Adolphus Frederick, Son of [King] George III [of England]" (Wagner, 1937, p. 389). The Tlingit Indian name for this feature was reported in 1869 by Comdr. R. W. Meade, USN, as "Komtok Hon."

Frederika Creek: stream, flows S 1.8 miles from Frederika Glacier terminus to Skolai Creek, 30 miles NE of McCarthy, Wrangell Mountains; 61° 40" N, 142° 12' W; (map 67). Local name reported in 1959 by USGS.

Frederika Glacier: glacier, trends SE 10 miles along W slope of Frederika Mountain to its terminus at head of Frederika Creek, 30 miles NE of McCarthy, Wrangell Mountains; 61° 41' 30" N, 142° 12' 00" W; (map 67). Named in 1891 by Hayes (1892, pl. 20), USGS, presumably for Lt. Frederick Schwatka, USA, leader of the party with which Hayes explored the Yukon that year.

Frederika Mountain: mountain, 10,329 ft., E of Frederika Glacier, 33 miles NE of McCarthy, Wrangell Mountains; 61° 46' 20" N, 142° 13' 40" W; (map 67). Variant: Mount Abercrombie. Local name taken from the glacier; reported in 1914 by Capps (1916, pl. 1), USGS. It seems to be the same feature that Oscar Rohn called "Mount Abercrombie," for William R. Abercrombie, USA.

Freds Creek: stream, flows SE 6 miles to Sitka Sound, on SE coast of Kruzof Island, 10 miles W of Sitka, Alexander Archipelago; 57° 04' 00" N, 135° 36' 10" W; BGN 1933; (map 9). Local name reported in 1933 by USFS.

Freeburn Mountain: mountain, 3,241 ft., 3.5 miles E of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 40' 30" N, 136° 00' 00" W; BGN 1939; (map 9). Named in 1939 by local inhabitants for William C. Freeburn (died in 1937), "who was responsible for much of the mining and prospecting activity in the Chichagof region."

Freemantle, Mount: mountain, 2,572 ft., on S coast of Alaska, at NW entrance to Valdez Arm, 50 miles NW of Cordova, Chugach Mountains; 60° 57' N, 146° 58' W, BGN 1910; (map 64). Local name reported by Grant and Higgins (1910, pls. 1, 2). Name derived from nearby Point Freemantle.

Freemantle, Point: point of land, NW entrance to Valdez Arm, 50 miles NW of Cordova, Chugach Mountains; 60° 57' N, 146° 58' W; (map 64); Variant: Point Fremantle. Named in 1794 by Capt. Vancouver (1798, v. 3, p. 186), RN, who on his chart has "Freemantle" and in his text "Fremantle." In the 8th edition of his voyage, in 1801, it is spelled uniformly "Freemantle."

Fremantle, Point: point of land, see Freemantle, Point.

Fremont Creek: stream, flows SE 2 miles to Baituk Creek which flows to Bering Sea, 11 miles E of Cape Prince of Wales and 45 miles NW of Teller, Seward Peninsula Highlands; 65° 34' N, 167° 43' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Fremont Morse, Mount: mountain, elev. 6,734 ft., Boundary Peak 85 on Alaska-Canada boundary, 6 miles N of terminus of Speel Glacier and 36 miles E of Juneau, Coast Mountains; 58° 23' 15" N, 138° 27' 30" W; BGN 1927; (map 12). Variant: Boundary Peak 85. Named in 1926 by IBC for Fremont Morse, USC&GS, who was "detailed * * * to Alaska Boundary Commission, 1893-1913 * * *."

French Creek: stream, flows NE 9 miles to Holtz Creek which flows to Kugruk River, 19 miles E of Imuruk Lake, Seward Peninsula Highlands; 65° 34' N, 162° 32' W; (map 110). Prospectors' name reported in 1903 by D. C. Witherspoon (in Moffit, 1905, pl. 2), USGS.

French Creek: stream, flows NW 18 miles to Moose Creek, 20 miles SE of Fairbanks, Tanana Lowland; 64° 42' 40" N, 147° 06' 40" W; (map 100). Local name shown on a 1908 manuscript map by J. W. Bagley, USGS.

French Creek: stream, flows S 1 mile to East Fork Solomon River, 14 miles NE of Solomon, Seward Peninsula Highlands; 64° 42' N, 164° 06' W; (map 95) Prospectors' name reported on a 1902 prospectors' manuscript map.

French Creek: stream, flows W 3 miles to join Iron Creek to form North Fork Kougarak River, 3 miles SE of Harris Dome and 37 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 37' N, 164° 27' W; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, p]. 12), USGS.

French Gulch: ravine, trends SE 1.5 miles to Confederate Creek, 50 miles SW of Eagle, Yukon-Tanana Highlands; 64° 17' N, 142° 21' W; (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

French Gulch: ravine, trends SE 1.7 miles to Healy Creek, 6 miles E of Healy, Alaska Range; 63° 52' N, 148° 46' W; (map 87). Local name reported in 1910 by S. R. Capps (in Brooks and others, 1918, pl. 17), USGS.

French Harbor: bay, 0.7 miles across, on SE coast of Prince of Wales Island, in Port Johnson, Alexander Archipelago; 55° 09' 00" N, 132° 01' 15" W; BGN 1966; (map 4). Local name recorded in 1948 by USGS.

French Pete's Creek: stream, see Paris Creek.

Frenchman Creek: stream, flows SE 1.5 miles to O'Connor Creek, 8 miles NW of Fairbanks, Yukon-Tanana Highlands; 64° 55' 30" N, 147° 53' 50" W; (map 100). Local name published in 1908 by USGS.

Frenchman Lake: lake, 0.5 miles long, between Rat and Caribou Lakes, 21 miles NW of Glennallen, Copper River Basin; 62° 11' 00" N, 146° 09' 30" W; (map 83). Local name reported in 1949 by USGS.

Frenchman's Bay: bay, see Lituya Bay.

Frenchy Creek: stream, on Kenai Peninsula, flows NE 2.5 miles to Canyon Creek, 9.5 miles S of Sunrise, Chugach Mountains; 60° 45' 10" N, 149° 27' 30" W; (map 63). Local name reported in 1912 by Grant and Higgins (1913, pl. 1), USGS.

Fresara Lake: lake, see High Ridge Lake.

Fresh Creek: stream, flows NW 1 mile to Bering Sea, on SW part of Kiska Island, Aleutian Islands; 51° 55' 21 " N, 177° 16' 35" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Fresh Water Lake: lake, 1.5 miles long, 7 miles NE of Angoon, on W central Admiralty Island, Alexander Archipelago; 57° 34' N, 134° 25' W; (map 9). Named by Comdr. R. W. Meade, USN, and published in 1869 on Hydrog. Chart 225.

Freshwater Bay: anchorage, see Pavlof Harbor.

Freshwater Bay: estuary, 2.5 miles across, 13 miles long, on E coast of Chicagof Island, Alexander Archipelago; 57° 51' N, 134° 59' W; (map 9). Variant: New Harbor, Novaia Harbor, Novaya Gaban. Named in 1869 by Comdr. R. W. Meade, USN. He gave the name at the time only to Pavlof Harbor, but now it applies to the whole inlet (U.S. Coast and Geodetic Survey, 1891, p. 163). It was called "Novaya Gavan," meaning "new harbor" by Capt. Lt. M. N. Vasiliev; published as such in 1848 on Russian Hydrog. Dept. Chart 1396.

Freshwater Creek: stream, flows NE 7.5 miles to head of Freshwater Bay, 11 miles N of Tenakee Springs, on E coast of Chicagof Island, Alexander Archipelago; 57° 56' 30" N, 135° 13' 30" W; BGN 1960; (map 9). Named in 1956 by E. H. Lathram, USGS. The name was derived from Freshwater Bay.

Freshwater Creek: stream, flows W 2 miles to Mitchell Bay, at head of Davis Creek, on Admiralty Island, 6 miles NE of Angoon, Alexander Archipelago; 57° 31' 50" N, 134° 25' 45" W; (map 9) Named in 1869 by Comdr. R. W. Meade, USN; published in 1881 on Hydrog. Chart 882. The name does not appear on recent maps.

Fresno Creek: stream, on Kenai Peninsula, flows E 5 miles to Canyon Creek, 0.5 miles N of Lower Summit Lake and 16 miles S of Sunrise, Chugach Mountains; 60° 40' 25" N, 149° 28' 15" W; (map 63). Name used by local prospectors; reported by G. F. Becker (1898, p. 80), USGS.

Frezas, Laguna de la: lake, near Point Carrew, S shore of Yakutat Bay, Malaspina Coastal Plain; 59° 33' N, 139° 50' W. This name is applied to a lake on Capt. Alesandro Malaspina's 1791 chart; so called because wild strawberries were found in the area (Wagner, 1937, p. 456).

Friable, Mount: mountain, 4,725 ft., on E side of Aurora Glacier, Glacier Bay National Monument, 2.4 miles NE of July Fourth Mountain, 60 miles NW of Hoonah, St. Elias Mountains; 58° 40' 20" N, 136° 40' 55" W; (map 10). Local name reported in 1951 by USGS.

Friday Creek: stream, flows SW 13 miles to Knik River, 14 miles SW of Palmer, Chugach Mountains; 61° 29' 20" N, 148° 47' 50" W; (map 69). Local name reported in 1942 by AMS.

Friday Creek: stream, heads NE of Hayes River Pass, flows SE 17 miles to Talachulitna River, SW of Hiline Lake, 46 miles NW of Tyonek, Alaska Range; 61° 42' 45" N, 151° 27' 25" W; (map 70). Local name reported in 1954 by USGS.

Friday Creek: stream, in Kantishna Hills, flows SW 1.8 miles from Wickersham Dome to Moose Creek, 4.4 miles NNW of Wonder Lake, Alaska Range; 63° 32' 15" N, 150° 59' 20" W; (map 88). Name shown on a 1905 manuscript map of "Kantishna Gold Fields" by A. Friedrich, prospector.

Fridrikh, Port: estuary, see Frederick, Port.

Fridrikhe Zund: water passage, see Frederick Sound.

Frieda Lake: lake, 0.2 miles long, on southern Kiska Island, Aleutian Islands; 51° 53' 50" N, 177° 19' 15" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Friendly Creek: stream, flows NW 5 miles to Ipnavik River, 16 miles NW of Howard Pass, Brooks Range; 68° 24' N, 157° 16' W; BGN 1960; (map 132). Named in 1951 by Island L. Tailleur, USGS, "for its accessibility during spring break up."

Frigid Crags: mountain, 5,550 ft., on W bank of North Fork Koyukuk River, one of Gates of the Arctic, 37 miles NW of Wiseman, Brooks Range; 67° 50' N, 150° 58' W; BGN 1932; (map 124). So named in 1929 by Marshall (1956, p. 12). See Boreal Mountain.

Frio, Cabo: point of land, see Johnstone Point.

Fripo Island: island, 0.2 miles long, between Felice Strait and Revillagigedo Channel, 1,300 ft. E of N end of Cat Island, Alexander Archipelago; 55° 02' N, 131° 14' W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Frisbee Lake: lake, 0.3 miles long, on Kenai Peninsula SW of Skilak Lake, 27 miles SE of Kenai, Cook Inlet Lowland; 60° 25' 50" N, 150° 31' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Frisco Creek: stream, flows NW 5.7 miles to Hurst Creek, 17 miles NW of Ophir and 47 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 18' 15" N, 156° 56' 00" W; (map 90). Prospectors' name reported in 1917 by USGS.

Frisky Creek: stream, flows NW 2.5 miles to Mosquito Fork, 2 miles E of Eagle Cliff and 49 miles SW of Chandalar, Brooks Range; 67° 03' N, 149° 55' W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Fritter Cove: bight, 0.8 miles across, on E coast of Zarembo Island, Alexander Archipelago; 56° 22' 30" N, 132° 38' 30" W; BGN 1917; (map 6). Named in 1916 by J. A. Daniels, USC&GS.

Fritz Cove: bay, in Stephens Channel off NW coast of Douglas Island, 8 miles NW of Juneau, Coast Mountains; 58° 19' N, 134° 40' W; (map 11). Named by Lt. F. M. Symonds, USN, in 1880 for his son, Fritz, and published by USC&GS in 1881 on Chart 734.

Fritz Creek: stream, on Kenai Peninsula, flows S 7 miles to Kachemak Bay, 7 miles NE of Homer Cook Inlet Lowland; 59° 41' N, 151° 22' W, (map 50). Local name reported in 1904 by R. W. Stone (in Brooks and others, 1905, p. 3), USGS.

Fritz Island: island, 300 ft. across, in Middle Channel, Sitka Sound, 0.7 miles S of Sitka, Alexander Archipelago; 57° 02' 30" N, 135° 20' 55" W; (map 9). Variant: Fritz Islet. Named in 1880 by USN for "little" Fritz, son of Lt. F. M. Symonds, USN; name published by USC&GS in 1883 Coast Pilot (p. 142).

Fritz, Mount: mountain, 2,605 ft., 13 miles NNW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 50' 20" N, 136° 16' 00" W; (map 9). Name published in 1928 by USC&GS on Chart 8158.

Frocadero Bay: bay, see Trocadero Bay.

Frog Mountains: mountains, 2,400 ft., trend E 10 miles from Elbow Point, between the two arms of Lake Nerka, 35 miles NW of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 33' N, 158° 57' W; BGN 1932; (map 52). Local name reported in 1932 by USGS.

Frog Rock: rock, in Ogden Passage, 3 miles SW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 38' 35" N, 136° 09' 30" W; BGN 1908; (map 9). Named in 1908 by USC&GS; published 1908 Coast Pilot (p. 174).

Frog Rocks: reef, see Hog Rocks.

Front Hill: hill, 700 ft., on southern Kiska Island, between Ford Hill and Fur Mountain, Aleutian Islands; 51° 55' 25" N, 177° 20' 25" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Front Mountain: peak, 2,560 ft., in Tilted Hills, on Iniskin Peninsula, 2.5 miles NE of Oil Bay, Aleutian Range; 59° 41' 40" N, 153° 13' 30" W; (map 51). Name published by Moffit (1927, pl. 1), USGS.

Front Point: point of land, on E coast of Kenai Peninsula, at SW entrance to Nuka Passage, 32 miles SE of Seldovia, Chugach Mountains; 59° 16' 30" N, 150° 53' 00" W; BGN 1931; (map 50). Named by the USC&GS in 1931, "because this point forms the front approach range with Point Gore for vessels coming out of Nuka Passage."

Frost Creek: stream, flows NE 2 miles to Bonanza River, 18 miles NW of Solomon, Seward Peninsula Highlands; 64° 46' 15" N, 164° 47' 45" W; (map 95). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Frost Creek: stream, flows SE 1.2 miles to Noxapaga River, 24 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 35' 30" N, 164° 06' 30" W; BGN 1952; (map 110). Prospectors' name reported in 1901 by T.G. Gerdine (in Collier, 1902, pl. 12), USGS.

Frostbite Peak: mountain peak, 5,660 ft., 2 miles W of Devils Paw, 36 miles NE of Juneau, Coast Mountains; 58° 43' 30" N, 133° 53' 50" W; (map 12). Local name reported in 1960 by USGS.

Frosty Bay: estuary, of Frosty Creek, at N end of Seward Passage, 8 miles S of mouth of Bradfield Canal, Alexander Archipelago; 56° 04' N, 131° 58' BGN 1923; (map 7). Local name reported in 1923 by USFS.

Frosty Creek: stream, flows W 5 miles to Frosty Bay, at N end of Seward Passage, 8 miles S of mouth of Bradfield Canal, Alexander Archipelago; 56° 03' 10" N, 131° 57' 30" W; BGN 192:3; (map 7). Named in 1923 by USFS.

Frosty Peak: peak, 5,784 ft., 8 miles S of village of Cold Bay, on SW end of Alaska Peninsula, Aleutian Range; 55° 04' N, 162° 49' W; (map 29). Descriptive name given by W. H. Dall, USC&GS in 1882.

Frosty Reef: reef, 1 mile long, 3.5 miles N of Godard, on W coast Baranof Island, Alexander Archipelago; 56° 53' 15" N, 135° 23' 30" W; (map 6). Local fishermen's name reported in 1947 by USC&GS.

Frozen Bay: bay, see Cold Bay.

Frozen Calf Mountain: mountain, 2,268 ft., 22 miles NE of Chalkyitsik, Porcupine Plateau; 66° 47' N, 143° 01' W; (map 120). Local name reported in 1956 by T. E. Taylor, USGS. It may be a form of translation of Indian name.

Frozen Rock: rock, in N end of Aialik Bay, 15 miles SW of Seward, Chugach Mountains; 59° 56' 30" N, 149° 42' 28" W; (map 49). Local name reported in the early 1950's by USC&GS.

Frozenfoot Creek: stream, flows SE 13 miles to West Fork Chena River, 8.5 miles NW of Chena Hot Springs and 80 miles SW of Circle, Yukon-Tanana Highlands; 65° 08' 40" N, 146° 14' 00" W; (map 104). Variant: West Fork Chena River. This stream was considered to be the head The West Fork Chena River by Prindle (1905, pl. 13), USGS. The present name was reported in local usage in 1913 by C. E. Ellsworth, USGS.

Fruit Hill: hill, 350 ft., on NW shore of Vega Bay, Kiska Island, Aleutian Islands; 51° 55' 08" N, 177° 21' 33" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Fruit Island: island, 0.1 miles across, tied to Japonski Island, S of Charcoal Island, in Sitka Sound, 0.7 miles SW of Sitka, Alexander Archipelago; 57° 02' 37" N, 135° 21' 10" W; (map 9). Named for the Fruit Islands in which it is located. Name was published by USC&GS in 1943 Coast Pilot (p. 360).

Fruit Islands: islands, in Japonski Islands in Sitka Sound W of Sitka, Alexander Archipelago; 57° 02' 37" N, 135° 21' 10" W; (map 9). Named in 1880 by U.S. Naval officers of the U.S.S. Jamestown; published in the 1883 Coast Pilot (p. 142). The name is now restricted to one island of the group.

Fry Creek: stream, heads at 69° 22' N, 154° 14' W, flows N 60 miles to Ikpikpuk River 29 miles N of its head, Arctic Plain; 69° 45' N, 154° 39' W; BGN 1960; (map 142). Name proposed in 1951 by Island L. Tailleur, USGS, for two brothers killed in military service during World War II.

Fry Creek: stream, see Uivaksak Creek.

Fry Island: island, 1.2 miles across, in Koyukuk River at the W end of Fortymile Slough, 18 miles N of Hochandochtla Mountain, Kokrines-Hodzana Highlands; 65° 47' 30" N, 154° 56' 30" W; (map 107). Riverboat pilot's name reported by Lt. B. H. Camden, USRCS, in 1900.

Fry Lake: lake, see Desperation Lake.

Frye Point: point of land, extends SE from W shore of Womens Bay, 7 miles SE of Kodiak, Kodiak island; 57° 42' 50" N, 152° 33' 10" W; (map 34) Local name published in 1943 by USC&GS.

Frying Pan Island: island, 0.6 miles long, North island of the Caribou Islands, in Skilak Lake on Kenai Peninsula, 30 miles SE of Kenai, Cook Inlet Lowland; 60° 25' 45" N, 150° 26' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Fryingpan Creek: stream, flows SE 6 miles to Birch Creek, 57 miles SW of Circle, Yukon-Tanana Highlands; 65° 16' 50" N, 145° 33' 45" W; (map 104). Named by prospectors; reported in 1903 by T. G. Gerdine, USGS.

Fugitive Creek: stream, flows N 1.8 miles to Port Hobron, on N coast of Sitkalidak Island, SE of Kodiak Island; 57° 09' 40" N, 153° 09' 30" W; BGN 1934; (map 34). Named in 1934 by USC&GS, for "a thriving village at the locality, reported in Lisianski's voyage * * * (1805) [1814, p. 78]." See Port Hobron.

Fugitive Lake: lake, 0.8 miles long, at head of Fugitive Creek, on Sitkalidak Island, SE of Kodiak Island; 57° 08' N, 153° 09' W; BGN 1934; (map 34). Named in 1934 by USC&GS. See Fugitive Creek.

Fugitive: locality, see Port Hobron.

Fula, Point: point of land, on NW coast of Suemez Island, between Points Arboleda and Remedios, Alexander Archipelago; 55° 19' 25" N, 133° 26' 45" W; (map 4). Variant: Mys de Fula, Punta de Fula, Punta de Tula. Spanish name given in 1779 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Punta de Tula."

Fuller Creek: stream, flows NE 15 miles to Kuskokwim River, 3.6 miles NW of Red Devil and 9.6 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 47' 40" N, 157° 23' 40" W; BGN 1943; (map 72). Locally named for a prospector and trapper; reported in 1943 by USGS.

Fuller Lake: lake, 0.4 miles long, on Kenai Peninsula, in Kenai Mountains W of Round Mountain, 42 miles E of Kenai, Chugach Mountains, 60° 31' 30" N, 150° 03' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Fulton Creek: stream, flows SW and SE 20 miles to Gulf of Alaska, 3 miles WNW of Umbrella Reef and 91 miles WNW of Yakutat, St. Elias Mountains; 60° 02' 10" N, 142° 14' 40" W, BGN 1966; (map 65). Named for Walter S. Fulton, who located oil lands at Cape Yaktaga in 1898, reported in 1903 by G. C. Martin (1905, p. 26), USGS.

Fulton Falls: waterfalls, see Fultons Falls.

Fulton Peak: peak, 3,271 ft., N of Frederick Sound, 3 miles W of Spurt Point Lake and 94 miles E of Sitka, Coast Mountains, 57° 04' 20" N, 132° 59' 50" W; (map 8). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for Robert Fulton, 1765-1815, American inventor, engineer, and painter, who built the Clermont, the first commercially successful American steamboat, launched in 1807. The name was published in 1889 by USC&GS.

Fultons Fall: waterfalls, see Fultons Falls

Fultons Falls: waterfalls, in Barrier Range, on Alaska Peninsula, in Katmai National Monument, 8 miles S of Mount Katmai, Aleutian Range; 58° 08' 30" N, 154° 59' 25" W; BGN 1925; (map 42). Variant: Fulton Falls, Fultons Fall. Named in 1916 by R. F. Griggs, National Geographic Society "for B. B. Fulton, entomologist of the 1915 National Geographic Society Katmai expedition."

Funchion Creek: stream, flows SW 24 miles to Chandalar River, 10 miles SE of Caro and 35 miles SE of Chandalar, Brooks Range; 67° 06' 30" N, 147° 38' 45" W; (map 123).

Prospectors' name obtained in 1909 by A. G. Maddren (in Brooks and others, 1910, pl. 7), USGS.

Funeral Ridge: ridge, 0.6 miles long, on southern Kiska Island, SE of Fox Hill, Aleutian Islands; 51° 55' 10" N, 177° 19' 20" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published in 1953 by AMS.

Funnel Creek: stream, flows S 4 miles to Tatonduk River 15 miles N of Eagle, Porcupine Plateau; 65° 00' N, 141° 02' W; BGN 1931; (map 103). So named in 1930 by J. B. Mertie, Jr., USGS, because "like a funnel, its open upper valley leads into a narrow canyon-like lower valley."

Funnel Creek: stream, heads in a lake at 59° 13' N, 154° 40' W, flows W 13 miles through Mirror Lake to Moraine Creek, 8.5 miles E of Kukaklek Lake, 40 miles S of Iliamna, Aleutian Range; 59° 12' 40" N, 154° 57' 30" W; (map 51). So named by R. H. Sargent, USGS, in 1923 because of strong winds encountered in the stream valley. Published by USGS (in Brooks and others, 1925, pl. 3).

Funny River: stream, on Kenai Peninsula, flows NW 30 miles to Kenai River, 18 miles ESE of Kenai, Cook Inlet Lowland; 60° 29' 30" N, 150° 51' 50" W; (map 62). Local name reported in 1904 by Moffit (1906, pl. 2), USGS.

Funshoot Mountain: mountain, 6,115 ft., in Nutzotin Mountains, 4 miles SE of Beaver Lake and 15 miles E. of Euchre Mountain, Alaska Range; 62° 00' N, 141° 42' W; (map 84). Local name reported in 1960 by USGS.

Funter Bay: bay, 2 miles long, on W coast of Mansfield Peninsula, 19 miles SW of Juneau, Alexander Archipelago; 58° 14' 15" N, 134° 55' 00" W; (map 11). Named in 1883 by W. H. Dall, USC&GS, for Capt. Robert Funter, English explorer, who mapped parts of the NW coast of North America in 1788. Name published in the 1883 Coast Pilot (p. 183).

Funter: locality, on N shore of Funter Bay, 1 mile NE of Clear Point and 18 miles W of Juneau, Alexander Archipelago; 58° 15' 25" N, 134° 50' 45" W; (map 11). Former cannery named, after 1891, for the bay on which it is located. A post office was established there in 1902.

Fur Mountain: hill, 585 ft., on southern Kiska Island, between Fron Hill and Fruit Hill, Aleutian Islands; 51° 55' 20" N, 177° 20' 52" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Fur Seal Islands: islands, see Pribilof Islands.

Furlough Hill: hill, 550 ft., on southern Kiska Island, 0.5 miles NW of Vega Bay, Aleutian Islands; 51° 54' 35" N, 177° 20' 10" E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Furrow Creek: stream, flows W 5.3 miles to Turnagain Arm Cook Inlet, 8.5 miles S of Anchorage, Cook Inlet Lowland; 61° 05' 58" N, 149° 54' 25" W; (map 69). Local name reported in 1942 by AMS.

Furuhelm, Mount: mountain, 3,610 ft., 4.5 miles SW of Baranof, on E coast of Baranof Island, Alexander Archipelago; 57° 03' N, 134° 56' W; BGN 1935; (map 9) Named in 1935 by USFS "for Ivan Vasilievich Furuhelm, mining engineer and Governor of Russian America, 1859-1863."

Fuse Hill: hill, 400 ft., on southern Kiska Island, near shore of Vega Bay, Aleutian Islands; 51° 54' 38"N, 177° 20' 42"E; (map 14). An arbitrary name beginning with "F" to correspond to "F" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

G

G Lake: lake, 1.3 miles long, 1 mile S of Grass Lake and 9 miles NE of Arctic Village, Brooks Range; 68° 29' 30" N, 145° 20' 00" W; (map 136). Local name reported in 1956 by R. C. Foley, USGS.

G: mountain, see Knob G.

Ga-ka-tna: stream, see Gakona River.

Gabolio: locality, on right bank of Selawik River 24 miles E of Selawik; 66° 33' N, 159° 08' W; (map 114) Eskimo camp reported by USGS in 1927.

Gabriel Icefall: icefall, 700 ft., extends W 1 mile from Gulkana Glacier, S of Skull Peak, 17 miles NNE of Paxson, Alaska Range; 63° 16' 30" N, 145° 26' 00" W; (map 86). Named between 1948 and 1955 by T. L. Pewe, USGS.

Gada, Punta del: point of land, see Delgada, Point.

Gaff Rock: rock, in Cross Sound, at mouth of Port Althrop, on N coast of Chichagof Island, 36 miles NW of Hoonah, Alexander Archipelago; 58° 11' 35" N, 136° 24' 00" W; (map 10). Named by J. F. Pratt, USC&GS, in 1901 and published in the 1901 Alaska Coast Pilot (p. 212).

Gagalgin Island: island, see Egg Island.

Gagara Lake: lake, 0.9 miles long, on Kenai Peninsula, E of Tree Lake, 5 miles NW of Sterling and 12 miles E of Kenai, Cook Inlet Lowland; 60° 34' N, 150° 52' W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Gagara-Shapka: locality, see Pogoreshapka.

Gagari Island: island, see Gagarin Island.

Gagarin Island: island, 0.6 miles long, in Sitka Sound, 6.5 miles NW of Sitka, Alexander Archipelago; 57° 05' 45" N, 135° 29' 15" W; BGN 1940; (map 9). Variant: Gagari Island, Jet Island, Loon Island, Ostrov Gagarin. Named in 1809 by the Russian navigator Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Gagarin," or "Gagarin Island." Gagarin is a well-known Russian family name. The name "Ostrov Gagary," meaning "loon island," was published for this feature in 1848 on Russian Hydrog. Dept. Chart 1397.

Gagaryah River: stream, heads in lake, flows SW 60 miles to Swift River, 50 miles E of Sleetmute, Lime Hills; 61° 37' 15" N, 155° 38' 40" W; (map 71). Indian name published in 1951 by USGS.

Gage Island: island, 0.5 miles long, in Knight Island Passage, 0.5 miles N of Flemming Island, 8 miles SE of Chenega, Chugach Mountains; 60° 11' 20" N, 148° 00' 30" W; BGN 1929; (map 63). Named in 1929 by USC&GS. The name "Gage" was once applied to nearby Flemming Island.

Gage Island: island, see Flemming Island.

Gage Point: point of land, N of Gusty Bay, on NE coast of Tanaga Island, Aleutian Islands; 51° 52' 40" N, 177° 54' 20" W; (map 17). Name published by USC&GS in 1957 on Chart 9146.

Gage, Mount: mountain, 7,000 ft., at E end of Granite Range, 58 miles NE of Cape Yakataga, Chugach Mountains; 60° 51' 30" N, 141° 48' 00" W; (map 65) Name shown on a 1915 fieldsheet by F. H. Moffit, USGS.

Gagemeister, Ostrov: island, see Hagemeister Island.

Gagemeystera, Proliv: water passage, see Hagemeister Strait.

Gagnan Creek: stream, flows SE 14 miles to Kichatna River near its junction with Yentna River, 48 miles SW of Talkeetna, Alaska Range; 62° 06' 00" N, 151° 30' 10" W; (map 81). Local name reported in 1958 by USGS.

Gagnon Creek: stream, flows SE 2 miles to Healy Creek, 7.5 miles NE of Healy, Alaska Range; 63° 53' N, 148° 43' W; (map 87). Local name reported in 1939 by USGS (Capps, 1940, pl. 3).

Gaikema Creek: stream, on Iniskin Peninsula, flows E 2.6 miles to Chinitna Bay, Aleutian Range; 59° 48' 50" N, 153° 09' 00" W; BGN 1947; (map 51). Named in 1947 by USGS for "Nick Gaikema, a watchman for the Iniskin Drilling Company, who died in the cabin at the mouth of the creek."

Gailey Lake: lake, 0.9 miles long, between Porcupine and Sheenjok Rivers, 30 miles NE of Fort Yukon, Yukon Flats; 66° 49' N, 144° 21' W; (map 119). Local name obtained in 1956 by USGS.

Gain Island: island, 1 mile long, at entrance to Gambier Bay, 60 miles NE of Sitka, Alexander Archipelago; 57° 27' 20" N, 133° 54' 15" W, BGN 1891; (map 8). Variant: Cain Island. Named in 1889 by Lt. Comdr. H. B. Mansfield, USN; name published by USC&GS in the 1891 Coast Pilot (p. 144).

Gaines Creek: stream, see Ganes Creek.

Gainor Beach: beach, 0.4 miles long, eastern Attu Island, Aleutian Islands; 52° 50' 00" N, 173° 23' 40" E; (map 13). Name shown on an AMS map published in 1948, and given by the U.S. Army during World War II. The name is not used today.

Gains Creek: stream, see Ganes Creek.

Gako River: stream, see Gakona River.

Gakona Glacier: glacier, heads on Mount Gakona, trends S 13 miles to its terminus near head of Gakona River, 11 miles NE of Paxson, Alaska Range; 63° 08' N, 145° 13' W; (map

86). Name reported in 1900 by T. G. Gerdine (in Mendenhall and Schrader, 1903, pl. 3), USGS.

Gakona Junction: locality, see Big Timber.

Gakona River: stream, flows S 64 miles from Gakona Glacier to Copper River at Gakona, 16 miles NE of Glennallen, Copper River Basin; 62° 18' N, 145° 19' W; BGN 1963; (map 83). Variant: Ga-ka-tna, Gako River. Indian name reported in 1885 by Lt. H. T. Allen (1887, p. 63), USA. R.H. Geoghegan recorded the name as "Ga-ka-tna" in 1903 and gave its meaning as "rabbit river."

Gakona, Mount: peak, 9,700 ft., at head of Gakona Glacier, 20 miles NE of Paxson, Alaska Range; 63° 19' 20" N, 145° 10' 50" W; (map 86). Name published on relatively recent maps.

Gakona: village, pop. 33, on Glenn Highway, at junction of Copper and Gakona Rivers, 15 miles NE of Glennallen, Copper River Basin; 62° 18' N, 145° 18" W; (map 83). A trading post and post office were established in 1905. The name was derived from the Gakona River.

Gala Creek: stream, see Harrison Creek.

Galanikin Island: island, see Galankin Island.

Galankin Group: islands, see Galankin Islands.

Galankin Island: island, 0.8 miles long, 1.2 miles S of Sitka, off W coast of Baranof Island, Alexander Archipelago; 57° 02' 00" N, 135° 19' 40" W; BGN 1897; (map 9). Variant: Galanikin Island, Ostrov Galankin, Ostrov Peschanyy, Sandy Island, Thompson Island. Named in 1850 by Capt. M. D. Tebenkov (1852 map 38), who published it as "O[strov] Galankin"; name derived from "galanka," meaning "brick stove." In 1809 the Russian navigator Ivan Vasiliev the first named it "Ostrov Peschanyy," meaning "sandy island"; it was published as such by Sarichev (1826, map 19). In 1880 Capt. L. A. Beardslee, USN named it "Thompson Island" for Richard Wigginton Thompson, 1809- 1900, Secretary of the Navy under President Hayes in 1877-80.

Galankin Islands: islands, 2 miles across, include Bamdoroshni, Galankin and Whale Islands, with surrounding smaller islands, 1.5 miles S of Sitka. Alexander Archipelago; 57° 02' N, 135° 20' W; BGN 1897; (map 9). Variant: Galankin Group. Name apparently first applied by W. H. Dall, USC&GS, in 1883 Coast Pilot (p. 142). The name was derived from Galankin Island the largest of the group.

Galas Point: point of land, on W coast of Kagalaska Island, Aleutian Islands; 51° 47' 45" N, 176° 24' 30" W; BGN 1936; (map 17). A clipped name derived from Kagalaska Island and given by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

Galatea Creek: stream, N of Wapoo Hills. flows W 50 miles to Mud River 4.7 miles NE of its junction with Little Mud River, 61 miles S of Nulato and 62 miles NW of Ophir, Innoko Lowland; 63° 51' 45" N, 157° 41' 45" W; (map 90). Local name obtained from Joseph Ferris in 1954 by R. E. Isto, USGS.

Galbraith Lake: lake, 3.6 miles long, near NE end of Endicott Mountains, on west side of Atigun River, 12 miles NE of Itkillik Lake, Brooks Range; 68° 28' N, 149° 25' W; BGN 1960; (map 135). Variant: Natravak Lake, Sagavanirktok Lake. Named by USGS geologists in 1951 for "Bart Galbraith, a bush pilot who was lost while flying * * *" in the area. "Natravak" is the Eskimo name which means "big lake," a common name in northern Alaska.

Gale Peak: peak, 7,425 ft., in Storm Range, 1 mile SE of Mount Ogilvie and 39 miles N of Juneau, Coast Mountains; 58° 51' N, 134° 14' W; BGN 1965; (map 11). Named in 1964 by members of the Juneau Icefield Research Project.

Galea, Lake: lake, 3 miles long, on course of Hatchery Creek, central Prince of Wales Island, Alexander Archipelago; 55° 49' 15" N, 132° 53' 00" W; (map 4) Spanish name meaning "an ancient helmet", recorded in 1949 by USGS.

Galen, Mount: peak, 5,020 ft. in Mount McKinley National Park, 3 miles NNW of Eielson Visitor Center, Alaska Range; 63° 28' 05" N, 150° 21' 50" W. BGN 1941; (map 88). Named by USGS for James L. Galen, Superintendent of Glacier National Park from 1912 to 1914, and later, president and manager of the Mount McKinley Tourist and Transportation Co.

Galena Bay: estuary, 1.5 miles long, on SE shore of Valdez Arm, 45 miles NW of Cordova. Chugach Mountains: 60° 58' N, 146° 44' W; BGN 1910; (map 64). So named by Capt. W. R. Abercrombie, USA, in 1898 because of the occurrence of galena (lead ore) on its shores.

Galena Bay: locality, on S shore of Galena Bay. 40 miles NW of Cordova, Chugach Mountains: 60° 55' 20" N, 146° 37' 00" W; BGN 1910; (map 64). Name of a former village reported in 1910 by USGS. derived from Galena Bay. Recent USGS maps indicate a site with one building.

Galena Creek: stream, flows 17 miles to Kala Slough. 34 miles E of Nulato, Koyukuk Lowland; 64° 42' N, 156° 58' W: (map 97). Local name reported in 1954 by USGS.

Galena Creek: stream, in Davidson Mountains, flows S 8 miles from Bear Mountain to Lois Creek 6.5 miles N of its junction with Coleen River, 46 miles E of Table Mountain, Brooks Range: 68° 17' N, 141° 54' W; (map 137). Local name reported in 1956 by USGS.

Galena: village, pop. 261, on right bank of Yukon River 35 miles E of Nulato, Koyukuk Lowland; 64° 44' N, 156° 56' W. BGN 1937; (map 97). Variant: Galera, Natulaten, Nohtalohton, Notaglita, Notaloten. Established about 1919 as a supply point for the galena (lead ore) prospects south of the Yukon River. Its population was 67 in 1930: 44 in 1940; and 76 in 1950. The village is now predominately Indian. With the construction of a major airfield, and the consequent employment, the population has increased. Galena post office was established in 1932 (Ricks, 1965. p. 22). Site of a former Indian village recorded on the 1880 Census map as "Natulaten." by Ivan Petroff. who also recorded Lt. L. A. Zagoskin's 1844 name for the village as "Notaglita," population 37.

Galera. La: island, see Klawak Island.

Galera: village, see Galena.

Galiano Glacier: glacier, heads 1.6 miles W of head of Black Glacier, trends S 3.2 miles to its 1961 terminus, 1.6 miles NE of mouth of Esker Stream and 26 miles N of Yakutat, St. Elias Mountains; 59° 55' 40" N, 139° 43' 00" W; (map 46). Named by Russell (1891, p. 89), USGS, for Don Dionisio Alcala Galiano, "the reported writer of the account of Capt. A. Malaspina's voyage to Alaskan shores in 1791."

Galiano Island: island, see Middleton Island.

Galickson Creek: stream, flows SE 9 miles to Takotna River, 39 miles WSW of Medfra, Kuskokwim Lowland; 63° 00' N, 155° 55' W; (map 89) Local name reported in 1915 by Mertie and Harrington (1924 pl. 4), USGS.

Galkin Island: island, 0.2 miles long, 2 miles W of Goddard, in the Necker Islands, on W coast of Baranof Island, Alexander Archipelago; 56° 49' 50" N, 135° 25' 25 " W; (map 5). Local name used by fisher men; published in 1929 by USC&GS.

Galla, Mys: point of land, see Hall, Cape.

Gallagher Creek: stream, on N part of Chichagof Island, flows NE 9 miles to Icy Strait, 6 miles NW of Hoonah. Alexander Archipelago; 58° 11' N, 135° 33' W; BGN 1959; (map 11). Local name reported in 1959 by USGS

Gallatin, Mount: mountain, 5,098 ft., on Alaska-Canada boundary, 7 miles N of Stikine River, Coast Mountains; 56° 45' 15 " N, 131° 54' 00 " W; BGN 1954; (map 7). Named in 1924 by USGS for Albert Gallatin, 1761-1849, statesman, diplomat, public financier, ethnologist, and one of the U.S. Commissioners who negotiated the Treaty of Ghent.

Gallegas, Islas: islands, see Coronados Islands.

Galligan Creek: stream, flows E 4.5 miles to Gold and Galligan Lagoons, N central Prince of Wales Island, Alexander Archipelago; 55° 58' 45" N, 132° 58' 10" W; BGN 1963; (map 4). Local name reported in 1961 by USFS "a good salmon spawning stream.'

Galloping Glacier: glacier, see Black Rapids Glacier.

Galsovia: locality, see Golsovia.

Galtzora: locality, see Golsovia.

Galvin Creek: stream, flows SW 1.4 miles to Kougarok River, 17 miles S of Midnight Mountain and 45 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 33' N, 164° 44' W; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Gambel: village, see Gambell.

Gambell: village, pop. 358, on Northwest Cape, NW tip of St. Lawrence Island; 63° 47' N, 171° 45' W; (map 93). Variant: Chibukak, Gambell Seevookuk, Sevuokok, Sivukok, Tchiboukookak. This village was named for Mr. and Mrs. Vene C. Gambell, Presbyterian

missionaries and teachers here from 1894-98, who were lost in the schooner *Iane Grey* on their return from a leave of absence in 1898. The name was introduced the same year by William F. Doty, the new teacher. "A signboard with the name 'Gambell' painted on it was placed on the front face of the station building, to the end that the village might thereafter be designated in honor of the noble missionaries * * *" (Jackson, 1900, p. 224).

Gambier Bay: estuary, on E coast of Admiralty Island, trends SE 8 miles to Stephens Passage, 57 miles E of Sitka, Alexander Archipelago; 57° 28' N, 133° 55' W; (map 8). Named in 1889 by Lt. Comdr. H. B. Mansfield, USN. name published by USC&GS in 1891 Coast Pilot (p. 143). The name was derived from Point Gambier.

Gambier Island: island, 1.4 miles long, in Stephens Passage off E coast of Admiralty Island, 5 miles N of False Point Pybus and 63 miles NW of Sitka, Alexander Archipelago; 57° 26' 30" N, 133° 51' 00" W; (map 8). Named in 1889 by Lt. Comdr. H. B. Mansfield, USN. name published by USC&GS in 1891 Coast Pilot (p. 144). The name was derived from nearby Point Gambier.

Gambier, Point: point of land, on S end of Gambier Island, in Stephens Passage, 4.4 miles N of False Point Pybus, on Admiralty Island, 65 miles NE of Sitka, Alexander Archipelago; 57° 26' 00" N, 133° 50' 15" W; (map 8). This point, discovered August 4, 1794, by Lt. Joseph Whidbey, RN, was named that same year by Capt. George Vancouver, RN, in honor of Baron James Gambier, 1756-1833, English vice admiral. He participated in the capture of Charleston, S.C., in 1780, during the Revolutionary War. He directed the bombardment of Copenhagen and seized the Danish Navy in 1807. As one of the British commissioners, he helped negotiate the Treaty of Ghent with the United States in 1814.

Gamble Slough: stream, flows W 7.5 miles to Mail Slough. 10 miles NE of Stevens Village, Yukon Flats; 66° 07' 15" N, 148° 52' 30" W; (map 118). Local name obtained in 1956 by USGS.

Game Cove: cove, 0.6 miles wide, on W coast of Admiralty Island, 22 miles SW of Juneau, Alexander Archipelago; 58° 03' 45" N, 134° 48' 00" W; (map 11). So named in 1880 by Marcus Baker, USC&GS, because of the abundance of wildfowl, deer, and other game found here. Published in the 1883 Coast Pilot (p. 182).

Game Creek: stream, flows NW 2 miles to American Creek which flows to Niukluk River, 26 miles N of Solomon Seward Peninsula Highlands; 64° 56' N, 164° 27' W; (map 95). Variant: Auburn Creek. Prospectors' name reported in 1905 by T. G. Gerdine, USGS. Reported in the above location in 1907 by USGS geologists (P. S. Smith, 1910, pl. 4).

Game Creek: stream, on Chichagof Island, flows 15 miles N to Port Frederick, 2.6 miles SW of Hoonah, Alexander Archipelago; 58° 04' 45" N, 135° 28' 40" W; (map 11). Named in 1901 by E. F. Dickins, USC&GS, and published in 1902 on Chart 8300.

Game Creek: stream, see Gander Creek.

Game Creek: stream, see Lost Creek.

Game Point: point of land, in Port Frederick on N coast of Chichagof Island, 2.2 miles SW of Hoonah, Alexander Archipelago; 58° 05' 30" N, 135° 29' 15" W; (map 11). Named in 1901 by E. F. Dickins, USC&GS, and published in 1902 on Chart 8300.

Game Trail Lake: lake, 2 miles across, SE of Salmon Berry Lake, 21 miles NW of Glennallen, Copper River Basin; 62° 15' N, 146° 05' W; (map 83). Local name reported in 1951 by USGS.

Gamon, Mys: point of land, see Saint Elias, Cape.

Gan-te-gas-tak-heh: locality, see Gantegastaki.

Gander Creek: stream, flows N 4 miles to American Creek which flows to Niukluk River, 29 miles N of Solomon, Seward Peninsula Highlands; 64° 59' N, 164° 22' W; (map 95). Variant: Game Creek. Reported in 1905 as "Game Creek" by T. G. Gerdine, USGS. Prospectors' name reported in 1907 by USGS geologists (Smith, P. S., 1910, pl. 4).

Gander Hill: hill, 300 ft., on E shore of Vega Bay, Kiska Island, Aleutian island; 51° 55' 27" N, 177° 27' 00" E; (map 14). An arbitrary name beginning with "G" to correspond to "G" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Gandil Mountain: hill, 930 ft.. 18 miles NE of Katalla, Chugach Mountains; 60° 16' N, 144° 01' W; (map 64). Variant: Mount Gandil. Name used by local miners and reported in 1903 as "Mount Gandil" by G. C. Martin, USGS.

Gandil River: stream, flows SW 9 miles to Berring River, 13 miles NE of Katalla, Chugach Mountains; 60° 16' N, 144° 10' W; (map 64). Local name published by the Norris Peters Company on their 1911 map of southeastern part of Prince William Sound and the Bering River coal field.

Gandil, Mount: hill, see Gandil Mountain.

Ganes Creek: locality, on W bank of Ganes Creek 0.7 miles S of its junction with Innoko River and 4.5 miles SE of Ophir, Kilbuck-Kuskokwim Mountains; 63° 05' 20" N, 156° 26' 00" W; (map 90). Mining camp established about 1908 for the lower Ganes Creek area: a post office was located here intermittently from 1940 to 1951.

Ganes Creek: stream, heads in Beaver Mountains, flows NE 35 miles to Innoko River, 4 miles SE of Ophir and 28 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 06' 00" N, 156° 25' 30" W; BGN 1936; (map 90). Variant: Gaines Creek, Gains Creek. Prospectors' name reported in 1908 by Maddren (1910, p. 21), USGS, for "Thomas Gane, who with three others discovered gold here in 1906."

Ganiskiya, Kekurya: rocks, see Hanin Rocks.

Gannet Cove: cove, 0.5 miles across, on W coast of Adak Island, on E shore of Expedition Harbor in Bay of Islands, Aleutian Islands; 51° 47' 20" N, 176° 43' 00" W; BGN 1936; (map

17). Named in 1934 by members of the U.S. Navy Aleutian Island Survey Expedition, for the U.S.S. Gannet, one of the ships of the expedition.

Gannet Island: island, 2,500 ft. long, S side of Boca de Quadra in mouth of Vixen Bay, Coast Mountains; 55° 04' 30" N, 130° 47' 45" W; (map 3) Named in 1891 by USC&GS.

Gannett Bay: estuary, see Pigot Bay.

Gannett Glacier: glacier, heads on Mount Gannett, trends NW 9.5 miles to Knik Glacier, 30 miles SE of Palmer, Chugach Mountains; 61° 20' 30" N, 148° 23' 15" W; (map 69). Name reported by USGS in 1960; derived from Mount Gannett at the head of the glacier.

Gannett Nunatak: peak, in Nunatak Glacier E of Russell Fiord, St. Elias Mountains; (map 46). Reported by Tarr and Martin (1906, map), USGS. This feature cannot be precisely identified on present maps.

Gannett Rocks: rocks, in W part of Kuluk Bay, on NE coast of Adak Island, Aleutian Islands; 51° 52' 10" N, 176° 36' 25" W; BGN 1936; (map 17). Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934, for the U.S.S. Gannet, one of the ships of the expedition.

Gannett, Mount: mountain, 10,000 ft., at head of Gannett Glacier, 57 miles E of Anchorage, Chugach Mountains; 61° 14' 30" N, 148° 11' 40" W; BGN 1930; (map 69). Named by Lawrence Martin in 1911 for Henry Gannett, 1846-1914. Mr. Gannett was a president of the National Geographic Society, Chief Geographer of USGS and Chairman of the Board on Geographic Names.

Gannon Bay: bay, see Otkriti Bay.

Gantegaski: locality, see Gantegastaki.

Gantegastaki: locality, at Haines Airport at mouth of Chilkat River, 17 miles SW of Skagway, Coast Mountains; 59° 15' 00" N, 135° 31' 15" W; (map 45). Variant: Gantegaski, Gan-te-gas-tak-heh, Gantegastaki Hindasetukee, Jendestaka, Jendestake, Tindestak, Tondust, Tondustek, Yendestaque, Yendestaka, Yhindastachy, Yindastuki, Yindastuki Indian Reservation, Yondestuk. Former Tlingit Indian village name obtained in 1880 from an Indian interpreter, as "Gan-te-gas-tak-heh," meaning "village on right bank of river," by Marcus Baker, USC&GS. In the 1880 Census Petroff (1884, p. 31) listed "Yondestuk," population 171; and in the same year, Capt. L. A. Beardslee, USN, recorded the name "Tondust." The present inhabitants call it "Yindastuki." In 1867 this Indian village consisted of 12 houses; 13 years later it had grown to 16 houses and 171 people. In 1952 only a few houses remained.

Gaohi Islands: islands, near S entrance to Tuxekan Passage, 21 miles NW of Craig, Alexander Archipelago; 55° 46' N, 133° 14' W; (map 4). Indian names published in 1956 by USC&GS.

Gaole Mountain: mountain, 4,780 ft., in Glacier Bay National Monument, on NE margin of Carroll Glacier, 51 miles SW of Skagway, St. Elias Mountains; 59° 04' 30" N, 136° 32' 15" W; (map 45). Local name published in 1961 by USGS.

Gaolsovia: locality, see Golsovia.

Gaot-a-kan: village, see Hoonah.

Gap Mountain: mountain, 1,045 ft., 8 miles E of Cape Newenham and 32 miles W of Hagemeister Island, Kilbuck-Kuskokwim Mountains; 58° 38' N, 161° 57' W; (map 39). Descriptive name published in 1951 by USGS. It marks a break in a mountain ridge along the northern shore of Bristol Bay.

Gap Mountain: mountain, 3,495 ft., 3.3 miles N of Hidden Point, between Hidden Inlet and Pearse Canal, Coast Mountains; 54° 59' 30" N, 130° 18' 40" W; (map 2). Local name published in 1943 by USC&GS.

Gap Point: point of land, on NE shore of Tebenkof Bay, at E point of entrance to Elena Bay, on W coast of Kuiu Island, Alexander Archipelago; 56° 38' 45" N, 134° 08' 15" W; BGN 1929; (map 5). Descriptive name given in 1928 by USC&GS "because of a gap near the end" of the point.

Gap, The: valley, at W end of Japan Hills, 46 miles S of Fairbanks, Alaska Range; 64° 12' N, 147° 52' W; (map 100). Prospectors' name reported in 1950 by USGS topographers.

Garcia Cove: cove, 0.8 miles long, on NW coast of San Fernando Island, Alexander Archipelago; 55° 33' 30" N, 133° 25' 45" W; (map 4). Named by USC&GS and published in 1925 Coast Pilot (p. 146): derived from Garcia Island and Point.

Garcia Island: island, 0.1 miles across, in Gulf of Esquibel, NW coast of San Fernando Island, Alexander Archipelago; 55° 33' 35" N, 133° 26' 45" W; (map 4). Variant: Isla de Garcia, Ostrov de Garcia, Ysla de Garcia. Spanish name given in 1779 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Isle de Garcia" or "Garcia Island." See Garcia, Point.

Garcia, Point: point of land, on NW coast of San Fernando Island, Alexander Archipelago; 55° 33' 45" N, 133° 26' 30" W; (map 4). Variant: Mys de Garcia Punta de Garcia. Spanish name given in 1779 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Punta de Garcia" or "Point Garcia"; "no doubt in honor of Juan Garcia the surgeon of the vessel La Favorita of the Arteaga expedition * * *" (Wagner, 1937, p. 389).

Garden City: residential area, see Garden Island.

Garden Cove: cove, 0.3 miles across, on SE coast of Saint George Island, in Pribilof Islands; 56° 34' 00" N, 169° 30' 45" W; (map 38). Variant: Kra'kankring'a. This cove is a good anchorage, reported by Elliott (1903, Saint George map and notes) in 1873-74. The Aleut name is "Kra' kankring' a" meaning "facing the east," according to Putnam (1903, p. 1015), USC&GS. Elliott (p. 19) writes that the early Russians "planted at Garden Cove," which probably is the origin of the name.

Garden Cove: cove, on Hinchinbrook Island, at mouth of Garden Creek, 30 miles SW of Cordova, Chugach Mountains; 60° 20' N, 146° 32' W; (map 64). Local name reported by

George Davidson, USC&GS, in the 1869 Alaska Coast Pilot (p. 156). Name derived from the island at entrance to cove.

Garden Creek: stream, on Hinchinbrook Island, flows SW 1 mile to Garden Cove, 30 miles SW of Cordova, Chugach Mountains; 60° 21' N, 146° 31' W; (map 64). Name published in 1950 by USGS; derived from nearby Garden Island.

Garden Island: island, 1 mile long, crescent shaped, between the entrances to Amber and Aniakchak Bays, 6.5 miles WSW of Cape Kunmik, near S shore of Alaska Peninsula, Aleutian Range; 56° 45' N, 157° 21' W; (map 31). Local name published by USC&GS in the 1947 Alaska Coast Pilot (p. 281).

Garden Island: island, 3 miles long, formed by Noyes Slough and Chena River N and W of center of Fairbanks, Tanana Lowland; 64° 51' N, 147° 46' W; (map 100). Local name published in 1939 by USGS.

Garden Island: island, 300 ft. long, at mouth of Garden Cove, off Hinchinbrook Island, 30 miles SW of Cordova, Chugach Mountains; 60° 00' 30" N, 146° 02' 00" W; (map 64). Named by Capt. Portlock (1789, p. 232), on June 6, 1787, while he and Capt. George Dixon visited the region on the English trading vessels Queen Charlotte and King George. Portlock had a garden planted on the island, probably to test the growing ability of numerous vegetables under the Alaskan climate and soil conditions.

Garden Island: island, 5.2 miles long, in Yukon River, E of Anvik and 32 miles NW of Holy Cross, Innoko Lowland; 62° 40' N, 160° 09' W; (map 78). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by U.S. Dept. of Interior.

Garden Island: residential area, in Fairbanks at E end of Garden Island, Tanana Lowland; 64° 51' N, 147° 43' W; (map 100). Variant: Garden City.

Garden Islet: island, see Kutkan Island.

Garden Wall, The: ridge, on Alaska Peninsula, elev. 2,000 ft., extends S 4.5 miles between Cub and Wind Creeks on SE slope of Aniakchak Crater, 37 miles NE of Chignik, Aleutian Range; 56° 48' N, 158° 03' W; (map 30). So named in 1923 by R. H. Sargent, USGS, because "it resembles a wall from below."

Gardiner Creek Camp: locality, on Alaska Highway, at Gardiner Creek, 15 miles SE of Northway Junction, Alaska Range; 62° 51' 30" N, 141° 28' 00" W; (map 84). Variant: Gardner Creek Camp. Local name reported by USGS in 1952.

Gardiner Creek: stream, flows S 38 miles to Chisana River, 17 miles SE of Northway Junction, Alaska Range; 62° 49' 10" N, 141° 31' 20" W; (map 84). Variant: Gardner Creek. Named in 1898 by A. H. Brooks and W. J. Peters, USGS, for L. D. Gardiner, a member of their field party.

Gardiner Islands: islands, see Wood Islands.

Gardner Bay: estuary, extends NW 1.7 miles from Clarence Strait, SE coast of Prince of Wales Island, Alexander Archipelago; 54° 49' 30" N, 131° 57' 45" W; (map 2). Variant: Gavan Gardnyera, Port Gardner. This a transliteration of the name "Gavan Gardnera" given by Island A. Kupreanof in 1848 and published on Russian Hydrog. Dept. Chart 1396 in the same year.

Gardner Creek Camp: locality, see Gardiner Creek Camp.

Gardner Creek: stream, flows SE to Pargon River, 15 miles NE of Council, Seward Peninsula Highlands; (map 110). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This stream cannot be precisely located on current maps.

Gardner Creek: stream, see Gardiner Creek.

Gardner, Point: point of land, on S tip of Admiralty Island, 10 miles SE of Baranof, Alexander Archipelago; 57° 01' N, 134° 37' W; (map 9). Named in 1794 by Capt. George Vancouver, RN, probably for Sir Alan Gardner (Wagner, 1937, p. 389).

Gardner, Port; estuary, see Gardner Bay.

Gardnera, Gavan: estuary, see Gardner Bay.

Gareloi Island: island, 6 miles across, Delarof Islands, Aleutian Islands; 51° 48' N, 178° 48' W; BGN 1890; (map 16). Variant: Anangusik Island, Burnt Island, Goreloi Island, Goreloi Island, Gorely Island. Name published as "O[strov] Goreloi," or "Goreloi Island," by Lt. Sarichev (1826, map 3), IRN, from the Russian word for "burnt" or "burning." Its Aleut name, according to Capt. Tebenkov (1852, map 28), IRN, was "Anangusik." The adopted form "Gareloi," appeared on USC&GS, U.S. Navy Hydrog., and Brit. Adm. charts, prior to 1902.

Gareloi Volcano: volcano, see Gareloi, Mount.

Gareloi, Mount: volcano, 5,160 ft., Gareloi Island, Aleutian Islands; 51° 47' 30" N, 178° 47' 40" W; (map 16). Variant: Gareloi Volcano. Named after Gareloi Island; called Gareloi Volcano on a 1954 AMS map and Mount Gareloi on a 1954 USGS map.

Garfield Creek: stream, heads on Baldy Mountain, flows SE 16 miles to Kuzitrin River, 14 miles NW of Mount Bendeleben, 37 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 21' N, 164° 18' W; (map 110). Prospectors' name reported in 1900 by Brooks (1901, pl. 11), USGS.

Garfield Point: point of land, see Lieskof, Cape.

Garforth Island: island, 0.6 miles long, in Muir Inlet, in Glacier Bay National Monument, 2.3 miles S of Muir Point, 52 miles NW of Hoonah, St. Elias Mountains; 58° 47' 15" N, 136° 04' 10" W; (map 10). Apparently named by the British Admiralty About 1890; published on its Chart 2431.

Gargoyle Islands: islands, 0.2 miles across, in Surveyor Bay, SW coast of Unalaska Island, Aleutian Islands; 53° 16' 30" N, 167° 33' 30" W; BGN 1937; (map 23). Named by USC&GS in 1937.

Gariota Islets: rocks, extend 0.4 miles in S entrance to Siketi Sound, on NW Coast of Baker Island; Alexander Archipelago; 55° 23' 35" N, 133° 39' 45" W; (map 4). Variant: Gaviota Island, Gaviota Rock. Spanish word meaning "sea gull," given in 1923 by USC&GS.

Garita Rock: rock, 0.1 miles across, in Bocas de Finas, N of Anguilla Island, Maurelle Islands, Alexander Archipelago; 55° 41' 10" N, 133° 34' 25" W; (map 4) Spanish name meaning "sentry-box;" recorded in 1951 by USGS.

Garland Creek: stream, flows SW 11 miles to Kobuk River, 12 miles NW of Shungnak, Kotzebue-Kobuk Lowland; 66° 57' N, 157° 33' W; (map 115). Local name reported in 1954 by the U.S. Army Corps of Engineers.

Garner: locality, mile 355.7 on The Alaska Railroad, W of Nenana River, 2 miles S of Healy, Alaska Range; 63° 49' 30" N, 148° 58' 30" W; (map 87). Name of a flag stop reported by The Alaska Railroad on its 1922 timetable.

Garnet Creek: stream, flows NW 17 miles to Yukon River at Garnet Island, 18 miles WSW of Rampart, Yukon-Tanana Highlands; 65° 25' 30" N, 150° 45' 00" W; (map 106). Prospectors' name reported in 1904 by L. M. Prindle, USGS.

Garnet Creek: stream, flows NW 3 miles to Bettles River, 2 miles SW of mouth of Eightmile Creek, 25 miles WNW of Chandalar, Brooks Range; 67° 34' 00" N, 149° 24' 30" W; (map 123). Prospectors' name obtained in 1901 by Schrader (1904, pl. 3), USGS.

Garnet Creek: stream, flows NW 3 miles to South Fork Arolik River, 28 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 28' 30" N, 161° 19' 00" W; (map 53). Local name reported in 1954 by USGS.

Garnet Creek: stream, flows SE 2.8 miles to Flambeau River, 15 miles NE of Nome, Seward Peninsula Highlands; 64° 41' N, 165° 05' W; (map 94). Prospectors' name reported on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Garnet Gulch: ravine, on E slope of White Mountain, N of Nabesna, Alaska Range; 62° 24' N, 143° 02' W, BGN 1939; (map 84). Local name reported in 1939 by USGS. This feature cannot be precisely identified on present maps.

Garnet Island: island, 2 miles long, in Yukon River, 16 miles WSW of Rampart, Kokrines-Hodzana Highlands; 65° 26' N, 150° 41' W; (map 106). Local name reported in 1956 by Orth.

Garnet Ledge: point of land, at mouth of Stikine River, 6 miles N of Wrangell, Coast Mountains; 56° 34' 20" N, 132° 21' 45" W; (map 6). Local name recorded in 1948 by USGS.

Garnet Mountain: mountain, 3,150 ft., 6 miles N of Wrangell, Coast Mountains; 56° 34' N, 132° 20' W; (map 6). Local name recorded in 1953 by USGS.

Garnet Point: point of land, at S end of Kangunut Island, Coast Mountains; 54° 43' 10" N, 130° 41' 00" W; (map 2). Variant: Garnot Point. Name given in 1883 by Lt. Comdr. H. E. Nichols, USN; published erroneously in 1885 as Garnot Point by USC&GS.

Garnet Point: point of land, see Venisa Point.

Garnet, Point: point of land, on southern part of Choris Peninsula, 57 miles SW of Selawik, Kotzebue-Kobuk Lowland; 66° 16' N, 161° 52' W; (map 114). Named in September 1827 by Capt. F. W. Beechey, RN.

Garnot Point: point of land, see Garnet Point.

Garns, Point: point of land, see Harris, Point.

Garrett Peak: mountain, 5,600 ft., 3.4 miles NE of Camp Mountain, 26 miles NE of Valdez, Chugach Mountains; 61° 29' 15" N, 146° 05' 45" W; (map 68). Named in 1898 by Capt. W. R. Abercrombie, USA, for "Private Garrett" of his party.

Garrison Glacier: glacier, heads on NE slope of Takhinsha Mountains, trends 7 miles to its terminus at head of Kicking Horse River, 5.6 miles W of Pyramid Harbor and 22 miles SSW of Skagway, St. Elias Mountains; 59° 11' 30" N, 135° 38' 45" W; (map 45). Variant: Garrison Glaciers. Named by W. H. Dall, USC&GS, and published in the 1883 Coast Pilot (p. 194) as the Garrison Glaciers. IBC Sheet 9 (1951 atlas) applied the name in 1923 as described above.

Garrison Glaciers: glacier, see Garrison Glacier.

Garrison Slough: stream, flows NW 10 miles to Moose Creek, 15 miles SE of Fairbanks, Tanana Lowland; 64° 43' 00" N, 147° 08' 50" W; (map 100). Local name reported by in 1950 by USGS topographers.

Garry Creek: stream, heads in a lake, flows E 12 miles to Harrison Bay, 13 miles S of Cape Halkett, Arctic Plain; 70° 38' 25" N, 152° 27' 05" W; BGN 1916; (map 149). Variant: Garry River, River Garry. First recorded July 25, 1837, as "River Garry" on P. W. Dease and Thomas Simpson's (Thomas Simpson, 1843, p. 132) map and named "after Nicholas Garry, Esquire, whose name has long been associated with Arctic research."

Garry River: stream, see Garry Creek.

Garryowen Creek: stream, flows SW 9 miles to Little Bear Creek, 28 miles SE of Haycock, Nulato Hills; 65° 00' N, 160° 20' W; BGN 1966; (map 109). Prospectors' name reported in 1909 by P. S. Smith, USGS.

Gartina Creek: stream, on N part of Chichagof Island, flows 7 miles S to Port Frederick, 1.4 miles SE of Hoonah, Alexander Archipelago; 58° 05' 10" N, 135° 25' 15" W; (map 11). Local name published in 1951 by USGS.

Gas Creek: stream, heads in Katmai National Monument, flows 9 miles SE on Alaska Peninsula to Kejulik River, 23 miles SW of Mount Katmai, Aleutian Range; 57° 59' 35" N,

155° 25' 45" W; (map 35). Descriptive name given by R. H. Sargent, USGS, in 1923 "on account of the gas seepages there."

Gas Hill: hill, 500 ft., on N shore of Vega Bay, Kiska Island, Aleutian island; 51° 55' 40" N, 177° 22' 50" E; (map 14). An arbitrary name beginning with "G" to correspond to "G" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Gas Lake: lake, 0.7 miles long, 1 mile N of Lower Halfway Lake and 22 miles SE of Beaver, Yukon-Tanana Highlands; 66° 06' N, 146° 56' W; (map 119). Local name obtained in 1956 by USGS.

Gas Rock: island, 0.1 miles long, in Sea Otter Sound, 0.7 miles N of Heceta Island, Alexander Archipelago; 55° 50' 50" N, 133° 33' 45" W; (map 4). Named in 1904 by field party under the direction of E. F. Dickins, USC&GS; so called "because supply of gas was cached here."

Gas Rocks, The: hill, 520 ft., on S shore of Becharof Lake, on Alaska Peninsula, 27 miles NW of Kanatak, Aleutian Range; 57° 51' 40" N, 156° 30' 00" W; (map 36). Local name reported in 1923 by W. R. Smith and A. A. Baker (in Brooks and others, 1924, pl. 8), USGS.

Gasán: locality, see Old Kasaan.

Gash: locality, near Cape Fox, on N side of Dixon Entrance at W side of Nakat Bay, Coast Mountains; (map 2). Site of a former Tlingit Indian winter camp. According to J. R. Swanton (in Hodge, 1907, p. 488), BAE, "Most of the people have now moved to Ketchikan."

Gasilnik Island: island, see Krishka Island.

Gasilo Island: island, see Krishka Island.

Gaskal Creek: stream, see Steelhead Creek.

Gasoline Lake: lake, 1.7 miles long, 2.8 miles E of Tetlin Lake, 20 miles S of Tok, Alaska Range; 63° 06' N, 142° 33' W; BGN 1962; (map 85). Variant: Gasoline Lakes, Lake Gomair, Lake Gumaer. Local name reported in 1950 by USGS.

Gasoline Lakes: lake, see Dathlalmund Lake.

Gasoline Lakes: lake, see Gasoline Lake.

Gassman Creek: stream, flows SW 3.5 miles to Eldorado River, 23 miles NW of Solomon, Seward Peninsula Highlands; 64° 48' N, 164° 58' W; (map 95) Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Gastineau Channel: water passage, 19 miles long, trends NW from Stephens Passage to Auke Bay, between Douglas Island and the mainland, Coast Mountains; 58° 16' N, 134° 20' W; (map 11). Variant: Carroll Straight, Icy Channel. Origin of the name somewhat obscure. Name appears on a manuscript map prepared for the Western Union Telegraph Co. in 1867.

It was probably named for John Gastineau, 1820-85, an English civil engineer, who came to Canada in 1858 and did surveying and mapping for the British Columbia government. Baker (1906) says that the name was derived from one of the Hudson Bay Company's steamers. However, this has been questioned since the company had no vessel of this name on this coast. Capt. George Vancouver, who explored this coast in 1794 overlooked this channel, probably because it was choked with ice at the time. The name "Carroll Straight" was probably for Capt. James Carroll, a steamship captain and an early Juneau property owner (DeArmond, 1957, p. 20-21).

Gastineau City: locality, site of realty development at the mouth of Nevada Creek on Gastineau Channel, 6.5 miles SE of Juneau, Coast Mountains; 58° 13' 50" N, 134° 18' 15" W; (map 11). Named in 1905 by "Mike" Hudson who had mining property on the creek. He staked and subdivided a homestead at the mouth of the creek. but apparently the business venture was unsuccessful (DeArmond, 1957, p. 21).

Gastineau Heights: ridge, see Chicken Ridge.

Gastineau Peak: peak, 3,666 ft., 1.6 miles W of Sheep Mountain and 2.4 miles SE of Juneau, Coast Mountains; 58° 17' 25" N, 134° 20' 45" W; (map 11). Local name reported in 1916 by D. C. Witherspoon, USGS, and published in 1918.

Gaston, Cabo: point of land, see Adam, Point.

Gatan Cape: point of land, see Kovrizhka, Cape.

Gate Creek: stream, flows SE 10 miles to Moose Creek. 12 miles SW of Talkeetna, Cook Inlet Lowland; 62° 14' 00" N, 150° 26' 50" W, (map 81). Local name reported in 1958 by USGS.

Gate Island: island, 300 ft. long, at W entrance to Hook Arm Sea Otter Harbor, off W coast of Dall Island, Alexander Archipelago; 55° 07' 00" N, 133° 11' 50" W; (map 4). Name published in 1924 by USC&GS.

Gate, The: water passage, 0.5 miles long, 3.5 miles S of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 36' 30" N, 136° 06' 00" W; BGN 1908; (map 9). Descriptive name given by A. Braid, USC&GS; published in 1908 Coast Pilot (p. 172). "The Gate is a water passage or gateway from Khaz Bay into Elbow Passage and Klag Bay."

Gates Glacier: glacier, trends 9 miles S from Mount Regal to Kennicott Glacier, 12 miles N of McCarthy, Wrangell Mountains; 61° 35' N, 143° 00' W; (map 67). Named by F. C. Schrader, USGS, in 1899 for Edward Gates, a local prospector.

Gates of the Arctic: pass, on North Fork Koyukuk River, between Frigid Crags and Boreal Mountain 37 miles NW of Wiseman, Brooks Range; 67° 50' 30" N, 150° 53' 30" W; (map 124). Named in 1929 by Marshall (1956, p. 7), who reported, "I bestowed the name of Gates of the Arctic on them * * *."

Gates, The: watergap, 1,000 ft. deep, cut by Aniakchak River through E side of Aniakchak Crater, 4 miles NE of Vent Mountain, Aleutian Range; 56° 54' N, 158° 04' W; (map 30).

Descriptive name given in 1922 by USGS and published by W. R. Smith and A. A. Baker (in Brooks and others, 1924, p. 157), USGS.

Gateway Knob: hill, 600 ft., in Alsek River at river bend, 1 mile W of 1961 terminus of Alsek Glacier and 60 miles SE of Yakutat, St. Elias Mountains; 59° 11' 15" N, 138° 10' 45" W (map 46). So named in 1906 by Blackwelder (1907, p. 428, 430), USGS, because the hill represented the "jumping-off" place when crossing the glacier. The glacier was once at this hill but has since retreated.

Gateway, The: pass, 5,200 ft., entrance to The Great Gorge of Ruth Glacier, 12 miles SE of Denali Pass in Mt. McKinley National Park, Alaska Range; 62° 59' N, 150° 42' W; (map 81). Mountain climbers' name published in the late 1940's.

Gatherer Rock: rock, in Orca Bay, 2 miles N of Hawkins Island, 9 miles NW of Cordova, Chugach Mountains; 60° 36' 30" N, 145° 57' 40" W; (map 64). Named about 1900 by H. P. Ritter USC&GS, for the ship Gatherer which was wrecked here.

Gatlena Gap: pass, 1,100 ft., 25 miles N of Livengood, Yukon-Tanana Highlands; 65° 50' 45" N, 148° 33' 00" W; (map 105). Local name published by USGS in 1950's.

Gattan Cape: point of land, see Kovrizhka Cape.

Gaudekan: village, see Hoonah.

Gaudy Lake: lake, 0.1 miles across, E of Vega Bay, Kiska Island, Aleutian Islands; 51° 55' 42" N, 177° 27' 07" E; (map 14). An arbitrary name beginning with "G" to correspond to "G" grid used by U.S. Army for tactical purposes during World War II Published on a 1943 Army map.

Gauge Island: island, 0.5 miles across, in Funter Bay on W coast of Mansfield Peninsula, 0.8 miles NE of Clear Point, 17 miles SE of Juneau; Alexander Archipelago; 58° 15' 00" N, 134° 53' 45" W (map 11). Variant: Dare Island. Named by Lt. Comdr. H. B. Mansfield USN, in 1890.

Gauntlet Island: island, 0.2 miles long, in Takanis Bay, on SW coast of Yakobi Island, off W coast of Chichagof Island, Alexander Archipelago; 57° 54' 35" N, 136° 32' 50" W; BGN 1928; (map 9). Descriptive name given in 1928 by USC&GS, "because of its [glove-like] shape." The name was published in 1929 on Chart 8260.

Gavan Hill: ridge, elev. 2,600 ft., 1.5 miles long, 2 miles NE of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 05' N, 135° 19' W; (map 9). Variant: Gora Gavanskaya, Harbor Peak. Russian name meaning "harbor" given in 1809 by the navigator Ivan Vasiliev the first; Published by Lt. Sarichev (1826 map 19) IRN, as Gora Gavanskaya (harbor mountain).

Gavan Saint Pavla: town, see Kodiak.

Gavanskaia Bay: harbor, see Iliuliuk Harbor

Gavanskaya, Gora: peak, see Harbor Peak.

Gavanskaya, Gora: ridge, see Gavan Hill.

Gavanskaya: harbor, see Iliuliuk Harbor.

Gavanski Island: island, see Big Gavanski Island.

Gavanski Islands: islands, 1.4 miles long, includes Big and Little Gavanski Islands, 6.5 miles NW of Sitka, Alexander Archipelago; 57° 08' 00" N, 135° 25' 30" W; BGN 1897; (map 9). Variant: Gavanski Islets, Ostrova Gavanskiy, Ostrova Gavanskiye. Named by the early Russians in Alaska; published in 1850 as "O[stro]va Gavanskiy," meaning "harbor islands," by the Russian American Company. See Big and Little Gavanski Islands.

Gavanski Islet: island, see Little Gavanski Island.

Gavanski Islets: islands, see Gavanski Islands.

Gavanski Point: point of land, see Harbor Point.

Gavanskiy, Ostrova: islands, see Gavanski Islands.

Gavanskiye, Ostrova: islands, see Gavanski Islands.

Gavanskoe: village, see Unalaska.

Gavanskoi: village, see Unalaska.

Gavanskoy Bolshoy, Ostrov: island, see Big Gavanski Island.

Gavanskoy Menshoy, Ostrov: island, see Little Gavanski Island.

Gavanskoy, Mys: point of land, see Harbor Point.

Gavanskoy, Ostrov: island, see Harbor Island.

Gavarush' ka Lake: lake, see Govorushka Lake.

Gavia Lake: lake, 1 mile long, on Kenai Peninsula W of Konchanee Lake, 25 miles NE of Kenai, Cook Inlet Lowland; 60° 41' 30" N, 150° 36' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for birds of the loon family (*Gavia*).

Gavimamut: locality, see Uknavik.

Gaviota Island: rocks, see Gariota Islets.

Gaviota Rock: rocks, see Gariota Islets.

Gawanka Brook: stream, flows N to Chichagof Harbor, on NE coast of Attu Island, Aleutian Islands; 52° 55' 30" N, 173° 15' 00" E; (map 13). Reported by Constantin Grewingk (1850, p. 235). The exact location is not known.

Gay Creek: stream, flows W 4.5 miles to Tuttle Creek which flows to Kugrupaga River, 5 miles SW of Ear Mountain and 43 miles N of Teller, Seward Peninsula Highlands; 65° 53' N, 166° 25' W; (map 111). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Gay Gulch: ravine, trends SW 3 miles to Smallwood Creek, 3 miles S of Gilmore Dome and 12 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 56' 15" N, 147° 21' 00" W; (map 100). Local name published in 1908 by USGS.

Gazzam Creek: stream, flows W 4 miles to Troublesome Creek, 18 miles SE of Rampart, Yukon-Tanana Highlands; 65° 20' N, 149° 42' W; (map 105). Named by prospectors; reported in 1907 by USGS (Prindle and Hess, 1908, pl. 2).

Geary Gulch: ravine, tributary to Gold Creek, about 2 miles W of Juneau, Coast Mountains; 58° 18' N, 134° 20' W; (map 11). Miners' name for a gulch subsequently destroyed by mining operations (DeArmond, 1957, p. 22).

Gechiagamut: locality, see Gechiak.

Gechiak Creek: stream, heads at Gechiak Lake, flows SE 12 miles to Togiak River, 48 miles E of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 13' N, 160° 15' W; (map 53). Variant: Kashaiyak River. Eskimo name reported in 1898 by J. E. Spurr and W. S. Post, USGS.

Gechiak Lake: lake, 3 miles long, 5 miles NE of Kukaktlim Lake, 48 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 23' N, 160° 23' W; (map 53). Eskimo name published in 1951 by USGS.

Gechiak Mountains: mountains, 2,000 ft., in Ahklun Mountains, 3 miles SW of Gechiak Lake and 45 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 20' N, 160° 25' W; (map 53). Eskimo name published in 1951 by USGS.

Gechiak: locality, on left bank of Togiak River, just S of mouth of Gechiak Creek, 48 miles E of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 12' N, 160° 15' W; (map 53). Variant: Gechiagamut, Gechiang, Kashaiyamut. Eskimo village or camp, now abandoned, reported as "Gechiagamut," or "Gechiak people," in 1898 by J. E. Spurr and W. S. Post, USGS.

Gechiang: locality, see Gechiak.

Gedney Channel: water passage, 0.7 miles across, just N of mouth of Port Frederick and 5 miles NW of Hoonah, Alexander Archipelago; 58° 11' N, 135° 30' W; (map 11). Named in 1901 by E. F. Dickins, USC&GS, who sounded the passage for his vessel, the USC&GS steamer, Gedney. Name was published in 1904 on Chart 8304.

Gedney Harbor: bay, 1.5 miles long, on W coast of Kuiu Island, 8 miles S of Tebenkof Bay, Alexander Archipelago; 56° 22' 20" N, 134° 15' 00" W; (map 5). Named in 1901 by USC&GS

“for the USC&GS steamer Gedney from which a reconnaissance of the harbor was made in 1899-1900.”

Gedney Island: island, 2.2 miles long, between Behm Canal and Gedney Pass, off NW coast of Revillagigedo Island, Alexander Archipelago; 55° 51' 30" N, 131° 41' 00" W; (map 3). Named in 1891 by USC&GS for its steamer Gedney.

Gedney Pass: water passage, extends E 9 miles off Behm Canal, between Hassler and Revillagigedo Islands, Alexander Archipelago; 55° 51' N, 131° 42' W; (map 3). Named in 1891 by USC&GS for its steamer Gedney.

Geese Channel: water passage, between Geese Islands and S tip of Kodiak island; 56° 45' N, 153° 53' W; BGN 1934; (map 33). Named by USC&GS in 1934 for the Geese Islands.

Geese Islands: island, see Aiaktalik Island.

Geese Islands: islands, 6 miles long, at S tip of Kodiak island; 56° 44' N, 153° 53' W; (map 33). Variant: Archimandritof Islands, Ostrova Gusinyya. Translation by USC&GS in 1868 of the Russian name “O[stro]va Gusinyya,” published by Capt. Tebenkov (1852, map 22).

Geese Lake: lake, 1 mile long, in course of West Fork of The Forks, 15 miles N of Stevens Village, Yukon Flats; 66° 14' N, 149° 07' W; (map 118). Local name reported in 1956 by T. E. Taylor, USGS.

Geese Lakes: lakes, S of Crosstrail Lake, 41 miles SE of Fort Yukon, Yukon Flats; 66° 01' N, 144° 44' W; (map 119). Local name reported in 1956 by USGS.

Gehoenda Creek: stream, see Geohenda Creek.

Geicke Glacier: glacier, see Geikie Glacier.

Geike Glacier: glacier, see Geikie Glacier.

Geikie Glacier: glacier, heads 1 mile SW of Blackthorn Peak, trends N 6 miles to its 1950 terminus, 0.3 miles W of Geikie Inlet, Glacier Bay National Monument, 52 miles NW of Hoonah, St. Elias Mountains; 58° 37' N, 136° 34' W; (map 10). Variant: Geicke Glacier, Geike Glacier, Greike Glacier. Named in 1879 by John Muir (1915, p. 144) for James Geikie, 1839-1915, British geologist. Geikie was born in Scotland and in 1861 joined the Geological Survey of Great Britain. In 1882 he became professor of geology and mineralogy at Edinburgh Univ. He was the author of “The Great Ice Age” and other geological publications. When H. F. Reid visited Glacier Bay in 1892 he found that the Geikie Glacier of John Muir had retreated so far that it had become two smaller glaciers. He retained the name “Geikie” for the more northerly of the two, and called the other “Wood Glacier” (Reid, 1896, p. 428). Wood Glacier has now disappeared.

Geikie Inlet: estuary, 8 miles long, in Glacier Bay National Monument, trends NE to Glacier Bay, 3 miles W of Drake Island and 51 miles NW of Hoonah, St. Elias Mountains; 58° 40' 00" N, 136° 20' 30" W; (map 10). Name derived from the Geikie Glacier, published in 1923 on IBC Sheet 10 (1951 atlas).

Geikie Rock: rock, in Glacier Bay, in Glacier Bay National Monument, 1.5 miles NE of mouth of Geikie Inlet and 51 miles NW of Hoonah, St. Elias Mountains; 58° 41' 40" N, 136° 18' 35" W; (map 10). Local name derived from Geikie Inlet; published by USC&GS in 1943.

Geist, Mount: peak, 10,720 ft., 5 miles NW of Mount Hayes and 45 miles SW of Delta Junction, Alaska Range; 63° 38' 30" N, 146° 52' 15" W; BGN 1965; (map 86). Named by T. L. Pewe for Otto William Geist, 1888-1963, Univ. of Alaska, researcher in Alaskan paleontology, archeology, and glaciology.

Gem Cove: estuary, on Revillagigedo Island, extends E 0.5 miles off George Inlet, 4 miles NE of California Head, Alexander Archipelago; 55° 22' 45" N, 131° 26' 00" W; BGN 1962; (map 3). Local name reported in 1961 by USFS.

Gem Creek: stream, flows E to Solomon River, between Butte and Mint Creeks, about 10 miles NE of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name reported on a prospector's manuscript map dated 1902. This stream cannot be precisely located on current maps.

Gem Point: point of land, on E shore of Snug Cove, on E coast of Admiralty Island, 2 miles SW of Church Point and 59 miles NE of Sitka, Alexander Archipelago; 57° 25' 45" N, 133° 57' 30" W; (map 8). Named in 1889 by Lt. Comdr. H. B. Mansfield, USN; name published by USC&GS in 1891 Coast Pilot (p. 144).

Gemodedon Island: island, in Yukon River, 7 miles NE of Nulato, Koyukuk Lowland; 64° 49' N, 157° 57' W; (map 97). Koyukan Indian name reported by USGS in 1954.

Gemuk Creek: stream, flows NW 5 miles to Aukamunuk Creek, 78 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 48' N, 159° 55' W; (map 53). Eskimo name reported in 1898 by W. S. Post, USGS. See Gemuk Mountain.

Gemuk Mountain: mountain, 3,996 ft., 11 miles N of Nishlik Lake and 96 miles SW of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 37' N, 159° 02' W; BGN 1948; (map 60). Eskimo name reported in 1945 by USGS to mean "lone."

Gemuk River: stream, heads at lake E of Gemuk Mountain, flows NE 24 miles, joins Chikululnuk Creek to form Chukowan River, 80 miles SW of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 47' N, 158° 32' W; BGN 1945; (map 60). Variant: Keenuk River. Name reported in 1932 by BIA. See Gemuk Mountain.

Genaenda Creek: stream, see Geohenda Creek.

Gene Lake: lake, 1.8 miles long, on Kenai Peninsula, one of the Swanson Lakes, at head of Swanson River, 15 miles S of Point Possession and 34 miles NE of Kenai, Cook Inlet Lowland; 60° 50' N, 150° 28' W; (map 62). Local name reported in 1958 by USGS.

Genetian Creek: stream, flows NW 4.5 miles to Poorman Creek, 5.5 miles SW of Poorman, Kilbuck-Kuskokwim Mountains; 64° 02' 45" N, 155° 40' 30" W; (map 98). Local name reported in 1933 by USGS.

Genius Lake: lake, 300 ft. across, N of Bukhti Point, south-central Kiska Island, Aleutian Islands; 51° 55' 02" N, 177° 28' 22" E; (map 14). An arbitrary name beginning with "G" to correspond to "G" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Genivieve Lake: lake, 0.2 miles long, E of Lake Catherine, 3.3 miles SW of Kodiak, Kodiak Island; 57° 46' N, 152° 29' W; (map 34). Name published in 1957 by AMS.

Gens de Large: lake, see Chandalar Lake.

Gens de Large: stream, see Chandalar River.

Gentle Hill: hill, 260 ft., N of Bukhti Point, south-central Kiska Island, Aleutian Islands, 51° 55' 00" N, 177° 28' 35" E; (map 14). An arbitrary name beginning with "G" to correspond to "G" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Gentle Lake: lake, 300 ft. across, N of Bukhti Point, south-central Kiska Island, Aleutian Islands; 51° 54' 55" N, 177° 28' 40" E, (map 14). An arbitrary name beginning with "G" to correspond to "G" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Genunam Island: island, see Seguam Island.

Geographic Harbor: estuary, extends 3 miles off Amalik Bay, on S coast of Alaska Peninsula, in Katmai National Monument, 16 miles SE of Mount Katmai, Aleutian Range; 58° 06' N, 154° 34' W; BGN 1924; (map 42). Named in 1919 by R. F. Griggs for the National Geographic Society.

Geohenda Creek: stream, flows N 15 miles to Chisana River, 3 miles E of Euchre Mountain and 40 miles SE of Nabesna Alaska Range; 62° 03' 30" N, 142° 06' 00" W; (map 84). Variant: Gehoenda Creek, Genaenda Creek, Trail Creek. Indian name reported in 1902 as "Gehoenda" by D. C. Witherspoon, USGS. The name was shown as "Genaenda" by S. R. Capps (1916, pl. 1), USGS, and the current spelling was recommended in 1963 by USGS.

George Arm: estuary, see George Inlet.

George Creek: stream, flows N 1 mile to Schley Creek, about 17 miles NNE of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name shown on the 1902 "Map of the Nome and Snake River Country" by J M. Davidson. This stream cannot be identified on recent maps.

George Creek: stream, flows NW 10 miles to Kosina Creek, 24 miles SW of junction of Oshetna and Susitna Rivers, Talkeetna Mountains; 62° 31' 50" N, 148° 05' 30" W; (map 82). Local name recorded in 1917 on a USGS manuscript map.

George Creek: stream, flows NW 2 miles to Wade Creek, 47 miles SW of Eagle, Yukon-Tanana Highlands; 64° 08' N, 141° 31' W, (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

George Creek: stream, flows SE to Solomon River, 9 miles NE of Solomon, Seward Peninsula Highlands; 64° 40' N, 164° 18' W, (map 95). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

George Creek: stream, flows SW through Lake George 27 miles to Tanana River, 35 miles SE of Delta Junction, Tanana Lowland; 63° 47' 30" N, 144° 44' 10" W; BGN 1961; (map 86). Name reported on 1907 fieldsheet by D. C. Witherspoon, USGS.

George Creek: stream, heads on S side of Henderson Ridge and flows S to Temnac Bay, Attu Island, Aleutian Islands; 52° 49' 55" N, 173° 04' 37" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II; Name shown on an AMS map published in 1948.

George Creek: stream, see Billy Creek.

George Inlet: estuary, extends S 14 miles to Carroll Inlet, on Revillagigedo Island, Alexander Archipelago; 55° 20' N, 131° 30' W; BGN 1917; (map 3). Variant: George Arm. Named in 1880 by USC&GS for Capt. W. E. George, local pilot, who made the first sketch of Revillagigedo Channel and Tongass Narrows.

George Island: island, 1 mile long, in George Islands in Cross Sound, at mouth of Port Althorp 36 miles NW of Hoonah, Alexander Archipelago; 58° 12' 00" N, 136° 23' 45" W; (map 10). Named by W. H. Dall, USC&GS, in 1880 and published in the 1883 Alaska Coast Pilot (p. 187).

George Island: island, see Saint George Island.

George Islands: islands, 1.2 miles across off W coast of Inian Peninsula, on N coast of Chichagof Island, 0.4 miles W of Elfin Cove and 36 miles NW of Hoonah, Alexander Archipelago; 58° 12' N, 136° 23' W; (map 10). Named by W. H. Dall, USC&GS, in 1880.

George Lake: lake, 0.8 miles long, 5 miles NE of Beaver, Yukon Flats; 66° 25' 20" N, 147° 16' 30" W; (map 118). Local name obtained in 1956 by USGS.

George Meadow: meadow, 4 miles NW of Beaver, Yukon Flats; 66° 26' N, 147° 29' W; (map 118). Local name obtained in 1956 by USGS.

George Point: point of land, on SW coast of Strawberry Island, in Glacier Bay, in Glacier Bay National Monument, N of Beardslee Entrance 35 miles NW of Hoonah, St. Elias Mountains, 58° 30' 30" N, 136° 00' 45" W; BGN 1948; (map 10). Variant: Strawberry Point. Local name reported by USC&GS in 1927.

George River: stream, heads at 62° 34' N, 157° 10' W and flows SW 80 miles to Kuskokwim River, 23 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 54' N, 157° 42' W; (map 72). Variant: Keledzhichagat, Yukwonilnuk River. Locally named for George Fredericks,

proprietor of a trading post at its mouth; reported in 1910 by A. G. Maddren (in Brooks and others, 1911, pl. 11), USGS. In 1842 Lt. L. A. Zagoskin, IRN, called this river by the Indian name "Keledzhichagat." In 1913 A. H. Brooks, USGS, reported the name "Yukwonilnuk" and in 1915 USGS reported local usage to be "George River."

George River: stream, see Aichilik River.

George Rock: rock, in Stephens Passage, 1 mile NW of Outer Point on W end of Douglas Island and 10 miles W of Juneau, Coast Mountains; 58° 18' 55" N, 134° 41' 55" W, (map 11). Named in 1880 by Comdr. L. A. Beardslee, USN, presumably for Capt. William E. George, an English pilot who came to Alaska in 1868 and was master of some of the early passenger steamers and a frequent visitor to Juneau after the town was founded (DeArmond, 1957, p. 21). Name was published by the USC&GS in the 1883 Coast Pilot (p. 174).

George Simpson, Cape: point of land, see Cape Simpson.

George, Lake: lake, 6.2 miles long, in course of George Creek, 38 miles SE of Delta Junction, Yukon-Tanana Highlands; 63° 47' N, 144° 31' W; BGN 1938; (map 86). Local name reported in 1938 by USGS.

George, Mount: mountain, 10,335 ft., E of junction Of Chitina and Anderson Glaciers, 63 miles SE of McCarthy, St. Elias Mountains; 61° 03' N, 141° 01' W; BGN 1917; (map 67). Named for His Majesty, George V, of Great Britain, in 1916 by the IBC.

George, Mount: mountain, 2,025 ft., at NE end of Indian Mountains, 28 miles NE of Hughes, Kokrines-Hodzana Highlands; 66° 20' N, 153° 37' W; (map 116). Local name published in 1956 by USGS.

George, Point: point of land, on Muir Inlet at mouth of Adams Inlet, Glacier Bay National Monument, 0.5 miles S of Maquinna Cove, 56 miles NW of Hoonah, St. Elias Mountains; 58° 51' 15" N, 136° 03' 30" W, (map 10). Local name published in the 1950's by USGS.

Georgetown: locality, on right bank of Kuskokwim River, 16 miles NW of village of Red Devil and 22 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 53' 40" N, 157° 43' 00" W; BGN 1948; (map 72). Name of a trading post reported in 1910 by Maddren (in Brooks and others, 1911, pl. 11), USGS. Presumably named for the post owner, George Fredericks. A post office was located here from 1912 to 1913. See George River.

Georgiana, Cape: point of land, on NW tip of Kruzof Island, 26 miles NW of Sitka, Alexander Archipelago; 57° 19' 45" N, 135° 51' 30" W; (map 9). Variant: Mys Olgi, Mys Siuchiy, Point Olga, Sea Lion Point, Siouchi Point. Named in 1787 by Capt. Nathaniel Portlock (Wagner, 1937, p. 389). This point was also called "Mys Sinchiy," meaning "sealion cape," in 1833 by the Russian navigator Ens. Vasiliev (cna); "Mys Olgi," or "Olgi Cape," by Capt. Tebenkov (1852, map 8), IRN.

Georgiana, Mount: mountain, 1,383 ft., on NW tip of Kruzof Island, 26 miles NW of Sitka, Alexander Archipelago; 57° 19' 45" N, 135° 50' 30" W, BGN 1930; (map 9). Named in 1930 by USC&GS for Cape Georgiana.

Georgie Creek: stream, flows S 1.5 miles to Dome Creek, 29 miles S of Eagle, Yukon-Tanana Highlands; 64° 23' 30" N, 141° 15' 10" W; (map 102). Local name published in 1956 by USGS.

Georgie Creek: stream, flows W 5 miles to Livengood Creek, 4 miles NE of Livengood, Yukon-Tanana Highlands; 65° 06' 30" N, 147° 44' 10" W; (map 105). Local name published by USGS in the 1950's

Georgiya, Ostrov: island, see Saint George Island.

Gerard Point: point of land, on E shore of Eastern Passage, 3 miles NE of Wrangell, Coast Mountains, 56° 30' 45" N, 132° 20' 00" W; (map 6). Local name reported in 1900 by J. F. Moser, USN.

Gerdine, Mount: mountain, 11,258 ft., in Tordrillo Mountains, 55 miles NW of Tyonek, Alaska Range; 61° 34' 45" N, 152° 26' 30" W; BGN 1931; (map 70). Named for Thomas Golding Gerdine, 1872-1930, USGS topographic engineer who made several reconnaissance trips in Alaska at the end of the 19th century.

Germ Hill: hill, 440 ft., on N shore of Vega Bay, Kiska Island, Aleutian Islands; 51° 55' 43" N, 177° 23' 15" E; (map 14). An arbitrary name beginning with "G" to correspond to "G" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Germogena, Cape: point of land, see Saint Hermogenes, Cape.

Geroe Creek: stream, flows NE 12 miles to North Fork Chandalar River, at Bend Mountain, 22 miles N of Chandalar, Brooks Range; 67° 48' N, 148° 26' W; (map 123). Prospectors' name reported in 1899 by Schrader (1900b, pl. 60), USGS.

Gerstle Bay: bay, on N side of Alaska Peninsula, at mouth of Cathedral River, W of Port Moller, 33 miles NE of Cold Bay, Bristol Bay Lowland; 55° 37' N, 162° 19' W; (map 29). Named in 1888 by USBF for Lewis Gerstle, who in 1868 was one of the founders of the Alaska Commercial Company. He held the office of president for a term before his death in 1902. This feature cannot be identified on current maps.

Gerstle Glacier: glacier, heads at Johnson Glacier E of Sight Peak, trends N 14 miles to its 1955 terminus at head of Gerstle River, 34 miles SE of Delta Junction, Alaska Range; 63° 35' 10" N, 145° 20' 05" W; (map 86). Name published on relatively recent maps.

Gerstle Point: point of land, on N shore of Gerstle Bay, at mouth of Cathedral River, 33 miles NE of the village of Cold Bay, Bristol Bay Lowland; 55° 37' N, 162° 19' W; (map 29). Named in 1888 by USBF for Lewis Gerstle. This feature cannot be identified on current maps. See Gerstle Bay.

Gerstle River: stream, heads at Gerstle Glacier and flows N 40 miles to Tanana River, 25 miles SE of Big Delta, Alaska Range; 64° 03' 30" N, 145° 08' 00" W; BGN 1937; (map 101). Named in 1885 by Lt. H. T. Allen (1887, p. 13), USA, for "Lewis Gerstle, president of the Alaska Commercial Company."

Gertrude Cove: cove, 0.5 miles across, in Vega Bay, on S coast of Kiska Island, Aleutian Islands; 51° 56' 00" N, 177° 26' 45" E; (map 14). Shown on a 1943 USAAF map of Kiska Island.

Gertrude Creek: stream, flows NW 1.5 miles to Livengood Creek, 1.5 miles NE of Livengood, Yukon-Tanana Highlands; 65° 32' N, 148° 30' W; (map 105). Named by Jay Livengood who prospected this stream; reported in 1915 by A. H. Brooks, USGS.

Gertrude Creek: stream, heads in lake, flows NW 15 miles to King Salmon River, on Alaska Peninsula, 43 miles E of Egegik and 49 miles SE of Naknek, Aleutian Range; 58° 10' 15" N, 156° 12' 30" W; (map 41). Local name reported in 1952 by USGS.

Gertrude, Lake: lake, 0.5 miles across, near center of Prince of Wales Island, NE of Lake Josephine, Alexander Archipelago; 55° 15' 05" N, 132° 32' 40" W; (map 4). Local name reported in 1908 by C. W. Wright (in Brooks and others, 1909, pl. 3), USGS.

Getmuna Creek: stream, heads in lake in Horn Mountains, flows NE 25 miles to Crooked Creek 4.3 miles NW of its junction with Kuskokwim River, 37 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 55' 10" N, 158° 11' 30" W; BGN 1948; (map 72). Variant: Salmon River. In 1945 this name was reported by USGS as a simplification of the native name "Getmun-na-yam-al' ia," which is said to mean "stream which flows in the opposite direction [to the Kuskokwim River]."

Getukti Cliff: cliff, W shore Pearse Canal, 5 miles NE of Edward Passage, Coast Mountains; 54° 53' 15" N, 130° 24' 30" W; BGN 1937; (map 2). Local name reported in 1955 by USGS.

Geysier Bight: bay, 3 miles across, on W central coast of Umnak Island, Aleutian Islands; 53° 15' 30" N, 168° 32' 30" W; BGN 1940; (map 22). Descriptive name given in 1938 by USC&GS "because of the geyser which was sighted at the head of the valley extending southeast from this bight."

Geysier Creek: stream, flows NW 5 miles to Geysier Bight, on W central Umnak Island, Aleutian Islands; 53° 15' N, 168° 30' W; (map 22). Name derived from Geysier Bight; published by Byers (1959, pl. 40), USGS.

Ghapawit, Mount: mountain, see Myghapowit Mountain.

Ghedotlothna: stream, see Tonzona River.

Gheena Point: point of land, 2 miles SW of Invut Mountain, 69 miles SE of Gambell, on S coast of Saint Lawrence island; 63° 10' N, 170° 02' W; BGN 1951; (map 93). Variant: Ghina Point, Gina Point. Eskimo name recommended by the Savoonga village council; reported in 1949 by Maj. Allen, USAF.

Ghina Point: point of land, see Cheena Point.

Ghost Creek: locality, see Gost Creek.

Ghost Rocks: rocks, in Sitkalidak Strait, 5 miles SW of Left Cape, on coast of Kodiak island; 57° 13' 00" N, 153° 03' 40" W; BGN 1930; (map 34). Descriptive name given in 1928 by USC&GS, "because of the [ghost-like] appearance of the pinnacles."

Ghrael: area, see Graehl.

Ghun River: stream, see Jewn River.

Giant Island: island, see Grant Island.

Giant Point: point of land, N tip of Mary Island, Alexander Archipelago; 55° 06' 50" N, 131° 12' 25" W (map 3). Variant: Winslow Point. Descriptive name given in 1883 by Lt. Comdr. H. E. Nichols, USN.

Gibbon Anchorage: anchorage, on NW coast of Green Island, in Prince William Sound, 24 miles E of Chenega, Chugach Mountains; 60° 17' N, 147° 25' W; (map 63). Name published in 1943 by USC&GS.

Gibbon Peak: peak, 1,750 ft., on N end of Latouche Island, 19 miles SE of Chenega, Chugach Mountains; 60° 03' 00" N, 147° 52' 20" W; (map 63). Name reported in 1909 by Grant and Higgins (1910, pl. 12), USGS.

Gibbs Rock: rock, in Fitzgibbon Cove along mainland, 1.4 miles E of Point Fitzgibbon, Coast Mountains; 55° 58' 40" N, 131° 10' 50" W; (map 3). Local name published in the 1925 Coast Pilot (p. 66).

Gibby Rock: rock, in Fritz Cove, 1.8 miles N of Outer Point, on W end of Douglas Island, 10 miles NW of Juneau, Coast Mountains; 58° 19' 40" N, 134° 41' 15" W; (map 11). Name published in 1962 by USGS.

Gibraltar Hill: hill, 2,087 ft., on N bank of Chitina River, 10 miles E of Bear Island, 35 miles SE of McCarthy, St. Elias Mountains; 61° 06' 25" N, 142° 06' 30" W; (map 67). Local name reported by Moffit (1918, pl. 2), USGS.

Gibraltar Lake: lake, 7 miles long, 5 miles S of Kakhonak Bay and 28 miles SE of Iliamna, Aleutian Range; 59° 21' N, 154° 41' W; (map 51). So named in 1923 by R. H. Sargent, USGS, because a rock on the south shore of this lake was shaped like the Rock of Gibraltar.

Gibralter Point: promontory, on right bank of Kuskokwim River, 30 miles E. of Aniak, Kilbuck-Kuskokwim Mountains; 61° 32' 15" N, 158° 36' 30" W; (map 72). Descriptive name given by W. S. Post and J. E. Spurr, USGS; shown on Post's 1898 fieldsheet.

Gibson Cove: cove, 0.3 miles long, 1.5 miles SW of Kodiak, Kodiak island; 57° 46' 45" N, 152° 26' 40" W; (map 34). Variant: Winter Anchorage, Winter Harbor, Zaliv Krestovskin. Name published in 1949 by USGS. This feature was called "Za[liv] Krestovskin," meaning "cross bay," by Sarichev (1826, map 16) and "Winter Harbor" by Lisianski (1814, p. 144).

Gibson Island: islands, see Gibson Islands.

Gibson Islands: islands, on NE coast of Attu Island, extend 0.3 miles in mouth of Chichagof Harbor, 1.2 miles NE of Attu, Aleutian Islands; 52° 56' 45" N, 173° 16' 15" E; (map 13). Variant: Gibson Island. Named in July 1855 by North Pacific Surveying Expedition for Lt. William Gibson, USN, commander of the schooner, Fenimore Cooper. Name shown as "Gibson Island" on an AMS map published in 1943 and in USC&GS 1944 Aleutian Coast Pilot.

Giddings, Mount: peak, 10,180 ft., 7 miles NW of Mount Hayes, 45 miles SW of Delta Junction, Alaska Range; 63° 40' N, 146° 55' W; BGN 1965; (map 86). Named by T. L. Pewe for James Lewis Giddings, 1909-64, dendrochronologist and Alaskan archeologist.

Gidra, Ostrov: island, see Hydra Island.

Giffin Glacier: glacier, trends N 10 miles to Holmes Creek, 8 miles S of Pingpong Mountain, 54 miles NE of McCarthy, St. Elias Mountains; 61° 36' 45" N, 141° 19' 15" W; (map 67). Variant: Holmes Glacier. Named by USGS in 1942 for C. E. Giffin, USGS topographer who did considerable work in Alaska; in 1914 he worked in the White River area.

Gig Pass: water passage, 1 mile long, enters Ogden Passage, 4.5 miles SW of Chichagof, off W coast Chichagof Island, Alexander Archipelago; 57° 37' N, 136° 11' W; BGN 1926; (map 9). Named in 1925 by a USC&GS field party, "for a small light boat [gig] that was used for landing."

Gilahina Butte: mountain, 2,783 ft., 7 miles NE of junction of Chitina and Tebay Rivers, 30 miles E of McCarthy, Copper River Basin; 61° 26' 30" N, 143° 49' 00" W; (map 67). Local name reported in 1908 by D. C. Witherspoon (in Moffit, 1914, pl. 1), USGS.

Gilahina River: stream, flows SW 21 miles to Chitina River, 4.5 miles S of Gilahina Butte, 29 miles W of McCarthy, Cooper River Basin; 61° 22' 20" N, 143° 46' 50" W; (map 67). Variant: Dare Creek, Dark Creek, Dora Creek, Gilhina River. Indian name taken from a prospector's map drawn in 1900; reported the same year by T. G. Gardine (in Brooks and others, 1908, pl. 3), USGS. It was probably this stream which Lt. H. T. Allen named "Dora Creek" in 1885, a name now applied to the next stream to the west.

Gilak: locality, "near Cape Romanzof on the Yukon-Kuskokwim Delta;" (map 75). Variant: Gilakhamiut. Former Eskimo camp or settlement listed in the 1890 Census as "Gilakhamiut," with a population of 22.

Gilakhamiut: locality, see Gilak.

Gilanta Rocks: rocks, extend 0.5 miles along E shore Revillagigedo Channel, Coast Mountains; 54° 51' 00" N, 130° 56' 30" W; BGN 1937; (map 2). Local name published in 1943 by USC&GS.

Gilbert Bay: bay, trends N 5 miles to Port Snettisham from mouth of Gilbert Creek, 33 miles SE of Juneau, Coast Mountains; 58° 00' N, 133° 44' W; BGN 1930; (map 8). Named in 1930 by USC&GS for Charles Henry Gilbert, 1859-1928, ichthyologist. As head of the Department of Zoology of Stanford University he rendered service to agencies in California and British

Columbia. It has been stated that “no one has contributed more to our scientific knowledge of the salmon fisheries of Alaska than Dr. Gilbert.”

Gilbert Creek: stream, heads about 0.5 miles N of head of Williams Cove in Holkham Bay flows N 2.5 miles to Gilbert Bay, 38 miles SE of Juneau, Coast Mountains; 57° 55' 50" N, 133° 40' 45" W; (map 8). Local name reported in 1951 by USGS.

Gilbert Creek: stream, heads in lake, flows N 23 miles to Kosina Creek, 5.5 miles S of its junction with Susitna River and 20 miles W of junction of Osheta River, Talkeetna Mountains; 62° 42' 20" N, 147° 58' 20" W; (map 82). Local name reported in 1951 by USGS.

Gilbert Inlet: cove, at head of Lituya Bay, Glacier Bay National Monument, at terminus of Lituya Glacier, 83 miles NW of Hoonah, St. Elias Mountains; 58° 40' N, 137° 30' W; (map 10). Name reported by Mertie (in P. S. Smith and others, 1933, map p. 118), USGS.

Gilbert Island: island, 6.4 miles long, in Glacier Bay, Glacier Bay National Monument, N of Hugh Miller Inlet, 63 miles NW of Hoonah, St. Elias Mountains; 58° 48' 30" N, 136° 34' 00" W; BGN 1937; (map 10). Named by Field and Cooper (1937, p. 62) for Grove Karl Gilbert, 1843-1918, geologist with USGS, who visited Glacier Bay in 1899. Grover Gilbert was born in New York and joined the Geological Survey of Ohio in 1869, and the USGS in 1879. His numerous publications dealt with a large variety of geological subjects. The first monograph published by USGS in 1890 was his paper on Lake Bonneville.

Gilbert Lake: lake, 1.3 miles long, in Coast Mountains, N of Walker Cove, in course of Choca Creek; 55° 47' N, 130° 50' W; BGN 1930; (map 3). Named in 1930 by USC&GS for Charles H. Gilbert, ichthyologist, who made valuable contributions to the scientific knowledge of the salmon fisheries of Alaska.

Gilbert Lake: lake, 1.4 miles long, 2 miles N of Tivehvnun Lake and 21 miles NW of Fort Yukon, Yukon Flats; 66° 52' N, 145° 23' W; (map 119). Local name obtained in 1956 by USGS.

Gilbert Lake: lake, see Lower Sweetheart Lake.

Gilbert Lewis, Mount: mountain, 12,200 ft., at NE end of Dora Keen Range, 37 miles NW of Valdez, Chugach Mountains; 61° 27' N, 147° 09' W; (map 69). Named about 1957 by members of the Chugach Mountains Expedition sponsored by the Arctic Institute of North America (Nielsen, 1963, p. 135). Named for Gilbert Newton Lewis, 1875-1946, American chemist and educator.

Gilbert Point: peak, 3,304 ft., 3.2 miles NW of Mount Alexander and 29 miles NE of Yakutat St. Elias Mountains; 59° 57' 15" N, 139° 28' 55" W, (map 46). Named in 1905 by Tarr (1906, p. 155) USGS, for Grove Karl Gilbert, 1843-1918, Chief Geologist of the USGS from 1889-92.

Gilbert Reef: rock, see Westdahl Rock.

Gilbert Ridge: ridge, elev. 1,500-1,700 ft., on E coast of Attu Island, extends NW 5.5 miles from Alexai Pass to Clevesy Pass. Aleutian Islands; 52° 51' 30" N, 173° 15' 00" E; (map 13). Named by U.S. Army during World War II; published in 1948 by AMS.

Gilbert Spit: spit, 0.8 miles long, NE end of Khantaak Island, S of Northeast Point and 5.2 miles N of Yakutat, Malaspina Coastal Plain; 59° 37' 30" N, 139° 43' 30" W; (map 46). Local name published in 1959 by USGS.

Gilbert, Lake: lake, 2 miles long, at head of Lansberg Creek, 5 miles N of Morzhovoi Bay, at SW end of Alaska Peninsula, Bristol Bay Lowland; 55° 08' N, 163° 14' W; (map 29). Name reported in 1926 by USC&GS.

Gilbert, Mount: mountain, 2,685 ft., on N end of Akun Island, Aleutian Islands; 54° 15' 10" N, 165° 39' 30" W; (map 24). Name published in 1947 Coast Pilot (p. 367). It is possible that this feature was named for John J. Gilbert, USC&GS, commander of Coast Survey steamer Pathfinder during 1900-01.

Gilbert, Mount: mountain, 9,630 ft., near head of Serpentine Glacier, 54 miles E of Anchorage, Chugach Mountains; 61° 10' 30" N, 148° 16' 30" W. BGN 1910; (map 69). Named in 1908 by U. S. Grant and O. F. Higgins for Grove Karl Gilbert, 1843-1918, USGS geologist.

Gilead Creek: stream, heads in Brooks Range, flows W 25 miles to Ivishak River 16 miles SE of its junction with Sagavanirktok River, Arctic Slope; 69° 18' N, 148° 09' W; (map 140). Named in 1951 by USGS geologists.

Giles Bay: bay, 1.5 miles across, on SW shore of Lake Minchumina, Tanana Lowland; 63° 51' 45" N, 152° 18' 00" W; (map 88). Local name obtained in 1958 from Fabian Carey and "Val" Blackburn by USGS.

Giles Lake: lake, 0.5 miles long, drains WNW to Slow Fork Kuskokwim River, 50 miles W of Mount McKinley, Kuskokwim Lowland; 63° 07' 20" N, 152° 35' 10" W; (map 88). Name obtained locally in 1962 from Fabian Carey and "Val" Blackburn by USGS.

Gilkey Glacier: glacier, heads at 58° 53' 30" N, 134° 20' 15" W, trends S then W 20 miles to its 1948 terminus, 5 miles E of Lance River and 32 miles NW of Juneau, Coast Mountains; 58° 56' N, 134° 47' W; BGN 1957; (map 11). Named by the American Alpine Club in 1954 for Dr. Arthur Karr Gilkey, 1926-53, geologist, who as leader of a party of three in 1950, led the first climb to the upper part of this glacier. In 1952 he was in charge of the Juneau Icefield Research Project. He was killed in 1953 by an ice avalanche at the 25,000-foot level of K-2 Mountain in Pakistan, while climbing that mountain with the American Alpine Club. His body was never found.

Gillam Glacier: glacier, heads at 63° 40' N, 147° 17' W, trends NE 10 miles to head of East Fork Little Delta River, 60 miles E of Healy, Alaska Range; 63° 44' N, 147° 03' W; BGN 1959; (map 87). Named in 1958 by R. E. Isto, USGS, for Harold Gillam, "local bush pilot."

Gillam Lake: lake, 0.7 miles long, in Mentasta Mountains, 3 miles NE of Devils Mountain, Alaska Range; 62° 26' 30" N, 142° 49' 00" W; (map 84). Local name reported in 1960 by USGS.

Gillemot Island: island, see Guillemot Island.

Gilles Creek: stream, flows SE 13 miles to Shaw Creek, 17 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 21' 15" N, 145° 32' 30" W; (map 101). Local name reported in 1908 by J. W. Bagley, USGS.

Gillespie Creek: stream, heads at lake, flows SE 6.5 miles to Spring Creek, 17 miles S of Paxson, Copper River Basin; 62° 47' 20" N, 145° 26' 00" W; (map 83). Local name reported in 1949 by USGS.

Gillett Pass: pass, 3,800 ft., at head of Dry Tok Creek, 5 miles SW of Tok Glacier terminus and 40 miles E of Paxson, Alaska Range; 63° 04' 30" N, 144° 14' 30" W; (map 86). Named in 1899 for Edward Gillett, civil engineer with Capt. W. R. Abercrombie, USA.

Gillette Creek: stream, flows SE 2.3 miles to Little Garfield Creek which flows to Noxapaga River, 32 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 29' N, 164° 21' W; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Gilliland Creek: stream, flows SE 3 miles to Wade Creek, 45 miles SW of Eagle, Yukon-Tanana Highlands; 64° 10' N, 141° 25' W; (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Gillman Creek: stream, flows NE 2.5 miles to Trout Creek, 26 miles NW of Eagle, Yukon-Tanana Highlands; 65° 02' 30" N, 141° 41' 00" W; (map 103). Prospectors' name from an unpublished map by E. J. Chamberlain, dated 1902.

Gillmore Islands: islands, 0.2 miles across, in Galankin Islands, 1.5 miles S of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 02' 00" N, 135° 19' 20" W; (map 9). Variant: Gilmore Islands. Named in 1880 by Capt. L. A. Beardslee, USN, for a "Mr. Gilmore," USN; published by USC&GS in the 1883 Coast Pilot (p. 143).

Gillon Point: point of land, W tip of Agattu Island, Aleutian Islands; 52° 24' 15" N, 173° 21' 50" E; BGN 1938; (map 13). Variant: Cape Harrell, West Cape. Named for Lt. Comdr. John F. Gillon, USN, a naval aviator on duty during the time aerial surveys were being conducted in the Aleutian Islands. Lt. Comdr. Gillon was killed in an airplane crash at sea during naval maneuvers in 1937. He was attached to the Division of Air Navigation, U.S. Navy Hydrog. Office, which proposed his name to BGN in 1938. Shown as "West Cape" on a map by L. M. Turner in the 1880's; published in 1944 Aleutian Coast Pilot (p. 135) as "Gillon Point (Cape Harrell)."

Gilman Glacier: glacier, in Glacier Bay National Monument, trends NW 3 miles to 1961 terminus on Johns Hopkins Inlet, 3 miles NE of terminus of Johns Hopkins Glacier, 78 miles NW of Hoonah, St. Elias Mountains; 58° 51' 25" N, 137° 04' 15" W; BGN 1937; (map 10). Named by Field and Cooper (1937, p. 62) for Daniel Coit Gilman, 1831-1908, educator. He

was president of the Univ. of California, 1872-75, first president of Johns Hopkins University, 1876-1901, and president of the Carnegie Institution of Washington, 1902-04.

Gilmer Bay: bay, 1 mile across, 3 miles long, on W coast of Kruzof Island, 22 miles NW of Sitka, Alexander Archipelago; 57° 13' N, 135° 50' W; (map 9). Named in 1899 by USC&GS; published on Chart 8050.

Gilmer Cove: cove, 0.1 miles across, on NE coast of Partofshikof Island, off NW coast of Baranof Island, 20 miles NW of Sitka, Alexander Archipelago; 57° 18' 05" N, 135° 38' 10" W; (map 9). Named in 1896 by Lt. Comdr. E. K. Moore, USN, for Ens. W. W. Gilmer, USN, a member of his party.

Gilmore Creek: stream, flows SW 4 miles to join Pedro Creek to form Goldstream Creek, 10 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 59' N, 147° 33' W; (map 100). Named for Tom Gilmore, Felix Pedro's partner, who arrived in the region in 1901. The name was reported in 1903 by T. G. Gerdine (in Prindle, 1905, pl. 16), USGS.

Gilmore Dome: mountain, 2,350 ft., 14 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 58' 50" N, 147° 21' 50" W; (map 100). Name derived from Gilmore Creek, which heads on the western slope of the mountain; published on recent maps.

Gilmore Islands: islands, see Gillmore Islands.

Gilmore: locality, on right bank of Pedro Creek, 11 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 59' 28" N, 147° 32' 15" W; (map 100). Variant: Gilmore City. This mining camp was named for Tom Gilmore, Felix Pedro's partner, and was first shown on a manuscript map by C. W. Joint in 1905. The camp is now abandoned.

Gilmour Point: point of land, on NW coast of Montague Island, at NE end of Montague Strait, 30 miles E of Chenega, Chugach Mountains; 60° 15' 20" N, 147° 13' 30" W; (map 63). Name shown on a 1787 sketch map by Capt. Portlock (1789, sketch facing p. 215). See Wagner (1937, p. 458).

Gilpatrick Mountain: mountain, 4,824 ft., on Kenai Peninsula, between Devils and Summit Creeks, 22 miles S of Hope, Chugach Mountains; 60° 36' 00" N, 149° 37' 30" W; (map 63). Local name published in 1909 by USGS (Brooks and others, 1910, pl. 4).

Gilpatricks: locality, on Kenai Peninsula, on Seward Highway, 22 miles S of Sunrise, Chugach Mountains; 60° 36' 00" N, 149° 32' 25" W; (map 63). Local name reported by B. L. Johnson (in Martin and others, 1915, pl. 2), USGS. Gilpatricks was originally a small mining camp in the Moose Pass district named for John C. Gilpatrick who discovered gold on Summit Creek in 1896.

Gilroy Creek: stream, flows SE 3 miles to Wild River, 3 miles SE of Gilroy Mountain and 39 miles SW of Wiseman, Brooks Range; 67° 12' N, 151° 27' W; BGN 1932; (map 124). Local name said to have been in use since 1914; reported by Robert Marshall in 1932.

Gilroy Mountain: mountain, 4,468 ft., on W bank of Wild River, N of Death Valley and 39 miles W of Wiseman, Brooks Range; 67° 14' 30" N, 151° 30' 00" W; (map 124). Local name derived from Gilroy Creek obtained in 1956 by USGS topographers.

Gilson Bar: bar, in Cache Creek opposite mouth of Dollar Creek, 31 miles NW of Talkeetna, Alaska Range; 62° 27' 10" N, 151° 02' 00" W; (map 81) Prospectors' name reported in the 1930's by USGS.

Gimlet Creek: stream, flows S 3 miles to Wade Creek, 50 miles SW of Eagle, Yukon-Tanana Highlands; 64° 07' N, 141° 32' W; (map 102). Variant: Bailey Creek. Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Gin Brook: stream, see Lick Creek.

Gina Point: point of land, see Gheena Point.

Gines Creek: stream, heads at terminus of Martin Glacier, flows S 7 miles to Alsek River, 3.6 miles NE of Dry Bay and 49 miles SE of Yakutat, St. Elias Mountains; 59° 11' 40" N, 138° 30' 55" W; BGN 1962; (map 46). Variant: Hines River. Apparently a native name reported by Capt. Tebenkov (1852, map 7), IRN, as "R[eka] Gines" or "Gines River." It was called "Hines Creek" by Baker (1906, p. 307).

Gines Creek: stream, see Williams Creek.

Gines River: stream, see Cannery Creek.

Ginger Creek: stream, flows NW 5.5 miles to Bering Sea, 1.5 miles SW of Aguliak Point, on N coast of Umnak Island, Aleutian Islands; 53° 27' 15" N, 168° 21' 00" W; (map 22). Name published by Byers (1959, pl. 41) USGS.

Ginger Creek: stream, flows S 1.6 miles to Alder Creek, 21 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 04' 45" N, 147° 12' 15" W; (map 105). Named by prospectors; published in 1908 by USGS.

Ginger Creek: stream, see Fork Creek.

Giniak Island: island, see Chiniak Island.

Ginny Creek: stream, flows NE 2 miles to Copper River, 55 miles NW of Katalla, Chugach Mountains; 60° 58' N, 144° 47' W; (map 64). Name published in 1950 by USGS.

Giraffe Creek: stream, see Coke Creek.

Girdled Glacier: glacier, in Glacier Bay National Monument, heads 0.2 miles SE of Berg Mountain and trends W 2.8 miles to head of unnamed stream, 2.6 miles N of Adams Inlet and 66 miles NW of Juneau, St. Elias Mountains; 58° 56' 36" N, 134° 46' 15" W; (map 11). Descriptive name given in 1890 by H. F. Reid (1892, p. 28) because the glacier was surrounded by moraines.

Girdwood Cabins: locality, on Crow Creek, 5.5 miles NE of village of Girdwood and 30 miles SE of Anchorage, Chugach Mountains; BGN 1932; (map 69). Variant: Girdwood Mine Cabins. Former mining camp established about 1898. See Girdwood.

Girdwood Mine Cabins: locality, see Girdwood Cabins.

Girdwood: village, pop. 63, on Seward Highway and The Alaska Railroad, on NE shore of Turnagain Arm, 11 miles NE of Sunrise and 35 miles SE of Anchorage, Chugach Mountains; 60° 56' 30" N, 149° 10' 00" W; (map 63). Variant: Girwood. Named for James E. Girdwood, a miner, who came to the area in 1896 (DeArmond, 1962, p. 40-41). The Girdwood post office was established in 1907 (Ricks, 1965, p. 23).

Girl Creek: stream, flows NE 10 miles to Holokuk River, 22 miles SE of Little Mountain Village and 48 miles SW of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 16' N, 158° 18' W; BGN 1948; (map 72). Variant: Nazowlakdalak. Local name, translation of Eskimo word "Nazowlakdalak," reported in 1945 by USGS.

Girls Mountain: mountain, 6,134 ft., 2.4 miles NW of terminus of Worthington Glacier, 17 miles NE of Valdez, Chugach Mountains; 61° 00' 50" N, 145° 46' 25" W; (map 68). Named about 1962 by Austin S. Post, USGS; suggested by the International Geophysical Year Bench Mark "Station Girls, 1957" located at the mountain's summit.

Giroux Bluff: bluff, on right bank of Tanana River, 0.5 miles SE of Baker and 57 miles NE of Bitzshtini Mountains, Nowitna Lowland; 64° 57' N, 150° 26' W; (map 99). Riverboat pilots' name published on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" by the U.S. Dept. of Interior.

Girwood: locality, on NW coast of Latouche Island, 18 miles SE of Chenega, Chugach Mountains; 60° 03' 28" N, 147° 53' 35" W; (map 63). Mining camp reported in 1943 by USC&GS, now abandoned.

Girwood: village, see Girdwood.

Gisamaluk Mountain: hill, see Kisimilok Mountain.

Gisasa River: stream, flows NE 70 miles to Koyukuk River, 38 miles SW of Roundabout Mountain, Koyukuk Lowland; 65° 16' N, 157° 40' W; (map 108). Variant: Gissakakat, Gissassakakat, Kalyalyakhtna. Koyukan Indian name published by Lt. Allen (1887, p. 106), USA, as "Gissassakakat" and "Fissakakat" (map), meaning "mouth of the Gisasa." Lt. L. A. Zagoskin, IRN, reported the Indian name as "R[eka] Kalyalyakhtna" in 1842-44.

Gish Bay: bay, 0.7 miles wide, E of Aats Bay, N coast of Coronation Island, Alexander Archipelago; 55° 54' 40" N, 134° 11' 45" W; BGN 1924; (map 4). Tlingit Indian word meaning "kelp" given in 1924 by USC&GS "because this bay is foul with kelp."

Gish River: stream, see Gishna Creek.

Gishna Creek: stream, heads in Ray Mountains, flows SW 15 miles to Tozitna River, 33 miles NE of Tanana, Kokrines-Hodzana Highlands; 65° 33' 15" N, 151° 23' 00" W; (map 106). Variant: Gish River. Indian name, "Gish River," obtained in 1956 at Tanana by Orth.

Gissakakat: stream, see Gisasa River.

Gissassakakat: stream, see Gisasa River.

Githgidunka Creek: stream, heads in Sushgitit Hills and flows NNE 11 miles to Hoyadazzithethno Creek W of that stream's junction with Mentanontli River, 35 miles ENE of Hughes, Kokrines-Hodzana Highlands; 66° 09' N, 153° 06' W; (map 116). A broad rendering of an Indian name generally meaning "fished with a hook"; reported in 1956 by Orth.

Gla-huts: island, see Kochu Island.

Glacial Fan Creek: stream, heads on Gunsight Mountain, flows SE 3 miles to East Fork Matanuska River, 56 miles NE of Palmer, Copper River Basin; 61° 48' 10" N, 147° 27' 05" W; BGN 1962; (map 69). Variant: East End Creek, Ivy Wash. Local descriptive name obtained in 1960 by USGS.

Glacial Lake: lake, 3.7 miles long, trends N-S, 25 miles NW of Nome, Seward Peninsula Highlands; 64° 52' N, 165° 42' W; (map 94). Local name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Glacial River: stream, heads at terminus of a glacier, flows N 9 miles to South Arm Kelp Bay, on NE coast of Baranof Island, Alexander Archipelago; 57° 15' 40" N, 134° 59' 40" W; (map 9). Descriptive name published in 1910 by USC&GS on Chart 8250.

Glacier Basin: basin, 1 mile long, along upper course of Glacier Creek, 13.5 miles E of Wrangell, Coast Mountains; 56° 28' 30" N, 132° 01' 00" W; (map 6). Local name published by F. E. Wright and C. W. Wright (1908, fig. 22), USGS.

Glacier Basin: valley, somewhere along Sheep Creek about 5 miles SE of Juneau, Coast Mountains; 58° 16' N, 134° 19' W; (map 11). Miners' name reported by R. N. DeArmond (1957, p. 37).

Glacier Bay National Monument: national monument, 3,600 sq. miles in the area around Glacier Bay, 40 miles NW of Juneau, St. Elias Mountains; 58° 45' N, 136° 30' W; (map 11). Named for Glacier Bay. The monument was established by an act of Congress in 1925.

Glacier Bay: estuary, in Glacier Bay National Monument, trends N-S 40 miles to Icy Strait, 18 miles W of Juneau, St. Elias Mountains; 58° 22' N, 136° 00' W; BGN 1937; (map 11). Descriptive name given in 1880 by Capt. L. A. Beardslee, USN, and published by USC&GS in the 1883 Coast Pilot (p. 188). This estuary was first entered by Lt. C. E. S. Wood in 1877 and was explored by John Muir in 1879.

Glacier Bay: estuary, see Columbia Bay.

Glacier Canyon Creek: stream, heads in Kigluaik Mountains and flows NW 4 miles to Imuruk Basin, 25 miles SE of Teller, Seward Peninsula Highlands; 65° 04' N, 165° 39' W; (map 111). Variant: Glacier Canyon. Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Glacier Canyon: stream, see Glacier Canyon Creek.

Glacier City: locality, see Glacier.

Glacier Creek: stream, 1.6 miles long, flows E and S to Speel River 0.4 miles N of Star Point, 58° 08' 25" N, 133° 43' 30" W; (map 12). Local descriptive name reported in 1951 by USGS.

Glacier Creek: stream, flows N 12 miles to Sulatna River, 18 miles SE of long, Kilbuck-Kuskokwim Mountains; 64° 09' 10" N, 155° 20' 30" W; BGN 1936; (map 98). Prospectors' name reported in 1921 by USGS.

Glacier Creek: stream, flows N 5 miles to Wood River, 57 miles S of Fairbanks, Alaska Range; 64° 03' N, 147° 36' W; (map 100). Local name shown on recent maps.

Glacier Creek: stream, flows N 6 miles to Julius Creek, 8 miles S of Nenana, Tanana Lowland; 64° 26' 40" N, 149° 06' 30" W; (map 100). Variant: Clear Creek. Local name shown on railroad manuscript map dated 1917.

Glacier Creek: stream, flows NE 13.4 miles to Kiwalik River, 38 miles NW of Haycock, Seward Peninsula Highlands; 65° 40' N, 161° 52' W, (map 109). Local name shown on a 1903 fieldsheet by D. C. Witherspoon, USGS.

Glacier Creek: stream, flows NE 6 miles to Windy Cove in Imuruk Basin, 23 miles SE of Teller, Seward Peninsula Highlands; 65° 03' N, 165° 44' W; (map 111). Local name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Glacier Creek: stream, flows NE 8 miles to South Fork Chena River 42 miles NW of Big Delta, Yukon-Tanana Highlands; 64° 42' N, 146° 24' W; (map 101) Named by prospectors and reported in 1903 by T. G. Gerdine (in Prindle, 1913a, pl. 16), USGS.

Glacier Creek: stream, flows NNW 4.5 miles to Hot Springs Creek, 33 miles W of Birches, Kokrines-Hodzana Highlands; 65° 07' 45" N, 154° 42' 20" W; (map 107). Local name obtained in 1952 by USGS topographers.

Glacier Creek: stream, flows NW 12 miles to Horsefly Creek 3 miles NE of its junction with Iditarod River, 33 miles N of Flat, Innoko Lowland; 62° 55' 20" N, 157° 52' 50" W; (map 79). Local name obtained in 1945 by USGS topographers.

Glacier Creek: stream, flows NW 3 miles to Big Creek, 2 miles SE of Ruby, Kilbuck-Kuskokwim Mountains; 64° 42' 45" N, 155° 29' 20" W; BGN 1936; (map 98). Prospectors' name reported in 1933 by Mertie (1936, pl. 2), USGS.

Glacier Creek: stream, flows NW 4.2 miles to Norton Sound, 2.2 miles SW of Cascade Creek and 10 miles S of Unalakleet, Nulato Hills; 63° 43' 10" N, 160° 49' 20" W; (map 91). Local

name reported in 1952 by USC&GS; so called “because in winter the ravine fills with snow and looks like a glacier from offshore.”

Glacier Creek: stream, flows NW 5.9 miles from glacier terminus to Chitistone River, 5 miles E of junction of Chitistone and Nizina Rivers, 17 miles E of McCarthy, Wrangell Mountains; 61° 27' N, 142° 25' W; (map 67). Local name reported in 1907 by D. C. Witherspoon, USGS.

Glacier Creek: stream, flows S 2.3 miles to Willow Creek, 18 miles N of Fairbanks, Yukon-Tanana Highlands; 65° 06' 30" N, 147° 44' 10" W; (map 105). Local name published by USGS in the 1950's.

Glacier Creek: stream, flows S 7 miles to Happy River, 3 miles SE of Rainy Pass Lodge and 84 miles SW of Talkeetna, Alaska Range; 62° 04' 00" N, 152° 39' 20" W; (map 81). Local name reported in 1945 by USGS.

Glacier Creek: stream, flows S 9 miles to Goodpaster River, 3.5 miles N of Shawnee Peak and 42 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 29' N, 144° 42' W; (map 101). Local name reported in 1958 by USGS.

Glacier Creek: Stream, flows S W 2.2 miles to Windy Creek which flows to Kougarok River, 50 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 28' N, 164° 50' W; (map 110). Prospectors' name reported on the 1908 “Map of Seward Peninsula” by Arthur Gibson.

Glacier Creek: stream, flows SE 1.5 miles to Chatanika River, 18 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 06' 20" N, 147° 35' 30" W; (map 105). Named by prospectors; published in 1908 by USGS.

Glacier Creek: stream, flows SE 1.5 miles to Reed Creek, 16 miles NW of Palmer, Talkeetna Mountains; 61° 49' 25" N, 149° 11' 05" W; (map 69). Local name reported in 1950 by USGS.

Glacier Creek: stream, flows SE 14 miles from Glacier Lake to South Fork Koyukuk River, in South Fork Flats, 26 miles SW of Chandalar, Brooks Range; 67° 20' N, 149° 24' W; (map 123). Prospectors' name obtained in 1901 by Schrader (1904, pl. 3), USGS.

Glacier Creek: stream, flows SE 2 miles to Kogoluktak River, 12 miles NE of Shungnak, Brooks Range; 66° 58' N, 156° 45' W; (map 115). Prospectors' name reported by USGS after 1940.

Glacier Creek: stream, flows SE 5.7 miles to Fish River, 11 miles E of Council and 40 miles NE of Solomon, Seward Peninsula Highlands; 64° 52' N, 163° 18' W; (map 95). Prospectors' name published on the 1908 “Map of Seward Peninsula” by Arthur Gibson.

Glacier Creek: stream, flows SE 6.5 miles to Victoria Creek, 75 miles W of Circle, Yukon-Tanana Highlands; 65° 48' 45" N, 146° 39' 10" W; (map 104). Named by prospectors; published in 1907 by USGS.

Glacier Creek: stream, flows SW 10 miles to Turnagain Arm near Girwood, 10 miles NE of sunrise, Chugach Mountains; 60° 56' 15" N, 149° 10' 15" W; (map 63). Local name reported in 1898 by Mendenhall (1900, p. 318), USGS.

Glacier Creek: stream, flows SW 2 miles to Bering Sea, on W coast of Great Sitkin Island, Aleutian Islands; 52° 01' 18" N, 176° 10' 48" W; (map 17). Local name published in 1951 on a USGS map.

Glacier Creek: stream, flows W 3.3 miles to lake 2.5 miles E of Middle Fork Chandalar River and 27 miles ENE of Chandalar, Brooks Range; 67° 36' N, 147° 32' W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Glacier Creek: stream, heads at a glacier, flows N 8.5 miles to Matanuska River, 44 miles NE of Palmer, Chugach Mountains; 61° 47' 30" N, 147° 50' 00" W; (map 69). Local name reported in 1952 by USGS.

Glacier Creek: stream, heads in a glacier, flows E 1 mile to Mineral Creek at Smith Mill, 7.2 miles NNW of Valdez, Chugach Mountains; 61° 13' 00" N, 146° 19' 10" W; (map 68). Local name published in the 1950's by USGS.

Glacier Creek: stream, heads in a lake, flows W 3.5 miles to Tonsina River, 4 miles E of terminus of Tonsina Glacier and 28 miles NE of Valdez, Chugach Mountains; 61° 20' 05" N, 145° 32' 45" W; (map 68). Local name published in the 1950's by USGS.

Glacier Creek: stream, heads in Saksaiia Glacier, flows NE 5 miles to Klehini River, 2.4 miles W of Porcupine and 35 miles W of Skagway, St. Elias Mountains; 59° 25' 45" N, 136° 18' 00" W; (map 45) Local name published in 1900 by USC&GS.

Glacier Creek: stream, heads in Takhakdona Hills, flows N 11 miles to Koyukuk River, S of Florence Islands and 17 miles N of Hochandochtla Mountain, Kokrines-Hodzana Highlands; 65° 46' 45" N, 154° 54' 00" W; (map 107). Name reported in 1956 by Orth as a general translation of a Koyukan Indian name.

Glacier Creek: stream, heads on E side of Mount Brynteson, flows SW 6 miles to Snake River, 6 miles NW of Nome, Seward Peninsula Highlands; 64° 36' N, 165° 28' W; (map 94). Prospectors' name reported in 1899 by D. C. Witherspoon (in Schrader and Brooks, 1900, map 2), USGS.

Glacier Creek: stream, heads on Haystack Butte, flows N 12 miles to Iditarod River, 3.5 miles S of Swinging Dome and 14 miles SW of Flat, Kilbuck-Kuskokwim Mountains; 62° 17' 10" N, 158° 14' 30" W; BGN 1948; (map 79). Local name obtained in 1945 by USGS.

Glacier Creek: stream, heads on Marsha Peak, flows W 7.8 miles to Virginia Lake, 9 miles E of Wrangell, Coast Mountains; 56° 28' 30" N, 132° 09' 15" W; (map 6). Local name recorded in 1955 by USGS.

Glacier Creek: stream, in Kantishna Hills, flows N 14 miles to Bearpaw River, Alaska Range; 63° 43' 20" N, 150° 58' 25" W; (map 88). Name shown on a 1905 manuscript map of "Kantishna Gold Fields" by A. Friedrich, prospector.

Glacier Creek: stream, in Mount McKinley National Park, flows N 9.5 miles along E side of Muldrow Glacier to Thorofare River, 30 miles NE of Mount McKinley, Alaska Range; 63° 24' 45" N, 150° 24' 45" W; (map 88). Local name reported in 1925 by S. R. Capps, USGS.

Glacier Creek: stream, in Nutzotin Mountains, heads at lake in Caribou Pass, flows NW 2.7 miles to Chavolda Creek 6.2 miles SE of its junction with Chisana River, Alaska Range; 62° 08' 05" N, 141° 55' 15" W; (map 84). Name published by S. R. Capps (in Brooks and others, 1915, pl. 9), USGS.

Glacier Creek: stream, on Kenai Peninsula, heads at Tustumena Glacier terminus, flows NE 4.5 miles to Tustumena Lake, 39 SE of Kenai, Chugach Mountains; 60° 06' N, 150° 37' W; (map 62). Local name reported in 1904 by Moffit (1906, pl. 2), USGS.

Glacier Creek: stream, see Cascade Creek.

Glacier Creek: stream, see Glacier River.

Glacier Fork Glacier Creek: stream, flows S W 2 miles to join the Middle Fork to form Glacier Creek, 8 miles N of Nome, Seward Peninsula Highlands; Prospectors' name published in 1900 by Schrader (1900c, p. 16), USGS. Subsequent maps show a different drainage pattern at the head of Glacier Creek.

Glacier Fork Knik River: stream, heads at Marcus Baker Glacier, flows W 15.4 miles to join Lake Fork to form Knik River 20 miles SE of Palmer, Chugach Mountains; 61° 25' 30" N, 148° 37' 30" W; (map 69). Local name reported in 1960 by USGS.

Glacier Fork Tlikakila River: stream, heads at glacier terminus, flows SE 7 miles to Tlikakila River, 3 miles SW of Summit Lake and 58 miles NW of Kenai Aleutian Range; 60° 45' 15" N. 152° 51' 30" W; (map 62). Local name reported in 1953 by USGS.

Glacier Gap Lake: lake, 1.5 miles long, near W end of Amphitheater Mountains, 24 miles W. of Paxson, Alaska Range; 63° 07' 15" N, 146° 15' 20" W; (map 86). So named in 1955 by Reuben Kachadoorian, USGS, because the lake lies in Glacier Gap.

Glacier Gap: pass, 3,950 ft., in Amphitheater Mountains: S of Sevenmile Lake and 25 miles NW of Paxson, Alaska Range; 63° 10' N, 146° 15' W; (map 86). So named in 1955 by T. L. Pewe, USGS, because a massive glacier once moved through this feature giving "its present topographic Expression. "

Glacier Grub Tower: peak, 4,784 ft., 3.2 miles E of Mount Stroller White and 14 miles NW of Juneau, Coast Mountains; 58° 28' 48" N, 134° 29' 30" W; (map 11). Local descriptive name reported in 1965 by D. A. Brew and A. B. Ford, USGS.

Glacier Gulch: ravine, extends SW 1.1 miles from a glacier to Crow Creek, 30 miles SE of Anchorage, Chugach Mountains; 61° 01' 15" N, 149° 05' 25" W, (map 69). Local name reported in 1942 by AMS.

Glacier Hill: hill, W of Alaska Highway, 2 miles NW of Island Lake and 28 miles SE of Northway Junction, Alaska Range; 62° 43' N, 141° 11' W; (map 84). Local name reported in 1955 by USGS.

Glacier Island: island, 8.5 miles across, in Prince William Sound, 48 miles NE of Whittier Chugach Mountains; 60° 53' N, 147° 11' W; (map 63). Variant: Isla del Conte. Reported in 1898 by Capt. Abercrombie (Glenn and Abercrombie, 1899, map), USA. "According to Salvador Fidalgo's account of his expedition this island [named Isla del Conte] was at the mouth of the bay which his launch party named "Revilla Gigedo" and was no doubt so named because Revilla Gigedo was a conte" (Wagner, 1937, p. 443).

Glacier King: peak, 6,500 ft., 3 miles W of Echo Mountain and 28 miles N of Juneau, Coast Mountains; 58° 42' 35" N, 134° 28' 10" W; BGN 1965; (map 11). Named in 1964 by members of the Juneau Icefield Research Project.

Glacier Lake: lake, 0.4 miles across, on central Baranof Island, 10 miles NE of Sitka, Alexander Archipelago; 57° 05' 40" N, 135° 04' 30" W; (map 9). Local descriptive name reported in 1951 by USGS.

Glacier Lake: lake, 0.6 miles wide, on Kenai Peninsula at terminus of Dinglestadt Glacier, 36 miles NE of Homer, Chugach Mountains; 59° 48' N, 150° 35' W; (map 50). Local name reported and published by USGS in 1950.

Glacier Lake: lake, 1 mile long, at head of Glacier Creek, 2.5 miles S of Bettles River and 28 miles W of Chandalar, Brooks Range; 67° 31' 30" N, 149° 33' 30" W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Glacier Mountain: mountain, 5,915 ft., 10 miles SE of North Peak, 21 miles W of Eagle, Yukon-Tanana Highlands; 64° 43' 45" N, 141° 50' 45" W (map 102). Variant: Comet Mountain. Prospectors' name obtained in 1898 by E. C. Barnard, USGS.

Glacier Pass: pass, 1 mile long, NW of Minnesota Ridge, between Muir and Burroughs Glaciers. 47 miles SW of Skagway, St. Elias Mountains; 59° 01' 10" N, 136° 17' 00" W; (map 45). Local name published in 1961 by USGS.

Glacier Pass: pass, 1,800 ft., between valleys of Wiseman Creek and Glacier River, SW of Pasco Pass and N of Bluecloud Mountain, 8 miles NW of Wiseman, Brooks Range; 67° 27' 30" N, 150° 22' 30" W; (map 124). Local name obtained in 1956 by USGS topographers.

Glacier Pass: pass, see McGonagall Pass.

Glacier Peak: peak, 4,310 ft., in Mount McKinley National Park, at head of Glacier Creek. 6 miles NE of Wonder Lake, Alaska Range; 63° 34' N, 150° 47' W; BGN 1932; (map 88). Local name shown on a 1916 fieldsheet by C. E. Giffin, USGS.

Glacier Point: point of land, at junction of Caribou Creek and Matanuska River, 50 miles NE of Palmer, Talkeetna Mountains; 61° 42' 00" N, 147° 39' 10" W; (map 69). Descriptive name given by W. C. Mendenhall in 1898 and reported in 1900 by him (map 16), USGS.

Glacier Point: point of land, extends S into Ruth Glacier, at mouth of The Great Gorge, 18 miles SE of Mount McKinley, Alaska Range; 62° 53' 15" N, 150° 35' 30" W; BGN 1963; (map 81). This grass-covered spur and well-known campsite was named by the Parker-Browne Expedition of 1910.

Glacier Point: point of land, on W bank of Portland Canal, 7.5 miles SW of Hyder, Coast Mountains; 55 049' 1 0" N, 1 30° 07' 00" W; (map 3). So named in 1907 by USC&GS "because of its proximity to Soule Glacier."

Glacier Point: point of land, on W shore of Chilkat Inlet, 1.4 miles NE of terminus of Davidson Glacier and 25 miles SW of Skagway St. Elias Mountains; 59° 06' 10" N, 135° 22' 45" W; (map 45). Variant: Lohtiano Point, Icy Point. Named in 1869 by Comdr. R. W. Meade USN, and published by USC&GS in the 1883 Coast Pilot (p. 196). Lindenberg called it Lehtiano or icy point in 1838 on Russian Hydrog. Dept. Chart 1396.

Glacier Pup: stream, flows S 0.7 miles to Chatanika River, 0.8 miles upstream from the mouth of Sourdough Creek and 48 miles NE of Fairbanks Yukon-Tanana Highlands; 65° 17' 30" N, 146° 27' 30" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Glacier River: stream, formed by junction of Chimney Fork and Roy Creek, flows SW 30 miles to North Fork Koyukuk River, 17 miles SW of Wiseman, Brooks Range; 67° 19' 30" N, 150° 42' 15" W; BGN 1932; (map 124). Variant: Glacier Creek, Seattle River. Named "Glacier Creek" by local prospectors; reported in 1929 by Robert Marshall.

Glacier River: stream, heads at terminus of Davidson Glacier, flows W 2 miles to Chilkat Inlet, 1.9 miles S of Glacier Point and 26 miles SW of Skagway, St. Elias Mountains; 59° 04' 30" N, 135° 22' 55" W; (map 45). Local name published in 1954 by USGS.

Glacier River: stream, heads at terminus of Sheridan Glacier, flows SW 10 miles to Gulf of Alaska, 10 miles SE of Cordova, Malaspina Coastal Plain; 60° 27' N, 145° 32' W; (map 64). So named in 1900 by USC&GS "because it heads at a glacier."

Glacier River: stream, heads at terminus of Twentymile Glacier, flows SW 6.5 miles to Twentymile River, 18 miles NE of Sunrise Chugach Mountains; 60° 53' 45" N, 148° 55' 25" W, (map 63). Variant: Placer River. Local name reported in 1898 by Capt. E. F. Glenn, USA.

Glacier River: stream, see Eagle River.

Glacier River: stream, see Mendenhall River.

Glacier River: stream, see Placer River.

Glacier Spit: spit, extends SW 1.3 miles from N shore of Chinitna Bay, Aleutian Range; 59° 51' 45" N, 153° 09' 00" W; BGN 1962; (map 51). Local name derived from Middle Glacier Creek; published in 1958 by USGS.

Glacier Spit: spit, on E shore of Kachemak Bay, on Kenai Peninsula, 12 miles E of Homer, Chugach Mountains; 59° 39' N, 151° 07' W; (map 50). Named by W. H. Dall, USC&GS, in 1880.

Glacier Spring: spring, 3 miles NE of junction of Your Creek and Middle Fork Chandalar River 31 miles NE of Chandalar Brooks Range, 67° 48' N, 147° 39' W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Glacier Valley: valley, see Makushin Valley.

Glacier: locality, in Kantishna Hills at junction of Glacier Creek and Bearpaw River, 20 miles SE of Chilchukabena Lake, Alaska Range; 63° 43' 40" N, 150° 58' 20" W; (map 88). Variant: Glacier City. Mining camp established and named in 1904 or 1905. It is now abandoned.

Glacier: locality, on Skagway River at E end of Warm Pass Valley, 1.4 miles NW of terminus of Laughton Glacier and 9 miles NE of Skagway, Coast Mountains; 59° 33' 05" N, 135° 07' 20" W; (map 45). Name of a former telegraph station on the White Pass and Yukon Railroad published in Polk's Gazetteer in 1916.

Gladhaugh Bay: cove, see Virgin Bay.

Gladhaugh Creek: stream, flows 1.5 miles W to Virgin Bay, 40 miles NW of Cordova, Chugach Mountains; 60° 54' N, 146° 42' W; (map 64). Local name reported in 1912 by S. R. Capps and B. L. Johnson (in Brooks and others, 1913, pl. 4), USGS. Named for M. O. Gladhaugh who, with C. Peterson, staked mining claims here in 1897.

Gladiator Basin: canyon, 5 miles long, 1.5 miles E of Kontrashibuna Lake and 35 miles NE of Nondalton, Aleutian Range, 60° 09' N, 153° 46' W; (map 61). Local name reported in 1954 by USGS.

Glagolm Island: island, 0.1 miles across, at mouth of Redoubt Bay, 9 miles SW of Sitka, on W coast of Baranof. Island, Alexander Archipelago; 56° 56' 15" N, 135° 25' 25" W; (map 5). Variant: Glagolm Islets, Ostrova Glagolm. Named in 1809 by the Russian navigator, Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN as "O[strov]a Glagolm," or "Glagolm Islands."

Glagolm Islets: island, see Glagolm Island.

Glagolm, Ostrova: island, see Glagolm Island.

Glaman Lake: lake, 1.7 miles wide, between village of Mansfield and Tanana River, 5.5 miles NW of Tanacross, Yukon-Tanana Highlands; 63° 26' N, 143° 29' W; (map 85). Local name reported in 1950 by USGS.

Gland Hill: hill, 220 ft., E of Vega Bay, Kiska Island, Aleutian Islands; 51° 55' 45" N, 177° 28' 00" E; (map 14). An arbitrary name beginning with "G" to correspond to "G" grid used by U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Glazenap, Cape: point of land, see Glazenap, Cape.

Glasenapp, Pointe: point of land, see Glazenap, Cape.

Glaser Lake: lake, 0.7 miles long, 4.6 miles W of junction of Maclaren River and its West Fork, and 31 miles S of Mt. Hayes, Alaska Range; 63° 10' 30" N, 146° 42' 20" W; (map 86). Name published on relatively recent maps.

Glasier Creek: stream, flows E 2.5 miles to Sam Patch Creek, 35 miles S of Eagle, Yukon-Tanana Highlands; 64° 20' N, 141° 02' W; (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Glass Creek: stream, flows E 6 miles to Caribou Creek, 21 miles NW of Tahneta Pass, Talkeetna Mountains; 62° 01' 27" N, 147° 53' 30" W; BGN 1960; (map 82). Named in 1956 by USGS "for the beds of volcanic glass found along its valley."

Glass Lake: lake, 0.2 miles across, 0.2 miles from N shore of Vega Bay, Kiska Island, Aleutian island; 51° 56' 00" N, 177° 23' 35" E; (map 14). An arbitrary name beginning with "G" to correspond to "G" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Glass Peninsula: peninsula, on Admiralty Island, extends SE 50 miles along W shore of Stephens Passage, 12 miles SSE of Juneau, Alexander Archipelago; 57° 35' N, 133° 50' W; (map 8). Named by USC&GS for Comdr. Henry Glass, 1844-1908, USN, Commander of the SS Wachusett, which made surveys in this area in 1881. Comdr. Glass rose to Rear Admiral and was Commandant of the Pacific Naval District at the time of his death.

Glass Point: point of land, at junction of Klehini and Chilkat Rivers, 0.4 miles S of Wells and 22 miles W of Skagway, St. Elias Mountains; 59° 24' 30" N, 135° 55' 35" W; (map 45). Named in 1880 by U.S. Navy for Comdr. Henry Glass, USN. See Glass Peninsula.

Glass, Point: point of land, on E coast of Glass Peninsula, on Admiralty Island, 3 miles SE of Washburn Peak and 38 miles SE of Juneau, Alexander Archipelago; 57° 48' 25" N, 133° 53' 55" W; (map 8). Name derived from Glass Peninsula; published in 1892 by USC&GS.

Glave Creek: stream, see Kelsall River.

Glazenap, Cape: point of land, at W entrance to Applegate Cove, on SW end of Alaska Peninsula, Bristol Bay Lowland; 55° 15' N, 163° 00' W; (map 29). Variant: Mys Glazenapa, Pointe Glasenapp, Cape Glazenap, Round Point. Named by Capt. Lutke (1836, p. 262), IRN, for Vladimir and Gotlieb Glazenap, two members of his party. This feature was described as "Round Point" by USBF in 1888.

Glazenapa, Mys: point of land, see Glazenap, Cape.

Gleason Creek: stream, in Kenai Mountains, flows W 1.5 miles to Bench Creek, 18 miles SE of Sunrise, Chugach Mountains; 60° 40' 00" N, 149° 13' 30" W; (map 63). Local name reported in 1951 by USGS.

Glen Allen: village, see Glennallen.

Glen Alps: area, pop. 10, in Anchorage metropolitan area, Cook Inlet Lowland; 61° 13' 00" N, 149° 53' 30" W; (map 69). Local name reported in 1966 (Rand McNally, 1966, p. 62).

Glen Creek: ravine, see Glen Gulch.

Glen Creek: stream, in Kantishna Hills, formed by its East and West Forks, flows S 12 miles to North Fork Moose Creek, 6 miles ENE of Wonder Lake, Alaska Range; 63° 31' 15" N, 150° 42' 15" W; (map 88). Name shown on a 1905 manuscript map of "Kantishna Gold Fields" by A. Friedrich, prospector.

Glen Creek: stream, see Glenn Creek.

Glen Gulch: ravine, trends E 2 miles to Flint Creek, 4.5 miles E of Long and 21 miles W of Monzonite Hills, Kilbuck-Kuskokwim Mountains; 64° 25' 00" N, 155° 20' 30" W; BGN 1936; (map 98). Variant: Glen Creek, Glenn Gulch. Prospectors' name reported in 1911 by A. G. Maddren (in Brooks and others, 1912, p. 204-296), USGS.

Glen Gulch: ravine, trends NW 0.7 miles to Gertrude Creek, 2 miles E of Livengood, Yukon-Tanana Highlands; 65° 32' 40" N, 148° 29' 30" W; (map 105). Local name published by USGS in the 1950's.

Glen Island: island, 3 miles long, southernmost of Kudiakof Islands, 11 miles NW of village of Cold Bay, off SW end of Alaska Peninsula, Bristol Bay Lowland; 55° 18' N, 162° 55' W; BGN 1966; (map 29). Variant: Operl Island. Named by USBF in 1888.

Glen: locality, see Eureka.

Glen: locality, site, 0.2 miles S of settlement of Eureka, 22 miles S of Rampart, Yukon-Tanana Highlands; 65° 10' 30" N, 150° 13' 00" W; (map 106). Mining camp and telegraph station established about 1903.

Glenn Creek: locality, on banks of Glenn Creek, 8 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 57' N, 147° 37' W; (map 100). This locality was a mining settlement on Glenn Creek in the early 1900's (Kitchener, 1954, p. 297).

Glenn Creek: stream, flows NE 7 miles to Yukon River 20 miles E of its junction with Charley River, Yukon-Tanana Highlands; 65° 18' N, 142° 05' W; (map 103). Variant: Colsandu Creek. Name used by prospectors; taken from an unpublished map by E. J. Chamberlain dated 1902. Lt. Schwatka (1885b, sheet 8), USA, used the Indian name "Colsandu."

Glenn Creek: stream, flows NW 1.5 miles to Goldstream Creek, 8 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 57' 15" N, 147° 37' 30" W; (map 100). Local name published in 1908 by USGS.

Glenn Creek: stream, flows S 3.2 miles to Eureka Creek, 2.4 miles S of Eureka and 25 miles S of Rampart, Yukon-Tanana Highlands; 65° 08' 45" N, 150° 14' 00" W; BGN 1964; (map 106). Variant: Glen Creek. This stream originally flowed into Rhode Island Creek, but was

diverted by mining operations. Name reported in 1904 by USGS (Prindle and Hess, 1906, pl. 3). Gold was discovered here in July 1901.

Glenn Gulch: ravine, extends 2.1 miles N off Spruce Creek, E of Joe Wise Creek and 9.8 miles SE of Marshall, Nulato Hills; 61° 47' N, 161° 54' W; (map 73). Prospectors' name reported in 1916 by Harrington (1918, map), USGS.

Glenn Gulch: ravine, see Glen Gulch.

Glenn Lake: lake, 0.3 miles long, W of Lake George Glacier, 8.5 miles S of Upper Lake George and 39 miles SE of Anchorage, Chugach Mountains; 61° 03' 05" N, 148° 46' 05" W; (map 69). Named in 1898 by John S. Bagg (in Glenn and Abercrombie, 1899, p. 290), USA, for Capt. Edwin Forbes Glenn, 1857-1926, USA.

Glenn, Mount: mountain, 9,806 ft., in Dora Keen Range, 40 miles NW of Valdez, Chugach Mountains, 61° 21' 30" N, 147° 22' 40" W; BGN 1930; (map 69). Named about 1911 by Lawrence Martin for Capt. Edwin Forbes Glenn, 1857-1926, USA, "who carried on explorations in College Fiord, 1898."

Glenn: locality, see Eureka.

Glennallen: village, pop. 169, on Glenn Highway, 2 miles W of junction of Glenn and Richardson Highways, Copper River Basin; 62° 07' N, 145° 33' W; BGN 1961; (map 83). Variant: Glen Allen, Glenallen, Glenn-Allen, Port Chilkoot. This name is derived from the combined last names of Capt. Edwin F. Glenn and Lt. Henry Tureman Allen, USA, both leaders in the early explorations of the Copper River region.

Glisen, Mount: peak, 6,200 ft. NE of Glacier Point, E of Ruth Glacier, Alaska Range; 62° 53' 55" N, 150° 30' 15" W; (map 81). Mountain climbers' name probably given by members of the 1945 Mazama expedition to the area (Metcalf, 1945, map facing p. 11).

Globe Creek: stream, flows E 7.5 miles to Stuart Creek 0.3 miles SE of that stream's junction with South Fork Chena River and 47 miles NNW of Big Delta, Yukon-Tanana Highlands; 64° 45' N, 146° 29' W; (map 101). Local name reported in 1958 by USGS.

Globe Creek: stream, flows SW 15 miles to Tatalina River, 20 miles S of Livengood, Yukon-Tanana Highlands; 65° 15' N, 148° 24' W; (map 105). Local name shown on a manuscript map of The Alaska Railroad dated 1923.

Globe Roadhouse: locality, at junction of Globe Creek and Livengood-Fairbanks Trail (now Elliott Highway), 20 miles SE of Livengood, Yukon-Tanana Highlands; 65° 17' N, 148° 09' W; (map 105) This former roadhouse was named for Globe Creek. The name was reported in 1915 by USGS (Brooks and others, 1916, pl. 9).

Glorious, Point: nunatak, 5,000 ft., E of Seward Glacier, at W end of Pinnacle Pass Hills, 49 miles NW of Yakutat, St. Elias Mountains; 60° 10' 20" N, 140° 23' 00" W; (map 66). Named in 1890 by Russell (1891, p. 137), USGS, because of the splendid view obtained from the point.

Glory Hole, The: locality, depression caused by former mining operations, 1 mile N of Gastineau Peak and 2 miles E of Juneau, Coast Mountains; 58° 18' 30" N, 134° 20' 00" W; (map 11). Named published in 1962 by USGS.

Glory Hole: locality, see Treadwell Glory Hole.

Glory Lake: lake, 2.4 miles long, 1.4 miles W of 1952 terminus of the Norris Glacier, 4 miles W of Taku Point and 11 miles NE of Juneau, Coast Mountains; 58° 23' 50" N, 134° 07' 15" W; (map 11). Name published in 1952 by USGS.

Glory Lake: lake, 4 miles long, at head of Farragut River, 1 mile N of Farragut Lake and 4.5 miles N of Maury Peak, 90 miles NE of Sitka, Coast Mountains; 57° 18' 30" N, 132° 58' 00" W; (map 8). Local name reported in 1961 by USGS.

Glory of Russia Bay: bay, see Tanaga Bay.

Glory of Russia Cape: promontory, extends NE into Bering Sea, at Sarichef Strait, on NW end of St. Matthew island; 60° 36' N, 172° 57' W; 372 (map 56). Variant: Mys Slava Rossie, Mys Slavy Rossii. This promontory appears to have been named "M[ys] Slavy [Slave] Rossii," "Cape Glory of Russia," by the Russian Hydrog. Dept. (Chart 1427) in 1849, for Lt. Sarichev's ship which was anchored off the coast here July 14, 1791 (O.S.).

Glory of Russia: locality, site of Russian penal colony near The Anka, on SE shore of Yukutat Bay, about 3 miles W of Yakutat, Malaspina Coastal Plain; 59° 33' N, 139° 48' W; (map 46). Variant: New Russia, Novarassi, Slavarassi, Slawa Rossii, Yakutat Colony, Yukutat Settlement. Site of stockaded Russian penal colony established in 1795. It has been referred to as "Yakutat colony or settlement," "New Russia," "Novarassi," "Slavarassi" and "Slawa Rossii." It presumably was named after Commodore Joseph Billings's ship, the Slava Rossia or "Glory of Russia." The history of the place is obscure, but it appears as if it was destroyed by Tlingit Indians about 1803. Remains of the settlement were seen by Island C. Russell in 1891.

Gloryhole Creek: stream, heads on Eska Mountain, flows S 2.7 miles to Eska Creek, 11.5 miles NE of Palmer, Cook Inlet Lowland; 61° 44' 45" N, 148° 55' 15" W; BGN 1946; (map 69). Local name reported about 1946 by USGS.

Glottof, Mount: mountain, 4,505 ft., highest point on Kodiak Island, 6 miles NW of head of Ugak Bay; 57° 33' 00" N, 153° 06' 45" W; BGN 1964; (map 34). Named in 1963 by the Kodiak and Aleutian Islands Historical Society, Inc., for Stephan Glotov, commander of the ship Andrean and Natalia, who in 1763 was the first white man to land on Kodiak Island.

Gloubokaia, Bukhta: bay, see Banner Bay.

Gloubokaia, Bukhta: bay, see Deep Bay.

Gloubokoi Lake: lake, see Redoubt Lake.

Glubokaia Bay: cove, see Partov Cove.

Glubokaia: estuary, see Deep Inlet.

Glubokaya, Guba: estuary, see Deep Inlet.

Glubokiy, Mys: point of land, see Deepwater Point.

Glubokoe Lake: lake, see Redoubt Lake.

Glubokoi Bay: bay, see Banner Bay.

Glubokoi Bay: bay, see Deep Bay.

Glubokoi: cove, see Partov Cove.

Glubokoi: lake, see Redoubt Lake.

Glubokoy, Zaliv: bay, see Deep Bay.

Glubokoye, Ozero: lake, see Redoubt Lake.

Gnat Cove: bay, 0.8 miles across, on E shore of Carroll Inlet, on Revillagigedo Island, Alexander Archipelago; 55° 23' 00" N, 131° 19' 40" W; (map 3). Arbitrary name given in 1891 by USC&GS.

Gnat Creek: stream, flows NW 20 miles to Hoholitna River, 20 miles W of Whitefish Lake and 70 miles NW of Nondalton, Lime Hills; 60° 56' 15" N, 155° 36' 00" W; (map 61). Local name reported by Capps (1935, pl. 2), USGS.

Goat Creek: stream, flows mostly NW 2 miles to Nugget Creek, 1 mile SE of Bullard Mountain and 9 miles NW of Juneau, Coast Mountains; 58° 25' 45" N, 134° 28' 30" W; (map 11). Name published in 1912 by USGS (Knopf, pl. 1).

Goat Creek: stream, flows N 8 miles to left bank of Stikine River, 5.5 miles downstream from the U.S.-Canada boundary, Coast Range; 56° 40' 15" N, 131° 58' 10" W; (map 7). Local name published by USGS in 1955.

Goat Creek: stream, flows NW 15 miles from, glacier terminus to Chitina River S of Gibraltar Hill, 37 miles SE of McCarthy, St. Elias Mountains; 61° 04' 30" N, 142° 07' 30" W; (map 67). Local name reported in 1915 by F. H. Moffit, USGS.

Goat Creek: stream, flows NW 7.6 miles to Knik River, 8 miles S of Palmer, Cook Inlet Lowland; 61° 29' 20" N, 149° 05' 40" W; (map 69). Local name reported in 1942 by AMS.

Goat Creek: stream, heads at Sheep Lake, flows N 9 miles to Tanada Lake, 12 miles W of Nabesna, Wrangell Mountains; 62° 23' N, 143° 22' W; BGN 1939; (map 84). Local name reported in 1939 by P. S. Smith, USGS.

Goat Creek: stream, heads in Rubin Glacier, flows SW 1 mile to Corbin Creek, 0.1 miles W of mouth of Cameron Creek and 6 miles E of Valdez, Chugach Mountains; 61° 06' 30" N, 146° 05' 00" W; (map 68). Local name published in the 1950's by USGS.

Goat Gully: ravine, extends N 0.6 miles to Cameron Creek, 1 mile W of terminus of Corbin Glacier and 5 miles E of Valdez, Chugach Mountains; 61° 05' 20" N, 146° 04' 30" W; (map 68). Local name published in the 1950's by USGS.

Goat Harbor: bay, 1 mile across, enters Puget Bay on SE coast of Kenai Peninsula, 34 miles SE of Seward, Chugach Mountains, 60° 00' N, 148° 29' W; BGN 1929; (map 49). So named by the 1928 USC&GS field party "because of the numerous wild goats found in this vicinity."

Goat Hill: hill, 200 ft., 0.6 miles NW of Bukhti Point, south-central Kiska Island, Aleutian Islands; 51° 55' 10" N, 177° 27' 52" E; (map 14). An arbitrary name beginning with "G" to correspond to "G" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Goat Hollow: valley, 1 mile long, on tributary of Chilkat River, 4.2 miles N of Wells and 22 miles W of Skagway, Coast Mountains; 59° 27' 50" N, 135° 59' 00" W; (map 45). Local name published in 1954 by USGS.

Goat Island: island, 4 miles long, between North and South Passes, NW of Sukkwan Island, Alexander Archipelago; 55° 12' N, 132° 55' W; BGN 1916; (map 4). Variant: Goats Island, Goat's Island. Named in 1916 by USC&GS.

Goat Lake: lake, 0.3 miles across, on N central Baranof Island, 15.5 miles NE of Sitka, Alexander Archipelago; 57° 13' 45" N, 135° 04' 20" W; (map 9). Local name reported in 1951 by USGS.

Goat Lake: lake, 1.2 miles long, 1.6 miles SW of Glacier and 7 miles NE of Skagway, Coast Mountains; 59° 31' 30" N, 135° 11' 00" W; (map 45). Local name published in 1951 by USGS.

Goat Lake: lake, see Big Goat Lake.

Goat Mountain: mountain, 4,370 ft., 3 miles S of Miles Lake, 30 miles N of Katalla, Chugach Mountains; 60° 37' N, 144° 39' W; (map 64). Named in 1910 by a survey crew working on the Copper River and Northwestern Railroad

Goat Mountain: mountain, 6,400 ft., at head of Eagle Glacier, 30 miles SE of Anchorage, Chugach Mountains; 61° 03' N, 149° 03' W; BGN 1932; (map 69) Local name reported in 1932 by W. G. Carson and C. F. Park, USGS.

Goat Mouth Inlet: bay, extends N 1.8 miles off Tlevak Strait, on S coast of Goat Island, Alexander Archipelago; 55° 10' 15" N, 132° 54' 30" W; (map 4) Local name published in 1965 by USC&GS.

Goat Ridge: ridge, 1.5 miles long, N of head of Charpentier Glacier, in Glacier Bay National Monument, 58 miles NW of Hoonah, St. Elias Mountains; 58° 41' N, 136° 37' W; (map 10). Local name reported in 1951 by USGS.

Goat Ridge: ridge, extends from Hole-in-the-Wall Glacier 7 miles NW to Taku Glacier, 3 Miles SW of Hodgkins Mountain and 22 miles NE of Juneau, Coast Mountains; 58° 30' N, 134° 03' W; (map 11) Local name published in 1960 by USGS.

Goats Island: island, see Goat Island.

Gobbler Creek: stream, see Gobler Creek.

Gobler Creek: stream, flows N 1 mile to Livingston Creek, 25 miles NW of Nome, Seward Peninsula Highlands; 64° 47' N, 166° 01' W; (map 94). Variant: Gobbler Creek. Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Goblet Creek: stream, flows NW 14 miles to Figure Eight Creek 3.5 miles E of its junction with Dog Salmon River, on Alaska Peninsula 24 miles SE of Ugashik, Aleutian Range; 57° 18' 50" N, 156° - 55' 15" W; (map 36). Descriptive name given in 1923 by R. H. Sargent, USGS, as "suggested by the goblet-like shape of Goblet and Figure Eight Creeks on a map."

Goblet Creek: stream, heads at 62° 43' N, 160° 29' W, flows N, W and S 20 miles to Anvik River, 12 miles W of Anvik and 44 miles NW of Holy Cross, Nulato Hills; 62° 43' N, 160° 34' W; (map 78). Variant: Long Portage Creek. Prospectors' name reported in 1916 by G. L. Harrington (in Brooks, 1918, pl. 16), USGS.

Goddard Island: island, see Fragrant Island.

Goddard: locality, on NE side of Hot Springs Bay, on W coast of Baranof Island, 15 miles S of Sitka, Alexander Archipelago; 56° 50' 05" N, 135° 22' 20" W; (map 5). Variant: Hot Springs, Klyuchi, Tseplitel Teplyye Klyuchi, Teplyya Tseplitel Yuchya Klyuchi, Sanitarium, Sitka Hot Springs. This is the site of a health resort locally named about 1924 for Dr. F. L. Goddard, a local businessman. It was probably established about 1800 by the Russians who called it "Teplyya Tseplitel Yuchya Klyuchi," meaning "sheltered curative hot springs" (Sarichev, 1826, map 19). They had a hospital here in 1841. In 1908 a post office named "Sanitarium" was established here, but the name was changed to Goddard in 1924; discontinued in 1944 (Ricks, 1965, p. 23, 56).

Godfrey Fork of Charley River: stream, see Copper Creek.

Godwin Glacier: glacier, on Kenai Peninsula, trends SW 6 miles to its terminus, 5.5 miles E of Seward, Chugach Mountains; 60° 06' 30" N, 149° 17' 00" W; BGN 1910; (map 63). Named in 1910 by U. S. Grant, USGS. The glacier derived its name from the stream that drains it, which was formerly named "Godwin River."

Godwin River: stream, see Fourth of July Creek.

Goff Creek: stream, flows SW 7 miles to Hutlinana Creek, 62 miles E of Tanana, Yukon-Tanana Highlands; 65° 12' N, 150° 00' W; (map 106). Prospectors' name reported in 1909 by USGS.

Gohn Creek: stream, flows NW 13.8 miles to Yukon River, 51 miles E of Nulato, Kilbuck-Kuskokwim Mountains; 64° 39' N, 156° 26' W; (map 97) Local name reported in 1954 by USGS.

Gokacheen River: stream, see Gokachin Creek.

Gokachin Creek: stream, on Revillagigedo Island, flows SW, through Gokachin Lakes, 8.5 miles to Thorne Arm, Alexander Archipelago; 55° 22' 05" N, 131° 11' 20" W; (map 3). Variant: Gokacheen River, Gokatchin Creek. Tlingit Indian name published as "Gokacheen River" by Brooks (1902b, p. 64), USGS.

Gokachin Lakes: lakes, on Revillagigedo Island, extend 4 miles in course of Gokachin Creek, 3 miles NE of Thorne Arm, Alexander Archipelago; 55° 24' 45" N, 131° 07' 40" W; (map 3). Variant: Gokatchin Lakes. Local name published by F. E. Wright and C. W. Wright (1908, fig. 12), USGS.

Gokatchin Creek: stream, see Gokachin Creek.

Gokatchin Lakes: lakes, see Gokachin Lakes.

Golconda Creek: stream, flows SW 7 miles to North Fork Bremner River, 4.5 miles NW of 1950 terminus of Bremner Glacier and 78 miles NE of Cordova, Chugach Mountains; 60° 58' N, 143° 04' W; (map 65). Local name published by F. H. Moffit (1920, pl. 5), USGS.

Golconde Creek: stream, flows S to Boulder Creek which flows to Snake River, about 24 miles NW of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Gold and Galligan Lagoon: water passage, 2 miles long, between Barnes and Sweetwater Lakes, NE coast of Prince of Wales Island, Alexander Archipelago; 55° 59' 20" N, 132° 58' 15" W; BGN 1915; (map 4). Name recorded in 1914 by E. L. Jones, USBF.

Gold Bar Creek: stream, flows N 3.7 miles to Liberty Creek, 18 miles SE of Chicken and 60 miles NE of Tok, Yukon-Tanana Highlands; 63° 53' 33" N, 141° 31' 10" W; (map 85). Local name reported in 1956 by USGS.

Gold Basin Creek: stream, flows SE 2.6 miles to Killarney Creek 0.4 miles N of that stream's junction with Baker Creek, 39 miles ESE of Tanana, Yukon-Tanana Highlands; 65° 06' 25" N, 150° 43' 45" W; (map 106). Prospectors' name reported in 1931 by J. B. Mertie, USGS.

Gold Bottom Creek: stream, flows NE 7 miles to Silver Bow Creek, 56 miles SW of Eagle, Yukon-Tanana Highlands; 64° 17' 10" N, 143° 58' 00" W; (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Gold Bottom Creek: stream, see Grouse Creek.

Gold Creek Valley: valley, of Gold Creek, just W of Juneau, Coast Mountains; 58° 18' 30" N, 134° 24' 45" W; (map 11). Local name mentioned by DeArmond (1957, p. 10).

Gold Creek: locality, mile 263.2 on The Alaska Railroad, 34 miles NE of Talkeetna, Talkeetna Mountains, 62° 45' 45" N, 149° 41' 10" W; (map 82). Variant: Susitna River Station. This is the site of a flag stop on The Alaska Railroad which derives its name from nearby Gold Creek. This name was published in 1922 on the official timetable of The Alaska Railroad. It was called "Susitna River Station" in 1921 by the Chamber of Commerce of Seattle, Wash.

Gold Creek: ravine, see Gold Gulch.

Gold Creek: stream, 13 miles long, flows through Gold Lake to Kisaralik River, 83 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 20' N, 159° 31' W; (map 59). Local name reported in 1955 by J. M. Hoare, USGS.

Gold Creek: stream, flows E 0.4 miles to Nome River, 13 miles N of Nome, Seward Peninsula Highlands; 64° 41' 30" N, 165° 19' 10" W; (map 94). Prospectors' name published on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Gold Creek: stream, flows E 2 miles to Chisna River 4 miles N of its junction with Chistochina River, 23 miles NE of Paxson, Alaska Range; 63° 06' 20" N, 144° 48' 00" W; (map 86). Prospectors' name reported in 1900 by T. G. Gerdine (in Mendenhall and Schrader, 1903, pl. 9), USGS.

Gold Creek: stream, flows E 3 miles to South Fork Grouse Creek, in Mint River basin, 41 miles NW of Teller, Seward Peninsula Highlands; 65° 36' N, 167° 30' W; (map 111). Prospectors' name reported in 1903 by Collier (1904, pl. 2), USGS.

Gold Creek: stream, flows N 2 miles to Seventymile River, 20 miles NW of Eagle, Yukon-Tanana Highlands; 64° 55' 45" N, 141° 48' 50" W; (map 102). Local name published in 1956 by USGS.

Gold Creek: stream, flows N 3 miles then W 5 miles to Middle Fork Koyukuk River, 6 miles NW of Poss Mountain and 37 miles W of Chandalar, Brooks Range; 67° 30' 45" N, 149° 51' 30" W; (map 123). Prospectors' name reported in 1899 by Schrader (1900b, pl. 60), USGS.

Gold Creek: stream, flows N 5 miles to Klu River 5.6 miles SW of junction with Chakina River, 23 miles SW of McCarthy, Chugach Mountains; 61° 10' 30" N, 143° 19' 00" W; (map 67). Local name reported in 1908 by D. C. Witherspoon, USGS.

Gold Creek: stream, flows N 8 miles to Oshetna River, 24 miles SW of its junction with Susitna River, Talkeetna Mountains; 62° 19' 45" N, 147° 41' 25" W; (map 82). Local name reported by F. H. Moffit (in Brooks and others, 1915, fig. 3), USGS.

Gold Creek: stream, flows NE 4.7 miles to Quartz Creek, 11 miles SE of Long and 18 miles SW of Monzonite Hills, Kilbuck-Kuskokwim Mountains; 64° 18' 45" N, 155° 11' 40" W; (map 98). Prospectors' name reported in 1913 by Eakin (1914, pl. 3), USGS.

Gold Creek: stream, flows NW 1.4 miles to Bluestone River, 12 miles SE of Teller, Seward Peninsula Highlands; 65° 08' N, 166° 06' W; (map 111). Local name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Gold Creek: stream, flows NW 1.5 miles to California Creek which flows to Bonanza River, 11 miles NW of Solomon, Seward Peninsula Highlands; 64° 42' N, 164° 36' W; (map 95). Prospectors' name shown on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Gold Creek: stream, flows S W 1.1 miles to Snake River, 6 miles NW of Nome, Seward Peninsula Highlands; 64° 35' 10" N, 165° 28' 00" W; (map 94). Prospectors' name reported on the 1903 Campion Mining and Trading Co. map by George M. Ashford.

Gold Creek: stream, flows S W 8 miles to Butte Creek, 30 miles SW of Eagle, Yukon-Tanana Highlands; 64° 40' N, 142° 06' W; (map 102). Named by prospectors and shown on an 1898 manuscript map by C. A. Woodruff.

Gold Creek: stream, flows S W 9 miles to Butte Creek, 62 miles SE of Healy, Talkeetna Mountains; 63° 06' N, 147° 55' W; (map 87). Local name obtained in 1913 by J. W. Bagley, USGS; published by Moffit (1915, pl. 1).

Gold Creek: stream, flows SE 13 miles to North Fork Salcha River, 48 miles NE of Big Delta Yukon-Tanana Highlands; 64° 47' 45" N, 145° 20' 05" W; (map 101). Variant: Gold Run. Named by prospectors and reported in 1905 by D. C. Witherspoon (in Prindle, 1913a, pl. 1), USGS.

Gold Creek: stream, flows SE 17 miles to Mosquito Fork, 60 miles SW of Eagle, Yukon-Tanana Highlands; 64° 06' 15" N, 142° 20' 10" W; (map 102). Named by prospectors and shown on an 1898 manuscript map by E. F. Ball.

Gold Creek: stream, flows SE 2 miles to Ophir Creek, 38 miles NE of Solomon, Seward Peninsula Highlands; 65° 00' N, 163° 40' W; (map 95). Variant: Guy Creek. Prospectors' name published in 1956 by USGS. Reported as "Guy" on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Gold Creek: stream, flows SW 2 miles to head of Dry Creek, 4 miles NE of Nome, Seward Peninsula Highlands; Prospectors' name published in 1900 by Schrader (1900c, p. 16), USGS. Subsequent maps show a different drainage pattern at the head of Dry Creek.

Gold Creek: stream, heads in a glacier, flows S 4 miles to Port Valdez, 0.7 miles NE of Camp Bowie, 7 miles W of Valdez, Chugach Mountains 61° 08' 00" N, 146° 28' 15" W; (map 68). Local name published in 1950 by USGS.

Gold Creek: stream, heads in Dutch Hills, flows S 2.3 miles to Cache Creek, 29 miles NW of Talkeetna, Alaska Range; 62° 31' 35" N, 150° 54' 30" W; (map 81). Prospectors' name reported in 1906 by R. W. Porter, USGS.

Gold Creek: stream, heads in lake, flows W 6.5 miles to Susitna River, 34 miles NE of Talkeetna, Talkeetna Mountains; 62° 46' 05" N, 149° 41' 20" W; (map 82). Local name recorded in 1915 on a blueprint of The Alaska Railroad

Gold Creek: stream, heads in unnamed glacier W of Clark Peak and flows 5.5 miles W to Gastineau Channel at Juneau, Coast Mountains; 58° 18' N, 134° 25' W; (map 11). Name first appears in mining records in 1880 and was probably named by Richard Harris and Joe Juneau in 1880 when they found gold in the creek (DeArmond, 1951, p. 22). Name was published in the 1883 Coast Pilot (p. 172).

Gold Creek: stream, see Jorosa Creek.

Gold Dust Creek: stream, flows NW 6 miles to Birch Creek, 50 miles SW of Circle, Yukon-Tanana Highlands; 65° 26' N, 145° 32' W, (map 104). Variant: Golddust Creek. Named by prospectors; reported in 1896 by USGS (Spurr, 1898, p. 347).

Gold Fork: stream, flows 2 miles NE to join Salmon Fork to form Carlson Creek, 4.2 miles NW of Sunny Cove on Taku Inlet and 7 miles NE of Juneau, Coast Mountains; 58° 20' 15" N, 134° 14' 00"W; (map 11). Local name published in 1951 by USGS.

Gold Gulch: ravine, on Kenai Peninsula, trends ENE 4.5 miles to Resurrection Creek, 5 miles S Of Hope, Chugach Mountains; 60° 51' 30" N, 149° 38' 00" W; (map 63). Local prospectors' name; reported in 1904 by Moffit (1906, pl. 2), USGS.

Gold Gulch: ravine, trends W 0.7 miles to Osborn Creek, 11 miles NE of Nome, Seward Peninsula Highlands; 64° 34' 45" N, 165° 06' 00" W; (map 94). Variant: Gold Creek. Reported as "Gold Creek" on the 1902 "Map of Nome and Snake River Country" by J. M. Davidson.

Gold Harbor: estuary, extends E 3.5 miles, on W coast of Dall Island, S of Waterfall Bay, Alexander Archipelago; 54° 55' N, 133° 05' W; (map 1). Local name published by USC&GS in 1914. Cold Hill: hill, 200 ft., on E bank of Kichatna River, 50 miles SW of Talkeetna, Alaska Range; 62° 07' 30" N, 151° 36' 45" W; (map 81). Local name reported in 1958 by USGS.

Gold Hill Creek: stream, heads on Gold Hill, flows S and NW 8 miles to Yukon River, 18 miles W of Tanana, Kokrines-Hodzana Highlands; 65° 13' 30" N, 152° 43' 00" W; (map 106). Prospectors' name reported in 1906 by USGS.

Gold Hill Gulch: ravine, trends S 1 mile to Norton Sound about 1 mile SE of mouth of Nome River and 4 miles SE of Nome, Seward Peninsula Highlands; 64° 29' N, 165° 17' W; (map 94). Prospectors' name shown on the 1904 "Map of Cape Nome Precinct" by Arthur Gibson. This feature cannot be precisely identified on current maps.

Gold Hill: hill, 1,115 ft., 2 miles SW of junction of Gold Run and Right Fork Bluestone River, at head of Bluestone River, 19 miles SE of Teller, Seward Peninsula Highlands; 65° 03' N, 166° 16' W; (map 111). Prospectors' name reported on a map of Cape Nome goldfields by David Fox, Jr., dated 1901.

Gold Hill: hill, 1,959 ft., on N bank of Yukon River, extends E 9 miles from Grant Creek to Tozitna River, 15 miles WNW of Tanana, Kokrines-Hodzana Highlands; 65° 15' N, 152° 40' W; (map 106). Prospectors' name reported in 1899 by Lt. G. C. Cantwell, USRCS.

Gold Hill: hill, 750 ft., 6 miles W of Fairbanks, Yukon-Tanana Highlands; 64° 51' N, 147° 57' W; BGN 1939; (map 100). Local name reported in 1939 by USGS.

Gold Hill: mountain, 4,974 ft., 70 miles SE of Healy, Alaska Range; 63° 11' 30" N, 147° 16' 20" W; (map 87). Local name obtained in 1951 by USGS.

Gold Hill: mountain, 5,150 ft., 4 miles S of Nabesna, Wrangell Mountains; 62° 19' N, 143° 00' W; BGN 1939; (map 84). Name used by prospectors and reported in 1939 by P. S. Smith, USGS.

Gold Hill: mountain, 5,815 ft., in Nutzotin Mountains, between Chathenda and Chavolda Creeks, 10 miles NE of Euchre Mountain, Alaska Range; 62° 06' 30" N, 141° 54' 00" W; (map 84). Name used by prospectors and reported by S. R. Capps (in Brooks and others, 1916, p. 202), USGS.

Gold Island: island, 0.1 miles across, tied to Japonski Island, in Sitka Sound, 1.5 miles SW of Sitka, Alexander Archipelago; 57° 02' 50" N, 135° 22' 40" W; (map 9). Named in 1880 by U.S. naval officers, published by USC&GS in 1883 Coast Pilot (p 142).

Gold King Creek: stream, flows N 29 miles to Bonnifield Creek, 37 miles SW of Fairbanks, Tanana Lowland; 64° 20' 25" N, 148° 01' 45" W (map 100). Named by prospectors; reported in 1906 by L. M. Prindle (in Brooks and others, 1907 pl. 4), USGS.

Gold Lake: lake, 2 miles long, in Crooked Mountains, 10.5 miles W of Chikuminuk Lake and 87 miles SE of Bethel, Kilbuck-Kuskokwim Mountains, 60° 13' N, 159° 28' W; (map 59). Local name reported in 1955 by J. M. Hoare, USGS.

Gold Mountain: mountain, 2,032 ft., on E coast of Cleveland Peninsula, W of Helm Bay, Alexander Archipelago; 55° 37' N, 131° 59' W; (map 3). Local name reported in 1949 by USGS.

Gold Mountain: mountain, 2,845 ft., at head of Hudson and Sunset Creeks, 7 miles NW of Birches, Kokrines-Hodzana Highlands; 65° 12' N, 153° 44' W; (map 107). Variant: Nuhkahllanny. Local name reported in 1885 by Lt. Allen (1887, map), USA. According to USC&GS in 1898 the Indian name was "Nuhkahllanny" [Nakalani] meaning "gold."

Gold Mountain: mountain, see Juneau, Mount.

Gold Mountain: peak, see Roberts, Mount.

Gold Ridge: ridge, extends from West Summit 1 mile S to Gold Pass, 7 miles E of Juneau, Coast Mountains; 58° 19' N, 134° 18' W; (map 11). Local name reported in 1965 by D. A. Brew and A. B. Ford, USGS.

Gold Run Creek: stream, flows SW 2.5 miles to Big Four Creek which flows to Casadepaga River, 22 miles NE of Solomon, Seward Peninsula Highlands; 64° 51' N, 164° 06' W; (map 95). Variant: Gold Run. Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Gold Run Creek: stream, flows SW 2.8 miles to Bonanza River, 7 miles NW of Solomon, Seward Peninsula Highlands; 64° 36' N, 164° 41' W; (map 95). Variant: Gold Run. Prospectors' name reported as "Gold Run" in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Gold Run Creek: stream, in Kallarichuk Hills of Baird Mountains, flows W 3 miles to Klery Creek, 23 miles N of Kiana, Brooks Range; 67° 18' N, 160° 22' W; (map 127). Name used by prospectors; reported in 1910 by P. S. Smith (in Brooks and others, 1911, pl. 13), USGS.

Gold Run Creek: stream, in Nutzotin Mountains, flows NW 1.6 miles from Gold Hill to Glacier Creek 0.6 miles SE of its junction with Chavolda Creek, 6.5 miles NW of Beaver Lake, Alaska Range 62° 07' 45" N, 141° 54' 30" W; (map 84). Named by prospectors and reported in 1914 by S. R. Capps (in Brooks and others, 1915 P. 218), USGS.

Gold Run Creek: stream, see Gold Run.

Gold Run: locality, along Gold Run which flows to Bluestone River, about 12 miles SE of Teller, Seward Peninsula Highlands; (map 111). Site of a mining camp listed in the 1915-16 Polk's Gazetteer. It cannot be identified on current maps.

Gold Run: stream, flows E 2.5 miles to Flint Creek, 4.5 miles E of Long and 24 miles S of Ruby, Kilbuck-Kuskokwim Mountains; 64° 24' N, 155° 21' W; (map 98). Prospectors' name reported in 1911 by A. G. Maddren, USGS. The exact application of this stream is in doubt.

Gold Run: stream, flows N 2.2 miles to Holokuk River 9.2 miles SE of its junction with Kuskokwim River, 37 miles SE of Aniak and 10 miles SE of Little Mountain Village, Kilbuck-Kuskokwim Mountains; 61° 25' 30" N, 158° 27' 00" W; (map 72) Local name published by USGS (Cady and others, 1955, pl. 1).

Gold Run: stream, flows N 6 miles to McCoy Creek, 26 miles NW of Big Delta, Yukon-Tanana Highlands; 64° 27' 20" N, 146° 19' 15" W (map 101). Prospectors' name reported in 1910 by USGS (Capps, 1912, pl. 1).

Gold Run: stream, flows NE 1.5 miles to Slate Creek, 52 miles SW of Eagle, Yukon-Tanana Highlands; 64° 36' N, 142° 45' W; (map 102). Variant: Gold Run Creek. Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Gold Run: stream, flows NE 12.2 miles to Kiwalik River, 37 miles NW of Haycock, Seward Peninsula Highlands; 65° 39' N, 161° 51' W; (map 109). Variant: Gold Run Creek. Local name reported on a 1903 fieldsheet by D. C. Witherspoon, USGS.

Gold Run: stream, flows NE 4 miles to Innoko River, 0.9 miles NW of Ophir and 33 miles NW 09' N, 156° 33' W; (map 90). Prospectors' name reported in 1912 by H. M. Eakin, USGS.

Gold Run: stream, flows NE 8.7 miles to Deer Creek, 7.8 miles NW of Sulatna Crossing and 35 miles SW of Ruby, Kilbuck-Kuskokwim Mountains; 64° 14' 30" N, 155° 41' 58" W; (map 98) Prospectors' name reported in 1911 by Maddren (in Brooks and others, 1912, p. 294-296), USGS.

Gold Run: stream, flows NW 12 miles to join Right Fork Bluestone River, forms Bluestone River, 13 miles S of Teller, Seward Peninsula Highlands; 65° 05' N, 166° 13' W; (map 111). Local name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Gold Run: stream, flows S 1.9 miles, joins Oniga Creek to form Bonita Creek, 11 miles NE of Nome, Seward Peninsula Highlands; 64° 38' N, 165° 13' W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Gold Run: stream, flows SE 2 miles to Goldstream Creek, 10 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 58' N, 147° 34' W; (map 100). Variant: Gold Run Creek. Local name reported by T. G. Gerdine (in Prindle, 1905, pl. 16), USGS.

Gold Run: stream, flows SW 0.8 miles to Rhode Island Creek, 1.5 miles W of Eureka, 22 miles S of Rampart, Yukon-Tanana Highlands; 65° 10' 50" N, 150° 16' 10" W; (map 106). Prospectors' name reported in 1904 by Prindle and Hess (1906, pl. 3), USGS.

Gold Run: stream, flows SW 1.5 miles to Healy Creek, 8 miles NE of Healy, Alaska Range; 63° 53' N, 148° 42' W; BGN 1945; (map 87). Name used by prospectors; reported in 1944 by USGS.

Gold Run: stream, flows SW 2.7 miles to Cripple River, 17 miles NW of Nome, Seward Peninsula Highlands; 64° 43' N, 165° 43' W; (map 94). Prospectors' name reported on Arthur Gibbons's "Map of Cape Nome Precinct" dated 1904.

Gold Run: stream, flows SW 3 miles to Grand Central River, 32 miles NE of Nome, Seward Peninsula Highlands; 64° 57' N, 165° 10' W; (map 94). Prospectors' name reported in 1906 by USGS.

Gold Run: stream, see Gold Creek.

Gold Run: stream, see Gold Run Creek.

Gold Standard Creek: stream, flows NW 4 miles to Port Clarence, 12 miles SW of Teller, Seward Peninsula Highlands; 65° 07' N, 166° 33' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Gold Standard Creek: stream, flows SE 2 miles to Bluestone River, 12 miles SE of Teller, Seward Peninsula Highlands; 65° 07' N, 166° 12' W; (map 111). Prospectors' name reported on a map of Cape Nome goldfields by David Fox, Jr., dated 1901.

Goldbottom Creek: stream, flows E to Agiapuk River, about 22 miles ENE of Teller, Seward Peninsula Highlands; (map 111). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This feature cannot be precisely identified on current maps.

Goldbottom Creek: stream, flows NE 1.7 miles to Little Creek, 4.4 miles SE of Ophir and 28 miles NW of McGrath, Kilbuck-Kuskokwim Mountains 63° 05' N, 156° 27' W; (map 90). Prospectors' name reported in 1912 by A. G. Maddren and H. M. Eakin, USGS.

Goldbottom Creek: stream, flows NW 1.4 miles to Coal Creek which flows to Solomon River, 14 miles NE of Solomon, Seward Peninsula Highlands; 64° 44' N, 164° 12' W; (map 95). Prospectors' name reported in a 1902 prospectors' manuscript map.

Goldbottom Creek: stream, flows SE 3 miles to Skookum River which flows to Klokerblok River, 17 miles NE of Solomon, Seward Peninsula Highlands; 64° 41' N, 163° 56' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Goldbottom Creek: stream, flows SE 5.5 miles, joins North Fork Snake River to form Snake River, 13 miles N of Nome, Seward Peninsula Highlands; 64° 42' N, 165° 24' W; (map 94). Variant: East Fork Snake River, North Fork Snake River. Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS. Barnard showed North Fork Snake River for this stream and applied Gold Bottom Creek to what is now Grouse Creek. Arthur Gibson's 1908 "Map of Seward Peninsula" applied the names as defined above. This appears to be the stream fabled "East Fork [Snake River]" by Schrader (1900c, p. 16), USGS.

Goldbottom Creek: stream, flows SW 7 miles to Niukluk River, 8 miles NW of Council and 30 miles NE of Solomon, Seward Peninsula Highlands; 64° 56' N, 163° 56' W; (map 95). Prospectors' name reported in 1899 by Schrader and Brooks (1900, map 3), USGS.

Goldbug Creek: stream, flows NE 7.6 miles to Kugruk River, 26 miles NE of Imuruk Lake Seward Peninsula Highlands; 65° 50' N, 162° 27' W, BGN 1966; (map 110). Prospectors' name reported in 1908 by F. F. Henshaw (in Brooks and others, 1909, fig. 21), USGS.

Goldbug Creek: stream, flows SW 10 miles to North Fork Chandalar River, 0.7 miles upstream from mouth of Horse Creek and 13 miles SE of Chandalar, Brooks Range; 67° 21' 15' N, 148° 49' 00" W; (map 123). Prospectors' name obtained in 1909 by A. G. Maddren (in Brooks and others, 1910, pl. 7), USGS.

Golden City: locality, at junction of Twin and Pedro Creeks, 14 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 00' 50" N, 147° 28' 45" W; (map 105). Name applied by prospectors to a former mining camp; reported in 1903 by T. G. Gardine (Prindle, 1905, pl. 13), USGS.

Golden Creek: stream, 1.3 miles long, flows SE to Vega Bay, Kiska Island, Aleutian Islands; 51° 55' 20" N, 177° 22' 22" E; (map 14). An arbitrary name beginning with "G" to correspond to "G" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Golden Creek: stream, flows SW 11 miles, joins Wilson Creek to form Illinois Creek, 17 miles NE of Birches, Kokrines-Hodzana Highlands; 65° 17' 10" N, 153° 07' 00" W; (map 107). Variant: Cowen Creek. Prospectors' name reported in 1908 by Maddren (1910, pl. 5), USGS.

Golden Creek: stream, see Victoria Creek.

Golden Gate Creek: stream, heads in Kigluaik Mountains, flows NE 5.4 miles to Pilgrim River, 18 miles SW of Mount Bendeleben and 57 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 04' N, 164° 09' W; (map 110). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Golden Gate Falls: waterfall, 12 miles SE of Spein Mountain, on Kisaralik River, 58 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 30' N, 160° 10' W; (map 59). Local name reported in 1955 by J. M. Hoare, USGS.

Golden Gulch: stream, see Goldengate Creek.

Golden Horn Bay: bay, see Golden Horn.

Golden Horn: bay, extends NW 6 miles from W end of Lake Beverly, 48 miles NW of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 43' N, 158° 54' W; BGN 1931; (map 52). Variant: Golden Horn Bay, Kang-ek-tu-nok. Local name reported in 1929 as "Golden Horn Bay" by U.S. Commissioner of Fisheries and as "Golden Horn" in 1931 by Gerald FitzGerald, USGS. The Eskimo name "Kangektunok" was recorded on a 1910 manuscript map by H. C. Fassett, USBF.

Golden Horn: peak, 7,285 ft., W of terminus of Frederika Glacier, 28 miles NE of McCarthy, Wrangell Mountains; 61° 41' 40" N, 142° 15' 20" W; (map 67). Local name published by USGS in 1954.

Golden Landing: site, on E shore of Port Wells, 28 miles NE of Whittier, Chugach Mountains; 60° 58' 10" N, 147° 59' 10" W; (map 63). Local name for a landing at Golden reported in Polk's Gazetteer of 1916.

Golden Peak: mountain, in Bendeleben Mountains, E of Mount Bendeleben, Seward Peninsula Highlands; (map 110). Local name published in 1900 by USC&GS on Chart 9380. This feature has not been identified on subsequent maps.

Golden: locality, on E side of Port Wells, 28 miles NE of Whittier, Chugach Mountains; 60° 58' 10" N, 147° 59' 10" W; (map 63). Local name established here as a post office in 1904 and discontinued in 1916 (Ricks 1965, p. 23). The village is now abandoned.

Goldeneye Lake: lake, 4 miles across, N of Kagalurpak Lake and 80 miles NW of Bethel, Yukon-Kuskokwim Delta; 60° 59' N, 164° 02' W; (map 58). Named about 1964 for a species of duck by personnel of Clarence Rhode National Wildlife Range.

Goldeneye Lake: lake, 650 ft. long, on Kenai Peninsula, 4.7 miles E of mouth of Glacier Creek in Tustumena Lake and 41 miles SE of Kenai, Chugach Mountains; 60° 06' 55" N, 150° 29' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, probably for Barrow's Golden-eye (*Clangula islandica*), a duck which breeds and winters in southeastern Alaska (Pearson, 1944, pl. 1, p. 139).

Goldengate Creek: stream, flows NE 1.5 miles to Eldorado River, 18 miles NW of Solomon, Seward Peninsula Highlands; 64° 42' N, 164° 57' W; (map 95) Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Goldengate Creek: stream, flows SW 2 miles to Norton Sound, 11 miles SE of Nome, Seward Peninsula Highlands; 64° 27' N, 165° 04' W; (map 94). Variant: Golden Gulch. Shown as "Golden Gulch" on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Goldie, Mount: mountain, 6,315 ft., between Kanikula and Tokositna Glaciers, 40 miles NW of Talkeetna, Alaska Range; 62° 44' 50" N, 150° 57' 00"W; (map 81). Local name reported in 1958 by USGS.

Goldmoon Creek: stream, flows SW 1 mile to Quartz Creek, which flows to Goose Creek, in Casadepaga River basin, 23 miles N of Solomon, Seward Peninsula Highlands; 64° 54' N, 164° 18' W (map 95). Prospectors' name reported in 1907 by USGS geologists (Smith, P. S., 1910, pl. 4).

Goldpan Creek: stream, flows SW 3 miles to Minook Creek, 11 miles S of Rampart, Yukon-Tanana Highlands; 65° 21' N, 150° 08' W; (map 106). Prospectors' name reported in 1931 by J. B. Mertie, USGS.

Goldpan Gulch: ravine, trends NW 1.5 miles to Snake River, 4 miles NW of Nome, Seward Peninsula Highlands; 64° 33' 15" N, 165° 30' 40" W; (map 94) Prospectors' name reported on the 1903 Campion Mining and Trading Co. map by George M. Ashford.

Goldpan Peak: mountain, 6,500 ft., 2.5 miles NE of Merrill Pass and 75 miles NW of Tyonek, Alaska Range; 61° 12' 30" N, 153° 23' 20" W; (map 71). Name applied in 1956 by Orth; the name was originally applied to an unidentifiable peak in the area on a 1917 manuscript map done by a prospector.

Goldrun Creek: stream, flows E 10 miles to Pitka Fork just N of Twin Sisters and 45 miles NW of Beaver, Kokrines-Hodzana Highlands; 66° 49' N, 148° 34' W; (map 118). Local name obtained in 1956 by USGS.

Goldrun Creek: stream, flows SW 5.5 miles to American River, 34 miles NE of Teller, Seward Peninsula Highlands; 65° 39' N, 165° 37' W; (map 111). Variant: Burk Creek. Prospectors' name reported in 1900 by Messrs. Kemp and David Fox (in Brooks, 1901, pl. 11).

Goldrun Creek: stream, see Arctic Creek.

Goldstein Gulch: ravine, 0.7 miles long, on tributary of Grindstone Creek, 0.4 miles E of West Peak and 8 miles SE of Juneau, Coast Mountains; 58° 14' 52" N, 134° 13' 48" W; BGN 1962; (map 11). Probably named for Robert Goldstein, 1831-1900, who came to Juneau in 1885 and opened a store on the waterfront (DeArmond, 1957, p. 22).

Goldstream Creek: stream, flows N 6.5 miles, joins Alabam Creek to form South Fork Hess Creek, 6 miles NE of Livengood, Yukon-Tanana Highlands; 65° 58' N, 148° 26' W; (map 105). Named by prospectors; reported in 1915 by Brooks (Brooks and others, 1916, pl. 9), USGS.

Goldstream Creek: stream, heads at junction of Gilmore and Pedro Creeks, flows W 70 miles to Chatanika River, 37 miles NW of Fairbanks, Yukon-Tanana Highlands; 64° 59' N, 148° 54' W; (map 100). Variant: Gold Stream. Local name reported in 1903 by T. G. Gerdine (in Prindle, 1905, pl. 16), USGS. The valley of this stream, one of the earliest gold mining areas in the Fairbanks region, was settled by 1905 (Kitchener, 1954, p. 297).

Goldstream Creek: stream, see South Fork Hess Creek.

Goldstream: railroad station, see Dunbar.

Goleta Cove: cove, 0.1 miles across, on N shore of Shelikof Bay, on W coast of Kruzof Island, 19 miles NW of Sitka, Alexander Archipelago; 57° 10' 15" N, 135° 48' 00" W; (map 9). Name published in 1950 by USC&GS.

Golf Island: island, 2 miles long, 2.5 miles S of Goddard, on W coast of Baranof Island, Alexander Archipelago;

Golia Kamennya Ostrovki: rock, see Black Rock.

