Purple Lake: lake, 3.5 miles long, on Annette Island, near head of Tamgas Harbor, Alexander Archipelago; 55° 06' N, 131° 29' W; BGN 1917; (map 3). Named in 1917 by USC&GS; derived from Purple Mountain.

Purple Mountain: mountain, 2,344 ft., on Annette Island, between Port Chester and Purple Lake, Alexander Archipelago; 55° 06' 35" N, 131° 31' 30" W; (map 3). Descriptive name given in 1883 by Lt. Comdr. H. E. Nichols, USN.

Purvis Cove: bight, see Hodikof Bay.

Pusaluk Hill: hill, see Pusaluk Mountain.

Pusaluk Lagoon: lagoon, at shore of Chukchi Sea, 19 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 55' N, 165° 02' W; BGN 1963; (map 128). Variant: Paugausailum Tasia, Pawgowsaylum Tessaya, Paugausailuk Lagoon. Eskimo name meaning "old bag" reported in 1950 by USC&GS.

Pusaluk Mountain: hill, 600 ft., on Chukchi Sea coast, E of Pusaluk Lagoon, 16 miles NW of Kivalina, Arctic Slope; 67° 55' N, 164° 57' W; (map 128). Poo-oosalook Mountain, Pusaluk Hill. Eskimo name meaning "old bag," according to USC&GS in 1950.

Pushki, Ostrov: island, see Cannon Island.

Pusigrak Lagoon: lagoon, 1.3 miles long, on Chukchi Sea coast, 19 miles SE of Cape Thompson, Arctic Slope; 68° 01' N, 165° 17' W; BGN 1963; (map 129). Variant: Poohseegrux

Lagoon, Pooseegruk Lagoon. Eskimo name "Poohseegrux" reported in 1960 by D. C. Foote in connection with Project Chariot studies.

Pustoi Island: island, 0.3 miles across, in Umnak Pass, 2 miles N of Ship Rock, off NE coast of Umnak Island, Aleutian Islands; 53° 23' 55" N, 167° 49' 35" W; (map 23). Variant: Breed Island, Tanghinakh Islet, Tanginak, Ostrov Pustoy. Russian name given by the navigator Kuritzien as "O[strov] Pustoy" meaning "desert island"; published by Capt. Tebenkov (1852, map 25, inset dated 1849), IRN. The island was called "Tanghinakh" by Capt. Lutke (1836, p. 299), IRN, possibly from the Aleut word "tangidak," which, according to R. H. Geoghegan, means "islet or small island." Baker (1906, p. 515) says "the name 'Tanginak' applies to Ship Island." See Ship Rock.

Pustoi Point: point of land, 0.5 miles W of Pustoi Island, at Fort Glenn, NE coast of Umnak Island, Aleutian Islands; 53° 23' 48" N, 167° 50' 15" W; (map 23). Name derived from Pustoi Island and reported in 1942 by U.S. Army Corps of Engineers.

Pustoy, Ostrov: island, see Pustoi Island.

Putgut Plateau: flat, 15 miles across, E of Poovoot Range, 12 miles NE of Southwest Cape and 28 miles SE of Gambell, St. Lawrence Island; 63° 27' N, 171° 12' W; BGN 1951; (map 93). Eskimo name reported in 1949 by Maj. H. B. Allen, USAF. Orth was informed at Gambell and Savoonga in 1965 that the name "Putgut" applies only to the 200 ft. cliff, or ridge, that extends about 50 miles from Powooiliak Point to Cape Kitnik.

Putkuruk Creek: stream, see Nuka River.

Putmik Slough: watercourse, in Yukon Delta, extends E-W 7.2 miles between Anuzukanuk Pass and Elukozuk Slough, 10 miles W of Kwiguk, Yukon-Kuskokwim Delta; 62° 43' 40" N, 164° 49' 00" W; (map 77). Variant: Putmikwa, Putmikwak. Eskimo name obtained in 1948 by USC&GS.

Putmikwa: watercourse, see Putmik Slough.

Putmikwak: watercourse, see Putmik Slough.

Putnam Peak: mountain, 3,500 ft., in Missionary Range, 14 miles NW of Petersburg, on Lindenberg Peninsula, Kupreanof Island, Alexander Archipelago; 56° 57' 50" N, 133° 11' 00" W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for Master Charles Flint Putnam. USN, "a member of Lt. R. M. Berry's party in the Bering Strait in 1880, who was driven to sea on an ice floe and perished.

Putnam Point: point of land, on E coast of Green Island, at S end of Gibbon Anchorage in Prince William Sound, 22 miles E of Chenega, Chugach Mountains; 60° 16' 25" N, 147° 26' 25" W; (map 63). Name published by USC&GS in 1943; named for George Rockwell Putnam, USC&GS.

Putnam, Lake: lake, 0.3 miles long, on N end of Latouche Island, 19 miles SE of Chenega, Chugach Mountains; 60° 02' 15" N, 147° 54' 00" W; (map 63). Local name reported in 1909 by Grant and Higgins (1910, pl. 12), USGS.

Putnam: stream, see Kobuk River.

Putu Creek: stream, flows SE 1 mile to Fish River, between Glacier and Slate Creeks, 12 miles E. of Council and 41 miles NE of Solomon, Seward Peninsula Highlands; 64° 53' N, 163° 17' W; (map 95). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Putu Creek: stream, heads in lake at 61° 27' N, 162° 29' W, flows SE 30 miles to Johnson River, Yukon-Kuskokwim Delta; 61° 15' 30" N, 162° 03' 40" W; (map 74). Eskimo name meaning "hole" published by USGS in 1966.

Putugook Creek: stream, flows N 7 miles to Demarcation Bay, 4 miles S of Demarcation Point; Arctic Plain; 69° 38' N, 141° 16' W; (map 138). Eskimo name obtained by USC&GS in 1948.

Putuligayuk River: stream, heads in lake at 69° 58' N, 148° 52' W, flows NE 40 miles to Prudhoe Bay, 20 miles SE of Beechey Point, Arctic Plain; 70° 19' N, 148° 58' W; (map 150). This is the name of an Eskimo that once lived near the mouth of this stream; reported by USC&GS in 1949.

Puutik Mountain: mountain, 3,235 ft., in Poktovik Mountains, 8 miles SSW of Misheguk Mountain, Brooks Range; 68° 07' N, 161° 21' W; (map 131). Eskimo name reported in 1956 by USGS.

Puvakrat Mountain: hill, 2,400 ft., S of Lisburne Ridge, 26 miles N of Howard Pass, Arctic Slope; 68° 33' N, 156° 30' W; Eskimo name referring to a "swollen part" or "inflater," reported in 1956 by USGS.

Puvut Mountains: mountain range, see Poovoot Range.

Puvutpak: mountain, see Poovookpuk Mountain.

Puyulik Creek: stream, flows NW 10 miles to the Goodnews River, 2.5 miles SE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 06' N, 161° 32' W; (map 53). Local name obtained about 1951 at Goodnews by J. M. Hoare, USGS. It is named for Puyulik Mountain.

Puyulik Mountain: hill, 825 ft., 3 miles SW of Flat Mountain and 4 miles SE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 04' N, 161° 32' W; (map 53) Eskimo name reported to mean "always smoking," the reason for which is unknown. The name was obtained at Goodnews about 1951 by J. M. Hoare, USGS.

Puzzle Creek: stream, flows NW 1.5 miles to Mystery Creek, 10 miles N of Medfra, Kilbuck-Kuskokwim Mountains; 63° 15' N, 154° 46' W; (map 89). Local name reported in 1920 by G. C. Martin (in Brooks and others, 1922, fig. 5), USGS.

Puzzle Creek: stream, flows S 0.7 miles to Mystery Creek which flows to Shovel Creek, 6 miles N of Solomon, Seward Peninsula Highlands; 64° 39' N, 164° 27' W; (map 95).

Prospectors' name shown as "Puzzle Gh." on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Puzzle Gulch: ravine, trends NE 4.5 miles to mouth of Caribou Creek, coursed by South Fork Birch Creek, 45 miles SW of Circle, Yukon-Tanana Highlands; 65° 10' 40" N, 144° 19' 30" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Pyati Milnyy, Ostrov: island, see Fivemile Island.

Pybus Bay: bay, 4 miles across, on E coast of Admiralty Island, 5 miles W of The Brothers and 53 miles E of Sitka, Alexander Archipelago; 57° 16' N, 134° 05' W; (map 8). Named in 1889 by Lt. Comdr. H. B. Mansfield, USN; published by USC&GS in 1891 Coast Pilot (p. 143). The name was derived from Point Pybus, which marks the northeast entrance to the bay.

Pybus Lake: lake, 0.7 miles long, on Admiralty Island, 9 miles N of Pybus Bay and 15 miles E of Angoon, Alexander Archipelago; 57° 26' N, 134° 12' W; (map 9). Local name reported in 1951 by USGS.

Pybus, Point: point of land, on E coast of Admiralty Island, at N entrance to Pybus Bay, 4 miles W of The Brothers and 56 miles E of Sitka, Alexander Archipelago; 57° 18' 25" N, 133° 57' 30" W; (map 8). Named by Capt. George Vancouver, RN, when the point was discovered August 4, 1794, by Lt. Joseph Whidbey, RN, (Wagner, 1937, p. 403)

Pye Island Reef: reef, see Pye Reef.

Pye Islands: islands, group of islands on E side of Nuka Bay, 50 miles E of Seldovia, Chugach Mountains; 59° 23' N, 150° 25' W; (map 50). Variant: Pi Islands, Pies Islands, Pye's Islands. Shown on Capt. Nathaniel Portlock's 1786 track chart as "Pye's Islands." These islands were called "O[strova] Piy," or "Ply Islands," by Capt. Tebenkov (1852, map 5), IRN, and "Pye Islands" by USBF in 1888.

Pye Reef: reef, at S tip of Pye Islands, 2 miles S of Outer Island and 47 miles ESE of Seldovia, Chugach Mountains; 59° 18' N, 150° 25' W; BGN 1931; (map 50). Variant: Pye Island Reef. Named "Pye Island Reef" by USC&GS in 1908, but was shortened to "Pye Reef" in 1931.

Pye's Islands: islands, see Pye Islands.

Pyerci Cape: point of land, see Percy Point.

Pyke, Point: point of land, on SW tip of Bainbridge Island 37 miles ESE of Seward; 60° 02' N, 148° 19' W; Variant: Harmon Point. Named by Joseph Whidbey, RN, about May 27, 1794 (Wagner, 1937, p. 403). This may be the "Herman Point" reported by Capt. Nathaniel Portlock in 1787 (p. 461).

Pyramid Cove: cove, 0.7 miles across, on W shore of Massacre Bay, on SE coast of Attu Island, Aleutian Islands; 52° 50' 00" N, 173° 11' 30" E; (map 13). This name is listed in the 1944 Aleutian Coast Pilot.

Pyramid Creek: stream, flows NW 4.5 miles from Holmes Pass 4 miles NW of Boreal Mountain, to North Fork Koyukuk River, 39 miles NW of Wiseman, Brooks Range; 67° 52' 30" N, 150° 52' 30" W; BGN 1932; (map 124). Named in 1929 by Robert Marshall (1956, p. 14) who wrote "it [the creek] cut into a deep gulch surrounded by a whole series of pyramid-shaped mountains. Consequently we called the stream 'pyramid Creek'."

Pyramid Harbor: cove, 0.7 miles across, on W shore of Chilkat Inlet, 4 miles SW of Haines and 20 miles SW of Skagway, St. Elias Mountains, 59° 10' 50" N, 135° 28' 30" W; (map 45). Variant: Labouchere Harbor, L'chtinige, Tichtinige, Pyramid Island Harbor. The descriptive name "Pyramid Island Harbor" was given in 1868 by Comdr. R. W. Meade, USN, and published in 1881 on Hydrog. Chart 883. It was called Pyramid Harbor by USC&GS in the 1891 Coast Pilot (p. 201). The Tlingit Indian name was reported by Aurel and Arthur Krause (1883 map) as L'chtinige. It was also called Labouchere Bay by the employees of the Hudson Bay Co. for the company steamer Labouchere.

Pyramid Island Harbor: cove, see Pyramid Harbor.

Pyramid Island: island, 0.4 miles long, in Chilkat Inlet, 1 mile SW of Chilkat and 19 miles SW of Skagway, Coast Mountains; 59° 11' 45" N, 135° 27' 15" W; BGN 1900; (map 45). Variant: Chlachotsch Island, Farewell Island, Indian Island, Klahuch Island, Observatory Island, Peschanyy, Peschani Island, Shla-hatch Island, Stony Island. Descriptive name, given in 1869 by Comdr. R. W. Meade, USN. It was called "Os[trov] Peschanyy," meaning "sandy (or gritty) island," by Capt. Lindenberg (cna) in 1838. In 1868, it was called Indian Island by Comdr. Meade, USN, and Farewell Island, through a mistranslation of "Peschanyy," by G. D. Davidson, USC&GS, in 1869. It has also been called Stony Island and Observatory Island (1883 Coast Pilot, p. 197). According to Aurel and Arthur Krause (1883, map), the Tlingit Indian name is Chlachatsch; according to W. H. Dall, USC&GS, it is Shla-hatch (1883 Coast Pilot, p. 197).

Pyramid Island: island, 0.4 miles long, part of rim of caldera enclosing Crater Bay, one of the Rat Islands, between Khvostof Island and Davidof Island, Aleutian Islands; 51° 58' 10" N, 178° 18' 50" E BGN 1937; (map 15). Variant: Pyramid Islet So named by personnel of the U.S.S. Oglala in 1935 "because of its shape."

Pyramid Mountain Peak: mountain, see Pyramid Peak.

Pyramid Mountain: mountain, 2,001 ft., 2 miles NE of Crater Hill and 7.5 miles SE of Goodnews, Kilbuck-Kuskokwim Mountains, 59° 01' 30" N, 161° 29' 00" W; (map 53). Variant: Pyramid Peak. Descriptive name published in 1915 by USC&GS on Chart 9103.

Pyramid Mountain: mountain, 2,420 ft., 7.5 miles W of Kodiak, Kodiak Island; 57° 47' 10" N, 152° 34' 30" W; (map 34). Descriptive local name published in 1943 by USC&GS.

Pyramid Mountain: mountain, 2,800 ft., between Herendeen and Balboa Bays, near SW end of Alaska Peninsula, Aleutian Range; 55° 38' 30" N, 160° 40' 30" W; (map 28). Name reported by Atwood (1911, pl. 2), USGS.

Pyramid Mountain: mountain, 5,640 ft., 8.5 miles SE of Mount Fellows, 21 miles SE of Healy, Alaska Range; 63° 38' 30" N, 148° 31' 30" W; (map 87). Local descriptive name reported in 1950 by USGS.

Pyramid Mountain: mountain, see Pyramid

Pyramid Peak: mountain, 1,110 ft., on Kayak Island, 62 miles SE of Cordova, Malaspina Coastal Plain; 59° 56' N, 144° 24' W; (map 48). Descriptive name published in 1943 by USC&GS on Chart 8513.

Pyramid Peak: mountain, 2,136 ft., 2 miles S of Unalaska, NE part of Unalaska Island, Aleutian Islands; 53° 50' 44" N, 166° 32' 08" W; (map 23). Variant: Pyramid Mountain, Pyramid Mountain Descriptive name published in 1875 by USC&GS on Chart 821 as "Pyramid Mountain Peak."

Pyramid Peak: mountain, 2,434 ft., NE of Tokeen Bay, on SE coast of Kosciusko Island, Alexander Archipelago, 56° 03' 00" N, 133° 21' 30" W; (map 6). Descriptive name given in 1904 by E. F. Dickins, USC&GS, "on account of its shape."

Pyramid Peak: mountain, 8,875 ft., 3.5 miles NE of Andrus Peak and 22 miles SE of McCarthy, St. Elias Mountains; 61° 18' N, 142° 20' W; (map 67). Local descriptive name reported in 1908 by D. C. Witherspoon, USGS.

Pyramid Peak: mountain, see Kinkaid, Mount.

Pyramid Peak: mountain, see Pyramid Mountain.

Pyramid Peak: peak, 3,148 ft., on N part of Chichagof Island 2.5 miles SE of head of Idaho Inlet and 21 miles W of Hoonah, Alexander Archipelago; 58° 02' 15" N, 136° 04' 00" W; BGN 1960; (map 10). Descriptive name given by USGS in 1955, "because the peak is in the form of a pyramid."

Pyramid Peak: peak, 4,106 ft., 1 mile N of head of Tidal Inlet, Glacier Bay National Monument, 59 miles NW of Hoonah, St. Elias Mountains; 58° 50' 45" N, 136° 17' 25" W; (map 10). Descriptive name given by Reid (1892, p. 22 and map).

Pyramid Peak: peak, 5,207 ft., 35 miles SE of Healy and 20 miles NE of Cantwell, Alaska Range; 63° 26' 45" N, 148° 21' 00" W; (map 87). Local descriptive name obtained in 1951 by USGS.

Pyramid Point: point of land, on S end of Khantaak Island, in Yakutat Roads, 0.7 miles N of Point Turner and 2.3 miles NW of Yakutat, Malaspina Coastal Plain; 59° 34' 15" N, 139° 46' 40" W; (map 46). Descriptive name published in 1959 by USGS.

Pyramid Point: point of land, see Green Point.

Pyramids, The: mountain range, 2.5 miles long, 7 miles S of Sitka, on W coast of Baranof Island, Alexander Archipelago; 56° 56' N, 135° 16' W; (map 5). Descriptive name given in 1943 for charting purposes by USC&GS.

Pyre Peak: mountain, 3,458 ft., on central Seguam Island, Aleutian Islands; 52° 19' 00" N, 172° 30' 45" W; (map 19). Variant: Seguam Volcano. Probably a descriptive name; published by USC&GS in 1954 Alaska Coast Pilot (p. 419).

Pyrim Creek: stream, see Enatalik Creek.

Pyrite Point: point of land, extends SE 1 mile from mainland in Bristol Bay, 18 miles W of Hagemeister Island and 4 miles SE of Slug Mountain, Kilbuck-Kuskokwim Mountains; 58° 36' 30" N, 161° 33' 30" W; (map 39). Local name published in 1952 by USGS. Pyrite, also called "fools gold" is a common iron mineral.

Pytmykhtalik, Reka: stream, see Pikmiktalik River.

Q

Qaagaqaglik: bluff, see Kagakaglik Bank.

Qaagusuk: cave, see Kagusuk Cave.

Qaalqisuq: stream, see Kalgiksuk Creek.

Qaaliq: locality, on coast between Sinaru and Saatkunak, 19 miles SW of Barrow, Arctic Plain; 71° 04' N, 157° 14' W; (map 153). Eskimo locality or camp name published by R. F. Spencer (1959, map 2).

Qakulu Xagku: point of land, see Kaskulu Point.

Qangiligauzaq: stream, see Kangiligaurak Creek.

Qatq!waaltu: locality, see Katkwaahltu.

Qawiqsam Kuugauzanga: stream, see Kawiksak Creek.

Qawiqsaqq: bluff, see Kawiksak Bluff.

Qayaqturiaq: stream, see Kayakturiak Creek.

Qilangnaq: bluff, see Kilangnak Bluff.

Qilaugauzaq: spit, see Kilogorak Spit.

Qilaun: spit, see Kilogorak Spit.

Qiligmiak: water passage, see Kiligmak Inlet.

Qimiqpak: ridge, see Kimikpak Ridge.

Qimiqpaum Kuugauzanga: stream, see Kimikpak Creek.

Qimiqpayaat Kuugauzanga: stream, see Kimikpeyat Creek.

Qimiqpayaat Kuugauzanga: stream, see Kumikpeyat Creek.

Qiqiqtauzalik: lake, see Kikiktauralik Lake.

Qoonukh Creek: stream, see Kunuk Creek.

Quadra Bay: estuary, see Quadra, Boca de.

Quadra Channel: estuary, see Quadra, Boca de. Quadra Creek: stream, flows E to Mink Bay, S of Boca de Quadra, Coast Mountains; 55° 04' N, 130° 43' W; (map 3). Local name reported in 1897 by Lt. Comdr. J. F. Moser, USN.

Quadra Creek: stream, see Sockeye Creek.

Quadra Island: island, see Dall Island.

Quadra Lake: lake, on W side of Mink Bay, S of Boca de Quadra, Coast Mountains; 55° 04' N, 130° 44' W; (map 3). Local name reported in 1897 by Lt. Comdr. J. F. Moser, USN.

Quadra Lake: lake, see Hugh Smith Lake.

Quadra Lakes: lakes, two, 0.5 miles long, 1 mile NW of Boca de Quadra and 5 miles N of Bactrian Point, Coast Mountains; 55° 11' 45" N, 130° 40' 00" W; (map 3). Local name recorded in 1955 by USGS.

Quadra Point: point of land, N point of entrance to Boca de Quadra, off Revillagigedo Channel, Coast Mountains; 55° 05' 10" N, 130° 58' 50" W; (map 3). Local name reported in 1904 by H. C. Fassett, USBF.

Quadra, Boca de: estuary, extends SW 34 miles from Keta River to Revillagigedo Channel, Coast Mountains; 55° 04' N, 131° 01' W; (map 3). Variant: Bokay Inlet, Quadra Bay, Quadra Channel. Spanish name meaning "estuary of Quadra" given in 1792 by Jacinto Caamano for Don Juan de la Bodega y Quadra, who took part in expeditions and made surveys in southeast Alaska in 1775-79; this name was adopted by Capt. George Vancouver, RN, who explored this estuary on August 6, 1793 (Wagner, 1937, p. 404).

Quail Bay: bay, 0.6 miles across, on SE coast of Kagalaska Island, Aleutian Islands; 51° 44' 40" N, 176° 18' 20" W; BGN 1936; (map 17). Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934, for the U.S.S. Quail.

Quail Creek: Stream, flows SE 5.6 miles to Troublesome Creek, 16 miles SE of Rampart, Yukon-Tanana Highlands; 65° 22' N, 149° 45' W; (map 105). Named by prospectors in 1898, reported in 1904 by L. M. Prindle and F. L. Hess, USGS. "it is said that it was desired to call the stream 'Ptarmigan Creek,' but as no one in the party could spell ptarmigan it was named 'Quail,' the spelling of which was easier." (Prindle and Hess, 1908, p. 96).

Quail Island: island, 5 miles long, in Yukon River, 50 miles E of Unalakleet, Innoko Lowland; 63° 55' N, 159° 02' W; (map 91). Variant: Leah Island Local name reported in 1952 by the U.S. Army Corps of Engineers. Its earlier name "Leah Island" was given by steamboat pilots after the steamboat Leah built at Saint Michael about 1895 and named for Leah Shingleberger, mother-in-law of Capt. Gustav Niebaum of the Alaska Commercial Company.

Quake Lake: lake, 0.5 miles long, on Kenai Peninsula, SSE of Finger Lakes, 13 miles NE of Kenai, Cook Inlet Lowland; 60° 37' 45" N, 150° 52' 45" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Quandary Creek: stream, flows NE 15 miles to Killik River 6 miles SE of its junction with Colville River, Brooks Range; 68° 58' N, 153° 43' W; BGN 1960; (map 133). So named about 1950 by USGS geologists during exploration of Naval Petroleum Reserve No. 4, because of the "confusing way in which the stream meanders."

Quartz Bay: cove, 0.7 miles wide, on E shore of West Arm Nuka Bay, on SE coast of Kenai Peninsula, 36 miles ESE of Homer, Chugach Mountains, 59° 31' N, 150° 33' W; BGN 1929; (map 50). Variant: Rock Bay. Local name reported by USC&GS in 1927 “as the name used by miners and prospectors in filing descriptions of claims.”

Quartz Creek: locality, see Dahl.

Quartz Creek: ravine, see Quartz Gulch.

Quartz Creek: stream, flows E 1.7 miles to Bonanza River, 15 miles NW of Solomon, Seward Peninsula Highlands; 64° 44' N, 164° 45' W; (map 95). Prospectors' name reported on the 1900 “Map of Nome Peninsula” by J. M. Davidson and B. D. Blakeslee.

Quartz Creek: stream, flows N 4 miles to Gold Creek, 48 miles N of Big Delta, Yukon-Tanana Highlands; 64° 49' 30” N, 145° 33' 00” W; (map 101). Named by prospectors and reported in 1905 by D. C. Witherspoon (Prindle, 1913a, pl. 1), USGS.

Quartz Creek: stream, flows NE 1 mile to Gold Run which flows to Bluestone River, 16 miles SE of Teller, Seward Peninsula Highlands; 65° 02' N, 166° 15' W; (map 111). Prospectors' name reported on a map of Cape Nome goldfields by David Fox, Jr., dated 1901.

Quartz Creek: stream, flows NE 2 miles to Chitina River, 47 miles SE of McCarthy, St. Elias Mountains; 61° 02' N, 141° 48' W; (map 67). Prospectors' name reported in 1900 by T. G. Gerdine, USGS.

Quartz Creek: stream, flows NE 4 miles to Boundary Creek, 9 miles SE of Eagle, Yukon-Tanana Highlands; 64° 40' 30” N, 141° 07' 00” W; (map 102). Prospectors' name shown on a 1902 manuscript map by E. J. Chamberlain, U.S. Deputy Surveyor.

Quartz Creek: stream, flows NE 6 miles to South Fork Serpentine River, 8 miles N of Kougarak Mountain and 29 miles SE of Ear Mountain, Seward Peninsula Highlands; 65° 49' N, 165° 15' W; (map 111). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Quartz Creek: stream, flows NE 9 miles to North Fork Chandalar River, 30 miles NNW of Chandalar, Brooks Range; 67° 51' 30” N, 149° 02” 00” W; (map 123). Prospectors, name reported in 1899 by Schrader (1900b, pl. 60), USGS.

Quartz Creek: stream, flows NW 0.6 miles to Candle Creek, 12 miles SW of Candle and 32 miles NE of Imuruk Lake, Seward Peninsula Highlands; 65° 45' 45” N, 162° 07' 00” W; (map 110). Prospectors' name reported on the 1908 “Map of Seward Peninsula” by Arthur Gibson.

Quartz Creek: stream, flows NW 1.7 miles to Solomon River, 7 miles NE of Solomon, Seward Peninsula Highlands; 64° 39' N, 164° 20' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Quartz Creek: stream, flows NW 1.8 miles to Dese Creek which flows to Grantley Harbor, 7 miles SE of Teller, Seward Peninsula Highlands; 65° 13' N, 166° 08' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Quartz Creek: stream, flows NW 11 miles to out Let of Tonsina Lake, 37 miles NE of Valdez, Chugach Mountains; 61° 31' 20" N, 145° 29' 30" W; (map 68). Prospectors' name reported in 1899 by several members of Capt. W. R. Abercrombie's expedition.

Quartz Creek: stream, flows NW 21 miles to Kiwalik River, 32 miles NW of Haycock, Seward Peninsula Highlands; 65° 35' N, 161° 48' W; (map 109). Local name shown on a 1903 fieldsheet by D. C. Witherspoon, USGS.

Quartz Creek: stream, flows NW 8 miles to Bear Creek, 80 miles SW of Circle, Yukon-Tanana Highlands; 65° 32' 20" N, 146° 42' 50" W; (map 104). Named by prospectors; reported in 1909 by L. M. Prindle, USGS.

Quartz Creek: stream, flows S 4 miles to Norton Sound, 19 miles NW of Nome, Seward Peninsula Highlands; 64° 34' N, 166° 00' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Quartz Creek: stream, flows SE 10 miles to Crooked Creek, 18 miles SW of Circle, Yukon-Tanana Highlands; 65° 36' 45" N, 144° 27' 45" W; (map 104). Variant: Jump Off Creek. Named by prospectors; reported in 1903 by USGS (Prindle, 1905, pl. 13). "Jump Off Creek," appearing on an unpublished map of 1898, is either the same stream or one near it.

Quartz Creek: stream, flows SE 11 miles to Kougarok River 3 miles NW of its junction with Kuzitrin River, 46 miles SW of Imuruk Lake Seward Peninsula Highlands; 65° 18' N, 164° 36' W (map 110) Prospectors' name reported in 1900 by Brooks (1901, pl. 11), USGS.

Quartz Creek: stream, flows SE 11 miles to Sulatna River, 14 miles SW of Monzonite Hills, Kilbuck-Kuskokwim Mountains; 64° 17' 29" N, 155° 00' 45" W; (map 98). Variant: Rabbit Creek. Prospectors' name reported in 1911 by A. G. Maddren (in Brooks and other, 1912, p. 294-296), USGS.

Quartz Creek: stream, flows SE 2 miles to Salmon River, 23 miles NE of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 52' 35" N, 161° 44' 25" W; BGN 1938; (map 39). Local name reported in 1938 by J. B. Mer Tie and Gerald FitzGerald, USGS.

Quartz Creek: stream, flows SE 3 miles to Porcupine Creek, 1.5 miles N of that stream's mouth and 12 miles S of Wiseman, Brooks Range; 67° 15' N, 150° 18' W; (map 124). Local descriptive name obtained in 1956 by USGS topographers.

Quartz Creek: stream, flows SE 3.5 miles to Goose Creek which flows to Casadepaga River, 23 miles NE of Solomon, Seward Peninsula Highlands; 64° 53' N, 164° 18' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Quartz Creek: stream, flows SW 1.3 miles to Chisna River, 1.2 miles SE of Chisna Pass and 25 miles NE of Paxson, Alaska Range; 63° 09' 00" N, 144° 45' 05" W; (map 86). Prospectors' name reported in 1900 by T. G. Gerdine (in Mendenhall and Schrader, 1903, pl. 9), USGS.

Quartz Creek: stream, flows SW 1.3 miles, joins Thompson Creek to form Stewart River, 23 miles NE of Nome, Seward Peninsula Highlands; 64° 50' N, 165° 19' W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Quartz Creek: stream, flows SW 12 miles to Kwik River, 45 miles NW of Christmas Mountain, Seward Peninsula Highlands; 64° 55' N, 161° 48' W; (map 96) Local name reported in 1943 by USC&GS.

Quartz Creek: stream, flows SW 3.5 miles, joins Shorty Creek to form Butte Creek, 30 miles NE of Ophir and 41 miles NW of McGrath, Kilbuck- Kuskokwim Mountains; 63° 31' N, 156° 08' W; (map 90). Prospectors' name reported in 1933 by USGS.

Quartz Creek: stream, flows SW 5.4 miles to Independence Creek, in Kugruk River basin, 24 miles E of Imuruk Lake, Seward Peninsula Highlands 65° 32' N, 162° 22' W; (map 110). Prospectors' name reported in 1903 by D. C. Witherspoon (in Moffit, 1905, pl. 2), USGS

Quartz Creek: stream, flows W 1.2 miles to Ahtell Creek, 7 miles NW of Slana, Alaska Range; 62° 48' N, 144° 04' W; (map 83). Name used by prospectors and reported by USGS (in Moffit, 1937, p. 106).

Quartz Creek: stream, heads in lake, flows NE 7 miles to anabranch of Skwentna River, 55 miles NW of Tyonek, Alaska Range; 61° 51' 15" N, 151° 27' 30" W; (map 70). Local name reported in 1954 by USGS.

Quartz Creek: stream, heads on Ear Mountain, flows SW 5 miles to Tuttle Creek, in Kugrupaga River basin, 45 miles N of Teller, Seward Peninsula Highlands; 65° 54' N, 166° 25' W; (map 111). Prospectors' name reported in 1907 by Knopf (1908, p. 27), USGS.

Quartz Creek: stream, heads on Serpentine Ridge, flows SW 4.6 miles to Sullivan Creek, 1.2 miles NW of Tofty and 34 miles ESE of Tanana Yukon-Tanana Highlands; 65° 06' 30" N, 150° 54' 10" W; (map 106). Prospectors' name reported by C. E. Ellsworth and G. L. Parker (in Brooks and others, 1911, p. 166), USGS.

Quartz Creek: stream, in Rampart Mountains, flows SE 3.3 miles to Yukon River, 22 miles ENE of Tanana, Kokrines-Hodzana Highlands; 65° 15' 30' N, 151° 22' 00" W; (map 106). Prospectors' name from Edwards Track Chart of the Yukon, dated 1899; published by Cantwell (1902, p. 277), USRCS.

Quartz Creek: stream, on Kenai Peninsula, flows NW 6 miles then SW 10 miles to Kenai Lake, 28 miles NW of Seward, Chugach Mountains; BGN 1950; 60° 32' 05" N, 149° 28' 30" W; (map 63). Name used by local prospectors; reported In 1898 by Mendenhall (1900, p. 331), USGS. Quartz Creek: stream, flows SW 24 miles to Kisarialik River, 53 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 33' N, 160° 19' W; (map 59) Local name reported in 1955 by J. M. Hoare, USGS.

Quartz Creek: stream, see Borg Creek.

Quartz Creek: stream, see Ingram Creek.

Quartz Creek: stream, see Penny River.

Quartz Creek: stream, see South Fork Serpentine River.

Quartz Creek: stream, see Star Creek.

Quartz Glacier: locality, in Glory Hole, 1.2 miles N of Gastineau Peak and 2 miles E of Juneau, Coast Mountains; 58° 18' 30" N, 134° 21' 15" W; (map 11). Name published in 1962 by USGS.

Quartz Gulch: ravine, 0.3 miles long, extending W from Silverbow Basin, 2.5 miles E of Juneau, Coast Mountains; 58° 10' 24" N, 134° 20' 36" W; (map 11). Named by Richard Harris in 1880 because "it contained the most gold-bearing quartz I had ever seen in one gulch." (DeArmond, 1957, p. 35).

Quartz Gulch: ravine, extends SE 2 miles from Donlin Creek, 0.7 miles W of Dome Creek and 43 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 62° 05' N, 158° 11' W; BGN 1945; (map 79). Variant: Quartz Creek. Prospectors' name obtained in 1913 by Eakin (1914, pl. 1), USGS.

Quartz Gulch: ravine, trends S 0.4 miles to Anvil Creek NW of Anvil Peak and 5.5 miles N of Nome, Seward Peninsula Highlands; 64° 34' 45" N, 165° 23' 25" W; (map 94). Prospectors' name reported on the 1903 Campion Mining and Trading Co. map by George M. Ashford.

Quartz Lake: lake, 2 miles across, 4 miles N of Big Delta, Tanana Lowland; 64° 13' N, 145° 49' W; (map 101). Named by prospectors and reported in 1908 By J. W. Bagley, USGS.

Quartz Point: point of land, on NE end of Goose Island, in South Passage, 1.5 miles NW of Mud Bay and 23 miles NW of Hoonah, Alexander Archipelago; 58° 13' N, 136° 02' W; (map 10). So named in 1882 by W. H. Dall, USC&GS, "because the place is marked by large masses of white quartz, which look like ice."

Quartz Point: point of land, S point of entrance To Coal Harbor in Zachary Bay, Unga Island, in Shumagin Islands, Aleutian Range; 55° 19' 45" N, 160° 36' 45" W; (map 28). Named in 1872 by W. H. Dall, USC&GS.

Quartz Rock: island, 0.1 miles long, in Clarence Strait, SW coast of Etolin Island, Alexander Archipelago; 55° 59' 00" N, 132° 28' 10" W; (map 4). Descriptive name given in 1886 by Lt. Comdr. A. S. Snow, USN.

Quartz Rock: rock, 0.1 miles across, in Iphigenia Bay, 2.3 miles E of Warren Island, Alexander Archipelago; 55° 53' 50" N, 133° 47' 25" W; (map 4). Local name published in 1965 by USC&GS.

Quartzite Creek: stream, heads 14 miles NW of Birthday Pass, flows S 20 miles to Awuna River, 125 miles SE of Wainwright, Arctic Slope; 69° 08" N, 157° 03' W; (map 143). Named by USGS geologists in the 1950's.

Quat-a-hein: stream, see Kwatahein Creek.

Quay Peak: mountain, see Sugarloaf Mountain.

Queakhpaghamiut: locality, see Kweakpak.

Queeguilmuit: locality, see Kyagamiut.

Queekagamut: locality, see Kwigalok.

Queekmute: locality, see Kwik.

Queen Creek: ravine, see Queen Gulch.

Queen Creek: stream, flows NW 4 miles to North Fork Kougarok River, 3 miles SW of Harris Dome and 42 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 36' N, 164° 40' W; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Queen Creek: stream, flows SW 0.2 miles to Carbon Creek, 19 miles NE of Katalla, Chugach Mountains; 60° 23' N, 144° 11' W; (map 64). Local name used by prospectors, reported USGS by G. C. Martin (1905, p. 20).

Queen Creek: stream, flows SW 0.5 miles to Dewey Creek, 10 miles NE of Nome, Seward Peninsula Highlands; 64° 38' N, 165° 16' W; (map 94) Prospectors' name shown on the 1902 "Map of the Nome and Snake River Country" by J. M. Davidson.

Queen Gulch: ravine, extends SE 1.6 miles from Crooked Creek 1.6 miles NE of junction of American Creek, 43 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 62° 03' 40" N, 158° 13' 30" W; BGN 1945; (map 79). Variant: Queen Creek. Prospectors' name obtained in 1913 by Eakin (1914, pl. 1), USGS.

Queen Inlet: bay, 4 miles long, on Glacier Bay, Glacier Bay National Monument, 1 mile N of Composite Island and 68 miles NW of Hoonah, St. Elias Mountains; 58° 54' 30" N, 136° 33' 00" W; (map 10). Named in 1892 by Reid (1896, p. 422) for the SS Queen, which was the first ship to sail to the upper part of Glacier Bay.

Queen of Sheba Creek: stream, flows E 3 miles to King Solomon Creek, 17 miles S. of Eagle, Yukon-Tanana Highlands; 64° 32' 45" N, 141° 17' 45" W; (map 102). Prospectors' name published in 1925 by ARC.

Queen of Sheba Mountain: mountain, see Sheba Mountain.

Queen Twin Creek: stream, flows S 2 miles to Little Boulder Creek N of Boulder Ridge, 33 miles E of Tanana, Yukon-Tanana Highlands; 65° 10' 32" N, 150° 57' 58" W; BGN 1965; (map 106). Prospectors' name reported in 1963 by Bond Taber, USGS, as having "Long local usage."

Queens Creek: stream, flows SW 0.5 miles to Elliott Creek, 1 mile NW of Iron Mountain and 32 miles NE of Valdez, Wrangell Mountains; 61° 38' 15" N, 144° 02' 30" W; (map 68). Prospectors' name reported in 1903 by W. C. Mendenhall, USGS.

Queer Creek: stream, heads in Rockies Lakes, flows NE 4 miles to Rabideux Creek, 9.5 miles SW of Talkeetna, Cook Inlet Lowland; 62° 11' 25" N, 150° 11' 15" W; (map 81). Local descriptive name reported in 1958 by USGS.

Queer Island: island, 0.6 miles long, 8 miles S of Kodiak, on E coast of Kodiak Island; 57° 40' 40" N, 152° 22' 45" W; (map 34). Variant: Chudnoi, Ostrov Chudnoy. This is a translation of the Russian name "Ost[rov] Chudnoy," published by Sarichev (1826, map 16).

Queer Ponds: lakes, extend E 6 miles along course of Owl Creek, 21 miles NW of Beaver, Kokrines-Hodzana Highlands; 66° 28' N, 148° 10' W; (map 118). Local descriptive name obtained in 1956 by USGS.

Quek: anchorage, on SE coast of Nushagak Peninsula, 4.5 miles NE of Cape Constantine and 44 miles SW of Dillingham, Bristol Bay Lowland; 58° 25' 20" N, 158° 47' 00" W; (map 40). Eskimo name meaning "small boat anchorage," reported in 1947 by Lt. Comdr. A. N. Stewart, USC&GS.

Quekilok Creek: stream, flows N 7 miles to Norton Sound, 16 miles E of Saint Michael, Yukon-Kuskokwim Delta; 63° 27' N, 161° 31' W; (map 91). Variant: Quekilouk Creek. Eskimo name reported in 1952 by USC&GS.

Quekilouk Creek: stream, see Quekilok Creek.

Quelochamiut: locality, see Kweleluk.

Quemabo, Cabo: point of land, see Quemada, Point.

Quemada, Point: point of land, on NW coast of Suemez Island, 1 mile S of Point Arboleda, Alexander Archipelago; 55° 18' 15" N, 133° 27' 40" W; (map 4). Variant: Cabo Quemabo, Mys Kuyemabo. Spanish name given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Cabo Quemabo," or "Cape Quemabo"; probably from "quemado," meaning "burnt."

Query Creek: stream, heads N of The Cockscomb, flows NNW to Kiligwa River 11 miles S of Liberator Lake, Brooks Range; 68° 43' N, 158° 26' W; (map 132). Variant: Why Creek. So named in 1951 by Island J. Tailleur, USGS, because of the "complex geology" around the stream.

Question Creek: stream, heads in Little Question Lake, flows SW 4.5 miles to Sunshine Creek, 10 miles S of Talkeetna, Cook Inlet Lowland; 62° 10' 45" N, 150° 05' 45" W; (map 81). Name shown on a railroad location blueprint map compiled in 1915.

Question Lake: lake, 2,800 ft. across, in course of Question Creek, 6 miles S of Talkeetna, Cook Inlet Lowland; 62° 13' 30" N, 150° 04' 30" W; BGN 1961; (map 81). Variant: Tollison

Lake. Local name reported in 1961 by USGS; the variant "Tollison" was for Hugo Tollefson [sic], a resident near the lake.

Question Lake: lake, see Benka Lake.

Quethluk: stream, see Kwethluk River.

Quetoth River: stream, see Duktotoh River.

Quick River: stream, see Kwik River.

Quick: locality, see Kwik.

Quicksand Cove: bay, 1.3 miles wide, on E coast of Harris Peninsula, 27 miles SW of Seward, Chugach Mountains; 59° 47' N, 149° 46' W; BGN 1930; (map 49) Named by the 1912 USC&GS field party; "name suggested by the description of the cove [?]."

Quicksilver Creek: stream, 22 miles long, flows SW to Kisaralik River, 76 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 23' N, 159° 59' W; BGN 1960; (map 59). Named by prospectors who entered the area 1911-1914; so called because "traces of quicksilver ore were found in the vicinity;" reported in 1954 by J. M. Hoare and W. L. Coonrad, USGS.

Quicksilver Creek: stream, see North Fork Kisaralik River.

Quicksilver River: stream, see Quicksilver Creek.

Quickumguila Creek: stream, flows W 5 miles to Kanektok River, 49 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 45' N, 161° 03' W; (map 53). Eskimo name shown on an 1898 fieldsheet by W. S. Post, USGS, whose party camped at its mouth on August 29, 1898.

Quiechochlogamiut: locality, see Kwigalok.

Quiet Bay: estuary, see Quiet Harbor.

Quiet Creek: stream, on Kenai Peninsula, flows NW 1 mile to a lagoon on S end of Neptune Bay, 9 miles SE of Homer, Chugach Mountains; 59° 32' 30" N, 151° 22' 00" W; (map 50). Local name reported and published by USGS in the 1950's.

Quiet Harbor: estuary, 0.7 miles long, on NW coast of Etolin Island, Alexander Archipelago; 56° 04' 10" N, 132° 39' 40" W; (map 6). Variant: Gavan Pokoynaya, Pokainaia Bay, Pokoinay Bay, Quiet Bay. An 1882 translation by USC&GS of name published in 1853 on Russian Hydrog. Dept. Chart 1493 as "Gav[an] Pokoynaya."

Quigillingok: village, see Kwigillingok.

Quigley Ridge: ridge, elev. 3,100 ft., extends SW 2 miles from Wickersham Dome to Moose Creek, 3.3 miles NNW of Wonder Lake, Alaska Range; 63° 32' 30" N, 150° 56' 30" W; (map 88). Local name reported in 1931 by F. G. Wells and S. C. Kain, USGS. Named for Joseph Quigley, who with his partner Jack Horn first found gold on Glacier Creek in 1905.

Quigleys Camp: locality, on right bank of Solomon River, 7 miles NE of Solomon, Seward Peninsula Highlands; 64° 39' N, 164° 20' W; (map 95). Site of a mining camp; published in 1956 by USGS.

Quigmy River: stream, flows S 28 miles to Togiak Bay, 1 2 miles SW of Togiak, Kilbuck-Kuskokwim Mountains; 58° 57' N, 160° 40' W; (map 39). Variant: Kwegamy River. Eskimo name "Kwegamy," meaning "river" or "in the river [kuikime]" obtained about 1948 by USGS from Frank Waskey, local trader and prospector.

Quiktalik Creek: stream, flows SE 4 miles to Norton Bay, 2 miles SW of Elim and 64 miles E of Solomon, Seward Peninsula Highlands; 64° 36' N, 162° 18' W; (map 95). Variant: Kuiuktulik Creek, Peterson Creek. Eskimo name reported in 1909 as "Kuiuktulik Creek" by Smith and Eakin (1911, pl. 1), USGS.

Quiktalik Mountain: mountain, see Kwiktalik Mountain.

Quill Lake: lake, 1 mile long, on Kenai Peninsula, 2 miles SW of Grus Lake and 23 miles NE of Kenai, Cook Inlet Lowland; 60° 46' N, 150° 45' W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Quillian Bay: estuary, on S coast of Esther Island, extends SW 2 miles to Wells Passage, 23 miles E of Whittier, Chugach Mountains; 60° 47' 15" N, 148° 02' 55" W; (map 63). Local name reported in 1952 by USGS.

Quillingok: village, see Kwigillingok.

Quilochugamiut: locality, see Kwilokuk.

Quina River: stream, see Kanektok River.

Quinahak River: stream, see Kanektok River.

Quinahak: village, see Quinhagak.

Quinchaha: village, see Quinhagak.

Quincy Adams, Mount: mountain, 3,560 ft., in Glacier National Monument, on Alaska-Canada boundary, 2.6 miles E of Mount Fairweather and 91 miles NW of Hoonah, St. Elias Mountains; 58° 54' 30" N, 137° 27' 00" W; BGN 1954; (map 10). Variant: Boundary Peak 163. Named by Lawrence Martin, U.S. Dept. of State, in 1923 for John Quincy Adams, 1767-1848, Secretary of State under President Monroe and sixth President of the United States, 1825-29. As Secretary of State, in 1825, he negotiated the first treaty between the United States and Russia, establishing a part of what would later become the boundary between the United States and Canada.

Quincy Gulch: ravine, trends NW 0.3 miles to Osborn Creek, 8 miles NE of Nome, Seward Peninsula Highlands; 64° 32' 40" N, 165° 09' 25" W; (map 94) Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Quinehaha: village, see Quinhagak.

Quinehahamute: village, see Quinhagak.

Quinhagak River: stream, see Kanektok River.

Quinhagak: village, pop. 228, on E side of Kuskokwim Bay, at mouth of Kanektok River, 46 miles NW of Goodnews, Yukon-Kuskokwim Delta, 59° 45' N, 161° 54' W; BGN 1957; (map 53). Variant: Koingak, Kvingak, Kwinak, Kwinhagak, Kwinhagamut, Kwygyschpainagmjut, Quinahak, Quinchaha, Quinehaha, Quinehahamute, Quinhagamut, Quinhaghamiut, Quinhak Selo Koingak. The name of this Eskimo village was reported as "S[elo] Koingak," meaning "Koingak Village," by Lt. Sarichev (1826, map 3), IRN. Ivan Petroff in the 1880 Census reports it as "Quinehahamute," and in the 1890 Census it is "Quinhaghamiut." The name is shown by W. S. Post, USGS, on an 1898 fieldsheet as "Quinhagamut." In 1919 G. L. Harrington, USGS, suggested that the name probably means "new formed river," which refers to the constantly changing channel of the stream on which the village is located. The population of the village in 1880 was 83; in 1890, 109; in 1910, 111; in 1920, 193; and in 1930, 230. A post office was established here in 1905 (Ricks, 1965, p. 54). In 1954 the town had a Moravian mission, a store, and a government school.

Quinhagamut: village, see Quinhagak.

Quinhaghamiut: village, see Quinhagak.

Quinhak River: stream, see Kanektok River.

Quinhak: village, see Quinhagak.

Quinlatah Slough: stream, see Kwinlatah Slough.

Quinn Creek: stream, flows NW 11 miles to Iditarod River, 34 miles NE of Aniak, Kilbuck-Kuskokwim Mountains; 61° 59' N, 158° 53' W; BGN 1945; (map 72). Local name reported in 1910 by C. G. Anderson (in Eakin, 1914, pl. 1), USGS.

Quinnehuk Mountains: mountains, see Kwiniuk, Mount.

Quinnehuk River: stream, see Kwiniuk River.

Quinnelhock River: stream, see Kwiniuk River.

Quintino Sella Glacier: glacier, heads at 60° 38' N, 141° 07' W, trends S 13 miles to Columbus Glacier, 1 mile NW of Table Mountain and 81 miles NW of Yakutat, St. Elias Mountains; 60° 29' N, 141° 08' W; BGN 1954; (map 65). Variant: Sella Glacier. Named by His Royal Highness, Prince Luigi Amedeo di Savoia, Duke of the Abruzzi, in 1897, while on the summit of Mount St. Elias, for Quintino Sella, pioneer of Italian Alpinism (Filippi, 1900, p. 159).

Quiros, Isla de: island, see Montague Island.

Quisling Cove: cove, 0.5 miles across, 4 miles NE of Lief Cove on W coast of Kiska Island, Aleutian Islands; 51° 58' 45" N, 177° 23' 00" E; (map 14). Variant: Eric Cove. This is one of many arbitrary names applied by U.S. military forces to features on Kiska Island during World War II for tactical purposes.

Quit Point: point of land, S tip of an island, 5 miles S of Chichagof, off W coast of Chichagof Island, Alexander Archipelago; 57° 35' 25" N, 136° 06' 30" W; BGN 1908; (map 9). Named in 1908 by USC&GS and published in the 1908 Coast Pilot (p. 171).

Quitasueno Rock: rock, 0.1 miles across, in N Portillo Channel, Alexander Archipelago; 55° 32' N, 133° 28' W; (map 4). Variant: Isla Quitasueno, Quita Sueno Rock, Quita Suenos. Spanish name given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Isle Quitasueno" or "keep awake island" (Wagner, 1937, p. 404).

Quithlook: village, see Kwethluk.

Quitoway Island: island, see Whale Island.

Quiukachamut: locality, on bank of Kanektok River, 60 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 50' N, 160° 42' W; (map 53). This Eskimo name meaning 'Quiukach people' was shown on an 1898 fieldsheet by W. S. Post, USGS, with the note "somewhere here."

R

Rabbit Creek: stream, flows N 8 miles to Unalakleet River, 8.8 miles E of Unalakleet, Nulato Hills; 63° 52' 15" N, 160° 29' 50" W; (map 91). Local name reported in 1952 by USC&GS.

Rabbit Creek: stream, flows NE 1.1 miles to Iron Creek, 0.2 miles N of junction of Canyon and Dome Creeks and 25 miles NW of Solomon, Seward Peninsula Highlands; 64° 54' N, 164° 43' W; (map 95). Variant: Pajara Creek. Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. Fox applied this name to a tributary north of this stream and called the stream described above "Pajara."

Rabbit Creek: stream, flows NE 1.8 miles, joins Teddy Creek to form Quartz Creek, 9 miles SE of Long and 30 miles SSE of Ruby, Kilbuck-Kuskokwim Mountains; 64° 19' N, 155° 17' W; (map 98). Prospectors' name reported in 1913 by Eakin (1914, pl. 3), USGS. The stream's identity is in doubt.

Rabbit Creek: stream, flows NW 1 mile to Alder Creek, in Bluestone River basin 15 miles SE of Teller, Seward Peninsula Highlands; 65° 04' N, 166° 09' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Rabbit Creek: stream, flows SE 1.3 miles to Uncle Sam Creek, 5 miles NE of Solomon, Seward Peninsula Highlands; 64° 37' N, 164° 19' W; (map 95) Prospectors' name shown on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Rabbit Creek: stream, flows SE 2.2 miles to Monument Creek, 5.5 miles N of Sulatna Crossing and 25 miles SW of Monzonite Hills, Kilbuck-Kuskokwim Mountains; 64° 16' 20" N, 155° 25' 25" W; BGN 1936; (map 98). Variant: Jack Rabbit Creek. Prospectors' name reported in 1913 by Eakin (1914, p. 367), USGS.

Rabbit Creek: stream, flows SW 6 miles to Kobuk River 18 miles NW of Shungnak, Brooks Range; 67° 01' N, 157° 42' W; (map 126). Local name reported by the U.S. Army Corps of Engineers in 1955.

Rabbit Creek: stream, flows W 1.7 miles to Penny River, 10 miles NW of Nome, Seward Peninsula Highlands; 64° 38' N, 165° 38' W; (map 94). Prospectors' name published on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Rabbit Creek: stream, heads in lake N of Suicide Peak, in Chugach Mountains, flows NW and W 12 miles to Turnagain Arm, 10 miles S of Anchorage, Cook Inlet Lowland; 61° 04' 25" N, 149° 50' 15" W; (map 69). Local name reported in 1906 by T. G. Gerdine and R. H. Sargent, USGS.

Rabbit Creek: stream, heads in Mulgrave Hills, flows SW 23 miles to Chukchi Sea, 24 miles N of Cape Krusenstern, Kotzebue-Kobuk Lowland; 67° 28' N, 163° 58' W; (map 128). Variant: Ohkaleeksout, Ohkalicksuk. Local name reported in 1950 by USC&GS. This name evidently is a translation of the Eskimo name.

Rabbit Creek: stream, see Quartz Creek.

Rabbit Ears: peaks, 2,326 ft., E of Nimiuktuk River, 33 miles ENE of Misheguk Mountain, Brooks Range; 68° 20' N, 159° 49' W; (map 131). Descriptive name probably given by USGS about 1925.

Rabbit Foot Lake: lake, 1.1 miles long, on Kenai Peninsula SW of Moose Lake, 34 miles NE of Kenai, Cook Inlet Lowland; 60° 44' 30" N, 150° 21' 25" W; (map 62). Named about 1963 by officials of the Kenai National Moose Range, for administrative purposes.

Rabbit Island: island, 0.3 miles across, 1 mile W of Sanak, one of Sanak Islands, Aleutian Range; 54° 28' 50" N, 162° 49' 55" W; (map 25). Descriptive name published in 1949 on a USGS map.

Rabbit Island: island, 0.3 miles long, off S shore of Port Houghton, at mouth of Sanborn Canal, 81 miles E of Sitka, Coast Mountains; 57° 17' 40" N, 133° 15' 55" W; (map 8). Local name reported in 1955 by USGS.

Rabbit Island: island, 2.5 miles long, in Pye Islands, E side of Nuka Bay, 46 miles ESE of Seldovia, Chugach Mountains; 59° 22' 30" N, 150° 25' 00" W; BGN 1929; (map 50). So named by USC&GS in 1927, "because the outline of the island resembles a running rabbit."

Rabbit Islands: islands, extend 2.3 miles, in Iliamna Lake, 6 miles ESE of Iliamna, Aleutian Range; 59° 44' N, 154° 43' W; (map 51). Local name published in 1954 by USGS.

Rabbit Lake: lake, 3,000 ft. long, SW of Alexander Lake, 44 miles N of Tyonek, Cook Inlet Lowland; 61° 42' 25" N, 150° 55' 20" W; (map 70). Local name reported in 1954 by USGS.

Rabbit Mountain: mountain, 3,081 ft., in Coleen Hills, 29 miles NNE of Coleen Mountain, Brooks Range; 67° 29' N, 142° 18' W; (map 121). Local name reported in 1939 by FitzGerald (1944, p. 234), USGS.

Rabbit River: stream, heads at 66° 44' N, 157° 30' W, flows SW 25 miles to Kugarak River, 33 miles SW of Shungnak, Kotzebue-Kobuk Lowland; 66° 44' N, 158° 15' W; (map 115). Local name shown on a 1927 manuscript map by the "trader at Selawik."

Rabbit Slough: stream, a distributary of Matanuska River, flows W 4 miles to join Spring Creek to form Palmer Slough 7 miles SW of Palmer, Cook Inlet Lowland; 61° 32' N, 149° 16' W; (map 69). Local name reported about 1951 by USGS.

Rabbitt Creek: stream, flows SW 2.5 miles to Kuslina Creek, 5.2 miles NE of Liberty Falls and 70 miles NE of Valdez, Wrangell Mountains; 61° 38' 45" N, 144° 23' 40" W; (map 68). Name published in 1916 in Polk's Gazetteer.

Rabenfluss: stream, see Kelsall River.

Rabideux Creek: stream, heads in a lake and flows SE 11 miles to Susitna River, 11 miles SW of Talkeetna, Cook Inlet Lowland; 62° 10' 15" N 150° 11' 15" W; (map 81). Mountain climbers' name published in the late 1940's.

Rabonisky: locality, see Razboinski.

Race Point: point of land, elev. 3,000 ft., at E end of SE ridge of Marathon Mountain, 1 mile W of Seward, Chugach Mountains; 60° 06' 40" N 149° 28' 25" W; BGN 1966; (map 63). So named in 1965 by the Mountaineering Club of Alaska because "this is the turning point of the Marathon Mountain race held each year on July 4." See Marathon Mountain.

Race Point: point of land, N tip of Annette Island, between Annette Bay and Revillagigedo Channel, Alexander Archipelago; 55° 17' 10" N, 131° 34' 15" W; (map 3). Named by local pilots about 1875-80; published in 1885 by USC&GS.

Race Point: point of land, NW point of Fire Island, in Cook Inlet, 11 miles SW of Anchorage, Cook Inlet Lowland; 61° 10' 15" N, 150° 13' 50" W (map 70). Local name published in 1912 by USC&GS.

Race Reef: rocks, see Walden Rocks.

Race Rocks: rocks, between Akutan and Akun Islands, Krenitzin Islands, Aleutian Islands; 54° 07' 57" N, 165° 39' 25" W; (map 24). Name published in 1943 by USC&GS.

Race, Mount: mountain, 3,170 ft., on E coast of Baranof Island, 24 miles SE of Sitka, Alexander Archipelago; 56° 53' 20" N, 134° 47' 00" W; (map 5). Local name recorded in 1951 by USGS.

Race, The: water passage, between Ringgold Island and Sachem Head, in W part of Bay of Islands, Aleutian Islands; 51° 48' 30" N, 176° 50' 40" W BGN 1536; (map 17). Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934, "for the passage of similar name between Fishers Island and Long Island, New York."

Racetrack Basin: basin, 5 miles long, N of Rooftop Ridge, 58 miles NNE of Anaktuvuk Pass, Arctic Slope; 68° 56' N, 151° 00' W; BGN 1960; (map 134). So named by USGS geologists about 1950 because "exposed bedrock traces around the oval basin give it the appearance of a race track."

Racetrack Slough: stream, anabranch of Koyukuk River, 10 miles long, 13 miles NE of Roundabout Mountain, Koyukuk Lowland; 65° 44' N, 156° 31' W; (map 108). Local name obtained at Huslia by USGS in 1954 or 1955.

Rachek Island: island, 1 mile long, in Necker Islands, W of Baranof Island, 7 miles S of Goddard, Alexander Archipelago; 56° 44' 30" N, 135° 23' 00" W; (map 5) Local name published in 1943 by USC&GS.

Racine Creek: stream, heads on Gold Hill, flows SW 4 miles to Yukon River, 19 miles W of Tanana, Kokrines-Hodzana Highlands; 65° 12' N, 152° 46' W; (map 106). Local name reported in 1911 by H. M. Eakin, USGS.

Racquet Creek: stream, heads in Canada, flows N 8 miles to Drifting Snow Creek, 25 miles N of Midnight Hill, Porcupine Plateau; 66° 24' 33" N, 141° 04' 50" W; BGN 1954; (map 120). Named in 1908 by IBC surveyors; published in 1914 on IBC Sheet 14 (1918 Atlas).

Rademaker, Mount: mountain, 4,320 ft., on E coast of Baranof Island, 13 miles S of Baranof. Alexander Archipelago; 56° 53' 40" N, 134° 49' 00" W; (map 5). Local name recorded in 1951 by USGS.

Radar Hill: hill, 360 ft., S of Willow, 36 miles N of Anchorage, Cook Inlet Lowland; 61° 44' N, 150° 02' W; (map 70). Local descriptive name reported in 1958 by USGS.

Radcliffe Glacier: glacier, heads on Mount Marcus Baker, trends SE 9.5 miles to Harvard Glacier, 48 miles NE of Valdez, Chugach Mountains; 61° 18' 30" N, 147° 41' 30" W; (map 69). Named by members of the Harriman Alaska Expedition in 1899 for Radcliffe College, Cambridge, Mass.

Radenbough Cove: cove, 800 ft. across, on N coast of Pennock Island, 0.4 miles S of Ketchikan, Alexander Archipelago; 55° 20' 00" N, 131° 38' 30" W; (map 3). Variant: Rodenbough Cove. Local name published by USC&GS in 1923.

Rader Gulch: ravine, extends 1.3 miles NE of Copper Creek, 0.7 miles SE of junction of Texas Creek and Copper Creek and 17 miles SE of McCarthy, St. Elias Mountains; 61° 21' N, 142° 25' W; (map 67). Local name reported in 1908 by D. C. Witherspoon, USGS.

Radio Creek: stream, flows E 3 miles to Kogoluktuk River, 13 miles NE of Shungnak, Brooks Range; 66° 59' N, 156° 43' W; (map 115). Prospectors' name reported by USGS after 1940.

Radio Creek: stream, flows S 9 miles along E side of Dulbatna Mountain to Dulbi River, 48 miles WNW of Birches, Kokrines-Hodzana Highlands; 65° 17' 50" N, 155° 09' 10" W; (map 107). Local name obtained in 1952 by USGS topographers.

Radiolotden: locality, see Khadilotden.

Radovan Gulch: ravine, extends 22 miles N from glacier to Glacier Creek 2.4 miles SE of its junction with Chitistone River and 18 miles E of McCarthy, Wrangell Mountains; 60° 26' 15" N, 142° 21' 15" W; BGN 1946; (map 67). Local name reported by USGS in 1945; named for Martin F. Radovan, "a prospector who staked a number of copper lode claims in the gulch in 1929."

Raft Creek: stream, flows N 0.8 miles to channel between East and West Kiska Lakes, Kiska Island, Aleutian Islands; 52° 03' 30" N, 177° 34' 15" E; (map 14) An arbitrary name beginning with "R" to correspond to "R" grid used by the U.S. Army For tactical purposes during World War I 1; published on a 1953 AMS map.

Raft Creek: stream, heads in Clearwater Mountains, flows S 8.5 miles to Susitna River 25 miles N of junction of Oshetna River, Alaska Range; 62° 59' 30" N, 147° 18' 00" W; BGN 1959; (map 82). Named in 1954 by USGS because a "Geological Survey party utilized the stream to 'raft' supplies and boats to the Susitna River for a river traverse."

Rag Lake: lake, 0.2 miles long, S of East Kiska Lake, Kiska Island, Aleutian Islands; 52° 03' 05" N 177° 35' 20" E; (map 14) An arbitrary name beginning with "R" to correspond to "R" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Ragged Cove: cove, extends S 0.7 miles to Kashevarof Passage, 2 miles N of Thorne Island, on NE coast of Prince of Wales Island, Alexander Archipelago; 56° 09' N, 133° 03' W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow, USN; name published in 1887 on USC&GS Chart 706.

Ragged Island: island, 7 miles long, in Pye Islands, 6 miles E of Kenai Peninsula, 46 miles E of Seldovia, Chugach Mountains; 59° 30' N, 150° 24' W; BGN 1929; (map 50). Named by USC&GS in 1929, "because of the ragged and broken character of this island."

Ragged Mountain: mountain, 3,315 ft., extends 15 miles N of Katalla, Chugach Mountains; 60° 17' N, 144° 35' W; (map 64). So named in 1903 by Martin (1905, p. 22). USGS.

Ragged Peak: peak, 9,160 ft., in Mount McKinley National Park, E of Brooks Glacier, 17 miles NE of Mount McKinley, Alaska Range; 63° 12' 05" N, 150° 32' 45" W; BGN 1948; (map 88). So named in 1948 by Bradford Washburn because "It is extremely rugged being made of a slaty jagged rock that has been highly decomposed by frost action."

Ragged Point: point of land, on S coast of Alaska, at NE end of Wells Passage, 32 miles E of Whittier, Chugach Mountains; 60° 48' 35" N, 147° 46' 30" W; (map 63). Local name reported in 1952 by USGS.

Ragged Point: point of land, on SE coast of Kagalaska Island, Aleutian Islands; 51° 44' 40" N, 176° 17' 30" W; BGN 1936; (map 17). Descriptive name given by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

Ragged Point: point of land, see Oksenof Point.

Ragged Top: volcano, 3,030 ft., 3.4 miles E of Mount Cerberus, on SE part of Semisopochnoi Island, Aleutian Islands; 51° 55' 50" N, 179° 40' 20" E; BGN 1952; (map 15). This descriptive name given by USGS in 1948 because of the "deeply dissected nature of the extinct volcano."

Raggedtop Mountain: mountain, 5,215 ft., 5 miles N of Girdwood and 28 miles SE of Anchorage, Chugach Mountains; 61° 01' 00" N, 149° 08' 30" W; BGN 1932; (map 69). Variant: Ragged Top Mountain. Named by USGS in 1932 "because of the very rugged topography on the mountain top."

Raging Creek: stream, flows SW 6 miles to Simpson Bay, 8 miles NW of Cordova, Chugach Mountains; 60° 40' N, 145° 49' W; (map 64). Local descriptive name published in 1951 by USGS.

Raicheshnoe: locality, see Riechesni.

Railroad City: locality, on S bank of Innoko River, 4 miles E of Holy Cross, Innoko Lowland; 62° 11' 15" N, 159° 39' 00" W; (map 78). This name was applied about 1913 when the site was planned as the northern terminus of the Alaska Short Line Railroad, which was to extend from Iliamna Bay to the Yukon River. Recent USGS maps indicate a site with five or six buildings.

Railroad Lake: lake, see Rainbow Lake.

Rain Gulch: ravine, trends NW 1 mile to Candle Creek, 5.4 miles SW of Candle and 38 miles NE of Imuruk Lake, Seward Peninsula Highlands; 65° 51' N, 162° 01' W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Rainbow Basin: valley, trends NE 6 miles to Golden Horn, 50 miles NW of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 44' N, 159° 01' W; BGN 1932; (map 53). Local name reported in 1932 by Gerald FitzGerald, USGS.

Rainbow Bluff: bluff, see Nigu Bluff.

Rainbow Creek: stream, flows NW 2.5 miles to Bering Sea, 0.5 miles NE of Witchcraft Point, Kiska Island, Aleutian Islands; 52° 03' 25" N, 177° 31' 00" E; (map 14). An arbitrary name beginning with "R" to correspond to "R" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Rainbow Creek: stream, flows NW 4 miles to Tonsina River, 2.8 miles NE of Tonsina Lake and 40 miles NE of Valdez, Chugach Mountains; 61° 33' 05" N, 145° 26' 25" W; BGN 1932; (map 68). This stream was so named in 1932; the name was erroneously applied in 1912 to a stream in the Chitina quadrangle which was thought to be a tributary of Quartz Creek, but which was later found to be the main head of Slate Creek.

Rainbow Creek: stream, flows S 2.5 miles to Grand Central River, 29 miles NE of Nome, Seward Peninsula Highlands; 64° S4' N, 165° 06' W; (map 94). Prospectors' name reported in 1901 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Rainbow Creek: stream, flows S 6 miles to Meshik River, 11 miles S of Vent Mountain, Aleutian Range; 56° 44' N, 158° 04' W; (map 30). So named in 1923 by R. H. Sargent, USGS, because of "a beautiful rainbow seen here after a long storm."

Rainbow Creek: stream, flows SW 1.5 miles to Elliott Creek, 1.5 miles SE of Alice Peak and 80 miles NE of Valdez, Wrangell Mountains; 61° 38' 45" N, 144° 06' 30" W; (map 68). Prospectors' name reported in 1903 by W. C. Mendenhall, USGS.

Rainbow Creek: stream, flows SW 3 miles from Suicide Peak to N shore of Turnagain Arm, 15 miles SE of Anchorage, Chugach Mountains; 61° 00' 02" N, 149° 38' 30" W; (map 69). Name used by local prospectors; reported in 1895 by Becker (1898, p. 82), USGS.

Rainbow Creek: stream, see Slate Creek.

Rainbow Glacier: glacier, heads on E slope of Chilkat Range, trends E 1.5 miles to its terminus, 1.2 miles NW of mouth of Ludaseska Creek and 24 miles SW of Skagway, St. Elias Mountains; 59° 07' 10" N, 135° 28' 40" W; (map 45). Named by USC&GS and published in 1893 on Chart 8300.

Rainbow Gulch: ravine, extends NW 1.7 miles to Middle Fork Koyukuk River, 7 miles NW of Poss Mountain and 39 miles W of Chandalar, Brooks Range; 67° 28' 30" N, 149° 57' 30" W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Rainbow Lake: lake, 0.4 miles long, in Matanuska Valley, 17 miles W of Palmer, Cook Inlet Lowland; 61° 35' 45" N, 149° 37' 15" W; (map 69). Variant: Railroad Lake. Local name reported in 1965 by USGS.

Rainbow Lake: lake, 0.8 miles long, on Kenai Peninsula NW of Dolly Varden Lake, 18 miles NW of Kenai, Cook Inlet Lowland; 60° 43' 00" N, 150° 48' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Rainbow Lake: lake, 1 mile long, between Sheep River and Iron Creek, 26 miles E of Talkeetna, Talkeetna Mountains; 62° 20' N, 149° 19' W; (map 82). Local name recorded in 1950 by USGS.

Rainbow Lake: lake, 1.4 miles long, 3 miles SW of Willow and 34 miles N of Anchorage, Cook Inlet Lowland; 61° 41' 45" N, 150° 05' 15" W; BGN 1960; (map 70). So named in 1960 by James Nelson of Anchorage who has a homestead on the lake "because rainbows frequently appear above the lake."

Rainbow Mountain: peak, 6,700 ft., highest point of Rainbow Ridge, 20 miles NW of Paxson, Alaska Range; 63° 18' 35" N, 145° 37' 40" W; (map 86). So named locally because of the "vari-colored talus which slides down its face."

Rainbow Ridge: ridge, elev. 6,000 ft., extends NW 8 miles from McCallum Creek, E of Richardson Highway, 15 miles NW of Paxson, near Alaska Highway, Alaska Range; 63° 18' 15" N, 145° 37' 30" W; (map 86). Name published on relatively recent maps.

Rainbow River: stream, heads at central terminus of Serpent Tongue Glacier, flows NW 12 miles to Savonoski River, on Alaska Peninsula, in Katmai National Monument, 21 miles NE of Mount Katmai, Aleutian Range; 58° 34' 10" N, 154° 49' 00" W; BGN 1923;; (map 42). So named in 1923 by R. H. Sargent's USGS party "because six rainbows were seen there."

Rainbow: area, in S Anchorage, 1.3 miles SSW of City Hall, Cook Inlet Lowland; 61° 12' 05" N, 149° 54' 00" W; (map 69). Residential district in city of Anchorage reported in 1954 by office of city engineer of Anchorage.

Rainbow: village, pop. 20, miles 93.5 on The Alaska Railroad on N coast of Turnagain Arm Cook Inlet, 17 miles SE of Anchorage, Chugach Mountains; 61° 00' 15" N, 149° 38' 30" W; (map 69). Name of a flag stop listed in the 1919 Railway Guide Index; name derived from Rainbow Creek.

Rainey Creek: stream, see Rainy Creek.

Raineys Landing: locality, see Rennie's Landing.

Rainy Creek: stream, flows NW 4 miles to Eek River, 75 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 02' N, 160° 12' W; (map 59). Local name reported in 1955 by J. M. Hoare, USGS.

Rainy Creek: stream, flows NW 6 miles to Iditarod River, 4.7 miles SE of Mosquito Mountain and 33 miles SE of Holy Cross, Kilbuck-Kuskokwim Mountains; 62° 01' 45" N, 158° 49' 10" W; BGN 1944; (map 79). Prospectors' name obtained in 1913 by Eakin (1914, pl. 1), USGS.

Rainy Creek: stream, flows SE 17 miles to Colville River, 4 miles W of Umiat, Arctic Slope; 69° 20' N, 152° 17' W; BGN 1959; (map 141). Named in 1945 by U.S. Navy geological field party.

Rainy Creek: stream, formed by its North and West Forks, flows E 3.6 miles to Delta River, 20 miles NW of Paxson, Alaska Range; 63° 17' 10" N, 145° 47' 20" W; (map 86). Variant: Rainey Creek, Wilder Creek. Local name reported on 1910 fieldsheet by C. E. Giffin, USGS. The stream was called "Wilder Creek" in 1898 by Capt. E. F. Glenn, USA.

Rainy Creek: stream, in Kantishna Hills, flows S 3 miles to Moose Creek, 3 miles ENE of Wonder Lake, Alaska Range; 63° 31' 00" N, 150° 48' 10" W; (map 88). Prospectors' name reported in 1905 by L. M. Prindle, USGS.

Rainy Glacier: glacier, heads 1.5 miles SE of head of Tebenkof Glacier, trends NE 3 miles to its terminus, 10 miles SE of Whittier, Chugach Mountains; 60° 39' 45" N, 148° 30' 30" W; BGN 1911; (map 63). Named in 1911 by U. S. Grant, USGS.

Rainy Pass Lake: lake, 0.25 miles long, in Teocalli Mountains, S of Rainy Pass, in course of Pass Creek, 97 miles SE of McGrath, Alaska Range; 62° 12' 10" N, 153° 04' 30" W; (map 80). Local name obtained in 1958 by USGS.

Rainy Pass Lodge: roadhouse, at Puntilla Lake, 86 miles SW of Talkeetna, Alaska Range; 62° 05' 30" N, 152° 43' 50" W; (map 81). Local name reported in 1945 by USGS.

Rainy Pass: pass, 1,060 ft., at head of Moose Creek, central Kiska Island, Aleutian Islands; 51° 57' 05" N, 177° 31' 00" E; (map 14). One of many arbitrary names applied to features on Kiska Island by USAAF for tactical purposes during World War II.

Rainy Pass: pass, 3,400 ft., in Teocalli Mountains, at head of Pass Fork Dalzell Creek, 96 miles SE of McGrath, Alaska Range; 62° 13' N, 153° 05' W; (map 80). Discovered and named in 1902 by A. H. Brooks, USGS.

Rake Lake: lake, 200 yd. across, on northeastern Kiska Island, Aleutian Islands; 52° 02' 12" N, 177° 36' 35" E; (map 14). An arbitrary name beginning with "R" to correspond to "R" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Rakof Bay: estuary, see Crawfish Inlet.

Rakof Islands: islands, 4.5 miles across, 8 miles SE of Goddard, on SW coast of Baranof Island, Alexander Archipelago; 56° 43' N, 135° 17' W; (map 5). Russian name from “rakovyy,” meaning “crawfish,” published in 1926 by USC&GS.

Rakov, Zaliv: estuary, see Crawfish Inlet.

Rakovoi Bay: bay, 0.4 miles across, SE part of Whale Bay, on SW coast of Baranof Island, Alexander Archipelago; 56° 36' N, 134° 58' W; (map 5). Variant: Shell Bay, Zaliv Rakovyy. Russian name meaning “crawfish” given by Russian Hydrog. Dept., published about 1850 on Chart 1434.

Rakovoi Bay: estuary, see Crawfish Inlet.

Rakovoy Bay: estuary, see Crawfish Inlet.

Rakovyy, Zaliv: bay, see Rakovoi Bay.

Ralston Island: island, 1 mile long, in Lynn Canal, 0.2 miles N of Lincoln Island and 27 miles NW of Juneau, Alexander Archipelago; 58° 31' 45" N, 135° 02' 15" W; (map 11). Named by Comdr. R. W. Meade, USN, in 1868 for W. C. Ralston; published by USC&GS in the 1883 Coast Pilot (p. 194).

Ram Creek: stream, flows S 7 miles to Alatna River, 16 miles SW of Survey Pass, Brooks Range; 67° 52' N, 154° 31' W; (map 125). Local name reported by Robert Marshall in 1932.

Ram Point: point of land, on SW coast of Unalaska Island, Aleutian Islands; 53° 25' 00" N, 167° 31' 20" W; BGN 1940; (map 23). Variant: Wedge Point. Descriptive name given by USC&GS in 1939 “because the sole inhabitants of the locality are sheep ranchers.”

Rambler Camp: locality, 2.2 miles E of Mount Cameron and 13 miles WNW of Valdez, Chugach Mountains; 61° 13' N, 146° 36' W; (map 68). This mining camp name was reported in 1912 by USGS.

Rambler Creek: stream, flows SW 1.8 miles, between Lucky and Thunder Creeks, to Cache Creek, 30 miles NW of Talkeetna, Alaska Range; 62° 29' 28" N, 150° 59' 00" W; (map 81). Prospectors' name reported in 1911 by Capps (1913, fig. 5), USGS.

Ramp Island: island, 0.1 miles across, in Khaz Bay, 7 miles S of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 33' 40" N, 136° 05' 10" W; BGN 1908; (map 9). Named in 1908 by USC&GS. This was an arbitrary name derived from the name assigned in 1897 by Lt. Comdr. E. K. Moore, USN, to a triangulation station on the island. The name was published in the 1908 Coast Pilot (p. 171).

Rampart Canyon: canyon, see Rampart Gorge.

Rampart City: village, see Rampart.

Rampart Creek: stream, flows NW 2 miles to Yukon River just S of Rampart, Yukon-Tanana Highlands; 65° 30' 12" N, 150° 10' 50" W; (map 106). Named for the village; reported in 1956 by Orth.

Rampart Creek: stream, heads in De Long Mountains, flows N 11 miles to Jubilee Creek, 18 miles SW of Liberator Lake, Brooks Range; 68° 42' N, 158° 54' W; BGN 1960; (map 132). Named by Island L. Tailleux, USGS, in 1953, "for the rampart-like mountain front [of the De Long Mountains] drained by stream."

Rampart Gorge: canyon, of Yukon River, extends SW 20 miles from Carnet Island, 27 miles NW of Tanana, Kokrines-Hodzana Highlands: 65° 21' N, 151° 00' W; (map 106). Variant: Lower Ramparts, Rampart Canyon, The Ramparts. Descriptive name used in the late 1800's. "This canyon is one of the most beautiful and spectacular of the Yukon River."

Rampart Mountains: mountain range, elev. 1,800 to 3,400 ft., extends ENE 63 miles from Tozitna River to Squaw Creek, between Tozitna and Yukon Rivers, Kokrines-Hodzana Highlands; 65° 24' N, 151° 24' W; (map 106). Variant: Rampart Range, The Ramparts. Descriptive name "Rampart Range" published in 1869 by Raymond (1871, p. 22), U.S. Army Corps of Engineers.

Rampart Range: mountain range, see Rampart Mountains.

Rampart Rapids: rapids, see Rapids, The.

Rampart: village, pop. 49, on S bank of Yukon River, 61 miles ENE of Tanana, Yukon-Tanana Highlands; 65° 30' N, 150° 10' W; (map 106). Variant: Rampart City. With the discovery of gold in the Minook Creek drainage in 1896, a supply point on the Yukon River was established, called "Rampart City" by the miners for the "Ramparts of the Yukon." A post office called "Rampart" was established in 1898 (Ricks, 1965, p. 54). One of the town's early prospectors, Rex Beach, proved more capable at making money by writing than by prospecting. Rampart is said to have had a population of about 1,500 during its best days in 1898 and 1899 (Prindle, 1908, p. 60).

Ramparts, The: canyon, see Rampart Gorge.

Ramparts, The: mountain range, see Rampart Mountains.

Ramsay: bay, see Ramsey Bay.

Ramsdyke Creek: stream, heads in Dutch Hills, flows NE 5 miles to Tokositna River, 30 miles NW of Talkeetna, Alaska Range; 62° 38' 05" N, 150° 45' 20" W; (map 81). Prospectors' name reported in 1906 by R. W. Porter, USGS.

Ramsey Bay: bay, 1 mile across, on S coast of Alaska Peninsula, NW part of Stepovak Bay, Aleutian Range; 55° 50' 30" N, 159° 50' 30" W; (map 27). Variant: Ramsay. Local name published by USC&GS in 1916 Coast Pilot.

Ramshole Creek: stream, flows NE 4.3 miles to Cross Creek, 7.2 miles SW of its junction with Chisana River, Wrangell Mountains; 62° 08' N, 142° 18' W; (map 84). Local name reported in 1960 by USGS.

Rana Reef: reef, extends 0.7 miles, at E entrance to Port Real Marina, between Lulu and St. Ignace Islands, Alexander Archipelago; 55° 26' N, 133° 26' W; (map 4). Spanish name meaning "frog"; published in the 1925 Alaska Coast Pilot (p. 176).

Ranchera Island: island, see Rancheria Island.

Rancheria Island: island, 0.3 miles long, between Port Saint Nicholas and Trocadero Bay, on W coast of Prince of Wales Island, Alexander Archipelago; 55° 25' 40" N, 133° 05' 20" W; BGN 1923; (map 4). Variant: La Rancheria, La Ransheria, Ranchera Island. Named "La Rancheria," meaning "the settlement," by Francisco Antonio Maurelle on "May 31, 1779, * * * because there was a stockade on it." He found it uninhabited but with a number of good houses (Wagner, 1937, p. 404). In 1923 the name was formally applied to this island by USC&GS; its location was previously not clearly defined, and the name was in limited use.

Ranchers Point: point of land, at SW end of Unalaska Island, Aleutian Islands, 53° 23' 25" N, 167° 38' 30" W; BGN 1939; (map 23). Descriptive name given in 1939 by USC&GS "because the locality is used for grazing by the sheep ranchers from Chernofski Harbor."

Randolph Peak: mountain, 4,165 ft., on Glass Peninsula, 33 miles NE of Angoon, on E coast of Admiralty Island, Alexander Archipelago; 57° 52' 30" N, 134° 02' 30" W; BGN 1934; (map 9). Named in 1887 by Lt. C. M. Thomas, USN, for Peyton Randolph, first President of the Continental Congress in 1775.

Random Creek: stream, flows W 1.5 miles to Bering Sea between Witchcraft and Conquer Points, Kiska Island, Aleutian Islands; 52° 01' 50" N, 177° 30' 22" E; (map 14). An arbitrary name beginning with "R" to correspond to "R" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Randsburg Creek: stream, flows SE 0.5 miles to Hastings Creek, 10 miles E of Nome, Seward Peninsula Highlands; 64° 29' 35" N, 165° 03' 12" W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Range Creek: stream, flows NW 5 miles to Peril Strait, opposite Rapids Point, on Baranof Island, 28 miles N of Sitka, Alexander Archipelago; 57° 26' 45" N 135° 32' 15" W; (map 9). Named in 1884 by Comdr. J. B. Coghlan, USN, and published by USC&GS in the 1891 Coast Pilot (p. 183).

Range Island: island, 0.1 miles long, at mouth of McHenry Inlet, on SW coast of Etolin Island, Alexander Archipelago; 56° 00' 20" N, 132° 27' 40" W; (map 6). Descriptive name given for charting purposes in 1932 Coast Pilot (p. 151).

Range Island: island, 0.3 miles long, at N entrance of Popof Strait between Unga and Popof Islands, in Shumagin Islands, Aleutian Range; 55° 21' 15" N, 160° 30' 05" W; (map 28). Named in 1872 by W. H. Dall, USC&GS.

Range Island: island, in Prince William Sound off W coast of Knight Island, on N side of Drier Bay, 8.5 miles NE of Chenega, Chugach Mountains; 60° 18' 45" N, 147° 50' 35" W; (map 63). Variant: Range Isle. Reported in 1910 as Range Isle by USC&GS.

Range Island: island, see Range Islet.

Range Isle: island, see Range Island.

Range Islet: island, 1,300 ft. across, in Coal Harbor on Zachary Bay, Unga Island, in Shumagin Islands, Aleutian Range; 55° 20' N, 160° 38' W; (map 28). Variant: Range Island. Named Range Island in 1872 by W. H. Dall, USC&GS; published as Range Islet in 1916 Coast Pilot (p. 181).

Range Peak: mountain, 1,900 ft., on E shore of Iniskin Bay, 27 miles N of Augustine Island, Aleutian Range; 59° 45' N, 153° 22' W; BGN 1916; (map 51). Named for the 60-61 W Seward base meridian range line that traverses the area. Name published in 1913 on USC&GS Chart 3567.

Range Peak: mountain, 3,000 ft., 32 miles NE of Mount Veniaminof and 32 miles S of Port Heiden Airfield, Aleutian Range; 56° 30' N, 158° 45' W; (map 30). Local descriptive name reported by a 1951 USGS field party.

Range Point: point of land, between Fish Bay and Louise Cove, in Kakul Narrows, on NW coast of Baranof Island; Alexander Archipelago; 57° 22' 25" N, 135° 39' 25" W; (map 9). Named in 1884 by Comdr. J. B. Coghlan, USN, and published by USC&GS in the 1891 Coast Pilot (p. 181).

Range Point: point of land, on E shore of Chicagof Harbor, on NE coast of Attu Island, Aleutian Islands; 52° 55' 53" N, 173° 15' 20" E; (map 13). This name was given by Lt. William Gibson who commanded the schooner U.S.S. Fenimore Cooper during the North Pacific Exploring Expedition of 1854-55. The name is listed in the 1944 Aleutian Coast Pilot and is shown on an AMS map published in 1943.

Range Point: point of land, on S coast of Staten Island, Bay of Islands, Adak Island, Aleutian Islands; 51° 47' 45" N, 176° 47' 00" W; BGN 1936; (map 17). Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1933.

Range Point: point of land, on SW shore of Kanaga Bay, SE coast of Kanaga Island; Aleutian Islands; 51° 42' 23" N, 177° 12' 00" W; (map 17). Name published in 1957 on an AMS map.

Ranger Hill: hill, 1,265 ft., on northern Kiska Island, Aleutian Islands; 52° 02' 05" N, 177° 34' 05" E; (map 14). An arbitrary name beginning with "R" to correspond to "R" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Ranier Creek: stream, flows SE to American River, about 20 miles SE of Ear Mountain and 40 miles NE of Teller, Seward Peninsula Highlands; (map 111). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This feature cannot be precisely identified on current maps.

Rankin and Young Islands: islands, see Corlies Islands.

Ranney Creek: stream, heads at Ranney Glacier, flows SE 1.5 miles to Unakwik Inlet, 42 miles W of Valdez, Chugach Mountains; 61° 09' 10" N, 147° 31' 30" W; BGN 1910; (map 69). Named in 1908 by U.S. Grant and D. F. Higgins, USGS.

Ranney Glacier: glacier, heads E of Mount Castner, trends SE 1.8 miles to its terminus at head of Ranney Creek, 43 miles W of Valdez, Chugach Mountains; 61° 10' N, 147° 33' W; (map 69) Named in 1908 by U. S. Grant and D. F. Higgins, USGS.

Ranney Hollow: ravine, trends N 1.5 miles to Tolovana River, 4 miles S of Livengood, Yukon-Tanana Highlands; 65° 28' 20" N, 148° 31' 25" W; (map 105) Local name published by USGS in the 1950's.

Ransheria, La: island, see Rancheria Island.

Rapid City: locality, on left bank of Alatna River, 26 miles E of Walker Lake, Brooks Range; 67° 05' N, 153° 19' W; (map 125). This is the site of some cabins reported by Mendenhall (1902, pl. 4), USGS. Robert Marshall (1956, p. 97) visited the place in 1931 and related that it consisted of four crumbling cabins built in the autumn of 1898 when a group of prospectors were caught by an early freeze-up of the river. The place was probably occupied for one winter and was named for the adjacent rapids.

Rapid Creek: stream, flows E 0.8 miles to Sredni Bight on northern Kiska Island, Aleutian Islands; 52° 04' 00" N, 177° 37' 55" E; (map 14). An arbitrary name beginning with "R" to correspond to "R" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Rapid Creek: stream, flows N 9 miles to Shaw Creek, 13 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 19' N, 145° 37' W; (map 101). Descriptive name reported in 1908 by J. W. Bagley, USGS.

Rapid Creek: stream, heads at Crab Glacier on Mount Veniaminof, flows NE 12 miles to West Fork Chignik River, 26.5 miles W of Chignik, Aleutian Range; 56° 22' N, 159° 05' W; (map 30). Descriptive name reported in 1923 by R. H. Sargent, USGS.

Rapid Lake: lake, 100 yd. across, at head of Rapid Creek, on northern Kiska Island, Aleutian Island; 52° 03' 52" N, 177° 37' 10" E; (map 14). An arbitrary name beginning with "R" to correspond to "R" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Rapid River: stream, heads in Canada, flows SW 40 miles to Porcupine River, 8 miles N of Old Rampart and 33 miles ENE of Coleen Mountain, Porcupine Plateau; 67° 17' N, 141° 38' W; (map 121). Variant: Sucker River. This appears to be the same stream published as Sucker River by USC&GS in 1890. The present name was mentioned by R. C. McConnell, Canadian Geological Survey, in 1888 (FitzGerald, 1944, p. 226). So called because of the "boulder stream rapids that extend three quarters of a mile up stream from its mouth * * *."

Rapid River: stream, in York Mountains, flows SE 8 miles to Lost River which flows to Bering Sea, 25 miles NW of Teller, Seward Peninsula Highlands; 65° 25' N, 167° 09' W; BGN 1057; (map 111). Prospectors' name shown on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Rapid River: stream, see Don River.

Rapids Glacier: glacier, see Black Rapids Glacier.

Rapids Island: island, 0.2 miles across, 1 mile N of Fish Bay, in Peril Strait, off NW coast of Baranof Island, 26 miles NW of Sitka, Alexander Archipelago; 57° 24' 15" N, 135° 37' 40" W; (map 9). Variant: Ostrov Poroga. This is a translation by USC&GS about 1882 of the name given by the Russian pilot Ens. Vasiliev; published in 1848 on Russian Hydrog. Dept. Chart 1397 as "Os[trov] Poroga."

Rapids Point: point of land, 5 miles N of Fish Bay, in Peril Strait, on Chichagof Island, 29 miles NW of Sitka, Alexander Archipelago; 57° 27' 15" N, 135° 33' 10" W; (map 9). Named by W. H. Dall, USC&GS, and published in the 1883 Coast Pilot (p. 163). "Named for North Rapid in Rose Channel which is caused by the change in tides and which is located abreast of this point."

Rapids, The: rapids, in Yukon River E of Senatis Mountain, 32 miles ENE of Tanana, Kokrines-Hodzana Highlands; 65° 20' 30" N, 151° 04' 00" W; (map 106). Variant: Rampart Rapids. Descriptive name "Rampart Rapids" reported in 1869 by Raymond (1871, p. 22), U.S. Army Corps of Engineers.

Rapids, The: rapids, see Black Rapids.

Rasa Island: island, see Middleton Island.

Rasa, Isla: rock, see Wolf Rock.

Rasbinik: locality, see Razboinski.

Rasboinsky: locality, see Razboinski.

Rasbonisky: locality, see Razboinski.

Rasmussen Glacier: glacier, see Rasmusson Glacier.

Rasmussen Mountain: mountain, see Rasmusson Mountain.

Rasmusson Glacier: glacier, heads on E slope of Rasmusson Mountain, trends E 1.5 miles to its 1959 terminus, 1 mile W of Russell Fiord and 21 miles NE of Yakutat, St. Elias Mountains; 59° 44' 30" N, 139° 23' 45" W; (map 46). Variant: Rasmussen Glacier. Named in 1905 by Tarr and Martin (1906, map), USGS, for E. A. Rasmusson, teacher at a government school at Yakutat and missionary of the Swedish Evangelical Mission Covenant of America. It was called Rasmussen Glacier by R. S. Tarr and Lawrence Martin (1914, p. 165).

Rasmusson Mountain: mountain, 3,800 ft., 2.7 miles SE of Mount Hendrickson and 20 miles NE of Yakutat, St. Elias Mountains; 59° 47' 10" N, 139° 26' 10" W; (map 46). Variant: Rasmussen Mountain. Named by Tarr and Martin (1906, map), USGS, for E. A. Rasmusson, teacher at a government school at Yakutat and missionary of the Swedish Evangelical Mission Covenant of America.

Raso Rock: rock, 0.1 miles long, in Iphigenia Bay, 1.2 miles W of Heceta Island, Alexander Archipelago; 55° 44' 40" N, 133° 40' 50" W; (map 4). Spanish name meaning "flat (clear of obstruction)"; recorded in 1951 by USGS.

Rasp Ledge: rock, at N entrance to Mole Harbor, on E coast of Admiralty Island, 24 miles NE of Angoon, Alexander Archipelago; 57° 40' 40" N, 134° 02' 15" W; (map 9). Named in 1889 by Lt. Comdr. H. B. Mansfield, USN, and published by USC&GS in the 1891 Coast Pilot (p. 144).

Raspberry Cape: point of land, 24 miles W of Afognak, on W coast of Raspberry Island, N of Kodiak Island; 58° 03' 35" N, 153° 25' 00" W; (map 43). Variant: Cape Malinoff, Malinovoi, Strawberry Point. Translation of the name "M[ys] Malinovoy" given by Sub-Lt. Mikhail Murashev, IRN, in 1839 or 1840 and published by the Russian Hydrog. Dept. in 1849 on Chart 1425. Murashev applied this name to the present location of Malina Point, 2 miles to the southeast. The Russian American Company reapplied the name to its present location in 1849. This feature was called "Strawberry Point" by USC&GS in 1900.

Raspberry Cape: point of land, see Malina Point.

Raspberry Island: island, 13 miles long, between Afognak and Kodiak Islands; 58° 02' N, 153° 05' W; (map 43). Variant: Bolshoi Malinof, lukuk, Malinoff Island, Malinof Island, North Island, Sievernoi. USC&GS in 1868 derived Raspberry by translation of part of the name "Os[trov] Malinovoy ili Syvernoy," meaning "raspberry or north island." This name was given by Sub-Lt. Mikhail Murashev, IRN, in 1839 or 1840, and published by the Russian Hydrog. Dept. in 1849 on Chart 1425. This island was shown as "North Island" by Capt. Lisianski 1814, p. 169), IRN, and "O[strov] Bolshoy Malinovoy," meaning "big raspberry island," in Tebenkov (1852, map 22). The Russian American Company in 1849 published the name "Os[trov] Bol[shoy] Malinovsoky (Yukuk) " meaning "big raspberry (Yukuk) island."

Raspberry Lake: lake, 1.2 miles long, 4 miles E of Kings Slough Village, 25 miles SW of Beaver, Yukon Flats; 66° 11' N, 148° 10' W; (map 118). Local name obtained in 1956 by USGS.

Raspberry Strait: water passage, between Raspberry and Afognak Islands, N of Kodiak Island; 58° 02' N, 153° 00' W; (map 43). Variant: Malinovoi Strait. Translation of the name "Pr[oliv] Malinovoy" given by Sub-Lt. Mikhail Murashev, IRN, in 1839 or 1840, and published by the Russian Hydrog. Dept. in 1849 on Chart 1425.

Rat Creek: stream, heads at 67° 03' N, 141° 59' W, flows W 28 miles to Porcupine River, 35 miles NE of Chalkyitsik, Porcupine Plateau; 66° 58' N, 142° 44' W; (map 120). Local name obtained in 1956 by T. E. Taylor and R. C. Foley, USGS.

Rat Creek: stream, see Fort Creek.

Rat Island Pass: water passage, 9 miles wide, trends NW between Rat, Segula, and Little Sitkin Islands, Aleutian Islands; 51° 53' N, 178° 18' E; BGN 1937; (map 15). Named for Rat Island, and reported by personnel of the U.S.S. Oglala in 1935.

Rat Island: island, 0.1 miles across, off NW coast of Mansfield Peninsula, at mouth of Funter Bay, 0.6 miles S of Clear Point and 19 miles SW of Juneau, Alexander Archipelago; 58° 14' 00" N, 134° 54' 55" W; (map 11). Named by Lt. Comdr. H. B. Mansfield, USN, in 1890, and published by USC&GS in the 1891 Coast Pilot (p. 161).

Rat Island: island, 9 miles long, 13 miles NW of Amchitka Island, in Rat Islands, Aleutian Islands; 51° 48' N, 178° 19' E; BGN 1937; (map 15). Variant: Ajugadach Island, Ayougadakh Island, Ayugadak Island, Agadak Island, Krissey Island, Kryci Island, Krysi Island, Rats Island. This name is a translation from the Russian "Krysi" and probably from the Aleut name "Ayugadak," meaning "rat." Commodore Billings (1802, p. 220-221), IRN, listed Krissey Island; A. Arrowsmith (in Sauer, 1802) called it "Rats Island." "Os[trov] Ayugadak (Krysi)" was published in 1848 on Russian Hydrog. Dept. Chart 1400. Capt. Lutke (1836, p. 326-327), IRN, published "Kryci" and "Ayougadakh."

Rat Islands: islands, in Aleutian Islands, between Near Islands to W, and Andreanof Islands to E; extend from Amchitka Pass, 180 miles W to Buldir Island; they include Semisopochnoi, Amchitka, Rat, Little Sitkin, Segula, Kiska, and Buldir Islands, and several other small islands; 51° 58' N, 179° 47' E [E end], 52° 23' N, 175° 52' E [W end]; BGN 1963; (maps 14, 15). Variant: Ayugadak Islands, Kryci Islands Kryci Isles, Krysi Islands, Ostrova Krysiy. Named "Ostrova Krysiy" meaning "Rat Islands" in 1827 by Capt. F. P. Lutke, IRN. The name was published (Lutke, 1836, p. 324) as "Kryci Iles" [French transliteration of the Russian]. Baker (1906, p. 521), USGS, reported they were "usually called Krysi or Rat Islands."

Rat Islands: islands, see Near Islands.

Rat Lake: lake, 0.2 miles across, 0.7 miles SE of Witchcraft Point, on northwestern Kiska Island, Aleutian Islands; 52° 02' 30" N, 177° 30' 40" E; (map 14). An arbitrary name beginning with "R" to correspond to "R" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Rat Lake: lake, 0.3 miles across, S of Frenchman Lake 0.2 miles W of T Lake and 21 miles NW of Glennallen, Copper River Basin; 62° 10' 30" N, 146° 09' 00" W; (map 83). Local name reported by USGS in 1949.

Rat Lake: lake, 1 mile across, 13 miles SE of Beaver, Yukon Flats; 66° 11' 40" N, 147° 06' 40" W; (map 118). Local name obtained in 1956 by USGS.

Rat Lake: lake, 1 mile long, 23 miles N of Chalkyitsik, Yukon Flats; 66° 58' N, 143° 45' W; (map 120). Local name published in 1890 by USC&GS.

Rat River: stream, see Little Black River.

Rat, The: mountain, see Knob G.

Rathlatulik River: stream, flows NW 33 miles to Fish River, 50 miles NE of Solomon, Seward Peninsula Highlands; 64° 59' N, 163° 06' W; BGN 1910; (map 95). Variant: Arathlatuluk Creek. Eskimo name "Arathlatuluk" reported in 1908 by USGS.

Ratita, La: island, see Larzatita Island.

Ratkovsky: locality, see Afognak.

Rats Harbor: lagoon, see Ratz Harbor.

Rats Island: island, see Rat Island.

Rats, Gavan: lagoon, see Ratz Harbor.

Rattlesnake Lake: lake, 100 Yd. across, 1 mile S of West Kiska Lake, Kiska Island, Aleutian Islands; 52° 03' 15" N, 177° 32' 28"; (map 14). Variant: O'Brien Lake. An arbitrary name beginning with "R" to correspond to "R" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Rattlesnake Ridge: ridge, 1 mile long, 1 mile S of West Kiska Lake, Kiska Island, Aleutian Islands; 52° 03' N, 177° 32' E; (map 14). An arbitrary name beginning with "R" to correspond to "R" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map. The name "O'Brien Lake" was applied to this feature and annotated on an AMS map in the 1940's; probably to commemorate one of the American soldiers killed on the island.

Ratz Creek: stream, 6 miles long, flows E through Big Lake and N through Trumpeter Lake to Ratz Harbor, NE coast of Prince of Wales Island, Alexander Archipelago; 55° 53' 25' N, 132° 37' 15" W; BGN 1962; (map 4). "This stream is the principal drainage into Ratz Harbor and the name is used locally"; reported in 1961 by USFS.

Ratz Harbor: lagoon, 2 miles long, off Clarence Strait, 7.5 miles W of Onslow Island, NE coast of Prince of Wales Island, Alexander Archipelago; 55° 53' 15' N, 132° 35' 45" W; BGN 1962; (map 4). Variant: Gavan Rats, Rats Harbor. Named "Gav[an] Rats," or "Rats Harbor," by Capt. Tebenkov (1849, map 9), IRN.

Ratz Point: point of land, 8.5 miles W of Onslow Island, NE coast of Prince of Wales Island, Alexander Archipelago; 55° 54' 30" N, 132° 36' 50" W; (map 4). Named in 1886 by Lt. Comdr. A S. Snow USN, derived from Ratz Harbor.

Ravalga Island: island, see Kavalga island.

Raven Basin: basin, extends 7 miles from N to S, along W side of Igloo Mountain, 25 miles NNE of Mount Kelly, Arctic Slope; 68° 47' N, 163° 02' W; (map 130). Name published in 1964 by USGS.

Raven Bay: bay, 2.5 miles across, S coast of Unalaska Island, Aleutian Islands; 53° 27' N, 166° 51' W; (map 23). Name given by the USBF in 1888.

Raven Bay: bight, see Sredni Bight.

Raven Creek: stream, flows N 10 miles to Lynx Creek, 20 miles NE of Rampart, Yukon-Tanana Highlands; 65° 38' 30" N, 149° 34' 15" W; (map 105). Named by prospectors, according to report in 1902 by Lt. Hjalmar Erickson, USA; published by USGS (Prindle, 1905, pl. 16).

Raven Creek: stream, heads at Raven Glacier trends N 6 miles to its junction with Eagle River. 26 miles E of Anchorage, Chugach Mountains; 61° 09' 20" N, 149° 07' 20" W; (map 69). Local name reported in 1898 by W. C. Mendenhall, USGS.

Raven Creek: stream, heads in Indian Mountains, flows WNW 8 miles to Atla Creek, 7 miles NNE of Hughes, Kokrines-Hodzana Highlands; 66° 08' N, 154° 08' W; (map 116). Reported to be the name of an Indian clan; recorded at Hughes in 1956 by Orth.

Raven Glacier: glacier, trends NW 2.7 miles to its terminus at the head of Raven Creek, 27 miles SE of Anchorage, Chugach Mountains; 61° 04' 15" N, 149° 07' 00" W; (map 69). Local name reported in 1931 by USGS.

Raven Hills: hills, 1.5 miles E of Nabesna, Wrangell Mountains; 62° 22' N, 142° 56' W; (map 84). Local name reported by USGS in 1960.

Raven Island: island, 250 ft. long, in Vixen Bay, 1.8 miles S of Boca de Quadra, Coast Mountains, 55° 03' N, 130° 47' W; (map 3). Name published in 1917 by USC&GS.

Raven Lake: lake, 0.3 miles long, on Kenai Peninsula, 0.5 miles N of Swan Lake and 27 miles NE of Kenai, Cook Inlet Lowland; 60° 41' 30" N, 150° 32' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Raven Lake: lake, 0.6 miles across, on Kenai Peninsula, 0.7 miles N of Star Lake and 18 miles S of Kenai, Cook Inlet Lowland; 60° 18' N, 151° 09' W; (map 62). Named about 1963 by officials of Kenai National Moose Range, probably for the Northern Raven (*Corvus corax principalis*).

Raven Point: point of land, on W coast of Unimak Island, 3 miles NE of Cape Sarichef, Aleutian Islands; 54° 37' 40" N, 164° 51' 00" W; BGN 1942; (map 24). Named in 1942 by USC&GS for the triangulation station Raven on this point.

Raven Ridge: ridge, elev. 1,200-2,800 ft., in Rampart Mountains, extends S 5 miles to Yukon River, 38 miles ENE of Tanana, Kokrines-Hodzana Highlands; 65° 24' N, 150° 56' W; (map 106). Riverboat pilots' name shown on a Yukon River track chart manuscript dated 1906.

Ravine Lake: lake, 2,100 ft. long, between Bonnie Lake and Matanuska River, 0.4 miles N of Glenn Highway, 30 miles NE of Palmer, Talkeetna Mountains; 61° 48' 15" N, 148° 17' 20" W; BGN 1966; (map 69). Local name reported about 1948 by USGS.

Ray Anchorage: bay, 1.3 miles across, E coast of Duke Island, Alexander Archipelago; 54° 56' N, 131° 14' W; (map 2). Variant: Bay. Named as early as 1844 by USC&GS.

Ray Creek: stream, flows W 1.8 miles to Canyon Creek which flows to Imuruk Basin, 34 miles NW of Nome, Seward Peninsula Highlands; 64° 56' N, 165° 55' W; (map 94). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Ray Creek: stream, flows W 9 miles to Cinder River, on Alaska Peninsula, 38 miles NW. of Sutwik Island, Aleutian Range; 57° 02' 00" N, 157° 49' 45" W; (map 36). Named in 1923 by R. H. Sargent, USGS, for "Ray Russell," recorder for his party and previous USGS expeditions.

Ray Mountains: mountain range, elev. 2,500 to 5,500 ft., extends W 75 miles from Yukon River N of Tozitna River, Kokrines- Hodzana Highlands; 65° 43' N, 151° 15' W; (map 106). Name reported by Eakin (1916, pl. 1), USGS; named for the Ray River.

Ray River Hot Spring: spring, in headwaters of Ray River, 38 miles NNW of Rampart and 65 miles NE of Tanana, Kokrines- Hodzana Highlands; 65° 58' N, 150° 55' W; (map 106). Prospectors' name reported by Waring (1917, p. 64), USGS.

Ray River: stream, heads at 65° 51' N, 151° 06' W, and flows E 50 miles to Yukon River, 28 miles NE of Rampart, Kokrines- Hodzana Highlands; 65° 53' N, 149° 48' W; BGN 1959; (map 105). Variant: Chetaht, Che-taut, Chetaut, Seet-oht, Shetchaut, Tseetoht. Named by Lt. H. T. Allen, USA, in 1885 for Capt. Patrick Henry Ray, USA, who established a station at Barrow in 1881 for meteorologic and magnetic observations. The Indian name, according to Dall (1870, p. 281) of the Western Union Telegraph Expedition in 1867, was "Tseetoht." It was spelled "Shetchaut", by Whympfer (1869, map). Recent Maps have confused the Ray and Big Salt Rivers.

Raychevsnoi: locality, see Riechesni.

Raymond Cove: estuary, extends N 1.5 miles off Behm Canal, on E coast of Cleveland Peninsula, Alexander Archipelago; 55° 37' 20" N, 131° 52' 15" W; (map 3). Local navigators' name obtained in 1904 by H. C. Fassett, USBF.

Raymond Peak: mountain, 2,290 ft., W of head of Middle Bay, 11 miles SW of Kodiak, Kodiak Island; 57° 39' 40" N, 152° 32' 50" W; (map 34). Local name reported in 1949 by USGS.

Raymond, Mount: mountain, 6,620 ft., on Alaska-Canada boundary, 3 miles N of junction of Takini River with Chilkat River and 26 miles NW of Skagway, Coast Mountains; 59° 39' 50" N, 135° 57' 00" W; BGN 1954; (map 45). Named "Raymond Peak" by the United States and Canada in 1927 for Raymond L. Ross of the U.S. section of the IBC.

Razbitie, Point: point of land, on W shore of Porcupine Bay, at head of Islas Bay, 16 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 50' 00" N, 136° 22' 15" W; (map 9). Russian word meaning "wreck" given in 1928 by USC&GS.

Razboiniksky: locality, see Razboinski.

Razboinski: locality, on right bank of Yukon River, Yukon-Kuskokwim Delta; 62° 01' N, 162° 28' W; BGN 1897; (map 77). Variant: Kinegnagak, Kinegnagamiut, Rabonisky, Rasbinik, Rasboinsky, Rasbonisky, Razboiniksky, Razboinsky. Russian name meaning "robber" given

by the Russians for this former Eskimo village. The Eskimo name "Kinegnagamiut" was listed with a population of 92 in the 1890 Census.

Razboinsky: locality, see Razboinski.

Razrishaenia, Mys: point of land, see Decision, Cape.

Razrysheniya, Mys: point of land, see Decision, Cape.

Reaburn, Mount: mountain, 5,700 ft., in Brabazon Range, 5 miles NW of head of Chamberlain Glacier and 39 miles E of Yakutat, St. Elias Mountains; 59° 26' 00" N, 138° 38' 15" W; (map 46). So named by Blackwelder (1907, p. 416), USGS, for W. B. Reaburn, United States member of the IBC survey party of 1906. Reaburn was thought to be the first white man to cross the Yakutat Glacier from the surface of which Mount Reaburn is seen as a prominent feature.

Reach Point: point of land, on E coast of Umak Island, Aleutian Islands; 51° 52' 10" N, 175° 57' 10" W; BGN 1936; (map 18). Named by personnel of the U.S. Navy Aleutian Island Survey Expedition of 1934, and shown on a 1952 USGS map.

Read Island: island, 2 miles long in Farragut Bay, 1.5 miles N of Grand Point and 82 miles E of Sitka, Coast Mountains; 57° 07' 30" N, 133° 11' 30" W; (map 8). Named in 1887 by Comdr. C. M. Thomas, USN, for Ens. Maurice L. Read, a member of his surveying party; published in 1888 by USC&GS.

Ready Bullion Beach: beach, on NE coast of Douglas Island, on Gastineau Channel, 1.7 miles SE of Treadwell and 5 miles SE of Juneau, Coast Mountains; 58° 14' 48" N, 134° 20' 12" W; (map 11). Named by Frank Berry, Antone Marks, William Meehan, John Prior, and James Rosewall, prospectors, in 1880. In their search for gold, they camped at the mouth of Ready Bullion Creek where William Meehan, finding gold, is reported to have shouted "Look at this! Why it is almost ready bullion." (DeArmond, 1957, p. 36).

Ready Bullion Creek: stream, flows N 4 miles to Bettles River, S of Wiehl Mountain and E of Emery Creek, 29 miles WNW of Chandalar, Brooks Range; 67° 34' N, 149° 35' W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Ready Bullion Creek: stream, flows NW 0.7 miles to Telegram Creek which joins Eldorado Creek to form Dome Creek, 22 miles NW of Solomon, Seward Peninsula Highlands; 64° 52' N, 164° 36' W; (map 95). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Ready Bullion Creek: stream, flows NW 4 miles to Bullion Creek in Pargon River basin, 10 miles NE of Council and 40 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 01' N, 163° 29' W; (map 110). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Ready Bullion Creek: stream, flows SE 2.5 miles to Ester Creek, 8.5 miles W of Fairbanks, Yukon-Tanana Highlands; 64° 50' 40" N, 148° 01' 05" W; (map 100). Named by prospectors; shown on manuscript map in 1905 by C. W. Joint.

Ready Bullion Creek: stream, flows SE 5 miles to Tolovana River, 5 miles S of Livengood, Yukon-Tanana Highlands; 65° 28' N, 148° 33' W; (map 105). Name of stream flowing to Livengood Creek reported in 1915 by USGS (in Brooks and others, 1916, pl. 9); subsequently, the stream has been found to flow to the Tolovana River, as shown on recent maps. It was prospected, and probably named, by Ked Anderson.

Ready Bullion Creek: stream, on Douglas Island, flows NE 3 miles to Gastineau Channel, 4 miles SE of Juneau, Coast Mountains; 58° 15' 15" N, 134° 20' 45" W; (map 11). Variant: Bullion Creek. Named by Frank Berry, Antone Marks, William Meehan, John Prior, and James Rosewall, prospectors, in 1880, when gold was discovered by William Meehan at the mouth of the stream (DeArmond, 1957, p. 36).

Ready Bullion Creek: stream, see Bullion Creek.

Ready Money Creek: stream, heads on Serpentine Ridge, flows S 2.6 miles to Sullivan Creek, 6 miles SW of Roughtop Mountain and 34 miles ESE of Tanana, Yukon-Tanana Highlands; 65° 06' 35" N, 150° 54' 25" W; (map 106). Local name reported in 1952 by USGS.

Real Marina, Port: water passage, 7 miles long, between Baker and Lulu Islands, Alexander Archipelago; 55° 25' 30" N, 133° 30' W; (map 4). Variant: Port de la Marina, Puerto de la Real Marina, Real Marine Port, Sea Otter Bay. Named "Puerto de la Real Marina," or "Port of the Royal Navy," on May 22, 1779, by Francisco Antonio Maurelle. The name probably arose because of its size; it was large enough to hold the entire Spanish Royal Navy (Wagner, 1937, p. 404).

Real Marina, Port: water passage, see Siketi Sound.

Real Marine Port: water passage, see Real Marina, Port.

Recheshnaia: village, see Nikolski.

Recheshnoe: village, see Nikolski.

Recheshnoi Mount: mountain, see Vsevidof, Mount.

Recheshnoi, Mount: mountain, 6,510 ft., in S Central Umnak Island, Aleutian Islands; 53° 09' 15" N, 168° 32' 00" W; BGN 1947; (map 22). Variant: Mount Recheshnoy, Mount Retscheschnoj, Mount Vsevidof. Russian name published by Coats (1950, P. 38), USGS.

Recheshnoy, Mount: mountain, see Recheshnoi, Mount.

Recheshnoy, Zaliv: bay, see Akun Bay.

Rechnoy, Mys: point of land, see Rothsay, Point.

Recon Creek: stream, flows N 8 miles to Jubilee Creek, 13 miles SW of Liberator Lake, Brooks Range; 68° 45' N, 158° 49' W; (map 132). So named in 1952 by B. H. Kent and Island L. Tailleux, USGS, "for spike [reconnaissance] trip on this creek."

Record City: locality, at junction of Pinnell and Inmachuk Rivers, 18 miles N of Imuruk Lake, Seward Peninsula Highlands; 65° 53' N, 163° 04' W; (map 110). Site of a mining camp; reported in 1903 By F. H. Moffit (in Emmons and Hayes, 1904, p. 76), USGS.

Red Bay Mountain: mountain, 3,042 ft., on Prince of Wales Island, 5 miles NE of Shakan Bay, Alexander Archipelago; 56° 13' 00" N, 133° 22' 30" W; BGN 1900; (map 6). Variant: False Mount Calder. Named in 1891 by Lt. Comdr. H. E. Nichols, USN, who in 1881 called it "False Mount Calder."

Red Bay: bay, extends NE 6 miles to Sumner Strait, on N coast of Prince of Wales Island, Alexander Archipelago; 56° 20' N, 133° 18' W; (map 6). Variant: Bukhta Krasnaya, Krasnaia Bay. An 1882 translation by USC&GS of the name published in 1853 on Russian Hydrog. Dept. Chart 1493 as "Bukhta Krasnaya."

Red Beach: beach, 0.2 miles long, on Bering Sea, N of Holtz Bay, Attu Island, Aleutian Islands; 52° 57' 50" N, 173° 10' 02" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II; shown on an AMS map published in 1948.

Red Bed Peak: mountain, 3,500 ft., in Glacier Bay National Monument, 1.7 miles SE of 1950 terminus of Charpentier Glacier and 55 miles NW of Hoonah, St. Elias Mountains; 58° 40' 10" N, 146° 30' 35" W; (map 10). Local name reported in 1951 by USGS.

Red Bluff Bay: bay, 0.5 miles across, 4 miles long, 16 miles S of Baranof, on E coast of Baranof Island, Alexander Archipelago; 56° 50' 30" N, 134° 42' 00" W; (map 5). Named in 1895 by Lt. Comdr. E. K. Moore, USN.

Red Bluff Creek: stream, flows N 14 miles to Yellow Bluff Creek, 18 miles S of Port Heiden Airfield, Bristol Bay Lowland; 56° 43' N, 158° 44' W; (map 30). Descriptive name reported in 1923 by R. H. Sargent, USGS.

Red Bluff Mountain: mountain, 2,200 ft., on S coast of Alaska Peninsula, 25 miles E of Stepovak Bay, Aleutian Range; 55° 56' N, 159° 03' W; (map 27). Local descriptive name published by USC&GS in 1947 Coast Pilot (v. 2, p. 297).

Red Bluff: bluff, 200 ft. high, extends 2 miles along left bank of Black River, 6 miles NE of Chalkyitsik, Yukon Flats; 66° 41' N, 143° 29' W (map 120). Local descriptive name; reported in 1956 by R. C. Foley, USGS.

Red Bluff: bluff, elev. 89 ft., on N shore of Egegik Bay, on N coast of Alaska Peninsula, 4 miles NW of Egegik and 38 miles SW of Naknek, Bristol Bay Lowland; 58° 04' N, 157° 29' W; (map 41). Local name reported in 1952 by USGS.

Red Bluff: bluff, W of Haycock Rock, on N coast of Kiska Island, Aleutian Islands; 52° 05' 00" N, 177° 40' 00" E; (map 14). Named for triangulation station Red on top of bluff.

Red Bluff: hill, near Adak Air Base, 2.5 miles S of Andrew Lagoon, on Adak Island, Aleutian Islands; 51° 53' 05" N, 176° 38' 45" W; (map 17). Local name published by USGS (Coats, 1956a, p. 58), but since this report was written the hill has been removed.

Red Bluff: point of land, on E shore of Seldovia Bay, 0.3 miles N of Seldovia, Chugach Mountains; 59° 27' N, 151° 43' W; (map 50). Descriptive name reported by USC&GS in 1909.

Red Bluffs: bluffs, elev. 393 ft., on S coast of St. George Island, in Pribilof Islands; 56° 32' 20" N, 169° 38' 00" W; (map 38). Variant: Kimilogchilog. Descriptive name reported in 1891 by Joseph Stanley-Brown, naturalist. Putnam (1903, p. 1015), USC&GS, gives the Aleut name as "Kimilogchilogh" meaning "living place in autumn," "so called because there was formerly a barabara or native house here, where some natives lived during the season for fox trapping."

Red Cape: point of land, see Krasni Point.

Red Cinder Dome: mountain, 1,874 ft., on N coast of Unalaska Island, Aleutian Islands; 53° 58' 20" N, 166° 52' 35" W; BGN 1939; (map 23). So named in 1937 by USC&GS because it "is a large reddish cinder dune [sic], a sort of half crater * * *."

Red Cloud River: stream, flows NE 4 miles to Anton Larsen Bay, 8 miles NW of Kodiak, Kodiak Island; 57° 50' 30" N, 152° 37' 30" W; BGN 1966; (map 34). Local name reported in 1952 by USGS.

Red Cove: bay, extends N 0.2 miles inland from Popof Strait, on S coast of Popof Island, in Shumagin Islands, Aleutian Range; 55° 17' 30" N, 160° 26' 30" W; (map 28). This local name was reported in 1872 by W. H. Dall, USC&GS; a colonial settlement was located on or near this cove, according to P. Tikhmeniev.

Red Creek: stream, flows N 4.8 miles to Keta River 5.3 miles NE of its junction with Boca de Quadra, Coast Mountains; 55° 23' 18" N, 130° 22' 28" W; (map 3). Local name reported in 1955 by USGS.

Red Creek: stream, flows N 5 miles to Yacko Creek, 23 miles S of junction of Oshetna and Susitna Rivers and 66 miles W of Gulkana, Talkeetna Mountains; 62° 18' 20" N, 147° 23' 10" W; (map 82). Local name reported by F. H. Moffit (in Brooks and others, 1905, pl. 3), USGS.

Red Creek: stream, flows S 1.5 miles to Niukluk River, 4.5 miles NW of Council and 32 miles NE of Solomon, Seward Peninsula Highlands; 64° 56' N, 163° 48' W; (map 95). Prospectors' name reported on a 1901 map of the Cape Nome gold fields by David Fox, Jr.

Red Creek: stream, heads on N side of Red Glacier, flows NE 4.5 miles to Johnson River, 63 miles SW of Kenai, Aleutian Range; 60° 04' N, 152° 48' W; (map 62). Name derived from Red Glacier; reported in 1921 by F. H. Moffit, USGS.

Red Creek: stream, heads W of and flows NE through Red Lake 30 miles to Johnson Creek, 51 miles SW of Talkeetna, Alaska Range; 62° 03' 55" N, 151° 36' 15" W; (map 81). Local name reported in 1945 by USGS.

Red Devil Creek: stream, flows N 1.3 miles to Kuskokwim River at village of Red Devil, 6 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 45' 45" N, 157° 18' 30" W; (map 72). Local name obtained in 1952 by USGS.

Red Devil: village, pop. 152, on left bank of Kuskokwim River at mouth of Red Devil Creek, 6 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 45' 45" N, 157° 18' 30" W; (map 72). Mining town named for the mercury mine near which it is built; published in 1950 by USGS. A post office was established here in 1957.

Red Dog Lake: lake, 0.5 miles across, 24 miles N of Chalkyitsik, Yukon Flats; 67° 00' N, 143° 45' W; (map 120). Local name obtained in 1956 by T. E. Taylor and R. C. Foley, USGS.

Red Fox Creek: stream, flows NE 6.8 miles to Tyone Creek, 21 miles N of Tahnetta Pass, Talkeetna Mountains; 62° 11' 05" N, 147° 22' 30" W; BGN 1960; (map 82). Named in 1956 by USGS "because of the red fox which abound in the area."

Red Gate: bluffs, Porcupine River passes between two bluffs 5 miles ESE of Fishhook Bend, 24 miles NE of Coleen Mountain Porcupine Plateau; 67° 11' N, 141° 58' W; (map 121). Name published by Kindle (1908, fig. 1), USGS, "so named because of the coloration in the canyon walls * * *" (FitzGerald, 1944, p. 227).

Red Glacier: glacier, heads at Iliamna Volcano, trends SE 12 miles to terminus at Red River, 48 miles NW of Homer, Aleutian Range; 59° 58' N, 152° 48' W; (map 50). Name reported in 1912 by USC&GS.

Red Glacier: glacier, in Lincoln Mountains, trends N 2.3 miles to its 1955 terminus 6.5 miles NW of Hyder, Coast Mountains; 55° 58' 30" N, 130° 10' 15" W; BGN 1927; (map 3). Descriptive name given in 1926 by A. F. Buddington, USGS, because the "moraine of this glacier is almost wholly of red quartz monzonite boulders."

Red Head: point of land, at W entrance to Port Gravina, 28 miles NW of Cordova, Chugach Mountains; 60° 40' 15" N, 146° 30' 00" W; (map 64). Local name reported in 1898 by Capt. Abercrombie (1899, map), USA.

Red Head: promontory, at W end of Steller Cove, on N coast of Attu Island, Aleutian Islands; 52° 59' 40" N, 172° 54' 30" E; BGN 1938; (map 13). Descriptive name given by the North Pacific Expedition in 1855. This feature is reported as being "readily identified even in fog because of its distinctive reddish color" (USC&GS, 1944, p. 134).

Red Hill Creek: stream, in Nutzotin Mountains, flows W 5 miles to Chisana River, 4.5 miles NE of Euchre Mountain, Alaska Range; 62° 05' 30" N, 142° 04' 30" W; (map 84). Local name reported in 1960 by USGS.

Red Hill: hill, 750 ft., on W end of Unimak Island, Aleutian Islands; 54° 35' 33" N, 164° 52' 35" W; (map 24). Descriptive name published on a 1943 AMS map.

Red Hill: mountain, 1,870 ft., at W end of Sadlerochit Mountains, at head of Tamayariak River, 50 miles NW of Mount Michelson Brooks Range; 69° 37' 30" N, 146° 05' 30" W; (map 139). Leffingwell (1919, p. 116) wrote "On the top of Red Hill at the west end of the Sadlerochit Mountains * * *."

Red Hill: mountain, 2,356 ft., on S coast of Alaska Peninsula, W of Grub Gulch, NW shore of Stepovak Bay, Aleutian Range; 55° 48' 00" N, 159° 58' 30" W; (map 27). Local descriptive name published by USC&GS in 1947 Coast Pilot (p. 306).

Red Hills: mountains, 3,000 ft., extend NW 10 miles just N of Portage Arm, 10 miles NW of Eagle Mountain and 68 miles NW of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 57' N, 159° 04' W; BGN 1932; (map 53). Descriptive name given in 1931 by members of USGS field survey party because "the top of the ridges appeared to be red in the sunlight."

Red Lake: lake, 1.4 miles long, in course of Red Creek, N of Skwentna River, 70 miles NW of Tyonek, Alaska Range; 61° 59' N, 152° 06' W; (map 70). Local name reported in 1958 by USGS.

Red Lake: lake, 2 miles long, at head of Red Bay, on N coast of Prince of Wales Island, Alexander Archipelago; 56° 15' N, 133° 19' W; BGN 1923; (map 6). Named in 1923 by USFS.

Red Lake: lake, 3.7 miles long, 22 miles S of Karluk, near SW coast of Kodiak Island; 57° 15' N, 154° 17' W; (map 35). Local name reported in 1952 by USGS.

Red Lodge Creek: stream, flows NE 4 miles to Faro Creek, 28 miles N of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 31' N, 161° 30' W; (map 53). Local name reported in 1919 by G. L. Harrington (in Brooks, 1921, pl. 7), USGS.

Red Mountain Creek: stream, flows N 3 miles to Dry Creek, 53 miles NE of Healy, Alaska Range; 63° 56' 45" N, 147° 21' 10" W; (map 87). Local descriptive name reported in 1910 by J. W. Bagley (in Capps, 1912, pl. 2), USGS.

Red Mountain Creek: stream, flows NW 2.5 miles to Chisna River 2.5 miles NE of its junction with Chistochina River, 22 miles NE of Paxson, Alaska Range; 63° 04' 36" N, 144° 48' 10" W; (map 86). Name reported in 1902 by W. C. Mendenhall, USGS.

Red Mountain Creek: stream, heads on Red Mountain, flows S 6 miles to Koyukuk River, 20 miles NE of Hughes, Hogatza Highlands; 66° 17' N, 153° 53' W; (map 116). Local name recorded at Hughes in 1956 by Orth; named for the mountain on which it heads.

Red Mountain Creek: stream, see Willow Creek.

Red Mountain: hill, 853 ft., on right bank of Yukon River, 2 miles W of Paimiut and 37 miles ENE of Russian Mission, Yukon- Kuskokwim Delta; 61° 58' N, 160° 18' W; (map 73). Riverboat pilots' name shown on a 1922 manuscript chart of the Yukon River.

Red Mountain: mountain, 1,235 ft., on S part of Unga Island, in Shumagin Islands, Aleutian Range; 55° 13' 10" N, 160° 35' 45" W; (map 28). Descriptive name shown on 1907 USC&GS chart.

Red Mountain: mountain, 1,461 ft., in Kuskokwim Mountains E of Vreeland Creek, 9 miles SW of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 35' N, 157° 16' W; (map 72). Descriptive name reported in 1954 by W. M. Cady, R. E. Wallace, J. M. Hoare, and E. J. Webber, USGS.

Red Mountain: mountain, 1,887 ft., 21 miles N of Chagvan Mountain and 33 miles NE of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 57' 15" N, 161° 44' 30" W; (map 39). Descriptive name published in a 1933 U.S. Dept. of Interior mining report.

Red Mountain: mountain, 2,068 ft., on Annette Island, 1.8 miles SE of Walden Point, Alexander Archipelago; 55° 15' 02" N, 131° 34' 05" W; (map 3). Descriptive name given in 1883 by Lt. Comdr. H. E. Nichols, USN.

Red Mountain: mountain, 3,524 ft., in Kenai Mountains, 10 miles SE of Seldovia, Chugach Mountains; 59° 21' 30" N, 151° 29' 00" W; BGN 1911; (map 50). Descriptive local name reported in 1909 by U. S. Grant and D. F. Higgins (in Brooks and others, 1910, p. 168), USGS.

Red Mountain: mountain, 3,580 ft., Glacier Bay National Monument, 3 miles NE of The Nunatak and 67 miles NW of Hoonah, St. Elias Mountains; 58° 59' 55" N, 136° 00' 50" W; (map 10). Descriptive name given in 1890 by H. F. Reid. Name was published by Cushing (1891, map)

Red Mountain: mountain, 3,920 ft., on Etolin Island, Alexander Archipelago; 56° 15' 30" N, 132° 33' 30" W; (map 6). Local descriptive name published by W. H. Dall (in USC&GS, 1883, p. 94), USC&GS.

Red Mountain: mountain, 4,410 ft., on W bank of Young Creek, 19 miles NE of Palmer, Talkeetna Mountains; 61° 48' N, 148° 42' W; (map 69). Local descriptive name reported in 1913 by USGS.

Red Mountain: mountain, 4,596 ft., in Glacier Bay National Monument, 2.4 miles SW of Coleman Peak and 38 miles SW of Skagway, St. Elias Mountains; 59° 02' 20" N, 135° 59' 45" W; (map 45). Named in 1890 by H. F. Reid (in Cushing, 1891, map , p. 228).

Red Mountain: peak, 7,165 ft., between Sunset and Muldrow Glaciers, at head of Crystal Creek, 10 miles SE of head of McKinley River, Alaska Range; 63° 19' 40" N, 150° 17' 00" W; (map 88). Local name reported in 1954 by USGS.

Red Mountains: mountains, 1,300 ft., trends E-W 4 miles, 2 miles NE of Teller Mission and 6 miles NW of Teller, Seward Peninsula Highlands; 65° 22' N, 166° 27' W; (map 111). Local name reported in 1950 by USC&GS; "named for the red appearance of the soil and rock."

Red Paint Creek: stream, flows NW 17 miles to Tonzona River, 27 miles NW of Mount Russell, Alaska Range; 62° 53' 25" N, 152° 42' 50" W; (map 81). Local name reported in 1958 by USGS.

Red Peak: mountain, 2,425 ft., 27 miles N of Afognak, on N central Afognak Island, Kodiak Island; 58° 24' N, 152° 39' W; (map 43). Name published by USC&GS in Chart 8555 in 1927.

Red Peak: peak, 3,130 ft., on Alaska Peninsula, 4.5 miles W of Weasel Mountain, Aleutian Range; 56° 29' N, 158° 14' W; (map 30). Local descriptive name published in 1952 by USC&GS; another "red peak" is shown 2.5 miles to east.

Red River: stream, 4.5 miles long, flows S to Pacific Ocean, on W coast of Kodiak Island, 2 miles E of Bumble Bay and 22 miles SSW of Karluk; 57° 16' 00" N, 154° 37' 30" W; BGN 1939; (map 35). Translation by USC&GS in 1868 of the descriptive name published by Capt. Tebenkov (1852, map 22), IRN, as "R[eka] Krasnaya."

Red River: stream, flows SE 5 miles from Red Glacier to Cook Inlet, 46 miles NW of Homer, Aleutian Range; 59° 54' 30" N, 152° 43' 50" W; (map 50). Local name reported and published by USGS in the 1950's.

Red River: stream, heads in Peabody Mountains, flows NW 11 miles to Marten Arm, Coast Mountains; 55° 08' 40" N, 130° 32' 05" W; (map 3). Local name reported in 1955 by USGS.

Red River: stream, see Ayakulik River.

Red River: stream, see Beartrack Creek.

Red Rock: rock, in Niblack Anchorage, on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 03' 50" N, 132° 07' 45" W; (map 4). Named in 1891 by Lt. Comdr. H. E. Nichols, USN.

Red Rock: rock, on N shore of Chapel Bay, in Bay of Waterfalls, Adak Island, Aleutian Islands; 51° 38' 52" N, 176° 48' 26" W; (map 17). Descriptive name given in 1893 by U.S. Navy officers and published in 1895 by the U.S. Navy Hydrog. Office.

Red Salmon Creek: stream, see Olga Creek.

Red Salmon Lake: lake, 0.8 miles long, between Hayes and Skwentna Rivers, 66 miles NW of Tyonek, Alaska Range; 61° 56' 20" N, 152° 00' 15" W; (map 70). Local name reported in 1958 by USGS.

Red Sheep Creek: stream, flows SE 18 miles to East Fork Chandalar River, 45 miles NE of Arctic Village, Brooks Range; 68° 42' N, 144° 48' W; (map 136). Local name reported in 1956 by R. C. Foley, USGS.

Red Shirt Lake: lake, 3.4 miles long, 8 miles SW of Willow and 28 miles NW of Anchorage, Cook Inlet Lowland; 61° 37' 30" N, 150° 10' 16" W; BGN 1961; (map 70). Variant: Rolejo Lake. Local name published in 1947 by AMS.

Red Slough: stream, an anabranch, flows NW 19 miles to Swift Fork Kuskokwim River, 53 miles NE of Medfra, Kuskokwim Lowland; 63° 34' N, 153° 22' W; (map 89). Local name reported in 1958 by USGS.

Red Slough: stream, flows W from Canada near boundary monument 62A to Kikahe River 2.5 miles upstream from its junction with Stikine River, Coast Mountains; 56° 38' 15" N, 131° 51' 15" W; (map 7) Local descriptive name reported in 1955 by USGS.

Red Wing Slough: stream, distributary of Innoko River, flows 4.8 miles SW to Yukon River, E of Salmon Island, 4.2 miles S of Holy Cross, Innoko Lowland; 62° 08' N, 159° 45' W; (map

78). Variant: South Slough. Name shown on recent maps. It was called "South Slough" by riverboat pilots and was so reported in 1916 by R. H. Sargent, USGS.

Redan Point: point of land, on N coast of Bobrof Island, Aleutian Islands; 51° 55' 30" N, 177° 26' 45" W; (map 17). Name published in 1956 by USC&GS.

Redaute Saint Nikolaus: village, see Kenai.

Redcliff Islands: islands, 1.2 miles long, in Freshwater Bay, 9 miles NE of Tenakee Springs, on E coast of Chichagof Island, Alexander Archipelago; 57° 53' 30" N, 135° 07' 00" W; BGN 1933; (map 9). So named in 1933 by USFS "because of a prominent red cliff on one of the islands,

Redfield Cove: cove, 1.2 miles across, 1.4 miles W of Fitzgerald Island and 6 miles NE of Yakutat, Malaspina Coastal Plain; 59° 36' 30" N, 139° 36' 15" W, (map 46). Local name published in 1950 by USC&GS.

Redfield, Lake: lake, 2 miles across, 1 mile E of Humpback Cove, 10 miles NE of Yakutat, St. Elias Mountains; 59° 38' N, 139° 32' W; (map 46). Named in 1914 by E L. Jones, USBF, for William C. Redfield, then Secretary of Commerce; published in 1915 by USC&GS on Chart 8002.

Redfish Bay: bay, 0.5 miles across, 9.7 miles NW of village of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 19' N, 134° 52' W; (map 5). Variant: Bukhta Krasnoy Ryby, Krasnoi Bay, Krasnoi Ribí. Name published by USC&GS in 1883 Coast Pilot (p. 132); derived from "Bukhta Krasnoy Ryby [from rybiy]"; published in 1850 by the Russian American Company

Redfish Breaker: rock, S of Redfish Point, at W point of entrance to Redfish Bay, 9.7 miles NW of village of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 18' 00" N, 134° 52' 30" W; (map 5). Named in 1897 by Lt. Comdr. J. F. Moser, USN, commander of USBF steamer Albatross.

Redfish Cape: point of land, on W coast of Baranof Island, 10 miles NW of Port Alexander, Alexander Archipelago; 56° 18' 40" N, 134° 52' 20" W; (map 5). Variant: Krasnoi Ribí, Krasnyy Rybiy. Name published by USC&GS in 1883 Coast Pilot (p. 132); translated from "Krasnyy Rybiy," meaning "Redfish," a species of salmon.

Redfish Islets: islands, at entrance to Redfish Bay, 10 miles NW of Port Alexander, Alexander Archipelago; 56° 18' 15" N, 134° 52' 20" W; (map 5). Variant: Krasnoi Ribí, Krasnyy Rybiy. Name published by USC&GS in 1883 Coast Pilot (p. 132). See Redfish Cape.

Redfish Lake: lake, 1,500 ft. long, 3 miles S of Swan Mountain and 8 miles NE of Arctic Village, Brooks Range; 68° 10' 30" N, 145° 14' 00" W; (map 136). Local name reported in 1956 by R. C. Foley, USGS.

Redfish Point: point of land, S tip of Redfish Islets, W point of entrance to Redfish Bay, 9.5 miles NW of village of Port Alexander, on S coast of Baranof Island, Alexander Archipelago,

56° 18' 10" N, 134° 52' 25" W; (map 5). Variant: Mys Krasnoy Ryby. This is a translation by USC&GS about 1882 of the name "M[ys] Krasnoy Ryby," given in 1850 by the Russian American Company

Redfox Bay: bay, 1 mile across, on N coast of Afognak Island, Kodiak Island; 58° 28' N, 152° 36' W; (map 43). Local name published in 1926 by USC&GS.

Redlands Creek: stream, see Chitanana River.

Redlands Lake: lake, 1.2 miles long, drains to Chitanana River, 18 miles NW of Bitzshtini Mountains, Kilbuck-Kuskokwim Mountains; 64° 41' N, 152° 18' W; (map 99). Local name reported in 1952 by USGS; "Redlands" is an early name for the Chitanana River.

Redlands River: stream, see Chitanana River.

Redman Creek: stream, see Redmond Creek.

Redmond Creek: stream, flows N 10 miles to Salcha River, 30 miles NW of Big Delta, Yukon-Tanana Highlands; 64° 30' N, 146° 32' W; (map 101). Variant: Redman Creek. Local name originally reported in 1907 as Redman Creek by Prindle (1908, pl. 4), USGS; present spelling published in 1911 (Brooks and others, p. 193).

Redoubt Bay: bay, 2 miles across, 9 miles S of Sitka, on W coast of Baranof Island, Alexander Archipelago; 56° 55' 30" N, 135° 22' 00" W; (map 5). Variant: Bukhta Redut, Ouserski Bay, Toyons Bay, Tyons Bay. Named "Bukhta Redut," i.e. "Redoubt Bay," by Capt. Tebenkov (1852, map 38), IRN. In 1804 it was called "Tyons Bay" by Capt. U. T. Lisianski, IRN.

Redoubt Bay: bight, extends SW 29 miles on W shore of Cook Inlet, from West Foreland to Harriet Point, 28 miles W of Kenai, Cook Inlet Lowland; 60° 35' N, 152° 05' W; (map 62). Name published in 1869 by USC&GS.

Redoubt Creek: stream, heads at glacier terminus, flows SE 15 miles to Cook Inlet, 3 miles SW of Harriet Point and 39 miles WSW of Kenai, Aleutian Range; 60° 22' N, 152° 19' W; (map 62). Name published in 1959 by USGS; derived from Redoubt Volcano.

Redoubt Lake: lake, 9.5 miles long, at head of Redoubt Bay, on W coast of Baranof Island, Alexander Archipelago; 56° 56' N, 135° 16' W; BGN 1915; (map 5). Variant: Deep Lake, Dertiefsee, Gloubokoi Lake, Glubokoe Lake, Kluchev Bay, Ozero Glubokoyee, Ozero Redutskoye, Redout. Named "Ozero Glubokoye," meaning "deep lake," in 1809 by the Russian navigator, Ivan Vasilev the first; published as such by Lt. Sarichev (1826, map 19), IRN; called "Ozero Redutskoye," meaning "redoubt lake," possibly after a fishing station at the lake's outlet called "the Redoubt" in 1849-by Capt. Tebenkov (1852, map 38), IRN.

Redoubt Mountain: mountain, see Dranishnikof, Mount.

Redoubt Point: promontory, on W shore of Cook Inlet, N point of entrance to Tuxedni Bay, 44 miles SW of Kenai, Aleutian Range; 60° 17' 15" N, 152° 25' 00" W; (map 62). Local name reported in 1920 by USGS; derived from Redoubt Bay.

Redoubt Saint Dionysius: town, see Wrangell.

Redoubt Saint Gabriel: locality, see Fort Saint Michael.

Redoubt Saint Michael: village, see Saint Michael.

Redoubt Volcano: volcano, 10,197 ft., 9 miles NE of Crescent Lake and 52 miles W of Kenai, Aleutian Range; 60° 29' 15" N, 152° 44' 30' W; BGN 1891; (map 62). Variant: Burnt Mountain, Goreloi, Goryalaya, Redoute Mountain, Ujakushatsch, Viesokaia, Volcan de Miranda. Translation of the Russian name "Sopka Redutskaya" (Tebenkov, 1852, map 5). According to Constantin Grewingk in 1850 the native name "Ujakushatsch" also means "fortified place" but it is difficult to determine if one name is derived from the other. This may be the volcano called "Volcan de Miranda" by the Spanish in 1779, but more likely it was Iliamna Volcano. Capt. Tebenkov reports that the volcano erupted in 1778. Grewingk also includes the mountain in his list of Alaska Volcanoes and states that "in 1819 the Redoubt volcano of Cook's Inlet smoked" (in Dall, 1870, p. 499).

Redout: lake, see Redoubt Lake.

Redoute Mountain: volcano, see Redoubt Volcano.

Redpoll Lake: lake, 0.3 miles long, on Kenai Peninsula, NE of Leaf Lake, 31 miles NE of Kenai, Cook Inlet Lowland; 60° 48' 10" N, 150° 33' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, probably for the Hoary Redpoll (*Acanthis hornemanni*) of the sparrow family, which breeds in the tundra bordering the Arctic Ocean (Pough, 1946, p. 230).

Reds Lake: lake, 1 mile long, N of North Fork Chandalar River, 7 miles WNW of Bend Mountain and 24 miles N of Chandalar, Brooks Range; 67° 50' 20" N, 148° 35' 00" W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Redstar Creek: stream, flows SW 7 miles to North Fork Koyukuk River, 29 miles NW of Wiseman, Brooks Range; 67° 39' 30" N, 151° 00' 30" W; BGN 1932; (map 124). Named in 1932 by Robert Marshall for the mountain where it heads.