Golofine Bay: bay, see Golovnin Bay.

Golofnin Bay Station: locality, see Golovin Mission.

Golofnin Bay: bay, see Golovnin Bay.

Golofnin Sound: lagoon, see Golovnin Lagoon.

Golofnin, Mys: point of land, see Hope, Point.

Golofnin: locality, see Golovin Mission.

Golofnin: village, see Golovin.

Gologamiut: locality, see Golok.

Goloi Island: island, 1 mile across, off S coast of Kruzof Island, 13 miles W of Sitka, Alexander Archipelago; 57° 00' 45" N, 135° 41' 00" W; (map 9). Variant: Ostrov Goloy. Russian name meaning "bare" given in 1809 by the navigator Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN as "O[strov] Goloy."

Goloi Island: island, 2.5 miles long, W of Dolgoi Island, in Pavlof Islands, Aleutian Range; 55° 06' N, 161° 53' W; (map 28). Russian word meaning "bare" published as "O[strov] Goloi" or "Goloi Island," by Father Veniaminov in 1840 (v. 1, p. 252). The native name, "Agajanaksikh" or "Agajanaksish," was applied by Lt. Sarichev (1806 ,v. 2, p. 15), IRN.

Goloi Island: island, see Bush Top Island.

Goloi Island: island, see Long Island.

Goloi Islands: islands, 0.1 miles across, in Salisbury Sound, off S coast of Chichagof Island, 24 miles SE of Chichagof, Alexander Archipelago; 57° 21' 50" N, 135° 44' 20" W; (map 9). Variant: Ostrov Goloy. Russian name meaning "bare" given in 1809 by the navigator Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "Os[trova] Goloy."

Goloi Isles: islands, see Passage Islands.

Goloi: island, see Bare Island.

Goloi: island, see Rootok Island.

Golok: locality, "in the Nushagak district," Bristol Bay Lowland; Variant: Gologamiut. Former Eskimo camp or settlement listed in the 1890 Census as "Gologamiut" with a population of 29.

Golomi Island: island, see Golovni Island.

Golomiannoi Island: island, see Golovni Island.

Golomyannoy, Ostrov: island, see Golovni Island.

Golova, Mys: point of land, see Head Point.

Golovain Bay: bay, see Golovnin Bay.

Golovin Bay: bay, see Golovnin Bay.

Golovin Mission: locality, on E shore of Golovnin Bay, 7 miles N of Cape Darby and 50 miles SE of Solomon, Seward Peninsula Highlands; 64° 26' N, 162° 50' W; (map 95). Variant: Golofnin, Golofnin Bay Station. Site of a Swedish Evangelical Union mission and reindeer station established in 1896 by a loan of 50 deer to the mission by U.S. Government (Jackson, 1906, p. 15). This appears to be the site where the Golovin Post Office was established in 1899; the post office was discontinued in 1906 and reestablished in 1908 at Golovin.

Golovin Sound: lagoon, see Golovnin Lagoon.

Golovin, Mys: point of land, see Hope, Point.

Golovin: village, pop. 160, on point between Golovnin Bay and Golovnin Lagoon, 42 miles E of Solomon, Seward Peninsula Highlands; 64° 33' N, 163° 02' W; (map 95). Variant: Cheenik, Chenik Mission, Chennik, Chillimiut, Chingmyut, Chinick, Chinig-myut, Chinik, Dexter, Dexter's Store, Golofnin, Golovnin, Ikaligvigmiut, Ikaligwigmiut, Ikalikhvig-myut, Seleniye Ikalikhvig-myut, Tchinimuth. Eskimo village reported in 1842-44 as "Ikalikhvig-myut" by Lt. L. A. Zagoskin IRN. About 1890, one of the employees of the neary Omalik mines married an Eskimo woman and established a trading post here. This man, John Dexter, became the center for prospecting information on the Seward Peninsula With the discovery of gold in 1898, Golovin became a supply-relay point of the Council goldfields north of here. In 1899 the Chennik Post Office was established here; it was discontinued in 1903. In 1899 the Golovin Post Office was established south of here, probably at Golovin Mission; it was discontinued in 1904. John Dexter was listed as postmaster of both of these offices. A new Golovin Post Office was established at this site in 1906 and was discontinued in 1958 (Ricks, 1965, p. 10, 23, 24). The name "Golovin," derived from Golovnin Bay and Lagoon, has become well established with only one "n." The population of this village was 38 in 1890; 140 in 1900; and 135 in 1930.

Golovina, Zaliva: bay, see Golovnin Bay.

Golovine Bay: bay, see Golovnin Bay.

Golovine Sound: lagoon, see Golovnin Lagoon.

Golovni Island: island, 600 ft. across, in Necker Islands, W of Baranof Island, 20 miles SW of Sitka, Alexander Archipelago; 56° 48' 10" N, 135° 29' 30" W; (map 5). Variant: Golomi Island, Golomiannoi Island, Ostrov Golomyannoy. Originally named "Ostrov Golomyannoy," meaning "sea breeze island," by Ivan Vasiliev the first, IRN. The name "Golomi" was applied to this island in 1880 and published on Brit. Adm. Chart 2337. The name later became "Golovni," a derivation of "golovnya," meaning "firebrand."

Golovnia, Mys: point of land, see Hope, Point.

Golovnin Bay: bay, heads at Golovnin Lagoon and extends S 12 miles to Norton Sound, 45 miles E of Solomon, Seward Peninsula Highlands; 64° 24' N, 163° 00' W; BGN 1937; (map 95). Variant: Golofin Bay, Gologine Bay, Golovain Bay, Golovin Bay, Golovine Bay, Tachik, Tatchik, Techik, Zaliva Golovina. Named "Baie Golovnine" or "Golovnin Bay" in 1821 by Kromchenko (cna), IRN, for his vessel, the brig Golovnin, which in turn had been named after Capt. Vasili Mikhailovich Golovnin of the Russian Navy (Baker, 1906, p. 280). Capt. F. P. Lutke, IRN, reported the Eskimo name "Tatchik" meaning "bay" in 1836. See Golovnin Sound.

Golovnin Lagoon: lagoon, 9 miles long at head of Golovnin Bay, 39 miles E of Solomon, Seward Peninsula Highlands; 64° 35' N, 163° 10' W; BGN 1937; (map 95). Variant: Golofnin Sound, Golovine Sound, Golovin Sound, Zund Golovina. Reported as "Zund Golovina" or "Golovnina Sound" in 1842-44 by Lt. L. A. Zagoskin, IRN. The generic "Sound" was used until 1937. See Golovnin Bay.

Golovnin: village, see Golovin.

Golovnina, Zund: lagoon, see Golovnin Lagoon.

Goloy, Ostrov: island, see Bare Island.

Goloy, Ostrov: island, see Goloï Island.

Goloy, Ostrov: island, see Long Island.

Goloy, Ostrov: islands, see Goloï Islands.

Goloy, Ostrov: islands, see Passage Islands.

Goloy, Ostrovi: island, see Aiktak Island.

Golsova River: stream, see Golsovia River.

Golsova: locality, see Golsovia.

Golsovia River: stream, flows NE 50 miles to Norton Sound, 4.5 miles S of Tolstoi Point and 23 miles SW of Unalakleet, Nulato Hills; 63° 34' N, 161° 04' W; (map 91). Variant: Golsova River, Goltzovaia River, Neenivik River, Negvelnuk, Reka Nygvilnuk, Reka Nygvylnuk. Name reported in 1866 by W. H. Dall as "Golsova" and E. W. Nelson, U.S. Signal Service spelled the name "Goltzovaia" which Baker (1906, p. 280) suggests may come from the German "holtz," meaning "wood." Capt. Tebenkov (1852, map 2), IRN, records the Eskimo name "Nygvilnuk [Nigvilnuk]." See Golsova.

Golsovia: locality, on Norton Sound at mouth of Golsovia River, 4.5 miles SW of Tolstoi Point and 23 miles SW of Unalakleet, Nulato Hills; 63° 33' 45" N, 161° 03' 30" W; (map 91). Variant: Galsovia, Galtzora, Gaolsovia, Golsova, Goltzovaia, Nu-wayn-yuk. Former telegraph station, reindeer camp and corral reported in 1903 by C.O. Lind, Unalakleet. Named after the river which was then spelled "Golsova." The place is now used as a summer fish camp. A. V. Zane, of Lt. G. M. Stoney's expedition, gave the Eskimo name for the place as "Nu-wayn-yuk." See Golsovia River.

Goltsov Point: point of land, on N coast of Attu Island, W point of entrance to Holtz Bay, Aleutian Islands; 52° 57' 30" N, 173° 10' 30" E; BGN 1938; (map 13). Variant: Goltzeb Point. Derived from an early name for Holtz Bay; proposed as "Goltzeb Point" by U.S. Navy Hydrog. Office in 1938.

Goltsovaia Bay: bay, see Holtz Bay.

Goltsovaya, Bukhta: bay, see Holtz Bay;

Goltzeb Bay: bay, see Holtz Bay.

Goltzeb Point: point of land, see Goltsov Point.

Goltzef Bay: bay, see Holtz Bay.

Goltzovaia River: stream, see Golsovia River.

Goltzovaia: locality, see Golsovia.

Goly, Ostrov: island, see Rootok Island.

Goly, Ostrov: island, see Bush Top Island.

Golya Kamennyia Ostrovki: rock, see Black Rock.

Gomair, Lake: lake, see Gasoline Lake.

Gomez Point: point of land, on the south coast of Kenai Peninsula separating Windy and Chugach Bays, Kenai Mountains; 59° 13' N, 151° 27' W; (map 50). Variant: Punta de Gomez. Named on an unpublished map by F. A. Maurelle and Don Juan de la Bodega y Quadra, dated 1779.

Gomez, Punta de: point of land, see Gomez Point.

Gompertz Channel: water passage, 15 miles long, in Cook Inlet, between Middle Ground Shoal and NW coast of Kenai Peninsula, 24 miles N of Kenai, Cook Inlet Lowland; 60° 53' N, 151° 18' W; (map 62). Named "for Capt. Gompertz (cna), who discovered it"; reported in 1905 by USC&GS.

Gona' xo: locality, see Gonaho.

Gonaho: locality, at mouth of Alsek River, at Dry Bay, about 50 miles SE of Yakutat, St. Elias Mountains; (map 46). Variant: Gona' xo Gu-nah-ho. Former Tlingit Indian town reported in 1904 by J. R. Swanton (in Hodge, 1907, p. 496), BAE.

Gonakadetseat Bay: bay, 1.6 miles long, on SE coast of Khantaak Island, 2.2 miles E of Point Minor and 2.6 miles N of Yakutat, Malaspina Coastal Plain; 59° 35' N, 139° 44' W; (map 46). Tlingit Indian name published by the USGS in 1959.

Goober Lake: lake, 0.7 miles long, 12 miles NE of confluence of East and South Forks Matanuska River, 57 miles NW of Valdez, Copper River Basin, 61° 51' 15" N, 147° 07' 30" W; BGN 1960; (map 69). Named in 1956 by USGS "because of its resemblance to a peanut."

Good Creek: stream, flows SSW 1.7 miles to Golden Creek near N shore of Vega Bay, Kiska Island, Aleutian Islands; 51° 55' 23" N, 177° 22' 15" E; (map 14). An arbitrary name beginning with "G" to correspond to "G" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Good Hope Creek: stream, see Goodhope Creek.

Good Island: island, 0.6 miles across, off E coast of Admiralty Island, 4 miles NW of Gambier Island and 63 miles NE of Sitka, Alexander Archipelago; 57° 28' 00" N, 133° 53' 45" W; (map 8). Named in 1889 by Lt. Comdr. H. B. Mansfield, USN; name published in 1892 by USC&GS.

Goodall Creek: stream, flows SE 1 mile to Boulder Creek, in Noxapaga River basin, 31 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 34' N, 164° 20' W; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Goode, Mount: mountain, 10,610 ft., near head of Knik Glacier, 42 miles SE of Palmer, Chugach Mountains; 61° 19' 40" N, 147° 59' 00" W; BGN 1924; (map 69). Named in 1924 by USGS for Richard Urquhart Goode, 1858-1903, "Geographer, USGS, in charge of the Pacific Division, Topographic Branch, at the time the first work in Alaska was executed." See Farquhar (1959, p. 221).

Goodenough Creek: stream, flows NW 1.2 miles to East Fork Solomon River, 12 miles NE of Solomon, Seward Peninsula Highlands; 64° 42' N, 164° 11' W; (map 95). Prospectors' name reported on a 1902 prospectors' manuscript map.

Goodhope Bay: bay, on N coast of Seward Peninsula, 16 miles across, 30 miles W of Deering, Kotzebue-Kobuk Lowland; 66° 07' N, 163° 39' W; (map 113). So named by Lt. Otto

von Kotzebue while exploring the region in August 1816 because here he had “good hope” of making important geographic discoveries.

Goodhope Creek: stream, flows NW 2 miles to Reed Creek, 15 miles NW of Palmer, Talkeetna Mountains; 61° 49' 10" N, 149° 11' 15" W; (map 69). Variant: Good Hope Creek. Local name reported in 1919 by A. H. Brooks and G. C. Martin (in Brooks and others, 1921, pl. 7), USGS.

Goodhope River: stream, on Seward Peninsula, flows NE 46 miles to Goodhope Bay, 28 miles W of Deering, Kotzebue-Kobuk Lowland; 66° 05' N, 163° 44' W; BGN 1952; (map 113). Variant: Right Fork Goodhope River. Name reported in 1901 by Mendenhall (1902, p. 27), USGS; derived from Goodhope Bay.

Gooding Lake: lake, 0.6 miles long, in Matanuska Valley, 4.4 miles NW of Palmer, Cook Inlet Lowland; 61° 37' 45" N, 149° 14' 15" W; (map 69). Local name reported in 1942 by AMS.

Goodlata Peak: mountain, 8,140 ft., 8.4 miles S of junction of Monahan Creek and Chakina River, 27 miles SW of McCarthy, Chugach Mountains; 61° 03' 15" N, 143° 08' 00" W; (map 67). Local name reported in 1908 by D. C. Witherspoon, USGS.

Goodluck Creek: stream, see Lucky Creek.

Goodluck Gulch: ravine, see Woodchuck Gulch.

Goodluck Gulch: ravine, trends W 1 mile to Snake River, 1.8 miles NW of Mount Brynteson and 10 miles N of Nome, Seward Peninsula Highlands; 64° 38' 45" N, 165° 27' 30" W; (map 94). Variant: Good Luck Gulch. Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Goodman Glacier: glacier, see Goodwin Glacier.

Goodman Pass: pass, 3,400 ft., in Teocalli Mountains, between Denny and Sheep Creeks, 4.5 miles NW of Houston Pass and 98 miles SE of McGrath, Alaska Range; 62° 06' 45" N, 153° 30' 00" W; (map 80). Local name reported in 1931 by USGS.

Goodnews Bay: bay, extends from mouth of Goodnews River SW 10 miles to Kuskokwim Bay at North and South Spits, 30 miles NE of Cape Newenham, Kilbuck-Kuskokwim Mountains; 59° 03' N, 161° 49' W; (map 53). Variant: Bonnes Nouvelles Baie, Good News Bay, Imakhpiguak Bay, Imakpiguak, Port Dobriek Vestei, Port Dobrykh Vestey, Zaliv Imakhpiguak. In 1868 USC&GS derived “Goodnews Bay” from translation of the Russian name “Port Dobrykh Vestey [ili Zaliv Imakhpiguak]” meaning “Port Goodnews [or Imakhpiguak Bay],” (Sarichev, 1826, map 3). The second name is Eskimo. Capt. Lutke (1836, p. 255), IRN, called it in French “Bonnes Nouvelles baie,” or “good news bay,” and said that “it might better be called the ' Bay of false reports.' “ According to Baker (1906, p. 281), “It was visited and probably named ' Good News' by the land expedition of Vstiugof and Korsakof of 1818-19.”

Goodnews Bay: village, see Goodnews.

Goodnews Lake: lake, 5 miles long, on Goodnews River, 45 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 30' N, 160° 31' W; (map 53) Local name published in 1938 by USGS.

Goodnews Mining Camp: locality, N of junction Of Platinum and Squirrel Creeks, 2 miles S of Red Mountain and 25 miles NE of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 55' 30" N, 161° 43' 50" W; (map 39). Named for the Goodnews Mining Co.; name published in 1950 by USGS. This semi-permanent settlement was the largest mining camp in the district in 1940. The camp was established about 1934 when large-scale operations in mining of platinum-bearing deposits in this area began (Mertie, 1940, p. 57).

Goodnews River: stream, heads in lake at 59° 38' N, 160° 23' W, flows SW 60 miles to Goodnews Bay at Goodnews, Kilbuck-Kuskokwim Mountains; (map 53). Variant: Kwihcherak. Name published by P. S. Smith and A. G. Maddren (in Brooks and others, 1915, pl. 10), USGS. G. L. Harrington, USGS, in 1919 reported that the Eskimo name of the river was "Kwihcherak," meaning "little river."

Goodnews: village, pop. 154, on N shore of Goodnews Bay, at mouth of Goodnews River, 35 miles NW of Hagemeister Island, Kilbuck-Kuskokwim Mountains; 59° 07' N, 161° 35' W; BGN 1939; (map 53). Variant: Goodnews Bay, Mumtrak. A post office called "Goodnews Bay" was established here in 1930 (Ricks, 1965, p. 24). Eskimos from the former village of Mumtrak moved here and a government school was founded. The name "Goodnews" was published in 1937 by BIA. The population in 1960 was 154.

Goodpaster Flats: flats, extend E 13 miles from junction of Tanana and Goodpaster Rivers, 6 miles E of Big Delta, Yukon-Tanana Highlands; 64° 08' N, 145° 30' W; (map 101). Local name published in 1951 by USGS.

Goodpaster River: stream, heads at 64° 30' N, 143° 40' W and flows SW 91 miles to Tanana River 7 miles E of Big Delta, Yukon-Tanana Highlands; 64° 10' 15" N, 145° 37' 30" W; BGN 1965; (map 101). Variant: North Fork Goodpaster River, Volkmar River. Named "Volkmar" in 1885 by Lt. H. T. Allen, USA. The stream now known as "Volkmar," was called "Goodpaster River" by Lt. Allen "in honor of the Goodpaster family of Kentucky." The two stream names were transposed by later map makers.

Goodpaster River: stream, see Eisenmenger Fork.

Goodpaster River: stream, see Volkmar River.

Goodpaster Telegraph Station: locality, on right bank of Tanana River N of Goodpaster River, 6 miles E of Big Delta, Yukon-Tanana Highlands; 64° 10' N, 145° 38' W; (map 101). Former telegraph station established by the U.S. Army Signal Corps in 1903; name published by USGS (Prindle, 1913a, pl. 1).

Goodwin Creek: stream, on Seward Peninsula, flows NW 5 miles to Lopp Lagoon, 5 miles NE of Cape Prince of Wales and 53 miles NW of Teller, Kotzebue-Kobuk Lowland; 65° 39' N, 167° 57' W; (map 111). Prospectors' name published in 1956 by USGS.

Goodwin Glacier: glacier, trends E 6.5 miles to its terminus 0.7 miles W of Copper River and 30 miles NW of Katalla, Chugach Mountains; 60° 36' N, 144° 53' W; (map 64). Variant: Goodman Glacier. Named in 1884 by Capt. W. R. Abercrombie, USA, for "Maj. W. E. Goodwin, U.S.V." (USA Volunteers).

Goodwin River: stream, see Fourth of July Creek.

Goolkana Lake: lake, see Paxson Lake.

Goon Dip Mountain: mountain, 1,900 ft., 6.5 miles N of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 45' 10" N, 136° 09' 00" W; BGN 1939; (map 9). Named locally in 1939 "for Goon Dip who died about 1936. He was Chinese consul at Seattle, Wash., for more than 25 years."

Goon Dip River: stream, flows W 7.5 miles to Didrickson Bay, 7 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 44' 55" N, 136° 11' 20" W; BGN 1939; (map 9). Named locally in 1939 "for Goon Dip." See Goon Dip Mountain.

Goose Bay: bay, 0.5 miles wide, extends SE 1.5 miles, off Polk Inlet, near center of Prince of Wales Island, Alexander Archipelago; 55° 23' 45" N, 132° 29' 00" W; BGN 1963; (map 4). "This Bay is called Goose Bay by local people because of a large population of Canada Geese"; reported in 1961 by USFS.

Goose Bay: bay, 3.7 miles across, in W side of Knik Arm, at mouth of Goose Creek, 11 miles N of Anchorage, Cook Inlet Lowland; 61° 22' 30" N, 149° 31' 30" W; (map 69). Local name reported in 1906 by T. G. Gerdine and R. H. Sargent, USGS.

Goose Bay: estuary, on W coast of Culross Island, extends SW 1.5 miles to Culross Passage, 16 miles SE of Whittier, Chugach Mountains; 60° 42' 15" N, 148° 14' 15" W; (map 63). Local name reported in 1916 by J. W. Bagley, USGS.

Goose Cove: cove, 0.2 miles long, on E shore of Muir Inlet, in Glacier Bay National Monument, 0.4 miles E of Sealers Island and 63. miles NW Of Hoonah, St. Elias Mountains; 58° 57' 30" N, 136° 06' 00" W; (map 10). Name published by the American Geographical Society (Field, 1947, map). The name was suggested by W. S. Cooper of the Univ. of Minnesota, who visited this cove in 1929 and "saw a number of young wild geese, who still unable to fly, were flapping over the water."

Goose Cove: cove, 0.5 miles across, at S end of Deadman Reach, in Duffield Peninsula, N tip of Baranof Island, 32 miles N of Sitka, Alexander Archipelago; 57° 30' 30" N, 135° 32' 30" W; (map 9). Local name reported in 1951 by USGS.

Goose Cove: cove, 0.7 miles across, in Portage Bay, on Kupreanof Island, Alexander Archipelago; 56° 56' N, 133° 17' W; (map 6). Named in 1882 by Lt. Comdr. H. E. Nichols, USN.

Goose Creek: stream, flows E 0.8 miles to W shore of Red Bay, on N coast of Prince of Wales island; Alexander Archipelago; 56° 18' 20" N, 133° 20' 45" W; (map 6). Named in 1886

by Lt. J. M. Helm, USN, for charting purposes; name published in 1887 on USC&GS Chart 706.

Goose Creek: stream, flows N 12 miles to Shishmaref Inlet, 10 miles S of Shishmaref, Kotzebue-Kobuk Lowland; 66° 06' N, 166° 02' W; (map 112). Local name published in 1952 by AMS.

Goose Creek: stream, flows NE 16 miles, joins Starvation Creek to form West Fork Tolovana River, 30 miles SE of Rampart, Yukon-Tanana Highlands; 65° 21' 20" N, 149° 15' 00" W; (map 105). Named by prospectors; reported in 1904 by Prindle (Prindle and Hess, 1906, pl. 1). USGS.

Goose Creek: stream, flows NW 4.7 miles to French Creek, in Kugruk River basin, 20 miles SE of Imuruk Lake, Seward Peninsula Highlands; 65° 31' N, 162° 31' W; (map 110). Prospectors' name reported in 1903 by D. C Witherspoon (in Moffit, 1905, pl. 2), USGS.

Goose Creek: stream, flows S 4 miles to Salcha River 1.5 miles W of junction of that stream with its South Fork and 36 miles NNE of Big Delta, Yukon-Tanana Highlands; 64° 39' N, 145° 27' W; (map 101). Local name reported in 1958 by USGS.

Goose Creek: stream, flows SE 1 mile to Nome River, N of Hunter Creek, 9 miles NNE of Nome, Seward Peninsula Highlands; 64° 38' N, 165° 18' W; (map 94). Prospectors' name shown on the 1904 "Map of Cape Nome Precinct" by Arthur Gibson.

Goose Creek: stream, flows SE 1.3 miles to Noxapaga River, 4 miles SW of its junction with Andesite Creek, 25 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 31' 30" N, 164° 08' 45" W; (map 110). Prospectors' name reported in 1901 by T. G Gerdine (in Collier, 1902, pl. 12), USGS.

Goose Creek: stream, flows SE 4.5 miles to Casadepaga River, 23 miles NE of Solomon, Seward Peninsula Highlands; 64° 53' N, 164° 16' W; (map 95) Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Goose Creek: stream, flows SE 8 miles to West Fork Buckland River, 37 miles NE of Haycock Seward Peninsula Highlands; 65° 42' N, 160° 38' W (map 109) Local name reported in 1917 by G. L. Harrington, USGS.

Goose Creek: stream, flows SW 2.7 miles to Kougarok River, 9 miles SW of Midnight Mountain and 47 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 41' N, 164° 48' W; (map 110) Variant: Wild Goose Creek. Prospectors' name reported in 1901 by T. G Gerdine (in Collier, 1902, pl. 12), USGS.

Goose Creek: stream, flows SW 7 miles to Susitna River, 18 miles S of Talkeetna, Cook Inlet Lowland; 62° 03' 25" N, 150° 05' 20" W; (map 81). Prospectors' name shown on a railroad location blueprint map compiled in 1915.

Goose Creek: stream, flows to Kuzitrin River, W of Noxapaga River, about 15 miles NW of Mount Bendeleben, Seward Peninsula Highlands; (map 110). Prospectors' name shown on a

map of Cape Nome gold fields by David Fox, Jr., dated 1901. This stream cannot be precisely located on current maps.

Goose Creek: stream, flows W 1 mile to Wolf Creek, 19 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 04' 55" N, 147° 22' 05" W; (map 105). Named by prospectors; published in 1908 by USGS.

Goose Creek: stream, heads in lake, flows NE 20 miles to Susitna River, 1.7 miles W of junction of Oshetna River, Talkeetna Mountains; 62° 38' 40" N, 147° 26' 00" W; (map 82). Local name reported in 1951 by USGS.

Goose Creek: stream, heads in Stephan Lake. flows S 14 miles to Goose Bay, 11 miles N of Anchorage, Cook Inlet Lowland; 61° 22' 30" N, 149° 53' 05" W; (map 69). Local name published in 1912 by USC&GS.

Goose Creek: stream, near head of Kasaan Bay, on Prince of Wales Island, flows N through Angel Lake, 8 miles to Thorne River, Alexander Archipelago; 55° 41' 15" N, 132° 38' 10" W, BGN 1962; (map 4). "This name has been used locally for a number of years by sportsmen and loggers"; reported by USFS in 1961.

Goose Creek: stream, tributary of Peterson Creek, about 15 miles NW of Juneau, Coast Mountains; 58° 26' N, 134° 43' W; (map 11). Named in 1899 by John G. Peterson (DeArmond, 1957, p. 35).

Goose Creek: ravine, see Goose Gulch.

Goose Gulch: ravine, trends S 1.5 miles to Taylor Creek which flows to Kougarok River, 7 miles S of Midnight Mountain and 44 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 41' N, 164° 41' W; (map 110). Variant: Goose Creek. Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Goose Hill: hill, 338 ft., E of Vega Bay, Kiska Island, Aleutian Islands; 51° 55' 33" N, 177° 27' 20" E; (map 14). An arbitrary name beginning with "G" to correspond to "G" grid used by U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Goose Island: island, 0.7 miles long, part of Sandman Reefs, 10 miles S of Deer Island, Aleutian Range; 54° 41' 00" N, 162° 13' 30" W; (map 25). Variant: Civoutchy Rocher, Big Goose Island, Goose Islands, Gusinnoi. Translation by USBF in 1888 of the Russian name "O[strov] Gusinyy" meaning "island of geese" published in 1847 by the Russian Hydrog. Dept. on Chart 1379. The island was called in Russian-French "Sivoutchy (du lion marin) rockier" meaning "sea lion rock" by Lutke (1836, p. 271). It was reported as Big Goose Island by W. H. Dall, USC&GS, and published on Chart 806 of USC&GS in 1882.

Goose Island: island, 1 mile long, in Tanana River, 3 miles S of Fairbanks, Tanana Lowland; 64° 47' 30" N, 147° 43' 30" W; (map 100). Local name published in 1952 by USGS.

Goose Island: island, 1.6 miles long, off N coast of Chichagof Island, 0.5 miles NW of Mud Bay, Alexander Archipelago; 58° 12' 45" N, 136° 02' 40" W; (map 10). Named by master G. C.

Hanus, USN, in 1880. The name was published by USC&GS in the 1883 Alaska Coast Pilot (p. 190).

Goose Island: island, 1.7 miles long, at NW edge of Prince William Sound, 36 miles NW of Cordova, Chugach Mountains; 60° 43' N, 146° 43' W; (map 64). Named in 1898 by Capt. Abercrombie (1900, map), USA, during his exploration of the Copper River region.

Goose Island: island, 2.5 miles long, in Yukon River, 36 miles W of Marshall, Yukon-Kuskokwim Delta; 61° 57' N, 163° 10' W; (map 74). Riverboat pilots' name shown on a 1916 fieldsheet by R. H. Sargent, USGS.

Goose Island: island, see Aiaktalik Island.

Goose Island: island, see Little Goose Island.

Goose Island: island, see Nellag Island.

Goose Island: locality, see Aiaktalik.

Goose Islands: island, see Goose Island.

Goose Lake: lake, 0.3 miles long, 1.2 miles SE of confluence of North and South Forks Chester Creek and 2.8 miles SE of Anchorage, Cook Inlet Lowland; 61° 11' 45" N. 149° 49' 05" W; (map 69). Local name reported in 1942 by AMS.

Goose Lake: lake, 1 mile long, on Kenai Peninsula, 0.6 miles NW of Kayak Lake and 28 miles NE of Kenai, Cook Inlet Lowland; 60° 46' N, 150° 36' W; (map 62). Named about 1963 by officials of Kenai National Moose Range, probably for the Goose family (Anitidae), many species of which nest well within the Arctic Circle (Pearson, 1944, pt. 1, p. 154).

Goose Marsh: marsh, 1.5 miles long, 7.5 miles SE of Kake, on NW coast of Kupreanof Island, Alexander Archipelago; 56° 55' 30" N, 133° 45' 30" W; (map 6). Local name recorded in 1951 by USGS.

Goose Point: point of land, at head of Duncan Canal, on W shore of Towers Arm, 14 miles W of Petersburg, on Kupreanof Island, Alexander Archipelago; 56° 47' 15" N, 133° 19' 30" W; (map 6). Local name recorded in 1951 by USGS.

Goose Point: point of land, on Chukchi Sea coast at mouth of Singaruak Creek, 17 miles SW of Barrow, Arctic Plain; 71° 04' 45" N, 157° 11' 45" W; (map 153). Name first appears on Brit. Adm. Chart 593 and may have been named by British naval officers connected with the Franklin search expeditions between 1849 and 1853.

Goose Point: point of land, S point of entrance to Egegik Bay, on N coast of Alaska Peninsula, 5.5 miles W of Egegik and 41 miles SW of Naknek, Bristol Bay Lowland; 58° 12' 15" N, 157° 31' 10" W; (map 41). Local name reported in 1952 by USGS.

Goose Rocks: rocks, 1 mile of W of Kanaga Island, Aleutian Islands; 51° 42' 10" N, 177° 43' 35" W; (map 17). Name published by USC&GS in the 1944 Aleutian Coast Pilot (p. 116).

Goose Slough: lake, 0.5 miles long, 17 miles NW of Chalkyitsik, Yukon Flats; 66° 52' N, 144° 00' W; (map 120). Local name obtained in 1956 by T. E. Taylor and R. C. Foley, USGS.

Goose Tongue Island: island, 200 ft. long, at entrance to Ryus Bay, N of Duke Island, Alexander Archipelago; 54° 58' 10" N, 131° 25' 00" W; (map 2). Local name published in 1920 by USC&GS.

Gooseneck Harbor: estuary, extends NE 2.5 miles, on W coast of Dall Island, N of Port Bazan, Alexander Archipelago; 54° 53' N, 133° 03' W; (map 1). Descriptive name published by USC&GS in 1914.

Gooseneck Lake: lake, 0.8 miles long, on Kenai Peninsula, 0.8 miles S of Stormy Lake, 16 miles NE of Kenai, Cook Inlet Lowland; 60° 45' 10" N, 151° 03' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Gooseneck Point: point of land, S point of entrance to Gooseneck Harbor, on W coast of Dall Island, Alexander Archipelago; 54° 52' 45" N, 133° 03' 00" W; BGN 1928; (map 1). Descriptive name given in 1927 by USC&GS "because of its [the point' s] proximity to Gooseneck Harbor and * * * [because] the shape of the point resembles a gooseneck."

Goosetown: locality, see Nigalik.

Gopher Bay: bay, see Squirrel Bay.

Gopher Gulch: ravine, in Dutch Hills, trends NE 0.5 miles to Willow Creek, 29 miles NW of Talkeetna, Alaska Range; 62° 34' 45" N, 150° 50' 45" W; (map 81). Prospectors' name reported in the 1930's by USGS.

Gorbotch Rookery: rookery, on N side of Reef Point, Saint Paul Island, in Pribilof Islands; 57° 07' N, 170° 17' W; (map 38). According to Elliott (1881, p. 51 and 173), who reported this name, it is Russian and means "humpback," from the word "gorbun."

Gorbun Morskoy, Kamen: rock, see Humpback Rock.

Gorbun Rock: rock, see Humpback Rock.

Gorda Point: point of land, on the SE shore of Port Etches between Garden Cove and the head of the bay on Hinchinbrook Island. Variant: Punta Gorda. Spanish name meaning "massive" given by the Don Ignacio Arteaga expedition of 1779.

Gorda, Point: point of land, NW tip of Saint Ignace Island, 12 miles SW of Craig, Alexander Archipelago; 55° 25' 30" N, 133° 26' 05" W; (map 4). Variant: Mys Gorda, Punta Gorda. Spanish name given in 1779 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Punta Gorda" i.e. "broad point."

Gorda, Punta: point of land, extending into Port Refugio, on Suemez Island, Alexander Archipelago; 55° 17' N, 133° 15' W; (map 4). Spanish name meaning "massive point" given by the Don Ignacio Arteaga expedition of 1779.

Gorda, Punta: point of land, see Ankau Head.

Gorda, Punta: point of land, see Gorda Point.

Gordon Gulch: ravine, trends NW 0.6 miles to Anvil Creek, 0.4 miles N of Banner and 5.3 miles N of Nome, Seward Peninsula Highlands; 64° 34' 40" N, 165° 23' 45" W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Gordon Lyon, Mount: peak, 4,100 ft., 2.7 miles SW of junction of Eagle River and its South Fork, 13 miles NE of Anchorage, Chugach Mountains; 61° 15' 45" N, 149° 30' 20" W; BGN 1964; (map 69). Named in 1964 by Mrs. Gordon Lyon for her husband, Gordon Miller Lyon, 1906- 1964, engineer, who spent much of his professional career working on military construction projects in Alaska.

Gordon, Mount: mountain, 9,040 ft., 8 miles SW Nebesna Glacier terminus, Wrangell Mountains; 62° 08' N, 143° 05' W; (map 84). Named for a prospector who was in the area in 1899; reported in 1903 by F. C. Schrader, USGS.

Gordon, Point: point of land, on Beaufort Sea coast, 6 miles E of Bullen Point and 10 miles W of Flaxman Island, Arctic Plain; 70° 11' 10" N, 146° 37' 30" W; (map 151). Named by Leffingwell (1919, p. 95) in 1913, "After Tom Gordon, long a resident at Barrow." See Gordon.

Gordon: locality, site of trading post on NE shore of Demarcation Bay, 2.5 miles E of Demarcation Point, Arctic Plain; 69° 40' N, 141° 12' W; (map 138). Named for Thomas Gordon, who came to the N coast of Alaska from Scotland in 1888 and became a trader (Brower, 1944, p. 134).

Gore Mountain: peak, see Gore Peak.

Gore Peak: peak, 1,411 ft., in Kenai Mountains, on E shore of Port Dick, Chugach Mountains; 59° 13' N, 151° 00' W; (map 50). Variant: Gore Mountain. Name reported by U. S. Grant and D. F. Higgins, USGS, in 1912. Named after nearby Gore Point.

Gore Point: point of land, on S coast of Kenai Peninsula, 32 miles SE of Seldovia, Chugach Mountains; 59° 12' 00" N, 150° 57' 30" W; (map 50). Variant: Point Dick. Named Point Gore in 1786 by Capt. Nathaniel Portlock, King George's Sound Co., commander of the trading vessel King George during a voyage made from 1785 to 1787.

Gore Rock: rock, in Gulf of Alaska, 8 miles SW of Gore Point and 28 miles SE of Seldovia, Chugach Mountains; 59° 08' 30" N, 151° 11' 15" W; (map 50). Name derived from nearby Gore Point and published by USGS in 1951.

Goreli Island: island, see Seguam Island.

Gorelloi Island: island, see Gareloi Island.

Goreloi Island: island, see Gareloi Island.

Goreloi: volcano, see Redoubt Volcano.

Gorely Island: island, see Gareloi Island.

Gorely Island: island, see Seguam Island.

Gores Island: island, see Saint Matthew Island.

Gorge Creek: stream, flows NE 2 miles to stream in Sunshine Valley, 41 miles NW of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 30' N, 159° 07' W; (map 53). Local descriptive name published in 1951 by USGS.

Gorge Creek: stream, flows SE 8 miles to Hardscrabble Creek, on Alaska Peninsula, forms part of boundary of Katmai National Monument, 25 miles NE of Mount Katmai, Aleutian Range; 58° 37' 20" N, 154° 48' 00" W; (map 42). Local name; reported in 1951 by USGS.

Gorge Creek: stream, in Mount McKinley National Park, flows W 5.4 miles to Thorofare River, 3.3 miles WSW of Eielson Visitor Center, Alaska Range; 63° 25' 20" N, 150° 22' 40" W; BGN 1932; (map 88). So named by USGS in 1931 because the stream flows through "a very deep gorge."

Gorge, The: canyon, 1 mile long, on Klutina River, 4 miles E of Mount Carter and 50 miles NE of Valdez, Chugach Mountains; 61° 47' 30" N, 145° 36' 00" W; (map 68). Descriptive name reported in 1898 by Capt. W. R. Abercrombie, USA.

Gorge, The: canyon, 2 miles E of Gilbert Bay, on SE shore of Whiting River, 34 miles SE of Juneau, Coast Mountains; 58° 00' N, 133° 40' W; (map 8) Local name reported in 1955 by USGS.

Gorge, The: canyon, 5 miles long, along course of Lake Fork Knik River, 20 miles SE of Palmer, Chugach Mountains; 61° 22' N, 148° 35' W; (map 69). Descriptive name reported in 1951 by K. H. Stone (1963, p. 33).

Gori Point: point of land, on S coast of Raspberry Island, N of Kodiak Island, 57° 59' 30" N, 153° 03' 30" W; BGN 1909 (map 34). Variant: Gorie, Mountain Cape, Mys Gory. Transliteration of "M[ys] Gory," the name given in 1839 or 1840 by Sub-Lt. Mikhail Murashev, IRN, and published in 1849 on Russian Hydrog. Dept. Chart 1425. Baker (1906, p. 447) published "Mountain Cape," the translation of Murashev's name for this feature. Because of duplication, the name was changed to its present form in 1909 by USC&GS.

Gorie: point of land, see Gori Point.

Gorley Lake: lake, 0.3 miles long, 1.7 miles SE of junction of Puntilla Creek and Happy River, 94 miles SW of Talkeetna, Alaska Range; 62° 07' 10" N, 152° 59' 40" W; (map 81). Local name reported in 1958 by USGS.

Gorman Strait: water passage, between Andronica and Korovin Islands, in Shumagin Islands, Aleutian Range; 55° 21' N, 160° 07' W; (map 28). Variant: Gorman's Straits,

Gormans Strait. Named by fishermen before 1872; published as Gormans Straits by USC&GS in an 1872 report.

Gormans Strait: water passage, see Gorman Strait.

Gornoi Island: island, 2.5 miles long, 2.5 miles S of Goddard, on W coast of Baranof Island, Alexander Archipelago; 56° 47' N, 135° 21' W; (map 5). Variant: Corno Island, Ostrov Gornoy. Named in 1809 by the Russian navigator, Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Gornoy," meaning "mountainous island."

Gornostai: island, see Ermine Island.

Gornoy, Ostrov: island, see Gornoi Island.

Gorod Vinisali: locality, see Vinasale.

Gorton Creek: stream, flows S 14 miles to Khotol River, 19 miles SE of Nulato, Koyukuk Lowland; 64° 28' N, 157° 50"W; (map 97). Local name reported in 1935 by Frederica de Laguna, BAE.

Gory Hill: hill, 285 ft., 0.6 miles N of Bukhti Point, south-central Kiska Island, Aleutian island; 51° 55' 20" N, 177° 28' 35" E; (map 14). An arbitrary name beginning with "G" to correspond to the "G" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Gory, Mys: point of land, see Gori Point.

Goryalaya: volcano, see Redoubt Volcano.

Goschacket: stream, see Cosna River.

Goshelpme Creek: stream, heads at Akabluak Pass, flows NE 14 miles to Alatna River, 19 miles SW of Survey Pass, Brooks Range; 67° 36' N, 154° 23' W; (map 125). Name found on a prospectors' map drawn in the 1920's and is evidently the combining of the words "gosh-help-me."

Gosling Cone: hill, 1,570 ft., 1 mile NW of Sandy Lake and 6 miles S of Imuruk Lake, Seward Peninsula Highlands; 65° 28' N, 163° 15' W; BGN 1952; (map 110). Reported in 1950 by D. M. Hopkins, USGS; so named because the "Geological Survey field party caught four half-grown goslings near the base of the cone in 1947."

Gosling Island: island, 800 ft. long, S of Boca de Quadra, near head of Vixen Bay, Coast Mountains; 55° 02' 15" N, 130° 46' 55" W; (map 3). Local name published in 1917 by USC&GS.

Gost Creek: locality, on W bank of Walker Slough, 0.7 miles NW of Holy Cross, Innoko Lowland; 62° 12' 40" N, 159° 46' 50" W; (map 78). Variant: Ghost Creek. An old native village mentioned by Hrdlicka (1943, p. 219) as "Ghost Creek" and so named "because of many burials here about the creek".

Gotothna River: stream, see Foraker River.

Gotzeb Bay: bay, see Holtz Bay

Gould Island: island, 1.5 miles long, between Hetta Inlet and Portage Bay, near center of Prince of Wales Island, Alexander Archipelago; 55° 17' N, 132° 36' W; (map 4). Local name reported in 1905 by E. F. Dickins, USC&GS.

Gould Passage: water passage, 1.3 miles long, between Hetta Inlet and Portage Bay, S of Gould Island, near center of Prince of Wales Island, Alexander Archipelago; 55° 16' 35" N, 132° 36' 10" W; (map 4). Named in 1908 by USC&GS.

Goulding Harbor: bay, 2 miles long, N part of Portlock Harbor, 10 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 47' N, 136° 14' W; BGN 1926; (map 9). Variant: Pinta Bay. Named in 1787 by Capt. N. Portlock for the publisher of his book, "A voyage around the World," published in 1789 (Wagner, 1937, p. 390). The name "Pinta Bay" was reported in 1917 by H. R. Bartlett, USC&GS. A description of Goulding Harbor is given in the 1883 Coast Pilot (p. 183-184).

Goulding Lake: lake, 4 miles long, on Chichagof Island, most E of Goulding Lakes, 11 miles N of Chichagof, Alexander Archipelago; 57° 48' N, 136° 05' W; (map 9). Named in 1955 by USGS and published by Rossman (1959b, map), USGS; so named because it is the longest of the four Goulding Lakes.

Goulding Lakes: lakes, 10 miles N of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 49' N, 136° 09' W; (map 9). Named in 1955 by USGS and published by Rossman (1959b, map), USGS; derived from Goulding Harbor into which the lakes drain.

Gourd Island: island, 1,700 ft. long, at mouth of Waterfall Bay, on W coast of Dall Island, Alexander Archipelago; 54° 56' 25" N, 133° 08' 25" W; BGN 1928; (map 1). Descriptive name given in 1927 by USC&GS "because of the shape of the island resembling a gourd."

Government Cabin: locality, a shelter cabin on left bank of West Fork Texas Creek, 12.5 miles NW of Hyder, Coast Mountains; 56° 03' 30" N, 130° 14' 00" W; (map 7). Local name reported in 1928 by USGS.

Government Creek: stream, flows N 2.3 miles to Tongass Narrows, on NE coast of Gravina Island, Alexander Archipelago; 55° 20' 55" N, 131° 41' 40" W; (map 3). Local name reported in 1954 by USGS.

Government Creek: stream, flows NW 6 miles to Stikine River 12 miles NE of Wrangell, Coast Mountains; 56° 38' 45" N, 132° 17' 00" W; (map 6). Local name recorded in 1953 by USGS.

Government Creek: stream, heads on Bald Mountain Ridge, flows S 5.6 miles to Little Susitna River, 8.5 miles NW of Palmer, Cook Inlet Lowland; 61° 40' 05" N, 149° 19' 50" W; (map 69). Local name reported in 1913 by USGS (Brooks and others, 1914, fig. 2).

Government Hill: hill, see Court House Hill.

Government Peak: peak, 4,781 ft., on Bald Mountain Ridge, 11 miles NW of Palmer, Talkeetna Mountains; 61° 44' N, 149° 18' W; (map 69). Local name reported in 1939 by USGS.

Government Rock: rock, 500 ft. off coast of Point Whitshed, 8 miles SE of Cordova, Chugach Mountains; 60° 27' N, 145° 53' W; (map 64). Local name published in 1943 by USC&GS.

Government Slough: stream, heads at terminus of Scott Glacier, flows SW 15 miles to Gulf of Alaska, 6 miles SE of Cordova, Malaspina Coastal Plain; 60° 28' N, 145° 40' W; (map 64). Local name published in 1951 by USGS.

Government Station: town, see Barrow.

Governor Simpson, Cape: point of land, see Simpson, Cape.

Governors Ridge: ridge, trends NE 0.8 miles from Mount Moore, 6 miles SE of Mount Ogilvie and 37 miles N of Juneau, Coast Mountains; 58° 48' 20" N, 134° 07' 40" W; BGN 1965; (map 11). Named in 1964 by members of the Juneau Icefield Research Project because the Governor of Alaska visited this area in 1951.

Goverooskie Lake: lake, see Govorushka Lake.

Govorushechie Island: island, see Whale Island.

Govorushechiy, Mys: point of land, see Gull, Cape.

Govorushechiy, Ostrov: island, see Whale Island.

Govorushek, Mys: point of land, see Gull, Cape.

Govorushiche, Mys: point of land, see Gull Point.

Govorushichiy, Mys: point of land, see Gull Point.

Govorushka Lake: lake, 0.2 miles long, on central St. George Island, Pribilof Islands; 56° 35' 15" N, 169° 37' 15" W; (map 38). Variant: Gavarush' ka Lake, Goverooskie Lake, Koriumanyi. According to H. W. Elliott (1881, p. 173), "Goverooskie" is Russian for "Larus brevirostris and L. tridactylus Gulls." Putnam, (1903, p. 1014), USC&GS lists "Gavarush' ka" as Russian for the "red-legged gull * * * [the lake is] so called from the large number of gulls frequenting it." Putnam (p. 1015) lists the Aleut name as "Korium-anyi," also referring to the gulls.

Goynk, Cape: point of land, see Ooynik Point.

Grace Cove: bight, 1.5 miles wide, on NE coast of Revillagigedo Island, at mouth of Grace Creek on Behm Canal, Alexander Archipelago; 55° 40' 30" N, 130° 57' 30" W; (map 3). Local name reported in 1955 by USGS. 382

Grace Creek: Stream, flows 12 miles E, through Lake Grace to Behm Canal, on E coast of Revillagigedo Island, Alexander Archipelago; 55° 40' 15" N, 130° 57' 30" W; (map 3). Local name published in 1943 by USC&GS.

Grace Creek: stream, flows SW 2 miles to join Warner Creek to form Wade Creek, 45 miles SW of Eagle, Yukon-Tanana Highlands; 64° 10' 00" N, 141° 24' 30" W; (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Grace Gulch: ravine, trends NW 0.4 miles to Buster Creek, 9 miles NE of Nome, Seward Peninsula Highlands; 64° 36' 40" N, 165° 12' 12" W; (map 94). Prospectors' name reported on the 1903 Campion Mining and Trading Co. map by George M. Ashford.

Grace Harbor: estuary, extends ENE 1 mile to Kaigani Strait, on E coast of Dall Island, Alexander Archipelago; 54° 55' N, 132° 55' W; BGN 1908; (map 1). Local name reported in 1907 by E. F. Dickins, USC&GS.

Grace Island: island, 0.2 miles long, in Davison Bay, 11 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 47' N, 132° 19' W; (map 9). Name published by USC&GS in 1925 Coast Pilot (p. 322).

Grace Mountain: mountain, 2,443 ft., near the center of Dall Island, W of Grace Harbor, Alexander Archipelago; 54° 55' 55" N, 132° 57' 05" W; BGN 1929; (map 1). Name derived from Grace Harbor; given by USC&GS in 1928.

Grace Point: point of land, see Luke Point.

Grace, Lake: lake, 4.5 miles long, on course of Grace Creek, on E coast of Revillagigedo Island, Alexander Archipelago; 55° 38' N, 131° 03' W. Local name reported in 1926 by R. H. Sargent and F. H. Moffit (in Smith and others, 1929, pl. 5), USGS.

Grace, Point: point of land, on N tip of Latouche Island, 18 miles SE of Chenega, Chugach Mountains; 60° 04' 45" N, 147° 00' 59" W; (map 63). Probably named by Capt. George Vancouver, RN, in 1798. The name is shown on his chart, but is not mentioned in his text.

Gracey Creek Glacier: glacier, trends N 5.5 miles to its terminus at Gracey Creek, 0.1 miles S of Alaska- Canada boundary, 32 miles NW of Hyder, Coast Mountains; 56° 15' 15" N, 130° 34' 30" W; (map 7). Name derived from Gracey Creek and published in 1955 on USGS map.

Gracey Creek: stream, heads at terminus of Gracey Creek Glacier, flows NE into Canada to 56° 15' 30" N, 130° 34' 30" W; Coast Mountains; (map 7). Named in 1920 by IBC surveyors; published in 1927 on IBC Sheet 3 (1951 atlas).

Gradual Point: point of land, on N side of Passage Canal, 1 mile SW of Poe Bay and 6 miles NE of Whittier, Chugach Mountains; 60° 49' 15" N, 148° 32' 20" W; BGN 1915; (map 63). Local descriptive name reported in 1914 by USC&GS.

Graehl Village: area, see Graehl.

Graehl: area, of Fairbanks, on N bank of Chena River, E of Garden Island, Tanana Lowland; 64° 51' N, 147° 42' W; (map 100). Variant: Ghrael, Graehl Village. Originally a townsite listed in 1916 Polk's Gazetteer; the village has been annexed by the city of Fairbanks.

Graenzstrasse: water passage, see Dixon Entrance.

Graf Heidena, Zaliv: bay, see Heiden, Port.

Graham Creek: stream, flows N 10 miles to Colorado Creek, 38 miles NE of Ophir and 50 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 38' 45" N, 156° 08' 00" W; (map 90). Prospectors' name reported in 1933 by USGS.

Graham Point: point of land, see Dix Point.

Graham, Point: point of land, on left bank of Yukon River, 6 miles W of Koyukuk and 11 miles NE of Nulato, Koyukuk Lowland; 64° 51' N, 157° 53' W; (map 97). Riverboat pilots' name shown on a 1940 "Navigation Chart of Tanana-Yukon Rivers" published by U.S. Dept. of Interior.

Graham, Port: bay, 2.5 miles wide, on SW coast of Kenai Peninsula 8 miles SW of Seldovia, Chugach Mountains; 59° 22' N, 151° 55' W; (map 50). BGN 1954; Variant: Bukhta Anglitskaya, Cool Bay, English Bay, Grahams Harbour. Named "Grahams Harbour" by Capt. Nathaniel Portlock (1787, map facing p. 102), in 1786. The Russians called this bay "Bukh[ta] Anglitskaya," or "English Bay," because of the English mapping and visitation there in the late 18th century. Capt. John Meares called it Cool Bay in 1788.

Gramp Rock: island, one of group extending 2.5 miles W of Ilak Island, Delarof Islands Aleutian Islands; 51° 29' 00" N, 178° 20' 50" W; (map 16). Local name published on a 1954 USGS map.

Grand Canons of the Noatak: canyon, see Grand Canyon.

Grand Canyon: canyon, in Baird Mountains, extends 17 miles along course of Noatak River, 60 miles NE of Noatak, Brooks Range; 67° 55' N, 160° 45' W; (map 127). Variant: Grand Canons of the Noatak. The name "Grand Canons of the Noatak" was first used in 1885 by S. B. McLenegan, USRCS, when he explored the Noatak River. The U.S. Army Corps of Engineers used the present application of the name in 1955. See Noatak Canyon.

Grand Canyon: canyon, see Noatak Canyon.

Grand Central River: Stream, flows SE 12 miles to Salmon Lake, 28 miles NE of Nome, Seward Peninsula Highlands; 64° 54' N, 165° 05' W; (map 94). Prospectors' name reported in 1900 by B. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Grand Creek: stream, flows N 0.5 miles to Bullion Creek, 0.4 miles W of its junction with Pargon River, 14 miles NE of Council and 25 miles SE of Mount Bendeleben, Seward Peninsula Highlands; 65° 02' N, 163° 20' W; (map 110). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Grand Creek: stream, flows SW 32 miles to Big Mud River 2 miles NE of its junction with Nowitna River, 31 miles NE of Monzonite Hills, Kilbuck-Kuskokwim Mountains; 64° 29' N, 153° 38' W; (map 98). Local name reported in 1933 by USGS.

Grand Creek: stream, see Grand Union Creek.

Grand Island: island, 0.8 miles long, between Kaigani and Tlevak Straits, E of Dall Island, Alexander Archipelago; 54° 58' 15" N, 132° 51' 45" W; (map 1). Variant: McNair Island. Named by Lt. Comdr. H. E. Nichols, USN, in 1881. This island was called "McNair" by Jackson (1880, map facing p. 376).

Grand Island: island, 2 miles across, in Stephens Passage, 2.5 miles NW of Grave Point and 18 miles SE of Juneau, Alexander Archipelago; 58° 05' 45" N, 134° 07' 30" W; (map 11). Descriptive name given by Comdr. R. W. Meade, USN, and published in 1869 on Navy Hydrog. Chart 225.

Grand Island: island, 6.7 miles long, in Yukon River 6 miles S of Russian Mission, Yukon-Kuskokwim Delta; 61° 40' N, 161° 25' W; (map 73). Riverboat pilots' name shown on a 1916 fieldsheet by R. H. Sargent, USGS.

Grand Junction Point: point of land, on E bank of Yukon River, 6 miles S of Russian Mission, Yukon-Kuskokwim Delta; 61° 41' N, 161° 20' W; (map 73). Riverboat pilots' name shown on a 1916 fieldsheet by R. H. Sargent, USGS.

Grand Kiska Island: island, see Kiska Island.

Grand Pacific Glacier: glacier, heads in St. Elias Mountains, 7 miles SW of Mount Hay, trends E into British Columbia then SE to head of Tarr Inlet at Alaska-Canada boundary, 68 miles SW of Skagway; 59° 04' 15" N, 137° 03' 30" W; BGN 1954; (map 45). Variant: Pacific Glacier. Named by John Muir in 1879. In 1892 Reid (1896, pl. 86 and p. 432), found that the front of the glacier had receded so far as to convert it into three distinct glaciers. He retained the name "Grand Pacific" for the most northerly and largest, and named the middle one "Johns Hopkins Glacier." The smallest and most southerly glacier was named "Reid Glacier" in 1899 by the Harrington Expedition.

Grand Plateau Glacier: glacier, heads about 59° 02' N, 137° 50' W, trends W 11 miles to 1961 terminus 2 miles SE of mouth of Clear Creek in Gulf of Alaska and 68 miles SE of Yakutat, St. Elias Mountains; 59° 01' N, 138° 09' W; (map 46). La Perouse called this glacier Le Grand Plateau in 1786 and Dall (1875, pl. 21) USC&GS, called it the Grand Plateau Glacier. This latter name was published in the 1883 Coast Pilot (p. 205).

Grand Point: point of land, E point of entrance to Farragut Bay, 5 miles S of Read Island, and 82 miles E of Sitka, Coast Mountains; 57° 05' 00" N, 133° 11' 00" W; (map 8). Named in 1887 by Lt. Comdr. C. M. Thomas, USN; name published in 1888 by USC&GS.

Grand Singatook: mountain, 3,870 ft., at W end of Kigluaik Mountains, 1 mile S of Little Singatook and 34 miles NW of Nome, Seward Peninsula Highlands; 64° 54' N, 166° 05' W, (map 94). Named in 1966 by L. G. Madland, he reported "the name ' Singatook' is the name the Eskimos living in the area used for both peaks."

Grand Union Creek: stream, heads in Kigluaik Mountains, flows NE 11 miles to Pilgrim River 1.3 miles S of its junction with Kuzitrin River, 35 miles SE of Teller, Seward Peninsula Highlands; 65° 08' N, 165° 13' W; (map 111). Variant: Grand Creek. Shown as "Grand" on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Grand Wash River: stream, braided stream, flows S 7 miles between Malaspina and Lucia Glaciers to Yakutat Bay, 4.5 miles SW of mouth of Esker Stream and 21 miles N of Yakutat, St. Elias Mountains; 59° 50' 45" N, 139° 47' 20" W; (map 46). Variant: Kwik River, Kwik Stream. Local descriptive name reported by Baker (1906, p. 284), USGS, as a variant of Kwik River. Name is now applied to the lower and braided part of the Kwik River.

Grand Wash: stream, see Kwik Stream.

Grandstand Ridge: ridge, 1,380 ft., 8.5 miles long, between Aiyiak and Chandler Rivers, 59 miles NW of Anaktuvuk Pass, Arctic Slope; 68° 58' N, 152° 08' W; (map 134). Named by USGS geologists during the exploration of Naval Petroleum Reserve No. 4; name given in 1944.

Grandview Gardens: area, in Anchorage, E of Airport Heights, Cook Inlet Lowland; 61° 12' 30" N, 149° 48' 50" W; (map 69). Local name reported in 1954 by the city engineer of Anchorage.

Grandview: railroad station, miles 44.9 on The Alaskan Railroad, near head of Placer River, in Kenai Mountains, 24 miles SE of Sunrise, Chugach Mountains; 60° 36' 30" N, 149° 03' 40" W; (map 63). Railroad station established about 1908; so named because it is at an elevation of 1,063 feet, "affording a scenic view."

Granit Creek: stream, see Granite Creek.

Granite Basin Lake: lake, see Granite Basin.

Granite Basin: lake, 0.4 miles long, on Revillagigedo Island, 2.2 miles NE of Ketchikan, Alexander Archipelago; 55° 22' N, 131° 35' W; BGN 1916; (map 3). Variant: Granite Basin Lake. Local name reported in 1911 by USFS.

Granite Bay: bay, on W coast of Esther Island, trends W 2 miles to Port Wells, 22 miles NE of Whittier, Chugach Mountains; 60° 53' N, 148° 06' W; (map 63). Local name reported in 1916 by J. W. Bagley, USGS.

Granite Bay: bight, 1.2 miles wide, on E shore of Imuruk Lake, 3 miles NE of Kettle Dome, Seward Peninsula Highlands; 65° 37' N, 163° 07' W; BGN 1954; (map 110). Reported in 1953 by D. M. Hopkins, USGS; so named because the "shores of the bay are composed of disintegrated granite."

Granite Bay: estuary, extends SW 3 miles to Wells Bay, 44 miles NE of Whittier, Chugach Mountains; 60° 54' 50" N, 147° 26' 45" W; (map 63). Local name reported in 1916 by J. W. Bagley, USGS.

Granite Bay: estuary, on E coast of Kenai Peninsula, extends SE 2 miles to Knight Island Passage, 10 miles NE of Chenega, Chugach Mountains; 60° 25' N, 147° 59' W; (map 63). Descriptive local name reported in 1908 by U. S. Grant and D. F. Higgins (in Brooks and others, 1909, pl. 4), USGS.

Granite Canyon: canyon, 6 miles long, 2 miles NW of Berg Mountain, in Glacier Bay National Monument and 68 miles NW of Juneau, St. Elias Mountains; 58° 56' N, 134° 49' W; (map 11). Name published in 1960 by USGS.

Granite Cape: point of land, on S tip of Granite Island, 35 miles SW of Seward, Chugach Mountains; 59° 36' 45" N, 149° 46' 00" W; BGN 1911; (map 49). Named in 1909 by U. S. Grant, USGS, "for the rocks of which it is composed."

Granite Cove: cove, 0.5 miles across, in George Islands, off N coast of Chichagof Island, 1.5 miles W of village of Elfin Cove and 35 miles NW of Hoonah, Alexander Archipelago; 58° 11' 30" N, 136° 23' 30" W; (map 10). Descriptive name given by W. H. Dall, USC&GS, in 1880 and published in the 1883 Alaska Coast Pilot (p. 187). Capt. George Vancouver, RN, anchored in this cove in 1784, but did not give it a name.

Granite Cove: cove, extends SE 2 miles to Columbia Bay, 56 miles NE of Whittier, Chugach Mountains; 60° 58' 15" N, 147° 08' 30" W; BGN 1911; (map 63). Named in 1909 by U. S. Grant, USGS. Named for the "granite boss" on north shore of cove.

Granite Creek: stream, flows 1.4 miles S from Granite Peak to Kotsina River, 37 miles NW of McCarthy, Wrangell Mountains; 61° 43' N, 143° 52' W; (map 67). Local name reported by USGS, in 1923.

Granite Creek: stream, flows 2 miles W to Gold Creek, 2 miles NE of Juneau, Coast Mountains; 58° 18' 55" N, 134° 21' 00" W; (map 11). Name first appeared in mining records in 1884 when Michael Powers claimed water rights there (DeArmond, 1957, p. 22-23). The name was published in 1904 by USGS.

Granite Creek: stream, flows 8 miles to Tuluksak River, 58 miles NE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 58' 30" N, 160° 05' 50" W; (map 59). Prospectors' name reported in 1914 by A. G. Maddren (in Brooks, 1915, pl. 11), USGS.

Granite Creek: stream, flows E 6 miles to head of North Arm Hoonah Sound, on Chichagof Island, 20 miles SE of Pelican, Alexander Archipelago; 57° 45' 30" N, 135° 50' 00" W; BGN 1935; (map 9). Local descriptive name reported in 1935 by USFS.

Granite Creek: stream, flows NE 22 miles to Seventymile River, 32 miles NW of Eagle, Yukon-Tanana Highlands; 64° 58' 45" N, 142° 10' 10" W; (map 102). Named by prospectors apparently for rock prevalent in the area; shown on 1902 field sheet by T. G. Gerdine, USGS.

Granite Creek: stream, flows NE 8.5 miles to Minook Creek, 14 miles S of Rampart, Yukon-Tanana Highlands; 65° 18' N, 150° 08' W; (map 106). Prospectors' descriptive name reported in 1904 by L. M. Prindle, USGS.

Granite Creek: stream, flows NE 9.5 miles to Sulukna River, 50 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 47' N, 154° 10' W; (map 89). Local name reported in 1954 by USGS.

Granite Creek: stream, flows NW 10 miles to Butte Creek, 28 miles SW of Beaver, Yukon Flats 66° 01' 30" N, 147° 56' 30" W; (map 118). Local descriptive name obtained in 1956 by USGS.

Granite Creek: stream, flows NW 2.5 miles to Sinuk River, 21 miles NW of Nome, Seward Peninsula Highlands; 64° 40' N, 166° 00' W; (map 94). Variant: Granit Creek. Prospectors' name published as "Granit" on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Granite Creek: stream, flows NW 5 miles to Mosquito Fork at Eagle Cliff, 52 miles SW of Chandalar, Brooks Range; 67° 02' 03" N, 149° 59' 00" W; (map 123). Variant: West Fork Chandalar River. Prospectors' name obtained in 1909 by A. G. Maddren (1913, pl. 1), USGS.

Granite Creek: stream, flows NW 5 miles to Tisuk River, 40 miles NW of Nome, Seward Peninsula Highlands; 64° 59' N, 166° 11' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Granite Creek: stream, flows NW and NE 13 miles to Slana River, 36 miles NE of Chistochina Alaska Range; 62° 59' N, 144° 01' W; (map 83). Local name reported in 1954 by USGS.

Granite Creek: stream, flows NW to Kuzitrin River, about 17 miles N of Mount Bendeleben Seward Peninsula Highlands; (map 110). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This stream cannot be precisely located on current maps.

Granite Creek: stream, flows S 1.6 miles to Otter Creek 10.5 miles E of its junction with Iditarod River, 3 miles E of Flat and 58 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains, 62° 27' 30" N, 157° 54' 30" W; (map 79). Name shown on a 1910 manuscript map of "Iditarod Placer Fields."

Granite Creek: stream, flows S W 2 miles to Tibbs Creek 5.7 miles S of that stream's junction with Goodpaster River and 50 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 24' N, 144° 16' W; (map 101). Local name published in 1956 by USGS.

Granite Creek: stream, flows S W 4.8 miles to its junction with Homestake Creek to form Willow Creek, 32 miles SE of Flat and 45 miles N of Sleetmute, Kilbuck-Kuskokwim Mountains; 62° 21' N, 157° 02' W; (map 79). Prospectors' name obtained in 1913 by Eakin (1914, pl. 1), USGS.

Granite Creek: stream, flows S W 7 miles to Chulitna River, 40 miles SW of Cantwell, 384 Talkeetna Mountains; 62° 56' 00" N, 149° 42' 30" W; (map 82). Local name reported in 1917 by S. R. Capps (in Martin and others, 1919, pl. 5), USGS.

Granite Creek: stream, flows SE 1.3 miles to Pedro Creek, 13 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 00' 45" N, 147° 29' 00" W; (map 105). Named by prospectors; published in 1908 by USGS.

Granite Creek: stream, flows SE 4 miles to Goodnews River, 15 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 17' N, 161° 18' W; (map 53) Descriptive name reported in 1919 by G. L. Harrington (in Brooks and others, 1921, pl. 7), USGS; "so named because the stream flows over granitic rocks."

Granite Creek: stream, flows SE 6 miles to Oshetna River, 28 miles SW of its junction with Susitna River and 80 miles W of Gulkana, Talkeetna Mountains; 62° 17' N, 147° 49' W; (map 82). Local name reported in 1931 by USGS.

Granite Creek: stream, flows SW 3.3 miles to Sweepstakes Creek, 12 miles NW of Haycock Seward Peninsula Highlands; 65° 21' N, 161° 18' W, (map 109). Local name reported in 1917 by G. L. Harrington, USGS.

Granite Creek: stream, flows SW 7 miles to King Salmon River, on Alaska Peninsula, 40 miles E of Egogik and 46 miles SE of Naknek, Bristol Bay Lowland; 58° 11' 15" N, 156° 16' 00" W; (map 41). Local name reported in 1952 by USGS.

Granite Creek: stream, heads at a glacier, flows S 17 miles to Matanuska River, 11 miles NE of Palmer, Chugach Mountains; 61° 42' 35" N, 148° 51' 00" W; (map 69). Name used by prospectors; reported in 1899 by Mendenhall (1900, pl. facing p. 310), USGS.

Granite Creek: stream, heads at glacier, between Kahiltna and Kanikula Glaciers, flows S 22 miles to Kahiltna River, 35 miles NW of Talkeetna, Alaska Range; 62° 27' 45" N, 151° 10' 10" W; (map 81). Prospectors' name reported in 1906 by R. W. Porter, USGS.

Granite Creek: stream, heads at N end of Darby Mountains, flows SE 9 miles to Tubutulik River in Death Valley, 35 miles SE of Imuruk Lake, Seward Peninsula Highlands; 65° 11' N, 162° 22' W; (map 110). Prospectors' name reported in 1909 by Smith and Eakin (1911, pl. 1), USGS.

Granite Creek: stream, heads in glacier, flows W 24 miles to Tana Glacier, 8 miles SE of head of Tana River and 103 miles NE of Cordova, Chugach Mountains; 60° 45' 30" N, 142° 42' 00" W; (map 65). Name published by F. H. Moffit (1918, pl. 6), USGS.

Granite Creek: stream, heads on Granite Mountain, flows NE 30 miles to Sawmill Creek, 18 miles SE of Big Delta, Tanana Lowland; 64° 01' 30" N, 145° 18' 00" W; (map 101). Named by prospectors; reported in 1910 by S. R. Capps, USGS.

Granite Creek: stream, heads on Mount Susitna, flows SE 6.3 miles to Alexander Creek, 7 miles SW of Susitna and 28 miles NW of Anchorage, Cook Inlet Lowland; 61° 27' N, 150° 36' W; (map 70). Name used by local prospectors; reported in 1899 by F. C. Schrader, USGS.

Granite Creek: stream, in Mount McKinley National Park, flows N 1.4 miles from Mount Eielson to Thorofare River, 1.8 miles S of Eielson Visitor Center, Alaska Range; 63° 24' 15"

N, 150° 18' 10" W; BGN 1932; (map 88). Local name obtained in 1931 by J. C. Reed, Sr., and S. N. Stoner, USGS.

Granite Creek: stream, N of Monument Rocks, flows NE 1.5 miles to Flint Creek, 4.5 miles SE of Long and 27 miles S of Ruby, Kilbuck-Kuskokwim Mountains; 64° 21' N, 155° 23' W; (map 98). Prospectors' name reported in 1913 by Eakin (1914, pl. 3), USGS.

Granite Creek: stream, on E coast of Cleveland Peninsula, flows SE 6 miles to Raymond Cove 2 miles NE of Helm Bay, Alexander Archipelago; 55° 38' 45" N, 131° 51' 50" W; (map 3). Local name recorded in 1949 by USGS.

Granite Creek: stream, on Kenai Peninsula, flows SW 8 miles to East Fork Sixmile Creek, 14 miles SE of Sunrise, Chugach Mountains; 60° 43' 10" N, 149° 17' 45" W; (map 63). Local name reported in 1898 by Mendenhall (1900, map 16), USGS.

Granite Creek: stream, on mainland, heads in Lake Manzoni, flows 4 miles W to Behm Canal, 2.5 miles S of Walker Cove, Coast Mountains; 55° 40' N, 130° 54' W; (map 3). Local name recorded in 1955 by USGS.

Granite Creek: stream, on Seward Peninsula, flows N 3.5 miles to Lopp Lagoon, 4.5 miles NE of Cape Prince of Wales and 53 miles NW of Teller, Kotzebue-Kobuk Lowland; 65° 38' N, 167° 58' W; (map 111). Prospectors' name published in 1956 by USGS.

Granite Creek: stream, see Bullion Creek.

Granite Creek: stream, see West Fork Chandalar River.

Granite Falls: waterfall, see Grindstone Falls.

Granite Fork: stream, flows SE 26 miles to Hodzana River, 47 miles NW of Beaver, Kokrines-Hodzana Highlands; 66° 43' N, 148° 50' W; (map 118). Local name obtained in 1956 by USGS.

Granite Fork: stream, see Middle Fork Fortymile River.

Granite Gulch: ravine, trends NW 2 miles to Mammoth Creek, 13 miles WSW of Central and 40 miles SW of Circle, Yukon-Tanana Highlands; 65° 31' N, 145° 13' W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Granite Island: island, 0.6 miles long, at head of George Inlet, on Revillagigedo Island, Alexander Archipelago; 50° 30' N, 131° 28' W; (map 3). Local name published in the 1925 Coast Pilot (p. 59).

Granite Island: island, 5.5 miles long, 0.5 miles SW of Harris Peninsula, 35 miles SW of Seward, Chugach Mountains; 59° 39' N, 149° 48' W; BGN 1911; (map 49). So named in 1909 by U. S. Grant, USGS, because it was "a long high island of granite."

Granite Islands: islands, 1 mile long, 6 miles SW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 35' 45" N, 136° 11' 30" W; (map 9). Descriptive name

given in 1925 by a USC&GS field party because of “granite-like rock of which the islands are composed.” The name was published in 1928 on Chart 8280.

Granite Lake: lake, 0.2 miles across, on Revillagigedo Island, near head of Thorne Arm, 1.3 miles E of Pop Point, Alexander Archipelago; 55° 23' 22" N, 131° 10' 45" W; (map 3). Local name reported in 1901 by Brooks (1902b, p. 64), USGS.

Granite Mountain: mountain, 2,835 ft., 16 miles NW of Haycock, Seward Peninsula Highlands; 65° 26' N, 161° 14' W; (map 109). Local name published on maps after 1950.

Granite Mountain: mountain, 3,445 ft., near center of Prince of Wales Island, S of Salmon Lake; 55° 31' 45" N, 132° 40' 30" W; (map 4). Descriptive name given in 1935 by USGS.

Granite Mountain: mountain, 5,815 ft., extends NW 15 miles from Gerstle River, 20 miles SE of Delta Junction, Alaska Range; 63° 45' N, 145° 22' W; (map 86). Local descriptive name reported in 1949 by USGS.

Granite Mountain: ridge, 2,923 ft., in Kuskokwim Mountains, extends NE-SW 5 miles between Moose Creek and Little East Fork George River, 42 miles SE of Flat, Kilbuck-Kuskokwim Mountains; 62° 19' N, 156° 43' W; (map 79). Local name obtained in 1952 by USGS topographers.

Granite Passage: water passage, trends SE 5 miles between Harris Peninsula and Granite Island, 34 miles SW of Seward, Chugach Mountains; 59° 39' N, 149° 47' W; (map 49). Named by the 1912 USC&GS field party “after Granite Island.”

Granite Peak: mountain, 6,729 ft., on W bank of Granite Creek, 16 miles NE of Palmer, Talkeetna Mountains; 61° 47' 45" N, 148° 53' 05" W; BGN 1946; (map 69). Variant: Eska Peak. Descriptive name reported about 1946 by USGS.

Granite Peak: mountain, 6,870 ft., 5 miles E of junction of Kluvesna and Kotsina Rivers, 16 miles W of Mount Blackburn, Wrangell Mountains; 61° 44' 45" N, 143° 51' 50" W; (map 67). Local name reported in 1912-13 as “Granite Mountain” by D. C. Witherspoon, USGS, but published in 1922 as “Granite Peak.”

Granite Point: point of land, 1.5 miles E of Fairmount Island, and 46 miles NE of Whittier, Chugach Mountains; 60° 52' 25" N, 147° 23' 00" W; (map 63). Local name reported in 1916 by J. W. Bagley, USGS.

Granite Point: point of land, at S end of Sanborn Harbor, W coast of Nagai Island, in Shumagin Islands, Aleutian Range; 55° 06' 50" N, 160° 01' 45" W; (map 28). Named in 1875 by W. H. Dall, USC&GS.

Granite Point: point of land, near the head of Redfish Bay, 10.4 miles NW of village of Port Alexander, Alexander Archipelago; 56° 20' 25" N, 134° 51' 40" W; (map 5). Named in 1897 by Lt. Comdr. J. F. Moser, USN, commander of USBF steamer Albatross.

Granite Point: point of land, on NW shore of Cook Inlet, 8 miles SW of Tyonek, Cook Inlet Lowland; 61° 00' 40" N, 151° 21' 00" W; BGN 1916; (map 70). Local descriptive name reported in 1916 by USGS.

Granite Point: point of land, W tip of Baker Island, 1 mile N of Cape Chirikof, Alexander Archipelago; 55° 19' 00" N, 133° 41' 25" W; (map 4). Local name published in 1925 Coast Pilot (p. 179).

Granite Range: mountain range, extends E from head of Tana River 27 miles to Logan Glacier, 120 miles NE of Cordova, Chugach Mountains; 60° 49' N, 142° 18' W; (map 65). Name published by F. H. Moffit (1918, pl. 6), USGS.

Granitsa Channel: water passage, see Dixon entrance.

Granitsy Strait: water passage, see Dixon Entrance.

Grant Cove: cove, 0.3 miles across, on W coast of Gravina Island, 1.7 miles S of South Vallenar Point, Alexander Archipelago; 55° 21' 15" N, 131° 51' 30" W; (map 3). Local name published in the 1925 Coast Pilot (p. 82).

Grant Creek: locality, on N bank of Yukon River, at mouth of Grant Creek, 24 miles W of Tanana, Kokrines-Hodzana Highlands; 65° 13' N, 152° 56' W; (map 106). Variant: Tuklukyet. Mining camp reported in 1911 by H. M. Eakin, USGS. Baker (1906, p. 639) lists an Indian village, "Tuklukyet * * * about 15 miles below Nuklukayet," which would be at or near this point.

Grant Creek: stream, flows NE 5 miles to Lincoln Creek which flows to Kougarok River, 46 miles NE of Teller, Seward Peninsula Highlands; 65° 36' N, 165° 00' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Grant Creek: stream, flows NE to Lone Mountain Creek which flows to American River, about 35 miles NE of Teller, Seward Peninsula Highlands; (map 111). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This feature cannot be precisely identified on current maps.

Grant Creek: stream, flows NW to Kugruk River near its mouth on Kotzebue Sound, about 30 miles NE of Imuruk Lake, Seward Peninsula Highlands; (map 110). Local name published on a precinct map of Seward Peninsula by Monroe and Hutchins; corrected to June 1903 by Arthur Gibson. This stream cannot be precisely identified on current maps.

Grant Creek: stream, flows S 4.5 miles E to Hanagita River, 1 mile NE of Hanagita Lake and 33 miles SW of McCarthy, Chugach Mountains; 61° 15' 05" N, 143° 49' 45" W; (map 67). Local name published by USGS in 1954.

Grant Creek: stream, flows SE 14 miles to Burroughs Bay, 6 miles SW of its head at mouth of Unuk River, Coast Mountains; 56° 01' 30" N, 131° 11' 30" W; BGN 1923; (map 7). Local name reported in 1923 by USFS.

Grant Creek: stream, flows SE 2.5 miles to Quartz Creek, 11 miles SE of Long and 31 miles SSE of Ruby, Kilbuck-Kuskokwim Mountains; 64° 19' N, 155° 11' W; (map 98). Prospectors' name reported in 1913 by Eakin (1914, pl. 3), USGS. The stream's exact application is in doubt.

Grant Creek: stream, heads in Peters Hills, and flows NW 1.5 miles to Cache Creek 0.9 miles NE of its junction with Trout Creek, 29 miles NW of Talkeetna, Alaska Range; 62° 30' 05" N, 150° 56' 30" W; (map 81). Local name reported in 1948 by USGS.

Grant Creek: stream, heads on Grant Dome, flows SW 11 miles to Yukon River at locality of Grant Creek, 25 miles W of Tanana, Kokrines- Hodzana Highlands; 65° 13' N, 152° 56' W; (map 106). Variant: Newchukli Kaket, Newchuklichargut. Prospectors' name reported by USGS in 1906. This appears to be the stream spelled "Newchuklichargut," i.e., "mouth of the Newchukli [River]," by Lt. Frederick Schwatka, USA, in 1883.

Grant Creek: stream, in Mount McKinley National Park, flows NW 2.5 miles from Mount Eielson to Camp Creek, E of Muldrow Glacier, 2.8 miles SE of Eielson Visitor Center, Alaska Range; 63° 24' 30" N, 150° 22' 50" W; BGN 1932; (map 88). Locally named in 1931 for O. M. Grant "the best known prospector in the region" according to J. C. Reed, Sr., and S. N. Stoner, USGS.

Grant Creek: stream, on Douglas Island, flows 0.7 miles NE to Gastineau Channel, 1 mile W of Juneau, Coast Mountains; 58° 18' 20" N, 134° 27' 00" W; (map 11). Name first used in a mining claim by John McLaughlin and Matt McMahon in 1884. the source of the name is unknown (DeArmond, 1957,p. 23).

Grant Creek: stream, on Kenai Peninsula, heads at Grant Lake, flows SW 1 mile to Upper Trail Lake, 24 miles N of Seward, Chugach Mountains; 60° 28' N, 148° 21' W; (map 63). Name published on recent USGS maps; derived from Grant Lake, which it drains.

Grant Creek: stream, see Tom Creek.

Grant Dome: mountain, 2,750 ft., at head of Grant Creek, 24 miles WNW of Tanana, Kokrines- Hodzana Highlands; 65° 18' N, 152° 52' W; (map 106); Named about 1908 by prospectors for Grant Creek.

Grant Island: island, 2 miles long, at N entrance to Clover Passage on W coast of Revillagigedo Island, Alexander Archipelago; 55° 33' N, 131° 43' W; (map 3). Variant: Giant Island. Named in 1885 by Lt. Comdr. Richardson Clover, USN.

Grant Island: island, see Culross Island.

Grant Lagoon: lagoon, 1 mile long, on W coast of Kodiak Island, 10 miles SW of Karluk; 57° 28' N, 154° 39' W; BGN 1931; (map 35). Named by USC&GS in 1929 for Cape Grant.

Grant Lake: lake, 3 miles long, 4 miles S of Agenuk Mountain and 54 miles N of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 48' N, 158° 33' W; BGN 1932; (map 52). Variant: Nan-yuk-cho-ak. Named by local people for a prospector who lived on the lake many years ago; reported in 1932 by Gerald FitzGerald, USGS; published by Mertie (1938b, pl. 1), USGS.

Grant Lake: lake, 7 miles long, on Kenai Peninsula, 27 miles NE of Seward, Chugach Mountains; 60° 29' 30" N, 149° 18' 00" W; BGN 1910; (map 63). "Named for a local miner"; reported in 1909 by U. S. Grant and D. F. Higgins (in Brooks and others, 1910, pl. 4), USGS.

Grant Peak: peak, 4,575 ft., 8 miles NE of Farragut Bay and 87 miles E of Sitka, Coast Mountains; 57° 12' 50" N, 133° 04' 40" W; (map 8). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for Ulysses Simpson Grant, 1822-1885, 18th President of the United States.

Grant Point: point of land, between Izembek Lagoon and Applegate Cove, 8 miles NW of village of Cold Bay, at SW end of Alaska Peninsula, Bristol Bay Lowland; 55° 16' N, 162° 53' W; (map 29). Named by USBF in 1888 for Ulysses Simpson Grant, 1822-85, President of the United States from 1868-76.

Grant, Cape: point of land, on N shore of Halibut Bay, on W coast of Kodiak Island, 14 miles SW of Karluk; 57° 25' 25" N, 154° 42' 50" W; BGN 1931; (map 35). Named by USC&GS in 1919 for the U.S. Revenue Cutter Grant.

Grant, Point: point of land, see Whidbey, Point.

Grantley Harbor: bay, extends SE 10 miles from Port Clarence at Teller to Tuksuk Channel, Seward Peninsula Highlands; 65° 17' N, 166° 15' W; (map 111). Variant: Port Griantle, H. Griantle. Named in 1827 by Capt. Beechey (1831, p. 543), RN, "in compliment to Lord Grantley."

Grants Cabin: locality, on W bank of Theodore River, 16 miles NE of Tyonek, Cook Inlet Lowland; 61° 15' 45" N, 150° 52' 30" W; (map 70). Local name reported on a 1958 USGS map which indicates a site having two buildings and a winter airplane landing strip.

Granville Portage: pass, 4.5 miles long, trends NE across base of Kupreanof Peninsula, between Stepovak and Ivanof Bays, Aleutian Range; 55° 51' N, 159° 36' W; (map 27). Local name published by USC&GS in 1916 Coast Pilot.

Granville, Cape: point of land, see Chiniak, Cape.

Grape Creek: stream, see Bertha Creek.

Graphite Bay: bight, see Windy Cove.

Graphite Lake: lake, extends NW-SE 4.4 miles, 17 miles W of Coleen Mountain, Yukon Flats; 67° 04' N, 143° 26' W; (map 121). Local name reported in 1956 by T. E. Taylor, USGS.

Graphite Point: bluff, elev. 60 ft., on right bank of Porcupine River, 28 miles NE of Chalkyitsik, Yukon Flats; 66° 59' N, 143° 17' W; (map 120). Local name reported in 1940 by FitzGerald (1944, p. 224), USGS; it "marks the northeastern limit of Yukon Flats" (p. 233).

Grass Creek: stream, flows SE 1.8 miles to Saunders Creek, 9 miles E of Nome, Seward Peninsula Highlands; 64° 29' N, 165° 06' W; (map 94). Prospectors' name shown on a 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Grass Gulch: ravine, heads at locality of Summit, trends E 0.5 miles to Dexter Creek, 6 miles NE of Nome, Seward Peninsula Highlands; 64° 35' 45" N, 165° 20' 30" W; (map 94). Prospectors' name shown on the 1902 "Map of the Nome and Snake River Country" by J. M. Davidson.

Grass Island Bar: bar, 5 miles long, at Copper River Delta, 4 miles off S coast of Alaska, 25 miles SE of Cordova, Malaspina Coastal Plain; 60° 15' N, 145° 17' W; (map 64). Local descriptive name published in 1951 by USGS.

Grass Island: island, 0.1 miles long, at S end of Eldred Passage, on S shore of Kachemak Bay, 10 miles S of Homer, Chugach Mountains; 59° 30' N, 151° 29' W; (map 50). Local name reported and published by USGS in 1950.

Grass Island: island, 300 ft. across, E of Hawkins Island, in Orca Inlet, 2 miles NW of Cordova, Chugach Mountains; 60° 34' 20" N, 145° 46' 50" W; (map 64). Named by Lt. Comdr. J. F. Moser, USN, during his cruise aboard the Fish Commission steamer Albatross along the south coast of Alaska in 1897.

Grass Island: island, 500 ft. long, 0.7 miles S of Copper River Delta, 25 miles NW of Katalla, Malaspina Coastal Plain; 60° 17' 30" N, 145° 11' 30" W; (map 64). Descriptive name given by H. P. Ritter, USC&GS, during his survey work in the area in 1898.

Grass Lake: lake, 0.3 miles across, 6 miles NE of Minto and 38 miles W of Fairbanks, Tanana Lowland; 64° 55' N, 149° 01' W; (map 100). Local descriptive name published in 1950 by USGS.

Grass Lake: lake, 0.4 miles long, E of Rock Lake, 20 miles NNW of Glennallen, Copper River Basin; 62° 21' N, 145° 53' W; (map 83). Local name reported in 1951 by USGS. "So named because it is filled with swamp grasses."

Grass Lake: lake, 0.8 miles long, SW of Midway Lake, 21 miles SE of Tok, Yukon-Tanana Highlands; 63° 13' N, 142° 21' W; (map 85). Local name reported in 1964 by USGS.

Grass Lake: lake, 2 miles long, 5 miles NW of Swan Mountain and 11 miles NE of Arctic Village, Brooks Range; 68° 16' N, 145° 18' W; (map 136). Local descriptive name obtained in 1956 by USGS.

Grass Lake: lake, 8 miles NE of Roundabout Mountain, Koyukuk Lowland; 65° 38' N, 156° 25' W; (map 108). Local name obtained at Huslia by USGS in 1954 or 1955.

Grass Lake: lake, see Big Grass Lake.

Grass Lake: swamp, 3.5 miles long, W of Windmill Lake, 27 miles E of Ruby, Nowitna Lowland; 64° 47' N, 154° 35' W; (map 98). Local name obtained in 1956 by Orth.

Grass River: stream, N tributary of Little Black River, flows NW 41 miles to Seventeenmile Slough, 12 miles NE of Fort Yukon, Yukon Flats; 66° 36' 35" N, 144° 50' 35" W; BGN; 1959; (map 119). Variant: Little Black River. Local name reported in 1952 by USGS.

Grass Rock: rock, 400 ft. long, at mouth of Klakas Inlet, on SW coast of Prince of Wales Island, Alexander Archipelago; 54° 52' 55" N, 132° 23' 20" W (map 1). Named in 1897 by Lt. Comdr. J. F. Moser, USN.

Grass Rock: rock, at mouth of Tamgas Harbor, on S coast of Annette Island, Alexander Archipelago; 55° 01' 28" N, 131° 31' 55" W; (map 3). Descriptive name given in 1883 by Lt. Comdr. H. E. Nichols, USN.

Grass Valley: valley, 5 miles long, extended NW to Herendeen Bay, near SW end of Alaska Peninsula, 19 miles S of Village of Port Moller Aleutian Range; 55° 43' N, 160° 38' W; (map 28). Named in 1890 by Lt. Comdr. Z. L. Tanner USN.

Grass Valley: valley, along Kingsley Creek, extends NW 2 miles to mouth of Nesbit River, 7 miles SE of Mount Bendeleben and 41 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 06' N, 163° 55' W; (map 110). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Grasshopper Creek: stream, flows SE to Norton Sound, about 6 miles E of village of Bluff and 27 miles E of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name shown on Arthur Gibson's "Map of Nome Precinct" dated 1904. This stream cannot be precisely located on current maps.

Grasshopper Valley: valley, extends 3.5 miles along Glacier Fork Knik River, between Knik and Marcus Baker Glaciers, 29 miles SE of Palmer, Chugach Mountains; 61° 25' 30" N, 148° 18' 45" W; (map 69). Local name reported in 1960 by USGS.

Grasstop Rock: rock, 0.1 miles across, at mouth of Deep Bay, in Peril Strait, 25 miles SE of Chichagof, Alexander Archipelago; 57° 26' 05" N, 135° 36' 10" W; (map 9). Descriptive name given in 1884 by Comdr. J. B. Coghlan, USN; published by USC&GS in 1891 Coast Pilot (p. 183).

Grassy Island: island, 0.2 miles across, 31 miles N of Afognak, 1 mile off N coast of Afognak island; 58° 27' N, 152° 47' W; (map 43). Name published by USC&GS in 1928 on Chart 8573.

Grassy Island: island, 2.5 miles long, awash at highest tides, near head of Nushagak Bay, 2 miles S of Dillingham, Bristol Bay Lowland; 59° 00' N, 158° 28' W; (map 40). Variant: Williams Island, William's Island. Descriptive name given in 1952 by USGS called "William's Island" in 1890 by USBF.

Grassy Island: island, 500 ft. long, in Iliamna Lake, 4.3 miles SE of Chekok Point and 23 miles E of Iliamna, Aleutian Range; 59° 46' N, 154° 17' W; (map 51). Local name published in 1954 by USGS.

Grassy Island: island, see Sozavarika Island.

Grassy Lake: lagoon, extends N 1 mile to Lake Bay, on NE coast of Prince of Wales Island, Alexander Archipelago; 56° 01' 00" N, 132° 53' 30" W; (map 6). Local descriptive name reported in 1949 by USGS.

Grassy Lake: lake, 1.3 miles across, 12 miles NW of Minto and 55 miles NW of Fairbanks, Tanana Lowland; 64° 56' 30" N, 149° 32' 30" W; (map 100). Local descriptive name published in 1952 by USGS.

Grassy Mountain: mountain, 3,207 ft., 1.8 miles SE of Bald Mountain, 80 miles NW of Hoonah, St. Elias Mountains; 58° 36' 00" N, 137° 26' 55" W; (map 10). Descriptive name published by members of the Harvard-Dartmouth Expedition, 1933-34 (Washburn and Goldthwait, 1936, map).

Grassy Point: bluff, elev. 50 ft., on N bank of Naknek River S of King Salmon, on Alaska Peninsula 13 miles SW of Naknek, Bristol Bay Lowland; 58° 40' 00" N, 156° 39' 30" W; (map 41). Local name reported in 1952 by USGS.

Grassy Point: point of land, on W shore of Karluk Lake, 19 miles SE of Karluk, Kodiak island; 57° 23' 15" N, 154° 04' 15" W; (map 35). Local descriptive name reported in 1952 by USGS.

Grassy Pond: lake, 0.4 miles across, in Glacier Bay National Monument, 1.3 miles SW of head of Crillon Lake and 80 miles NW of Hoonah, St. Elias Mountains; 58° 34' 40" N, 137° 24' 10" W; (map 10). Name published by members of the Harvard- Dartmouth Expedition, 1933-34 (Washburn and Goldthwait, 1936, map).

Grassy Ridge: ridge, 2 miles long, extends 2 miles SE of Grassy Mountain, 80 miles WNW of Hoonah, St. Elias Mountains; 58° 35' 30" N, 137° 26' 00" W; (map 10). Descriptive name published by members of the Harvard-Dartmouth Expedition, 1933-34 (Washburn and Goldthwait, 1936, map).

Grassy Rock: island, 0.1 miles across, off the W shore of Port Frederick on Chichagof Island, 6.2 miles SW of Hoonah, Alexander Archipelago; 58° 02' 50" N, 135° 33' 45" W; (map 11). Descriptive name published by USC&GS in the 1925 Coast Pilot (p. 345).

Grave Creek: stream, heads at junction of Slate and McLellan Creeks, flows SE 6 miles to Middle Fork Chandalar River, 18 miles E of Chandalar, Brooks Range; 67° 32' N, 147° 48' W; (map 123). Prospectors' name reported in 1899 by Schrader (1900b, pl. 60), USGS.

Grave Island: island, 0.1 miles across, in Southwest Islands, in Pybus Bay, on Admiralty Island, 25 miles SE of Angoon, Alexander Archipelago; 57° 16' N, 134° 05' W; (map 9). Name published in 1928 by USC&GS on Chart 8218. Grave Island Light is located here.

Grave Island: island, 0.1 miles across, in Tenakee Inlet in E central Chichagof Island, 1 mile SE of Tenakee Springs, Alexander Archipelago; 57° 46' 30" N, 135° 11' 50" W; (map 9). Local name reported in 1951 by USGS.

Grave Island: island, 0.2 miles long, 1 mile S of Kake, in Keku Strait on NW coast of Kupreanof Island, Alexander Archipelago; 56° 57' 35" N, 133° 57' 00" W; (map 6). Local name published by USC&GS in 1925 Coast Pilot (p. 215).

Grave Point: point of land, E point of entrance to Klakas Inlet, on SW coast of Prince of Wales Island, Alexander Archipelago; 54° 53' 40" N, 132° 22' 30" W (map 1). Named in 1897 by Lt. Comdr. J. F. Moser USN.

Grave Point: point of land, N end of Pitt Island at N end of Port Frederick on Chichagof Island, 0.2 miles W of Hoonah, Alexander Archipelago; 58° 06' 35" N, 135° 27' 15" W; (map 11). Named by U.S. Navy in 1880 and published by the USC&GS in the 1891 Coast Pilot (p. 196). The point of land was probably the location of an Indian cemetery.

Grave Point: point of land, NE tip of Duke Island, Alexander Archipelago; 55° 00' 15" N, 131° 14' 35" W (map 3). Descriptive name published by USC&GS in 1883 Coast Pilot (p. 72); obtained from local pilots.

Grave Point: point of land, on W shore of Stephens Passage, 1.6 miles W of Taku Harbor and 21 miles SE of Juneau, Coast Mountains; 58° 03' 45" N, 134° 03' 00" W; (map 11). So named in 1869 by Comdr. R. W. Meade, USN, because of some Indian graves on the point. The name was published in 1869 on Navy Hydrog. Chart 225.

Gravel Creek: stream, flows S 2 miles to North Fork Snake River, 15 miles NW of Nome, Seward Peninsula Highlands; Published in 1900 by Schrader (1900c, p. 16), USGS. Subsequent maps show no stream at this location.

Gravel Creek: stream, heads at glacier, flows N 11 miles to Matanuska River, 38 miles NE of Palmer, Chugach Mountains; 61° 46' 50" N, 148° 00' 05" W; (map 69). Local name reported in 1913 by R. H. Sargent, USGS.

Gravel Creek: stream, heads in Shublik Mountains flows E 6 miles to Sadlerochit River, 7.5 miles N of Lake Schrader and 24 miles NW of Mount Michelson, Brooks Range; 69° 29' 30" N, 145° 06' 00" W; BGN 1961; (map 139). So named in 1948 by USGS geologists "because of a prominent gravel terrace exposed along the stream." It was reported in 1960 by C. L. Whittington, USGS.

Gravel Creek: stream, in Nutzotin Mountains, flows SE 9 miles to easternmost of Braye Lakes, 36 miles E of Euchre Mountain, Alaska Range; 62° 03' 10" N, 141° 04' 45" W; (map 84). Descriptive name used by prospectors, reported by Capps (1916, pl. I), USGS.

Gravel Island: island, see Martin Island.

Gravel Mountain: peak, 5,936 ft., in Mount McKinley National Park, 3.7 miles E of Eielson Visitor Center, Alaska Range; 63° 25' 40" N, 150° 11' 25" W; BGN 1932; (map 88). So named by USGS in 1931 because "a curious gravel bank was discovered on top of this mountain * * * ."

Gravel Point: point of land, on S shore of Herendeen Bay, near SW end of Alaska Peninsula, 19 miles SW of village of Port Moller, Aleutian Range; 55° 44' N, 160° 42' W; (map 28). Descriptive name given in 1890 by Lt. Comdr. Z. L. Tanner, USN.

Gravel Point: point of land, on SE shore of Orca Inlet, 8 miles SW of Cordova, Chugach Mountains; 60° 28' N, 145° 58' W; (map 64). Local name published in 1943 by USC&GS.

Gravel Spit Anchorage: anchorage, in Kvichak Bay between Albert Channel and Half Moon Bay, 9 miles NW of Naknek, Bristol Bay Lowland; 58° 50' N, 157° 13' W; (map 41). Local name reported in 1952 by USGS.

Graven, Point: point of land, see Craven, Point

Graves Harbor: bay, 4 miles long, in Glacier Bay National Monument, on Gulf of Alaska, 49 miles NW of Hoonah, St. Elias Mountains; 58° 16' N, 136° 45' W; (map 10). Named by USC&GS in 1901 for Herbert Cornelius Graves, 1869-1919, civil engineer. He was born in Virginia and was a railroad and land surveyor, 1889-95. In 1895 he became a nautical expert with the U.S. Navy Hydrog. Office, and later with USC&GS. In 1915 he was appointed Chief of Hydrography and Topography, USC&GS, and supervised the compilation of the Coast Pilots of the United States and Alaska.

Graves Rocks: rocks, in Glacier Bay National Monument, 1.2 miles long, S of Graves Harbor, 49 miles NW of Hoonah, St. Elias Mountains; 58° 14' 45" N, 136° 45' 15" W; (map 10). Named by USC&GS in 1901 and published in the 1901 Alaska Coast Pilot (p. 212).

Graveyard Cape: point of land, see Graveyard Point.

Graveyard City: locality, on right bank of Yukon River, 2.5 miles S of Russian Mission, Yukon-Kuskokwim Delta; 61° 45' N, 161° 18' W; (map 73). Riverboat pilots' name shown on a 1940 navigation chart of the Yukon River, with the annotation "3 cabins and large grave yard."

Graveyard Cove: cove, 0.1 miles across, S end of Khantaak Island, 0.2 miles N of Point Turner and 2 miles NNW of Yakutat, Malaspina Coastal Plain; 59° 33' 40" N, 139° 46' 50" W; (map 46). Local name published in 1959 by USGS. Name derived from a nearby graveyard.

Graveyard Cove: cove, 0.6 miles across, on E coast of Baranof Island, 1.3 miles NE of Port Alexander, Alexander Archipelago; 56° 16' N, 134° 38' W; (map 5). Local name published in 1927 by USC&GS.

Graveyard Creek: stream, flows NE 9 miles to Crooked Creek, 4.5 miles ESE of Central and 26 miles SW of Circle, Yukon-Tanana Highlands; 65° 33' N, 144° 40' W; BGN 1938; (map 104). Name used by prospectors in recording mining claims; reported in 1937 by USGS.

Graveyard Creek: stream, flows W 16 miles to Kvichak Bay, S of Koggiung, on Alaska Peninsula, 9 miles N of Naknek, Bristol Bay Lowland; 58° 51' 30" N, 157° 00' 45" W; (map 41). Local name reported in 1952 by USGS.

Graveyard Island: island, 0.1 miles long in El Capitan Passage, 0.5 miles N of Sarkar Point, W of Prince of Wales Island, Alexander Archipelago; 55° 57' 50" N, 133° 16' 50" W; (map 4). Descriptive name given in 1924 by USC&GS, because "There are a few Indian graves on the Island."

Graveyard Island: island, see Peratrovich Island.

Graveyard Lakes: lakes, between Black and Porcupine Rivers, 31 miles NE of Fort Yukon, Yukon Flats; 66° 44' N 144° 16' W; (map 119). Local descriptive name obtained in 1956 by USGS.

Graveyard Point: point of land, at Afognak, on S coast of Afognak Island, N of Kodiak island; 58° 00' 45" N, 152° 45' 30" W; (map 43). Variant: Graveyard Cape, Kladbitsha. Translation of the name "M[ys] Kladbishcha," given by Sub-Lt. Mikhail Murashev in 1839 or 1840, and published by the Russian Hydrog. Dept. in 1849 on Chart 1425.

Graveyard Point: point of land, between Kvichak River and Kvichak Bay, on Alaska Peninsula, 10 miles N of Nankek, Bristol Bay Lowland; 58° 52' N, 157° 01' W; (map 41). Local name reported in 1910 by Lt. Comdr. J. F. Moser, USN, of the USBF steamer Albatross.

Graveyard Point: point of land, extends into Kuskokwim River, 4 miles S of Bethel, Yukon-Kuskokwim Delta; 60° 44' 15" N, 161° 44' 00" W; (map 59). Name reported in 1951 by USC&GS; so called "because of an Eskimo graveyard there."

Graveyard Point: point of land, on N shore of Port Fidalgo, 35 miles NW of Cordova, Chugach Mountains; 60° 48' 30" N, 146° 33' 30" W; BGN 1910; (map 64). Local name reported in 1905 by U. S. Grant, USGS.

Graveyard Point: point of land, on NW end of Montague Island, at S end of Prince William Sound, 32 miles NE of Chenega, Chugach Mountains; 60° 20' N, 147° 13' W; (map 63). Local name reported in 1908 by U. S. Grant and D. F. Higgins (in Brooks and others, 1909, pl. 4), USGS.

Graveyard Point: point of land, see Cemetery Point.

Graveyard Slough: stream, anabranch, flows 4 miles to Porcupine River, 32 miles NE of Fort Yukon, Yukon Flats; 66° 45' 30" N, 144° 12' 00" W; (map 119). Local descriptive name obtained in 1956 by USGS.

Gravina Island: island, 0.2 miles long, at S entrance of Port Gravina, 20 miles NW of Cordova, Chugach Mountains; 60° 38' 30" N, 146° 17' 30" W; (map 64). Named in 1898 by Capt. Abercrombie (1900, map), USA. The name is derived from Port Gravina.

Gravina Island: island, 21 miles long and 9.5 miles wide, in Clarence Strait, between Revillagigedo and Prince of Wales Islands, Alexander Archipelago; 55° 17' N, 131° 46' W; (map 3). Variant: Gravina Islands. This island is the northernmost of the group named in 1792 by Don Jacinto Caamano; this name was formally applied to this island in 1793 by Capt. George Vancouver, RN. "It was without doubt named for Frederico Gravina, the prominent Spanish naval officer of the day" (Wagner, 1937, p. 390).

Gravina Islands: island, see Gravina Island.

Gravina Islands: islands, between Clarence Strait and Revillagigedo Channel, include Annette, Duke, Gravina, and Mary Islands, Alexander Archipelago; 55° 10' N, 131° 35' W;

(map 3). Variant: Isla de Gravina. Named “Isle de Gravina,” referring to present-day Gravina and Annette Islands, by Don Jacinto Caamano in 1792. See Gravina Island.

Gravina Point: point of land, at N edge of Orca Bay, 18 miles NW of Cordova, Chugach Mountains; 60° 37' 30" N, 146° 15' 00" W; (map 64). Named in 1898 by Capt. Abercrombie (1900, map), USA, during his exploration of the Copper River region. Name derived from nearby Port Gravina.

Gravina Point: point of land, on Gravina Island, between Nichols Passage and Tongass Narrows, 3 miles S of Ketchikan, Alexander Archipelago; 55° 17' 15" N, 131° 36' 45" W; (map 3). Named in 1879 by W. H. Dall, USC&GS; published in the 1883 Coast Pilot (p. 79).

Gravina River: stream, flows W 17 miles to Port Gravina, 21 miles NW of Cordova, Chugach Mountains; 60° 47' 45" N, 146° 02' 45" W; (map 64). Local name reported in 1908 by U. S. Grant and D. F. Higgins (in Brooks and others, 1909, pl. 4), USGS.

Gravina Rocks: rocks, group of, on S shore of Port Gravina, 20 miles NW of Cordova, Chugach Mountains; 60° 40' 00" N, 146° 15' 30" W; BGN 1910; (map 64). Named in 1908 by Grant and Higgins, (1910, pl. 1 and 2), USGS. Name derived from Port Gravina.

Gravina, Port: bay, 9 miles wide, on N edge of Orca Bay, 22 miles NW of Cordova, Chugach Mountains; 60° 38' N, 146° 23' W; (map 64). Named by Salvador Fidalgo when he took possession June 10, 1790. Probably named for Frederico Gravina, a prominent Spanish naval officer of the day (Wagner, 1937, p. 390).

Gravine, Isla de: islands, see Gravina Islands.

Gray Cliff: cliff, 100 ft., extends 1.5 miles, on NW coast of Kenai Peninsula, 22 miles NE of Kenai Cook Inlet Lowland; 60° 50' N, 150° 57' W; (map 62). Local name reported in 1943 by USC&GS.

Gray Cliff: cliff, see Graystone Cliff.

Gray Cliff: promontory, on NE shore on Seldovia Bay, 0.5 miles N of Seldovia, Kenai Peninsula Chugach Mountains; 59° 27' 15" N, 151° 43' 00" W, BGN 1908; (map 50). Descriptive name reported in 1908 by USC&GS.

Gray Glacier: glacier, heads on NW slope of Ninemile Mountain, trends S 2 miles to its 1955 terminus 8 miles NW of Hyder, Coast Mountains; 56° 00' N, 133° 10' W; BGN 1927; (map 7). Descriptive name given in 1926 by A. F. Buddington, USGS, because the “moraine of this glacier is composed almost wholly of gray granodiorite boulders * * *.”

Gray Mountain: mountain, 6,300 ft., 10 miles long, 17 miles SE of Anaktuvuk Pass and 45 miles NW of Wiseman, Brooks Range; 67° 55' N, 151° 16' W; BGN 1932; (map 124). Named about 1930 by Marshall (1956, p. 107) who wrote, “One mountain to the east was of such striking gray contrast we could not resist giving it the trite name ' Gray Mountain.' “

Gray Peak: mountain peak, 4,770 ft., 5 miles N of Thomas Bay and 97 miles E of Sitka, Coast Mountains; 57° 10' 20" N, 132° 53' 20" W; (map 8). Named in 1887 by Lt. Comdr. C. M.

Thomas, USN, presumably for Asa Gray, 1810-88, botanist at Harvard College, published in 1888 by USC&GS.

Gray Rock: rock, in Khaz Bay, 5.5 miles S of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 35' N, 136° 07' W; BGN 1908; (map 9). Descriptive name given in 1908 by E. F. Dickins, USC&GS; published in 1908 Coast Pilot (p. 171).

Grayback Mountain: mountain, 3,100 ft., 4 miles W of head of Deadman Bay, on S coast of Kodiak island; 57° 08' 35" N, 153° 54' 10" W; BGN 1934; (map 34). Named in 1934 by USC&GS.

Graylime Creek: stream, heads at Limestack Mountain, flows W 9 miles to Anaktuvuk River 7.5 miles N of Rumbling Mountain and 17 miles E of Anaktuvuk Pass, Brooks Range; 68° 07' N, 151° 05' W; (map 134). About this stream Marshall (1956, p. 123) wrote, "It was a large side creek, emerging from a canyon world exclusively made of gray limestone, * * * so we called it ' Graylime Creek'."

Grayline Lake: lake, 0.7 miles long, 1.8 miles NW of Arctic Village, Brooks Range; 8° 09' 30" N, 145° 34' 30" W; (map 136). Local name reported in 1956 by R. C. Foley USGS.

Grayling Creek: stream, flows N 19 miles to Serpentine River, 30 miles SE of Shishmaref Kotzebue-Kobuk Lowland; 66° 03' N, 165° 08' W, (map 112). Local name published in 1952 by AMS.

Grayling Creek: stream, flows S 13 miles to Kuskokwim River, 1.5 miles E of Stewart Bend, 11.5 Miles E of McGrath, Kilbuck-Kuskokwim Mountains 62° 59' N, 155° 15' W; (map 80). Local name reported in 1931 by USGS.

Grayling Creek: stream, flows S 16 miles to Yukon River, W of Eagle Island, 49 miles N of Holy Cross, Nulato Hills; 62° 54' N, 160° 04' W; (map 78). Local name reported in 1903 by A. J. Collier, USGS.

Grayling Creek: stream, flows SE 16 miles to Coleen River, 13 miles NNW of Coleen Mountain, Brooks Range; 67° 17' N, 142° 58' W; (map 121). Local name reported in 1956 by T. E. Taylor, USGS.

Grayling Creek: stream, flows SE 9.4 miles to Melozitna River, 7 miles NW of Ruby, Kokrines-Hodzana Highlands; 64° 49' 30" N, 155° 35' 40" W; (map 98). Local name obtained in 1956 by Orth.

Grayling Creek: stream, flows SW 15 miles through Grayling Lake to Dennis Creek, 44 miles E of Medfra, Kuskokwim Lowland; 63° 10' N, 153° 19' W; (map 89). Local name reported in 1958 by USGS.

Grayling Creek: stream, heads in lake, flows S 3.8 miles through Grayling Lake to Jim River, 34.5 miles E of Bettles, Kokrines-Hodzana Highlands; 66° 55' N, 150° 25' W; (map 117). Local name reported in 1956 by T. E. Taylor, USGS.

Grayling Creek: stream, heads in swamp and flows SE 40 miles to Colville River, Arctic Slope; BGN 1926; 59° 59' N, 158° 10' W; (map 132). Named in 1925 by Gerald FitzGerald, USGS, because it was in this creek his “party caught the first grayling of the season.”

Grayling Creek: stream, see Greyling Creek.

Grayling Creek: stream, see Manker Creek.

Grayling Fork Black River: stream, heads in Canada at 65° 50' N, 140° 20' W, flows NW 80 miles to Black River, 36 miles NW of Midnight Hill, Porcupine Plateau; 66° 09' 30" N, 142° 19' 30" W; BGN 1959; (map 120). Variant: Little Black River, Orange Creek, Orange Fork, Orange River. Local name reported in 1956 by R. C. Foley and T. E. Taylor, USGS. The former name, “Orange Creek,” was applied in 1910 by the IBC survey.

Grayling Hill: mountain, 1,414 ft., 48 miles NE of Medfra, Kuskokwim Lowland; 63° 15' N, 153° 13' W; (map 89). Local name reported in 1958 by USGS.

Grayling Island: island, see Eagle Island.

Grayling Lake: lake, 0.3 miles long, on Kenai Peninsula, 4.5 miles S of Kenai Lake and 10 miles N of Seward, Chugach Mountains; 60° 16' 20" N, 149° 22' 15" W; (map 63). So named in 1964 by Alaska Department of Fish and Game “because the grayling (genus *Thymallus*) was the fish used to stock the lake.”

Grayling Lake: lake, 0.8 miles long, in course of Grayling Creek, 36 miles E of Bettles, Kokrines-Hodzana Highlands; 66° 57' 30" N, 150° 23' 30" W; (map 117). Local name reported in 1956 by T. E. Taylor, USGS.

Grayling Lake: lake, 0.9 miles long, 9 miles W of Lake Louise and 46 miles WNW of Glennallen, Copper River Basin; 62° 18' N, 146° 52' W; (map 83). Local name reported in 1952 by USGS. Named for the fish, Arctic Grayling (*Thymallus signifer*).

Grayling Lake: lake, 1.5 miles long, N of Seven Dikes Mountain and 60 miles NNW of Coleen Mountain, Brooks Range; 67° 58' N, 143° 07' W; (map 121). Local name reported in 1956 by T. E. Taylor, USGS.

Grayling Lake: lake, 5 miles across, in course of Grayling Creek, 48 miles NE of Medfra Kuskokwim Lowland; 68° 13' N, 153° 11' W, (map 89). Local name reported in 1958 by USGS.

Grayling Peak: peak, 1,055 ft., 1.5 miles S of Grayling River, near the right bank of Yukon River, 16 miles N of Anvik, Nulato Hills; 62° 53' N, 160° 06' W; (map 78). Riverboat pilots' name shown on a 1940 “Navigation Chart of the Tanana-Yukon Rivers” published by U.S. Dept. of Interior.

Grayling Slough: stream, 0.5 miles long, on left bank of Yukon River, E of Eagle Island, 16 miles N of Anvik, Innoko Lowland; 62° 52' N, 159° 53' W; (map 78). Riverboat pilots' name shown on a 1940 “Navigation Chart of the Tanana-Yukon Rivers” published by U.S. Dept. of Interior.

Grayling: locality, on right bank of Yukon River, W of Eagle Island, about 21 miles N of Anvik Nulato Hills; 62° 57' N, 160° 03' W; (map 78). Variant: Greyling. Lt. Cantwell (1902, p. 144), USRCS, described this place in 1900 as having a store, a large woodyard to supply steamers and an Indian village of about 75 people. Recent USGS maps indicate a site with three cabins.

Graystone Cliff: cliff, on E coast of Baranof Island facing Chatham Strait, S of Cosmos Cove, 10 miles N of Baranof, Alexander Archipelago; 57° 14' 20" N, 134° 50' 40" W; BGN 1966; (map 9). Variant: Gray Cliff. Recorded about 1948 by USGS.

Graystone Creek: stream, flows NE 3 miles to Gold Creek, 48 miles N of Big Delta, Yukon-Tanana Highlands; 64° 49' 35" N, 145° 36' 15" W; (map 101). Named by prospectors and reported in 1905 by D. C. Witherspoon (in Prindle, 1913a, pl. 1), USGS.

Great Arm Whale Bay: estuary, extends SW 11 miles to Whale Bay, on W coast of Baranof Island, 28 miles NW of Port Alexander, Alexander Archipelago; 56° 36' 30" N, 134° 57' 30" W; (map 5). Variant: Bolshoi Roukav, Bolshoy Rukav. Name published by USC&GS in 1883 Coast Pilot (p. 165); derived from "Bolshoy Ruka," meaning "great sleeve"; published in 1849 by the Russian American Company.

Great Bay: bay, see Sarrigavan Bay.

Great Bend: point of land, on S bank of Kuskokwim River, 32 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 52' N, 158° 06' W; (map 72). Name obtained in 1898 from J. H. Kilbuck missionary, by J. E. Spurr and W. S. Post, USGS.

Great East Rookery: rookery, 0.5 miles NW of Tolstoi Point, on NE coast of St. George Island Pribilof Islands; 56° 36' N, 169° 29' W; (map 38). Variant: An'agchuckn'um-algara' logray, East Rookery, Great Eastern Rookery. H. W. Elliott (1872-1874) called this sea rookery, with 900 ft. of sea-margin, "Great Eastern Rookery." Present usage appears to be "Great East Rookery." The Aleut name according to Putnam (1903, p. 1014), USC&GS, was "An' agchucknun' um-algara' logray' meaning "the rookery at Anagchucknunum." "Anagchucknunum" is the Aleut name for a bluff along the east part of this rookery.

Great Eastern Rookery: rookery, see Great East Rookery.

Great Glacier: glacier, heads on Alaska-Canada boundary, 36 miles NE of Petersburg, trends SE to Stikine River in British Columbia; Coast Mountains; 56° 50' N, 131° 47' W; (map 6). Name reported in 1877 by Joseph Hunter, Canadian engineer and surveyor, who wrote "Great Glacier is said to extend northwest-wardly to the coast about 70 miles, from 35C to 400 feet high."

Great Gorge, The: canyon, in upper course of Ruth Glacier, extends SE 8 miles from Ruth Amphitheater to Glacier Point, 12 miles SE of Denali Pass in Mt. McKinley National Park, Alaska Range; 62° 53' N, 150° 37' W; (map 81). Mountain climbers' name published in the late 1940's.

Great Icefall: icefall, of 800 ft., in Mount McKinley National Park, extends N 0.8 miles in Muldrow Glacier, W of Mount Carpe and 6.5 miles NNE of Mount McKinley, Alaska Range; 63° 09' N, 150° 55' W; (map 88). Climbers' descriptive name published on recent maps.

Great Island: island, see Kodiak Island.

Great Kobuk Sand Dunes: sand dunes, 11 miles long and 3 miles wide, in Kobuk River Valley 45 miles NW of Shungnak; 67° 04' N, 158° 54' W; (map 126). Descriptive name given by Orth in 1956. See Little Kobuk Sand Dunes.

Great Kysa Island: island, see Kiska Island.

Great Lake: lake, see Big Lake.

Great Lake: lake, see Nanvakfak Lake.

Great Muddy, The: stream, see Muddy River.

Great Net Island: island, see Great Sitkin Island.

Great Paimiut Island: island, see Paimiut Island.

Great Ridge: ridge, 2,900 ft., trends SW 20 miles from Eek River to Middle Fork Eek River, 64 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 04' N, 160° 50' W; (map 59). Local descriptive name; reported in 1955 by J. M. Hoare, USGS.

Great Sitchin Island: island, see Great Sitkin Island.

Great Sitchine Island: island, see Great Sitkin Island.

Great Sitkin Island: island, 7.5 miles across, one of Andreanof Islands, Aleutian Islands; 52° 03' N, 176° 06' W; BGN 1890; (map 17). Variant: Chetkina, Eastern Sitkin Island, Great Net Island, Great Sitchin Island, Great Sitchine Island, Nitalikh Island, Seetien Island, Sigdak Island, Sitchin Island, Sitchini Island, Sitkhin Ostrov, Sitkin Island, Tschechina Island, Tsetchina Island. Aleut name published by the Russians as "Os[tröv] Sitkhin," or "Sitkhin Island" (in Sarichev, 1826, map 3). The island was called "Great Net Island" by W. H. Dall, USC&GS (1880, p. 247).

Great Sitkin Pass: water passage, S of Great Sitkin Island, Aleutian Islands; 51° 58' N, 176° 04' W; BGN 1936; (map 17). Name derived from Great Sitkin Island, and given by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

Great Sitkin Volcano: volcano, 5,740 ft., on central Great Sitkin Island, Aleutian Islands; 52° 05' N, 176° 08' W; (map 17). Named for Great Sitkin Island and published by USGS (Coats, 1950, pl. 1).

Great Strelki Bay: bay, see Big Branch Bay.

Great Unknown Creek: stream, flows S 8 miles to Birch Creek, 11 miles S of Mastodon Dome and 55 miles SW of Circle, Yukon-Tanana Highlands; 65° 16' 20" N, 145° 24' 50" W; (map 104). Named by prospectors and reported in 1905 by D. C. Witherspoon, USGS.

Great Valley: valley, 3 miles long extends NE, 3 miles NE of Ptarmigan Dome, 75 miles NW of Hoonah, St. Elias Mountains; 58° 36' 30" N, 137° 14' 00" W; (map 10). Descriptive name published by members of the Harvard-Dartmouth Expedition, 1933-34 (Washburn and Goldthwait, 1936, map).

Grebe Lake: lake, 1 mile across, on Kenai Peninsula SE of Camp Island Lake, 20 miles NE of Kenai, Cook Inlet Lowland; 60° 37' N, 150° 42' W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for Holboell's Red-Necked Grebe (*Podiceps grisigena holboellii*).

Grecian River: stream, see Crescent River.

Greeley, Point: point of land, see Greely Point.

Greely Point: point of land, on E shore on Taku Inlet near its mouth in Stephens Passage, 14 miles SE of Juneau, Coast Mountains; 58° 12' 50" N, 134° 05' 00" W; BGN 1900; (map 11). Variant: Point Greeley. Named in 1890 by Lt. Comdr. H. B. Mansfield, USN, for Gen. Adolphus Washington Greely, 1844-1935, USA, who was a major during the Civil war and commanded the ill-fated International Polar Expedition to Lady Franklin Bay in 1881-84. He was awarded several medals from American and European geographical societies for his achievements. He was also an author of several books on Alaska and the polar regions. Name was published by USC&GS in the 1891 Coast Pilot (p. 153).

Green Acres: suburb, adjacent to S edge of Anchorage 2.7 miles SE of City Hall, Cook Inlet Lowland; 61° 11' 10" N, 149° 50' 30" W; (map 69). Residential district in city of Anchorage reported in 1954 by office of city engineer of Anchorage.

Green Bight: bight, 1.3 miles across on E end of Akutan Island, Krenitzin Islands, Aleutian Islands; 54° 06' 30" N, 165° 40' 00" W; (map 24). Named in 1901 by J. J. Gilbert, USC&GS.

Green Butte: peak, 6,145 ft., on E bank of McCarthy Creek, 7.5 miles NE of McCarthy, Wrangell Mountains; 61° 30' 30" N, 142° 45' 30" W; (map 67). Local name published by USGS in 1954.

Green Cove: cove, 0.2 miles across, on W coast of Iniskin Peninsula, on N shore of Right Arm Iniskin Bay, Aleutian Range; 59° 44' 10" N, 153° 21' 30" W; (map 51). Local name published in 1958 by USGS.

Green Cove: cove, 1 mile across, on N end of Glass Peninsula, 2.6 miles SW of False Arden and 11 miles SE of Juneau, Alexander Archipelago; 58° 09' 15" N, 134° 16' 35" W; (map 11). Local name published in 1940 by USGS.

Green Creek: stream, flows N 1 mile to Lower Willow Creek, which flows to Casadepaga River, 18 miles N of Solomon, Seward Peninsula Highlands; 64° 48' 50" N, 164° 29' 50" W;

(map 95). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Green Creek: stream, flows N 7.5 miles to Moran Creek, 17 miles NNE of Birches Kokrines-Hodzana Highlands; 65° 22' 15" N, 153° 21' 45" W; (map 107). Prospectors' name reported by USGS in the 1940's, but probably was used much earlier.

Green Creek: stream, flows NE 3 miles to Ruby Creek, 52 miles SW of Eagle, Yukon-Tanana Highlands; 64° 38' N, 142° 50' W; (map 102). Prospectors' name shown on a 1902 manuscript map by E. J. Chamberlain, U.S. Deputy Surveyor.

Green Creek: stream, flows to Tributary Creek near its head, about 10 miles NE of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name reported on a prospector's manuscript map dated 1902. This stream cannot be precisely located on current maps.

Green Creek: stream, see Deer Creek.

Green Dome: peak, 6,400 ft., in Mount McKinley National Park, 4.5 miles ESE of Eielson Visitor Center, Alaska Range; 63° 24' 25" N, 150° 10' 40" W; (map 88). Local name reported in 1954 by USGS.

Green Gulch: ravine, see Greer Gulch.

Green Gulch: ravine, trends NW 1.9 miles to Sinuk River, 21 miles NW of Nome, Seward Peninsula Highlands; 64° 43' N, 165° 56' W; (map 94). Prospectors' name published on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Green Gulch: ravine, trends SE 1.3 miles to Woodchopper Creek, 5.5 miles SW of that stream's junction with Yukon River and 41 miles SE of Circle, Yukon-Tanana Highlands; 65° 17' 30" N, 143° 26' 20" W; (map 103). Local name published in 1956 by USGS.

Green Horn Mountain Range: mountain range, see Bendeleben Mountains.

Green Inlet: estuary, extends SW 0.8 miles off View Cove, on E coast of Dall Island, Alexander Archipelago; 55° 04' N, 133° 02' W; (map 4). Local name published in 1932 Coast Pilot (p. 192)

Green Island: island, 0.5 miles long, in SW Davidson Inlet, Alexander Archipelago; 50° 55' N, 133° 37' W; (map 4). Named in 1903 or 1904 by E. F. Dickins, USC&GS, who wrote "named by our party, has no local name."

Green Island: island, 0.5 miles long, in the Village Islands of Uganik Bay, on N coast of Kodiak island; 57° 46' 20" N, 153° 31' 45" W; (map 34). Descriptive name given in 1897 by Lt. Comdr. J. F. Moser, USN, of the USBF steamer Albatross.

Green Island: island, 0.5 miles long, in W part of Bay of Islands, Adak Island, Aleutian Islands; 51° 48' 50" N, 176° 50' 00" W; BGN 1936; (map 17). Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

Green Island: island, 1 mile across, in Shelikof Strait on W coast of Shuyak Island; Kodiak island; 58° 31' 35" N, 152° 40' 00" W; (map 43). Name published by USC&GS in 1928 on Chart 8573.

Green Island: island, 8 miles long, in Montague Strait, 22 miles E of Chenega, Chugach Mountains; 60° 15' 00" N, 147° 28' 30" W; (map 63). Variant: Nicholas Island, Ostrov Nikolay. Descriptive name given by Capt. James Cook (1785, v. 2, p. 364), RN, on May 18, 1778, who said "being entirely free from snow, and covered with wood and verdure, on this account they were called Green Islands." This feature was called "Os[trov] Nikolay," meaning "Nicholas Island," by Sarichev (1826, map 5).

Green Island: island, see Emerald Island.

Green Lake: lake, 0.18 miles across, E of Vega Bay, Kiska Island, Aleutian Islands; 52° 55' 46" N, 177° 27' 36" E; (map 14). An arbitrary name beginning with "G" to correspond to "G" grid used by U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Green Lake: lake, 1 mile long, near head of Silver Bay, 10 miles SE of Sitka, on central Baranof Island, Alexander Archipelago; 56° 59' 45" N, 135° 05' 30" W; (map 5). Local descriptive name reported in 1910 by Adolph Knopf (1912, fig. 4), USGS.

Green Lake: lake, 1 mile long, on Kenai Peninsula in Kenai Mountains, 5 miles E of Tustumena Lake and 44 miles SE of Kenai, Chugach Mountains; 60° 03' 30" N, 150° 29' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Green Lake: lake, 1,400 ft. long, on E shore of Knik Arm Cook Inlet, 4.5 miles NE of Anchorage, Cook Inlet Lowland; 61° 16' 46" N, 149° 50' 05" W; (map 69). Local descriptive name reported in 1942 by AMS.

Green Monster Mountain: mountain, on Prince of Wales Island, near head of Hetta Inlet, E of Lake Josephine, Alexander Archipelago; 55° 14' 45" N, 132° 32' 00" W; (map 4). Local name recorded in 1908 by C. W. Wright (in Brooks and others, 1909, pl. 3), USGS. According to Wright (1915, p. 62), USGS, the Green Monster Mines were located here in 1900.

Green Mountain: mountain, 1,100 ft., on Mansfield Peninsula, 1 mile N of Funter Bay and 16 miles W of Juneau, Alexander Archipelago; 58° 16' 45" N, 134° 52' 10" W; (map 11). Local name published in 1962 by USGS.

Green Mountain: mountain, 2,385 ft., 10 miles S of Tebenkof Bay, on W coast of Kuiu Island, Alexander Archipelago; 56° 20' 15" N, 134° 15' 30" W; BGN 1929; (map 5). Descriptive name given in 1928 by USC&GS because this mountain has a prominent green top.

Green Point: peak, 4,235 ft. in Mount McKinley National Park, E of Muldrow Glacier, 5.4 miles SSW of Eielson Visitor Center, Alaska Range; 63° 21' 30" N, 150° 22' 00" W; BGN 1932; (map 88). Local name obtained in 1925 by S. R. Capps, USGS.

Green Point: point of land, 7 miles S of Petersburg, on E coast of Lindenberg Peninsula, Kupreanof Island, Alexander Archipelago; 56° 42' 00" N, 132° 57' 25" W; (map 6). Variant: Mys Mely, Point Meli. Named in 1883 by W. H. Dall, USC&GS; name published in 1883 Coast Pilot (p. 115). In 1838 the point was called "Mys Mely" meaning "shoal cape" by the Russian, Lindenberg (cna).

Green Point: point of land, at N entrance to Pyramid Harbor, in Chilkat Inlet, 1 mile SW of Pyramid Island and 20 miles SW of Skagway, St. Elias Mountains; BGN 1900; 59° 11' 10" N, 135° 28' 00" W; (map 45). Variant: Indian Point, M[ys] Zelenoi; Pyramid Point. Named "M[ys] Zelenoi" meaning "green cape" by Lindenberg (cna) in 1838; published in 1848 on Russian Hydrog. Dept. Chart 1396. It was called Indian Point in 1869 by Comdr. R. W. Meade, USN. It is the "Pyramid Point" of Capt. L. A. Beardslee, USN, given in 1880; published by USC&GS in the 1883 Coast Pilot (p. 197).

Green Point: point of land, NE tip of Hemlock Island in Port Chester, off W coast of Annette Island, Alexander Archipelago; 55° 09' 55" N, 131° 33' 40" W; (map 3). Name published in 1876 by USC&GS.

Green Point: point of land, on NE shore of Eastern Passage, 5 miles N of Wrangell, Coast Mountains; 56° 32' 30" N, 132° 21' 45" W; BGN 1900; (map 6). Variant: Mys Zelenyy, Zelenoi Point, Zelono Point, Zelony Point. Translation about 1882 by USC&GS of descriptive Russian name "Mys Zelenyy" given in 1863 by the surveyors from the corvette Rynda. See Rynda Island.

Green Point: point of land, on SE side of Chignik Lagoon and NE side of Mallard Duck Bay, 6.5 miles W of Chignik, Aleutian Range; 56° 16' 30" N, 158° 34' 00" W; (map 30). Local descriptive name reported by 1951 USGS field party.

Green Ridge: mountain, 1,200 ft., on W shore of Nakat Bay, on mainland 2 miles NE of Cape Fox, Coast Mountains; 54° 47' 45" N, 130° 48' 30" W; (map 2). Descriptive name given in 1888 by Lt. Comdr. H. E. Nichols, USN.

Green Rock: rock, see Lone Spruce Rock.

Green Rocks Lake: lake, 0.2 miles long, 10 miles S of Petersburg, on E coast of Lindenberg Peninsula, Kupreanof Island, Alexander Archipelago; 56° 39' 50" N, 132° 58' 00" W; (map 6). Local descriptive name obtained in 1953 by USGS.

Green Rocks: rocks, in Wrangell Narrows between Lindenberg Peninsula and Mitkoff Island, 10 miles S of Petersburg, Alexander Archipelago; 56° 40' 05" N, 132° 55' 55" W; (map 6). Variant: Fairway Rocks, Zelenoi Rocks. Published by USC&GS in 1883 Coast Pilot (p. 115); translated from the Russian name "Zelenyy" given in 1838 by Lindenberg (cna). Comdr. R. W. Meade, USN, called this feature "Fairway Rocks" in 1869.

Green Stone Mountain: mountains, see Jade Mountains.

Green Water Creek: stream, flows SSW 18 miles to Kaiyuh Slough, 13 miles S of Nulato, Koyukuk Lowland; 64° 32' N, 158° 10' W; (map 97). Variant: Tulatdlukhna. Appears to be a translation of an Indian name; reported in 1935 by Frederica de Laguna, BAE.

Greene Creek: stream, flows SW through Greene Lake 5.4 miles to North Fork White River, 52 Miles NE of McCarthy, Alaska Range; 61° 47' 25" N, 141° 33' 35" W; (map 67). Local name published by USGS in 1954.

Greene Lake: lake, 0.6 miles long, in course of Greene Creek 0.8 miles E of its junction with North Fork White River and 52 miles NE of McCarthy, Alaska Range; 61° 47' 30" N, 141° 34' 00" W; (map 67). Local name published in 1954 by USGS.

Greenhorn Creek: stream, flows W 1.3 miles to Bottom Dollar Creek, 36 miles SW of Circle, Yukon-Tanana Highlands; 65° 24' 20" N, 144° 48' 40" W; (map 104). Named by prospectors; reported in 1911 by E. A. Porter (in Brooks and others, 1912, p. 245), USGS.

Greenhorn Gulch: ravine, trends N 2.5 miles to Boulder Creek, 39 miles SW of Circle, Yukon-Tanana Highlands; 65° 28' N, 145° 04' W; (map 104). Named by prospectors; reported in 1896 by USGS (in Spurr, 1898, pl. 50).

Greenhorn Lake: lake, 2 miles long, 6.5 miles S of Beaver, Yukon Flats; 66° 15' 40" N, 147° 21' 00" W; (map 118). Local name obtained in 1956 by USGS.

Greenhorn Mountains: mountain range, see Bendeleben Mountains.

Greenough, Mount: mountain, 7,240 ft., in British Mountains, E of Kongakut River, 38 miles SW of Demarcation Point, Brooks Range; 69° 09' 30" N, 141° 39' 30" W; (map 138). In 1826 Sir John Franklin named a prominent mountain in this area probably for George Bellas Greenough, 1778-1855, founder of the Geological Society of London and first president in 1811. The exact location of this mountain is unknown. E. de K. Leffingwell is responsible for the present application of the name.

Greenpoint Glacier: glacier, trends NW 3 miles to Through Glacier, 13.5 miles NW of Hyder, Coast Mountains; 56° 01' 30" N, 130° 19' 00" W; BGN 1927; (map 7). Descriptive name given in 1926 by A. F. Buddington, USGS, because the "two shoulders on either side where it joins the large glacier are both conspicuously covered with trees up to considerable height."

Greens Creek: stream, on Admiralty Island, heads S of Eagle Peak and flows 5 miles W to mouth of Hawk Inlet, 19 miles SW of Juneau, Alexander Archipelago; 58° 05' 55" N, 134° 45' 40" W; (map 11). Local name published in 1942 by USGS.

Greens Head: mountain, 1,820 ft., 6 miles NW of Medfra, Kilbuck-Kuskokwim Mountains; 63° 12' N, 154° 44' W; (map 89). Local name reported in 1920 by G. C. Martin (in Brooks and others, 1922, fig. 5), USGS.

Greens Slough: stream, heads in lake, flows NW 9 miles to Tanana River, 9 miles SE of Tanana, Nowitna Lowland; 65° 05' 30" N, 151° 49' 00" W; (map 106). Riverboat pilots' name shown on a 1940 Navigation Chart of Tanana-Yukon Rivers.

Greenstone Creek: stream, flows SW 3.5 miles to Dime Creek, 2 miles SE of Haycock, Seward Peninsula Highlands; 65° 11' N, 161° 08' W; (map 109). Local name reported in 1917 by G. L. Harrington, USGS.

Greenstone Creek: stream, flows SW 5 miles to Long Creek, 7.5 miles NW of Sulatna Crossing and 32 miles SW of Ruby, Kilbuck-Kuskokwim Mountains; 64° 16' 45" N, 155° 35' 55" W; (map 98). Prospectors' name reported in 1913 by Eakin (1914, pl. 3), USGS.

Greenstone Ridge: ridge, trends SW 13 miles from junction of Kisaralik River and Swift Creek, 57 miles SE of Bethel, Kilbuck-Kuskokwim Mountains, 60° 25' N, 160° 13' W; BGN 1959; (map 59). So named in 1955 by J. M. Hoare, USGS, because "the ridge consists chiefly of greenish colored rocks * * *."

Greentop Harbor: bay, 0.7 miles across, at S tip of Yakobi Island, off W coast of Chichagof Island, Alexander Archipelago; 57° 51' 30" N, 136° 28' 00" W; (map 9). Local name reported in 1951 by USGS.

Greentop Island: island, 0.1 miles across, 1.2 miles NW of Point Theodore, off S coast of Yakobi Island, 20 miles NW of Chichagof, Alexander Archipelago; 57° 51' 20" N, 136° 29' 00" W; (map 9). Descriptive name published in 1928 by USGS. "The top is grass covered."

Greenwood Pass: pass, NE of McNew Hill, eastern Attu Island, Aleutian Islands; 52° 50' 50" N, 173° 23' 45" E; (map 13). Name given by the U.S. Army during World War II and shown on a AMS map published in 1948. The name is not used today.

Greer Gulch: ravine, trends NW 0.6 miles to Puzzle Creek, 11 miles N of Medfra, Kilbuck-Kuskokwim Mountains; 63° 15' N, 154° 45' W; (map 89). Variant: Green Gulch. Local name reported in 1953 by USGS.

Grego, Point: point of land, see Cangrejo, Point.

Gregson Island: island, 0.2 miles across, off E shore of Yakutat Bay, 0.5 miles E of Dolgoi Island and 3.9 miles NE of Yakutat, Malaspina Coastal Plain; 59° 35' 30" N, 139° 39' 30" W; (map 46). Named in 1892 by Lt. G. B. Harber, USN, for G. S. Gregson, one of his party. The name was published by USC&GS on Chart 8455.

Greig, Cape: cliff, elev. 292 ft., on N coast of Alaska Peninsula, 7 miles N of Ugashik Bay and 17 miles NW of Ugashik, Bristol Bay Lowland; 57° 43' 30" N, 157° 41' 30" W; BGN 1897; (map 36). Variant: Cape Creigh, Cape Greigh, Cape Grey, Cap Greigh. Named "C[ap] Greigh" by von Krusenstern (1827, map 17) for Adm. Alexis Greig, 1775-1844, IRN.

Greig, Mount: mountain, 6,240 ft., 5.6 miles NE of junction of South Fork Kuskokwim and Styx Rivers, 90 miles NW of Tyonek, Alaska Range; 61° 56' 15" N, 153° 01' 30" W; (map 71). Variant: Mount Grieg. Named in 1898 by W. S Post and J. E. Spurr, USGS.

Greigh, Cape: cliff, see Greig, Cape.

Greike Glacier: glacier, see Geikie Glacier.

Grenwich Cavo: point of land, see Greville, Cape.

Grenwile Cape: point of land, see Greville, Cape.

Greta Creek: stream, flows E 3.5 miles to Flat Creek, 12 miles NW of Tahnetta Pass and 70 miles SW of Gulkana, Talkeetna Mountains; 62° 02' 40" N, 147° 30' 20" W; (map 82). Local name reported in 1917 by USGS.

Gretchen Lake: lake, 0.6 miles long, on Afognak Island N. of Izhut Bay, 28 miles NE of Afognak, 392 Kodiak island; 58° 18' 00" N, 152° 14' 30" W; (map 43). Local name reported in 1952 by USGS.

Greville, Cape: point of land, 17 miles SE of Kodiak, Kodiak island; 57° 35' 30" N, 152° 09' 30" W; (map 34). Variant: Grenwich Cavo, Grenwile Cape. Named on June 8, 1778, by Capt. Cook (1785, v. 2, p. 405-406), who applied the name to a point 2 miles north, which is now "Cape Chiniak." He wrote, "The land here forms a point, which was named Cape Greville. It lies in the latitude of 57° 33' and is distant fifteen leagues from Cape St. Hermogenes, in the direction of South, 17° West."

Greville, Cape: point of land, see Chiniak, Cape.

Grewingk Creek: stream, on Kenai Peninsula, flows NW 3.5 miles to Kachemak Bay, 12 miles E of Homer, Chugach Mountains; 59° 39' N, 151° 10' W; (map 50). Named for Grewingk Glacier and published by USGS in 1961. See Grewingk Glacier.

Grewingk Glacier: glacier, on Kenai Peninsula, trends NW 12 miles to its terminus at Grewingk Creek 3 miles SW of Kachemak Bay, 15 miles ESE of Homer, Chugach Mountains; 59° 36' 30" N, 151° 07' 00" W; (map 50). Named by W. H. Dall, USC&GS, in 1880, for Constantin Grewingk, who in 1850, published a work in German on the geology and volcanism of Alaska.

Grey Lake: lake, 0.1 miles across, E of Vega Bay, Kiska Island, Aleutian Islands; 51° 55' 53" N, 177° 27' 50" E; (map 14). An arbitrary name beginning with "G" to correspond to "G" grid used by U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Grey Point: point of land, on W shore of Tamgas Harbor, on S coast of Annette Island, Alexander Archipelago; 55° 01' 38" N, 131° 32' 38" W; (map 3). Named in 1891 by USC&GS.

Grey, Cape: cliff, see Greig, Cape.

Greyling Creek: stream, heads in Greyling Lake, flows NE 14 miles to Tonsina Lake, 2.2 miles E of mouth of Tonsina Creek and 35 miles NE of Valdez, Chugach Mountains; 61° 31' 15" N, 145° 32' 00" W; BGN 1932; (map 68). Variant: Grayling Creek. Named in 1898 by prospectors for the Alaska grayling, *Thymallus signifer*, a fresh water fish; reported by Oscar Rohn, of Capt. W. R. Abercrombie's expedition in 1899. USGS published the present spelling in 1932.

Greyling Lake: lake, 1.3 miles long, at head of Greyling Creek, 26 miles NE of Valdez, Chugach Mountains; 61° 23' 45" N, 145° 44' 30" W; (map 68). Local name published in the 1950's by USGS.

Greyling: locality, see Grayling.

Greys Island: island, 1 mile long, in Sumner Strait, 6.5 miles NW of Wrangell, Alexander Archipelago; 56° 31' N, 132° 33' W; (map 6). Named in 1869 by Comdr. R. W. Meade, USN.

Griada Rocks: rocks, see Border Rocks.

Griantle, H.: bay, see Grantley Harbor.

Griantle, Port: bay, see Grantley Harbor.

Grief Island: island, 0.2 miles long, in Duncan Canal, 14 miles SW of Petersburg, on SW coast of Lindenberg Peninsula, Kupreanof Island, Alexander Archipelago; 56° 37' 10" N, 133° 04' 00" W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for charting purposes; name published in 1888 on USC&GS Chart 705.

Griffin Creek: stream, in Tilted Hills, on Iniskin Peninsula, flows SW 3 miles to Brown Creek 4.5 miles NW of Dry Bay, Aleutian Range; 59° 41' 15" N, 153° 11' 00" W; BGN 1962; (map 51). Locally named for a prospector who staked claims and drilled for oil in the area prior to 1903; published in 1958 by USGS.

Griffin Point: point of land, between Beaufort Sea and Oruktalik Lagoon, Arctic Plain; 70° 04' N, 142° 54' W; (map 152). Variant: Point Griffin, Oruktalik Nuvugak. On August 3, 1825, Sir John Franklin (1828, p. 145) wrote, "We halted to sup on a gravel reef that extends from the main shore to Point Griffin, * * *." The Eskimo name for this point of land is "Oruktalik Nuvugak," reported by USC&GS in 1952.

Griffith Island: island, 60 yd. across, in Sitka Harbor, off W coast of Baranof Island, Alexander Archipelago; 57° 03' 30" N, 135° 20' 57" W; (map 9). Name published in 1885 by USC&GS on Chart 727.

Griggs Volcano, Mount: volcano, see Griggs, Mount.

Griggs, Mount: volcano, 7,600 ft., on Alaska Peninsula, in Katmai National Monument, 7 miles NW of Mount Katmai, Aleutian Range; 58° 21' 15" N, 155° 05' 30" W; BGN 1962; (map 42). Variant: Knife Peak, Knife Peak Volcano, Mount Griggs Volcano. Named in 1956 by Gilbert Grosvenor, National Geographic Society, for Robert Fiske Griggs (1881-1962), botanist and leader of six National Geographic Society expeditions to the Katmai District from 1915 to 1930; these expeditions led to the creation in 1918 of the Katmai National Monument. "Knife Peak" was published by USC&GS on a 1911 Coast Chart.

Grikhdalitna Creek: stream, heads E of Hochandochtla Mountain, flows N 18 miles to Koyukuk River, 8 miles SW of Huggins Island, Kokrines-Hodzana Highlands; 65° 46' 30" N, 154° 45' 00" W; (map 107). Koyukan Indian name obtained at Huslia in 1956 by Orth.

Grimm Creek: stream, flows NE 6 miles to Melozimoran Creek, 3.5 miles N of Moran Dome and 30 miles NW of Tanana, Kokrines-Hodzana Highlands; 65° 25' 50" N, 152° 56' 00" W; BGN 1960; (map 106). Prospectors' name reported in 1955 by R. M. Chapman, USGS.

Grindall Island: island, 1.5 miles long, between Clarence Strait and Kasaan Bay, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 26' 35" N, 132° 07' 30" W; (map 4). Named in 1880 by W. H. Dall, USC&GS; derived from Grindall Point.

Grindall Passage: water passage, 1 mile long, between Grindall Island and Kasaan Peninsula, on E coast of Prince of Wales L, Alexander Archipelago; 55° 27' N, 132° 09' W; (map 4). Local name recorded by Lt. Comdr. H. E. Nichols (U.S. Coast and Geodetic Survey, 1891, p. 90), USN.

Grindall Point: point of land, SE tip of Kasaan Peninsula, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 27' 10" N, 132° 09' 15" W; (map 4). Variant: Cape Grindall, Cone Point. Named by Capt. George Vancouver, RN, for Capt. Grindall, RN, "having been discovered by James Johnstone, August 25, 1793" (Wagner, 1937, p. 390). This feature is "Sometimes called by the traders Cone Point" (U.S. Coast and Geodetic Survey, 1883, p. 85).

Grindall: locality, site of village, on E coast of Prince of Wales Island, on Kasaan Peninsula, at Grindall Point, Alexander Archipelago; 55° 27' N, 132° 09' W; (map 4). The Grindall post office was established at Grindall Point in 1900 and discontinued in 1904 (Ricks, 1965, p. 24).

Grindle Hills: hills, 2,700 ft., extend NW-SE 7 miles between Bering Glacier and Hanna Lake, 18 miles SW of Mount Steller, Chugach Mountains; 60° 16' N, 143° 13' W; BGN 1960; (map 65). Named in 1938 by oil company geologists for Melvin Grindle who trapped and guided in this area for many years.

Grindstone Creek: stream, heads just E of Middle Peak and flows S 4.5 miles to Stephens Passage at Cherokee Flats, 12 miles SE of Juneau, Coast Mountains; 58° 12' 30" N, 134° 10' 30" W; BGN 1962; (map 11). Name first used in a mining location notice by J. G. Peterson and Chris Fuhr in 1890. The source of the name is not known (DeArmond, 1957, p. 23). Name was published in 1906 by USGS (Spencer and Wright, pl. 37).

Grindstone Falls: waterfall, on Grindstone Creek, 11 miles SE of Juneau, Coast Mountains; 58° 13' N, 134° 15' W; (map 11). Variant: Granite Falls. Local name mentioned by DeArmond (1957, p. 23).

Grinnell Glacier: glacier, trends E 4 miles to its terminus 1 mile NW of Miles Lake, 35 miles N of Katalla, Chugach Mountains; 60° 43' N, 144° 43' W; (map 64). Named by Lawrence Martin in 1910 presumably for Grinnell College, Grinnell, Iowa, founded 1846.

Grisley Creek: stream, see Grizzly Creek.

Grizzly Bar: moraine, moraine of Norris Glacier, 3 miles across, on W shore of Taku Inlet just S of Taku Glacier, 15 miles NE of Juneau, Coast Mountains; 58° 24' N, 134° 04' W; (map 11). Variant: Norris Outwash. Local name published in 1962 by USGS.

Grizzly Creek: stream, flows NE 1.4 miles to Daisy Creek, 1 mile W of its junction with Tyone Creek and 26 miles SE of junction of Oshetna and Susitna Rivers, Talkeetna Mountains; 62°

16' 45" N, 147° 06' 40" W; BGN 1960; (map 82). Local name reported in 1956 to USGS. The name was "recorded in placer locations on the stream by Pennington and Tyler."

Grizzly Creek: stream, flows NE 6 miles to Wood River 30 miles SE of Healy, Alaska Range, 63° 46' N, 147° 59' W; (map 87). Prospectors' name shown on a 1910 fieldsheet by J. W. Bagley, USGS; published by Capps (1912, pl. 1), USGS.

Grizzly Creek: stream, flows NE 6.5 miles to John River, 11 miles S of Gunsight Mountain and 51 miles W of Wiseman, Brooks Range; 67° 19' 30" N, 152° 02' 00" W; (map 124). Local name obtained in 1956 by USGS topographers.

Grizzly Creek: stream, flows NW 6 miles to Wolf Creek, 47 miles SW of Circle, Yukon-Tanana Highlands; 65° 14' 45" N, 144° 57' 50" W; (map 104). Variant: Grisley Creek. Named by prospectors and reported as "Grisley Creek" by D. C. Witherspoon (in Prindle, 1906, pl. 1), USGS, in 1905.

Grizzly Creek: stream, flows S 1 mile to Norton Sound, 24 miles E of Solomon, Seward Peninsula Highlands; 64° 34' N, 163° 39' W; (map 95). Variant: Trilby Creek. Prospectors' name published in 1956 by USGS. Shown as "Trilby" on Arthur Gibson's "Map of Cape Nome Precinct," dated 1904.

Grizzly Creek: stream, flows SE then SW 7 miles from a glacier on Limestack Mountain to Ernie Creek, 23 miles E of Anaktuvuk Pass, Brooks Range; 68° 03' 30" N, 150° 51' 00" W; BGN 1932; (map 134). In reporting his naming of this stream, Marshall (1956, p. 19) first recounted the events of the previous day when two grizzlies had sent the horses running. Finally he wrote, "I set out up the northeast fork, which we named Grizzly Creek because of our recent adventure."

Grizzly Creek: stream, flows SW 1.5 miles to Nenana River, 3 miles N of village of McKinley Park, Alaska Range; 63° 46' 35" N, 148° 54' 48" W; BGN 1965; (map 87). Named in 1965 by Alaska Dept. of Highways because "Toklat Grizzlies are regular visitors to this creek." See Iceworm Gulch.

Grizzly Lake: lake, 0.3 miles long, drains N to Swift Fork Kuskokwim River, 47 miles W of Mount McKinley, Kuskokwim Lowland; 63° 02' 20" N, 152° 30' 00" W; (map 88). Local name obtained in 1958 from Fabian Carey and "Val" Blackburn by USGS.

Grizzly Lake: lake, 0.4 miles long, S of Glenn Highway, 18 miles NE of Chistochina, Copper River Basin; 62° 42' 45" N, 144° 12' 00" W; (map 83). Local name reported in 1963 by USGS.

Grizzly Lake: lake, 1.4 miles long, 11 miles S of Tanada Lake, Wrangell Mountains; 62° 13' N, 143° 22' W; (map 84). Local name reported in 1959 by USGS.

Grogg Creek: stream, flows NW 2.5 miles to Valdez Creek, 72 miles SE of Healy, Alaska Range; 63° 13' N, 147° 10' W; (map 87). Local name obtained in 1951 by USGS.

Grognon Gulch: ravine, trends NE 1 mile to join Caribou Gulch at the head of Bonanza Creek, 3.3 miles E of Porcupine Dome and 44 miles SW of Circle, Yukon-Tanana Highlands;

65° 30' 45" N, 145° 24' 45" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Gromkopa: locality, off right bank of Yukon River, 27 miles NE of Nulato, Koyukuk Lowland; 64° 48' N, 157° 13' W; (map 97). Indian name shown on a 1905 manuscript navigation chart of Yukon River.

Groosginclouse: estuary, see Cook Inlet.

Grooze: island, see Kruzof Island.

Grose Creek: stream, heads on King Mountain, flows E 0.5 miles to Nome River, 0.3 miles S of Becher Creek and 7 miles NNE of Nome, Seward Peninsula Highlands; 64° 36' N, 165° 17' W; (map 94). Prospectors' name published on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Grosvenor Camp: locality, between Lakes Coville and Grosvenor, on Alaska Peninsula, in Katmai National Monument, 36 miles NW of Mount Katmai, Aleutian Range; 58° 43' 45" N, 155° 29' 30" W; (map 42). Name reported in 1957 by AMS; probably named for Gilbert Hovey Grosvenor, 1875-1966, National Geographic Society.

Grosvenor, Lake: lake, 18 miles long, on Alaska Peninsula, in N part of Katmai National Monument, 22 miles NW of Mount Katmai, Aleutian Range; 58° 41' N, 155° 15' W; BGN 1925; (map 42). Variant: Alinak Lake, Kalhvit Lake, Savonoski Lakes. Named in 1921 by R. F. Griggs, National Geographic Society. Both Lakes Coville and Grosvenor were called "Savonoski Lakes" by the National Geographic Society in 1919; in 1923 both lakes were called "Alinak Lake" by the American Geographical Society, after a former native village near Lake Grosvenor's outlet. The Indian name, "Kalhvit," was reported in 1923 by R. H. Sargent, USGS.

Grosvenor, Mount: mountain, 5,540 ft., E of Meares Glacier, 39 miles W of Valdez, Chugach Mountains; 61° 11' 05" N, 147° 25' 40" W; (map 69). Named in 1910 by Lawrence Martin for Gilbert Hovey Grosvenor, 1875-1966, National Geographic Society.

Grosvold Bay: bay, 1 mile across, on N coast of Korovin Island, in Shumagin Islands, Aleutian Range; 55° 27' N, 160° 12' W; (map 28). Published by USC&GS in 1916 Coast Pilot (p. 175).

Grotto Creek: stream, flows 4.3 miles S to Chitistone River E of Chitistone Mountain, 16 miles NE of McCarthy, Wrangell Mountains; 61° 27' 45" N, 142° 26' 15" W; (map 67). Local name published by USGS in 1954.

Grotto Creek: stream, flows SE 5 miles to Hammond River, 4 miles E of Grotto Mountain and 12 miles N of Wiseman, Brooks Range; 67° 34' 30" N, 150° 02' 00" W; BGN 1932; (map 124). Named about 1930 by Robert Marshall for the mountain.

Grotto Mountain: mountain, 5,140 ft., 12 miles N of Wiseman, Brooks Range; 67° 35' N, 150° 08' W; BGN 1932; (map 124). Named in 1932 by Robert Marshall "because of the appearance of its limestone summits."

Grouch Creek: stream, heads NW of Old Grouchtop, flows S W and NW 50 miles to Innoko River, 52 miles NE of Holikachuck and 53 miles NW of Ophir, Innoko Lowland; 63° 21' 45" N, 158° 09' 10" W; (map 90). Name published in 1965 by USGS.

Groudy Creek: stream, flows W 1 mile to Allene Creek in Agiapuk River basin, 10 miles NE of Teller, Seward Peninsula Highlands; 65° 20' N, 166° 03' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Ground Surface Slough: stream, flows S 3.7 miles to Khotol River, 1.5 miles N of junction of Khotol River and Turotlurna Slough, 23 miles SE of Nulato, Koyukuk Lowland; 64° 25' N, 158° 17' W; (map 97). Variant: Tlatsqeqatna. Appears to be a translation of an Indian name; reported in 1935 by Frederica de Laguna, BAE.

Groundhog Basin: valley, extends NW 1.5 miles to Porterfield Creek, 12 miles E of Wrangell Coast Mountains; 56° 31' 25" N, 132° 04' 30" W, (map 6). Local name published by F. E. Wright and C. W. Wright (1908, fig. 22), USGS.

Groundhog Creek: stream, flows N 9 miles to Rock Creek, 10 miles NW of Nondalton, Alaska Range; 60° 06' N, 155° 04' W; (map 61). Local name reported in 1914 by R. H. Sargent, USGS.

Groundhog Creek: stream, on Kenai Peninsula, flows NE 4 miles to Bench Creek, 18 miles SE of Sunrise, Chugach Mountains; 60° 40' 05" N, 149° 13' 30" W; (map 63). Local name reported in 1912 by Grant and Higgins (1913, pl. 1), USGS.

Groundhog Creek: stream, on N slope of Gastineau Peak, flows 0.5 miles NW to Icy Gulch, 2.4 miles E of Juneau, Coast Mountains; 58° 18' 10" N, 134° 20' 25" W; (map 11). Local name published by Spencer and Wright (1906, pl. 15), USGS. Apparently this creek has been destroyed by mining operations.

Groundhog Hill: hill, probably on N slope of Mount Roberts, about 3 miles SE of Juneau, Coast Mountains; 58° 18' N, 134° 19' W; (map 11). Named by miners about 1885 (DeArmond 1957, p. 37).

Groundhog Islands: islands, see Porcupine Islands.

Groundhog Mountain: mountain, 2,700 ft., 12 miles W of Nondalton and 20 miles NW of Iliamna, Alaska Range; 60° 00' N, 155° 10' W; (map 51). Local name published in 1933 by USGS.

Grouse Creek: stream, flows NE 1.2 miles to Kiwalik River, 50 miles NW of Haycock, Seward Peninsula Highlands; 65° 51' N, 161° 55' W; (map 109). Name "taken from prospectors' stakes"; reported in 1900 by W. J. Peters, USGS.

Grouse Creek: stream, flows NE and SE 5.5 miles to Crooked Creek 13 miles NW of its junction with Kuskokwim River, 43 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 62° 02' 30" N, 158° 15' 30" W; (map 79). Local name reported in 1916 by G. A. I Waring, USGS.

Grouse Creek: stream, flows NW 1 mile to Casadepaga River, 14 miles N of Solomon, Seward Peninsula Highlands; 64° 46' N, 164° 29' W; (map 95). Prospectors' name reported in 1905 by T. G. Gerdine, USGS.

Grouse Creek: stream, flows NW 1 mile to Ophir Creek, which flows to Niukluk River, 3 miles NW of Council and 34 miles NE of Solomon, Seward Peninsula Highlands; 64° 56' N, 163° 43' W; (map 95). Prospectors' name reported on a 1902 prospectors' manuscript map.

Grouse Creek: stream, flows NW 1.2 miles to Aurora Creek which flows to Noxapaga River, 27 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 38' N, 164° 12' W; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Grouse Creek: stream, flows S 1.5 miles to Hunter Creek, 8 miles SE of Rampart, Yukon-Tanana Highlands; 65° 29' N, 149° 56' W, (map 105). Local name published by USGS in the 1950's.

Grouse Creek: stream, flows S 2.5 miles to Chatanika River, 5 miles NNE of Twin Buttes and 40 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 13' 45" N, 146° 53' 00" W; (map 104). Prospectors' name reported in 1902 by Lt. Hjalmar Erickson, USA.

Grouse Creek: stream, flows S W 4.3 miles to Goldbottom Creek, 15 miles N of Nome, Seward Peninsula Highlands; 64° 43' N, 165° 23' W; (map 94). Variant: Gold Bottom Creek. Prospectors' name shown on a 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. See Goldbottom Creek.

Grouse Creek: stream, flows SE 1 mile to Noxapaga River, 0.6 miles SW of Black Creek and 30 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 31' N, 164° 13' W; BGN 1952; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Grouse Creek: stream, flows SE 6.2 miles to Pilgrim River, 28 miles NW of Solomon, Seward Peninsula Highlands; 64° 57' N, 164° 44' W, (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Grouse Creek: stream, flows SW 14 miles to Bear Creek, 20 miles NE of Livengood, Yukon-Tanana Highlands; 65° 43' 30" N, 148° 01' 45" W; (map 105). Local name reported in 1903 by USGS (in Prindle, 1905, pl. 16).

Grouse Creek: stream, flows W 2 miles to Boulder Creek which flows to Tubutulik River, 29 miles N of Elim and 46 miles SE of Imuruk Lake. Seward Peninsula Highlands; 65° 02' N, 162° 13' W; (map 110). Prospectors' name reported in 1900 by W. J. Peters (in Mendenhall, 1901, pl. 20), USGS.

Grouse Creek: stream, formed by junction of its East and South Forks, flows NE 6 miles to Mint River, 41 miles NW of Teller, Seward Peninsula Highlands; 65° 41' N, 167° 21' W, (map 111). Prospectors' name reported in 1900 by Brooks (1901, pl. 13), USGS.

Grouse Creek: stream, see Hot Springs Creek.

Grouse Creek: stream, tributary of Woodchopper Creek, about 10 miles SW of that stream's junction with Yukon River, Porcupine Plateau; 65° 15' N, 143° 30' W; (map 103). Mentioned by Brooks (in Brooks and others, 1907, p. 203), USGS; this feature has not been positively identified.

Grouse Gulch: ravine, at head of Dexter Creek trends SE 0.5 miles to valley of Dexter Creek, 6 miles NE of Nome, Seward Peninsula Highlands; 64° 34' 45" N, 165° 20' 20" W; (map 94). Variant: Deer Gulch. Prospectors' name shown on the 1903 Champion Mining and Trading Co. map by George M. Ashford. Shown as "Deer" on a 1901 map of Cape Nome gold fields by David Fox, Jr.

Grouse Gulch: ravine, tributary to Gold Creek about 2 miles W of Juneau, Coast Mountains; 58° 18' N, 134° 20' W; (map 11). Miners' name for a gulch subsequently destroyed by mining operations (DeArmond, 1957, p. 22).

Grouse Lake: lake, 1.5 miles long, on Kenai Peninsula, 2.3 miles SE of King Lake and 36 miles NE of Kenai, Cook Inlet Lowland; 60° 46' 30" N, 150° 17' 15" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, probably for the Willow Ptarmigan or Snow Grouse (*Lagopus lagopus lagopus*), which breeds in northern Alaska and winters only as far south as Sitka and the Aleutian Islands (Pearson, 1944, pt. 2, p. 20).

Grouse Lake: lake, on Kenai Peninsula, 0.5 miles long, 6.5 miles NE of Seward, Chugach Mountains 60° 12' 00" N, 149° 22' 15" W; (map 63). Local name reported in 1904 by Moffit (1906, pl. 2), USGS.

Grouse Peak: mountain, 3,185 ft., on E coast of Baranof Island, 8.5 miles NW of Port Alexander, Alexander Archipelago; 56° 21' 05" N, 134° 46' 30" W; (map 5). Local name recorded in 1951 by USGS.

Grouse Rock: rock, along mainland, near mouth of Mink Bay, 2 miles ESE of Porpoise Point, Coast Mountains, 55° 05' 05" N, 130° 43' 30" W; (map 3). Local name published in the 1932 Coast Pilot (p. 96).

Grouse Rock: rock, at junction of Clarence Strait and Nichols Passage, 3.5 miles SE of Gravina Island, Alexander Archipelago; 55° 05' 08" N, 131° 42' 05" W; (map 3). Local name reported in 1952 by USGS.

Groves Lake: lake, see Chilok Lake.

Growler Bay: estuary, on E side of Glacier Island, extends NE 3 miles to Prince William Sound, 54 miles NE of Whittier, Chugach Mountains; 60° 54' 00" N, 147° 06' 30" W; (map 63). Local name reported in 1916 by J. W. Bagley, USGS, "because of some ice seen in the water." A growler is a small piece of floating ice.

Grub Gulch: bay, 1-.5 miles across, on S coast of Alaska Peninsula on NW shore of Stepovak Bay, Aleutian Range; 55° 48' N, 159° 57' W; (map 27). Published by USC&GS in 1916 Coast Pilot.

Grub Gulch: ravine, trends W 1 mile to Goldbottom Creek, 15 miles N of Nome, Seward Peninsula Highlands; 64° 43' 10" N, 165° 23' 45" W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Grubstake Creek: stream, flows NW 5 miles to Tatlanika Creek, 45 miles SE of Nenana, Alaska Range; 64° 02' N, 148° 13' W; (map 100). Named by prospectors, reported in 1906 by L. M. Prindle (in Brooks and others, 1907, pl. 4), USGS.

Grubstake Creek: stream, flows W 1.7 miles to Ahtell Creek, 6.3 miles NW of junction of Copper and Slana Rivers, Alaska Range; 62° 47' N, 144° 05' W; BGN 1936; (map 83). Name used by prospectors and reported in 1935 by USGS.

Grubstake Creek: stream, heads in a lake, flows NW 3 miles, through Grubstake Gulch to Willow Creek, 15 miles NW of Palmer, Talkeetna Mountains; 61° 45' 30" N, 149° 25' 50" W; (map 69). Local name reported in 1942 by AMS.

Grubstake Gulch: ravine, heads on Bald Mountain Ridge, extends NW 3 miles to Willow Creek, 15 miles NW of Palmer, Talkeetna Mountains; 61° 45' 30" N, 149° 25' 50" W; (map 69). Prospectors' name reported in 1906 by T.G. Gerdine and R. H. Sargent, USGS.

Grubstake Gulch: ravine, trends SW 1 mile from glacier to White Creek, 17 miles SE of McCarthy, St. Elias Mountains; 61° 16' 45" N, 142° 31' 45" W; (map 67). Prospectors' name taken from a map of Nizina Mining District by George Esterly of Valdez; published by Mendenhall and Schrader (1903, fig. 5), USGS.

Grundler: village, see Big Delta.

Grunt Point: point of land, on E coast of Admiralty Island, 2 miles NW of Gambier Island, and 63 miles NE of Sitka, Alexander Archipelago; 57° 25' 00" N, 133° 50' 15" W; (map 8). Named in 1889 by Lt. Comdr. H. B. Mansfield, USN; name published in 1892 by USC&GS.

Grus Lake: lake, 1 mile long, on Kenai Peninsula, 12 miles S of Moose Point and 27 miles NE of Kenai, Cook Inlet Lowland; 60° 46' 30" N, 150° 40' 20" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, probably for the Whooping crane (*Grus americana*).

Gruskka Lake: lake, 0.5 miles long, on Kenai Peninsula, 0.9 miles W of Quill Lake and 21 miles NE of Kenai, Cook Inlet Lowland; 60° 45' 20" N, 150° 47' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative Purposes.

Gryada, Kamena: rocks, see Border Rocks.

Gu-nah-ho: locality, see Gonaho.

Guadalupe, Ensenada de: bay, see Shelikof Bay.

Guard Hill: hill, 455 ft., between Ogotoruk and Ugalak Creeks, 9.3 miles E of Cape Thompson, Arctic Slope; 68° 08' 42" N, 165° 37' 05" W; BGN 1963; (map 129). Named about 1962 by personnel of Project Chariot.

Guard Island: island, see Hive Island.

Guard Islands: islands, two, larger of which is 600 ft. long, NW of Gravina Island, between Clarence Strait and Tongass Narrows, Alexander Archipelago; 55° 26' 48" N, 131° 52' 45" W; (map 3). Named about 1880 by local navigators; reported by USC&GS.

Guardian Mountain: mountain, 5,060 ft., 2.4 miles SW of Slanting Peak and 15 miles NE of Juneau, Coast Mountains; 58° 30' 20" N, 134° 14' 40" W; (map 11). Local name published in 1960 by USGS.

Gubik: stream, see Colville River.

Gudrum Mountain: hill, 482 ft., 20 miles W of Northeast Cape, 3 miles NE of Soomaghat Mountain, on Saint Lawrence island; 63° 16' 30" N, 169° 18' 30" W; BGN 1951; (map 93). Eskimo name reported in 1949 by Maj. H. B. Allen, USAF.

Guemes, Isla de: island, see Suemez Island.

Guemes: island, see Suemez Island.

Guerin Glacier: glacier, trends N 6 miles from Mount Natazhat to its terminus at head of Traver Creek, 61 miles NE of McCarthy, St. Elias Mountains; 61° 38' 30" N, 141° 07' 30" W; (map 67). Local name published by USGS in 1954.

Guerin Slough: stream, flows W 3.5 miles from Canada near boundary monument 65 to right bank Stikine River, Coast Mountains; 56° 40' N, 131° 51' W; (map 7). Local name reported in 1955 by USGS.

Guerin, Lake: lake, 2 miles long, 14 miles NE of Angoon, on central Admiralty Island, Alexander Archipelago; 57° 39' 00" N, 134° 19' 30" W; (map 9). Name published in 1940 by USGS. Probably named for Eckley C. Guerin, USGS, cadastral engineer, who for many years was actively engaged in Alaskan surveys.

Guertin Island: island, 0.2 miles across, 2 miles SE of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 02' 20" N, 135° 17' 00" W; (map 9). Named in 1880 for Guertin[cnna], USN, and published by USC&GS in the 1883 Coast Pilot (p. 144).

Guerto de Guadalupe, Puerto de: bay, see Mary, port.

Gufmut: locality, on left bank of Jewn River, 3 miles E of Tagayarak and 48 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 17' N, 162° 41' W; (map 58). Eskimo camp or small settlement reported in 1949 by USC&GS.

Gugenheim Creek: stream, see Guggenheim Creek.

Guggenheim Creek: stream, heads 1 mile N of Camelback Mountain, flows N 8.5 miles, to join Deadwood Creek to form Porcupine Creek, 25 miles NE of Flat, Kilbuck-Kuskokwim

Mountains; 62° 39' 45" N, 157° 21' 30" W; (map 79). Variant: Gugenheim Creek. Prospectors' name obtained in 1952 by USGS topographers.

Guguak Bay: cove, 0.5 miles across, on NW coast of Evans Island, on NE side of Prince of Wales Passage, 14 miles S of Chenega, Chugach Mountains; 60° 06' 15" N, 148° 02' 30" W; (map 63). Local name reported in 1951 by USGS.

Guhao Inlet: estuary, 1 mile long, on E coast of Tuxekan Island, 28 miles NW of Craig, Alexander Archipelago; 55° 52' 20" N, 133° 16' 05" W; (map 4). Indian name published in 1964 by USC&GS.

Gui Kangulas: island, 300 ft. long, in Tlevak Strait, between Corlies and McFarland Islands, on W coast of Sukkwan Island, Alexander Archipelago; 55° 06' 40" N, 132° 55' 30" W; BGN 1959; (map 4). Variant: Profit Island. This is a Haida Indian name meaning "an island that is easily recognizable from afar;" reported to be in local use by USC&GS in 1958. The name "Profit Island" was published by USC&GS in 1927 for the triangulation station Profit located here.

Gui-guok-lok: stream, see Peace River.

Gui-guok-lok: stream, see Wind River.

Guibert Islets: islands, 1.5 miles across, between Necker and Whale Bays, on SW coast of Baranof Island, Alexander Archipelago; 56° 38' 30" N, 135° 10' 00" W; (map 5). Variant: Egg Islands, Egg Islets, Necker Isles, Ostrova Yaichnyya, Yaichnia Islets, Yaitchny Islets. Named in 1883 by W. H. Dall, USC&GS; originally named "Necker Isles" by La Perouse on September 5, 1786 (Wagner, 1937, p. 475); in 1850 it was called "O[stro]va Yaichnyya," meaning "egg islands," by the Russian American Company.

Guibert, Port: bay, see Whale Bay.

Guide Island: island, 0.1 miles long, at S entrance to Hayward Strait, Sitka Sound, 9 miles NW of Sitka, Alexander Archipelago; 57° 08' 00" N, 135° 31' 10" W; (map 9). Variant: Guide Islet, Index Islet, Krestofski Islet, Ostrov Krestovskoy, Ostrov Ukazatel, Unastal Island. An 1882 translation by USC&GS of the name published in 1848 on Russian Hydrog. Dept. Chart 1397 as "Os[trov] Ukazatel." This island was originally named "Krestovskoy," meaning "cross," in 1809 by the Russian navigator Ivan Vasilliev the first; published as such by Sarichev (1826, map 19). It was published in 1882 on Brit. Adm. Chart 2431 as "Index Islet."

Guide Island: island, 600 ft. long, in Tlevak Strait, between Dall and Prince of Wales Island, Alexander Archipelago; 55° 13' N, 133° 05' W; BGN 1908; (map 4). Local name reported in 1907 by E. F. Dickins, USC&GS.

Guide Islet: island, see Guide Island.

Guide Point: point of land, on NW coast of Eagle Island in Yukon River, Innoko Lowland; 63° 36' N, 159° 28' W; (map 91). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the U.S. Dept. of Interior.

Guide Rock: rock, in Khaz Bay, 5 miles S of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 35' 30" N, 136° 06' 00" W; BGN 1908; (map 9). Descriptive name given by USC&GS in 1908 and published in 1908 Coast Pilot (p. 171). So named "because it stands at the west point of entrance to Smooth Channel like a guide."

Guide Rocks: rocks, extend 700 ft. off SW coast of Prince of Wales Island, E of Barrier Islands, Alexander Archipelago; 54° 49' 30" N, 132° 21' 00" W; BGN 1922; (map 1). Name reported in 1897 by Lt. Comdr. J. F. Moser, USN.

Guiguoklokpuuk: locality, on right bank and at mouth of Peace River, 49 miles NW of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 43' N, 158° 51' W; (map 52). Eskimo village or camp shown as "Gui-guok-lok-puk" on a 1910 manuscript map by H. C. Fassett, USBF. It is now abandoned.

Guillemont Island: island, see Guillemot Island.

Guillemot Island: island, 1.7 miles long, near mouth of Stepovak Bay, Aleutian Range; 55° 32' 45" N, 160° 22' 00" W; BGN 1939; (map 28). Variant: Gillemot Island, Guillemont Island, Iachnoi Island, San Diego Island, Yaichni Island. Named "O[strov] Iachnoi," meaning "egg island," by Capt. Tebenkov (1852, map 24), IRN; renamed "Guillemot Island" in 1880 by W. H. Dall, USC&GS.

Guingmetolik Creek: stream, see Kingmetolik Creek.

Guishiemana Lake: lake, 1 mile long, 8 miles SW of Echoing Lake and 21 miles NW of Stevens Village, Yukon Flats; 66° 14' 00" N, 149° 36' 30" W; (map 118). Indian name reported in 1956 by T. E. Taylor, USGS.

Guktu Point: point of land, on W coast of Prince of Wales Island, 20 miles N of Craig, Alexander Archipelago; 55° 45' 05" N, 133° 17' 15" W; (map 4). Indian name published in 1956 by USC&GS.

Gukyuk Slough: channel, 4.5 miles long, anabranch of Kawanak Pass, in distributary system of Yukon River, 17 miles NE of Kwiguk Yukon-Kuskokwim Delta; 62° 58' 30" N, 164° 13' 00" W; (map 77). Eskimo name obtained in 1899 by R. L. Faris, USC&GS; published in 1901 on Chart 9372.

Gula Point: point of land, N tip of Segula Island, Rat Islands, Aleutian Islands; 52° 03' 30" N, 178° 08' 40" E; BGN 1937; (map 15). This point of land was named by 1935 U.S. Navy Survey Expedition. "Gula" comes from "Segula," the island's name.

Gulch Creek: stream, flows NE 6 miles to Salcha River, 22 miles W of Twin Mountain and 52 miles S of Circle, Yukon-Tanana Highlands; 65° 04' 45" N, 144° 03' 30" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Gulch Creek: stream, on Kenai Peninsula, flows SW 5.5 miles to East Fork Sixmile Creek, 7.5 miles SE of Sunrise, Chugach Mountains, 60° 46' 30" N, 149° 24' 00" W; (map 63). Local name reported in 1895 by G. F. Becker (1898, p. 82), USGS.

Gulkana Glacier: glacier, heads on Icefall Peak, trends SW 6 miles to its 150 terminus at head of Gulkana River, 14 miles N of Paxson, Alaska Range; 63° 14' 30" N, 145° 28' 00" W; (map 86). Variant: West Gulkana Glacier. Local name shown on 1910 fieldsheet by C. E. Giffin. USGS.

Gulkana Lake: lake, see Paxson Lake.

Gulkana River: stream, flows S 60 miles from Gulkana Glacier to Copper River, 9 miles NE of Glennallen, Alaska Range; 62° 13' N, 145° 24' W; (map 83). Variant: Culkana, Culkena, Gulkena, Kulkana, Tonkina. Indian name reported by Oscar Rohn in 1899 as "Kulkana." Capt. W. R. Abercrombie, USA, changed Rohn's spelling to its present form. Lt. H. T. Allen, USA, reported "Tonkina" as the stream's Indian name in 1885.

Gulkana: village, pop. 59, on Richardson Highway at Gulkana River crossing, 1.6 miles SW of junction of Glenn and Richardson Highways, Copper River Basin; 62° 16' N, 145° 23' W; (map 83). Variant: Kulkana. This village was established about 1903 as a telegraph station and named "Kulkana" by the U.S. Army Signal Corps after the nearby river. The Gulkana post office operated between 1909 and 1954 (Ricks, 1965, p. 24).

Gulkena: stream, see Gulkana River.

Gull Bay: bay, see Udamat Bay.

Gull City: area, on flats near mouth of Gold Creek, in Juneau, Coast Mountains; 58° 18' 00" N, 134° 25' 10" W; (map 11). Name is said to have been derived from the seagulls which frequented this area. The name was in common usage in the 1800' s, but is now seldom used (DeArmond, 1957, p. 23).

Gull Cove: cove, 0.6 miles across, on N end of Chichagof Island, 5 miles W of Mud Bay, 27 miles NW of Hoonah, Alexander Archipelago; 58° 12' 50" N, 136° 09' 45" W; (map 10). Named by E. F. Dickins, USC&GS, in 1902 and published on Chart 8304 in 1904.

Gull Creek: stream, flows NE 6 miles from Gull Pass to Alatna River, Brooks Range; 67° 41' N, 154° 38' W; (map 125). P. S. Smith (1913, p. 35-36), USGS, reports that according to prospectors the stream and pass were named for the first white man to use this route between the Alatna and Noatak Rivers, probably about 1898.

Gull Hill: hill, 509 ft., E of Tolstoi Point, on E coast of St. George Island, Pribilof Islands; 56° 35' 40" N, 169° 30' 15" W; (map 38). Variant: Alcho'-koverushka'. Local name reported by Elliott (1881, Saint George map). Putnam (1903, p. 1014), USC&GS, lists the Aleut-Russian name as Alcho'-koverushka' , meaning "lower hill"; so called because it is about 136 ft. lower than adjacent North Sealion Hill.

Gull Hill: hill, between village of St. Paul and Reef Point, on S coast of St. Paul Island, Pribilof Islands; 57° 06' 50" N, 170° 16' 13" W; (map 38). Name reported in 1897 by W. W. Duffield, USC&GS.

Gull Island: island, 0.1 miles across, in Pavlof Bay near SW end of Alaska Peninsula, Aleutian Range; 55° 29' 30" N, 161° 37' 15" W; (map 28). Named in 1929 by USGS.

Gull Island: island, 0.1 miles across, near W entrance to Zachary Bay, Unga Island, in Shumagin Islands, Aleutian Range; 55° 24' 30" N, 160° 38' 30" W; (map 28). Probably named by Western Union Telegraph Expedition in 1865; published by USC&GS in 1872 report.

Gull Island: island, 0.1 miles long, at entrance to Peterson Bay, on E shore of Kachemak Bay, Kenai Peninsula, 8 miles SE of Homer, Chugach Mountains; 59° 35' 10" N, 151° 19' 45" W; (map 50). Local name reported in 1895 by W. H. Dall, USGS.

Gull Island: island, 0.2 miles long, off NW coast of Shuyak Island, 48 miles N of Kodiak island; 58° 36' 00" N, 152° 38' 30" W; (map 48). Variant: Chaichie Island. Translation of the name "Os[trov] Chaichyey," published by Lt. Sarichev (1826, map 16), IRN.

Gull Island: island, 0.2 miles wide, in Iphigenia Bay, 2.7 miles SW of Cape Lynch, Heceta Island, Alexander Archipelago; 55° 45' 00" N, 133° 44' 20" W; (map 4). Name published in 1906 by USC&GS.

Gull Island: island, 0.3 miles long, at entrance to Chinitna Bay, 54 miles NW of Homer, Alaska Peninsula, Aleutian Range; 59° 50' 30" N, 152° 59' 10" W; (map 50). Local name published in 1923 by the ARC. So named "for the number of gulls that inhabit the island."

Gull Island: island, 0.3 miles long, at mouth of Prudhoe Bay, on Beaufort Sea coast, 20 miles SE of Beechey Point, Arctic Plain; 70° 22' N, 148° 22' W; (map 150). Named by Leffingwell (1919, p. 96) while he was mapping the coast with Samuel McIntyre in September, 1910.

Gull Island: island, 0.3 miles long, in Saint Paul Harbor 1 mile SW of Kodiak, Kodiak island; 57° 46' 40" N, 152° 25' 20" W; (map 34). Variant: Chaichi, Ostrov Chaichey. This is a translation of the Russian name "O[strov] Chaichey" published by Sarichev (1826, map 16).

Gull Island: island, 0.4 miles across, in Favorite Channel, 3.5 miles NW of Pearl Harbor and 22 miles NW of Juneau, Coast Mountains; 58° 30' 10" N, 134° 52' 00" W; (map 11). Named in 1880 by Capt. L. A. Beardslee, USN, and published by USC&GS in the 1883 Coast Pilot (p. 195). The island was so named because "it was covered by sea gulls."

Gull Island: island, 0.5 miles across, in Anderson Bay, part of Makushin Bay, on W coast of Unalaska Island, Aleutian Islands; 53° 40' 10" N, 166° 49' 00" W; (map 23). Local name published in 1951 on a USGS map.

Gull Island: island, 0.5 miles long, in Yukon River, 19 miles NE of Stevens Village, Yukon Flats; 66° 09' N, 148° 31' W; (map 118). Local name obtained in 1956 by USGS.

Gull Island: island, 600 ft. long, at NW end of Prince William Sound, 0.5 miles E of Goose Island, 35 miles NW of Cordova, Chugach Mountains; 60° 43' 30" N, 146° 42' 10" W; (map 64). Local name reported by H. P. Ritter, USC&GS, while doing hydrographic surveys in the Prince William Sound region in 1903.

Gull Island: island, 600 ft. long, between Nichols Passage and Port Chester, 1 mile NW of Metlakatla, Alexander Archipelago; 55° 08' 30" N, 131° 35' 30" W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Gull Island: island, in Mine Harbor, on SE shore of Herendeen Bay Aleutian Range; 55° 45' 40" N, 160° 41' 30" W; (map 28). Named in 1890 by Lt. Comdr. Z. L. Tanner, USN.

Gull Island: island, see Kutkan Island.

Gull Island: rock, in Chignik Bay, 1 mile S of Cape Kumlium and 21 miles NE of Chignik, Aleutian Range; 56° 28' N, 157° 57' W; (map 31). A USC&GS party established a triangulation station here called Gull in 1920; the island was named in 1923 by R. H. Sargent, USGS.

Gull Island: rock, see Gull Rock.

Gull Islands: islands, see Baby Islands.

Gull Islands: islands, two, largest 0.3 miles long, in Imuruk Lake, 4.7 miles W of Kettle Dome, Seward Peninsula Highlands; 65° 36' N, 163° 11' W; BGN 1954; (map 110). Reported in 1953 by D. M. Hopkins, USGS; islands so named "because they are the nesting place of a large colony of herring gulls."

Gull Islet: island, 0.2 miles across, W of Baranof Island, 4 miles S of Sitka, Alexander Archipelago; 56° 59' 45" N, 135° 20' 30" W; (map 5). Variant: Chaiki, Gull Rocks, Kamen Chayki. This is a translation by USGS of the name given in 1809 by the navigator Ivan Vasiliev the first, IRN. Lt. Sarichev (1826, map 19), IRN, published it as "K[amen] Chayki." Lt. Comdr. H. E. Nichols, USN, later translated the name literally as "Gull Rocks" which was published in the 1891 Coast Pilot (p. 173).

Gull Lake: lake, 0.6 miles long, on NW coast of Kenai Peninsula, S of Gray Cliff, 21 miles NE of Kenai, Cook Inlet Lowland; 60° 44' N, 150° 57' W; (map 62). Named about 1963 by officials of Kenai National Moose Range for administrative purposes.

Gull Lake: lake, 1 mile long, 2 miles SE of Gailey Lake and 31 miles NE of Fort Yukon, Yukon Flats; 66° 47' 40" N, 144° 17' 00" W; (map 119). Local descriptive name obtained in 1956 by USGS.

Gull Lake: lake, see Norutak Lake.

Gull Pass: pass, 3,500 ft., between Lucky Six Creek to the S and Gull Creek to the N, 25 miles SW of Survey Pass, Brooks Range; 67° 37' N, 154° 47' W; (map 125). P. S. Smith (1913, p. 35-36), USGS, reports that according to prospectors the pass and stream were named for the first white man that used this route between the Alatna and Noatak Rivers, probably about 1898.

Gull Point: point of land, NW tip of Onslow Island, Alexander Archipelago; 55° 54' 20" N, 132° 23' 45" W; (map 4). Named in 1886 by Lt. Comdr. Snow, USN.

Gull Point: point of land, on S shore of Herendeen Bay, at SW end of Alaska Peninsula, Aleutian Range; 55° 43' 30" N, 160° 40' 30" W; (map 28). Named in 1890 by Lt. Comdr. Z. L. Tanner, USN.

Gull Point: point of land, on S shore of Ugak Bay, on E coast of Kodiak island; 57° 23' N, 152° 06' W; (map 34). Variant: Gulls Point, Mys Chaichey, Mys Chiachi, Mys Govorushiche, Mys Govorushichiy. Name recorded in 1805 as "Gulls Point" by Lisianski (1814, map facing p. 169). In 1848 the Russian American Company published the name "M[ys] Chaichey," meaning "seagull cape," for this feature; Capt. Tebenkov (1852, map 23) called it "M[ys] Govorushichiy" meaning "Kittiwake (gull) Cape." H. W. Elliot says "Chikie" is the Russian for the Burgomaster gull (*Larus glaucus*).

Gull Rock: point of land, on N coast of Kenai Peninsula, near mouth of Turnagain Arm, 5.5 miles NW of Hope, Chugach Mountains; 60° 58' 05" N, 149° 46' 00" W; (map 63). Name published in 1943 by USC&GS.

Gull Rock: rock, in Bering Sea, 1 mile W of Pinnacle Island, 12 miles S of St. Matthew island; 60° 12' N, 172° 48' W; (map 56). Named by H. W. Elliott in 1874. Lt. Sarichev (1826, map 3), IRN, notes that it is a "rock with gravel."

Gull Rock: rock, in Davison Bay, 12 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 47' 10" N, 136° 19' 05" W; (map 9). Name published by USC&GS in 1925 Coast Pilot (p. 322).

Gull Rock: rock, in Lake Bay, on NE coast of Prince of Wales Island, Alexander Archipelago; 56° 02' 20" N, 132° 52' 00" W; (map 6). Local name used by fishermen and published in 1907 by USC&GS.

Gull Rock: rocks, two, off S coast of Alaska Peninsula, at head of Stepovak Bay, Aleutian Range; 55° 50' 30"N, 159° 45' 00"W; (map 27). Variant: Gull Island, Gull Rocks. Published by USC&GS in 1916 Coast Pilot.

Gull Rocks: island, see Gull Islet.

Gull Rocks: islands, see Baby Islands.

Gull Rocks: rocks, see Gull Rock.

Gull, Cape: point of land, on S coast of Alaska Peninsula, in Katmai National Monument, between Kafia and Kuliak Bays 30 miles E of Mount Katmai, Aleutian Range; 58° 13' 00" N, 154° 08' 30" W; (map 42). Variant: Cape Govorushek, Mys Govorushechiy, Mys Govorushek, Mys Zowoputchek. H. W. Elliott's translation (1882, p. 173) of "M[ys] Govorushechiy" published in 1847 on Russian Hydrog. Dept. Chart 1378. "Cape Gull" was published by USC&GS in the 1916 Coast Pilot (p. 155).

Gullhead Point: point of land, see Toawlevic Point.

Gullied Peak: peak, 3,350 ft., 1.2 miles SE of Hugh Miller Glacier, in Glacier Bay National Monument, 61 miles NW of Hoonah, St. Elias Mountains; 58° 44' 20" N, 136° 36' 45" W; (map 10). Descriptive name reported in 1951 by USGS.

Gulliver Cove: cove, in two parts, 0.4 miles across, 0.5 miles N of Vega Point, SE coast of Kiska Island, Aleutian Islands; 51° 50' 15" N, 177° 19' 30" E; (map 14). One of many arbitrary names applied to features on Kiska Island by USAAF for tactical purposes during World War II.

Gulls Point: point of land, see Gull Point.

Gulo Creek: stream, flows NW 1.2 miles to Niyiklik Creek 2.1 miles N of its junction with Ogotoruk Creek and 10 miles NE of Cape Thompson, Arctic Slope; 68° 10' 55" N, 165° 37' 30" W; BGN 1963; (map 129). Named about 1962 by personnel of Project Chariot.

Gulrass Point: point of land, see Culross, Point.

Gum Bay: bay, see Lagoma Bay.

Gumaer, Lake: lake, see Gasoline Lake.

Gumbo Creek: stream, flows SW to Delome Creek which flows to Kuzitrin River, about 15 miles NW of Mount Bendeleben, Seward Peninsula Highlands; (map 110). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This stream cannot be precisely located on current maps.

Gumboot Basin: basin, 2 miles long, on Millard Creek, 38 miles NW of Cordova, Chugach Mountains; 60° 54' 30" N, 146° 33' 00" W; (map 64). Local name reported in 1912 by S. R. Capps and B. L. Johnson (in Brooks and others, 1913, pl. 1), USGS.

Gumboot Gulch: ravine, trends SW 1 mile to Cleveland Creek which flows to Cripple River, 14 miles NW of Nome, Seward Peninsula Highlands; 64° 39' 20" N, 165° 44' 00" W; (map 94). Prospectors' name shown on the 1904 "Map of Cape Nome Precinct" by Arthur Gibson.

Gun Creek: stream, see Gunn Creek.

Gun-guk-ha-mut: locality, see Gunguk.

Gunboat Island: island, 0.1 miles across, between Sanak and Caton Islands, one of Sanak Islands, Aleutian Range; 54° 21' 25" N, 162° 28' 40" W; (map 25). Name published in 1949 on a USGS map.

Gunboat Lakes: lakes, on E coast of Kenai Peninsula, trends NW-SE 1.7 miles, 15 miles NE of Chenega, Chugach Mountains; 60° 29' N, 148° 00' W; (map 63). Name published on 1950 USGS map.

Gunboat Rock: rock, W of Baranof Island, in Biorka Channel, among Necker Islands, Alexander Archipelago; 56° 49' 50" N, 135° 30' 50" W; BGN 1926; (map 5). Named in 1925 by USC&GS because "from a distance it looks like a gunboat."

Gungnoruk Creek: stream, flows W 3 miles to Dahtkit Cove, 17 miles SW of Cape Etolin, on N coast of Nunivak island; 60° 19' 30" N, 166° 34' 00" W; (map 57). Eskimo name reported in 1937 by USAAF.

Gungnuk: locality, on E shore of Golovnin Bay, N side of Norton Sound near Mission, 10 miles N of Cape Darby, Seward Peninsula Highlands; 64° 15' 24" N, 162° 48' 00" W; (map 95). Eskimo name for an archeological site reported by Giddings (1964, p. 179) who discovered a "culture earlier than those of the neo-Eskimos of the region * * *" here.

Gunguk: locality, on right bank of Nushagak River, 5 miles S of mouth of Kokwok River, 32 miles NE of Dillingham, Bristol Bay Lowland; 59° 15' N, 157° 40' W; (map 52). Variant: Gunguk-ha-mut. Eskimo village or camp shown as "Gun-guk-ha-mut" on a 1910 manuscript map by H. C. Fassett, USBF. The place is now abandoned.

Gunn Creek: stream, flows S and NW 13 miles to Gulkana River, 0.8 miles N of Summit Lake and 10 miles N of Paxson, Alaska Range; 63° 10' 12" N, 145° 31' 55" W; (map 86). Variant: Gun Creek. Name published on relatively recent maps.

Gunn Lakes: lakes, two, larger is 1.7 miles long, W of Gakona Glacier terminus, 8 miles NE of Paxson, Alaska Range; 63° 07' 40" N, 145° 18' 30" W; (map 86). Name published on relatively recent maps.

Gunners Cove: cove, 0.4 miles across, on NE coast of Rat Island, Aleutian Islands; 51° 48' 45" N; 178° 19' 10" E; BGN 1937; (map 15). Named by 1935 U.S. Navy Survey Expedition.

Gunnison Creek: stream, flows NW 2 miles to Washington Creek, 20 miles N of Fairbanks, Yukon-Tanana Highlands; 65° 09' N, 147° 53' W (map 105) Local name published by USGS in the 1950's.

Gunnison Creek: stream, flows NW 6.5 miles to Troublesome Creek, 15 miles SE of Rampart, Yukon-Tanana Highlands; 65° 27' N, 149° 41' W; (map 105). Named by prospectors; reported in 1908 by USGS (Covert and Ellsworth, 1909, pl. 5).

Gunnuk Creek: stream, flows SW 5 miles to Keku Strait at Kake, on NW coast of Kupreanof Island, Alexander Archipelago; 56° 58' 10" N, 133° 55' 55" W; (map 6). Local name recorded in 1951 by USGS.

Gunnysack Creek: stream, flows SE 3 miles to Birch Lake, 28 miles NW of Big Delta, Yukon-Tanana Highlands; 64° 19' 30" N, 146° 40' 00" W; (map 101). Local name published in 1956 by USGS.

Gunnysack Creek: stream, heads at glacier terminus, flows NW 4 miles to Delta River, crosses Richardson Highway, 36 miles S of Delta Junction, Alaska Range; 63° 31' 30" N, 145° 51' 20" W; (map 86). So called, about 1903, because two men, nicknamed "Gunny Sack Kid" and "Gunny Sack Jack," carried supplies in a gunny sack to their cabin at a prospect on this stream (Davies, 1965, p. 23).

Gunsight Creek: stream, flows W 2 miles from N flank of Gunsight Mountain to John River, 8.5 miles N of mouth of Allen River and 53 miles W of Wiseman, Brooks Range; 67° 29' 30" N, 152° 06' 00" W; (map 124). Local name obtained in 1956 by USGS topographers.

Gunsight Creek: stream, heads on Gunsight Mountain and flows NE 2.5 miles to Squaw Creek, 59 miles NE of Palmer, Talkeetna Mountains; 61° 53' 20" N, 147° 25' 25" W; BGN 1960; (map 69). Named in 1956 by USGS for Gunsight Mountain.

Gunsight Creek: stream, on Revillagigedo Island, flows NE 3.3 miles to Carroll Inlet, Alexander Archipelago; 55° 30' 45" N, 131° 20' 07" W; BGN 1923, (map 3). Named in 1923 by USFS.

Gunsight Mountain: mountain, 2,976 ft., E of Siksikpuk River, 10 miles S of junction Siksikpuk and Chandler Rivers and 41 miles N of Anaktuvuk Pass, Arctic Slope; 68° 43' N, 151° 50' W; BGN 1960; (map 134). So named by USGS geologists about 1950 because it forms a "prominent landmark used by pilots flying between Fairbanks and Umiat."

Gunsight Mountain: mountain, 4,225 ft., N of junction of Allen and John Rivers and 50 miles W of Wiseman, Brooks Range; 67° 28' 40" N, 152° 00' 45" W; (map 124). Local descriptive name obtained in 1956 by USGS topographers.

Gunsight Mountain: peak, 6,441 ft., at E end of Sheep Mountain, 56 miles NE of Palmer, Talkeetna Mountains; 61° 50' 45" N, 147° 27' 50" W; (map 69). Local name reported in 1952 by USGS.

Gunsight Mountain: peak, 7,460 ft., in Mount McKinley National Park, W of Muldrow Glacier and 12 miles NE of Mount McKinley, Alaska Range; 63° 13' N, 150° 50' W; (map 88). Climbers' name shown on recent maps.

Gunsight Pass: pass, 6,400 ft., in Mount McKinley National Park, W of Muldrow Glacier, 11 miles NE of Mount McKinley, Alaska Range; 63° 12' 15" N, 150° 57' 00" W; BGN 1947; (map 88). So named in 1942 by the U.S. Army Alaska Test Expedition, because it is a "V-shaped declivity separating the Muldrow and Peters Glacier valleys."

Gunsight Pass: pass, on Siksikpuk River, W of Gunsight Mountain, 42 miles N of Anaktuvuk Pass, Arctic Slope; 68° 44' 15" N, 151° 54' 30" W; BGN 1960; (map 134). Named by USGS geologists about 1950 "after the mountain"

Gurkin Creek: stream, flows SE 2.5 miles to Nizina Glacier, 20 miles NE of McCarthy, Wrangell Mountains; 61° 36' 50" N, 142° 29' 30" W; BGN 1964; (map 67). Named in 1962 by E. M. MacKevett, Jr., and D. L. Jones, USGS, for Ernie Gurkin who died in 1960. Gurkin was a packer for F. H. Moffit, USGS, in 1907-08.

Gurney Bay: bay, 1 mile across, 17 miles SW of Karluk, on W coast of Kodiak island; 57° 48' 00" N, 154° 45' 30" W; (map 35). Local descriptive name reported in 1952 by USGS.

Gurney Peak: peak, 8,400 ft., in Cathedral Spires of Kichatna Mountains, 83 miles W of Talkeetna, Alaska Range; 62° 24' 50" N, 152° 41' 10" W; (map 81). Named in 1899 by Lt. J. S. Herron, USA.

Gus Steven Slough: stream, 7 miles long, tributary of Copper River, 20 miles SE of Cordova, Malaspina Coastal Plain; 60° 21' N, 145° 20' W; (map 64). Local name published in 1951 by USGS.

Gusdagane Point: point of land, N point of entrance to Klinkwan Cove, on SW coast of Prince of Wales Island, Alexander Archipelago; 54° 30' 00" N, 132° 21' 30" W; BGN 1922; (map 1). Haida Indian name recorded in 1901 by J. R. Swanton, BAE.

Gushdoiman Lake: lake, 2 miles long, 4 miles SW of Abraham Lake and 9.5 miles N of Stevens Village, Yukon Flats; 66° 09' N, 149° 04' W; (map 118). Indian name reported in 1956 by T. E. Taylor, USGS.

Gushiata Lake: lake, 3.7 miles long, 2 miles N of Abraham Lake and 14 miles NE of Stevens Village, Yukon Flats; 66° 12' N, 148° 55' W; (map 118). Kutchin Indian name obtained in 1956 by T. E. Taylor, USGS.

Gusinnoi: island, see Goose Island.

Gusinnoi: island, see Little Goose Island.

Gusinyya, Ostrova: islands, see Geese Islands.

Guss Creek: stream, see Cuss Creek.

Gustavus, Point: point of land, on Icy Strait at entrance to Glacier Bay, 7 miles SW of Gustavus and 55 miles NW of Juneau; St. Elias Mountains; 58° 23' N, 135° 55' W; (map 11). Named in 1879 by W. H. Dall, USC&GS and published in the 1883 Coast Pilot (p. 188).

Gustavus: village, pop. 107, on N shore of Icy Passage at mouth of Salmon River, 7 miles NE of Point Gustavus and 48 miles NW of Juneau, St. Elias Mountains; 58° 24' 45" N, 135° 44' 15" W; BGN 1948; (map 11). Variant: Strawberry Point. Local name reported in 1940 by USFS; derived from nearby Point Gustavus.

Gusty Bay: bay, 1 mile across, on NE coast of Tanaga Island, Aleutian Islands; 51° 51' 30" N, 177° 54' 30" W; (map 17). Name published by USC&GS in the 1944 Aleutian Coast Pilot (p. 118).

Gut Bay: bay, 5 miles long, 0.1 miles across at its mouth, on SE coast of Baranof Island, Alexander Archipelago; 56° 44' 00" N, 134° 38' 30" W; (map 5). Local name used by fishermen; published in 1889 by USC&GS.

Gutchi Cove: estuary, 0.7 miles long, on W coast of Prince of Wales Island, at mouth of Gutchi Creek, 28 miles N of Craig, Alexander Archipelago; 55° 53' N, 133° 09' W; (map 4). Indian name published in 1964 by USC&GS.

Gutchi Creek: stream, on W coast of Prince of Wales Island, flows NW 3 miles to Gutchi Cove in Naukati Bay, 29 miles N of Craig, Alexander Archipelago; 55° 52' 50" N, 133° 07' 45" W; (map 4). Indian name recorded in 1949 by USGS.

Guthna Creek: stream, see Boulder Creek.

Guthna Creek: stream, see Fish Creek.

Gutqklaqatna: stream, see Pike Trap Creek.

Gutwetter, Cape: point of land, see Fairweather, Cape.

Guy Creek: stream, see Gold Creek.

Guy Rowe Creek: stream, flows SE 2 miles to Fox River opposite Hugh Rowe Creek, 20 miles NE of Solomon, Seward Peninsula Highlands; 64° 45' N, 163° 54' W; (map 95). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Guyat Glacier: glacier, see Guyot Glacier.

Guyot Bay: lagoon, 2 miles long, N of Icy Cape, at mouth of Icy Bay, Malaspina Coastal Plain; 59° 57' 04" N, 141° 41' 30" W; BGN 1966; (map 47). Variant: Mud Bay. Name published by USC&GS in 1923 on Chart 8457. Called Guyot or Mud Bay in 1926 Coast Pilot. Until 1966 these names were used interchangeably.

Guyot Glacier: glacier, heads in Robinson Mountains, 2.5 miles N of Yaka Peak, trends SE 19 miles to 1963 terminus at head of Icy Bay, 68 miles NW of Yakutat, Chugach Mountains; 60° 03' 50" N, 141° 22' 00" W; BGN 1964; (map 65). Variant: Guyat Glacier. Named by the New York Times Expedition of 1886 for Arnold Henry Guyot, 1807-84, of Princeton Univ., and applied to what was then the west lobe of the Malaspina Glacier (Libbey, 1886, p. 296).

Guyot Hills: mountains, maximum elev. 6,168 ft., 7 miles long, trend NW-SE, 6 miles NW of Icy Bay and 75 miles NW of Yakutat, Chugach Mountains; 60° 11' N, 141° 28' W; (map 65). Variant: Karr Hills. Local name derived from Guyot Glacier; published in 1951 by USGS.

Gvozdeva, Mys: point of land, see Prince of Wales, Cape.

Gvozdeva, Ostrova: islands, see Diomedes Islands.

Gvozdevy, Ostrova: islands, see Diomedes Islands.