Redstar Mountain: mountain, 4,000 ft., 5 miles N of Moving Mountain and 30 miles NW of Wiseman, Brooks Range; 67° 44' N, 150° 57' W; BGN 1932; (map 124). In reporting this name, about 1930, Marshall (1956, p. 52) wrote, "it was capped by a red, star-shaped blotch, probably 2,000 ft. across."

Redstone River: stream, heads at 67° 32' N, 157° 15' W, flows SW 35 miles to Ambler River, 22 miles NW of Shungnak, Brooks Range; 67° 09' N, 157° 39' W; (map 126). Variant: E-vel-she-ark, Evesheark, Ivishak River. Named by Lt. Stoney (1900, map), USN, in 1885, apparently a translation of the Eskimo name he records as "E-vel-she-ark" and "Evesheark." This name was spelled "Ivishak" by Orth in 1956 and refers to an iron oxide used for making red paint.

Redut Svataya Dioniciya: town, see Wrangell.

Redut Svataya Nikolaya: village, see Kenai.

Redut, Bukhta: bay, see Redoubt Bay.

Redutskoye, Ozero: lake, see Redoubt Lake.

Redwood Bay: cove, 1 mile wide, at NW end of Controller Bay, 5 miles SE of Katalla, Malaspina Coastal Plain; 60° 11' N, 144° 23' W; (map 64). Named by J. L. McPherson, Deputy Mineral Surveyor, for Boverton Redwood, English geologist; reported in 1903 by G. C. Martin (1905, pl. 3), USGS.

Redwood Creek: stream, flows S 4 miles to Redwood Bay, 4.5 miles E of Katalla, Malaspina Coastal Plain; 60° 11' N, 144° 23' W; (map 64). Name derived from nearby Redwood Bay and reported in 1904 by G. C. Martin (1905, pl. 3), USGS.

Redwood: locality, on right bank of Mitcher Creek, 3.5 miles E of Katalla, Chugach Mountains; 50° 12' N, 144° 25' W; (map 64). Name of a mining community reported in 1905 by G. C. Martin, USGS. The village is now abandoned.

Reechnoi: point, see Rothsay, Point.

Reed Creek: stream, heads in a lake, flows SW 4 miles to Archangel Creek 14 miles NW of Palmer, Talkeetna Mountains; 61° 48' 10" N, 149° 11' 40" W; (map 69). Local name reported in 1910 by F. J. Katz in Brooks and others, 1911, p. 140), USGS.

Reed Creek: stream, see Kallarichuk River.

Reed Grass Point: point of land, see San Roque Point.

Reed River Hot Spring: spring, near head of Reed River, Brooks Range; 67° 23' N, 155° 05' W; (map 125). Variant: Ah-lue-ga-wik, Al-lue-ga-wick. Ens. M. L. Reed of Stoney's expedition visited this spring, as reported by local Eskimos, in March 1886. His manuscript map shows the spring on the left bank of the river near its headwaters. Reed (in Stoney, 1900, p. 47) reported that "There was but one hot spring there, a pool twenty feet in circumference and two feet deep, full of water, of blood-warm temperature * * *." Stoney's maps show the Eskimo name "Al-lue-ga-wick" and "Ah-lue-ga-wik" for the spring. Present-day maps do not show the spring's exact location.

Reed River: stream, heads at Angiak Pass, flows S 52 miles to Kobuk River, 58 miles NNW of Hughes, Brooks Range; 66° 49' N, 154° 57' W; (map 116). Variant: Anelagaggerack, Ungeeletargeeak, Ungeeleganjiak. Named by Lt. Stoney (1900, p. 47, map), USN, for Ens. M. L. Reed of his party, who discovered the "Reed River Hot Springs" at the stream's head in March 1886. Stoney gave the Eskimo name for this stream as "An-ne-lag-ag-ge-rack" and "An-e-la-gag-e-rack." In 1885 Lt. J. C. Cantwell recorded the Eskimo name as "Ung-ee-let-ar-geeak" and "Ung-ee-le-ganjiak" (Healy, 1887, p. 34).

Reed River: stream, see Kallarichuk River.

Reed, Mount: mountain, 1,995 ft., on NW Adak Island, Aleutian Islands; 51° 49' N, 176° 43' W; BGN 1936; (map 17). Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934 “after a local resident who was buried on or near the mountain.”

Reedy Lake: lake, 2,700 ft. across, in Matanuska Valley, 10 miles SW of Palmer, Cook Inlet Lowland; 61° 32' 30" N, 149° 24' 00" W; (map 69) Local name reported in 1942 by AMS.

Reef Bight: cove, 0.5 miles across, W coast of Akutan Island, Aleutian Islands; 54° 07' 45" N, 166° 06' 00" W; (map 23). Descriptive name given by John J. Gilbert, USC&GS, commander of the Coast Survey steamer Pathfinder during 1900-01.

Reef Cape: point of land, see Reef Point.

Reef Harbor: water passage, 1 mile long, between NE coast of Duke Island and Duck Islands, Alexander Archipelago; 54° 59' 30" N, 131° 15' 00" W; (map 2). Named by Lt. Comdr. H. E. Nichols, USN, in 1882.

Reef Island: island, 0.3 miles long, in Portland Canal, 3 miles S of Harrison Point, Coast Mountains; 55° 04' 50" N, 130° 12' 10" W; (map 3). Name published by Lt. Comdr. H. E. Nichols (in U.S. Coast and Geodetic Survey, 1891, p. 76), USN.

Reef Island: island, 1.3 miles long, at SE entrance to Valdez Arm, 43 miles NW of Cordova, Chugach Mountains; 60° 51' N, 146° 50' W, BGN 1908; (map 64). Variant: Seal Island. Local name reported in 1908 by USGS.

Reef Islands: islands, off-shore chain, extend 0.9 miles in Baldy Bay, on E coast of Dall Island, Alexander Archipelago; 55° 02' 10" N, 132° 58' 30".W; (map 4) Descriptive name given in 1881 by Lt. Comdr. H. E. Nichols, USN.

Reef Lake: lake, 2 miles long, in Peabody Mountains, 1.9 miles W of Harrison Point on Portland Canal, Coast Mountains; 55° 06' 50" N, 130° 14' 30" W; BGN 1963; (map 3). Local name reported in 1961 by USFS; derived from Reef Island.

Reef Point Lake: lake, 5 miles long, near W bank of Portland Canal, 1.5 miles W of Reef Island, Coast Mountains; 55° 05' 00" N, 130° 15' 30" W; (map 3). Local name recorded in 1955 by USGS.

Reef Point: point of land, 0.7 miles N of Arrecife Point, on SE coast of Lulu Island, Alexander Archipelago; 55° 27' 45" N, 133° 25' 30" W; (map 4). Variant: Arrecite Point, Mys del Arresife, Punta del Arcite, Punta del Arrecife. Translation in 1923 by USC&GS of the name “Punta del Arrecife”; given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle.

Reef Point: point of land, between Open and Raven Bays, S coast of Unalaska Island, Aleutian Islands; 53° 26' 20" N, 166° 48' 45" W; (map 23). Variant: Cape Coongilak, Cape Kungitak, Cape Kungitakh, Reef Cape. Named by USBF in 1888. This feature was published by Capt. Tebenkov (1852, map 26, dated 1849), IRN, as “M[ys] Kungitakh,” or “Cape Kungitakh,” probably derived from its Aleut name.

Reef Point: point of land, between Tlevak Strait and View Cove, on E coast of Dall Island, Alexander Archipelago; 55° 03' 35" N, 132° 58' 15" W; (map 4) Descriptive name given in 1881 by Lt. Comdr. Nichols, USN.

Reef Point: point of land, on E side of Albatross Anchorage, 14 miles N of Unga Island, Alaska Peninsula, Aleutian Range; 55° 34' 30" N, 160° 35' 30" W; (map 28). This name was published in 1893 by U.S. Navy Hydrog. Office.

Reef Point: point of land, on NE coast of Annette Island, Alexander Archipelago; 55° 15' 00" N, 131° 28' 30" W; (map 3). Descriptive name given in 1883 by Lt. Comdr. H. E. Nichols, USN.

Reef Point: point of land, on S tip of St. Paul Island, Pribilof Islands; 57° 06' 30" N, 170° 17' 30" W; (map 38). Local name published in 1875 by USC&GS.

Reef Point: point of land, on SW coast of Woronkofski Island, Alexander Archipelago; 56° 21' 30" N, 132° 32' 30" W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow, USN; name published in 1887 on USC&GS Chart 706.

Reef Point: point of land, see Mosman Point.

Reef Point: point of land, see Sakie Point.

Reef Point: point of land, W coast of Akutan Island, Aleutian Islands; 54° 07' 15" N, 166° 06' 15" W; (map 23). This name was published in the 1944 Aleutian Coast Pilot (p. 23).

Reef Rock: rock, 200 ft. across, in central Redfish Bay, 9.8 miles NW of village of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 19' 05" N, 134° 52' 00" W; (map 5). Named in 1897 by Lt. Comdr. J. F. Moser, USN Commander of USBF steamer Albatross.

Reef Rookery: rookery, on Reef Point, on S coast of St. Paul Island, in Pribilof Islands; 57° 06' 30" N, 170° 17' 30" W; (map 38). Local name for a seal rookery with 4,016 ft. of sea-margin (Elliott, 1881, p. 50-51). See Ardiguen Rookery.

Reef Shoal: shoal, 0.1 miles long, in central Redfish Bay, 9.8 miles NW of village of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 19' N, 134° 52' W; (map 5). Named in 1897 by Lt. Comdr. J. F. Moser, USN, commander of USBF steamer Albatross.

Reef, The: rapids, in Black River 47 miles NW of Midnight Hill, Porcupine Plateau; 66° 24' N, 142° 30' W; (map 120). Local name obtained in 1956 by T. E. Taylor and R. C. Foley, USGS.

Rees: area, in S part of Anchorage, between East Chester and Lindale, Cook Inlet Lowland; 61° 12' 18" N, 149° 51' 30" W; (map 69). Local name reported in 1954 by the city engineer of Anchorage.

Reese Bay: bay, 1.3 miles across, N coast of Unalaska Island, Aleutian Islands; 54° 00' 15" N, 164° 43' 00" W; BGN 1937; (map 23). Variant: Sakhtusik Bay. Named by USC&GS in 1937 in honor of Lt. Marshall Reese, USC&GS, who drowned in this bay in 1936 while making a

survey of the coast. Lt. G. A. Sarichev, IRN, is supposed to have published the name "Sakhtusik" for this feature in 1802.

Reflection Lake: lake, 4.5 miles long, 5 miles W of Eagle Lake, 10 miles S of Bradfield Canal, Alexander Archipelago; 56° 02' 00" N, 131° 35' 30" W; BGN 1923; (map 7). Descriptive name given in 1923 by USFS.

Refuge Cove: cove, 0.5 miles across, on SW coast of Revillagigedo Island, off Tongass Narrows, W of Ward Cove, Alexander Archipelago; 55° 24' N, 131° 45' W; (map 3). Local name published in 1886 by USC&GS.

Refuge Cove: village, pop. 146, on Refuge Cove, 0.4 miles W of Wacker, on the SW coast of Revillagigedo Island, Alexander Archipelago; 55° 24' 25" N, 131° 44' 30" W; (map 3). Relatively recent village presently without a post office.

Refuge Inlet: estuary, see Walakpa Bay.

Refuge Island: island, 150 ft. across, in Chiniak Bay S of Long Island, NE of Kodiak Island; 57° 44' 50" N, 152° 17' 50" W; BGN 1935; (map 34). Variant: Ostrov Ubezhisheha, Poverty Island, Poverty Rock, Ubezhitsha. Translation of the name "Os[trov] Ubezhischa," published by Sarichev (1826, map 16). Baker (1906, p. 509) translated the name as "Poverty Island," and USC&GS corrected this erroneous translation in 1935, with "named by the Russians because the islet was used as a place of refuge for the women and children by the natives while the warriors were doing battle with invading tribes."

Refuge Valley: valley, 5 miles long, at head of Sanctuary River, 26 miles SSW of Healy, Alaska Range; 63° 31' N, 149° 20' W; (map 87). Local name reported in 1949 by USGS.

Refuge, Port: bay, see Refugio, Port.

Refugio, Port: bay, extends SW 2.5 miles off Ulloa Channel on NE coast of Suemez Island Alexander Archipelago; 55° 18' N, 133° 18' W; (map 4). Variant: Gavan Refugio, Port Refuge, Puerto del Refugio. Named "Puerto del Refugio," meaning "port of refuge," on June 3, 1779, by Francisco Antonio Maurelle (Wagner, 1937, p. 405).

Regal Glacier: glacier, trends SE 9 miles from Mount Regal to Nizina Glacier, 23 miles NE of McCarthy, Wrangell Mountains; 61° 40' N, 142° 29' W; (map 67). Named in 1900 by F. C. Schrader, USGS.

Regal Mountain: mountain, 13,845 ft., at head of Regal Glacier, 23 miles N of McCarthy, Wrangell Mountains; 61° 45' N, 142° 52' W; (map 67). Name reported in 1899 by Rohn (1900, p. 411), USGS.

Regina Cove: bay, 0.5 miles across, on SE coast of Fillmore Island, Coast Mountains; 54° 48' 15" N, 130° 33' 30" W; BGN 1937; (map 2). Local name published in 1943 by USC&GS.

Rehin Creek: stream, see Rhine Creek.

Reid Bay: bay, 2 miles across, 10 miles W of Point Baker, on the E coast of Kuiu Island, Alexander Archipelago; 56° 22' 30" N, 133° 52' 30" W; (map 6). Variant: Reids Bay. Named in 1886 by Lt. J. M. Helm, USN probably for Ensign Maurice Lance Reid, USN, a member of his party.

Reid Falls: falls, 1.9 miles W of Twin Dewey Peaks and 1.5 miles NE of Skagway, Coast Mountains; 59° 28' 25" N, 135° 17' 00" W; (map 45). Local name obtained by USGS field personnel and published on Federal maps since 1950.

Reid Glacier: glacier, heads 2 miles SW of Contact Nunatak, trends N 11 miles to Reid Inlet, 2 miles S of Glacier Bay, in Glacier Bay National Monument, 72 miles NW of Hoonah, St. Elias Mountains; 58° 50' 40" N, 136° 48' 30" W. (map 10). Named by members of the Harriman Expedition in 1899 (Gilbert, 1910, v. 3, p. 25) for Harry Fielding Reid, 1859-1943, geologist and professor at the Case School of Applied Sciences and Johns Hopkins University, who visited Glacier Bay in 1890 and 1892, and made a study of the glaciers in the area.

Reid Inlet: bay, heads at terminus (1961) of Reid Glacier, and trends 2.4 miles N to Glacier Bay, S of Russell Island, Glacier Bay National Monument, 73 miles NW of Hoonah, St. Elias Mountains; 58° 52' 30" N, 136° 48' 30" W; BGN 1954; (map 10). Named in 1893 for Harry Fielding Reid, 1859-1943, by the American Association for the Advancement of Science. Reid, geologist and professor at the Case School of Applied Sciences and Johns Hopkins University, visited Glacier Bay in 1890 and 1892. At that time the name, "Reid Inlet", was applied to the upper end of Glacier Bay east of Russell Island, which was the terminus of the Grand Pacific and Johns Hopkins Glaciers. Subsequently, these glaciers have retreated, uncovering Tarr and Johns Hopkins Inlets. Reid Glacier has also retreated from the valley it formerly occupied to form another inlet. The name "Reid Inlet" is now restricted to this feature.

Reid Inlet: estuary, see Johns Hopkins Inlet.

Reid, Mount: mountain, 4,592 ft., 5.8 miles NE of head of Carroll Inlet, on Revillagigedo Island, Alexander Archipelago; 55° 42' 28" N, 131° 14' 45" W; BGN 1931; (map 3). Named in 1931 by USGS for "Thomas George Reid, USN, Chief Aviation Pilot of the First Naval Aerial Survey Expedition to Alaska in 1926."

Reids Bay: bay, see Reid Bay.

Reihn Creek: stream, see Rhine Creek.

Reilly, Mount: mountain, see Seltat, Mount.

Reindeer Bay: bight, 1.5 miles across, on S shore of Iliamna Lake, 30 miles SW of Iliamna, Bristol Bay Lowland; 59° 23' N, 155° 20' W; (map 51). Local name published in 1951 by USGS.

Reindeer Cove: cove, on Norton Bay, 17 miles SW of Christmas Mountain, Nulato Hills; 64° 31' N, 161° 10' W; (map 96). Local name published in 1943 by USC&GS

Reindeer Creek: stream, 12 miles long, on N side of Alaska Peninsula, flows W to Bristol Bay, 170 miles SE of Cape Newenham, Bristol Bay Lowlands; 57° 01' N, 158° 41' W; (map 37). Name reported in 1923 by R. H. Sargent. USGS.

Reindeer Creek: stream, flows E 2 miles to Marsh Creek, at Otter Bight, NE coast of Umnak Island N of Fort Glenn, Aleutian Islands; 57° 25' 40" N, 167° 51' 50" W; (map 23). Variant: Falls Creek. Name reported in 1942 as Falls Creek by U.S. Army Corps of Engineers and published as Reindeer Creek by USGS (Byers, 1959, pl. 41).

Reindeer Creek: stream, flows NW 9 miles to Schlitz Creek which flows to Serpentine River, 7 miles NW of Midnight Mountain and 50 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 50' N, 164° 50' W; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Reindeer Creek: stream, flows SW 2 miles to lake on coast of Port Clarence, 1 mile NW of Teller Mission and 7 miles NW of Teller, Seward Peninsula Highlands; 65° 21' N, 166° 29' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Reindeer Creek: stream, flows SW 4.8 miles to Kugruk River, 27 miles NE of Imuruk Lake, Seward Peninsula Highlands; 65° 51' N, 162° 26' W; (map 110). Prospectors' name reported in 1901 by D. L. Reaburn (in Mendenhall, 1902, pl. 4a), USGS.

Reindeer Creek: stream, heads in Rampart Mountains, flows NW 13 miles to Tozitna River, 19 miles NW of Tanana, Kokrines-Hodzana Highlands; 65° 26' N, 152° 18' W; (map 106). Local name reported in 1956 by Orth; so named because a reindeer corral was located here about 50 years ago.

Reindeer Creek: stream, in Kokrines Hills, flows NW 6.8 miles to Hot Springs Creek, 27 miles WNW of Birches, Kokrines-Hodzana Highlands; 65° 13' 25" N, 154° 27' 40" W; (map 107). Local name obtained in 1954 by USGS topographers.

Reindeer Creek: stream, on Seward Peninsula, flows NW 5 miles to Clifford Creek, 22 miles SW of Deering, Kotzebue-Kobuk Lowland; 66° 03' N, 163° 29' W; (map 113). Name used by local prospectors; reported in 1901 by W. C. Mendenhall, USGS.

Reindeer Hill: hill, 2,485 ft., near SW end of Kantishna Hills, 5.5 miles NW of Wonder Lake, Alaska Range; 63° 32' 45" N, 151° 01' 45" W; BGN 1932; (map 88). Local name reported in 1932 by F. G. Wells and S. C. Kain, USGS.

Reindeer Hill: hill, 490 ft., at Cape Nome, 13 miles SE of Nome and 18 miles SW of Solomon, Seward Peninsula Highlands; 64° 00' N, 165° 00' W; (map 95) Local name published in 1900 by USC&GS.

Reindeer Hills: hills, 967 ft., trend NNE- SSW 11 miles between Norton Bay and Norton Sound, Nulato Hills; 64° 30' N, 161° 24' W; (map 96). Local name reported in 1900 by W. J. Peters, USGS.

Reindeer Hills: mountains, 4,534 ft., trend SW 8 miles from junction of Brushkana Creek and Nenana River, 32 miles SE of Healy, Talkeetna Mountains 63° 25' N, 148° 46' W; (map 87). Local name obtained in 1951 by USGS.

Reindeer Island: barrier island, 2 miles long, westernmost island of Midway Islands, on Beaufort Sea coast, 18.5 miles E of Beechey Point, Arctic Plain; 70° 29' N, 148° 20' W; (map 150). So named in 1910 by Leffingwell (1919, p. 98), "after the whale ship Reindeer, which was wrecked in the vicinity."

Reindeer Island: island, 1.7 miles long, in Kakhonak Bay, 24 miles SE of Iliamna, Aleutian Range; 59° 27' N, 154° 36' W; (map 51). Local name published in 1951 by USGS.

Reindeer Lake: lake, 1.5 miles long, 6 miles W of Kukaklek Lake and 49 miles SW of Iliamna, Aleutian Range; 59° 10' N, 155° 42' W; (map 51). Local name published by USGS in 1951.

Reindeer Lake: lake, 5 miles long, 3 miles W of Dease Inlet and 25 miles SE of Barrow, Arctic Plain; 71° 07' N, 155° 42' W; (map 153). Variant: Rein Deer Lake. Named Rein Deer Lake by Simpson (1843, map) in 1837.

Reindeer Lake: lake, 5 miles long, in course of Reindeer River 1.5 miles E of its junction with Paimiut Slough and 11 miles E of Holy Cross, Innoko Lowland; 62° 08' N, 159° 23' W; (map 78). Local name obtained in 1952 by USGS.

Reindeer Point: point of land, on N coast of Umnak Island, Aleutian Islands; 53° 32' 45" N, 168° 09' 15" W; BGN 1940; (map 22). Named in 1938 by USC&GS, "because of the herds of reindeer frequently seen in this locality."

Reindeer Point: village, see Elephant Point.

Reindeer River: stream, heads at 62° 15' N, 158° 28' W, flows SW 65 miles through Reindeer Lake to Paimiut Slough, 11 miles SE of Holy Cross, Innoko Lowland; 62° 08' N, 159° 27' W; (map 78). Local name reported in 1910 by A. G. Maddren (in Brooks, 1911, pl. 11), USGS.

Reindeer River: stream, probable anabranch of Yukon River, heads 4.5 miles S of Blade Island at 61° 31' N, 161° 54' W, flows NW 60 miles to Yukon River at Dogtooth Bend, 19 miles W of Marshall, Yukon-Kuskokwim Delta; 61° 54' N, 162° 40' W; (map 74). Variant: Nookak River. Local name reported by USGS in 1916. USC&GS gives the Eskimo name "Nookak" for this stream. So called because reindeer were corralled near its mouth about 1900.

Reindeer Slough: stream, anabranch, trends S 7 miles from Kuskokwim River to Kisaralik River, 21 miles NE of Bethel, Yukon- Kuskokwim Delta; 60° 52' N, 161° 09' W; (map 59). Local name reported in 1949 by USGS.

Reindeer Slough: watercourse, see Twelvemile Slough.

Reinhart Creek: stream, in Kantishna Hills, flows E 1.1 miles from Brooker Mountain to Eldorado Creek, 4 miles W of Wonder Lake, Alaska Range; 63° 30' 15" N, 151° 01' 00" W; (map 88). Named in 1932 by USGS.

Reliance Creek: stream, flows SW to Arctic Creek which flows to Cripple River, about 29 miles NW of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Reliance Point: point of land, SE tip of Tigvariak Island, at W point of entrance to Mikkelsen Bay, on Beaufort Sea coast, Arctic Plain; 70° 12' 32" N, 147° 10' 15" W; (map 150). Variant: Lion and Reliance Reef, Lion Reef, Point Reliance. On Aug. 7, 1826, Franklin, RN (1828, p. 152) named the island "Lion and Reliance" Reef," after his two boats. The Lion had been driven aground at this place. E. de K. Leffingwell (1919, p. 89) adopted the Eskimo name Tigvariak for the island, and, in his text, applied Franklin's names to the NE [Point Reliance] and NW [Point Lion] point of the island. His maps, however, show these points as Reliance Point and Lion Point. A sandspit has extended the island in recent years, and the application of the name "Reliance Point" now extends one mile S of Leffingwell's location.

Remedios, Point: point of land, on NW coast of Suemez Island, W point of entrance to Port Dolores, Alexander Archipelago; 55° 19' 45" N, 133° 26' 00" W; (map 4). Variant: Mys de los Remedios, Punta de los Remedios. Named, "Punta de los Remedios," meaning "point of the remedies," given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle. "Bodega [y Quadra] carried a bronze image of Nuestra Senora de los Remedios on this voyage and perhaps the name was given in her honor, or perhaps after his ship the Favorita, of which the real name was Nuestra Senora de los Remedios" (Wagner, 1937, p. 405).

Remedios, Puerto de los: cove, see Sealion Cove.

Remedios, Puerto de los: water passage, see Salisbury Sound.

Remington Creek: stream, flows SE 1 mile to Casadepaga River, 0.5 miles SE of Casadepaga and 17 miles N of Solomon, Seward Peninsula Highlands; 64° 47' 30" N, 164° 22' 05" W; (map 95). Prospectors' name reported in 1907 by USGS geologists (Smith, P. S., 1910, pl. 4).

Renard Island: island, 3.4 miles long, between Resurrection Bay and Eldorado Narrows, 14 miles SE of Seward, Chugach Mountains; 59° 55' N, 149° 20' W; BGN 1906; (map 49). Variant: Fox Island, Lowell Island. USGS reported the local name in 1904 as "Lowell Island," and USC&GS gave the local name as "Fox Island" in 1905. Because both these names "are much duplicated" the BGN officially bestowed the present name in 1906 it means "fox" in French.

Renards, Iles aux: island, see Fox Islands.

Rendezvous Peak: peak, 4,000 ft., 3.5 miles SW of junction of Eagle River and its South Fork, 13 miles NE of Anchorage, Chugach Mountains; 61° 15' 00' N, 149° 30' 15' W; BGN

1964; (map 69) Local name reported in 1963 by members of the Mountaineering Club of Alaska; derived from nearby Rendezvous Bowl.

Rendu Glacier: glacier, heads in British Columbia at 59° 13' N, 137° 00' W, trends SE 14 miles to its terminus at head of Rendu Inlet, in Glacier Bay National Monument, 58 miles SW of Skagway, St. Elias Mountains; 59° 01' 00" N, 136° 42' 45" W; BGN 1901; (map 45). Variant: Charpentier Glacier. Named by H. F. Reid (1896, pl. 90 and p. 431), USGS, for a French glaciologist. It was called "Charpentier Glacier" by the Canadian Boundary Commission.

Rendu Inlet: estuary, in Glacier Bay National Monument, trends SE 10 miles from Rendu Glacier to Glacier Bay, 1 mile NW of Composite Island and 69 miles NW of Hoonah, St. Elias Mountains; 58° 54' 30" N, 136° 36' 30" W; (map 10). Named in 1892 by Reid (1896, pl. 86 and p. 430), USGS.

Rennies Landing: locality, on S bank of Innoko River 6.4 miles E of its junction with Dishna River and 37 miles NW of Ophir, Innoko Lowland; 63° 36' 45" N, 157° 04' 30" W; BGN 1965; (map 90). Variant: Rainey's Landing. Boat landing with a couple of cabins reported in 1950 by USGS; it is now abandoned.

Renshaw Point: point of land, marks S entrance of Dorenoi Bay, on W shore of Stepovak Bay, near SW end of Alaska Peninsula, Aleutian Range; 55° 36' 30" N, 160° 22' 00" W; (map 28). Named in 1880 by W. H. Dall, USC&GS.

Repetition Point: point of land, in Kuliliak Bay, on S coast of Unalaska Island, Aleutian Islands; 53° 27' 05" N, 167° 02' 00" W; BGN 1939; (map 23). Named by USC&GS in 1937 "because the position of the point, dividing the bay into two parts, repeats a feature that is present in almost all the bays of Unalaska Island."

Rescue Harbor: cove, on E coast of Sullivan Island, in Lynn Canal, 35 miles S of Skagway, Coast Mountains; 58° 56' N, 135° 18' W; (map 11). Variant: Rescue Roadstead. So named in 1868 by Comdr. R. W. Meade, USN, because it was here that the American schooner Louisa Downs was wrecked in 1867 and six persons were rescued by the U.S.S. Saginaw, which Meade commanded (U.S. Coast and Geodetic Survey, 1891, p. 196).

Rescue Roadstead: cove, see Rescue Harbor.

Research Creek: stream, flows NW 3 miles to Fisher Creek, 20 miles SE of junction of Charley and Yukon Rivers, Yukon-Tanana Highlands; 65° 02' 45" N, 142° 32' 00" W; (map 103). Prospectors' name from an unpublished map by E. J. Chamberlain, dated 1902.

Research Mountain: peak, see Camp 4 Peak.

Reservoir Lake: lake, see Peterson Lake.

Reshimosti Island: island, 100 ft. across, in Whiting Harbor, in Sitka Sound, 1.2 miles SW Of Sitka, Alexander Archipelago; 57° 02' 44" N, 135° 21' 52" W; (map 9). Variant: Ostrov Reshitosti. Russian name meaning "determination," given in 1809 by the navigator Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Reshitosti."

USC&GS, in transliterating the name, erroneously kept the Russian “t” which appears as an English “m.”

Reshitosti, Ostrov: island, see Reshimosti Island.

Restless Lake: lake, 0.2 miles across, on northern Kiska Island, Aleutian Islands; 52° 05' 13" N, 177° 34' 00" E; (map 14). An arbitrary name beginning with “R” to correspond to “R” grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Resurrection Bay: estuary, on SE coast Kenai Peninsula, trends S 24 miles from mouth of Resurrection River at Seward to Harding Gateway and Blying Sound, Chugach Mountains; 59° 48' N, 149° 30' W; (map 63). Variant: Port Andrews, Voskresenskaia Bay, Voskresenskaya Gavan, Voskresenskaya Guba. Named “Voskresenskaya Gavan” meaning “Resurrection (Sunday) Harbor” by Alexander Baranov in 1792. It was called “Port Andrews” by Capt. Nathaniel Portlock, in 1787. The first ship to be built in Alaska, the Phoenix, was built here in 1794.

Resurrection Bay: estuary, see Turnagain Arm.

Resurrection Creek: stream, on N end of Kenai Peninsula, flows N 18 miles to Turnagain Arm at Hope, Chugach Mountains; 60° 55' 30" N, 149° 38' 45" W; BGN Sixth Report; (map 63). Local name reported in 1895 by Becker (1898, map 26), USGS.

Resurrection Peninsula: peninsula, extends S 15 miles between Resurrection Bay and Day Harbor, on SE coast of Kenai Peninsula, SE of Seward, Chugach Mountains; 59° 52' 25" N, 149° 17' 30" W; (map 49). Named in 1930 by USC&GS for adjoining Resurrection Bay.

Resurrection River: stream, heads at Upper Russian Lake, flows SE to Resurrection Bay, 1.5 miles NE of Seward, Chugach Mountains; 60° 07' 30" N, 149° 23' 30" W; (map 63). Local name reported in 1904 by Moffit (1906, pl. 2), USGS.

Resurrection, Cape: point of land, on S tip of Resurrection Peninsula, 19 miles SE of Seward, Chugach Mountains; 59° 52' N, 149° 17' W; (map 49). Variant: Point Barwell. Name published by USC&GS in 1869 on Chart 20. This is the “Point Barwell” named by Capt. Nathaniel Portlock in December 1787.

Retaliation Point: point of land, on E shore of Security Bay, on N coast of Kuiu Island, Alexander Archipelago; 56° 51' 30" N, 134° 20' 20" W; (map 5) Named in 1869 for charting purposes by Comdr. R. W. Meade, USN, “who in February, 1869, destroyed two Indian villages here because of the murder by the Indians of two white men under circumstances of great brutality.”

Retchechnoi: village, see Nikolski.

Retreat, Point: point of land, on N tip of Mansfield Peninsula, in Lynn Canal, 2.9 miles N of False Point Retreat and 20 miles NW of Juneau Alexander Archipelago; 58° 24' 45" N, 134° 57' 15" W (map 11). Variant: Mys Ostupleniya, Otstuplenie. Named in 1794 by Joseph

Whidbey, RN because he was forced to seek safety here from hostile Indians (Wagner, 1937, p. 405).

Retscheschnoj, Mount: mountain, see Rechesnoi, Mount.

Return Creek: stream, flows W 6.8 miles to Montana Creek 5.5 miles S of its junction with Iditarod River and 40 miles SE of Holy Cross, Kilbuck Kuskokwim Mountains; 62° 02' N, 158° 33' W; BGN 1945; (map 79). "Named by Matt De Courcy, prospector in 1911 and refers to the fact that he intended to return someday to a quicksilver prospect near the head of this creek."

Return Island: island, see Povorotni Island.

Return Islands: barrier islands, extend 13 miles on Beaufort Sea coast, NE of Gwydyr Bay, Arctic Plain; 70° 27' N, 148° 47' W; BGN 1916; (map 150). Variant: Ooliktome Islands, Return Reef, Return Reefs. The original name "Return Reef" was applied to a single sand island NE of Gwydyr Bay, by Franklin (1828, p. 166), RN, on August 18, 1826, "we quitted Return Reef * * * and began to retrace our way toward the Mackenzie." Leffingwell (1919, p. 89) wrote, "The local usage, starting with the later explorers, has been to apply the term Return Reef to the chain of sand islands * * *. The term Return Islands has been adopted for this chain on the writer's map." John Kelly's Eskimo vocabulary, 1885-89, lists the Eskimo name "Oo-lik-to-me," meaning "at Oliktok." See Oliktok Point.

Return Mound: pingo, elev. 60 ft., on E bank of Kuparuk River, 8 miles SSW of Gwydyr Bay, Arctic Plain; (map 150). Named and used as a triangulation station by Leffingwell (1919, p. 41) in 1911.

Return Reef: barrier island, see Egg Island.

Return Reef: barrier islands, see Return Islands.

Return Reefs: barrier islands, see Return Islands.

Reveille Hill: hill, 220 ft., SW of East Kiska Lake, on northern Kiska Island, Aleutian Islands: 52° 03' 45" N, 177° 34' 45" E; (map 14). An arbitrary name beginning with "R" to correspond to "R" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Reverdy Johnson Mountains: mountains, see Reverdy Mountains.

Reverdy Mountains: mountains, 4,500 ft., extend NE 9 miles from Hyder, between Bear and Salmon Rivers, Coast Mountains; 56° 00' N, 130° 00' W; (map 3). Variant: Bear River Ridge. Reverdy Johnson Mountains. Named in 1868 by David Pender, RN. Lt. Comdr. H. E. Nichols, USN, called this feature "Reverdy Johnson Mountains" (U.S. Coast and Geodetic Survey, 1891, p. 78).

Reversed Glacier: glacier, see Thiel Glacier.

Revillagigedo Channel: water passage, trends NNW 40 miles from Dixon Entrance to Tongass Narrows at Dairy, on S coast of Revillagigedo Island, Alexander Archipelago; 54°

48' N, 131° 06' W [SE end], 55° 17' N, 131° 34' W [NW end]; BGN 1927; (map 3). Variant: Revilla Gigedo Channel. Named in 1792 by Jacinto Caamano (Wagner, 1937, p. 405). See Revillagigedo Island; Font, Straights du.

Revillagigedo Island: island, 55 miles long and 35 miles wide, between Prince of Wales Island and mainland, Alexander Archipelago; 55° 35' N, 131° 20" W, BGN 1927; (map 3). Named August 13, 1793, by Capt. Vancouver, RN, for Don Juan Vicente de Guemes Pacheco de Pedilla, Count of Revilla Gigedo and Viceroy of Mexico, 1789-94. "He [Vancouver] was no doubt influenced by the fact that Caamano the year before had given the name to an adjoining channel" (Wagner, 1937, p. 405)

Revine Creek: stream, flows NW 13 miles to Yanert Fork, 16 miles SE of Healy, Alaska Range; 63° 40' N, 148° 40' W; (map 87). Named in 1902 by A. H. Brooks, USGS, for George Revine, cook of his survey party that year.

Revolt Hill: hill, 140 ft., between East Kiska and Christina Lakes, Kiska Island, Aleutian Islands; 52° 04' 35" N, 177° 34' 16" E; (map 14). An arbitrary name beginning with "R" to correspond to "R" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Rex Creek: stream, flows 6 miles SW from Rex Glacier joining White Creek to form Chititu Creek, 15 miles SE of McCarthy, St. Elias Mountains; 61° 17' 35" N, 142° 34' 40" W; (map 67). Local name reported in 1908 by D. C. Witherspoon, USGS (Moffit and Capps, 1911, pl. 2). Reported as "Rex Gulch" by G. M. Esterly, of Valdez, in 1902 (Mendenhall, 1905, fig. 11).

Rex Creek: stream, flows NE 6 miles to California Creek, 5 miles E of Rex Dome and 50 miles SE of Nenana, Alaska Range; 64° 07' N, 148° 45' W; (map 100). Named by prospectors; reported in 1906 by L. M. Prindle (in Brooks and others, 1907, pl. 4), USGS.

Rex Creek: stream, flows SE 3 miles to Smallwood Creek, 10 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 55' 30" N, 147° 21' 00" W; (map 100). Local name published in 1908 by USGS.

Rex Creek: stream, formed by its North and South Forks, flows SE 2.7 miles to Dry Bay, on E coast of Masha Peninsula, 49 miles W of Karluk, Aleutian Range; 57° 38' 30" N, 155° 46' 20" W; (map 35) Local name obtained from J. L. McPherson of Iliamna, reported in 1903, and published by Martin (1905, p. 53), USGS.

Rex Creek: stream, heads in Candle Hills, flows N 2.6 miles to Tatalina River, 10 miles SW of McGrath, Kilbuck-Kuskokwim Mountains; 62° 54' N, 155° 54' W; (map 80). Local name reported in 1910 by C. G. Anderson (in Eakin, 1914, pl. 1), USGS.

Rex Creek: stream, on Seward Peninsula, flows NE 4.9 miles to Kotzebue Sound, 16 miles W of Deering, Kotzebue-Kobuk Lowland; 66° 05' N, 163° 19' W; (map 113). Prospectors' name reported in 1901 by W. C. Mendenhall and D. L. Reaburn, USGS.

Rex Dome: mountain, 4,155 ft., between Nenana and Totatlanika Rivers, 30 miles S of Nenana, Alaska Range; 64° 07' 50" N, 148° 54' 00" W; BGN 1944; (map 100). Name derived from Rex Creek; reported in 1910 by USGS (Capps, 1912, pl. 1).

Rex Glacier: glacier, trends 1.2 miles NW from Andrus Peak to its terminus at head of Rex Creek, 18 miles SE of McCarthy, St. Elias Mountains; 61° 19' 00" N, 142° 27' 40" W; (map 67). Local name obtained by USGS and published on maps since 1954.

Rex Hill: hill, 1,000 ft., 1.3 miles N of Salmon Lagoon, Kiska Island, Aleutian Islands; 52° 01' 15" N, 177° 32' 20" E; (map 14). An arbitrary name beginning with 'R' to correspond to "R" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Rex Point: point of land, on Seward Peninsula, extends into Kotzebue Sound, 17 miles W of Deering, Kotzebue-Kobuk Lowland; 66° 05' N, 163° 20' W; (map 113). Local name reported in 1950 by USGS; derived from nearby Rex Creek.

Rex: railroad station, on The Alaska Railroad 48 miles SW of Nenana, Tanana Lowland; 64° 14' N, 149° 15' W; BGN 1944; (map 100). Variant: Kobe, Kobi. Name derived from Rex Dome 10 miles southeast of the station. The place was called "Kobi" on a 1925 Alaska Road Commission map.

Reynard Cove: cove, 0.4 miles across, on E coast of Kiska Island, Aleutian Islands; 52° 01' 25" N, 177° 36' 00" E; BGN 1937; (map 14). Local name found on a plotting sheet by USC&GS.

Reynard Creek: stream, flows N 11 miles to Colville River, 7 miles S of Lookout Ridge and 112 miles S of Wainwright, Arctic Slope; 69° 01' 15" N, 159° 28' 00" W; BGN 1925; (map 144). So named by W. T. Foran, USGS, in 1924, "because of the number of foxes seen in its basin."

Reynolds Creek: stream, flows SE 1 mile to Landlocked Bay, 35 miles NW of Cordova, Chugach Mountains; 60° 51' 30" N, 146° 31' 30" W; (map 64). Local name published in 1952 by USGS.

Reynolds Creek: stream, heads in Summit Lake, flows SW 3 miles through Lake Mellen to Copper Harbor, near head of Hetta Inlet, on SW coast of Prince of Wales Island, Alexander Archipelago; 55° 12' 50" N, 132° 36' 15" W; (map 4). Local name reported in 1908 by C. W. Wright (in Brooks and others, 1909, pl. 3), USGS.

Reynolds Creek: stream, in Nutzotin Mountains, flows N 2 miles to East Fork Snag Creek 3.3 miles SE of its junction with Snag Creek, 9 miles SW of Carden Hills, Alaska Range; 62° 12' 00" N, 141° 24' 35" W; (map 84). Local name reported in 1959 by USGS.

Reynolds Head: point of land, on E shore of Morzhovoi Bay, 16 miles SW of village of Cold Bay, at SW end of Alaska Peninsula, Aleutian Range; 55° 00' 30" N, 162° 57' 00" W; (map 29). Name reported by USC&GS in 1925.

Reynolds Peak: peak, 1,950 ft., on E side of Latouche Island, at SE end of Broon Buttes, 22 miles SE of Chenega, Chugach Mountains; 60° 00' 35" N, 147° 53' 02" W; (map 63). Local name reported in 1909 by Grant and Higgins (1910, pl. 12), USGS; name derived from the Reynolds-Alaska Development Company that operated mines in that region.

Reynolds Point: point of land, see Alexander Point.

Rezanof Lake: lake, 3 miles long, 7 miles SE of Whale Bay, on S central Baranof Island, Alexander Archipelago; 56° 32' 30" N, 134° 50' 00" W; BGN 1933; (map 5). Named in 1933 by USFS "for Nikolai Petrovich Rezanof, who was instrumental in organizing the Russian American Company in 1799, and who saved the settlement at Sitka from starvation in 1806."

Rhea Rocks: rocks, extend 500 ft. between Cordova and Tah Bays, on SW coast of Prince of Wales Island, Alexander Archipelago; 54° 51' N, 132° 21' W; (map 1). Named in 1923 by USC&GS because of the nearby triangulation station "Rhea."

Rhein Creek: stream, see Rhine Creek.

Rhine Creek: stream, flowing SE 4.7 miles to Stephens Passage, 0.7 miles W of Bishop Point and 1 mile SE of Juneau, Coast Mountains; 58° 12' 30" N, 134° 09' 55" W; (map 11). Variant: Rehin Creek, Reihn Creek, Rhein Creek, Rhinestone Creek. In 1890 John G. Peterson and "Chris" Fuhr located a claim on this stream which they called Reihn Creek. Since both miners were born in Germany, it is probable that they would have spelled the name "Rhine" if they had meant to name the stream after the Rhine River. It has been thought they may have intended to name the stream after John J. Ryan, a prospector, who had claims near the creek (DeArmond, 1957, p. 36). The names Rhine Creek and Rhein Creek were published by USGS (1916, Brooks and others, pl. 2, and p. 76).

Rhinestone Creek: stream, see Rhine Creek.

Rhino Horn: peak, see Rhino Peak.

Rhino Peak: peak, 6,400 ft., at head of Mendenhall Glacier, 2 miles NE of Mendenhall Towers and 18 miles N of Juneau, Coast Mountains; 58° 33' 30" N, 134° 26' 15" W; (map 11). Variant: Rhino Horn. Descriptive name published in 1960 by USGS. Members of the Juneau Icefield Research Project have proposed to change the name to Rhino Horn.

Rhoads Creek: stream, heads near Shovel Point Horn of Granite Mountain, flows NE 18 miles to Granite Creek, 9 miles ESE of Delta Junction, Tanana Lowland; 63° 59' 30" N, 145° 17' 40" W; (map 86). Named between 1948 and 1955 by T. L. Pewe, USGS.

Rhode Island Creek: stream, flows SW 7 miles to Omega Creek, 50 miles E of Tanana, Yukon-Tanana Highlands; 65° 07' 30" N, 150° 20' 00" W; (map 106). Prospectors' name reported in 1904 by Prindle and Hess (1906, pl. 3), USGS.

Rhode Lake: lake, 1.3 miles long, on Kenai Peninsula W of the Finger Lakes, 12 miles NE of Kenai, Cook Inlet Lowland; 60° 38' 10" N, 150° 55' 40" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Rhododendron Cone: hill, 1,235 ft., 1.5 miles S of Imuruk Lake, Seward Peninsula Highlands; 65° 32' N, 163° 09' W; BGN 1952; (map 110). Reported in 1950 by D. M. Hopkins, USGS; one of "Four conspicuous volcanic cones *. * named for wildflowers which are common on the slopes of all four cones."

Rhumba Creek: stream, in De Long Mountains, flows N 7 miles to Sorepaw Creek, 62 miles NE of Misheguk Mountain, Brooks Range; 68° 46' N, 159° 07' W; (map 131). Named by E. G. Sable, USGS, in 1953, "for crooked course of stream."

Rhyolite Creek: stream, in Nutzotin Mountains, flows W 2.7 miles to Chathenda Creek 5 miles E of its junction with Chisana River, Alaska Range; 62° 03' 40" N, 141° 57' 10" W; (map 84). Name reported by S. R. Capps (in Brooks and others, 1916, p. 202), USGS.

Ribdon River: stream, in Philip Smith Mountains, flows W 46 miles to Sagavanirktok River, S of Kakuktukruich Bluff, Brooks Range; 68° 49' N, 148° 48' W; BGN 1960; (map 135). Variant: Sagavanirktok River, Shulukpaukat River. So named by USGS geologists in 1951, "because one of the geologists named Don had a rib injury." The Eskimo name for this stream is "Shukukpaukat" which refers to the "high, steep, sharp mountains" that bound it.

Ribnaia Bay: bay, see Fish Bay.

Ribnaia: locality, on right bank of Yukon River, SW of Russian Mission, Yukon- Kuskokwim Delta; 61° 39' N, 161° 30' W; (map 73). Variant: Ruibnaia, Rybnia. Russian name meaning "fish," for a former Eskimo village reported as "Ruibnai," population 40, in the 1880 census by Ivan Petroff (1881, p. 57) and as "Rybnia" (ibid., 1884, p. 12).

Ribni, Point: point of land, see Fish Point.

Rice Gulch Creek: stream, flows SE 12 miles to Salmon Fork Black River, 32 miles N of Midnight Hill, Porcupine Plateau; 66° 31' N, 141° 10' W; (map 120). Local name obtained in 1956 by T. E. Taylor and R. C. Foley, USGS.

Rice Mountain: mountain, 6,600 ft., 4.6 miles SW of Tiekel Cache and 34 miles NE of Valdez, Chugach Mountains; 61° 21' 45" N, 145° 21' 40" W; (map 68). Local name reported in 1900 by F. C. Schrader (in Baker, 1906), USGS. This mountain may be named for quartermaster's clerk John F. Rice, USA, who led a small expedition from Valdez to Eagle City in 1899.

Rice Peak: mountain peak, see Townsend Peak.

Rice, Mount: mountain, 6,500 ft., in Glacier Bay National Monument, 8 miles NW of Snow Dome and 33 miles SW of Skagway, St. Elias Mountains; 59° 01' 10" N, 135° 42' 15" W; (map 45). Named by the American Geographical Society (Field, 1947, pl. 1) for W. H. Rice, geologist, who visited Muir Inlet in 1913.

Rich Creek: stream, flows N 1.3 miles to East Kiska Lake, Kiska Island, Aleutian Islands; 52° 03' 32" N, 177° 35' 25" E; (map 14). An arbitrary name beginning with "R" to correspond to "R" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Rich Creek: stream, flows SW 7 miles to East Fork Yentna River, 54 miles W of Talkeetna, Alaska Range; 62° 17' 35" N, 151° 45' 30" W; (map 81). Prospectors' name reported in 1911 by S. R. Capps (in Brooks, 1912, pl. 9), USGS.

Rich Creek: stream, flows W 2 miles to Brown Creek, 2 miles N of Dry Bay and 27 miles NE of Augustine Island, Aleutian Range; 59° 43' N, 153° 09' W; BGN 1962; (map 51). Local name published in 1958 by USGS.

Rich Gulch: stream, 3 miles long, flows NE to Fork Creek, 11.5 miles NW of Heart Lake 74 miles SE of Bethel, Kilbuck-Kuskokwim Mountains, 60° 10' N, 159° 59' W; (map 59). Local name reported in 1955 by J. M. Hoare, USGS.

Rich Hill: hill, 800 ft., 1.7 miles SE of Witchcraft Point, Kiska Island, Aleutian Islands; 52° 02' 02" N, 177° 31' 55" E; (map 14). An arbitrary name beginning with "R" to correspond to "R" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Rich, Mount: mountain, 6,180 ft., 1.6 miles W of junction of South Fork Kuskokwim and Styx Rivers, 90 miles NW of Tyonek, Alaska Range; 61° 54' 15" N, 153° 14' 00" W; (map 71). Named in 1898 by J. E. Spurr and W. S. Post, USGS.

Richards Camp: locality, on right bank of Koyukuk River, 8 miles NE of Roundabout Mountain, Koyukuk Lowland; 65° 40' N, 156° 28' W; (map 108). Local name obtained at Huslia by USGS in 1954 or 1955.

Richards Slough: stream, flows SE 8.6 miles to Koyukuk River, 8 miles NE of Roundabout Mountain, Koyukuk Lowland; 60° 40' N, 156° 28' W; (map 108). Local name obtained at Huslia in 1954 or 1955 by USGS.

Richardson Creek: stream, flows NW 14 miles to Hess Creek, 32 miles NE of Rampart, Yukon-Tanana Highlands; 65° 40' N, 149° 04' W; (map 105). Named by prospectors, according to a report in 1902 by Lt. Erickson, USA; published by USGS (Prindle, 1905, pl. 16).

Richardson Roadhouse: locality, see Richardson.

Richardson Telegraph Station: locality, see Richardson.

Richardson, Fort: military reservation, 7 miles NE of Anchorage, Cook Inlet Lowland; 61° 15' 30" N, 149° 41' 00" W; (map 69). Name of a military installation that was established in 1940; presumably named for General Wilds Preston Richardson, 1861-1921, first president of the Alaska Road Commission.

Richardson: locality, on right bank of Tanana River, 18 miles NW of Big Delta, Tanana Lowland; 64° 17' N, 146° 20' W; (map 101). Variant: Richardson Roadhouse, Richardson Telegraph Station. Former village and post office established in 1906 and named for Major Wilds P. Richardson, USA, first President of the Board of the ARC, who "established a sled road between Valdez on the coast, and Fairbanks, the largest settlement in the interior, a distance of 370 miles." (Brooks, 1953, p. 425-436). Eventually, the Tanana River changed its course and the erosive effects forced the people to move. The post office was discontinued in 1943 (Ricks, 1965, p. 54).

Richmond Creek: stream, flows NE 8.1 miles to Minnehaha Creek, 59 miles NW of Haycock, Seward Peninsula Highlands; 65° 59' N, 161° 59' W; (map 109). Local name reported in 1908 by USGS (Brooks and others, 1909, fig. 21).

Richmond Creek: stream, flows SW 4 miles from a lake to North Fork Koyukuk River, 10 miles NE of Ipnek Mountain and 19 miles W of Wiseman, Brooks Range; 67° 27' 00" N, 150° 49' 30" W; BGN 1932; (map 124). Local name "in use since 1900, for Volney Richmond, then manager of the N.C. [Northern Commercial] store in Bettles * * *"; reported by Robert Marshall in 1932.

Richmond Gulch: ravine, on E slope of Mount Brynteson, trends NE 0.2 miles to Glacier Creek, 9 miles NE of Nome, Seward Peninsula Highlands; 64° 37' 52" N, 165° 20' 50" W; (map 94). Prospectors' name shown on the 1902 "Map of the Nome and Snake River Country" by J. M. Davidson.

Richter Creek: stream, flows NE 10 miles to Niukluk River, 32 miles NE of Solomon, Seward Peninsula Highlands; 64° 55' N, 163° 47' W; (map 95). Variant: Slate Creek. This appears to be the stream reported in 1899 as "Slate Creek" by Schrader and Brooks (1900, map 3), USGS.

Ricks Creek: stream, flows NW 10 miles to North Fork Salcha River, 50 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 49' N, 145° 12' W; (map 101). Local name reported in 1958 by USGS.

Ricord, Cape: promontory, see Thompson, Cape.

Riddle Gulch: ravine, trends SE 0.6 miles to Hidden Creek, 7 miles NW of Medfra, Kilbuck-Kuskokwim Mountains; 63° 12' N, 154° 48' W; BGN 1936, (map 89). Local name reported in 1913 by J. B. Mertie, Jr., USGS.

Riddle Hills: hills, 500 ft., 1.2 miles SE of Witchcraft Point, Kiska Island, Aleutian Islands; 52° 02' 20" N, 177° 31' 45" E; (map 14). An arbitrary name beginning with "R" to correspond to "R" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Riddle Lake: lake, 0.2 miles across, one of group of five, 1 mile SE of Witchcraft Point, Kiska Island, Aleutian Islands; 52° 02' 25" N, 177° 31' 20" E; (map 14). An arbitrary name beginning with "R" to correspond to "R" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Ridge Hill: hill, 493 ft., between Rush and Cone Hills, on west-central St. Paul Island, in Pribilof Islands; 57° 11' 00" N, 170° 22' 15" W; (map 38). Variant: Dot Hill. Name published in 1875 by USC&GS; called "Dot Hill" in 1891 by Joseph Stanley-Brown, naturalist.

Ridge Hill: hill, see Bear Hill.

Ridge Island: island, 0.5 miles long, on E coast of Suemez Island, between Meares Passage and Ulloa Channel, Alexander Archipelago; 55° 16' 30" N, 133° 12' 30" W; (map 4). Descriptive name published in 1914 by USC&GS.

Ridge Lake: lake, see Setgun Lake.

Ridge Point: point of land, on NE coast of Akutan Island, Krenitzin Islands, Aleutian Islands; 54° 11' 30" N, 165° 47' 45" W; (map 24). Named in 1901 by J. J. Gilbert, USC&GS, because it is "formed by a narrow mountain ridge."

Ridge Wall: hill, 325 ft., 0.4 miles long, on SW coast of St. Paul Island, in Pribilof Islands, 57° 09' 50" N, 170° 22' 20" W; (map 38). Variant: Ridgewall. Local name reported by Elliott (1881, St. Paul map).

Ridgetop: locality, 1 mile W of Dome Camp and 15 miles N of Fairbanks, Yukon-Tanana Highlands; 65° 02' N, 147° 40' W; (map 105). Descriptive name of a former railroad station on the Tanana Valley Railroad; published in 1907 by USGS.

Ridgeway Creek: stream, flows NE 1.4 miles to Lower Willow Creek which flows to Casadepaga River, 18 miles N of Solomon, Seward Peninsula Highlands; 64° 49' N, 164° 25' W; (map 95). Variant: Myers Creek, Ridgewood Creek. Prospectors' name reported as "Myers or Ridgeway, on a 1902 prospectors' manuscript map. Reported as "Ridgewood" on a 1901 map of Cape Nome gold fields by David Fox, Jr.

Ridgewood Creek: stream, see Ridgeway Creek.

Riding Cove: cove, 0.7 miles across, on SW coast of Unalaska Island, Aleutian Islands; 53° 22' 00" N, 167° 17' 20" W; BGN 1939; (map 23). Named by USC&GS in 1938, "as the cove is the only shelter for small craft in this vicinity from northwesterly weather. Small boats may ride out such weather and also receive limited protection from southerly swells."

Rieba Bay: bay, see Fish Bay.

Riecheshni Bay: bay, see Little Bay.

Riecheshnoe: village, see Nikolski.

Riecheshnoi: bay, see Akun Bay.

Riechesni: locality, on Little Bay, on N coast of Akun Island, Aleutian Islands; 54° 16' N, 165° 35' W; (map 24). Variant: Raicheshnoe, Raychevsnoi. Russian name for a former Aleut village or camp recorded in 1830 as "Raicheshnoe," population 37, by Father Veniaminov (1840, v. 2, p. 202).

Rifle Butte: hill, 400 ft., 17 miles NE of Mount Veniaminof, Bristol Bay Lowland; 56° 25' N, 159° 14' W; (map 30). Name reported in 1923 by R. H. Sargent, USGS; published in 1927 by USGS.

Rifle Creek: stream, heads on King Mountain, flows E 1 mile to Nome River, 8 miles NNE of Nome, Seward Peninsula Highlands; 64° 37' N, 165° 17' W; (map 94). Prospectors' name published on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Rifle Lake: lake, 0.4 miles long, on Kenai Peninsula W of Ursus Lake, 31 miles NE of Kenai, Cook Inlet Lowland; 60° 46' N, 150° 28' W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Riggs Glacier: glacier, in Glacier Bay National Monument, heads on S slope of Takhinsha Mountains, 4 miles SE of Mount Harris, trends 17 miles SSE to head of Muir Inlet, 43 miles SW of Skagway, St. Elias Mountains; 59° 04' 00" N, 136° 11' 00" W; (map 45). Named by the American Geographical Society in 1947 for Thomas Riggs, Jr., 1873-1945; Engineer of the Alaskan Boundary Survey, 1906-13; Governor of Alaska, 1918-21; and United States Commissioner of the IBC about 1936-45. He was born in Maryland and educated at Princeton Univ. He was in the lumber business in Alaska 1897-1901 and was with the Boundary Survey from 1903-05 before becoming engineer in 1906. He was in charge of the Fairbanks Division of location and construction of government railroads in Alaska before becoming Governor of Alaska in 1918.

Riggs, Mount: mountain, 11,783 ft., between Mount Natazhat and Alaska-Canada boundary, N of Klutlan Glacier, 60 miles NE of McCarthy, St. Elias Mountains; BGN 1917; 61° 30' N, 141° 06' W; (map 67). Named by the Alaska-Canada boundary surveyors, 1909-13, for Thomas Riggs, Jr., surveyor in charge for the United States.

Right Arm Creek: stream, on Iniskin Peninsula, flows W 1.4 miles to Right Arm Iniskin Bay, Aleutian Range; 59° 43' 45" N, 153° 20' 30" W; BGN 1962; (map 51). Variant: Steep Creek. Local name derived from Right Arm Iniskin Bay; published by USGS in 1958.

Right Arm Iniskin Bay: estuary, on W coast of Iniskin Peninsula, extends E 2 miles off Iniskin Bay, Aleutian Range; 59° 43' 30" N, 153° 22' 30" W; BGN 1916; (map 51). Name published in 1914 on USC&GS Chart 3421.

Right Branch Big Hurrah Creek: stream, see Trilby Creek.

Right Branch Solomon River: stream, see East Fork Solomon River.

Right Branch Trail Creek: stream, in Chigmit Mountains, at head of Iniskin Peninsula, flows NE 1 mile, joins Wrong Branch to form Trail Creek, 0.7 miles S of Chinitna Bay, Aleutian Range; 59° 47' 45" N, 153° 16' 40" W; BGN 1962; (map 51). Variant: Tonnie Creek. Named in 1951 by USGS.

Right Cape: point of land, see Outer Right Cape.

Right Fork Banner Creek: stream, see Slate Creek.

Right Fork Bluestone River: stream, flows SE 8 miles to join Gold Run, forms Bluestone River, 13 miles SE of Teller, Seward Peninsula Highlands; 65° 05' N, 166° 13' W; (map 111). Local name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Right Fork Canning River: stream, see Marsh Fork Canning River.

Right Fork Canyon Creek: stream, flows NW 2.5 miles to Canyon Creek which flows to Imuruk Basin, 31 miles NW of Nome. Seward Peninsula Highlands; 64° 54' N, 165° 51' W;

(map 94). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Right Fork Goodhope River: stream, see Goodhope River.

Right Fork Kooguru River: stream, see Marsh Fork Canning River.

Right Fork Kugruk River: stream, see Kugruk River.

Right Fork Macklin Creek: stream, flows N 1.4 miles to Macklin Creek which flows to Kougarok River, 4 miles SW of Midnight Mountain and 45 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 45' N, 164° 43' W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Right Fork Ono-ko-vuk River: stream, see Monday Creek.

Right Fork Quartz Creek: stream, see North Fork Quartz Creek.

Right Fork Slate Creek: stream, flows NE 0.5 miles, joins Left Fork to form Slate Creek which flows E to Nome River, 13 miles N of Nome, Seward Peninsula Highlands; 64° 42' N, 165° 20' W; (map 94). Prospectors' name shown on the 1902 "Map of the Nome and Snake River Country" by J. M. Davidson.

Right Fork Solomon River: stream, see East Fork Solomon River.

Right Fork Stewart River: stream, see Silver Creek.

Right Fork Vermont Creek: stream, flows NE 1 mile from Vermont Pass to Vermont Creek, 2.5 miles ESE of Vermont Dome and 7 miles N of Wiseman, Brooks Range; 67° 31' N, 150° 08' W; (map 124). Local name reported in 1956 by T. E. Taylor, USGS.

Right Fork West Glacier Creek: stream, in Chigmit Mountains, heads at Umbrella Glacier terminus, flows SW 4 miles, joins Left Fork to form West Glacier Creek, 5 miles N of Chinitna Bay, Aleutian Range; 59° 55' 40" N, 153° 17' 20" W; (map 51). Local name reported in 1957 by USGS.

Right Hand Point: point of land, W point of entrance to Kulukak Bay, on N shore of Bristol Bay, 54 miles SW of Dillingham, Kilbuck-Kuskokwim Mountains; 58° 46' 10" N, 159° 54' 00" W; (map 40). Variant: Mys Pravoi. Translation of Russian "M[ys] Pravoi" reported by Capt. Tebenkov (1852, map 4), IRN.

Right Head: bay, SE arm of Port Moller, extends 6 miles inland, Alaska Peninsula, Aleutian Range; 55° 48' N, 160° 20' W; (map 28). Reported by Atwood (1911, pl. 2), USGS.

Rikord, Mys: promontory, see Thompson, Cape.

Rikorda, Mys: promontory, see Thompson, Cape.

Riley Channel: stream, a distributary of Kobuk River, flows SW 33 miles to Hotham Inlet, 53 miles WNW of Selawik, Kotzebue- Kobuk Lowland; 66° 47' N, 161° 52' W; (map 114). The name "Riley Channel" is written in pencil on a manuscript map by Lt. G. M. Stoney, USN; probably named by him in 1885 for an Eskimo interpreter in his party, Ounalook, whom they nicknamed "Riley."

Riley Creek Glacier: glacier, trends N 2 miles to its 1950 terminus at head of Riley Creek, 34 miles SE of Delta Junction, Alaska Range; 63° 34' 00" N, 145° 34' 20" W; (map 86). Name published on relatively recent maps.

Riley Creek: settlement, see McKinley Park.

Riley Creek: stream, flows E 8 miles to Kogoluktuk River, 16 miles NE of Shungnak, Brooks Range; 67° 02' N, 156° 40' W; (map 126). Prospectors' name given about 1908 and reported by P. S. Smith and H. M. Eakin, USGS, in 1910 (in Brooks and others, 1911, p. 294). Lt. G. M. Stoney's Eskimo interpreter was called "Riley" (Stoney, 1900, p. 17). However, it was more likely named for the small steamboat John Riley which plied the Kobuk River about the time the stream was named.

Riley Creek: stream, flows N 3.7 miles to Matanuska River 29 miles NE of Palmer, Chugach Mountains; 61° 47' 15" N, 148° 20' 15" W; (map 69). Local name reported in 1948 by USGS.

Riley Creek: stream, flows NE 22 miles to Nenana River, 10 miles S of Healy, Alaska Range; 63° 43' 30" N, 148° 53' 00" W; (map 87). Local name reported by Woodbury Abbey, U.S. Army Corps of Engineers, on the blueprint of his 1921 Mount McKinley National Park survey.

Riley Creek: stream, heads at Riley Creek Glacier terminus, flows NW 7 miles to Jarvis Creek, 28 miles S of Delta Junction, Alaska Range; 63° 38' 40" N, 145° 37' 20" W; BGN 1937; (map 86). Local name reported in 1937 by USGS.

Riley Lake: lake, 0.8 miles long, 6.5 miles NE of Beaver, Yukon Flats; 66° 26' N, 147° 13' W; (map 118). Local name obtained in 1956 by USGS.

Riley, Cape: point of land, on W shore of Port Clarence, 4 miles SW of Teller, Seward Peninsula Highlands; 65° 13' N, 166° 28' W; (map 111). "Apparently so named by Beechey, 1827, or possibly by Trollope, 1854" (Baker, 1906, p. 528). For some years the name was misapplied to the south point of the entrance to Grantley Harbor, at Teller.

Riley: settlement, see McKinley Park.

Rim Butte: mountain, 3,570 ft., in Brooks Range, 27 miles NNW of Howard Pass; 68° 34' N, 157° 21' W; (map 132). Named in 1950 by Island L. Tailleux, USGS, geologist with the Naval Petroleum Reserve No. 4 explorations because of the "prominent butt of rim rock." Name was published by USGS in 1951.

Rime Peak: peak, 12,741 ft., 4.5 miles NE of Mount Blackburn and 26 miles NW of McCarthy, Wrangell Mountains; BGN 1966; 61° 44' 52" N, 143° 18' 15" W; (map 67). Named in 1965 by the Mountaineering Club of Alaska, "because of the unusual accumulations of rime crystals found on the peak."

Rimrock Creek: stream, on Kenai Peninsula, flows SE 3 miles to Resurrection Creek, 5.5 miles S of Hope, Chugach Mountains; 60° 51' 30" N, 149° 38' 00" W; (map 63). Local prospectors' name; reported in 1904 by Moffit (1906, pl. 2), USGS.

Ring Creek: stream, flows SW 3.5 miles to Right Fork Bluestone River, 11 miles S of Teller, Seward Peninsula Highlands; 65° 07' N, 166° 23' W; (map 111). Local name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Ring Island: island, 0.2 miles across, in Jamestown Bay, 2 miles SE of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 02' 20" N, 135° 17' 20" W; (map 9). Variant: Ring Islet. Named by U.S. Navy in 1880 for paymaster James Andrew Ring, USN. The name was Published by USC&GS in the 1883 Coast Pilot (p. 144).

Ring Islet: island, see Ring Island.

Ring Lake: lake, 0.2 miles across, on northeastern Kiska Island, Aleutian Islands; 52° 02' 48" N, 177° 36' 40" E; (map 14). An arbitrary name beginning with "R" to correspond to "R" grid used by the U.S. Army for tactical purposes during World War II Published on a 1953 AMS map.

Ringgold Island: island, 1.5 miles long, on W coast of Adak Island in Bay of Islands, Aleutian Islands; 51° 48' 10" N, 176° 49' 00" W; BGN 1936; (map 17). Variant: Agatha Island. Named in 1936 by the U.S. Navy Hydrog. Office, for Capt. Cadwalader Ringgold, USN, Commander of the North Pacific Exploring Expedition in 1855.

Ringgold Sound: water passage, on W coast of Adak Island, S of Ringgold Island in Bay of Islands, Aleutian Islands; 51° 48' 10" N, 176° 50' 00" W; BGN 1936; (map 17). Variant: Agatha Sound. See Ringgold Island.

Ringgold, Lake: lake, 0.1 miles long, on Ringgold Island, Bay of Islands, Adak Island, Aleutian Islands; 51° 48' 11" N, 176° 48' 55" W; BGN 1936; (map 17). Variant: Agatha Lake. Name derived from Ringgold Island and given by the U.S. Navy Hydrog. Office in 1936. See Ringgold Island.

Ringinalook River: stream, see Pingaluk River.

Rio Shore Creek: stream, flows S to Bering Sea about 25 miles NE of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Rio: point of land, see Riou, Point.

Riot Hill: mountain, 1,100 ft., 1.5 miles N of Salmon Lagoon, Kiska Island, Aleutian Islands; 52' 01' 28" N, 177° 32' 52" E; (map 14). Variant: Tundra Hill. An arbitrary name beginning with "R" to correspond to "R" grid used by U.S. Army for tactical purposes during World War II; published on a 1953 AMS map. Variant published on a 1943 USAAF map.

Riou Bay: bay, 3 miles long, on S side of Icy Bay, 64 miles NW of Yakutat, Malaspina Coastal Plain; 59° 54' N, 141° 27' W; (map 47). Name published on a 1945 USC&GS chart. Its name was taken from nearby Point Riou.

Riou, Point: point of land, extends SW into Gulf of Alaska, near S entrance of Icy Bay, 64 miles NW of Yakutat, Malaspina Coastal Plain; 59° 52' 30" N, 141° 27' 30" W; (map 47). Variant: Pointe de Boussole, Nizmennoi, Rio, Cape Riou. Named by Vancouver (1798, v. 3, p. 204) June 28, 1794, probably in honor of Edward Riou, midshipman on the Third Cook Expedition. Tebenkov (1852, map 7) calls it "Nizmennoi," meaning "low" although he also includes, beneath the name, the Russian transliteration of "Riou," which is shown on later Russian Hydrog. Dept. charts as "Rio." This may also be the point of land the La Perouse map shows as "Pointe de Boussole" although some authorities feel the name applies to what is now called "Cape Manby." La Perouse appears not to have mentioned "Pointe de Boussole" in his text which would indicate that the name was added when the map was drawn later in Paris (Wagner, 1937, p. 434). The Boussole was one of La Perouse's ships.

Rip Point: point of land, on SE coast of Great Sitkin Island, Aleutian Islands; 51° 59' 02" N, 176° 01' 30" W; BGN 1936; (map 17). So named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934, because of "the strong tide rips in the locality."

Rip Point: point of land, on SE coast of Prince of Wales Island, 1.3 miles SE of Whiterock Island, Alexander Archipelago; 55° 02' 15" N, 131° 58' 45" W; (map 3). Local name published in the 1925 Coast Pilot (p. 74).

Rip Rock: rock, in Hawkins Island Cutoff, between Hinchinbrook Island, and Hawkins Island and 20 miles SW of Cordova, Chugach Mountains; 60° 27' 30" N, 146° 20' 10" W; (map 64). Named in 1900 by H. P. Ritter, USC&GS.

Rip Rock: rock, on NW coast of Cape Chisak, Little Tanaga Island, Aleutian Islands; 51° 46' 45" N, 176° 10' 40" W; BGN 1936; (map 17). So named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934, because it is "marked by strong tide rips and overfalls."

Riph Point: point of land, see Shakmanof Point.

Ripinski, Mount: mountain, 3,600 ft., at E end of Takshanuk Mountains, 2.6 miles W of Tanani and 15 miles SW of Skagway, Coast Mountains; 59° 15' 55" N, 135° 31' 15" W; (map 45). Named locally for "Mr. Ripinski" of the Haines Mission and published in 1897 by USC&GS.

Ripon Glacier: glacier, on E side of Kenai Peninsula, trends NW 1.5 miles to its terminus, 6 miles SE of Whittier, Chugach Mountains; 60° 41' 30" N, 148° 36' 00" W; BGN 1930; (map 63). Named in 1910 by Lawrence Martin, USGS, for Ripon College, Ripon, Wis.

Ripple Cove: cove, 1 mile across, in Glacier Bay National Monument, on W shore of Glacier Bay, 0.6 miles S of Rush Point and 33 miles NW of Hoonah, St. Elias Mountains; 58° 27' N, 136° 04' W, BGN 1942; (map 10). So named by USC&GS in 1938 "because of the high velocity of the currents in this locality."

Ripple Cove: cove, 1 mile long, 2 miles SE of Crater Bay, on SW coast of Harris Peninsula, 33 miles SW of Seward, Chugach Mountains; 59° 40' 15" N, 149° 47' 45" W; BGN 1930; (map 49). So named by the 1928 USC&GS field party because of the "comparative smoothness of water."

Ripple Narrows: water passage, see Sitakaday Narrows.

Ripsnorter Creek: stream, heads at glacier, flows SW 10 miles to Tonzona River, 15 miles W of Mount Russell, Alaska Range; 62° 47' 05" N, 152° 20' 35" W; (map 81). Prospectors' name reported in 1925 by S. R. Capps (in Moffit, 1927, pl. 3), USGS.

Rishenia, Mys: point of land, see Decision, Cape.

Risk Hill: hill, 300 ft., 1.3 miles S of Witchcraft Point, Kiska Island, Aleutian Islands; 52° 02' 05" N, 177° 30' 30" E; (map 14). An arbitrary name beginning with "R" to correspond to the "R" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Risky Creek: stream, flows NE 2 miles to Chukchi Sea, E of Sapumik Ridge, 23 miles E of Cape Lisburne, Arctic Slope; 68° 51' 38" N, 165° 18' 45" W; (map 129). Named in 1953 by USGS geologists "because it is the last available beaching point in several miles for small boats traveling from Corwin to Ahyougatuk [Ayugatak] Lagoon" (Chapman and Sable, 1960, p. 54).

Ritter Point: point of land, on W coast of Dall Island, 2.5 miles N of Port Bazan, Alexander Archipelago; 54° 51' 30" N, 133° 02' 00" W; BGN 1929; (map 1). Named by USC&GS in 1928 for "the late Homer P. Ritter," USC&GS, who made early surveys in Alaska.

River Bay: bay, 5 miles long, in Lake Nerka, drained by the Agulowak River, 30 miles NW of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 25' N, 158° 50' W; BGN 1931; (map 52). So called because the head of this arm of Lake Nerka leads into the lake's outlet. Local name reported by Gerald FitzGerald, USGS, in 1930.

River Cove: cove, 0.3 miles across, in E part of Nikolski Bay, on SW coast of Umnak Island, Aleutian Islands; 52° 57' 15" N, 168° 51' 15" W; (map 21). Name published by USC&GS in 1944 Aleutian Coast Pilot (p. 67).

River Point: point of land, on E shore of Gilbert Bay at mouth of Whiting River, 2 miles E of Sentinel Point and 33 miles SE of Juneau, Coast Mountains; 57° 59' 45" N, 133° 42' 30" W; (map 8). Descriptive name given in 1888 by Lt. Comdr. C. M. Thomas, USN.

River Point: point of land, on W bank of Portland Canal, 10 miles N of Turn Point, Coast Mountains; 55° 34' N, 130° 08' W; (map 3). Local descriptive name published in 1891 by USC&GS; this point is just north of the mouth of a river.

River: locality, along Seward Peninsula Railroad and Nome River, about 13 miles NE of Nome, Seward Peninsula Highlands; (map 94). Site of a railroad station built in 1905 or 1906 (Cole, 1953, p. 14). Its precise location is not known.

Rivermouth Point: point of land, at mouth of Afognak River, 4.4 miles N of Afognak, on S coast of Afognak Island, N of Kodiak Island; 58° 04' N, 152° 47' W; (map 43). Variant: Ustia riei, Ustya Ryki. Translation of the name "M[ys] Ustya Ryki" given by Sub-Lt. Mikhail Murashev, IRN, in 1839 or 1840 and published by the Russian Hydrog. Dept. in 1849 on Chart 1425.

Rjatscheschnoje: village, see Nikolski.

Road Island: island, 1 mile long, in Ivanof Bay, 6 miles NE of Stepovak Bay, Aleutian Range; 55° 51' 00" N, 159° 29' 40" W; (map 27). Variant: John Island. Named "John Island" in 1880 by W. H. Dall, USC&GS. In 1947, USC&GS reported that "Road Island" had been in use for some years.

Road Island: island, 150 ft. across, in Redoubt Bay, 9 miles S of Sitka, Alexander Archipelago; 56° 55' 30" N, 135° 21' 05" W; (map 5). Variant: Dorozhoi Island, Ostrov Dorozhnoy. This is a translation by USC&GS of the name given in 1809 by the navigator Ivan Vasiliev the first, IRN. Lt. Sarichev (1826, map 19), IRN, published it as "O[strov] Dorozhnoy."

Roadhouse Bay: cove, 0.6 miles across, on N shore of Iliamna Lake, 3 miles SE of Iliamna, Aleutian Range; 59° 45' N, 154° 49' W; (map 51). Local name derived from Roadhouse Mountain; published in 1954 by USGS.

Roadhouse Creek: stream, flows SW 9 miles to Roadhouse Bay, Iliamna Lake, 3 miles E of Iliamna, Aleutian Range; 59° 45' N, 154° 50' W; (map 51). Local name derived from Roadhouse Mountain; published in 1954 by USGS.

Roadhouse Creek: stream, in Rampart Mountains, flows S 4.5 miles to Yukon River, 11 miles W of Rampart and 50 miles ENE of Tanana, Kokrines-Hodzana Highlands; 65° 29' N, 150° 34' W, (map 106). Local name reported in 1956 by Orth; so named because McCormick Roadhouse was located at the stream's mouth.

Roadhouse Hills: mountain, see Roadhouse Mountain.

Roadhouse Moses: village, see Moses Point.

Roadhouse Mountain: mountain, N of Iliamna Lake, 10 miles SE of Nondalton, Aleutian Range; 59° 51' 30" N, 154° 40' 00" W; (map 51). Variant: Roadhouse Hills. Local name published by G. C. Martin and F. J. Katz (1912, pl. 1), USGS.

Roadstead Island: island, 0.2 miles across, in Security Bay, on N coast of Kuiu Island, Alexander Archipelago; 56° 52' 20" N, 134° 22' 10" W; (map 5). Named in 1869 by Comdr. R. W. Meade, USN.

Roaring Bear Lake: lake, 1 mile across, at head of Meadow Creek, 18 miles W of Beaver, Yukon Flats; 66° 21' 30" N, 148° 04' 00" W; (map 118). Variant: First Lake. Local name reported in 1956 by USGS; the lake was shown as "First Lake" on a 1916 manuscript map by William Yanert because it was first in a series of lakes (Stuck, 1917, map facing p. 122).

Roaring Cove: cove, 600 ft. wide, on W coast of Ragged Island, in Pye Islands, 46 miles E of Seldovia, Chugach Mountains; 59° 25' N, 150° 25' W; BGN 1929; (map 50). So named by USC&GS in 1927, "because of the roar and echo of the waves."

Roaring Creek: stream, flows NW 3.3 miles to Kotsina River, 37 miles NW of McCarthy, Wrangell Mountains; 61° 47' N, 143° 51' W; (map 67). Local name reported in 1900 by T. G. Gerdine, USGS.

Roaring Creek: stream, flows SE 4.7 miles to Oshetna River, 31 miles NW of Tahnetna Pass and 82 miles W of Gulkana, Talkeetna Mountains; 62° 15' N, 147° 53' W; (map 82). Local descriptive name reported in 1931 by USGS.

Roaring Creek: stream, on Kenai Peninsula, flows NW 2 miles to Canyon Creek, 10 miles S of Sunrise, Chugach Mountains; 60° 43' 25" N, 149° 27' 00" W; (map 63). Local prospectors' name; reported about 1914 by B. L. Johnson (in Martin and others, 1915, pl. 2), USGS.

Roaring Glacier: glacier, E of Surprise Glacier, trends NE 3.5 miles to its terminus at head of a stream 1 mile long which drains into Harriman Fiord, 52 miles SE of Anchorage, Chugach Mountains; 61° 00' 45" N, 148° 24' 30" W; BGN 1964; (map 69). Descriptive name given in 1899 by members of the Harriman Alaska Expedition; name suggested by the noise of tumbling ice masses on the steep slope at the glacier terminus.

Roaring Glacier: glacier, see Surprise Glacier.

Rob Point: point of land, on SW coast of Krestof Island, 11 miles NW of Sitka, Alexander Archipelago; 57° 09' N, 135° 33' W; (map 9). Probably a local name reported in 1897 by Lt. Comdr. E. K. Moore, USN, and published in 1900 by USC&GS on Chart 8281.

Robber Hill: hill, 320 ft., 0.7 miles E of Witchcraft Point, on northern Kiska Island, Aleutian Islands; 52° 03' 00" N, 177° 31' 15" E; (map 14). An arbitrary name beginning with "R" to correspond to "R" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Robber Island: island, see Toti Island.

Robber Islands: islands, see Ladrones Islands.

Robber Lake: lake, one of group of five, 0.2 miles across, 0.8 miles SE of Witchcraft Point, on northern Kiska Island, Aleutian Islands; 52° 02' 40" N, 177° 31' 00" E; (map 14). An arbitrary name beginning with "R" to correspond to "R" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Robe Lake: lake, 2.2 miles long, 1.5 miles N of Washbowl Basin and 3 miles SE of Valdez, Chugach Mountains; 61° 05' 20" N, 146° 10' 30" W; (map 68). Named in 1898 by Capt. W. R. Abercrombie, USA, for a local prospector, Harvey Robe, who joined Abercrombie's party for a short time.

Robe River: stream, heads in Robe Lake, flows W 3 miles to Lowe River at its mouth on Port Valdez, 1.8 miles SE of Valdez, Chugach Mountains; 61° 05' 45" N, 146° 14' 20" W; (map 68).

Named in 1898 by Capt. W. R. Abercrombie, USA, for a local prospector, Harvey Robe, who joined Abercrombie's party for a short time.

Robert Barron Peak: mountain, see Robert Barron, Mount.

Robert Barron, Mount: mountain, 3,475 ft., on Mansfield Peninsula, 2 miles SE of Funter Bay and 16 miles SW of Juneau, Alexander Archipelago; 58° 13' 35" N, 134° 50' 20" W; BGN 1919; (map 11). Variant: Robert Barron Peak. Named by USC&GS in 1919 for Robert Barron, son of James T. Barron, both of whom were instrumental in developing the Funter Bay region. The name was published in 1919 by USC&GS.

Robert Creek: stream, flows SW 17 miles around E side of Horace Mountain, joins Phoebe Creek to form Bettles River, 21 miles WNW of Chandalar, Brooks Range; 67° 35' 40" N, 149° 14' 00" W; (map 123). Prospectors' name reported in 1899 by Schrader (1900b, pl. 60), USGS.

Robert Island: island, 1 mile long, largest of Robert Islands in Port Houghton, 2 miles NE of Fort Point and 73 miles E of Sitka, Coast Mountains; 57° 18' 15" N, 133° 28' 50" W; (map 8). Name published by USC&GS in 1883 Coast Pilot (p. 128).

Robert Islands: islands, off S shore of Port Houghton at its junction with Stephens Passage, 2.5 miles NE of Fort Point and 73 miles E of Sitka, Coast Mountains; 57° 18' 15" N, 133° 28' 00" W; (map 8). Variant: Roberts Islands. Named in 1882 by Lt. Comdr. H. E. Nichols, USN; published by USC&GS in 1891 Coast Pilot (p. 128).

Robert Lincoln, Mount: mountain, see Roberts Mountain.

Robert Ridge: ridge, 1 mile long, 1.3 miles NE of Conquer Point, Kiska Island, Aleutian Islands; 52° 01' 15" N, 177° 30' 35" E; (map 14). An arbitrary name beginning with "R" to correspond to "R" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Roberts Bay: bay, see Sawmill Bay.

Roberts Creek: stream, flows NE 18 miles to Bonasila River, 2 miles W of Anvik and 46 miles NW of Holy Cross, Nulato Hills; 62° 37' 50" N, 160° 53' 00" W; (map 78). Local name reported in 1949 by USC&GS.

Roberts Creek: stream, heads on NW slope of Cloudy Mountain, flows SW 12 miles to Innoko River, 13 miles SE of Ophir and 19 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 06' N, 156° 08' W; (map 90). Prospectors' name published in 1921 by USGS.

Roberts Gulch: ravine, probably on SE slope of Mount Roberts, about 3.5 miles SE of Juneau; Coast Mountains; 58° 17' N, 134° 17' W; (map 11). Locally named for Henry Roberts, who located a number of claims on this gulch in 1883 (DeArmond, 1957, p. 37).

Roberts Islands: islands, see Robert Islands.

Roberts Mountain: mountain, 1,675 ft., 19 miles W of Twin Mountain and 16 miles NW of Cape Mendenhall, on Nunivak Island; 60° 01' 45" N, 166° 15' 50" W; (map 57). Variant: Mount Robert Lincoln, Mount Roberts. Name reported about 1908 by USC&GS. Ivan Petroff in the 1880 Census applied the name "Mt. Robe[r]t Lincoln" to this feature. Baker (1906, p. 529), USGS, notes that it was apparently so named in 1778 by E. W. Nelson, U.S. Engineers, after the Honorable Robert Lincoln, Secretary of War, 1881-85, and eldest son of President Abraham Lincoln. Robertson Creek: stream, see Robinson Creek.

Roberts Peak: peak, see Roberts, Mount.

Roberts, Mount: mountain, see Roberts Mountain.

Roberts, Mount: peak, 3,819 ft., 1.6 miles N of Thane, on Gastineau Channel, 3 miles SE of Juneau, Coast Mountains; 58° 17' 10" N, 134° 19' 30" W; (map 11). Variant: Gold Mountain, Little Mount Juneau, Roberts Peak, Swede Hill. Source of name uncertain. In 1881 there were numerous references to the mountain as Gold Mountain. However, in 1883, Henry Roberts located a number of mining claims along Roberts Gulch below this mountain and thus may be the source of the name. Between 1902 and 1913 the mountain was frequently called "Swede Hill," but since that time the name "Mount Roberts" has been generally adopted (DeArmond, 1957, p. 36, 37).

Robertson Glacier: glacier, heads on Mount Kimball, trends NE 10 miles to its 1955 terminus at head of Robertson River, 39 miles NE of Paxson, Alaska Range; 63° 17' 30" N, 144° 22' 40" W; BGN 1936; (map 86). Local name reported in 1936 by USGS.

Robertson River: stream, heads at terminus of Robertson Glacier, flows NE 33 miles to Tanana River, 16 miles NW of Tanacross, Alaska Range 63° 30' N, 143° 47' W; (map 85). Named in 1885 by Lt. Allen (1887, p. 81) USA, in honor of Sgt. Cady Robertson, USA, a member of his party.

Robin Creek: stream, flows NE 2 miles to Dominion Creek, 76 miles NE of Bethel, Kilbuck-Kuskokwim Mountains; 61° 00' N, 159° 33' W; (map 59). Prospectors' name reported in 1914 by A. G. Maddren (in Brooks, 1915, pl. 11), USGS.

Robin Creek: stream, flows NW 1.4 miles to West Kiska Lake, Kiska Island, Aleutian Islands; 52° 03' 12" N, 177° 33' 10" E; (map 14). An arbitrary name beginning with "R" to correspond to "R" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Robin Island: islands, see Saint Lazaria Islands.

Robinson Creek: stream, flows NW 3 miles to Wade Creek, 45 miles SW of Eagle, Yukon-Tanana Highlands; 64° 09' 30" N, 141° 26' 30" W; (map 102). Variant: Robertson Creek. Named by prospectors and shown as "Robertson Creek" on an 1898 manuscript map by C. A. Woodruff.

Robinson Creek: stream, flows SW 5.5 miles through a lake, to Behm Canal, 9 miles SE of Point Fitzgibbon, Coast Mountains; 55° 52' N, 131° 06' W; BGN 1942; (map 3). Local name reported in 1942 by USFS.

Robinson Falls Creek: stream, flows S 2.5 miles to end of Orca Inlet, 9 miles NE of Cordova, Chugach Mountains; 60° 40' N, 145° 39' W; (map 64). Local name reported in 1913 by B. L. Johnson (in Brooks and others, 1914, pl. 7), USGS.

Robinson Hills: mountain range, see Robinson Mountains.

Robinson Lake: lake, see Nikabuna Lake.

Robinson Mountains: mountain range, trends 50 miles along Gulf of Alaska from Bering Glacier on W to Guyot Glacier on E, 100 miles NW of Yakutat, St. Elias Mountains; 60° 18' N, 142° 20' W. BGN 1960; (map 65). Variant: Robinson Hills. Named by Island C. Russell in 1891 to commemorate Lt. L. Island Robinson, USRCS, who was drowned while landing at Icy Bay that year.

Robinson Ridge: ridge, 1 mile long, between West Massacre Valley and Prendergast Ridge, on eastern Attu Island, Aleutian Islands; 52° 53' 25" N, 173° 09' 25" E; (map 13). Name given by the U.S. Army during World War II and shown on an AMS map published in 1948; name is not used today.

Rochanoff Lake: lake, see Becharof Lake.

Rocher en forme de Colonne: rock, see Pillar Rock.

Rocheshnoe: village, see Nikolski.

Rock Bay: cove, see Quartz Bay.

Rock Butte: mountain, 3,165 ft., on Prince of Wales Island near head of West Arm Cholmondeley Sound, Alexander Archipelago; 55° 17' 00" N, 132° 28' 30" W, (map 4). Local name published in 1943 by USC&GS.

Rock Candy Creek: stream, heads at glacier terminus, flows NW 2.8 miles to larger glacier, 2 miles SW of that glacier's terminus at head of West Fork Robertson River, 32 miles NE of Paxson, Alaska Range, 63° 19' 15" N, 144° 41' 30" W, (map 86). Name published on relatively recent maps.

Rock Cliff: Cliff, 1.5 miles NE of Arch Point, 4 miles NW of Dolgoi Island, near SW end of Alaska Peninsula, Aleutian Range; 55° 04' 10" N, 161° 53' 00" W; (map 28). Named in 1943 by USC&GS.

Rock Creek: stream, flows 6 miles E to Willow Creek, 5 miles NW of Kenney Lake and 58 miles NE of Valdez, Chugach Mountains; 61° 45' 45" N, 145° 05' 00" W; BGN 1932; (map 68). Variant: Mosquito Creek. Local name reported in 1930 by USGS.

Rock Creek: stream, flows E 3.5 miles to Wood River, 36 miles NE of Healy, Alaska Range; 63° 54' 10" N, 147° 50' 10" W; (map 87). Local descriptive name reported in 1951 by USGS.

Rock Creek: stream, flows N 1.5 miles to Coal Creek which flows to Solomon River, 14 miles NE of Solomon, Seward Peninsula Highlands; 64° 44' 40" N, 164° 14' 45" W; (map 95). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Rock Creek: stream, flows N 3 miles to head of Polk Inlet, near center of Prince of Wales Island, Alexander Archipelago; 55° 18' 55" N, 132° 27' 55" W; (map 4). Local name published in 1943 by USC&GS.

Rock Creek: stream, flows N 4 miles to Seventymile River, 11 miles NW of Eagle, Yukon-Tanana Highlands; 64° 53' 45" N, 141° 29' 30" W; BGN 1913; (map 102). Variant: Little Blanche Creek. Local name reported in 1912 by R. W. Davenport (in Brooks and others, 1913, p. 249), USGS. This stream was reported in 1898 by E. C. Barnard, USGS as "Little Blanche Creek."

Rock Creek: stream, flows N 7 miles to Garnet Creek, 13 miles SW of Rampart, Yukon-Tanana Highlands; 65° 21' N, 150° 26' W; (map 106). Prospectors' name reported in 1902 by Lt. Hjalmer Erickson, USA.

Rock Creek: stream, flows N W 3.4 miles to Taylor Creek which flows to Kougarok River, 7 miles SW of Midnight Mountain and 45 miles N W of Imurak Lake, Seward Peninsula Highlands; 65° 41' N, 164° 45' W; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Rock Creek: stream, flows N W 5 miles to Chena River 3 miles SW of junction with its East Fork and 39 miles E of Fairbanks, Yukon-Tanana Highlands; 64° 54' 25" N, 146° 20' 30" W; (map 101). Local descriptive name; published in 1956 by USGS.

Rock Creek: stream, flows N W 7.5 miles to Patterson Creek, 44 miles NE of Bitzshtini Mountains, Yukon-Tanana Highlands; 65° 00' N, 151° 08' W; (map 99). Local descriptive name reported in 1952 by USGS.

Rock Creek: stream, flows NE 10 miles to Chulitna River, 10 miles NW of Nondalton, Alaska Range; 60° 07' 30" N, 155° 03' 30" W; (map 61). Local name reported in 1954 by USGS.

Rock Creek: stream, flows NE 2.5 miles to Slate Creek which flows to Pilgrim River, 27 miles N W of Solomon, Seward Peninsula Highlands; 64° 54' N, 164° 51' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Rock Creek: stream, flows NE 3.3 miles to Waldron Creek, 40 miles NE of Rampart, Yukon-Tanana Highlands; 65° 50' N, 149° 17' W; (map 105). Local name published by USGS in the 1950's.

Rock Creek: stream, flows NE 8 miles to Middle Fork Chandalar River, 18 miles E of Chandalar, Brooks Range; 67° 31' 10" N, 147° 49' 00" W; (map 123). Prospectors' name obtained in 1909 by A. G. Maddren (in Brooks and others, 1910, pl. 7), USGS.

Rock Creek: stream, flows NW 13 miles to Preacher Creek, 8 miles SW of mouth of Mule Creek and 38 miles W of Circle, Yukon-Tanana Highlands; 65° 49' N, 145° 23' W; (map 104). Named by prospectors and reported in 1904 by D. C. Witherspoon, USGS.

Rock Creek: stream, flows NW 8 miles to Tanana River, 66 miles W of Fairbanks, Tanana Lowland; 64° 45' 30" N, 149° 56' 50" W; (map 100). Local name reported in 1921 by USGS.

Rock Creek: stream, flows S 2.2 miles to Fox Creek which flows to Eldorado River, 20 miles NE of Nome, Seward Peninsula Highlands; 64° 45' 58" N, 165° 06' 59" W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Rock Creek: stream, flows S 5 miles to Goodpaster River, 48 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 30' N, 144° 30' W; (map 101). Named by prospectors and reported in 1903 by T. G. Gerdine (Prindle, 1913a, pl. 16), USGS.

Rock Creek: stream, flows S W 1 mile to Baker Creek which flows to Boston Creek, in Pargon River basin, 18 miles E of Mount Bendeleben, Seward Peninsula Highlands; 65° 12' N, 163° 29' W; (map 110) Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Rock Creek: stream, flows S W 1.2 miles to Solomon River, 0.3 miles N of Chambers Creek and 3.5 miles NE of Solomon, Seward Peninsula Highlands; 64° 36' 30" N, 164° 23' 00" W; (map 95). Prospectors' name reported on a 1902 prospectors' manuscript map.

Rock Creek: stream, flows S W 2.6 miles to Snake River, 7 miles NW of Nome, Seward Peninsula Highlands; 64° 36' N, 165° 28' W; (map 94). Prospectors' name reported in 1899 by D. C. Witherspoon (in Schrader and Brooks, 1900, map 2), USGS.

Rock Creek: Stream, flows S W 24 miles to Stony River 13 miles NW of its junction with Telaquana River, 65 miles NW of Lake Clark, Lime Hills; 61° 12' N, 154° 41' W; (map 71). Prospectors' name published in 1951 by USGS.

Rock Creek: stream, flows S W 5 miles to Burke Creek which flows to American River, 10 miles W of Kougarok Mountain and 37 miles NE of Teller, Seward Peninsula Highlands; 65° 41' N, 165° 35' W; (map 111). Prospectors name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Rock Creek: stream, flows SE 5 miles to Peace River, 14 miles N of Haycock, Seward Peninsula Highlands; 65° 24' N, 161° 01' W; (map 109). Local name reported in 1917 by G. L. Harrington, USGS.

Rock Creek: stream, flows SE 5.5 miles to Topkok River near its mouth, 15 miles E of Solomon, Seward Peninsula Highlands; 64° 34' 00" N, 163° 56' 30" W; (map 95). Prospectors' name reported on the 1904 "Map of Cape Nome Precinct" by Arthur Gibson.

Rock Creek: stream, flows SW 2.2 miles to Chisna River 3 miles NE of its junction with Chistochina River, 23 miles NE of Parsons, Alaska Range; 63° 05' 00" N, 144° 47' 08" W; (map 86). Variant: Willow Creek. Prospectors' name reported in 1902 by W. C. Mendenhall, USGS.

Rock Creek: stream, flows SW 8.5 miles to North Fork Koyukuk River, 11 miles SW of Emma Dome and 18 miles SW of Wiseman, Brooks Range; 67° 16' 30" N, 150° 41' 00" W; BGN 1932; (map 124). Local name reported by Robert Marshall in 1932.

Rock Creek: stream, flows W 2 miles to Big Four Creek which flows to Casadepaga River, 22 miles NE of Solomon, Seward Peninsula Highlands; 64° 50' N, 164° 05' W; (map 95). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Rock Creek: stream, heads at glacier terminus and flows 6.1 miles NW to Kotsina River 2 miles SE of its junction with Kluvesna River and 40 miles NW of McCarthy, Wrangell Mountains; 61° 43' N, 143° 58' W; (map 67). Name obtained from prospectors, reported by T. G. Gardine (Mendenhall and Schrader, 1903, pl. 3).

Rock Creek: stream, heads in Darby Mountains, flows NE 11 miles to Tubutulik River, 29 miles N of Elim and 50 miles SE of Imuruk Lake, Seward Peninsula Highlands; 65° 02' N, 162° 10' W; (map 110). Prospectors' name reported in 1909 by Smith and Eakin (1911, p I.1), USGS.

Rock Creek: stream, heads in lake at W end of High Valley, flows SE, through Phalarope and other lakes, 19 miles to one of Tangle Lakes, Near head of Delta River, 18 miles W of Paxson, Alaska Range; 63° 02' 25" N, 146° 03' 10" W; (map 86). Variant: Boulder Creek. Named by ARC; reported in 1955 by Reuben Kachadoorian, USGS.

Rock Creek: stream, heads in Mentasta Mountains, flows SW 5 miles to Caribou Creek 10 miles SE of its junction with Copper River, Alaska Range; 62° 34' N, 143° 28' W; BGN 1939; (map 84). Local name reported by USGS in 1939.

Rock Creek: stream, in Kantishna Hills, flows NW 12 miles to Bearpaw River, 15 miles N of Wonder Lake, Alaska Range; 63° 42' 45" N, 150° 55' 20" W; (map 88). Local name shown on a 1916 fieldsheet by C. E. Giffin, USGS.

Rock Creek: stream, on Seward Peninsula, flows NE 17.6 miles to North Fork Serpentine River, 59 miles NW of Deering, Kotzebue- Kobuk Lowland; 66° 06' N, 164° 50' W; (map 113). Local name published in 1908 on the "Map of Seward Peninsula" by Arthur Gibson.

Rock Creek: stream, see Boil Creek.

Rock Crossing: crossing, on Tanana River, 3 miles downstream from mouth of Kantishna River, Tanana Lowland; 64° 47' 20" N, 150° 03' 00" W; (map 99). Riverboat crossing (a shift from one side of the stream to the other) published on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" by U.S. Dept. of Interior.

Rock Glacier Creek: stream, flows NW 6.2 miles to Matanuska River, E of Lion Head and 50 miles NE of Palmer, Chugach Mountains; 61° 47' N, 147° 39' W; BGN 1960; (map 69). Named in 1956 by USGS for the rock glaciers located at the headwaters of the stream. A rock glacier is a tongue-like body of angular boulders, similar to a small ice glacier, and generally occurs at high altitudes in rugged terrain.

Rock Head West: mountain, 2,800 ft., 7 miles SW of Arctic Village, Brooks Range; 68° 06' N, 145° 48' W; (map 136). Local name reported in 1956 by R. C. Foley, USGS.

Rock Island Point: locality, on left bank of Koyukuk River, 1.5 miles N of Huggins Islands, 33 miles NE of Hochandochtla Mountain, Kokrines-Hodzana Highlands; 65° 56' 45" N, 154° 19' 45" W; (map 107). Name published in a 1905 folder of the Northern Commercial Company.

Rock Island: rock, 2 miles W of Cape Lazaref, on SE coast of Unimak Island, Aleutian Islands; 54° 37' 00" N, 163° 37' 20" W; (map 25). Descriptive name reported by Ferdinand Westdahl, USC&GS, commander of the Coast Survey steamer McArthur, who made surveys in this area in 1901.

Rock Islets: islands, see Triplets, The.

Rock Lake: lake, 0.2 miles long, on Kenai Peninsula between Hidden and Skilak Lakes, 37 miles E of Kenai, Chugach Mountains; 60° 27' 15" N, 150° 15' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Rock Lake: lake, 0.6 miles long, 20 miles N of Chalkyitsik, Yukon Flats; 66° 56' N, 143° 46' W; (map 120). Local descriptive name; reported in 1956 by R. C. Foley, USGS.

Rock Lake: lake, 0.6 miles long, E of Upper Fish Lake, 4.5 miles NE of Paxson, Alaska Range; 63° 04' 30" N, 145° 22' 40" W; (map 86). Name published on relatively recent maps.

Rock Lake: lake, 0.8 miles long, on Prince of Wales Island near head of Polk Inlet, N of Rock Butte, Alexander Archipelago; 55° 17' 45" N, 132° 29' 30" W; BGN 1963; (map 4). Local name reported in 1961 by USFS.

Rock Lake: lake, 0.9 miles long, 2 miles E of Cross wind Lake and 21 miles NW of Glennallen Copper River Basin, 62° 21' 45" N, 145° 54' 30" W; (map 83). Local name reported in 1951 by USGS.

Rock Lake: lake, 1 mile long, 2.5 miles SE of Gilahina Butte and 6 miles NNE of Nelson Mountain, Wrangell Mountains; 61° 24' 40" N, 143° 44' 50" W; BGN 1966; (map 67). So named in 1966 by Dave Dann of Chitina because of a "large rock rising above waterline 50 feet from NW shore."

Rock Lake: lake, 1.3 miles long, on Kenai Peninsula, 9 miles NE of Sterling and 23 miles ENE of Kenai, Cook Inlet Lowland; 60° 39' N, 150° 38' W (map 62). Local name reported in 1958 by USGS.

Rock Lake: lake, 5 miles long, at head of Ptarmigan Creek, 60 miles NE of McCarthy, Alaska Range; 61° 48' N, 141° 15' W; (map 67). Variant: Ptarmigan Lake. Local name reported in 1963 by USGS

Rock Mountain: mountain, 2,300 ft., in Kenai Mountains, at NW end of Chugach Bay, 16 miles S of Seldovia, Chugach Mountains; 59° 13' N, 151° 38' W; BGN 1911; (map 50). Named by U. S. Grant, USGS, in 1909, for Thomas Rock, a local prospector.

Rock of Ages: reef, projects into Yukon River, below mouth of Fourth of July Creek and 34 miles NW of Eagle, Yukon-Tanana Highlands; 65° 12' N, 141° 50' W; (map 103). Local name reported in 1937 by J. B. Mertie, Jr., USGS. This name may refer to the same feature shown on recent maps as "Nation Reef." Although the latter name seems to be applied to an island, the generic "Reef" implies that the application should be narrower.

Rock Point Hill: hill, 109 ft., on N coast of St. Michael Island, W of Rock Point, 3 miles NW of St. Michael, Yukon-Kuskokwim Delta; 63° 30' 35" N, 162° 06' 30" W; (map 92). Local name obtained in 1952 by USC&GS.

Rock Point: bluff, elev. 1,800 ft., NE of Close Lake, 20 miles SE of Tok, Alaska Range; 63° 09' 30" N, 142° 28' 30" W; (map 85). Local name published by USGS in 1965.

Rock Point: point of land, at mouth of Northeast Arm Uganik Bay, on N coast of Kodiak Island; 57° 46' 25" N, 153° 29' 10" W; (map 34). Descriptive name given in 1897 by Lt. Comdr. J. F. Moser, USN, of the USBF steamer Albatross.

Rock Point: point of land, in Deadman Reach on NW side of Duffield Peninsula, on N coast of Baranof Island, 34 miles N of Sitka, Alexander Archipelago; 57° 31' 45" N, 135° 29' 30" W. (map 9). Variant: Mys Kamenistyy. This is a translation by USC&GS about 1882 of the name given by the Russian pilot Ens. Vasiliev; published in 1848 on Russian Hydrog. Dept. Chart 1397 as "M[ys] Kamenistyy, (Rocky Cape).

Rock Point: point of land, on Chichagof Island, in Chichagof Strait, 0.5 miles SW of Miner Island and 34 miles SW of Hoonah, Alexander Archipelago; 58° 00' N, 136° 21' W, (map 10). Local navigators' name reported by H. C. Fassett, USBF, in 1904.

Rock Point: point of land, on N coast of St. Michael Island, 2.5 miles N of St. Michael, Yukon-Kuskokwim Delta; 63° 31' N, 162° 04' W; (map 92). Descriptive name given in 1898 by USC&GS. "The point is very rocky * * *."

Rock Point: point of land, on NE coast of Gravina Island, 8 miles NW of Ketchikan, Alexander Archipelago; 55° 24' 48" N, 131° 48' 22" W; (map 3). Named by W. H. Dall, USC&GS; published in 1883 Coast Pilot (p. 81).

Rock Point: point of land, on Revillagigedo Island. on W shore of Carroll Inlet, 4 miles NE of California Head, Alexander Archipelago; 55° 21' 25" N. 131° 23' 45" W; (map 3). Descriptive name given in 1891 by USC&GS.

Rock Point: point of land, on S shore of Endicott Arm, 2 miles S of Sumdum Island and 55 miles SE of Juneau, Coast Mountains; 57° 40' 50" N 133° 28' 15" W; (map 8). Descriptive name given in 1889 by Lt. Comdr. H. B. Mansfield, USN.

Rock Point: point of land, on W bank of Portland Canal, 2.1 miles NW of Hattie Island, Canada. Coast Mountains, 55° 13' 30" N, 130° 00' 35" W; (map 3). Local name published in 1891 by USC&GS.

Rock Point: point of land, on W coast of Mitkof Island, 9.5 miles S of Petersburg, Alexander Archipelago; 56° 40' 20" N, 132° 55' 50" W; (map 6). Variant: Mielkie Point, Mys Mylkiy. Named in 1869 by Comdr. R. W. Meade USN; named "Mys Mylkiy," meaning "shallow cape" in 1838 by the Russian surveyor G. Lindenberg.

Rock Point: point of land, see Kamanoi Point.

Rock Point: point of land, see Polk Point.

Rock Slough: stream, 5.5 miles long, anabranch of Porcupine River 22 miles NE of Chalkyitsik, Yukon Flats; 66° 57' N, 143° 33' W; (map 120). Local name published in 1951 by USGS.

Rocker Creek: stream, flows 6.6 miles NW to Ptarmigan Creek, 2 miles W of Alaska-Canada boundary and 70 miles NE of McCarthy Alaska Range; 61° 55' N, 141° 04' W; BGN 1912; (map 67). Local name reported in 1908-09 by IBC surveyors; published in 1914 on IBC Sheet 32 (1918 atlas). Named for a sluice rocker.

Rocker Gulch: ravine, trends S 0.5 miles to Norton Sound, 1 mile E of Nome, Seward Peninsula Highlands; 64° 29' 35" N, 165° 21' 30" W; (map 94) Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Rocket Lake: lake, 200 yd. across, 0.5 miles W of Sredni Bight, Kiska Island, Aleutian Islands, 52° 03' 25" N, 177° 37' 20" E; (map 14). An arbitrary name beginning with "R" to correspond to "R" grid used by the U.S. Army for tactical purposes during World War II. Published on a 1953 AMS map.

Rockfish Cove: bight, 1.8 miles wide, on NW coast of Revillagigedo Island; indents S shore of Neets Bay, Alexander Archipelago; 55° 46' N, 131° 37' W (map 3). One of many arbitrary names applied to features in this area in 1891 by USC&GS.

Rockford Creek: stream, flows E to Solomon River, about 8 miles NE of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name reported on a prospector's manuscript map dated 1902. This stream cannot be precisely located on current maps.

Rockpile Pass: pass, 1,800 ft., in Kilbuck Mountains. W of Mount Hamilton and 28 miles SW of Aniak, Kilbuck-Kuskokwim Mountains; 61° 10' N, 159° 47' W; (map 73). Prospectors' name shown on a 1914 field sheet by A. G. Maddren, USGS.

Rocks Point: point of land, between Sannak Island and Shumagin Islands, on S coast of Alaska Peninsula, Aleutian Range. Shown on J. Billings' track chart as published by M. Sauer in 1802, but not identified on other sources. It cannot be identified at this time.

Rockwell Island: island, 0.1 miles across, in Galankin Islands, 0.8 miles S of Sitka, Alexander Archipelago; 57° 02' 15" N, 135° 20' 13" W; (map 9). Named in 1880 by the U.S. Navy for Comdr. Charles W. Rockwell, USN. The name was published by USC&GS in the 1883 Coast Pilot (p. 143).

Rockwell Point: point of land, S point of entrance to Waterfall Bay, on W coast of Dall Island, Alexander Archipelago 54° 56' N, 133° 08' W, BGN 1929; (map 1). Named in 1928 by USC&GS, "in honor of Kiffin Rockwell, aviator in the Lafayette Escadrille, World War I, who lost his life in action."

Rockwell: city, see Juneau.

Rocky Bay: bay, 1.5 miles across, in Whale Passage, 1 mile SW of Thorne Island, on N coast of Prince of Wales Island, Alexander Archipelago; 56° 03' N, 133° 05' W; (map 6). Local descriptive name reported in 1949 by USGS.

Rocky Bay: bay, 2.3 miles wide, on S coast of Kenai Peninsula, 17 miles SE of Seldovia, Chugach Mountains; 59° 14' 15" N, 151° 25' 00" W; (map 50). Local descriptive name reported by U. S. Grant and D. F. Higgins, USGS, in 1909 (in Brooks and others, 1910, pl. 3).

Rocky Bay: bay, extends S 4.5 miles to Clarence Strait, on SW coast of Etolin Island, Alexander Archipelago; 56° 03' 30" N, 132° 35' 00" W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow, USN; name published in 1887 on USC&GS Chart 706.

Rocky Bay: bay, on Kenai Peninsula, at N end of Montague Island, extends NE 3.5 miles to Prince William Sound, 38 miles NE of Chenega, Chugach Mountains; 60° 21' 30" N, 147° 03' 00" W; (map 63). Descriptive name reported in 1902 by Ferdinand Westdahl, USC&GS. "Named because of the rocks that are present along the shore line of the bay."

Rocky Bay: cove, 0.3 miles across, on SE coast of Takeena Peninsula, 8 miles SE of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 34' 00" N, 135° 58' 30" W; (map 9). Descriptive name given by USC&GS and published in 1928 on Chart 8280.

Rocky Bay: estuary, see Necker Bay.

Rocky Cove: bay, 0.2 miles long, off El Capitan Passage, W coast of Prince of Wales Island, Alexander Archipelago; 55° 59' 28" N, 133° 15' 50" W; (map 4). Descriptive name published in 1925 Coast Pilot (p. 156).

Rocky Cove: bay, 0.3 miles across, on SW coast of Biorka Island, on W coast of Baranof Island Alexander Archipelago; 56° 50' 30" N, 135° 33' 00" W; (map 5). Descriptive name given in 1879 by Lt. F. M. Symonds, USN.

Rocky Cove: cove, 1 mile across, on SW shore of Cook Inlet, N of Kamishak Bay, Aleutian Range; 59° 26' 45" N, 153° 43' 30" W; BGN 1916; (map 51). Named in 1903 by G. C. Martin, USGS; published in 1912 on USC&GS Chart 8554.

Rocky Creek: stream, flows NW 7 miles to Quicksilver Creek, 7 miles S of Mount Romig and 73 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 30' 30" N, 159° 41' 00" W; (map 59). Local descriptive name; reported in 1955 by J. M. Hoare, USGS.

Rocky Creek: stream, flows SE 1.5 miles to Lower Willow Creek which flows to Casadepaga River, 18 miles NE of Solomon, Seward Peninsula Highlands; 64° 49' N, 164° 24' W; (map 95). Prospectors' name reported in 1905 by T. G. Gerdine, USGS.

Rocky Creek: stream, in Kallarichuk Hills of Baird Mountains, flows WSW 3.5 miles to Klery Creek, 17 miles N of Kiana, Brooks Range; 67° 13' 15" N, 160° 24' 00" W; (map 127). Name used by prospectors; reported in 1910 by P. S. Smith (in Brooks and others, 1911, pl. 13), USGS.

Rocky Creek: stream, on Kenai Peninsula, flows W 2 miles to Kenai Lake, 20 miles NE of Seward, Chugach Mountains; 60° 22' 40" N, 149° 21' 10" W; (map 63). Descriptive name reported in 1951 by USGS.

Rocky Creek: stream, see Rocky Mountain Creek.

Rocky Island: island, 0.1 miles across, in Icy Strait, at mouth of Lynn Canal, 25 miles SW of Juneau, St. Elias Mountains; 58° 10' 40" N, 135° 03' 00" W; (map 11). Variant: Rocky Islet. Named by Lt. F. M. Symonds, USN, in 1880, or possibly by Comdr. R. W. Meade, USN, in 1869. Name was published on Hydrog. Chart 225 in 1880. The island was called "Rocky Islet" by Baker (1906, p. 531).

Rocky Island: island, 34 miles N of Afognak, 3.5 miles off N coast of Afognak Island; 58° 29' 45" N, 152° 46' 50" W; (map 43). Descriptive name reported in 1901 by Lt. Comdr. J. F. Moser, USN, commander of the USBF steamer Albatross.

Rocky Island: island, in Prince William Sound off W coast of Knight Island, on N side of Drier Bay, 8 miles NE of Chenega, Chugach Mountains; 60° 18' 55" N, 147° 51' 55" W; (map 63). Descriptive name published in 1908 by USC&GS

Rocky Island: island, see Holiday Island.

Rocky Island: island, see Kak Island.

Rocky Island: island, see Piedras Island.

Rocky Island: shoal, see Utesistoi Island.

Rocky Islands: islands, see Triplets, The.

Rocky Islet: island, 600 ft. long, in Saint Paul Harbor, between Near and Gull Islands, 1 mile SW of Kodiak, Kodiak Island; 57° 46' 40" N, 152° 25' 00" W; (map 34). Variant: Ostrov Utichey. Translation by Baker (1906, p. 532) of the name "Os[trov] Utichey," published on undated [probably early 1800's] Russian map. This feature is not named on current maps.

Rocky Islet: island, see Rocky Island.

Rocky Islets: islands, see Triplets, The.

Rocky Lake: lake, 0.3 miles across, on Phipps Peninsula, 2.5 miles SW of Yakutat, Malaspina Coastal Plain; 59° 31' 10" N, 139° 47' 20" W. (map 46). Local name reported in 1964 (de Laguna and others, map 4); this feature is not shown on recent USGS maps.

Rocky Lake: lake, 0.3 miles long, at Tonki Point, on SE coast of St. Paul Island, in Pribilof Islands; 57° 09' 10" N, 170° 12' 45" W; (map 38). Descriptive name reported in 1965 by USBF. It is a shallow lake with many volcanic boulders rising above the surface.

Rocky Lake: lake, 0.6 miles long, on Kenai Peninsula, 2 miles N of Rocky Bay and 15 miles SE of Seldovia, Chugach Mountains; 59° 17' 30" N, 151° 26' 30" W; (map 50). Name published by USGS in 1953; probably named for nearby Rocky Bay.

Rocky Lake: lake, see Sucker Lake.

Rocky Mountain Creek: stream, flows SW 2 miles to Nome River, 19 miles NE of Nome, Seward Peninsula Highlands; 64° 46' 12" N, 165° 13' 10" W; (map 94). Variant: Rocky Creek. Reported as "Rocky" on a map by S. E. King dated 1900. Published as "Rocky Mt." on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Rocky Mountain: mountain, 1,760 ft., 13 miles W of Midnight Hill, Porcupine Plateau; 66° 02' 30" N, 141° 34' 00" W; (map 120). Local descriptive name; reported in 1956 by R. C. Foley, USGS.

Rocky Mountains: mountain range, see Brooks Range.

Rocky Pass: water passage, 15 miles long, in Keku Strait, between Kupreanof and Kuiu Islands, 20 miles N of Point Baker, Alexander Archipelago; 56° 40' N, 133° 44' W; (map 6). Local named published by USC&GS in 1932 Coast Pilot (p. 257).

Rocky Pass: water passage, 2.5 miles long, in Barrier Islands, E of Middle Island, Alexander Archipelago; 54° 48' N, 132° 25' W; (map 1). Local descriptive name reported in 1951 by USGS.

Rocky Patch: rocks, 0.4 miles across, in Eastern Channel, 2 miles SE of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 01' 45" N, 135° 18' 00" W; (map 9). Descriptive name published by USC&GS in the 1943 Coast Pilot (p. 358).

Rocky Point Creek: stream, flows 1.2 miles SW to Temnac Bay, Attu Island, Aleutian Islands; 52° 49' 27" N, 173° 04' 45" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II Shown on an AMS map published in 1948.

Rocky Point: bluff, elev. 31 ft., on N bank of Naknek River, on Alaska Peninsula, 7.8 miles SE of Naknek, Bristol Bay Lowland; 58° 42' 45" N, 156° 49' 35" W; (map 41). Local name reported in 1952 by USGS.

Rocky Point: point of land, in Prince William Sound, on W coast of Knight Island, at N entrance to Drier Bay, 7.5 miles NE of Chenega, Chugach Mountains; 60° 19' 08" N, 147° 52' 30" W; (map 63). Descriptive name published in 1908 by USC&GS.

Rocky Point: point of land, N tip of Hagemeister Island, 19 miles SW of Togiak, Kilbuck-Kuskokwim Mountains; 58° 49' N, 160° 41' W; (map 39). Local descriptive name published in 1948 by USGS.

Rocky Point: point of land, on Amaknak Island, at S end of Dutch Harbor, in Unalaska Bay, Unalaska Island, Aleutian Islands; 53° 53' 20" N, 166° 31' 35" W; (map 23). Descriptive name, given by W. H. Dall, USC&GS, and published in 1875 on USC&GS Chart 821.

Rocky Point: point of land, on E shore of Stephens Passage, 3 miles SE of Sunset Island and 75 miles NE of Sitka, Coast Mountains; 57° 28' 05" N, 133° 31' 10" W; (map 8). Local name reported in 1955 by USGS.

Rocky Point: point of land, on E shore of Togiak Bay, 13 miles SE of Togiak, Kilbuck-Kuskokwim Mountains; 58° 53' N, 160° 14' W; (map 39) Local descriptive name reported in 1912 by USC&GS.

Rocky Point: point of land, on NE coast of Unimak Island, Aleutian Islands; 54° 56' 30" N, 163° 26' 30" W; (map 25). Descriptive name published by USC&GS in 1912.

Rocky Point: point of land, on S shore of Chaik Bay, 13.5 miles S. of Angoon, on W coast of Admiralty Island, Alexander Archipelago; 57° 18' 15" N, 134° 34' 00" W; (map 9). Descriptive name given in 1869 by Comdr. Meade, USN, and published in the 1883 Coast Pilot (p. 175).

Rocky Point: point of land, on S shore of Whitewater Bay, on SW coast of Admiralty Island, Alexander Archipelago; 57° 13' 25" N, 134° 35' 10" W, (map 9) Descriptive name given in 1881 by Comdr. Glass, USN, and published in the 1883 Coast Pilot (p. 175).

Rocky Point: point of land, on SE shore of Chignik Lagoon, 6.5 miles W of Chignik, Aleutian Range; 56° 17' N, 158° 34' W; (map 30). Local descriptive name reported by a 1951 USGS field party.

Rocky Point: point of land, on SE shore of Valdez Arm, 45 miles NW of Cordova, Chugach Mountains; 60° 57' 15" N, 146° 45' 30" W; (map 64). Named by Capt. W. R. Abercrombie, USA, while exploring the Prince William Sound region in 1898.

Rocky Point: point of land, on W coast of Kodiak Island, 10 miles NE of Karluk, 57° 39' 45" N, 154° 13' 50" W; (map 35). Variant: Mys Makhnashka, Kekurnyy. Descriptive name reported in 1897 by Lt. Comdr. J. F. Moser, USN, commander of the USBF steamer Albatross. Named "Makhnashka" by Capt. Tebenkov (1852, map 23), IRN: called "Kekurnyy," meaning "pillar," by the Russian Hydrog. Dept. in 1849.

Rocky Point: point of land, see Inner Point.

Rocky Point: point of land, see Kamanoi Point.

Rocky Point: point of land, see Tonki Point.

Rocky Point: point of land, SW tip of Long Island, in Kootznahoo Inlet, 3.5 miles NE of Angoon, on W central Admiralty Island, Alexander Archipelago: 57° 32' 05" N, 134° 30' 10" W; (map 9). Descriptive name given by Comdr. R. W. Meade, USN, and published in 1869 on Chart 225.

Rocky Point: point of land, tip of peninsula W of Golovin Bay, 40 miles SE of Solomon, Seward Peninsula Highlands; 64° 24' N, 163° 08' W; (map 95). Variant: Cap Kamennoi (Rocheux), Mys Kamennoy, Mys Kamenny, Point Fergusson, Stony Cape, The Promontory. Named "Kamennoy" meaning "rocky" in 1821 by Kromchenko (cna), IRN. It was called "Point Fergusson" on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Rocky Reef Point: rocks, see Laida Rocks.

Rocky River Point: point of land, 5 miles W of Otter Point, 23 miles NW of False Pass, on NE Coast of Unimak Island, Aleutian Islands; 55° 02' N, 163° 53' W; (map 29). Name published in 1902 by USC&GS.

Rocky River: stream, on Kenai Peninsula, flows S 12 miles to cove at N end of Rocky Bay, 17 miles SE of Seldovia, Chugach Mountains; 59° 17' 00" N, 151° 24' 30" W; (map 50). Variant: Windy River. Name published by USGS in 1951; probably named for nearby Rocky Bay.

Rocky River: stream, see Kogoluk River.

Rockybottom Creek: stream, flows SE, SW, and NW 18 miles to Alatna River, 35 miles NW of Allakaket, Brooks Range; 66° 58' N, 153° 25' W; BGN 1932; (map 116). Local name reported in 1932 by Robert Marshall.

Rockys Lakes: lakes, extend N-S 2.3 miles, 12 miles SW of Talkeetna, Cook Inlet Lowland; 62° 09' 00" N, 150° 14' 45" W; (map 81). Local name reported in 1958 by USGS.

Rodenbough Cove: cove, see Radenbough Cove.

Rodgers Peak: mountain, 4,780 ft., 15 miles ENE of Petersburg, Coast Mountains; 56° 53' N, 132° 35' W; BGN 1934; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for Commodore John Rodgers, 1812-82 who was the first commander of the North Pacific Exploring Expedition of 1855.

Rodgers Point: point of land, SW point of entrance to Hoonah Sound, 1.5 miles NE of Ushk Bay, on S coast of Chichagof Island, Alexander Archipelago; 57° 35' 00" N, 135° 33' 30" W; BGN 189B; (map 9). Variant: Rogers Point. Named in 1895 by USC&GS for Augustus Ferdinand Rogers, USC&GS.

Rodgnof: peninsula, see Rozhnof, Cape.

Rodgnoff: peninsula, see Rozhnof, Cape.

Rodiac: island, see Kodiak Island.

Rodman Bay: estuary, 1 mile across, 6 miles long, on N coast of Baranof Island, 30 miles N of Sitka, Alexander Archipelago; 57° 29' N, 135° 19' W; (map 9). Named in 1895 by Lt. Comdr. E. K. Moore, USN, for Lt. Hugh Rodman, USN, a member of his party. The name was published by USC&GS on Chart 8283.

Rodman Cove: cove, see Louise Cove.

Rodman Creek: stream, flows NW 10 miles to Rodman Bay, on N coast of Baranof Island, Alexander Archipelago; 57° 26' 00" N, 135° 23' 45" W; BGN 1930; (map 9). Named in 1895 by Lt. Comdr. E. K. Moore. USN, for Lt. Hugh Rodman, USN, a member of his party.

Rodman Glacier: glacier, on SW slope of Brabazon Range, trends S 4.4 miles to its 1961 terminus on Ustay Lake, 40 miles SE of Yakutat, St. Elias Mountains: 59° 18' 10" N, 138° 43' 10" W; (map 46). Named by Lt. Comdr. Moser (1901, p 387), USN, for Lt. Hugh Rodman, USN, a member of his organization Lt. Rodman had charge of a traverse party from Yakutat to Dry Bay.

Rodman Island: island, 2.5 miles long, in Porcupine River, 5 miles NE of Fort Yukon, Yukon Flats; 66° 38' 30" N, 145° 08' 00" W; (map 119). Local name obtained in 1956 by USGS.

Rodman Peak: mountain, 3,100 ft., 2 miles NE of Hancock Peak and 96 miles E of Sitka, Coast Mountains; 57° 06' 25" N, 132° 57' 30" W; (map 8). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for Lt. Hugh Rodman, USN, member of several surveying parties in this area, 1887-1900; published in 1888 by USC&GS.

Rodman Reach: water passage, between Tanner Head and Kodiak Island, at S end of Kodiak Island; 56° 52' 30" N, 154° 15' 30" W; (map 32). Named in 1900 by Lt. Comdr. J. F. Moser, USN, commander of the Albatross, for Lt. Hugh Rodman, USN, one of his party.

Rodman Rock: rock, off Baranof Island at mouth of Rodman Bay, 30 miles N of Sitka, Alexander Archipelago; 57° 29' 40" N, 135° 14' 45" W; (map 9). Local name reported in 1951 by USGS.

Rodney Creek: stream, flows S 3.3 miles to Norton Sound, 13 miles NW of Nome, Seward Peninsula Highlands; 64° 32' 30" N, 165° 50' 20" W; (map 94) Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Rodney Mountain: mountain, 1,110 ft., on Bering Sea coast, 15 miles WNW of Nome, Seward Peninsula Highlands; 64° 33' N, 165° 54' W; (map 94) Local name reported on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Rodney, Cape: point of land, on Bering Sea, 30 miles NW of Nome, Seward Peninsula Highlands; 64° 39' N, 165° 24' W; (map 94). Variant: Point Rodney, Rodney Point. On August 5, 1778, Capt. Cook (1785, v. 2, p. 441), RN, wrote, "The coast of the continent seemed to take a turn Northward at a low point named Point Rodney, * * *."

Rodo River: stream, flows NE 32 miles to Yukon River, 36 miles SW of Nulato, Nulato Hills; 64° 17' N, 158° 43' W; (map 97). Variant: Khodolkakat, Rodokakat. Indian name reported about 1901 as "Rodokakat" by Father Julius Jette of Nulato. Father Jette used the letter "R" for the "Kh" sound. The name obviously is the same as that of the Khotol River. "Khodokakat" means "mouth of the Khodo (or Khotol)."

Rodokakat: locality, on right bank of Yukon River, 36 miles SW of Nulato, Nulato Hills; 64° 17' N, 158° 42' W; (map 97). Indian fish camp reported in 1916 by USGS; name derived from nearby Rodo River.

Rodokakat: stream, see Rodo River.

Roe Point: point of land, on mainland, on E shore of Behm Canal, 5 miles NE of Point Sykes, Coast Mountains; 55° 59' 35" N, 131° 00' 15" W; (map 3). One of many arbitrary names applied to features in this area in 1891 by USC&GS.

Roger Creek: stream, flows NW 0.7 miles to Benson Creek which flows to Iron Creek, 25 miles NW of Solomon, Seward Peninsula Highlands; 64° 54' 50" N, 164° 40' 30" W; (map 95). Prospectors' name reported in 1908 by P. S. Smith (in Brooks and others, 1909, pl. 10), USGS.

Roger Creek: stream, flows S 5 miles to Rainy Creek, 7 miles W of Umiat, Arctic Slope; 69° 19' 30" N, 152° 25' 00" W; BGN 1960; (map 141). Variant: Rogers Creek. Name used by personnel of Naval Petroleum Reserve No. 4 explorations in 1944, derived from the radio communications term "Roger."

Rogers Creek: locality, on left bank of Susitna River, where The Alaska Railroad crosses Rogers Creek, 40 miles N of Anchorage, Cook Inlet Lowland; 61° 48' N, 150° 04' W; (map 70). Local name reported on 1917 railroad location manuscript map.

Rogers Creek: stream, flows E 1 mile to Allene Creek, in Agiapuk River basin, 10 miles NE of Teller, Seward Peninsula Highlands; 65° 19' N, 166° 03' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Rogers Creek: stream, flows NE 35 miles to Yukon River, 60 miles NE of Rampart, Yukon Flats; 66° 06' N, 148° 40' W; (map 118). Local name reported in 1902 by Lt. Hjalmar Erickson, USA, as Roger Creek.

Rogers Creek: stream, flows NW 6 miles to Sheep Creek, 40 miles NE of Healy, Alaska Range; 63° 57' 30" N, 147° 40' 10" W; (map 87). Prospectors' name shown on a 1910 fieldsheet by J. W. Bagley, USGS; published by Capps (1912, pl. 1), USGS.

Rogers Creek: stream, flows SW 8.6 miles to Little Willow Creek, 2 miles E of Susitna River and 41 miles N of Anchorage, Cook Inlet Lowland; 61° 48' N, 150° 05' W; (map 70). Local name reported on 1917 railroad location manuscript map.

Rogers Creek: stream, see Roger Creek.

Rogers Island: island, 0.4 miles across, in Necker Islands, on W coast of Baranof Island, 5 miles SW of Goddard, Alexander Archipelago; 56° 46' 50" N, 135° 27' 45" W; BGN 1929; (map 5). Named in 1925 by USC&GS for John Jacob Rogers, assistant, USC&GS. See John Rock and Jacob Rock.

Rogers Park: area, in SE part of Anchorage, Cook Inlet Lowland; 61° 11' 54" N, 149° 51' 15" W; (map 69). Local name reported in 1952 by USGS.

Rogers Point: point of land, see Rodgers Point.

Rogova, Ostrov: island, see Morne Island.

Rogue Creek: stream, flows SW 4 miles to Simpson Bay, 6 miles NW of Cordova, Chugach Mountains; 60° 39' N, 145° 49' W; (map 64). Local name published in 1951 by USGS.

Rohn Glacier: glacier, trends 10 miles SE to head of Nizina Glacier, 23 miles NE of McCarthy, Wrangell Mountains; 61° 42' N, 142° 28' W; (map 67). Named in 1901 by USGS for Oscar Rohn, who crossed this glacier in 1899.

Rohn River: stream, see Tatina River.

Rojnoff, Cap: point of land, see Lagoon Point.

Rojnoff: peninsula, see Rozhnof, Cape.

Roketaloi Creek: stream, heads in Kaiyuh Mountains, flows NE and SE 10 miles to Magitchlie Creek, 58 miles S of Nulato and 75 miles E of Unalakleet, Innoko Lowland; 63° 53' 15" N, 158° 20' 20" W; (map 90). Local name reported in 1954 by USGS.

Rokhova Island: island, see Morne Island.

Rolejo Lake: lake, see Red Shirt Lake.

Roller Bay: bay, 2.5 miles wide, W coast of Noyes Island, Alexander Archipelago; 55° 31' N, 133° 46' W; (map 4). Descriptive name given in 1923 by USC&GS because "Bay exposed to squalls and rolling waves from Ocean * * *."

Rolling Bay: bight, 2 miles across, on SW coast of Sitkalidak Island, SE of Kodiak Island; 57° 02' N, 153° 20' W; (map 34). Local name published in 1943 by USC&GS.

Rolling Hills: hills, 1,252 ft., SW of Wolf Creek Mountain, 32 miles N of Russian Mission, Yukon-Kuskokwim Delta; 62° 15' 30" N, 161° 28' 00" W; (map 78). Local descriptive name obtained in 1952 by USGS.

Rolling Pin Creek: stream, heads in De Long Mountains, flows NE 11 miles to Kiligwa River, 12 miles S of Liberator Lake, Brooks Range; 68° 41' N, 158° 29' W; BGN 1960; (map 132). Named in 1951 by Island L. Tailleux, USGS, "for a rolling pin left behind on this creek."

Rolling Point: point of land, on W shore near head of Viekoda Bay, on N coast of Kodiak Island; 57° 51' 20" N, 153° 07' 00" W; (map 34). Local name published in 1943 by USC&GS.

Rolph Slough: stream, tributary of Nushagak River, flows SW 6 miles to Nushagak Bay, S of Grassy Island, 5 miles S of Dillingham, Bristol Bay Lowland; 58° 58' 25" N, 158° 26' 15" W; (map 40). Local name reported in 1952 by USGS.

Romanof, Point: point of land, E point of entrance to Pastol Bay, on Norton Sound, 30 miles SW of St. Michael, Yukon-Kuskokwim Delta; 63° 12' N, 162° 50' W; (map 92). Variant: Asiatchak Point, Cape Onman, Cap Nord du haul-fond, Mys Azachagvyak, Mys Aziachak, Mys Azyachagyak, Point Romanoff, Point Shallow-Water. On September 19, 1778, Capt. Cook (1785, v. 2, p. 489), RN, named this "Point Shallow Water." Published in French in 1836 as "Cap Nord du haul-fond," meaning "Northern Cape Shallow Waters" by Capt. F. P' Lutke, IRN. The Eskimo name was recorded as "Asiatchak" by Capt. Lutke and as "Aziachak" by Capt. Tebenkov (1852, map 2), IRN.

Romanoff, Point: point of land, see Romanof, Point.

Romantic Hill: hill, 240 ft., E of East Kiska Lake, Kiska Island, Aleutian Islands; 52° 03' 45" N, 177° 36' 50" E; (map 14). An arbitrary name beginning with "R" to correspond to "R" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Romantzof, Cape: point of land, see Romanzof, Cape.

Romanzoff Mountains: mountain range, see Romanzof Mountains.

Romanzof Mountains: mountains, extend 65 miles between Hulahula and Kongakut Rivers, Brooks Range; 69° 11' N, 143° 07' W; BGN Sixth Report; (map 138). Variant: Pelly Mountains, Romanzoff Mountains, Romanzoff Chain, Romanzoff Range, Romiantzoff Mountains, Roumiantzoff Mountains, Rumiantzof Mountains. On August 3, 1826, Sir John Franklin wrote: "We * * * had now arrived opposite the commencement of another range, which I named after the late Count Nicholas Romanzoff, Chancellor of the Russian Empire, as a tribute of respect to the memory of that distinguished patron and promoter of discovery and science." This range was believed by Franklin to extend west to the Canning River. Leffingwell (1919, p. 99) confined the term Romanzof Mountains "to a roughly circular area about 15 miles in diameter, between the headwaters of Jago and Hulahula Rivers." Baker (1906, p. 534), USGS, thought these are the mountains which P. W. Dease and Thomas Simpson in 1837 named "Pelly Mountains."

Romanzof, Cape: point of land, at W end of Asiknuk Mountains, between Kokechik and Scammon Bays, Yukon-Kuskokwim Delta; 61° 49' N, 166° 06' W; BGN 1900; (map 75). Variant: Cape Count, Cape Rumiantsof, Cape Roumiantsoff, Cape Romantzof. Named "Mys Grafa Rummyantsova," "Cape of Count Rummyantsov," by Capt. Lt. G. S. Shishmarev, IRN, in 1821. In the same year it was named by A. K. Etolin. The name commemorates Count Rummyantsov who built and outfitted a vessel of one hundred and eighty tons, named the Rurik, "for the purpose of exploring the supposed northwest passage by way of Davis Strait or Hudson Bay * * *." (Bancroft, 1886, p. 494). The present spelling of the name was established by BGN.

Romanzoff Chain: mountain range, see Romanzof Mountains.

Romanzoff Range: mountain range, see Romanzof Mountains.

Romer Glacier: glacier, in Glacier Bay National Monument, trends E 1.9 miles to its 1961 terminus, 0.4 miles W of Rendu Inlet and 76 miles NW of Hoonah, St. Elias Mountains; 58° 59' 20" N, 136° 42' 45" W; BGN 1923; (map 10). Named in 1923 by Lawrence Martin, U.S.

Dept. of State, for Eugeniusz Romer, 1871-1954, professor of geography at the Univ. of Lemberg, in Austria, who visited Glacier Bay in 1913.

Romiantzoff Mountains: mountain range, see Romanzof Mountains.

Romig, Mount: mountain, 4,000 ft., in Kilbuck Mountains, W of Cripple Mountains, 70 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 37' N, 159° 43' W; (map 59). Named in 1898 by W. S. Post and J. E. Spurr, USGS; named for Dr. Joseph Herman Romig, Moravian missionary in the area from 1896 to 1905.

Romig: area, in S Anchorage 1.2 miles SSW of City Hall, Cook Inlet Lowland; 61° 12' 05" N 149° 54' 30" W; (map 69). Residential district in city of Anchorage reported in 1954 by office of city engineer of Anchorage.

Romp Island: island, 0.8 miles across, on E coast of Admiralty Island, 1 mile NW of Gambier Island and 63 miles E of Sitka, Alexander Archipelago; 57° 26' 30" N, 133° 50' 45" W; (map 8). Named in 1889 by Lt. Comdr. H. B. Mansfield; published by USC&GS in 1891 Coast Pilot (p. 144).

Rona Island: island, 0.5 miles across, 7 miles SW of Dolgoi Island, at SW end of Aleutian Range; 54° 59' N, 161° 50' W; (map 25). Name published in 1949 on a USGS map.

Rooftop Ridge: ridge, elev. 2,448 ft., 9 miles long, E of Anaktuvuk River, 9 miles NW of Kayak Mountain and 56 miles NE of Anaktuvuk Pass, Arctic Slope; 68° 54' N, 150° 58' W; BGN 1949; (map 134). Variant: Willow Creek Ridge. Descriptive name given by USGS geologists during the exploration of Naval Petroleum Reserve No. 4; name given in 1944.

Rook Lake: lake, 0.5 miles long, 13 miles N of Chalkyitsik, Yukon Flats; 66° 50' N, 143° 41' W; (map 120). Local descriptive name: reported in 1956 by R. C. Foley, USGS.

Rookery Island: island, 300 ft. long, in Duncan Canal, 12 miles SW of Petersburg, on S coast of Kupreanof Island, Alexander Archipelago; 56° 41' 30" N, 133° 12' 00" W; BGN 1933; (map 6). So named in 1933 by R. H. Sargent, USGS, because the "island is the resting place of thousands of sea birds, known locally as sea pigeons."

Rookery Islands: islands, extend 0.6 miles in Clarence Strait, between Zarembo and Prince of Wales Islands, Alexander Archipelago; 56° 03' 45" N, 133° 06' 30" W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow, USN; name published in 1887 on USC&GS Chart 706.

Rookie Lake: lake, 0.1 miles across, 1.4 miles WNW of Sredni Point, on northeastern Kiska Island, Aleutian Islands; 52° 03' 05" N, 177° 36' 45" E; (map 14). An arbitrary name beginning with "R" to correspond to "R" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Roosevelt Creek: stream, flows S 7 miles to Malamute Fork Alatna River, 9 miles WNW of Deadman Mountain and 78 miles SW of Wiseman Brooks Range; 67° 06' 45" N, 152° 55' 45" W BGN 1932; (map 124). Name used by prospectors and reported by Robert Marshall in 1932.

Roosevelt Creek: stream, flows W 6 miles to Tatlanika Creek, 45 miles SE of Nenana, Alaska Range 64° 04' 30" N, 148° 12' 45" W; (map 100). Named by prospectors in 1905 for Theodore Roosevelt, 1858-1919, 26th President of the United States. The name was reported in 1906 by L. M. Prindle (in Brooks and others, 1907, pl. 4), USGS.

Roosevelt Creek: stream, heads at Roosevelt Lake, flows NW 3.5 miles to Valdez Creek, 70 miles SE of Healy, Alaska Range; 63° 12' 30" N, 147° 16' 20" W; (map 87). Prospectors' name shown on a 1910 fieldsheet by D. C. Witherspoon, USGS; published by Moffit (1912, pl. 1).

Roosevelt Harbor: cove, extends NE 0.7 miles to Stikine Strait, on NE coast of Zarembo Island, Alexander Archipelago; 56° 24' 00" N, 132° 37' 40" W; (map 6). Named by USC&GS for charting purposes; name published in 1921; probably named for Theodore Roosevelt, 1858-1919, the 26th President of the United States.

Roosevelt Island: island, 4 miles long, between Yukon River and Ickes Slough, 12 miles SSW of Russian Mission, Yukon- Kuskokwim Delta; 61° 37' N, 161° 29' W; (map 73). Name shown on 1940 navigation chart of the Yukon River. Because this chart was compiled by the Riverboat Service, The Alaska Railroad, and U.S. Dept. of the Interior, one can assume the island was named for Franklin Delano Roosevelt, 1882-1945, 32nd President of the United States.

Roosevelt Lagoon: lagoon, on Revillagigedo Island, E. of Naha Bay, near mouth of Naha River, Alexander Archipelago; 55° 35' 30" N, 131° 36' 00" W; (map 3) Local navigators' name obtained in 1904 by H. C. Fassett USBF; named for Theodore Roosevelt, 1858-1919, 26th President of the United States.

Roosevelt Lake: lake, 0.7 miles long, 2.5 miles E of Lucky Hill and 72 miles SE of Healy, Alaska Range; 63° 11' N, 147° 09' W; (map 87). Local name obtained in 1951 by USGS.

Roosevelt, Mount: peak, see Hunter, Mount.

Roosevelt: locality, see Lawing.

Rooster Comb, The: mountain, 10,180 ft., SW Ruth Amphitheater, 10 miles SE of Mount McKinley, Alaska Range: 62° 58' 25" N, 150° 50' 05' W; (map 81). Name submitted by Bradford Washburn in 1957; mountain originally described in 1910 by Claude Rusk in the story of the Mazama Expedition, as "a remarkable mountain * * * its tip a succession of corniced spires like a great rooster comb."

Rooster Comb: mountain, see Denson, Mount.

Rooster Hills: hills, 640 ft., 1.8 miles NE of Conquer Point, Kiska Island, Aleutian Islands: 52° 01' 25" N, 177° 31' 10" E; (map 14). An arbitrary name beginning with "R to correspond to "R" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Root Creek: stream, flows E 1 mile to Flint Creek, 4.5 miles SE of Long and 26 miles S of Ruby, Kilbuck-Kuskokwim Mountains; 64° 21' 45" N, 155° 23' 30" W; (map 98). Prospectors' name reported in 1913 by Eakin (1914, pl. 3), USGS. The stream's identity is in doubt.

Root Glacier: glacier, trends 15 miles S from Regal Mountain to Kennicott Glacier, 5 miles N of McCarthy, Wrangell Mountains; 61° 32' N, 142° 56' W; (map 67). Named in 1899 by Oscar Rohn for U.S. Secretary of War, Elihu Root, 1845-1937.

Root, Mount: mountain, 12,860 ft., on Alaska-Canada boundary, 5.5 miles NE of Mount Fairweather and 96 miles NW of Hoonah, St. Elias Mountains; 58° 59' 10" N, 137° 30' 00" W; BGN 1954, (map 10) Variant: Boundary Peak 165. Named by USC&GS and published in 1908 on Chart 8000. The feature was named for Elihu Root, 1845-1937 Root was a member of the Alaska Boundary Tribunal and U.S. Secretary of War, 1899-1904, under Presidents McKinley and Roosevelt; Secretary of State, 1905-09, under President Roosevelt; and U.S. Senator from New York 1909-15. He was also a member of the Hague Tribunal.

Rootak Island: island, see Rootok Island.

Rootok Island: island, 3.5 miles long, in Krenitzin Is., Aleutian Islands; 54° 02' 30" N, 165° 31' 30" W; BGN 1904; (map 24). Variant: Aiaiepta, Aiaktak, Aikhak, Goloi, Ostrov Aektok, Ostrov Goly, Ouektock, Rootak Island. Aleut name recorded by Father Veniaminov (1846) as Aikhak meaning "travel" or "traveling." R. H. Geoghegan spells the word "aixag" and says it means "travel." Capt. Tebenkov (1852, map 26) and Capt. Lutke (1836, p. 290), IRN, published it as Ostrov Aektok. Adm. von Krusenstern spells the name Ouektock, an intermediate form in the name's evolution to its present spelling, used first by USBF in 1888. The Russians also called the island by a descriptive name: "Ostrov Goly" meaning "bare."

Rootok Island: island, see Aiktak Island.

Rootok Strait: water passage, between Rootok and Avatanak Islands, 11 miles SE of Akutan, in Krenitzin Islands, Aleutian Islands; 54° 03' 35" N, 165° 30' 00" W; BGN 1904; (map 24). Variant: Aektok. Name published prior to 1900 by USC&GS. So named because of its association with Rootok Island.

Rope Creek: stream, flows N 2 miles to Bering Lake, 9 miles NE of Katalla, Chugach Mountains; 60° 15' 30" N, 144° 16' 30" W; (map 64). So named by prospectors "because a rope has been hung to aid travelers over a falls in the creek." Reported in 1905 by G. C. Martin, USGS.

Rosa Creek: stream, flows SE 8 miles to Shaw Creek, 10 miles NW of Big Delta Yukon-Tanana Highlands; 64° 16' 30" N, 146° 04' 45" W; (map 101). Variant: Rosy Creek. Name reported in 1907 as Rosy Creek by Prindle (1908, pl. 4), USGS, present spelling published in 1912 by USGS.

Rosa Creek: stream, in Rampart Mountains, flows S 6 miles to Morelock Creek 2.5 miles N of that stream's junction with Yukon River, 25 miles NNE Of Tanana, Kokrines-Hodzana Highlands; 65° 18' 00" N, 151° 17' 30" W; (map 106). Prospectors' name reported in 1911 by H. M. Eakin (in Brooks and others, 1912, pl. 13), USGS.

Rosa Reef: reef, extends 0.2 miles, in Tongass Narrows, off Rock Point, on NE coast of Gravina Island, Alexander Archipelago; 55° 24' 45" N, 131° 48' 05" W; (map 3). Local name published in 1899 by USC&GS.

Rosalia Point: point of land, see Santa Rosalia, Point.

Rosalie Creek: stream, flows NW 2.5 miles to Chandalar Lake, at Chandalar, Brooks Range; 67° 29' 30" N, 148° 30' 00" W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Rosario, Isla del: island, see Rosary Island.

Rosario, Mys de: point of land, see Rosary, Point.

Rosary Island: island, 0.7 miles long, in San Christoval Channel, between Prince of Wales and San Fernando Islands, Alexander Archipelago; 55° 35' N, 133° 18' W; (map 4). Variant: Isla del Rosario, Ostrov del Rozario, Ysla del Rosario. Translation of the name "Isle del Rosario" given in 1779 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle "after Lt. Arteaga's vessel, the Princesa of which the real name was Nuestra Senora del Rosario * * *" (Wagner, 1937, p. 492).

Rosary, Point: point of land, S point of entrance to Port Santa Cruz, on W coast of Suemez Island, Alexander Archipelago; 55° 16' 25" N, 133° 28' 00" W; (map 4). Variant: Mys de Rosario, Point Rosario, Punta del Rosario. Translation of the name "Punta del Rosario" given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle.

Rosaunt Creek: stream, heads in Canada, flows E 4 miles to Nataga Creek, 3 miles NE of Mount Prinsep and 30 miles NW of Skagway, St. Elias Mountains; 59° 32' 35" N, 136° 09' 20" W; BGN 1922; (map 45). Variant: Clear Creek, Katschadelch, L'Kudinaku, Rose Creek. Local name reported in 1905. It is said to be named for "a man commonly called Rosy." The stream was called Clear Creek in 1903 by C. W. Wright, USGS, and Rose Creek in 1905 by J. A. Flemer, USC&GS. The Tlingit Indian name is reported to be "L'Kudinaku."

Roscoe Creek: stream, in Chigmit Mountains, flows NE 6 miles to Clearwater Creek 1.8 miles W of head of Chinitna Bay, Aleutian Range; 59° 48' 40" N, 153° 20' 00" W; BGN 1962; (map 51). Name derived from Roscoe Peak; published in 1958 by USGS.

Roscoe Glacier: glacier, in Chigmit Mountains, trends N 1 mile on Roscoe Peak, at head of Iniskin Bay, Aleutian Range; 59° 48' 30" N, 153° 25' 00" W; (map 51). Name derived from Roscoe Peak; published in 1958 by USGS.

Roscoe Peak: mountain, 3,850 ft., in Chigmit Mountains at head of Iniskin Bay, Aleutian Range; 59° 47' 40" N, 153° 24' 50" W; BGN 1916; (map 51). Named about 1914 by USC&GS.

Rose Channel: water passage, in Peril Strait, E of Rapids Point, between Little Rose Island and S. coast of Chichagof Island, Alexander Archipelago; 57° 27' 30" N, 135° 33' 00" W; (map 9). Named in 1884 by Comdr. J. B. Coghlan, USN, "for the little steamer Rose which

navigated these waters." The name was published by USC&GS in the 1891 Coast Pilot (p. 183).

Rose Creek: stream, flows NW 1.5 miles to Gilmore Creek, 11 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 58' 30" N, 147° 31' 30" W; (map 100) Local name published in 1908 by USGS.

Rose Creek: stream, see Rosaunt Creek.

Rose Creek: stream, see Rosie Creek.

Rose Creek: stream, tributary to Coal Creek about 5 miles SW of that stream's junction with Yukon River, Porcupine Plateau; 65° 17' N, 143° 10' W; (map 103). Mentioned by C. E. Ellsworth and R. W. Davenport (in Brooks and others, 1913, p. 213), USGS; this feature has not been positively identified.

Rose Hill: hill, 1,010 ft., 0.7 miles N of Reynard Cove, on northeastern Kiska Island, Aleutian Islands; 52° 02' 00" N, 177° 35' 15" E; (map 14). Variant: Sunrise Hill. An arbitrary name beginning with "R" to correspond to "R" grid used by U.S. Army for tactical purposes during World War II; published on a 1953 AMS map. Variant published on a 1943 USAAF map.

Rose Inlet: estuary, extends SW 2.5 miles off Kaigani Strait, on E coast of Dall Island, Alexander Archipelago; 54° 57' 30" N, 132° 56' 00" W; (map 1). Named in 1882 by W. H. Dall, and published by USC&GS in the 1883 Alaska Coast Pilot (p. 68).

Rose Island: island, 0.1 miles across, 16 miles E of Deer Island, at SW end of Aleutian Range, Aleutian Range; 54° 53' 15" N, 161° 51' 35" W; (map 25). Name published in 1949 on a USGS map.

Rose Island: island, 0.2 miles long, at SE end of Kashevarof Passage, on NE coast of Prince of Wales Island, Alexander Archipelago; 56° 04' 50" N, 132° 51' 15" W; (map 6). Local name used by fishermen and published in 1907 by USC&GS.

Rose Island: island, 1 mile long, at N end of Nevensky Island, in Yukon River, 3 miles NW of Marshall, Yukon-Kuskokwim Delta; 61° 55' N, 162° 08' W; (map 74). Riverboat pilots' name shown on a 1940 navigation chart of the Yukon River.

Rose Island: island, see Hinchinbrook Island.

Rose Island: rocks, see Seal Rocks.

Rose Point: point of land, N point of entrance to Rose Inlet, on E coast of Dall Island, Alexander Archipelago; 54° 58' 10" N, 132° 56' 30" W; BGN 1928; (map 1). So named in 1927 by Capt. R. S. Patton, USC&GS, "because of its proximity to Rose Inlet and also because the triangulation station Rose is on this point."

Rose Point: point of land, NE tip of Klag Island, 2.5 miles S of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 37' 35" N, 136° 05' 20" W; (map 9) Name published in 1928 by USC&GS on Chart 8280.

Rose Point: point of land, see Ross Point.

Rose Rock: rock, at SE end of Kashevarof Passage in Kashevarof Islands, on NE coast of Prince of Wales Island, Alexander Archipelago; 56° 05' 10" N, 132° 52' 45" W; (map 6). Local name published by USC&GS in 1925 Coast Pilot (p. 91).

Rose Rock: rock, at W end of Kootznahoo Inlet, 0.4 miles E of Angoon, on W coast of Admiralty Island, Alexander Archipelago; 57° 30' 10" N, 134° 34' 20" W; (map 9). Named in 1895 by Lt. Comdr. E. K. Moore, USN, "for the little steamer Rose."

Rose Rock: rock, in Galankin Islands, Sitka Sound, 1 mile S of Sitka, Alexander Archipelago; 57° 02' 15" N, 135° 20' 35" W; (map 9). Named in 1880 by U.S. Navy "for the little steamer Rose." The name was published by USC&GS in the 1883 Coast Pilot (p. 143).

Rose Tead, Lake: lake, 1.3 miles long, 0.7 miles N of head of Pasagshak Bay, 6 miles NW of Narrow Cape, on E coast of Kodiak Island; 57° 29' N, 152° 27' W; (map 34). Local name reported in 1951 by USGS.

Rose, Port: bay, see Etches, Port.

Rosebud Creek: stream, flows N 4 miles to Crooked Creek, 64 miles SW of Eagle, Yukon-Tanana Highlands; 65° 16' 45" N, 145° 49' 15" W; (map 104). Named by prospectors; reported in 1911 by USGS (Prindle, 1913, pl. 1).

Rosebud Creek: stream, flows SE 2.5 miles to Tolovana River, 5 miles S of Livengood, Yukon-Tanana Highlands; 65° 28' N, 148° 37' W; (map 105). Named by prospectors; reported in 1915 by USGS (Brooks and others, 1916, pl. 9).

Rosenberg, Mount: mountain, 3,050 ft., 15.5 miles N of Sitka, on N central Baranof Island, Alexander Archipelago; 57° 17' 00" N, 135° 19' 15" W; BGN 1935; (map 9). Named in 1935 by USFS for Lt. Nikolai Yakovlevich Rosenberg, chief manager of the Russian American Co. and Governor of Russian America, 1850-53.

Rosie Creek Pass: pass, 1,600 ft., between heads of Rosie and Wilson Creeks, E of Cathedral Mountain, 18 miles S of Wiseman, Brooks Range; 67° 09' 30" N, 150° 11' 00" W; (map 124). Named for the creek which heads in the pass; reported by Robert Marshall about 1932.

Rosie Creek: stream, flows from Rosie Creek Pass N and W 5 miles around Cathedral Mountain to Middle Fork Koyukuk River, 16 miles S of Wiseman, Brooks Range; 67° 11' 30" N, 150° 18' 00" W; BGN 1932; (map 124). Variant: Rose Creek, Rosy Creek. Local name reported in 1932 by Robert Marshall, correcting the earlier-used "Rose" or "Rosy."

Rosie Creek: stream, flows SW 4.5 miles to Tanana River, 12 miles SW of Fairbanks, Tanana Lowland; 64° 44' 35" N, 148° 05' 00" W; (map 100). Local name reported in 1916 by USGS.

Rosie Mountain: mountain, see Cathedral Mountain.

Roslyn Creek: stream, heads on N side of Marin Range, flows NNE 5 miles to Isthmus Bay, 12 miles SE of Kodiak, Kodiak Island; 57° 37' 05" N, 152° 18' 30" W; BGN 1966; (map 34). Local name reported in 1966 by the Alaska State Geographic Board.

Rosoff Mount: mountain, see Myghapowit Mountain.

Ross Bay: lagoon, 1.2 miles long, on Beaufort Sea coast, 2 miles S of Ross Point and 21 miles SE of Barrow, Arctic Plain; 71° 11' N, 155° 53' W; (map 153). Named August 3, 1837, by Thomas Simpson (1843, p. 151), for a personal friend, a partner of Charles and Rowand in the fur trade at Fort Garry. The name was originally applied to the larger area, north of the lagoon, extending east of Ross Point.

Ross Cove: cove, 0.5 miles wide, on SE coast of Alaska Peninsula, trends SE 2 miles to Pacific Ocean, 12 miles S of Chignik, Aleutian Range 56° 07' N, 158° 25' W; (map 30). Local name published by USC&GS in 1916 Coast Pilot (p. 161).

Ross Creek: Stream, flows NW 14 miles to Yukon River, 5 miles E of Stevens Village, Yukon Flats; 65° 59' 40" N, 148° 57' 00" W; (map 105). Named by prospectors and reported in 1902 by Lt. Hjalmar Erickson, USA; published by USGS (Prindle, 1905 pl. 15).

Ross Green Lake: lake, 1.5 miles long, 1 mile E of Barkley Lake and 45 miles N of Cape Yakataga, Chugach Mountains; 60° 43' 30" N, 142° 31' 00" W; BGN 1960; (map 65). Named by D. J. Miller, USGS, in 1960 for Ross V. Green, 1886-1959, who on many occasions helped USGS field parties based in Cordova. Born in Missouri, and after living many years in Idaho, Green came to Cordova in 1942. He was much interested in outdoor activities and was the founder of the local Izaak Walton Chapter. The first known landing on this lake by airplane was made by Miller on the day of Mr. Green's funeral.

Ross Point: point of land, E point of entrance to Iko Bay, 20 miles SE of Point Barrow, Arctic Plain; 71° 14' N, 155° 58' W; (map 153). Variant: Rose Point. Named August 4, 1837, by Thomas Simpson for Capt. James Ross.

Ross Point: point of land, on S tip of Cape Rozhnof, 10 miles WSW of village of Port Moller, Bristol Bay Lowland; 55° 56' 00" N, 160° 51' 30" W; (map 28). Shown on a 1963 USC&GS chart.

Rostilaf Lakes: lakes, see Rostilaf Lakes.

Rostislaw Lakes: lakes, 2 miles across, 16 miles N of village of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 28' 30" N, 134° 41' 30" W; BGN 1935; (map 5). Variant: Rostilaf Lakes. Named in 1935 by USFS "for a ship built in Yakutat in 1804 as a part of the Sitka fleet."

Rosy Creek: stream, see Rosa Creek.

Rosy Creek: stream, see Rosie Creek.

Rothsay, Point: point of land, at mouth of Stikine River, 7 miles N of Wrangell, Coast Mountains 56° 35' 35" N, 132° 21' 50" W; (map 6). Variant: Mys Rechnoy, Reechoi Point. Named on August 27, 1793, by Capt. George Vancouver, RN (Wagner, 1937 p 407). Name "Mys Rechnoy," meaning "river point" was applied to this point in 1863 by the Russian surveyors from the corvette Rynda See Rynda Island.

Rotokakat: stream, see Kaltag River.

Rotol River: stream, see Khotol River.

Rotten Fish Slough: lake, an oxbow 1.5 miles long 22 miles E of Chalkyitsik, Porcupine Plateau; 66° 37' N, 142° 55' W; (map 120). Local name reported in 1956 by T. E. Taylor, USGS. It may be a form of translation of an Indian name.

Rouge Point: point of land, see Krasni Point.

Rough Bay: bay, 1.5 miles across; E of Gusty Bay, on NE coast of Tanaga Island, Aleutian Islands; 51° 50' N, 177° 51' W; (map 17). Name published by USC&GS in 1956.

Rough Beach: bight, see Lumber Bay.

Rough Channel: water passage, between Ogden Passage and Khaz Bay, 4 miles SSW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 36' 30" N, 136° 08' 00" W; BGN 1908; (map 9). Descriptive name given by USC&GS and published in the 1908 Coast Pilot (p. 174). So named because "there is generally a heavy swell in the channel * * *."

Rough Mountain Creek: stream, heads near Nukatpiat Mountain, flows W 38 miles to Aniuk River, 10 miles SW of Howard Pass, Brooks Range; 68° 07' N, 157° 09' W; (map 132). Named by Orth in 1956; this name is a rough translation of an Eskimo name.

Roughtop Mountain: mountain, 3,150 ft., at NE end of Boulder Ridge, 37 miles E of Tanana, Yukon-Tanana Highlands; 65° 11' 15" N, 150° 48' 30" W; (map 106). Prospectors' descriptive name reported in 1906 by Prindle (1908, pl. 5), USGS.

Roumiantsoff Cape: point of land, see Romanzof, Cape.

Roumiantzoff Mountains: mountain range, see Romanzof Mountains.

Round Cove: cove, 1 mile across, on E coast of Little Tanaga Island, Aleutian Islands; 51° 49' N, 176° 02' W; BGN 1936; (map 17). Descriptive name given in 1934 by members of the U.S. Navy Aleutian Island Survey Expedition.

Round Head: point of land, on E coast of Akun Island, Krenitzin Islands, Aleutian Islands; 54° 10' 35" N, 165° 24' 00" W; (map 24). Descriptive name given in 1901 by J. J. Gilbert, USC&GS.

Round Head: point of land, on NE coast of Kanaga Island, Aleutian Islands; 51° 54' N, 177° 03' W; BGN 1936, (map 17). So named in 1934 by members of the U.S. Navy Aleutian Island Survey Expedition, "because of its shape."

Round Hill: hill, 193 ft., on Akhiok Island, in Alitak Bay, at S end of Kodiak Island; 56° 55' 30" N, 154° 09' 40" W; (map 32). Descriptive name reported in 1900 by Lt. Comdr. J. F. Moser, USN, commander of the USBF steamer Albatross.

Round Hill: mountain, 1,600 ft., at S end of Peninsula Ridge, between Harry Bay and Nakat Inlet, Coast Mountains; 54° 50' 30" N, 130° 46' 20" W; (map 2). Descriptive name given in 1883 by Lt. Comdr. H. E. Nichols, USN.

Round Island: island, 0.1 miles across, in Beaver Inlet, eastern Unalaska Island, Aleutian Islands; 53° 46' 11" N, 166° 23' 00" W; (map 23). Descriptive name given by J. J. Gilbert, USC&GS, commander of the Coast Survey steamer Pathfinder during 1900-01.

Round Island: island, 0.1 miles across, in Kasnyku Bay, off NE coast of Baranof Island, Alexander Archipelago; 57° 12' 35" N, 134° 50' 20" W; (map 9). Variant: Ostrov Krugloy. This is a translation by USC&GS about 1882 of the name given by the Russian pilot Ens. Vasiliev; published in 1848 on Russian Hydrog. Dept. Chart 1397 as "Os[trov] Krugloy."

Round Island: island, 0.1 miles across, in Pavlof Bay, near SW end of Alaska Peninsula, Aleutian Range; 55° 32' 50" N, 161° 36' 00" W; (map 28). Descriptive name given in 1925 by USC&GS.

Round Island: island, 0.1 miles across, in Salisbury Sound, off S coast of Chichagof Island, 26 miles NW of Sitka, Alexander Archipelago; 57° 22' 00" N, 135° 42' 40" W; (map 9). Descriptive name reported in 1896 by Lt. Comdr. E. K. Moore, USN, and published by USC&GS in the 1901 Coast Pilot (p. 191). It is "wooded, 200 feet high, dome-shaped top."

Round Island: island, 0.1 miles across, in Security Bay, on N coast of Kuiu Island, Alexander Archipelago; 56° 52' 50" N, 134° 21' 20" W; (map 5). Named in 1869 by Comdr. R. W. Meade, USN.

Round Island: island, 0.1 miles long, one of Rookery Islands h1 Clarence Strait, between Zarembo and Prince of Wales Islands, Alexander Archipelago; 56° 18' 50" N, 133° 05' 15" W; (map 6). Local descriptive name reported in 1949 by USGS.

Round Island: island, 0.14 miles across, 0.5 miles S of SE coast of Ugamak Island, Krenitzin Islands, Aleutian Islands; 54° 12' 25" N, 164° 46' 30" W; (map 24). Descriptive name given in 1901 by J. J. Gilbert, USC&GS.

Round Island: island, 0.2 miles across, in entrance to Coal Harbor in Zachary Bay, Unga Island, in Shumagin Islands, Aleutian Range; 55° 20' 35" N, 160° 37' 15" W; (map 28). Descriptive name probably given in 1865 by Western Union Telegraph Expedition and shown on USC&GS chart published in 1872.

Round Island: island, 0.3 miles long, in Davidson Inlet, Alexander Archipelago; 55° 53' 30" N, 133° 39' 35" W; (map 4). Local descriptive name published in 1964 by USC&GS.

Round Island: island, 0.3 miles long, near mouth of Thorne Arm, 0.5 miles E of Bold Island, Alexander Archipelago; 55° 15' N, 131° 23' W; (map 3). Descriptive name given in 1883 by Lt. Comdr. H. E. Nichols, USN.

Round Island: island, 0.6 miles long, in Copper River, 25 miles NW of Katalla, Malaspina Coastal Plain; 60° 27' N, 145° 04' W; (map 64). Local descriptive name published in 1952 by USGS.

Round Island: island, 1,400 ft. long, in Kasaan Bay, NW of Kasaan Island, off E coast of Prince of Wales Island, Alexander Archipelago; 55° 31' N, 132° 23' W; (map 4). Descriptive name given in 1886 by Lt. Comdr. R. C. Clover, USN.

Round Island: island, 1.5 miles across, 15 miles SE of Crooked Island and 35 miles E of Hagemeister Island, easternmost of Walrus Islands, between-Kulukak and Togiak Bays, in Bristol Bay; 58° 36' N, 159° 58' W; (map 39). Variant: Kayashek, Kayashik, Krugloi Island, Walrus Island. This island is thought to be the one named by Capt. Cook (1785, v. 2, p. 431), RN, on July 12, 1778, on account of its shape. Capt. Tebenkov (1852, map 4), IRN, called it "Os[trov] Krugloi," meaning "round island." Lt. Sarichev (1826, map 3), IRN, called it "Os[trov] Morzh," meaning "walrus island." Tebenkov and Sarichev gave the native name as "Kayashek" and "Kayashik," respectively.

Round Island: island, 100 ft. across, in Inner Anchorage, NE of Gull Island, 0.7 miles SW of Kodiak, Kodiak Island; 57° 46' 50" N, 152° 25' 00" W; (map 34). Variant: Krugloi Island, Ostrov Krugloy. Translation of the name "Os[trov] Krugloy," published by Sarichev (1826, map 16).

Round Island: island, 150 ft. across, in Tlevak Strait, near mouth of Soda Bay, on W coast of Prince of Wales Island, Alexander Archipelago; 55° 14' 35" N, 133° 04' 15" W; (map 4). Local descriptive name published in the 1925 Coast Pilot (p. 138).

Round Island: island, 400 ft., near mouth of Klakas Inlet, on SW coast of Prince of Wales Island, Alexander Archipelago; 54° 52' 20" N, 132° 23' 50" W; (map 1). Descriptive name given in 1897 by Lt. Comdr. J. F. Moser, USN.

Round Island: island, 500 ft. across, in Redoubt Bay, 10 miles S of Sitka, Alexander Archipelago; 56° 54' 50" N, 135° 22' 40" W; (map 5). Variant: Krugloi Island, Ostrov Krugloy. This is a translation by USC&GS of the name given in 1809 by the navigator Ivan Vasiliev the first, IRN. Lt. Sarichev (1826, map 19), IRN, published it as "O[strov] Krugloy."

Round Island: island, see Akhiok Island.

Round Island: island, see Hound Island.

Round Islands: islands, SW group of the Barrier Islands, extend 1 mile in Cordova Bay, Alexander Archipelago; 54° 47' N, 132° 30' W; (map 1). Descriptive name reported in 1905 by E. F. Dickins, USC&GS.

Round Islet: island, 0.5 miles long, largest of Round Islets, in Holkham Bay, 0.5 miles SE of Harbor Island and 48 miles SE of Juneau, Coast Mountains 57° 45' 10" N, 133° 36' 00" W; (map 8). Variant: Round Islets. Named by Comdr. R. W. Meade, USN; published in 1869 on Hydrog. Chart 225 as "Round Islet (or islets)." Meade may have thought the group to be one island. The name was restricted to the southernmost and largest of the islands by the USC&GS in 1891 Coast Pilot (p. 147).

Round Islet: islands, see Round Islets.

Round Islets: island, see Round Islet.

Round Islets: islands, in Holkham Bay, 0.5 miles SE of Harbor Island and 48 miles SE of Juneau, Coast Mountains; 57° 45' 10" N, 133° 36' 00" W; (map 8). Variant: Round Islet. Named in 1869 by Comdr. R. W. Meade, USN; published in 1891 by USC&GS. See Round Islet.

Round Lake: lake, 0.1 miles across, on northern Kiska Island, Aleutian Islands; 52° 04' 42" N, 177° 36' 45" E; (map 14). An arbitrary name beginning with "R" to correspond to "R" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Round Lake: lake, 0.2 miles across, 8.5 miles N of Port Alexander, on E coast of Baranof Island, Alexander Archipelago; 56° 22' 10" N, 134° 42' 00" W; (map 5). Local descriptive name obtained in 1951 by USGS.

Round Lake: lake, 0.2 miles long, drains S to Tolsona Creek, 15 miles WNW of Glennallen, Copper River Basin; 62° 12' N, 145° 57' W; (map 83) Local descriptive name; reported in 1951 by USGS.

Round Lake: lake, 0.4 miles across, between Finland Creek and bend in Innoko River, 35 miles NW of Ophir and 61 miles NW of McGrath, Innoko Lowland; 63° 35' 30" N, 157° 15' 00" W; (map 90) Local name obtained in 1954 by R. E. Isto, USGS.

Round Lake: lake, 0.5 miles across, between Sundown and Tincan Lakes, 19 miles SW of Beaver, Yukon Flats; 66° 10' 20" N, 147° 56' 30" W; (map 118). Local descriptive name obtained in 1956 by USGS.

Round Lake: lake, 0.6 miles across, E of Tanana River, 21 miles NW of Tanacross, Yukon-Tanana Highlands; 63° 37' N, 143° 48' W; (map 85). Descriptive name published by USGS in 1954.

Round Lake: lake, 0.6 miles long, 2 miles E of Crosswind Lake and 22 miles NW of Glennallen, Copper River Basin; 62° 22' N, 145° 55' W; (map 83). Local name-reported in 1951 by USGS.

Round Lake: lake, on Kenai Peninsula N of Harvey Lake, 0.4 miles across, 6.5 miles SW of Skilak Lake and 30 miles SE of Kenai, Chugach Mountains; 60° 19' 15" N, 150° 32' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Round Mountain: mountain, 1,026 ft., at E side of entrance to Columbia Bay, 1.5 miles SE of S tip of Heather Island, 60 miles E of Whittier, Chugach Mountains; 60° 56' 45" N, 147° 02' 00" W; BGN 1911; (map 63). Descriptive name given in 1908 by U. S. Grant, USGS.

Round Mountain: mountain, 1,872 ft., 24 miles W of Hughes, Hogatza Highlands; 66° 04' N, 155° 06' W; (map 116). Local name reported in 1956 by Orth.

Round Mountain: mountain, 2,300 ft., on Annette Island, 4.6 miles N of Metlakatla, Alexander Archipelago; 55° 11' 50" N, 131° 33' 28" W; (map 3). Descriptive name given in 1883 by Lt. Comdr. H. E. Nichols, USN.

Round Mountain: mountain, 2,800 ft., 2.5 miles SE of Rainy Pass Lodge, 85 miles SW of Talkeetna, Alaska Range; 62° 03' 50" N, 152° 41' 10" W; (map 81). Local descriptive name reported in 1958 by USGS.

Round Mountain: mountain, 3,850 ft., in Kenai Mountains, on Kenai Peninsula, 5 miles NW of Cooper Landing and 42 miles ESE of Kenai, Chugach Mountains; 60° 30' 30" N, 150° 00' 00" W; (map 62). Local descriptive name; reported in 1944 by USGS.

Round Point: point of land, on S bank of Yukon River 1 mile E of junction of Tozitna River, 9 miles WSW of Tanana, Nowitna Lowland; 65° 08' N, 152° 22' W; (map 106). Descriptive name shown on a riverboat manuscript chart, dated in 1906.

Round Point: point of land, on SE coast of Zarembo Island, in Stikine Strait, Alexander Archipelago; 56° 16' 40" N, 132° 39' 30" W; (map 6). Descriptive name given in] 886 by Lt. Comdr. A. S. Snow, USN, because of its shape.

Round Point: point of land, on SE tip of Takeena Peninsula, 8 miles SE of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 33' 25" N, 135° 59' 40" W; (map 9). Descriptive name published in 1928 by USC&GS on Chart 8280.

Round Point: point of land, on SW coast of Kanaga Island, Aleutian Islands; 51° 42' 10" N, 177° 31' 15" W; (map 17). Descriptive name published in 1951 on a USGS map.

Round Point: point of land, on W bank of Yukon River 14 miles SE of Marshall, Yukon-Kuskokwim Delta; 61° 41' N, 161° 57' W; (map 73). Riverboat pilots' name descriptive of the long round curve of the point: shown on a 1916 field sheet by R. H. Sargent, USGS.

Round Point: point of land, point of entrance to Sukkwan Strait, on E coast of Blanket Island, Alexander Archipelago; 55° 07' 30" N, 132° 41' 15" W; (map 4) Descriptive name given in 1924 by USC&GS.

Round Point: point of land, see Cape Glazenap.

Round Point: point of land, see Krugloi Point.

Round Rock: rock, 2 miles W of Chirikof Island, 100 miles SW of Kodiak Island; 55° 49' N, 155° 46' W; (map 32). Descriptive name reported in 1874 by W. H. Dall, USC&GS.

Round Rock: rock, 40 ft. high, in Frederick Sound, 3.4 miles SW of West Brother Island and 55 miles E of Sitka, Alexander Archipelago; 57° 15' 35" N. 133° 56' 00" W; (map 8). Descriptive name published by USC&GS in 1891 Coast Pilot (p. 143).

Round Tangle Lake: lake, 1 mile across, one of Tangle Lakes, near head of Delta River, 15 miles W of Paxson, Alaska Range; 63° 03' 30" N. 145° 09' 20" W; (map 86). Name published on relatively recent maps.

Round Top Mountain: mountain, 3,900 ft., 8.5 miles SE of Paxson Lake, 49 miles NE of Glennallen, Copper River Basin; 62° 48' N, 145° 19' W; (map 83). Local descriptive name reported by USGS in 1951.

Roundabout Mountain: hill, 500 ft., on N bank of Yukon River 21 miles SE of Marshall, Yukon-Kuskokwim Delta; 61° 34' 30" N, 161° 51' 10 W; (map 73). Riverboat pilots' name shown on a manuscript chart dated 1922; so called because the Yukon River goes around three sides of the steep hill.

Roundabout Mountain: mountain, 1,088 ft., 28 miles SE of The Nogahabara Sand Dunes, Koyukuk Lowland; 65° 33' N, 156° 33' W; (map 108). Variant: Suskita Range. So called by riverboat pilots as early as 1900, because the circuitous Koyukuk River "approaches the mountain numerous times and eventually goes around it." The Koyukuk Indian name is 'Suskita,' according to Lt. B. H. Camden (Cantwell, 1904, p. 244), USRCS.

Roundabout Mountain: ridge, extends SW 15 miles along W bank of Kuskokwim River, 3 miles S of McGrath, Kilbuck-Mountains; 62° 53' N, 155° 46' W, (map 80). Named in 1898 by W. S. Post, USGS.

Roundtop Mountain: mountain, 6,140 ft., on Unimak Island, Aleutian Islands; 54° 48' 00" N, 163° 35' 30" W; (map 25). Variant: Dome, Round Top. Name reported as "Round Top" by USC&GS in 1902. This feature was called "Dome" by J. F. Moser, USN, in 1897.

Rousseau Range: mountain range, elev. 4,600 ft., extends W 13 miles from Portland Canal, N of Peabody Mountains, Coast Mountains; 55° 26' N, 130° 12' W; (map 3). Named in 1868 by Staff Comdr. David Pender, RN, possibly for Gen. Lovell H. Rousseau, who accepted the territory of Alaska for the United States in 1867, in a ceremony with Russian representatives at Sitka.

Rover Creek: stream, flows NE 1 mile to Casadepaga River, 16 miles N of Solomon, Seward Peninsula Highlands; 64° 47' N, 164° 22' W; (map 95). Variant: Slate Creek. Shown as "Slate" on a 1901 map of Cape Nome gold fields by David Fox., Jr. Prospectors' name reported on a 1902 prospectors' manuscript map.

Rowan Bay: bay, 1 mile across, 7 miles N of Tebenkof Bay, on W coast of Kuiu Island, Alexander Archipelago; 56° 39' 00" N, 134° 17' 30" W; BGN 1933 (map 5). Variant: North Arm Bay of Pillars. Named in 1933 by USFS "for Capt. Rowan of the brig Eliza, who traded with the Indians of Southeast Alaska in the late 18th and early 19th centuries." The name "North Arm Bay of Pillars" was published in 1899 by USC&GS and was used locally until 1933.

Rowe Island: island, 250 ft. across, in Klag Bay, 1.7 miles S of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 38' 20" N, 136° 05' 50" W; BGN 1908; (map 9). Named in 1908 by USC&GS and published in 1909 on Chart 8280.

Rowena, Lake: lake, 1.2 miles long, on mainland 2 miles NW of Baily Bay, Alexander Archipelago; 56° 00' N, 131° 40' W; (map 7). Local name reported in 1955 by USGS.

Rowlee Point: point of land, in Muir Inlet, in Glacier Bay National Monument, at mouth of Wachusett Inlet, 1.4 miles NW of Point McLeod and 62 miles NW of Hoonah, St. Elias Mountains; 58° 56' 05" N, 136° 07' 20" W; BGN 1948; (map 10). Variant: Cushing Point, Wachusett Point. Named for Willard Winfield Rowlee, 1861-1923, professor of botany, Cornell Univ. He was botanist for the Cushing Expedition to Glacier Bay in 1890. The name "Point Wachusett" was published by the American Geographical Society (Field, 1947, map).

Roxas, Puerto de: bay, see Ugak Bay.

Roy Creek: stream, flows SW 11 miles joining Chimney Fork to form Glacier River, 4 miles NE of Foggytop Mountain and 22 miles N of Wiseman, Brooks Range; 67° 42' 30" N, 150° 25' 30" W; BGN 1932; (map 124). Named about 1930 by Robert Marshall "for Roy King, the prospector who first explored the creek and built a cabin on it."

Roy Creek: stream, flows SW 9 miles to Beaver Creek, 42 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 23' 45" N, 147° 11' 40" W; BGN 1910; (map 105). Variant: Bear Creek. Originally published in 1908 by USGS as Bear Creek, but prospectors called the stream "Roy," and the name was published in 1912 by USGS.

Roy Island: island, 200 ft. across, off N coast of Duke Island, Alexander Archipelago; 54° 57' 45" N, 131° 25' 00" W; (map 2). Local name published in 1943 by USC&GS.

Rozario, Ostrov del: island, see Rosary Island.

Rozhnof, Cape: peninsula, between Nelson Lagoon and Herendeen Bay, 11 miles W of village of Port Moller, Alaska Peninsula, Bristol Bay Lowland; 55° 58' N, 160° 57' W; (map 28). Variant: Cape Rozhnot, Rodgnof, Rodgnoff, Rojnoff. Named Cape Rojnoff by Capt. Lutke (1836, p. 261), IRN. The name was applied at first to what is now called Lagoon Point. Cape Rodgnoff is shown in its present location on an 1882 USC&GS chart; the spelling "Rozhnof" is derived from "Rozhnova," shown in 1847 on Russian Hydrog. Dept. Chart 1379.

Rozhnof: point of land, see Lagoon Point.

Rozhnot, Cape: peninsula, see Rozhnof, Cape.

Rua Cove: cove, in Prince William Sound, on E coast of Knight Island, 0.5 miles across, 16 miles NE of Chenega, Chugach Mountains; 60° 21' 00" N, 47° 38' 15" W; BGN 1917; (map 63). Name used by local miners and reported in 1908 by U. S. Grant and D. F. Higgins (in Brooks and others, 1910, pl. 4), USGS. It was probably named for Charles Rua who operated 2 mines near here in 1908.

Rubber Boot Lake: lake, 0.2 miles long, on E side of Kenai Peninsula, 13 miles NE of Chenega, Chugach Mountains; 60° 27' 25" N, 147° 55' 30" W; (map 63). Name reported in 1897 by Lt. Comdr. J. F. Moser, USN. A "rubber boot" is the local name of a small edible mussel.

Rube Creek: stream, flows SE 4.2 miles to Peace River, 12 miles N of Haycock, Seward Peninsula Highlands; 65° 22' N, 161° 02' W; (map 109). Local name reported in 1917 by G. L. Harrington, USGS.

Rubertz: locality, see Afognak.

Rubia Bay: bay, see Fish Bay.

Rubin Glacier: glacier, trends SW 2 miles to its 1952 terminus at head of Goat Creek, 6 miles E of Valdez, Chugach Mountains; 61° 07' 10" N, 146° 04' 30" W; (map 68). Local name published in the 1950's by USGS.

Rubtsovskaya: locality, see Afognak.

Rubtzovskaia: locality, see Afognak.

Ruby Creek: ravine, see Ruby Gulch.

Ruby Creek: stream, flows E 5 miles from E of Ipnek Mountain to North Fork Koyukok River, 17 miles W of Wiseman, Brooks Range; 67° 21' N, 150° 45' W; (map 124). Local name reported in 1909 by A. G. Maddren (in Brooks and others, 1910, pl. 7), USGS.

Ruby Creek: stream, flows N 1.4 miles to Yukon River at Ruby, Kilbuck-Kuskokwim Mountains; 64° 44' 20" N, 155° 29' 50" W; (map 98). Prospectors' name reported in 1907 by Brooks (1908, p. 46), USGS. Gold was discovered on this stream, near the present town, called Ruby, in 1907.

Ruby Creek: stream, flows N 8 miles to Shungnak River, 17 miles NE of Shungnak, Brooks Range; 67° 07' N, 156° 55' W; (map 126). Prospectors' name "derived from the ruby garnet," reported by P. S. Smith and H. M. Eakin, USGS (in Brooks and others, 1911, p. 300).

Ruby Creek: stream, flows N to Paystreak Creek which flows to Pilgrim River, 12 miles NE of Salmon Lake and 24 miles W of Mount Bendeleben, Seward Peninsula Highlands; (map 110). Prospectors' name reported on a 1901 map of Cape Nome gold fields by David Fox, Jr. This stream cannot be precisely located on current maps.

Ruby Creek: stream, flows NE 1.5 miles to Fourth of July Creek, 8 miles SW of that stream's junction with Yukon River and 34 miles NW of Eagle, Yukon-Tanana Highlands; 65° 07' 15" N, 142° 03' 00" W; (map 103). Prospectors' name reported by L. M. Prindle and J. B. Mertie, Jr. (in Brooks and others, 1912, p. 208), USGS.

Ruby Creek: stream, flows NE 7 miles to Minook Creek, 7 miles S of Rampart, Yukon-Tanana Highlands; 65° 24' 30" N, 150° 08' 00" W; (map 106). Prospectors' name published in

1898 by USC&GS on Chart 3098. So named because of the garnets, sometimes referred to as “rubies,” found in the stream's gravels.

Ruby Creek: stream, flows NW 2.5 miles to Igloo Creek which flows to American River, 30 miles NE of Teller, Seward Peninsula Highlands; 65° 27' N, 165° 25' W; (map 111). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Ruby Creek: stream, flows NW 3 miles to Chatanika River, 18 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 06' 30" N, 147° 32' 50" W; (map 105). Named by prospectors, shown on a manuscript map by C W. Joynt dated 1905.

Ruby Creek: stream, flows NW 4 miles to Casadepaga River, 17 miles NE of Solomon, Seward Peninsula Highlands; 64° 49' N, 164° 20' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Ruby Creek: stream, flows NW 5.5 miles to Bonanza Creek, 11.5 miles E of Flat and 53 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 62° 25' 40" N, 157° 38' 40" W; (map 79). Prospectors' name reported in 1933 by J. B. Mertie, USGS.

Ruby Creek: stream, flows NW 6 miles to Nixon Fork Takotna River, 13 miles NW of Medfra, Kilbuck-Kuskokwim Mountains; 63° 16' N, 154° 54' W; (map 89). Prospectors' name obtained in 1921 by G. C. Martin (in Brooks, 1922, fig. 5), USGS.

Ruby Creek: stream, flows NW 7.4 miles to Delta River, crosses Richardson Highway, 29 miles S of Delta Junction, Alaska Range; 63° 39' 08" N, 145° 54' 30" W; (map 86). So named, about 1902, because of the ruby-colored pebbles found along the stream by prospectors (Davies, 1965, p. 23).

Ruby Creek: stream, flows S 3.5 miles to West Fork Chulitna River, 48 miles SW of Healy, Alaska Range; 63° 16' 15" N, 149° 44' 35" W; (map 87). Prospectors' name obtained in 1913 by J. W. Bagley, USGS; published by S. R. Capps (in Martin, 1919, pl. 5), USGS.

Ruby Creek: stream, flows SE 10 miles to Slate Creek, 50 miles SW of Eagle, Yukon-Tanana Highlands; 64° 38' N, 142° 45' W; (map 102). Prospectors' name shown on a 1902 manuscript map by E. J. Chamberlain, U.S. Deputy Surveyor.

Ruby Creek: stream, flows SE 2.5 miles to Woodland Echo Creek, 4 miles E of Woodland Echo Pass and 10 miles SW of Chandalar, Brooks Range; 67° 26' 20" N, 148° 51' 00" W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Ruby Creek: stream, flows SE 3 miles to Bluestone River, 11 miles SE of Teller, Seward Peninsula Highlands; 65° 07' N, 166° 11' W; (map 111). Local name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Ruby Creek: stream, flows SW 1.6 miles to Steele Creek, 9 miles NE of Fairbanks, Yukon-Tanana Highlands; BGN 1933; 64° 55' 20" N, 147° 29' 30" W; (map 100). Local name reported in 1933 by J. M. Hill, USGS.

Ruby Creek: stream, flows SW 2 miles to Sourdough Creek, 8 miles NW of Mount Ryan and 76 miles SW of Circle, Yukon-Tanana Highlands; 65° 18' 30" N, 146° 28' 00" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Ruby Creek: stream, flows SW 3 miles to Little Washington Creek, 21 miles NW of Eagle, Yukon-Tanana Highlands; 64° 56' 45" N, 141° 48' 45" W; (map 102). Local name published in 1956 by USGS.

Ruby Creek: stream, in Kantishna Hills, flows W 0.8 miles to Yellow Creek, 4.8 miles NNE of Wonder Lake, Alaska Range; 63° 33' 30" N, 150° 49' 40" W; BGN 1932; (map 88). Local name reported in 1932 by F. G. Wells and S. C. Kain, USGS.

Ruby Creek: stream, see Emerald Creek.

Ruby Gulch: ravine, extends SW 1.1 miles to tributary of Chisna River, 0.5 miles E Chisna Pass and 25 miles NE of Paxson, Alaska Range; 63° 09' 15" N, 144° 46' 20" W; (map 86). Prospectors' name reported in 1900 by T. G. Gerdine (in Mendenhall and Schrader, 1903, pl. 9), USGS.

Ruby Gulch: ravine, in Dutch Hills, extends NE 1 mile from Willow Creek, 29 miles NW of Talkeetna, Alaska Range; 62° 34' 50" N, 150° 50' 45" W; (map 81). Variant: Ruby Creek. Name published as "Ruby Creek" by Cook (1908, map).

Ruby Gulch: ravine, trends NW 1.7 miles to Hazel Creek, 7 miles NE of Nome, Seward Peninsula Highlands; 64° 33' 36" N, 165° 11' 40" W; (map 94). Prospectors' name reported on the 1903 Campion Mining and Trading Co. map by George M. Ashford.

Ruby Gulch: ravine, trends SSE 0.8 miles to Falls Creek 0.8 miles NW of its junction with Cache Creek, 32 miles NW of Talkeetna, Alaska Range; 62° 29' 00" N, 151° 01' 15" W; (map 81). Prospectors' name reported in the 1930's by USGS.

Ruby Gulch: ravine, trends W 1 mile to Crooked Creek, N of Queen Gulch, 43 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 62° 03' 45" N, 158° 13' 20" W; BGN 1945; (map 79). Local name reported in 1914 by USGS in reference to "the large quantity of red garnets found in rich gold placers at the mouth of the gulch."

Ruby Gulch: stream, see Ruby Creek.

Ruby Roadhouse: locality, see Ruby.

Ruby Slough: stream, anabranch, heads at Yukon River and flows SW 27 miles to Yuki River, 59 miles E of Nulato, Kilbuck- Kuskokwim Mountains; 64° 42' N, 156° 06' W; (map 97). Local name reported in 1954 by USGS.

Ruby: locality, at mouth of Ruby Creek, 1 mile N of Casadepaga and 18 miles N of Solomon, Seward Peninsula Highlands; 64° 49' N, 164° 20' W; (map 95). Variant: Ruby Roadhouse. Site of a roadhouse shown on the 1908 "Map of Seward Peninsula" by Arthur Gibson; probably named for its location at the mouth of Ruby Creek.

Ruby: village, pop. 179, on left bank of Yukon River, S of junction of Melozitna River Kilbuck-Kuskokwim Mountains; 64° 45' N, 155° 30' W; BGN 1944; (map 98). Variant: Lozi-koket. Gold was discovered on Ruby Creek, near the site of this village in 1907; however, a town did not develop until 1911, when gold was discovered on Long Creek and a "stampede" followed. A substantial town grew in 1 year, and for the next several years the population was over 1,000. Ruby post office was established in 1912. By 1920 the population was reduced to 128, and has remained under 200 since. Baker (1906 p. 415) recorded "Lozi-koket: Indian village, on left bank of the Yukon, opposite the mouth of Melozi [Melozitna] river, * * * Name taken from Edwards' Track Chart of the Yukon. 1899."

Rubyets: locality, see Afognak.

Rucksock Creek: stream, flows 1.2 miles N to Peaceful River, on SE coast of Attu Island, Aleutian Islands; 52° 50' 24" N, 173° 07' 45" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II; shown on an AMS map published in 1948.

Rudakof Mountain: mountain, see Rudakof, Mount.

Rudakof, Mount: mountain, 3,540 ft., 16 miles NW of Port Alexander on S coast of Baranof Island, Alexander Archipelago; 56° 27' 30" N, 134° 49' 15" W; BGN 1933; (map 5). Variant: Rudakof Mountain. Named in 1933 by USFS "for Alexander Rudakof, eleventh Russian Governor of Alaska, 1853-54."

Rude Lake: lake, 1 mile long, at terminus of Cordova Glacier, 22 miles NE of Cordova, Chugach Mountains; 60° 49' 30" N, 145° 31' 00" W; (map 64). Name published by USGS in 1959; derived from nearby Rude River.

Rude River: stream, flows SW 16 miles to Nelson Bay, at NE end of Orca Inlet, 10 miles NNE of Cordova, Chugach Mountains; 60° 40' N, 145° 37' W; BGN 1966; (map 64). Variant: Cordova Creek. Locally named for Gilbert Rude, USC&GS; name published by the Norris Peters Company on their 1911 map of Orca Bay.

Rudisell Reef: reef, 0.2 miles long, at mouth of Mueller Cove, in SE part of Nikolski Bay, on SW coast of Umnak Island, Aleutian Islands; 52° 56' 45" N, 168° 52' 05" W; BGN 1940; (map 21). Named in 1939 by USC&GS for Maurice G. Rudisell, USC&GS, a fireman on a survey party who was drowned on May 28, 1938, when a survey boat struck this reef. See Mueller Cove.

Rudolph Creek: stream, flows NW 0.9 miles to Snake River, 12 miles N of Nome, Seward Peninsula Highlands; 64° 41' N, 165° 24' W; (map 94). Prospectors' name reported on a map by S. E. King dated 1900.

Rudyerd Bay: estuary, on the mainland, extends SW 14 miles to Behm Canal, Coast Mountains; 55° 33' N, 130° 52' W; (map 3). Named in 1879 by W. H. Dall, USC&GS, for the English engineer, John Rudyerd, who rebuilt the Eddystone lighthouse after its destruction in 1703.

Rudyerd Island: island, 1.5 miles long, in Behm Canal, at the mouth of Princess Bay, on the SE coast of Revillagigedo Island, Alexander Archipelago; 55° 16' 40" N, 131° 02' 05" W; (map 3). Named in 1879 by W. H. Dall, USC&GS, for the English engineer John Rudyerd.

Rue Ledge: rocks, 3 miles W of Turf Point, off SW coast of Seguam Island, Aleutian Islands; 52° 15' 00" N, 172° 36' 30" W; (map 19). Named by a special U.S. Navy survey party and published by USC&GS in 1944 Aleutian Coast Pilot (p. 86).

Rufus Creek: stream, flows NW 5.5 miles to Slana River 1.6 miles NE of its junction with Copper River, Alaska Range; 62° 43' N, 143° 56' W (map 84). Variant: Natat Creek. Local name reported by USGS in 1960.

Rufus Creek: stream, see Sufus Creek.

Rugged Island: island, 2.5 miles long, at junction of Resurrection Bay and Harding Gateway, 19 miles S of Seward, Chugach Mountains; 59° 51' 30" N, 149° 23' 00" W; BGN 1906; (map 49). Variant: Baker Island. Named by BGN after a proposal to name it "Baker Island" in honor of Marcus Baker was rejected.

Ruhama, Mount: mountain, see Ruhamah, Mount.

Ruhamah, Mount: mountain, 5,620 ft., 3.2 miles E of Shelter Cove on Russell Fiord and 22 miles NE of Yakutat, St. Elias Mountains; 59° 43' 00" N, 139° 12' 30" W; (map 46). Variant: Mount Ruhama. Named "Mount Ruhama" by Russell (1892 p. 88), USGS, for Miss Ruhama Scidmore, author of a book on journeys in Alaska.

Ruibnaia: locality, see Ingregamiut.

Ruibnaia: locality, see Ribnaia.

Ruin, Cape: point of land, on E coast of Umak Island, Aleutian Islands; 51° 54' 40" N, 175° 59' 15" W; BGN 1936; (map 18). Descriptive name applied by personnel of the 1934 U.S. Navy Aleutian Island Survey Expedition because of the Cape's "ruined" appearance; published by the USC&GS in the 1944 Aleutian Coast Pilot (p. 104).

Ruins Point: point of land, on NW coast of Kosciusko Island, 1.5 miles S of Shipley Bay, Alexander Archipelago; 56° 04' N, 133° 42' W; (map 6). Named in 1879 by W. H. Dall, USC&GS "on account of a ruined Indian village there.

Rukav Ledyanoy: estuary, see Taku Inlet.

Rukavitsie, Cape: point of land, on S coast of Unimak Island, Aleutian Islands; 54° 37' 50" N, 164° 03' 00" W; (map 24). Russian name published by Veniaminov (1840, v. 1, p. 211) meaning "gloves" or 'mittens."

Rulby Creek: stream, flows W 1.9 miles to Sinuk River, 22 miles NW of Nome, Seward Peninsula Highlands; 64° 47' N, 165° 48' W; (map 94). Variant: Ruby Gulch. Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17) USGS.

Rum Brook: stream, see Moss Creek.

Rumble Creek: stream, heads at glacier terminus NW of Tok Glacier, flows NE 11 miles to Robertson River, 3 miles E of Robertson Glacier terminus and 36 miles W of Tok, Alaska Range; 63° 18' 20" N, 144° 07' 00" W; BGN 1936 (map 86). Named in 1936 by USGS "because of the curious rumbling sound caused by large rolling boulders in the swift stream."

Rumbling Mountain: mountain, 6,520 ft., at head of Kenunga Creek, 17.5 miles SE of Anaktuvuk Pass, Brooks Range; 68° 00' 45" N, 151° 09' 15" W; (map 134). Named in 1930 by Marshall, (1956, p. 45) who wrote, "Chunks of rock were continually breaking off and rumbling down into the valley, so I called that peak the Rumbling Mountain."

Rumiantsof, Cape: point of land, see Romanzof, Cape.

Rumiantzof Mountains: mountain range, see Romanzof Mountains.

Rungun Creek: stream, flows SE 11.6 miles to North Fork Kuskokwim River, 44 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 30' N, 153° 37' W; (map 89). Local name reported in 1958 by USGS.

Runkels Creek: stream, flows NE and SE 10 miles to Anvik River, 60 miles S of Unalakleet, Nulato Hills; 63° 00' 20" N, 160° 43' 30" W; (map 91). Local name reported in 1949 by USC&GS.

Runstettler: area, in NE part of Anchorage, Cook Inlet Lowland; 61° 13' 00" N, 149° 47' 10" W; (map 69). Local name reported in 1954 by the city engineer of Anchorage.

Runt Creek: stream, heads in Canada, flows NU 26 miles to Salmon Fork, 30 miles NW of Midnight Hill, Porcupine Plateau; 66° 26' 20" N, 141° 30' 20" W; BGN 1954; (map 120). Named in 1908 by IBC surveyors; published in 1914 on IBC Sheet 14 (1918 Atlas).

Rurik Harbor: bay, 0.8 miles long, on S end of Khantaak Island, 1 mile N of Point Turner and 2.2 miles NW of Yakutat, Malaspina Coastal Plain; 59° 34' 15" N, 139° 46' 30" W; (map 46). Named by Khromchenko, who surveyed the area in 1823, after a ship (brig) belonging to the Russian-American Co. The name was originally applied to the combined water area of what is now Rurik Harbor and Port Mulgrave. The name is now restricted to the northernmost of the two bays.

Rurik Harbor: cove, see Mulgrave, Port.

Rush Hill: hill, 665 ft., highest of Einahnuhto Hills, on W coast of St. Paul Island, in Pribilof Islands; 57° 11' 20" N, 170° 23' 50" W; (map 38). Probably named in 1891 by Joseph Stanley-Brown, naturalist, for the U.S. Revenue Cutter, Richard Rush, during fur-seal investigations of the islands in 1891 by the U.S. Treasury Department.

Rush Hills: hills, see Einahnuhto Hills.

Rush Lake: lake, 1.5 miles long, between Boulder Creek and Glenn Highway, 31 miles NE of Palmer, Talkeetna Mountains; 61° 49' 45" N, 148° 15' 45" W; (map 69). Local name reported in 1913 by USGS.

Rush Peak: mountain, 2,734 ft., near center of Prince of Wales Island, N of Salmon Lake, 17 miles NE of Klawock, Alexander Archipelago; 55° 37' 25" N, 132° 40' 15" W; (map 4). Local name recorded in 1949 by USGS.

Rush Point: point of land, on SW coast of St. George Island, in Pribilof Islands; 56° 35' 20" N, 169° 44' 30" W; (map 38). Name published in 1898 by USC&GS presumably for the U.S. Revenue Cutter, Richard Rush.

Rush Point: point of land, on W shore of Glacier Bay, in Glacier Bay National Monument, 0.6 miles N of Ripple Cove, 34 miles NW of Hoonah, St. Elias Mountains; 58° 28' 05" N, 136° 04' 10" W; (map 10). So named in 1892 by Reid (1896, p. 424), "because there is a ceaseless rush of tidal water flowing past the point"

Rush Rock: rock, between Sanak Island and Alaska Peninsula, 11.5 miles SW of Deer Island, Aleutian Range; 54° 48' 45" N, 162° 40' 55" W; (map 25). Name reported by W. H. Dall, USC&GS, and published in 1882 on USC&GS Chart 806.

Russel Creek: stream, flows SE 1.7 miles to Snake River, 5 miles NW of Nome, Seward Peninsula Highlands; 64° 35' N, 165° 30' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Russel Creek: stream, flows SE 2.3 miles to join Virginia Creek to form Goldbottom Creek which flows to Niukluk River, 10 miles NW of Council and 43 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 01' N, 163° 50' W; (map 110). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Russel Creek: stream, see Delta Creek.

Russell Cove: cove, see Shelter Cove.

Russell Fiord: estuary, extends N 25 miles to Disenchantment Bay, at head of Yakutat Bay, St. Elias Mountains; 60° 00' N, 139° 27' W; (map 46). Named in 1906 by Marcus Baker, USGS, for Israel Cook Russell, 1852-1906, explorer of the Yakutat region in 1890 and 1891 and discoverer of this estuary in 1891. Russell was born in New York and received B.S. and C.E. degrees in 1872 from the Univ. of the City of New York. In 1880 he became a member of the USGS. He was a USGS representative in 1889 in an expedition sent to Alaska by the USC&GS to establish a portion of Alaska's eastern boundary. During the next two years he explored, under the joint auspices of the USGS and the National Geographic Society, the slopes of Mount St. Elias and the Yakutat Bay area. In 1892 he became professor of geology at the Univ. of Michigan. At the time of his death he was President of the Geological Society of America.

Russell Glacier: glacier, heads at 61° 22' N, 141° 53' W and trends 26 miles N through Skolai Pass to its terminus at head of White River, 40 miles NE of McCarthy, Wrangell

Mountains; 61° 41' N, 141° 48' W; (map 67). Named in 1891 by Hayes (1892, p. 152), USGS, for Israel Cook Russell, 1852-1906. See Russell Fiord.

Russell Island: island, 3.7 miles long, in Glacier Bay, Glacier Bay National Monument, 2 miles N of Ibach Point and 75 miles NW of Hoonah, St. Elias Mountains; 58° 55' 45" N, 136° 49' 30" W; (map 10). Named by Field and Cooper (1937, pl. 1) for Israel Cook Russell, 1852-1906. See Russell Fiord.

Russell, Mount: peak, 11,670 ft., marks SW corner of Mount McKinley National Park, 34 miles SW of Denali Pass and 66 miles NW of Talkeetna, Alaska Range; 62° 48' N, 151° 53' W; (map 81). Named in 1902 by A. H. Brooks, USGS, for Israel Cook Russell, 1852-1906, geologist, explorer, and author.

Russian America: state, see Alaska.

Russian Anchorage: bight, 1 mile across, near mouth of Kinak Bay, on E coast of Alaska Peninsula in Katmai National Monument, 23 miles SE of Mount Katmai, Aleutian Range; 58° 06' 30" N, 154° 22' 30" W; (map 42). Variant: Russian Harbor. Named "Russian Harbor" in 1910 by USC&GS; "Russian Anchorage" was reported in 1919 by R. F. Griggs, National Geographic Society.

Russian Bay: bay, 1.3 miles across, on SE coast of Umnak Island, Aleutian Islands; 53° 09' 00" N, 168° 21' 15" W; (map 22). Name published by USC&GS in 1944 Aleutian Coast Pilot (p. 71).

Russian Cove: cove, at S junction of Stephens Passage and Port Houghton, 0.4 miles SE of Crow Island and 63 miles W of Sitka, Coast Mountains; 57° 17' 45" N, 133° 28' 30" W; (map 8). Local name reported in 1955 by USGS.

Russian Creek: stream, flows N 8.5 miles to Yukon River. 3 miles SW of Rampart, Yukon-Tanana Highlands; 65° 29' N, 150° 17' W; (map 106). Local name reported in 1899 by Cantwell (1902, p. 277), USRCS; also shown on Edwards Track Chart of the Yukon, dated 1899.

Russian Creek: stream, flows NE 9 miles to Womens Bay, 8.5 miles SW of Kodiak, Kodiak Island; 57° 42' 25" N, 152° 34' 00" W; BGN 1964; Variant: Russian River. Local name published in 1949 by USC&GS.

Russian Gardens: locality, on E coast of St. Michael Island, 1.3 miles N of St. Michael, Yukon-Kuskokwim Delta; 63° 29' 45" N, 162° 03' 30" W; (map 92). Local name reported in a 1950 USC&GS field report that stated, "In the days of Russian occupation the hilltop was used as a garden plot; signs of cultivation still exist."

Russian Harbor: bight, see Russian Anchorage.

Russian Harbor: water passage, 2.5 miles across, between Aiaktalik and Kodiak Island; 56° 44' N, 154° 05' W; (map 32). Named by USBF in 1888; derived from the name "Russian Lodge," shown on a map by Capt. Tebenkov (1852, map 22).

Russian Island: island, see Bamdoroshni Island.

Russian Jack Springs: springs, in Anchorage, at head of Middle Fork Chester Creek, Cook Inlet Lowland; 61° 12' 24" N, 149° 46' 47" W; (map 69). Local name reported in 1954 by the city engineer of Anchorage.

Russian John Creek: stream, flows E 2 miles to Limestone Creek, 1.2 miles N of that stream's junction with Middle Fork Chistochina River, 27 miles NE of Paxson, Alaska Range; 63° 06' 25" N, 144° 38' 40" W; (map 86). Name published on relatively recent maps.

Russian Lake: lake, see Upper Russian Lake.

Russian Mission: settlement, on N bank of Kuskokwim River 9.5 miles E of Aniak, Kilbuck-Kuskokwim Mountains; 61° 34' 20" N, 159° 34' 30" W; BGN 1948; (map 73). Variant: Little Russian Mission. The establishment of Moravian missionaries on the river in 1885 motivated the Orthodox Church to reactivate its Kuskokwim Mission. This led to the founding of the Russian Mission (sometimes referred to as Little Russian Mission to distinguish it from Russian Mission on the Yukon River), in 1891, with Father J. Orlof as resident priest. The major centers of the Russian (Greek) Orthodox Church along the Kuskokwim River are Sleetmute, Russian Mission, Lower Kalskag, Kwethluk, and Napaiskak (Oswalt, 1963, p. 7).

Russian Mission: village, pop. 102, on right bank of Yukon River 25 miles SE of Marshall, Yukon-Kuskokwim Delta; 61° 47' N, 161° 19' W; (map 73). Variant: Ekogmute, Ikagmiut, Ikogmut, Ikogmute, The Mission. The Eskimo name for this village appears to have been reported by Lt. L. A. Zagoskin, IRN, in 1842-44 and published in Russian by P. Tikhmeniev, in 1861, as "S[elo] Ikogmyut," possibly meaning "people of the point." It is listed by I. Petroff in the 1880 Census as "Ikogmute," with 143 inhabitants; the 1890 Census lists 140. Baker (1906, p. 32), gives a population of 350 Eskimo in 1902. This village was the location of a Russian Orthodox Mission (sometimes called "Pokrovskaya Mission)," established in 1851, the first in the interior of Alaska (Oswalt, 1963, p. 6). The designation "Russian Mission" supplanted the Eskimo name about 1900.

Russian Mountain: mountain, 6,300 ft., in Kenai Mountains, on Kenai Peninsula, 2 miles E of Skilak Lake and 43 miles ESE of Kenai, Chugach Mountains; 60° 27' N, 150° 02' W; (map 62). Local name reported in 1950 by USGS.

Russian Mountains: mountain, 3,200 ft., extends N 13 miles from Kuskokwim River, E of Owhat River and 9 miles NE of Aniak, Kilbuck-Kuskokwim Mountains; 61° 40' N, 159° 10' W; BGN 1948; (map 73). Named during the "Yellow River stampede" of the winter of 1900-01 because the Russian Orthodox Mission was located on the south edge of the mountain (see Brooks and others, 1915, p. 300).

Russian Point: point of land, at SW entrance to Port Graham, on SW end of Kenai Peninsula, 10 miles SW of Seldovia, Chugach Mountains; 59° 21' 30" N, 151° 55' 00" W; (map 50). Name published by Capt. Portlock (1789, map facing p. 102). A Russian trading post was located on Port Graham.

Russian Reef: reef, in Chatham Strait, 15 miles S of Angoon, off W coast of Admiralty Island, Alexander Archipelago; 57° 17' 15" N, 134° 37' 15" W; (map 9). Named by Comdr. R. W.

Meade, USN, and published on Chart 225 in 1869. This name was given because “a Russian vessel is said to have struck upon it.”

Russian Ridge: hill, see Lame Hill.

Russian Ridge: ridge, elev. 1500-1600 ft., 0.5 miles long, 2.5 miles NE of Lief Cove, west-central Kiska Island, Aleutian Islands; 51° 58' 30" N, 177° 22' 15" E; (map 14). One of many arbitrary names applied to features on Kiska Island by USAF for tactical purposes during World War II.

Russian River Rendezvous: locality, on Kenai Peninsula, 0.5 miles N of Lower Russian Lake and 36 miles SW of Hope, Chugach Mountains; 60° 27' 15" N, 149° 49' 00" W; (map 63). Roadhouse along Russian River Trail. Recent USGS maps indicate a site with one building.

Russian River: stream, heads at Upper Russian Lake, flows NW 13 miles to Kenai River, 34 miles SW of Hope, Chugach Mountains; 60° 29' 15" N, 150° 00' 00" W; (map 63). Local name reported in 1904 by Moffit (1906, pl. 2), USGS.

Russian River: stream, see Russian Creek.

Rust Creek: stream, flows SW 4.5 miles through Rust Lake to Sister Lake, 4 miles SE of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 38' 00" N, 135° 59' 45" W; BGN 1939; (map 9). Name given to creek in 1935 by local inhabitants; named for W. R. Rust who died in 1928, “who was one of the pioneers of the Chichagof Mine.”

Rust Lake: lake, 1 mile long, 4.5 miles E of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 39' N, 135° 58' W; (map 9). Name reported by G. H. Canfield (in Brooks and others, 1918, p. 154), USGS.

Rust Mountain: mountain, 2,360 ft., 6 miles NE of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 41' 30" N, 135° 56' 30" W; BGN 1939; (map 9). Named by local inhabitants in 1939 for W. R. Rust. See Rust Creek.

Rust Slough: stream, tributary of Drift River, flows SE 6 miles to Redoubt Bay, 30 miles W of Kenai, Cook Inlet Lowland; 60° 35' N, 152° 10' W; (map 62). Local name reported in 1958 by USGS.

Rustabach Lake: lake, 0.2 miles across, near SE coast of Chilkat Peninsula 1 mile S of Mud Bay and 22 miles S of Skagway, Coast Mountains; 59° 07' 50" N, 135° 20' 10" W; (map 45). Local name obtained by USGS field personnel and published on Federal maps since 1950.

Rusty Creek: stream, flows N 2.5 miles to White Creek, 68 miles SE of Healy, Alaska Range; 63° 11' 45" N, 147° 19' 10" W; (map 87). Local name reported in 1910 by D. C. Witherspoon, USGS.

Rusty Gold Creek: stream, flows N 3 miles to Kokomo Creek, 26 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 10' 45" N, 147° 14' 10" W; (map 105). Variant: Alder Creek.

Named by prospectors; reported in 1903 by T. G. Gerdine, USGS, to be Alder Creek; the present name was published in 1908 by USGS.

Rusty Hill: hill, 460 ft., 1.3 miles SE of Witchcraft Point, Kiska Island, Aleutian Islands; 52° 02' 12" N, 177° 31' 10" E; (map 14). An arbitrary name beginning with "R" to correspond to "R" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Rusty Hill: mountain, 4,300 ft., 2.3 miles NE of Denali and 67 miles SE of Healy, Alaska Range; 63° 12' 30" N, 147° 25' 50" W, (map 87). Descriptive name published in 1952 by USGS.

Rusty Mountain: mountain, 1,916 ft., on N shore of Tuxedni Bay, 58 miles SW of Kenai, Aleutian Range; 60° 14' N, 152° 48' W; (map 62). Local name reported in 1962 by USGS.

Ruth Amphitheater: basin, at head of Ruth Glacier, extends 7 miles between Explorers Peak and West Fork Ruth Glacier, 10 miles SE of Mount McKinley, Alaska Range; 63° 00' N, 150° 42' W; (maps 81, 88). Mountain climbers' name reported in 1954 by USGS.

Ruth Amphitheatre: basin, see Ruth Amphitheater.

Ruth Bay: bay, extends N 2 miles off Cordova Bay, on SW coast of Prince of Wales Island, W of Klakas Inlet, Alexander Archipelago; 54° 53' 40" N, 132-25' 30" W; (map 1). Local name published by USC&GS in 1911.

Ruth Creek: stream, flows NW 1 mile to Livengood Creek at Livengood, Yukon-Tanana Highlands; 65° 31' 30" N, 148° 32' 45" W; (map 105). Prospected and named by Jay Livengood: reported in 1915 by USGS (Brooks and others, 1916, pl. 9).

Ruth Cutoff: water passage, between SW coast of Prince of Wales and Klakas Islands, near W entrance to Klakas Inlet, Alexander Archipelago 54° 54' 20" N, 132° 24' 45" W; (map 1). Local name reported in 1951 by USGS derived from Ruth Bay.

Ruth Gap: gap, in ridge between heads of Southeast Fork Kahiltna Glacier and West Fork Ruth Glacier, 7 miles S of Denali Pass in Mount McKinley National Park, Alaska Range; 62° 59' 15" N, 151° 02' 40" W; (map 81). Name shown by Bradford Washburn on his Mount McKinley map published about 1960

Ruth Glacier: glacier, heads at Ruth Amphitheater, trends SE through The Great Gorge 31 miles to its terminus, 25 miles NW of Talkeetna, Alaska Range; 62° 39' N, 150° 25' W; (map 81). Variant: Big Glacier, Chulitna Glacier. Named in 1903 by F. A. Cook for his daughter. The Browne-Parker Expedition of 1910 referred to it as "Big Glacier."

Ruth Island: island, 3.7 miles long, in Thomas Bay, 14 miles NE of Petersburg, Coast Mountains; 56° 59' 45" N, 132° 50' 00" W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for charting purposes; name published in 1888 on USC&GS Chart 705.

Ruth Island: island, 400 ft. long, near mouth of Ruth Bay, on SW coast of Prince of Wales Island, Alexander Archipelago; 54° 53' 45" N, 132° 25' 30" W; (map 1). Local name reported in 1951 by USGS.

Ruth Island: island, 500 ft. across, in Ryus Bay, N coast of Duke Island, Alexander Archipelago; 54° 57' 45" N, 131° 24' 30" W; (map 2). Local name published in 1920 by USC&GS.

Ruth Lake: lake, 0.5 miles long, at head of Delta Creek, 16 miles NE of Petersburg, Coast Mountains; 56° 59' 25" N, 132° 44' 00" W; (map 6). Local name recorded in 1961 by USGS.

Ruth Lake: lake, 1,600 ft. long, 5 miles NE of junction of Chitina and Lakina Rivers and 18 miles W of McCarthy, Wrangell Mountains; BGN 1966; 61° 22' 03" N, 143° 26' 35" W; (map 67). Local name reported by USGS in 1966.

Ruth Lake: lake, 2,100 ft. long, E of The Alaska Railroad, SE of Willow, 36 miles N of Anchorage, Cook Inlet Lowland; 61° 44' 20" N, 150° 01' 30" W; (map 70). Local name reported in 1958 by USGS.

Ruth Lake: lake, 3.7 miles long, drains N into Becharof Lake, W of Kanatak Pass, on Alaska Peninsula, 47 miles E of Ugashik, Aleutian Range. 57° 35' N, 156° 07' W; (map 36). Local name reported in 1902 by J. L. McPherson of Iliamna; published by G. C. Martin (1921, pl. 10), USGS.

Ruth River: stream, heads in a lake in Tokosha Mountains and flows SE around terminus of Ruth Glacier, 13 miles to Tokositna River, 22 miles N)) of Talkeetna, Cook Inlet Lowland; 62° 37' 30" N, 150° 22' 10" W; (map 81). Mountain climbers name published in the late 1940's.

Rutkovsky: locality, see Afognak.

Rutland Island: barrier island, on Beaufort Sea coast in Plover Islands, Arctic Plain; (map 153). Name first appears on Brit. Adm. Chart 593 and may have been named by Comdr. R. Maguire, RN, in 1853. The island cannot now be identified.

Ryan Creek: stream, flows NE 3 miles to Riley Creek, 15 miles NE of Shungnak, Brooks Range; 67° 03' N, 156° 45' W; (map 126). Local name given by prospectors; reported by USGS in 1956.

Ryan Creek: stream, flows S 1.1 miles to Norton Sound, 19 miles E of Solomon, Seward Peninsula Highlands; 64° 35' N, 163° 48' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Ryan Creek: stream, flows SW to Cripple River, about 21 miles NW of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Ryan Creek: stream, see Bryan Creek.

Ryan Creek: stream, see Colorado Creek.

Ryan Creek: stream, see Eldorado Creek.

Ryan Gulch: ravine, trends SE 3 miles to Kougarok River 10 miles N of its junction with Kuzitrin River, 44 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 24' N, 164° 38' W; (map 110). Prospectors' name reported on the 1907 "Map of Seward Peninsula" by Arthur Gibson.

Ryan Lake: lake, 0.3 miles across, 2.7 miles SE of Unalakleet, Nulato Hills; 63° 50' 15" N, 160° 43' 30" W; (map 91). Local name reported in 1952 by USC&GS.

Ryan, Mount: mountain, 3,555 ft., 75 miles SW of Circle, Yukon-Tanana Highlands; 65° 14' 30" N, 146° 15' 00" W; (map 104). Named by prospectors; reported in 1903 by USGS (Prindle, 1905, pl. 13).

Rybna: locality, see Ribnaia.

Rybnyy, Mys: point of land, see Fish Point.

Rybya, Guba: bay, see Fish Bay.

Rychesnoi: village, see Nikolski.

Rye Creek: stream, flows W 6 miles to Flat Creek 4 miles SE of Mathews Dome and 35 miles W of Wiseman, Brooks Range; 67° 24' 50" N, 151° 25' 00" W; BGN 1932; (map 124). Local name reported by Robert Marshall in 1932.

Ryka Toukatl ili Tstsytseka-toyna: stream, see Ulukuk River.

Rynda Island: island, 3 miles long, in mouth of Stikine River, 7 miles NW of Wrangell, Alexander Archipelago; 56° 32' N, 132° 33' W; (map 6). Named in 1863 by surveyors from the Russian corvette Rynda for their ship in which they made surveys of Stikine River and vicinity under the command of Lt. Vladimir Basargin, IRN. The Russian Hydrog. Dept. published in 1867 a chart of the Stikine River as a result of this survey.

Rynda, Mount: mountain, 2,408 ft., on left bank of Stikine River, 12 miles NE of Wrangell, Coast Mountains 56° 39' 00" N, 132° 15' 30" W; (map 6). Named in 1877 by Joseph Hunter, Canadian engineer and surveyor, for Russian corvette Rynda which was used for surveying in this vicinity in 1863. See Rynda Island.

Ryus Bay: cove, 0.7 miles wide, S shore of Felice Strait, on N coast of Duke Island, Alexander Archipelago; 54° 58' N, 131° 25' W; BGN 1917; (map 2). Local name published in 1917 by USC&GS.

S

S Lake: lake, 1 mile long, 13 miles SW of Lake Louise and 28 miles NE of Tahneta Pass, Copper River Basin; 62° 15' 35" N, 147° 00' 00" W; BGN 1959; (map 82). Local descriptive name reported in 1958 by USGS.

S!aodan: locality, see Sumdum.

S';kanaxsa'ni: village, see Kake.

S'ikanakhse'ni: village, see Kake.

S. W. Twin: peak, see Southwest Twin.

Sa Posesion, Punta de: point of land, see Posesion, Punta de.

SA, Point: point of land, on SW coast of Kanaga Island, Aleutian Islands; 51° 40' 42" N, 177° 38' 10" W; (map 17). Name published in 1943 on an AMS map.

Sa-heen Cove: bay, see Sarheen Cove.

Sa-Kaa Cove: estuary, see Sarkar Cove.

Sa-koo-nowg River: stream, see Sakoonang Channel.

Saatkunak: locality, on coast between Qaaliq and Nulavik, 20 miles SW of Barrow, Arctic Plain; 71° 03' N, 157° 15' W; (map 153). Eskimo locality or camp name published by R. F. Spencer (1959, map 2).

Sabachey, Mys: point of land, see Dog Pointint.

Sabak, Cape: point of land, SE tip of Agattu Island, Aleutian Islands; 52° 21' 40" N, 173° 43' 30" E; BGN 1938; (map 13). Variant: Mys Sabakh, Dog Cape, Poluostrov Mys. This point was shown by Capt. Tebenkov (1852, map 30), IRN, as "Po[loustroy] Mys (M[ys] Sabakh)" meaning "Peninsula Cape (Dog Cape)."

Sabaka, Lake: lake, 0.6 miles long, on Kenai Peninsula NE of Dolly Varden Lake, 20 miles NE of Kenai, Cook Inlet Lowland; 60° 43' 15" N, 150° 45' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Sabakh, Mys: point of land, see Sabak, Cape.

Sabine, Cape: point of land, at mouth of Pitmegea River extends into Chukchi Sea, 39 miles NW of Mount Kelly, Arctic Slope; 68° 55' 00" N, 164° 36' 15" W; (map 130). Named in 1826 by Capt. Beechey (1831, chart facing p. 328), RN, for "his old mess-mate, the astronomer of the Ross and Parry expeditions * * *" (Stuck, 1920, p. 167).

Sable Mountain: mountain, 5,923 ft., 3.5 miles W of Cathedral Mountain and 30 miles SW of Healy, Alaska Range; 63° 34' 30" N, 149° 42' 30" W; (map 87). Local name shown on a 1916 fieldsheet by C. E. Giffin, USGS.

Sable Pass: pass, 3,880 ft., 1 mile W of Cathedral Mountain, 2 miles SE of Sable Mountain, and 30 miles SW of Healy, Alaska Range; 63° 33' 30" N, 149° 40' 00" W; (map 87). Named for the mountain northwest of it; reported in 1954 by USGS.

Sabonoski River: stream, see Savonoski River.

Saboomaygruck: mountain, see Sapumegrak Mountain.

Saboomick: mountain, see Sapumik, Mount.

Saboomim Koonga: stream, see Sapumik Creek.

Saboomim Nayacaw: mountain, see Sapumim Neakau Mountain.

Sabotnisky: locality, see Uglovaia.

Sacharowskaja: bay, see Zachary Bay.

Sachem Head: point of land, on W shore of Bay of Islands, 1 mile SE of Careful Point, Adak Island, Aleutian Island; 51° 48' 45" N, 176° 51' 10" W; BGN 1936; (map 17). Variant: Sachem's Head. Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

Sachem Island: island, 0.1 miles across, in Saginaw Bay, on N coast of Kuiu Island, Alexander Archipelago; 56° 53' 40" N, 134° 13' 50" W; (map 5). Named in 1892 by Lt. W. Island Moore, USN.

Sachem's Head: point of land, see Sachem Head.

Sachertelontin: locality, see Louden.

Sachlidok Island: island, see Sitkalidak Island.

Sachsaiya Glacier: glacier, see Saksaiya Glacier.

Sackdoor Creek: stream, flows SW to Bering Sea at York, about 15 miles SE of Cape Prince of Wales, Seward Peninsula Highlands; (map 111). Prospectors' name shown on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This feature cannot be precisely identified on current maps.

Sacramento River: stream, flows SE 6 miles to Gulf of Alaska, 19 miles SE of Kodiak, Kodiak Island; 57° 31' 00" N, 152° 17' 40" W; (map 34). Local name reported in 1949 by USGS.

Sacrocruk Creek: stream, see Sakrorak Creek.

Sacroeruk Mountain: hill, see Sakrorak Mountain.

Sadatanak Island: island, 1.5 miles long, off S coast of Atka Island, Aleutian Islands; 52° 02' 00" N, 174° 25' 30" W; (map 18). Aleut name published by Capt. Tebenkov (1852, map 27), IRN, as "O[strov] Sadatanak," or "Sadatanak Island."

Saddle Creek: stream, heads SE of East Peak on Ear Mountain, flows SE 1.5 miles to Crosby Creek near its head, Seward Peninsula Highlands; 65° 54' 30" N, 166° 09' 30" W; BGN 1954; (map 111). So named in 1945 by a USGS field party "because it rises in saddle south of East Peak,"

Saddle Mountain: mountain, 1,000 ft., 8 miles SE of Reindeer Lake and 22 miles SE of Holy Cross, Kilbuck-Kuskokwim Mountains; 62° 06' N, 159° 06' W; (map 78). Local descriptive name obtained in 1952 by USGS.

Saddle Mountain: mountain, 2,094 ft., 2.5 miles SE of Cape Kuliuk, on NW coast of Kodiak Island; 57° 47' 10" N, 153° 52' 00" W; (map 34). Descriptive name published in 1911 by USC&GS.

Saddle Mountain: mountain, 3,068 ft., on N part of Douglas Island, 0.4 miles NW of Table Top Mountain and 3.5 miles W of Juneau, Coast Mountains; 58° 17' 50" N, 134° 30' 30" W; (map 11). Local name published in 1962 by USGS.

Saddle Mountain: mountain, 3,253 ft., on S coast of Alaska Peninsula, 10 miles NE of entrance to Chinitna Bay and 47 miles NW of Homer, Aleutian Range; 59° 59' 45" N, 152° 45' 00" W; (map 50). Name taken from a USC&GS fieldsheet and reported by F. H. Moffit, USGS (in Brooks and others, 1920, pl. 2).

Saddle Peak: peak, 3,005 ft., on E coast of Kenai Peninsula, between Eshamy and Ewan Lakes, 12 miles NW of Chenega, Chugach Mountains; 60° 26' N, 148° 10' W; (map 63). Name published in 1943 by USC&GS.

Saddle Point: point of land, on NW coast of Great Sitkin Island, Aleutian Islands, 52° 06' 00" N, 176° 10' 30" W; BGN 1936; (map 17). Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934 "for its shape."

Saddle Point: point of land, on S shore of Orca Inlet, 1.5 miles SW of Cordova, Chugach Mountains; 60° 32' N, 145° 47' W; (map 64). Local name published in 1943 by USC&GS.

Saddle Rock: hill, see Bonanza Hill.

Saddlebag Glacier: glacier, trends S 5 miles to a lake, 1.5 miles E of Copper River, 28 miles NW of Katalla, Chugach Mountains; 60° 29' N, 145° 05' W; (map 64). Local name reported in 1912 by U. S. Grant and D. F. Higgins, USGS.

Saddleridge Point: point of land, on NW coast of Seguam Island, Aleutian Islands; 52° 21' N, 172° 34' W; (map 19). Descriptive name given by a special U.S. Navy survey party because of a "saddle in the ridge" leading to this point; published by USC&GS in 1944 Aleutian Coast Pilot (p. 86).

Saddlers Mistake: ridge, 1.5 miles long, connects two hilly sections of southern Nagai Island, in Shumagin Islands, Aleutian Range; 54° 56' 30" N, 160° 10' 45" W; (map 26). So named because a vessel attempted at night to pass between the adjacent hilly sections of the island; published in 1916 Coast Pilot (p. 172) by USC&GS.

Sadie Cove: cove, 0.7 miles wide, on SE shore of Kachemak Bay, on Kenai Peninsula 10 miles NE of Seldovia, Chugach Mountains; 59° 30' 30" N, 151° 28' 00" W; (map 50). Named by W. H. Dall, USC&GS, in 1880, for Sarah [Sadie] Eldred, wife of Marcus Baker.

Sadie Lake: lake, 1 mile long, 1 mile N of Baranof on E coast of Baranof Island, Alexander Archipelago; 57° 06' 00" N, 134° 50' 30" W; (map 9). Variant: McBlaine Lake. Local name reported in 1948 by USGS.

Sadlerochit Mountains: mountain range, 4,000 ft., 45 miles long and 4 miles wide, trends E-W between Canning and Sadlerochit Rivers, 26 miles NW of Mount Michelson, Brooks Range; 69° 37' N, 145° 12' W; BGN 1961; (map 139). Variant: Sagligochit Mountains. Leffingwell (1919, p. 50, 51) wrote: "The outer two of the three outlying ranges south of Camden Bay have been given separate names * * * The Sadlerochit Mountains are the northernmost."

Sadlerochit River: stream, heads in Franklin Mountains at 69° 15' N, 145° 21' W, and flows NE and N 75 miles to Camden Bay, Arctic Plain; 70° 03' 30" N, 144° 26' 00" W; BGN 1961; (map 151). Variant: Barter River, Saligochit River, Shudtaroshik River. Eskimo name reported in 1912 by Leffingwell (1919, p. 99) to mean "area outside of the mountains." Probably the same as Marsh's Barter River. It appears on Surg. John Simpson's native map, 1855, as "Shud-ta-ro-shik."

Sadlerochit Spring: spring, on W bank of Sadlerochit River, 12 miles E of Mount Weller and 25 miles N of Mount Michelson, Brooks Range; 69° 40' N, 144° 24' W; BGN 1961; (map 139). Leffingwell surveyed and reported the Eskimo name "Sadlerochit River," and it is probable that he also named this spring, which was first reported by the Canadian Arctic Expedition, 1913-14.

Sadlerochit Valley: valley, extends 25 miles NE of Lake Peters, at E end of Third Range, in Shublik Mountains and Sadlerochit Mountains, Brooks Range; 69° 30' N, 144° 51' W; (map 139). Leffingwell does not list this as a geographic name but wrote (1919, p. 135) "the most favorable path for the granite to have followed to the Sadlerochit Valley is through the pass mentioned."

Sadliok Island: island, see Sitkalidak Island.

Safari Creek: stream, flows NNW 18 miles to Kuna River, 23 miles NNE of Feniak Lake, Brooks Range; 68° 34' N, 157° 54' W; (map 132). Named in 1951 by B. H. Kent and Island L. Tailleur, USGS, "for a spike [reconnaissance] trip to stream."

Safety Cove: cove, 0.7 miles across, on E coast of Resurrection Peninsula, 13 miles SE of Seward, Chugach Mountains; 59° 59' N, 148° 13' W; (map 49) Local name reported in 1909 by U. S. Grant and D. F. Higgins, USGS.

Safety Rock: rock, 400 ft. long, between Moira Sound and Niblack Anchorage, on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 03' 35" N, 132° 05' 05" W; (map 4). Named in 1885 by Lt. Comdr. R. Clover, USN.

Safety Sound: lagoon, extends NE-SW 9 miles along Norton Sound, 10 miles SW of Solomon, Seward Peninsula Highlands; 64° 29' N, 164° 45' W; (map 95). Variant: Port Safety. Surveyed and named "Port Safety" in 1899 by USC&GS.

Safety, Port: lagoon, see Safety Sound.

Safety: locality, see Port Safety.

Safftan, Mount: mountain, 2,009 ft., between Chapin and Herring Bays, on S coast of Admiralty Island, 26 miles SE of Angoon, Alexander Archipelago; 57° 08' 30" N, 134° 21' 20" W; (map 9). Local name reported in 1948 by USGS.

Sagak, Cape: point of land, SW tip of Umnak Island, Aleutian Islands; 52° 49' 25" N, 169° 07' 00" W; (map 21). Variant: Sigak, Mys Sagakh. Aleut name reported by Capt. Lutke (1836, p. 298), IRN, as "Sigak," probably from the Aleut "sagaq," which, according to R. H. Geoghegan, means "sleep." This point was published by Capt. Tebenkov (1852, map 25), IRN, as "M[ys] Sagakh," or "Cape Sagakh."

Sagakh, Mys: point of land, see Sagak, Cape.

Sagavanirktok Lake: lake, see Elusive Lake.

Sagavanirktok Lake: lake, see Galbraith Lake.

Sagavanirktok River Delta: delta, 13 miles across cut by several distributaries, on Beaufort Sea coast, between Foggy Island and Prudhoe Bays, Arctic Plain; 70° 17' N, 148° 10' W; (map 150) Name published by AMS in 1962.

Sagavanirktok River: stream, heads between Endicott and Philip Smith Mountains at 68° 10, 149° 04' W, flows N 180 miles to Beaufort Sea Arctic Plain; 70° 18' 30" N, 147° 52' 30" W; (Main Channel mouth); BGN 1959, (map 150). Variant: Ivishak River, Sagvaniktuuk River, Sakovanuktok River, Sawanukto River, Shagavanuktok River, Sharavanaktok River, Suwanukto River. Eskimo name "Sawanukto" reported in 1901 by S. J. Marsh, prospector, to mean "strong current" (Brooks, 1906, p. 289) Leffingwell (1919, p. 99) referring to variant spellings, states, "The writer prefers Shagavanoktok."

Sagavanirktok River: stream, see Ivishak River.

Sagavanirktok River: stream, see Ribdon River.

Sagchudak Island: island, 1.3 miles across, off Kobakof Bay, on S coast of Atka Island, Aleutian Islands; 52° 01' N, 174° 29' W; (map 18). Variant: Sagtchudakh. Aleut name published by Capt. Tebenkov (1852, map 27), IRN, as "O[strov] Sagchudak," or "Sagchudak Island."

Saghadellautin: locality, see Louden.

Sagigik Island: island, 0.2 miles across, in Pacific Ocean, 5 miles S of Amlia Island, Andreanof Islands, Aleutian Islands; 52° 00' N, 173° 09' W; (map 19). Aleut name published by Capt. Tebenkov; (1852, map 27), IRN, possibly from the Aleut "sagik" which, according to R. H. Geoghegan, means "anything having a sharp edge." The name Sagik was published by Father Veniaminov (1846, dictionary) meaning "point, sharp edge."

Saginaw Bay: bay, 1.8 miles across, on N coast of Kuiu Island, Alexander Archipelago; 56° 55' N, 134° 16' W; (map 5) Named in 1869 by Comdr. R. W. Meade, USN, for charting purposes, for his ship, the U.S.S. Saginaw.

Saginaw Channel: water passage, 9.5 miles long. trends NW from Stephens Passage to Lynn Canal, W of Shelter Island, 18 miles NW of Juneau. Alexander Archipelago; 58° 24' N, 134° 53' W; (map 11). Named in 1869 by Comdr. R. W. Meade, USN, for the U.S.S. Saginaw, the first known warship to pass through the channel.

Saginaw Creek: stream, flows NE 4.5 miles to Saginaw Bay on N coast of Kuiu Island, Alexander Archipelago; 56° 50' 30" N, 134° 09' 10" W; (map 5) Local name recorded in 1948 by USGS.

Saginaw Point: point of land, on E shore of Kootznahoo Roads, in Chatham Strait, 2 miles S of Angoon, on Admiralty Island, Alexander Archipelago; 57° 28' 40" N, 134° 34' 30" W; (map 9). Named in 1869 by Comdr. R. W. Meade, USN, for the U.S.S. Saginaw which he commanded in 1868-69 while mapping this area. The name was published in 1869 on Hydrog. Chart 225. The name is not shown on recent maps.

Sagligochit Mountains: mountain range, see Sadlerochit Mountains.

Sagtchudakh: island, see Sagchudak Island.

Sagvailak River: stream, see Sakvailak River.

Sagvailuk River: stream, see Awuna River.

Sagvaniktuuk River: stream, see Sagavanirktok River.

Sahligvik Creek: stream, see Saligvik Creek.

Sahligvik Ridge: ridge, see Saligvik Ridge.

Sahligvik Valley: valley, see Saligvik Valley.

Sahlin Creek: stream, flows SE 1 mile to Sheep Bay, 13 miles NW of Cordova, Chugach Mountains; 60° 41' 40" N, 145° 57' 50" W; BGN 1933; (map 64). Local name reported in 1933 by USFS as being named for Julius Sahlin who erected a sawmill at the mouth of this creek about 1918.

Sahlin Falls: waterfall, in Sahlin Creek, 600 ft. from its mouth at Sheep Bay, 13 miles NW of Cordova, Chugach Mountains; 60° 41' 40" N, 145° 56' 00" W; BGN 1933; (map 64). Local name reported in 1933 by USFS and derived from Sahlin Creek, on which the falls are located.

Sahlin Lagoon: lagoon, 0.7 miles wide, at N end of Sheep Bay 13 miles NW of Cordova Chugach Mountains; 60° 40' 30" N, 145° 54' 30" W; (map 64) Local name reported in 1933 by USFS. See Sahlin Creek.

Sahlin Lake: lake, 0.5 miles long, 1 mile NW of Sheep Bay, 14 miles NW of Cordova, Chugach Mountains; 60° 42' 30" N, 145° 58' 30" W; BGN 1933; (map 64). Local name reported in 1933 by USFS and derived from nearby Sahlin Creek.

Sahot Lake: lake, 0.5 miles long, on Kenai Peninsula, 0.4 miles W of Fire Lake and 25 miles SE of Kenai, Cook Inlet Lowland; 60° 26' 15" N, 150° 34' 15" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Sai-uk-stchu-schluk: bay, see Silver Horn.

Saik-took: stream, see Saitut Creek.

Sail Island: island, 0.6 miles across, in Stephens Passage, 5 miles NE of The Brothers and 66 miles E of Sitka, Alexander Archipelago; 57° 20' 50" N, 133° 43' 10" W; BGN 1900; (map 8). Variant: Ship Island. Named "Ship Island" by Lt. Comdr. R. W. Meade, USN, and published in 1869 on Hydrog. Chart 225. The name, "Sail Island," was published by USC&GS in 1891 Coast Pilot (p. 143).

Sailor Gulch: ravine, extends 1 mile E of Crooked Creek, 7 miles NNE of Tahnetta Pass and 65 miles NE of Palmer, Talkeetna Mountains; 61° 59' 10" N, 147° 17' 35" W; BGN 1960; (map 69). Local name reported in 1956 by USGS; used in placer notices prior to this date.

Saina: locality, see Tsina Station.

Saint Abraham Island: island, see Agattu Island.

Saint Abraham Island: island, see Attu Island.

Saint Abraham: island, see Shemya Island.

Saint Abram: island, see Shemya Island.

Saint Agnes, Mount: mountain, see Marcus Baker, Mount.

Saint Albans, Point: point of land, 8 miles NE of Cape Decision, on S coast of Kuiu Island, Alexander Archipelago; 56° 05' 00" N, 133° 59' 30" W; (map 6). Named in September, 1793, by Capt. George Vancouver, RN (Wagner, 1937, p. 406).

Saint Amand Creek: stream, flows 1.5 miles SE to Kuyukutuk River, 12.5 miles NW of Russian Mission, Nulato Hills; 61° 48' 40" N, 161° 40' 10" W; (map 73). Prospectors' name

reported by Harrington (1918, map), USGS, in 1916; “possibly named for Cyrias Saint Amand, or his brother.”

Saint Andrean, Islands of: islands, see Andreanof Islands.

Saint Anne Creek: stream, heads in St. Anne Lake, flows SSE 8 miles to Klutina Lake, 2.6 miles ENE of Powell Peak and 44 miles N of Valdez, Chugach Mountains; 61° 44' 15" N, 145° 57' 45" W; (map 68). Local name published in 1932 by USGS.

Saint Anne Lake: lake, 5.8 miles long, extends N-S at head of St. Anne Creek, 50 miles N of Valdez, Chugach Mountains; 61° 49' 45" N, 146° 03' 10" W; (map 68). Local name published in 1932 by USGS.

Saint Anthony Pass: pass, 5,130 ft, near head of McCumber Creek, 29 miles SE of Delta Junction; Alaska Range; 63° 39' N, 145° 22' W; BGN 1937; (map 86). Local name reported in 1937 by USGS.

Saint Augustin, Mount: island, see Augustine Island.

Saint Augustin, Mount: mountain, see Augustine Volcano.

Saint Augustine Bay: estuary, see Augustine Bay.

Saint Augustine Island: island, see Augustine Island.

Saint Augustine, Cape: point of land, see Augustine, Cape.

Saint Augustine, Mount: mountain, see Augustine Volcano.

Saint Barnabas, Cape: point of land, see Barnabas Cape.

Saint Bartolom, Cape: point of land, see Bartolome, Cape.

Saint Boniface, Point: point of land, on E coast of Baker Island, in Port San Antonio, Alexander Archipelago; 55° 20' 25" N, 133° 34' 30" W; (map 4). Variant: Mys San Bonifacio, Punta de San Bonifacio. Translation of the name “Punta de San Bonifacio” given by Bodega y Quadra and Francisco Antonio Maurelle, “probably on May 18 [1779] in honor of the saint whose day is May 14 * * *” (Wagner, 1937, p. 406).

Saint Catherine Cove: cove, 2.5 miles across, NE part of Bechevin Bay, 12 miles NW of False Pass, on NE coast of Unimak Island, Aleutian Islands; 55° 01' N, 163° 30' W; (map 29). Named by W. H. Dall, USC&GS, in 1882 for Capt. Lt. P. K. Krenitzin's vessel, the galiot St. Catherine, in which Dall spent the winter of 1768-69 in Isanotski Strait (Coxe, 1787, p. 208).

Saint Charles Creek: stream, flows NW 3 miles to Totatlanika River, 40 miles SE of Nenana, Alaska Range; 64° 02' 30" N, 148° 30' 45" W (map 100). Local name reported in 1910 by USGS (Capps, 1912, pl. 1).

Saint Demetrius Islands: islands, see Diomedes Islands.

Saint Demoid Islands: islands, see Diomede Islands.

Saint Dimitre Islands: islands, see Diomede Islands.

Saint Diomed Islands: islands, see Diomede Islands.

Saint Diomedede Islands: islands, see Diomedede Islands.

Saint Dolmat: mountain, see Fourpeaked Mountain.

Saint Elias Alps: mountain range, see Saint Elias Mountains.

Saint Elias Island: island, see Kayak Island.

Saint Elias Mountains: mountain range, 300 miles long and 90 miles wide, extends NW along Alaska-Canada boundary from Cross Sound, Icy Strait, and Lynn Canal on SE to Bering Glacier, Tana Glacier, Tana River, Chitistone River, and White River on NW; 58° 15' N, 135° 00' W [SE end], 61° 00' N, 142° 30' W [NW end]; BGN 1944. Variant: Saint Elias Alps, Saint Elias Range. In 1870, Dall (p. 286) wrote: "The Coast or St. Elias Range contains the highest peaks and most of the volcanoes. It extends along the whole northwest coast from California to the peninsula of Alaska." On an 1880 Census map, Ivan Petroff applied the name "St. Elias Alps" to the mountains between the Copper River and Mount Fairweather. Subsequent maps have restricted the application of the name to the above described mountains.

Saint Elias Range: mountain range, see Saint Elias Mountains.

Saint Elias, Cape: point of land, on SW end of Kayak Island, 65 miles SE of Cordova, Malaspina Coastal Plain; 59° 54' N, 144° 36' W; BGN 1944; (map 48). Variant: Cabo Espanol, Hamond Point, Mys Gamon, Punta de Canas, Punta de Navia, Punta Espanol, Punta Santa Rosa. Named by Vitus Bering on July 20, 1741 (O.S.), for the saint whose day it was. This feature was also called "Santa Rosa" in 1779 by Don Ignacio Arteaga; "Españo" in 1791 by Capt. Alessandro Malaspina, "Punta de Canas," meaning "point of reeds," in 1796, by T. M. Lopez. Capt. George Vancouver RN, named it "Hamond Point" in 1794 for Sir Andrew Snape Hamond (Wagner, 1937, p. 406). See also Espanol, Cabo.

Saint Elias, Cape: point of land, see Manby Point.

Saint Elias, Cape: point of land, see Sitkagi, Cape.

Saint Elias, Mount: mountain, 18,008 ft., on the Alaska-Canada boundary 67 miles NW of Yakutat, St. Elias Mountains; 60° 17' 40" N, 140° 55' 30" W; BGN 1917; (map 66). Variant: Boundary Peak 186, Mont Saint Elie, Yahtse-tah-shah. The sighting of Mount Saint Elias on July 16, 1741 (O.S.), by Vitus Bering on the Saint Peter represents the "official" discovery of northwestern America by the Russians. Although many authorities give Bering credit for naming the mountain, it appears more likely that the name was borrowed from Cape Saint Elias by eighteenth century map makers and applied to the "high volcano" left unnamed by its discoverer. The first ascent of the mountain was made July 31, 1897, by His Royal Highness,

Prince Luigi Amedeo di Savoia, Duke of the Abruzzi and his party. See Farquhar (1959, p. 229, 230). According to H. W. Topham, in 1888, its Tlingit Indian name was "Yahtse-tah-shah."

Saint Elizabeth, Cape: point of land, see Elizabeth, Cape.

Saint Etienne Island: island, see Agattu Island.

Saint Etienne Island: island, see Attu Island.

Saint Felix Point: point of land, see Felix, Cape.

Saint George Creek: stream, flows N 22 miles to Wood River, 36 miles SW of Fairbanks, Tanana Lowland; 64° 21' 40" N, 148° 05' 45" W; (map 100). Variant: Saint Gorge Creek. Local name shown as Saint Gorge Creek, which flows into Fish Creek, on an ARC manuscript map by Arnt Greve in 1909.

Saint George Island: island, 12 miles long, one of Pribilof Islands, Aleutian Islands; 56° 35' N, 169° 35' W; (map 38). Variant: George Island Ostrov Georgiya. Discovered and named by G. G. Pribilov in June, 1786, after his vessel the Sveti Georgiy. See Pribilof Islands and St. Paul Island.

Saint George Rock: rock, 0.7 miles NE of Spruce Cape, 5 miles NE of Kodiak, Kodiak Island; 57° 50' 15" N, 152° 18' 35" W; (map 34). Name published in 1881 by USC&GS on Chart 776.

Saint George: village, pop. 264, on N coast of St. George Island, Pribilof Islands; 56° 36' 00" N, 169° 32' 30" W; (map 38). Local name for the present village on the island. According to Elliott (1881, p. 19) the first settlement on St. George Island was in 1786, located on the north coast, at Staraya Artil, about 5 miles west of the present location. A short time later a village was established at Zapadni Bay on the southwest coast of the island. In the 1880 Census Petroff (1884, p. 23) listed "Saint George," population 88. population 92 in 1890.

Saint Gertruda, Point: point of land, see Santa Gertrudis, Point.

Saint Gertrude Point: point of land, see Santa Gertrudis, Point.

Saint Gorge Creek: stream, see Saint George Creek.

Saint Hermogenes Island: island, see Marmot Island.

Saint Hermogenes, Cape: point of land, on NE coast of Marmot Island, N of Kodiak Island; 58° 15' 00" N, 151° 47' 30" W; (map 43). Variant: Cape Germogena. Named by Capt. Cook (1785, v. 2, p. 383), RN, on May 24, 1778, because he thought this was the same feature previously named by Vitus Bering. Cook says "and by what I can gather from the account of Beering's [sic] voyage, and the chart that accompanies it in the English edition, I conclude, that it must be what he called Cape St. Hermogenes * * *." Wagner (1937, p. 406) says "a name given by * * * Bering July 26, 1741, to a place concerning the location of which there has been much discussion * * *. This was undoubtedly the north point of Marmot Island [Cook's location] * * * although it is now, I believe, erroneously applied to the eastern point of

the island * * *." The name was published by Capt. Tebenkov (1852, map 22), RN, as "M[ys] Germogena," or "Cape Germogena."

Saint Hyacinth: island, see Kruzof Island.

Saint Hyacinthe, Mount: volcano, see Edgecumbe, Mount.

Saint Ignace Island: island, 3.2 miles long, between Port Mayoral and Ursua Channel, off NE coast of Baker Island, Alexander Archipelago; 55° 24' N, 133° 26' W; (map 4). Variant: Ignatio Island, Isla San Ignacio, Ostrov San Ignatsa, Ysla de San Ygnacio. Translation of the name "Isle San Ignacio" given "about May 22, 1779," by Francisco Antonio Maurelle (Wagner, 1937, p. 501).

Saint Isidor, Point: point of land, W tip of Lulu Island, Alexander Archipelago; 55° 27' N, 133° 37' W; (map 4). Variant: Mys San Izidor, Punta de San Isodoro, Punta de San Ysidoro. Translation of the name "Punta de San Isodoro" given by Francisco Antonio Maurelle "about May 23, 1779, perhaps after San Isidro Labrador whose day is May 15" (Wagner, 1937, p. 501).

Saint Jacinto: island, see Kruzof Island.

Saint Jacob: island, see Jacob Island.

Saint James Bay: bay, 2 miles across, extends NW from Lynn Canal, at Point Whidbey, 34 miles NW of Juneau, St. Elias Mountains; 58° 34' 30" N, 135° 09' 30" W; (map 11). Named by USC&GS and published in 1889 on Chart 701.

Saint James Episcopal Mission: locality, see Tanana.

Saint James Mission: locality, see Tanana.

Saint James Point: point of land, on W shore of Lynn Canal, at entrance to St. James Bay, 1.4 miles SW of Point Whidbey and 32 miles NW of Juneau, St. Elias Mountains; 58° 33' 45" N, 135° 09' 45" W; (map 11). Name published in 1948 by USGS.

Saint Joe Creek: stream, flows SW 18 miles to Yukon River, 11 miles SW of Blackburn Island and 55 miles SE of Unalakleet, Innoko Lowland; 63° 14' N, 159° 42' W; (map 91). Local name reported in 1949 by USC&GS.

Saint John Baptist Bay: bay, 0.5 miles across empties into Neva Strait, on NW coast of Baranof Island, Alexander Archipelago; 57° 17' 30" N, 135° 35' 30" W; (map 9). Variant: Baptist Bay, Saint Johns Bay, Zaliv Svataya Ioanna Predtechi. This is a translation by USC&GS about 1882 of the name given by the Russian pilot Ens. Vasiliev; published in 1848 on Russian Hydrog. Dept. Chart 1397 as "Zaliv Svataya Ioanna Predtechi."

Saint John Harbor: bay, extends N 2 miles to Sumner Strait, on NW coast of Zarembo Island, Alexander Archipelago; 56° 27' 00" N, 132° 57' 30" W; (map 6). Named by W. H. Dall, USC&GS, published in 1883 Coast Pilot.

Saint John, Cape: point of land, see Kupreanof Point.

Saint John, Mount: mountain; "on one of the Aleutian Islands, discovered and named [in 1841] by Vitus Bering" (Wagner, 1937, p. 493).

Saint John, Point: point of land, on NW coast of Zarembo Island, Alexander Archipelago; 56° 25' 30" N 133° 00' 30" W; (map 6). Named in August, 1793, by Capt. George Vancouver, RN (Wagner, 1937, p. 407).

Saint Johns Bay: bay, see Saint John Baptist Bay.

Saint Johns Hill: hill, see Cross Hill.

Saint Johns Hill: mountain, 2,180 ft., W of Sheep Creek, 1.5 miles S. of Farewell Airport and 64 miles SE of McGrath, Alaska Range, 69° 28' 45" N, 153° 52' 40" W; (map 80). Local name obtained in 1958 by USGS.

Saint Joseph Island: island, 2 miles long, in Iphigenia Bay, 1.7 miles N of Noyes Island, Alexander Archipelago; 55° 36' N, 133° 43' W; (map 4). Variant: Isla de San Josep, Isla San Joseph, Ostrov San Goze, Ysla de San Josep. Translation of the name "Isle de San Josep given "about May 23, 1779," by Francisco Antonio Maurelle (Wagner, 1937, p. 409).

Saint Laurence Island: island, see Saint Lawrence Island.

Saint Lawrence Island: island, 95 miles long and 25 miles wide in the Bering Sea, 130 miles SW of Nome; 63° 30' N, 170° 30' W; BGN 1951: (map 93). Variant: Anderson Island, Chebukak Island, Clerkes Island, Eivoogiena Island Eivugen Island, E-oo-vogen Island, Ostrova Sind, Ostrov Sinde, Saint Laurence Island, Tschibocki Island. Discovered by Vitus Bering on Saint Lawrence day, August 10, 1728 (O.S.), and named by him, "Saint Lawrence." Baker (1906, p 542) noted: "G. F. Muller (Voyages, 1761) says: 'They heard of an island which was said to lie somewhat farther, at no great distance from the continent; to this they gave the name of Saint Lawrence, on account of its being the 10th of August, that saint's day, when they passed by it, without observing anything upon it besides cottages of fishermen'." It was also called "Sind" on early Russian charts, for Lt. Sind [cnna], who passed somewhere near it in 1766. Capt. James Cook, RN, passed east of this island in 1778 and west of it in 1779. Its eastern end he named "Anderson Island" for Dr. William Anderson, surgeon on H.M.S. Discovery, believing it to be a separate island Later, according to Capt. F. W. Beechey, Cook found that it was part of what the Russians called Saint Lawrence Island, but died before the correction was made in his published account. Cook named the main body of the island, "Clerkes Island" for Capt. Charles Clerke of the Discovery, and its western end, which he shows as another separate island, he calls "Saint Laurence" and "Saint Lawrence," taking the name from Bering. According to Commodore Joseph Billings, the Chukchi natives of Siberia call this island "E-oo-vogent" which he spells on his chart "Eivoogiena." He also gives the variant names "clerke, and "Since." G. A. Sarichev, who accompanied Billings in 1791-92 shows "Saint Lawrence" or "Eivugen." Lt. Otto von Kotzebue gave the island's Eskimo name as "Tschibocki," a name now preserved as "Chibukak Point."

Saint Lazaria Islands: islands, in Sitka Sound, 1.5 miles S. of Kruzof Island and 15 miles SW of Sitka, Alexander Archipelago; 56° 59' 15" N, 135° 42' 00" W; (map 5). Variant: Cape Island,

Muisofski Island, Ostrov Mysovskoy, Ostrov Svataya Lazarya, Robin Island. Named in 1809 by the Russian navigator Ivan Vasiliev the first, IRN. It was published by Lt. Sarichev (1826, map 19), IRN, as "Os[trov] Sv[ataya] Lazarya," or "Saint Lazarus Island", he also called it "Os[trov] Mysovskoy," meaning "Cape Island." In 1787, Capt. George Dixon, called it "Robin Island."

Saint Lazaria, Cape: point of lead, see Edgecumbe, Cape.

Saint Lazaria, Mount: volcano, see Edgecumbe, Mount.

Saint Lazarius, Cape: point of land, see Edgecumbe, Cape.

Saint Lazaro, Mount: mountain, see Lazaro, Mount.

Saint Leonard Point: point of land, see San Leonardo, Point.

Saint Louis Creek: stream, flows E to Anikovik River, about 15 miles E of Cape Prince of Wales, Seward Peninsula Highlands; (map 111). Prospectors' name shown in the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This feature cannot be precisely identified on current maps.

Saint Louis Creek: stream, flows SE 6 miles to Allen River, 5 miles NW of SIRR Mountain and 46 miles NW of Wiseman, Brooks Range; 67° 37' 00" N, 151' 36' 45" W; BGN 1932; (map 124). A local name reported by Robert Marshall in 1932.

Saint Makarius Bay: bay, see Makarius Bay.

Saint Makarius Point: point of land, on SE coast of Amchitka Island, Aleutian Islands, 51° 22' 00" N 179° 12' 30" E; BGN 1937; (map 15). Named by personnel of the U.S.S. Oglala in 1935, based on the belief that Amchitka was the island seen October 25, 1741 (O.S.) by Vitus Bering and named by him St. Makarius (St. Markiana). See Amchitka Island.

Saint Makarius: island, see Amchitka Island.

Saint Makarius: island, see Kiska Island.

Saint Markiana: island, see Amchitka Island.

Saint Markiana: island, see Kiska Island.

Saint Marks Indian Mission: village, see Nenana.

Saint Mary, Point: point of land, on E shore of Lynn Canal, at N entrance to Berners Bay, 1 mile N of Point Bridget and 37 miles NW of Juneau, Coast Mountains; 58° 44' 00" N, 135° 01' 15" W; (map 11). Discovered about July 17, 1794, by Joseph Whidbey, RN, and named by Capt. George Vancouver, probably for Saint Mary Wiggenshall, birthplace of his mother (Wagner, 1937, p. 407).

Saint Marys: village, see Andreafsky.

Saint Matthew Bay: bay, see Saint Matthews Bay.

Saint Matthew Island: island, 35 miles long, 4 miles wide, high elevation of about 1,500 ft., in Bering Sea, 162 miles SW of Nome; 60° 24' N, 172° 42' W; (map 56). Variant: Choris Island, Gores Island, Ile Saint Matthieu, Island Apostle Matthei, Matwi Island, Ostrov Svyataya Matvyya, Saint Matwey Island. According to the Rev. Coxe (1787, map facing p. 223) this island was discovered and named by Lt. Sind (Sync) in August 1766. Coxe's map showed it as "I. Apost. Matthei" which is probably a translation from the Russian meaning "Island [of the] Apostle Matthew" probably implying the island was sighted on or near St. Matthew's day. Capt. Cook (1785, p. 491), RN, found the island September 23, 1778 and erroneously thought "it was wholly unknown to the Russians; and therefore, considering it as a discovery of our own, I named it Gore's Island," for Lt. John Gore, RN, of his party. The later Russian maps, however, continued calling it O[strov] Sv[yataya] Matvyya (Sarichev, 1826, map 3, Tebenkov, 1852, map 3) which has been translated into English in its present form.

Saint Matthews Bay: bay, 1.5 miles wide, on N shore of Port Gravina, 25 miles NW of Cordova, Chugach Mountains; 60° 44' N, 146° 20' W; BGN 1933; (map 64). Variant: St. Matthew Bay. A 1914 USGS reconnaissance map shows the bay as St. Matthew Bay.

Saint Matthieu, Ile: island, see Saint Matthew Island.

Saint Matwey Island: island, see Saint Matthew Island.

Saint Michael Bay: bay, 2 miles across, on E side of St. Michael Island, in Norton Sound, Yukon-Kuskokwim Delta; 63° 27' N, 162° 00' W; (map 92). Variant: Tebenkof Bay, Zaliv Tebenkova. This feature was originally named in 1836 by Capt. F. P. Lutke, IRN, for Capt. Michael Dmitrievich Tebenkov, IRN, who discovered it in 1831. The name was later changed to "Saint Michael," probably in the 1880's by USC&GS.

Saint Michael Canal: watercourse, extends W 17 miles from St. Michael Bay to Norton Sound, 4.2 miles SW of St. Michael, Yukon-Kuskokwim Delta; 63° 26' N, 162° 08' W; (map 92). Variant: Big Saint Michael Canal, South Branch Big Saint Michael Canal. Local name reported in 1898 by USC&GS.

Saint Michael Creek: stream, see North Fork Snake River.

Saint Michael Island: island, 10 miles long, on Norton Sound, separated from mainland by North Branch Big St. Michael Canal, 40 miles SW of Unalakleet, Yukon-Kuskokwim Delta; 63° 28' N, 162° 10' W; BGN Sixth Report; (map 92). Variant: Michaelovski Island, Ostrov Mikhaila, Saint Michaels Island. Name reported in 1842-44 by Lt. L. A. Zagoskin, IRN, as "Ostrov Mikhaila," or "Mikhail Island." See Saint Michael, village.

Saint Michael Mountain: hill, 450 ft., on St. Michael Island, 4 miles W of St. Michael, Yukon-Kuskokwim Delta; 63° 28' N, 162° 10' W; (map 92). Local name reported in 1898 by USC&GS.

Saint Michael: village, pop. 205, on E coast of St. Michael Island in Norton Sound, 43 miles SW of Unalakleet, Yukon-Kuskokwim Delta; 63° 29' N, 162° 02' W; (map 92). Variant: Fort

Saint Michael, Michaelovski, Redoubt Saint Michael, Saint Michaels. About 1833 the Russians established a stockaded post, which, "according to (Lt. L. A.) Zagoskin, (IRN), was named after Capt. Michael Dmitrievich Tebenkov, afterwards governor of the Russian-American colony." (Baker, 1906, p. 543). At an early date the name was changed to "Michaelovski," or "Redoubt Saint Michael." The population, 109 in 1880, was predominantly Eskimo, and included the village of Techek. In 1890 the population was 101 (in 14 houses); in 1910, 450; in 1920, 371; in 1930, 147; in 1940, 142; and in 1950, 157. The Saint Michael post office and an American military post, called "Fort Saint Michael," were established in 1897, following the Klondike gold strike and the subsequent increased Yukon River traffic, most of which originated at Saint Michael. The fort was abandoned in 1922. See Techek.

Saint Michaels Creek: stream, flows NW 4.7 miles to Osborn Creek, 7 miles NE of Nome, Seward Peninsula Highlands; 64° 32' 40" N, 165° 09' 55" W; (map 94). Variant: Jessie Creek. Prospectors' name published on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Saint Michaels Island: island, see Saint Michael Island.

Saint Michaels: village, see Saint Michael.

Saint Mitrofanía Island: island, see Mitrofanía Island.

Saint Mitrophan: island, see Mitrofanía Island.

Saint Nicholas Channel: water passage, extends 9 miles S, off Gulf of Esquibel, between Lulu and Noyes Islands, Alexander Archipelago; 55° 26' N, 133° 40' W; (map 4). Variant: Canal de San Nicolas, Kanal de San Nikola, San Nicholas Canal, San Nicholas Channel, San Nicolas Channel, San Nicolo Channel. Translation of the name "Canal de San Nicolas" given "about May 22, 1779," by Francisco Antonio Maurelle (Wagner, 1937, p. 412).

Saint Nicholas Fort De Pawlofsk: village, see Kenai.

Saint Nicholas Point: point of land, SE tip of Noyes Island, Alexander Archipelago; 55° 26' 20" N, 133° 40' 00" W; BGN 1923; (map 4). Variant: Nicolo Point, Punta de Santa Theresa, San Nicolao Point, San Nicolo Point. Named "Punta de Santa Theresa" by Francisco Antonio Maurelle "probably on that saint's day May 19, 1779" (Wagner, 1937, p. 513). Renamed in 1923 by USC&GS; derived from Saint Nicholas Channel.

Saint Nicholas, Lake: lake, 1.5 miles long, on Prince of Wales Island, 9 miles SE of Craig, Alexander Archipelago; 55° 25' 30" N, 132° 54' 30" W; BGN 1935; (map 4). Named in 1935 by USGS; derived from other features in the vicinity called Saint Nicholas.

Saint Nicholas, Port: estuary, extends E 5 miles off Bucareli Bay, on W coast of Prince of Wales Island, Alexander Archipelago; 55° 26' N, 133° 07' W; (map 4). Variant: Mys de San Nikolay, Puerto de San Nicolao, Puerto de San Nicolas. Translation of the name "Puerto de San Nicolas" given "about June 1, 1779," by Francisco Antonio Maurelle (Wagner, 1937, p. 412).

Saint Orloff: locality, see Eagle Harbor.

Saint Orlovsk: locality, see Eagle Harbor.

Saint Patrick Creek: stream, flows E 3 miles to Ace Creek, 6 miles NW of Fairbanks, Yukon-Tanana Highlands; 64° 52' 15" N, 147° 54' 30" W; (map 100). This name first appears on a location map of the Tanana Mines Railroad dated 1904.

Saint Patrick Creek: stream, flows NW 6 miles to Deadwood Creek 1.5 miles NE of its junction with Guggenheim Creek, 27 miles NE of Flat, Kilbuck-Kuskokwim Mountains; 62° 40' 20" N, 157° 18' 50" W; (map 79). Prospectors' name obtained in 1952 by USGS topographers.

Saint Patricks Creek: stream, flows S 5.5 miles from Wien Mountain to Clear River, 5 miles WSW of Harvey Mountain and 33 miles NW of Wiseman, Brooks, Range; 67° 50' 30" N, 150° 28' 00" W; BGN 1932; (map 124). Robert Marshall (1956, p. 75) reports naming this creek: "I explored the deep, Yosemite-like valley, and its creek-later named by us 'St. Patricks Creek' * * *"

Saint Paul Harbor: bay, see Captains Bay.

Saint Paul Harbor: bay, see Levashef, Port.

Saint Paul Harbor: bight, 3.5 miles across, SW of Kodiak, on Kodiak Island; 57° 46' N, 152° 27' W; (map 34). Variant: Kodiak Harbor, Pauls Harbor, Pavlovsk Gaven. Reported by USC&GS in 1867. Name derived from Saint Paul, an early name for the village of Kodiak given in 1805 by Lisianski (1814, p. 168).

Saint Paul Island: island, 10 miles across, one of Pribilof Islands; 57° 10' N, 170° 15' W; (map 38). Variant: Saint Peter and Saint Paul Island. Early in June, 1786, G. G. Pribilov left some hunters on St. George Island with provisions for the winter. A year later, on June 29, 1787 (O.S.), an unusually clear atmosphere permitted the promyshlenniki to see another large island 30 miles northward which they named "Saint Peter and Saint Paul," because it was the dedicated day of those two Holy Apostles. The first half of the name was soon lost in popular usage (Bancroft, 1886, p. 192 and 193).

Saint Paul: town, see Kodiak.

Saint Paul: village, pop. 378, on S coast of St. Paul Island, Pribilof Islands; 57° 07' 20" N, 170° 16' 30" W; (map 38). Locally named for the island. First occupied about 1788 by Aleuts, who were employed by the Russians in the fur seal industry. Listed in the 1880 Census, with a population of 298, by Petroff (1884 p. 23); population 244 in 1890.

Saint Peter and Saint Paul Island: island, see Saint Paul Island.

Saint Philip Island: island, 1.5 miles long, in Gulf of Esquibel, W of Prince of Wales Island, Alexander Archipelago; 55° 39' N, 133° 25' W; (map 4). Variant: Isla San Felipe, Ostrov de San Filip, Ysla de San Felipe. Translation of the name "Isle San Felipe" given "about May 23, 1779, by Francisco Antonio Maurelle after San Felipe Neri, who died May 25" (Wagner, 1937, p. 499).

Saint Sebastian, Point: point of land, on W coast of Prince of Wales Island, on Trocadero Bay, Alexander Archipelago; 55° 21' 55" N, 132° 59' 15" W; (map 4). Variant: Mys San Sebastian, Punta de San Sebastian, Punta San Sebastian. Translation of the name "Punta de San Sebastian" given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle.

Saint Stephen Island: island, see Buldir Island.

Saint Stephen Island: island, see Kiska Island.

Saint Stephen, Cape: point of land, SW tip of Kiska Island, Aleutian Islands; 51° 51' N, 177° 12' E; BGN 1937; (map 14). Named by personnel of the U.S.S. Oglala in 1935, based on the belief that Kiska was the island seen by Vitus Bering on October 28, 1741 (O.S.), and named by him "St. Stephen." See Kiska Island.

Saint Terese: locality, on island, on S side of Pearl Harbor, on Favorite Channel, 1.2 miles S of Dotsons Landing and 18 miles NW of Juneau, Coast Mountains; 58° 28' 20" N, 134° 47' 10" W; (map 11). Shrine named for the French Carmelite nun, Theres de Lisieux, 1873-97. The site was selected in 1931 and the shrine was completed in 1933.

Saint Theodore Island: island, see Attu Island.

Saint Thomas, Point: point of land, on E coast of Lulu Island, Alexander Archipelago; 55° 29' 30" N, 133° 26' 15" W; (map 4). Variant: Mys San Tomas, Punta de San Tomas, Punta San Tomas. Translation of the name "Punta de San Tomas" given in 1775-79 by Don Juna de la Bodega y Quadra and Francisco Antonio Maurelle.

Saint Timothys: village, see Tanacross.

Saints Hill: hill, 800 ft., on northern Kiska Island, Aleutian Islands; 52° 04' 50" N, 177° 38' 45" E; (map 14) An arbitrary name beginning with "S" to correspond to "S" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Saioogham Island: island, see Seguam Island.

Saitchuck, The: estuary, 1 mile long, at head of Biscuit Lagoon, on SW coast of Prince of Wales Island, Alexander Archipelago; 54 54' 30" N, 132° 18' 30" W; (map 1). Name reported in 1948 by USGS. This may be a typographical error of the Chinook word "saltchuck," referring to "salt water."

Saitut Creek: stream, flows SW 6 miles to Okpiksurok Creek, E of Kevroruk Springs, 14 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 52' N, 164° 52' W; (map 128). Variant: Siaktak Creek, Saik-took, Saitut Kuuganzanga, Saytut Koogowranga. Eskimo name reported in 1966 by E. S. Burch; named after the hills. See Siaktak

Saitut Kuuganzanga: stream, see Saitut Creek.

Sajaga, Cape: point of land, see Sajaka, Cape.

Sajaka, Cape: point of land, on NW coast of Tanaga Island, Aleutian Islands; 51° 52' 30" N, 178° 13' 30" W; (map 16). Variant: Cape Sajaca Cape Sajaga, Cape Sasaka, Northwest Cape. This feature was named "Cape Sajaga" by the North Pacific Exploring Expedition of 1855. Capt. Tebenkov (1852, map 28), IRN, called it "M[ys] N.W.," or "Northwest Cape." The adopted form was published by USC&GS in the 1944 Aleutian Coast Pilot (p. 117).

Sakadelontin: locality, see Louden.

Sakamna: locality, "inland from Point Barrow." (Hodge 1910, p. 413); (map 153). Former Eskimo summer village or camp reported by Sgt. Murdoch (1892, p. 83), USA.

Sakatalan: locality, see Louden.

Sakataloden: locality, see Louden.

Sakedelontin: locality, see Louden.

Sakha Golovy, Mys: promontory, see Sugarloaf Mountain.

Sakhalis: locality, see Alaganik.

Sakhtusik Bay: bay, see Reese Bay.

Sakie Bay: estuary, extends SE 2.5 miles to Pacific Ocean, on W coast of Dall Island, Alexander Archipelago; 55° 04' N, 133° 14' W; (map 4). Local name published in 1914 by USC&GS; derived from the Japanese word "saki," which is a wine made from rice.

Sakie Point: point of land, point of entrance to Sakie Bay, on W coast of Dall Island, Alexander Archipelago; 55° 03' 25" N, 133° 13' 10" W; BGN 1928; (map 4). Variant: Reef Point. Named in 1927 by Capt. R. S. Patton, USC&GS "because of its proximity to Sakie Bay." This feature was called Reef Point by USC&GS in 1919; changed because of duplication.

Sakisalnak Point: point of land, on right bank of Noatak River, 18 miles NE of Kotzebue, Kotzebue-Kobuk Lowland; 67° 09' N, 162° 22' W; (map 128). Variant: Sukisalnuik Point. Eskimo name meaning "point of sharp rocks" according to USC&GS in 1950.

Saklekageta: stream, see Baker Creek.

Saklidok Island: island, see Sitkalidak Island.

Saklidov Island: island, see Sitkalidak Island.

Saklolik Mountain: hill, 701 ft., on E shore of Kukpuk River, 19 miles NE of Cape Thompson, Arctic Slope, 68° 14' 20" N, 165° 16' 45" W; BGN 1963; (map 129). Variant: Suklowik Mountain. Eskimo name reported in 1960 by D. C. Foote in connection with Project Chariot studies.

Sakoa-n: locality, see Sukkwan.

Sakonowyak River: stream, flows NE 35 miles to Gwydyr Bay, 4 miles SE of Beechey Point, Arctic Plain; 70° 27' N, 149° 01' W; (map 150). Eskimo name meaning “twisting waters” [“it twists” taken from Sanguroq] reported by USC&GS in 1951.

Sakoonang Channel: stream, distributary of Colville River, 15 miles long between Nechelik and Tamayayak Channels, in Colville River Delta, Arctic Plain; 70° 25' N, 150° 58' W; (map 149). Variant: Sa-koo-nowg River. Eskimo name reported in 1951 by USC&GS as Sakoonawg meaning “big curves” [?]. The variant spelling on a USGS map probably represents a typographical error.

Sakovanuktck River: stream, see Sagavanirktok River.

Sakpik Mountain: mountain, 1,510 ft., extends S 5 miles from Ipewik River, 16 miles NE of Cape Thompson, Arctic Slope; 68° 21' 15" N, 165° 34' 15" W; BGN 1963; (map 129). Variant: Saukpeek Mountain. Eskimo name meaning “whale's tail” reported in 1960 by D. C. Foote, Project Chariot; he spelled it “Saukpeek.”

Sakrorak Creek: stream, heads on Utkusikrak Hill, flows W 4.8 miles to Tasikpak Lagoon, 22 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 57' N, 165° 07' W; BGN 1963; (map 128). Variant: Sacrocruk Creek. Eskimo name meaning “stretched out,” according to USC&GS in 1950.

Sakrorak Mountain: hill, 165 ft., on Chukchi Sea coast, N of Tasikpak Lagoon, 22 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 57' N, 165° 07' W; (map 128). Variant: Sacroeruk Mountain, Sayagrowrak, Togrorurak. Eskimo meaning “stretched out,” according to USC&GS in 1950. D. C. Foote called the hill “Togrorurak” in 1960.

Saks Cove: estuary, on mainland, extends N 1.5 miles off Behm Canal, 4.5 miles SE of Point Fitzgibbon, Coast Mountains; 55° 55' 45" N, 131° 08' 40" W; (map 3). Named in 1891 by USC&GS.

Saks Creek: stream, on mainland, flows WNW 9.5 miles from Saks Lake to Saks Cove, Coast Mountains; 55° 57' N, 131° 07' W; BGN 1962; (map 3). Local name reported in 1961 by USFS.

Saks Lake: lake, 1.5 miles long, on mainland, in course of Saks Creek, 7.5 miles E of Point Fitzgibbon, Coast Mountains; 55° 57' 45" N, 131° 30' 00" W; BGN 1962; (map 3). Local name reported in 1961 by USFS.

Saksaia Glacier: glacier, heads on Flower Mountain, trends N 3 miles to head of Glacier Creek, 3.6 miles NE of Mount Henry Clay and 38 miles SW of Skagway, St. Elias Mountains; 59° 23' 15" N, 136° 22' 20" W; (map 45). Variant: Sachsaiya Glacier, Sayaeja. Tlingit Indian name reported by Aurel and Arthur Krause (1883, map) as “Saxaeja (Gletscher).” J. A. Flemer, USC&GS reported the name in 1898 as Sachsaiya.

Sakthidak Island: island, see Sitkalidak Island.

Saktuina Island: point of land, see Saktuina Point.

Saktuina Islands: islands, see Eskimo Islands.

Saktuina Point: point of land, between Harrison Bay and Kogru River, Arctic Plain; 70° 35' N, 152° 03' W; BGN 1961; (map 149). Variant: Saktuina Island. This name was originally applied to an island [Eskimo Islands] on Maguire's map (Great Britain, 1854, facing p. 186). The application was changed by the BGN on recommendation of USC&GS. The name freely translated means "waiting place."

Sakvailak River: stream, flows SE 18 miles to Awuna River, 28 miles W of Birthday Pass, Arctic Slope; 69° 12' N, 157° 43' W; (map 143). Variant: North Fork Sakvailak River, Sagvailak River. Present-day Eskimo name for the Awuna River which, on some publications, has been relegated to this headwater stream.

Sakvailak River: stream, see Awuna River.

Sakvailuk River: stream, see Awuna River.

Sakvelak Creek: stream, heads on Kitkonak Hill, flows SE 14 miles to Nilik River, 29 miles E of Cape Dyer, Arctic Slope; 68° 40' 30" N, 165° 05' 50" W; (map 129). Variant: Olikvik Creek, Sukwayluk Creek. Eskimo descriptive name meaning "no current" reported in 1956 by Orth.

Sal Creek: stream, flows E 5 miles to Clarence Strait, 2 miles N of Narrow Point, E coast of Prince of Wales Island, Alexander Archipelago; 55° 49' N, 132° 30' W; BGN 1962; (map 4). Local name reported in 1961 by USFS. "This small stream flows into Clarence Strait near triangulation station Sal * * *."

Salamander Lake: lake, 0.6 miles long, on E coast of Prince of Wales Island, 3.2 miles NW of Thorne Head, Alexander Archipelago; 55° 43' 40" N, 132° 29' 45" W; BGN 1960; (map 4). So named by C. L. Sainsbury, USGS, in 1956 "because of the large population of salamanders in it."

Salamatof Creek: stream, heads in Salamatof Lake, flows SW 3 miles to Cook Inlet at Salamatof Beach, 5.5 miles NW of Kenai, Cook Inlet Lowland; 60° 37' 15" N, 151° 20' 30" W; (map 62). Local name reported in 1951 by USGS; derived from the village.

Salamatof Lake: lake, on Kenai Peninsula, 1.2 miles long, 7 miles N of Kenai, on Kenai Peninsula Cook Inlet Lowland; 60° 39' N, 151° 18' W; (map 62). Russian name reported in 1840 as "Salamatowa" by Ilia G. Wosnesenski. The present spelling was used by Constantin Grewingk in 1850. "Salamatov" is a Russian surname.

Salamatof: locality, on E shore of Cook Inlet at mouth of Salamatof Creek, 5.5 miles NW of Kenai, Cook Inlet Lowland; 60° 37' 15" N, 151° 20' 30" W; (map 62). Tanaina Indian village reported about 1911 by USGS (Martin and others, 1915, pl. 2). Recent USGS maps indicate an abandoned site.

Salawik Lake: lake, see Selawik Lake.

Salawik River: stream, see Selawik River.

Salcha Bluff: bluff, 2,600 ft., extends E 8 miles from Aurora Lodge, on N bank of Salcha River, Yukon-Tanana Highlands; 64° 28' 45" N, 146° 51' 00" W; (map 101). Local name derived from Salcha River; published in 1951 by USGS.

Salcha River: stream, heads at 65° 05' N, 143° 55' W, flows SW 125 miles to Tanana River, 33 miles SE of Fairbanks, Tanana Lowland; 64° 28' N, 146° 59' W; BGN 1965; (map 101). Variant: East Fork Salcha River, Middle Fork Salcha River, Salchacket River, Salchakaket River, Salchaket River, Salt Jacket River, Saltshatsheg River. Indian name reported in 1898 as "Salchaket," i.e. "mouth of the Salcha," by Brooks (1900, map 23), USGS. R. H. Geoghegan in 1904 recorded the Indian name as "Saltshatsheg."

Salcha Slough: stream, distributary of Salcha River, flows NW 6 miles to Tanana River, 45 miles NW of Big Delta, Tanana Lowland; 64° 33' N, 147° 03' W; (map 100). Local name reported in 1905 by L. M. Prindle (in Brooks and others, 1906, p. 124), USGS.

Salcha: settlement, see Aurora Lodge.

Salchacket River: stream, see Salcha River.

Salchakaket River: stream, see Salcha River.

Salchakaket: settlement, see Aurora Lodge.

Salchaket Lake: lake, see Harding Lake.

Salchaket River: stream, see Salcha River.

Salchaket Slough: stream, anabranch of Tanana River, flows NW 29 miles along S side of Tanana River to 10 miles SW of Fairbanks, Tanana Lowland; 64° 44' 40" N, 148° 02' 30" W; (map 100). So named because this stream heads near mouth of Salcha River. The name is shown on an ARC wagonroad manuscript map dated 1909.

Salchaket: settlement, see Aurora Lodge.

Saldovia: village, see Seldovia.

Saldovoi Bay: estuary, see Seldovia Bay.

Sale Gulch: ravine, trends W 1.3 miles to Fish Creek, 56 miles SW of Eagle, Yukon-Tanana Highlands; 64° 21' 15" N, 142° 45' 00" W; (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Saleekvik Creek: stream, see Saligvik Creek.

Saleekvik Ridge: ridge, see Saligvik Ridge.

Saleekvik Valley: valley, see Saligvik Valley.

Saleexvik Creek: stream, see Saligvik Creek.

Saleexvik Mountain: ridge, see Saligvik Ridge.

Salennoj: island, see Salt Island.

Salghat Beach: beach, barrier beach forming Seepanpak Lagoon, 47 miles SE of Savoonga, St. Lawrence Island; 63° 20' N, 169° 12' W; BGN 1951; (map 93). Eskimo name recommended by the Savoonga village council and reported in 1949 by Maj. H. B. Allen, USAF.

Saligochit River: stream, see Sadlerochit River.

Saligvik Creek: stream, flows NE 7.5 miles to Kukpuk River, E of Saligvik Ridge, 13 miles NE of Cape Thompson, Arctic Slope; 68° 16' 25" N, 165° 35' 45" W; BGN 1963; (map 129). Variant: Sahligvik Creek, Saleekvik Creek, Saleexvik Creek. Eskimo name reported in 1962 by personnel of Project Chariot as "Saleekvik." It was reported to mean "dodge an arrow" by W. O. Pruitt, Univ. of Alaska.

Saligvik Ridge: ridge, 800 ft., extends NE 13 miles between Chukchi Sea and Kukpuk River, 9 miles NE of Cape Thompson, Arctic Slope; 68° 12' N, 165° 45' W; BGN 1963; (map 129). Variant: Sahligvik Ridge, Saleekvik Ridge, Saleexvik Mountain. Eskimo name reported in 1962 by personnel of Project Chariot. See Saligvik Creek.

Saligvik Valley: valley, extends SW 6.5 miles from Kukpuk River, E of Saligvik Ridge, 9 miles NE of Cape Thompson, Arctic Slope; 68° 14' N, 165° 37' W; BGN 1963; (map 129). Variant: Sahligvik Valley, Saleekvik Valley. Eskimo name reported in 1962 by personnel of Project Chariot. See Saligvik Creek.

Salisbury Sound: water passage, between Kruzof and Chichagof Islands, 26 miles NW of Sitka, Alexander Archipelago; 57° 22' N, 135° 50' W; BGN Sixth Report; (map 9). Variant: Bay of Islands, Chastyye Ostrova, Klokacheff Sound, Olga Sound, Olga Strait, Proliv Olgi, Puerto de los Remedios, Bahia de las Islas. Named in 1787 by Capt. Nathaniel Portlock, "in honor of Bishop Salisbury" (Wagner, 1937, p. 407). This feature was also called "Puerto de los Remedios" meaning "Port of the Remedies," in 1775 by Francisco Antonio Maurelle; "Bay of Islands" on May 2, 1778, by Capt. James Cook, RN (Wagner, p. 464); "Zund Klokacheva," or "Klokachev Sound," in 1809 by the Russian navigator Ivan Vasiliev the first; and "Proliv Olgi," or "Olgi Strait," by Capt. Tebenkov (1852, map 8), IRN.

Salisbury, Mount: mountain, 12,170 ft., in Glacier National Monument, 7 miles SE of Mount Fairweather and 87 miles NW of Hoonah, St. Elias Mountains; 58° 51' 05" N, 137° 22' 10" W; BGN 1937; (map 10). Named by W. O. Field, Jr., and W. S. Cooper in 1936 for Rollin D. Salisbury, 1858-1922, professor of geology at the Univ. of Chicago from 1892 until his death, and an eminent student of Pleistocene and Recent glaciers.

Salisbury, Mount: mountain, 7,060 ft., W of Canning River, at head of Kavik River, 51 miles SW of Mount Michelson, Brooks Range; 69° 09' N, 146° 17' W; BGN 1944; (map 139). Named by Leffingwell (1919, p. 99) for Rollin D. Salisbury, 1858-1922.

Salisbury, Point: point of land, on Stephens Passage, at S end of Gastineau Channel, 2.5 miles W of Bishop Point and 10 miles SW of Juneau, Coast Mountains; 58° 12' 15" N, 134° 13' 00" W; (map 11). Discovered August 11, 1794, by Joseph Whidbey, RN, and named by Capt. George Vancouver for the Bishop of Salisbury (Wagner, 1937, p. 407).

Saliuliuktusikh: island, see Sauluktoucikh.

Salix Bay: bay, 2 miles across, at N end of Imuruk Lake, Seward Peninsula Highlands; 65° 39' N, 163° 12' W; BGN 1952; (map 110). Reported in 1950 by D. M. Hopkins, USGS; so named because "the shores are partly lined by *Salix Alaxensis* (felt-leaf willow)."

Sally Island: island, 2.3 miles long, in Northeast Arm Uganik Bay, on N coast of Kodiak Island; 57° 44' N, 153° 21' W; (map 34). Local name published in 1943 by USC&GS.

Salmo Point: point of land, at N tip of Hawkins Island, 5 miles N of Cordova, Chugach Mountains; 60° 37' N, 145° 46' W; (map 64). Variant: Hawkins Point. Named in 1898 by Capt. Abercrombie (1900, p. 15), USA, for his little steam vessel Salmo.

Salmo Rock: rock, in Cook Inlet, 3.5 miles SW of Kenai, Cook Inlet Lowland; 60° 31' 20" N, 151° 21' 10" W; BGN 1906; (map 62). Name reported in 1905 by USC&GS.

Salmon Bay Lake: lake, 3 miles long, on N coast of Prince of Wales Island, Alexander Archipelago; 56° 14' N, 133° 11' W; (map 6). Local name recorded in 1949 by USGS.

Salmon Bay: bay, 0.4 miles across, on S coast of Sanak Island, Aleutian Range; 54° 23' 25" N, 162° 36' 00" W; (map 25). Variant: King Cove. Named by USBF in 1888. This bay or Peterson Bay may be the King Cove of W. H. Dall, USC&GS. See Peterson Bay.