Gweek River: stream, anabranch of the Kuskokwim River, heads at 61° 12' N, 160° 49' W, flows SW 70 miles, 7 miles NE of Bethel, Yukon-Kuskokwim Delta; 60° 51' 30" N, 161° 34' 30" W; (map 59). Variant: Kwek River. Eskimo name shown as "Kwek River" on an 1898 fieldsheet by W. S. Post, USC&GS.

Gwenn Lake: lake, 1,250 ft. long, W of Lake Kiowa, 9 miles NE of Anchorage, Cook Inlet Lowland; 61° 17' 54" N, 149° 40' 30" W; (map 69). Local name reported in 1964 by USGS.

Gwent Cove: cove, 0.3 miles across, on W shore of Pearse Canal, S of Hidden Inlet, Coast Mountains; 54° 56' 35" N, 130° 20' 00" W; BGN 1937; (map 2). Local name published in 1936 by USC&GS.

Gwodew Islands: islands, see Diomedes Islands.

Gwozdeff Islands: islands, see Diomedede Islands.

Gwyder Bay: bay, see Gwydyr Bay.

Gwydir Bay: bay, see Gwydyr Bay.

Gwydyr Bay: bay, 8 miles across, between Back Point and Point Storkersen, on Beaufort Sea coast, 3 miles SE of Beechey Point, Arctic Plain; 70° 27' N, 148° 51' W; (map 150). Variant: Gwyder Bay, Gwydir Bay. Named on August 17, 1826, by Franklin (1828, p. 166), who wrote, "we had * * * the gratification of being able to trace the land round Gwydyr Bay to its outer point [Point Back] * * *".

Gypsum Creek: stream, flows SE 5.5 miles to Iyoukeen Cove, 12 miles NE of Tenakee Springs, on E coast of Chichagof Island, Alexander Archipelago; 57° 54' N, 134° 59' W; (map 9). Name reported by C. W. Wright (in Brooks and others, 1908, p. 124), USGS. "So named because a large deposit of commercial gypsum occurs along the creek." This deposit was extensively developed between 1905 and 1925.

Gypsum Creek: stream, heads on Sheep Mountain and flows S 2.7 miles to Matanuska River, 54 miles NE of Palmer, Talkeetna Mountains; 61° 47' 40" N, 147° 32' 20" W; BGN 1952; (map 69). Variant: Jackass Canyon. Named in 1949 by USGS.

Gypsum: locality, on Iyoukeen Cove, 12 miles NE of Tenakee Springs, on E coast of Chichagof Island, Alexander Archipelago; 57° 54' N, 134° 59' W; (map 9). An abandoned gypsum mining camp settled in 1904. A post office was established here in 1906, discontinued in 1925, reestablished in 1939, and was finally discontinued in 1941 (Ricks, 1965). In 1923 the mine located here was the only source of commercial gypsum in Alaska.

H

H' lit-tu-yah: bay, see Lituya Bay.

Hacha Island: island, 0.2 miles across, in Maurelle Islands, Alexander Archipelago; 55° 37' 30" N, 133° 39' 00" W; (map 4). Spanish name meaning "axe"; recorded in 1951 by USGS.

Hachimuk: locality, on Agattu Island in the Near Islands, Aleutian Islands; (map 13). Former Aleut village reported as "uninhabited" by Hodge (1907, p. 519), BAE.

Hackett Creek: stream, flows NW 8 miles to Koyukuk River, 6 miles SE of Ninemile Hills and 43 miles SW of Wiseman, Brooks Range; 67° 00' 30" N, 151° 18' 30" W; BGN 1932; (map 124). Local name reported in 1932 by USGS.

Hades Creek: stream, flows SE 1 mile to Eldorado Creek which flows to Candle Creek, 30 miles NE of Imuruk Lake, Seward Peninsula Highlands; 65° 45' N, 162° 09' W; (map 110). Local name reported in 1950 by USGS.

Hades Highway: glacier, heads at 58° 43' N, 134° 53' W, trends SW 8 miles to Demorest Glacier, 3 miles N of Hodgkins Peak and 2E miles NE of Juneau, Coast Mountains; 58° 38' N, 134° 03' W; BGN 1965; (map 11). So named in 1964 by members of the Juneau Icefield Research Project because the roughness of the glacier made travel difficult.

Hadley Creek: stream, flows SW 1.5 miles to Tongass Narrows, 1.5 miles NW of Ketchikan Harbor, on SW coast of Revillagigedo Island, Alexander Archipelago; 55° 21' 15" N, 131° 41' 15" W; (map 3). Local name reported in 1954 by USGS.

Hadley Island: island, 2 miles long, in Tanana River, 18 miles SW of Fairbanks, Tanana Lowland; 64° 42' N, 148° 13' W; (map 100). Local name reported in 1950 by USGS topographers.

Hadley, Port: anchorage, see Lyman Anchorage.

Hadley: locality, on E coast of Prince of Wales Island, at Lyman Anchorage on Kasaan Peninsula Alexander Archipelago; 55° 32' N, 132° 17' W; (map 4). Name of village site reported in 1904 by H. C. Fassett, USBF. The Hadley post office was established here in 1912 and transferred to Ketchikan in 1918 (Ricks, 1965, p. 24). "Hadley is an abandoned settlement * * *. It was the shipping point for mines in the vicinity, which are not now in operation. The wharf is in ruins" (U.S. Coast and Geodetic Survey, 1962, p. 57).

Hadokhten Lake: lake, 1.8 miles across, N of Nayuka River, 1 mile W of Hadotohedan and Hahanudan Lakes and 25 miles WNW of Hochandochtla Mountain, Kokrines-Hodzana Highlands; 65° 41' N, 155° 40' W; (map 107). Koyukan Indian name obtained at Huslia in 1956 by Orth.

Hadons Peak: peak, see Haydon Peak.

Hadotohedan Lake: lake, 0.4 miles across, N of Nayuka River between Hahanudan and Hadokhten Lakes and 24 miles NW of Hochandochtla Mountain, Kokrines-Hodzana

Highlands; 65° 41' 45" N, 155° 36' 30" W; (map 107). Koyukan Indian name obtained at Huslia in 1956 by Orth.

Hadweenzic River: stream, heads at 66° 55' N, 148° 30' W and flows SE 93 miles to Yukon River, 43 miles SW of Fort Yukon, Yukon Flats; 66° 27' N, 146° 51' W; BGN 1948; (map 119). Variant: Orensie, Orensik, Orenzik. Indian name reported in 1907 by Archdeacon Hudson Stuck. The name "Orenzik" was reported by Mertie (1930, pl. 2), USGS, in 1926.

Haenke Glacier: glacier, trends SE 7 miles to its terminus at Disenchantment Bay, 35 miles NNE of Yakutat, St. Elias Mountains; 60° 02' 30" N, 139° 36' 00" W; (map 66). Named in 1906 by Tarr (1909, pl. 11), USGS.

Haenke Island: island, 1 mile across, in Disenchantment Bay near head of Yakutat Bay and 30 miles NE of Yakutat, St. Elias Mountains; 59° 58' N, 139° 32' W; (map 46). Variant: Egg Island. Named in 1791 by Capt. Alessandro Malaspina (Galiano, 1802, map 9) for Thaddeus Haenke, botanist and naturalist with Malaspina's expedition.

Hag Peak: mountain, 1,274 ft., on S coast of Alaska Peninsula, on E side of Kupreanof Peninsula, 6 miles E of Stepovak Bay, Aleutian Range; 55° 41' 40" N, 159° 32' 20" W; (map 27). Published by USC&GS in 1947 Coast Pilot p. 303).

Hagelbarger Pass: pass, see Hagelbargers Pass.

Hagelbargers Pass: pass, 1,700 ft., on Alaska Peninsula, in Katmai National Monument, 12 miles SE of Mount Katmai, Aleutian Range; 58° 12' 00" N, 154° 00' 30" W; BGN 1925; (map 42). Variant: Hagelbarger Pass. Named in 1919 by R. F. Griggs, National Geographic Society, for Paul R. Hagelbarger, ass't. botanist (in 1917, and topographer in 1919) of the National Geographic Society's Katmai Expeditions.

Hagemeister Island: island, 24 miles long, in Bristol Bay, 19 miles SW of Togiak, Kilbuck-Kuskokwim Mountains; 58° 39' N, 160° 54' W; (map 39). Variant: Hagmeister Island, Hagenmeister Island, Ostrov Gagemeister. Named for Capt. Leonti Andreanovich Hagemeister, who was in command of three voyages to the Russian American colony and around the world; 1806-07 on the Neva, 1816-19 on the Kutuzov, and in 1828-30 on the Krothoy. The name was erroneously published as "Os[trov] Gagemeister" by Lt. Sarichev (1826, map 3).

Hagemeister Strait: water passage, trends SW 25 miles from Rocky Point to Calm Point, between Hagemeister Island and the mainland, Kilbuck-Kuskokwim Mountains; 58° 45' N, 161° 00' W; (map 39). Variant: Hagmeister Channel, Proliv Gagemeystera. Named for Hagemeister Island by the Russians; published as "Prol[iv] Gagemeystera" by Lt. Sarichev (1826, map 3), IRN. It was called "Hagmeister Channel" in 1890 by USBF.

Hagemeister, Mount: mountain, 3,225 ft., 20 miles NW of village of Port Alexander, on S central Baranof Island, Alexander Archipelago; 56° 30' 40" N, 134° 53' 10" W; BGN 1935; (map 5). Named in 1935 by USFS "for Leonti Andreanovich Hagemeister, governor of Russian America from January 11, 1818, to October 24, 1818." See Hagemeister Island.

Hagen Lake: lake, 0.3 miles long, between Happy River and Puntilla Creek, 2 miles NE of Houston Pass and 93 miles NW of Tyonek, Alaska Range; 62° 04' 15" N, 153° 03' 00" W; (map 80). Local name obtained in 1958 by USGS.

Haggard Creek: stream, flows S 7 miles to Sourdough Creek, E of Hogan Hill, 24 miles N of Gulkana, Copper River Basin; 62° 37' N, 145° 26' W; (map 83). Local name reported by USGS in 1950. Named for the roadhouse once located on Richardson Highway near the stream's mouth.

Hagmeister Channel: water passage, see Hagemeister Strait.

Hagmeister Island: island, see Hagemeister Island.

Hague Channel: channel, at N end of bay of Port Moller, leads to Herendeen Bay, 5 miles SW of village of Port Moller, Bristol Bay Lowland; 55° 55' N, 160° 45' W; (map 28). Named in 1890 by Z. L. Tanner, USN.

Hague Rock: rock, 10 miles N of Caton Island, in Sanak Islands, part of Sandman Reefs, Aleutian Range; 54° 33' 30" N, 162° 24' 00" W; (map 25). Variant: Midway Island. Named by USBF in 1890; published as Midway Island by USC&GS in 1900.

Hague, Cape: point of land, see Sedanka Point.

Hague, Mount: mountain, 3,900 ft., 12 miles W of mouth of Pavlof Bay, near SW end of Alaska Peninsula, Aleutian Range; 55° 22' 30" N, 161° 58' 25" W; (map 28). Named in 1929 by USGS.

Hahalitha River: stream, see Hoholitna River.

Hahanudna Lake: lake, 1.9 miles across, N of Nayuka River, 1.8 miles E of Hadokhten Lake and 23 miles NW of Hochandochtla Mountain, Kokrines-Hodzana Highlands; 65° 42' N, 155° 34' W; (map 107). Koyukan Indian name obtained at Huslia in 1956 by Orth.

Hahkt-luk: lake, 0.8 miles long, 6 miles N of Okstukuk Lake and 42 miles N of Dillingham, Bristol Bay Lowland; 59° 37' 30" N, 158° 19' 00" W, (map 52). Eskimo name reported in 1910 by H. C. Fassett, USBF.

Haiden, Port: bay, see Heiden, Port.

Haidilatna River: stream, see Iditarod River.

Haiditarod River: stream, see Iditarod River.

Haines islands: island, 0.8 miles across, in Tanana River, 3 miles S of Fairbanks, Tanana Lowland; 64° 47' 30" N, 147° 45' 30" W; (map 100). Local name reported in 1950 by USGS topographers.

Haines Lake: lake, 1 mile long, at E end of Slow Fork Hills, drains N to Slow Fork Kuskokwim River, 56 miles W of Mount McKinley, Kuskokwim Lowland; 63° 01' 25" N, 152° 47' 20" W

(map 88). Variant: Jacks Lake. Local name obtained in 1958 from Fabian Carey and "Val" Blackburn by USGS.

Haines Mission: village, see Haines.

Haines: village, pop. 392, on Portage Cove in Chilkoot Inlet, 0.5 miles SW of Nukdik Point and 16 miles SW of Skagway, Coast Mountains; BGN 1944; 59° 14' 10" N, 135° 26' 15" W; (map 45). Variant: Chilcoot, Deshu, Daschu, Dtehshuh. Originally an Indian village called "Dtehshuh," meaning "end of the trail." According to Aurel and Arthur Krause (1883, map), it was called "Deshu" or "Daschu." It was a trading post for both the Chilkat and Interior Indians. The first white man to settle here was George Dickinson, an agent for the Northwest Trading Co., who came to the post in 1878. In 1881 a Presbyterian missionary, S. Hall Young, founded the Willard Mission, the name of which was later changed to Haines Mission. In 1884 a post office called Haines P.O. was established here, although the place was locally known as Chilcoot. The town became an important outlet for the Porcupine mining district and marked the beginning of the Dalton Trail. During the Klondike Gold Rush a large number of reindeer imported from Norway was landed at Haines to be used in traversing the passes into the upper Yukon Basin.

Hains Landing: locality, on E bank of Dishna River 6 miles S of its junction with Innoko River and 35 miles NW of Ophir, Innoko Lowland; 63° 31' N, 157° 17' W; (map 90). Former riverboat landing reported by USGS in 1925.

Hair Seal Cape: point of land, see Seal Cape.

Hajdukovich Creek: stream, heads on Granite Mountain, flows NE, through Portalus Valley, 10 miles to Sawmill Creek, 2.7 miles S of Alaska Highway and 20 miles SE of Delta Junction, Alaska Range; 63° 51' 40" N, 145° 12' 10" W; (map 86). Named for John Hajdukovich. See Hajdukovich, Mount.

Hajdukovich, Mount: peak, 9,600 ft., E of Gerstle Glacier, 36 miles NE of Paxson, Alaska Range; 63° 32' 25" N, 145° 12' 40" W; BGN 1966 (map 86). Named for John Hajdukovich, 1878-1965, prospector, hunter and trapper, who served with the Alaska Game Commission.

Haley Anchorage: bight, 0.8 miles across, on S shore of Fish Bay, on NW coast of Baranof Island, 24 miles NW of Sitka, Alexander Archipelago; 57° 22' 20" N, 135° 37' 00" W; (map 9). Named in 1884 by Comdr. J. B. Coghlan, USN, for "a miner Nicholas Haley." The name was published by USC&GS in 1891 Coast Pilot (p. 181).

Haley Creek: stream, flows E 17 miles to Copper River at Wood Canyon, 62 miles NE of Valdez, Chugach Mountains; 61° 25' 00" N, 144° 28' 30" W; (map 68). Local name published in the 1950 s by USGS.

Haley Point: point of land, on an island connected by a sandbar to S shore of Fish Bay, on Baranof Island, 24 miles NE of Sitka, Alexander Archipelago; 57° 22' 15" N, 135° 36' 10" W; (map 9). Named in 1896 by Lt. Comdr. E. K. Moore. USN; published by USC&GS in 1901 Coast Pilot (p. 185). Name derived from Haley Anchorage of which the point marks the eastern boundary.

Haley Rock: rock, at mouth of Fish Bay, 3 miles E of Salisbury Sound, off coast of Baranof Island, 25 miles NW of Sitka, Alexander Archipelago; 57° 22' 40" N, 135° 38' 00"W; (map 9). Named in 1896 by Lt. Comdr. E. K. Moore, USN. Name derived from Haley Anchorage of which the rock marks the western boundary.

Haley, Mount: mountain, 9,145 ft., 1 mile W of Flat Top Peak and 32 miles NW of Valdez, Chugach Mountains; 61° 25' 52" N, 146° 57' 15" W; BGN 1965; (map 68). Probably named about 1959 by L. E. Nielsen (1963,p. 135) for Herbert Haley, "Alaska bush pilot" who was reported to be first to land a plane on the upper Columbia Glacier, and who was killed in a plane crash in 1955.

Half Cabin Lake: lake, 1.5 miles long, 8 miles S of Whitefish Lake and 57 miles N of Nondalton, Lime Hills; 60° 49' N, 154° 53' W; (map 61). Local name reported in 1954 by USGS.

Half Cone: mountain, 3,000 ft., projects from NE rim of Aniakchak Crater, 5 miles NE of Vent Mountain, Aleutian Range; 56° 57' N, 158° 07' W; (map 30) Descriptive name given in 1923 by R. H. Sargent, USGS.

Half Dollar Creek: stream, flows SW 2 miles to Bottom Dollar Creek, 35 miles SW of Circle, Yukon-Tanana Highlands; 65° 25' 05" N, 144° 47' 50" W; (map 104). Named by prospectors; reported in 1911 by E. A. Porter (in Brooks and others, 1912, p. 245), USGS.

Half Moon Three Ranch: locality, see Alaktak.

Half-way Pillar: hill, 1,200 ft., on right bank of Porcupine River, 6 miles N of Old Rampart and 32 miles ENE of Coleen Mountain, Yukon Flats; 67° 16' N, 141° 38' W; (map 121). Name reported by R. G. McConnell, Canadian Geological Survey, in 1888, for "a projecting column of rock, which was supposed by the traders to be equidistant from Lapierre House and Fort Yukon" (FitzGerald, 1944, p. 227). The name is now applied to a nearby hill.

Halfmile Creek: stream, flows S 1.8 miles to Hollis Anchorage, N of Cat Island, near center of Prince of Wales Island, Alexander Archipelago; 55° 29' 15" N, 132° 39' 35" W; BGN 1963; (map 4). Variant: Halfmile Creek. Local descriptive name reported as "Halfmile Creek" in 1897 by Lt. Comdr. J. F. Moser, USN.

Halfmile Creek: stream, heads in lake, near W coast of Prince of Wales Island, flows SW 3.5 miles to Klawak Lake, 2.5 miles E of Klawock, Alexander Archipelago; 55° 32' 50" N, 133° 01' 35" W; (map 4). Variant: Half-mile Creek. Local name reported in 1897 by Lt. Comdr. J. F. Moser, USN.

Halfmoon Anchorage: anchorage, 1.2 miles wide, in Wrangell Narrows, on W coast of Mitkof Island, 12 miles S of Petersburg, Alexander Archipelago; 56° 38' 10" N, 132° 56' 00" W; (map 6). Variant: Half Moon Anchorage. Feature was named by local traders; reported in 1868 by Comdr. R. W. Meade, USN.

Halfmoon Bay: bight, 5.5 miles wide, on N shore of Kvichak Bay, 13 miles NW of Naknek, Bristol Bay Lowland; 58° 49' N, 157° 21' W; (map 41). Local name published in 1962 by USGS.

Halfmoon Creek: stream, flows NW 4 miles to Hess Creek, 14 miles N of Livengood, Yukon-Tanana Highlands; 65° 43' N, 148° 34' W; (map 105). Named by prospectors; reported in 1916 by J. B. Mertie (in Brooks and others, 1918, pl. 13), USGS.

Halfmoon Creek: stream, see Cantwell Creek.

Halfmoon Lake: lake, 1.5 miles long, in Tongass National Forest, 7.5 miles ESE of Frosty Bay, on Seward Passage, 38 miles SE of Wrangell, Coast Mountains; 56° 02' 00" N, 131° 45' 35" W; BGN 1963; (map 7). Variant: Half Moon Lake, Half-Moon Lake. Local descriptive name reported in 1961 by USFS.

Halftide Rock: rock, on E shore of Herendeen Bay, 13 miles SW of village of Port Moller, Bristol Bay Lowland; 55° 50' 00" N, 160° 46' 30" W; (map 28). Variant: Half Tide Rock. Descriptive name given as "Half Tide" in 1890 by Lt. Comdr. Z. L. Tanner, USN.

Halfway Creek: stream, flows NE 2 miles to Karluk Lake, 21 miles SE of Karluk, Kodiak island; 57° 21' 30" N, 154° 03' 30" W; (map 35). Local descriptive name reported in 1952 by USGS.

Halfway Island: island, 5.5 miles long, in Yukon River, 18 miles SW of Nulato, Koyukuk Lowland; 64° 30' N, 158° 24' W; (map 97). Local descriptive name reported in 1954 by USGS.

Halfway Island: island, off N coast of Kenai Peninsula, in SW end of Turnagain Arm, 2.5 miles NW of Hope, Chugach Mountains; 60° 57' 00" N, 149° 40' 45" W; (map 63). Local name reported in 1952 by USGS.

Halfway Lake: lake, 0.5 miles long, 2 miles SE of junction of Happy River and Pass Creek, 89 miles SW of Talkeetna, Alaska Range; 62° 09' 40" N, 152° 51' 45" W; (map 81). Local descriptive name reported in 1958 by USGS.

Halfway Lake: lake, 1,000 ft. long, 1 mile N of Beaver Creek and 20 miles SE of Beaver, Yukon Flats; 66° 14' 40" N, 146° 44' 20" W; (map 119). Local descriptive name obtained in 1956 by USGS.

Halfway Lake: lake, 1,200 ft. long, SW of Spruce Lake, 8 miles SE of Talkeetna, Cook Inlet Lowland; 62° 12' 28" N, 150° 02' 00" W; (map 81). Local descriptive name reported in 1958 by USGS.

Halfway Mountain: mountain, 1,856 ft., 13 miles W of Medfra, Kilbuck-Kuskokwim Mountains; 63° 04' N, 155° 07' W; (map 89). Local name reported in 1958 by USGS.

Halfway Mountain: mountain, 3,213 ft., between Hoholitna and Mulchatna Rivers, 58 miles NW of Nondalton, Lime Hills; 60° 47' 30" N, 155° 23' 30" W; (map 61). Named in 1914 by R. H. Sargent, USGS, "because the mountain is on the divide between the Mulchatna and Kuskokwim Rivers."

Halfway Point: point of land, on E coast of St. Paul Island, in Pribilof Islands; 57° 09' 45" N, 170° 10' 15" W; (map 38). Variant: Mys Polovinnoy, Polavina Point, Polovina Point, Polovinnoi Point. This is a translation of a Russian name reported by Elliott (1881, Saint Paul notes) as "Polavina," which "literally signifies 'halfway,' so used by the natives because it is practically halfway between the salt-houses at Northeast Point and the village [Saint Paul]." Published as "M[ys] Polovinnoy" (Halfway Cape) by Capt. Tebenkov (1852, map 21), IRN.

Halfway Rock: rock, near N entrance point to Delarof Harbor, off SE coast of Unga Island, in Shumagin Islands, Aleutian Range; 55° 10' 50" N, 160° 27' 35" W; (map 28). Name published by USC&GS in 1916 Coast Pilot (p. 179).

Halfway Whirlpool: whirlpool, in Yukon River, 4 miles SE of Saloon Island and 32 miles SE of Fort Yukon, Yukon Flats; 66° 12' N, 144° 37' W; (map 119). Local descriptive name obtained in 1956 by USGS.

Halibut Bay: bay, 4.5 miles across, 15 miles SW of Karluk, on W coast of Kodiak Island, 57° 23' N, 154° 43' W; (map 35). Descriptive local name published in 1943 by USC&GS.

Halibut Bay: estuary, extends N 2.8 miles from Portland Canal at Astronomical Point, Coast Mountains; 55° 13' N, 130° 05' W; (map 3). Named in 1868 by Staff Comdr. David Pender, RN.

Halibut Cove Lagoon: lagoon, 0.7 miles wide, at S end of Halibut Cove, on E shore of Kachemak Bay, Kenai Peninsula, 13 miles ESE of Homer, Chugach Mountains; 59° 35' 15" N, 151° 11' 00" W; (map 50). Named for Halibut Cove and published by USGS in 1961.

Halibut Cove: bay, 3 miles wide, on E shore of Kachemak Bay, Kenai Peninsula, 12 miles ESE of Homer, Chugach Mountains; 59° 37' N, 151° 14' W; (map 50). Named by W. H. Dall, USC&GS, in 1880.

Halibut Cove: cove, 0.2 miles across, off N end of Shelter Island in Favorite Channel, 20 miles NW of Juneau, Alexander Archipelago; 58° 27' 50" N, 134° 53' 15" W; (map 11). Local name published in 1962 by the USGS. "Named for a marine food fish, a large flatfish, Hippoglossus stenolepis."

Halibut Creek: stream, on Kenai Peninsula, flows NW 7.5 miles to Halibut Cove, on E shore of Kachemak Bay, 14 miles ESE of Homer, Chugach Mountains; 59° 35' 20" N, 151° 10' 00" W; (map 50). Named for Halibut Cove and published by USGS in 1961.

Halibut Creek: stream, on N part of Chichagof Island, flows 4 miles NE to Port Frederick, 2.3 miles SW of Christ Point and 6.4 miles NW of Hoonah, Alexander Archipelago; 58° 11' 05" N, 135° 33' 00" W; BGN 1960; (map 11). Local name published in 1951 by USGS.

Halibut Harbor: bay, 1.3 miles wide, SW coast of Kosciusko Island, Alexander Archipelago; 55° 55' N, 133° 46' W; (map 4). Local name reported in 1904 by E. F. Dickins, USC&GS, "from information obtained from Captain [Cyrus] Orr."

Halibut Head: mountain, see Sanak Peak.

Halibut Island: island, 0.2 miles across, off N coast of Chichagof Island at mouth of Port Frederick, 4.5 miles NW of Hoonah, Alexander Archipelago; 58° 09' 00" N, 135° 29' 30" W; (map 11). Local name derived from Halibut Rock and published by the USC&GS in the 1901 Coast Pilot.

Halibut Island: island, see Sanak Island.

Halibut Nose: point of land, on W coast of Prince of Wales Island, S of Soda Bay, Alexander Archipelago; 55° 12' 35" N, 133° 02' 25" W; (map 4). Local name published in 1905 by USC&GS.

Halibut Point: point of land, 4 miles NW of Sitka, on NW coast of Baranof Island, Alexander Archipelago; 57° 06' N, 135° 24' W; (map 9). Variant: Mys Paltusey, Mys Peschanyy, Peschani Point. This is an 1882 translation by USC&GS of the name given in 1809 by the Russian navigator Ivan Vasiliev the first, IRN; reported by Lt. Sarichev (1826, map 19), IRN, as "M[ys] Paltusey." The name "Mys Peschanyy," meaning 'sandy cape,' was published for this point in 1848 by the Russian Hydrog. Dept. on Chart 1397.

Halibut Point: point of land, on W bank of Portland Canal, W point of entrance to Halibut Bay, Coast Mountains; 55° 12' 35" N, 130° 06' 50" W; (map 3). Name published in 1897 by USC&GS.

Halibut Rock: rock, at N end of Port Frederick, 1.1 miles NW of Inner Point Sophia and 1.6 miles NW of Hoonah, Alexander Archipelago; 58° 08' 20" N, 135° 29' 25" W; (map 11). Name published by the USC&GS in the 1883 Coast Pilot (p. 191).

Haliknuk River: stream, see Hoholitna River.

Halket, Cape: point of land, see Halkett, Cape.

Halkett, Cape: point of land, on coast of Beaufort Sea, W point of entrance to Harrison Bay, Arctic Plain; 70° 48' 10" N, 152° 11' 05" W; BGN 6th Report; (map 149). Variant: Atliggaru, Cape Halket, Halket Cape, Halkett Cape, Ishuk, Isuk. P. W. Dease and Thomas Simpson (Simpson, Thomas, 1843, p. 133) on July 26, 1837, reported that "this remarkable point was named Cape Halkett, in compliment to one of the Company's [Hudson's Bay] Directors." Leffingwell (1919, p. 96) gives the Eskimo name as Ishuk, which he says Vilhjalmur Stefansson spells 'Isuk,' meaning "end."

Hall Cove: estuary, 3.6 miles long, on SW coast of Duke Island, Alexander Archipelago; 54° 53' 30" N, 131° 23' 15" W; (map 2). Local navigators' name recorded in 1904 by H. C. Fassett, USBF.

Hall Creek: stream, heads in Canada, flows NW 7 miles to Canyon Creek, 45 miles S of Eagle, Yukon-Tanana Highlands; 64° 09' 15" N, 141° 07' 30" W; (map 102). Prospectors' name obtained in 1898 by E. C. Barnard, USGS.

Hall Island: island, 1 mile long, between Big and Little Koniuji Islands, in Shumagin Islands, Aleutian Range; 55° 05' N, 159° 29' W; (map 27). Named by W. H. Dall, USC&GS, in 1874 for Capt. Hall of the USC&GS schooner Humbolt which was in these waters in 1871 and 1872.

Hall Island: island, 5 miles long, 3.5 miles NW of St. Matthew island; 60° 40' N, 173° 06' W; (map 56). Variant: Mojovy Island, Morjovi Island, Morzhovoi Island, Ostrov Morzhovoy, Ostrov Sindsha, Sindsha Island. The early Russian hunters called this island "O[strov] Morzhovoy" (Tebenkov, 1852, map 20) meaning "walrus island." The Russian Hydrog. Dept. Chart 1427 called it "O[strov] Sindsha" probably for Lt. Sind, its alleged discoverer, in 1764. See Saint Matthew Island. Commodore Joseph Billings and Lt. G. A. Sarichev anchored between this island and St. Matthews on July 14, 1791 (O.S). On American maps, since 1875, this island has been called "Hall," presumably for Lt. Robert Hall, who was with Capt. Billings, or for Cape Hall.

Hall Lake: lake, see Siksik Lake.

Hall Peak: mountain, 3,700 ft., in Missionary Range, 13.5 miles NW of Petersburg, on N central Lindenberg Peninsula, Kupreanof Island, Alexander Archipelago; 56° 58' 45" N, 133° 09' 45" W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for Capt. Charles Francis Hall, Arctic explorer, who died in 1871.

Hall, Cape: point of land, on NW coast of Hall Island, 8 miles NW of Glory of Russia Cape, Saint Matthew island; 60° 40' N, 173° 05' W; (map 56). Variant: Mys Galla, North Cape. Named "M[ys] Galla," or "Cape Hall," by Capt. Tebenkov (1852, map 20), IRN, in 1849, for Lt. Robert Hall who accompanied Commodore Joseph Billings to this locality in 1791

Halleck Harbor: bay, 2 miles across, in Saginaw Bay, on N coast of Kuiu Island, Alexander Archipelago; 56° 55' N, 134° 13' W; (map 5). Named in 1869 by Comdr. R. W. Meade, USN, for charting purposes; named for Maj. Gen. Henry Wager Halleck, USA, then in command at Sitka.

Halleck Island: island, 4.5 miles across, 11 miles NW of Sitka, Alexander Archipelago; 57° 13' N, 135° 27' W; (map 9). Named in 1869 by Comdr. R. W. Meade, USN, for Maj. Gen. Henry Wager Halleck, 1815-72, USA, then in command at Sitka. Gen. Halleck upon graduating from West Point was appointed to the Corps of Engineers. During the Civil War he was commander in chief of the Union armies from 1862 to 1864, when he was replaced by Gen. U.S. Grant. He was in command of the military division of the Pacific, 1865-69.

Halleck Point: point of land, on W tip of Halleck Island, 14 miles NW of Sitka, Alexander Archipelago; 57° 13' 45" N, 135° 30' 45" W; (map 9). Named in 1896 by Lt. Comdr. E. K. Moore, USN; published in 1900 by USC&GS on Chart 8281. Name was derived from Halleck Island.

Halleck Range: mountain range, 4,900 ft., extends N-S 11 miles along W bank of Portland Canal, NW of River Point, Coast Mountains; 55° 38' N, 130° 12' W; (map 3). Named in 1868 by Staff Comdr. David Pender, RN.

Haller Spit: spit, see Ekuk Spit.

Hallersville Creek: stream, flows SW 5 miles to Kvichak River, 4 miles S of Levelock and 60 miles E of Dillingham, Bristol Bay Lowland; 59° 03' N, 156° 51' W; (map 52). Local name published by USGS in 1952; named for the nearby locality.

Hallersville: locality, on left bank of Kvichak River, 60 miles E of Dillingham, Bristol Bay Lowland; 59° 02' 40" N, 156° 50' 20" W; (map 52). Name of a village published on the 1941 Cannery Map of Alaska. Several cabins are here, but there is no recorded permanent population.

Hallet River: stream, heads in glacier, flows NE 19 miles to head of Klutina Lake, 34 miles N of Valdez, Chugach Mountains; 61° 36' 20" N, 146° 00' 00" W; (map 68). Variant: Hallett River. Named in 1898 by Capt. W. R. Abercrombie, USA, for "Private Hallett," a member of his party.

Hallett River: stream, see Hallet River.

Halliday, Point: point of land, NE point of entrance to North Arm Moira Sound, on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 04' 50" N, 132° 04' 30" W; (map 4). Local name reported in 1905 by E. F. Dickins, USC&GS.

Hallo Bay: bight, 7.5 miles across, on S coast of Alaska Peninsula, in Katmai National Monument, 35 miles NE of Mount Katmai, Aleutian Range 58° 27' N, 153° 57' W; (map 42). Variant: Ago Bay, Aho Bay, Aiu Bay, Aja Bay, Hioo Bay, Porte Aiou, Zaliv Ayo. Published in 1868 by USC&GS; transliteration of a native word, published in French as P[ort]e Aiou by Adm. von Krusenstern (1827, map 17), IRN; in Russian as Z[aliv] Ayu by Capt. Tebenkov (1852, map 22), IRN. Local pronunciation of the name was like "Hello," according to W. H. Dall, USC&GS, in 1868; whereas G. C. Martin, USGS, in 1905 reported the native pronunciation as "Ayou" or "Aiv."

Hallo Creek: stream, heads in glacier lake at terminus of Hallo Glacier, flows E 5.8 miles to Hallo Bay, on Alaska Peninsula, Katmai National Monument, 35 miles NE of Mount Katmai, Aleutian Range; 58° 24' 35" N, 154° 02' 45" W; (map 42). Named for Hallo Bay; reported in 1951 by USGS.

Hallo Glacier: glacier, heads on ridge between Mount Denison and Devils Desk, trends E 11 miles to its 1951 terminus at glacier lake, on S coast of Alaska Peninsula, in Katmai National Monument, 30 miles NE of Mount Katmai, Aleutian Range; 58° 25' N, 154° 10' W; BGN 1957; (map 42). Named for Hallo Bay; reported in 1956 by USGS.

Halthalda Hill: hill, 2,124 ft., 3.7 miles long, N of Halthmund Lake, 12 miles W of Northway, Alaska Range; 62° 58' N, 142° 22' W; (map 84). Tetlin Indian name, said to mean "hill-by-a-fish-lake" or "fish lake hill"; reported in 1962 by USGS.

Halthmund Lake: lake, 2.5 miles long, 11 miles W of Northway, Alaska Range; 62° 57' N, 142° 20' W; (map 84). Tetlin Indian name reported to mean "fish lake" by USGS in 1962.

Halu Creek: stream, in Ray Mountains, flows NE 13 miles to Big Salt River, 12 miles NE of Mount Tozi and 61 miles NE of Tanana, Kokrines-Hodzana Highlands; 65° 50' 15" N, 150° 42' 30" W; (map 106). Prospectors' name reported in 1956 by Orth.

Halutu Peninsula: peninsula, 14 miles long, extends from Parsons Peak to Taiya Point on Chilkoot Inlet, 3 miles W of Skagway, Coast Mountains; 59° 25' N, 135° 25' W; BGN 192S;

(map 45). Variant: Daye-Halutu. Tlingit Indian name, "Haluta," meaning "promontory," reported by James W. McGuire, USC&GS, in 1923. The entire projection was called "Daye-Halutu" by the Tlingit Indians.

Halutu Ridge: ridge, 5 miles long, trends N from Taiya Point, at head of Chilkoot Inlet, 8 miles SW of Skagway, Coast Mountains; BGN 1923; 59° 21' 00" N, 135° 25' 00" W; (map 45). Indian name probably meaning "promontory"; reported in 1923 by James W. McGuire, USC&GS.

Ham Cove: cove, see Sawmill Cove.

Ham Cove: estuary, extends SW 0.8 miles off Kaigani Strait, on E coast of Dall Island, Alexander Archipelago; 54° 53' 00" N, 132° 50' 45" W; BGN 1929; (map 1). Variant: Sawmill Cove. Named in 1880 by Rev. Sheldon Jackson for Mrs. J. M. Ham of New York who financed the Jackson Presbyterian Mission at Howkan and contributed funds for the erection of a sawmill here in 1882. This feature was named "Sawmill Cove" in 1891 by Lt. Comdr. H. E. Nichols, USN.

Ham Island Reef: islands, see Ham Islands.

Ham Island: island, 3 miles long, off E coast of Annette Island, at north entrance to Felice Strait, Alexander Archipelago; 55° 10' 30" N, 131° 21' 00" W; (map 3) Named in 1883 by Lt. Comdr. H. E. Nichols USN.

Ham Island: island, extends E-W 3 miles, in Yukon River, 0.7 miles S of Fox Island and 20 miles NE of Ruby, Nowitna Lowland; 64° 53' N, 154° 53' W; (map 98). Variant: Bosnuk Island, Sea Gull Island. Riverboat pilots' name shown on 1940 "Navigation Chart, Tanana-Yukon Rivers" of the River Boat Service, U.S. Dept. of Interior.

Ham Island: island, see Blake Island.

Ham Island: islands, see Ham Islands.

Ham Islands: islands, in S part of Karheen Passage, 0.5 miles E of Heceta Island, 22 miles NW of Craig, Alexander Archipelago; 55° 47' 05" N, 133° 18' 20" W; BGN 1965; (map 4). Variant: Ham Island, Ham Island Reef, Ham Islets. Name originally published in 1917 by USC&GS as "Ham Islets."

Ham Islets: islands, see Ham Islands.

Hamburger Point: point of land, SW tip of Cobra Peninsula, S coast of Kiska Island, Aleutian Islands; 51° 55' 20" N, 177° 26' 50" E; (map 14). One of many arbitrary names applied to features on Kiska Island by USAAF for tactical purposes during World War II.

Hamilton Bay: bay, extends W 6 miles to Keku Strait, 6 miles SE of Kake, on NW coast of Kupreanof Island, Alexander Archipelago; 56° 54' N, 133° 52' W; (map 6). Variant: Hamilton Harbor. Named by U.S. Navy; published in the 1883 Coast Pilot (p. 118).

Hamilton Creek: stream, flows W 14 miles to Hamilton Bay, 9.5 miles SE of Kake, on NW coast of Kupreanof Island, Alexander Archipelago; 56° 53' 30" N, 133° 44' 00" W; (map 6). Local name published in 1943 by USC&GS.

Hamilton Creek: stream, on S slope of Brower Ridge, flows S 2 miles to Gulf of Alaska, 95 miles NW of Yakutat, St. Elias Mountains; 60° 03' 15" N, 142° 16' 20" W; (map 65). Named for Thomas J. Hamilton, U.S. Marshal, Territory of Washington; reported in 1903 by G. C. Martin, USGS.

Hamilton Island: island, 3.5 miles long, 2.5 miles SE of Kake, on NW coast of Kupreanof Island, Alexander Archipelago; 56° 56' N, 133° 54' W; (map 6). Local fishermen's name reported in 1947 by USC&GS.

Hamilton Island: island, 5 miles long, in Shakan Bay, between Prince of Wales and Kosciusko Islands, Alexander Archipelago; 56° 08' 30" N, 133° 31' 00" W; (map 6). Named by W. H. Dall, USC&GS; published in 1883 Coast Pilot.

Hamilton Peak: peak, 4,020 ft., 4 miles N of Dry Bay in Frederick Sound, 89 miles E of Sitka, Coast Mountains; 57° 07' 07" N, 133° 00' 37" W (map 8). Local name reported in 1951 by USGS.

Hamilton, Mount: mountain, 2,039 ft., 13 miles NE of Katalla, Chugach Mountains; 60° 20' N, 144° 17' W; (map 64). Local name reported in 1904 by G. C. Martin, USGS.

Hamilton, Mount: mountain, 3,645 ft., in Kilbuck Mountains, 27 miles SW of Aniak, Kilbuck-Kuskokwim Mountains; 61° 10' 15" N, 159° 46' 00" W; (map 73). Named by W. S. Post, USGS, in 1898.

Hamilton, Point: point of land, S point of entrance to Hamilton Bay, on NW coast of Kupreanof Island, 5.5 miles S of Kake, Alexander Archipelago; 56° 54' 10" N, 133° 53' 45" W; (map 6). Named in 1892 by Lt. W. Island Moore, USN.

Hamilton: village, pop. 35, on right bank of Apoon Pass, 21 miles NE of Kwiguk, Yukon-Kuskokwim Delta; 62° 53' 45" N, 163° 53' 10" W; (map 77). Variant: Aungua-mut, Fort Hamilton, Old Fort Hamilton, Old Hamilton. The North American Transportation and Trading Company established a supply post and riverboat landing here about 1897; named for Charles H. Hamilton, assistant manager of the company. Lt. L. A. Zagoskin, IRN, recorded in 1844 an Eskimo settlement or camp at or near this place spelled "Aunguamut" on an 1850 map.

Hamiltons Mill: locality, see Shakan.

Hamlet, Mount: mountain, 2,034 ft., in Lisburne Hills, 10 miles SE of Cape Lisburne, Arctic Slope; 68° 46' N, 165° 57' W; (map 129). Variant: Igiksukrak, Ikgisukruk, Ikgisuqraq. Named in 1904 by A. J. Collier, USGS, for Capt. D. C. Hamlet, commander of the U.S. Revenue Marine steamer Thetis. The Eskimo name "Igiksukrak" means "highest mountain."

Hamlin Creek: stream, flows NW 3 miles to Yukon River, 40 miles NE of Rampart, Yukon-Tanana Highlands; 65° 53' 40" N, 149° 13' 15" W; (map 105). Local name derived from Fort Hamlin; published in 1906 by USGS.

Hammer Creek: stream, heads on N slope of Old Grouchtop, flows N and W 50 miles to Innoko River, 55 miles NW of Ophir and 58 miles NE of Holikachuck, Innoko Lowland; 63° 27' 35" N, 158° 07' 20" W; (map 90). Variant: Swing Creek. Local name reported in 1964 by Arthur Gervais, USGS.

Hammer Point: point of land, between Amos Cove and Sargeant Cove, on SE coast of Kiska Island, Aleutian Islands; 51° 55' 20" N, 177° 34' 25" E; (map 14). Variant: Highball Point. An arbitrary name beginning with "H" to correspond to "H" grid used by U.S. Army for tactical purposes during World War II; published on a 1953 AMS map. Variant published on a 1943 USAAF map.

Hammerhead Cove: cove, 0.05 miles across, on S shore of Sweeper Cove, Kuluk Bay, on NE coast of Adak Island, Aleutian Islands; 51° 51' 04" N, 176° 38' 20" W; (map 17). Name published by USC&GS in the 1947 Coast Pilot p. 463).

Hammerhead Island: island, 800 ft. long, one of Semichi Islands, in Shemya Pass between Nizki and Shemya Islands, Aleutian Islands; 52° 43' 20" N, 174° 02' 35" E; (map 13). Listed in 1946 supplement to 1944 Aleutian Coast Pilot, as "the most prominent island in the passes between Nizki and Shemya Islands."

Hammerhead: point of land, on SW shore of Sweeper Cove, Kuluk Bay, on NE coast of Adak Island, Aleutian Islands; 51° 51' 04" N, 176° 38' 33" W; (map 17). Name published by USC&GS in 1963 (Chart 9119).

Hammersly Camp: locality, at junction of Nonvianuk Lake and Nonvianuk River, 57 miles SW of Iliamna, Aleutian Range; 59° 01' N, 155° 36' W; (map 51). Local name published on a 1952 USGS map.

Hammersly Lake: lake, 5 miles long, in course of American Creek, on Alaska Peninsula, 37 miles NW of Mount Katmai, Aleutian Range; 58° 51' N, 155° 08' W; (map 42). Reported in 1951 by USGS.

Hammond Creek: stream, see Hammond River.

Hammond Point: point of land, see Saint Elias, Cape.

Hammond River: stream, heads on Alhamblar Mountain, flows S 38 miles to Middle Fork Koyukuk River, E of Midnight Dome, 4 miles NE of Wiseman, Brooks Range; 67° 27' 35" N, 150° 02' 00" W; (map 124). BGN 1932; Variant: Hammond Creek. Local name shown on an 1899 fieldsheet by T. G. Gerdine, USGS.

Hammond, Cape: point of land, see Saint Elias, Cape.

Hamnulik: locality, on Agattu Island in the Near Islands, Aleutian Islands; (map 13). Former Aleut village reported as "uninhabited" by Hodge (1907, p. 529), BAE.

Hanagita Lake: lake, 1 mile long, in course of Hanagita River, 32 miles SW of McCarthy, Chugach Mountains; 61° 14' N, 143° 48' W; (map 67). This is the name of a chief of the Athena Indians at Taral; reported in 1911 by D. C. Witherspoon (Moffit, 1914, pl. 1), USGS.

Hanagita Peak: peak, 8,520 ft., near head of Klu River, 36 miles SW of McCarthy, Chugach Mountains; 61° 04' N, 143° 42' W; (map 67). Name reported in 1911 by D. C. Witherspoon (Moffit, 1914, pl. 1), USGS. See Hanagita Lake.

Hanagita River: stream, heads in group of lakes 1 2 miles ESE of Hanagita Lake, flows WNW 17 miles to Tebay River, 4 miles SE of Summit Lake and 73 miles ENE of Valdez, Chugach Mountains; 61° 17' 00" N, 144° 03' 25" W; (map 68). Named in 1900 by T. G. Gerdine, USGS, for Hanagita, "Ahtena Indian Chief."

Hancock Pass: pass, 4,000 ft., at head of Dan Creek, 18 miles SE of McCarthy, St. Elias Mountains; 61° 21' 15" N, 142° 25' 00" W; (map 67). Local name published by USGS in 1954.

Hancock Peak: peak, 3,763 ft., N of Frederick Sound, 7 miles E of Grand Point and 90 miles E of Sitka, Coast Mountains; 57° 05' 10" N, 132° 59' 40" W; (map 8). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for the SS Hancock, "the first steamship to cross the Atlantic."

Hancocks Straits: water passage, see Dixon Entrance.

Hangar Lake: lake, 0.5 miles across, 1.5 miles NE of Bethel, Yukon-Kuskokwim Delta; 60° 48' 15" N, 161° 43' 15" W; (map 59). Local name reported in 1949 by USGS.

Hanging Glacier Mountain: mountain, 6,600 ft., 3 miles W of Mount Doonerak and 39 miles NW of Wiseman, Brooks Range; 67° 54' N, 150° 45' W; BGN 1932; (map 124). Named about 1930 by Marshall (1956, p. 22) who wrote, "They [the mountains] were topped by hanging glaciers. The most westerly of these two mountain masses I called 'Hanging Glacier.'" "

Hanging Glacier: glacier, heads at 59° 50' 45" N, 138° 53' 30" W, trends 4 miles W to 1961 terminus 1 mile NE of Nunatak Fiord and 33 miles NE of Yakutat, St. Elias Mountains; 59° 51' 35" N, 139° 00' 20" W; (map 46). Descriptive name given in 1906 by Tarr (1909, fig. 4). This is one of many glaciers of this type in the Yakutat Bay area, such as Cataract Glacier, Cascading Glacier, and Toboggan Glacier. Because of glacial erosion by the main valley glacier, the tributary glaciers often "hang" above the main valley.

Hanging Lake: lake, 0.2 miles long, on N side of North Fork Chandalar River, 8 miles NW of Bend Mountain and 25 miles N of Chandalar, Brooks Range; 67° 51' N, 148° 35' W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Hangmans Ridge: ridge, elev. 1,200-1,300 ft., trending NE from Fat Mountain 3.5 miles to Foot Mountain, west-central Kiska Island, Aleutian Islands; 51° 55' 15" N, 177° 18' 50" E; (map 14). One of many arbitrary names applied to features on Kiska Island by USAAF for tactical purposes during World War II.

Hanilik: locality, on Agattu Island in Near Islands, Aleutian Islands; (map 13). Former Aleut village reported as "uninhabited" by Hodge (1907, p. 531), BAE.

Hanin Rocks: rocks, 5 miles NE of Kodiak, 0.8 miles NE of Spruce Cape, Kodiak island; 57° 50' 05" N, 152° 18' 45" W; (map 34). Variant: Haninskia, Kekurya Ganinskiya, Twins. Name published by Baker (1906, p. 296); derived from the name "Kekurya Ganinskiya," meaning "Ganin pinnacles [rocks]," given in 1839 or 1840 by Sub-Lt. Mikhail Murashev, IRN. The name "Twins" was published in 1881 on USC&GS Chart 776.

Haninskia: rocks, see Hanin Rocks.

Hanks Island: island, 300 ft. long, in Orca Bay, 2.5 miles N of Hawkins Island and 10 miles NW of Cordova, Chugach Mountains; 60° 36' 50" N, 145° 58' 30"W; (map 64). Local name reported by Lt. Comdr. J. F. Moser, USN, while doing hydrographic studies along the coast of Alaska in 1897.

Hanna Creek: stream, flows E 17 miles to Charley River 22 miles SW of that stream's junction with Yukon River, Yukon-Tanana Highlands; 65° 04' N, 143° 03' W; (map 103). Prospectors' name from an unpublished map by E. J. Chamberlain, dated 1902.

Hanna Glacier: glacier, see Peters Glacier.

Hanna Lake: lake, 2.3 miles long, at 1950 terminus of Bering Glacier, 10 miles NW of Sunshine Point and 90 miles SE of Cordova, Malaspina Coastal Plain; 60° 14' 00" N. 143° 09' 30" W; (map 65). Local name published in 1951 by USGS.

Hannah Creek: stream, flows NE 5 miles to Yukon River, 5 miles N of Rampart and 63 miles ENE of Tanana, Kokrines-Hodzana Highlands; 65° 34' 30" N, 150° 09' 30" W; (map 106). Named in 1956 by Orth for the Hannah, one of the three largest and handsomest steamboats on the Yukon during the gold rush days. The Hannah was named for Mrs. Hannah Gerstle, wife of Lewis Gerstle, of the Alaska Commercial Company. The Hannah, along with her sister ships, Sarah and Susie, were built at Unalaska in the spring of 1898 for the Alaska Commercial Company. See Susie Creek and Sarah Creek.

Hanning Bay: bay, 2.3 miles across, on NW coast of Montague Island, 16 miles NE of Cape Cleare, 63 miles SE of Seward, Chugach Mountains; 59° 58' N; 147° 43' W; (map 49). Variant: Hunnings Bay, Port Bazil. Named "Hannings Bay" by [Capt.] Nathaniel Portlock when examined by him April 29, 1787, after a family interested in the company which sent him out. [The name was later erroneously] adopted by [Capt.] Vancouver as 'Hunning's Harbor' " (Wagner, 1937, p. 391). Russian Hydrog. Dept. Chart 1378, dated 1847, gave the name "Port Bazil" for this feature.

Hannum Creek: stream, flows NE, then SE, 10 miles to Inmachuk River, 20 miles N of Imuruk Lake, Seward Peninsula Highlands; 65° 53' N; 163° 10' W; BGN 1952; (map 110). Prospectors' name reported in 1901 by D. L. Reaburn (in Mendenhall, 1902, pl. 4a), USGS.

Hansen Bar: bar, in Cache Creek, 31 miles NW of Talkeetna, Alaska Range; 62° 26' 30" N, 151° 03' 00" W; (map 81). Prospectors' name reported in the 1930's by USGS.

Hanson Creek: stream, flows NW 0.5 miles to California Creek which flows to Bonanza River between Disappointment and Harrison Creeks, 9 miles NW of Solomon, Seward Peninsula

Highlands; (map 95). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This stream cannot be precisely located on current maps.

Hantak Island: island, see Khantaak Island.

Hanus Bay: bay, 2.3 miles across, between Catherine Island and N coast of Baranof Island, 27 miles NE of Sitka, Alexander Archipelago; 57° 25' N, 135° 02' W; (map 9). Variant: Hanus Inlet. Named in 1880 by U.S. naval officers for "Lt. G. C. Hanus"; published by USC&GS as "Hanus Inlet" in 1883 Coast Pilot (p. 166).

Hanus Inlet: bay, see Hanus Bay.

Hanus Islet: island, 0.1 miles across, at NE point of Biorka Island, off the W coast of Baranof Island, Alexander Archipelago; 56° 51' 55" N, 135° 30' 15" W; (map 5). Named in 1879 by Lt. F. M. Symonds, USN, for Lt. Gustavus Charles Hanus, USN.

Hanus Point: point of land, N tip of Hanus Islet, just off NE point of Biorka Island, on W coast of Baranof Island, Alexander Archipelago; 56° 51' 58" N, 135° 30' 20" W; (map 5). Named in 1895 by Lt. Comdr. E. K. Moore, USN, for Lt. Gustavus Charles Hanus, USN.

Hanus Reef: reef, in Chatham Strait, 6.5 miles NW of Point Augusta on Chichagof Island and 24 miles SW of Juneau, Alexander Archipelago; 58° 12' 45" N, 134° 59' 55" W; (map 11). Variant: Hanus Rocks. Named in 1880 by Capt. L. A. Beardslee, USN, for Lt. Gustavus Charles Hanus, USN, who discovered and surveyed the reef. Name was published by the USC&GS in the 1883 Coast Pilot (p. 181) as Hanus Rocks.

Hanus Rocks: reef, see Hanus Reef.

Hanus, Point: point of land, on NW coast of Catherine Island, 24 miles N of Baranof, Alexander Archipelago; 57° 25' 30" N, 134° 59' 00" W; (map 9) Named in 1895 by Lt. Comdr. E. K. Moore, USN, "for Lt. G. C. Hanus, USN."

Hapkug: locality, on Agattu Island in Near Islands, Aleutian Islands; (map 13). Former Aleut village reported as "uninhabited" by Hodge (1907, p. 532), BAE.

Happy Beach: beach, 0.6 miles long, SW of Cliff Point, at mouth of Middle Bay, 7.5 miles SW of Kodiak, Kodiak island; 57° 41' 10" N, 152° 28' 20" W; (map 34). Local name reported in 1949 by USGS.

Happy Cove: cove, 0.2 miles across, on Kuiu Island, on N shore of Tebenkof Bay, Alexander Archipelago; 56° 30' N, 134° 09' W; BGN 1929; (map 5). Named in 1928 by USC&GS.

Happy Creek: stream, flows S 1.3 miles to King Creek, 7.4 miles E of Marshall, Nulato Hills; 61° 53' N, 161° 51' W; (map 73). Prospectors' name reported in 1916 by Harrington (1918, map), USGS.

Happy Creek: stream, flows SE 6 miles to Cripple Creek, 5 miles W of Fairbanks, Yukon-Tanana Highlands; 64° 50' N, 147° 53' W; (map 100). Name applied by prospectors about 1905; published in 1908 by USGS.

Happy Creek: stream, flows SW 2 miles to Salmon River, 27 miles NE of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 52' N, 161° 42' W; BGN 1938; (map 39). Local name reported in 1938 by USGS.

Happy Creek: stream, flows SW to Hash Creek which flows to Niukluk River, about 9 miles SE of Mount Bendeleben, Seward Peninsula Highlands; (map 110). Prospectors' name published on 1908 "Map of Seward Peninsula" by Arthur Gibson. This stream cannot be precisely located on current maps.

Happy Creek: stream, flows W 2.2 miles to Willow Creek, 4.6 miles SW of Flat and 57 miles NE of Holy Cross, Kilbuck-Kuskokwim Mountains; 62° 23' 10" N, 158° 03' 20" W; (map 79). Prospectors' name reported in 1915 by J. B. Mertie and G. L. Harrington, USGS.

Happy Creek: stream, on Kenai Peninsula, flows SW 5 miles to Cook Inlet, 4 miles NE of Cape Starichkof, 21 miles NW of Homer, Cook Inlet Lowland; 59° 57' 10" N, 151° 44' 15" W; (map 50). Local name reported and published in 1950 by USGS.

Happy Gulch: ravine, 0.8 miles long, on N bank of Bear Creek 4.4 miles NE of Nyac and 39 miles SW of Aniak, Kilbuck-Kuskokwim Mountains; 61° 02' 10" N, 159° 49' 30" W; (map 73). Prospectors' name shown on a 1914 fieldsheet by A. G. Maddren, USGS.

Happy New Year Creek: stream, flows N 5 miles to Slate Creek, 40 miles SW of Eagle, Yukon-Tanana Highlands; 64° 37' 10" N, 142° 28' 45" W; (map 102). Variant: Buck Creek. Prospectors' name shown on a 1902 manuscript map by E. J. Chamberlain, U.S. Deputy Surveyor.

Happy River: stream, heads in Teocalli Mountains, 4.4 miles SW of Houston Pass, flows NE and SE 45 miles to Skwentna River, 75 miles NW of Tyonek, Alaska Range; 61° 59' N, 152° 21' W; BGN 1965; (map 70). Variant: Moose Creek, Pass Creek. This appears to be a whimsical name given by Spurr (1900, p. 50), USGS, who wrote on June 27, 1898, "this stream, which we named Happy River, we worked * * *, in constant risk of losing our boats and provisions, and succeeded in advancing only about a half mile * * *."

Happy River: stream, see Pass Creek.

Happy Slough: stream, anabranch of Koyukuk River, 16 miles long, 17 miles NE of Roundabout Mountain, Koyukuk Lowland; 65° 47' N, 156° 23' W; (map 108). Local name obtained at Huslia by USGS in 1954 or 1955.

Happy Slough: stream, flows NW 4 miles to Patsy Slough, 7 miles NE of Nulato, Koyukuk Lowland; 64° 46' N, 157° 54' W; (map 97). Local name reported in 1954 by USGS.

Happy Station: railroad station, see Happy.

Happy Valley Creek: stream, flows SW 1 mile to East Fork Solomon River, between Mitchell and Vinegar Creeks, 11 miles NE of Solomon, Seward Peninsula Highlands; 64° 42' N, 164° 15' W; (map 95). Prospectors' name reported on a 1902 prospectors' manuscript map.

Happy Valley: locality, on W coast of Kenai Peninsula, 4.5 miles NE of Cape Starichkof and 22 miles NW of Homer, Cook Inlet Lowland; 59° 56' N, 151° 44' W; (map 50). Local name reported and published by USGS in 1950.

Happy Valley: valley, 0.4 miles long, between Mitt Lake and Sweeper Cove, on NE coast of Adak Island, Aleutian Islands; 51° 51' 00" N, 176° 39' 10" W; (map 17). Name published by USC&GS in 1963 on Chart 9119.

Happy: railroad station, mile 463.0 on The Alaska Railroad, in Happy Creek valley, 8 miles NW of Fairbanks, Yukon-Tanana Highlands; 64° 53' 15" N, 147° 55' 30" W; (map 100). Variant: Happy Station. Local name derived from Happy Creek and published on timetable in 1922.

Harbor Hat Point: point of land, on E shore of Port Hobron, on N coast of Sitkalidak Island, SE of Kodiak island; 57° 10' 30" N, 153° 06' 30" W; (map 34) Local name published in 1943 by USC&GS.

Harbor Island: island, 1.5 miles across, in Holkham Bay at entrance to Endicott Arm, 3 miles NW of Wood Spit and 48 miles SE of Juneau, Coast Mountains; 57° 00' 45" N, 133° 36' 45" W; (map 8). Named in 1869 by Comdr. R. W. Meade, USN; name published by USC&GS in 1883 Coast Pilot (p. 168).

Harbor Island: island, 300 ft. across, tied to Japonski Island, 0.4 miles SW of Sitka, Alexander Archipelago; 57° 02' 52" N, 135° 20' 35" W; (map 9). Variant: Ostrov Gavanskoy. This is an 1882 translation by USC&GS of the name given in 1809 by the Russian navigator Ivan Vasiliev the first, IRN; reported by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Gavanskoy."

Harbor Island: island, 4 miles long, at entrance to Aialik Bay, 32 miles SW of Seward, Chugach Mountains; 59° 40' N, 149° 39' W; BGN 1911; (map 49). Descriptive name given in 1909 by U. S. Grant, USGS.

Harbor Island: island, 500 ft. across, in Security Bay, on N coast of Kuiu Island, 40 miles SE of Sitka, Alexander Archipelago; 56° 51' 45 " N, 134° 21' 05 " W; (map 5). Named in 1869 by Comdr. R. W. Meade, USN.

Harbor Island: island, see Pitt Island.

Harbor Peak: peak, 2,193 ft., 1.5 miles NNW of Sitka, on Baranof Island, Alexander Archipelago; 57° 04' 25" N, 135° 19' 45" W; (map 9). Variant: Gora Gavanskaya. This is an 1882 translation by USC&GS of the name given in 1809 by the Russian navigator Ivan Vasiliev the first, IRN; reported by Lt. Sarichev (1826, map 19), IRN, as "Gore Gavanskaya," meaning "harbor mountain."

Harbor Peak: ridge, see Gavan Hill.

Harbor Point: point of land, 5.5 miles NW of Sitka, on NW coast of Baranof Island, Alexander Archipelago; 57° 07' 30" N, 135° 23' 20" W; (map 9). Variant: Gavanski Point, Mys Gavanskoy. This is an 1882 translation by USC&GS of the name given in 1809 by the

Russian navigator Ivan Vasiliev the first, IRN; reported by Lt. Sarichev (1826, map 19), IRN, as "Mys Gavanskoy" (Harbor Cape).

Harbor Point: point of land, at mouth of Lituya Bay, in Glacier Bay National Monument, 0.3 miles SE of the La Chaussee Spit, 87 miles NW of Hoonah, Malaspina Coastal Plain; 58° 36' 45" N, 137° 39' 20" W; (map 10). Variant: South Point. Named by W. H. Dall, USC&GS, in 1874 and published in the 1883 Alaska Coast Pilot (p. 202). It was called "M[ys] Yuzhnoy" meaning "cape southern" by Capt. Tebenkov (1852, map 8), IRN.

Harbor Point: point of land, E end of Long Island in Port Frederick on Chichagof Island, 1 mile SW of Hoonah, Alexander Archipelago; 58° 05' 45" N, 135° 27' 30" W; (map 11). Named in 1880 by U.S. Navy and published in 1881 on Hydrog. Chart 883.

Harbor Point: point of land, northeast point of entrance to Hassler Harbor, in Revillagigedo Channel, on NE coast of Annette Island, Alexander Archipelago; 55° 13' N, 131° 25' W; (map 3). Descriptive name given in 1883 by Lt. Comdr. H. E. Nichols, USN.

Harbor Point: point of land, on N shore of Port Moller, Bristol Bay Lowland; 55° 55' 00" N, 160° 34' 30" W; (map 28). Named in 1882 by W. H. Dall, USC&GS.

Harbor Ridge: ridge, elev. 1,700 ft., 5.5 miles long, on mainland, W of Willard Inlet, Coast Mountains 54° 49' N, 130° 41' W; (map 2). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Harbor Rock: rock, in Sitka Harbor, off W coast of Baranof Island, Alexander Archipelago; 57° 03' 14" N, 135° 20' 48" W; (map 9). Name reported by W. H. Dall, USC&GS published in 1883 Coast Pilot (p. 149). So named because of its location in Sitka Harbor.

Harbor, Lake: bay, see Pearl Harbor.

Hard Luck Creek: stream, flows NW 6.5 miles to Chatanika River, 28 miles NW of Fairbanks, Yukon-Tanana Highlands; 64° 58' 45" N, 148° 36' 35" W; (map 100). Variant: Hardluck Creek. Name applied by prospectors; published in 1906 by USGS.

Hard Luck Creek: stream, flows SW 1 mile to junction of Eldorado and Telegram Creeks, at head of Dome Creek, 22 miles NW of Solomon Seward Peninsula Highlands; 64° 53' N, 164° 38' W, (map 95). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Hard Luck Creek: stream, formed by Harrington and Pleasant Creeks, flows NW 24 miles to Nation River, 37 miles NNW of Eagle, Porcupine Plateau; 65° 17' 30" N, 141° 37' 50" W; BGN 1965; (map 103). Variant: Cathedral Creek. Named in 1910 by IBC survey; application of the name was originally extended to apply to Harrington Creek.

Hard Luck Creek: stream, see Harrington Creek.

Hardenburg Bay: cove, 0.8 miles long, on SE shore of Lake Clark, 23 miles NE of Nondalton, Aleutian Range; 60° 12' 15" N, 154° 18' 15" W; (map 61). Local name reported in 1954 by USGS.

Harding Gateway: water passage, extends SE 4 miles from Resurrection Bay to Blying Sound, between Cheval and Rugged Islands, 21 miles S of Seward, Chugach Mountains; 59° 49' N, 149° 27' W; BGN 1923; (map 49). This feature was “Ceremoniously christened by Governor Scott Bone of Alaska and officers of the transport Henderson and destroyers Cory and Bull as these vessels passed through the channel July 3, 1923 with President Warren G. Harding on board the transport.”

Harding Icefield: icefield, extends SW 30 miles from Lowell and Bear Glaciers to Chernof Glacier, in Kenai Mountains, 18 miles W of Seward, Chugach Mountains; 60° 00' N, 150° 00' W; (map 49) Name published in 1950 by USGS; presumably named for Warren Gamaliel Harding, 1865-1923, 28th President of the United States.

Harding Lake: lake, 2.3 miles across, 4 miles SE of junction of Salcha and Tanana Rivers and 38 miles NW of Big Delta, Tanana Lowland; 64° 25' N, 146° 50' W; BGN 1964; (map 101). Variant: Lake Harding, Salchaket Lake. Named for Warren Gamaliel Harding, 1865-1923, the 29th President of the United States, who visited Alaska just before his death. The lake was originally reported by USGS in 1909 as “Salchaket Lake.”

Harding Point: point of land, N tip of Smeaton Island in Behm Canal, Coast Mountains; 55° 18' 00" N, 130° 56' 50" W; (map 3). Local navigators' name obtained in 1904 by H. C. Fassett, USBF.

Harding River: stream, flows S 20 miles through Fall Lake to Bradfield Canal, Coast Mountains; 56° 12' 15" N, 131° 37' 00" W; (map 7). Local name reported in 1923 by USFS.

Harding, Mount: mountain, 3,000 ft., 17.5 miles S of Baranof, on E coast of Baranof Island, Alexander Archipelago; 56° 50' 10" N, 134° 45' 30" W; (map 5). Named for charting purposes; name published in 1943 by USC&GS.

Hardluck Bay: bay, N shore of Lake Beverley 46 miles N of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 42' N, 158° 45' W; BGN 1931; (map 52). Named in 1910 by Beverley N. Polley, prospector; reported by USBF in 1929.

Hardluck Island: island, extends E-W 3.5 miles in Yukon River, 0.4 miles N of Mickey Island and Ruby, Nowitna Lowland; 64° 56' N, 154° 34' W; (map 98). Riverboat pilots' name shown on 1940 “Navigation Chart, Tanana-Yukon Rivers” of the River Boat Service, U.S. Dept. of Interior.

Hardluck Slough: stream, heads at Victor Slough, flows W 4 miles around N side of Hardluck Island to Yukon River, 29 miles NE of Ruby, Nowitna Lowland; 64° 57' N, 154° 38' W; (map 98). Variant: Deniga Slough, Moose Slough. Riverboat pilots' name shown on a 1940 “Navigation Chart, Tanana-Yukon Rivers” of the River Boat Service, U.S. Dept. of Interior.

Hardover Point: point of land, at NW tip of Nuka Island, 36 miles E of Seldovia, Chugach Mountains; 59° 25' N, 150° 42' W; BGN 1931; (map 50). So named by USC&GS in 1931 “because it is necessary to put the helm hard over in making the turn in the passage.”

Hardpac Creek: stream, flows E 12 miles to Pitka Fork, 4 miles N of Twin Sisters, and 48 miles NW of Beaver, Kokrines-Hodzana Highlands; 66° 52' 30" N, 148° 35' 30" W; (map 118). Local name obtained in 1956 by USGS.

Hardscrabble Creek: stream, flows SE 19 miles to North Fork Kuskokwim River, 42 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 28' N, 153° 39' W; (map 89). Local name reported in 1958 by USGS.

Hardscrabble Creek: stream, heads in lake, flows SW 30 miles to Lake Grosvenor, on Alaska Peninsula, in Katmai National Monument, 23 miles N of Mount Katmai, Aleutian Range; 58° 36' N, 155° 03' W; (map 42). So named in 1923 by R. H. Sargent's USGS party, "on account of difficult traveling."

Hardscrabble Gulch: ravine, tributary to Gold Creek, about 2 miles W of Juneau, Coast Mountains; 58° 18' N, 134° 20' W; (map 11). Miners' name for a gulch, subsequently destroyed by mining operations (DeArmond, 1957, p. 22).

Hardscrabble, Point: point of land, on SW coast of Kosciusko Island, Alexander Archipelago; 55° 59' 20" N, 133° 47' 00" W; (map 4). Named by local fishermen and reported in 1904 by H. C. Fassett, USBF.

Hardscratch Point: point of land, on E coast of Unga Island, in Shumagin Islands, Aleutian Range; 55° 15' 45" N, 160° 32' 00" W; (map 28). Named in 1943 by USC&GS.

Hardway Creek: stream, flows N 11 miles to Ipnarik River, 35 miles N of Howard Pass, Arctic Slope; 68° 43' 30" N; 156° 52' 00" W; (map 132). So named in 1950 by B. H. Kent, USGS, geologist connected with the Naval Petroleum Reserve No. 4 explorations as a result of a "camping incident". Name published by USGS in 1951.

Hardy Creek: stream, on Attu Island, flows SW 1.5 miles to Peaceful River, 3.5 miles W of Navy Town, Aleutian Islands; 52° 50' 50" N, 173° 06' 00" E; (map 13). Named by U.S. Army during World War II; published in 1948 by AMS.

Hardy Creek: stream, on Iniskin Peninsula, flows E 1 mile to Fitz Creek, 2.4 miles S of Chinitna Bay, Aleutian Range; 59° 47' N, 153° 12' W, BGN 1947; (map 51). Local name reported by USGS in 1947; named for Charles W. Hardy, "a well-known engineer of Salt Lake City, Utah."

Hare Island: island, 0.2 miles across, in Keku Strait, 8 miles S of Kake, off NE coast of Kuiu Island, Alexander Archipelago; 56° 51' 30" N, 133° 58' 00" W; (map 6). Local fishermen's name reported in 1947 by USC&GS.

Harem Rock: rock, 0.7 miles off SW coast of Tanaga Island, Aleutian Islands; 51° 39' 20" N, 178° 05' 50" W; (map 16). Local name published on a 1954 USGS map.

Harlampy's Hill: mountain, see Bear Mountain.

Harlampy's Mountain: mountain, see Bear Mountain.

Harlem Creek: stream, flows SW 1 mile to Shovel Creek near its head, 12 miles N of Solomon, Seward Peninsula Highlands; 64° 43' 25" N, 164° 26' 00" W; (map 95). Prospectors' name reported on a 1902 prospectors' manuscript map.

Harlequin Lake: lake, 6.5 miles long, at 1961 terminus of Yakutat Glacier, 30 miles SE of Yakutat Bay, St. Elias Mountains; 59° 26' N, 138° 56' W; (map 46). Variant: Terminal Lake. Named by Blackwelder (1907, p. 424), USGS, "* * * from the fact that a pair of harlequin ducks (*Histrionicus histrionicus*) were the only living things seen upon it." Also called Terminal Lake on a USGS manuscript map dated 1907.

Harman Point: point of land, see Pyke, Point.

Harmony Island: islands, extend 1.2 miles, at mouth of Tonowek Bay, off W coast of Prince of Wales Island, Alexander Archipelago; 55° 43' N, 133° 24' W; BGN 1928; (map 4). Named in 1928 by USFS.

Haro, Riviere: strait, "forming part of Delisle's fantastic geography connecting Lac Velasco and a large gulf to the south in about 56°. Named after a personage mentioned in the Fonte narrative." (Wagner, 1937, p. 461).

Harper Bend: bend, in Tanana River 5 miles N of junction of Chitanana River, 18 miles SE of Tanana, Nowitna Lowland; 65° 00' N, 152° 37' W; (map 106). Named as early as 1890 for Arthur Harper, born 1835, prospector, trader, and explorer of the Yukon River. Harper reached the Yukon in 1873 and his name, along with Napoleon Leroy McQuesten and Alfred Mayo, stands out prominently in the history of the Yukon "country" the last third of the nineteenth century (see Brooks, 1953, p. 311-320). In 1875, Harper ascended the Tanana and built a cabin near this bend. Later, in 1878, this cabin was the home and scene of the murder, by Indians, of Mrs. Edmond Bean, wife of the first trader to establish himself on the Tanana (Allen, 1887, p. 86). See McQuesten Creek and Mayo Bend.

Harper Glacier: glacier, in Mount McKinley National Park, trends NE 4 miles, from Denali Pass on Mount McKinley to Harper Icefall, Alaska Range; 62° 06' 45" N, 150° 48' 00" W; BGN 1946; (map 88). Named in 1913 by Archdeacon Stuck (1921, p. 121-122) for Walter Harper, a son of Arthur Harper who was an early pioneer and who was "the first man to make written reference to this mountain [McKinley], since Vancouver * * * in 1794." Walter Harper, Archdeacon Hudson Stuck, Henry Karstens, and Robert Tatum made the "first official ascent" of Mount McKinley on June 7, 1913. See McKinley, Mount.

Harper Ice Fall: icefall, of 2,500 ft., in Mount McKinley National Park, at terminus of Harper Glacier, 3 miles NE of summit of Mount McKinley, Alaska Range; 63° 06' 30" N, 150° 06' 00" W; BGN 1947; (map 88). Probably named by Bradford Washburn about 1945.

Harper, Mount: mountain, 6,515 ft., 70 miles NW of Tok Junction, 90 miles SW of Eagle, Yukon-Tanana Highlands; 64° 14' N, 143° 21' W; (map 102). Prospectors' name thought to be for Arthur Harper, 1835-1897, Yukon River valley pioneer. Name shown on a 1911 USGS fieldsheet.

Harpers Station: locality, see Tanana.

Harpoon Glacier: glacier, in Tordrillo Mountains, heads on Mount Torbert, trends SW 9 miles to its terminus at Nagishlamina River, 52 miles NW of Tyonek, Alaska Range; 61° 20' N, 152° 38' W; BGN 6th Report; (map 70). Named in 1927 by S. R. Capps and R. H. Sargent (in Smith and others, 1930, pl. 1, 2), USGS; "suggested by the outline of the glacier on our map."

Harpoon Glacier: glacier, on E slope of Mount Veniaminof, trends NE 4 miles to its terminus 3 miles SW of Knife Peak, Aleutian Range; 56° 15' N, 159° 10' W; (map 30). Descriptive name reported in 1923 by R. H. Sargent, USGS.

Harpoon Point: point of land, on SE coast of Kiska Island, Aleutian Islands; 51° 55' 25" N, 177° 36' 00" E; (map 14). Variant: Sea Lion Point. An arbitrary name beginning with "H" to correspond to "H" grid used by U.S. Army for tactical purposes during World War II; published on a 1953 AMS map. Variant published on a 1943 USAAF map.

Harpson Creek: stream, see Harrison Creek.

Harpsons Creek: stream, see Harrison Creek.

Harrell Island: island, 1.9 miles long, in Wilson Lake, on E bank of Kuskokwim River, 12 miles SW of McGrath, Kuskokwim Lowland; 62° 46' 45" N, 155° 42' 00" W; (map 80). Named in 1898 by J. E. Spurr, USGS, for A. E. Harrell, a member of his party.

Harriet Creek: stream, flows NW 7 miles from Pope Creek Dome to Koyukuk River, 2 miles SW of junction of North and Middle Forks of Koyukuk River and 38.5 miles SW of Wiseman, Brooks Range; 67° 01' 30" N, 151° 08' 00" W; (map 124). Local name shown on an 1899 fieldsheet by T. G. Gerdine, USGS.

Harriet Creek: stream, flows SE 16 miles to Redoubt Bay, Cook Inlet, 36 miles WSW of Kenai, Aleutian Range; 60° 25' N, 152° 17' W; (map 62). Name derived from nearby Harriet Point and used by local prospectors; reported in 1899 by F. C. Schrader, USGS.

Harriet Hunt, Lake: lake, 0.9 miles across, on Revillagigedo Island, W of George Inlet, Alexander Archipelago; 55° 29' 15" N, 131° 35' 00" W; (map 3). Variant: Lake Hunt. Local name reported in 1954 by USGS.

Harriet Point: point of land, W shore of Cook Inlet, S point of entrance to Redoubt Bay, 36 miles WSW of Kenai, Aleutian Range; 60° 24' N, 152° 15' W; (map 62). Name reported by Capt. George Vancouver, RN; published in 1798 in his atlas (Wagner, 1937, p. 391).

Harriman Fiord: estuary, extends NE 12 miles from terminus of Harriman Glacier to Barry Arm, 28 miles NE of Whittier, Chugach Mountains; 61° 05' N, 148° 11' W; (map 63). Named by the members of the Harriman Alaska Expedition for Edward Henry Harriman, 1848-1909, the organizer and sponsor of the expedition in 1899.

Harriman Glacier: glacier, trends NE 8 miles to its terminus at head of Harriman Fiord, 16 miles NE of Whittier, Chugach Mountains; 60° 58' 30" N, 148° 26' 30" W; (map 63). Named by the members of the Harriman Alaska Expedition in 1899. See Harriman Fiord.

Harrington Creek: stream, heads in Canada, flows SW 9 miles to join Pleasant Creek to form Hard Luck Creek, 23 miles NE of Eagle, Porcupine Plateau; 65° 06' 40" N, 141° 04' 00" W; BGN 1965; (map 103). Variant: Hard Luck Creek. Name first published in 1914 by D. D. Cairnes. The stream was considered part of Hard Luck Creek by the IBC survey.

Harrington Fork: stream, flows SE 12 miles to Birch Creek, 60 miles SW of Circle, Yukon-Tanana Highlands; 65° 17' N, 145° 43' W; (map 104). Named by prospectors and reported in 1911 by USGS (Prindle, 1913, pl. 1).

Harrington Point: point of land, on N shore of Nuka Bay, 43 miles E of Seldovia, Chugach Mountains; 59° 27' 30" N, 150° 30' 00" W, BGN 1929; (map 50). Local name reported by USC&GS in 1928.

Harrington Rock: rock, in Portage Bay, off N coast of Kupreanof Island, 16 miles NW of Petersburg, Alexander Archipelago; 56° 57' 30" N, 133° 17' 40" W; (map 6). Named in I B82 by Lt. Comdr. H. E. Nichols, USN.

Harrington, Point: point of land, northernmost tip of Observation Island, S point of entrance to Steamer Bay, off W coast of Etolin Island, Alexander Archipelago; 56° 10' 10" N, 132° 43' 30" W; (map 6). Named in September 1793, by Capt. George Vancouver, RN, (Wagner, 1937, p. 391).

Harris Bay: bay, just W of Harris Peninsula, extends S 18 miles from Northwestern Lagoon, 35 miles SW of Seward, Chugach Mountains; 59° 40' N, 149° 54' W; BGN 1910; (map 49). Name reported in 1909 by U. S. Grant and D. F. Higgins, USGS.

Harris Bay: lagoon, see Northwestern Lagoon.

Harris Cove: bay, 1.5 miles across, on W coast of Kuiu Island, 1 mile N of Port Malmsbury, Alexander Archipelago; 56° 19' 30" N, 134° 17' 00" W; BGN 1929; (map 5). Named in 1928 by USC&GS, name derived from Point Harris.

Harris Creek: stream, flows NE 1 mile to Bluestone River, 13 miles SE of Teller, Seward Peninsula Highlands; 65° 06' N, 166° 14' W; (map 111). Prospectors' name reported on a map of Cape Nome goldfields by David Fox, Jr., dated 1901.

Harris Creek: stream, flows SW 28 miles to Nushagak River, 75 miles NE of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 58' N, 157° 25' W; BGN 1932; (map 52). Local name reported in 1932 by Gerald FitzGerald, USGS; published by Mertie (1938, pl. 1), USGS.

Harris Creek: stream, formed by junction of Lucky and Shasta Creeks, flows SW 8.5 miles to North Fork Kougarak River, W of Harris Dome, 41 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 37' N, 164° 35' W; (map 110). Prospectors' name reported in 1900 by Brooks (1901, pl. 11), USGS.

Harris Creek: stream, see Harris River.

Harris Creek: stream, see Harrison Creek.

Harris Dome: mountain, 1,855 ft., on N side of North Fork Kougarok River, 11 miles S of Midnight Mountain and 38 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 37' N, 164° 33' W; (map 110). Local name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Harris Harbor: bay, see Datzkoo Harbor.

Harris Island: island, 0.3 miles across, 2.5 miles SE of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 02' 00" N, 135° 16' 30" W; (map 9). Variant: Harris Islet. Named in 1880 by Capt. L. A. Beardslee, USN; published by USC&GS in 1883 Coast Pilot (p. 144).

Harris Island: island, 1,500 ft. across, off S coast of Annette Island, between Felice Strait and Tamgas Harbor, Alexander Archipelago; 55° 00' 08" N, 131° 32' 00" W; (map 3). Named in 1885 by Lt. Comdr. Richardson Clover, USN.

Harris Peak: mountain, near center of Prince of Wales Island, on N bank of Harris River, 14 miles E of Craig, Alexander Archipelago; 55° 28' 40" N, 132° 46' 30" W; (map 4). Local name recorded in 1949 by USGS.

Harris Peninsula: peninsula, extends SE 16 miles between Harris and Aialik Bays, 30 miles SW of Seward, Chugach Mountains; 59° 40' N, 149° 45' W; BGN 1930; (map 49). Named in 1928 by USC&GS "after the adjoining bay."

Harris Point: point of land, on SE coast of Kenai Peninsula, 4 miles W of Granite Island, 38 miles SW of Seward, Chugach Mountains; 59° 39' 30" N, 149° 56' 45" W; (map 49). Local name reported in the early 1950's by USC&GS.

Harris Point: point of land, S tip of Smeaton Island in Behm Canal, Coast Mountains; 55° 19' N, 130° 58' W; (map 3). Local navigators' name obtained in 1904 by H. C. Fassett, USBF.

Harris River Bay: estuary, extends W 1.5 miles, off Twelvemile Arm Kasaan Bay, S of Cat Island, near center of Prince of Wales Island, Alexander Archipelago; 55° 27' 20" N, 132° 39' 30" W; (map 4). Local name published in 1925 Coast Pilot (p. 113).

Harris River: stream, flows S and E 14 miles to Harris River Bay, near center of Prince of Wales Island, 17 miles E of Craig, Alexander Archipelago; 55° 27' 40" N, 132° 41' 30" W; (map 4). Variant: Harris Creek. Local name reported in 1906 as "Harris Creek" by Wright and Wright (1908, fig. 15), USGS. The generic "river" was applied to this stream by USC&GS in 1920.

Harris, Mount: mountain, 6,392 ft., in Takhinsha Mountains, 3.2 miles SW of terminus of Tsirku Glacier, on Alaska-Canada boundary, 44 miles SW of Skagway, St. Elias Mountains, BGN 1923, 59° 15' 35" N, 136° 29' 20" W; (map 45). Variant: Boundary Peak 156. Named by the IBC in 1923 for D. R. Harris, a surveyor in the Canadian section of the Boundary Survey in 1904.

Harris, Point: point of land, N point of entrance to Port Malmsbury, on W coast of Kuiu Island, 15 miles NE of Port Alexander, Alexander Archipelago; 56° 17' 30" N, 134° 17' 45" W; (map

5). Variant: Point Garns. Named by Capt. George Vancouver, RN, on August 4, 1794, “no doubt for James Harris, first Earl of Malmsbury” (Wagner, 1937, p. 391).

Harrisburg: city, see Juneau.

Harrison Bay: bay, 57 miles across, on coast of Beaufort Sea, between Cape Halkett and Oliktok Point, Arctic Plain; 70° 40' N, 151° 30' W; BGN 1944; (map 149). Variant: Harrison's Bay. On July 26, 1837, Dease and Simpson (Simpson, Thomas, 1843, p. 133), “conferred the name of Harrison Bay, in honour of the Deputy Governor [Hudson's Bay Company; Benjamin Harrison, Deputy Governor, 1835-39] * * * whose attention had been so long sedulously directed to the moral and religious improvement of the natives of the Indian country * * *.”

Harrison Creek: stream, flows NW 0.7 miles to California Creek which flows to Bonanza River, 9 miles NW of Solomon, Seward Peninsula Highlands; 64° 39' N, 164° 40' W; (map 95). Variant: Harris Creek. Prospectors' name shown on Arthur Gibson's “Map of Cape Nome Precinct” dated 1904. Reported as “Harris” on map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Harrison Creek: stream, flows SE 0.7 miles to Ophir Creek which flows to Niukluk River, 37 miles NE of Solomon, Seward Peninsula Highlands; 64° 57' N, 163° 40' W; (map 95). Variant: Gala Creek, Harpson Creek, Harpsons Creek. Prospectors' name published in 1956 by USGS. This appears to be the stream reported as “Gala” on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. 408 Shown as “Harpson” on the 1908 “Map of Seward Peninsula” by Arthur Gibson.

Harrison Creek: stream, flows SE 3.8 miles to Portland Canal, 1.1 miles N of Reef Island, Coast Mountains; 55° 06' 25” N, 130° 11' 30” W; (map 3). Local name recorded in 1955 by USGS. See Harrison Point.

Harrison Creek: stream, heads at junction of North and South Forks of Harrison Creek, flows SE 13 miles to Birch Creek, 39 miles SW of Circle, Yukon-Tanana Highlands; 65° 20' 30” N, 144° 45' 00” W; (map 104). Named by prospectors; reported in 1896 by USGS. “At the junction of these two streams [Harrison and Birch Creeks] is Pitkas Bar, where, in 1893, gold in the Birch Creek district was first discovered” (Spurr, 1898, p. 351).

Harrison Creek: stream, see South Fork Harrison Creek.

Harrison Fork: stream, flows N 2 miles to Independence Creek, 4.5 miles NE of Mastodon Dome and 41 miles SW of Eagle, Yukon-Tanana Highlands; 65° 28' 25” N, 145° 13' 00” W; (map 104). Named by prospectors and reported in 1936 by Mertie (1938a, p. 220), USGS.

Harrison Lagoon: lagoon, 0.5 miles across, on W side of Port Wells, 22 miles NE of Whittier, Chugach Mountains; 60° 59' 15” N, 148° 12' 00” W; (map 63). Local name reported in 1916 by J. W. Bagley, USGS.

Harrison Lake: lake, 600 ft. long, 0.5 miles W of Chickaloon and 24 miles NE of Palmer, Talkeetna Mountains; 61° 47' 40” N, 148° 29' 45” W; (map 69). Local name reported in 1948 by USGS.

Harrison Lakes: lakes, largest of which is 0.7 miles long, extends W 1.6 miles at head of Harrison Creek, near W bank of Portland Canal, Coast Mountains; 55° 08' 30" N, 130° 14' 30" W; (map 3). Local name recorded in 1955 by USGS. See Harrison Point.

Harrison Point: point of land, on W bank of Portland Canal NE of Harrison Creek, 3 miles N of Blaine Point, Coast Mountains; 55° 07' 15" N, 130° 10' 10" W; (map 3). Variant: Leading Point. Name published in 1897 by USC&GS; this feature is called "Leading Point" on Brit. Adm. Chart 2431, 1865-88.

Harrison River: stream, see Alsek River.

Harrison's Bay: bay, see Harrison Bay.

Harry Bay: estuary, extends NW 3 miles from Nakat Bay SW of Peninsula Ridge, Coast Mountains; 54° 48' 00" N, 130° 46' 30" W; (map 2). Local navigator's name reported in 1904 by H. C. Fassett, USBF.

Harry Creek: stream, flows W 4 miles to Dahl Creek, 9 miles NE of Shungnak, Brooks Range; 66° 59' N, 156° 51' W; (map 115). Local name reported in 1943 by R. R. Coats, USGS.

Harry Island: island, off N coast of Chichagof Island in Icy Strait, 0.4 miles NW of Burger Point and 9 miles NW of Hoonah; Alexander Archipelago; 58° 13' 00" N, 135° 35' 50" W; (map 11). Named in 1901 by E. F. Dickins, USC&GS and published in 1904 on Chart 8304.

Harry Saddle: mountain, 2,060 ft., on mainland near mouth of Revillagigedo Channel, 2 miles N of Cape Fox, Coast Mountains; 54° 48' N, 130° 50' W; (map 2). Named by Comdr. R. W. Meade, USN, in 1869.

Harrys Gulch: ravine, extends 7 miles SE to North Fork Bremner River, 6 miles SW of Hanagita Peak and 42 miles SW of McCarthy, Chugach Mountains; 61° 01' 15" N, 143° 50' 40" W; (map 67). Local name reported in 1911 by D. C. Witherspoon, USGS.

Harrys Lake: lake, 0.4 miles long, on SW coast of Woewodski Island, 19 miles SW of Peterburg, Alexander Archipelago; 56° 32' 30" N, 133° 02' 00" W; (map 6). Local name recorded in 1951 by USGS.

Hart Creek: stream, flows NW 0.7 miles to Glacier Creek, 7 miles N of Nome, Seward Peninsula Highlands; 64° 36' N, 165° 21' W; (map 94). Prospectors' name shown on a 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Hart Lake: lake, 1,250 ft. across, in Matanuska Valley, 7 miles NW of Palmer, Cook Inlet Lowland; 61° 38' 35" N, 149° 18' 25" W; (map 69). Local name reported in 1942 by AMS.

Harter Gulch: ravine, extends S 1.9 miles to Cache Creek, 1.2 miles SE of Tofty and 36 miles ESE of Tanana, Yukon-Tanana Highlands; 65° 05' 08" N, 150° 50' 50" W; (map 106). Prospectors' name reported in 1931 by J. B. Mertie, USGS.

Hartman Island: island, 1.3 miles long, one of a chain, in entrance to Wide Bay, SW of Terrace Island, on S coast of Alaska Peninsula, 22 miles SW of Kanatak, Aleutian Range; 57° 22' N, 156° 17' W: (map 36). Local name published in 1924 by USC&GS; based on a 1923 survey.

Hartman Lake: lake, 0.4 miles across, W of Harding Lake and 38 miles NW of Big Delta, Yukon-Tanana Highlands; 64° 25' 50" N, 146° 54' 00" W; (map 101). Local name published in 1951 by USGS.

Hartman River: stream, heads at glacier, flows NE 27 miles to South Fork Kuskokowim River 5.3 miles NW of its junction with Styx River, 95 miles NW of Tyonek, Alaska Range; 61° 57' 40" N, 153° 19' 00" W; (map 71). Named in 1898 by J. E. Spurr, USGS, for George Hartman, a member of his party.

Hartnet Island: island, on Yukon River, 0.8 miles NW of Fish Island and 45 miles E of Nulato, Koyukuk Lowland; 64° 38' N, 156° 36' W; (map 97). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the U.S. Dept. of Interior.

Hartney Bay Creek: stream, see Hartney Creek.

Hartney Bay: bight, 3 miles wide, on SE shore of Orca Inlet, 5 miles SW of Cordova, Chugach Mountains; 60° 29' N, 145° 53' W; BGN 1933; (map 64). Local name reported in 1933 by H. E. Smith, USFS.

Hartney Creek: stream, flows W 3 miles to Hartney Bay, on S shore of Orca Inlet, 4 miles SW of Cordova, Chugach Mountains; 60° 30' N, 145° 50' W; BGN 1961; (map 64). Variant: Hartney Bay Creek, Heney Creek. Local name reported in 1960 by USFS; derived from Hartney Bay.

Harvard Arm College Fiord: estuary, extends NE 5.5 miles between College Fiord and Harvard Glacier, 51 miles NW of Valdez, Chugach Mountains; 61° 13' N, 147° 47' W; (map 69). Variant: College Fiord. Named in 1910 by Lawrence Martin (in Tarr and Martin, 1914, map 7).

Harvard Glacier: glacier, heads at NE end of Dora Keen Range, trends SW 24 miles to Harvard Arm College Fiord, 48 miles NW of Valdez, Chugach Mountains; 61° 41' 40" N, 147° 42' 00" W; (map 69). Variant: Twin Glaciers. So named by members of the Harriman Alaska Expedition in 1899 for Harvard Univ., Cambridge, Mass. Harvard and Yale Glaciers were called "twin glaciers" by Capt. E. F. Glenn in 1898.

Harvester Island: island, 1.4 miles long, in Uyak Bay, on NW coast of Kodiak island; 57° 39' N, 154° 00' W; (map 34). Named in 1899 for the USBF bark Harvester by Lt. Comdr. J. F. Moser, USN, of the USBF steamer Albatross.

Harvey Creek: stream, flows SE 11 miles to Buckland River, 49 miles NE of Haycock, Nulato Hills; 65° 52' N, 160° 34' W; (map 109). Local name published on maps after 1950.

Harvey Lake: lake, 0.8 miles long, on Kenai Peninsula, drains NE to Killey River, 39 miles SE of Kenai, Cook Inlet Lowland; 60° 18' 30" N, 150° 32' 00" W; (map 62). Local name reported in 1951 by USGS.

Harvey Lake: lake, 1 mile long, on Woewodski Island, 17 miles S of Petersburg, Alexander Archipelago; 56° 33' 15" N, 133° 03' 00" W; BGN 1933; Variant: Woewodski Lake. Local name reported in 1933 by R. H. Sargent, named for a "Mr. Harvey" (canna) who "has lived near it for the last 20 years and owns mining claims in the locality."

Harvey Mountain: mountain, 5,200 ft., 3 miles S of Apoon Mountain and 32 miles N of Wiseman, Brooks Range; 67° 51' 45" N, 150° 16' 00" W; BGN 1932; (map 124). Named about 1930 by Marshall (1956, pp. 141-166) for Kenneth Harvey, a local prospector and hunter who joined Marshall in his attempt to scale Mount Doonerak.

Hasen Creek: stream, flows 5 miles SE to Chitistone River 3.5 miles W of Chitistone Glacier terminus and 24 miles NE of McCarthy, Wrangell Mountains; 61° 31' 10" N, 142° 14' 30" W; (map 67). Local name published by USGS in 1954.

Hasgox Point: point of land, S tip of Ulak Island, Delarof Islands, Aleutian Islands; 51° 19' 00" N, 178° 59' 20" W; (map 16). Name published on a 1950 AMS map.

Hash Creek: stream, flows SW 2.4 miles to Niukluk River, 10 miles SW of Mount Bendeleben and 18 miles NW of Council, Seward Peninsula Highlands; 65° 02' N, 164° 12' W; (map 110). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Hask Falls: stream, see Haska Creek.

Haska Creek: stream, flows NE 2 miles to McClellan Flats, at mouth of Chilkat River, 2.7 miles NW of Green Point, on Chilkat Inlet, 19 miles SW of Skagway, St. Elias Mountains; BGN 1922; 59° 13' N, 135° 32' W; (map 45). Variant: Hask Falls, Xask Creek, Khask Creek. Tlingit Indian name Haska or Khask, meaning "little falls," because of its torrential character reported in 1912 by Louis Shotridge, USC&GS. It was called Hask Falls by the IBC (1923, map 9).

Hasselborg Creek: stream, heads in Hasselborg Lake, flows SW 6 miles to Salt Lake, 11 miles NE of Angoon, central Admiralty Island, Alexander Archipelago; 57° 35' 30" N, 134° 19' 45" W; BGN 1928; (map 9). Named by members of the Alexander Alaska Expedition of 1907 (1909, fig. 1, p. 217-220) "for Allen E. Hasselborg, a Juneau prospector, who lived at Mole Harbor as a hermit for over 24 years."

Hasselborg Homestead: locality, at head of Mole Harbor, 5 miles E of Hasselborg Lake, on Admiralty Island, 21 miles NE of Angoon, Alexander Archipelago; 57° 38' 45" N, 134° 06' 10" W; (map 9). Named by members of the Alexander Alaska Expedition of 1907 (1909, fig. 1) "for the homestead of Allen E. Hasselborg, a Juneau prospector.

Hasselborg Lake: lake, 8.5 miles long, 17 miles NE of Angoon, on central Admiralty Island, Alexander Archipelago; 57° 41' N, 134° 16' W, BGN 1928 (map 9) Named by members of the Alexander Alaska Expedition of 1907 "for Allen E. Hasselborg, a prospector of Juneau, who

acted as a guide for the expedition and who lived as a hermit in a homestead on Mole Harbor for over 24 years.”

Hassiah Inlet: estuary, extends NE 2.7 miles, off Cordova Bay, on W coast of Prince of Wales Island, Alexander Archipelago; 55° 00' 30" N, 132° 35' 30" W; (map 4) Indian name used by navigators and reported in 1905 by E. F. Dickins, USC&GS.

Hassler Harbor: bay, 1 mile across, on NE coast of Annette Island, Alexander Archipelago; 55° 13' 00" N, 131° 25' 45" W; (map 3). Named in 1883 by Lt. Comdr. H.E. Nichols, USN, for the Coast Survey steamer Hassler, which he commanded from 1881 to 1883.

Hassler Island: island, 4.2 miles across, off NW coast of Revillagigedo Island, between Gedney and Hassler Passes, Alexander Archipelago; 55° 53' N, 131° 38' W; (map 3). Named in 1891 by USC&GS for its steamer Hassler.

Hassler Island: island, between Behm Canal and Carroll Inlet, S of Revillagigedo Island, Alexander Archipelago; 55° 30' N, 131° 10' W; (map 3). In 1882 it was thought that Carroll Inlet divided Revillagigedo Island, the southern half being named "Hassler." However, the name is inapplicable as this assumption was not true.

Hassler Lake: lake, 2 miles long, on Annette Island, S of Hassler Harbor, 5.5 miles NE of Metlakatla, Alexander Archipelago; 55° 11' 15" N, 131° 27' 00" W; (map 3). Local name recorded in 1955 by USGS.

Hassler Pass: water passage, extends 4.5 miles between Hassler and Revillagigedo Islands, Alexander Archipelago; 55° 53' N, 131° 35' W; (map 3). Arbitrary name given in 1891 by USC&GS.

Hassler Point: point of land, point of entrance to North Bay, on NE coast of Dall Island, Alexander Archipelago; 55° 13' 20" N, 133° 06' 00" W; (map 4). Named in 1882 by W. H. Dall, USC&GS, for the Coast Survey steamer Hassler, which was on a surveying cruise in this vicinity in 1881. The Hassler was in turn named for Ferdinand Rudolph Hassler, 1770-1843, first Director of the U.S. Coast and Geodetic Survey, 1807-18, 1832-43.

Hassler Reef: reef, extends 3 miles between Clarence Strait and Dixon Entrance, 5 miles SW of Duke Island, Alexander Archipelago; 54° 51' N, 131° 34' W; (map 2). Variant: Brundige Rock. Named in 1883 by Lt. Comdr. H. E. Nichols, USN, (probably for the USC&GS ship Hassler), who said the reef is "Probably identical with Brundige Rock" (USC&GS, 1891, p. 74). "Capt. Brundige discovered this reef."

Hastings Creek: locality, on N coast of Norton Sound, at mouth of Hastings Creek, 10 miles SE of Nome, Seward Peninsula Highlands; 64° 32' N, 165° 06' W; (map 94). Site of a mining camp reported in the 1915-16 Polk's Gazetteer.

Hastings Creek: stream, flows N 5 miles to Chatanika River, 15 miles NW of Fairbanks, Yukon-Tanana Highlands; 65° 03' N, 147° 57' W; (map 105). Named by prospectors; published in 1908 by USGS.

Hastings Creek: stream, flows NW then SW 6 miles to Norton Sound, 10 miles SE of Nome, Seward Peninsula Highlands; 64° 27' N, 165° 06' W; (map 94). Prospectors' name published by Schrader and Brooks (1900, map 3), USGS.

Hasvampa Creek: stream, flows NE to Placer Creek which flows to Goodhope River, about 25 miles NW of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This stream cannot be precisely located on current maps.

Hat Island: island, 0.1 miles long, at mouth of Circle Bay, on SE coast of Woronkofski Island, Alexander Archipelago; 56° 22' 30" N, 132° 25' 30" W; BGN 1917; (map 6). Named in 1916 by USC&GS.

Hat Island: island, 0.2 miles across, in Resurrection Bay, 1 mile S of Humpy Cove and 11 miles SE of Seward, Chugach Mountains; 59° 57' 29" N, 149° 18' 30"W; (map 49). Local name reported in the 1940's by USC&GS.

Hat Island: island, 0.7 miles long, in Iliamna Lake, 2.5 miles SE of Chekok Point and 21 miles E of Iliamna, Aleutian Range; 59° 46' 45" N, 154° 19' 30" W; (map 51). So named locally because it resembles the shape of a prospector's hat. Name published by USGS in 1954.

Hat Island: island, 1 mile long, at S end of Eagle Island in Yukon River, Innoko Lowland; 63° 30' N, 159° 30' W; (map 91). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the U.S. Dept. of Interior.

Hat Lie Lakes: lakes, 2 miles NE of Upper Mouth Birch Creek and 17 miles SW of Fort Yukon, Yukon Flats; 66° 22' N, 145° 32' W; (map 119). Local name obtained in 1956 by USGS.

Hatan, Cape: point of land, see Kovrizhka, Cape.

Hatay Mountain: mountain, see Spurr, Mount.

Hatbox Mesa: mountain, 2,470 ft., extends E 20 miles between Aiyiak and Chandler Rivers, 47.5 miles NW of Anaktuvuk Pass, Arctic Slope; 68° 45' N, 152° 30' W; (map 134). So named by a USGS geology party in 1945 "because of the mesa's peculiar manner of weathering into box-like blocks that from a distance resemble hatboxes."

Hatch Creek: stream, flows NE 1 mile to Nome River, 0.6 miles downstream from Basin Creek and 12 miles NE of Nome, Seward Peninsula Highlands; 64° 40' N, 165° 18' W; (map 94). Prospectors' name reported on a map by S. E. King dated 1900.

Hatch Creek: stream, flows S 1 mile to Pacific Ocean, 1 mile NW of Hatchet Point, Kiska Island, Aleutian Islands; 51° 55' 40" N, 177° 31' 57" E; (map 14). An arbitrary name beginning with "H" to correspond to "H" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Hatcher Creek: stream, heads E of Hatcher Pass, flows E 1 mile to Fishhook Creek, 13 miles NW of Palmer, Talkeetna Mountains; 61° 46' 25" N, 149° 16' 25" W; (map 69). Local name reported in 1913 by USGS (Brooks and others, 1914, fig. 2).

Hatcher Pass: pass, 3,886 ft., at S end of Skyscraper Mountain, NE of Summit Lake, 13 miles NW of Palmer, Talkeetna Mountains; 61° 46' 10" N, 149° 18' 30" W; (map 69). Local name reported in 1951 by USGS.

Hatchery Creek: stream, flows N 18 miles through Lake Galea and two unnamed lakes to Sweetwater Lake, N central Prince of Wales Island, Alexander Archipelago; 55° 56' 28" N, 132° 58' 15" W; BGN 1963; (map 4). Local name recorded in 1949 by USGS. 410

Hatchery Creek: stream, flows SW 2 miles to Afognak Lake, 7.5 miles NW of Afognak, in I SW part of Afognak Island, N of Kodiak island; 58° 06' 05" N, 152° 52' 45" W; (map 43). Name derived from Hatchery Peak; published in 1952 on a USGS map.

Hatchery Lake: lake, 0.7 miles long, N of McHenry Inlet, on Etolin Island, Alexander Archipelago; 56° 02' 30" N, 132° 24' 00" W; (map 6). Local name recorded in 1953 by USGS.

Hatchery Peak: mountain, 2,089 ft., 8 miles N of Afognak, in S central Afognak Island, N of Kodiak island; 58° 07' 10" N, 152° 47' 30" W; (map 43). Name reported in 1922 on a USFS map.

Hatchet Lake: lake, 0.7 miles long, 31 miles E of Deadman Lake and 80 miles SE of Healy, Alaska Range; 63° 01' N, 147° 15' W; BGN 1959; (map 87). Named in 1954 by USGS because "a member of a survey party was hospitalized as a result of cutting his knee with a hatchet while setting up a camp beside the lake."

Hatchet Lake: lake, 2.7 miles long, on W Adak Island, Aleutian Islands; 51° 44' N, 176° 46' W; (map 17). Local descriptive name published in 1951 on a USGS map.

Hatchet Pass: water passage, 0.8 miles long, S of Dolgoi Island, 3.3 miles NE of Yakutat, Malaspina Coastal Plain; 59° 35' 15" N, 139° 40' 15" W; (map 46). Variant: Canoe Pass. Named in 1892 by Lt. G. B. Harber, USN, probably for nearby Hatchet Point.

Hatchet Point: point of land, 2 miles S. of Kiska Harbor on E coast of Kiska Island, Aleutian Islands; 51° 55' N, 177° 33' E; (map 14). Variant: Zaliva Point. An arbitrary name beginning with "H" to correspond to "H" grid used by U.S. Army for tactical purposes during World War II; published on a 1953 AMS map. Variant published on a 1943 USAAF map.

Hatchet Point: point of land, on E shore of Johnstone Passage, 1.7 miles N of Puget Cove and 2.9 miles NE of Yakutat, Malaspina Coastal Plain; 59° 35' 00" N, 139° 42' 05" W; (map 46). Variant: Mys Topor, Tapor Point. Called "M[ys] Toper," meaning "hatchet cape," by Capt. Tebenkov (1852, map 7), IRN.

Hatdolitna Canyon: canyon, 3 miles long, on Hughes Creek, 5 miles NW of Hughes, Hogatza Highlands; 66° 08' N, 154° 22' W; (map 116). "Hatdolitna" is the Indian name for Hughes Creek; reported in 1956 by Orth.

Hatdolitna Hills: mountains, 1,989 ft., extend NE 19 miles from Hatdolitna Canyon, between Hughes Creek and Koyukuk River, 10 miles N of Hughes, Hogatza Highlands; 66° 15' N, 154° 09' W; (map 116). Name derived from the Indian name for Hughes Creek; recorded in 1956 by Orth.

Hatdolitna: stream, see Hughes Creek.

Hather Creek: stream, heads in Kaiyuh Mountains, flows NE 60 miles to Magitchlie Creek 4.1 miles NW of its junction with Innoko River, 60 miles NE of Holikachuck and 63 miles NW of Ophir, Innoko Lowland; 63° 35' N, 158° 18' W; (map 90). Name published in 1965 by USGS.

Hati Rock: rock, see Hattie Rock.

Hatseegatloth Lake: lake, 12 miles SW of Roundabout Mountain, Koyukuk Lowland; 65° 23' N, 156° 46' W; (map 108). Koyukan Indian name reported in 1955 by USGS.

Hattan, Cape: point of land, see Kovrizhka, Cape.

Hattie Creek: stream, flows SE 1.5 miles to O'Connor Creek, 10 miles NW of Fairbanks, Yukon-Tanana Highlands; 64° 58' N, 147° 52' W; (map 100). Local name published in 1908 by USGS.

Hattie Rock: rock, off W coast of Dall Island, in Augustine Bay, 1 mile N of Cape Augustine, Alexander Archipelago; 54° 57' 50" N, 133° 09' 50" W; BGN 1923; (map 1). Variant: Hati Rock, Hattuh Rock, Utta Rock, White Rock. Named in 1923 by USC&GS from the Tlingit word meaning "white."

Hattuh Rock: rock, see Hattie Rock.

Hauke Creek: stream, in Mount McKinley National Park, flows N 15 miles to Birch Creek, 22 miles WSW of Wonder Lake and 28 miles NW of Mount McKinley, Tanana Lowland; 63° 22' 45" N, 151° 34' 20" W; (map 88). Local name reported in 1954 by USGS.

Hauti Island: island, 0.1 miles long, in Naukati Bay, 28 miles N of Craig, Alexander Archipelago; 55° 52' 15" N, 133° 09' 25" W; (map 4). Indian name published in 1964 by USC&GS.

Haven Creek: stream, flows W 2.2 miles to Tubutulik River in Death Valley, 36 miles SE of Imuruk Lake, Seward Peninsula Highlands; 65° 11' N, 162° 19' W; (map 110). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Haven: locality, see Camp Haven.

Havenstrite Ridge: ridge, elev. 1,210 ft., on Iniskin Peninsula, extends 1.6 miles on E bank of Fitz Creek, Aleutian Range; 59° 45' N, 153° 13' W; BGN 1947; (map 51). Local name reported by USGS in 1947; "originally named by geologists of the Iniskin Drilling Company for the Havenstrite brothers who were connected with the development of this area for some

time prior to 1947. In December, 1946, one of the brothers, Homer Havenstrite, was killed in an automobile accident.”

Hawk Bluff: bluff, 386 ft., on right bank of Yukon River, SE of Anvik, and 33 miles N of Holy Cross, Nulato Hills; 62° 38' 30" N, 160° 11' 00" W; (map 78). Local name reported in 1916 by G. L. Harrington and R. H. Sargent (in Harrington, 1918, pl. 1), USGS.

Hawk Creek: stream, see Billy Hawk Creek.

Hawk Inlet: inlet, 7 miles long, trending N-S on NW coast of Admiralty Island, 20 miles SW of Juneau, Alexander Archipelago; 58° 05' 30" N, 134° 46' 30" W; (map 11). Name published in the 1883 Coast Pilot (p. 182).

Hawk Inlet: locality, cannery, with summer pop. Of 500, on E shore of Hawk Inlet on Admiralty Island, 2 miles N of mouth of Greens Creek and 17 miles SW of Juneau, Alexander Archipelago; 58° 07' 40" N, 134° 45' 15" W; (map 11). Name published by USC&GS in the 1943 Coast Pilot (p. 341).

Hawk Point: point of land, in Alitak Bay, on W coast of Aliulik Peninsula, at S end of Kodiak Island, Kodiak island; 56° 48' 25" N, 154° 06' 00" W; BGN 1934; (map 32). Descriptive name given in 1929 by Capt. R. R. Lukens, USC&GS, “who observed a species of fish hawk nesting on adjacent bluffs.”

Hawk Point: point of land, S tip of Mansfield Peninsula at mouth of Hawk Inlet, 17 miles SW of Juneau, Alexander Archipelago; 58° 05' 45" N, 134° 47' 00" W; BGN 1934; (map 11). Name published in 1943 by USC&GS.

Hawk River: stream, flows NW and E 50 miles to Bonasila River, 41 miles NW of Holy Cross, Nulato Hills, 62° 30' N, 160° 53' W; (map 78). So named by R. H. Sargent, USGS, in 1916, because he “found a hawk's nest near its [the stream's] mouth.” It is said by some, however, that the last syllable of the nearby Stuyahok (River) was arbitrarily picked and converted in spelling to “Hawk.”

Hawk River: stream, heads on Purcell Mountain, flows SE 25 miles to Huslia River, 56 miles S of Shungnak, Koyukuk Lowland; 66° 09' N, 157° 10' W; (map 115). Local name reported in 1952 by USGS.

Hawkes Arm: bay, see Falcon Arm.

Hawkins Creek: stream, on Hawkins Island, flows NW 2 miles to Orca Bay, 10 miles W of Cordova, Chugach Mountains; 60° 31' N, 146° 13' W; (map 64). Name published in 1950 by USGS.

Hawkins Glacier: glacier, trends SW 22 miles from Mount Bona to its terminus at Chitina River W of Barnard Glacier, 37 miles SE of McCarthy, St. Elias Mountains; 61° 06' N, 142° 00' W; (map 67). Local name shown on undated fieldsheet by F. H. Moffit, USGS, presumably drafted about 1910.

Hawkins Island Cutoff: channel, 14 miles long, between Hawkins Island and Hinchinbrook Island, 18 Miles SW of Cordova, Chugach Mountains; 60° 27' N, 146° 12' W; (map 64). Local name reported in 1908 by Grant and Higgins (1909, pl. 4), USGS.

Hawkins Island: island, 22 miles long, S of Orca Bay, N of Hinchinbrook Island, 2 miles W of Cordova, Chugach Mountains; 60° 31' N, 146° 05' W; (map 64). Variant: Isla de Colpas. Examined by James Johnstone of Vancouver's party on June 5, 1794, and named by Capt. George Vancouver, RN (in Wagner, 1937, p. 391). It was called "Isle de Colpas" by Don Ignacio Arteaga on July 20, 1779.

Hawkins Point: point of land, see Salmo Point.

Hawkins, Mount: peak, 10,000 ft., in Chugach Mountains, 7 miles NE of Mount Tom White and 17 miles NW of Mount Steller, Chugach Mountains 60° 41' N, 143° 29' W; BGN 1930; (map 65). Named in 1930 by Lawrence Martin, USGS, for E. C. Hawkins, the chief engineer, who built the Copper River and Northwestern Railroad.

Hawley Island: island, see Boidarkin Island.

Hawthorne Peak: peak, 4,210 ft., 3.2 miles W of Thane on Gastineau Channel and 7 miles SE of Juneau, Coast Mountains; 58° 15' 45" N, 134° 14' 30" W; (map 11). Named in 1890 by Lt. Comdr. H. B. Mansfield, USN. Published in 1893 by USC&GS on Chart 8235.

Hawthorne Ridge: ridge, 4 miles long, extending NE from Hawthorne Peak to Carlson Creek, 7 miles E of Juneau, Coast Mountains; 58° 17' N, 134° 13' W; (map 11). Local name derived from nearby Hawthorne Peak and reported in 1965 by D. A. Brew and A. B. Ford, USGS.

Hawzerah Creek: stream, heads in lake, flows SE 6 miles to Koyukuk River, 15 miles S of Bettles, Kanuti Flats; 66° 42' N, 151° 42' W; BGN 1932; (map 117). Variant: Howzerah Creek. Koyukan Indian name reported in 1931 as "Howzerah Creek" by Robert Marshall.

Hawzerah Lake: lake, 1.2 miles long, drains S to Peavey Creek, 15 miles SW of Bettles, Hogatza Highlands; 66° 42' N, 151° 52' W; (map 117). Koyukan Indian name obtained in 1956 at Allakaket by T. E. Taylor, USGS.

Hay Island: island, 0.2 miles long, part of Sandman Reefs, 14 miles SE of Deer Island, Aleutian Range; 54° 39' 15" N, 162° 07' 00" W; (map 25). Named in 1888 by USBF.

Hay Lake: lake, 0.4 miles across, 1.6 miles W of Jim Lake and 4.8 miles NW of village of Lake Minchumina, Tanana Lowland; 63° 55' 10" N, 152° 27' 30" W; (map 88). Local name reported in 1954 by USGS.

Hay Slough: stream, flows NW 18 miles to junction of Tanana and Yukon Rivers, 3.5 miles E of Tanana, Nowitna Lowland; 65° 10' N, 151° 57' W; (map 106). Riverboat pilots' name shown on a 1940 navigation chart, Tanana-Yukon Rivers.

Hay, Mount: mountain, 8,870 ft., in Saint Elias Mountains, on Alaska-Canada boundary, 10 miles NW of Mount Lodge and 82 miles SW of Skagway, St. Elias Mountains; 59° 14' 40" N, 137° 36' 25" W; BGN 1954; (map 45). Variant: Boundary Peak 167. Named in 1923 by United

States and Canada for John Milton Hay, 1838-1905, author and diplomat. John Hay was born in Indiana and was private secretary to Abraham Lincoln. He served in foreign legations and worked as a journalist until 1879 when he became Assistant Secretary of State. In 1897 he became Ambassador to Great Britain. From 1897 to 1905 he served as Secretary of State under Presidents McKinley and Theodore Roosevelt. In 1903 he helped negotiate the treaty providing for the Alaskan Boundary Tribunal.

Haycock Rock: rock, 750 ft. across, 1.1 miles S of Northeast Rocks, off NE coast of Kiska Island Aleutian Islands; 52° 04' 50" N, 177° 40' 45" E; BGN 1937; (map 14). Local descriptive name reported in 1906 by U.S. Navy Hydrog. Office.

Haycock: village, pop. 6, on Eldorado Creek, 16 miles S of Granite Mountain, Seward Peninsula Highlands; 65° 13' N, 161° 10' W; (map 109). Mining camp established about 1914; so named because a mound near here looks like a haycock. Its population was 162 in 1920; 74 in 1930; 81 in 1939; and 21 in 1950. The Haycock post office was established in 1916 and operated until 1957 (Ricks, 1965, p. 25).

Hayden Glacier: glacier, heads at 60° 04' N, 140° 00' W, trends S 5 miles to Malaspina Glacier, 32 miles NW of Yakutat, St. Elias Mountains; 59° 59' 00" N, 140° 02' 30" W; (map 46). Variant: Haydon Glacier. Named in 1890 by Russell (1891, p. 108) USGS, for Ferdinand Vandiveer Hayden, 1829-87, American geologist and founder of the U.S. Geological Survey of the Territories. Born in Massachusetts, he, received his M.D. at Albany Medical College where he became interested in geology. After serving as a surgeon in the Civil War, he taught geology at University of Pennsylvania. He headed the Survey of the Territories from 1872 to 1879. In 1879 he was appointed to the newly created U.S. Geological Survey and was in charge of the Montana Division until 1886.

Hayden, Lake: lake, 0.2 miles across, on NW end of Latouche Island, 20 miles SE of Chenega, Chugach Mountains; 60° 02' 01" N, 147° 54' 10" W; (map 63). Local name reported in 1909 by Grant and Higgins (1910, pl. 12), USGS.

Haydon Glacier: glacier, see Hayden Glacier.

Haydon Peak: peak, 11,920 ft., on Alaska-Canada boundary, 3.5 miles SW of Mount St. Elias and 66 miles NW of Yakutat, St. Elias Mountains; 60° 15' 20" N, 140° 55' 30" W; BGN 1917; (map 66). Variant: Hadonas Peak, Mount Hayden, Mount Hayd, Mount Huxley. Named "Hadon Peak" in 1888 by W. H. Topham for Henry E. Haydon, Secretary of Alaska at the time of his expedition to St. Elias Mountain, and for his wife. The spelling "Hadon" was corrected in subsequent publications.

Hayes Creek: stream, flows SW 5 miles to Chatanika River, 17 miles NW of Fairbanks, Yukon-Tanana Highlands; 65° 02' 45" N, 148° 04' 00" W; (map 105). Named by prospectors; published in 1907 by USGS.

Hayes Creek: stream, heads at Hayes Glacier terminus, flows NE 7 miles to Delta Creek, 15 miles NE of Mount Hayes, Alaska Range; 63° 48' 10" N, 146° 28' 00" W; (map 86). Name published on relatively recent maps.

Hayes Creek: stream, heads at terminus of N arm of Hayes Glacier, flows NW 5 miles to East Fork Little Delta River, 12 miles NW of Mount Hayes, Alaska Range; 63° 47' 15" N, 146° 48' 00" W; (map 86). Name reported in 1942 by USGS.

Hayes Creek: stream, see Paris Creek.

Hayes Glacier: glacier, heads on Mount Hayes, trends NE 12 miles to head of Hayes Creek, 34 miles SW of Delta Junction, Alaska Range; 63° 43' 30" N, 146° 33' 00" W; BGN 1949; (map 86). Name published in the American Alpine Journal (Ferris, 1942, map facing p. 337).

Hayes Glacier: glacier, in Tordrillo Mountains, heads on Mount Gerdine, trends N and NE 27 miles to its terminus at head of Hayes River, Alaska Range; 61° 50' N, 152° 09' W; BGN 1963; (map 70). Variant: Hayes Glaciers. Named in 1898 by Spurr (1900, p. 172), USGS, for Charles Willard Hayes, 1859-1916, USGS geologist.

Hayes Glacier: glacier, see North Branch Trimble Glacier.

Hayes Glacier: glacier, see South Branch Trimble Glacier.

Hayes Glacier: glacier, see Trimble Glacier.

Hayes Glaciers: glacier, see Hayes Glacier.

Hayes River Pass: pass, 2,000 ft., in Tordrillo Mountains, E of Trimble Glacier, 52 miles NW of Tyonek, Alaska Range; 61° 43' 45" N, 151° 55' 00" W; (map 70). Local name reported by USGS in 1958; so named because the pass forms a route from Coal Creek to the Hayes River drainage.

Hayes River: stream, heads at terminus of Hayes Glacier in Tordrillo Mountains, flows NE 23 miles to Skwentna River, 65 miles NW of Tyonek, Alaska Range; 61° 57' N, 151° 47' W; BGN 1963; (map 70). Named in 1898 by Spurr (1900, p. 172), USGS, for Charles Willard Hayes, 1859-1916, USGS geologist.

Hayes, Mount: peak, 13,832 ft., at head of Hayes Glacier, 43 miles SW of Delta Junction, Alaska Range; 63° 37' 15" N, 146° 43' 00" W; (map 86). Named in 1898 by W. J. Peters and A. H. Brooks, USGS, for Charles Willard Hayes, 1858-1916, geologist with USGS from 1887 to 1911. The first ascent of this mountain was made August 1, 1941 (Farquhar, 1959, p. 222).

Hayes, Point: point of land, E point of entrance to Florence and Sitkoh Bays, on Chichagof Island 10 miles W of Angoon, Alexander Archipelago; 57° 29' 00" N, 134° 50' 30" W; (map 9). Variant: Hayes Point. Named in 1880 by U.S. Navy, presumably for Rutherford Birchard Hayes, 1822-93, 19th President of the United States.

Hayford Mountain: mountain, see Hayford, Mount.

Hayford, Mount: mountain, 6,300 ft., W of Verdure Point, 15 miles SW of Hyder, Coast Mountains; 55° 45' N, 130° 17' W; BGN 1925; (map 3). Variant: Hayford Mountain, Hayfork Peak. Named in 1925 by USC&GS after John Filmore Hayford, 1868-1925, Director of the

College of Engineering, Northwestern Univ. from 1909 to 1925; he achieved international recognition for his work in isostasy.

Hayfork Peak: mountain, see Hayford, Mount.

Haynie Cove: cove, see Karab Cove.

Haystack Butte: mountain, 1,140 ft. in Kuskokwim Mountains, E of Iditarod River, 20 miles NW of village of Crooked Creek, Kilbuck-Kuskokwim Mountains; 62° 08' 45" W; 158° 16' 00" W; (map 79). Local name obtained in 1945 by USGS topographers.

Haystack Mountain: mountain, 2,525 ft., 5 miles W of Chatanika, 20 miles N of Fairbanks, Yukon-Tanana Highlands; 65° 07' 50" N, 147° 37' 00" W; (map 105). Local name published by USGS in the 1950's.

Haystack Mountain: mountain, 3,003 ft., 23 miles SW of Bitzshtini Mountains; Kilbuck-Kuskokwim Mountains; 64° 10' N, 152° 20' W; (map 99). Variant: Unsuzi Mountain, Un-suz-ee. Local descriptive name reported in 1945 by USC&GS. The Indian name "Un-suz-ee" was reported in 1899 by Lt. J. S. Herron, USA.

Haystack Rock: rock, 8 miles S of Sanak Island, part of Sanak Reefs, Aleutian Range; 54° 17' 50" N, 162° 40' 40" W; (map 25). Name published in 1949 on a USGS map.

Haystack, The: point of land, on S shore of Port Houghton, 3.4 miles E of Robert Islands and 78 miles E of Sitka, Coast Mountains; 57° 17' 15" N, 133° 21' 30" W; (map 8). Local name reported in 1955 by USGS.

Haystack, The: rock, at mouth of Brownson Bay, on SW coast of Prince of Wales Island, Alexander Archipelago; 54° 43' 05" N, 132° 14' 00" W; (map 1). Local descriptive name reported in 1948 by USGS.

Haystack: mountain, see Kwiniuk, Mount.

Haystack: rock, E of village of Saint Paul, on S coast of Saint Paul Island, in Pribilof Islands; 57° 07' 10" N, 170° 16' 00" W; (map 38). Name reported in 1897 by W.W. Duffield, USC&GS.

Haystacks, The: islands, four, and broken chain of rocks, 1.5 miles across, between Nagai and Andronica Islands, in Shumagin Islands, Aleutian Range; 55° 16' 30" N, 160° 03' 00" W; (map 28). Named in 1875 by W. H. Dall, USC&GS.

Hayward Point: point of land, on N tip of Partofshikof Island, off NW coast of Baranof Island, 23 miles NW of Sitka, Alexander Archipelago; 57° 19' 15" N, 135° 41' 00" W; (map 9). Named by W. H. Dall, USC&GS; published in 1883 Coast Pilot (p. 155).

Hayward Strait: water passage, between Sitka Sound and Krestof Sound, 10 miles NW of Sitka, Alexander Archipelago; 57° 09' N, 135° 33' W; BGN 1931; (map 9). Variant: Hayward's Straits, Proliv Sukhoy, Soukhoi Strait, Soukoi Inlet. Named in 1787 by Capt. Nathaniel Portlock, for Samuel Hayward, his third mate, who was the first white man to pass through this Strait (Wagner, 1937, p. 391). In 1931 USC&GS divided this feature into two parts calling the

northern part "Sukoi Inlet" and the southern part "Hayward." The Russian American Company in 1850 called it "Proliv Sukhoy," meaning "dry strait."

Hayward Strait: water passage, see Sukoi Inlet.

Hayward's Straits: water passage, see Hayward Strait.

Hazard Point: point of land, 2 miles W of Annoy Rock, on E coast of Tanaga Island, Aleutian Islands; 51° 42' 30" N, 177° 49' 20" W; (map 17). Variant: Chicken Head Point. Name published by USC&GS in 1956 on Chart 9145. It was listed as Chicken Head Point in the 1944 Aleutian Coast Pilot (p. 116).

Hazel Creek: stream, flows E 2 miles to Flambeau River, 17 miles NE of Nome, Seward Peninsula Highlands; 64° 42' N, 165° 05' W; (map 94). Prospectors' name reported on a map by S. E. King dated 1900.

Hazel Creek: stream, flows SE to Flambeau River, about 27 miles NE of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Hazel Creek: stream, flows SW 2.2 miles to Nome River, 6 miles NE of Nome, Seward Peninsula Highlands; 64° 33' N, 165° 13' W, (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Hazel Gulch: ravine, trends NW 0.8 miles to Last Chance Creek, 14 miles NW of Nome, Seward Peninsula Highlands; 64° 43' N, 165° 28' W; (map 94). Prospector's name reported in 1904 by T. G. Gerdine, USGS.

Hazelet, Mount: mountain, 1,500 ft., 2.5 miles E of Katalla, Chugach Mountains; 60° 12' N, 144° 26' W; BGN 1928; (map 64). Named by C. R. Rachford, USFS, in 1927 for G. C. Hazelet, "an early outstanding pioneer of Alaska, who was largely responsible for development of the Katalla oil fields, which contain the only producing well in Alaska."

Hazen Bay: bay, 10 miles across, on coast of Bering Sea, 37 miles SE of Hooper Bay, Yukon-Kuskokwim Delta; 61° 01' N, 165° 20' W; (map 75). Named by E. W. Nelson, U. S. Signal Service, in 1878, for Gen. William Babcock Hazen, Chief Signal Officer, USA.

Hazy Islands: islands, extend 2.7 miles, in Christian Sound, 9 miles W of Coronation Island, Alexander Archipelago; 55° 52' N, 134° 35' W; (map 4). Variant: Foggy Islands, Isles de la Croyere, Las Hermanas, Los Hermanos, Ostrova Tumannoi, The Brothers, The Sisters. According to Wagner (1937, p. 391), "It is uncertain who named them, but no doubt it was George Dixon, who passed them June 28, 1787. The name was adopted by Vancouver * * *." Called "Las Hermanas," meaning "the sisters," by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle in 1799; "Isles de la Croyere", i.e. "The Croyere Islands," by Perouse in 1786; "Los Hermanos," meaning "the brothers," by Galiano (1802, map 3); "O[strova] Tumannoi," meaning "foggy islands," by Capt. Tebenkov (1852, map 9), IRN.

He Beaver Slough: stream, see Hodzana Slough.

Head Cape: point of land, see Head Point.

Head of Passes: locality, head of Kwikluak and Kwikpak Passes, N of Fish Village and 24 miles SE of Kwiguk, Yukon-Kuskokwim Delta; 62° 31' N, 163° 52' W; (map 77). Riverboat pilots' name, used as early as 1900, for the junction of the two major distributary channels of the Yukon River.

Head Point: point of land, 1 mile S of Afognak, on S coast of Afognak Island, N of Kodiak island; 57° 59' 40" N, 152° 46' 10" W; (map 34). Variant: Golova, Head Cape, Mys Golova, Mys Zhila, Zhila Point. Translation of the name "M[ys] Golova" given in 1849 by the Russian American Company. "M[ys] Zhila," meaning "inhabited cape," was applied to this point in 1839 or 1840 by Sub-Lt. Mikhail Murashev and published in 1849 on Russian Hydrog. Dept. Chart 1425.

Head Rock: rock, 1.8 miles NE of Zeto Point, on NE coast of Adak Island, Aleutian Islands; 51° 55' 37" N, 176° 31' 25" W; BGN 1936; (map 17). Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1933 for the survey signal Hed, located on this feature.

Headland Island: island, see Sebree Island.

Headquarters Lake: lake, 0.9 miles long, on Kenai Peninsula, 2 miles N of Slikok Lake and 9 miles SE of Kenai, Cook Inlet Lowland; 60° 27' 40" N, 151° 03' 43" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Heald Point: point of land, E point of entrance to Prudhoe Bay, on Beaufort Sea coast, 24 miles SE of Beechey Point, Arctic Plain; 70° 21' N, 148° 12' W; (map 150). Variant: Hearld Point, Mead Point, Mys Zdorovya, Point Heald, Point Herald. Named Point Heald by Franklin (1828, p. 159) August 16, 1826; the name was erroneously printed "Herald" in the Philadelphia edition of Franklin's book. The name was misunderstood and translated by Lt. L. A. Zagoskin, IRN, appearing on his 1848 map in Cyrillic, which when transliterated back into English becomes M[ys] Zdorovya, meaning "cape of health."

Healey Fork: village, see Healy.

Healy Creek: stream, flows W 25 miles to Nenana River 0.5 miles SE of Healy, Alaska Range; 63° 51' N, 148° 57' W; (map 87). Variant: Healy River. Name reported in 1953 by AMS.

Healy Fork: village, see Healy.

Healy Lake: lake, 5 miles long, in course of Healy River 1.5 miles E of its junction with Tanana River, 33 miles SE of Big Delta, Yukon-Tanana Highlands; 64° 00' N, 144° 45' W; (map 101). Local name published in 1951 by USGS.

Healy Lake: lake, 6 miles long, in course of Healy River, 29 miles E of Delta Junction, Yukon-Tanana Highlands; 63° 49' N, 144° 44' W; (map 86). Local name reported in 1914 by J. W. Bagley, USGS.

Healy River: stream, heads on SW slope of Mount Harper and flows SW 43 miles to Tanana River, 32 miles SE of Big Delta, Yukon-Tanana Highlands; 64° 01' N, 144° 48' W; (map 101). Named by prospectors about 1902-04; reported in 1905 by L. M. Prindle, USGS.

Healy River: stream, see Healy Creek.

Healy Rock: rock, in Whitewater Bay, on SW coast of Admiralty Island, Alexander Archipelago; 57° 14' 15" N, 134° 36' 00" W; (map 9). Named in 1881 by Comdr. H. Glass, USN; published by USC&GS in 1883 Coast Pilot (P. 175).

Healy, Mount: mountain, 5,716 ft., W of Nenana River, 6 miles S of Healy, Alaska Range; 63° 46' 30" N, 149° 00' 30" W; (map 87). Name reported in 1921 by Mabry Abbey on his survey map of the boundaries of Mount McKinley National Park.

Healy: locality, on E shore of Liebes Cove, 3 miles SE of Saint Michael, Yukon-Kuskokwim Delta; 63° 26' 45" N, 161° 57' 45" W; (map 91). Settlement, now abandoned; published in the 1916 Polk's Gazetteer. According to USC&GS this was a settlement of miners not in agreement with certain U.S. Army regulations at Saint Michael.

Healy: village, pop. 77, mile 358.1 on The Alaska Railroad, on Nenana River, W of mouth of Healy Creek, 9 miles N of community of McKinley Park, Alaska Range; 63° 51' 30" N, 148° 58' 00" W; (map 87). Variant: Dry Creek, Healy Fork, Healey Fork. Village established as a mining camp about 1905; named after the Healy Creek. Because of its nearness to The Alaska Railroad right of way it became a railroad station and supply point. The Healy Fork post office was established in 1921 (Ricks, 1965, p. 25). Its population was 36 in 1930. It is a major coal mining supply center.

Hearld Point: point of land, see Heald Point.

Hearst Creek: stream, flows W 5 miles to Tatlanika Creek, 42 miles SE of Nenana, Alaska Range; 64° 05' 30" N, 148° 13' 00" W; (map 100). Named by prospectors for William Randolph Hearst, 1863-1951, American newspaper publisher. Reported in 1906 by L. M. Prindle (in Brooks and others, 1907, pl. 4), USGS.

Heart Island: island, 2.7 miles long, in Copper River, 21 miles NW of Katalla, Malaspina Coastal Plain; 60° 27' N, 144° 54' W; (map 64). Name reported in 1912 by the Alaska Railroad Commission (1913, pl. 5).

Heart Lake: lake, 0.1 miles across on W coast of Baranof Island, 3.5 miles E of Sitka, Alexander Archipelago; 57° 03' 00" N, 135° 14' 20" W; (map 9). Local name reported in 1951 by USGS.

Heart Lake: lake, 0.3 miles across between Mallard and Marten Lakes, 16 miles W of Beaver, Yukon Flats; 66° 20' 40" N, 147° 58' 00" W; (map 118). Local name obtained in 1956 by USGS.

Heart Lake: lake, 2,500 ft. across, on mainland 2 miles N of Chickamin River, 4.5 miles NE of Fish Point on Behm Canal, Coast Mountains; 55° 51' 15" N, 130° 54' 45" W; (map 3). Descriptive name recorded in 1955. by USGS.

Heart Lake: lake, 3 miles long, S of Crooked Mountains, 86 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 06' N, 159° 40' W; BGN 1959; (map 59). Named in 1954 by J. M. Hoare and W. L. Coonrad, USGS.

Heart Mountain: mountain, 3,055 ft., S of Bedrock Canyon, E of Deadman Mountain, and 67 miles SW of Wiseman, Brooks Range; 67° 05' N, 152° 28' W; (map 124). Descriptive local name (the outline of the base traces the outline of a heart) reported in 1956 by USGS.

Heart Mountain: peak, 6,500 ft., near head of Boulder Creek, 10 miles NW of Mount Russell, Alaska Range; 62° 53' 30" N, 152° 07' 30" W; (map 81). Local name reported in 1954 by USGS.

Heather Creek: stream, flows NW 50 miles to Kurupa River 12 miles S of its junction with Colville River, Brooks Range; 68° 53' N, 155° 07' W; BGN 1960; (map 133). Named about 1950 by USGS geologists during exploration of Naval Petroleum Reserve No. 4, "for the abundant heather that grows in the area."

Heather Island: island, 3 miles long, in Columbia Bay, just S of terminus of Columbia Glacier, 57 miles NE of Whittier, Chugach Mountains; 60° 58' 30" N, 147° 02' 30" W; (map 63). Named by members of the Harriman Alaska Expedition in 1899; "so named because heather, a species of health (*Calluna vulgaris*), grows on the island."

Heather Nunatak: peak, 4,435 ft., in Glacier Bay National Monument, 3 miles NE of end of Aurora Glacier and 62 miles NW of Hoonah St. Elias Mountains; 58° 42' 20" N, 136° 42' 10" W, (map 10). Local name reported by USGS in 1951. Probably so called for the heathers or false heather, *Phyllodoce glanduliflora*, that grows profusely on exposed mountain slopes in SE Alaska (Sharpley, 1938, p. 101).

Heavenly Ridge: ridge, 4 miles long, 1.8 miles S of Twin Lakes and 58 miles NW of Valdez Copper River Basin; 61° 53' 30"N, 146° 51' 30" W; (map 68). Local name published on a 1952 USGS map. Its name may have some relation to nearby Paradise Creek.

Heceta Island: island, 15 miles wide, between Iphigenia Bay and Prince of Wales Island, Alexander Archipelago; 55° 45' N, 133° 30' W, (map 4). Named in 1879 by W. H. Dall, USC&GS, for Don Bruno Heceta, a Spaniard, who explored and surveyed in this vicinity in 1775 (Bancroft, 1886, p. 197).

Heckman Lake: lake, 2 miles long, on Revillagigedo Island, in course of Naha River, 3 miles E of Naha Bay, Alexander Archipelago; 55° 35' N, 131° 32' W; BGN 1962; (map 3). Variant: Hickman Lake. Local name probably reported by H. C. Fassett, USBF, in 1904; published as "Hickman Lake" on the 1960 Tongass National Forest map. See Heckman Point.

Heckman Point: point of land, on W bank Behm Canal, 6 miles S of Spacious Bay, on NE coast of Cleveland Peninsula, Alexander Archipelago; 55° 45' 20" N, 131° 47' 40" W; (map 3). Local name reported in 1904 by H. C. Fassett, USBF; probably given for J. R. Heckman, superintendent of the cannery at Loring.

Hedlunds: locality, N of Iliamna Lake, on W bank of Chekok Creek 1.5 miles N of Chekok Point, 16 miles E of Iliamna, Aleutian Range; 59° 48' N, 154° 23' W; (map 51). Name of a former village or camp reported in 1952 by USGS.

Hefty Mountain: mountain, see Hefty, Mount.

Hefty Peak: mountain, see Hefty, Mount.

Hefty, Mount: mountain, 7,047 ft., on Alaska-Canada boundary, 2.2 miles SW of Boundary Peak 3 and 8 miles E of Skagway, Coast Mountains 59° 27' 05" N, 135° 04' 30" W; BGN 1954, (map 45). Variant: Hefty Mountain, Hefty Peak. Named in 1927 by the IBC for J. G. Hefty, United States section of the IBC.

Hegenmeister Island: island, see Hagemeister Island.

Heiden Canyon: canyon, 6 miles long, on Lowe River, 2 miles E of Wortmanns and 19 miles E of Valdez, Chugach Mountains; 61° 06' 45" N, 145° 39' 00" W; (map 68). Variant: Hyden Canyon. Named in 1898 by Capt. W. R. Abercrombie, USA, for "Corp. Robert Heiden" a member of his party.

Heiden Creek: stream, heads at terminus of Heiden Glacier, flows N 2.7 miles to Lowe River in Heiden Canyon, 19 miles E of Valdez, Chugach Mountains; 61° 05' 35" N, 145° 40' 05" W, BGN 1964; (map 68). Named about 1962 by Austin S. Post, USGS; derived from Heiden Canyon.

Heiden Glacier: glacier, trends N 3.5 miles to head of Heiden Creek, 5.7 miles SE of Wortmanns and 20 miles E of Valdez, Chugach Mountains; 61° 04' 30" N, 145° 39' 55" W; BGN 1964; (map 68). Named about 1962 by Austin S. Post, USGS; derived from Heiden Canyon.

Heiden, Port: bay, 12 miles wide, extends NW 12 miles from the Meshik River to Bristol Bay, entrance 3 miles wide, between Strogonof Point and Chistiakof Island 9 miles SW of Port Heiden Airfield, Bristol Bay Lowland; 56° 54' N, 158° 48' W; (map 30). Variant: Baie Comte Heyden Baie Houdobin, Port Haiden, Zaliv Graf Heidena, Port Hayden. Named "Baie Comte Heyden" in 1828 by Capt. F. P. Lutke, IRN, for "Count Heiden." Adm. von Krusenstern (1827, map 20), IRN, named it "Baie Houdobin" for the officer on Lutke's corvette Moller. In 1888, USBF called it "Port Haiden".

Heim Creek: stream, flows SE 2.5 miles to Miller Creek, 25 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 05' N, 147° 01' W; (map 105). Named by prospectors; reported in 1903 by USGS (Prindle, 1905, pl. 13).

Heine Creek: locality, on Heine Creek, 5 miles NE of Livengood, Yukon-Tanana Highlands; 65° 34' 15" N, 148° 23' 50" W; (map 105). Local name of an ephemeral mining settlement established during the early mining period of the Livengood region, 1914-20.

Heine Creek: stream, flows SE 2.5 miles to Livengood Creek, 5 miles NE of Livengood, Yukon-Tanana Highlands; 65° 33' 20" N, 148° 25' 10" W; (map 105). Named by prospectors; reported in 1916 by J. B. Mertie (in Brooks and others, 1918, pl. 13).

Heintzleman Ridge: ridge, 4,170 ft., trends SW 7 miles from Gastineau Channel to Nugget Mountain, 8 miles N of Juneau, Coast Mountains; 58° 21' 45" N, 134° 34' 00" W [SW end], 58° 25' 25" N, 134° 25' 00" W [NE end]; BGN 1966; (map 11). Named in 1966 by the State of Alaska for B. Frank Heintzleman, 1888-1965, Governor of Alaska, 1953-57. Heintzleman, in a way, chose his own memorial by casually remarking that, if anything were ever named for him, he hoped it would be "that ridge."

Heitman Mountain: mountain, 2,305 ft., 10 miles SW of Kodiak, Kodiak island; 57° 39' 55" N, 152° 32' 05" W; BGN 1941; (map 34). Named in 1940 by USC&GS for August Heitman who came to Kodiak about 1890 and resided there until his death, about 1930.

Helen Bay: cove, 0.3 miles across, on NE coast of Long island; 6 miles E of Kodiak, NE of Kodiak island; 57° 46' 35" N, 152° 14' 30" W; (map 34). Local name reported in 1949 by USGS.

Helen Creek: stream, at E end of Brooks Range, flows E 8.5 miles to Mancha Creek 3 miles W of point where it crosses Alaska-Canada boundary, 68 miles NE of Table Mountain; 68° 40' N, 141° 09' W; (map 137). Local name reported in 1956 by USGS.

Helen Creek: stream, flows E 0.5 miles to Nome River, 0.6 miles S of Dexter Creek and 6 miles NE of Nome, Seward Peninsula Highlands; 64° 35' N, 165° 16' W; (map 94). Prospectors' name reported on the 1903 Campion Mining and Trading Co. map by George M. Ashford.

Helen Creek: stream, flows NE 1.5 miles to Silverbow Creek, near Norton Sound, 18 miles E. of Solomon, Seward Peninsula Highlands; 64° 34' 45" N, 163° 51' 20" W; (map 95). Prospectors' name shown on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Helen Creek: stream, on E coast of Alaska Peninsula, flows W 4.2 miles to Puale Bay, 40 miles NW of Karluk, Aleutian Range; 57° 45' 20" N, 155° 29' 10" W; (map 35). Local name obtained from J. L. McPherson of Iliamna; published by G. C. Martin (1921, pl. 10), USGS.

Helen Creek: stream, see Helena Creek.

Helen Gulch: ravine, trends SW 1.2 miles to South Fork Hess Creek, 7 miles NE of Livengood, Yukon-Tanana Highlands; 65° 36' N, 148° 24' W; (map 105). Named by prospectors; reported in 1916 by J. B. Mertie, (in Brooks and others, 1918, pl. 13) USGS.

Helen Island: island, 0.1 miles long, in Ryus Bay, N coast of Duke Island, Alexander Archipelago; 54° 58' 10" N, 131° 24' 55" W; (map 2). Local name published in 1920 by USC&GS.

Helen Island: island, 1,400 ft. long, in Mabel Bay, on SW coast of Prince of Wales Island, Alexander Archipelago; 54° 49' 20" N, 132° 34' 45" W; (map 1). Local name reported in 1905 by E. F. Dickins, USC&GS.

Helen Island: island, see Fox Point Island.

Helen Peak: mountain, 3,856 ft., on Etolin Island, Alexander Archipelago; 56° 15' 10" N, 132° 29' 15" W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow, USN; published in 1887 on USC&GS Chart 706.

Helen Todd Lake: lake, 0.8 miles long, on Annette Island 5.5 miles NNE of Metlakatla, Alexander Archipelago; 59° 12' 20" N, 131° 30' 30" W; BGN 1966; (map 3). Named in 1965 by Metlakatla Indian Community through the Council Annette Islands Reserve in commemoration of Helen Constance Todd, who in 1965, crashed her plane on the lake and died subsequently.

Helen, Lake: lake, 0.1 miles across, on Porcupine River, on Chichagof Island, 15 miles NW of Chichagof, Alexander Archipelago; 57° 49' 55" N, 136° 20' 40" W; BGN 1966; (map 9). Local name published in 1928 by USC&GS.

Helen, Lake: lake, 0.8 miles long, on W coast of Cleveland Peninsula, SE of Santa Anna Inlet, Alexander Archipelago; 55° 58' 15" N, 131° 55' 40" W; BGN 1915; (map 3). Local name reported in 1914 by E. Lester Jones, USBF.

Helen, Point: point of land, on S tip of Knight Island, 16 miles SE of Chenega, Chugach Mountains 60° 09' 15" N, 147° 00' 45" W; (map 63). Local name published in 1907 by USC&GS.

Helena Creek: stream, flows S 0.5 miles to Victoria Creek which flows to Coal Creek, 16 miles NE of Solomon, Seward Peninsula Highlands; 64° 46' N, 164° 12' W; (map 95). Prospectors' name shown on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Helena Creek: stream, in Bendeleben Mountains, flows SE 4 miles to Pargon River, 33 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 08' N, 163° 37' W; (map 110). Variant: Helen Creek. Prospectors' name reported in 1906 as "Helen Creek" by P. S. Smith (in Brooks and others, 1907, p. 150), USGS.

Helena: locality, see Nuchek.

Helianthus Cove: cove, 1.7 miles across, part of Akun Bay, on NE coast of Akun Island, Krenitzin Islands, Aleutian Islands; 54° 14' 20" N, 165° 32' 45" W; BGN 1939; (map 24). Named by USC&GS for its motor launch Helianthus, which in 1934 was frequently used in the cove.

Helianthus Passage: water passage, on W coast of Kuiu Island, S of Troller Islands, between Explorer Basin and Tebenkof Bay, Alexander Archipelago; 56° 26' 45" N, 134° 11' 30" W; BGN 1929; (map 5). Named in 1928 by USC&GS for the USC&GS launch Helianthus.

Helikoff Strait: water passage, see Shelikof Strait.

Hell Gate: water passage, S of Ringgold Island in Bay of Islands, off Adak Island, Aleutian Islands; 51° 47' 50" N, 176° 48' 50" W; BGN 1936; (map 17). Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934, "for Hell Gate, N.Y."

Hell Roaring Creek: stream, flows SE 3.5 miles to Unuk River 15 miles NE of its mouth at Burroughs Bay, Coast Mountains, 56° 20' 20" N, 131° 45' 10" W; (map 7). Name published in 1927 on IBC Sheet 3.

Hell's Acre: water passage, at W end of Kootznahoo Inlet along W coast of Admiralty Island, 0.3 miles N of Angoon, Alexander Archipelago; 57° 30' 25" N, 134° 34' 40" W; (map 9). Descriptive name given in 1869 by Comdr. R. W. Meade, USN. "From Turn Point there extend certain rocks directly transverse to the channel * * * About the rocks the strong tidal currents produce a race and ripples which have secured from Meade for this place the expressive name of ' Hell's Acre' " (U.S. Coast and Geodetic Survey, 1883, p. 177).

Hellbent Creek: stream, in Rampart Mountains, flows WNW 12 miles to Tozitna River, 18 miles NNW of Tanana, Kokrines-Hodzana Highlands; 65° 23' 30" N, 152° 34' 00" W; (map 106). Local name reported in 1956 by Orth.

Hells Hole: lagoon, 1.5 miles wide, on N shore of Port Gravina, 25 miles NW of Cordova, Chugach Mountains; 60° 44' 30" N, 146° 23' 10" W; BGN 1933; (map 64). Local name reported in 1908 by U. S. Grant and D. F. Higgins (in Brooks and others, 1909, pl. 4), USGS.

Hells Kitchen Gulch: ravine, extends S 5 miles to Chitina River, 3 miles NW of Bear Island and 24 miles SE of McCarthy, St. Elias Mountains; 61° 08' 00" N, 142° 30' 30" W; (map 67). Local name reported in 1915 by F. H. Moffit, USGS; derived from a nearby locality once named Hells Kitchen.

Hells Kitchen: locality, site of mining camp, on N bank of Chitina River, 2.5 miles NW of Bear Island, and 26 miles SE of McCarthy, St. Elias Mountains; 61° 07' N, 142° 30' W; (map 67). Local name reported in 1915 by F. H. Moffit, USGS.

Hellsgate: canyon, of South Fork Kuskokwim River, W of its junction with Styx River, 90 miles NW of Tyonek, Alaska Range; 61° 55' 15" N, 153° 15' 00" W; (map 71). Local name reported in 1958 by USGS.

Helm Bay: estuary, extends NW 8 miles off Behm Canal, on E coast of Cleveland Peninsula, Alexander Archipelago; 55° 36' N, 131° 55' W; (map 3). Named in 1886 by Lt. Comdr. A. S. Snow, USN, for Lt. James Meredith Helm, USN, a member of his party.

Helm Bay: locality, on E coast of Cleveland Peninsula, at Helm Bay, 3.3 miles W of Helm Point Alexander Archipelago; 55° 37' 15" N, 131° 58' 00" W; (map 3).Local name recorded in 1949 by USC&GS.

Helm Lake: lake, 1.3 miles long, 0.5 miles E of Helm Bay, on E coast of Cleveland Peninsula, Alexander Archipelago; 55° 38' 05" N, 131° 56' 15" W; (map 3). Local name recorded in 1949 by USGS.

Helm Point: point of land, between Helm Bay and Wadding Cove, on E coast of Cleveland Peninsula, Alexander Archipelago; 55° 36' N, 131° 53' W; (map 3).Local name reported in 1904 by H. C. Fassett, USBF.

Helm Point: point of land, S tip of Coronation Island, Alexander Archipelago; 55° 49' 30" N, 134° 17' 00" W; (map 4). Named in 1886 by Lt. Comdr. A. S. Snow for Lt. James M. Helm, USN, a member of his party.

Helm Rock: rock, in Sumner Strait, 1.3 miles NW of village of Point Baker, off N coast of Prince of Wales Island, Alexander Archipelago; 56° 21' 10" N, 133° 35' 10" W; (map 6). Named in the late 1880's by USC&GS for Lt. James M. Helm, USN, commander of the Coast Survey steamer McArthur, who made surveys in this vicinity in 1886.

Helmet Mountain: mountain, 3,343 ft., 14 miles N of White Snow Mountain and 38 miles NE of Christian, Brooks Range; 67° 44' N, 144° 12' W; (map 122). Local name reported in 1927 by Mertie (1929, pl. 3), USGS.

Helmet Mountain: mountain, 3,801 ft., between East and Northeast Arms Uganik Bay, on N coast of Kodiak island; 57° 44' N, 153° 25' W; (map 34). Descriptive name published in 1911 by USC&GS.

Helmick Mountain: mountain, see Thumb Mountain.

Helmick Point: point of land, on left bank of Kuskokwim River, 43 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 18' N, 162° 27' W; (map 58). Named about 1925 by USC&GS for Helmick Mountain, or directly for Rev. Benjamin Helmick, Moravian missionary.

Helpmejack Creek: stream, heads at Alatna Portage, flows E and SSE 15 miles to Alatna River, 66 miles NNE of Hughes, Brooks Range; 66° 57' N, 153° 26' W; (map 116). Variant: Kotaglikark. Name obtained from prospectors by Mendenhall (1902, p. 46), USGS. Eskimo name "Ko-tag-lik-ark" was recorded by Stoney (1900, map), USN.

Helpmejack Hills: hills, in a group 28 miles long and 13 miles wide, 3 miles SE of Walker Lake; they are bounded on the N by Helpmejack and Kichaiakaka Creeks, on E by Alatna River and on W by the Kobuk River, Brooks Range; 66° 59' N, 153° 50' W; BGN 1966; (map 116). Named in 1966 for Helpmejack Creek by W. W. Patton, Jr., USGS.

Helpmejack Lakes: lakes, group, largest of which is 3.3 miles long, W of junction of Helpmejack Creek and Alatna River, 66 miles NNE of Hughes, Brooks Range; 66° 56' N, 153° 33' W; (map 116). Named by Orth in 1956.

Helughi Bay: bay, see Nevidiskov Bay.

Hemlock Creek: stream, on Hawkins Island, flows NW 1 mile to Cedar Bay, 9 miles W of Cordova, Chugach Mountains; 60° 33' 30" N, 146° 00' 00" W; (map 64). Name published in 1950 by USGS.

Hemlock Island: island, 0.8 miles long, in Port Chester, on W coast of Annette Island, Alexander Archipelago; 55° 09' 40" N, 131° 33' 45" W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Hemlock Point: point of land, on NE shore of Kootznahoo Inlet, 5 miles NE of Angoon, on W central Admiralty Island, Alexander Archipelago; 57° 32' 35" N, 134° 28' 45" W; (map 9). Named by Comdr. R. W. Meade, USN; published in 1869 on Hydrog. Chart 225.

Hen and Chickens Mountain: hill, 748 ft., between Kuzitrin and Pilgrim Rivers, 22 miles W of Mount Benedeleben, Seward Peninsula Highlands; 65° 08' N, 164° 52' W; (map 110). Variant: Castle Rocks. Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Hen Island: island, in Yukon River, 30 miles NE of Nulato, Koyukuk Lowland; 64° 48' N, 157° 07' W; (map 97). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by U.S. Dept. of Interior.

Hen Island: island, see Chicken Island.

Henderson Creek: stream, flows SW 2.7 miles to Mason Creek 6.5 miles NW of that stream's mouth, 9 miles WNW of Kallands, Kokrines-Hodzana Highlands; 65° 13' 40" N, 153° 22' 30" W; (map 107). Local name reported in 1908 by Maddren (1910, pl. 5), USGS.

Henderson Island: island, 0.3 miles long, W of Korovin Islands, in Shumagin Islands, Aleutian Range; 55° 25' 05" N, 160° 21' 15" W; (map 28). Named in 1872 by W. H. Dall, USC&GS.

Henderson Mountain: mountain, 2,267 ft., in Kuskokwim Mountains, on W bank of Oskawalik River, 21 miles SW of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 31' 15" N, 157° 43' 00" W; BGN 1948; (map 72). Named for "Big Jim" Henderson, who prospected near the mountain from 1914 to 1916; reported in 1945 by USGS.

Henderson Ridge: ridge, max. elev. 3,000 ft., on Attu Island, extends W 6 miles from Terrible Mountain NW of Navy Town, Aleutian Islands; 52° 58' 00" N, 172° 52' 30" E; (map 13). Named by U.S. Army during World War II; published in 1948 by AMS.

Henderson Slough: stream, 9 miles long, anabranch of Porcupine River 16 miles NE of Chalkyitsik, Yukon Flats; 66° 53' N, 143° 36' W; (map 120). Local name published in 1951 by USGS.

Hendida Island: island, 0.2 miles across, one of Maurelle Islands, N of Twin Islands, Alexander Archipelago; 55° 40' 45" N, 133° 40' 15" W; (map 4). Named and published in 1943 by USC&GS.

Hendricksen, Mount: mountain, see Hendrickson, Mount.

Hendrickson Creek: stream, on N end of Douglas Islands, flows N 1 mile to Gastineau Channel, 5 miles NW of Juneau, Coast Mountains; 58° 20' 30" N, 134° 31' 20" W; (map 11). Named for Henry H. Hendrickson, 1862-1945, miner and fisherman, who was born in Finland. He came to Juneau in 1894 and homesteaded on the creek (DeArmond, 1957, p. 24). Name published in 1962 by USGS.

Hendrickson Glacier: glacier, heads on N slope of Mount Hendrickson, trends E 1.4 miles to 1961 terminus 3.4 miles SW of Cape Enchantment and 23 miles NE of Yakutat, St. Elias Mountains; 59° 49' 20" N, 139° 23' 20" W; (map 46). Named in 1905 by Tarr (1906, p. 145), USGS, for Mount Hendrickson.

Hendrickson Mountain: mountain, see Hendrickson, Mount.

Hendrickson, Mount: mountain, 4,590 ft., 0.6 miles SW of Cape Enchantment and 21 miles NE of Yakutat, St. Elias Mountains; 59° 49' 15" N, 139° 28' 15" W; (map 46). Variant: Hendrickson Mountain, Mount Hendricksen, Mount Hendriksen. Named in 1890 by Russell (1892, p. 88), for Rev. Carl J. Hendrickson, a Swedish missionary at Yakutat at the time.

Hendriksen, Mount: mountain, see Hendrickson, Mount.

Heney Creek: stream, flows W 2.5 miles to Orca Inlet, 2 miles SW of Cordova, Chugach Mountains 60° 31' 30" N, 145° 47' 30" W; BGN 1961, (map 64). Named by USFS in 1927 for Michael J. Heney, builder of the Copper River and Northwestern Railroad.

Heney Creek: stream, see Hartney Creek.

Heney Glacier: glacier, trends NE 12 miles to its terminus 0.5 miles W of Copper River, 55 miles NW of Katalla, Chugach Mountains, 60° 56' N, 144° 44' W; (map 64). Named by Lawrence Martin, in 1910, for Michael J. Heney, builder of the Copper River and Northwestern Railroad.

Heney Peak: peak, 3,151 ft., in Heney Range, 2.5 miles S of Cordova, Chugach Mountains; 60° 30' 30" N, 145° 49' 00" W; BGN 1928; (map 64). Named in 1927 by USFS for Michael J. Heney, builder of the Copper River and Northwestern Railroad.

Heney Range: mountain range, 3,000 ft., extends SW 8 miles from Eyak Lake, 3 miles S of Cordova, Chugach Mountains, 60° 30' N, 145° 45' W; BGN 1933; (map 64). Locally named in honor of Michael J. Heney, builder of the Copper River and Northwestern Railroad; reported by USGS in 1933.

Hennig Rock: rock, see Hennig Rock.

Hennig Rock: rock, submerged, 8 miles W of Sanak Island, Aleutian Range; 54° 25' 15" N, 162° 57' 00" W; (map 25). Variant: Hennig Rock. Named by Capt. E. Hennig, and published in 1882 by USC&GS on Chart 806.

Henry Clay, Mount: mountain peak, 7,434 ft., on Alaska-Canada boundary, 6.2 miles S of Mount McDonell and 41 miles W of Skagway, St. Elias Mountains; 59° 22' 30" N, 136° 28' 30" W; BGN 1954; (map 45). Variant: Boundary Peak 151, Mount Leland. Named in 1924 by the IBC for Henry Clay, 1777-1852, United States statesman.

Henry Creek: stream, flows E 1 mile to Garfield Creek which flows to Kuzitrin River, 40 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 28' N, 164° 32' W; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Henry Creek: stream, flows NE 12 miles to Koukarok River, 9 miles SW of Midnight Mountain and 47 miles W. of Imuruk Lake, Seward Peninsula Highlands; 65° 39' N, 164° 49' W; (map 110). Variant: Kugrupaga Creek. Prospectors' name reported in 1901 by T G. Gerdine (in Collier, 1902, pl. 12), USGS.

Henry Creek: stream, flows S 15 miles to Koyukuk River, 39 miles NE of Hughes, Hogatza Highlands; 66° 26' N, 153° 15' W; (map 116). Local name recorded at Allakaket in 1956 by Orth.

Henry Creek: stream, heads 6 miles NE of Umiat, flows N 20 miles to Kogosukruk River, Arctic Plain; 69° 38' N, 151° 55' W; BGN 1959; Variant: Kogohokruk River, Kogosukrok River. Named about 1945 by USGS geologists of the Naval Petroleum Reserve No. 4.

Henry Creek: stream, heads in Kenai Mountains 8 miles SW of Grandview, flows SE 2.5 miles to a lake 25 miles SE of Sunrise, Chugach Mountains; 60° 34' 40" N, 149° 06' 30" W; (map 63). Local name reported in 1951 by USGS.

Henry Creek: stream, heads on Caribou Mt. flows N 10 miles to Innoko River, 18 miles N of Ophir and 42 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 23' 45" N, 156° 33' 30" W; (map 90). Prospectors' name reported in 1933 by USGS.

Henry Creek: stream, on Kenai Peninsula, flows W 1.5 miles to Devils Creek, 24 miles S of Hope, Chugach Mountains; 60° 34' 59" N, 149° 41' 30" W; (map 63). Local name reported by G. C. Martin (in Martin and others, 1915, pl. 6), USGS.

Henry Glacier: glacier, heads at 59° 51' N, 139° 29' W, trends NE 1 mile to 1961 terminus, 2.7 miles SW of Mount McCarty and 25 miles NE of Yakutat, St. Elias Mountains; 59° 52' 10" N, 139° 28' 25" W; (map 46). Named in 1905 by Tarr (1906, p. 145), USGS, for T. J. Henry, one of his Indian guides.

Henry Island: island, 2.7 miles long, in Yukon River, 14 miles SW of Birches, Nowitna Lowland; 65° 01' 45" N, 154° 00' 00" W; (map 107). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the Department of the Interior.

Henry Martin Island: island, 1.5 miles long, in Fishhook Bend of Porcupine River, 20 miles ENE of Coleen Mountain, Porcupine Plateau; 67° 12' N, 142° 07' W; (map 121). Variant: Martins Bar. Local name reported in 1956 by J. E. Taylor, USGS. Fitzgerald (1944, p. 228), USGS, recorded a Martins Bar on the Porcupine River, in 1939, about three miles upstream from this island.

Henry Peak: peak, 3,480 ft., 4 miles NW of head of Thomas Bay and 96 miles E of Sitka, Coast Mountains; 57° 08' 10" N, 132° 54' 55" W; (map 8). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for Joseph Henry, 1799-1878, inventor. He invented the first electromagnet and the first telegraph. He was also the discoverer of many other important electric principles. In 1846, while professor of natural philosophy at Princeton Univ., he became the first secretary of the Smithsonian Institution in Washington, D.C., which position he held until his death. Under his direction were organized the activities of the Institution, which included all branches of science.

Henshaw Creek: stream, formed by junction of its East and West Forks, flows S 15 miles to Koyukuk River, 12 miles E of Allakaket, Kanuti Flats; 66° 33' N, 152° 14' W; (map 117). Variant: Soyhekla Creek, Sozhekla River. Henshaw Creek was first reported about 1950 by USGS; recorded as "Sozhekla River" in 1901 by W. J. Peters (in Schrader, 1904, pl. 2), USGS.

Hepburn Peninsula: peninsula, between Deadman and Portage Bays, at head of Alitak Bay, on S coast of Kodiak island; 57° 00' N, 153° 55' W; BGN 1934; (map 33). Variant: Uhaiak Peninsula. Name derived from Cape Hepburn in 1934 by USC&GS. "Uhaiak" was suggested in 1934 by USC&GS as an alternative name "after a native village that has now disappeared." See Uhaiak.

Hepburn, Cape: point of land, between Portage and Deadman Bay, at head of Alitak Bay, at S end of Kodiak I; 56° 07' 30" N, 153° 58' 00" W; (map 33). Named in 1900 by Comdr. J. F. Moser, USN, for Ens. A. J. Hepburn, USN, a member of his party on the USBF steamer Albatross.

Hepburn, Point: point of land, on S shore of Cube Cove, 31 miles N of Angoon, on W coast of Admiralty Island, Alexander Archipelago; 57° 56' 25" N, 134° 45' 20" W; (map 9). Named in 1867 by "Homfray, cartographer, for James Hepburn, Esq., of Victoria, British Columbia, who worked in this area for many years as a naturalist and explorer."

Herb Creek: stream, flows S 8.6 miles to Khotol River, 3 miles N5 of junction of Manslaughter Creek and Khotol River, 21 miles SE of Nulato, Koyukuk Lowland; 64° 25' N, 158° 07' W; (map 97). Variant: Tlitltna. Appears to be a translation of an Indian name; reported in 1935 by Frederica de Laguana, BAE.

Herbert Glacier: glacier, heads at 58° 37' N, 134° 34' W and trends SW 8 miles to unnamed lake at head of Herbert River, 2 miles N of Windfall Lake and 20 miles NW of Juneau, Coast Mountains; 58° 32' N, 134° 42' W; (map 11). Named in 1890 by Lt. Comdr. H. B. Mansfield, USN, for Hon. Hilary Abner Herbert, 1834-1919, lawyer, Colonel in the Army of the Confederate States of America during the Civil War, member of Congress, 1877-93, and Secretary of the Navy in the Cabinet of President Cleveland, 1893-97. Name published by USC&GS in 1897 on Chart 8302.

Herbert Graves Island: island, 5 miles across, 3 miles W of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 41' N, 136° 12' W; BGN 1920; (map 9). Variant: Peel Island. Named by USC&GS for Capt. Herbert Cornelius Graves, 1869-1919, hydrographic and geodetic engineer of USC&GS, who died in 1919 while in England on an important official mission to that country. Capt. Graves, as Chief of the Division of Hydrography and Topography, was, for 5 years preceding his death, in direct charge of USC&GS work in Alaska. Peel Island, the local name of the island, was reported by Overbeck (1919, pl. 2), USGS.

Herbert Island: island, 5.5 miles across, one of the Islands of Four Mountains, Aleutian Islands; 52° 49' 30" N, 169° 56' 30" W; (map 20). Variant: Chegulak Island, Chuginak Island, Chuguliak Island, Tchagulak Island, Tchegoulak Island, Ishugid Island, Ulyagin Island, Ulyaga Island Named by the U.S. Navy Hydrog. Office in 1894 for Hilary Abner Herbert, 1834-1919, Secretary of the Navy. This island was called "O[strov] Ulyaga," or "Ulyaga

Island,” by Lt. Sarichev (1826, map 3), IRN, and “O[strov] Ulyagin,” or “Ulyagin Island,” by the Russian Hydrog. Dept. in 1847 on Chart 1379. These variant names differ from those published by Baker (1906, p. 264). See Four Mountains, Islands of.

Herbert River: stream, heads in lake at 1962 terminus of Herbert Glacier and flows 4 miles generally W to Favorite Channel, 2 miles N of Dotsons Landing and 20 miles NW of Juneau, Coast Mountains; 58° 31' 20" N, 134° 48' 00" W; BGN 1929; (map 11). Local name derived from the Herbert Glacier; reported by A. C. Spencer (1906, p. 126), USGS.

Herbert, Mount: peak, 6,090 ft., on Alaska-Canada boundary, 3.2 miles SE of Mount Wade and 42 miles NE of Yakutat, St. Elias Mountains; 59° 46' 00" N, 138° 37' 30" W; BGN 1954; (map 46). Variant: Boundary Peak 172. Named by BGN in 1923 for the Rt. Hon. Sir Michael Henry Herbert, 1857-1903, British Ambassador to the United States during the early history of the Alaskan Boundary Tribunal, who assisted in framing the treaty by which the tribunal was created. He served in British foreign service at The Hague, Constantinople, Rome, and Paris, and was British Ambassador at Washington, D.C., from 1902 to 1903.

Herbert, Port: bay, 0.5 miles across, 12.5 miles N of village of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 26' N, 134° 39' W; (map 5) Local name used by fishermen; published in 1901 by USC&GS; named “for Herbert C. Graves, nautical expert.”

Herbs Lagoon: bight, between Red River Delta and Spring Point, on W shore of Cook Inlet, Aleutian Range; 59° 53' 30" N, 152° 48' 00" W; (map 50). Local name reported by USGS or USC&GS in the 1940's.

Herd Rock: rock, off Cape Sasmik off S coast of Tanaga Island, Aleutian Islands; 51° 35' 52" N, 177° 56' 00" W; (map 17). Name published by USC&GS in 1957 on Chart 9146.

Herendeen Bay: bay, 20 miles long and 5 miles wide, 12 miles SW of village of Port Moller, Bristol Bay Lowland; 55° 50' N, 160° 50' W; (map 28). Named about 1890 by USC&GS for Capt. Edward Perry Herendeen of Survey schooner Yukon, who first explored and sketched the bay in 1881.

Herendeen Island: island, 1 mile long, N of Little Koniuji Island, in Shumagin Islands, Aleutian Range; 55° 04' N, 159° 25' W; (map 27). Named by W. H. Dall, USC&GS, in 1874 for Capt. Edward Perry Herendeen of the USC&GS schooner Yukon, 1873-74.

Hermagos Islands: islands, extend 0.4 miles, off NW coast of San Fernando Island, Alexander Archipelago; 55° 34' 20" N, 133° 25' 25" W; BGN 1908; (map 4). Variant: Las Hormigas, Los Hermagos, Los Hermanos, Los Hermigos, The Brothers. Spanish name given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as “Las Hormigas,” meaning “the ants” (Wagner, 1937, p. 462). Baker (1906, p. 148) assumed that the name should have been “Los Hermanos,” meaning “the brothers.”

Hermagos, Los: islands, see Hermagos Islands.

Herman Creek: stream, flows NE 4 miles to Klehini River, 6 miles W of Wells and 28 miles W of Skagway, St. Elias Mountains; 59° 25' N, 136° 06" W; (map 45). Local name published in 1954 by USGS.

Herman Lake: lake, 0.3 miles long, on Herman Creek, 3.4 miles E of Porcupine and 29 miles SW of Skagway, St. Elias Mountains; 59° 24' 40" N, 136° 08' 30" W; (map 45). Local name published in 1952 by USGS.

Herman Lake: lake, 0.8 miles long, 1 mile SW of Albert Lake and 26 miles SW of Beaver, Yukon Flats; 66° 15' N, 148° 17' W; (map 118). Variant: Herman's Lake. Probably named by William Yanert who showed it on a 1916 manuscript map of the Yukon Flats (Stuck, 1917, map facing p. 122).

Herman Slough: stream, see Mason Slough.

Herman's Lake: lake, see Herman Lake.

Herman, Mount: mountain, 1,623 ft., on Spruce Island, NE of Kodiak island; 57° 55' N, 152° 23' W; BGN 1933; (map 34). Named in 1933 by Gerald FitzGerald, USGS, "in honor of Monk Herman of the Greek Russian Church Mission, who established a hermitage at the base of this mountain, where he remained until his death in 1837. Monk Herman was buried on the site of the hermitage and the Russian Church still maintains a shrine in his honor."

Hermanas, Las: islands, see Hazy Islands.

Hermanos Islands: islands, between San Alberto Bay and San Christoval Channel, SE of Rosary Island, Alexander Archipelago; 55° 34' 10" N, 133° 17' 45" W; BGN 1908; (map 4). Variant: Los Hermanos, The Brothers. Spanish name "Los Hermanos," meaning "The Brothers," given in 1775 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle. Baker (1906, p. 148) published the translation, "Brothers (the)"; changed back to "Hermanos" in 1908 by USC&GS to avoid duplication.

Hermanos, Los: islands, see Hazy Islands.

Hermanos, Los: islands, see Hermagos Islands.

Hermit Gulch: ravine, extends SW 5 miles from Hermit Ridge 20 miles W of Beaver, Yukon Flats; 66° 21' 55" N, 148° 09' 40" W; (map 118) Local name obtained in 1956 by USGS.

Hermit Ridge: ridge, extends W 20 miles from Hodzana River, S of Owl Creek, 18 miles NW of Beaver, Kokrines-Hodzana Highlands; 66° 26' N, 148° 10' W; (map 118). Local name obtained in 1956 by USGS.

Hermogenes, Cape: point of land, see Chiniak, Cape.

Herring Bay: bay, 0.2 miles across, on S coast of Elovai Island, 2 miles SW of Goddard, on W coast of Baranof Island, Alexander Archipelago; 56° 48' 30" N, 135° 24' 10" W; (map 5). Local name used by fishermen; published in 1929 by USC&GS.

Herring Bay: bay, 2 miles across, on S coast of Admiralty Island, 18 miles E of Baranof, Alexander Archipelago; 57° 07' N, 134° 22' W; (map 9). Variant: Seldovaia Bay. This is a translation about 1882 by USC&GS of "Seldovaya," named about 1850 by the Russians.

Herring Bay: bay, at N end of Knight Island, extends N 6 miles to Prince William Sound, 40 miles SE of Whittier, Chugach Mountains; 60° 29' N, 147° 45' W; (map 63). Local name reported in 1900 by F. C. Schrader, USGS.

Herring Bay: estuary, extends NW 0.8 miles, near mouth of George Inlet, on S coast of Revillagigedo Island, Alexander Archipelago; 55° 19' 25" N, 131° 31' 00" W; (map 3). Local navigators' name obtained in 1904 by H. C. Fassett, USBF; derived from village of Herring Cove.

Herring Bay: estuary, see Seldovia Bay.

Herring Cove: bay, 0.4 miles across, 5 miles E of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 02' 30" N, 135° 12' 00" W; BGN 1940; (map 9). Variant: Salmon Bay, Salmon Cove, Seldovaya Bay. Local name reported in 1924 by the Federal Power Commission.

Herring Cove: suburb, pop. 126, on Herring Bay, 2 miles N of Mountain Point, on S coast of Revillagigedo Island, Alexander Archipelago; 55° 19' 30" N, 131° 31' 20" W; (map 3). This residential suburb of Ketchikan was reported in 1960 by the U.S. Census Bureau.

Herring Islands: islands, at entrance to Tutka Bay, Kenai Peninsula, 8 miles NE of Seldovia, Chugach Mountains; 59° 29' N, 151° 30' W; (map 50). Variant: Herring Islets. Named by W. H. Dall, USC&GS, in 1880.

Herring Islets: islands, see Herring Islands.

Herring Point: point of land, on NW coast of Knight Island, at W entrance to Herring Bay, 38 miles SE of Whittier, Chugach Mountains; 60° 29' 00" N, 147° 46' 30" W; BGN 1908; (map 63). Local name published in 1909 by USC&GS.

Herron Glacier: glacier, in Mount McKinley National Park, trends N 14 miles from Mount Foraker to head of Herron River, Alaska Range; 63° 06' N, 151° 41' W; (map 88). Named in 1902 by A. H. Brooks, USGS, for Lt. Joseph S. Herron, USA, who conducted an exploring expedition in 1899 from Cook Inlet north along the west slope on the Alaska Range to the Tanana River.

Herron River: stream, in Mount McKinley National Park, flows NW 48 miles from Herron Glacier to Foraker River, 17 miles S of village to Lake Minchumina, Tanana Lowland; 63° 38' 50" N, 152° 09' 15" W; (map 88). Variant: Tsatasronick, Tsatasronik, Sishulathna River. Name derived from Herron Glacier, reported in 1925 by S. R. Capps, USGS. The Tanana Indian name for this stream is said to be "Tsatasronik," meaning "black rock."

Hery Point: point of land, see Hey Point.

Hesketh Island: island, 1.2 miles long, on S shore of Kachemak Bay, Kenai Peninsula 0.5 miles SW of Yukon Island and 8 miles SW of Seldovia, Chugach Mountains; 59° 30' 30" N, 151° 31' 00" W; (map 50). Named by W. H. Dall, USC&GS, in 1880, for Sir Thomas Hesketh "who in his yacht, the Lancashire Witch, visited Cook Inlet in 1880."

Hess Creek: stream, heads at junction of its North and South Forks, flows W 50 miles to Yukon River, 18 miles NE of Rampart, Yukon-Tanana Highlands; 65° 40' N, 149° 48' W; (map 105). Variant: Hess River, Mike Hess Creek, Whymper Creek, Whymper River, Yokuchargut Creek, Yukochakat Creek, Yukutzcharkat Creek. Named by prospectors for "Mike" Hess, who discovered gold on this stream in 1892. The Indian name, according to Capt. C. W. Raymond, USA, in 1869, was "Yokuchargut" (spelled by W. H. Dall, "Yukutzcharkat" [Yukokakat]), meaning "mouth of the Yuko." Dall says that in 1866 Capt. F. E. Ketchum called the stream "Whymper River" after his friend and companion "Frederick Whymper, artist of the [Western Union Telegraph] Expedition" (Dall, 1870, p. 25, 281).

Hess Mountain: peak, 11,940 ft., 3 miles E of Mount Deborah and 53 miles E of McKinley Park, Alaska Range; 68° 38' N, 147° 09' W, (map 87). Reported by D. C. Witherspoon (in Moffit, 1912, pl. 1), US(;S).

Hess River: stream, see Hess Creek.

Hessa Inlet: estuary, extends NE 4.3 miles on SW coast of Prince of Wales Island, NE of Hessa Island, Alexander Archipelago; 54° 48' 15" N, 132° 17' 00" W; (map 1). Name reported by Lt. Comdr. J. F. Moser, USN, in 1897.

Hessa Island: island, 1.5 miles long, in Winter Bay, on SW coast of Prince of Wales Island, Alexander Archipelago; 54° 46' 30" N, 132° 19' 15" W; (map 1). Name derived from Hessa Inlet; published in 1948 by USGS.

Hessa Lake: lake, 1.2 miles long, 3 miles W of Kendrick Bay on S end of Prince of Wales Island, Alexander Archipelago; 54° 53' N, 132° 09' W; (map 1). Name reported in 1887 by Lt. Comdr. J. F. Moser, USN.

Hessa Narrows: water passage, 0.7 miles long, from Hessa Inlet to Winter Bay, on SW coast of Prince of Wales Island, Alexander Archipelago; 54° 46' 45" N, 132° 18' 30" W; (map 1). Name derived from Hessa Inlet; published by USGS in 1948.

Hetta Cove: cove, extends E 0.8 miles off Hetta Inlet, on SW coast of Prince of Wales Island, Alexander Archipelago; 55° 10' 15" N, 132° 35' 00" W; (map 4). Named by local fishermen and reported in 1904 by H. C. Fassett, USBF.

Hetta Creek: stream, flows S through Hetta Lake 5 miles to Hetta Cove, on SW coast of Prince of Wales Island, Alexander Archipelago; 55° 10' 20" N, 132° 34' 30" W; (map 4). Local name reported in 1901 by Comdr. J. F. Moser, USN; derived from Hetta Inlet.

Hetta Inlet: estuary, extends N 20 miles off Cordova Bay, on SW coast of Prince of Wales Island, Alexander Archipelago; 55° 03' N, 132° 40' W; (map 4). Name reported in 1897 by J. F. Moser, USN; published by USC&GS in 1899.

Hetta Lake: lake, 2 miles long, on SW coast of Prince of Wales Island, E of Hetta Inlet, in course of Hetta Creek, Alexander Archipelago; 55° 11' N, 132° 33' W; (map 4). Name reported in 1897 by J. F. Moser, USN; published by USC&GS in 1899.

Hetta Mountain: mountain, 2,931 ft., on SW coast of Prince of Wales Island, E of Hetta Inlet. Alexander Archipelago; 55° 12' N, 132° 34' W; (map 4) Local name reported in 1905 by F. E. and C. W. Wright (in Brooks and others, 1906, fig. 1), USGS.

Hetta Point: point of land, between Hetta Cove and Hetta Inlet on SW coast of Prince of Wales Island, Alexander Archipelago; 55° 10' 15" N, 132° 35' 20" W; (map 4). Local name reported in 1905 by E. F. Dickins, USC&GS.

Hetta: locality, site of village, on SW coast of Prince of Wales Island, E of Hetta Inlet, on S shore of Hetta Cove, Alexander Archipelago; 55° 10' 00" N, 132° 34' 35" W; (map 4). Variant: Hettah. Local name reported in 1905 as "Hettah" by E. F. Dickins, USC&GS. Current sources show this village to be abandoned.

Hettah: locality, see Hetta.

Hewitt Creek: stream, heads in lake, flows E 10 miles through Whiskey Lake to Yentna River 4.3 miles NW of Skwentna and 64 miles N of Tyonek, Alaska Range; 61° 59' 30" N, 151° 17' 45" W; (map 70). Local name reported in 1954 by USGS.

Hewitt Lake: lake, 2.9 miles long, 10 miles SW of Mount Yenlo, 46 miles SW of Talkeetna, Alaska Range; 62° 00' 10" N, 151° 23' 00" W; (map 81). Local name reported in 1958 by USGS.

Hey, Point: point of land, on S coast of Alaska, at NW end of Controller Bay, 6 miles SE of Katalla, Malaspina Coastal Plain; 60° 10' N, 144° 22' W; (map 64). Variant: Hery Point. Named by Capt. George Vancouver, RN, while exploring the Controller Bay region in 1794.

Hibahibgik, Cape: promontory, see Scotch Cap.

Hibahibgik: rock, see Pinnacle Rock.

Hickerson Lake: lake, 3 miles long, 3 miles N of N entrance to Chinitna Bay, 52 miles NW of Homer, Aleutian Range; 59° 56' N, 152° 55' W; (map 50). Local name reported and published by USGS in 1950.

Hickey Creek: stream, flows W 8.5 miles to Moose Creek, 5 miles SE of its junction with Iditarod River, 17 miles N of Flat and 54 miles SE of Holikachuk, Kilbuck-Kuskokwim Mountains; 62° 41' 35" N, 157° 53' 00" W; (map 79). Prospectors' name reported in 1912 by H. M. Eakin, USGS.

Hickman Lake: lake, see Heckman Lake.

Hicks Creek: stream, flows SW through Hicks Lake, 12.4 miles to Matanuska River, 41 miles NE of Palmer, Talkeetna Mountains; 61° 47' 40" N, 147° 56' 05" W; (map 69). Named in 1898 by Capt. E. F. Glenn, USA, for H. H. Hicks, guide of his expedition.

Hicks Lake: lake, 3,400 ft. long, in course of Hicks Creek, 49 miles NE of Palmer, Talkeetna Mountains; 61° 54' N, 147° 46' W; (map 69). Local name reported in 1954 by USGS.

Hicks Point: point of land, on SW coast of Mitkof Island, 16 miles S of Petersburg, Alexander Archipelago; 56° 34' 35" N, 132° 58' 00" W; (map 6). Named in 1869 by Comdr. R. W. Meade, USN, for charting purposes for a "Mr. Hicks" (cna), a local pilot and trader of the Hudson Bay Company, who piloted the U.S.S. Saginaw on her first trip in Alaskan waters in 1868.

Hid Reef: reef, extends 1.1 miles, between Clarence Strait and Nichols Passage, off SW coast of Annette Island, Alexander Archipelago; 55° 04' N, 131° 40' W; (map 3). Descriptive name given in 1883 by Lt. Comdr. H. E. Nichols, USN.

Hidalgo Beach: beach, 0.3 miles long, just NE of Bedard Cove, on SE coast of Attu Island, Aleutian Islands; 52° 49' 55" N, 173° 19' 50" E; BGN 1945; (map 13). Tactical name used by the U.S. Army and Navy during and subsequent to the Battle of Attu in 1942.

Hidden Basin: lagoon, 2 miles across, at head of Ugak Bay, on E coast of Kodiak island; 57° 30' 30" N, 152° 56' 00" W; (map 34). Descriptive local name; published in 1943 by USC&GS.

Hidden Bay: bay, 0.2 miles across, on S coast of Adak Island, Aleutian Islands; 51° 41' 30" N, 176° 39' 20" W; BGN 1936; (map 17). Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

Hidden Bay: estuary, 2.6 miles long, SE coast of Prince of Wales Island, Alexander Archipelago; 54° 56' 30" N, 131° 58' 30" W; (map 2). Local name published in 1911 by USC&GS.

Hidden Bay: estuary, on E coast of Culross Island, extends E 4 miles to Perry Passage, 20 miles SE of Whittier, Chugach Mountains; 60° 42' 30" N, 148° 06' 00" W; BGN 1914; (map 63). Descriptive name reported in 1914 by USC&GS.

Hidden Cove: cove, 0.1 miles across, near head of Slocum Arm, 3 miles SE of Cobol, on SW coast of Chichagof Island, Alexander Archipelago; 57° 27' 40" N, 135° 49' 05" W; BGN 1908; (map 9). Descriptive name given in 1908 by USC&GS; published in 1909 on Chart 8280.

Hidden Cove: cove, 600 ft. across, on SE coast of Hawkins Island, 9 miles SW of Cordova, Chugach Mountains; 60° 30' 30" N, 146° 00' 00" W; (map 64). Local descriptive name published in 1950 by USGS.

Hidden Creek Lake: lake, 1.8 miles long, at mouth of Hidden Creek, W of Kennicott Glacier, 11 miles NW of McCarthy, Wrangell Mountains; 61° 33' 40" N, 143° 06' 30" W; (map 67). Local name reported in 1951 by USGS.

Hidden Creek: stream, flows E 3.5 miles to Hidden Creek Lake, W of Kennicott Glacier, 11 miles NW of McCarthy, Wrangell Mountains; 61° 33' 30" N, 143° 08' 00" W; (map 67). Local name reported in 1900 by T. G. Gerdine, USGS.

Hidden Creek: stream, flows N 3 miles to South Fork Koyukuk River at Eagle Cliff, 3 miles E of mouth of Wilson Creek and 25 miles S of Wiseman, Brooks, Range; 67° 02' 45" N, 150° 04' 00" W; (map 124). Local descriptive name obtained in 1956 by USGS topographers.

Hidden Creek: stream, flows NE 1.8 miles to join Bradfield River, at head of Bradfield Canal, Coast Mountains; 56° 13' 00" N, 131° 30' 15" W; (map 7). Local descriptive name published in 1955 by USGS.

Hidden Creek: stream, flows S 3.5 miles to Flat Creek 3.5 miles W of its junction with Ahtell Creek, 7.5 miles NW of Slana, Alaska Range; 62° 45' N, 144° 10' W; (map 83). Local name reported in 1954 by USGS.

Hidden Creek: stream, flows SE 1.2 miles to Orca Inlet, 9 miles SW of Cordova, Chugach Mountains; 60° 31' 15" N, 146° 01' 15" W; (map 64). Local descriptive name published in 1950 by USGS.

Hidden Creek: stream, flows W 12 miles to Nixon Fork Takotna River, 13 miles NW of Medfra, Kilbuck-Kuskokwim Mountains; 63° 14' N, 155° 03' W; (map 89). Local name reported in 1920 by G. C. Martin (in Brooks and others, 1922, fig. 5), USGS.

Hidden Creek: stream, heads at glacier W of Granite Creek and flows SW 6 miles to Kahiltna Glacier, 39 miles NW of Talkeetna, Alaska Range; 62° 34' 30" N, 151° 12' 10" W; (map 81). Local name reported in 1949 by USGS.

Hidden Creek: stream, heads at Hidden Lake, on Kenai Peninsula, S 2 miles of Skilak Lake, 38 miles ESE of Kenai, Chugach Mountains; 60° 26' 20" N, 150° 12' 15" W; (map 62). Local descriptive name; reported by USGS (Brooks and others, 1912, pl. 9).

Hidden Creek: stream, heads at unnamed glacier flows NW 8 miles to head of Wright River and 31 miles NE of Juneau, Coast Mountains; 58° 29' 30" N, 133° 39' 00" W; BGN 1932; (map 12). Descriptive name given in 1932 by B. D. Stewart, USGS, "on account of the fact that The canyon and valley occupied by this stream are hidden from view by surrounding mountains * * *."

Hidden Creek: stream, on Alaska Peninsula, flows SE 8 miles to Aniakchak River, 9 miles E of Vent Mountain, Aleutian Range; 56° 51' N, 157° 54' W; (map 31). So named in 1923 by R. H. Sargent, USGS, "because of its underground course of four or five miles beneath ash and cinders from Aniakchak Volcano."

Hidden Falls Lake: lake, 1 mile long, at head of Kasnyku Bay, 9 miles N of Baranof, on NE coast of Baranof Island, Alexander Archipelago; 57° 13' N, 134° 53' W; BGN 1923; (map 9). Named in 1923 by USFS for Hidden Falls at its head.

Hidden Falls: waterfall, between Hidden Falls Lake and Kasnyku Bay, on NE coast of Baranof Island, Alexander Archipelago; 57° 13' 00" N, 134° 52' 30" W; BGN 1923; (map 9). Descriptive name given in 1923 by USFS; "so called because they are not seen until the upper end of the small lagoon at the head of Kasnyku Bay is reached."

Hidden Glacier: glacier, heads at 59° 41' N, 138° 59' W, trends NW 9 miles to its 1961 terminus, 3.5 miles SE of Seal Bay and 25 miles NE of Yakutat, St. Elias Mountains; 59° 46' 10" N, 139° 10' 20" W; (map 46). Descriptive name given in 1891 by Russell (1892, p. 87), USGS, who glimpsed it as he passed by.

Hidden Glacier: glacier, heads on N slope of Ninemile Mountain, trends NE 1.5 miles to its 1955 terminus 9 miles NW of Hyder, Coast Mountains; 56° 02' 10" N, 130° 07' 00" W; (map 7). Local descriptive name published in 1924 by USGS.

Hidden Harbor: estuary, extends N 1 mile at head of Kinak Bay, on S coast of Alaska Peninsula, in Katmai National Monument, 18 miles ESE of Mount Katmai, Aleutian Range; 58° 11' 30" N, 154° 29' 00" W; BGN 1924; (map 42). So named in 1919 by R. F. Griggs, National Geographic Society, "on account of its constricted entrance."

Hidden Inlet Lake: lake, 3.3 miles long, 2.6 miles NW of Hidden Point, on Pearse Canal, Coast Mountains; 54° 59' N, 130° 28' W; (map 2). Local descriptive name published in 1943 by USC&GS.

Hidden Inlet: estuary, trends S 6 miles to Pearse Canal, Coast Mountains; 54° 57' N, 130° 21' W; (map 2). Local name published in 1891 by USC&GS.

Hidden Island: island, 1 mile long, at S end of Frederick Sound, 18 miles SE of Petersburg, Coast Mountains; 56° 40' 00" N, 132° 33' 30" W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for charting purposes; name published in 1888 on USC&GS Chart 70.

Hidden Lake: lake, 0.6 miles long, in course of Maclaren River, 2.5 miles S of Maclaren Glacier terminus and 26 miles SE of Mount Hayes, Alaska Range; 63° 14' 30" N, 146° 32' 30" W; (map 86). Name published on relatively recent maps.

Hidden Lake: lake, 2.5 miles long, on Afognak Island, 6 miles SE of Black Cape and 26 miles N of Afognak, Kodiak island; 58° 22' N, 152° 42' W; (map 43) Local descriptive name reported in 1952 by USGS.

Hidden Lake: lake, 4.5 miles long, on Kenai Peninsula, 3 miles N of Skilak Lake and 33 miles E of Kenai, Cook Inlet Lowland; 60° 30' N, 150° 19' W; (map 62). Local name reported about 1911 by USGS (Martin, G. C., and others, 1915, pl. 2).

Hidden Point: point of land, between Pearse Canal and Hidden Inlet, Coast Mountains; 55° 56' 45" N, 130° 19' 30" W; BGN 1929; (map 2). Descriptive name given in 1929 by USFS.

Hidden River Lake: lake, 1.3 miles long, 1 mile SW of Stony River 15 miles NW of its junction with Telaquana River, 65 miles NW of Lake Clark, Lime Hills; 61° 12' 20" N, 154° 43' 30" W; (map 71). Prospectors' name published in 1951 by USGS.

Hidden River: stream, heads at Buckskin Glacier, flows SE 11 miles to Fountain River 1.5 miles N of its junction with Chulitna River, 35 miles N of Talkeetna, Alaska Range; 62° 49' 10" N, 150° 04' 30" W; (map 81). Local name published in 1940 by USGS.

Hideway, Lake: lake, 1,000 ft. long, between South Fork Cambell and Rabbit Creeks, 8.2 miles SE of Anchorage, Chugach Mountains; 61° 07' 23" N, 149° 44' 25" W; (map 69). Local name reported in 1952 by USGS.

Hiding Lake: lake, 0.9 miles long, 2 miles NE of Elbow Lake and 11 miles W of Beaver, Yukon Flats; 66° 20' N, 147° 49' W; (map 118). Probably named by William Yanert who showed it on a 1916 manuscript map of the Yukon Flats (Stuck, 1917, map facing p. 122).

Higgins, Point: point of land, between Behm Canal and Tongass Narrows, on SW coast of Revillagigedo Island, Alexander Archipelago; 55° 27' 28" N, 131° 50' 00" W; (map 3). Named by Capt. George Vancouver, RN, "August 12, 1793, no doubt after Ambrosio O'Higgins [de Vallenar], the Viceroy of Chile" (Wagner, 1937, p. 392). See Vallenar Point.

High Bluff: bluffs, see High Bluffs.

High Bluffs: bluffs, 1,012 ft., extend 2 miles along N coast of Saint George Island, E of Samlalogh Ridge, in Pribilof Islands; 56° 36' 20" N, 169° 40' 00" W; (map 38). Variant: Eganuta High Bluff. Descriptive name reported by H. W. Elliott in 1873-74 (Baker, 1906, p. 236). It appears to be a translation of the Aleut name reported by Putnam (1903, p. 1014), USC&GS, as "Eganuta [Iganata]."

High Bluffs: bluffs, see Einahnuhto Bluffs.

High Cache: locality, on N bank of Desper Creek, W of Alaska Highway, 31 miles SE of Northway Junction, Alaska Range; 62° 40' N, 141° 09' W (map 84). Local name reported in 1955 by USGS.

High Cliff Bay: bay, see Kachemak Bay.

High Creek: stream, flows NE 14 miles to Lava Creek 3 miles SW of its junction with Cinder River, on Alaska Peninsula, 37 miles SW of Ugashik, Bristol Bay Lowland; 57° 03' 45" N, 157° 53' 10" W; (map 36). Descriptive name given in 1923 by R. H. Sargent, USGS, "because part of its course runs on a high terrace parallel to Lava Creek."

High Creek: stream, heads in Zane Hills, flows ENE 14 miles to Hogatza River, 34 miles WNW 420 Of Hughes, Hogatza Highlands; 66° 09' N, 155° 27' W; (map 116). Named by mining engineers; recorded in 1956 by Orth.

High Hill: hill, 725 ft., in S part of Umnak Island Aleutian Islands; 52° 58' 23" N, 168° 51' 14" W; (map 21). Descriptive name published by USC&GS in the 1944 Aleutian Coast Pilot (p. 67) because it is the highest hill near the shore of Nikolski Bay.

High Island: island, 0.3 miles across, 0.5 miles NE of Popof Island, in Shumagin Islands, Aleutian Range; 55° 21' 35" N, 160° 19' 00" W; (map 28). Variant: Vesoki, Viesokoi, Visokoi. Translation of the Russian word "Visokoi," meaning "high"; published by Capt. Tebenkov (1852, map 24); shown in 1872 by W. H. Dall, USC&GS, as "Vesoki." The English form "High Island" appeared in 1888 USBF report.

High Island: island, 0.4 miles across, between Clarence Strait and Kasaan Bay, on E coast of Prince of Wales Island, E of Patterson Island, Alexander Archipelago; 55° 24' N, 132° 10' W; (map 4). Descriptive name given in 1880 by W. H. Dall, USC&GS.

High Island: island, 0.5 miles long, 1 mile S of Fawn Point Deer Island, Aleutian Range; 54° 48' 35" N, 162° 19' 20" W; BGN 1942; (map 25). Variant: High Islet, Passage Island. Local name reported in 1941 by USC&GS. It may be the Passage Island published in 1888 by USBF.

High Island: island, 1 mile long, in Rocky Pass of Keku Strait, 30 miles SW of Petersburg, Alexander Archipelago; 56° 44' N, 133° 43' W; (map 6). Local name published by USC&GS in 1932 Coast Pilot (p. 258).

High Island: island, see Cliff Island.

High Island: island, see Natoa Island.

High Island: island, see Zaimka Island.

High Islet: island, see High Island.

High Lake: lake, 0.4 miles long, on Kenai Peninsula, 6 miles WNW of terminus of Chernof Glacier, 36 miles NE of Homer, Chugach Mountains; 59° 55' N, 150° 44' W (map 50). Local name reported and published by USGS in 1950.

High Lake: lake, 1 mile across, on Kokaina Creek 5.2 SE of Tazlina Lake and 51 miles N of Valdez, Chugach Mountains; 61° 51' 30" N, 146° 17' 30" W; (map 68). Local name published on recent USGS maps; so called because the lake is located at an elevation of 3,006 feet.

High Lake: lake, 1 mile long, 2.5 miles NW of junction of Devil Creek and Susitna River, 37 miles S of Cantwell, Talkeetna Mountains; 62° 51' N, 149° 07' W; BGN 1966; (map 82). Variant: Swan Lake. Named in 1962 by "Ken" Oldham, local guide, " * * * since it is the highest of several [lakes] in the immediate area."

High Lake: lake, 5 miles long, 14 miles N of Togiak Lake, 90 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 59' N, 159° 30' W; (map 53). Local name published in 1951 by USGS.

High Lakes: lakes, extend 2 miles between Egypt Mountain and Tin Creek, 5 miles NW of junction of South Fork Kuskokwim and Post Rivers, 73 miles SE of McGrath, Alaska Range; 62° 28' N, 153° 35' W; (map 80). Local descriptive name reported in 1958 by USGS.

High Mountain: mountain, 2,070 ft., 6 miles SE of Foggy Bay, Revillagigedo Channel, Coast Mountains; 54° 55' 05" N, 130° 50' 45" W; (map 2). Descriptive name given in 1883 by Lt. Comdr. H. E. Nichols, USN.

High Mountain: mountain, 2,506 ft., on Gravina Island, S of Sullivan Mountain, 3.9 miles W of Ketchikan, Alexander Archipelago; 55° 21' 45" N, 131° 47' 40" W; (map 3) Local name published in 1886 by USC&GS.

High Point: point of land, 1.2 miles N of Tongass Island, on E shore of Nakat Bay, on NE shore of Dixon Entrance, Coast Mountains; 54° 47' 30" N, 130° 44' 25" W; (map 2). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

High Point: point of land, on E coast of Dall Island, at S entrance to Baldy Bay, Alexander Archipelago; 55° 01' 15" N, 132° 57' 30" W; (map 4). Descriptive name given in 1881 by Lt. Comdr. H. E. Nichols, USN.

High Point: point of land, see Ancon Point.

High Ridge Lake: lake, 1,500 ft. across, in Matanuska Valley, 2.5 miles SW of Palmer, Cook Inlet Lowland; 61° 34' 40" N, 149° 10' 40" W; BGN 1957; (map 69). Variant: Bairds Lake, Bear Lake, Fresara Lake. So named in 1954 by Mr. and Mrs. Fred Machetanz of Palmer, Alaska, because the lake is surrounded by high ridges.

High Rock Islet: rock, see Viesokoi Rock.

High Rock: rock, in Alitak Bay, S of Moser Peninsula, at S end of Kodiak island; 56° 58' N, 154° 05' W; (map 32). Descriptive name reported in 1900 by Lt. Comdr. J. F. Moser, USN.

High Rock: rock, off S coast of Amukta Island, Aleutian Islands; 52° 26' 15" N, 171° 16' 20" W; (map 20). Descriptive name given by members of the North Pacific Exploring Expedition of 1855.

High Rock: rock, see Inner Humpback Rock.

High Rock: rock, see Viesokoi Rock.

High Smith Lake: lake, see Hugh Smith Lake.

High Valley: valley, extends SE 20 miles from Maclaren River, between Denali Highway and Amphitheater Mountains, 12 miles NW of Paxson, Alaska Range; 63° 06' N, 146° 16' W; (map 86). Descriptive name given in 1955 by T. L. Pewe, USGS.

Highball Point: point of land, see Hammer Point.

Highfield Anchorage: anchorage, 1.5 miles across, between Simonof and Wrangell Islands, Alexander Archipelago; 56° 29' 20" N, 132° 22' 00" W; (map 6). Variant: Anchorage off, Labouchere Anchorage, Labouchere Bay, Point Highfield, Point Highfield Harbor. Feature called "Anchorage off Point Highfield" in 1862 by F. O. Simpson, Master of the H.M.S. Devastation; name published as such in 1882 on Brit. Adm. Chart 2431. In 1869, it was called "Point Highfield Harbor" by Comdr. R. W. Meade, USN. The early traders of the Hudson's Bay Co. called it "Labouchere bay or anchorage" for the steamer Labouchere.

Highfield, Point: point of land, northernmost tip of Wrangell Island at Wrangell, Alexander Archipelago; 56° 29' 15" N, 132° 23' 15" W; (map 6). Named in August, 1793, by Capt. George Vancouver, RN, (Wagner, 1937, p. 392).

Highland Creek: stream, flows N 13 miles to Port Heiden near mouth of Meshik River, 13 miles S of Port Heiden Airfield, Bristol Bay Lowland; 56° 47' N, 158° 39' W; (map 30). Descriptive name reported in 1923 by R. H. Sargent, USGS.

Highland Creek: stream, flows NW 9 miles to Charley River, 23 miles SW of that stream's junction with Yukon River, Yukon-Tanana Highlands; 65° 03' N, 143° 15' W; (map 103). Prospectors' name from an unpublished map by E. J. Chamberlain dated, 1902.

Highland Creek: stream, on Kenai Peninsula, flows NW 2 miles to Resurrection Creek, 5 miles S of Hope, Chugach Mountains; 60° 50' 35" N, 149° 37' 50" W; (map 63). Local prospectors' name; reported in 1904 by Moffit (1906, pl. 2), USGS.