Salmon Bay: bay, see Herring Cove.

Salmon Bay: cove, 0.8 miles long, at NW end of Clarence Strait, on N coast of Prince of Wales Island, Alexander Archipelago; 56° 18' 15" N, 133° 09' 00" W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow, USN; published in 1887 on USC&GS Chart 706.

Salmon Berry Lake: lake, 0.2 miles across, 1 mile S of Stony River, 18 miles E of Tundra Lake, 75 miles SE of Sleetmute, Lime Hills; 61° 14' 45" N, 155° 07' 30" W; (map 71). Local name reported in 1958 by USGS.

Salmon Berry Lake: lake, 1.9 miles long, NW of Game Trail Lake, 21 miles NW of Glennallen, Copper River Basin; 62° 17' N, 140° 09' W; (map 83). Local name reported in 1951 by USGS.

Salmon Cove: bay, see Herring Cove.

Salmon Cove: cove, see Sweeper Cove.

Salmon Creek Divide: ridge, extends 3 miles NE from Mount Juneau, 2 miles NE of Juneau, Coast Mountains; 58° 20' N, 134° 22' W; (map 11). Name used by miners; published by Spencer and Wright (1906, pl. 15), USGS.

Salmon Creek Reservoir: reservoir, 1 mile long, fed by Salmon Creek, 1 mile S of Blackerby Ridge and 2.7 miles N of Juneau, Coast Mountains; 58° 20' 30" N, 134° 24' 20" W; (map 11). The name was derived from Salmon Creek and was published by USGS in 1962. Power from this reservoir, built in 1915, supplies electricity to Juneau (DeArmond, 1957, p. 37).

Salmon Creek: stream, flows N 0.5 miles to Red Bay, on N coast of Prince of Wales Island, Alexander Archipelago; 56° 16' 30" N, 133° 17' 50" W; (map 6). Named in 1886 by Lt. J. M. Helm, USN, for charting purposes; published in 1887 on USC&GS Chart 706.

Salmon Creek: stream, flows NE 18 miles to the Koyuk River, 15 miles SW of Haycock, Seward Peninsula Highlands; 65° 10' N, 161° 39' W; (map 109). Local name reported in 1921 by USGS.

Salmon Creek: stream, flows NE 6 miles to Salmon Bay, on NE coast of Prince of Wales Island, Alexander Archipelago; 56° 16' 50" N, 133° 10' 00" W; (map 6). Named in 1886 by Lt. J. M. Helm, USN, for charting purposes; published in 1887 on USC&GS Chart 706.

Salmon Creek: stream, flows NW 3.8 miles to Thumb River, E of Karluk Lake, Kodiak Island; 57° 21' 15" N, 153° 59' 30" W; (map 34). Local name reported in 1954 by USGS.

Salmon Creek: stream, flows S 3.8 miles to Taylor Creek which flows to Kougarok River, 5 miles S of Midnight Mountain and 41 miles NE of Imuruk Lake, Seward Peninsula Highlands; 65° 42' N, 164° 35' W; (map 110). Variant: Solomon Creek. Prospectors' name reported as "Solomon Creek" in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Salmon Creek: stream, flows S 6 miles to McKinley Lake, 20 miles SE of Cordova, Chugach Mountains; 60° 27' N, 145° 10' W; (map 64). Local name reported in 1912 by U. S. Grant and D. F. Higgins, USGS.

Salmon Creek: stream, flows SW 5 miles to Bremner River, 1.6 miles NE of mouth of Eagle Creek and 64 miles E of Valdez, Chugach Mountains; 61° 01' 40" N, 144° 18' 30" W; (map 68). Name published by USGS (Moffit, 1914, pl. I).

Salmon Creek: stream, heads at Lucky Chance Lakes, flows W and N 6.5 miles to Silver Bay 8.5 miles SE of Sitka, on central Baranof Island, Alexander Archipelago; 56° 58' 50" N, 135° 08' 30" W (map 5) Local name published by Knopf (1912, fig. 5), USGS.

Salmon Creek: stream, heads at terminus of Bear Lake Glacier, flows WSW 7 miles to Resurrection River, 2 miles NE of Seward, Chugach Mountains; 60° 08' N, 149° 24' W; (map 63). Local name reported in 1898 by Mendenhall (1900, p. 302), USGS.

Salmon Creek: stream, heads in glacier, flows N 3 miles to Port Valdez at Sawmill Spit, 6.2 miles SW of Valdez, Chugach Mountains; 61° 04' 55" N, 146° 26' 15" W; (map 68). Local name reported in 1905 by U. S. Grant, USGS.

Salmon Creek: stream, heads in Salmon Creek Reservoir, flows SW 3 miles to Gastineau Channel, 3 miles NW of Juneau, Coast Mountains; 58° 19' 50" N, 134° 28' 20" W; (map 11). Variant: Tilhini Creek. Named by Richard Harris and Joe Juneau in 1880. The name

probably derived from the Indian name "Tilhini," meaning "dog salmon," which appears on some early maps(DeArmond, 1957, p. 37).

Salmon Creek: stream, heads in swamp at Chulitna Pass, flows S 2 miles to Indian River 6 miles NE of its junction with Susitna River and 41 miles SW of Cantwell, Talkeetna Mountains; 62° 52' 15" N, 149° 35' 50" W; (map 82). Local name reported in 1951 by USGS.

Salmon Creek: stream, heads N of Tule Bay, flows NW 11 miles to Becharof Lake, between Bear and Otter Creeks, on Alaska Peninsula, 51 miles NE of Ugashik, Aleutian Range; 57° 40' 25" N, 156° 05' 25" W; (map 36). Local name reported in 1903 by G. C. Martin, USGS.

Salmon Creek: stream, see Currant Creek.

Salmon Creek: stream, see Sweeper Creek.

Salmon Falls: waterfalls, see Brooks Falls.

Salmon Flats: tidal flats, 5 miles across, near head of Kvichak Bay, 6 miles NW of Naknek, Bristol Bay Lowland; 58° 50' N, 157° 04' W; (map 41). Local name reported in 1952 by USGS.

Salmon Fork Black River: stream, heads at 66° 53' N, 140° 00' W in Canada, flows SW 90 miles to Black River, 2 miles SW of Salmon Village and 32 miles SE of Chalkyitsik, Porcupine Plateau; 66° 33' N, 142° 32' W; B(7N 1959; (map 120). Variant: Black River, Salmon River. Local name reported in 1956 by R. C. Foley, USGS. The name "Black River" was applied in 1910 by the IBC survey.

Salmon Fork: stream, flows 5 miles NE and SE, joins Cold Creek to form Carlson Creek, on Taku Inlet, 4 miles NW of Sunny Cove and 9 miles E of Juneau, Coast Mountains; 58° 20' 15" N, 134° 14' 00" W; (map 11). Local name published in 1951 by USGS.

Salmon Fork: stream, see Black River.

Salmon Island: island, 4.5 miles long, at mouth of Innoko River, between Red Wing Slough and Yukon River, 1.5 miles SE of Holy Gross, Innoko Lowland; 62° 10' N, 159° 42' W; (map 78). Local name reported in 1916 by G. L. Harrington and R. H. Sargent (in Harrington, 1918, pl. 1), USGS.

Salmon Lagoon: lagoon, 1 mile across, 1.5 miles NW of North Head, on E coast of Kiska Island, Aleutian Islands; 51° 59' 50" N, 177° 33' 30" E; BGN 1937; (map 14). Name published on a 1905 USC&GS chart.

Salmon Lake: lake, 0.8 miles long, on Salmon Creek, 9 miles SE of Sitka, on central Baranof Island, Alexander Archipelago; 55° 57' 45" N, 134° 08' 45" W; (map 6). Local name recorded in 1951 by USGS.

Salmon Lake: lake, 1 mile long, in course of Salmon Creek, on Baranof Island, 9 miles SE of Sitka, Alexander Archipelago; 56° 58' N, 135° 09' W; (map 5). Local name published by Knopf (1912, fig. 5), USGS.

Salmon Lake: lake, 4 miles long, at head of Pilgrim River, 29 miles NW of Solomon, Seward Peninsula Highlands; 64° 55' N, 165° 00' W; (map 95). Variant: Nahwazuk. Local name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS. Barnard also noted the Eskimo name is "Nahwazuk" meaning "salmon."

Salmon Lake: lake, near center of Prince of Wales Island, 15 miles E of Klawock, Alexander Archipelago; 55° 34' 30" N, 132° 40' 30" W; (map 4). Local name reported in 1905 by Wright and Wright (1908, fig. 15), USGS.

Salmon Lake: lake, see Bear Lake.

Salmon Mountain: mountain, 4,540 ft., 12 miles S of Tetsyeh Mountain and 23 miles NE of Arctic Village, Brooks Range; 68° 19' N, 144° 47' W; (map 136). Local name reported in 1956 by R. C. Foley, USGS.

Salmon Pass: pass, 360 ft., 2.5 miles NW of Kiska Harbor, central Kiska Island, Aleutian Islands; 52° 00' 10" N, 177° 30' 50" E; (map 14). One of many arbitrary names applied to features on Kiska Island by USAAF for tactical purposes during World War II.

Salmon Point: point of land, on W bank of Portland Canal, 1.5 miles S of Hyder, Coast Mountains, 55° 53' 28" N, 130° 02' 05" W; (map 3). Name published in 1891 by USC&GS.

Salmon Ridge: ridge, 2 miles long, extends S from Observation Peak to Juneau Ridge, 4 miles NE of Juneau, Coast Mountains; 58° 20' 30" N, 134° 20' 45" W; (map 11). Local name reported in 1965 by D. A. Brew and A. B. Ford, USGS.

Salmon River Village: ski camp, see Salmon Village.

Salmon River: stream, 0.3 miles long, between Pavlof Harbor and Pavlof Lake, on SW shore of Freshwater Bay, Chichagof Island, Alexander Archipelago; 57° 50' 25" N, 135° 01' 40" W; (map 9). Named by Comdr. R. W. Meade, USN; published in 1869 on Hydrog. Chart 225. Name not shown on recent maps.

Salmon River: stream, flows SW 9 miles to Kuskokwim Bay, 21 miles NE of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 52' N, 161° 46' W BGN 1938; (map 39). Local name published in 1933 by USGS. The valley of this river and its tributaries has been the site of much mining activity since platinum was discovered on Fox Gulch in 1926.

Salmon River: stream, heads at Salmon Glacier in British Columbia, Canada, flows S 14 miles, across the Alaska-Canada boundary to Portland Canal, Coast Mountains; 55° 54' N, 130° 01' W; (map 3). Named in 1868 by Staff Comdr. David Pender, RN.

Salmon River: stream, heads in Glacier Bay National Monument, flows 13 miles S to Icy Passage at Gustavus, 48 miles NW of Juneau, St. Elias Mountains; 58° 24' N, 135° 44' W; (map 11). Named in 1902 by E. F. Dickins, USC&GS.

Salmon River: stream, heads in Kilbuck Mountains and flows NE 40 miles to Aniak River 37 miles SE of Aniak, Kilbuck-Kuskokwim Mountains; 61° 04' N, 159° 11' W; (map 73). Prospectors' name shown on a 1914 field sheet by A. G. Maddren, USGS.

Salmon River: stream, in Baird Mountains, flows S 60 miles to Kobuk River 2 miles SW of its junction with Tutksuk River, 24 miles NE of Kiana, Brooks Range; 67° 09' N, 159° 27' W; (map 127). Variant: Kal-la-gu-nick. In 1885, Lt. Stoney (1900, map), USN, reported the name for this stream as "Salmon or Kal-la-gu-nick River" (Eskimo, probably meaning "Salmon").

Salmon River: stream, see Black River.

Salmon River: stream, see Getmuna Creek.

Salmon River: stream, see Salmon Fork Black River.

Salmon River: stream, see Sheenjok River.

Salmon River: stream, see Tsirku River.

Salmon River: watercourse, in distributary system of South Fork Kuskokwim River, flows N and W 30 miles to Pitka Fork 6 miles SE of its junction with Middle Fork Kuskokwim River, 33 miles SE of McGrath, Kuskokwim Lowland; 62° 53' 30" N, 154° 34' 20" W; (map 80). Local name reported in 1940 by USGS.

Salmon Run: estuary, arm of Sanborn Harbor, Nagai Island, in Shumagin Islands, Aleutian Range; (map 28). Named in 1872 by W. H. Dall, USC&GS, but not identified on available sources.

Salmon Slough: stream, flows E 1 mile to Salmon Fork Black River, 36 miles SE of Chalkyitsik, Porcupine Plateau; 66° 29' N, 142° 30' W; (map 120). Local name obtained in 1956 by T. E. Taylor and R. C. Foley, USGS.

Salmon Trout River: stream, flows NE then NW 50 miles to Porcupine River at Old Camp, 31 miles NE of Coleen Mountain, Porcupine Plateau; 67° 10' N, 141° 40' W; (map 121). Variant: Salmontrout River. Name reported in 1895 by USC&GS. "During the days of the Hudson's Bay post at Old Rampart, this river was said to be one of the best fishing streams in the district" (FitzGerald, 1944, p. 232).

Salmon Village: fish camp, 2 miles N of junction of Black River with its Salmon Fork, 35 miles SE of Chalkyitsik, Porcupine Plateau; 66° 34' N, 142° 33' W; (map 120). Variant: Salmon, Salmon River Village. Local name reported in 1940 by FitzGerald (1944, pl. 18), USGS.

Salmon Village: settlement, 1 mile S of Vacahanyande Mountain and 33 miles SE of Chalkyitsik, Porcupine Plateau; 66° 34' N, 142° 33' W; (map 120). Variant: Salmon. Indian settlement listed in the 1930 Census with a population of 30; 5 in 1939.

Salmon: settlement, see Salmon Village.

Salmonberry Cove: cove, 0.1 miles across, in Kakul Narrows, on S coast of Chichagof Island, 21 miles NW of Sitka, Alexander Archipelago; 57° 22' 25" N, 135° 42' 00" W; (map 9). Named in 1884 by Comdr. J. B. Coghlan, USN, and published by USC&GS on Chart 727.

Salmonfoot Creek: stream, flows N 5 miles to East Fork Chena River, 64 miles SW of Circle, Yukon-Tanana Highlands; 65° 02' 45" N, 145° 12' 45" W; (map 104). Named by prospectors and reported in 1911 by USGS (Prindle, 1913, pl. 1).

Salonie Creek: stream, flows NE 9 miles to head of Womens Bay, 8.5 miles SW of Kodiak, Kodiak Island; 57° 41' 55" N, 152° 33' 25" W; (map 34). Russian name meaning "salon" published in 1949 by USGS.

Saloon Island: island, in Yukon River, 1.3 miles long, 26 miles SE of Fort Yukon, Yukon Flats; 66° 14' 30" N, 144° 43' 00" W; (map 119). Local name obtained in 1956 by USGS.

Salt Chuck, The: lagoon, 1.5 miles long, at head of Hobart Bay, 1.5 miles NW of Entrance Island and 82 miles E of Sitka, Coast Mountains; 57° 27' N, 133° 20' W; (map 8). Local name reported in 1955 by USGS. See Salt Chuck, village.

Salt Chuck: lagoon, 2.5 miles long, at head of North Arm Duncan Canal, on Kupreanof Island, Alexander Archipelago; 56° 53' N, 133° 20' W; (map 6). Local name recorded in 1951 by USGS. See Salt Chuck, village.

Salt Chuck: village, pop. 10, on E coast of Prince of Wales Island, at head of Kasaan Bay, Alexander Archipelago; 55° 37' 40" N, 132° 33' 10" W; (map 4) Local name published in 1943 by USC&GS; "chuck" is a Chinook jargon word meaning "water." According to E. L. Keithahn of the Alaska Historical Library and Museum, this word is usually applied to "a salt lake that fills at high tide, sometimes with a bore, and empties or partly empties at low tide with a reverse bore or sometimes 'falls.' A strong or dangerous chuck is sometimes called skookum chuck; 'skookum' meaning 'strong.'"

Salt Creek: stream, flows 2.5 miles E to Bering Sea, on N coast of Kiska Island, Aleutian Islands; 52° 05' 35" N, 177° 40' 20" E; (map 14). An arbitrary name beginning with "S" to correspond to "S" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Salt Creek: stream, flows N to Arctic River, about 5 miles E of Ear Mountain and 45 miles NE of Teller, Seward Peninsula Highlands; (map 111). Prospectors' name reported on a precinct map of Seward Peninsula gold fields-by Monroe and Hutchins, corrected up to June 1903 by Arthur Gibson. This feature cannot be precisely identified on current maps.

Salt Creek: stream, heads at 57° 39' 20" N, 152° 34' 03" W, flows E 3 miles to SW end of Middle Bay, 11 miles SW of Kodiak, Kodiak Island; 57° 39' 12" N, 152° 31' 02" W; BGN 1966; (map 34). Local name reported in 1966 by the Alaska State Geographic Board.

Salt Creek: stream, in Nutzotin Mountains, flows S 1 mile to Chathenda Creek 5 miles E of its junction with Chisana River, Alaska Range; 62° 04' 25" N, 141° 56' 00" W; (map 84). Local name reported by USGS in 1960.

Salt Creek: stream, on coast of Beaufort Sea, between Drew and Pitt Points, Arctic Plain; (map 148). This name appears on P. W. Dease and Thomas Simpson's 1843 map. See McLeod, Point.

Salt Creek: stream, partially ditched, flows SE 2.4 miles to Trail Creek 0.5 miles NE of that stream's junction with Boulder Creek and 27 miles E of Tanana, Yukon-Tanana Highlands; 65° 08' 30" N, 151° 09' 30" W; (map 106). Local name reported in 1952 by USGS.

Salt Island: island, 1.3 miles long, off Banner Bay, on N coast of Atka Island, Aleutian Islands; 52° 10' 30" N, 174° 38' 00" W; (map 18). Variant: Salennoj, Soleni, Solenoi, Solney. Translated from the Russian-French names "Soleni ile" and "Soleny ile," or "Salt Island," published by Capt. Lutke (1836, p. 310), IRN.

Salt Jacket River: stream, see Salcha River.

Salt Lagoon: estuary, 1.2 miles long, at head of George Inlet, on Revillagigedo Island, Alexander Archipelago 55° 31' 30" N, 131° 26' 45" W; (map 3). Local navigators' name obtained in 1904 by H. C. Fassett, USBF.

Salt Lagoon: lagoon, 0.2 miles across, on E coast of Baranof Island, at head of Warm Spring Bay, S of Baranof, Alexander Archipelago; 57° 05' 00" N, 134° 49' 50" W; (map 9). Local descriptive name reported in 1951 by USGS.

Salt Lagoon: lagoon, 0.6 miles across, on S Peninsula of St. Paul Island, Pribilof Islands; 57° 08' 10" N, 170° 16' 20" W; (map 38). Variant: Lagoon Lake. This feature was called "Lagoon Lake" by Elliott (1881, Saint Paul map).

Salt Lagoon: lagoon, 1.5 miles long, at head of Seclusion Harbor, on E coast of Kuiu Island, 18 miles NW of Point Baker, Alexander Archipelago; 56° 33' 40" N, 133° 55' 00" W; (map 6). Local name recorded in 1948 by USGS.

Salt Lake Bay: bay, 0.6 miles across, on S shore of Port Frederick, 13 miles SW of Hoonah, on N central Chichagof Island, Alexander Archipelago; 57° 58' 30" N, 135° 39' 30" W; (map 9). Local name published by USC&GS in 1943 Coast Pilot (p. 418).

Salt Lake Bay: bay, 2 miles across, on Chichagof Island, at SW end of Port Frederick, 4 miles SW of Neka Bay and 13 miles SW of Hoonah, Alexander Archipelago; 58° 00' N, 135° 44' W; (map 11). Local name published in 1951 by USGS.

Salt Lake Bay: bay, 2 miles long, W coast of Prince of Wales Island, Alexander Archipelago; 55° 41' N, 133° 22' W; (map 4). Descriptive name given in 1914 by USC&GS.

Salt Lake: lagoon, 0.2 miles across, at mouth of Peterson Creek, at Eagle Harbor, on Favorite Channel, 0.3 miles N of Dotsons Landing and 19 miles NW of Juneau, Coast Mountains; 58° 29' 40" N, 134° 47' 10" W; (map 11). Name first appeared in records in 1902, when W. N. Lazier claimed a trade and manufacturing site on the lake (DeArmond, 1957, p. 37, 38). Name was published in 1925 by USC&GS.

Salt Lake: lake, 0.2 miles long, on NW coast of Woody Island, 2.3 miles E of Kodiak, Kodiak Island 57° 47' 30" N, 152° 20' 30" W; (map 34). Descriptive local name published in 1943 by USC&GS.

Salt Lake: lake, 2 miles across, on W central Admiralty Island 9.5 miles NE of Angoon, Alexander Archipelago; 57° 34' 20" N, 134° 22' 00" W; (map 9). Local descriptive name reported in 1951 by USGS.

Salt Lake: lake, see Imuruk Basin.

Salt Point: point of land, S entrance to Dakaneek Bay, 9.5 miles SE of Kake, on W coast of Kupreanof Island, Alexander Archipelago; 56° 50' 40" N, 133° 51',50" W; (map 6). Local name published in 1943 by USC&GS.

Salt Water Lagoon: lagoon, 1 mile long, E end of Tunga Inlet, W coast of Prince of Wales Island, Alexander Archipelago; 55° 58' 10" N, 133° 14' 20" W; (map 4) Local name recorded in 1949 by USGS.

Salt Water Lagoon: water passage, see Tunga Inlet.

Saltery Bay: estuary, 3 miles long, on S shore of Tenakee Inlet, on Chichagof Island, 7 miles W of Tenakee Springs, Alexander Archipelago; 57° 46' N, 135° 25' W; BGN 1929; (map 9). Named in 1929 by USFS because "a saltery is located there."

Saltery Cove: bight, 3 miles across, on N shore of Ugak Bay, on E coast of Kodiak Island; 57° 30' N, 152° 45' W; (map 34). Name derived from Saltery Creek; published in 1943 by USC&GS.

Saltery Cove: cove, extends SE 1.5 miles off Skowl Arm Kasaan Bay, on E coast of Prince of Wales Island E of McKenzie Inlet, Alexander Archipelago; 55° 25' N, 132° 20' W; (map 4). Navigators' name reported in 1904 by H. C. Fassett, USBF; so called because "a small saltery is located in the cove."

Saltery Creek: stream, flows S 3 miles to Saltery Cove in Ugak Bay, on E coast of Kodiak Island; 57° 30' 25" N, 152° 44' 35" W; BGN 1933; (map 34). Local name reported in 1933 by Gerald FitzGerald, USGS, "because for many years a salmon saltery was situated at the mouth of the creek."

Saltery Point: point of land, on W coast of Prince of Wales Island, in Sukkwan Strait, 1.6 miles SE of Hydaburg, Alexander Archipelago; 55° 11' N, 132° 48' W; (map 4). Named in 1924 by USC&GS because of "a nearby salmon saltery * * *."

Saltery River: stream, on Chichagof Island, heads 3 miles N of Big Chief Mountain, flows NW 5 miles to Stag Bay, 18 miles NW of Chichagof, Alexander Archipelago; 57° 54' 07" N, 136° 16' 10" W; BGN 1960; (map 9). So named by USGS in 1955 because "a saltery for preserving fish once existed near the mouth of the river."

Salthidak, Ostrov: island, see Sitkalidak Island.

Saltshatsheg River: stream, see Salcha River.

Salty Cape: point of land, see Aspid Cape.

Saluluktussich: island, see Sauluktoucikh.

Sam Charley Island: island, 1.3 miles across, in Tanana River, 16 miles SW of Fairbanks, Tanana Lowland; 64° 43' N, 148° 10' W; (map 100). Local name reported in 1950 by USGS topographers.

Sam Creek: locality, site of landing and winter trail cabin, on S bank of Yukon River, at mouth of Sam Creek, 49 miles SE of Circle, Yukon-Tanana Highlands; 65° 19' N, 142° 52' W; (map 103). Published in 1951 by USGS.

Sam Creek: stream, flows NE 18 miles to Yukon River 3 miles W of junction of Charley River, Yukon-Tanana Highlands; 65° 19' N, 142° 52' W; (map 103) Prospectors' name from a fieldsheet prepared in 1902 by A. J. Collier, USGS; also recorded the same year by Lt. Hjalmar Erickson, USA, and William Yanert.

Sam Creek: stream, flows NW 5 miles to Tanana River, 48 miles NW of Tok, Alaska Range; 63° 42' 10" N, 144° 18' 30" W; BGN 1961; (map 86). Local name reported in 1958 by R. E. Isto, USGS.

Sam Creek: stream, flows S 6 miles to Kanektok River, 55 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 48' N, 160° 45' W; (map 53). Local name published in 1951 by USGS.

Sam Creek: stream, in Ray Mountains, flows S 9 miles to Tozitna River, 9 miles SSW of Mount Tozi and 40 miles NE of Tanana, Kokrines-Hodzana Highlands; 65° 34' 00" N, 151° 04' 30" W; (map 106). Named in 1956 by Don Orth, for Sam Stulberg, USGS, who made field surveys in the area that season.

Sam Patch Creek: stream, flows SE 5 miles to Fortymile River, 35 miles S of Eagle, Yukon-Tanana Highlands; 64° 19' N, 141° 01' W; BGN 1912; (map 102). Variant: Patch Creek, Uncle Sam Creek. Named in 1907 by IBC surveyors for Samuel Patch, 1807-29, a diving champion of his era. Called "Uncle Sam Creek" by prospectors; reported in 1898 by E. C. Barnard, USGS. See Liberty Fork.

Sam Peak: mountain, 2,416 ft., on E coast of Mitkof Island, 11 miles NW of Wrangell, Alexander Archipelago; 56° 34' 50" N, 132° 37' 00" W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for charting purposes; published in 1888 on USC&GS Chart 705.

Sam White Lake: lake, oxbow lake, 28 miles SW of Roundabout Mountain, Koyukuk Lowland; 65° 27' N, 157° 30' W; (map 108). Local name "for Sam White, Alaska bush pilot." Name reported in 1954 by USGS.

Samalga Island: island, 4.2 miles long, W end of Fox Islands, Aleutian Islands; 52° 47' N, 169° 12' W; (map 21). Aleut name published by Lt. Sarichev (1826, map 3), IRN, as "O[strov]"

Samalga," or "Samalga Island." Father Veniaminov (1840, v. 1, p. 157) reported that in 1764 there was a settlement on this island containing not less than 400 people.

Samalga Pass: water passage, between Samalga and Chuginadak Islands, Aleutian Islands; 52° 47' N, 169° 28' W; (map 21). Name derived from Samalga Island; published by USC&GS in 1947 Coast Pilot (p. 423).

Samaloch-kiya: ridge, see Samalogh Ridge.

Samalogh Ridge: ridge, 658 ft., 0.7 miles long, on W end of St. George Island, in Pribilof Islands; 56° 36' N, 169° 44' W; (map 38). Variant: Samaloch-kiya, Samalogh-kiya. Aleut name given by Putnam (1903, p. 1015), USC&GS, as "Samaloch-kiya," meaning "ridge where eggs are gathered * * * the bluffs at each end of this ridge are covered with myriads of birds * * *."

Samalogh-kiya: ridge, see Samalogh Ridge.

Samatra Creek: stream, see Sumatra Creek.

Samdan: locality, see Sumdum.

Samganooda Bay: bay, see English Bay.

Samganoodha Bay: bay, see English Bay.

Samganuda Bay: bay, see English Bay.

Samla'logh-chuka': depression, on bluff line 1.2 miles W of High Bluffs, on NW coast of Saint George Island, in Pribilof Islands; 56° 36' 35" N, 169° 42' 30" W; (map 38). Aleut name reported by Putnam (1903, p. 1015), USGS, as "Samla'logh-chuka" meaning "hollow where eggs are gathered * * * remarkable depression * * * natives let themselves down with ropes over the edge of this bluff to gather birds' eggs."

Sammy Creek: stream, flows SW 3.5 miles to Squaw Lake, 11 miles NE of Chandalar, Brooks Range; 67° 36' 30" N, 148° 10' 00" W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Samoi Islands: islands, see Scraggy Islands.

Samoilof Islands: islands, see Scraggy Islands.

Samovar Hills: mountain range, 6,000 ft., extends 12 miles E-W between Agassiz, Seward, and Malaspina Glaciers, 55 miles NW of Yakutak, St. Elias Mountains; 60° 10' N, 140° 41' W; (map 66). Named by Island C. Russell in 1890. A samovar is a Russian urn used for heating water to make tea.

Samoylov, Ostrov: islands, see Scraggy Islands.

Sampson Creek: stream, flows NW 2.4 miles to Nome River, 16 miles NE of Nome, Seward Peninsula Highlands; 64° 44' N, 165° 18' W; (map 94). Local name published in 1900 by

USC&GS on Chart 9380. Name commemorates Rear Adm. William Thomas Sampson, 1840-1902, USN, who during the Spanish-American War, had active command of various functions including the investigation of the sinking of the U.S.S. Maine.

Sampson Creek: stream, flows SE to Snowshoe Creek which flows to Cripple River, about 33 miles NW of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Sams Big Lake: lake, 0.7 miles across, 19 miles NW of Chalkyitsik, Yukon Flats; 66° 55' N, 143° 52' W; (map 120). Local name obtained in 1956 by T. E. Taylor and R. C. Foley, USGS.

Samsing Cove: bay, 0.6 miles across, 5 miles S of Sitka, on W coast of Baranof Island, Alexander Archipelago 56° 59' N, 135° 21' W; (map 6). Local fishermen's name reported in 1947 by USC&GS.

Samuel, Point: point of land, on W coast of Killisnoo Island, 2.5 miles SW of Angoon, off W coast of Admiralty Island, Alexander Archipelago, 57° 28' 15" N, 134° 36' 30" W; (map 9). Variant: Samuels Point. Named in 1794 by Capt. George Vancouver RN, for Samuel Hood, 1724-1816, First Viscount and an English admiral. The point was discovered by Lt. Joseph Whilbey, RN, of Capt. Vancouver's party about July 21, 1794 (Wagner, 1937, p. 407).

Samuels Point: point of land, see Samuel, Point.

San Adrian Island: island, 800 ft. long, in Ulloa Channel, on NE coast of Suemez Island, Alexander Archipelago; 55° 19' 10" N, 133° 17' 45" W; (map 4). Variant: Islas de San Adrian, Ostrov San Adriyan. Named "Ysla de San Adriano" by Francisco Antonio Maurelle and Don Juan de la Bodega y Quadra in 1779. This was published in Russian as "Os[trov] San Adriyan" by Lt. Sarichev (1826, map 21), IRN.

San Adriyan, Ostrov: island, see San Adrian Island.

San Ageda Point: point of land, see Agueda Point.

San Agustin, Cabo de: point of land, see Augustine, Cape.

San Agustin, Cabo: point of land, "in the Gulf of Esquibel at the south entrance to Bocas de Finas," Alexander Archipelago; (map 4). Name found on maps of the 1779 Arteaga expedition.

San Agustin, Monte: mountain, see Augustine Volcano.

San Alberti Bay: bay, see San Alberto Bay.

San Alberto Bay: bay, 7.5 miles long, between Prince of Wales and San Fernando Islands, Alexander Archipelago; 55° 28' N, 133° 14' W; BGN 1899; (map 4). Variant: Guba San Alverto, San Alberti Bay, Seno de San Alberto. Named "Seno de San Alberto," or "Saint Albert Bay," by Francisco Antonio Maurelle "about May 24, 1779, the day he entered it" (Wagner, 1937, p. 407).

San Alberto, Punta de: point of land, “the southeast point of Montague Island” opposite the Wooded Islands; (map 49). Named about July 29, or August 1, 1779, by Don Ignacio Arteaga.

San Alverto, Guba: bay, see San Alberto Bay.

San Angel, Isla de: island, see East Chugach Island.

San Aniceto, Isla: island, see Elizabeth Island.

San Antonio Bay: bay, see San Antonio, Port.

San Antonio Maurelle, Cabo de: point of land, see Felix, Cape.

San Antonio, Isla: island, see Latouche Island.

San Antonio, Islas: islands, Latouche and Elrington Islands off the E coast of Kenai Peninsula (map 49). Named by Juan y Zayas Martinez in 1788. See Wagner (1937, p. 496).

San Antonio, Point: point of land, on W coast of Prince of Wales Island, near S entrance to Ulloa Channel, Alexander Archipelago; 55° 17' 10" N, 133° 14' 00" W; (map 4). Variant: Punta de San Antonio. Spanish name given in 1779 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as “Punta de San Antonio,” meaning “Point of Saint Anthony.”

San Antonio, Port: bay, extends NW 3 miles, off Bucareli Bay, on E coast of Baker Island, Alexander Archipelago; 55° 20' N, 133° 33' W; (map 4). Variant: Puerto de San Antonio, San Antonio Bay. Named “Puerto de San Antonio,” or “Port of Saint Anthony,” on May 18, 1779, by Francisco Antonio Maurelle (Wagner, 1937, p. 407).

San Antonio, Punta de: point of land, see Maria Antonia, Punta de.

San Augustine, Mount: mountain, see Augustine Volcano.

San Bartolome, Cabo de: point of land, see Bartolome, Cape.

San Bernabe, Cabo: point of land, see Barnabas Cape.

San Blas Island: island, see Forrester Island.

San Bonifacio, Mys: point of land, see Saint Boniface, Point.

San Bonifacio, Punta de: point of land, see Saint Boniface, Point.

San Carlos Island: island, see Forrester Island.

San Carlos, Punta de: point of land, "the south point to the entrance of Port Etches, on Hinchinbrook Island"; (map 64). Named in July, 1779, by Don Ignacio Arteaga during his stay in Port Etches.

San Christoval Channel: water passage, extends SE 6 miles, from Gulf of Esquibel to San Alberto Bay, Alexander Archipelago; 55° 33' N, 133° 20' W; (map 4). Variant: Canal de San Christoval Canal de San Cristoval. Named "Canal de San Cristoval," or "Saint Christopher Channel," by Francisco Antonio Maurelle on May 24, 1779, the day he passed through it (Wagner, 1937, p. 408).

San Christoval Rock: rock, between San Christoval Channel and San Alberto Bay, E of Cruz Island, Alexander Archipelago; 55° 33' 50" N, 133° 17' 40" W; (map 4) Taken from the Spanish name meaning "St. Christopher," published in 1917 by USC&GS.

San Christoval, Canal de: water passage, see San Christoval Channel.

San Clemente Island: island, 1,600 ft. long, in Portillo Channel, between Lulu and San Fernando Islands, Alexander Archipelago; 55° 28' 25" N, 133° 24' 30" W; BGN 1923; (map 4). Variant: Clam Island, Clement Island, Clem Island, Isla San Clemente, Ostrov San Klementa, Ysla de San Clemente. Spanish name given in 1779 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Isle San Clemente," i.e. "Saint Clement Island."

San Cosme, Punta: point of land, "in east part of Bucareli Bay, at the entrance to Trocadero Bay, on Prince of Wales Island," Alexander Archipelago; (map 4). Name found on the maps of the 1779 Arteaga expedition (Wagner, 1937, p. 498).

San Cristoval, Canal de: water passage, see San Christoval Channel.

San Diego Bay: bight, 1 mile across, on W shore of Stepovak Bay, near SW end of Alaska Peninsula, Aleutian Range; 55° 33' 30" N, 160° 26' 30" W; (map 28). This local name was reported by Atwood (1911, pl. 2), USGS.

San Diego Island: island, see Guillemot Island.

San Dionisio, Punta: point of land, on Santa Rita Island in Bucareli Bay," Alexander Archipelago; (map 4). Spanish name found on the maps of the 1779 Arteaga expedition (Wagner, 1937, p. 498).

San Elias, Cabo de: point of land, see Suckling, Cape.

San Eugenio, Punta: point of land, see Eugenia, Point.

San Eusebio, Punta: point of land, "on southwest side of St. Ignace Island in Bucareli Bay," Alexander Archipelago; (map 4). Spanish name found on the maps of the 1779 Arteaga expedition (Wagner, 1937, p. 499).

San Faustino, Punta: point of land, "on the east side of San Juan Bautista Island in Bucareli Bay," Alexander Archipelago; (map 4). Named about June 2, 1779, by Francisco Antonio Maurelle, "although the day of the Saint is May 22" (Wagner, 1937, p. 499).

San Federico, Punta de: point of land, "at the south entrance to Port Gravina," Alexander Archipelago; (map 64). Named by "Fidalgo June 10, 1790, no doubt after Federico Gravina, whose name was given to the bay [Port Gravina]" (Wagner, 1937, p. 499).

San Felipe, Isla: island, see Saint Philip Island.

San Feliz, Cabo de: point of land, see Felix, Cape.

San Fernando Island: island, 8 miles long, 5.6 miles W of Craig, W of Prince of Wales Island, Alexander Archipelago; 55° 30' N, 133° 20' W; (map 4). Variant: Isla San Fernando, Ostrov San Fernando. Named "Isle San Fernando," i.e. "Saint Ferdinand Island," by Francisco Antonio Maurelle who "reached the southern point of this island on the night of May 21, 1779. He again anchored at this point May 30 and probably named the island at that time in honor of San Fernando, King of Spain, whose day it was" (Wagner, 1937, p. 409).

San Filip, Ostrov de: island, see Saint Philip Island.

San Francisco Creek: stream, flows E 4 miles to Eldorado River near its head, 25 miles NW of Solomon, Seward Peninsula Highlands; 64° 51' N, 164° 58' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

San Francisco Creek: stream, flows NE 3.4 miles to Pargon River, 17 miles NE of Council and 40 miles E of Imuruk Lake, Seward Peninsula Highlands 65° 00' N, 163° 09' W; (map 110). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr. dated 1901.

San Francisco Island: island, 500 ft. long, in St. Nicholas Channel, on W coast of Lulu Island, Alexander Archipelago; 55° 29' 15" N, 133° 34' 25" W; (map 4). Variant: Isla San Francisco, Ysla de San Francisco. Named "Ysla de San Francisco," i.e. "Island of Saint Francis," probably by Don Ignacio Arteaga in 1779, as the name is found only on the maps of this expedition.

San Francisco, Isla: island, see San Francisco Island.

San Francisco, Point: point of land, on E coast of Noyes Island, Alexander Archipelago; 55° 30' 20" N, 133° 35' 00" W; (map 4). Named by the 1779 Arteaga expedition (Wagner, 1937, p. 409).

San Francisco, Ysla de: island, see San Francisco Island.

San Gonzalo, Isla: island, see Unimak Island.

San Goze, Ostrov: island, Saint Joseph Island.

San Ignacio, Isla: island, see Saint Ignace Island.

San Ignatsa, Ostrov: island, see Saint Ignace Island.

San Ildefonso, Punta: point of land, see Ildefonso, Point.

San Island: island, 0.8 miles wide, SW El Capitan Passage, Alexander Archipelago; 55° 56' 15" N, 133° 21' 15" W; BGN 1932; (map 4). Variant: Middle Island Sankhat, Sankat Island. Tlingit Indian name meaning "middle"; given in 1932 by USC&GS. The translated name was published for this island in 1925 Coast Pilot (p. 154). "San-Kat means 'middle island.'"

San Isodoro, Punta de: point of land, see Saint Isodoro, Point.

San Izidor, Mys: point of land, see Saint Isidor, Point.

San Jacinto, Montana de: mountains, on Kruzof Island, Alexander Archipelago; (map 9). Don Juan de la Bodega y Quadra's 1775 map shows three mountains with the notation that they terminate at the Cabo de Engano (Engano Point). One of these must have been Mount Edgecumbe (Wagner, 1937, p. 501).

San Jacinto, Mount: volcano, see Edgecumbe, Mount.

San Jean Bautista Island: island, see San Juan Bautista Island.

San Jose Creek: stream, flows W 4 miles to Eldorado River, 20 miles NW of Solomon, Seward Peninsula Highlands; 64° 44' N, 164° 59' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

San Jose, Point: point of land, N point of entrance to Port Santa Cruz, on W coast of Suemez Island, Alexander Archipelago; 55° 17' 25" N, 133° 27' 15" W; (map 4). Variant: Mys San Khosy, Punta de San Jose, Punta San Josef. Spanish name given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Punta de San Jose," or "Point of Saint Joseph."

San Josef, Punta: point of land, see San Jose, Point.

San Josep, Isla de: island, see Saint Joseph Island.

San Joseph, Isla: island, see Saint Joseph Island.

San Juan Bautista Island: island, 4.5 miles long, between Bucareli Bay and Ursua Channel W of Prince of Wales Island, Alexander Archipelago; 55° 26' N, 133° 16' W; BGN 1899; (map 4). Variant: Isla San Juan Bautista, Ostrov de San Khuan Batista, San Jean Bautista Island. The name "Isle San Juan Bautista," i.e. "St. John the Baptist Island," was given to this feature by Francisco Antonio Maurelle who "in his exploration of the bay [Bucareli] examined the northern part of this island on May 30, 1779, but no doubt he had discovered it before" (Wagner, 1937, p. 410).

San Juan Bay: bay, 2.8 miles across, on SW end of Montague Island, 58 miles SE of Seward, Chugach Mountains; 59° 49' N, 147° 55' W; (map 49). Local name reported in the early 1950's by USC&GS.

San Juan Cannery: locality, on E coast of Evans Island, at SW end of Sawmill Bay, 17 miles S of Chenega, Chugach Mountains; 60° 03' N, 148° 04' W; (map 63). Variant: San Juan. Name published in 1943 by USC&GS.

San Juan Islands: islands, in Pybus Bay, E of Admiralty Island, 6 miles W of The Brothers and 53 miles E of Sitka, Alexander Archipelago; 57° 17' 30" N, 134° 00' 00" W; (map 8). Name reported in 1924; published in 1928 by USC&GS.

San Juan: locality, see San Juan Cannery.

San Juanito Island: island, 200 ft. long, in Bucareli Bay, 0.3 miles E of Point Miliflores, the SE tip of San Juan Bautista Island, Alexander Archipelago; 55° 24' 30" N, 133° 14' 40" W; (map 4). Variant: Isla San Juanito, San Khuyenito. Named "Isle San Juanito" or "Saint John Island," by Francisco Antonio Maurelle "about June 2, 1779, perhaps after San Juan de la Cruz, whose day is May 21" (Wagner, 1937, p. 410).

San Juanito, Isla: island, see San Juanito Island.

San Khosy, Mys: point of land, see San Jose, Point.

San Khuan Batista, Ostrov de: island, see San Juan Bautista Island.

San Khuyenito: island, see San Juanito Island.

San Klementa, Ostrov: island, see San Clemente Island.

San Leonardo, Point: point of land, on W coast of Saint Ignace Island, Alexander Archipelago; 55° 24' 15" N, 133° 26' 35" W; (map 4). Variant: Punta de San Leonardo, Saint Leonard Point. Spanish name given in 1779 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Punta de San Leonardo," i.e. "Point of Saint Leonard."

San Lorenzo Island: islands, see San Lorenzo Islands.

San Lorenzo Islands: islands, extend 1.6 miles, form S point of Maurelle Islands, W of Gulf of Esquibel, Alexander Archipelago; 55° 35' 45" N, 133° 37' 00" W; BGN 1917; (map 4). Variant: Isla San Lorenzo, San Lorenzo Island, Ysla de San Lorenzo. Spanish name given about May 23, 1779, by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Isle San Lorenzo," or "Saint Lawrence Island."

San Luis, Punta de: point of land, see Hinchinbrook, Cape.

San Nicholas Canal: water passage, see Saint Nicholas Channel.

San Nicholas Channel: water passage, see Saint Nicholas Channel.

San Nicolao Point: point of land, see Saint Nicholas Point.

San Nicolao, Puerto de: estuary, see Saint Nicholas, Port.

San Nicolas Channel: water passage, see Saint Nicholas Channel.

San Nicolas, Canal de: water passage, see Saint Nicholas Channel.

San Nicolas, Puerto de: estuary, see Saint Nicholas, Port.

San Nicolo Channel: water passage, see Saint Nicholas Channel.

San Nicolo Point: point of land, see Saint Nicholas Point.

San Nikola, Kanal de: water passage, see Saint Nicholas Channel.

San Nikolay, Mys de: estuary, see Saint Nicholas, Port.

San Pablo, Punta: point of land, "on east end of San Juan Bautista Island in Bucareli Bay," Alexander Archipelago; (map 4). Named about May 30, 1779, by Francisco Antonio Maurelle (Wagner, 1937, p. 506).

San Pascual Point: point of land, see San Pasqual, Point.

San Paskala, Mys: point of land, see San Pasqual, Point.

San Pasqual, Point: point of land, on N coast of San Fernando Island, Alexander Archipelago; 55° 34' 10" N, 133° 23' 10" W; BGN 1923; (map 4). Variant: Mys San Paskala, Punta de San Pasqual Punta San Pasqual, San Pascual Point. Named "Punta San Pasqual," i.e. "Saint Pasqual Point," about May 27, 1779, by Francisco Antonio Maurelle, perhaps after San Pasqual Bailon whose day is May 17 (Wagner, 1937, p. 412). In 1923 the location of this feature was formally defined by USC&GS; previously, it was confused with Point Santa Rosalia, 1 mile to the west.

San Pedro y San Pablo: mountain, see Four-peaks Mountain.

San Rafael, Point: point of land, on SE coast of Saint Ignace Island, in Bucareli Bay, Alexander Archipelago; 55° 23' 10" N, 133° 25' 00" W; (map 4). Variant: Mys San Rafayel, Punta de San Rafael. Named "Punta de San Rafael," i.e. "Point of Saint Raphael," by Francisco Antonio Maurelle "about May 21, 1779, perhaps after San Rafael whose apparition is celebrated May 7" (Wagner, 1937, p. 412-413).

San Rafayel, Mys: point of land, see San Rafael, Point.

San Ramon, Punta de: point of land, the N tip of Kayak Island, 1 mile NW of Lemesurier Point; 60° 01' N, 144° 14' W; (map 64). Named about July 17, 1779, by Don Ignacio Arteaga.

San Roch, Point: point of land, see San Roque, Point.

San Rok, Mys: point of land, see San Roque, Point.

San Roque, Point: point of land, N point of entrance to Port San Antonio, on E coast of Baker Island, Alexander Archipelago; 55° 20' 10" N, 133° 32' 35" W; (map 4). Variant: Mys San Rok,

Point San Roch, Punta de Carrizales, Punta de San Roque, Reed Grass Point. Named "Punta de San Roque," or "Point of Saint Roque," on "May 18 or 19, 1779," by Francisco Antonio Maurelle (Wagner, 1937, p. 413). This may also be the point called "Punta de Carrizales," another time by the same expedition.

San Salvador, Punta: point of land, "on Santa Rita Island northeast of Baker Island, Bucareli Bay," Alexander Archipelago; (map 4). Named about May 21, 1779, by Francisco Antonio Maurelle. Perhaps the reference in the name is to the Renovacion del Senor which is celebrated May 19, "as there is no San Salvador, strictly speaking" (Wagner, 1937, p. 507).

San Sebastian, Mys: point of land, see Saint Sebastian, Point.

San Sebastian, Punta: point of land, see Saint Sebastian, Point.

San Silbestre, Mys de: point of land, see Silvester Point.

San Silvestre, Punta: point of land, see Silvester Point.

San Tomas, Mys: point of land, see Saint Thomas, Point.

San Ygnacio, Ysla de: island, see Saint Ignace Island.

San Yldefonso, Punta de: point of land, see Ildefonso, Point.

San Ysidoro, Punta de: point of land, Saint Isidor, Point.

Sanachno, Cape: point of land, see Tatik Point.

Sanaguich River: stream, flows N 24 miles to Shishmaref Inlet, 16 miles SE of Shishmaref, Kotzebue-Kobuk Lowland; 66° 07' N, 165° 07' W (map 112). Eskimo name reported in 1901 by T. G. Gerdine, USGS.

Sanak Bank: shoal, 15 miles long, 30 miles SE of Sanak Islands, Aleutian Range; 54° 07' N, 161° 20' W; (map 25). Variant: Sannak Bank, Sannakh Bank. Name given in 1888 by USBF as "Sannakh Bank."

Sanak Harbor: harbor, 0.3 miles across, on NW coast of Sanak Island, Aleutian Range; 54° 29' 10" N, 162° 49' 10" W; BGN 1919; (map 25). Variant: Acherk Harbor. Name derived from Sanak Island and reported by USC&GS in 1919. This harbor is shown on a sketch published by Capt. Tebenkov (1852, map 24), IRN, entitled "Ochyerk Gavanina NW Stor O[stro]va Sannakh" meaning "Sketch of the harbor in the northwest part of the island of Sannakh." The USC&GS misinterpreted this title and published the name Acherk [sketch] Harbor on Charts 817 and 8901 in 1875.

Sanak Island: island, 13 miles long, largest of Sanak Islands, 37 miles SE of False Pass, Aleutian Range; 54° 25' N, 162° 40' W; BGN 1919; (map 25). Variant: Halibut Island, Issanakh Island, Islas des Plies, Sannach Island, Sannak Island, Sannakh Island. Aleut name published by G. A. Sarichev (1826, map 3) as "Os[trov] Sannakh," or "Sannakh Island." The name "Halibut" was given to this island by Capt. James Cook, RN (1785, v. 2, p. 416-417),

because his crew caught more than 100 halibut weighing from 20 to 100 pounds each, off the coast in 1778. The island was called "Isles des Plies [pez]" meaning "islands of fish" by Don Dionisoi A. Galiano (1802, Atlas Chart 3). The name was shortened to Sanak by the U.S. Post Office Department in 1919 when it established a post office at Sanak village.

Sanak Islands: islands, in a group 21 miles long and 8 miles wide, 25 miles SE of Unimak Island, Aleutian Range; 54° 23' N, 162° 35' W; (map 25). Variant: Isannak Islands, Sannak Islands, Sannakh Islands. This group consists of two large islands (Sanak and Caton), Sanak Island being the larger of the two, and numerous small islands and rocks. These islands were reported by Capt. Cook (1785, v. 2, p. 416), RN; The name was published as "Sannakh" by USBF in 1888.

Sanak Peak: mountain, 1,740 ft., on Sanak Island, Aleutian Range; 54° 27' 40" N, 162° 45' 00" W; (map 25). Variant: Halibut Head. Name derived from Sanak Island and published by Baker (1906, p. 550). This feature was named Halibut Head by Capt. Cook (1785, v. 2, p. 415), RN.

Sanak Reef: reefs, see Sanak Reefs.

Sanak Reefs: reefs, 10 miles long, off S coast of Sanak Island, Aleutian Range; 54° 20' N, 162° 42' W; (map 25). Variant: Sanak Reef. Name derived from Sanak Island and published by USC&GS in 1943 as Sanak Reef.

Sanak: village, pop. 39 (1940), on E shore of Sanak Harbor, on NW coast of Sanak Island, Aleutian Range; 54° 29' 54" N, 162° 48' 40" W; BGN 1919; (map 25). Variant: Sannak. Aleut village reported in the 1890 Census as "Sannak," population 132 (1893, p. 163). The Sannak post office was established in 1909; discontinued in 1953 (Ricks, 1965, p. 56).

Sanakno, Cape: point of land, see Tatik Point.

Sanborn Canal: estuary, see Sandborn Canal.

Sanborn Harbor: bay, extends SE 8 miles inland from Pacific Ocean, on W coast of Nagai Island, in Shumagin Islands, Aleutian Range; 55° 10' N, 160° 04' W; (map 28). Named for the schooner I. D. Sanborn commanded by Capt. William Morse, who discovered the harbor in 1866, published in 1872 by USC&GS.

Sancho Creek: stream, see Schieffelin Creek.

Sanctuary River: stream, flows N 26 miles to Teklanika River, 18 miles SW of Healy, Alaska Range; 63° 49' N, 149° 31' W; (map 87). Local name shown on a 1916 fieldsheet by C. E. Giffin, USGS.

Sand Bar Creek: stream, see Duck Creek.

Sand Bay: bay, 2.5 miles across, on S coast of Great Sitkin Island, Aleutian Islands: 51° 59' N, 176° 08' W; BGN 1936; (map 17). Descriptive name given by members of the U.S. Navy Aleutian Island Survey Expedition in 1933.

Sand Bay: bay, see Martin Harbor.

Sand Bay: cove, 0.5 miles across, on E shore of Stephens Passage, 3 miles S of Point Astley and 51 miles SE of Juneau, Coast Mountains; 57° 40' 40" N, 133° 39' 30" W; (map 8). Local descriptive name reported by Spencer and Wright (1906, fig. 4), USGS.

Sand Beach, The: beach, on Barlow Cove on W part of Mansfield Peninsula, 1.6 miles SE of Point Retreat and 20 miles NW of Juneau, Alexander Archipelago; 58° 23' 30" N, 134° 56' 00" W; (map 11). Descriptive name published in 1962 by USGS.

Sand Bluff: bluff, on left bank of Koyukuk River, 23 miles SW of Roundabout Mountain, Koyukuk Lowland; 65° 27' N, 157° 18' W; (map 108). Local name obtained at Huslia by USGS in 1954 or 1955.

Sand Creek: stream, flows E 4 miles to Beaver Creek, 5.5 miles E of Victoria Mountain and 77 miles W of Circle, Yukon-Tanana Highlands; 65° 47' 30" N, 146° 42' 30" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Sand Creek: stream, flows E 6.5 miles to Martin Creek, 23 miles NW of Talkeetna, Alaska Range; 62° 23' 50" N, 150° 47' 40" W; (map 81). Local descriptive name reported in 1958 by USGS.

Sand Creek: stream, flows SE 9 miles to Goodpaster River, 22 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 15' N, 145° 09' W; (map 101). Named by prospectors and reported in 1908 by J. W. Bagley, USGS.

Sand Creek: stream, flows SW through Sand Lake and other lakes, 34 miles to Tanana River, 49 miles NW of Tok, Tanana Lowland; 63° 43' 35" N, 144° 17' 45" W; (map 86). Descriptive name reported on 1907 fieldsheet by D. C. Witherspoon, USGS.

Sand Harbor: bay, see Martin Harbor.

Sand Hill Gap: water gap, of Meadow Creek, 25 miles W of Beaver, Yukon Flats; 66° 19' N, 148° 17' W; (map 118). Local descriptive name obtained in 1956 by USGS.

Sand Hills: hills, 380 ft., extend NE 11 miles from Sand Hill Gap, 18 miles W of Beaver, Yukon Flats; 66° 20' N, 148° 06' W; (map 118). Probably named by William Yanert who showed it on a 1916 manuscript map of the Yukon Flats (Stuck, 1917, map facing p. 122).

Sand Island: island, 0.1 miles across, at mouth of Hood Bay, on W coast of Admiralty Island, 4 miles S of Angoon, Alexander Archipelago; 57° 26' 45" N, 134° 33' 10" W; (map 9). Descriptive name published by USC&GS in the 1891 Coast Pilot (p. 157). "The island is low and sandy, therefore the name."

Sand Island: island, see Sumdum Island.

Sand Islands: barrier islands, consist of Krekatok and Neragon Islands, extend N-S 15 miles between Bering Sea and Scammon Bay, Yukon-Kuskokwim Delta; 61° 59' N, 165° 58' W;

(map 75). Variant: Sandy Islands. Named by Dall (1870, p. 263) who wrote "Seven miles off the coast are two long islands, or dry sand-bars, known as the Sandy Islands."

Sand Islands: islands, see Beardslee Islands.

Sand Lake: lake, 0.7 miles long, 5 miles SW of Anchorage, Cook Inlet Lowland; 61° 09' 06" N, 149° 57' 45" W; (map 69). Local name reported in 1942 by AMS.

Sand Lake: lake, 0.8 miles long, N of Dathlalmund Lake, 19 miles SE of Tok, Alaska Range; 63° 06' N, 142° 37' W; (map 85). Local name published by USGS in 1964.

Sand Lake: lake, 2.3 miles long, in course of Sand Creek, 48 miles NW of Tok, Yukon-Tanana Highlands; 63° 45' 30" N, 144° 15' 30" W; (map 86). Name published on relatively recent maps.

Sand Point: point of land, on N shore of Whitewater Bay, on Admiralty Island, 18 miles S of Angoon, Alexander Archipelago; 57° 14' 35" N, 134° 34' 40" W; (map 9). Descriptive name published by USC&GS in the 1943 Coast Pilot (p. 337). So named because "it is composed of sand."

Sand Point: point of land, see Williwaw Point.

Sand Point: spit, 0.5 miles long, on W coast of Popof Island, in Shumagin Islands, Aleutian Range; 55° 19' 10" N, 160° 31' 30" W; (map 28). This flat sandy spit was named in 1872 by W. H. Dall, USC&GS.

Sand Point: village, pop. 254, on Humboldt Harbor, on NW coast of Popof Island, in Shumagin Islands, Aleutian Range; 55° 20' 15" N, 160° 30' 00" W; (map 28). Variant: Sandpoint. Fishing village which obtained a post office in 1891. Its population was 60 in 1920; 69 in 1930; 99 in 1939; and 107 in 1950.

Sandborn Canal: estuary, trends NW 4 miles to Port Houghton on Stephens Passage, 80 miles NE of Sitka, Coast Mountains; 57° 17' 30" N, 133° 15' 30" W; BGN 1966; (map 8). Variant: Sanborn Canal, Walter Island Arm. Local name reported in 1961. It was called Walter Island Arm in 1954 by USGS.

Sanders Cape: point of land, on W shore of Temnac Bay, Attu Island, Aleutian Islands, 52° 48' 00" N, 173° 00' 05" E; (map 13). Variant: Sanders Point. Named by the U.S. Army during its occupation of the island during World War II; shown on an AMS map published in 1948.

Sanders Creek: stream, see Saunders Creek.

Sanders Point: point of land, see Sanders Cape.

Sanderson Creek: stream, flows NW 5 miles to Lignite Creek, 9 miles NE of Healy, Alaska Range; 63° 55' 15" N, 148° 42' 15" W; (map 87). Prospectors' name reported in 1910 by S. R. Capps (in Brooks and others, 1918, pl. 17), USGS.

Sandfly Bay: estuary, extends N 0.7 miles off Portland Canal, 4.2 miles SW of Halibut Bay, Coast Mountains; 55° 09' 30" N, 130° 09' 00" W; (map 3) Descriptive name given in 1868 by Staff Comdr. David Pender, RN, "for obvious reasons."

Sandford Cove: cove, see Sanford Cove.

Sandless Lake: lake, 0.6 miles long, 4.2 miles SE of junction of Flume Creek and Bearpaw River and 33 miles NNE of Wonder Lake, Tanana Lowland; 63° 57' 45" N, 150° 40' 45" W; (map 88). Local name reported in 1954 by USGS.

Sandman Reefs: reefs, 28 miles long, 10 miles S of Deer Island, Aleutian Range; 54° 42' N, 162° 15' W; (map 25). Named for Capt. Sandman of the Alaska Commercial Company, given by W. H. Dall, USC&GS, and published in 1882 by USC&GS on Chart 806.

Sandpiper Lake: lake, 0.6 miles long, on Kenai Peninsula, 23 miles SW of Anchorage, Cook Inlet Lowland; 61° 00' 15" N, 150° 24' 25" W; (map 70). Named about 1963 for administrative purposes by officials of the Kenai National Moose Range.

Sandspit Point: point of land, on E coast of Renard Island, 14 miles SE of Seward, Chugach Mountains; 59° 56' 25" N, 149° 18' 20" W; (map 49) Local name reported in the early 1950's by USC&GS.

Sandstone Bluff: bluff, on right bank of Yukon River, 58 miles E of Nulato, Kokrines-Hodzana Highlands; 64° 44' N, 156° 05' W; (map 97). Local descriptive name reported in 1954 by USGS.

Sandusky Creek: stream, flows NW 3.7 miles to Stevens Creek, 3.4 miles N of Roughtop Mountain and 37 miles ENE of Tanana, Yukon-Tanana Highlands; 65° 14' N, 150° 50' W; BGN 1965; (map 106). Prospectors' name reported in 1963 by Bond Taber, USGS, as having "long local usage."

Sandwich Sound: gulf, see Prince William Sound.

Sandy Bay: bay, 0.4 miles across, 20 miles NW of village of Port Armstrong, on S coast of Baranof Island, Alexander Archipelago; 56° 28' N, 134° 59' W; (map 5). Variant: Peschanaia Bay, Peshchannaya Bukhta. This is a translation by USC&GS about 1882 of the name "Peshchannaya B[ukhta]" given in 1850 by the Russian American Company.

Sandy Bay: bay, 1.2 miles across, on S central coast of Sanak Island, Aleutian Range; 54° 23' 20" N, 162° 41' 00" W; (map 25). Descriptive name reported by Ferdinand Westdahl, USC&GS, commander of the Coast Survey steamer McArthur, who made surveys in this area in 1901.

Sandy Bay: bay, 1.8 miles wide, on SE coast of Kenai Peninsula, SW of Harris Point, 39 miles SW of Seward, Chugach Mountains; 59° 39' N, 149° 58' W; (map 49). Local name reported in the early 1950's by USC&GS.

Sandy Bight: bight, 0.1 miles across, at mouth of Red Bay, on N coast of Prince of Wales Island, Alexander Archipelago; 56° 19' 20" N, 133° 17' 10" W; (map 6). Named in 1886 by Lt. J. M. Helm, USN, for charting purposes; published in 1887 on USC&GS Chart 706.

Sandy Cove: bay, 1.5 miles across, between Morzhovoi Bay and Deer Island, SW end of Alaska Peninsula, Aleutian Range; 54° 56' N, 162° 48' W; (map 25) Descriptive name published in the 1926 Coast Pilot (p. 214).

Sandy Cove: cove, 0.5 miles across, on NE coast of Akutan Island, S of Ridge Point, in Krenitzin Islands, Aleutian Islands; 54° 10' 25" N, 165° 48' 00" W; (map 24). Named in 1901 by J. J. Gilbert, USC&GS.

Sandy Cove: cove, 0.7 miles long, W of Deep Inlet, 4.5 miles S of Sitka, Alexander Archipelago; 56° 59' N, 135° 19' W; (map 5). Variant: Pestchania, Zaliv Peshchanyy. This is a translation by USC&GS of the name given in 1809 by the navigator Ivan Vasiliev the first, IRN. Lt. Sarichev (1826, map 19), IRN, published it as "Z[aliv] Peschanyy."

Sandy Cove: cove, 1.2 miles across, on E coast of Little Koniuji Island, in Shumagin Islands, Aleutian Range; 55° 02' N, 159° 21' W; (map 27). Named by W. H. Dall, USC&GS, in 1874 and published in 1888.

Sandy Cove: cove, 1.2 miles across, on E shore of Glacier Bay, in Glacier Bay National Monument, 2 miles N of Leland Island and 53 miles NW of Juneau, St. Elias Mountains; 58° 42' 15" N, 135° 59' 45" W; BGN 1948; (map 11). Descriptive name given in 1892 by H. F. Reid (1896,p.426).

Sandy Cove: cove, see Arena Cove.

Sandy Creek: stream, see Camp Creek.

Sandy Hook: bar, on left bank of Yukon River, 39 miles E of Nulato, Koyukuk Lowland; 64° 43' N, 156° 16' W; (map 97). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by U.S. Dept. of Interior.

Sandy Island: island, see Galankin Island.

Sandy Islands: barrier islands, see Sand Islands.

Sandy Lake: lake, 0.8 miles across, 10 miles S of Imurak Lake, Seward Peninsula Highlands; 65° 28' N, 163° 13' W; (map 110). Local descriptive name reported in 1951 by USGS.

Sandy Point: point of land, N point of entrance to Twelvemile Arm Kasaan Bay, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 33' 20" N, 132° 31' 15" W; (map 4). Descriptive name given in 1886 by Lt. Comdr. R. C. Clover, USN.

Sandy Point: point of land, see Anchorage Point.

Sandy Point: point of land, see Peschani Point.

Sandy River: stream, on W end of Unimak Island Aleutian Islands; 54° 30' N, 164° 50' W; (map 24). Variant: Peschanaya. Translation of the descriptive name Peschanaya published by Father Veniaminov (1840, v. 1, p. 214-215).

Sanford Cove: cove, 1 mile across, on S shore of Endicott Arm, 2 miles SW of Sumdum Island and 55 miles SE of Juneau, Coast Mountains; 57° 41' N, 133° 29' W; BGN 1900; (map 8). Variant: Sandford Cove. Named in 1889 by Comdr. R. W. Meade USN, for Lawson Sanford, a member of his survey party. The name was published by USC&GS in 1891 Coast Pilot (p. 148).

Sanford Glacier: glacier, trends SW 12 miles from Mount Sanford to its terminus at head of Sanford River, Wrangell Mountains; 62° 08' 30" N, 144° 27' 30" W; (map 83). Name taken from mountain and river of the same name. See Sanford, Mount.

Sanford River: stream, flows NW 24 miles from Sanford Glacier terminus to Copper River, 8.5 miles NE of Gulkana, Copper River Basin; 62° 20' 30" N, 145° 10' 00" W; (map 83). Named in 1885 by Lt. H. T. Allen, USA. See Sanford, Mount.

Sanford, Mount: mountain, 16,237 ft., 40 miles E of Gulkana, Wrangell Mountains; 62° 13' N, 144° 08' W; (map 83). Named in 1885 by Lt. Allen (1887, p. 59) USA, for the Sanford family; his great-grand. father was Reuben Sanford. It was first climbed July 21, 1938, by Terris Moore and Bradford Washburn (Farquhar, 1959, p. 230).

Sangaina Creek: stream, heads at lake and flows 10 miles N to Hanagita River, 37 miles NW of McCarthy, Chugach Mountains; 61° 15' N, 143° 58' W; (map 67). Local name reported in 1911 by D. C. Witherspoon, USGS.

Sanganoac, Paso de: water passage, see Akutan Pass.

Sanganooda, Port: bay, see English Bay.

Sangao Island: island, 0.5 miles long, between El Capitan and Prince of Wales Islands, Alexander Archipelago; 55° 00' 15" N, 133° 17' 45" W; (map 4). Local name published in 1964 by USC&GS.

Sango Creek: stream, flows N 5 miles to Arctic River, 12 miles NE of Ear Mountain and 52 miles NE of Teller, Seward Peninsula Highlands; 65° 58' N, 165° 49' W; (map 111). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Sanigaroak: stream, see Shaningarok Creek.

Sanigaruak Island: barrier island, 0.5 miles long, in Plover Islands, 31 miles SE of Barrow, Arctic Plain; 71° 11' N, 155° 24' W; (map 153). Eskimo name referring to the "crazy" or crosswise manner in which the island lies. It trends SW-NE rather than the normal NW-SE direction.

Sanigaruak Pass: water passage, between Martin and Sanigaruak Islands, in Plover Islands, 31 miles E of Barrow, Arctic Plain; 71° 12' N, 155° 24' W; (map 153). Probably named for the adjacent island with the same name.

Saninak Creek: stream, flows S 4 miles to Noatak River, 17 miles NE of Kotzebue, Kotzebue-Kobuk Lowland; 67° 08' 30" N, 162° 30' 00" W; (map 128). Variant: Suninuk Creek. Eskimo name meaning "bare spot" according to USC&GS in 1950.

Sanitarium: locality, see Goddard.

Sankat Island: island, see San Island.

Sankik: island, see Sankin Island.

Sankin Bay: bay, 1.5 miles across, part of Ikatan Bay, SW end of Aleutian Range; 54° 49' 30" N, 163° 17' 00" W; (map 25). Name derived from Sankin Island, given by W. H. Dall, USC&GS, and published in 1882 on USC&GS Chart 806.

Sankin Island: island, 0.2 miles long, in Ikatan Bay, SW end of Aleutian Range; 54° 58' 30" N, 163° 16' 20" W; (map 25). Variant: Sankik. Aleut name published by the Russian Hydrog. Dept. in 1847 on Chart 1379 as "O[strov] Sankik," or "Sankik Island." The name was published as Sankin by USC&GS in 1882 on Chart 806.

Sannach Island: island, see Sanak Island.

Sannak Bank: shoal, see Sanak Bank.

Sannak Island: island, see Sanak Island.

Sannak Islands: islands, see Sanak Islands.

Sannak: village, see Sanak.

Sannakh Bank: shoal, see Sanak Bank.

Sannakh Island: island, see Sanak Island.

Sannakh Islands: islands, see Sanak Islands.

Sanona Creek: stream, formed by Joe and Yako Creeks, flows NE 25 miles to Tyone Creek, 9.5 miles SE of junction of Oshetna and Susitna Rivers, Talkeetna Mountains; 62° 33' 20" N, 147° 08' 00" W; (map 82). Local name reported by F. H. Moffit (in Brooks and others, 1915, fig. 3), USGS.

Sanson, Punta de: point of land, "between Ports Estrella and Caldera on Prince of Wales Island in Bucareli Bay," Alexander Archipelago; (map 4). Spanish name found on maps of the 1779 Arteaga expedition (Wagner, 1937, p. 509).

Santa Agueda, Punta de: point of land, see Agueda Point.

Santa Ana, Playas de: beach, on Port Etches on Hinchinbrook Island; (map 64). Probably named in July 1779 by Don Ignacio Arteaga for the saint whose day is July 26.

Santa Anna Inlet: estuary, extends SE 2 miles, off Seward Passage, on NW coast of Cleveland Peninsula, Alexander Archipelago; 55° 59' 50" N, 131° 57' 30" W; (map 3). Local name published in 1901 by USC&GS. See Santa Anna.

Santa Anna, Point: point of land, between Santa Anna Inlet and Seward Passage, on NW coast of Cleveland Peninsula, Alexander Archipelago; 55° 59' 45" N, 131° 57' 55" W; (map 3). Local name published in 1901 by USC&GS.

Santa Anna: locality, on W coast of Cleveland Peninsula, at head of Santa Anna Inlet, Alexander Archipelago; 55° 58' 40" N, 131° 55' 40" W; (map 3). Local name published in 1901 by USC&GS. This is the site of a cannery which was abandoned in the late 1920's.

Santa Buenaventura, Punta: point of land, "on the east side of San Fernando Island in Bucareli Bay," Alexander Archipelago; (map 4). Spanish name found on the maps of the 1779 Arteaga expedition (Wagner, 1937, p. 509).

Santa Catalina Island: island, see Forrester Island.

Santa Christina Island: island, see Forrester Island.

Santa Clara, Rio de: stream, "the western mouth of the Copper River"; (map 64). Named about July 17, 1779, by Don Ignacio Arteaga (Wagner, 1937, p. 510).

Santa Cristina Island: island, see Forrester Island.

Santa Cruz Creek: stream, flows W 1.5 miles to Cache Creek which flows to Norton Sound, 9 miles NE of Solomon, Seward Peninsula Highlands; 64° 36' N, 164° 09' W; (map 95). Prospectors' name shown on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Santa Cruz, Port: bay, extends E 2.5 miles off Bucareli Bay, on W coast of Suemez Island, Alexander Archipelago; 55° 17' N, 133° 27' W; (map 4). Variant: Puerto de la Santa Cruz, Puerto de la Santissima Cruz, Zaliv de la Santa Krus. Named "Puerto de la Santissima Cruz," or "Port of the Most Holy Cross" by Lt. Arteaga, on "May 13, 1779, in remembrance of 'the finding of the Cross,' celebrated May 3, the day he reached the Port" (Wagner, 1937, p. 414).

Santa Efigenia, Punta de: point of land, see Iphigenia, Point.

Santa Flavia Bay: bay, extends NE 2.2 miles off Kiliuda Bay, W of Boulder Bay, on SE coast of Kodiak Island; 57° 17' N, 152° 52' W; (map 34). Spanish name published in 1943 by USC&GS. Saint Flavian lived in the fifth century.

Santa Gertrudis, Point: point of land, N tip of Lulu Island, Alexander Archipelago; 55° 31' 50" N, 133° 31' 15" W; (map 4). Variant: Point Saint Gertruda, Punta Santa Gertrudis, Saint Gertrude Point. Named "Punta Santa Gertrudis," or "Point Saint Gertrude," by the Spaniards in the 1770's, reportedly for the Spanish man-of-war Santa Gertrudis (Wagner, 1937, p. 414; Baker, 1906, p. 551).

Santa Ines, Punta de: point of land, "in Bucareli Bay, on east side of St. Ignace Island," Alexander Archipelago; (map 4). Spanish name found on the maps of the 1779 Arteaga expedition (Wagner, 1937, p 511).

Santa Inez, Isla de: island, "at entrance to Prince William Sound [as] shown on Camacho's map of 1779 south of Hawkins Island with two others to the northwest of it. In reality there are no such islands * * *." See Wagner (1937, p. 511).

Santa Krus, Zaliv de la: bay, see Santa Cruz, Port.

Santa Lucia Island: island, in San Christoval Channel, off N coast of San Fernando Island, SW of Prince of Wales Island, Alexander Archipelago; 55° 34' N, 133° 20' W; (map 4). Variant: Isla de Santa Lucia, Ostrov Santa Lutsia, Yslas de Santa Lucia. Spanish name given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Isle de Santa Lucia," or "Saint Lucy Island"; not shown on current sources.

Santa Lucia, Point: point of land, on N coast of San Fernando Island, Alexander Archipelago; 55° 34' 15" N, 133° 20' 30" W; (map 4). Variant: Mys Santa Lutsia; Punta de Santa Lucia. Spanish name given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Punta de Santa Lucia," or "Point of Saint Lucy."

Santa Lucia, Yslas de: island, see Santa Lucia Island.

Santa Lutsia, Mys: point of land, see Santa Lucia, Point.

Santa Lutsia, Ostrov: island, see Santa Lucia Island.

Santa Maria Magdalena, Cabo de: point of land, see Magdalena, Cape.

Santa Maria Magdalena, Punta: point of land, "probably Cape Muzon on the south tip of Dall Island," Alexander Archipelago; (map 1). This point of land was discovered by Juan Perez July 19 or 20, 1774, and named in honor of the saint. It was known to the Russians as "Kaigani." The name "Magdalena" is still retained on maps applied to a point on the west side of Dall Island. See Capes Muzon and Magdalena. See also Wagner (1937, p. 512).

Santa Maria Magdalena: island, see Hinchinbrook Island.

Santa Maria, Punta: point of land, "on Santa Rita Island in Bucareli Bay," Alexander Archipelago; (map 4) Named about May 11, 1779, by Francisco Antonio Maurelle for the Virgin whose day was celebrated May 8 and 9 (Wagner, 1937, p. 512).

Santa Rita Island: island, 0.9 miles long, between Baker and Saint Ignace Islands in Port Mayoral' Alexander Archipelago; 55° 25' 00" N, 133° 27' 30" W; (map 4). Variant: Isla de Santa Rita, Ysla de Santa Rita. Named "Isle de Santa Rita," i.e. "Saint Rita Island," by Francisco Antonio Maurelle on "May 22, 1779, in honor of Santa Rita de Casia whose day it was" (Wagner, 1937,

Santa Rosa, Point: point of land, S tip of Santa Rita Island, between Baker and Saint Ignace Islands, Alexander Archipelago; 55° 24' 35" N, 133° 27' 30" W; (map 4). Variant: Punta de

Santa Rosa. Spanish name given in 1779 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Punta de Santa Rosa," or "Point of Saint Rose."

Santa Rosa, Punta: point of land, see Saint Elias, Cape.

Santa Rosalia, Point: point of land, on N coast of San Fernando Island, Alexander Archipelago; 55° 34' 15" N, 133° 24' 45" W; (map 4). Variant: Mys Santa Rosalia, Punta de Santa Rosalia, Punta Santa Rosalia, Rosalia Point. Spanish name given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Punta de Santa Rosalia" or "Saint Rosalie Point."

Santa Teresa: point of land, see Santa Theresa, Point.

Santa Tereza, Mys: point of land, see Santa Theresa, Point.

Santa Theresa, Point: point of land, 0.9 miles N of Cone Island, on SE coast of Noyes Island, Alexander Archipelago; 55° 27' 05" N, 133° 38' 30" W; (map 4). Variant: Mys Santa Tereza, Punta de Santa Theresa, Santa Teresa. The name "Punta de Santa Theresa," or "Saint Theresa Point," was applied by Francisco Antonio Maurelle to the south point of Noyes Island [Saint Nicholas Point] " * * * probably on that saint's day May 19, 1779" (Wagner, 1937, p. 513). The name was reapplied to its present location in 1923 by USC&GS.

Santa Theresa, Punta de: point of land, see Saint Nicholas Point.

Santa Yefigeniya, Mys: point of land, see Iphigenia, Point.

Santiago, Puerto de: bay, see Etches, Port.

Santissima Cruz, Puerto de la: bay, see Santa Cruz, Port.

Sanya: locality, near Cape Fox, on NE shore of Dixon Entrance, Coast Mountains; 54° 46' N, 130° 50' W; (map 2). Variant: Sanyakoan. Former Tlingit Indian village or camp listed by Hodge (1910, p. 53).

Sanyakoan: locality, see Sanya.

Saook Bay: bay, 1 mile across, on N coast of Baranof Island, 28 miles NE of Sitka, Alexander Archipelago; 57° 27' N, 135° 10' W; BGN 1898; (map 9). Tlingit Indian name [sa-uk] given in 1895 by USC&GS and published on Chart 8283.

Saook Point: point of land, N point of entrance to Saook Bay, on N coast of Baranof Island, 28 miles NE of Sitka, Alexander Archipelago; 57° 27' 30" N, 135° 10' 00" W; BGN 1898; (map 9). Tlingit Indian name [sa-uk] given in 1895 by USC&GS and published in 1897 on Chart 8000.

Saposa Bay: bay, extends N 2 miles at head of Izhut Bay, on SE coast of Afognak Island, 26 miles NE of Afognak, Kodiak Island; 58° 14' 40" N, 152° 15' 00" W; (map 43). Local name published in 1943 by USC&GS.

Sapozhkova: stream, see Buskin River.

Sapozhkovo, Reka: stream, see Buskin River.

Sapphire Creek: stream, flows SE 0.8 miles to Minnesota Creek which flows to Penny Creek, 0.1 miles SW of Meddler Creek and 8 miles N of Solomon, Seward Peninsula Highlands; 64° 40' 30" N, 164° 21' 30" W; (map 95). Prospectors' name reported in 1907 by USGS geologists (Smith, P. S., 1910, pl. 3).

Sapsuk Lake: lake, 4 miles long, at head of Sapsuk River, on Alaska Peninsula, 28 miles SW of village of Port Moller, Aleutian Range; 55° 41' N, 161° 03' W; (map 28). Variant: Hoodoo Lake. This feature is shown as Hoodoo Lake on a 1953 USGS map ; USGS reported the above name in 1966.

Sapsuk River: stream, heads in Hoodoo Lake, flows NW 25 miles to Caribou River, 33 miles W of village of Port Moller, on Alaska Peninsula, Bristol Bay Lowland; 55° 54' 20" N, 161° 23' 54" W; (map 28). Variant: Lake Creek. Named Lake Creek in 1929 by USGS; error reported January 20, 1966.

Sapumegrak Mountain: mountain, 1,071 ft., 5 miles SW of Mount Sapumik and 30 miles NE of Kivalina, Brooks Range; 68° 07' N, 164° 06' W; (map 130). Variant: Saboomaygruck. Eskimo name reported in 1966 by E. S. Burch.

Sapumik Creek: stream, heads at 68° 18' N, 163° 22' W; and flows SW 35 miles to Kivalina River, 22 miles NE of Kivalina, Arctic Slope; 68° 01' N, 164° 14' W; (map 130). Variant: Saboomim Koonga, Sapumik Kunga, Pingneyiksak. Eskimo name reported in 1966 by E. S. Burch.

Sapumik Kunga: stream, see Sapumik Creel:.

Sapumik Ridge: ridge, 600 ft., 5.5 miles long, on Chukchi Sea coast, 17 miles E of Cape Lisburne, Arctic Slope; 68° 51' 10" N, 165° 26' 30" W; (map 129). Eskimo name reported in 1955 by U.S. Army Corps of Engineers.

Sapumik, Mount: mountain, 1,773 ft., 32 miles NE of Kivalina, Brooks Range; 68° 10' N, 163° 58' W; (map 130). Variant: Saboomick, Sapuumiq. Eskimo name reported in 1966 by E. S. Burch.

Sapumim Neakau Mountain: mountain, 1,201 ft., 5 miles NE of Mount Sapumik and 36 miles NE of Kivalina, Brooks Range; 68° 12' N, 163° 53' W; Variant: Saboomim Nayacaw. Eskimo name reported by E. S. Burch, in 1966, to mean "Sapumik's head."

Sapun Creek: stream, in Baird Mountains, flows NW 16 miles to Noatak River 11 miles E of its junction with Nakolik River, 64 miles N of Kiana, Brooks Range; 67° 54' N, 160° 21' W; (map 127). Eskimo name referring to some kind of a fence; obtained in 1956 at Noatak by Orth.

Sapuumiq: mountain, see Sapumik, Mount.

Sar-du-Loten: locality, see Loudon.

Sar-Hene Cove: bay, see Sarheen Cove.

Sar-hini: stream, see Karheen Creek.

Sarah Creek: stream, heads in Ray Mountains, flows SE 6 miles to Yukon River, 7 miles N of Rampart and 63 miles ENE of Tanana, Kokrines-Hodzana Highlands; 65° 36' 15" N, 150° 10' 30" W; (map 106). Named in 1956 by Orth, for the Sarah, one of the three largest and handsomest steamboats on the Yukon during the gold rush days. The Sarah was named for Mrs. Sarah Sloss, wife of Louis Sloss, of the Alaska Commercial Company. See Hannah Creek.

Sarah Gulch: ravine, trends N 1.5 miles to Confederate Creek, 50 miles SW of Eagle, Yukon-Tanana Highlands; 64° 17' N, 142° 21' W (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Sarina Brook: stream, see Sarana Brook.

Sarana Bay: bay, 2.3 miles across, E coast of Attu Island, Aleutian Islands; 52° 52' 30" N, 173° 17' 30" E; (map 13). Variant: Saranna Bay, Sarannaia Bay. Russian name "Sarana" meaning "lily," referring to a kind of fern which grew extensively on Kamchatka and from which liquor was made for Vitus Bering's expedition (Bancroft, 1886, p. 57). The name was reported as "Sarannaia" by Capt. Lutke (1836, p. 329), IRN.

Sarana Bay: bay, 3 miles across, on S coast of Akutan Island, Krenitzin Islands, Aleutian Islands, 54° 04' 30" N, 165° 50' 00" W; BGN 1936; (map 24). Variant: Saranna Bay, Vulcan Cove. Name reported in 1830 by Father Ioann Veniaminov as "Saranna Bukhta," i.e. "Saranna Bay." It was named "Vulcan Cove" in 1888 by USBF "because the fire of Vulcan is much in evidence on this island." USC&GS reported "Sarana Bay" as the local usage in 1935. "Sarana is the Russian name for the Kamchatkan lily." Early USC&GS charts applied the name to the large bay west of Battery Point. However, Father Veniaminov (1840, v. 1, p. 192-194) described it as the largest bay on Akutan Island with Cape Kayanak (Battery Point) on its right bank.

Sarana Bay: cove, see Sarana Cove.

Sarana Beach: beach, 1.1 miles long, at head of Sarana Bay, on E end of Attu Island, Aleutian Islands; 52° 52' 30" N, 173° 15' 50" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II; shown on an AMS map published in 1948.

Sarana Brook: stream, flows from lake, probably into Sarana Bay, on E coast of Attu Island, Aleutian Islands; 52° 52' 30" N, 173° 15' 50" E; (map 13). Variant: Saraina Brook. This name was reported by Constantin Grewingk as "Saraina Brook" (1850, p. 235). It is not shown on modern maps and its exact application is not known.

Sarana Cove: cove, 0.4 miles across, on S side of Korovin Bay, N coast of Atka Island, Aleutian Islands; 52° 12' 00" N, 174° 20' 30" W; (map 18). Variant: Sarana Bay, Saranna, Sarannaia. Russian name for the Kamchatkan lily, the roots of which are eaten by the Aleuts

and made into a liquor. The name was published in Russian-French by Capt. Lutke (1836, p. 316, 328), IRN, as “Sarannaia baie,” or “Sarannaia Bay.”

Sarana Island: island, 0.5 miles across, 10 miles SW of Dolgoi Island, at SW end of Aleutian Range; 54° 58' N, 161° 54' W; (map 25). Variant: Ostrov Sarannoy, Saranna Island, Saranoy Island. Russian name published by Capt. Tebenkov (1852, map 24), IRN, as “O[strov] Sarannoy” meaning “Martagon Island.” The martagon is a kind of lily grown on the Kamchatka Peninsula and was used to make liquor for the Bering expedition in 1738 (Bancroft, 1886, p. 57). “Saranoy”, the transliteration of the Russian name, was published in 1888 by USBF.

Saranac Peak: peak, 2,600 ft., W of North Arm Farragut Bay, 2 miles N of Bay Point Knoll and 79 miles E of Sitka, Coast Mountains; 57° 09' 20" N, 133° 16' 55" W; (map 8). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for the U.S.S. Saranac lost in Seymour Channel, British Columbia, in June 1875; published in 1889 by USC&GS.

Saranna Bay: bay, see Sarana Bay.

Saranna Island: island, see Sarana Island.

Saranna: cove, see Sarana Cove.

Sarannaia Bay: bay, see Sarana Bay.

Sarannaia: cove, see Sarana Cove.

Sarannoy, Ostrov: island, see Sarana Island.

Sarcar Cove: estuary, see Sarkar Cove.

Sardine Can Lake: lake, 1 mile long, 2 miles W of Cache Lake and 42 miles NW of Fort Yukon, Yukon Flats; 66° 47' N, 146° 41' W; (map 119). Local descriptive name obtained in 1956 by USGS.

Sardine Creek: stream, flows SW 1.3 miles to Ophir Creek, 9 miles N of Council and 40 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 02' N, 163° 09' W; (map 110). Prospectors' name published on the 1908 “Map of Seward Peninsula” by Arthur Gibson.

Sardine Creek: stream, flows SW 6.8 miles to Anakeksik Creek, 11 miles SE of Christmas Mountain, Nulato Hills; 64° 25' N, 160° 29' W; (map 96). Local name reported about 1954 by U.S. Army Corps of Engineers.

Sargeant Cove: cove, 0.8 miles across, trends SE 1 mile between Hammer and Hatchet Points, on SE coast of Kiska Island, Aleutian Islands; 51° 55' 30" N, 177° 34' 00" E, (map 14). Variant: Sargent Cove. Name shown on a 1943 AMS map ; variant shown on a 1943 USAAF map. This is one of many arbitrary names applied to features during World War II for tactical purposes.

Sargent Bay: estuary, extends N 2.5 miles off Behm Canal, between Cactus and Tramp Points, on E coast of Revillagigedo Island, Alexander Archipelago; 55° 33' N, 130° 58' W; (map 3). Local navigators' name obtained in 1904 by H. C. Fassett, USBF.

Sargent Cove: cove, see Sargeant Cove.

Sargent Creek: stream, flows E 6 miles to head of Womens Bay, 8 miles SW of Kodiak, Kodiak Island 57° 42' 25" N, 152° 34' 00" W; BGN 1941, (map 34) Named by USC&GS in 1940, "after Fred Sargent who settled in Kodiak in 1868 and died there in 1911, aged 83."

Sargent Creek: stream, flows NW 1 mile to the Bluestone River, 12 miles SE of Teller, Seward Peninsula Highlands; 65° 06' N, 166° 12' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Sargent Creek: stream, flows NW 3.5 miles to Chatanika River, 14 miles NW of Fairbanks, Yukon-Tanana Highlands; 65° 03' 15" N, 147° 50' 10" W; (map 105). Named by prospectors; published in 1908 by USGS.

Sargent Creek: stream, heads in lake, flows E 2 miles to Jarvis Creek, 25 miles S of Delta Junction, 63° 41' 20" N, 145° 42' 50" W; (map 86). Name published on relatively recent maps.

Sargent Creek: stream, in Nutzotin Mountains, flows W 1.3 miles to Glacier Creek 0.9 miles SE of its junction with Chavolda Creek, 6.5 miles NW of Beaver Lake, Alaska Range; 62° 07' 45" N, 141° 53' 50" W; (map 84). Local name reported by S. R. Capps (in Brooks and others, 1915, p. 223), USGS.

Sargent Icefield: icefield, on Kenai Peninsula, trends NE-SW 24 miles, 24 miles NE of Seward, Chugach Mountains; 60° 15' N, 148° 33' W; BGN 1953; (map 63). Named in 1952 by USGS for Rufus Harvey Sargent, 1875-1951, USGS topographer who did extensive exploration and map ping on Kenai Peninsula.

Sarheen Cove: bay, 0.2 miles across, on E shore of El Capitan Passage, 3 miles SE of Devilfish Bay, on NE coast of Prince of Wales Island, Alexander Archipelago 56° 03' N, 133° 16' W; BGN 1908; (map 6). Variant: Sa-heen Cove, Sar-Hene Cove, Sarhini Cove. Tlingit Indian name meaning "Sar River"; reported as "Sar-Hene Cove" in 1902 by USBF.

Sarhini Cove: bay, see Sarheen Cove.

Sarichef Cape: point of land, on W coast of Unimak Island, Aleutian Islands; 54° 35' 50" N, 164° 55' 30" W; (map 24). Variant: Kakatkusik Northwest Cape, Pogromnoi First, Saritchey Cape, Sarytcheff Cape, West-Southwest Cape. Named by Capt. Lutke (1836, p. 293) for Vice Admiral and Hydrographer Gavril Andreivich Sarichev who explored the Arctic in 1787 and who later served under Commodore Joseph Billings during explorations of the Bering Sea and Alaska in 1790-92. An atlas was published in 1826, which was compiled under the direction of Sarichev entitled "Atlas of the Northern Part of the Pacific Ocean, and which was used in the preparation of this dictionary. The Aleut name for this point was published by Father Veniaminov (1840, v. 1 p. 212) as Kakatkhusik, which may possibly come from the word "qakatikuqing" which according to R. H. Geoghegan, means "to grow dry." Northwest

Cape was the name applied to this feature by Capt. Tebenkov (1852, map 24) and USBF in 1888.

Sarichef Island: barrier island, 4.5 miles long, at mouth of Shishmaref Inlet, Kotzebue-Kobuk Lowland; 66° 14' N, 166° 05' W; (map 112). Named in 1916 by Lt. Otto von Kotzebue IRN, who wrote "I named the narrow island after our worthy vice-admiral, Saritscheff [sic]." Vice-Admiral Gavriila Andreevich Sarichev compiled the first Alaska atlas in 1826; this atlas was used extensively in the compilation of the present work.

Sarichef Strait: water passage, 4 miles wide, between Hall Island and Glory of Russia Cape, St. Matthew Island; 60° 37' N, 173° 00' W; (map 56). Variant: Proliv Sarycheva. Lt. G. A. Sarichev, IRN, on the Slava Rossii (Glory of Russia), anchored here July 14, 1791 (O.S.). The water passage was afterward named for him by the Russians; "Pro[liv] Sarycheva," or "Sarychev's Strait" (Tebenkov, 1852, map 20).

Sarichef Volcano: mountain, 2,000 ft., NE part of Atka Island, Aleutian Islands; 52° 19' N, 174° 03' W; (map 18). Name published by Coats, USGS (1950, P. 38).

Sarihkahuk Cape: point of land, see Shlokovik Point.

Saritchey Cape: point of land, see Sarichef Cape.

Sarkar Cove: estuary, 1 mile long, off El Capitan Passage, W coast of Prince of Wales Island, Alexander Archipelago; 55° 57' 45" N, 133° 16' 00" W; BGN 1908; (map 4). Variant: Sa-Kaa Cove, Sarcar Cove, Sar-Kar Cove. Named in 1908 by USC&GS.

Sarkar Creek: stream, 1.2 miles long, drains Sarkar Lake into Sarkar Cove, W of Prince of Wales Island, Alexander Archipelago; 55° 57' 20" N, 133° 14' 45" W; (map 4). Variant: Sar-Kar. Indian name applied by the fisheries; reported in 1897 as "Sar-Kar" by Lt. Comdr. J. F. Moser, USN.

Sarkar Lake: lake, 2.8 miles long, W coast of Prince of Wales Island, Alexander Archipelago; 55° 57' N, 133° 13' W; (map 4). Variant: Sar-Kar. Indian name. See Sarkar Creek.

Sarkar Point: point of land, in El Capitan Passage, near mouth of Sarkar Cove, W coast of Prince of Wales Island, Alexander Archipelago; 55° 57' 25" N, 133° 17' 00" W; (map 4). Local name published by USC&GS in 1925 Coast Pilot (p. 155).

Sarutschew, Vulcan: volcano, see Sergief, Mount

Sarycheva, Proliv: water passage, see Sarichef Strait.

Sarytcheff Cape: point of land, see Sarichef Cape.

Sasaka, Cape: point of land, see Sajaka, Cape.

Sasedney, Ostrov: island, see Sasedni Island.

Sasedni Group: island, see Sasedni Island.

Sasedni Island: island, 0.2 miles across, connected to Japonski Island, in Sitka Sound, 1.7 miles W of Sitka, Alexander Archipelago; 57° 03' N, 135° 23' W; (map 9). Variant: Ostrov Sasedney, Sasedni Group. Named in 1809 by the Russian navigator Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Sasedney," meaning "neighbor island."

Sashin Creek: stream, on Baranof Island, flows NE 4 miles, through Sashin Lake, to Little Port Walter on Chatham Strait, 8 miles N of Port Alexander, Alexander Archipelago; 55° 23' N, 134° 39' W, (map 6). Name reported in 1965 by USGS.

Sashin Lake: lake, 1.3 miles long, 7.6 miles N of village of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 21' 30" N, 134° 41' 30" W; BGN 1933; (map 5). Variant: Lake Sashin. Named in 1930 by USFS "for one of the Russians killed in the massacre at the original site of Sitka" in 1802.

Sasmik, Cape: point of land, on S coast of Tanaga Island, Aleutian Islands; 51° 36' 30" N, 177° 55' 00" W; (map 17). Variant: Cape Sasmikh. Aleut name published by Capt. Tebenkov (1852, map 28), IRN, as "M[ys] Sasmikh," or "Cape Sasmikh."

Sasmikh, Cape: point of land, see Sasmik, Cape.

Sasseen Creek: stream, flows W 3 miles to Slug River, 24 miles E of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 42' N, 161° 32' W; (map 39) Local name-shown on a 1937 fieldsheet by J. B. Mertie, USGS.

Sasseen: spit, see Asigyukpak Spit.

Satailak Creek: stream, flows N 4 miles to Easter Creek 8.7 miles SE of its junction with Killik River, Brooks Range; 68° 04' N, 153° 55' W; (map 133). Eskimo name reported in 1956 by Orth.

Satanna: point of land, see Bird Cape.

Satchrun, Point: point of land, E point of entrance to Takanis Bay on Yakobi Island, off W coast of Chichagof Island, 24 miles NW of Chichagof, Alexander Archipelago; 57° 54' 10" N, 136° 31' 00" W; BGN 1908; (map 9). Tlingit Indian name said to have the same meaning as Takanis [Bay]; named in 1908 by USC&GS and published in the 1908 Coast Pilot (p. 169).

Satklidak Island: island, see Sitkalidak Island.

Satsiksuk Mountain: mountain, 2,800 ft., 1 mile N of Sapumik Creek and 52 miles SE of Cape Sabine, Brooks Range; 68° 17' N, 163° 30' W; (map 130). Variant: Satsiksuq, Sechiksuk. Eskimo name meaning "it is further out (than the others)" reported in 1966 by E. S. Burch.

Satsiksuq: mountain, see Satsiksuk Mountain.

Saturday Creek: stream, flows SE 13 miles to Friday Creek, 44 miles NW of Tyonek, Alaska Range; 61° 41' 30" N, 151° 29' 15" W; (map 70). Local name reported in 1954 by USGS.

Saturday Creek: stream, flows SE 2 miles to North Creek which flows to Agiapuk River, 14 miles NE of Teller, Seward Peninsula Highlands; 65° 23' N, 165° 58' W; (map 111). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Saturday Creek: stream, flows SW 0.5 miles to Wonder Creek which flows to Center Creek, 3 miles N of Nome, Seward Peninsula Highlands; 64° 32' 30" N, 165° 22' 55" W; (map 94). Prospectors' name shown on the 1902 "Map of the Nome and Snake River Country" by J. M. Davidson.

Saukpeek Mountain: mountain, see Sarpik Mountain.

Saulich: railroad station, mile 450.8 on The Alaska Railroad, 16.5 miles W of Fairbanks, Yukon-Tanana Highlands; 64° 52' 45" N, 148° 14' 30" W; (map 100) Railroad station originally located a short distance away. See Old Saulich.

Sauluktoucikh: island, in Shumagin Islands, Aleutian Range; 55° N, 160° W; (map 27). Variant: Saliuliuktusikh, Saluluktussich. Aleut name reported by G. A. Sarichev as "Saliuliuktusikh" and "Saluluktussich." Lutke (1836, p. 267) called the island "Sauluktoucikh." Its exact location is not known.

Saunders Creek: stream, flows S 4 miles to Hastings Creek, 10 miles E of Nome, Seward Peninsula Highlands; 64° 28' N, 165° 07' W; (map 94). Variant: Sanders Creek. Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Savage Island: island, 0.3 miles long, in Temnac Bay, Attu Island, Aleutian Islands; 52° 48' 05" N, 173° 04' 35" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II; shown on an AMS map published in 1948.

Savage River: stream, flows NW 27 miles to Teklanika River, 17 miles NW of Healy, Alaska Range; 63° 55' N, 149° 30' W; (map 87). Local name shown on a 1916 fieldsheet by C. E. Giffin, USGS.

Savailok River: stream, see Nilik River.

Savakvik Point: point of land, see Bullen Point.

Savannah Creek: stream, flows SW 1 mile to head of Discovery Creek, 21 miles NW of Solomon, Seward Peninsula Highlands; 64° 50' N, 164° 43' W; (map 95). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Savaovik River: stream, see Shaviovik River.

Savayait Lake: lake, 1 mile long, 18 miles N of Stevens Village, Yukon Flats; 66° 16' N, 149° 11' W; (map 118). Kutchin Indian name obtained in 1956 by T. E. Taylor, USGS.

Saviovic River: stream, see Shaviovik River.

Saviyok River: stream, see Shaviyok River.

Saviyok Creek: stream, flows SE 13 miles to Tinayguk River, W of Gray Mountain and 51 miles NW of Wiseman, Brooks Range; 67° 52' N, 151° 34' W; (map 124). Eskimo name obtained in 1956 by T. E. Taylor, USGS.

Savitovik River: stream, see Shaviyok River.

Saviukviayak River: stream, heads in Brooks Range, flows NW 35 miles to Ivishak River 30 miles S of its junction with Sagavanirktok River, Arctic Slope; 69° 06' N, 148° 00' W; (map 140). Eskimo name reported in 1956 by T. E. Taylor, USGS.

Savka Lake: lake, 0.3 miles across, on Kenai Peninsula, 5 miles NNE of Sterling and 15 miles ENE of Kenai, Cook Inlet Lowland; 60° 35' 45" N, 150° 48' 50" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Savonga: village, see Savoonga.

Savonoski Lakes: lake, see Coville, Lake.

Savonoski Lakes: lake, see Grosvenor, Lake.

Savonoski River: stream, heads at central terminus of Hook Glacier, flows W 35 miles to Iliuk Arm Naknek Lake, on Alaska Peninsula, in Katmai National Monument, 22 miles NW of Mount Katmai, Aleutian Range; 58° 32' N, 155° 20' W; BGN 1924; (map 42). Variant: Sabonoski River. Named in 1919 as "Savonoski" or "Sabonoski" by R. F. Griggs, National Geographic Society, "after the abandoned Eskimo village at its mouth."

Savonoski: locality, site of Eskimo village, on Alaska Peninsula, near mouth of Savonoski River, at head of Iliuk Arm Naknek Lake, 21 miles NW of Mount Katmai, Aleutian Range, 58° 32' N, 155° 19' W; (map 42). Variant: Ikk, Ikkhagamut, Ikkhagmute, Severnosky, Ukak. Name reported in 1898 by J. E. Spurr and W. S. Post, USGS, who obtained it from Rev. A. Petelin Spurr also reported it as "Ikkhagamut." Savonoski was abandoned after the Katmai area eruptions on June 2-6, 1912.

Savonoski: village, pop. 20, on S bank of Naknek River, on Alaska Peninsula, 5 miles ESE of Naknek, Bristol Bay Lowland; 58° 43' N, 156° 52' W; (map 41). Name published in 1962 by USGS. There is another Savonoski near the east end of Iliuk Arm Naknek Lake.

Savoonga Cape: point of land, see Savoonga Point.

Savoonga Point: point of land, W of Savoonga, N coast of St. Lawrence Island, 39 miles SE of Gambell; 63° 42' N, 170° 30' W; BGN 1951; (map 93). Variant: Cape Savoonga, Cape Sevoonga, North Cape, Savoonga Cape, Sevoonga Cape. Named for the nearby village.

Savoonga Reef: reef, 0.2 miles N of Savoonga Point, 40 miles SE of Gambell, N coast of St. Lawrence Island; 62° 42' N, 170° 30' W; BGN 1951; (map 93). Named for the nearby village.

Savoonga: village, pop. 299, on N coast of Saint Lawrence Island, 39 miles SE of Gambell, 63° 42' N, 170° 29' W; BGN 1951; (map 93). Variant: Savonga, Savunga, Sevoonga. This is a relatively new Eskimo village with a population of 139 in 1930; 209 in 1939; and 249 in 1950. A 1965 report listed a population of 397. The Savoonga post office was established in 1934.

Savukahuk Point: point of land, 14 miles S of Gambell, W coast of St. Lawrence Island; 63° 35' N, 171° 49' W; BGN 1951; (map 93). Variant: Savukhahak. Eskimo name reported in 1949 by Maj. H. B. Allen, USAF. Orth recorded the name as "Savukhahak" at Gambell, in 1965, and reports it refers to "material for a harpoon head" which may in turn refer to artifacts from an old village site reported to be located near here.

Savukhahak: point of land, see Savukahuk Point.

Savunga: village, see Savoonga.

Saw Peaks: peaks, 5,256 ft., 3 miles S of Patterson Glacier, 16 miles NE of Petersburg, Coast Mountains; 56° 55' 15" N, 132° 36' 00" W; (map 6). Local descriptive name reported in 1961 by USGS.

Saw Point: point of land, in South Passage, at mouth of Eliza Harbor, on Admiralty Island, 27 miles SE of Angoon, Alexander Archipelago; 57° 09' 30" N 134° 17' 00" W; (map 9). Named in 1889 by Lt. Comdr. H. B. Mansfield, USN, and published by USC&GS in 1891 Coast Pilot (p. 142). "So named because of the sunken rocks and ledges along it [the point of land]."

Saw Ridge: ridge, 3 miles long, on SE Peninsula of Revillagigedo Island, 3.3 miles N of Point Alava, Alexander Archipelago; 55° 00' 15" N, 131° 12' 25" W; (map 3). Descriptive name given in 1883 by Lt. Comdr. H. E. Nichols, USN.

Sawanukto River: stream, see Sagavanirktok River.

Sawlog Creek: stream, flows NW 1.5 miles to South Fork Koyukuk River, 19 miles WSW of Chandalar, Brooks Range; 67° 25' 00" N, 149° 10' 30" W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Sawmill Bay: bay, 2 miles long, on N shore of Valdez Arm, 11 miles W of Valdez, Chugach Mountains; 61° 02' 30" N, 146° 46' 30" W; (map 68). Local name reported in 1902 by H. P. Ritter, USC&GS.

Sawmill Bay: bay, 3 miles across, at N end of Elrington Passage, on E coast of Evans Island, 18 miles SE of Chenega, Chugach Mountains; 60° 03' 30" N, 148° 00' 30" W; BGN 1919; (map 63). Variant: Evans Bay, Roberts Bay. Local name reported in 1918 by USC&GS.

Sawmill Bay: bay, 3 miles long, in Glacier Bay National Monument, on Excursion Inlet, 2.5 miles NW of village of Excursion Inlet and 41 miles NW of Juneau, St. Elias Mountains; 58° 25' N, 135° 27' W; BGN 1962; (map 11). Local name reported by NPS in 1961. The name was derived from the presence of a sawmill, built about 1914, near the head of the bay. The remains of various sawmills and docks were still visible in 1960.

Sawmill Cove: cove, 0.2 miles across, on SE shore of Yakutat Bay, 1.7 miles S of Dolgoi Island and 2.6 miles NE of Yakutat, Malaspina Coastal Plain; 59° 34' 10" N, 139° 39' 45" W; (map 46). Local name published in 1959 by USGS.

Sawmill Cove: cove, 0.3 miles across, at mouth of Sawmill Creek, 4 miles E of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 02' 45" N, 135° 13' 30" W; (map 9). Variant: Ham Cove. Named by Lt. Comdr. H. E. Nichols, USN, and published by USC&GS in the 1883 Coast Pilot. So named because "in this vicinity a saw-mill was erected by missionaries to supply material for building purposes." It was also called "Ham Cove" by Sheldon Jackson for J. M. Ham who contributed funds for the erection of the sawmill in 1882.

Sawmill Cove: estuary, see Ham Cove.

Sawmill Creek: stream, flows 4.5 miles SW to Berners Bay, on Lynn Canal, 2 miles N of Echo Cove and 35 miles NW of Juneau, Coast Mountains; 58° 43' 00" N, 134° 56' 10" W; (map 11). Local name reported by A. C. Spencer and C. W. Wright (1906, fig. 36), USGS.

Sawmill Creek: stream, flows NW 1.3 miles to Willow Creek, 18 miles NW of Palmer, Talkeetna Mountains; 61° 45' 50" N, 149° 32' 00" W; (map 69). Local name reported in 1951 by USGS.

Sawmill Creek: stream, flows NW 30 miles to Clearwater Creek, 16 miles ESE of Big Delta, Alaska Range; 64° 03' N, 145° 21' W; (map 101). Local name reported in 1955 by USGS.

Sawmill Creek: stream, flows SW through Bonnie Lake 9.6 miles to Chickaloon River, E of Chickaloon, 26 miles NE of Palmer, Talkeetna Mountains; 61° 48' 00" N, 148° 26' 15" W; BGN 1933; (map 69). Local name reported about 1932 by USGS. So named locally "because some years ago a sawmill was located on this creek."

Sawmill Creek: stream, heads in Blue Lake, flows SW 1.8 miles to mouth of Silver Bay, 4 miles E of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 02' 50" N, 135° 13' 35" W; (map 9). Variant: Kirinskaia Bay, Kirinskaya Bukhta, Medvetcha River, Reka Medvyzhya. Named in the 1890's by USC&GS for a sawmill reported in 1850 by Capt. Tebenkov (1852, map 38), IRN, to be located at its mouth. This stream was called "Reka Medvyzhya," meaning "bear river," in 1809 by the Russian navigator Ivan Vasiliev the first; published as such by Lt. Sarichev (1826, map 19), IRN.

Sawmill Creek: stream, heads in glacier, flows NW 4 miles to Port Valdez at Sawmill Spit, 6 miles WSW of Valdez, Chugach Mountains; 61° 05' 15" N, 146° 23' 10" W; (map 68). Local name reported in 1911 by USGS.

Sawmill Creek: stream, heads in Sawmill Lake, flows SE 6.3 miles to Rabideux Creek, 6 miles SW of Talkeetna, Cook Inlet Lowland; 62° 14' 45" N, 150° 14' 20" W; (map 81). Local name reported in 1958 by USGS.

Sawmill Creek: stream, heads on Syncline Mountain, flows N 1.7 miles to Alfred Creek, 57 miles NE of Palmer, Talkeetna Mountains; 61° 57' 00" N, 147° 31' 30" W; BGN 1960; (map 69). Local name reported in 1952 by USGS but probably has been used prior to this date. So named because there was an abandoned sawmill along the stream near Alfred Creek.

Sawmill Creek: stream, on N end of Kenai Peninsula, flows NE 2 miles to Turnagain Arm, 6 miles E of Sunrise, Chugach Mountains; 60° 53' 40" N, 149° 14' 45" W; (map 63). Local name reported in 1899 by Lt. Herron (1901, sketch facing p. 11), USA.

Sawmill Gulch: ravine, extends 3.5 miles S from Sourdough Peak to Nizina River, 7 miles SE of McCarthy Wrangell Mountains; 61° 22' 20" N, 142° 43' 35" W; (map 67). Local name obtained by USGS and published on maps since 1954.

Sawmill Island: island, 1.7 miles long, in Tanana River, 11 miles N of Nenana, Tanana Lowland; 64° 43' 30" N, 149° 08' 15" W; (map 100). Local name reported in 1950 by USGS topographers.

Sawmill Lake: lake, 0.6 miles long at head of Sawmill Creek, 6.7 miles SW of Talkeetna, Cook Inlet Lowland; 62° 17' 35" N, 150° 19' 15" W (map 81). Local name reported in 1958 by USGS.

Sawmill Point: point of land, on E coast of Woody Island, 3.5 miles E of Kodiak, Kodiak Island 57° 47' 05" N, 152° 18' 40" W; (map 34). Local name reported in 1949 by USGS.

Sawmill Slough: stream, 7 miles long, anabranch of Tanana River, 3 miles W of Minto and 46 miles W of Fairbanks, Tanana Lowland; 64° 53' N, 149° 15' W; (map 100). Local name published on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by U.S. Dept. of Interior.

Sawmill Slough: stream, an anabranch of Unuk River, flows SW 2 miles to a point 12 miles upstream of mouth of Unuk River at Burroughs Bay, Coast Mountains; 56° 13' 20" N, 130° 53' 40" W; (map 7). Local name reported in 1955 by USGS.

Sawmill Spit: shoals, 0.5 miles across, on S shore of Port Valdez, 6 miles SW of Valdez, Chugach Mountains; 61° 05' 05" N, 146° 26' 15" W; (map 68). Local name reported in 1901 by H. P. Ritter, USC&GS.

Sawoonhak Creek: stream, flows N to Bering Sea 1 mile E of Savoonga, N coast of St. Lawrence Island; 63° 41' N, 170° 29' W; BGN 1951; (map 93). Variant: Sawoonhak River. Eskimo name recommended by the Savoonga village council and reported in 1949 by Maj. H. B. Allen, USAF.

Sawoonhak River: stream, Sawoonhak Creek.

Sawpit Creek: Stream, flows N 3 miles to Crooked Creek, 7 miles W of Central and 33 miles SW of Circle, Yukon-Tanana Highlands; 65° 34' 30" N, 145° 01' 30" W; BGN 1937; (map 104). Named by prospectors and reported in 1937 by USGS.

Sawpit Creek: stream, heads in Kilbuck Mountains and flows NE 16 miles to Swift Creek 29 miles S. of Aniak, Kilbuck-Kuskokwim Mountains, 61° 10' N, 159° 21' W; (map 73). Variant: Amotoloriasak River. Prospectors' name shown on a 1914 field sheet by A. G. Maddren, USGS. This probably is meant to be the same stream shown on a manuscript map of the

“Kuskokwim Gold Belt,” by H. W. Reeth, as “Amotoloriasak River,” obviously an Eskimo name.

Sawtooth Mountain: mountain, 3,670 ft., in Eek Mountains, 10 miles S of Eek Lake and 70 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 04' N, 160° 23' W; (map 59). Local name reported in 1951 by USC&GS.

Sawtooth Mountain: mountain, 4,494 ft., 20 miles SE of Rampart, Yukon-Tanana Highlands; 65° 23' N, 149° 31' W; (map 105). Variant: Saw Tooth Mountains, Sawtooth Mountains, Lynx Mountains. Descriptive name published in 1906 by USGS as “Saw Tooth Mountains.” Subsequently, the peaks have been determined to be part of one mountain with a jagged crest.

Sawtooth Mountains: mountain, see Sawtooth Mountain.

Sawtooth Range: mountain range, see Kigluaik Mountains.

Sawyer Creek: stream, flows SE 3 miles, between Moose and Emma Creeks, from Emma Dome to Middle Koyukuk River, 5.5 miles S of Wiseman, Brooks Range; 67° 20' 30" N, 150° 09' 00" W; (map 124). Local name obtained in 1956 by USGS topographers.

Sawyer Creek: stream, tributary of Sam Creek, about 4 miles SW of that stream's junction with Yukon River, Porcupine Plateau; 65° 16' N, 142° 57' W; (map 103). Mentioned by Mertie (1942, p. 250), USGS; this feature has not been positively identified.

Sawyer Glacier: glacier, heads in British Columbia at about 57° 55' N, 132° 40' W, and trends W 22 miles to Tracy Arm, 54 miles SE of Juneau, Coast Mountains; 57° 53' 45" N, 133° 10' 45" W; BGN 1922; (map 8). Named in 1889 by Comdr. H. B. Mansfield, USN; name published by USC&GS in 1891 Coast Pilot (p. 147).

Saxman: village, pop. 153, on S coast of Revillagigedo Island 2.5 miles SE of Ketchikan, Alexander Archipelago; 55° 19' 05" N, 131° 35' 45" W; (map 3). Tlingit Indian village founded in 1894; named for Samuel Saxman, school teacher. The population was 154 in 1910; 103 in 1920; 112 in 1930; 111 in 1939; and 167 in 1950. The Saxman post office operated from 1897 to 1900 (Ricks, 1965, p. 56).

Saxton: locality, on Kenai Peninsula, along Seward Highway, 12 miles S of Sunrise, Chugach Mountains; 60° 42' 05" N, 149° 27' 59" W; (map 63). Former mining camp located along Canyon Creek. Recent USGS maps indicate a site with three buildings.

Sayaeja: glacier, see Saksaiia Glacier.

Sayagrowrak: hill, see Sakrorak Mountain.

Sayagrowrak: locality, see Siagrorak.

Sayalik Creek: stream, flows W 8 miles to Kuskokwim Bay, 36 miles NW of Goodnews, Yukon-Kuskokwim Delta; 59° 37' N, 161° 51' W; (map 53). Eskimo name published in 1951 by USGS.

Sayraidneuskoi locality, see Seredka.

Saytut Koogowranga: stream, see Saitut Creek.

Sbichsak Bay: bay, see Kaguyak Bay.

Sbichsak: bay, see Swikshak Bay.

Sbjeznikof: cove, see Sviechnikof Harbor.

SC, Bay: bight, 1.5 miles across, on SW coast of Kanaga Island, Aleutian Islands; 51° 42' N, 177° 35' W; (map 17). Name published in 1943 on an AMS map.

Scabbard Bay: bay, 0.5 miles across, on S shore of Kuluk Bay, on NE coast of Adak Island, Aleutian Islands; 51° 50' N, 176° 31' W; BGN 1936; (map 17). So named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934 "because it is shaped like a scabbard."

Scachlitak Island: island, see Sitkalidak Island.

Scald Point: point of land, on Admiralty Island, on W shore of Snug Cove, 58 miles NE of Sitka, Alexander Archipelago; 57° 26' 00" N, 133° 58' 25" W; (map 8). Named in 1889 by Comdr. R. W. Mansfield, USN; name published in 1892 by USC&GS.

Scammon Bay: bay, 13 miles across, on coast of Bering Sea, N of Cape Romanzof, Yukon-Kuskokwim Delta; 61° 55' N, 165° 50' W; (map 75). Named by Dall (1870, p. 264) who wrote "The bay north and east of Cape Dyer, and southeast of the southern sand island, it is proposed to call Scammon Bay, in honor of Captain C[harles] M. Scammon, USRCS, Chief of Marine of the Western Union Telegraph Expedition."

Scammon Bay: village, pop. 115, at N foot of Askinuk Mountains, on left bank of Kun River 1 mile from its mouth, Yukon-Kuskokwim Delta; 61° 50' 45" N, 165° 35' 00" W; (map 75). Variant: Kutmiut, Mariagamiut, Mariakamut, Mariuk. The post office, established in 1951, is primarily responsible for standardizing this name on maps as Scammon Bay; named for the nearby bay. The village is known in Eskimo as "Mariak" and the people are referred to as Mariagamiut.

Scandinavian Creek: stream, flows N and W 40 miles to Innoko River, 39 miles NW of Ophir and 62 miles NW of McGrath, Innoko Lowland; 63° 40' 30" N, 156° 52' 00" W; (map 90). Variant: Parka Creek. Prospectors' name obtained in 1908 by Maddren (1910, pl. 1), USGS.

Scandinavian Slough: stream, anabranch of Nushagak River, flows W 8.5 miles, 29 miles NW of Naknek, Bristol Bay Lowland; 58° 55' 50" N, 157° 55' 30" W; BGN 1931; (map 41). Local name published in 1925 by USBF.

Scarab Rock: rock, 1.2 miles off SW coast of Tanaga Island, Aleutian Islands; 51° 38' 00" N, 178° 01' 20" W; (map 16). Local name published on a 1954 USGS map.

Scarp Creek: stream, heads in lake, flows N 10 miles to Bishop Creek, 18 miles NW of Tyonek, Cook Inlet Lowland; 61° 19' 02" N, 151° 19' 42" W; BGN 1964; (map 70). So named by USGS in 1962 "because of the steep cliff along its lower course."

Scatter Peaks, The: ridge, series of peaks, forms crescent 3 miles long, 7 miles SW of Devils Paw and 29 miles N of Juneau, Coast Mountains; 58° 40' 30" N, 134° 02' 30" W; BGN 1965; (map 11). Descriptive name given by members of the Juneau Icefield Research Project in 1964.

Scaup Lake: lake, 0.5 miles long, near W coast of Kenai Peninsula, 4 miles E. of Gray Cliff and 25 miles NE of Kenai, Cook Inlet Lowland; 60° 51' N, 150° 49' W, (map 62). Named about 1963 by officials of Kenai National Moose Range, probably for the Greater Scaup, or Blue-billed Widgeon, (*Aythya marila nearctica*), a duck which breeds and winters in Alaska.

Scaup Lake: lake, 2.5 miles long, 4 miles SE of Canvasback Lake, 30 miles SW of Fort Yukon, Yukon Flats; 66° 21' 20" N, 146° 12' 00" W; (map 119). Local name obtained in 1956 by USGS.

Scenery Cove: cove, 1 mile long, on E shore of Thomas Bay, 100 miles E. of Sitka, Coast Mountains; 57° 04' 30" N, 132° 49' 00" W; (map 8). Descriptive name given in 1887 by Lt. Comdr. C. M. Thomas, USN; published in 1888 by USC&GS.

Scenery Creek: stream, flows W 11 miles to Scenery Cove, on Thomas Bay, 100 miles E. of Sitka, Coast Mountains; 57° 04' 50" N, 132° 47' 15" W; BGN 1930; (map 8). Named in 1930 by USGS for Scenery Cove.

Scenery Lake: lake, extends 2.5 miles along Scenery Creek, 3 miles E of Scenery Cove and 105 miles E of Sitka, Coast Mountains; 57° 04' 55" N, 132° 42' 40" W; (map 8). Named for Scenery Cove and published in 1949 by USGS.

Scenic Lake: lake, 0.5 miles across, on Kenai Peninsula, 3 miles W of Trapper Joe Lake and 40 miles NE of Kenai, Cook Inlet Lowland; 60° 45' 45" N, 150° 09' 40" W; (map 62). Named about 1963 by officials of Kenai National Moose Range for administrative purposes.

Schachun Rocks: rock, see Shakun Rock.

Schaefer Creek: stream, see Potato Creek.

Schakaliakh: point of land, see Thatcher, Point.

Schaws Insel: island, see Shaw Island.

Schelikoff Harbor: cove, see Three Saints Harbor.

Schellman River: stream, see Shelman Creek.

Schieffelin Creek: stream, in Rampart Mountains, flows SE 12 miles to Yukon River, 19 miles ENE of Tanana, Kokrines-Hodzana Highlands; 61° 13' 45" N, 151° 26' 00" W; (map 106). Variant: Sancho Creek, Shefflin Creek, Sheflin Creek, Shevlin Creek. Named for Edward and

“Eff” Schiefferlin (the former discovered gold at Tombstone, Ariz., in 1877) who organized a large party and prospected along the Yukon in this area in 1882 and 1883. The name appears first as “Sheflin” on Edward's Track Chart of the Yukon, dated 1899 (Cantwell, 1902, p. 277j). The name “Shevlin Creek,” applied in 1898 to a stream on the left bank of the Yukon near here by USC&GS, was also intended to commemorate the Schieffelin brothers' expedition. The exact identity of this stream is doubtful, but it probably is the same as “Sancho Creek” listed by Cantwell (p. 277), which may be the “Stevens Creek” of today.

Schikossean: island, see Anyaka Island.

Schikuk: island, see Sullivan Island.

Schilling Creek: stream, flows NE 7 miles, from W of Sixty-one Mountain to Chandalar River, 33 miles SSE of Chandalar, Brooks Range, 67° 07' 00” N, 147° 46' 30” W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Schilter Creek: stream, heads on S side of Madson Mountain, flows S 2.5 miles to Kenai Lake, 22 miles N of Seward, Chugach Mountains; 60° 24' 40” N, 149° 26' 10” W; (map 63). Local name reported in 1951 by USGS.

Schischaldenskoje: locality, see Sisaguk.

Schischmareff Bay: bay, see Shishmaref Inlet.

Schist Creek: stream, flows NE 1.4 miles to Spruce Creek, 3.5 miles NE of Poorman, Kilbuck-Kuskokwim Mountains; 64° 08' 24” N, 155° 28' 12” W; (map 98). Prospectors' name reported by Mertie and Harrington (1924, p. 95), USGS.

Schist Creek: stream, flows SW 8 miles to Nenana River, 30 miles SE of Healy, Alaska Range; 63° 27' N, 148° 46' W; (map 87). Local name obtained in 1913 by J. W. Bagley, USGS; published by Moffit (1915, pl. I), USGS.

Schitcha: town, see Sitka.

Schitka: town, see Sitka.

Schitkha: town, see Sitka.

Schkague River: stream, see Skagway River.

Schkague: village, see Skagway.

Schley Creek: stream, flows NE 5 miles to Yukon River, 35 miles NW of Eagle, Yukon-Tanana Highlands; 65° 13' N, 141° 53' W; (map 103). Prospectors' name from an unpublished map by E. F. Ball, dated 1898.

Schley Creek: stream, flows NW to Nome River, about 17 miles NNE of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name published on the 1900 “Map of Nome

Peninsula” by J. M. Davidson and B. D. Blakeslee. This stream cannot be precisely identified on recent maps.

Schlitz Creek: stream, flows NW 15 miles to join Bryan Creek, forms Serpentine River, 13 miles NW of Midnight Mountain and 54 miles NW of Imuruk Lake, on Seward Peninsula, Kotzebue-Kobuk Lowland; 65° 55' N, 164° 55' W; (map 110). Variant: Hoggom Creek. Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Schneider Lake: lake, see Schnieder Lake.

Schnieder Lake: lake, 0.6 miles long, 5 miles W of Amber Lake and 21 miles SW of Talkeetna, Cook Inlet Lowland; 62° 10' 15" N, 150° 41' 05" W; (map 81). Variant: Schneider Lake. Local name reported in 1958 by USGS.

Schnuna River: stream, see Sinona Creek.

Schonthda Hill: hill, 2,523 ft., in Black Hills, S of Mundthag Lake, 13 miles S of Northway, Alaska Range; 62° 46' N, 141° 59' W; (map 84). Indian name reported by USGS in 1955.

Schonwetterberg: mountain, see Fairweather, Mount.

Schoolhouse Lake: lake, 1 mile across, on N shore of Iliamna Lake, 2.5 miles SE of Iliamna, Bristol Bay Lowland; 59° 44' 30" N, 154° 51' 15" W; (map 51). Name published in 1954 by USGS.

Schooner Bend: locality, on Kenai Peninsula, along S bank of Kenai River, 34 miles SW of Hope, Chugach Mountains; 60° 28' 50" N, 149° 56' 45" W; (map 63). Recent USGS maps indicate a site with four or five buildings.

Schooner Channel Nushagak Bay: channel, in Nushagak Bay, extends SE 14 miles S of Ekuk, W of Flounder Flat, 18 miles S of Dillingham, Bristol Bay Lowland; 58° 36' N, 158° 24' W; (map 40). Local name reported in 1950 by USC&GS. Nushagak Bay channels are constantly changing in location and navigability.

Schooner Rock: rock, in Hinchinbrook Entrance, off NE tip of Montague Island, 45 miles SW of Cordova, Chugach Mountains; 60° 18' 20" N, 146° 54' 15" W; (map 64). So named “because of the rocks resemblance to a schooner,” reported by F. Westdahl, USC&GS, while doing survey work aboard the steamer McArthur in the Hinchinbrook Island region 1902.

Schoonhoven Creek: stream, see Boulder Creek.

Schoppe Bay: estuary, extends SW 2 miles to Eaglek Bay, 36 miles NE of Whittier, Chugach Mountains; 60° 52' 30" N, 147° 41' 30" W; (map 63). Local name reported in 1951 by USGS.

Schrader Bluff: bluff, elev. 700 ft., on E bank of Anaktuvuk River, 5 miles E of Outpost Mountain, and 30 miles SE of Umiat, Arctic Slope; 69° 09' N, 151° 01' W; BGN 1949; (map 141) Named by USGS geologists about 1950 for Frank Charles Schrader, 1860-1944, USGS geologist, who with W. J. Peters made a reconnaissance expedition down the Anaktuvuk River in 1901.

Schrader Creek: stream, flows SE 6.5 miles to North Fork Chandalar River, 1 mile SW of southern end of Chandalar Lake and 6.5 miles SW of Chandalar Lake, Brooks Range, 67° 27' 30" N, 148° 44' 00" W; (map 123). This name reported in 1956. The stream was probably named for F. C. Schrader, USGS, who made geological investigations in this area in 1900 and 1901.

Schrader Island: island, 0.7 miles across, in Long Bay, 52 miles NE of Whittier, Chugach Mountains 60° 57' 45" N, 147° 15' 00" W; (map 63). Local name reported in 1951 by USGS.

Schrader Lake: lake, 2.2 miles long, 12 miles N of Chalkyitsik, Yukon Flats; 66° 49' N, 143° 44' W; (map 120). Local name obtained in 1956 by T. E. Taylor and R. C. Foley, USGS.

Schrader Lake: lake, see Peters, Lake.

Schrader, Lake: lake, 4.5 miles long, northernmost lake of Neruokpuk Lakes, in Franklin Mountains, 17 miles NW of Mount Michelson, Brooks Range; 69° 22' 30" N, 145° 00' 00" W; BGN 1961; (map 139). Variant: Lake Peters, Lakes Peters and Schrader, Neruokpuk Lakes, Peters Lake. Named for Frank Charles Schrader, 1860-1944, USGS, geologist. This lake was originally named Lake Peters by Leffingwell (1919, p. 57) who wrote, "a narrow channel which heads a few hundred yards to Lake Peters. Here the high mountains cease, and the lake lies in an open basin whose slopes rise only a few hundred feet above the water." Leffingwell's map (pl. 1), however, shows the names transposed and it is this application that influenced subsequent map and local usage.

Schrader, Mount: mountain, 7,300 ft., 3 miles SE of Townsend Peak and 14 miles NE of Valdez, Chugach Mountains; 61° 19' 05" N, 146° 10' 15" W; BGN 1960; (map 68). Named in 1959 by L. E. Nielsen for Frank Charles Schrader, 1860-1944, geologist for the USGS who as "a member of Capt. W. R. Abercrombie's 1898 expedition was the first geologist to investigate the Valdez Glacier area and in so doing spent several days at the base of this mountain."

Schroeder Point: point of land, see Spruce Point.

Schubee Glacier: glacier, trends 1.5 miles W to its terminus, 6 miles N of Mount Villard and 8 miles S of Skagway, Coast Mountains; 59° 21' 30" N, 135° 19' 30" W; (map 45). Name published by USC&GS in the 1883 Coast Pilot (pl. 1819).

Schujek Island: island, see Shuyak Island.

Schuler Beach: beach, 0.3 miles long, 2 miles W of Buchanan Point, E end of Attu Island, Aleutian Islands; 52° 51' 20" N, 173° 23' 00" E; (map 13). Name shown on an AMS map published in 1948, and given by the U.S. Army during World War II. The name is not used today.

Schulze Cove: bay, 0.4 miles across, in Fish Bay, on NW coast of Baranof Island, 24 miles NW of Sitka, Alexander Archipelago; 57° 23' 30" N, 135° 35' 45" W; (map 9). Variant: Shulze Cove. Named in 1880 by the U.S. Navy for Paul Schulze, president of Northwest Trading Co.

of Portland, Oregon, who did business in this region (U.S. Coast and Geodetic Survey, 1883, p. 161).

Schulze Glacier: glacier, see Taku Glacier.

Schulze Head: point of land, between Schulze Cove and Fish Bay, on Baranof Island, 24 miles N of Sitka, Alexander Archipelago; 57° 23' 15" N, 135° 36' 30" W; (map 9) Named in 1884 by Comdr. J. B. Coghlan, USN, and published by USC&GS in 1891 Coast Pilot (p. 181). The name was derived from Schulze Cove.

Schumachinskaia: island, in Shumagin Islands, Aleutian Range; 55° N, 160° W; (map 27). Name reported by von Langsdorff (1814. v. 2, p. 54); however, the exact location of this island is not known.

Schunachtuli Island: island, see Shaw Island.

Schwan Glacier: glacier, heads 6 miles NE of Cordova Peak, trends NE 10 miles to its terminus, 2 miles S of Tasnuna River and 40 miles SE of Valdez, Chugach Mountains; 61° 00' 45" N, 145° 04' 15" W; (map 68). Named in 1898 by Capt. W. R. Abercrombie, USA, for Col. Theodore Schwan, USA.

Schwanda Glacier: glacier, heads on Mt. Hubley in Romanzof Mountains, trends SE 2.5 miles to its terminus 12 miles SE of Mt. Michelson, Brooks Range, 69° 15' N, 143° 42' W; (map 138). Named about 1957 by personnel participating in the International Geophysical Year glaciological work in the Romanzof Mountains.

Schwatka Mountains: mountains, in Brooks Range between Baird and Endicott Mountains, extend 75 miles from Amakomanak Creek and Redstone River on W to Noatak River, Kaluluktok Creek and Walker Lake on E; 67° 20' N, 154° 15' W [E end], 67° 30' N, 157° 10' W [Wend]; (map 126). Named in 1884 by Lt. G. M. Stoney, USN, presumably for Lt. Frederick Schwatka, USA, who the previous year had made a military reconnaissance along the Yukon River.

Schwatka, Mount: mountain, 4,177 ft., 45 miles NE of Livengood, Yukon-Tanana Highlands; 65° 53' N, 147° 15' W; (map 105). Variant: Mkleetokumenah. Named in 1902 by Lt. Hjalmar Erickson, USA, for Lt. Frederick Schwatka, USA, who explored the Yukon in 1883. Erickson also reported that the Indians called it "Mkleetokumenah," "which means 'mountain with lake on top.'"

Scidmore Glacier: glacier, in Glacier Bay National Monument, trends NW and E 2.5 miles to its 1961 terminus 4.5 miles SE of head of Reid Inlet and 66 miles NW of Hoonah, St. Elias Mountains; 58° 48' 20" N, 136° 42' 08" W; BGN 1937; (map 10). Named by Field and Cooper (1937, pl. 1 and p. 62) for Eliza R. Scidmore, 1856-1928, author of "Alaska, its Southern Coast and the Sitkan Archipelago," (1885), and "Guide to Alaska and the Northwest Coast," (1890). After visiting Glacier Bay she wrote about its discovery in the National Geographic Magazine in 1896.

Scofield Creek: stream, flows SW 4 miles to Wild River E of Twoday Mountain and 35 miles W of Wiseman, Brooks Range; 67° 17' 45" N, 151° 24' 00" W; BGN 1932; (map 124). Locally

named “for Slim Scofield who prospected the stream in 1905”; reported by Robert Marshall in 1932.

Scolai Pass: pass, see Skolai Pass.

Scoloi Pass: pass, see Skolai Pass.

Scookuk: locality, see Chiukak.

Scorpion Peak: peak, 4,450 ft., 1.5 miles NE of Vesper Peak and 6 miles NE of Juneau, Coast Mountains; 58° 22' 45" N, 134° 19' 20" W; (map 11). Local name reported in 1965 by D. A. Brew and A. B. Ford, USGS.

Scotch Cap: promontory, 420 ft., on SW coast of Unimak Island, Aleutian Islands; 54° 24' 15" N, 164° 47' 30" W; (map 24). Variant: Cape Hibahibgik, Cape Khitkhok, Cape Khitkouk, Cape Khituk, Cape Kitkhuk, Cape Kitkuk, Scotch Cape. This name was originally applied about 1890 to what is now called “Scotch Cap Pinnacle,” because of the latter's resemblance to a “Scotch cap.” However, because the precipitous cliff behind the rock was a better landmark from the sea, the name was transferred to it.

Scotch Cape: promontory, see Scotch Cap.

Scotch Creek: stream, flows NE 1.5 miles to Fairhaven Creek, 34 miles N of Haycock, Seward Peninsula Highlands; 65° 42' N, 161° 09' W; (map 109). Local name published on maps after 1950.

Scotch Gulch: ravine, trends NW 1 mile to Snake River, 12 miles N of Nome, Seward Peninsula Highlands; 64° 41' N, 165° 24' W; (map 94). Variant: Scotch-Irish Creek. Reported as “Scotch-Irish Creek” on a map by S. E. King dated 1900.

Scotch Gulch: ravine, trends S 1 mile to St. Michaels Creek, 8 miles NE of Nome, Seward Peninsula Highlands; 64° 31' 55" N, 165° 06' 50" W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Scotch-Irish Creek: ravine, see Irish Gulch.

Scotch-Irish Creek: ravine, see Scotch Gulch.

Scotchmans Crossing: crossing, on Tanana River, 11 miles downstream from mouth of Kantishna River, Tanana Lowland; 64° 50' 45" N, 150° 15' 00" W; (map 99). Variant: Scotsmans Crossing. Riverboat crossing (a shift from one side of the stream to the other) published on a 1940 “Navigation Chart of Tanana-Yukon Rivers” by U.S. Dept. of Interior.

Scotland Point: point of land, NE tip of Korovin Island, in Shumagin Islands, Aleutian Range; 55° 26' 50" N, 160° 08' 30" W; (map 28). Named for Scotland Rock to the northeast, and published by USC&GS in 1916 Coast Pilot (p. 175).

Scotland Rock: rock, between Korovin and Karpa Islands, in Shumagin Islands, Aleutian Range; 55° 28' N. 160° 05' W; (map 28). Named in 1875 by W. H. Dall, USC&GS, for the

fishing schooner Scotland which reported the rock in 1871. No evidence of this rock was found by sounding and wire drag, according to 1954 Coast Pilot 9 (p. 308), thus its location is uncertain.

Scotsmans Crossing: crossing, see Scotchmans Crossing.

Scott Glacier: glacier, trends SW 15 miles to its terminus 6 miles NE of Cordova, Chugach Mountains; 60° 37' N, 145° 24' W; (map 64). Local name "of a miner" reported in 1908 by U. S. Grant and D. F. Higgins (in Brooks and others, 1909, pl. 4), USGS.

Scott Island: island, 0.3 miles across, at mouth of Inishkin Bay, 19 miles N of Augustine Island, Aleutian Range; 59° 38' 20" N, 153° 26' 00" W; BGN 1916; (map 51). Named by USC&GS, in 1914, for Capt. Robert Falcon Scott, 1868-1912, Royal Navy and English Antarctic explorer.

Scott Island: island, 1.1 miles long, in Tokeen Bay, between Marble and Orr Islands, Alexander Archipelago; 55° 59' 20" N, 133° 23' 00" W; (map 4). Local descriptive name published in 1964 by USC&GS.

Scott Lagoon: estuary, 1 mile long, W coast of Tuxekan Island, Alexander Archipelago; 55° 51' 20" N, 133° 19' 45" W; BGN 1963; (map 4). Variant: Scotts Lagoon. Local name reported in 1961 by USFS.

Scott Lake: lake, 0.7 miles long, 2.5 miles SW of terminus of Scott Glacier, 10 miles NE of Cordova, Chugach Mountains; 60° 35' N, 145° 25' W; (map 64). Local name reported in 1908 by U. S. Grant and D. F. Higgins (in Brooks and others, 1909, pl. 4), USGS. Name derived from Scott Glacier.

Scott Peak: mountain, 3,248 ft., 8 miles NW of Petersburg, on W coast of Lindenberg Peninsula, Kupreanof Island, Alexander Archipelago; 56° 52' 20" N, 133° 10' 30" W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for Gen. Winfield Scott, USA.

Scott Peak: peak, 8,828 ft., at head of Sunset Glacier, 14 miles E of mouth of McKinley River, Alaska Range; 63° 20' 45" N, 150° 07' 30" W; BGN 1954; (map 88). Named in 1953 by R. E. Isto, USGS, and Bradford Washburn for Lt. Gordon Scott, USC&GS, who was killed in the course of map ping operations that summer.

Scott Point: point of land, 0.4 miles S of Ingraham Bay, SE coast of Prince of Wales Island, Alexander Archipelago; 54° 57' 26" N, 131° 58' 00" W; (map 2). Local navigators' name recorded in 1904, by H. C. Fassett, USBF.

Scott Point: point of land, on S shore of Elson Lagoon, W point of entrance to Iko Bay, 16 miles E of Barrow, Arctic Plain; 71° 14' 30" N, 156° 04' 30" W; (map 153). Variant: Avachiak Point, Point Scott. Named Point Scott by Simpson (1843, p. 152) in 1837.

Scottie Creek: stream, heads in Yukon, Canada, flows SW across Alaska-Canada boundary 50 miles to Chisana River, 28 miles SE of Northway Junction, Alaska Range; 62° 41' N, 141° 16' W; BGN 1960; (map 84): Variant: Big Scotty Creek, Scotty Creek. Named by W. J. Peters and A. H. Brooks, USGS, for a member of their 1898 survey party.

Scotts Lagoon: estuary, see Scott Lagoon.

Scotty Creek: stream, see Scottie Creek.

Scotty Gulch: ravine, extends NE 2.8 miles to Beaver Creek, in Nutzotin Mountains, 8 miles SE of Carden Lake, Alaska Range; 62° 10' 30" N, 141° 02' 25" W; (map 84). Local name reported in 1959 by USGS.

Scotty Lake: lake, 0.7 miles long, 5 miles NE of Amos Lakes, 21 miles NW of Mount Russell, Alaska Range; 62° 55' 25" N, 152° 30' 05" W; (map 81). Local name reported in 1958 by USGS.

Scotty Lake: lake, 1 mile across, 15 miles NE of Chalkyitsik, Yukon Flats; 66° 49' N, 143° 29' W; (map 120). Local name obtained in 1956 by T. E. Taylor and R. C. Foley, USGS.

Scotty Lake: lake, 1 mile long, at head of Ninemile Creek, 6 miles W of Talkeetna, Cook Inlet Lowland; 62° 19' 30" N, 150° 19' 00" W; (map 81). Local name reported in 1958 by USGS.

Scotty Lake: lake, see Imiaknikpak Lake.

Scotty Peak: mountain, 7,416 ft., 4 miles NE of junction of Kluesna and Kotsina Rivers, 19 miles W of Mount Blackburn, Wrangell Mountains; 61° 46' 35" N, 143° 58' 00" W; (map 67). Name reported by F. H. Moffit (in Brooks and others, 1915, pl. 5), USGS.

Scout Canyon: canyon, trends 2.5 miles ESE to head of West Arm Holtz Bay on NE coast of Attu Island, Aleutian Islands; 53° 55' 50" N, 173° 07' 40" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II; shown on an AMS map published in 1948.

Scout Creek: stream, flows 2.5 miles ESE to West Arm Holtz Bay, on NE coast of Attu Island, Aleutian Islands; 53° 55' 50" N, 173° 07' 40" E; (map 13) Name used by the U.S. Army during its occupation of the island during World War II, but, as far as can be determined, name was never published.

Scout Lake: lake, 0.1 miles across, on Revillagigedo Island, 0.4 miles NE of Ketchikan, Alexander Archipelago; 55° 20' 45" N, 131° 37' 05" W; (map 3). Local name reported in 1954 by USGS.

Scout Lake: lake, 0.8 miles long, on Kenai Peninsula, 2.5 miles W of Sterling and 15 miles E of Kenai, Cook Inlet Lowland; 60° 32' N, 150° 50' W; (map 62). Local name reported in 1965 by USGS.

Scout Lake: lake, 500 ft. long, in Heney Range, 2.5 miles SE of Cordova, Chugach Mountains; 60° 32' N, 145° 41' W; (map 64). Local name published in 1951 by USGS.

Scow Bay: area, pop. 74, on NW side of Mitkof Island, along E shore of Wrangell Narrows, 3 miles S of Petersburg, Alexander Archipelago; 56° 46' 20" N, 132° 57' 30" W; (map 6). Variant: Doyhof. This is a residential suburb of Petersburg, published in the "Alaska

Sportsman" (1962, no. 12, p. 31). The suburb was formerly a part of Doyhof (Balcom, 1965, p. 42).

Scow Bay: bay, 0.3 miles across, on W coast of Beauchamp Island, 9 miles SE of Goddard, on SW coast of Baranof Island, Alexander Archipelago; 56° 42' 45" N, 135° 16' 30" W; (map 5). Named by USC&GS for charting purposes; name published in the 1925 Coast Pilot (p. 285).