Highland Mountain: mountain, 3,700 ft., 4 miles SSE of village of Eagle River and 14 miles NE of Anchorage, Chugach Mountains; 61° 16' 20" N, 149° 30' 30" W; BGN 1966; (map 69). So named in 1966 by Clifford D. Ells of Anchorage because the nearby "main road is called Highland Road."

Highland Park: village, 12 miles SE of Fairbanks, on S side of Richardson Highway, N of North Pole, Tanana Lowland; 64° 45' 30" N, 147° 22' 15" W; (map 100). Local name reported in 1950 by USGS topographers.

Highland, Point: point of land, on N shore of Frederick Sound, 4 miles SE of Cape Fanshaw and 72 miles E of Sitka, Coast Mountains; 57° 09' 00" N, 133° 27' 45" W; (map 8). Descriptive name given in 1868 by Comdr. R. W. Meade, USN; name published by USC&GS in 1883 Coast Pilot (p. 126). The point is heavily wooded and precipitous.

Highpower Creek: stream, heads in Mount McKinley National Park, flows NW, then SW 58 miles to Swift Fork Kuskokwim River, 55 miles NE of Medfra, Kuskokwim Lowland; 63° 25' N, 153° 07' W; BGN 1964; (map 89). Variant: Black Creek, Hipower Creek, Slow Fork, Slow Fork Kuskokwim River, Slow Fork Swift Fork Kuskokwim River. Local name reported in 1958 by USGS.

Highwater Island: island, 0.1 miles across, in Neva Strait, 0.7 miles S of Saint John Baptist Bay, off Baranof Island, 18 miles NW of Sitka, Alexander Archipelago; 57° 16' 50" N, 135° 35' 45" W; (map 9). Variant: Highwater Islet. Descriptive name given in 1884 as "Highwater Islet" by Comdr. J. B. Coghlan, USN, because at low water it is no longer an island or islet, but it is then connected to the east shore. The name was published by USC&GS in 1891 Coast Pilot.

Highwater Islet: island, see Highwater Island.

Highway Pass: pass, 3,800 ft., on Denali Highway, in Mount McKinley National Park, 6 miles NE of Eielson Visitor Center, Alaska Range; 63° 28' 15" N, 150° 09' 30" W; (map 88). Local name shown on a 1916 fieldsheet by C. E. Giffin, USGS.

Higtiguk: locality, on Agattu Island in the Near Islands, Aleutian Islands; (map 13). Former Aleut village reported as "uninhabited" by Hodge (1907, p. 549), BAE.

Hijosa, Isla de: island, see Middleton Island.

Hikers Lake: lake, 0.5 miles long, on Kenai Peninsula, 1 mile NW of Hidden Lake and 32 miles E of Kenai, Cook Inlet Lowland; 60° 30' 45" N, 150° 20' 45" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Hiko-Bukta: bay, see Koyuktolik.

Hilda Creek: stream, flows NE 0.7 miles to Nome River, 0.2 miles downstream from Basin Creek and 12 miles NE of Nome, Seward Peninsula Highlands; 64° 41' N, 165° 18' W; (map 94). Prospectors' name reported on a 1900 map by S. E. King.

Hilda Creek: stream, flows SW 5 miles to North Fork Fortymile River, 40 miles SW of Eagle, Yukon-Tanana Highlands; 64° 19' 40" N, 141° 58' 50" W; (map 102). Prospectors' name obtained in 1898 by E. C. Barnard, USGS.

Hilda Creek: stream, on Douglas Island, flowing SW 3 miles to Stephens Passage, 0.5 miles N of Point Hilda and 6 miles SW of Juneau, Coast Mountains; 58° 13' 30" N, 134° 30' 00" W; BGN 1930; (map 11). Local name derived from Hilda Point; reported in 1928 by USFS.

Hilda, Point: point of land, in Stephens Passage on S shore of Douglas Island, 7 miles SW of Juneau, Coast Mountains; 58° 13' 00" N, 134° 30' 10" W; (map 11). Named in 1890 by USC&GS and published in 1893 on Chart 8235.

Hilgard Mountain: mountain, 1,500 ft., near Sandborn Harbor, Nagai Island, in Shumagin Islands, Aleutian Range; (map 28). Named in 1872 by W. H. Dall, USC&GS, for Julius Erasmus Hilgard, later superintendent of USC&GS. This mountain is not identified on available sources.

Hiline Lake: lake, 2.3 miles long, NW of Beluga Mountain, 46 miles NW of Tyonek, Alaska Range; 61° 44' 20" N, 151° 23' 00" W; (map 70). Local name reported in 1954 by USGS.

Hilksuk: locality, on Agattu Island in the Near Islands, Aleutian Islands; (map 13). Former Aleut village reported as "uninhabited" by Hodge, (1907, p. 549), BAE.

Hill Creek: stream, flows N 0.5 miles to Gilmore Greek, 2 miles W of Gilmore Dome and 12 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 58' 45" N, 147° 26' 00" W; (map 100). Local name published in 1908 by the USGS

Hill Creek: stream, flows SE 2.2 miles to Arctic River, 8 miles E of Ear Mountain and 46 miles NE of Teller, Seward Peninsula Highlands; 65° 54' N, 165° 59' W; (map 111). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Hill Gulch: ravine, trends NW 1 mile to Stewart River, 22 miles NE of Nome, Seward Peninsula Highlands; 64° 49' N, 165° 23' W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Hill Island: island, 2.5 miles across, 9 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 45' N, 136° 17' W; (map 9). Variant: Hills Island. Named "Hills Island" in 1787 by Capt. Nathaniel Portlock for Robert Hill, one of his traders (Wagner, 1937, p. 462). The name was published as "Hill Island" by USC&GS in 1883 Coast Pilot (p. 183). Hill Island Light is on the south end of the island.

Hill Island: island, see Hills Island.

Hill Islets: islands, see McFarland Islands.

Hill Lake: lake, see Beaver Lake.

Hill Peak: peak, 7,177 ft., on Alaska-Canada, boundary, N of terminus of South Sawyer, Glacier, 2 miles N of Sawyer Glacier and 55 miles ESE of Juneau, Coast Mountains; 58° 00' N, 133° 04' W; BGN 1927; (map 8). Variant: Boundary, Peak 78, Mount Hill. Named by United States and Canada in 1927 for Jesse Hill, United States Section IBC.

Hill Point: hill, 3,118 ft., W of Nabesna River, 23 miles SW of Northway, Alaska Range; 62° 40' N, 142° 15' W; (map 84). Local name reported in 1960 by USGS.

Hill Point: point of land, on NE shore of Tenakee Inlet, 7 miles E of Tenakee Springs, on E coast of Chichagof Island, Alexander Archipelago; 57° 46' 45" N, 135° 01' 15" W; (map 9). Descriptive name given in 1925 by USC&GS "because it is located at the foot of a high hill." The name was published in 1926 on Chart 8250.

Hill Slough: stream, see Hills Slough.

Hill, Mount: mountain, 3,028 ft., 2 miles S of mouth of Stag Bay, 19 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 54' N, 136° 21' W; BGN 1960; (map 9). Named in 1955 by USGS "for Joseph Hill, a prospector living in this area for many years, who drowned in Lisianski Strait near this mountain."

Hill, Mount: peak, see Hill Peak.

Hillard Peak: mountain peak, 4,085 ft., 12 miles N of Eagle, Porcupine Plateau; 64° 57' 12" N, 141° 03' 30" W; BGN 1965; (map 102). Named by E. E. Brabb, USGS, for John J Hillard, died 1962, after serving 31 years as customs agent at Eagle.

Hilliard Creek: stream, flows NW 1 mile to Iron Creek which flows to Pilgrim River, between Sidney and Benson Creeks, 25 miles NW of Solomon, Seward Peninsula Highlands; 64° 54' 45" N, 164° 41' 30" W; (map 95). Prospectors' name reported in 1908 on 2 fieldsheet by P. S. Smith, USGS.

Hills Island: island, 4 miles long, in Yukon River, 28 miles W of Marshall, Yukon-Kuskokwim Delta; 61° 54' N, 162° 59' W; (map 74). Variant: Hill Island. Riverboat pilots' name shown on a 1916 fieldsheet by R. H. Sargent, USGS.

Hills Island: island, see Hill Island.

Hills Slough: stream, 5 miles long, channel of Yukon River N of Hills Island, 28 miles W of Marshall, Yukon-Kuskokwim Delta; 61° 55' N, 162° 59' W; (map 74). Variant: Hill Slough. Riverboat pilots' name shown on a 1916 fieldsheet by R. H. Sargent, USGS.

Hillside Lake: lake, 0.5 miles long, W of Dog Lake, 6 miles SE of Northway, Alaska Range; 62° 54' N, 141° 48' W; (map 84). Local name reported in 1954 by USGS.

Hillside: area, in S part of Anchorage, S of Chester Creek, W of Seward Highway, Cook Inlet Lowland; 61° 12' 06" N, 149° 52' 10" W (map 69). Local name reported in 1954 by the city engineer of Anchorage.

Hinauhan's Village: locality, "on Stikine River," Coast Mountains; (map 6). Former "summer camp of a Stikine [Indian] chief" (Hodge, 1907, p. 550). Ivan Petroff lists a population of 31 for this locality in the 1880 Census.

Hinchinbrok Sound: sound, published on a chart by Don Jacinto Caamano dated 1791. See Wagner (1937, p. 355).

Hinchinbroke Island: island, see Hinchinbrook Island.

Hinchinbroke, Canal de: water passage, "published on an anonymous Spanish chart dated about 1790. See Wagner (1937, p. 355).

Hinchinbrook Entrance: water passage, 10 miles long, at entrance to Prince William Sound, between Hinchinbrook Island and Montague Island, 40 miles SW of Cordova, Chugach Mountains; 60° 20' N, 146° 50' W; BGN 1905; (map 64). Variant: Meiklejohn Entrance. Mariners' name reported in 1901 by USC&GS; so called for nearby Hinchinbrook Island. Capt. Abercrombie (in Glenn and Abercrombie, 1899, p. 297), USA, called it "Meiklejohn Entrance" April 8, 1898, "in honor of Hon. G[eorge] D[eRue] Meiklejohn, 1857-1929, Assistant Secretary of War in the McKinley administration."

Hinchinbrook Island: island, 22 miles long, at SE entrance to Prince William Sound, 15 miles SW of Cordova, Chugach Mountains; 60° 23' N, 146° 28' W; BGN Sixth Report; (map 64). Variant: Chinchinbrook Island, Hinchinbroke Island, Isla de la Magdalena, Khta-aluk Island, Nuchek Island, Ostrov Khtagalyuk, Ostrov Tkhalka, Rose Island, Santa Maria Magdalena. Named on May 12, 1778, by Capt. James Cook, RN, for Viscount Hinchinbroke. The island was called "Santa Maria Magdalena," or "Saint Mary Magdalen," by Don Ignacio Artega on July 22, 1779 (Wagner, 1937, p. 392). Capt. John Meares, RN, called it "Rose Island" in 1788. Capt. Tebenkov (1852, map 6) published the Eskimo name as "O[strov] Khtagalyuk," or "Khtagalyuk Island"; shown as "O[strov] Tkhalka," or "Tkhalka Island," on an 1802 Russian map.

Hinchinbrook, Cape: point of land, on S tip of Hinchinbrook Island, 35 miles SW of Cordova, Chugach Mountains; 60° 14' N, 146° 39' W; (map 64). Variant: Cape Hinchinbroke, Mys Morsky, Punta de Espanol, Punta de Arcadio, Punta de San Luis. Named in 1778 by Capt. James Cook, RN, "after Viscount Hinchinbroke, John Montagu's father, and afterward used by several navigators * * *" (Wagner, 1937, p. 392). This feature was called "M[ys] Morskoi," meaning "sea cape", by Capt. Tebenkov (1852, map 6), IRN. See also Espanol, Cabo.

Hinchinbroke, Cape: point of land, see Hinchinbrook, Cape.

Hinckley, Mount: mountain, 4,300 ft., in Lincoln Mountains, 2.7 miles SW of Hyder, Coast Mountains; 55° 53' 15" N, 130° 04' 40" W, BGN 1927; (map 3). Named by the Hyder Chamber of Commerce, after Earl Hinckley, U.S. Immigration Officer, who died in 1926 by falling from a cliff on this peak.

Hindasetukee: locality, see Gantegastaki.

Hines Creek: stream, flows NE 6.5 miles to Riley Creek, 10 miles S of Healy, Alaska Range; 63° 43' 30" N, 148° 54' 30" W; (map 87). Local name reported by Woodbury Abbey, U.S. Army Corps of Engineers, on the blueprint of his 1921 Mount McKinley National Park survey.

Hines River: stream, see Cannery Creek.

Hines River: stream, see Gines Creek.

Hioo Bay: bight, see Hallo Bay.

Hipower Creek: stream, see Highpower Creek.

Hirst Cove: cove, see Kimshan Cove.

Hirst Mountain: mountain, 2,300 ft., 5 miles NE of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 43' N, 136° 00' W; BGN 1939; (map 9). Named locally about 1935 for "Bernard Hirst of Sitka, who in 1905 discovered and staked the first mining claim on Kimshan Cove."

Hitchcock Glacier: glacier, W of Hitchcock Hills, trends SW 3 miles to Seward Glacier, 43 miles NW of Yakutat, St. Elias Mountains; 60° 05' N, 140° 25' W; (map 66). Named in 1897 by His Royal Highness, Prince Luigi Amedeo di Savoia, Duke of Abruzzi (Filippi, 1900, p. 99).

Hitchcock Hills: mountain range, 7,200 ft., extends SW 8 miles from Pinnacle Pass to Malaspina Glacier, 43 miles NW of Yakutat, St. Elias mountains; 60° 06' N, 140° 20' W; (map 66). Variant: Hitchcock Range. Named "Hitchcock Range" in 1890 by Russell (1891, p. 112), for Edward Hitchcock, "In acknowledgment of the services to science rendered by the first state geologist of Massachusetts."

Hitchcock Range: mountain range, see Hitchcock Hills.

Hiteshitak Mountain: mountain, 5,533 ft. 3 miles W of Tohitkah Mountain and 2.4 miles SE of Mount Ashmun on Alaska-Canada boundary, 31 miles NW of Skagway, St. Elias Mountains; 59° 36' 45" N, 136° 08' 40" W; (map 45). Tlingit Indian name given by E. C. Robertson, geologist; published in 1952 by USGS.

Hitts: locality, see Tuckers.

Hive Bay: bay, 1 mile across, on E coast of Unalaska Island, Aleutian Islands; 53° 40' N, 166° 23' W; (map 23). This name was published in the 1944 Aleutian Coast Pilot (p. 51).

Hive Island: island, 0.7 miles across, between Resurrection Bay and Eldorado Narrows, 17 miles S of Seward, Chugach Mountains; 59° 53' N, 149° 22' W; BGN 1906; (map 49). Variant: Sugar Loaf Island, Guard Island. According to USC&GS, in 1905 the local name was "Sugar Loaf Island." Surveyors of the Alaska Central Railroad called it "Guard Island." The BGN "officially" named it Hive to avoid duplication.

Hive Rock: rock, 1.8 miles NW of Round Point, off NW coast of Kanaga Island, Aleutian Islands; 51° 43' 30" N, 177° 33' 00" W; (map 17). Name published by USC&GS in 1956 on Chart 9145.

Hludasetzk: stream, see Ludaseska Creek.

Hlukkanhoan: locality, "in SE Alaska". Former Tlingit Indian town listed in Hodge (1907, p. 554), BAE, as "Laxq! uxo-an" meaning "town where people do not sleep much." This locality may be the present-day Klukwan.

Ho-holiknuk River: stream, see Hoholitna River.

Hoagies Hole: bay, 0.2 miles across, 14 miles SW of Petersburg, at S end of Lindenberg Peninsula, Kupreanof Island, Alexander Archipelago; 56° 36' 30" N, 133° 01' 10" W; (map 6). Local fishermen's name reported in 1947 by USC&GS.

Hobart Bay: bay, 6 miles long, on E shore of Stephens Passage, 5 miles SE of Rocky Point and 74 miles NE of Sitka, Coast Mountains; 57° 24' 30" N, 133° 28' 00" W; (map 8). Named in 1889 by Lt. Comdr. H. B. Mansfield, USN; published by USC&GS in the 1891 Coast Pilot (p. 146).

Hobart, Point: point of land, on E shore of Stephens Passage, about 1 mile S of Hobart Bay, 2.6 miles SW of Entrance Island and 74 miles E of Sitka, Coast Mountains; 57° 22' 45" N, 133° 28' 20" W; (map 8). Variant: Mys Khobart. Named by Capt. George Vancouver, RN, after its discovery by Lt. Joseph Whidbey on August 13, 1794, for John Hobart, the Second Earl of Buckingham, England (Wagner, 1937, p. 392). This name was published in 1848 as "Mys Khobart," that is "Khobart Cape," by the Russian Hydrog. Dept. on Chart 1396.

Hobo Bay: estuary, trends SE 1 mile to Port Wells, 20 miles NE of Whittier, Chugach Mountains; 60° 57' 00" N, 148° 13' 30" W; (map 63). Local name published in 1916 by USC&GS.

Hobo Creek: stream, flows S 0.4 miles to Hard Luck Creek which flows to Dome Creek, 22 miles NW of Solomon, Seward Peninsula Highlands; 64° 53' 05" N, 164° 36' 00" W; (map 95). Prospectors' name reported in 1908 on a fieldsheet by P. S. Smith, USGS.

Hobo Creek: stream, flows SE 3.5 miles to Hobo Bay, 20 miles NE of Whittier, Chugach Mountains; 60° 57' 35" N, 148° 14' 15" W; (map 63). Local name reported in 1951 by USGS; derived from Hobo Bay.

Hobron, Port: bay, extends SW 7 miles off Sitkalidak Strait on N coast of Sitkalidak Island SE of Kodiak island; 57° 10' N, 153° 10' W; (map 34). Baker (1906, p. 307) wrote, "Apparently so named by Petroff[f] 1887 or 1888, who at that time established here a fishing station for the Alaska Coast Fishery Company * * *."

Hobson Creek: stream, flows S 4 miles to Nome River, 16 miles NE of Nome, Seward Peninsula Highlands; 64° 44' N, 165° 17' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Hochandochtla Mountain: mountain, 3,200 ft., 2 miles NE of Anotleneega Mountain at the headwaters of Dulbi River, 47 miles NW of Birches, Kokrines-Hodzana Highlands; 65° 31' 50" N, 154° 52' 00" W; (map 107). Koyukan Indian name obtained at Huslia in 1956 by Orth.

Hockley Hills: mountains, 1,887 ft., highest elevation, extends NE-SW 12 miles, 19 miles NW of Selawik, Hogatza Highlands; 66° 51' N, 160° 18' W; (map 114). Probably named by English naval officers during the Franklin search expeditions of 1849-54 for John Hockley, one of Capt. F. W. Beechey's crew in 1825.

Hocktaheene Cove: cove, see Hoktaheen Cove.

Hocktaheene Creek: stream, see Hoktaheen Creek.

Hocktaheine Cove: cove, see Hoktaheen Cove.

Hocktaheine Creek: stream, see Hoktaheen Creek.

Hodatic River: stream, flows SW 16 miles to Three Day Slough, 25 miles W of Roundabout Mountain, Koyukuk Lowland; 65° 32' N, 157° 25' W; (map 108). Koyukan Indian name reported in 1900 by Lt. B. H. Camden, USRCS (Cantwell, 1904, p. 244).

Hodcana: locality, see Caribou Bar.

Hodegaden Creek: stream, flows NE 7 miles to Koyukuk River, 24 miles NE of Nulato, Nulato Hills; 64° 58' N, 157° 33' W; (map 97). Koyukan Indian name reported in 1954 by USGS.

Hodgins Slough: lake, 0.8 miles long, oxbow, N of junction of Chena River and its South Fork, 25 miles E of Fairbanks, Yukon-Tanana Highlands; 64° 53' 30" N, 146° 41' 00" W; (map 101). Local name reported in 1950 by USGS.

Hodgkins Mountain: peak, see Hodgkins Peak.

Hodgkins Peak: peak, 5,800 ft., just S of Organ Pipes, 24 miles NE of Juneau, Coast Mountains; 58° 35' 20" N, 134° 02' 45" W; BGN 1923; (map 11). Variant: Hodgkins Mountain. Named in 1923 by USC&GS for their man, Capt. William Chandler Hodgkins, 1854-1922.

Hodgkins Point: point of land, on S coast of Esther Island, at N side of Wells Passage, 22 miles E of Whittier, Chugach Mountains; 60° 47' N, 148° 02' W; (map 63). Local name reported in 1952 by USGS.

Hodikof Bay: bight, 0.5 miles across, on E coast Attu Island, on N shore of Sarana Bay, Aleutian Islands; 52° 53' 10" N, 173° 17' 10" E; (map 13). Variant: Purvis Cove. Name derived from Hodikof Point; shown as "Purvis Cove" on an AMS map published in 1948; listed as "Hodikof Bay" in the 1954 Coast Pilot (p.475).

Hodikof Island: island, 0.1 miles long, in Sarana Bay, off Attu Island, Aleutian Islands; 52° 52' 40" N, 173° 17' 45" E; (map 13). Derived from Hodikof Point; shown on USC&GS Chart 9127 published in 1951.

Hodikof Point: point of land, on E coast of Attu Island, E of Pierucci Ridge, 1 mile NE of Krupa Point at N entrance to Sarana Bay, Aleutian Islands; 52° 53' 30" N, 173° 17' 55" E; BGN 1965; (map 13). Variant: Cape Hodikof, Hodikoff Point, Krupa Point. This feature is shown as "Hodikoff Point" in the 1944 Aleutian Coast Pilot (p. 134) and as "Cape Hodikof" on an AMS map published in 1948.

Hodikof Point: point of land, see Krupa Point.

Hodikof Reef: reef, between Hodikof Point and Hodikof Island, E of Attu Island, Aleutian Islands; 52° 52' 50" N, 173° 17' 00" E; (map 13). This name is derived from Hodikof Point and is shown on USC&GS Chart 9127, published in 1951.

Hodikof, Cape: point of land, see Hodikof Point.

Hodikof, Cape: point of land, see Krupa Point.

Hodikoff Point: point of land, see Hodikof, Point.

Hodikoff Point: point of land, see Krupa Point.

Hodzana River: stream, heads at 63° 30' N, 149° 58' W, flows SE 125 miles to Hodzana Slough, Yukon River, 12 miles SW of Beaver, Yukon Flats; 66° 17' 30" N, 147° 46' 30" W; BGN 1907; (map 118). Variant: Hosiana River, Hosianna River. Indian name meaning "male beaver" published on Edwards Track Chart of the Yukon, 1899, as "He Beaver (Hosiana)." The name was also applied to what is now called Hodzana Slough. The present spelling was recommended to BGN by Archdeacon Hudson Stuck in 1907, "as best representing local pronunciation."

Hodzana Slough: stream, channel of Yukon River, flows SW 12 miles, 16 miles SW of Beaver, Yukon Flats; 66° 14' 00" N, 147° 54' 40" W; (map 118). Variant: He Beaver Slough. Indian name reported in 1956 by R. E. Isto, USGS. See Hodzana River.

Hodzana: locality, see Caribou Bar.

Hoelsher Creek: stream, flows 3.2 miles E to W side of Temnac Bay, southern Attu Island, Aleutian Islands; 52° 48' 25" N, 172° 59' 55" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II; name shown on an AMS map published in 1948.

Hoffman, Mount: mountain, see Hoffmann, Mount.

Hoffmann, Mount: mountain, 6,080 ft., 4 miles SW of Chilkoot Pass and 15 miles N. of Skagway; Coast Mountains; 59° 40' 10" N, 135° 20' 20" W; (map 45). Variant: Mount Hoffman. Named in 1898 by J. A. Flemer, USC&GS.

Hoffmans: village, see Napaimiut.

Hoffnung: point of land, see Hope, Point.

Hofstad Creek: stream, flows SW 3.7 miles to Vixen Inlet, on NW coast of Cleveland Peninsula, Alexander Archipelago; 55° 46' 45" N, 132° 00' 05" W; BGN 1915, (map 4). Variant: Hoftad Creek. Local name reported in 1914 by E. Lester Jones, USBF.

Hoftad Creek: stream, see Hofstad Creek.

Hog Island: island, "in Muscle Cove, an indentation in the northern shore of Beaver Inlet, Unalaska Island" (Wagner, 1937, p. 462).

Hog Island: island, 0.4 miles long, 3 miles E of Afognak, between Afognak and Kodiak Islands 58° 00' 15" N, 152° 41' 10" W; (map 43) Variant: Shayak Island. Name reported in 1900 by Lt. Comdr. J. F. Moser, USN, commander of the USBF steamer Albatross, who made surveys and investigations in this area from 1897 to 1901. This island was called "O[strov] Shayak," or "Shayak Island," by Capt. Tebenkov (1852, map 23), IRN.

Hog Island: island, 0.9 miles long, in Unalaska Bay, on NE coast of Unalaska Island, Aleutian Islands; 53° 54' 15" N, 166° 34' 20" W; (map 23). Variant: Ostrov Svinoy, Ostrov Uknodok, Ouknadok Island, Swinoi Island, Uknadak Island. The Russians placed hogs on this island and the name was published as "O[strov] Svinoy," Meaning "hog island," by Capt. Tebenkov (1852, map 26), IRN. Lt. Sarichev (1826, Map 15), IRN, published the Aleut name as "Os[strov] Uknodok," or "Uknodok Island."

Hog Landing: locality, supply landing, at junction of Hogatza and Koyukuk Rivers, 32 miles W of Hughes, Hogatza Highlands; 66° 00' N, 155° 24' W; (map 116). Named in the 1950's when the place was established, at the south terminus of the road to Hogatza, as a river landing for supplies. "Hog" is the local name for the Hogatza River; reported in 1956 by Orth.

Hog River: locality, see Hogatza.

Hog River: stream, see Hogatza River.

Hog Rocks: reef, extends 1.5 miles, between Felice Strait and Revillagigedo Channel, 18 miles SE of Ketchikan, NE of Ham Island, Alexander Archipelago; 55° 11' 15" N, 131° 18' 30" W; (map 3). Variant: Frog Rocks. Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Hog' em Gulch: stream, see Deadwood Creek.

Hogan Bay: estuary, extends SE 2 miles to Montague Strait, at SE end of Knight Island, 10 miles NE of Latouche Island, Chugach Mountains; 60° 11' 30" N, 147° 44' 15" W; BGN 1908; (map 63). Named for a local miner and published by USC&GS in 1908.

Hogan Hill: hill, 2,647 ft., 2.5 miles long, E of Richardson Highway, 27 miles N of Gulkana, Copper River Basin; 62° 39' N, 145° 28' W; (map 83). Local name taken from the name of the telegraph station; reported by Moffit (1912, pl. I), USGS.

Hogan Island: island, 2.5 miles long, 6 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 43' N, 136° 15' W; (map 9). Variant: Hogans Island, Vincent Island. Named "Hogans Island" in 1787 by Capt. Nathaniel Portlock on his sketch map and "Vincent Island" on his general chart. Hogans Island was named for James Hoggan,

surgeon on Capt. Portlock's ship King George (Wagner 1937, p. 462, 523). The name "Hogan Island" was published by USC&GS in 1883 Coast Pilot (p. 183).

Hogan Lake: lake, 0.5 miles across, on N central Baranof Island, 13 miles NE of Sitka, Alexander Archipelago; 57° 12' 30" N, 135° 06' 30" W; (map 9). Local name reported in 1951 by USGS.

Hogan Point: point of land, on S tip of Hogan Island, 6.5 miles WNW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 11' 30" N, 136° 15' 45" W; BGN 1926; (map 9). Named in 1926 by USC&GS; derived from Hogan Island and published in 1927.

Hogan, Mount: mountain, 5,453 ft., 1.8 miles NE of Mount Shasta and 10.5 miles NW of Valdez, Chugach Mountains; 61° 10' 30" N, 146° 30' 50" W; (map 68). Prospectors' name reported in 1911 by J. W. Bagley and C. E. Giffin, USGS.

Hogan: locality, site of telegraph station, on Richardson Highway, 27 miles N of Gulkana, Copper River Basin; 62° 38' 50" N, 145° 29' 00" W; (map 83). Recorded in 1910 as Hogan Telegraph Station by D. C. Witherspoon (in Moffit, 1912, pl. 1), USGS.

Hogans Island: island, see Hogan Island.

Hogatiakakat River: stream, see Hogatza River.

Hogatiakakat: stream, see Hogatza River.

Hogatsikakat River: stream, see Hogatza River.

Hogatsikakat: stream, see Hogatzakhotak Creek.

Hogatza Flats: swamp, 8 miles across, along course of Hogatza River, 20 miles NW of Hughes, Hogatza Highlands; 66° 18' N, 154° 39' W; (map 116). Local name recorded at Hughes in 1956 by Orth; named for the river.

Hogatza Hills: hills, 2,000 ft., extending NE-SW 20 miles between Hughes Creek and Hogatza River, 25 miles N of Hughes, Hogatza Highlands; 66° 25' N, 154° 10' W; (map 116). Indian name "Hogatzatgla," meaning "Hogatza Hills," recorded at Hughes in 1956 by Orth. The redundant "gla," meaning "hills," was dropped when the English generic was added during publication.

Hogatza River: stream, heads at 66° 57' N, 154° 12' W, flows SW 120 miles to Koyukuk River, 32 miles WSW of Hughes, Hogatza Highlands; 66° 00' N, 155° 24' W; BGN 1901; (map 116). Variant: Hog River, Hogatiakakat River, Hogatsikakat River, Hogatzakakat River, Hokachatna River, Hokuchatna River, Kokachatna River, Kokachutna River. Koyukan Indian name reported in 1885 by Lt. Allen (1887, p. 103), USA. This feature appears to be the same stream that Lt. Stoney (1900, p. 42, map) refers to as "Kokachatna" or "Kokachutna."

Hogatza: locality, on Bear Creek, in Hogatza River Valley, 42 miles WNW of Hughes, Hogatza Highlands; 66° 11' N, 155° 43' W; (map 116). Variant: Hog River. This mining camp was established about 1940.

Hogatzakakat River: stream, see Hogatza River.

Hogatzakhotak Creek: stream, flows SE 8 miles to Koyukuk River 3 miles downstream from the mouth of Hogatza River, 35 miles W of Hughes; 66° 00' N, 155° 28' W; Variant: Hogatsikakat, Little Hog River, Little Hogatza River. Koyukan Indian name given as "Little Hog River" by Lt. B. H. Camden, USRCS, in 1900. The present name is from Orth in 1956.

Hogback Glacier: glacier, trends N 1.5 miles to Corbin Glacier, 9 miles E of Valdez, Chugach Mountains; 61° 06' 30" N, 145° 50' 30" W; (map 68). Named in 1898 by Capt. W. R. Abercrombie, USA.

Hogback Hill: hill, 272 ft., near S shore of Pastol Bay, 46 miles SW of St. Michael, Yukon-Kuskokwim Delta; 63° 01' 15" N, 163° 06' 30" W; (map 92). Descriptive name given in 1898 by USC&GS "because of its shape."

Hogem Creek: stream, see Deadwood Creek.

Hogem Junction: locality, on right bank of Crooked Creek, W of Deadwood Creek, 26 miles SW of Circle, Yukon-Tanana Highlands; 65° 32' N, 144° 38' W; (map 104). Name of trail junction; derived from "Hog' em Gulch," the early prospectors' nickname for Deadwood Creek. The name was reported in 1896 by USGS (Spurr, 1898, pl. 50). See Deadwood Creek. 424

Hogg Bay: estuary, on E coast of Bainbridge Island, extends W 4 miles to Port Bainbridge, 40 miles E of Seward, Chugach Mountains; 60° 04' 30" N, 148° 17' 30" W; (map 63). Named for a local miner; reported in 1908 by U. S. Grant and D. F. Higgins (in Brooks and others, 1910, pl. 4), USGS.

Hogg Island: island, 0.6 miles across, in Bluefox Bay, on N coast of Afognak island; 58° 27' 30" N, 152° 42' 30" W; (map 43). Name published by USC&GS in 1928 on Chart 8573.

Hogg Point: point of land, on E coast of Bainbridge Island, at N entrance to Hogg Bay, 16 miles SW of Chenega, Chugach Mountains, 60° 05' N, 148° 17' W; BGN 1929; (map 63). Named in 1929 by Capt. R. S. Patton USC&GS; derived from nearby Hogg Bay.

Hoggat Bay: bay, see Hoggatt Bay.

Hoggatt Bay: bay, 0.6 miles across, 3.5 miles long, on E coast of Baranof Island, Alexander Archipelago; 56° 46' 15" N, 134° 39' 30" W; (map 5). Variant: Hoggat Bay. Named in 1895 by Lt. Comdr. E. K. Moore, USN, for Ens. Wilford Bacon Hoggatt, 1865-1938, USN, a member of his party. Hoggatt was Governor of Alaska from 1906 to 1909.

Hoggatt Island: island, 0.2 miles long, in Peril Strait, off Duffield Peninsula at N tip of Baranof Island, 23 miles SE of Chichagof, Alexander Archipelago; 57° 33' 10" N, 135° 30' 30" W; (map 9). Local name reported in 1951 by USGS.

Hoggatt Reefs: reefs, 0.3 miles long, S of Hoggatt Island, N end of Baranof Island, 23 miles SE of Chichagof, Alexander Archipelago; 57° 32' 45" N, 135° 30' 45" W; (map 9). Named in

1895 by Lt. Comdr. E. K. Moore, USN, for Ens. Wilford Bacon Hoggatt, 1865-1938, a member of his party in 1895-97 and who later became Governor of Alaska, 1906-09. Hoggatt was born in Indiana and was a graduate of the U.S. Naval Academy. He was a navy officer, 1884-98, before becoming a mining engineer.

Hoggom Creek: stream, see Schlitz Creek.

Hoholitna River: stream, heads in Whitefish Lake at 60° 56' N, 154° 59' W, flows NW 165 miles to Holitna River 13 miles SE of its junction with Kuskokwim River, 14 miles S of Sleetmute, Stony River Lowland; 61° 30' 35" N, 156° 59' 00" W; BGN 1915; (map 72). Variant: Agalitnak River, Ha-ha-link-nuk River, Hahalitha River, Haliknuk River, Ho-holiknuk River. Present spelling of Indian name can be attributed to R. H. Sargent, USGS, in 1914. A name obtained in 1898 "from A. Lind, a trader" was "Haliknuk," which was said to mean "sudden (unexpected)," by J. E. Spurr and W. S. Post, USGS. Eskimo name "Agalitnak" obtained in 1842-44 by Lt. L. A. Zagoskin, IRN.

Hokachatna River: stream, see Hogatza River.

Hokachatna: stream, see Hogatza River.

Hokatena: stream, see Wild River.

Hokdoloni Hills: hills, 1,844 ft., extend N-S 8 miles on W bank of Hughes Creek, 13 miles NW of Hughes, Hogatza Highlands; 66° 13' N, 154° 30' W; (map 116). Indian name, reported to mean "hills above" (Lake Tokhaklanten); recorded at Hughes in 1956 by Orth.

Hokeley Gulch: ravine, extends S 1.3 miles to Deep Creek, 4 miles SW of Tofty and 33 miles ESE of Tanana, Yukon-Tanana Highlands; 65° 03' 45" N, 150° 59' 05" W; BGN 1961; (map 106). Variant: Hokley Gulch; Hovley Gulch. Prospectors' name reported in 1931 as "Hovley Gulch" by J. B. Mertie, USGS.

Hokley Gulch: ravine, Hokeley Gulch.

Hoknede Mountain: mountain, 2,969 ft., 1 mile SW of Lake Clark and 2 miles NW of Nondalton, Alaska Range; 60° 02' N, 154° 53' W; (map 61). Tanaina Indian name reported in 1914 by R. H. Sargent (in Smith and others, 1917, pl. 1), USGS.

Hokotena River: stream, see Wild River.

Hoktaheen Cove: cove, 0.2 miles across, on NW coast of Yakobi Island, 1.5 miles NW of Hoktaheen Lake, 41 miles W of Hoonah, Alexander Archipelago; 58° 04' 20" N, 136° 32' 50" W; BGN 1908; (map 10). Variant: Hocktaheene Cove, Hocktaheine Cove. Tlingit Indian name reported by Lt. Comdr. Moser (1902, p. 377), USN, as Hocktaheene Cove.

Hoktaheen Creek: stream, on NW side of Yakobi Island, heads in Hoktaheen Lake, flows 1.5 miles NW to Hoktaheen Cove, 40 miles W of Hoonah, Alexander Archipelago; 58° 04' 20" N, 136° 32' 30" W; BGN 1908; (map 10). Variant: Hocktaheene Creek, Hocktaheine Creek. Tlingit Indian name reported by Lt. Comdr. Moser (1902, p. 377), USN, as Hocktaheene Creek.

Hoktaheen Lake: lake, 0.6 miles across, on N part of Yakobi Island, 39 miles W of Hoonah, Alexander Archipelago; 58° 03' 25" N, 136° 30' 55" W; (map 10). Local name reported by USGS in 1948, derived from Hoktaheen Creek on which it is located.

Hokuchatna River: stream, see Hogatza River.

Hokuchatna: stream, see Hogatza River.

Holbrook Mountain: mountain, 2,648 ft., between Davidson Inlet and Tokeen Bay, on SE coast of Kosciusko Island, Alexander Archipelago; 56° 01' 45" N, 133° 27' 10" W; (map 6). Named in 1904 by E. F. Dickins, USC&GS, "after the [Holbrook] fishery."

Holbrook: locality, at head of Davidson Inlet, on S. coast of Kosciusko Island, Alexander Archipelago; 56° 02' 05" N, 133° 29' 30"; (map 6). This is the site of an abandoned fishing station. Named by the owners and reported in 1904 by E. F. Dickins, USC&GS.

Holdem Creek: stream, flows NE 2.5 miles to Ketchem Creek, 3 miles W of Circle Hot Springs and 30 miles SW of Circle, Yukon-Tanana Highlands; 65° 29' N, 144° 45' W; BGN 1938; (map 104) Local name used by prospectors in recording mining claims; reported in 1937 by USGS.

Holdeyeit Lake: lake, 1 mile long, on E bank of Alatna River, 2.2 miles NE of Allakaket, Kanuti Flats; 66° 35' 30" N, 152° 35' 30" W; (map 117). Koyukan Indian name obtained in 1956 at Allakaket by r. E. Taylor, USGS.

Hole in the Wall Glacier: glacier, 7.5 miles across, trends 6.8 miles N to its terminus at Skolai Creek, 27 miles NE of McCarthy, Wrangell Mountains; 61° 39' 30" N, 142° 12' 31" W; (map 67). Local name published by USGS in 1954.

Hole in the Wall Glacier: glacier, a branch of Taku Glacier, trends E 1 mile to Taku River, 20 m. NE of Juneau, Coast Mountains; 58° 28' 45" N, 133° 59' 35" W; (map 12). Local name reported in 1951 by USGS.

Hole in the Wall: estuary, extends E 0.8 miles off Diver Bay, on NW coast of Dall Island, Alexander Archipelago; 55° 10' 25" N, 133° 12' 10" W; (map 4). Descriptive name published in 1928 by USC&GS.

Hole in the Wall: estuary, extends SW 1.5 miles to Sumner Strait, 6 miles S of village of Point Baker, on N coast of Prince of Wales Island, Alexander Archipelago; 56° 16' 10" N, 133° 37' 00" W; (map 6). Named in 1886 by Lt. J. M. Helm, USN, for charting purposes; published in 1887 on USC&GS Chart 706.

Hole in the Wall: locality, on E island of San Lorenzo Islands, Maurelle Islands, Alexander Archipelago; 55° 35' 50" N, 133° 36' 40" W; (map 4). Local name recorded in 1951 by USGS; shown on a 1964 USGS map as an abandoned site with several buildings remaining. USC&GS applies this name to the channel between the two San Lorenzo Islands; "this channel is locally known as Hole in the Wall and two or three fish-buying scows anchor in the

wider part of it each summer from May 1 to September 15. All necessary supplies for fishermen are available here" (USC&GS, 1962, p. 91).

Hole in the Wall: water passage, see Piehle Passage.

Holekachucket: village, see Holikachuk.

Holes Point: point of land, see Dirovati Point.

Holgate Arm: estuary, extends SE 5 miles from Holgate Glacier to Aialik Bay, 24 miles SW of Seward, Chugach Mountains; 59° 49' N, 149° 45' W; BGN 1911; (map 49). Named in 1911 by U. S. Grant, USGS, for "Dr. T. F. Holgate, Dean of the College of Liberal Arts of Northwestern University and well known educator."

Holgate Glacier: glacier, trends SE 5.3 miles to its terminus at Holgate Arm, 24 miles SW of Seward, Chugach Mountains; 59° 51' N, 149° 52' W; BGN 1911; (map 49). Named in 1911 by U. S. Grant, USG', for Dr. T. F. Holgate. See Holgate Arm.

Holgate Head: promontory, 1,435 ft., extends into Aialik Bay, 24 miles SW of Seward, Chugach Mountains; 59° 50' N, 149° 45' W; BGN 1930; (map 49). Variant: Holgate Peninsula, Holgate Point. Named in 1912 by USC&GS "after adjoining Holgate Arm."

Holgate Peninsula: promontory, see Holgate Head.

Holgate Point: promontory, see Holgate Head.

Holiday Beach: beach, 0.5 miles long, 6.2 miles SW of Kodiak, Kodiak island; 57° 42' 20" N, 152° 28' 20" W; (map 34). Name derived from Holiday Island and published in 1949 by USGS.

Holiday Creek: stream, flows SE 7 miles to Hogatza River, 40 miles NW of Hughes, Hogatza Highlands; 66° 18' N, 155° 33' W; (map 116). Named about 1955 by mining engineers; reported in 1956 by Orth.

Holiday Island: island, 0.8 miles long, 1 mile E of Kodiak, Kodiak island; 57° 47' N, 152° 23' W; (map 34). Variant: Ostrov Prazdnichnoy, Prazdnic Island, Prazdnichnoi, Praznic Island, Praznik Island, Rocky Island. Translation by USC&GS in 1869 of the name "Os[trov] Prazdnichnoy," published by Sarichev (1826, map 16). In 1804, Lisianski (1814, p. 44) called it "Rocky Island." Baker (1906, p. 510) published the name "Praznik."

Holikachek: village, see Holikachuk.

Holikachuk Slough: stream, flows E 16 miles between Shageluk Slough and Innoko River, 1.4 miles E of Holikachuk and 50 miles N of Holy Cross, Innoko Lowland; 62° 55' N, 159° 28' W; (map 78). Local name obtained in 1952 by USGS.

Holikachuk: village, pop. 122, on W bank of Innoko River, 27 miles NE of Anvik and 49 miles N of Holy Cross, Innoko Lowland; 62° 54' 40" N, 159° 31' 00" W; BGN 1941; (map 78). Variant: Holekachucket, Holikachek, Holikitsak, Holokochakat, Khoughitchate, Khuligishgat,

Selo Khulishganat. There were several Ingalik Indian villages recorded in this low wetland by the Russians (see Shageluk); Holikachuk may be the one mentioned in 1861 by P. Tikhmeniev as "Sel[o] Khulishganat" or "Khuligishgat." The 11th Census in 1890 lists the place as "Holikitsak" with a population of 114. A post office was maintained here from 1941 to 1964 (Ricks, 1965, p. 26).

Holikitsak: village, see Holikachuk.

Holiknuk: stream, see Holitna River.

Holitna River: stream, formed by confluence of Kogrukuk River and Shotgun Creek at 60° 49' 30" N, 157° 51' 00" W, flows NE 110 miles to Kuskokwim River, 1.5 miles S of Sleetmute, Stony River Lowland; 61° 40' 45" N, 157° 10' 00" W; BGN 1915; (map 72). Variant: Chalitnak, Cholitna, Cholitno, Chulitna, Culitna, Holiknuk, Holitno, Holitnuk, Hoolitna, Hulitna, Hulitnak, Hulitno, Khulitno, Kulitnak. Native name published in 1826 as "Khulitna" by Lt. G. A. Sarichev, IRN; spelled "Khulitnak" in 1842-44 by Lt. L. A. Zagoskin, IRN, and "Holitnuk" on an 1898 fieldsheet by W. S. Post, USGS.

Holitno: stream, see Holitna River.

Holitnuk River: stream, see Holitna River.

Holkam Bay: bay, see Holkham Bay.

Holkham Bay: bay, 6 miles across at mouth, with two forks, Endicott Arm and Tracy Arm, extends E from Stephens Passage, 45 miles SE of Juneau, Coast Mountains; 57° 45' 40" N, 133° 40' 30" W; BGN 1964; (map 8). Variant: Holkam Bay, Sum Dum, Zaliv Kholkkhem. Named by Capt. George Vancouver, RN, after its discovery by Lt. Joseph Whidbey on August 13, 1794, for Holkham, a town in Norfolk, England (Wagner, 1937, p. 392). The Tlingit Indian name is "Sum Dum."

Holland Creek: stream, in Chigmit Mountains, flows E 4 miles to Left Fork West Glacier Creek, 5.5 miles N of Chinitna Bay, Aleutian Range; 59° 56' N, 153° 18' W; (map 51). Local name published in 1958 by USGS.

Holland Harbor: anchorage, see Dutch Harbor.

Holligan Creek: stream, flows SW 2.2 miles to Kuzitrin River, 21 miles NW of Mount Bendeleben, Seward Peninsula Highlands; 65° 13' N, 164° 49' W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Hollings, Cape: point of land, see Narrow Cape.

Hollingworth, Mount: mountain, 4,100 ft., in Brooks Range, 12 miles N of Iggiruk Mountains and 36 miles NE of Misheguk Mountain; 68° 29' N, 159° 26' W; (map 131). Named in 1960 by geologists of BP Exploration Company (Alaska) Inc. for S. E. Hollingworth, 1889-1966, who was professor of geology at University College, London University.

Hollis Anchorage: cove, N of Cat Island, extends W 1.4 miles, off Twelvemile Arm Kasaan Bay, near center of Prince of Wales Island, Alexander Archipelago; 55° 28' 30" N, 132° 38' 15" W; (map 4). Local name reported in 1904 by H. C. Fassett, USBF.

Hollis: village, on Hollis Anchorage, N of Cat Island, near center of Prince of Wales Island, Alexander Archipelago; 55° 29' 10" N, 132° 40' 05" W; (map 4). Local name reported in 1904 by H. C. Fassett, USBF. Hollis post office was established in 1901 and discontinued in 1942 (Ricks, 1965, p. 26). The village "started as a mining community after the turn of the century but has now swung to logging. A research center is maintained here by the U.S. Forest Service" (Alaska Sportsman, 1962, no. 12, p. 28).

Hollow Bight: cove, 0.5 miles across, on NE coast of Kenai Peninsula, at SE end of Passage Canal, 6 miles NE of Whittier, Chugach Mountains; 60° 48' 20" N, 148° 29' 00" W; BGN 1915; (map 63). Local name reported in 1914 by USC&GS.

Holmes Creek: stream, flows 7 miles N from Giffin Glacier to White River, 56 miles NE of McCarthy, St. Elias Mountains; 61° 43' 30" N, 141° 20' 00" W; (map 67). Local name shown on 1908 field sheet by S. R. Capps, USGS.

Holmes Creek: stream, flows SE 3.5 miles from Holmes Pass to Clear River, 4 miles W of Whiteface Mountain and 32 miles NW of Wiseman, Brooks Range; 67° 49' 00" N, 150° 33' 00" W; BGN 1932; (map 124). Named in 1931 by Marshall (1956, p. 72), for "the great jurist, whom we both admired so much, and who was celebrating his ninetieth birthday at about that time." Marshall was referring to Justice Oliver Wendell Holmes, 1841-1935.

Holmes Glacier: glacier, see Giffin Glacier.

Holmes Gulch: ravine, trends S 1 mile to Hidden Creek, 7 miles NW of Medfra, Kilbuck-Kuskokwim Mountains; 63° 12' N, 154° 48' W; (map 89) Prospectors' name obtained in 1921 by G. C. Martin (in Brooks, 1922, fig. 5), USGS.

Holmes Pass: pass, 3,600 ft. between heads of Holmes and Pyramid Creeks, 35 miles NW of Wiseman, Brooks Range; 67° 50' 30" N, 150° 41' 00" W; (map 124). Named about 1930 by Robert Marshall for the creek which heads in the pass.

Holoatna: stream, flows N possibly to the Colville River; possibly it is the Colville itself, Brooks Range. Koyukan Indian name obtained in 1885 by Lt. Allen (1887, p. 98), USA. See Basnuna.

Holoatna: stream, see Kobuk River.

Holokak River: stream, see Holokok River.

Holokochakat: village, see Holikachuk.

Holokuk Mountain: mountain, 3,400 ft., in Kuskokwim Mountains, on E bank of Holokuk River, N of Chineekluk Creek, 41 miles SW of Sleetmute and 44 miles SE of Aniak, Kilbuck-Kuskokwim Mountains; 61° 23' N, 158° 13' W, BGN 1948; (map 72). Variant: Oolokok Mountain. Eskimo name reported in 1945 by USGS. See Holokuk River.

Holokuk River: stream, flows NE and NW 45 miles to Kuskokwim River 31 miles E of Aniak, Kilbuck-Kuskokwim Mountains; 61° 32' 15" N, 153° 35' 35" W; BGN 1948; (map 72). Variant: Holokak River, Olokak River, Oolokok River, Ulokak River, Wloyukuk River. Eskimo name derived from the word, variously "olo," "ulo" or "ulu," meaning "stone knife," obtained in 1898 from trader, A. Lind and spelled "Wloyukuk" by J. E. Spurr and W. S. Post, USGS. Shown as "O-loo-kok" on a 1902 prospectors' map. The present spelling, locally used, was reported in 1945 by USGS. See Ulokak, locality.

Holonada Creek: stream, heads in Ray Mountains flows NE 30 miles to Kanuti Kilolitna Creek 5 miles S of its junction with Kanuti River, 34 miles SE of Allakaket, Kanuti Flats; 66° 08' N, 152° 02' W; (map 117). Koyukan Indian name obtained in 1956 at Allakaket by Orth.

Holooatna: stream, see Kobuk River.

Holostiak-ralog: valley, at W end of North Rookery, on N coast of Saint George Island, in Pribilof Islands; 56° 36' 05" N, 169° 35' 00" W (map 38). Russian-Aleut name reported by Putnam (1903, p. 1014), USC&GS, to mean "holostiak [bachelor seal] rookery," because, according to native tradition, the area was formerly occupied only by bachelor seals.

Holostiak-ralom-kiya' : ridge, at W end of North Rookery, on N coast of Saint George island; in Pribilof Islands; 56° 36' 00" N, 169° 35' 30" W; (map 38). A Russian-Aleut name listed by Putnam (1903, p. 1014), USC&GS, meaning "ridge where holostiaks [bachelor seals] are taken.

Holtilyet Slough: stream, anabranch of Yukon River, flows NW 5.7 miles to Yukon River, 12 miles NE of Nulato, Koyukuk Lowland; 64° 51' N, 157° 51' W; (map 97). Koyukan Indian name reported in 1954 by USGS.

Holtnakatna Creek: stream, flows N 34 miles to Dulbi River, 15 miles S of Roundabout Mountain, Koyukuk Lowland; 65° 20' N, 156° 30' W; (map 108). Koyukan Indian name reported in 1955 by USGS.

Holtz Bay: bay, 2 miles across, formed by its East and West Arms on N coast of Attu Island, Aleutian Islands; 52° 56' 30" N, 173° 10' 45" E; BGN 1944; (map 13). Variant: Bukhta Goltsovaya, Goltsovaia Bay, Goltzeb Bay, Goltzef Bay, Gotzeb Bay. This bay was called "Goltsovaia Bay" by Capt. Lutke (1836, p. 329), IRN, possibly from the German word "holtz" meaning "wood." The Russians called it "Bukhta Goltsovaya" (Tebenkov, 1852, map 30).

Holtz Creek: stream, formed by junction of Circle and Spruce Creeks, flows NE 10 miles to Kugruk River, 21 miles NE of Imuruk Lake, Seward Peninsula Highlands; 65° 40' N, 162° 28' W; (map 110). Prospectors' name reported in 1903 by D. C. Witherspoon (in Moffit, 1905, pl. 2), USGS.

Holtz Sarana Pass: pass, between Newman Peak and Prendergast Ridge, on eastern Attu Islands, Aleutian Islands; 52° 54' 15" N, 173° 11' 30" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II; shown on an AMS map published in 1948.

Holy Cross Hills: hills, 896 ft., extend SW 17 miles from Holy Cross, N of Crooked Lake, Nulato Hills; 62° 09' N, 160° 00' W; (map 78). Local name reported in 1916 by G. L. Harrington and R. H. Sargent (in Harrington, 1918, pl. 1), USGS.

Holy Cross Hills: mountains, see Ilivit Mountains.

Holy Cross: village, pop. 256, on W bank of Walker Slough, off Yukon River, 34 miles SE of Anvik, Innoko Lowland; 62° 12' N, 159° 46' W; BGN 1944; (map 78). Variant: Anilukhlukh-kat, Anilukhtak-kak, Anilukhtapak Askhomute, Koserefski, Kozerevsky, Nelson Askhomut, Ingrichagamut. Lt. L. A. Zagoskin, IRN, in 1842-44 showed a native village here called "Anilukhtapak" and "Anilukhtak-kak." Ivan Petroff in the 10th Census in 1880 lists a village called "Askhomute" and "Nelson Askhomut". A Jesuit mission and school were established here in 1886; a post office was established in 1899 under the name "Koserefski" derived from the Russian name of the old village across the river. The post office name was changed in 1912 to "Holy Cross," after the mission. In 1880 the village population was 30 Eskimo; in 1890, with the influence of the mission, the number was 131, almost all Ingalik Indians; in 1930 its population was 337.

Holy Moses Creek: stream, flows NE 1.5 miles to Big Lake, 1.5 miles SE of village of Big Lake and 24 miles W of Chandalar, Brooks Range; 67° 29' 30" N, 149° 24' 15" W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Holyoke Creek: stream, flows 0.8 miles to Bourbon Creek, 2 miles N of Nome, Seward Peninsula Highlands; 64° 31' 40" N, 165° 22' 20" W; (map 94). Prospectors' name reported on the 1903 Campion Mining and Trading Co. map by George M. Ashford.

Holyoke Creek: stream, flows NE 4.5 miles to Niukluk River, 32 miles NE of Solomon, Seward Peninsula Highlands; 64° 54' N, 163° 43' W; (map 95). Variant: Beattle Creek. This may be the stream shown as "Beattle" on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Holyoke Glacier: glacier, trends SE 1.5 miles, on W bank of College Fiord, 6.8 miles SW of College Point and 65 miles E of Anchorage, Chugach Mountains; 61° 09' 30" N, 147° 56' 00" W; BGN 1910; (map 69). Named by U.S. Grant and D. F. Higgins, USGS, in 1908. Named for Mount Holyoke College, South Hadley, Mass.

Holyoke Gulch: ravine, trends S 1 mile to Bourbon Creek which flows to Snake River, 2 miles NNE of Nome, Seward Peninsula Highlands; 64° 31' 30" N, 165° 22' 30" W; (map 94). Prospectors' name shown on the 1904 "Map of Cape Nome Precinct" by Arthur Gibson. This feature cannot be precisely identified on current maps.

Home Cove: cove, 0.7 miles wide, on NW coast of Nuka Island, 36 miles ESE of Seldovia, Chugach Mountains; 59° 23' 30" N, 150° 42' 15" W; (map 50). Local name reported by USC&GS in 1939 on Chart 8530.

Home Creek: stream, flows N 1.2 miles to West Fork Kuyukutuk River 12.8 miles E of Marshall, Nulato Hills; 61° 52' 00" N, 161° 41' 30" W; (map 73) Prospectors' name reported in 1916 by Harrington (1918, map), USGS.

Home Creek: stream, heads 3 miles SE of Fairview Mountains, flows SE 16 miles to Lake Creek, 34 miles SW of Talkeetna, Alaska Range; 62° 15' 10" N, 161° 09' 30" W; (map 81). Local name reported in 1958 by USGS.

Home Creek: stream, on S side of Alaska Peninsula, flows SW 2 miles to lower Yantarni Creek, 7.5 miles N of Cape Kunmik, Aleutian Range; 56° 52' N, 157° 10' W; (map 31). Local name reported in 1951 by USGS.

Home Lake: lake, 1.2 miles long, S of and draining into Tokositna River, 26 miles NW of Talkeetna, Alaska, Range; 62° 37' 15" N, 150° 37' 00" W; (map 81). Local name reported in 1906 by R. W. Porter, USGS.

Home Stream: stream, see Akalura Creek.

Homebrew Island: island, 1.2 miles long, in Porcupine River, 2 miles N of Fort Yukon, Yukon Flats; 66° 36' N, 145° 16' W; (map 119). Local descriptive name obtained in 1956 by USGS.

Homer Creek: stream, flows NW 8 miles to Chena River, 22 miles E of Fairbanks, Yukon-Tanana Highlands; 64° 50' 15" N, 146° 56' 00" W; (map 101). Local name reported in 1950 by USGS.

Homer Hot Springs: locality, on right bank of Hot Springs Slough, 23 miles NE of Ruby, Kokrines-Hodzana Highlands; 64° 54' 55" N, 154° 49' 30" W; (map 98). "Homer Hot Springs, although only three quarters of a mile from the Yukon River, appear to have been unknown to the whites until about 1913, when they were shown by an Indian to F. G. Homer, who has built a cabin and planted a small garden near them" (Waring, 1917, p. 68).

Homer Spit: spit, 0.3 miles wide, extends SE 4 miles from Homer into Kachemak Bay, on Kenai Peninsula Cook Inlet Lowland; 59° 37' N, 151° 27' W; (map 50). Named by R. W. Stone, USGS, in 1904, for the village of Homer which was formerly located on the spit.

Homer: town, pop. 1,247, on Kenai Peninsula, on N shore of Kachemak Bay, 16 miles NE of Seldovia, Cook Inlet Lowland; 59° 38' 40" N, 151° 33' 00" W; (map 50). This town appears to have been established on or near Homer Spit in November 1895. Both the town and spit were named for Homer Pennock, a prospector who worked in the Cook Inlet area. A post office was established in the town in 1896.

Homesite Park: suburb, S of Glenn Highway, E of Anchorage, Cook Inlet Lowland; 61° 13' 12" N, 149° 43' 50" W; BGN 1954; (map 69). A subdivision beyond the corporate limits of Anchorage; named by Manvil H. Olson in 1953 because "the original block of land has been divided into smaller tracts which have become homesites."

Homestake Creek: stream, flows NE 2.2 miles to Kougarok River, 9 miles SW of Midnight Mountain and 47 miles NW of Imurok Lake, Seward Peninsula Highlands; 65° 41' N, 164° 48' W; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Homestake Creek: stream, flows NE 3 miles to Totatlanika River, 42 miles SE of Nenana, Alaska Range; 64° 01' N, 148° 32' W; (map 100). Prospectors' name reported in 1906 by L. M. Prindle (in Brooks and others, 1907, pl. 4), USGS.

Homestake Creek: stream, flows NE 4 miles to Agiapuk River, 18 miles NE of Teller, Seward Peninsula Highlands; 65° 28' N, 165° 58' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Homestake Creek: stream, flows NW 1.8 miles to Willow Creek, 14 miles NW of Palmer, Talkeetna Mountains; 61° 45' 45" N, 149° 24' 05" W; (map 69). Local name reported in 1913 by USGS (Brooks and others, 1914, fig. 2).

Homestake Creek: stream, flows SE 4.5 miles to Pilgrim River, 29 miles NW of Solomon, Seward Peninsula Highlands; 64° 58' N, 164° 41' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Homestake Creek: stream, flows SW 5 miles to join Granite Creek to form Willow Creek, 32 miles SE of Flat, Kilbuck-Kuskokwim Mountains; 62° 21' N, 157° 02' W; (map 79). Prospectors' name obtained in 1952 by USGS topographers.

Homestake Creek: stream, flows W 3.5 miles to Charity Creek, 68 miles SW of Circle, Yukon-Tanana Highlands; 65° 24' 45" N, 146° 15' 00" W; (map 104). Miners' name reported in 1903 by USGS and given to the creek which flows to the headwaters of Faith Creek (Prindle, 1905, pl. 13). Subsequently, the name "Charity Creek" has been reapplied through local usage to the former lower course of the stream.

Homestake Creek: stream, in Rampart Mountains, flows NE 3 miles to Morelock Creek 4 miles of that stream's junction with Yukon River, 24 miles ENE of Tanana, Kokrines-Hodzana Highlands; 65° 19' 30" N, 151° 21' 00" W; (map 106). Prospectors' name reported in 1911 by H. M. Eakin (in Brooks and others, 1912, pl. 13), USGS.

Homestake Gulch: ravine, trends SE 1 mile to Casadepaga River, 0.3 miles E of Casadepaga and 18 miles N of Solomon, Seward Peninsula Highlands; 64° 48' N, 164° 21' W; (map 95). Prospectors' name reported in 1907 by USGS geologists (Smith, P. S., 1910, pl. 4).

Homey Island: island, see Morne Island.

Honda, Cala: locality, "on the south shore of Disenchantment Bay, Yakutat Bay." Spanish name or term published on a 1791 map by Capt. Alessandro Malaspina. See Wagner (1937, p. 462).

Honey Creek: stream, flows W 2.7 miles to Penny River, 11 miles NW of Nome, Seward Peninsula Highlands; 64° 37' N, 165° 39' W; (map 94). Prospectors' name reported in 1899 by D. C. Witherspoon (in Schrader and Brooks, 1900, map 2), USGS.

Honeybee Lake: lake, 2,600 ft. across, 2 miles SW of Willow and 34 miles N of Anchorage, Cook Inlet Lowland; 61° 42' 45" N, 150° 03' 10" W; (map 70) Local name reported in 1958 by USGS.

Honeymoon Creek: stream, heads on Shannon Hill, in Indian Mountains, flows N and W 5 miles to Koyukuk River, 27 miles NE of Hughes, Kokrines-Hodzana Highlands; 66° 21' N, 153° 39' W; (map 116) Local name recorded at Hughes in 1956 by Orth. Named for Honeymoon Riffle in the Koyukuk River.

Honeymoon Riffle: rapids, on Koyukuk River, near mouth of Honeymoon Creek 27 miles NE of Hughes; 66° 21' N, 153° 39' W; (map 116). Name published in 1920 by Archdeacon Hudson Stuck.

Honeymoon Slough: watercourse, 9.8 miles long, channel of Yukon River, E and S of Bullfrog Island, 45 miles SE of Unalakleet, Innoko Lowland; 63° 41' N, 159° 22' W; (map 91). Variant: Cunningham Slough, Ohlson Slough. Local name reported in 1949 by USC&GS. The variant names are found on a 1940 "Navigation Chart of the Tanana-Yukon Rivers."

Hongkong Bend: bend, of Kasilof River, on Kenai Peninsula 19 miles S of Kenai, Cook Inlet Lowland; 60° 17' 15" N, 151° 13' 00" W; (map 62). Local name reported in 1904 by Moffit (1906, pl. 2), USGS.

Honhosa River: stream, flows NE 43 miles to Kateel River, 35 miles SW of Roundabout Mountain, Nulato Hills; 65° 28' N, 157° 45' W; (map 108). Koyukan Indian name published in 1959 by USGS.

Honker Creek: stream, on Hinchinbrook Island, flows NE 5.5 miles to Fish Bay, 22 miles SW of Cordova, Chugach Mountains; 60° 27' N, 146° 22' W; (map 64). Name published in 1950 by USGS.

Honolulu Creek: stream, flows SW 20 miles to Chulitna River, 60 miles SW of Healy, Talkeetna Mountains; 63° 03' 15" N, 149° 35' 30" W; (map 87) Prospectors' name obtained in 1913 by J. W. Bagley, USGS; published by S. R. Capps (in Martin and others, 1919, pl. 5), USGS.

Honolulu Pass: pass, 3,150 ft., trends NE-SW 1 mile, 30 miles W of Deadman Mountain, 57 miles SW of Healy, Talkeetna Mountains; 63° 03' 30" N, 149° 11' 45" W; (map 87). Local name reported in 1913 by J. W. Bagley, USGS.

Honolulu: locality, mile 288.7 on The Alaska Railroad, 12 miles W of Honolulu Pass and 60 miles SW of Healy, Talkeetna Mountains; 63° 03' 40" N, 149° 34' 30" W; (map 87). Variant: Honolulu Creek. Name of a railroad station reported by The Alaska Railroad on its 1922 timetable.

Honolulu Creek: locality, see Honolulu.

Hoochinoo Inlet: water passage, see Kootznahoo Inlet.

Hoochinoo: islands, see Kootzanahoo Archipelago.

Hood Bay: bay, 2 miles across, 4 miles S of Angoon, on W coast of Admiralty Island, Alexander Archipelago; 57° 26' N, 134° 33' W; BGN 1899; (map 9). Variant: Hoods Bay,

Hootz Bay. Named "Hoods Bay" in 1794 by Capt. George Vancouver, RN, probably for the English Admiral and First Viscount, Samuel Hood, 1724-1816 (Wagner 1937, p. 392). Admiral Hood was second in command of Lord Rodney's North American Fleet during the Revolutionary War. There has been some confusion of the names since Capt. Vancouver's Hoods Bay apparently does not correspond to the description given by Lt. Joseph Whidbey of Capt. Vancouver's party who visited the locality (U.S. Coast and Geodetic Survey, 1883, p. 175). The bay was called "Hootz Bay" by USC&GS on Chart 8050 in 1899. This name was probably derived from the Tlingit Indian word "Khuts" or "huts" meaning "bear."

Hood Bay: locality, on N shore of Hood Bay, on W coast of Admiralty Island, 10 miles SE of Angoon, Alexander Archipelago; 57° 23' N, 134° 24' W; (map 9). Variant: Barge. A post office of this name was established here in 1948. In 1950 the name was changed to "Barge," and in 1952 the Hood Bay Post Office was reestablished. The post office was finally discontinued in 1957 (Ricks, 1965, p. 27). The population was 50 in 1929, but in 1966 it was reported to have been abandoned.

Hood Canal: canal, 0.4 miles long, connects Lake Spenard and Hood Lake, 3.9 miles SW of Anchorage, Cook Inlet Lowland; 61° 10' 50" N, 149° 58' 00" W; (map 68). Local name reported in 1962 by USGS.

Hood Creek: stream, heads in Hood Lake, flows NE 1.2 miles to Knik Arm, 2.3 miles SW of Anchorage, Cook Inlet Lowland; 61° 12' 06" N, 149° 57' 05" W; (map 69). Local name reported in 1962 by USGS.

Hood Hill: hill, 330 ft., between Sargeant Cove and Andy Cove, Kiska Island, Aleutian Islands; 51° 55' 56" N, 177° 34' 25" E; (map 14). An arbitrary name beginning with "H" to correspond to "H" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Hood Lake: lake, 0.6 miles long, at head of Hood Creek, 3.4 miles SW of Anchorage, Cook Inlet Lowland; 61° 10' 58" N, 149° 58' 15" W; (map 69). Local name reported in 1922 by USGS.

Hood Point: point of land, S tip of Lindenberg Peninsula, Kupreanof Island, 14 miles S of Petersburg, Alexander Archipelago; 56° 36' 20" N, 133° 01' 20" W; (map 6). Named on August 29, 1793, by Capt. George Vancouver, RN, for Adm. Samuel Hood, 1724-1816, RN.

Hoodlum Creek: stream, flows SW 4.8 miles to Cripple River, 26 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 56' N, 163° 42' W; (map 110). Prospectors' name reported in 1901 by USGS (Collier, 1902, pl. 12).

Hoodoo Gulch: ravine, trends NW Island 1 mile to Nome River, 17 miles NE of Nome, Seward Peninsula Highlands; 64° 44' 10" N, 165° 14' 20" W; (map 94) Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Hoodoo Hill: hill, 1,536 ft., 3 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 36' N, 163° 25' W; BGN 1952; (map 110). Reported in 1950 by D. M. Hopkins, USGS; so named because the "summit of the hill is littered with 5 to 20 foot boulders or 'hoodoos.'" "

Hoodoo Island: island, see Evans Island.

Hoodoo Lake: lake, 4 miles long, between Pavlof and Herendeen Bays, Aleutian Range; 55° 41' N, 161° 03' W; (map 28). Variant: Hoo Doo Lake. Named "Hoo Doo Lake" in 1929 by USGS.

Hoodoo Lake: lake, see Sapsuk Lake.

Hoodoo Mountain: mountain, 3,200 ft., between Pavlof and Herendeen Bays, 3 miles SE of Hoodoo Lake, Aleutian Range; 55° 38' 30" N, 161° 00' 00" W; (map 28). Variant: Hoo Doo Mountain. Named "Hoo Doo Mountain" in 1929 by USGS.

Hoodoos, The: promontory, 4,600 ft., S of College Glacier terminus, 13 miles NNE of Paxson, Alaska Range; 63° 13' 30" N, 145° 26' 40" W; (map 86). Named about 1950 by T. L. Pewe, USGS.

Hoods Bay: bay, see Hood Bay.

Hoof Point: point of land, on SE tip of Ragged Island, 50 miles E of Seldovia, Chugach Mountains; 59° 25' N, 150° 18' W; (map 50). Local name reported by USC&GS in 1939 on Chart 8530.

Hook Arm: estuary, extends W 3.8 miles to Sea Otter Harbor, on W coast of Dall Island, Alexander Archipelago; 55° 06' 45" N, 133° 11' 00" W; (map 4). Named in 1927 by Capt. Patton, USC&GS, "because of the hook-like shape of this arm."

Hook Bay: bay, 1 mile across, in N part of Bechevin Bay, 28 miles SW of village of Cold Bay, at SW end of Alaska Peninsula, Bristol Bay Lowland; 55° 04' N, 163° 24' W; (map 29). Name published by USC&GS in 1963 on Chart 8701.

Hook Bay: bay, 2 miles wide, on S coast of Alaska Peninsula, trends SE 2 miles to Chignik Bay, 19 miles NE of Chignik, Aleutian Range; 56° 30' N, 158° 06' W; (map 30). Descriptive local name reported in 1904 by R. W. Stone; applied because of the hook-shaped spit on the south side.

Hook Creek: stream, heads at E terminus of Hook Glacier, flows SE 7.5 miles to Hallo Bay, on S coast of Alaska Peninsula, in Katmai National Monument, 36 miles NE of Mount Katmai, Aleutian Range; 58° 28' 25" N, 154° 04' 45" W; (map 42). Named for Hook Glacier; reported in 1951 by USGS.

Hook Glacier: glacier, heads on ridge between Devils Desk and Mount Denison, trends NW 7.5 miles to its 1951 central terminus at head of Savonoski River, on Alaska Peninsula, in Katmai National Monument, 25 miles NE of Mount Katmai, Aleutian Range; 58° 31' 45" N, 154° 28' 45" W; BGN 1925; (map 42). So named in 1923 by R. H. Sargent, USGS, for "the hook-shaped ice-free area between the glacier arms."

Hook Lake: lake, 0.2 miles across, E central Heceta Island, Alexander Archipelago; 55° 46' 30" N, 133° 25' 15" W; (map 4) Local name recorded in 1951 by USGS.

Hook Lake: lake, 0.9 miles long, on Kenai Peninsula, 1 mile NW of McLain Lake and 32 miles NE of Kenai, Cook Inlet Lowland; 60° 52' 45" N, 150° 37' 15" W; (map 62). Named about 1963 by officials of Kenai National Moose Range for administrative purposes.

Hook Lake: lake, oxbow of Nixon Fork, 30 miles W of Medfra, Kilbuck-Kuskokwim Mountains; 63° 07' N, 155° 40' W; (map 89). Local name reported in 1955 by USGS.

Hook Point: point of land, between Dry Cove and Portage Bay, on N coast of Kupreanof Island, 18 miles NW of Petersburg, Alexander Archipelago; 56° 59' 00" N, 133° 19' 15" W; (map 6). Descriptive name given in 1882 by Lt. Comdr. H. E. Nichols, USN, "because of its shape."

Hook Point: point of land, in Lake Nicholas, W of Sarana Bay, on eastern Attu Island, Aleutian Islands; 52° 52' 45" N, 173° 15' 00" E; (map 13). Named by the U.S. Army during World War II; shown on an AMS map published in 1948.

Hook Point: point of land, on E coast of Hinchinbrook island; 23 miles SW of Cordova, Chugach Mountains; 60° 20' N, 146° 15' W; (map 64). Name published in 1909 by USC&GS.

Hook Point: point of land, on N shore of Spiridon Bay, on NW coast of Kodiak island; 57° 41' 15" N, 153° 46' 30" W; (map 34). Local name reported in 1954 by USGS.

Hook Point: point of land, on SW coast of Adak Island, Aleutian Islands; 51° 39' 30" N, 176° 58' 30" W; BGN 1936; (map 17). Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934, "because it is shaped like a hook."

Hoolahoola River: river, see Hulahula River.

Hooligan Point: point of land, southernmost tip of Limb Island in Stikine River, 12 miles NE of Wrangell and 26 miles SE of Petersburg, Coast Mountains; 56° 38' 30" N, 132° 19' 30" W; BGN 1966; (map 6). Variant: Euchalon Point. Local name reported in 1961 by USFS; Tlingit Indian name "Euchalon" recorded in 1948 for this point by USGS.

Hooligan Slough: channel, extends 2.5 miles from Farm Island to Limb Island in Stikine River, 26 miles SE of Petersburg, Coast Mountains; 56° 38' 25" N, 132° 19' 45" W; BGN 1966; (map 6). Variant: Euchalon Slough. Local name reported in 1961 by USFS; Tlingit Indian name "Euchalon" recorded in 1948 for this feature by USGS.

Hoolitna: stream, see Holitna River.

Hoonah Bluff: promontory, at N entrance to Hoonah Harbor on N end of Chichagof Island, 0.5 miles N of Hoonah, Alexander Archipelago; 58° 07' 30" N, 135° 27' 45" W; (map 11). Named in 1901 by E. F. Dickins, USC&GS, for the village of Hooniah, now spelled Hoonah. The name was published in the 1901 Coast Pilot (p. 208).

Hoonah Glacier: glacier, in Glacier Bay National Monument, trends NW 6.5 miles to Johns Hopkins Inlet, 1.6 miles NE of the 1961 terminus of Gilman Glacier and 78 miles NW of Hoonah, St. Elias Mountains; 58° 52' 30" N, 137° 02' 15" W; BGN 1937; (map 10). Indian name reported by the American Geographical Society in 1936. This glacier was named for

the Huna (Hoonah) subdivision of the Tlingit Indians, who were located in the Cross Sound area.

Hoonah Harbor: harbor, 0.4 miles across, at Hoonah, in Port Frederick, 40 miles SW of Juneau, Alexander Archipelago; 58° 07' 00" N, 135° 27' 45" W; BGN 1931; (map 11). Variant: Hooniah Harbor, Hoonyah Harbor, Port Frederick Harbor. Named for the Huna tribe of Tlingit Indians; published by USC&GS as Hooniah Harbor in 1883 Coast Pilot (p. 191). Called Port Frederick Harbor in 1880 in U.S. Hydros. Office Notice, No. 97.

Hoonah Hot Springs: village, see Tenakee Springs.

Hoonah Island: island, 0.5 miles across, off N coast of Chicagof Island, in Icy Strait, 5.6 miles NW of Hoonah, Alexander Archipelago; 58° 11' 15" N, 135° 29' 30" W; BGN 1931. Named Hooniah Island by E. F. Dickins, USC&GS, in 1901 for the village of Hooniah, now spelled Hoonah. The name was published in the 1901 Coast Pilot (p. 202).

Hoonah Island: island, see Chichagof Island.

Hoonah Point: point of land, on N coast of Chichagof Island, near mouth of Port Frederick, 1.2 miles NW of Hoonah, Alexander Archipelago; 58° 07' 30" N, 135° 27' 45" W; BGN 1931; (map 11). Variant: Hooniah Point, Entrance Point. Named Hooniah Point by E. F. Dickins, USC&GS, in 1901 for the village of Hooniah, now spelled Hoonah. The name was published by the USC&GS in the 1901 Coast Pilot (p. 208). Originally named Entrance Point by Lt. F. M. Symonds, USN, in 1880 and published by the USC&GS in the 1883 Coast Pilot (p. 191).

Hoonah Sound: water passage, 5 miles across, on S coast of Chichagof Island, 20 miles E of Chichagof, Alexander Archipelago; 57° 38' N, 135° 33' W; BGN 1931; (map 9). Variant: Hooniah Sound, Shekak Sound. Name derived from the Huna, a subtribe of the Tlingit Indians. The name was published as "Hooniah" or "Hoonah Sound" by USC&GS in the 1883 Coast Pilot (p. 164). It is reported that the Sitka Indians call it "Shekak."

Hoonah Town: village, see Hoonah.

Hoonah: village, pop. 686, on E shore of Port Frederick, 2.5 miles S of Point Sophia, on Icy Strait, 40 miles SW of Juneau, Alexander Archipelago; 58° 06' 30" N, 135° 26' 30" W; BGN 1931; (map 11). Variant: Belltown, Gaot-a-kan, Gaud-ah-kan, Gaudekan, Hoonah Town, Hooniah, Hoonyah, Huna, Kantukan, Koudekan. This is the principal Huna village. The Huna (Hoonah), a Tlingit tribe in the Cross Sound area, camp in the summer from here northward to Lituya Bay. This village was called "Gaudekan [Kantukan]", meaning "bell town." Its population was 800 in 1880, 447 in 1900, 462 in 1910, 402 in 1920, 514 in 1930, 716 in 1939, and 563 in 1950. The Hoonah post office was established in 1901 and thus was responsible for giving the village its present name.

Hooniah Harbor: harbor, see Hoonah Harbor.

Hooniah Hot Springs: springs, see White Sulphur Springs.

Hooniah Point: point of land, see Hoonah Point.

Hooniah Sound Hot Springs: springs, see White Sulphur Springs.

Hooniah Sound: water passage, see Hoonah Sound.

Hooniah Warm Springs: springs, see White Sulphur Springs.

Hooniah: village, see Hoonah.

Hooniah: village, see Tenakee Springs.

Hoonyah Harbor: harbor, see Hoonah Harbor.

Hoonyah: village, see Hoonah.

Hooper Bay: bay, 11 miles across, on coast of Bering Sea, 22 miles S of village of Scammon Bay, Yukon-Kuskokwim Delta; 61° 27' N, 166° 00' W; (map 75). Variant: Kanirthluk Bay. Named by Nelson (1882, p. 666), US Signal Service, in December 1878, for Capt. Calvin Leighton Hooper, USRCS, who did extensive investigations in the Bering Sea and Arctic Ocean. The Eskimo name for this bay is "Kan-ir-thluk" according to USC&GS in 1951.

Hooper Bay: village, pop. 460, on Hooper Bay, 20 miles S of Cape Romanzof, Yukon-Kuskokwim Delta; 61° 31' 55" N, 166° 05' 30" W; (map 75). Variant: Askinak, Askinuk, Askinaghmiut, Naparagamiut, Askeenac. The Eskimo name for this old village is "Askinuk," first reported by E. W. Nelson, U.S. Signal Service, in December 1878 as Askeenac. The 1880 census shows "Askinak" with 175 Eskimo and the 1890 Census shows "Askinaghmiut," numbering 138, living in 14 dwellings. A post office was established here with the name "Hooper Bay," in 1934 (Ricks, 1965, p. 27). USC&GS, in 1951, reported the present-day Eskimo name "Na-par-ag-a-miut," (stake village people) for Hooper Bay.

Hooper Mountains: mountains, along Arctic Ocean coast between Cape Lisburne and Barrow. These non-existent mountains or hills were so named in 1880 by Ivan Petroff after Capt. C. L. Hooper, USRCS. Petroff may have been referring to the Brooks Range.

Hoorts, Mount: mountain, 2,088 ft., 1.5 miles NE of Knight Island, 16 miles NNE of Yakutat, St. Elias Mountains; 59° 45' 05" N, 139° 31' 45" W; (map 46). Named by J. E. McGrath, USC&GS, and published in USC&GS Ann. Rept. of 1893.

Hoosier Creek: stream, flows NW 8.5 miles to Minook Creek, between California and McDonald Bars, 4 miles SE of Rampart, Yukon-Tanana Highlands; 65° 27' N, 150° 07' W; (map 106). Prospectors' name published in 1898 by USC&GS on Chart 3098.

Hoosier Hill: hill, 305 ft., W of Sargeant Cove, Kiska Island, Aleutian Islands; 51° 55' 40" N, 177° 32' 35" E; (map 14). An arbitrary name beginning with "H" to correspond to "H" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Hoosnoff Inlet: water passage, see Kootznahoo Inlet.

Hoosnoff: islands, see Kootznahoo Archipelago.

Hoot Island: island, 1 mile across, in Sea Otter Sound, S of Orr Island, Alexander Archipelago; 55° 53' N, 133° 23' W; (map 4). Named in 1904 by E. F. Dickins, USC&GS, for the "Name of signal [triangulation station] Hoot."

Hootana: village, see Tolovana.

Hootlanana: stream, see Hutlinana Creek.

Hootlinana Creek: stream, see Hutlinana Creek.

Hootz Bay: bay, see Hood Bay.

Hope City: village, see Hope.

Hope Creek: stream, flows E 7 miles, joins Charity Creek to form Faith Creek, 70 miles SW of Circle, Yukon-Tanana Highlands; 65° 23' 45" N, 146° 16' 00" W; (map 104). Variant: Charity Creek. This stream was originally called Charity Creek by prospectors according to T. C. Gerdine, USGS, in 1903, (in Prindle, 1905, pl. 13). The present name has come into use and is published on recent USGS maps.

Hope Creek: stream, flows SE 3 miles to Faith Creek, 75 miles SW of Circle, Yukon-Tanana Highlands; 65° 19' N, 146° 21' W; (map 104). Named by prospectors; reported in 1903 by T. G. Gerdine (in Prindle, 1905, pl. 13), USGS. Subsequently, the name has been applied through local usage to a stream at the headwaters of Faith Creek.

Hope Creek: stream, heads on N slope of Kulthieth Mountain, flows generally SW 7 miles to Kaliakh River, 9 miles from Gulf of Alaska and 100 miles SE of Cordova, St. Elias Mountains; 60° 09' N, 142° 47' W; BGN 1960; (map 65). Local name shown in an unpublished report by G. D. Hanna and others in 1938. Name first used by Melvin Grindle, local trapper, who, it is said, had the vain "hope" of crossing the stream without getting his feet wet.

Hope, Point: point of land, NW tip of an island, 2.3 miles WNW of Chichagof, off W coast of Chichagof Island, Alexander Archipelago; 57° 40' 15" N, 136° 09' 28" W; (map 9). Name published in 1928 by USC&GS on Chart 8258.

Hope, Point: point of land, on Chukchi Sea coast, 40 miles SW of Cape Lisburne, Arctic Slope; 68° 20' 20" N, 166° 50' 40" W; (map 129). Variant: Figarok, Hoffnung, Hope Point, Mys Golofnin, Mys Golovin, Mys Golovnia, Tee-kee-voga, Tiekaga, Tigara, Tigarak, Tigera, Tikarakh, Tikeh, Tikek, Tikera, Tikerak, Tikerana, Tikigaq, Tikira, Tikirah, Tikirak, Tikirat, Tikkerak, Tkok, Ttiekigakg, Ttikigakg. Named August 2, 1826, by Capt. Beechey (1831, p. 265), RN, who wrote, "I named it Point Hope in compliment to Sir William Johnstone Hope." According to Archdeacon Stuck (1920, p. 96) Hope was from a "well known house long connected with the sea." The Russians discovered this point of land late in the eighteenth century and called it "M[ys] Golovnia," or "Cape Golovnin." The Eskimo name is descriptive, "Tikarakh" or "Tikiqaq," commonly spelled "Tigara," meaning "forefinger".

Hope, Point: point of land, on E coast of Attu Island, 3 miles SE of Attu, Aleutian Islands; 52° 54' 50" N, 173° 18' 40" E; (map 13). Named by U.S. Army during World War II; published in 1948 by AMS.

Hope: village, pop. 44, on N end of Kenai Peninsula, near mouth of Resurrection Creek, 7 miles NW of Sunrise, Chugach Mountains; 60° 55' 15" N, 149° 38' 30" W; (map 63). Variant: Hope City. Mining camp, called "Hope City," established about 1896. The population was 44 in 1920; 15 in 1930; 71 in 1939; and 63 in 1950. The Hope post office was established in 1897 (Ricks, 1965, p. 27).

Hope: village, see Point Hope.

Hopkins Ridge: ridge, elev. 1,200 ft., on E coast of Attu Island, extends W 2 miles between Eckman Creek and Lake Nicholas, Aleutian Islands; 52° 53' 15" N, 173° 15' 20" E; (map 13). Named by U.S. Army during World War II; published in 1948 by AMS.

Hoppe Island: island, 0.1 miles long, N of Buchanan Head, on E coast of Attu Island, Aleutian Islands; 52° 51' 20" N, 173° 26' 00" E; BGN 1945; (map 13). Name used in 1942 by U.S. Army and Navy for tactical purposes.

Hopper Creek: stream, flows SE 4 miles to Little Chena River, 10 miles NE of Fairbanks, Tanana Lowland; 64° 51' 45" N, 147° 22' 50" W (map 100). Local name published in 1949 by USGS.

Hopson, Point: point of land, on Beaufort Sea coast, 2 miles W of Point Sweeney and 7 miles W of Flaxman Island, Arctic Plain; 70° 11' 25" N, 146° 30' 45" W; (map 151). Named by Leffingwell (1919, p. 96), in 1913, "After Fred Hopson, long a resident at Barrow."

Horace Mountain: mountain, 5,446 ft., N of junction of Robert and Sheep Creeks, 21 miles NW of Chandalar, Brooks Range; 67° 40' N, 149° 08' W; (map 123). Prospectors' name reported in 1899 by Schrader (1900b, pl. 60), USGS.

Horboon Rock: rock, see Humpback Rock.

Horboon Vnutrennie: rock, see Inner Humpback Rock.

Hormigas, Las: islands, see Hermagos Islands.

Horn Cliffs: cliffs, 8 miles long, on SE shore of Frederick Sound, 9 miles E of Petersburg, Coast mountains; 56° 47' 40" N, 132° 40' 00" W; (map 6). Descriptive name given for charting purposes by USC&GS in 1883 Coast Pilot (p. 127).

Horn Creek: stream, in Chigmit Mountains, flows SE 3 miles to Chinitna Bay, Aleutian Range; 59° 52' 25" N, 153° 04' 00" W; BGN 1962; (map 51). Local name derived from Horn Mountain; published in 1958 by USGS.

Horn Creek: stream, on Hinchinbrook Island, flows W 0.7 miles to Port Etches, 32 miles SW of Cordova, Chugach Mountains; 60° 20' N, 146° 34' W; (map 64). Name published in 1950 by USGS.

Horn Island: island, see Morne Island.

Horn Mountain: mountain, 2,160 ft., in Glacier Bay National Monument, on coast of Gulf of Alaska, 50 miles NW of Hoonah, St. Elias mountains; 58° 18' N, 136° 46' W; (map 10). Descriptive name published in 1943 by USC&GS.

Horn Mountain: mountain, 2,283 ft., at SE end of Knight Island, 13 miles SE of Chenega, Chugach mountains; 60° 12' 30" N, 147° 44' 10" W; (map 63). Local name published in 1913 by USC&GS.

Horn Mountain: mountain, 2,880 ft., on E shore of Frederick Sound, 2 miles E of McDonald Island and 8 miles NE of Petersburg, Coast Mountains; 56° 50' 45" N, 132° 46' 00" W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN.

Horn Mountain: peak, 2,915 ft., in Chigmit Mountains, on N shore of Chinitna Bay, Aleutian Range; 59° 53' 30" N, 153° 06' 50" W; (map 51). Local name published in 1922 by USGS.

Horn Mountain: peak, 5,010 ft., N of Macomb Plateau, 42 miles SE of Delta Junction, Alaska Range; 63° 38' 10" N, 144° 44' 00" W; BGN 1937; (map 86). So named by USGS in 1936 "because of its shape, like a matterhorn."

Horn Mountains: mountains, 3,600 ft., in Kuskokwim Mountains, 32 miles NE of Aniak, Kilbuck-Kuskokwim Mountains; 61° 45' N, 158° 31' W; BGN 1945; (map 72). Variant: Chugowonu Kchugoveet. This is a translation of the Eskimo name "Chugowonu Kchugoveet," which refers to the resemblance of the peaks to horns; reported in 1944 by USGS.

Horn Mountains: mountains, 6,000 ft., extend SW 20 miles from Little Nelchina River to Caribou Creek, 10 miles N of Tahnetna Pass; Talkeetna Mountains; 62° 00' N, 147° 25' W; (map 82). Local name recorded in 1949 by USGS.

Horn Peaks, The: peaks, on a ridge, extend W into Hades Highway 4.5 miles S of Devils Paw, 33 miles NE of Juneau, Coast Mountains; 58° 40' 15" N, 133° 52' 30" W; (map 12). Local name reported in 1960 by USGS.

Horn Point: point of land, on NE coast of Goat Island, 2 miles NW of Hydaburg, Alexander Archipelago; 55° 13' 25" N, 132° 52' 15" W; (map 4). Local name published in 1965 by USC&GS.

Horn Spire: peak, 6,700 ft., in Icefall Spires, 4 miles W of The Tusk and 31 miles N of Juneau, Coast Mountains; 58° 42' 56" N, 134° 36' 50" W; BGN 1965; (map 11). Descriptive name given in 1965 by members of the Juneau Icefield Research Project.

Horn, Cape: point of land, on E bank of Kvichak River, on Alaska Peninsula, 19 miles NE of Naknek, Bristol Bay Lowland; 58° 59' 40" N, 156° 52' 30" W; (Map 41). Local name reported in 1952 by USGS.

Horn, Cape: point of land, on W coast of Nagai Island, in Shumagin Islands, Aleutian Range; 55° 03' 30" N, 160° 09' 00" W; (map 28). Name published by USC&GS in an 1872 report.

Horn, Cape: point of land, on W coast of Nuka Island, 35 miles ESE of Seldovia, Chugach Mountains; 59° 22' N, 150° 43' W; (map 50). Local name published in 1953 by USGS.

Horn, Cape: point of land, see Ikatan Point.

Horn, Cape: promontory, 400 ft., on S side of Aniakchak River 5 miles above its mouth and 16 miles W of Cape Kunmik, on Alaska Peninsula, Aleutian Range; 56° 47' N, 157° 36' W; (map 31). Name used by trappers and reported in 1923 by R. H. Sargent, USGS, in reference to “the rough water of the Aniakchak River at this point;” shown on a 1924 USGS map.

Horn, Cape: ridge, see Horn, The.

Horn, Point: point of land, on Hinchinbrook Island, SE shore of Port Etches, 32 miles SW of Cordova, Chugach Mountains; 60° 20' N, 146° 34' W; (map 64). Variant: Horne Point, Punta de Espada. Named “Home Point” by Capt. Nathaniel Portlock (1789, map facing p. 227) for Robert Home, carpenter of his vessel King George, while exploring the region in 1787. It was called “Punta de Espada” (sword point) in 1779 by the Spanish explorers Don Juan de la Bodega y Quadra and Don Ignacia Arteaga on a unpublished manuscript chart called “Puerto de Santiago.”

Horn, The: ridge, 1,000 ft., 0.5 miles long, on SE slope of Mount Juneau, just W of Ebner Falls, 1 mile NE of Juneau, Coast Mountains; 58° 18' 40" N, 134° 23' 00" W; (map 11). Variant: Cape Horn. This ridge or promontory was originally called “Cape Horn” in the 1880's. The Name has subsequently been shortened.

Horne Point: point of land, see Horn, Point.

Hornet Creek: stream, flows W 2.5 miles to Nenana River, 2.4 miles N of village of McKinley Park, Alaska Range; 63° 46' 00" N, 148° 54' 28" W; BGN 1965; (map 87). Named in 1965 by Alaska Dept. of Highways because “hornet nests may be found along the banks.” See Iceworm Gulch.

Horoshiy Pogody, Mys: point of land, see Fairweather, Cape.

Horse Creek: stream, flows NW 3 miles to Chatanika River, 78 miles SW of Circle, Yukon-Tanana Highlands; 65° 17' N, 146° 28' W; (map 104). Named by prospectors; reported in 1908 by USGS (Covert and Ellsworth, 1909, pl. 4).

Horse Creek: stream, flows S 4 miles to Copper River, 2.6 miles E of Liberty Falls and 68 miles NE of Valdez, Copper River Basin; 61° 37' 50" N, 144° 28' 30" W; (map 68). Local name reported in 1907 by USGS.

Horse Creek: stream, flows SE 1.5 miles to Hutlinana Creek, 4 miles S of Elephant Mountain and 7 miles NE of Eureka, Tanana Lowland; 65° 12' 10" N, 149° 59' 57" W; BGN 1965; (map 105). Local name reported in 1963 by Bond Taber, USGS.

Horse Creek: stream, flows SE 5 miles to North Fork Chandalar River, 1 mile S of mouth of Goldbug Creek and 14 miles SW of Chandalar, Brooks Range; 67° 20' 40" N, 148° 50' 00"

W; (map 123). Prospectors' name obtained in 1909 by A. G. Maddren (in Brooks and others, 1910, pl. 7), USGS.

Horse Creek: stream, flows SW 5 miles to Glacier River 0.5 miles E of that stream's junction with North Fork Koyukuk River and 16.5 miles SW of Wiseman, Brooks Range; 67° 19' 45" N, 150° 41' 00" W; (map 124). Local name shown on an 1899 fieldsheet by T. G. Gerdine, USGS.

Horse Hill: peak, 2,400 ft., at W end of Yankee Ridge, 9 miles W of Alaska-Canada boundary and 59 miles E of Table Mountain, Porcupine Plateau; 68° 17' N, 141° 21' W; (map 137). Local name reported in 1956 by USGS.

Horse Island: island, 1.7 miles long, in Stephens Passage off the E coast of Mansfield Peninsula, 12 miles SW of Juneau, Alexander Archipelago; 58° 15' 15" N, 134° 43' 30" W; (map 11). Apparently named in 1890 by Lt. Comdr. H. B. Mansfield, USN, and published by USC&GS in the 1891 Coast Pilot (p. 150).

Horse Island: island, 5 miles long, between Big Bend Slough and Yukon River, 7.5 miles SW of Holy Cross, Innoko Lowland; 62° 05' N, 159° 58' W; (map 78). Local name reported in 1916 by G. L. Harrington and R. H. Sargent (in Harrington, 1918, pl. 1), USGS.

Horse Island: island, see Cheval Island.

Horse Lake: lake, 2.5 miles long, between The Forks and Pat Creek, 12 miles N of Stevens Village, Yukon Flats; 66° 11' 30" N, 149° 06' 00" W; (map 118). Local name obtained in 1956 by USGS.

Horse Marine Lagoon: lagoon, 1 mile long, at head of Moser Peninsula, E of Olga Bay, on S coast of Kodiak island; 57° 07' 10" N, 153° 58' 00" W; (map 34). Local name used by fishermen; reported in 1900 by Lt. Comdr. J. F. Moser, USN, of the USBF steamer Albatross.

Horse Marine Lake: lake, 1 mile long, at head of Moser Peninsula, between Olga and Deadman Bays, on S coast of Kodiak island; 57° 07' 20" N, 153° 55' 00" W; (map 34). Local name used by fisherman; reported in 1900 by Lt. Comdr. J. F. Moser, USN, of the USBF steamer Albatross.

Horse Marine Stream: stream, heads at Horse Marine Lake and flows W 1 mile to Horse Marine Lagoon E of Olga Bay, on S coast of Kodiak island; 57° 07' 20" N, 153° 57' 00" W; (map 34) Local name used by fishermen; reported in 1900 by Lt. Comdr. Moser, USN, of the USBF steamer Albatross.

Horse Shoal: shoal, 0.9 miles long, in Stephens Passage, 0.8 miles E of Horse Island and 11 miles SW of Juneau, Alexander Archipelago; 58° 15' 30" N, 134° 42' 15" W; (map 11). Variant: Horse Shoals. Named by Lt. Comdr. H. B. Mansfield, USN, and published by USC&GS in the 1891 Coast Pilot (p. 149-150) as Horse Shoals.

Horse Shoals: shoal, see Horse Shoal.

Horse Trail Lake: lake, 0.2 miles long, on Kenai Peninsula, between Skilak and Tustumena Lakes, 25 miles SE of Kenai, Cook Inlet Lowland; 60° 20' 20" N, 150° 42' 40" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Horsefeld: locality, on left bank of Beaver Creek, 10 miles N of Ptarmigan Lake and 70 miles NE of McCarthy, Alaska Range; 62° 00' N, 141° 09' W; (map 67). Variant: Horsfeld Roadhouse. Roadhouse and settlement reported in 1914 by C. E. Giffin (in Capps, 1916, pl. 2), USGS.

Horsefly Creek: stream, flows NW and SW 16 miles to Iditarod River, 30 miles N of Flat, Kilbuck-Kuskokwim Mountains; 62° 53' 30" N, 157° 56' 10" W; (map 79). Local name obtained in 1952 by USGS topographers.

Horsepasture Creek: stream, flows NE 6.7 miles to Conglomerate Creek 2 miles S of its junction with Little Oshetna River and 21 miles NW of Tahnetta Pass, Talkeetna Mountains; 62° 09' 50" N, 147° 46' 55" W; BGN 1960; (map 82). Named in 1956 by USGS "for the grazing area through which it flows."

Horsepasture Pass: pass, 4,200 ft., between Horsepasture Creek and Little Nelchina River, 19 miles NW of Tahnetta Pass, Talkeetna Mountains, 62° 07' 40" N, 147° 38' 00" W; BGN 1960; (map 82). Named in 1956 by USGS "because of the open grassy areas at this pass."

Horseshoe Basin: valley, 1.5 miles long, at head of North Fork Porterfield Creek, 12 miles E of Wrangell, Coast Mountains; 56° 32' 10" N, 132° 05' 30" W; (map 6). Local descriptive name obtained in 1953 by USGS.

Horseshoe Bay: cove, on E side of Latouche Passage, W coast of Latouche Island, 20 miles SE of Chenega, Chugach Mountains; 60° 01' 15 " N, 147° 56' 20" W; (map 63). Local name reported in 1907 by F. H. Moffit (in Brooks and others, 1908, p. 178), USGS.

Horseshoe Bay: locality, on W coast of Latouche Island, S. entrance to Horseshoe Bay, 20 miles SE of Chenega, Chugach Mountains; 60° 01' 10" N, 147° 56' 25" W; (map 63). Local name reported in 1908 by U. S. Grant and D. F. Higgins (in Brooks and others, 1909, p. 88), USGS. It is now abandoned.

Horseshoe Bend: bend, of Ipewik River, 4.5 miles SE of Windy Lake and 70 miles E of Point Hope, Arctic Slope; 68° 36' 30" N, 164° 12' 00" W; BGN 1965; (map 130). Descriptive name proposed in 1965 by geologists of the B.P. Exploration Co. Inc.

Horseshoe Bend: bend, of Naknek River, at Horseshoe Point, between Chimenchun and Kanaknoli Points, on Alaska Peninsula, 6 miles SE of Naknek, Bristol Bay Lowland; 58° 42' 40" N, 156° 49' 45" W; (map 41). Descriptive name given by USGS in 1962 "because of a sharp curve in the Naknek River.

Horseshoe Cove: cove, 0.7 miles across, 1.5 miles N of Pinkidulia Cove on W shore of Akumwarvik Bay and 33 miles SW of Augustine Island, Aleutian Range; 59° 06' N, 154° 10' W; (map 51). Local descriptive name reported in 1923 by K. F. Mather (in Brooks and others, 1925, pl. 3), USGS.

Horseshoe Creek: stream, flows W 0.8 miles to Garfield Creek which flows to Kuzitrin River, 3 miles S of Baldy Mountain and 38 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 30' 15" N, 164° 33' 30" W; (map 110). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Horseshoe Island: island, 1.4 miles long, between Tlevak Strait and North Pass NW of Goat Island, Alexander Archipelago; 55° 13' 00" N, 132° 56' 30" W; (map 4) Local name published in 1965 by USC&GS.

Horseshoe Island: island, 1.5 miles long, in Big John Bay, 14 miles SE of Kake, off W coast of Kupreanof Island, Alexander Archipelago; 56° 48' N, 133° 44' W; (map 6). Descriptive name given for charting purposes by USC&GS in 1932 Coast Pilot (p. 259).

Horseshoe Lake: lake, 0.2 miles long, 8 miles S of Healy, Alaska, Range; 63° 44' 30" N, 148° 54' 30" W; (map 87). Local descriptive name published in 1952 by USGS.

Horseshoe Lake: lake, 1 mile long, 1 mile W of Sweeney Lake and 18 miles SW of Beaver, Yukon Flats; 66° 09' N, 147° 48' W; (map 118). Local descriptive name obtained in 1956 by USGS. 432

Horseshoe Lake: lake, 1 mile long, 1.5 miles E of junction of Tanana and Yukon Rivers and 5 miles E of Tanana, Nowitna Lowland; 65° 10' 30" N, 151° 54' 30" W; (map 106). Local name reported in 1952 by USGS.

Horseshoe Lake: lake, 1.2 miles long, on N bank of Innoko River NW of Rennie's Landing, 38 miles NW of Ophir and 64 miles NW of McGrath, Innoko Lowland; 63° 37' N, 157° 06' W; (map 90). Local name obtained from Joseph Ferris in 1954 by R. E. Isto, USGS.

Horseshoe Lake: lake, 1.5 miles long, 1 mile N of Stevens Village, Yukon Flats; 66° 01' 20" N, 149° 04' 30" W; (map 118). Local descriptive name obtained in 1956 by USGS.

Horseshoe Lake: lake, 1.5 miles long, 5 miles W of Stevens Village, Yukon Flats; 66° 02' N, 149° 17' W; (map 118). Local descriptive name obtained in 1956 by USGS.

Horseshoe Lake: lake, 1.5 miles long, N of Big Lake, 24 miles N of Anchorage, Cook Inlet Lowland; 61° 34' 25" N, 149° 55' 30" W; (map 69). Local name reported in 1950 by USGS.

Horseshoe Lake: lake, 1.6 miles long, E of Little Susitna River, 13 miles NW of Anchorage, Cook Inlet Lowland; 61° 21' 45" N, 150° 08' 50" W; (map 70). Local name reported by USGS in 1958; so named because the lake has the shape of a horseshoe.

Horseshoe Lake: lake, 2 miles long, between Ewan and Crosswind Lakes, 28 miles NW of Glennallen, Copper River Basin; 62° 23' N, 145° 55' W; (map 83). Local name reported in 1951 by USGS.

Horseshoe Lake: lake, 4.5 miles long, on left bank of Yukon River, 3.3 miles N of Holy Cross, Innoko Lowland; 62° 16' 30" N, 159° 47' 30" W; (map 78) Local descriptive name obtained in 1952 by USGS.

Horseshoe Mountain: mountain, 2,369 ft., 5 miles NE of Fortress Mountain and 42 miles NW of Anaktuvuk Pass, Arctic Slope; 68° 36' 30" N, 152° 46' 00" W; (map 134). So named by USGS geologists about 1950 "because of the characteristic horseshoe shape of the feature."

Horseshoe Point: bluff, elev. 70 ft., on N bank of Naknek River at Horseshoe Bend, on Alaska Peninsula, 6.5 miles SE of Naknek, Bristol Bay Lowland; 58° 42' 45" N, 156° 49' 45" W; (map 41). Local name reported in 1952 by USGS.

Horseshoo Hill: hill, see Court House Hill.

Horsetail Creek: stream, heads in a glacier, flows E 1 mile to Mineral Creek, 4.4 miles NW of Valdez, Chugach Mountains; 61° 09' 45" N, 146° 21' 30" W; (map 68). Local name published in the 1950's by USGS.

Horsetail Falls Creek: stream, flows W 1 mile to Landlocked Bay, 35 miles NW of Cordova Chugach Mountains; 60° 51' 30" N, 146° 31' 10" W; (map 64). Local name reported in 1912 by S. R. Capps and B. L. Johnson (in Brooks and others, 1913, pl. 1), USGS. Named for the falls which occur on the stream.

Horsfeld Creek: stream, in Nutzotin Mountains, flows SE 9 miles to Beaver Creek, 1.5 miles SW of Braye Pass, Alaska Range; 62° 00' N, 141° 10' W; (map 84). Variant: Horsford Creek. Local name reported by Capps (1916, pl. 17), USGS.

Horsfeld Roadhouse: locality, see Horsfeld.

Horsford Creek: stream, see Horsfeld Creek.

Horshoe Lake: lake, an oxbow 1.5 miles long, 4 miles N of Bettles, Kanuti Flats; 66° 58' 30" N, 151° 42' 00" W; (map 117). Local name reported in 1956 by T. E. Taylor, USGS.

Horton Creek: stream, flows NE 5 miles to Fox River, 21 miles NE of Solomon, Seward Peninsula Highlands; 64° 45' N, 163° 55' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Hose Point: point of land, N point of entrance to Fitzgibbon Cove on NE side of Behm Canal, Coast Mountains; 55° 58' 08" N, 131° 11' 30" W; (map 3) One of many arbitrary names applied to features in this area in 1891 by USC&GS.

Hoseanna Creek: stream, see Lignite Creek.

Hosford Creek: stream, flows W 12 miles to Charley River, 29 miles NW of Eagle, Yukon-Tanana Highlands; 64° 57' N, 143° 30' W; (map 102). Variant: Cash Creek. Prospectors' name obtained in 1905 by D. C. Witherspoon, USGS.

Hosiana River: stream, see Hodzana River.

Hosianna River: stream, see Hodzana River.

Hosmer Creek: stream, flows SE 11 miles to Nixon Fork, 17 miles N of Medfra, Kilbuck-Kuskokwim Mountains; 63° 21' N, 154° 49' W; (map 89). Local name reported in 1924 by Joseph Stanley-Brown (in Smith, P. S., 1926, pl. 5), USGS.

Hospital Lake: lake, 25 miles long, oxbow 0.3 miles N of Fort Yukon, Yukon Flats; 66° 34' 25" N, 145° 15' 00" W; (map 119). Local name obtained in 1956 by USGS.

Hospital Valley: valley, 0.3 miles long, between Lake Leone and Sweeper Cove, on NE Adak Island, Aleutian Islands; 51° 51' 00" N, 176° 38' 24" W; (map 17). Name published by USC&GS in 1963 on Chart 9119.

Hosyekakat: stream, see Huslia River.

Hot Slough: stream, anabranch of Tanana River, 3.5 miles long, 24 miles SW of Fairbanks, Tanana Lowland; 64° 39' 45" N, 148° 24' 45" W; (map 100). Local name reported in 1950 by USGS topographers.

Hot Slough: stream, flows NE 18 miles to Birch Creek, 11.5 miles SW of junction of McKinley and Kantishna Rivers, Tanana Lowland; 63° 46' 40" N, 151° 50' 20" W; (map 88). Local name reported in 1954 by USGS.

Hot Spring Bay: bay, see Hot Springs Bay.

Hot Spring Creek: stream, flows NE 3 miles to Ophir Creek, 15 miles NNE of Nyac, Yukon-Kuskokwim Delta; 61° 13' N, 159° 51' W; (map 73) Prospectors' name reported in 1914 by A. G. Maddren (in Brooks and others, 1915, p. 332), USGS. So called because a hot spring "of scalding temperature at its point of issue" is located along its bank.

Hot Spring Creek: stream, see Hot Springs Creek.

Hot Spring Creek: stream, see Ophir Creek.

Hot Spring Slough: stream, see Ketili River.

Hot Spring: locality, see Chena Hot Springs.18

Hot Spring: spring, on W shore of Port Moller, 9 miles SE of village of Port Moller, Bristol Bay Lowland; 55° 52' N, 160° 30' W; (map 28). Variant: Hot Springs. Noted as "Hot Springs" by Atwood (1911, pl. 2), USGS, and shown as "Hot Spring" on 1953 USGS map.

Hot Spring: springs, see Hot Springs.

Hot Spring: springs, see Tolovana Hot Springs.

Hot Springs Bay: bay, 0.5 miles across, W of Goddard, on W coast of Baranof Island, Alexander Archipelago; 56° 51' N, 135° 24' W; (map 5). Variant: Hot Spring Bay, Klucheff Bay, Kluchevoi Bay, Zaliv Klyuchevoy. This is a translation by USC&GS about 1882 of the name "Z[aliv] Klyuchevoy"; given in 1809 by the Russian navigator, Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN.

Hot Springs Bay: bay, 1.5 miles across, on E coast of Tanaga Island, Aleutian Islands; 51° 47' 10" N, 177° 47' 30" W; (map 17). Name published by USC&GS in the 1944 Aleutian Coast Pilot (p. 118).

Hot Springs Bay: bay, 2.7 miles across, on NE coast of Akutan Island, Krenitzin Islands, Aleutian Islands; 54° 10' 40" N, 165° 50' 30" W; (map 24). Named in 1901 by J. J. Gilbert, USC&GS, for the hot springs at the head of the bay.

Hot Springs Cove: cove, 1.2 miles across, in Inanudak Bay, on W central coast of Umnak Island, Aleutian Islands; 53° 15' 45" N, 168° 21' 30" W; BGN 1940; (map 22). Descriptive name given in 1938 by USC&GS "because of the hot springs which exist in the valley south of this cove."

Hot Springs Creek: stream, flows NE 4 miles to a swamp, 1 mile N of Circle Hot Springs and 28 miles SW of Circle, Yukon-Tanana Highlands; 65° 29' 40" N, 144° 37' 40" W; BGN 1938; (map 104). Variant: Grouse Creek. Originally reported in 1915 as "Grouse Creek" by Waring (1917, fig. 7), USGS. The present name was adopted locally because the stream flows by Circle Hot Springs.

Hot Springs Creek: stream, flows NW 14 miles to Serpentine River, 13 miles NW of Imuruk Lake, on Seward Peninsula, Kotzebue-Kobuk Lowland; 65° 56' N, 164° 54' W; (map 110). Variant: Hot Spring Creek. Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Hot Springs Creek: stream, flows NW 9.5 miles to Little Melozitna River, 25 miles NNE of Birches, Kokrines-Hodzana Highlands; 65° 28' 40" N, 153° 20' 00" W; (map 107). Local name reported in 1915 by Waring (1917, fig. 12), USGS.

Hot Springs Creek: stream, flows S 5 miles to Ugashik Creek, on Alaska Peninsula, 15 miles NE of Kanatak, Aleutian Range; 57° 40' 05" N, 156° 22' 30" W; (map 36). Named in 1921 by Capps (1923, pl. 2), USGS.

Hot Springs Creek: stream, flows W 30 miles to Melozitna River 40 miles W of Birches, Kokrines-Hodzana Highlands; 65° 11' 00" N, 154° 54' 45" W; (map 107). Descriptive name reported in 1915 by Waring (1917, fig. 12), USGS.

Hot Springs Creek: stream, heads in Isahaltla Mountains, flows W 9 miles to Batza Slough, S of Deniktow Ridge, 26 miles NNW of Hochandochtla Mountain, Kokrines-Hodzana Highlands; 65° 54' 00" N, 155° 06' 10" W; (map 107). Descriptive name reported by Sam White, pilot, in 1957.

Hot Springs Dome: mountain, see Manley Hot Springs Dome.

Hot Springs Dome: mountain, see Tolovana Hot Springs Dome.

Hot Springs Landing: locality, on right bank of Tanana River, 52 miles NE of the Bitzshtini Mountains, Yukon-Tanana Highlands; 64° 58' N, 150° 40' W; (map 99). Steamboat landing established in 1902 to serve the community of Hot Springs.

Hot Springs Slough: channel, in Yukon River, flows SW 2 miles around N side of Fox Island, 21 miles NE of Ruby, Nowitna Lowland; 64° 55' N, 154° 50' W; (map 98). Local descriptive name; reported in 1916 by USGS.

Hot Springs Slough: channel, see Ketili River.

Hot Springs Slough: stream, heads at Baker Lake and flows SW 15 miles to Tanana River, 50 miles NE of Bitzshini Mountains, Yukon-Tanana Highlands; 64° 59' N, 150° 49' W; (map 99). Local name reported in 1906 by D. C. Witherspoon and R. B. Oliver (in Eakin, 1913, pl. I), USGS.

Hot Springs: locality, see Goddard.

Hot Springs: locality, see Serpentine Hot Springs.

Hot Springs: settlement, see Circle Hot Springs.

Hot Springs: springs, 2 miles SE of Hot Springs Dome and 20 miles SW of Livengood, Yukon-Tanana Highlands; 65° 17' N, 148° 54' W; (map 105). Variant: Hot Spring. Local descriptive name for hot springs; published in 1907 by USGS. The springs were described by Waring (1917, p. 57), who stated that “the water bubbling from the springs reached temperatures 120° to 130° F and tasted slightly alkaline.”

Hot Springs: springs, see Tolovana Hot Springs.

Hot Springs: village, see Manley Hot Springs.

Hotcake Channel: stream, anabranch 7 miles long, in Copper River, along E side of Long Island, 22 miles NW of Katalla, Malaspina Coastal Plain; 60° 27' N, 144° 53' W; (map 64). Local name published in 1952 by USGS.

Hotel Gulch: ravine, trends W 0.5 miles to Bear Creek, 4 miles NE of Nome, Seward Peninsula Highlands; 64° 33' 12" N, 165° 20' 20" W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Hotel River: stream, see Khotol River.

Hotham Inlet: bay, 50 miles long and 8 miles wide between Selawik Lake to its SE and Kotzebue Sound to its NW, 60 miles WNW of Selawik Kotzebue-Kobuk Lowland; 67° 00" N, 162° 00' W; (map 114). Variant: Kobuk Lake. Named in 1826 by Capt. Beechey (1831, p. 250), RN, who wrote “we were surprised to find ourselves opposite a deep inlet which had escaped the observation of Capt. Kotzebue. I named it Hotham Inlet, in compliment to the Hon. Sir Henry Hotham, K.C.B. One of the lords of the Admiralty.” Sir Henry Hotham “was concerned with the interruption of Napoleon after the battle of Waterloo * * *” (Stuck, 1920, p. 77). Archdeacon Stuck gave the local name as “Kobuk Lake” (Stuck, 1920, p. 75).

Hotham Peak: mountain, 1,644 ft., at head of Oksik Creek, 24 miles NW of Selawik, Hogatza Highlands; 66° 49' N, 160° 41' W; (map 114). Named in 1885 by Lt. Stoney (1900, map), USN.

Hotsprings Bay: bay, 2 miles across, on Bechevin Bay at SW end of Alaska Peninsula, Aleutian Range; 54° 58' N, 163° 17' W; BGN 1965; (map 25). Variant: Hot Springs Bay. Name published in 1949 on a USGS map as "Hot Springs Bay," and in 1963 by USC&GS as "Hotsprings Bay."

Hotspur Island: island, 3.0 miles long, NW of Duke Island, at W end of Felice Strait, Alexander Archipelago; 54° 59' N, 131° 30' W; (map 2). Named by local pilots; published in the 1883 Coast Pilot (p. 83).

Houchnou: islands, see Kootzanhoo Archipelago.

Houchnov Inlet: water passage, see Kootznahoo Inlet.

Houdovin, Baie: bay, see Heiden, Port.

Houghton, Port: estuary, extends W 11 miles from its North Arm to Stephens Passage, 9 miles N of Frederick Sound and 75 miles E of Sitka, Coast Mountains; 57° 19' N, 133° 30' W; (map 8). Named in August 1794, by Capt. George Vancouver, RN, for a town in Norfolk, England (Wagner, 1937, p. 392).

Hound Island: island, 1.7 miles long, in Keku Strait, 6.5 miles S of Kake, Alexander Archipelago; 56° 52' 30" N, 133° 56' 00" W; BGN 1901; (map 6). Variant: Round Island. Named in 1892 by Lt. W. Island Moore, USN.

Hour Creek: stream, flows SW 0.6 miles to Noon Creek which flows to Tisuk River, 17 miles E of Cape Douglas and 40 miles NW of Nome, Seward Peninsula Highlands; 65° 00' N, 166° 08' W; (map 94) Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Hourglass Pass: mountain pass, 8 miles SW of center of Okmok Caldera, on central Umnak Island, Aleutian Islands; 53° 19' 30" N, 168° 15' 00" W; (map 22). Name published by Byers (1959, pl. 41), USGS.

Hourigan Point: point of land, 1 mile W of Security Bay, on N coast of Kuiu Island, Alexander Archipelago; 56° 51' 40" N, 134° 22' 15" W; (map 5) Named in 1881 by Comdr. H. Glass, USN.

House Mountain: mountain, 2,070 ft., on Gravina Island, 4 miles W of Ketchikan, Alexander Archipelago; 55° 19' 40" N, 131° 45' 50" W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

House Mountain: mountain, see Kings Mountain.

House Peak: peak, 6,070 ft., 2 miles SE of Church Peak, 5 miles NE of Petersburg, Coast Mountains; 56° 55' 45" N, 132° 32' 30" W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for charting purposes; published in 1888 on USC&GS Chart 705.

House Point: point of land, on W shore of Hood Bay, 7 miles S of Angoon, on W coast of Admiralty Island, Alexander Archipelago; 57° 24' 20" N, 134° 31' 35" W; (map 9). Name published in 1917 by USC&GS on Chart 8247.

House Rock: rock, 300 ft. across, near E shore of Revillagigedo Channel 4.5 miles S of Boca de Quadra, Coast Mountains; 55° 00' 12" N, 131° 01' 00" W; (map 3). Local name published in the 1925 Coast Pilot (p. 55).

Houseblock Valley: ravine, extends S 1.5 miles from Sevenmile Lake, near W end of Amphitheater Mountains, 28 miles WNW of Paxson, Alaska Range; 63° 10' 45" N, 146° 19' 00" W; (map 86). So named in 1955 by T. L. Pewe, USGS, "because the valley is choked with huge rock blocks, each as large as a house."

Houston Pass: pass, 2,700 ft., in Ptarmigan Valley at head of Ptarmigan Creek, 93 miles NW of Tyonek, Alaska Range; 62° 03' N, 153° 06' W; (map 80). Local name reported in 1940 by USGS.

Houston Siding: railroad station, see Houston.

Houston: railroad station, mile 174.9 on The Alaska Railroad, 29 miles N of Anchorage, Cook Inlet Lowland; 61° 38' 10" N, 149° 50' 45" W; (map 69). Variant: Houston Siding. Name published on a 1917 blueprint map of The Alaska Railroad Recent USGS maps indicate a site with two or three buildings.

Hove, Point: point of land, see Howe, Point.

Hovley Gulch: ravine, see Hokeley Gulch.

Howard Cove: bay, 1.2 miles across, on W coast of Kuiu Island, 3.5 miles NW of Cape Decision, Alexander Archipelago; 56° 03' N, 134° 10' W; (map 5). Local name published by USC&GS in 1932 Coast Pilot (p. 330).

Howard Creek: stream, flows N 3.5 miles to Minnie Creek, 7 miles W of Poss Mountain and 40 miles WSW of Chandalar, Brooks Range; 67° 25' N, 149° 58' W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Howard Creek: stream, flows SE 1 mile to California Creek which flows to Bonanza River, between Alta and Crush Creeks, 10 miles NW of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This stream cannot be precisely located on current maps. 434

Howard Creek: stream, flows SW 10 miles to Niukluk River 15 miles NW of its junction with Casadepaga River, 31 miles NE of Solomon, Seward Peninsula Highlands; 64° 59' N, 164° 07' W; (map 95). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Howard Hill: hill, 200 ft., N of Maybe Creek, at head of Ikpikpuk River, Arctic Slope 69° 20' N, 154° 34' W; (map 142). Named by USGS for Ens. W. L. Howard, USN, of Lt. G. M. Stoney's Naval Expedition of 1885. They passed along the foot of this hill about May 22, 1886, on the expedition from Ft. Cosmos, on the Kobuk River, to Point Barrow. The name first appears on a fieldsheet by Gerald FitzGerald, USGS, in 1924.

Howard Hill: hill, 218 ft., between Amos and Andy Coves, Kiska Island, Aleutian Islands; 51° 55' 47" N, 177° 35' 26" E; (map 14). An arbitrary name beginning with "H" to correspond to "H" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Howard Hills: mountains, 4,500 ft., part of Brooks Range, extend E and W of Howard Pass, between Ipnarik River on the W and Inyorurak Pass on the E; 68° 15' N, 156° 50' W; BGN 1926; (map 132). This name appears on a fieldsheet by Gerald FitzGerald in 1925, and was probably given for the pass.

Howard Lake: lake, 1 mile long, 5 miles W of Twentynine Mile Ridge, 21 miles NW of Beaver, Kokrines-Hodzana Highlands; 66° 38' N, 147° 44' W; (map 118). Local name obtained in 1956 by USGS.

Howard Pass: pass, 1,700 ft., in Brooks Range, forms divide between Aniuk and Etivluk Rivers; 68° 13' N, 156° 54' W; BGN 1926; (map 132). Named for Ens. William Lauriston Howard, 1860-1930, USN, who, while with Lt. G. M. Stoney's naval expedition to northern Alaska, made an expedition from Fort Cosmos, on the Kobuk River, to Point Barrow. Howard's route carried him through this pass on April 21, 1886 (Stoney, 1900, p. 66-77). The name first appears on a fieldsheet by Gerald FitzGerald, USGS, in 1925.

Howard, Mount: mountain, 2,460 ft., 7 miles N of Cape Decision, on S coast of Kuiu Island, Alexander Archipelago; 56° 06' 50" N, 134° 09' 00" W; (map 5). Named in 1886 by Lt. J. M. Helm, USN, for charting purposes; published in 1887 by USC&GS on Chart 706.

Howard, Point: point of land, 6 miles NW of Cape Decision, on S coast of Kuiu Island, Alexander Archipelago; 56° 04' 10" N, 134° 13' 45" W; (map 5). Named in 1890 by Lt. Comdr. H. B. Mansfield, USN, for Ens. William Lauriston Howard, USN, a member of his party.

Howard, Point: point of land, on W shore of Lynn Canal, 7 miles N of Point Couverden and 23 miles W of Juneau, St. Elias Mountains; 58° 17' 20" N, 135° 03' 15" W; (map 11). Named in 1890 by Lt. Comdr. H. B. Mansfield, USN, for Ens. William Lauriston Howard, USN, a member of his party.

Howcan: locality, see Howkan.

Howe Island: island, 1.3 miles long, in Sagavanirktok River Delta, on Beaufort Sea coast, 29 miles SE of Beechey Point, Arctic Plain; 70° 19' N, 147° 59' W; (map 150). Named by Leffingwell (1919, p. 96) for Dr. George P. Howe of the Anglo-American Polar Expedition, 1906-07.

Howe, Point: point of land, on S coast of Mitkof Island, Alexander Archipelago; 56° 29' 45" N, 132° 48' 50" W; (map 6). Variant: Point Hove. Named on August 29, 1793, by Capt. George Vancouver, RN, "probably in honor of Richard Earl Howe, an admiral in the R.[oyal] N.[avy]" (Wagner, 1937, p. 392).

Howie Creek: stream, flows W 0.6 miles to Candle Creek, 11 miles SW of Candle and 33 miles NE of Imuruk Lake, Seward Peninsula Highlands; 65° 46' 30" N, 162° 06' 15" W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Howie, Lake: lake, see Cloud Lake.

Howkan Narrows: water passage, extends SE 2 miles from Channel Islands, in Kaigani Strait, between Dall and Long Islands, Alexander Archipelago; 54° 52' N, 132° 48' W; BGN 1939; (map 1). Name published by USC&GS in the 1883 Coast Pilot (p. 67); derived from former village of Howkan.

Howkan Reef: reef, 300 yds. long, between Dall and Long Islands, in Kaigani Strait, Alexander Archipelago; 54° 52' N, 132° 48' W; (map 1). Variant: Howkan Reef. Named in 1881 by Lt. Comdr. H. E. Nichols, USN; derived from former village of Howkan.

Howkan Strait: water passage, see Kaigani Strait.

Howkan: locality, site of village on NW coast of Long Island, at Howkan Narrows, Alexander Archipelago; 54° 52' 15" N, 132° 48' 05" W; (map 1). Variant: Howcan, Jackson. Tlingit Indian name reported in 1881 by Lt. Comdr. Nichols, USN. "Howkan * * * was at one time the largest village of the Hyda [Haida] Indians in the area. All that remains to mark this site is some evidence of clearing" (U.S. Coast and Geodetic Survey, 1962, p. 79) * * *." This village was absorbed by the former village of Kaigani which, in turn, was abandoned when the village of Hydaburg was established in 1911 in order to centralize the school system. The Jackson post office was established at Howkan in 1882, and probably named for Sheldon Jackson, who established a mission here in 1881. The post office name was changed to Howcan in 1886, back to Jackson in 1890, and back to Howcan in 1903. In 1917 the post office was discontinued and transferred to Hydaburg (Ricks, 1937, p. 27). J. R. Swanton (in Hodge, 1907, p. 573), BAE, says "Howkan (a' oklian, a Tlingit [Indian] word probably referring to a stone which stood up in front of the town, although some derive it from "qowakon," deer being numerous there). A Haida town * * * below which a great canoe fight took place, resulting in the occupancy of part of Prince of Wales Islands by the Kaigani Haida * * *" See Jackson Mission and Kaigani.

Howling Dog Canyon: canyon, extends 11 miles along Porcupine River between Howling Dog Creek and Old Rampart, 28 miles NE of Coleen Mountain, Brooks Range; 67° 09' N, 141° 46' W; (map 121). See Howling Dog Rock.

Howling Dog Creek: stream, flows S 8.3 miles to Porcupine River, at Red Gate, 25 miles NE of Coleen Mountain, Brooks Range; 67° 11' N, 141° 55' W; (map 121). Name reported by M. G. White (1952, fig. 1), USGS, in 1948. See Howling Dog Rock.

Howling Dog Rock: hill, at junction of Porcupine River and Howling Dog Creek, 25 miles NE of Coleen Mountain, Brooks Range; 67° 11' N, 141° 55' W; (map 121). "At the time of the

Hudson's Bay Co.'s activities on the Porcupine River, the south wall of the Red Gate was known as Howling Dog Rock. The dogs used in tracking freight barges upstream were unable to haul loaded boats past this vertical cliff, and while the boats were being pulled up by men with long ropes the dogs had to scramble up the steep back slope of the rock and down again to join the party, or would remain behind and howl" (FitzGerald, 1944, p. 227).

Howling Hill: hill, 145 ft., W of Sargeant Cove, Kiska Island, Aleutian Islands; 51° 55' 06" N, 177° 33' 20" E; (map 14) An arbitrary name beginning with "H" to correspond to "H" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Howling Valley: valley, 2 miles long, branch of Granite Canyon, in Glacier Bay National Monument, 5 miles N of Adams Inlet and 69 miles NW of Juneau, St. Elias Mountains; 58° 58' 45" N, 135° 47' 45" W; (map 11). Named in 1899 by John Muir (in Burroughs and others, 1902, p. 38-39) of the Harriman Alaska Expedition. Burroughs wrote that a hunting party went out to stir up the bears and there was "little doubt that the genus loci of Howling Valley would soon change its tune."

Howzerah Creek: stream, see Hawzerah Creek.

Hoya Creek: stream, flows NW 8 miles to Bradford Canal, 10 miles E of Ernest Sound, Coast Mountains; 56° 11' 15" N, 131° 42' 20" W; (map 7). Local name reported in 1955 by USGS.

Hoyadazzithethno Creek: stream, flows N 13 miles from Sushgitit Hills to Mentanontli River, 34 miles E of Hughes, Hogatza Highlands; 66° 09' 00" N, 153° 04' 30" W; (map 116). Indian name reported in 1956 by T. E. Taylor, USGS.

Hoyle, Lake: lake, 1.4 miles long, at head of Ekolina Creek, 35 miles E of Medfra, Kuskokwim Lowland; 63° 10' N, 153° 36' W; (map 89). Named in 1899 by Lt. J. S. Herron (p. 49), USA.

Hoyt Creek: stream, flows NW 2.3 miles to Flat Creek, 17 miles S of junction of Charley and Yukon Rivers, Yukon-Tanana Highlands; 65° 04' 20" N, 142° 46' 10" W; (map 103). Prospectors' name from an unpublished map by E. J. Chamberlain, dated 1902.

Hozatka Lake: lake, 22 miles S of Roundabout Mountain, Koyukuk Lowland; 65° 13' N, 156° 36' W; (map 108). Koyukan Indian name reported in 1955 by USGS.

Huaji Cliff: cliff, 1,100 ft., on SE coast of Prince of Wales Island, near entrance to Clarence Strait, Alexander Archipelago; 54° 43' 50" N, 131° 59' 50" W; BGN 1922; (map 1, 2). Variant: Huajikaowas Cliff. Tlingit Indian name given in 1922 by USC&GS, who gives its meaning as "grizzly bear sitting down."

Huajikaowas Cliff: cliff, see Huaji Cliff.

Hub Hill: peak, see Hub, The.

Hub Roadhouse: locality, see Kallands.

Hub Rock: rock, in Aialik Bay, 0.4 miles E of Harris Peninsula, 31 miles SW of Seward, Chugach Mountains; 59° 43' 10" N, 149° 43' 15" W; (map 49) Local name reported in the early 1950's by USC&GS.

Hub Rock: rock, in El Capitan Passage, between El Capitan and Prince of Wales Islands, Alexander Archipelago; 55° 56' 35" N, 133° 17' 48" W; (map 4). Named in 1903 or 1908 by E. F. Dickins, USC&GS, who wrote "named by our party, has no local name."

Hub Rock: rock, in Port Chester, on W coast of Annette Island, Alexander Archipelago; 55° 08' 20" N, 131° 33' 00" W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Hub, The: peak, 1,400 ft., 14 miles S of Ruby, Kilbuck-Kuskokwim Mountains; 64° 32' N, 155° 31' W; (map 98). Variant: Hub Hill. Local name reported about 1952 by USGS.

Hubbard Glacier: glacier, heads in icefield in Canada, trends SE and SW 80 miles to its 1959 terminus at Disenchantment Bay, 34 miles NNE of Yakutat, St. Elias Mountains; 60° 01' N, 139° 30' W; (map 66). Named in 1890 by Russell (1891, p. 99), USGS, for Gardiner G. Hubbard, 1822-97, Massachusetts lawyer and educator, regent of the Smithsonian Institution, and founder and first president of the National Geographic Society, which office he held from 1888 until his death. Interested in the exploration of Alaska, he helped in instigating Russell's 1890 and 1891 expeditions, which were sponsored jointly by the National Geographic Society and the U.S. Geological Survey.

Hubbard Peak: peak, 5,700 ft., 3 miles SW of terminus of Long Glacier and 78 miles NE of Valdez, Wrangell Mountains; 61° 41' 45" N, 144° 13' 55" W; (map 68). Name shown on a prospectors' manuscript map dated 1900.

Hubbard, Mount: mountain, 14,950 ft., on Alaska-Canada boundary, 2 miles S of Mount Alverstone and 59 miles NW of Yakutat, St. Elias Mountains; 60° 19' 20" N, 139° 04' 00" W; (map 66). Variant: Boundary Peak 179. Named by Russell (1891, p. 99), USGS, in 1890 for Gardiner G. Hubbard, 1822-97, founder and first president of the National Geographic Society, which, with the USGS, sponsored Russell's expedition.

Hubbard, Mount: peak, see Mooses Tooth, The.

Hubley Glacier: glacier, heads on Mt. Hubley and trends 3 miles NE to its terminus 12 miles E of Mount Michelson, Brooks Range; 69° 17' N, 143° 44' W; (map 138). Named about 1959 for the mountain on which it heads.

Hubley, Mount: peak, 8,915 ft., in Romanzof Mountains, 12 miles E of Mount Michelson, Brooks Range; 69° 16' 30" N, 143° 47' 55" W; BGN 1959; (map 138). Named in 1958 by J. E. Sater, for Richard Carleton Hubley, 1926-57, leader of the International Geophysical Year McCall Glacier party, who was killed on McCall Glacier October 28, 1957.

Huckleberry Run: stream, flows W 1 mile to Cripple River, 1.5 miles NE of Oregon Creek and 16 miles NW of Nome, Seward Peninsula Highlands; 64° 42' N, 165° 43' W; (map 94). Prospectors' name shown on the 1904 "Map of Cape Nome Precinct" by Arthur Gibson.

Huddle Rocks: rocks, off SW coast of Unalaska Island, at Lance Point, Aleutian Islands; 53° 19' 30" N, 167° 19' 45" W; BGN 1939; (map 23). Variant: South Island. Named in 1939 by USC&GS. These rocks were called South Island by USBF in 1888.

Hudeuc Lake: lake, 0.3 miles long, NE of Northway, Alaska Range; 62° 58' N, 141° 56' W; (map 84). Local name reported in 1954 by USGS.

Hudson Bay Creek: stream, flows NW 4 miles to South Fork Koyukuk River, E of Jack White Range, 26 miles NE of Bettles, Kokrines-Hodzana Highlands; 66° 58' N, 150° 45' W; (map 117). Name used by prospectors and reported in 1899 by F. C. Schrader and T. G. Gerdine, USGS; probably suggested by the Hudson's Bay Company of Canada.

Hudson Bay Inlet: estuary, see Excursion Inlet.

Hudson Collie: stream, see Hudson Coulee.

Hudson Coulee: stream, flows NE 4 miles to Rock Creek 12 miles NW of Eagle, Yukon-Tanana Highlands; 64° 52' 20" N, 141° 32' 00" W; (map 102). Variant: Little Blanche Creek, Hudson Collie. Prospectors' name reported in 1898 by E. C. Barnard, USGS.

Hudson Creek: stream, flows SE 2.8 miles to Buffalo Creek, 25 miles N of Nome, Seward Peninsula Highlands; 64° 52' N, 165° 17' W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Hudson Creek: stream, heads N of Gold Mountain, flows N 8 miles to Little Melozitna River, 13 miles NNW of Birches, Kokrines-Hodzana Highlands; 65° 18' 00" N, 153° 45' 30" W; (map 107). Local name reported in 1908 by Maddren (1910, pl. 5), USGS.

Hudson Lake: lake, 1.4 miles across, 7 miles N of Mount Carter and 57 miles NE of Valdez, Chugach Mountains; 61° 53' 45" N, 145° 39' 15" W; (map 68). Local name published by Chapin (1918, pl. 1), USGS.

Hudsonoo Inlet: water passage, see Kootznahoo Inlet.

Hudsonoo: islands, see Kootzanhoo Archipelago.

Huff Creek: stream, flows S 1.3 miles to Big Hurrah Creek, 9 miles NE of Solomon, Seward Peninsula Highlands; 64° 39' N, 164° 13' W; (map 95). Variant: Hutt Creek. Prospectors' name reported on a 1901 map of Cape Nome gold fields by David Fox, Jr.

Huffman Harbor: bay, 0.1 miles across, on E shore of Stephens Passage, 0.6 miles N of Pearl Harbor and 9 miles NW of Juneau, Coast Mountains; 58° 34' 20" N, 134° 47' 20" W; (map 11). Named for James Huffman, 1868-1934, who came to Alaska from Ohio in 1887. He worked mining claims around Eagle River, and in 1911 he filed a homestead claim near the mouth of the river. He was drowned near here in 1934 while returning from Douglas in his motorboat (DeArmond, 1957, p. 24).

Huggins Island: island, 7 miles long, between Mathews Slough and Koyukuk River, 60 miles NW of Gold Mountain, Kokrines-Hodzana Highlands; 65° 52' N, 154° 27' W; (map 107).

Variant: McQuister Island, McQuesten Island, McQuestion Island. Named in 1885 by Lt. Allen (1887, p. 103), USA, for Capt. Eli Lundy Huggins, USA, "for a long time a resident of the Territory and a warm friend of the expedition." Allen also called the island "McQuesten Island" for the early Yukon River trader, "Jack" LeRoy McQuesten.

Hugh M. Smith Lake: lake, see Hugh Smith Lake.

Hugh Miller Fiord: water passage, see Hugh Miller Inlet.

Hugh Miller Glacier: glacier, 1.8 miles NW of Gullied Peak, Glacier Bay National Monument, 63 miles NW of Hoonah, St. Elias Mountains; 58° 45' 45" N, 136° 38' 45" W; (map 10). Named in 1879 by John Muir (1915, p. 147) for Hugh Miller, 1802-56, Scottish geologist. Miller was a writer and stone mason until the age of 35 when he became interested in geology. His scientific articles on "The Old Red Sandstone" and others have become classics. His elder son, Hugh Miller, 185° 96, was a member of the Geological Survey of England and later of Scotland. In 1879 John Muir found one large glacier at the head of Hugh Miller Inlet. By 1892 it had receded into two branches. Reid (1896, p. 428) retained the name "Hugh Miller" for the larger glacier and the other he named "Charpentier Glacier."

Hugh Miller Inlet: water passage, 5 miles long, along SW shore of Glacier Bay, Glacier Bay National Monument, S of Gilbert Island, 58 miles NW of Hoonah, St. Elias Mountains; 58° 45' 30" N, 136° 29' 30" W; (map 10). Variant: Hugh Miller Fiord. Named "Hugh Miller Fiord" in 1879 by John Muir (1915, p. 312). The name was derived from Hugh Miller Glacier.

Hugh Miller Mountain: mountain, 2,765 ft., 1 mile SW of Glacier Bay, in Glacier Bay National Monument, 56 miles NW of Hoonah, St. Elias Mountains; 58° 42' 55" N, 136° 25' 45" W; (map 10). Name derived from the Hugh Miller inlet near which it is located. Name published in 1946 by USFS.

Hugh Rowe Creek: stream, flows NW 1.5 miles to Fox River opposite Guy Rowe Creek, 21 miles NE of Solomon, Seward Peninsula Highlands; 64° 45' N, 163° 54' W; (map 95). Prospectors' name reported on a 1901 map of Cape Nome gold fields by David Fox, Jr.

Hugh Smith Creek: stream, see Sockeye Creek.

Hugh Smith Lake: lake, 3.5 miles long, drains W to Boca de Quadra, 1 mile S of Marten Arm, Coast Mountains; 55° 06' N, 134° 40' W; BGN 1944; (map 3). Variant: High Smith Lake, Hugh M. Smith Lake, Quadra Lake, Smith Lake. Named in 1914 by E. Lester Jones, USBF, for Hugh McCormick Smith, 1865-1941, Commissioner, USBF. It was called Quadra Lake by Comdr. J. F. Moser, USN, in 1897.

Hugh, Point: point of land, on S tip of Glass Peninsula at junction of Seymour Canal and Stephens Passage, 8 miles SE of Pleasant Bay and 54 miles S of Juneau, Alexander Archipelago; 57° 34' 10" N, 133° 48' 30" W; (map 8). Named by Capt. George Vancouver, RN, after its discovery by Lt. Joseph Whidbey, RN, on August 4, 1794, for Lord Hugh Seymore of England (Wagner, 1937, p. 392).

Hughes Bar: beach, on Koyukuk River, about 2 miles upstream from Hughes, Hogatza Highlands; 66° 04' N, 154° 15' W; (map 116). This is the site of first gold workings in this area

in 1901. Reported to be named for a prospector, Roy (or Frederick) Hughes, who came here about 1884. The present-day village of Hughes does not seem to have been named for him.

Hughes City: village, see Hughes.

Hughes Creek: stream, heads in lake, flows SW and SE 45 miles to Koyukuk River, W of Hughes, Hogatza Highlands; 66° 03' N, 154° 17' W; (map 116). Variant: Hatdolitna. Local name recorded in 1956 by Orth; named for the village. The Indian name for this stream is "Hatdolitna."

Hughes Mountain: mountain, 1,665 ft., on W bank of Koyukuk River W of Hughes, Hogatza Highlands; 66° 03' N, 154° 25' W; (map 116). Local name reported in 1956 by Orth; named for the village.

Hughes: village, pop. 69, on left bank of Koyukuk River, Hogatza Highlands; 66° 03' N, 154° 15' W; BGN 1944; (map 116). Variant: Hughes City. This village was established in 1910 as a riverboat landing and "port of supply" for the Indian River diggings, and was named for Charles Evans Hughes, 1862-1948, then Governor of New York. The village flourished until 1915 when the Indian River gold gave out. A store remained in existence and the town evolved into a Koyukan Indian village (Stuck, 1917, p. 324-325). See Hughes Bar. A post office was established here in 1914, rescinded in 1916, and reestablished in 1942.

Hugo Creek: stream, heads in Igichuk Hills and flows SW 19 miles to Noatak River, 17 miles NE of Kotzebue, Kotzebue-Kobuk Lowland; 67° 08' N, 162° 21' W; (map 128). Variant: Erechek River, Igachoruk River. Local name reported in 1956 by Orth.

Huiak Island: island, see Shuyak Island.

Hukanuwu: locality, "on mainland on N shore of Cross Sound," St. Elias Mountains; (map 10). Former Tlingit Indian town listed by Hodge (1907, p. 577), BAE. See Kukanuwu.

Hulahula River: stream, heads at glacier terminus in Romanzof Mountains at 69° 06' N, 144° 01' W, flows W and N 100 miles to Camden Bay, Arctic Plain; 70° 04' N, 144° 07' W; BGN 1961; (map 151). Variant: Hoolahoola River, Oolahoola River, Ulahula River. The name "Hoolahoola," introduced by the whalers, is of Kanaka (Hawaiian) origin, meaning "a dance," and was reported in 1902 by S. J. Marsh in a communication to Alfred H. Brooks (Leffingwell, 1919).

Hulakan River: stream, see Hulakon River.

Hulakin River: stream, see Hulakon River.

Hulakon River: stream, flows S 7 miles to join Unuk River at head of Burroughs Bay, Coast Mountains, 56° 05' 15" N, 131° 05' 30" W; BGN 1923; (map 7). Variant: Hulakan River, Hulakin River. Indian name reported in 1923 by Jesse Hill, USC&GS, while on duty as an IBC surveyor.

Hulgothen Bluffs: bluffs, on N bank of Fish Creek, 6 miles E of Fish Creek Lake, 27 miles SE of Bettles, Kanuti Flats; 66° 34' N, 151° 12' W; (map 117). Koyukan Indian name obtained in 1956 at Allakaket by T. E. Taylor, USGS.

Hulitna: stream, see Holitna River.

Hulitnak: stream, see Holitna River.

Hulitno: stream, see Holitna River.

Hull Point: point of land, W point of island between Elson Lagoon and Beaufort Sea, E of Elutkak Pass, 11 miles NE of Barrow, Arctic Plain; (map 153). Named by Comdr. Rochfort Maguire, RN, in 1853, for Master Thomas Hull, who compiled Brit. Adm. Chart 2164, "Barrow Point and Port Moore." Due to physical changes of the shore the name is no longer applied.

Hult Creek: stream, heads in Mount McKinley National Park, flows NW 13 miles to Birch Creek, 32 miles SSE of village of Lake Minchumina, Tanana Lowland; 63° 28' 25" N, 151° 51' 00" W; (map 88). Local name reported in 1925 by S. R. Capps, USGS.

Hulti Bay: bay, see LeConte Bay.

Hultulkakut: locality, see Kutul.

Hulu Bay: cove, see Casco Cove.

Humboldt Creek: stream, flows NE 1 mile to Noxapaga River 1 mile S of its junction with Aurora Creek, 24 miles W of Imuruk Lake Seward Peninsula Highlands; 65° 38' N, 164° 05' W, (map 110) Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Humboldt Creek: stream, flows S to Eldorado River near its head, about 25 miles NW of Solomon, Seward Peninsula Highlands; (map 95). Shown on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This feature cannot be identified on recent maps.

Humboldt Harbor: anchorage, 0.7 miles across, on W coast of Popof Island, in Shumagin Islands, Aleutian Range; 55° 20' N, 160° 30' W; (map 28). Named in 1872 by W. H. Dall, USC&GS, for Survey schooner Humboldt.

Humboldt Creek: stream, flows NE 20 miles to Goodhope River, 35 miles NW of Imuruk Lake on Seward Peninsula, Kotzebue-Kobuk Lowland; 65° 59' N, 164° 02' W; (map 110). Prospectors' name reported in 1901 by USGS (Collier, 1902, pl. 12).

Humbug, Point: point of land, on S end of Lindenberg Peninsula, Kupreanof Island, 14 miles S of Petersburg, Alexander Archipelago; 56° 36' 45" N, 132° 59' 10" W; (map 6). Named in 1869 by Comdr. R. W. Meade, USN.

Hume Island: island, 0.3 miles long, in Carroll Inlet, 7 miles NE of California Head, Revillagigedo Island, Alexander Archipelago; 55° 23' 45" N, 131° 20' 45" W; (map 3). Local navigators' name obtained in 1904 by H. C. Fassett, USBF.

Hume Point: point of land, on NW shore of Chignik Lagoon, 9 miles W of Chignik, Aleutian Range; 56° 18' N, 158° 37' W; (map 30). Local name published in 1927 by USC&GS.

Hummel Glacier: glacier, heads 4 miles W of Ninemile Mountain, trends NW 1.5 miles to its 1955 terminus 12.5 miles NW of Hyder, Coast Mountains; 56° 02' 10" N, 130° 16' 45" W; (map 7). Local name reported in 1928 by USGS.

Hummer Bay: estuary, extends SE 2 miles to Port Wells, 16 miles NE of Whittier, Chugach Mountains; 60° 53' 15" N, 148° 17' 30" W; (map 63). Local name reported in 1916 by J. W. Bagley, USGS.

Hummer Creek: stream, flows SE 2.5 miles to Hummer Bay, 16 miles NE of Whittier, Chugach Mountains; 60° 54' 40" N, 148° 19' 00" W; (map 63). Local name derived from Hummer Bay; published on recent USGS maps.

Hump Island: island, 0.4 miles across, in Cholmondeley Sound, on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 13' 40" N, 132° 07' 00" W; (map 4). Variant: Pup Island. Local navigators' name reported in 1904 by H. C. Fassett, USBF. The name "Pup Island" was published by USC&GS in 1901.

Hump Island: island, 0.8 miles across, on Lynn Canal, 1 mile S of Lincoln Island and 23 miles NW of Juneau, Alexander Archipelago; 58° 27' 30" N, 134° 59' 00" W; (map 11). Variant: Hump Islet. Descriptive name given by Comdr. R. W. Meade, USN, in 1869, due to its humped appearance, and published as "Hump Inlet" by USC&GS in the 1883 Coast Pilot (p. 194).

Hump Island: island, 0.9 miles long, in Clover Passage, between Betton and Revillagigedo Islands, Alexander Archipelago; 55° 31' 15" N, 131° 45' 20" W; (map 3). Named in 1885 by Lt. Comdr. Richardson Clover, USN.

Hump Islet: island, see Hump Island.

Hump Knoll: mountain, 3,200 ft., on S end of ridge at 1961 terminus of Baird Glacier, 3 miles N of Thomas Bay, and 100 miles E of Sitka, Coast Mountains; 57° 18' 10" N, 132° 48' 30" W; (map 8). Descriptive name given in 1887 by Lt. Comdr. C. M. Thomas, USN; published in 1888 by USC&GS.

Hump, The: peak, 10,300 ft., at head of Tyndall Glacier, 3 miles SE of Mount Huxley and 71 miles NW of Yakutat, St. Elias Mountains; 60° 18' 40" N, 141° 05' 30" W; BGN 1917; (map 65). Descriptive name published by H. W. Topham (1889, map).

Humpback Bay: bay, 1 mile across, part of Makushin Bay on W coast of Unalaska Island, Aleutian Islands; 53° 45' N, 166° 53' W; (map 23). Variant: Tarasof Bay. Descriptive name published in 1943 by USC&GS. This bay could possibly be the same feature which Father

Veniaminov (1840, v. 1, p. 171) called "Tarasovskaya" and which the USGS called "Tarasof Bay."

Humpback Bay: bay, see Anan Bay.

Humpback Bay: bight, 5 miles across, on S coast of Alaska Peninsula, 12 miles ENE of Stepovak Bay, Aleutian Range; 55° 52' N, 159° 20' W; (map 27). Local name published by USC&GS in the 1938 Coast Pilot.

Humpback Cove: cove, 1.3 miles across, E of Humpback Point, 9 miles NE of Yakutat, Malaspina Coastal Plain; 59° 39' N, 139° 34' W; (map 46). Local name published in 1959 by USGS.

Humpback Creek: stream, flows W 4 miles to Orca Inlet, 5 miles NE of Cordova, Chugach Mountains; 60° 37' N, 145° 41' W; BGN 1914; (map 64). Variant: Hunchback Creek. Local name reported in 1914 by A. H. Brooks, USGS. It was formerly reported as "Hunchback Creek" in 1908 by U. S. Grant and D. F. Higgins (in Brooks and others, 1909, pl. 4), USGS.

Humpback Creek: stream, heads in lake 1.4 miles SW of Lake Redfield, flows NW 1.1 miles to Humpback Cove, 0.4 miles SE of Humpback Point and 8.5 miles NE of Yakutat, Malaspina Coastal Plain; 59° 38' 40" N, 139° 34' 30" W; (map 46). Local name published in 1959 by USGS.

Humpback Creek: stream, heads in Peabody Mountains, flows W, through Humpback Lake 15 miles to Mink Bay, Coast Mountains; 55° 02' N, 130° 41' W; BGN 1930; (map 3). Local name reported in 1915 by E. Lester Jones, USC&GS; so named because this stream is "a famous spawning place of the Humpback Salmon."

Humpback Creek: stream, on N part of Chichagof Island, flows 11 miles E to Port Frederick, 3.5 miles NE of Neka Bay and 5 miles SW of Hoonah, Alexander Archipelago; 58° 05' 40" N, 135° 34' 30" W; (map 11). Name published in 1932 by USC&GS on Chart 8304.

Humpback Lake: lake, 6.3 miles long, drains into Mink Bay by Humpback Creek, Coast Mountains; 55° 01' N, 130° 34' W; BGN 1963; (map 3). Variant: Bower Lake. Named in 1923 by USFS for the "Humpback Salmon."

Humpback Point: point of land, on SE shore of Yakutat Bay, 1.4 miles N of Redfield Cove and 8.5 miles NE of Yakutat, Malaspina Coastal Plain; 59° 39' N, 139° 34' W; (map 46). Descriptive name published in 1959 by USGS.

Humpback Rock: rock, in Chiniak Bay, 9 miles SE of Kodiak, Kodiak Island; 57° 42' 30" N, 152° 15' 00" W; (map 34). Variant: Gorbun Rock, Horboon Rock, Kamen Gorbun Morskoy, Sugarloaf Rock, The Humpback. A translation of the transliterated name "Horboon" [from "gorbun"], given to this feature in 1804 by Lisianski (1814, p. 142). Called "Kamen Gorbun Morskoy," meaning "humpback sea rock," by Sarichev (1826, map 16) and "The Humpback" or "Sugarloaf Rock" by USC&GS in 1869.

Humpback, The: rock, see Humpback Rock.

Humphery Point: locality, see Humphrey Point.

Humphrey Bay: bay, see Pokok Bay.

Humphrey Point: locality, on Beaufort Sea coast at Humphrey Point, 35 miles NW of Demarcation Point, Arctic Plain; 69° 58' N, 142° 30' W; (map 138). Variant: Humphery Point, Humphreys Point, Humphry Point, Humphrys Point. Eskimo camp or settlement listed in the 1940 census with a population of 24.

Humphrey Point: point of land, on Arctic coast, between Beaufort Sea and Pokok Bay, 35 miles NW of Demarcation Point, Arctic Plain; 69° 58' 45" N, 142° 31' 30" W; (map 138). Variant: Elurachea Point, Eluraucha Point, Humphreys Point, Point Humphrys, Imaiknaurak. Named by Franklin (1828, p. 145 j on August 3, 1826. The Eskimo name "Imaiknaurak" was reported in 1948 by USC&GS to mean "no more water there," derived from the occurrence of the sea encroaching upon and destroying a small freshwater lake.

Humphreys Point: locality, see Humphrey Point.

Humphreys Point: point of land, see Humphrey Point.

Humphry Point: locality, see Humphrey Point.

Humphrys Point: locality, see Humphrey Point.

Humpy Cove: cove, 0.8 miles across, on W coast of Resurrection Peninsula, 10 miles SE of Seward, Chugach Mountains; 59° 58' N, 149° 18' W; (map 49). Local name reported in the 1940's by USC&GS.

Humpy Cove: cove, 1.2 miles across, on N coast of Aliulik Peninsula, at S end of Kodiak Island; 56° 51' 30" N, 154° 01' 00" W; (map 32). Name published in 1943 by USC&GS.

Humpy Creek: stream, on Kenai Peninsula, flows NW 6.5 miles to Kachemak Bay, 14 miles E of Homer, Chugach Mountains; 59° 39' 40" N, 151° 09' 00" W; (map 50). Local name reported and published by USGS in 1950.

Humpy Creek: stream, on mainland, flows SE 8 miles to Chickamin River, 5.5 miles NE of Fish Point on Behm Canal, Coast Mountains; 55° 51' N, 130° 52' W; (map 3). Local name reported in 1955 by USGS.

Humpy Point: point of land, 0.2 miles long, extends from E shore of Revillagigedo Channel, Coast Mountains; 54° 49' 15" N, 130° 56' 30" W; (map 2). Local descriptive name published in 1943 by USC&GS.

Hunch Creek: stream, flows SW 8.4 miles to Colorado Creek 4 miles NE of its junction with Innoko River, 40 miles N of Ophir and 55 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 42' 35" N, 156° 15' 05" W; BGN 1936; (map 90). Prospectors' name obtained in 1933 by J. B. Mertie, Jr. (in Smith, P. S., 1936, pl. 4), USGS.

Hunch Mountain: mountain, 1,272 ft., E of Innoko River, near head of Hunch Creek, 45 miles NE of Ophir and 58 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 46' N, 156° 09' W; BGN 1936; (map 90). Prospectors' name obtained in 1933 by J. B. Mertie, Jr. (in Smith, P. S., 1936, pl. 4), USGS.

Hunchback Creek: stream, see Humpback Creek.

Hundell Creek: stream, flows N 4 miles to Tonsina River, 0.5 miles SW of Lower Tonsina and 64 miles NE of Valdez, Cooper River Basin; 61° 39' 10" N, 144° 40' 30" W; (map 68). Local name published since 1950 by USGS.

Hundred Mile Lake: lake, 2,100 ft. long, N of Glenn Highway, 44 miles NE of Palmer, Talkeetna Mountains; 64° 48' 25" N, 147° 50' 30" W; (map 69). Local name reported in 1952 by USGS.

Hundred Thousand Creek: stream, on E coast of Prince of Wales Island, heads in a lake, flows NE 1.4 miles to Kasaan Bay, 5 miles NW of Kasaan Point, Alexander Archipelago; 55° 28' 25" N, 132° 23' 40" W; (map 4). Local name recorded in 1949 by USGS.

Hungarian Creek: stream, flows SE 5 miles from Sitkum Pass to South Fork Koyukok River, 47 miles SW of Chandalar, Brooks Range; 67° 06' 30" N, 149° 57' 00" W; (map 123). Prospectors' name reported in 1889 by Schrader (1900b, pl. 60), USGS.

Hungry Bay: bay, 2.5 miles across, on NW coast Amlia Island, Aleutian Islands; 52° 07' N, 173° 49' W; (map 19). Local name published on a 1951 USGS map.

Hungry Creek: stream, flows N, through Kutokbuna and Trout Lakes, 13 miles to Stony River, 11 miles NE of Tundra Lake and 84 miles NW of Lake Clark, Lime Hills; 61° 20' 30" N, 155° 26' 30" W; (map 71). Local name published in 1951 by USGS.

Hungry Creek: stream, flows NW 2.5 miles to Oregon Creek, 15 miles NW of Nome, Seward Peninsula Highlands; 64° 41' N, 165° 43' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Hungry Creek: stream, flows SW 2.5 miles to Wilson Creek, 1.4 miles E of Marshall, Yukon-Kuskokwim Delta; 61° 52' 25" N, 162° 02' 30" W; (map 74). Local miners' name reported in 1916 by Harrington (1918, map), USGS.

Hungry Creek: stream, flows W 4 miles to Roy Creek, 4.5 miles E of Chimney Mountain and 22 miles N of Wiseman, Brooks Range; 67° 43' N, 150° 23' W; BGN 1932; (map 124). Stream named by Robert Marshall in 1932. 438

Hungry Creek: stream, on Kenai Peninsula, flows SE 4.5 miles to Resurrection Creek, 16 miles SW of Hope, Chugach Mountains; 60° 42' 00" N, 149° 45' 25" W; (map 63). Local prospectors' name; reported in 1904 by Moffit (1906, pl. 2), USGS.

Hungry Hollow: ravine, W of Flat Top Mountain, trends SW 7 miles to Middle Fork Gulkana River, 12 miles W of Paxson Lake, Alaska Range; 62° 54' N, 145° 54' W; (map 83). Local name reported in 1950 by USGS.

Hungry Lake: lake, 0.6 miles long, on Kenai Peninsula, 3 miles NW of Dolly Varden Lake, 17 miles NE of Kenai, Cook Inlet Lowland; 64° 44' N, 150° 53' W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Hungry Village: settlement, see Lime Village.

Hungry: locality, see Whitefish Lake.

Hungryman Creek: stream, flows NE 8 miles to Tuxedni Channel, 57 miles SW of Kenai, Aleutian Range; 60° 09' N, 152° 41' W; (map 62). Name reported by USGS (Brooks and others, 1922, pl. 2).

Hungryman Creek: stream, heads in lake, flows S 10 miles to Pickle Creek 0.7 miles N of its junction with Kahiltna River, 28 miles W of Talkeetna, Alaska Range; 62° 17' 50" N, 150° 58' 40" W; (map 81). Prospectors' named reported in 1940 by USGS.

Hunker Creek: stream, flows SW 0.4 miles to New Eldorado Creek, 13 miles NE of Nome, Seward Peninsula Highlands; 64° 40' 36" N, 165° 10' 20" W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Hunner Creek: stream, flows SE 10 miles to Kaviruk River, 33 miles E of Teller, Seward Peninsula Highlands; 65° 17' N, 165° 14' W; (map 111). Variant: Hunter Creek. Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Hunnings Bay: bay, see Hanning Bay.

Hunt Creek: stream, flows E 1.2 miles to Eldorado Creek which flows to Candle Creek, 29 miles NE of Imuruk Lake, Seward Peninsula Highlands; 65° 42' N, 162° 12' W; (map 110). Local name reported in 1950 by USGS.

Hunt Creek: stream, flows NW 26 miles to Inland Lake, 14 miles SE of Selawik, Kotzebue-Kobuk Lowland; 66° 25' N, 159° 55' W; (map 114). Local name reported by the U.S. Army Corps of Engineers in 1955.

Hunt Fork: stream, formed by junction of Kevuk and Agiak Creeks, flows SE 11.5 miles to John River, 8 miles E of Sillyasheen Mountain and 65 miles NW of Wiseman, Brooks Range; 67° 44' N, 152° 25' W; (map 124). Local name shown on an 1899 fieldsheet by T. G. Gerdine, USGS.

Hunt Island: island, 0.5 miles long, part of Sandman Reefs, 6 miles S of Deer Island, Aleutian Range; 54° 45' 25" N, 162° 15' 00" W; BGN 1942; (map 25). Variant: Egg Island, Iachnoi Island, Deranof Island, Yachnoy Island. Name published in 1888 by USBF. This may be the Egg (Yachnoy) Island of Capt. M. D. Tebenkov, IRN, 1849.

Hunt Peak: mountain, 3,500 ft., at E end of Missionary Range, on Lindenberg Peninsula, Kupreanof Island, 1.3 miles NW of Petersburg, Alexander Archipelago; 56° 58' 35" N, 133° 08' 30" W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for Ens. Henry J. Hunt, USN.

Hunt River: stream, heads at 67° 40' N, 158° 48' W, flows S 43 miles to Kobuk River, 45 miles NW of Shungnak, Brooks Range; 67° 12' N, 158° 36' W; (map 126). Variant: Kon-gon-wik. Named by Lt. Stoney (1900, map), USN, in 1885, probably for one of his party. He recorded the Eskimo name as "Kon-gon-wik."

Hunt, Lake: lake, see Harriet Hunt, Lake.

Hunter Bay: estuary, extends 3 miles E, on SW coast of Prince of Wales Island, SE of Klakas Inlet, Alexander Archipelago; 54° 52' 45" N, 132° 21' 30" W; (map 1). Local name reported in 1897 by Lt. Comdr. J. F. Moser, USN.

Hunter Cove: cove, 1.4 miles across, on W shore of Muir Inlet, in Glacier Bay National Monument, 1.5 miles S of Rowlee Point and 60 miles NW of Hoonah, St. Elias Mountains; 58° 54' 30" N, 136° 06' 30" W; BGN 1948; (map 10). Name published by the American Geographical Society (Field, 1947, map). Named for Capt. J. C. Hunter of the SS City of Topeka, which brought H. F. Reid to Muir Inlet in 1892.

Hunter Creek Glacier: glacier, trends N 6 miles to its terminus at head of Hunter Creek 15 miles SE of Palmer, Chugach Mountains; 61° 22' 20" N, 148° 43' 15" W; (map 69). Local name reported in 1960 by USGS.

Hunter Creek: stream, flows E 1 mile to Nome River, S of Goose Creek, 9 miles NNE of Nome, Seward Peninsula Highlands; 64° 38' N, 165° 18' W; (map 94). Prospectors' name shown on the 1904 "Map of Cape Nome Precinct" by Arthur Gibson.

Hunter Creek: stream, flows NW 30 miles to Kiwalik River, 39 miles NW of Haycock, Seward Peninsula Highlands; 65° 44' N, 161° 49' W; (map 109). Local name shown on a 1903 fieldsheet by D. C. Witherspoon, USGS.

Hunter Creek: stream, flows SE 8.5 miles to Flint Creek, 15 miles NE of Long and 21 miles SE of Ruby, Nowitna Lowland; 64° 29' 45" N, 155° 02' 50" W; (map 98). Prospectors' name reported in 1912 by H. M. Eakin (in Brooks and others, 1913, pl. 10), USGS.

Hunter Creek: stream, heads at Hunter Creek Glacier, flows NW 8.2 miles to Knik River, 15 miles SE of Palmer, Chugach Mountains; 61° 28' N, 148° 48' W; (map 69). Local name reported in 1960 by USGS.

Hunter Creek: stream, heads at junction of Fortyseven Gulch and Ninety-two Hunter Creek and flows W 6 miles to Minook Creek, 2 miles ESE of Rampart, Yukon-Tanana Highlands; 65° 28' N, 150° 06' W; (map 106). Prospector's name reported in 1896 by J. E. Spurr, H. B. Goodrich, and F. C. Schrader, USGS. Named for William Hunter, who discovered gold here in 1896 (Prindle, 1908, P. 73).

Hunter Creek: stream, on Seward Peninsula, flows NW 1 mile to Willow Bay, 13 miles SE of Deering, Kotzebue-Kobuk Lowland; 66° 03' N, 162° 16' W; (map 113). Name used by local prospectors and reported in 1903 by D. C. Witherspoon, USGS.

Hunter Creek: stream, see Hunner Creek.

Hunter Island Breakers: rocks, 0.2 miles across, 7 miles S of Dolgoi Island, at SW end of Aleutian Range; 54° 58' 20" N, 161° 46' 00" W; (map 25). Name published in 1949 on a USGS map.

Hunter Lake: lake, 37 miles NW of Haycock, Seward Peninsula Highlands; 65° 42' N, 161° 43' W; (map 109) Local name published on maps after 1950.

Hunter North Peak, Mount: peak, see Hunter, Mount.

Hunter, Mount: peak, 14,573 ft., near head of Tokositna Glacier, 10 miles S of Denali Pass, in Mount McKinley National Park, Alaska Range; 62° 57' N, 151° 05' W; (map 81). Variant: Little McKinley, Mount Disston, Mount Hunter North Peak, Mount Roosevelt. In 1903, Robert Dunn, reporter of the "New York Commercial Advertiser," with F. A. Cook, named a high mountain "Mount Hunter," in honor of his aunt Anna Falconnet Hunter, 1855-1941, who financed his trip. R. W. Porter, USGS, in 1906, mistakenly applied the name to this peak, about 9 miles northwest of the one named by Dunn. Cook, in 1905, may have named this mountain "Mount Disston" for his friend Henry Disston. See Mount Huntington. Some members of Cook's 1906 party referred to this mountain as "Little McKinley" and the prospectors in the Yentna district to the south called it "Mount Roosevelt" for Theodore Roosevelt. The first ascent of Mount Hunter was July 5, 1954, by Fred Beckey, Heinrich Harrer, and Henry Meybohm (Farquhar, 1959, p. 222, 223).

Hunter: locality, mile 40.0 on The Alaska Railroad, 0.5 miles W of mouth of Moose Creek and 26 miles SE of Sunrise, Chugach Mountains; 60° 33' 45" N, 149° 08' 40" W; (map 63). Variant: Hunters. Reported as "Hunters" in 1912 by Grant and Higgins (1913, pl. 1), USGS. The present spelling appears in The Alaska Railroad guide of 1919.

Hunters Lake: lake, 0.8 miles long, on Kenai Peninsula, W of Sahot Lake, 25 miles SE of Kenai, Cook Inlet Lowland; 60° 26' 20" N, 150° 35' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Hunters Point: point of land, see Bird Point.

Hunters: locality, see Hunter.

Hunting Beach: locality, see Bernirk.

Hunting Point: point of land, westernmost tip of Stuart Island, 22 miles NW of St. Michael, Yukon-Kuskokwim Delta; 63° 35' N, 162° 43' W; (map 92). Local descriptive name obtained in 1952 by USC&GS. "There is a tall lookout built on this point used in the winter to spot seals on the ice."

Huntington Creek: stream, heads in Klalbaimunket Lake, flows SW 2 miles to Koyukuk River, 3 miles N of Hughes, Kokrines-Hodzana Highlands; 66° 05' N, 154° 13' W; (map 116). Local family name; recorded at Hughes in 1956 by Orth.

Huntington Slough: stream, anabranch, flows SW, then NE, 28 miles to Koyukuk River, 21 miles NE of Roundabout Mountain, Koyukuk Lowland; 65° 50' N, 156° 19' W; (map 108). Local family name applied to this slough; reported in 1956 by Orth.

Huntington, Mount: peak, 12,240 ft., S of West Fork Ruth Glacier, 9 miles SE of Denali Pass, in Mount McKinley National Park, Alaska Range; 62° 58' 05" N, 150° 53' 50" W; (map 81). Variant: Mount Disston, Mount Diston. Named by the Browne-Parker Expedition of 1910 for Archer Milton Huntington, 1870-1955, president of the American Geographical Society "under whose auspices we had undertaken the exploration of Mt. McKinley's southern glaciers." This may be the peak F. A. Cook named "Mt. Disston" in 1906 for a friend Henry Disston. See Hunter, Mount.

Hunts Creek: stream, flows N 11 miles to Chena River, 27 miles E of Fairbanks, Yukon-Tanana Highlands; 64° 51' 30" N, 146° 47' 10" W; (map 101). Local name reported in 1950 by USGS.

Hurd Creek: stream, flows NW to Pinnell River which flows to Inmachuk River between Doll and Hurd Creeks, about 13 miles NE of Imuruk Lake, Seward Peninsula Highlands; (map 110). Local name published on a precinct map of Seward Peninsula by Monroe and Hutchins; corrected to June 1903 by Arthur Gibson. This stream cannot be precisely identified on current maps.

Huron Creek: stream, flows N 9 miles to Troublesome Creek, 27 miles W of Livengood, Yukon-Tanana Highlands; 65° 31' 45" N, 149° 28' 25" W; (map 105) Named by prospectors; published by USGS (Covert and Ellsworth, 1909, pl. 5).

Hurricane Gulch: railroad station, see Hurricane.

Hurricane Gulch: ravine, trends W 5 miles to Chulitna River, 63 miles SW of Healy, Talkeetna Mountains; 63° 01' N, 149° 37' W; (map 87). It is reported that this feature was named in 1916 by an Alaska Railroad crew; however, S. R. Capps, USGS, wrote in a 1923 letter that he thought it may have been named by prospectors before that date.

Hurricane: railroad station, mile 281.4 on The Alaska Railroad, 36 mi SW of Cantwell, Talkeetna Mountains; 62° 58' 40" N, 149° 38' 20" W; (map 82). Variant: Hurricane Gulch. This station was named in 1916 for Hurricane Gulch and has been in operation since the opening of the line.

Hurst Creek: stream, heads E of Mount Hurst, flows NW 14 miles to Mastodon Creek 2.8 miles E of its junction with Tolstoi Creek, 21 miles NW of Ophir and 51 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 21' 35" N, 156° 59' 00" W; (map 90). Prospectors' name reported in 1917 by G. L. Harrington, USGS.

Hurst Mountain: mountain, see Hurst, Mount.

Hurst, Mount: mountain, 2,882 ft., on W slope of Kuskokwim Mountains, 15 miles NW of Ophir and 46 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 13' 30" N, 156° 57' 45" W; (map 90). Variant: Hurst Mountain. Prospectors' name obtained in 1908 by Maddren (1910, pl. 1), USGS.

Hurtle Creek: stream, flows NW 10 miles to Tonsina Lake, 34 miles NE of Valdez, Chugach Mountains; 61° 26' 35" N, 145° 31' 45" W; (map 68). Local name reported in 1900 by F. C. Schrader, USGS.

Husacheg: stream, see Little Delta River.

Huscroft Glacier: glacier, trends SW about 10 miles to its 1961 terminus, 1.5 miles E of head of Crillon Inlet and 81 miles NW of Hoonah, St. Elias Mountains; 58° 37' 00" N, 137° 23' 45" W (map 10). Name published by members of the Harvard-Dartmouth Expeditions, 1933-34 (Washburn and Goldthwait, 1936, map).

Huskisson, Mount: mountain, not identified, in E part of Brooks Range; (map 138). Named by Franklin (1828, p. 135) on July 21, 1826, for Mr. Huskisson, the "President of the Board of Trade * * *."

Huslia River: stream, formed by its North and South Forks, flows SE 55 miles to Koyukuk River, 13 miles N of Roundabout Mountain, Koyukuk Lowland; 65° 44' N, 156° 32' W; (map 108). Variant: Hosyekakat, Husliakakat, Husliakatna. Koyukan Indian name recorded by Lt. Allen (1887, p. 105), USA, on August 16, 1885, as "Husliakakat River," meaning "mouth of the Huslia," and "Husliakatna" (map).

Huslia: village, pop. 168, on left bank of Koyukuk River, 12 miles NE of Roundabout Mountain Koyukuk Lowland; 65° 41' N, 156° 24' W; (map 108). Variant: Cutoff, Cutoff Trading Post, Old Cutoff. In the late 1940's the Koyukan Indian population at the place called "Cutoff" or "Cutoff Trading Post" moved to a new location 4 miles away, which was named "Huslia" after the nearby stream. In 1947 a post office was established at Cutoff. In 1952 the name was changed to "Huslia" when the post office was moved to a new location on higher ground (Ricks, 1965, p. 16, 28).

Husliakakat: stream, see Huslia River.

Hussleakatna: locality, see Husliakatna.

Husliakatna: locality, "on right bank of Koyukuk River, NW of Huslia, Koyukuk." (map 108) Variant: Hussleakatna. Former Eskimo village reported in 1885 as "Hussleakatna" with a population of 14, by Lt. H. T. Allen, USA.

Husliakatna: stream, see Huslia River.

Hut Creek: stream, heads at 61° 32' N, 163° 08' W, flows NW 30 miles to Pitmik River, 45 miles W of Marshall, Yukon-Kuskokwim Delta; 61° 45' N, 163° 23' W; (map 74). So named by Orth in 1965 as an alternative to a long Eskimo name referring to a "sod hut."

Hut Point: point of land, on mainland, N point of entrance to Walker Cove, Coast Mountains; 55° 42' 45" N, 130° 54' 00" W; (map 3). Descriptive name given in 1891 by USC&GS.

Hut Point: point of land, on N end of Douglas Island On Gastineau Channel, 0.1 miles E of Entrance Point and 7.2 miles NW of Juneau, 58° 20' 05" N, 134° 36' 00" W; (map 11). Named

in 1880 by Lt. F. M. Symonds, USN, because there were some Indian huts or houses on the point and a log stockade nearby (DeArmond, 1957, p. 24). Name was published by USC&GS in the 1883 Coast Pilot (P 173)

Hutch Creek: stream, flows NW to Kuzitrin River, about 20 miles SW of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name reported on a precinct map of Seward Peninsula by Monroe and Hutchins corrected to June 1903 by Arthur Gibson. This stream cannot be precisely located on current maps.

Hutchins Bay: bay, 4.2 miles long, just W of Bearslee Islands in Glacier Bay, Glacier Bay National Monument, 55 miles NW of Juneau, St. Elias Mountains. 58° 32' N, 135° 52' W; BGN 1942; (map 11). So named by the USC&GS in 1942 because the bay's southern arm is the nesting place for large numbers of Hutchins geese (*Branta canadensis hutchinsii*).

Hutchinson Creek: stream, flows NE 17 miles to North Fork Fortymile River, 37 miles SW of Eagle, Yukon-Tanana Highlands; 64° 24' N, 142° 01' W; (map 102). Variant: Dewie Creek, Hutchison Creek. Named by prospectors and reported in 1902 by Lt. Hjalmar Erickson, USA, as "Hutchison Creek"; in 1905 the name was published by USGS as "Hutchinson Creek."

Hutchinson Creek: stream, flows SW to Penny River, about 23 miles NW of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Hutchinson Hill: hill, 99 ft., near Northeast Point. on NE coast of Saint Paul Island, in Pribilof Islands; 57° 14' 50" N, 170° 06' 30" W; (map 38). Variant: Sealion Hill. Named for Hayward Malcolm Hutchinson, businessman, one of the first Americans to reach Sitka in 1867. He bought the property of the Russian American Company forming Hutchinson, Kohl and Company. In 1872 it, in turn, was bought by the Alaska Commercial Company, which had secured the lease of the fur-seal rookeries of the Pribilof Islands. The name "Hutchinson Hill" is shown on Elliott's map of Saint Paul Island which was prepared in 1873-74.

Hutchinson Point: point of land, at S point of entrance to Port Walter, 9 miles N of Port Alexander, on SE coast of Baranof Island, Alexander Archipelago; 56° 23' 20" N, 134° 38' 00" W; (map 6). Local fishermen's name reported in 1947 by USC&GS.

Hutchinson Reef: reef, 1 mile long, NE of Spruce Cape, 5 miles NE of Kodiak, Kodiak Island; 57° 49' 45" N, 152° 18' 00" W; (map 34). Name published in 1881 by USC&GS on Chart 776.

Hutchison Creek: stream, see Hutchinson Creek.

Hutlanana Creek: stream, see Hutlinana Creek.

Hutli Bay: bay, see LeConte Bay.

Hutli Glacier: glacier, see LeConte Glacier.

Hutlina Creek: stream, see Hutlinana Creek.

Hutlinana Creek: stream, flows SW 28 miles to Baker Creek, 55 miles SE of Tanana, Yukon-Tanana Highlands; 65° 00' N, 150° 20' W; (map 106). Variant: Hootlanana Creek, Hootlinana Creek, Hutlanana Creek, Hutlina Creek. Tanana Indian name spelled "Hootlinana" by A. H. Brooks, USGS, in 1902.

Hutlinana Hot Springs: springs, on right bank of Hutlinana Creek, 21 miles SE of Rampart, Yukon-Tanana Highlands; 65° 13' N, 149° 59' W; (map 105) Named by prospectors; reported in 1916 by USGS (Waring, 1917, fig. 10).

Hutlitakwa Creek: stream, heads at 65° 15' N, 149° 33' W, flows SW 32 miles to Hutlinana Creek, 55 miles SE of Tanana, Yukon-Tanana Highlands; 65° 00' N, 150° 18' W; (map 106). Tanana Indian name reported in 1906 by USGS.

Hutt Creek: stream, see Huff Creek.

Huxley, Mount: mountain, 12,560 ft., 1.4 miles NW of The Hump, at head of Tyndall Glacier and 74 miles NW of Yakutat, St. Elias Mountains; 60° 19' 30" N, 141° 10' 30" W; BGN 1917; (map 65). Named in 1886 by H. W. Topham (1889) for Thomas Henry Huxley, 1825-95, English biologist. After receiving his medical degree from the University of London, Huxley entered the Royal Navy. His interest in biology grew from a voyage of exploration in an area around Australia. In 1854 he was appointed lecturer of Natural History in the Royal School of Mines, and later to teaching posts in several other prominent institutions of learning. He was a strong supporter of Darwin's evolutionary theory.

Huxley, Mount: peak, see Haydon Peak.

Hyacks: locality, see Eyak.

Hyda Cove: bight, see Mission Cove.

Hydaberg: village, see Hydaburg.

Hydaburg River: stream, flows SW 6.5 miles through Hydaburg to Sukkwan Narrows, on W coast of Prince of Wales Island, Alexander Archipelago; 55° 12' 20" N, 132° 49' 30" W; (map 4). Local name recorded in 1948 by USGS.

Hydaburg: village, pop. 251, on W coast of Prince of Wales Island, 22 miles SE of Craig, Alexander Archipelago; 55° 12' 20" N, 132° 49' 28" W; (map 4). Variant: Hydaberg. Named for the "Haida" Indians, the original inhabitants of this village, who came from the village of Kaigani. Hydaburg was founded in 1911 to centralize the school system; a post office was established in 1912 (Ricks, 1965, p. 28). The village is mainly engaged in fishing and trapping and has a cooperative cannery (Alaska Sportsman, 1962, no. 12, p. 28). See Kaigani.

Hydah Cove: bight, see Mission Cove.

Hyde Bay River: stream, see Mud Bay River.

Hyde Bay: estuary, see Mud Bay.

Hyden Canyon: canyon, see Heiden Canyon.

Hyder: village, pop. 32, at mouth of Salmon River, on W bank of Portland Canal, Coast Mountains; 55° 55' 00" N, 130° 01' 30" W; (map 3). Variant: Portland, Portland City. This mining community, the easternmost village in Alaska, was established in 1907 and named "Portland City" because of its location. When the post office was established in 1915, the U.S. Post Office Dept. rejected this name. The village was named Hyder for Frederick Hyder, a Canadian mining engineer who was brought to Portland City in 1914 to examine some claims. "Among the claims examined by him was the Big Missouri, belonging to Daniel Lindeborg. His report on this was so favorable that Lindeborg later proposed his name * * * for the post office." The population in 1945 was 254, mostly Indians (Colby, 1945, p. 124); in 1962 it was about 30 (Alaska Sportsman, 1962, No. 12, p. 26). The town is now practically deserted (U.S. Coast and Geodetic Survey, 1962, p. 28).

Hydra Island: island, 0.5 miles long, 7 miles ESE of Cape Kunmik, in Pacific Ocean, Aleutian Range; 56° 45' N, 157° 01' W; (map 31). Variant: Ostrov Gidra, Otter Island, Zatschra Island. Name shown as "O[strov] Gidra," or "Hydra Island," by Capt. Tebenkov (1852, map 22) and is shown as Zatschra Island on a manuscript Russian map of Kodiak (1849). An 1888 USBF chart shows "Hydra Island," apparently identical with "Otter Island," shown on a 1900 USC&GS chart.

Hydra Island: island, see West San Lorenzo Island.

Hyphen Gulch: ravine, extends NE 1.2 miles from Iron Creek, 15 miles SE of its junction with Talkeetna River and 33 miles E of Talkeetna, Talkeetna Mountains; 62° 19' 10" N, 149° 05' 20" W; (map 82). Local name recorded in 1950 by USGS.

I

I-am-tuk: stream, see Shotgun Creek.

I-gi-ahk: locality, see Mosquito Point.

I-gl-a-rak: locality, on right bank of Snake River, 4 miles SE of Lake Nunavaugoluk, Bristol Bay Lowland; 59° 06' N, 158° 48' W; (map 52). Variant: Choak-ha-mut. Eskimo village or camp shown on a 1910 manuscript map by H. C. Fassett, USBF.

I-im-tuck: stream, see Shotgun Creek.

I.X.L. Creek: stream, see Lil Creek.

Iablosk Island: islands, see Apple Islands.

Iachnie Island: island, see Egg Island.

Iachnoi Island: island, see Guillemot Island.

Iachnoi Island: island, see Hunt Island.

Iachnoi, Ostrov: island, see Egg Island.

Iachnoi: point of land, see Egg Point.

Iaichnoi: bay, see Egg Bay.

Iaichnoi: point of land, see Egg Point.

Iaktag, Cape: point of land, see Yakataga, Cape.

Ialiasik: island, see Inner Iliasik Island.

Ialiasik: island, see Outer Iliasik Island.

Ialik: point of land, see Aklek, Cape.

Ianalium: point of land, see Yanaliuk, Cape.

Iaslaktoli River: stream, heads in a lake at 61° 55' 15" N, 164° 44' 00" W, flows NW and S 25 miles to Kun River, 21 miles E of Scammon Bay, Yukon-Kuskokwim Delta; 61° 55' N, 164° 56' W; (map 74). Variant: North Fork Kun River. Eskimo name reported in 1949 by USC&GS.

Ibach Point: point of land, on Glacier Bay, in Glacier Bay National Monument, at mouth of Reid Inlet, 72 miles NW of Honnah, St. Elias Mountains; 58° 52' 45" N, 136° 47' 45" W; BGN 1962; (map 10). Named by NPS in 1962 for Joe Ibach, who once lived on Reid Inlet and who prospected and extensively explored the area for 35 years. Ibach died in 1959.

Ibeck Creek: stream, flows SW 15 miles to Eyak River, 4.5 miles SE of Cordova, Chugach Mountains; 60° 31' N, 145° 38' W; (map 64). "Named for a local miner," reported by U.S. Grant and D. F. Higgins (in Brooks and others, 1909, pl. 4), USGS.

Ibex Camp: locality, 3 miles NE of West Peak and 6 miles NE of Valdez, Chugach Mountains; 61° 12' 10" N, 146° 12' 00" W; (map 68). This mining camp was reported in 1911 by J. W. Bagley and C. E. Giffin, USGS.

Ibex Creek: stream, heads at Texas Glacier, flows S 1.5 miles to West Fork Texas Creek, 2.5 miles SE of Mount Jefferson Coolidge and Alaska-Canada boundary, Coast Mountains; 56° 03' 40" N, 130° 11' 00" W; (map 7). Local name published by A. F. Buddington (in Brooks and others, 1925, p. 85), USGS.

Ibkhikhyit: lava bed, see Ibkikwit Lava Bed.

Ibkikwit Lava Bed: lava bed, 2 miles long, 1 mile E of Karon Lake, 12 miles N of Cape Mendenhall, Nunivak Island; 59° 58' 30" N, 166° 12' 30" W; (map 55). Variant: Ebcyeet, Ibkhikhyit, Ibxixyit. Eskimo name obtained in 1949 by USC&GS.

Ibrulikhoruk Creek: stream, see Ibrulikorak Creek.

Ibrulikorak Creek: stream, flows S 0.9 miles to Chukchi Sea, 0.2 miles SE of Cape Thompson, Arctic Slope; 68° 08' 30" N, 165° 58' 20" W; BGN 1963; (map 129). Variant: Eebrulikgorruk, Eegrulioruk Creek, Eeegikrattusuq Creek, Eebikruttoosook Creek, Ibrulikhoruk Creek. Eskimo name reported about 1960 as "Eebruligorruk" by D. C. Foote in connection with Project Chariot studies. According to W. O. Pruitt, Univ. of Alaska, who spells it "Ibrulikhoruk," the name means "little sod house."

Ibxixyit: lava bed, see Ibkikwit Lava Bed.

Icathluik: stream, see Fish River.

Icathluik: stream, see Niukluk River.

Ice Bay: bight, see Palma Bay.

Ice Creek: stream, flows SE 12 miles to Lake Aleknagik, 24 miles NW of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 20' N, 158° 48' W; BGN 1931; (map 52). Variant: Nu-garth-pe-ak Ta-di-ok. Local name reported by USBF in 1929. The Eskimo name "Nu-garth-pe-ak Ta-di-ok" was used by H. C. Fassett, USBF, in 1910.

Ice Creek: stream, heads S of Gustineau Peak, flows 1 mile N to Silverbow Basin, 3 miles E of Juneau, Coast Mountains; 58° 18' 15" N, 134° 20' 15" W; (map 11). Variant: Southwest Fork of Gold Creek. Local name used by early miners. Some of the earliest placer workings in the Juneau area were along this stream (DeArmond, 1957, p. 24-25).

Ice Gulch: ravine, see Icy Gulch.

Ice Gulch: ravine, trends E 0.9 miles to Nome River, 0.1 miles downstream from Iron Creek and 14 miles N of Nome, Seward Peninsula Highlands; 64° 42' N, 165° 19' W; (map 94). Prospectors' name reported on a map by S. E. King dated 1900.

Ice Lake: lake, 0.6 miles long, on Kenai Peninsula, 2.3 miles SSE of Quill Lake and 23 miles NE of Kenai, Cook Inlet Lowland; 60° 44' N, 150° 42' W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Ice Stream Point: point of land, on coast of Beaufort Sea, on S shore of Smith Bay probably on Ikpikpuk River Delta, Arctic Plain; (map 148). This name appears on Thomas Simpson's map. He describes it as "Near the middle of this [Smith] bay, a concealed reef ran far out upon which lay a stream of floating ice, * * *." (Simpson, 1843, p. 137).

Ice Valley: valley, 1.5 miles long, in Glacier Bay National Monument, 3 miles E of Tidal Inlet and 57 miles NW of Hoonah, St. Elias Mountains; 58° 49' 15" N, 136° 10' 45" W; (map 10). Named in 1947 by the American Geographical Society; this valley was formerly occupied by Dying Glacier and still contains some stagnant ice.

Iceberg Lake: lake, 2 miles long, on Kenai Peninsula, in Kenai Mountains, W of Skilak Glacier, 45 miles ESE of Kenai, Chugach Mountains; 60° 13' N, 150° 08' W; (map 62). Local descriptive name; reported in 1950 by USGS.

Iceberg Lake: lake, 2 miles long, trends EW on E margin of Tazlina Glacier, 10 miles S of Tazlina Lake and 34 miles NW of Valdez, Chugach Mountains; 61° 36' 00" N, 146° 29' 15" W; (map 68). Local name published since 1950 by USGS.

Iceberg Point: point of land, on S end of Lemesurier Island, in South Passage, S of Jacks Cove, 25 miles NW of Hoonah, St. Elias Mountains; 58° 15' 50" N, 136° 04' 30" W; (map 10). So named by Master G. C. Hanus, USN, in 1880 "because much drift ice was stranded on the point." The name was published by USC&GS in the 1883 Alaska Coast Pilot (p. 190).

Iceberg Point: point of land, westernmost point of Glacier Island, 48 miles NE of Whittier, Chugach Mountains, 60° 52' 40" N, 147° 19' 30" W; (map 63). Local name reported in 1951 by USGS.

Icefall Lake: lake, 1.5 miles long, 5 miles NW of Mount Sumdum and 40 miles SE of Juneau; 57° 53' 20" N, 133° 28' 35" W; BGN 1966; (map 8). Descriptive name given in 1965 by USGS and USFS because "ice from a nearby glacier breaks off and falls over a cliff into a small basin between the lake and the cliff."

Icefall Peak: peak, 8,000 ft., at head of College Glacier, 18 miles NNE of Paxson, Alaska Range; 63° 16' 50" N, 145° 20' 45" W; (map 86). Named between 1948 and 1955 by T. L. Pewe, USGS.

Icefall Spires: ridge, trends SW 4 miles from junction of Battle and Reversed Glaciers, 30 miles N of Juneau, Coast Mountains; 58° 43' 15" N, 134° 36' 00" W; BGN 1965; (map 11). Descriptive name given by members of the Juneau Icefield Research Project in 1964.

Icehouse Lake: lake, 0.1 mile across, between Telegraph Hill and Salt Lagoon, on south-central Saint Paul Island, in Pribilof Islands; 57° 08' 30" N, 170° 15' 50" W; (map 38). Local name reported in 1965 by USBF. This lake, or lakes, depending on water level, was formerly the water supply for Saint Paul and so called because the village icehouse is located nearby.

Icehouse Lake: lake, 0.2 miles long, on Woody Island, 1.9 miles E of Kodiak, Kodiak Island; 57° 47' N, 152° 21' W; (map 34). Variant: Ozero peshchanoye, Pestchanoe Lake. Descriptive name given in late 1800's (?) by USC&GS. "This is the lake from which the Kodiak Ice Company obtains its ice" (Baker, 1906, p. 318). Ameigh and Chaffin (1962, p. 51) report that the Kodiak Ice Company obtained their ice from nearby Taniguak Lake. Called "Oz[ero] Peshchanoye," meaning "sandy lake," by Sarichev (1826, map 16).

Icehouse Point: point of land, on W coast of Woody Island, 1.8 miles E of Kodiak, Kodiak Island; 57° 46' 50" N, 152° 21' 30" W; (map 34). Variant: Mys Peshchanoye, Pestchanoe Point. Descriptive name given in late 1800's (?) by USC&GS. See Icehouse Lake. Named "M[ys] Peschchanoye," meaning "sandy cape," by Sarichev (1826, map 16).

Iceworm Gulch: ravine, trends NW 2.5 miles to Nenana River, 2.2 miles NE of village of McKinley Park, Alaska Range; 63° 45' 50" N, 148° 54' 25" W; BGN 1965; (map 87). Named in 1965 by Alaska Dept. of Highways because "iceworms are the only indigenous wildlife whose name begins with an 'I.'" "The naming of some features in this area was done ecologically and alphabetically.

Iceworm Peak: peak, 5,800 ft., 9 miles S of Bradley Lake and 27 miles ESE of Homer, Chugach Mountains; 59° 36' 35" N, 150° 47' 35" W; BGN 1966; (map 50). So named in 1966 by the Mountaineering Club of Alaska because "Iceworms were noted on Nuka Glacier" by a party in 1951.

Ichoograhloorak: locality, see Itugralurak.

Ickes Slough: channel, of the Yukon River, 5.5 miles long, between Roosevelt Island and mainland, 12 miles SSW of Russian Mission, Yukon-Kuskokwim Delta; 61° 37' N, 161° 30' W; (map 73). Name shown on a 1940 navigation chart of the Yukon River. Because this chart was compiled by the Riverboat Service, The Alaska Railroad, U.S. Dept. of Interior, it may have been named for Harold L. Ickes, 1874-1952, Secretary of the U.S. Department of the Interior from 1933 to 1946. See Roosevelt Island.

Icknetuk Point: point of land, on N shore of Norton Sound 8 miles NW of Rocky Point and 33 miles E of Solomon, Seward Peninsula Highlands; 64° 30' N, 163° 20' W; (map 95). Variant: Ignituk Point, Iknetuk Point. Eskimo name reported in 1899 by Schrader and Brooks (1900, map 3), USGS.

Icolick: locality, see Ikolik.

Icon Bay: bight, 1 mile across, on SE coast of Spruce Island, NE of Kodiak Island; 57° 53' 50" N, 152° 20' 30" W; (map 34). Local name reported in 1949 by USGS.

Icy Arm: estuary, see Taku Inlet.

Icy Basin: valley, 1.2 miles across, snow filled, trending W to Taku Glacier, 12 miles NW of Twin Glacier Lake and 25 miles NE of Juneau, Coast Mountains; 58° 38' 30" N, 134° 12' 00" W; BGN 1965; (map 11). Descriptive name given by members of the Juneau Icefield Research Project in 1964.

Icy Bay: bay, 16 miles long, at terminus of Guyot and Malaspina Glaciers, 66 miles NW of Yakutat, Malaspina Coastal Plain; 59° 55' N, 141° 33' W; (map 47). Variant: Ledaunala, Liodiano Bay, Lothiano. Explored by Joseph Whidbey June 4, 1794, and named by Capt. Vancouver (1798, v. 3, p. 204, 210, and 225), RN, but not shown on Vancouver's chart. This name was translated into Russian and is shown by Capt. Tebenkov (1852, map 7), IRN, as "Z[aliv] Ledyanoi." Early descriptions of this bay state that it was "composed of snow-ice, about thirty feet in height at the water-cliff, and probably based on a low muddy beach" (USC&GS, 1869, p. 141-142). The bay, as seen and described in the 18th and 19th centuries, seems to have been an indentation of the Malaspina Glacier front located near where the mouth of the Yahtse River is now. The present Icy Bay was uncovered by the retreat of the glacier since 1899.

Icy Bay: bight, see Palma Bay.

Icy Bay: estuary, on E coast of Kenai Peninsula, extends NE 12 miles from terminus of Tiger Glacier, 6 miles W of Chenega, Chugach Mountains; 60° 17' N, 148° 12' W; (map 63). "Explored by Joseph Whidbey [of Capt. Vancouver's expedition] June 4, 1794, and named by Vancouver, but not shown on his chart" (Wagner, 1937, p. 393).

Icy Cape Pass: water passage, in barrier bar between Chukchi Sea and Kasegaluk Lagoon, 2.5 miles SW of Icy Cape, Arctic Plain; 70° 18' N, 161° 57' W; (map 146). Name published in 1955 by USGS.

Icy Cape: locality, see Otokkok.

Icy Cape: point of land, at NW entrance to Icy Bay, 75 miles NW of Yakutat, Malaspina Coastal Plain; 59° 56' 45" N, 141° 42' 00" W; (map 47). Variant: Ledianoi, Ledyanoi, Punta Olavide. This name appears to be a translation published by USC&GS in 1868 of the Russian name shown as Ledyanoi, "M[ys]" (Cape Icy) by Capt. Tebenkov (1852, map 7), IRN. See Icy Bay. This appears to be also the "Punta Olavide" of Capt. Alessandro Malaspina, named in July 22, 1791. See Wagner (1937, p. 479). 442

Icy Cape: point of land, on Chukchi Sea coast, 48 miles SW of Wainwright, Arctic Plain; 70° 20' N, 161° 52' W; BGN 1944; (map 146). Variant: Ootookok Cape, Utukok Cape. So named by Capt. Cook (1785, v. 2, p. 455), who wrote August 15, 1778, "The eastern extreme forms a point which was much encumbered with ice; for which reason it obtained the name of Icy Cape." This was the northern limit of Cook's discoveries. The Eskimo word "utoqaq" means "old" or "ancient" place.

Icy Channel: water passage, see Gastineau Channel.

Icy Cove: bight, 0.3 miles across, on E shore of Frederick Sound, 7.5 miles NE of Petersburg, Coast Mountains; 56° 52' 00" N, 132° 47' 45" W; (map 6). Local descriptive name reported in 1961 by USGS.

Icy Gulch: ravine, on N slope of Gastineau Peak, trends N 0.7 miles to Silverbow Basin, 2.5 miles E of Juneau, Coast Mountains; 58° 18' 15" N, 134° 20' 15" W; (map 11). Variant: Ice Gulch. Descriptive name recorded by W. M. Bennett in a mining claim in 1880. Some of the earliest placer workings in the Juneau area were here (DeArmond, 1957, p. 24-25). The name was published by W. J. Peters, USGS, in 1902.

Icy Passage: water passage, 9 miles long, N of Pleasant Island, in Icy Strait, 44 miles NW of Juneau, St. Elias Mountains; 58° 23' N, 135° 35' W; (map 11). Descriptive name published by USC&GS in the 1891 Coast Pilot (p. 194).

Icy Peak: peak, 4,500 ft., 9.5 miles SW of Cape Kayakliut, on S coast of Alaska Peninsula, 38 miles SW of Ugashik, Aleutian Range; 57° 15' N, 156° 32' W; (map 36). Local descriptive name published by USC&GS in the early 1880's.

Icy Point: point of land, in Glacier Bay National Monument, at mouth of Palma Bay, 1 mile S of mouth of Kaknau Creek and 62 miles NW of Hoonah, St. Elias Mountains; 58° 23' 10" N, 137° 04' 20" W; (map 10). Variant: Cape Forrest, Mys Ledyanoy. Named "M[ys] Ledyanoy" meaning "cape icy," by Capt. Tebenkov (1852, map 8) presumably because of the stranded drift ice. It has also been called "Cape Forrest" USC&GS, 1883, Alaska Coast Pilot, p. 201).

Icy Point: point of land, on S shore of Douglas Island, 2.7 miles SSW of Dupont and 9 miles SW of Juneau, Coast Mountains; 58° 11' 30" N, 134° 16' 40" W; (map 11). Name published by USC&GS in 1924 on Chart 8223.

Icy Point: point of land, see Glacier Point.

Icy Reef: barrier reef, extends 16 miles NW from Demarcation Bay, between Beaufort Sea and mainland, Arctic Plain; 69° 46' N 141° 37' W (map 138). So named August 2, 1826, by Franklin (1828, p. 143), because of the condition of the reef.

Icy Strait: water passage, 50 miles long, at N end of Chichagof Island, between Chatham Strait and Cross Sound, 40 miles W of Juneau, Alexander Archipelago; St. Elias Mountains; 58° 18' N, 134° 45' W; (map 11). Variant: Proliv Ledyanoy. This name is a translation of the Russian name "Proliv Ledyanoy" (Tebenkov, 1852, map 8). USC&GS published the translation in 1883 Coast Pilot (p. 118).

Icy Strait: water passage, see Cross Sound.

Ida Creek: stream, flows NW 0.6 miles to Bonita Creek, 11 miles NE of Nome, Seward Peninsula Highlands; 64° 38' N, 165° 11' W; (map 94). Variant: Moose Creek, Morse Creek. Prospectors' name reported in 1904 by T. G. Gerdine, USGS. Shown as "Morse" on a 1901 map of Cape Nome gold fields by David Fox, Jr. Arthur Gibson's map of 1904 shows "Ida" or "Moose."

Ida Gulch: ravine, trends E 3 miles from Caribou Mountain in Zane Hills to Bear Creek, 43 miles WNW of Hughes, Hogatza Highlands; 66° 12' N, 155° 45' W; (map 116). Named by mining engineers about 1955; reported in 1956 by Orth.

Ida Gulch: ravine, trends SE 0.5 miles to Casadepaga River, between Blind and Moonlight Creeks, 15 miles N of Solomon, Seward Peninsula Highlands; 64° 47' N, 164° 28' W; (map 95). Prospectors' name reported in 1907 by USGS geologists (Smith, P. S., 1910, pl. 4).

Ida Gulch: stream, N of Blueberry Ridge, flows SE 2.6 miles to Illinois Creek, 3 miles N of that stream's mouth, Kokrines-Hodzana Highlands 65° 13' 20" N, 153° 07' 30" W; (map 107). Prospector' name reported by USGS in the 1940's, but probably was used much earlier.

Idagak Strait: water passage, see Udagak Strait.

Idaho Bar: bar, in Kuzitrin River, upstream of Idaho Creek, about 19 miles W of Mount Bendeleben, Seward Peninsula Highlands; 65° 14' N, 164° 43' W; (map 110). Local name reported in 1901 by T. G. Gerdine (in Collier, 1902, p. 12), USGS. The application of this name at this time is uncertain.

Idaho Bar: bar, see Brockways Bar.

Idaho Bar: ridge, 1,900 ft., trends SE 3 miles from Minook Creek, between Little Minook and Hunter Creeks, 6 miles SE of Rampart, Yukon-Tanana Highlands; 65° 28' N, 150° 00' W; (maps 105 and 106). Named by prospectors; reported in 1904 by L. M. Prindle (in Brooks and others, 1905, fig. 6), USGS. The name, as used by miners, probably applied to an old stream channel now located across the ridge, but cartographic usage applies it to the whole ridge.

Idaho Creek: stream, flows N 2 miles to Creston Creek, 6 miles NE of Cripple Creek Mountains and 51 miles NW of Medfra, Kilbuck-Kuskokwim Mountains; 63° 36' N, 155° 56' W; (map 89). Local name reported in 1954 by USGS.

Idaho Creek: stream, flows NW 1 mile to Alder Creek, in Bluestone River basin, 14 miles SE of Teller, Seward Peninsula Highlands; 65° 05' N, 166° 08' W; (map 111). Prospectors' name reported on a map of Cape Nome goldfields by David Fox, Jr., date 1901.

Idaho Creek: stream, flows S 3 miles to McManus Creek, 68 miles SW of Circle, Yukon-Tanana Highlands; 65° 21' N, 146° 10' W; (map 104). Named by prospectors and reported in 1903 by T. G. Gerdine (Prindle, 1905, pl. 13), USGS.

Idaho Creek: stream, flows SE 3.3 miles to Little Nelchina River, 16 miles NE of Tahnetta Pass and 60 miles SW of Gulkana, Talkeetna Mountains; 62° 06' 40" N, 147° 13' 20" W; (map 82). Local name reported in 1917 by USGS.

Idaho Creek: stream, flows SE 4.5 miles to Sunflower Creek, 51 miles NW of Talkeetna, Alaska Range; 62° 31' 10" N, 151° 39' 00" W; BGN 1912; (map 81). Prospectors' name reported by F. A. Cook (1908, map).

Idaho Creek: stream, flows SW 3 miles to Kuzitrin River, 20 miles NW of Mount Bendeleben, Seward Peninsula Highlands; 65° 14' N, 164° 45' W; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Idaho Creek: stream, flows SW 4.5 miles to Montana Creek, 48 miles NW of Fairbanks, Yukon-Tanana Highlands; 65° 13' 10" N, 149° 06' 40" W; (map 105). Named by prospectors; published in 1906 by USGS.

Idaho Creek: stream, see California Creek.

Idaho Gulch: ravine, extends 1.5 miles N to Copper Creek S of Lime Butte, 16 miles SE of McCarthy, St. Elias Mountains; 61° 21' 30" N, 142° 27' 45" W; (map 67). Local name published by USGS (Mendenhall and Schrader, 1903, fig. 5), taken from the sketch map of the Nizina Mining area done in 1902 by G. M. Easterly of Valdez.

Idaho Gulch: ravine, extends SE 2.2 miles to Sullivan Creek, 35 miles ESE of Tanana, Yukon-Tanana Highlands; 65° 04' 28" N, 150° 54' 00" W; (map 106). Prospectors' name reported in 1931 by J. B. Mertie, USGS.

Idaho Gulch: ravine, trends NW 5 miles to Maston Creek which flows to Crosby Creek, 8 miles SW of Ear Mountain and 40 miles N of Teller, Seward Peninsula Highlands; 65° 49' N, 166° 17' W; (map 111). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Idaho Inlet: estuary, 9.5 miles long, on N coast of Chichagof Island, trends SSE from Icy Strait, Alexander Archipelago; 58° 11' 30" N, 136° 13' 00" W; (map 10). Named by Capt. W. E. George for the excursion steamer Idaho which grounded near the head of the inlet (USC&GS 1883, p. 190).

Idaho Inlet: locality, on E shore of Idaho Inlet, N coast of Chichagof Island, Alexander Archipelago; 58° 10' N, 136° 12' W; (map 10). Name reported in 1961.

Idaho Peak: mountain, see Sunset Peak.

Idaho Peak: peak, 5,000 ft., on W bank of Little Susitna River, 14 miles N of Palmer, Talkeetna Mountains; 61° 48' 15" N, 149° 08' 20" W; (map 69). Name reported in 1913 by USGS (Brooks and others, 1914, fig. 2).

Idaho Ridge: ridge, trends W 6 miles, 1.5 miles W of Hunter Cove, on Muir Inlet, in Glacier Bay National Monument, 61 miles NW of Hoonah, St. Elias Mountains; 58° 54' N, 136° 14' W; (map 10). Name published by the American Geographical Society (Field, 1947, map).

Idaho Rock: rock, off SW coast of Revillagigedo Island, in Tongass Narrows (East Channel), 800 ft. W of Saxman, Alexander Archipelago; 55° 19' N, 131° 36' W; (map 3). Local name published by USC&GS in the 1901 Coast Pilot (p. 51).

Idak Cove: bight, 3 miles across, in Otter Bight, on E coast of Umnak Island, Aleutian Islands; 53° 26' N, 167° 50' W; (map 23). Name reported by the U.S. Army Corps of Engineers in 1942.

Idak Cove: bight, see Otter Bight.

Idak Creek: stream, flowing E 4 miles to Otter Bight, 3 miles N of Fort Glenn on NE coast of Umnak Island, Aleutian Islands; 53° 26' 15" N, 167° 51' 30" W; (map 23). Name published by USGS (in Byers, 1959, pl. 41). This name may have been derived from the Aleutian word, "idakuq," meaning "it leaves; it emanates from" (in Geoghegan, 1944, p. 109), and may have been arbitrarily "clipped" for cartographic convenience.

Idak, Cape: point of land, NE tip of Umnak Island, NW end of Umnak Pass, Aleutian Islands; 53° 31' 20" N, 167° 47' 45" W; (map 23). Variant: Cape Edakh, Mys Idakh. Name published by Capt. Tebenkov (1852, map 25), IRN, as "M[ys] Idakh" or "Cape Idak." R. H. Geoghegan believes the name to be the Aleut name "Idakug" meaning "exit or outlet."

Idak, Mount: mountain, 1,918 ft., 5 miles N of Fort Glenn, on NE coast of Umnak Island, Aleutian Islands; 53° 28' 00" N, 167° 53' 30" W; (map 23). Name reported as Idak Peak by U.S. Army Corps of Engineers in 1942, and published as Mount Idak by USGS (Byers, 1959, pl. 41). See Idak Creek.

Idakh, Mys: point of land, see Idak, Cape.

Idaliuk Cape: point of land, see Idaliuk Point.

Idaliuk Point: point of land, on SW coast of Umnak Island, Aleutian Islands; 52° 52' 00" N, 169° 04' 00" W; BGN 1942; (map 21). Variant: Idaliuk Cape, Mys Idalyukh. Aleut name published by Capt. Tebenkov (1852, map 26), IRN, as "M[ys] Idalyukh," or "Cape Idalyukh."

Idaliuk, Cape: point of land, see Prominence, Cape.

Idalug, Cape: point of land, on N coast of Amlia Island, Aleutian Islands; 52° 08' 30" N, 173° 31' 45" W; (map 19). Aleut name published by Capt. Tebenkov (1852, map 27), IRN, as "M[ys] Idalug" or "Cape Idalug."

Idalyukh, Cape: point of land, see Prominence, Cape.

Idalyukh, Mys: point of land, see Idaliuk Point.

Idavain Lake: lake, 4.3 miles long, N of Naknek Lake, on Alaska Peninsula, in Katmai National Monument, 37 miles E of Naknek, Aleutian Range; 58° 46' N, 155° 56' W; (map 42). Reported in 1951 by USGS.

Ideal Cove: cove, extends N 1 mile to Frederick Sound, on E coast of Mitkof Island, 16 miles NW of Wrangell, Alexander Archipelago; 56° 40' N, 132° 38' W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for charting purposes; published in 1888 on USC&GS Chart 705.

Ides Neck: isthmus, between Schulze Cove and Peril Strait, on NW coast of Baranof Island, 27 miles SE of Chichagof, Alexander Archipelago; 57° 24' 15" N, 135° 36' 30" W; (map 9). Named in 1884 by Comdr. J. B. Coghlan, USN, and published by USC&GS on Chart 727.

Ididarod River: stream, see Iditarod River.

Ididarod: locality, see Iditarod.

Iditarod River: stream, heads at 61° 47' N, 158° 56' W, flows NE and W 325 miles to Innoko River, 25 miles NE of Holikachuck and 66 miles NE of Holy Cross, Innoko Lowland; 63° 02' N, 158° 46' W; BGN 1948; (map 90). Variant: Haidilatna River, Haiditarod River, Ididarod River, Tachaichagat River, Yachzikatna River, Yalchikatna River, Yalchikatno River, Yath-ta-gotna River, Yuthagotna River. Name reported in 1908 by A. G. Maddren, USGS, as "Haidilatna," which is probably an English distortion by prospectors of the name of an Ingalik Indian village on stream spelled by Father Jette "Khadilotden." It was shortly thereafter standardized to "Iditarod" from "Haiditarod." Lt. L. A. Zagoskin, IRN, records two Indian names for the stream in 1842-44, "Yalchikatna (or Yalchikatna)" obtained from the Indians on Innoko River and "Tachaichagat" apparently obtained from Indians on Kuskokwim drainage. Both seem to be different forms of the same name. Father Jette in 1915 spelled the Indian name for the stream "Yachzikatna."

Iditarod: locality, on E bank of Iditarod River, 7 miles NW of Flat and 52 miles S of Holikachuck, Kilbuck-Kuskokwim Mountains; 62° 32' 40" N, 158° 05' 30" W; (map 79). Variant: Ididarod. Iditarod became the supply and commercial center of the Innoko-Iditarod placer district shortly after its founding in June 1910. It was on the summer water route and winter sled trail. It had a population of about 600 or 700 persons in 1911. A post office was maintained here from 1910 to 1929. Its population was 50 in 1920, 8 in 1930, and 1 in 1940. See Iditarod River.

Ig-gig-lah-rook Mountain: mountain, see Igiglogruk Mountain.

Igachorok Mountain: hills, see Mulik Hills.

Igachoruk Mountain: hills, see Mulik Hills.

Igachoruk River: stream, see Hugo Creek.

Igagik River: stream, see Egegik River.

Igagik: village, see Egegik.

Igagik: village, see Ugashik.

Igagmjut: locality, see Igak.

Igak Bay: bay, see Ugak Bay.

Igak: locality, "on Afognak Island, E of Afognak, Kodiak Island" (map i3). Variant: Igagmjut, Kaljukischwigmjut. Former Eskimo camp or village reported by Hodge (1907, p. 595), BAE, who said "it seems to have been moved."

Igakik River: stream, see Ugashik River.

Igakskie: bay, see Ugak Bay.

Igalik Island: barrier island, 2.5 miles long, in Plover Islands, 36 miles E of Barrow, Arctic Plain; BGN 1916; 71° 10' N, 155° 10' W; (map 153). Variant: Igilik Island, Ikalu Island, Ikalue Island. Eskimo name reported to mean “window,” by E. de K. Leffingwell, in 1910. Leffingwell (1919, p. 96) states it is “The easternmost of the Plover Islands,” and “Probably the same as Ikalue on Brit. Adm. Chart No. 593.”

Iganata-koverushka: hill, see Maynard Hill.

Igatskai: bay, see Ugak Bay.

Igatskoy, Zaliv: bay, see Ugak Bay.

Igavik Creek: stream, see Egavik Creek.

Igavik: village, see Egavik.

Igeechowrak: hill, see Iyichoruk Mountain.

Iggiruk Mountains: mountains, 3,208 ft., extend NW-SE 20 miles, in De Long Mountains, 45 miles E of Mishegak Mountain, Brooks Range; 68° 15' N, 159° 20' W; (map 131). Eskimo name obtained at Noatak in 1956 by USGS.

Ighauvik: village, see Egavik.

Ighelkoslende: locality, see Katagkak.

Ighiack, Cap: point of land, see Ugyak, Cape.

Ighiak Lake: lake, see Eyak Lake.

Ighiak: locality, see Eyak.

Ighiakchaghamiut: locality, see Igiakchak.

Igiagamute: locality, see Igiak.

Igiagamute: locality, see Igiayarok.

Igiagik: village, see Egegik.

Igiagiuk, Tugat: lake, see Becharof Lake.

Igiak Bay: bay, see Kokechik Bay.

Igiak Mountains: mountains, see Askinuk Mountains

Igiak, Mys: point of land, see Ugyak, Cape.

Igiak: locality, "E of Scammon Bay on E side of Bering Sea," Yukon-Kuskokwim Delta; (map 75). Variant: Igiagagamute, Igiogagamut, Iragamiut. Former Eskimo camp or settlement reported in 1878 as "Iragamiut" by E. W. Nelson, U.S. Signal Service. Ivan Petroff listed the name as "Igiagagamute" with a population of 10 in the 1880 Census.

Igiak: locality, 5 miles N of Hooper Bay, Yukon-Kuskokwim Delta; 61° 37' N, 165° 56' W; (map 75). Variant: Igiyarok, Tellamishuk. This name has appeared on maps, but it is doubted that a village of this name was located here. It is near an archaeological site called "Tellamishuk." The name may refer to a site 20 miles NE called "Igiyarok."

Igiak: locality, see Igiyarok.

Igiakchak: locality, "in the Kuskokwim district." Variant: Ighiakchaghamiut. Former Eskimo camp or settlement listed as "Ighiakchaghamiut" with a population of 81 in the 1890 Census.

Igiarok: locality, see Igiyarok.

Igiyarok Pass: pass, 295 ft., in Askinuk Mountains, 2 miles SE of Castle Hill and 4.5 miles SE of village of Scammon Bay, Yukon-Kuskokwim Delta; 61° 49' N, 165° 27' W; (map 75). Eskimo name meaning "throat" reported by USC&GS in 1949. See Igiyarok.

Igiyarok: locality, near Kagankaguti Lake, at E end of Askinak Mountains, 30 miles NE of Hooper Bay, Yukon-Kuskokwim Delta; 61° 43' N, 165° 18' W; (map 75). Variant: Igiagamute, Igiak, Igiarok, Ikragamiut. Eskimo village consisting of two huts, visited by Nelson (1882, p. 665), U.S. Signal Service, in December 1878. He calls it "Igiagamute" on his map and "Iragamiut" in his text. The name, variously written "Ikiak," Igiagagamute," etc., has been applied to places extending from Kokechik Bay to the east end of the Askinuk Mountains. See Igiyarok Pass.

Igichorak: hill, see Iyichoruk Mountain.

Igichuk Hills: range, extends NE 45 miles from Krusenstern Lagoon to SW end of Baird Mountains, 20 miles N of Kotzebue, Arctic Slope; 67° 14' N, 162° 45' W; BGN 1962; (map 128). Eskimo name reported in 1913 by P. S. Smith, USGS.

Igichuk River: stream, see Noatak River.

Igiglogruk Mountain: mountain, 1,617 ft., in Mulgrave Hills, 25 miles SE of Kivalina, Arctic Slope; 67° 41' N, 163° 34' W; (map 128). Variant: Ig-gig-lah-rock Mountain, Igigloruk. Eskimo name meaning "old mountain" reported in 1950 by USC&GS.

Igigloruk: mountain, see Igiglogruk Mountain.

Igigrok: mountain, see Iyikrok Mountain.

Igigruk: mountain, see Iyikrok Mountain.

Igikalik Creek: stream, see Thetis Creek.

Igikpak, Mount: mountain, 8,510 ft., in Schwatka Mountains, at head of Noatak River, Brooks Range 67° 25' N, 154° 58' W; (map 125). Eskimo name reported by Orth, USGS, in 1956 to refer in meaning to “two big peaks” and may refer to the two high rock columns that form the top of the mountain. It is the highest peak in the western Brooks Range.

Igiksukrak: mountain, see Hamlet, Mount.

Igilatvik Creek: stream, heads in lake and flows 27 miles NE to Jago River, 5 miles S of junction with Okerokovik River and 23 miles SE of Barter Island, Arctic Plain; 69° 01' N, 143° 27' W; (map 138). Eskimo name recorded on Barter Island by Orth, USGS, in 1956, and reported to mean “place where parts of a house are found.”

Igilerak Hill: hill, 600 ft., in Kemegrak Hills between Ilikrak and Kokirat Creeks, 10 miles NE of Cape Thompson, Arctic Slope; 68° 17' N, 165° 44' W; BGN 1963; (map 129). Variant: Eegillerak Mountain. Eskimo name recorded in 1960 by D. C. Foote in connection with Project Chariot; he spelled it “Eegillerak.”

Igilik Island: barrier island, see Igalik Island.

Igiogagamut: locality, see Igiak.

Igisooogrook Mountain: hill, see Igisukruk Mountain.

Igisooogrook Mountain: mountain, see Noak, Mount.

Igisukruk Mountain: hill, 875 ft., in Igichuk Hills SE of Mount Noak, 18 miles NW of Kotzebue, Arctic Slope; 67° 08' N, 162° 55' W; (map 128). Variant: Igisooogrook Mountain. Eskimo name meaning “big mountain” according to USC&GS in 1950.

Igitkihn Island: island, see Igitkin Island.

Igitkilm Island: island, see Igitkin Island.

Igitkin Bank: shoal, 2 miles long, trends W between Igitkin and Great Sitkin Islands, Aleutian Islands; 51° 58' 55” N, 175° 59' 00” W; BGN 1936; (map 18) Name published by USC&GS in the 1944 Aleutian Coast Pilot (p. 103); named for Igitkin Island by the U.S. Navy Aleutian Island Survey Expedition of 1934.

Igitkin Bight: cove, 0.3 miles across, on N coast of Igitkin Island, Aleutian Islands; 51° 59' 20” N, 175° 53' 20” W; BGN 1936; (map 18). Name published by the USC&GS in the 1944 Aleutian Coast Pilot (p. 103) and named for Igitkin Island by the U.S. Navy Aleutian Island Survey Expedition of 1934.

Igitkin Island: island, 6.7 miles long, 3 miles SE of Great Sitkin Island, between Adak and Atka Islands, one of Andreanof Islands, Aleutian Islands; 51° 59' N, 175° 54' W; BGN 1890; (map 18). Variant: Egilka Island, Igitkihn Island, Igitkilm Island, Igitkum Island. Aleut name recorded as “Egilka” by Commodore Joseph Billings, IRN, in 1790 and published by M. Sauer in 1802.

Igitkin Pass: water passage, between Igitkin and Chugul Islands, Aleutian Islands; 51° 58' N, 175° 50' W; BGN 1936; (map 18). Named for Igitkin Island by the U.S. Navy Aleutian Island Survey Expedition of 1934. It is possibly the best passage from the north and east to Kuluk Bay on Adak Island Published by the USC&GS in the 1944 Aleutian Coast Pilot (p. 103).

Igitkin Point: point of land, W tip of Igitkin Island, Aleutian Islands; 51° 59' 10" N, 175° 57' 45" W; BGN 1936; (map 18). Named for Igitkin Island by the U.S. Navy Aleutian Island Survey Expedition of 1934, and published by the USC&GS in the 1944 Aleutian Coast Pilot (p. 103).

Igitkum Island: island, see Igitkin Island.

Igitna River: stream, heads at glacier 3 miles N of Merrill Pass, flows NE and SE 18 miles to Kenibuna Lake, 62 miles WNW of Tyonek, Alaska Range; 61° 10' 30" N, 152° 59' 10" W; BGN 1930; (map 71). Tanaina Indian name reported in 1927 by USGS.

Igiugig: village, on left bank on Kvichak River, 1 mile SW of Iliamna Lake and 46 miles SW of Iliamna, Bristol Bay Lowland; 59° 20' N, 155° 55' W; (map 51). Variant: Igiugik. Name of a fishing village where a post office was established in 1934, discontinued in 1954 (Ricks, 1965, p. 28).

Igiugik: village, see Igiugig.

Igivachochamiut: locality, see Igivachok.

Igivachok: locality, "in Nushagak district." Variant: Igivachochamiut. Former Eskimo camp or settlement listed as "Igivachochamiut" with a population of 31 in the 1890 Census.

Igiyarok: locality, see Igiak.

Igkh-nik-toghe-mute: locality, see Iknetuk.

Igklo River: estuary, extends W 5 miles off Kugrua Bay, 16 miles NE of Wainwright, Arctic Plain; 70° 47' N, 159° 21' W; (map 146). Variant: Iklo. Eskimo name recorded in 1956 at Wainwright by Orth, as "Iklo," meaning "large intestine."

Iglo Creek: stream, flows SW to Goodhope River, about 25 miles NW of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name reported in 1901 by USGS (Collier, 1902, pl. 12). This stream cannot be identified on current maps.

Igloo Creek: stream, flows NE 10 miles to Teklanika River, 24 miles SW of Healy, Alaska Range; 63° 38' 30" N, 149° 34' 00" W; (map 87). Local name reported by Woodbury Abbey, U.S. Army Corps of Engineers, on the blueprint of his 1921 Mount McKinley National Park survey.

Igloo Creek: stream, flows SW 28 miles to American River 1 mile N of its junction with Agiapuk River, 20 miles NE of Teller, Seward Peninsula Highlands; 65° 26' N, 165° 46' W; (map 111). Variant: Lewis River. Prospectors' name reported in 1900 by Messrs. Kemp and David Fox (in Brooks, 1901, pl. 11).

Igloo Creek: stream, flows W 7 miles to Bering Sea, 36 miles NW of Nome, Seward Peninsula Highlands; 64° 45' N, 166° 28' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Igloo Creek: stream, see Dewey Creek.

Igloo Creek: stream, see Eagle Creek.

Igloo Creek: stream, see Moonlight Creek.

Igloo Mountain: mountain, 2,675 ft., in De Long Mountains, E of Raven Basin and Kukpowruk River, 28 miles NE of Mount Kelly, Brooks Range; 68° 46' 00" N, 162° 53' 30" W; (map 130). Variant: Umiak Mountain. Named by P. S. Smith, USGS, and shown on a 1926 fieldsheet by Gerald FitzGerald, USGS. According to Smith's notes the Eskimo call this hill Umiak, "large boat." The reason for changing the name is not clear (Chapman and Sable, 1961, p. 53).

Igloo Mountain: mountain, 4,751 ft., 3 miles N of Cathedral Mountain and 27 miles SW of Healy, Alaska Range; 63° 36' 30" N, 149° 36' 30" W; (map 87). Name taken from that of the creek which flows along its east side; published in 1954 by USGS.

Igloo Pass: pass, 4,300 ft., 1.1 miles NE of Nugget Mountain and 10 miles NE of Juneau, Coast Mountains; 58° 26' 10" N, 134° 19' 30" W; (map 11). Local name reported in 1965 by D. A. Brew and A. B. Ford, USGS.

Igloo Point: point of land, extends NE into Eschscholtz Bay, 39 miles SW of Selawik, Kotzebue-Kobuk Lowland; 66° 14' N, 161° 03' W; (map 114). Named by coast pilots about 1902; reported in 1908 by USC&GS.

Igloo: locality, on right bank of American River 2.5 miles N of its junction with Agiapuk River, 22 miles NE of Teller, Seward Peninsula Highlands; 65° 28' N, 165° 47' W; (map 111). Local name published in 1951 by USGS. No settlement is known to exist here.

Igloo: village, see Marys Igloo.

Igloopyak: reach, see Iglupiak.

Iglorak: barrier island, see Cooper Island.

Igloupack Creek: stream, see Iglupak Creek.

Igloupaek Creek: stream, see Iglupak Creek.

Iglupak Creek: stream, flows N 3 miles to Kukpuk River, 18 miles N of Cape Thompson, Arctic Slope; 68° 24' 15" N, 165° 56' 20" W; BGN 1963; (map 129). Variant: Igloupack Creek, Igloupaek Creek. Eskimo name meaning "big house" recorded in 1960 by D. C. Foote in connection with Project Chariot; he spelled it "Igloupack."

Iglupiak: reach, on Omikviorok River, 23 miles E of Kivalina, Kotzebue-Kobuk Lowland; 67° 43' N, 163° 41' W; (map 128). Variant: Igloopyak, Iglupiaq. Eskimo name meaning "one

sided”; so called because in this section of the river there is a high bank on the north side and a low bank on the south side; reported in 1966 by E. S. Burch.

Iglurak: barrier island, see Cooper Island.

Igmiumanik Creek: stream, flows SW 7 miles to Goodnews River, 49 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 32' N, 160° 28' W; (map 53). Eskimo name reported in 1954 by USGS.

Ignak Creek: stream, see Ignek Creek.

Ignaluk: locality, on W coast of Little Diomedede Island, in Bering Strait, 80 miles NW of Teller; 65° 45' N, 168° 56' W; (map 111). Variant: Inalik, Inalit, Igna-look. Eskimo name recorded as Igna-look by Capt. C. L. Hooper, USRCS, in 1880; listed as “Inalit” with a population of 40 by Ivan Petroff in the 1880 Census; listed with a population of 85 in the 1890 Census.

Ignatiet Point: point of land, see Mendenhall, Cape.

Ignatio Island: island, see Saint Ignace Island.

Ignek Creek: stream, heads between Sadlerochit and Shublik Mountains, flows W 14 miles through Ignek Valley to Canning River, 8 miles NW of Mount Copleston and 53 miles NW of Mount Michelson, Arctic Slope; 69° 36' N, 146° 18' W; (map 139). Variant: Ignak Creek, Ignik Creek. Leffingwell (1919, p. 121) writes, “The native [Eskimo] name of the stream which cut Red Hill is ' Ignek,' meaning ' fire.' The natives have assured the writer that these red beds were still smoking when their ancestors came into the country, not many years ago.” Jenness (1928, p. 96) spells the name “Ignik.”

Ignek Valley: valley, 30 miles long, between Sadlerochit and Shublik Mountains, 35 miles NW of Mount Michelson, Brooks Range; 69° 34' N, 145° 30' W; (map 139). Variant: Ignak Valley, Ignik Valley. Leffingwell (1919, p. 96) named the valley after Ignek Creek. He wrote (p. 137), “The Sadlerochit Glacier must have filled the eastern end of Ignek Valley, * * *.” (p. 137).

Ignekasagmi: locality, see Ignok.

Ignik Creek: stream, see Ignek Creek.

Ignik Valley: valley, see Ignek Valley.

Igning River: stream, flows NE 20 miles to Noatak River, 48 miles SW of Survey Pass, Brooks Range; 67° 42' N, 155° 53' W; (map 125). Eskimo name meaning “fire” or “match,” recorded in Kobuk and Shungnak by Orth, USGS, in 1956.

Ignisirok Creek: stream, in De Long Mountains, flows S 13 miles to Nimiuktuk River, 34 miles NE of Misheguk Mountain, Brooks Range; 68° 28' N, 159° 53' W; (map 131). Eskimo name meaning “material for fire,” obtained at Noatak by Orth in 1956.

Ignituk Point: point of land, see Icknetuk Point.

Ignituk: locality, see Iknetuk.

Ignok: locality, "on right bank of Yukon River, near Holy Cross," Innoko Lowland; (map 78). Variant: Ignokhatskamute, Ignokhatskomute, Ingekasagmi. Former Eskimo village reported in 1869 as "Ingekasagmi" by Capt. C. W. Raymond, USA. Ivan Petroff listed the name as "Ignokhatskamute" with a population of 175 in the 10th Census, in 1880.

Ignokhatskamut: locality, "on Lower Yukon River," Yukon-Kuskokwim Delta. Former Eskimo camp or village reported in 1900 by E. W. Nelson, U.S. Signal Service.

Ignokhatskamute: locality, see Ignok.

Ignokhatskomute: locality, see Ignok.

Igognak: point of land, see Eider Point.

Igognak: point of land, see Kalekta, Cape.

Igokluk Slough: stream, flows W 14 miles to Kwemeluk Pass, 21 miles S of Kwiguk, Yukon-Kuskokwim Delta; 62° 27' N, 164° 34' W; (map 77). Eskimo name obtained in 1899 by G. R. Putnam, USC&GS; published in 1899 on Chart 9373.

Igouik Creek: stream, see Egavik Creek.

Igouik: village, see Egavik.

Igowik Creek: stream, see Egavik Creek

Igowik: village, see Egavik.

Igragamiut: locality, see Igiak.

Igrahk: hill, see Igrak Hill.

Igrak Hill: hill, on shore of Chukchi Sea, 17 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 55' N, 164° 59' W; (map 128). Variant: Igrahk. Eskimo name meaning "old hill" reported by E. S. Burch in 1966.

Igrarok Creek: stream, in Lisburne Hills, flows NE 6 miles to a lagoon on Chukchi Sea coast, 9 miles E of Cape Lisburne, Arctic Slope; 68° 51' 45" N, 165° 51' 05" W; (map 129). Eskimo name derived from that of the Igrarok Hills; reported in 1950 by USC&GS.

Igrarok Hills: hills, 500 ft., extend 5 miles on Chukchi Sea coast, 5 miles E of Cape Lisburne, Arctic Slope; 68° 51' N, 165° 57' W; (map 129). Variant: Ee-gah-rook. Eskimo name reported to mean "low hills" by USC&GS and spelled "Ee-gah-rook."

Igrikchum Slough: stream, flows NE 1.4 miles to Tunurokpak Channel, W of Yukon River, 41 miles SE of Kwiguk, Yukon-Kuskokwim Delta; 62° 12' 50" N, 164° 00' 05" W; (map 77). Eskimo name reported in 1949 by USC&GS.

Igrooayum Koonga: stream, see Ingrugaivik Creek.

Igrouwotalik: stream, see Igruwotalik Creek.

Igruayvik: bank, see Igrugevik Bank.

Igrugaivik Bank: bank, see Igrugevik Bank.

Igrugaivik Creek: stream, distributary of Wulik River, flows SW 1 mile to Kivalina Lagoon, 1.7 miles E of Kivalina, Kotzebue-Kobuk Lowland; 67° 43' N, 164° 29' W; (map 128). Variant: Igrooayum Koonga. Eskimo name reported in 1966 by E. S. Burch.

Igrugevik Bank: bank, on left side of Igrugevik Creek, 2.3 miles E of Kivalina, Kotzebue-Kobuk Lowland; 67° 43' N, 164° 28' W; (map 128). Variant: Igrugaivik Bank, Igruayvik. This Eskimo name, reported in 1966 by E. S. Burch, means "place where they put something inside." According to one story there was once a cold storage here; another story stated it was a good place for loading boats. Burch says that the name is often applied to a nearby hill rather than to the river bank.

Igruwotalik Creek: stream, heads in Lisburne Hills, flows SW 10 miles to Kukpok River, E of Kugirarok Creek, 18 miles N of Cape Thompson, Arctic Slope; 68° 24' 50" N, 165° 25' 30" W; (map 129). Variant: Igrouwotalik. Eskimo name spelled "Igrouwotalik" in 1960 by D. C. Foote in connection with Project Chariot studies. USGS published the name in 1964.

Igtuluwik: locality, SW of mouth of Walakpa Bay, 12 miles SW of Barrow, Arctic Plains 71° 08' N, 157° 06' W; (map 153). Eskimo name published by Spencer (1959, map 2).

Iguik: village, see Egavik.

Igushek River: stream, see Igushik River.

Igushik Ridge: ridge, elev. 150 ft., on W bank of Igushik River, extends N 7 miles from river's mouth, 25 miles SW of Dillingham, Bristol Bay Lowland; BGN 1911; 58° 43' N, 158° 56' W; (map 40). Eskimo name published in 1911 by USC&GS; probably named after the nearby Igushik River.

Igushik River: stream, heads at Amanka Lake, flows SE 50 miles to Nushagak Bay, 26 miles SW of Dillingham, Bristol Bay Lowland; 58° 42' N, 158° 53' W; (map 40). Variant: Crooked River, Egashak River, Egashik River, Egoashik River, Egoushik River, Igushek River, Reka Iguzhak, Snake River. Eskimo name reported by Capt. Tebenkov (1852, map 4), IRN, as "R[eka] Iguzhak." The descriptive name "Crooked River" was given in 1898 by J. E. Spurr, USGS; "Snake River" was applied in 1900 by Lt. Comdr. J. F. Moser, USN, of the USBF steamer Albatross, "because of the river's winding course."

Igushik River: stream, see Snake River.

Igushik: settlement, S of mouth of Igushik River 30 miles SW of Dillingham, Bristol Bay Lowland 58° 42' N, 158° 53' W; (map 40). Eskimo village listed in the 1880 U.S. census with a population of 74; 28 in 1930; and 16 in 1940.

Iguzhak, Reka: stream, see Igushik River.

Igvac, Cap: promontory, see Igvak, Cape.

Igvack, Cap: promontory, see Igvak, Cape.

Igvak, Cape: promontory, between Portage and Wide Bays, on SE coast of Alaska Peninsula, 53 miles E of Ugashik, Aleutian Range; 57° 26' N, 156° 01' W; (map 36). Variant: Cap Igvac, Cap Igvack, Iswak Point, Mys Igvak. Eskimo name published in 1835 by Adm. A. J. von Krusenstern, IRN, as "C[ap] Igvac" and as "C[ap] Igvack."

Igvak, Mys: promontory, see Igvak, Cape.

Ihack Bay: bay, see Ugak Bay.

Iikaagiaq: ford, see Ikagiak Shallows.

Ikhkluk Mountain: mountain, 3,650 ft. in Brooks Range, 10 miles SSE of Howard Pass; 68° 05' N, 156° 48' W; (map 132). Eskimo name reported by USGS in 1956 and reported to mean "rough mountain" [i-ikh-qluq].

Iipqagnaqtaugruk: mountain, see Ipkagnaktaugrak Mountain.

Iiveruuleviq Lake: lake, see Evrulivik Lake.

Iiwzuqtusuq: locality, see Ivruktusuk.

Ijoot: point of land, see Izhut, Cape.

Ik, Reka: stream, see Eek River.

Ik-ku-go-ak River: stream, see Ikugoak River.

Ik: village, see Eek.

Ikagiak Creek: stream, flows W 6 miles to N end of Little Chandler Lake, 25 miles NW of Anaktuvuk Pass, Brooks Range; 68° 17' 00" N, 152° 39' 00" W; (map 134). Eskimo name obtained at Anaktuvok Pass in 1956 by T. E. Taylor, USGS.

Ikagiak Shallows: ford, across Wulik River, 11 miles NE of Kivalina, Kotzebue-Kobuk Lowland; 67° 48' N, 164° 07' W; (map 128). Variant: Eekahgyak, Iikaagiaq. Eskimo name meaning "fording place" reported in 1966 by E. S. Burch.

Ikagluik Creek: stream, heads at glacier terminus, flows NW 20 miles to Savonoski River 1.5 miles E of that stream's mouth at Iliuk Arm Naknek Lake, on Alaska Peninsula, in Katmai National Monument, 21 miles NW of Mount Katmai, Aleutian Range; 58° 31' 40" N, 155° 17' 30" W; (map 42). Reported in 1951 by USGS.

Ikagluik, Mount: peak, 4,426 ft., on Alaska Peninsula, in Katmai National Monument, 15 miles NW of Mount Katmai, Aleutian Range, 58° 27' 30" N, 155° 13' 00" W; BGN 1924; (map 42). Variant: Mount Kagluik. Aleut name reported in 1919 by R. F. Griggs, National Geographic Society. Published in 1951 as "Mount Kagluik" by USGS.

Ikahook River: stream, see Ikalooksik River.

Ikak: locality, see Savonoski.

Ikakhtulik: stream, see Fish River.

Ikaknak Pond: lake, 0.15 miles across, near head of Kiliguak Creek, 7.5 miles NE of Cape Thompson, Arctic Slope; 68° 11' 40" N, 165° 43' 00" W; BGN 1963; (map 129). Variant: Eekuknuk Pond. Eskimo name meaning "north wind" reported about 1962 by personnel of Project Chariot.

Ikaksigilak Creek: stream, see Fossil Creek.

Ikaligvigmiut: settlement, see Dogfish Village.

Ikaligvigmiut: village, see Golovin.

Ikaligvigmyut: settlement, see Dogfish Village.

Ikaligwigmiut: village, see Golovin.

Ikaligwigmjut: settlement, see Dogfish Village.

Ikalik Point: point of land, see Ikolik, Cape.

Ikalikhvig-myut: village, see Golovin.

Ikalikhvik: stream, see Fish River.

Ikalinigmjut: settlement, see Dogfish Village.

Ikalinkamiut: locality, see Ekiligamut.

Ikalinkamuit: locality, see Ekilik.

Ikaliukha: locality, see Ekiligamut.

Ikaliukha: locality, see Ekilik.

Ikallooksik River: stream, see Ikalooosik River.

Ikalooosik River: stream, see Ikallooksik River.

Ikalooksik River: stream, heads on N slope of Poovookpuk Mountain, flows N 10 miles to Niyrakpak Lagoon, 16 miles SE of Gambell, St. Lawrence Island; 63° 36' N, 171° 30' W, BGN 1951; (map 93). Variant: Ekalooksik River, Ikahook River, Ikallooksik River, Ikalooosik River. Eskimo name reported in 1932 by O. W. Geist, Univ. of Alaska.

Ikalu Island: barrier island, see Igalik Island.

Ikalue Island: barrier island, see Igalik Island.

Ikalugtulik River: stream, flows NW 5 miles to Hazen Bay, on Nelson Island, 13 miles NE of Cape Vancouver, Yukon-Kuskokwim Delta; 60° 39' N, 165° 06' W; (map 57). Variant: Killingupak River. Eskimo name meaning "having humpbacked salmon" obtained at Tanunak in 1949 by USC&GS.

Icashlocktuli River: stream, see Ekashluak Creek.

Ikatak: peninsula, see Ikatan Peninsula.

Ikatan Bay: bay, 5 miles across, between Ikatan and Alaska Peninsula, on E coast of Unimak Island, Aleutian Islands; 54° 47' N, 163° 15' W; (map 25). Name derived from Ikatan Peninsula; given by W. H. Dall, USC&GS, and published in 1882 by USC&GS on Chart 806.

Ikatan Peninsula: peninsula, 12 miles long, on SE coast of Unimak Island, Aleutian Islands; 54° 43' N, 163° 12' W; (map 25). Variant: Ikatak, Ikatane, Ikatok, Ikatun. Aleut name reported by Father Ioann Veniaminov as "Ikatok" in 1830's; shown as an island on Russian Hydrog. Dept. Chart 1379, published in 1847.

Ikatan Point: point of land, 10 miles SE of False Pass, on Ikatan Peninsula, Unimak Island, Aleutian Islands; 54° 46' 30" N, 163° 11' 00" W; (map 25). Variant: Cape Horn. Named in 1901 by Ferdinand Westdahl, USC&GS; derived from Ikatan Peninsula.

Ikatan: village, on Ikatan Peninsula, near head of Ikatan Bay, Unimak Island, Aleutian Islands; 54° 45' 00" N, 163° 18' 30" W; (map 25). Name derived from Ikatan Peninsula, published in 1949 on a USGS map.

Ikatane: peninsula, see Ikatan Peninsula.

Ikathiwik Crater: volcanic crater, 701 ft., 14 miles N of Roberts Mountain and 30 miles NNW of Cape Mendenhall, on Nunivak Island; 60° 14' 10" N, 166° 15' 00" W; (map 57). Variant: Ikathiwik. Eskimo name obtained in 1949 by USC&GS.

Ikathiwik: volcanic crater, see Ikathiwik Crater.

Ikathleewik Bay: bay, on W shore of Etolin Strait, S of Ikathleewimjingia Point, on E coast of Nunivak Island; 60° 18' N, 165° 42' W; (map 57). Variant: Ikathliwikh Bay. Eskimo name obtained in 1949 by USC&GS.

Ikathleewimjingia Point: point of land, extends 1.5 miles into Etolin Strait, 18 miles SE of Cape Etolin, on NE coast of Nunivak Island; 60° 18' 40" N, 165° 42' 40" W; (map 57). Variant: Ikthleewimjingia Point, Ikthliwimjingia Point. Eskimo name obtained in 1949 by USC&GS.

Ikathliwikh Bay: bay, see Ikathleewik Bay.

Ikathluik: stream, see Fish River.

Ikatlegomute: locality, see Ikatlek.

Ikatlek: locality, on the right bank of Yukon River between Paimiut and Ingregamiut, Nulato Hills; 61° 58' N, 160° 24' W; (map 73). Variant: Ikatlegomute. The exact location of this village, which E. W. Nelson, U.S. Signal Service, passed through in 1879, is not known, and is undoubtedly now an abandoned site. Nelson spelled it "Ikatlegomute," i.e., "people of Ikatlek," and placed it on his map between Paimute and Pogoreshapka [Bellkat]. The 10th Census, in 1880, referred to a "single house" in this location, with a population of nine.

Ikatok Peak: mountain, 1,948 ft., on Ikaton Peninsula, Unimak Island, Aleutian Islands; 54° 43' 15" N, 163° 09' 30" W; (map 25). Name derived from a variant of Ikaton Peninsula; applied by USC&GS in 1926 on Chart 8701.

Ikatok: peninsula, see Ikaton Peninsula.

Ikatun: peninsula, see Ikaton Peninsula.

Ikeut, Reka: stream, see Fish River.

Ikeutpak: stream, see Fish River.

Ikgisukruk: mountain, see Hamlet, Mount.

Ikgisuqraq: mountain, see Hamlet, Mount.

Ikherkhamut: locality, "near the mouth of Copper River, Chugach Mountains" (map 64). Former Eskimo camp or settlement listed in Hodge (1907, p. 596), BAE, as being from "I-qa-mut," meaning "end of river people."

Ikhiak Lake: lake, see Eyak Lake.

Ikhiak: locality, see Eyak.

Ikhkelik: point of land, see Nekeelit Point.

Ikhti, Cape: point of land, see Ikti, Cape.

Ikhwok: village, see Ekwok.

Ikiak: locality, on barrier island, between Beaufort Sea and Mackay Inlet, Arctic Plain; 71° 05' 45" N, 154° 50' 15" W; (map 153). Eskimo name recorded at Barrow in 1951 by USC&GS and is reported to refer to a strait. "Ikikak" is a closer rendition of the name.

Ikiakpaurak Valley: valley, drained by Cache Creek, extends E 23 miles from Canning River, between Shublik Mountains and Third Range, 30 miles NW of Mount Michelson, Arctic Slope; 69° 28' N, 145° 45' W; (map 139). Variant: Ikiokpaurak Valley, Iklokpaurak Valley. Eskimo name reported by Leffingwell (1919, p. 96) to mean "small valley."

Ikiakpuk Creek: stream, see Eagle Creek.

Ikiakpuk Creek: stream, see Ekokpuk Creek.

Ikiakpuk Valley: valley, drained by Eagle Creek, extends E 18 miles from Canning River, between Third Range and Franklin Mountains, 27 miles NW of Mount Michelson, Arctic Slope; 69° 24' N, 145° 40' W; BGN 1960; (map 139). Variant: Iklokpuk Valley. Eskimo name "Ikiakpak" reported by Leffingwell (1919, p. 96) to mean "big valley."

Ikiginak Island: island, 0.4 miles long, between Atka and Tagalak Islands, Aleutian Islands; 51° 58' 45" N, 175° 29' 20" W; BGN 1936; (map 18). Variant: Ikiginakh Island, Ikiginakh, Ostrov, Nerpchiy, Ostrov, Nerpichiy, Ostrov, Nerpitchy ilot, Seal Island. Published as "O[strov] Ikiginakh," or "Ikiginakh Island," by Capt. Tebenkov (1852, map 27), IRN, from an Aleut name which Capt. Lutke (1836, p. 320), IRN, called "Nerpitchy ilot," or "seal island."

Ikiginakh Island: island, see Ikiginak Island.

Ikiginakh, Ostrov: island, see Ikiginak Island.

Ikijaktusak Creek: stream, flows S 2 miles to Chukchi Sea, 1.4 miles SE of Cape Thompson, Arctic Slope; 68° 07' 45" N, 165° 56' 30" W; BGN 1963; (map 129). Variant: Eegikruttoosook Creek, Eekheezhaktusuk Creek, Emmikroak Creek. Eskimo name meaning "young gull" reported in 1962 by W. O. Pruitt, Univ. of Alaska, and spelled by him "Eekheezhaktusuk." USC&GS reported a variation of this name in 1950 spelled "Eegik-rut-too-sook."

Ikikikoik: locality, see Klikitarik.

Ikikileruk Creek: stream, flows N 7 miles to Chukchi Sea, 1.5 miles W of Noonuklook Mountain and 36 miles NNW of Mount Kelly, Arctic Slope; 68° 57' 30" N, 164° 06' 00" W; (map 130). Variant: Mugilak Creek, Mu-gee-lu Creek. Eskimo name reported in 1956 to mean "narrow" by T. E. Taylor, USGS.

Ikiokpaurak Creek: stream, see Cache Creek.

Ikiokpaurak Valley: valley, see Ikiakpaurak Valley.

Ikiraaluk: bay, see Moore, Port.

Ikiraaluk: water passage, see Eluitkak Pass.

Ikiut-pak: stream, see Niukluk River.

Ikkeraluk: bay, see Moore, Port.

Ikkeraluk: water passage, see Eluitkak Pass.

Ikkhagamut: locality, see Savonoski.

Ikkhagmute: locality, see Savonoski.

Iklauyak Creek: stream, flows SW 5 miles to Okokmilaga River 3 miles N of its head, Brooks Range; 68° 10' N, 153° 06' W; (map 133). Eskimo name reported in 1956 by T. E. Taylor, USGS.

Iklauyaurak Creek: stream, flows ESE 5.5 miles to S end of Chandler Lke, 27 miles W of Anaktuvuk Pass, Brooks Range; 68° 12' 00" N, 152° 46' 30" W; (map 134). Eskimo name obtained at Anaktuvuk Pass in 1956 by T. E. Taylor, USGS.

Iklo: estuary, see Igklo River.

Iklokpaarak Valley: valley, see Ikiakpaarak Valley.

Iklokpuk Valley: valley, see Ikiakpuk Valley.

Iklut-pak: stream, see Niukluk River.

Ikmakrak Lake: lake, 2.5 miles long, W of village of Meade River, Arctic Plain; 70° 29' N, 157° 28' W; (map 147). Eskimo name obtained in 1956 at Wainwright by T. E. Taylor, USGS.

Iknetuk Point: point of land, see Icknetuk Point.

Iknetuk: locality, on W shore of Golovnin Bay. 6 miles S of Golovin and 40 miles ESE of Solomon, Seward Peninsula Highlands; 64° 28' N, 163° 04' W; (map 95). Variant: Igkh-nik-toghe-mute' Ignituk, Iknutuk, Kniktag-miut, Knykhtakgmyut. Site of an Eskimo village reported in 1842-44 as "Knykhtakg-myut" by Lt. L. A. Zagoskin, IRN. Ivan Petroff in the 10th Census in 1880 recorded "Ignituk" with a population of 100. Baker (1906, p. 321), USGS, wrote "Iknetuk."

Iknivik Creek: stream, flows NW 12.5 miles from W of Shainin Lake to Anaktuvuk River, 2: miles NE of Anaktuvuk Pass, Arctic Slope 68° 21' N, 151° 25' W; (map 134). Eskimo name, meaning "pointed place," published by Rausch (1951, p. 150).

Iknutak Mountain: mountain, 1,688 ft., at S end of peninsula, on W side of Golovnin Bay 39 miles SE of Solomon, Seward Peninsula Highlands 64° 28' N, 163° 10' W; (map 95). Local name reported about 1940 by USC&GS and published on Chart 9382. See Iknetuk.

Iknutuk: locality, see Iknetuk.

Iko Bay: estuary, extending S 5 miles off Elson Lagoon, between Ross and Scott Points, 15 miles SE of Point Barrow, Arctic Plain; 71° 12' N, 156° 00' W; BGN 1964; (map 153). Variant: Ahvak Bay, Bay, McKensie's Bay. Eskimo name published by Comdr. R. Maguire (1854, map facing p. 186), RN, and reported to mean "the last one" or "the end." This feature is probably the same bay shown on Thomas Simpson's map as McKenzies Bay and named "after Chief Factor Roderick Mackenzie [sic]," of the Hudson's Bay Company (Simpson, Thomas, 1843, p. 152).

Ikogmiut: village, see Russian Mission.

Ikogmute: village, see Russian Mission.

Ikolga: locality, "on Unalaska Island, Aleutian Islands" (map 23). Former Aleut camp or settlement reported by Coxe (1787, p. 164); "Consists of only one hut."

Ikolik, Cape: point of land, on S shore of Gurney Bay, 23 miles SW of Karluk, on W coast of Kodiak Island; 57° 17' 15" N, 154° 47' 00" W; BGN 1890; (map 35). Variant: Ecolik Point, Ikalik Point, Ikolik Point, Seal Cape, Southwest Point. Name published by the Russian Hydrog Dept. in 1847 on Chart 1378 as "M[ys] Ikolik," or "Cape Ikolik." This feature was called "Southwest Point" by Capt. Lisianski (1814, p. 169), IRN, who reported the settlement of Icolick as being located here.

Ikolik: locality, on S shore of Gurney Bay, 23 miles SW of Karluk, on W coast of Kodiak Island; 57° 17' 15" N, 154° 47' 00" W; (map 35). Variant: Icolick. Name reported by Capt. Lisianski (1814, p. 169), IRN. as the settlement of Icolick.

Ikongimiut: locality, at head of inlet on S coast of Nunivak Island, 9 miles NNE of Cape Mendenhall; 59° 53' 30" N, 166° 01' 00" W; (map 55). Former Eskimo village reported in 1966 by Calvin J. Lensink, USF&WS.

Ikook Point: point of land, at NW tip of Cape Mohican, 54 miles NW of Cape Mendenhall, Nunivak Island, 60° 12' 50" N, 167° 27' 30" W; (map 57). Name reported about 1908 by USC&GS.

Ikooksmiut: locality, on NE coast of Cape Mohican, 17 miles W of Nash Harbor, Nunivak Island; 60° 12' 30" N, 167° 26' 00" W; (map 57). Variant: Ikooxmiut, Ikukhmiut. Eskimo summer camp reported in 1949 by USC&GS.

Ikookstakswak Cove: cove, 8 miles W of Iloodak Point, 44 miles SW of Cape Etolin, on N coast of Nunivak Island; 60° 13' 30" N, 167° 20' 00" W; (map 57). Variant: Ikooxtaxwax Cove, Ikukhtakhwakh Bay. Eskimo name obtained in 1949 by USC&GS.

Ikoox: peninsula, see Mochican, Cape.

Ikooxtaxwax Cove: cove, see Ikookstakswak Cove.

Ikoum' -unga: valley, slight depression on edge of bluffs, on E side of outlet for Umanangula Lake, on S coast of Saint George Island, in Pribilof Islands; 56° 32' 10" N, 169° 37' 00" W;

(map 38). An Aleut name listed by Putnam (1903, p. 1014), USC&GS, and means “fox trail” * * so called because the foxes here have a trail * * * over the edge of the bluff, where they go to get eggs and birds.”

Ikoum-unga-Koverushka: hill, see South Hill.

Ikoygak Creek: stream, flows NE 4 miles to Akeftapak Bay, 7 miles SE of Gambell, N coast of St. Lawrence Island; 63° 41' N, 171° 38' W; BGN 1951; (map 93). Eskimo name recommended in 1949 by the Gambell village council.

Ikpek: locality, on Chukchi Sea coast, at SW end of Arctic Lagoon, 31 miles NE of Cape Prince of Wales and 51 miles NW of Teller, Kotzebue-Kobuk Lowland; 65° 54' N, 167° 17' W; (map 111). Variant: Esook. Site of an Eskimo village or camp; shown as “Esook” on the 1908 “Map of Seward Peninsula” by Arthur Gibson. Published as “Ikpek” in 1956 by USGS.

Ikpigroak Bank: bank, on E shore of Kivalina Lagoon, 2 miles N of Kivalina, Kotzebue-Kobuk Lowland; 67° 46' N, 164° 35' W; (map 128). Variant: Ikpigrohck, Ikpigzaaq. Eskimo name meaning “old riverbank” reported by E. S. Burch in 1966.

Ikpigrohck: bank, see Ikpigroak Bank.

Ikpigzaaq: bank, see Ikpigroak Bank.

Ikpik Hill: hill, 260 ft., surrounded by marsh, on W coast of Kodiak Island, 36 miles S of Karluk 57° 02' 40" N, 154° 30' 30" W; BGN 1934. (map 35). Named by USC&GS in 1934 “from an Eskimo word meaning ‘bluff’.”

Ikpik Slough: stream, flows NE 4 miles to Elson Lagoon, 5.6 miles E of Barrow, Arctic Plain; 71° 17' 45" N, 156° 31' 30" W; (map 153). Variant: Ukpik Slough. Eskimo name meaning “cliff” or “bluff” applied for scientific purposes (Carson and Hussey, 1962).

Ikpikpuk River Delta: delta, 8 miles across, on S shore of Smith Bay, at mouth of Ikpikpuk River, Arctic Plain; 70° 49' N, 154° 23' W; (map 148). Name published by AMS in 1960.

Ikpikpuk River: stream, formed by Kigalik River and Maybe Creek at 69° 20' 45" N, 154° 42' 30" W, flows N, 195 miles to Smith Bay, Arctic Plain; 70° 49' 30" N, 154° 19' 10" W; BGN 1925; (map 148). Variant: Chipp River, Ikpekpuk River, Ikpekpung River, Ikpikpun River, Ikpikpung River, Ikpikpungme River. Eskimo name [Ikpikpak1 meaning “big cliff or bank,” originally reported by Lt. Ray (1885, p. 55, map), USA, as Ikpikpun and Ikpikpung and described as the “Third large river east of Point Barrow.” Ens. W. L. Howard, USN, traveled along this stream on his trip from the Kobuk River to Point Barrow in the spring of 1886, and reported the Eskimo name as Ikpikpuk, although he also shows the name “Ik-pik-pung River” for a tributary of this stream (Stoney, 1900, p. 73 and map facing p. 66). Leffingwell (1919, p. 93, 96) explains that Ikpikpungme is a locative form meaning “at the Ikpikpuk.” Lt. G. M. Stoney, USN, attempted to rename this stream Chipp River for Lt. C. W. Chipp, USN, but BGN reapplied the “Chipp River” t, one of the two distributaries of the Ikpikpuk in 1925.

Ikpikpun: stream, see Ikpikpuk River.

Ikpikpung River: stream, see Ikpikpuk River.

Ikpikpungme: stream, see Ikpikpuk River.

Ikpilgok: locality, on Chukchi Sea coast, 5 miles NE of Wainwright, Arctic Plain; 70° 41' 45" N, 159° 54' 00" W; (map 146). Eskimo name published in 1958 by AMS; a camp site on the coastal trail.

Ikpilin: lake, see South Salt Lagoon.

Ikpiling: lake, see South Salt Lagoon.

Ikpiling: point of land, see Smyth, Cape.

Ikpitchek Creek: stream, heads in lake, flows NE 11 miles to Kuk River, 26 miles S of Wainwright, Arctic Plain; 70° 16' 10" N, 159° 53' 15" W; (map 146). Eskimo name recorded in 1956 at Wainwright by Orth; reported to mean "new bank," which referred to a freshly cut bank at the stream's mouth.

Ikragamiut: locality, see Igiayarok.

Ikriktolik Lake: lake, see Kekiktalik Lake.

Ikroavik Lake: lake, 2.5 miles long, on Chukchi Sea coast, 4.5 miles SE of Barrow, Arctic Plain; 71° 13' 50" N, 156° 37' 50" W; (map 153). Variant: Ekrugavik Lake, Iksoaaviq. Eskimo name recorded by USC&GS about 1950 and reported to refer in meaning to "a place where one gets in a boat to travel."

Iksartaliget: locality, see Iksartolik.

Iksartolik: locality, on right bank of Kashunuk River, 3.5 miles N of Chakaktolik, 52 miles W of Marshall, Yukon-Kuskokwim Delta; 61° 49' 10" N, 163° 37' 30" W; (map 74). Variant: Iksartaliget. Eskimo name for a fish camp reported by USC&GS in 1949. It is shown as "Iksartaliget" on a manuscript map by "Father Delon" dated 1937.

Iksiak Point: point of land, between Udamak and Naginak Coves, at head of Anderson Bay, central Unalaska Island, Aleutian Islands: 53° 39' 40" N, 166° 49' 35" W; BGN 1939; (map 23). Named by USC&GS in 1937. The name was derived from Iksiaktak, the Aleut name for nearby Anderson Bay. The name may be a form of the word "ixsik," meaning "burning."

Iksiaktak: bay, see Anderson Bay.

Iksoaaviq: lake, see Ikroavik Lake.

Iksutpak: stream, see Fish River.

Ikthleewimjingia Point: point of land, see Ikathleewimjingia Point.

Ikthliwimjingia Point: point of land, see Ikathleewimjingia Point.

Ikhti, Cape: point of land, on S coast of Alaska Peninsula, between Seal and Kuiukta Bays, 21 miles S of Chignik, Aleutian Range; 56° 00' N, 158° 31' W, BGN 1939; (map 27). Variant: Cape Ikhti, Cape Itkbi, Cape Itkhi. Aleut name published as "M[ys] Ikhti," or "Cape Ikhti," on Russian Hydrog. Dept. Chart 1379 in 1847, and as "M[ys] Itkhi," or "Cape Itkhi," by Capt. Tebenkov (1852, map 24).

Iktliyagak Mountain: hill, 496 ft., 5 miles SE of Mumtrak Hill, 6.5 miles E of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 07' N, 161° 24' W; (map 53). Eskimo name reported in 1954 by USGS.

Iktua Rocks: rocks, group of, in Prince of Wales Passage, off NW coast of Evans Island, 12 miles SE of Chenega, Chugach Mountains; 60° 07' 20" N, 148° 02' 05" W; (map 63). Local name reported in 1951 by USGS.

Ikuagmiut: locality, see Akahamut.

Ikuak: locality, see Akahamut.

Ikuak: village, see Ohogamiut.

Ikugoak River: stream, flows SW 19 miles to a lake, 11 miles NE of Selawik, Kotzebue-Kobuk Lowland; 66° 41' N, 159° 40' W; BGN 1912; (map 114). Variant: Ik-ku-go-ak River. Eskimo name reported in 1885 by Lt. Stoney (1900, map), USN.

Ikuk Creek: stream, heads in De Long Mountains, on Stone Hut Mountain, flows NW 11 miles to Pitmegea River, 17 miles NW of Mount Kelly, Brooks Range; 68° 41' N, 163° 54' W; (map 130). Eskimo name obtained by John W. Kelly (Kelley) and published by Stockton (1890, P 179).

Ikuk: village, see Ekuk.

Ikukh: peninsula, see Mohican, Cape.

Ikukhmiut: locality, see Ikooksmiut.

Ikukhtakhwakh Bay: cove, see Ikookstakswak Cove.

Ikuktlitlig Mountain: mountain, 2,588 ft., 3 miles E of Explorer Mountain and 12 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 16' N, 161° 27' W; (map 53). Eskimo name probably meaning "old end mountain" because of its end position on a ridge; obtained at Goodnews about 1951 by J. M. Hoare, USGS.

Ikutchlok: locality, see Kutchlok.

Ikwok: village, see Ekwok.

Ikwokhamut: village, see Ekwok.

Ilagia Island: island, see Nagai Island.

Ilaigutigrak Creek: stream, flows S 20 miles to Wulik River, 34 miles NE of Kivalina, Brooks Range; 68° 00' N, 163° 30' W; (map 130). Variant: Ilaigutigzam Kuunga, Ilaygootigram Koonga, Ilyavlootixrut. Eskimo name reported as "Ilyavlootixrut" in 1960 by D. C. Foote.

Ilaigutigrak Mountain: mountain, 1,823 ft., 40 miles NE of Kivalina, Brooks Range; 68° 06' N, 163° 28' W; (map 130). Variant: Ilaigutigzaq, Ilaygootigrak, Ilyaylootixroot Mountain. Eskimo name reported as "Ilyaylootixroot Mountain" in 1960 by D. C. Foote.

Ilaigutigzam Kuunga: stream, see Ilaigutigrak Creek.

Ilaigutigzaq: mountain, see Ilaigutigrak Mountain.

Ilak Island: island, 1 mile across in eastern Delarof Islands, Aleutian Islands; 51° 28' 50" N, 178° 17' 20" W; (map 16). Variant: Illakh Island, Illiak Island, Illuk Island. Aleut name recorded by Commodore Joseph Billings, IRN, as "Illuk," and published by Lt. Sarichev (1826, map 3), IRN, as "Illakh." The adopted form "Ilak" was published in the 1946 supplement to the 1944 Aleutian Coast Pilot.

Ilak: point of land, see Ugyak, Cape.

Ilanik Lakes: lakes, 2 miles across, S of mouth of Goodnews River and W of Puyulik Creek, 2 miles S of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 06' N, 161° 34' W; (map 53). Eskimo name reported in 1954 by USGS.

Ilaygootigrak: mountain, see Ilaigutigrak Mountain.

Ilaygootigram Koonga: stream, see Ilaigutigrak Creek.

Ildefonso, Point: point of land, SW tip of an island, between San Alberto Bay and San Christoval Channel, 1.5 miles SE of Rosary Island, Alexander Archipelago; 55° 34' 10" N, 133° 15' 45" W; (map 4). Variant: Ildelfonso, Idelfonso Point, Punta de San Yldefonso, Punta San Ildefonso. Named "Punta de San Yldefonso" by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle about May 24, 1779, in honor of that saint whose day is May 26.

Ildelfonso Point: point of land, see Ildefonso, Point.

Ilerun Lake: lake, 0.5 miles long, on Kenai Peninsula, 1.4 miles E of Pepper Lake and 36 miles NE of Kenai, Cook Inlet Lowland; 60° 51' 00" N, 150° 23' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Iles Creek: stream, flows NE 5 miles to Canyon Creek, 43 miles S of Eagle, Yukon-Tanana High; 64° 12' N, 141° 08' W; (map 102). Local name published in 1956 by USGS.

Iliamna Bay: estuary, trends S 6 miles to Kamishak Bay, on SE coast of Alaska Peninsula, 19 miles N of Augustine Island, Aleutian Range; 59° 37' N, 153° 33' W; BGN 1906; (map 51). Variant: Iniskin Bay. Local name reported in 1902 by Osgood (1904, map), USDA.

Iliamna Lake: lake, 75 miles long and 20 miles wide, at N end of Alaska Peninsula, between Kvichak Bay and Cook Inlet, 100 miles W of Seldovia, Bristol Bay Lowland; 59° 30' N, 155° 00' W; BGN Sixth Report; (map 51). Variant: Big Iliamna Lake, Lake Chelekoff, Lake Shelekhovo, Lake Shelekof, Lamna Lake. Native name reported as "Oz[ero] Bol[shoy] Iliamna," meaning "Big Iliamna Lake," on 1852 Russian Hydrog. Dept. Chart 1455. This feature was earlier called "Oz[ero] Shelekhovo," meaning "Lake Shelekov," on an 1802 Russian map. According to G. C. Martin, USGS, Iliamna is said to be "the name of a mythical great blackfish, supposed to inhabit this lake, which bites holes in the bidarkas of bad natives."

Iliamna Point: point of land, on W shore of Cook Inlet, 4 miles S of Tuxedni Channel and 58 miles SW of Kenai, Aleutian Range; 60° 02' 20' N, 152° 35' 00" W; (map 62). Name reported by USGS (Brooks and others, 1922, pl. 2).

Iliamna River: stream, heads at 59° 55' N, 153° 29' W, flows SW 28 miles to Pile Bay Iliamna Lake, 33 miles NW of Augustine Island, Aleutian Range; 59° 44' 15" N, 153° 58' 30" W; BGN 1962; (map 51). Variant: South For Iliamna River. Local name reported in 1902 by W. H. Osgood, USDA. The name is derived from the lake.

Iliamna Volcano: volcano, 10,016 ft., at head a Tuxedni Glacier, 60 miles E of Nondalton, Aleutian Range; 60° 02' N, 153° 05' W; (map 61). Variant: Burning Mountain, Montagnas Brillantes, Volcan de Miranda. Name published by the Russians as "Sopk[a] Ilymna" (Tebenkov, 1852, map 5). Capt. M. D. Tebenkov stated that the volcano was smoking. This appears to be the volcano called "Volcan de Miranda" by the 1779 Don Ignacio Arteaga expedition; probably named in honor of Fernando Bernardo de Quiros y Miranda, the second officer of the vessel La Princesa.

Iliamna: locality, see Old Iliamna.

Iliamna: village, pop. 47, just N of Iliamna Lake, 56 miles NW of Augustine Island, Aleutian Range, 59° 45' N, 154° 55' W; BGN 1941; (map 51). Eskimo village reported on a 1935 USGS map of Alaska. Before 1935 this name was applied to a village located at another site. After the move the old village became known as "Old Iliamna." Iliamna (now Old Iliamna) obtained a post office in 1901; the post office moved to the present location and retained its name.

Iliasik Islands: island, see Inner Iliasik Island

Iliasik Islands: island, see Outer Iliasik Island

Iliasik Passage: water passage, between Inner and Outer Iliasik Islands, 7 miles SW of Dolgoi Island, in Pavlof Islands, Aleutian Range; 55° 02' N, 161° 55' W; (map 28). Variant: Iliasik Strait. Feature called Iliasik Strait in 1897 by Lt. Comdr. J. F. Moser, USN, commander of USBF steamer Albatross.

Iliaviki: island, see Inner Iliasik Island.

Iligluruk Creek: stream, heads at 68° 34' N, 161° 20' W, flows NW 25 miles to Kokolik River 43 miles NW of Misheguk Mountain, Brooks Range; 68° 45' N, 162° 01' W; BGN 1961; (map

131). Eskimo name referring to a “burnt-looking” area; name reported in 1925 by J. B. Mertie Jr., and P. S. Smith, USGS.

Ilikrak Creek: stream, flows NE 13 miles to Kukpuk River, W of Saligvik Ridge, 13 miles NE of Cape Thompson, Arctic Slope; 68° 17' 20" N, 165° 39' 50" W; BGN 1963; (map 129). Variant: Eelikrak Creek, Imailyaktun Creek. Eskimo name referring to the “death struggle of an animal” recorded in 1962 by W. O. Pruitt, Univ. of Alaska, who spelled it “Eelikrak.”

Ilima: lake, see Clark, Lake.

Ilin Bay: bay, 0.5 miles across, at head of Islas Bay, 16 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 50' N, 136° 23' W; (map 9). Variant: Ilina Bay. Named by the Russians in the early part of the 19th century “for the Russian mate or pilot Ilin who made a reconnaissance of it” (USC&GS 1883, p. 182). In 1883 it was called “Ilina Bay” by USC&GS.

Ilina Bay: bay, see Ilin Bay.

Ilingnorak Ridge: ridge, 2,980 ft., extends NE-SW 13 miles, between Adventure and Iligluruk Creeks, in De Long Mountains, Brooks Range; 68° 43' N, 161° 25' W; (map 131). Eskimo name referring to a “burned” area, reported by USGS in 1956.

Ilisviki: island, see Outer Iliasik Island.

Iliuk Arm Naknek Lake: bay, extends E 13 miles Off Naknek Lake, on Alaska Peninsula, in Katmai National Monument, 23 miles NW of Mount Katmai, Aleutian Range; 58° 31' N, 155° 32' W; (map 42). Variant: East Arm Naknek Lake, Illiak Lake, Illiouk Lake, Illyuk Lake, Nanva-Nelhook. Eskimo name published in 1922 by R. F. Griggs, National Geographic Society, for this very deep lake. On some Russian maps the name “Iliuk” is applied to Naknek Lake. In 1923, R. H. Sargent, USGS, reported another native name as “Nanva-Nelhook,” meaning “very bad lake.”

Iliuliuk Bay: bay, 1.3 miles across, in Unalaska Bay between Amaknak Island and NE coast of Unalaska Island, Aleutian Islands; 53° 54' N, 166° 30' W; BGN 1931; (map 23). Variant: Baie de Illiuliuk, Iliuliuk Harbor, Unalaska Harbor. Aleut name published as “Baie de Illiuliuk” by Adm. vonKrusenstern (1827, atlas), IRN. According to R. H. Geoghegan, the name is a corruption of the word “ilulaq,” which means “dwelling together, harmonious,” and was also the name of the chief village on Unalaska Island.

Iliuliuk Harbor: bay, see Iliuliuk Bay.

Iliuliuk Harbor: harbor, 0.35 miles across, between Captains Bay and Iliuliuk Bay, in Unalaska Bay, on NE coast of Unalaska Island, Aleutian Islands; 53° 52' 48" N, 166° 32' 40" W; BGN 1931; (map 23). Variant: Gavanskaia Bay, Gavanskaya, Unalaska Harbor. Named from Iliuliuk Bay and reported as “Gavanskaya,” or “harbor,” by Father Veniaminov (1840, v. 1, p. 163).

Iliuliuk Reef: reef, at head of Iliuliuk Bay, in Unalaska Bay, on NE coast of Unalaska Island, Aleutian Islands; 53° 52' 46" N, 166° 32' 00" W; (map 23). Local name taken from Iliuliuk Bay and published by USC&GS in 1900.

Iliuliuk: village, see Unalaska.

Iliutagamute: locality, see Iliutak.

Iliutak: locality, "on E shore of Kuskokwim Bay, Yukon-Kuskokwim Delta." (map 53 or 54). Variant: Iliutagamute. Former Eskimo camp or settlement reported as "Iliutagamute" in 1869 by E. W. Nelson, U.S. Signal Service. Ivan Petroff listed Nelson's spelling of the name with a population of 40 in the 1880 Census.

Ilivit Mountains: mountains, 1,700 ft., extend NE 35 miles from Mount Chiniklik, E of Kako Creek and Stuyahok River, 28 miles SW of Holy Cross, Nulato Hills; 62° 02' N, 160° 53' W; (map 78). Variant: Holy Cross Hills, Iliwig, Iliwit. Native name reported in 1842-44 by Lt. L. A. Zagoskin, IRN, and shown as "Gruppa G[ora] Ilivit" or "group [of] mountains Ilivit," on 1861 map by P. Tikhmeniev.

Iliwig: mountains, see Ilivit Mountains.

Iliwit: mountains, see Ilivit Mountains.

Ilijjuljuk: village, see Unalaska.

Ilkognak Rock: rock, between Whale and Kodiak Islands, 16 miles NW of Kodiak, Kodiak Island, 57° 54' 50" N, 152° 47' 00" W; (map 34). Russian transcription of an Eskimo name, "K[amen] Ilkognak," given in 1839 or 1840 by Sub-Lt. Mikhail Murashev, and published in 1849 on Russian Hydrog. Dept. Chart 1425.

Iltugitak, Cape: point of land, between Amalik and Dakavak Bays, on S coast of Alaska Peninsula, in Katmai National Monument, 22 miles SE of Mount Katmai, Aleutian Range; 58° 01' 15" N, 154° 34' 45" W; (map 42). Variant: Mys Iltugitak. Native name; published in 1847 as M[vs] Iltugitak" on Russian Hydrog. Dept. Chart 1378.

Illak Island: island, see Ulak Island.

Illakh Island: island, see Ilak Island.

Illiak Island: island, see Ilak Island.

Illiak Lake: bay, see Iliuk Arm Naknek Lake.

Illinois Creek: stream, flows NW 1 mile to the Bluestone River, 11 miles SE of Teller, Seward Peninsula Highlands; 65° 07' N, 166° 10' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Illinois Creek: stream, flows SE to Anikovik River, about 15 miles SE of Cape Prince of Wales, Seward Peninsula Highlands; (map 111). Prospectors' name shown on the 1900 "Map of

Nome Peninsula” by J. M. Davidson and B. D. Blakeslee. This feature cannot be precisely identified on current maps.

Illinois Creek: stream, formed by confluence of Wilson and Golden Creeks, flows S 7.5 miles to Yukon River, at Kallands N of Brant Island; Kokrines-Hodzana Highlands; 65° 11' 00" N, 153° 04' 30' W; (map 107). Prospectors' name reported in 1908 by Maddren (1910, pl. 5), USGS.

Illiouk Lake: bay, see Iliuk Arm Naknek Lake.

Illiuliuk, Baie de: bay, see Iliuliuk Bay.

Illiuliuk, Baie de: bay, see Unalaska Bay.

Illiuliuk: village, see Unalaska.

Illoolook: village, see Unalaska.

Illuikuk Islands: islands, in Plover Islands, extend 2 miles SE of Plover Point and including Doctor and Deadmans Islands, Arctic Plain; 71° 21' 35" N, 156° 18' 00" W; (map 153). Published on the 1853 Brit. Adm. Chart 2164 of the Point Barrow area drawn by Master Thomas Hull, RN. The name is not used today.

Illuk Island: island, see flak Island.

Illyuk Lake: bay, see Iliuk Arm Naknek Lake.

Illyulyuk: village, see Unalaska.

Ilmalianok: point of land, see Ilmalianuk, Cape.

Ilmalianuk, Cape: point of land, on W coast of Umnak Island, Aleutian Islands; 53° 16' 15" N, 168° 35' 30" W; (map 22). Variant: Ilmalianok, M[ys] Ul' malyanok. Aleut name published by Capt. Tebenkov (1852, map 25), IRN, as “M[ys] Ul' malyanok,” or “Cape Ulmalyanok.”

Ilmudichtchit: cove, see Udagak Bay.

Ilmudikhchit: cove, see Udagak Bay.

Ilnik Lake: lagoon, trends NE 5.5 miles toward Seal Islands and Bristol Bay, 29 miles NW of Mount Veniaminof, on Alaska Peninsula, Bristol Bay Lowland; 56° 36' N, 159° 37' W; (map 30). Local name published in 1951 by USGS; derived from Ilnik.

Ilnik: locality, on barrier beach NW of Ilnik Lake, 47 miles SW of Port Heiden Airfield, Bristol Bay Lowland; 56° 36' N, 159° 37' W; (map 30). Eskimo camp reported in 1951 by USGS.

Iloodak Point: point of land, 36 miles SW of Cape Etolin, on N coast of Nunivak Island; 60° 14' 15" N, 167° 06' 10" W; (map 57). Variant: Iloodax Point, Iludakh Point. Eskimo name obtained in 1949 by USC&GS.

Iloodax Point: point of land, see Iloodak Point.

Iloolook: village, see Unalaska.

Ilpiet Island: island, see Ilput Island.

Ilpit Island: island, see Ilput Island.

Ilput Island: island, 0.5 miles long, off W coast of Baranof Island, 12 miles S of Sitka, Alexander Archipelago; 56° 54' 15" N, 134° 22' 30" W, (map 5). Variant: Ilpiet Island, Ilpit Island, Ostrov Ilpyt. Tlingit Indian name reported in 1809 by Ivan Vasiliev the first, IRN; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Ilpyt," or "Ilpyt Island."

Ilpyt, Ostrov: island, see Ilput Island.

Iltlenleiden: locality, see Intenleiden.

Iltugitak, Mys: point of land, see Ilktugitak, Cape.

Iludakh Point: point of land, see Iloodak Point.

Iluiaak Island: island, see Shuyak Island.

Iluituk Hill: hill, 810 ft., E of Tumi Creek, near shore of Chuckchi Sea, 8.5 miles SE of Cape Thompson, Arctic Slope; 68° 06' N, 165° 41' W; (map 129). Variant: Elooweechook, Iluituq, Eeluichuk Mountain. Eskimo name reported in 1962 as "Eeluichuk Mountain" by W. O. Pruitt, Jr., of Univ. of Alaska.

Iluituq: hill, see Iluituk Hill.

Ilyyak Basin: valley, 4 miles long, on an E flowing stream near the head of Kelly River, De Long Mountains, Brooks Range; 68° 27' N, 162° 12' W; (map 130). Eskimo name means "mixing bowl"; name obtained in 1956 at Noatak by Orth.

Ilyamna: locality, see Old Iliamna.

Ilyavlootixrut: stream, see Ilaigutigrak Creek.

Ilyaylootixroot Mountain: mountain, see Ilaigutigrak Mountain.

Ilyirak Creek: stream, flows NE 7 miles to Kukpuk River, 3 miles NW of junction of Ipewik River, Arctic Slope; 68° 21' 55" N, 165° 48' 25" W; BGN 1963; (map 129). Variant: Eelyeerak Creek, Eelyeerat Creek. Eskimo name recorded in 1960 as "Eelyeerat" by D. C. Foote in connection with Project Chariot.

Imachuck River: stream, see Inmachuk River.

Imagazuk: lake, see Imuruk Basin.

Imaglin Island: island, see Little Diomede Island.

Imagnak: locality, see Imagnee.

Imagnee: locality, on Summer Bay on E shore of Unalaska Bay, Unalaska Island, Aleutian Islands; 53° 55' N, 166° 25' W; (map 23). Variant: Imagnak, Imagninskoe, Sinagnia, Sinagnya. Former Aleut village reported by Father Vemiaminov (1840, v. 1, p. 184) as "Imagninskoe" with a population of 32 in 1830. The 1880 Census listed it as "Imagnak" with 34 people. Lt. Sarichev (1826, map 14), IRN, on a 1790 map, gives the village name as "Sinagyna."

Imagninskoe: bay, see Summer Bay.

Imagninskoe: locality, see Imagnee.

Imagru Bay: bay, see Clarence, Port.

Imaigenik: locality, near Anaktuvuk Pass in the Endicott Mountains, Brooks Range; 68° 15' N, 151° 45' W; (map 134). Eskimo name for an archeological site reported in 1950 by Ralph Solecki (in Giddings, 1964, p. 263).

Imaiknaurak: point of land, see Humphrey Point.

Imaiknik Lake: lake, 1 mile across, between Colville and Itkillik Rivers, 32 miles NE of Umiat, Arctic Plain; 69° 31' 30" N, 150° 50' 20" W; (map 141). Eskimo name reported in 1956 by T. E. Taylor, USGS. It means "dried up place."

Imailyaktun Creek: stream, see Ilikrak Creek.

Imakhpiguak Bay: bay, see Goodnews Bay.

Imakhpiguak, Zaliv: bay, see Goodnews Bay.

Imaklit, Ostrov: island, see Little Diomede Island.

Imakpiguak: bay, see Goodnews Bay.

Imakruak Lake: lake, 5 miles long, between Smith Bay and Teshekpuk Lake, Arctic Plain; 70° 46' 30" N, 153° 59' 30" W; (map 148). Eskimo name reported by USGS in 1956, meaning "old water."

Imaourouk: lake, see Imurak Basin.

Ime' kpun: locality, see Imekpung.

Imeakpun: lake, see Imikpuk Lake.

Imeakpuniglu: lagoon, see North Salt Lagoon.

Imekpung: locality, "near Point Barrow, Arctic Plain"; (map 153). Variant: Ime' kpun. Former Eskimo camp listed by Hodge (1907, p. 600), BAE.

Imelyak River: stream, heads at 67° 34' N, 156° 58' W, flows NW and SW 55 miles to Cutler River, 46 miles SW of Howard Pass, Brooks Range; 67° 45' N, 158° 10' W; (map 126). Descriptive Eskimo name meaning "little water," obtained at Noatak by Orth in 1956.

Imeri Lake: lake, 0.3 miles long, on Kenai Peninsula, one of the Seven Lakes in course of East Fork Moose River, SE of Afonasi Lake, 27 miles SW of Kenai, Cook Inlet Lowland; 60° 32' 45" N, 150° 28' 45" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Imexsaan: lake, see Emaiksoun Lake.

Imhoff Lake: lake, see Talbot Lake.

Imiak: locality, at the SE end of Aleknagik Lake near Dillingham, Kilbuck-Kuskokwim Mountains; (map 52). Variant: Seleniye Imyak. Former Eskimo village reported as "Sel[eniye] Imyak" meaning "Imyak Village," by Capt. Tebenkov (1852, map 4), IRN.

Imiaknikpak Lake: lake, 1.5 miles across, in Killik River valley, 17 miles NE of Kurupa Lake, Brooks Range; 68° 29' N, 154° 03' W; (map 133). Variant: Scotty Lake. Eskimo name meaning "big dry lake," obtained in 1956 at Anaktuvuk Pass by Orth. A 1924 fieldsheet by Gerald FitzGerald, USGS, shows "Scotty Lake," probably for George "Scotty" Clark, one of expedition's packers.

Imigrook Lagoon: lagoon, see Imikruk Lagoon.

Imigrook River: stream, see Imikruk Creek.

Imigruk Creek: stream, see Imikruk Creek.

Imigruk Lagoon: lagoon, see Imikruk Lagoon.

Imik Lagoon: lagoon, 2 miles long, on the Chukchi Sea coast, 25 miles N of Krusenstern, Kotzebue. Kobuk Lowland; 67° 29' N, 163° 56' W; (map 128). Eskimo name meaning "freshwater" reported in 1962.

Imik: locality, on Agattu Island in Near Islands, Aleutian Islands; (map 13). Former Aleut village reported as "uninhabited" by Hodge (1907, p. 600), BAE.

Imikneyak Creek: stream, in DeLong Mountains, flows SW 18 miles, to Kaluktavik River, 14 miles SE of Misheguk Mountain, Brooks Range; 68° 04' N, 160° 47' W; (map 131). Eskimo name meaning "has no water," obtained at Noatak by Orth in 1956.

Imikneyak Mountains: mountains, 3,747 ft., extend NE-SW 15 miles, in DeLong Mountains, between Imikneyak Creek and Kaluktavik River, 13 miles SE of Misheguk Mountain, Brooks Range; 68° 11' N, 160° 30' W; (map 131). Named by USGS in 1958 for the adjacent stream.

Imikpak Lake: lake, see Imikpuk Lake.

Imikpaneraluk: lagoon, see North Salt Lagoon.

Imikpok: lake, see Imikpuk Lake.

Imikpuk Lake: lake, 0.7 miles long, on Chukchi Sea coast, 3.5 miles NE of Barrow, Arctic Plain; 71° 19' 45" N, 156° 39' 00" W; BGN 1966; (map 153). Variant: Amikpak Lake, Emikpuk Lake, Emukpun, Imeakpun, Imikpok, Imukpung. Eskimo name [Imikpak] meaning "big [fresh] water [lake]" originally published by Lt. Ray (1885, p. 55), USA, as recorded in 1882 by Sgt. John Murdoch, naturalist.

Imikrak Creek: stream, flows SW 0.5 miles to Chukchi Sea, 2.7 miles SE of Cape Thompson, Arctic Slope; 68° 07' 10" N, 165° 53' 55" W; BGN 1963; (map 129). Variant: Emmikroak Creek. Eskimo name reported in 1950 by USC&GS to mean "warm water" and spelled "Em-mik-roak." The stream is reported not to freeze in winter, probably due to Cliff Spring near its mouth.

Imikruk Creek: stream, heads in a lake, and flows SW 15 miles to Imikruk Lagoon, 7 miles SE of Kivalina, Kotzebue-Kobuk Lowland; 67° 42' N, 164° 18' W; (map 128). Variant: Imigrook River, Imigruk Creek. Reported in 1966 by E. S. Burch; name means "fresh water."

Imikruk Lagoon: lagoon, 6 miles long, on Chukchi Sea coast, 4 miles SE of Kivalina, Kotzebue-Kobuk Lowland; 67° 40' N, 164° 20' W; (map 128). Variant: Imigrook Lagoon, Imigruk Lagoon. Eskimo name for "fresh water" reported in 1966 by E. S. Burch.

Imnaaquq Kuugauzanga: stream, see Imnakuk Creek.

Imnaaquq: bluff, see Imnakuk Bluff.

Imnahkook Koogawranga: stream, see Imnakuk Creek.

Imnahkook: bluff, see Imnakuk Bluff.

Imnaitchiak Creek: stream, heads at glacier terminus, flows N 18 miles to Oolamnagavik River, 10 miles NE of Kurupa Lake, Brooks Range; 68° 31' N, 154° 29' W; (map 133). Eskimo name meaning "young [Dall] sheep," reported in 1956 by Orth.

Imnak Bluff: bluff, on left bank of Wulik River, at mouth of Ikalukrok River, 30 miles NE of Kivalina, Arctic Slope; 67° 53' N, 163° 38' W; (map 128). Variant: Imnaq. Eskimo name meaning "cliff" reported in 1966 by E. S. Burch.

Imnakpak Cliff: cliff, 600 ft., on Chukchi Sea coast, NW of Cape Thompson, Arctic Slope; 68° 09' N, 165° 59' W; BGN 1963; (map 129). Variant: Imnatpuk Cliff, Unukpay Cliff. Eskimo name meaning "big cliff" reported about 1962 by W. O. Pruitt, Univ. of Alaska.

Imnakuk Bluff: bluff, extends W 4 miles to Imnakuk Creek, on N side of Kivalina River, 6 miles N of Kivalina, Kotzebue-Kobuk Lowland; 67° 48' N, 164° 35' W; (map 128). Variant: Imnaaquq, Imnahkook. Eskimo name reported in 1966 by E. S. Burch.

Imnakuk Creek: stream, flows SW 4 miles to Kivalina Lagoon, 8 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 49' N, 164° 40' W; (map 128). Variant: Imnaaquq Kuugauzanga, Imnahkook Koogawranga. Eskimo name reported in 1966 by E. S. Burch.

Imnaq: bluff, see Imnak Bluff.

Imnatchiak Bluff: bluff, 200 ft., on W bank of Killik River 9 miles SW of its junction with Okokmilaga River, Brooks Range; 68° 42' N, 153° 40' W; (map 133). Eskimo name recorded by Orth in 1956, at Anaktuvuk Pass, as “Imnaitchiak,” meaning “young [Dall] sheep.”

Imnatpuk Cliff: cliff, see Imnakpak Cliff.

Imnauralik Cliff: cliff, 10 miles N of Kivalina, Arctic Slope; 67° 52' N, 164° 38' W; (map 128). Variant: Imnauzalik, Imnowralick. Eskimo name meaning “place of the little cliff” reported in 1966 by E. S. Burch.

Imnauzalik: cliff, see Imnauralik Cliff.

Imnavait Mountain: mountain, 3,680 ft., on N slope of Endicott Mountains, between Kuparuk and Toolik Rivers, Arctic Slope; 68° 46' N, 149° 24' W; (map 135). Eskimo name reported in 1956 by USGS.

Imnowralick: cliff, see Imnauralik Cliff.

Imnuchuk River: stream, see Immachuk River.

Imokhtagokshuk: locality, see Imokhtegokshuk.

Imokhtegokshuk: locality, on N coast of Norton Sound, 1 mile NE of Cape Nome, Seward Peninsula Highlands; 64° 27' N, 164° 58' W; (map 95). Variant: Imokhtagokshuk. Site of an Eskimo village shown as above by Ivan Petroff in the 1880 U.S. Census; listed in Petroff's text (p. 11) as “Imokhtagokshuk” with a population of 30.

Imokruk: lake, see Imuruk Basin.

Imouroak: lake, see Imuruk Basin.

Imourouk Lake: lake, see Imuruk Lake.

Imov-iack, Baie: bight, see Imuya Bay.

Imoviao, Baie: bight, see Imuya Bay.

Impaghuk Point: spit, extends N into Koozata Lagoon from its barrier reef, 36 miles SE of Gambell, Saint Lawrence Island; 63° 25' N, 170° 55' W; BGN 1951; (map 93). Eskimo name recommended by the Savoonga village council; reported in 1949 by Maj. H. B. Allen, USAF.

Impassible Island: island, 0.2 miles long, in Necker Islands S of Biorka Island, 18 miles SW of Sitka, Alexander Archipelago; 56° 49' 55" N, 135° 32' 25" W; (map 5). Variant: Neprop Island, Nepropusknoi Island, Ostrov Nepropusknoy. This is a translation by USC&GS of the name given in 1809 by the navigator Ivan Vasiliev the first, IRN. Lt. Sarichev (1826, map 19), IRN, published it as "O[strov] Nepropusknoy."

Imperial Passage: water passage, 1.5 miles long, between Hill and Hogan Islands, 7.5 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 43' 30" N, 136° 16' 00" W; (map 9). Local name published in 1910 by USC&GS on Chart 8250.

Impnipuk River: stream, see Inmachuk River.

Impregnable Basin: valley, 0.5 miles long, at head of Grant Creek on Douglas Island, 1.5 miles W of Juneau, Coast Mountains; 58° 18' 00" N, 134° 27' 30" W; (map 11). Miners' name mentioned by DeArmond (1957, p. 23).

Imtelleiden: locality, see Intenleiden.

Imughialuk: locality, see Booshu Camp.

Imukpung: lake, see Imikpuk Lake.

Imukpunningmu: lagoon, see North Salt Lagoon.

Imurak Lake: lake, 8 miles long and 5 miles wide, 37 miles NE of Mount Bendeleben, Seward Peninsula Highlands; 65° 36' N, 163° 13' W; BGN 1952; (map 110). Variant: Emuruk Lake, Imourouk Lake. Eskimo name reported in 1901 as "Emuruk" by Mendenhall (1902, pl. 4), USGS.

Imurook: lake, see Imuruk Basin.

Imuruk Basin: lake, 17 miles long, 20 miles SE of Teller, Seward Peninsula Highlands; 65° 07' N, 165° 45' W; (map 111). Variant: Cowvinik Lake, Imagazuk, Imaourouk, Imaurook, Imauruk, Imoou-rouk, Imourouk, Imourouk, Imukruk, Imurook, Irr-maghe-zuk, Salt Lake. Eskimo name reported in 1826 by Capt. Beechey (1831, p. 291), RN, as "Imau-rook"; published in 1852 as "Imau-ruk" on Russian Hydrog. Dept. Chart 1455.

Imuya Bay: bight, 4 miles across, 4 miles S of Cape Kayakliut, on SE coast of Alaska Peninsula, 43 miles SE of Ugashik, Aleutian Range; 57° 14' N, 156° 20' W; (map 36). Variant: Baie Imoviao, Baie Imov-iack. Eskimo name published in 1835 as "B[aie] Imoviao" and "B[aie] Imov-iack" by Adm. A. J. von Krusenstern, IRN.

Ina Gulch: ravine, trends NE 1 mile to Slate Creek, 50 miles SW of Eagle, Yukon-Tanana Highlands; 64° 34' N, 142° 40' W; (map 102). Variant: Presno Creek. Prospectors' name obtained in 1905 by D. C. Witherspoon, USGS.

Ina Island: island, 0.2 miles long, on N shore of Expedition Harbor, Bay of Islands, Adak Island, Aleutian Islands; 51° 48' 00" N, 176° 45' 10" W; BGN 1936; (map 17). Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1933 for the survey signal Ina.

Inaccessible Ridge: ridge, 4,000 ft., extends SW-NE 7 miles, in De Long Mountains, 24 miles NW of Misheguk Mountain, Brooks Range; 68° 30' N, 161° 40' W; BGN 1966; (map 131). So called by the B. P. Exploration Company in 1965 because it consists of "A well developed hog's-back ridge which is generally difficult to climb."

Inakpuk Village: locality, see Inakpuk.

Inakpuk: locality, on right bank of Nushagak River, 16 miles NE of Ekwok and 60 miles NE of Dillingham, Bristol Bay Lowland; 59° 32' N, 157° 09' W; BGN 1931; (map 52). Variant: Inakpuk Village, Pitmik, Pit-mik-ha-mut. Former Eskimo camp or village shown as "Pit-mik-ha-mut," meaning "Pitmik people," on a 1910 manuscript map by H. C. Fassett, USBF. The name "Inakpuk" was obtained in 1930 from F. H. Waskey and Beverley Polley, local inhabitants, by Gerald FitzGerald, USGS, and was published by Mertie (1938b, pl. 1), USGS.

Inaktuli River: stream, see Inglutalik River.

Inalak: island, off coast of Unalaska Island, Aleutian Islands; (map 23). Aleut name published by Berg (1823, p. 59). Baker (1906, p. 324) says "that the island was not identified, perhaps [it is] Unalga." The name does not appear on modern maps.

Inalik: locality, see Ignaluk.

Inalit: locality, see Ignaluk.

Inanudak Bay: bay, 2 miles across, on W central coast of Umnak Island, Aleutian Islands; 53° 13' N, 168° 25' W; (map 22). Variant: Stepanow Bay. Aleut name reported in 1840 by Father Ioann Veniaminov (Baker, 1906, p. 324).

Inaru River: stream, heads in Lake Itinik, at 70° 39' N, 158° 30' W, flows NE 85 miles to Kuyanak Bay, in Meade River Delta, 32 miles SE of Barrow, Arctic Plain; 70° 54' N, 155° 59' W; (map 148). Variant: Iuaru River, Kuahroo River, Kuahu River, Kuaru River. Eskimo name reported by Capt. Ray (1885, p. 27), USA, who on March 4, 1883, wrote "we struck a stream about thirty yards wide, * * *. Natives gave it the name of Iuaru." Ray, however, is inconsistent, citing the name as "Kuaru, first large river east of Point Barrow" (p. 55), but spelling the name "Kauhroo" on his map. Baker (1906, p. 324) spelled the name "Inaru," probably a misspelling of the name as reported by Ray. The name as published by Baker, however, is present-day map usage. The present-day Eskimo name for this stream is "Kugaarug" (R. F. Spencer, 1959, map 2), which is probably the same that Ray originally attempted to record.

Inayarak River: stream, see Eenayarak River.

Incarnation, Point: point of land, N tip of an island, at mouth of Steamboat Bay, NE coast of Noyes Island, Alexander Archipelago; 55° 33' 20" N, 133° 37' 15" W; BGN 1923; (map 4).

Variant: Punta de Jesus Maria. The Spanish name "Punta de Jesus Maria" was given to this feature in 1775 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle; changed to "Incarnation Point" in June 1922 by USC&GS, to avoid names implying irreverence. Wagner (1937, p. 464) applies the Spanish name to Cape Ulitka, on the northwest coast of Noyes Island.

Inclined Mountain: mountain, 6,700 ft., between Barrenland Creek and North Fork Koyukuk River, 31 miles SE of Anaktuvuk Pass, Brooks Range; 68° 01' N, 150° 35' W; BGN 1932; (map 134). Named in 1932 by Marshall (1956, p. 50) who said, "across the canyon appeared massive Inclined Mountain, with its dark, tilted strata."

Indecision Creek: stream, flows NW 11 miles to Mother Goose Lake, on Alaska Peninsula, 24 miles SE of Ugashik, Aleutian Range; 57° 12' N, 157° 14' W; (map 36). Descriptive name given in 1923 by R. H. Sargent "because of its several outlets."

Independence Creek: stream, flows N 1.5 miles to Treasure Creek, 12 miles N of Fairbanks, Yukon-Tanana Highlands; 65° 01' 05" N, 147° 43' 55" W; (map 105). Named by prospectors; published in 1908 by USGS.

Independence Creek: stream, flows N 10 miles to Innoko River, 8 miles SE of Ophir and 24 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 04' N, 156° 19' W; BGN 1936; (map 90). Prospectors' name obtained in 1933 by J. B. Mertie, Jr. (in Smith, P. S., 1936, pl. 4), USGS.

Independence Creek: stream, flows N 5 miles, joins Mastodon Creek to form Mammoth Creek, 40 miles SW of Circle, Yukon-Tanana Highlands; 65° 30' 25" N, 145° 13' 45" W; (map 104). Named in 1894 by prospectors; reported in 1896 by USGS (Spurr, 1898, pl. 50).

Independence Creek: stream, flows NE 1.4 miles to Quartz Creek which flows to Kougarok Creek, 47 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 21' N, 164° 42' W; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Independence Creek: stream, flows NE 1 miles to Eldorado Creek 2 miles S of its junction with Telegram Creek, at head of Dome Creek, 21 miles NW of Solomon, Seward Peninsula Highlands; 64° 51' N, 164° 39' W; (map 95). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Independence Creek: stream, flows NW 12 miles to Holtz Creek which flows to Kugruk River, 20 miles E of Imuruk Lake, Seward Peninsula Highlands; 65° 38' N, 162° 29' W; (map 110). Prospectors' name reported in 1901 by D. L. Reaburn (in Mendenhall, 1902, pl. 4a), USGS.

Independence Creek: stream, flows SE 4 miles to Sinuk River, 21 miles NW of Nome, Seward Peninsula Highlands; 64° 42' N, 165° 58' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Independence Creek: stream, flows SW 14 miles, joins Slate Creek to form North Fork Fortymile River, 37 miles SW of Eagle, Yukon-Tanana Highlands; 64° 38' N, 142° 24' W; (map 102). Named by prospectors and reported in 1904 by D. C. Witherspoon, USGS.

Independence Creek: stream, heads in glacier, flows E and S 3.5 miles to Icy Bay, 6 miles NE of Claybluff Point and 67 miles NW of Yakutat, St. Elias Mountains; 60° 00' 55" N, 141° 24' 30" W; (map 65). Local name published in 1951 by USGS.

Independence Gulch: ravine, trends N 2.5 miles to Fourth of July Creek, 4 miles SW of that stream's junction with Yukon River and 32 miles NW of Eagle, Yukon-Tanana Highlands; 65° 08' 30" N, 141° 53' 00" W; (map 103). Local name published in 1956 by USGS.

Independence Island: island, 250 ft. long, in Steamer Bay, off W coast of Etolin Island, Alexander Archipelago; 56° 09' 10" N, 132° 40' 30" W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow, USN; published in 1887 on USC&GS Chart 706.

Independence Lake: lake, 0.1 miles across, 1.5 miles N of Comet and 47 miles NW of Juneau, Coast Mountains; 58° 53' 20" N, 135° 08' 00" W; (map 11). Prospectors' name reported in 1906 by R. B. Oliver, USGS.

Independent Ridge: ridge, 4,000 ft., extends N 11 miles, between Johnson and Little Gerstle Rivers, 35 miles SE of Delta Junction, Alaska Range; 63° 40' 20" N, 144° 53' 30" W; BGN 1937; (map 86). Name shown on a 1927 manuscript map of the "Endicott and Haley Hunting Expedition"; so called because the ridge is nearly isolated from the Alaska Range.

Index Islet: island, see Guide Island.

Index Lake: lake, 3,500 ft. long, between Hicks Creek and Glenn Highway, 41 miles NE of Palmer, Talkeetna Mountains; 61° 48' 20" N, 147° 57' 20" W; (map 69). Local name reported in 1913 by USGS.

Index Mountain: mountain, 5,411 ft., 15 miles SW of Table Mountain and 36 miles NE of Arctic Village, Brooks Range; 68° 15' N, 144° 09' W; (map 136). Named and reported in 1926 by J. B. Mertie (in Smith, P. S., and others, 1929, pl. 1), USGS.

Indiada Cove: cove, 0.5 miles across, on W coast of Suemez Island, at entrance to Port Santa Cruz, Alexander Archipelago; 55° 16' 30" N, 133° 27' 30" W; (map 4). Named in 1923 by USC&GS; derived from Indiada Island.

Indiada Island: island, 900 ft. long, in Indiada Cove on W coast of Suemez Island, Alexander Archipelago; 55° 16' 30" N, 133° 27' 25" W; (map 4). Variant: Isla Indiada, Isleta de la Indiada, Ostrov de la Indiada. Spanish name given in 1779 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Isle Indiada," meaning "group-of-Indians island."

Indiada, Ostrov de la: island, see Indiada Island.

Indian Arkipelagan: islands, see Alexander Archipelago.

Indian Bay: bay, see Summer Bay.

Indian Camp Creek: stream, heads in Latouche Glacier, flows N 2 miles to Disenchantment Bay, 0.8 miles E of Point Latouche and 25 miles NE of Yakutat, St. Elias Mountains; 59° 54' 20" N, 139° 36' 15" W; (map 46). Local name published in 1959 by USGS.

Indian Cove: cove, 0.3 miles across, in Auke Bay, S of Fairhaven and 11 miles NW of Juneau, Coast Mountains; 58° 22' 20" N, 134° 41' 45" W; (map 11). Local name published by USGS in 1962.

Indian Cove: estuary, see Soapstone Cove.

Indian Creek Pass: pass, 2,600 ft., at head of Indian Creek, 7 miles SE of Anchorage, Chugach Mountains; 61° 04' N, 149° 29' W; (map 69). Local name reported in 1960 by USGS.

Indian Creek Rapids: rapids, 0.3 miles long, on Indian Creek, between W coast of Stevenson and NE coast of Prince of Wales Islands, Alexander Archipelago; 56° 02' N, 133° 58' W; BGN 1915; (map 6). Named in 1914 by E. Lester Jones, USBF.

Indian Creek: stream, flows N 1.5 miles to Whale Passage, on NE coast of Prince of Wales Island, Alexander Archipelago; 56° 02' N, 132° 58' W; BGN 1915; (map 6). Named in 1914 by E. Lester Jones, USBF.

Indian Creek: stream, flows S 22 miles to Copper River, 9 miles NE of Chistochina, Copper River Basin; 62° 39' N, 144° 26' W; (map 83). Variant: Indian River, Tetelna. Name used by prospectors and reported in 1903 by F. C. Schrader, USGS, who also noted the Indian name "Tetelna."

Indian Creek: stream, flows S 4 miles to S end of Chandalar Lake, 5.5 miles SW of Chandalar, Brooks Range; 67° 28' N, 148° 41' W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Indian Creek: stream, flows S 7 miles to Goodpaster River, 36 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 29' N, 144° 56' W; (map 101). Named by prospectors and reported in 1903 by T. G. Gerdine (in Prindle, 1913a, pl. 16), USGS.

Indian Creek: stream, flows S to Moonlight Creek which flows to Anikovik River, about 16 miles E of Cape Prince of Wales, Seward Peninsula Highlands; (map 111). Prospectors' name shown on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This feature cannot be precisely identified on current maps.

Indian Creek: stream, flows SE 8.5 miles to Happy River, 1 mile NE of Rainy Pass Lodge, 85 miles SW of Talkeetna, Alaska Range; 62° 01' N, 152° 43' W; (map 81). Local name reported in 1958 by USGS.

Indian Creek: stream, flows SW 3.5 miles to Galena Bay, 42 miles NW of Cordova, Chugach Mountains; 60° 57' 20" N, 146° 37' 45" W; (map 64). Local name published in 1915 by USGS; derived from Indian River, village.

Indian Creek: stream, flows SW 5 miles to Tanana River, 6 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 11' N, 145° 42' W; (map 101). Local name reported in 1908 by J. W. Bagley, USGS.

Indian Creek: stream, heads at Indian Creek Pass, flows S 7 miles to Turnagain Arm, 6.5 miles NW of Sunrise, Chugach Mountains, 60° 59' 10" N, 149° 30' 00" W; (map 63). Name used by local prospectors; reported in 1898 by Capt. Glenn (Glenn and Abercrombie, 1899, map), USA.

Indian Creek: stream, heads in Second Lake, flows SE 1.4 miles to Cook Inlet, S of Tyonek, Cook Inlet Lowland; 61° 03' 45" N, 151° 08' 25" W; BGN 1916; (map 70). Variant: Shorty Creek, Shortys Creek. Local name reported in 1916 by USGS.

Indian Creek: stream, on Kenai Peninsula, heads at Indian Glacier terminus in Kenai Mountains, flows W 13 miles to Tustumena Lake, 38 miles SE of Kenai, Chugach Mountains; 60° 07' N, 150° 37' W; (map 62). Variant: Indian River. Local name reported in 1904 by Moffit and Stone (1906, pl. 2), USGS.

Indian Creek: stream, on mainland, heads at a glacier, flows SW 4 miles to Chickamin River 9 miles NE of its junction with its South Fork, Coast Mountains; 55° 59' 25" N, 130° 39' 20" W; (map 3). Local name recorded in the 1950's by USGS.

Indian Creek: stream, on Prince of Wales Island, flows NE 5.5 miles to Harris River Bay, 17 miles E of Craig, Alexander Archipelago; 55° 27' 30" N, 132° 41' 30"W; (map 4). Name published in 1920 by USC&GS.

Indian Creek: stream, see Big Indian Creek.

Indian Creek: stream, see East Fork Indian Creek.

Indian Creek: stream, see Indian River.

Indian Creek: stream, see Long River.

Indian Glacier: glacier, on Kenai Peninsula, in Kenai Mountains, trends NW 4.5 miles from Harding Ice Field to the glacier's 1951 terminus at head of Indian Creek, 44 miles SE of Kenai, Chugach Mountains; 60° 08' 30" N, 150° 18' 30" W; (map 62). Local name reported in 1951 by USGS.

Indian Grave Creek: stream, heads in Canada, flows NW across Alaska-Canada boundary 13 miles to Kandik River, 37 miles ENE of that stream's junction with Yukon River, Porcupine Plateau; 65° 37' 15" N, 141° 23' 00" W; (map 103). Local name published in 1956 by USGS; named for Indian Grave Mountain.

Indian Grave Mountain: mountain, 4,385 ft., W of Alaska-Canada boundary, 55 miles N of Eagle, Porcupine Plateau; 65° 35' N, 141° 01' W; BGN 1912; (map 103). Local name reported in 1910 by IBC survey.

Indian Head: point of land, on W shore of Belkofski Bay, 22 miles SE of village of Cold Bay, at SW end of Alaska Peninsula, Aleutian Range; 55° 05' N, 162° 12' W; (map 29). Descriptive name published in 1926 by USC&GS.

Indian Hill: mountain, see Larry Hill.

Indian Island: island, 0.1 miles across, at W end of Auke Bay, 0.4 miles S of Fairhaven and 11 miles NW of Juneau, Coast Mountains; 58° 22' 15" N, 134° 42' 00" W; (map 11). Local name published in 1962 by USGS.

Indian Island: island, see Pyramid Island.

Indian Lake: lake, 2.4 miles long, on Long River, 30 miles SE of Juneau, Coast Mountains, 58° 11' 20" N, 133° 38' 20" W; (map 12). Variant: Speel Lake. Name reported in 1916 by G. H. Canfield (in Brooks and others, 1918, p. 139), USGS. This feature was shown as Speel Lake in 1923 on IBC sheet 7 (1951 Atlas).

Indian Mountain: mountain, 4,234 ft., in Indian Mountains, 15 miles E of Hughes, Kokrines-Hodzana Highlands; 66° 04' N, 153° 42' W; (map 116). Named for the Indian River. Local name published in 1956 by USGS. The Indian name "Batztatgla," meaning "obsidian hill," was reported in 1956 by Orth.

Indian Pass Creek: stream, see Isom Creek.

Indian Pass Lake: lake, 0.9 miles long, at Indian Pass, 8 miles N of junction of Copper and Slana Rivers, Alaska Range; 62° 49' N, 143° 57' W; (map 84). Local name reported in 1949 by USGS.

Indian Pass: pass, 3,400 ft., near head of Porcupine Creek, 10 miles SW of Mentasta Pass, Alaska Range; 62° 50' 00" N, 143° 54' 30" W; (map 84). Local name reported in 1949 by USGS.

Indian Point: point of land, N point of entrance to Naha Bay, on W coast of Revillagigedo Island, Alexander Archipelago; 55° 57' N, 131° 42' W; (map 3). Named in 1885 by Lt. Comdr. Richardson Clover, USN, because "there are Indian graves on the point."

Indian Point: point of land, on Kupreanof Island, extending into Duncan Canal, 12 miles SW of Petersburg, Alexander Archipelago; 56° 45' N, 133° 15' W; BGN 1933; (map 6). Local name reported in 1933 by R. H. Sargent, USGS.

Indian Point: point of land, on S end of Auke Cape in Auke Bay, 0.5 miles SE of Fairhaven and 11 miles NNW of Juneau, Coast Mountains; 58° 22' 20" N, 134° 41' 30" W; BGN 1937; (map 11). Local name reported by USGS in 1936.

Indian Point: point of land, on SE shore of Kanaga Bay, Kanaga Island, Aleutian Islands; 51° 42' 22" N, 177° 11' 25" W; (map 17). Name published in 1957 on an AMS map.

Indian Point: point of land, see Green Point.

Indian River Valley: valley, extends N from Sitka 4 miles, along Indian River, on Baranof Island, Alexander Archipelago; 57° 46' 45" N, 135° 11' 00" W; (map 9). Name published by USC&GS in 1883 Coast Pilot (p. 174).

Indian River: locality, "in SE Alaska." Former summer camp of Sitka Indians listed with a population of 43 in the 1880 Census by Ivan Petroff.

Indian River: stream, flows S 5 miles to Eastern Anchorage, 1 mile SE of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 02' 45" N, 135° 18' 30" W; (map 9). Variant: Reka Koloshenka. Local name published by USC&GS in 1883 Coast Pilot (p. 149). The Russians (Sarichev, 1826, map 19) called it "Reka Koloshenka" or "Koloshian River." Kolosh is the Russian name for the Tlingit Indians.

Indian River: stream, flows SW 21 miles to Susitna River, 35 miles NE of Talkeetna, Talkeetna Mountains; 62° 47' 15" N, 149° 39' 15" W; (map 82). Local name reported in 1951 by USGS.

Indian River: stream, heads at confluence of North and South Forks of Indian River, flows SW 4 miles to Carter Bay at Carter, 18 miles NW of Goodnews, Kilbuck-Kuskokwim Mountains. 59° 17' N, 161° 57' W, (map 53). Variant: Indian Creek. Local name obtained in 1914 by USC&GS; reported in 1919 by G. L. Harrington (in Brooks and others, 1921, pl. 7), USGS, as "Indian Creek."

Indian River: stream, heads in Indian Mountains and flows 53 miles to Mathews Slough, E of Hug Gins Island, 60 miles NW of Gold Mountain, Kokrines-Hodzana Highlands; 65° 52' N, 154° 24' W; (map 107). Local name reported in 1913 by H. M. Eakin (1916, pl. 1), USGS.

Indian River: stream, on E central Chichagof Island, flows SE 11 miles to Tenakee Inlet, 1 mile E of Tenakee Springs, Alexander Archipelago; 57° 46' 45" N, 135° 11' 00" W; (map 9). Local name reported in 1951 by USGS.

Indian River: stream, see Indian Creek.

Indian River: stream, see Itkillik River.

Indian River: stream, see Nimiuktuk River.

Indian River: village, pop. 12, on Glenn Highway at Indian Creek, 10 miles NE of Chistochina, Copper River Basin; 62° 40' N, 144° 26' W; (map 83). Local name reported in 1952 by USGS.

Indian Rock: rock, in Chilkoot Inlet, 1.5 miles E of Tanani Point and 13 miles SW of Skagway, Coast Mountains; 59° 16' 55" N, 135° 23' 55" W; (map 45) Named by Lt. Comdr. H. E. Nichols, USN. Name was published by USC&GS in the 1891 Coast Pilot (p. 203).

Indian Rock: rock, in Security Bay, off N coast of Kuiu Island, Alexander Archipelago; 56° 50' 35" N, 134° 20' 40" W; (map 5). Named in 1869 by Comdr. R. W. Meade, USN.

Indian Rock: rock, off SE coast of Annette Island, in Felice Strait, 2.2 miles NE of Annette Point. Alexander Archipelago; 55° 01' 55" N, 131° 00' 20" W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Indian: village, pop. 40, mile 88.7 on The Alaska Railroad, on Seward Highway, on N side of Turnagain Arm, 7 miles NW of Sunrise, Chugach Mountains; 60° 59' 15" N, 149° 30' 45" W; (map 63). Variant: Bird Creek, Bird Settlement, New Portage. Listed as a flag stop on the time tables of The Alaska Railroad of 1922. Name derived from nearby Indian Creek. It had a population of 19 in 1958.

Indianhouse Mountain: mountain, 4,300 ft., between Falls and Indian Creeks, 18 miles SE of Anchorage, Chugach Mountains; 61° 00' 30" N, 149° 32' 30" W; BGN 1964; (map 69). Named in 1963 by members of the Mountaineering Club of Alaska for "Indianhouse Roadhouse," once located nearby but now abandoned.

Indianischen Archipel: islands, see Alexander Archipelago.

Indigo Lake: lake, 0.8 miles across, 10 miles SE of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 00' 45" N, 135° 04' 00" W; (map 9). Local descriptive name reported in 1954 by R. N. DeArmond. So named because "The waters are reported to be an intense indigo blue color."

Indio, Punta del: point of land, "at the east end of what [Capt. Alessandro] Malaspina calls the 'Ensenada de Estremadura.' * * * A lone Indian came out from here in a canoe July 24, 1791" (Wagner, 1937, p. 463).

Indooli Mountain: hill, 885 ft., 11 miles W of Roberts Mountain, 22 miles NW of Cape Mendenhall, Nunivak Island; 60° 03' N, 166° 34' W; (map 57). Variant: Indooly Butte, Induli Butte. Eskimo name obtained in 1949 by USC&GS.

Indooly Butte: hill, see Indooli Mountain.

Induli Butte: hill, see Indooli Mountain.

Indut: point of land, see Izhut, Cape.

Inerevuk Mountain: mountain, 3,440 ft., 4 miles SE of Cosmos Mountain and 9 miles NE of Shungnak, Brooks Range; 67° 00' N, 156° 55' W; (map 115). Prospectors' name reported after 1940 by USGS.

Inerskin Bay: estuary, see Iniskin Bay.

Infante, Isla: island, see Chirikof Island.

Inferno Reef: reef, 0.5 miles off SW coast of Tanaga Island, Aleutian Islands; 51° 40' N, 178° 07' W; (map 16). Local name published on a 1954 USGS map.

Ingahame: village, see Ingrihak.

Ingahameh: locality, see Akahamut.

Ingahameth: village, see Ingrihak.

Ingahamiut: village, see Ingrihak.

Ingakslugwat Hills: hills, 620 ft., extend 16 miles, between Kgun Lake and Talik River, Yukon-Kuskokwim Delta, 61° 23' N, 164° 01' W; (map 74). Variant: The Volcanoes. Eskimo name reported in 1948 by USC&GS. It is supposed to mean "little old small mountains." They are referred to as "The Volcanoes" by the "bush pilots," according to Orth, 1965.

Ingaluat Creek: stream, flows NE 3.5 miles to Colville River, 30 miles NE of Umiat, Arctic Plain; 69° 44' N, 151° 30' W; (map 141). Eskimo name reported in 1956 by T. E. Taylor, USGS.

Ingamatsha: locality, see Chenega.

Ingehook Mountain: hill, see Inrichuck Hill.

Ingechuk: locality, see Ingichuk.

Ingenstern Rocks: rocks, see Ingenstrem Rocks.

Ingenstrem Rocks: rocks, SE of Semichi Islands, Aleutian Islands, 52° 40' N, 174° 29' E; (map 13). Variant: Ingenstern Rocks, Ingenstrom Rocks, Inghestrom Rocks, Kamni Ingenstrema. Named by the Russians and published in 1848 as "Kamni Ingenstrema" meaning "Ingenstrem Rocks" on Russian Hydrog. Dept. Chart 1400; named for a pilot in the employ of the Russian American Company about 1829-30. He is supposed to have visited the Andreanof Island group and spent two winters at Atka while correcting the existing hydrographic charts of this region.

Ingenstrema, Kamni: rocks, see Ingenstrem Rocks.

Ingenstrom Rocks: rocks, see Ingenstrem Rocks.

Inger: locality, "on Nunivak Island in Bering Sea"; (map 55 or 57). Variant: Ingar, Ingeramiut, Ingeramut, Ingrimiut. Former Eskimo village reported as "Ingeramiut," meaning "mountain people," with a population of 35 in the 1890 Census.

Ingeramiut: locality, see Inger.

Ingeramiut: locality, see Ingrimiut.

Ingeramut: locality, see Inger.

Ingersol Lake: lake, see Lachbuna Lake.

Inghestrom Rocks: rocks, see Ingenstrem Rocks.

Ingichuk: locality, "in Yukon delta, Yukon-Kuskokwim Delta." Variant: Ingechuk, Inrechoatmeut. Former Eskimo camp or settlement reported in 1878 by E. W. Nelson, U.S. Signal Service. Ivan Petroff listed a population of 8 for this locality in the 1880 Census.

Ingieguk: mountains, see Kuzilvak Mountains.

Inglaliktalik River: stream, see Inglutalik River.

Ingle Creek: stream, flows S 2 miles to Mosquito Fork, 56 miles SW of Eagle, Yukon-Tanana Highlands; 64° 05' N, 142° 02' W; (map 102). Variant: Eagle Creek. Prospectors' name shown on a 1902 manuscript map by E. J. Chamberlain, U.S. Deputy Surveyor.

Inglestat, Point: promontory, see Bald Head.

Inglikhakh: island, see Karpa Island.

Inglooth-lookamute: locality, see Ingloothloogramiut.

Ingloothloogramiut: locality, 0.5 miles NW of Irwakyaruk Point, on E coast of Cape Mendenhall, Nunivak Island; 59° 46' 45" N, 166° 05' 30" W; (map 55). Variant: Inglooth-lookamute, Kwigomiut. Eskimo sealing camp reported in 1932 by USC&GS.

Inglucalik River: stream, see Inglutalik River.

Inglueakik River: stream, see Inglutalik River.

Inglutalik River: stream, heads at Traverse Peak, flows SW 80 miles to Norton Bay, 10 miles SE of Koyuk, Nulato Hills; 64° 50' N, 160° 54' W; (map 96). Variant: Inaktuli River, Inglucalik River, Inglyeakik River, Ingaliktalik River. Eskimo name reported in 1849 by Capt. M. D. Tebenkov, IRN, as "Inaktuli."

Ingolitit Cape: point of land, see Iwoonut Point.

Ingot Island: island, 5.5 miles long, in Prince William Sound, between Knight and Eleanor Islands, 22 miles NE of Chenega, Chugach Mountains; 60° 31' N, 147° 38' W; BGN 1908; (map 63). Local name reported in 1908 by USC&GS.

Ingra: locality, see Inger.

Ingraham Bay: estuary, extends W 4 miles from Clarence Strait, on SE coast of Prince of Wales Island, Alexander Archipelago; 54° 58' 30" N, 131° 58' 30" W; (map 2). Named in 1879 by W. H. Dall, USC&GS, for "Joseph Ingraham, master of the brig Hope, of Boston, 1791-92, whose unpublished hydrographic notes of this region were used in compiling the Coast Pilot of 1883."

Ingraham Creek: stream, flows W 0.9 miles to Anvil Creek, 3 miles NW of Nome, Seward Peninsula Highlands; 64° 32' 14" N, 165° 28' 45" W; (map 94). Prospectors' name reported on the 1903 Campion Mining and Trading Co. map by George M. Ashford.

Ingraham Lake: lake, see Talbot Lake.

Ingraham Point: point of land, N point of entrance to Ingraham Bay, on SE coast of Prince of Wales Island, Alexander Archipelago; 54° 59' 00" N, 131° 58' 45" W; (map 2). Local name derived from Ingraham Bay; reported in 1904 by H. C. Fassett, USBF.

Ingrakaghamiut: locality, see Ingrakaklak.

Ingrakak: locality, see Ingrakaklak.

Ingrakak: village, see Ingrihak.

Ingrakaklak: locality, on W coast of Tin Can Point, 13 miles SW of Kwiguk, Yukon-Kuskokwim Delta; 62° 37' N, 164° 48' W; (map 77). Variant: Ingrakaghamiut, Ingrakak. Eskimo village reported in 1898 as "Ingrakaghamiut" by USC&GS (Hodge, 1907, p. 609).

Ingrakaklakamiut: village, see Ingrihak.

Ingram Creek: stream, on N end of Kenai Peninsula, flows NE 8.5 miles to Turnagain Arm, 14 miles SE of Sunrise, Chugach Mountains; 60° 50' 55" N, 149° 03' 15" W; BGN 1950; (map 63). Variant: Quartz Creek. Named in 1950 by USFS for R. C. Ingram, who died in 1948, and "who was resident engineer for the Bureau of Public Roads in charge of practically all road work in the Chugach National Forest for about 25 years."

Ingram Kwik: stream, see Mountain Creek.

Ingram Lake: lake, see Talbot Lake.

Ingrechoah Hill: hill, see Ingrichuak Hill.

Ingregamiut: locality, on right bank of Yukon River, near upstream mouth of Tuckers Slough, 27 miles NE of Russian Mission, Yukon-Kuskokwim Delta; 61° 57' N, 160° 34' W; (map 73). Variant: Mountain Village, Ruibnaia. This is an old village site mentioned by Hrdlicka (1943, p. 62). It may be the same place listed in the 1880 Census as "Ruibnaia" and having 40 inhabitants.

Ingrehak: village, see Ingrihak.

Ingresik: stream, see Ynveeghik River.

Ingri Butte: hill, 515 ft., 3.5 miles S of Ingrirok Hill, 40 miles NW of Cape Mendenhall, on SW coast of Nunivak Island; 60° 02' 15" N, 167° 11' 15" W; (map 57). Variant: Eanceec Hill, Twin Mountain. Common Eskimo name meaning "mountain" reported in 1949 by USC&GS.

Ingrichagamut: village, see Holy Cross.

Ingricher Mountain: mountain, 1,557 ft., 19 miles NW of Shungnak; 67° 07' N, 157° 33' W; (map 126). Eskimo name reported by the U.S. Army Corps of Engineers in 1955.

Ingrichuak Hill: hill, 611 ft., on left bank of Yukon River, 42 miles SW of Kwiguk, Yukon-Kuskokwim Delta; 62° 11' N, 164° 06' W; (map 77). Variant: Gora Ingychuak, Ingechook Mountain, Ingrechoah Hill, Ingrid Mountain, Ingridchoa, Ingychok. Eskimo name meaning "little mountain" obtained in 1842-44 by Lt. L. A. Zagoskin, IRN, and recorded as "Gore Ingychuak," or "Ingychuak Mountain."

Ingrie Kwik: stream, see Mountain Creek.

Ingriduk: mountains, see Kuzilvak Mountains.

Ingrihak: village, on right bank of Yukon River, 8.5 miles S of Marshall, Yukon-Kuskokwim Delta; 61° 45' 20" N, 162° 00' 00"W; (map 74). Variant: Ingrumhart, Ingrehak, Ingahame, Ingahamiut, Ingahameth, Ingrakaklakamiut, Ingrakak. Eskimo name published in the 1880 census as "Inghameth" and "Ingahame" which had a population of 63. USC&GS reported in 1951 that "4 or 5 native families live at Ingrihak." According to Hrdlicka (1943, p. 235) the old village site is located farther inland.

Ingrijoak Hill: hill, 256 ft., on Cape Mendenhall, 2 miles S of Duchikthluk Bay, Nunivak Island; 59° 47' 30" N, 166° 11' 00" W; (map 55). Eskimo name obtained in 1949 by USC&GS.

Ingrijoak Hills: hills, 500 ft., 8 miles SW of Cape Etolin, on N Nunivak Island; 60° 19' N, 166° 17' W; (map 57). Variant: Daniel Hills, Ingrijoax Hills, Ingrijokh Hills. Eskimo name referring to two hills reported in 1949 by USC&GS.

Ingrijoax Hills: hills, see Ingrijoak Hills.

Ingrid Kwik: stream, see Mountain Creek.

Ingrid Mountain: hill, see Ingridchuak Hill.

Ingridchoa: hill, see Ingridchuak Hill.

Ingrilukat Hills: hills, trend NW 5 miles from Ingrilukat-Naskorat Hill, 29 miles NW of Cape Mendenhall, Nunivak Island; 60° 08' N, 166° 30' W; (map 57). Eskimo name meaning "small hills close together" reported in 1949 by USC&GS.

Ingrilukat-Naskorat Hill: hill, 939 ft., in Ingrilukat Hills, 10 miles NW of Roberts Mountain and 28 miles NW of Cape Mendenhall, Nunivak Island; 60° 07' 40" N, 166° 24' 50" W; (map 57). Eskimo name meaning "head of the small hills" reported in 1949 by USC&GS.

Ingrimiut: locality, 24 miles NE of Cape Mendenhall, on W shore of Etolin Strait, Nunivak Island; 60° 03' 45" N, 165° 42' 50" W; (map 57). Variant: Ingeramiut, Ingra. Eskimo village, now abandoned, reported in 1949 by USC&GS. The name means "mountain people." This is probably the same place as Inger (q.v.).

Ingriruk Hill: hill, 299 ft., 5 miles NE of Cape Mendenhall, on SE Nunivak Island; 59° 52' 15" N, 166° 02' 50" W; (map 55). Eskimo name reported in 1937 by USAAF.

Ingriruk Hill: hill, 499 ft., 6 miles WSW of Kimiksthek Hill, 42 miles NW of Cape Mendenhall, Nunivak Island; 60° 05' N, 167° 12' W; (map 57). Eskimo name meaning "little mountain" reported in 1949 by USC&GS.

Ingriruk Hill: hill, 550 ft., 4 miles SW of lookswarat Bay and 14 miles SW of Cape Etolin, on N part of Nunivak Island; 60° 17' 25" N, 166° 26' 55" W; (map 57). Eskimo name meaning "little mountain" reported in 1949 by USC&GS.

Ingrisarak Mountain: hill, 364 ft., between Nariyauck and Ukalikchik Rivers, 27 miles E of village of Hooper Bay, Yukon-Kuskokwim Delta; 61° 31' N, 165° 15' W; (map 75). Variant: Ingrishahk Hill. Eskimo name reported in 1951 by USC&GS.

Ingrishahk Hill: hill, see Ingrisarak Mountain.

Ingruksukrok Creek: stream, flows N 22 miles to Selawik River, 40 miles SW of Shungnak, Kotzebue-Kobuk Lowland; 66° 29' N, 158° 06' W; (map 115). Eskimo name shown on a 1927 manuscript map by the "trader at Selawik."

Ingrumhart: village, see Ingrihak.

Ingun: mountains, see Kuzilvak Mountains.

Ingvit Hill: hill, see Invut Mountain.

Ingychok: hill, see Ingrichuak Hill.

Ingychuak, Gora: hill, see Ingrichuak Hill.

Iniakuk Lake: lake, 5 miles long, 40 miles NW of Allakaket, Brooks Range; 67° 09' N, 153° 15' W; (map 125). Local name reported in 1956 by Orth, USGS. This lake drains into the Iniakuk River from which the lake received its name.

Iniam Point: bluff, elev. 48 ft., on S bank of Naknek River, on Alaska Peninsula, 8.5 miles SE of Naknek, Bristol Bay Lowland; 58° 42' 45" N, 156° 46' 30" W; (map 41). Local name reported in 1952 by USGS.

Inian Cove: cove, 1.6 miles long, on N end of Inian Islands, in North Inian Pass, 2 miles S of Point Wimbledon and 36 miles WNW of Hoonah, St. Elias Mountains; 58° 16' 15" N, 136° 21' 00" W; (map 10). 456 Named in 1901 by J. F. Pratt, USC&GS, for the Inian Islands.

Inian Island: island, 3 miles long, off N coast of Chichagof Island, N of South Inian Pass, 34 miles NW of Hoonah, St. Elias Mountains; 58° 15' N, 136° 19' W; (map 10). Name published in 1939 by NPS. It is the largest of the Inian Islands.

Inian Islands: islands, extends 4.5 miles, off N coast of Chichagof Island, N of South Inian Pass, 34 miles NW of Hoonah, St. Elias Mountains; 58° 15' N, 136° 20' W; (map 10). Variant: Brian Islands. Named in 1879 by W. H. Dall, USC&GS and published in the 1883 Alaska Coast Pilot (p. 186).

Inian Peninsula: peninsula, 7 miles long on N end of Chichagof Island, S of South Inian Pass, 20 miles W of Hoonah, Alexander Archipelago; 58° 10' N, 136° 17' W; BGN 1960; (map 10). Named in 1955 by Rossman (1959, map), USGS, for nearby Inian Islands.

Inigok Creek: stream, heads in lake at 69° 58' N, 153° 57' W, flows NE 75 miles to Fish Creek, 34 miles SW of Atigaru Point, Harrison Bay, Arctic Plain; 70° 10' N, 152° 35' W; (map 149). Variant: Tingmeachsiovik. Eskimo name reported in 1956 by Orth, meaning “it goes somewhere.” This may be the same stream that USC&GS reported in 1951 as having the Eskimo name “Tingmeachsiovik.”

Inikaklik Creek: stream, flows E 6.5 miles to N end of Chandler Lake, 25 miles WNW of Ananturak Pass, Brooks Range; 68° 15' 30" N, 152° 40' 00" W; (map 134). Eskimo name reported in 1950 by USGS.

Inikaklik Creek: stream, flows W 3 miles to Okokmilaga River 12 miles N of its head, Brooks Range; 68° 18' N, 153° 05' W; (map 133). Eskimo name meaning “camping place” reported in 1956 by T. E. Taylor, USGS.

Inikaklik Creek: stream, in Endicott Mountains, heads at glacier terminus, flows NE 10 miles to Itkillik River, Brooks Range; 68° 22' N, 149° 58' W; (map 135). Eskimo name reported in 1956 by USGS.

Inikla Island: island, 0.7 miles across, between Sanak and Caton Islands, one of Sanak Islands. Aleutian Range; 54° 21' 15" N, 162° 29' 30" W; (map 25). Aleut name reported by Ferdinand Westdahl, USC&GS, commander of the Coast Survey steamer, McArthur, who made surveys in this area in 1901.

Inischen Bay: estuary, see Iniskin Bay.

Iniskin Bay: estuary, at mouth of Iniskin River, extends S 10 miles to Cook Inlet, W of Iniskin Peninsula, Aleutian Range; 59° 39' N, 153° 27' W; BGN 1906; (map 51). Variant: Enochkin Bay, Inerskin Bay, Inischen Bay, Initskin Bay, Innerskin Bay, Inniskin Bay, Inokhin Bay. Local name reported in 1903 as “Enochkin” by G. C. Martin (in Emmons and Hayes, 1904, p. 376), USGS; said to have been named for a Russian trader named Enochkin “who years ago had a post in the region.”

Iniskin Bay: estuary, see Iliamna Bay.

Iniskin Island: island, 0.2 miles long, in Cook Inlet, 0.8 miles SE of Scott Island and 18 miles N of Augustine Island, Aleutian Range; 59° 37' 30" N, 153° 25' 30" W; BGN 1916; (map 51). Name published in 1914 on USC&GS Chart 3421. The name is derived from “Iniskin Peninsula,” which is located nearby.

Iniskin Peninsula: peninsula, extends 15 miles into Cook Inlet, on SE coast of Alaska Peninsula between Chinitna and Iniskin Bays, 30 miles NE of Augustine Island, Aleutian Range; 59° 43' N, 153° 03' W; BGN 1959; (map 51). Variant: Iniskin-Chinitna Peninsula. Local name derived from Iniskin Bay and published as “Iniskin-Chinitna Peninsula” by Moffit (1927, pl. 3), USGS, but later shortened by local usage. The name has been in common usage since about 1900.

Iniskin River: stream, heads at glacier terminus, in Chigmit Mountains, flows S 8 miles to Iniskin Bay Aleutian Range; 59° 47' N, 153° 27' W; BGN 1916; (map 51). Local name derived from Iniskin, reported in 1914 by USC&GS.

Iniskin Rock: rock, in Cook Inlet, 1.2 miles SW of Scott Island, and 19 miles N of Augustine Island, Aleutian Range; 59° 37' 40" N, 153° 27' 30" W; BGN 1916; (map 51). Name published in 1914 on USC&GS Chart 3421. The name is derived from nearby Iniskin Peninsula.

Iniskin Shoal: shoal, in Cook Inlet, at entrance to Iniskin Bay, 1.5 miles SW of Scott Island and 18 miles N of Augustine Island, Aleutian Range; 59° 37' 15" N, 153° 27' 30" W; BGN 1916; (map 51). Name reported in 1914 by USC&GS. The name is derived from nearby Iniskin Peninsula.

Iniskin-Chinitna Peninsula: peninsula, see Iniskin Peninsula.

Iniskin: locality, on Iniskin Peninsula, on W bank of Fitz Creek, 4 miles E of Right Arm Iniskin Bay, Aleutian Range; 59° 45' N, 153° 14' W; (map 51). Local name derived from Iniskin Peninsula; published in 1958 by USGS.

Initkilly: locality, site of an Eskimo village, on Chukchi Sea coast. near Corwin Mine, 27 miles E of Cape Lisburne, Arctic Slope; 68° 52' 15" N, 165° 09' 00" W; (map 129). Variant: Corwin. Eskimo name reported in 1890 by Ivan Petroff: shown on 1890 USC&GS chart.

Initskin Bay: estuary, see Iniskin Bay.

Injured Creek: stream, flows NE 1 mile to Bonanza River, between Frost and Sunrise Creeks, about 13 miles NW of Solomon, Seward Peninsula Highlands; 64° 46' N, 164° 47' W; (map 95). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This stream cannot be precisely located on current maps.

Inkala River: stream, see Itkillik River.

Inland Lake: lake, 10 miles across, 5 miles SE of Selawik, Kotzebue-Kobuk Lowland; 66° 29' N, 159° 50' W; (map 114). Variant: Emogarikchoit. Visited and named by Ensign J. L. Purcell, USN, in 1884 (Stoney, 1900, p. 12). Lt. J. C. Cantwell, USRCS, in 1884 transcribed its Eskimo name as "Emogarikchoit" with a meaning given as "little sea." This name spelled "E-mug-ge-row-che-uk," by Stoney is applied to a village on the lake.

Inland River: stream, see Noatak River.

Inlet Point: point of land, on NE coast of Woewodski Island, 15 miles S of Petersburg, Alexander Archipelago; 56° 35' 45" N, 132° 59' 15" W; (map 6). Named in 1879 by W. H. Dall, USC&GS.

Inlet Point: point of land, on W coasts of Annette Island, extends into Port Chester, Alexander Archipelago; 55° 09' 20" N, 131° 33' 00" W; (map 3). Name published in 1896 by USC&GS.

Inlikak: island, see Karpa Island.

Inmachuck River: stream, see Inmachuk River.

Inmachuk River: stream, on Seward Peninsula, flows NE 30 miles to Kotzebue Sound, at the village of Deering, 57 miles SW of Kotzebue, Kotzebue-Kobuk Lowland; 66° 04' N, 162° 42' W; BGN 1952; (map 113). Variant: Imachuck River, Imnuchuk River, Impnipuk River, Impniquk River, Inmachuck River, Innuchuk River, Ipnichuk River. Eskimo name reported in 1901 as "Ipnichuk" by Mendenhall (1902, p. 30), USGS. Mendenhall said that the name means "big cliff"; however, the present spelling of the name would indicate it may mean "new salt water."

Inner Anchorage: anchorage, 0.5 miles across, at Kodiak, Kodiak Island; 57° 47' 15" N, 152° 24' 30" W; (map 34). Local descriptive name reported in 1949 by USGS.

Inner Humpback Rock: rock, in Chiniak Bay 0.6 miles S of Woody Island, 3.2 miles SE of Kodiak, Kodiak Island; 57° 45' 10" N, 152° 20' 50" W; (map 34). Variant: High Rock, Horboon Vnutrennie, Kamen Gorbun Vnutrenniy. Translation of the Russian descriptive name "Kamen Gorbun Vnutrenniy," published by Sarichev (1826, map 16).

Inner Iliasik Island: island, 3 miles long, 7 miles SW of Dolgoi Island. in Pavlof Islands, Aleutian Range; 55° 03' 30" N, 161° 57' 00" W; (map 28). Variant: Eliazak, Ialiasik, Iliasik Islands, Iliaviki, Iliazhek. Native name published by Capt. Tebenkov (1852, map 24), IRN, as "O[strov] Iliaviki," and by the Russian Hydrog. Dept. as "O[strov] Iliazhek" on Chart 1379. "Inner Iliasik Island" was published in 1888 by USBF. This island along with Outer Iliasik Island comprise the Iliasik Islands.

Inner Lake George: lake, 4 miles across, at terminus of Colony Glacier, 27 miles SE of Palmer, Chugach Mountains; 61° 17' 20" N, 148° 32' 15" W; (map 69). Name reported in 1951 by Stone (1963, P. 33).

Inner Nikolski Anchorage: cove, see Mueller Cove.

Inner Point of Shoals: point of land, see Inner Point.

Inner Point Sophia: point of land, at mouth of Port Frederick on N coast of Chichagof Island, 1.6 miles NW of Hoonah, Alexander Archipelago; 58° 07' 50" N, 135° 28' 00" W; (map 11). Named in 1901 by E. F. Dickens, USC&GS, and published in the 1901 Coast Pilot (p. 203).

Inner Point: point of land, in Stephens Passage, on SW coast of Douglas Island, 1.8 miles SE of Middle Point and 8 miles SW of Juneau, Coast Mountains; 58° 13' 55" N, 134° 35' 15" W; (map 11). Name published in 1924 by USC&GS on Chart 8235.

Inner Point: point of land, on E coast of Kruzof Island, 9 miles NW of Sitka, Alexander Archipelago; 57° 05' 40" N, 135° 34' 15" W; BGN 1901; (map 9). Variant: Inner Point of Shoals, Mys Otmeloy Vnutrenniy, Mys Otmlyoy Vnutrynnay, Rocky Point, Second Point. USC&GS about 1882 derived "Inner Point" by translating part of the name "Mys Otmlyoy Vnutrynnay" meaning "inner shoals cape." This name was given in 1809 by the Russian navigator Ivan Vasiliev the first to distinguish it from another point called "shoals." This feature was called "Rocky Point" in 1884 on Brit. Adm. Chart 2337.

Inner Point: point of land, on SE coast of Prince of Wales Island, in Port Johnson, Alexander Archipelago; 55° 07' 25" N, 132° 00' 45" W; (map 4). Local descriptive name obtained in 1905 by E. F. Dickins, USC&GS.

Inner Point: point of land, on W shore of Kizhuyak Bay, 17 miles NW of Kodiak, Kodiak Island; 57° 54' 15" N, 152° 47' 50" W; (map 34). Variant: Inner Cape, Mys Vnutrenniy, Vnutrennie. Translation of the descriptive name "M[ys] Vnutrenniy given in 1839 or 1840 by Sub-Lt. Mikhail Murashev and published in 1849 on Russian Hydrog. Dept. Chart 1425.

Inner Port Walter: bay, see Little Port Walter.

Inner Right Cape: point of land, near the mouth of Kiliuda Bay, on SE coast of Kodiak Island; 57° 16' 30" N, 152° 51' 00" W; (map 34). Variant: Arie Cape, Murre Point, Mys Ariy. Descriptive name published in 1943 by USC&GS. Capt. Tebenkov (1852, map 23) published the name "M[ys] Ariy," or "Arty Cape." Baker (1906, p. 450) wrote, "Murre point, * * *. Named Arie (a sea bird, the arrie or murre or guillemot, Pallas's murre, *Uria lomvia arra*) by Tebenkov, 1849."

Inner Rocks: rocks, in mouth of Chichagof Harbor, off NE coast of Attu Island, Aleutian Islands; 52° 56' 10" N, 173° 15' 32" E; (map 13). Descriptive name given in 1854-55 by Lt. William Gibson, USN.

Inner Seal Rock: rock, on W coast of Kodiak Island, 1.5 miles W of Gurney Bay and 23 miles SW of Karluk; 57° 17' 20" N, 154° 48' 00" W; (map 35). Descriptive name published by USC&GS in 1943. See Seal Rocks.

Inner Signal: rocks, elev. 180 ft., of NE coast of Sedanka Island, Aleutian Islands; 53° 47' 20" N, 166° 05' 25" W; (map 23). Variant: Cook's Rock. Named as one of "The Signals" by J. J. Gilbert, commander of the USC&GS steamer Pathfinder during 1900-01.

Innerskin Bay: estuary, see Iniskin Bay.

Innesvale Gulch: ravine, extends SE 1.3 miles, at head of Deep Creek, 33 miles ESE of Tanana, Yukon-Tanana Highlands; 65° 04' 25" N, 150° 57' 40" W; (map 106). Prospectors' name reported in 1931 by J. B. Mertie, USGS.

Inniskin Bay: estuary, see Iniskin Bay.

Innok: stream, see Innoko River.

Innoka, Reka: stream, see Innoko River.

Innoka: locality, "on Tlegan River, Malaspina Coastal Plain." Former Indian camp or settlement reported by Petroff (1884, p. 37).

Innoko River: stream, heads S of Cloudy Mountain at 63° 09' N, 156° 02' W, flows NE and SW 500 miles to Yukon River, 1.5 miles E of Holy Cross, Innoko Lowland; 62° 12' N, 159° 43' W; (map 78). Variant: Legon, Chageliuk, Reka Innoka, Innok, Ittege Reka Shiltonotno. This is

probably an Ingalik Indian name recorded in 1842-44 by Lt. L. A. Zagoskin, IRN, as "R[eka] Innoka ili Shiltonotno," meaning "Innoka or Shiltonotno River." Zagoskin wrote that Alexander Kolmakov in 1838 called it "Tlegon," but it was known to the Russian colonial administration on the Yukon as "Chagelyuk." Accordingly, Zagoskin applied the name "Tlegon" to the stream's upper course, "Innoka or Shiltonotno" to the middle course, and "Chagelyuk or Ittege" to the lower course. These presumably were all Indian names of which "Tlegon," "Shiltonotno," and "Ittege" are no longer used. The river is now called "Innoko" (spelled that way in 1852 by the Russian Admiralty), and the name "Chagelyuk" still exist for Shageluk Slough.

Innoko Slough: stream, heads at Innoko River, flows S 25 miles to Paimiut Slough, Innoko Lowland; 62° 00' 15" N, 159° 37' 30" W; (map 78). Variant: Paimute Slough. Local name obtained in 1952 by USGS.

Innoko: locality, see Dishkakat.

Innuchuk River: stream, see Inmachuk River.

Innupuk Rock: rock, see Inukpak Rock.

Innutat Creek: stream, see Inuktak Creek.

Innutat Creek: stream, see Kiktoya Creek.

Inoceramus Creek: stream, heads on Sheep Mountain, flows NW 3.2 miles to Squaw Creek, 55 miles NE of Palmer, Talkeetna Mountains; 61° 53' 05" N, 147° 33' 20" W; BGN 1960; (map 69). Named by USGS in 1956 "for the fossil clam belonging to the genus Inoceramus, which is abundantly found in its valley."

Inokhin Bay: estuary, see Iniskin Bay.

Inookut: locality, see Inuktut.

Inowak Creek: stream, flows S 25 miles to Kuskokwim River, 7.5 miles E of Sleetmute, Stony River Lowland; 61° 42' 40" N, 156° 56' 15" W; (map 72). Eskimo name obtained in 1948 by USC&GS.

Inqalyuk, Ostrov: island, see Little Diomedede Island.

Inrechoa' meut: locality, see Ingichuk.

Inselnostlinde: locality, on Shageluk Slough, Innoko Lowland; 62° 45' N, 159° 45' W; (map 78). Former Ingalik Indian village reported in 1842-44 by Lt. L. A. Zagoskin, IRN. See Shageluk.

Insiachak: locality, "in the Nushagak district." Variant: Insiachamiut. Former Eskimo camp or settlement listed as "Insiachamiut," with a population of 42, in the 1890 Census.

Insiachamiut: locality, see Insiachak.

Inside Passage: water passage, connects Tongass Narrows and Clarence Strait, between Guard Island and Vallenar Rock, off NW tip of Gravina Island, Alexander Archipelago; 55° 26' N, 131° 52' W; (map 3). Named in 1885 by Lt. Comdr. Richardson Clover, USN.

Inspiration Point: point of land, on E shore of Ice Harbor on Favorite Passage, 0.8 miles N of village of Ice Harbor and 15 miles NW of Juneau, Coast Mountains; 58° 25' 30" N, 134° 45' 20" W; (map 11). Local name derived from the magnificent view from the point across Favorite Channel and Lynn Canal to the Chilkat Range (DeArmond, 1957, p. 25). Name was published by USGS in 1962.

Intankoon: hill, see Intun Cone.

Intankoon: hill, see Intungidi Hill.

Intankoon: point of land, see Chacon, Cape.

Intenleiden: locality, on Shageluk Slough; 62° 45' N, 159° 45' W; (map 78). Variant: Iitenleiden, Imtelleiden, Intenlaiden. Ingalik Indian village reported in 1842-44 by Lt. L. A. Zagoskin, IRN. See Shageluk.

Intermittent Creek: stream, in Mount McKinley National Park, flows W 2 miles to Glacier Creek E of Muldrow Glacier, 4.2 miles S of Eielson Visitor Center, Alaska Range; 63° 22' 45" N, 150° 22' 45" W; BGN 1932; (map 88). So named in 1932 by USGS because the "lower course of this creek flows intermittently through the gravels at the east edge of Muldrow Glacier."

Intricate Bay: bay, 3 miles wide, at mouth of Copper River on SE side of Iliamna Lake, N of Kahhonak Bay, 20 miles SE of Iliamna, Aleutian Range; 59° 31' 15" N, 154° 37' 15" W; (map 51). Descriptive name reported in 1911 by Martin and Katz (1912a, p. 91), USGS. "So named because the cove is full of islands."

Intun Cone: hill, 400 ft., on Cape Chacon, at SE tip of- Prince of Wales Island, Alexander Archipelago; 54° 41' 35" N, 132° 00' 50" W; BGN 1922; (map 1). Variant: Intankoon Cone, Intuukun Cone. Tlingit Indian name published in 1922 by USC&GS; possibly derived from nearby Intungidi Hill. See Cape Chacon.

Intun-Kun-Gidi Hill: hill, see Intungidi Hill.

Intungidi Hill: hill, 500 ft., on S coast of Prince of Wales Island, N of Cape Chacon, Alexander Archipelago; 54° 41' 45" N, 132° 01' 00" W; BGN 1922; (map 1). Variant: Intankoon, Intunkun, Intun-Kun-Gidi Hill. Haida Indian name published in 1922 by USC&GS. In 1901, J. R. Swanton, BAE, reported the name "Intun-Kun-Gidi" which means "Intun(kun)'s brother."

Intunkun: hill, see Intungidi Hill.

Intuukun Cone: hill, see Intun Cone.

Inukpak Rock: rock, 175 ft., on N slope of Angayukak Hill, 5 miles N of Cape Thompson, Arctic Slope; 68° 12' 55" N, 166° 00' 35" W; BGN 1963; (map 129). Variant: Innupuk Rock. Eskimo descriptive name meaning "big man" reported about 1962 by W. O. Pruitt, Univ. of Alaska.

Inukpasugjuk Creek: stream, see Inukpasugruk Creek.

Inukpasugruk Creek: stream, flows NNW 11.5 miles, between Kollutkuk Mountain and Three River Mountain to John River at Anaktuvok Pass, Brooks Range; 68° 07' 30" N, 151° 45' 00" W; (map 134). Variant: Inukpasugjuk Creek, Inukpasukruk Creek. Eskimo name, meaning "giants' valley," published by Rausch (1951, p. 150).

Inukpasuk Hill: hill, 400 ft., along Kivalina River, 25 miles NE of Kivalina, Brooks Range; 68° 07' N, 164° 10' W; (map 130). Variant: Eenyookpasook. Eskimo name meaning "there is a giant," so called because a rock on the hill resembles a large man; name reported in 1966 by E. S. Burch.

Inukpasukruk Creek: stream, see Inukpasugruk Creek.

Inuktak Creek: stream, flows SW 0.8 miles to Chukchi Sea, SE of Kisimilok Creek, 14 miles SE of Cape Thompson, Arctic Slope; 68° 03' 30" N, 165° 28' 45" W; BGN 1963; (map 129). Variant: Innutat Creek, Inuktuk Creek. Eskimo name [innutat] meaning "murder" which, according to W. O. Pruitt, Univ. of Alaska, refers "to a famous folktale of war between Tigaraqmiut [Point Hope people] and Kivalinaqmiut [Kivalina people] according to Lawrence Sage who lived here as a boy." Name reported in 1950 by USC&GS.

Inuktak: locality, area around the SE end of Telavirak Hills, 12 miles SE of Cape Thompson, Arctic Slope; 68° 04' N, 165° 31' W; (map 129). Variant: Inuktaq, Inyooktak. See Inuktak Creek.

Inuktaq: locality, see Inuktak.

Inuktuk Creek: stream, see Inuktak Creek.

Inuktut: locality, on Igloo Point at E end of Eschscholtz Bay, Seward Peninsula; 66° 13' N, 161° 04' W; (map 114). Variant: Inooktut, Kongigamut, Kongik. Former Eskimo village or camp reported in 1898 by Lt. E. P. Bertholf, USRCS. See Baker (1906, p. 328).

Invut Mountain: hill, 734 ft., in lowlands, 10 miles SW of Mygha Powit Mountain, 70 miles SE of Gambell, on Saint Lawrence Island; 63° 10' N, 169° 58' W; BGN 1951; (map 93). Variant: Ingvit Hill. Eskimo name reported in 1932 by Otto W. Geist, Univ. of Alaska.

Inyooktak: locality, see Inuktak.

Inyooktam Koonga: stream, see Kiktoya Creek.

Inyorurak Lakes: lakes, extend E-W 10 miles, in upper valley of Flora Creek, 15 miles ESE of Howard Pass, Brooks Range; 68° 07' N, 156° 15' W; (map 132). Eskimo name obtained at Noatak by Orth in 1956; it is a personal name.

Inyorurak Pass: pass, 2,020 ft., in Brooks Range, between Isikut and Koiyaktot Mountains, 12 miles ESE of Howard Pass; 68° 11' N, 156° 26' W; (map 132). Eskimo name obtained at Noatak by Orth in 1956; it is a personal name.

Inyugakuligit Creek: stream, flows E 7.5 miles to Okokmilaga River 11 miles S of its junction with Fire Creek, Brooks Range; 68° 18' N, 153° 05' W; (map 133). Eskimo name obtained in 1956 at Anaktuvuk Pass by T. E. Taylor, USGS. It means "small peoples' campsite."

Inyugiatchiak Hill: ridge, see Kimikpak Ridge.

Inyuilak Creek: stream, flows SW 15 miles to Reed River, 14 miles S of Mount Igikpak, Brooks Range; 67° 13' N, 154° 57' W; (map 125). Eskimo name meaning "deserted place," reported by USGS in 1956.

Inyuraktoak Creek: stream, flows SW 3.5 miles from Siavlat Mountain to Nigu River, 34 miles SE of Howard Pass, Brooks Range; 68° 01' N, 155° 42' W; (map 133). Variant: Inyuraktoat Creek. Eskimo name reported by Irving (1954, p. 204).

Inyuraktoat Creek: stream, see Inyuraktoak Creek.

Ioanna Bogoslova, Ostrov: island, see Bogoslof Island.

lookswarat Bay: estuary, 2 miles long, 9 miles SW of Cape Etolin, on N coast of Nunivak Island; 60° 21' 30" N, 166° 22' 45" W; (map 57). Variant: Jooxwarat Bay, Jukhwarat Bay, Tsukhwarat Bay. Eskimo name obtained in 1949 by USC&GS.

lorik, Mys: point of land, see Cape York.

loulakh Island: island, see Ulak Island.

Iowa Creek: stream, flows S 7 miles to Little Chena River, 14 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 53' 30" N, 147° 14' 20" W; (map 100). Name given by prospectors; reported in 1907 by C. C. Covert (in Henshaw and Covert, 1908, pl. 9), USGS.

Iowa Creek: stream, on Seward Peninsula, flows N 4.5 miles to Inmachuk River, 6 miles SW of Deering, Kotzebue-Kobuk Lowland; 66° 00' N, 162° 53' W; (map 113). Prospectors' name reported in 1908 by F. F. Henshaw (in Brooks and others, 1909, fig. 21), USGS.

Iowa Creek: stream, flows SE 9 miles to West Fork Little Delta River, 1.4 miles S of that stream's junction with East Fork and 24 miles NW of Mount Hayes, Alaska Range; 63° 56' 35" N, 146° 56' 10" W; (map 86). Local name reported in 1910 by J. W. Bagley, USGS.

Iowa Creek: stream, see Mud Creek.

lowithla River: stream, heads in Muklung Hills and flows SE 36 miles to Nushagak River, 26 miles E of Dillingham, Bristol Bay Lowland; 59° 05' N, 157° 45' W; BGN 1937; (map 52). Variant: Ai-u-wath-lok, Beaver Creek. Eskimo name written "Ai-u-wath-lok" by H. C. Fassett, USBF, in 1910.

Ipauveerak: stream, see New Heart Creek.

Ipeetahnga: hills, see Kitiram Ipitanga Hills.

Ipewik River: stream, heads in De Long Mountains at 68° 27' 50" N, 163° 51' 00" W, flows SW 85 miles to Kukpuk River, 15 miles NE of Cape Thompson, Arctic Slope; 68° 20' 30" N, 165° 42' 30" W; (map 129). Variant: Ippewik River. Eskimo name published as "Ippewik" in 1890 by USC&GS.

Ipewik River: stream, see Nilik River.

Iphigenia Bay: bay, 30 miles wide, between Coronation and Noyes Islands, Alexander Archipelago; 55° 42' N, 134° 00" W; (map 4). Named in 1867 by George Davidson, USC&GS, for the vessel Iphigenia Nubiana, commanded by Capt. William Douglas in 1788. Davidson said "No name having been applied to this bay, we have designated it as Iphigenia Bay, after Douglas's vessel" (U.S. Coast and Geodetic Survey, 1869, p. 95).

Iphigenia, Point: point of land, on W coast of Prince of Wales Island, E point of entrance to Port Caldera, 6.4 miles S of Craig, Alexander Archipelago; 55° 22' 55" N, 133° 08' 55" W; (map 4). Variant: Mys Santa Yefigeniya, Punta de Santa Efigenia. Name given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Punta de Santa Efigenia" or "Point of Saint Efigenia."

Ipiutak Lagoon: lagoon, 0.5 miles across, on point Hope, at W end of Marryat Inlet, Arctic Slope; 68° 21' 30" N, 166° 45' 30" W; (map 129). Variant: Sipewtaq Lagoon. Local name reported in 1956 by Orth; named after an ancient village site.

Ipiutak: locality, near Ipiutak Lagoon, 1.8 miles NE of Point Hope, Arctic Slope; 68° 21' 25" N, 166° 45' 45" W; (map 129). Present-day Eskimo name for an early Eskimo village, now an archaeological site.

Ipkagnaktaugrak Mountain: mountain, 2,650 ft., in Wulik Mountains, 55 miles SE of Cape Sabine, Brooks Range; 68° 16' N, 163° 30' W; (map 130). Variant: Eepkagnaktowgruk, lipqagnaqtaugruk. Eskimo name reported in 1966 by E. S. Burch.

Ipmiluik River: stream, see Ipnelivik River.

Ipnavik River: stream, heads in Brooks Range, flows NE 68 miles to Colville River, 50 miles NNE of Howard Pass, Arctic Slope; 68° 54' N, 156° 27' W; BGN 1926; (map 132). Variant: Ipnava Creek. Eskimo name given by USGS, referring to "the place where young Dall sheep are raised." The name first appears on a 1925 fieldsheet by Gerald FitzGerald, USGS, as "Ipnava."

Ipnek Creek: stream, flows NE 8.5 miles from Ipnek Mountain to North Fork Koyukuk River opposite Delay Pass, 18 miles W of Wiseman, Brooks Range; 67° 25' 30" N, 150° 48' 00" W; (map 124). This is an Eskimo word said to mean "sheep" and was given to the stream by Marshall (1956, p. 117) who wrote, "This had been an important focal point in the Wild River

stampede of 1913-15. It was the point where the men coming over Jack Delay Pass from Wiseman crossed the North Fork and headed over a low pass into the Wild River drainage.”

Ipnek Mountain: mountain, 5,875 ft., between North Fork Koyukuk River and Michigan Creek, 26 miles W of Wiseman, Brooks Range; 67° 20' N, 151° 00' W; BGN 1932; (map 124). This is an Eskimo word, said to mean “sheep,” reported in 1932 by Robert Marshall.

Ipnelivik River: stream, heads at Shishakshinovik Pass, flows N 19 miles to Noatak River, 40 miles SE of Howard Pass, Brooks Range; 67° 43' N, 156° 11' W; BGN 1959; (map 126). Variant: Ipmiluik River. Eskimo name meaning “sheep raising place” derived from “imnaik” (“imnak,” “cliff”), the name for the Dall sheep, (*Ovis dalli*); shown on 1911 fieldsheet by C. E. Giffin, USGS.

Ipnichuk River: stream, see Inmachuk River.

Ipnot: locality, site of an Eskimo village on Chukchi Sea coast, at mouth of Isuk Creek, 3 miles NW of Cape Thompson, Arctic Slope; 68° 11' N, 166° 01' W; (map 129). Variant: Impnot. This now abandoned village or camp was reported by Ivan Petroff in the 1880 U.S. Census as “Ipnot,” with a population of 40. The 1890 U.S. Census does not list the name. It is reported to mean “bird-place” and was derived from the name of the cliffs at Cape Thompson.

Ipnot: promontory, see Thompson, Cape.

Ippersua: locality, see Natirnuq.

Ippewik River: stream, see Ipewik River.

Iptugik: locality, on Agattu Island in the Near Islands, Aleutian Islands, (map 13). Former Aleut village reported as “uninhabited” by Hodge (1907, p. 615), BAE.

Irak Bay: bay, see Ugak Bay.

Irak Creek: stream, flows N 11 miles to Mikigealiak River, 25 miles SE of Wainwright, Arctic Plain; 70° 20' N, 159° 24' W; (map 146). Eskimo word in places spelled “iyi,” meaning “eye”; published in 1958 by AMS.

Irathluik: stream, see Fish River.

Irene Creek: stream, flows SE 1 mile to Bryan Creek which flows to Serpentine River, 8 miles NE of Kougarok Mountain and 34 miles SE of Ear Mountain, Seward Peninsula Highlands; 65° 48' N, 165° 05' W; (map 111). Prospectors' name reported on the 1908 “Map of Seward Peninsula” by Arthur Gibson.

Irene Creek: stream, flows SW 2.4 miles to Nome River valley, 5 miles E of Nome, Seward Peninsula Highlands; 64° 29' N, 165° 14' W; (map 94). Prospectors' name reported on a map by S. E. King dated 1900.

Irene Glacier: glacier, heads on N side of Mount Yeatman, trends E 3 miles to its terminus, 9 miles NW of Skagway, Coast Mountains; 59° 34' 45" N, 135° 21' 45" W; (map 45). Name given in 1898 by J. A. Flemer, USC&GS.

Ireniviq: locality, area on coast between Walakpa Bay and Kuogaguruq, 15 miles SW of Barrow, Arctic Plain; 71° 07' N, 157° 09' W; (map 153). Variant: Ernivwing. Eskimo locality or camp name published by Lt. Ray (1885, p. 55), USA, as "Ernivwing" and as "Ireniviq" by Spencer (1959, map 2), BAE.

Irgkivik Creek: stream, flows NW 5 miles, around N side of Irgnyivik Lake to Anaktuvuk River, 25 miles NE of Anaktuvuk Pass, Arctic Slope; 68° 28' N, 151° 19' W; (map 134). Eskimo name obtained at Anaktuvuk Pass in 1956 by T. E. Taylor, USGS.

Irgnyivik Lake: lake, 1.2 miles long, between Irgkivik and Iknivik Creeks, 24 miles NE of Anaktuvuk Pass, Arctic Slope; 68° 26' N, 151° 16' W; (map 134). Eskimo name obtained at Anaktuvuk Pass in 1956 by T. E. Taylor, USGS.

Irikaklik Creek: stream, flows E 6.5 miles to N end of Chandler Lake, 26 miles NW of Anaktuvuk Pass, Brooks Range; 68° 15' 30" N, 152° 41' 00" W; (map 134). Eskimo name obtained at Anaktuvuk Pass in 1956 by T. E. Taylor, USGS.

Irina, Lake: lake, 1 mile long, SE of Redoubt Lake, 13 miles SE of Sitka, on central Baranof Island, Alexander Archipelago; 56° 54' N, 135° 08' W; BGN 1935; (map 5). Named in 1935 by USFS "for the daughter of Alexander Baranof." See Baranof Island.

Irinik Point: promontory, see Lewis, Cape.

Iris Meadows: area, 2 miles long, in central Kruzof Island, along unnamed stream NE of Shelikof Bay, 17 miles NW of Sitka, Alexander Archipelago; 57° 11' N, 135° 43' W; (map 9). Local name reported in 1951 by USGS.

Irish Channel: water passage, on Kenai Peninsula, in Skilak Lake, S of Lucas Island, 41 miles ESE of Kenai, Chugach Mountains; 60° 24' 15" N, 150° 10' 00" W; (map 62). Local name reported in 1959 by USGS.

Irish Cove: cove, 0.5 miles across, on W coast of Glacier Island, 49 miles NE of Whittier, Chugach Mountains; 60° 53' 15" N, 147° 17' 45" W; (map 63). Local name reported in 1951 by USGS.

Irish Cove: cove, 0.7 miles wide, on S shore of Port Fidalgo, Chugach Mountains; 60° 46' 30" N, 146° 27' 00" W; BGN 1910; (map 64). Local name reported in 1908 by Grant and Higgins (1910, pl. 2), USGS.

Irish Creek: stream, flows SE 2.5 miles from Blackface Mountain to Ernie Creek, 25 miles SE of Anaktuvuk Pass, Brooks Range; 68° 00' N, 150° 50' W; BGN 1932; (map 134). Named in 1930 by Robert Marshall for a local long-time prospector, Charlie Irish, "who first explored this creek."

Irish Creek: stream, on Iniskin Peninsula, flows NW 0.8 miles to Fitz Creek, 1.7 miles S of Chinitna Bay, Aleutian Range; 59° 47' 25" N, 153° 10' 20" W; BGN 1962; (map 51). Named by USGS in 1951 for publication purposes.

Irish Creek: stream, on SW coast of Kupreanof Island, flows W 7 miles to Keku Strait, 28 miles W of Petersburg, Alexander Archipelago; 56° 43' 30" N, 133° 41' 15" W; (map 6). Local name published in 1943 by USC&GS.

Irish Creek: stream, see Iron Creek.

Irish Gulch: ravine, extends SE 1.7 miles to Killarney Creek, 5 miles S of Roughtop Mountain and 38 miles ESE of Tanana, Yukon-Tanana Highlands; 65° 07' 33" N, 150° 44' 45" W; BGN 1961; (map 106). Prospectors' name reported in 1960 by R. G. Wayland, USGS.

Irish Gulch: ravine, trends NW 0.6 miles to Goldstream Creek, 9 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 57' 30" N, 147° 35' 45" W; (map 100). Local miner's name; published in 1908 by USGS.

Irish Gulch: ravine, trends NW 0.7 miles to Scotch Gulch, 12 miles N of Nome, Seward Peninsula Highlands; 64° 41' N, 165° 23' W; (map 94). Variant: Scotch-Irish Creek. Reported as "Scotch-Irish Creek" on a map by S. E. King dated 1900.

Irish Gulch: ravine, trends to Charley River, about 11 miles S of its junction with Yukon River, Porcupine Plateau; 65° 09' N, 142° 50' W; (map 103). Mentioned by Mertie (1942, p. 250), USGS. this feature has not been positively identified.

Irish Lakes: lakes, 1.5 miles long, on left bank of Keku Creek, 22 miles N of Point Baker, on Kupreanof Island, Alexander Archipelago; 56° 40' 30" N, 133° 32' 00" W; (map 6). Local name recorded in 1960 by USGS.

Irishmans Hat: rock, off N coast of Unalaska Island, Aleutian Islands; 53° 59' 38" N, 166° 49' 22" W; (map 23). Descriptive name published in the 1916 Coast Pilot (p. 213).

Irvik Creek: stream, flows SE 6 miles to Killik River 5 miles N of its junction with Easter Creek, Brooks Range; 68° 13' N, 154° 06' W; (map 133). Eskimo name meaning "place where there is a cave," obtained in 1956 at Anaktuvuk Pass by Orth.

Iron Bridge Creek: stream, flows SW 3.8 miles to Unimak Pass, on SW coast of Unimak Island, 3 miles E of Scotch Cap, Aleutian Islands; 54° 23' 55" N, 164° 43' 30" W; (map 24). Name published in 1943 by AMS.

Iron Creek: locality, on left bank of Iron Creek 0.6 miles S of its junction with Pilgrim River, 25 miles NW of Solomon, Seward Peninsula Highlands; 64° 58' N, 164° 39' W; (map 95). Variant: Sowik. A road house was shown here on the 1908 "Map of Seward Peninsula" by Arthur Gibson. Name derives from Iron Creek, which was the center of a major gold mining region in the early 1900's.

Iron Creek: locality, on NE coast of Raspberry Island, 13 miles NW of Afognak, Kodiak Island; 58° 05' 20" N, 153° 05' 20" W, (map 43). A reduction and saltery plant by this name was reported in 1952 by USGS.

Iron Creek: stream, flows 5 miles NE to Chitina River W of Lime Creek, 43 miles SE of McCarthy, St. Elias Mountains; 61° 03' 10" N, 141° 52' 30" W; (map 67). Local name reported in 1915 by F. H. Moffit, USGS.

Iron Creek: stream, flows N 1.3 miles to Garnet Creek which flows to Flambeau River, 15 miles NE of Nome, Seward Peninsula Highlands; 64° 42' 00" N, 165° 07' 30" W; (map 94). Variant: Triple Creek, Tripple Creek. Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Iron Creek: stream, flows N 1.3 miles to join French Creek, forms North Fork Kougarok River, 3 miles SE of Harris Dome and 37 miles W of Imurak Lake, Seward Peninsula Highlands; 65° 36' N, 164° 27' W; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Iron Creek: stream, flows N 5 miles to join May Creek. forms Sullivan Creek which flows to Kotzebue Sound, 27 miles N of Imuruk Lake, Seward Peninsula Highlands; 66° 00' N, 163° 10' W; (map 110). Variant: Irish Creek. Prospectors' name reported in 1903 by D. C. Witherspoon (in Moffit, 1905, pl. 2), USGS.

Iron Creek: stream, flows NE 1.6 miles to Woodchopper Creek, 5 miles SW of that stream's junction with Yukon River and 41 miles SE of Circle, Yukon-Tanana High; 65° 17' 40" N, 143° 24' 30" W; (map 103). Prospectors' name reported by A. H. Brooks (in Brooks and others, 1907, p. 203), USGS.

Iron Creek: stream, flows NE 1.7 miles to Ivanhoe Creek, 19 miles NE of Solomon, Seward Peninsula Highlands; 64° 47' N, 164° 05' W; (map 95). Prospectors' name reported on a 1902 prospectors' manuscript map.

Iron Creek: stream, flows NE 5 miles to Totatlanika River, 34 miles SE of Nenana, Alaska Range; 64° 07' 30" N, 148° 32' 45" W; (map 100). Local name published in 1915 on GLO [BLM] survey plats.

Iron Creek: stream, flows NW 3 miles to Eldorado Creek 0.4 miles E of its junction with Madison Creek, 25 miles NW of Ophir and 53 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 26' 45" N, 156° 55' 30" W; (map 90). Prospectors' name reported in 1917 by G. L. Harrington, USGS.

Iron Creek: stream, flows NW 3.5 to Our Creek, 80 miles SW of Eagle, Yukon-Tanana Highlands; 64° 05' 20" N, 143° 16' 40" W; (map 102). Local name published in 1956 by USGS.

Iron Creek: stream, flows NW 30 miles to Talkeetna River, 22 miles NE of Talkeetna, Talkeetna Mountains; 62° 26' 30" N, 149° 28' 06" W; (map 82). Local name recorded in 1917 by S. R. Capps, USGS.

Iron Creek: stream, flows NW 4 miles to Eldorado Creek in American River basin, 5 miles S of Kougarak Mountain and 39 miles NE of Teller, Seward Peninsula Highlands; 65° 37' N, 165° 17' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Iron Creek: stream, flows SE 0.7 miles to Cache Creek, 29 miles NW of Talkeetna, Alaska Range; 62° 30' 15" N, 150° 56' 15" W; (map 81). Prospectors' name reported in the 1930's by USGS.

Iron Creek: stream, flows SE 1 mile to Bluestone River, 11 miles SE of Teller, Seward Peninsula Highlands; 65° 08' N, 166° 10' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Iron Creek: stream, flows SE 1.6 miles to Moose Creek, 12 miles NE of Palmer, Talkeetna Mountains; 61° 46' 10" N, 149° 30' 00" W; (map 69). Local name reported in 1919 by A. H. Brooks and G. C. Martin (in Brooks and others, 1921, pl. 7), USGS.

Iron Creek: stream, flows SE 6.8 miles to Norton Bay, 4 miles NE of Elim and 67 miles NE of Solomon, Seward Peninsula Highlands; 64° 40' N, 162° 11' W; (map 95). Variant: Miniaturik Creek. Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Iron Creek: stream, flows SW 0.8 miles to Nome River 0.1 miles upstream from Ice Gulch and 14 miles N of Nome, Seward Peninsula Highlands 64° 42' N, 165° 19' W; (map 94). Prospectors' name reported on a map by S. E. King dated 1900.

Iron Creek: stream, flows W 1 mile to Allene Creek, in Agiapuk River basin, 10 miles NE of Teller, Seward Peninsula Highlands; 65° 20' N, 166° 03' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Iron Creek: stream, formed by junction of Canyon and Dome Creeks, flows NE 6 miles to Pilgrim River, 25 miles NW of Solomon, Seward Peninsula Highlands; 64° 59' N, 164° 39' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Iron Creek: stream, heads in Alaska Range in Mount McKinley National Park, flows NW 15 miles to Slippery Creek, 16 miles SW of Wonder Lake, Tanana Lowland; 63° 22' 30" N, 151° 21' 00" W; (map 88). Local name reported in 1925 by S. R. Capps, USGS.

Iron Creek: stream, heads in South Channel Yakataga River 2.4 miles NE of the river's mouth, flows SW 3 miles to Kuktoth River, 3 miles NW of Cape Yakataga and 103 miles NW of Yakutat, St. Elias Mountains; 60° 05' 30" N, 142° 29' 40" W; (map 65). Local name published by USGS in 1951.

Iron Creek: stream, heads on SW slope of Iron Mountain, flows SW 7 miles to Kotsina River, 0.3 miles S of the mouth of Loraine Creek and 75 miles NE of Valdez, Wrangell Mountains; 61° 36' 00" N, 144° 12' 25" W; (map 68). Local name reported in 1912 by D.C. Witherspoon, USGS.

Iron Creek: stream, see Ferrum Creek.

Iron Creek: stream, see Miniaturik River.

Iron Creek: stream, see Yellow Jacket Creek.

Iron Dome: peak, 2,600 ft., near S end of Kantishna Hills, on W bank of Eldorado Creek, 3.7 miles NW of Wonder Lake, Alaska Range; 63° 31' 25" N, 150° 59' 10" W; BGN 1932; (map 88). Prospectors' name reported in 1932 by F. G. Wells and S. C. Kain, USGS.

Iron Gulch: ravine, in Kantishna Hills, extends 0.5 miles S to Eureka Creek, 3.2 miles NNW of Wonder Lake, Alaska Range; 63° 32' 20" N, 150° 55' 10" W; BGN 1932; (map 88). Name reported in 1932 by USGS.

Iron Island: island, see Segula Island.

Iron Mountain: mountain, 2,250 ft., on E coast of Knight Island, between Rua Cove and Bay of Isles, 17 miles NE of Chenega, Chugach Mountains; 60° 22' N, 147° 39' W; (map 63). Local name reported in 1951 by USGS.

Iron Mountain: mountain, 2,300 ft., 3 miles NE of Cosmos Mountain and 12 miles NE of Shungnak, Brooks Range; 67° 03' N, 156° 58' W; (map 126). Name reported by P. S. Smith (1913, p. 108), USGS.

Iron Mountain: mountain, 4,274 ft., on Kenai Peninsula, in Kenai Mountains, 2 miles NW of Seward, Chugach Mountains; 60° 08' 30" N, 149° 29' 30" W; (map 63). Local name reported in 1951 by USGS.

Iron Mountain: mountain, 5,745 ft., in Takshanuk Mountains, 3.4 miles NE of Wells and 15 miles SW of Skagway, Coast Mountains; 59° 25' 30" N, 135° 50' 00" W; BGN 1957; (map 45). Variant: Kahwateta Mountain, Kahwaytetay Mountain. Local name published in 1954 by USGS. Name is derived from a large deposit of magnetite iron ore discovered in the mountain about 1869. The Tlingit name "Kahwateta" published in 1952 by the USGS, according to E. C. Robertson, means "maiden hiding place" and was based on the local Indian custom of sending the young girls of the Klukwan village at the base of the mountain up to a glacial amphitheater near the top to hide, in order to appease the angry god of the mountain who, it was believed, caused the floods and mudflows which plagued the village during the fall months.

Iron Mountain: mountain, 6,652 ft., 4 miles SE of Alice Peak and 81 miles NE of Valdez, Wrangell Mountains; 61° 37' 20" N, 144° 02' 00" W; (map 68). Local name shown on a 1912 fieldsheet by D. C. Witherspoon, USGS.

Iron Point: point of land, on SE coast of Segula Island, Rat Islands, Aleutian Islands; 52° 00' 30" N, 178° 11' 15" E; BGN 1937; (map 15). Reported in 1935 by personnel of U.S.S. Oglala; the name "Iron Island" was applied in 1855 to Segula Island by the U.S. Navy North Pacific Exploring Expedition.

Irr-maghe-zuk: lake, see Imuruk Basin.

Irving Peak: mountain, 2,136 ft., 1.5 miles S of Slocum Inlet on E shore of Stephens Passage and 20 miles SE of Juneau, Coast Mountains; 58° 06' 10" N, 134° 03' 15" W; (map 11). Named by Lt. Comdr. C. M. Thomas, USN, and published by USC&GS in 1888 on Chart 8229.

Irving, Cape: point of land, see Muzon Cape.

Irwakhyarak: point of land, see Irwakyaruk Point.

Irwakyaruk Point: point of land, on E coast of Cape Mendenhall, 4 miles SE of Ingrid Hill, Nunivak Island, 59° 46' 30" N, 166° 05' 00" W; (map 55). Variant: Irwakhyarak, Irwaxyaruk. Eskimo name obtained in 1949 by USC&GS.

Irwaxyaruk: point of land, see Irwakyaruk Point.

Isaacs, Point: promontory, see Bald Head.

Isaacs: locality, see Kwik.

Isabel Pass: pass, 3,000 ft., on Richardson Highway, 1.6 miles N of Summit Lake and 11 miles N of Paxson, Alaska Range; 63° 11' 20" N, 145° 33' 00" W; BGN 1937; (map 86). Variant: Isabella Pass, Isabelle Pass, Isabell Pass. Local name on 1909 GLO map of Alaska. It is reported to be named for Mrs. Isabella Barnette (Davies, 1965, p. 22).

Isabel, Cabo: point of land, see Elizabeth, Cape.

Isabel, Lake: lake, 0.4 miles across, 1.8 miles SE of Gould Island, near center of Prince of Wales Island, Alexander Archipelago; 55° 15' 45" N, 132° 32' 50" W; (map 4). Local name reported in 1908 by C. W. Wright (in Brooks and others, 1909, pl. 3), USGS.

Isabell Creek: stream, flows S 1.5 miles to Livengood Creek, 1 mile NE of Livengood, Yukon-Tanana Highlands; 65° 31' 50" N, 148° 31' 25" W; (map 105). Variant: Benner Creek, Benner Gulch. In 1916, J. B. Mertie, USGS, reported the name of this stream to be Benner Gulch (in Brooks and others, 1918, pl. 13). However, the miners subsequently applied the name of a local prospector to the stream.

Isabell Pass: pass, see Isabel Pass.

Isabella Creek: stream, heads in Yukon-Tanana Highlands, flows SW 5 miles to Noyes Slough at Lemeta, 1 mile N of Fairbanks; 64° 52' 30" N, 147° 43' 55" W; (map 100). Local name appeared in 1905 on a manuscript map by C. W. Joint.

Isabella Gulch: ravine, trends 1 mile SW to Darling Creek which flows to Nome River, 17 miles NE of Nome, Seward Peninsula Highlands; 64° 44' N, 165° 12' W; (map 94). Prospectors' name shown on the 1904 "Map of Cape Nome Precinct" by Arthur Gibson.

Isabella Pass: pass, see Isabel Pass.

Isabelle Pass: pass, see Isabel Pass.

Isacheluich Mountains: mountains, 3,121 ft., between Sisiak Creek and Kaluktavik River, N of Grand Canyon of Noatak River, Brooks Range; 68° 00' N, 160° 43' W; (map 127). Eskimo name meaning “young ducks,” obtained in 1956 at Noatak by Orth.

Isahultila Mountains: mountains, 1,700 ft., 10 miles across, between Hogatza and Koyukuk Rivers, 12 miles SW of Hughes, Hogatza Highlands; 66° 00' N, 154° 45' W; (map 116). Indian name obtained at Huslia by Orth in 1956.

Isanak: water passage, see Isanotski Strait.

Isannak Islands: islands, see Sanak Islands.

Isannakhskiy, Proliv: bay, see Bechevin Bay.

Isanotskaya, Sopka: mountains, see Isanotski Peaks.

Isanotski Bay: bay, see Bechevin Bay.

Isanotski Islands: islands, 0.1 miles across, in Bechevin Bay, SW end of Aleutian Range; 55° 00' 00" N, 163° 19' 40 " W; (map 25). Variant: Issanakh Islands. Name derived from Isanotski Strait, given by W. H. Dall, USC&GS, and published by USC&GS on Chart 806 in 1882.

Isanotski Peaks: mountains, 8,025 ft., on SE Unimak Island, Aleutian Islands; 54° 47' 30" N, 163° 13' 45" W; (map 25). Variant: Isanotskaya, Sopka, Isanotski Volcano, Issanakski, Mount Devastation. Name derived from Isanotski Strait and published by Capt. Tebenkov (1852, map 24), IRN, as “Sop[ka] Isanotskaya” meaning “Isanotski Volcano.”

Isanotski Strait: water passage, 1 mile wide and 5 miles long, between Unimak Island and Alaska Peninsula, Aleutian Islands; 54° 49' 30" N, 163° 23' 00" W; (map 25). Variant: False Pass, Isanak, Isanotskoi, Isanotzky, Issanakskie, Issannakh, Issanotsky. Aleut name reported by Capt. Lutke, (1836, p. 262), IRN, as “Issanakh” from the word “isanaq” which, according to R. H. Geohegan, means “tear (split or strait).” The Russian Hydrog. Dept. includes Bechevin Bay in the application of the name “Pr[oliv] Isannakhskiy” on Chart 1379 published in 1847. See Bechevin Bay.

Isanotski Volcano: mountain, see Isanotski Peaks.

Isanotskoi: volcano, see Pogromni Volcano.

Isanotskoi: water passage, see Isanotski Strait.

Isanotzky: water passage, see Isanotski Strait.

Isaoktuvia Creek: stream, flows SE 7.5 miles to Noatak River 9 miles SW of its junction with Nimiuktuk River, Brooks Range; 67° 57' N, 160° 14' W; (map 127). Eskimo name meaning “where wings are eaten,” obtained in 1956 at Noatak by Orth.

Ishchignik: bay, see Chignik Bay.

Isenbeck: lagoon, see Izembek Lagoon.

Isetkoak: estuary, see Esatkuat Lagoon.

Ishiuk: locality, see Issheyuk.

Ishkialik River: stream, see Kolomak River.

Ishkialik River: stream, see Lithkealik River.

Ishkowik River: stream, flows S 28 miles to Kuskokwim Bay, 21 miles W of Quinhagak, Yukon-Kuskokwim Delta; 59° 59' N, 162° 44' W; (map 54). Eskimo name reported in 1951 by USGS.

Ishoot Creek: stream, see Ishut Creek.

Ishoot: point of land, see Izhut, Cape.

Ishtalitna Creek: stream, heads in Ray Mountains, flows N 21 miles to Kanuti Kilolitna River, 49 miles SE of Allakaket, Kokrines-Hodzana Highlands; 65° 59' N, 151° 41' W; (map 106). Indian name obtained in 1956 at Allakaket by Orth.

Ishugid Island: island, see Herbert Island.

Ishuk: point of land, see Halkett, Cape.

Ishukpak Bluff: bluff, elev. 300 ft., on W bank of Colville River, 31 miles NE of Umiat, Arctic Plain; 69° 47' N, 151° 31' W; (map 141). Eskimo name meaning “big end one [isukpak]” reported in 1956 by T. E. Taylor, USGS.

Ishuktak Creek: stream, heads at 69° 39' N, 156° 20' W, flows N 85 miles to Topagoruk River, 40 miles SE of village of Meade River, Arctic Plain; 70° 11' N, 155° 57' W; (map 148). Eskimo name (isoqtaq) reported by USGS in 1956, meaning “it is muddy.”

Ishut Creek: stream, flows SE 5 miles to Anikovik River, 14 miles SE of Cape Prince of Wales and 41 miles NW of Teller, Seward Peninsula Highlands; 65° 32' N, 167° 37' W; (map 111). Variant: Ishoot Creek, Left Fork Onokovuk River. Eskimo name reported in 1899 as “Ishoot” by Schraeder and Brooks (1900, map 3), USGS. Reported in 1900 as “Ishut” by Brooks (1901, pl. 13 and p. 135).

Isiak, Lake: lake, 1.5 miles long, in Noatak River valley, 40 miles SE of Howard Pass, Brooks Range; 67° 43' N, 156° 09' W; (map 126). Eskimo name meaning “foot” [isagak] obtained at Kobuk by Orth in 1956.

Isidor Hill: hill, 700 ft., on SW coast of Lulu Island, Alexander Archipelago; 55° 27' 15" N, 133° 35' 30" W; BGN 1923; (map 4). Variant: Isidoro. Named in 1923 by USC&GS; derived from "Point Saint Isidor."

Isidoro: hill, see Isidor Hill.

Isiktok Creek: stream, heads at 60° 42' N, 164° 50' W, flows W 24 miles to Chakchak Creek, 90 miles W of Bethel, Yukon-Kuskokwim Delta; 60° 42' N, 164° 24' W; (map 58). Eskimo name meaning "he enters," reported in 1965 by Orth.

Isikut Mountain: mountain, 4,310 ft., in Brooks Range, E of Howard Pass; 68° 13' N, 156° 30' W; (map 132). Eskimo name obtained at Noatak by Orth in 1956, referring to "some kind of foot."

Isituchi: locality, on Agattu Island in Near Islands, Aleutian Islands; (map 13). Former Aleut village reported as "uninhabited" by Hodge (1907, p. 622), BAE.

Iskep, Mys: point of land, see Escape Point.

Isla, Punta de la: point of land, see Suckling, Cape.

Island Bay: bay, 2 miles across, on S coast of Alaska Peninsula, on E shore of Stepovak Bay, Aleutian Range; 55° 42' 30" N, 159° 40' 00" W (map 27). Local name published by USC&GS in 1916 Coast Pilot.

Island Bay: bay, extends 1.8 miles N, off Jute Bay, on E coast of Alaska Peninsula, 50 miles W of Karluk, Aleutian Range; 57° 33' 20" N, 155° 50' 00" W; (map 35). Descriptive local name obtained from J. L. McPherson of Iliamna and published by G. C. Martin (1921, pl. 10), USGS.

Island Bay: bay, extends NW 1.3 miles on N coast of Spruce Island, NE of Kodiak Island; 57° 57' 20" N, 152° 25' 00" W; (map 34). Descriptive local name published in 1943 by USC&GS.

Island Bay: cove, extends E 0.8 miles, off Tlevak Strait, on W coast of Sukkwan Island, N of Dunbar Inlet, Alexander Archipelago; 55° 05' 40" N, 132° 52' 10" W; (map 4). Local name published in 1932 Coast Pilot (p. 190).

Island Butte: mountain, 2,200 ft., 7 miles NE of Thumb Mountain and 42 miles NE of Goodnews Kilbuck-Kuskokwim Mountains; 59° 41' N, 161° 05' W; (map 53). Local descriptive name shown on 1898 fieldsheet by W. S. Post, USGS.

Island Cove: cove, 1 mile across, at Cobol, in Slocum Arm, on SW coast of Chichagof Island, Alexander Archipelago; 57° 29' N, 135° 52' W; BGN 1906; (map 9). Descriptive name given in 1908 by USC&GS; published in 1908 Coast Pilot (p. 172). "So named because of the many small islands in the cove."

Island Creek: stream, on Kenai Peninsula, flows NW 2 miles to Resurrection Creek, 6 miles S of Hope, Chugach Mountains; 60° 49' 55" N, 149° 38' 00" W; (map 63). Local prospectors' name reported in 1904 by Moffit (1906, pl. 2), USGS.

Island Glacier: glacier, on N slope of Mount Veniaminof, trends N 3 miles to its terminus at head of Fireweed Creek, 12 miles W of Knife Peak, Aleutian Range; 56° 17' N, 159° 24' W; (map 30). Descriptive name reported in 1923 by R. H. Sargent, USGS.

Island Group: rocks, 0.1 miles across, part of Sandman Reefs, 14 miles SE of Deer Island, Aleutian Range; 54° 47' 40" N, 161° 56' 50" W; (map 25). Name published in 1949 on a USGS map.

Island Lake Creek: stream, flows SW 4.5 miles to Yukon River, 2 miles NW of Stevens Village, Yukon Flats; 66° 01' 30" N, 149° 09' 30" W; (map 118). Local descriptive name obtained in 1956 by USGS.

Island Lake: lake, 0.2 miles across, on Baranof Island 9 miles N of Port Alexander, Alexander Archipelago; 56° 22' 30" N, 134° 42' 20" W; (map 5). Local descriptive name obtained in 1951 by USGS.

Island Lake: lake, 0.5 miles long, 22 miles N of Chalkyitsik, Yukon Flats; 66° 57' N, 143° 46' W; (map 120). Local descriptive name reported in 1956 by R. C. Foley, USGS.

Island Lake: lake, 0.5 miles long, E central Heceta Island, Alexander Archipelago; 55° 46' 25" N, 133° 24' 30" W; (map 4). Local name recorded in 1951 by USGS.

Island Lake: lake, 0.6 miles long, 2.5 miles NE of Kodiak, Kodiak Island; 57° 49' 05" N, 152° 21' 00" W; BGN 1964; (map 34). Variant: Melnitsa Lake, Ozero Melnichi. Local name published in 1964 by USGS. Galled "O[zero] Melnichi," meaning "mill lake," by Capt. Tebenkov (1852, map 23) because there was a mill nearby at the head of "Mill Bay."

Island Lake: lake, 1.2 miles across, on Kenai Peninsula, 10 miles N of Kenai, Cook Inlet Lowland; 60° 42' 30" N, 151° 18' 30" W; (map 62). Local name reported in 1964 by USGS.

Island Lake: lake, 1.2 miles long, E of Alaska Highway, 30 miles SE of Northway Junction, Alaska Range; 62° 42' N, 141° 07' W; (map 84). Locally named because of the island in its center: reported by USGS in 1955.

Island Lake: lake, 1.3 miles long, E of Tetlin Lake, 18 miles SE of Tok, Alaska Range; 63° 06' N, 142° 39' W; (map 85). Name reported by USGS in 1964.

Island Lake: lake, 1.4 miles long, 2 miles NW of Old John Lake and 10 miles E of Arctic Village, Brooks Range; 68° 07' 30" N, 145° 08' 00" W; (map 136). Local descriptive name obtained in 1956 by USGS.

Island Lake: lake, 1.6 miles long, drains S to Tolsona Creek, 17 miles NW of Glennallen, Copper River Basin; 62° 12' N, 146° 02' W; (map 83). Local descriptive name reported by USGS in 1949.

Island Lake: lake, 1.8 miles long, 3.5 miles S of Beaver, Yukon Flats; 66° 17' N, 147° 21' W; (map 118). Local descriptive name obtained in 1956 by USGS.

Island Lake: lake, 2 miles long, at head of Island Lake Creek, 1.8 miles N of Stevens Village, Yukon Flats; 66° 02' 30" N, 149° 04' 00" W; (map 118). Local descriptive name obtained in 1956 by USGS.

Island Lake: lake, 500 ft. across, 3.5 miles W of terminus of Sheridan Glacier, 10 miles E of Cordova, Chugach Mountains; 60° 32' N, 145° 29' W; map 64). Local descriptive name published in 1950 by USGS.

Island Mountain: mountain, 2,281 ft., trends NE 7 miles from Faro Creek E of Mitlak Mountain, 24 miles N of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 27' N, 161° 25' W. (map 53). Variant: Kikgtaguat. Descriptive name published in 1921 by USGS. The Eskimo name is reported to be "Kikgtaguat," meaning "island like," which refers to its isolated position.

Island Number 3, 6, 11, 12, 13, 19, 20: barrier islands, on Beaufort Sea coast, NW of Flaxman Island, Arctic Plain; (map 151). These seven islands were given numbers in 1911 by Leffingwell (1919) to identify some of his surveying points. The individual islands can no longer be positively identified.

Island of the Four Peaks: mountain, see Fourpeaked Mountain.

Island Point: point of land, 5.5 miles SW of Salt Island, on N coast of Atka Island, Aleutian Islands; 52° 07' 00" N, 174° 45' 05" W; (map 18). Descriptive name which was published by the USC&GS in the 1944 Aleutian Coast Pilot (p. 96), was given "because a low valley between the head land and the main shore gave it the appearance of an island to ships approaching from the west."

Island Point: point of land, at W end of Peril Strait, on NW coast of Baranof Island, 26 miles NW of Sitka, Alexander Archipelago; 57° 24' 10" N, 135° 36' 45" W; (map 9). Descriptive name given in 1884 by Comdr. J. B. Coghlan, USN; published by USC&GS in 1891 Coast Pilot (p. 182). "So called because of a small island at the end of the point."

Island Point: point of land, on E coast of Lindenberg Peninsula, Kupreanof Island, 10 miles S of Petersburg, Alexander Archipelago; 56° 39' 55" N, 132° 55' 00" W; (map 6). So named in 1884 by Comdr. J. B. Coghlan, USN, "because there is an island off the point."

Island Point: point of land, on E shore of Karluk Lake, 21 miles SE of Karluk, Kodiak Island, 57° 21' 45" N, 154° 01' 30" W; (map 35). Local descriptive name reported in 1952 by USGS.

Island Point: point of land, on E shore of Reindeer Cove, 16 miles W of Christmas Mountain, Nulato Hills; 64° 32' N, 161° 05' W; (map 96). Local name published in 1943 by USC&GS.

Island Point: point of land, on offshore island N point of entrance of McLean Arm, SE coast of Prince of Wales Islands, Alexander Archipelago; 54° 48' 15" N, 131° 57' 15" W; (map 2). Local descriptive name reported in 1904 by H. C. Fassett, USBF.

Island Point: point of land, on Revillagigedo Island, on W shore of Carroll Inlet, 15 miles NE of Ketchikan, Alexander Archipelago; 55° 27' 15" N, 131° 18' 45" W, (map 3). So named in 1891 by USC&GS because "there is an island off this point."

Island Point: point of land, on Sitklan Island, off S entrance Tongass Passage, Coast Mountains; 54° 43' 50" N, 130° 38' 30" W. (map 2). Descriptive name given in 1883 by Lt. Comdr. H. E. Nichols, USN.

Island Point: point of land, S point of entrance to Kasaan Bay, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 22' 25" N, 132° 10' 00" W; (map 4) Descriptive name given in 1880 by W. H. Dall, USC&GS.

Island Rock: rock, at Nichols Point, in Isanotski Strait, Aleutian Range; 54° 51' 25" N, 163° 23' 20" W; (map 25). Descriptive name published in 1912 by USC&GS.

Island Slough: stream, see Patsy Slough.

Islands, Bay of: bay, 3 miles across, on W coast of Adak Island, Aleutian Islands; 51° 49' N, 176° 49' W; BGN 1936; (map 17). Descriptive name given by W. H. Dall in 1873 and published by USC&GS in 1875.

Islands, Bay of: bay, extends NE 8 miles off North Arm Naknek Lake, on Alaska Peninsula, in Katmai National Monument, 30 miles NW of Mount Katmai, Aleutian Range; 58° 39' N, 155° 32' W; BGN 1925; (map 42). Variant: Elingit Lake. Named in 1922 by R. F. Griggs, National Geographic Society. In 1923 R. H. Sargent, USGS, reported the native name as "Elingit."

Islands, Bay of: bay, see North Arm Naknek Lake.

Islands, Bay of: water passage, see Salisbury Sound.

Islas Bay: bay, 1.7 miles across, 15 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 49' N, 136° 23' W; (map 9). Descriptive name given by USC&GS; published in 1928 on Chart 8258. The name is Spanish, meaning "islands"; so named "because of the many islands in the bay."

Isle Point: point of land, on SW coast of Etoin Island, at S entrance of Burnett Inlet, Alexander Archipelago; 56° 02' N, 132° 29' W; BGN 1914; (map 6). Named in 1914 by USC&GS.

Isles, Bay of: estuary, on E coast of Knight Island, extends NE 4 miles to Prince William Sound, 18 miles NE of Chenega, Chugach Mountains; 60° 24' N, 147° 37' W; BGN 1908; (map 63). Descriptive local name published in 1908 by USC&GS.

Islet Cape: point of land, see Ostrovka Point.

Islet Lake: lake, 0.5 miles long, on central Admiralty Island, 2 miles E of Hasselborg Lake and 19 miles NE of Angoon, Alexander Archipelago; 57° 39' 10" N, 134° 10' 30" W; (map 9). Local name reported in 1951 by USGS.

Islet Pass: water passage, between Kanga and Redoubt Bays, 4.5 miles N of Goddard, on W coast of Baranof Island, Alexander Archipelago; 56° 54' N, 135° 21' W; (map 6). Variant: Islet Passage. Local fishermen's name reported in 1947 by USC&GS.

Islet Passage: water passage, see Islet Pass.

Islet, Point: point of land, see Isleta Point.

Isleta, Point: point of land, on W coast of Suemez Island, in Port Santa Cruz, Alexander Archipelago; 55° 16' 30" N, 133° 36' 30" W; (map 4). Variation: Mys de los Islotillos, Point Islet, Punta de la Isleta, Punta de los Yslotillos. Spanish word meaning "rocky island" published in 1932 Coast Pilot (p. 209). In 1779, Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle named this feature "Punta de la Isleta," apparently for the islet off the point.

Isleta: island, on the E shore of Lulu Island, Portillo Channel, in the Bucareli Bay area of SW Prince of Wales Island, Alexander Archipelago; 55° 27' N, 133° 25' W. Variant: Ysleta. Named "Ysleta," meaning "rocky island," by F. A. Maurelle and Don Juan de la Bodega y Quadra, probably in 1779.

Islote, Punta de los: point of land, see Islotillos, Punta de lost

Islotillos, Punta de los: point of land, just SE of Craig at the entrance to Port Bagial opposite Cape Suspiro, Alexander Archipelago; 55° 28' N, 133° 07' W. Variant: Punta de los Islote. Spanish name meaning "point of the small rocky islands" given by F. A. Maurelle and Don Juan de la Bodega y Quadra in 1779. It is called "Islote" in the text.

Islotillos, Mys de los: point of land, see Isleta, Point.

Ismaeloff Strait: water passage, see Shelikof Strait.

Ismailof Island: island, 1.4 miles long, at entrance to Halibut Cove, on E shore of Kachemak Bay, 11 miles ESE of Homer, Chugach Mountains; 59° 36' N, 151° 14' W; (map 50). Named in 1880 by W. H. Dall, USC&GS, for Gerassiim Grigorovich Ismailov, IRN, Who made explorations in Alaska in the late 18th Century. His name was spelled "Erasim Gregorieoff Sin Ismyloff" in 1788 by Capt. James Cook, RN; Capt. George Vancouver (1798, v. 3, p. 192), RN, called him "Mr. Smyloff."

Isom Creek: stream, flows SW 13 miles to Yukon River, 21 miles NE of Rampart, Yukon-Tanana Highlands; 65° 45' N, 149° 47' W; (map 105). Variant: Indian Pass Creek. Prospectors' name reported in 1902 by Lt. Hjalmar Erickson, USA.

Israthorak Creek: watercourse, anabranch of Kuskokwim River, heads at 61° 19' N, 160° 43' W, and flows SW 90 miles to the Pikmiktalik River, 29 miles W of Tuluksak and 45 miles SW of Russian Mission, Yukon-Kuskokwim Delta; 61° 11' N, 161° 49' W; (map 73). Eskimo name reported in 1949 by USC&GS.

Issanakh Islands: islands, see Isanotski Islands.

Issanakski: mountain, see Isanotski Peaks.

Issanakskie: water passage, see Isanotski Strait.

Issannak Island: island, see Sanak Island.

Issannakh Bay: bay, see Bechevin Bay.

Issannakh: water passage, see Isanotski Strait.

Issanotsky: water passage, see Isanotski Strait.

Issheyuk: locality, at Howard Pass or perhaps near Lake Etivluk, Brooks Range; 68° 10' N, 156° 30' W; (map 132). Variant: Ishiuk. An Eskimo village visited by Lt. Stoney (1900, p. 39), USN, in December 1885 and reported by him as "a village of fifteen huts, situated near the northern limit of the mountain range." Irving (1954, p. 204) mentions an area of the Nigu River presently called "Issyok," a name comparable to Stoney's "Issheyuk." See Issyok Lake.

Issortulik Slough: stream, flows NW 8 miles to S side of Hooper Bay, 4.5 miles W of Keoklevik River, Yukon-Kuskokwim Delta; 61° 25' N, 165° 55' W; (map 75). Eskimo name reported in 1951 by USC&GS.

Issuk Creek: stream, see Isuk Creek.

Issyok Lake: lake, 0.5 miles across, in valley of Nigu River, 31 miles SE of Howard Pass, Brooks Range; 68° 04' N, 155° 43' W; (map 133). Eskimo name reported by Irving (1954, p. 204) referring to low hills WSW of Siavlat Mountain. Name was transferred to the lake by Orth in 1956. See Issheyuk.

Isthmus Bay: bay, extends W 1.7 miles off Chiniak Bay, E of Isthmus Point, 11 miles S of Kodiak, Kodiak Island; 57° 37' 30" N, 152° 18' 00" W; (map 34). Variant: Pereshechnoi, Zaliv Peresheynoy. Translation of the descriptive name "Z[aliv] Peresheynoy," published by Sarichev (1826, map 16).

Isthmus Cove: cove, see Brookers Lagoon.

Isthmus Island: island, 250 ft. long, in Kalsin Bay, 10 miles S of Kodiak, Kodiak Island; 57° 38' 35" N, 152° 25' 20" W; (map 34). Variant: Ostrov Pereshechnoy. Translation of the descriptive name "Os[trov] Pereshechnoy," published by Sarichev (1826, map 19).

Isthmus Point: point of land, between Isthmus and Kalsin Bays, S shore Chiniak Bay, 11 miles S of Kodiak, Kodiak Island; 57° 37' 45" N, 152° 19' 30" W; (map 34). Descriptive name derived from Isthmus Bay and published in 1949 by USGS.

Istku Point: point of land, on NE coast of Tuxekan Island, between Jinhi Bay and Tuxekan Narrows, 29 miles N of Craig, Alexander Archipelago; 55° 53' 10" N, 133° 14' 45" W, (map 4). Indian name published in 1964 by USC&GS.

Istna River: stream, see South Fork Kuskokwim River.

Isto, Mount: mountain, 9,060 ft., in Romanof Mountains, 12 miles ESE of Mount Michelson, Brooks Range; 69° 12' 00" N, 143° 47' 50" W; BGN 1966; (map 38). Named in 1966 by Earl H. Beistline, Univ. of Alaska, for Reynold E. (Pete) Isto (1913-65), civil engineer with the USGS, resident engineer in Alaska 1954-61, pioneer in the use of helicopters for Alaskan map ping, and head of field parties map ping the Brooks Range in 1956.

Isuk Creek: stream, flows NW 5.5 miles to Chukchi Sea, 17 miles E of Cape Lisburne, Arctic Slope; 68° 51' 10" N, 165° 33' 05" W; (map 129). Variant: Eesook Creek, Issuk Creek. Eskimo name reported in 1950 by USC&GS.

Isuk Creek: stream, flows SW 1.7 miles to Chukchi Sea, 2.9 miles NW of Cape Thompson, Arctic Slope; 68° 11' 00" N, 166° 00' 50" W; BGN 1963; (map 129). Variant: Eesook Creek, Issuk Creek. Eskimo name meaning "end" or "last one" reported in 1950 by USC&GS as "Ee-sook."

Isuk Lagoon: lagoon, see Akoviknak Lagoon.

Isuk: point of land, see Halkett, Cape.

Isurik Creek: stream, flows S 5 miles to Goodnews River, 22 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 18' N, 161° 05' W; (map 53). Eskimo name reported to mean "seal" or "man killed seal here"; obtained in about 1951 by J. M. Hoare, USGS, from C. B. Michael, missionary at Quinhagak.

Isutkwa: estuary, see Esatkuat Lagoon.

Isutkwa: locality, at Point Barrow, Arctic Plain; (map 153). Former Eskimo camp or settlement reported in 1892 by Sgt. John Murdoch, USA.

Iswak Point: promontory, see Igvak, Cape.

Italian Bay: cove, extends S 0.8 miles to Knight Island Passage, on S coast of Knight Island, 8 miles SE of Chenega, Chugach Mountains; 60° 13' 30" N, 147° 53' 45" W; BGN 1966; (map 63). Variant: Italian Cove. Local name reported in 1909 by USC&GS.

Italian Cove: cove, see Italian Bay.

Italio River: stream, heads 3 miles SE of Harlequin Lake, flows W 20 miles to Gulf of Alaska, 28 miles SE of Yakutat Bay, Malaspina Coastal Plain; 59° 19' 40" N, 139° 14' 30" W, (map 46). Name reported by Lt. Comdr. Moser (1901, p. 386, pl. 43), USN.

Itchadak: locality, "on one of the eastern Aleutian Islands, E of Unalaska Island," Aleutian Islands. Former Aleut village reported by Coxe (1787, p. 165).

Iteriak Creek: stream, flows N 28 miles to E Fork Etivluk River 16 miles SE of its junction with Etivluk River, Brooks Range; 68° 38' N, 155° 45' W; BGN 1960; (map 133). Eskimo name for ermine (*Mustela erminea arctica*), given by USGS geologists about 1950 "because many weasel or ermine were noted in the area by the fieldparty."

Ithagstulek Lake: lake, 2 miles across, 5 miles E of Kwinhagak and 45 miles N of Goodnews, Yukon-Kuskokwim Delta; 59° 45' N, 161° 45' W; (map 53). Eskimo name published in 1951 by USGS.

Itigaknit Mountain: mountain, 3,200 ft., on N slope of Endicott Mountains between Itkillik and Kuparuk Rivers, Arctic Slope; 68° 44' N, 149° 49' W; (map 135). Eskimo name reported in 1956 by USGS.

Itikmalaiyak Creek: stream, flows NW 5 miles to Anaktuvuk River, 14 miles NE of Anaktuvuk Pass, Brooks Range; 68° 19' N, 151° 28' W; (map 134). Variant: Itikmaluruk Creek. Eskimo name published by Rausch (1951, p. 150) as Itikmaluruk Creek; USGS reported its present spelling in 1956; it refers in meaning to “little rectum.”

Itikmalak River: stream, in Endicott Mountains, heads at glacier terminus, flows NW 21 miles to Itkillik River, 3.7 miles N of Itkillik Lake, Arctic Slope; 68° 28' 30" N, 149° 59' 00" W; (map 135). Eskimo name reported in 1956 by USGS.