Scow Bay: bight, along E shore of Wrangell Narrows, 3 miles S of Petersburg, Alexander Archipelago; 56° 46' 20" N, 132° 57' 50" W; (map 6). Local name used by fishermen, published in 1912 by USC&GS.

Scow Cove: cove, 0.3 miles across, on W shore of Taku Inlet, 1.6 miles N of Flat Point and 14 miles NE of Juneau, Coast Mountains; 58° 21' 15" N, 134° 03' 30" W; (map 11). Local name published in 1952 by USGS.

Scow Harry Creek: stream, flows SW 22 miles to Kuskokwim River, 0.5 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 07' N, 154° 42' W; (map 89). Local name obtained in 1924 by J. S. Brown (in Smith, P. S., and others, 1926, pl. 5), USGS.

Scow Island: island, 0.2 miles long, in El Capitan Passage, Alexander Archipelago; 55° 57' 35" N, 133° 20' 25" W; (map 4). Local name published in 1925 Coast Pilot (p. 155).

Scow Island: island, 0.5 miles long, 10 miles SE of Goddard, on SW coast of Baranof Island, Alexander Archipelago; 56° 42' 10" N, 135° 17' 15" W; (map 5). Named by USC&GS for charting purposes; name published in the 1925 Coast Pilot (p. 285).

Scow Mountain: mountain, 1,740 ft., 15 miles S of Ruby, Kilbuck-Kuskokwim Mountains; 64° 31' N. 155° 28' W; (map 98). Prospectors' name reported by Eakin (1916, pl. 1), USGS.

Scrafford: locality, along Tanana Mines Railroad, 10 miles N of Fairbanks, Yukon-Tanana Highlands; 64° 59' N, 149° 38' W; (map 100). This is the site of a former railroad station named for Eugene L. Scrafford, a well-known prospector and miner in the Fairbanks region. The name was published in the 1915-16 Polk's Gazetteer.

Scrag Islands: islands, two, each 300 ft. long in South Pass Sukkwan Strait, on NW coast of Sukkwan Island, Alexander Archipelago; 55° 1' 20" N 132° 51' 10" W; (map 4). Variant: Scraggy Islands. Descriptive name giver) in 1916 by USC&GS. In 1912 the name Scraggy Islands was published by USC&GS.

Scraggy Island: island, 0.1 miles across, in Icy Strait, at mouth of Port Frederick, 0.8 miles NE of Crist Point and 4.6 miles NW of Hoonah, Alexander Archipelago; 58° 10' 30" N, 135° 28' 10" W; (map 11). Descriptive name given in 1901 by J. F. Pratt, USC&GS, and published in the 1901 Coast Pilot (p. 202).

Scraggy Island: island, see Fivemile Island.

Scraggy Islands: islands, extend 0.2 miles in head of Salisbury Sound, between Baranof and Kruzof Islands, 24 miles NW of Sitka, Alexander Archipelago 57° 20' 20" N, 135° 42' 15"

W; BGN 1901, (map 9). Variant: Ostrov Samoylov, Samoi Islands, Samoiloof Islands. Local descriptive name published in 1901 Coast Pilot (p. 196). Originally named in 1833 by the Russian navigator Ens. Vasiliev for an early Russian explorer Gerasim Izmailov; published in 1848 as "Os[trov] Samoylov," or "Samoylov Island" on Russian Hydrog. Dept. Chart 1397.

Scraggy Islands; islands, see Scrag Islands.

Scraggy Point: point of land, at E entrance to Sinitsin Cove, Salisbury Sound, on Kruzof Island, 24 miles NW of Sitka, Alexander Archipelago; 57° 20' 20" N, 135° 43' 40" W; (map 9). Named in 1896 by Lt. Comdr. E. K. Moore USN, and published in 1900 by USC&GS on Chart 8282. The name was derived from the nearby Scraggy Islands.

Scraggy Point: point of land, on SE coast of Prince of Wales Island, in Port Johnson, Alexander Archipelago; 55° 07' 35" N, 132° 02' 00" W; (map 4). Local descriptive name obtained in 1905 by E.F. Dickins, USC&GS.

Screen Islands: islands, 1.5 miles long, on W coast of Etolin Island, Alexander Archipelago; 56° 05' N, 132° 41' W; (map 6). Named in 1879 by W. H. Dall, USC&GS.

Scripps Bay: bay, 0.7 miles across, on N coast of Little Tanaga Island, Aleutian Islands; 51° 51' 00" N 176° 07' 10" W; BGN 1936; (map 17). Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934 "after Scripps Institute which cooperated with the expedition."

Scrub Island: island, 250 ft. long, in Port Chester on W coast of Annette Island, Alexander Archipelago; 55° 08' 30" N, 131° 34' 01" W; (map 3). Descriptive name given in 1883 by Lt. Comdr. H. E. Nichols, USN.

Scull Island: island, 0.1 miles across, in Stephens Passage, 3.3 miles NW of Point Young on Admiralty Island and 11 miles SW of Juneau, Alexander Archipelago; 58° 12' 15" N, 134° 38' 45" W; BGN 1900; (map 11). Variant: Scull Islet, Skull Island. Named in 1869 by Comdr. R. W. Meade USN, and published by USC&GS in the 1883 Coast Pilot (p. 172). Called "Scull Islet" by Baker (1906, p. 556).

Scull Islet: island, see Scull Island.

Scutshon: locality, see Neltushkin.

Sea Gull Flat: island, 0.9 miles long, between Coffee Creek Channel and main channel of Kvichak River, 15 miles N of Naknek, Bristol Bay Lowland; 58° 57' 00" N, 156° 59' 30" W; (map 41). Local name reported in 1952 by USGS.

Sea Gull Island: island, see Ham Island.

Sea Gull Islands: islands, see Baby Islands.

Sea Gull Point: point of land, in Yukon Delta, on island between Kawanak and Kwikpak Passes, 19 miles N of Kwiguk, Yukon-Kuskokwim Delta; 63° 02' N, 164° 21' W; (map 92). Local name obtained in 1952 by USC&GS.

Sea Level Slough: estuary, 1 mile long, 12 miles NW of Chichagof, on W coast of Chicagof Island, Alexander Archipelago; 57° 48' N, 136° 18' W; BGN 1937; (map 9). Local descriptive name reported in 1936 by USFS. It is “a narrow shallow tidal slough * * *.”

Sea Lion Bay: cove, see Sealion Cove.

Sea Lion Pass: water passage, has 2 miles navigable width, between Tanadok Island and Sea Lion Rock, 15 miles E of Kiska Islands; 51° 53' 30" N, 177° 54' 00" E; (map 14). Shown on recent maps and charts of Kiska Island; listed in 1954 Coast Pilot (p. 466).

Sea Lion Point: point of land, on SE coast of St. George Island, in Pribilof Islands; 56° 34' 40" N, 169° 28' 50" W; (map 38). Variant: Propas'tcky, Sealion Point, Tug'una'raro'logh. Name reported by H. W. Elliott in 1874. Putnam (1903, p. 1015), USC&GS, lists the Russian name as “Propas'tcky,” meaning “perished * * * so called because here dead sea-lions have been found on shore.” The Aleut name is similar in meaning; “Tug'una'raro'logh,” meaning “dead sea-lion place” (ibid., p. 1016).

Sea Lion Point: point of land, S of Northeast Point, on E coast of St. Paul Island, in Pribilof Islands; 57° 14' 20" N, 170° 06' 00" W; (map 38). Variant: Sealion Neck, Sealion Point. Name reported by USC&GS in 1875; probably obtained from Elliott (1881, p. 56) who referred to the point as “a little tongue of low basaltic jutting, is the principal corner where the natives take these animals [sea-lions] when they capture them in the fall for their hides and sinews.”

Sea Lion Point: point of land, see Georgiana, Cape.

Sea Lion Point: point of land, see Harpoon Point.

Sea Lion Rock: rock, 900 ft. long, in Pacific Ocean 0.4 miles N of Forrester Island, Alexander Archipelago; 54° 50' 40" N, 133° 32' 15" W; (map 1). Variant: Sealion Rock. Name published by USC&GS in 1912.

Sea Lion Rock: rock, elev. 10 ft., 10 miles SE of Tanadak Island, 17 miles ESE of South Head on Kiska I., on E side of Sea Lion Pass, Aleutian Islands; 51° 53' N, 177° 59' E; BGN 1937; (map 14). Variant: Sealion Rock, Sivoutchi, Sivoutchy. Local name published in 1836 by Capt. Lutke (1836, p. 327), IRN, as “Sivoutchy Roche (du lion marin),” or “Sea Lion Rock.”

Sea Lion Rock: rock, off Reef Point, S tip of St. Paul Island, in Pribilof Islands; 57° 06' 15" N, 170° 17' 30" W; (map 38). Variant: Kamen Sivuchiy, Sealion Rock, Seevitchie Kammin, Sivoutchi Rock, Sivutch Rock. Russian name “sivuchiy,” meaning “sealion,” translated and published by USC&GS in 1875. Elliott (1881, p. 51) calls it “Seevitchie Kammin [sea-lion rock].” It was published by Capt. Tebenkov (1852, map 21), IRN, as “K[amen] Sivuchiy,” or “Sea-lion Rock.”

Sea Otter Bay: bay, see Beaver Bay.

Sea Otter Bay: cove, see Deep Bay.

Sea Otter Bay: water passage, see Meares Passage.

Sea Otter Bay: water passage, see Real Marina, Port.

Sea Otter Creek: stream, heads at 1961 terminus of Sea Otter Glacier, flows SW 4.5 miles to Gulf of Alaska, 5 miles N of Cape Fairweather and 105 miles NW of Hoonah, Malaspina Coastal Plain; 58° 52' 40" N, 137° 56' 30" W; (map 10). Local name published by USGS in the 1950's.

Sea Otter Glacier: glacier, in Glacier Bay National Monument, heads 4 miles SW of Mount Root, trends W 11 miles to its 1961 terminus on Sea Otter Creek, 3 miles E of Gulf of Alaska and 104 miles NW of Hoonah, St. Elias Mountains; 58° 53' 45" N, 137° 51' 00" W; (map 10). Local name published by USGS in the 1950's.

Sea Otter Harbor: bay, extends E 2 miles, off Pacific Ocean, on W coast of Dall Island between Cape Lookout and Juel Point, Alexander Archipelago; 55° 07' N, 133° 12' W; (map 4). Name published in the 1925 Coast Pilot (p. 169).

Sea Otter Harbor: bay, see Sea Otter Sound.

Sea Otter Harbor: water passage, see Siketi Sound.

Sea Otter Island: island, 0.4 miles across, 6 miles E of Shuyak Island, and 43 miles N of Kodiak Island; 58° 31' 20" N, 152° 13' 00" W; (map 43). Variant: Beaver Island, Bobroff Island, Bobrovie Island, Bobrovoy Island, Bobrovoy, Ostrov, Bobrovoy (valga), Ostrov' Bobrovyy, Ostrov, Bobrow Island, Bohrow Island. Translation of the name "Os[trov] Bobrovyy" published in 1849 by the Russian American Company.

Sea Otter Island: island, see Bobrof Island.

Sea Otter Island: island, see Otter Island.

Sea Otter Islet: island, see Bobrof Island.

Sea Otter Islets: rocks, see Latax Rocks.

Sea Otter Pass: water passage, SW of Ogliuga Pass, NE of Kavalga Island, Delarof Islands, Aleutian Islands 51° 33' N, 178° 43' W; (map 16). Name published in the 1946 supplement to the 1944 Aleutian Coast Pilot (U.S. Coast and Geodetic Survey, 1946, p. 120).

Sea Otter Point: promontory, on NE coast of Iniskin Peninsula, Aleutian Range; 59° 50' N, 153° 01' W; (map 51). Local name reported in 1957 by USGS.

Sea Otter Reef: reef, see Douglas Reef.

Sea Otter Rock: rock, in Amchitka Pass, 1 mile E of East Cape, Amchitka Island, Aleutian Islands; 51° 22' 10" N, 179° 29' 20" E; (map 15). Local name published by AMS in 1955.

Sea Otter Rocks: reef, see Douglas Reef.

Sea Otter Rocks: rocks, see Augustine Rocks.

Sea Otter Sound: bay, 8 miles across, opens into Davidson Inlet, surrounded by Marble, Orr, Tuxekan and Heceta Islands, Alexander Archipelago; 55° 52' N, 133° 33' W; (map 4). Variant: Otter Sound, Sea Otter Harbor. Name published by Dall (U.S. Coast and Geodetic Survey, 1883, p. 99) who said "To this bight * * * the name of Otter Sound or Sea Otter Sound has been applied, under the supposition that it was the Otter Sound of [J.] Meares * * *."

Sea Otters Bay: bay, see Beaver Inlet.

Sea Parrot Island: island, 0.2 miles across, W of Dora Island, Bay of Islands, Adak Island, Aleutian Islands; 51° 48' 55" N, 176° 48' 25" W; BGN 1936; (map 17). Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1933.

Sea Ranger Reef: reef, in Gulf of Alaska, 4 miles N of Cape St. Elias, Kayak Island, Malaspina Coastal Plain; 59° 51' 20" N, 144° 36' 45" W; BGN 1910; (map 48). Name published in 1943 by USC&GS on Chart 8513.

Sea Rock: rock, 1 mile off NW end of Kruzof Island, 28 miles NW of Sitka, Alexander Archipelago; 57° 20' 15" N, 135° 52' 30" W; (map 9). Local navigators' name published by USC&GS in the 1943 Coast Pilot (p. 370).

Sea Rock: rock, see Morskoi Rock.

Sea-Otter Rocks: rocks, see Latax Rocks.

Seabee Creek: stream, flows SE 10 miles to Colville River N of Umiat, Arctic Slope; 69° 22' 25" N, 152° 06' 30" W; BGN 1949; (map 141). Variant: Sea Bee Creek. Named by Naval Petroleum Reserve No. 4 geologists about 1945 for the Seabees (an alternation of "cee" and "bee," the initial letters for construction battalion), a construction battalion organized as a volunteer branch of the Civil Engineer Corps of the U.S. Navy; a group that participated in establishing camps during the early period of exploration of Naval Petroleum Reserve No. 4.

Seaborg Bay: bay, 0.6 miles across, on E shore of Alitak Bay, at S end of Kodiak Island; 56° 53' 15" N, 153° 59' 00" W; (map 33). Variant: Seaborg Cove. Name reported in 1943 by USC&GS as Seaborg Cove.

Seaborg Cove: bay, see Seaborg Bay.

Seaflower Cove: bay, 0.3 miles across, on NW coast of Tanner Head, on W shore of Alitak Bay, S end of Kodiak Island; 56° 53' 10" N, 154° 14' 30" W; (map 32). Name published in 1943 by USC&GS.

Seaforth: locality, site of prospectors' camp at junction of Fish Creek and South Fork Koyukuk River, 20 miles S of Bettles, Kanuti Flats; 66° 37' 30" N, 151° 30' 00" W; (map 117). Name reported in 1899 by G.H. Wonson, Master of the steamer Dorothy, on his manuscript map of the Koyukuk River. One of several temporary camps established by prospectors caught on the river during the winter of 1898-99.

Seagher Bluff: hill, see Bishop Rock.

Seagull Cove: cove, 0.3 miles across, facing SE to McArthur Pass, on NE coast of Kiska Island, 0.5 miles N of Reynard Cove, Aleutian Islands; 52° 01' 50" N, 177° 36' 30" E; (map 14). One of the "bird names" arbitrarily applied to features on Kiska Island in 1943 by USAAF for tactical purposes during World War II.

Seagull Creek: stream, flows 6 miles S to Port Frederick, on Chichagof Island, 2 miles S of Burnt Point and 7.8 miles SW of Hoonah, Alexander Archipelago; 58° 00' 55" N, 135° 33' 40" W; (map 11). Variant: Sea Gull Creek. Name published in 1923 by USC&GS on Chart 8304.

Seagull Creek: stream, in De Long Mountains, flows SE 23 miles to Nimiutuk River, 30 miles E of Misheguk Mountain, Brooks Range; 68° 18' N, 159° 54' W; BGN 1925; (map 131). Named by the 1924 USGS exploring expedition, "because the only food the [field] party had was a sea gull killed near this stream."

Seagull Island: island, 500 ft. across, at S entrance to Buschmann Pass, off SW coast of Prince of Wales Island, Alexander Archipelago; 54° 44' 45" N, 132° 19' 20" W; (map 1). Local name reported in 1948 by USGS.

Seagull Islets: islands, see Baby Islands.

Seagull Lake: lake, 0.9 miles long, at head of Tritt Creek, 12 miles NE of Arctic Village, Brooks Range; 68° 15' N, 145° 11' W; (map 136). Local name reported in 1956 by R. C. Foley, USGS.

Seahorse Islands: barrier islands, extend 3.5 miles, between Peard Bay and Chukchi Sea, 1 mile E of Point Franklin, Arctic Plain; 70° 53' N, 158° 42' W; (map 147). Capt. Beechey (1831, p. 306), RN, wrote on August 21, 1826, "a chain of sandy islands which I have distinguished by the name of the Sea Horse Islands." The forms of the islands have changed over the years.

Seakgluka: locality, see Sixtukak.

Seakoovook Bay: bay, extends E 2 miles from Siknik Cape, 36 miles SE of Savoonga, S coast of St. Lawrence Island; 63° 11' N, 170° 15'; BGN 1951; (map 93). Eskimo name recommended by the Savoonga village council and reported in 1949 by Maj. H. B. Allen, USAF.

Seal Bay: bay, 0.5 miles across, 3.5 miles long, on W shore of Tenakee Inlet, on central Chichagof Island, 11 miles NW of Tenakee Springs, Alexander Archipelago; 57° 50' 30" N, 135° 31' 00" W; BGN 1929; (map 9). Local name reported in 1928 by USFS.

Seal Bay: bay, 1 mile across, on E shore of Russell Fiord, 2.3 miles NW of Mount Unana and 23 miles NE of Yakutat, St. Elias Mountains; 59° 47' N, 139° 17' W; (map 46). Name reported by Lt. Comdr. Moser, (1901, pl. 43), USN.

Seal Bay: bay, 2 miles across, 33 miles NE of Afognak, on NE coast of Afognak Island, N of Kodiak Island; 58° 22' N, 152° 12' W; (map 43). Vat. Nerpichie Bay. Translation of the name "Za[iv] Nyerpichiy," published in 1849 by the Russian American Company.

Seal Bay: estuary, see Pond Bay.

Seal Cape: point of land, E entrance point to Coal Bay, 7 miles E of Pavlof Bay, on Alaska Peninsula, Aleutian Range; 55° 21' 45" N, 161° 18' 30" W; (map 28). Variant: Hair Seal Cape, Nerpichie. Translation of "Nerpichi", shown on Russian Hydrog. Dept. Chart 1379 (1847); the feature is shown as Seal Cape on an 1882 USC&GS chart, although 1916 Coast Pilot (p. 182) describes it as Hair Seal Cape.

Seal Cape: point of land, on S coast of Alaska Peninsula, 20 miles S of Chignik, Aleutian Range; 56° 00' 00" N, 158° 25' 30" W; BGN 1939; (map 27). Local name published by USC&GS in 1916.

Seal Cape: point of land, on S coast of Unimak Island, Aleutian Islands; 54° 23' 30" N, 164° 38' 30" W; (map 24). Variant: Cape Khituk, Mys Kishnak, Seal Point. Named in 1888 by USBF. Capt. Tebenkov (1852, map 26), IRN, published the Aleut name as "Mys Kishnak." Early charts showed the name "Cape Khituk (Scotch Cap)" but this was an error in the application of that name.

Seal Cape: point of land, see Ikolik, Cape.

Seal Cove: bay, extends 0.8 miles, off Nichols Passage, on SE coast of Gravina Island, Alexander Archipelago; 55° 11' N, 131° 43' W; (map 3). Local name reported in 1901 by A. H. Brooks (1902b, pl. 2), USGS.

Seal Creek: stream, flows S 12 miles on Yakutat Foreland to Ahrnklin River, 5.5 miles SE of Situk and 15 miles SE of Yakutat, Malaspina Coastal Plain; 59° 24' 00" N, 139° 27' 30" W; (map 46). Name published by IBC in 1928.

Seal Creek: stream, flows SSE 5 miles to Freshwater Bay, on E coast of Chichagof Island, 10.7 miles N of Tenakee Springs, Alexander Archipelago; 57° 56' N, 135° 09' W; BGN 1960; (map 9). So named by USGS in 1958 "because its delta is the breeding grounds for seals."

Seal Island: island, 0.5 miles long, in Prince William Sound, 7 miles E of Knight Island, 25 miles NE of Chenega, Chugach Mountains; 60° 25' 40" N, 147° 24' 30" W; (map 63). Name published in 1899 by USC&GS.

Seal Island: island, see Ikignak Island.

Seal Island: island, see Reef Island.

Seal Islands: barrier islands, dozen or more, trend NE 7 miles along Bristol Bay coast, 33 miles SW of Port Heiden Airfield, Bristol Bay Lowland; 56° 42' N, 159° 21' W; (map 30). Shown as "O[stro]va Nerpichoi," meaning "Seal Islands," by Capt. Tebenkov (1852, map 24), IRN, and as "Seal Islands" on an 1888 USBF chart.

Seal Islands: islands, 1 mile across, 35 miles NE of Afognak, on N coast of Afognak Island, N of Kodiak Island; 58° 26' 30" N, 152° 17' 00" W; (map 43). Variant: Nerpichie Islets. Translation of the name "Os[tro]va Nerpichi" published in 1849 by the Russian American Company.

Seal Islands: islands, group, extend 1.6 miles, in Iliamna Lake, 1 mile W of Flat Island and 22 miles E of Iliamna, Aleutian Range; 59° 43' N, 154' 22' W; (map 51). Local name published in 1957 by USGS.

Seal Islands: islands, see Pribilof Islands.

Seal Lake: lake, 0.1 miles across, SE of St. George, on NE coast of St. George Island, in Pribilof Islands; 56° 36' 00" N, 169° 31' 15" W; (map 38). Variant: An'im-al'gera. This is a translation of an Aleut name reported by Putnam (1903, p. 1014), USC&GS, as An'im-al'gera[e], and so named because, according to native lore, "the seals extended as far back as this lake * * *."

Seal Oil Creek: stream, flows NW 8.5 miles of Norton Sound, 2.5 miles S of Tolstoi Point and 21 miles SW of Unalakleet, Nulato Hills, 63° 35' 20" N, 161° 01' 45" W; (map 91). Local name reported in 1952 by USC&GS.

Seal Point: point of land, on E shore of Becharof Lake, N of Bellim Bay, on Alaska Peninsula, 54 miles NE of Ugashik, Aleutian Range; 57° 43' 40" N, 156° 00' 30" W; (map 36). Local name reported in 1902 by J. L. McPherson of Iliamna.

Seal Point: point of land, see Seal Cape.

Seal River: stream, distributary of South Fork Big River, flows SE 11 miles to Redoubt Bay 28 miles W of Kenai, Cook Inlet Lowland; 60° 38' 35" N, 152° 03' 30" W; (map 62). Local name reported in 1958 by USGS.

Seal River: stream, heads in lake at 1950 terminus of Bering Glacier, flows SW 3 miles to Gulf of Alaska, 13 miles NE of Cape Suckling, Malaspina Coastal Plain; 60° 02' 40" N, 143° 32' 00" W; (map 65). Local name published in 1951 by USGS.

Seal Rock: island, see Bird Rock.

Seal Rock: rock, 8 miles S of Sanak Island, Aleutian Range, 54° 17' 48" N, 162° 35' 20" W; (map 25). Name reported by Ferdinand Westdahl USC&GS, commander of the Coast Survey steamer McArthur, who made surveys in this area in 1901.

Seal Rock: rock, at SE end of Kashevarof Passage, on NE coast of Prince of Wales Island, Alexander Archipelago; 56° 04' 20" N, 132° 50' 00" W; (map 6). Local name used by fishermen, published in 1907 by USC&GS.

Seal Rocks: rocks, 6 miles S of Matushka Island in Gulf of Alaska, 44 miles SW of Seward, Chugach Mountains; 59° 31' 25" N, 149° 37' 32" W; (map 49). Named "K[amen] Sivuchi," meaning "sealion rocks," by Capt. Tebenkov (1852, map 5), IRN; erroneously translated in 1888 by USC&GS.

Seal Rocks: rocks, at S end of Hinchinbrook Entrance, 8 miles SW of Hinchinbrook Island and 45 miles SW of Cordova, Chugach Mountains; 60° 10' N, 146° 50' W; (map 64). Variant: Isla Triste, Kamen Siuchiy, Rock Surprise, Rose Island, Sivuchi Kamen. Name published in 1869 Coast Pilot (p. 155). This feature was shown in 1788 as part of the "Rose Island" of Capt. John Meares, RN. "Isle Triste," meaning "dismal islands," was published in 1788 by Bodega y Quadra and Francisco Antonio Maurelle. It was published as "Kamen Siuchiy," meaning "Sealion Rocks," in 1847 on Russian Hydrog. Dept. Chart 1378.

Seal Rocks: rocks, extend 400 ft., in Portland Canal, 1 mile NE of Glacier Point, Coast Mountains. 55° 49' 35" N, 130° 05' 30" W; (map 3). Variant: Seal Rock. Descriptive name given in 1868 by Staff Comdr. David Pender, RN.

Seal Rocks: rocks, off Cape Ikolik, on W coast of Kodiak Island, 24 miles SW of Karluk; 57° 17' 50" N, 154° 49' 00" W; (map 35). Variant: Kamen Sivuchiy. Translation by USC&GS in 1868 of the Russian name "K[amen] Sivuchiy," published by Capt. Tebenkov (1852, map 22), IRN. See Inner and Outer Seal Rocks.

Seal Rocks: rocks, see Kitleekot Rocks.

Seal Slough: stream, distributary of Chakachatna River flows SE 3 miles to Trading Bay in Cook Inlet, 30 miles NNW of Kenai, Cook Inlet Lowland; 60° 56' N, 151° 40' W; (map 62). Local name reported in 1958 by USGS.

Seal Slough: stream, flows SW 1.5 miles to Redoubt Bay in Cook Inlet, 1.5 miles SW of Kustatan River and 25 miles NW of Kenai, Cook Inlet Lowland; 60° 43' 30" N, 151° 53' 10" W; (map 62). Local name reported in 1958 by USGS.

Seal Spit: spit, on N coast of Iniskin Peninsula, in Chinitna Bay, W of Camp Point, Aleutian Range; 59° 49' 59" N, 153° 05' 29" W; BGN 1962; (map 51). Local name reported in 1951 by USGS.

Sealed Passage: water passage, 4 miles long, from Clarence Strait to Felice Strait, between Duke Island and Hotspur Island and Percy Islands, Alexander Archipelago; 54° 56' N, 131° 31' W; (map 2). Local descriptive name published in 1885 by USC&GS.

Sealer Creek: stream, flows E 1 mile to Cripple River 1 mile above its mouth on Norton Sound and 12 miles W of Nome, Seward Peninsula Highlands; 64° 33' N, 165° 46' W; (map 94). Prospectors' name reported in 1899 by D. C. Witherspoon (in Schrader and Brooks, 1900, map 2), USGS.

Sealers Island: island, 0.3 miles long, in the Muir Inlet, in Glacier Bay National Monument, 1 mile S of Nunatak Cove, 64 miles NW of Hoonah, St. Elias, Mountains; 58° 57' 35" N, 136° 06' 15" W; BGN 1948; (map 10). Variant: Muir Island. Named by members of the American Geographical Society Glacier Bay Expedition of 1941 (Field, 1947, pl. 1), because in 1926 B. S. Wood and W. O. Field found a seal blind built by the Indians on the island. The name of this island was published as Muir Island by USC&GS on Chart 8306 in 1942.

Sealing Reef: reef, 0.6 miles long, S of Percy Islands, in Clarence Strait, Alexander Archipelago; 54° 55' 45" N, 131° 35' 00" W; BGN 1917; (map 2). Local name published in 1943 by USC&GS.

Sealion Cape: point of land, see Lutke, Cape.

Sealion Cove: cove, 1 mile across, on NW coast of Kruzof Island, 25 miles NW of Sitka, Alexander Archipelago; 57° 18' N, 135° 50' W; (map 9). Variant: Puerto de los Remedios, Sea Lion Bay, Siouchi Bay, Sioutchi Creek, Siuchiya Guba. This is a translation by USC&GS about 1882 of the name "Siuchiya Guba," given in 1833 by the Russian navigator Ens. Vasiliev. This feature was called "Puerto de los Remedios," meaning "Port of the Remedy," by Francisco Antonio Maurelle and Don Juan de la Bodega y Quadra, who named it for Nuestra Senora de los Remedios (Wagner, 1937, P. 490).

Sealion Hill: hill, see Hutchinson Hill.

Sealion Island: island, see Kaligagan Island.

Sealion Island: islands, 1 mile across, 5 miles S of Salisbury Sound, off NW coast of Kruzof Island, 25 miles NW of Sitka, Alexander Archipelago; 57° 17' N, 135° 53' W; (map 9). Variant: Islas de Lobos, Ostrov Sinchiy, Sealion Rocks. This is a translation by USC&GS about 1882 of the name given by the Russian pilot Ens. Vasiliev; published in 1848 on Russian Hydrog. Dept. Chart 1397 as "Os[trov] Sinchiy." This feature was called "Isles de Lobos," meaning "sealion islands" in 1775 by Francisco Antonio Maurelle and Don Juan de la Bodega y Quadra. Wagner (1937, p. 468) thinks this latter name may be identified with "Eagle Rock or Sea Rock farther north."

Sealion Neck: point of land, see Sea Lion Point.

Sealion Rock: rock, a few miles W of Atka Island, Aleutian Islands; 52° 00' N, 175° 30' W; (map 18). Variant: Sivoutchy. This is an unidentified rock reported as "Sivoutchy roche," or "Sea Lion Rock" (Lutke, 1836, p. 290).

Sealion Rocks: islands, see Sealion Islands.

Sealion Rocks: rocks, 1 mile N of Amak Island, in Bering Sea, N of SW end of Alaska Peninsula, Bristol Bay Lowland; 55° 28' N, 163° 10' W; (map 29). Variant: Siouchi, Sioutchi, Siuchi, Suichi. Translation of the Russian name "Siuchi" from the word "Sivuch" meaning "sealion;" given by Capt. Lutke (1836, atlas map 14), IRN.

Sealion Rocks: rocks, 4 miles S of Unga Cape Unga Island in Shumagin Islands, Aleutian Range; 55° 04' 40" N, 160° 30' 30" W; (map 28). Variant: Sea Lion Rocks. Local name shown on a 1963 USGS map and USC&GS chart.

Sealion Rocks: rocks, 5 miles E of Tonki Cape, off E coast of Afognak Island, N of Kodiak Island; 58° 20' 30" N, 151° 48' 40" W; (map 43). Variant: Siuchi. Translation by USC&GS of the name "Siuchiya Kamen," published in 1849 by the Russian American Company.

Sealy Lake: lake, see Seeley Lake.

Sears Creek: stream, flows NW 5 miles to Johnson Slough, 5 miles SE of junction of Johnson and Tanana Rivers and 46 miles SE of Delta Junction, Tanana Lowland; 63° 41' 35" N, 144° 28' 00" W; (map 86). Name published on relatively recent maps.

Seat Island: island, see East Clump.

Seattle Creek: stream, flows N 0.8 miles to Dome Creek, 13 miles N of Fairbanks, Yukon-Tanana Highlands; 65° 01' 50" N, 147° 34' 40" W; (map 105). Variant: Seattle Gulch. Named by prospectors and published in 1913 by USGS (Prindle, 1913a, pl. 2).

Seattle Creek: stream, flows NE 11 miles to Nenana River, 43 miles SE of Healy, Talkeetna Mountains; 63° 20' 40" N, 148° 14' 10" W; (map 87). Local name reported in 1913 by J. M. Bagley, USGS.

Seattle Creek: stream, flows SE 3.5 miles to Flambeau River, 12 miles ENE of Nome, Seward Peninsula Highlands; 64° 32' 20" N, 165° 00' 00" W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Seattle Creek: stream, flows SSE 1.5 miles to Rhode Island Creek, 3 miles SSW of Eureka Dome and 22 miles S of Rampart, Yukon-Tanana Highlands; 65° 11' 10" N, 150° 16' 40" W; (map 106). Prospectors' name reported in 1904 by Prindle and Hess (1906, pl. 3), USGS.

Seattle Creek: stream, flows SW 1 mile to Snake River, 13 miles NW of Nome, Seward Peninsula Highlands; 64° 41' N, 165° 24' W; (map 94). Variant: Wesley Creek. Prospectors' name reported on a map by S. E. King dated 1900.

Seattle Creek: stream, flows W 2.5 miles to Kuskokwim Bay, 27 miles NE of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 58' 20" N, 161° 47' 10" W; BGN 193B; (map 39). Name used by prospectors; reported in 1938 by J. B. Mertie and Gerald FitzGerald, USGS.

Seattle Creek: stream, on N end of Kenai Peninsula, flows NE 6 miles to Turnagain Arm, 9 miles E of Sunrise, Chugach Mountains; 60° 52' 50" N, 149° 09' 30" W; (map 63). Local name reported in 1895 by Becker (1898, map 2), USGS.

Seattle Gulch: ravine, trends 1 mile NE to Copper Creek SE of its junction with Eagle Creek, 19 miles SE of McCarthy, St. Elias Mountains; 61° 20' N, 142° 24' W; (map 67). Name reported in 1908 by D. C. Witherspoon, USGS.

Seattle Gulch: stream, see Seattle Creek.

Seattle Junior Creek: stream, flows S 1 mile to Pioneer Creek 2 miles NE of that stream's junction with Eureka Creek, 21 miles S of Rampart, Yukon-Tanana Highlands; 65° 11' 40" N, 150° 09' 30" W; (map 106). Prospectors' name reported in 1904 by Prindle and Hess (1906, pl. 3), USGS.

Seattle River: stream, see Glacier River.

Seattle, Mount: mountain, 10,070 ft., on Alaska-Canada boundary, 17 miles SSW of Mount Hubbard and 42 miles NE of Yakutat, St. Elias Mountains; 60° 05' 20" N, 139° 11' 40" W; (map 66). Variant: Boundary Peak 178, Mount Bozman. Named by Island C. Russell, USGS, in 1890 after the city of Seattle, Wash.

Seaweed Pass: water passage, between Umnak and Ananiuliak Islands, Aleutian Islands; 53° 00' 10" N, 168° 53' 00" W; BGN 1940; (map 22). Named in 1938 by USC&GS.

Sebree Cove: water passage, 0.3 miles across, just W of Sebree Island, at mouth of Muir Inlet, in Glacier Bay National Monument, 52 miles NW of Hoonah, St. Elias Mountains; 58° 45' 15" N, 136° 10' 00" W; BGN 1948; (map 10). Name suggested by USC&GS in 1948.

Sebree Island: island, 2 miles long, in Glacier Bay National Monument, at mouth of Muir Inlet, 0.5 miles SW of Caroline Point and 52 miles NW of Hoonah, St. Elias Mountains; 58° 45' 10" N, 136° 09' 30" W; (map 10). Variant: Headland Island. Named about 1890 for Comdr. Uriel Sebree, 1848-1922, USN. He was on the Arctic Relief Expedition in 1873 and the Greely Relief Expedition in 1884. The feature was called "Headland Island" by Cushing (1891, p. 228).

Sechiksuk: mountain, see Satsiksuk Mountain.

Secluded Bay: bay, 2.5 miles long, at head of Necker Bay, on W coast of Baranof Island, Alexander Archipelago; 56° 45' N, 135° 01' W; BGN 1926; (map 5) Descriptive name given in 1924 by charting purposes by USC&GS; so named because of its location.

Seclusion Harbor: bay, extends E 1.2 miles from Salt Lagoon to Keku Strait, on E coast of Kuiu Island, 16 miles NW of Point Baker, Alexander Archipelago; 56° 33' 20" N, 133° 52' 00" W; (map 6). Named in 1892 by Lt. W. Island Moore, USN.

Seclusion Lake: lake, about 8 miles long, in Glacier Bay National Monument, 1.5 miles W of Mount Wood and 48 miles NW of Hoonah, St. Elias Mountains; 58° 32' 20" N, 136° 21' 50" W; BGN 1962; (map 10). So named by NPS in 1962 "because the lake is relatively inaccessible and isolated."

Seclusion, Lake: lake, 0.7 miles long, on W coast of Long Island, Alexander Archipelago; 54° 50' 00" N, 132° 43' 20" W; (map 1). Local name published in 1924 by USC&GS.

Second Berg Lake: lake, 0.5 miles long at 1905 terminus of Bering Glacier, 3 miles E of Doughton Peak and 66 miles E of Cordova, Chugach Mountains; 60° 25' N, 143° 49' W; (map 65). Variant: Second Lake. Local name reported in 1905 by G. C. Martin (1908, pl. 2), USGS. This lake originally was the smallest of five Berg Lakes. As a result of the retreat of Steller and Bering Glaciers in recent times, Second Berg and Third Berg Lakes have joined with First Berg Lake to form Berg Lake.

Second Berg Lake: lake, see Berg Lake.

Second Creek: Stream, flows NW 9.6 miles to Reindeer Cove, 15 miles SW of Christmas Mountain, Nulato Hills; 64° 30' N, 161° 02' W; (map 96). Local name reported about 1954 by U.S. Army Corps of Engineers.

Second Hill Lake: lake, 2 miles long, 3.8 miles W of Crosswind Lake and 26 miles NW of Glennallen, Copper River Basin; 62° 21' N, 146° 13' W; (map 83). Local name reported in 1951 by USGS.

Second Kekoor: rock, see Second Kekur.

Second Kekour: rock, see Second Kekur.

Second Kekur: rock, 0.2 miles across, W of Kekur Peninsula, 15 miles NW of village of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 23' 18" N, 134° 57' 00" W; (map 5). Variant: Second Kekoor, Second Kekour. Descriptive name meaning "pinnacle rock" given in 1849 by the Russian American Company. See Kekur Island.

Second Lake: lake, 0.3 miles long, 2.6 miles N of Chitina and 67 miles NE of Valdez, Copper River Basin; 61° 33' 50" N, 144° 26' 35" W; (map 68) Local name published in the 1950's by USGS.

Second Lake: lake, 2,200 ft. across, at head of Indian Creek, 1 mile NW of Tyonek, Cook Inlet Lowland; 61° 05' 00" N, 151° 09' 45" W; (map 70). Local name published in 1898 by USC&GS.

Second Lake: lake, see Berg Lake.

Second Lake: lake, see Doctor Cook Lake.

Second Lake: lake, see Kenai Lake.

Second Narrows: water passage, extends W 0.5 miles from Middle Channel between Lodge Island and Rakof Islands, off W coast of Baranof Island, Alexander Archipelago, 56° 44' 05" N, 135° 15' 45" W; (map 5). Local fishermen's name reported in 1947 by USC&GS.

Second Narrows: water passage, in N part of Redfish Bay, 10.5 miles NW of village of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 20' 20" N, 134° 51' 40" W, (map 5) Named in 1897 by Lt. Comdr. J. F. Moser, USN, commander of USBF steamer Albatross.

Second North Tributary: glacier, see McBride Glacier.

Second Nuyakuk Lake: lake, see Nuyakuk Lake.

Second Point: point of land, see Inner Point.

Second Priest Rock: rock, between Summer and Iliuliuk Bays, SE shore of Unalaska Bay, NE coast of Unalaska Island, Aleutian Islands; 53° 54' 14" N, 166° 27' 58" W; (map 23). Variant: Pinnacle Rock. Local name published by USC&GS on Chart 821 as "Pinnacle" in 1872. See Priest Rock.

Second Pup: stream, flows NW 2 miles to Flat Creek, 40 miles NW of Fairbanks, Yukon-Tanana Highlands; 65° 13' 25" N, 146° 47' 10" W; (map 104). Named "Second Pup" by prospectors; published by USGS (Prindle, 1908, pl. 4). See First Pup and Third Pup.

Second Rapids: rapids, see Southern Rapids.

Second Timber Creek: stream, flows SE 3 miles to Nushagak River, 80 miles SE of Sleetmute, Kilbuck-Kuskokwim Mountains, 60° 37' N, 156° 32' W; (map 60). Local descriptive name reported in 1952 by USC&GS.

Second Waterfall Creek: stream, heads in a lake, flows NW 4 miles to Clover Passage, 1.8 miles NE of Potter Point, on W coast of Revillagigedo Island, Alexander Archipelago; 55° 29' 40" N, 131° 45' 20" W; (map 3). Local name recorded in 1954 by USGS.

Secret Bay: bay, 1 mile across, in S part of Beardslee Island, in Glacier Bay, Glacier Bay National Monument, N of Lester Island, 56 miles NW of Juneau, St. Elias Mountains; 58° 29' N, 135° 56' W; BGN 1948; (map 11). Descriptive name given in 1939 by USC&GS because the bay is so well concealed.

Secret Creek: stream, heads E of Uncle Sam Mountain, flows S 4 miles to lagoon on Norton Sound, 6 miles E. of Solomon, Seward Peninsula Highlands; 64° 34' N, 164° 15' W; (map 95). Variant: Basin Creek, Secret Ravine Creek. Prospectors' name reported in 1905 by T. G. Gardine, USGS. Shown as "Secret Ravine Cr." on Arthur Gibson's "Map of Cape Nome Precinct" dated 1902. USGS geologists reported the upper course of the stream in 1907 as "Basin Creek" (Smith, P. S., 1910, pl. 3).

Secret Ravine Creek: stream, see Secret Creek

Section Creek: stream, heads 13 miles E of Birth day Pass, flows S 15 miles to Awuna River, 145 miles SE of Wainwright, Arctic Slope; 69° 04' N 156° 01' W; (map 143). Named by USGS geologists in the 1950's.

Section House Lake: lake, 0.2 miles long, E of The Alaska Railroad, 11 miles S of Talkeetna, Cook Inlet Lowland; 62° 09' 45" N, 150° 04' 15" W; (map 81). Local name reported in 1958 by USGS.

Security Bay: bay, 1.5 miles across, on N coast of Kuiu Island, Alexander Archipelago; 56° 53' N, 134° 21' W (map 5). Named in 1869 for charting purposes by Comdr. R. W. Meade, USN, who made a reconnaissance of the bay in that year.

Security Cove: bay, 5 miles across, extends from Castle Rock to Pinnacle Rock, 10 miles E. of Cape Newenham Kilbuck-Kuskokwim Mountains 58° 41' 30" N, 161° 54' 00" W; (map 39). Named in 1914 by USC&GS because "the cove offered security during a storm." The name was published in 1916 Coast Pilot (p. 246).

Security Cove: estuary, extends E 2 miles, on SW coast of Dall Island, Alexander Archipelago; 54° 45' 00" N 132° 52' 30" W; (map 1). Name published by USC&GS in 1917.

Security Point: point of land, S point of entrance to Security Cove, on SW coast of Dall Island, Alexander Archipelago; 54° 44' 29" N, 132° 53' 05" W; BGN 1929; (map 1). Name derived from Security Cove; given in 1928 by Capt. R. S. Patton, USC&GS.

Sedaghuv Island: island, see Sedanka Island.

Sedanka Cape: point of land, see Sedanka Point.

Sedanka Island: island, 11 miles long, in Fox Islands, off NE coast of Unalaska Island, Aleutian Islands; 53° 47' N, 166° 12' W; BGN 1921; (map 23). Variant: Beaver Island, Biorka Island, Borka, Burka, Ostrov Spirkin, Sedaghuv Island, Siginak, Siginaq, Sithanak, Spirkin. In 1792 Lt. Sarichev (1826, map 14), IRN, recorded "O[strov] Spirkin." In the same year Martin Sauer gave the Aleut name "Sithanak," which Marcus Baker recorded "Siginak," and R. H. Geoghegan spelled "Siginaq." meaning "braided" or "curled." Between 1824 and 1834 Father Veniaminov and Capt. Lutke, IRN, used the names "Borka" and "Spirkin" or "Spirkin." Baker (1906, p 133) published "Biorka," which he reported as being from the "Norwegian Bjerk O, or Swedish Bjork O, meaning Birch Island." Named "Sedanka Island" in 1921 by USC&GS.

Sedanka Pass: water passage, between Sedanka and Egg Islands, Aleutian Islands; 53° 51' N, 166° 04' W; BGN 1922; (map 23). Variant: Egg Island Passage. Named for Sedanka Island by USC&GS in 1921. John J. Gilbert, USC&GS, commander of the Coast Survey steamer Pathfinder between 1900-01, called this feature "Egg Island Passage" for the island located on its east side.

Sedanka Point: point of land, E point of entrance to Kismaliuk Bay, on W coast of Unalaska Island, Aleutian Island; 53° 28' 45" N, 167° 17' 30" W; BGN 1965; (map 23). Variant: Cape Hague, Point Sedanka, Sedanka Cape, Umshaliuk Cape. This name was first reported by Capt. Tebenkov (1852, map 26, dated 1849), IRN, as "M[ys] Sedanka," or "Cape Sedanka." It was called "M[ys] Umshalyuk," or "Cape Umshalyuk" by Lt. Sarichev (1826, map 14, dated 1792), IRN, and "Cape Hague" by USBF in 1888.

Sedanka, Cape: point of land, on NE tip of Sedanka Island, Aleutian Islands; 53° 50' 30" N, 166° 05' 20" W; BGN 1921; (map 23). Variant: Biorka Cape, Burka Cape. Named by USC&GS in 1921 after Sedanka Island. The USBF called this point "Burke Cape" in 1888.

Sedanka: locality, on Sedanka Point, at mouth of Kismaliuk Bay, on SW coast of Unalaska Island, Aleutian Islands; 53° 28' 45" N, 167° 17' 30" W; (map 23). Former Aleut village reported by Lt. Sarichev (1826, map 14, dated 1792) as "S[eleniye] Sedanka," i.e. "Sedanka Village."

Sedanka: village, see Biorka.

Sedanki: village, see Biorka.

Seduction Point: point of land, on S tip of Chilkat Peninsula, 2.6 miles SE of Kalhagu Cove, on Chilkat Inlet, 26 miles S of Skagway, Coast Mountains; 59° 04' 55" N, 135° 18' 25" W, (map 45). Variant: Mys Seduktion, Seduction Tongue, Mys Soblazna. So named by Capt. Vancouver (1798, v. 3, p. 248), RN, because of the designing nature of the Indians whom

Joseph Whidbey encountered here, July 16 1794. It was called "M[ys] Seduktion," Russian transliteration of the name "Seduction," on Chart 1396 of the Russian Hydrog. Dept. in 1848. Capt. M. D. Tebenkov, IRN, recorded it as "M[ys] Soblazna," meaning "Cape Seduction," in 1852. In 1867, George Davidson, USC&GS, called the point "Seduction Tongue."

Seduction Tongue: point of land, see Seduction Point.

Seduktion, Mys: point of land, see Seduction Point.

See-tuck: stream, see Situk River.

Seegikroorak Point: point of land, see Siksriepak Point.

Seegreepaugrauk Ridge: ridge, see Sigriepak Ridge.

Seekoosooweelak: springs, see Kavrarak Springs.

Seelawik Mutes: village, see Selawik.

Seeley Lake: lake, 0.8 miles long, one of Chedatna Lakes, on N shore of Cook Inlet, 33 miles W of Anchorage, Cook Inlet Lowland; 61° 13' 10" N, 150° 54' 00" W; (map 70). Variant: Sealy Lake. Local name reported in 1958 by USGS.

Seemalik Butte: hill, 866 ft., 5 miles NW of Kimiksthek Hill, 42 miles NW of Cape Mendenhall, Nunivak Island; 60° 09' 15" N, 167° 08' 05" W; (map 57). Variant: Simalik Hill. Eskimo name obtained in 1949 by USC&GS.

Seemick: hill, see Simik Hill.

Seenrakroorak: water passage, see Sinrakraurak Inlet.

Seepanpak Inlet: estuary, flows NW 2 miles from Seepanpak Lagoon to Bering Sea, 18 miles W of Northeast Cape, St. Lawrence Island; 63° 21' N, 169° 18' W; BGN 1951; (map 93). Variant: Seepanpak Lagoon, Seepinuk River. Eskimo name reported in 1932 by O. W. Geist, Univ. of Alaska, as "Seepanpak."

Seepanpak Lagoon: lake, 5 miles long, 3 miles W of Kangukhsam Mountain, N coast of St. Lawrence Island, 63° 19' N, 169° 08' W; BGN 1951; (map 93). Variant: Seepinugum Lagoon, Sepinpak Lagoon. Eskimo name recommended by the Savoonga village council and reported in 1949 by Maj. H. B. Allen, USAF.

Seepanpak: locality, N coast of St. Lawrence Island at entrance to Seepanpak Lagoon, 47 miles SE of Savoonga; 63° 21' N, 169° 18' W; (map 93). Eskimo name "Seepanpak" reported in 1932 by O. W. Geist, Univ. of Alaska.

Seepanpak Lagoon: estuary, see Seepanpak Inlet.

Seepanpak: locality, see Seepanpak.

Seepinpuk River: estuary, see Seepanpak Inlet.

Seet-oh: stream, see Ray River.

Seethah: locality, S of Fox Hill, near SW coast of St. Paul Island, in Pribilof Islands; 57° 10' N, 170° 23' W; (map 38). Name published by Elliott (1881, St. Paul map).

Seetien Island: island, see Great Sitkin Island.

Seevitchie Kammin: rock, see Sea Lion Rock.

Seevolookrok Creek: stream, see Asikpak River.

Seevo Point: point of land, N coast of St. Lawrence Island, 56 miles SE of Savoonga; 63° 20' N, 168° 52' W; BGN 1951; (map 93). Variant: Cape Seevoo, Seevoo, Seevoo Cape, Sevu Cape. Eskimo name reported in 1932 by O. W. Geist, Univ. of Alaska.

Seevoo: bluff, see Sivu Bluff.

Seevoochaek: stream, see Tutak Creek.

Seevoochyak: hill, see Sivutsiak Hill.

Seevoochyam Igaylunggee: hills, see Kisaymaruktuk Mountain.

Seevoogak: hill, see Sivugak Hill.

Seevooghat, Mount: hill, see Sevooghak, Mount.

Seevooka Camp: locality, see Camp Kulowiye.

Seevooka, Cape: point of land, see Northeast Cape.

Seevookat Mountain: mountain, see Sivukat Mountain.

Seevookhan Mountain: mountain, 1,448 ft., in Kinipaghulghat Mountains, 3 miles SW of Northeast Cape, St. Lawrence Island, 63° 17' N, 168° 48' W; BGN 1951; (map 93). Variant: Sivukhan Mountain. Eskimo name reported in 1949 by Maj. H. B. Allen, USAF.

Seevookuk: point of land, see Chibukak Point.

Seevookuk: village, see Gambell.

Seevoonah Mountain: hill, 700 ft., in Kialeagak Mountains 2 miles N of Southeast Cape, St. Lawrence Island; 62° 57' 30" N, 169° 39' 30" W; BGN 1951; (map 93) Eskimo name reported in 1949 by Maj. H. B. Allen, USAF.

Seevoorak: bluff, see Sivurak Bluff.

Seevooram Koonga: stream, see Tutak Creek.

Seeyicksinick: locality, see Siyiksinik.

Seeyicktagaylick: locality, see Siniktagnelik.

Sefagnuk: locality, see Sfaganuk.

Segouam Island: island, see Seguam Island.

Segouam: water passage, see Seguam Pass.

Seguam Island: island, 15 miles long, easternmost of Andreanof Islands, Aleutian Islands; 52° 19' N, 172° 30' W; BGN 1890; (map 19). Variant: Genunam Island, Goreli Island, Gorely Island, Saioogham Island, Segouam Island, Signam Island, Siguam Island, Tenounam Island. Reported in 1778 by Cook (1785, v. 2, track chart), RN. Lt. Sarichev in his atlas (1826, map 3) indicated "Ostrov Seguam" from an Aleut name. Called "Segouam ile" and "Gorely lle" by Lutke (1836, p. 306). Goreli is Russian for "burnt."

Seguam Pass: water passage, between Seguam and Amlia Islands, Aleutian Islands; 52° 10' N, 172° 45' W; (map 19). Variant: Segouam, Sigouam, Siguam Pass. Named "Sigouam detroit," i.e. "Siguam Strait," by Lutke (1836, p. 308).

Seguam Volcano: mountain, see Pyre Peak.

Segula Island: island, 4 miles across, 11 miles WNW of Little Sitkin Island in Rat Islands, Aleutian Islands 52° 01' N, 178° 07' E; BGN 1931; (map 15). Variant: Chugal Island, Chugul Island, Dawydoff Island, Iron Island, Sigoola Island Tchougoule Island, Tschechovla Island, Tschechovle Island. Aleut name used by early Russian explorers along with the name "Chugul." The U.S. Navy North Pacific Exploring Expedition of 1855, reported its Aleut name as "Tchougoule (or Tschechovla)" and also called it "Iron Island." This may be the island Admiral A. J. von Krusenstern, IRN, called "Dawydoff" in 1827. See Davidof Island.

Segula Pass: water passage, wide, deep, and clear between McArthur Reef and Segula Island, Rat Islands, Aleutian Islands; 52° 03' N, 177° 58' E; (map 14). Shown on recent maps and charts of the area; listed in 1954 Coast Pilot (p. 465).

Segula Peak: volcano, 3,817 ft., comprises most of Segula Island, Rat Islands, Aleutian Islands; 52° 01' 15" N, 178° 08' 12" E; (map 15). Variant: Segula Volcano. Name published on a 1951 USGS map. It is shown as Segula Volcano by W. H. Nelson (1959, pl. 37), USGS.

Segula Volcano: volcano, see Segula Peak.

Segula: island, see Chugal Island.

Seiba Point: point of land, on NE shore of Viekoda Bay, on N coast of Kodiak Island, 57° 57' 20" N, 153° 15' 45" W; (map 34). Local name published in 1943 by USC&GS.

Seismo Creek: stream, heads on Meat Mountain, flows S, W, and NNW 15 miles to Utukok River Arctic Slope; 69° 00' N, 161° 00' W; (map 131). So named by USGS geologists in 1950 “for the seismic operations of that year in this vicinity” (Chapman and Sable, 1960, p. 54).

Sekinak Lagoon: lagoon, 11 miles long, 8 miles NW of Southeast Cape, St. Lawrence Island; 63° 05' N, 169° 48' W; BGN 1951; (map 93). Eskimo name recommended by the Gambell village council and reported in 1949 by Maj. H. B. Allen, USAF.

Seknak River: stream, heads at Myghapowit Mountain, flows S 16 miles to Sekinak Lagoon, St. Lawrence Island; 63° 05' N, 169° 47' W; BGN 1951; (map 93). Eskimo name recommended by the Gambell village council and reported in 1949 by Maj. H. B. Allen, USAF. The difference in spelling of the specific between this name and Sekinak Lagoon is reported to be correct.

Sekuik Bluff: bluff, elev. 960 ft., on N bank of Noatak River at Noatak Canyon, 50 miles NE of Noatak, Brooks Range; 67° 57' N, 161° 39' W; (map 127). Eskimo name meaning “clay-like,” obtained in 1956 at Noatak by Orth.

Selatna Mountain: mountain, 1,183 ft., on E bank of Kuskokwim River between Selatna and Little Selatna Rivers, 30 miles S of McGrath, Kilbuck-Kuskokwim Mountains; 62° 32' N, 155° 43' W; (map 80). Local name obtained in 1954 by USGS.

Selatna River: stream, heads at 62° 19' N, 155° 08' W, flows NW 50 miles to Kuskokwim River E of Nunivak Bar, 31 miles S of McGrath, Kilbuck-Kuskokwim Mountains; 62° 31' N, 155° 48' W; (map 80). Variant: Reka Challono, Reka Chalono, Tschallono. Ingalik Indian name obtained in June 1844 by Lt. L. A. Zagoskin, IRN; he spelled it “R[eka] Chalono” and “R[eka] Challono.” The present spelling was reported in 1915 by USC&GS.

Selawig mut: village, see Selawik.

Selawigamute: village, see Selawik.

Selawik Hills: hills, trends W 55 miles from Tagagawik River to Buckland River, just S of Kauk River, 10 miles S of Selawik Lake, Nulato Hills; 66° 00' N, 159° 17' W [E end], 66° 04' N, 161° 17' W [W end]; BGN 1966; (map 114). Named in 1965 by W. W. Patton, Jr., USGS.

Selawik Lake: lake, 31 miles across, 7 miles SW of Selawik, Kotzebue-Kobuk Lowland; 66° 30' N, 160° 45' W; BGN 1895; (map 114). Variant: Chilivik, Salawik Lake, Silawik Lake. Eskimo name first reported in 1842-44 by Lt. L. A. Zagoskin, IRN, who spelled it “Chilivik,” and probably meant to apply to an Eskimo tribe or village. See Selawik. The documented naming of the lake appears to have been by one of the Sir John Franklin search expeditions about 1850.

Selawik River: Stream, heads in Zane Hills, flows W 140 miles to Selawik Lake, 8 miles NW of Selawik, Kotzebue-Kobuk Lowland; 66° 37' N, 160° 18' W; (map 114). Variant: Salawik River, Sal-a-wik River, Selawick River. Eskimo name published on a Brit. Adm. chart dated 1854.

Selawik: village, pop. 348, on left bank of Selawik River, 44 miles NE of Elephant Point, Kotzebue-Kobuk Lowland; 66° 36' N, 160° 00' W; BGN 1944; (map 114). Variant: Chilivik, Seelawik Mutes, Selawigamute, Selawig mut, Silawi nmium, Sulawig-meuts. Eskimo village or tribe reported in 1842 44 by Lt. L. A. Zagoskin, IRN, who spelled it "Chilivik." Ivan Petroff in the 1880 U.S. Census lists the Selawik people, i.e. "Selawigamute," as numbering 100. In 1920 the population of the above-described village was 274; 227 in 1930; 239 in 1939; and 273 in 1950. The Selawik post office was established in 1930 (Ricks, 1965, p. 56). The people and the village probably took their name from the nearby lake or river.

Selby River: stream, heads in Lake Selby, flows SSW 8 miles to Kobuk River, 70 miles NW of Hughes, Kotzebue-Kobuk Lowland; 66° 46' N, 155° 47' W; (map 116). Local name published by Smith (1913, p. 24), USGS; derived from Lake Selby.

Selby, Lake: lake, 4 miles long, WSW of Angayucham Mountains, 70 miles NW of Hughes, Brooks Range; 66° 52' N, 155° 40' W; (map 116). Variant: Nudrewok Lake. Named in 1884 by Lt. Stoney (1900, p. 53), USN. Eskimo name "Nud-re-wok" was recorded in 1885 by Lt. J. C. Cantwell (in Healy, 1887, p. 32), USRCS.

Seldevoe Lagoon: lagoon, 0.3 miles across, on N tip of Spruce Island, 12 miles N of Kodiak, NW of Kodiak Island; 57° 57' 35" N, 152° 26' 00" W; (map 34). Transliteration derived from the Russian word "selyodochka" meaning "herring," published in 1943 by USC&GS.

Seldevoi Bay: estuary, see Seldovia Bay.

Seldevoy, Zaliv: estuary, see Seldovia Bay.

Seldovaia Bay: bay, see Herring Bay.

Seldovaya Bay: bay, see Herring Cove.

Seldovia Bay: estuary, 5 miles long and 0.7 miles wide, on SW shore of Kachemak Bay, Kenai Peninsula, 16 miles SW of Homer, Chugach Mountains; 59° 27' 45" N, 151° 43' 30" W; (map 50). Variant: Saldovoi Bay, Herring Bay, Seldevoi Bay, Chesloknu Bay, Zaliv Seldevoy, Chestoknu Bay. Local name reported in 1910 Coast Pilot notes (p. 39). Named "Z[aliv] Seldevoy," meaning "herring bay," by Capt. Tebenkov (1852, map 5), IRN. The Kenai Indian name for the bay, "Chesloknu," was published by USC&GS in 1883.

Seldovia Lagoon: lake, 0.4 miles long, on Kenai Peninsula, 0.4 miles E of Seldovia Bay and 0.5 miles N of Seldovia, Chugach Mountains; 59° 27' N, 151° 42' W; (map 50). Name derived from nearby bay.

Seldovia Lake: lake, 1 mile long, at head of Seldovia River, 30 miles SE of Seldovia, Chugach Mountains; 59° 20' 30" N, 151° 35' 30" W (map 50). Name derived from nearby bay.

Seldovia Point: point of land, on Kenai Peninsula at NE entrance to Seldovia Bay, 2.2 miles N of Seldovia, Chugach Mountains; 59° 28' 15" N, 151° 42' 00" W; (map 50). Name derived from nearby bay.

Seldovia River: stream, flows NW 5 miles to Seldovia Bay, 14 miles SSE of Seldovia, Chugach Mountains; 59° 23' 30" N, 151° 41' 00" W, BGN 1911; (map 50). Local name reported by U. S. Grant and D. F. Higgins, USGS, in 1909 (in Brooks and others, 1910, pl. 3). Named derived from Seldovia Bay.

Seldovia Slough: stream, flows SW 1 mile through village of Seldovia to Seldovia Bay, on Kenai Peninsula, Chugach Mountains; 59° 27' N, 151° 43' W; (map 50). Name derived from nearby bay.

Seldovia: village, pop. 460, on W coast of Kenai Peninsula on E shore of Seldovia Bay, 16 miles SW of Homer, Chugach Mountains; 59° 26' 15" N, 151° 42' 30" W; (map 50). Variant: Chesloknu, Saldovia. This village, named for the nearby bay, is recorded in the 1880 Census as consisting of "68 Kodiak natives and 3 Creoles. They are sea-otter hunters and live here in log-houses, and have a small chapel." The 1890 Census (p. 163) gives the population as 99; 19 families in 17 houses with a small chapel. Seldovia post office was established in 1898 (Ricks, 1965, p. 57).

Seleni Point: point of land, see Settlement Point.

Selenia Point: point of land, see Settlement Point.

Selenie Aleksandrovskaja: locality, see Nushagak.

Selenie Kviguglyugmyut: locality, see Kwigalok.

Selenie Lagoon: lagoon, 0.3 miles wide, on N shore of Port Graham, on Kenai Peninsula, 7 miles SW of Seldovia, Chugach Mountains; 59° 22' 30" N, 151° 52' 00" W; (map 50). Variant: Celenie Lake. Name shown as "Celenie Lake" by USC&GS in 1869. "Apparently this is a mistaken rendering of the Russian word Seleniye (settlement.) "

Selenie Point: point of land, see Settlement Point.

Selenie: locality, see Pavlof.

Seleniya, Mys: point of land, see Settlement Point.

Seleniye Chasintsev: locality, see Chasintsev.

Seleniye Chiukak-myut: locality, see Chiukak.

Seleniye Danishnikova: locality, see The Redoubt.

Seleniye Ikalikhvig-myut: village, see Golovin.

Seleniye Imyak: locality, see Imiak.

Seleniye Katmayskoe: locality, see Katmai.

Seleniye Pavlovskoy Gavani: town, see Kodiak.

Seleniye Pestryakova: locality, see Pestriak.

Seleniye Rossiysko-Amyerikanskoy Kampaniy: locality, see Three Saints Harbor.

Seleniye Ruskiy i Kreolovy: village, see Uzinki

Seleniye Sapozhkovo: locality, see Buskin.

Seleniye Skvortsova: village, see Uzinki.

Selezneva: bay, see Duck Bay.

Selezneva: locality, see Duck Village.

Selezneva: point of land, see Duck Cape.

Selief Bay: cove, extends SW 1.1 miles off Raspberry Strait on E coast of Raspberry Island, 10 miles NW of Afognak, Kodiak Island; 58° 02' N, 153° 02' W; (map 43). Local name reported in 1952 by USGS.

Selin Creek: stream, flows N 2.5 miles to Chukchi Sea, 3.3 miles E of Cape Lisburne, Arctic Slope; 68° 52' 30" N, 166° 05' 00" W; (map 129). Variant: Si-lin Creek. Eskimo name reported in 1950 by USC&GS to mean "canyon" and spelled "Si-lin."

Selin Creek: stream, see Silvia Creek.

Sella Glacier: glacier, see Quintino Sella Glacier.

Sellen Lake: lake, 500 ft. long, 2.5 miles W of terminus of Sheridan Glacier and 10 miles E of Cordova, Chugach Mountains; 60° 32' N, 145° 27' W; (map 64). Name published in 1950 by USGS.

Sellick Creek: stream, flows W 4.5 miles to Fourth of July Creek 1 mile S of its junction with Sanona Creek and 23 miles S of junction of Oshetna and Susitna Rivers, Talkeetna Mountains; 62° 18' 35" N, 147° 16' 20" W; (map 82). Local name reported by F. H. Moffit (in Brooks and others, 1915, fig. 3), USGS.

Selo Akmagan: village, see Starichkof.

Selo Bobrova: locality, see Beaver.

Selo Bobrovo: locality, see Beaver.

Selo Chalyuknakh: locality, see Chaliuknak.

Selo Ikogmiut: locality, see Akahamut.

Selo Ikuagmyut: locality, see Akahamut.

Selo Kalekhta: locality, see Kalekta.

Selo Katmay: locality, see Katmai.

Selo Morzhovoi: village, see Morzhovoi.

Selo Pestrekovo: village, see Eider.

Selo Tugiak: village, see Togiak.

Seltat Peak: mountain, see Seltat, Mount.

Seltat, Mount: mountain, 6,630 ft., on Alaska-Canada boundary 6.4 miles NW of Mount Ashmun and 38 miles NW of Skagway, St. Elias Mountains; 59° 36' 00" N, 136° 21' 10" W; BGN 1953; (map 45). Variant: Mount Reilly, Seltat Peak. Tlingit Indian name reported by Aurel and Arthur Krause (1883, map) as "Seltathinschokschage," of which "Seltat" is a contraction.

Selton: locality, see Shelton.

Semenoffsky: island, see Simeonof Island.

Semenovskie: island, see Simeonof Island.

Semenovsky: island, see Simeonof Island.

Semi Soposhna: island, see Semisopochnoi Island.

Semiahmoo: locality, on Unalaska Island, Aleutian Islands; (map 23). This locality is not found on modern maps but was listed in "Polk's Gazetteer of 1916."

Semichi Islands: islands, in chain 13 miles long, includes Alaid, Nizki, Hammerhead, Lotus, and Shemya Islands, 20 miles ESE of Attu Island, part of the Near Islands, Aleutian Islands; 52° 44' N, 174° 00' E; BGN 1890; (map 13). Variant: Semitchi Islands, Semitkhi Islands, Semitsch Islands, Shemya Islands, Simitkhi Islands. Probably discovered on October 29, 1741 (O.S.), by Vitus Bering who applied the name "St. Abraham" to one of them. See Shemya Island. According to Baker (1906, p. 561), USGS, who cites W. H. Dall, the name "Semichi" was applied to these islands by the early Russians, the name being derived from the Russian "Semik," which is "the feast on the seventh Thursday after Easter, on which day they were discovered." Rev. Coxe (1787, p. 50) called them "Shemya."

Semichi Pass: water passage, between Semichi and Attu Islands, Aleutian Islands; 52° 48' N, 173° 40' E; (map 13). Name derived from the Semichi Islands and published on a USGS map in 1953.

Semidi Islands: islands, in Pacific Ocean, 23 miles SE of Sutwik Island and 80 miles SW of Trinity Islands, Aleutian Range; 56° 10' N, 156° 47' W; BGN Sixth Report; (map 31). Variant: Eudocia Islands, Eudokievskie Islands, Eudoxia Islands, Evdokeevskie Islands,

Ewodokijefftian Islands, Foggy Islands, Islas Fogoi, Seven Islands, Ostrova Semidy, Ostrova Yevdokevskiye, Simedan Islands, Simedun Islands, Tumanoi Islands, Zumik Islands. Although thought by some to have been discovered in 1741 by Capt. Commander I. I. (Vitus) Bering, IRN, and named "Tumanoi," meaning "foggy," the present name is derived from "O[stro]va Semidy ili Yevdokevskiye," meaning "Seven or Yevdokevskiye Islands," which was published by Lt. Sarichev, (1826, map 3), IRN. The nine islands were identified on June 16, 1778, by Capt. Cook (1785, v. 2, p. 410), RN, who wrote "We found it to be an island * * * lying in the latitude of 56° 10' * * * and it is distinguished in our chart by the name of Foggy Island; having reason to believe from its situation, that it is the same which had that name given to it by Beering." Commodore Joseph Billings, (in Sauer, 1802, p. 200), IRN, called the islands "Simedan (or Simedun)" while von Langsdorff (1813-14, v. 2, p. 54), of the Russian embassy to Japan, published the name "Ewodokijefftian Islands" for this group. In 1868, USC&GS called them "Seven Islands."

Semidin: island, see Aghiyuk Island.

Semidin: island, see Chowiet Island.

Semisopochnoi Island: island, 13 miles across, northeasternmost of Rat Islands, Aleutian Islands; 51° 55' N, 179° 36' E; BGN 1937; (map 15). Variant: Island of the Seven Mountains, Ostrov Semisopochnyy, Semisopokh, Semisopotchny, Semi Soposhna. Descriptive name derived from the Russian words "sem" meaning "seven," and "sopochka," meaning "extinct volcano"- seven volcanoes or seven peaks. Published by Lt. G. A. Sarichev (1826, map 3), IRN, as "O[strov] Semisoposhnoy," or "Semisoposhnoy Island." It was published as "O[strov] Semisopochnyy" or "Semisopochnyy Island" by Capt. Tebenkov (1852, map 29), IRN. The island may have been named in 1790 by Lt. Sarichev.

Semisopochnyy, Ostrov: island, see Semisopochnoi Island.

Semisopokh: island, see Semisopochnoi Island.

Semisopotchny: island, see Semisopochnoi Island.

Semitchi Islands: islands, see Semichi Islands.

Semitkhi Islands: islands, see Semichi Islands.

Semitsch Islands: islands, see Semichi Islands.

Semiutak Bend: bend, of Ikpikpuk River, at junction of Titaluk River, Arctic Plain; 69° 58' N, 154° 43' W; (map 142). Eskimo name; obtained in 1956 at Anaktuvuk Pass by T. E. Taylor, USGS. It means "it blocks or closes" [simiaqtoq], referring to the shifting shallows at the confluence of the two streams.

Senati: locality, on right bank of Yukon River "below Rampart Rapids," Kokrines-Hodzana Highlands; 65° 16' N, 151° 11' W; (map 106). Variant: Senati's Village. Former Indian village or camp named for the old Indian chief, Senati; reported as "Senati's Village" in 1869 by Capt. C. W. Raymond, U.S. Engineers.

Senatis Mountain: mountain, 2,772 ft., in Rampart Mountains, on N bank of Yukon River, 29 miles NNE of Tanana, Kokrines-Hodzana Highlands; 65° 20' N, 151° 10' W; (map 106). Name shown on a Yukon River chart manuscript dated 1906. Named for Senati, chief of a group of Indians who had a village near the foot of this mountain. See Senati.

Senatis Village: locality, see Senati.

Senezatt: locality, see Sinrazat.

Seniavin, Cape: point of land, elev. 175 ft., on Bristol Bay coast of Alaska Peninsula, 33 miles NE of Port Moller, Bristol Bay Lowland; 56° 24' N, 160° 09' W; (map 30). Variant: Cap Seniavine, Mys Seniavina. Named by Capt. Lutke (1836, p. 261), IRN, as "Cap Seniavine" for the corvette in which he explored this area in 1828; shown as Cape Seniavin on an 1888 USBF chart.

Seniavina, Mys: point of land, see Seniavin, Cape.

Seniavine, Cap: point of land, see Seniavin, Cape.

Seniavine, Cap: promontory, see Kutuzof, Cape.

Senikave: locality, on NW shore of Norton Sound, at or near West Point 20 miles W of Nome, Seward Peninsula Highlands; 64° 34' N, 166° 03' W; (map 94). Former Eskimo village or camp reported in the 1890 Census (1893, p. 162).

Sennett Point: point of land, on SW coast of Unimak Island, Aleutian Islands; 54° 29' 00" N, 164° 54' 30" W; BGN 1938; (map 24). Variant: Middle Point. Named "Middle Point" in 1901 by J. J. Gilbert, USC&GS, and listed as such by Baker (1906). USC&GS changed the name to "Sennett Point" to eliminate repetition of a common name. The James Sennett was a vessel wrecked just south of this point in 1901.

Sentinal Island: rock, see Sentinel Rock.

Sentinal Peak: mountain, see Sentinel Peak.

Sentinel Hill: hill, 168 ft., between Colville and Kogosukruk Rivers, 35 miles NE of Umiat, Arctic Plain; 69° 50' N, 151° 35' W; BGN 1964; (map 141). Variant: Umiukrak Hill, Umiurak Hill, Umivrak Hill. Named in 1901 by W. J. Peters and F. C. Schrader, USGS, "An isolated hill, so named on account of being a prominent landmark." T. E. Taylor, USGS, reported in 1956 the Eskimo name "Umiukrak," which is supposed to mean "smallest canoe [umiagrak]."

Sentinel Island: island, 0.2 miles long, in center of Favorite Channel, 0.6 miles SW of Benjamin Island and 25 miles NW of Juneau, Coast Mountains; 58° 32' 45" N, 134° 55' 15" W; (map 11). Probably named by Comdr. R. W. Meade, USN, in 1869. The name was published in 1881 on Hydrog. Chart 883.

Sentinel Islands: islands, see Nichols Islands.

Sentinel Islands: rocks, see Sentinels, The.

Sentinel Peak: mountain, 2,020 ft., at SW tip of Alaska Peninsula, on N shore of Ikatan Bay, Aleutian Range; 54° 49' 30" N, 163° 19' 50" W; (map 25). Variant: Sentinal Peak. Name reported by Ferdinand Westdahl, USC&GS, commander of the Coast Survey steamer McArthur, who made surveys in this area in 1901.

Sentinel Peak: mountain, 5,355 ft., in Glacier Bay National Monument, 1.6 miles NW of terminus of Carroll Glacier, 74 miles NW of Hoonah, St. Elias Mountains; 58° 59' 40" N, 136° 33' 30" W; (map 10). Named in 1892 by Reid (1896, p. 430) because Carroll Glacier is "guarded by Sentinel Peak * * *."

Sentinel Point: point of land, N end of Snettisham Peninsula, at entrance to Gilbert Bay, 31 miles SE of Juneau, Coast Mountains; 57° 59' 45" N, 133° 45' 30" W; (map 8). Named in 1888 by Lt. Comdr. C. M. Thomas, USN; name published in 1892 by USC&GS.

Sentinel Rock: rock, 1 mile N of Point Banks, off the NE coast of Shuyak Island, 51 miles N of Kodiak Island, 58° 38' 45" N, 152° 19' 30" W; BGN 1933; (map 43). Variant: Sentinal Island. Named by USC&GS in 1933, "because it is conspicuous from all directions."

Sentinel Rock: rock, in Western Channel, Sitka Sound, 2.5 miles W of Sitka, Alexander Archipelago; 57° 02' 50" N, 135° 24' 30" W; (map 9). Name given by the U.S. Navy in 1879 and published by USC&GS in 1883 Coast Pilot (p. 140). This rock "is the southernmost islet on the west side of Western Channel," therefore the name.

Sentinels, The: rocks, a group, extend 1.2 miles, in Tlevak Strait, between Dall and Goat Islands, N of Nichols Islands, Alexander Archipelago; 55° 10' 45" N, 133° 00' 40" W; (map 4). Variant: Sentinel Islands. Named "Sentinel Islands" in 1881 by Lt. Comdr. H. E. Nichols, USN.

Sentry Rock: rock, 1.7 miles SE of Round Point, on SW coast of Kanaga Island, Aleutian Islands; 51° 41' 00" N, 177° 29' 40" W; (map 17). Name published by USC&GS in 1956 on Chart 9145.

Sepilla Camp: locality, see Unguriak Camp.

Sepinpak Lagoon: lake, see Seepanpak Lagoon.

Sepping, Cape: point of land, see Seppings, Cape.

Seppings Lagoon: lagoon, 0.8 miles long, on shore of Chukchi Sea, 22 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 57' 30" N, 164° 59' 30" W; (map 128). Named for the nearby point of land; shown about 1923 on a USC&GS field map.

Seppings, Cape: point of land, on Chukchi Sea coast between Singoalik and Tasikpak Lagoons, 23 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 68° 58' N, 165° 11' W; (map 128). Variant: Cape Lepping's, Cape Sepping, Nuvwa. Named in 1827 by Capt. Beechey (1831, track chart), RN. The cape is not very conspicuous unless one considers that when seen from the sea the highland area between Singoalik River and Asikpak Creek stands out like a cape.

September Creek: stream, flows N 15 miles to Maybe Creek, 5 miles SE of head of Ikpikpuk River, Arctic Slope; 69° 17' 30" N, 154° 30' 45" W; (map 142). Probably named in the 1940's by geologists on the Naval Petroleum Reserve No. 4 exploration.

September Creek: stream, flows SW 3.5 miles to Weasel Creek, 22 miles NW of Tutna Lake and 52 miles NW of Nondalton, Lime Hills, 60° 34' 30" N, 155° 43' 30" W; (map 61). Local name reported in 1950 by USC&GS.

September, Lake: lake, 0.5 miles across, at head of September Creek, 18 miles NW of Tutna Lake and 50 miles NW of Nondalton, Lime Hills; 60° 35' 35" N, 155° 37' 30" W; (map 61). Local name reported in 1950 by USC&GS.

Sequel Point: point of land, on W shore of Gulf of Alaska, 4.5 miles SW of Cape Chiniak, Kodiak Island; 57° 33' 40" N, 152° 12' 30" W; (map 34). Local name reported in 1949 by USGS.

Seraak Camp: fish camp, see Sevak Camp.

Serebrennikof Arm: bay, see Silver Bay.

Serebrnikov Cove: bay, see Silver Bay.

Serebryanikova, Bukhta: bay, see Silver Bay.

Seredka Bay: bay, 2 miles across, on SE coast of Akun Island, Krenitzin Islands, Aleutian Islands; 54° 10' N, 165° 28' W; (map 24). Variant: Seredkinskoy. Published by Father Veniaminov (1840, v. 1, p. 195) as "Seredkinskoy," meaning "middle."

Seredka: locality, on SE coast of Akun Island, on Seredka Bay, Aleutian Islands; 54° 10' N, 165° 29' W; (map 24). Variant: Sayraidneuskoi, Seredkinskoje, Seredninskoe. Former Aleut village or camp reported in 1834 as "Seredninskoye," with a population of 16, living in 2 huts, by Father Veniaminov (1840, v. 2, p. 202).

Seredkinskoje: locality, see Seredka.

Seredkinskoy: bay, see Seredka Bay.

Seredni Point: point of land, on S shore of Low Island Anchorage, 10 miles NW of Kodiak, Kodiak Island; 57° 54' 20" N, 152° 34' 20" W; BGN 1909; (map 34). Variant: Middle Cape, Mys Sredniy, Serednie Point. Transliteration of "M[ys] Sredniy," the name given by Sub-Lt. Mikhail Murashev in 1839 or 1840 and published in 1849 on Russian Hydrog. Dept. Chart 1425. Baker (1906, p. 434) published "Middle Cape," the translation of Murashev's name. Because of duplication the name was changed to its present form by USC&GS in 1909.

Serednie Point: point of land, see Seredni Point.

Seredninskoe: locality, see Seredka.

Serene, Cabo: point of land, see Cleare, Cape.

Sergeant Robinson, Mount: mountain, 10,415 ft., 10 miles NW of Mount Marcus Baker and 41 miles E of Palmer, Chugach Mountains; 61° 34' 35" N 147° 51' 00" W; BGN 1965; (map 69). Named in 1965 by Senator E. L. Bartlett for Sergeant George F. Robinson, USA, who in 1865, thwarted the assassination attempt on Secretary of State William H. Seward This assassination attempt took place the same evening that Abraham Lincoln was assassinated.

Sergejewsky: peninsula, see Sergief Peninsula.

Sergheieff Bay: bay, see Sergief Bay.

Sergief Bay: bay, 1.2 miles across, on S coast of Atka Island, Aleutian Islands; 52° 01' N, 175° 00' W; (map 18). Variant: Sergheieff Bay, Sergieff Bay, Bukhta Sergievskaja. Russian family name, published as "Sergheieff" by Capt. Lutke (1836, p. 311-12), IRN, and as "Buk[hta] Sergievskaja," or "Sergievskaja Bay," on Russian Hydrog. Dept. Chart 1400, 1848.

Sergief Island: island, 3 miles long, at mouth of Stikine River, 7 miles N of Wrangell, Coast Mountains; 56° 35' N, 132° 26' W; (map 6). Variant: Sergiev Island. Named in 1863 by surveyors of the Russian corvette Rynda for a member of the party (Sergief) who drowned at Sergief Rapid in Stikine River. See Rynda Island.

Sergief Peninsula: peninsula, on S coast of Atka Island, S of Mount Sergief, Aleutian Islands; 52° 03' N, 174° 57' W; (map 18). Variant: Sergejewsky. Named for Mount Sergief to north, and published as "Sergheieff" by Capt. Lutke (1836, p. 311-12), IRN.

Sergief Volcano: volcano, see Sergief, Mount

Sergief, Mount: volcano, 1,638 ft., on W central Atka Island, Aleutian Islands; 52° 03' 10" N, 174° 57' 00" W; (map 18). Variant: Vulcan, Sarutschew Sergief Volcano, Sergheieff. This volcano was called "Sergheieff" by Lutke (1836, p. 311-312). The name Mount Sergief was published by Coats (1950, p. 38) USGS, applied to a feature located at 52° 19' N, 174° 23' W, on the Cape Korovin peninsula. Mount Sergief is shown on a 1932 USGS map on western Atka Island near Sergief Bay.

Sergieff Bay: bay, see Sergief Bay.

Sergiev Island: island, see Sergief Island.

Sergievskaja Bukhta: bay, see Sergief Bay.

Sergius Channel: channel, between Sergius Point and Pinta Head, W end of Peril Strait, off coast of Baranof Island, 25 miles NW of Sitka, Alexander Archipelago; 57° 24' 25" N, 135° 37' 45" W; (map 9). Probably named in 1884 by Comdr. J. B Coghlan, USN; published in 1891 Coast Pilot (p. 181).

Sergius Narrows: water passage, at W end of Peril Strait, between Rapids Island and Sergius Point, 26 miles NW of Sitka, Alexander Archipelago; 57° 24' 20" N, 135° 38' 00" W; (map 9). Apparently named in 1895 by Lt. Comdr. E. K. Moore, USN.

Sergius Point: point of land, in Sergius Narrows, at W end of Peril Strait, on SW coast of Chichagof Island, 24 miles SE of Chichagof, Alexander Archipelago, 57° 24' 30" N, 135° 38' 00" W; (map 9). Probably named by Comdr. J. B. Coghlan, USN, in 1884; published by USC&GS in 1891 Coast Pilot (p. 181).

Serpent Point: point of land, on SW coast of Unalaska Island, Aleutian Islands; 53° 15' N, 167° 37' W; BGN 1937; (map 23). Named by USC&GS in 1937.

Serpent Tongue Glacier: glacier, on Alaska Peninsula, in Katmai National Monument, heads on ridge, between Mount Denison and Snowy Mountain, trends NW 9 miles to its 1951 terminus at head of Rainbow River, 18 miles NE of Mount Katmai, Aleutian Range; 58° 26' N, 154° 37' W; BGN 1925; (map 42). Descriptive name given in 1923 by R. H. Sargent, USGS, "because of its forked outline."

Serpentine Bluff: bluff, 400 ft., on right bank of Yukon River, 20 miles SW of Russian Mission, Yukon-Kuskokwim Delta; 61° 36' N, 161° 49' W; (map 73). Riverboat pilots' name shown on a 1916 field sheet by R. H. Sargent, USGS.

Serpentine Creek: stream, flows SW 15 miles to Lost Creek 0.3 miles NNE of that stream's junction with Salcha River and 62 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 50' N, 144° 29' W; (map 101). Variant: Lost Creek. Local descriptive name; reported in 1958 by USGS.

Serpentine Creek: stream, flows SW 5 miles to South Fork Goodpaster River, 9 miles NNE of Black Mountain and 45 miles E of Big Delta, Yukon-Tanana Highlands; 64° 12' 15" N, 144° 19' 30" W; (map 101). Local name reported in 1955 by USGS.

Serpentine Glacier: glacier, trends SW 6 miles to Harriman Fiord, 4.5 miles W of Point Doran and 54 miles E of Anchorage, Chugach Mountains; 61° 05' N, 148° 18' W; (map 69). Descriptive name given in 1899 by members of the Harriman Alaska Expedition.

Serpentine Hot Springs: locality, on right bank of Hot Springs Creek which flows to Serpentine River, 47 miles NW of Imuruk Lake, Kotzebue-Kobuk Lowland; 65° 51' N, 164° 43' W; BGN 1954; (map 110). Variant: Arctic Hot Springs, Serpentine Springs. Mineral springs and site of a settlement. Collier (1902, p. 55), USGS, notes "Charles McLennan, who with a dog team and Eskimo assistants * * * in May 1900 * * * was the first white man to reach the hot springs." Collier further noted that in September 1901 he found a small settlement at the hot springs. Waring (1917, p. 76), USGS, referred to this as "Arctic Hot Springs" and noted "A few years ago prospectors built a cabin near the upper spring and a bathhouse over a bathing pool * * *." The name "Serpentine Hot Springs" came into local use and was published in 1951 by USGS.

Serpentine Island: island, in Yukon River, 33 miles NE of Nulato, Koyukuk Lowland; 64° 46' N, 156° 59' W; (map 97). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by U.S. Dept. of Interior.

Serpentine Ridge: ridge, elev. 2,000 to 6,000 ft., extends W 14 miles on S bank of Boulder Creek, 26 miles ESE of Tanana, Yukon-Tanana Highlands; 65° 07' 30" N, 151° 00' 00" W; (map 106). Local name reported in 1952 by USGS.

Serpentine River: stream, flows NW 37 miles to Shismaref Inlet, 17 miles SE of Shishmaref, Kotzebue-Kobuk Lowland; 66° 09' N, 165° 32' W; (map 112). This stream was explored and so named, in May 1900, by Charles McLennan, prospector, because of its “very sinuous course, * * *” (Collier, 1902, p. 55).

Serpentine Springs: locality, see Serpentine Hot Springs.

Serrated Peak: peak, 3,757 ft., in Glacier Bay National Monument, 2.5 miles S of Wood Lake and 47 miles NW of Hoonah, St. Elias Mountains; 58° 30' 20" N, 136° 28' 30" W; (map 10). Descriptive name published in 1929 by USFS.

Sesualik: locality, see Sheshalik.

Setgun Lake: lake, 1 mile long, in course of Meadow Creek, 2 miles W of Beaver, Yukon Flats; 66° 21' 20" N, 148° 08' 30" W; (map 118). Variant: Ridge Lake. Local name obtained in 1956 by USGS; the lake was shown as “Ridge Lake” on William Yanert's 1916 manuscript map (Stuck, 1917, map facing p. 122).

Seth Glacier: glacier, trends SW 1.5 miles to its terminus, 2.5 miles NW of Poe Bay and t.5 miles NE of Whittier, Chugach Mountains; 60° 51' 50" N, 148° 32' 30" W; BGN 1910; (map 63). Variant: Poe Glacier. Local name reported in 1908 by U. S. Grant and D. F. Higgins (1910, pls. 1, 2), USGS.

Sethkokna River: stream, flows NE 52 miles to Titna River, 32 miles SW of The Bitzshtini Mountains, Kilbuck-Kuskokwim Mountains; 64° 20' N, 152° 59' W; (map 99). Tanana Indian name reported in 1909 by C. E. Giffin and R. B. Oliver (in Eakin, 1918. pl. 1), USGS.

Setter Lake: lake, 1 mile long, on E coast of Prince of Wales Island, SW of Thorne Bay, Alexander Archipelago; 55° 39' N, 132° 31' W; (map 4). Local descriptive name reported in 1956 by C. L. Sainsbury, USGS, who stated, “This name is in local usage by the loggers at a nearby logging camp, and the name is suggested by the shape of the lake [?].”

Setting Sun Creek: stream, in De Long Mountains, flows S 18 miles to Anisak River, Brooks Range; 68° 22' N, 159° 12' W; BGN 1960; (map 131). Named in 1951 by H. N. Reiser, USGS, for stone ring markings “for ceremonial to setting sun.”

Settlement Point: point of land, at mouth of Afognak Bay, on S coast of Afognak Island, N of Kodiak Island; 58° 03' 05" N, 152° 43' 35" W; (map 43). Variant: Selenia Point. Translation of the name “M[ys] Seleniya” given by Sub-Lt. Mikhail Murashev, IRN, in 1839 or 1840 and published by the Russian Hydrog. Dept. in 1849 in Chart 1425.

Settlement Point: point of land, on E shore of Pavlof Bay, near SW end of Alaska Peninsula, Aleutian Range; 55° 29' 20" N, 161° 28' 40" W; BGN 1926; (map 28). Variant: Mys Seleniya, Seleniye Point, Seleni Point. This is a translation of the Russian word “selenie” meaning “village (or settlement),” shown by Capt. Tebenkov (1852, map 24), and applied to a settlement about one mile NE of the point. This “village” reference suggested to Dall, USC&GS, the name for the point of land in 1880. Settlement Point is a local name used by the fishermen.

Settler Cove: cove, extends SW 3 miles, on W shore of Kizhuyak Bay, on N coast of Kodiak Island; 57° 52' 40" N; 152° 51' 00" W; BGN 1936; (map 34). Descriptive name given in 1935 by USC&GS "because of a small settlement adjacent to the cove."

Setuck: locality, see Situk Village.

Setuk River: stream, see Situk River.

Sevak Camp: fish camp, on Saighat Beach, N coast of St. Lawrence Island, 45 miles SE of Savoonga; 63° 20' N, 169° 12' W; (map 93). Variant: Camp Sevok, Seraak Camp. Eskimo name reported in 1932 by O. W. Geist, Univ. of Alaska.

Seven Dikes Mountain: mountain, 2,840 ft., extends NE-SW 9 miles 53 miles NW of Coleen Mountain, Brooks Range; 67° 51' N, 143° 06' W; (map 121). Local name reported in 1956 by T. E. Taylor, USGS.

Seven Egg Creek: stream, on Kenai Peninsula, heads in lake S of Kakoon Lake and flows NW and SW 12 miles to Cook Inlet 1.5 miles SW of Moose Point and 34 miles NE of Kenai, Cook Inlet Lowland; 60° 56' 25" N, 150° 42' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Seven Fathom Anchorage: bay, see Seven Fathom Bay.

Seven Fathom Bay: bay, 0.1 miles across, on Windy Bay, 3.6 miles SE of Goddard Bay, on W coast of Baranof Islands, Alexander Archipelago; 56° 47' 30" N, 135° 18' 45" W; (map 5). Variant: Seven Fathom Anchorage. Descriptive name given because of its depth; published in 1925 by USC&GS as "Seven Fathom Anchorage" and in 1927 as "Seven Fathom Bay."

Seven Gulch: ravine, trends SW 1.3 miles to Fourth of July Creek, 5.4 miles SW of that stream's junction with Yukon River and 33 miles NW of Eagle, Yukon-Tanana Highlands; 65° 08' 25" N, 141° 57' 00" W; (map 103). Local name published in 1956 by USGS.

Seven Islands: islands, see Semidi Islands.

Seven Lakes: lakes, on Kenai Peninsula, chain of 7, extend 7 miles, in valley of East Fork Moose River, 26 miles E of Kenai, Cook Inlet Lowland; 60° 32' N, 150° 28' W; (map 62). Local name reported in 1958 by USGS.

Seven Mountains, Island of the: island, see Semisopochnoi Island.

Seven Sisters, The: rocks, in Prince William Sound, off NW coast of Hinchinbrook Island, Chugach Mountains; 60° 28' N, 146° 39' W; (map 64). Name reported in 1898 by Capt. W. R. Abercrombie, USA; apparently so named because there are seven rocks in the group.

Seven Sisters: islands, see Pleiades Islands.

Seven Sisters: mountain, 2,808 ft., 9 miles E of Kahonak Bay and 29 miles W. of Augustine Island, Aleutian Range; 59° 25' 30" N, 154° 14' 10" W; (map 51). Name descriptive of the many spires on the summit and published in 1926 by USGS.

Sevenmile Beach: beach, 5 miles long, 14 miles NE of Karluk, on W coast of Kodiak Island; 57° 39' 10" N, 154° 08' 30" W; (map 35). Descriptive local name published in 1943 by USC&GS.

Sevenmile Creek: stream, flows SE 4 miles to Kandik River, 14 miles NE of junction of Charley and Yukon Rivers, Porcupine Plateau; 65° 24' 45" N, 142° 22' 30" W; (map 103). Local name published on a 1956 USGS map. This stream is located about 7 miles upstream from the mouth of the Kandik River.

Sevenmile Creek: stream, flows SE 5.5 miles to Mardow Creek, 9 miles NE of junction of Kandik and Yukon Rivers, Porcupine Plateau; 65° 30' 15" N, 142° 25' 50" W; (map 103). So named locally, because it was considered to be 7 miles upstream from the mouth of Mardow Creek; published in 1956 by USGS.

Sevenmile Creek: stream, flows SE 7 miles to Goodpaster River, 28 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 19' 45" N, 145° 06' 00" W; (map 101). Descriptive name given by prospectors; reported in 1910 by USGS (Prindle, 1913b, pl. 1).

Sevenmile Creek: stream, flows SW 3.8 miles to Peters Creek, 23 miles NW of Palmer, Talkeetna Mountains; 61° 51' 05" N, 149° 34' 05" W; (map 69). Local name reported in 1951 by USGS.

Sevenmile Hill: hill, 820 ft., between Muddy River and Birch Creek, 4 miles E of Lake Minchumina, Tanana Lowland; 63° 53' 30" N, 151° 57' 30" W; (map 88). Local name reported in 1954 by USGS.

Sevenmile Island: island, in Yukon River, 25 miles SW of Nulato, Koyukuk Lowland; 64° 26' N, 158° 30' W; (map 97). Local descriptive name reported in 1954 by USGS.

Sevenmile Lake: lake, 0.8 miles long, N of Denali Highway, 6 miles NW of Paxson, Alaska Range; 63° 06' N, 145° 37' W; (map 86). Variant: Seven Mile Lake. Local name reported in 1949 by T. L. Pewe, USGS.

Sevenmile Lake: lake, 0.8 miles long, S of Stephen Lake, 16 miles N of Anchorage, Cook Inlet Lowland; 61° 27' 45" N, 149° 56' 15" W; (map 69). Local name reported in 1942 by AMS.

Sevenmile Lake: lake, 1 mile long, drains into Eightmile Creek, 51 miles N of Tyonek, Cook Inlet Lowland; 61° 49' 30" N, 151° 13' 10" W; (map 70). Local name reported in 1954 by USGS.

Sevenmile Lake: lake, 6 miles long, N of Amphitheater Mountains, 24 miles NW of Paxson, Alaska Range; 63° 11' N, 146° 16' W; (map 86). Local name reported in 1955 by T. L. Pewe, USGS.

Sevenmile Point: point of land, see Uyak, Cape.

Sevenmile Slough: stream, 7 miles long, anabranch of Tanana River, 22 miles SW of Fairbanks, Tanana Lowland; 64° 40' N, 148° 19' W; (map 100). Descriptive name published on recent USGS maps.

Seventeen Gulch: ravine, trends N 1 mile to Fourth of July Creek, 7.7 miles SW of that stream's junction with Yukon River and 33 miles NW of Eagle, Yukon-Tanana Highlands; 65° 07' 30" N, 142° 01' 00" W; (map 103). Local name published in 1956 by USGS.

Seventeenmile Creek: stream, flows SW 9 miles to Kroto Creek, 16 miles W. of Talkeetna, Cook Inlet Lowland; 62° 17' 30" N, 150° 36' 45" W; (map 81). Local descriptive name reported in 1958 by USGS.

Seventeenmile Island: island, see Twelvemile Island.

Seventeenmile Lake: lake, 0.7 miles across, 2.3 miles W of Sutton and 9 miles NE of Palmer, Cook Inlet Lowland; 61° 43' 00" N, 148° 58' 15" W; (map 69). Local name reported by AMS in 1942.

Seventeenmile Slough: stream, anabranch of Porcupine River, flows NW 7 miles, 10 miles NE of Fort Yukon, Yukon Flats; 66° 38' 20" N, 144° 56' 30" W; (map 119). Local name obtained in 1956 by USGS; so called because the anabranch flows into the Porcupine River 17 miles from Fort Yukon

Seventeenmile Slough: stream, anabranch of Yukon River, flows NW 10 miles, 9 miles SE of Fort Yukon, Yukon Flats; 66° 27' 30" N, 145° 05' 30" W; (map 119). Local name obtained in 1956 by USGS; so called because the upper end of the anabranch is 17 miles up the Yukon River from Fort Yukon.

Seventeenmile Slough: stream, anabranch, flows N 17 miles to Nenana River, 3 miles SW of Nenana, Tanana Lowland; 64° 32' N, 149° 08' W; (map 100). So named because the stream is 17 miles long; published in 1916 on a GLO [BLM] survey Plateau

Seventeenmile: locality, at junction of Porcupine River and Seventeenmile Slough, 10 miles NE of Fort Yukon, Yukon Flats; 66° 38' 10" N, 144° 56' 30" W; (map 119). Local name derived from Seventeenmile Slough; obtained in 1956 by USGS.

Seventy-Second Pass: water passage, see Amukta Pass.

Seventy-two Pass: water passage, see Amukta Pass.

Seventymile Creek: stream, see Seventymile River.

Seventymile River at the falls: falls, see Falls, The.

Seventymile River: stream, flows E 58 miles to Yukon River, 10 miles N of Eagle, Yukon-Tanana Highlands; 64° 55' N, 141° 18' W, (map 102). Variant: Seventymile Creek, Seventy Mile River. So named by prospectors because the mouth is 70 miles down the Yukon River from Fort Reliance, Canada; reported in 1897 by Capt. P. H. Ray, USA.

Seventymile: locality, on left bank of Yukon River at its junction with Seventymile River, 1 mile W of Star City, 11 miles N of Eagle, Yukon-Tanana Highlands; 64° 56' N, 141° 18' W; (map 102). This mining camp was named by prospectors for the stream on which it was located and reported in 1898 by E. C. Barnard, USGS. It was deserted a few years later by the prospectors at news of other gold strikes.

Severn's Roadhouse: locality, see Seversens.

Severnosky: locality, see Savonoski.

Severnoye Point: point of land, see North Point.

Seversens: locality, on Roadhouse Bay, on N shore of Iliamna Lake, 1 mile E of Iliamna, Aleutian Range; 59° 45' N, 154° 49' W; (map 51). Variant: Severn's Roadhouse. Local name published in 1923 by ARC, as "Severn's Roadhouse," and in 1933 by USGS, as "Seversens."

Severson Peninsula: peninsula, extends W 4.5 miles in Becharof Lake, on Alaska Peninsula 53 miles NE of Ugashik, Aleutian Range; 57° 49' 15" N, 156° 08' 30" W; (map 36). Name reported in 1902 by J. L. McPherson of Iliamna.

Sevidovskaia, Ostrovki: island, see Vsevidof Island.

Sevidovskie Ostrovki: island, see Vsevidof Island.

Sevidow Island: island, see Vsevidof Island.

Sevisok Slough: stream, anabranch of Noatak River, heads at 67° 23' N, 163° 03' W, flows SE 23 miles, 22 miles SE of Noatak, Arctic Slope; 67° 01' N, 162° 45' W; (map 128). Variant: Sevisook Slough, Sevisuk Slough, Shivishak River, Shivishuk River. Eskimo name meaning "long way to go by," according to USC&GS in 1950.

Sevisook Slough: stream, see Sevisok Slough.

Sevisuk Slough: stream, see Sevisok Slough

Sevognak: point of land, see Southeast Cape.

Sevooghak, Mount: hill, 0.5 miles S of Chibukak Point, 2 miles E of Gambell, Saint Lawrence Island; 63° 47' N, 171° 42' W; BGN 1951; (map 93). Variant: Mount Sevoognak, Mount Sevooghat Sevoukuk Mountain. Eskimo name reported in 1932 by Otto W. Geist, Univ. of Alaska.

Sevooghnak Cape: point of land, see Southeast Cape.

Sevooghnak: locality, on Southeast Cape, Saint Lawrence Island; 62° 56' 10" N, 169° 39' 00" W; (map 93). Variant: Sevukhnak. This is the Eskimo name for Southeast Cape.

Sevoognak, Mount: hill, see Sevooghak Mount.

Sevooka Cape: point of land, see Northeast Cape.

Sevookak, Cape: point of land, see Northwest Cape.

Sevoonak Point: point of land, see Southeast Cape.

Sevoonga Cape: point of land, see Savoonga Point.

Sevoonga: village, see Savoonga.

Sevukhnak: locality, see Sevooghnak.

Sevuo Cape: point of land, see Seevoo Point.

Sevuokaa Cape: point of land, see Northeast Cape.

Sevuokok Cape: point of land, see Northeast Cape.

Sevuokok, Cape: point of land, see Northwest Cape.

Sevuokok: village, see Gambell.

Sevuokuk Mountain: hill, 614 ft., 1.5 miles SE of Gambell, on NW part of Saint Lawrence Island; 63° 46' N, 171° 42' W; BGN 1951; (map 93). This is the Eskimo name for the village of Gambell.

Sevuokuk Point: point of land, see Northeast Cape.

Sevuokuk Point: point of land, see Northwest Cape.

Seward City: locality, see Comet.

Seward Creek: stream, flows E 4 miles to Wild Lake, S of Sirr Mountain, 39 miles W of Wiseman, Brooks Range; 67° 30' 00" N, 151° 35' 00" W; (map 124). Local name obtained in 1956 by USGS topographers.

Seward Creek: stream, flows E 8 miles to Mission Creek, 10 miles SW of Eagle, Yukon-Tanana Highlands; 64° 45' 25" N, 141° 31' 40" W; (map 102). Prospectors' named obtained in 1898 by E. C. Barnard, USGS.

Seward Glacier: glacier, heads in Canada in icefield, near head of Columbus Glacier, at about 60° 24' N, 140° 55' W, trends E and SW 52 miles to Malaspina Glacier, 55 miles NW of Yakutat, St. Elias Mountains; 60° 06' N, 140° 27' W; (map 66). Named by Russell (1891, p. 129), for William Henry Seward, 1801-72. See Seward: town.

Seward Mountains: mountain range, extends NW-SE 14 miles, NE of Davis River and SW of Soule Glacier, Coast Mountains; 55° 50' N, 130° 15' W; (map 3). Named in 1868 by Staff Comdr. David Pender, RN.

Seward Passage: water passage, 11 miles long, between Deer Island and mainland, in E Ernest Sound, Alexander Archipelago; 56° 03' N, 131° 59' W; (map 7) Name derived from the Seward Mountains; given in 1886 by Lt. Comdr. A. S. Snow, USN.

Seward Peninsula: peninsula, extends W 200 miles from line between heads of Eschscholtz Bay and Norton Bay; bounded on S by Norton Sound, on N by Chukchi Sea, and W by Bering Strait; 65° N, 164° W; BGN 1944; Variant: Kaviak Peninsula, Nome Peninsula, Prince of Wales Peninsula, Sumner Peninsula. About 1898 Governor John Green Brady suggested the peninsula be named in compliment to William Henry Seward, 1801-72. See Seward: town. Dall (1870, p. 268) wrote of this peninsula: "it is proposed to call the [it] Kaviak Peninsula from the native name of Kavi-iak and the Kaviak Inuit who inhabit it." The names "Sumner Peninsula" and "Nome Peninsula" were published in 1900, but were not used subsequently.

Seward: town, pop. 1,891, on Kenai Peninsula, at NW end of Resurrection Bay, Chugach Mountains; 60° 06' 30" N, 149° 26' 30" W; BGN 1906; (map 63). Named for William Henry Seward, 1801-72, U.S. Secretary of State, 1861-69, who negotiated the purchase of Alaska. "The town was founded in 1902 by surveyors for The Alaska Railroad (built 1915-23) as the ocean terminus of the railroad with an airfield and an ice-free harbor, it is an important supply center for the Alaska interior" (Bridgewater and Sherwood, 1950, p. 1799). A post office was established here in 1895, discontinued in 1896, but reestablished in 1903 (Ricks, 1965, p. 57). Its population was 534 in 1910; 652 in 1920; 835 in 1930; 949 in 1939; and 2,114 in 1950.

Sewards Folly: state, see Alaska.

Sewidowsky, Mount: mountain, see Vsevidof, Mount.

Sextant Point: point of land, on S coast of Annette Island, 0.8 miles NE of Point Davison, Alexander Archipelago; 55° 00' 52" N, 131° 35' 29" W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Seykes, Mys: point of land, see Sykes, Point.

Seymour Canal: estuary, on E coast of Admiralty Island, trends SE 40 miles to Stephens Passage from neck of Glass Peninsula, 56 miles SE of Juneau, Alexander Archipelago; 57° 32' N, 133° 50' W; (map 8). Variant: Seymour's Channel. Examined by Joseph Whidbey, RN, and named in 1794 by Capt. George Vancouver as "Seymour's Channel" for Lord Hugh Seymour (Wagner, 1937, p. 416).

Seymour's Channel: estuary, see Seymour Canal.

Sfaganugamute: locality, see Sfaganuk.

Sfaganuk: locality, 13 miles N of Chefornak and 88 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 24' N, 164° 15' W; (map 58). Variant: Sefagnuk, Sfaganugamute, Sfoganugamiut, Sfugunugumut, Staganuk. Former Eskimo village visited in December 1878 by E. W. Nelson, U.S. Signal Service, who wrote the name "Sfoganugamiut."

Sfoganugamiut: locality, see Sfaganuk.

Sfugunugumut: locality, see Sfaganuk.

Shack Creek: stream, flows 0.9 miles SW along N shore of Alsek River to sand bar, 2.8 miles W of First Rapids and 50 miles SE of Yakutat, Malaspina Coastal Plain; 59° 1' 45" N, 138° 30' 00" W; (map 46). Local name published by USGS in 1959.

Shack Lake: lake, 1.5 miles long, between Cow and Long Lakes, 20 miles SW of Beaver, Yukon Flats; 66° 17' 30" N, 148° 06' 30" W, (map 118). Probably named by William Yanert who showed it on a 1916 manuscript map of the Yukon Flats (Stuck, 1917, map facing p. 122).

Shackleford Creek: stream, heads between Cooper and Kenai Lakes, flows N 2.5 miles to Kenai Lake, 30 miles NW of Seward, Chugach Mountains; 60° 29' 15" N, 149° 46' 45" W; (map 63). Local name reported in 1952 by USGS.

Shade Creek: stream, heads in Canada, flows W 5 miles to Yukon River, Porcupine Plateau; 64° 53' 30" N, 141° 06' 10" W; (map 102). Local name reported in 1909-10 by IBC surveyors; published in 1914 on IBS Sheet 20.

Shadeetic Mountain: mountain, see Distik, Mount.

Shadistik: mountain, see Distik, Mount.

Shadow Bay: lake, 2.5 miles long, at W tip of Lake Chauekuktuli, 100 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 01' N, 159° 10' W; (map 59). Descriptive name suggested by Gerald FitzGerald, USGS, in 1932 because "due to the high and steep slopes of the surrounding mountains this bay is almost always dark and in shadow."

Shadura Lake: lake, 0.8 miles across, on Kenai Peninsula E of Lake Ootka, 12 miles NE of Kenai, Cook Inlet Lowland; 60° 42' N, 151° 01' W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Shady Creek: stream, flows N 3 miles to Bettles River 0.7 miles W of junction of Phoebe and Robert Creeks and 21 miles NW of Chandalar, Brooks Range; 67° 35' 30" N, 149° 16' 00" W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Shaefer Creek: stream, see Potato Creek.

Shafer Creek: stream, see Potato Creek.

Shaft Creek: stream, on Kenai Peninsula, flows NW 5.5 miles to Juneau Creek, 1.5 miles S of Juneau Lake and 27 miles SW of Hope, Chugach Mountains; 60° 32' 55" N, 149° 53' 00" W; (map 63). Local name reported in 1951 by USGS.

Shaft Gully: ravine, heads on E side of North Hill, trends SE 0.5 miles to Eldorado Creek, 1.8 miles NE of The Ears on Ear Mountain, Seward Peninsula Highlands; 65° 56' 20" N, 166° 10'

30" W; (map 111). Variant: Vatney Gulch. So named in 1945 by a USGS field party because there is a mine shaft nearby. This appears to be the ravine referred to as "Vatney Gulch" by Steidmann and Cathcart (1922, p. 107), USGS.

Shaft Peak: mountain, 2,138 ft., 5 miles NW of Narrow Cape, N of Ugak Bay, Kodiak Island; 57° 29' N, 152° 25' W; (map 34). Local name reported in 1951 by USGS.

Shaft Rock: rock, 200 ft. long, in Pacific Ocean, off SW Peninsula of Noyes Island, 1.2 miles N of Cape Addington, Alexander Archipelago; 55° 27' 15" N, 133° 19' 10" W; (map 4). Descriptive name given in 1923 by USC&GS.

Shag Bluff: cliff, at mouth of Portage Bay, in Alitak Bay, at S end of Kodiak Island; 56° 55' 30" N, 153° 53' 30" W; (map 33). Name reported in 1943 by USC&GS.

Shag Cove: cove, in Glacier Bay National Monument, 2 miles long, 1 mile S of mouth of Geikie Inlet, 0.7 miles SW of Marble Mountain, 50 miles NW of Hoonah, St. Elias Mountains; 58° 38' 45" N, 136° 20' 00" W; (map 10). Local name reported by USGS in 1951.

Shag Island: island, 0.1 miles across, in Wonder Bay, on NW coast of Shuyak Island, 50 miles N of Kodiak Island; 58° 37' 12" N, 152° 36' 00" W; (map 43). Variant: Urili Island. Translation of the name "Os[trov] Urili," or "shag" or "cormorant"; given by the Russian American Company in 1849.

Shag Rock: rock, 0.7 miles E of Mummy Island, 10 miles SW of Cordova, Chugach Mountains; 60° 28' N, 145° 58' W; (map 64). Local name published in 1943 by USC&GS.

Shag Rock: rock, at head of Sanborn Harbor, NW coast of Nagai Island, in Shumagin Islands, Aleutian Range; 55° 07' 20" N, 159° 58' 30" W; (map 27). Named by W. H. Dall, USC&GS, in 1872 and published on Chart 813.

Shag Rock: rock, in Davison Bay, 11 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 46' 50" N, 136° 18' 40" W; (map 9). Named in 1928 by USC&GS; published on Chart 8258.

Shag Rock: rock, in Sitkalidak Strait, near mouth of Ameer Bay, between Sitkalidak and Kodiak Islands; 57° 12' 50" N, 153° 12' 10" W; (map 34). Local name published in 1943 by USC&GS.

Shag Rock: rock, on NW shore of Moser Bay, 40 miles SE of Karluk, in SW part of Kodiak Island; 57° 02' N, 154° 07' W; (map 35). Local name published in 1943 by USC&GS.

Shag Rocks: rocks, in SE entrance to Whale Passage, between Whale and Kodiak Islands; 57° 54' 30" N, 152° 47' 25" W; (map 34). Variant: Kamen Urili, Oreel Rocks, Oreelie Rocks, Urili Rocks, Urilie Rocks. Translation of "K[amen] Urili," published in 1849 on Russian Hydrog. Dept. Chart 1425.

Shagak Bay: bay, 1 mile across, on NW coast of Adak Island, Aleutian Islands; 51° 52' N, 176° 45' W; BGN 1936; (map 17). Variant: Chagak Bay, Chagakh Bay, Zaliv Shagakh.

Aleutian name published by Capt. Tebenkov (1852, map 28), IRN, as “Z[aliv] Shagakh,” meaning “Shagakh Bay.”

Shagakh, Zaliv: bay, see Shagak Bay.

Shagauka, Zaliv: bight, see Shahafka Cove.

Shagavanuktok River: stream, see Sagavanirktok River.

Shagelook: stream, see Shageluk Slough.

Shageluk Lake: lake, 2.3 miles long, E of Innoko River at Shageluk, 33 miles NE of Holy Cross, Innoko Lowland; 62° 41' N, 159° 33' W; (map 78). Local name obtained in 1952 by USGS.

Shageluk Slough: stream, anabranch of Yukon River, extends N-S 40 miles between Yukon and Innoko Rivers, 42 miles N of Holy Cross, Innoko Lowland; 62° 48' N, 159° 34' W; (map 78). Variant: Chagalook, Chageluk, Chagelyuk, Ittege, Shagelook. Ingalik Indian name appears to have been applied to the Innoko River by the Russian colonial administration on the Yukon, although it is difficult to ascertain exact name application now. Lt. L. A. Zagoskin, IRN, applied the names “Chagelyuk” or “Ittege” to the lower Innoko River in 1842-44. The name has been standardized to “Shageluk” and is now applied to part of the Yukon anabranch. See Innoko River.

Shageluk: village, pop. 155, on E bank of Innoko River, 20 miles E of Anvik and 34 miles NE of Holy Cross, Innoko Lowland; 62° 41' N, 159° 34' W; (map 78). Variant: Chageluk, Chagvagchat, Inselnostleide, Intenleiden, Khuingshtetakhten, Khulishganat, Khushgichagat, Kuingshtetakhten, Tizhgelede, Tlegogitno, Tlegoshitno, Tlegozhitno. Ingalik Indian village recorded as “Tlegoshitno” on Lt. L. A. Zagoskin's 1850 map. P. Tikhmeniev showed several villages or camps in this area on his 1861 map. They were named “Inselnostleide,” “Inteleiden,” “Khuingshtetakhten,” “Khushgichagat,” “Tizhgelede,” “Tlegozhitno.” Ivan Petroff in the 1880 U.S. Census calls them, collectively, the “Chageluk settlements.” “Shageluk,” as applied above, became one of the permanent villages in this wet lowland. Its population in 1920 was 130; in 1930, 88. A post office was established in 1924 (Ricks, 1965, p. 57).

Shagitak Island: island, see Sitkalidak Island.

Shahafka Cove: bight, 0.2 miles across, on W shore of Woody Island Channel, 1.5 miles NE of Kodiak, Kodiak Island; 57° 47' 55" N, 152° 22' 00" W; (map 34). Variant: Chagafka Cove, Peschanoi, Zaliv Peschanoy, Zaliv Shagauka. Transliteration of the name “Z[aliv] Shagauka” published by Capt. Tebenkov (1852, map 23). Named “Za[liv] Peschanoy,” meaning “Sandy Bay” by Sarichev (1826, map 16).

Shaheen Creek: stream, on Prince of Wales Island, heads on Kogish Mountain, flows NW 7 miles to Kaguk Cove, 20 miles NW of Craig, Alexander Archipelago; 55° 45' N, 133° 15' W; (map 4). Indian name recorded in 1949 by USGS.

Shaiak Island: island, 0.5 miles long, 0.4 miles E of mainland, in Bristol Bay, 4.6 miles S of Slug Mountain, and 22 miles W of Hagemeister Island; 58° 33' 30" N, 161° 40' 00" W; (map

39). Native name published by Lt. Sarichev (1826, map 3), IRN, as “O[strov] Morzhevoi [Russian for 'Walrus Island'] Shayak.” Capt. Tebenkov (1852, map 4), IRN, showed “O[strov] Shayak.” The Shaiak spelling is due to the transliteration table used by BGN in the 1890's.

Shainin Lake: lake, 2.7 miles long, in course of Alapah Creek, W of Mount Wachsmuth, 22 miles NE of Anaktuvuk Pass, Arctic Slope; 68° 20' N, 151° 03' W; BGN 1960; (map 134). Variant: Kanayut Lake. Named by USGS geologists in 1951 for Vincent E. Shainin, USGS geologist, who drowned in this lake in 1950. The Eskimo name for this lake is Kanayut (Rausch, 1951, p. 150).

Shaishnikof River: stream, flows NE 9 miles to Nateekin Bay, in Unalaska Bay, Unalaska Island, Aleutian Islands; 53° 49' 40" N, 166° 36' 25" W; (map 23). Local name published in 1951 on a USGS map.

Shakaan Bay: bay, see Shakan Bay.

Shakaan Strait: water passage, see Shakan Strait.

Shakan Bay: bay, 3 miles across, between N coast of Kosciusko Island and NW coast of Prince of Wales Island, Alexander Archipelago; 56° 10' N, 133° 37' W; (map 6). Variant: Shakaan Bay, Shukan Bay. Local name published by USC&GS in 1883 Coast Pilot (p. 101). See Shakan, village.

Shakan Creek: stream, flows N 3.5 miles to Shakan Bay, on N coast of Kosciusko Island, Alexander Archipelago; 56° 08' 20" N, 133° 27' 40" W; (map 6). Local name recorded in 1949 by USGS.

Shakan Island: island, 0.1 miles long, at S point of entrance to Shakan Bay, on N coast of Kosciusko Island, Alexander Archipelago; 56° 08' 55" N, 133° 37-55" W; (map 6). Local name published by USC&GS in 1883 Coast Pilot (p. 101). See Shakan, village.

Shakan Nipples: mountain, see Nipples, The.

Shakan Strait: water passage, in Shakan Bay, between Hamilton and Kosciusko Islands, Alexander Archipelago; 56° 07' 30" N, 133° 30' 00" W; (map 6). ran Shakaan Strait. Local name published by USC&GS in 1883 Coast Pilot (p. 101) See Shakan: locality.

Shakan: locality, at head of Shakan Bay E of Hamilton Island, on NW coast of Kosciusko Island Alexander Archipelago; 56° 08' 15" N, 133° 27' 35" W, (map 6). Variant: Caxan, Chican, Hamiltons Mills, Olivers Place, Tsi'choan. Former Indian village that “grew up in 1879 around a sawmill established by Oliver Fontain and was known at the time as 'Oliver's Place'” (Colby, 1945, p. 145). The summer village of the Henya tribe of Tlingit Indians, who came here for fish eggs (Hodge, 1910, p. 520), BAE. Shakan post office was established in 1886; discontinued in 1936 (Ricks, 1965, p. 57). In 1890, with a population of 38, the village included the sawmill and about 12 houses (U.S. Bureau of the Census, 1893, p. 34). The population was 19 in 1930, but only one person was reported to have been living there in 1938 (Colby, 1945, p. 145). The name “Shaken” is probably derived from the name of the Tlingit chief, Ceks, or Shakes, with the ending “an,” meaning “village.” See Kah Shakes, village.

Shakan: locality, see Sukkwan.

Shake Cabin: locality, a shelter cabin on the left bank of Texas Creek, 9 miles N of Hyder, Coast Mountains, 56° 02' 50" N, 130° 04' 30" W; (map 7). Local name reported in 1928 by USGS.

Shakes Glacier: glacier, trends S 7 miles to Shakes Lake, 22 miles NE of Wrangell, Coast Mountains; 56° 47' 30" N, 132° 08' 00" W; (map 6). Local name recorded in 1961 by USGS. See Kah Shakes, village.

Shakes Lake: lake, 3 miles long, at mouth of Shakes Glacier, 16 miles NE of Wrangell, Coast Mountains; 56° 45' N, 132° 08' W; (map 6). Variant: Soinai Lake. Local name recorded in 1953 by USGS.

Shakes Slough: stream, heads in Shakes Lake, flows SE 2.5 miles to Stikine River, 19 miles NE of Wrangell, Coast Mountains; 56° 42' 45" N, 132° 06' 30" W; (map 6). Local name recorded in 1953 by USGS.

Shakes Village: locality, on E coast of Etolin Island, Alexander Archipelago; 55° 58' N, 132° 13' W; (map 4). Former Tlingit Indian summer camp of the head Stikine chief, Ceks; reported in the 1880 Census as "Shakes' Village," population 38. (1884, p. 32). See Kah Shakes.

Shakes, Mount: mountain, 3,305 ft., on E coast of Etolin Island, Alexander Archipelago; 56° 00' N, 132° 15' W; (map 4). Named in 1886, by Lt. Comdr. A. S. Snow, USN, "after Shakes, an Indian chief."

Shakespeare Glacier: glacier, on NE end of Kenai Peninsula, trends NW 2 miles to its terminus, 2 miles SW of Whittier, Chugach Mountains; 60° 45' 40" N, 148° 44' 30" W; (map 63). Named in 1915 by USC&GS "for William Shakespeare, 1564-1616, English dramatist and poet."

Shakhmanova, Mys: point of land, see Shakmanof Point.

Shakhmanova, Zaliv: bay, see Kizhuyak Bay.

Shakhtoli, Zaliv: bay, see Shaktoolik Bay.

Shakhtolik, Reka: stream, see Shaktoolik River.

Shakhtolik, Zaliv: bay, see Shaktoolik Bay.

Shakhun Rock: rock, Shakun Rock.

Shakhun, Kamen: rock, see Shakun Rock.

Shaklolik: village, see Shaktoolik.

Shakmanof Cove: bay, extends S 1 mile between Kizhuyak and Shakmanof Points, 12 miles NW of Kodiak, Kodiak Island; 57° 55' N, 152° 36' W; BGN 1939; (map 34). Variant: Nutty Cove, Womens Bay. Name derived from Shakmanof Point and given in 1939 by USC&GS. This feature was called "Nutty Cove" in 1933 by USC&GS and "Womens Bay" by Capps (1937, p. 129), USGS.

Shakmanof Point: point of land, E point of entrance to Shakmanof Cove, 12 miles NW of Kodiak, Kodiak Island, 57° 55' 30" N, 152° 35' 15" W; (map 34). Variant: Mys Chiniak, Mys Shakhmanova, Riph Point. Named "M[ys] Shakhmanova," or "Cape Shakmanov,," by Sub-Lt. Mikhail Murashev in 1839 or 1840 and published in 1849 on Russian Hydrog. Dept. Chart 1425. Called "M[ys] Chiniak" or "Cape Chiniak," by Capt. Tebenkov (1852, map 23). "Riph Point" was Baker's (1906, p. 565) transliteration of Capt. Tebenkov's word for "reef."

Shakmanof: bay, see Kizhuyak Bay.

Shakon, Cape: point of land, see Chacon, Cape.

Shaktol, Guba: bay, see Shaktoolik Bay.

Shaktolik Hills: hills, near the Shaktoolik River E of Norton Sound, Nulato Hills; (map 96). So called by Dall (1870, p. 24).

Shaktolik River: stream, see Shaktoolik River.

Shaktolik: village, see Shaktoolik.

Shaktolit: village, see Shaktoolik.

Shaktoolik Bay: bay, on Norton Sound, 23 miles SW of Christmas Mountain, Nulato Hills, 64° 22' N, 161° 11' W; (map 96). Variant: Baie Chaktolimont, Chacktoole Bay, Guba Shaktol, Guba Tshakhtol, Zaliv Shakhtoli, Zaliv Shakhtolik. Eskimo name reported on September 16, 1778, by Capt. Cook (1785, v. 2, p. 485), RN, as "Chacktoole Bay." It was called "Shaktol" and "Shakhtolik" by the Russians.

Shaktoolik River: stream, flows SW 92 miles to Shaktoolik Bay 22 miles SW of Christmas Mountain, Nulato Hills; 64° 22' N, 161° 11' W, BGN 1966; (map 96). Variant: Reka Shakhtolik, Shaktolik River. Eskimo name published by Capt. Tebenkov (1852, map 2), IRN, as "R[eka] Shakhtolik."

Shaktoolik: village, pop. 187, on E shore of Norton Sound, 12 miles ESE of Cape Dembigh, Nulato Hills; 64° 20' N, 161° 09' W, BGN 1966; (map 96). Variant: Shaklolik, Shaktolik, Shaktolit, Tshakhtog-myut, Ttakhtog-myut. Eskimo village reported in 1842-44 by Lt. L. A. Zagoskin, IRN, who recorded it as "Tshakhtog-myut." The population was 60 in 1880, 38 in 1890, 73 in 1920; 104 in 1930 128 in 1940; and 127 in 1950. The Shaktoolik post office was located here from 1930 to 1933 and from 1944 to 1949 (Ricks, 1965, p. 58).

Shakun Islands: islands, see Shakun Islets.

Shakun Islets: islands, group extends 1.8 miles, in Shelikof Strait, on NE coast of Alaska Peninsula, in Katmai National Monument, 7 miles NE of Cape Chiniak and 49 miles NE of Mount Katmai, Aleutian Range; 58° 34' N, 153° 43' W; (map 43). Variant: Shakun Islands. Name derived from Shakun Rock; published by USC&GS as Shakun Islands in 1943.

Shakun Rock: rock, 400 ft. long, in Shelikof Strait, 1.7 miles SE of Shakun Islets, Aleutian Range; 58° 32' 55" N, 153° 41' 10" W; BGN 1897; (map 43). Variant: Schachun Rocks, Shakhun Rock, Kamen Shakhun. Name transliterated by USC&GS from "K[amen] Shakhun," published by Capt. Tebenkov (1852, map 22), IRN.

Shakuseya Creek: stream, see Shakuseyi Creek.

Shakuseyi Creek: stream, heads on E slope of Tukgahgo Mountain, flows NE 2 miles to head of Lutak Inlet, 1.4 miles SE of Chilkoot and 13 miles SW of Skagway, Coast Mountains; 59° 18' 50" N, 135° 32' 30" W; (map 45). Variant: Shakuseya Creek. Tlingit Indian name reported to mean "mountain-foot"; published in 1923 on IBC Sheet 9 (1951 atlas).

Shakwan: locality, see Sukkwan.

Shale Island: island, 600 ft. long, 4 miles SSW of Chichagof, off W coast of Chichagof Island, Alexander Archipelago; 57° 36' 48" N, 136° 07' 45" W; (map 9). Descriptive name given in 1908 by USC&GS; published in 1909 on Chart 8280.

Shale Wall Bluff: bluff, elev. 900 ft., on W bank of Nanushuk River, 10 miles SE of Outpost Mountain and 36 miles SE of Umiat; Arctic Slope; 69° 04' N, 150° 51' W; BGN 1960; (map 141). So named by USGS geologists during the exploration of Naval Petroleum Reserve No. 4, between 1944 and 1953, "because a name was needed for a type locality for the Shale Wall member of the Seabee formation."

Shaler Mountains: mountains, 15 miles long, central Unalaska Island, Aleutian Islands; 53° 35' N, 166° 48' W; (map 23). Name published by USGS (Drewes and others, 1961, pl. 75).

Shaleruckik Mountain: hill, 718 ft., 17 miles SW of Shungnak, Kotzebue-Kobuk Lowland; 66° 51' N, 157° 45' W; (map 115). Eskimo name shown on a 1901 field sheet by USGS.

Shallow Bay: delta, see Dry Bay.

Shallow Lake: lake, 2.3 miles long, 12 miles SE of Beaver, Yukon Flats; 66° 14' 15" N, 147° 04' 00" W; (map 118). Local descriptive name obtained in 1956 by USGS.

Shallow Lake: lake, see Kenibuna Lake.

Shallow-water, Point: point of land, see Romanof, Point.

Shallyanys Village: locality, on Stikine River, N of Wrangell, Alexander Archipelago; 56° 31' N, 132° 23' W; (map 6). Former Tlingit Indian summer camp reported in the 1880 Census, with a population of 24, by Petroff (1884, p. 32).

Shaman Island: island, 0.1 miles long, in Stephens Passage, 0.3 miles NW of Outer Point on W coast of Douglas Island and 9.5 miles W of Juneau, Coast Mountains; 58° 18' 20" N, 134° 41' 00" W (map 11). Named in 1890 by Lt. Comdr. H. B. Mansfield, USN. "Shaman" is an Indian name for medicine-man or doctor. Reason for this name is unknown. The name was published in 1893 by USC&GS on Chart 8300.

Shaman: village, see Stevens Village.

Shamansville: village, see Stevens Village.

Shamrock Bay: bay, 1.5 miles long, at head of West Shamrock Inlet, on central Baranof Island Alexander Archipelago; 56° 49' 45" N, 135° 08' 00" W, (map 5). Descriptive name given in 1929 by USC&GS "because its charted outline resembles a shamrock."

Shamrock Creek: stream, flows N then E 5 miles to Golovnin Lagoon, 10 miles NW of Golovin and 32 miles E of Solomon, Seward Peninsula Highlands; 64° 35' N, 163° 22' W; (map 95). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Shamrock Creek: stream, flows NE 2 miles to Big Lake, 1.4 miles SE of mouth of Holy Moses Creek and 23 miles W of Chandalar, Brooks Range; 67° 29' 15" N, 149° 22' 00" W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Shamrock Creek: stream, flows NW 4 miles to Redmond Creek, 28 miles NW of Big Delta, Yukon-Tanana Highlands; 64° 24' N, 146° 32' W; (map 101). Named by prospectors; reported in 1910 by USGS (Capps, 1912, pl. 1).

Shamrock Creek: stream, flows NW 6 miles to East Fork Chena River, 68 miles SW of Circle, Yukon-Tanana Highlands; 65° 02' N, 145° 28' W; (map 104). Named by prospectors; reported in 1811 by E. A. Porter (in Brooks and others, 1912, p. 244), USGS.

Shamrock Creek: stream, flows S 3.7 miles to Bear Creek 3 miles NE of Nyac and 39 miles SW of Aniak, Kilbuck-Kuskokwim Mountains; 61° 01' N, 159° 51' W; (map 73). Prospectors' name shown on a 1914 field sheet by A. G. Maddren, USGS.

Shamrock Glacier: glacier, in Chigmit Mountains, trends N 13 miles to its terminus between Chakachamna and Kenebuna Lakes, 55 miles W of Tyonek, Aleutian Range; 61° 11' N, 152° 49' W; BGN 1930; (map 70). Local name reported in 1927 by S. R. Capps (in Smith and others, 1930, p. 147), USGS.

Shamrock Isle: island, see Emerald Island.

Shamrock Lake: lake, 1.7 miles long, at terminus of Shamrock Glacier, 55 miles W of Tyonek, Aleutian Range; 61° 11' 15" N, 152° 47' 30" W; (map 70). Local name reported in 1958 by USGS.

Shand, Mount: peak, 12,660 ft., at head of Trident Glacier, 10 miles SE of Mount Hayes, Alaska Range; 63° 32' 40" N, 146° 26' 55" W; BGN 1962; (map 86). Named for William Shand, Jr., 1918-46, reported to be one of a party of two that made the first ascent of nearby

Mount Moffit, August 13, 1941. Bradford Washburn proposed this name in 1949 to be applied to what is now called Mount Moffit. The present application of the name was suggested in 1961 by USGS to resolve the conflict of two names applied to the same feature.

Shangavinapok: stream, see Swift Fork.

Shangin Bay: bay, 4 miles long, 0.2 miles wide, on N coast of Shuyak Island, 50 miles N of Kodiak Island; 58° 36' 30" N, 152° 25' 10" W; BGN 1933; (map 43). Name published by USC&GS in 1921 on Chart 8555.

Shangin Rock: rock, off N coast of Shuyak Island, 52 miles N of Kodiak Island; 58° 38' 35" N, 152° 26' 00" W; BGN 1933; (map 43). So named by USC&GS in 1931 because it marks the entrance to Shangin Bay.

Shanigarok: stream, see Shaningarok Creek.

Shaningarok Creek: stream, heads at 69° 21' N, 159° 01' W, flows N and E 80 miles to Meade River, 95 miles SE of Wainwright, Arctic Slope; 69° 37' N, 157° 26' W; BGN 1949; (map 143). Variant: Kaksu River, Sanigaroak, Shanigarok. Eskimo name reported by T. E. Taylor, USGS, in 1956.

Shaningarok Ridge: ridge, extends 40 miles W from Meade River, N of Shaningarok Creek, 85 miles SE of Wainwright, Arctic Slope; 69° 41' N, 158° 11' W; (map 143). Named by USGS in 1956, and derived from the stream name.

Shannon Hill: mountain, 1,900 ft., in Indian Mountains, 25 miles NE of Hughes, Kokrines-Hodzana Highlands; 66° 19' N, 153° 37' W; (map 116). Local name published in 1956 by USGS.

Shannon Point: point of land, W of Nyman Peninsula, on NW shore of Womens Bay, 6 miles SW of Kodiak, Kodiak Island; 57° 43' 45" N, 152° 31' 40" W; (map 34). Local name reported in 1949 by USGS.

Shannon, Mount: mountain, 2,055 ft., on N shore of Wide Bay, on S coast of Alaska Peninsula, 39 miles ESE of Ugashik, Aleutian Range, 57° 25' 30" N, 156° 23' 45" W; (map 36). Named by prospectors for "Mr. Shannon (cnna) who died in the vicinity in 1922"; published by W. R. Smith and A. A. Baker (in Brooks and others, 1924, pl. 11), USGS.

Shantatalik Creek: stream, flows SW 5 miles to Tustumena, 21 miles SE of Kenai, Cook Inlet Lowland; 60° 17' 30" N, 150° 59' 30" W; (map 62). Variant: Tschantotalich. Tanaina Indian name reported in 1840 by the Russian scientist Island G. Wosnesenski. It was published by Grewingk (1850, map 3) as "Tschantatalich. "

Shapka Island: island, 0.6 miles across, one of Chiachi Islands, 22 miles E of Stepovak Bay, Aleutian Range; 55° 53' 10" N, 159° 07' 00" W; (map 27). Descriptive name derived from the Russian word for "hat;" given because of the island's rounded shape; published by USC&GS on Chart 8881 (1891).

Sharatin Bay: bay, extends S 3.5 miles, off Kizhuyak Bay, 13 miles NW of Kodiak, Kodiak Island; 57° 51' N, 152° 44' W; BGN 1933, (map 34). Local name reported in 1933 by Gerald FitzGerald, USGS, who wrote, “probably was given for an early Russian settler.”

Sharatin Mountain: mountain, 2,869 ft., at head of Sharatin Bay, 10 miles W of Kodiak, Kodiak Island; 57° 48' 45" N, 152° 41' 15" W; BGN 1933; (map 34). Name derived from Sharatin Bay and given in 1933 by Gerald FitzGerald, USGS.

Shariepof, Cape: point of land, see Izhut, Cape.

Shark Edge Mountain: peak, 3,734 ft., 4 miles NW of Old John Lake and 7 miles SE of Arctic Village, Brooks Range; 68° 06' N, 145° 16' W; (map 136). Local name reported in 1956 by R. C. Foley, USGS.

Shark Point: point of land, on NE shore of Ugak Bay, on E coast of Kodiak Island; 57° 27' N, 152° 35' W; (map 34). Local name reported in 1951 by USGS.

Shark Tooth Hill: mountain, 2,740 ft., 1.5 miles E of Oil Bay and 23 miles NE of Augustine Island Aleutian Range; 59° 40' 15" N, 153° 14' 00" W; BGN 1916; (map 51). Named by USC&GS in 1913 because of the mountain's resemblance to a shark's tooth.

Sharkstooth Mountain: mountain, 9,660 ft., near head of Columbia Glacier, 30 miles NW of Valdez, Chugach Mountains; 61° 22' 20" N, 147° 01' 33" W; BGN 1965; (map 69). Named about 1957 by members of the Chugach Mountains Expedition sponsored by the Arctic Institute of North America (Nielsen 1963, p. 135).

Sharp Cape: point of land, on S coast Kagalaska Island, Aleutian Islands; 51° 43' 50" N, 176° 20' 50" W. BGN 1936; (map 17). So named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934 “because it is a sharp, rocky headland.”

Sharp Ledge: cliff, on S end of Couverden Island, W of Point Couverden, at mouth of Lynn Canal 25 miles SW of Juneau, St. Elias Mountains, 58° 11' 30" N, 135° 03' 45" W; (map 11). Descriptive name given in 1890 by USC&GS and published in the 1891 Coast Pilot (p. 195).

Sharp Mountain: mountain, 2,200 ft., N of Iliamna Lake, 20 miles W of Iliamna, Alaska Range; 59° 46' N, 155° 29' W; (map 51). Descriptive name published in 1957 by USGS.

Sharp Peak: mountain, 6,030 ft., 3.2 miles NE of terminus of Klutina Glacier, 21 miles NE of Valdez, Chugach Mountains; 61° 25' 15" N, 146° 02' 10" W; (map 68). Named in 1898 by Capt. W. R. Abercrombie, USA.

Sharp Point: point of land, at mouth of Eliza Harbor, in South Passage, on Admiralty Island, 27 miles SE of Angoon, Alexander Archipelago; 57° 09' 30" N, 134° 16' 40" W; (map 9). Descriptive name given in 1889 by Lt. Comdr. H. B. Mansfield, USN; published by USC&GS in the 1891 Coast Pilot (p. 142).

Sharp Point: point of land, on W shore of Port Snettisham, 2.4 miles S of Mallard Cove and 31 miles SE of Juneau, Coast Mountains; 58° 08' N, 133° 44' W; (map 12). Descriptive name given in 1888 by Lt. Comdr. C. M. Thomas, USN.

Sharp Point: point of land, on W shore of Princess Bay, on SE coast of Revillagigedo Island, Alexander Archipelago; 55° 20' 35" N, 131° 01' 30" W; (map 3). Descriptive name given in 1891 by USC&GS.

Sharp, Mount: mountain, 2,569 ft., 4.5 miles SE of Goddard, on W coast of Baranof Island, Alexander Archipelago; 56° 48' 45" N, 135° 15' 00" W (map 5). Descriptive name given in 1943 for charting purposes by USC&GS.

Shaseki Pass: pass, see Chilkoot Pass.

Shashamund Lake: lake, 1.3 miles long, 0.5 miles S of confluence of Chisana and Nabesna Rivers, 41 miles SE of Tok, Yukon-Tanana Highlands; 63° 02' N, 141° 52' W; BGN 1961; (map 85). Indian name said to mean "duck lake"; reported by USGS in 1960.

Shasheki: pass, see White Pass.

Shashgat Bay: bay, on SE coast of Kodiak Island; (map 34). Native name recorded in 1805 by Lisianski (1814, p. 184-185). "Apparently an arm of Igak [Ugak] bay * * *" (Baker, 1906, p. 566). Location unknown.

Shasta Creek: stream, flows SW 1.4 miles to join Lucky Creek to form Harris Creek which flows to North Fork Kougarak River, 5 miles NE of Harris Dome and 37 miles NW of Imurak Lake, Seward Peninsula Highlands; 65° 41' N, 164° 27' W; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Shasta, Mount: mountain, 4,100 ft., 1.7 miles NE of head of Shoup Bay and 11 miles NW of Valdez, Chugach Mountains; 61° 10' 05" N, 146° 33' 55" W; (map 68). Prospectors' name derived from Mount Shasta, in California; reported in 1911 by C. E. Giffin, USGS.

Shasta, Mount: mountain, see Jackknife Mountain.

Shatavanaktok River: stream, see Sagavanirktok River.

Shaviovia River: stream, see Shaviovik River.

Shaviovik Mound: pingo, elev. 80 ft., on Beaufort Sea coast, 5 miles inland, SW of Tigvarvak Island and W of Shaviovik River, Arctic Plain; 70° 08' N, 147° 29' W; (map 150). Named and used as a triangulation station by Leffingwell (1919, p. 41) in 1911.

Shaviovik River: stream, heads at 69° 14' N, 147° 00' W, flows NE 75 miles to Beaufort Sea between Foggy Island and Mikkelsen Bay, Arctic Plain; 70° 12' 20" N, 147° 16' 30" W; BGN 1959; (map 150). Variant: Savaovik River, Saviovic River, Saviovik River, Savitovik River, Shavioia River, West Fork Shaviovik River. Eskimo name meaning "place where there is iron"; reported in 1901 as "Saviovic" by S. J. Marsh, prospector.

Shaviovik River: stream, see Juniper Creek.

Shavugavik Point: point of land, see Bullen Point.

Shaw Bay: bay, see Urilia Bay.

Shaw Creek Flats: flats, extend WSW 18 miles, along Shaw Creek from Gilles Creek to Tanana River, 5 miles N of Big Delta, Tanana Lowland; 64° 15' N, 146° 00' W; (map 101). Local name published in 1951 by USGS.

Shaw Creek locality, on left bank of Shaw Creek at its junction with Tanana River, 11 miles NW of Big Delta, Tanana Lowland; 64° 15' 40" N, 146° 06' 30" W; (map 101). Roadhouse reported by the Alaska Road Commission in 1932.

Shaw Creek: stream, flows SE 5 miles to Kinegnak River, 5 miles SE of Kemuk Mountain and 26 miles NE of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 51' 15" N, 161° 34' 45" W; BGN 1938; (map 39). Local name reported in 1938 by J. B. Mertie and Gerald FitzGerald, USGS.

Shaw Creek: stream, heads at 64° 29' N, 145° 05' W, flows SW 40 miles to Tanana River, 11 miles NW of Big Delta, Tanana Lowland; 64° 15' 40" N, 146° 06' 30" W; (map 101). Variant: Debetendig, Thompson Creek. In 1902 Lt. G. S. Gibbs, USA called this stream Thompson Creek, but in 1904 L. M. Prindle, USGS, reported that the miners called it Shaw Creek. Its Indian name was "Debetendig" according to J. T. Geoghegan in 1904.

Shaw Island: island, 0.6 miles long, in Cook Inlet, at head of Alaska Peninsula, in Katmai National Monument, Aleutian Range; 59° 00' 15" N, 153° 23' 00" W; BGN 1906; (map 51). Variant: Ostrov Kamyshak, Ostrov Shunakhtuli, Schaws Insel, Shaws Island, Schunachtuli Island, Shunaktuli Island. Named in 1794 "Straw's Island" by Capt. George Vancouver. "Shown on Vancouver's Chart [of 1798] but not mentioned in the text" (Wagner, 1937, p. 416). Native name was published in 1847 as "Ostrov Shunakhtuli" on Russian Hydrog. Dept. Chart 1378; named "O[strov] Kamyshak" in 1849 by Capt. Tebenkov (1852, map 5), IRN.