Itikmalakpak Creek: stream, flows NNW 18 miles along E side of Mount Stuver then NW to Anaktuvuk River, 20 miles NE of Anaktuvuk Pass, Brooks Range; 68° 24' 15" N, 151° 28' 00" W; (map 134). Variant: Itikmalukpak Creek. Eskimo name, meaning “big rectum,” published by Rausch (1951, p. 150) as Itikmalukpak Creek.

Itikmalukpak Creek: stream, see Itikmalakpak Creek.

Itikmaluruk Creek: stream, see Itikmalaiyak Creek.

Itilyiargiok Creek: stream, flows W 20 miles to Nigu River, N of Siavlat Mountain, 30 miles SE of Howard Pass, Brooks Range; 68° 05' N, 155° 48' W; (map 133). Eskimo name meaning “go to visit Indians” published by Irving (1954, p. 205) and spelled as above on his map, but given as “Itkilyiargiak” in his text (p. 204).

Itimtikrak Creek: stream, heads in Iggiruk Mountains, flows SSE 14 miles to Noatak River, 45 miles ESE of Misheguk Mountain, Brooks Range, 68° 05' N, 159° 21' W; (map 131). Eskimo name obtained at Noatak by Orth in 1956.

Itinik, Lake: lake, 3.3 miles across at head of Inaru River, 17 miles SE of Point Franklin, Arctic Plain; 70° 39' 20" N, 158° 33' 20" W; (map 147). Eskimo name for “rim of water around a still frozen lake,” reported in 1956 by Orth.

Itiptigvik: portage, between Krusenstern Lagoon and Chukchi Sea, 3.6 miles N of Cape Krusenstern, Kotzebue-Kobuk Lowland; 67° 11' N, 163° 44' W; (map 128). Variant: Eeptigvik. Eskimo name meaning “portage place” reported in 1966 by E. S. Burch.

Itiptigvirak Neck: neck of land, between Kivalina Lagoon and Chukchi Sea, 6 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 58' N, 164° 45' W; (map 128). Variant: Eeptigveerak. Eskimo name meaning “little portage place” reported in 1966 by E. S. Burch.

Itiviak Pass: pass, 200 ft., in hills between Kivalina and Wulik Rivers, 8 miles NE of Kivalina, Arctic Slope; 67° 46' 30" N, 164° 20' 30" W; (map 128). Variant: Ittivyak Pass. Eskimo name meaning “portage (pass),” according to USC&GS in 1950.

Itiviak Portage: portage, a winter shortcut across inner side of a bend on Wulik River, 22 miles NE of Kivalina, Arctic Slope 67° 50' N, 164° 57' W; (map 128). Variant: Eetiviahk, Itiwiaaq. Eskimo name meaning “shortcut [portage]” reported in 1966 by E. S. Burch.

Itivlik Lake: lake, see Etivlik Lake.

Itiwiaaq: portage, see Itiviak Portage.

Itkaling Kok: stream, see Itkillik River.

Itkaling River: stream, see Itkillik River.

Itkbi, Cape: point of land, see Ikti, Cape.

Itkhayak: island, see Deer Island.

Itkhi, Cape: point of land, see Ikti, Cape.

Itkidagula Point: point of land, between Sea Lion Point and Garden Cove, on E coast of Saint George Island, in Pribilof Islands; 56° 34' 12" N, 169° 29' 35" W; (map 38). An Aleut name meaning “dropping” reported by Putnam (1903, p. 1014), USC&GS: so named because sea lions, when being driven, “would drop off the low bluff down to the beach, where natives would hug close to the bank to allow the sea lions to pass over their heads. Two natives have been killed here by being crushed by sea-lions.”

Itkilik River: stream, see Itkillik River.

Itkilikruich Ridges: hills, 2,500 ft., W of Killik River, 8 miles NW of Imiaknikpak Lake, Brooks Range; 68° 40' N, 154° 12' W; (map 133). Eskimo name meaning “old Indian mountain” reported in 1956 by T. E. Taylor, USGS.

Itkillik Creek: stream, flows W 7 miles to Hulahula River, 20 miles SW of Mount Michelson, Brooks Range; 69° 03' N, 144° 36' W; (map 139). Eskimo name [Itqiliq] meaning “Indian This name was published in 1956 by USGS.

Itkillik Lake: lake, 3 miles long, near NE end of Endicott Mountains, drains S to Itkillik River, 49 miles NE of Anaktuvuk Pass, Brooks Range; 68° 24' N, 149° 55' W; BGN 1960; (map 135). Named by USGS geologists in 1951, “for the river.”

Itkillik River: stream, heads near Ulo Pass in Endicott Mountains at 68° 04' N, 150° 01' W, flows NE then NW 220 miles to Colville River, 25 miles SW of Harrison Bay, Arctic Plain; 70° 09' N, 150° 56' W; BGN 1916; (map 149). Variant: Indian River, Inkala River, Itkaling Kok, Itkaling River, Itkilik River, Itrelik River, Itvelik River. John Simpson (Great Britain, 1855, v. 3, p. 918) wrote that the Colville River receives “a large tributary at thirty miles from its mouth, called the It'-ka-ling Kok or Indian River.” An Eskimo map drawn on wrapping paper by a “Colville” Eskimo at Barrow, about 1900, shows the name “It-kil-lik.” Itqiliq means “Indian.”

Itkilyariak Creek: stream, heads at Sunset Pass, in Sadlerochit Mountains, flows NE 25 miles to Sadlerochit River 10 miles S of its mouth in Camden Bay, 21 miles SW of Barter

Island, Arctic Plain; 69° 54' N, 144° 21' W; (map 139). Variant: Kuselik Creek, Ooselik Creek. S. J. Marsh reported the Eskimo name "Ooselik." Leffingwell (1919, p. 96), USGS, said the Eskimo name "Itkilyariak" means, "Route by which the Itkillik travel" or probably more correctly "Indian route."

Itkilyariak Valley: valley, 6 miles long, at E end of Sadlerochit Mountains, drained by Itkilyariak Creek, 24 miles NW of Mount Michelson, Brook Range; 69° 39' N, 144° 14' W; (map 139). Leffingwell (1919, p. 125), USGS, does not list this as a geographic name, but wrote, "near the east end of Sadlerochit Mountains, in Itkilyariak Valley."

Itliaruk, Mount: mountain, 3,000 ft., on left bank of Kalasik Creek, 44 miles W of Christmas Mountain, Nulato Hills; 64° 33' N, 159° 06' W; (map 96). Eskimo name reported about 1954 by U.S. Army Corps of Engineers.

Itrelik River: stream, see Itkillik River.

Itsalik, Mount: mountain, 1,600 ft., on N bank of Oligavik Creek, in Lisburne Hills, 12 miles NE of Cape Dyer, Arctic Slope; 68° 42' 45" N, 165° 47' 30" W; (map 129). Eskimo name published in 1964 by USGS.

Ittar Rock: rock, in W end of Kukkan Passage, 5 miles W of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 39' 15" N, 136° 14' 00" W; (map 9). Name published in 1928 by USC&GS on Chart 8280.

Ittege: stream, see Innoko River.

Ittege: stream, see Shageluk Slough.

Ittivyak Pass: pass, see Itiviak Pass.

Itublarak: locality, on Kukpuk River, 20 miles NE of Point Hope, Arctic Slope; 68° 24' 50" N, 166° 06' 30" W; BGN 1963; (map 129). Variant: Eetiblaeruk, Eetublaruk. This fish camp was reported about 1962 by W. O. Pruitt, Univ. of Alaska.

Itugralurak: locality, on shore of Chukchi Sea, 17 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 54' N, 165° 00' W; (map 128). Variant: Ichoograhloorak, Itugzaaluuzak. Eskimo name reported in 1966 by E. S. Burch.

Itugzaaluuzak: locality, see Itugralurak.

Itulilik Creek: stream, flows E 24 miles to Holitna River, 23 miles S of Sleetmute, Stony River Lowland; 61° 22' 30" N, 157° 04' 00" W; BGN 48; (map 72). "This native [Eskimo] name refers to a species of small fish that inhabit the stream and from which both the stream and the Native village * * * derive their name"; reported by W. R. Buckman in 1902-1903 by inference. See Itulilik.

Itulilik: locality, on E bank of Holitna River, 22 miles S of Sleetmute, Stony River Lowland; 61° 22' 30" N, 157° 03' 30" W; BGN 1948; (map 72). Variant: E-tu-le-lig-a-mute. Eskimo camp or settlement, now abandoned, shown on a manuscript map by W. R. Buckman who prospected

the Chulitna valley in 1902-1903. He spelled the name "E-ti-lelig-a-mute" i.e. "people of Itulilik [Creek]." See Itulilik Creek.

Itvelik River: stream, see Itkillik River.

Iuaru River: stream, see Inaru River.

Iukuk Bay: bay, see Yukuk Bay.

Iulukiak: village, see Tuluksak.

Iumkraarak Slough: watercourse, see Iumkrarak Slough.

Iumkrarak Slough: watercourse, in Yukon Delta, extends N-S 1.5 miles between Butomowik and Kwikluak Passes, 7 miles E of Kwiguk, Yukon-Kuskokwim Delta; 62° 44' 15" N, 164° 16' 30" W; (map 77). Variant: Iumkraarak Slough. Eskimo name reported in 1899 by G. R. Putnam, USC&GS, who spelled it "Iumkraarak."

Iuzhnie: point of land, see Cascade Point.

Iuzhnoi: point of land, see Trinity, Cape.

Ivakin Point: point of land, 2.7 miles E of Constantine Harbor, on Amchitka Island, Rat Islands, Aleutian Islands; 51° 24' 45" N, 179° 22' 30" E; BGN 1937; (map 15). Named "M[ys] Ivakin" by Capt. Tebenkov (1852, map 29), IRN.

Ivan Bay: bay, 2 miles across, on S coast of Alaska Peninsula, the NW arm of Mitrofanina Bay, 25 miles SW of Chignik, Aleutian Range; 56° 00' N, 158° 50' W; (map 27). Local name published by USC&GS in 1916 Coast Pilot (p. 162).

Ivan Island: island, 1 mile across, in Pavlof Bay. 12 miles NW of Cape Tolstoi, near SW end of Alaska Peninsula, Aleutian Range; 55° 31' N, 161° 39' W; (map 28). Named in 1888 by W. H. Dall, USC&GS.

Ivan River: stream, flows SE 23 miles to Cook Inlet, 28 miles W of Anchorage, Cook Inlet Low; 61° 14' 45" N, 150° 44' 15" W; BGN 1916; (map 70). Variant: Lewis River. Local name reported in 1916 by USC&GS.

Ivan: locality, at pass at head of Unalakleet River drainage; 64° 10' N, 159° 20' W; (map 96). Variant: Ivans Barrabora. Indian shelter cabin or small settlement on the trail between the Yukon and Unalakleet Rivers reported by W. H. Dall (1870, p. 531). Its population, according to Lt. H. T. Allen, USA, was 69 in 1885.

Ivanhoe Creek: stream, flows NW 3.5 miles to Big Four Creek which flows to Casadepaga River, 20 miles NE of Solomon, Seward Peninsula Highlands; 64° 47' 40" N, 164° 03' 50" W; (map 95). Prospectors' name reported on a 1901 map of Cape Nome goldfields by David Fox, Jr.

Ivanof Bay: bay, 2 miles across, on S coast of Alaska Peninsula, 6 miles E of Stepovak Bay and 28 miles SW of Ivan Bay, Aleutian Range; 55° 50' N, 159° 29' W; (map 27). Variant: Ivanoff Bay. Named by W. H. Dall, USC&GS, in 1880. Kupreanof Point, 17 miles to the south, was called "Cap Ivanofsky" or "John's Cape," by Lutke (1836, p. 269). The name "Ivanoff Bay" was published in 1888 on USC&GS charts.

Ivanof Bay: settlement, pop. 15, on Alaska Peninsula, at N end of Ivanof Bay, NE end of Kupreanof Peninsula, Aleutian Range; 55° 54' N, 159° 29' W; (map 27). Cannery reported by USC&GS in 1950. The Ivanof post office was established in 1952, discontinued in 1954 (Ricks 1965, P. 29).

Ivanof: point of land, see Kupreanof Point.

Ivanoff Bay: bay, see Ivanof Bay.

Ivanoff, Lake: lake, 1.2 miles long, on Kenai Peninsula S of Chickadee Lake, 7.5 miles NE of Kenai, Cook Inlet Lowland; 60° 38' 45" N, 151° 08' 45" W; (map 62). Named about 1963 by officials of Kenai National Moose Range for administrative purposes.

Ivanoff: point of land, see Kupreanof Point.

Ivanovsky, Cap: point of land, see Kupreanof Point.

Ivans Barrabora: locality, see Ivan.

Iveagik Mountain: hills, see Iviangik Mountain.

Iveetok: stream, see Aivichtik River.

Ivekan Mountain: mountain, 1,700 ft., 10 miles NW of Southwest Cape and 28 miles S of Gambell, St. Lawrence Island; 63° 22' N, 171° 43' W; BGN 1951; (map 93). Variant: Aivikan Mountain, Ivikan Mountain, Mount Tvikan. Eskimo name often written "Aivikan," with undetermined meaning. The name was recorded on an annotated map in 1944 by Lawrence Kulukhan of Gambell.

Ivektuk River: stream, see Fossil River.

Iverson Creek: stream, in Nutzotin Mountains, flows NE 6.5 miles to Beaver Creek, 8 miles SE of Carden Hills, Alaska Range; 62° 11' 30" N, 141° 02' 25" W; (map 84). Local name reported in 1959 by USGS.

Ives Lake: lake, 0.4 miles long, on E coast of Prince of Wales Island, S of Coal Bay, 9 miles NW of Kasaan Point, Alexander Archipelago; 55° 29' 40" N, 132° 28' 05" W; (map 4). Named in 1935 by USGS.

Ivey: locality, see Ivy City.

Iviagik Mountain: hills, see Iviangik Mountain.

Iviangik Mountain: hills, 922 ft., on Chukchi Sea coast, 2.4 miles S of Cape Dyer, Arctic Slope; 68° 37' 05" N, 166° 13' 25" W; (map 129). Variant: Eeveagech Mountain, Iveagik Mountain, Iviagik Mountain. Eskimo name meaning "breast," descriptive of twin hills, reported in 1950 by USC&GS as "Ee-ve-ang-geek." USGS applied the name in error to a mountain three miles southeast.

Ivik Creek: stream, heads at Danger Pass and flows SE 12 miles to Mauneluk River, Brooks Range; 67° 17' N, 155° 38' W; (map 125). Eskimo name meaning "grass," recorded in Kobuk and Shungnak by Orth, USGS, in 1956.

Ivikan Mountain: mountain, see Ivekan Mountain.

Ivisak Creek: stream, flows NE 8 miles to Killik River 13 miles N of its junction with Easter Creek, Brooks Range; 68° 20' N, 154° 03' W; (map 133). Eskimo name for "iron oxide paint," reported in 1956 by Orth.

Ivisaruk River: stream, heads at 69° 45' N, 160° 45' W, flows NE 78 miles to Kuk River, 18 miles S of Wainwright, Arctic Plain; 70° 22' 40" N, 159° 58' 10" W; BGN 1925; (map 146) Variant: Ivisaurk River, Ivisauruk River. Eskimo name reported in 1923 as "Ivisaurk" by Sidney Paige, USGS; probably the same as the Eskimo "ivishaq," meaning "red paint" or "iron oxide." See Ivisak Creek and Ivishak Pass.

Ivisauruk River: stream, see Ivisaruk River.

Ivishak Pass: pass, 1,500 ft., E end of Baird Mountains, between Noatak and Kobuk River drainages, 40 miles N of Shungnak, Brooks Range; 67° 28' N, 157° 30' W; (map 126). Ivishak is an Eskimo name for iron oxide, used for making red paint; reported by Orth in 1956. See Redstone River.

Ivishak River: stream, heads in Brooks Range at 68° 34' 30" N, 147° 14' 00" W, flows NW 95 miles to Sagavanirktok River, 55 miles S of Prudhoe Bay, Arctic Plain; 69° 30' N, 148° 30' W; BGN 1959; (map 140). Variant: Evasha River, Sagavanirktok River, Tvishak River. Eskimo name reported in 1914 by Diamond Jenness. Original BGN decision of 1916 was revised in 1949 and re-described in 1959 according to E. de K. Leffingwell's application of the name. See Ivishak Pass and Ivisak Creek.

Ivishak River: stream, see Redstone River.

Ivishak River: stream, see Sagavanirktok River.

Ivor Cove: cove, 0.5 miles across, on E shore of Deadman Bay, S of Ivor Point, on S coast of Kodiak Island; 57° 03' N, 153° 55' W; (map 34). Name derived from Ivor Point published in 1952 by USGS.

Ivor Point: point of land, on E shore of Deadman Bay, near head of Hepburn Peninsula, on S coast of Kodiak Island; 57° 03' 40" N, 152° 55' 00" W; BGN 1934; (map 34). Named in 1934 by Capt. R. R. Lukens, USC&GS.

Ivory Creek: stream, flows NE 6.7 miles, along S side of Hatbox Mesa to Kiruktagiak River, 2 miles SW of Tuktu Bluff and 44 miles NW of Anaktuvuk Pass, Arctic Slope; 68° 43' 20" N, 152° 22' 44" W; (map 134). So named in 1950 by W. W. Patton, Jr., USGS, because of the fossil mammoth tooth found on its course.

Ivotuk Creek: stream, flows N 27 miles to E Fork Etivluk River 24 miles SE of its junction with Etivluk River, Brooks Range; 68° 34' N, 155° 31' W; BGN 1960; (map 133). Eskimo name meaning "lamb" so named about 1950 by USGS geologists, because "numerous sheep [Dall] and lambs were seen near the headwaters of the stream."

Ivotuk Hills: hills, 3,105 ft., group, 8 miles long and 2.5 miles wide, divided by Ivotuk Creek, 36 miles NE of Howard Pass, Brooks Range; 68° 28' 15" N, 155° 33' 00" W; BGN 1967; (map 133). Named in 1966 by geologists of BP Exploration Company (Alaska) Inc.

Ivruktusuk: locality, on right bank of Wulik River, 34 miles NE of Kivalina, Arctic Slope; 466 65° 56' N, 163° 33' W; (map 128). Variant: Eevruktoosuk, liwzuqtusuq. Eskimo name meaning "place where there's lots of moss (ivrug)" reported in 1966 by E. S. Burch.

Ivwak Cape: point of land, see Eevwak Point.

Ivy City: locality, on S bank of Yukon River, near mouth of Fourth of July Creek, 33 miles NW of Eagle, Yukon-Tanana Highlands; 65° 11' 50" N, 141° 49' 45" W; (map 103). Variant: Ivey. Abandoned river landing for the Fourth of July Creek placer mines mentioned in 1902 by Lt. J. C. Cantwell, USRCS.

Ivy Creek: stream, flows SE 16 miles to Nixon River, 29 miles NW of Medfra, Kilbuck-Kuskokwim Mountains; 63° 12' N, 155° 36' W; (map 89). Local name reported in 1955 by USGS.

Ivy Ridge: ridge, 4 miles long, trends N-S between Hades Highway and Demorest Glacier, 29 miles NNE of Juneau, Coast Mountains; 58° 41' N, 133° 59' W; (map 12). Local name reported in 1960 by USGS.

Ivy Wash: stream, see Glacial Fan Creek.

Ivyoorigan: locality, see Iwoorigan Camp.

Iwaktok Hill: hill, 240 ft., on S bank of Manokinak River, 2 miles S of Nuskealik Lake, Yukon-Kuskokwim Delta; 61° 25' N, 164° 28' W; (map 74). Eskimo name obtained at Chevak by Orth in 1965, and reported to mean "game searching place."

Iwarawiramiut: locality, on W shore of a lake, 1.3 miles N of Bangookbit Dunes and 7 miles NW of Cape Mendenhall, Nunivak Island; 59° 52' N, 166° 23' W; (map 55). Variant: Ewakewigamiut, Iwikwikmute. Eskimo summer fish camp reported in 1932 by USC&GS.

Iwikwikmute: locality, see Iwarawiramiut.

Iwoonut Cape: point of land, see Iwoonut Point.

Iwoonut Point: point of land, 3 miles W of Southwest Cape and 33 miles SE of Gambell, St. Lawrence Island; 63° 19' N, 171° 34' W; BGN 1951; (map 93). Variant: Aikhwunat, Ingolittit Cape, Iwoonut Cape. Eskimo name often written "Aikhwunat," but without a known meaning. Name was reported in 1944 by a survivor of a village once located at Southwest Cape.

Iwoorigan Camp: locality, on N coast of Saint Lawrence Island, 2 miles SE of Chibukak Point and 3 miles SE of Gambell; 63° 46' N, 171° 39' W; BGN 1951; Variant: Ivyoorigan. Eskimo name of camp site reported in 1932 by Otto W. Geist, Univ. of Alaska.

Iyagatak River: stream, see Ayugatak Creek.

Iyaggatak River: stream, see Ayugatak Creek.

Iyahuna Creek: stream, flows NE 12 miles to Noatak River, 36 miles SW of Survey Pass, Brooks Range; 67° 33' N, 155° 13' W, (map 125). Eskimo personal name recorded in Kobuk by Orth, USGS, in 1956.

Iyak: locality, on right bank of Kobuk River below mouth of Pah River; 66° 48' N, 156° 10' W; (map 115). Former Eskimo camp or village visited in 1885 by Lt. Stoney (1900, map), USN.

Iyatayet: locality, on E shore of Norton Sound between Cape Denbigh and Point Dexter, 15 miles NW of Shaktoolik, Nulato Hills; 64° 29' N, 161° 27' W; (map 96). Eskimo name for an archeological site reported in 1948 by Giddings (1964, p. 4).

Iyoukeen Cove: cove, 3 mile across, 12 miles NE of Tenakee Springs, on E coast of Chichagof Island, Alexander Archipelago; 57° 53' N, 134° 58' W; (map 9) Tlingit Indian name (Iyukin) reported in 1869 by G. Davidson, USC&GS as "I-youk-eeen." The name was published in 1883 Coast Pilot (p. 181).

Iyoukeen Peninsula: peninsula, 3.5 miles long, E coast of Chichagof Island between Freshwater Bay and Iyoukeen Cove, Alexander Archipelago; 57° 52' N, 134° 58' W; (map 9). Local name reported in 1951 by USGS.

Iyouktug Creek: stream, flows SE 7 miles to False Bay, 17 miles NE of Tenakee Springs, on NE coast of Chichagof Island, Alexander Archipelago; 57° 58' 15" N, 134° 56' 15" W; BGN 1960; (map 9). Variant: Beaver Creek. Tlingit Indian name said to mean "stream this side of point" reported in 1958 by USGS.

Izavieknik River: stream, flows SW 22 miles to Togiak Lake, 20 miles SE of Kagati Lake and 85 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 43' N, 159° 33' W; (map 53). Eskimo name published in 1951 by USGS.

Izaviknek River: stream, heads at 61° 32' N, 162° 31' W, flows SW 80 miles to Aropuk Lake. Yukon-Kuskokwim Delta; 61° 14' N, 163° 32' W; (map 74). Variant: Izyvieknik River. Eskimo name recorded as "Izawerknuk" by Lt. Jarvis (in Revenue Cutter Service, 1899, p. 38), who wrote: "it seems to me that Izawerknuk and Kulichavak [Kvichavak] are two different names for the same stream." See Kvichavak River. The entry spelling was reported by USC&GS in 1949.

Izawerknuk River: stream, see Kvichavak and Izaviknek Rivers.

Izbavleniya Mys: point of land, see Escape Point.

Izembek Lagoon: lagoon, 12 miles long, 10 miles N of village of Cold Bay, at SW end of Alaska Peninsula, Bristol Bay Lowland; 55° 20' N, 162° 48' W; BGN 1965; (map 29). Variant: Isenbeck, Izenbeck Bay, Izenbeck golfe, Izenbeka, Guba, d' Izenbek, Golfe. Name given and published by Capt. Lutke (1836, p. 262), IRN, as "Izenbeck" for surgeon Karl Izembek, a member of his party.

Izenbeka, Guba: lagoon, see Izembek Lagoon.

Izhiga Cove: bight, 1 mile across in Inanudak Bay, on W central coast of Umnak Island, Aleutian Islands; 53° 18' 40" N, 168° 22' 30" W; BGN 1940; (map 22). Variant: Northeast Anchorage. Aleut name reported by Father Veniaminov (1840, v. 1, p. 146) and applied to this cove after the area was surveyed in 1939 by USC&GS. The USC&GS field party called the cove "Northeast Anchorage" because it "affords a fair anchorage in northerly weather * * * ."

Izhut Bay: bay, 4 miles across, 23 miles NE of Afognak, on SE coast of Afognak Island, N of Kodiak Island; 58° 11' N, 152° 15' W; BGN Sixth Report; (map 43). Variant: Izhutskaia Bay, Puerto de Solano, Ujut Bay, Uyut Bay, Whitsunday Bay. Native name published by Capt. Tebenkov (1852, map 23), IRN, as "Z[aliv] Izhut" or "Izhut Bay." This feature was named Whitsunday Bay by Capt. Cook (1785, v. 2, p. 404), RN, and "Puerto de Solano" or "harbor of east wind," by Don D. A. Galiano (1802, map 2). The Russian American Company applied the name to King Cove in 1849. See King Cove.

Izhut Bay: bay, see King Cove.

Izhut, Cape: point of land, 17 miles NE of Afognak, at mouth of Duck Bay, on SE coast of Afognak Island, N of Kodiak Island; 58° 06' 10" N, 152° 20' 20" W; BGN 1901; (map 43). Variant: Cape Shariepof, Ijoot, Indut, Ishoot, Izhut Cape, Izhutshoi, Pentecost, Piatidesiatnitsi, Shiripof, Whitsuntide. Native name published by Capt. Tebenkov (1852, map 23), IRN, as "M[ys] Izhut (Pyatidesyatnitsy)" or "Cape Izut (Whitsuntide)," who identifies it with the Whitsunday (Pillar Cape) of Capt. James Cook in 1778. Sub-Lt. Mikhail Murashev, IRN, called this point "M[ys] Sharypov," or "Cape Sharypov," in 1839 or 1840 and it was published as such by the Russian Hydrog. Dept. in 1849 on Chart 1425. The Russian-American Company applied the name for this feature to the southern entrance to King Cove, 12.5 miles to the NE, in 1849.

Izigan, Cape: point of land, SW coast of Unalaska Island, Aleutian Islands; 53° 14' 15" N, 167° 39' 25" W; BGN 1939; (map 23). Name published by Capt. Tebenkov (1852, map 26), IRN, as "M[ys] Izigan" or "Cape Izigan."

Izyvieknek River: stream, see Izaviknek River.

J

J. Woods Creek: stream, see Woods Creek.

Jabbertown: locality, site of a whaling station, on Chukchi Sea coast, 3.5 miles E of village of Point Hope, Arctic Slope; 68° 20' 30" N, 166° 37' 30" W; (map 129). Variant: Cooper, Coopers. Name shown on an 1898 manuscript map; so called because of the multiple languages of the whalers and their families. The whaling station called Cooper was located a short distance away.

Jachach, Cape: point of land, see Yakak, Cape.

Jachlanissa: island, see Kochu Island.

Jack Bay: bight, 1 mile across, off SW coast of Chignik Bay, 6 miles E of Chignik, Aleutian Range; 56° 18' N, 158° 14' W; (map 30). Variant: Jacks Bay. Name reported in 1923 by R. H. Sargent USGS, and published in 1927 by USGS.

Jack Bay: estuary, 7 miles long, trends S from Valdez Arm, 14 miles SW of Valdez, Chugach Mountains; 61° 02' 30" N, 146° 39' 30" W; (map 68). Variant: Jack's Bay. Named "Jack's Bay" in 1898 by Capt. W. R. Abercrombie, USA, presumably for W. G Jack, a local prospector.

Jack Creek Lake: lake, see Jack Lake.

Jack Creek: stream, flows NE 5 miles from Jack White Range to Koyukuk River, 8 miles NE of Bettles, Kanuti Flats; 66° 58' N, 151° 25' W; BGN 1932; (map 117). Variant: Jack White Creek. Prospectors' name in use since 1912; named "for Jack White, a local river man."

Jack Creek: stream, flows S 1 mile to Walker Fork, 50 miles S of Eagle, Yukon-Tanana Highlands; 64° 05' N, 141° 12' W; (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Jack Creek: stream, flows SE 18 miles between Nutzotin and Wrangell Mountains to Nabesna River, 5.5 miles NE of Nabesna, Wrangell Mountains; 62° 24' N, 142° 51' W; (map 84). Name reported in 1902 by Schrader (Mendenhall and Schrader, 1903, p. 31), USGS.

Jack Creek: stream, in Kallarichuk Hills of Baird Mountains, flows SW 5.5 miles to Klery Creek, 14 miles N of Kiana, Brooks Range; 67° 11' N, 160° 24' W; (map 127). Name used by prospectors; reported in 1910 by P. S. Smith (in Brooks and others, 1911, pl. 13), USGS.

Jack Delay Pass: pass, see Delay Pass.

Jack Frost Creek: stream, heads in Cottonwood Hills, flows NW 12 miles to Fish River, 3 miles S of Carey Lake and 38 miles SSW of village of Lake Minchumina, Kuskokwim Lowland; 63° 21' 30" N, 152° 36' 00" W; (map 88). Local name obtained in 1958 from Fabian Carey and "Val" Blackburn by USGS.

Jack Gulch: ravine, trends SW 0.8 miles to Boulder Creek 1.7 miles SE of its junction with Stewart River, 20 miles N of Nome, Seward Peninsula Highlands; 64° 47' N, 165° 23' W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Jack Lake: lake, 0.4 miles long, W of The Alaska Railroad, 1 mile S of Willow and 35 miles N of Anchorage, Cook Inlet Lowland; 61° 43' 40" N, 150° 01' 40" W; BGN 1958; (map 70). Named in 1958 by Dorace C. Thatcher of Willow; so called "because when viewing the lake and the bearer trails from the air, one is reminded of a child's jack."

Jack Lake: lake, 1,000 ft. long, N of Lake Lee, 9 miles SW of Kodiak, Kodiak Island; 57° 42' 55" N, 152° 36' 05" W; (map 34). Local name reported in 1949 by USGS.

Jack Lake: lake, 2 miles long, in course of Jack Creek, 13 miles NW of Nabesna, Wrangell Mountains; 62° 31' N, 143° 17' W; BGN 1939; (map 84). Variant: Jack Creek Lake. Local name reported in 1931 by USGS.

Jack Point: promontory, between Castle Bay and SW coast of Chignik Bay, 8 miles E of Chignik, Aleutian Range; 56° 17' N, 158° 12' W; (map 30). Local name reported by a 1951 USGS field Party.

Jack Rabbit Creek: stream, see Rabbit Creek.

Jack River: stream, flows NW 32 miles to Nenana River, E of Cantwell, 28 miles S of Healy, Talkeetna Mountains; 63° 28' N, 148° 49' W; (map 87). Named in 1898 by G. H. Eldridge and Robert Muldrow, USGS, for W. G. Jack, prospector.

Jack River: stream, see Braided Creek.

Jack Uheen Slough: stream, anabranch of Yukon River, 8.5 miles long, 4.2 miles SE of Beaver, Yukon Flats; 66° 20' 20" N, 147° 14' 30" W; (map 118). Variant: Jack Wien Slough. Local name obtained in 1956 by USGS.

Jack Wade Creek: stream, see Wade Creek.

Jack Wade Gulch: ravine, trends SW 1 mile to Auburn Creek which flows to American Creek, 23 miles N of Solomon, Seward Peninsula Highlands; 64° 53' 45" N, 164° 28' 20" W; (map 95). Name derived from Jack Wade of the "Forty Mile district." Prospectors' name reported in 1907 by USGS geologists (Smith, P. S., 1910, pl. 4).

Jack Wade: locality, on Wade Creek, 46 miles S of Eagle, Yukon-Tanana Highlands; 64° 09' 00" N, 141° 27' 30" W; (map 102). Variant: Jackwade. Mining camp named by miners for Jack Wade, prospector; reported in 1903 by T. G. Gerdine (in Prindle, 1905, pl. 16), USGS. A post office was established here in 1901 and maintained until 1948 (Ricks, 1965, p. 29). The population dwindled to 21 persons by 1940.

Jack White Creek: stream, see Jack Creek.

Jack White Range: mountain range, extends NE-SW 16 miles, between Koyukuk River and its South Fork, 10 miles E of Bettles, Brooks Range; 66° 54' N, 151° 03' W; (map 117). Local name reported in 1956 by USGS.

Jack Wien Slough: channel, see Jack Uheen Slough.

Jack, Lake: lake, 2 miles long, on E side of Kenai Peninsula, 1.5 miles S of Long Bay, 16 miles SE of Whittier, Chugach Mountains, 60° 38' 30" N, 148° 17' 30" W; (map 63). Local name reported in 1952 by USGS.

Jackass Canyon: ravine, in Sheep Mountain, extends 1.5 miles NE of Glenn Highway, 52 miles NE of Palmer, Talkeetna Mountains; 61° 48' 00" N, 147° 35' 30" W; BGN 1960; (map 69). Variant: Jackass Gulch. Local name reported in 1952 by USGS.

Jackass Canyon: stream, see Gypsum Creek.

Jackass Gulch: ravine, see Jackass Canyon.

Jackass Pass: pass, 850 ft., on Gilbert Ridge, on E end of Attu Island, Aleutian Islands; 52° 51' 25" N, 173° 15' 35" E; (map 13). Name shown on an AMS map published in 1948.

Jackass Point: point of land, at S tip of Akun Island, Krenitzin Islands, Aleutian Islands; 54° 06' 35" N, 165° 33' 50" W; (map 24). Named in 1888 by USBF.

Jackfish Lake: lake, 0.4 miles across, S of Venetie Lake, 41 miles SW of Christian, Yukon Flats; 67° 02' N, 146° 20' W; (map 122). Local name reported in 1956 by T. E. Taylor, USGS.

Jackknife Islands: islands, 0.5 miles across, 3 miles S of Goddard, in Necker Islands, on W coast of Baranof Island, Alexander Archipelago; 56° 47' 45" N, 135° 24' 00" W; (map 5). Variant: Jacknife Islands. Descriptive name published in 1929 by USC&GS; so named because of the outline of these islands on charts.

Jackknife Mountain: mountain, 2,200 ft., 1 mile N of Lake Aleknagik and 28 miles NW of Dillingham, Kilbuck-Kuskokwim Mountains, BGN 1932; (map 52). Variant: Jack Knife Mountain, Mount Shasta. Name recommended by W. C. Mendenhall, USGS, in 1932 and approved by BGN over the name Mount Shasta. Jackknife Mountain seems to have first been shown on an old manuscript sketch map made by [G. D.] Hanna, USBF. "Mount Shasta" seems to have been predominant local usage around 1930, and was so called because of the resemblance of the mountain to California's Mount Shasta.

Jacknife Islands: islands, see Jackknife Islands.

Jackpot Bay: estuary, on E coast of Kenai Peninsula, extends NE 3.5 miles then SE 3 miles to S end of Dangerous Passage, 4.5 miles NW of Chenega, Chugach Mountains; 60° 19' 30" N, 148° 11' 00" W; (map 63). Local name reported in 1905 by U. S. Grant, USGS.

Jackpot Creek: stream, flows SW 5 miles to northernmost of Jackpot Lakes, 12 miles NW of Chenega, Chugach Mountains; 60° 25' N, 148° 15' W; (map 63). Variant: Jack Pot Creek, Jack-Pot Creek. Name used by fishermen; reported in 1897 by Lt. Comdr. J. F. Moser, USN,

commander of the USBF steamer Albatross from 1897 to 1901, who made surveys and investigations in this area.

Jackpot Island: island, in mouth of Jackpot Bay, off E coast of Kenai Peninsula, 4.5 miles NW of Chenega, Chugach Mountains; 60° 19' 15" N, 148° 11' 30" W; BGN 1934; (map 63). Named in 1933 by a USC&GS field party for nearby Jackpot Bay.

Jackpot Lakes: lakes, group of, along Jackpot Creek, on E coast of Kenai Peninsula, 8 miles NW of Chenega, Chugach Mountains; 60° 22' 30" N, 148° 15' 00" W; (map 63). Variant: Jack Pot Lakes, Jack-Pot Lakes. Name reported in 1897 by Lt. Comdr. J. F. Moser, USN, commander of the USBF steamer Albatross, while making surveys and investigations in the area.

Jackpot Point: point of land, on E coast of Kenai Peninsula, at N entrance to Jackpot Bay, 4.5 miles NW of Chenega, Chugach Mountains; 60° 20' N, 148° 10' W; BGN 1934; (map 63). Named in 1933 by a USC&GS field party for nearby Jackpot Bay.

Jackrabbit Island: island, 0.5 miles long, in Iliamna Lake, at mouth of Northeast Bay, 5.5 miles E of Iliamna, Aleutian Range; 59° 45' 30" N, 154° 45' 00" W; (map 51). Local name published in 1958 by USGS.

Jacks Bay: bight, see Jack Bay.

Jacks Cove: cove, on SE coast of Lemesurier Island, in South Passage, SW of Willoughby Cove and 26 miles WNW of Hoonah, St. Elias Mountains; 58° 16' N, 136° 04' W; (map 10). Local name published by USGS in the 1950's.

Jacks Creek: stream, flows SW to Dome Creek which flows to American River, about 30 miles NE of Teller, Seward Peninsula Highlands; (map 111). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This feature cannot be precisely identified on current maps.

Jacks Lake: lake, see Haines Lake.

Jacks Slough: stream, flows NW 3.3 miles to Galena Creek, 34 miles E of Nulato, Koyukuk Lowland; 64° 41' N, 156° 58' W; (map 97). Variant: Last Slough. Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by U.S. Dept. of Interior.

Jacksina Creek: stream, heads at Jacksina Glacier and flows NE 26 miles to Nabesna River, 5 miles SE of Nabesna, Wrangell Mountains; 62° 21' 15" N, 142° 52' 30" W; (map 84). Variant: Di-bot-i-chit-in-da. Prospectors' name; a combined personal name with an Indian ending (-na) meaning stream or river, reported in 1902 by F. C. Schrader, USGS. Schrader gave the Indian name of the stream as "Di-bot-i-chit-in-da."

Jacksina Glacier: glacier, trends NE 10 miles from Mount Jarvis to its terminus at head of Jacksina Creek, Wrangell Mountains; 62° 07' 30" N, 143° 23' 30" W; (map 84). Named for Jacksina Creek and reported in 1902 by F. C. Schrader, USGS.

Jacksmith Bay: bay, on E shore of Kuskokwim Bay, 28 miles NW of Goodnews, Yukon-Kuskokwim Delta; 59° 30' N, 161° 45' W; (map 53). Variant: Jack Smith Bay, Nerviak. Local name published in 1914 by USC&GS. The Eskimo name is reported to be “Nerviak,” meaning “place to eat.” The bay is “entirely bare at low tide.”

Jacksmith Creek: stream, flows W 10 miles to Jacksmith Bay, 26 miles NW of Goodnews, Yukon-Kuskokwim Delta, 59° 29' N, 161° 45' W; BGN 1939; (map 53). Variant: Cripple Creek. This stream was called “Cripple Creek,” in 1913 by USC&GS on Chart T-3399. It was reported as “Jacksmith Creek” in 1919 by G. L. Harrington (in Brooks and others 1921, map 7), USGS.

Jackson Bay: bay, see Sheep Bay.

Jackson Cove: estuary, on S coast of Glacier Island, extends SE 1 mile to Chamberlain Bay, 51 miles NE of Whittier, Chugach Mountains; 60° 52' 25" N, 147° 12' 45" W; (map 63). Local name reported in 1900 by F. C. Schrader, USGS. Jackson Hole is a similar feature on the north shore.

Jackson Creek: stream, flows E 4 miles to Copper River, 1 mile SE of mouth of Cleave Creek and 46 miles E of Valdez, Chugach Mountains; 61° 06' 55" N, 144° 52' 30" W; (map 68). Local name published since 1950 by USGS.

Jackson Creek: stream, flows NW 30 miles to Bonasila River, 26 miles W of Anvik and 54 miles NW of Holy Cross, Nulato Hills; 62° 43' N, 161° 01' W; (map 78). Local name reported in 1949 by USC&GS.

Jackson Creek: stream, flows SW 10 miles to Bonanza River, 5 miles W of Solomon, Seward Peninsula Highlands; 64° 33' N, 164° 36' W; (map 95). Variant: East Fork Jackson Creek. Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Jackson Creek: stream, in Rampart Mountains, flows S 11 miles to Yukon River, 8 miles ENE of Tanana, Kokrines-Hodzana Highlands; 65° 12' 30" N, 151° 50' 00" W; (map 106). Name taken from Edwards Track Chart of the Yukon, dated 1899; published by Cantwell (1902, p. 277), USRCS.

Jackson Hole: estuary, on N coast of Glacier Island, extends NE 1.5 miles to Prince William Sound, 52 miles NE of Whittier, Chugach Mountains; 60° 54' 25" N, 147° 12' 15" W; (map 63). Local name reported in 1908 by U. S. Grant (in Brooks and others, 1909, pl. 4), USGS. Jackson Cove is on the south shore. This name may have been suggested by Jackson Hole, Wyoming.

Jackson Island: island, 1.2 miles long, near head of Cordova Bay, S of Sukkwan Island, Alexander Archipelago; 54° 59' 00" N, 132° 43' 30" W; (map 1). Variant: Norcross Island. Named in 1883 by W. H. Dall, USC&GS, for Sheldon Jackson who established a Presbyterian mission on nearby Long Island in 1881. Jackson called this island “Norcross” in 1880.

Jackson Island: island, 2 miles long, in Yukon River, 36 miles NW of Livengood, Yukon Flats; 66° 00' N, 149° 00' W; (map 105). Local name published by USGS in the 1950's.

Jackson Lagoon: lagoon, 1.5 miles long, on NW shore of Pavlof Bay, 3.5 miles NW of Ivan Island Bristol Bay Lowland; 55° 34' 15" N, 161° 39' 15" W; (map 28). Named in 1929 by USGS.

Jackson Lake: lake, 1 mile across, 6 miles E of Stevens Village, Yukon Flats; 66° 00' N, 148° 54' W; (map 105). Local name published by USGS in the 1950's.

Jackson Mission: locality, site of Presbyterian mission and trading post, at Howkan, on W coast of Long Island, Alexander Archipelago; 54° 52' 10" N, 132° 48' 00" W; (map 1). Variant: Jackson. This mission was established in 1881 by Rev. Sheldon Jackson, and was called "Jackson" by the missionaries.

Jackson Passage: water passage, 1 mile long, between Jackson and Sukkwan Islands, near head of Cordova Bay, Alexander Archipelago; 54° 59' 15" N, 132° 44' 30" W; (map 1). Name derived from Jackson Island and published by USC&GS in 1911.

Jackson Point: point of land, 0.4 miles long, on S shore of Port Valdez, 4.2 miles SW of Valdez, Chugach Mountains; 61° 05' 25" N, 146° 22' 45" W; (map 68). Local name reported in 1901 by H. P. Ritter, USGS.

Jackson Slough: stream, anabranch of the Yukon River, 2 miles long, 36 miles NW of Livengood, Yukon Flats; 65° 59' 45" N, 148° 59' 40" W; (map 105). Local name published by USGS in the 1950's.

Jackson, Point: point of land, on barrier beach between Breving Lagoon and Port Clarence, 8 miles NW of Teller, Seward Peninsula Highlands; 65° 20' N, 166° 36' W; (map 111). Named in 1827 by Capt. Beechey (1831, p. 543), RN, "in compliment to the Honorable * * * Captain Samuel Jackson, C. B., * * * of whom I am indebted for my earliest connexion [sic] with the voyages of Northern Discovery."

Jackson: locality, see Howkan.

Jackson: locality, see Jackson Mission.

Jacob Island: island, 4.5 miles long, 12 miles E of Stepovak Bay, Aleutian Range; 55° 45' N, 159° 22' W; (map 27). Variant: Saint Jacob. Named by Lt. Woronkofski in 1837; published as "O[strov] Sv[yatoy] Iakova," or "St. Jacob Island," on Russian Hydrog. Dept. Chart 1379 (1847). "Jacob Island" was shown in 1888 on USC&GS Chart 806.

Jacob Island: island, see Yakobi Island.

Jacob Point: point of land, between Yukon River and Old Lost Creek, 18 miles NE of Stevens Village, Yukon Flats; 66° 08' 15" N, 148° 32' 15" W; (map 118). Local name obtained in 1956 by USGS.

Jacob Rock: rock, 0.2 miles long, in Necker Islands, W of Baranof Island, 5.8 miles SW of Goddard, Alexander Archipelago; 56° 47' 15" N, 135° 29' 45" W; BGN 1929; (map 5) Named in 1925 by USC&GS. See Rogers Island.

Jacobi Island: island, see Chichagof Island.

Jacobieff Island: island, see Yakobi Island.

Jacobs Mountain: mountain, 2,370 ft., near head of Kasaan Peninsula, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 34' 10" N, 132° 21' 45" W; (map 4). Local name recorded in 1949 by USGS.

Jacobsen Lake: lake, 0.7 miles long, in Matanuska Valley, 14 miles SW of Palmer, Cook Inlet Lowland; 61° 34' 45" N, 149° 32' 15" W; (map 69). Local name reported in 1942 by AMS.

Jacootat Bay: bay, see Yakutat Bay.

Jade Creek: stream, heads in Jade Mountains at 67° 14' N, 158° 01' W, flows SW 12 miles to Kobuk River, 33 miles NW of Shungnak, Brooks Range; 67° 07' N, 158° 13' W; (map 126). Named by Mendenhall (1902, pl. 5), USGS, after the Jade Mountains.

Jade Mountain: mountains, see Jade Mountains.

Jade Mountains: mountains, 3,350 ft., at SE end of Baird Mountains, extend NW-SE 11 miles, 4 miles wide, 33 miles NW of Shungnak, Brooks Range; 67° 14' N, 158° 03' W; (map 126). Variant: Ashiganok, Green Stone Mountain, Jade Mountain. This name is mentioned by Lt. Stoney (1900, p. 56), USN, who probably named this feature on his visit there in 1884 when he obtained samples of jade for the Smithsonian Institution. Lt. J. C. Cantwell, USRCS, called it "Ashiganok," meaning "green-stone mountain," in 1884 (Healy, 1886, p. 57). "Ashiganok" is the same as the Eskimo name "Shungnak."

Jadski Cove: cove, extends S 1 mile to Clarence Strait, W of McHenry Inlet, on SW coast of Etolin Island, Alexander Archipelago; 56° 01' N, 132° 25' W; (map 6). Local navigators' name reported in 1904 by H. C. Fassett, USBF.

Jag Peak: mountain, 2,880 ft., SW of Okmok Caldera, on NE part of Umnak Island, Aleutian Islands; 53° 23' N, 168° 14' W; (map 22). Name published by Byers (1959, p. 313), USGS.

Jagged Boulder Plateau: plateau, 5,000 ft., near center of Granite Mountain, 22 miles SE of Delta Junction, Alaska Range; 63° 45' N, 145° 24' W; (map 86). Name published on relatively recent maps.

Jagged Mountain: mountain, 2,350 ft., 5 miles SE of tip of Cape Newenham and 35 miles W of Hagemeister Island, Kilbuck-Kuskokwim Mountains; 58° 38' 15" N, 162° 01' 45" W; (map 39). Descriptive name given in 1914 by USC&GS; published in 1916 Coast Pilot (p. 246).

Jago Entrance: water passage, on coast of Beaufort Sea, 3.5 miles E of Barter Island, between Bernard and Jago Spits, Arctic Plain; 70° 08' N, 143° 22' W; (map 152). Local name reported in 1952 by USC&GS. The name is derived from the Jago River.

Jago Lagoon: lagoon, on coast of Beaufort Sea, extends 6.5 miles between Manning and Martin Points, 2 miles E of Barter Island, Arctic Plain; 70° 07' N, 143° 22' W; (map 152). Local name derived from the Jago River, reported in 1952 by USC&GS.

Jago River: stream, heads at glacier in Romanzof Mountains at 69° 04' 30" N, 143° 54' 00" W, flows N 90 miles to Jago Lagoon, 7 miles E of Barter Island, Arctic Plain; 70° 07' 25" N, 143° 16' 30" W; (map 152). Variant: Jags River, Jaye River. Named by Leffingwell (1919, p. 92), USGS; derived from the name "Jags" and modified to "Jago" in order to "place the name of Lt. Jago of Collinson's [Capt. Richard, RN] ship, on the map * * *." The name "Jags," according to Leffingwell, is the Eskimo attempt to pronounce "the whaler's nickname for a drunken native who first braved the devils that were supposed to dwell on that river."

Jago Spit: barrier island, 3 miles long, on coast of Beaufort Sea, 5 miles E of Barter Island, Arctic Plain; 70° 09' N, 143° 16' W; (map 152). Local name derived from the Jago River, reported by USC&GS in 1952.

Jags River: stream, see Jago River.

Jaichnoi: point of land, see Egg Point.

Jaitschoi Island: island, see Egg Island.

Jake Lake: lake, 0.7 miles long, between Peters and Twentymile Creeks, 19 miles W of Talkeetna, Alaska Range; 62° 20' 50" N, 150° 41' 35" W; (map 81). Local name reported in 1958 by USGS.

Jaklek, Landzunge: point of land, see Aklek, Cape.

Jaklok, Landzunge: point of land, see Aklek, Cape.

Jakolof Bay: cove, 0.2 miles wide, on Kenai Peninsula, at S end of Kasitsna Bay, 6.5 miles NE of Seldovia, Chugach Mountains; 59° 28' N, 151° 32' W (map 50). Local name reported by U. S. Grant, USGS, in 1915.

Jakolof Creek: stream, on Kenai Peninsula, flows NW 2 miles to Jakolof Bay, 8 miles E of Seldovia, Chugach Mountains; 59° 27' N, 151° 29' W (map 50). Name derived from Jakolof Bay; reported by A. C. Gill, Cornell Univ., in 1918.

Jakorny: spit, see Anchor Point.

Jalamund Lake: lake, 0.4 miles long, N of Black Hills, 18 miles SE of Northway, Alaska Range 62° 43' N, 141° 46' W; (map 84). Indian name reported in 1955 by USGS.

Jamboree Bay: estuary, 2 miles long, on W coast of Baranof Island, 25 miles SE of Sitka, Alexander Archipelago; 56° 42' 40" N, 135° 10' 20" W. (map 5). Named in 1924 by USC&GS.

James Creek: stream, in Nutzotin Mountains, flows SE 4 miles to Carl Creek, 5.5 E of Beaver Lake, Alaska Range; 62° 03' N, 141° 37' W (map 84). Local name reported in 1960 by USGS.

James Island: bar, 1.5 miles long, trends N-S in NW part of Ivanof Bay, Aleutian Range; 55° 52' N, 159° 32' W; (map 27). Named by W. H. Dall, USC&GS, and published in 1882 on Chart 806.

James Island: island, see Bettles Island.

James Island: island, see Crow Island.

James Lagoon: lagoon, 0.5 miles wide, on W shore of East Arm Nuka Bay, Kenai Peninsula, 40 miles ESE of Homer, Chugach Mountains; 59° 34' N, 150° 20' W; BGN 1911; (map 50). Named by U. S. Grant, USGS, in 1911, "for Capt. James Bettels, of Valdez, a resident of Prince William Sound for the last 20 years."

James Lake: lake, 0.4 miles long, in course of John Creek, 1.5 miles N of Port Johnson, on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 09' N, 132° 03' W; (map 4). Local name reported in 1901 by A. H. Brooks, USGS.

James Robert Glacier: glacier, in Lake Peters area, in Franklin Mountains, Brooks Range; (map 139) Name published by Bee and Hall (1956, p. 296).

James Robert Lake: lake, in Lake Peters area, in Franklin Mountains; Brooks Range; (map 139). Name published by Bee and Hall (1956, p. 296).

Jamestown Bay: bay, 0.6 miles across, 1.5 miles SE of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 02' 40" N, 135° 17' 30" W; (map 9) Named in 1879 by the U.S. Navy for the U.S.S. Jamestown, which was stationed in southeastern Alaska, primarily at Sitka, where her officers, including Lt. F. M. Symonds and Master G. C. Hanus, were engaged in surveying Sitka Sound. Various islands in the sound were named after officers of the ship. The name Jamestown Bay was published by USC&GS in 1883 Coast Pilot (p. 144).

Jamestown Hill: hill, probably on N slope of Mount Roberts, about 3 miles SE of Juneau, Coast Mountains; 58° 18' N, 134° 20' W; (map 11). Named by miners about 1885 (DeArmond, 1957, p 37).

Jamestown Peak: peak, 3,172 ft., 9 miles E. of Cape Fanshaw and 78 miles E of Sitka, Coast Mountains; 57° 10' 40" N, 133° 19' 35" W; (map 8). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for the U.S.S. Jamestown, a survey ship in southeastern Alaska 1879-80; published in 1888 by USC&GS.

Jamieson Creek: stream, flows SW to Goodhope River, about 27 miles NW of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name reported in 1901 by USGS (Collier, 1902, pl. 12). This stream cannot be identified on current maps.

Jan Lake: lake, 0.4 miles long, W of Alaska Highway, 21 miles NW of Tanacross, Yukon-Tanana Highlands; 63° 34' N 143° 55' W, (map 85). Named about 1957 by Edward Marvich of the Alaska Dept. of Fisheries for his expected daughter for whom the name "Janet" was planned. The baby was a boy.

Jan Peak: peak, see Mustang Peak.

Jane Creek: stream, heads in Alatna Hills, flows SE 11 miles to Koyukuk River, 2 miles S of Bettles, Kanuti Flats; 66° 53' N, 151° 42' W; (map 117). Name used by prospectors and reported in 1901 by W. J. Peters (in Schrader, 1904, p. 2), USGS.

Jane Russell Peaks: peak, see Peril Peak.

Janesville Mountain: mountain, 2,567 ft., on Annette Island, NE of Port Chester, Alexander Archipelago; 55° 09' 48" N, 131° 30' 20" W; BGN 1900; (map 3). Variant: Janeville Mountain. Named in 1883 by Lt. Comdr. H. E. Nichols, USN, after "Janesville, Wisconsin."

Janeville Mountain: mountain, see Janeville Mountain.

Jansen, Point: point of land, on SE coast of Prince of Wales Island, in North Arm Moira Sound, Alexander Archipelago; 55° 06' 15" N, 132° 06' 45" W; (map 4). Local name reported in 1905 by E. F. Dickins, USC&GS.

January Lake: lake, 1.5 miles long, near E coast of Revillagigedo Island, in course of North Fork Manzanita Creek, Alexander Archipelago; 55° 36' N, 131° 04' W; BGN 1960; (map 3). Variant: Amber Lake. Local name reported in 1960 by USFS.

Jap Bay: bay, 1 mile across, 6 miles NE of Kaguyak on SE coast of Kodiak Island; 56° 56' N, 153° 41' W; (map 33). Name reported in 1943 by USC&GS.

Jap Creek: stream, flows NE 4.5 miles to Wiseman Creek, 1.4 miles NW of mouth of that stream and 1 mile NW of Wiseman, Brooks Range; 67° 25' 30" N, 150° 08' 00" W; (map 124). Local name obtained in 1956 by USGS topographers.

Jap Creek: stream, flows S 3 miles to Frederick Sound, 4 miles NW of mouth of Le Conte Bay, 13 miles SE of Petersburg, Coast Mountains; 56° 46' 25" N, 132° 36' 25" W; (map 6). Local name recorded in 1961 by USGS.

Jap Creek: stream, heads on S side of Iron Mountain, on Kenai Peninsula, flows NE 3.5 miles to Resurrection River, 1 mile NE of Seward, Chugach Mountains; 60° 08' 20" N, 149° 25' 05" W; (map 63). Local name reported in 1951 by USGS.

Jap Gap: pass, 1,050 ft., on E end of Attu Island, between Simson and Vanderlann Peaks, 0.4 miles SE of Lake Cories, Aleutian Islands; 52° 54' 02" N, 173° 14' 50" E; (map 13). Named by U.S. Army during World War II; published in 1948 by AMS.

Jap Hill: mountains, see Japan Hills.

Japan Hills: mountains, 2,834 ft., 6.5 miles across, between Wood River and Bonnifant Creek, 45 miles S of Fairbanks, Alaska Range; 64° 11' N, 147° 45' W; (map 100). Variant: Jap Hill. Local name shown as Jap Hill in 1909 on a manuscript ARC map by Arnt Greve.

Japanese Island: island, see Japonski Island.

Japonski Island: island, 1 mile across, 0.5 miles W of Sitka, in Sitka Sound, Alexander Archipelago; 57° 03' N, 135° 22' W; (map 9). Variant: Japanese Island, Jeponski Island, Ostrov Yaponskoy, Yaponskoi Island. Russian name meaning “Japanese Island” given in 1809 by the navigator Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as “O[strov] Yaponskoy.” This name was given because there were some shipwrecked Japanese sailors living there at the time.

Jarmin Pass: pass, 600 ft., on E end of Attu Island, at head of West Massacre Valley, Aleutian Islands; 52° 53' 20" N, 173° 07' 45" E; (map 13). Named by U.S. Army during World War II; published in 1948 by AMS.

Jarvis Creek: stream, flows SE 1 mile to Anikovik River, 14 miles SE of Cape Prince of Wales and 41 miles NW of Teller, Seward Peninsula Highlands; 65° 31' N, 167° 37' W; (map 111). Prospectors' name shown on the 1900 “Map of Nome Peninsula” by J. M. Davidson and B. D. Blakeslee.

Jarvis Creek: stream, flows SE to Fish River, between Miller and Onekoksuk Creeks, about 37 miles NE of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name reported on the 1900 “Map of Nome Peninsula” by J. M. Davidson and B. D. Blakeslee. This stream cannot be precisely located on current maps.

Jarvis Creek: stream, heads at 63° 32' N, 145° 41' W, flows N 39 miles to Delta River, 9 miles SE of Big Delta, Alaska Range; 64° 01' N, 145° 45' W; (map 101). Named by Capt. E. F. Glenn, USA in 1898, probably for Lt. David Henry Jarvis, USRCS. The name was published in 1900 by USGS.

Jarvis Creek: stream, heads in Jarvis Glacier, flows E 1.8 miles to Klehini River, 37 miles W of Skagway, St. Elias Mountains; 59° 26' 50" N, 136° 21' 50" W; (map 45). Local name reported by C. W. Wright (1904, pl. 2), USGS.

Jarvis Glacier: glacier, heads in Canada at 59° 30' N, 136° 39" W, trends SE 12 miles to head of Jarvis Creek, 1.8 miles W of Pleasant Camp and 39 miles W of Skagway, St. Elias Mountains; 59° 26' 30" N, 136° 25' 00" W; BGN 1954; (map 45). Local name published by A. H. Brooks and others (1918, pl. 8). It was named for Inspector Jarvis of the Royal Canadian Mounted Police.

Jarvis Island: island, near entrance to Twelvemile Arm Kasaan Bay, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 30' 20" N, 132° 33' 00" W; (map 4). Variant: Jarvis Islands. Named for Lt. Daniel Henry Jarvis, USRCS, commander of the revenue cutter Bear, who conducted an overland expedition for the relief of the whaling fleet imprisoned by the ice in the vicinity of Point Barrow in 1897-1898; published in 1910 by USC&GS.

Jarvis Islands: island, see Jarvis Island.

Jarvis Mountain: mountain, see Jarvis, Mount.

Jarvis, Mount: mountain, 1,456 ft., E of Kivalina River, 9 miles NE of Kivalina, Arctic Slope; 67° 55' 30" N, 164° 01' 00" W; (map 128). Variant: Jarvis Mountain. Named for Lt. Daniel H. Jarvis, USRCS, who conducted an overland expedition for the relief of the whaling fleet

“frozen in” at Point Barrow. The expedition consisted of a herd of 448 reindeer which passed near this mountain about March, 1898. The mountain may have been named by P. S. Smith and J. B. Mertie, USGS, about 1925.

Jarvis, Mount: mountain, 13,421 ft., at head of Jacksina Glacier, Wrangell Mountains; 62° 01' N, 143° 37' W; (map 84). Named in 1903 by F. C. Schrader, USGS, for Capt. D. H. Jarvis, USRCS, who spent several years in Alaska.

Jarvis: locality, on Colville River, at mouth of Itkillik River, Arctic Plain; 70° 09' N, 150° 56' W; (map 149). This camp was named in 1902 by E. F. Bosqui, U.S. Commissioner, for Lt. Daniel H. Jarvis, USRCS, who conducted an overland expedition for the relief of the whaling fleet at Point Barrow in 1897-98.

Jasper Creek: stream, flows NW 3.5 miles to Salmon Lake, 30 miles NE of Nome, Seward Peninsula Highlands; 64° 54' N, 165° 00' W; (map 94). Variant: Cash Creek, Bonanza Creek. Prospectors' name reported in 1908 by P. S. Smith (in Brooks and others, 1909, pl. 10), USGS. Smith applied “Cash Creek” to the upper course of Jasper Creek.

Jatahmund Lake: lake, 4 miles long, S of Black Hills, 23 miles S of Northway, Alaska Range; 62° 37' N, 142° 00' W; (map 84). Indian name reported in 1955 by USGS.

Jaw Mountain: mountains, two, 2,400 ft., arc-shaped group open to NE, 30 miles NW of Cape Kunmik, on Alaska Peninsula, Aleutian Range; 56° 58' N, 157° 53' W; (map 31). Named in 1923 by R. H. Sargent, USGS, who described “its two peaks separated by a steep-side gap [like a jaw].”

Jaw Point: point of land, in Woewodski Harbor, on E coast of Liesnoi Island, off SE coast of Admiralty Island, Alexander Archipelago; 57° 10' 00" N, 134° 15' 15" W; (map 9). Descriptive name given in 1889 by Lt. Comdr. H. B. Mansfield, USN; published by USC&GS in 1891 Coast Pilot (p. 142). Liesnoi Island is shaped somewhat like a jaw. Jaw Point marks the point of the lower jaw.

Jaw Point: point of land, on E shore of Taku Inlet, 3 miles NE of Cooper Point and 12 miles W of Juneau, Coast Ms; 58° 16' 45" N, 134° 04' 45" W; (map 11). Named by Lt. Comdr. H. B. Mansfield, USN, in 1890 and published by USC&GS in the 1891 Coast Pilot (p. 153).

Jay Creek: stream, flows NE 3 miles to Ruby Creek, 14 miles NE of Shungnak, Brooks Range; 67° 05' N, 156° 56' W; (map 126). Local name reported by USGS in 1956.

Jay Creek: stream, flows SW 2 miles to Rye Creek, 11 miles NW of Ipnek Mountain and 32 miles W of Wiseman, Brooks Range; 67° 24' 30" N, 151° 20' 00" W; BGN 1932; (map 124). Local name reported by Robert Marshall in 1932.

Jay Creek: stream, in Baird Mountains, flows SW 2 miles to Central Creek 9.5 miles ENE of its junction with Squirrel River, 13 miles NE of Kiana. Brooks Range; 67° 08' N, 160° 12' W; (map 127). Name used by prospectors; reported in 1910 by P. S. Smith (in Brooks and others, 1911, pl. 13), USGS.

Jay Creek: stream, Rows W 18 miles to Susitna River, 19 miles NW of junction of Oshetna River, Talkeetna Mountains; 62° 46' 40" N, 147° 53' 08" W; (map 82). Local name reported in 1951 by USGS.

Jay Lake: lake, 0.2 miles wide, E central Heceta Island, Alexander Archipelago; 55° 46' 35" N, 133° 24' 15" W; (map 4). Local name recorded in 1951 by USGS.

Jay Lake: lake, 0.8 miles long, on Kenai Peninsula N of Muskrat Lake, 34 miles NE of Kenai, Cook Inlet Lowland; 60° 43' 10" N, 150° 22' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, probably for the Alaska Jay, Whiskey Jack, or Camp Robber *Perisoreus canadensis fumifrons*).

Jayalik Hill: hill, 305 ft., 22 miles NW of Cape Mendenhall, Nunivak Island; 59° 57' 45" N, 166° 42' 30" W; (map 55). Variant: Chealikh Hill, Jayalix Hill. Eskimo name for the "silver salmon" according to USC&GS in 1949.

Jayalik Lake: lake, 0.3 miles across, 1 mile SW of Jayalik Hill, 22 miles NW of Cape Mendenhall, Nunivak Island; 59° 57' N, 166° 43' W; (map 55). Variant: Jayalrim Kimia, Jayalrim Nanwi. Eskimo name reported in 1949, as "Jayalrim Nanwi" meaning "silver salmon lake" according to USC&GS.

Jayalik River: stream, heads at Jayalik Lake, flows SW 4 miles to Bering Sea, Nunivak Island; 59° 55' N, 166° 48' W; (map 55). Variant: Chealikh River, Jayalix River. Name derived from Jayalik Lake; published in 1958 by USGS.

Jayalix Hill: hill, see Jayalik Hill.

Jayalix River: stream, see Jayalik River.

Jayalrim Kamia: lake, see Jayalik Lake.

Jayalrim Nanwi: lake, see Jayalik Lake.

Jaye River: stream, see Jago River.

Jean Bogosloff Island: island, see Bogoslof Island

Jean Creek: stream, flows from Dome (hill) SW 3 miles to Slug River, Kilbuck-Kuskokwim Mountains; 58° 42' 30" N, 161° 38' 00" W; (map 39). Local name shown on a 1937 fieldsheet by J. B. Mertie, USGS.

Jean Creek: stream, on Kenai Peninsula, in Kenai Mountains, flows SE 4.5 miles to Kenai River, 40 miles ESE of Kenai, Chugach Mountains; 60° 29' N, 150° 07' W; (map 62). Local name reported in 1958 by USGS.

Jean Lake: lake, 1 mile long, in Kenai Mountains, on Kenai Peninsula, in course of Jean Creek 38 miles E of Kenai, Chugach Mountains; 60° 30' N, 150° 10' W; (map 62). Local name reported in 1958 by USGS.

Jean Lake: lake, 1,300 ft. long, E of Sucker Lake, 42 miles NE of Tyonek, Cook Inlet Lowland; 61° 39' 50" N, 150° 48' 55" W; (map 70). Local name reported in 1954 by USGS.

Jeanette Island: barrier island, 0.5 miles long, one of McClure Islands on Beaufort Sea coast, 41 mile E of Beechey Point, Arctic Plain; 70° 22' N, 147° 25' W; (map 150). Named in 1881 by Lt. Comdr. G. W. DeLong, USN, for his steamship, the Jeanette.

Jeanie Cove: bay, 4 miles across, on SE coast of Montague Island, 5 miles SW of Patton Bay, 68 miles SE of Seward, Chugach Mountains; 59° 50' N, 147° 35' W; BGN 1929; (map 49). Variant: Bluff Cove. Named by USC&GS field party in 1928; "name suggested by the old SS. Jeanie, which struck a rock in this cove in 1906."

Jeanie Peak: peak, 1,772 ft., 5.5 miles NE of Cape Cleare, on Montague Island, 60 miles SE of Seward, Chugach Mountains; 59° 50' 45" N, 147° 51' 00" W; (map 49). Local name reported in the early 1950's by USC&GS.

Jeanie Point: point of land, at E end of Jeanie Cove, on SE coast of Montague Island, 68 miles SE of Seward, Chugach Mountains; 59° 50' N, 147° 32' W; BGN 1929; (map 49). Variant: Bluff Point. Named in 1928 by USC&GS after the ship Jeanie; see Jeanie Cove.

Jeannes Lake: lake, 0.5 miles across, 8 miles NW of Bearpaw Mountain and 32 miles SE of Bitzshini Mountains, Tanana Lowland; 64° 07' N, 151° 17' W; (map 99). Local name reported in 1952 by USGS.

Jeep Mountain: mountain, see Cashman, Mount.

Jeff Cove: cove, 0.6 miles across, NE of Bukhti Point, S coast of Kiska Island, Aleutian Islands; 51° 56' 00" N, 177° 28' 30" E; (map 14). One of many arbitrary names applied to features on Kiska Island by USAAF for tactical purposes during World War II.

Jefferies Glacier: glacier, heads at 60° 37' N, 141° 35' W, trends W 30 miles to Tana Glacier, 7 miles S of Needle Mountain and 40 miles N of Cape Yakataga, Chugach Mountains; 60° 37' N, 142° 27' W; BGN 1960; (map 65). Named by USGS in 1959 for William ("Tomato Bill") Jefferies, a prospector who, with James Barkley, crossed this area in 1907 (Moffit, 1918. p. 77).

Jefferson Coolidge, Mount: mountain, 6,560 ft., on Alaska-Canada boundary, 15 miles NW of Hyder, Coast Mountains; 56° 06' 45" N, 130° 14' 40" W; BGN 1924; (map 7). Named in 1924 by USGS for T. Jefferson Coolidge "because of his part in British-American Joint High Commission at Quebec in August, 1898, for the discussion of the Alaska Boundary."

Jefferson Creek: stream, flows NE 35 miles to Beaver Creek, 16 miles SE of Beaver, Yukon Flats; 66° 12' 50" N, 146° 57' 50" W; (map 119). Local name obtained in 1956 by USGS.

Jefferson Creek: stream, flows SE 2 miles to Wade Creek, 46 miles SW of Eagle, Yukon-Tanana Highlands; 64° 09' N, 141° 29' W; (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Jefferson Creek: stream, flows W 10 miles to Yukon River, 3 miles ENE of Circle, Porcupine Plateau; 65° 51' N, 143° 57' W; (map 103). Local name from an unpublished map by E. F. Ball, dated 1898.

Jefferson Creek: stream, see DeCarey Creek.

Jefferson Lake: lake, 0.4 miles long, in course of Jefferson Creek, 18 miles SE of Beaver, Yukon Flats; 66° 11' 20" N, 146° 54' 20" W; (map 119). Local name obtained in 1956 by USGS.

Jefferson Meadows: meadows, extend E 6 miles from Big Meadow between Jefferson and Beaver Creeks, 14 miles SE of Beaver, Yukon Flats; 66° 12' N, 147° 00' W; (map 118). Local name obtained in 1956 by USGS.

Jefferson Peak: mountain peak, 4,075 ft., 7 miles NW of Thomas Bay and 94 miles E of Sitka, Coast Mountains; 57° 06' 00" N, 132° 58' 50" W; BGN 1935;(map 8). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for Thomas Jefferson, 1743-1826, author of the Declaration of Independence and third President of the United States, 1801-09.

Jeffery Dome: mountain, 7,000 ft., W of Peters Glacier, opposite mouth of Jeffery Glacier and 6.7 miles N of summit of Mount McKinley, Alaska Range; 63° 09' 45" N, 151° 04' 00" W; (map 88). Mountain climbers' name published in 1954 by USGS.

Jeffery Glacier: glacier, heads on Wickersham Wall, E of Jeffery Point, trends NE 1.5 miles to Peters Glacier, Alaska Range; 63° 08' 45" N, 151° 03' 30" W; (map 88). Mountain climbers' name published in 1954 by USGS.

Jeffery Point: peak, 8,120 ft., between heads of Jeffery and Peters Glaciers, 5.5 miles NW of summit of Mount McKinley, Alaska Range; 63° 08' N, 151° 06' W; (map 88). Mountain climbers' name published in 1954 by USGS.

Jelchhini: stream, see Kelsall River.

Jelchitni: stream, see Kelsall River.

Jellowa Island: island, see Spruce Island.

Jeltakatschkahin Creek: stream, see Little Boulder Creek.

Jendestake: locality, see Gantegastaki.

Jenkins Peak: peak, 3,325 ft., 1 mile E of W Shore of Thomas Bay, 2.5 miles W of Wind Point and 100 miles E of Sitka, Coast Mountains; 57° 03' 25" N, 132° 48' 10" W; (map 8). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, presumably for Rear Adm. Thorston Alexander Jenkins, USN.

Jenkins Rock: rock, off SW coast of Chilkat Peninsula. in Chilkat Inlet, 0.6 miles NW of Letnikof Cove and 19 miles SW of Skagway, Coast Mountains; 59° 11' 20" N, 135° 25' 00"W; (map 45). Named and published by USC&GS in the 1891 Coast Pilot (p. 201).

Jennie Creek Lake: lake, E of and drains into Hammond River, 9.5 miles N of Wiseman, Brooks Range; 67° 33' N, 150° 00' W, (map 124). Local name obtained in 1956 by USGS topographers.

Jennie Creek: stream, flows NW 0.8 miles to Aurora Creek which flows to Noxapaga River, 26 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 39' N, 164° 09' W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Jennie Creek: stream, flows S 3 miles to Hammond River, E of Smith Creek Dome, 5 miles N of Wiseman, Brooks Range; 67° 29' N, 150° 02' W; (map 124). Local name reported in 1939 by Marshall (1956, map).

Jennie M. Crossing: crossing, on Tanana River, 18 miles downstream from mouth of Kantishna River, Nowitna Lowland; 64° 56' 15" N, 150° 22' 30" W; (map 99). Named for the riverboat Jennie (or Jenny) M. Pilot's name published on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" by the U.S. Dept. of Interior.

Jennie M. Island: island, 0.6 miles long, in Tanana River, 3 miles N of Junction Island, Nowitna Lowland; 64° 56' N, 150° 21' W; (map 99). Named by pilots for the riverboat Jennie (or Jenny) M; recorded on a 1940 river chart.

Jennie M. Slough: stream, see Deadman Slough.

Jennie Slough: stream, see Deadman Slough.

Jenny Creek: stream, flows NW 10 miles to Savage River, 14 miles SW of Healy, Alaska Range; 63° 42' 45" N, 149° 15' 45" W; (map 87). Local name published in 1953 by USGS.

Jenny Creek: stream, flows SW 6.5 miles to Sitkum Creek, 4 miles SE of Kake, on NW coast of Kupreanof Island, Alexander Archipelago; 56° 56' 10" N, 133° 52' 00" W; (map 6). Local name recorded in 1951 by USGS.

Jenny Island: island, 1 mile long, in Yukon River, 4.5 miles SE of Fort Yukon, Yukon Flats; 66° 31' N, 145° 09' W; (map 119). Local name obtained in 1956 by USGS.

Jenny Islands: islands, 0.5 miles long, in Prince William Sound, between Axel Lind Island, and Little Axel Lind Island, 34 miles E of Whittier, Chugach Mountains; 60° 48' 15" N, 147° 41' 45" W; (map 63). Local name reported in 1951 by USGS.

Jenny M Creek: stream, flows SE 8 miles to Chena River, 21 miles E of Fairbanks, Tanana Lowland; 64° 50' 45" N, 147° 00' 20" W; (map 100). Prospectors' name reported in 1950 by USGS topographers.

Jensens Camp: locality, 2 miles W of Mount Distin and 18 miles N of Nome, Seward Peninsula Highlands; 64° 46' N, 165° 27' W; (map 94). Site of a mining camp; reported in 1951 by USGS.

Jenson Creek: stream, flows SE 8 miles to Yukon River, 2 miles S of Bullfrog Island and 45 miles SE of Unalakleet, Nulato Hills; 63° 40' N, 159° 23' W; (map 91). Local name reported in 1949 by USC&GS.

Jeponski Island: island, see Japonski Island.

Jerome Creek: stream, flows SE 3.2 miles to Solomon River, 4 miles NE of Solomon, Seward Peninsula Highlands; 64° 37' N, 164° 23' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Jerome Lake: lake, 0.5 miles long, on Kenai Peninsula, 1 mile NW of junction of Seward and Sterling Highways, 24 miles S of Sunrise, Chugach Mountains; 60° 32' 45" N, 149° 34' 30" W, BGN 1960; (map 63). Variant: Fairman Lake. Local name reported in 1954 by USGS. In 1910 U. S. Grant, USGS, reported the name "Fairman Lake," probably after the man of that name who had a cabin nearby.

Jerry Harbor: bay, 0.3 miles across, 3.3 miles N of mouth of Port Herbert, on SE coast of Baranof Island, Alexander Archipelago; 56° 28' 55" N, 134° 38' 45" W (map 6). Local fishermen's name reported in 1947 by USC&GS.

Jesse Creek: stream, flows NW 4.5 miles to Norton Sound, 7 miles S of Unalakleet, Nulato Hills; 63° 46' 10" N, 160° 46' 00" W; (map 91). Local name reported in 1952 by USC&GS.

Jesse Creek: stream, flows SE 5 miles from Jesse Mountain to Hammond River, 15 miles N of Wiseman, Brooks Range; 67° 38' 00" N, 150° 04' 30" W; BGN 1932; (map 124). Named about 1930 by Marshall (1956, p. 56) for a local prospector and exploring companion, Jesse Allen, of whom he wrote, "Jesse, at 51 and despite the loss of his right arm just below the elbow in a mining accident seventeen years before, was one of the outstanding hunters and rifle shots of the region."

Jesse Creek: stream, see Cheyenne Creek.

Jesse Mountain: mountain, 4,990 ft., between Glacier and Hammond Rivers, 16 miles N of Wiseman, Brooks Range; 67° 38' N, 150° 11' W; BGN 1932; (map 124). Named about 1930 by Robert Marshall. See Jesse Creek.

Jessie Creek: stream, flows SW 4.5 miles to Nichawak River, 16 miles E of Katalla, Malaspina Coastal Plain; 60° 12' N, 144° 06' W; (map 64). Local name reported by G. C. Martin (1920, pl. 4), USGS.

Jessie Creek: stream, see Saint Michaels Creek.

Jesus Hill: hill, 820 ft., on SW part of Kiska Island, Aleutian Islands; 51° 54' 00" N, 177° 13' 30" E; (map 14). An arbitrary name beginning with "J" to correspond to the "J" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Jesus Maria, Punta de: point of land, see Incarnation, Point.

Jet Island: island, see Gagarin Island.

Jeter Lake: lake, see Spenard, Lake.

Jett Creek: stream, flows NE 3.3 miles to Grand Central River, NE of Nome, Seward Peninsula Highlands; 64° 54' N, 165° 06' W; (map 94). Variant: Jet Creek, Mascotte Creek. Local name reported in 1912 by R. H. Sargent, USGS. The name "Mascotte Creek" was shown on map dated 1901 of Cape Nome gold fields by David Fox, Jr.

Jette, Mount: mountain, 8,460 ft., on Alaska-Canada boundary, 8 miles NE of Mount Stamy and 40 miles NE of Yakutat, St. Elias Mountains; 59° 59' 40" N, 139° 03' 00" W; BGN 1954; (map 46). Variant: Boundary Peak 177. Named by the USC&GS in 1908 for Sir Louis Jette, 1836-1920, a member of the 1903 Canadian Boundary Tribunal and Lt. Gov. of the Province of Quebec from 1898 to 1908. He was elected to the House of Commons for Montreal in 1872. In 1878 he was appointed Judge of the Supreme Court, and in 1909 became Chief Justice of the Province of Quebec. He taught at Laval Univ. and was Dean of Montreal Univ.

Jetty Lake: lake, 0.7 miles long, on Baranof Island, 3.7 miles NW of Port Alexander, Alexander Archipelago; 56° 18' N, 134° 40' W; (map 5). Local name recorded in 1951 by USGS.

Jew Mountain: mountain, see Njoo Mountain.

Jewel Lake: lake, 0.3 miles long, 5.7 miles SW of Anchorage, between Campbell and Sand Lakes, Cook Inlet Lowland; 61° 08' 25" N, 149° 57' 40" W; (map 69). Local name reported in 1942 by AMS.

Jewel Mountain: mountain, 4,800 ft., 4.4 miles SE of Moraine Pass and 29 miles SE of Anchorage, Chugach Mountains; 61° 03' 00" N, 149° 05' 45" W; (map 69). Local name reported in 1942 by AMS.

Jewell Island: islands, 0.4 miles across, at W end of Beecher Pass, 15 miles S of Petersburg, Alexander Archipelago; 56° 36' 10" N, 133° 01' 30" W; (map 6). Local fishermen's name reported in 1947 by USC&GS.

Jewett Creek: stream, see Logan Creek.

Jewn River: stream, anabranch flows SE 8 miles to Tagayarak River, 3 miles SE of Tagayarak and 48 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 16' N, 162° 41' W; (map 58). Variant: June River, Ghun River. Eskimo name reported in 1949 by USG&GS.

Jewoak Creek: stream, flows N 4 miles to lookswarat Bay, 10 miles SW of Cape Etolin, on N coast of Nunivak Island, 60° 20' 10" N, 166° 24' 30" W; (map 57). Eskimo name reported in 1937 by USAAF.

Jigsaw Lake: lake, 1.5 miles long, on Kenai Peninsula, 1.1 miles W of Coyote Lake and 30 miles NE of Kenai, Cook Inlet Lowland; 60° 44' 30" N, 150° 30' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Jim Creek: stream, flows E 1.5 miles to Slate Creek, 50 miles SW of Eagle, Yukon-Tanana Highlands; 64° 34' N, 142° 42' W; (map 102). Variant: Dim Creek. Named by prospectors and shown on a 1905 manuscript map by Maj. W. A. Glassford, USA, as "Dim Creek." The name "Jim Creek" was published in 1906 by USGS.

Jim Creek: stream, flows SW 10 miles to Knik River, 7.5 miles SE of Palmer, Cook Inlet Lowland; 61° 31' 10" N, 148° 58' 00" W; (map 69). Local name reported in 1925 by K. K. Landes (in Moffit and others, 1927, pl. 4), USGS.

Jim Creek: stream, flows W 3.2 miles to Taylor Creek which flows to Kougarok River, 6 miles S of Midnight Mountain and 41 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 42' N, 164° 35' W; (map 110). Prospectors' name reported in 1900 by Brooks (1901, pl. 11), USGS.

Jim Creek: stream, see Jim River.

Jim Fish Valley: valley, 1.3 miles long, extends from Siddens Valley to Lake Cories, on E end of Attu Island, Aleutian Islands; 52° 53' 50" N. 173° 13' 00" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II, shown on an AMS map published in 1948.

Jim Karse Slough: stream, a channel of the Yukon River, flows W 4 miles, 23 miles NE of Stevens Village, Yukon Flats; 66° 11' 40" N. 148° 27' 30" W; (map 118). Named for "a local pioneer" who in 1916 had a cabin on this channel according to William Yanert's manuscript map (Stuck, 1917 map facing p. 122). Yanert referred to the place as "Carses."

Jim Lake: lake, 0.7 miles long, 6.6 miles SE of Palmer, Cook Inlet Lowland; 61° 33' 15" N, 148° 55' 30" W; (map 69). Local name reported in 1951 by USGS; derived from nearby Jim Creek.

Jim Lake: lake, 1.6 miles long, 2.2 miles NNW of village of Minchumina, Tanana Lowland; 63° 55' N, 152° 22' W; (map 88). Variant: Chilkogamina Lake. Local name reported in 1952 by USGS. The Tanana Indian name "Chilkogamina," published by Gordon (1917, p. 84), appears to be similar to that of present day "Chilchukabena Lake."

Jim Pup: ravine, trends NW 2.5 miles to Wakeup Creek, 2 miles SW of Big Lake and 26 miles W of Chandalar, Brooks Range; 67° 28' 30" N, 149° 28' 30" W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Jim River: stream, flows SW 60 miles to South Fork Koyukuk River, 16 miles SE of Bettles, Kanuti Flats; 66° 47' 30" N, 151° 11' 30" W; (map 117). Va T. Jim Creek. Named by prospectors and reported as "Jim Creek" in 1899 by G. H. Wonson, Master of the steamer Dorothy, on his manuscript map of the Koyukuk River.

Jimmy Brown Lake: lake, 1.1 miles long, on E bank of Nabesna River, 6 miles SW of Pickerel Lake, Alaska Range; 62° 29' N, 142° 35' W; (map 84). Local name reported in 1960 by USGS.

Jimmy Island: island, in Yukon River, 31 miles NE of Nulato, Koyukuk Lowland; 64° 48' N, 157° 04' W; (map 97). Local name reported in 1954 by USGS.

Jimmy Lake: lake, 0.5 miles long, between South Fork Kuskokwim and Styx Rivers, 84 miles NW of Tyonek, Alaska Range; 61° 43' 30" N, 153° 13' 45" W; (map 71). Local name reported in 1958 by USGS.

Jimmy Slough: stream, channel, flows NW 6 miles in Yukon River, 27 miles NE of Nulato, Koyukuk; 64° 48' N, 157° 12' W; (map 97). Riverboat pilots' name shown on a 1940 "Navigation Chart of Tanana-Yukon Rivers" published by U.S. Dept. of Interior.

Jims Cove: cove, 0.2 miles across on W coast of Admiralty Island, 27.5 miles N of Angoon, Alexander Archipelago; 57° 53' 40" N, 134° 44' 00" W; (map 9) Local name reported in 1951 by USGS.

Jims Creek: stream, heads in Jims Lake, flows W 2.5 miles to Salt Lake, 11 miles NE of Angoon, on central Admiralty Island, Alexander Archipelago; 57° 35' 30" N, 134° 19' 45" W; (map 9). Local name reported in 1951 by USGS.

Jims Lake: lake, 1.8 miles long, on central Admiralty Island, empties into Jims Creek, 12.5 miles NE of Angoon, Alexander Archipelago; 57° 34' N, 134° 16' W; (map 9). Local name reported in 1951 by USGS.

Jimtown: locality, site of prospectors' camp, at junction of Jim and South Fork Koyukuk Rivers, 16 miles SE of Bettles, Kanuti Flats; 66° 48' N, 151° 11' W; (map 117). Name reported in 1899 by G. H. Wonson, Master of the steamer Dorothy, on his manuscript map of the Koyukuk River. One of several temporary camps established by prospectors caught on the river during the winter of 1898-99. Named for the Jim River.

Jingeeruk Point: point of land, 7 miles SE of Cape Etoin, on NE coast of Nunivak Island; 60° 20' 45" N, 166° 04' 00" W; (map 57). Variant: Jingirak Point. Eskimo name obtained in 1949 by USC&GS.

Jingirak Point: point of land, see Jingeeruk Point.

Jinhi Bay: bay, 2 miles long, on NE coast of Tuxeken Island, 30 miles N of Craig, Alexander Archipelago; 55° 53' 30" N, 133° 15' 30" W; (map 4). Indian name published in 1964 by USC&GS.

Jiskooksnuk Hill: hill, 503 ft, 12 miles SW of Ahding Ingrid Mountain, 34 miles NW of Cape Mendenhall, Nunivak Island; 60° 06' N, 166° 56' W; (map 57). Variant: Jiskuksnak Hill. Eskimo name obtained in 1949 by USC&GS.

Jiskuksnak Hill: hill, see Jiskooksnuk Hill.

Joan Mountain: mountain, see John Mountain.

Joan, Mount: mountain, in general vicinity of Womens Bay, Kodiak Island; (map 34). This feature is reported to be named for "Mrs. Joan Bell, who, with her husband, owned and

operated a dairy farm on Womens Bay. Mr. and Mrs. Bell now live in the State of Washington.” Although this name is reported to be used locally, it is not shown on recent sources; the exact location of this mountain has not been established. See Bell Flats.

Joanna Creek: stream, flows NE 7 miles from Seven Dikes Mountain to Pass Creek, 55 miles N of Coleen Mountain, Brooks Range, 67° 53' N, 142° 52' W; (map 121). Local name reported in 1956 by T. E. Taylor, USGS.

Jockeach Creek: stream, see Big Boulder Creek.

Joe Bush Creek: stream, flows S 1.1 miles to Pioneer Creek 0.5 miles W of that stream's head, 21 miles S of Rampart, Yukon-Tanana Highlands; 65° 12' 15" N, 150° 07' 10" W; (map 106). Prospectors' name reported in 1904 by Prindle and Hess (1906, pl. 3), USGS.

Joe Creek: stream, flows NE 10 miles joining Yacko Creek to form Sanona Creek, 22 miles S of junction of Oshetna and Susitna Rivers, Talkeetna Mountains; 62° 19' 30" N, 147° 22' 00" W; (map 82). Local name reported in 1951 by USGS.

Joe Creek: stream, flows NW 5 miles to Budd Creek which flows to American River, 9 miles SW of Kougarok Mountain and 35 miles NE of Teller, Seward Peninsula Highlands; 65° 37' N, 165° 30' W; (map 111). Prospectors' name reported on a map of Cape Nome goldfields by David Fox, Jr., dated 1901.

Joe Creek: stream, flows SE 3 miles to Quartz Creek which flows to Kougarok River, 48 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 22' N, 164° 44' W; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Joe Creek: stream, heads in British Mountains, flows SE 40 miles across Alaska-Canada boundary to Firth River in Yukon, Canada. Brooks Range; 69° 03' N, 140° 27' W; (map 137). Local name reported in 1911 by IBC survey crew.

Joe Devlin Island: island, 2.7 miles long, in Yukon River, 9 miles NE of Beaver, Yukon Flats; 66° 25' N, 147° 03' W; (map 118). Local name obtained in 1956 by USGS.

Joe Ferrera's River: stream, see Kisimilok Creek.

Joe Guay Island: island, 4 miles long, formed by the anabranch Joe Guay Slough and the Yukon River, 1.5 miles W of Beaver, Yukon Flats; 66° 21' N, 147° 28' W; (map 118). Locally named for Joseph Guay, a “sourdough” who had a cabin on the lower end of the island, according to a 1916 manuscript map by William Yanert (Stuck, 1917, map facing p. 122). This end of the island is now separated by “New Cutoff,” a channel in the Yukon River.

Joe Guay Slough: stream, an anabranch of the Yukon River, flows SW 6.5 miles to New Cutoff, 4 miles SW of Beaver, Yukon Flats; 66° 19' 45" N, 147° 30' 00" W; (map 118). Name derived from Joe Guay Island; reported in 1956 by T. E. Taylor, USGS.

Joe Gulch: ravine, trends N 0.6 miles to Dexter Creek, 6 miles NE of Nome, Seward Peninsula Highlands; 64° 35' N, 165° 19' W; (map 94). Prospectors' name shown on map dated September 1901 of Cape Nome gold fields by David Fox, Jr.

Joe Island: island, 0.5 miles long, between Port Estrella and Ulloa Channel, off W coast of Prince of Wales Island, Alexander Archipelago; 55° 21' N, 133° 17' W; (map 4). Name published in 1914 by USC&GS.

Joe Island: island, 0.5 miles long, in Clover Passage, between Grant and Revillagigedo Islands Alexander Archipelago; 55° 32' N, 131° 43' W; (map 3). Named in 1885 by Lt. Comdr. Richardson Clover, USN.

Joe Lake: lake, 1.2 miles long, on W bank of Kalutna River, 16.5 miles NW of Northway Junction, Alaska Range; 63° 08' N, 142° 16' W; (map 85). Local name reported in 1964 by USGS.

Joe Mace Island: island, 0.5 miles long, SW of village of Point Baker, on NW coast of Prince of Wales, Alexander Archipelago; 56° 21' N, 133° 38' W; (map 6). Local name recorded in 1949 by USGS.

Joe Nort Lake: lake, 1.5 miles long, 4.5 miles N of Long Lake and 18 miles NW of Nondalton Alaska Range; 60° 14' N, 155° 02' W; (map 61). Local name reported in 1954 by USGS.

Joe Reeves Slough: stream, on S coast of Alaska, flows SW 2 miles to Gulf of Alaska, 6 miles SE of Cordova, Malaspina Coastal Plain; 60° 28' N, 145° 40' W; (map 64). Local name published in 1951 by USGS.

Joe Ward Camp: village, pop. 5, on right bank of Porcupine River, 15 miles N of Chalkyitsik, Yukon Flats; 66° 52' N, 143° 42' W; (map 120). Local name published in 1951 by USGS.

Joe Ward Slough: stream, 6 miles long, anabranch of Porcupine River, 16 miles N of Chalkyitsik, Yukon Flats; 66° 53' N, 143° 39' W; (map 120). Local name published in 1951 by USGS.

Joe Wise Creek: stream, flows SW 2 miles to Spruce Creek, E of Glenn Gulch and 9 miles SE of Marshall, Nulato Hills; 61° 47' 00" N, 161° 53' 30" W; (map 73). Prospectors' name reported in 1916 by Harrington (1918, map), USGS.

Johan Bogoslow Island: island, see Bogoslof Island.

John Barleycorn Lakes: lakes, at head of Hermit Gulch, 17 miles NW of Beaver, Kokrines-Hodzana Highlands; 66° 25' 30" N, 148° 00' 00" W; (map 118). Local name obtained in 1956 by USGS.

John Bay: bay, 0.5 miles across, on NW shore of Port Conclusion, Baranof Island, 2.2 miles NW of Port Alexander, Alexander Archipelago; 56° 16' 45" N, 134° 40' 30" W; (map 5). Local name published in 1927 by USC&GS.

John Creek: stream, flows NE 10 miles to Kosina Creek, 24 miles SW of junction of Oshetna and Susitna Rivers, Talkeetna Mountains; 62° 32' 25" N, 148° 05' 20" W; (map 82). Local name recorded in 1952 by USGS.

John Creek: stream, flows S 1.7 miles to Windy Creek which flows to Kougarok River, 49 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 27' N, 164° 49' W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

John Creek: stream, flows S 2 miles through James Lake to Dolomi Bay, 0.8 miles N of Port Johnson, on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 08' N, 132° 03' W; (map 4). Local name reported in 1901 by USGS.

John Creek: stream, flows SE 1 mile to Allene Creek, in Agiapuk River basin, 13 miles NE of Teller, Seward Peninsula Highlands; 65° 22' N, 166° 01' W; (map 111). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

John Creek: stream, flows SE 1 mile to Twin Creek, 48 miles W of Talkeetna, Alaska Range; 62° 20' 25" N, 151° 33' 20" W; (map 81). Local name reported in 1911 by S. R. Capps (1913, fig. 7), USGS.

John Creek: stream, see John R Creek.

John Fitzgerald Kennedy City: village, pop. 35, on NW shore of Knik Arm Cook Inlet, 13 miles N of Anchorage, Cook Inlet Lowland; 61° 23' 45" N, 149° 49' 30" W; (map 69). Variant: Bay City. Named on December 20, 1963, by members of the Bay City council, for John Fitzgerald Kennedy, 1917-63, 35th President of the United States.

John Glacier: glacier, in Glacier Bay National Monument, 0.5 miles long, trends E to its 1961 terminus, 1 mile NW of 1961 terminus of Johns Hopkins Glacier, 80 miles NW of Hoonah, St. Elias Mountains; 58° 49' 30" N, 137° 09' 50" W; BGN 1937; (map 10). Named in 1936 by Field and Cooper (1937, p. 62) for "Stickeen John," one of the Tlingit Indians who accompanied John Muir on his visit in 1879 (Muir, 1915, p. 115).

John Hansen Creek: stream, flows S 40 miles through John Hansen Lake, to Kantishna River, 40 miles SE of Bitzstini Mountains, Tanana Lowland; 64° 02' N, 151° 07' W; (map 99). Local name reported in 1952 by USGS.

John Hansen Lake: lake, on John Hansen Creek, 0.5 miles W of Kantishna River and 40 miles SE of Bitzstini Mountains, Tanana Lowland; 64° 02' N, 151° 10' W; (map 99). Local name reported in 1952 by USGS.

John Herberts Village: locality, on right bank of Porcupine River, 28 miles NE of Chalkyitsik, Yukon Flats; 66° 59' N, 143° 09' W; (map 120). Local name obtained in 1956 by T. E. Taylor and R. C. Foley, USGS. Recent USGS maps indicate a site with three buildings.

John Island: island, 1 mile long, W of N part of Nagai Island, in Shumagin Islands, Aleutian Range; 54° 59' 25" N, 160° 11' 00" W; (map 26). Named in 1880 by W. H. Dall, USC&GS; published by USC&GS on an 1888 coast chart.

John Island: island, 400 ft. long, at mouth of Three Saints Bay, on SE coast of Kodiak Island; 57° 06' 25" N, 153° 27' 30" W; BGN 1932; (map 34). Named in 1931 by USC&GS for the triangulation station John which was located on the island.

John Jay, Mount: mountain, 7,499 ft., on Alaska-Canada boundary, 22 miles NW of Hyder, Coast Mountains; 56° 08' 30" N, 133° 25' 25" W; BGN 1924; (map 7). Named in 1924 by USGS for John Jay, 1745-1820, American statesman, diplomat, and jurist.

John Kwillik Slough: stream, flows SW 3.1 miles S of Black River, 26 miles NE of Fort Yukon, Yukon Flats; 66° 38' N, 144° 17' W; (map 119). Local name obtained in 1956 by USGS.

John Lake: lake, 0.5 miles long, W of Farewell Lake, 3 miles W of junction of South Fork Kuskokwim and Jones River, 67 miles SE of McGrath, Kuskokwim Lowland; 62° 33' 40" N, 153° 40' 10" W; (map 80). Local name obtained in 1958 by USGS.

John Lake: lake, 1.3 miles long, 8 miles WSW of Old Man Lake, 45 miles W of Glennallen, Copper River Basin; 62° 06' 30" N, 146° 55' 00" W; (map 83). Variant: Kelley Lake. Local name reported in 1949 by USGS.

John Mountain: mountain, 3,238 ft., on Revillagigedo Island, 4.3 miles NE of Ketchikan, Alexander Archipelago; 55° 23' 55" N, 131° 34' 25" W; (map 3). Variant: Joan Mountain. Local name reported in 1954 by USGS.

John R Creek: stream, flows SW 4 miles to South Fork Koyukuk River, E of Jack White Range, 28 miles NE of Bettles, Brooks Range; 66° 59' 10" N, 150° 40' 00" W; (map 117). Variant: John Creek. Name reported in 1901 as "John Creek" by W J. Peters (in Schrader, 1904, p. 2), USGS.

John Reek Creek: stream, flows E 11 miles to Nixon Fork, 7 miles N of The Forks and 30 miles W of Medfra, Kuskokwim Lowland; 63° 07' N, 155° 40' W; (map 89). Local name published in 1955 by USGS.

John River: stream, formed by Contact and Inukpasugruk Creeks, flows S 125 miles from Anaktuvuk Pass to Koyukuk River, 1 mile NE of Bettles, Kanuti Flats; 66° 55' N, 151° 39' W; (map 117). Variant: Alchichna, Ascheeshna, Fickett River, Johns River, Ochesna, Old Johns River, Oschesna, Totsenbet River. Locally named about 1898 for John Bremner who joined Lt. H. T. Allen, USA, on the Copper River in 1885 and went as far as the Koyukuk with him. Bremner prospected the John River area in 1886 and 1887, and was killed by Koyukan Indians near Dolmikaket while descending the Koyukuk River that year. The stream came to be known as "Old Johns River" or "Johns River" by prospectors. These names replaced the name "Fickett River," given in 1885 by Lt. Allen (1887, p. 101), who also wrote the Koyukan Indian name as "Ascheeshna." In 1899, T. G. Gerdine, USGS, recorded the Indian name as "Totsenbetna."

John River: stream, heads in small lake, flows N 5 miles to lagoon, SE of Griffin Point, 18 miles SE of Barter Island, Arctic Plain; 70° 03' N, 142° 51' W; (map 152). Local name reported in 1952 by USC&GS.

John Roberts Lake: lake, 0.5 miles long, 1 mile W of Mud Canyon and 23 miles SE of Beaver, Yukon-Tanana Highlands; 66° 07' 40" N, 146° 50' 00" W; (map 119). Local name obtained in 1956 by USGS.

John Rock: rock, 0.1 miles across, in the Necker Islands, W of Baranof Island, 5.5 miles SW of Goddard Alexander Archipelago; 56° 46' 20" N, 135° 27' 45" W; BGN 1929; (map 5). Named in 1925 by USC&GS. See Rogers Island.

John Rock: rock, 7 miles SE of Dolgoi Island, SW end of Aleutian Range; 54° 55' 20" N, 161° 37' 50" W; (map 25). Name published by USC&GS in 1882 on Chart 806.

John Ross Riffle: rapids, in course of Black River, 2 miles SE of Englishshoe Bar and 28 miles NE of Fort Yukon, Yukon Flats; 66° 41' 20" N, 144° 13' 00" W; (map 119). Local name obtained in 1956 by USGS.

John Shed Creek: stream, see John Shedd Creek.

John Shedd Creek: stream, flows NE 1.5 miles to Chicago Boy Creek, 50 miles SW of Eagle, Yukon-Tanana Highlands; 64° 21' N, 142° 34' W; (map 102). Variant: John Shed Creek. Prospectors' name shown on an 1898 manuscript map by G. A. Woodruff, Fort Cudahy, Canada.

John Steven Slough: lake, oxbow 2 miles long, N of Black River, 24 miles NE of Fort Yukon, Yukon Flats; 66° 40' 30" N, 144° 26' 30" W, (map 119). Local name obtained in 1956 by USGS.

John's Village: village, see Mentasta Lake.

Johnnie's Village: village, see Mentasta Lake.

Johnny Slough: stream, flows NE 19 miles to Barge Slough 2 miles SW of its junction with Holitna River, 7.8 miles SE of Sleetmute, Stony River Lowland; 61° 35' 45" N, 157° 05' 30" W; BGN 1948; (map 72). Local name reported in 1945 by USGS.

Johnnys Indians: village, see Eagle Village.

Johnnys Place: locality, see Johnnys Village.

Johnnys Village: locality, on right bank of Yukon River, 10 miles NW of Pitkas Point and 50 miles NW of Marshall, Yukon-Kuskokwim Delta; 62° 05' 20" N, 163° 33' 00" W; (map 77). Variant: Johnnys Place, Liberty Landing, Takakchak. Name of an Eskimo settlement reported in 1950 by USGS.

Johns Creek: stream, flows E 3 miles to Solomon River, 13 miles NE of Solomon, Seward Peninsula Highlands; 64° 44' N, 164° 19' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Johns Creek: stream, flows N 1.3 miles to West Fork Kuyukutuk River, 11 miles E of Marshall, Nulato Hills; 61° 52' 15" N, 161° 44' 55" W; (map 73). Prospectors' name reported by Harrington (1918, map), USGS, in 1916.

Johns Creek: stream, flows NE 10 miles to Sulukna River, 46 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 43' N, 154° 11' W; (map 89). Local name reported in 1954 by USGS.

Johns Creek: stream, on Kenai Peninsula, flows W 3.5 miles to Quartz Creek, 0.5 miles NW of Jerome Lake and 23 miles SSW of Sunrise, Chugach Mountains; 60° 33' 15" N, 149° 35' 30" W; BGN 1910; (map 63). Local name reported in 1908 by Grant and Higgins (1910, pl. 4), USGS.

Johns Hopkins Fiord: estuary, see Johns Hopkins Inlet.

Johns Hopkins Glacier: glacier, in Glacier Bay National Monument, heads on E slope of Lituya Mountain and trends W 12 miles to head of Johns Hopkins Inlet, 1 mile SW of the terminus of Clark Glacier and 79 miles NW of Hoonah, St. Elias Mountains; 58° 49' 45" N, 137° 07' 40" W; (map 10). Named in 1893 by H. F. Reid (1896, p. 423) for the Johns Hopkins University in Baltimore, Md., chartered in 1869 and opened in 1876.

Johns Hopkins Inlet: estuary, heads at Johns Hopkins Glacier, trends NE 11 miles to head of Glacier Bay, 3 miles W of Russell Island, in Glacier Bay National Monument, 77 miles NW of Hoonah, St. Elias Mountains; 58° 54' 30" N, 136° 55' 30" W; BGN 1954; (map 10). Variant: Johns Hopkins Fiord, Reid Inlet. Named by Cooper (1931, p. 61) for the Johns Hopkins Glacier which once occupied the Inlet. He also called the inlet Johns Hopkins Fiord. In 1893 Reid (1896, pl. 86), USGS, applied the name Grand Pacific Glacier at Russell Island and he called the inlet at that end of Glacier Bay, "Reid Inlet." As the glacier retreated two inlets were formed, one was called "Tarr Inlet" and the other, at the terminus of the Johns Hopkins Glacier, retained the name of "Reid Inlet." With the further retreat of the Johns Hopkins Glacier, and the lengthening of the inlet, the historical relationship to Reid Glacier became obscure and in 1954, BGN changed the name to Johns Hopkins Inlet.

Johns River: stream, see John River.

Johns Village: village, see Eagle Village.

Johns' House: village, see Mentasta Lake.

Johnson Bay: bay, 0.7 miles across, on N coast of Sanak Island, Aleutian Range; 54° 27' 15" N, 162° 37' 40" W; (map 25). Variant: Johnsons Bay. Local name reported by Ferdinand Westdahl, USC&GS, commander of the Coast Survey steamer McArthur, who made surveys in this area in 1901.

Johnson Bay: estuary, on W coast of Knight Island, extends NW 2 miles to E side of Knight Island Passage, 9 miles NE of Chenega, Chugach Mountains; 60° 21' N, 147° 52' W; (map 63). Named "for a local miner"; reported in 1908 by U. S. Grant and D. F. Higgins (in Brooks and others, 1909, pl. 4), USGS.

Johnson Cove: cove, 0.5 miles across, on E coast of Evans Island, on NW side of Latouche Passage, 16 miles SE of Chenega, Chugach Mountains; 60° 03' 43" N, 147° 58' 35" W; (map 63). Local name reported in 1951 by USGS.

Johnson Cove: cove, 0.6 miles across, in Usof Bay, on S coast of Unalaska Island, Aleutian Islands; 53° 31' 00" N, 166° 46' 30" W, (map 23). Name was published in the 1944 Aleutian Coast Pilot (p. 53).

Johnson Cove: cove, 0.6 miles long, on N coast of Willoughby Island, in Glacier Bay, in Glacier Bay National Monument, 2.7 miles SE of Francis Island and 42 miles NW of Hoonah, St. Elias Mountains; 58° 36' 25" N, 136° 06' 30" W; BGN 1948; (map 10). Named in 1948 by USGS for John Johnson, a fox farmer on the island.

Johnson Cove: cove, extends SW 0.4 miles to Clarence Strait, on W coast of Etolin Island, Alexander Archipelago; 56° 05' 55" N, 132° 41' 20" W; BGN 1917; (map 6). Local name used by fishermen and published in 1917 by USC&GS.

Johnson Cove: estuary, extends S 2.8 miles off Moira Sound, on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 00' 30" N, 132° 06' 00" W; (map 4). Named by local fishermen and reported in 1904 by H. C. Fassett, USBF.

Johnson Creek Summit: pass, 1,450 ft., between Johnson Lake and Bench Lake, at head of Johnson Creek, 22 miles SE of Sunrise, Chugach Mountains; 60° 36' 45" N, 149° 14' 45" W; (map 63). Local name reported in 1951 by USGS.

Johnson Creek: stream, 5.5 miles long, flows N to Taku River, 1.5 miles S of Twin Glacier Lake and 25 miles NE of Juneau, Coast Mountains; 58° 30' 20" N, 133° 53' 00" W; BGN 1932; (map 12). Local name reported in 1932 by B. D. Stewart, USGS, to be "derived from the surname of the first known settler in the district who resided near the mouth of the stream."

Johnson Creek: stream, flows N 12 miles to Hartman River 2 miles S of its junction with South Fork Kuskokwim River, 94 miles NW of Tyonek, Alaska Range; 61° 56' N, 153° 20' W; (map 71). Local name reported in 1958 by USGS.

Johnson Creek: stream, flows N 2.2 miles to Casadepaga River, 14 miles N of Solomon, Seward Peninsula Highlands; 64° 46' N, 164° 30' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Johnson Creek: stream, flows NW 2 miles to Tibbs Creek 7.3 miles S of that stream's junction with Goodpaster River and 49 miles ENE of Big Delta, Yukon-Tanana Highlands; 64° 21' N, 144° 16' W; (map 101). Local name published in 1956 by USGS.

Johnson Creek: stream, flows S 1 mile to Shoup Glacier, 1 mile E of Midway Camp and 14 miles NW of Valdez, Chugach Mountains; 61° 11' 45" N, 146° 38' 20" W; (map 68). Prospectors' name reported in 1911 by J. W. Bagley and C. E. Giffin, USGS. The Cameron-Johnson Camp was located on the stream's bank.

Johnson Creek: stream, flows S 2 miles to Bishop Creek at Albatross Anchorage, 16 miles N of Unga Island, near SW end of Alaska Peninsula, Aleutian Range; 55° 36' 30" N, 160° 37' 00" W; (map 28). Named in 1929 by USGS.

Johnson Creek: stream, flows SE 0.6 miles to Solomon River, 0.5 miles SW of Shovel Creek and 5 miles N of Solomon, Seward Peninsula Highlands; 64° 37' 15" N, 164° 23' 30" W; (map 95). Prospectors' name reported on a 1902 prospectors' manuscript map.

Johnson Creek: stream, flows SE 1.3 miles to join Victoria Creek to form Smallwood Creek, 13 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 57' 27" N, 147° 21' 00" W; (map 100). Local name published in 1908 by USGS.

Johnson Creek: stream, flows SE 4 miles to Berners Bay, at mouth of Lace River, 41 miles NW of Juneau, Coast Mountains; 58° 49' 30" N, 134° 59' 40" W; (map 11). Prospector's name published by A. C. Spencer (in Emmons and Hayes, 1904, p. 38), USGS.

Johnson Creek: stream, flows SW 1.3 miles to Snowball Creek which flows to Ophir Creek, 8 miles NE of Council and 41 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 01' N, 163° 36' W; (map 110). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Johnson Creek: stream, flows SW 13 miles to Kwethluk River, 50 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 20' N, 160° 40' W; (map 59). Variant: Crooked Creek. Local name reported in 1955 by J. M. Hoare, USGS.

Johnson Creek: stream, heads at glacier 3 miles NE of Distin Peak, flows E 45 miles to Yentna River, 47 miles SW of Talkeetna, Alaska Range; 62° 05' 10" N, 151° 29' 45" W; (map 81). Local name reported in 1945 by USGS.

Johnson Creek: stream, heads NE of Johnson Lake, flows SW 8 miles to stream above Johnson, 23 miles SE of Sunrise, Chugach Mountains 60° 32' 29" N, 149° 19' 15" W; (map 63). Local prospectors' name; reported in 1904 by Moffit (1906, pl. 2), USGS.

Johnson Creek: stream, on E side of Mount Ripinski, flows E 2 miles to Tanani Bay, on Chilkoot Inlet, 0.5 miles S of Tanani and 14 miles S of Skagway, Coast Mountains; 59° 26' 35" N, 135° 26' 20" W; (map 45). Local name published in 1954 by USGS.

Johnson Creek: stream, on N end of Douglas Island, flowing 1 mile NW to Gastineau Channel, 2.2 miles E of Entrance Point and 5.6 miles NW of Juneau, Coast Mountains; 58° 20' 25" N, 134° 32' 45" W; (map 11). Local name published by USGS in 1962.

Johnson Creek: stream, on N end of Kenai Peninsula, flows NW 2.5 miles to Turnagain Arm 5 miles NW of Hope, Chugach Mountains; 60° 57' 45" N, 149° 45' 40" W; (map 63). Local name reported in 1952 by USGS.

Johnson Creek: stream, see Boston Creek.

Johnson Creek: stream, see Chathenda Creek.

Johnson Creek: stream, see Johnston Creek.

Johnson Creek: watercourse, see Talbiksok River.

Johnson Glacier: glacier, 3 miles across, trends E 1.7 miles to its terminus, 8.6 miles NW of Valdez, Chugach Mountains; 61° 14' 20" N, 146° 19' 50" W; (map 68). Prospectors' name reported in 1911 by J. W. Bagley and C. E. Giffin, USGS.

Johnson Glacier: glacier, heads on M'Ladies and Sight Peaks, and trends NE 20 miles to its terminus at head of Johnson River, 36 miles NE of Paxson, Alaska Range; 63° 28' N, 144° 51' W; (map 86). Name reported in 1952 by USGS.

Johnson Glacier: glacier, trends E 5 miles from Mount Nick to the glacier's 1958 terminus at head of Johnson River, 67 miles SW of Kenai Aleutian Range; 60° 07' N, 152° 58' W; (map 62). Local name reported in 1958 by USGS; derived from the Johnson River.

Johnson Glacier: glacier, trends W 6 miles to its terminus 2 miles S of McPherson Glacier, 22 miles N of Katalla, Chugach Mountains; 60° 31' N, 144° 32' W; (map 64). Name published in 1959 by USGS.

Johnson Gorge: canyon, extends 5 miles along Kandik River, 12 miles ENE of Kathul Mountain and 50 miles WNW of Eagle, Porcupine Plateau; 65° 27' 00" N, 141° 55' 15" W; BGN 1965; (map 103). Named in 1965 by USGS for the brothers, "Sandy" and Alfred Johnson, local trappers and prospectors, who in 1912 helped supply IBC survey.

Johnson Hill Creek: stream, flows N 8 miles around Johnson Hill to Kvichak Bay, on Alaska Peninsula, 11 miles SW of Naknek, Bristol Bay Lowland; 58° 37' 20" N, 157° 15' 00" W; (map 41). Variant: Johnston Hill Creek. Local name published in 1963 by USGS; shown on a 1965 USGS map as "Johnston Hill Creek."

Johnson Hill: hill, 354 ft., on W coast of Alaska Peninsula, 12 miles SW of Naknek, Bristol Bay Lowland; 58° 35' 40" N, 157° 14' 00" W; (map 41). Variant: Johnston Hill. Local name published in 1963 by USGS given by USC&GS in 1916 Coast Pilot (p 236) as "Johnston Hill."

Johnson Island: island, 2.5 miles long, in Yukon River 4.4 miles N of Russian Mission, Yukon-Kuskokwim Delta; 61° 52' N, 161° 17' W; (map 73). Riverboat pilots' name shown on a 1916 fieldsheet by R. H. Sargent, USGS.

Johnson Island: island, see Berry Island.

Johnson Lake: lake, 0.7 miles long, E of Crooked Creek, 5 miles NW of Tustumena Lake and 17 miles S of Kenai, Cook Inlet Lowland; 60° 17' 30" N, 151° 15' 45" W; BGN 1966; (map 62). Local name reported in 1962 by Alaska Department of Natural Resources.

Johnson Lake: lake, 0.8 miles long, on Kenai Peninsula, at head of Johnson Creek, 22 miles SE of Sunrise, Chugach Mountains; 60° 36' N, 149° 15' W; (map 63). Local name reported in 1952 by USGS.

Johnson Lake: lake, 1,900 ft. long, in Matanuska Valley, 4.5 miles SW of Palmer, Cook Inlet Lowland; 61° 34' N, 149° 14' W; (map 69). Local name reported in 1942 by AMS.

Johnson Lake: lake, 1.3 miles long, on SE coast of Prince of Wales Island, at head of Johnson Cove, Alexander Archipelago; 54° 57' 15" N, 132° 05' 30" W; BGN 1963; (map 1). Named in 1961 by USFS "for nearby Johnson Cove."

Johnson Mill: locality, 0.6 miles E of Johnson Glacier and 7.8 miles NW of Valdez, Chugach Mountains; 61° 13' 30" N, 146° 20' 00" W; (map 68) Local name published in the 1950's by USGS.

Johnson River: stream, heads at Johnson Glacier terminus, flows SE 15 miles to Cook Inlet, 60 miles SW of Kenai, Aleutian Range; 60° 01' 30" N, 152° 36' 15" W; (map 62). Local name reported in 1921 by Moffit (1927, pl. 1), USGS.

Johnson River: stream, heads at terminus of Johnson Glacier, flows NE 25 miles to Tanana River, 41 miles SE of Delta Junction, Alaska Range; 63° 43' 20" N, 144° 37' 05" W; (map 86). Named by Lt. Allen (1887, p. 82), USA, for Peder Johnson, Swedish miner and member of his party. Allen spells the given name "Peter" in his text, but in a letter to BGN in 1896 it was spelled "Peder."

Johnson River: stream, heads in a lake 2 miles W of Kukaklik Lake, at 61° 39' N, 160° 39' W, flows SW 215 miles to Kuskokwim River, 15 miles SW of Bethel, Yukon-Kuskokwim Delta; BGN 1965; 60° 38' 30" N, 162° 05' 30" W; (map 58). Variant: Anchitaktuk River, Kvichavak River, Tundra River. Local name reported in 1949 by USC&GS; possibly named for Eric Johnson, prospector. The Eskimos consider this part of the Kvichavak River.

Johnson River: stream, see Yentna River.

Johnson Slough: stream, anabranch of Tanana River, flows W 9 miles, 1 mile E of junction of Johnson and Tanana Rivers, and 42 miles SE of Delta Junction, Tanana Lowland; 63° 42' 40" N, 144° 35' 00" W, (map 86). Name reported in 1952 by USGS.

Johnson Slough: stream, anabranch of Yukon River, flows NW 2.4 miles around Serpentine Island, 35 miles NE of Nulato, Koyukuk Lowland; 64° 47' N, 157° 00' W; (map 97). Local name reported in 1954 by USGS.

Johnson Slough: stream, flows SE 9 miles to Redoubt Bay, Cook Inlet, 26 miles WNW of Kenai; 60° 43' N, 151° 55' W; (map 62). Local name reported in 1958 by USGS.

Johnson Slough: stream, heads at Big Glacier Slough, flows SW 0.5 miles to Gulf of Alaska, 8 miles SE of Cordova, Malaspina Coastal Plain; 60° 27' N, 145° 36' W; (map 64). Local name published in 1951 by USGS.

Johnson, Mount: mountain, see Bayard, Mount.

Johnson, Port: estuary, extends W 4.5 miles off Clarence Strait, on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 08' N, 132° 00' W; (map 4). Local name recorded in 1948 by USGS.

Johnson: locality, on Kenai Peninsula, near mouth of Johnson Creek, mile 33.8 on The Alaska Railroad, 26 miles SE of Sunrise, Chugach Mountains; 60° 32' 15" N, 149° 19' 30" W;

(map 63). Variant: Sunrise Station. Local name for a flag stop published in The Alaska Railroad guide of 1918.

Johnsons Creek: stream, flows W to Nome River, about 6 miles E of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Johnsons Point: point of land, see Johnstone Point.

Johnsons Roadhouse: locality, on right bank of Tanana River, 16 miles SE of Fairbanks, Tanana Lowland; 64° 43' N, 147° 20' W; (map 100). Name of roadhouse on the Fairbanks-Valdez Trail; probably named for its original owner. The name was published in 1912 by USGS.

Johnsons Slough: water passage, see Middle Slough.

Johnston Channel: channel, 6 miles long, along E side of Herendeen Bay, Bristol Bay Lowland; 55° 51' 00" N, 160° 47' 15" W, (map 28). Named in 1899 by Lt. Comdr. Z. L. Tanner, USN, for Ens. Marbury Johnston, who surveyed this channel.

Johnston Creek: stream, flows SE 7 miles to join Coco Creek to form Kaviruk River, 38 miles NE of Teller, Seward Peninsula Highlands; 65° 22' N, 165° 06' W; (map 111). Variant: Johnson Creek. Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Johnston Creek: stream, flows SW 5 miles to Feather River, 28 miles NW of Nome, Seward Peninsula Highlands; 64° 50' N, 165° 59' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Johnston Creek: stream, heads in glacier 2.6 miles SW of Mount McPherson, flows SW 2.5 miles to Gulf of Alaska, 1 mile SE of Munday Creek and 83 miles NW of Yakutat, St. Elias Mountains; 60° 00' 30" N, 141° 54' 30" W; (map 65). Variant: Johnson Creek. Named for Richard C. Johnston, who discovered petroleum in the Yakataga region about 1897. Name reported by G. C. Martin, USGS, in 1903.

Johnston Creek: stream, see Clara Creek.

Johnston Hill Creek: stream, see Johnson Hill Creek.

Johnston Hill: hill, see Johnson Hill.

Johnston Point: point of land, see Johnstone Point.

Johnstone Bay: bay, 7 miles across, on SE coast of Kenai Peninsula between Cape Junken and Pinnacle Rock, 30 miles SE of Seward, Chugach Mountains; 59° 55' N, 148° 45' W; BGN 1910; (map 49). Named in 1909 by U. S. Grant, USGS "for Vancouver's Lieut."

Johnstone Passage: water passage, 2.4 miles long, trends N from Yakutat Roads to Ahduck Bay, along NE coast of Khantaak Island, 2 miles N of Yakutat, Malaspina Coastal Plain; 59° 36' 00" N, 139° 43' 30" W; (map 46). Named in 1879 by W. H. Dall, USC&GS, for Master James Johnstone, RN, one of the companions of Capt. George Vancouver. The name was published in the 1883 Alaska Coast Pilot (p. 209).

Johnstone Point: point of land, on N coast of Hinchinbrook Island, 30 miles SW of Cordova, Chugach Mountains; 60° 28' N, 146° 37' W; (map 64). Variant: Cabo Frio, Johnsons Point, Johnston Point. Named by Davidson (1869, p. 153), USC&GS, while doing survey work along the south Alaska coast. Named for James Johnstone, Master of the HMS Chatham, one of the vessels in Capt. George Vancouver's expeditions to the region at the end of the 18th century. The point of land was earlier called "Cabo Frio," meaning "cold cape" in Spanish, by Jose Canizares on July 22, 1779 (Wagner, 1937, p. 456).

Joint Lake: lake, 0.3 miles long, 5 miles NW of White Lake and 12 miles S of Christian, Yukon Flats; 67° 11' N, 145° 14' W; (map 122). Local name reported in 1956 by T. E. Taylor, USGS.

Jokinaugh Island: island, 2 miles long, in Yukon River, E of junction of Alfred Creek, 13 miles NE of Stevens Village, Yukon Flats; 66° 06' N, 148° 39' W; (map 118). Local name obtained in 1956 by USGS.

Jokoei Lake: lake, 0.5 miles across, 2 miles S of Chalkyitsik, Yukon Flats; 66° 38' N, 143° 45' W; (map 120). Tranjik-kutchin Indian name; obtained in 1956 by T. E. Taylor, USGS.

Jolly Gulch: ravine, extends SW 3 miles to White Creek 0.7 miles SW of its junction with Rex Creek and 16 miles SE of McCarthy, St. Elias Mountains; 61° 17' N, 142° 34' W; (map 67). Local name reported in 1902 by G. M. Esterly, of Valdez, and published by Mendenhall (1905, fig. 11), USGS.

Joly Island: island, 1.5 miles long, near right bank of Yukon River, 20 miles NW of Holy Cross, Nulato Hills; 62° 28' N, 160° 09' W; (map 78). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by U.S. Dept. of Interior.

Jonah Bay: estuary, extends W 2.7 miles off Unakwik Inlet, 45 miles SW of Valdez, Chugach Mountains; 61° 00' 30" N, 147° 36' 15" W; BGN 1910; (map 69). Named in 1908 by U. S. Grant and D. F. Higgins, USGS.

Jone's Island: barrier islands, see Jones Islands

Jones Creek: stream, flows NW 7.7 miles to Nixon Fork, 18 miles N of Medfra, Kilbuck-Kuskokwim Mountains; 63° 22' N, 154° 46' W; (map 89). Local name reported in 1910 by A. G. Maddren (in Brooks and others, 1911, pl. 14), USGS.

Jones Creek: stream, flows SW 1.4 miles to Solomon River, between Fish Creek and East Fork Solomon River, 11 miles NE of Solomon, Seward Peninsula Highlands; 64° 42' N, 164° 17' W; (map 95). Prospectors' name reported on a 1902 prospectors' manuscript map.

Jones Creek: stream, flows SW 10 miles to Mettenpherg Creek, 2.5 miles N of that stream's mouth and 71 miles SW of Wiseman, Brooks Range; 67° 08' N, 152° 40' W; (map 124). Local name obtained in 1956 by USGS topographers.

Jones Creek: stream, heads at junction of Middle Fork and South Fork Jones Creek, flows NW 8 miles to East Fork Kuskokwim River 21 miles E of Medfra, Kuskokwim Lowland, 63° 04' N, 154° 04' W; (map 89). Local name reported in 1910 by A. G. Maddren (in Brooks and others, 1911, pl. 14), USGS.

Jones Glacier: glacier, 2.8 miles long, in Glacier Bay National Monument, trends E to its 1961 terminus, 1 mile NW of Johns Hopkins Inlet, 2 miles N of terminus of Toyatte Glacier, 82 miles NW of Hoonah, St. Elias Mountains; 58° 55' 45" N, 137° 08' 50" W; (map 10). Named in 1936 by Field and Cooper (1937, p. 62) for Ernest L. Jones, 1876-1929, hydrographic and geodetic engineer and a member of the IBC. Jones was a member of the U.S. Dept. of Commercial Fisheries, 1913-15 and Superintendent and Director of USC&GS, 1915-20. He was the author of many publications, including several on Alaska.

Jones Islands: barrier islands, extends NW 28 miles from Cottle Island to Thetis Island, on Beaufort Sea coast, Arctic Plain; 70° 32' N, 149° 36' W; (map 150). Variant: Jone's Island, Thetis Islands. On July 24, 1837, P. W. Dease and Thomas Simpson reported, "a range of low islands eight miles in length, to which we attached the name of the Rev. David T. Jones, the faithful and eloquent minister at Red River" (T. Simpson, 1843, p. 129). Recent maps have extended the name West to include Thetis Island. See Thetis Island.

Jones Lake: lake, 800 ft. long, in course of Hood Creek, 3 miles SW of Anchorage, Cook Inlet Lowland; 61° 11' 30" N, 149° 57' 50" W; (map 69) Local name reported in 1962 by USGS.

Jones Mound: pingo, elev. 20 ft., on Beaufort Sea coast, 2 miles SW of Milne Point and 8 miles W of Beechey Point, Arctic Plain; 70° 29' 30" N, 149° 31' 30" W; (map 150). Named and used as a triangulation station in 1911 by Leffingwell (1919, p. 41), USGS.

Jones Pass: pass, 2,900 ft., 4 miles NE of Far Mountain and 68 miles SW of Circle, Yukon-Tanana Highlands; 65° 06' 45" N, 145° 39' 30" W; (map 104). Prospectors' name reported in 1952 by USGS topographers.

Jones Point: point of land, on W end of spit, at S end of Port Clarence, 13 miles SW of Teller, Seward Peninsula Highlands; 65° 07' N, 166° 38' W; (map 111). Local name reported about 1940 by USC&GS and published on Chart 9385.

Jones Pup Creek: stream, in Darby Mountains, flows E 1.5 miles to Big Creek which flows to Tubutulik River, 42 miles SE of Imuruk Lake, Seward Peninsula Highlands; 65° 04' N, 162° 22' W; (map 110). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Jones Ridge: mountain, 4,600 ft., on Alaska-Canada boundary, 25 miles NE of Eagle, Porcupine Plateau; 65° 07' N, 141° 00' W; (map 103). It appears to have been named in 1911-12 by Cairnes (1914, map).

Jones River: stream, flows S and NW 30 miles to South Fork Kuskokwim River, 1 mile SE of junction of Dillinger River, 72 miles SE of McGrath, Kuskokwim Lowland; 62° 34' 15" N, 153° 33' 30" W; (map 80). Named in 1899 by Lt. J. S. Herron, USA, for Pvt. Sam Jones, a member of his party.

Jones River: stream, see Alsek River.

Jones River: stream, see Yahtse River.

Jonesville: village, pop. 97 (1950), E of Wishbone Hill, 11 miles NE of Palmer, Cook Inlet Lowland; 61° 43' 50" N, 148° 56' 00" W; (map 69). Name of a railroad station and former mining camp listed in the 1922 Railway Guide Index. A post office established here in 1921 as discontinued in 1944 (Ricks, 1965, p. 29).

Jooxwarat Bay: estuary, see lookswarat Bay.

Jordan Creek: stream, flows generally S 3 miles to lagoon at Juneau Airport on Gastineau Channel, 7 miles NW of Juneau, Coast Mountains; 58° 21' 25" N, 134° 34' 10" W; (map 11). Variant: Livingston Creek. Named Jordan Creek by Daniel Foster and M. Y. Hurst, who filed homestead claims near the creek in 1895. Later the stream became known as Livingston Creek, probably for Arthur Livingston, who located a mining claim near its headwaters in 1887 and lived for some time near the stream. It was renamed Jordan Creek by Thomas Knudson, in 1903, who filed a homestead claim on Mendenhall Flats. Whether this name was derived from the original name or renamed for Harry Jordan, 1845-1929, who came to Juneau in 1896, is not known. Jordan operated the Glory Hole Saloon in Douglas and "he has probably grubstaked more men than anyone in this part of Alaska" (DeArmond, 1957, p. 2526). The name Jordan Creek was published by Adolph Knopf (1912, pl. 1), USGS.

Jordan Creek: stream, flows NE and N 10 miles to Yukon River, S of Senatis Mountain, 29 miles ENE of Tanana, Yukon-Tanana Highlands; 65° 17' 45" N, 150° 07' 30" W; (map 106). Variant: Cheyenne Creek. Name shown on a manuscript track-chart of the Yukon River, dated 1906.

Jordan Lake: lake, 0.7 miles long, on Revillagigedo Island, 3 miles E of Naha Bay, in course of Naha River, Alexander Archipelago; 55° 36' N 33' W; (map 3). Local name reported in 1948 by USGS.

Jordon Creek: stream, flows SE to Kigezruk Creek, about 12 miles E of Cape Prince of Wales. Seward Peninsula Highlands; (map 111). Prospectors' name shown on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This feature cannot be precisely identified on current maps.

Jorosa Creek: stream, flows S 1 mile to Bangor Creek, 13 miles N of Nome, Seward Peninsula Highlands; 64° 41' N, 165° 28' W; (map 94). Variant: Gold Creek. Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Joseph Creek: stream, flows E 2 miles to Minook Creek 17 miles S of Rampart, Yukon-Tanana High; 65° 15' 30" N, 150° 08' 30" W; (map 106). Prospectors' name shown on a manuscript map dated 1906; reported in 1956 by Orth.

Joseph Creek: stream, heads at 64° 25' N, 143° 42' W, flows SE 24 miles to Middle Fork Fortymile River, 64 miles SW of Eagle, Tanana-Yukon Highlands; 64° 22' 30" N, 143° 05' 20" W; (map 102). Named by prospectors and reported in 1903 by T. G. Gerdine, USGS.

Joseph Village: locality, see Joseph.

Joseph: locality, at junction of Joseph Creek and Middle Fork Fortymile River, 64 miles SW of Eagle, Yukon-Tanana Highlands; 64° 22' 31" N, 143° 05' 21" W; (map 102). Variant: Joseph Village. Settlement, now abandoned, reported in 1903 by T. G. Gerdine, USGS.

Josephine Gulch: ravine, trends SW 0.6 miles to Buster Creek, 9 miles NE of Nome, Seward Peninsula Highlands; 64° 37' 20" N, 165° 11' 25" W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Josephine, Lake: lake, 1.3 miles long, on Prince of Wales Island, E of head of Hetta Inlet, Alexander Archipelago; 55° 14' 40" N, 132° 34' 00" W; (map 4). Variant: Lake Mabel, Lake Mable. Local name reported in 1908 by C. W. Wright (in Brooks and others, 1909, pl. 3), USGS. This feature was called "Lake Mable" in 1905 by E. F. Dickins, USC&GS.

Joshua Green River: stream, heads in Aleutian Range, flows NW 15 miles to Moffet Lagoon, 17 miles NE of village of Cold Bay, Bristol Bay Lowland; 55° 24' N, 162° 29' W; (map 29). Name published by USC&GS in the 1964 Coast Pilot.

Josie Creek: stream, flows NE 2 miles to Canyon Creek which flows to Imuruk Basin, 34 miles NW of Nome, Seward Peninsula Highlands; 64° 57' N, 165° 55' W; (map 94). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Josie Creek: stream, flows NW 2.4 miles to Stewart River, 20 miles NW of Nome, Seward Peninsula Highlands; 64° 48' N, 165° 33' W, (map 94). Prospectors' name reported on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Josquin, Mount: mountain, 3,002 ft., in the Kuskokwim Mountains, on the E bank of Takotna River, 20 miles SW of McGrath, Kilbuck-Kuskokwim Mountains; 62° 52' N, 156° 14' W; (map 79). Local name published in 1921 by USGS.

Jounakh Island: island, see Kanu Island.

Jualin: locality, on Johnson Creek, 4 miles SE of Point Sherman on Lynn Canal, 44 miles NW of Juneau, Coast Mountains; 58° 50' 30" N, 135° 02' 30" W; (map 11). Miners' name for gold mining camp located here. The name was reported by A. C. Spencer (Spencer and Wright, 1906, p. 136), USGS. The camp has been generally abandoned.

Juan de Gama Bank: reef, see Stalemate Bank.

Juanita Creek: stream, flows N 1 mile to California Creek, 15 miles NE of Shungnak, Brooks Range; 66° 57' 25" N, 156° 38' 10" W; (map 115). Prospectors' name reported after 1940 by USGS.

Jubilee Creek: stream, about 30 miles long, heads about 68° 35' N, 159° 03' W, flows NE to Kiligwa River about 15 miles upstream from its mouth, Arctic Slope; 68° 53' N, 158° 31' W; BGN 1960; (map 132). Variant: West Fork Kiligwa River. Named in 1955 by B. H. Kent and Island L. Teilleur, USGS.

Judd Harbor: bay, 1 mile across, S coast of Duke Island, Alexander Archipelago; 54° 53' N, 131° 16' W; (map 2). Local name published in 1943 by USC&GS.

Judd Lake: lake, 0.9 miles across, in course of Talachulitna Creek, 37 miles NW of Tyonek, Cook Inlet Lowland; 61° 34' 10" N, 151° 34' 20" W; (map 70). Local name reported in 1954 by USGS.

Judd Lake: lake, 1.2 miles long, 3.7 miles SW of Lake Louise and 37 miles W of Glennallen, Copper River Basin; 62° 15' N, 146° 38' W; (map 83). Local name reported in 1949 by USGS.

Jude Island: island, 0.2 miles across, in Pacific Ocean, between Unga and Wosnesenski Islands, Aleutian Range; 55° 15' 45" N, 161° 06' 15" W; (map 28). Named "O[strov] Judy" by Capt. Tebenkov (1852, map 24), IRN, and so shown on Russian Hydrog. Dept. Chart 1379; shown on inset to Chart 1379 as "O[strov] Ap[ostol] Judy" or "Apostle Jude Island." Shown as "Jude Island" on USC&GS chart published in 1882.

Judge Creek: stream, flows SE 26 miles to Kandik River, 9 miles NE of that stream's junction with Yukon River, Porcupine Plateau; 65° 27' N, 142° 15' W; (map 103). Local name published in 1956 by USGS.

Judy Creek: stream, heads at 69° 29' N, 153° 09' W, flows NE 140 miles to Fish Creek, 12 miles S of Harrison Bay, Arctic Plain; 70° 15' 15" N, 151° 45' 30" W; (map 149). This stream appears to have been named in the 1940's by personnel of the Naval Petroleum Reserve No. 4 explorations.

Judy Hill: hill, 806 ft., on Gravina Island, between Blank Inlet and Tongass Narrows, 3.2 miles S of Ketchikan, Alexander Archipelago; 55° 17' 40" N, 131° 38' 35" W; (map 3). Named in 1885 by Lt. Comdr. Richardson Clover, USN. See Puppets, The.

Juel Point: point of land, between Foul Bay and Sea Otter Harbor, on W coast of Dall Island, Alexander Archipelago; 55° 07' 30" N, 133° 13' 45" W; (map 4). Local name published in 1914 by USC&GS.

Jug Island: island, 300 ft. long, in Kalsin Bay, 9.5 miles S of Kodiak, Kodiak Island; 57° 38' 55" N, 152° 25' 10" W; (map 34). Variant: Kubieshka Island, Ostrov Kubyshka. Translation of the name "Os[strov] Kubyshka," published by Sarichev (1852, map 16).

Jug Island: island, 500 ft. across, in Necker Islands, 20 miles SW of Sitka, Alexander Archipelago; 56° 47' 30" N, 135° 26' 00" W; (map 5). Variant: Kubieshka Island, Ostrov Kubyshka. This is a translation by USC&GS of the Russian name given in 1809 by the navigator Ivan Vasiliev the first, IRN. Lt. Sarichev (1826, map 19), IRN, published it as "O[strov] Kubyshka."

Juhle, Mount: peak, 5,010 ft., on Alaska Peninsula, in Katmai National Monument, 10 miles NW of Mount Katmai, Aleutian Range; 58° 22' 45" N, 155° 09' 30" W; BGN 1957; (map 42). Named in 1955 by G. O. Gates, USGS, for Rolf Werner Juhle, 1929-53, USGS geologist and volcanologist, who apparently "lost his footing and was drowned in Knife Creek, while on a field project for National Research Council and USGS."

Jukchana: stream, see Yukon River.

Jukhwarat Bay: estuary, see lookswarat Bay.

Julia Creek: stream, flows WSW 2 miles to Minook Creek E of that stream's junction with Yukon River, 1.3 miles NE of Rampart, Yukon-Tanana Highlands; 65° 31' N, 150° 08' W; (map 106). Prospectors' name shown on a manuscript map dated 1906; reported in 1956 by Orth.

Julian Creek: stream, flows SE 2.8 miles to George River, 27 miles SE of Flat, and 36 miles N of Sleetmute, Kilbuck-Kuskokwim Mountains; 62° 12' 10" N, 157° 21' 20" W; (map 79). Variant: Middle Fork George River; Yukwonilnuk. Local name reported in 1913 by USGS.

Julie Creek: stream, flows S 5 miles to Zimmerman Creek 2 miles NW of its junction with Iditarod River, 9 miles NW of Flat, Kilbuck-Kuskokwim Mountains; 62° 32' 35" N, 158° 12' 40" W; (map 79). Local name reported in 1913 by USGS.

Julius Creek: stream, flows N 18 miles to Seventeenmile Slough, 6 miles S of Nenana, Tanana Lowland; 64° 29' N, 149° 08' W; (map 100). Local name published in 1916 on a GLO [BLM] survey Plateau

Julius Reef: reef, in Felice Strait, 0.2 miles NW of Form Point, Duke Island, Alexander Archipelago; 54° 58' 00" N, 131° 25' 45" W; (map 2). Local name published in 1920 by USC&GS.

Julius: railroad station, mile 401.3 on The Alaska Railroad, 9 miles S of Nenana, Tanana Lowland; 64° 25' 15" N, 149° 04' 45" W; (map 100). Local name derived from Julius Creek, which the railroad crosses at that point. The name was published on a timetable in 1922.

Julkitsik: village, see Chalkyitsik.

July Creek: stream, flows E 1 mile to Nome River, 9 3 miles NNE of Nome, Seward Peninsula Highlands; 64° 37' 30" N, 165° 18' 00" W; (map 94). Prospectors' name shown on the 1904 "Map of Cape Nome Precinct" by Arthur Gibson.

July Creek: stream, flows SW 5 miles to Kutuk River, 10 miles E of Survey Pass, Brooks Range; 67° 50' N, 153° 42' W; BGN 1932; (map 125). Named by Robert Marshall in July, 1931, "to contrast it with the one [April Creek] across the Arctic Divide."

July Creek: stream, heads at glacier, flows NE 10 miles to Gerstle River, 31 miles SE of Delta Junction, Alaska Range; 63° 38' 35" N, 145° 16' 15" W; BGN 1937; (map 86). Variant: Fourth of July Creek. Local name shown on a 1927 manuscript map of the "Endicott and Haley Hunting Expedition."

July Creek: stream, see Fourth of July Creek.

July Fourth Mountain: mountain, 5,007 ft., 5 miles SE of head of Brady Glacier, Glacier Bay National Monument, 59 miles NW of Hoonah, St. Elias Mountains; 58° 38' 25" N, 36° 42' 00" W; (map 10). Local name reported in 1951 by USGS.

July Gulch: ravine, trends W 1 mile to Rocky Mountain Creek which flows SW to Nome River, 20 miles NE of Nome, Seward Peninsula Highlands; 64° 46' 30" N, 165° 11' 30" W; (map 94). Prospectors' name shown on the 1904 "Map of Cape Nome Precinct" by Arthur Gibson

Jumbo Basin: basin, on SW coast of Prince of Wales Island, E of head of Hetta Inlet, at head of Jumbo Creek, Alexander Archipelago; 55° 14' 32" N, 132° 37' 30" W; (map 4). Local name reported in 1908 by C. W Wright (in Brooks and others, 1909, pl. 3) USGS.

Jumbo Creek: stream, flows NW 4.5 miles to Clear River S of Moving Mountain, 27 miles NW of Wiseman, Brooks Range; 67° 38' 30" N, 150° 55' 30" W; BGN 1932; (map 124). Local name reported by Robert Marshal in 1932.

Jumbo Creek: stream, flows W 1.2 miles to Hetta Inlet, E of Jumbo Island, on SW coast of Prince of Wales Island, Alexander Archipelago; 55° 14' 30" N, 132° 39' 05" W; (map 4). Local name reported in 1908 by C. W Wright (in Brooks and others, 1909, pl. 3) USGS.

Jumbo Creek: stream, heads in Mount McKinley National Park, flows NE 2 miles to Moos' Creek, 3.7 miles E of Wonder Lake, Alaska Range 63° 30' 50" N, 150° 46' 10" W; BGN 1932 (map 88). Local name reported in 1932 by F. G Wells and S. C. Kain, USGS.

Jumbo Creek: stream, heads on Bonanza Peak flows SW 1.8 miles to Kennicott Glacier, 5 miles N of McCarthy, Wrangell Mountains; BGN 1964 61° 30' 12" N, 142° 53' 50" W; (map 67). Local name reported in 1908 by D. C Witherspoon, USGS.

Jumbo Creek: stream, see Amazon Creek.

Jumbo Dome: mountain, 4,493 ft., 12 miles SE of Rex Dome and 15 miles NE of Healy, Alaska Range; 63° 58' 30" N, 148° 41' 15" W; (map 87). Local name reported in 1906 by L. M Prindle (in Brooks and others, 1907, pl. 4) USGS.

Jumbo Island: island, 0.5 miles long, near head of Hetta Inlet, on SW coast of Prince of Wales Island Alexander Archipelago; 55° 14' 40" N, 132° 39' 45" W (map 4). Variant: Deer Island. Local name reported in 1904 by E. F. Dick ins, USC&GS. The name "Deer Island" was published for this feature by USC&GS in 1904 on chart 8100.

Jumbo Mountain: mountain, see Bradley, Mount.

Jumbo Peak: mountain, 2,000 ft., 10 miles N of Medfra, Kilbuck-Kuskokwim Mountains; 63° 15' N, 154° 43' W; (map 89). Local name reported in 1920 by G. C. Martin (in Brooks and others, 1922, fig. 5) USGS.

Jumbo Rock: rock, in Cook Inlet, 3.4 miles NE of Boulder Point and 17 miles N of Kenai, Cook Inlet Lowland; 60° 47' 45" N, 151° 10' 10" W; (map 62). Local name published in 1912 by USC&GS.

Jumbo, Mount: mountain, 3,400 ft., on NE shore of Hetta Inlet, near center of Prince of Wales Island, Alexander Archipelago; 55° 15' 10" N, 132° 36' 45" W (map 4) Local name reported in 1905 by F. E. and C. W. Wright (in Brooks and others, 1906 fig. 1), USGS.

Jumbo, Mount: mountain, see Bradley, Mount

Jump Creek: stream, flows NE 4.1 miles to Candle Creek, 53 miles NW of Haycock, Seward Peninsula Highlands; 65° 54' N, 161° 57' W; (map 109). Local name shown on a 1903 fieldsheet by D.C. Witherspoon, USGS.

Jump Off Creek: stream, see Quartz Creek.

Jumpoff Creek: stream, flows SE 3 miles to Crooked Creek, 17 miles SW of Circle, Yukon-Tanana Highlands; 65° 37' 45" N, 144° 26' 40" W; (map 104). Variant: Jump Off Creek. Named by prospectors; shown on an 1898 manuscript map by E. F. Ball.

Jumpoff Icefall: icefall, in Chisana Glacier, 12 miles above its terminus and 35 miles NE of Mount Blackburn, Wrangell Mountains; 61° 56' 45" N, 142° 25' 45" W; (map 67). Local name published by USGS in 1954.

Jumpoff Roadhouse: locality, at junction of Jumpoff Creek and Crooked Creek, 18 miles SW of Circle, Yukon-Tanana Highlands; 65° 38' N, 144° 20' W; (map 104). Name of a former roadhouse reported in 1915 by G. A. Waring, USGS.

Juna: stream, see Yukon River.

Junaka, Reka: stream, see Koyukuk River.

Junaska Island: island, see Yunaska Island.

Junco Creek: stream, flows W 1 mile to Nenana River, 1.5 miles N of village of McKinley Park, Alaska Range; 63° 45' 07" N, 148° 53' 52" W; BGN 1965; (map 87). Named in 1965 by the Alaska Dept. of Highways "for the bird, the junco, a species of the family Fringillidae, which is seen along the stream in the summer months." See Iceworm Gulch.

Junction Creek: stream, flows NW 10 miles, joins Mosquito Creek to form Redmond Creek, 28 miles NW of Big Delta, Yukon-Tanana Highlands; 64° 22' 40" N, 146° 36' 10" W; (map 101). Named by prospectors; reported in 1910 by C. E. Ellsworth and G. L. Parker (in Brooks and others, 1911, p. 193), USGS.

Junction Creek: stream, flows SW 4 miles to Norton Sound, 6 miles N of Egavik and 10 miles E of Besboro Island, Nulato Hills; 64° 09' N, 160° 57' W; (map 96). Local name published in 1950 by USC&GS.

Junction Island: island, 0.1 miles across, in central Lisianski Inlet, on NW coast of Chichagof Island, 4 miles NW of Pelican, Alexander Archipelago; 57° 59' 55" N, 136° 18' 50" W; BGN 1908; (map 9). Variant: Bill Island. Descriptive name given by USC&GS in 1908 and published in the 1908 Alaska Coast Pilot (p. 169). So named because it is near the junction of Lisianski with Lisianski Strait. The local name was Bill Island, named for superintendent of the Dundas Bay Company in 1908.

Junction Island: island, 0.5 miles long, off N tip of Chenega Island, at junction of Knight Island Passage and Dangerous Passage, 34 miles SE of Whittier, Chugach Mountains; 60° 23' 30" N, 147° 59' 30" W; BGN 1934; (map 63). So named in 1933 by a USC&GS field party "because it marks the junction of Dangerous Passage and Knight Island Passage."

Junction Island: island, 0.8 miles long, in Tanana River, 12 miles SE of the village of Manley Hot Springs, Nowitna Lowland; 64° 53' N, 150° 20' W; (map 99). Riverboat pilots' name published on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" by the U.S. Dept. of Interior.

Juncture Mountain: nunatak, see Juncture Nunatak.

Juncture Nunatak: nunatak, 4,320 ft., W of junction of Taku Glacier and its Southwest Branch, 1.6 miles E of Shoehorn Mountain and 22 miles NE of Juneau, Coast Mountains; 58° 36' 15" N, 134° 15' 20" W; (map 11). Variant: Juncture Mountain, Juncture Peak. Named by members of the Juneau Icefield Research Project in 1965. Published as "Juncture Peak" by USGS in 1960. It is so named because of its location at the juncture of the glaciers.

Juncture Peak: nunatak, see Juncture Nunatak.

June Creek: stream, flows E 1 mile to Nome River, 9 miles NNE of Nome, Seward Peninsula Highlands; 64° 37' 20" N, 165° 18' 00" W; (map 94). Prospectors' name shown on the 1904 "Map of Cape Nome Precinct" by Arthur Gibson.

June Creek: stream, flows N 1 mile to Dese Creek which flows to Grantley Harbor, 8 miles SE of Teller, Seward Peninsula Highlands; 65° 10' N, 166° 14' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

June Creek: stream, flows NE 3 miles to Pinnell River, 15 miles N of Imuruk Lake, Seward Peninsula Highlands; 65° 49' N, 163° 04' W; BGN 1959; (map 110). Prospectors' name reported in 1903 by D. C. Witherspoon (in Moffit, 1905, pl. 2), USGS.

June Lake: lake, 1.1 miles long, 2 miles NE of Kinalchulantan Lake and 22 miles NE of Ruby, Nowitna Lowland; 64° 48' N, 154° 47' W; (map 98). Indian name obtained at Ruby in 1956 by Orth.

June River: stream, see Jewn River.

Juneau Creek: stream, flows NW 1.5 miles to Walker Fork, 50 miles S of Eagle, Yukon-Tanana Highlands; 64° 04' N, 141° 21' W; (map 102). Named for a prospector and shown on an 1898 manuscript map by E. F. Ball, prospector.

Juneau Creek: stream, heads in York Mountains and flows SW to Anikovik River, about 15 miles SE of Cape Prince of Wales, Seward Peninsula Highlands; (map 111). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This feature cannot be precisely identified on current maps.

Juneau Creek: stream, heads on W side of Gilpatrick Mountain, drains Juneau Lake, flows SW 16 miles to Kenai River, 32 miles SW of Hope, Chugach Mountains; 60° 29' 20" N, 149° 52' 30" W; (map 63). Local name reported in 1898 by Mendenhall (1900, map 16), USGS.

Juneau Creek: stream, on Kenai Peninsula, flows NW 4 miles to Mills Creek, 16 miles S of Sunrise, Chugach Mountains; 60° 40' 30" N, 149° 27' 00" W; BGN 1912; (map 63). Variant: Junior Creek. Local name reported in 1904 by F. H. Moffit, USGS, as being the correct name for a stream which heretofore was called "Junior Creek" (Baker, 1906, p. 339). D. H. Sleem published the name "Juneau Creek," on his map of Central Alaska, dated 1910.

Juneau Harbor: cove, on Gastineau Channel, S of Juneau, Coast Mountains; 58° 10' 15" N, 134° 24' 00" W; (map 11). Local name derived from the city of Juneau; reported by the U.S. Navy and published by USC&GS in the 1883 Coast Pilot (p. 225).

Juneau Icefield: icefield, 15 miles across, 25 miles N of Juneau, Coast Mountains; 58° 37' N, 134° 30' W; (map 11). Variant: Juneau Icecap. Name reported in the 1940's.

Juneau Island: island, 0.2 miles across, in Gastineau Channel, 2 miles SE of Juneau, Coast Mountains; 58° 16' 35" N, 134° 23' 00" W; (map 11). Variant: Juneau Isle, Mayflower Island. Local name derived from the nearby city name. Name first appeared in 1881 when N. B. Lazard located a mining claim on the island, which he called Juneau Island. The name was published by USGS in 1904. After 190() the island was frequently called Mayflower Island, but the origin of this name is unknown. In 1912 at the first session of the Alaska Legislature a memorial was introduced by Rep. William Stubbins of Douglas "that a grant be made of the said island to the Town of Douglas, Alaska, for and to be used by the general public as a park and that the name of said island be changed to Mayflower Island." The memorial was passed but was ignored by Congress. It is believed to be the only Alaska Legislative memorial concerning an Alaska place name (DeArmond, 1957, p. 28).

Juneau Lake: lake, 1 mile long, in Kenai Mountains, coursed by Juneau Creek, 1.5 miles NE of Trout Lake, 25 miles SW of Hope, Chugach Mountains; 60° 34' 30" N, 149° 52' 30" W; (map 63). Local name reported in 1951 by USGS.

Juneau Ridge: ridge, 3,500 ft., 4.5 miles long, extending E from Mount Juneau to West Summit of Olds Mountain, 3 miles NE of Juneau, Coast Mountains; 58° 20' N, 134° 20' W; (map 11). Local name reported by D. A. Brew and A. B. Ford, USGS, in 1965.

Juneau Wharf: city, see Juneau.

Juneau, Mount: mountain, 3,576 ft., 1.2 miles N of Juneau, Coast Mountains; 58° 19' 10" N, 134° 24' 15" W; (map 11). Variant: Gold Mountain, Bald Mountain. Named "Gold Mountain" by the miners in 1881. It was also called Bald Mountain as late as 1896. The name "Juneau Mountain" was first used in the mining records by Pierre ("French Pete") Erussard when he located mining claims on the mountain in 1888 (DeArmond, 1957, p. 28).

Juneau: city, pop. 6,797, on Gastineau Channel, 95 miles N of Sitka, Coast Mountains; 58° 18' 15" N, 134° 24' 30" W; (map 11). Variant: Harrisburg, Juneau City, Juneau Wharf, Piltzburg, Rockwell. The capital of Alaska since 1900; originated in 1880 as a mining camp called "Harrisburg," named for Richard H. Harris, 1833-1907, who with Joseph Juneau discovered gold near here on Gold Creek and staked the beach as a town site. The mining camp was also called Rockwell by the U.S. Navy in 1881 for Comdr. Charles Henry Rockwell, 1840-1908, USN, who was sent with a detachment of men to the camp to maintain order. Because of the confusion of names, the miners met in 1881 and officially named the town for Joseph Juneau, 1826-99 (DeArmond, 1957, p. 23-28). The population of Juneau was 1,644 in 1910; 3,058 in 1920; 4,043 in 1930; 5,729 in 1939; and 5,956 in 1950. The Juneau post office was established in 1882 (Ricks, 1965, p. 30).

Junekakat Creek: stream, flows W 23 miles to Yukon River, NE of Ham Island, NE of Ruby, Nowitna Lowland; 64° 54' N, 154° 49' W; (map 98). Variant: Junekaket Creek. Indian name obtained at Ruby in 1956 by Orth.

Junekakat Slough: stream, an anabranch of Yukon River, flows W 5 miles around Ham Island, 19 miles NE of Ruby, Nowitna Lowland; 64° 53' N, 154° 56' W; (map 98). Variant: Junekaket Slough. Indian name obtained at Ruby in 1956 by Orth.

Jungjuk Creek: stream, heads in lake in Horn Mountains, flows NE 10 miles to Kuskokwim River, 35 miles W. of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 47' 40" N, 158° 13' 00" W; BGN 1945; (map 72). Variant: Knowat Creek, Nowat Creek, Yukwonilnuk River. Eskimo name, "Yukwonilnuk River," said to mean "river where no man is," reported on an 1898 fieldsheet by W. S. Post, USGS. In 1910 A. G. Maddren, USGS, reported the name as "Knowat River" (in Brooks and others, 1911, pl. 11), and in 1912 H. M. Eakin. USGS, reported the spelling "Nowat" (in Brooks and others, 1913, pl. 10). The present-day local name "Jungjuk Creek" was reported in 1944 by USGS.

Jungle Creek: stream, heads in Canada, flows NW across Alaska-Canada boundary, 24 miles to Nation River, 26 miles NNE of that stream's junction with Yukon River and 50 miles N of Eagle, Porcupine Plateau; 65° 30' 30" N, 141° 13' 00" W; BGN 1954; (map 103). So named in 1910 by IBC survey, because of the heavy growth of vegetation in its valley.

Juninggulra Mountain: mountain, 1,830 ft., in Kuskokwim Mountains, extends SW 6 miles from Crooked Creek, 9 miles NW of its junction with Kuskokwim River, 42 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 57' N, 158° 22' W; BGN 1945; (map 72). Variant: Ju-ning-gul' ra. Native name, said to mean "crosswise" referring to its orientation to the course of Crooked Creek; reported in 1944 by USGS.

Junior Creek: stream, see Juneau Creek.

Juniper Creek: stream, flows NW 5 miles to Chatanika River, 32 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 13' N, 147° 04' W; (map 105). Local name published in 1907 by USGS.

Juniper Creek: stream, heads in Brooks Range at 69° 03' N, 146° 23' W, flows NW 70 miles to join Shaviovik River, Arctic Plain; 69° 40' N, 147° 45' W; BGN 1959; (map 140). Variant:

Shaviovik River. Named in 1947 by G. P. Gryc, USGS for “rare growth of juniper along this stream.” This is the only evergreen north of the Brooks Range.

Juniper Island: nunatak, 2.5 miles long, at junction Of Jefferies and Tana Glaciers, 10 miles N of Mount Miller and 37 miles N of Cape Yakataga, Chugach Mountains; 60° 36' N, 142° 22' W; BGN 1960; (map 65). Local name given by prospectors who crossed the Chugach Mountains between 1904 and 1907. The name was derived from the coniferous shrub which comprises the most conspicuous element of the scant vegetation on the nunatak. The name was reported by USGS in 1913.

Junjick River: stream, see Junjik River.

Junjik River: stream, flows SE 65 miles to East Fork Chandalar River, 6 miles N of Arctic Village, Brooks Range; 68° 13' N, 145° 28' W; (map 136). Variant: Junjick River. Kutchin Indian name obtained in 1926 by J. B. Mertie, USGS.

Junken, Cape: point of land, on SE coast of Kenai Peninsula, at mouth of Puget Bay, 32 miles SE of Seward, Chugach Mountains; 59° 55' N, 148° 38' W; (map 49). Local name reported in 1908 by U. S. Grant, USGS.

Junnaka: stream, see Koyukuk River.

Juno Mountain: mountain, 2,600 ft., on Revillagigedo Island, 2 miles N of Ketchikan, Alexander Archipelago; 55° 23' 15" N, 131° 40' 20" W; (map 3). This is one of several names given in 1883 by Lt. Comdr. Nichols, USN, which were suggested by classical mythology. Juno was an ancient Italian (Roman) goddess, the wife of Jupiter.

Junock River: stream, see Unuk River.

Junuk River: stream, see Unuk River.

Jussila Creek: stream, flows SW 4 miles to Noyes Slough, 2 miles NW of Fairbanks, Tanana Lowland; 64° 52' N, 147° 46' W; (map 100). Named for Yrjo Henry Jussila, a homesteader in the area. Jussila was born in Aberdeen, Wash., in 1907 and in his youth came to Alaska where he was employed by the Alaska Railroad He died in Arizona in 1948. The name is of Finnish origin and means “John's place.” The name was published in 1955 by USGS.

Just Island: island, 0.8 miles long, in Fillmore Inlet, at entrance to Willard Inlet, Coast Mountains; 54° 48' 45" N, 130° 37' 45" W; (map 2). Named in 1899 by USC&GS.

Justamere Ranch: area, in NE part of Anchorage, between Lawrence and Wonder Park, Cook Inlet Lowland; 61° 13' 13" N, 149° 47' 35" W; (map 69). Local name reported in 1954 by the city engineer of Anchorage.

Justice Creek: stream, flows SW 2 miles to Baituk Creek, 11 miles E of Cape Prince of Wales and 44 miles NW of Teller, Seward Peninsula Highlands; 65° 34' N, 167° 43' W; (map 111). Variant: Justida Creek. Prospectors' name published in 1966 by USGS. Shown as “Justida Creek” on the 1908 “Map of Seward Peninsula” by Arthur Gibson.

Justice Creek: stream, in Glacier Bay National Monument, heads on S slope of Mount Escures, flows 6 miles SW to Gulf of Alaska, 4 miles NW of mouth of Fourmile Creek, 94 miles NW of Hoonah, Malaspina Coastal Plain; 58° 42' 50" N, 137° 46' 30" W; BGN 1962; (map 10). Variant: Voss Creek. So named by NPS in 1961 because it is the locale of a story by Jack London titled "The Unexpected," in which justice was provided by two prospectors who in the absence of judicial law, tried and executed a third person for a double murder. The story is based on an actual occurrence that happened in the vicinity of the creek.

Justida Creek: stream, see Justice Creek.

Jut Ridge: ridge, trends 0.5 miles N toward Bering Sea, on southwestern Kiska Island, Aleutian Islands; 51° 54' 15" N, 177° 14' 00" E; (map 14). An arbitrary name beginning with "J" to correspond to the "J" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Jute Bay: bight, 4.3 miles across, on E coast of Alaska Peninsula, 50 miles W of Karluk, Aleutian Range, 57° 32' 30" N, 155° 51' 00" W; (map 35). Local name obtained from J. L. McPherson of Iliamna, reported in 1903, and published by G. C. Martin (1905, pl. 6), USGS.

Jute Creek: stream, on E coast of Alaska Peninsula, flows SE 2.5 miles to Island Bay, 50 miles W of Karluk, Aleutian Range; 57° 34' 40" N, 155° 49' 30" W; (map 35). Local name obtained from J. L. McPherson of Iliamna; published by G. C. Martin (1921, pl. 10), USGS.

Jute Islands: islands, two, extending 0.6 miles in Jute Bay, on E coast of Alaska Peninsula, 51 miles W of Karluk, Aleutian Range; 57° 33' 00" N, 155° 50' 30" W; (map 35). Local name reported in 1904 by G. C. Martin, USGS.

Jute Peak: peak, 2,037 ft., on E coast of Alaska Peninsula, 8 miles SSW of Cape Aklek and 48 miles W of Karluk, Aleutian Range; 57° 34' 30" N, 155° 45' 30" W, (map 35). Local name obtained from J. L. McPherson of Iliamna; published by G. C. Martin (1921, pl. 10), USGS.

JW, Mys: point of land, see Munoz, Point.

K

K' niq-a-mut: village, see Knik.

K-khaltat: locality, see Kaltat.

Ka' wa-nar' a: ledge, see Kawanera.

Ka-hehe: stream, see Karheen Creek.

Ka-ki-ak-tu-dli-ok: lake, 4 miles N of Okstukuk Lake and 39 miles N of Dillingham, Bristol Bay Lowland; 59° 34' N, 158° 16' W; (map 52). Eskimo name reported in 1910 by H. C. Fassett, USBF; said to mean “plenty coho” (silver salmon).

Ka-o-e-che-ark: stream, see Kawichiark River.

Ka-ooveren River: stream, see Kaviruk River.

Kaaktovik Island: island, see Barter Island.

Kaaktovik: village, see Kaktovik.

Kabakof Bay: bay, see Kobakof Bay.

Kabakovskaia Bay: bay, see Kobakof Bay.

Kabkag: village, see Kalskag.

Kabuch Point: point of land, on E shore of Isanotski Strait, at head of Ikatán Bay, Aleutian Range; 54° 49' 00" N, 163° 21' 30" W; (map 25). Variant: Alaska Cape, Khaboutcha, Khabuch. Aleut name published by Capt. Lutke (1836, p. 295), IRN, as “Khaboutcha.” This point was also shown by Capt. Tebenkov (1852, map 24), IRN, as M[ys] Khabutch or Khabutch Cape, and by USC&GS in 1882 as Khabucha Point on Chart 806.

Kach-Khanna: island, see Wrangell Island.

Kachauik Creek: stream, flows SW 16 miles to Golovnin Lagoon, 5 miles NW of Golovin and 40 miles E of Solomon, Seward Peninsula Highlands; 64° 36' N, 163° 07' W; BGN 1910; (map 95). Variant: Kachauik River. This is an Eskimo name published on the 1908 “Map of Seward Peninsula” by Arthur Gibson.

Kachauik River: stream, see Kachauik Creek.

Kachauik, Mount: mountain, 2,089 ft., 10 miles SW of Mount Arathlatuluk and 49 miles NE of Solomon, Seward Peninsula Highlands; 64° 46' N, 162° 51' W; (map 95). Local name reported on the 1908 “Map of Seward Peninsula” by Arthur Gibson.

Kachegaret: locality, “at Port Clarence,” Seward Peninsula Highlands; (map 111). Former Eskimo camp or settlement listed in the 1890 Census (p. 162).

Kachekmak Bay: bay, see Kachemak Bay.

Kachemach Mound: pingo, elev. 50 ft., 2.5 miles E of Colville River and 13 miles S of Harrison Bay, Arctic Plain; 70° 10' 10" N, 150° 38' 15" W; (map 149). Named in 1951 by Abraham and George Woods, an Eskimo father and his son, who have lived in this area most of their lives. The name was derived from that of the nearby river.

Kachemach River: stream, flows N 35 miles to Colville River Delta, 11 miles S of Harrison Bay, Arctic Plain; 70° 20' 40" N, 150° 40' 00" W; (map 149). Eskimo name reported in 1950 by USC&GS the meaning is unknown.

Kachemak Bay: bay, 8 miles wide and 40 miles long on SW coast of Kenai Peninsula, between Seldovia and Homer, Chugach Mountains; 59° 35' N, 151° 52' W; BGN Sixth Report; (map 50). Variant: Bai Tschugatschik oder Kotschekmaksky, Bukhta Kachetmaksкая, Chugachik Bay, High Cliff Bay, Kachekmak Bay, Zaliv Chugachik, Zaliv Chugachik ili Kochekmak. Native name published in 1847 as "Z[aliv] Chugachik ili Kochekmak" or "Chugachik or Kochekmak Bay" on Russian Hydrog. Dept. Chart 1378. According to W. H. Dall, USC&GS, "Ka means water, chek means cliff, and mak is an intensive suffix meaning high, great, large * * *."

Kachemak Glacier: glacier, trends SW 3.5 miles from ice field in Kenai Mountains to its terminus, 32 miles ENE of Homer, Chugach Mountains; 59° 43' N, 150° 38' W; (map 50). Named for Kachemak Bay and reported by USGS (Martin and others, 1915, pl. 2).

Kachemak: village, pop. 43, on Kenai Peninsula, near Homer; (map 50). Village incorporated in 1961.

Kachetmaksкая, Bukhta: bay, see Kachemak Bay.

Kachiginskaia: bay, see Kashaga Bay.

Kachiksuk Bluffs: bluff, on S shore of Elson Lagoon, 2 miles W of Christie Point, 26 miles SE of Barrow, Arctic Plain; 71° 11' N, 155° 39' W (map 153). Eskimo name recorded at Barrow in 1951 by USC&GS and reported to mean "high bluffs."

Kachkahin River: stream, see Chilkoot River.

Kachutok: locality, see Kashutuk.

Kachwona Creek: stream, flows NE 10 miles, to North Fork Koyukuk River at Gates of the Arctic, 37 miles NW of Wiseman, Brooks Range; 67° 50' 45" N, 150° 53' 30" W; (map 124). Probably named for an Eskimo girl of the Wiseman area. Marshall (1956, p. 83), in describing a Fourth of July celebration in Wiseman, wrote, "The big feature * * * was dancing. We started at six-thirty on the evening of July 4, and at eleven next morning four Eskimo girls, Kaaruk, Ashuwaruk, Kayak, and Kachwona, were still going strong * * *."

Kachhanna, Ostrov: island, see Wrangell Island.

Kacrowtuk Lake: lake, 2 miles long, 6 miles SW of Selawik, Kotzebue-Kobuk Lowland; 66° 34' N, 160° 13' W; (map 114). Variant: Kakrotat Lake. Eskimo name obtained in 1955 by U.S. Army Corps of Engineers.

Kadak Bay: bay, see Kadake Bay.

Kadak Creek: stream, see Kadake Creek.

Kadake Bay: bay, extends E 2 miles to Keku Strait, W of Port Camden, on NE coast of Kuiu Island, 44 miles W of Petersburg, Alexander Archipelago; 56° 48' 20" N, 133° 57' 20" W, BGN 1966; (map 6). Variant: Kadak Bay. Local name published in 1960 by USFS.

Kadake Creek: stream, flows E 12 miles to Kadake Bay, on E coast of Kuiu Island, Alexander Archipelago; 56° 47' N, 133° 59' W; (map 6). Variant: Kadak Creek. Local name published in 1943 by USC&GS.

Kadakina Creek: stream, flows W 13 miles from Taclodahten Lake to Kanuti River, 25 miles SE of Allakaket, Kanuti Flats; 66° 16' 30" N, 152° 06' 00" W; (map 117). Koyukuk Indian name obtained in 1956 at Allakaket by T. E. Taylor, USGS.

Kadakina Lake: lake, 1.2 miles long, drains E to Kadakina Creek, 28 miles SE of Allakaket, Kanuti Flats; 66° 18' N, 151° 54' W; (map 117). Koyukuk Indian name obtained in 1956 at Allakaket by T. E. Taylor, USGS.

Kadashan Bay: bay, 1 mile across, on S shore of Tenakee Inlet, on Chichagof Island, 4 miles S of Tenakee Springs, Alexander Archipelago; 57° 43' N, 135° 13' W; BGN 1929; (map 9). Variant: Big Bay. Named in 1929 by USFS, "for Paul K. Kadashan, an Indian, who applied for this land as a homestead in 1915." The local descriptive name is "Big Bay."

Kadi Creek: stream, flowing N 2.5 miles to Bering Sea, 3.2 m. W of Cape Idak on NE tip of Umnak Island, Aleutian Islands; 53° 31' N, 167° 52' W; (map 23). Name published by USGS (in Byers, 1959, pl. 41). This name may have been derived from the Aleutian word "kadigukuq," meaning "it stands against; it is in front of, (in Geoghegan, 1944, p. 112), and have been shortened for cartographic convenience.

Kadiak Cove: bay, see Camp Coogan Bay.

Kadiak Island: island, see Kodiak Island.

Kadiak Rock: rock, see Kodiak Rock.

Kadiak: town, see Kodiak.

Kadilotden: locality, see Khadilotden.

Kadin Island: island, 2 miles long, in mouth of Stikine River, 4 miles NW of Wrangell, Alexander Archipelago; 56° 32' N, 132° 27' W; (map 6). Named in 1863 by surveyors from the Russian corvette Rynda for the pilot M. M. Kadin, a native of the Aleutian Islands, who was

also a member of this surveying party and who drew the charts in the Tebenkov atlas in Sitka in 1848-50.

Kadin, Point: point of land, on NW coast of Unalaska Island, Aleutian Islands; 53° 55' 25" N, 167° 04' 15" W; BGN 1938; (map 23). Variant: Makushin Cape. This point was first reported as Makushin Cape by USBF in 1888. It was named Point Kadin by USC&GS and published in the 1938 Coast Pilot (pt. 2, supp., p. 41).

Kadischle: glacier, see Norris Glacier.

Kadishan's Village: locality, "on Stikine River," in SE Alaska, Coast Mountains. Former Stikine summer camp "of a chief named 'Katishan' " (Hodge, 1907, p. 638); listed with a population of 27 by Ivan Petroff in the 1880 Census.

Kaditskaya Bay: bay, see Birdsnest Bay.

Kadjak Island: island, see Kodiak Island.

Kadleroselik Mound: pingo, see Kadleroshilik Mound.

Kadleroselik River: stream, see Kadleroshilik River.

Kadleroshilik Mound: pingo, elev. 200 ft., on Kadleroshilik River, 12 miles S of Foggy Island, Bay, and 47 miles SE of Beechey Point, Arctic Plain; (map 150). Variant: Kadleroselik Mound. This pingo was used as a triangulation station by Leffingwell (1919, p. 40, 96) in 1911. Eskimo name reported to mean "possesses something on top" or "which seems to approach."

Kadleroshilik River: stream, heads at 69° 22' N, 147° 34' W, flows N 90 miles to Foggy Island Bay, 41 miles SE of Beechey Point, Arctic Plain; 70° 12' 25" N, 147° 37' 15" W; (map 150). Variant: Kalegosilik River, Kadleroselik River, Kadleroshulio River. Named by Leffingwell (1919, p. 96) "after the mound of the same name."

Kadleroshulio River: stream, see Kadleroshilik River.

Kadruakvik Creek: stream, flows NW 3.7 miles to Killik River 3 miles SW of its junction with Easter Creek, Brooks Range; 68° 07' N, 154° 14' W; (map 133). Eskimo name reported in 1956 by T. E. Taylor, USGS.

Kadugin: islands, see Pavlof Islands.

Kadugnak: point of land, see Kudugnak, Cape.

Kadyak Island: island, see Kodiak Island.

Kadyakskaya, Bukhta: bay, see Camp Coogan Bay.

Kaetkunax Mountain: hill, see Kitkonak Hill.

Kafila Golfe: bay, see Kaflia Bay.

Kaflia Bay: bay, extends W 5.5 miles from Cape Ugyak, on E coast of Alaska Peninsula, in Katmai National Monument, 30 miles E of Mount Katmai, Aleutian Range; 58° 15' N, 154° 07' W; (map 42). Variant: Baie Kaflia, Kafla Golfe, Zaliv Kaflya. Named "Kaflia," from the Dutch "Kafel," in 1831 by Ens. Vasiliev, IRN; published in 1847 as "Z[aliv] Kaflya" on Russian Hydrog. Dept. Chart 1378.

Kaflia, Baie: bay, see Kaflia Bay.

Kaflya, Zaliv: bay, see Kaflia Bay.

Kaga Point: point of land, on SW coast of Kagalaska Island, Aleutian Islands; 51° 44' 20" N, 176° 23' 40" W; BGN 1936; (map 17). A clipped name derived from Kagalaska Island, and given by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

Kagai Island: island, one of Shumagin Islands, Aleutian Range; 55° N, 160° W; (map 26). Named by Lt. Sarichev (1826, map 3), IRN, and shown as lying southwest of Nagai Island by Adm. von Krusenstern (1827, map 20), IRN. The island cannot be identified at the present time.

Kagak Cove: cove, 0.2 miles across, SE shore of Kanaga Bay, SE Kanaga Island, Aleutian Islands; 51° 42' 30" N, 177° 11' 20" W; (map 17). Name published in 1957 on an AMS map.

Kagak Unimak: island, see Cherni Island.

Kagakaglik Bank: bluff, on N bank of Wulik River, 8 miles NE of Kivalina, Kotzebue-Kobuk Lowland; 67° 48' N, 164° 18' W; (map 128). Variant: Kahgakaglick, Qaagaqaglik. Eskimo name meaning "there is ' Eskimo spinach' " reported in 1966 by E. S. Burch.

Kagalaksa Island: island, see Kagalaska Island.

Kagalaska Island: island, 10 miles long, one of Andreanof Islands, Aleutian Islands; 51° 48' N, 176° 21' W; BGN 1936; (map 17). Variant: Kagalaksa Island. Aleut name published by Lutke (1835, p. 321). The Russians published it as "O[strov] Kagalaksa," or "Kagalaksa Island" (Tebenkov, 1852, map 28).

Kagalaska Strait: water passage, between Kagalaksa and Adak Islands, Aleutian Islands; 51° 48' N, 176° 25' W; BGN 1936; (map 17). Name derived from Kagalaska Island, given by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

Kagalga: island, see Tigalda Island.

Kagalgin Island: island, see Uliaga Island.

Kagalis: point of land, see Kagalus, Cape.

Kagalogh: point of land, see Tolstoi Point.

Kagaluk Lake: lake, 8 miles long, 3 miles SE of Kagahasuk Lake and 58 miles W of Bethel, Yukon-Kuskokwim Delta; 60° 51' N, 163° 30' W; (map 58). Eskimo name reported in 1949 by USC&GS.

Kagalurpak Lake: lake, 7 miles across, 15 miles NW of Kagaluk Lake and 80 miles W of Bethel, Yukon-Kuskokwim Delta; 60° 55' N, 164° 00' W; (map 58). Eskimo name reported in 1949 by USC&GS to mean “river's end.”

Kagalus, Cape: point of land, SE tip of Chugul Island, Aleutian Islands; 51° 55' 10" N, 175° 45' 40" W; BGN 1936; (map 18). Variant: Kagalis. Possibly an Aleut name published as “M[ys] Kagalus” or “Cape Kagalus” by Capt. Tebenkov (1852, map 28), IRN.

Kagamil Island: island, 6.2 miles long, one of Islands of Four Mountains, Aleutian Islands; 53° 00' N, 169° 43' W; (map 21, 22). Variant: Chamil Island, Chuginok Island, Kagamila Island, Kagamiliak Island, Kagamiliakh Island, Khogamil Island, Ostrov Kigalga. Aleut name applied to this island by Capt. Tebenkov (1852, map 25), IRN. This island was called “O[strov] Chuginok” or “Chuginok Island” by Lt. Sarichev (1826, map 3), IRN, and “O[strov] Kigalga,” or “Kigalga Island,” by the Russian Hydrog. Dept. (1847, Chart 1379). See Chuginidak and Four Mountains, Islands of.

Kagamil Pass: water passage, between Chuginadak and Kagamil Islands, Aleutian Islands; 52° 55' N, 169° 44' W; (map 21). Name derived from Kagamil Island and published by USC&GS in 1944 Aleutian Coast Pilot (p. 72).

Kagamila Island: island, see Kagamil Island.

Kagamiliak Island: island, see Kagamil Island.

Kagamiliakh Island: island, see Kagamil Island.

Kagan Lake: lake, see Togiak Lake.

Kagankagati Lake: lake, 3.3 miles long, at head of Kuttak River, 11 miles SE of village of Scammon Bay, Yukon Kuskokwim Delta; 61° 43' N, 165° 18' W; (map 75). Variant: Kagankaguti Lake, Kegum Kagati. Eskimo name reported by USC&GS in 1951, which may mean “the source.”

Kagankaguti Lake: lake, see Kagankagati Lake.

Kagati Lake: lake, 4 miles long, connected at its W end to Pegati Lake, 2 miles N of Nuklunek Mountain, 75 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 52' N, 160° 05' W; (map 53). Variant: Kanektuk Lake. Eskimo name, meaning “source,” reported in 1898 by J. E. Spurr and W. S. Post, USGS. The lake is a source of Kanektuk River.

Kagati Lake: lake, see Pegati Lake.

Kagavik River: stream, see Topagoruk River.

Kagayan Flats: marsh, 2.5 miles across, between Cape Aliaksin and mainland, 10 miles N of Unga Island, near SW end of Alaska Peninsula, Aleutian Range; 55° 31' 30" N, 160° 48' 00" W; (map 28). Published by USC&GS in 1916 Coast Pilot (p. 166).

Kagboo Creek: stream, flows S 6.5 miles to Squirrel River, N of Kiana Hills, 15 miles NW of Kiana, Brooks Range; 67° 07' N, 160° 51' W; (map 127). Eskimo name obtained in 1955 by U.S. Army Corps of Engineers.

Kageehok, Cape: promontory, 2 miles E of Gambell, on NW tip of Saint Lawrence Island; 63° 47' N, 171° 41' W; (map 93). Variant: Kagihok Point. Eskimo name reported in 1949 by Maj. Allen, USAF.

Kagh-Kasalik, Cape: point of land, see Tikugha Point.

Kagh-Kasslik, Cape: point of land, see Tikugha Point.

Kaghasuk Lake: lake, 14 miles long, N of Baird Inlet, and 65 miles W of Bethel, Yukon-Kuskokwim Delta; 60° 53' N, 163° 42' W; (map 58). Eskimo name reported in 1949 by USC&GS.

Kaghkaghamute: locality, see Kakamut.

Kaghkasalik, Cape: point of land, see Kaghkusalik Point.

Kaghkusalik Point: point of land, at mouth of Muknuk River, 12 miles SW of Savoonga, N coast of St. Lawrence Island; 63° 36' N, 170° 48' W; BGN 1951; (map 93). Variant: Cape Kaghkasalik, Kakhkasalik. Eskimo name recorded by Orth, in 1965, as "Kakhkasalik" and refers to the "top of the head" or "crown." The name was published in 1932 as Cape Kaghkasalik by the Univ. of Alaska.

Kaghoopalik Point: point of land, 7 miles S of Gambell, W coast of St. Lawrence Island; 63° 41' N, 171° 45' W; BGN 1951; (map 93). Variant: Cape Kaghoopalik, Cape Kaghoopaulik, Cape Kakhupalik. Eskimo name often written "Kakhupalik" and means "brow-like." The name was published by the Univ. of Alaska in 1932.

Kaghoopaulik, Cape: point of land, see Kaghoopalik Point.

Kagiaktak Creek: stream, see Kahgeatak Creek.

Kagigikak, Cape: point of land, on S coast of Adak Island, Aleutian Islands; 51° 37' 40" N, 176° 43' 20" W; BGN 1936; Variant: Cape Kagigikhnach, Kagigikhakh, Mys. Aleut name published by the Russians as "M [ys] Kagigikhakh," or "Cape Kagigikhakh" (Tebenkov, 1852, map 28).

Kagigikhakh, Mys: point of land, see Kagigikak, Cape.

Kagigikhnach, Cape: point of land, see Kagigikak, Cape.

Kagigun Islands: islands, see Shumagin Islands.

Kagihok Point: promontory, see Kageehok, Cape.

Kagiluak Bight: cove, 1.3 miles across, indents SE shore of Demarcation Bay, 3.5 miles S of Demarcation Point, Arctic Plain; 69° 38' N, 141° 16' W; (map 138). Eskimo name recorded in 1952 by USC&GS.

Kagiluak Creek: stream, flows 5.5 miles NW to Kagiluak Bight, 4 miles S of Demarcation Point, Arctic Plain; 69° 38' N, 141° 15' W; (map 138). Eskimo name recorded in 1952 by USC&GS.

Kagloogrock: locality, see Kaglugrak Deep.

Kaglugrak Deep: locality, deep place in Wulik River, 2.5 miles NE of Kivalina, Kotzebue-Kobuk Lowland; 67° 44' N, 164° 27' W; (map 128). Variant: Kagloogrock, Kaglugzaaq. Eskimo name meaning "old deep place" reported in 1966 by E. S. Burch.

Kaglugzaaq: locality, see Kaglugrak Deep.

Kagluik, Mount: mountain, see Ikagluik, Mount.

Kagnik: locality, see Kangik.

Kagokakat: locality, "on rightbank of Yukon River." Variant: Kagokhakat, Khatnotoutze. Former Eskimo camp or settlement reported in 1843 as "Kagokhakat," with a population of 9, by Lt. L. A. Zagoskin, IRN; listed as "Katnotoutze" with a population of 115 by Ivan Petroff in 1880 Census.

Kagokhakat: locality, see Kagokakat.

Kagueruh Creek: stream, see Kagueruk Creek.

Kagueruk Creek: stream, on Seward Peninsula flows NW 9 miles to Arctic Lagoon, 47 miles NW of Teller, Kotzebue-Kobuk Lowland; 65° 53' N, 167° 01' W; (map 111). Variant: Kagueruh Creek, Kue-wark River. Eskimo name published in 1956 by USGS. Reported as "Kue-wark River" on the precinct map of Seward Peninsula by Monroe and Hutchins, corrected to June 1903 by Arthur Gibson.

Kaguiak: village, see Kaguyak.

Kaguk Cove: bay, 2.2 miles long, on W coast of Prince of Wales Island, 2 miles E of Point Swift and 20 miles NW of Craig, Alexander Archipelago; 55° 45' 15" N, 133° 16' 15" W, (map 4). Indian name recorded in 1949 by USGS.

Kagusuk Cave: cave, on N slope of Mount Umagatsiak, 16 miles N of Kivalina, Arctic Slope; 67° 57' N, 164° 35' W; (map 128). Variant: Kahgowsuk, Qaagusuk. According to E. S. Burch in 1966, this cave is famous in Eskimo folklore. Here Shamans were supposed to obtain their magical powers. Most of the roof has reportedly collapsed.

Kaguyak Bay: bay, 1.5 miles across, at Kaguyak, on SE coast of Kodiak Island; 56° 53' N, 153° 43' W; (map 33). Variant: Alsentia Bay, Sbichsak Bay, Svikhchak Golfe. Name derived from village of Kaguyak; published in 1943 by USC&GS. This bay was called "Svikhchak" by Capt. Lutke (1835, p. 275), IRN, and was reported as "Z[aliv] Svikhshak" or "Svikhshak Bay," by Capt. Tebenkov in 1849. The name "Alsentia" was given to the bay in 1888 by USBF.

Kaguyak Crater: crater, 1.6 miles across, near S coast of Alaska Peninsula, in Katmai National Monument, 40 miles NE of Mount Katmai, Aleutian Range; 58° 37' N, 154° 03' W; (map 42). Variant: Kaguyak Volcano. Named in 1951 by USGS after the Eskimo village of "Kaguyak," now abandoned.

Kaguyak Volcano: crater, see Kaguyak Crater.

Kaguyak, Cape: point of land, 3 miles NE of Kaguyak, on SE coast of Kodiak Island; 56° 52' 30" N, 153° 41' 30" W; (map 33). Name derived from village of Kaguyak; published in 1943 by USC&GS.

Kaguyak: locality, site of village on NE coast of Alaska Peninsula, in Katmai National Monument, 3.5 miles N of Cape Chiniak, 44 miles NE of Mount Katmai, Aleutian Range; 58° 34' 05" N, 153° 53' 55" W; (map 43). Variant: Douglass, Kaiayakak, Kayayak, Naouchkak. Name published in 1884 by USC&GS on Chart 960. This abandoned settlement was called "Kaiayakak" by Capt. Lutke (1836, p. 275), IRN, and "Seleniye Kayayak," "Kayayak Village," by Tebenkov (1852, map 22). In 1890, the U.S. Census Bureau called it "Douglass, after Cape Douglass" [sic] (Baker, 1906, p. 341).

Kaguyak: village, at head of Kaguyak Bay, on SE coast of Kodiak Island; 56° 51' 40" N, 153° 46' 00" W; BGN 1890; (map 33). Variant: Aleutsk Selen Kaniyagmyut, Alsentia, Kaguiak, Kaniag-miut, Kayayak, Naouchkak. Native name reported in 1880 as "Kaguiak" by Petroff (1881, p. 31). This village may be "Aleutsk Selen Kaniyagmyut," meaning "Aleut village of Kaniyagmyut"; reported by the Russian American Company in 1849. In 1868 USC&GS recorded the name "Alsentia."

Kagvik Creek: stream, in De Long Mountains, flows SE 22 miles to Kugururok River, 8 miles NW of Misheguk Mountain, Brooks Range; 68° 17' N, 161° 26' W; (map 131). Eskimo name reported by USGS in 1956.

Kah Shakes Cove: estuary, extends E 0.7 miles, off Revillagigedo Channel, 1.4 miles S of Kah Shakes Point, Coast Mountains; 55° 02' 40" N, 130° 59' 15" W; (map 3). Named for the chief of a Tlingit Indian village at the northern point of entrance to this feature. (See Kah Shakes: locality).

Kah Shakes Cove: locality, see Kah Shakes.

Kah Shakes Creek: stream, heads at Kah Shakes Lake, flows SW 1.5 miles to Kah Shakes Lagoon, Coast Mountains; 55° 02' 30" N, 130° 58' 35" W; (map 3). Local name reported in 1901 by Comdr. J. F. Moser, USN.

Kah Shakes Lagoon: lagoon, extends 1.2 miles from NE end of Kah Shakes Cove to mouth of Kah Shakes Creek, Coast Mountains; 55° 02' 25" N, 130° 58' 45" W; (map 3). Local name reported in 1901 by Lt. Comdr. J. F. Moser, USN.

Kah Shakes Lake: lake, 0.8 miles across, drains into Kah Shakes Cove on Revillagigedo Channel, SW of South Quadra Mountain, Coast Mountains; 55° 03' 30" N, 130° 56' 15" W; BGN 1962; (map 3). Local name reported in 1901 by Lt. Comdr. J. F. Moser, USN.

Kah Shakes Point: point of land, S point of entrance to Boca de Quadra, Coast Mountains; 55° 04' 50" N, 130° 59' 20" W; (map 3). Local navigators' name obtained in 1904 by H. C. Fassett, USBF; derived from village of Kah Shakes.

Kah Shakes: locality, on shore of Kah Shakes Cove, near entrance to Boca de Quadra, Coast Mountains; 55° 02' 30" N, 130° 58' 30" W; (map 3). Variant: Kah Shakes Cove, Kashs Village. Former Tlingit Indian village named for Kah Shakes, the chief of the village; published as "Kah Shakes Cove," in the 1890 Census (p. 25). In the 1880 Census Petroff (1884, p. 32) reported "Kashs Village," pop. 49, located here, and "Shakes Village," pop. 38, on nearby Etolin Island. See Shakes Village.

Kah Sheets Bay: bay, extends SE 2.5 miles to Sumner Strait, on S coast of Kupreanof Island, 22 miles SW of Petersburg, Alexander Archipelago; 56° 31' N, 133° 06' W; (map 6). Tlingit Indian name obtained from local navigators; reported in 1904 by H. C. Fassett, USBF. See Kah Sheets Creek.

Kah Sheets Creek: stream, heads in Kah Sheets Lake, flows SE 2.5 miles to Kah Sheets Bay, 21 miles SW of Petersburg, on S coast of Kupreanof Island, Alexander Archipelago; 56° 31' 50" N, 133° 08' 25" W; (map 6). Variant: Kah-Sheets Creek. Tlingit Indian name given "by the fisheries" and reported in 1897 by J. F. Moser, USN, as "Kah-Sheets Creek." See Kah Sheets Bay.

Kah Sheets Island: island, 0.5 miles long, in Kah Sheets Bay at mouth of Duncan Canal, 21 miles SW of Petersburg, on S coast of Kupreanof Island, Alexander Archipelago; 56° 31' 00" N, 133° 05' 30" W; BGN 1933; (map 6). Local name reported in 1933 by R. H. Sargent, USGS. See Kah Sheets Creek.

Kah Sheets Lake: lake, 1.5 miles long, 20 miles SW of Petersburg, on S coast of Kupreanof Island, Alexander Archipelago; 56° 33' 30" N, 133° 12' 00" W; (map 6). Variant: Kah-Sheets Lake. Tlingit Indian name "given by the fisheries" and reported in 1897 by J. F. Moser, USN, as "Kah-Sheets Lake."

Kah-Hehe: stream, see Karheen Creek.

Kah-lig-y-nak: village, see Koliganek.

Kahate River: stream, see Katete River.

Kahgakaglick: bluff, see Kagakaglik Bank.

Kahgeatak Creek: stream, flows NW 7.5 miles to Chukchi Sea at mouth of Amatusuk Creek, 7 miles NE of Cape Beaufort and 48 miles SW of Point Lay, Arctic Plain; 69° 05' 30" N, 163° 38' 15" W; (map 145). Variant: Kagiaktak Creek, Tolookuk Creek, Tolukak Creek. Eskimo name reported by USC&GS in 1949. The name "Kahgeatak" seems to be the same name as "Kahkatak," which is applied to a nearby stream.

Kahgowsuk: cave, see Kagusuk Cave.

Kahilitna Glacier: glacier, see Kahiltna Glacier.

Kahilitna River: stream, see Kahiltna River.

Kahiltna Dome: peak, 12,525 ft., W of Kahiltna Glacier, between Mount Crosson and Mount Capps, 7.4 miles W of summit of Mount McKinley, Alaska Range; 63° 03' 15" N, 151° 14' 00" W; BGN 1960; (map 88). Name reported in 1960 by Bradford Washburn.

Kahiltna Glacier: glacier, heads in icefield between Mount Foraker and Mount Hunter trends S 30 miles to head of Kahiltna River, 5 miles E of Chelatna Lake and 35 miles NE of Talkeetna, Alaska Range; 62° 29' N, 151° 15' W; BGN 1911; (map 81). Variant: Car-ilt-nu Glacier, Kahlitna Glacier, Kahilitna Glacier. Tanaina Indian name reported in 1899 by Lt. J. S. Herron (1901, p. 45 and map), USA, as "Car-ilt-nu." The present spelling was published by Adolph Knopf and Sidney Paige (in Brooks and others, 1906, p. 118), USGS.

Kahiltna Notch: pass, 11,960 ft., between East and Northeast Forks of Kahiltna Glacier, 1.9 miles SW of summit of Mount McKinley, Alaska Range; 63° 02' 40" N, 151° 02' 00" W; (map 88). Mountain climbers' name published in 1954 by USGS.

Kahiltna Pass: pass, 10,400 ft., between Peters Basin and Kahiltna Glacier, E of Mount Capps and 5.4 miles W of summit of Mount McKinley, Alaska Range; 63° 05' N, 151° 10' W; (map 88). Mountain climbers' name published in 1954 by USGS.

Kahiltna Peaks: peaks, W peak 12,835 ft., E peak 13,440 ft., SW of summit of Mount McKinley, between Northeast Fork and East Fork Kahiltna Glacier, Alaska Range; 63° 01' 45" N, 151° 06' 00" W; (map 88). Mountain climbers' name published in 1954 by USGS.

Kahiltna River: stream, heads at Kahiltna Glacier at 62° 27' 45" N, 151° 12' 30" W, flows SE 60 miles to Yentna River, 53 miles NW of Anchorage, Cook Inlet Lowland; 61° 51' 10" N, 150° 46' 45" W; BGN 1911; (map 70). Variant: Cariltnu River, Kahilitna River, Kahlitna River, Kalidtna River, Kariltna River. Tanaina Indian name reported in 1899 by Lt. Herron (1901, p. 45 and map), USA, as "Car-ilt-nu." Present spelling was published by Adolph Knopf and Sidney Paige (in Brooks and others, 1906,p. 118), USGS.

Kahin: stream, see Karheen Creek.

Kahin: water passage, see Karheen Passage.

Kahini: stream, see Karheen Creek.

Kahini: water passage, see Karheen Passage.

Kahkatak Creek: stream, flows NW 7.5 miles to Chukchi Sea at Cape Beaufort, 54 miles SW of Point Lay, Arctic Plain; 69° 02' N, 163° 50' W; (map 145). Variant: Kahkatak River, Kukeatak River. Chapman and Sable (1960, p. 53), USGS, state that this name was obtained from USC&GS. It is the Eskimo name for Cape Beaufort.

Kahkatak River: stream, see Kahkatak Creek.

Kahlchatlan: locality, "in SE Alaska," Coast Mountains. According to J. R. Swanton (in Hodge, 1907, p. 641), BAE, this locality was "A town occupied by the Stikine [Indians] before moving to * * * Wrangell * * *."

Kahlgiksuk: stream, see Kalgiksuk Creek.

Kahlitna Glacier: glacier, see Kahiltna Glacier.

Kahlitna River: stream, see Kahiltna River.

Kahltag: village, see Kaltag.

Kahlukhtughamiut: locality, see Kaluktuk.

Kahmiut: locality, "in the Kuskokwim district." Former Eskimo camp or settlement listed with a population of 40 in the 1890 Census.

Kahnacula Glacier: glacier, see Kanikula Glacier.

Kahnirakmiut: locality, 18 miles SW of Cape Etolin, on N coast of Nunivak Island; 60° 18' 31" N, 166° 36' 10" W; (map 57). Variant: Kanirak, Kanirakmiut. Eskimo village, now abandoned, reported in 1949 by USC&GS. Name refers to "people [village] in the corner [of the cove]."

Kahniruk River: stream, flows NW 8 miles to Bering Sea at Kahnirukmiut, 18 miles SW of Cape Etolin, on N coast of Nunivak Island; 60° 18' 31" N, 166° 36' 10" W; (map 57). Variant: Kanirak Creek. Eskimo name meaning "corner [of the cove]" reported in 1949 by USC&GS.

Kahshagnak, Mount: mountain, 5,670 ft., in Takshanuk Mountains, 2 miles W of mouth of Chilkoot River, in Chilkoot Lake and 15 miles SW of Skagway, Coast Mountains; 59° 22' 40" N, 135° 41' 30" W; (map 45). Variant: Cathedral Peak. Local name reported by E. C. Robertson, geologist, and published in 1952 by USGS. It was called Cathedral Peak by the IBC (1923, map 9).

Kahsitsnah: bay, see Kasitsna Bay.

Kahtete River: stream, see Katete River.

Kahuntla, Lake: lake, 0.7 miles long, 1.5 miles SW of Katalla, Malaspina Coastal Plain; 60° 11' N, 144° 34' W; (map 64). Indian name reported in 1903 by G. C. Martin, USGS.

Kahurnoi, Cape: point of land, see Kekurnoi, Cape.

Kahwateta Mountain: mountain, see Iron Mountain.

Kahwaytetay Mountain: mountain, see Iron Mountain.

Kai-gah-nee Harbors: bays, see Kaigani Harbors.

Kai-gah-nee Point: point of land, see Kaigani Point.

Kaiak Cape: point of land, see Kayak Cape.

Kaiak Island: island, see Kayak Island.

Kaiakak: locality, "on right bank of Yukon River, below Nulato," Nulato Hills; (map 97). Former Eskimo village listed with a population of 134 by Ivan Petroff in the 1880 Census.

Kaiakishvigmiut: villages, see Utukok villages.

Kaiaksekawik: locality, "on the N side of Icy Cape," Arctic Plain; (map 146). Variant: Kayakshigvikg. Former Eskimo camp or settlement reported by Lt. L. A. Zagoskin, IRN, in 1847 as "Kayakshigvikg," meaning "place for making Kayaks" (Hodge, 1907, p. 641).

Kaiaksuk Mountain: mountain, see Kayaksak Mountain.

Kaialigumiut: locality, see Kaialik.

Kaialik: locality, "in Yukon delta," Yukon-Kuskokwim Delta. Variant: Kaialigumiut, Kailwigamiut, Kialigamiut. Former Eskimo camp or settlement reported in 1878 by E. W. Nelson, U.S. Signal Service. Ivan Petroff listed it as "Kaialigumiut," with a population of 100, in the 1880 Census; it was listed as "Kailwigamiut" and "Kiligamiut," with a population of 157 in the 1890 Census.

Kaianak, Cape: point of land, see Battery Point.

Kaiasik: island, one of Shumagin Islands; 55° N, 160° W; (map 27). Variant: Kassik. This Aleut name was applied by Father Veniaminov (1840, v.1 p. 265), who described the island as high and rocky. Capt. Lutke (1836, p. 267) called it "Kassik." We are unable to identify the island at the present time.

Kaiayakak: locality, see Kaguyak.

Kaichali Island: island, see Kaiuchali Island.

Kaigahnee Strait: water passage, see Kaigani Strait.

Kaigahnee: point of land, see Muzon, Cape.

Kaigan Strait: water passage, see Kaigani Strait.

Kaiganee: point of land, see Muzon, Cape.

Kaigani Harbors: bays, collective name for North, Middle and South Kaigani Harbors, on SE Coast of Dall Island, Alexander Archipelago; 54° 45' 30" N, 132° 43' 00" W; (map 1). Variant: Kai-gah-nee Harbors. Haida Indian name recorded by A. K. Etolin in 1833 as "Gavan Kaigan," or "Kaigan Harbor"; published on Russian Hydrog. Dept. Chart 1396 in 1848. USC&GS published the name "Kai-gah-nee Harbors" for these bays in the 1883 Coast Pilot (p. 66), and referred to them as North Harbor, Middle Harbor (South Harbor since 1932), and South Harbor (Datzkoo Harbor since 1932). See Datzkoo Harbor, North Harbor and South Harbor.

Kaigani Point: point of land, SW tip of Long Island, Alexander Archipelago; 54° 45' 10" N, 132° 39' 10" W (map 1). Variant: Kai-gah-nee Point. Name derived from Kaigani Strait and published by USC&GS in the 1883 Alaska Coast Pilot (p. 67) as "Kai-gah-nee Point."

Kaigani Strait: water passage, extends SE 22 miles from Tlevak Strait to mouth of Cordova Bay between Dall and Long Islands, Alexander Archipelago; 54° 52' N, 132° 48' W; BGN 1939; (map 1). Variant: Howkan Strait, Kaigahnee Strait, Kaigan Strait, Port Liscome. Haida Indian name reported by A. K. Etolin as "Kaigan" in 1833. This appears to be the Port Liscome shown on a 1792 map by Joseph Ingraham (Wagner, 1937, p. 359).

Kaigani Strait: water passage, see Dixon Entrance.

Kaigani: locality, site of summer camp or village of Haida Indians, at SE end of Dall Island, Alexander Archipelago; 54° 40' 40" N, 132° 40' 40" W; BGN 1954; (map 1). Haida Indian name given in 1880 by Sheldon Jackson. J. R. Swanton, BAE, says "Kaigani * * * A division of the Haida * * * Their name is derived from that of a camping place or summer settlement where they were accustomed to assemble to meet incoming vessels and to trade with the whites. The Kaigani emigrated from the NW end of Queen Charlotte Islands between 150 and 200 years ago [early 1700's], drove the Tlingit (Koluschan) from the S end of Prince of Wales Island, and took possession of their towns. The most important of these settlements were Sukwan, Klinkwan, Howkan, and Kasaan, which bear their old Tlingit names * * * Like many Tlingit tribes, but unlike other Haida, the Kaigani subdivisions took their names from the name given to some individual house * * *" (Hodge, 1907, p. 642). The villages of Howkan, Klinkwan, and Sukkwan were absorbed in the late 1800's by the former village of Kaigani which, in turn, was abandoned in 1911 when the village of Hydaburg was established in order to centralize the school system. See Howkan, Klinkwan, and Sukkwan.

Kaigani: point of land, see Muzon, Cape.

Kaigao Cove: bay, 0.4 miles long, in Naukati Bay on W coast of Prince of Wales Island, 30 miles N of Craig, Alexander Archipelago; 55° 53' 15" N, 133° 10' 00" W; (map 4). Indian name published in 1964 by USC&GS.

Kaigo Point: point of land, on W coast of Prince of Wales Island, between Kaigao and Kaikli Coves, 30 miles N of Craig, Alexander Archipelago; 55° 53' 05" N, 133° 10' 10" W; (map 4). Indian name published in 1964 by USC&GS.

Kaikli Cove: bay, 1 mile long, off Naukati Bay, 28 miles N of Craig, Alexander Archipelago; 55° 53' N, 133° 10' W; (map 4). Indian name recorded in 1949 by USGS.

Kaikshak Hill: mountain, 4,600 ft., E of Killik River, 10 miles SE of Lake Udrivik Brooks Range; 68° 22' N, 153° 50' W; (map 133). Eskimo name reported in 1956 by T. E. Taylor, USGS.

Kaiku Creek: stream, see Kako Creek.

Kailwigamiut: locality, see Kaialik.

Kaina Creek: stream, heads in glacier, flows N 34 miles to Tazlina Lake, 3.4 miles NE of mouth of Mendelina Creek and 60 miles N of Valdez, Copper River Basin; 61° 59' 10" N, 146° 18' 50" W; (map 68). Local name published on a 1917 USGS map.