Shaw Islands: islands, 0.6 miles across, at mouth of Idaho Inlet, on N coast of Chichagof Island, 2.4 miles SE of Lacy Cove, Alexander Archipelago; 58° 12' 10" N, 136° 14' 20" W; (map 10). Named by E. F. Dickins, USC&GS, probably for E. V. Shaw, a member of his party in 1902. The name was published on Chart 8304 in 1904.

Shaw, Cape: point of land, E tip of Atka Island, Aleutian Islands; 52° 18' N, 174° 00' W; (map 19). Listed in the 1944 USC&GS Aleutian Coast Pilot (p. 91).

Shaw-a-gan: locality, see Sukkwan.

Shaws Island: island, see Shaw Island.

Shayak Island: island, see Hog Island.

She Beaver: stream, see Beaver Slough.

She-kluck-she-uck: stream, see Pick River.

She-sur-are-lick: locality, see Sheshalik.

Shea Creek: stream, flows NW 0.7 miles to Birch Creek which flows to Big Four Creek, 21 miles NE of Solomon, Seward Peninsula Highlands; 64° 50' N, 164° 08' W; (map 95). Prospectors' name reported on a 1902 prospectors' manuscript map.

Shea Roadhouse: locality, on Bering Sea coast, at mouth of Feather River, 37 miles NW of Nome, Seward Peninsula Highlands; 64° 51' N, 166° 24' W; (map 94). Site of a roadhouse reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Shearwater Bay: bay, extends NE 3 miles, off Kiliuda Bay, on SE coast of Kodiak Island; 57° 20' N, 152° 55' W; (map 34). Descriptive name given by USC&GS in 1904, "probably owing to the abundance of one or more of the many species of waterfowl to which the name is applied." The name probably refers to the slender-billed Shearwater, *Puffinus tenuirostris*.

Shearwater Point: point of land, on N shore of Kiliuda Bay, at mouth of Shearwater Bay, on SE coast of Kodiak Island; 57° 20' N, 152° 58' W; BGN 1933; (map 34). Named by USC&GS in 1933 for Shearwater Bay.

Sheba Mountain: mountain, 4,615 ft., 64 miles SW of Eagle, Yukon-Tanana Highlands; 64° 15' N, 142° 53' W; (map 102). Variant: Queen of Sheba Mountain. Local name shown on an 1899 fieldsheet by W. J. Peters, USGS.

Shed Mountain: mountain, 2,585 ft., on mainland between Nakat and Willard Inlets, Coast Mountains; 54° 54' 45" N, 130° 42' 00" W; (map 2). Named in 1883 by Lt. Comdr. H. E. Nichols, USN-.

Shedden, Point: point of land, on Chukchi Sea coast, entrance to Walakpa Bay, Arctic Plain; 71° 09' N, 157° 04' W; (map 153). Probably named by British naval officers engaged in the Franklin search expeditions, 1849-53, and first published on Brit. Adm. Chart 593. The name is not now used. (Baker, 1906).

Shee-gar-rik-puk: stream, see Squirrel River.

Shee-lee-lie-tok: stream, see Squirrel River.

Sheeleelictok: stream, see Squirrel River.

Sheenjek Lake: lake, 1.4 miles long, drains NE to Sheenjek River, 9.4 miles SW of Table Mountain and 45 miles NE of Arctic Village, Brooks Range; 68° 13' N, 143° 48' W; (map 137). Local name reported in 1956 by USGS.

Sheenjek River: stream, heads at 69° 00' N, 144° 00' W, flows S 200 miles to Porcupine River, 23 miles NE of Fort Yukon, Yukon Flats; 66° 44' 30" N, 144° 34' 30" W; (map 119). Variant: Salmon River. Indian name published in 1895 by USC&GS. J. H. Turner, USC&GS, in 1889 called it "Salmon," presumably a translation of the Indian name.

Sheep Bay: bay, 4.5 miles wide at N end of Orca Bay, 12 miles NW of Cordova, Chugach Mountains; 60° 38' N, 146° 04' W; (map 64). Variant: Ensenada de Menendez, Jackson Bay. Named in 1897 by Lt. Comdr. J. F. Moser, USN. This is probably the same bay called

“Ensenada de Menendez” by Don Salvador Fidalgo on June 8, 1790, when he took possession; named for Salvador Menendez Valdes, one of his officers.

Sheep Bay: bay, see Midway Bay.

Sheep Creek Basin: valley, 1 mile-long, on Sheep Creek, 0.7 miles N of Thane and 4 miles SE of Juneau, Coast Mountains; 58° 16' 15" N, 134° 19' 15" W; (map 11). Miners' name derived from Sheep Creek (DeArmond, 1957, p. 39).

Sheep Creek Divide: ridge, 3 miles long, extends NE from Mount Roberts, 5 miles E of Juneau, Coast Mountains; 58° 17' 30" N, 138° 18' 00" W; (map 11). Name used by miners; published by Spencer and Wright (1906, pl. 15), USGS.

Sheep Creek: stream, flows 3.3 miles S to Kuskulana River W of Clear Creek, 32 miles NW of McCarthy, Wrangell Mountains; 61° 34' N, 143° 50' W; (map 67). Local name reported in 1921 by F. H. Moffit, USGS.

Sheep Creek: stream, flows 3.6 miles SW to Young Creek, 4 miles W of Big Bend Lakes and 23 miles SE of McCarthy, St. Elias Mountains; 61° 13' 05" N, 142° 24' 45" W, (map 67). Local name obtained by USGS and published on maps since 1954.

Sheep Creek: stream, flows N 5 miles to White River, 46 miles NE of McCarthy, St. Elias Mountains; 61° 43' N, 141° 40' W; (map 67). Local name reported by Capps (1916, pl. 1), USGS.

Sheep Creek: stream, flows N 7 miles to join Moose Creek, 46 miles SE of Nenana, Alaska Range; 64° 01' N, 148° 12' W; (map 100). Named by prospectors; reported in 1906 by L. M. Prindle (in Brooks and others, 1907, pl. 4), USGS.

Sheep Creek: stream, flows NE 1.5 to Nenana River, 18 miles S of Healy, Alaska Range; 63° 47' 40" N, 148° 55' 20" W; (map 87). Local name reported in 1950 by USGS.

Sheep Creek: stream, flows NE 13 miles to Birch Creek, 37 miles SW of Circle, Yukon-Tanana Highlands; 65° 19' 30" N, 144° 31' 45" W; (map 104). Named by prospectors; reported in 1904 by D. C. Witherspoon, USGS.

Sheep Creek: stream, flows NE 3.6 miles to Gold Stream Creek, 3.8 miles NE of Ester Dome and 9 miles NW of Fairbanks, Yukon-Tanana Highlands; 64° 55' N, 147° 58' W; (map 100). Named by prospectors and shown on a manuscript map in 1905 by C. W. Joint.

Sheep Creek: stream, flows NE 7 miles to Tanana River, 14 miles W of Tanacross, Alaska Range; 63° 25' 30" N, 143° 48' 00" W; (map 85). Local name reported by USGS in 1964.

Sheep Creek: stream, flows NW 10 miles to Beaver Creek, 45 miles NE of Livengood, Yukon-Tanana Highlands; 65° 44' 15" N, 147° 06' 00" W; (map 105). Named by prospectors; published in 1906 by USGS.

Sheep Creek: stream, flows NW 4 miles to Middle Fork Koyukuk River, 1 mile S of mouth of Gold Creek and 37 miles W of Chandalar, Brooks Range; 67° 30' 10" N, 149° 52' 00" W;

(map 123). Prospectors' name obtained in 1909 by A. G. Maddren (in Brooks and others, 1910, pl. 7), USGS.

Sheep Creek: stream, flows NW 8 miles to Wood River, 40 miles NE of Healy, Alaska Range; 63° 59' 40" N, 147° 43' 10" W; (map 87). Prospectors' name shown on a 1910 fieldsheet by J. W. Bagley, USGS; published by Capps (1912, pl. 1), USGS.

Sheep Creek: stream, flows S 4.8 miles to Caribou Creek 53 miles NE of Palmer, Talkeetna Mountains; 61° 56' 15" N, 147° 40' 30" W; (map 69). Name used by local prospectors; reported in 1906 by T. G. Gerdine and R. H. Sargent, USGS.

Sheep Creek: stream, flows S 7.3 miles, W of Horace Mountain, to Robert Creek, 21 miles WNW of Chandalar, Brooks Range; 67° 38' N, 149° 11' W; (map 123). Variant: Spruce Creek. Name reported in 1931 by Marshall (1934, pl. 6).

Sheep Creek: stream, flows SW 14 miles to Copper River 20 miles NW of Cordova, Chugach Mountains; 60° 17' N, 144° 50' W; (map 64). Local name reported in 1905 by G. C. Martin (in Brooks and others, 1906, pl. 16), USGS.

Sheep Creek: stream, flows SW 4 miles to River Cove in Nikolski Bay, on S coast of Umnak Island, Aleutian Islands; 52° 57' 22" N, 168° 51' 05" W; (map 21). Name published by USC&GS in 1944 Aleutian Coast Pilot (p. 67).

Sheep Creek: stream, flows SW 6.5 miles, N of Gunsight Mountain, to John River, 9 miles S of mouth of Wolverine Creek and 54 miles W of Wiseman, Brooks Range; 67° 30' N, 152° 08' W; (map 124). Local name obtained in 1956 by USGS topographers.

Sheep Creek: stream, heads 14 miles S of Farewell Airport, flows NW 50 miles to Pitka Fork Middle Fork Kuskokwim River 15 miles SE of its junction with Middle Fork, 39 miles SE of McGrath, Kuskokwim Lowland; 62° 46' 30" N, 154° 29' 20" W; (map 80). Local name reported in 1940 by USGS.

Sheep Creek: stream, heads at glacier terminus in Nutzotin Mountains, flows N 13 miles to Chisana River, Alaska Range; 62° 17' 00" N, 141° 48' 45" W; (map 84). Local name reported by USGS in 1960.

Sheep Creek: stream, heads at glacier, flows NE 8 miles to Little Gerstle River, 35 miles SE of Delta Junction, Alaska Range; 63° 40' 25" N, 144° 38' 30" W; BGN 1937; (map 86). Local name reported on a 1927 manuscript map of the Endicott and Haley hunting expedition.

Sheep Creek: stream, heads at Sheep Glacier terminus, flows NE 4 miles to Boulder Creek, 18 miles SE of Chistochina, Wrangell Mountains; 62° 24' 00" N, 144° 14' 30" W; (map 83). Local name reported in 1959 by USGS. See Sheep Glacier.

Sheep Creek: stream, heads in a glacier, trends SE 5 miles to Lowe River, 0.5 miles SE of Wortmanns and 15 miles E of Valdez, Chugach Mountains; 61° 06' 15" N, 145° 48' 30" W, (map 68). Local name published in the 1950's by USGS.

Sheep Creek: stream, heads in glacier, flows mostly W 3 miles to Gastineau Channel at Thane, 4.5 miles SE of Juneau, Coast Mountains; 58° 15' 40" N, 134° 19' 30" W; (map 11). Named in 1880 by Joe Juneau and Richard Harris. "We went about four miles further south to another nice looking creek we named Sheep Creek as we killed several mountain sheep, hence the name." DeArmond, 1957, p. 39).

Sheep Creek: stream, heads in glacier, in Talkeetna Mountains, flows SW 40 miles to Sheep Creek Slough 1.8 miles N of its junction with Susitna River, Cook Inlet Lowland; 61° 59' 35" N, 150° 04' 00" W; BGN 1954; (map 70). Variant: Montana Creek. Name shown on 1916 railroad location manuscript map.

Sheep Creek: stream, heads in Teocalli Mountains, flows SE 8.5 miles to Happy River, Ptarmigan Valley, 100 miles SE of McGrath, Alaska Range; 60° 08' 30" N, 153° 02' 00" W; (map 80). Local name reported in 1931 by USGS.

Sheep Creek: stream, heads N of Alice Peak, flows N 2.5 miles to Kotsina River, 3.2 miles ESE of terminus of Long Glacier and 82 miles ENE of Valdez, Wrangell Mountains; 61° 42' 40" N, 144° 06' 15" W; (map 68). Prospectors' name reported in 1900 by T. G. Gerdine, USGS, (Baker, 1906). Local name published in the 1950's by USGS.

Sheep Creek: stream, heads on NE slope of Carbon Mountain, flows 3 miles to 1950 terminus of Bering Glacier, 4 miles E of Doughton Peak and 68 miles E of Cordova, Chugach Mountains; 60° 26' 20" N, 143° 46' 30" W; (map 65). Local name reported in 1905 by G. C. Martin, USGS.

Sheep Creek: stream, in Baird Mountains, flows SW 10 miles to Salmon River, 14 miles S of Kanaktok Mountain, 49 miles NE of Kiana, Brooks Range; 67° 38' N, 159° 48' W; (map 127). Local name reported in 1955 by the U.S. Army Corps of Engineers.

Sheep Creek: stream, on Kenai Peninsula, flows W 18 miles to NE end of Kachemak Bay, 24 miles NE of Homer, Chugach Mountains; 59° 47' 40" N, 150° 56' 30" W; (map 50). Name reported by R. W. Stone (in Moffit, 1906, pl. 3), USGS.

Sheep Creek: stream, see Sheep River.

Sheep Creek: stream, see Tatonduk River.

Sheep Creek: stream, see Trembley Creek.

Sheep Creek: stream, see Willow Creek.

Sheep Creek: village, see Thane.

Sheep Fork: stream, flows N 3 miles to Carlson Creek, 2.6 miles W of Sunny Cove and 8 miles E of Juneau, Coast Mountains; 58° 19' 15" N, 134° 12' 30" W; (map 11). Local name published in 1952 by USGS.

Sheep Glacier: glacier, heads at glacier on Mount Sanford and trends NW 5 miles to its 1959 terminus at head of Sheep Creek 19 miles SE of Chistochina, Wrangell Mountains; 62° 21' N,

144° 16' W; (map 83). Local name reported in 1959 by USGS. Probably named for the number of mountain sheep (*Ovis dalli*) in the area.

Sheep Gulch: ravine, extends 0.9 miles S to Rex Creek 3 miles NE of head of Chititu Creek and 16 miles SE of McCarthy, St. Elias Mountains; 61° 19' 27" N, 142° 30' 30" W; (map 67). Local name recorded in 1902 by G. W. Easterly of Valdez.

Sheep Gulch: ravine, extends N-S 2.5 miles on stream 0.4 miles N of its junction with Chichokna River, 84 miles NE of Valdez, Wrangell Mountains; 61° 57' 30" N, 144° 27' 00" W; (map 68). Local name published in the 1950's by USGS.

Sheep Island: island, 0.4 miles long, in Sitkalidak Strait, at mouth of Midway Bay, between Sitkalidak Island and SE coast of Kodiak Island; 57° 13' 00" N, 153° 14' 20" W; (map 34). Local name published in 1943 by USC&GS.

Sheep Island: island, 0.7 miles long, at head of Northeast Arm Uganik Bay, on N coast of Kodiak Island; 57° 43' 00" N, 153° 19' 30" W; (map 34). Local name published in 1943 by USC&GS.

Sheep Island: island, 1 3 miles long, near mouth of Wood River, 3 miles N of Dillingham, Bristol Bay Lowland; 59° 05' N, 158° 27' W; BGN 1932; (map 52). Local name written "Ke-ik-dok," or "Sheep Id." by H. C. Fassett, USBF, in 1910.

Sheep Island: island, 250 ft. across, in Galankin Islands, 1.5 miles S of Sitka, off W coast of Baranof Island, Alexander Archipelago; 57° 01' 48" N, 135° 19' 53" W; (map 9). Variant: Barani Island, Baranie Island, Ostrov Baraney. This is an 1882 translation by USC&GS of the name given in 1809 by the Russian navigator Ivan Vasiliev the first; reported by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Baraney."

Sheep Lake: lake, 0.4 miles across, W of Big Lake, on NE end of St. Paul Island, in Pribilof Islands; 57° 12' 20" N, 170° 12' 20" W; (map 38). Local name reported by Joseph Stanley-Brown, USGS, in 1891.

Sheep Lake: lake, 0.5 miles long, in Ptarmigan Valley, 0.4 miles N of junction of Sheep Creek and Happy River, 100 miles SE of McGrath, Alaska Range; 62° 09' N, 153° 02' W; (map 80). Local name obtained in 1958 by USGS.

Sheep Lake: lake, 0.6 miles long, on Kenai Peninsula, in Kenai Mountains 2.3 miles E of Arctic Lake and 48 miles SE of Kenai, Chugach Mountains; 60° 02' 10" N, 150° 22' 15" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Sheep Lake: lake, 1.2 miles long, at head of Goat Creek, 8 miles S of Tanada Lake, Wrangell Mountains; 62° 16' 00" N; 143° 22' 30" W; (map 84). Local name reported by USGS in 1960.

Sheep Mountain: mountain, 4,238 ft., 3 miles S of Olds Mountain and 1 mile E of Juneau, Coast Mountains; 58° 17' 30" N, 134° 18' 00" W; (map 11). Local name reported by W. J. Peters, USGS, and published in 1902. In the 1800's mountain goats, sometimes called sheep by the miners, frequented this area, hence the name (DeArmond, 1957, p. 39).

Sheep Mountain: mountain, 6,100 ft., 1.2 miles NNW of Alice Peak and 80 miles ENE of Valdez, Wrangell Mountains; 61° 40' 55" N, 144° 07' 50" W; (map 68). Local name reported by F. H. Moffit (in Brooks and others, 1915, pl. 5), USGS.

Sheep Mountain: mountain, 6,250 ft., on Kenai Peninsula along Seward Highway, between Victor Creek and Paradise Valley Trail, 16 miles NE of Seward, Chugach Mountains; 60° 20' 20" N, 149° 16' 00" W; BGN 1960; (map 63). Variant: Wolcot Mountain, Wolcott Mountain. Local name reported by Grant and Higgins (1910, pl. 2), USGS. "It received its name due to the fact that in the early days sheep could be seen on the side of the mountain at almost any time."

Sheep Mountain: mountain, 6,300 ft., extends NE 11 miles, along Glenn Highway, between Caribou Creek and Tahnetta Pass, 50 miles NE of Palmer, Talkeetna Mountains; 61° 50' N, 147° 31' W; (map 69). Local name reported in 1906 by Sidney Paige and Adolph Knopf (in Brooks and others, 1907, p. 116), USGS.

Sheep Mountain: peak, 3,325 ft., 21 miles SE of Mount Kelly, 51 miles N of Noatak, Brooks Range; 68° 18' 40" N, 162° 55' 40" W; BGN 1965; (map 130) Name proposed in 1965 by geologists of the B. P. Exploration Co. Inc., presumably referring to the Dall Sheep (*Ovis dalli dalli*).

Sheep Point: point of land, on N shore of Orca Bay, 10 miles NW of Cordova, Chugach Mountains; 60° 37' N, 146° 00' W; (map 64). Named in 1897 by Lt. Comdr. J. F. Moser, USN.

Sheep Point: point of land, see Otter Point.

Sheep River: stream, flows SW 4 miles to Sahlin Lagoon, 13 miles NW of Cordova, Chugach Mountains; 60° 43' N, 145° 54' W; (map 64). Name published in 1950 by USGS; derived from Sheep Bay to which the stream flows.

Sheep River: stream, heads at glacier, flows NW 41 miles to Talkeetna River, 11 miles NE of Talkeetna, Talkeetna Mountains; 62° 22' 25" N, 149° 47' 00" W; (map 82). Variant: Sheep Creek. Local name recorded in 1906 by T. G. Gerdine and R. H. Sargent, USGS, as "Sheep Creek."

Sheep Valley: ravine, extends 1.4 miles, at head of Young Creek, 19 miles NE of Palmer, Talkeetna Mountains, 61° 49' 30" N, 148° 43' 30" W; (map 69). Local name reported in 1952 by USGS.

Sheer-off-there Rock: islands, see Alargate Rocks.

Sheeshaldenskoi: locality, see Sisaguk.

Shefflin Creek: stream, see Schieffelin Creek.

Shefflin Creek: stream, see Schieffelin Creek.

Shekak Sound: water passage, see Hoonah Sound.

Shekesti, Mys: point of land, see Shekesti, Point.

Shekesti, Point: point of land, on W shore of Wrangell Harbor at Wrangell, N coast of Wrangell Island, Alexander Archipelago; 56° 27' 55" N, 132° 23' 00' W; (map 6). Variant: Mys Shekesti, Point Zhekiski. Named in 1834 by Capt. Lt. D. F. Zarembo, published in 1848 as "Mys Shekesti," or "Shekesti Cape," on Russian Hydrog. Dept. Chart 1396.

Sheklukshuk Range: mountain range, 1,500 ft., trends SE 44 miles from junction of Kugarak and Rabbit Rivers, 16 miles SW of Shungnak, Hogatza Highlands; 66° 40' N, 157° 30' W; (map 115). Eskimo name reported in 1901 by W. C. Mendenhall, USGS.

Sheldon Cove: cove, 0.2 miles across, in Donkey Bay, in NW part of Pybus Bay, on SE coast of Admiralty Island, Alexander Archipelago; 57° 20' N, 134° 09' W; (map 9). Local name reported in 1951 by USGS.

Sheldon Creek: stream, in Mount McKinley National Park, flows S and E 2.5 miles from Mount Sheldon to Toklat River, 13 miles NE of Eielson Visitor Center, Alaska Range; 63° 34' 45" N, 150° 02' 30" W; (map 88). Local name reported in 1954 by USGS.

Sheldon Point: point of land, on left bank of Kwemeluk Pass, 18 miles SW of Kwiguk, Yukon-Kuskokwim Delta; 62° 32' N, 164° 52' W; (map 77). Variant: Noona-mekrot, Nunamekrot. Locally named for "a man named Sheldon [cna], who had a saltry on the point." Its Eskimo name is "Nunamekrot," meaning "long land," according to USC&GS in 1952.

Sheldon Point: village, pop. 110, on Sheldon Point, 18 miles SW of Kwiguk, Yukon-Kuskokwim Delta, 62° 32' N, 164° 52' W; (map 77). Variant: Sheldons Point. Eskimo village named for the nearby point of land. Its population in 1950 was 43; not listed in prior censuses.

Sheldon, Mount: mountain, 5,670 ft., in Mount McKinley National Park, on W bank of Toklat River, 13 miles NNE of Eielson Visitor Center, Alaska Range; 63° 35' 30" N, 150° 07' 00" W; (map 88). Name shown on a 1916 fieldsheet by C. E. Giffin, USGS. Named for Charles Sheldon, 1867-1928, noted author and hunter-naturalist, who studied Dall sheep and other wildlife in the Mount McKinley area in 1906, 1907, and 1908. He was the prime figure in Mount McKinley's establishment as a National Park. See Mount McKinley National Park.

Sheldons Point: village, see Sheldon Point.

Shelekhovo, Lake: lake, see Iliamna Lake.

Shelekof, Lake: lake, see Iliamna Lake.

Shelf Creek: stream, on Granite Mountain, flows N 1 mile to Rhoads Creek, 18 miles SE of Delta Junction, Alaska Range; 63° 48' 12" N, 145° 25' 55" W; (map 86). Named between 1948 and 1955 by T. L. Pewe, USGS.

Shelikhoff Strait: water passage, see Shelikof Strait.

Shelikhova, Zaliv: bay, see Shelikof Bay.

Shelikof Bay: bay, 4.5 miles across, on W coast of Kruzof Island, Alexander Archipelago; 57° 08' N, 135° 49' W; BGN 1897; (map 9). Variant: Ensenada de Guadalupe, Port Mariy, Port Mary, Port Meri, Puerto de Guadalupe, Shelikoff Bay, Shelikova Gulf, Silk Bay, Zaliv Shelikhova. This feature was probably named in the 1850's by the Russian American Company for Grigori Ivanovich Shelikov, founder of the Russian American Company. The name is shown on a Russian American Company map of 1850 as "Port Meri ili Zal[iv] Shelikhova," meaning "Port Mary or Shelikov Bay." The name "Port Mary" was given in 1794 by Capt. George Vancouver, RN; "Ensenada de Guadalupe," i.e. "Guadalupe Entrance," on August 17, 1775, by Don Juan de la Bodega y Quadra (Wagner, 1937, p. 460). See Shelikof Strait.

Shelikof Island: island, 2 miles across, in Soda Bay, off W coast of Prince of Wales Island, Alexander Archipelago; 55° 15' 20" N, 133° 01' 15" W; (map 4). Named in 1928 by USFS for Grigori Ivanovich Shelikov, who established the first permanent Russian settlement in Alaska in 1784. See Shelikof Strait.

Shelikof Strait: water passage, 20 miles wide, extends SW 150 miles from Barren Islands between Alaska Peninsula and Kodiak Island, 57° 30' N, 155° 00' W; (map 35). Variant: Aliaskinskoi, Proliv Alyaskinskoy ili Shelikova, Canal de Flores, Chelekhoff Strait, Helikoff Strait, Ismaeloff Strait, Kenai Strait, Prolov Kenayskoy, Petrie's Strait, Prolov Shelekova, Shelikhoff Strait, Shelikoff Strait, Smokey Bay, Whitsuntide Bay. Named "P[roliv] Shelekova," or "Shelikov's Strait," by Ens. Vasiliev in 1831 or 1832 (Lutke, 1836, p. 274) for Grigori Ivanovich Shelikov, a Siberian shipbuilder and merchant. This feature was called Smokey Bay in 1778 by Capt. Cook (1785, v. 2, p. 385) RN. Capt. Meares (1790, pl. 11), named it "Petrie's Strait" in 1786 for William Petrie. The strait was called "Canal de Flores," or "strait of flowers," by D. A. Galiano (1802, map 3) and "Prol[iv] Kenayskoy," or "Kenai Strait," by Lt. Sarichev (1826, map 3), IRN. The Russian American Company called it "Proliv Alyaskinskoy ili Shelikova," "Alaska or Shelikov's Strait," in 1849. Shelikov (Bancroft, 1886, p. 182) "has justly been called the founder of the Russian colonies on this continent." He formed several partnerships in the fur trading business. They led to his expedition across the Pacific in 1783 to establish a permanent settlement in order to protect and further the interests of the fur hunters and traders. His expedition led to the first permanent Russian settlement of Alaska in 1784. He named the settlement after his ship, the Three Saints (Chevigny, 1965, p. 52-55).

Shelikoff Bay: bay, see Shelikof Bay.

Shelikoff Strait: water passage, see Shelikof Strait.

Shelikova Gulf: bay, see Shelikof Bay.

Shell Bay: bay, see Rakovoi Bay.

Shell Creek: stream, flows SE through Shell Lake, 12 miles to Skwentna River, 56 miles NW of Tyonek, Alaska Range; 61° 52' 30" N, 151° 25' 00" W; (map 70). Named in 1898 by Spurr (1900, map 6); USGS, for P. G. Shell who prospected in the region in 1887.

Shell Hills: hills, extend 10 miles along E bank of Shell Creek and Shell Lake, 57 miles NW of Tyonek, Alaska Range; 61° 57' 30" N, 151° 27' 00" W; (map 70). Named in 1898 by Spurr (1900, map 6), USGS, for P. G. Shell who prospected in the region in 1887.

Shell Island: island, see Mogilnoi Island.

Shell Mountain: mountain, 1,608 ft., on central Kruzof Island, 14 miles NW of Sitka, Alexander Archipelago; 57° 07' 30" N, 135° 41' 00" W; (map 9). Local name reported in 1951 by USGS.

Shellabarger Pass: pass, 3,300 ft., at head of Dillinger River, 86 miles NW of Talkeetna, Alaska Range; 62° 31' 30" N, 152° 47' 00" W; (map 81) Mountain climbers' name published in the late 1940's.

Shellman Creek: stream, flows SW 12 miles to North Fork Kuskokwim River, 57 miles NE of Medfra, Kilbuck-Kuskokwim Mountains, 63° 41' N, 153° 26' W; (map 89). Local name reported in 1958 by USGS.

Shellman River: stream, see Shelman Creek.

Shelman Creek: stream, flows SW 3 miles to Port Clarence at Teller Mission, 6 miles NW of Teller, Seward Peninsula Highlands; 65° 20' N, 166° 29' W; (map 111). Variant: Mission Creek, Schellman River, Shellman River. A "Schellman River" is shown in this area on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. Reported as "Mission Creek" in 1900 by T. G. Gerdine (in Brooks, 1901, pl. 17), USGS.

Shelockham, Lake: lake, see Shelokum, Lake.

Shelockum, Lake: lake, see Shelokum, Lake.

Shelokum, Lake: lake, on Cleveland Peninsula, NW of Bailey Bay, Alexander Archipelago; 55° 59' N, 131° 39' W; BGN 1923; (map 3). Variant: Lake Shelockham, Lake Shelockum. This is a Chinook word, meaning "looking-glass" or "mirror"; spelled "Shelockham" by G. H. Canfield (in Brooks and others, 1916, pl. 4), USGS.

Shelter Bay: bight, 3.4 miles wide, off Cook Inlet, on W shore of Fire Island, 12 miles SW of Anchorage, Cook Inlet Lowland; 61° 08' 45" N, 150° 15' 30" W; BGN 1916; (map 70). Local name published in 1916 by USC&GS.

Shelter Bay: estuary, at N end of Evans Island, extends N 2.5 miles to Knight Island Passage, 12 miles SE of Chenega, Chugach Mountains; 60° 08' N, 147° 57' W; (map 63). Local name reported in 1908 by U. S. Grant and D. F. Higgins (in Brooks and others, 1909, pl. 4), USGS.

Shelter Bay: lagoon, 0.7 miles across, on W coast of Hinchinbrook Island, 32 miles SW of Cordova, Chugach Mountains; 60° 26' N, 146° 39' W (map 64). Name published by USC&GS in 1900. Probably so named for the shelter the lagoon would provide for vessels during stormy weather.

Shelter Cove: cove, 0.1 miles wide, on W shore of Cook Inlet, 48 miles NW of Homer, Aleutian Range; 59° 53' 15" N, 152° 48' 15" W, (map 50). Local name reported by USGS or USC&GS in the 1940's.

Shelter Cove: cove, 0.4 miles wide, on Kenai Peninsula on S shore of Beauty Bay, 33 miles SE of Homer, Chugach Mountains; 59° 31' 45" N, 150° . 38' 00" W; BGN 1908; (map 50). Descriptive name given by USC&GS in 1908.

Shelter Cove: cove, 0.4 miles wide, on W shore of Carroll Inlet, on Revillagigedo Island, Alexander Archipelago; 55° 32' 20" N, 131° 20' 45" W; (map 3). Local name published in 1943 by USC&GS.

Shelter Cove: cove, 0.6 miles across, on E shore of Russell Fiord, 3.2 miles W of Mount Ruhamah and 19 miles NE of Yakutat, St. Elias Mountains 59° 43' 15" N, 139° 18' 05" W; (map 46). Variant: Russell Cove. Descriptive name given by Tarr (1909, p 18, pl. 37), USGS. He had previously named it Russell Cove in 1905 for Island C. Russell.

Shelter Cove: cove, 0.6 miles across, on SE coast of Igitkin Island, Aleutian Islands; 51° 58' 45" N, 175° 52' 30" W; BGN 1936; (map 18). Named by a member of U.S. Navy Aleutian Island Survey Expedition of 1934, and published by the USC&GS in the 1944 Aleutian Coast Pilot (p. 103).

Shelter Cove: cove, 1 mile across, on NW coast of Shelter Island, in Saginaw Channel, 1 mile S of North Pass and 20 miles NW of Juneau, Alexander Archipelago; 58° 27' N, 134° 54' W; (map 11). Local name derived from Shelter Island and published in 1962 by USGS.

Shelter Creek: stream, flows SE 5 miles to Shelter Cove, on W shore of Cook Inlet, 49 miles NW of Homer, Aleutian Range; 59° 53' 45" N, 152° 48' 45" W; (map 50). Local name reported and published by USGS in the 1950's.

Shelter Island: island, 9 miles long., trends NW between Favorite and Saginaw Channels, 0.6 miles SE of Lincoln Island and 15 miles NW of Juneau, Alexander Archipelago; 58° 26' N, 134° 52' W; (map 11). Named in 1869 by Comdr. R. W. Meade, USN, and published in the 1883 Coast Pilot (p. 173).

Shelter Lake: lake, 0.7 miles long, on Shelter Island, 2 miles SW of Shelter Cove and 18 miles NW of Juneau, Alexander Archipelago; 58° 25' 20" N, 134° 52' 30" W; (map 11). Local name derived from Shelter Island and published in 1962 by USGS.

Shelter Point: point of land, E tip of Killisnoo Island, off W coast of Admiralty Island, S of Killisnoo, 2.5 miles S of Angoon, Alexander Archipelago; 57° 28' 00" N, 134° 33' 50" W; (map 9). Descriptive name given by Comdr. R. W. Meade, USN; published in 1869 on Hydros. Chart 225. This name does not appear on recent maps.

Shelter Valley Glacier: glacier, trends 3 miles SW to Rohn Glacier, 4 miles N of Chimney Mountain and 28 miles NE of McCarthy, Wrangell Mountains; 61' 47' N, 142° 30' W; (map 67). Local name obtained by USGS and published on maps since 1954.

Shelton: locality, along right bank of Kuzitrin River, 45 miles E of Teller and 53 miles NE of Nome, Seward Peninsula Highlands; 65° 14' N, 164° 49' W; (map 110). Variant: Lanes Landing, Selton. The settlement of Lanes Landing was established about 1901 at the ford where the trail from Nome to the Kougatok gold mining region crossed the Kuzitrin River. The settlement was probably named for Charles D. Lane, who started building the Seward Peninsula Railroad at Nome in 1900 and completed it to here in 1906 (Cole, 1953, p. 13). In 1907 the Shelton Post Office was established here and the village picked up the name. Balcom (1965, p. 30) states that Shelton “was active from 1907 to 1918, the same year the post office was discontinued.

Shemya Island: island, 4 miles long, easternmost of Semichi Islands, Aleutian Islands; 52° 43' 20" N, 174° 07' 00" E; BGN 1938; (map 13). Variant: Saint Abraham, Saint Abram. Rev. Coxe (1787, p. 50) applied this name to the entire group of islands called “Semichi” by the Russians. The name has subsequently been reapplied to this particular island. According to Golder (1922, p. 202, 275) this may have been the island named “St. Abraham” on October 29, 1741 (O.S.), by Vitus Bering on the St. Peter. See Semichi Island.

Shemya Islands: islands, see Semichi Islands.

Shemya Pass: water passage, between Nizki and Shemya Islands, Semichi Islands, Aleutian Islands; 52° 43' 30" N, 173° 57' 30" E; (map 13). This name is derived from Shemya Island.

Shemya: locality, pop. 124, Shemya Island, (map 13). This name often appears in publications as a populated place on Shemya Island but, as far as can be determined, it is a name arbitrarily used to refer to the collective population of the island.

Shepard Creek: stream, flows E 0.7 miles to Nome River, 0.1 miles upstream from Basin Creek and 13 miles N of Nome, Seward Peninsula Highlands; 64° 41' N, 165° 19' W; (map 94). Variant: Upland Creek. Prospectors' name published on the 1900 “Map of Nome Peninsula” by J. M. Davidson and B. D. Blakeslee. This appears to be the “Upland Creek” shown in 1900 on USC&GS Chart 9380.

Shepard Creek: stream, see Sunset Creek.

Shepard Point: point of land, on NE shore of Orca Inlet, 3 miles SW of Rude River delta, 7 miles NE of Cordova, Chugach Mountains; 60° 38' N, 145° 40' W; BGN 1933; (map 64). Local name “for the salmon cannery there” reported by USC&GS in 1931.

Shepard Glacier: glacier, trends S 2.5 miles to its terminus 5 miles N of the terminus of Scott Glacier and 17 miles NE of Cordova, Chugach Mountains; 60° 41' N, 145° 21' W; (map 64). Local name reported in 1908 by U. S. Grant and D. F. Higgins (1910, pl. 2), USGS.

Shepherd Creek: stream, flows NE 14 miles to White Mountain Creek, 44 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 41' N, 154° 11' W; (map 89). Local name reported in 1954 by USGS.

Shepherd Creek: stream, flows S 9 miles to Bering Lake, 11 miles NE of Katalla, Chugach Mountains; 60° 17' N, 144° 16' W; (map 64). Local name published by the Norris Peters

Company on their 1911 map of southeastern part of Prince William Sound and the Bering River coal field.

Sherang Island: island, on Beaufort Sea coast, Arctic Plain; (map 151). Recorded on Surg. John Simpson's native map , 1855, as located at or near Flaxman Island The present location is not known.

Sheridan Creek: stream, flows SW 2.4 miles to Bear Creek, 25 miles N of Haycock, Seward Peninsula Highlands; 65° 35' N, 161° 07' W; (map 109). Local name shown on a 1903 fieldsheet by D. C. Witherspoon, USGS.

Sheridan Glacier: glacier, trends SW 15 miles to its terminus at Glacier River, 13 miles E of Cordova, Chugach Mountains; 60° 31' N, 145° 20' W; (map 64). Named in 1884 by Capt. Abercrombie (1900, map), USA, for Gen. Philip H. Sheridan, 1831-88, USA, of Civil War fame.

Sheridan Peak: mountain, 3,650 ft., on E coast of Lindenberg Peninsula, Kupreanof Island, 7 miles N of Petersburg, Alexander Archipelago; 56° 54' 40" N, 133° 01' 10" W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for Gen. Philip Henry Sheridan, USA.

Sherman Creek: stream, flows 3 miles NW to Comet, on E shore of Lynn Canal, 1 mile NE of Point Sherman and 47 miles NW of Juneau, Coast Mountains; 58° 52' 05" N, 135° 08' 25" W; (map 11). Local name derived from Point Sherman and reported in 1903 by A. C. Spencer (in Emmons and Hayes, 1904, p. 38), USGS.

Sherman Glacier: glacier, trends SW 6 miles to its terminus 1.5 miles E of Sheridan Glacier, 15 miles E of Cordova, Chugach Mountains; 60° 33' N, 145° 13' W; BGN 1930; (map 64). Named in 1910 by Lawrence Martin, USGS, for Gen. William Tecumseh Sherman, 1820-91, USA, Civil War general of the Union Army. He fought in many battles but is best known for his famous march from Atlanta to the sea. He was promoted to Commander of the USA in 1869. Martin's notes read "he (Sherman) said 'war is hell;' so I put him on ice, near the Sheridan Glacier."

Sherman Peak: mountain, 3,900 ft., 7 miles NW of Petersburg, on E coast of Lindenberg Peninsula, Kupreanof Island, Alexander Archipelago; 56° 53' 50" N, 133° 02' 40" W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for Gen. William Tecumseh Sherman, USA.

Sherman Rock: rock, off E shore of Lynn Canal 0.6 miles SW of Point Sherman and 46 miles NW of Juneau, Coast Mountains; 58° 50' 55" N, 135° 09' 35" W; (map 11). Named in 1890 by Lt. Comdr. H. B. Mansfield, USN, for Sherman Point and published by USC&GS in the 1891 Coast Pilot (p. 200).

Sherman, Point: point of land, on E shore of Lynn Canal, 0.6 miles SW of mouth of Sweeny Creek and 46 miles NW of Juneau, Coast Mountains; 58° 51' 20" N, 135° 09' 00" W; (map 11). Named in 1869 by Comdr. R. W. Meade, USN, for Gen. William Tecumseh Sherman, 1820-91, Civil War general. The name was published by USC&GS in the 1883 Coast Pilot (p. 195).

Sherman: railroad station, mile 258.3 on The Alaska Railroad, 29 miles NE of Talkeetna, Talkeetna Mountains; 62° 42' 50" N, 149° 48' 30" W; (map 82). Named about 1916; the station has been in use since the opening of the line.

Sherret Creek: stream, see Sherrette Creek.

Sherrett Creek: stream, see West Branch Sherrette Creek.

Sherrette Creek: stream, flows NW 9.4 miles to Pilgrim River, 57 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 02' N, 164° 37' W; (map 110). Variant: Cupel Creek, Killkuhn Creek, Sherret Creek. Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS. Reported in 1900 as "Killkuhn Creek" by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Sheshalegamute: locality, see Sheshalik.

Sheshalek: locality, see Sheshalik.

Sheshalik Spit: spit, on N shore of Kotzebue Sound, 9 miles NW of Kotzebue, Kotzebue-Kobuk Lowland; 67° 00' N, 162° 51' W, (map 128). Variant: Shesualek Spit. Named for the Eskimo camp located on the spit; reported in 1925 by USC&GS.

Sheshalik: locality, on Sheshalik Spit, 9 miles NW of Kotzebue, Kotzebue-Kobuk Lowland; 66° 59' 30" N, 162° 49' 45" W; (map 113). Variant: Sesualik, Sheshalegamute, Sheshalek, She-shoalik, Sheshore-lik, Shesualek, She-sur-are-lick, Shishaluk. Former Eskimo village and summer camp, famous as a trading area for Eskimo and Indian, recorded as "Sesualik," in Capt. F. W. Beechey's chart, dated 1831. In the 1880 Census, Petroff (1884, p. 4) listed "Sheshalegamute," population 100. Capt. Hooper (1881, p. 44) published "She-shore-lik," and Lt. G. M. Stoney's manuscript map, dated 1883, shows "She-sur-are-lick."

Sheshoalik: locality, see Sheshalik.

Sheshok Creek: stream, flows S 5 miles to Kobuk River, 8 miles NW of Shungnak, Kotzebue-Kobuk Lowland; 66° 55' N, 157° 20' W; (map 115). Eskimo name reported in 1954 by the U.S. Army Corps of Engineers.

Sheshore-lik: locality, see Sheshalik.

Shesrghoyemena: lake, see Thirtyeight Mile Lake.

Shesualek Spit: spit, see Sheshalik Spit.

Shesualek: locality, see Sheshalik.

Shetchaut: stream, see Ray River.

Shetnak: locality, see Chitnak.

Shevenagamute: locality, see Shevenak.

Shevenak: locality, on left bank of Kuskokwim River, at or near Eek Point, Yukon-Kuskokwim Delta; 60° 12' N, 162° 15' W; (map 58). Variant: Shevenagamute, Shovenagamiut, Shovenagamute. Former Eskimo village or camp reported in 1878-79 as "Shevenagamute" by E. W. Nelson, U.S. Signal Service. This spelling was shown on the 1880 Census map, but published "Shovenagamute," population 58, in Petroff's text (1884, p. 17). The 1890 Census lists "Shovenagamiut," population 62.

Shevlin Creek: stream, see Schieffelin Creek.

Shi: island, see Baranof Island.

Shiekuk Creek: stream, flows W 3 miles to Bering Sea, 10 miles SW of Savoonga, N coast of St. Lawrence Island; 63° 38' N, 170° 45' W; BGN 1951; (map 93). Eskimo name recommended by the Savoonga village council and reported in 1949 by Maj. H. B. Allen, USAF.

Shield: locality, on Kenai Peninsula, 1 mile N of Lower Summit Lake and 15 miles S of Sunrise, Chugach Mountains; 60° 40' 45" N, 149° 28' 35" W; (map 63). Former mining community along Canyon Creek. Recent USGS maps indicate a site with three buildings.

Shields Point: point of land, on E shore of Perenosa Bay, on N coast of Afognak Island, N of Kodiak Island; 58° 25' 20" N, 152° 21' 20" W; BGN 1934; (map 43). Named by USC&GS in 1932 for the Englishman, James Shields, builder and first master of the vessel Phoenix. See Phoenix Bay.

Shiels Glacier: glacier, trends NE 2 miles to its terminus 2.5 miles W of Copper River, 50 miles N of Katalla, Chugach Mountains; 60° 53' N, 144° 44' W; BGN 1930; (map 64). Named in 1914 by Lawrence Martin for Archie Shields [sic] of the Copper River and Northwestern Railroad.

Shiganik, Ostrov: island, see Wingham Island.

Shikat Point: point of land, N tip of Tuxekan Island, 31 miles N of Craig, Alexander Archipelago; 55° 54' 50" N, 133° 17' 20" W; (map 4). Indian name published in 1964 by USC&GS.

Shikene River: stream, see Stikine River.

Shikosi Island: island, 0.8 miles across, in Chilkat Islands, in Lynn Canal, 0.6 miles S of Anyaka Island and 29 miles S of Skagway, Coast Mountains; 59° 01' 45" N, 135° 16' 00" W; (map 45). Tlingit Indian name published in 1923 on IBC Sheet 9 (1951 atlas).

Shiliak Creek: stream, flows SW 15 miles to Little Noatak Slough, 15 miles NE of Kotzebue, Kotzebue-Kobuk Lowland; 67° 03' N, 162° 14' W; (map 128). Eskimo name meaning "store room" obtained at Kotzebue in 1956 by Orth. So called because a cabin used for storage was located here.

Shiltonotno, Reka: stream, see Innoko River.

Shin-i-a-ga-mut: locality, see Shiniak.

Shin-i-a-ga-mut: locality, see Shinyagamute.

Shinacoo Inlet: water passage, see Shinaku Inlet.

Shinagrua: locality, on Beaufort Sea coast, W of Flaxman Island, Arctic Plain; (map 151). Variant: Shiningrua. Recorded as “Shiningrua” on Surg. John Simpson's native map, 1855. Published in 1862 as “Shinagrua” on USC&GS Chart 20.

Shinaku Creek: stream, flows SW 7 miles to Shinaku Inlet on W coast of Prince of Wales Island, 10 miles N of Craig, Alexander Archipelago, 55° 36' 30" N, 133° 09' 00" W; BGN 1963; (map 4). Indian name reported in 1961 by USFS.

Shinaku Inlet: water passage, extends NE 4 miles Off San Alberto Bay, between Prince of Wales and Wadleigh Islands, Alexander Archipelago; BGN 1928; (map 4). Variant: Shinacoo Inlet. Indian name given in 1925 by USGS.

Shindata Creek: stream, flows W 10 miles to Tok River 16 miles NW of junction of Little Tok River and 26 miles SW of Tok, Alaska Range; 63° 12' N, 143° 47' W; BGN 1936; (map 85). Variant: Shindata River. Indian name reported by USGS in 1936.

Shindata River: stream, see Shindata Creek.

Shine Creek: stream, flows NE 1.4 miles to Buster Bay, on N coast of Prince of Wales Island, Alexander Archipelago; 56° 19' 35" N, 133° 26' 30" W; (map 6). Local name recorded in 1949 by USGS.

Shineyagamut: locality, see Shiniak.

Shineyagamut: locality, see Shinyagamute.

Shineyagamute: locality, see Shiniak.

Shineyagamute: locality, see Shinyagamute.

Shingle Island: island, 0.1 miles long, at mouth of Totem Bay, on S coast of Kupreanof Island, Alexander Archipelago; 56° 26' 20" N, 133° 23' 30" W; (map 6). Named in 1886 by Lt. J. M. Helm, USN, for charting purposes; published in 1887 on USC&GS Chart 706.

Shingle Point: point of land, on E shore of Herendeen Bay 16 miles SW of village of Port Moller, on Alaska Peninsula, Bristol Bay Lowland; 55° 47' N, 160° 45' W; (map 28). Named in 1890 by Lt. Comdr. Z.-L. Tanner, USN.

Shingnek River: stream, see Shungnak River.

Shiniagmiut: locality, see Shiniak.

Shiniagmiut: locality, see Shinyagamute.

Shiniak: locality, on E shore of Kuskokwim Bay N of Kanektok River, 50 miles NW of Good news, Yukon-Kuskokwim Delta; 59° 48' N, 161° 57' W; (map 53). Variant: Mission Warehouse, Shineyagamute, Shineyagamut, Shiniagmiut, Shin-i-a-ga-mut, Shinyagamiut, Shinyagamute. Former Eskimo village reported as "Shiniagmiut," meaning "Shiniak people," by Lt. Sarichev (1826, map), IRN. Recorded as "Shineyagamute" by Ivan Petroff in the 1880 U.S. Census. Its population in 1880 was 40; in 1890, 7. The Moravian missionaries had a warehouse here in 1910, which appeared on some maps as "Mission Warehouse."

Shiniliaok Creek: stream, flows NE 16 miles to Selawik River, 29 miles S of Shungnak, Hogatza Highlands; 66° 29' N, 156° 53' W; (map 115). Eskimo name shown on a 1927 manuscript map by the "trader at Selawik."

Shinilikrok Creek: stream, flows NE 10 miles to Selawik River, 29 miles SW of Shungnak Hogatza Highlands; 66° 29' N, 157° 25' W; (map 115). Eskimo name shown on a 1927 manuscript map by the "trader at Selawik."

Shining Creek: stream, flows NE to Big Four Creek which flows to Casadepaga River, about 2 miles NW of Birch Creek and 17 miles NE of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name reported on a prospector's manuscript map dated 1902. This stream cannot be precisely located on Current maps.

Shining Dome: hill, 500 ft., W of Spein Mountain, 43 miles SE of Bethel, Kilbuck-Kuskokwim Mountains 60° 34' N, 160° 35' W; (map 59). Local descriptive name, reported in 1955 by J. M. Hoare, USGS.

Shiningarok: barrier island, see Martin Island.

Shiningrua: locality, see Shinagrua.

Shinnapago: locality, at Port Clarence, Seward Peninsula Highlands; 65° 10' N, 166° 07' W; (map 111). Former Eskimo village or camp reported in the 1890 Census (1893, p. 162). This may have been at or near the old village of Bering.

Shinningellichshunga Creek: stream, see Sleepy Creek.

Shinyagamiut: locality, see Shiniak.

Shinyagamiut: locality, see Shinyagamute.

Shinyagamute: locality, see Shiniak.

Ship Channel: channel, 17 miles long, in Nushagak Bay, E of Long Sands shoal, 16 miles S of Dillingham, Bristol Bay Lowland; 58° 33' N, 158° 25' W; (map 40). Local name reported in 1950 by USC&GS. These channels are constantly changing in location, width, and depth.

Ship Cove: bay, 0.3 miles long, on S shore of Port Conclusion, Baranof Island, 0.7 miles NW of village of Port Alexander, Alexander Archipelago; 56° 15' 20" N, 134° 39' 45" W; (map 5).

Named by Capt. George Vancouver, RN “during his stay in Port Conclusion between August 1 and 22, 1794” (Wagner, 1937, p. 416).

Ship Creek: city, see Anchorage.

Ship Creek: stream, heads in a lake in Chugach Mountains, flows NW 11 miles to Knik Arm at Anchorage, Cook Inlet Lowland; 61° 13' 36" N, 149° 53' 45" W; BGN 1959; (map 69). Variant: Woodrow Creek. Local name reported in 1906 by Paige and Knopf (1907, pl. 1), USGS.

Ship Creek: stream, heads in Kenai Mountains, flows NE 4 miles to Kenai Lake, 20 miles N of Seward, Chugach Mountains; 60° 23' 30" N, 149° 30' 40" W; (map 63). Local name reported in 1951 by USGS.

Ship Island Passage: water passage, extends SE 2 miles from Kassa Point, between SW coast of Prince of Wales Island and Ship Island, Alexander Archipelago; 54° 54' 30" N, 132° 31' 15" W; (map 1). Local name reported in 1951 by USGS.

Ship Island: island, 0.5 miles long, in Cordova Bay, 1.2 miles S of Kassa Point, on SW coast of Prince of Wales Island, Alexander Archipelago; 54° 54' 10" N, 132° 31' 30" W; (map 1). Local name reported in 1951 by USGS.

Ship Island: island, 200 ft. long, in Clarence Strait, on SW coast of Cleveland Peninsula, Alexander Archipelago; 55° 35' 58" N, 132° 12' 05" W; (map 4). Named in 1880 by Baker (1906, p. 570), USGS, “on account of its appearance from the south * * *.”

Ship Island: island, at N of end Prince of Wales Passage, off E coast of Flemming Island, 9 miles SE of Chenega, Chugach Mountains; 60° 09' 45" N, 148° 00' 20" W; (map 63). Local name reported in 1951 by USGS.

Ship Island: island, see Error Island.

Ship Island: island, see Labouchere Island.

Ship Island: island, see Sail Island.

Ship Mountain: mountain, 2,525 ft., on Alaska Peninsula at SW end of Castle Cape, 11 miles S of Chignik, Aleutian Range; 56° 08' N, 158° 21' W, (map 30). Variant: Prospect Head. This feature was originally called “Prospect Head” in 1916 by USC&GS Coast Pilot (p. 161), “Ship Mountain” was the name given in 1923 by R. H. Sargent, USGS, “because it looks like the prow of a ship.”

Ship Rock: island, 500 yds. long, off NE coast of Umnak Island in Umnak Pass, 2 miles S of Pustoi Island and 15 miles SE of Fort Glenn, Aleutian Islands; 53° 22' 30" N, 167° 49' 50" W; (map 23). Variant: Karablin, Tanghinakh, Tanginak. Translation from the Russian “K[amen] Korabl” (Tebenkov, 1852, map 25, dated 1849). Capt. Lutke (1836, p. 302) calls it “Tanghinakh,” possibly from the Aleut word “tangidak,” which according to R. H. Geoghegan, means “islet or small island,” a name which also applies to Pustoi Island. Although Ship Rock is surrounded by treacherous riptides and currents that make boat landings almost

impossible, Hrdlicka (1945, p. 182, 323-329), Smithsonian Institution, excavated here in 1937. He found mummified remains of the “pre-Aleut * * *” which had not been disturbed and showed “no trace of White man's influence * * *.”

Ship Rock: rock, off SW coast of Sitkalidak Island, 18 miles NE of Kaguyak, on SE coast of Kodiak Island; 57° 09' 00" N, 153° 02' 30" W; BGN 1932; (map 33). Named in 1931 by USC&GS “because the rock appears as a vessel from a distance when seen against the horizon.”

Ship Rock: rock, on N central Kanaga Island, Aleutian Islands; 51° 46' 15" N, 177° 22' 20" W; (map 17). Descriptive name published by USC&GS in the 1944 Aleutian Coast Pilot (p. 116).

Shipinskaia River: stream, see Sturgeon River.

Shiple Bay: bay, extends W 5 miles to Sumner Strait, on NW coast of Kosciusko Island, Alexander Archipelago, 56° 06' N, 133° 38' W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow, USN, for Ens. John Harry Shipley, USN, a member of his party.

Shiple Lake: lake, 2 miles long, at head of Shipley Bay, on N coast of Kosciusko Island, Alexander Archipelago; 56° 05' 30" N, 133° 27' 00" W; (map 6). Local name recorded in 1949 by USGS.

Shipwreck Point: point of land, 2 miles SE of Kassa Point, on SW coast of Prince of Wales Island, Alexander Archipelago; 54° 53' 45" N, 132° 29' 30" W; (map 1). Local name published by USC&GS in 1911.

Shipyard Bay: bight, on Hawkins Island, on shore of Orca Inlet, 2 miles NW of Cordova, Chugach Mountains; 60° 34' 20" N, 145° 48' 00" W; BGN 1961; (map 64). Local name reported in 1960 by USFS.

Shipyard Cove: cove, on E shore of Yakutat Roads, 0.7 miles W of Puget Cove and 1 mile N of Yakutat, Malaspina Coastal Plain, 59° 33' 50" N, 139° 44' 20" W; (map 46). Local name published in 1959 by USGS.

Shiripof: point of land, see Izhut, Cape.

Shirley Lake: lake, 0.8 miles long, 2 miles NW of junction of Happy and Skwentna Rivers, 76 miles NW of Tyonek, Alaska Range; 61° 59' 40" N 152° 24' 20" W; (map 70). Local name reported in 1958 by USGS.

Shirokaia: bight, see Broad Bay.

Shirrtail Point: point of land, on NE tip of Hinchinbrook Island, 15 miles SW of Cordova, Chugach Mountains; 60° 26' N, 146° 07' W; (map 64). Local name published in 1959 by USGS.

Shirukak Lake: lake, 1.5 miles across, between Colville and Itkillik Rivers, 33 miles NE of Umiat, Arctic Plain, 69° 43' N, 151° 07' W; (map 141). Eskimo name reported in 1956 by T. E. Taylor, USGS. It may mean “ice house [sirukak].”

Shisaldinskoe: locality, see Sisaguk.

Shishakshinovik Pass: pass, 3,050 ft., in Schwatka Mountains, 4 miles S of Blind Pass Mountain, Brooks Range; 67° 27' N, 156° 20' W; (map 126). Eskimo name generally meaning “place where some were caught in a snow slide,” obtained at Kobuk by Orth in 1956.

Shishaldin Volcano: volcano, 9,372 ft., on Unimak Island, Aleutian Islands; 54° 45' 20" N, 163° 58' 15" W; (map 25). Variant: Agajedan, Chichaldinskoi, Shushaldinskaia, Sisaguk, Sopka Shishaldinskaya, Volcan de Fernandez. Transliteration by USBF in 1888 of “So[pka] Shishaldinskaya,” published by Capt. Tebenkov (1852, map 24), IRN. Active volcano seen and reported in 1790 by Capt. G. A. Sarichev “who gives, according to Grewingk, Agajedan as its native name” (Baker, 1906, p. 571). Wagner (1937, p. 453) wrote that it was named Volcan de Fernandez, by Martinez for, as he said, his second surname.

Shishaldin: locality, see Sisaguk.

Shishaldinskaya, Sopka: mountain, see Shishaldin Volcano.

Shishaldinski: locality, see Sisaguk.

Shishaluk: locality, see Sheshalik.

Shishkin, Cape: point of land, on NW shore of Lake Clark, 18 miles NE of Nondalton, Alaska Range; 60° 11' N, 154° 27' W; (map 61). Named in 1891 by A. B. Schantz for Innokente Shishkin, a Russian, who assisted Schantz in gathering census information for the 11th Census in 1890 (U.S. Bureau of the Census, 1893, p. 94).

Shishkof Pond: lagoon, 1.5 miles across, NE of Cave Point, on NW coast of Unimak Island, Aleutian Islands; 54° 48' N, 164° 35' W; BGN 1943; (map 24). Variant: Big Pond. Named by USC&GS in 1940, for the former “Russian name for Cave Point-Shishkof Point.”

Shishkova Mys: point of land, see Cave Point.

Shishmaref Inlet: bay, extends SW 17 miles from Sarichef Island, at mouth of Serpentine River, Kotzebue-Kobuk Lowland; 66° 15' N, 166° 05' W (map 112). Variant: Chichmareff Inlet, Schischmareff Bay, Shishmarej Sound, Shishmaret Inlet. Named in August 1816, by Lt. Otto von Kotzebue, IRN, for Capt. Lt. Glieb Semenovich Shishmarev, IRN, who accompanied him on his exploration.

Shishmaref, Cape: point of land, see Northeast Cape.

Shishmaref: village, pop. 217, on Sarichef Island between Chukchi Sea and Shishmaref Inlet, Kotzebue-Kobuk Lowland; 66° 15' N, 166° 04' W; BGN 1944; (map 112). Eskimo village named for the inlet. Shishmaref post office was established here in 1901. The village was probably founded about 1900 because of a fairly good harbor that served as a supply center for mining activity to the south.

Shishmarej Sound: bay, see Shishmaref Inlet.

Shishmaret Inlet: bay, see Shishmaref Inlet.

Shishmarev, Cape: point of land, see Northeast Cape.

Shisloiso Hills: ridge, elev. 990 ft., extends NE 2 miles from Lake Snohomish, 6.5 miles SW of village of Lake Minchumina, Tanana Lowland; 63° 46' 30" N, 152° 28' 00" W; (map 88). Variant: Shiss-loy-so. Tanana Indian name obtained in 1899 by Lt. J. S. Herron, USA, and written "Shiss-loy-so." The name probably refers to "bear" in meaning.

Shisnona Creek: stream, see Shisnona River.

Shisnona Lake: lake, 1 mile long, 8.5 miles WNW of Carey Lake and 36 miles SSW of village of Lake Minchumina, Kuskokwim Lowland; 63° 26' N, 152° 54' W; (map 88). Local name reported about 1952 by Fabian Carey.

Shisnona River: stream, flows NW 15 miles to Chedotlothna River, Kuskokwim Lowland; 63° 19' N, 152° 39' W, (map 88). Variant: Shisnona Creek, Shissnona River. Indian name reported as Shissnona in 1899 by Lt. J. S. Herron, USA.

Shiss-loy-so: hills, see Shisloiso Hills.

Shissnona River: stream, see Shisnona River.

Shitando River: stream, see Fortymile River.

Shitka Bay: water passage, see Sitka Sound.

Shitna Creek: stream, see Chitna Creek.

Shitnak: locality, see Chitnak.

Shitnak: point of land, see Siknik Cape.

Shittok: locality, see Skittok.

Shivering Mountain: mountain, 5,425 ft., in Endicott Mountains, 11 miles E of Survey Pass Brooks Range; 67° 53' N, 153° 42' W; (map 125). Named by Robert Marshall in 1931 because of the cold wind encountered while climbing it.

Shivishak River: stream, see Sevisok Slough.

Shivishuk River: stream, see Sevisok Slough.

Shivugak Bluff: bluff, elev. 700 ft., on N bank of Colville River 3 miles W of its junction with Chandler River, Arctic Slope; 69° 26' N, 151° 42' W; (map 141). Eskimo name [shivugak] that refers to the bluff as being "first"; reported in 1956 by T. E. Taylor, USGS.

Shiyi Bay: cove, 0.5 miles across, S of Portage Cove, 17 miles S of Skagway, Coast Mountains; 59° 13' 30" N, 135° 25' 45" W; (map 45). Indian name published by the IBC (1923, sheet 9). According to E. C. Robertson, USGS, "the name is now rarely used."

Shkagway River: stream, see Skagway River.

Shkagway: village, see Skagway.

Shkaliakh: point of land, see Thatcher, Point.

Shkin, Ostrov: island, see Skin Island.

Shla-hatch Island: island, see Pyramid Island.

Shlokovik Cape: point of land, see Shlokovik Point.

Shlokovik Point: point of land, 19 miles S of Gambell, W coast of St. Lawrence Island; 63° 34' N, 171° 50' W; BGN 1951; (map 93). Variant: Cape Lhookoovik, Lhookoovik Cape, Sarihkahuk Cape, Shlokovik Cape. Eskimo name reported in 1932 by O. W. Geist, Univ. of Alaska, as "Lhookoovik." Orth was told at Gambell in 1965 that the name "Shlokovik" means "place where sling is used [for getting birds]."

Shnu Creek: stream, see Sinona Creek.

Shoal Bay: bay, 1 mile across, on NW coast of Little Koniuji Island, in Shumagin Islands, Aleutian Range; 55° 03' 20" N, 159° 27' 00" W; (map 27). Named by W. H. Dall, USC&GS, in 1874 and published on Coast Chart 810.

Shoal Bay: cove, near entrance to Sanborn Harbor, on NW coast of Nagai Island, Shumagin Islands, Aleutian Range; 55° 10' 20" N, 160° 02' 10" W; (map 28). Named by W. H. Dall, USC&GS, in 1872, and published on USC&GS Chart 813.

Shoal Bay: lagoon, off W coast of Cape Etolin, E of Mekoryuk and 27 miles SW of Cape Vancouver, on Nunivak Island; 60° 23' 20" N, 166° 10' 46" W; (map 57). Name reported about 1908 by USC&GS.

Shoal Cape: point of land, see Otmeloi Point.

Shoal Cape: point of land, see Shoal Point.

Shoal Cove: cove, see Flat Cove.

Shoal Cove: estuary, on Revillagigedo Island, extends N 1.1 miles, off Carroll Inlet, NE of Osten Island, Alexander Archipelago; 55° 25' 50" N, 131° 17' 15" W; (map 3) Local navigators' descriptive name reported in 1904 by H. C. Fassett, USBF.

Shoal Creek: stream, flows SW 1 mile to Telegram Creek, in Pilgrim River basin, 22 miles NW of Solomon, Seward Peninsula Highlands; 64° 52' 15" N, 164° 36' 30" W; (map 95).

Prospectors' name reported in 1908 by P. S. Smith (in Brooks and others, 1909, pl. 10), USGS.

Shoal Creek: stream, on Revillagigedo Island, flows NW 0.8 miles to Shoal Cove on E side of Carroll Inlet, Alexander Archipelago; 55° 26' 18" N, 131° 16' 30" W; BGN 1923; (map 3). Named in 1923 by USFS.

Shoal Point: point of land, in Sergius Narrows, at W end of Peril Strait, 24 miles SE of Chichagof, Chichagof Island, Alexander Archipelago; 57° 24' 45" N, 135° 37' 15" W; (map 9). Named in 1884 by Comdr. J. B. Coghlan, USN; published by USC&GS in 1891 Coast Pilot (p. 182).

Shoal Point: point of land, on NE coast of Kanaga Island, Aleutian Islands; 51° 51' 45" N, 177° 04' 00" W; BGN 1936; (map 17). Variant: Sharp Point. Name given by members of the U.S. Navy Aleutian Island Survey Expedition in 1934 "due to the shoal and rock awash off the point. "

Shoal Point: point of land, on S coast of Afognak Island, 3 miles SW of Afognak, N of Kodiak Island; 57° 59' 30" N, 152° 50' 30" W; (map 34). Variant: Mys Otmlyoy, Otmeloi Cape, Shoal Cape. This is a translation of the descriptive name "M[ys] Otmlyoy" given by Sub-Lt. Mikhail Murashev in 1839 or 1840 and published in 1849 on Russian Hydrog. Dept. Chart 1425.

Shoals Island: island, see Otmeloi Island.

Shoals Point: point of land, on SE tip of Kruzof Island, 11 miles W of Sitka, Alexander Archipelago, 57.° 00' 40" N, 135° 38' 00" W; BGN 1901; (map 9). Variant: First Point, Mys Nizmennyya, Mys Otmeloy Vnyshniy, Mys Otmlyoy Vnyshchey, Outer Point of Shoals, Point of Shoals, Whites Point. USC&GS about 1882 derived "Shoals Point" by a translation of part of the name "Mys Otmlyoy Vnyshchney," meaning "outer shoals cape." This name was given in 1809 by the Russian navigator Ivan Vasiliev the first. Capt. George Dixon in June 1787, called it "White's Point" for the mate of the Queen Charlotte (Wagner, 1937, p. 523). The name "Mys Nizmennyya," meaning "low cape," was published for this feature by Capt. Tebenkov (1852, map 38), IRN.

Shoalwater Pass: water passage, in Behm Canal, extends 5 miles, between Winstanley Island and mainland, Coast Mountains; 55° 26' 00" N, 130° 54' 30" W; (map 3). Named in 1879 by W. H. Dall, USC&GS; published in the 1883 Coast Pilot (p. 72).

Shoalwater Slough: stream, flows 15 miles from Deadmans Slough to a point where the Bonasila River joins the Yukon River, 28 miles NW of Holy Cross, Nulato Hills.; 62° 32' N, 160° 13' W; (map 78). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by U.S. Dept. of Interior.

Shoaty Creek: stream, flows SW 5.5 miles to Moore Creek, 5 miles NW of Sugarloaf Mountain and 32 miles NE of Flat, Kilbuck-Kuskokwim Mountains; 62° 33' 30" N, 157° 02' 30" W; (map 79) .Prospectors' name obtained in 1952 by USGS topographers.

Shoaty Mountain: mountain, 1,510 ft., in Kuskokwim Mountains, between Moore and Shoaty Creeks, 33 miles NE of Flat, Kilbuck-Kuskokwim Mountains; 62° 35' 45" N, 157° 02' 00" W; (map 79) Prospectors' name obtained in 1952 by USGS topographers.

Shockum Mountains: mountains, 1,453 ft., along right bank of Bering River, 18 miles NE of Katalla, Chugach Mountains; 60° 21' N, 144° 05' W; (map 64). Named "after a local Indian who so wrote his name," reported in 1905 by G. C. Martin, USGS.

Shoe Creek: stream, flows NW 4.5 miles to Meshik River, 11 miles S of Vent Mountain, in Aniakchak Crater, Bristol Bay Lowland; 56° 43' N, 158° 06' W; (map 30). Name reported in 1923 by R. H. Sargent USGS; published in 1927 by USGS.

Shoe Inlet: estuary, extends S 2 miles, on N coast of Long Island, Alexander Archipelago; 54° 55' 45" N, 132° 48' 30" W; BGN 1928; (map 1). Local name derived from Shoe Island; published on a 1918 USFS map.

Shoe Island: island, 1,400 ft. long, in Tlevak Strait, 1 mile N of Long Island, Alexander Archipelago; 54° 57' 00" N, 132° 44' 45" W; BGN 1966; (map 1). Named in 1881 by Lt. Comdr. H. E. Nichols, USN.

Shoe Rock: rock, in Tlevak Strait, on N coast of Long Island, Alexander Archipelago; 54° 56' 55" N, 132° 44' 02" W; (map 1). Descriptive name given in 1905 by E. F. Dickins, USC&GS.

Shoehel Lake: lake, 0.5 miles long, 1.5 miles W of Mud Canyon, 22 miles SE of Beaver, Yukon-Tanana Highlands; 66° 07' 30" N, 146° 51' 30" W; (map 119). Local name obtained in 1956 by USGS.

Shoehorn Mountain: mountain, 5,310 ft., NW of Cambridge Basin, on Taku Glacier, 1.6 miles W of Juncture Peak and 21 miles NE of Juneau, Coast Mountains; 58° 36' 10" N, 134° 18' 00" W; (map 11). Variant: Shoehorn Peak. Local name published in 1960 by USGS. "Shoehorn Peak" was the name proposed by members of the Juneau Icefield Research Project in 1964.

Shoehorn Peak: mountain, see Shoehorn Mountain.

Shoeleather Creek: stream, flows SW and NW 24 miles to Cheeneetuk River 25 miles NE of its junction with Swift River, 63 miles NE of Sleetmute, Lime Hills; 61° 57' 15" N, 155° 18' 40" W; (map 71). Name shown on a prospectors' manuscript map dated 1907.

Shoemaker Bay: bight, 2 miles across, 5 miles S of Wrangell, on NW coast of Wrangell Island, Alexander Archipelago; 56° 24' 00" N, 132° 20' 30" W; (map 6). Local name recorded in 1953 by USGS.

Shoepac Lake: lake, 1 mile long, one of the Swanson Lakes, on Kenai Peninsula NE of Birch Tree Lake, 37 miles NE of Kenai, Cook Inlet Lowland; 60° 51' 50" N, 150° 22' 15" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Shoestring Creek: stream, see Niukluk River.

Shoestring Dune Lake: lake, 1.5 miles long, in lower Koyukuk River valley, 2.5 miles N of coffee Can Lake and 30 miles SW of Huslia; 65° 19' N, 156° 58' W; (map 108). So named in 1959, by F. R. Weber, USGS, because this long, narrow lake parallels Shoestring Dune.

Shoestring Dune: sand dune, extends NE-SW 12 miles, in lower Koyukuk River valley, 25 miles SW of Huslia; 65° 20' N, 156° 55' W; (map 108). So called by F R. Weber, USGS, in 1959, because of the dunes' long linear shape.

Shoestring, Cove: estuary, on E coast of Esther Island, extends SE 1.5 miles to Esther Passage, 26 miles NE of Whittier, Chugach Mountains; 60° 50' 10" N, 147° 56' 40" W; (map 63). Local name reported in 1952 by USGS.

Shogvik Lake: lake, 2 miles across, 4 miles NW of Selawik, Kotzebue-Kobuk Lowland; 66° 39' N, 160° 05' W; (map 114). Eskimo name obtained by U.S. Army Corps of Engineers in 1955.

Shok-ah-bok-shegiak: stream, see Pah River.

Shokfak: village, see Chakwaktolik.

Shokfaktolik: village, see Chakwaktolik.

Shoko Creek: stream, flows SE to Sicmouth Creek which flows to Pargon River, about 16 miles NE of Council, Seward Peninsula Highlands; (map 110). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This stream cannot be precisely located on current maps.

Shokokluk Creek: stream, flows SE 17 miles from Sillyasheen Mountain to Wolverine Creek, 2 miles SW of Crag Peak and 65 miles W of Wiseman, Brooks Range; 67° 37' N, 152° 29' W; BGN 1932; (map 124). This is an "Eskimo name for a certain black rock found on the creek," as reported by Robert Marshall in 1932.

Shokum Creek: stream, flows SW 1.5 miles to Gulf of Alaska, 12 miles ESE of Cape Yakataga, St. Elias Mountains; 60° 01' 40" N, 142° 05' 50" W; (map 65) Indian name reported in 1904 by G. C. Martin, USGS.

Sholes, Mount: peak, 5,230 ft., 4 miles NE of Glacier Point, E of Ruth Glacier, Alaska Range; 62° 55' 40" N, 150° 30' 30" W; (map 81). Mountain climbers' name probably given by members of the 1945 Mazama expedition to the area.

Sholin Island: island, 0.4 miles long, in Portlock Harbor, 7 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 44' 35" N, 136° 15' 00" W; (map 9). Named published in 1928 by USC&GS on Chart 8258.

Shoniktok Point: point of land, extends into Selawik Lake, 9 miles NW of Selawik, Kotzebue-Kobuk Lowland; 66° 36' N, 160° 20' W. (map 114). Eskimo name obtained by U.S. Army Corps of Engineers in 1955.

Shoo Fly Rock: rock, see Eye Opener, the.

Shooiack Island: island, see Shuyak Island.

Shore Creek: stream, see Short Creek.

Shoreline Drive: settlement, pop. 56, on W coast of Revillagigedo Island, 3 miles NW of Ketchikan, Alexander Archipelago; 55° 22' 30" N, 131° 43' 30" W; (map 3) This is an extension of the Ketchikan settlement area northwest along the highway.

Short Arm Kendrick Bay: estuary, extends SW 2 miles off Kendrick Bay, on SE coast of Prince of Wales Island, Alexander Archipelago; 54° 52' 30" N, 132° 02' 15" W; (map 1). Local name reported by H. C. Fassett, USBF, in 1904.

Short Arm: cove, on E coast of Knight Island, trends N 1 mile to Bay of Isles, 16 miles NE of Chenega, Chugach Mountains; 60° 23' 15" N, 147° 40' 00" W; (map 63). Name published in 1943 by USC&GS.

Short Bay: estuary, on Cleveland Peninsula, extends N 2 miles, off Bell Arm, Alexander Archipelago; 55° 58' 30" N, 131° 30' 50" W; (map 3). Variant: Short Inlet. Named in 1879 by W. H. Dall, USC&GS; published in 1883 Coast Pilot (p. 73) as Short Inlet.

Short Creek: stream, flows E 1 mile to Dorothy Creek, 21 miles NE of Nome, Seward Peninsula Highlands; 64° 49' 15" N, 165° 14' 35" W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Short Creek: stream, flows ENE 1 mile to Kreuger Creek which flows to Arctic River, 3.8 miles E of The Ears on Ear Mountain, Seward Peninsula Highlands; 65° 55' 45" N, 166° 05' 40" W; BGN 1954; (map 111). Descriptive name given in 1945 by a USGS field party.

Short Creek: stream, flows N 0.4 miles to Red Bay, on N coast of Prince of Wales Island, Alexander Archipelago; 56° 16' 05" N, 133° 19' 35" W j (map 6). Named in 1886 by Lt. J. M. Helm, USN, for charting purposes; published in 1887 on USC&GS Chart 706.

Short Creek: stream, flows N 1.3 miles to Yukon River, 0.8 miles W of Ruby, Kilbuck-Kuskokwim Mountains; 64° 44' 15" N, 155° 31' 00" W; (map 98). Prospectors' name reported in 1908 by A. G. Maddren, USGS.

Short Creek: stream, flows NW 1.9 miles to Long Creek, 3 miles SW of Long and 26 miles SW of Ruby, Kilbuck-Kuskokwim Mountains; 64° 22' N, 155° 34' W; (map 98). Prospectors' name reported in 1921 by USGS.

Short Creek: stream, flows SE 1.5 miles to Stewart River, 21 miles NE of Nome, Seward Peninsula Highlands; 64° 49' 12" N, 165° 22' 20" W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Short Creek: stream, flows SE 4.4 miles to Beaver Creek 8.5 miles W of its junction with Anvik River, 28 miles NW of Anvik, Nulato Hills; 62° 53' N, 160° 58' W; (map 78). Local descriptive name obtained in 1952 by USGS.

Short Creek: stream, flows SE 9 miles through Reflection Lake to Short Bay, 7 miles N of Revillagigedo Island and 50 miles SE of Wrangell, Alexander Archipelago; 56° 00' 15" N, 131° 31' 30" W; BGN 1923; (map 7). Descriptive name given in 1923 by USFS.

Short Creek: stream, flows SW 1.7 miles to Kugruk River, 28 miles NE of Imuruk Lake, Seward Peninsula Highlands; 65° 52' N, 162° 26' W; (map 110). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Short Creek: stream, flows SW 5 miles to Agiapuk River, 12 miles NE of Teller, Seward Peninsula Highlands; 65° 26' N, 166° 18' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Short Creek: stream, heads in lake, flows SE 1.2 miles to Cache Creek, 32 miles NW of Talkeetna, Alaska Range; 62° 28' 05" N, 151° 01' 25" W; (map 81) Prospectors' name reported in 1911 by USGS.

Short Creek: stream, heads near Sids Pass, flows SE 5.7 miles to Wide Bay, on E coast of Alaska Peninsula, 39 miles SE of Ugashik, Aleutian Range; 57° 22' 15" N, 156° 24' 30" W; (map 36). Variant: Shore Creek. Descriptive name reported in 1923 by R. H. Sargent, USGS.

Short Gulch: ravine, trends NW 1.2 miles to Oregon Creek which flows to Cripple River, 14 miles NW of Nome, Seward Peninsula Highlands; 64° 42' N, 165° 39' W; (map 94). Prospectors' name reported on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Short Inlet: estuary, see Short Bay.

Short Island: island, in Yukon River, 26 miles SW of Nulato, Koyukuk Lowland; 64° 24' N, 158° 36' W; (map 97). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by U.S. Dept. of Interior.

Short Pass: water passage, 1.3 miles long, connects Behm Canal to Princess Bay, N of Smeaton Island, Coast Mountains; 55° 22' 45" N, 130° 58' 30" W; (map 3). Descriptive name given in 1891 by USC&GS.

Short Point: point of land, on S shore of Smeaton Bay, 2.2 miles E of Point Nelson, Coast Mountains; 55° 17' 45" N, 130° 52' 08" W; (map 3). Descriptive name given in 1891 by USC&GS.

Shortcut Slough: channel, of Tanana River, crosses Harper Bend W of mouth of Patterson Creek, 18 miles SE of Tanana, Nowitna Lowland; 65° 01' N, 151° 34' W; (map 106). Riverboat pilots' name shown on a 1940 Navigation Chart, Tanana-Yukon Rivers.

Shorty Cove: bay, 1 mile across, off Norton Sound, 8.5 miles SW of Tolstoi Point and 27 miles SW of Unalakleet, Nulato Hills; 63° 30' 30" N, 161° 09' 00" W; (map 91). "Named for a prospector;" reported in 1952 by USC&GS.

Shorty Creek: stream, flows E 0.3 miles to Cook Inlet, 4.5 miles NE of Tyonek, Cook Inlet Lowland; 61° 07' 50" N, 151° 04' 50" W; BGN 1916; (map 70). Variant: Shortys Creek,

Shorty's Creek. Local name published in 1916 by USC&GS. "Shorty was the nickname of a local resident, A. R. McConahay, who lived in the area at the time."

Shorty Creek: stream, flows N 4.5 miles to Shorty Cove, 9 miles SW of Tolstoi Point and 27 miles SW of Unalakleet, Nulato Hills; 63° 30' 30" N, 161° 08' 00" W; (map 91). Local name reported in 1952 by USC&GS. See Shorty Cove.

Shorty Creek: stream, flows NW 4 miles to Tolovana River, 6 miles S of Livengood, Yukon. Tanana Highlands; 65° 26' 30" N, 148° 38' 00" W; (map 105). Local name published by USGS in the 1950's.

Shorty Creek: stream, flows W 4 miles, joins Quartz Creek to form Butte Creek, 30 miles NE of Ophir and 41 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 31' N, 156° 08' W; (map 90) Prospectors' name reported in 1933 by USGS.

Shorty Creek: stream, heads in lake, flows SW 3 miles to Willow Creek, W of Craigie Creek, 17 miles NW of Palmer, Talkeetna Mountains; 61° 45' 45" N, 149° 29' 15" W; (map 69). Local name reported in 1913 by USGS (Brooks and others, 1914, fig. 2).

Shorty Creek: stream, see Indian Creek.

Shorty River: stream, flows SW 12 miles and joins Manikam Creek to form Kangnirvik Creek, 25 miles NE of Kivalina, Arctic Slope; 68° 02' N, 163° 56' W; (map 130). Variant: Peenyiksaahm Koonga, Piinigsam Kuuna, Pingeyiksak River. Named for "Shorty" Knox, an Eskimo trapper, whose Eskimo name was "Piiniqsaahq."

Shortys Creek: stream, see Indian Creek.

Shortys Creek: stream, see Shorty Creek.

Shosky Creek: stream, flows W 25 miles to Egegik River on Alaska Peninsula, 15 miles SE of Egegik and 42 miles S of Naknek, Bristol Bay Lowland; 58° 07' 40" N, 157° 01' 45" W; (map 41). Local name reported in 1923 by R. H. Sargent, USGS.

Shotgold Creek: stream, flows 4.3 miles NW to North Fork White River 4.8 miles N of Solo Lake, and 53 miles NE of McCarthy, Alaska Range; 61° 52' 15" N, 141° 39' 45" W; (map 67). Local name obtained by USGS and published on maps since 1954.

Shotgun Cove: cove, on NE coast of Kenai Peninsula, extends NE 2 miles to Passage Canal, 5 miles NE of Whittier, Chugach Mountains; 60° 48' 05" N, 148° 32' 30" W; BGN 1911; (map 63). Variant: Passage Bay. Named in 1911 by U. S. Grant and D. F. Higgins, USGS.

Shotgun Creek: stream, flows NW 32 miles, joins Kogrukluuk River to form Holitna River, 65 miles SW of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 49' N, 157° 51' W; BGN 1948; (map 60). Variant: I-am-tuk, I-im-tuck, Lishtak. This appears to be a local translation of the Eskimo name often spelled "I-am-tuk" [Aiامتak?]. The Eskimo name was first reported about 1900 and spelled "I-im-tuck". The stream is thought to be so called because "a bend on the creek has the comparable appearance of a breech-loading shotgun when broken for loading[?]." P. Tikhmeniev published another Eskimo name, "Lishtak," for this stream in 1861.

Shotgun Creek: stream, flows SE 6 miles to Ohio Creek, 61 miles SW of Healy, Alaska Range; 63° 03' 20" N, 149° 44' 40" W; (map 87). Prospectors' name obtained in 1913 by J. W. Bagley, USGS; published by S. R. Capps (in Martin, 1919, pl. 5), USGS.

Shotuik Hill: hill, 600 ft., 0.2 miles N of Shovun Lake and 15 miles NW of Fort Yukon, Yukon Flats; 66° 48' N, 145° 24' W; (map 119). Kutchin Indian name obtained in 1956 by T. E. Taylor, USGS.

Shou-a-gan: locality, see Sukkwan.

Shoulder Mountain: mountain, 3,430 ft., extending NE-SW 13 miles along Sheenjek River, 60 miles NW of Coleen Mountain, Brooks Range; 67° 56' N, 143° 38' W; (map 121). Local descriptive name reported by USGS in 1932.

Shoulderblade Island: island, 0.4 miles long, in Iliamna Lake, 9 miles SW of Big Island and 37 miles SW of Iliamna, Bristol Bay Lowland; 59° 21' N, 155° 35' W; (map 51). Named locally because of its similarity in appearance to a shoulderblade. Published in 1951 by USGS.

Shoumagin Islands: islands, see Shumagin Islands.

Shoup Bay: bay, 1 mile across, on N shore of Port Valdez, 2.9 miles W of Camp Bowie and 11 miles W of Valdez, Chugach Mountains; 61° 07' 15" N, 146° 35' 30" W; (map 68). Local name reported in 1905 by U. S. Grant, USGS.

Shoup Glacier: glacier, trends SW 17 miles to its terminus, 0.4 miles NW of head of Shoup Bay and 12 miles W of Valdez, Chugach Mountains; 61° 08' 50" N, 146° 36' 00" W; (map 68). Variant: Canyon Creek Glacier. Named Canyon Creek Glacier in 1898 by Capt. W. R. Abercrombie, USA; the local name Shoup Glacier was reported by him in 1899.

Shouplina, Mount: mountain, 8,510 ft., 2 miles SW of Mount Cashman and 18 miles NNW of Valdez; 61° 20' 21" N, 146° 29' 10" W; BGN 1965; (map 68). Probably named about 1959 by Nielsen (1963, p. 135), USGS.

Shovel Creek: stream, flows N 2.3 miles to Flat Creek, 12 miles NW of Tahnetta Pass and 68 miles SW of Gulkana, Talkeetna Mountains; 62° 03' 37" N, 147° 25' 08" W; (map 82). Local name reported in 1917 by USGS.

Shovel Creek: stream, flows NW 30 miles to Papa Willie Creek, 3 miles E of Blackburn Island and 57 miles SE of Unalakleet, Innoko Lowland; 63° 22' 40" N, 159° 18' 30" W; (map 91). Local name reported in 1949 by USC&GS.

Shovel Creek: stream, flows NW 6 miles to Totalanika River, 20 miles NE of Healy, Alaska Range; 63° 58' 50" N, 148° 29' 40" W; (map 87). Prospectors' name shown on a 1910 fieldsheet by J. W. Bagley, USGS; published by Capps (1912, pl. 1), USGS.

Shovel Creek: stream, flows NW to Agiapuk River, N of Flat Creek, about 25 miles NE of Teller, Seward Peninsula Highlands; (map 111). Prospectors' name reported on a precinct

map of Seward Peninsula gold fields by Monroe and Hutchins, corrected up to June 1903 by Arthur Gibson. This feature cannot be precisely identified on current maps.

Shovel Creek: stream, flows SE 8.5 miles to Solomon River, 4 miles NE of Solomon, Seward Peninsula Highlands; 64° 37' N, 164° 23' W; (map 95). Prospectors' name reported in 1899 by Schrader and Brooks (1900, map 3), USGS.

Shovel Creek: stream, flows SW 4.6 miles to Anakeksik Creek, 12 miles SE of Christmas Mountain Nulato Hills; 64° 24' N, 160° 28' W; (map 96). Local name reported about 1954 by U.S. Army Corps of Engineers.

Shovel Creek: stream, flows SW 6.3 miles to Yukon River, 15 miles NE of Ruby, Kokrines-Hodzana Highlands; 64° 52' 30" N, 155° 04' 55" W; (map 98). Prospectors' name reported in 1911 by A. G. Maddren (in Brooks and others, 1912, p. 294-296), USGS.

Shovel Creek: stream, heads at 64° 57' N, 148° 24' W, flows N 6 miles to Chatanika River, 25 miles NW of Fairbanks, Yukon-Tanana Highlands; 65° 01' 40" N, 148° 24' 20" W; (map 105). Named by prospectors; published in 1906 by USGS.

Shovel Creek: stream, heads in Shovel Lake, flows NE 6 miles to Treasure Creek, 27 miles SW of Talkeetna, Alaska Range; 62° 13' 20" N, 150° 56' 30" W; (map 81). Local name reported in 1958 by USGS.

Shovel Horn Point: pinnacle, see Shovel Point Horn.

Shovel Lake: lake, 1.3 miles long, at head of Shovel Creek, 31 miles SW of Talkeetna, Alaska Range; 62° 13' N, 151° 30' W; (map 81). Local name reported in 1958 by USGS.

Shovel Point Horn: pinnacle, 5,100 ft., on Granite Mountain, near head of Rhoads Creek, 20 miles SE of Delta Junction, Alaska Range; 63° 47' 05" N, 145° 26' 05" W; (map 86). Variant: Shovel Horn Point. Named between 1948 and 1955 by T. L. Pewe, USGS.

Shovel Point: ridge and promontory, 4,800 ft., extends N 2 miles on Granite Mountain E of Till Valley, 18 miles SE of Delta Junction, Alaska Range; 63° 48' 00" N, 145° 27' 15" W; (map 86). Name reported in 1952 by USGS.

Shovenagamiut: locality, see Shevenak.

Shovenagamute: locality, see Shevenak.

Shovun Lake: lake, 1.5 miles long, 1 mile E of Alexanders Village and 15 miles NW of Fort Yukon, Yukon Flats; 66° 47' 20" N, 145° 24' 00" W; (map 119). Kutchin Indian name obtained in 1956 by T. E. Taylor, USGS.

Show Gulch: ravine, see Snow Gulch.

Show Me Creek: stream, flows S 1.5 miles to Valdez Creek, 67 miles SE of Healy, Alaska Range; 63° 12' N, 147° 24' W; (map 87). Local name obtained in 1951 by USGS.

Show-a-gan; locality, see Sukkwan.

Shower Gulch: ravine, extends 1.2 miles NW from glacier, 3.3 miles NE of Skyscraper Peak and 35 miles NW of McCarthy, Wrangell Mountains; 61° 43' 50" N, 143° 43' 30" W; (map 67). Local name obtained by USGS and published on maps since 1954.

Shrew Lake: lake, 0.3 miles long, on Kenai Peninsula SW of Lonely Lake, 30 miles NE of Kenai, Cook Inlet Lowland; 60° 47' 00" N, 150° 33' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Shrimp Bay: estuary, extends E 2.3 miles off Gedney Pass, on NW coast of Revillagigedo Island, Alexander Archipelago; 55° 50' 25" N, 131° 31' 00" W; (map 3) One of many arbitrary names applied to features in this area in 1891 by USC&GS.

Shrine Creek: stream, flows 2 miles NW to St. Terese, on Favorite Channel, 0.1 miles S of Pearl Harbor and 18 miles NW of Juneau, Coast Mountains; 58° 28' 15" N, 134° 47' 00" W; BGN 1937; (map 11). Name reported in 1937 by USFS and derived from the Shrine of Saint Teresa near the creek's mouth.

Shrode, Lake: lake, on E side of Kenai Peninsula, 0.5 miles across, between Lake Jack and Cochrane Bay, 15 miles SE of Whittier, Chugach Mountains; 60° 39' 15" N, 148° 19' 00" W; (map 63). Local name reported in 1952 by USGS.

Shrub Islet: island, 0.1 miles long, NE coast of Coronation Island, Alexander Archipelago; 55° 55' 20" N, 134° 07' 25" W; (map 4). Local name recorded in 1948 by USGS.

Shrubby Island: island, 3 miles long, one of Kashevarof Islands between Clarence Strait and Kashevarof Passage, off N coast of Prince of Wales Island, Alexander Archipelago; 56° 13' N, 132° 58' W; (map 6). Named by W. H. Dall, USC&GS; published in 1883 Coast Pilot.

Shu-shuk-to-ark: stream, see Squirrel River.

Shubelik Mountains: mountain range, see Shublik Mountains.

Shubelik Range: mountain range, see Shublik Mountains.

Shubelik Spring: springs, see Shublik Spring.

Shubelik Springs: springs, see Shublik Spring.

Shublick Mountains: mountain range, see Shublik Mountains.

Shublik Island: island, 1 mile long, in Canning River, at mouth of Cache Creek, 46 miles W of Mount Michelson, Arctic Slope; 69° 24' N, 146° 08' W; (map 139). Leffingwell (1919, p. 116), does not list this in his geographic names, but writes in his text, "The type locality is at Shublik Island on Canning River, at the southwest corner of the Shublik Mountains, * * *." The name is derived from Shublik Spring.

Shublik Mountains: mountain range, 4,500 ft., 30 miles long, 5 miles S of Sadlerochit Mountains, trends E-W between Canning and Sadlerochit Rivers, 26 miles NW of Mount Michelson, Brooks Range; 69° 31' N, 145° 40' W; BGN 1959; (map 139). Variant: Shubelik Mountains, Shubelik Range, Shublick Mountains, Sublik Mountains. Leffingwell (1919, p. 51) wrote: "The outer two of the three outlying ranges south of Camden Bay have been given separate names * * *. The middle range, called the Shublik Mountains, is shorter, wider and in general higher * * *."

Shublik Spring: springs, on E bank of Canning River 3 miles N its junction with Cache Creek, 45 miles NW of Mount Michelson, Arctic Slope; 69° 27' N, 146° 03' W; BGN 195g; (map 139). Variant: Shubelik Spring, Shubelik Springs, Shublik Springs, Sublik Springs. Eskimo name which was reported by Leffingwell (1919, p. 99) to mean "a spring." Leffingwell wrote, "There are two springs which deserve mention. The larger one by report is the Shublik Spring, at the west end of Shublik Mountains, * * *" (p. 58).

Shublik Springs: springs, see Shublik Spring.

Shuck River: stream, see Chuck River.

Shudtaroshik River: stream, see Sadlerochit River.

Shuiak Island: island, see Shuyak Island.

Shuitna River: stream, see Chuitna River.

Shukan Bay: bay, see Shakan Bay.

Shukok Creek: stream, flows NE 11 miles from a lake to Wolverine Creek, 6 miles SW of Crag Peak and 68 miles W of Wiseman, Brooks Range; 67° 35' 40" N, 152° 37' 00" W; BGN 1932; (map 124). Eskimo name "referring to the kind of rock found on the creek," as reported by Robert Marshall in 1932.

Shuktusa Branch: stream, flows NE 3.5 miles to Stikine River, 19 miles NE of Wrangell, Coast Mountains; 56° 42' 10" N, 132° 04' 30" W; (map 6). Variant: Shuktusa Creek. Local name recorded in 1953 by USGS.

Shulakpachak Peak: peak, 6,500 ft., in Schwatka Mountains, 26 miles W of Mount Igikpak, Brooks Range; 67° 26' N, 155° 56' W; (map 125). Eskimo name recorded in Kobuk by Orth, USGS, in 1956 and reported to mean "like a big feather."

Shulin Lake: lake, 2 miles long, 3 miles E of Willow Mountain and 26 miles SW of Talkeetna, Cook Inlet Lowland; 62° 08' 25" N, 150° 51' 30" W; (map 81). Local name reported in 1958 by USGS.

Shultna River: stream, see Chuitna River.

Shultz, Point: point of land, S tip of Fleming Island, 12 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 47' 15" N, 136° 19' 25" W; (map 9). Local name published by USC&GS in 1925 Coast Pilot (p. 322).

Shulukpaukat River: stream, see Ribdon River.

Shulunarurak Creek: stream, heads on Tupikchak Mountain, Rows NW 4 miles to Kokolik River, Arctic Slope; 68° 53' N, 161° 58' W; (map 131) Eskimo name reported by T. E. Taylor, USGS, in 1956.

Shulze Cove: bay, see Schulze Cove.

Shumagin Bank: shoal, in Pacific Ocean, SE of Shumagin Islands, Aleutian Range; 54° 40' N, 159° 26' W; (map 26). Named in 1888 by USBF.

Shumagin Islands: islands, 60 miles across, S of Alaska Peninsula, including Unga, Popof, Korovin, Nagai, Simeonof, and Big and Little Koniuji Islands, plus other smaller islands; 55° 10' N, 160° 00" W; BGN 1890; (map 28). Variant: Choumagin Islands, Choumaghin Islands, Kagigun Islands, Shoumagin Islands, Unga Islands. Named by Capt. Comdr. Vitus Bering, IRN, for one of his sailors, who died of scurvy and was buried here August 30, 1741. Father Veniaminov (1840, v. 1, p. 255) reported the Aleut name as "Kagigun" and Golovin said the Aleuts called the islands "Unga," from the name of the largest of the group (1862, voyage 1, p. 174). The name was published in French as "[les] Choumagin," or "Shumagin Islands," by Adm. Krusenstern (1827, map 20), IRN.

Shuman House: locality, pop. 19 (1940), on right bank of Porcupine River, 17 miles N of Chalkyitsik, Yukon Flats; 66° 54' N, 143° 46' W; (map 120). Local name published in 1951 by USGS.

Shuman Lake: lake, an oxbow 1.5 miles long, S of Sheenjek River, 36 miles NE of Fort Yukon, Yukon Flats; 66° 54' 20" N, 144° 17' 00" W; (map 119). Local name obtained in 1956 by USGS.

Shuman, Mount: mountain, 3,185 ft., on E shore of Karluk Lake, Kodiak Island; 57° 19' 15" N, 153° 59' 15" W; BGN 1957; (map 34). Named in 1954 by USF&WS for Richard Frederick Shuman, 1906-54, Fishery Management Supervisor of USF&WS, "who was killed in line of official duty in an airplane crash."

Shuna Creek: stream, see Sinona Creek.

Shunakhtuli, Ostrov: island, see Shaw Island.

Shunaktuli Island: island, see Shaw Island.

Shung-nack River: stream, see Shungnak River.

Shungnak Mountain: mountain, 2,250 ft., W of Cosmos Mountain, 9 miles N of Shungnak, Brooks Range; 67° 01' N, 157° 10' W; (map 126). Local name given by prospectors reported by USGS in 1956.

Shungnak River: stream, heads in Schwatka Mountains at 67° 16' N, 156° 25' W, Rows SW 47 miles to Kobuk River, 8 miles NW of Shungnak, Kotzebue-Kobuk Lowland; 66° 55' N,

157° 25' W; (map 115). Variant: Shingnek River, Shung-nack River. Eskimo name, meaning "jade," written "Shung-nack" by Lt. G. M. Stoney, USN, in 1885, and "Shingnek" by W. C. Mendenhall, USGS, in 1901. Jade is found near its headwaters. See Jade Mountain.

Shungnak: village, pop. 135, on right bank of Kobuk River 85 miles NE of Selawik, Kotzebue-Kobuk Lowland; 66° 52' N, 157° 09' W; (map 115). Eskimo village relocated from a site about 10 miles upstream. See Kobuk. A post office was established for a few months in 1934 and then again in 1946 (Ricks, 1965, p. 58). The village population was 193 in 1939 and 141 in 1950.

Shungnak: village, see Kobuk.

Shusana Glacier: glacier, see Chisana Glacier.

Shushaldinskaia: mountain, see Shishaldin Volcano.

Shushalluk Creek: stream, flows E 6 miles to Ernie Creek, 4 miles SE of Slatepile Mountain and 39 miles NW of Wiseman, Brooks Range; 67° 55' N, 150° 51' W; BGN 1932; (map 124). Named about 1930 by Robert Marshall "after an Eskimo who built a cabin at the mouth of this creek and wintered there."

Shushana River: stream, see Chisana River.

Shushana River: stream, see Sushana River.

Shushana: village, see Chisana.

Shushanna Junction: settlement, see McCarthy.

Shuyak Harbor: bay, 3 miles across, on SW coast of Shuyak Island, 41 miles N of Kodiak Island; 58° 30' 00" N, 152° 37' 35" W; (map 43). Variant: Svendson and Shawl. Local name derived from Shuyak Island and published by USC&GS in 1926. " * * * Sometimes called Svendson and Shaw after a firm engaged in the herring fishery there."

Shuyak Island: island, 11 miles across, N of Afognak Island, 40 miles N of Kodiak Island; 58° 31' N, 152° 30' W; BGN 1890; (map 43). Variant: Chouyak Island, Chugak Island, Chuyak Island, Huiak Island, Iluiak Island, Isla de Bonilla, Nebel Island, Schujek Island, Shooiack Island, Shuiak Island, Shuyuch Island. Native name reported by G. Island Shelikov in 1785 (in Bancroft, 1886, p. 228). This may be the same island called "Isle de Bonilla" on Don Juan de la Bodega y Quadra's 1791 map.

Shuyak Strait: water passage, between Shuyak and Afognak Islands, N of Kodiak Island; 58° 29' N, 152° 36' W; (map 43). Variant: Chuyak Strait. Name derived from Shuyak Island and published by the Russian American Company in 1849 as "Pr[oliv] Shuyak."

Shuyuch Island: island, see Shuyak Island.

Si-lin Creek: stream, see Selin Creek.

Siagraurak: locality, see Siagrorak.

Siagrorak: locality, outcrop of rocks N of Kivalina Lagoon, 10 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 50' N, 164° 44' W; (map 128). Variant: Sayagrowrak, Siagraurak, Siagzauzaq. Eskimo name reported in 1966 by E. S. Burch.

Siagzauzaq: locality, see Siagrorak.

Siaklidok Island: island, see Sitkalidak Island.

Siaktak Creek: stream, see Saitut Creek.

Siaktklidak Island: island, see Sitkalidak Island.

Siamese Lakes: lakes, 3 miles NW of terminus of Sheridan Glacier, 10 miles E of Cordova, Chugach Mountains; 60° 34' N, 145° 26' W; (map 64). So named "because the lakes are about the same size and close together." Name published in 1950 by USGS.

Siavlat Mountain: mountain, 5,200 ft., 35 miles SE of Howard Pass, Brooks Range; 68° 03' N, 155° 34' W; (map 133). Eskimo name reported in 1956 by Orth.

Siberia Hill: mountain, see Knob Hill.

Sic-sic-puk River: stream, see Siksikpuk River.

Sichtunak: island, see Sitkinak Island.

Sid Larson Bay: inlet, 2.5 miles long, in Kakhonak Bay at SE end of Iliamna Lake, 26 miles SE of Iliamna, Aleutian Range; 59° 26' N, 154° 33' W; (map 51). Local name published in 1951 by USGS.

Sidankin: village, see Biorka.

Sidaru: locality, on Chukchi Seacoast SW of Point Belcher, Arctic Plain; 70° 45' N, 159° 45' W; (map 146). Variant: Nunaria, Sedard, Sedaroo, Sedars, Sedaru, Sezaro. Former Eskimo village settled by people from Nunaria, reported in 1883 by Lt. P. H. Ray, USA, who gave its population as 50. It was once a large village but abandoned by 1905.

Siddens Valley: valley, 1.5 miles long, formed by Bassett Creek, on E coast of Attu Island, W of Lake Nicholas, Aleutian Islands; 52° 53' 00" N, 173° 13' 10" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II; shown on an AMS map published in 1948.

Side Creek: stream, in Ray Mountains, flows E 3.5 miles to Twentymile Creek, 14 miles N of Rampart and 67 miles NE of Tanana, Kokrines-Hodzana Highlands; 65° 42' 30" N, 150° 08' 45" W; (map 106). Local descriptive name reported by Orth in 1956; so named because it flows to the side of and parallel to Twentymile Creek.

Side Island: island, see Lewis Island.

Sidecar Creek: stream, see Mike Creek.

Sidik Lake: lake, 1 mile across, in Anisak River valley, 17 miles SW of Feniak Lake, Brooks Range; 68° 09' N, 158° 58' W; (map 132). Eskimo name obtained by Orth at Noatak in 1956.

Sidney Creek: stream, flows E to Cripple River about 31 miles NW of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Sidney Creek: stream, flows NE 1.7 miles to Archangel Creek, 15 miles NW of Palmer, Talkeetna Mountains; 61° 48' 35" N, 149° 12' 55" W; (map 69). Local name reported in 1913 by USGS (Brooks and others, 1914, fig. 2).

Sidney Creek: stream, flows NE 4.5 miles to Cripple River, 15 miles NW of Nome, Seward Peninsula Highlands; 64° 37' N, 165° 52' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Sidney Creek: stream, flows NW 1 mile to Iron Creek which flows to Pilgrim River, between Dome and Hillard Creeks, 25 miles NW of Solomon, Seward Peninsula Highlands; 64° 54' 25" N, 164° 41' 40" W; (map 95). Prospectors' name reported in 1908 by P. S. Smith (in Brooks and others, 1909, pl. 10), USGS.

Sidrak Island: barrier island, see Flaxman Island.

Sids Pass: pass, elev. 600 ft., at head of Black and Short Creeks, on Alaska Peninsula, 36 miles SE of Ugashik, Aleutian Range; 57° 23' 45" N, 156° 24' 40" W; (map 36). Named in 1923 by R. H. Sargent, USGS, for "Seward (Sic) Old," one of his packers, who examined the pass.

Siegfried, Mount: mountain, 9,205 ft., near head of Tarr Glacier, 36 miles NW of Valdez, Chugach Mountains; 61° 30' 40" N, 147° 00' 35" W, BGN 1965; (map 69). Named in 1957 for "Siegfried, a figure from the heroic literature of the ancient Teutons" by members of the Chugach Mountains Expedition sponsored by the Arctic Institute of North America (Nielsen, 1963, p. 135).

Sievern timer: point of land, see North Cape.

Sievern timer Strait: water passage, see Kupreanof Strait.

Sievern timer: island, see Raspberry Island.

Sievern timer: point of land, see North Cape.

Sievern timer: promontory, see Akun Head.

Sievern timer: water passage, see Whale Passage.

Sievernny: islands, see Pribilof Islands.

Sigak Cape: point of land, see North Head.

Sigak: point of land, see Sagak, Cape.

Sigakh, Mys: point of land, see North Head.

Siganaka, Ostrova: islands, see Siginaka Islands.

Sigard Creek: stream, flows SW 2.5 miles to join Linton Creek to form Bonanza River, 18 miles NW of Solomon, Seward Peninsula Highlands; 64° 46' 55" N, 164° 47' 30" W, (map 95). Variant: Sigurd Creek. Shown as "Sigurd" on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Sigdak Island: island, see Great Sitkin Island.

Sigeakruk Point: point of land, extends N into Wainwright Inlet, 4 miles S of Wainwright, Arctic Plain; 70° 34' 58" N, 160° 01' 15" W; (map 146). Eskimo name reported in 1955 by AMS.

Sigh Islands: islands, 0.5 miles wide, in Jinhi Bay, NE coast of Tuxekan Island, Alexander Archipelago; 55° 52' 45" N, 133° 16' 10" W; (map 4). Local name published in 1964 by USC&GS.

Sight Peak: peak, 8,610 ft., at head of Johnson Glacier, 25 miles NE of Paxson, Alaska Range; 63° 23' 20" N, 145° 23' 30" W; (map 86). Name published on relatively recent maps.

Sightas Island: island, 0.6 miles long, in Yukon River, 28 miles NE of Rampart, Yukon-Tanana Highlands; 65° 52' N, 149° 46' W; (map 105). Local name published on recent USGS maps. The island is apparently separated from the left bank of the Yukon River during the flood stage of that river in the spring; however, the island is connected to the land during low water periods in the summer.

Sigikrurak Point: point of land, see Siksrikpak point.

Siginak Islands: islands, see Siginaka Islands.

Siginak: island, see Sedanka Island.

Siginaka Islands: islands, 1 mile across, in Sitka sound, 8 miles NW of Sitka, Alexander Archipelago; 57° 09' N, 135° 27' W; BGN 1897; (map 9). Variant: Ostrov Siginaki, Ostrova Siganaka, Ostrova Siginaka, Siginak Islands. Named in 1809 by the Russian navigator Ivan Vasiliev the first, published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Siginaki," or "Siginaki Island." Vasiliev applied this name to the largest of the group; it was applied to the group in 1848 by the Russian Hydrog. Dept.

Siginaka, Ostrova: islands, see Siginaka Islands.

Siginaki, Ostrov: islands, see Siginaka Islands.

Siginaq: island, see Sedanka Island.

Signal Creek: stream, flows N 1.3 miles to Ward Lake, 0.8 miles E of Ward Cove, on SW coast of Revillagigedo Island, Alexander Archipelago; 55° 24' 35" N, 131° 41' 55" W; BGN 1962; (map 3). Local name reported in 1961 by USFS.

Signal Island: island, 0.1 miles across, in Western Channel, Sitka Sound, 2 miles W of Sitka, Alexander Archipelago; 57° 02' 45" N, 135° 23' 30" W; (map 9). Variant: Maiachnoi Island, Mayastetchnoi Island, Ostrov Mayachnoy, Signal-light Island, Signal Light Island. This is an 1882 translation by USC&GS of the name given in 1809 by the Russian navigator Ivan Vasiliev the first; reported by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Mayachnoy."

Signal Island: island, 0.5 miles long, in South Pass, 1.5 miles W of Hydaburg, Alexander Archipelago; 55° 12' 15" N, 132° 52' 00" W; (map 4). Local name published in 1965 by USC&GS.

Signal Light Island: island, see Signal Island.

Signal Mountain: mountain, 1,545 ft., on SW end of Hinchinbrook Island, 35 miles SW of Cordova, Chugach Mountains; 60° 17' N, 146° 38" W; (map 64). Local name reported by USC&GS in 1902.

Signal Mountain: mountain, 1,631 ft., E of Peninsula Point, on SW coast of Revillagigedo Island, Alexander Archipelago; 55° 23' 15" N, 131° 42' 25" W; (map 3) Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Signal Mountain: mountain, 4,200 ft., 4 miles W of Titus Mountain and 14 miles NE of Arctic Village, Brooks Range; 68° 13' N, 145° 03' W; (map 136). So named by Gerald FitzGerald, USGS, "because of the survey control station placed on it"; reported in 1926 by J. B. Mertie, Jr. (in Smith and others, 1929, pl. 1), USGS.

Signal Point: point of land, see Yellow Point.

Signals, The: island, 0.2 miles long, off Northwest Point on NW coast of Kanaga Island, Aleutian Islands; 51° 44' 45" N, 177° 38' 25" W; (map 17). Name published by USC&GS in 1956 (Chart 9145).

Signals, The: rocks, off NE coast of Sedanka Island, Aleutian Islands; 53° 47' 30" N, 166° 04' 00" W; (map 23). Variant: Kekur Kuka. Named in 1888 by USBF. Capt. Tebenkov (1852, map 26), IRN, referred to them as "Kekur Kuka," possibly meaning "Cook's Pillars."

Signam Island: island, see Seguam Island.

Signik, Cape: point of land, see Siknik Cape.

Sigoola Island: island, see Segula Island.

Sigoola: Island, see Chugul Island.

Sigouam: water passage, see Seguam Pass.

Sigrikpak Creek: stream, flows W 1.2 miles to Chukchi Sea, 5 miles S of Cape Dyer, Arctic Slope; 68° 34' 45" N, 166° 13' 30" W; (map 129). Variant: Sikrikpuk Creek. Eskimo name for the hoary marmot reported in 1955 by the U.S. Army Corps of Engineers.

Sigrikpak Ridge: ridge, 1,000 ft., extends SW 9 miles between Kukpuk River and Chukchi Sea, 14 miles E of Cape Thompson, Arctic Slope; 68° 10' N, 165° 27' W; BGN 1963; (map 129). Variant: Seegreepaugrauk Ridge. Eskimo name for the "hoary marmot," *Marmota caligata broweri*; reported in 1960 as "Seegreepaugrauk" by D.C. Foote in connection with Project Chariot studies.

Siguam Island: island, see Seguam Island.

Siguam Pass: water passage, see Seguam Pass.

Sigurd Creek: stream, see Sigard Creek.

Sigvow: water passage, see Sigvu Inlet.

Sigvu Inlet: water passage, between Siguv Lagoon and Chukchi Sea, 12 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 51' N, 164° 50' W; (map 128). Variant: Sigvow, Sigwu, Sigwuluuzak. Eskimo name reported in 1966 by E. S. Burch.

Sigvu Lagoon: lagoon, 3 miles long, on shore of Chukchi Sea, 12 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 51' N, 164° 50' W; (map 128). Variant: Sigvum Tessaya, Sigvum Tasia. Eskimo name reported in 1966 by E. S. Burch.

Sigvum Tessaya: lagoon, see Sigvu Lagoon.

Sigwu: water passage, see Sigvu Inlet.

Sigwuluuzak: water passage, see Sigvu Inlet.

Sigvum Tasia: lagoon, see Sigvu Lagoon.

Siimik: hill, see Simik Hill.

Siinaat Kivalik: locality, see Nulavik.

Siinaat Waalaa: stream, see Singat Creek.

Siingak: water passage, see Singauk Entrance.

Siiqsinniq: locality, see Siyiksinik.

Sikady Lake: lake, 0.9 miles long, on W central Admiralty Island, 18 miles NE of Angoon, Alexander Archipelago; 57° 46' 30" N, 134° 20' 30" W; (map 9). Local name reported in 1951 by USGS.

Sikanasankian: locality, at mouth of Grindstone Creek, 1,0 miles SE of Juneau, Coast Mountains; 58° 13' N, 134° 11' W; (map 11). Variant: Tsek-nuk-sank-y. Former Tlingit Indian village name meaning "small-black-bear town," published in 1908 by J. R. Swanton (Hodge, 1910, p. 675), BAE.

Sikarnoi Golovie: promontory, see Sugarloaf Mountain.

Sikete Point: point of land, see Siketi Point.

Siketi Point: point of land, SW tip of Cone Island, between Baker and Noyes Island, Alexander Archipelago; 55° 25' 10" N, 133° 39' 30" W; BGN 1925; (map 4). Variant: Sikete Point. Tlingit Indian name meaning "sea otter," given in 1923 by USC&GS.

Siketi Sound: water passage, 4.5 miles long, between Baker and Cone Islands, Alexander Archipelago; 55° 24' N, 133° 40' W; BGN 1925; (map 4). Variant: Port Real Marina, Sea Otter Harbor. Tlingit Indian name meaning "sea otter" given in 1924 by USC&GS; taken from Siketi Point. Baker (1906, p. 558) published the name "Sea Otter Harbor" for this feature. "This place may be the one so named by J. Meares, 1788. The identity is doubtful."

Sikharnoy Golovy, Mys: promontory, see Sugarloaf Mountain.

Sikhinak: island, see Sitkinak Island.

Sikhta: town, see Sitka.

Sikik Lake: lake, 1 mile across, in Noatak River valley, 13 miles SE of Feniak Lake, Brooks Range; 68° 03' N, 158° 07' W; (map 132). Eskimo name obtained by Orth at Noatak in 1956, and reported to mean "deep water."

Sikisikpak Hill: ridge, see Siksikpak Ridge.

Sikmiut: village, see Sleetmute.

Siknik Cape: point of land, at W end of Sea Koovook Bay, 62 miles SE of Gambell, on S coast of Saint Lawrence Island; 63° 11' N, 170° 18' W; BGN 1951; (map 93). Variant: Cape Chitnak, Cape Signik, Cape Tchitnak, Chiknik Cape, Chitnak Cape, Shitnak. Eskimo name reported in 1932 by Otto W. Geist, Univ. of Alaska.

Siko Island: barrier bar, near Icy Reef, Arctic Plain; (map 138). Surgeon John Simpson's 1855 native map shows this near Icy Reef.

Sikolik Lake: lake, 4 miles across, 8 miles SE of Icy Cape, Arctic Plain; 70° 10' N, 161° 29' W; (map 146). Eskimo name, meaning "has ice," recorded at Wainwright in 1956 by Orth; so named because ice remains on this lake longer than others.

Sikonsina Pass: pass, 30 miles SW of Tok, Alaska Range; 63° 03' N, 143° 44' W; (map 85). Indian name, applied by prospectors and reported by F. C. Schrader (in Mendenhall and Schrader, 1903, pl. 20), USGS.

Sikovuk Cape: promontory, see Southwest Cape.

Sikrelurak River: stream, flows 18 miles NE to Angun Lagoon, W of Angun Point and 32 miles NW of Demarcation Point, Arctic Plain; 69° 56' N, 142° 26' W; (map 138). Variant: Sikutaktukvik River. Eskimo name recorded in 1956 by T. E. Taylor, USGS. The variant name Sikutaktukvik was recorded at Barter Island, in 1952, by USC&GS and is reported to mean "place where ice is found."

Sikrikpak Creek: stream, see Sigrikpak Creek.

Siksatok: locality, on Agattu Island, Aleutian Islands; 52° 26' N, 173° 36' E; (map 13). Former Aleut village or camp listed by Hodge (1910, p. 570), BAE.

Siksik Creek: stream, see Siksik River.

Siksik Lake: lake, 0.7 miles long, 24 miles SW of Mount Deborah and 45 miles SE of Healy, Alaska Range; 63° 26' 15" N, 147° 53' 25" W; BGN 1965; (map 87). Variant: Hall Lake. Named in 1964 by the Alaska Geographic Names Board after the "ground squirrel whose Eskimo name is Siksik."

Siksik River: stream, flows 6.5 miles NE to Anguk Lagoon, S of Humphrey Point and 34 miles NW of Demarcation Point, Arctic Plain; 69° 57' N, 142° 30' W; (map 138). Variant: Siksik Creek. Eskimo name recorded on Barter Island in 1952 by USC&GS. The name Sikrik generally refers to the Parry ground squirrel (Rausch, 1951, p. 179).

Siksikpak Ridge: ridge, 900 ft., extends NE-SW 6 miles between Colville River and Ninuluk Creek, 31 miles SW of Umiat, Arctic Slope; 69° 05' N, 153° 20' W; (map 142). Variant: Sikisikpak Hill. Eskimo name; obtained in 1956 at Anaktuvuk Pass by T. E. Taylor, USGS. It is the Eskimo word for the hoary marmot [Sikrikpak].

Siksikpalak River: stream, flows 20 miles NE to Matsutuak River 3 miles S of its junction with Ekaluakat River and 18 miles W of Demarcation Point, Arctic Plain; 69° 41' N, 142° 03' W; (map 138). Eskimo name recorded on Barter Island in 1952 by USC&GS. The Eskimo name for the hoary marmot is Sikrikpak or Sikrikpaluk.

Siksikpuk River: stream, flows NNE 49 miles to Chandler River, 4 miles E of Aiyak Mesa and 51 miles N of Anaktuvuk Pass, Brooks Range; 68° 52' N, 151° 55' W; BGN 1949; (map 134). Variant: Sic-sic-puk River. Eskimo name for the hoary marmot (*Marmota caligata broweri*); sometimes spelled sikrikpak. The name was reported in 1944 by USGS geologists during exploration of Naval Petroleum Reserve No. 4.

Siksrikpak Point: point of land, extends N into Kasegaluk Lagoon 4.5 miles S of Point Lay, Arctic Plain; 69° 41' 30" N, 163° 02' 15" W; (map 145). Variant: Seegikroorak Point, Sigikrurak Point. Eskimo name [Sikrikpak] for the hoary marmot, *Marmota caligata broweri* (Rausch,

1951, p. 178), published by USGS in 1955. Orth obtained the name “Sigikrurak” at Point Lay in 1956.

Siktunak Island: islands, see Trinity Islands.

Siku Entrance: water passage, connecting Beaufort Lagoon and Beaufort Sea at W end of Icy Reef, 17 miles NW of Demarcation Point, Arctic Plain; 69° 49' N, 141° 55' W; (map 138). Eskimo name meaning “ice” recorded on Barter Island in 1952 by USC&GS. The full name of this feature is “Siku Ilik” meaning “ice strait.”

Siku Lagoon: lagoon, extends 15 miles SE from Siku Point behind Icy Reef, 6 miles NW of Demarcation Point, Arctic Plain; 69° 47' N, 141° 41' W; (map 138). Eskimo name meaning “ice” recorded on Barter Island in 1952 by USC&GS.

Siku Point: point of land, on island in Kongakut River delta, between Beaufort and Siku Lagoons, 16.5 miles NW of Demarcation Point, Arctic Plain; 69° 49' N, 141° 54' W; BGN 1962; (map 138). Variant: Sikuk Point. Eskimo name recorded on Barter Island in 1952 by USC&GS and meaning “ice.” It is descriptive of the semi-permanent ice, or aufeis, that is found on the delta of the Kongakut River.

Sikuk Point: point of land, see Siku Point.

Sikukik Lake: lake, see Tusikvoak, Lake.

Sikulik Lake: lake, partially drained, 1.5 miles long, 10 miles SE of Barrow, Arctic Plain; 71° 11' 20" N, 156° 24' 40" W; (map 153). Eskimo name recorded by USGS in 1956, which means “having ice.”

Sikutaktukvik River: stream, see Sikrelurak River.

Silak Island: island, 0.2 miles across, between Little Tanaga and Kagalaska Islands; Aleutian Islands; 51° 48' 55" N, 176° 14' 30" W; BGN 1936; (map 17). Variant: Ostrov Silakh. Aleut name published by Capt. Tebenkov (1852, map 28), IRN, as “O[strov] Silakh,” or “Silakh Island.”

Silakh, Ostrov: island, see Silak Island.

Silalinigun Creek: stream, flows W 4.5 miles to Killik River, NW of Kaikshak Hill, Brooks Range; 68° 24' N, 154° 03' W; (map 133). Eskimo name that refers to exposed rock bedding or “mountain lines,” reported in 1956 by Orth.

Silas Pup: stream, flows SW 1 mile to My Creek, 80 miles SW of Eagle, Yukon-Tanana Highlands; 64° 07' N, 143° 12' W; (map 102). Local name published in 1956 by USGS.

Silawi'nmium: village, see Selawik.

Silk Bay: bay, see Mary, Port.

Silk Bay: bay, see Shelikof Bay.

Sillyasheen Mountain: mountain, 6,188 ft., 9 miles SW of Cairn Mountain and 73 miles NW of Wiseman, Brooks Range; 67° 46' N, 152° 42' W; BGN 1932; (map 124). Robert Marshall reported this Eskimo name in 1932.

Silok Creek: stream, see Delta Creek.

Silok Creek: stream, see Dry Creek.

Silok Creek: stream, see Little Delta River.

Silokh Creek: stream, see Little Delta River.

Silook Camp: locality, left bank of Koozata River, at Koozata Lagoon, 43 miles SE of Gambell, on St. Lawrence Island; 63° 24' N, 170° 40' W; BGN 1951; (map 93). Variant: Tapphaghuk Camp. Eskimo family name reported in 1949 by Maj. H. B. Allen, USAF.

Silver Bay: bay, 0.5 miles across, 5 miles long, 5 miles E of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 02' N, 135° 12' W; (map 9). Variant: Bukhta Serebryanikova, Serebrennikof Arm, Serebrinikov Cove. This is an 1882 translation by USC&GS of the name "Bukhta Serebryanikova," published by Capt. Tebenkov (1852, map 38), IRN.

Silver Bay: locality, at Silver Bay, on W coast of Baranof Island, Alexander Archipelago; 56° 59' N, 135° 07' W; (map 5). Former summer camp of the Sitka Indians reported in the 1880 Census by Petroff (1884, P. 32).

Silver Bow Creek: stream, flows NE 5 miles to join Enterprise Creek to form McKinley Creek 64 miles SW of Eagle, Yukon-Tanana Highlands; 64° 17' N, 142° 58' W; (map 102). Prospectors' name shown on an 1898 menu script map by C. A. Woodruff, Fort Cudahy, Canada.

Silver Creek: stream, flows NE to Hannum Creek which flows to Inmachuk River, about 20 miles N of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name reported in 1901 by USGS (Collier, 1902, pl. 12). This stream cannot be identified on current maps.

Silver Creek: stream, flows S 2.5 miles to Goldstream Creek, 6.5 miles N of Fairbanks, Yukon-Tanana Highlands; 64° 56' 40" N, 147° 42' 15" W; (map 100). Local name shown 1905 on a manuscript map by C. W. Joint.

Silver Creek: stream, flows S 3.4 miles to Stewart River, 21 miles N of Nome, Seward Peninsula Highlands; 64° 48' 40" N, 165° 25' 10" W; (map 94). Variant: Right Fork Stewart River. Prospectors' name reported in 1904 by T. G. Gerdine, USGS. This appears to be the stream shown as Right Fork [Stewart River]" on a map dated 1901 of Cape Nome gold fields by David Fox, Jr.

Silver Creek: stream, flows S 5.3 miles to Eliza Lake, 4.8 miles SE of Northway Junction, Alaska Range; 62° 58' 40" N, 141° 40' 20" W. (map 84). Local name reported by USGS in 1954.

Silver Creek: stream, flows SE 0.7 miles to Sourdough Creek, 10 miles NW of Mount Ryan and 76 miles SW of Circle, Yukon-Tanana Highlands; 65° 21' 45" N, 146° 28' 30" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Silver Creek: stream, flows SE 1.6 miles to Goldbottom Creek, 16 miles N of Nome, Seward Peninsula Highlands; 64° 44' 36" N, 165° 23' 40" W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Silver Creek: stream, flows SW 4 miles to Ptarmigan Creek, 27 miles NW of Augustine Island, Aleutian Range; 59° 38' 41" N, 153° 58' 20" W; (map 51). Local name published by Martin and Katz (1912, pl. 1), USGS.

Silver Creek: stream, flows W 15 miles to Poorman Creek, 70 miles NW of Medfra, Kilbuck-Kuskokwim Mountains; 63° 58' N, 155° 56' W, BGN 1936; (map 89). Local name reported by Eakin (1914, pl. 1), USGS.

Silver Creek: stream, flows W 2 miles to head of Dry Creek, 4 miles NE of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name published in 1900 by Schrader (1900c, p. 16), USGS. Subsequent maps show a different drainage pattern at the head of Dry Creek.

Silver Creek: stream, on Kenai Peninsula, flows N 1 mile to China Poot Bay, on E shore of Kachemak Bay, 10 miles SE of Homer, Chugach Mountains; 59° 33' 15" N, 151° 18' 00" W; (map 50) Local name reported and published by USGS in the 1950's.

Silver Creek: stream, on Revillagigedo Island, flows SW 0.4 miles to Fish Creek, 1 mile N of Thorne Arm, Alexander Archipelago; 55° 24' 30" N, 131° 11' 32" W; (map 3). Local name published by F. E. Wright and C. W. Wright (1908, fig. 12), USGS.

Silver Creek: stream, see Fourmile Creek.

Silver Creek: stream, see Snowslide Creek.

Silver Creek: stream, see Stibnite Creek.

Silver Falls: falls, in course of Fish Creek, 4 miles N of Hyder, Coast Mountains; 55° 58' 40" N, 130° 03' 05" W; (map 3). Local name reported in 1955 by USGS.

Silver Farm Lodge locality, see Fox Farm Lodge.

Silver Fox Lodge locality, see Fox Farm Lodge.

Silver Fox Roadhouse: locality, see Fox Farm Lodge.

Silver Glacier: glacier, trends N 3 miles to its terminus, 2 miles SE of Silver Lake, 35 miles NW of Cordova, Chugach Mountains; 60° 55' N, 146° 23' W; (map 64). Local descriptive name published in 1952 by USGS.

Silver Gulch: ravine, trends S 1 mile to Fox Creek, 7 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 57' N, 147° 39' W; (map 100). Local name shown on a location map of the Tanana Mines Railroad 1905.

Silver Horn: bay, extends W 4 miles from W end Of Lake Beverly, 46 miles NW of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 41' N, 158° 50' W; BGN 1931; (map 52). Variant: Sai-ukstchu-schluk. Named in 1929 by the U.S. Commissioner of Fisheries. The Eskimo name "Sai-ukstchu-schluk" was shown on a 1910 manuscript map by H. C. Fassett, USBF.

Silver Lake: lake, 1.2 miles long, on Kenai Peninsula in course of West Fork Moose River, 16 miles E of Kenai, Cook Inlet Lowland; 60° 38' 45" N, 150° 48' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Silver Lake: lake, 3 miles long, 3 miles NW of Mount Denson, 35 miles NW of Cordova, Chugach Mountains; 60° 57' N, 146° 29' W; (map 64). Local descriptive name published in 1952 by USGS.

Silver Point: point of land, on small island, in Eastern Channel, 3 miles SE of Sitka, off W coast of Baranof Island, Alexander Archipelago; 57° 00' 50" N, 135° 18' 00" W; (map 9). Named by the U.S. Navy in 1880; published by USC&GS in 1883 Coast Pilot (p. 144).

Silver Salmon Creek: stream, flows E 6 miles to Wood River, 13 miles N of Dillingham, Bristol Bay Lowland; 59° 13' 45" N, 158° 33' 00" W; (map 52). Local name reported in 1952 by USGS.

Silver Salmon Creek: stream, in Chigmit Mountains, distributary of West Glacier Creek, flows SE 4 miles to Chinitna Bay, Aleutian Range; 59° 51' 50" N, 153° 12' 50" W; (map 51). Local name reported in 1957 by USGS.

Silver Salmon Falls: waterfall, on Lester River 4.5 miles from its mouth, W coast of Prince of Wales Island, Alexander Archipelago; 55° 47' 30" N, 133° 00' 45" W; (map 4). Local name recorded in 1949 by USGS.

Silver Salmon Lakes: lakes, group of lakes, 5 miles E of Red Glacier and 47 miles NW of Homer, Aleutian Range; 59° 59' 50" N, 152° 40' 30" W; (map 50). Local name reported and published by USGS in the 1950's.

Silver Salmon Rapids: rapids, in Kasilof River, on Kenai Peninsula, W of Tustumena Lake, 20 miles S of Kenai, Cook Inlet Lowland; 60° 16' 40" N, 151° 12' 50" W; (map 62). Local name reported in 1959 by USGS.

Silverbow Basin: valley, on Gold Creek, N of Icy Gulch, 1.5 miles N of the Gastineau Peak and 2.4 miles NE of Juneau, Coast Mountains; 58° 18' 45" N, 134° 20' 45" W; (map 11).

Named by Richard Harris in 1880 for the Silver Bow Mine in Montana. This basin was the site of the earliest gold discoveries in the Juneau area (DeArmond, 1957, p. 39-40).

Silverbow Creek: stream, flows SW 2.7 miles to Norton Sound, 17 miles E of Solomon, Seward Peninsula Highlands; 64° 35' N, 163° 51' W; (map 95). Variant: Little Anvil Creek. Prospectors' name shown on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904. Reported in 1900 as "Little Anvil Creek" by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Silverbow Creek: stream, flows W 4.3 miles to Hutlinana Creek, 2.8 miles ESE of Eureka and 19 miles S of Rampart, Yukon-Tanana Highlands; 65° 10' N, 150° 08' W; (map 106). Prospectors' name reported in 1906 by USGS (Prindle, 1908, pl. 5).

Silverthrone Col: pass, 10,500 ft., between Brooks and Traleika Glaciers, with West Pyramid Peak to N and Mount Silverthrone to S, 10.7 miles NE of summit of Mount McKinley, Alaska Range; 63° 08' 15" N, 150° 42' 00" W; BGN 1948; (map 88). Named in 1945 by a USAAF Cold Weather test party; reported in 1946 by Bradford Washburn.

Silverthrone, Mount: peak, 13,220 ft., in Mount McKinley National Park at head of Brooks Glacier, 11 miles ENE of Mount McKinley, Alaska Range; 63° 07' 00" N, 150° 40' 30" W; BGN 1948; (map 88). Climbed and named by the U.S. Army Forces Cold Weather test party about March 1945. "So named because of its stately appearance at the head of Brooks Glacier."

Silvertip Creek: stream, on Kenai Peninsula, flows N 4 miles to East Fork Sixmile Creek, 12 miles SE of Sunrise, Chugach Mountains; 60° 44' 59" N, 149° 21' 45" W; (map 63). Local prospectors' name; reported in 1904 by Moffit (1906, pl. 2), USGS.

Silvertip: locality, on Kenai Peninsula, between Seward Highway and East Fork Sixmile Creek, 24 miles SW of Whittier and 9 miles SE of Sunrise, Chugach Mountains; 60° 45' N, 149° 22' W; (map 63). Former mining camp in Sixmile Creek mining area. Recent USGS maps indicate a site with four buildings. Name derived from nearby Silvertip Creek.

Silvester Point: point of land, on NE coast of Saint Ignace Island, Alexander Archipelago; 55° 25' 15" N, 133° 24' 40" W; (map 4). Variant: Mys de San Silbestre, Punta de San Silbestre, Punta San Silvestre. Translation of the name "Punta de San Silbestre" given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle.

Silvia Creek: stream, flows SE 4 miles to Charley River, 14 miles SW of that stream's junction with Yukon River, Yukon-Tanana Highlands; 65° 09' N, 142° 57' W; (map 103). Variant: Selin Creek. Local name; published in 1956 by USGS. "Selin" was recorded on an unpublished map by E. J. Chamberlain, dated 1902.

Silvis Lake: lake, see Lower Silvis Lake.

Silvis Lakes: lake, see Upper Silvis Lake.

Simanof Island: island, see Simonof Island.

Simanoff Island: island, see Simonof Island.

Simedan Islands: islands, see Semidi Islands.

Simedun Islands: islands, see Semidi Island.

Simel Mountain: mountain, see Bonasila Dome.

Simel Slough: stream, see Bonasila Slough.

Simels: locality, on S bank of Innoko River, 2.6 miles SE of its junction with Dishna River and 38 miles NW of Ophir, Innoko Lowland; 63° 35' 20" N, 157° 12' 30" W; (map 90). Landing with a couple of cabins; now abandoned.

Simeon Creek: stream, heads W of Simeon Pass, flows N 5.2 miles to Featherly Creek 4 miles SW of its mouth at Becharof Lake, on Alaska Peninsula, 48 miles NE of Ugashik, Aleutian Range; 57° 44' 40" N, 156° 13' 25" W; (map 36). Name reported in 1902 by J. L. McPherson of Iliamna.

Simeon Pass: pass, elev. 800 ft., between Simeon Creek and W tributary to Burl Creek, on Alaska Peninsula, 47 miles NE of Ugashik, Aleutian Range; 57° 41' 40" N, 156° 11' 45" W; (map 36). Local name reported in 1902 by J. L. McPherson of Iliamna; the name was published by G. C. Martin (1921, pl. 10), USGS.

Simeon, Mount: mountain, 1,000 ft., 2 miles W of village of Cold Bay, at SW end of Alaska Peninsula, Bristol Bay Lowland; 55° 11' 30" N, 162° 47' 30" W; (map 29). Name published by USGS (Waldron, 1961, pl. 79).

Simeon, Mount: peak, 1,500 ft., near S arm of Becharof Lake, E of Simeon Pass, on Alaska Peninsula, 48 miles NE of Ugashik, Aleutian Range; 57° 42' N, 156° 11' W; (map 36). Name reported in 1902 by J. L. McPherson of Iliamna; published by G. C. Martin (1921, pl. 10), USGS.

Simeonof Harbor: anchorage, 0.5 miles across, on NW coast of Simeonof Island, in Shumagin Islands, Aleutian Range; 54° 55' 30" N, 159° 18' 00" W; (map 26). Variant: Simeonoff Harbor, Simeonoffsky Harbor. Surveyed and named in 1872 by W. H. Dall, USC&GS.

Simeonof Island: island, 6 miles across, easternmost of Shumagin Islands, Aleutian Range; 54° 54' N, 159° 16' W; BGN 1890; (map 26). Variant: Semenoffsky, Semenovskie, Semenovsky, Simeonoff, Simeonovski, Tachkinach, Taghinak, Takhinak, Tankh-kin-iakh, Tiakinak, Tikhiniak. Called "Simeonoff" in 1872 by W. H. Dall, USC&GS; other Russian forms of "Simon" include "Semenovsky," by Capt. F. P. Lutke, IRN, and "Semenovskie" by Capt. M. D. Tebenkov, IRN, and the Russian Hydrog. Dept. Aleut names applied to this island include "Tachkinach," by Lt. G. A. Sarichev, IRN, and "Taghinak," "Tikhiniak," and "Takh-kiniakh" by Capt. Lutke, IRN.

Simeonoff Harbor: anchorage, see Simeonof Harbor.

Simeonoff: island, see Simeonof Island.

Simeonoffsky Harbor: anchorage, see Simeonof Harbor.

Simeonovski: island, see Simeonof Island.

Simidin: island, see Aghiyuk Island.

Simik Hill: hill, 556 ft., 10 miles SW of Jarvis Mountain and 9 miles NE of Kivalina, Arctic Slope; 67° 50' N, 164° 21' W; (map 128). Variant: Seemick, Siimik. Eskimo name meaning “stopper” or “plug”; so called because from upriver the hill seems to block the Kivalina River; reported in 1966 by E. S. Burch.

Simik Mountain: hill, 600 ft., in Igichuk Hills, on W bank of Milokrawlok Creek, 10 miles NE of Cape Krusenstern, Arctic Plain; 67° 10' 30" N, 163° 22' 30" W; (map 128). Eskimo name meaning “stopper (or plug)” obtained in 1950 by USC&GS.

Simitkhi Islands: islands, see Semichi Islands.

Simmons Point: point of land, on SW coast of Prince of Wales Island, between Copper Harbor and Hetta Inlet, Alexander Archipelago; 55° 12' 15" N, 132° 37' 35" W; (map 4). Local name reported in 1905 by E. F. Dickins, USC&GS.

Simmons, Lake: lake, see Summit Lake.

Simon Creek: stream, flows SE 18 miles to Yukon River, 39 miles N of Anvik and 57 miles SE of Unalakleet, Nulato Hills; 63° 11' 20" N, 159° 44' 00" W; (map 91). Local name reported in 1949 by USC&GS.

Simon Point: point of land, on W bank of Yukon River, 9.5 miles N of Fox Point Island and 58 miles SE of Unalakleet, Nulato Hills; 63° 10' 25" N, 159° 43' 10" W; (map 91). Local name reported in 1949 by USC&GS.

Simonds, Point: point of land, S tip of Post Island, along W coast of Chichagof Island 13 miles NW of Chichagof, Alexander Archipelago; 57° 47' 18" N, 136° 20' 10" W; (map 9). Name published in 1928 by USC&GS on Chart 8258.

Simonof Island: island, 0.1 miles long, in Highfield Anchorage, off N tip of Wrangell Island, Alexander Archipelago; 56° 29' 40" N, 132° 22' 00" W; (map 6). Variant: Observation Islet, Simanoff Island, Simanof Island, Simonoff Island. Named in 1865 by the British Admiralty.

Simonoff Island: island, see Simonof Island.

Simonton Point: point of land, N end of Nakat Harbor entrance, in Nakat Inlet, 2 miles NE of Nakat Bay, Coast Mountains; 54° 49' 45" N, 130° 42' 45" W; (map 2). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Simplex Creek: stream, flows NW 4 miles to Middle Fork Chandalar River, 15 miles ESE of Chandalar, Brooks Range; 67° 26' N, 148° 57' W; (map 123). Prospectors' name obtained in 1909 by A. G. Maddren (in Brooks and others, 1910, pl. 7), USGS.

Simpson Bay: bay, U-shaped, 8 miles long, on NE shore of Orca Bay, 8 miles NW of Cordova, Chugach Mountains; 60° 37' 30" N, 145° 55' 00" W; (map 64). Local name reported by Lt. Comdr. J. F. Moser, USN, in 1897.

Simpson Cove: cove, 4 miles across, off Camden Bay, S of Collinson Point, 28 miles SW of Barter Island, Arctic Plain; 69° 57' N, 144° 54' W; (map 139). Named by Lt. Comdr. C. H. Stockton, USN, for Thomas Simpson, factor of the Hudson's Bay Company, who with Peter Warren Dease in 1837, made an exploring journey along the Arctic coast from the mouth of the Mackenzie River to Point Barrow.

Simpson Creek: stream, flows SW 9 miles to Simpson Bay, 10 miles NW of Cordova, Chugach Mountains; 60° 42' N, 145° 50' W; (map 64). Local name published in 1951 by USGS; derived from Simpson Bay to which the stream flows.

Simpson Lagoon: lagoon, extends NW 40 miles from Point McIntyre, between Jones and Return Islands and mainland, on Beaufort Sea Coast Arctic Plain; 70° 30' N, 149° 12' W, BGN 1916; (map 150). Named by Leffingwell (1919, p. 91) "After Thomas Simpson of the Hudson's Bay Company. * * * His name has been placed at Simpson Lagoon, behind Return Islands and Jones Islands, as he was the first white man to traverse this body of water."

Simpson Pass: pass, 3,900 ft., at head of Earl River, S of Kichatna Mountains, 88 miles W of Talkeetna, Alaska Range; 62° 20' N, 152° 51' W; (map 81). Discovered and named in 1889 by Lt. J. S. Herron, USA.

Simpson Peak: mountain, 5,599 ft., 18 miles ENE of Petersburg, Coast Mountains; 56° 52' 30" N, 132° 29' 00" W; (map 6). Local name published in 1943 by USC&GS.

Simpson Rock: rock, in Galankin Islands, Sitka Sound, 2 miles S of Sitka, Alexander Archipelago; 57° 01' 10" N, 135° 20' 40" W; (map 9). Discovered and named in 1862 by officers of H.M.S. Devastation (U.S. Coast and Geodetic Survey, 1883, p. 143).

Simpson, Cape: point of land, on coast of Beaufort Sea, W point of entrance to Smith Bay, Arctic Plain; 70° 59' N, 154° 34' W; (map 148). Variant: Cape George Simpson, Cape Governor Simpson, We-wa-le-ah. On July 28, 1837, Thomas Simpson (1843, p. 138) wrote: "We encamped on the extremity of this well-defined point, which, as a testimony of sincere respect and regard for the able and indefatigable Governor of all the Company's [Hudson's Bay] territories, we named Cape George Simpson." The Eskimo name We-wa-le-ah appears on Maguire's chart (Great Britain, 1854, facing p. 186).

Simpson, Mount: mountain, 4,345 ft., 5 miles SE of outlet of Klutina Lake, 44 miles NNE of Valdez, Chugach Mountains; 61° 41' 15" N, 145° 37' 55" W; (map 68). Named in 1898 by Capt. W. R. Abercrombie, USA.

Simson Peak: mountain, 1,470 ft., 0.5 miles E of Lake Cories, eastern Attu Island, Aleutian Islands; 52° 54' 20" N, 173° 15' 15" E; (map 13). Name shown on an AMS map published in 1948, and given by the U.S. Army during World War II. The name is not used today.