Kaina Lake: lake, 8 miles long, on Kaina River 4.4 miles W of St. Anne Lake and 51 miles N of Valdez, Chugach Mountains; 61° 51' 00" N, 146° 11' 35" W; (map 68). Local name published on a 1932 USGS map.

Kaisana: islands, see Kasiana Islands.

Kaishi Point: point of land, on W coast of Prince of Wales Island, N point of entrance to Naukati Bay, 28 miles N of Craig, Alexander Archipelago; 55° 51' 40" N, 133° 12' 00" W; (map 4). Indian name recorded in 1949 by USGS.

Kaiuchali Island: island, 500 ft. across, 1 mile SW of Biorka Island and 18 miles SW of Sitka, Alexander Archipelago; 56° 50' 00" N, 135° 33' 50" W; (map 5). Variant: Kaichali Island, Ostrov Kayu-chali. Tlingit Indian name; reported in 1809 by Ivan Vasiliev the first, IRN; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Kayu-chali," or "Kayu-chali Island."

Kaiugnak Bay: bay, extends W 8 miles off Sitkalidak Strait, on SE coast of Kodiak Island; 57° 02' N, 153° 30' W; (map 34). Variant: Zaliv Kayugnak. Aleut name published as "Z[aliv] Kayugnak," or "Kayugnak Bay," by Capt. Tebenkov (1852, map 23) and is perhaps derived from the word "quayuq" which, according to R. H. Geoghegan, means "berry."

Kaiuklipalik Island: island, see Kiukaplik Island.

Kaiulik Bay: bay, see Kujulik Bay.

Kaiyak, Lake: lake, 1 mile long, in Kugururok River Valley, in De Long Mountains, 10 miles SW of Misheguk Mountain, Brooks Range; 68° 09' N, 161° 26' W; (map 131). Eskimo name reported by the U.S. Army Corps of Engineers about 1955, probably referring to the one-man canoe.

Kaiyak: locality, see Kayak.

Kaiyuh Mountains: range, elev. 1,000-2,844 ft. E of Yukon River, extends NE 145 miles from Holikachuck Slough, Kilbuck-Kuskokwim Mountains; 63° 55' N, 158° 30' W; (map 90).

Variant: Kayuh Mountains, Takaitsky. Name reported in 1866 by Dall (1870, p. 53) who stated that they were named for the Ingalik Indian group who live in the flats between the mountains and the Yukon River, known as “Kaiyuhkatana” meaning “lowland people.” Dall also said that the Russian name for the mountains is “Takaitsky.”

Kaiyuh Slough: stream, flows SE 23 miles to Khotol River, 19 miles SE of Nulato, Koyukuk Lowland; 64° 26' N, 157° 57' W; (map 97). Variant: Kayakh, Kutulnakht. Indian name obtained in 1866 by W. H. Dall (1870, p. 282), USC&GS. Father Julius Jette states that the name “Kayakh” was applied to the mountains, and the slough took its name from the mountains. The Indians here were referred to as the “Kaiyah-kho-tana” (p. 431).

Kajulik River: stream, see Kejulik River.

Kajutakrok Creek: stream, flows N 10 miles to Camden Bay, 3 miles E of Sadlerochit River and 15 miles SW of Barter Island, Arctic Plain; 70° 01' 50" N. 144° 17' 45" W; (map 151). Eskimo name reported by USGS in 1956.

Kak Island: island, 0.3 miles across, in Pacific Ocean, 1.7 miles S of Nakchamik Island and 22 miles E of Chignik, Aleutian Range; 56° 17' N, 157° 49' W; (map 31). Variant: Kak Islet, Kakh, Katch Island, Rocky Island. Eskimo name reported by Capt. Tebenkov (1852, map 22), IRN.

Kak Islet: island, see Kak Island.

Kaka: locality, see Kakamut.

Kakachtoli: watercourse, see Kakahkituli Pass.

Kakagin Inlet: bay, see Basket Bay.

Kakagrak Hills: hills, 930 ft., in Igichuk Hills, extend 6 miles S of Kilikmak Creek, on Chukchi Sea coast, 10 miles N of Cape Krusenstern, Arctic Slope; 67° 18' N, 163° 39' W; BGN 1962; (map 128). Variant: Kakarak Hills, Kakaruk Hills, Kugakrak Mountains, Kukagruk Mountains. Eskimo name obtained in 1950 by USC&GS.

Kakahkituli Pass: watercourse, in distributary system of Yukon River, trends NW 15 miles from Kwiguk Pass to Norton Sound, Yukon-Kuskokwim Delta; 62° 51' 15" N, 164° 50' 00" W; (map 77). Variant: Kakachtoli. Eskimo name recorded in 1899 as “Kakachtoli” by G. R. Putnam, USC&GS; published in 1901 on Chart 9373.

Kakamiut: locality, see Kakamut.

Kakamut: locality, on N bank on Yukon River 15.5 miles SW of Russian Mission, Yukon-Kuskokwim Delta; 61° 37' 30" N, 161° 40' 30" W; (map 73). Variant: Kaghkaghmute, Kaka, Kakamiut, Kochkogamute, Kochkomut, Koko, Kokok. Eskimo name reported by Capt. C. W. Raymond, USA, in 1869, as “Kochkagamute.” USC&GS called it “Kochkomut” in 1898. This was a small settlement in 1916, consisting of about three cabins. It has the same number today.

Kakan River: stream, see Muddy Creek.

Kakangina: stream, see Muddy Creek.

Kakanhini Creek: stream, see Muddy Creek.

Kakarak Hills: hills, see Kakagrak Hills.

Kakaruk Hills: hills, see Kakagrak Hills.

Kakatkusik: point of land, see Sarichef Cape.

Kake Cove: estuary, trends S 0.6 miles, on SE tip of Chenega Island, W of Knight Island Passage, 1.5 miles E of Chenega, Chugach Mountains; 60° 16' 40" N, 148° 01' 50" W; (map 63). Name published in 1950 by USGS.

Kake Strait: water passage, see Keku Strait.

Kake: village, pop. 455, on NW coast of Kupreanof Island, Alexander Archipelago; 56° 58' 30" N, 133° 56' 30" W; BGN 1944; (map 6). Variant: Kekou, Keku, Keq, Klukwan, S'ikanaxsa'ni, S'ikanakhse'ni. Tlingit Indian village named for the Kake tribe living there. The original local village name was "S'ikanakhset'ni" reported to possibly mean "from a black bear town" (Hodge, 1907, p. 644). Fishing and canning are the economic base of the town. The population was 234 in 1890; 232 in 1910; 387 in 1920; 386 in 1930; 419 in 1939; and 376 in 1950. The Kake post office was established in 1901 (Ricks, 1965, p. 30).

Kakechik Bay: bay, see Kokechik Bay.

Kakechik River: stream, see Kokechik River.

Kakh: island, see Kak Island.

Kakhachukalik Island: island, see Kaksajookalik Island.

Kakhkasalik: point of land, see Kaghkusalik Point.

Kakhlyakhlyakakat: locality, at mouth of Gisasa River, on left bank of Koyukuk River, Koyukuk Lowland; 65° 16' N, 157° 39' W; (map 108). Indian name obtained in 1842 by Lt. L. A. Zagoskin, IRN; applied to a camp or village.

Kakhlyakhlyakakat: locality, see Kakliaklia.

Kakhonak Bay: bay, 2 miles wide, at E end of Iliamna Lake, 21 miles SE of Iliamna, Aleutian Range; 59° 28' N, 134° 43' W; BGN 1911; (map 51). Variant: Kakonak Bay, Kokhanok Bay, Kokonok Bay, Kokonuk Bay. Eskimo name reported in 1891 by A. B. Schanz; derived from village of Kakhonak on the shore of the bay.

Kakhonak Lake: lake, 12 miles long, 10 miles N of Bruin Bay, 27 miles NW of Augustine Island, Aleutian Range; 59° 30' N, 154° 15' W; BGN 1911; (map 51). Variant: Kakonak. Name

used by local prospectors; reported in 1909 by G. C. Martin, USGS. The name is derived from the nearby village of Kakhonak.

Kakhonak River: stream, heads at Kakhonak Lake, flows SW 6 miles to Kakhonak Bay, 38 miles W of Augustine Island, Aleutian Range; 59° 27' N, 154° 29' W; BGN 1911; (map 51). Variant: Kakonak River, Kokhanok River, Kokonok River. Eskimo name reported in 1891 by A. B. Schanz. See Kakhonak.

Kakhonak: village, pop. 57, on S shore of Iliamna Lake, 23 miles S of Iliamna, Aleutian Range; 59° 26' N, 154° 45' W; BGN 1911; (map 51). Variant: Kakonak, Kokhanok, Kokonak, Kokonok. Eskimo village, with a population of 28, listed in 1890 Census by A. B. Schanz.

Kakhtolinat, Mount: peak, see Katolinat, Mount.

Kakhtul River: stream, flows NW 20 miles to Mulchatna River, 86 miles NE of Dillingham, Bristol Bay Lowland; 59° 51' N, 156° 40' W; (map 52). Variant: Estu-y-a-rok, Kakhtut, Kokhtuli, Swan Creek, Swan River. Eskimo name reported in 1890 as "Kokhtuli," meaning "woods," by A. B. Schanz in Frank Leslie's Illustrated Newspaper. The river was spelled "Kakhtul" on the 1890 Census map. It was called "Kakhtut" in 1898 by USC&GS. W. H. Osgood (1904a, map), USDA, published it as the "Kakhtul River." More recent maps show the lower part as "Swan River."

Kakhtut: stream, see Kakhtul River.

Kakhuyagamute: locality, see Kakuiak.

Kakhupalik, Cape: point of land, see Kaghoopalik Point.

Kakhvalga Island: island, see Kavalga Island.

Kakiagun Lake: lake, 0.5 miles across, between Anaktuvuk and Colville Rivers, 19 miles NE of Umiat, Arctic Plain; 69° 29' N, 151° 25' W; (map 141). Eskimo name reported in 1956 by T. E. Taylor, USGS.

Kakivilak Creek: stream, flows SE 17 miles to Killik River 17 miles SW of its junction with Easter Creek, Brooks Range; 68° 01' N, 154° 44' W; (map 133). Eskimo name meaning "no nostrils," reported in 1956 by T. E. Taylor, USGS.

Kakkhlyakhlyakakat: locality, see Kakliaklia

Kakliakhliakat: locality, see Kakliaklia.

Kakliaklia: locality, "on the Koyukuk River." Variant: Kakhlyakhlyakakat, Kakkhlyakhlyakakat, Kakliakhliakat, Kakliakliakat, Kikliakliakakate. Former Eskimo camp or settlement reported in 1842-44 as "Kakhlyakhlyakakat" by Lt. L. A. Zagoskin, IRN.

Kakliakliakat: locality, see Kakliaklia.

Kaklik Naitka Creek: stream, flows NE 5 miles to Colville River 3 miles S of its junction with Killik River, Brooks Range; 68° 58' N, 153° 56' W; (map 133). Eskimo name reported in 1956 by T. E. Taylor, USGS.

Kaklongegek Creek: stream, heads in a lake, and flows SE 4 miles to Koozata Lagoon, 35 miles SE of Gambell, Saint Lawrence Island; 63° 27' N, 170° 51' W; BGN 1951; (map 93). Eskimo name recommended by the Gambell village council; reported in 1949 by Maj. H. B. Allen, USAF.

Kakna Lake: lake, 0.5 miles long, on Kenai Peninsula NE of Fire Lake, W of Skilak Lake and 25 miles SE of Kenai, Cook Inlet Lowland; 60° 27' N, 150° 33' W; (map 62). Named about 1963 by officials of the Kenai National Moose Range, for administrative purposes.

Kaknau Creek: stream, in Glacier Bay National Monument, flows S 7 miles to Palma Bay in Gulf of Alaska, 63 miles NW of Hoonah, St. Elias Mountains; 58° 24' 00" N, 137° 04' 30" W; BGN 1930; (map 10). Tlingit Indian name suggested by USC&GS in 1929. This is the name of an Indian village mentioned by Krause (1956, p. 75), located in this valley. The word "kaknau" is reported to mean "grouse foot."

Kaknu Lake: lake, see Skilak Lake.

Kaknu River: stream, see Kenai River.

Kakny: stream, see Kenai River.

Kako Creek: stream, heads in Iivit Mountains, flows SW 30 miles to Yukon River E of Arctic Island and 5 miles N of Russian Mission, Yukon-Kuskokwim Delta; 61° 51' 30" N, 161° 19' 50" W; (map 73). Variant: Kaiku Creek. Eskimo name shown on a 1916 field sheet by R. H. Sargent, USGS, as "Kaiku," although the name was published as "Kako," (Harrington, 1918, map).

Kako Lake: lake, 1 mile long, at mouth of Kako Creek 4.8 miles N of Russian Mission, Yukon-Kuskokwim Delta; 61° 51' 25" N, 161° 20' 30" W; (map 73). Local name reported by U.S. Army Corps of Engineers in 1952.

Kako Landing: locality, on S shore of Kako Lake 4.7 miles N of Russian Mission, Yukon-Kuskokwim Delta; 61° 51' 15" N, 161° 20' 30" W; (map 73). Variant: Kako. Local name published on a 1922 manuscript chart of the Yukon River.

Kako: locality, see Kako Landing.

Kakonak Bay: bay, see Kakhonak Bay.

Kakonak River: stream, see Kakhonak River.

Kakonak: lake, see Kakhonak Lake.

Kakonak: village, see Kakhonak.

Kakoon Lake: lake, 0.4 miles long, on Kenai Peninsula WNW of Phalarope Lake, 8 miles SSW of Point Possession, and 38 miles NE of Kenai, Cook Inlet Lowland; 60° 56' 30" N, 150° 26' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Kakovo Island: island, 0.2 miles across, at mouth of Great Arm Whale Bay, on SW coast of Baranof Island, Alexander Archipelago; 56° 37' 00" N, 134° 58' 30" W; (map 5). Russian name meaning "how" published in 1850 by the Russian American Company.

Kakpeyak River: stream, flows SW 14 miles to Kukpuk River, 17 miles NE of Cape Thompson, Arctic Slope; 68° 15' 30" N, 165° 25' 00" W; BGN 1963; (map 129). Variant: Kukpayak River. Eskimo name reported by D. C. Foote as "Kukpayak" in connection with Project Chariot studies.

Kakrotat Lake: lake, see Kacrowtuk Lake.

Kaksajookalik Island: island, 0.2 miles long, in Bering Sea, 0.1 miles SW of Cape Mendenhall, Nunivak Island; 59° 45' 45" N, 166° 12' 30" W; (map 55). Variant: Kakhachukalik Island, Kaxajookaliy Island. Eskimo name obtained in 1949 by USC&GS.

Kaksu River: stream, heads in lake, flows N 24 miles to Meade River, 85 miles SE of Wainwright, Arctic Slope; 69° 32' N, 158° 23' W; BGN 1926; (map 143). This Eskimo name was originally shown on A 1925 fieldsheet by Gerald FitzGerald, USGS, applied to the stream currently known as Awuna River. The name "Kaksu" some how has migrated to the headwaters of the Meade River.

Kaksu River: stream, see Meade River.

Kaksu River: stream, see Shaningarok Creek.

Kaksurok Mountain: mountain, 1,661 ft., in Igichuk Hills, 14 miles NE of Cape Krusenstern, Arctic Slope; 67° 12' N, 163° 15' W; (map 128). Eskimo name meaning "flat top" according to USC&GS in 1950.

Kaktoavik Island: island, see Barter Island.

Kaktoavik Lagoon: lagoon, see Kaktovik Lagoon.

Kaktoavik: village, see Kaktovik.

Kaktovik Lagoon: lagoon, 3.5 miles across, on coast of Beaufort Sea, between Barter Island and mainland, Arctic Plain; 70° 06' N, 143° 35' W; BGN 1961; (map 152). Variant: Akvakniakvik Lagoon, Kaktoavik Lagoon. Eskimo name reported by Leffingwell (1919, p. 93) as the local name for Barter Island He spells the name "Kaktoavik" and gives Vilhjalmur Stefansson's spelling as "Kaaktovik." According to Leffingwell the name means "seining place." The application of the name to the lagoon was recommended by USC&GS in 1960. There is some local usage of the name "Akvakniakvik Lagoon," meaning "whaling place," so called because the Eskimo on Barter Island "would kill whales when they came into the shoal waters of the lagoon."

Kaktovik: village, pop. 120, on coast of Beaufort Sea, on N coast of Barter Island, Arctic Plain; 70° 08' N, 143° 38' W; BGN 1961; (map 152). Variant: Kaktoavik, Kaaktovik, Katovik, Barter Island. According to Leffingwell (1919, p. 93), this Eskimo name, which he spells "Kaktoavik," applies to Barter Island. The village takes its name from the Eskimo name of the island.

Kaktuli River: stream, flows NW 50 miles to Mulchatna River, 96 miles NE of Dillingham, Bristol Bay Lowland; 59° 57' N, 156° 24' W; (map 52). Variant: Kukh-du-li. Eskimo name shown as "Kukh-du-li" on a 1910 manuscript map by H. C. Fassett, USBF.

Kakuak River: stream, see Kokwok River.

Kakuak: locality, see Kokwok.

Kakuak: village, see Koliganek.

Kakuak: village, see Nunachuak.

Kakuguk: locality, "on Agattu Island in Near Islands," Aleutian Islands; (map 13). Former Aleut village reported as "uninhabited" by Hodge (1907, p. 645), BAE.

Kakuhan Range: mountain range, 8 miles long, trends SE from 58° 58' N, 135° 07' W to Lions Head Mountain, 2 miles E of Lynn Canal and 45 miles NW of Juneau, Coast Mountains; 58° 55' N, 135° 05' W; BGN 1922; (map 11). Variant: Kakukhan. Tlingit Indian name "Qukuxan [Qukukhan]" reported in 1922 by USC&GS; published in 1923 by IBC on Sheet 10 as "Kakuhan."

Kakuiak: locality, "on Kuskokwim River." Variant: Kakhuiyagamute. Former Eskimo camp or settlement listed as "Kakhuiyagamute," with a population of 8, by Ivan Petroff in the 1880 Census.

Kakukhan: mountain range, see Kakuhan Range.

Kakuktahuk Pass: watercourse, in Yukon Delta, extends NE 6.8 miles from Apoon Pass to Pastol Bay, 38 miles NE of Kwiguk, Yukon-Kuskokwim Delta; 63° 08' N, 163° 38' W; (map 92). Eskimo name obtained in 1899 by R. L. Faris, USC&GS; published in 1901 on Chart 9372.

Kakuktukruich Bluff: bluff, elev. 2,000 ft., extends 16 miles on E bank of Sagavanirktok River, between Lupine and Ribdon Rivers, Arctic Slope; 68° 55' N, 148° 42' W (map 135). Eskimo name reported in 1956 by USGS.

Kakukturat Mountain: mountain, 1,730 ft., between Kuparuk and Toolik Rivers, 35 miles SW of junction of Ivishak and Sagavanirktok Rivers, Arctic Slope; 69° 04' 30" N, 149° 30' 30" W (map 140). Eskimo name reported in 1956 by T. E. Taylor, USGS.

Kakul Narrows: water passage, 2 miles long, at E end of Salisbury Sound, 25 miles NW of Sitka, Alexander Archipelago; 57° 22' N, 135° 42' W; (map 9). Named in 1897 by Lt. Comdr. E. K. Moore, USN, probably for Kakul Point at the mouth of the narrows.

Kakul Rock: rock, between Kakul Narrows and Salisbury Sound, off NW coast of Baranof Island, Alexander Archipelago; 57° 21' 45" N, 135° 41' 40" W; (map 9). Named in 1896 by Lt. Comdr. E. K. Moore, USN; published by USC&GS in 1901 Coast Pilot (p. 192). The name was derived from nearby Kakul Point.

Kakul, Point: point of land, on E shore of Salisbury Sound, on Baranof Island, 25 miles NW of Sitka, Alexander Archipelago; 57° 21' 50" N, 135° 41' 25" W; (map 9). Variant: Mys Kakul. Published in 1848 on Russian Hydrog. Dept. Chart 1397 as "Mys Kakul," meaning "Cape Kakul." This name may possibly be derived from the word "Kekur." See Kekur Island.

Kakvuiyat Bend: bend, on Colville River near mouth of Aupuk Creek, 18 miles SE of head of Ikpikpuk River, Arctic Slope, 69° 05' N, 154° 24' W; (map 142). Eskimo name reported in 1956 by T. E. Taylor, USGS.

Kakwan Point: point of land, on right bank of Stikine River, 16 miles NE of Wrangell, Coast Mountains; 56° 41' 50" N, 132° 12' 30" W; (map 6). Tlingit Indian name reported in 1877 by Joseph Hunter, Canadian engineer and surveyor.

Kakwok River: stream, see Kokwok River.

Kal Creek: stream, flows E 8 miles to Canyon Creek, 45 miles S of Eagle, Yukon-Tanana Highlands; 64° 10' N, 141° 08' W; (map 102). Variant: Squaw Creek. Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Kal-la-gu-nick: stream, see Salmon River.

Kala Creek: stream, flows NE 30 miles to Kala Slough, 41 miles E of Nulato, Koyukuk Lowland; 64° 37' N, 156° 45' W; (map 97). Variant: Kalakaket Creek. Local name reported in 1954 by USGS.

Kala Slough: stream, anabranch of Yukon River, flows NW 14 miles to Yukon River, 0.5 miles S of Galena and 35 miles E of Nulato, Koyukuk Lowland; 64° 43' N, 156° 56' W; (map 97). Variant: Louden Slough. Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the U.S. Dept. of Interior.

Kalagin: bay, see Duck Bay.

Kalagin: locality, see Duck Village.

Kalak: settlement, on right bank of Yukon River, 0.3 miles upstream from Pilot Station, Yukon-Kuskokwim Delta; 61° 57' N, 162° 52' W; (map 74). Eskimo name shown on a 1916 fieldsheet by R. H. Sargent, USGS. Sargent shows four cabins there in 1916, but recent maps show only one.

Kalakaket Creek: stream, see Kala Creek.

Kalarvik Point: point of land, on Nelson Island at junction of Baird Inlet and Kolavinarak River, 80 miles W of Bethel, Yukon-Kuskokwim Delta; 60° 41' N, 164° 12' W; (map 58). Eskimo name reported in 1949 by USC&GS.

Kalasik Lake: lake, 3.1 miles long, a cut-off meander of Johnson River, forms a circle W of river, 55 miles S of Marshall, Yukon-Kuskokwim Delta; 61° 06' N, 162° 15' W; (map 74). Eskimo name, meaning “navel,” obtained by USC&GS at Bethel in 1951.

Kalchiksuk: locality, at N end of Reindeer Lake, 25 miles SE of Barrow, Arctic Plain; 71° 09' 30" N, 155° 44' 00" W; (map 153). Eskimo name “Kakiksuk” meaning “high bluffs.” See Kachiksuk Bluffs.

Kaldachabuna Lake: lake, 0.8 miles across, on NW shore of Cook Inlet, 2.6 miles SW of Tyonek, Cook Inlet Lowland; 61° 03' 10" N, 151° 13' 10" W; (map 70). Tanaina Indian name reported in 1958 by USGS.

Kaldolyeit Lake: lake, 1.4 miles long, at head of Kanuti Chalatna Creek, 27 miles SE of Bettles, Kanuti Flats; 66° 32' N, 151° 16' W; (map 117). Koyukan Indian name obtained in 1956 at Allakaket by T. E. Taylor, USGS.

Kaldolyeit Lake: lake, 2 miles long, 24 miles SW of Allakaket, Kanuti Flats; 66° 20' N, 151° 59' W; (map 117). Koyukan Indian name obtained in 1956 at Allakaket by T. E. Taylor, USGS. There is another lake nearby with the same name.

Kaleakhta: bay, see Kalekta Bay.

Kalee: village, see Point Lay.

Kalegosilik River: stream, see Kadleroshilik River.

Kaleguricheark River: stream, see Kaliguricheark River.

Kaleguricheark River: stream, see Kallarichuk River.

Kalekhta, Cape: point of land, see Kalekta, Cape.

Kalekhta: bay, see Kalekta Bay.

Kalekhtak: bay, see Kalekta Bay.

Kalekta Bay: bay, 2.7 miles across, NE coast of Unalaska Island, Aleutian Islands; 53° 59' N, 166° 20' W; (map 23). Variant: Kaleakhta, Kalekhta, Kalekhtak. Aleut name published by Lt. Sarichev (1826, map 14), IRN, as “Za[liv] Kalekhta,” or “Kalekhta Bay.”

Kalekta, Cape: point of land, NE coast of Unalaska Island, Aleutian Islands; 54° 00' N, 166° 22' W; (map 23). Variant: Cape Kalekhta, Igognak, Priest Point. Aleut name published by Lt. Sarichev (1826, map 15), IRN, as “M[ys] Kalekhta” or “Cape Kalekhta.” Lutke (1836, p. 281) reported that the natives called it “Igognak.” It was called Priest Point by USBF in 1888.

Kalekta: locality, Kalekta Bay, Unalaska Island, Aleutian Islands; (map 23). Variant: Selo Kalekhta. This village name was published by Lt. Sarichev (1826, map 14), IRN, as "Sel[o] Kalekhta" or "Kalekhta Village." Baker (1906, p. 345) reported it is "not now in existence."

Kalghin Island: island, see Kalgin Island.

Kalgiksuk Creek: stream, anabranch of Wulik River, 1.5 miles long, 1.8 miles NE of Kivalina, Kotzebue-Kobuk Lowland; 67° 44' N, 164° 28' W; (map 128). Variant: Kahlgiksuk, Qaalgiqsuq. Eskimo name meaning "there are whitefish" reported in 1966 by E. S. Burch.

Kalgin Island: island, 13 miles long, in Cook Inlet, 22 miles W of Kenai, Cook Inlet Lowland; 60° 28' N, 151° 55' W; (map 62). Variant: Isla del Peligro, Kalghin Island, Ostrov Kulgiakh. Tanaina Indian name reported in 1840 by the Russian scientist Island G. Wosnesenski. The name "Isle del Peligro," meaning "danger island," was published by Galiano (1802, map 3)

Kalhambuk Creek: stream, flows SSW 5.2 miles from a lake to Hammond River, 7 miles NW of Sukakpak Mountain and 40 miles WNW of Chandalar, Brooks Range; 67° 40' 40" N, 149° 56' 00" W; (map 123). Name reported in 1939 by Marshall (1956, p. 164).

Kalhagu Cove: cove, 0.3 miles long, on SW end of Chilkat Peninsula, 2.6 miles NW of Seduction Point and 24 miles S of Skagway, Coast Mountains; 59° 06' 30" N, 135° 21' 20" W; BGN 1922; (map 45). Variant: Khalkhagu. Tlingit Indian name "Khalkhagu," meaning "skunk cabbage beach," published by the IBC (1923, map 9).

Kalhvit Lake: lake, see Grosvenor, Lake.

Kali: village, see Point Lay.

Kaliada Bay: bay, see Kiliuda Bay.

Kaliakh River: stream, heads in Hanna Lake, flows SE and SW 24 miles to Gulf of Alaska, 13 miles NW of Cape Yakataga and 106 miles SE of Cordova, Malaspina Coastal Plain; 60° 05' 40" N, 142° 48' 30" W; (map 65). Variant: Cultheeth River, Kaliekh River, Kul-thee-eth River, Kulthieth River. Tlingit Indian name published in 1849 by Capt. M. D. Tebenkov, IRN. The 1869 Coast Pilot (p. 143) spelled it "Kaliekh." This may be the same stream labeled "small river" in Capt. George Vancouver's atlas of 1798.

Kalick: bluff, see Kalik Bluff.

Kalidge Point: point of land, see Gollie Point.

Kalidtna River: stream, see Kahiltna River.

Kaliekh River: stream, see Kaliakh River.

Kalifonsky Beach: beach, on W coast of Kenai Peninsula, extends N 9 miles from Kalifonsky on E shore of Cook Inlet, 2 miles S of Kenai, Cook Inlet Lowland; 60° 27' N, 151° 17' W; (map 62). Local name published in 1958 by USGS; derived from village of Kalifonsky.

Kalifonsky: locality, summer pop. only, on W coast of Kenai Peninsula, S of Kenai, Cook Inlet Lowland; 60° 25' N, 151° 17' W; BGN 1916; (map 62). Tanaina Indian village reported in 1916 by USC&GS. The name may be derived from the "Kali (fishermen)" clan of Tanaina Indians, with a Russian termination.

Kaligagan Island: island, 1 mile long, NE of Tigalda Island, in Krenitzin Islands, Aleutian Islands; 54° 08' 35" N, 164° 55' 00" W; BGN 1904; (map 24). Variant: Sealion Island. Aleut name transcribed by Capt. Tebenkov (1852, map 26), IRN, as "O[strov] Kaligagan" or "Kaligagan Island."

Kalignak: village, see Koliganek.

Kaliguricheark River: stream, flows S 26 miles to Kobuk River 5.5 miles NE of its junction with Salmon River, 35 miles NE of Kiana, Brooks Range; 67° 11' N, 159° 16' W; (map 127). Variant: Kaleguricheark River, Kaligurickeark River. Eskimo name, probably referring to "some kind of a fish," spelled "Kal-e-gu-ri-che-ark" by Lt. Stoney (1900, map), USN, in 1885 and applied the name to the present-day "Kallarichuk River." The name was reapplied to the above described stream on a 1901 fieldsheet by D. L. Raeburn, USGS, and given its present spelling.

Kaligurickeark River: stream, see Kaliguricheark River.

Kalik Bluff: bluff, on left bank of Wulik River, 25 miles NE of Kivalina, Arctic Slope; 67° 52' N, 163° 41' W; (map 128). Variant: Kalick. Eskimo name reported to mean "thing being towed"; so called because from the river the bluff looks like the "stem of a huge barge." Name reported in 1966 by E. S. Burch.

Kalik River: stream, on Seward Peninsula, flows NE 12.7 miles to Chukchi Sea, 63 miles NW of Deering, Kotzebue-Kobuk Lowland; 66° 33' N, 164° 38' W; (map 113). Eskimo name reported to mean "nose mucous" in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Kalikhsnithnukh Creek: stream, see Kaliksneethnook River.

Kalikipik River: stream, heads in lake, flows NE 40 miles to Harrison Bay, 9 miles SW of Atigaru Point, Arctic Plain; 70° 27' N, 151° 56' W; (map 149). Eskimo name reported in 1951 by USC&GS and refers in meaning to the stream "being without banks" because "it flows through flat lands."

Kaliksneethnook River: stream, flows NE 14 miles to Etolin Strait. 23 miles SE of Cape Etolin, on E coast of Nunivak Island; 60° 11' 30" N, 165° 42' 00" W; (map 57). Variant: Kalikhsnithnukh Creek, KalixneethInoox River. Eskimo name obtained in 1949 by USC&GS.

Kalinin Bay: bay, trends N 2 miles to Salisbury Sound, on N coast of Kruzof Island, 24 miles NW of Sitka, Alexander Archipelago; 57° 20' N, 135° 47' W; BGN 1897; (map 9). Variant: Kalinina Bay, Zaliv Kalinina. Name published in 1848 on Russian Hydrog. Dept. Chart 1397 as "Zal[iv] Kalinina," meaning "Kalinina Bay."

Kalinin Point: point of land, on N coast of Kruzof Island, 26 miles NW of Sitka, Alexander Archipelago; 57° 20' 25" N, 135° 48' 00" W; (map 9). Variant: Kalinina Point. Named "Kalinina Point" in 1896 by Lt. Comdr. E. K. Moore, USN, probably for nearby Kalinina (Kalinin) Bay.

Kalinina Bay: bay, see Kalinin Bay.

Kalinina Point: point of land, see Kalinin Point.

Kaliokhlogamute: locality, see Kaliukluk.

Kaliookhlogamute: locality, see Kaliukluk.

Kalisin Reef: reef, see Kalsin Reef.

Kalitna River: stream, see Katlitna River.

Kaliukluk: locality, near Cape Vancouver, NE of Nunivak Island in Bering Sea, Yukon-Kuskokwim Delta; (map 57). Variant: Kaliokhlogamute, Kaliookhlogamute. Former Eskimo camp or settlement reported in 1878 as "Kaliokhlogamute" by E. W. Nelson, U.S. Signal Service.

Kalixneethnoox River: stream, see Kaliksneethnook River.

Kaljukischwigmjut: locality, see Igak.

Kalka Island: island, 2.5 miles long, in Yukon River, 19 miles NNE of Rampart, Kokrines-Hodzana Highlands; 65° 46' N, 150° 00' W; (map 106). Local name reported in 1956 by Orth.

Kalla: locality, on right bank of Kobuk River, 14 miles E of Shungnak, Kotzebue-Kobuk Lowland; 66° 54' N, 156° 38' W; (map 115). Variant: Kallamute. Former Eskimo village visited in 1885 by Lt. G. M. Stoney, USN. He wrote the name "Kallamute," i.e. "Kalla people."

Kallamute: locality, see Kalla.

Kallands: locality, on N shore of Yukon River, at mouth of Illinois Creek, opposite Brant Island, Kokrines-Hodzana Highlands; 65° 11' 00" N, 153° 04' 30" W; (map 107). Variant: Hub Roadhouse. Local name reported by Eakin (1913, pl. 3), USGS.

Kallareechuk River: stream, see Kallarichuk River.

Kallarichuk Hills: ridge, elev. 1,600-3,400 ft., in Baird Mountains, extend SSE 15 miles between Kallarichuk River and Klery Creek, 11 miles NE of Kiana, Brooks Range; 67° 13' N, 160° 12' W; (map 127). Local name reported in 1955 by the U.S. Army Corps of Engineers.

Kallarichuk River: stream, heads in Kallarichuk Hills of Baird Mountains, flows SE 25 miles to Kobuk River, 21 miles NE of Kiana, Brooks Range; 67° 07' N, 159° 43' W; BGN 1912; (map 127). Variant: Kalguricheark River, Kallareechuk River, Reed Creek, Reed River. Along this stream, in 1885, Lt. Stoney (1900, map), USN, recorded the spelling "Kal-e-gu-ri-che-ark (Reed)." D. L. Raeburn's fieldsheet of 1901, USGS, retained the name "Reed River," applying

the Eskimo name to a stream farther east. In 1910, P. S. Smith, USGS, applied the name "Kallareechuk River" to its present location.

Kalmback Lake: lake, 0.8 miles long, one of the Meadow Lakes, in Matanuska Valley, 15 miles NW of Palmer, Cook Inlet Lowland; 61° 36' 30" N, 149° 34' 15" W; (map 69). Local name reported in 1950 by USGS.

Kalokut Creek: stream, flows 27 miles N to Egaksrak Lagoon, SW of Siku Point and 17 miles NW of Demarcation Point, Arctic Plain; 69° 47' N, 141° 57' W; (map 138). Eskimo name recorded by Leffingwell (1919, p. 96) in 1918; its meaning is uncertain.

Kalomak River: stream, see Kolomak River.

Kalooch-agoon Slough: watercourse, see Kaluchagun Slough.

Kaloschen Archipel: islands, see Alexander Archipelago.

Kalsin Bay: bay, extends SW 6 miles off Chiniak Bay, 10 miles S of Kodiak, Kodiak Island; 57° 40' N, 152° 21' W; (map 34). Variant: Guba Kalsinskaya, Kalsinskaia. Transliteration by USC&GS in 1881 of the name "Guba Kalsinskaya," or "Kalsin Bay," published by Sarichev (1826, map 16).

Kalsin Creek: stream, flows N 4 miles to Kalsin Bay, 13 miles S of Kodiak, Kodiak Island; 57° 35' 30" N, 152° 26' 30" W; (map 34). Name derived from Kalsin Bay and published in 1946 by USC&GS.

Kalsin Island: island, 1 mile long, in Kalsin Bay, 9 miles S of Kodiak, Kodiak Island; 57° 39' 45" N, 152° 24' 20" W; (map 34). Variant: Kalsinskoi, Ostrov Kalsinskoy. Transliteration by USC&GS in 1881 of the Russian name "Os[trov] Kalsinskoy," or "Kalsin Island," published by Sarichev (1826, map 16).

Kalsin Reef: reef, in Chiniak Bay, 9 miles SE of Kodiak, Kodiak Island; 57° 41' 10" N, 152° 17' 30" W; (map 34). Variant: Banka Kalsinskaya, Kalisin Reef. Transliteration by USC&GS in 1881 of the name "Banka Kalsinskaya," meaning "Kalsin Shoal," published by Sarichev (1826, map 16).

Kalsinskaia: bay, see Kalsin Bay.

Kalsinskaya, Banka: reef, see Ka'sin Reef.

Kalsinskaya, Guba: bay, see Kalsin Bay.

Kalsinskoi: island, see Kalsin Island.

Kalsinskoy, Ostrov: island, see Kalsin Island.

Kalskag: village, pop. 147, on N bank of Kuskokwim River, 24 miles W of Aniak, Yukon-Kuskokwim Delta; 61° 32' 20" N, 160° 18' 20" W; (map 73). Variant: Kabkag, Kaltchagamut, Kalthagamute, Kaltkhagamute, Kaltshak. This village is listed as "Kaltkhagamute," with a

population of 106 in the 1880 Census of Island Petroff. W. S. Post, USGS, spells the name "Kal-tchagamut" on his 1898 fieldsheet, but places the village on the right bank of a slough, 4 miles southwest of the present village called "Kalskag." The place shown by Post is now abandoned, the people have moved to Lower Kalskag and Kalskag.

Kaltag Mountains: mountains, trend N-S in center of Nulato Hills. So shown by Petroff in the 1880 Census.

Kaltag Portage: portage, between Old Woman and Kaltag, along Unalakleet and Kaltag Rivers, Nulato Hills; 64° 15' N, 159° 00' W; (maps 96, 97). So called in 1900 (Jackson, 1900, p. 53).

Kaltag River: stream, flows NE 20 miles to Yukon River, 33 miles SW of Nulato, Nulato Hills; 64° 20' N, 158° 43' W; (map 97). Variant: Chotachkakat, Khotakhkakat, Rotokakat. Indian name reported in 1900 by Lt. J. C. Cantwell, USRCS; he also gave the name as "Rotokakat," undoubtedly obtained from Father Julius Jette at Nulato who used the "R" to express the "Kh" sound. This name would generally agree then with the Indian name "Khotakhkakat" reported in 1842-44 by Lt. L. A. Zagoskin, IRN. See Khotol River. It appears as if the present name "Kaltag River" is one of the rare cases where a village gave its name to a stream.

Kaltag: village, pop. 165, on right bank of Yukon River, 33 miles SW of Nulato, Nulato Hills; 64° 20' N, 158° 43' W; BGN 1944; (map 97). Variant: Kahltag, Kchaltak, Kkhaltel, Upper Kaltag. Indian village called "Kaltag" by the Russians. The 1880 Census lists two villages with this name, differentiated by "Lower" and "Upper." The present village appears to be the one called "Upper Kaltag" and the "Old Kaltag" site probably was "Lower Kaltag." The name may refer to a species of salmon. Kaltag's population was 45 in 1880; 141 in 1910; 89 in 1920; 137 in 1930; 140 in 1940; and 121 in 1950. A post office was established here in 1903 (Ricks, 1965, p. 31).

Kaltat: locality, "on an island in Yukon River near mouth of Koyukuk River," Nulato Hills; (map 97). Variant: Khaltats Village, K-khaltat. Former Eskimo camp or settlement reported in 1842 as "K-khaltat" with a population of 9 by Lt. L. A. Zagoskin, IRN; listed in the 1880 Census (1884, p. 37), by Ivan Petroff.

Kaltchagamut: village, see Kalskag.

Kaltchagamut: village, see Lower Kalskag.

Kalthagamute: village, see Kalskag.

Kaltkhagamute: village, see Kalskag.

Kaltkhagamute: village, see Lower Kalskag.

Kaltshak: village, see Kalskag.

Kaltshak: village, see Lower Kalskag.

Kalubik Creek: stream, heads in lake, flows N 19 miles to Harrison Bay, 2 miles E of Colville River Delta, Arctic Plain; 70° 25' 50" N, 150° 06' 25" W; (map 149). Eskimo name reported in the late 1940's by USC&GS.

Kaluchagun Island: island, 1.5 miles long, in Norton Sound, 11 miles W of Kwiguk, Yukon-Kuskokwim Delta; 62° 42' 30" N, 164° 51' 00" W; (map 77). Eskimo name obtained in 1948 by USC&GS.

Kaluchagun Slough: watercourse, 0.5 miles long, on Kaluchagun Island in Norton Sound, 11 miles W of Kwiguk, Yukon-Kuskokwim Delta; 62° 42' 30" N, 164° 51' 00" W; (map 77). Variant: Kalooch-agoon Slough. Eskimo name obtained in 1948 by USC&GS.

Kaluchagun: locality, on Kaluchagun Island, in Norton Sound, 11.5 miles W of Kwiguk, Yukon-Kuskokwim Delta; 62° 42' 30" N, 164° 51' 30" W; (map 77). Eskimo camp reported in 1952 by U.S. Army Corps of Engineers.

Kalucna River: stream, see Kalukna River.

Kaluiak: locality, on S shore of Chignik Bay, E of Anchorage Bay and NE of Chignik, Aleutian Range; 56° 25' N, 158° 15' W; (map 30). Name listed as a "native village" by Ivan Petroff in the 10th Census, in 1880. The 11th Census, in 1890, reported that the only village in the area was on Mitrofanina Island, though no name was given. This feature is not shown on recent maps and therefore location is approximate.

Kaluich Creek: stream, heads at 67° 32' N, 158° 28' W, flows N 22 miles to Cutler River, 47 miles SW of Howard Pass, Brooks Range; 67° 47' N, 158° 19' W; (map 126). Eskimo name meaning "lots of fish," obtained by Orth in 1956.

Kalukna River: stream, heads in Mentasta Mountains and flows N 47 miles to Tetlin River, 20 miles SE of Tok, Alaska Range; 63° 08' N, 142° 30' W; (map 85). Variant: Kalucna River, Katusna River. Indian name obtained in 1885 by Lt. H. T. Allen (1887, map), USA.

Kalukruatchiak Point: point of land, at junction of Okokmilaga and Killik Rivers, Brooks Range; 68° 49' N, 153° 27' W; (map 133). Eskimo name obtained in 1956 at Anaktuvuk Pass by T. E. Taylor, USGS.

Kaluktavik River: stream, heads in lake, in DeLong Mountains, flows SW 35 miles to Noatak River W of Isacheluich Mountains, 57 miles NE of Noatak, Brooks Range; 67° 56' N, 161° 00' W; (map 127). Eskimo name meaning "place where wood is obtainable," obtained in 1956 at Noatak by Orth.

Kaluktuk: locality, "in the Kuskokwim district." Variant: Kahlukhtughamiut. Former Eskimo camp or settlement listed as "Kahlukhtughamiut" with a population of 29 in the 1890 Census.

Kalulegeet: locality, see Kalulek.

Kalulek: locality, "at Port Clarence," Seward Peninsula Highlands; (map 111). Variant: Kalulegeet. Former Eskimo camp or settlement listed as "Kalulegeet" in the 1890 Census (p. 162).

Kalulingmiut: locality, on Cape Douglas, 21 miles SW of Teller, Seward Peninsula Highlands; 65° 00' N, 166° 43' W; (map 94). Variant: Nook, Nookmute, Ongneak. Site of an Eskimo village reported in the "Esquimaux," the newspaper published in 1866 and 1867 by personnel of the Western Union Telegraph Expedition quartered at Teller. Ivan Petroff in the 10th Census in 1880 (p. 11) listed "Nook," which means "point of land," here, with a population of 36. He showed "Nookmute" on his map.

Kalummiktowrah: locality, see Kilimantavi.

Kalun Lake: lake, 0.6 miles long, on Kenai Peninsula NW of Paddle Lake, 30 miles NE of Kenai, Cook Inlet Lowland; 60° 46' 40" N, 150° 32' 00" W; (map 62). Variant: Karlun Lake. Named about 1963 by officials of Kenai National Moose Range for administrative purposes.

Kalurivik Creek: stream, flows SW 20 miles to Ambler River, 22 miles N of Shungnak, Brooks Range; 67° 12' N, 157° 16' W; (map 126). Eskimo name reported by the U.S. Army Corps of Engineers in 1955.

Kalusuk Creek: stream, flows NE 25 miles to the South Fork Buckland River, 51 miles NE of Haycock, Nulato Hills; 65° 41' N, 159° 51' W; (map 109). Eskimo name reported in 1949 by the U.S. Army Corps of Engineers.

Kalutna River: stream, heads 9.5 miles SW of Northway, W of Nabesna River, flows N 26 miles to Tanana River, 23 miles SE of Tok, Alaska Range; 63° 10' N, 143° 21' W; (map 85). Indian name reported by USGS in 1955.

Kalutna River: stream, see Cheslina River.

Kalubarawluk Mountain: mountain, 3,000 ft., on E bank of Holokuk River, 40 miles SE of Aniak and 40 miles SW of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 26' N, 158° 18' W; (map 72). Eskimo name obtained in 1948 by USC&GS.

Kaluyut Mountain: mountains, 1,485 ft., on Nelson Island, extend NE 12 miles from Kangirlar Bay, 16 miles E of Cape Vancouver, Yukon-Kuskokwim Delta; 60° 41' N, 164° 51' W; (map 58). Eskimo name reported in 1949 by USC&GS.

Kalwatta: locality, site of an Indian village, on Haines Highway, 5 miles SE of Wells and 20 miles SW of Skagway, Coast Mountains; 59° 22' 15" N, 135° 50' 00" W; (map 45). Variant: Kahtkwaltoo, Katkwaahltu, Kutkwutlu, Katkwaltu, Qatq!wa' altu. Former Tlingit Indian village listed as "Kutkwutlu," population 125, in the 1880 Census. In 1904 J. R. Swanton, BAE, spelled the name "Qatq!wa' altu" and reported its meaning as "town on point of hill." However, E. C. Robertson, USGS, in 1952, spelled it "Kahtkwaltoo," meaning "armour of wooden sticks" and stated that it "was abandoned over 60 years ago * * * during a flood."

Kalyalyakhtna: stream, see Gisasa River.

Kamaton Island: island, "one of the Aleutian chain." Variant: Kanaton. Name shown on a 1781 "anonymous" chart (Wagner, 1937, p. 346). This may be the same island called "Kanaton" on later charts.

Kambelya, Mys: point of land, see Campbell, Point.

Kambon, Mys: point of land, see Cambon, Cape.

Kamchatka, Sea of: sea, see Bering Sea.

Kame Stream: stream, heads in lake at terminus of Malaspina Glacier, flows SE 3 miles to Yakutat Bay, 8 miles WSW of Blizhni Point and 19 miles NNW of Yakutat, Malaspina Coastal Plain; 59° 47' 30" N, 139° 58' 30" W; (map 46). Named in 1891 by Russell (1892, pl. 4, p. 81). A kame is a conical hill or short irregular ridge of gravel and sand deposited by glacier ice.

Kamegli: locality, "on Kuskokwim River, 10 miles upstream from Bethel," Yukon-Kuskokwim Delta; (map 59). Variant: Kameglimit. Former Eskimo camp or settlement reported in 1898 as "Kameglimit" by J. E. Spurr, USGS, who obtained the name from Rev. J. H. Kilbuck, Moravian missionary at Bethel.

Kameglimit: locality, see Kamegli.

Kamen Bylyy: rocks, see Bieli Rocks.

Kameni Point: point of land, see Kamanoi Point.

Kamenistaia Bay: estuary, see Necker Bay.

Kamenistaya Bukhta: estuary, see Necker Bay.

Kameniste, Ostrova: islands, see Triplets, The.

Kamenisti Lake: lake, 0.2 miles across, 2 miles NE of Saint ' Paul, on south-central Saint Paul Island, in Pribilof Islands; 57° 09' 05" N, 170° 15' 10" W; (map 38). Variant: Kamminista Lake, Kamnista Lake. A local Russian name meaning "rocky"; reported in 1965 by USBF.

Kamenisti: rocks, volcanic rocks, between Telegraph and Bogoslof Hills, on south-central Saint Paul Island, in Pribilof Islands; 57° 09' 40" N, 170° 16' 20" W; (map 38). Variant: Kamminista, Kamnista. A local name reported in 1965 by USBF. It is a Russian name meaning "rocky," or "stone" from the word "Kamen."

Kamenisty, Mys: point of land, see Rock Point.

Kamennie Point: point of land, see Kamanoi Point.

Kammenoi Island: island, 0.1 miles across, near mouth of Redoubt Bay, 8 miles SW of Sitka, off W coast of Baranof Island, Alexander Archipelago; 56° 56' 15" N, 135° 24' 15" W; (map 5). Variant: Ostrov Kamennoy. Named in 1809 by the Russian navigator, Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Kamennoy," meaning "rocky island."

Kammenoi Point: point of land, see Kamanoi Point.

Kammenoi, Cap: point of land, see Rocky Point.

Kammenoy, Mys: point of land, see Kamenoi Point.

Kammenoy, Ostrov: island, see Kamennoi Island.

Kamenny, Mys: point of land, see Rocky Point.

Kamenoi Point: point of land, on E coast of Kruzof Island, 10 miles NW of Sitka, Alexander Archipelago; 57° 08' 00" N, 135° 33' 40" W; (map 9). Variant: Kameni Point, Kamennie Point, Kamennoi Point, Mys Kamenoy, Rock Point, Rocky Point. Russian name meaning "rocky" given in 1809 by the navigator Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "M[ys] Kamenoy."

Kamerchluk Slough: stream, heads in a lake, flows NE 2.5 miles to Apoon Pass, 26 miles NE of Kwiguk, Yukon-Kuskokwim Delta; 62° 57' 15" N, 163° 47' 10" W; (map 77). Eskimo name obtained in 1899 by R. L. Faris, USC&GS; published in 1901 on Chart 9372.

Kamgliuck, Pointe: point of land, see Kayakliut, Cape.

Kamguvluagvik: hill, see Mumtrak Hill.

Kamieshatskaia Bay: bay, see Kamishak Bay.

Kamieshatskoi: point of land, see Douglas, Cape.

Kamiischatskaja Bai: bay, see Kamishak Bay.

Kamiktungitak Creek: stream, flows NNE 7 miles to Colville River, 14 miles N of Noluck Lake, Arctic Slope; 69° 00' N, 159° 56' W; (map 131). Eskimo name reported by T. E. Taylor, USGS, in 1956.

Kamina: bluff, between Great East and Little East Rookeries, along NE coast of Saint George Island, in Pribilof Islands; 56° 36' 25" N, 169° 30' 20" W; (map 38). Variant: Chunung' um-al' gera. Putnam (1903), USC&GS, listed two names for this feature. The Aleut name, "Chunung' um-al' gera," means "seal hollow" (p. 1014), and the Russian name, "Kam' ina," means "rocky place" (p. 1015).

Kamishak Bay: bay, 30 miles wide, on E coast of Alaska Peninsula, 88 miles SW of Homer, Aleutian Range; 59° 15' N, 153° 50' W; (map 51). Variant: Bourdiens Bay, Bourdieus Bay, Kamieshatskaia Bay, Kamiischatskaja Bai, Kamiskuk Bay, Kamyhatskoi Bay, Kamyshak Bay, Kamyshatskaya Bay. Native name published by the early Russians as "Guba Kamyshatskaya," meaning "Kamyshatskaya Bay" (Sarichev, 1826, map 3). The name "Bourdieus Bay" appears on Capt. George Vancouver's map, but since the name is not mentioned in the text, it may have been given in 1787 by Capt. George Dixon (Wagner, 1937, p. 434).

Kamishak Bay: bay, see Akumwarvik Bay.

Kamishak River: stream, heads in lake at 58° 46' N, 154° 38' W, flows NE 38 miles to Akumwarvik Bay, 35 miles SW of Augustine Island, Aleutian Range; 59° 01' 20" N, 154° 09' 45" W; (map 51). Variant: Kamyshak River. Native name published by Lt. Sarichev (1826, map 3), IRN, as "R[eka] Kamyshak" or "Kamyshak River."

Kamishak: locality, on the N bank of McNeil River at McNeil Cove, 34 miles SW of Augustine Island, Aleutian Range; 59° 07' 30" N, 154° 15' 00" W; (map 51). Name reported in 1923 by K. F. Mather (in Brooks and others, 1925, pl. 3), USGS. The name derived from the bay, applied then to the cluster of buildings at the ranch of Charlie McNeil.

Kamiskuk Bay: bay, see Kamishak Bay.

Kamminista Lake: lake, see Kamenisti Lake.

Kamminista: rocks, see Kamenisti.

Kamninista Lake: lake, see Kamenisti Lake.

Kamninista: rocks, see Kamenisti.

Kamuksusik: locality, "on Agattu Island in Near Islands," Aleutian Islands; (map 13). Former Aleut village reported as "uninhabited" by Hodge (1907, p. 649), BAE.

Kamychatskoi Bay: bay, see Kamishak Bay.

Kamyshak Bay: bay, see Kamishak Bay.

Kamyshak River: stream, see Kamishak River.

Kamyshak, Ostrov: island, see Shaw Island.

Kamyshatskaya Bay: bay, see Kamishak Bay.

Kamyushkin, Mys: point of land, see East Foreland.

Kan Islets: islands, see Kane Islands.

Kan, Ostrova: islands, see Kane Islands.

Kan-na-ghu-nut Island: island, see Kanagunut Island.

Kanacyackdligamiut: locality, see Kanikyakstalikmiut.

Kanaga Bay: bay, 0.5 miles across, on S Kanaga Island, Aleutian Islands; 51° 42' 30" N, 177° 11' 30" W; BGN 1936; (map 17). Name derived from Kanaga Island, and given by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

Kanaga Island: island, 32 miles long, one of Andreanof Islands, Aleutian Islands; 51° 45' N, 177° 22' W; BGN 1944; (map 17). Variant: Kanaton Island, Konega Island, Konniaga Island. Aleut name published by G. A. Sarichev (1826, map 3) and Capt. Tebenkov (1852, map 28), IRN, as "O[strov] Kanaga," or "Kanaga Island." Baker (1906, p. 348) suggests that this may be the island called "Kanaton" by Capt. James Cook, RN, in 1778.

Kanaga Pass: water passage, between Kanaga and Tanaga Islands, Aleutian Islands; 51° 43' N, 177° 47' W; (map 17). Name derived from Kanaga Island and published by USC&GS in the 1944 Aleutian Coast Pilot (p. 116).

Kanaga Sound: sound, between Kanaga, Tanaga, and Bobrof Islands, Aleutian Islands; 51° 50' N, 177° 30' W; (map 17). Name derived from Kanaga Island and published by USC&GS in 1956 on Chart 9145.

Kanaga Volcano: volcano, 4,416 ft., on N tip of Kanaga Island, Aleutian Islands; 51° 55' 30" N, 177° 09' 40" W; (map 17). Name derived from Kanaga Island and published by USC&GS in the 1944 Aleutian Coast Pilot (p. 114).

Kanagak: locality, "in Kuskokwim district." Variant: Kanagamiut. Former Eskimo camp or settlement listed as "Kanagamiut" with a population of 35 in the 1890 Census.

Kanagamiut: locality, see Kanagak.

Kanagmiut: locality, see Kanak.

Kanagtatlek Creek: stream, flows SW 1 mile to Stoggnang Creek, 50 miles NW of Goodnews, Yukon-Kuskokwim Delta; 59° 48' N, 161° 57' W; (map 53). Eskimo name published in 1951 by USGS.

Kanagunut Island: island, 3.4 miles long, in Dixon Entrance, S of Nakat Bay, Coast Mountains; 54° 44' 30" N, 130° 42' 30" W; (map 2). Variant: Kannaghunut Island, Kannagkhunut Island, Kan-na-ghu-nut Island. Tlingit Indian name reported in 1869 by G. Davidson, USC&GS; published on USC&GS Chart 711 as Kan-na-ghu-nut Island in 1369.

Kanaiski Land: peninsula, see Kenai Peninsula.

Kanak Island: island, 5 miles long, at W end of Controller Bay, 5 miles SW of Bering River, and 6 miles SE of Katalla, Malaspina Coastal Plain; 60° 08' N, 144° 21' W; (map 64). Variant: Ostrov Kanak. Native name published by Capt. Tebenkov (1852, map 6) as "O[strov] Kanak" or "Kanak Island."

Kanak, Ostrov: island, see Kanak Island.

Kanak: locality, "in Kuskokwim district." Variant: Kanagmiut. Former Eskimo camp or settlement listed with a population of 41 in the 1890 Census.

Kanakanak: locality, see Nelsonville.

Kanakanak: village, pop. 54 (1950), on right bank of Nushagak River at Bradford Point, 4 miles SW of Dillingham, Bristol Bay Lowland; 59° 00' 10" N, 158° 32' 00" W; (map 52). Variant: Kanakanok. Eskimo village "which includes the former sites of Dillingham and Kanakanak * * *" (U.S. Coast and Geodetic Survey, 1964, p. 250). A post office was obtained in 1929; discontinued in 1944 (Ricks, 1965, p. 31). The population was 53 in 1890; 145 in 1900; 177 in 1930.

Kanakanak: village, see Dillingham.

Kanakanok: village, see Kanakanak.

Kanaknoli Point: bluff, elev. 25 ft., on S bank of Naknek River, on Alaska Peninsula, 6 miles SE of Naknek, Bristol Bay Lowland; 58° 42' 50" N, 156° 50' 30" W; (map 41). Eskimo name reported in 1952 by USGS.

Kanaktok Creek: stream, heads on Kanaktok Mountain, in Baird Mountains, flows SE 8 miles to Salmon River, 60 miles NE of Kiana, Brooks Range; 67° 47' N, 159° 43' W; (map 127). Eskimo name obtained in 1956 at Noatak by Orth.

Kanaktok Mountain: mountain, 3,320 ft., in Baird Mountains, at head of Kanaktok Creek, 60 miles NE of Kiana, Brooks Range; 67° 50' N, 159° 56' W; (map 127). Eskimo name obtained in 1956 at Noatak by Orth.

Kanal, Mys de la: point of land, see Canal Point.

Kanalak Cape: point of land, see Kanatak Cape.

Kanalkoo Bag: bay, see Kanalku Bay.

Kanalku Bay: bay, 2.5 miles long, 5 miles E of Angoon, on W coast of Admiralty Island, Alexander Archipelago; 57° 30' N, 134° 26' W; (map 9). Variant: Kanalkoo Bay. Tlingit Indian name published by USC&GS in 1891 Coast Pilot (p. 159) as "Kanalkoo."

Kanalku Lake: lake, 1.5 miles long, 8 miles E of Angoon, on central Admiralty Island, Alexander Archipelago; 57° 29' 15" N, 134° 21' 00" W; (map 9). Local name derived from Kanalku Bay. The name was published in 1940 by USGS.

Kanalku Mountain: mountain, 2,755 ft., 8 miles SE of Angoon, on W coast of Baranof Island, Alexander Archipelago; 57° 28' 30" N, 134° 22' 30" W, (map 9) Local name reported in 1951 by USGS.

Kanama Gulch: ravine, see Kanoma Gulch.

Kanapak: locality, on right bank of Kashunuk River, near mouth of Mankakvik Creek, 37 miles W of Marshall, Yukon-Kuskokwim Delta; 61° 50' N, 163° 13' W; (map 74). Eskimo name for a fish camp reported by USC&GS in 1949.

Kanas-nu: locality, see Killisnoo.

Kanata Cape: point of land, see Kanatak Cape.

Kanatak Cape: point of land, between Portage and Jute Bays, on E coast of Alaska Peninsula, 54 miles W of Karluk, Aleutian Range; 57° 32' 10" N, 155° 54' 20" W; (map 35). Variant: Kanalak Cape, Kanata Cape, Cape Lgvac. Name derived from "Kanatak Bay," the native name for Portage Bay, published on Russian Hydrog. Dept. Chart 1379 in 1847 as "Z[aliv] Kanatak." This point was called "Cape Lgvac" by Adm. von Krusenstern (1827, map 17), IRN.

Kanatak Creek: stream, flows NE through Kanatak Lake 4.2 miles to Portage Bay E of Kanatak, on Alaska Peninsula, Aleutian Range; 57° 34' 05" N, 156° 01' 30" W; (map 36). Named in 1920 by G. C. Martin (1921, pl. 10). Name based on information given in 1920 by J. L. McPherson, Deputy Mineral Surveyor.

Kanatak Lagoon: estuary, extends W 2.5 miles, off Portage Bay, S of Mount Becharof, on Alaska Peninsula, 3 miles S of Kanatak, Aleutian Range; 57° 31' N, 156° 02' W; (map 36). Name published in 1924 by USC&GS on Chart 8666.

Kanatak Pass: pass, 900 ft., at Summit Lake, on route from Portage Bay to Becharof Lake, N of Mount Becharof, on Alaska Peninsula, 1.6 miles NW of Kanatak, Aleutian Range; 57° 35' 15" N, 156° 04' 00" W; (map 36). Named in 1920 by G. C. Martin (1921, pl. 10), USGS; name based on information given in 1920 by J. L. McPherson, Deputy Mineral Surveyor.

Kanatak, Lake: lake, 0.5 miles long, in course of Kanatak Creek, N of Mount Becharof, on Alaska Peninsula, 50 miles E of Ugashik, Aleutian Range; 57° 33' 50" N, 156° 05' 05" W, (map 36). Name reported in 1902 by J. L. McPherson of Iliamna; published by G. C. Martin (1921, pl. 10), USGS.

Kanatak: bay, see Portage Bay.

Kanatak: locality, at head of Portage Bay, on S coast of Alaska Peninsula, 53 miles E of Ugashik, Aleutian Range; 57° 34' 05" N, 156° 02' 15" W; (map 36). Eskimo village listed in the 11th Census in 1890 as having a population of 26. Because of oil drilling activity in the 1930's, its population increased to 134 in 1940. When this activity ceased in the 1950's, the village was all but abandoned. It had a post office from 1922 to 1943 and from 1946 to 1954.

Kanaton Island: island, see Kanaga Island.

Kanaton Ridge: ridge, 5 miles long, S of Kanaga Volcano, N Kanaga Island, Aleutian Islands; 59° 54' N, 177° 09' W; (map 17). Name published in 1951 on a USGS map.

Kanaton: island, see Kamaton.

Kanauguk River: stream, heads in York Mountains, flows SW 10 miles to Bering Sea, 38 miles NW of Teller, Seward Peninsula Highlands; 65° 27' N, 167° 36' W; (map 111). Eskimo name reported in 1900 by Brooks (1901, pl. 13 and p. 136), USGS.

Kanayat Creek: stream, in Baird Mountains, flows NW 10 miles to Sapun Creek 6 miles SE of its junction with Noatak River at E end of its Grand Canyon, Brooks Range; 67° 50' N, 160° 16' W; (map 127). Eskimo name obtained in 1955 by U.S. Army Corps of Engineers.

Kanayut Bluff: bluff, opposite mouth of Kanayut River, on W side of Anaktuvuk River, 9 miles N of Table Top and 45 miles NE of Anaktuvuk Pass, Arctic Slope; 68° 45' N, 151° 09' W; (map 134). Named by the USGS in 1956 for the Kanayut River mouth which faces the bluff.

Kanayut Lake: lake, see Shainin Lake.

Kanayut River: stream, heads between Mount Wachsmuth and Ear Peak, flows N 33 miles to Anaktuvuk River at Kanayut Bluff, 8.5 miles N of Table Top and 45 miles NE of Anaktuvuk Pass, Arctic Slope; 68° 44' N, 151° 07' W; BGN 1949; (map 134). Variant: Willow Creek. Eskimo name used by USGS geologists during the exploration of Naval Petroleum Reserve No. 4; name given in 1944.

Kancshtuk River: stream, see Kanektok River.

Kandik River: stream, heads in Canada at 65° 48' N, 140° 20' W, flows SW 82 miles to Yukon River 9 miles NE of its junction with Charley River, Porcupine Plateau; 65° 22' 30" N, 142° 30' 30" W; (map 103). Variant: Charley Creek, Charlie Creek. Indian name shown by Lt. Schwatka (1885b, sheet 8), USA. The stream is also known as Charley or Charlie Creek after Charlie Village, an Indian village which was located at its mouth.

Kane Islands: islands, 0.5 miles long, at N end of Neva Strait, off NW coast of Baranof Island, 22 miles NW of Sitka, Alexander Archipelago; 57° 19' 25" N, 135° 40' 00" W; BGN 1932; (map 9). Variant: Kan Islets, Kane Islets, Ostrova Kan. Named by the Russians for Capt. Kane (cna), an "American pioneer trader on this coast at the beginning of the century" (U.S. Coast and Geodetic Survey, 1883, p. 157).

Kane Islets: islands, see Kane Islands.

Kane Peak: mountain, 3,253 ft., at E end of Missionary Range, 13 miles NW of Petersburg, on N central Lindenberg Peninsula, Kupreanof Island, Alexander Archipelago; 56° 58' 45" N, 133° 07' 10" W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, probably for the Arctic explorer Elisha Kent Kane.

Kanearok Creek: stream, flows N 5 miles through a low wetland to Kobuk River. 23 miles NW of Shungnak, Brooks Range; 67° 05' N, 157° 50' W; (map 126). Eskimo name reported by USGS in 1956.

Kaneetaksmiut: locality, 10 miles SE of Cape Etoilin, on NE coast of Nunivak Island; 60° 18' 45" N, 166° 00' 00" W; (map 57). Variant: Kaneetaxmiut, Kanitakhmiut. Eskimo summer camp reported in 1949 by USC&GS.

Kaneetaxmiut: locality, see Kaneetaksmiut.

Kanegklikamiut: locality, see Kanelik.

Kanegtok River: stream, see Kanektok River.

Kanektok River: stream, heads at Kagati Lake, flows SW 75 miles to Kuskokwim Bay, 1.5 miles W of Kwinhagak and 46 miles NW of Goodnews, Yukon-Kuskokwim Delta; 59° 45' N, 161° 56" W; (map 53). Variant: Kancshtuk River, Kanegtok River, Kanektuk River, Kanichtuk River, Kaniktuk River, Kwina River, Quina River, Quinahak River, Quinhagak River, Quinhak River. Eskimo name reported to mean "snow" or "snowy"; submitted in 1898 by J. E. Spurr And W. S. Post, USGS. The stream's lower course was once called "Quinhak," "Quinahak," or "Quinhagak." G. L. Harrington in 1919 stated "another explanation of the word 'Kanektok' gives it as of doubtful origin, and means 'a long way from the post,' and (though I fail to see the connection) was named from the nearby horizontal S.S. [sandstone] beds in the foothills through which the stream passes."

Kanektuk Lake: lake, see Kagati Lake.

Kanektuk Lake: lake, see Pegati Lake.

Kanektuk River: stream, see Kanektok River.

Kaneligmeut: locality, see Kanelik.

Kanelik Pass: channel, in Yukon Delta, extends NE-SW 25 miles between Akularak and Kwemeluk Passes, 21 miles S of Kwiguk, Yukon-Kuskokwim Delta; 62° 28' N, 164° 41' W; (map 77). Eskimo name obtained in 1899 by G. R. Putnam, USC&GS. Father Barnum wrote it "Kanelik" in 1901.

Kanelik: locality, on E bank of Kanelik Pass, 11 miles S of Kwiguk, Yukon-Kuskokwim Delta; 62° 36' 00" N, 164° 32' 30" W; (map 77). Variant: Kanegklikamiut, Kaneligmeut. Eskimo village name written "Kanegklikamiut," meaning "Kanegklik people," in 1899 by G. R. Putnam, USC&GS. It is now abandoned except for use as a camp.

Kaneone Peak: peak, see Kankone Peak.

Kang-ek-tu-nok: bay, see Golden Horn.

Kanga Bay: cove, 0.5 miles across, 4 miles N of Goddard, on W coast of Baranof Island, Alexander Archipelago; 56° 54' N, 135° 23' W; (map 5). Name reported by W. H. Dall (U.S. Coast and Geodetic Survey, 1883, p. 147), USC&GS.

Kanga Island: island, 0.8 miles long, on N shore of Kanga Bay, 4.5 miles N of Goddard, on W coast of Baranof Island, Alexander Archipelago; 56° 53' 50" N, 135° 21' 30" W, (map 5). Variant: Ostrov Kanga. Named in 1809 by the Russian navigator, Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Kanga" or "Kanga Island." According to Baker (1906, p. 349), Kanga "is an Asiatic name of the Mongolian gun."

Kangaiulouk Island: island, see Spectacle Island.

Kanganeyik Point: point of land, see Konganevik Point.

Kangea: point of land, see Tikugha Point.

Kangeakhok River: stream, flows SE 6 miles to Powoiliak Bay, on S coast of Saint Lawrence Island, 30 miles SE of Gambell; 63° 24' N, 171° 15' W; (map 93). Eskimo name reported in 1949 by Maj. H. B. Allen, USAF.

Kangee Camp: locality, N coast of St. Lawrence Island, 15 miles SW of Savoonga; 63° 34' N, 170° 53' W; BGN 1951; (map 93). Variant: Camp Collier, Kangi. Eskimo name recorded by Orth in 1965 as “Kangi” and refers in meaning to “the point of a corner.” The name was published by the Univ. of Alaska in 1932.

Kangeeghuk Bay: bay, 2 miles wide, 4 miles NW of Southeast Cape, extends N 3 miles from Emeghee Point, on Saint Lawrence Island; 62° 59' N, 169° 45' W; BGN 1951; Variant: Kangighak Bay. Eskimo name recommended by the Savoonga village council; reported in 1949 by Maj. H. B. Allen, USAF.

Kangeekiksatharuk Cove: cove, 12 miles SE of Cape Etolin, on NE coast of Nunivak Island; 60° 20' 15" N, 165° 51' 20" W; (map 57): Variant: Kangikikhatharak Cove. Eskimo name meaning “small boat shelter” obtained in 1949 by USC&GS.

Kangeekiktharuk Cove: cove, 7 miles SW of Cape Etolin, on N coast of Nunivak Island; 60° 22' 15" N, 166° 19' 30" W; (map 57). Variant: Kangikikhatharak Cove. See Kangeekiksatharuk Cove.

Kangeeleegowrak: stream, see Kangiligaurak Creek.

Kangekosook: village, see Koyuk.

Kangi: locality, see Kangee Camp.

Kangianik: stream, see Colville River.

Kangighak Bay: bay, see Kangeeghuk Bay.

Kangighsak Camp: locality, see Lietnik.

Kangighsak Point: point of land, on N coast of Saint Lawrence Island; 63° 20' 50" N, 169° 00' 05" W; (map 93). Variant: Cape Kangighsak. Eskimo name reported in 1932 by Otto W. Geist, Univ. of Alaska.

Kangighsak, Cape: point of land, see Kangighsak Point.

Kangigivik Point: point of land, see Konganevik Point.

Kangik River: stream, flows NE 5 miles to Aghnaghak Lagoon, 12 miles S of Gambell, St. Lawrence Island; 63° 37' N, 171° 41' W; BGN 1951; (map 93). Eskimo name reported by Orth in 1965 to mean “point of corner,” and refers to the corner of the lagoon where the stream enters. The name was recommended for map usage by the Gambell village council in 1949.

Kangik: locality, at head of Kuk River, 37 miles S of Wainwright, Arctic Plain; 70° 07' 30" N, 159° 40' 00" W; (map 146). Variant: Kagnik, Kungik, Kungitk. Eskimo name reported in 1923 by Sidney Paige, USGS. In 1965 Orth recorded the name as "Kangiak," meaning "river head." This may have been one of the "Killaimute" villages mentioned in the 10th Census in 1880 (1881, p. 4).

Kangikat River: stream, see Kongakut River.

Kangikikhatharak Cove: cove, see Kangeekiksatharuk Cove.

Kangikikhatharak Cove: cove, see Kangeekiktharuk Cove.

Kangiktoolikmiut: locality, 4 miles N of Cape Mendenhall, Nunivak Island; 59° 52' N, 166° 13' W; (map 55). Eskimo name reported about 1949 by USC&GS.

Kangiligaurak Creek: stream, flows NW 2 miles to Kivalina Lagoon, 2 miles SE of Kivalina, Kotzebue-Kobuk Lowland; 67° 43' N, 164° 29' W; (map 128). Variant: Kangeeleegowrak, Qangiligauzaq. Eskimo name meaning "little end" reported in 1966 by E. S. Burch.

Kangilipak, Lake: lake, 2 miles long, SE of Okoklik Lake, in Noatak River valley, 51 miles SE of Misheguk Mountain, Brooks Range; 68° 00' N, 159° 10' W; (map 131). Eskimo name, meaning "big lake end," obtained in 1956 at Noatak by Orth.

Kangirlvar Bay: bay, between Atrnak Point and Chinigyak Cape, on SW coast of Nelson Island, 10 miles SE of Cape Vancouver, Yukon-Kuskokwim Delta; 60° 28' N, 165° 12' W; (map 57). Variant: Tooksook Bay. Eskimo name obtained at Tanunak in 1949 by USC&GS.

Kangkak Basin: basin, see Kongkok Basin.

Kangkak: bay, see Kongkok Bay.

Kangkok: bay, see Kongkok Bay.

Kangkok: locality, site of village on Kongkok Bay, 27 miles S of Cambell, on W coast of Saint Lawrence Island; 63° 23' N, 171° 47' W; (map 93). Variant: Kougkok. Eskimo name reported in 1932 by Otto W. Geist, Univ. of Alaska.

Kangnakhnakh Point: point of land, see Kangnaksnak Point.

Kangnaksnak Point: point of land, 5 miles SE of Cape Etolin on N coast of Nunivak Island; 60° 22' N, 166° 06' W; (map 57). Variant: Kangnakhnakh Point, Kangnaxnax Point. Eskimo name obtained in 1949 by USC&GS.

Kangnaxnax Point: point of land, see Kangnaksnak Point.

Kangneervik: locality, see Kangnirvik.

Kangneervim Koonga: stream, see Kangnirvik Creek.

Kangniqwim Kuunga: stream, see Kangnirvik Creek.

Kangnirvik Creek: stream, heads at 68° 12' N, 163° 37' W and flows SW 35 miles to Kivalina River. 18 miles NE of Kivalina, Arctic Slope; 67° 57' N, 164° 13' W; (map 128). Variant: Kangneervim Koonga, Kangniqwim Kuunga. Eskimo name reported in 1966 by E. S. Burch.

Kangnirvik: locality, along Kangnirvik Creek, 244 miles NE of Kivalina, Brooks Range; 68° 02' N, 164° 06' W; (map 130). Variant: Kangneervik Kangnizwik, Kengneeverax. Eskimo name meaning "place at the end," so called because this place in the stream is head of skin boat navigation; name reported as "Kengneeverax" in 1960 by D. C. Foote.

Kangnizwik: locality, see Kangnirvik.

Kangnizwim Kuunga: stream, see Kangnirvik Creek.

Kangokakh Pass: watercourse, see Kangokakli Pass.

Kangokakli Pass: watercourse, in Yukon Delta, extends NW-SE 13 miles between Kakahkituli Pass and Norton Sound, Yukon-Kuskokwim Delta; 62° 51' N, 164° 50' W; (map 77). Variant: Kangokakh Pass. Eskimo name written "Kangokakh" in 1899 by G. R. Putnam, USC&GS, published as "Kangokakli" in 1901 on Chart 9373.

Kangoot: locality, see Kongik.

Kangrekho, Mys: point of land, see Cangrejo, Point.

Kanguksam Mountain: mountain, 1,820 ft., in Kinipaghulghat Mountains, 9 miles W of Northeast Cape, on Saint Lawrence Island, 63° 18' N, 168° 58' W; BGN 1951; (map 93). Variant: Mount Bulova. Eskimo name reported in 1949 by Maj. H. B. Allen, USAF.

Kanguksuk River: stream, see Koyuk River.

Kanguksuk: village, see Koyuk.

Kangusuk: village, see Koyuk.

Kangyak: stream, see Kanyak River.

Kaniag Island: island, see Kodiak Island.

Kaniag-miut: village, see Kaguyak.

Kaniakhrak Creek: stream, see Kungiakrok Creek.

Kaniat: bay, see Alitak Bay.

Kanibakhilat: mountains, see Kinipaghulghat Mountains.

Kanibukhilat Mountain: mountains, see Kinipaghulghat Mountains.

Kanichtuk River: stream, see Kanektok River.

Kanicula Glacier: glacier, see Kanikula Glacier.

Kaniek, Reka: stream, see Kanik River.

Kanig-miout: locality, see Kanig.

Kanig: locality, "on right bank of Yukon River near its mouth," Yukon-Kuskokwim Delta; (map 92). Variant: Kanig-miout, Kanygmjut. Former Eskimo camp or settlement reported in 1850 as "Kanig-miout" by Lt. L. A. Zagoskin, IRN.

Kanik Creek: stream, flows NE 8 miles to East Clem Creek, 56 miles N of Haycock, Seward Peninsula Highlands; 66° 00' N, 161° 11' W; (map 109). Eskimo name reported in 1949 by the U.S. Army Corps of Engineers.

Kanik River: stream, heads at Ualik Lake, flows SW 12 miles to Kulukak Bay, 41 miles SW of Dillingham, Kilbuck-Kuskokwim Mountains; 58° 56' N, 159° 37' W; (map 40). Variant: Reka Kaniek. Eskimo name reported as "R[eka] Kaniek" by Capt. Tebenkov (1852, map 4), IRN.

Kanikhluk: locality, see Kanikluk.

Kanikluk: locality, "on N shore of Prince William Sound," Chugach Mountains Variant: Kanikhluk. Former Eskimo camp or settlement listed as "Kanikhluk" with a population of 54 by Ivan Petroff in the 1880 Census; listed with a population of 73 in the 1890 Census.

Kaniksarak, Lake: lake, 1 mile long, in Killik River valley, 3 miles N of junction of Easter Creek with Killik River, Brooks Range; 68° 11' N, 154° 09' W; (map 133). Eskimo name meaning "has snow," obtained in 1956 at Anaktuvuk Pass by T. E. Taylor, USGS.

Kaniktuk River: stream, see Kanektok River.

Kanikula Glacier: glacier, trends SE 11 miles to its terminus at head of Tokositna River, 37 miles NW of Talkeetna, Alaska Range; 62° 42' N, 150° 55' W; BGN 1962; (map 81). Variant: Kahnicula Glacier, Kanicula Glacier, Little Tokichitna Glacier. Tanaina Indian name reported in 1906 by Belmore Browne as "Kahnicula" or "Kanicula."

Kanikyakhtalikhmiut: locality, see Kanikyakstalikhmiut.

Kanikyakstalikhmiut: locality, 24 miles SE of Cape Etolin, on NE coast of Nunivak Island; 60° 10' 10" N, 165° 43' 20" W; (map 57). Variant: Kanacyackdligamiut, Kanikyakhtalikhmiut, Kanikyaxtalixmiut, Koniginktalikmute. Eskimo name reported about 1949 by USC&GS.

Kanikyaxtalixmiut: locality, see Kanikyakstalikhmiut.

Kaniliak: island, one of Shumagin Islands; 55° N, 160° W; (map 27). Variant: Khainiliakh. This name was applied by Father Veniaminov (1840, v. 1, p. 255) and was written "Khainiliakh" by Capt. Lutke (1836, p. 267). The exact location of this island is not known.

Kanipakhilat Mountain: mountains, see Kinipaghulghat Mountains.

Kanipakhilat Mountains: mountains, see Kinipaghulghat Mountains.

Kanirak Creek: stream, see Kahniruk River.

Kanirak: locality, see Kahnirukmiut.

Kanirakmiut: locality, see Kahnirukmiut.

Kanirthluk Bay: bay, see Hooper Bay.

Kanisokrok Lake: lake, 3 miles across, 10 miles SE of Selawik, Kotzebue-Kobuk Lowland, 66° 33' N, 159° 40' W; (map 114). Eskimo name obtained by U.S. Army Corps of Engineers in 1955.

Kanitakhmiut: locality, see Kaneetaksmiut.

Kaniugi Island: island, see Koniuji Island.

Kankone Peak: peak, 4,987 ft., in Kantishna Hills, at head of Moonlight Creek, 12 miles NW of Wonder Lake, Alaska Range; 63° 37' 25" N, 150° 36' 00" W; (map 88). Variant: Kaneone Peak. Name shown as "Kaneone" on a 1916 fieldsheet by C. E. Giffin, USGS, published as "Kankone" (Capps, 1919, pl. 1).

Kanloyak: locality, on Nelson Island, 2 miles SE of Nightmute and 100 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 27' N, 164° 44' W; (map 58). Former Eskimo village reported in 1949 by USC&GS. "There is presently (1949) no sign of former habitation."

Kannaghunut Island: island, see Kanagunut Island.

Kannagkhunut Island: island, see Kanagunut Island.

Kanngumavik Creek: stream, see Kongumavik Creek.

Kanoa, Mys de la: point of land, see Canoa Point.

Kanoma Gulch: ravine, trends W 0.4 miles to Snow Gulch, 6 miles N of Nome, Seward Peninsula Highlands; 64° 35' N, 165° 24' W; (map 94). Variant: Kanama Gulch, Kanone, Kanome Gulch. Prospectors' name reported as "Kanome" on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Kanome Gulch: ravine, see Kanoma Gulch.

Kanome: ravine, see Kanoma Gulch.

Kanongiksuk Creek: stream, flows W 9 miles to Easter Creek 3.7 miles SE of its junction with Killik River, Brooks Range; 68° 06' N, 154° 04' W; (map 133). Eskimo name reported in 1956 by T. E. Taylor, USGS.

Kanoolik: locality, see Kanulik.

Kanooskie Island: island, see Koniuji Island.

Kanoozhki Island: island, see Koniuji Island.

Kansas Creek: stream, flows NW 9 miles to Wood River, 35 miles E of Healy, Alaska Range; 63° 53' 20" N, 147° 50' 00" W; (map 87). Local name reported in 1910 by J. W. Bagley, USGS.

Kansas Creek: stream, heading on S slope of Mount Tulik, flowing SE 3.5 miles to Pacific Ocean, on NE coast of Umnak Island, Aleutian Islands; 53° 20' N, 167° 59' W; (map 23). Name published by Byers (1959, pl. 41), USGS.

Kantangnak Creek: stream, heads on Tupikchak Mountain, flows N and NW 10 miles to Kokolik River, Arctic Slope; 68° 59' N, 161° 54' W; (map 131). Eskimo name obtained at Point Lay in 1956 by Orth, meaning "like a basin" [qataqnak]: so called because of the deep basin-like depression along the Kokolik at the stream's mouth.

Kantishana River: stream, see Kantishna River.

Kantishna Hills: ridge, elev. 1,000-4,987 ft., extends NE 50 miles from McKinley River, Alaska Range; 64° 05' N, 150° 00' W [NE end], 63° 27' N, 151° 10' W [SW end]; (map 88). Local name reported in 1916 by S. R. Capps, USGS.

Kantishna River: stream, heads at junction of Birch Creek and McKinley River, flows N 108 miles to Tanana River, 32 miles NW of Nenana, Tanana Lowland; 64° 46' N, 149° 58' W; (map 100). Variant: Cantishna River, Con-tay-th-no, Con-tay-thno, Dugan River, Kantishana River, Toclat River. There was considerable confusion over the application of this Indian name prior to adequate map ping. Lt. J. S. Herron, USA, in 1899 appears to have been first to show a name for the stream when he wrote both Indian names, "Toclat (Con-tay-th-no)"; recognizing the possible confusion of application with the name "Toclat River" of Lt. H. T. Allen, USA, in 1885. Herron also wrote the name as "Con-tay-thno." A. H. Brooks, USGS, called the stream "Toklat" in 1902. Lt. Gibbs, USA, in 1902 and D. L. Reaburn, USGS, in 1903 both mapped the mouth of the stream in its correct position showing it to be the same which Lt. Allen called "Dugan" in 1885 for Lt. Thomas Buchanan Dugan, USA. Gibbs wrote "Cantishna" and Reaburn "Kantishna." The name "Toklat River" is now applied to a branch of the Kantishna.

Kantishna: locality, in Kantishna Hills, at junction Of Eureka and Moose Creeks, 3 miles NW of Wonder Lake, Alaska Range; 63° 31' 30" N, 150° 57' 30" W; (map 88). Variant: Eureka. This mining camp was established in 1905, one of several such camps that appeared suddenly when gold was discovered in the Kantishna Hills. Most of the camps were abandoned a short time later, but this one was nearest the producing creeks. It was also

referred to in the early days as “Eureka,” named for the stream. A post office named “Kantishna” was established in 1905 near the mouth of the Kantishna River.

Kantukan: village, see Hoonah.

Kanu Island: island, 1.7 miles long, between Great Sitkin and Umak Islands, Andreanof Islands, Aleutian Islands; 51° 56' 30" N, 176° 02' 20" W; BGN 1936; (map 17). Variant: Jounakh Island, Yunakh Island, Ostrov Yunakh. Name derived from Unak Island and given by the U.S. Navy Hydrog. Office in 1936 because “. . . There being so much similarity in the names [of nearby] Ulak Island, Umak Island, and Unak Island, serious delay might result in sending a rescue party to one of these islands, as was brought out in the 1934 report of the expedition, and for this reason Unak Island was spelled backward . . .” The name “Unak” is derived from the Aleut “unaq” meaning “wound,” published by Capt. Tebenkov (1852, map 28), IRN, as “O[strov] Yunakh,” or “Yunakh Island.”

Kanuhnuktaili Slough: stream, see Kanunuk Slough.

KanukaNanyvuk Lake: lake, 3 miles N of Okstukuk Lake, 38 miles N of Dillingham, Bristol Bay Lowland; 59° 34' N, 158° 17' W; (map 52). Eskimo name shown as “Ka-nuk-a-Nan-y-vuk” on a 1910 manuscript map by H. C. Fassett, USBF.

Kanuktik Creek: stream, heads at Kanuktik Lake, flows NW 12 miles to Kanektok River, 66 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 53' N, 160° 28' W; (map 53). Eskimo name shown on an 1898 fieldsheet by W. S. Post, USGS, whose party passed by it on Sept. 4, 1898. The name was published by Spurr (1900, map 10), USGS.

Kanuktik Lake: lake, extends N 4 miles to headwaters of Kanuktik Creek, 60 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 44' N, 160° 19' W; (map 53). Eskimo name published in 1951 by USGS.

Kanulik: locality, at head of Nushagak Bay, 2 miles NE of Nushagak and 6 miles SE of Dillingham, Bristol Bay Lowland; 58° 58' N, 158° 28' W; (map 52). Variant: Kanoolik, Karulik, Nunnungynakok. Eskimo village reported by Ivan Petroff in 1880 Census. Its population in 1880 was 142; in 1890, 54; it is now abandoned.

Kanunuk Slough: stream, in Yukon Delta, flows NE 1.8 miles to Apoon Pass, 1.5 miles W of Kotlik and 35 miles NE of Kwiguk, Yukon-Kuskokwim Delta; 63° 02' N, 163° 36' W; (map 92). Variant: Kanuhnuktaili Slough. Eskimo name reported in 1899 by R. L. Faris, USC&GS, as “Kanuhnuktaili.”

Kanutena: stream, see Kanuti River.

Kanuti Canyon: canyon, extends 7 miles along Kanuti River 4 miles SE of its junction with Mentanontli River, 17 miles SW of Allakaket, Kokrines-Hodzana Highlands; 66° 19' 05" N, 152° 51' 00" W; (map 117). Local name reported in 1956 by T. E. Taylor, USGS.

Kanuti Chalatna Creek: stream, heads in Kaldolyeit Lake, flows SE 50 miles through Clawanmenka Lake to Kanuti River, 22 miles SE of Allakaket, Kanuti Flats; 66° 17' N, 152° 18' W; (map 117). Koyukan Indian name obtained in 1956 at Allakaket by T. E. Taylor, USGS.

Kanuti Flats: flats, of South Fork Koyukuk, Koyukuk and Kanuti Rivers, extend SW 60 miles from Bettles and E 45 miles from Allakaket 66° 32' N, 151° 51' W; (map 117). Local name reported in 1956 by T. E. Taylor, USGS.

Kanuti Kilolitna Creek: stream, see Kanuti Kilolitna River.

Kanuti Kilolitna River: stream, heads in lake, in Ray Mountains, flows W and NE 60 miles to Kanuti River, 30 miles SE of Allakaket, Kanuti Flats; 66° 12' 30" N, 152° 02' 30" W; BGN 1961; (map 117). Variant: Kanuti Kilolitna Creek. Koyukan Indian name obtained in 1956 at Allakaket by Orth.

Kanuti Lake: lake, 1 mile long, 1.7 miles NE of Old Dummy Lake, 37 miles SE of Allakaket, Kanuti Flats; 66° 10' 30" N, 151° 45' 00" W; (map 117). Koyukan Indian name obtained in 1956 at Allakaket by T. E. Taylor, USGS.

Kanuti River: stream, flows W 175 miles to Koyukuk River, 13 miles SW of Allakaket, Kokrines-Hodzana Highlands; 66° 27' N, 153° 00' W; (map 116). Variant: Kanutena, Koinooten, Konootena, Kornutena, Kornuti, Kornutna, Koznuten, Old Man Creek, Old Man River. Koyukan Indian name obtained in 1885 by Lt. Allen (1887, p. 97), USA, who spelled it "Konootena." It is said to mean "Old Man's River," which would account for the name "old man river" used by some prospectors from 1898 to 1913.

Kanuti: locality, "on Koyukuk River," Hogatza Highlands; (map 116). Variant: Konootena, Old Man River. Former Eskimo camp or settlement reported in 1885 as "Konootena" with a population of 13 by Lt. H. T. Allen, USA.

Kanyak River: stream, flows NW 5.3 miles to Nagosakchowik Slough, 3.2 miles W of Sheldon Point and 21 miles SW of Kwiguk, Yukon-Kuskokwim Delta; 62° 31' 40" N, 164° 57' 10" W; (map 77). Variant: Kangyak, Nioklakowik Slough. Eskimo name obtained in 1952 by U.S. Army Corps of Engineers.

Kanygmjut: locality, see Kanig.

Kanyk, Reka: stream, see Buckland River.

Kanyugi, Ostrov: island, see Koniuji Island.

Kaokiorokamiut: locality, see Kwikluak.

Kaolak River: stream, heads at 69° 38' N, 160° 37' W, flows NE 60 miles, joins Avalik River to form Kuk River, 37 miles SE of Wainwright, Arctic Plain; 70° 07' N, 159° 41' W; BGN 1925; (map 146). Variant: Kaolik River. Eskimo name reported in 1924 by USGS.

Kaolak River: stream, see Kuk River.

Kaoledoly Slough: channel, in Yukon Delta, extends NW-SE 2.8 miles between Kwiguk and Kwikluak Passes, 0.8 miles N of Kwiguk, Yukon-Kuskokwim Delta; 62° 46' 15" N, 164° 29' 30"

W; (map 77). Eskimo name obtained in 1899 by G. R. Putnam, USC&GS. Published in 1899 on Chart 9372.

Kaolik River: stream, see Kaolak River.

Kaouakhta: island, see Kauatka.

Kapalooa Creek: stream, see Kapaloak Creek.

Kapalooa: locality, see Capalooa.

Kapalooa: point of land, see Dyer, Cape.

Kapaloak Creek: stream, flows SW 8.5 miles to Chukchi Sea, 0.6 miles S of Cape Dyer, Arctic Slope; 68° 38' 50" N, 166° 13' 00" W; BGN 1965; (map 129). Variant: Capalooa Creek, Kapalooa Creek. Named in 1904 by Collier (1906, p. 44) who wrote, "An abandoned native settlement here bears the name Capalooa, and the name is applied by the writer to the creek near which the old houses stand." Spelling has been changed to conform with present-day pronunciation. See Capalooa and Cape Dyer.

Kapaloak: point of land, see Dyer, Cape.

Kapalooa: locality, see Capalooa.

Kapalooa: point of land, see Dyer, Cape.

Kapho Mountain: mountains, see Kapho Mountains.

Kapho Mountains: mountains, 4,496 ft., 5 miles long, 2 miles NW of head of Bradfield Canal, Coast Mountains; 56° 15' N, 131° 36' W; (map 7). Variant: Kapho Mountain. Indian name reported in 1886 by Lt. Comdr. A. S. Snow, USN; "Kapho; mountain * * * said to mean 'brothers'."

Kapitanskaya Gavan: bay, see Unalaska Bay.

Kapon Creek: stream, flows NW 10 miles to Eek River, 70 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 10' N, 160° 15' W; (map 59). Local name reported in 1955 by J. M. Hoare, USGS.

Kaponyes, Mys de: point of land, see Capones, Point.

Kapoon Creek: stream, flows SW 4 miles from Eekayruk Mountain to Hammond River, 29 miles N of Wiseman, Brooks Range; 67° 50' N, 150° 08' W; BGN 1932; (map 124). Named about 1930 by Robert Marshall for an Eskimo living at Wiseman.

Kapsco Bay: bay, see Wrangell Cove.

Kapsukalik Lake: lake, 2 miles long, 19 miles SE of Savoonga, St. Lawrence Island; 63° 28' N, 170° 09' W; BGN 1951; (map 93). Eskimo name reported by Orth in 1965 to mean "constricted in the middle." The name was recorded in 1949 by Maj. H. B. Allen, USAF.

Karab Cove: cove, 0.6 miles across, in NE part of Otkriti Bay, on S coast of Agattu Island, Aleutian Islands, 52° 23' 30" N, 173° 36' 30" E; BGN 1938; (map 13). Variant: Karablin Cove, Korab Cove, Haynie Cove. This name was proposed as "Karablin Cove," in 1938, by the Hydrog. Office of the U.S. Navy. The name was published as "Korab Cove" in 1943 on an AMS map and is shown as "Karate ('Karablin' or ' Haynie') Cove" in the 1944 Aleutian Coast Pilot (p. 136). "Karate" has no known meaning.

Karablin Cove: cove, see Karab Cove.

Karablin: island, see Ship Rock.

Karakol, Mys de la: point of land, see Snail Point.

Karavaxarak River: stream, see Kaviavazak River.

Kardy Lake: lake, 1 mile across, on Phipps Peninsula, Island 1 mile SE of Ocean Cape and 3.4 miles SW of Yakutat, Malaspina Coastal Plain; 59° 31' 45" N, 139° 49' 15" W; (map 46). Local name published in 1959 by USGS.

Karen Creek: stream, flows NE 14 miles to Kekiktuk River 5 miles S of its junction with the Sadlerochit River, 20 miles NW of Mount Michelson, Brooks Range; 69° 29' 15" N, 144° 39' 12" W; (map 139). Probably named by geologists in the 1950's.

Karen Lake: lake, 0.7 miles long, in Mentasta Mountains, 9 miles NW of Devils Mountain, Alaska Range, 62° 33' N, 143° 01' W; (map 84). Local name reported by USGS in 1960.

Karheen Cannery: locality, see Karheen.

Karheen Cove: bay, 0.2 miles long, off Karheen Passage, on SW coast of Tuxekan Island, Alexander Archipelago; 55° 48' 40" N, 133° 18' 45" W; (map 4). Local name published in 1925 Coast Pilot (p. 152). See Karheen.

Karheen Creek: stream, flows SW 2 miles to Karheen Passage at Karheen, Alexander Archipelago; 55° 49' N, 133° 19' W; (map 4). Variant: Ka-hehe, KahHehe, Kahin, Kahini, Sarhini. Tlingit Indian name, possibly from "ta-hin" meaning "salmon stream," reported in 1897 as "Ka-Hehe" by Lt. Comdr. J. F. Moser, USN. The present spelling was established by the name of a cannery formerly located at the stream's mouth. See Karheen.

Karheen Lakes: lakes, two, extend 1.5 miles, in course of stream, on Tuxekan Island, Alexander Archipelago; 55° 48' 45" N, 133° 17' 30" W; (map 4). Local name recorded in 1949 by USGS.

Karheen Passage: water passage, 4 miles long, between Heceta and Tuxekan Islands, Alexander Archipelago; 55° 48' N, 133° 18' W; (map 4). BGN 1916. Variant: Kahin, Kahini.

Named in 1916 by USC&GS; derived from village of Karheen. The water passage was originally referred to as “the pass to Karheen Cannery.”

Karheen: locality, on Karheen Cove, SW coast of Tuxekan Island, Alexander Archipelago; 55° 48' 45" N, 133° 18' 35" W; (map 4). Variant: Karheen Cannery. Former village established at a cannery about 1914; named for Karheen Creek.

Karillyukpuk Creek: stream, flows S 4 miles from Kinnorutin Pass to Clear River, 3 miles W of Harvey Mountain and 33 miles N of Wiseman, Brooks Range; 67° 51' 30" N, 150° 23' 20" W, (map 124). In describing this stream, Marshall (1956, p. 72) wrote, “The gulch which came in at the head of the valley * * * we named Karillyukpuk, meaning 'very rugged' [in Eskimo].”

Kariltna River: stream, see Kahiltna River.

Karl Creek: stream, flows N 13 miles to Fog River, 60 miles E of Bethel, Kilbuck-Kuskokwim Mountains; 60° 49' N, 159° 56' W; (map 59). Local name reported in 1955 by J. M. Hoare, USGS.

Karlooch: village, see Karluk.

Karloutskoï, Cap: point of land, see Karluk, Cape.

Karluk Anchorage: bay, 3 miles across, at Karluk, on W coast of Kodiak Island; 57° 34' 30" N, 154° 28' 00" W; (map 35). Name derived from village of Karluk and reported in 1897 by Lt. Comdr. J. F. Moser, USN, commander of the USBF steamer Albatross.

Karluk Head: point of land, see Karluk, Cape.

Karluk Island: barrier island, 0.5 miles long, southernmost of McClure Islands, on Beaufort Sea coast, Arctic Plain; 70° 20' 25" N, 147° 19' 30" W; (map 150). Variant: Island Number 19. It is shown on present-day maps as an unnamed island SE of Jeannette Island. It was originally named Karluk Island by Leffingwell (1919, p. 96), “after the whaling ship Karluk,” which, under the command of Capt. Steven Cottle, “kindly towed the yawl halfway to Nome * * *” in July 1909 (p. 15). The island was identified by Leffingwell as Island Number 19, and was used as a triangulation station in 1910.

Karluk Lagoon: lagoon, 2.5 miles long, at mouth of Karluk River at Karluk, on W coast of Kodiak Island; 57° 34' N, 154° 25' W; (map 35). Name derived from village of Karluk and reported in 1897 by Lt. Comdr. J. F. Moser, USN, commander of the USBF steamer Albatross.

Karluk Lake: lake, 12 miles long, in E part of Kodiak Island, 20 miles SE of Karluk; 57° 23' N, 154° 03' W; (map 35). Name derived from village of Karluk and reported by USBF in 1889.

Karluk Reef: reef, 3 miles long, in Cook Inlet, 9 miles SW of Kenai, Cook Inlet Lowland; 60° 27' N, 151° 24' W; (map 62). Name published in 1900 by USC&GS.

Karluk River: stream, heads at Karluk Lake, flows N and W 24 miles through Karluk Lagoon to Shelikof Strait at Karluk, on W coast of Kodiak Island; 57° 34' 20" N, 154° 27' 45" W; (map 35). Name derived from village of Karluk and published by USC&GS in 1868.

Karluk Spit: village, see Karluk.

Karluk Strait: water passage, see Kupreanof Strait.

Karluk, Cape: point of land, 2 miles W of Karluk, on E coast of Kodiak Island; 57° 35' 10" N, 154° 30' 50" W; (map 35). Variant: Cap Karloutskoi, Karluk Head. Name derived from village of Karluk and published by USC&GS in 1868. This point was called "Cape Karloutskoi" by Capt. Lutke (1836, p. 276), IRN, and Baker (1906, p. 350) says "locally known as 'Karluk head'."

Karluk: village, pop. 129, on E coast of Kodiak Island; 57° 34' 10" N, 154° 27' 30" W; (map 35). Variant: Carlook, Karlooch, Karluk Spit, Karluta, Kunakakvak. Native name reported in 1805 by Capt. Lisianski (1814, p. 186), IRN, as "Carlook" and as "Karlooch" (map , p. 169). The Russian American Company in 1849 reported a village at or near this location called "Kunakakhvak." The Karluk post office was established here in 1892 (Ricks, 1965, p. 31).

Karlukskiy, Proliv: water passage, see Kupreanof Strait.

Karlun Lake: lake, see Kalun Lake.

Karluta: village, see Karluk.

Karmuk Point: point of land, between Kuk River and Wainwright Inlet, 4.5 miles SE of Wainwright, Arctic Plain; 70° 35' 10" N, 159° 53' 45" W; BGN 1925; (map 146). Eskimo name reported in 1924 by USGS.

Karon Lake: lake, 1 mile across, 12 miles N of Cape Mendenhall, Nunivak Island; 59° 58' 30" N, 166° 14' 30" W; (map 55). Eskimo name reported in 1949 to refer to the "river head" according to USC&GS.

Karpa Island: island, 1.5 miles long, 5 miles NE of Korovin Island, in Shumagin Islands, Aleutian Range; 55° 30' 30" N, 160° 03' 00" W; BGN 1890: (map 28). Variant: Boulder, Bouldyr, Buldyr, Inglikhakh, Inlikak, Tangimak. Published as "O[strov] Karpa," meaning "Carp Island," on Russian Hydrog. Dept. Chart 1379 (1847). The Aleut name is "Inlikak" or "Inglikhakh," according to Capt. F. P. Lutke, IRN, who also used the Russian name "Bouldyr," meaning "hovel". Boulder Island is shown on an 1890 USBF chart, while Bouldyr, Bouldir, and Karpa are shown on USC&GS charts.

Karr Hills: mountains, see Guyot Hills.

Karshner Creek: stream, flows SE 2.3 miles to Hot Springs Slough N of Manley Hot Springs, 44 miles ESE of Tanana, Yukon-Tanana Highlands; 65° 00' 10" N, 150° 37' 45" W; (map 106). Prospectors' name reported in 1916 by USGS.

Karson Creek: stream, see Kasson Creek.

Karstens Col: pass, 10,930 ft., between Karstens Ridge and Mount Koven, on E side of Muldrow Glacier, 6 miles NE of Mount McKinley, Alaska Range; 63° 07' 30" N, 150° 54' 30"

W; BGN 1948; (map 88). Variant: Karstens Notch. Named in 1946 by Bradford Washburn for Harry P. Karstens. See Karstens Ridge.

Karstens Notch: pass, see Karstens Col.

Karstens Ridge: ridge, 11,000-14,000 ft., in Mount McKinley National Park, extends N 1.8 miles from Harper Icefall to Karstens Col, 4.5 miles E of summit of Mount McKinley, Alaska Range. 63° 07' 10" N, 150° 55' 00" W; (map 88). Named in 1913 by Archdeacon Stuck (1921, p. 73) for Harry P. Karstens, "in honor of the man, who with Walter's [Harper] help, cut that staircase three miles long amid the perilous complexities of its [Mount McKinley's] chaotic ice-blocks." Karstens, with Archdeacon Stuck, Walter Harper, and Robert Tatum, made the "first official ascent" of Mount McKinley (South Peak) on June 7, 1913.

Karta Bay: bay, see Kasaan Bay.

Karta Bay: estuary, extends W 1 mile, off Kasaan Bay, at mouth of Karta River, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 34' 15" N, 132° 34' 00" W; (map 4). Variant: Kasa-an Anchorage. This name was originally published as "Kasa-an" in 1883 Coast Pilot (p. 85), but due to a copying error the name appeared as "Karta" on Brit. Adm. Chart 2431, a form that has since become well established.

Karta Lake: lake, 1.5 miles long, on Prince of Wales Island, near head of Kasaan Bay, in course of Karta River, Alexander Archipelago; 55° 34' N, 132° 38' W; (map 4). Variant: Little Salmon Lake. Local name reported in 1906 by Wright and Wright (1908, fig. 15), USGS. The name "Little Salmon" was published for this lake by G. H. Canfield (in Brooks and others, 1916, p. 110), USGS.

Karta River: stream, heads in Salmon Lake, on Prince of Wales Island, flows E through Karta Lake 4 miles to Karta Bay, Alexander Archipelago; 55° -33' 45" N, 132° 34' 30" W; (map 4). Variant: Lake River, Little Salmon. Local name reported in 1906 by Wright and Wright (1908, fig. 15), USGS.

Karulik: locality, see Kanulik.

Karumnulima Creek: stream, flows S 13 miles to Noatak River, 42 miles WSW of Survey Pass, Brooks Range; 67° 41' N, 155° 38' W; (map 125). Eskimo name reported by USGS in 1956 to refer in meaning to a broken arrow.

Karvak Creek: stream, see Driftwood Creek.

Kasa-an Anchorage: estuary, see Karta Bay.

Kasa-an Bay: bay, see Karta Bay.

Kasaan Bay: bay, extends NW 22 miles, off Clarence Strait, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 24' N, 132° 06' W; BGN 1899; (map 4). Variant: Casaan Bay, Karta Bay, Kasa-an Bay, Kasaan Bay, Kazarn Bay, Zaliv Kazarn. Haida Indian name published as "Z[aliv] Kazarn," or "Kazarn Bay," by Capt. M. D. Tebenkov (1852, map 9), IRN,

who applied it to Skowl Arm, at the southeast end of this bay. The name was published as "Kasa-an Bay" in 1883 Coast Pilot (p. 85).

Kasaan Bay: locality, see Old Kasaan.

Kasaan Island: island, 2.5 miles long, in Kasaan Bay, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 30' N, 132° 21' W; (map 4). Variant: Long Island. Named Long Island in 1880 by USC&GS; USFS changed the name in 1931 "in order to avoid confusion with another Island of that name off the southwestern coast of Prince of Wales Island."

Kasaan Mountain: mountain, 2,846 ft., on E coast of Prince of Wales Island, on Kasaan Peninsula, NE of Kasaan, Alexander Archipelago; 55° 32' 50" N, 132° 21' 30" W; (map 4). Local name reported in 1908 by C. W. Wright (in Brooks and others, 1909, pl. 2), USGS.

Kasaan Peninsula: peninsula, on E coast of Prince of Wales Island, extends SE 18 miles, between Clarence Strait and Kasaan Bay, Alexander Archipelago; 55° 33' N, 132° 20' W; (map 4). Named in 1901 by A. H. Brooks, USGS.

Kasaan Point: point of land, on E coast of Prince of Wales Island, between Kasaan Bay and its Skowl Arm, Alexander Archipelago; 55° 26' 40" N, 132° 16' 45" W; (map 4). Named by local fishermen and reported in 1904 by H. C. Fassett, USBF.

Kasaan: locality, see Old Kasaan.

Kasaan: village, pop. 36, on Kasaan Bay on SW coast of Kasaan Peninsula, Prince of Wales Island, Alexander Archipelago; 55° 32' 25" N, 132° 23' 50" W; (map 4). Village established in the 1890's when a salmon-packing plant was located here. Haida Indians from Kasaan, now "Old Kasaan," relocated here and the post office, established in 1900, was named for the old village. Its population was 129 in 1910; 126 in 1920; 112 in 1930; 85 in 1939; and 47 in 1950. See Old Kasaan.

Kasan Bay: bay, see Kasaan Bay.

Kasatochi Island: island, 1.5 miles across, 15 miles NW of Atka Island, Andreanof Islands, Aleutian Islands; 52° 10' 30" N, 175° 31' 00" W; BGN 1936; (map 18). Variant: Kassatotchy Island. Russian name published as "Kosatochyey" by Lt. Sarichev (1802, v. 2, p. 179), IRN; shown as "L' ile Kassatotchy" by Lutke (1836, p. 310), and as "O[strov] Kasatochiy" on Russian Hydrog. Dept. Chart 1400 (1848). Described by Capt. Lutke, IRN, as an extinct crater, containing a lake.

Kasaun Spit: spit, see Kason Spit.

Kasautaa: spit, see Kason Spit.

Kasegaluk Inlet: water passage, see Noakok Pass.

Kasegaluk Lagoon: lagoon, N end 16 miles SW of Wainwright, extends SW 120 miles on Chukchi Sea coast, Arctic Plain; 70° 28' N, 160° 29' W (NE end); 69° 16' N, 163° 18' W (SW end); (map 146). Variant: Kasegarlik Lagoon, Kasegarluk Lagoon, Kasegelik Lagoon.

Eskimo name reported in 1923 by USGS as “Kasegarlik” and changed in 1929 to its present spelling. In 1965, at Wainwright, Orth recorded the name as “Kasegelik,” meaning “spotted seal place” or “having spotted seal.”

Kasegarlik Lagoon: lagoon, see Kasegaluk Lagoon.

Kasegarluk Lagoon: lagoon, see Kasegaluk Lagoon.

Kasegelik Lagoon: lagoon, see Kasegaluk Lagoon.

Kaseglok: village, see Kasigluk.

Kashaiagamut: locality, see Kashiagamiut.

Kashaiagmut: locality, see Kashiagamiut.

Kashaiak Mountains: mountains, 3,000 ft., in Ahklun Mountains, 2 miles NW of junction of Naylorun and Togiak Rivers, 56 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 25' N, 160° 05' W; (map 53). Eskimo name reported in 1954 by USGS.

Kashaiak River: stream, see Naylorun River.

Kashaiak: locality, see Kashiagamiut.

Kashaiyagamut: locality, see Kashiagamiut.

Kashaiyak River: stream, see Gechiak Creek.

Kashaiyak River: stream, see Naylorun River.

Kashaiyamut: locality, see Gechiak.

Kasheega: bay, see Kashega Bay.

Kasheg-e-log-e-mute: village, see Kasheglok.

Kashega Bay: bay, 1 mile across, SW coast of Unalaska Island, Aleutian Islands; 53° 28' 50" N, 167° 10' 30" W; BGN 1890; (map 23). Variant: Kasheega, Kachiginskaia, Kashuga Bay, Koshigin, Koshiginskoi. Russian name given and published by Lt. Sarichev (1826, map 14), IRN, as “Zal[iv] Koshiginskoy,” or “Koshigin Bay,” in honor of Yefim Koshigin who spent the winter at Unalaska in 1763 (Baker, 1906,p.351). According to R. H. Geoghegan, the name “Kashega” is from the Greenlandic word “qagshigit” meaning “men's clubhouses.”

Kashega Pinnacles: rocks, at mouth of Kashega Bay, on SW coast of Unalaska Island, Aleutian Islands 53° 29' 40" N, 167° 08' 30" W; BGN 1989; (map 23). Descriptive Russian name from Kashega Bay, given by USC&GS in 1938.

Kashega Point: point of land, SW coast of Unalaska Island, Aleutian Islands; 53° 31' 25" N, 167° 11' 00" W; (map 23). Variant: Cape Kashiga, Cape Kashega, Kashuga Point. Named for

Kashega Bay and published as “M[ys] Kashiga,” or “Cape Kashiga,” by Capt. Tebenkov (1852, map 26), IRN. It was called “Kashuga Point” by USBF in 1888 and “Cape Kashega” by Baker (1906, p. 351).

Kashega, Cape: point of land, see Kashega Point.

Kashega: village, pop. 26, at head of Kashega Bay, on SW coast of Unalaska Island, Aleutian Islands; 53° 28' 00" N, 167° 09' 35" W; (map 23). Variant: Kashigin, Kashuga, Koshiga, Koshigin. Named for Kashega Bay and published by Lt. Sarichev (1826, map 14), IRN, as “S[elo] Koshiga” meaning “Koshiga Village.” It was called “Kashuga” by USBF in 1888. Baker (1906, p. 352) says “in 1831 it was the headquarters of the bidarshik or foreman of the Russian American Company for the western half of Unalaska * * *.”

Kashegelok: village, pop. 5, on right bank of Holitna River, opposite mouth of Chukowan River, 64 miles SW of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 50' N, 157° 50' W; BGN 1948; (map 60). Variant: Kasheg-e-log-e-mute. Eskimo village reported as “Kasheg-e-log-e-mute” by W. R. Buckman, a prospector who wintered here in 1902-03.

Kashevarof Passage: water passage, extends SE 20 miles along NE coast of Prince of Wales Island, from Sumner Strait to Clarence Strait, Alexander Archipelago; 56° 14' N, 133° 03' W; (map 6). Variant: Kashevaroff Passage, Kashevarow Passage, Kashvarow Passage, Kashvarow Strait, Proliv Kashevarova. Published in 1848 on Russian Hydrog. Dept. Chart 1396 as “Proliv Kashevarova” or “Kashevarov Strait.”

Kashevaroff Islands: islands, extend 14 miles between Zarembo Island and the NW coast of Prince of Wales Island, Alexander Archipelago; 56° 10' N, 132° 12' W; (map 6). Probably named in 1883 by W. H. Dall USC&GS; derived from Kashevarof Passage and published in the 1883 Coast Pilot (p. 89).

Kashevaroff Mountain: mountain, 2,282 ft., 12 miles SW of Kodiak, Kodiak Island; 57° 40' 25" N, 152° 36' 50" W; BGN 1941; (map 34). Named in 1940 by USC&GS “for Rev. N. P. Kashevaroff who was born about 1858 in Kodiak where he was priest for many years. He died in 1935 or 1936.”

Kashevaroff Passage: water passage, see Kashevarof Passage.

Kashevarova, Proliv: water passage, see Kashevarof Passage.

Kashevarow Passage: water passage, see Kashevarof Passage.

Kashiagamiut: locality, on right bank of Togiak River, 1.3 miles E of Nayorurun River, 57 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 22' N, 160° 04' W; (map 53). Variant: Kashaigamut, Kashaigmut, Kashiagamut, Kashaiaik, Kashaigamut, Kissaiakh, Kissiah, Kissiak. Former Eskimo village or camp mentioned by Ivan Petroff in the 1880 census as “Kissiak”; published in 1884 as “Kissaiakh.” It was recorded “Kashaigamut” on an 1898 fieldsheet by W. S. Post, but was published as “Kashaigamut” (Spurr, 1900, map 10), by USGS. The population in 1880 was 181; in 1940, 33.

Kashiagamut: locality, see Kashiagamiut.

Kashiga, Cape: point of land, see Kashega Point.

Kashigalagamute: locality, see Kashigalak.

Kashigalak: locality, "on Nelson Island in Bering Sea," NE of Nunivak Island; (map 57). Variant: Kashigalagamute, Kashigalogamut, Kashigalogumut. Former Eskimo camp or settlement reported in 1878 as "Kashigalogamut" by E. W. Nelson, U.S. Signal Service; listed as "Kashigalagamute" with a population of 10 by Ivan Petroff in the 1880 Census.

Kashigalogamut: locality, see Kashigalak.

Kashigalogumut: locality, see Kashigalak.

Kashigin: village, see Kashega.

Kashkulu Khaku: point of land, see Kaskulu Point.

Kashoto Glacier: glacier, in Glacier Bay National Monument, trends NW 2 miles to its 1961 terminus, 0.5 miles E of Johns Hopkins Inlet, 1 mile NE of Hoonah Glacier, 79 miles NW of Hoonah, St. Elias Mountains; 58° 53' 15" N, 137° 00' 30" W; BGN 1937; (map 10). Named by Field and Cooper (1937, p. 62) for Kashoto, chief of the Huna subtribe of The Tlingit Indians at the time of John Muir's visit in 1879.

Kashs Village: locality, see Kah Shakes.

Kashuga Bay: bay, see Kashega Bay.

Kashuga Point: point of land, see Kashega Point.

Kashuga: village, see Kashega.

Kashunahmiut: locality, see Kashunuk Village.

Kashunak River: stream, distributary of Yukon River, heads at junction of Driftwood and Kashunuk Sloughs, 61° 52' 30" N, 162° 55' 45" W, flows SW 225 miles to Angyoyaravak Bay, Yukon-Kuskokwim Delta; 61° 16' 30" N, 165° 38' 00" W; (map 75). Variant: Kashunak River, Kashunuk Slough, Kizhunak, Kizhunok. Eskimo name from Capt. Tebenkov (1852, map 3), IRN, who wrote it "Kizhunak." E. W. Nelson, U.S. Signal Service, crossed this stream in Dec. 1878 and gave it its present spelling.

Kashunak River: stream, see Kashunuk River.

Kashunak Village: locality, at mouth of Kashunuk River, Yukon-Kuskokwim Delta; 61° 18' N, 165° 39' W; (map 75). Variant: Kashunahmiut, Kashunok, Old Kashunuk Village. Abandoned Eskimo village first reported by E. W. Nelson, U.S. Signal Service, who visited there in December 1878. He reported 20 houses and a population of 100-200. In the 1880 Census, Petroff wrote "Kashunok" and reported a population of 125. The 1890 Census called it "Kashunahmiut" and gave a population of 232. In 1951 a USC&GS field report noted this

place was completely abandoned but several sod huts and the ruins of a frame church still remain on a low mound just east of the village. The triangulation station Kashu, 1951 is located in the village. The adjective “Old” is now generally used locally as part of the name.

Kashunok: locality, see Kashunuk Village.

Kashunuk Slough: stream, 2.8 miles long, connects head of Kashunuk River at its junction with Driftwood Slough to Yukon River, 27 miles W of Marshall, Yukon-Kuskokwim Delta; 61° 52' 40" N, 162° 55' 45" W; (map 74). Variant: Keshunuk Slough. Name shown on a fieldsheet in 1916 by R. H. Sargent, USGS.

Kashunuk Slough: stream, see Kashunuk River.

Kashutuk: locality, “on an island in the Yukon delta,” Yukon-Kuskokwim Delta; (map 77 or 92). Variant: Kachutok, Kushutuk. Former Eskimo camp or settlement listed as “Kachutok” with a population of 18 by Ivan Petroff in the 1880 Census.

Kashuvak Peninsula: peninsula, see Moser Peninsula.

Kashvarow Passage: water passage, see Kashevarof Passage.

Kashvarow Strait: water passage, see Kashevarof Passage.

Kashvik Bay: bight, 3.3 miles across, on E coast of Alaska Peninsula, in Katmai National Monument, 22 miles S of Mount Katmai, Aleutian Range; 57° 56' N, 155° 03' W; (map 35). Native name published by Capt. Tebenkov (1852, map 22), IRN, as “Z[aliv] Katvik,” or “Katvik Bay.”

Kashwitna Knobs: hills, 250 ft., 1.3 miles between tops, W of Susitna River, 47 miles NW of Anchorage, Cook Inlet Lowland; 61° 53' 30" N, 150° 13' 30" W; (map 70). Local name reported in 1954 by USGS; named for Kashwitna River.

Kashwitna Lake: lake, 1 mile long, W of The Alaska Railroad, 5.5 miles N of Willow and 42 miles NW of Anchorage, Cook Inlet Lowland; 61° 50' N, 150° 05' W; (map 70). Local name reported in 1954 by USGS; named for Kashwitna River.

Kashwitna River: stream, heads at glacier in Talkeetna Mountains at 61° 56' 35" N, 148° 51' 45" W, flows W 60 miles to Susitna River, 12 miles N of Willow and 49 miles NW of Anchorage, Cook Inlet Lowland; 61° 55' N, 150° 06' W; BGN 1935; (map 70). Variant: Kiswitno, Kochuitno. Tanaina Indian name reported in 1906 by R. H. Sargent, USGS; adopted by miners. Lt. H. G. Learnard, of Capt. E. F. Glenn's expedition in 1898, reported two Indian names for streams in this area, “Kiswitno” and “Kochuitno,” which may be variations of the name “Kashwitna.”

Kashwitna: locality, mile 193.9 on The Alaska Railroad, 8 miles N of Willow and 45 miles N of Anchorage, Cook Inlet Lowland; 61° 51' 45" N, 150° 04' 10" W; (map 70). Tanaina Indian name listed in The Alaska Railroad Guide published in 1920. See Kashwitna River.

Kasi-an: locality, see Old Kasaan.

Kasiak, Cape: point of land, between Kaiugnak and Three Saints Bays, on SE coast of Kodiak Island; 57° 04' 20" N, 153° 30' 00" W; (map 34). Variant: Mys Kasiyak. Eskimo name published as "M[ys] Kasiyak," "Cape Kasiyak," by Capt. Tebenkov (1852, map 23).

Kasiana Islands: islands, 1 mile across, 3 miles NW of Sitka, Alexander Archipelago; 57° 05' N, 135° 24' W; BGN 1897; (map 9). Variant: Apple Islands, Kaisana, Ostrova Kasyana, Ostrova Kasyany. Named in 1809 by the Russian navigator Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[stro]va Kasyany" or "Kasyany Islands."

Kasidaya Creek: stream, heads in a glacier at 59° 21' 50" N, 135° 14' 00" W, flows NW 6 miles to Taiya Inlet, 2.8 miles SW of Devils Punch Bowl and 4 miles S of Skagway, Coast Mountains; 59° 24' 15" N, 135° 20' 15" W; (map 45). Variant: Kasidayiya Creek, Yakutanya Creek. Tlingit Indian name Kasidayiya, meaning "slide-front" published by the IBC (1923, map 9)

Kasidayiya Creek: stream, see Kasidaya Creek.

Kasigaylick: sandbar, see Kasigiaglik Bar.

Kasigiaglik Bar: sand bar, at mouth of Wulik River, 1 mile NE of Kivalina, Kotzebue-Kobuk Lowland; 67° 44' N, 164° 30' W; (map 128). Variant: Kasigaylick. Eskimo name meaning "spotted seal place" reported in 1966 by E. S. Burch.

Kasiglok: village, see Kasigluk.

Kasiglook: village, see Kasigluk.

Kasigluk River: stream, heads at 60° 23' N, 160° 04' W, flows NW 60 miles to Kuskokuak Slough, 20 miles NE of Bethel, Yukon-Kuskokwim Delta; 60° 50' 45" N, 161° 14' 00" W; (map 59). Variant: Kiolemuk River. Eskimo name reported in 1949 by J. M. Hoare, USGS.

Kasigluk: village, pop. 244, 2 miles W of Nunapitchuk and 27 miles NW of Bethel, Yukon-Kuskokwim Delta; BGN 1962; 60° 52' N, 162° 32' W; (map 58). Variant: Kaseglok, Kasigoluk, Kasiglook, Kasiglok. Eskimo village, one of the "Tundra Villages," listed with a population of 66 in 1939 and 111 in 1950. The Kasigluk Post Office was established in 1962.

Kasigoluk: village, see Kasigluk.

Kasik Lagoon: lagoon, 0.4 miles long, on N shore of Krusenstern Lagoon, 4.5 miles NE of Cape Krusenstern, Kotzebue-Kobuck Lowland; 67° 10' 25" N, 163° 27' 15" W; (map 128). Eskimo name meaning "shoulder blade," according to USC&GS in 1950.

Kasilof River: stream, heads at Tustumena Lake, flows NW 17 miles to Cook Inlet at Kasilov, 12 miles S of Kenai, Cook Inlet Lowland; 60° 23' 15" N, 151° 17' 45" W; (map 62). Variant: Kasilov River, Kassilof River, Kussilof River, Kussiloff River, Kussilowa River, Reka Kasilova, Reka Kasilovka. This is a Russian surname reported by the scientist Island G. Wosnesenski in 1840; published by Capt. Tebenkov (1852, map 5) as "R[eka] Kasilov," that is, "Kasilov River."

Kasilof, Cape: point of land, on W coast of Kenai Peninsula, 14 miles S of Kenai, Cook Inlet Lowland; 60° 22' N, 151° 22' W; BGN 1925; (map 62). Variant: Mys Kasilov, Cape Kassilow, Cape Kussiloff, Point Kasilof. Name published in 1847 as "Mys Kasilov" or "Cape Kasilov," on Russian Hydrog. Dept. Chart 1378.

Kasilof, Point: point of land, see Kasilof, Cape.

Kasilof: village, pop. 100, on E shore of Cook Inlet, 12 miles S of Kenai, Cook Inlet Lowland; 60° 23' 15" N, 151° 17' 45" W; (map 62). Variant: Kassilof Saint George, Krepost Georgiyevskaya, Kussilof. This is an agricultural settlement of Kenai Indians. In 1786 the Russian Kolomin of the Lebedef-Lastochkin Company built two log houses surrounded by a stockade at or near this site. It was called "Saint George," presumably for one of the ships of the company. An Indian fishing village grew up around this stockade. Its population in 1880 was 31; in 1890, 117; in 1930, 45. A post office was obtained in 1925 (Ricks, 1965, p. 32). "In 1937 a party surveying for homesteading purposes on the Kenai Peninsula found near Kasilof the remains of a partially buried village. * * * A partial excavation showed 31 well-preserved houses, each about 15 by 22 feet and 14 feet high. The cabin walls were approximately four inches thick, made of beach sand, bricks, logs and sod. Each had a fire place in the center. * * *. It was thought at the time to be of Eskimo origin, although Eskimos are not known to have penetrated so far south. The aboriginal inhabitants of the Peninsula are at present mostly Kenai Indians, a branch of the great Athapascan family" (Colby, 1945, p. 318).

Kasilov River: stream, see Kasilof River.

Kasilov, Mys: point of land, see Kasilof, Cape.

Kasilova, Reka: stream, see Kasilof River.

Kasilovka, Reka: stream, see Kasilof River.

Kasinuk Mountain: hill, 110 ft., on Nelson Island, E of Kangirlvar Bay and 105 miles W of Bethel, Yukon-Kuskokwim Delta; 60° 32' N, 164° 57' W; (map 58). Eskimo name reported in 1949 by USC&GS.

Kasitsna Bay: bay, 1.2 miles wide, on Kenai Peninsula, 6.5 miles NE of Seldovia, Chugach Mountains; 59° 29' N, 151° 32' W; BGN 1944; (map 50). Variant: Kahsitsnah, Kasitsne. Kenai Indian name reported by G. C. Martin (1915, pl. 2), USGS; originally published in 1883 as "Kahsitsnah" by W. H. Dall, USC&GS.

Kasitsne: bay, see Kasitsna Bay.

Kasiyak, Mys: point of land, see Kasiak, Cape.

Kaskanak Creek: stream, heads at 59° 45' N, 155° 37' W, flows SW 40 miles to Kuichak River, 85 miles E of Dillingham, Bristol Bay Lowland; 59° 20' N, 156° 04' W; (map 52). Eskimo name reported in 1931 by USGS. See Kaskanak.

Kaskanak Village: locality, see Kaskanak.

Kaskanak: locality, on E bank of Tikchik Lake, 63 miles NE of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 56' N, 158° 12' W; BGN 1932; (map 52). Variant: Kaskanak Village, Kaskanakh, Kaskinakh. Name of a small Eskimo village or camp obtained in 1932 by USGS; published by Mertie (1938, pl. 1), USGS. The village has no permanent population.

Kaskanak: locality, on right bank of Kvichak River, 85 miles NE of Dillingham, Bristol Bay Lowland; 59° 17' N, 156° 11' W; BGN 1910; (map 52). Variant: Kaskanakh, Kaskanek, Kaskinakh, Koskanok. This Eskimo village was first mentioned by Ivan Petroff in the 10th Census of 1880 as "Kaskinakh village." It was called "Kaskanakh village" in the 1890 Census. The name was spelled "Kaskanak" in 1890 by A. B. Schanz in Frank Leslie's Illustrated Newspaper. The population in 1880 was 119; in 1890, 66; it is no longer permanently occupied.

Kaskanakh: locality, see Kaskanak.

Kaskanek: locality, see Kaskanak.

Kaskinakh: locality, see Kaskanak.

Kaskulu Point: point of land, on McClellan Flats, at mouth of Chilkat River, 1.5 miles W of Port Chilkoot and 17 miles SW of Skagway, Coast Mountains; 59° 13' 50" N, 135° 29' 00" W; BGN 1922; (map 45). Variant: Portage Point, Kashkulu Khaku, Qakulu Xagku. Tlingit Indian name Kashkulu Khaku meaning " 'man's scalp off' point" according to Louis Shotridge, and reported in 1922 by USC&GS. It was called Portage Point by USC&GS in the 1883 Coast Pilot (p. 197 and pl. 1819). This latter name was considered to be a misnomer.

Kaslokan Point: point of land, on E shore of Cold Bay, 10 miles SE of village of Cold Bay, at SW end of Alaska Peninsula, Aleutian Range 55° 07' 00" N, 162° 31' 30" W; BGN 1925, (map 29). Variant: Low Point. Aleut name meaning "low" given by USC&GS in 1925 (Chart 8703).

Kaslukug: locality, "on Agattu Island in Near Islands," Aleutian Islands Former Aleut village reported as "uninhabited" by Hodge (1907, p. 663), BAE.

Kasna Creek: stream, flows N 3 miles to Kontrashibuna Lake, 30 miles NE of Nondalton, Aleutian Range; 60° 10' N, 154° 00' W; (map 61). Tanaina Indian name reported by P. S. Smith (1917, p. 51), USGS.

Kasnatchin: locality, at Anchor Point on W coast of Kenai Peninsula, near E point of entrance to Cook Inlet, Cook Inlet Lowland; (map 50). Variant: Laida, Laidennoj. Former Athapaska Indian camp or settlement listed as "Laida" with a population of 29 by Ivan Petroff in the 1880 Census.

Kasnatchin: spit, see Anchor Point.

Kasnyku Bay: bay, 1 mile across, 9 miles N of Baranof, on NE coast of Baranof Island, Alexander Archipelago; 57° 13' N, 134° 51' W; (map 9). Tlingit Indian name reported in 1895 by Lt. Comdr. E. K. Moore, USN, and published by USC&GS on Chart 8050.

Kasnyku Falls: waterfall, between Kasnyku Lake and Waterfall Cove, on NE coast of Baranof Island, 7 miles N of Baranof, Alexander Archipelago; 57° 11' 30" N, 134° 50' 00" W; BGN 1923; (map 9). Named in 1922 by USFS, presumably for Kasnyku Bay.

Kasnyku Lake: lake, 1.7 miles long, 6.5 miles N of Baranof, on NE coast of Baranof Island, Alexander Archipelago; 57° 11' N, 134° 52' W; BGN 1923; (map 9). Named in 1923 by USFS, presumably for Kasnyku Bay into which it drains.

Kason Spit: spit, in Kivalina Lagoon, 2 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 44' N, 164° 34' W; (map 128). Variant: Kasaun Spit, Kasautaa, Kasown, Nuwuksaqpaq. Eskimo name meaning "drumstick"; so called because of its nearness to a circular sandbar called "the drum" (Kilon). Name reported in 1966 by E. S. Burch.

Kasook Inlet: estuary, extends N 3 miles off Tlevak Strait, on S coast of Sukkwan Island, Alexander Archipelago; (map 4). Variant: Kassook Inlet. Indian name recorded in 1897 by Capt. J. F. Moser, USN; published by USC&GS in 1899.

Kasook Lake: lake, 0.8 miles long, on S coast of Sukkwan Island, at head of Kasook Inlet, Alexander Archipelago; 55° 03' 15" N, 132° 49' 30" W; (map 4). Indian name recorded in 1897 by Capt. J. F. Moser, USN; published by USC&GS in 1899.

Kasown: spit, see Kason Spit.

Kassa Inlet: estuary, extends N 5 miles, off Cordova Bay, on SW coast of Prince of Wales Island, Alexander Archipelago; 54° 56' N, 132° 32' W; (map 1). Indian name used by navigators and recorded in 1905 by E. F. Dickins, USC&GS.

Kassa Island: island, 0.8 miles wide, in Kassa Inlet, on SW coast of Prince of Wales Island, Alexander Archipelago; 54° 56' 40" N, 132° 29' 45" W; (map 1). Local name reported in 1951 by USGS.

Kassa Point: point of land, SE point of entrance to Kassa Inlet, on SW coast of Prince of Wales Island, Alexander Archipelago; 54° 55' 25" N, 132° 31' 30" W; (map 1). Local name reported in 1951 by USGS.

Kassan Haade: locality, see Old Kasaan.

Kassan Islands: islands, extend 1 mile, between El Capitan and Prince of Wales Islands, Alexander Archipelago; 55° 55' 30" N, 133° 16' 20" W; (map 4). Name published in 1962 Coast Pilot (p. 95).

Kassan: locality, see Old Kasaan.

Kassatotchy Island: island, see Kasatochi Island.

Kassatream: stream, see Kuzitrin River.

Kassatriem: stream, see Kuzitrin River.

Kassdeparka Creek: stream, see Casadepaga River.

Kassiachamiut: locality, see Kassianmute.

Kassianmute: locality, on right bank of Togiak River, 5 miles SW of Kashiagamiut and 50 miles ENE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 18' N, 160° 12' W; (map 53). Variant: Kassiachamiut. This Eskimo village, which had two dance houses, was first mentioned by Ivan Petroff in the 10th U.S. census. The name means "Kassian people." Its population in 1880 was 615, in 1890 it was 50; it is now abandoned.

Kassik: island, see Kaiasik.

Kassilof River: stream, see Kasilof River.

Kassilof Saint George: village, see Kasilof.

Kassilow, Cape: point of land, see Kasilof, Cape.

Kasson Creek: stream, flows SW 1.7 miles to Shovel Creek, 9 miles N of Solomon, Seward Peninsula Highlands; 64° 41' N, 164° 25' W; (map 95). Variant: Karson Creek. Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Kassook Inlet: estuary, see Kasook Inlet.

Kastigo, Mys de: point of land, see Punishment Point.

Kasyana, Ostrova: islands, see Kasiana Islands.

Kasyany, Ostrova: islands, see Kasiana Islands.

Katagkag-mioute: locality, see Katagkak.

Katagkak: locality, "on Innoko River above its junction with Yukon River," Innoko Low; (map 78). Variant: Ighelkoslende, Katagkag-mioute. Former Eskimo camp or settlement reported in 1850 as "Ighelkoslende" and "Katagkag-mioute" by Lt. L. A. Zagoskin, IRN.

Katagune: island, see Kataguni Island.

Kataguni Island: island, 1.1 miles long, in Chilkat Islands, in Lynn Canal, 0.3 miles S of Shikosi Island and 30 miles S of Skagway, Coast Mountains; 59° 01' N, 135° 16' W; (map 45). Variant: Katagune. A Tlingit Indian name reported by Aurel and Arthur Krause (1883, map) as Katagune.

Katak Creek: stream, in Franklin Mountains, heads at glacier 5 miles S of Mount Chamberlain, flows NE 15 miles to the Hulahula River, 7.5 miles NW of Mount Michelson,

Brooks Range; 69° 22' N, 144° 33' W; BGN 1961; (map 139). Variant: Katuk Creek. Eskimo name obtained at Barter Island by USGS geologists in 1948, and reported to mean “fall” or “drop,” which may refer to rapids or falls along the course of the stream. It was reported by C. L. Whittington, USGS, in 1960.

Katak Creek: stream, see Wrench Creek.

Katakturak River: stream, heads on S slope of Sadlerochit Mountains, flows W 11 miles in valley thence N through mountain passes and 30 miles NE to Camden Bay, 3 miles W of Collinson Point and 25 miles SE of Flaxman Island, Arctic Plain; 69° 59' N, 145° 02' W; (map 139). Variant: Katakturak River, Kutukturok River. Eskimo name reported by Leffingwell (1919, p. 96) to possibly mean “a narrow place,” presumably referring to the canyon it has cut through the range. Orth was told in 1956 that the name means “many falls.” USC&GS in 1948 reported another version of the meaning, “looks open,” referring to the appearance of the stream from the sea.

Katakturak River: stream, see Katakturuk River.

Katakwa Point: point of land, SE tip of Tongass Island, Coast Mountains; 54° 46' 15" N, 130° 43' 45" W; BGN 1937; (map 2). Variant: Tongass Point. Local name derived from the Tlingit Indian name for the island, “Kut-tuk-wah,” which was published in 1869 by USC&GS. This may be the same point that Lt. Comdr. H. E. Nichols, USN, called “Tongass,” published in the 1891 Coast Pilot (p. 80).

Katalahosa Lake: lake, oxbow, 0.7 miles across, on N bank of Kanuti River, 24 miles SE of Allakaket, Kanuti Flats; 66° 17' 30" N, 152° 08' 30" W; (map 117). Koyukan Indian name obtained in 1956 at Allakaket by T. E. Taylor, USGS.

Katalan's Rock: hill, see Castle Hill.

Katalina, Ostrov: island, see Catalina Island.

Katalla Bay: bay, at Katalla, extends 15 miles from Palm Point to Strawberry Point, Malaspina Coastal Plain; 60° 11' N, 144° 31' W; BGN 1906; (map 64). Variant: Catalla Bay, Catella Bay. Native name meaning “bay” spelled “Catalla” by F. C. Schrader and A. C. Spencer (1901, p. 92), USGS. This name may have been given by oil prospectors.

Katalla River: stream, flows S 12 miles to Katalla Slough, 1 mile NE of Katalla, Malaspina Coastal Plain; 60° 12' N, 144° 29' W; BGN 1906; (map 64). Variant: Catalla River, Catella River. Named after the bay; reported in 1903 by USGS. See Katalla Bay.

Katalla Slough: estuary, extends NW 3 miles from mouth of Oil Creek to Katalla, Malaspina Coastal Plain; 60° 12' N, 144° 30' W; BGN 1906; (map 64). Named after the bay; reported in 1903 by USGS. See Katalla Bay.

Katalla: settlement, pop. 5, on S coast of Alaska, at mouth of Katalla River, 50 miles SE of Cordova, Malaspina Coastal Plain; 60° 12' N, 144° 31' W; BGN 1906; (map 64). Variant: Catalla, Catella. Named after Katalla Bay; the village was established about 1903 as a supply point after discovery of oil in the area. The village population was 188 in 1910; 84 in

1920; 44 in 1930; and 23 in 1940. The Katalla post office was established in 1904 and discontinued in 1943 (Ricks, 1965, p. 32).

Katch Island: island, see Kak Island.

Katcheldat River: stream, see Yentna River.

Katchin Creek: stream, flows SE 4 miles to Redoubt Bay, Cook Inlet, 7 miles NNW of Harriet Point and 37 miles W of Kenai, Aleutian Range; 60° 29' N, 152° 19' W; (map 62). Local name reported in 1958 by USGS.

Kate and Anna Creek: stream, flows NW 1 mile to Canyon Creek, upstream from El Patrone Creek, 23 miles NW of Solomon, Seward Peninsula Highlands; 64° 51' N, 164° 47' W; (map 95). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Kate, Mount: mountain, 4,200 ft., 2.8 miles SW of S end of Solomon Gulch, 8.4 miles SW of Valdez, Chugach Mountains; 61° 00' 05" N, 146° 20' 40" W; (map 68). Named in 1898 by Capt. W. R. Abercrombie, USA.

Kateekhuk Island: island, see Kateekuk Island.

Kateekuk Island: island, 1 mile across, in Semidi Islands, between Aghiyuk and Chowiet Islands, Aleutian Range; 56° 05' N, 156° 44' W; (map 31). Variant: Kateekhuk Island. Eskimo name reported as "Kateekhuk Island" in 1874 by W. H. Dall, USC&GS, and published as "Kateekuk Island" in 1916 Coast Pilot (v. 2, p. 147).

Kateel River: stream, flows NE then SE 115 miles to Koyukuk River, 31 miles SW of Roundabout Mountain, Koyukuk Lowland; 65° 27' N, 157° 37' W; (map 108). Variant: Cotillakakat River, Khotylkakat, Koteelkakat. Koyukan Indian name published in 1842-44 by Lt. L. A. Zagoskin, IRN, as "Khotylkakat" or "mouth of the Khotyl"; applied to a camp or a village at the stream's mouth. Zagoskin, however, shows the name "R[eka] Notylno" or "Notilno River" which was applied to the stream proper. Lt. Allen (1887, p. 105-106) recorded the name as "Koteelkakat" in 1885. Allen wrote "below the junction [of the Kateel and Koyukuk] is the site of the station established shortly after the transfer of the Territory * * *. This is the highest point reached on the Koyukuk by Lieutenant Zagoskin, of the Russian Navy, in the winter of 1842, though he ascended the Koteelkakat to latitude 65° 35'."

Katenai Hill: mountain, 1,344 ft., on S coast of Afognak Island, 5 miles NE of Afognak, Kodiak Island; 58° 04' 35" N, 152° 42' 40" W; (map 43). Local name reported in 1952 by USGS.

Kates Needle: mountain, 10,002 ft., Boundary Peak 70 on Alaska-Canada boundary, 13 miles SE of Devils Thumb and 126 miles E of Sitka, Coast Mountains; 57° 02' 45" N, 132° 02' 35" W; BGN 1953; (map 8). Variant: Boundary Peak 70, Kates Needles. Name published in 1893 by USC&GS; so named because of the "very sharp peaks."

Katete River: stream, 15 miles long, heads in Alaska about 5 miles SW of Mount Fawcett, flows generally N across international boundary to Stikine River, Coast Mountains; 56° 40' N, 131° 49' W; BGN 1900; (map 7). Variant: Kahate River, Kahtete River, Ka-te-te River,

Kwahteetah River. Tlingit Indian name reported in 1900 by Marcus Baker, USGS. This name was first published in 1883 by USC&GS as “Kwahteetah.”

Kathakne: village, on NE shore of Fish Lake, 3 miles E of Northway, Alaska Range; 62° 58' 10" N, 141° 50' 00" W; (map 84). Indian name reported by USGS in 1955.

Kathaleen Island: island, extends NE-SW 4 miles in Yukon River, 1 mile E of Doyle Island and 43 miles NE of Ruby, Nowitna Lowland; 64° 59' N, 154° 08' W; (map 98). Riverboat pilots' name shown on 1940 “Navigation Chart, Tanana-Yukon Rivers” of the River Boat Service, U.S. Dept. of Interior.

Kathleen Creek: stream, flows S 1 mile to Jessie Creek, 21 miles E of Katalla, Malaspina Coastal Plain; 60° 12' N, 144° 02' W; (map 64). Local name reported by G. C. Martin (1921, pl. 4), USGS.

Kathleen, Lake: lake, 1.7 miles long, 28 miles N of Angoon, on W coast of Admiralty Island, Alexander Archipelago; 57° 54' 40" N, 134° 40' 00" W; (map 9). Named in 1920 by W. T. Tolch, mining engineer of Juneau.

Kathryn, Mount: mountain, 4,305 ft., between heads of Woodchopper and Coal Creeks, Yukon-Tanana Highlands; 65° 11' 20" N, 143° 32' 25" W; BGN 1961; (map 103). Named for Kathryn Stanton Patty, 1896-1961, first lady of the Univ. of Alaska from 1953 to 1960, and who earlier, with her husband, developed gold mining operations in this area.

Kathul Mountain: mountain, 3,122 ft., 1.5 miles N of Yukon River and 15 miles NE of junction of Charley and Yukon Rivers, Porcupine Plateau; 65° 21' 15" N, 142° 16' 45" W; (map 103). Variant: Cathul Mountain, Cathut Mountain, Kathal Mountain. Indian name recorded in 1883 as “Cathul Mountain” by Lt. Schwatka (1885b, sheet 8), USA. The “Kathul” spelling was established in 1897 by USGS (1898, pl. 38).

Katie Creek: stream, on E coast of Alaska Peninsula, flows NE 1.7 miles to Puale Bay, 44 miles NW of Karluk, Aleutian Range; 57° 41' 25" N, 155° 36' 45" W; (map 35). Local name obtained from J. L. McPherson of Iliamna; published by G. C. Martin (1921, pl. 10), USGS.

Katiktak Mountain: mountain, 6,320 ft., E of Rumbling Mountain, S of Kenunga Creek, 21 miles SE of Anaktuvuk Pass, Brooks Range; 68° 01' N, 150° 58' W; BGN 1932; (map 134). Named by Robert Marshall in 1932. The word is reported to be an Eskimo word for “white.”

Katktuwing: locality, on coast of Beaufort Sea, E of Barter Island; (map 152). This Eskimo name is shown on John Simpson's 1853 native map. It seems to be the same name as “Kaktovik,” the Eskimo name for Barter Island

Katkwaahltu: locality, “on Chilkat River, 6 miles above its mouth,” St. Elias Mountains; (map 45). Variant: Katkwaltu, Kutkwutlu, Qatq!wa' ltu. Former Tlingit Indian town listed as “Kutkwutlu” with a population of 125 in the 1880 Census by Ivan Petroff; reported in 1904 as “Qatq!wa' altu,” meaning “town on the point of a hill,” by J. R. Swanton, BAE.

Katkwaltn: locality, see Kalwatta.

Katkwaltu: locality, see Katkwaahlitu.

Katkwaltv: locality, see Kalwatta.

Katlany's Village: locality, "in SE Alaska," Coast Mountains. Former Tlingit Indian summer camp listed with a population of 106 by Ivan Petroff in the 1880 Census.

Katlian Bay: bay, 0.7 miles across, 5 miles long, 8 miles N of Sitka, on NW coast of Baranof Island, Alexander Archipelago; 57° 09' N, 135° 23' W; BGN 1897; (map 9). Variant: Bukhta Katliana, Guba Kotleana, Katliana Bay, Katlianofa Gulf, Katlians Bay, Kortleana Bay, Kotleana Bay, Kotlian Bay, Kotlians Bay. Named in 1809 by Capt. U. F. Lisianski, IRN, for one of the Indian chiefs at Sitka.

Katlian River: stream, flows W 10 miles to Katlian Bay, 8.5 miles N of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 10' 15" N, 135° 16' 30" W; BGN 1933; (map 9). Named in 1933 by USFS "for the Tlingit Indian chief who in 1799 sold the land upon which the settlement of Sitka was first located." It is said that in 1806 he prevented a second Indian massacre at the present site of Sitka.

Katlian, Mount: mountain, 4,303 ft., 8.5 miles NE of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 09' 15" N, 135° 12' 00" W; BGN 1929; (map 9). Named in 1927 by Capt. R. S. Patton, USC&GS, "for Chief Katlian, principal chief of the Tlingit Indians at Sitka at the time of its settlement by the Russians. Under his leadership in 1802 the Indians destroyed Baranof's fort located there. It is said the name is sometimes spelled Kotian. The name is usually borne by the Chief of the Kitsadi Clan of Tlingits."

Katlianofa Gulf: bay, see Katlian Bay.

Katlitna River: stream, heads in lake, flows NW 65 miles to Kuskokwim River, 9 miles S of McGrath, Kuskokwim Lowland; 62° 49' 30" N, 155° 36' 40" W; (map 80). Variant: Kalitna River, Reka Kichotno, Reka Kitschotno. Ingalik Indian name obtained in 1908 by Maddren (1910, pl. 1), USGS. Lt. L. A. Zagorskin, IRN, in 1842-44, applied another Indian name, "Kichotno."

Katmai Bay: bay, 9 miles across, at mouth of Katmai River, on E coast of Alaska Peninsula in Katmai National Monument, 17 miles S of Mount Katmai, Aleutian Range; 57° 58' N, 154° 57' W; (map 35). Variant: Baie Katmay, Katmai Golfe, Katmaiskoi Golfe, Zaliv Katmai. Eskimo name reported in 1828 as "Katmaiskoi golfe" by Lutke (1836, p. 276); von Krusenstern (1827, map 17), published "Baie Katmay."

Katmai Canyon: canyon, U-shaped, on Alaska Peninsula, extends 5 miles along course of Katmai River, between Mount Katmai and Barrier Range, in Katmai National Monument, Aleutian Range; 58° 13' N, 154° 56' W; BGN 1924; (map 42). Named in 1916 by R. F. Griggs, National Geographic Society, after Katmai Bay.

Katmai Creek: stream, see Katmai River.

Katmai Golfe: bay, see Katmai Bay.

Katmai Lakes: lakes, largest 0.5 miles long, in upper Katmai River, on Alaska Peninsula, in Katmai National Monument, 6 miles SE of Mount Katmai, Aleutian Range; 58° 14' N, 154° 50' W; BGN 1924; (map 42). Named in 1916 by R. F. Griggs, National Geographic Society; “field observation in 1953 failed to show these features,” according to National Park Service.

Katmai National Monument: national monumnet, over 4,200 sq. miles, on Alaska Peninsula and adjacent islands, includes Valley of Ten Thousand Smokes, and Mount Katmai and Novarupta; site of a great volcanic eruption in June 1912, Aleutian Range; 58° 25' N, 155° 00' W; (map 42). Named for Mount Katmai. It was established September 24, 1918, and enlarged in 1931. In 1942 the islands off the coast were added and the monument now offers more than 4,200 sq. miles of ocean bays, fjords and lagoons, backed by a range of glacier covered peaks and volcanic crater lakes, behind which lies an interior wilderness of forests and great lake chains.

Katmai Pass: pass, 2,600 ft., near head of Mageik Creek, on Alaska Peninsula, in Katmai National Monument, 7 miles SW of Mount Katmai, Aleutian Range; 58° 14' N, 155° 10' W; (map 42). Named in 1898 by J. E. Spurr and W. S. Post, USGS, and “applied because of proximity to Katmai River.”

Katmai Reef: reef, in Pacific Ocean, 0.25 miles long, near middle of N entrance to Chignik Bay, 26 miles NE of Chignik, Aleutian Range; 56° 25' N, 157° 49' W; (map 31). Name published by USC&GS in the 1926 Alaska Coast Pilot (v. 2, p. 176).

Katmai River: stream, heads at glacier terminus on Alaska Peninsula, in Katmai National Monument, flows SW 20 miles to Katmai Bay, 16 miles S of Mount Katmai, Aleutian Range; 58° 02' N, 154° 57' W; (map 42). Variant: Katmai Creek, Reka Katmay. Eskimo name reported as “R[eka] Katmay” by Capt. Tebenkov (1852, map 22) and as “Katmai River” in 1917 by R. F. Griggs, National Geographic Society.

Katmai Valley: valley, of Katmai River, on Alaska, Peninsula, in Katmai National Monument, 17 miles S of Mount Katmai, Aleutian Range; 58° 02' N, 154° 57' W; (map 42). Named in 1918 by R. F. Griggs, National Geographic Society.

Katmai Volcano: volcano, see Katmai, Mount.

Katmai, Mount: volcano, 6,715 ft., with crater lake on W slope, on Alaska Peninsula, in Katmai National Monument, 48 miles NW of Karluk, Aleutian Range; 58° 17' N, 154° 57' W; BGN 1966; (map 42). Variant: Katmai Volcano. Name published in 1910 as “Katmai Volcano” by USC&GS and as “Mount Katmai” by G. C. Martin (1913, v. 28, text passim), USGS.

Katmai: locality, site of a village near Katmai Bay, on S coast of Alaska Peninsula, in Katmai National Monument 16 miles S of Mount Katmai, Aleutian Range; 58° 02' N, 154° 55' W; BGN 1954; (map 42). Variant: Selo Katmay, Seleniye Katmayskoe, Village Katmay. This once important Eskimo village was reported by von Krusenstern (1827, map 17) as “Katmay.” The 10th Census in 1880 lists a population of 218; 11th Census in 1890 lists 132. Katmai was abandoned following the 1912 eruption of Mount Katmai and the people were resettled in Perryville, near Mitrofanina Bay.

Katmaiskoi Golfe: bay, see Katmai Bay.

Katmay, Baie: bay, see Katmai Bay.

Katmay, Reka: stream, see Katmai River.

Katnu River: stream, see Big River.

Katolinat, Mount: peak, 4,730 ft., on Alaska Peninsula, in Katmai National Monument, 24 miles NW of Mount Katmai, Aleutian Range; 58° 27' 50" N, 155° 28' 20" W; (map 42). Variant: Mount Kakhtolinat. Native name reported as "Kakhtolinat" by Island Petroff in the 10th Census in 1880.

Katovik: village, see Kaktovik.

Katrikiorak Creek: stream, heads in lake, flows NE 7.8 miles to Kuk River, 34 miles S of Wainwright, Arctic Plain; 70° 10' N, 159° 43' W; (map 146). Eskimo name published in 1958 by AMS.

Katrine Creek: stream, flows NW 7.5 miles to Margaret Creek 1 mile E of its junction with Kejulik River, on Alaska Peninsula, 43 miles SW of Mount Katmai, Aleutian Range; 57° 50' 40" N, 155° 42' 40" W; (map 35). Local name obtained from J. L. McPherson of Iliamna, and published by W. R. Smith and A. A. Baker (in Brooks and others, 1924, pl. 9), USGS.

Katschadelch: stream, see Rosaunt Creek.

Katschin River: stream, see Katzehin River.

Katschkahin River: stream, see Chilkoot River.

Katsehin River: stream, see Katzehin River.

Katsekahin River: stream, see Kicking Horse River.

Katselena: stream, see Kotsina River.

Kattag: village, see Aleut Village.

Katuk Creek: stream, see Katak Creek.

Katusna River: stream, see Kalukna River.

Katz Island: island, 0.1 miles across, in Galankin Islands, 1.5 miles S of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 01' 50" N, 135° 19' 00" W; (map 9). Named in 1880 by U.S. naval officers "for Mr. Katz," USN. The name was published by USC&GS in 1883 Coast Pilot (p. 143).

Katzehin River: stream, heads at terminus of Meade Glacier, flows W 12 miles to Chilkoot Inlet, 2.4 miles E of Battery Point and 18 miles S of Skagway, Coast Mountains; 59° 12' N, 135° 17' W; BGN 1900; (map 45). Variant: Chkazhini River, Katsehin River, Katschin River.

Tlingit Indian name reported as Chkazehin by Aurel and Arthur Krause (1883, map). It was spelled Katsehina by USC&GS in the 1891 Coast Pilot (p. 203) and Katschin on Chart 3091 in 1898.

Katzzelena: stream, see Kotsina River.

Kauatka: island, one of Shumagin Islands; 55° N, 160° W; (map 27). Variant: Kaouakhta, Kyuatka. This Aleut name meaning “long, narrow, and with some stony places,” was applied by Father Veniaminov (1840, v. 1, p. 255), and was published by him as “Kyuatka” (p. 265). Capt. Lutke (1836, p. 267) called the island “Kaouakhta.” The exact location of this island is not known.

Kauda Point: point of land, S tip of Tuxekan Island, 22 miles NW of Craig, Alexander Archipelago; 55° 46' 28"N, 133° 15' 30" W; (map 4). Indian name published in 1956 by USC&GS.

Kaufman Creek: stream, heads at Kaufman Pass and flows 4.5 miles ESE to Temnac Bay, Attu Island, Aleutian Island; 52° 49' 03" N, 173° 00' 34" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II; name shown on an AMS map published in 1948.

Kaufman Gulch: ravine, extends 1.6 miles N to Nizina-River, 7 miles SE of McCarthy, Wrangell Mountains; 61° 22' 00" N, 142° 44' 10" W; (map 67). Local name obtained by USGS and published on maps since 1954.

Kaufman Pass: pass, between Kaufman Creek and Nevidiskov River, at N end of Theodore Ridge, southern Attu Island, Aleutian Islands; 52° 50' 15" N, 172° 54' 00" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II; name shown on an AMS map published in 1948.

Kaugrak Deep: locality, see Kograk Deep.

Kaugzaaq: locality, see Kograk Deep.

Kauichungak Creek: stream, see Koweejoongak River.

Kauilikh Bluff: bluff, see Koweelik Bluff.

Kauk River: stream, flows NW 30 miles to Eschscholtz Bay, 37 miles SW of Selawik, Kotzebue Kobuk Lowland; 66° 17' N, 161° 04' W; (map 114). Name shown on a 1901 field sheet by D. L. Reaburn, USGS.

Kaultui Mountain: mountain, 3,743 ft., between Kaultuinjek Creek and East Fork Sheenjek River, 17 miles E of Table Mountain, Brooks Range; 68° 19' 30" N, 143° 00' 00" W; (map 137). Kutchin Indian name obtained in 1956 by T. E. Taylor, USGS.

Kaultuinjek Creek: stream, flows S 20 miles to East Fork Sheenjek River, 17 miles SE of Table Mountain, Brooks Range; 68° 16' N, 143° 02' W; (map 137). Kutchin Indian name obtained in 1956 by T. E. Taylor, USGS.

Kautas: locality, "on Koyokuk River." Variant: Cawtaskakat. Former Eskimo camp or settlement reported in 1887 as "Cawtaskakat" with a population of 10 by Lt. H. T. Allen, USA.

Kauveren River: stream, see Kaviruk River.

Kauvet Creek: stream, see Kavet Creek.

Kavachurak Creek: stream, flows N 18 miles to Noatak River, 23 miles S of Howard Pass, Brooks Range; 67° 53' N, 156° 52' W; (map 126). Eskimo name reported to mean "red hill," obtained at Noatak and Kobuk by Orth in 1956.

Kavai hazakmute: locality, see Kaviak.

Kavaksarak: locality, see Kravaksanak.

Kavaksurak Mountain: mountain, 4,425 ft., in Brooks Range, on W side of Howard Pass; 68° 19' N, 157° 00' W; (map 132). Named by Orth in 1956 for field reference reasons. It is the Eskimo name for Howard Pass obtained at Noatak the same year and reported to mean "a little red," but also may mean "becomes red" [qavioqsirok], referring to the turning red of the vegetation in late summer and early fall.

Kavalga Island: island, 5.5 miles long, Delarof Islands, Aleutian Islands; 51° 33' N, 178° 48' W; (map 16). Variant: Kakhvalga Island, Ravalga Island. Aleut name published as "Kakhvalga" by Capt. Lutke (1836, p. 323), IRN, and as "Kavalga" by Capt. Tebenkov (1852, map 28), IRN.

Kavalghak Bay: bay, 3 miles wide, between Singik Point and Kaghoopalik Point, 8 miles S of Gambell, W coast of St. Lawrence Island; 63° 40' N, 171° 46' W; BGN 1951; (map 93). Variant: Kayalghak Bay. Eskimo name reported by Orth in 1965, from an informant at Gambell, to mean "sleeping place." The name is applied locally only to the coastal indentation east of Singik Point. The bay probably takes its name from a small village or camp once located here. The Gambell village council recommended the name for map usage in 1949.

Kavalghak Cape: point of land, see Singik Point.

Kavalghak Creek: stream, flows W 2 miles to Kavalghak Bay, 10 miles S of Gambell, St. Lawrence Island; 63° 39' N, 171° 44' W; BGN 1951; (map 93). Variant: Kavalghak River, Kovighat River. Eskimo name reported by Orth in 1965 to mean "sleeping place." See Kavalrok.

Kavalghak River: stream, see Kavalghak Creek.

Kavalghak: locality, see Kavalrok.

Kavalina River: stream, see Kivalina River.

Kavaloonmiut: locality, see Kuvlomiut.

Kavalrok: locality, site of camp or village, 10 miles S of Gambell, near Singik Point, W coast of St. Lawrence Island; 63° 39' N, 171° 46' W; (map 93). Variant: Kavalghak. This Eskimo name, sometimes spelled "Kaval-ghak," was reported by Orth in 1965 to mean "sleeping place." The variant form of the name was published by the Univ. of Alaska in 1932.

Kavalrok: point of land, see Singik Point.

Kavarok River: stream, see Kaviruk River.

Kavearak Point: point of land, on Beaufort Sea coast, 4 miles W of Beechey Point, Arctic Plain; 70° 30' 15" N, 149° 19' 20" W; (map 150). Eskimo name reported by USC&GS in 1951, meaning "sand" [qaviaraq].

Kaveazruk: locality, "at Port Clarence," Seward Peninsula Highlands. Former Eskimo camp or settlement listed in the 1890 Census (p. 162).

Kavet Creek: stream, flows 10 miles NNW to Kobuk River 7.5 miles SE of its junction with Kaliguricheark River, 39 miles NE of Kiana, Brooks Range; 67° 07' 45" N, 159° 02' 00" W; (map 127). Variant: Kauvet Creek. Eskimo name shown as "Kau-vet Creek" on a 1901 fieldsheet by D. L. Raeburn, USGS; however, the name was spelled "Kavet" when published (Mendenhall, 1902, pl. 5).

Kaviagamute: locality, see Kaviak.

Kaviagemut: locality, see Kaviak.

Kaviagmut: locality, see Kaviak.

Kaviak Creek: stream, heads on Okiotak Peak, flows NE 6.5 miles to Sadlerochit River 7.5 miles SW of junction with Kekiktuk River, 23 miles NW of Mount Michelson, Brooks Range; 69° 31' N, 145° 00' W; BGN 1961; (map 139). Variant: Fox Creek. Eskimo name obtained in 1956 by Orth and means "red fox."

Kaviak Peninsula: peninsula, see Seward Peninsula.

Kaviak: locality, near head of Imuruk Basin, 25 miles E of Teller, Seward Peninsula Highlands; 65° 09' N, 165° 30' W; (map 111). Variant: Kavai hazakmute, Kaviagamute, Kaviagemut, Kaviagmut, Kaviarazakhmute, Kaviarazkhmute, Kaviarazkhmute. Site of an Eskimo village. Lt. L. A. Zagoskin, IRN, 1842-44, wrote the name of the village as "Kaviagmiut" and said it meant "fox." Members of the Western Union Telegraph Expedition spelled the name variously in the "Esquimaux," their monthly newspaper published at Teller, 1866-67. In the 10th Census, in 1880, Petroff (1884, p. 11) listed a population of 200 Eskimo. The 11th Census, in 1890 (1893, p. 130) included "Kaviagmiut" in the Port Clarence village. Subsequent censuses have not recorded this village.

Kaviarazakhmute: locality, see Kaviak.

Kaviarazkhmute: locality, see Kaviak.

Kaviarzakhmute: locality, see Kaviak.

Kaviavazak River: stream, flows SW to head of Imuruk Basin, 30 miles E of Teller, Seward Peninsula Highlands; (map 111). Variant: Karavaxarak River. This Eskimo name appeared on many maps between 1869 and 1898. With the advent of the gold rush in 1899 and 1900 and the detailed map ping that accompanied it, the name was found to be unknown locally. This may be the lower, swampy portion of the Kuzitrin River, which Collier (1902, p. 60), USGS, said "is called Kaviruk by the natives, and is, in fact, the delta portion of the Kuzitrin and Kruzgamepa rivers." The stream which Collier showed as Marys River is now called "Kaviruk River." See Fish River.

Kaviavazak River: stream, see Kaviruk River.

Kaviavizak River: stream, see Kuzitrin River.

Kaviayak Baie: bay, see Clarence, Port.

Kavicksum Koogowranga: stream, see Kawiksak Creek.

Kavik River: stream, heads on Mount Salisbury at 69° 09' N, 146° 20' W, flows NW 80 miles to Shavirovik River, 28 miles SW of Flaxman Island, Arctic Plain; 70° 02' 45" N, 147° 19' 45" W; BGN 1959; (map 150). Variant: Spellman River. An Eskimo word for the wolverine; the name was given in 1947 by George Gryc, USGS, "because several of the animals were seen here during the field season."

Kaviktit Mountain: mountain, 4,610 ft., in Endicott Mountains, 14 miles NE of Survey Pass, Brooks Range; 67° 56' N, 153° 37' W; (map 125). Eskimo name that may mean "like a quoit," recorded in Anaktuvuk Pass by Orth, USGS, in 1956.

Kavipak: bay, see Kiveepuk Bay.

Kaviruk River: stream, formed by junction of Coco and Johnston Creeks, flows SW 17 miles to Marys Lake, 32 miles E of Teller, Seward Peninsula Highlands; 65° 13' N, 165° 16' W; (map 111). Variant: Covearak River, Cov-vee-arak River, Fluss Cheuweren, Ka-ooveren River, Kauveren River, Kavarok River, Kaviavazak River, Kow-e-rook River, Marys River, Reka Khvunveren. Eskimo name reported by "some of the Franklin search parties about 1850" as "Cov-vee-arak." It was called "Kauveren" and "Ka-ooveren" by Commodore Joseph Billings in 1790. The prospectors' name "Marys River" was reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS. This name probably referred to the Eskimo woman who ran the roadhouse known as "Marys Igloo."

Kaviyak, Zaliv: bay, see Clarence, Port.

Kavlumiut: locality, see Kuvlomiut.

Kavraurak Hill: hill, see Kavrarak Hill.

Kavrorak Hill: hill, 574 ft., on Chukchi Sea coast, N of Kavrorak Lagoon, 14 miles NW of Kivalina, Arctic Slope; 67° 53' N, 164° 53' W; BGN 1963; (map 128). Variant: Covroeruk Mountain, Kavraurak Hill, Kavrowrak, Kawraugraq, Kawzauzaq. Eskimo name reported to refer to the “pointed part of a woman's parka,” which the hill resembles; reported in 1950 by USC&GS.

Kavrorak Lagoon: lagoon, 1.2 miles long on Chukchi Sea coast, 13 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 52' N, 164° 54' W; BGN 1963; (map 128). Variant: Covroeruk Lagoon, Kovrorak Lagoon. Eskimo name reported in 1950 by USC&GS; named for the nearby hill.

Kavrorak Springs: springs, S of Kavroarak Hill, drain into Kavroarak Lagoon, 14 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 52' 30" N, 164° 53' 00" W; BGN 1963; (map 128). Variant: Covroeruk Spring, Kevrorak Springs, Kevroruk Springs, Kovrorak Spring, Kovroruk Springs, Seekoosooweelak. Eskimo name reported in 1950 by USC&GS; named for the nearby hill. E. S. Burch, in 1966, reported the Eskimo name as “Seekoosooweelak” meaning “never freezes.”

Kavrowrak: hill, see Kavrorak Hill.

Kavyaak, Zaliv: bay, see Clarence, Port.

Kavyayak, Zaliv: bay, see Clarence, Port.

Kawanak Channel: water passage, in Yukon Delta on Norton Sound, extends W from mouth of Kawanak Pass, 20 miles N of Kwiguk, Yukon-Kuskokwim Delta; 63° 02' N, 164° 38' W; (map 92). Eskimo name reported in 1899 by G. R. Putnam, USC&GS; published in 1901 on Chart 9372.

Kawanak Pass: stream, water passage in Yukon Delta, heads at Kwikpak Pass, flows NW 24 miles to Norton Sound, Yukon-Kuskokwim Delta; 63° 02' N, 164° 37' W; (map 92). Eskimo name reported in 1899 by G. R. Putnam, USC&GS; published in 1901 on Chart 9372.

Kawanera: ledge, projecting from shore line, at middle of Great East Rookery, on NE coast of Saint George Island, in Pribilof Islands; 56° 35' 50" N, 169° 29' 05" W; (map 38). Variant: Ka'wa-nar'a. An Aleut name listed as “Ka'wa-nar'a” by Putnam (1903, p. 1015), USC&GS, meaning “sea lions' bidarra or boat.” Putnam says it is a “prominent high ledge projecting from shore line to about middle of East Rookery [Great Eastern Rookery], occupied by numerous sea lions.”

Kawechnali Slough: stream, in Yukon Delta, flows N 3 miles to Apoon Pass, 4 miles W of Kotlik and 35 miles NE of Kwiguk, Yukon-Kuskokwim Delta; 63° 02' N, 163° 40' W; (map 92). Variant: Kaweenah Slough. Eskimo name reported in 1952 by USC&GS as “Kaweenah Slough.”

Kaweenah: stream, see Kawechnali Slough.

Kawiakpak Creek: stream, heads on Towak Mountain, flows NE 2.8 miles to Scammon Bay, at Point Smith 6 miles E of Cape Romanzof, Yukon-Kuskokwim Delta; 61° 49' 50" N, 165° 55' 00" W; (map 75). Eskimo name reported by USC&GS in 1949.

Kawialik Lake: lake, 3.5 miles long, at E end of Askinuk Mountains, between Kagankaguti and Kingokakthluk Lakes, 14 miles SE of village of Scammon Bay, Yukon-Kuskokwim Delta; 61° 44' N, 165° 10' W; (map 75). Variant: Kowquialik Lake. Eskimo name meaning "sandy" reported by USC&GS in 1949.

Kawichiark River: stream, flows W 24 miles to Kugarak River, 56 miles SW of Shungnak, Kotzebue-Kobuk Lowland; 66° 33' N, 158° 59' W; BGN 1902; (map 115). Variant: Ka-o-e-che-ark. Eskimo named spelled "Ka-o-e-che-ark" by Lt. Stoney (1900, map), USN, in 1886.

Kawicksahk: bluff, see Kawiksak Bluff.

Kawiksak Bluff: bluff, S of junction of Kawiksak Creek and Kivalina River, 20 miles NE of Kivalina, Arctic Slope; 68° 01' N, 164° 15' W; (map 130). Variant: Kawicksahk, Qawiqsaqq. Eskimo name reported in 1966 by E. S. Burch.

Kawiksak Creek: stream, flows E 5 miles to Kivalina River, 20 miles NE of Kivalina, Arctic Slope; 68° 01' N, 164° 15' W; (map 130). Variant: Kavicksum Koogowranga, Qawiqsam Kuugauzanga. Eskimo name reported in 1966 by E. S. Burch.

Kawochawik: channel, see Kawokhawik Slough.

Kawochawik: water passage, see Kawokhawik Pass.

Kawockawik: channel, see Kawokhawik Slough.

Kawockawik: water passage, see Kawokhawik Pass.

Kawok: locality, see Kokwok.

Kawokhawik Island: island, 3.3 miles long, in Yukon Delta between Kawokhawik Slough and Kwiguk Pass, 8.5 miles W of Kwiguk, Yukon-Kuskokwim Delta; 62° 47' N, 164° 49' W; (map 77). Eskimo name meaning "overnight camp" reported in 1952 by USC&GS; so called because "in the days before outboard motors there was a camp here for overnight trips * * *."

Kawokhawik Pass: water passage, 1.4 miles long in Yukon Delta, NW of Kawokhawik Island, and 11 miles W of Kwiguk, Yukon-Kuskokwim Delta; 62° 47' N, 164° 53' W; (map 77). Variant: Akagowik Pass, Kawochawik, Kawockawik. Eskimo name obtained in 18.° 9 by G. R. Putnam, USC&GS, who spelled it "Kawockawik."

Kawokhawik Slough: channel, S and E of Kawokhawik Island, in Yukon Delta, extends 4.7 miles between Kwiguk Pass and Norton Sound, 11 miles W of Kwiguk, Yukon-Kuskokwim Delta; 62° 46' N, 164° 52' W; (map 77). Variant: Kawochawik, Kawockawik. Eskimo name obtained in 18q) by G. R. Putnam, USC&GS, who spelled it "Kawockawik."

Kawraugraq: hill, see Kavrarak Hill.

Kawzauzaq: hill, see Kavrarak Hill.

Kaxajookaliy Island: island, see Kaksajookalik Island.

Kay Creek: stream, flows S and W 7 miles to Ikpikpuk River 2.5 miles N of its head, Arctic Slope; 69° 22' 28" N, 154° 40' 50" W; (map 142). Named in the 1950's by Naval Petroleum Reserve No. 4 geologists "for George Frederick Kay, 1873-1943, geologist, USGS, and State Geologist of Iowa."

Kay Creek: stream, flows SW 2.5 miles to Chukchi Sea, 2.5 miles S of Cape Lisburne, Arctic Slope; 68° 51' N, 166° 13' W; (map 129). Variant: Keak Creek, Kiak Creek. This appears to be an Eskimo name probably derived from "Keak," a name reported in 1950 by USC&GS, or a shortened form of the name of a nearby camp called "Kayniktok" by D. C. Foote, of Project Chariot.

Kay Creek: stream, flows SW 6.1 miles to Buckstock River 16 miles SE of its junction with Aniak River, 32 miles SE of Aniak and 20 miles SW of Little Mountain Village, Kilbuck-Kuskokwim Mountains; 61° 17' N, 158° 47" W; BGN 194S; (map 72). Prospectors' name reported in 1945 by USGS.

Kay Creek: stream, see Doestock Creek.

Kay's Island: island, see Kayak Island.

Kay-eghlen: bay, see Whale Bay.

Kayahtowriak: stream, see Kayakturiak Creek.

Kayaik Islands: islands, see Kayak Islands.

Kayak Cape: point of land, between Staraya and Protection Bays, on S coast of Unalaska Island, Aleutian Islands; 53° 35' 00" N, 166° 30' 40" W; (map 23). Variant: Kaiak Cape, Mountain Cape, Mys Kayakh. Aleut name recorded by Capt. Tebenkov 1852, map 26), IRN, as "M[ys] Kayakh," or "Cape Kayak." Baker (1906, p. 355) says that this name may have been given because of the possible resemblance of the word to the native skin boat. According to R. H. Geoghegan the Aleut word "qayaq" means "hill" and was incorrectly transliterated by Baker. The point was called "Mountain Cape" by USBF in 1888.

Kayak Creek: stream, flows NE 8 miles, from Fan Mountain to Alapah Creek, 22 miles NE of Anaktuvuk Pass, Brooks Range; 68° 17' N, 150° 59' W; (map 134). Named in 1932 by Robert Marshall (1956, p. 83), probably for the Eskimo girl, Kayak. In describing the Fourth of July celebration of 1931 in Wiseman, Marshall wrote, "The big feature of the festivities * * * was dancing. We started at six-thirty on the evening of July 4, and at eleven next morning four Eskimo girls, Kaaruk, Ashuwaruk, Kayak, and Kachwona, were still going strong * * *."

Kayak Entrance: water passage, in Gulf of Alaska, between Kayak Island and Windham Island, 61 miles SE of Cordova, Malaspina Coastal Plain; 59° 59' N, 144° 21' W; BGN 1908; (map 48). Named for Kayak Island and published by USC&GS in 1916 Coast Pilot (p. 30).

Kayak Island: island, 20 miles long, in Gulf of Alaska, 62 miles SE of Cordova, Malaspina Coastal Plain; 59° 56' N, 144° 23' W; BGN Sixth Report; (map 48). Variant: Carmen Island, Kaiak Island, Kaye's Island, Kay's Island, Kyak Island, Nuestra Senora del Carmen, Saint Elias Island, Beardslee Island. It was called "Kayak" by the Russians (Sarichev, 1826, map 5) because of the fancied resemblance of its outline to the Eskimo skin canoe. This island, it is believed, was the one Vitus Bering saw and named Saint Elias in 1741 (Bancroft, 1886, p. 78). Capt. James Cook visited it on May 12, 1778, and buried a bottle with a paper and two small pieces of silver given to him by Dr. Kaye, the chaplain of King George III of England, for this purpose. Because of this, Capt. Cook gave the name "Kaye's Island" to this feature (Wagner, 1937, p. 465). It was called "Nuestra Senora del Carmen" or "Isle del Carmen," meaning "Our Lady Carmen" or "Island of [Our Lady] Carmen" by Don Island Arteaga about July 16, 1779, for the saint to whom this day was dedicated (Wagner, 1937, p. 439).

Kayak Islands: islands, 0.3 miles across, in Galankin Islands, in Sitka Sound, 2 miles S of Sitka, Alexander Archipelago; 57° 01' 30" N, 135° 22' 00" W; (map 9). Variant: Kayaik Islands, Kayak Islets, Kayaktch Islands, Kayatchi Islands, Ostrova Kayak. Named in 1809 by the Russian navigator Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strova] Kayak," or "Kayak Islands." This is an Eskimo name for a small skin boat.

Kayak Islets: islands, see Kayak Islands.

Kayak Lake: lake, 1 mile long, on Kenai Peninsula, 0.9 miles SW of Chick Lake and 28 miles NE of Kenai, Cook Inlet Lowland; 60° 45' N, 150° 34' W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Kayak Mountain: mountain, 2,498 ft., 5 miles long, 5 miles NW of junction of May Creek and Nanushuk River and 51 miles NE of Anaktuvuk Pass, Arctic Slope; 68° 47' N, 150° 45' W; (map 134) Named by USGS geologists about 1949.

Kayak, Ostrova: islands, see Kayak Islands.

Kayak: locality, at junction of Ipewik and Kukpuk Rivers, 15 miles NE of Cape Thompson, Arctic Slopes; 68° 20' 30" N, 165° 42' 40" W; BGN 1963; (map 129). Variant: Kaiyak. This camping place was reported in 1960 by D. C. Foote, Project Chariot, as "Kaiyak," meaning "boat."

Kayak: locality, site of a former village on SE coast of Wingham Island, 61 miles SE of Cordova, Malaspina Coastal Plain; 59° 59' 45" N, 144° 22' 10" W; (map 48). Name of a former settlement and steamer landing. A post office was established here in 1900; discontinued in 1906 (Ricks, 1965, p. 32). The place is now abandoned.

Kayakh, Mys: point of land, see Kayak Cape.

Kayakh: stream, see Kaiyuh Slough.

Kayakishvigmyut: villages, see Utukok villages.

Kayakliut, Cape: point of land, between Imuya and Wide Bays, on SE coast of Alaska Peninsula, 44 miles SE of Ugashik, Aleutian Range; 57° 17' 35" N, 156° 19' 00" W; (map 36). Variant: Pointe Kamgliuck. Eskimo name published in 1835 as "P[ointe] Kamgliuck" by Adm. A. J. von Krusenstern, IRN.

Kayaksak Mountain: mountain, 1,060 ft., E of junction of Ipewik and Kukpuk Rivers, 16 miles NE of Cape Thompson, Arctic Slope; 68° 20' 40" N, 165° 40' 30" W; BGN 1963; (map 129). Variant: Kaiaksuk Mountain. Eskimo name meaning "resembles a kayak" reported in 1960 by D. C. Foote, he spelled it "Kaiaksuk."

Kayakshigvikg: locality, see Kaiaksekawik.

Kayaktch Islands: islands, see Kayak Islands.

Kayakturiak Creek: stream, flows SW 7 miles to Kivalina Lagoon, 1 mile N of Kivalina, Kotzebue-Kobuk Lowland; 67° 44' N, 154° 32' W; (map 128). Variant: Kayahtowriak, Qayaqturiaq. Eskimo name meaning "where they go with kayaks" reported in 1966 by E. S. Burch.

Kayaku Island: island, see Adak Island.

Kayalghak Bay: bay, see Kavalghak Bay.

Kayanak, Mys: point of land, see Battery Point.

Kayashek: island, see Round Island.

Kayashik: island, see Round Island.

Kayatchi Islands: islands, see Kayak Islands.

Kayayak: locality, see Kaguyak.

Kayayak: village, see Kaguyak.

Kaye's Island: island, see Kayak Island.

Kaygany Strait: water passage, see Dixon Entrance.

Kaygany, Cape: point of land, see Muzon, Cape.

Kaygany, Mys: point of land, see Muzon, Cape.

Kayigyalik Lake: lake, 5 miles across, E of Takslesluk Lake, 30 miles NW of Bethel, Yukon-Kuskokwim Delta; 61° 04' N, 162° 32' W; (map 74). Variant: Kyigialik Lake, Nunavak Anukslak. Eskimo name reported by USC&GS in 1951.

Kaymaegrak Hills: hills, see Kemegrak Hills.

Kaymaegrak Lagoon: lagoon, see Kemegrak Lagoon.

Kayu-chali, Ostrov: island, see Kaiuchali Island.

Kayugnak, Zaliv: bay, see Kaiugnak Bay.

Kayuh Mountains: range, see Kaiyuh Mountains.

Kayuk River: stream, see Koyuk River.

Kazakof Bay: bay, 2 miles across, 9 miles NE of Afognak, on SE coast of Afognak Island, N of Kodiak Island; 58° 06' N, 152° 35' W; BGN 1935; (map 43). Variant: Danger Bay, Opasnaia. The name "Bukhta Onasnaya" meaning "dangerous bay" was given to this feature by Sub-Lt. Mikhail Murashev, IRN, in 1839 or 1840 and published by the Russian Hydrog. Dept. on Chart 1425 in 1849. Baker (1906 p. 208), USGS, published the name "Danger Bay" when he translated from Murashev. In 1935 USC&GS gave the name Kazokof Bay to this feature "as the bay is deep with practically no dangers; to conform with local usage and to eliminate the inconsistency."

Kazakof, Cape: point of land, at W entrance to Kazakof Bay, 7 miles NE of Afognak, on SE coast of Afognak Island, N of Kodiak Island; 58° 04' 40" N, 152° 37' 40" W; (map 43). Variant: Kazakof Cape, Cape Kazakofskiy. Russian name meaning "Cape Cossack" given as "M[ys] Kozakovskiy" by Sub-Lt. Mikhail Murashev, IRN, in 1839 or 1840 and published by the Russian Hydrog. Dept. in 1849 on Chart 1425. This name was applied to Cape Kostromitinof, at east entrance to Kazakof Bay, by Capt. Tebenkov (1852, map 23), IRN. See Cape Kostromitinof.

Kazakofskie, Cape: point of land, see Kostromitinof, Cape.

Kazakofskiy, Cape: point of land, see Kasakof Cape.

Kazarn Bay: bay, see Kasaan Bay.

Kazhutak: locality, on left bank of Yukon River, 25 miles WNW of Pitkas Point and 50 miles SE of Kwiguk, Yukon-Kuskokwim Delta, 62° 07' N, 163° 58' W; (map 77). Variant: Kazhutakamiut. Former Eskimo village reported as "Kazhutakamiut" in 1899 by G. R. Putnam, USC&GS.

Kazhutak: locality, on left bank of Yukon River, 48 miles SE of Kwiguk, Yukon-Kuskokwim Delta; 62° 07' N, 163° 57' W; (map 77). Variant: Kazhutakamiut. Eskimo village reported in 1899 by G. R. Putnam, USC&GS, who wrote it "Kazhutakamiut," meaning "Kazhutak people."

Kazhutakamiut: locality, see Kazhutak.

Kazik Hill: hill, 1,169 ft., 20 miles W of Taylor Mountains and 60 miles SW of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 56' N, 158° 01' W; BGN 1948; (map 60). Eskimo name meaning "little house" reported in 1945 by USGS. The name refers to "the conical shape of the hill which is recognizable over a wide area and is therefore an important landmark."

Kchaltak: village, see Kaltag.

Kchisakh, Cape: point of land, see Chisak Cape.

Ke-ek-sel-hak: locality, see Nelsonville,

Ke-ek-sel-hak: village, see Dillingham.

Keak Creek: stream, see Kay Creek.

Kealavik River: stream, flows NW 27 miles from Ninglick River to Azun River, N of Nelson Island, 37 miles NE of Cape Vancouver, Yukon-Kuskokwim Delta; 61° 02' N, 164° 57' W; (map 58). Variant: Kialavik River. Eskimo name reported in 1949 by USC&GS.

Kealavik: locality, see Old Kealavik.

Keane Gulch: ravine, trends NE 0.5 miles to Hungry Creek which flows to Oregon Creek, a tributary to Cripple River, 15 miles NW of Nome, Seward Peninsula Highlands; 64° 40' N, 165° 42' W; (map 94). Prospectors' name shown on the 1904 "Map of Cape Nome Precinct" by Arthur Gibson.

Kearney Beach: beach, 0.2 miles long, 1.6 miles NE of Theodore Point, southern Attu Island, Aleutian Islands; 52° 45' 32" N, 172° 56' 33" E; (map 13). Variant: Kearny Beach. Named by the U.S. Army during its occupation of the island during World War II; name shown as "Kearny Beach" on an AMS map published in 1948.

Kearny Beach: beach, see Kearney Beach.

Keating Creek: stream, flows NE 9 miles to Mosquito Fork 8 miles E of that stream's junction with South Fork Koyukuk River, 44 miles SW of Chandalar, Brooks Range; 67° 04' 00" N, 149° 31' 40" W; (map 123). Prospectors' name obtained in 1901 by Schrader (1904, pl. 3), USGS.

Keating Range: mountain range, elev. 1,000-2,832 ft., 5 miles long, along W shore of Mosman Inlet, on W coast of Etolin Island, Alexander Archipelago; 56° 08' 00" N, 132° 37' 30" W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow, USN; name published in 1887 on USC&GS Chart 706.

Keche Mountains: mountain, 4,755 ft., 10 miles NW of Buffalo Mountain and 60 miles NW of Christian, Brooks Range; 67° 58' N, 146° 45' W; (map 122). Kutcha-kutchin Indian name obtained in 1956 by T. E. Taylor, USGS.

Kechemudluk: locality, see Cape Seppings.

Kechumstuk Creek: stream, heads at 64° 04' N, 143° 08' W, flows SE 25 miles to Mosquito Fork, 70 miles SW of Eagle, Yukon-Tanana Highlands; 64° 01' 00" N, 142° 32' 30" W; (map 102). Variant: Ketchumstock Creek, Mosquito Fork. Prospectors' name reported in 1902 by T. G. Gerdine, USGS, as "Ketchumstock Creek."

Kechumstuk Mountain: mountain, 5,002 ft., 18 miles W of Taylor Mountain, 75 miles SW of Eagle, Yukon-Tanana Highlands; 64° 00' N, 142° 50' W; (map 102). Variant: Ketchumstock Mountain. Prospectors' name obtained in 1898 by E. C. Barnard, USGS.

Kechumstuk: locality, along Kechumstuk Creek, 1 mile W of Mosquito Fork, 70 miles SW of Eagle, Yukon-Tanana Highlands; 64° 01' N, 142° 33' W; (map 102). Variant: Ketchumstock, Ketchumstuck. Settlement now abandoned, known as "Ketchumstock Village" (sic) on a 1902 manuscript map by E. J. Chamberlain, U.S. Deputy Surveyor. A telegraph station, "Ketchumstock," was established here in 1915 by the U.S. Army Signal Corps. The present spelling was used in 1905 by Prindle (pl. 16). USGS.

Kee River: stream, see Kuk River.

Kee-chat-no: stream, see Kichatna River.

Kee-kik-tag-ameut: town, see Kotzebue.

Kee-kluch River: stream, see Kiklukh River.

Kee-wa-lik River: stream, see Kiwalik River.

Keeang-ol-e-vik Pass: stream, see Kiangolevik Pass.

Keechik: locality, see Kijik.

Keefer Creek: stream, flows NE 10 miles to Holitna River, 12 miles S of Sleetmute, Stony River Lowland; 61° 31' 45" N, 157° 07' 25" W; BGN 1948; (map 72). Named for a prospector who worked in the area; reported in 1945 by USGS.

Keefer Cutoff: stream, anabranch on E side of Nushagak River, flows S 29 miles, 28 miles NW of Naknek, Bristol Bay Lowland; 58° 54' 30" N, 157° 44' 20" W; BGN 1931; (map 41). Variant: Keefer Slough. Local name reported in 1930 by Gerald FitzGerald, USGS, based on information given by F. H. Waskey and Beverley Polley, residents of the area.

Keefer Slough: stream, see Keefer Cutoff.

Keeghik River: stream, see Kijik River.

Keeghik: lake, see Clark, Lake.

Keeghik: locality, see Kijik.

Keegrarock: locality, see Kigrarak.

Keejik Creek: stream, see Kijik River.

Keejik River: stream, see Kijik River.

Keejik: locality, see Kijik.

Keejik: mountain, see Kijik Mountain.

Keektoya Creek: stream, see Kiktoya Creek.

Keelaghnuik Valley: ravine, E slope of Ivekan Mountain; trends E 1.2 miles, SE of Wan-Mayee Creek Valley, 30 miles SE of Gambell, St. Lawrence Island; 63° 23' N, 171° 40' W; BGN 1951; (map 93) Eskimo name reported in 1949 by Maj. H. B. Allen, USAF.

Keele Mountains: mountain range, see Keele Range.

Keele Range: mountain range, in Alaska and Canada, extends NE 90 miles from junction of Black River and Salmon Fork, Porcupine Plateau; 67° 00' N, 139° 30' W [NE end], 66° 40' N, 142° 45' W [SW end]; (maps 120 and 121). Variant: Keele Mountains. Named by Cairnes (1914, p. 26) "after Mr. Joseph Keele [1863-1923] of the Geological Survey, Canada, who has done a great amount of extremely valuable geological and exploratory work in Yukon and adjoining portions of the Northwest Territories."

Keelikhtagikh Island: island, see Kiliktagik Island.

Keelyangnak: bluff, see Kilangnak Bluff.

Keelyiktangyawk Creek: stream, see Kiliktakgot Creek.

Keelyowgorack: spit, see Kilogorak Spit.

Keenan Creek: stream, flows N 4.5 miles to Glenn Creek 1 mile SW of that stream's junction with Yukon River and 43 miles NW of Eagle, Yukon-Tanana Highlands; 65° 17' 30" N, 142° 06' 15" W; (map 103). Prospectors' name from an unpublished map by E. J. Chamberlain, dated 1902.

Keene Channel: water passage, between Keene and Kupreanof Islands, 14 miles S of Petersburg, Alexander Archipelago; 56° 36' 20" N, 132° 59' 30" W; (map 6). Variant: Keene's Channel. Named in 1869 for charting purposes by Comdr. R. W. Meade, USN, for J. W. Keene, a local pilot.

Keene Island: island, 0.5 miles long, at junction of Beecher Pass and Wrangell Narrows, 14 miles S of Petersburg, Alexander Archipelago; 56° 36' 10" N, 132° 59' 00" W; (map 6). Variant: Keenes Island. Named in 1869 for charting purposes by Comdr. R. W. Meade, USN, for J. W. Keene, a local pilot.

Keene Rock: rock, in Sitka Sound, 2 miles SW of Sitka, Alexander Archipelago; 57° 02' 10" N, 135° 22' 00" W; (map 9). Variant: Keene Rocks. Named in 1897 by U.S. Navy for pilot J. W. Keene, who reported its presence that year (U.S. Coast and Geodetic Survey, 1883, p. 142).

Keene Rocks: rock, see Keene Rock.

Keene's Channel: water passage, see Keene Channel.

Keenes Island: island, see Keene Island.

Keengiktoorak: bank, see Kingikturak Bank.

Keenuk River: stream, see Gemuk River.

Keesaymaeruktok Mountain: hills, see Kisaymaruktuk Mountain.

Keesaymalott Mountain: hill, see Kisimigiuktuk Hill.

Keesaymalott Mountains: mountains, see Kisimilot Mountains.

Keeseemalouk Creek: stream, see Kisimilok Creek.

Keeseemalowk Creek: stream, see Kisimilok Creek.

Keeseemalowk Mountain: hill, see Kisimilok Mountain.

Keesemalouk Mountain: hill, see Kisimilok Mountain.

Keesin-Myghook Mountain: hill, see Kessin Peak.

Keeska Island: island, see Kiska Island.

Keetavie Rookery: rookery, see Kitovi Rookery.

Keete Inlet: estuary, extends NE 5.5 miles from Nutkwa Inlet on SW coast of Prince of Wales Island, Alexander Archipelago; 55° 03' 30" N, 132° 34' 30" W; (map 4) This may be an Indian name; reported in 1897 by Lt. Comdr. J. F. Moser, USN; published in 1899 by USC&GS.

Keete Island: island, 700 ft. long, between Keete and Nutkwa Inlets, on SW coast of Prince of Wales Island, Alexander Archipelago; 55° 02' 50" N, 132° 34' 45" W; (map 4). Name, possibly Indian, reported in 1951 by USGS.

Keete Point: point of land, on SW coast of Prince of Wales Island, in Keete Inlet, Alexander Archipelago; 55° 03' 05" N, 132° 33' 15" W; (map 4). Name, possibly Indian, reported in 1951 by USGS.

Keetovaia Bay: bay, see Whale Bay.

Keeverleek Inlet: water passage, see Kukpowruk Pass.

Keevy Peak: mountain, 7,399 ft., 21 miles SE of Jumbo Dome and 29 miles NE of Healy, Alaska Range; 63° 55' 15" N, 148° 02' 00" W; (map 87). Local named obtained in 1910 by J. W. Bagley, USGS.

Keewalick: village, see Kiwalik.

Keewalik: village, see Kiwalik.

Keeyuk Creek: stream, flows N 4.1 miles to Buckland River, 55 miles N of Haycock, Seward Peninsula Highlands; 66° 00' N, 161° 10' W; (map 109). Eskimo name reported in 1949 by the U.S. Army Corps of Engineers.

Keg Creek: stream, flows SW 11 miles to West Fork Gulkana River 28 miles NW of its junction with Gulkana River, Alaska Range; 62° 43' N, 146° 26' W; (map 83). Local name reported by F. H. Moffit (in Brooks and others, 1911, p. 114), USGS.

Keg Lakes: lakes, 300 ft. across, on west-central Kiska Island, Aleutian Islands; 51° 56' 05" N, 177° 21' 35" E; (map 14). An arbitrary name beginning with "K" to correspond to the "K" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Keg Point: point of land, 1 mile N of Ham Cove, on E coast of Dall Island, Alexander Archipelago; 54° 53' 45" N, 132° 51' 10" W; BGN 1928; (map 1). Named in 1927 by USC&GS after the triangulation station Keg located on an island near this point.

Keg Point: point of land, in Lake Bay, on E coast of Stevenson Island, off NE coast of Prince of Wales Island, Alexander Archipelago; 56° 02' 05" N, 132° 55' 20" W; (map 6). Local name used by fishermen; name published in 1907 by USC&GS.

Kegan Cove: cove, extends NW 1,500 ft., off Moira Sound, on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 01' N, 132° 09' W; (map 4). Local name reported in 1897 by Lt. Comdr. J. F. Moser, USN; see Kegan Creek.

Kegan Creek: stream, heads in Kegan Lake, flows SE 2 miles to Kegan Cove, on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 01' 10" N, 132° 09' 30" W; (map 4). Local name reported in 1897 by Lt. Comdr. J. F. Moser, USN; it is the personal name of "an Indian claiming fishing rights on this salmon stream."

Kegan Lake: lake, 2.5 miles long, on SE coast of Prince of Wales Island, N of Moira Sound, Alexander Archipelago; 55° 02' N, 132° 12' W; (map 4). Local name reported in 1897 by Lt. Comdr. J. F. Moser, USN; see Kegan Creek.

Kegezruk Creek: stream, see Kigezruk Creek.

Keggik: locality, see Kijik.

Keghik River: stream, see Kijik River.

Kegiktowruk: locality, see Klikitarik.

Keguk River: stream, heads at Kegum Kagati Lake and flows S 20 miles to Kinia River, 93 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 13' N, 164° 12' W; (map 58). Eskimo name reported in 1949 by USC&GS.

Kegulik River: stream, see Kejulik River.

Kegum Kagati Lake: lake, 6 miles across, 15 miles S of Emperor Island and 90 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 20' N, 164° 20' W; (map 58). Eskimo name meaning “head of the Keguk [River]” reported in 1949 by USC&GS.

Kegum Kagati: lake, see Kagankagati Lake.

Keith Creek: stream, see Key Creek.

Kejachu Island: island, see Adak Island.

Kejak River: stream, see Kijik River.

Kejulik Mountains: mountains, 6,000 ft., extend NE 30 miles from Kejulik River to Mount Mageik, 7 miles SW of Mount Katmai, Aleutian Range; 58° 05' N, 155° 30' W; (map 35 and 42). Name reported in 1951 by USGS.

Kejulik Pass: pass, 2,100 ft., on Alaska Peninsula, in Katmai National Monument, between tributaries of Gas and Takayofu Creeks, 25 miles SW of Mount Katmai, Aleutian Range; 58° 04' 40" N, 155° 32' 00" W; (map 42). Native name reported in 1923 by R. H. Sargent's USGS party.

Kejulik River: stream, heads at glacier terminus, in Katmai National Monument on Alaska Peninsula, flows SW 44 miles to Becharof Lake N of Severson Peninsula, 45 miles SW of Mount Katmai, Aleutian Range; 57° 51' 45" N, 155° 57' 30" W; (map 35). Variant: Kajulik River, Kegulik River, Kujulik River. Native name reported in 1904 and published by G. C. Martin (1921, pl. 9), USGS.

Kekiktalik Lake: lake, 0.7 miles across, W of junction of Tungnak Creek and Nilik River, 27 miles E of Cape Dyer, Arctic Slope; 68° 37' 30" N, 165° 08' 50" W; (map 129). Variant: Ikriktoalik Lake, Kikiktalik. Eskimo name spelled “Kikiktalik” by Orth in 1956, meaning “place with an island [in the middle].”

Kekiktuk River: stream, heads in Lake Schrader, flows NE 16 miles to Sadlerochit River, S of Sunset Pass, 20 miles NW of Mount Michelson, Brooks Range; 69° 33' N, 144° 43' W; (map 139). Variant: Lake Fork Sadlerochit River. Eskimo name [kikiktak] meaning “island.” Leffingwell (1919, p. 57) wrote, “This outlet valley was followed for a few miles, and the gathering stream could be stepped across at any place. Near the main river [Sadlerochit] the Lake Fork receives several feeders from east and west so that it carries a considerable volume of water.”

Keklone River: stream, see Middle Fork Kuskokwim River.

Kekou Islets: islands, see Keku Islets.

Kekou Strait: water passage, see Keku Strait.

Kekou: village, see Kake.

Kekovskoy, Proliv: water passage, see Keku Strait.

Keku Creek: stream, flows NW 11 miles to Irish Creek, 1 mile E of Keku Strait, on SW coast of Kupreanof Island, 27 miles W of Petersburg, Alexander Archipelago; 56° 44' 15" N, 133° 40' 00" W; BGN 1966; (map 6). Variant: Kuku Creek. Local name recorded in 1948 by USGS.

Keku Islets: islands, in Keku Strait, NE of Kuiu Island, 45 miles SE of Sitka, Alexander Archipelago; 56° 56' N, 134° 06' W; (map 5). Variant: Kekou Islets, Kiku Islets. Tlingit Indian name published in 1883 Coast Pilot (p. 118).

Keku Strait: water passage, 45 miles long, between Kuiu and Kupreanof Islands, Alexander Archipelago; 56° 30' N, 133° 42' W; (map 6). Variant: Kake Strait, Kekou Strait, Kiku Strait, Proliv Kekovsky. Tlingit Indian name for this feature published in 1869 Coast Pilot (p. 109).

Keku: village, see Kake.

Kekur Island: island, 300 ft. long, in Kalsin Bay, 0.6 miles NW of Isthmus Point, 11 miles S of Kodiak, Kodiak Island; 57° 38' 25" N, 152° 19' 25" W; (map 34). Variant: Kekurnoi, Ostrov Kekurnoy. Transliteration of the name "Os[trov] Kekurnoy," or "Kekur Island," published by Sarichev (1826, map 16). Baker (1906, p. 357-358) wrote, "This word, spelled Kekoor, Kekour, Kekur, etc., is frequently found on Russian maps of Alaska and Eastern Siberia. It appears to be some native [sic] term adopted into the Russian and to mean any high isolated rock or rocky islet. Apparently it is an exact equivalent of the Spanish word 'Farallon.'" Baker further stated that the Russian Hydrog. Dept. reported a list of words used by the promyshenniki, or fur hunters, in 1884 and "In this list occurs these two entries: Gurie (pyramid of rocks); Kekur, same as Gurie, but [more often] an isolated pillar-like rock." Petroff (in Bancroft, 1886, p. 225) wrote, "this expedition fell in with a large party of savages who had taken up a position on a Kekour, or detached cliff, near the shore, surrounded by water * * * Such places, to which the Russians applied the Kamchatka name of Kekour, were often used by the natives as natural fortifications and places of refuge. War parties or hunting expeditions would leave their women and children upon such cliffs for safe-keeping till their return."

Kekur Peninsula: peninsula, 1.5 miles long, 14 miles NW of village of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 23' N, 134° 56' W; BGN 1925; (map 5). Descriptive Russian name meaning "seastack," or "pinnacle-rock," reported in 1925 by USC&GS; probably given because "First Kekur" and "Second Kekur" are just offshore. See Kekur Island.

Kekur Point: point of land, between Kizhuyak and Sharatin Bays, 15 miles NW of Kodiak, Kodiak Island; 57° 51' 30" N, 152° 47' 00" W; BGN 1909; (map 34). Variant: Kekurnoi, Mys Kekurnyy, Pillar Cape. Transliteration of the name "M[ys] Kekurnyy" given in 1839 or 1840 by Sub-Lt. Mikhail Murashev and published in 1849 on Russian Hydrog. Dept. Chart 1425. Baker (1906, p. 497) published "Pillar Cape," the translation of Murashev's name. Because of duplication, the name was changed to its present form in 1909 by USC&GS. See Kekur Island.

Kekur Point: point of land, W extremity of Kekur Peninsula, 15 miles NW of village of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 23' N, 134° 57' W; BGN

1926; (map 5). Descriptive Russian name meaning “pinnacle rock” given in 1925 by USC&GS. See Kekur Island.

Kekur, Cape: point of land, see Pillar Cape.

Kekur: rock, see Pinnacle Rock.

Kekurnoi, Cape: point of land, between Alinchak and Puale Bays, on E coast of Alaska Peninsula, 33 miles NW of Karluk, Aleutian Range; 57° 43' 30" N, 155° 07' 50" W; BGN 1901; (map 35). Variant: Cape Kahurnoi, Neliupiaki, Nelupaki, Nukakalkak, Pinnacle Cape. Russian name published by Capt. Tebenkov (1852, map 22), IRN, as “M[ys] Kekurnoy” meaning “pinnacle cape.” This feature was called “Cape Nelyupiaki” by Capt. Lutke (1836, map , p. 274), IRN, and “M[ys] Nunakalkhak” on Russian Hydrog. Dept. Chart 1378 in 1847. See Kekur Island.

Kekurnoi: island, see Kekur Island.

Kekurnoi: point of land, see Kekur Point.

Kekurnoy, Ostrov: island, see Kekur Island.

Kekurnyy, Mys: point of land, see Kekur Point.

Kekurnyy, Mys: point of land, see Rocky Point.

Kelamantowruk: locality, see Kilimantavi.

Keledzhichagat: locality, on left bank of Kuskokwim River opposite mouth of George River, Kilbuck-Kuskokwim Mountains; 61° 53' N, 157° 42' W; (map 72). Site of an Indian summer camp reported in 1842-44 by Lt. L. A. Zagoskin, IRN.

Keledzhichagat: stream, see George River.