Sin-i-Rock: locality, on spit on Chukchi Sea coast, 14 miles NE of Cape Prince of Wales, at W end of Seward Peninsula, Kotzebue-Kobuk Lowland; 65° 46' N, 167° 49' W; (map 111). Site

of an Eskimo campground; the name was recorded on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Sin: locality, on Khlebnikof Point, on E coast of Attu Island, Aleutian Islands; 52° 55' 30" N, 173° 18' 00" E; (map 13). This archaeological site was reported to be an old village and one of three sites excavated on Attu Island in 1909-10 (Jochelson, 1925, p. 24).

Sinaaruaq: locality, see Sinaru.

Sinagnia: locality, see Imagnee.

Sinagnya: locality, see Imagnee.

Sinar: locality, on W coast of Seward Peninsula, near Port Clarence, Seward Peninsula Highlands; 65° 09' N, 166° 30' W; (map 111). Variant: Sinarmete. Former Eskimo village or camp recorded on Sheldon Jackson's 1896 map.

Sinara: locality, see Sinaru.

Sinarmete: locality, see Sinar.

Sinaru Creek: stream, see Singaruak Creek.

Sinaru Inlet: stream, see Singaruak Creek.

Sinaru: locality, on Chukchi Sea coast, near mouth of Singaruak Creek, 18 miles SW of Barrow, Arctic Plain; 71° 04' 30" N, 157° 11' 40" W; (map 153). Variant: Sinaaruaq, Sinara, Singaroo, Singorauk, Sinra, Sinragahroo, Sinrarua. This is an old and well-established coastal camp named for the estuary-like mouth of Singaruak Creek. Lt. D. H. Jarvis, USRCS, established a reindeer camp here in 1898 and spells the name "Sine."

Sinaruruk River: stream, flows W 7 miles to Chukchi Sea, 4.5 miles NE of Wainwright, Arctic Plain; 70° 41' 45" N, 159° 54' 15" W; (map 146). Eskimo name reported in 1923 by USGS.

Sinaruruk: locality, on Chukchi Sea coast S of Sinaruruk River, Arctic Plain; 70° 41' 30" N, 159° 54' 30" W; (map 146). Variant: Kululin. Former Eskimo village or camp shown on P. Tikhmeniev's map of 1861 as "Kululin," which is also recorded on USC&GS sailing Chart T, 1890.

Sinbad Cove: bight, 0.5 miles across, facing E to Vega Bay, at mouth of Fork Creek, on S coast of Kiska Island, Aleutian Islands; 51° 52' 30" N, 177° 19' 40" E; (map 14). One of many arbitrary names applied to features on Kiska Island by USAAF for tactical purposes during World War II.

Sinbad Point: point of land, N entrance to Suloia Bay, on S coast of Chichagof Island, at W end of Peril Strait, Alexander Archipelago; 57° 24' 20" N, 135° 39' 00" W; (map 9). Name published in 1900 by USC&GS on Chart 8282.

Sinchiy, Ostrov: islands, see Sealion Islands.

Sinclair Lake: lake, 5 miles long, 9 miles E of Dease Inlet, and 46 miles SE of Barrow, Arctic Plain; 71° 00' N, 154° 47' W; BGN 1961; (map 153). Named by Thomas Simpson (1843, p. 144), August 1, 1837, for George Sinclair, an Eskimo guide who served Sir George Back in 1834. Known locally as "Lake Minga."

Sinclair Mountain: mountain, 6,300 ft., 3.5 miles E of Chilkoot Inlet and 26 miles SSE of Skagway, Coast Mountains; 59° 05' 45" N, 135° 09' 20" W; BGN 1920; (map 45). Named in 1920 by USC&GS for C. H. Sinclair who died in 1920 and who had 47 years of field service with the bureau. The name was published in 1924 on Chart 8303.

Sinclair River: stream, heads in Sinclair Lake, flows N 3 miles to Mackey Inlet, 43 miles SE of Point Barrow, Arctic Plain; 71° 04' 45" N, 154° 50' 30" W; BGN 1961; (map 153). Named by Thomas Simpson (1843, p. 144), August 1, 1837, for George Sinclair, an Eskimo guide who served Sir George Back in 1834.

Sind, Ostrova: island, see Saint Lawrence Island.

Sinde, Ostrov: island, see Saint Lawrence Island.

Sindsha, Ostrov: island, see Hall Island.

Sineak River: stream, flows S 9 miles to Norton Sound, 27 miles SW of Christmas Mountain, Nulato Hills; 64° 25' N, 161° 24' W; (map 96). Eskimo name reported about 1954 by U.S. Army Corps of Engineers.

Sinegpuk Cape: point of land, see Singikpak Point.

Sinerazat: locality, see Sinrazat.

Sing-i-too-rok: locality, see Kukpowruk.

Singa Island: island, 0.6 miles long, in SW El Capitan Passage, Alexander Archipelago; 55° 56' 45" N, 133° 21' 15" W; BGN 1932; (map 4). Variant: North Island. Haida Indian name from the word "shingia," meaning "night," and "used as a synonym for north, gold, dark or gloom." The translated name "North Island" was published in 1925 Coast Pilot (p. 154).

Singak Inlet: water passage, see Kukpowruk Pass.

Singaroo Creek: stream, see Singaruak Creek.

Singaroo: locality, see Sinaru.

Singaruak Creek: stream, flows N 10 miles to Chukchi Sea, 18 miles SW of Barrow, Arctic Plain; 71° 04' 40" N, 157° 11' 45" W; (map 153). Variant: Singorauk Creek, Sinrarua Creek, Sinaru Creek, Singaroo Creek, Sinaru Inlet. Eskimo name which refers in meaning to the stream's estuary-like mouth. The stream has been important because of a well established campsite near its mouth. The name seems to have been first recorded as "Sinrarua" by British naval officers, 1849-53, and published on Brit. Adm. Chart 593 (Baker, 1906). Lt. P. H. Ray

(1885, map) crossed the stream in 1883 with an Eskimo guide, and spelled the name "Singaroo."

Singat Creek: stream, flows N 8 miles to Chukchi Sea, 23 miles SW of Barrow, Arctic Plain; 71° 00' 45" N, 157° 19' 30" W; (map 153). Variant: Siinaat Waalaa. Eskimo name recorded by USC&GS about 1950 and may refer in meaning to the stream's estuary-like mouth.

Singatook Range: mountain range, see Kigluaik Mountains.

Singaugalik Inlet: water passage, see Singogalik Inlet.

Singaugalik Lagoon: lagoon, see Singogalik Lagoon.

Singaugalium Tasia: lagoon, see Singogalik Lagoon.

Singauk Entrance: water passage, in barrier reef between Chukchi Sea and Kivalina Lagoon, SE of Kivalina, Kotzebue-Kobuk Lowland; 67° 58' 30" N, 164° 31' 45" W; (map 128). Variant: Ohlick, Siingak. Eskimo name meaning "separating entrance" according to USC&GS in 1950.

Singauruk Point: point of land, extends into Selawik Lake, 14 miles W of Selawik, Kotzebue-Kobuk Lowland; 66° 35' N, 160° 30' W; (map 114). Eskimo name obtained by U.S. Army Corps of Engineers in 1955.

Singauruk River: stream, flows SW 25 miles to Selawik Lake, 14 miles W of Selawik, Kotzebue-Kobuk Lowland; 66° 35' N, 160° 30' W; (map 114). Eskimo name obtained by U.S. Army Corps of Engineers in 1955.

Singayoak Creek: stream, heads in De Long Mountains, flows N 32 miles to Nuka River, 67 miles NE of Misheguk Mountain, Brooks Range; 68° 55' N, 159° 12' W; BGN 1960; (map 131). Eskimo name reported to mean "loaded" given in 1953 by I. L. Tailleux, USGS, and so called "for the [large] amount of geologic information."

Singdolik Creek: stream, see Mapsorak Creek.

Singgak: locality, on Seward Peninsula, at E end of Shishmaref Inlet, 64 miles NW of Deering, Kotzebue-Kobuk Lowland; 66° 32' N, 164° 41' W; (map 113). Eskimo camp reported in 1940 by USGS.

Singgakpuk River: stream, on Seward Peninsula, flows N 10 miles to Shishmaref Inlet, 65 miles NW of Deering, Kotzebue-Kobuk Lowland; 66° 30' N, 164° 48' W; (map 113). Eskimo name reported in 1931 by USGS.

Singgegrook: spit, see Singigrak Spit.

Singick: locality, see Siniogamute.

Singick: village, see Siniogamute.

Singick: village, see Teller Mission.

Singigrak Spit: spit, in Imigrook Lagoon, 7.2 miles SE of Kivalina, Kotzebue-Kobuk Lowland; 67° 40' N, 164° 17' W; (map 128). Variant: Singeegrook, Singigzaaq. Eskimo name meaning "old mukluk tie-strap" reported in 1966 by E. S. Burch.

Singigyak: locality, 0.5 miles NE of Cape Woolley, on Bering Sea, 37 miles NW of Nome, Seward Peninsula Highlands; 64° 48' N, 166° 27' W; (map 94). Site of an Eskimo village or mining camp reported about 1940 by USC&GS and published on Chart 9380.

Singigzaaq: spit, see Singigrak Spit.

Singik Cape: point of land, see Singik Point.

Singik Point: point of land, 10 miles S of Gambell, W coast of St. Lawrence Island; 63° 39' N, 171° 46' W; BGN 1951; (map 93). Variant: Kavalghak Cape, Kavalrok, Singik Cape. Eskimo name, meaning "pointed," reported in 1949 by Maj. H. B. Allen, USAF.

Singikga, Cape: point of land, see Singikpo Cape.

Singikpa Cape: promontory, see Southwest Cape.

Singikpa: point of land, see Singikpak Point.

Singikpak Cape: point of land, see Singikpak Point.

Singikpak Point: point of land, 4 miles NE of Southwest Cape and 33 miles SE of Gambell, S coast of St. Lawrence Island; 63° 20' N, 171° 19' W; BGN 1951; (map 93). Variant: Sinegpuk Cape, Singikpa, Singikpak Cape, Southwest Cape. Eskimo name, meaning "big point," reported in 1949 by Maj. H. B. Allen, USAF.

Singikpo Cape: point of land, NE coast of St. Lawrence Island, 13 miles SE of Savoonga and 50 miles SE of Gambell; 63° 37' N, 170° 06' W; BGN 1951; (map 93). Variant: Cape Singikga, Cape Singikpo, Singikpo Point. Eskimo name, meaning "sharp" [singikhpa], reported in 1932 by O. W. Geist, Univ. of Alaska.

Singikpo Point: point of land, see Singikpo Cape.

Singogalik Inlet: water passage, between Singaugalik Lagoon and Chukchi Sea, 26 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 59' N, 165° 13' W; (map 128). Variant: Singaugalik Inlet, Singowgalick. Eskimo name reported in 1966 by E. S. Burch.

Singogalik Lagoon: lagoon, on shore of Chukchi Sea, 26 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 59' N, 165° 13' W; (map 128). Variant: Singaugalik Lagoon, Singaugalium Tasia, Singowgaleeyoom Tessaya. Eskimo name reported in 1966 by E. S. Burch.

Singoolik Creek: stream, see Mapsorak Creek.

Singorauk Creek: stream, see Singaruak Creek.

Singorauk: locality, see Sinaru.

Singowgaleeyoom Tessaya: lagoon, see Singogalik Lagoon.

Singowgalick: water passage, see Singogalik Inlet.

Siniagamute: locality, see Siniogamute.

Sinicktuknayluk Creek: stream, see Siniktaneyak Creek.

Sinigrok Point: point of land, extends SW into Aiautak Lagoon, 14 miles SE of Point Hope, Arctic Slope; 68° 18' 22" N, 166° 18' 50" W; (map 129). Eskimo name meaning "shoe lace [thong]" reported in 1956 by Orth; descriptive of the spit's narrowness.

Siniktagnailik: locality, see Siniktagnelik.

Siniktagnelik: locality, on right bank of Kivalina River, 17 miles NE of Kivalina, Arctic Slope; 67° 56' N, 164° 13' W; (map 128). Variant: Seeyicktagaylick, Siniktagnailik, Siniqtagnailik. Eskimo name referring to "no camping place" because "one cannot sleep" due to it being haunted; reported in 1966 by E. S. Burch. There is another Siniktagnelik 10 miles south of here.

Siniktagnelik: locality, on right bank of Wulik River, 19 miles NE of Kivalina, Kotzebue-Kobuk Lowland; 67° 48' N, 164° 04' W; (map 128). Variant: Seeyicktagaylick, Siniktagnailik. Eskimo name referring to "no camping place because one cannot sleep because many years ago some people mysteriously died here." Name reported in 1966 by E. S. Burch. There is another Siniktagnelik 10 miles north of here.

Siniktaneyak Creek: stream, flows NW 1.6 miles to Chukchi Sea, 6.6 miles S of Cape Dyer, Arctic Slope; 68° 33' 25" N, 166° 14' 30" W; (map 129). Variant: Sinicktuknayluk Creek. Eskimo name that refers in meaning to "some way or reason for not sleeping"; reported by USC&GS in 1950 and spelled "Sinick-tuk-nay-luk."

Siniktaneyak Mountain: mountain, 4,600 ft., 9 miles long, in De Long Mountains, Brooks Range, 40 miles WNW of Howard Pass; 68° 20' N, 158° 30' W; (map 132). An Eskimo name obtained at Noatak by Orth in 1956, and reported to mean "place where one cannot sleep."

Siningmon: locality, on S coast of Seward Peninsula at Golovnin Bay, Seward Peninsula Highlands; 64° 25' N, 163° 00' W; (map 95). Former Eskimo village or camp reported in the 1890 Census (1893, p. 162).

Siniogamut: locality, see Siniogamute.

Siniogamut: village, see Teller Mission.

Siniogamute: locality, on N shore of Port Clarence, 8 miles NW of Teller, Seward Peninsula Highlands; 65° 21' N, 166° 33' W; (map 111). Variant: Singick, Siniogamute, Siniogamut,

Sinuk, Zingaramute. Former Eskimo village reported as “Zingaramute” by members of the Western Union Telegraph Expedition quartered at Teller, 1866-67. In the 1880 Census Petroff (1884, p. 11) listed the village of “Siniogamute” population 36; in 1890 the population was recorded with the villages of Port Clarence. Hodge (1910, p. 577), BAE, lists “Sinuk” located on N shore of Port Clarence.

Siniogamute: village, see Teller Mission.

Siniqtagnailik: locality, see Siniktagnelik.

Sinits Island: island, see Sinitsin Island.

Sinitsin Cove: bay, 0.6 miles across, on N coast of Kruzof Island, 25 miles NW of Sitka, Alexander Archipelago; 57° 20' 00" N, 135° 44' 30" W; (map 9). Name reported in 1896 by Lt. Comdr. E. K. Moore, USN, and published by USC&GS in 1901 Coast Pilot (p. 196).

Sinitsin Island: island, 0.3 miles across, in Salisbury Sound, off N coast of Kruzof Island, Alexander Archipelago; 57° 20' 45" N, 135° 45' 40" W; (map 9). Variant: Ostrov Sinitsyna, Sinits Island. Named in 1833 by the Russian navigator Ens. Vasiliev for Lt. Nikolai Sinitzin, IRN, who accompanied Hagemeister in 1828-30 on the Krotkoi on his third voyage to the Russian American colonies.

Sinitsyna, Ostrov: island, see Sinitsin Island.

Sink Hole Lake: lake, 0.2 miles long, 4.5 miles N of Neck Lake, on Prince of Wales Island, Alexander Archipelago; 56° 10' 10" N, 133° 10' 20" W; BGN 1963; (map 6). Local descriptive name reported in 1961 by USFS. “The lake drains into a nearby sink hole and there is no other outlet. This sink hole and several others in the area are quite impressive.”

Sinking Creek: stream, on Iniskin Peninsula, flows NW 2 miles to Chinitna Bay, E of Camp Point, Aleutian Range; 59° 50' N, 153° 04' W; BGN 1962; (map 51). Local name reported in 1951 by USGS.

Sinnott Creek: stream, flows NW 4 miles to Seventymile River, 8 miles NW of Eagle, Yukon-Tanana Highlands; 64° 53' N, 141° 21' W; (map 102). Prospectors' name shown on a 1902 manuscript map by E. J. Chamberlain, U.S. Deputy Surveyor.

Sinnyu: lagoon, see Middle Salt Lagoon.

Sinnyu: locality, see Sinyu.

Sinnyuli: lagoon, see Middle Salt Lagoon.

Sinnyuli: locality, see Sinyu.

Sinona Creek: stream, flows S 40 miles to Chistochina River 1.5 miles N of its junction with Copper River, Copper River Basin; 62° 34' N, 144° 38' W; BGN 1936; (map 83). Variant: Schnuna River, Shnu Creek, Shuna Creek. Indian name, said to mean “Brush Creek.”

Recorded as “Schnuna River” in 1885 by Lt. Allen (1887, p. 65), USA. Local use of the name “Sinona Creek” reported by USGS in 1936.

Sinona Lake: lake, 1.3 miles long, drains SW to Sinona Creek, 28 miles NW of Chistochina, Alaska Range; 62° 57' N, 144° 53' W; (map 83). Local name reported by USGS in 1954. Named for Sinona Creek.

Sinona Lodge: roadhouse, on Glenn Highway at Sinona Creek, 44 miles NE of Glennallen, Copper River Basin; 62° 35' 30" N, 144° 39' 00" W (map 83).

Sinook River: stream, see Sinuk River.

Sinra: locality, see Sinaru.

Sinragahroo: locality, see Sinaru.

Sinrakturak Inlet: water passage, between Imigrook Lagoon and Chukchi Sea, 5 miles SE of Kivalina, Kotzebue-Kobuk Lowland; 67° 41' N, 164° 22' W; (map 128). Variant: Seenrakroorak, Sinraqzuuzaq. Eskimo name meaning “little outlet” reported in 1966 by E. S. Burch.

Sinraqzuuzaq: water passage, see Sinrakturak Inlet.

Sinrarua Creek: stream, see Singaruak Creek.

Sinrarua: locality, see Sinaru.

Sinrazat: locality, on barrier island, between Arctic Lagoon and Chukchi Sea, 20 miles SW of Shishmarev, Kotzebue-Kobuk Lowland; 66° 06' N, 166° 40' W; (map 112). Variant: Senezatt, Senerazat. Eskimo name for a village visited in 1898 by Lt. D. H. Jarvis, USRCS. The 1880 and 1890 censuses do not list this place. Present-day maps show a “Sinrazat Shelter Cabin.”

Sinrock Creek: stream, see Sinuk River.

Sinuk Creek: stream, flows N 6 miles to Killik River 4.5 miles SW of its junction with Easter Creek, Brooks Range; 68° 06' N, 154° 17' W; (map 133). Eskimo name meaning “stream mouth,” reported in 1956 by Orth.

Sinuk Missionary Station: locality, see Sinuk.

Sinuk River: stream, heads N of Tigaraha Mountain, flows SW 48 miles to Norton Sound, 25 miles NW of Nome, Seward Peninsula Highlands; 64° 35' N, 166° 15' W; (map 94). Variant: Sinook River, Sinrock Creek, Synrock River. Eskimo name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Sinuk: locality, at mouth of Sinuk. River, on Bering Sea coast, 26 miles NW of Nome, Seward Peninsula Highlands; 64° 36' N, 166° 15' W; (map 94). Variant: Sinuk Missionary Station. Site of an Eskimo village reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS. See Siniogamute.

Sinuk: locality, see Siniogamute.

Sinuk: village, see Siniogamute.

Sinuk: village, see Teller Mission.

Sinuk: water passage, from Chukchi Sea to mouth of Kukpuk River, 12 miles NE of village of Point Hope, Arctic Slope; 68° 25' 10" N, 166° 23' 30" W; (map 129). Eskimo name reported in 1950 by USGS to mean "stream mouth."

Sinyalak Creek: stream, flows S 15 miles to Alatna River. 57 miles NE of Hughes, Hogatza Highlands; 66° 40' N, 153° 03' W; (map 116). Eskimo name recorded in 1956 at Kobuk by Orth and reported to mean "all split up."

Sinyu: locality, on Chukchi Sea coast, at Middle Salt Lagoon, 2 miles NE of Barrow, Arctic Plain; 71° 19' N, 156° 41' W; (map 153). Variant: Sinnyu, Sinnyuli. Former Eskimo summer village reported as "Sinnyu" by Sgt. John Murdoch, USA (Hodge, 1910, p. 577).

Siomouth Creek: stream, flows NE to Pargon River, about 15 miles NE of Council, Seward Peninsula Highlands; (map 110). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This stream cannot be precisely located on current maps.

Siotukuyuk Bluff: bluff, elev. 300 ft., on E bank of Ikillik River, 32 miles NE of Umiat, Arctic Plain, 69° 34' N, 150° 57' W; (map 141). Eskimo name reported in 1956 by T. E. Taylor, USGS.

Siouchi Bay: cove, see Sealion Cove.

Siouchi Point: point of land, see Georgiana, Cape.

Siouchi: rocks, see Sealion Rocks.

Sioutchi Creek: cove, see Sealion Cove.

Sioutchi: rocks, see Sealion Rocks.

Sipewtaq Lagoon: lagoon, see Ipiutak Lagoon.

Sir Henry Martin, Point: point of land, see Martin Point.

Sir Pulteney Malcolm River: stream, see Malcolm River.

Sir T. Staines River: stream, see Staines River.

Sirius Point: point of land, northernmost point on Kiska Island, Rat Islands, Aleutian Islands, 52° 08' N, 177° 36'E, BGN 1937, (map 14). Named in 1936 by the U.S. Navy Hydrog. Office for the U.S.S. Sirius, supply ship of the Navy Aleutian Island Survey Expedition of 1935.

Siroi, Point: point of land, 2.5 miles N of Fish Bay, near W end of Peril Strait, on NW coast of Baranof Island, Alexander Archipelago; 57° 25' N, 135° 35' W; (map 9). Variant: Mys Syroy. Russian name meaning “wet,” given in 1833 by the navigator Ens. Vasiliev; published in 1848 on Russian Hydrog. Dept. Chart 1397 as “M[ys] Syroy.”

Sirr Creek: stream, flows S 4 miles from Sirr Mountain to Seward Creek, 1 mile W of Wild Lake and 41 miles W of Wiseman, Brooks Range; 67° 30' 30" N, 151° 38' 00" W; BGN 1932; (map 124). Variant: Surr Creek. Named in 1932 by Robert Marshall, “for Ben Sirr, one of the veteran prospectors of the Koyukuk.”

Sirr Mountain: mountain, 5,705 ft., 4 miles NW of Wild Lake and 42 miles NW of Wiseman, Brooks Range; 67° 34' 20" N, 151° 39' 00" W; (map 124). Variant: Surr Mountain. Named about 1930 by Robert Marshall, “because it lies at the head of the creek named for the prospector, Ben Sirr.”

Siruk Creek: stream, heads in lake, flows SE and NE 50 miles to Alatna River, 52 miles NE of Hughes, Hogatza Highlands; 66° 42' N, 153° 18' W; (map 116). Variant: Chalatna Creek, Sirurk Creek. Eskimo name obtained in 1901 by Mendenhall (1902, pl. 5), USGS. The Indian name is “Chalatna,” reported in 1956 by Orth.

Sirurk Creek: stream, see Siruk Creek.

Sisaguk: locality, on N coast of Unimak Island, near Cape Lapin, Aleutian Islands; 54° 39' N, 163° 18' W; (map 25). Variant: Schischaldenskoje, Sheeshaldenskoi, Shishaldin, Shishaldinski, Shishaldinskoe. Former Aleut village name recorded in 1833 as “Shishaldinskoe,” population 91, by Father Veniaminov (1840, v. 2, p. 203), which name was derived from the Russian name for the nearby volcano.

Sisaguk: mountain, see Shishaldin Volcano.

Sischu Creek: stream, flows W 9 miles to Sethkokna River, 4.5 miles E of Novi Mountain and 42 miles N of Telida, Kilbuck-Kuskokwim Mountains, 63° 58' N, 153° 18' W; (map 89). Local name reported in 1958 by USGS.

Sischu Mountain: mountain, 3,510 ft., at head of Titna River, 39 miles SW of Bitzshtini Mountains, Kilbuck-Kuskokwim Mountains; 64° 06' N, 152° 55' W; (map 99). Indian name obtained in 1899 by Lt. J. S. Herron, USA.

Sischu Mountain: mountains, see Sischu Mountains.

Sischu Mountains: mountains, 2,422 ft., trends NE-SW 25 miles along SE side of Kuskokwim Mountains, 37 miles N of Telida, Kilbuck-Kuskokwim Mountains; 63° 56' N, 153° 10' W; (map 89). Variant: Sischu Mountain. Indian name obtained in 1899 by Lt. J. S. Herron, USA, who applied it to a single mountain.

Sisdartna River: stream, see Papa Willie Creek.

Sisek Bay: bay, see Sisek Cove.

Sisek Cove: bay, 0.3 miles across, N coast of Sedanka Island, Aleutian Islands; 53° 50' 00" N, 166° 10' 30" W; (map 23). Variant: Sisek Bay. Aleut name, called "Zal[iv] Sisek," or "Sisek Bay," by Lt. Sarichev (1826, map 14, dated 1792), IRN. This name was possibly taken from the Aleut word "sisak," which, according to R. H. Geoghegan, means "a hundred."

Sisgravik Lake: lake, 4 miles long, near mouth of Inaru River, 26 miles SE of Barrow, Arctic Plain; 70° 57' N, 156° 10' W; (map 147). Eskimo name obtained in 1956 at Wainwright by T. E. Taylor, USGS.

Sishimkak: island, see Sitymkan.

Sishulathna River: stream, see Herron River.

Sisiak Creek: stream, flows S 11 miles to Noatak River, E of Isacheluich Mountains, 64 miles N of Kiana, Brooks Range; 67° 54' N, 160° 35' W; (map 127). Eskimo name meaning "many [fox] dens"; obtained in 1956 at Noatak by Orth.

Sisiak Creek: stream, heads in lake, flows S 4 miles to Noatak River, 17 miles SSW of Misheguk Mountain, Brooks Range; 68° 01' N, 161° 25' W; (map 131). Eskimo name meaning "fox den" obtained at Noatak by Orth in 1956.

Sisikikaret Hill: pingo, on right bank of Noatak River, between Anorat and Otkurak Creeks, Brooks Range; 67° 40' N, 155° 22' W; (map 125). Eskimo name reported by USGS in 1956 to literally mean "ground squirrel's dancehill."

Siskokhtanten: stream, see North Fork Dagislahna Creek.

Sistdlila: mountain range, see Magitchlie Range.

Sister Islands: islands, extend 0.4 miles along S coast of Duke Island, S of Kelp Island, Alexander Archipelago; 54° 52' 15" N, 131° 17' 15" W; (map 2). Variant: Twin Islands. Descriptive name published in 1885 by USC&GS; named Twin Islands by pilot W. E. George (USC&GS, 1883, p. 77).

Sister Islands: islands, in Yukon River, about 62 miles E of Nulato, Koyukuk Lowland; 64° 43' N, 156° 00' W; (map 97). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by U.S. Dept. of Interior.

Sister Lake: lake, 3 miles across, 4 miles SE of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 37' N, 136° 01' W; BGN 1908; (map 9) Named by USC&GS in 1908; published in 1908 Coast Pilot (p. 173).

Sister Rock: rock, in Knight Island Passage, N of Pleiades Islands, 4 miles SE of Chenega, Chugach Mountains; 60° 14' 30" N, 148° 00' 35" W; (map 63). Local name reported in 1951 by USGS.

Sisters Island: island, 0.6 miles long, 4.5 miles S of Sanak Island, one of Sanak Islands, Aleutian Range; 54° 20' 00" N, 162° 41' 35" W; (map 25). Name reported by Ferdinand

Westdahl, USC&GS, commander of the Coast Survey steamer McArthur, who made surveys in this area in 1901.

Sisters Islands: islands, see Pleiades Islands.

Sisters Reef: reef, in Icy Strait, 1.1 miles W of The Sisters and 33 miles SW of Juneau, St. Elias Mountains; 58° 10' 45" N, 135° 17' 25" W; (map 11). Named by E. F. Dickins, USC&GS, and published in the 1901 Coast Pilot (p. 203).

Sisters, The: islands, see Hazy Islands.

Sisters, The: islands, see Lynn Sisters.

Sisters, The: islands, see Twin Islands.

Sisters, The: islands, two islands, 1 mile and 0.5 miles long, in Icy Strait, 4 miles NE of Neck Point on Chichagof Island and 32 miles WSW of Juneau, St. Elias Mountains; 58° 10' 30" N, 135° 15' 30" W; (map 11). Named in 1880 by USN and published by USC&GS in the 1883 Coast Pilot (p. 197).

Sisters, The: mountain, 1,020 ft., on W end of Unimak Island, 4 miles E of Cape Sarichev, Aleutian Islands; 54° 34' 45" N, 164° 50' 10" W; (map 24). Named by the U.S. military during World War II and published in 1943 on an AMS map.

Sisters, The: mountain, see Cecil, Mount.

Sisters, The: mountain, see Elizabeth, Mount.

Sisters, The: mountains, 1,669 ft., W of Klikitarik River, 15 miles SE of St. Michael, Yukon-Kuskokwim Delta; 63° 19' N, 161° 42' W; (map 91) Two cinder cones named in 1898 by USC&GS and published on Chart 9370.

Sisters, The: mountains, 3,880 ft., 5 miles NE of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 05' 30" N, 135° 14' 00" W; (map 9). Variant: Patterson Mountains. Local name published in 1916 by USC&GS.

Sisters, The: rocks, group of three, elev. 5 ft., in Cook Inlet, 19 miles SSW of Kenai, Cook Inlet Lowland; 60° 18' N, 151° 27' W; (map 62). Local name reported in 1897 by Lt. Comdr. J. F. Moser, USN.

Sit-a-da-kay: peak, see Sitth-gha-ee Peak.

Sitadaka: peak, see Sitth-gha-ee Peak.

Sitak River: stream, see Situk River.

Sitakaday Narrows: water passage, 1 mile long, at S end of Glacier Bay, in Glacier Bay National Monument, just W of the Beardslee Islands, 34 miles NW of Hoonah, St. Elias Mountains; 58° 30' N, 136° 02' W; BGN 1942; (map 10). Variant: Ripple Narrows. Named by

USC&GS in 1942. The name Sit-a-ka-day means “icy bay,” and is said to be the Tlingit Indian name for Glacier Bay. The passage is the narrowest part of the entrance to Glacier Bay and was called Ripple Narrows on USC&GS Chart 8304 in 1940.

Sitakane River: stream, see Sittakanay River.

Sitcha: town, see Sitka.

Sitchiak Lake: lake, 1 mile across, N of Kayak Mountain, 6.5 miles NW of junction of May Creek and Nanushuk River, 52 miles NE of Anaktuvuk Pass, Arctic Slope; 68° 48' 15" N, 150° 47' 30" W; (map 134). Eskimo name obtained at Anaktuvak Pass and reported in 1956 by T. E. Taylor, USGS; it may mean “new ice.”

Sitchin Island: island, see Great Sitkin Island.

Sitchinak: island, see Sitkinak Island.

Sitchini Island: island, see Great Sitkin Island.

Sitchunack Island: island, see Sitkinak Island.

Sitcknak: island, see Sitkinak Island.

Sitdown Creek: stream, see Big Sitdown Creek.

Siteeluk Bay: bay, 0.5 miles wide, 8 miles NW of Southwest Cape, SW coast of St. Lawrence Island; 63° 21' N, 171° 41' W; BGN 1951; (map 93). Variant: Sitolak Bay. Eskimo name reported in 1949 by Maj. H. B. Allen, USAF.

Sithanak: island, see Sedanka Island.

Sithdondit Creek: stream, flows NE and E 16 miles to Melozitna River, W of Slokhenjikh Hills, 57 miles NW of Tanana, Kokrines-Hodzana Highlands; 65° 55' N, 152° 55' W; (map 106). Koyukuk Indian name obtained in 1956 at Hughes by Orth.

Sithoh Bay: lake, see Sitkoh Lake.

Sithoonack: island, see Sitkinak Island.

Sithylenkat Lake: lake, 2 miles across, 46 miles SE of Allakaket, Kokrines-Hodzana Highlands; 66° 07' N, 151° 12' W; (map 117). Koyukan Indian name obtained in 1956 at Allakaket by Orth.

Sitolak Bay: bay, see Siteeluk Bay.

Sitk Creek: Stream, see Eagle River.

Sitka Bay: water passage, see Sitka Sound.

Sitka Harbor: water passage, between Japonski Island and Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 03' 15" N, 135° 21' 00" W; (map 9) Name derived from the town of Sitka; published by USC&GS in 1891 Coast Pilot (p. 175).

Sitka Hot Springs: locality, see Goddard.

Sitka Island: island, see Baranof Island.

Sitka Island: island, see Kruzof Island.

Sitka National Monument: national monument, 54 acres, at mouth of Indian River, on Baranof Island, SE of Sitka, Alexander Archipelago; 57° 02' 50" N, 135° 18' 50" W; (map 9) This national monument was established March 23, 1910, on the site of the Indian stockade, where the Tlingit Indians made their last stand against the Russian settlers at Sitka. The Indian fortress, consisting of thick logs, was occupied by the Indians in 1804, after retreating from their village on Castle Hill, during the occupation of Sitka by the Russians. The fort was attacked by the Russians under the command of Gov. A. A. Baranov and Capt. U. T. Lisianski, IRN, supported by several hundred Aleuts. After a week's siege the fort was abandoned by the Indians and was destroyed by the attackers; however, they left a collection of totem poles, now within the monument. (Bancroft, 1886, p. 428-432).

Sitka Point: point of land, on S tip of Kruzof Island, 20 miles SW of Sitka, Alexander Archipelago; 56° 59' 30" N, 135° 49' 30" W; (map 5). Variant: Cape Edgecumbe, Mys Sitkha. Probably named in 1809 by Russian navigator Ivan Vasiliev the first, IRN. Lt. Sarichev (1826, map 19), IRN, published the name as "Mys Sitkha," or "Cape Sitkha," and also called it "Cape Edgecumbe."

Sitka Point: point of land, see Edgecumbe, Cape.

Sitka Sound: water passage, 15 miles across, between Baranof and Kruzof Islands, Alexander Archipelago; 57° 00' N, 135° 30' W; (map 9). Variant: Ensenada del Susto, Norfolk Sound, Shitka Bay, Sitka Bay, Tchinkitanay Bay. Named "Ensenada del Susto" meaning "bay of terrors" by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle who first visited the sound in 1775. Capt. George Dixon, who entered the sound in 1787 and sketched it, called it Norfolk" for the Duke of Norfolk, which name was later adopted by Capt. George Vancouver. Etienne Marchant, a French fur trader, who visited the sound in 1791 and 1792, reported the Tlingit Indian name as "Tchinkitanay Bay." The Russians, who began a settlement on the sound in 1799 gave it the name "Sitka Bay," derived from the Tlingit Indian name, "Shitka" or "Sitka," the meaning of which is unknown.

Sitka: town, pop. 3,237, on W coast of Baranof Island, 95 miles SW of Juneau, Alexander Archipelago; 57° 03' N, 135° 20' W; BGN 1897; (map 9). Variant: Fort New Archangel, New Archangel, Novo Arkhangelsk, Novoarkhangelsk, Schitcha, Schitka, Schitkha, Sitcha, Sikhta, Sitki. After the destruction in 1802 of Mikhailovsk, named for Saint Michael Archangel (see Old Sitka), a new Russian settlement was established in 1804, several miles from the old fort, under the direction of A. A. Baranov. This new settlement, built around a fortification on Castle Hill, was consequently named "Novoarkhangelsk," i.e. "New Archangel." This became the headquarters of the Russian American Company and capital of Russian America. When Russian America was purchased by the United States the town was named Sitka, a Tlingit

Indian name, said to mean “by the sea” or “on Shi,” the native name for Baranof Island. Sitka was the capital of Alaska until 1900 when territorial administration was transferred to Juneau. The population of the town was 968 in 1867; 1,039 in 1910; 1,175 in 1920; 1,056 in 1930; 1,987 in 1939; and 1,985 in 1950. The Sitka post office was established in 1867.

Sitkagi Bluffs: bluffs, at 1961 terminus of Malaspina Glacier, extend W 6 miles along shore of Gulf of Alaska, 35 miles NW of Yakutat, Malaspina Coastal Plain; 59° 43' N, 140° 42' W; (map 46). Named in 1891 by Russell (1892, pl. 4 and pl. 56); name was derived from Sitkagi Point.

Sitkagi, Cape: point of land, on shore of Gulf of Alaska, 1.5 miles S of 1961 terminus of the Malaspina Glacier and 4 miles W of Sitkagi Bluffs, 42 miles NW of Yakutat, Malaspina Coastal Plain; 59° 44' 15" N, 140° 53' 00" W; (map 46). Variant: Cape Saint Elias, Punta Novales. Apparently a Tlingit Indian name recorded by Capt. Tebenkov (1852, map 7), IRN. He calls it “M[ys] Sitkagi,” or “Cape Sitkagi.” This point is probably the same as “M[ys] Svati Iliy” or “Cape St. Elias,” a name published in 1847 on Russian Hydrog. Dept. Chart 1378. See Novales, Punta.

Sitkalidak Island: island, 23 miles long, SE of Kodiak Island; 57° 07' N, 153° 14' W, (map 34). Variant: Isla de Soto, Kukan Island, Kunakan Island, Ostrov Salthidak, Ostrov Syakhlidok, Ostrov Syatkhidok, Sachlidok Island, Sadlidok Island, Saklidok Island, Saklidov Island, Sakthidak Island, Satklidak Island, Scachlitak Island, Shagitak Island, Siaklidok Island, Siaktklidak Island, Zatchlitschak Island. Transliteration by USC&GS from various Russian forms of what Baker (1906, p. 579) calls “a corruption of some native word or phrase * * *.” In 1794, Billings (in Sauer 1802, p. 170) named it “Kukan” or “Kunakan Island.” Called “O[strov] Salthidack” in 1805 by Lisianski (1814, p. 181) and published as “Os[strov] Syakhlidok,” or “Syakhlidok Island,” by Sarichev (1826, map 3) and “O[strov] Syatkhidok,” or “Syatkhidok Island,” by Capt. Tebenkov (1852, map 23), etc. Also named “Isle de Soto,” or “forest island,” by Galiano (1802, map 3).

Sitkalidak Lagoon: lagoon, 2 miles long, at head of Natalia Bay, on SW coast of Sitkalidak Island SE of Kodiak Island; 57° 06' N, 153° 17' W; (map 34). Name derived from Sitkalidak Island and published in 1943 by USC&GS.

Sitkalidak Narrows: water passage, see Sitkalidak Passage.

Sitkalidak Passage: water passage, 1 mile long part of Sitkalidak Strait, W of Midway Bay, between Sitkalidak Island, and SE coast of Kodiak Island; 57° 12' 40" N, 153° 16' 00" W; BGN 1930; (map 34). Variant: Sitkalidak Narrows, The Narrows. Name derived from Sitkalidak Island and given by USC&GS in 1930.

Sitkalidak Strait: water passage, between Sitkalidak Island and SE coast of Kodiak Island; 57° 10' N, 153° 20' W; (map 34). Variant: Proliv Syatkhidok. This is a transliteration by USC&GS of the Russian name “Provliv Syatkhidok,” or “Syatkhidok Strait,” published by Capt. Tebenkov (1852, map 23). Baker erroneously (1906, p. 579) wrote “Corruption of some native name.”

Sitkha (Baranov), Ostrov: island, see Baranof Island.

Sitkha, Mys: point of land, see Sitka Point.

Sitkhin, Ostrov: island, see Great Sitkin Island.

Sitkhinak, Ostrov: island, see Sitkinak Island.

Sitkhunak, Ostrov: island, see Sitkinak Island.

Sitki: town, see Sitka.

Sitkin Creek: stream, flows NE 5 miles to Bering Sea, W of Sulphur Point, on NE coast of Great Sitkin Island, Aleutian Islands; 52° 04' 35" N, 176° 01' 48" W; (map 17). Name derived from Great Sitkin Island and published in 1951 on a USGS map.

Sitkin Island: island, see Great Sitkin Island.

Sitkin Point: point of land, W tip of Little Sitkin Island, Aleutian Islands; 51° 56' 45" N, 178° 26' 45" E; BGN 1937; (map 15). Name derived from Little Sitkin Island and given by the U.S. Navy Hydrog. Office in 1935.

Sitkinak Dome: mountain, 1,470 ft., on Sitkinak Island, in Trinity Islands, Kodiak Island; 56° 33' 35" N, 154° 10' 50" W; BGN 1934; (map 32). Variant: Sitkinak Mountain. Name derived from Sitkinak Island and given in 1906 by W. C. Hodgkins, USC&GS. The triangulation station Dome is located on this mountain and may account for a generic form unusual in this area.

Sitkinak Island: island, in Trinity Islands, Kodiak Island; 56° 33' N, 154° 10' W; BGN 1890; (map 32-33). Variant: Ostrov Sitkhinak, Ostrov Sitkhunak, Sichtunak, Sikhinak, Sitchinak, Sitchunack Island, Sitcknak, Sithoonack, Sitkunak. Eskimo name published by Sarichev (1826, map 3) as "Os[trov] Sitkhunak," or "Sitkhunak Island"; by von Krusenstern (1827, map 17) also as "Sitchunack Island." Capt. Tebenkov (1852, map 22) called it "O[strov] Sitkhinak," or "Sitkhinak Island."

Sitkinak Lagoon: lagoon, 3 miles long, on NE coast of Sitkinak Island, in Trinity Islands, Kodiak Island; 56° 33' 30" N, 154° 03' 30" W; (map 32). Name derived from Sitkinak Island; published in 1943 by USC&GS.

Sitkinak Mountain: mountain, see Sitkinak Dome.

Sitkinak Strait: water passage, between Sitkinak and Aiaktalik Islands, Kodiak Island, 56° 39' N, 154° 06' W; BGN 1910; (map 32). Name derived from Sitkinok Island and given by USC&GS in 1916.

Sitkinak, Cape: point of land, on E tip of Sitkinak Island, in Trinity Islands; 13 miles S of Kodiak Island, 56° 33' 45" N, 153° 52' 00" W; BGN 1934; (map 33) Named in 1934 by USC&GS.

Sitklan Island: island, 3.5 miles long, W of Tongass Passage, Coast Mountains; 54° 45' N, 130° 40' W; (map 2). Indian name reported in 1869 by G. Davidson, USC&GS; published on USC&GS Chart 711.

Sitklan Passage: water passage, extends 3 miles W from Tongass Passage to Nakat Bay, between Sitklan Island and mainland, Coast Mountains; 54° 46' N, 130° 41' W; BGN 1937; (map 2). Variant: Tongass Passage. Name derived from Sitklan Island; given in 1936 by USC&GS.

Sitkoh Bay: bay, 1 mile across, 7 miles long, on SE tip of Chichagof Island, 6 miles E of Todd, Alexander Archipelago; 57° 28' N, 134° 51' W; (map 9). A Tlingit Indian name published by USC&GS in 1883 Coast Pilot (p. 166).

Sitkoh Lake: lake, 2.5 miles long, 4.5 miles NW of Todd, near SE tip of Chichagof Island, Alexander Archipelago; 57° 30' 30" N, 135° 05' 00" W; BGN 1933; (map 9). Variant: Sithoh Bay. Local name used by fishermen who frequent this lake; reported in 1933 by USFS.

Sitkoh: site, former Indian village on Chichagof Island, on Point Craven at mouth of Sitkoh Bay, 6 miles E of Todd, Alexander Archipelago; 59° 28' 00" N, 134° 52' 10" W; (map 9). Tlingit Indian name of a village once located here. "It was to a stockade behind a steep detached rock in this vicinity, according to Lisianski, that the natives retreated after their defeat at Sitka by the Russians in 1804." There were some Indian houses here in 1883 (U.S. Coast and Geodetic Survey, 1883,p. 178.).

Sitkok Point: point of land, extends NW into Kasegaluk Lagoon, 11 miles S of Point Lay, Arctic Plain; 69° 36' N, 163° 07' W; (map 145). Eskimo name (sitqoq), meaning "knee," obtained at Point Lay by Orth in 1956.

Sitkum Bay: bay, see Kujulik Bay.

Sitkum Creek: stream, flows SE 7 miles to Hamilton Bay, 4 miles SE of Kake, on NW coast of Kupreanof Island, Alexander Archipelago; 56° 55' 50" N, 133° 52' 15" W; (map 6). Local name recorded in 1951 by USGS.

Sitkum Pass: pass, 1,800 ft., 7 miles E of Cathedral Mountain and 16 miles S of Wiseman, Brooks Range; 67° 10' 30" N, 150° 02' 00" W; BGN 1932; (map 124). Variant: Sitkun Pass. Local name reported by W. J. Peters and F. C. Schrader, USGS, in 1901 as "Sitkun." A. G. Maddren, USGS, gives "Sitkum" on his name sheet, and Robert Marshall concurs in this spelling.

Sitkun Pass: pass, see Sitkum Pass.

Sitkunak: island, see Sitkinak Island.

Sitnazoak: locality, see Sitnazuak.

Sitnazuak: locality, on N coast of Norton Sound, near mouth of Penny River, 9 miles NW of Nome, Seward Peninsula Highlands; 64° 33' N, 165° 42' W; (map 94). Variant: Chitashuak,

Chitnashuak, Sitnazoak. Former Eskimo village reported by Ivan Petroff as "Chitnashuak," population 20, in the 1880 Census.

Sitta: locality, on Pungokosit Spit, 1 mile W of Taphook Point and 18 miles SE of Gambell, St. Lawrence Island; 63° 37' N, 171° 16' W; (map 93). O.W. Geist, Univ. of Alaska, gave this name in 1932 for an "old camp."

Sittakanay River: stream, heads in British Columbia, flows NW 18 miles to Taku River at Canyon Island, 24 miles NE of Juneau, Coast Mountains; 58° 33' 50" N, 133° 40' 20" W; BGN 1922; (map 12). Variant: Sitakane River, Sittakane River, Sittikanay River. Tlingit Indian name published in 1895 by USC&GS.

Sittakane River: stream, see Sittakanay River.

Sitth Kadischle: glacier, see Norris Glacier.

Sitth-gha-ee Peak: peak, 5,870 ft., in Glacier Bay National Monument, 2.7 miles NW of Coleman Peak and 33 miles SW of Skagway, St. Elias Mountains; 59° 06' 15" N, 135° 56' 00" W; (map 45). Variant: Sitadaka, Sit-a-da-kay. Tlingit Indian name reported to mean "great cold lake," which refers to Glacier Bay at the time of John Muir's visit in 1879. "They told us that the big bay was called by them Sit-a-da-kay, or Ice Bay; that there were many large ice mountains in it * * * ." (Muir, 1915, p. 143.) The name was published by the American Geographical Society in 1947.

Sittikanay River: stream, see Sittakanay River.

Sitookooyook River: stream, see Situkuyok River.

Situk Lake: lake, 1.8 miles across, at head of Situk River, 2.7 miles E of Lake Redfield and 13 miles NE of Yakutat, Malaspina Coastal Plain; 59° 37' 55" N, 139° 24' 30" W; BGN 1962; (map 46). Variant: Miller Lake. Local name reported by USGS in 1961. The lake was originally named Miller Lake by Tarr (1906, p. 145), USGS, for Ens. Cyrus R. Miller, USN, who accompanied Lt. Comdr. J. F. Moser in 1901, and who first discovered and explored the lake.

Situk River: stream, heads at Situk Lake, flows SW 18 miles to Situk, 11 miles SE of Yakutat, Malaspina Coastal Plain; 59° 26' 30" N, 139° 33' 00" W; (map 46). Variant: See-tuck, Setuk River, Sitak River. Tlingit Indian name reported as "R[eka] Sitak," or "Sitak River," by Capt. Tebenkov (1852, map 7), IRN. It was spelled "Situk" by E. J. Glave in 1890, and "See-tuck" by Lt. Comdr. J. F. Moser, USN, in 1901.

Situk Village: locality, 1 mile N of Situk, on E bank of Situk River, 9 miles SE of Yakutat, Malaspina Coastal Plain; 59° 26' 45" N, 139° 34' 05" W; (map 46). Variant: Setuck. Former Tlingit Indian village reported as "Setuck" in 1891 by Island C. Russell. The village was reported to have been founded about 1875 and abandoned in 1916.

Situkuyok River: stream, heads between Milokrawlok and Tiyaktalik Mountains in Igichuk Hills, flows NE and SW 22 miles to Tukrok River, 10 miles SE of Cape Krusenstern, Kotzebue-Kobuk Lowland; 67° 04' 30" N, 163° 23' 00" W; (map 128). Variant: Sitookooyook

River, Situkuyuk River. Eskimo name meaning “conch[?] shell” according to USC&GS in 1950.

Situkuyuk River: stream, see Situkuyok River.

Sitymkan: island, in Shumagin Islands, Aleutian Range; 55° N, 160° W; (map 27). Variant: Sishimkak. Named “Sitymkan” by Lutke (1836, p. 267); published as “Sishinikak” by Father Veniaminov (1840, v. 1, p. 255). The exact location of this island is not known.

Siuchi: point of land, see Lutke, Cape.

Siuchi: rocks, see Sealion Rocks.

Siuchiy, Kamen: rocks, see Seal Rocks.

Siuchiy, Mys: point of land, see Georgiana, Cape.

Siuchiya Guba: cove, see Sealion Cove.

Sivneghak Lagoon: lagoon, 1 mile long, 1.3 miles S of Northeast Cape, E coast of St. Lawrence Island; 63° 16' N, 168° 44' W; BGN 1951; (map 93). Eskimo name recommended by the Savoonga village council and reported in 1949 by Maj. H. B. Allen, USAF.

Sivogakruak Bluff: bluff, 200 ft., on W bank of Okpikruak River 3 miles SUP of its junction with Okokmilaga River, Brooks Range; 68° 41' N, 153° 23' W; (map 133). Eskimo name reported in 1956 by T. E. Taylor, USGS.

Sivouchek Mountain: hill, see Sivuchek Mountain.

Sivoutchi Rock: rock, see Sea Lion Rock.

Sivoutchy: rock, see Sea Lion Rock.

Sivoutchy: rock, see Sealion Rock.

Sivu Bluff: bluff, on right bank of Wulik River, 15 miles NE of Kivalina, Arctic Slope; 67° 48' N, 164° 02' W; (map 128). Variant: Seevo, Siwu. Eskimo name meaning “bow of a boat” reported in 1950 by USC&GS.

Sivuchek Mountain: hill, 215 ft., on N bank of Kivalina River, 6 miles N of Kivalina, Kotzebue-Kobuk Lowland; 67° 49' N, 164° 32' W; (map 128). Variant: Sivouchek Mountain. Eskimo name meaning “pointed,” according to USC&GS in 1950.

Sivuchi Kamen: rocks, see Seal Rocks.

Sivuchiy, Kamen: rock, see Sea Lion Rock.

Sivuchiy, Kamen: rocks, see Seal Rocks.

Sivuchiy, Mys: point of land, see Lutke, Cape.

Sivugak Bluff: bluff, on E side of Chandler River, 10 miles S of Tuktu Bluff and 36 miles NW of Anaktuvuk Pass, Arctic Slope; 68° 36' N, 152° 22' W; (map 134). Eskimo name used by USGS geologists during the exploration of Naval Petroleum Reserve No. 4; name given in 1944.

Sivugak Hill: hill, 356 ft., 2.5 miles S of Iyikrok Mountain and 30 miles NE of Kivalina, Brooks Range; 67° 55' N, 163° 37' W; (map 128). Variant: Seevoogak, Siwugaq. Eskimo name meaning "ordinary bow of a boat" reported in 1966 by E. S. Burch.

Sivukat Mountain: mountain, 1,915 ft., 13 miles W of junction of Kelly and Noatak Rivers, 27 miles N of Noatak, Brooks Range; 67° 58' N, 162° 51' W; BGN 1963; (map 128). Variant: Seevokat Mountain. Eskimo name reported in 1952 by the Corps of Engineers, USA.

Sivukhan Mountain: mountain, see Seevookhan Mountain.

Sivukuk: point of land, see Chibukak Point.

Sivukuk: village, see Gambell.

Sivurak Bluff: bluff, on right bank of Tutak Creek, 33 miles NE of Kivalina, Brooks Range; 67° 52' N, 163° 22' W; (map 128). Variant: Seevoorak. Eskimo name meaning "little bow of a boat" reported in 1966 by E. S. Burch.

Sivutch Rock: rock, see Sea Lion Rock.

Sivutsiak Hill: hill, 250 ft., 7 miles N of Kivalina, Kotzebue-Kobuk Lowland; 67° 49' N, 164° 31' W; (map 128). Variant: Seevoochyak, Siwutsiaq. Eskimo name meaning "new bow of a boat" reported in 1966 by E. S. Burch.

Siwash Bay: estuary, extends E 2 miles to Unakwik Inlet, 40 miles NE of Whittier, Chugach Mountains; 60° 57' 40" N, 147° 37' 00" W; BGN 1910; (map 63). Named in 1908 by U. S. Grant and D. F. Higgins, USGS.

Siwash Channel: estuary, see Tenakee Inlet.

Siwash Creek: stream, flows W 12 miles to Mosquito Fork, 38 miles SW of Chandalar, Brooks Range; 67° 07' 30" N, 149° 33' 00" W; (map 123). Prospectors' name obtained in 1909 by A. G. Maddren (in Brooks and others, 1910, pl. 7), USGS.

Siwash Creek: stream, heads in Dutch Hills, flows NW 1.8 miles to Dutch Creek, 35 miles NW of Talkeetna, Alaska Range; 62° 34' 15" N, 151° 04' 10" W; (map 81). Prospectors' name reported in the 1930's by USGS.

Siwash Creek: stream, see Bull Creek.

Siwash Island: island, 0.2 miles across, at mouth of Siwash Bay, in Unakwik Inlet, 40 miles NE of Whittier, Chugach Mountains; 60° 57' 40" N, 147° 36' 45" W; (map 63). Local name reported in 1951 by USGS.

Siwash Pass: pass, between Big Creek and Middle Fork Chandalar River, 13 miles SSE of Chandalar, Brooks Range; 67° 19' 00" N, 148° 23' 30" W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Siwu: bluff, see Sivu Bluff.

Siwugaq: hill, see Sivugak Hill.

Siwutsiam Irialuni: hills, see Kisaymaruktuk Mountain.

Siwutsiaq: hill, see Sivutsiak Hill.

Six Gulch: ravine, trends NW 2 miles to Ganes Creek 1.3 miles NE of its junction with Spalding Creek, 28 miles W of McGrath, Kilbuck-Kuskokwim Mountains; 62° 58' N, 156° 31' W; (map 79) Prospectors' name obtained in 1952 by USGS topographers.

Six, Lake: lake, 1,500 ft. long, SE of Question Lake, 7 miles S of Talkeetna, Cook Inlet Lowland; 62° 13' 20" N, 150° 03.' 15" W; (map 81). Local descriptive name reported in 1958 by USGS.

Sixmile Creek: stream, flows N 9 miles to Yukon River, 6 miles W of Rampart, Yukon-Tanana Highlands; 65° 29' N, 150° 23' W; (map 106). Local name reported in 1956 by Orth; so named because it was 6 miles downstream from Rampart.

Sixmile Creek: stream, flows NE 6 miles to an oxbow of Yukon River, 3 miles S of Circle, Yukon-Tanana Highlands; 65° 47' N, 144° 02' W; (map 104). Named by prospectors and reported in 1915 by Waring (1917, fig. 6), USGS.

Sixmile Creek: stream, heads at junction of Canyon and East Fork Sixmile Creeks, flows N 9 miles to Turnagain Arm at Sunrise, Chugach Mountains; 60° 54' 20" N, 149° 25' 30" W; (map 63). Variant: Canyon Creek. Local name reported in 1895 by Becker (1898, p. 82), USGS.

Sixmile Creek: stream, heads in Sixmile Lake flows NW 1.3 miles to Knik Arm Cook Inlet 5.6 miles NE of Anchorage, Cook Inlet Lowland; 61° 17' 38" N, 149° 49' 50" W; (map 69). Local name reported in 1942 by AMS.

Sixmile Island: island, 0.5 miles long, in Tanana River 1.5 miles SE of its junction with Yukon River, 5 miles SE of Tanana, Nowitna Lowland; 65° 09' 30" N, 151° 55' 00" W; (map 106). Riverboat pilots' name shown on a Yukon River track chart manuscript dated 1906.

Sixmile Island: island, 1.4 miles long, in Yukon River, 5.5 miles W of Rampart, Yukon-Tanana Highlands; 65° 29' 15" N, 150° 21' 00" W; (map 106). Local name reported in 1956 by Orth; s° named because it was considered to be 6 miles downstream from Rampart.

Sixmile Island: island, 1.5 miles long, in Yukon River 3 miles NE of junction with Tanana River, Kokrines-Hodzana Highlands; 65° 11' 30" N, 151° 53' 00" W; (map 106). Riverboat pilots' name shown on a Yukon River track chart manuscript dated 1906.

Sixmile Lake: lake, 0.5 miles long, 2 miles SE of junction of Tozitna and Yukon Rivers, 9 miles SW of Tanana, Nowitna Lowland; 65° 07' N, 152° 22' W, (map 106). Local name reported in 1952 by USGS.

Sixmile Lake: lake, 0.7 miles long, 4.7 miles SE of Fort Yukon, Yukon Flats; 66° 31' 30" N, 145° 08' 00" W; (map 119). Local name obtained in 1956 by USGS; so called because the lake is about 6 miles up the Yukon River from Fort Yukon.

Sixmile Lake: lake, 1 5 miles long, 5.6 miles NE of Anchorage' Cook Inlet Lowland; 61° 17' 20" N, 149° 47' 40" W; (map 69). Local name reported in 1952 by USGS; derived from Sixmile Creek that flows into the lake.

Sixmile Lake: lake, 1.5 miles long, drains S to Hay Slough, 6.5 miles E of Tanana, Yukon-Tanana Highlands; 65° 11' N, 151° 52' W; (map 106). Name reported in 1954 by R. E. Isto, USGS.

Sixmile Lake: lake, 2.8 miles across, between Iditarod and Yetna Rivers, 44 miles E of Holikachuck and 48 miles W of Ophir, Innoko Lowland; 63° 03' t1, 158° 05' W; (map 90).Local name reported in 1964 by Arthur Gervais, USGS.

Sixmile Lake: lake, 6 miles long, between SW end of Lake Clark and Newhalen River, 16 miles N of Iliamna, Aleutian Range j 59° 59' N, 154° 47' W; BGN 1910; (map 51). Variant: Nondalton Lake, Nondalty Lake, Noondalty Lake, Nundalti Lake. Local descriptive name reported in 1902 by A. G. Maddren, USGS. The native name for this feature was shown as "Nondalton" on a manuscript map by J. W. Walker and as "Noondalty" [Nundalti] on an Alaska Short Line Railway manuscript map by W. E. smith

Sixmile Pass: pass, on road to Hogatza, 6 miles NW of Hog Landing and 35 miles W of Hughes, Hogatza Highlands; 66° 04' N, 155° 28' W; (map 116). Named by placer mine road builders about 1955; reported in 1956 by Orth.

Sixmile Slough: stream, 3 miles long, anabranh of Porcupine River 15 miles NW of Chalkyitsik, Yukon Flats; 66° 51' N, 143° 52' W; (map 120). Local name published in 1952 by USGS.

Sixteen Gulch: stream, see Deadwood Creek.

Sixteen Pup: stream, flows NW 1.7 miles to Deadwood Creek, 36 miles SW of Circle, Yukon-Tanana Highlands; 65° 26' 45" N, 144° 58' 00" W; (map 104). Named by prospectors; reported in 1909 by B. L. Johnson (in Brooks and others, 1910, fig. 5), USGS.

Sixteen-to-one Creek: stream, flows E 1.5 miles to Fairbanks Creek, 21 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 03' 20" N, 147° 08' 40" W; (map 105). Variant: Sixteen to One Creek. Named by prospectors; published in 1908 by USGS.

Sixteenmile Island: island, 1 mile long, in Yukon River 13 miles E of Tanana, Kokrines-Hodzana Highlands; 65° 11' 00" N, 151° 39' 30" W; (map 106). Riverboat pilots' name shown on a Yukon River track chart manuscript dated 1906.

Sixteenmile Lake: lake, 0.5 miles across, on N bank of Yukon River, 17 miles ENE of Tanana Kokrines-Hodzana Highlands; 65° 12' 00" N, 151° 33' 30" W; (map 106). Name reported in 1954 by R. E. Isto, USGS.

Sixtukak locality, area on Chukchi Sea coast SW of Nunavak Bay, 5 miles SW of Barrow, Arctic Plain; 71° 13' N, 156° 56' W; (map 153). Variant: Seakgluka. Eskimo camp name published by R. F. Spencer (1959, map 2) and may be the same name Lt. P. H. Ray (1885, p. 55), USA, spells "Seakgluka."

Sixty-foot Rock: rock, at N entrance to Eldred Passage, on E shore of Kachemak Bay, on Kenai Peninsula, 8 miles SE of Homer, Chugach Mountains, 59° 33' N, 151° 28' W; (map 50). Local name reported by USGS or USC&GS in the 1940's.

Sixty-one Mile Cabin: locality, a roadhouse on Sixty-one Mountain, E of Schilling Creek, 36 miles SSE of Chandalar, Brooks Range; 67° 03' N, 147° 49' W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Sixty-one Mountain: mountain, 2,890 ft., 10 miles long, on S side of Chandalar River opposite mouth of Funchion Creek and 35 miles SSE of Chandalar, Brooks Range; 67° 02' 30" N, 147° 45' 00" W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Sixty-six Mile Camp: locality, see Canyon Creek Camp.

Sixtyfour Creek: stream, flows S 4 miles to Springway Creek, 50 miles NW of Nondalton, Lime Hills; 60° 30' 30" N, 155° 46' 45" W; (map 61). Local name reported in 1950 by USC&GS.

Sixtymile Butte: butte, 4,138 ft., 15 miles NNE of Tanacross, Yukon-Tanana Highlands; 63° 33' N, 143° 06' W; (map 85). Name used by prospectors; reported in 1896 by J. E. Spurr (1898, p. 332), USGS.

Sixtymile Creek: stream, flows SE 23 miles to John River, opposite mouth of Allen River, 51 miles W of Wiseman, Brooks Range; 67° 22' 00" N, 152° 02' 30" W; BGN 1932; (map 124). Variant: Fool Creek. Local name "in general use since 1905," reported about 1930 by Robert Marshall and "used because it lies about sixty miles from Bettles."

Sixtymile Creek: stream, see Sixtymile River.

Sixtymile River: stream, heads on Divide Mountain, flows E across Alaska-Canada boundary 85 miles to Yukon River in Yukon, Canada, Yukon-Tanana Highlands; 63° 35' N, 139° 40' W; (map 85). Variant: Sixty Mile Creek, Sixtymile Creek. Local name reported as "Sixtymile Creek" (Baker, 1906, p. 580).

Siyiksinik: area, of aufeis, along Okpiksurok Creek, 16 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 56' N, 164° 51' W, (map 128). Variant: Seeyicksinick, Siiqsinniq. Eskimo name meaning "place where there is an overflow of ice" reported by E. S. Burch in 1966.

Siyiksinik: area, of aufeis, near mouth of Owbesookruk River, 12 miles SE of Kivalina Kotzebue-Kobuk Lowland; 67° 41' N, 164° 04' W, (map 128). Variant: Seeyicksinick. Eskimo name meaning "place where there is an overflow of ice" reported in 1966 by E. S. Burch.

Skaguay River: stream, see Skagway River.

Skaguay: village, see Skagway.

Skagul Island: island, 1.8 miles across, Delarof Islands, Aleutian Islands; 51° 36' N, 178° 35' W; (map 16). Variant: Skakhoul Island. Aleut name published as "Skakhoul Ile" which, with Ogliuga Island, constituted the Delarof Islands, according to Capt. Lutke (1836, p. 323), IRN. The adopted form was used by Capt. Tebenkov (1852, map 28), IRN, as "O[strov] Skagul," or "Skagul Island."

Skagul Pass: water passage, between Skagul and Ogliuga Islands, Delarof Islands, Aleutian Islands; 51° 36' 00" N, 178° 36' 30" W; (map 16). Local name published on a 1954 USGS map.

Skagwa River: stream, see Skagway River.

Skagwa: village, see Skagway.

Skagway Pass: pass, see White Pass.

Skagway River: stream, heads at glacier terminus in British Columbia, Canada, flows SW across Alaska Canada boundary, 18 miles to Taiya Inlet, 0.4 miles SW of Skagway; 59° 27' 15" N, 135° 19' 40" W; BGN Sixth Report; (map 45). Variant: Schkague River, Shkagway River, Skaguay River, Skagwa River. A Tlingit Indian name said to mean "home of the north wind." Aurel and Arthur Krause (1883, map) recorded "Schkague." In 1891 Lt. Comdr. H. E. Nichols, USN, wrote "Shkagway."

Skagway: village, pop. 659, at mouth of Skagway River, near head of Taiya Inlet, 90 miles NW of Juneau, Coast Mountains, 59° 27' 30" N 135° 18' 45" W; BGN Sixth Report; (map 45). Variant: Cqague, Schkague, Shkagway, Skaguay, Skagwa. Name derived from Skagway River. The town, called "The Gateway to the Golden Interior," was founded in 1897 by Capt. William Moore, who had a cabin here, when gold was first discovered in 1896 near Dawson, on the Yukon River. The town served as a base of operations for thousands of prospectors during the Klondike gold rush of 1897-98, and became the largest town in Alaska at that time. Both Canada and the United States claimed possession, but Canada yielded to the United States until the boundary dispute was settled. Skagway post office was established in 1897, and the population grew to 3,117 in 1900. The town is the terminus of the White Pass and Yukon Railroad, which was built to Whitehorse in Yukon, Canada, during the gold rush period. A military post at Skagway was called "Skaguay" by the U.S. Army.

Skakhoul Island: island, see Skagul Island.

Skan Bay: bay, 2 miles across, W coast of Unalaska Island, Aleutian Islands; 53° 38' 30" N, 167° 03' 30" W; (map 23). Variant: Skhan Bay, Starichkof Bay, Twin Bay. The Russian name was published by Lt. Sarichev (1826, map 14, dated 1792), IRN, as "Zal[iv] Skhan," or "Skhan Bay." This bay was descriptively called "Twin Bay" by USBF in 1888.

Skan Point: point of land, in Skan Bay, on W coast of Unalaska Island, Aleutian Islands; 53° 38' 00" N, 167° 02' 30" W; (map 23). Name derived from Skan Bay and published in 1951 on a USGS map.

Skarland, Mount: peak, 10,315 ft., 5.5 miles NW of Mount Hayes and 43 miles SW of Delta Junction, Alaska Range, 63° 40' 18" N, 146° 50' 25" W; BGN 1965; (map 86). Named for T. L. Pewe for Ivar Skarland, 1899-1965, head of the Department of Anthropology of the Univ. of Alaska at the time of his death. A graduate of the University, he pioneered in Alaskan anthropology and archeology.

Skarn, Mount: mountain, 2,500 ft., 0.9 miles W of the head of Tyndall Cove, on Geikie Inlet, Glacier Bay National Monument, 47 miles NW of Hoonah, St. Elias Mountains; 58° 35' 10" N, 136° 22' 45" W; (map 10). Local name reported by USGS in 1951.

Skatalis: locality, see Alaganik.

Skate Lake: lake, 0.5 miles long, 0.4 miles SW of Tetlin and 18 miles SE of Tok, Alaska Range; 63° 07' 45" N, 142° 32' 00" W; (map 85). Local name published by USGS in 1965. Named because the outline of the lake resembles the silhouette of a skate, a fish of the ray family.

Skate Lake: lake, 0.7 miles long, SE of Northway Indian Village, 1 mile N of Northway, Alaska Range; 62° 58' 45" N, 141° 56' 45" W; (map 84). Local name reported by USGS in 1954.

Skaters Lake: lake, 1,100 ft. long, on Annette Island, 0.3 miles S of Metlakatla, Alexander Archipelago; 55° 07' 20" N, 131° 34' 15" W; (map 3). Local name reported in 1955 by USGS.

Skecter Bay: bay, see Lituya Bay.

Skee Glacier: glacier, 2 miles long, 1 mile W of Bear Glacier, 16 miles SW of Seward, Chugach Mountains; 59° 59' N, 149° 42' W; BGN 1911; (map 49). Named in 1909 by U. S. Grant, USGS, for F. P. Skee, prospector. See Lechner Glacier.

Skeleton Butte: hill, 1,837 ft., 1 mile W of Cloud Lake and 5 miles N of Imuruk Lake, Seward Peninsula Highlands; 65° 43' N, 163° 17' W; BGN 1952; (map 110). Reported in 1950 by D. M. Hopkins, USGS; so named because a USGS field party in 1948 "found a skeleton within a cairn at a prehistoric Eskimo village site on the summit of the butte."

Skhan Bay: bay, see Skan Bay.

Ski Creek: stream, flows SW 4 miles to Holokuk River 8.6 miles SE of its junction with Kuskokwim River, 37 miles SE of Aniak and 46 miles SW of Sleetmute, Kilbuck-Kuskokwim

Mountains; 61° 26' 30" N, 158° 27' 00" W; BGN 1948; (map 72) Prospectors' name reported in 1945 by USGS.

Skiff Island: island, 0.5 miles long, in Keku Strait, 12 miles N of Point Baker, off SW coast of Kupreanof Island, Alexander Archipelago; 56° 31' N, 133° 41' W; (map 6). Named by USC&GS for charting purposes; name published in 1932 Coast Pilot (p. 257).

Skiff Passage: water passage, in NW portion of Shuyak Island, 47 miles N of Kodiak Island; 58° 36' 20" N, 152° 33' 00" W; BGN 1933; (map 43). Descriptive name published by USC&GS in 1931 "because it is navigable by a skiff only at high water."

Skih Creek: stream, flows NE 4.2 miles to Hidden River, 41 miles N of Talkeetna, Alaska Range; 62° 54' 55" N, 150° 08' 00" W; (map 81). Local name published in 1940 by USGS.

Skilak Glacier: glacier, in Kenai Mountains, on Kenai Peninsula, trends N 9 miles from Harding Icefield to its 1950 terminus at head of Skilak River, 46 miles ESE of Kenai, Chugach Mountains; 60° 19' N, 150° 02' W; (map 62). Local name reported about 1911 by USGS (Martin, G. C., and others, 1915, pl. 2).

Skilak Lake: lake, 12 miles long, on Kenai Peninsula, 27 miles SE of Kenai, Cook Inlet Lowland; 60° 25' N, 150° 20' W; (map 62). Variant: Kaknu Lake, Kenai Lake, Ozero Skilyakh, Skilakh Lake, Skilloch See, Skillokh Lake. Tanaina Indian name reported in 1840 by the Russian scientist Island G. Wosnesenski. Published in 1847 as "Oz[ero] Skilyakh," meaning "Skilyakh Lake," on Russian Hydrog. Dept. Chart 1378. Skilak and Tustumena Lakes were shown on Ivan Petroff's 1880 map as one lake, to which he applied the name "Skilakh Lake."

Skilak River: stream, in Kenai Mountains, on Kenai Peninsula, heads at Skilak Glacier terminus, flows NW 8 miles to Skilak Lake, 41 miles ESE of Kenai, Chugach Mountains; 60° 24' N, 150° 09' W; (map 62). Tanaina Indian name; reported in 1958 by USGS.

Skilak: locality, on Kenai Peninsula S of Tustumena Lake, Chugach Mountains; 60° 02' N, 150° 12' W; (map 62). Variant: Skilakh. Former Indian village or camp recorded in the 1880 Census as "Skilakh," population 44, by Petroff (1884, p. 29).

Skilakh Lake: lake, see Skilak Lake.

Skilakh Lake: lake, see Tustumena Lake.

Skilakh: locality, see Skilak.

Skilloch See: lake, see Skilak Lake.

Skillokh Lake: lake, see Skilak Lake.

Skilyakh, Ozero: lake, see Skilak Lake.

Skimo Creek: stream, flows 5.5 miles to Tiglukpuk Creek, 14 miles N of Anaktuvuk Pass, Brooks Range; 68° 20' N, 151° 52' W; (map 134). So named in 1950 by W. W. Patton and A.

S. Keller, USGS, because “A small band of Eskimos [sic] were camped on this creek when the field party was in the area. Skimo is derived from the word Eskimo.”

Skin Island: island, 0.7 miles long, in Clarence Strait near entrance to Cholmondeley Sound, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 17' 50" N, 132° 04' 45" W; (map 4). Variant: Shkin Island, Ostrov Shkin. Name published in the 1869 Coast Pilot (p. 79). Published in 1853 as “O[strov] Shkin” on Russian Hydrog. Dept. Chart 1493; probably named by early traders (Baker, 1906, p. 580).

Skinner Island: island, 0.3 miles long, on S shore of Bertha Bay, 13 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 47' 30" N, 136° 20' 40" W; (map 9). Name published by USC&GS in 1925 Coast Pilot (p. 322).

Skinny Fish Lake: lake, 3 miles SE of junction of Kaiyuh Slough and Wounded Cub Creek, 16 miles SE of Nulato, Koyukuk Lowland; 64° 30' N, 158° 05' W; (map 97). Variant: Tlukatsukot. Appears to be a translation of an Indian name; reported by Frederica de Laguna, BAE

Skipwith Reefs: reefs, 2.5 miles long, at mouth of Afognak Bay, 3.5 miles NE of Afognak, on S coast of Afognak Island; 58° 02' 30" N, 152° 40' 30" W; (map 43). Local name reported in 1900 by Lt. Comdr. J. F. Moser. USN, commander of the USBF steamer Albatross.

Skirt Point: point of land, N of Manzanita Bay on E coast of Revillagigedo Island, Alexander Archipelago; 55° 37' 05" N, 130° 56' 20" W; (map 3). Local name published in 1891 by USC&GS.

Skittok: locality, on Kenai River, at or near Kenai, Cook Inlet Lowland; 60° 33' N, 151° 16' W; (map 62). Variant: Chkituk, Shittok. Former Indian village, the population of which was probably absorbed by the expansion of Kenai; reported in the 1890 Census as “Chkituk” (1893, p. 70).

Skolai Creek: stream, heads in Upper Skolai Lake at Russell Glacier, flows W 16 miles to Nizina Glacier, 23 miles NE of McCarthy, Wrangell Mountains; 61° 40' N, 142° 25' W; (map 67). Named for the pass.

Skolai Mountains: mountain range, see Skolai Range.

Skolai Pass: pass, on Russell Glacier, 2 miles E of Castle Mountain and 35 miles NE of McCarthy, Wrangell Mountains; 61° 39' N, 141° 55' W; (map 67). Variant: Scolai Pass, Scoli Pass. Named in 1891 by Lt. Frederick Schwatka, USA. “Scolai” or “Skolai” is the name by which the Copper River Chief, “Nicolai,” was known to the upper Tanana River Indians (Hayes, 1892, p. 135).

Skolai Range: mountain range, in Wrangell Mountains; NE of Skolai Pass; 61° 45' N, 142° 30' W; (map 67). Variant: Skolai Mountains. Rohn (1900, pl. 52), USGS, used both Skolai Range and Skolai Mountains in reference to this very high portion of the Wrangell Mountains. The name has had little subsequent use.

Skolai: locality, on Nizina River, near junction of Chitistone River, 12 miles E of McCarthy, Wrangell Mountains; 61° 25' N, 142° 36' W; (map 67). Variant: Nicolai's Village, Nikolai. Former Indian village or camp reported in 1885 as "Nicolai's village" by Lt. Allen (1887, p. 128), USA.

Skole Rocks: rocks, see Phocena Rocks.

Skoogy Creek: stream, flows S 1 mile to Twin Creek, 15 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 01' 45" N, 147° 28' 00" W; (map 105). Variant: Skoogy Gulch. Named by prospectors; published in 1908 by USGS.

Skoogy Gulch: stream, see Skoogy Creek.

Skookum Chuck, The: water passage, see Tlevak Narrows.

Skookum Creek Fork: stream, see Skookum Creek.

Skookum Creek: stream, flows E 5 miles to Jack Creek, N of White Mountain, Wrangell Mountains; 62° 24' 00" N, 142° 58' 20" W; BGN 1939; (map 84). Local name reported by USGS in 1939. See Salt Chuck, village.

Skookum Creek: stream, flows NE 2 miles to Right Fork Bluestone River, 12 miles SE of Teller, Seward Peninsula Highlands; 65° 06' N, 166° 15' W; (map 111). Prospectors' name reported on a map of Cape Nome goldfields by David Fox, Jr., dated 1901. See Salt Chuck, village.

Skookum Creek: stream, flows NE 3 miles to Gold Run which flows to Bluestone River, 17 miles S of Teller, Seward Peninsula Highlands; 65° 02' N, 166° 12' W; (map 111). Local name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS. See Salt Chuck, village.

Skookum Creek: stream, flows S 1.3 miles to Pioneer Creek, 2.4 miles NE of Eureka and 21 miles S of Rampart, Yukon-Tanana Highlands; 65° 12' 00" N, 150° 08' 45" W; (map 106). Prospectors' name reported in 1904 by Prindle and Hess (1906, pl. 3), USGS. See Salt Chuck, village.

Skookum Creek: stream, flows SE 1 mile to Lower Willow Creek which flows to Casadepaga River, 20 miles NW of Solomon, Seward Peninsula Highlands; 64° 51' N, 164° 33' W; (map 95). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. See Salt Chuck, village.

Skookum Creek: stream, flows SE 2 miles to Gold Run which flows to Bonita Creek, 11 miles NE of Nome, Seward Peninsula Highlands; 64° 39' N, 165° 13' W; (map 94). Prospectors' name reported on a 1901 map of Cape Nome gold fields by David Fox, Jr. See Salt Chuck, village.

Skookum Creek: stream, flows SW 2.7 miles to Alder Creek which flows to North Fork Kougarak River, 4 miles NE of Harris Dome and 36 miles W of Imurok Lake, Seward

Peninsula Highlands; 65° 39' N, 164° 25' W; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS. See Salt Chuck, village.

Skookum Creek: stream, flows SW 3 miles to Crooked Creek, 7 miles W of Medfra, Kilbuck-Kuskokwim Mountains; 63° 06' N, 154° 55' W; (map 89). Local name reported in 1958 by USGS. See Salt Chuck, village.

Skookum Creek: stream, flows SW 4 miles to Turner Creek which flows to Noxapaga River, 32 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 31' N, 164° 17' W; BGN 1952; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS. See Salt Chuck, village.

Skookum Creek: stream, heads at Caribou Pass, in Nutzotin Mountains, flows SE 0.5 miles to Little Eldorado Creek 0.4 miles N of its junction with Bonanza Creek, 4.6 miles N of Beaver Lake, Alaska Range; 62° 06' 30" N, 141° 50' 00" W; (map 84). Local name reported by S. R. Capps (in Brooks and others, 1915, p. 219), USGS. See Salt Chuck, village.

Skookum Creek: stream, heads in York Mountains, flows NW 8 miles to Grouse Creek which flows to Mint River, 40 miles NW of Teller, Seward Peninsula Highlands; 65° 38' N, 167° 26' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson. See Salt Chuck, village.

Skookum Creek: stream, in Reverdy Mountains, flows S 2.3 miles to Fish Creek, 4.5 miles N of Hyder, Coast Mountains; 55° 59' N, 130° 03' W; (map 3). Variant: Skookum Creek Fork. Named by prospectors and recorded in 1915 by Theodore Chapin (in Brooks and others, 1916, p. 98), USGS. See Salt Chuck, village.

Skookum Creek: stream, on Kenai Peninsula, flows NW 4 miles to Placer River, 11 miles W of Whittier, Chugach Mountains; 60° 47' 10" N, 148° 59' 40" W; (map 63). Local prospectors' name; reported about 1914 by B. L. Johnson (in Martin and others, 1915, pl. 2), USGS. See Salt Chuck, village.

Skookum River: stream, flows SE 9 miles to Klokerblok River, 20 miles NE of Solomon, Seward Peninsula Highlands; 64° 40' N, 163° 48' W; (map 95) Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS. See Salt Chuck, village.

Skookumchuck: water passage, 1 mile long, between El Capitan Island and Tuxekan Island, Alexander Archipelago; 55° 54' 45" N, 133° 18' 45" W; (map 4). Published in 1923 by USC&GS. See Salt Chuck, village.

Skoot Cove: cove, 0.13 miles across, on SW coast of Shemya Island, Semichi Islands, Aleutian Islands; 52° 53' 00" N, 174° 04' 20" E; (map 13). Name published in 1953 on a USGS map.

Skotnik: mountain, see Barometer Mountain.

Skowl Arm: estuary, 6.5 miles long, off Kasaan Bay on E coast of Prince of Wales Island; Polk and McKenzie Inlets are arms of this estuary, Alexander Archipelago; 55° 26' N, 132° 16' W; (map 4). Variant: Skowl Bay. Named Skowl Bay by traders around 1880, after the "well-

known Chief Skowl [Sqa'oal], whose wealth, and enormous stature and obesity made him a notable man on the coast * * * (U.S. Coast and Geodetic Survey, 1891, p. 89). Skowl was the chief of the original Kasaan village, located on the north side of this feature. See Kasaan, Old Kasaan National Monument.

Skowl Bay: estuary, see Skowl Arm.

Skowl Island: island, 0.4 miles across, between Kasaan Bay and its Skowl Arm, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 25' 20" N, 132° 16' 00" W; (map 4). Name published in 1883 Coast Pilot (p. 86); derived from nearby Skowl village. Because of the vague charting of this vicinity, this island was shown (pl. 1571, map facing p. 72) about 3 miles west of its true position.

Skowl Point: point of land, E tip of Skowl Island, between Kasaan Bay and its Skowl Arm, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 25' 25" N, 132° 15' 40" W; (map 4). Named in 1880 by W. H. Dall, USC&GS.

Skowl: locality, see Old Kasaan.

Skukum Creek: stream, flows NE 2 miles to Walker Fork, 50 miles S of Eagle, Yukon-Tanana Highlands; 64° 04' 30" N, 141° 13' 00" W; (map 102). Local name published in 1956 by USGS.

Skull Cliff: cliff, elev. 50-75 ft., extends 6.5 miles along coast of Chukchi Sea, 30 miles SW of Barrow, Arctic Plain; 70° 54' N, 156° 48' W; BGN 1949; (map 147). Named about 1850 by English naval officers connected with the Sir John Franklin search expeditions. It is believed to be a translation of an Eskimo name.

Skull Creek: stream, flows 13 miles NW to Chitina River, 26 miles SW of McCarthy, Copper River Basin; 61° 19' 35" N, 143° 39' 40" W; (map 67). Local name obtained by USGS and published on maps since 1954.

Skull Creek: stream, flows 6 miles N to Smeaton Bay, 3 miles E of Point Nelson, Coast Mountains; 55° 17' 38" N, 130° 51' 00" W; BGN 1962; (map 3) Local name reported in 1961 by USFS.

Skull Creek: stream, flows SW 7 miles to Don River which flows to Breving Lagoon, 17 miles NW of Teller, Seward Peninsula Highlands; 65° 24' N, 166° 49' W; (map 111). Prospectors' name reported in 1918 by Steidtmann and Cathcart (1922, pl. 12), USGS.

Skull Island: island, see Scull Island.

Skull Lake: lake, 0.9 miles long, N of Chitina River, 25 miles SW of McCarthy, Copper River Basin; 61° 22' N, 143° 40' W; (map 67). Local name obtained by USGS and published on maps since 1954.

Skull Peak: peak, 6,740 ft., 0.8 miles SW of Cony Mountain, 18 miles NNE of Paxson, Alaska Range; 63° 17' 00" N, 145° 26' 40" W; (map 86). Named between 1948 and 1955 by T. L. Pewe, USGS.

Skwent River: stream, see Skwentna River.

Skwentna River: stream, heads at South Twin Glacier at 61° 26' N, 152° 41' W, flows N and E 100 miles to Yentna River, 63 miles N of Tyonek, Cook Inlet Lowland; 61° 59' 10" N, 151° 08' 30" W; (map 70). Variant: Squent River, Squentna River, Skwent River. Tanaina Indian name reported in 1898 by Spurr (1900, p. 48), USGS, as "Skwent River."

Skwentna: village, pop. 15, on S bank of Skwentna River at its junction with Eightmile Creek, 62 miles N of Tyonek, Cook Inlet Lowland; 61° 57' 30" N, 151° 10' 55" W; (map 70). Local name published in 1954 by USGS; derived from nearby river. A post office was maintained there from 1937 to 1939 (Ricks, 1965, p. 59).

Skyscraper Mountain: mountain, 4,775 ft., E of Bullion Mountain, between Fishhook and Upper Willow Creeks, 14 miles NW of Palmer, Talkeetna Mountains; 61° 46' 45" N, 149° 18' 00" W; (map 69) Descriptive name reported in 1942 by USGS.

Skyscraper Peak: mountain, 5,800 ft., between Kuskulana and Kotsina Rivers, 31 miles NW of McCarthy, Wrangell Mountains, 61° 42' N, 143° 48' W; (map 67). Local name reported in 1900 by T. G. Gerdine, USGS.

Sla River: stream, see Slana River.

Slab Point: point of land, on W bank of Portland Canal, 19 miles S of Hyder, Coast Mountains; 55° 38' 30" N, 130° 07' 25" W; (map 3). Descriptive name given in 1868 by Staff Comdr. David Pender, RN.

Sladen Creek: stream, see Bubb Creek.

Sladen Creek: stream, tributary to Bubb Creek from the SW, 62° 03' N, 147° 35' W; (map 82). Named in 1898 by Capt. E. F. Glenn, USA.

Slag Point: point of land, on the mainland, NE point of entrance to Shoalwater Pass, 0.2 miles NE of Winstanley Island, Coast Mountains; 55° 28' N, 130° 54' W; (map 3). Descriptive name given in 1891 by USC&GS.

Slahna: stream, see Slana River.

Slakna: stream, see Slana River.

Slana River: stream, heads at glacier terminus, flows S 55 miles to Copper River, Alaska Range; 62° 42' N, 144° 00' W; BGN 1936; (map 84). Variant: Slahna, Slakna, Sla River. Indian name reported in 1885 by Lt. Allen (1887, p. 71), USA.

Slana: village, pop. 12, S of Glenn Highway, on N bank of Slana River near its junction with Copper River, 53 miles SW of Tok, Alaska Range; 62° 42' 30" N, 143° 57' 45" W; BGN 1936; (map 84). Indian village name derived from name of river on which it is located; published in 1936 by USGS.

Slanting Peak: peak, 5,200 ft., at head of North Branch Norris Glacier, 2.4 miles NE of Guardian Mountain and 18 miles NE of Juneau, Coast Mountains; 53° 32' 15" N, 134° 12' 50" W; (map 11). Descriptive name published in 1960 by USGS.

Slate Creek: locality, on N bank of Slate Creek, 0.3 miles E of Chistochina River and 22 miles NE of Paxson, Alaska Range, 63° 10' 20" N, 144° 51' 30" W; (map 86). Local name reported in 1950 by USGS.

Slate Creek: locality, see Coldfoot.

Slate Creek: stream, flows E 1 mile to Nome River, 14 miles N of Nome, Seward Peninsula Highlands; 64° 42' N, 165° 19' W; (map 94). Prospectors' name reported on a map by S E. King dated 1900.

Slate Creek: stream, flows E 1 mile to Woodchopper Creek, 3.3 miles SSW of that stream's junction with Yukon River and 40 miles SE of Circle, Yukon-Tanana Highlands; 65° 18' 45" N, 143° 21' 30" W; (map 103). Local name published in 1956 by USGS.

Slate Creek: stream, flows N 1.6 miles to Boulder Creek, 40 miles SW of Circle, Yukon-Tanana Highlands; 65° 28' N, 145° 06' W; (map 104). Named by prospectors; reported by USGS (Prindle, 1906, p. 17).

Slate Creek: stream, flows N 2 miles to Sunset Creek, in Bluestone River basin, 17 miles S of Teller, Seward Peninsula Highlands; 65° 01' N, 166° 17' W; (map 111). Variant: Upper Quartz Creek. Local name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Slate Creek: stream, flows N 4 miles to Pilgrim River, 27 miles NW of Solomon, Seward Peninsula Highlands; 64° 55' N, 164° 51' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Slate Creek: stream, flows N 4.5 miles to Windfall Creek, 2.3 miles E of Dotsons Landing on Favorite Channel and 17 miles NW of Juneau, Coast Mountains; 58° 29' 30" N, 134° 43' 00" W; (map 11). Name reported by Knopf (1912a, pl. 1), USGS.

Slate Creek: stream, flows NE 1.5 miles to Chuck River, 4 miles S of Windham Bay, and 67 miles SE of Juneau, Coast Mountains; 57° 34' 00" N, 133° 20' 50" W; (map 8). Prospectors' name reported in 1903 by Spencer and Wright (1906, fig. 3), USGS; so called because "the bed rock in this vicinity is mostly black slate." Gold mining was started along this stream about 1903 including the Lost Rocker mines named for "The Lost Rocker," a drama popular at Juneau in the 1890's.

Slate Creek: stream, flows NE 3.5 miles to Fork Creek, 14 miles NW of Heart Lake and 71 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 13' N, 160° 00' W; (map 59). Local name reported in 1955 by J. M. Hoare, USGS.

Slate Creek: stream, flows NE 5 miles to Tozimoran Creek, 2 miles W of mouth of Wells Creek, 23 miles WNW of Tanana, Kokrines-Hodzana Highlands; 65° 23' N, 152° 43' W; (map 106). Prospectors' name reported in 1943 by R. M. Chapman, USGS.

Slate Creek: stream, flows NE 7 miles to Nenana River, 17 miles NW of Healy, Alaska Range; 63° 59' 45" N, 149° 06' 30" W; (map 87). Local name reported in 1951 by USGS.

Slate Creek: stream, flows NNE 9 miles to Little Tonsina River, 5 miles NW of Ernestine and 43 miles NE of Valdez, Chugach Mountains; 61° 30' 00" N, 145° 12' 30" W; BGN 1932; (map 68) Variant: Rainbow Creek. Local name reported in 1930 by USGS. F. C. Schrader, USGS, reported the name in 1900 as Rainbow Creek.

Slate Creek: stream, flows NW 12 miles to Tuluksak River, 60 miles NE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 59' N, 160° 01' W; (map 59). Prospectors' name reported in 1914 by A. G. Maddren (in Brooks, 1915, pl. 11), USGS.

Slate Creek: stream, flows NW 2 miles to Cripple River, 18 miles NW of Nome, Seward Peninsula Highlands; 64° 45' N, 165° 38' W; (map 94). Prospectors' name reported on a 1901 map of Cape Nome gold fields by David Fox, Jr.

Slate Creek: stream, flows NW 2.9 miles to Iditarod River, 5 miles SE of Mosquito Mountain and 33 miles SE of Holy Cross, Kilbuck-Kuskokwim Mountains; 62° 02' 15" N, 158° 47' 30" W; (map 79). Prospectors' name published in 1921 by USGS.

Slate Creek: stream, flows NW 3 miles to Fox River, 24 miles NE of Solomon, Seward Peninsula Highlands; 64° 46' N, 163° 49' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Slate Creek: stream, flows S 1 mile to Right Fork Bluestone River, 12 miles SE of Teller, Seward Peninsula Highlands; 65° 06' N, 166° 18' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Slate Creek: stream, flows S 6 miles from a lake, joins McLellan Creek to form Grave Creek 15 miles ENE of Chandalar, Brooks Range; 67° 34' 30" N, 147° 58' 00" W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Slate Creek: stream, flows S 9 miles, joins Trout Creek to form Pitka Fork Hodzana River, 53 miles NW of Beaver. Kokrines-Hodzana Highlands; 66° 58' 20" N, 148° 33' 30" W; (map 118). Local descriptive name obtained in 1956 by USGS.

Slate Creek: stream, flows SE 1.1 miles to Banner Creek, 9 miles NE of Nome, Seward Peninsula Highlands; 64° 39' N, 165° 20' W; (map 94) Variant: Right Fork Banner Creek. Prospectors' name reported on a 1901 map of Cape Nome gold fields by David Fox, Jr.

Slate Creek: stream, flows SE 24 miles, joins Independence Creek to form North Fork Forty mile River, 37 miles SW of Eagle, Yukon Tanana Highlands; 64° 38' N, 142° 24' W; (map 102). Named by prospectors and shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Slate Creek: stream, flows SE 3 miles to Berners Bay, on Lynn Canal, 2.5 miles NW of Cove Point and 40 miles NW of Juneau, Coast Mountains; 58° 47' 30" N, 135° 02' 00" W; (map 11). Local name reported in 1906 by R. B. Oliver, USGS, and published in 1908.

Slate Creek: stream, flows SE 3.6 miles to Camp Creek, 48 miles W of Talkeetna, Alaska Range 62° 25' 35" N, 151° 35' 55" W; (map 81). Prospectors' name reported in 1906 by R. W. Porter, USGS.

Slate Creek: stream, flows SE 4 miles to Fish River, 43 miles NE of Solomon, Seward Peninsula Highlands; 64° 54' N, 163° 15' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Slate Creek: stream, flows SW 1 mile to Lucky Strike Creek which flows to Bluestone River, 10 miles SE of Teller, Seward Peninsula Highlands; 65° 09' N, 166° 09' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Slate Creek: stream, flows SW 13 miles to Goodpaster River, 50 miles ENE of Big Delta, Yukon-Tanana Highlands; 64° 30' N, 144° 21' W; (map 101). Local name reported in 1958 by USGS.

Slate Creek: stream, flows SW 17 miles to Tatalina River, 19 miles SE of Livengood, Yukon-Tanana Highlands; 65° 16' N, 148° 24' W; (map 105). Local name published by USGS in the 1950's.

Slate Creek: stream, flows SW 2 miles to Grantley Harbor, 4 miles NE of Teller, Seward Peninsula Highlands; 65° 18' N, 166° 15' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Slate Creek: stream, flows SW 2.5 miles to Stewart River, 22 miles N of Nome, Seward Peninsula Highlands; 64° 49' 36" N, 165° 21' 15" W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Slate Creek: stream, flows SW 9 miles to Goodnews River, 18 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 18' N, 161° 15' W; (map 53) Probably a prospector's name reported in 1919 by G. L. Harrington (in Brooks, 1921, pl. 7), USGS. So named because it flows over slate-like rocks in the upper part of its course.

Slate Creek: stream, flows W 19 miles, N of Sitkum Pass, to Middle Fork Koyukuk River, 11 miles S of Wiseman, Brooks Range; 67° 15' 30" N, 150° 11' 30" W; (map 124). Local name shown on an 1899 fieldsheet by T. G. Gerdine, USGS.

Slate Creek: stream, heads between Chisna Pass and Chistochina Glacier, flows SW 3.6 miles to Chistochina River, 22 miles NE of Paxson, Alaska Range; 62° 10' 22" N, 144° 52' 15" W (map 86). Prospector's name reported in 1900 by T. G. Gerdine (in Mendenhall and Schrader, 1903 pl. 9), USGS.

Slate Creek: stream, heads in Peters Hills, flows NW 1.3 miles to Cache Creek, 29 miles NW of Talkeetna, Alaska Range; 62° 30' 45" N, 150° 55' 00" W; (map 81). Prospectors' name reported in 1911 by S. R. Capps, USGS.

Slate Creek: stream, heads on Baldry Mountain, flows NE 7 miles to Minook Creek, 10 miles S of Rampart, Yukon-Tanana Highlands; 65° 22' N, 150° 08' W; (map 106). Prospectors' name reported in 1904 by Prindle and Hess (1906, pl. 3), USGS.

Slate Creek: stream, heads on Chicken Mountain, flows N 4.8 miles to Otter Creek 11 miles E of its junction with Iditarod River, 3.2 miles E of Flat and 57 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 62° 27' 10" N, 157° 54' 10" W; (map 79). Name shown on a 1910 manuscript map of "Iditarod Placer Fields."

Slate Creek: stream, heads on E side of Gilpatrick Mountain, flows E 2.5 miles to Summit Creek at Gilpatricks, 20 miles S of Sunrise, Chugach Mountains; 60° 36' 00" N, 149° 32' 25" W; BGN 1910; (map 63). Local name reported in 1908 by U. S. Grant and D. F. Higgins (1910, pl. 4), USGS.

Slate Creek: stream, in Kantishna Hills, flows NE 2 miles to Eldorado Creek, 4 miles W of Wonder Lake, Alaska Range, 63° 29' 45" N, 151° 01' 10" W; (map 88). Local name shown on a 1916 fieldsheet by C. E. Giffin, USGS.

Slate Creek: stream, on N end of Kenai Peninsula, flows N 1.5 miles to Turnagain Arm, 6 miles E of Sunrise, Chugach Mountains; 60° 53' 30" N, 149° 14' 20" W; (map 63). Local prospectors' name; reported in 1904 by Moffit (1906, pl. 2), USGS.

Slate Creek: stream, see Richter Creek.

Slate Creek: stream, see Rover Creek.

Slate Creek: stream, see Stella Creek.

Slate Gulch: ravine, trends W 1 mile to Slate Creek which flows to Banner Creek, 11 miles N of Nome, Seward Peninsula Highlands; 64° 39' N, 165° 20' W; (map 94). Prospectors' name shown on the 1902 "Map of the Nome and Snake River Country" by J. M. Davidson.

Slate Island: island, 1.2 miles long, in Aialik Bay, 17 miles SW of Seward, Chugach Mountains; 59° 55' N, 149° 43' W; BGN 1911; (map 49). Named in 1909 by U. S. Grant, USGS.

Slate Island: islands, see Slate Islands.

Slate Islands: islands, group of 4, largest is 800 ft. long, extend 0.8 miles, near E shore of Revillagigedo Channel, N of Boca de Quadra, Coast Mountains; 55° 05' 45" N, 131° 03' 00" W; (map 3). Variant: Slate Island, Slate Islet. Named "Slate Islet" in 1793 by Capt. George Vancouver, RN, because it is "entirely composed of that rock"; published in 1883 Coast Pilot (p. 71).

Slate Islet: islands, see Slate Islands.

Slate Islets: islands, on W coast of Baranof Island, 27 miles S of Sitka, Alexander Archipelago; 56° 40' 20" N, 135° 13' 00" W; (map 5). Variant: Aspid Islets, Ostrov Aspid. This is an 1880 translation by USC&GS of the Russian name "Ostrov Aspid."

Slate Lake: lake, 3.5 miles long, among Tikchik Lakes, 1.5 miles N of Upnuk Lake and 112 miles SW of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 24' N, 158° 54' W; (map 60). Local name reported in 1950 by USGS.

Slate Peak: peak, 3,380 ft., 2.5 miles SW of terminus of Moser Glacier and 21 miles E of Yakutat, St. Elias Mountains; 59° 33' 35" N, 139° 07' 15" W; (map 46). Descriptive name given in 1960 by Thomas Riggs, Jr., and published by Blackwelder (1907, p. 421), USGS.

Slatepile Mountain: mountain, 5,000 ft., 10 miles NW of Mt. Doonerak and 43 miles NW of Wiseman, Brooks Range; 67° 57' N, 150° 59' W; (map 124). In describing this mountain, Marshall (1956, p. 15) wrote, "It was just one great pile of loose slate heaped up in spots * * *."

Slater Creek: stream, flows W 4 miles to outwash plain of Valdez Glacier, 3 miles NE of Valdez, Chugach Mountains; 61° 07' 40" N, 146° 11' 30" W; (map 68). Local name published in the 1950's by USGS.

Slaterville: village, pop. 611 (1950), residential suburb on Garden Island, N of Fairbanks, Tanana Lowland; 64° 51' 10" N, 147° 43' 00" W; (map 100). Local name reported in 1950 by USGS topographers.

Slathtouka Creek: stream, heads in Indian Mountains, flows E 23 miles to Mentanontli River, 35 miles NE of Hughes, Kokrines-Hodzana Highlands; 66° 15' N, 153° 07' W; (map 116). Indian name reported to mean "trapping," recorded at Hughes in 1956 by Orth.

Slatka Creek: stream, flows W 3.5 miles to Kuskulana River, 30 miles NW of McCarthy, Wrangell Mountains; 61° 35' N, 143° 44' W; (map 67). Indian name reported in 1900 by T. G. Gerdine, USGS.

Slaughter Creek: stream, on Kenai Peninsula, flows NW 3 miles to Juneau Creek, 2 miles S of Juneau Lake and 32 miles NW of Seward, Chugach Mountains; 60° 32' 30" N, 149° 53' 00" W; (map 63). Local name reported in 1951 by USGS.

Slaughter Island: island, 0.2 miles across, at N entrance to Shelikof Bay, on W coast of Kruzof Island, 20 miles NW of Sitka, Alexander Archipelago; 57° 10' 00" N, 135° 49' 45" W; (map 9). Named in 1897 by Lt. Comdr. E. K. Moore, USN; published by USC&GS in 1901 Coast Pilot (p. 198).

Slava Rossie, Mys: promontory, see Glory of Russia Cape.

Slava Rossii Bay: bay, see Tanaga Bay.

Slavarassi: locality, see Glory of Russia.

Slavna Point: point of land, on W shore of Belkofski Bay, 23 miles SE of village of Cold Bay, at SW end of Alaska Peninsula, Aleutian Range; 55° 04' N, 162° 12' W; (map 29). Russian name from the word "slave" meaning "glory" published by USC&GS in the 1926 Alaska Coast Pilot (pt. 2, p. 209).

Slavy Rossii, Mys: promontory, see Glory of Russia Cape.

Slawa Rossiji: locality, see Glory of Russia.

Sled Pass: pass, 3,300 ft., near head of Pass Fork Hartman River, 95 miles NW of Tyonek, Alaska Range; 61° 38' 30" N, 153° 43' 30" W; BGN 1930; (map 71). Local name reported in 1929 by S. R. Capps and Gerald FitzGerald, USGS; so called "because dog sleds are used by natives over this pass during winter."

Sledge Creek: stream, flows E 3.3 miles to Snake River, 8 miles NW of Nome, Seward Peninsula Highlands; 64° 37' N, 165° 28' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Sledge Island: island, 1.5 miles across, in Bering Sea, 5 miles off S coast of Seward Peninsula, 25 miles W of Nome; 64° 29' N, 166° 13' W; (map 94) Variant: Ajak Island, Asiak Island, Asshiak Island, Ayak Island, Aziak Island, Azjiak Island, Ostrov Azvyak, Ostrov Azzhiak. Named August 5, 1778, by Capt. Cook (1785, v. 2, p. 441), RN: "We found, a little way from the shore where we landed, a sledge, which occasioned this name being given to the island." According to Martin Sauer the Eskimo name is "Ayak." Capt. Beechey (1831, p. 291-292), RN, noted: "It is singular that this island, which was named Sledge Island by Captain Cook, from the circumstances of one of these implements being found upon it, should be called by a word signifying the same thing in the Esquimaux language."

Sleem Creek: stream, flows SE 3 miles to Hutchinson Creek, 48 miles SW of Eagle, Yukon-Tanana Highlands; 64° 22' N, 142° 15' W; (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Sleeping Sister Mountain: mountain, 4,150 ft., in Kenai Mountains, between Ship Creek and Meadow Creek, on S side of Kenai Lake, 18 miles NW of Seward, Chugach Mountains; 60° 22' 45" N, 149° 28' 45" W; (map 63). Local name reported in 1951 by USGS.

Sleepy Bay: bight, 1 mile across, at N tip of Latouche Island, at SE end of Knight Island Passage, 54 miles E of Seward, Chugach Mountains; 60° 04' 30" N, 147° 50' 00" W; BGN 1910; (map 63). Local name reported in 1909 by U. S. Grant and D. F. Higgins (1910, p. 29), USGS.

Sleepy Creek: stream, flows N 4 miles to Blue Violet Creek, 24 miles NE of Chignik, Aleutian Range; 56° 37' N, 158° 17' W; (map 30). Name reported in 1923 by R. H. Sargent, USGS; published in 1927 by USGS.

Sleepy Creek: stream, flows SW 7 miles to Glacier River, 6 miles SE of Foggytop Mountain and 16 miles NW of Wiseman, Brooks Range; 67° 37' 30" N, 150° 22' 45" W; BGN 1932; (map 124). Variant: Shinningnellichshunga Creek. Robert Marshall (1956, p. 162) wrote "we forded Hammond River and followed up Shinningnellichshunga (I am Sleepy) Creek which I had named eight years before * * *. Jesse * * refused to say anything lengthier than Sleepy Creek."

Sleepy Sea: sea, see Bering Sea.

Sleetmute: village, pop. 122, on E bank of Kuskokwim River 1.5 miles N of its junction with Holitna River, 78 miles E of Aniak, Stony River Lowland; 61° 42" N, 157° 10' W; BGN 1948; (map 72). Variant: Sikmiut, Sleitmut, Steelmute, Steitmute. Eskimo village mentioned in 1907 by Gordon (1917, p. 109-119), who spelled it "Sikmiut." The present form of the name (and "Sleitmut") was published by USGS in 1913 and reported to mean "stones people" or "whetstone people." The population of the village was 133 in 1930; 86 in 1939; and 120 in 1950.

Sleigh Creek: stream, flows NW 3 miles to Crooked Creek, 9 miles N of Tahnetta Pass, Talkeetna Mountains; 62° 00' 50" N, 147° 17' 00" W; BGN 1960; (map 82). Variant: Cottonwood Creek. Local name reported in 1956 by USGS.

Sleit Mountain: mountain, 1,800 ft., 85 miles W of Lake Clark and 115 miles S of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 03' N, 157° 06' W; BGN 1932; (map 60). Eskimo name meaning "whetstone"; reported in 1931 by Gerald FitzGerald, USGS.

Sleitmut: village, see Sleetmute.

Slender Lake: lake, 1 mile long, at head of Martin Creek, 12 miles NE of 1950 terminus of Tana Glacier and 114 miles NE of Cordova; Chugach Mountains; 60° 53' N, 142° 26' W; (map 65). Descriptive name reported by Moffit (1918, pl. 6), USGS.

Slide Creek: stream, 7 miles long, heads 5 miles W of Narrow Point and flows SE then NE to Clarence Strait, E coast of Prince of Wales Island, Alexander Archipelago; 55° 45' 20" N, 132° 29' 30" W BGN 1962; (map 4). Local name reported in 1961 by USFS; given "because of a large slide near its mouth * * *."

Slide Creek: stream, flows E 6 miles to Dry Creek, 25 miles S of Blair Lakes and 60 miles S of Fairbanks, Alaska Range; 64° 00' 30" N, 147° 12' 30" W; (map 100). Local name reported in 1910 by USGS (Capps, 1912, pl. 1).

Slide Creek: stream, heads at glacier, flows SE 5 miles to Alder Creek 8 miles NW of its junction with Tokositna River, 25 miles NW of Talkeetna, Alaska Range; 62° 46' 50" N, 150° 25' 45" W; (map 81). Prospectors' descriptive name published in 1940 by USGS.

Slide Creek: stream, on Mount Dolly, in Reverdy Mountains, flows W 1.5 miles to Fish Creek, 4 miles N of Hyder, Coast Mountains; 55° 58' 35" N, 130° 03' 12" W; (map 3). Local name reported in 1955 by USGS.

Slide Lake: lake, 1 mile long, on Admiralty Island, 3 miles SW of head of King Salmon Bay and 21 miles S of Juneau, Alexander Archipelago; 58° 00' 05" N, 134° 22' 45" W; (map 11). Descriptive name published in 1951 by USGS.

Slide Mountain: mountain, 4,000 ft., N of Glenn Highway, 42 miles WSW of Glennallen, Copper River Basin; 62° 01' N, 146° 50' W; (map 83). Local descriptive name reported in 1949 by USGS. So called because the south face of the mountain is the site of many landslides.

Slide Point: point of land, see Eva, Point.

Slide Reef: rocks, offshore between Cape Lynch and Dead Tree Point, W coast of Heceta Island Alexander Archipelago; 55° 45' 40" N, 133° 40' 45" W BGN 1908; (map 4). Local descriptive name "suggested by a landslide near it on Heceta Island"; reported in 1907 by E. F. Dickins, USC&GS.

Slide Ridge: ridge, extends SW 3.5 miles from Thornton Mountain to Tongass Narrows, N of Ward Cove, on Revillagigedo Island, Alexander Archipelago 55° 26' N, 131° 43' W; (map 3). Descriptive name given in 1883 by Lt. Comdr. H. E. Nichols, USN.

Slikok Creek: stream, on Kenai Peninsula, flows N 10 miles to Kenai River, 2 miles W of Soldatna and 7 miles SE of Kenai, Cook Inlet Lowland; 60° 28' 45" N, 151° 07' 28" W, (map 63). Tanaina Indian name, reported in 1944 by USGS.

Slikok Lake: lake, 0.6 miles long, drains W to Slikok Creek, on Kenai Peninsula, 11 miles SE of Kenai, Cook Inlet Lowland; 60° 25' 30" N, 151° 03' 00" W; (map 62). Tanaina Indian name; reported in 1958 by USGS.

Slim Glacier: glacier, on E slope of Mount Veniaminof, trends SE 5 miles to its terminus 7 miles SW of Knife Peak, Aleutian Range; 56° 11' N, 159° 11' W; (map 30). Descriptive name reported in 1923 by R. H. Sargent, USGS.

Slim Island: island, 0.5 miles long, off W shore of Harry Bay, at entrance to Nakat Bay, NE of Dixon Entrance, Coast Mountains; 54° 48' 00" N, 130° 46' 45" W; (map 2). Descriptive name given in 1883 by Lt. Comdr. H. E. Nichols, USN.

Slim Island: island, 1.8 miles long, in Yukon River, 2 miles S of Anvik and 31 miles N of Holy Cross, Nulato Hills; 62° 37' 00" N, 160° 11' 30" W; (map 78). Riverboat pilots' name reported in 1916 by Harrington (1918, pl. 1), USGS.

Slim Lake: lake, 0.6 miles long, in course of Donchelok Creek, 3 miles S of village of Minchumina, Tanana Lowland; 63° 50' N, 152° 20' W; (map 88). Variant: Dontsolakhmena. Local descriptive name reported in 1952 by Fabian Carey. The Tanana Indian name is given as "Dontsolakhmena," meaning "suckerfish lake."

Slim Point: point of land, see Thin Point.

Slime Bank: shoal, along N coast of Unimak Island, seaward of Urilia Bay, Aleutian Islands; 54° 57' N, 164° 16' W; (map 24). Name reported in 1890 by Lt. Comdr. Z. L. Tanner, USN; so called by fishermen because of the abundant jellyfish found there.

Slime Creek: stream, flows NW 4 miles to Nenana River, 25 miles SE of Healy, Alaska Range; 63° 30' 45" N, 148° 49' 30" W; (map 87). Descriptive name reported by The Alaska Railroad on a 1923 manuscript map.

Slipper Lake: lake, 1,400 ft long, between Eska and Jonesville, 11 miles NE of Palmer, Cook Inlet Lowland; 61° 44' N, 148° 55' W; (map 69). Local name reported in 1951 by USGS.

Slipper Point: point of land, on S coast of Alaska, between Long Bay and Buyers Cove, 1.5 miles N of Glacier Island and 51 miles NE of Whittier, Chugach Mountains; 60° 55' 05" N, 47° 15' 30" W; (map 63). Local name reported in 1951 by USGS.

Slippery Creek: stream, flows N to Fish Creek about 1 mile S of Fairbanks Creek, 24 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 02' 25" N, 147° 05' 40" W; BGN 1939; (map 105). Local name reported in 1939 by USGS; this stream cannot be precisely located on present maps.

Slippery Creek: stream, flows SW 3 miles to Portage Creek just N of Right Arm Iniskin Bay and 26 miles N of Augustine Island, Aleutian Range; 59° 44' 25" N, 153° 20' 32" W; BGN 1962; (map 51). Name published by USGS in 1958.

Slippery Creek: stream, heads on Peters Dome, in Mount McKinley National Park, flows NW 50 miles to McKinley River, 22 miles ESE of village of Lake Minchumina, Tanana Lowland; 63° 45' N, 151° 40' W; (map 88). Local name reported in 1925 by S. R. Capps, USGS.

Sliscovitchs Roadhouse: locality, SE of junction of Slate Creek and Pilgrim River, 27 miles NW of Solomon, Seward Peninsula Highlands; 64° 55' N, 164° 50' W; (map 95). Site of roadhouse shown on map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Slo Duc Creek: stream, flows W 3.5 miles to Hamilton Bay, 5.3 miles SE of Kake, on NW coast of Kupreanof Island, Alexander Archipelago; 56° 55' 15" N, 133° 51' 00" W; (map 6). Local name recorded in 1951 by USGS.

Slocum Arm: estuary, on SW coast of Chichagof Island, extends NW 13 miles to Khaz Bay, 4 miles S of Chichagof, Alexander Archipelago; 57° 34' N, 136° 03' W; BGN 1908; (map 9). Named in 1897 by Lt. Comdr. E. K. Moore, USN; and published by USC&GS in 1901 Coast Pilot (p. 108).

Slocum Inlet: bay, 0.5 miles across, on E shore of Stephens Passage, 5 miles N of Taku Harbor and 17 miles SE of Juneau, Coast Mountains, 58° 07' 50" N, 134° 04' 30" W; (map 11). Named in 1888 by Lt. Comdr. C. M. Thomas, USN, for Ens. George Ralph Slocum, USN, a member of his party. The name was published by USC&GS in the 1891 Coast Pilot (p. 149).

Slocum, Point: point of land, on Khaz Peninsula, 14 miles SE of Chichagof, Alexander Archipelago; 57° 28' N, 135° 58' W; (map 9). Named in 1897 by Lt. Comdr. E. K. Moore, USN; published by USC&GS in 1901 Coast Pilot (p. 198).

Sloistie: point of land, see Lay, Point.

Slokhenjikh Creek: stream, flows SW 18 miles to Melozitna River, 49 miles NW of Tanana, Kokrines-Hodzana Highlands; 65° 47' N, 152° 55' W; (map 106). Koyukan Indian name obtained in 1956 at Hughes by Orth.

Slokhenjikh Hills: hills, 1,600 ft., extend 15 miles NE from junction of Slokhenjikh Creek and Melozitna River, 52 miles WNW of Tanana, Kokrines-Hodzana Highlands; 65° 52' 30" N, 152° 42' 30" W; (map 106). Koyukan Indian name obtained in 1956 at Hughes by Orth.

Slope Creek: stream, flows NE 3 miles to Moose Creek, 13 miles NE of Livengood, Yukon-Tanana Highlands; 65° 39' 15" N, 148° 14' 45" W; (map 105). Local name reported in 1916 by J. B. Mertie (in Brooks and others, 1918, pl. 13), USGS.

Slope Creek: stream, flows SE 2.6 miles to Willow Creek, 7.8 miles SE of Marshall, Nulato Hills; 61° 47' 50" N, 161° 54' 50" W; (map 73). Prospectors' name reported by Harrington (1918, map), USGS, in 1916, as flowing into Spruce Creek. Recent maps apply the name as above.

Slope Glacier: glacier, on NW slope of Carbon Mountain, trends NE 2 miles to its 1950 terminus, 3 miles N of Doughton Peak and 64 miles E of Cordova, Chugach Mountains; 60° 28' 40" N, 143° 52' 30" W; (map 65). Descriptive name given by prospectors and reported in 1905 by G. C. Martin, USGS.

Slope Hill: hill, 475 ft., W of Bogoslof Hill, on central St. Paul Island, in Pribilof Islands; 57° 10' 45" N, 170° 18' 30" W; (map 38). Named by Joseph Stanley-Brown, USGS, in 1891.

Slope Mountain: mountain, 3,800 ft., on W shore of Cook Inlet, S of Chisik Island, 58 miles SW of Kenai, Aleutian Range; 60° 04' 00" N, 152° 38' 45" W; (map 62). Local descriptive name; reported about 1910 by G. C. Martin (1921, pl. 8), USGS.

Slope Peak: mountain, 1,612 ft., 7 miles SW of Cape Chiniak, on E coast of Kodiak Island; 57° 32' 30" N, 152° 16' 30" W; (map 34). Local name reported in 1949 by USGS.

Slope Point: point of land, off W coast of Chichagof Island, on S tip of island in Rough Channel, 45 miles SW of Chichagof, Alexander Archipelago; 57° 36' N, 136° 08' W; (map 9). Named in 1908 by USC&GS; published in 1909 on Chart 8280.

Slope Point: point of land, on N side of Passage Canal, 10 miles NE of Whittier, Chugach Mountains; 60° 48' 15" N, 148° 23' 10" W; (map 63). Descriptive name given in 1914 by USC&GS.

Slope Point: point of land, W entrance point to Crescent Bay, on N coast of Atka Island, Aleutian Islands; 52° 03' 00" N, 175° 15' 30" W; (map 18). Descriptive name applied "because of the ridge rising gradually to a hill to the south." Published by USC&GS in the 1944 Aleutian Coast Pilot (p. 99).

Sloss Bay: lagoon, see Moffet Lagoon.

Slough, The: water passage, 2 miles long, between Raspberry and Little Raspberry Islands, N of Kodiak Island; 57° 59' 30" N, 152° 55' 00" W; (map 34, 43). Local name reported in 1950 by USGS.

Slow Creek: stream, heads on SW slope of Hunch Mountain, flows NW 35 miles to North Fork Innoko River 0.7 miles E of its junction with Innoko River, 49 miles N of Ophir and 63 miles S of Galena, Innoko Lowland; 63° 49' 30" N, 156° 36' 00" W; (map 90). Variant: Elk Creek, Slow Fork. Local name obtained from Joseph Ferris in 1954 by R. E. Isto, USGS.

Slow Fork Hills: ridge, elev. 900-2,000 ft., extends NW-SE 20 miles between Slow Fork Kuskokwim and Tonzona Rivers, 40 miles E of Medfra, Kuskokwim Lowland; 63° 00' N, 152° 45' W; [E end]; 63° 08' N, 153° 27' W; [W end]; (map 88). Local name reported in 1954 by USGS.

Slow Fork Kuskokwim River: stream, see Highpower Creek.

Slow Fork of Swift Fork Kuskokwim River: stream, see Highpower Creek.

Slow Fork: stream, heads at 63° 02' N, 152° 56' W, flows NW 63 miles to East Fork Kuskokwim River 4 miles NW of Lake Hoyle and 32 miles NE of Medfra, Kuskokwim Lowland; 63° 11' N, 153° 45' W; BGN 1964; (map 89). Variant: East Fork Kuskokwim River, Slow Fork Kuskokwim River. Local name reported in 1950 by USGS.

Slow Fork: stream, see Highpower Creek.

Slow Fork: stream, see Slow Creek.

Slug Mountain: mountain, 1,565 ft., 6.5 miles NE of Cape Peirce and 22 miles W of Hagemeister Island, Kilbuck-Kuskokwim Mountains; 58° 37' 45" N, 161° 39' 10" W; (map 39). Local name published in 1949 by USGS; name probably derived from the river at its foot.

Slug River: stream, flows SW 15 miles to Nanvak Bay, 3 miles NW of Slug Mountain and 24 miles W of Hagemeister Islands, Kilbuck-Kuskokwim Mountains; 58° 38' 15" N, 161° 44' 00" W, (map 39). Local name published in 1938 by USGS.

Sluicebox Creek: stream, flows NE 5 miles to Troublesome Creek, 15 miles SE of Rampart, Yukon-Tanana Highlands; 65° 25' N, 149° 42' W; (map 105). So named by prospectors; reported in 1908 by USGS (Covert and Ellsworth, 1909, pl. 5).

Small Arm Whale Bay: bay, 0.5 miles across, N part of Whale Bay, on SW coast of Baranof Island, Alexander Archipelago; 56° 33' N, 135° 01' W; (map 5). Variant: Little Whale Bay, Maley Roukav, Maloy Rukav, Maloi Rukov, Lesser Arm, Small Sleeve. Name published by USC&GS in 1883 Coast Pilot (p. 133); derived from "Maloi Rukov," meaning "small sleeve"; published in 1850 by the Russian American Company.

Small Bay: bay, 0.2 miles across, W side of Beaver Inlet, E coast of Unalaska Island, Aleutian Islands; 53° 46' 45" N, 166° 27' 00" W; (map 23). Descriptive name given by J. J. Gilbert, USC&GS, commander of the Coast Survey steamer Pathfinder during 1900-01.

Small Creek: stream, flows N 6.3 miles to Iditarod River, 4.7 miles SE of Mosquito Mountain and 33 miles E of Holy Cross, Kilbuck-Kuskokwim Mountains; 62° 04' 00" N, 158° 45' 30" W; BGN 1948; (map 79). Local name obtained in 1945 by USGS.

Small Creek: stream, flows NE 1 mile to Anton Larsen Bay, 11 miles NW of Kodiak, Kodiak Island; 57° 51' 50" N, 152° 39' 08" W; BGN 1966; (map 34). Local name reported in 1966 by the Alaska State Geographic Board.

Small Creek: stream, flows NW 1.8 miles to Tsina River, 3 miles E of Ptarmigan and 25 miles NE of Valdez, Chugach Mountains; 61° 12' 15" N, 145° 32' 15" W; (map 68). Local name published in the 1950's by USGS.

Small Creek: stream, on Chichagof Island, flows 0.3 miles N to Pavlof Harbor, on Freshwater Bay, 8 miles NE of Tenakee Springs, Alexander Archipelago; 57° 50' 25" N, 135° 01' 30" W; (map 9). Descriptive name given by Comdr. R. W. Meade, USN; published in 1869 on Hydrog. Chart 225. Name not shown on recent maps.

Small Pass: water passage, see South Pass.

Small Sleeve: bay, see Small Arm Whale Bay.

Small Timber Lake: lake, 1.5 miles long, 3 miles E of Chalkyitsik, Yukon Flats; 66° 40' N, 143° 50' W; (map 120). Local descriptive name; reported in 1956 by R. C. Foley, USGS.

Smalls River: stream, flows W 11 miles to Goodnews Bay, 11 miles SW of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 01' N, 161° 49' W; BGN 1938; (map 53). Local name reported in 1933 by USGS.

Smallwood Creek: locality, on Smallwood Creek, 15 miles NE of Fairbanks, Tanana Lowland; 64° 54' 00" N, 147° 14' 00" W; (map 100). This is the site of a mining camp shows in Polk's Gazetteer of 1916.

Smallwood Creek: stream, heads at junction of Johnson and Victoria Creeks, flows SE 7 miles to Little Chena River, 15 miles NE of Fairbanks, Tanana Lowland; 64° 00' 54" N, 147° 15' 00" W; (map 100). Local name reported in 1903 by T. G. Gerdine (in Prindle, 1905, pl. 16), USGS. The stream was shown flowing to Nugget Creek but, in 1907, C. C. Covert, USGS, reported the stream flowing to the Little Chena River (Henshaw and Covert, 1908, pl. 9).

Smally Creek: stream, flows W 1.5 miles to John River Creek, 29.5 miles SW of Wiseman, Brooks Range; 67° 01' 15" N, 150° 35' 30" W; (map 124). Local name obtained in 1956 by USGS topographers.

Smeaton Bay: estuary, heads at junction of its Wilson and Bakewell Arms, trends W 7 miles to Behm Canal, Coast Mountains; 55° 19' N, 130° 54' W; (map 3). Named in 1879 by W. H. Dall, USC&GS, for the English engineer who rebuilt the Eddystone Lighthouse near Plymouth, England, in 1759, after its destruction by fire in 1755; published in the 1883 Coast Pilot (p. 72).

Smeaton Island: island, 4.6 miles long, in Behm Canal, between Revillagigedo Island and the mainland, Coast Mountains; 55° 21' N, 130° 57' W; (map 3). Named in 1879 by W. H. Dall, USC&GS; derived from Smeaton Bay.

Smeaton's Trading Post: locality, see Mellicks Trading Post.

Smelt Creek: stream, heads in lake, flows E and N 40 miles to Naknek River, on Alaska Peninsula, 10 miles SW of Naknek, Bristol Bay Lowland; 58° 41' 15" N, 156° 44' 30" W; (map 41). Local name reported in 1952 by USGS.

Smelt Island: island, 0.4 miles across, in Naknek River at mouth of Smelt Creek, on Alaska Peninsula, 10 miles SW of Naknek, Bristol Bay Lowland; 58° 41' N, 156° 44' W; (map 41). Local name reported in 1952 by USGS.

Smith Bay: bay, 10 miles across, on coast of Beaufort Sea, first sizable bay E of Point Barrow, Arctic Plain; 70° 54' N, 154° 19' W; (map 148). Variant: E. Smith's Bay, Smith's Bay, Smyth Bay. On July 27, 1837, Thomas Simpson (1843, p. 137) wrote: "We now found ourselves in a large and very shallow bay, which we had much pleasure in naming after our worthy friend Chief Factor Smith, * * *" of the Hudson's Bay Company. It is E. Smith's Bay on Simpson's map.

Smith Beach: beach, 0.8 miles long, at mouth of Steller River, in Auburn Cove, on N coast of Attu Island, Aleutian Islands; 52° 58' 40" N, 172° 54' 50" E; (map 13). Name shown on an AMS map published in 1948, and given by the U.S. Army during World War II. The name is not used today.

Smith Cape: point of land, see Smyth, Cape.

Smith Cove: cove, extends N 1 mile, off Skowl Arm Kasaan Bay, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 26' 15" N, 132° 20' 30" W; (map 4). Local name published in 1962 by USC&GS.

Smith Creek Dome: mountain, 3,870 ft., 1 mile N of Midnight Dome and 3.5 miles N of Wiseman, Brooks Range; 67° 28' 45" N, 150° 10' 00" W; (map 124). Local name reported about 1930 by Marshall (1956, p. 7).

Smith Creek: stream, flows N 10 miles to Fortymile River, 37 miles S of Eagle, Yukon-Tanana Highlands; 64° 16' N, 141° 05' W; (map 102). Variant: Davis Creek. Named by prospectors and reported in 1896 by Spurr (1898, pl. 46), USGS; the stream was erroneously called "Davis Creek" in 1898 by E. C. Barnard, USGS.

Smith Creek: stream, flows NE 12 miles, joins McManus Creek to form Chatanika River, 76 miles SW of Circle, Yukon-Tanana Highlands; 65° 17' 30" N, 146° 20' 50" W; (map 104). Named by prospectors; reported in 1903 by T. G. Gerdine (in Prindle, 1905, pl. 13) USGS.

Smith Creek: stream, flows NW 14 miles to Iditarod River, 24 miles SW of Flat and 40 miles E of Holy Cross, Kilbuck-Kuskokwim Mountains; 62° 11' 30" N, 158° 31' 20" W; BGN 1945; (map 79). Local name obtained in 1944 by USGS.

Smith Creek: stream, flows W 2 miles to Nolan Creek at Nolan, 6 miles NW of Wiseman, Brooks Range; 67° 28' 30" N, 150° 14' 00" W; BGN 1932; (map 124). Local name "used since the turn of the century"; reported by Robert Marshall in 1932.

Smith Creek: stream, heads in Kigluaik Mountains, flows NW 9 miles to Pilgrim River, 36 miles SE of Teller, Seward Peninsula Highlands; 65° 06' N, 165° 09' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Smith Creek: stream, on Seward Peninsula, flows NE 10 miles to Inmachuk River, 57 miles SW of Kotzebue, Kotzebue-Kobuk Lowland; 66° 05' N, 162° 43' W; (map 113). Name used by local prospectors and reported in 1901 by W. C. Mendenhall, USGS.

Smith Creek: stream, see Sooner River.

Smith Glacier: glacier, trends SE 5.5 miles to Harvard Arm College Fiord, 2.8 miles N of College Point and 51 miles NW of Valdez, Chugach Mountains; 61° 14' 45" N, 147° 01' 10" W; (map 69). Named in 1899 by members of the Harriman Alaska Expedition for Smith College, Northampton, Mass.

Smith Island: island, 0.1 miles across, in Sitka Sound, 1.3 miles SW of Sitka, Alexander Archipelago, 57° 02' 35" N, 135° 22' 05" W; (map 9). Named in 1880 by USN; published by USC&GS in 1883 Coast Pilot (p. 142).

Smith Island: island, in Prince William Sound, 3.5 miles long, 7 miles S of Naked Island, and 30 miles NE of Chenega, Chugach Mountains; 60° 31' 30" N, 147° 22' 00" W; (map 63). Variant: Smith Islands. Local name reported in 1900 by F. C. Schrader, USGS.

Smith Islands: island, see Little Smith Island.

Smith Islands: island, see Smith Island.

Smith Lagoon: lagoon, 0.7 miles long, N of Smith Cove, on E coast of Prince Or Wales Island, N of Skowl Arm Kasaan Bay, Alexander Archipelago; 55° 27' N, 132° 21' W; (map 4). Local name recorded in 1949 by USGS.

Smith Lake: lake, 0.5 miles across, 0.5 miles S of Alaska-Canada boundary, 32 miles NW of Hyder, Coast Mountains; 56° 15' N, 130° 36' W; (map 7). Name published in 1927 on IBC sheet 3. This lake was probably named for IBC surveyor W. F. Smith who worked in this area in 1908 or for N. Smith who worked in the area in 1920.

Smith Lake: lake, 0.3 miles across, 4.5 miles NW of Fairbanks, Yukon-Tanana Highlands; 64° 52' N, 147° 52' W; (map 100). Variant: Smiths Lake. Local name shown on the manuscript location map of the Tanana Mines Railroad in 1904.

Smith Lake: lake, 0.8 miles long, 10 miles SW of junction of South Fork Kuskokwim and Post Rivers, 73 miles SE of McGrath, Alaska Range; 62° 19' 45" N, 153° 43' 40" W; (map 80). Local name obtained in 1958 by USGS.

Smith Lake: lake, extends NNW-SSE 1.7 miles, 3.5 miles NE of junction of Salmon Trout and porcupine Rivers, 35 miles NE of Coleen Mountain, Porcupine Plateau; 67° 12' N, 141° 35' W; (map 121). Local name reported in 1939 by FitzGerald (1944, pl. 18), USGS.

Smith Lake: lake, see Hugh Smith Lake.

Smith Mill: locality, on Mineral Creek, at mouth of Glacier Creek, 7.2 miles NW of Valdez, Chugach Mountains; 61° 13' 05" N, 146° 19' 10" W; (map 68) Local name published in the 1950's by USGS.

Smith Mountain Lakes: lakes, extend E-W 3 miles, N of Smith Mountain, 39 miles NNE of Howard Pass, Arctic Slope; 68° 45' N, 156° 24' W; (map 132). Variant: Araga Lakes. Named in 1950 by Island L. Tailleux, USGS, geologist connected with the Naval Petroleum Reserve No. 4 explorations for adjacent Smith Mountain. Name published by USGS in 1951.

Smith Mountain: mountain, 2,972 ft., forms two separate parts, the easternmost named Kingak Mountain, 37 miles NNE of Howard Pass, Arctic Slope; 68° 42' N, 156° 30' W; (map 132). Named in 1949 by Mangus, USGS, geologist connected with Naval Petroleum Reserve No. 4 explorations; name published by USGS in 1951.

Smith River: stream, heads in lake on N shore of Teshekpuk Lake, flows N 20 miles to Beaufort Sea, near Pitt Point, Arctic Plain; 70° 55' 30" N, 153° 09' 00" W; (map 148). Variant: W. Smith's River, William Smith River. On July 26, 1839, Thomas Simpson (1843, p. 134) wrote: "a considerable river, named after William Smith, Esquire, Secretary to the Hudson's Bay Company." Recorded as "W. Smith's River" on Simpson's map.

Smith's Bay: bay, see Smith Bay.

Smith, Point: point of land, on S shore of Scammon Bay, 6 miles E of Cape Romanzof, Yukon-Kuskokwim Delta; 61° 49' 50" N, 165° 55' 00" W; (map 75). Named by W. H. Dall (1870, p. 263) who wrote "The next, Cape Smith (named for Captain E[lijah] E[verett] Smith, to whom we owe the first chart of the Yukon Delta), is a long, low point * * *."

Smiths Lake: lake, see Smith Lake.

Smiths Slough: lake, 1 mile long in swamp, 2.5 miles W of Nowitna River and 22 miles NE of Monzonite Hills, Nowitna Lowland; 64° 44' 30" N, 154° 31' 30" W; (map 98). Local name obtained in 1956 by Orth.

Smoke Creek: stream, heads at 68° 25' N, 146° 51' W flows SE 52 miles to East Fork Chandalar River 42 miles NW of Christian, Brooks Range; 67° 53' N, 146° 04' W; (map 122). Local name reported in 1927 by J. B. Mertie, USGS.

Smoke Mountain: peak, 5,631 ft., 19 miles SW of Arctic Village, Brooks Range; 68° 02' N, 146° 15' W; (map 136). Local name reported in 1926 by J. B. Mertie, Jr. (in Smith and others, 1929, pl. 1), USGS.

Smokey Bay: water passage, see Shelikof Strait.

Smokey Lake: lake, 0.5 miles long, at Tazlina, S of Glenn Highway, 30 miles W of Glennallen, Copper River Basin; 62° 04' N, 146° 27' W; (map 83). Local name reported in 1949 by USGS.

Smoky Hollow: valley, at head of Ivanof Bay, 6 miles NE of Stepovak Bay, on S coast of the Alaska Peninsula, Aleutian Range; 55° 52' N, 159° 34' W; (map 27). Published by USC&GS on Chart 8859 (1964).

Smoky Mountain: mountain, see Peulik, Mount.

Smoky Point: bluff, elev. 46 ft., N point of entrance to Ugashik Bay, on N coast of Alaska Peninsula, 12 miles NW of Ugashik, Bristol Bay Lowland; 57° 36' 45" N, 157° 41' 15" W; (map 36). Local name reported in 1900 by Lt. Comdr. J. F. Moser, USN, of the USBF steamer Albatross.

Smooth Channel: water passage, extends SE 2 miles along W coast of Chichagof Island from Ogden Passage to Khaz Bay, 4 miles S of Chichagof, Alexander Archipelago; 57° 36' N, 136° 06' W; BGN 1908; (map 9). Descriptive name given in 1908 by USC&GS; published in 1908 Coast Pilot (p. 172). "Smooth Channel, the best entrance to Ogden Passage, is protected from the ocean swell by a chain of wooded islands and ledges."

Smooth Mountain: mountain, 1,905 ft', on W coast of Gravina Island, Alexander Archipelago; 55° 17' 00" N, 131° 49' 30" W; (map 3). Descriptive name given in 1883 by Lt. Comdr. H. E. Nichols, USN.

Smoothface Mountain: hill, 820 ft., extends E 5 miles from Woodcamp Creek along N bank of Yukon River, 32 miles NE of Rampart, Kokrines-Hodzana Highlands; 65° 53' 30" N, 149° 35' 45" W; (map 105). Local name published by USGS in the 1950's.

Smuggler Cove: cove, 1.2 miles across, on SW coast of Annette Island, Alexander Archipelago; 55° 05' 30" N, 131° 36' 15" W; (map 3). Variant: Smugglers Cove. Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Smugglers Cove: cove, 0.2 miles across, in Auke Bay, on SW coast of Mendenhall Peninsula, 9 miles NW of Juneau, Coast Mountains; 58° 20' 50" N, 134° 38' 45" W; (map 11). Name first appears in a lode claim on the cove filed by Louis Levy and William Murphy. The derivation of the name is unknown (DeArmond, 1957, p. 40).

Smugglers Cove: cove, see Smuggler Cove.

Smugglers Cove: estuary, extends NW 2 miles, off Behm Canal, on E coast of Cleveland Peninsula, Alexander Archipelago; 55° 34' 30" N, 131° 56' 00" W; (map 3) Local name reported in 1901 by A. H. Brooks (1902b, pl. 2), USGS.

Smugglers Creek: stream, on Cleveland Peninsula, heads in a lake and flows SE through Smugglers Lake 5 miles to Smugglers Cove, Alexander Archipelago; 55° 35' 40" N, 131° 58' 10" W; (map 3). Local name recorded in 1949 by USGS.

Smugglers Lake: lake, 1.2 miles long, on Cleveland Peninsula, W of Helm Bay, in course of Smugglers Creek, Alexander Archipelago; 55° 35' 30" N, 132° 00' 00" W; (map 3). Local name recorded in 1949 by USGS.

Smyth Bay: bay, see Smith Bay.

Smyth, Cape: point of land, on Chukchi Sea coast, at Barrow, 10 miles SW of Point Barrow, Arctic Plain; 71° 17' 35" N, 156° 47' 15" W; (map 153). Variant: Ikpiling, Smith Cape, Smythe Cape. The Eskimo name for this place is "Utkiakvik" and refers in meaning to a "high place for viewing." It was the same name as that of the village which was located on this high (30 ft.) ground. The present name of the cape was given in September 1826, by Capt. Beechey (1831, p. 302-303), RN, to honor William Smyth, RN, mate of H.M.S. Blossom, who, with Thomas Elson and party, in an open boat explored the coast NE of Icy Cape and discovered Point Barrow. In bestowing the name Beechey wrote "To the nearest conspicuous object to the southward of Point Barrow, I attach the name of Smyth * * *." See also Barrow.

Smythe Cape: point of land, see Smyth, Cape.

Snag Creek: stream, flows E 2.4 miles to Lower Sucker Creek, 39 miles NE of Tyonek, Cook Inlet Lowland; 61° 37' N, 150° 47' W; (map 70). Local descriptive name reported in 1954 by USGS.

Snag Creek: stream, flows NE 75 miles from glacier terminus in Nutzotin Mountains across Alaska-Canada boundary to White River in Yukon, Canada, Alaska Range; 62° 24' 45" N, 140° 21' 00" W; BGN 1954; (map 84). Variant: Snag River. Descriptive name given in 1898 by Brooks (1900a, p. 434), USGS.

Snag Flats: flats, about 5 miles long, in lower course of Skwentna River, 8 miles upstream from Yentna River and 55 miles N of Tyonek, Alaska Range; 61° 56' N, 151° 20' W; (map 70). Named in 1898 by Spurr (1900, p. 48), USGS, who said "nearly every channel was choked with dead trees, so that we gave the place the name of Snag Flats."

Snag Island: island, 0.5 miles long, in North Pass, NE of Horseshoe Island, Alexander Archipelago; 55° 13' 20" N, 132° 55' 40" W; (map 4). Local name published in 1965 by USC&GS.

Snag Island: island, 150 ft. across, off W coast of Chichagof Island, in Davison Bay, 11 miles NW of Chichagof, Alexander Archipelago; 57° 47' 00" N, 136° 19' 30" W; (map 9). Name published by USC&GS in 1925 Coast Pilot (p. 322).

Snag Lake: lake, 1.5 miles long, on Kenai Peninsula, 9 miles S of Moose Point and 28 miles NE of Kenai, Cook Inlet Lowland; 60° 49' 30" N, 150° 41' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Snag Point: point of land, formed by Nushagak and Wood Rivers, 1 mile NE of Dillingham, Bristol Bay Lowland; 59° 03' N, 158° 26' W; (map 52). Local descriptive name reported by J. F. Moser, USN, in 1901 (Baker, 1906).

Snag Point: village, see Dillingham.

Snag River: stream, see Snag Creek.

Snail Cape: point of land, see Ulitka, Cape.

Snail Point: point of land, S point of entrance to Spacious Bay, on NE coast of Cleveland Peninsula, Alexander Archipelago; 55° 49' 30" N, 131° 46' 10" W; (map 3). Variant: Punta del Caracol. This feature was named "Punta del Caracol," meaning "Snail Point," in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle.

Snail Point: point of land, W tip of Caracol Island, in Portillo Channel, Alexander Archipelago; 55° 31' 15" N, 133° 26' 55" W; (map 4). Variant: Mys de la Karakol, Punta del Caracol. Translation of the name "Punta del Caracol" given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle.

Snail Rock: rock, 700 ft. long, near E shore of Revillagigedo Channel, 3 miles SW of Boca de Quadra, Coast Mountains; 55° 02' N, 131° 03' W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Snake Creek: stream, flows NE 5 miles to Boswell Bay, on N end of Hinchinbrook Island, 20 miles SW of Cordova, Chugach Mountains; 60° 24' N, 146° 11' W; (map 64). Name published in 1959 by USGS.

Snake Creek: stream, see Whistler Creek.

Snake Island: islands, see Culebra Islands.

Snake River: stream, formed by junction of Goldbottom Creek and North Fork Snake River, flows SW 15 miles, then SE 5 miles to Norton Sound at Nome, Seward Peninsula Highlands; 64° 30' N, 165° 25' W; (map 94). Local name reported in 1899 by D. C. Witherspoon, USGS; published in 1900 on USC&GS Chart 9380 and by Schrader and Brooks (1900, map 2). So named in 1898 because of its serpentine-like course by the three men who found gold in the area; John Brynteson, E. O. Lindblom, and Jafet Lindeberg (Rickard, 1909, p. 332).

Snake River: stream, heads at Lake Nunavaugaluk, flows SE 45 miles to Nushagak Bay, 15 miles SW of Dillingham, Bristol Bay Lowland; 58° 52' N, 158° 45' W; (map 40). Variant: Igushik River. Local descriptive name given in 1898 by J. E. Spurr and W. S. Post, USGS, apparently because of the "tortuous course of the stream." The Eskimo name is "Igushik."

Snake River: stream, see Igushik River.

Snake River: stream, see Winding Creek.