Kelemanturuk: locality, “near Icy Cape,” Arctic Plain; (map 146). Former Eskimo camp or settlement listed in the 1890 Census (1893, p. 162). See Kilimantavi.

Kelevatowtin: locality, see Kilimantavi.

Kelez, Mount: mountain, 3,250 ft., SE of Lake Brooks, on Alaska Peninsula, in Katmai National Monument, 30 miles NW of Mount Katmai, Aleutian Range; 58° 26' 30" N, 155° 44' 10" W; BGN 1957; (map 42). Local name published in 1951 by USGS.

Kelgaya Bay: cove, 0.3 miles across, on Chilkoot Inlet, on E coast of Chilkat Peninsula, 2.3 miles SE of Port Chilkoot and 17 miles SW of Skagway, Coast Mountains; 59° 12' 45" N, 135° 22' 00" W; BGN 1923; (map 45). Variant: Chilkoot Inlet, Kelgaya Point, Battery Point. Named in 1923 for adjacent point of land by BGN.

Kelgaya Point: point of land, in Chilkoot Inlet, on E shore of Chilkat Peninsula, 2.5 miles SE of Port Chilkoot, 17 miles SSW of Skagway, Coast Mountains; 59° 12' 50" N, 135° 22' 15" W;

BGN 1922; (map 45). Variant: Ketlgakhya Point Ketlrachta Point. Tlingit Indian name "Ketlgakhya" meaning "dog-howl place." Aurel and Arthur Krause (1883, map) reported the name of this and Battery Point as "Ketlrachta." Shown as "Kelgaya" in 1923 on IBC Sheet 9 (1951 atlas).

Kell Bay: bay, 1.5 miles across, on W shore of Affleck Canal, 10 miles N of Cape Decision, on S coast of Kuiu Island, Alexander Archipelago; 56° 09' 20" N, 134° 07' 00" W; (map 5). Name given "by the Indians"; reported in 1886 by Lt. J. M. Helm, USN.

Kelley Cove: cove, see Kelly Cove.

Kelley River: stream, see Kelly River.

Kelley River: stream, see Killey River

Kelley, Mount: mountain, see Kelly, Mount.

Kelliher Cove: cove, 0.3 miles across, between Point Hope and Khlebnikof Point, on E coast of Attu Island, Aleutian Islands; 52° 55' 00" N, 173° 18' 30"E; (map 13). This name is listed in the 1946 supplement to the 1944 Aleutian Coast Pilot.

Kellogg Point: point of land, point of N entrance to Dunbar Inlet on W coast of Sukkwan Island, Alexander Archipelago; 55° 06' 05" N, 132° 52' 30" W; (map 4). Named in 1882 by W. H. Dall, USC&GS for "Miss Fannie E. Kellogg, a teacher at Sitka in 1878."

Kelly Cove: cove, 500 ft. across, on SE coast of Noyes Island, 1.8 miles NE of St. Nicholas Point Alexander Archipelago; 55° 27' 40" N, 133° 38' 20" W, (map 4). Variant: Kelley Cove. Local name published in 1917 by USC&GS.

Kelly Creek: stream, flows NW 11 miles to Kala Creek, 42 miles SE of Nulato, Koyukuk Lowland; 64° 34' N, 156° 44' W; (map 97). Local name reported in 1954 by USGS.

Kelly Creek: stream, flows SE 2.6 miles to Kwik River, 26 miles SW of Haycock, Seward Peninsula Highlands; 65° 00' N, 161° 54' W; (map 109). Local name published on maps after 1950.

Kelly Gulch: ravine, extends NE 2 miles to Middle Fork Koyukuk River, 8 miles S of Wiseman, Brooks Range; 67° 18' 00" N, 150° 11' 30" W; (map 124). Local name shown on an 1899 fieldsheet by T. G. Gerdine, USGS.

Kelly Lake: lake, 0.9 miles long, on The Alaska Railroad, 2 miles SE of Willow and 34 miles N of Anchorage, Cook Inlet Lowland; 61° 42' 50" N, 150° 00' 45" W; (map 70). Local name reported in 1958 by USGS.

Kelly Lake: lake, 1 mile long, drains S to Little Nelchina River W of Marie Lake, 48 miles W of Glennallen, Copper River Basin; 62° 10' 00" N, 146° 59' 40" W; (map 83). Local name reported in 1949 by USGS. The name has been misapplied to John Lake.

Kelly Lake: lake, 1 mile long, one of the Seven Lakes, on Kenai Peninsula, 2 miles NW of Hidden Lake and 30 miles SE of Kenai, Cook Inlet Lowland; 60° 31' N, 150° 23' W; (map 62). Named about 1963 by officials of Kenai National Moose Range for administrative purposes.

Kelly Lake: lake, see John Lake.

Kelly Mountain: mountain, see Kelly, Mount.

Kelly Ridge: ridge, elev. 6,600 ft., extends SE-NW 2.5 miles, 1.5 miles E of Lake Peters, Brooks Range; 69° 19' N, 144° 58' W; (map 139). Named by geologists in the 1950's.

Kelly River: stream, heads in De Long Mountains, flows SW 45 miles to Noatak River, 29 miles NE of Noatak, Brooks Range; 67° 55' N, 162° 21' W; (map 128). Variant: Kelley River. Locally named for John W. Kelley [sic] who prospected in this area in the late 1880's. See Kelly, Mount.

Kelly Rock: rock, at SW entrance point to Popof Strait, off SE coast of Unga Island, in Shumagin Islands, Aleutian Range; 55° 11' 40" N, 160° 27' 25" W; (map 28). Variant: Kellys Rock. Local name published by USC&GS in 1916 Coast Pilot (p. 180) as "Kellys Rock," and in 1926 Coast Pilot (p. 197) as "Kelly Rock."

Kelly, Mount: mountain, 3,152 ft., in De Long Mountains, between headwaters of Kukpowruk and Kukpuk Rivers, 40 miles SE of Cape Sabine, Brooks Range; 68° 28' 30" N, 163° 37' 30" W (map 130). Variant: Mount Kelly. Name published in 1890 by USC&GS. Named for "John W. Kelley a bluff, levelheaded prospector of middle age, with a full beard and an easy laugh" (Brower, 1944, pl. 112). Kelley (or Kelly) came to this area in 1887 and in 1891 took over the Pacific Steam Whaling Co. station at Barrow. He is also noted for making a vocabulary list of Eskimo words.

Kelly, Mount: mountain, 3,907 ft., 3 miles NE of Rude River delta, 12 miles NE of Cordova Chugach Mountains; 60° 40' 30" N, 145° 30' 30" W, BGN 1910; (map 64). Variant: Kelly Mountain. Local name reported in 1908 by Grant and Higgins (1910, pl. 1 and 2), USGS.

Kellys Rock: rock, see Kelly Rock.

Kelp Bay: bay, 1 mile across, on NW coast of Tigalda Island, Aleutian Islands; 54° 04' 20" N, 165° 09' 00" W; (map 24). Descriptive name reported in 1901 by J. J. Gilbert, USC&GS.

Kelp Bay: bay, 2 miles across, on NE coast of Baranof Island, 13 miles N of Baranof, Alexander Archipelago; 57° 16' N, 134° 50' W; (map 9). Variant: Deep Bay. Named by W. H. Dall, USC&GS, and published in 1883 Coast Pilot (p. 176). Kelp is a type of seaweed found along coastal areas and is locally commercially important.

Kelp Island Anchorage: bay, off Revillagigedo Channel, on E coast of Kelp Island, S of Duke Island, Alexander Archipelago; 54° 52' 10" N, 131° 15' 15" W; (map 2). Name derived from Kelp Island; published in 1955 on a USGS map.

Kelp Island: island, 2 miles long, off S coast of Duke Island, Alexander Arch; 54° 52' N, 131° 16' W; (map 2) Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Kelp Passage: water passage, 3 miles long, in Barrier Islands, W of Middle Island, Alexander Archipelago; 54° 48' N, 132° 27' W; (map 1). Local descriptive name reported in 1951 by USGS.

Kelp Point: point of land, near head of Portage Bay, on SE coast of Alaska Peninsula, 53 miles NE of Ugashik, Aleutian Range; 57° 33' 45" N, 156° 00' 30" W; (map 36). Local descriptive name published in 1924 by USC&GS "because of the extensive kelp off shore."

Kelp Point: point of land, on E shore of Cold Bay, at SW end of Alaska Peninsula, Aleutian Range; 55° 06' 50" N, 162° 31' 20" W; BGN 1925; (map 29). Named by R. R. Lukens, USC&GS, in 1924, "because of large heavy kelp-patch on opposite side of narrow natural channel passing point."

Kelp Point: point of land, on E shore of Nikolski Bay, on SW coast of Umnak Island, Aleutian Islands 52° 57' 40" N, 168° 51' 50" W; (map 21). Name published by USC&GS in 1944 Aleutian Coast Pilot (p. 68).

Kelp Point: point of land, on S shore of Bay of Islands, Adak Island, Aleutian Islands; 51° 47' 25" N, 176° 48' 20" W; BGN 1936; (map 17). Descriptive name given by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

Kelp Point: point of land, on W shore of Port Chatham, Kenai Peninsula, 17 miles SSW of Seldovia, Chugach Mountains; 59° 12' 40" N, 151° 48' 00" W; BGN 1908; (map 50). Named by USC&GS in 1908 for the then numerous kelp beds.

Kelp Point: point of land, S point of entrance to McHenry Anchorage, SW Etolin Island, Alexander Archipelago; 55° 57' 45" N, 132° 27' 00" W; (map 4). Named in 1886 by Lt. Comdr. A. S. Snow, USN.

Kelp Rocks: reef, extends 1.4 miles, in Nichols Passage, 3 miles NW of Metlakatla, Alexander Archipelago; 55° 09' N, 131° 39' W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Kelsall River: stream, heads in glacier 5 miles SE of Mount Kelsall in British Columbia, flows W and SE 40 miles to Chilkat River, 3.4 miles W of Klutshah Mountain and 26 miles NW of Skagway, St. Elias Mountains; 59° 31' 55" N, 136° 02' 00" W; BGN 1916; (map 45). Variant: Bear Creek, Chilkat River, Glave Creek, Jelchhini, Jelchitni Rabenfluss, West Fork Chilkat River, Yelchthini. Named by United States and Canada in 1916 for R. Kelsall, a member of the British Columbia-Yukon boundary surveying party in 1908. The Tlingit Indian name "Jelchhini," meaning "crow river," was published as "Jelchitni" by Aurel and Arthur Krause (1883, map). The local name was reported as "Bear Creek" by C. W. Wright (1904, pl. 2 and p. 13), USGS. The name "Kelsall River" was published in 1923 on IBC Sheet 9 (1951 atlas).

Kemamguyquok Creek: stream, flows SW 14 miles to Kokwok River, 35 miles NE of Dillingham, Bristol Bay Lowland; 59° 30' N, 158° 10' W; (map 52). Variant: Ke-mam-gu-y-quok. Eskimo name shown as "Ke-mam-gu-y-quok" on a 1910 manuscript map by H. C. Fassett, USBF.

Kemegrak Hills: hills, extend N 16 miles from Cape Thompson, W of Ilikrak Creek, Arctic Slope; 68° 18' N, 165° 54' W; BGN 1963; (map 129). Variant: Kaymaegrak Hills. Eskimo name reported in 1960 as “Kaymaegrak” by D. C. Foote, Project Chariot.

Kemegrak Lagoon: lagoon, 2.3 miles long, on Chukchi Sea coast, between Aiautak and Akoviknak Lagoons, 5.5 miles NW of Cape Thompson, Arctic Slope; 68° 14' N, 166° 05' W; BGN 1963; (map 129). Variant: Kaymaegrak Lagoon. Eskimo name reported in 1962 by personnel of Project Chariot.

Kemik Creek: stream, heads in Brooks Range, flows NW 15 miles to West Fork Shaviovik River, 23 miles SE of head of Shaviovik River, Arctic Slope; 69° 24' 30" N, 147° 14' 00" W; (map 140). Eskimo name meaning “small hill” or “mound” [“qimiq”] given in 1951 by USGS geologists.

Kemp Hill: hill, 700 ft., on W coast of Kiska Island, Aleutian Islands; 51° 58' 08" N, 177° 21' 15" E; (map 14). An arbitrary name beginning with “K” to correspond to the “K” grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Kemperville: locality, on right bank of Tanana River, at mouth of Hot Springs Slough 5 miles SE of village of Manley Hot Springs, Yukon-Tanana Highlands; 64° 59' N, 150° 48' W; (map 99). Variant: Buckholtz Roadhouse. Name of a roadhouse that had its origin as a trading post about 1909.

Kempff Bay: bay, 2 miles across, on W shore of Alitak Bay, at S end of Kodiak Island; 56° 56' N, 154° 13' W; (map 32). Named in 1900 by Lt. Comdr. J. F. Moser, USN, commander of the Albatross, for Ens. Clarence F. Kempff, USN, a member of his party.

Kemuk Mountain: mountain, 1,180 ft., 4 miles E of Thorsen Mountain and 26 miles NE of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 54' 40" N, 161° 39' 30" W; (map 39). Eskimo name recorded in 1938 by J. B. Mertie and Gerald FitzGerald, USGS; reported to mean “the one between.”

Kemuk Mountain: mountain, 1,500 ft., 16 miles NE of Okstukuk Lake and 50 miles N. of Dillingham, Bristol Bay Lowland; 59° 42' N, 158° 02' W; BGN 1932; (map 52). Variant: Kimok. Eskimo name shown as “Kimok” on a 1910 manuscript map by H. C. Fassett, USBF.

Kemuk River: stream, heads in Nenevok Lake, flows SW 28 miles to Togiak River, 2 miles E of Kashiagamiut and 58 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains, 59° 22' 30" N, 160° 00' 30" W; (map 53). Variant: Narogurum River. Eskimo name reported in 1965 by USGS. It was also called “Narogurum,” another Eskimo name, published in 1954 by USGS.

Kenachananak: locality, on mainland E of Nunivak Island, Yukon-Kuskokwim Delta; (map 58). Variant: Kennachananaghmiut. Former Eskimo camp or settlement listed as “Kennachananaghmiut,” with a population of 181 in the 1890 Census.

Kenai Bay: estuary, see Cook Inlet.

Kenai Junction: village, see Soldatna.

Kenai Lake: lake, on Kenai Peninsula, extends SW 24 miles, from head of Kenai River to mouth of Snow River, 22 miles NW of Seward, Chugach Mountains; 60° 24' N, 149° 37' W; (map 63). Variant: Second Lake. Local name reported in 1898 by Mendenhall (1900, map 16), USGS.

Kenai Lake: lake, see Skilak Lake.

Kenai Mountains: mountain range, maximum elevation 6,000 ft., 20 miles wide, extends NE 120 miles from S end of Kenai Peninsula, Chugach Mountains; 59° 31' N, 151° 00' W; (map 50). Variant: Truuli. Name published by Grewingk (1849, p. 111), who obtained his information from Island G. Wosnesenski's account of a voyage to the area in 1842. The Kenai Indian name for these mountains is given as "Truuli."

Kenai Peninsula: peninsula, 150 miles long and 70 miles wide, extends SW from Turnagain Arm and Passage Canal, bounded on E by Gulf of Alaska and on W by Cook Inlet, Chugach Mountains and Cook Inlet Lowland; 60° N, 150° W; BGN Sixth Report; (map 63). Variant: Kanaiski land, Kenay Peninsula, Tschugatsk Halbinsel. Name published in 1868 by USC&GS; probably derived from "Kenayskaya" the name given by the Russians in the 1790's to Cook Inlet. Commodore Joseph Billings called it "Kanaiski land" in 1802; Constantin Grewingk called it "Tschugatsk Halbinsel" or "Chugach Peninsula" in 1850.

Kenai Redoute: village, see Kenai.

Kenai River: stream, on Kenai Peninsula, heads at Kenai Lake in Kenai Mountains, flows W 75 miles to Cook Inlet at Kenai, Cook Inlet Lowland; 60° 33' N, 151° 16' W; (map 62). Variant: Kaknu River, Kakny, Nik River. Name reported in 1898 by Mendenhall (1900, map 16), USGS. The Tanaina Indian name for this stream was reported to be "Kakny [Kakna]"; the Eskimo name was "Nik [ignik]" meaning "fire," but more probably referred to the Eskimo name for the local Indians.

Kenai Strait: water passage, see Shelikof Strait.

Kenai: locality, see Lakeview

Kenai: village, pop. 778, at mouth of Kenai River, on E shore of Cook Inlet, 65 miles SW of Anchorage, Cook Inlet Lowland; 60° 33' N, 151° 16' W; (map 62). Variant: Fort Kenai, Fort Nicholas, Kenai Redoute, Pavlovskaya, Redaute Saint Nikolaus, Redut Svataya Nikolaya, Saint Nicholas Fort De Pawlofsk. A fortified post, called "Redut Svataya Nikolaya," or "Fort St. Nicholas," was built in 1791 by Grigor Konovalov, commander of the St. George, of the Lebedef-Lastochkin Company. The village was also called "Paul's Fort," or "Pavlovskaya," by the Russians. In 1869 a U.S. Military Post, named "Fort Kenai" for the Indians living in the area, was established there, and in 1899 the Kenai post office was authorized (Ricks, 1965, p. 32). The population was 44 in 1880; in 1890, 263; in 1910, 250; in 1920, 332; in 1930, 286.

Kenaiskaia, Baie: estuary, see Cook Inlet.

Kenaiskaiai: estuary, see Cook Inlet.

Kenaiskichev Meerbusen: estuary, see Cook Inlet.

Kenaiskischer: estuary, see Cook Inlet.

Kenaiskoi golfe: estuary, see Cook Inlet.

Kenaiskoi: estuary, see Cook Inlet.

Kenaitze Lake: lake, 0.7 miles long, on Kenai Peninsula W of Phalarope Lake, 8 miles SSW of Point Possession and 38 miles NE of Kenai, Cook Inlet Lowland; 60° 55' 15" N, 150° 25' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Kenakuchuk Creek: stream, heads on Kemuk Mountain and flows S 16 miles to Kokwok River, 35 miles NE of Dillingham, Bristol Bay Lowland; 59° 29' N, 158° 07' W; (map 52). Variant: Ki-nuk-tu-cha-rok. Eskimo name written Ki-nuk-tu-cha-rok by H. C. Fassett, USBF, in 1910. The present form of the name appears to have been established by USGS.

Kenasnow Island: island, see Killisnoo Island.

Kenasnow Reef: rocks, see Kenasnow Rocks.

Kenasnow Rocks: rocks, in Chatham Strait, 1 mile SW of Angoon, off W coast of Admiralty Island, Alexander Archipelago; 57° 29' 30" N, 134° 36' 00" W; (map 9). Variant: Kenasnow Reef. Named in 1869 by Lt. Comdr. R. W. Meade, USN, for Kenasnow Island, a variant of Killisnoo Island N off which the reef or rocks are located. Portions of the reef are always above high water. The name "Kenasnow Reef" was published by USC&GS in 1883 Coast Pilot (p. 175).

Kenasnow: islands, see Kootzanhoo Archipelago.

Kenasnow: locality, see Killisnoo.

Kenay Peninsula: peninsula, see Kenai Peninsula.

Kenayskoy, Zaliv: estuary, see Cook Inlet.

Kendall Cache: locality, see Tacoma.

Kendrick Bay: estuary, extends SE 4 miles from its West Arm to Clarence Strait, on SE coast of Prince of Wales Island, Alexander Archipelago; 54° 51' 15" N, 131° 58' 00" W; (map 2). Named in 1879 by W. H. Dall, USC&GS, for Capt. John Kendrick, commander of the sloop Columbia, who wintered at Nootka in 1788-89.

Kendrick Island: islands, off-shore group 2 miles long, at mouth of Kendrick Bay off SE coast of Prince of Wales Island, Alexander Archipelago; 54° 53' N, 132° 00' W; (map 2). Local name derived from Kendrick Bay; reported in 1904 by H. C. Fassett, USBF.

Kengneeverax: locality, see Kangnirvik.

Kengugmiut: locality, see Kongik.

Kenibuna Lake: lake, 5 miles long, between Alaska and Aleutian Ranges, W of Shamrock Glacier and Chakachamna Lake, 58 miles W of Tyonek, Alaska Range; 61° 10' N, 152° 55' W; BGN 1930; (map 70). Variant: Shallow Lake. Tanaina Indian name reported in 1928 by USGS.

Kenmore Head: point of land, on W shore of Morzhovoi Bay, SW end of Alaska Peninsula, Aleutian Range; 54° 56' 40" N, 163° 01' 40" W; (map 25). Name published by USC&GS in 1925.

Kennachananaghmiut: locality, see Kenachananak.

Kennecott: settlement, see Kennicott.

Kennedy Creek: stream, flows S 0.8 miles to Left Fork Dome Creek, in Pilgrim River basin, 23 miles NW of Solomon, Seward Peninsula Highlands 64° 53' 30" N, 164° 38' 20" W; (map 95). Prospectors' name reported in 1908 by P. S. Smith (in Brooks and others, 1909, pl. 10), USGS.

Kennedy Creek: stream, see Midnight Creek.

Kennedy Entrance: water passage, 20 miles wide, between Barren Islands and Chugach Islands, connects Gulf of Alaska with Cook Inlet, Kenai Peninsula 59° 00' N, 151° 50' W; BGN 1966; (map 50). Named in 1966 by the Alaska Geographic Board for John Fitzgerald Kennedy, 1917-63 35th President of the United States.

Kennedy Lake: lake, 1,000 ft. long, in Matanuska Valley, 6.7 miles NW of Palmer, Cook Inlet Lowland; 61° 38' 50" N, 149° 17' 25" W; (map 69). Local name reported in 1942 by AMS.

Kennedy, Point: point of land, S point of entrance to Saook Bay, on N coast of Baranof Island 4 miles W of Todd, Alexander Archipelago; 57° 26' 30" N, 135° 09' 15" W; (map 9). Named in 1895 by Lt. Comdr. E. K. Moore USN, "for Surgeon Robert Morris Kennedy USN, a member of his party." The name was published by USC&GS on Chart 8283.

Kennel Creek: stream, flows E 5 miles to Freshwater Bay, 8.5 miles N of Tenakee Springs, on E coast of Chichagof Island, Alexander Archipelago; 57° 54' 00" N, 135° 09' 20" W; BGN 1933; (map 9). Variant: Canyon Creek. Named in 1933 by USFS, "because of the large number of 'dog'salmon using it for spawning."

Kennel Lakes: lakes, 0.1 miles across, center of Kiska Island, Aleutian Island; 51° 57' 55" N, 177° 21' 35" E; (map 14). An arbitrary name beginning with "K" to correspond to the "K" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Kenney Lake: lake, 0.4 miles across, 1.4 miles N of mouth of Willow Creek, on Tonsina River 66 miles NE of Valdez, Chugach Mountains; 61° 43' 55" N, 144° 56' 30" W; (map 68). Local name published in the 1950's by USGS.

Kennicott Glacier: glacier, trends SE 27 miles from Mount Blackburn to its terminus at head of McCarthy Creek, Wrangell Mountains, 61° 26' N, 142° 57' W; BGN 1929; (map 67). Named in 1899 by Rohn (1900, p. 406) USGS, for Robert Kennicott, pioneer Alaska explorer and director of the scientific corps of the Western Union Telegraph Expedition in 1865.

Kennicott Pass: stream, see Fourth of July Creek.

Kennicott River: stream, flows S 4.5 miles from Kennicott Glacier terminus to Nizina River, 5 miles SW of McCarthy, Wrangell Mountains; 61° 22' 35" N, 143° 00' 00" W; BGN 1929; (map 67). Local name derived from the glacier; reported in 1900 by T. G. Gerdine, USGS.

Kennicott: settlement, pop. 5, on N bank of National Creek, E of Kennicott Glacier, 3.5 miles N of McCarthy, Wrangell Mountains; 61° 29' N, 142° 53' W; BGN 1952; (map 67). Variant: Kennecott. The "Kennecott Mines Company," which established a camp and offices here in 1906, took its name from Kennicott Glacier, but misspelled it with a second "e." The glacier was named for Robert Kennicott. In 1908, the Post Office of "Kennecott" was established and continued until 1938. (Ricks, 1965, p. 33). The town which grew to a population of 494 by 1920, took its name from the mining company, but it has been spelled variously through the years. Present day map usage favors the original spelling honoring Robert Kennicott.

Kennon Island: island, 0.3 miles long, in mouth of Chichagof Harbor, on E coast of Attu Island, 0.5 miles E of Attu Aleutian Islands; 52° 56' 25" N, 173° 15' 30" E; (map 13). Named by Lt. William Gibson, July 1855, for Lt. Beverley Kennon, USN. Lt. Kennon served with Lt. Gibson on the U.S. schooner Fenimore Cooper during the North Pacific Exploring Expedition, 1854-55, under the command of Capt. Cadwalader Ringgold and Capt. John Rodgers.

Kennoys Islands: islands, 0.4 miles across, in Pacific Ocean, between Unga and Wosnesenski Islands, Aleutian Range; 55° 09' 30" N, 161° 06' 00" W; (map 28). Shown on USC&GS charts published in or before 1902, origin of the name unknown.

Kenny Cove: bight, 1 mile wide, at NE tip of Hinchinbrook Island, 15 miles SW of Cordova Chugach Mountains; 60° 25' N, 146° 07' W; (map 64). Name published in 1959 by USGS.

Kenny Creek: stream, flows SW 6.7 miles to Peters Creek, 19 miles W of Talkeetna, Alaska Range; 62° 20' 50" N, 150° 42' 50" W; (map 81). Local name reported in 1958 by USGS.

Keno Creek: stream, flows SW 12 miles to Arolik River, 30 miles N of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 32' N, 161° 22' W; (map 53) Eskimo name reported in 1919 by G. L. Harrington (in Brooks and others, pl. 7), USGS.

Kent Creek: stream, heads N of Attu Mountain at 52° 54' 25" N, 172° 58' 20" E, and flows N 6 miles to Brunette Cove in Steller Cove, N coast of Attu Island, Aleutian Islands; 52° 58' 23" N, 172° 57' 20" E; (map 13). Named by the U.S. Army during World War II; shown on an AMS map published in 1948.

Kentucky Creek: stream, flows N 2.5 miles to Louisville Creek which flows to Igloo Creek, in American River basin, 36 miles NE of Teller, Seward Peninsula Highlands; 65° 28' N, 165°

14' W; (map 111). Prospectors' name reported in 1900 by Messrs. Kemp and David Fox (in Brooks, 1901, pl. 11).

Kentucky Creek: stream, flows NE 2 miles to Klokerblok River, 15 miles NE of Solomon, Seward Peninsula Highlands; 64° 39' N, 164° 00' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Kentucky Creek: stream, flows SW 4.8 miles to Hutlinana Creek, 5 miles S of Eureka Dome, 56 miles E of Tanana, Yukon-Tanana Highlands; 65° 09' N, 150° 10' W; (map 106). Prospectors' name reported in 1906 by L. M. Prindle, USGS.

Kentucky Creek: stream, see Coal Creek.

Kenty Creek: stream, flows NE 6 miles to Paint River, 2 miles N of Middle Mountain, 37 miles SW of Augustine Island, Aleutian Range; 59° 09' 30" N, 154° 23' 30" W; (map 51). Local name reported by K. F. Mather, USGS, in 1923 (in Brooks and others, 1925, pl. 3).

Kenunga Creek: stream, flows E 6.5 miles, N of Katiktak and Blackface Mountains, to Ernie Creek in Valley of Precipices, 23 miles E of Anaktuvuk Pass, Brooks Range; 68° 03' 15" N, 150° 51' 00" W; BGN 1932; (map 134). Marshall (1956, p. 46) wrote, "I named this remarkable valley and the river which drained it Kenunga, which is Eskimo for knife edge * * *." Marshall was referring to the number of knife-edge ridges he saw between Rumbling and Katiktak Mountains.

Kenunimik: locality, "on right bank of lower Yukon River," Yukon-Kuskokwim Delta; (map 77 or 92). Former Eskimo camp or settlement reported in 1898 by USC&GS; published on Chart 9370.

Kenunimik: locality, see Ankachak.

Kenwood Creek: stream, flows NE 17 miles to Koyuk River, 6 miles S of Haycock, Seward Peninsula Highlands; 65° 07' N, 161° 09' W; BGN 1910; (map 109). Local name reported in 1909 by A. H. Brooks, USGS.

Keo Point: point of land, on W shore of Kuk River, 21 miles S of Wainwright, Arctic Plain 70° 20' 10" N, 159° 53' 15" W; (map 146). Eskimo name reported in 1956 by T. E. Taylor, USGS.

Keogmute: locality, see Kuk.

Keoklevik River: stream, tributary of Kashunuk River, flows W 15 miles to Hooper Bay, Yukon-Kuskokwim Delta; 61° 27' N, 165° 47' W; (map 75). Variant: Keookthlevik, Kithlevik Slough. Eskimo name reported by USC&GS in 1951.

Keookthlevik: stream, see Keoklevik River.

Kepangalook: village, pop. 10, on right bank of Kuskokwim River, 6 miles NE of Bethel, Yukon-Kuskokwim Delta; 60° 51' N, 161° 37' W (map 59). Eskimo camp reported in 1951 by USGS.

Kepizetka River: stream, see Kokolik River.

Kepizetko River: stream, see Kokolik River.

Kepler Lake: lake, 2,000 ft. long, in Matanuska Valley 4.2 miles SW of Palmer, Cook Inlet Lowland 61° 33' 10" N, 149° 11' 45" W; (map 69). Local name reported in 1951 by USGS.

Keq: village, see Kake.

Kerchurak Creek: stream, flows NW 12 miles to Kugarak River, 29 miles W of Shungnak, Kotzebue-Kobuk Lowland; 66° 49' N, 158° 09' W; (map 115). Eskimo name shown on a 1927 manuscript map by the "trader at Selawik."

Kermion Gulch: ravine, extends 1.1 miles N to Blygh Gulch, 0.8 miles S of head of Chititu Creek and 15 miles SE of McCarthy, St. Elias Mountains; 61° 17' N, 142° 35' W; (map 67). Local name obtained by USGS and published on maps since 1954.

Kern Creek Station: locality, see Kern.

Kern Creek: stream, flows SE 12 miles to Middle Fork Chandalar River, 25 miles ENE of Chandalar, Brooks Range; 67° 38' 30" N, 147° 36' 00" W; (map 123). Prospectors' name obtained in 1909 by A. G. Maddren (in Brooks and others, 1910, pl. 7), USGS.

Kern Creek: stream, flows SW 3.5 miles to Turnagain Arm, 12 miles E of Sunrise, Chugach Mountains; 60° 54' 40" N, 149° 05' 00" W; (map 63). Name used by local prospectors and reported in 1899 by Lt. Herron (1901, sketch opposite p. 11), USA.

Kern: locality, mile 70.5 on The Alaska Railroad, 12 miles E of Sunrise, Chugach Mountains; 60° 54' 30" N, 149° 04' 30" W; (map 63). Variant: Kern Creek Station. Local name for a flag stop reported in 1912 by the Alaska Railroad Commission (1913, pl. 11). Name derived from nearby Kern Creek.

Kernel Cove: cove, 0.7 miles across, in Bering Sea, 2 miles N of Lief Cove, SW end of Kiska Island, Aleutian Islands; 51° 57' 40" N, 177° 21' 20" E; (map 14). Variant: Norse Cove. An arbitrary name beginning with "K" to correspond to "K" grid used by U.S. Army for tactical purposes during World War II; published on a 1953 AMS map. Variant published on a 1943 USAAF map.

Kerulu Creek: stream, flows N 24 miles to Selawik River, 48 miles SW of Shungnak, Kotzebue-Kobuk Lowland; 66° 29' N, 158° 30' W; (map 115). Eskimo name shown on a 1927 manuscript map by the "trader at Selawik."

Keshkunuwu: locality, "in SE Alaska." Former Tlingit Indian camp or settlement reported to be from "Q!eckunuwu," meaning "bluejayfort," by J. R. Swanton (in Hodge, 1907, p. 675).

Keshunuk Slough: stream, see Kashunuk Slough.

Keski Island: island, 0.4 miles long, in El Capitan Passage, between El Capitan and Orr Islands, Alexander Archipelago; 55° 55' 50" N, 133° 20' 10" W; BGN 1932; (map 4). Variant:

East Island. Tlingit Indian name meaning “morning” given in 1932 by USC&GS “because it is on the east or morning side of the group of small islands in this vicinity.” The name “East Island” was published in 1925 Coast Pilot (p. 154).

Kessin Peak: hill, 100 ft., a cinder cone 18 miles NW of Myghapowit Mountain and 26 miles SE of Savoonga, St. Lawrence Island; 63° 20' N, 170° 14' W; BGN 1951; (map 93). Variant: Keesin-Myghook Mountain, Kisin, Mount Keesin-Nyghook. Eskimo name reported in 1930 by O. W. Geist, Univ. of Alaska. Orth spelled the name “Kisin” in 1965.

Kessin-Nyghook, Mount: hill, see Kessin Peak.

Kestrel Island: island, 600 ft. long, in Boca de Quadra, 1.4 miles NW of Porpoise Point, Coast Mountains; 55° 06' 25" N, 130° 47' 50" W; (map 3). Variant: Krestrel Island. Named in 1891 by USC&GS.

Keta River: stream, flows SW 20 miles to Boca de Quadra, Coast Mountains; 55° 20' 10" N, 130° 28' 29" W; BGN 1962; (map 3). Indian name reported in 1961 by USFS.

Ketavie Point: point of land, see Whale Point.

Ketavie Rookery: rookery, see Kitovi Rookery.

Ketchem Creek: stream, flows NE 6 miles to Crooked Creek, 26 miles SW of Circle, Yukon-Tanana Highlands; 65° 32' N, 144° 37' W; BGN 1938; (map 104). Variant: Ketchen Creek, Ketchum Creek. Named by prospectors and published originally as “Ketchum Creek” by USGS (Prindle, 1906, p. 21). However, local usage has changed the name to its present spelling.

Ketchem Dome: mountain, 3,535 ft., 4.5 miles SW of Circle Hot Springs and 33 miles SW of Circle, Yukon-Tanana Highlands; 65° 27' 35" N, 144° 47' 50" W; (map 104). Prospectors' name reported in 1955 by USGS; named for Ketchem Creek which heads on its slope.

Ketchen Creek: stream, see Ketchem Creek.

Ketchikan Creek: stream, on Revillagigedo Island, heads in a lake and flows W and S through Ketchikan Lakes, Number One and Two, 6 miles to Tongass Narrows at Ketchikan, Alexander Archipelago; 55° 20' 30" N, 131° 38' 20" W; (map 3). Variant: Fish Creek, Kitschkhin. Tlingit Indian name recorded as “Kitschkhin” by Arthur or Aurel Krause in 1881, and evolved in the present name “Ketchikan.” It has been suggested that the name means “eagle wing river” derived from the fact that “a boulder in the stream at the falls broke the water giving the appearance of the spread wings of an eagle.” This suggested meaning has not been verified and may be a form of folklore. The name “Fish Creek” was reported as local usage in 1883 by USC&GS.

Ketchikan Harbor: anchorage, in Tongass Narrows, at Ketchikan, on SE coast of Revillagigedo Island, Alexander Archipelago; 55° 20' 30" N, 131° 38' 45" W; (map 3). Local name reported in 1910 by USC&GS.

Ketchikan Lake Number One: lake, see Lower Ketchikan Lake.

Ketchikan Lake Number Two: lake, see Upper Ketchikan Lake.

Ketchikan Lake: lake, see Lower Ketchikan Lake.

Ketchikan Lake: lake, see Upper Ketchikan Lake.

Ketchikan Lakes: lake, see Lower Ketchikan Lake.

Ketchikan Lakes: lake, see Upper Ketchikan Lake.

Ketchikan: city, pop. 6,483, on S coast of Revillagigedo Island, on N shore of Tongass Narrows, Alexander Archipelago; 55° 20' 30" N, 131° 38' 45" W; BGN 1905; (map 3). Variant: Kichikan, Kitchikan, Kitskan. Industrial city and port of entry, established as a fishing town when a cannery was built in 1887. The town became a supply center during the gold rush period in the late 1890's. Its population was 40 in 1890; 1,613 in 1910; 2,458 in 1920; 3,796 in 1930; 4,695 in 1939; and 5,305 in 1950. The Ketchikan post office was established in 1892. The city was named after Ketchikan Creek.

Ketchum Creek: stream, see Ketchem Creek.

Ketchumstock Creek: stream, see Kechumstuk Creek.

Ketchumstock Mountain: mountain, see Kechumstuk Mountain.

Ketchumstock: locality, see Kechumstuk.

Ketchumstuck: locality, see Kechumstuk.

Ketihuvick: lake, see Brooks, Lake.

Ketik River: stream, heads at 69° 27' N, 159° 56' W, flows N 90 miles to Avalik River 1.5 miles E of its junction with Kuk River, 37 miles SE of Wainwright, Arctic Plain; 70° 07' N, 159° 36' W; BGN 1966; (map 146). Eskimo name reported in 1924 by W. T. Foran, USGS.

Ketik River: stream, see Avalik River.

Ketili Creek: stream, heads in Barnes Lake, flows NW 3.5 miles to Ketili River, 4 miles W of Alaska-Canada boundary, Coast Mountains; 56° 41' 30" N, 131° 58' 00" W; (map 7). Tlingit Indian name reported in 1955 by USGS.

Ketili River: stream, anabranch of Stikine River, 7.5 miles long, 20 miles NE of Wrangell, Coast Mountains; 56° 43' N, 132° 04' W; BGN 1966; (map 6). Variant: Hot Springs Slough, Warm Springs Slough. Tlingit Indian name meaning "hot (or warm spring)"; name published in 1927 on IBC sheet 5.

Ketivik Falls: waterfalls, see Brooks Falls.

Ketivik Lake: lake, see Brooks, Lake.

Ketlgakhya Point: point of land, see Kelgaya Point.

Ketlkede Creek: stream, flows SW 21 miles to Yuki River, 48 miles SE of Nulato, Kilbuck-Kuskokwim Mountains; 64° 15' N, 156° 55' W; BGN 1961; (map 97). Indian name shown on a 1940 map by U.S. Army Corps of Engineers. Name is probably derived from that of the hill.

Ketlkede Mountain: mountain, 1,947 ft., 49 miles SE of Galena, SE of Nulato, Kilbuck-Kuskokwim Mountains; 64° 29' N, 156° 33' W; (map 97). Koyukan Indian name reported in 1903 by Father Julius Jette who wrote the name "R[kh] etlela" or "Khet Mountain." The present spelling is shown on a 1940 map by U.S. Army Corps of Engineers.

Ketlrachta Point: point of land, see Kelgaya Point.

Ketlrachta: point of land, see Battery Point.

Ketngepaluk River: stream, see Kitnepaluk Creek.

Ketnik River: stream, see Kitnik River.

Ketok Mountain: mountain, 1,696 ft., 42 miles E of Agenuk Mountain and 72 miles NE of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 52' N, 157° 18' W; BGN 1931; (map 52). Variant: KETOKECHEEGILINGUK. Eskimo name obtained in 1931 by Gerald FitzGerald, USGS. The full Eskimo name of this mountain, obtained from F. W. Waskey, a local prospector, is "KETOKECHEEGILINGUK," which reportedly means "the mountain we can not go around." The abbreviated name was published by Mertie (1938b, p. 12 and pl. 1), USGS.

KETOKECHEEGILINGUK: mountain, see Ketok Mountain.

Ketoy Island: island, see Whale Island.

Kettle Cape: point of land, on SE coast of Umnak Island, Aleutian Islands; 53° 16' 40" N, 168° 06' 55" W; (map 22). Variant: KOTELNOI, M[ys] Kotel' noy, Utmak. Translation of Russian name published by Capt. Tebenkov (1852, map 25), IRN, as "M[ys] Kotel' noy," meaning "Kettle Cape." The Aleut name is "Utmak" and may possibly be from the word "utman," meaning "in the midst of," according to R. H. Geoghegan.

Kettle Dome: hill, 1,552 ft., 2 miles E of Imuruk Lake, Seward Peninsula Highlands; 65° 35' N, 163° 00" W; BGN 1952; (map 110). Reported in 1950 by D. M. Hopkins, USGS; so named because at "the summit of the hill there is a hemispherical rock knob about 30 feet high. From a distance the outline of the hill and the knob suggest the top of a teakettle."

Kevinjik Creek: stream, heads at 66° 56' N, 141° 45' W, flows S 40 miles to Salmon Fork Black River, 45 miles SE of Chalkyitsik, Porcupine Plateau; 66° 31' N, 142° 05' W; (map 120). Tranjik-kutchin Indian name; obtained in 1956 by T. E. Taylor, USGS.

Kevrorak Springs: springs, see Kavrarak Springs.

Kevroruk Springs: springs, see Kavrarak Springs.

Kevuk Creek: stream, flows NE 30 miles, joins Agiak Creek to form Hunt Fork of John River, 6 miles W of Cairn Mountain and 73 miles NW of Wiseman, Brooks Range; 67° 51' 30" N, 152° 38' 00" W; BGN 1932; (map 124). This Eskimo name was reported by Marshall, (1956, p. 102), who wrote "The left fork called by the Eskimos 'Kevuk' (large intestines), came from the south * * *."

Kevuleek River: stream, see Kivalina River.

Kevuleek: village, see Kivalina.

Kevulik River: stream, see Kivalina River.

Kevulik: village, see Kivalina.

Kewagek Creek: stream, heads at Kiwook Pass, flows NW 3 miles to Niyrakpak Lagoon, 18 miles SE of Gambell, St. Lawrence Island; 63° 37' N, 171° 19' W; BGN 1951; (map 93). Variant: Kiwaruk. Eskimo name shown on a manuscript map drawn by Lawrence Kuluphan, of Gambell, in 1944. Orth recorded the name "Kiwaruk," meaning "growing river," for this stream in 1965.

Key Creek: stream, heads at 69° 26' N, 153° 21' W, flows N and W 75 miles to join Wolf Creek to form Price River, 35 miles NE of head of Ikpikpuk River, Arctic Plain; 69° 44' 30" N, 153° 49' 30" W; BGN 1959; (map 142). Variant: Keith Creek, Price River. Name first used in 1951 by geologists on the Naval Petroleum Reserve No. 4 exploration.

Key Hill: mountain, 1,200 ft., on west-central Kiska Island, Aleutian Islands; 51° 56' 30" N, 177° 21' 00" E; (map 14). An arbitrary name beginning with "K" to correspond to the "K" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Key Reef Rock: rock, 0.8 miles SE of Key Reef, 6 miles S of Zarembo Island, Alexander Archipelago; 56° 09' N, 132° 49' W; (map 6). Variant: Key Reef. Local name recorded in 1949 by USGS.

Key Reef: reef, 0.8 miles NW of Key Reef Rock, 5 miles S of Zarembo Island, Alexander Archipelago; 56° 09' 35" N, 132° 49' 45" W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow, USN; name published in 1887 on USC&GS Chart 706.

Key Reef: rock, see Key Reef Rock.

Keyaluvik: locality, see Old Kealavik.

Keyaluvik: village, see Newtown.

Keyes Point: peninsula, 6 miles long, in Lake Clark, 8 miles NE of Nondalton, Alaska Range; 60° 09' N, 154° 37' W; (map 61). Local name reported in 1954 by USGS.

Keygik: locality, see Kijik.

Keystone Canyon: canyon, on Lowe River, extends 2 miles N-S 1 mile E of mouth of Bear Creek and 12 miles SE of Valdez, Chugach Mountains; 61° 04' 40" N, 145° 53' 45" W; (map 68). Named in 1898 by Capt. W. R. Abercrombie, USA, presumably after Pennsylvania, the Keystone State.

Keystone Creek: stream, flows S 8 miles to Shaw Creek, 10 miles NW of Big Delta, Yukon-Tanana Highlands; 64° 16' 30" N, 146° 04' 15" W; (map 101). Named by prospectors; reported in 1910 by USGS (Capps, 1912, pl. 1).

Keystone Creek: stream, flows SW 4 miles, joins Dawson Creek to form Cache Creek, 20 miles NW of Fairbanks, Yukon-Tanana Highlands; 64° 54' 25" N, 148° 21' 55" W; (map 100). Variant: Dawson Creek. Named by prospectors; published in 1906 by USGS; C. W. Joint, on a manuscript map, shows this stream as Dawson Creek and the present combined Dawson and Cache Creeks as Keystone Creek.

Keystone Creek: stream, on W coast of Iniskin Peninsula, flows SW 1.2 miles to Iniskin Bay, 2.5 miles NE of Scott Island, Aleutian Range; 59° 40' 05" N, 153° 23' 20" W; BGN 1962; (map 51). So named by USGS in 1951, because rock exposure along the stream "was the keystone to the geologic interpretation of the area."

Keystone Creek: stream, see Cache Creek.

Keystone Creek: stream, see Dawson Creek.

Keystone Glacier: glacier, heads E of East Peak, trends SE 5.5 miles to Bear Creek, 12 miles E of Valdez, Chugach Mountains; 61° 06' 55" N, 146° 03' 15" W; BGN 1965; (map 68). Variant: Corbin Glacier. Named in 1964 by Austin S. Post, USGS; suggested by nearby Keystone Canyon.

Kgallegak: locality, see Kialegak Village.

Kghun Lake: lake, see Kgun Lake.

Kgun Lake: lake, 15 miles long, E of Manokinak River, 60 miles SW of Marshall, Yukon-Kuskokwim Delta; 61° 34' N, 163° 45' W; (map 74). Variant: Kghun Lake, Khun Lake. Eskimo name, meaning "source," obtained by USC&GS from Frank Waskey at Marshall in 1949.

Khaali Lake: lake, 2.6 miles long, 2 miles SW of Arctic Village, Brooks Range; 68° 05' N, 145° 36' W; (map 136). Kutchin Indian name obtained at Arctic Village in 1956 by T. E. Taylor, USGS.

Khaboutcha: point of land, see Kabuch Point.

Khabuch: point of land, see Kabuch Point.

Khadilotden: locality, on Iditarod River, probably near the present locality of Iditarod; 62° 33' N, 158° 06' W; (map 79). Variant: Kadilotden, Radiolotden. This name was reported by Father

Jette in 1915 to be the name of an Ingalik Indian village, probably from which the Iditarod River derived its name.

Khagamil Island: island, see Chuginadak Island.

Khagamil, Ostrov: island, see Chuginadak Island.

Khaigamute: locality, see Nunaikak.

Khainiliakh: island, see Kaniliak.

Khalkhagu: cove, see Kalhagu Cove.

Khallikvit, Baie: bay, see Wide Bay.

Khaltats Village: locality, see Kaltat.

Khaltsekahin River: stream, see Kicking Horse River.

Khalzekahin River: stream, see Kicking Horse River.

Khantaak Beach: beach, 5 miles long, on NW coast of Khantaak Island, 4 miles N of Yakutat, Malaspina Coastal Plain; 59° 36' N, 139° 45' W; (map 46). Named in 1906 by Tarr (1909, p. 167), USGS, for the island on which it is located.

Khantaak Island: island, 6 miles long, on SE shore of Yakutat Bay, 1 mile N of Phipps Peninsula, 1.8 miles NW of Yakutat, Malaspina Coastal Plain; 59° 36' N, 139° 46' W; (map 46). Variant: Hantak Island, Khantak Island, Kontog Island. Tlingit Indian name recorded by Capt. Tebenkov (1852, map 7), IRN. The name is reported to mean "wooden food dish."

Khantak Island: island, see Khantaak Island.

Khask Creek: stream, see Haska Creek.

Khatnotoutze: locality, see Kagokakat.

Khatsulstit Lake: lake, see Fall Camps Lake.

Khayam Point: point of land, see Khayyam Point.

Khayyam Creek: stream, flows NE 9 miles to Pass Creek, 7 miles NNE of Lois Dome and 50 miles N of Coleen Mountain, Brooks Range, 67° 49' N, 142° 41' W; (map 121). Local name reported in 1956 by T. E. Taylor, USGS.

Khayyam Point: point of land, point of E entrance to McKenzie Inlet, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 24' 50" N, 132° 21' 00" W; BGN 1966; (map 4). Variant: Khayam Point. Local name reported in 1905 by E. F. Dickins, USC&GS. The Omar Mining Company operated in this vicinity, and the Kiam mining camp was nearby. The name of the mining camp was published as "Khayyam" by Theodore Chapin (in Brooks and others,

1916, pl. 3), USGS. All these names were suggested by the name of the Persian poet, astronomer, and tentmaker Omar Khayyam, author of the "Rubaiyat."

Khaz Bay: water passage, extends NE 4 miles from Pacific Ocean to Slocum Arm, 5 miles S of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 35' N, 136° 05' W; BGN 1908; (map 9). Variant: Zaliv Khaz. Russian name meaning "fag end" published by Tebenkov (1852, map 8) as "Z[aliv] Khaz."

Khaz Breakers: rocks, 10 miles S of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 31' 00" N, 136° 04' 30" W; BGN 1908; (map 9). Variant: Breaker No. 3. Named in 1908 by USC&GS; published in 1908 Coast Pilot (p. 171). It is the outer danger in the approach to Khaz Bay for which it is named. It has also been called Breaker No. 3 by USC&GS.

Khaz Head: point of land, on N tip of Khaz Peninsula, 9.5 miles SSE of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 31' 45" N, 136° 01' 00" W; BGN 1908; (map 9). Named in 1897 by Lt. Comdr. E. K. Moore, USN; published by the USC&GS in 1901 Coast Pilot (p. 199). The name is derived from Khaz Bay.

Khaz Peak: mountain, 2,687 ft., on Khaz Peninsula, on SW coast of Chichagof Island, 13 miles SE of Chichagof, Alexander Archipelago; 57° 30' 00" N, 136° 57' 30" W; (map 9). Name published in 1928 by USC&GS on Chart 8248. The name is derived from Khaz Bay.

Khaz Peninsula: peninsula, 15 miles long, on SW coast of Chichagof Island, Alexander Archipelago; 57° 28' N, 135° 55' W; BGN 1930; (map 9). Named by USC&GS in 1930; derived from Khaz Bay.

Khaz Point: point of land, on NW coast of Khaz Peninsula, 11.5 miles SSE of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 30' N, 136° 00' W; (map 9). Named in 1897 by Lt. Comdr. E. K. Moore, USN, published by USC&GS in the 1901 Coast Pilot (p. 198). It was probably named for Khaz Bay.

Khchakuk, Zaliv: locality, see Klchakuk.

Khgallegak: locality, see Kialegak Village.

Khiltats: locality, see Nabesna Village.

Khitkhok, Cape: promontory, see Scotch Cap.

Khitkouk, Cape: promontory, see Scotch Cap.

Khitrov Hills: nunataks, group extend about 15 miles between Bering Glacier on E and Steller Glacier on W, 42 miles NW of Cape Yatataga, Chugach Mountains; 60° 28' N, 143° 24' W; BGN 1960; (map 65). Named in 1960 by USGS for Sofron Khitrov who was shipmaster and second in command as lieutenant and later captain under Vitus Bering on the Alaskan discovery voyage of the ship St. Peter in 1741.

Khituk, Cape: point of land, see Seal Cape.

Khituk, Cape: promontory, see Scotch Cap.

Khlawak: village, see Klawock.

Khlbnikova, Mys: point of land, see Khlebnkof Point.

Khlebnkof Point: point of land, 2.5 miles SE of Attu, on NE coast of Attu Island, Aleutian Islands; 52° 55' 30" N, 173° 18' 25" E; (map 13). Variant: Cape Chlebnikoff, Cape Khlebnkof, Cape Khlebnikoff, Mys Khlbnikova. Named for the pilot, Andrei Khlebnikov, who made surveys around Kodiak in 1810; given by Adolph K. Etolin in 1827. The name was shown by the Russians as "Mys Khlbnikova" meaning "Cape of Khlebnkof" (Tebenkov, 1852, map 30). The name was published in 1943 as Cape Khlebnkof on an AMS map, and has been used in this form ever since.

Khlebnkof, Cape: point of land, see Khlebnkof Point.

Khlebnkoff, Cape: point of land, see Khlebnkof Point.

Khlikakhlik Island: island, see Latouche Island.

Khlikakhlit Island: island, see Latouche Island.

Khobart, Mys: point of land, see Hobart, Point.

Khodo: stream, see Khotol River.

Khodolkakat: stream, see Rodo River.

Khodooye: mountain, see Khotol Mountain.

Khogamil Island: island, see Kagamil Island.

Khogoltinde: locality, "on Yukon River." Former Eskimo camp or settlement, with a population of 60, listed by Ivan Petroff in the 1880 Census.

Kholkkhem, Zaliv: bay, see Holkham Bay.

Khotakhkakat: stream, see Kaltag River.

Khotilkakat: locality, see Kotil.

Khotilkakate: locality, see Kotil.

Khotol Mountain: mountain, 2,844 ft., 39 miles SE of Nulato, Kilbuck-Kuskokwim Mountains; 64° 10' N, 157° 53' W; (map 97). Variant: Hodooye, Hotel Mountain, Khodooye, Khotoldlela, Rotel Mountain, Rotoldlela. Indian name recorded in 1903 by Father Julius Jette of Nulato as "Khotoldlela" or "Khotol mountain." He says that the mountain is also called "Khodooye," meaning "the furthestmost down the river."

Khotol River: stream, heads at junction of Camp Creek and Gorton Creek, flows SW 85 miles to Yukon River, 51 miles SW of Nulato, Koyukuk Lowland; 64° 02' N, 158° 44' W; (map 97). Variant: Hotel River, Khodo, Khotolno, Kotol River, Kutulnakt, Rotol River. Indian name shown as "Kutulnakt" on P. Tikmeniev's 1861 map; applied to Kaiyah Slough. In 1903 Father Julius Jette of Nulato said that the Indians call the above described stream "and the lower part of the slough," "Khotolno" or "Khotol River " See Khotol Mountain and Kaltag River.

Khotolno: stream, see Khotol River.

Khoylkakat: locality, on left bank of Koyukuk River, at mouth of Kateel River; Koyukuk Lowland; 65° 27' N, 157° 37' W; (map 108). Koyukan Indian name shown on Lt. Zagoskin's map. He obtained the name in 1842 and applied it to a camp or village.

Khoylnakat: locality, see Kotil.

Khoudiakoff Islands: islands, see Kudiakof Islands.

Khoudobine Islands: island chain, see Kudobin Islands.

Khoughitchate: locality, see Holikachuk.

Khozreghimena: lake, see Blackfish Lake.

Khromchenko, Cape: point of land, see Etolin, Cape.

Khta-aluk Island: island, see Hinchinbrook Island.

Khtagalyuk, Ostrov: island, see Hinchinbrook Island.

Khuchaynik Creek: stream, heads in Trimokish Hills, flows NW 24 miles to Middle Fork Kuskokwim River 15 miles S of junction of its Windy Fork, 45 miles SE of McGrath, Kuskokwim Lowland; 62° 33' 40" N, 154° 32' 30" W; (map 80). Native name reported in 1942 by USGS.

Khudiakoff Islands: islands, see Kudiakof Islands.

Khudobin Islands: island chain, see Kudobin Islands.

Khudsnu: locality, see Letushkwin.

Khudubin Islands: island chain, see Kudobin Islands.

Khuingshtetakhten: village, see Shageluk.

Khuligishgat: village, see Holikachuk.

Khulikakat: locality, "on Yukon River." Former Eskimo camp or settlement reported with a population of 10 in 1844 by Lt. L. A. Zagoskin, IRN (Hodge, 1907, p. 680).

Khulishganat, Selo: village, see Holikachuk.

Khulishganat: village, see Shageluk.

Khulitno: stream, see Holitna River.

Khulukh Bay: bay, see Kuluk Bay.

Khun Lake: lake, see Kgun Lake.

Khun River: stream, see Kun River.

Khunanilinde: locality, "near headwaters of Kuskokwim River," Kilbuck-Kuskokwim Mountains; (map 88 or 89). Former Eskimo camp or settlement reported by Lt. L. A. Zagoskin, IRN, on an 1850 map.

Khunna Island: island, see Chicagof Island.

Khushgichagat: village, see Shageluk.

Khutsnoi Island: island, see Admiralty Island.

Khutulkakat: locality, see Kutul.

Khutz-n' hu Island: island, see Killisnoo Island.

Khutz-n' hu: islands, see Kootzanhoo Archipelago.

Khutz-nhu: water passage, see Kootznahoo Inlet.

Khvostof Island: island, 1.8 miles across, 4 miles SE of Segula Island, one of Rat Islands, Aleutian Islands; 51° 58' 30" N, 178° 17' 00" E; BGN 1890; (map 15). Variant: Khvostoff Island, Khwostof Island, Khwostov Island. Russian name probably given by Adm. von Krusenstern (1827, sheet 18), IRN, as "Khwostov," for Nikolai Alexandrovich Khwostov, a Russian naval officer, who explored Alaska in 1802-04 with G. Island Davidov. Capt. Lutke (1836, p. 326), IRN, applied the name "Khvostoff ile" to the entire group of islands that include Khvostof.

Khvostof Lake: lake, 1.4 miles long, on S central Baranof Island, 7 miles SE of Whale Bay, Alexander Archipelago; 56° 31' 45" N, 134° 53' 30" W; BGN 1933; (map 5). Named in 1933 by USFS "for Nikolai Alexandrovich Khvostof, Lt. under Governor Baranof, explorer of parts of the Alaskan coast, and author of several books containing authentic records of conditions observed by him in his explorations." See Baranof Island.

Khvostof Pass: water passage, leads NE from Rat Island Pass to Bering Sea, between Segula and Khvostof Islands, Rat Islands, Aleutian Islands; 52° 00' N, 178° 14' E; BGN 1937; (map 15). Named derived from Khvostof Island and given by personnel of U.S.S. Oglala of 1935 U.S. Navy Survey Expedition.

Khvostoff Island: island, see Khvostof Island.

Khvuveren, Reka: stream, see Kaviruk River.

Khwain Bay: bay, see Kwain Bay.

Khwain Lake: lake, see Kwain Lake.

Khwostof Island: island, see Khvostof Island.

Khwostov Island: island, see Khvostof Island.

Ki-changamute: locality, see Klahangamut.

Ki-lick-tuk-gowt Creek: stream, see Kiliktakgot Creek.

Ki-nuk-tu-cha-rok: stream, see Kenakuchuk Creek.

Kiagna River: stream, flows 26 miles NW to Chitina River, 27 miles SE of McCarthy, St. Elias Mountains; 61° 06' 30" N, 142° 31' 55" W; (map 67). Indian name reported in 1915 by F. H. Moffit, USGS (in Brooks and others, 1916, pl. 5).

Kiak Creek: stream, see Kay Creek.

Kialagvik Bay: bay, see Wide Bay.

Kialagvik Creek: stream, flows NE 8 miles to Wide Bay, SE of Mount Alai, on S coast of Alaska Peninsula, 37 miles SE of Ugashik, Aleutian Range; 57° 17' 30" N, 156° 33' 00" W; (map 36). Eskimo name probably derived from early name for Wide Bay; published in 1956 by USGS.

Kialagvit: bay, see Wide Bay.

Kialagvit: bay, see Wide Bay.

Kialavik River: stream, see Kealavik River.

Kialavik: locality, see Old Kealavik.

Kialegak Mountains: mountains, 1,000 ft., extend N 7 miles from Southeast Cape, Saint Lawrence Island; 62° 59' N, 169° 39' W; BGN 1951; (map 93). Variant: Kiayalegok Mountain. Eskimo name reported in 1932 by Otto W. Geist, Univ. of Alaska.

Kialegak Point: point of land, 4 miles NE of Southeast Cape, St. Lawrence Island; 62° 59' N, 169° 32' W; BGN 1951; (map 93). Variant: Cape Kialegak, Cape Kiallighak, Kialegak Cape, Southeast Cape. Eskimo name reported by O. W. Geist, Univ. of Alaska, in 1932.

Kialegak Village: locality, on Kialegak Point, 4 miles NE of Southeast Cape, St. Lawrence Island; 62° 59' N, 169° 32' W; (map 93). Variant: Khgallegak, Kgallegak, Kiallegak, Kialegak. Former Eskimo camp or settlement reported as “Kgallegak” in 1849 by Capt. M. D. Tebenkov, IRN.

Kialegak, Cape: point of land, see Kialegak Point.

Kialegak: locality, see Kialegak Village.

Kialigamiut: locality, see Kaialik.

Kiallegak: locality, see Kialegak Village.

Kiallighak, Cape: point of land, see Kialegak Point.

Kialyakvit: bay, see Wide Bay.

Kiam: locality, site of an abandoned mine, at head of McKenzie Inlet, S side of Skowl Arm of Kasaan Bay, Alexander Archipelago; 55° 20' N, 132° 20' W; (map 4). The Kiam post office was established here in 1905 and was transferred to Ketchikan in 1907 or 1908 (Ricks, 1965, p. 33). This former mining camp is not shown on present-day maps. See Khayyam Point.

Kiana Hills: ridge, elev. 1,100-2,600 ft., extends NW 25 miles from Kiana, S of Squirrel River, Brooks Range; 67° 02' N, 160° 53' W; (map 127). Variant: Kyena Hills. Name shown on a 1901 fieldsheet by D. L. Raeburn, USGS, as “Kyena Hills.”

Kiana: village, pop. 253, on right bank of Kobuk River, 28 miles NW of Selawik, Hogatza Highlands 66° 58' N, 160° 26' W; BGN 1945; (map 114). Eskimo village which probably obtained its permanency as a supply center for the Squirrel River placer mines about 1909. Reported by H. M. Eakin, USGS, in 1910. The Kiana post office was established in 1915. The village population was 98 in 1920; 115 in 1930; 167 in 1939; and 181 in 1950.

Kiangolevic Pass: stream, see Kiangolevik Pass.

Kiangolevik Pass: stream, tributary of Black River, heads 4 miles NE of Black, flows NE 20 miles to Acharon Channel, 16 miles NE of Black Yukon-Kuskokwim Delta; 62° 32' N, 165° 04' W; (map 76). Variant: Kiangolevic Pass, Keeang-ol-e-vik Pass. Eskimo name written “Kiangolevic” by G. R. Putnam, USC&GS, in 1899.

Kiank Island: island, see Kinuk Island.

Kiavak Bay: bay, 2 miles across, at mouth of Kaiugnak Bay, on SE coast of Kodiak Island; 57° 01' N, 153° 35' W; (map 34). Variant: Kiawak Bay, Kiyavak Bay, Naumliack Bay, Zaliv Kiyavak. Eskimo name published by Capt. Tebenkov (1852, map 23) as “Zaliv Kiyavak,” or “Kiyavak Bay.” The name “Naumliack” was recorded in 1805 by Lisianski (1814, p. 180).

Kiavak, Cape: point of land, 13 miles NE of Kaguyak on SE coast of Kodiak Island; 57° 00' N, 153° 33' W; (map 33). Variant: Mys Kiyavak. Name published by Capt. Tebenkov (1852, map 23) as “M[ys] Kiyavak,” or “Cape Kiyavak.”

Kiawak Bay: bay, see Kiavak Bay.

Kiawak Inlet: water passage, see Klawak Inlet.

Kiawak: village, see Klawock.

Kiayalegok Mountain: mountain, see Kialegak Mountains.

Kiayankayagak: hill, see Lookout Mountain.

Kichak River: stream, see Kijik River.

Kichak: locality, see Kijik.

Kichakuk: locality, see Klahangamut.

Kichat River: stream, see Kichatna River.

Kichatna Mountains: mountain range, 40 miles long and 16 miles wide, bounded by West Fork Yentna River on NE; Shellabarger Pass and Dillinger River on N; Jones River on W; and Earl River, Simpson Pass, and Kichatna River on S; centered around Cathedral Spires, 70 miles SW of Mount McKinley, Alaska Range; 65° 25' N, 152° 43' W; (map 8). Local name derived from Kichatna River and reported in 1951 by USGS.

Kichatna River: stream, heads at Caldwell Glacier in Cathedral Spires of Kichatna Mountains, 62° 21' 30" N, 152° 43' 00" W, flows SE 55 miles to Yentna River, 47 miles SW of Talkeetna, Alaska Range; 62° 05' 55" N, 151° 30' 05" W; (map 81). Variant: Kee-chat-no, Kichat River. Indian name for stream explored in 1899 by Lt. J. S. Herron, USA; written by him as "Kee-chat-no," meaning "Kichat river."

Kichik River: stream, see Kijik River.

Kichik: lake, see Clark, Lake.

Kichik: locality, see Kijik.

Kichikan: city, see Ketchikan.

Kichlulik: locality, on Talbiksok River 13.5 miles E of Russian Mission, Yukon-Kuskokwim Delta; 61° 45' 25" N, 160° 54' 10" W; (map 73). This name first appears on manuscript map of Kuskokwim-Yukon Portage, dated 1919, by R. H. Sargent, USGS. However, he locates it nearer Kuskokwim on Johnson River. The name probably never applied to more than a cabin or two on the portage trail.

Kichotno, Reka: stream, see Katlitna River.

Kichtak: island, see Kodiak Island.

Kicking Horse River: stream, heads in Garrison Glacier, flows N 5 miles to Chilkat River, 3 miles NW of McClellan Flats and 18 miles SW of Skagway, St. Elias Mountains; 59° 15' 45" N, 135° 37' 30" W; (map 45). Variant: Chalzekahin River, Khaltsekahin River, Khalzekahin River, Katsekahin River. This name was published in 1900 on an Alaska Railroad map. The Tlingit Indian name obtained by Aurel and Aurthur Krause (1883, map) was Chalzekahin. It was given as Khalzekahin by W. H. Dall, USC&GS, in the 1883 Coast Pilot (p. 198), Katsckahin in the 1891 Coast Pilot (p. 202), and Khaltsekahin on Chart 8300 in 1893.

Kickoojit Rocks: rocks, see Kikoojit Rocks.

Kickstep Mountain: mountain, 4,660 ft., in Kenai Mountains on Kenai Peninsula, 14 miles SW of Whittier and 16 miles SE of Sunrise, Chugach Mountains; 60° 45' 10" N, 149° 05' 40" W; BGN 1964; (map 63). Name proposed in 1962 by the Alaska Mountaineering Club for the technique of kickstepping that was used by club members in their ascent of the Mountain. This step is described as a step that is used by a mountaineer traveling up a step slope of material that is neither too hard nor too soft. He progresses by kicking a more or less level step with his foot.

Kidli Mountain: hill, see Kili Mountain.

Kidney Cove: cove, 0.2 miles across, on E shore of Redoubt Bay, 10 miles S of Sitka, on W coast of Baranof Island, Alexander Archipelago; 56° 54' 20" N, 135° 19' 15" W; (map 6). Local fishermen's name reported in 1947 by USC&GS.

Kidney Creek: stream, heads in small lake, in De Long Mountains, flows N 8 miles to Driftwood Creek, 35 miles NNE of Misheguk Mountain, Brooks Range; 68° 43' 10" N, 160° 34' 00" W; BGN 1961; (map 131). Named by USGS geologists in 1951 "for the kidney-shaped lake at its head."

Kidney Hill: mountain, 1,800 ft., center of Kiska Island, Aleutian Islands; 51° 56' 50" N, 177° 21' 58" E; (map 14) An arbitrary name beginning with "K" to correspond to the "K" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Kidney Island: island, 1 mile long, one of Beards lee Islands in Glacier Bay, in Glacier Bay National Monument, 3.6 miles NE of Strawberry Island and 56 miles NW of Juneau, St. Elias Mountains; 58° 32' N, 135° 53, W; BGN 1948; (map 11). Descriptive name given in 1939 by USC&GS because of the island's shape, and published in 1940 on their Chart 8306.

Kieegealigamute: locality, see Kiyakyaliksamiut.

Kiehzulik Bay: bay, see Kujulik Bay.

Kiektaguk: locality, see Klikitarik.

Kieogyaligamiut: locality, see Kiyakyaliksamiut.

Kig-low-aie Range: mountain range, see Kigluaik Mountains.

Kigalga Island: island, see Uliaga Island.

Kigalga, Ostrov: island, see Kagamil Island.

Kigalga: island, see Tigalda Island.

Kigalgin Island: island, see Egg Island.

Kigalgin Island: island, see Uliaga Island.

Kigalgin, Ostrov: island, see Carlisle Island.

Kigalik Creek: stream, see Kigalik River.

Kigalik River: stream, heads near Birthday Pass at 69° 18' N, 156° 47' W, flows W 110 miles and joins Maybe Creek to form Ikpikpuk River, Arctic Slope; 69° 20' 45" N, 154° 42' 30" W, BGN 1954; (map 142). Variant: Kigalik Creek, Kiruilak River. Named by the USGS Expedition of 1924 in reference to the Eskimo village of Kigalik at which Ens. W. L. Howard stopped from May 23 to 30, 1886 (Stoney, 1900, p. 71-72). The present-day Eskimo name for this stream is Kiruilak. The name first appears in 1924 on a fieldsheet by R. K. Lynt, USGS.

Kigalik: locality, village site near head of Ikpikpuk River; 69° 21' N, 154° 40' W; (map 142). Ens. W. L. Howard stopped at this village from May 23 to 30, 1886, on his way from Ft. Cosmos to Point Barrow. The village consisted of 30 tents and 150 Eskimos (Stoney, 1900, p. 71-72). The USGS Expedition of 1924 could find no signs of this settlement (Smith and Mertie, 1930, p. 110).

Kigalmilyakh Island: island, see Chuginadak Island.

Kiganghyne Ile: peninsula, see Kunigiugan.

Kiganin: peninsula, see Kungiugan.

Kigchakok: bay, see Carter Bay.

Kigezruk Creek: stream, flows SW 4 miles to Bering Sea, 12 miles SE of Cape Prince of Wales and 43 miles NW of Teller, Seward Peninsula Highlands; 65° 30' N, 167° 44' W; (map 111). Variant: Kegezruk Creek, Kiryarzark River, Kivyearzruk Creek. Prospectors' name reported in 1900 by Brooks (1901, pl. 13 and p. 135), USGS. In 1899 Schrader and Brooks (1900, map 3) reported the name as "Kivyearzruk" and noted (p. 25) that the gold "discovery was made in June, 1899, by Kivyearuk, a Prince of Wales native, then employed as reindeer herder by W. T. Lopp, a missionary in charge of a Government reindeer station."

Kightak Sichtunak: islands, see Trinity Islands.

Kigigak Island: island, 5 miles across at mouth of Ninglick River, 110 miles W of Bethel, Yukon-Kuskokwim Delta; 60° 50' N, 165° 00' W; (map 58). Eskimo name reported in 1949 by USC&GS.

Kigiktowk Creek: stream, flows NW 4 miles to Chukchi Sea, between Corwin Bluff and Cape Sabine, W of Thetis Mine, 42 miles NW of Mount Kelly, Arctic Slope, 68° 53' 30" N, 164° 51' 00" W; (map 130). Eskimo name meaning "the highest one" reported in 1950 by USC&GS.

Kiglapak Mountains: mountains, 1,070 ft., trend W 2.5 miles from junction of Sphinx Creek and Tunulik River, 4 miles NW of Goodnews Kilbuck-Kuskokwim Mountains; 59° 09' 30" N, 161° 37' 30" W; (map 53). Eskimo name reported to mean "big saw tooth mountains," which refers to the rugged character of the mountains. The name was obtained about 1951 by J. M. Hoare, USGS, from C. B. Michael, missionary at Quinhagak.

Kiglowa: mountain range, see Kigluaik Mountains.

Kiglowwhite: mountain range, see Kigluaik Mountains.

Kigluaik Mountains: mountain range, highest elev. 4,714 ft., trends E-W 40 miles, 30 miles N of Nome, Seward Peninsula Highlands; 64° 57' N, 165° 30' W; (map 94). Variant: Kiglowa, Kig-low-aie Range, Kiglowwhite, Sawtooth Range, Singatook Range. Eskimo name reported in 1927 by Capt. F. W. Beechey, RN, as "Kig-low-aie." The present spelling was reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS. The 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee showed "Sawtooth Range," the name probably used by early prospectors.

Kigmil, Cape: point of land, see Prince of Wales, Cape.

Kigogla: locality, "on Akutan Island." Name published on a 1783 map (Wagner, 1937, p. 465).

Kigoumiut: locality, on N coast of Nunivak Island, W of Iloodak Point, 37 miles SW of Cape Etolin; 60° 13' 50" N, 167° 07' 00" W; (map 57). Eskimo summer camp reported in 1932 by USC&GS.

Kigragak: locality, on an island in Kangnirvik Creek, 22 miles NE of Kivalina, Brooks Range; 68° 02' N, 164° 10' W; (map 130). Variant: Keegragrook, Kiigragraaq. Eskimo name meaning "old path cut through the willows" reported in 1966 by E. S. Burch.

Kigsitatok: locality, "on Agattu Island in Near Islands. "Aleutian Islands; (map 13). Former Aleut village reported as "uninhabited" by Hodge (1907, p. 686), BAE.

Kigtsugtag Mountain: mountain, 1,702 ft., 8 miles N of Beluga Hill and 9 miles NW of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 13' N, 161° 42' W; (map 53). Eskimo name reported in 1954 by USGS.

Kiguga, Cape: point of land, on NW coast of Adak Island, Aleutian Islands; 51° 56' 15" N, 176° 48' 15" W; BGN 1936; (map 17). Aleut name published by Capt. Tebenkov (1852, map 28), IRN, as "M[ys] i Ut[yos] Kiguga," or "Kiguga Cape and Cliff."

Kigul Island: island, 0.5 miles across, off SE coast of Umnak Island, Aleutian Islands; 53° 02' 40" N, 168° 26' 20" W; (map 22). Name published by USC&GS in 1944 Aleutian Coast Pilot (p. 71).

Kigun Bay: bay, 1 mile across, near W tip of Atka Island, Aleutian Islands; 52° 01' 30" N, 175° 18' 00" W; (map 18). Named for Cape Kigun and published by the USC&GS in the 1944 Aleutian Coast Pilot (P 99)

Kigun, Cape: point of land, W tip of Atka Island, Aleutian Islands; 52° 01' 25" N, 175° 20' 20" W; BGN 1936; (map 18). Variant: Kigune, Cape. Name published as "M[ys] Kigun," "Cape Kigun," by Capt. Tebenkov (1852, map 27), IRN, possibly from the Aleut "Kiguk" or "Qiguq," meaning "diver" or "grebe," a species of duck.

Kigunak, Cape: point of land, on N shore of Inanudak Bay, on W coast of Umnak Island, Aleutian Islands; 53° 20' N, 168° 25' W; (map 22). Variant: Mys Kigunakh. Aleut name published by Capt. Tebenkov (1852, map 25), IRN, as "M[ys] Kigunakh," or "Cape Kigunakh."

Kigunakh, Mys: point of land, see Kigunak, Cape.

Kigune, Cape: point of land, see Kigun, Cape.

Kigushimkada, Cape: point of land, on W coast of Umnak Island, Aleutian Islands; 53° 06' 45" N, 168° 48' 10" W; (map 22). Aleut name published by Capt. Tebenkov (1852, map 25), IRN, as "M[ys] Kigushimkada," or "Cape Kigushimkada."

Kiialiakvit, Baie: bay, see Wide Bay.

Kiigragraaq: locality, see Kigragrak.

Kiingyak Lake: lake, 0.5 miles across, at Howard Pass, Brooks Range; 68° 12' 30" N, 156° 58' 00" W; (map 132). Eskimo name obtained at Noatak by Orth in 1956, meaning "face" [kinag].

Kijik Creek: stream, see Kijik River.

Kijik Lake: lake, 2.3 miles long, 3 miles SW of Kijik Mountain and 26 miles NE of Nondalton, Alaska Range; 60° 18' N, 154° 20' W; (map 61). Local name reported in 1954 by USGS; derived from nearby Eskimo village of Kijik. This was the Eskimo name for Lake Clark.

Kijik Mountain: mountain, 3,351 ft., along the NW shore of Lake Clark, 32 miles NE of Nondalton, Alaska Range; 60° 20' N, 154° 14' W; (map 61). Variant: Keejik. Eskimo name reported in 1902 as "Keeghik" and "Keejik" by W. H. Osgood, USDA; derived from the nearby village of Kijik.

Kijik River: stream, flows SW 18 miles to Lake Clark, 29 miles NE of Nondalton, Alaska Range; 60° 17' 20" N, 154° 13' 30" W; BGN 1931; (map 61). Variant: Keeghik River, Keejik Creek, Keejik River, Keghik River, Kejak River, Kichak River, Kichik River, Kijik Creek, Kilchikh River, Nikhkak River. Eskimo name reported in 1902 as "Keeghik" and "Keejik" by W. H. Osgood, USDA; derived from the native name for Lake Clark; published as "Keejik River" in 1903 by USC&GS.

Kijik: lake, see Clark, Lake.

Kijik: locality, on W shore of Lake Clark near mouth of Kijik River, Alaska Range; 60° 18' N, 154° 13' W; (map 61). Variant: Keechik Keeghik, Keejik, Keggik, Keygik, Kichak, Kichik, Kilchik, Kilchikh, Lake Clark Villages, Nijik, Nikhak, Nihkak, Old Keegik. Former Eskimo village reported as "Kichik," population 91, by Ivan Petroff in the 1880 Census, but located on his map on the east shore of Lake Clark. According to A. B. Schanz of the 1890-91 Leslie Expedition "Kilchikh" was the permanent village, located about 9 miles up the Kijik River, and "Nihkak" was the salmon season fishing village on the shore of the lake. Osgood (1904 b, p. 329), USDA, recorded two spellings, "Keeghik," derived from the Eskimo name for Lake Clark, and "Nihkak." Hodge (1907, p. 682 and 687) lists "Kichik," Eskimo village, and "Kilchik," Indian village, both with the 1880 Census population of 91; also (1910, p. 70) "Nihkak" population 40 in 1891 and about 25 in 1904.

Kik-khuigagamute: locality, see Kikuikak.

Kikahe River: stream, flows N 11 miles to Stikine River, 2 miles W of Alaska-Canada boundary, Coast Mountains; 56° 38' 40" N, 131° 53' 40" W; (map 7). Tlingit Indian name reported in 1955 by USGS.

Kikak Creek: stream, flows NE 5 miles to Colville River, 26 miles NE of Umiat, Arctic Plain; 69° 40' 30" N, 151° 27' 50" W; (map 141). Eskimo name reported in 1956 by T. E. Taylor, USGS.

Kikakpak Bluff: bluff, 1,000 ft. high, on E bank of Killik River 9 miles SE of its junction with Colville River, Brooks Range; 68° 57' N, 153° 33' W; (map 133). Eskimo name reported in 1956 by T. E. Taylor, USGS.

Kikalrodik Hill: hill, 300 ft., 21 miles W of Roberts Mountain, 28 miles NW of Cape Mendenhall, Nunivak Island; 60° 00' 30" N, 166° 51' 00" W; (map 57). Variant: Kikhalradikh Hill, Kixalrodix Hill. Eskimo name obtained in 1949 by USC&GS.

Kikartak Rock: rock, see Kikartik Rock.

Kikartamjingia Point: point of land, 15 miles SE of Cape Etolin, on NE coast of Nunivak Island; 60° 19' 40" N, 165° 46' 40" W; (map 57). Eskimo name meaning "triangle's point" reported in 1949 by USC&GS.

Kikartik Rock: rock, in Bering Sea, 0.7 miles NW of Ahrayuksookwit Bluff and 12 miles SW of Cape Etolin, off N coast of Nunivak Island 60° 23' 35" N, 166° 29' 00" W; (map 57). Variant: Kikartak Rock. Eskimo name meaning "island" reported in 1949 by USC&GS.

Kikchik: locality, "on Agattu Island in Near Islands," Aleutian Islands; (map 13). Former Aleut village reported as "uninhabited" by Hodge (1907, p. 687), BAE.

Kikdooli Butte: hill, 739 ft., 16 miles W of Roberts Mountain, 26 miles NW of Cape Mendenhall, Nunivak Island; 60° 03' 15" N, 166° 43' 00" W; (map 57). Variant: Kiokhduli Hill, Kioxdooly Butte. Eskimo name obtained in 1949 by USC&GS.

Kikegtek Island: island, 5 miles long, in Etolin Strait, 8 miles NW of Cape Avinof, 10 miles W of Kipnuk, Yukon-Kuskokwim Delta, 59° 54' N, 164° 18' W; (map 54). Eskimo name reported in 1950 by USC&GS.

Kikertalik Lake: lake, 2.5 miles long, on W coast of Nushagak Peninsula, 37 miles SW of Dillingham, Bristol Bay Lowland; 58° 40' N, 159° 15' W; (map 40). Eskimo name reported in 1952 by USC&GS.

Kikgtagat: mountain, see Island Mountain.

Kikhalradikh Hill: hill, see Kikalrodik Hill.

Kikhikhyakh Hill: hill, see Kikikyak Hill.

Kikhkat: locality, "on lower Yukon River," 2 miles above Akhamut, Yukon-Kuskokwim Delta. Variant: Kykhkat. Former Eskimo camp or settlement reported as "Kykhkat" by Lt. L. A. Zagoskin, IRN, on an 1850 map.

Kikhtak, Ostrov: island, see Fox Island.

Kikhtak, Ostrov: islands, see Martin Islands.

Kikhtak: island, see Kodiak Island.

Kikhtak: locality, on an unidentified island in Kuskokwim River, about 20 miles NE of Bethel Yukon-Kuskokwim Delta; (map 59). Variant: Kikikhtagamiut, Kikkhtagamute, Kiktak. Eskimo settlement, now abandoned, reported in 1878-79 by E. W. Nelson, U.S. Signal Service. He spelled the name "Kikkhtagamute," meaning "island people." Its population was 232 in 1880 and 119 in 1890 (Kikikhtagamiut). The exact location of this place is not known.

Kikhtaknak: island, see Stuart Island.

Kikhtowik: island, see Kodiak Island.

Kikhtuk: locality, see Klikitarik.

Kikiakrorak River: stream, heads at 69° 28' N, 152° 59' W, flows NE 90 miles to Colville River, 30 miles S of Harrison Bay, Arctic Plain; 69° 59' 30" N, 151° 36' 30" W; BGN 1949; (map 141). Eskimo name reported by USGS geologists during exploration of Naval Petroleum Reserve No. 4 in 1947.

Kikiaktaurvik: locality, along Wulick River, 4 miles NE of Kivalina, Kotzebue-Kobuk Low; 67° 46' N, 164° 24' W; (map 128). Variant: Kikiaktowrvick. Eskimo name meaning "spear fishing place" reported in 1966 by E. S. Burch.

Kikiaktowrvick: locality, see Kikiaktaurvik.

Kikikhtagamiut: locality, see Kikhtak.

Kikikhtagyut: town, see Kotzebue.

Kikiktagamute: town, see Kotzebue.

Kikiktak Islands: islands, Oarlock and Tiny Islands, in Dease Inlet, 33 miles SE of Barrow, Arctic Plain; 70° 48' N, 155° 37' W; (map 148). Eskimo name (qiqiqtaq), meaning "island", reported by USC&GS in 1951.

Kikiktak: town, see Kotzebue.

Kikiktalik Rock: rock, 51 ft., 0.3 miles NW of mouth of Ahding River and 40 miles NW of Cape Mendenhall, in Bering Sea, off Nunivak Island; 60° 18' N, 166° 47' W; (map 57). Eskimo name reported in 1937 by USAAF.

Kikiktalik: lake, see Kekiktalik Lake.

Kikiktaruk: locality, see Klikitarik.

Kikiktat Mountain: mountain, 4,126 ft., on N bank of Akmalik Creek, 9 miles NE of Kurupa Lake, Brooks Range; 68° 24' N, 154° 17' W; (map 133). Eskimo name meaning "like an island" reported in 1956 by T. E. Taylor, USGS.

Kikiktat Mountain: mountain, 5,000 ft., 8.5 miles long, on W bank of Hulahula River, 10 miles NW of Mount Michelson, Brooks Range; 69° 26' N, 144° 36' W; BGN 1961; (map 139). Eskimo name meaning "islands," and so called because "the mountain stands out like islands." This name, obtained at Barter Island in 1948, was reported by C. L. Whittington, USGS, in 1960.

Kikiktauralik Lake: lake, 0.4 miles across, 3 miles SE of Kivalina, Kotzebue-Kobuk Lowland; 67° 42' N, 164° 26' W; (map 128). Variant: Kikiktowralick, Qiqiqtauzalik. Eskimo name meaning "little island place" reported in 1966 by E. S. Burch.

Kikiktausgruak Island: island, 2 miles long, in Kuk River, 24 miles S of Wainwright, Arctic Plain; 70° 17' 00" N, 159° 50' 45" W; (map 146). Variant: Kikitasugruak Island. The Eskimo name was recorded in 1956 at Wainwright as "Kikiktasugruak" by T. E. Taylor, USGS, but was misspelled when the map was published in 1963.

Kikiktowralick: lake, see Kikiktauralik Lake.

Kikikyak Hill: hill, 763 ft., 2 miles NE of Ahding Ingrid Mountain, 26 miles NW of Cape Mendenhall, Nunivak Island; 60° 08' 30" N, 166° 31' 50" W; (map 57). Variant: Kixixyax Mountain, Kikhikhyakh Hill, Parker Hill. Eskimo name meaning "island-like" reported in 1949 by USC&GS.

Kikitaliorak Lake: lake, 1 mile long, one of Inyorurak Lakes, 18 miles ESE of Howard Pass, Brooks Range; 68° 07' 30" N, 156° 14' 00" W; (map 132). Eskimo name reported by USGS in 1956, meaning "has an island."

Kikitaruk Mission: town, see Kotzebue.

Kikitasugruak Island: island, see Kikiktausgruak Island.

Kikkhtagamute: locality, see Kikhtak.

Kikku Creek: stream, flows W 2 miles to Kuskokwim Bay, 3 miles S of Kwinhagak and 45 miles NW of Goodnews, Yukon-Kuskokwim Delta; 59° 44' N, 161° 55' W; (map 53). Eskimo name published in 1951 by USGS.

Kikku: locality, see Kiku.

Kikliakliakakate: locality, see Kakliaklia.

Kikluh River: stream, heads 0.5 miles S of 1950 terminus of Bering Glacier, flows 8 miles SW to Gulf of Alaska, 8 miles NE of Cape Suckling and 75 miles SE of Cordova, Malaspina Coastal Plain; 60° 00' 20" N, 143° 50' 00" W; (map 65). Variant: Eightmile Creek, Kee-kluch River, Little Ugalentz River, Reka Malaia Ugalenka. Tlingit Indian name obtained in 1904 by G. C. Martin, USGS, who spelled it "Keekluch." Martin also reported that the prospectors called it "Eightmile Creek." The Russians called it "R[eka] Malaia Ugalenka," meaning "little coal river." From this the 1869 Coast Pilot called it "Little Ugalentz River."

Kiklupiklak Hills: ridge, elev. 1,400 ft., extends 25 miles between Epizetka and Kokolik Rivers, 40 miles SE of Point Lay, Arctic Slope; 69° 16' N, 162° 00" W; (map 145). Eskimo name published by USGS in 1955.

Kikmiksoot Mountain: mountain, see Kikmiksot Mountain.

Kikmiksot Mountain: mountain, 2,285 ft., at head of Tutak Creek, in Mulgrave Hills, 16 miles N of Noatak, Brooks Range; 67° 48' N, 163° 09' W; (map 128). Variant: Kikmiksoot Mountain, Kikmiksut Mountain, Kimiksut Mountain. Eskimo name meaning "resembling heels," according to USC&GS in 1950.

Kikmiksut Mountain: mountain, see Kikmiksot Mountain.

Kikmiktalikamiut: locality, 12 miles SE of Cape Etolin, on NE coast of Nunivak Island; 60° 19' 15" N, 165° 54' 45" W; (map 57). Variant: Kikmixtalixamiut. Eskimo name applies to a shelter cabin; reported in 1949 by USC&GS.

Kikmixtalixamiut: locality, see Kikmiktalikamiut.

Kikneak River: stream, heads in lake at 61° 45' N, 164° 51' W, flows NW 35 miles to Kun River, 11 miles E of village of Scammon Bay, Yukon-Kuskokwim Delta; 61° 49' 30" N, 165° 18' 30" W; (map 75). Eskimo name reported by AMS in 1952.

Kiknik Creek: stream, flows NW 18 miles to Holitna River, 56 miles SW of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 57' N, 157° 43' W; BGN 1948; (map 60). Eskimo name meaning "heel" reported in 1945 by USGS.

Kikoligarak Creek: stream, flows N 4 miles to Chukchi Sea, 25 miles E of Point Franklin, Arctic Plain; 70° 53' 30" N, 157° 42' 30" W; (map 147). Variant: Kikolikarak Creek. Eskimo name that refers in meaning to a "seal hole," reported in 1950 by USC&GS.

Kikolik Creek: stream, flows N 4 miles to Chukchi Sea, 23 miles E of Point Franklin, Arctic Plain; 70° 52' 35" N, 157° 46' 00" W; (map 147). Eskimo name, meaning "seal hole in the ice," obtained in 1956 at Wainwright by Orth.

Kikolikarak Creek: stream, see Kikoligarak Creek.

Kikoojit Rocks: rocks, in Bering Sea, 18 miles SW of Cape Etolin, off N coast of Nunivak Island; 60° 20' N, 166° 39' W, (map 57). Variant: Kickoojit Rocks, Kikujit Rocks. Eskimo name obtained in 1949 by USC&GS.

Kikoyat Creek: stream, flows E 4 miles to Okokmilaga River, 8.4 miles S of mouth of Fire Creek and 39 miles E of Kurupa Lake, Brooks Range; 68° 20' N, 153° 06' W; (map 133). Eskimo name reported in 1956 by T. E. Taylor, USGS.

Kiksa Island: island, see Kiska Island.

Kiktagak: locality, see Klikitarik.

Kiktaguk Bay: bay, see Klikitarik Bay.

Kiktaguk: locality, see Klikitarik.

Kiktak Island: island, 1.5 miles long, in Kuskokwim River, 14 miles NE of Bethel, Yukon-Kuskokwim Delta; 60° 54' N, 161° 25' W; (map 59). Eskimo name reported in 1948 by USC&GS.

Kiktak Island: island, see Fox Island.

Kiktak: locality, see Kikhtak.

Kiktoya Creek: stream, flows S 4.5 miles to Chukchi Sea, 13 miles SE of Cape Thompson Arctic Slope; 68° 03' 56" N, 165° 31' 20" W, BGN 1963; (map 129). Variant: Innutat Creek, Inyooktam Koonga, Keektoya Creek. Eskimo name reported as "Keektoya" in 1952 by U.S. Army Corps of Engineers.

Kiku Islets: islands, see Keku Islets.

Kiku Strait: water passage, see Keku Strait.

Kiku: locality, area between Amungna and Nunavak Bay, 3 miles SW of Barrow, Arctic Plain; 71° 16' N, 156° 51' W; (map 153). Variant: Kikku. Eskimo locality name published by R. F. Spencer (1959, map 2) and spelled "Kikku" by Lt. P. H. Ray (1885, p. 55).

Kikuikak: locality, "at mouth of Kuskokwim River," Yukon-Kuskokwim Delta, Variant: Kikkhuigagamute. Former Eskimo camp or settlement reported by Ivan Petroff as "Kik-khuigagamute," with a population of 9, in the 1880 Census.

Kikujit Rocks: rocks, see Kikoojit Rocks.

Kikukalen Bay: bay, see Erskine Bay.

Kikukali Bay: bay, see Erskine Bay.

Kikukalia Bay: bay, see Erskine Bay.

Kikukalya Bay: bay, see Erskine Bay.

Kikuktok Mountain: hill, 901 ft., at E end of Kokechik Bay, between Kokechik and Lithkealik Rivers, 12 miles SE of Cape Romanzof, Yukon-Kuskokwim Delta; 61° 42' N, 165° 47' W; (map 75). Eskimo name, meaning "like an island," obtained at Hooper Bay by USC&GS in 1951.

Kikun: locality, "on Agattu Island in the Near Islands," Aleutian Islands; (map 13). Former Aleut village reported as "uninhabited" by Hodge (1907, p. 687), BAE.

Kikyukturo: lake, 0.2 miles long, on Chukchi Sea coast, NE of Salt Lagoon and 5 miles NE of Barrow, Arctic Plain; 71° 20' 35" N, 156° 36' 00" W; (map 153). Variant: Kikyuktuktong. Eskimo name recorded in 1883 by Sgt. John Murdoch, naturalist, of Lt. P. H. Ray's Point Barrow expedition. The name is reported to mean "Island pond * * * from one or two little islands (Kikyu'kta) near one end of it." (Murdoch, 1892, p. 28).

Kikyuktuktong: lake, see Kikyukturo.

Kilakalik: stream, see Kisaralik River.

Kilamantavi: locality, see Kilimantavi.

Kilamantavie: locality, see Kilimantavi.

Kilametagagmiut: locality, see Kilimantavi.

Kilamitavik: locality, see Kilimantavi.

Kilangnak Bluff: bluff, extends SE 1 mile from mouth of Tukrok River, along N shore of Kotzebue Sound, 13 miles SE of Cape Krusenstern, Kotzebue-Kobuk Lowland; 67° 09' N, 163° 17' W; (map 128). Variant: Keelyangnak, Qilangnaq. Eskimo name reported in 1966 by E. S. Burch.

Kilauetawin: locality, see Kilimantavi.

Kilaugaurak Spit: spit, see Kilogorak Spit.

Kilauwitawin: locality, see Kilimantavi.

Kilbuck Glacier: glacier, see Chikuminuk Glacier.

Kilbuck Mountains: mountains, 3,000-4,000 ft., in group 95 miles long and 25 miles wide, trends NE-SW, bounded on S by Kwithluk Creek and Canyon Creek, on E by Kipchuk River, on N and W by Kuskokwim River lowlands; 61° 20' N, 159° 50' W [N end], 60° 25' N, 161° 00' W [S end]; BGN 1959; (map 59). Named in 1898 by J. E. Spurr, USGS, after Rev. John H. Kilbuck, Moravian missionary in Alaska 1885-98 and 1921-22.

Kilchik: lake, see Clark, Lake.

Kilchik: locality, see Kijik.

Kilchikh River: stream, see Kijik River.

Kilchikh-vona: lake, see Clark, Lake.

Kilchikh: locality, see Kijik.

Kild-o-gidiinakh-ten: bend, see Long Bend.

Kili Hill: hill, 901 ft., on N bank of Kivalina River, 12 miles NE of Kivalina, Arctic Slope; 67° 52' N, 164° 18' W; (map 128). Variant: Killee, Killi Mountain. Eskimo name reported in 1950 by USC&GS.

Kili Mountain: hill, 900 ft., on W bank of Kivalina River, 11 miles NE of Kivalina, Arctic Slope; 67° 52' 30" N, 164° 18' 00" W, (map 128). Variant: Kidli Mountain, Killi Mountain. Eskimo name reported in 1950 by USC&GS; it may mean "carcass [kidli]."

Kiliahlik Creek: stream, see Kilikralik Creek.

Kiliahlik Point: point of land, see Kilikralik Point.

Kilialik Creek: stream, see Kilikralik Creek.

Kilialik Point: point of land, see Kilikralik Point.

Kilich Point: point of land, on E shore of Kuk River, 15 miles S of Wainwright, Arctic Plain; 70° 26' N, 159° 52' W; (map 146). Eskimo name published in 1958 by AMS.

Kiligmak Inlet: water passage, between Kotlik Lagoon and Chukchi Sea, 15 miles N of Cape Krusenstern, Kotzebue-Kobuk Lowland; 67° 21' N, 163° 50' W; (map 128). Variant: Kiligmiak Inlet, Killigmack, Qiligmiak. Eskimo name reported in 1966 by E. S. Burch.

Kiligmak River: stream, see Kilimak Creek.

Kiligmak: locality, see Kilikmak.

Kiligmiak Inlet: water passage, see Kiligmak Inlet.

Kiliguak Creek: stream, heads W of Ikaknak Pond, flows S 3.6 miles to Ogotoruk Creek, 7 miles E of Cape Thompson, Arctic Slope, 68° 09' 10" N, 165° 42' 15" W; BGN 1963; (map 129). Variant: Mammoth Creek. Eskimo name meaning "carcass" refers to the remains of the Woolly or Northern Mammoth; named in 1963 by personnel of Project Chariot after an earlier name, "Mammoth Creek," was changed because of duplication.

Kilikak, Rochers: rocks, see Kilokak Rocks.

Kilikmak Creek: stream, heads in Igichuk Hills, flows NW 23 miles to Kotlik Lagoon, 15 miles N of Cape Krusenstern, Kotzebue-Kobuk Lowland; 67° 21' N, 163° 49' W; BGN 1962; (map 128). Variant: Kiligmak River. Eskimo name obtained in 1926 by Gerald FitzGerald, USGS.

Kilikmak: locality, on Chukchi Sea coast, near mouth of Kilikmak Creek, 15 miles N of Cape Krusenstern, Kotzebue-Kobuk Lowland; 67° 20' 30" N, 163° 48' 30" W; (map 128). Variant: Kiligmak. Eskimo name for a camp reported in 1926 by Gerald FitzGerald, USGS.

Kilikralik Creek: stream, flows SW 2.5 miles to Chukchi Sea, S of Kilikralik Point, 10 miles S of Cape Dyer, Arctic Slope; 68° 30' 50" N, 166° 17' 45" W; (map 129). Variant: Kiliahlik Creek, Kilialik Creek. Eskimo name reported in 1950 by USC&GS. See Kilikralik Point.

Kilikralik Point: point of land, on Chukchi Sea coast, 10 miles S of Cape Dyer, Arctic Slope; 68° 31' N, 166° 18' W; (map 129). Variant: Kiliahlik Point, Kilialik Point. Eskimo name reported in 1950 by USC&GS to mean "corner"; they spelled it "Ki-li-ah-lik." The present spelling is derived from "Killeegrallik" and was reported by D. C. Foote, in connection with Project Chariot studies.

Kiliktagik Island: island, 1.5 miles long, in Semidi Islands, 1.5 miles NE of Chowiet Island, Aleutian Range; 56° 04' N, 156° 39' W; (map 31). Variant: Keelikhtagikh Island. Native name shown on an 1874 chart as "Keelikhtagikh" by W. H. Dall, USC&GS.

Kiliktakgot Creek: stream, flows W 2 miles to Chukchi Sea, 3 miles N of Cape Dyer, Arctic Slope; 68° 41' 10" N, 166° 09' 55" W; (map 129). Variant: Keelyiktangyawk Creek, Ki-lick-tuk-gowt Creek. Eskimo name reported to mean "jointed" by USC&GS in 1950, who spelled it "Ki-lick-tuk-gowt. "

Kilimantavi: locality, site of Eskimo village, on Chukchi Sea coast, 14 miles SW of Wainwright, Arctic Plain; 70° 29' N, 160° 26' W; (map 146). Variant: Kalummiktowrah, Kelamantowruk, Kelevatowtin, Kilamantavi, Kilamantavie, Kilamentagagmiut, Kilamitavik, Kilauetawin, Kilauwitawin, Kilimantavie, Kilimantavis, Kilimantowruk, Kilyamigtavik, Kolumakturook, Kolumatourok, Kolmaturok. This Eskimo name has been variously spelled by authorities for more than 100 years. The name appears first to have been recorded in Russian by Lt. L. A. Zagoskin, IRN, in 1842-44, as "Kylyamigtavik," and then in 1861 by P. Tikhmeniev as "S[e]lenie] Kilametagagmyut," or "Kilametagag people's village." The 1880 Census recorded the name as "Kolumakturook." John Murdoch, of Ray's "Barrow Expedition" told Marcus Baker in 1890 that the name is probably derived from that of a throwing weapon like a sling or bole. Murdoch (1892, pl. 2) spelled the name "Kilauwitawin" and "Kilanwitawinmium" (p. 44), and in a letter "Ke-lev-a-tow-tin." With the influence of Baker's

“Alaska Dictionary” in 1906 the spelling becomes more standardized in a slightly anglicized form, exemplified by the “i” and “de” endings. The village is now abandoned.

Kilimantavie: locality, see Kilimantavi.

Kilimantavis: locality, see Kilimantavi.

Kilimantowruk: locality, see Kilimantavi.

Kiliouda Bay: bay, see Kiliuda Bay.

Kiliouk Bay: bay, see Kiliuda Bay.

Kiliovilik Creek: stream, flows SW 23 miles to Selawik River, 30 miles SW of Shungnak, Kotzebue-Kobuk Lowland; 66° 30' N, 157° 34' W; (map 115). Eskimo name shown on a 1927 manuscript map by the “trader at Selawik.”

Kiliovilik Range: mountains, 2,021 ft., extend E-W 26 miles on N side of Selawik River, S of Sheklukshuk Range, 22 miles S of Shungnak, Hogatza Highlands; 66° 34' N, 156° 58' W [E end], 66° 32' N, 157° 54' W [W end]; BGN 1966; (map 115). Named in 1965 by W. W. Patton, USGS, for Kiliovilik Creek, which flows through the mountains.

Kiliuda Bay: bay, extends WNW 17 miles off N entrance to Sitkalidak Strait, on SE coast of Kodiak Island; 57° 16' N, 152° 54' W; (map 34). Variant: Bay of Kiluden, Kaliada Bay, Kiliouda Bay, Kiliouk Bay, Kiliudinskoi, Kiliuk Bay, Killuda Bay, Kilutsch Bay, Kilyuda Bay, Kilyndinskoy. Native name recorded in 1805 as “Bay of Kiluden” by Lisianski (1814, map facing p. 169). Baker (1906, p. 365) wrote, “Perhaps it is a corruption of Kiliak, an Aleut word meaning morning, or Kiliak (early in the morning), and Uda (bay).”

Kiliuda Rock: rock, in Kiliuda Bay, at mouth of Santa Flavia Bay, on SE coast of Kodiak Island, 57° 16' 30" N, 152° 53' 10" W; BGN 1930; (map 34). Name derived from Kiliuda Bay; given in 1928 by USC&GS.

Kiliuda: locality, site of Eskimo village, at head of Boulder Bay, on SE coast of Kodiak Island; 57° 22' 30" N, 152° 44' 00" W; (map 34). Variant: Killuda, Killuden, Kiluden. Eskimo name reported as “Killuden” in 1805 by Lisianski (1814, map facing p. 169). The population was 36 in 1880 and 22 in 1890. The name may be derived from the Aleut “Kiliak” (morning) and “Uda” (bay).

Kiliudinskoi: bay, see Kiliuda Bay.

Kiliugmiut, Cape: point of land, see Kuliuk, Cape.

Kiliuk Bay: bay, see Kiliuda Bay.

Kiliuluk: bay, see Kuliliak Bay.

Killaimute villages: sites, the 10th Census in 1880 (1881, p. 4) recorded two Eskimo villages near the head of the Kuk River. These may be the two shown on more recent maps as “Kangik” and “Anaktuk.”

Killak River: stream, flows SW 5 miles to Kobuk River, 30 miles SE of Shungnak, Kotzebue-Kobuk Lowland; 66° 49' N, 156° 05' W; (map 115). Eskimo name obtained in 1956 at Kobuk by Orth.

Killarney Creek: stream, flows S 4.7 miles, joins Blowback Creek to form Baker Creek, 40 miles ESE of Tanana, Yukon-Tanana Highlands; 65° 06' 00" N, 150° 43' 15" W; BGN 1961; (map 106). Prospectors' name reported in 1931 by J. B. Mertie, USGS.

Killarney, Lake: lake, 300 ft. across, on Happy Creek at Ace Creek, 5 miles NW of Fairbanks, Yukon-Tanana Highlands; 64° 52' N, 147° 54' W; (map 100). This name first appears on a location map of the Tanana Mines Railroad dated 1905.

Killdeer Lake: lake, 0.6 miles long, on Kenai Peninsula between Plover and Shadura Lakes, 13 miles NE of Kenai, Cook Inlet Lowland; 60° 43' 00" N, 151° 01' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, probably for the Killdeer or Noisy Plover (*Oxyechus vociferus*), a shore bird, “which makes itself exceedingly useful by destroying great quantities of noxious insects [notably mosquitoes]” (in Pearson, 1944, pt. 1, p. 261).

Killeak Lakes: lakes, on Seward Peninsula, the larger one 2.5 miles long, 43 miles NW of Deering, Kotzebue-Kobuk Lowland; 66° 20' N, 164° 05' W; (map 113). Eskimo name reported in 1950 by USGS.

Killee: hill, see Kili Hill.

Killem Hill: hill, 450 ft., on W coast of Kiska Island, Aleutian Islands; 51° 57' 55" N, 177° 21' 45" E; (map 14). An arbitrary name beginning with “K” to correspond to the “K” grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Killer Bay: cove, 0.4 miles across, on E coast of Resurrection Peninsula, 14 miles SE of Seward, Chugach Mountains; 59° 57' N, 149° 14' W; BGN 1929; (map 49). Named by the 1928 USC&GS field party; “name suggested by a fight between a whale and killer whale witnessed by us.”

Killey Glacier: glacier, on Kenai Peninsula, in Kenai Mountains, heads in Harding Icefield, trends NW 3.7 miles to its 1951 terminus at head of Killey River, 45 miles SE of Kenai, Chugach Mountains; 60° 10' N, 150° 11' W; (map 62). Local name reported in 1951 by USGS; derived from the name of the river.

Killey River: stream, on Kenai Peninsula, heads at Killey Glacier terminus, flows NW 32 miles to Kenai River, 22 miles ESE of Kenai, Cook Inlet Lowland; 60° 29' N, 150° 38' W; (map 62). Variant: Kelley River. Local name reported in 1904 by Moffit (1906, pl. 2), USGS.

Killi Creek: stream, flows N 2.3 miles to Chukchi Sea, 22 miles E of Point Franklin, Arctic Plain; 70° 51' 45" N, 157° 50' 15" W; (map 147). Eskimo name reported in 1950 by USC&GS.

Killi Mountain: hill, see Kili Hill.

Killi Mountain: hill, see Kili Mountain.

Killian Creek: stream, flows SE 8 miles to Lake Nuna Vaugaluk, 30 miles NW of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 19' N, 159° 05' W; (map 53). Eskimo name published in 1951 by USGS.

Killianuk: point of land, see Krusenstern, Cape.

Killigmack: water passage, see Kiligmak Inlet.

Killik Bend: bend, of Colville River S of its junction with Killik River, Brooks Range; 68° 59' N, 153° 57' W; BGN 1949; (map 133). Name shown on 1924 fieldsheet by Gerald FitzGerald, USGS.

Killik Creek: stream, see Killik River.

Killik River: stream, formed by April and Kakivilak Creeks at 68° 02' N, 154° 30' W, flows N 105 miles to Colville River, 52 miles SW of Umiat, Arctic Slope; 69° 01' N, 153° 55' W; BGN 1925; (map 142). Variant: Killik Creek. This Eskimo name first appears about 1885 on a manuscript map drawn on wrapping paper by a Barrow Eskimo. The name was officially reported in 1901 by W. J. Peters and F. C. Schrader, USGS. The modern Eskimo pronounces the stream name "Kitlik," and the people who once lived in the stream's valley are called Kitlikmiut (Rausch, 1951, p. 150, 158).

Killingupak River: stream, see Ikalugtulik River.

Killinupak Mountain: mountain, 1,248 ft., on W coast of Nelson Island, 10 miles NE of Cape Vancouver, Yukon-Kuskokwim Delta; 60° 38' N, 165° 04' W; (map 57). Variant: The Nipple. Eskimo name obtained at Tanunak in 1951 by USC&GS.

Killishoo: locality, see Killisnoo.

Killisnoo Harbor: bay, 0.8 miles across, 2.5 miles S of Angoon, on W coast of Admiralty Island, Alexander Archipelago; 57° 28' N, 134° 34' W; (map 9). Corruption of a Tlingit Indian word which is apparently another form of "Khutz-n' hu" meaning "bear fort." Comdr. R. W. Meade USN, reported the Indian name for the harbor as "Koteosok" (USC&GS, 1883, p. 176). The name probably was derived from the town of Killisnoo about 1882.

Killisnoo Island: island, 1.7 miles long, 2 miles S of Angoon on W coast of Admiralty Island, Alexander Archipelago; 57° 28' 15" N, 134° 36' 00" W; (map 9). Variant: Kenasnow Island, Khutz-n' hu Island. Local name derived from a Tlingit Indian name, a form of the word "Khutz-n' hu," meaning "bear fort" and also the "Kenasnow Island" of Comdr. R. W. Meade, USN. This name was the former Tlingit Indian name of Admiralty Island. The name "Killisnoo Harbor" was probably derived from the town of Killisnoo established on the harbor about 1882.

Killisnoo: islands, see Kootzanhoo Archipelago.

Killisnoo: locality, on E coast of Killisnoo Island, 2 miles S of Angoon, Alexander Archipelago; 57° 28' N, 134° 34' W; (map 9). Variant: Kanas-nu, Kenasnow, Killishoo. Former village established about 1881 when members of the Hutsnuwu tribe of Tlingit Indians were brought from the villages of Angoon and Nahltushkan to work in a fish rendering plant. The village was named for the island. Its population was 79 in 1890; 351 in 1910; 256 in 1920; and 3 in 1930. The Killisnoo post office was established in 1882; discontinued in 1930 (Ricks, 1965, p. 33).

Killkuhn Creek: stream, see Sherrette Creek.

Killooghna Lake: lagoon, see Kiloknak Lagoon.

Killuda Bay: bay, see Kiliuda Bay.

Killuda: locality, see Kiliuda.

Killuden: locality, see Kiliuda.

Kilo Hot Spring: spring, in Ray Mountains, in headwaters of Kanuti Kilolitna River, 37 miles NW of Rampart and 50 miles NE of Tanana, Kokrines-Hodzana Highlands; 65° 48' 40" N, 151° 14' 00"W; (map 106). Named by Orth in 1956 for the Kanuti Kilolitna River.

Kilogorak Spit: spit, in Kivalina Lagoon, 1 mile NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 44' N, 164° 33' W; (map 128). Variant: Keelyowgorack, Kilaugaurak Spit, Qilaugauzaq, Qilaun. Eskimo name meaning "little drum," so called because the spit is almost round, resembling a drum; reported in 1966 by E. S. Burch.

Kilokak Rocks: rocks, in Pacific Ocean, S of Cape Kilokak, on SE coast of Alaska Peninsula 48 miles SE of Ugashik, Aleutian Range; 57° 10' 25" N, 156° 19' 25" W; (map 36). Variant: Rochers Kilikak. Eskimo name for 2 rocks published as "Roc[hers] Kilikak" by Adm. A. J. von Krusenstern, IRN, on an 1827 map corrected in 1835; the name "Kilokak Rocks" was published in 1900 by USC&GS.

Kilokak, Cape: point of land, includes offshore island, S point of entrance to Imuya Bay, on E coast of Alaska Peninsula, 47 miles SE of Ugashik, Aleutian Range; 57° 11' 15" N, 156° 19' 00" W; (map 36). Eskimo name published in 1956 by USGS probably applied because of its nearness to Kilokak Rocks.

Kiloknak Lagoon: lagoon, 8 miles long, 8 miles SW of Northeast Cape, SE coast of St. Lawrence Island; 63° 11' N, 168° 50' W; BGN 1951; (map 93). Variant: Killooghna Lake, Lake Cynthia, Tilounan Naivak. Eskimo name shown on map annotated by Lawrence Kulukhan, of Gambell, in 1944. Orth reported the name "Tilounan Naivak," meaning "mainland lake," obtained at Gambell in 1965.

Kilokuyak Creek: stream, flows NE 4 miles to Takshilik Creek, 50 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 42' N, 161° 00' W; (map 53) Eskimo name published in 1951 by USGS.

Kilooghna: locality, on barrier reef, SE of Kiloknak Lagoon, 10 miles SW of Northeast Cape, St. Lawrence Island; 63° 10' N, 168° 49' W; (map 93). Eskimo name reported in 1932 by O. W. Geist, Univ. of Alaska.

Kiluden, Bay of: bay, see Kiliuda Bay.

Kiluden: locality, see Kiliuda.

Kilulea: bay, see Dease Inlet.

Kilulikpuk Creek: stream, flows NE 13 miles to the Buckland River, 44 miles NE of Haycock, Seward Peninsula Highlands; 65° 50' N, 160° 58' W; (map 109). Eskimo name reported in 1949 by the U.S. Army Corps of Engineers.

Kilusiktok Lake: lake, 4.5 miles long, 22 miles S of Barrow, Arctic Plain; 70° 58' N, 157° 03' W; (map 147). Eskimo name obtained in 1956 at Wainwright by T. E. Taylor, USGS.

Kilutsch Bay: bay, see Kiliuda Bay.

Kilyaktalik Peaks: peaks, 3,000-3,400 ft., in Maiyumerak Mountains of the Baird Mountains, extend NE 10 miles from Eli River, 33 miles NE of Noatak, Brooks Range; 67° 47' N, 161° 40' W; (map 127) Eskimo name obtained in 1955 by U.S. Army Corps of Engineers.

Kilyamigtagvik: locality, see Kilimantavi.

Kilyuda Bay: bay, see Kiliuda Bay.

Kilyudinskoy: bay, see Kiliuda Bay.

Kimball Glacier: glacier, trends E 5 miles to Robertson Glacier, 35 miles NE of Paxson, Alaska Range; 63° 15' 35" N, 144° 30' 30" W; (map 86). Name reported in 1942 by USGS.

Kimball Pass: pass, 5 miles NE of Ernestine and 48 miles NE of Valdez, Chugach Mountains; 61° 30' 45" N, 145° 02' 30" W; (map 68). Name reported in 1898 by Capt. W. R. Abercrombie, USA.

Kimball, Mount: peak, 10,300 ft., at heads of Chistochina and Robertson Glaciers, 30 miles NE of Paxson, Alaska Range; 63° 14' 15" N, 144° 38' 25" W; (map 86). Named in 1885 by Lt. H. T. Allen, USA.

Kimble, Mount: mountain, 2,110 ft., on SW end of Unalaska Island, Aleutian Islands; 53° 22' 28" N, 167° 40' 00" W; (map 23). Name published in 1951 on a USGS map.

Kimbley Creek: stream, heads on S slope of Cripple Creek Mountains, flows SW 5.5 miles to Canyon Creek 2 miles E of its confluence with South Fork Folger Creek, 25 miles NE of Ophir and 35 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 26' 40" N, 156° 05' 20" W; (map 90). Local name obtained from Joseph Ferris in 1954 by R. E. Isto, USGS.

Kimichukhakh Butte: hill, see Kimijooksuk Butte.

Kimickpak: ridge, see Kimikpak Ridge.

Kimickpayaht Koogowranga: stream, see Kimikpeyat Creek.

Kimickpayaht Kookowranga: stream, see Kumikpeyat Creek.

Kimickpowm Koogowranga: stream, see Kimikpak Creek.

Kimijooksuk Butte: hill, 735 ft., 11 miles NE of Roberts Mountain, 26 miles N of Cape Mendenhall, Nunivak Island; 60° 11' 15" N, 166° 11' 00" W; (map 57). Variant: Kimichukhakh Butte, Kimijookxux Hill. Eskimo name meaning "two hills with the same base," according to USC&GS in 1949.

Kimijooksuk Buttes: hill, 460 ft., 14 miles SW of Cape Etolin, on N part of Nunivak Island; 60° 15' 30" N, 166° 21' 10" W; (map 57). See Kimijooksuk Butte.

Kimijookxux Hill: hill, see Kimijooksuk Butte.

Kimikhthakh Hills: hills, see Kimikthak Hills.

Kimikhthek Hill: hill, see Kimiksthek Hill.

Kimikhthorak Hill: hill, see Kimixthoruk Hill.

Kimikpak Ridge: ridge, along Signolik River, 23 miles NW of Kivalina, Arctic Slope; 68° 00' N, 165° 00' W; (map 128). Variant: Kimickpak, Qimiqpak. Eskimo name meaning "long ridge" reported in 1966 by E. S. Burch.

Kimikpak Ridge: ridge, see Knifeblade Ridge.

Kimikpaurauk River: stream, flows 5 miles NE to Pokok Bay, SW of Humphrey Point and 36 miles NW of Demarcation Point, Arctic Plain; 69° 57' 30" N, 142° 34' 30" W; (map 138). Eskimo name recorded on Barter Island by USC&GS in 1952 and reported to mean "big hill." Name probably refers to a large nearby pingo.

Kimikpeyat Creek: stream, flows NE 10 miles to Kivalina River, 24 miles NE of Kivalina, Arctic Slope; 68° 04' N, 164° 18' W; (map 130). Variant: Kimickpayaht Koogowranga; Qimiqpayaat Kuugauzanga. Eskimo name meaning "short ridge" reported in 1966 by E. S. Burch.

Kimikpak Ridge: ridge, see Knifeblade Ridge.

Kimiksthek Hill: hill, 615 ft., 3.5 miles W of Jiskooksuk Hill, 37 miles NW of Cape Mendenhall, Nunivak Island; 60° 06' 25" N, 167° 02' 00" W; (map 57). Variant: Kimikhthek Hill, Kimixthek Hill. Eskimo name obtained in 1949 by USC&GS.

Kimiksut Mountain: mountain, see Kikmiksot Mountain.

Kimikthak Hills: hills, 205 ft., 5. miles S of Cape Etolin, on N Nunivak Island; 60° 21' 20" N, 166° 09' 45" W; (map 57). Variant: Kimikhthakh Hills, Kimixthax Hills. Eskimo name obtained in 1949 by USC&GS.

Kimilogchil' ogh: bluffs, see Red Bluffs.

Kimipak Creek: stream, flows S 3 miles to Kivalina River, 30 miles NE of Kivalina, Brooks Range; 68° 09' N, 164° 11' W; (map 130). Variant: Kimickpowm Koogowranga, Quimiqaum Kuugauzanga. Eskimo name reported in 1966 by E. S. Burch.

Kimipak Ridge: ridge, 10 miles long, between Maybe and Weasel Creeks, 35 miles W of Umiat, Arctic Slope; 69° 13' N, 153° 45' W; (map 142). Variant: Inyugiatchiak Hill. Eskimo name meaning "big ridge" applied to Knifeblade Ridge, but given to this adjacent feature by Orth in 1956 in order to retain the name.

Kimirok Hill: hill, 601 ft., in Igichuk Hills on E bank of Milokrawlok Creek, 9 miles E of Cape Krusenstern, Arctic Slope; 67° 09' N, 163° 23' W; (map 128). Variant: Kimirook Hill, Kimiruk Hill. Eskimo name meaning "ridge (long hill)" according to USC&GS in 1950.

Kimirook Hill: hill, see Kimirok Hill.

Kimiruk Hill: hill, see Kimirok Hill.

Kimit Hills: hills, 500 ft., trend NE 6 miles from Nariksmiut River, 16 miles NW of Roberts Mountain, 18 miles SW of Cape Etolin, on Nunivak Island; 60° 13' N, 166° 30' W; (map 57). Eskimo name obtained by in 1949 by USC&GS.

Kimituk: locality, "on Agattu Island in the Near Islands," Aleutian Islands; (map 13). Former Aleut village reported as "uninhabited" by Hodge (1907, p. 689), BAE.

Kimixthax Hills: hills, see Kimikthak Hills.

Kimixthek Hill: hill, see Kimiksthek Hill.

Kimixthoruk Hill: hill, 426 ft., 33 miles SW of Cape Etolin, on N coast of Nunivak Island; 60° 12' 50" N, 166° 59' 00" W; (map 57). Variant: Kimikhthorak Hill. Eskimo name obtained in 1949 by USC&GS.

Kimklik: locality, see Kiniklik.

Kimok: mountain, see Kemuk Mountain.

Kimouksik Lake: lake, 3.4 miles long, 11 miles SE of Barrow, Arctic Plain; 71° 07' 10" N, 156° 35' 30" W; (map 153). Variant: Kimuksuq Lake. Eskimo personal name recorded at Barrow by Orth, USGS, in 1956.

Kimshan Cove: cove, 0.3 miles across, 1.5 miles N of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 41' 20" N, 136° 07' 00" W; BGN 1922; (map 9). Variant:

Hirst Cove, Mine Cove. Named in 1920 by USC&GS. "Kimshan" is said to be a Chinese name meaning "gold mountain," which refers to Mount Doolth near the head of the cove, on which several gold mines are located. It was originally called Hirst Cove, for Bernard Hirst, a merchant of Sitka who was the principal owner of the mine. The name was reported in 1906 by USC&GS, but in 1908 it was changed to Mine Cove.

Kimuksuq Lake: lake, see Kimouksik Lake.

Kina Cove: estuary, extends SW 1.8 miles off Kasaan Bay, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 30' 45" N, 132° 30' 15" W; (map 4) Local navigators' name reported in 1900 by Lt. Comdr. J. F. Moser.

Kina Creek: stream, flows NE 6 miles through Kina Lake to Kina Cove, on E coast of Prince of Wales Island, E of Twelvemile Arm Kasaan Bay, Alexander Archipelago; 55° 29' 20" N, 132° 31' 20" W; (map 4) Local fisheries name reported in 1897 by Lt. Comdr. J. F. Moser, USN. It appears to be of Indian origin.

Kina Lake: lake, 0.5 miles long, in course of Kina Creek, on Prince of Wales Island, E of Twelvemile Arm Kasaan Bay, Alexander Archipelago; 55° 27' 40" N, 132° 33' 00" W; (map 4). Local fisheries name reported in 1897 by Lt. Comdr. J. F. Moser, USN. See Kina Creek.

Kinagamiut: locality, see Kinak.

Kinagamute: locality, see Kinak.

Kinak Bay: bay, 9 miles across, enters Etolin Strait at mouths of Kinak and Kuguklik Rivers, 9 miles NW of Kipnuk, Yukon-Kuskokwim Bay; 60° 00' N, 164° 12' W; (map 54). Eskimo name obtained in 1951 by USGS.

Kinak Bay: estuary, extends N 8 miles from Cape Atushagvik, on S coast of Alaska Peninsula, in Katmai National Monument 20 miles SE of Mount Katmai, Aleutian Range; 58° 05' N, 154° 24' W; (map 42). Variant: Left Arm Amalik Bay. Eskimo name meaning "face"; reported in 1916 by R. F. Griggs, National Geographic Society.

Kinak River: stream, flows E 20 miles to Kuskokwim River, 43 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 20' N, 162° 33' W; (map 58). Eskimo name meaning "face" reported in December 1878 by E. W. Nelson, U.S. Signal Service.

Kinak: locality, on left bank of Kinak River, 96 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 01' N, 164° 03' W; (map 58). Former Eskimo village or camp, named for the stream; reported in 1949 by USC&GS; "Village now deserted. Some buildings remain."

Kinak: locality, on right bank of Kuskokwim River, 4 miles E of Tuntutuliak and 40 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 22' N, 162° 30' W; (map 58). Variant: Kinagamiut, Kinakamute. Former Eskimo camp or village visited by E. W. Nelson in January 1879. Nelson reported the name to be "Kinagamiut," i.e. "Kinak River people." Its population at that time was about 175. The 1880 Census gives the population as 60; 257 in 1890; and 209 in 1900.

Kinakhulantan Lake: lake, extends NE-SW 1.1 miles, 0.5 miles S of Ham Island and 20 miles NE of Ruby, Nowitna Lowland; 64° 48' N, 154° 51' W; (map 98). Indian name obtained at Ruby in 1956 by Orth.

Kinani Point: point of land, at N end of Tuxekan Narrows on W coast of Prince of Wales Island, 30 miles NW of Craig, Alexander Archipelago; 55° 53' 28" N, 133° 14' 55" W; (map 4). Indian name published in 1964 by USC&GS.

Kinarak Creek: stream, see Amadens Creek.

Kinarak Lake: lake, 4 miles long, 2 miles SE of mouth of Amadens Creek and 90 miles W of Bethel, Yukon-Kuskokwim Delta; 60° 33' N, 164° 17' W; (map 58). Local name reported in 1965 by Orth.

Kinaruk Creek: stream, see Amadens Creek.

Kindergarten Bay: bight, 1.7 miles across, on W coast of Etolin Island, Alexander Archipelago; 56° 12' 15" N, 132° 42' 30" W; (map 6). Local name recorded in 1949 by USGS.

Kineeghit Cape: point of land, see Kineeghit Point.

Kineeghit Point: point of land, 2 miles SW of Eevwak Point, 7 miles SW of Savoonga, N coast of St. Lawrence I; 63° 39' N, 170° 42' W; BGN 1951; (map 93). Variant: Cape Kinnit, Cape Kinnitt, Kineeghit Cape, Kinnit Cape. Eskimo name, of unknown meaning, recommended in 1949 for map use by the Savoonga village council. O. W. Geist, Univ. of Alaska, reported the name "Cape Kinnit" in 1932 and Orth was told by local informants in 1965 that the name of the cliff there is "Kannit," which refers in meaning to the fact that the cliff is "near" the coast.

Kinegnagak: locality, see Razboinski.

Kinegnagamiut: locality, see Razboinski.

Kinegnagmiut: locality, see Kinegnak.

Kinegnak River: stream, flows SW 18 miles to Chagvan Bay, 27 miles NE of tip of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° -49' 15" N, 161° 40' 45" W; BGN 1938; (map 39). Variant: Bales Creek. Eskimo name reported in 1938 by Gerald FitzGerald, USGS, published by Mertie (1940, pl. 1), USGS.

Kinegnak: locality, on S point of Cape Newenham, 39 miles SW of Goodnews, Kilbuck-Kuskokwim Mountains; 58° 39' N, 162° 12' W; (map 39). Variant: Kinegnagmiut, Kniegnagamute. Eskimo village listed in the 1890 Census as "Kinegnagmiut" and "Kniegnagamute," meaning "Kinegnak people." The population in 1890 was 76; the inhabitants "lived in underground huts of driftwood covered with sods." The village is now abandoned.

Kinegnak: village, pop. 20, 1 mile N of Chagvan Bay at junction of Kinegnak River and Kookukluk Creek and 28 miles NE of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 50' N, 161° 40' W; BGN 1938; (map 39). Variant: Old Kinegnak. This village may have been

established by Eskimos from the old village called "Kinegnak" near Cape Newenham. It was reported in 1938 by Gerald FitzGerald, USGS; the name was published by Mertie (1940, pl. 1), USGS.

Kinepagelgut Mountain: mountains, see Kinipaghulghat Mountains.

King City: locality, on W bank of Chisana River, 3.3 miles N of junction of Sheep Creek, Alaska Range; 62° 19' 22" N, 141° 46' 00" W; (map 84). Mining camp reported by USGS in 1960.

King County Creek: stream, on Kenai Peninsula, flows NW 10 miles to Skilak Lake, 29 miles ESE of Kenai, Cook Inlet Lowland; 60° 24' 30" N, 150° 28' 15" W; (map 62). Local name reported about 1911 by G. C. Martin, USGS.

King Cove Cannery: village, see King Cove.

King Cove Lagoon: lagoon, 2 miles long, N of King Cove, 18 miles SE of village of Cold Bay, at SW end of Alaska Peninsula, Aleutian Range; 55° 04' N, 162° 19' W; (map 29). Variant: King Cove. Name published in the 1926 Coast Pilot (p. 210), derived from King Cove.

King Cove: bay, 15 miles across, between Cold Bay and Belkofski Bay, at SW end of Alaska Peninsula, Aleutian Range; 55° 03' N, 162° 19' W; (map 29). Variant: Kings Cove. Local name reported by USGS in 1928. Named "King's Cove" by USBF in 1888.

King Cove: bay, 2 miles across, on SE coast of Afognak Island, 30 miles NE of Afognak, N of Kodiak Island; 58° 12' N, 152° 02' W; BGN 1910; (map 43). Variant: Izhut Bay, Ujut Bay. Local name reported by USC&GS in 1910. "The name is used by some navigators. On some old Russian maps the names Izhut Bay and Ujut Bay were used interchangeably for this bay and one now known as Izhut Bay [8 miles to the southwest]. King Cove is recommended." See Izhut Bay.

King Cove: bay, see Peterson Bay.

King Cove: bay, see Salmon Bay.

King Cove: cove, see Emerald Bay.

King Cove: lagoon, see King Cove Lagoon.

King Cove: village, pop. 290, between King Cove and King Cove Lagoon, 18 miles SE of village of Cold Bay, on SW coast of Alaska Peninsula, Aleutian Range; 55° 03' 20" N, 162° 19' 00" W; (map 29). Variant: King Cove Cannery. Named for its founder, this fishing village has a salmon cannery and a school (Colby, 1939, p. 331); a post office was established in 1914 (Ricks, 1965, p. 34).

King Creek: stream, flows NE 3.5 miles to lake 1 mile SE of Big Lake, 21 miles W of Chandalar, Brooks Range; 67° 28' 15" N, 149° 17' 15" W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

King Creek: stream, flows NW 10 miles to Chickamin River, 6.5 miles NE of Trap Point on Behm Canal, Coast Mountains; 55° 50' 30" N, 130° 51' 00" W; (map 3). Local name reported in 1955 by USGS.

King Creek: stream, flows NW 3 miles to Tibbs Creek 8 miles S of that stream's junction with Goodpaster River and 49 miles ENE of Big Delta, Yukon-Tanana Highlands; 64° 20' N, 144° 16' W; (map 101). Local name published in 1956 by USGS.

King Creek: stream, flows SE 3.5 miles to Hammond River, 5 miles NE of Jesse Mountain, and 17 miles N of Wiseman, Brooks Range; 67° 40' 30" N, 150° 00' 30" W; BGN 1932; (map 124). "Local name after Roy King, an early prospector of the region," reported by Robert Marshall in 1932.

King Creek: stream, flows SE 7 miles to North Fork Kuskokwim River, 37 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 26' N, 153° 46' W; (map 89). Local name reported in 1958 by USGS.

King Creek: stream, flows SW 2.7 miles to Wilson Creek, 6.8 miles E of Marshall, Nulato Hills; 61° 52' 15" N, 161° 52' 30" W; (map 73). Prospectors' name reported by Harrington (1918, map), USGS, in 1916.

King Creek: stream, flows SW 4 miles to O'Brien Creek, 29 miles S of Eagle, Yukon-Tanana Highlands; 64° 21' 30" N, 141° 25' 00" W; (map 102). Local name published in 1956 by USGS.

King Creek: stream, flows W 4 miles to West Fork Chena River, 10 miles NNW of Chena Hot Springs and 75 miles SW of Circle, Yukon-Tanana Highlands; 65° 12' N, 146° 06' W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

King George the Third Archipelago: islands, of the Alexander Archipelago west of Chatham Strait. Named by Capt. George Vancouver, RN, about the end of July, 1794, for the King of England (Wagner, 1937, p. 465).

King Island: island, 1,800 ft. long, in Clover Bay, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 17' 45" N, 132° 09' 45" W; (map 4). Named by local fishermen and reported in 1904 by H. C. Fassett, USBF.

King Island: island, 2 miles across, in Bering Sea, 40 miles W of Cape Douglas and 43 miles S of Cape Prince of Wales, at W end of Seward Peninsula; 64° 58' N, 168° 05' W; BGN 1952; (map 111). Variant: Kings Island, O-kee-buck, Okiben Island, Oo-ghee-a-book Island, Oo-ghee-a-book Island, Oooghe-a-book Island, Oukivok Island, Ukivok Island, Ukiwuk Island, Uviuvok Island. Discovered and named by Capt. Cook (1785, v. 2, p. 442), RN, on August 6, 1778, for Lt. James King, RN, a member of his party. In 1900 the Eskimo name was reported to be "Ukiwuk" by E. W. Nelson, U.S. Signal Service. Published as "Ukivok" by Lt. Sarichev (1826, map 4), IRN.

King Island: village, see Ukivok.

King Lake: lake, 2 miles long, 16 miles S of Point Possession and 29 miles SSW of Anchorage Cook Inlet Lowland; 60° 49' N, 150° 20' W; (map 62). Local name reported in 1951 by USGS.

King Mountain: mountain, 1,115 ft., 6 miles NE of Mount Mordaunt and 40 miles NE of Solomon, Seward Peninsula Highlands; 64° 59' N, 163° 33' W; (map 95). Local name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

King Mountain: mountain, 1,226 ft., 7 miles NE of Nome, Seward Peninsula Highlands; 64° 36' N, 165° 20' W; (map 94). Variant: Anvil Peak, Mount King. Local name reported in 1899 as "Mt. King" by D. C. Witherspoon (in Schrader and Brooks, 1900, map 2), USGS.

King River: stream, heads in York Mountains, flows S 4.5 miles to Bering Sea, 32 miles NW of Teller, Seward Peninsula Highlands; 65° 24' N, 167° 24' W; (map 111). Prospectors' name reported in 1903 by Collier (1904, pl. 2), USGS.

King Salmon Bay: estuary, 2.7 miles long, on E coast of Admiralty Islands, trending SW from mouth of Salmon River to Seymour Canal, 22 miles SW of Juneau, Alexander Archipelago; 58° 01' N, 134° 16' W; BGN 1929; (map 11). Local name reported in 1929 by USFS.

King Salmon Creek: stream, flows SW 47 miles to Naknek River, on Alaska Peninsula, 11 miles SE of Naknek, Bristol Bay Lowland; 58° 41' 15" N, 156° 42' 25" W; (map 41). Local name reported in 1952 by USGS.

King Salmon Creek: stream, heads in lake, flows S 22 miles to Kvichak Bay, 10 miles NW of Naknek, Bristol Bay Lowland; 58° 51' 40" N, 157° 08' 30" W; (map 41). Local name reported in 1952 by USGS.

King Salmon Island: island, 1,900 ft. long, in Egegik River at mouth of King Salmon River, on Alaska Peninsula, 36 miles SW of Naknek, Bristol Bay Lowland; 58° 13' 45" N, 157° 20' 05" W; (map 41). Local name reported in 1952 by USGS.

King Salmon Lake: lake, see Mother Goose Lake.

King Salmon River: stream, formed by confluence of Contact and Takayofu Creeks at SW corner of Katmai National Monument, flows WNW 60 miles to Egegik River, on Alaska Peninsula, 37 miles SW of Naknek, Bristol Bay Lowland; 58° 13' 30" N, 157° 20' 00" W; (map 41). Named in 1902 by W. H. Osgood, USDA.

King Salmon River: stream, heads at 60° 20' N, 158° 28' W, flows E 45 miles to Nashagak River, 100 miles S of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 15' N, 157° 17' W; BGN 1932; (map 60). Local name shown on an 1898 fieldsheet by W. S. Post, USGS.

King Salmon River: stream, on Admiralty Island, flowing E and SE 11 miles to King Salmon Bay, 18 miles S of Juneau, Alexander Archipelago; 58° 02' 30" N, 134° 20' 30" W; (map 11). Local name published in 1951 by USGS.

King Salmon River: stream, on Alaska Peninsula, heads in Mother Goose Lake, flows NW 35 miles to Ugashik River, 7 miles S of Bristol Bay and 8 miles SW of Ugashik, Bristol Bay

Lowland; 57° 30' 00" N, 157° 39' 00" W; (map 36). Local descriptive name reported in 1900 by Lt. Comdr. J. F. Moser, USN, of the USBF steamer Albatross.

King Salmon: village, pop. 227, on the right bank of Naknek River, on Alaska Peninsula, 14 miles SE of Naknek, Bristol Bay Lowland, 58° 41' 30" N, 156° 39' 30" W; (map 41). The King Salmon post office was established in 1949 at King Salmon Air Force Base.

King Slough: water passage, 5 miles long, from North Arm Stikine River to Dry Strait, between Farm and Dry Islands, 11 miles NW of Wrangell, Coast Mountains; 56° 38' N, 132° 28' W; (map 6). Variant: King Slough. Local name recorded in 1951 by USGS.

King Solomon Creek: stream, flows SE 10 miles to join Liberty Fork to form O'Brien Creek, 22 miles S of Eagle, Yukon-Tanana Highlands; 64° 29' 30" N, 141° 11' 15" W; (map 102). Prospectors' name obtained in 1898 by E. C. Barnard, USGS.

King, Mount: mountain, see King Mountain.

King-a-khi: village, see Wales.

Kingaghee: village, see Wales.

Kingaglia Lake: lake, 3.5 miles across, E of Kgun Lake, 53 miles SW of Marshall, Yukon-Kuskokwim Delta; 61° 35' N, 163° 36' W; (map 74). Eskimo name obtained at Bethel by Orth in 1965, and reported to mean "last," referring to the fact that it is the last lake to the west before Kgun Lake.

Kingak Cliff: mountain, 2,255 ft., on S bank of Sadlerochit River, between Kekiktuk River and Arctic Creek, 18 miles N of Mount Michelson, Brooks Range; 69° 33' N, 144° 32' W; (map 139). Not listed by Leffingwell as a geographic name but was written in his text (1919, p. 119). "The Kingak shale has been identified as at only one locality Kingak Cliff, * * * at the southeast end of Sadlerochit Mountains." It is an Eskimo name meaning "nose" and is often applied to the steep end of a ridge.

Kingak Cliff: mountain, see Kingak Hill.

Kingak Hill: mountain, 2,260 ft., between the Hulahula and Sadlerochit Rivers, 19 miles N of Mount Michelson, Brooks Range; 69° 35' N, 144° 22' W; BGN 1961; (map 139). Variant: Kingak Cliff. Eskimo name meaning "nose." See Kingak Cliff.

Kingak Mountain: mountain, 2,972 ft., the E peak of Smith Mountain, 36 miles NNE of Howard Pass, Arctic Slope; 68° 42' N, 156° 24' W; (map 132). Variant: Mount Araga, Smith Mountain. Eskimo name obtained by Orth in 1956, meaning "nose," a common topographic term used for steep-ended ridges or mountains that are of landmark value.

Kingaktakamiut: locality, on N coast of Cape Mendenhall, at mouth of Duchikthluk Bay Nunivak Island; 59° 49' 15" N, 166° 08' 30" W, (map 55). Variant: Klingaktakamute. Eskimo camp reported in 1942 by the USAAF.

Kingasivik Mountains: mountains, 3,410 ft., in DeLong Mountains, 22 miles ESE of Misheguk Mountain Brooks Range; 68° 10' N, 160° 12' W; (map 131). Eskimo name referring to “the high place” obtained at Noatak and Kotzebue by Orth in 1956.

Kingaviksak Mountain: mountain, 3,200 ft., in De Long Mountains, 12 miles NNW of Misheguk Mountain, Brooks Range; 68° 25' N, 161° 23' W; (map 131). Eskimo name referring to a “high place,” reported by USGS in 1956.

Kingegan Mission: village, see Wales.

Kingegan: village, see Wales.

Kingeghee: village, see Wales.

Kinger Creek: stream, flows SW 4 miles to Von Frank Creek, 28 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 29' N, 154° 23' W (map 89). Local name reported in 1910 by A. G. Maddren (in Brooks and others, 1911, pl. 14), USGS.

Kingfisher Creek: stream, flows E 2 miles to Casco Cove on SE coast of Attu Island, Aleutian Islands; 52° 49' 22" N, 173° 09' 45" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II; shown on an AMS map published in 1948.

Kingfisher Creek: stream, flows SW 1 mile to Nenana River, 1 mile NE of village of McKinley Park, Alaska Range; 63° 44' 24" N, 148° 53' 20" W; BGN 1965; (map 87). Named in 1965 by the Alaska Dept. of Highways “for the Kingfisher, the family Alcediridae, a bird seen in area during the summer months.” See Iceworm Gulch.

Kingfisher Point: point of land, E tip of Igitkin Island, Aleutian Islands; 51° 59' 20" N, 175° 48' 25" W; BGN 1936; (map 18). Name published by the USC&GS in the 1944 Aleutian Coast Pilot (p. 103), named for one of the ships of the U.S. Navy Aleutian Island, Survey Expedition of 1934.

Kinghiak: village, see Naknek.

Kingiak: village, see Naknek.

Kingigamute: village, see Wales.

Kingikturak Bank: bank, at S end of Kivalina Lagoon, 1.5 miles SE of Kivalina, Kotzebue-Kobuk Lowland; 67° 43' N, 164° 29' W; (map 128). Variant: Keengiktoorak. Eskimo name meaning “low rise in the ground” reported in 1966 by E. S. Burch.

Kingmetolik Creek: stream, flows N 26 miles to Shaktoolik River, 14 miles NE of Christmas Mountain, Nulato Hills; 64° 41' N, 160° 12' W; (map 96). Variant: Guingmetolik Creek. Eskimo name reported about 1954 by U.S. Army Corps of Engineers.

Kingokakthluk Lake: lake, 2 miles across, at E end of Askinuk Mountains, E of Kawialik Lake, 16 miles SE of village of Scammon Bay, Yukon-Kuskokwim Delta; 61° 44' 30" N, 165° 06' 00" W; (map 75). Eskimo name obtained at Hooper Bay by USC&GS in 1951.

Kingooahlik Ikpick: bluff, see Kinguaglik Ikpik.

Kings Bay: estuary, on E coast of Kenai Peninsula, extends NE 12 miles to head of Port Nellie Juan, 18 miles SE of Whittier, Chugach Mountains; 60° 33' 30" N, 148° 27' 00" W; (map 63). Local name published on recent USGS maps. Probably named for Mr. King who had a cabin at the head of the bay in 1908.

Kings Bay: estuary, see Nellie Juan, Port.

Kings Cove: bay, see King Cove.

Kings Creek: stream, flows SW 1 mile to Elliott Creek, 1.4 miles NW of Iron Mountain and 81 miles NE of Valdez, Wrangell Mountains; 61° 38' 15" N, 144° 03' 50" W; (map 68). Prospectors' name reported in 1903 by W. C. Mendenhall, USGS.

Kings Creek: stream, see Kings River.

Kings Glacier: glacier, heads in Sargent Icefield, trends W 2.5 miles to its terminus, 2.5 miles E of Kings Bay, 24 miles S of Whittier, Chugach Mountains; 60° 26' 15" N, 148° 38' 00" W; BGN 1911; (map 63). Named in 1908 by U.S. Grant, USGS for a prospector who lived at the mouth of Kings River.

Kings Island: island, see King Island.

Kings Lake: lake, 1.3 miles long, in Matanuska Valley, 7.2 miles NW of Palmer, Cook Inlet Lowland; 61° 37' 10" N, 149° 20' 40" W; (map 69). Variant: Fishhook Lake. Local name reported in 1950 by USGS.

Kings Mountain: mountain, 5,809 ft., on left bank of Matanuska River, 22 miles NE of Palmer, Chugach Mountains; 61° 44' 55" N, 148° 30' 30" W; BGN 1906; (map 69). Variant: House Mountain. Name used by prospectors; reported about 1905 by G. C. Martin, USGS. Named for Al King, a prospector who had a cabin at the junction of the Kings River and the Matanuska River.

Kings Point: point of land, on E coast of Kenai Peninsula, on SE shore of Kings Bay, 22 miles S of Whittier, Chugach Mountains; 60° 27' 45" N, 148° 39' 30" W; (map 63). Local name published on recent USGS publications; derived from Kings River.

Kings River: stream, flows S 24 miles to Matanuska River, 15 miles NE of Palmer, Chugach Mountains; 61° 44' N, 148° 45' W; (map 69). Variant: Kings Creek. Local name reported by USGS in 1899. Named for Al King, prospector, who had a cabin at the junction of this and the Matanuska River.

Kings River: stream, flows SE 10 miles to head of Kings Bay, 23 miles S of Whittier, Chugach Mountains; 60° 27' N, 148° 42' W; BGN 1910; (map 63). Local name reported in 1908 by U.S. Grant, USGS, "for a prospector who has a cabin at the mouth."

Kings Slough Island: island, 3 miles long, in Yukon River S of Kings Slough, 25 miles NE of Stevens Village, Yukon Flats; 66° 13' N, 148° 21' W; (map 118). Local name obtained in 1956 by USGS.

Kings Slough Village: locality, on S bank of Yukon River, 26 miles NE of Stevens Village, Yukon Flats; 66° 11' 30" N, 148° 18' 00" W (map 118). Variant: A. E. Co. Camp, Drolette's. Site of a camp reported in 1956 by T. E. Taylor, USGS; the locality was shown as "A. E. Co. Camp" in 1905 by L. M. Prindle, USGS.

Kings Slough: stream, an anabranch of the Yukon River, flows W 5 miles, 24 miles NE of Stevens Village, Yukon Flats; 66° 12' 25" N, 148° 24' 30" W; (map 118). Variant: King's Slough. Probably named by William Yanert who showed it on a 1916 manuscript map of the Yukon Flats (Stuck, 1917, map facing p. 122).

Kingsley Creek: stream, heads SW of Chauik Mountain, flows SW 8.5 miles through Grass Valley To Niukluk River, 5 miles S of Mount Bendeleben and 43 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 06' N, 164° 02' W; (map 110). Variant: Benson Creek. Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Kingsmill Point: point of land, on NW coast of Kuiu Island, 38 miles SE of Sitka, Alexander Archipelago; 56° 50' 00" N, 134° 25' 10" W; (map 5). Named by Capt. George Vancouver, RN, August 1794, "after Vice-Admiral Sir Robert Baker Kingsmill" (Wagner, 1937, p. 393-394).

Kinguaglik Ikpik: bluff, on right bank of Wulik River, 20 miles NE of Kivalina, Arctic Slope; 67° 51' N, 163° 53' W; (map 128). Variant: Kingooahlik Ikpik. Eskimo name meaning "closer riverbank" reported in 1966 by E. S. Burch. See Azigurglik Ikpik.

Kinia River: stream, heads at Dall Lake, flows SW 30 miles to Etolin Strait, 22 miles S of Nightmute and 105 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 11' N, 164° 30' W; (map 58). Variant: Ooksokwak River, Uksukfak River. According to Orth in 1965 the Eskimo name of this stream is "Uksukfak," the same name was reported in 1949 by USC&GS as "Ooksokwak." The name "Kinia" is unknown locally and appears to be a misapplication by USGS of the name "Kinak," which should be applied to the next large stream fifteen miles south.

Kiniaak: village, see Naknek.

Kiniak: village, see Naknek.

Kinicklick: locality, see Kiniklik.

Kinik River: stream, see Knik River.

Kinik: village, see Knik.

Kiniklik Island: island, 0.5 miles across, in Prince William Sound, 36 miles NE of Whittier, Chugach Mountains; 60° 50' 20" N, 147° 37' 45" W; (map 63). Eskimo name published on

recent USGS map s; derived from the now-abandoned native village of Kiniklik on the mainland.

Kiniklik: locality, 0.5 miles N of Kiniklik Island and 37 miles NE of Whittier, Chugach Mountains, 60° 50' 55" N, 147° 37' 30" W; (map 63). Variant: Kimklik, Kinicklick. Eskimo name reported in 1900 by F. C. Schrader, USGS, as "Kinicklick." The village is now abandoned.

Kinipaghulghat Mountains: mountains, 1,820 ft., 10 miles across, 8 miles SW of Northeast Cape, St. Lawrence Island; 63° 15' N, 168° 59' W; BGN 1951; (map 93). Variant: Kanibakhilat, Kanibukhilat Mountain, Kanipakhilat Mountain, Kanipakhilat Mountains, Kinepagelgut Mountain, Kinnipaghulghat Mountain, Kinnipaghulghat Mountains, Kinnipaghulhat Mountains, Kinnypaghulghat Mountain, Mount Kinnipagheelghat. Eskimo name reported in 1932 by O. W. Geist, Univ. of Alaska.

Kink Creek: stream, flows NE 4 miles to The Kink, 40 miles SW of Eagle, Yukon-Tanana Highlands; 64° 23' N, 142° 02' W; (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Kink, The: bend, in North Fork Fortymile River, 40 miles SW of Eagle, Yukon-Tanana Highlands; 64° 23' N, 142° 02' W; (map 102). Local descriptive name reported in 1903 by T. G. Gerdine, USGS, who defined the feature as a bend in the North Fork Fortymile River. "The ridge forming the neck at its lowest point is 100 feet above the stream and the distance across the neck at the base is only 100 feet, while the distance around by stream is 23/4 miles. By blasting a channel through the rock barrier the waters were diverted from their former course and the stream bed was thus laid bare for mining" (Prindle, 1906, p. 25).

Kinkaid Creek: stream, flows NE 15 miles to Galena Creek, 35 miles E of Nulato, Koyukuk Lowland; 64° 39' N, 156° 56' W; (map 97). Local name reported in 1954 by USGS.

Kinkaid Mountain: mountain, see Kinkaid, Mount.

Kinkaid, Mount: mountain, 2,556 ft., on W coast of Baranof Island, 6.5 miles S of Sitka, Alexander Archipelago; 56° 57' 15" N, 135° 19' 15" W; BGN 1940; (map 5). Variant: Gora Chetirekh Ugolnoi Piramidoi, Gora Chetyrekh Ugolnoy Piramidoy, Kinkaid Mountain, Pyramid Peak. Named in 1897 by USC&GS probably for C. A. Kinkaid, a member of the first council elected at Sitka after the transfer of Alaska to the United States. The descriptive name "G[ora] Chetyrekh Ugolnoy Piramidoy," meaning "mountain of four cornered pyramid," was applied to this feature in 1809 by Ivan Vasiliev the first, IRN, and published by Lt. Sarichev (1826, map 19), IRN.

Kinky Island: island, 0.3 miles long, 12 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 47' 20" N, 136° 19' 45" W; (map 9). Named in 1925 by USC&GS; published in 1925 Coast Pilot (p. 322).

Kinnick: village, see Knik.

Kinnipagheelghat Mount: mountains, see Kinipaghulghat Mountains.

Kinnipaghulghat Mountain: mountains, see Kinipaghulghat Mountains.

Kinnipaghulghat Mountains: mountains, see Kinipaghulghat Mountains

Kinnipaghulhat Mountains: mountains, see Kinipaghulghat Mountains.

Kinnit, Cape: point of land, see Kineeghit Point.

Kinnitt, Cape: point of land, see Kineeghit Point.

Kinnorutin Creek: stream, flows from Kinnorutin Pass 2.5 miles E. to Hammond River 36 miles N of Wiseman, Brooks Range; 67° 55' 30" N, 150° 13' 00" W; BGN 1932; (map 124). Marshall (1956, p. 75) wrote, "To commemorate Ernie's and my mistake I gave the name 'Kinnorutin' [Eskimo] (you are crazy) to this pass and creek which flows eastward from it into Hammond River." Their mistake was the misapprehension that a pass between the Clear and Hammond Rivers was actually the Arctic Divide.

Kinnorutin Pass: pass, S of Amawk Mountain, 3 miles E of Apoon Mountain and 36 miles N of Wiseman, Brooks Range; 67° 55' N, 150° 22' W; (map 124). In 1931 Allen, Harvey, and Marshall had mistaken this pass for the Arctic Divide. See Kinnorutin Creek.

Kinnypaghulghat Mountain: mountains, see Kinipaghulghat Mountains.

Kinome Creek: stream, flows E to Nome River, about 12 miles NE of Nome, Seward Peninsula Highlands; (map 94). Prospectors name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Kinsell Slough: stream, flows SW 6 miles to Yukon River N of Eagle Island, Innoko Lowland; 63° 38' N, 159° 22' W; (map 91). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the U.S. Dept. of Interior.

Kinshuda Hill: hill, 2,908 ft., on N bank of Tetlin River, 17 miles SW of Northway, Alaska Range; 62° 54' N, 142° 29' W; (map 84). Tetlin Indian name that means "birch hill;" reported by USGS in 1962.

Kintang Bay: bay, 8 miles wide, extends from Kintang Point to Akoolokok Point, N coast of St. Lawrence Island; 63° 27' N, 169° 48' W; BGN 1951; (map 93). Eskimo name recommended by the Savoonga village council and reported in 1949 by Maj. H. B. Allen, USAF.

Kintang Cape: point of land, see Kintang Point.

Kintang Cape: point of land, see Kintang Point.

Kintang Point: point of land, 25 miles SE of Savoonga, NE coast of St. Lawrence Island; 63° 27' N, 169° 54' W; BGN 1951; (map 93). Variant: Cape Kintange, Kintang Cape. Eskimo name reported in 1932 by O. W. Geist, Univ. of Alaska.

Kintrashibuna Lake: lake, 3.5 miles long, 30 miles NW of Iliamna Volcano and 30 miles NE of Nondalton, Aleutian Range; 60° 12' N, 154° 03' W; BGN 1910; Variant: Brooks Lake, Contlechebna Lake, Kontlalhevena, Kontleehebna Lake, Koonthrashiboona Lake, Kumthrashibuna Lake, Kunthrashiboona Lake, Kunthrashibuna Lake. Tanaina Indian name reported in 1902 as “Koonthrashiboona” by W. H. Osgood, USDA. Early prospectors called it “Brooks Lake.”

Kinuiak: village, see Naknek.

Kinuk Island: island, 3 miles long, at mouth of Noatak River, 8 miles NE of Kotzebue, Kotzebue-Kobuk Lowland; 67° 01' N, 162° 29' W; (map 128). Variant: Kinak Island. Eskimo name meaning “crazy [angry]” according to USC&GS in 1950.

Kinvichavak: stream, see Kvichavak River.

Kinzarof Lagoon: lagoon, 5 miles long, 5 miles NE of village of Cold Bay, at head of Cold Bay, at SW end of Alaska Peninsula, Bristol Bay Lowland; 55° 17' N, 162° 37' W; (map 29). Name reported by USC&GS in 1925.

Kioiix Hill: hill, see Kiolik Hill.

Kiokhduli Hill: hill, see Kikdooli Butte.

Kiokluk Creek: stream, flows N 10 miles to Chineekluk Creek 3.1 miles E of its junction with Holokuk River, 40 miles SW of Sleetmute and 47 miles SE of Anaik, Kilbuck-Kuskokwim Mountains; 61° 22' N, 158° 12' W; BGN 1948; (map 72). Eskimo name taken from mountains in which stream rises; reported in 1945 by USGS.

Kiokluk Mountains: range, 3,500 ft., in Kuskokwim Mountains, SW of Chuilnuk Mountains, extends EW 15 miles E of Holokuk River, 40 miles SW of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 15' N, 158° 09' W; BGN 1940; (map 72). Eskimo name said to mean “rocky mountains”; reported in 1945 by USGS.

Kiolemik River: stream, see Kisaralik River.

Kiolemuk River: stream, see Kasigluk River.

Kioleralik River: stream, see Kisaralik River.

Kiolerulik River: stream, see Kisaralik River.

Kiolik Hill: hill, 425 ft., 5 miles SW of lookswarat Bay and 15 miles SW of Cape Etolin, on N part of Nunivak Island; 60° 17' 30" N, 166° 29' 45" W; (map 57). Variant: Kiolikh Hill, Kiolix Hill. Eskimo name meaning “rocky top,” according to USC&GS in 1949.

Kiolikh Hill: hill, see Kiolik Hill.

Kiougilakh: point of land, see Kiugilak, Cape.

Kiowa, Lake: lake, 800 ft. long, at mouth of Fossil Creek, 9.2 miles NE of Anchorage, Cook Inlet Lowland; 61° 17' 54" N, 149° 40' 10" W; (map 69). Local name reported in 1952 by USGS.

Kioxdooly Butte: hill, see Kikdooli Butte.

Kip-nai-ak: stream, see Black River.

Kip-nee-yog-ok River: stream, see Kipniyagok River.

Kipaiag: ridge, see Kipaiak Ridge.

Kipaiak Ridge: ridge, trends NE 7 miles from head of Kivalina River, 6 miles E of Spiny Ridge and 48 miles SE of Cape Sabine, Brooks Range; 68° 18' N, 163° 43' W; (map 130). Variant: Kipaiag, Kipayahk. Eskimo name reported in 1966 by E. S. Burch.

Kipayahk: ridge, see Kipaiak Ridge.

Kipchuk River: stream, flows N 60 miles to Aniak River 38 miles SE of Aniak, Kilbuck-Kuskokwim Mountains; 61° 03' N, 159° 10' W; (map 73). Variant: Kiptsak River. Eskimo name published as "Kiptsak River" on a 1912 manuscript map of the Kuskokwim Gold Belt by H. W. Reeth. It is reported to mean "little twisting one."

Kipisatkak River: stream, see Epizetka River.

Kipisatkuk River: stream, see Epizetka River.

Kipmik, Lake: lake, 2 miles long, drains NW into Lake Amitchiak, 26 miles SE of Howard Pass, Brooks Range; 67° 57' N, 156° 09' W; (map 126). Eskimo name meaning "heel," reported by Orth in 1956.

Kipniaguk: stream, see Black River.

Kipniak: settlement, see Black.

Kipniarak River: stream, tributary of Kipimgolak, flows NW 8 miles to Black River, 42 miles E of Scammon Bay, Yukon-Kuskokwim Delta; 61° 58' 45" N, 164° 19' 00" W; (map 74). Eskimo name reported by USC&GS in 1951.

Kipniuk: settlement, see Black.

Kipniuk: stream, see Black River.

Kipniyagok River: stream, heads in lake, flows N 15 miles to Black River at Black, Yukon-Kuskokwim Delta; 62° 20' N, 165° 20' W; (map 76). Variant: Kip-nee-yog-ok River, Kripniyagok River. Eskimo name meaning "little Kipnaiak"; reported by G. R. Putnam, USC&GS, in 1899, as "Kripniyagok." The Black River is known in Eskimo as "Kipnaiak."

Kipnuk: village, pop. 221, on left bank of Kuguklik River, 4 miles SE from Kinak Bay, 68 miles W of Quinhagak, Yukon-Kuskokwim Delta; 59° 56' N, 164° 03' W; BGN 1937; (map 54). Eskimo name of a village reported in 1937 by the BIA. "This name has been in use 15 years." Its population was 144 in 1940 and 185 in 1950.

Kipnuktuli Creek: stream, flows S 12 miles to Togiak River, 72 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 32' N, 159° 46' W; (map 53). Eskimo name published in 1951 by USGS.

Kiptsak River: stream, see Kipchuk River.

Kipunaiak: stream, see Black River.

Kipunayak, Protoka: stream, see Black River.

Kipungolak River: stream, heads in lake at 61° 57' N, 163° 26' W, flows W 80 miles to Black River, 37 miles E of Scammon Bay, Yukon-Kuskokwim Delta; 61° 59' N, 164° 21' W; (map 74). Eskimo name reported by USC&GS in 1951.

Kirbas Island: island, 0.8 miles long, 1.5 miles SW of Goodard, in Necker Islands, on W coast of Baranof Island, Alexander Archipelago; 56° 48' 15" N, 135° 24' 40" W; (map 5). Variant: Ostrov Kirbas. Named in 1809 by the Russian navigator, Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Kirbas," or "Kirbas Island."

Kirbas, Ostrov: island, see Kirbas Island.

Kirilof Bay: bight, 2.2 miles wide, 1 mile NW of Constantine Harbor, on Bering Sea coast of Amchitka Island, Rat Islands, Aleutian Islands; 51° 25' 15" N, 179° 15' 00" E; BGN 1937; (map 15). Variant: Kirilovskaia, Kirloff Bay. Russian name given by the navigator Ingenstrem in 1830. Capt. Lutke (1836, p. 324), IRN, called it "Kirilovskaia," as did Capt. Tebenkov (1852, map 30), IRN.

Kirilof Point: point of land, on NW side of Constantine Harbor, SE part of Amchitka Island, Rat Islands, Aleutian Islands; 51° 25' 15" N, 179° 17' 50" E; BGN 1937; (map 15). Named by personnel of U.S.S. Oglala of U.S. Navy Survey Expedition 1935; derived from Kirilof Bay.

Kirilovskaia: bight, see Kirilof Bay.

Kirinskaia Bay: stream, see Sawmill Creek.

Kirinskaya Bukhta: stream, see Sawmill Creek.

Kiriushkin Island: island, see Kirushkin Island.

Kirk Creek: stream, flows NE 9 miles to Minnehaha Creek, 6 miles N of Candle, Kotzebue-Kobuk Lowland; 66° 01' N, 161° 56' W; (map 114). Prospectors' name reported in 1903 by D. C. Witherspoon, USGS.

Kirk Point: point of land, extends S between Foggy Bay and Revillagigedo Channel, Alexander Archipelago; 54° 59' 35" N, 131° 00' 25" W; (map 2). Named in 1883 by Lt. Comdr. Nichols, USN.

Kirloff Bay: bight, see Kirilof Bay.

Kirschner Lake: lake, 1 mile across, 5 miles E of Big Hill and 18 miles W of Augustine Island, Aleutian Range; 59° 25' 30" N, 153° 55' 00" W; (map 51). Name published in 1952 by USGS.

Kiruilak River: stream, see Kigalik River.

Kiruktagiak River: stream, flows NE 40 miles to Chandler River at Tuktu Bluff, 45 miles NW of Anaktuvuk Pass, Arctic Slope; 68° 44' 15" N, 152° 20' 00" W; BGN 1949; (map 134). Eskimo name used by USGS geologists during the exploration of Naval Petroleum Reserve No. 4; name given in 1944.

Kirushkin Island: island, 0.2 miles across, connected to Japonski Island, 1.8 miles SW of Sitka, Alexander Archipelago; 57° 02' 40" N, 135° 23' 00" W; (map 9). Variant: Kiriushkin Island, Ostrov Kiryushkin. Named in 1809 by the Russian navigator Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Kiryushkin," meaning "smelt island."

Kiryarzark River: stream, see Kigezruk Creek.

Kiryushkin, Ostrov: island, see Kirushkin Island.

Kisaralik River: stream, heads at 60° 11' N, 159° 25' W, flows NW 100 miles to Kuskokuak Slough, 20 miles NE of Bethel, Yukon-Kuskokwim Delta; 60° 51' 30" N, 161° 14' 00" W; BGN 1949; (map 59). Variant: Kilakalik, Kiolemik River, Kioleralik River, Kiolerulik River, Kiselalik River, Kiseralik, Kiserolik River. Eskimo name reported in 1914 as "Kiselalik" by P. S. Smith (in Brooks, 1915, pl. 10).

Kisaymaruktuk Mountain: hills, 9 miles N of Kivalina, Arctic Slope; 67° 51' N, 164° 34' W; (map 128). Variant: Keesaymaeruktuk Mountain, Seevoochyam Igaylunggee, Siwutsiam Irialuni. Eskimo name reported as "Keesaymaeruktuk Mountain" in 1960 by D. C. Foote; E. S. Burch reported the name "Seevoochyam Igaylunggee" in 1966.

Kiselalik River: stream, see Kisaralik River.

Kiseralik: stream, see Kisaralik River.

Kiserolik River: stream, see Kisaralik River.

Kishbrock Island: island, 0.2 miles across, off E shore of Favorite Channel, 0.3 miles W of Dotsons Landing and 19 miles NW of Juneau, Coast Mountains; 58° 29' 30" N, 134° 47' 30" W; (map 11). Local name published in 1962 by USGS.

Kishka Island: island, see Kiska Island.

Kishnak, Mys: point of land, see Seal Cape.

Kisimalok Mountain: hill, see Kisimilok Mountain.

Kisimaloq Creek: stream, see Kisimilok Creek.

Kisimeegyuktuk: hill, see Kisimigiuktuk Hill.

Kisimeelahm Koogowranga: stream, see Kisimilat Creek.

Kisimeelahm Koonga: stream, see Kisimilok Creek.

Kisimigiuktuk Hill: hill, 460 ft., S of Kivalina River, 7 miles NE of Kivalina, Arctic Slope; 67° 48' N, 164° 23' W; (map 128). Variant: Kisimeegyuktuk, Kisimigiqtuq, Keesaymalott Mountain. Eskimo name meaning “stands alone” reported in 1960 as “Keesaymalott” by D. C. Foote.

Kisimigiqtuk: hill, see Kisimigiuktuk Hill.

Kisimilaan Kuugauzanga: stream, see Kisimilat Creek.

Kisimilaat: mountain, see Kisimilot Mountains.

Kisimilat Creek: stream, flows NW 6 miles to Kivalina River, 20 miles NE of Kivalina, Arctic Slope; 67° 58' N, 164° 12' W; (map 128). Variant: Kisimeelahm Koogowranga, Kisimilaan Kuugauzanga. Eskimo name reported in 1966 by E. S. Burch.

Kisimilok Creek: stream, heads on Sigrikpak Ridge, flows S 7 miles to Chukchi Sea, 14 miles SE of Cape Thompson, Arctic Slope; 68° 03' 35" N, 165° 29' 25" W; BGN 1963; (map 129). Variant: Joe Ferrerra's River, Keeseemalouk Creek, Keeseemalowk Creek, Kismaloq Creek, Kisimeelahm Koonga, Kisimiloq Creek, Kisimulowk Creek. Eskimo name reported in 1950 by USC&GS as “Kisimulowk”, meaning “poke (bag).”

Kisimilok Mountain: hill, 585 ft., on Chukchi Sea coast, 15 miles SE of Cape Thompson, Arctic Slope; 68° 03' 28" N, 165° 26' 00" W; BGN 1963; (map 129). Variant: Gisamaluk Mountain, Keesemalouk Mountain, Keeseemalowk Mountain, Kisimalok Mountain, Kisimiloq Mountain. Eskimo name meaning “stands alone”; reported in 1950 by USC&GS.

Kisimiloq Creek: stream, see Kisimilok Creek.

Kisimiloq Mountain: hill, see Kisimilok Mountain.

Kisimilot Mountains: mountains, E of Kivalina River, 9 miles NE of Kivalina, Arctic Slope; 67° 56' N, 164° 02' W; (map 128). Variant: Keesaymalott Mountains, Kisimilaat, Kisseemeelaht. Eskimo name meaning “stands alone” reported in 1960 as “Keesaymalott Mountains” by D. C. Foote; so called because Mount Jarvis and the hills surrounding it stand as a group.

Kisimulowk Creek: stream, see Kisimilok Creek.

Kisin: hill, see Kessin Peak.

Kiska Harbor: bay, 1.5 miles across, on E coast of Kiska Island, Aleutian Islands; 51° 58' N, 177° 34' E; BGN 1937; (map 14). Variant: Kyska Harbor. Named for Kiska Island. According to 1944 Aleutian Coast Pilot (p. 6), this is one of five sheltered harbors in the Aleutian Islands.

Kiska Island: island, 24 miles long, one of Rat Islands, Aleutian Islands; 51° 58' 30" N, 177° 30' 00" E; BGN 1890; (map 14). Variant: Grand Kiska Island, Kiksa Island, Great Kysa Island, Kuska, Kishka Island, Kyska, Big Kiska Island, Keeska Island, Saint Stephen, Saint Markiana, Saint Makarius. Aleut name used by the early Russians. Baker (1906, p. 368), USGS, cites W. H. Dall, USC&GS, as giving the meaning as "gut," but Geoghegan (1944, p. 144) gives the word "angig" with that meaning. Golder (1922, p. 199) identifies Kiska with the island seen by Vitus Bering on October 25, 1741 (O.S.), and named by him "St. Markiana (St. Makarius)." See Amchitka Island. Others have correlated Kiska with Bering's "St. Stephen." See Buldir Island.

Kiska Pass: water passage, see South Pass.

Kiska Volcano: volcano, 3,996 ft., at N end of Kiska Island, Aleutian Islands; 52° 06' 35" N, 177° 36' 25" E; BGN 1937; (map 14). Named after Kiska Island and published in 1943 on a USAAF map.

Kislorut Hills: hills, see Kislowrut Hills.

Kislowrut Hills: hills, in Igichuk Hills on E slope of Ingitkalik Mountain, 8 miles E of Cape Krusenstern, Arctic Slope; 67° 10' N, 163° 27' W; (map 128). Variant: Kislorut Hills. Eskimo name meaning "no cover" according to USC&GS in 1950. So called because these low hills are bare of trees.

Kismaliuk Bay: bay, 1.2 miles across, SW coast of Unalaska Island, Aleutian Islands; 53° 27' 30" N, 167° 18' 30" W; BGN 1938; (map 23). Variant: Alimuda Bay, Middle Bay, Zaliv Kismalyuk. Aleut name reported by Lt. Sarichev (1826, map 14), IRN, as "Zal[iv] Kismalyuk," or "Kismalyuk Bay." Baker (1906, p. 93) called this feature "Alimuda Bay."

Kismalyuk, Zaliv: bay, see Kismaliuk Bay.

Kiss Hill: hill, 1,000 ft., on west-central Kiska Island, Aleutian Islands. 51° 56' 22" N, 177° 22' 00" E; (map 14). An arbitrary name beginning with "K" to correspond to the "K" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Kissaiak: locality, on right bank of Togiak River, 9 miles ENE of Kashiagamiut and 66 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 25' N, 159° 50' W; (map 53). Eskimo village or camp reported by Ivan Petroff in the 10th Census in 1880. The place is no longer occupied.

Kissaiakh: locality, see Kashiagamiut.

Kisseemeelaht: mountains, see Kisimilot Mountains.

Kisselen Bay: bay, 0.8 miles across, part of Beaver Inlet, on E coast of Unalaska Island, Aleutian Islands; 53° 42' 20" N, 166° 34' 00" W; BGN 1904; (map 23). Variant: Kissialiak Bay, Warsham Bay, Worsham Bay. Aleut name reported by Lt. Sarichev (1826, map 14), IRN, as "Z[aliv];Kisselen," or "Kisselen Bay," and by Father Veniaminov (1840, v. 1, p. 162) as "Kissyalyak." It was called "Worsham Bay" by USBF in 1888.

Kissiah: locality, see Kashiagamiut.

Kissiak: locality, see Kashiagamiut.

Kissialiak Bay: bay, see Kisselen Bay.

Kisuk Creek: stream, flows NW to Kuzitrin River near its head, about 16 miles SW of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name reported on a precinct map of Seward Peninsula by Monroe and Hutchins; corrected to June 1903 by Arthur Gibson. This stream cannot be precisely located on current maps.

Kiswitno: stream, see Kashwitna River.

Kit Island: island, extends E-W 1.8 miles in Yukon River, 0.2 miles N of Dasha Island and 20 miles NE of Ruby, Nowitna Lowland; 64° 54' N, 154° 56' W; (map 98). Riverboat pilots' name shown on 1940 "Navigation Chart, Tanana-Yukon Rivers" of the River Boat Service, U.S. Dept. of Interior.

Kit Lake: lake, 0.3 miles long, on Kenai Peninsula, 0.8 miles SW of Quill Lake, 20 miles NE of Kenai, Cook Inlet Lowland; 60° 44' 50" N, 150° 46' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Kita Island: island, 0.3 miles across, at mouth of Redoubt Bay, 9 miles SW of Sitka, off W coast of Baranof Island, Alexander Archipelago; 56° 55' 15" N, 135° 26' 00" W; (map 5). Variant: Ostrov Kita. Named in 1809 by the Russian navigator, Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Kita," meaning "whale island."

Kita, Ostrov: island, see Kita Island.

Kitagutak: island, see Ukolnoi Island.

Kitak: locality, "on Agattu Island in the Near Islands," Aleutian Islands; (map 13). Former Aleut village reported as "uninhabited" by Hodge (1907, p. 705), BAE.

Kitalga Island: island, see Chuginadak Island.

Kitalitna Creek: stream, flows NW 17 miles to Grikhdalitna Creek, 1 mile S of that stream's mouth and 16 miles NNE of Hochandochtla Mountain, Kokrines-Hodzana Highlands; 65° 45' 20" N, 154° 44' 20" W; (map 107). Koyukan Indian name obtained at Huslia in 1956 by Orth.

Kitavie Rock: rock, on top of bluff at Whale Point, SE Saint Paul Island, in Pribilof Islands; 57° 07' 30" N, 170° 15' 20" W; (map 38). A name reported by Elliott (1881, p. 53). See Whale Point and Kitovi Rookery.

Kitchen Anchorage: cove, 0.7 miles across, on E side of Belkofski Bay, 24 miles SE of village of Cold Bay, at SW end of Alaska Peninsula, Aleutian Range; 55° 07' 40" N, 162° 07' 00" W; (map 29). Variant: Kitchen Harbor. Name reported by USBF in 1888.

Kitchen Anchorage: lagoon, see Kitchen, The.

Kitchen Harbor: cove, see Kitchen Anchorage.

Kitchen, The: lagoon, 0.4 miles across, part of Caton Cove, in Sanborn Harbor, Nagai Island, in Shumagin Islands, Aleutian Range; 55° 09' 15" N, 159° 59' 45" W; (map 27). Variant: Kitchen Anchorage, Woolly Harbor. Named "Kitchen Anchorage" in 1888 by USBF; published as "The Kitchen" in the 1947 Coast Pilot (v. 2, p. 317).

Kitchikan: city, see Ketchikan.

Kitchlekot: rocks, see Kitleekot Rocks.

Kite Island: island, 0.1 miles across, in Boca de Quadra, 0.5 miles SW of Porpoise Point, Coast Mountains; 55° 05' 20" N, 130° 46' 55" W; (map 3). One of many arbitrary names applied to features in this area in 1891 by USC&GS.

Kiteerahm: hills, see Kitiram Ipitanga Hills.

Kithlevik Slough: stream, see Keoklevik River.

Kitilnguk: bay, see Kittilngook Bay.

Kitingirak Gap: watergap, along Kivalina River, traverses Kitiram Ipitanga Hills, 17 miles NE of Kivalina, Arctic Slope; 67° 57' N, 164° 12' W; (map 128). Variant: Kitingirock, Kitingizaaq. Eskimo name meaning "old skin scraper" reported in 1966 by E. S. Burch.

Kitingirock: watergap, see Kitingirak Gap.

Kitingizaaq: watergap, see Kitingirak Gap.

Kitiram Ipitanga Hills: hill, trends SW 8 miles from Kivalina River, 15 miles NE of Kivalina, Arctic Slope; 67° 55' N, 164° 24' W; (map 128). Variant: Ipeetahnga, Kiteerahm, Kitizaam Ipiitaana. Eskimo name reported as "kiteerahm Ipeetahnga" in 1966 by E. S. Burch.

Kitizaam Ipiitaana: hills, see Kitiram Ipitanga Hills.

Kitkhuk, Cape: promontory, see Scotch Cap.

Kitkonak Hill: hill, 932 ft., 8 miles long, 20 miles E of Cape Lisburne, Arctic Slope; 68° 49' N, 165° 17' W; (map 129). Variant: Kaetkunax Mountain, Kitkonuk Hill. Eskimo name meaning "between [sea and land]" reported in 1956 by Orth.

Kitkonuk Creek: stream, see Nigiktlik Creek.

Kitkonuk Hill: hill, see Kitkonak Hill.

Kitkoon Bay: lagoon, see Kitkun Bay.

Kitkuk, Cape: promontory, see Scotch Cap.

Kitkun Bay: lagoon, 4 miles long, 1.5 miles S of Cholmondeley Sound, on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 11' N, 132° 09' W; (map 4). Variant: Kitkoon Bay. Indian name reported in 1901 by A. H. Brooks, USGS.

Kitleekot Rocks: rocks, 0.5 miles N of Kookoolik Cape, 4 miles E of Savoonga, St. Lawrence Island; 63° 42' N, 170° 21' W; BGN 1951; (map 93). Variant: Kitchlekot, Kukulik Mound, Seal Rocks. Eskimo name recommended by the Savoonga village council and reported in 1949 by Maj. H. B. Allen, USAF.

Kitlik River: stream, in Baird Mountains, flows SE 21 miles to Salmon River 8 miles NW of its junction with Kobuk River, 28 miles NE of Kiana, Brooks Range 67° 14' N, 159° 40' W; (map 127). Eskimo name obtained in 1955 by U.S. Army Corps of Engineers.

Kitluk River: stream, on Seward Peninsula, heads at Devil Mountain Lakes, flows NE 15 miles to Chukchi Sea, 58 miles NW of Deering, Kotzebue-Kobuk Lowland; 66° 35' N, 164° 23' W; (map 113). Eskimo name obtained in 1950 by USGS.

Kitnagak Bay: bay, 2 miles wide, between Kitnagak and Seevoo Points, N coast of St. Lawrence Island; 63° 20' N, 168° 54' W; BGN 1951; (map 93). Variant: Kittnighak, Kittnighnak Bay. Eskimo name recommended by the Gambell village council and reported in 1949 by Maj. H. B. Allen, USAF.

Kitnagak Point: point of land, 8 miles WNW of Northeast Cape, N coast of St. Lawrence Island; 63° 20' N, 168° 56' W; BGN 1951; (map 93). Variant: Kittnighhak Cape. Eskimo name reported in 1932 by O. W. Geist, Univ. of Alaska.

Kitnepaluk Creek: stream, flows NW 3 miles to Bering Sea, 0.2 miles E of Savukahuk Point and 14 miles S of Gambell, St. Lawrence Island; 63° 35' N, 171° 49' W; BGN 1951; (map 93). Variant: Ketngepaluk River, Kitnepaluk River, Kitngeepalok. This stream borrows its name from a camping place at its mouth. The name was shown on an annotated map made by Lawrence Kulukhan, of Gambell, in 1944.

Kitnepaluk River: stream, see Kitnepaluk Creek.

Kitnepaluk: locality, 20 miles S of Gambell, on W coast of Saint Lawrence Island; 63° 33' N, 171° 50' W; (map 93). Variant: Kitngeepalok, Okilerit. (map 93). According to Orth, in 1965, the Eskimo apply the name "Kitnepaluk" to an area around Savukahuk Point which now is a coastal camp, and the site of an old village. The Eskimo call the place described above "Okilerit."

Kitngeepalok: locality, see Kitnepaluk.

Kitngeepalok: stream, see Kitnepaluk Creek.

Kitnik Mountain: mountain, 1,133 ft., on Nelson Island, 3 miles SE of Cape Vancouver, Yukon-Kuskokwim Delta; 60° 31' N, 165° 21' W; (map 57). Eskimo descriptive name meaning "heel" obtained at Tanunak in 1951 by USC&GS.

Kitnik River: stream, heads at Atuk Mountain, flows N 6 miles to Bering Sea 2 miles SE of Savoonga, St. Lawrence Island; 63° 41' N, 170° 24' W; BGN 1951; (map 93). Variant: Ketnik River, Kittnik River. Eskimo name recommended by the Savoonga village council and reported in 1949 by Maj. H. B. Allen, USAF.

Kitnik, Cape: point of land, 17 miles SE of Savoonga, NE coast of St. Lawrence Island; 63° 33' N, 170° 03' W; (map 93). Variant: Cape Kittnik. Eskimo name reported by USC&GS in 1925.

Kitoi Bay: cove, 0.5 miles across, on SE coast of Afognak Island, 20 miles NE of Afognak, Kodiak Island; 58° 11' 30" N, 152° 21' 00" W; (map 43). Local name published in 1943 by USC&GS.

Kitoi Island: island, see Whale Island.

Kitovaya, Bukhta: bay, see Whale Bay.

Kitovey, Ostrov: island, see Whale Island.

Kitovi Island: island, see Whale Island.

Kitovi Point: point of land, see Whale Point.

Kitovi Rookery: rookery, on Whale Point, on SE coast of Saint Paul Island, in Pribilof Islands; 57° 07' 30" N, 170° 15' 20" W; (map 38). Variant: Keetavie Rookery, Ketavie Rookery. A local Russian name "Kitovyy" meaning "of a whale" spelled "Keetavie" and "Ketavie" by Elliott (1881, p. 52-53, and Saint Paul notes). It is named for Whale (Kitovi) Point. This seal rookery has 2,200 ft. of sea-margin.

Kitoy, Ostrov: island, see Whale Island.

Kitschkhin: stream, see Ketchikan Creek.

Kitschotno, Reka: stream, see Katlitna River.

Kitskan: city, see Ketchikan.

Kitten Creek: stream, flows NW 1 mile to Kernel Cove, west-central Kiska Island, Aleutian Islands; 51° 57' 08" N, 177° 21' 25" E; (map 14). An arbitrary name beginning with "K" to correspond to the "K" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Kitten Pass: water passage, 500 ft. wide, between Rabbit Island and Outer Island, in Pye Islands, 48 miles ESE of Seldovia, Chugach Mountains; 59° 21' 30" N, 150° 22' 40" W; BGN 1929; (map 50). Named by USC&GS in 1927; suggested by nearby Wildcat Pass.

Kittens, The: islands, two islands in Lynn Canal, 0.8 miles NW of Clear Point on Mansfield Peninsula and 19 miles SW of Juneau, Alexander Archipelago; 58° 15' N, 134° 56' W; (map 11). Named by Lt. Comdr. H. B. Mansfield, USN, and published by the USC&GS in the 1891 Coast Pilot (p. 161).

Kittlingook Bay: bay, between Northwest Cape and Chibukak Point, N of Gambell, N coast of St. Lawrence Island; 63° 48' N, 171° 43' W; BGN 1951; (map 93). Variant: Kitilnguk, McNichol Bay. O. W. Geist, Univ. of Alaska, shows this name on his 1932 sketch map of St. Lawrence Island Orth spelled the name "Kitilnguk" in 1965 and was told by the Eskimo at Gambell that it is an old name, now without meaning.

Kittiwake Island: island, see Whale Island.

Kittiwake Pond: lake, elev. 720 ft., 0.2 miles across, on Buldir Island, Aleutian Islands; 52° 22' N, 175° 55' E; (map 14). Named by Coats (1953, p. 8), USGS, presumably for the Pacific Kittiwake (*Rissa tridachyla pollicaris*), a gull-like bird.

Kittnighak: bay, see Kitnagak Bay.

Kittnighak Cape: point of land, see Kitnagak Point.

Kittnighnak Bay: bay, see Kitnagak Bay.

Kittnik River: stream, see Kitnik River.

Kittnik, Cape: point of land, see Kitnik, Cape.

Kitty Lake: lake, 2,500 ft. long, NE of Coal Creek Lake, 34 miles NW of Tyonek, Cook Inlet Lowland; 61° 32' 10" N, 151° 30' 15" W; (map 70). Local name reported in 1954 by USGS.

Kiuchman Rock: rock, at head of Mitchell Bay, in W central Admiralty Island, 8.8 miles NE of Angoon, Alexander Archipelago; 57° 33' 10" N, 134° 22' 00" W; (map 9). Local name reported in 1951 by USGS.

Kiugilak, Cape: point of land, on SW coast of Great Sitkin Island, Aleutian Islands; 52° 00' 05" N, 176° 11' 15" W; BGN 1936; (map 17). Variant: Kiougilakh. Aleut name reported by the North Pacific Exploring Expedition in 1855 as "Kiougilakh" and shortened to "Kiugilak" by the U.S. Navy Hydrog. Office in 1936.

Kiuglugtulit Mountain: mountain, 1,650 ft., with 3 peaks, 4 miles SW of Tatlignagpeke Mountain, 15 miles N of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 19' 30" N, 161° 35' 00" W; (map 53). Eskimo name reported in 1954 by USGS.

Kiukhlipalik Island: island, see Kiukpalik Island.

Kiukhpalik Island: island, see Kiukpalik Island.

Kiuklipalik Island: island, see Kiukpalik Island.

Kiukpalik Island: island, 1.4 miles long, in Shelikof Strait, off NE coast of Alaska Peninsula, in Katmai National Monument, 13 miles NE of Cape Chiniak, and 49 miles S of Augustine Island, Aleutian Range; 58° 35' N, 153° 34' W; BGN Sixth Report; (map 43). Variant: Kaiuklipalik Island, Kiukhlipalik Island, Kiukhpalik Island, Kiuklipalik Island, Ukayukhpalyk Island. Eskimo name transliterated by USC&GS in 1886 from Capt. Tebenkov (1852, map 22), IRN, who published the name as "O[strov] Kayukhpalik." The Russian Hydrog. Dept. published the name as "Os[trov] Ukayukhpalyk" in 1847 on Chart 1378.

Kiuniniu Tanani: island, see Big Koniuji Island.

Kivaleek: water passage, see Kivalik Inlet.

Kivaleena River: stream, see Kivalina River.

Kivaleenahrum Tessaya: lagoon, see Kivalina Lagoon.

Kivalena River: stream, see Kivalina River.

Kivalena: village, see Kivalina.

Kivalik Inlet: water passage, between Kivalina Lagoon and Chukchi Sea, 5 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 47' N, 164° 41' W; (map 128). Variant: Kivaleek, Kiwaliik. Eskimo name reported in 1966 by E. S. Burch.

Kivalina Lagoon: lagoon, 10 miles long, on Chukchi Sea coast, NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 47' N, 164° 07' W; BGN 1962; (map 128). Variant: Corwin Lagoon, Kivaleenahrum Tessaya, Tasikapak. Local name reported in 1950 by USC&GS. It was called "Corwin Lagoon" by USC&GS in 1884, after the Revenue Cutter Corwin.

Kivalina River: stream, heads in De Long Mountains E of Spring Ridge, flows SW 60 miles to Kivalina Lagoon, and 6 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 48' N, 164° 39' W; BGN 1905; (map 128). Variant: Kavalina River, Kevuleek River, Kevulik River, Kivaleena River, Kivalena River, Kivalinyah River, Kiveleena River, Kivilenya River, Kuveleek River, Kwelow River. Eskimo name spelled "Kuveleek" by Lt. G. M. Stoney (1900, map), USN, in 1885. A. J. Collier, USGS, reported the present spelling in 1904.

Kivalina: village, pop. 142, on barrier reef between Chukchi Sea and Kivalina Lagoon, 43 miles NW of Noatak and 47 miles NW of Cape Krusenstern, Kotzebue-Kobuk Lowland; 67° 43' 40" N, 164° 32' 30" W; BGN 1944; (map 128). Variant: Kevuleek, Kevulik, Kivalena, Kivalinak, Kivalinyah, Kivalinagmiut, Kivelow, Kivilenya, Kuveleek, Kiveleena, Kivualinak, Kivualinagmut. Eskimo village originally located at the north end of the lagoon; reported in 1847 by Lt. L. A. Zagoskin, IRN, who gave its name as "Kivualinagmut." The village population was 87 in 1920; 99 in 1930; 98 in 1939; and 117 in 1950. The Kivalina post office was established in 1940.

Kivalinagmiut: locality, see Cape Seppings.

Kivalinagmiut: village, see Kivalina.

Kivalinak: village, see Kivalina.

Kivalinge: locality, see Cape Seppings.

Kivalinyah River: stream, see Kivalina River.

Kivalinyah: village, see Kivalina.

Kiveepuk Bay: bay, 2 miles across, between Kineeghit Point and Eewak Point, 7 miles SW of Savoonga, N coast of St. Lawrence Island; 63° 39' 30" N, 170° 41' 00" W; BGN 1951; (map 93). Variant: Kavipak, Kivipak. Eskimo name reported by Orth in 1965 as "Kavipak" and meaning "jammed" or "packed in," presumably referring to ice. The "Kiveepuk" spelling is found on a map annotated in 1944 by Lawrence Kulukhan of Gambell.

Kiveleena River: stream, see Kivalina River.

Kivellena: village, see Kivalina.

Kivelow: village, see Kivalina.

Kividlo: locality, on Seward Peninsula, on bar between Shishmaref Inlet and Chukchi Sea, 65 miles NW of Deering, Kotzebue-Kobuk Lowland; 66° 32' N, 164° 45' W; (map 113). Eskimo camp reported in 1950 by USGS. The name is applied to a site having two or three buildings.

Kivilenya River: stream, see Kivalina River.

Kivilenya: village, see Kivalina.

Kivipak: bay, see Kiveepuk Bay.

Kivirlik Inlet: water passage, see Kukpowruk Pass.

Kivivik Creek: stream, heads in Maiyumerak Mountains of Baird Mountains, flows NW 19 miles to Noatak River 2 miles SE of its junction with Kugururok River, 40 miles NE of Noatak, Brooks Range; 67° 58' N, 161° 51' W; (map 127). Eskimo name meaning "going away for good," or "disappears," obtained in 1956 at Noatak by Orth. Name given because a woman and child who used this stream as a short-cut to the Eli River disappeared.

Kivliktort Mountain: mountain, 4,500 ft., in Brooks Range, 10 miles NE of Howard Pass; 68° 17' N, 156° 30' W; (map 132). Eskimo name obtained at Noatak by Orth in 1956, and reported to mean "real shiny."

Kivualinagmut: village, see Kivalina.

Kivualinak: village, see Kivalina.

Kivvichavak: stream, see Kvichavak River.

Kivyearzruk Creek: stream, see Kigezruk Creek.

Kiwaliik: water passage, see Kivalik Inlet.

Kivalik Lagoon: lagoon, at mouth of Kivalik River, 65 miles SW of Selawik and 4 miles NE of Candle, Kotzebue-Kobuk Lowland; 66° 00' N, 161° 51' W; (map 114). Eskimo name derived from the river, shown on a 1902 field sheet by D. C. Witherspoon, USGS.

Kivalik Mountain: mountain, 2,365 ft., 6 miles S of Monument Mountain and 26 miles SE of Imuruk Lake, Seward Peninsula Highlands; 65° 36' N, 162° 13' W; (map 110). Prospectors' name derived from the river; reported in 1903 by D. C. Witherspoon (in Moffit, 1905, pl. 2), USGS.

Kivalik River: stream, flows NW 58 miles to Mud Creek Channel Kivalik River, 55 miles NW of Haycock, Seward Peninsula Highlands; 65° 56' N, 161° 53' W; (map 109). Variant: Kee-wa-lik River. Eskimo name published by the British Admiralty about 1880 on Chart 593, spelled "Kee-wa-lik."

Kivalik: village, pop. 10, on NE coast of Seward Peninsula, between Spafarief Bay and Kivalik Lagoon, Kotzebue-Kobuk Lowland, 66° 02' N, 161° 50' W; (map 114). Variant: Keewalick, Keewalik, Kualiuug-miut, Kualyugmut, Kugaluk, Kugalukmut, Kugalukmute. Eskimo village named for the Kivalik River reported in 1850 as "Kualiuug-muit" by Lt. L. A. Zagoskin, IRN, and published in 1852 on Russian Hydrog. Dept. Chart 1455. Recorded in the 1880 Census as "Kugalukmute," population 12. About 1890 this village became a supply point for mining activities in the Candle area. The Keewalik post office was established in 1902 and operated intermittently until 1907. The population, 12 in 1930, had increased to 24 in 1940.

Kiwaruk Pass: pass, see Kiwook Pass.

Kiwaruk: stream, see Kewagek Creek.

Kiwoak Pass: pass, see Kiwook Pass.

Kiwook Pass: pass, 510 ft., between Olngooseenuk Mountain and Taphook Mountain, 20 miles SE of Gambell, St. Lawrence Island; 63° 34' N, 171° 18' W; BGN 1951; (map 93). Variant: Kiwaruk Pass, Kiwoak Pass, Lowpal Pass. Eskimo name reported in 1932 by O. W. Geist, Univ. of Alaska. The name was recorded at Gambell by Orth in 1965 as "Kiwaruk," meaning "growing river," the same name as that of the stream that heads in the pass and flows NW.

Kixalrodix Hill: hill, see Kikalrodik Hill.

Kixixyax Mountain: hill, see Kikikyak Hill.

Kiyakyaliksamiut River: stream, flows SW 13 miles to Bering Sea, 32 miles NW of Cape Mendenhall, Nunivak Island; 59° 59' 30" N, 167° 02' 30" W; (map 55). Variant: Kiyakyalixamiut-Koweerat River. Eskimo name obtained in 1949 by USC&GS.

Kiyakyaliksamiut: locality, on left bank of Kiyakyaliksamiut River, 32 miles NW of Cape Mendenhall, on Nunivak Island; 59° 59' 45" N, 167° 02' 30" W; (map 55). Variant: Kieegeegaligamute, Kieogyaligamiut. Eskimo name reported about 1949 by USC&GS.

Kiyakyalixamiut-Koweerat River: stream, see Kiyakyaliksamiut River.

Kiyavak Bay: bay, see Kiavak Bay.

Kiyavak, Mys: point of land, see Kiavak, Cape.

Kiyavak, Zaliv: bay, see Kiavak Bay.

Kizhuchia Creek: stream, flows NW 5.5 miles to N shore of Redoubt Bay, 8 miles S of Sitka, on W coast of Baranof Island, Alexander Archipelago; 56° 56' 10" N, 135° 21' 10" W; (map 5). Variant: Reka Kizhuchya. Named in 1809 by the Russian navigator, Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "R[eka] Kizhuchya," or "Kizhuchya River."

Kizhuchya, Reka: stream, see Kizhuchia Creek.

Kizhuitskoy, Mys: point of land, see Kizhuyak Point.

Kizhulik, Zaliv: bay, see Kujulik Bay.

Kizhunak: stream, see Kashunuk River.

Kizhunok: stream, see Kashunuk River.

Kizhutskoi: point of land, see Kizhuyak Point.

Kizhuyak Bay: bay, extends SW 20 miles off Marmot Bay, E of Whale Island, on N coast of Kodiak Island; 57° 56' N, 152° 40' W; (map 34). Variant: Kizhuyakskaia, Shakmanof, Zaliv Shakhmanova ili Bukhta Kizhuyakskaya. Native name published by Capt. Tebenkov (1852, map 23), IRN, as "B[ukhta] Kizhuyak," or "Kizhuyak Bay." This name was taken from "Z[aliv] Shakhmanova ili Bukhta Kizhuyakskaya," "Shakmanor or Kizhuyak Bay," given in 1839 or 1840 by Sub Lt. Murashev, IRN, and published in 1849 on Russian Hydrog. Dept. Chart 1425.

Kizhuyak Point: point of land, E point of entrance to Kizhuyak Bay, 12 miles NW of Kodiak Island; 57° 55' 15" N, 152° 36' 30" W; (map 34). Variant: Kizhutskoi, Kizhuyak Cape, Mys Kizhuitskoy, Mys Kizhuyak. Native name published by Tebenkov (1852, map 23) as "M[ys] Kizhuyak," "Cape Kizhuyak." The name "M[ys] Kizhuitskoy" was given to this point in 1839 or 1840 by Murashev and published in 1849 on Russian Hydrog. Dept. Chart 1425.

Kizhuyakskaia: bay, see Kizhuyak Bay.

Kizhuyakskaya, Bukhta: bay, see Kizhuyak Bay.

Kkhaltel: village, see Kaltag.

Kkholikakat: locality, see Tleket.

Kl-changamute: locality, see Klchakuk.

Klach Creek: stream, see Klak Creek.

Kladbitsha: point of land, see Graveyard Point.

Kladein Flats: tidal flats, on W coast of Prince of Wales Island at mouth of Staney River, 24 miles N of Craig, Alexander Archipelago; 55° 49' N, 133° 10' W; (map 4). Indian name published in 1964 by USC&GS.

Klag Bay: bay, 2.5 miles long, at Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 38' N, 136° 06' W; BGN 1908; (map 9). Variant: Klagh Bay. Local Tlingit Indian name reported by USC&GS in 1908 and published in 1908 Coast Pilot (p. 173).

Klag Island: island, 1 mile long, 3 miles S of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 37' 00" N, 136° 05' 30" W; BGN 1908; (map 9). Variant: De Groff Island. Named in 1908 by USC&GS probably for Klag Bay at the mouth of which it is located. The name was published by USC&GS in 1908 Coast Pilot (p. 172). It was originally named "De Groff Island" by Lt. Comdr. E. K. Moore, USN, in 1897 for "De Groff, a prominent Sitka merchant."

Klagh Bay: bay, see Klag Bay.

Klahangamut: locality, see Klchakuk.

Klahangamut: locality, W of Nanvakfak Lake, 16 miles W of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 08' N, 161° 57' W; (map 53). Variant: Kichakuk, Kl-changamute. Eskimo village first mentioned in 1880 by Ivan Petroff in the 10th Census in 1880 as "Klchangamute," meaning "Klchank people." Its population in 1880 was 18; in 1890, 49; it is now abandoned.

Klaheela River: stream, see Klehini River.

Klaheena River: stream, see Klahini River.

Klahena River: stream, see Klahini River.

Klahini River: stream, flows W 15 miles to Burroughs Bay 2 miles SW of its head at mouth of Unuk River, Coast Mountains; 56° 02' 30" N, 131° 06' 00" W; BGN 1901; (map 7). Variant: Clahona River, Klaheena River, Klahena River. Indian name, meaning "Kla River," reported in 1900 by M. Baker, USGS. USC&GS published the names "Clahona" in 1894 and "Klaheena" in 1899 for this stream.

Klahuch Island: island, see Pyramid Island.

Klahuchtak: locality, see Chilkat.

Klak Creek: stream, heads at Klak Lake, flows NW 16 miles to Kancktok River, 55 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 47' N, 160° 45' W; (map 53). Variant: Chlach River, Klach Creek, Klak River. Eskimo name shown on an 1898 fieldsheet by W. S. Post, USGS, as “Chlach River,” but was published as “Klak Creek” by J. E. Spurr (1900, map 10).

Klak Lake: lake, trends SE 1.2 miles to headwaters of Klak Creek, 1.5 miles NW of Nagugun Lake, 60 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 43' N, 160° 27' W; (map 53). Name derived from Klak Creek; published in 1954 by USGS.

Klak River: stream, see Klak Creek.

Klakas Bay: estuary, see Klakas Inlet.

Klakas Inlet: estuary, extends 13.5 miles N off Cordova Bay, on SW coast of Prince of Wales Island, Alexander Archipelago; 54° 53' N, 132° 23' W; (map 1). Variant: Klakas Bay. Indian name reported in 1897 by Lt. Comdr. J. F. Moser, USN.

Klakas Island: island, 1.5 miles long, at mouth of Klakas Inlet on SW coast of Prince of Wales Island, Alexander Archipelago; 54° 53' 45" N, 132° 24' 40" W; (map 1). Name derived from Klakas Inlet; published by USGS in 1951.

Klakas Lake: lake, 2.5 miles long, on SW coast of Prince of Wales Island, E of Klakas Inlet, Alexander Archipelago; 55° 01' 40" N, 132° 21' 45" W; (map 4). Tlingit Indian name recorded in 1897 by Lt. Comdr. J. F. Moser, USN.

Klakwan: village, see Klukwan.

Klalbaimunket Lake: lake, 1 mile across, at head of Huntington Creek, in Koyukuk River Valley, 4 miles NE of Hughes, Kokrines-Hodzana Highlands; 66° 07' N, 154° 10' W; (map 116). Indian name reported to mean “grayling lake,” for the fish, Arctic Grayling (*Thymallus signifer*); recorded at Hughes in 1956 by Orth.

Klaluthyiit Bluff: bluff, on right bank of Koyukuk River 43 miles NE of Hughes; 66° 28' N, 153° 04' W; (map 116). Indian name recorded in 1956 as “Klal-luth-yi-it” at Allakaket by Orth, USGS, and refers in meaning to the narrowness of the Koyukuk River Valley at that point.

Klam Creek: stream, heads in lake, flows SW 5 miles to Klu Bay, on NW coast of Revillagigedo Island, Alexander Archipelago; 55° 50' 45" N, 131° 27' 55" W; (map 3). Local name published in 1943 by USC&GS.

Klamaskwaltin: locality, “on N bank of Yukon River,” near mouth of Kaiyuh Slough, Koyukuk Lowland; (map 97). Variant: Klamasqualttin. Former Eskimo camp or settlement reported in 1898 by USC&GS; published as “Klamasqualttin” on Chart 3098.

Klamasqualttin: locality, see Klamaskwaltin.

Klan Hill: hill, 600 ft., on N half of Sitklan Island, Coast Mountains; 54° 45' 00" N, 130° 41' 15" W; (map 2). Indian name given in 1883 by Lt. Comdr. Nichols, USN; part of the word "Sitklan".

Klana-Kakat: stream, see Minook Creek.

Klanachargut River: stream, see Minook Creek.

Klanelneechena Creek: stream, heads at a glacier and flows NE 17 miles to head of Tazlina Lake 2 miles N of the terminus (1960) of the Tazlina Glacier and 45 miles NW of Valdez, Chugach Mountains; 61° 45' 25" N, 146° 29' 00" W; (map 68). Indian name reported by USGS in 1960.

Klarens, Port: bay, see Clarence, Port.

Klatakhna Creek: stream, flows W 8 miles to Melozitna River, 45 miles NW of Tanana, Kokrines-Hodzana Highlands; 65° 43' N, 152° 57' W; (map 106). Indian name obtained in 1956 at Tanana by Orth.

Klatena: stream, see Klutina River.

Klati River: stream, see Klutina River.

Klatsuta River: stream, flows NW 14 miles to Yukon River 11 miles S of Gold Mountain, Nowitna Lowland; 65° 03' N, 153° 49' W; (map 107). Variant: Klatsutachargut, Klatsutachakat, Klatsutakakat. Indian name reported in 1869 by Capt. C. W. Raymond; USA, as "Klatsutachargut," meaning "mouth of the Klatsuka [River]."

Klatsuta River: stream, see Blind River.

Klatsutachakat: stream, see Blind River.

Klatsutachakat: stream, see Klatsuta River.

Klatsutachargut: stream, see Blind River.

Klatsutachargut: stream, see Klatsuta River.

Klatsutakakat: stream, see Blind River.

Klatsutakakat: stream, see Klatsuta River.

Klawack Inlet: water passage, see Klawak Inlet.

Klawack Strait: water passage, see Klawak Inlet.

Klawak City: village, see Klawock.

Klawak Harbor: water passage, 1 mile long, on W coast of Prince of Wales Island, between Klawak Island and Klawock, Alexander Archipelago; 55° 33' N, 133° 06' W, (map 4). Tlingit Indian name; published in 1925 Coast Pilot (p. 141).

Klawak Inlet: estuary, see Big Salt Lake.