Snare Creek: stream, flows SE 1 mile to Coal Creek, 4 miles SSW of that stream's junction with Yukon River and 44 miles SE of Circle, Yukon Tanana Highlands; 65° 18' N, 143° 15' W; (map 103). Local name reported in 1936 by Mertie (1938a, p. 250), USGS.

Snee-dee Mountain: mountain, see Beluga Mountain.

Snettisham Peninsula: peninsula, 15 miles long, from Holkham Bay NW to Port Snettisham, 31 miles SE of Juneau, Coast Mountains; 57° 53' N, 133° 45' W; (map 8). Local name reported in 1951 by USGS.

Snettisham, Port: estuary, trends SW 9 miles from Speel Arm to Stephens Passage at N end of Snettisham Peninsula, 30 miles SE of Juneau; Coast Mountains; 57° 57' 30" N, 133° 52' 00" W (map 8). Named by Capt. George Vancouver, RN, "for a town in Norfolk, England" after its discovery by Lt. Joseph Whidbey, RN, on August 12, 1794 (Wagner, 1937, p. 417).

Snettisham: locality, on N coast of Snettisham Peninsula, 1 mile SW of Sentinel Point and 31 miles SE of Juneau, Coast Mountains; 57° 59' 05" N, 133° 47' 15" W; (map 8). Site of a sold-mining camp named after Port Snettisham when established about 1895. Snettisham remained as a harbor village until 1926; a post office was maintained from 1900 to 1912 (Ricks, 1965, p. 59).

Snider Creek: stream, in Baird Mountains, flows SE 2 miles to Klery Creek 12 miles NE of its junction with Squirrel River, 20 miles N of Kiana, Brooks Range; 67° 15' N, 160° 25' W; (map 127). Name used by prospectors; reported in 1910 by P. S. Smith (in Brooks and others, 1911, pl. 13), USGS.

Snider Peak: mountain, 8,250 ft., S of Mount Drum, 30 miles E of Glennallen, Wrangell Mountains; 62° 04' N, 144° 38' W; (map 83). Local name reported in 1903 by T. G. Gerdine, USGS. It may have been the name of a prospector.

Snidi Mountain: mountain, see Beluga Mountain.

Snip Islands: islands, extend 0.6 miles, in Behm Canal, off E coast of Revillagigedo Island, Alexander Archipelago; 55° 41' 30" N, 130° 57' 30" W; (map 3) Arbitrary name given in 1891 by USC&GS

Snipe Bay: bay, 0.4 miles across, 17 miles NW of village of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 25' N, 134° 57' W; (map 5). Variant: Koulichkoff Bay, Kulichkof Bay, Kulichkova Bukhta, Kulitch Bay, Kulitchok. This is a translation by USC&GS about 1882 of the name "Kulichkova B[ukhta]" given in 1850 by the Russian American Company.

Snipe Head: point of land, W point of entrance to Snipe Bay, 16.8 miles NW of village of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 25' 10" N, 134° 57' 30" W; (map 5). Named by USC&GS for charting purposes; name published in the 1925 Coast Pilot (p. 281).

Snipe Island: island, 0.1 miles across, in Portlock Harbor, 6.5 miles NW of Chichagof, Alexander Archipelago; 57° 43' 45" N, 136° 14' 00" W; (map 9) Local name reported in 1917 by USGS published by R. M. Overbeck (in Martin and others, 1919, pl. 2), USGS.

Snipe Island: island, 0.3 miles across, in Thorne Arm on S coast of Revillagigedo Island, Alexander Archipelago; 55° 21' 40" N, 131° 15' 30" W; (map 3) Arbitrary name given in 1891 by USC&GS

Snipe Island: island, 400 ft. long, off S coast of Annette Island, 0.5 miles S of Annette Point, in Felice Strait, Alexander Archipelago; 55° 00' 15" N, 131° 23' 15" W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Snipe Lake: lake, 0.7 miles long, on Kenai Peninsula 3 miles SE of mouth of Swanson River and 11 miles NE of Kenai, Cook Inlet Lowland; 60° 45' 30" N, 150° 58' 25" W; (map 62). Named about 1963 by officials of Kenai National Moose Range for Wilson's Snipe, or Jack Snipe (*Capella gallinago delicata*), a shore bird which breeds from northwestern Alaska south to northern California.

Snipe Lake: lake, 2 miles long, 13 miles NW of Lachbuna Lake and 45 miles NE of Nondalton Alaska Range; 60° 37' 30" N, 154° 17' 30" W (map 61) Local name reported in 1954 by USGS

Snipe Point: point of land, in Eagle Bay, on S coast of Unalaska Island, Aleutian Islands; 53° 27' 45" N, 166° 56' 20" W; BGN 1939; (map 23). So named by USC&GS in 1937 "because of the large number of Russian snipe noted along the shoreline of the point."

Snipe Point: point of land, W tip of Bell Island, in Behm Canal, Alexander Archipelago; 55° 55' 35" N 131° 36' 45" W; (map 3). One of many arbitrary names applied to features in this area in 1891 by USC&GS.

Snipe Rock: rock, in Ogden Passage, off W coast of Chichagof Island, 2.5 miles SW of Chichagof, Alexander Archipelago; 57° 38' 15" N, 136° 10' 35" W; BGN 1908; (map 9). Named in 1908 by USC&GS; and published in 1908 Coast Pilot (p. 174).

Snipe Rock: rock, see Kulichkof Rock.

Sniper Hill: hill, 620 ft., on northern Kiska Island, Aleutian Islands; 52° 05' 10" N, 177° 39' 45" E; (map 14). An arbitrary name beginning with "S" to correspond to "S" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Sniper Point: point of land, see Snipers Point.

Snipers Point: point of land, on N end of Kenai Peninsula at mouth of Sixmile Creek, on S shore of Turnagain Arm, 1 mile NE of Sunrise, Chugach Mountains; 60° 54' 30" N, 149° 24' 30" W; BGN 1966; (map 63). Variant: Sniper Point. Local name reported in 1899 by Lt. Herron (1901, map facing p. 11), USA.

Snohomish Hills: ridge, elev. 1,400-1,786 ft., extends NE-SW 10 miles on E bank of Fish Creek, 11 miles WSW of village of Lake Minchumina, Tanana Lowland; 63° 47' N, 152° 45' W, (map 88). Local name obtained in 1958 from Fabian Carey and "Val" Blackburn by USGS.

Snohomish, Lake: lake, 2 miles long, drains E to Deep Creek, 10 miles SW of village of Lake Minchumina, Tanana Lowland; 63° 45' N, 152° 30' W; (map 88). Variant: Lake Tukomina' Trekhamena, Tu-ca-omina. Local name reported in 1952 by USGS. Its Tanana Indian name is said to be "Trekhamena," or "Trek Lake."

Snoring Inn: locality, on The Alaska Railroad, on Kenai Peninsula, between Henry and Trail Creeks, 24 miles SE of Sunrise, Chugach Mountains; 60° 36' 45" N, 149° 05' 45" W; (map 63). Name of a station stop on The Alaska Railroad, published on a 1951 USGS map.

Snow Creek: stream, flows NW 2.5 miles to Eagle Creek which flows to Goodhope River near its mouth, 29 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 56' N, 163° 56' W; (map 110). Local name published on a precinct map of Seward Peninsula by Monroe and Hutchins; corrected to June 1903 by Arthur Gibson.

Snow Creek: stream, flows NW to Pinnell River which flows to Inmachuk River, between Doll and Logan Creeks, about 16 miles N of Imuruk Lake, Seward Peninsula Highlands; (map 110). Local name published on a precinct map of Seward Peninsula by Monroe and Hutchins; corrected to June 1903 by Arthur Gibson. This stream cannot be precisely identified on current maps.

Snow Creek: stream, flows SW 1.5 miles to Canyon Creek which flows to Imuruk Basin, 31 miles NW of Nome, Seward Peninsula Highlands; 64° 55' N, 165° 52' W; (map 94). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Snow Creek: stream, flows SW 1.5 miles to Skookum River which flows to Klokerblok River, 19 miles NE of Solomon, Seward Peninsula Highlands; 64° 40' N, 163° 51' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Snow Creek: stream, flows SW to Bering Sea, about 2 miles E of York and 17 miles SE of Cape Prince of Wales, Seward Peninsula Highlands; (map 111). Local name published in 1900 by USC&GS on Chart 9380.

Snow Creek: stream, heads at 64° 19' N, 141° 08' W, flows E 3 miles to Fortymile River, 35 miles S of Eagle, Yukon-Tanana Highlands; 64° 18' 25" N, 141° 02' 00" W; (map 102). Local name reported in 1914 by IBC surveyors.

Snow Creek: stream, heads in Third Range, flows NE 5 miles to Sadlerochit River, 25 miles NW of Mount Michelson, Brooks Range; 69° 28' 30" N, 145° 10' 00" W; BGN 1961; (map 139). So named by USGS geologists in 1948, because snow drifts persist in the valley of the stream until late summer. Reported by C. L. Whittington, USGS, in 1960.

Snow Dome: mountain, 3,900 ft., in Glacier Bay National Monument, 2.2 miles SW of Mount Elder and 71 miles NW of Juneau, St. Elias Mountains; 58° 58' 10" N, 135° 54' 15" W; (map 11). Descriptive name given in 1888 by John Muir and published by H. F. Reid (1892, pl. 14).

Snow Dome: mountain, see Elder, Mount.

Snow Gulch: ravine, extends SE 3.7 miles from Donlin Creek 0.6 miles E of its junction with Flat Creek, 15 miles N of village of Crooked Creek and 43 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 62° 05' N, 158° 12' W; (map 79). Prospectors' name obtained in 1913 by Eakin (1914, pl. 1), USGS.

Snow Gulch: ravine, heads in Kigluaik Mountains, trends NW 5 miles to Windy Cove, in Imuruk Basin, 24 miles SE of Teller, Seward Peninsula Highlands; 65° 03' N, 165° 43' W; (map 111). Local name reported about 1905 by USGS (Collier and others, 1908, pl. 8).

Snow Gulch: ravine, in Nutzotin Mountains, extends 1 mile SW to Little Eldorado Creek 0.2 miles N of its junction with Bonanza Creek, 4.5 miles N of Beaver Lake, Alaska Range; 62°

06' 30" N, 141° 50' 00" W; (map 84). Name used by prospectors and reported by S. R. Capps (in Brooks and others, 1915, p. 222), USGS.

Snow Gulch: ravine, on SW slope of Fourth of July Hill, trends SW to Fairbanks Creek, 22 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 03' N, 147° 07' W; BGN 1939; (map 105). Local name reported in 1939 by P. S. Smith, USGS.

Snow Gulch: ravine, trends NW 0.7 miles to Glacier Creek, 6 miles N of Nome, Seward Peninsula Highlands; 64° 36' N, 165° 24' W; (map 94). Variant: Show Gulch. Prospectors' name reported in 1899 by D. C. Witherspoon (in Schrader and Brooks, 1900, map 2), USGS.

Snow Gulch: ravine, trends NW 0.7 miles to Hastings Creek, 10 miles E of Nome, Seward Peninsula Highlands; 64° 28' 15" N, 165° 05' 45" W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Snow Gulch: ravine, trends NW 1 mile to Long Creek, 1.4 miles SW of Long and 24 miles S of Ruby, Kilbuck-Kuskokwim Mountains; 64° 23' N, 155° 31' W; BGN 1936; (map 98). Prospectors' name reported in 1913 by Eakin (1914, pl. 2), USGS.

Snow Gulch: ravine, trends NW to Louise Creek which flows to Kougarok River, 18 miles S of Midnight Mountain and 44 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 31' N, 164° 40' W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Snow Gulch: ravine, trends S 2 miles to Arolik River, 31 miles N of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 33' N, 161° 25' W; (map 53). Local name reported in 1919 by G. L. Harrington (in Brooks, 1921, pl. 7), USGS.

Snow Gulch: ravine, trends SE 1.5 miles to Goldstream Creek, 6 miles NE of Livengood, Yukon-Tanana Highlands; 65° 34' 45" N, 148° 23' 30" W; (map 105) Local name published by USGS in the 1950's.

Snow Gulch: ravine, trends W 1.5 miles to Salmon River, 25 miles NE of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 54' 59" N, 161° 42' 40" W; BGN 1938; (map 39). Local name reported in 1938 by J. B. Mertie and Gerald FitzGerald, USGS.

Snow Lake: lake, 0.9 miles long, on Revillagigedo Island, near head of Naha River, 7 miles NE of Loring, Alexander Archipelago; 55° 39' N, 131° 27' W; (map 3) Local name reported in 1948 by USGS.

Snow Lake: lake, see Nellie Juan Lake.

Snow Mountain Gulch: ravine, trends NW 4 miles to Wood River, 10 miles SE of Japan Hills and 50 miles S of Fairbanks, Alaska Range; 64° 06' N, 147° 31' W; (map 100). Local name derived from a descriptive variant name for the Alaska Range, published on recent maps.

Snow Passage: water passage, in Clarence Strait, between Bushy and Zarembo Islands; Alexander Archipelago; 56° 17' N, 132° 57' W; (map 6). Named in 1886 by USC&GS for "Lt. Comdr. Albert Sidney Snow, USN, who in that year made surveys in this region."

Snow River Pass: pass, 1,800 ft., 1.5 miles W of Lower Paradise Lake and 20 miles NE of Seward, Chugach Mountains; 60° 20' 15" N, 149° 07' 20" W; (map 63). Local name reported in 1951 by USGS.

Snow River: stream, on Kenai Peninsula, flows SW 28 miles to Kenai Lake, 12 miles NE of Seward, Chugach Mountains; 60° 20' 15" N, 149° 21' 15" W; (map 63). Local name reported in 1898 by Mendenhall (1900, map 6), USGS.

Snow Top: peak, 6,576 ft., on Alaska-British Columbia boundary, 9 miles WNW of Mount Canning, 17 miles SE of Skagway, Coast Mountains 59° 16' 55" N, 134° 57' 30" W; (map 44). Variant: Boundary Peak 106. Descriptive name published by USGS in 1951.

Snow Tower: mountain, 6,572 ft., 3 miles S of Crescent Lake, 39 miles ESE of Juneau, Coast Mountains; 58° 10' 20" N, 133° 24' 00" W; (map 12). Local descriptive name reported in 1951 by USGS.

Snow Towers, The: peaks, 7,000 ft., two peaks 0.1 miles apart, 1.7 miles SW of Snowpatch Crag and 23 miles N of Juneau, Coast Mountains; 58° 37' 45" N, 134° 30' 40" W; BGN 1965; (map 11). Variant: Empress Mountain. Named by members of the Juneau Icefield Research Project in 1964.

Snow White: mountain, 9,000 ft., at head of Fels Glacier, 23 miles NE of Paxson, Alaska Range; 62° 21' 25" N, 145° 22' 05" W; (map 86). Name published on relatively recent maps.

Snowball Creek: stream, flows SW 5 miles to Ophir Creek, 5.5 miles N of Council and 37 miles NE of Solomon, Seward Peninsula Highlands; 64° 58' N, 163° 39' W; (map 95). Prospectors' name reported in 1899 by Schrader and Brooks (1900, map 3), USGS.

Snowbank Creek: stream, flows SE 1.5 miles to Osotoruk Creek, S of Tobit Creek, 6.4 miles SE of Cape Thompson, Arctic Slope; 68° 06' 25" N, 165° 45' 20" W; BGN 1963; (map 129). Variant: Ahpuiak Creek. Named about 1962 by personnel of Project Chariot.

Snowcap Mountain: mountain, 8,350 ft., 8 miles SE of Tired Pup Glacier and 70 miles NE of Lake Clark, Alaska Range; 61° 27' 15" N, 153° 37' 40" W; BGN 1930; (map 71). Named by S. R. Capps and Gerald FitzGerald, USGS, who discovered it in 1928; so called because it "is snowcapped the year round."

Snowden Creek: stream, flows SW 5.5 miles from Snowden Mountain to Dietrich River, 6.5 miles N of the junction of Bettles and Dietrich Rivers and 37.5 miles WNW of Chandalar, Brooks Range; 67° 44' 20" N, 149° 46' 20" W; BGN 1939; (map 123). Named in 1939 by Robert Marshall for his Eskimo friend and hunting companion, Nutirwik, or Harry Snowden.

Snowden Mountain: mountain, elev. 6,400 ft., E of Dietrich River, 13 miles N of Sukakpak Mountain and 37 miles NW of Chandalar, Brooks Range; 67° 48' N, 149° 40' W; (map 123). Named for the creek heading on its slope which was named in 1939 by Robert Marshall for his Eskimo hunting partner, Harry Snowden.

Snowdrift Crag: peak, see Snowdrift Peak.

Snowdrift Peak: peak, 6,360 ft., on S ease of Taku Glacier, 3.4 miles NE of Mendenhall Towers and 19 miles N of Juneau, Coast Mountains; 58° 34' 45" N, 134° 27' 00" W; (map 11). Variant: Snowdrift Crag. Descriptive name published in 1960 by USGS. The name Snowdrift Crag was proposed by members of the Juneau Icefield Research Project in 1964.

Snowflake Lake: lake, 0.5 miles long, on Kenai Peninsula W of McLain Lake, 32 miles NE of Kenai, Cook Inlet Lowland; 60° 51' 30" N, 150° 36' 25" W; (map 62). So named about 1963 by officials of Kenai National Moose Range, because the outline of the lake vaguely resembles a snowflake.

Snowwheel Mountain: mountain, 7,000 ft., at head of Oolah Valley, 34 miles E of Anaktuvuk Pass, Brooks Range; 68° 03' N, 150° 25' W; (map 134). Local name reported by Marshall (1956, map) in 1932.

Snowpatch Crag: peak, 6,345 ft., 1.3 miles S of Tricouni Peak and 25 miles N of Juneau, Coast Mountains; 58° 39' 08" N, 134° 29' 25" W; BGN 1965; (map 11). Variant: Snowpatch Peak. Named by members of the Juneau Icefield Research Project in 1964.

Snowpatch Peak: peak, see Snowpatch Crag.

Snowshoe Creek: stream, flows NE 11 miles to South Fork Serpentine River, 18 miles N of Kougarak Mountain and 27 miles E of Ear Mountain, Seward Peninsula Highlands; 65° 56' N, 165° 17' W; (map 111). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Snowshoe Creek: stream, flows SE 6 miles to Washington Creek, 20 miles NW of Fairbanks, Yukon-Tanana Highlands; 65° 08' N, 147° 55' W, (map 105). Local name published by USGS in the 1950's.

Snowshoe Creek: stream, heads on Cone Mountain, flows SE 3 miles to Penny River, 2 miles NW of Nome, Seward Peninsula Highlands; 64° 44' N, 165° 40' W; (map 94). Prospectors' name reported in 1899 by D. C. Witherspoon (in Schrader and Brooks, 1900, map 2), USGS. The 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee applied this name to a southeast-flowing tributary of Penny River, 5 miles to the north.

Snowshoe Creek: stream, in Kantishna Hills, flows N 2.3 miles to Caribou Creek, 13 miles N of Wonder Lake, Alaska Range; 63° 36' 30" N, 150° 49' 30" W; (map 88). Local name shown on a 1916 fieldsheet by C. E. Giffin, USGS.

Snowshoe Creek: stream, in Mentasta Mountains, flows S 4.8 miles to Station Creek, 32 miles SW of Tok, Alaska Range; 62° 55' N, 143° 29' W; (map 84). Local name reported in 1960 by USGS.

Snowshoe Gulch: ravine, trends SW 1.7 miles to Cripple River, 16 miles NW of Nome, Seward Peninsula Highlands; 64° 42' N, 165° 43' W; (map 94). Prospectors' name reported on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Snowshoe Lake: lake, 0.1 miles long, on Kenai Peninsula, 1 mile S of Eagle Lake and 18 miles NE of Homer, Cook Inlet Lowland; 59° 48' 30" N, 151° 08' 10" W; (map 50). Local name reported and published by USGS in the 1950's.

Snowshoe Lake: lake, 1 mile long, on Kenai Peninsula, 2 miles SW of King Lake and 34 miles NE of Kenai, Cook Inlet Lowland; 60° 46' 30" N, 150° 23' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Snowshoe Lake: lake, 1.1 miles long, N of Glenn Highway, in course of Cache Creek, 38 miles W of Glennallen, Copper River Basin, 62° 02' N, 146° 41' W; (map 83). Local name reported by USGS in 1949.

Snowshoe Pass: pass, between valleys of Wiseman Creek and Glacier River, 8 miles NW of Wiseman, Brooks Range; 67° 29' 00" N, 150° 20' 30" W; (map 124). Local name reported by Robert Marshall in 1939.

Snowshoe Roadhouse: locality, at head of Snowshoe Creek on Livengood-Fairbanks Trail (now Elliott Highway), 25 miles NW of Fairbanks, Yukon-Tanana Highlands; 65° 11' N, 147° 59' W; (map 105). This former roadhouse was named for Snowshoe Creek; its name was reported in 1915 by USGS (Brooks and others, 1916, pl. 9).

Snowslide Creek: stream, heads at glacier ten minus, flows NW 1.5 miles to head of West Fork Robertson River, 34 miles NE of Paxson, Alaska Range; 63° 20' 15" N, 144° 38' 40" W; (map 86) Name published on relatively recent map S

Snowslide Creek: stream, heads at glacier, flows SW 4.5 miles to Cripple Creek, 2.2 miles N of Chelatna Lake and 49 miles NW of Talkeetna, Alaska Range; 62° 33' 25" N, 151° 32' 10" W; (map 81) Prospectors' name reported in 1906 by R. W. Porter, USGS.

Snowslide Creek: stream, on W side of Gastineau Peak, flows 1 mile SW to Gastineau Channel 2 miles SE of Juneau, Coast Mountains, 58° 16' 55" N 134° 22' 15" W; (map 11). Variant: Silver Creek. Named in 1894 by Anton Liljestrang when he claimed mining water from the creek. The name was derived from frequent snowslides along the creek in the spring and winter. It was called Silver Creek in 1885 in a mining claim location by Andrew T. Lewis (DeArmond, 1957, p. 40). The name Snowslide Creek was reported for use on Federal maps in 1917 by D. C. Witherspoon, USGS.

Snowslide Gulch: ravine, 0.4 miles long, on upper tributary of Johnson Creek, 3.5 miles SE of Point Sherman on Lynn Canal and 44 miles NW of Juneau, Coast Mountains; 58° 50' 30" N, 135° 03' 30" W; (map 11). The name first appeared in mining records in 1881, when Richard Dailey, Charles B. Sherry, and James E. Woods claimed water in the gulch for mining purposes. The name is derived from the heavy snowslides down this gulch each spring (DeArmond, 1957, p 40). This name was reported in local use in 1906 by USGS.

Snowy Lake: lake, at head of Wilson River, on Latouche Island, 20 miles SE of Chenega, Chugach Mountains; 60° 51' 35" N, 147° 53' 20" W; BGN 1910; (map 63). Local name reported in 1909 by Grant and Higgins (1910, pl. 12), USGS.

Snowy Mountain: peak, 3,185 ft., on Mansfield Peninsula, Admiralty Island, 4 miles SE of Funter Bay and 17 miles SW of Juneau, Alexander Archipelago; 58° 11' 45" N, 134° 49' 15" W; (map 11). Descriptive name given by W. H. Dall, USC&GS, and published in the 1883 Coast Pilot (map , p. 182).

Snowy Mountain: peak, 7,090 ft., on Alaska Peninsula, in Katmai National Monument, 11 miles NE of Mount Katmai, Aleutian Range; 58° 20' N, 154° 41' W; BGN 1924; (map 42). Variant: Princess Peak. Identified by R. F. Griggs, National Geographic Society, as "Princess Peak" in 1916 and as "Snowy Mountain" in 1919 "because of the extensive glaciers nearby."

Snowy Peak: peak, 4,273 ft., 19 miles NW of junction of Charley and Yukon Rivers and 33 miles ESE of Circle, Porcupine Plateau; 65° 35' 00" N, 142° 51' 10" W; BGN 1965; (map 103). Variant: White Mountain. So named in 1965 by Earl Brabb, USGS, because "the peak retains snow longer than the surrounding area."

Snug Anchorage: anchorage, extends NW 1.7 miles off Clarence Strait, on E coast of Prince of Wales Island, N of Thorne Head, Alexander Archipelago; 55° 42' N, 132° 27' W; (map 4). Descriptive name given in 1886 by Lt. Comdr. R. C. Clover, USN.

Snug Corner Bay: bay, see Snug Corner Cove.

Snug Corner Cove: bay, 2 miles wide, on S shore of Port Fidalgo, 35 miles NW of Cordova, Chugach Mountains; 60° 45' N, 146° 39' W; (map 64). Variant: Snug Corner Bay. Local name published by the Norris Peters Company on their 1911 map of southeastern part of Prince William Sound and the Bering River coal field.

Snug Cove: bay, off Admiralty Island, extends NE 3 miles to Gambier Bay, 59 miles NE of Sitka, Alexander Archipelago; 57° 26' 30" N, 133° 57' 00" W; (map 8). Named in 1889 by Lt. Comdr. H. B. Mansfield, USN; name published by USC&GS in the 1891 Coast Pilot (p. 144).

Snug Cove: cove, 0.6 miles across, in Moser Bay, at S end of Kodiak Island; 56° 59' 30" N, 154° 10' 00" W; (map 32). Variant: Snug Harbor. Name reported in 1900 by Lt. Comdr. J. F. Moser, USN.

Snug Cove: cove, see Cozy Cove.

Snug Harbor: bay, 1.5 miles across, on SE coast of Knight Island, in Montague Strait, 8 miles W of Green Island and 59 miles E of Steward, Chugach Mountains; 60° 15' N, 147° 43' W; BGN 1908; (map 63). Variant: Discovery Bay. Local name published in 1908 by USC&GS.

Snug Harbor: bight, on W coast of Chisik Island, at S end of Tuxedni Channel, 56 miles SW of Kenai, Aleutian Range; 60° 06' 15" N, 152° 34' 30" W; (map 62). Local name reported in 1958 by USGS.

Snug Harbor: cove, see Snug Cove.

Snug Harbor: estuary, see Tuxedni Bay.

Snug Harbor: lagoon, 1 mile long, on SE shore of Iliamna Lake, 6.5 miles NE of Kakhonak, Aleutian Range; 59° 30' N, 154° 36' W; (map 51). "So named because the cove has a narrow entrance and therefore provides a safe place to anchor a vessel"; reported in 1954 by USGS.

Snug Harbor: locality, on NW shore of Kenai Lake, Kenai Peninsula, at mouth of Shackelford Creek, 32 miles SSW of Hope, Chugach Mountains; 60° 29' 15" N, 149° 46' 40" W; (map 63). Name published on 1952 USGS map.

Snyder Falls Creek: stream, flows NW 2 miles to delta of Rude River, 10 miles NE of Cordova, Chugach Mountains; 60° 40' N, 145° 36' W; (map 64) Local name reported in 1913 by B. L. Johnson (in Brooks and others, 1914, pl. 7), USGS. Name derived from nearby Snyder Mountain.

Snyder Mountain: mountain, 3,432 ft., 1.3 miles SE of Rude River delta, 10 miles NE of Cordova, Chugach Mountains, 60° 39' 30" N, 145° 34' 00" W; BGN 1910; (map 64). Local name reported by Grant and Higgins (1910, pl. 1 and 2).

Soakpak Mountain: mountain, 5,883 ft., at head of John River, 5 miles NW of Anaktuvuk Pass, Brooks Range; 68° 11' 00" N, 151° 51' 30" W; (map 134) Eskimo name published by Rausch (1951, p. 150); reported to be named for an "old Tulugakmiut hunter."

Soapberry Mountain: mountain, 3,225 ft., on Admiralty Island, 2.5 miles N of Bear Pass Mountain, and 46 miles NE of Sitka, Alexander Archipelago; 57° 21' N, 134° 15' W; BGN 1962; (map 9). Local name reported in 1962 by USFS. "It was named by the Tlingit Indians because they picked soapberries nearby."

Soapstone Cove: estuary, 1.2 miles long, on N coast of Yakobi Island, trends NE to Cross Sound 0.4 miles E of Soapstone Point, 39 miles W of Hoonah, Alexander Archipelago; 58° 06' 15" N, 136° 28' 15" W; BGN 1928; (map 10). Variant: Indian Cove, Miliak Cove. Name suggested by USC&GS in 1928, derived from Soapstone Point. Its original well established local name was Indian Cove because of a Tlingit Indian village located there. The change in the name was because of possible confusion with Indian Cove located to the NE. The variant name Miliak is a transliteration of a Russian word meaning "soapstone."

Soapstone Point: point of land, on N tip of Yakobi Island, on Cross Sound, 2 miles NE of Gingham Cove, 39 miles W of Hoonah, Alexander Archipelago; 58° 06' 10" N, 136° 29' 50" W; (map 10). Named by W. H. Dall, USC&GS, in 1880 because of the greenish appearance of the rocks, resembling soapstone. The name was published in the 1883 Alaska Coast Pilot (p. 187).

Sobaka Rock: island, 0.1 miles across, 1.6 miles SSE of Vega Point on S coast of Kiska Island, Aleutian Islands; 51° 48' 40" N, 177° 20' 15" E; BGN 1937; (map 14) Russian word "sobaka" meaning "dog" given by the U.S. Navy Hydrog. Office in 1937 after the USC&GS signal Dog located here.

Soblazna, Mys: point of land, see Seduction point.

Sobrero: island, see Sombrero Island.

Sockeye Creek: stream, 0.5 miles long, drains Hugh Smith Lake into Boca de Quadra, Coast Mountains; 55° 05' 45" N, 130° 43' 00" W; BGN 1915; (map 3). Variant: Hugh Smith Creek, Quadra Creek. Local name reported in 1914 by E. Lester Jones, USBF; named for the Sockeye salmon. Called "Quadra Creek" in 1897 by Lt. Comdr. J. F. Moser, USN.

Sockeye Creek: stream, heads in a branch of Taku Glacier, flows SE 5 miles to Taku River, 21 miles NE of Juneau, Coast Mountains; 58° 29' 45" N, 133° 58' 45" W; BGN 1932; (map 12). Local descriptive name reported in 1932 by B. D. Stewart, USGS; the name had been "given for the sockeye salmon which spawn in great numbers in this creek."

Sockeye Falls: falls, 4 miles above mouth of Lyman Creek(?), NE part of Prince of Wales Island; Alexander Archipelago; BGN 1915; (map 4). Reported in 1915 by E. L. Jones, USC&GS. Neither the falls nor Lyman Creek are known locally or are shown on maps.

Soda Bay: bay, 2 miles across, on Tlevak Strait, on W coast of Prince of Wales Island, 16 miles S of Craig, Alexander Archipelago; 55° 15' N, 133° 02' W; (map 4). Named in 1906 by USC&GS for "the carbonated springs at its head * * *."

Soda Creek: stream, flows E 1 mile to Dese Creek which flows to Grantley Harbor, 6 miles SE of Teller, Seward Peninsula Highlands; 65° 12' N, 166° 13' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Soda Creek: stream, flows NE 0.7 miles to South Fork Fortymile River, 55 miles SW of Eagle, Yukon-Tanana Highlands; 64° 07' N, 141° 46' W; (map 102). Prospectors' name obtained in 1898 by E. C. Barnard, USGS. Named for the soda springs at the mouth of the stream.

Soda Creek: stream, flows S 3 miles to Soda Bay, on W coast of Prince of Wales Island, 16 miles SE of Craig, Alexander Archipelago; 55° 17' N, 132° 55' W; (map 4) Descriptive name given in 1916 by R. B. Dole and A. A. Chambers (in Waring, 1917, fig. 15), USGS; "because of carbonated springs located along its banks."

Soda Creek: stream, flows SE 28 miles to North Fork Kuskokwim River, 25 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 15' N, 154° 01' W; (map 89). Local name reported in 1955 by USGS.

Soda Creek: stream, in Mentasta Mountains, flows SW through glacial lake 4.5 miles to Platinum Creek, 6.5 miles N of Devils Mountain, Alaska Range; 62° 31' N, 142° 57' W; BGN 1939; (map 84). Local name reported by USGS in 1939.

Sodomniia Islands: islands, see Noisy Islands.

Sodomnyya, Ostrova: islands, see Noisy Islands.

Sofia Gulch: ravine, trends W 0.5 miles to Rock Creek which flows to Snake River, 7 miles N of Nome, Seward Peninsula Highlands; 64° 36' 50" N, 165° 25' 20" W; (map 94). Variant: Sophia Gulch. Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Softuk Bay: spit, 3 miles long, at SE tip of Copper River Delta, 4 miles W of Katalla, Malaspina Coastal Plain; 60° 13' N, 144° 40' W; (map 64). This is probably an Eskimo name,

reported in 1903 by G. C. Martin (1905, pl. 3), USGS, and by J. F. Pratt, USC&GS the same year.

Softuk Lagoon: lagoon, extends SE 3 miles, at SE tip of Copper River Delta, N of Softuk Bar, 6 miles NW of Katalla, Malaspina Coastal Plain; 60° 13' N, 144° 40' W; (map 64). Name published by USGS in 1950; derived from Softuck Bar.

Sohy Bay Slough: stream, see Nungatak River.

Sohy Bay: lake, see Nanvaranak Lake.

Soinai Lake: lake, see Shakes Lake.

Sokolof Island: island, 2 miles long, in Sumner Strait, 8 miles W of Wrangell, Alexander Archipelago; 56° 30' N, 132° 35' W; (map 6). Variant: Sokoloff Island, Sokolov Island. Named in the middle of the 1800's by the Russians; probably for Alexander Sokolof who wrote extensively about Alaska.

Sokoloff Island: island, see Sokolof Island.

Sokolov Island: island, see Sokolof Island.

Sol Thumb: ridge, 1.5 miles long, 3 miles SW of junction of Dead Branch Norris Glacier with Norris Glacier and 9 miles NE of Juneau, Coast Mountains; 58° 23' 30" N, 134° 15' 30" W; (map 11). Name published in 1962 by USGS.

Sola Rock: rock, in Port Real Marina, between Bake and Lulu Islands, Alexander Archipelago; 55° 25' 35" N, 133° 28' 45" W; (map 4). Variant: La Sola. Spanish name given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "La Sola," meaning "The Single [one]."

Sola, La: rock, see Sola Rock.

Solano, Puerto de: bay, see Izhut Bay.

Solars Sawmill: locality, on Kenai Peninsula, at SW tip of Grant Lake, 24 miles NE of Seward, Chugach Mountains; 60° 27' 45" N, 149° 20' 00" W; (map 63). Local name of a former sawmill.

Solatna: stream, see Sulatna River.

Soldatna Creek: stream, see Soldotna Creek.

Soldatna: village, see Soldotna.

Soldier Bay: bight, see Sredni Bight.

Soldier Creek: stream, heads in Caves Lake, flows SE 0.3 miles to Knik Arm, 1.5 miles SW of Knik and 16 miles NE of Anchorage, Cook Inlet Lowland; 61° 26' 30" N, 149° 45' 25" W; (map 69) Local name reported in 1952 by USGS.

Soldier Slough: stream, a 2 miles section of main channel of Tanana River, S of Sawmill Island, 10 miles N of Nenana, Tanana Lowland; 64° 42' 40" N, 149° 08' 30" W; (map 100). Local name probably derived from the existence of soldiers at the U.S. Army Signal Corps telegraph station at North Nenana. Name reported in 1950 by USGS.

Soldotna Creek: stream, flows SW 7 miles to Kenai River at Soldotna, 8 miles SE of Kenai, Cook Inlet Lowland; 60° 29' N, 151° 03' W; BGN 1066; (map 62). Variant: Soldatna Creek, Suldahtnah, Tseldatna, Tzeldatnu. Name shown as "Suldalltnah" on a 1918 manuscript sheet probably by B. Island. Johnson, USGS. The name is considered by many to be derived from the Russian word meaning "soldier," i.e. "soldat," with a name ending determined by its use. Others consider it of Indian origin meaning "stream fork" or from "Tseldatna," meaning "a kind of herb." The second vowel in the present name is pronounced the same as the final vowel, i.e. the same as "a" in "father."

Soldotna: village, pop. 32, along Sterling Highway N of Kenai River, 8 miles SE of Kenai, Cook Inlet Lowland; 60° 29' N, 151° 03' W; BGN 1966; (map 62). Variant: Kenai Junction, Soldatna. Village, named for the stream, reported to have been established in the late 1930's or early 1940's at the Sterling-Kenai Road junction. A post office was established here in 1949 (Ricks, 1965, p. 60).

Soleni: island, see Salt Island.

Solenoi: island, see Salt Island.

Soleny: island, see Salt Island.

Solianka: point of land, see Solyanka Point.

Solivik Island: barrier island, extends SW 16 miles from Icy Cape between Chukchi Sea and Kasegaluk Lagoon, Arctic Plain; 70° 11' N, 162° 20' W; (map 146). Eskimo name reported in 1956 to mean "sewing place" by T. E. Taylor, USGS.

Solmon City: locality, see Solomon.

Solo Creek: stream, flows SE 10.5 miles to White River, 46 miles NE of McCarthy, Alaska Range; 61° 45' N, 141° 40' W; (map 67). Local name reported in 1907 by S. R. Capps, USGS.

Solo Creek: stream, flows SE 5 miles to Fish Creek, 16 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 00' 35" N, 147° 11' 55" W; (map 105). Named by prospectors; reported in 1903 by T. G. Gerdine (Prindle, 1905, pl. 13), USGS.

Solo Flats: valley, extends 7 miles NE from Solo Mountain to North Fork White River, 46 miles NE of McCarthy, Wrangell Mountains; 61° 51' N, 141° 45" W; (map 67). Name taken from the name of the creek and adjoining mountain, reported by USGS in 1959.

Solo Lake: lake, 1.2 miles across, between North Fork White River and Solo Creek, 49 miles NE of McCarthy, Alaska Range; 61° 47' 30" N, 141° 39' 00" W; Name shown on 1908 field sheet by S. R. Capps, USGS.

Solo Mountain: mountain, 5,870 ft., on S bank of North Fork White River, 47 miles NE of McCarthy, Alaska Range; 61° 51' N, 141° 49' W; (map 67). Name shown on 1908 field sheet by S. R. Capps, USGS.

Soloma Flat: tidal flat, at Soloma Point, near head of Lisianski Inlet, on W Chichagof Island, Alexander Archipelago; 57° 51' 40" N, 136° 03' 30" W; BGN 1928; (map 9). Russian word meaning "straw" given in 1928 by USC&GS; derived from triangulation station Straw located here.

Soloma Point: point of land, near head of Lisianski Inlet, 13 miles N of Chichagof, in NW part of Chichagof Island, Alexander Archipelago; 57° 51' 30" N, 136° 03' 30" W; BGN 1928; (map 9). Russian word meaning "straw" given in 1928 by USC&GS; derived from triangulation station Straw located here.

Solomon Creek: stream, flows N 4.5 miles to Kisaralik River, 64 miles SE of Bethel, Kilbuck Kuskokwim Mountains; 60° 26' N, 160° 03' W (map 59) Local name reported in 1949 by USGS.

Solomon Creek: stream, flows W 2.5 miles to Poor man Creek, 3.4 miles SW of Poorman and 46 miles SW of Ruby, Kilbuck-Kuskokwim Mountains 64° 04' 36" N, 155° 39' 00" W; (map 98). Prospectors' name reported in 1921 by USGS.

Solomon Creek: stream, see Salmon Creek.

Solomon Gulch: ravine, extends N-S 3 miles, 1 mile N of Solomon Lake and 4.5 miles S of Valdez Chugach Mountains; 61° 02' 30" N, 146° 17' 00" W (map 68). Name reported in 1900 by F. C. Schrader and T. G. Gerdine, USGS.

Solomon Gulch: stream, see Little Whiteman Creek.

Solomon Lake: lake, 1 mile long, 1 mile N of Old John Lake, 11 miles SE of Arctic Village, Brooks Range; 68° 07' 00" N, 145° 05' 30" W; (map 136). Local name reported in 1956 by R. C. Foley, USGS.

Solomon Lake: lake, 1 mile long, 3.4 miles SW of Valdez, Chugach Mountains; 61° 04' 25" N, 146° 18' 10" W; (map 68). Local name published in the 1950's by USGS.

Solomon Railroad: ridge, in Glacier Bay National Monument, 4 miles long, 1 mile NW of Lituya Bay and 88 miles NW of Hoonah, St. Elias Mountains; 58° 40' N, 137° 37' W; (map 84). So named in 1929 by USC&GS because of a "fancied resemblance to a railroad embankment."

Solomon River: stream, flows WSW 22 miles to Norton Sound, 0.8 miles SE of Solomon, Seward Peninsula Highlands; 64° 33' N, 164° 25' W; (map 95). Prospectors' name reported in 1899 by Schrader and Brooks (1900, map 3), USGS

Solomon: locality, village, pop. 12 (1958), on W bank of Solomon River, 1 mile N of Norton Sound and 30 miles E of Nome, Seward Peninsula Highlands; 64° 34' N, 164° 26' W; (map 95). Variant: Erok, Solmon City. Established as a mining camp in the summer of 1900 at the height of the Nome gold rush (Brooks. 1901, p. 66). The name "Erok" was shown here on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. A post office was established here in 1900, discontinued in 1925, reestablished in 1928, and finally discontinued in 1956 (Ricks 1965, p. 60). In 1965 Balcom (p. 30) noted: "there was one Alaska Native Service school here. There are still a few white families mining in the area but most of the Eskimos have moved to more prosperous towns to find employment."

Solsmunket Lake: lake, 3 miles long, 65 miles SE of Shungnak, Koyukuk Lowland; 66° 03' N, 156° 07' W; (map 115). Koyukan Indian name reported by USGS in 1952.

Soluka Creek: stream, heads at glacier terminus, on Alaska Peninsula, in Katmai National Monument, flows SW 20 miles to Katmai Bay; 58° 01' N, 154° 53' W; (map 42). Native name obtained from Rev. A. Petelin and reported in 1898 by J. E. Spurr and W. S. Post, USGS

Solyanka Point: point of land, 2 miles SE of Sakie Point, on W coast of Dall Island, Alexander Archipelago; 55° 03' 20" N, 133° 13' 10" W; BGN 1923; (map 4). Variant: Solianka. Russian word meaning "kelp," given in 1923 by USC&GS; triangulation station Kelp is located on this point.

Somber Creek: stream, heads at glacier terminus, in Mount McKinley National Park, flows WNW 12 miles, joins Barren Creek to form Highpower Creek, 30 miles W of Mount McKinley, Alaska Range; 63° 05' 10" N, 151° 57' 10" W; (map 88). Local name reported in 1925 by S. R. Capps, USGS.

Sombrero Island: island, 750 ft. across, in San Alberto Bay, 2 miles NW of Abbess Island, Alexander Archipelago; 55° 34' 05" N, 133° 14' 05" W, BGN 1923; (map 4). Variant: El Sombrero, Sobrero, Sombrero Islet. Spanish name given in 1779 by Bodega y Quadra and Francisco Antonio Maurelle as "El Sombrero," meaning "the hat." This name was formally applied to its present location in 1923 by USC&GS; previously its application was not clearly defined and in limited use.

Sombrero Islet: island, see Sombrero Island.

Sombrero Point: point of land, on W coast of Unga Island, in Shumagin Islands, Aleutian Range; 55° 12' 30" N, 160° 50' 45" W; (map 28). Local name shown on a 1963 USC&GS chart.

Sombrero, El: island, see Sombrero Island.

Someone Creek: stream, flows NE Island 1 mile to Alpha Creek 0.1 miles W of its junction with Snake River, 8 miles NW of Nome, Seward Peninsula Highlands; 64° 37' 20" N, 165° 28'

45" W; (map 94). Prospectors' name reported on the 1903 Campion Mining and Trading Co. map by George M. Ashford.

Songlghak River: stream, see Soonglghak Creek.

Sonickson Creek: stream, flows NE 7 miles to Seventymile River, 42 miles NW of Eagle Yukon-Tanana Highlands; 64° 52' 30" N, 141° 52' 00" W; (map 102). Prospectors' name obtained in 1898 by E. C. Barnard, USGS.

Sonom Beach: beach, 0.3 miles long, at mouth of Aboud Creek, on E shore of Temnac Bay, Attu Island, Aleutian Islands; 52° 48' 00" N 173° 06' 22" E; BGN 1965; (map 13). Variant: Sonoma Beach. Name shown as "Sonoma Beach" on an AMS map published in 1948 and as Sonom Beach on a USGS map published in 1953.

Sonoma Beach: beach, see Sonom Beach.

Sonora Creek: stream, flows S 2 miles to Norton Sound, 15 miles NW of Nome, Seward Peninsula Highlands; 64° 33' N, 165° 56' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Sonora Creek: stream, flows SW 5 miles to Central Creek 3.5 miles E of that stream's junction with Goodpaster River and 35 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 22' N, 144° 50' W; (map 101). Local name reported in 1958 by USGS.

Sonora Island: island, 1.2 miles long, in Maurelle Islands, Alexander Archipelago; 55° 36' 30" N, 133° 38' 30" W; (map 4). Named in 1925 by USC&GS; derived from Sonora Passage.

Sonora Passage: water passage, extends 3 miles N from Arriaga Passage, between Saint Joseph Island and Maurelle Islands, SE Iphigenia Bay, Alexander Archipelago; 55° 36' N, 133° 40' W; (map 4). Variant: Arriaga Passage. Named in 1923 by USC&GS "for the Spanish galiot Sonora, commanded by Don Juan de la Bodega y Quadra, who explored this vicinity in 1775."

Sonya Creek: stream, flows 5.3 miles NW to Beaver Creek SE of Lower Mountain, 65 miles NE of McCarthy, Alaska Range; 61° 59' N, 141° 20' W; (map 67). Local name obtained by USGS and published on maps since 1954.

Sonyakay Ridge: ridge, 6 miles long, on E coast of Chichagof Island, 15 miles NE of Tenakee Springs, Alexander Archipelago; 57° 58' N, 135° 00' W; BGN 1960; (map 9). Local name published in 1951 by USGS.

Soo City: locality, site of prospectors' camp on W bank of South Fork Koyukuk River, 15 miles SE of Bettles, Kanuti Flats; 66° 43' N, 151° 29' W; (map 117). Name reported in 1899 by G. H. Wonson, Master of the steamer Dorothy, on his manuscript map of the Koyukuk River. One of several temporary camps established by prospectors caught on the river during the winter of 1898-99.

Soo-loo-poa-gak-took: stream, see Sulupoagaktak Channel.

Sooghmeghat Mountain: hill, see Tomname Mountain.

Sooghmeghat, Mount: hill, see Soomaghat Mountain.

Sooghmeghat, Mount: hill, see Tomname Mountain.

Sooghmeghat: locality, N coast of St. Lawrence Island, 22 miles W of Northeast Cape; 63° 21' N, 169° 24' W; (map 93). Variant: Alowas Camp, Nelsons Camp, Soomaghat, Tamnik Camp. Eskimo name published by USGS in 1948.

Sooloktingirack: mountain, see Suloktingirak.

Sooloopogaktuk Channel: stream, see Sulupoagaktak Channel.

Soomagat: hill, see Soomaghat Mountain.

Soomaghat Mountain: hill, 847 ft., 22 miles W of Northeast Cape, St. Lawrence Island; 63° 16' N, 169° 23' W; BGN 1951; (map 93). Variant: Mary Mountain, Mount Sooghmeghat, Soomagat, Soomakhat. Eskimo name reported in 1949 by Maj. H. B. Allen, USAF.

Soomaghat: locality, See Sooghmeghat.

Soomakhat: hill, see Soomaghat Mountain.

Sooner River: stream, heads at 68° 19' N, 163° 20' W, flows N 19 miles to Kukpowruk River, 9 miles NE of Mount Kelly, and 41 miles SE of Cape Sabine, Arctic Slope; 68° 33' N, 163° 20' W; BGN 1965; (map 130). Variant: Smith Creek. Name proposed in 1965 by geologists of the B.P. Exploration Co., Inc., "a nickname for Oklahoma."

Soonglaghak Creek: stream, flows SE 1 mile to Kiloknak Lagoon, 9 miles SW of Northeast Cape, E coast of St. Lawrence Island; 63° 13' 00" N, 168° 44' 30" W; BGN 1951; (map 93). Variant: Songlghak River, Soonglaghak River. Eskimo name reported in 1932 by O. W. Geist, Univ. of Alaska.

Soonglaghak River: stream, see Soonglaghak Creek.

Soonkakat River: stream, flows NE 31 miles to Yukon River, 2 miles E of Nulato, Koyukuk Lowland; 64° 43' N, 158° 03' W; (map 97). Variant: Soonkaket, Yukokakat. Koyukan Indian name, probably the same as "Junekaket" (Jhunkakat), published in 1898 by USC&GS. On an 1885 map Lt. H. T. Allen, USA, recorded a stream identical with this one, which he named "Yukokakat."

Soonkakat: locality, on left bank of Yukon River S of Kokrines, 27 miles NE of Ruby, Nowitna Lowland; 64° 55' N, 154° 40' W; (map 98). Variant: Sunka'kat. Former Indian village reported as "Sunka'kat" by Dall (1877, p. 28).

Soonkaket: stream, see Soonkakat River.

Sootin Rocks: rocks, off SE coast of Attu Island, Aleutian Islands; 52° 47' N, 173° 15' E; (map 13). This name is shown on a manuscript map drawn by Lupine M. Turner in the 1880's; but does not appear on modern maps.

Sophia Gulch: ravine, see Sofia Gulch.

Sophia, Point: point of land, on N coast of Chichagof Island, at mouth of Port Frederick, 2.5 miles NW of Hoonah, Alexander Archipelago; 58° 08' 35" N, 135° 24' 30" W; (map 11). Named in 1794 by Capt. George Vancouver, RN, for Augusta Sophia, daughter of King George III of England (Wagner, 1937, p. 417).

Sopka Chornaia: mountain, see Black Peak.

Sopka Vinisali: mountain, see Vinasale Mountain.

Sore Finger Cove: cove, on W coast of Glass Peninsula, 4 miles SE of Dorn Island and 43 miles S of Juneau, Alexander Archipelago; 57° 43' 45" N, 133° 55' 00" W; (map 8). Local name reported in 1955 by USGS.

Sorensen, Mount: mountain, see Sorenson, Mount.

Sorenson, Mount: mountain, 5,620 ft., 25 miles SW of junction of Kandik and Yukon Rivers, 55 miles NW of Eagle, Yukon-Tanana Highlands; 64° 59' N, 142° 58' W; (map 102). Variant: Mount Sorensen. Prospectors' name shown on a 1902 manuscript map by E. J. Chamberlain, U.S. Deputy Surveyor.

Sorepaw Creek: stream, in De Long Mountains, flows N 16 miles to Singayoak Creek, 64 miles NE of Misheguk Mountain, Brooks Range; 68° 50' N, 159° 09' W; BGN 1960; (map 131). Named in 1953 by E. G. Sable, USGS, "for sore feet of camp dog."

Sorghum Hill: mountain, see Lore Hill.

Sorrels Creek: stream, flows SW 11 miles to Little Chena River, 30 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 04' 45" N, 146° 52' 45" W; (map 104). Named by prospectors; reported in 1903 by T. G. Gerdine (in Prindle, 1905, pl. 13), USGS.

Sosiego, Punta: point of land, see Tranquil Point.

Sosiyego, Mys del: point of land, see Tranquil Point.

Sosnovoi Island: island, 0.2 miles long, 4.7 miles N of Goddard, on W coast of Baranof Island, Alexander Archipelago; 56° 54' 10" N, 135° 21' 50" W; (map 5). Variant: Fir Island, Ostrov Sosnovoy. Named in 1809 by the Russian navigator, Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "Ostrov Sosnovoy," meaning "fir island."

Sosnovoy, Ostrov: island, see Sosnovoi Island.

Soto, Isla de: island, see Sitkalidak Island.

Souchikova: cove, see Sviechnikof Harbor.

Souhoi Strait: water passage, see Sukoi Inlet.

Soukhoi Strait: water passage, see Dry Strait.

Soukhoi Strait: water passage, see Hayward Strait.

Soukhoi Strait: water passage, see Sukoi Inlet.

Soukoi Inlet: water passage, see Hayward Strait.

Soule Creek: stream, flows NW 10 miles to Jack River, 28 miles S of Healy, Talkeetna Mountains; 63° 09' 20" N, 148° 41' 45" W; (map 87). Local name obtained in 1913 by J. W. Bagley, USGS; published by Moffit (1915, pl. 1).

Soule Glacier: glacier, heads at Through Glacier, trends SE 11 miles to its 1955 terminus at head of Soule River, 4.5 miles W of Glacier Point on Portland Canal, Coast Mountains; 55° 50' 25" N, 130° 13' 30" W; (map 3). Named in 1897 by USC&GS for Pierre Soule, 1801-70, American political leader and diplomat.

Soule River: stream, heads at Soule Glacier, flows SE 4.5 miles to Portland Canal, 1 mile W of Glacier Point, Coast Mountains; 55° 48' 45" N, 130° 08' 30" W; (map 3). Local name recorded in 1955 by USGS.

Soulima, Riviere: stream, see Ugashik River.

Sound Islands: islands, 0.3 miles long, between Nakwasina Passage and Krestof Sound, 14 miles NW of Sitka, Alexander Archipelago; 57° 13' 30" N, 135° 33' 00" W; (map 9). Variant: Pribieli Islets, Pribilie Islands. Named in 1897 by Lt. Comdr. E. K. Moore, USN; published by USC&GS in 1900 Coast Pilot (p. 193). Ens. Vasiliev called the largest island of the group "Pribilie," meaning "profitable," in 1833. W. H. Dall, USC&GS, reported the name of the group as "Pribieli" and the island name as "Pribilie" in 1883 Coast Pilot (p. 155).

Soundon Glacier: glacier, see Sumdum Glacier.

Soundon Island: island, see Sumdum Island.

Soundun: locality, see Sumdum.

Soup Lake: lake, 0.5 miles long, N of Glenn Highway, 19 miles W of Glennallen, Copper River Basin; 62° 06' N, 146° 07' W; (map 83). Local name reported in 1949 by USGS

Sourdough Camp: locality, W of Sourdough Creek, 11 miles S of Mount Prindle and 79 miles SW of Circle, Yukon-Tanana Highlands; 65° 17' 30" N, 146° 29' 00" W; (map 104). Name of a road camp, along the Steese Highway, published in 1954 by USGS.

Sourdough Creek: stream, flows S 7 miles to Chatanika River, 79 miles SW of Circle, Yukon-Tanana Highlands; 65° 17' N, 146° 2.9' W; (map 104). Named by prospectors; reported in 1903 by T. G. Gerdine (in Prindle, 1905, pl. 13), USGS.

Sourdough Creek: stream, flows SE 10 miles to a lagoon on Bering Sea, 5 miles SE of Cape Douglas and 45 miles NW of Nome, Seward Peninsula Highlands; 64° 57' N, 166° 33' W; (map 94) Prospectors' name reported on a 1901 map of Cape Nome gold fields by David Fox, Jr.

Sourdough Creek: stream, flows SW 2 miles to Skookam River which flows to Klokerblok River, 18 miles NE of Solomon, Seward Peninsula Highlands; 64° 41' N, 163° 55' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Sourdough Creek: stream, heads in lakes, flows SW 16 miles to Gulkana River at Sourdough, 29 miles N of Glennallen, Copper River Basin; 62° 31' N, 145° 31' W; (map 83). Local name reported by USGS in 1950; probably named for the locality at stream's mouth.

Sourdough Gulch: ravine, trends W 0.5 miles to Cache Creek, S of Cheechako Gulch, 31 miles NW of Talkeetna, Alaska Range; 62° 27' 55" N, 151° 01' 25" W; (map 81). Prospectors' name reported in the 1930's by USGS.

Sourdough Hill: ridge, elev. 2,000 to 5,700 ft., extends SW 5 miles from Sourdough Peak, 4 miles SE of McCarthy, Wrangell Mountains; 61° 24' N, 142° 46' W; (map 67). Name used by prospectors; reported in 1908 by D. C. Witherspoon (Moffit and Capps, 1911, pl. 2), USGS.

Sourdough Peak: mountain, 6,201 ft., on N bank of Nizina River, 6 miles SE of McCarthy, Wrangell Mountains; 61° 25' N, 142° 45' W; (map 67). Name used by prospectors; reported in 1908 by D. C. Witherspoon, USGS.

Sourdough Peak: mountain, see Logan, Mount.

Sourdough: locality, on Richardson Highway, 29 miles N of Glennallen, Copper River Basin; 62° 32' N, 145° 31' W; (map 83). Local name reported by USGS (in Moffit, 1911, fig. 14).

Sourdough: locality, site of camp on S bank of Nizina River, at mouth of Young Creek, 8 miles SE of McCarthy, Wrangell Mountains; 61° 22' 00" N, 142° 53' 45" W; (map 67). Name used by prospectors; reported in 1908 by D. C. Witherspoon (Moffit and Capps, 1911, pl. 2), USGS.

Sout-hvick, Ile: island, see Sutwik Island.

South Aluk Hill: mountain, 1,092 ft., between Oligavik and Sakvelak Creeks, 25 miles SE of Cape Lisburne, Arctic Slope; 68° 44' N, 165° 17' W; (map 129). Variant: Allook. Eskimo name meaning "sole of foot [aloq]" or "coal [alaoq]"; spelled "Allook" by D. C. Foote, of Project Chariot, in 1960.

South Amaknak Rocks: rocks, off S tip of Amaknak Island, in Unalaska Bay, Unalaska Island, Aleutian Islands; 53° 51' 57" N, 166° 33' 23" W (map 23). Named in 1873 by W. H. Dall, USC&GS.

South American Island: island, 0.8 miles across, near head of Mitchell Bay in W central Admiralty Island, 8 miles NE of Angoon, Alexander Archipelago; 57° 33' 20" N, 134° 23' 00" W; (map 9). Local name reported in 1951 by USGS.

South Anchorage: bay, 2 miles across on S coast of Yunaska Island, Aleutian Islands; 52° 35' 50" N, 170° 41' 00" W; (map 20). Descriptive name published by USC&GS in the 1944 Aleutian Coast Pilot (p. 79).

South Arm Bay of Isles: estuary, on E coast of Knight Island, trends N 1.7 miles to head of Bay of Isles, 15 miles NE of Chenega, Chugach Mountains, 60° 22' 45" N, 147° 42' 00" W; (map 63). Name published in 1943 by USC&GS.

South Arm Bay of Pillars: bay, see Pillars, Bay of.

South Arm Cabin Cove: cove, see Lower Arm Cabin Cove.

South Arm Cholmondeley Sound: estuary, extends SW 8.5 miles, at head of Cholmondeley Sound, on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 14' 45" N, 132° 16' 45" W; BGN 1961; (map 4). Local name reported in 1901 by A. H. Brooks, USGS.

South Arm Hood Bay: estuary, on S central Admiralty Island, extends NW 4 miles to Hood Bay, 11 miles SE of Angoon, Alexander Archipelago; 57° 22' N, 134° 24' W; (map 9). Name published in 1910 by USC&GS on Chart 8247.

South Arm Hoonah Sound: water passage, extends SE 8 miles to Hoonah Sound on S central Chichagof Island, 18 miles E of Chichagof, Alexander Archipelago; 57° 38' N, 135° 38' W; (map 9). Named by USC&GS; published in 1899 on Chart 8050.

South Arm Kelp Bay: estuary, extends NE 4.5 miles to Kelp Bay, on E coast of Baranof Island, 20 miles SW of Angoon, Alexander Archipelago; 57° 18' 30" N, 134° 58' 30" W; (map 9). Named in 1895 by Lt. Comdr. E. K. Moore, USN; published in 1899 by USC&GS.

South Arm Kendrick Bay: estuary, extends S 2.8 miles off Kendrick Bay, on SE coast of Prince of Wales Island, Alexander Archipelago; 54° 52' 20" N, 132° 01' 55" W; (map 1). Local name reported by H. C. Fassett, USBF, in 1904.

South Arm Moira Sound: estuary, extends S 6 miles, off Moira Sound, on SE coast of Prince of Wales Island, Alexander Archipelago; 54° 59' 45" N, 132° 08' 45" W; (map 1). Descriptive local name; recorded by H. C. Fassett, USBF, in 1904.

South Arm Three Arm Bay: bay, 0.5 miles across, part of Three Arm Bay, on W coast of Adak Island, Aleutian Islands; 51° 44' 15" N, 176° 50' 40" W; BGN 1936; (map 17). Descriptive name given by Lt. William Gibson, USN, commander of the schooner Fenimore Cooper, during the North Pacific Exploring Expedition in 1855.

South Arm Uganik Bay: estuary, extends S 7 miles from Mink Point, at head of Uganik Bay, on N coast of Kodiak Island; 57° 43' 00" N, 153° 31' 30" W; (map 34). Descriptive name derived from Uganik Bay and named in 1887 by Lt. Comdr. J. F. Moser, USN, of the USBF steamer Albatross.

South Arm: bay, 3 miles across, NE extension of Farragut Bay, N of Read Island, 83 miles E of Sitka, Coast Mountains; 57° 08' N, 133° 11' W; (map 8). Local name reported in 1951 by USGS.

South Bay: bay, 2 miles across, on S coast of Tanaga Island, Aleutian Islands; 51° 38' 15" N, 177° 58' 30" W; (map 17). Name published by USC&GS in the 1947 Coast Pilot (pt. 2, p. 472).

South Bay: bay, 2 miles across, on S side of Perry Island, between Lone Passage and Perry Passage, 28 miles NE of Chenega, Chugach Mountains; 60° 39' 45" N, 147° 43' 45" W; (map 63). Local name reported in 1952 by USGS.

South Bay: bay, see Farallon Bay.

South Beaver Creek: stream, on Kenai Peninsula, flows NW 3.5 miles to Anchor River, 6 miles NNW of Homer, Cook Inlet Lowland; 59° 43' 50" N, 151° 35' 30" W; (map 50). Local name reported and published by USGS in the 1950's.

South Bight: bay, 0.7 miles across, faces SW to the Pacific Ocean, 4 miles W of East Cape, Amchitka Island, Aleutian Islands; 51° 22' 45" N, 179° 22' 00" E; (map 15). Variant: Southwest Bight. Listed in the 1946 Supplement (p. 120) to the Aleutian Coast Pilot as "South Bight" instead of the variant name as given in the 1944 Aleutian Coast Pilot.

South Bight: bay, 2 miles long, on W shore of Port Frederick, on Chichagof Island, 10 miles SW of Hoonah, Alexander Archipelago; 58° 01' 30" N, 135° 39' 00" W; (map 11). Local descriptive name published in 1942 by USGS.

South Billy Goat Mountain: mountain, 3,265 ft., 2 miles W of Gilbert Inlet, 97 miles NW of Hoonah, St. Elias Mountains; 58° 40' 50" N, 137° 33' 00" W; (map 10). Name published by members of the Harvard-Dartmouth Expedition, 1933-34 (Washburn and Goldthwait, 1936, map).

South Bjerremark: village, see Broadmoor.

South Branch Big Saint Michael Canal: watercourse, see Saint Michael Canal.

South Branch South Fork Chester Creek: stream, heads in Chugach Mountains, flows NW, then SW 9.5 miles to join the Middle Branch to form South Fork Chester Creek in Anchorage, Cook Inlet Lowland; 61° 11' 23" N, 149° 47' 05" W; (map 69). Local name reported in 1962 by USGS.

South Branch Trimble Glacier: glacier, in Tordrillo Mountains, heads on Mount Gerdine, trends NE 15 miles, joins North Branch Trimble Glacier to form Trimble Glacier, 55 miles NW of Tyonek, Alaska Range; 61° 42' 30" N, 152° 06' 30" W; BGN 1963; (map 70). Variant: Hayes Glacier. Named in 1961 by USGS. See Trimble Glacier.

South Burnett Island: island, 0.3 miles long, at mouth of Burnett Inlet, on SW coast of Etolin Island, Alexander Archipelago; 56° 04' 00" N, 132° 27' 30" W; BGN 1917; (map 6). Named by USC&GS for charting purposes; name published in 1916.

South Buttress: mountain, 8,100 ft., near headwaters of North Fork Swift River, 12 miles NW of Stony Glacier and 102 miles SE of McGrath, Alaska Range; 61° 38' 45" N, 154° 11' 20" W; (map 71). Local name reported in 1958 by USGS.

South Buttress: ridge, 14,000 ft., on Mount McKinley, extends NE 5 miles from East Fork Kahiltna Glacier to Thayer Basin, Alaska Range; 63° 01' N, 151° 00' W; (map 88). Mountain climbers' name published in 1954 by USGS.

South Cape: point of land, on S coast of Chirikof Island, 100 miles SW of Kodiak Island; 55° 45' 30" N, 155° 36' 00" W; (map 32). Descriptive name reported in 1874 by W. H. Dall, USC&GS.

South Cape: point of land, see Fawn Point.

South Cape: point of land, see Yug Point.

South Channel Yakataga River: stream, heads at Yakataga Glacier, flows W and SW 10 miles to Gulf of Alaska, 2 miles NW of Cape Yakataga and 103 miles NW of Yakutat, St. Elias Mountains; 60° 04' 45" N, 142° 29' 10" W; (map 65). Variant: Yakataga River. Local name published in 1951 by USGS.

South Channel: water passage, between Captains Bay and Iliuliuk Harbor in Unalaska Bay, on NE coast of Unalaska Island, Aleutian Islands; 53° 52' 25" N, 166° 32' 40" W; (map 23). Name published by USC&GS in 1965 on Chart 9008.

South Chinitna Mountain: mountain, 3,040 ft., in Tilted Hills, on NE coast of Iniskin Peninsula, Aleutian Range; 59° 45' 50" N, 153° 03' 00" W; (map 51). Local name derived from Chinitna Mountain; published by Moffit (1927, pl. 1), USGS.

South Cove: bay, 1.5 miles across, on south-central Chuginadak Island, Aleutian Islands; 52° 49' 30" N, 169° 51' 00" W; (map 21). Descriptive name published by USC&GS in the 1944 Aleutian Coast Pilot (p. 76).

South Craig Island: point of land, see South Craig Point.

South Craig Point: point of land, on NE coast of Zarembo Island, Alexander Archipelago; 56° 23' 20" N, 132° 37' 30" W; (map 6). Variant: South Craig Island. Named by USC&GS for charting purposes; name published in the 1883 Coast Pilot (p. 94) as "South Craig Island."

South Creek: stream, flows NE 2.5 miles through South Lake, to Crooked Creek, 65 miles NE of Palmer, Talkeetna Mountains; 61° 59' 20" N, 147° 17' 45" W; (map 69). Local name reported in 1951 by USGS.

South Crillon Glacier: glacier, in Glacier Bay National Monument, heads in Fairweather Range, trends WSW 8 miles to Crillon Lake, 79 miles WNW of Hoonah, St. Elias Mountains;

58° 35' 50" N, 137° 23' 15" W; BGN 1945; (map 10). Variant: Eastern Glacier. Name published by members of the Harvard-Dartmouth Expedition, 1933-34 (Washburn and Goldthwait, 1936, map).

South Currant Creek: stream, flows W 14 miles to Currant Creek, 36 miles NE of Nondalton, Aleutian Range; 60° 15' N, 153° 52' W; (map 61). Local name reported in 1954 by USGS.

South Deception Lake: lake, 1.4 miles long, in Glacier Bay National Monument, 2 miles N of Torch Bay and 52 miles NW of Hoonah, St. Elias Mountains; 58° 22' 00" N, 136° 46' 45" W; BGN 1962; (map 10). So named by NPS in 1962 because "although near sea level, its mountainous location makes it appear higher." North Deception Lake, into which it drains, is directly to the north.

South Dome: mountain, 2,442 ft., in Glacier Bay National Monument, between La Perouse and Finger Glaciers, 2.6 miles N of Gulf of Alaska and 69 miles NW of Hoonah, St. Elias Mountains; 58° 29' 30" N, 137° 12' 30" W; (map 10). Local name published by USGS in the 1950's.

South Entrance: water passage, on W coast of Prince of Wales Island, connects Big Salt Lake and Klawak Inlet, 2.5 miles NE of Klawock, Alexander Archipelago; 55° 35' 30" N, 133° 05' 00" W; (map 4). Local name recorded in 1949 by USGS.

South Fairbanks: suburb, in S section of Fairbanks, Tanana Lowland; 64° 50' N, 147° 43' W; (map 100).

South Finger Lake: lake, 1 mile long, one of the Finger Lakes, on Kenai Peninsula, 13 miles NE of Kenai, Cook Inlet Lowland; 60° 38' 30" N, 150° 53' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

South Flat: tidal flat, 1 mile long, in Wrangell Narrows, on E coast of Lindenberg Peninsula, Kupreanof Island, 8 miles S of Petersburg, Alexander Archipelago; 56° 41' 30" N, 132° 57' 15" W; (map 6). Variant: Wrangell South Flat. Feature was originally called "Wrangell South Flat" in 1869 by Comdr. R. W. Meade USN. Local usage shortened the name.

South Foreland: point of land, see East Foreland.

South Fork Andrew Creek: stream, flows NW 8.5 miles to Andrew Creek, 14 miles NE of Wrangell, Coast Mountains; 56° 39' 00" N, 132° 12' 10" W; (map 6). Local name recorded in 1953 by USGS.

South Fork Anvil Creek: stream, flows SW 2 miles to join Discovery Fork to form Anvil Creek, 4 miles NE of Nome, Seward Peninsula Highlands. Prospectors' name published in 1900 by Schrader (1900c, p. 16), USGS. Subsequent maps show a different drainage pattern at the head of Anvil Creek.

South Fork Arolic Creek: stream, see South Fork Arolik River.

South Fork Arolic River: stream, see South Fork Arolik River.

South Fork Arolik River: stream, flows N 12 miles joins East Fork Arolik River to form Arolik River, 30 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 31' N, 161° 21' W; (map 53). Variant: South Fork Arolic Creek, South Fork Arolic River. Name published by G. L. Harrington (in Brooks, 1921, pl. 7), USGS.

South Fork Big River: stream, heads at terminus of Big River Lobe Double Glacier, flows NE 11 miles to Big River, 38 miles NW of Kenai, Cook Inlet Lowland; 60° 46' N, 152° 12' W; (map 62). Local name reported in 1962 by USGS.

South Fork Birch Creek: stream, flows N 18 miles to Birch Creek, 38 miles SW of Circle, Yukon-Tanana Highlands; 65° 18' N, 144° 26' W; (map 104). Named by prospectors; reported in 1896 by USGS (Spurr 1898, pl. 39).

South Fork Bremner River: stream, flows NW 15 miles to Bremner River, 55 miles NE of Katalla Chugach Mountains; 60° 59' 45" N, 144° 15' 00" W, (map 64). Name published in 1959 by USGS.

South Fork Buckland River: stream, flows NW 26 miles to the Buckland River, 50 miles NE of Haycock, Nulato Hills; 65° 44' N, 160° 00' W (map 109). Local name published in 1951 by USGS.

South Fork Burls Creek: stream, flows NE 6.4 miles to Burls Creek 2 miles W of its mouth at Becharof Lake, on Alaska Peninsula, 49 miles NE of Ugashik, Aleutian Range; 57° 41' 10" N, 156° 09' 00" W; (map 36). Name reported in 1902 by J. L. McPherson of Iliamna; published by G. C. Martin (1921, pl. 10), USGS.

South Fork Butte Creek: stream, flows NE 1.2 miles to Butte Creek which flows to Solomon River, 11 miles NE of Solomon, Seward Peninsula Highlands; 64° 43' N, 164° 20' W; (map 95). Prospectors' name reported in 1903 or 1904 on a location map of Council City & Solomon River Railroad.

South Fork Campbell Creek: stream, heads in lake, in Chugach Mountains, flows NW 13 miles, joins North Fork to form Campbell Creek, 3.8 miles SE of Anchorage, Cook Inlet Lowland; 61° 10' 39" N, 149° 49' 20" W; (map 69). Local name reported in 1916 by GLO [BLM].

South Fork Chena River: stream, heads at 64° 46' N, 145° 54' W, flows NW 41 miles to Chena River, 33 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 53' 05" N, 146° 40' 15" W; BGN 1965; (map 101). Named by prospectors and reported in 1907 by Prindle (1913a, pl. 4), USGS.

South Fork Chester Creek: stream, formed by its Middle and South Branches, flows NW 2.7 miles to join the Middle Fork to form Chester Creek in Anchorage, Cook Inlet Lowland; 61° 11' 58" N, 149° 49' 55" W; (map 69). Local name reported in 1962 by USGS.

South Fork Chickamin River: stream, heads at glacier SW of Through Glacier, flows W 18 miles to Chickamin River, 2.5 miles SE of mouth of Leduc River, Coast Mountains; 55° 52' 30" N, 130° 44' 25" W; BGN 1962; (map 3). Local name reported in 1961 by USFS.

South Fork Cowee Creek: stream, flows NW 4 miles to Cowee Creek, 2.5 miles E of Bridget Cove and 27 miles NW of Juneau, Coast Mountains; 58° 37' 30" N, 134° 52' 00" W; (map 11). Name published in 1951 by USGS. See Cowee Creek.

South Fork Deep Creek: stream, on Kenai Peninsula, flows NW 11 miles to Deep Creek, 15 miles NW of Caribou Lake and 22 miles N of Homer, Cook Inlet Lowland; 59° 58' N, 151° 29' W; (map 50). Local name published on maps after 1950

South Fork Doame River: stream, heads in lake, in Deception Hills, flows W 9 miles to join Doame River 2 miles E of its mouth on Gulf of Alaska and 60 miles SE of Yakutat, St. Elias Mountains; 59° 04' 45" N, 138° 17' 30" W; (map 46) Local name published in 1959 by USGS

South Fork Eagle River: stream, heads at a glacier, flows NW 12 miles, through Eagle Lake to Eagle River 15 miles NE of Anchorage, Chugach Mountains; 61° 17' 50" N, 149° 28' 157, W; (map 69). Local name reported in 1942 by AMS.

South Fork East Fork George River: stream, flows NW 30 miles to East Fork George River 4.3 miles E of its junction with George River, 22 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 59' 3" N, 157° 28' 45" W; (map 72). Local name reported in 1914 by R. H. Sargent, USGS.

South Fork Eldorado Creek: stream, heads on Ear Mountain, flows NE 1 mile to Eldorado Creek, in Arctic River basin, 3 miles E of The Ears, Seward Peninsula Highlands; 65° 56' 00" N, 166° 07' 10" W; BGN 1954; (map 111). Named in 1945 by a USGS field party.

South Fork Flats: flats, along course of South Fork Koyukuk River, extends SW 25 miles from Twin Lakes, 25 miles WSW from Chandalar, Brooks Range; 67° 15' N, 149° 30' W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

South Fork Folger Creek: stream, heads in Kuskokwim Mountains, flows N 24 miles, joins Canyon Creek to form Folger Creek, 23 miles NE of Ophir and 36 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 26' 30" N, 156° 09' 30" W; (map 90). Local name obtained in 1954 by R. E. Isto, USGS.

South Fork Fortymile River: stream, heads at junction of Mosquito and Dennison Forks, flows NE 33 miles to join North Fork to form Fortymile River, 42 miles SW of Eagle, Yukon-Tanana Highlands; 64° 14' N, 141° 45' W; (map 102). Named by prospectors and reported in 1896 by Spurr (1898, pl. 38), USGS. This name was probably in use as early as 1886.

South Fork Goodnews River: stream, heads at 59° 12' N, 160° 54' W, flows SW 24 miles to Goodnews River, 4 miles E of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 07' 30" N, 161° 29' 30" W; (map 53). Variant: Mumtrak Creek. Originally called "Mumtrak Creek" in 1909 by USC&GS on Chart 8802 for Mumtrak, the Eskimo village at its mouth. It was called "South Fork Goodnews River" in 1919 by G. L. Harrington (in Brooks, 1921, pl. 7), USGS.

South Fork Goodpaster River: stream, see Eisenmenger Fork.

South Fork Grouse Creek: stream, flows NE 5 miles to join East Fork Grouse Creek to form Grouse Creek which flows to Mink River 41 miles NW of Teller, Seward Peninsula

Highlands; 65° 38' N, 167° 29' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

South Fork Harrison Creek: stream, flows SE 8 miles, joins North Fork Harrison Creek to form Harrison Creek, 44 miles SW of Circle, Yukon-Tanana Highlands; 65° 21' 45" N, 145° 07' 30" W; (map 104). Variant: Harrison Creek. Local name reported in 1896 by USGS (Spurr, 1898, pl. 50).

South Fork Hess Creek: stream, heads at junction of Goldstream and Alabam Creeks, flows N 11 miles to join North Fork Hess Creek to form Hess Creek, 14 miles NE of Livengood, Yukon-Tanana Highlands; 65° 42' 30" N, 148° 21' 30" W; (map 105). Variant: Goldstream Creek. Prospectors' name reported in 1902 by Lt. Hjalmar Erickson, USA.

South Fork Hoholitna River: stream, flows NW 26 miles to Hoholitna River, 65 miles SE of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 54' N, 156° 15' W; (map 60). Local name reported in 1952 by USC&GS.

South Fork Huslia River: stream, flows NE 50 miles to join North Fork Huslia River to form Huslia River, 38 miles NW of Roundabout Mountain, Koyukuk Lowland; 65° 53' N, 157° 36' W; (map 108). Local name obtained at Huslia by USGS in 1954 or 1955.

South Fork Iliamna River: stream, see Iliamna River.

South Fork Indian River: stream, flows NW 8 miles, joins North Fork Indian River to form Indian River, 16 miles NW of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 18' N, 161° 51' W; (map 53) Name published by G. L. Harrington (in Brooks, 1921, pl. 7), USGS.

South Fork Jones Creek: stream, flows NW 18 miles to Jones Creek, 27 miles SE of Medfra, Kuskokwim Lowland; 63° 00' 20" N, 153° 51' 50" W; BGN 1964; (map 89). Local name reported in 1958 by USGS.

South Fork Kamishak River: stream, heads at glacier terminus, in Katmai National Monument, flows NU' 19 miles to Kamishak River, 10 miles S of Akumwarvik Bay, at head of Alaska Peninsula, Aleutian Range; 58° 53' 05" N, 154° 11' 40" W; (map 42). Local name reported in 1923 by R. H. Sargent, USGS.

South Fork Koyukuk River: stream, heads 8 miles W of Chandalar Lake, flows SW 140 miles to Koyukuk River, 20 miles E of Allakaket, Kanuti Flats; 66° 35' N, 151° 57' W; (map 117). Variant: Nohoolchintna, Nokhulchitna. Local name published by USC&GS in 1899. This stream appears to be the "Nohoolchintna" which Lt. Allen (1887, p. 100), USA, reported in 1885.

South Fork Kuskokwim River: stream, heads at a glacier on NE slope of Snowcap Mountain at 61° 33' 40" N, 153° 32' 40" W, flows NW 150 miles to Kuskokwim River, 2.4 miles SE of Medfra, Kuskokwim Lowland; 63° 05' N, 154° 39' W; BGN 1964; (map 89). Variant: Echeatnu River, Istna River, Kuskokwim River, Nando River. The name was used in 1907 by Gordon (1917, p. 104) who also reported its Indian name as "Istna." In 1899 Lt. J. S. Herron, USA, had reported the Indian name as "E-cheat-nu." J. E. Spurr and W. S. Post USGS, considered this stream the main Kuskokwim River.

South Fork Kuyukutuk River: stream, flows NW 10 miles to its junction with West Fork to form Kuyukutuk River, 13 miles NW of Russian Mission, Nulato Hills; 61° 52' N, 161° 41' W; (map 73). Local name reported by Harrington (1918, map), USGS, in 1916.

South Fork Kuzitrin River: stream, see Minnie Creek.

South Fork Ladue River: stream, flows N 22 miles to Ladue River, 44 miles E of Tok, Yukon-Tanana Highlands; 63° 24' N, 141° 35' W; (map 85). Local name reported by USGS in 1955

South Fork Lake: lake, 1.5 miles across, on W side of South Fork Flats, 3.5 miles SE of Big Lake and 20 miles WSW of Chandalar, Brooks Range; 67° 26' N, 149° 15' W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

South Fork Lodge: roadhouse, on N bank of South Fork Fortymile River, 0.3 miles E of Atwater Creek, 54 miles SW of Eagle, Yukon-Tanana Highlands; 64° 03' N, 141° 47' W; (map 102). Local name reported in 1956 by USGS.

South Fork Martin Creek: stream, heads in Peters Hills, flows SE 6.4 miles to Martin Creek 23 miles NW of Talkeetna, Alaska Range; 62° 24' 20" N, 150° 48' 18" W; (map 81). Local name reported in 1958 by USGS.

South Fork Matanuska River: stream, flows NW 12 miles to join East Fork to form the Matanuska River, 55 miles NE of Palmer, Copper River Basin; 61° 47' 30" N, 147° 30' 15" W; (map 69). Local name reported about 1964 by USGS.

South Fork Montana Creek: stream, heads in lake, flows W 20 miles to Montana Creek, 11 miles SE of Talkeetna, Cook Inlet Lowland; 62° 11' N, 149° 57' W; (map 82). Local name recorded in 1950 by USGS.

South Fork Mosquito Creek: stream, heads in Darby Mountains, flows SW 5.3 miles to Mosquito Creek, in Fish River basin, 39 miles SE of Imuruk Lake, Seward Peninsula Highlands; 65° 02' N, 162° 43' W; (map 110). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

South Fork Mulchatna River: stream, see Chilchitna River.

South Fork Ninuluk Creek: stream, flows NW 20 miles to Ninuluk Creek, 31 miles SW of Umiat, Arctic Slope; 69° 03' N, 153° 05' W; BGN 1960; (map 142). Name published in 1956 by USGS.

South Fork Nulato River: stream, flows NE 54 miles to Nulato River, 3 miles W of Nulato, Nulato Hills; 64° 43' N, 158° 12' W; (map 97). Local name reported in 1954 by USGS.

South Fork Nuluk River: stream, flows NE 8 miles to join North Fork Nuluk River to form Nuluk River, 26 miles N of Teller, Seward Peninsula Highlands; 65° 38' N, 166° 15' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

South Fork of Birch Creek: stream, see Yukon Fork.

South Fork Otter Creek: stream, flows W 8 miles to join North Fork to form Otter Creek, 10 miles NE of Flat, Kilbuck-Kuskokwim Mountains; 62° 31' N, 157° 43' W; (map 79). Local name obtained in 1952 by USGS topographers.

South Fork Paint River: stream, flows NW 1.5 miles, joins Middle Fork Paint River to form Paint River, 8 miles SE of Spectacle Lake, 47 miles SW of Augustine Island, Aleutian Range; 59° 07' 15" N, 154° 38' 10" W; (map 51). Local name reported by K. F. Mather, in 1923 (in Brooks and others, 1925, pl. 3).

South Fork Pass Creek: stream, flows NE 6 miles to Pass Creek, 76 miles SE of Healy, Alaska Range; 63° 10' 20" N, 147° 01' 00" W; (map 87). Local name obtained in 1951 by USGS.

South Fork Quail Creek: stream, flows NE 4 miles to Quail Creek, 16 miles SE of Rampart, Yukon-Tanana Highlands; 65° 21' 30" N, 149° 45' 50" W; (map 105). Local name given relative to Quail Creek; reported in 1904 by L. M. Prindle and F. L. Hess (in Brooks and others, 1905, fig. 6), USGS.

South Fork Rex Creek: stream, flows NE 2.4 miles and joins the North Fork to form Rex Creek, on E coast of Alaska Peninsula, 2 miles NW of Dry Bay and 51 miles W of Karluk, Aleutian Range; 57° 39' 35" N, 155° 49' 00" W; (map 35). Descriptive local name obtained from J. L. McPherson of Iliamna and published by G. C. Martin (1921, pl. 10), USGS.

South Fork Salcha River: stream, flows N 20 miles to Salcha River, 37 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 40' N, 145° 26' W; (map 101). Local name reported in 1958 by USGS.

South Fork Serpentine River: stream, flows N 35 miles to Serpentine River, 25 miles SE of Shishmaref, Kotzebue-Kobuk Lowland; 66° 07' N 165° 16' W; (map 112). Variant: Quartz Creek. Prospectors' name published by Collier (1902, pl. 12), USGS.

South Fork Snow River: stream, heads at Nellie Juan Lake, flows NW 12 miles to Snow River, 4 miles S of Kenai Lake and 12 miles NE of Seward, on Kenai Peninsula, Chugach Mountains; 60° 17' 00" N, 149° 20' 20" W; (map 63). Name published on a 1951 USGS map.

South Fork Sulatna River: stream, flows NE 37 miles to Sulatna River, 12 miles NE of Sulatna Crossing and 19 miles SW of Monzonite Hills, Kilbuck-Kuskokwim Mountains; 64° 14' N, 155° 04' W; (map 98). Prospectors' name reported in 1912 by Eakin (in Brooks and others, 1913, pl. 10), USGS.

South Fork Tozitna River: stream, see Ptarmigan Creek.

South Fork Twelvemile Creek: stream, flows NE 3 miles to Twelvemile Creek, 58 miles SW of Circle, Yukon-Tanana Highlands; 65° 24' N, 145° 48' W; (map 104). Local name reported in 1911 by USGS (Prindle, 1913b, pl. 1).

South Fork Upper Carmen River: stream, flows NW 5 miles to Upper Carmen River, 8 miles NW of Whittier, Chugach Mountains; 60° 53' 15" N, 148° 45' 40" W; (map 63). Local name reported in 1951 by USGS.

South Fork. Goodpaster River: stream, heads at 64° 14' N, 143° 59' W, flows W 40 miles to Goodpaster River, 22 miles E of Big Delta, Yukon-Tanana Highlands; 64° 12' 30" N, 145° 10' 10" W (map 101). Local name reported in 1907 by D. C. Witherspoon, USGS.

South Fork: stream, see Sulatna River.

South Glacier: glacier, heads on Alaska-Canada boundary 0.8 miles SW of Boundary Peak 111 and trends W 2 miles to its 1949 terminus 1.8 miles NW of Hefty Mountain and 8 miles E of Skagway, Coast Mountains; 59° 28' 30" N, 135° 05' 45" W; (map 45). Local name obtained by USGS field personnel and published on Federal maps since 1950.

South Gland Lake: lake, 0.5 miles N of Bukhti Point, Kiska Island, Aleutian Islands; 51° 55' 28" N, 177° 28' 10" E; (map 14). An arbitrary name beginning with "S" to correspond to "S" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

South Head: point of land, SE point of entrance to Kiska Harbor, on E coast of Kiska Island, Aleutian Islands; 51° 57' 15" N, 177° 36' 25" E; BGN 1937; (map 14). Local name recorded by USC&GS in 1905.

South Head: point of land, see Battery Point.

South Head: promontory, on the S side of entrance to Iliamna Bay, 18 miles N of Augustine Island, Aleutian Range; 59° 36' 25" N, 153° 33' 30" W; BGN 1916; (map 51). Descriptive name published in 1913 on USC&GS Chart 3420.

South Hill: hill, 668 ft., SW of Ulakaia Hill, on St. George Island, Pribilof Islands; 56° 33' 40" N, 169° 35' 55" W; (map 38). Variant: Ikoum-unga-Koverushka. Descriptive name reported by W. W. Duffield, USC&GS, in 1897. The Aleut-Russian name for this hill, according to Putnam, (1903, p. 1014), USC&GS, is "Ikoum'-unga'-koberushka" or "hill near Ikoum-unga."

South Inian Pass: water passage, 3 miles long, on N end of Chichagof Island, from Cross Sound E to Icy Strait, 34 miles NW of Hoonah, Alexander Archipelago; 58° 13' 30" N, 136° 10' 00" W; (map 10). Named by J. F. Pratt, USC&GS, in 1891.

South Island: island, 0.2 miles across, at mouth of Port McArthur, in Affleck Canal, on S coast of Kuiu Island, Alexander Archipelago; 56° 03' 30" N, 134° 06' 30" W; (map 5). Named in 1886 by Lt. J. M. Helm, USN, for charting purposes; published in 1887 by USC&GS on Chart 706.

South Island: island, 0.3 miles long, Bay of Islands, Adak Island, Aleutian Islands; 51° 49' 20" N, 176° 48' 00" W; BGN 1936; (map 17). Descriptive name given by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

South Island: island, 0.4 miles long, in Stephens Passage, off E coast of Glass Peninsula, Admiralty Island, 25 miles SE of Juneau, Alexander Archipelago; 57° 58' 15" N, 134° 02' 45" W; (map 9). Named in 1889 by Lt. Comdr. H B. Mansfield, USN; published by USC&GS in 1891 Coast Pilot (p. 148).

South Island: island, near SW coast of Unalaska Island, Aleutian Islands; (map 23). This name was published by USBF in 1888, and by Baker (1906, p. 590). It does not appear on modern maps.

South Island: island, see Biorka Island.

South Island: island, see Teal Island.

South Island: rock, elev. 260 ft., in Semidi Islands, 2 miles SW of S tip of Chowiet Island, Aleutian Range; 55° 59' N, 156° 43' W; (map 31). Variant: Ile du Sud, Kutloot Island, Kytlek Island, Ostrov Yuzhniy. Name translated from the Russian "O[strov] Yuzhniy," published by the Russian Hydrog. Dept. in 1847. Also shown in French "[I]le du Sud" by Adm. von Krusenstern (1827, map 20), IRN.

South Island: rocks, see Huddle Rocks.

South Kaigahnee Harbor: bay, see South Kaigani Harbor.

South Kaigani Harbor: bay, extends NW 1.2 miles off Kaigani Strait, on SE coast of Dall Island, Alexander Archipelago; 54° 45' 10" N, 132° 43' 00" W; (map 1). Variant: Middle Harbor Kai-gah-nee Harbors, Middle Kaigani Harbor, South Kaigahnee Harbor. Haida Indian name published by USC&GS in the 1883 Coast Pilot (p. 66) as "Middle Harbor Kai-gah-nee Harbors." See Kaigani Harbors.

South Kaigani Harbor: bay, see Datzkoo Harbor.

South Lake: lake, 0.7 miles long, in course of South Creek, SW of Table Mountain, 64 miles NE of Palmer, Talkeetna Mountains; 61° 58' 55" N, 147° 20' 30" W; (map 69). Local name reported in 1951 by USGS.

South Ledge: rocks, in Wrangell Narrows, on W coast of Mitkof Island, 13 miles S of Petersburg, Alexander Archipelago; 56° 37' 20" N, 132° 57' 20" W; (map 6). Named in 1869 by Comdr. R. W. Meade, USN.

South Maktak Hills: hills, 900 ft., extend 8 miles E of Angmakrok Mountain, N of Kakpeyak River, 17 miles NE of Cape Thompson, Arctic Slope; 68° 19' N, 165° 19' W; BGN 1963; (map 129). Variant: South Muktuk Hills. Name reported in 1960 by D. C. Foote, Project Chariot. See Maktak Mountain.

South Marble Island: island, 0.3 miles across, most southerly of Marble Islands, in Glacier Bay National Monument, in Glacier Bay, 1.6 miles SE of North Marble Island and 43 miles NW of Hoonah, St. Elias Mountains; 58° 38' 40" N, 136° 02' 30" W; (map 10). Variant: South Marble Islet. Name published by the IBC (1923, sheet 10).

South Marble Islet: island, see South Marble Island.

South Meadow Lake: lake, 0.25 miles across, 2.8 miles NE of Barrow, Arctic Plain; 71° 18' 10" N, 156° 38' 40" W; (map 153). Named about 1955 for scientific purposes

South Mountain: peak, 3,050 ft, 1.2 miles NW of Mount Unana, 24 miles NE of Yakutat, St. Elias Mountains; 59° 46' 30" N, 139° 14' 10" W; (map 46). Name appears on USGS fieldsheet dated 1909.

South Mouth Arolic River: stream, see South Mouth Arolik River.

South Mouth Arolik River: stream, S distributary of Arolik River, heads at 59° 38' N, 161° 36' W, flows NW 12 miles to Kuskokwim Bay, 40 miles N of Goodnews, Yukon-Kuskokwim Delta; 59° 41' N, 161° 53' W; (map 53). Variant: South Mouth Arolic River. Named in 1914 by USC&GS; published in 1915 on Chart 9103.

South Muktuk Hills: hills, see South Maktak Hills.

South Naknek: village, pop. 142, on S bank of Naknek River, on Alaska Peninsula, 1 mile SE of Naknek, Bristol Bay Lowland; 58° 41' N, 157° 00' W, BGN 1948; (map 41). Variant: Naknek, Suwarof, Suworof, Paugwik. Eskimo and Aleut village listed in the 1880 Census with a population (including Kingiak) of 192; 93 in 1890. See Naknek. The South Naknek post office was established in 1937.

South Olga Stream: stream, see Olga Creek.

South Pass Sukkwan Strait: water passage, 4 miles long, connects Sukkwan and Tlevak Straits, between Goat and Sukkwan Islands, 23 miles SE of Craig, Alexander Archipelago; 55° 11' N, 132° 52' W; BGN 1916; (map 4). Named in 1916 by USC&GS.

South Pass: pass, between Bottle Cork and Lookout Hills, on southeastern Attu Island, Aleutian Islands; 52° 49' 55" N, 173° 06' 15" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II; shown on an AMS map published in 1948.

South Pass: water passage, SE approach to Kiska Harbor, between Kiska and Little Kiska Islands, Aleutian Islands; 51° 57' 20" N, 177° 36' 50" E; BGN 1937; (map 14). Variant: Kiska Pass, Small Pass. Recorded as "Small Pass" in 1875 and as "South Pass" in 1906 by USC&GS.

South Pass: water passage, see South Passage.

South Passage Point: point of land, on Chichagof Island, S point of entrance to Tenakee Inlet, 10 miles E of Tenakee Springs, Alexander Archipelago; 57° 45' 30" N, 134° 56' 00" W; (map 9). Descriptive name given in 1869 by Comdr. R. W. Meade, USN; published in 1883 Coast Pilot (p. 179).

South Passage: water passage, 2 miles long, between Hogan and Herbert Graves Islands, 5.5 miles NW of Chichagof, Alexander Archipelago; 57° 41' 30" N, 136° 14' 30" W, (map 9).

Variant: South Pass. Name published by USC&GS in 1910 as “South Pass,” and in 1917 Coast Pilot (pt. 1, P. 216) as “South Passage.”

South Passage: water passage, 5 miles long, on N coast of Chichagof Island, S of Lemesurier Island, 23 miles NW of Hoonah, Alexander Archipelago; 58° 13' N, 136° 05' W; (map 10). Name published by USC&GS in 1904 on Chart 8304.

South Passage: water passage, E of Whitney Island, extends S 1 mile from Cleveland Passage to Fanshaw Bay, 71 miles E of Sitka, Coast Mountains; 57° 13' 00" N, 133° 30' 15" W; (map 8). Descriptive name probably given by Lt. Comdr. H. E. Nichols, USN; published by USC&GS in the 1891 Coast Pilot (p. 145).

South Passage: water passage, in Eliza Harbor, between Liesnoi Island and SE coast of Admiralty Island, 27 miles SE of Angoon, Alexander Archipelago; 57° 09' 35" N, 134° 16' 40" W; (map 9). Named in 1889 by Lt. Comdr. H. B. Mansfield, USN; published in 1891 Coast Pilot (p. 142).

South Peak Mount McKinley: mountain, 20,320 ft., summit of Mount McKinley, one of the Churchill Peaks, 2 miles S of North Peak, in Mount McKinley National Park, Alaska Range; 63° 04' 20" N, 151° 00' 15" W; (map 88). This descriptive name was used as early as 1910. See Mount McKinley.

South Peak: peak, 4,251 ft., at S end of Mount Susitna, 33 miles NW of Anchorage, Alaska Range; 61° 27' 10" N, 150° 44' 55" W; BGN 1962; (map 70). Local name reported in 1949 by USGS.

South Pinnacle Rock: rock, at Cape Lazaref, on SE coast of Unimak Island, Aleutian Islands; 54° 36' N, 163° 35' W; (map 25). Descriptive name reported in 1926 by USC&GS.

South Point: point of land, N tip of Mindalina Island, off Yakobi Island, 20 miles NW of Chichagof, Alexander Archipelago; 57° 52' 25" N, 136° 29' 30" W; (map 9). Local name reported in 1951 by USGS.

South Point: point of land, NE tip of an island between Mitchell Bay and Kootznahoo Inlet, off Admiralty Island, 5 miles NE of Angoon, Alexander Archipelago; 57° 32' 30" N, 134° 28' 05" W; (map 9). Named in 1869 by Comdr. R. W. Meade, USN; published by USC&GS in 1883 Coast Pilot (p. 177).

South Point: point of land, on E coast of Baranof Island, at entrance to Kelp Bay, 20 miles SW of Angoon, Alexander Archipelago; 57° 16' 15" N, 134° 51' 40" W; (map 9). Descriptive name given in 1895 by Lt. Comdr. E. K. Moore, USN.

South Point: point of land, S tip of Semisopochnoi Island, Aleutian Islands; 51° 52' 45" N, 179° 36' 30" E; (map 15). Name published on a 1943 U.S. Army Corps of Engineers map.

South Point: point of land, S tip of Spruce Island, NE of Kodiak Island; 57° 53' 10" N, 152° 22' 00" W; (map 34). Variant: Mys Vkhoda ili Yuzhnyy. Partial translation of “M[ys] Vkhoda ili Yuzhnyy” meaning “entrance or south cape,” the name given to this point by Sub-Lt. Mikhail Murashev in 1839 or 1840 and published in 1849 on Russian Hydrog. Dept. Chart 1425.

South Point: point of land, see Harbor Point.

South Point: point of land, see Lauder, Point.

South Point: point of land, see Meares Point.

South Point: point of land, see Nuka Point.

South Point: point of land, see Ommaney, Cape.

South Point: point of land, see Paralysis Point.

South Point: point of land, see Zapadni Point.

South Punuk Island: island, in Punuk Islands group, 16 miles S of Northeast Cape, St. Lawrence Island; 63° 05' N, 168° 49' W; (map 93). Probably named by USC&GS about 1925.

South Pustoi Bay: cove, 0.2 miles across, at E end of Umnak Island, at Fort Glenn, 0.6 miles SW of Pustoi Island, Aleutian Islands; 53° 23' 35" N, 167° 50' 20" W; (map 23). Name derived from Pustoi Island and reported in 1942 by U.S. Army Corps of Engineers.

South Quadra Mountain: mountain, 1,968 ft., on S shore of Boca de Quadra, 3 miles E of Kah Shakes Point, Coast Mountains; 55° 04' 15" N, 130° 54' 45" W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

South Rhine Peak: peak, 3,400 ft., 2.8 miles SE of Hawthorn Peak and 8 miles SE of Juneau, Coast Mountains; 58° 15' N; 134° 10' W; (map 11). Local mountaineering name reported in 1965 by D. A. Brew and A. B. Ford, USGS.

South River: stream, flows N 40 miles to Unalakleet River, 3.5 miles E of Unalakleet, Nulato Hills; 63° 52' 15" N, 160° 40' 00" W; (map 91). Local descriptive name reported in 1903 by Carl O. Lind of Unalakleet.

South Rock: rock, 0.3 miles off N coast of Chichagof Island, in Lacy Cove, 1 mile SW of Point Lavina, 33 miles NW of Hoonah, Alexander Archipelago; 58° 13' 05" N, 136° 19' 25" W; (map 10). Named by J. F. Pratt, USC&GS, in 1901; published on Chart 8304 in 1904.

South Rock: rock, 1,000 ft. long, in Pacific Ocean, off S coast of Petrel Island, 1 mile S of Forrester Island, Alexander Archipelago; 54° 45' 00" N, 133° 30' 30" W; (map 1). Local descriptive name reported in 1948 by USGS.

South Rock: rock, 2 miles S of Cape Izigan, at S end of Unalaska Island, Aleutian Islands; 53° 13' 20" N, 167° 39' 35" W; (map 23). Name reported in 1942 by U.S. Army Corps of Engineers and published in the 1944 Aleutian Coast Pilot (p. 57).

South Rock: rock, 8 miles S of Sanak Island, Aleutian Range; 54° 17' 43" N, 162° 42' 20" W; (map 25). Descriptive name reported by Ferdinand Westdahl, USC&GS, commander of the Coast Survey steamer McArthur, who made surveys in this area in 1901.

South Rock: rock, N of Observation Island, 4 miles N of Cordova, Chugach Mountains; 60° 36' 30" N, 145° 44' 00" W; (map 64). Named by Lt. Comdr. J. F. Moser, USN, in 1897.

South Rock: rock, see Nuka Rock.

South Rocks: rocks, 9.5 miles S of Goddard, off SW coast of Baranof Island, Alexander Archipelago; 56° 42' 00" N, 135° 19' 40" W; (map 5). Local name used by fishermen; published in 1929 by USC&GS.

South Rocks: rocks, extend 900 ft. in Cordova Bay, off SE point of Long Island, Alexander Archipelago; 54° 46' N, 132° 36' W; (map 1). Local descriptive name published by USC&GS in 1943.

South Rocks: rocks, in Pacific Ocean, 10 miles SE of Dolgoi Island, Aleutian Range; 55° 00' 30' N, 161° 29' 40" W; (map 28). Local name shown on a 1953 USGS map.

South Rocks: rocks, off S shore of Chapel Cove, on SW coast of Adak Island, Aleutian Islands; 51° 38' 46" N, 176° 48' 32" W; (map 17). Descriptive name given by USC&GS in 1929.

South Saddle Lake: lake, 1,200 ft. across, on Revillagigedo Island W of Carroll Inlet, 2.4 miles SW of Nigelius Point, Alexander Archipelago; 55° 31' 30" N, 131° 22' 20" W; BGN 1923; (map 3). Named in 1923 by USFS.

South Salt Lagoon: lake, 0.7 miles long, on Chukchi Sea coast, 1.4 miles NE of Barrow, Arctic Plain; 71° 18' 40" N, 156° 43' 10" W; (map 153). Variant: Ikpilin, Ikpiling. Named for scientific purposes (Carson and Hussey, 1962). This feature may be the same lake Sgt. John Murdoch (1892, p. 28) recorded as "Ikpilin[g]" [Ikpiklik] meaning "having high banks."

South Sandy Cove: cove, 1.5 miles across, in Glacier Bay National Monument, on E shore of Glacier Bay, 2 miles SE of Sturgess Island and 44 miles NW of Hoonah, St. Elias Mountains; 58° 42' 30" N, 136° 00' 30" W; (map 10). Name published in 1959 by NPS.

South Sawyer Glacier: glacier, heads near Alaska-Canada boundary, at 57° 40' N, 132° 45' W, trends NW 25 miles to Tracy Arm, 60 miles SE of Juneau, Coast Mountains; 57° 53' N, 133° 07' W; (map 8). Name in 1946 published by USFS.

South Sealion Hill: hill, 679 ft., on E coast of St. George Island, in Pribilof Islands; 56° 35' 00" N 169° 30' 10" W; (map. 38). Variant: Propas'tchykoverushka, Tug'una'raro'logh-koverushka. Name reported by Joseph Stanley-Brown USGS, in 1891. This appears to be a partial translation of the Aleut-Russian name "Tug'una'raro'logh-koverushka' * * * hill near Tugunrarologh [i.e. dead sea-lion place] * * * the southern of two Sealion Hills" listed by Putnam (1903, p. 1016), USC&GS. Putnam (p. 1015) also gives the Russian name as "Propas'tchy-koverushka' * * * hill near Propastchy * * *."

South Semidi Island: island, see Chowiet Island.

South Slough: stream, see Red Wing Slough.

South Spit: island, 0.8 miles long, between Golovnin Bay and Golovnin Lagoon, 1 mile S. of Golovin and 42 miles E of Solomon, Seward Peninsula Highlands; 64° 31' N, 163° 02' W; (map 95). Local name published in the 1938 USC&GS Light List.

South Spit: point of land, extends N 2.5 miles at entrance to Goodnews Bay, 10 miles SW of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 03' N, 161° 50' W; (map 53). Descriptive name published by G. L. Harrington (in Brooks, 1921, pl. 7), USGS.

South Spit: spit, 3 miles long, between Bristol and Egegik Bays on N coast of Alaska Peninsula, 41 miles SW of Naknek, Bristol Bay Lowland; 58° 11' N, 157° 32' W; (map 41). Local name reported in 1952 by USGS.

South Spit: spit, on S shore of Shagak Bay, on NW coast of Adak Island, Aleutian Islands; 51° 51' 50" N, 176° 45' 40" W; BGN 1936; (map 17). Descriptive name given by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

South Summit Ear Mountain: peak, see West Peak.

South Trick Lake: lake, 0.8 miles across, near terminus of Brady Glacier, in Glacier Bay National Monument, 3.5 miles N of Murk Bay and 59 miles SW of Hoonah, St. Elias Mountains, 58° 21' 20" N, 136° 42' 45" W; BGN 1962; (map 10). So named by the NPS in 1962 "because the lake empties itself periodically, apparently annually." It is about a mile south of North Trick Lake.

South Tuman Point: point of land, part of Tuman Head, on W coast of Semisopochnoi Island, Aleutian Islands; 51° 58' 00" N, 179° 28' 05" E: (map 15). Name published on a 1943 U.S. Army Corps of Engineers map.

South Twin Bay: bay, 1.5 miles across, at SW end of Elrington Island, N of Point Elrington, 45 miles SE of Seward, Chugach Mountains, 59° 57' N, 148° 14' W; BGN 1929; (map 49). Descriptive name given in 1927 by USC&GS. See North Twin Bay.

South Twin Creek: stream, flows SE 5 miles to North Fork Chandalar River 1.5 miles S of mouth of North Twin Creek and 9 miles N of Chandalar, Brooks Range; 67° 37' 30" N, 148° 26' 00" W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

South Twin Glacier: glacier, in Tordrillo Mountains trends SW 9 miles to its terminus at head of Skwentna River, 58 miles NW of Tyonek Alaska Range; 61° 26' 00" N, 152° 43' 30" W; (map 70). Local name reported in 1927 by S. R. Capps and R. H. Sargent (in Smith and others, 1929, pls. 1, 2). USGS.

South Twin Peak: mountain, 1,407 ft., one of Twin Peaks, on W shore of Alitak Bay, at S end of Kodiak Island; 56° 54' 10" N, 154° 13' 30" W; (map 32). Descriptive name published in 1943 by USC&GS.

South Twin: mountain, 7,444 ft., in Chigmit Mountains, 3 miles S of Iliamna Volcano, Aleutian Range; 59° 59' 10" N, 153° 04' 00" W; (map 51). Local descriptive name published in 1912 by USC&GS.

South Vallenar Point: point of land, on NE coast of Gravina Island, 3.4 miles S of Vallenar Point, Alexander Archipelago; 55° 22' 50" N, 131° 52' 40" W; (map 3). Named in 1886 by USC&GS.

South Walrus Peak: peak, 2,927 ft., between Morzhovoi Bay and Thinpoint Cove, at SW end of Alaska Peninsula, 24 miles NE of False Pass, Aleutian Range; 54° 58' 40" N, 162° 50' 40" W; BGN 1966; (map 25). Variant: Walrus Peak, Walrus Peak South. Descriptive name published by USC&GS in the 1947 Alaska Coast Pilot (p. 339).

South Yoke Creek: stream, flows S 1.2 miles to Yoke Bay on E coast of Great Sitkin Island, Aleutian Islands; 52° 00' 10" N, 176° 03' 40" W; (map 17). Name published by USGS (in Simons and Mathewson, 1955, pl. 5).

South Yoke Mountain: peak, 2,448 ft., one of two peaks on Yoke Mountain, 4 miles E of Jacksmith Bay and 28 miles N of Goodnews. Kilbuck-Kuskokwim Mountains; 59° 30' N, 161° 38' W; (map 53). Named in 1914 by USC&GS; published in 1915 on Chart 9103.

South, Cape: point of land, see Trinity, Cape.

South-southeast Bay: bight, 1.2 miles across, at mouth of Fenner Creek, on SE coast of Semisopochnoi Island, Aleutian Islands; 51° 54' N, 179° 40' E; (map 15). Name published on a 1943 U.S. Army Corps of Engineers map.

South-southeast Point: point of land, on S coast of Little Sitkin Island, Aleutian Islands; 51° 54' 15" N 178° 32' 15" E; (map 15). Name published on a 1943 U.S. Army Corps of Engineers map.

South-southeast Point: point of land, on SE coast of Semisopochnoi Island, Aleutian Islands; 51° 54' 15" N, 179° 40' 25" E; (map 15). Name published on a 1943 U.S. Army Corps of Engineers map.

South-southwest Indent: bight, on SW coast of Semisopochnoi Island, Aleutian Islands; 51° 53' 30" N, 179° 34' 00" E; (map 15). Name published on a 1943 U.S. Army Corps of Engineers map.

South-southwest Point: point of land, 0.8 miles NW of Prokhoda Point, Little Sitkin Island, Aleutian Islands; 51° 54' 35" N, 178° 29' 15" E; (map 15). Name published on a 1943 U.S. Army Corps of Engineers map.

South-southwest Point: point of land, 2.9 miles NW of South Point, on SW coast of Semisopochnoi Island, Aleutian Islands; 51° 53' 40" N, 179° 32' 40" E; (map 15). Name published on a 1943 U.S. Army Corps of Engineers map.

Southeast Bight: bight, 2 miles across, in Tanaga Bay, on W coast of Tanaga Island, Aleutian Islands; 51° 43' 30" N, 177° 59' 00" W; (map 17). Descriptive name published in 1951 on a USGS map.

Southeast Cape: point of land, on S coast of Saint Lawrence Island; 62° 56' 10" N, 169° 39' 00" W; BGN 1951; (map 93). Variant: Sevognak, Sevooghnak Cape, Sevoonak Point. Descriptive name given in 1849 by Capt. M. D. Tebenkov.

Southeast Cape: point of land, see Emeghee Point.

Southeast Cape: point of land, see Kialegak Point.

Southeast Cove: bay, extends SE 2 miles to Ernest Sound, on S tip of Wrangell Island, Alexander Archipelago; 56° 08' N, 132° 03' W; (map 6). Descriptive name given in 1886 by Lt. Comdr. A. S. Snow, USN; probably because it is east of the southeastern end of Zimovia Strait. See Southwest Cove.

Southeast End: point of land, SE end of Douglas Island, on Stephens Passage, 2.5 miles S of Dupont and 9.5 miles SE of Juneau, Coast Mountains; 58° 11' 30" N, 134° 15' 50" W; (map 11). Local descriptive name published in 1951 by USGS.

Southeast Fork Kahiltna Glacier: glacier, trends SW 5 miles to Kahiltna Glacier, 9 miles SW of Denali Pass, Alaska Range; 62° 58' 25" N, 151° 11' 30" W; (map 81). Mountain climbers' name reported about 1954 by USGS.

Southeast Pass: water passage, between Elma and Caton Islands, Sanak Islands, Aleutian Range; 54° 22' 50" N, 162° 28' 30" W; (map 25). Descriptive name published in 1949 on a USGS map.

Southeast Point: point of land, on Buldir Island, Aleutian Islands; 52° 20' 30" N, 175° 57' 00" E; (map 14) Name shown on a 1950 AMS map.

Southeast Point: point of land, part of East-southeast Head, on SE coast of Semisopochnoi Island, Aleutian Islands; 51° 55' 20" N, 179° 43' 40" E; (map 15) Name published on a 1943 U.S. Army Corps of Engineers map.

Southeast Point: point of land, see Cascade Point.

Southeast Rock: rock, in Gulf of Alaska, 2.5 miles S of Cape St. Elias, Kayak Island, Malaspina Coastal Plain; 59° 45' 45" N, 144° 35' 20" W; (map 48). Name published in 1913 by USC&GS on Chart 8513.

Southeast Shoal: shoal, see Tzuse Shoal.

Southeast Spur: ridge, 13,000 ft., extends E 3.5 miles along S side of Northwest Fork Ruth Glacier from South Buttress, on Mount McKinley, Alaska Range; 63° 02' N, 150° 55' W; (map 88). Mountain climbers' name published in 1954 by USGS.

Southeast Tributary Muir Glacier: glacier, see Adams Glacier.

Southeastern Cove: cove, 0.4 miles across, faces NE toward Rat Island Pass, 2.3 miles NW of Ayugadak Point, SE tip of Rat Island, Aleutian Islands; 51° 47' 30" N, 178° 21' 10" E; (map 15). Name published on a 1943 U.S. Army Corps of Engineers map.

Southerly Island: island, 0.3 miles long, in St. John Harbor, on NW coast of Zarembo Island, Alexander Archipelago; 56° 26' 40" N, 132° 58' 00" W (map 6). Descriptive name given in 1884 by officers of U.S.S. Adams.

Southern Glacier: glacier, heads at 59° 23' N, 151° 06' W, in Kenai Mountains, Kenai Peninsula trends W 2 miles to its terminus at a stream, 21 miles ESE of Seldovia, Chugach Mountains; 59° 24' N, 151° 09' W; (map 50). Name reported in 1904 on a USGS fieldsheet by E. G. Hamilton, who placed the glacier approximately 5 miles SW of the location shown on recent maps.

Southern Rapid: rapids, see Southern Rapids.

Southern Rapids: rapids, in Sergius Narrows of Peril Strait, off Rapids Island, 25 miles NW of Sitka, Alexander Archipelago; 57° 24' 25" N, 135° 37' 45" W; (map 9). Variant: Second Rapids, Southern Rapid, Vtoryee Porogi. Published in 1882 on Brit. Adm. Chart 2337; called "Vtoryye Porogi." meaning "second rapids," in 1848 on Russian Hydrog. Dept. Chart 1397.

Southwall: cliff, see Stonewall.

Southwest Anchorage: bay, 1.5 miles across, on SW coast of Chirikof Island, 100 miles SW of Kodiak Island; 55° 48' N, 155° 44' W; (map 32). Descriptive name published in 1943 by USC&GS.

Southwest Anchorage: cove, see Cemetery Cove.

Southwest Bay: bay, 0.1 miles across, part of English Bay, on SW coast of St. Paul Island, in Pribilof Islands; 57° 09' 05" N, 170° 19' 45" W (map 38). So called by Joseph Stanley-Brown, USGS, in 1891.

Southwest Bay: bay, see Zapadni Bay.

Southwest Bight: bay, see South Bight.

Southwest Branch Taku Glacier: glacier, heads 1 mile E of Amherst Peak, trends NE 8 miles to Taku Glacier, 21 miles N of Juneau, Coast Mountains. 58° 35' 30" N, 134° 14' 00" W; BGN 1965; (map 11). Named by members of the Juneau Icefield Research Project in 1964.

Southwest Cape: point of land, see Powoiliak Point.

Southwest Cape: point of land, see Singikpak point.

Southwest Cape: promontory, 34 miles SE of Gambell, on S coast of Saint Lawrence Island 63° 19' N, 171° 27' W; BGN 1951; (map 93) Variant: Cape Singikpa, Pekalok Cape, Pekaluk Cape, Pekaluk Point, Sikovuk Cape, Singikpa Cape. Descriptive name given in 1849 by Capt. M. D. Tebenkov

Southwest Cove: cove, extends S 1.5 miles to Ernest Sound, 2 miles E of Menefee Inlet, on E coast of Etolin Island, 30 miles SE of Wrangell, Alexander Archipelago; 56° 04' 30" N, 132°

08' 30" W; (map 6). Descriptive name given in 1886 by Lt. Comdr. A. S. Snow, USN, probably because it is southwest of the southern end of Zimovia Strait. See Southeast Cove.

Southwest End: point of land, see Konets Head.

Southwest End: point of land, see Tiderip Point.

Southwest Fork of Gold Creek: stream, see Ice Creek.

Southwest Indent: bight, 1 mile across, on SW coast of Semisopochnoi Island, Aleutian Islands; 51° 54' 45" N, 179° 30' 00" E; (map 15). Name published on a 1943 U.S. Army Corps of Engineers map.

Southwest Islands: islands, off SE coast of Admiralty Island, in Pybus Bay, 26 miles SE of Angoon, Alexander Archipelago; 57° 17' N, 134° 04' W; (map 9). Local name published by USC&GS in 1943 Coast Pilot (p. 283).

Southwest Knob: promontory, elev. 160 ft., on SW coast of Semisopochnoi Island, Aleutian Islands; 51° 54' 00" N, 179° 30' 50" E; (map 15). Name published on a 1943 U.S. Army Corps of Engineers map.

Southwest Konets: point of land, see Konets Head.

Southwest Peak: peak, 1,960 ft., 2.2 miles SW of Attu and 1 mile S of West Peak, Attu Island, Aleutian Islands; 52° 54' 45" N, 173° 12' 43" E; (map 13). Variant: Brewer Peak. Descriptive name reported by Lt. William Gibson, USN, a member of the North Pacific Exploring Expedition in 1855. The USC&GS Chart 9198 (1947) shows the above name, but was also published in 1948 as "Brewer Peak" on an AMS map.

Southwest Point: point of land, on Buldir Island, Aleutian Islands; 52° 21' N, 175° 54' E; (map 14). Name shown on a 1950 AMS map.

Southwest Point: point of land, on SW coast of Wosnesenski Island, 11 miles NE of Dolgoi Island, Aleutian Range; 55° 11' 00" N, 161° 24' 30" W; (map 28). Local name shown on a 1964 USC&GS chart.

Southwest Point: point of land, on SW tip of St. Paul Island, in Pribilof Islands, 57° 09' 40" N, 170° 24' 50" W; (map 38). Variant: South West Point, Mys Zapadnyy, Zapadnie Point. Descriptive name published by Elliott (1881, St. Paul map) as "South West Point." It was called "M[ys] Zapadnyy," meaning "West Cape" by the Russians (Tebenkov, 1852, map 21).

Southwest Point: point of land, see Ikolik, Cape.

Southwest Point: point of land, see Munoz, Point.

Southwest Twin: peak, 2,195 ft., on Twin Mountain. 9 miles N of Tooth Mountain and 20 miles N of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 23'.N. 161° 42' W (map 53). Variant: S. W. Twin. Descriptive name given in 1914 by USC&GS.

Soutkhvik: island, see Sutwik Island.

Soutvik Island: island, see Sutwik Island.

Souvoroff, Cape: bluff, see Suworof, Cape.

Sovwalk Creek: stream, flows N 3.5 miles to Bering Sea, 2 miles E of Savoonga, N coast of St. Lawrence Island; 63° 41' N, 170° 26' W; BGN 1957; (map 93). Variant: Sovwalk River. Eskimo name recommended by the Savoonga village council and reported in 1949 by Maj. H. B. Allen, USAF.

Sovwalk River: stream, see Sovwalk Creek.

Sowik: locality, see Iron Creek.

Soyhekla Creek: stream, see Henshaw Creek.

Sozavarika Island: island, 0.4 miles across, 6 miles W of Deer Island, Aleutian Range; 54° 51' 20" N, 162° 31' 35" W; (map 25). Variant: Grassy Island, Low Island No. 1. Aleut name given by USC&GS in 1916. This island was called "Low Island Number I" by USBF in 1888.

Sozhekla River: stream, see Henshaw Creek.

Spacious Bay: estuary, extends W 6 miles off Behm Canal, on NE coast of Cleveland Peninsula, Alexander Archipelago; 55° 51' N, 131° 46' W; (map 3). Named in 1879 by W. H. Dall, USC&GS, from Capt. Vancouver's description of its size (U.S. Coast and Geodetic Survey, 1883, p. 73).

Spafarief Bay: bay, 15 miles across, on Kotzebue Sound, 10 miles N of Candle, Kotzebue-Kobuk Lowland; 66° 08' N, 161° 51' W; (map 114). Variant: Spafariefs Bay. Named "Spafariefs Bay" by Lt. Otto von Kotzebue, IRN, in August, 1816.

Spafariefs Bay: bay, see Spafarief Bay.

Spalding Creek: stream, flows NE 5 miles to Ganes Creek 5.5 miles NE of its junction with Last Chance Creek and 29 miles W of McGrath, Kilbuck-Kuskokwim Mountains; 62° 57' N, 156° 33' W; (map 79). Prospectors' name obtained in 1952 by USGS topographers.

Spalding Creek: stream, see Last Chance Creek.

Spanberg Island: island, 2 miles long, in El Capitan Passage, N of Orr Island, Alexander Archipelago; 55° 59' 30" N, 133° 19' 30" W; (map 4). Variant: Spangenberg Island. Named in 1928 by USFS for Lt. Martin Spanberg, who was second in command on Vitus Bering's voyage in 1725.

Spanberg, Cape: point of land, see Espenberg, Cape.

Spangenberg Island: island, see Spanberg Island. Spangle Creek: stream, flows NE 3.9 miles to Sulatna River, 0.5 miles SE of Sulatna Crossing and 39 miles S of Ruby, Kilbuck-

Kuskokwim Mountains; 64° 11' 10" N, 155° 27' 00" W; (map 98). Prospectors' name published in 1921 by USGS.

Spangle Creek: stream, see Banner Creek.

Spangle Island: island, 10 miles long, in Yukon River, 5 miles W of Marshall, Yukon-Kuskokwim Delta; 61° 55' N, 162° 25' W; (map 74). Riverboat pilots' name shown on a 1940 navigation chart of the Yukon River.

Spanish Islands: islands, extend 4 miles N off NE tip of Coronation Island, 49 miles NW of Craig, Alexander Archipelago; 55° 57' N, 134° 07' W; (map 4). Variant: Iles des Espagnols. The name "Iles des Espagnols," or "Spanish Islands," was given on August 8, 1786, by La Perouse who "applied [the name] to Warren Island" (Wagner, 1937, p. 451). W. H. Dall applied this name to "Warren and Coronation Islands and adjacent islets and rocks * * *" (U.S. Coast and Geodetic Survey, 1883, p. 99). The name as presently applied was published by Baker (1906, p. 592), USGS.

Sparkle Creek: stream, flows W 1 mile to Nome River, 10 miles NE of Nome, Seward Peninsula Highlands; 64° 39' N, 165° 17' W; (map 94). Prospectors' name reported on a map by S. E. King dated 1900.

Sparks: locality, on left bank of Igushik River, 4 miles SE of Amanka Lake and 25 miles W of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 02' N, 159° 09' W; (map 53). This village, named for an early settler, was reported in 1948 or 1949 by Frank Waskey, trader and prospector. It is no longer permanently occupied.

Sparrow Creek: stream, flows NE 0.4 miles to head of Prospect Creek, in Flambeau River basin, 1 2 miles NE of Nome, Seward Peninsula Highlands; 64° 37' N, 165° 05' W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Sparrow Rocks: rocks, in Bering Sea, 2 miles SW of Conquer Point, west-central coast of Kiska Island, Aleutian Islands; 51° 59' 20" N, 177° 26' 45" E; (map 14). One of the "bird names" arbitrarily applied to features on Kiska Island in 1943 by USAAF for tactical purposes during World War II.

Spaska: cove, see Spasski Bay.

Spaskai Island: island, see Spasski Island.

Spaskai, Port: cove, see Spasski Bay.

Spaskaia Bay: cove, see Spasski Bay.

Spaskaia Harbor: cove, see Spasski Bay.

Spaskaia Island: island, see Spasski Island.

Spaskaya Gavan: cove, see Spasski Bay.

Spasskaia Bay: cove, see Spasski Bay.

Spasskaia Creek: stream, see Spasski Creek.

Spasskaia Island: island, see Spasski Island.

Spasski Bay: cove, 0.6 miles across, on N coast of Chichagof Island, 4 miles E of Hoonah and 35 miles SW of Juneau, Alexander Archipelago; 58° 06' 35" N 135° 19' 00" W; BGN 1930; (map 11). Variant: Port Spaskai, Spaska, Spaskaia Bay, Spaskaia Harbor, Spaskaya Gavan, Spasskaia Bay. Russian name published by Lt. Sarichev (1826, map 5), IRN, as "Spaskaya Gavan" or literally "harbor of the church of our Savior," although the name in this case may commemorate Gregori Spasskaya, Russian hydrographer.

Spasski Creek: stream, on N end of Chichagof Island, flows NW 8 miles to Icy Strait, 1 mile S of Pulizzi Island and 35 miles SW of Juneau, Alexander Archipelago; 58° 05' 15" N, 135° 17' 15" W; BGN 1929; (map 11). Variant: Spasskaia Creek. Local name derived from Spasski Bay and reported in 1928 by USFS.

Spasski Island: island, 0.1 miles across, in Icy Strait, 2 miles NE of Neck Point on Chichagof Island and 33 miles SW of Juneau, Alexander Archipelago 58° 06' 15" N, 135° 17' 20" W; BGN 1930, (map 11). Variant: Spaskaia Island, Spaskai Island, Spasskaia Island. Named 'Spasskaia Island' in 1869 by Comdr. R. W. Meade, USN, on Hydrog. Chart 225 for the bay of this name (U.S. Coast and Geodetic Survey, 1883, p. 193). The spelling was modified by BGN to conform with the anglicized pronunciation. See Spasski Bay.

Spaulding Point: point of land, at N end of Auke Bay, E of village of Auke Bay, 10 miles NW of Juneau, Coast Mountains; 58° 23' 00" N, 134° 39' 15" W; (map 11). Named for Victor C. Spaulding, 1867-1937, who lived for many years near the point. Born in Massachusetts, he came to Alaska in 1897. He lived at Dawson and Atlin before going to Juneau to mine in 1906 (DeArmond 1957, p. 40).

Spawning Creek: stream, flows NE 4 miles to Lake Schrader, 20 miles NW of Mount Michelson Brooks Range; 69° 22' N, 145° 04' W; (map 139). Named in July 1952 by Bee and Hall (1956, p. 295).

Specimen Creek: ravine, former tributary of Gold Creek, about 2 miles W of Juneau, Coast Mountains; 58° 18' N, 134° 20' W; (map 11). Miners' name for a stream subsequently destroyed by mining operations (DeArmond, 1957, p. 22).

Specimen Gulch: ravine, trends W 1 mile to Anvil Creek, 5 miles N of Nome, Seward Peninsula Highlands; 64° 35' N, 165° 23' W; (map 94). Prospectors' name shown on a 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Spectacle Island: island, 3 miles long, between Big Koniuji and Nagai Islands, in Shumagin Islands, Aleutian Range; 55° 06' 30" N, 159° 43' 30" W, (map 27). Variant: Kangaiulouk Island, Kunaiugiuk Island. Local name reported in 1872 by W. H. Dall, USC&GS. It may be the "Kunaingiuk Island" of Father Veniaminov (1840, v. I, p. 255), which is described as "long with two hills;" or "Kangaiulouk," as published by Capt. Lutke (1836, p. 267).

Spectacle Lake: lake, 2.5 miles long, 1 mile W of Old Cache Lake and 8 miles SW of junction of Herron and Foraker Rivers, Tanana Lowland; 63° 35' 00" N, 152° 23' 00" W; (map 88). Name reported in 1954 by USGS; so named because the lake's outline resembles a pair of spectacles.

Spectacle Lake: lake, 2.7 miles long, 20 miles SE of Big Mountain and 38 miles S of Iliamna, Aleutian Range; 58° 12' 30" N, 154° 50' 00" W; (map 51). So named by R. H. Sargent, USGS, in 1923 because of its resemblance in outline to a pair of spectacles. Published by K. F. Mather (in Brooks and others, 1925, pl. 3), USGS.

Speedway Creek: stream, flows N 4 miles to Castle Creek, 3 miles SW of Castle Mountain and 36 miles NW of Anaktuvuk Pass, Arctic Slope; 68° 32' N, 152° 40' W; (map 134). So named in 1949 by W. W. Patton, USGS, "because the creek is bordered by smooth flat upland surfaces that can be traversed by vehicles on wheels at top speed."

Speel Arm: estuary, trends S 5 miles from mouth of Speel River to Bogert Point, at head of Port Snettisham, 29 miles SE of Juneau, Coast Mountains; 58° 04' N, 133° 47' W; (map 12). Variant: Port Snettisham. Name derived from Speel River, published in 1951 on a USGS map.

Speel Glacier: glacier, heads in British Columbia at 58° 22' N, 133° 22' W, trends SW 12 miles to Speel River, 34 miles E of Juneau, Coast Mountains; 58° 18' 15" N, 133° 29' 15" W; (map 12). Name derived from Speel River, published in 1951 on a USGS map.

Speel Lake: lake, see Indian Lake.

Speel Point: point of land, on E bank of Speel River, 28 miles SE of Juneau, Coast Mountains; 58° 08' 05" N, 133° 42' 55" W; (map 12). Named in 1888 by Lt. Comdr. C. M. Thomas, USN.

Speel River: locality, 2 miles SE of Speel Point and 30 miles SE of Juneau, Coast Mountains, 58° 06' 45" N, 133° 41' 00" W; (map 12). Name derived from Speel Point; published in 1943 by USC&GS. The Speel River post office was established here in 1920 but was discontinued in 1931 (Ricks, 1965, p. 60).

Speel River: stream, heads in Speel Glacier, flows SW 16 miles to Speel Arm 28 miles SE of Juneau, Coast Mountains; 58° 07' 40" N, 133° 43' 15" W; (map 12). Named in 1888 by Lt. Comdr. C. M. Thomas, USN.

Spein Mountain: mountain, 2,381 ft., 46 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 36' N, 160° 27' W; (map 59). Local name reported in 1955 by J. M. Hoare, USGS.

Spellman River: stream, see Kavik River.

Spenard, Lake: lake, 0.5 miles across, at head of Hood Canal, 3.1 miles SW of Anchorage, Cook Inlet Lowland; 61° 10' 42" N, 149° 56' 50" (map 69). Variant: Jeter Lake. Named for Joseph A. Spenard, 1879-1934, an early Anchorage settler and businessman who had a homestead on the shore of the lake. The Anchorage Times reported the name on August 24, 1916.

Spenard: city, pop. 9,074, between Anchorage and Anchorage International Airport, 3 miles SE of Point Woronzof, Cook Inlet Lowland; 61° 11' 18" N, 149° 55' 00" W; (map 69). Named for Joseph A. Spenard, 1879-1934, an early Anchorage settler and businessman who had a homestead on the shore of Lake Spenard. A post office, established here in 1949 but was discontinued in 1953 (Rick 1965, p. 60).

Spence Creek: stream, heads in lake, flows NY 5.5 miles to Muddy River, 2 miles NE of Lake Minchumina, Tanana Lowland; 63° 54' 30" N 152° 03' 40" W; (map 88). Local name reported in 1954 by USGS.

Spencer Creek: stream, flows SE to Klokerblok River, about 25 miles NE of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This stream cannot be precisely located on current maps.

Spencer Glacier: glacier, heads in Kenai Mountains, 6 miles S of Carpathian Peak, and trends NW 11 miles to S end of Placer River Valley, 20 miles SE of Sunrise, Chugach Mountains; 60° 42' N, 149° 02' W; (map 63). Variant: Placer River Glacier, Tebenkof Glacier. Named in 1909 by U. S. Grant and D. F. Higgins, USGS, for a Mr. Spencer, paymaster of the Alaska Central Railroad, who fell in a crevasse in the glacier in 1906 and whose body was never recovered.

Spencer Glacier: glacier, see Tebenkof Glacier.

Spencer, Cape: point of land, at mouth of Dicks Arms, on N shore of Cross Sound, 45 miles NW of Hoonah, St. Elias Mountains; 58° 12' 45" N, 136° 39' 30" W; BGN 1944; (map 10). Variant: Punta de Villaluenga. Named in 1794 by Capt. Vancouver, RN (1798, v. 3, p. 211), for Earl George John Spencer, 1758-1834, a member of the English House of Commons and First Lord of the Admiralty, 1794-1801. It was called "M[ys] Spenser" on Russian Hydrog. Dept. Chart 1378 in 1847. It is shown as "Punta de Villaluenga" on a general map in de Mofras' atlas published in 1845 (USC&GS, 1883, p. 185).

Spencer, Point: point of land, at N end of spit between Bearing Sea and Point Clarence, 14 miles W of Teller, Seward Peninsula Highlands; 65° 17' N, 166° 50' W; (map 3). Variant: Mys Spenser. Named in 1827 by Capt. Beechey (1831, p. 543), RN, for Capt. Robert Spencer, RN.

Spencer: locality, 58.8 miles on The Alaska RR in S end of Placer River Valley, 19 miles SE of Sunrise and 42 miles NE of Seward, Chugach Mountains; 60° 43' 40" N, 149° 01' 55" W (map 63). Listed as a flag stop in the 1913 Alaska Railroad guide. Recent USGS maps indicate only one building at this site.

Spenser, Mys: point of land, see Spencer, Point.

Sphinx Creek: stream, flows SE 8 miles to Tunulik River, 2.5 miles N of Goodnews, Kilbuk-Kuskokwim Mountains; 59° 09' 20" N, 161° 36' 00" W, (map 53). Local name reported in 1954 by USGS.

Sphinx Island: island, in Prince William Sound, 1 mile off SE coast of Ingot Island, 68 miles NE of Seward, Chugach Mountains; 63° 30' 00" N, 147° 34' 30" W; (map 63). Name published in 1910 by USC&GS.

Sphinx Mountain: mountain, 3,571 ft., in DeLong Mountains, 24 miles NNE of Misheguk Mountain, Brooks Range; 68° 34' 45" N, 160° 51' 00" W; BGN 1966; (map 131). So named by the B. P. Exploration Co. in 1965, because the mountain "when seen from the west looking east, bears a fanciful sphinx-like appearance."

Spicer Creek: stream, in Rampart Mountains, flows S 11 miles to Yukon River, 11 miles ENE of Tanana, Kokrines-Hodzana Highlands; 65° 12' N, 151° 43' W; (map 106). Name reported in 1899 by Cantwell (1902, p. 277), USRCS.

Spider Island: island, 0.3 miles long, in Glacier Bay National Monument, in Beardslee Islands, 3.6 miles E of Strawberry Island and 55 miles W of Juneau St. Elias Mountains, 58° 31' 20" N, 135° 53' 00" W, BGN 1948; (map 11). Named in 1939 by USC&GS.

Spier Creek: stream, flows NW 2 miles to Goldstream Creek, 15 miles NW of Fairbanks, Yukon-Tanana Highlands; 64° 53' 20" N, 148° 11' 20" W; (map 100). Named by prospectors; published in 1906 by USGS.

Spike Creek: stream, in De Long Mountains, flows NNE 13 miles, to Iligluruk Creek, 36 miles NW of Misheguk Mountain, Brooks Range; 68° 42' N, 161° 44' W; BGN 1961; (map 131). Variant: West Fork Iligluruk Creek. So named by USGS geologists in 1950 "because of several spike [temporary] camps located on its banks."

Spike Island: island, 0.2 miles long, in Orca Inlet, 0.3 miles W of Cordova, Chugach Mountains, 60° 33' N, 145° 46' W; (map 64). Local name reported by Moffit (1914, pl. 1), USGS.

Spike Mountain: mountain, 3,737 ft., 19 miles NE of Rabbit Mountain, and 46 miles NE of Coleen Mountain, Brooks Range; 67° 36' N, 141° 39' W (map 121). Local name for a prominent landmark reported in 1939 by FitzGerald (1944, p. 236), USGS.

Spike Rock: rock, in Wrangell Narrows at junction with Beecher Pass, 15 miles S of Petersburg, W coast of Mitkof Islands, Alexander Archipelago; 56° 35' 55" N 132° 58' 30" W; (map 6). Named in 1881 by USC&GS.

Spile Bay: estuary, see Pile Bay.

Spile River: stream, see Pile River.

Spinach Creek: railroad station, see Martin.

Spinach Creek: stream, flows SE 5 miles to Goldstream Creek, 15 miles NW of Fairbanks, Yukon-Tanana Highlands; 64° 54' 05" N, 148° 10' 20" W; (map 100). Named by prospectors; reported in 1908 by L. M. Prindle and F. J. Katz (in Brooks and others, 1909, pl. 8), USGS.

Spine Mountain: mountain, 2,400 ft., on Annette Island between Cove and Narrows Mountains; Alexander Archipelago; 55° 11' 30" N, 131° 28' 20" W; (map 3). Descriptive name given in 1883 by Lt. Comdr. H. E. Nichols, USN.

Spink Creek: stream, flows S through Spink Lake 10 miles to Chulitna River, 28 miles NW of Talkeetna, Cook Inlet Lowland; 62° 43' 50" N, 150° 15' 00" W; (map 81). Prospectors' name published in 1940 by USGS.

Spink Lake: lake, 1.3 miles long, in course of Spink Creek 3 miles N of its junction with Chulitna River, 31 miles N of Talkeetna, Alaska Range; 62° 46' 45" N, 150° 14' 05" W; (map 81). Prospectors' name published in 1940 by USGS.

Spiny Ridge: ridge, trends NE-SW 4 miles, in De Long Mountains, 9 miles NW of Wulik Peaks, 17 miles SW of Mount Kelly, Brooks Range; 68° 16' 30" N, 163° 55' 00" W [NE end], 68° 15' N, 164° 04' W [SW end]; BGN 1965; (map 130). Descriptive name proposed in 1965 by geologists of the B. P. Exploration Co., Inc.

Spiral Cove: cove, extends W 0.7 miles off Kasaan Bay, on E coast of Prince Wales Island, W of Patterson Island, Alexander Archipelago; 55° 22' 17" N, 132° 13' 48" W; BGN 1966; (map 4). Local name reported in 1961 by USFS.

Spiral Creek: stream, flows NE 1 mile to Kasaan Bay, on E coast of Prince of Wales Island, 35 miles E of Craig, Alexander Archipelago; 55° 22' 20" N, 132° 14' 15" W; (map 4). Local descriptive name published in 1920 by USC&GS.

Spire Island Reef: reef, extends 0.7 miles in Revillagigedo Channel, N of Spire Island, Alexander Archipelago; 55° 16' 10" N, 131° 30' 00" W; (map 3). Named published in 1901 by USC&GS.

Spire Island: island, 0.4 miles long, off N coast of Annette Island, in Revillagigedo Channel, Alexander Archipelago; 55° 15' 55" N, 131° 30' 15" W; (map 3). Named in 1882 by USC&GS.

Spire Rock: rock, on E shore of Eagle Bay, on S coast of Unalaska Island, Aleutian Islands; 53° 26' 35" N, 166° 55' 30" W; BGN 1939; (map 23). So named in 1937 by USC&GS because of "the shape of the rock."

Spiridon Bay: bay, extends SE 16 miles, off Uyak Bay, on NW coast of Kodiak Island; 57° 40' N, 153° 52' W; BGN 1931; (map 34). Local name reported in 1931 by USC&GS to be "Named after the Russian saint, St. Spiridon."

Spiridon Lake: lake, 6 miles long, N of Spiridon Bay, on NW coast of Kodiak Island; 57° 43' N, 153° 41' W; (map 34). Name derived from Spiridon Bay; published in 1952 by USGS.

Spirit Lake: lake, 0.8 miles long, in course of Fish Creek, E of Munsatli Ridge, 23 miles WSW of village of Lake Minchumina, Kuskokwim Lowland; 63° 41' 15" N, 152° 55' 00" W; (map 88). Local name obtained in 1958 from Fabian Carey and "Val" Blackburn by USGS.

Spirit Mountain: mountain, 7,287 ft., 3.4 miles SE of junction of Uralina River with Copper River, and 56 miles NE of Valdez, Chugach Mountains; 61° 19' 35" N, 144° 37' 30" W; (map

68). Named in 1885 by Lt. Allen (1887, p. 46), USA, because “Kawkus, the oldest of the coast natives, informed us that formerly much fire and smoke were emitted from the mountain, and that now terrific rumblings were at times heard, all the workings of a Mighty Spirit.”

Spirit Range: ridge, 6,600 ft., trends N 2 miles 2 miles E of Stronghold Peak and 33 miles N of Juneau, Coast Mountains; 58° 46' 30" N, 134° 14' 00" W; BGN 1965; (map 11). Named by members of the Juneau Icefield Research Project in 1964.

Spirkin Strait: water passage, see Udagak Strait.

Spirkin, Ostrov: island, see Sedanka Island.

Spirkine: island, see Sedanka Island.

Spit Point: point of land, on Revillagigedo Island, on S shore of Carroll Inlet, 5.8 miles NE of California Head, Alexander Archipelago; 55° 22' 35" N, 131° 21' 45" W; (map 3). Descriptive name given in 1891 by USC&GS.

Spit Point: point of land, see Split Point.

Spithead: point of land, E coast of Amaknak Island, in Unalaska Bay, Unalaska Island, Aleutian Islands; 53° 53' 54" N, 166° 30' 49" W; (map 23). Named in 1871 by W. H. Dall, USC&GS.

Spitover, The: channel, of Hodzana River, 15 miles NW of Beaver, Yukon Flats; 66° 28' 30" N, 147° 52' 00" W; (map 118). Descriptive name of a meander cutoff obtained in 1956 by USGS.

Spitz Island: island, 0.5 miles across, 1 mile S of Mitrofanina-Island, 32 miles E of Stepovak Bay, Aleutian Range; 55° 48' 30" N 158° 53' 00" W; (map 27). ' Named by Capt. Tebenkov (1852, map 24) in 1849 from the Russian word “spitsa,” which is derived from the German “spitze,” meaning “a pointed stick.”

Split Creek: stream, flows E 3 miles from Split Glacier to Okpilak River in Romanzof Mountains, Brooks Range; 69° 16' N, 144° 00' W; (map 139). Name published on a map by E. G. Sable, in USGS Open File report 810, 1965. Named for Split Glacier.

Split Creek: stream, flows N 3.5 miles to Bering Lake, 8 miles NE of Katalla, Chugach Mountains; 60° 17' N, 144° 20' W; (map 64). Name used by local prospectors “because the stream divides, one part flowing to Bering Lake and the other to the Katalla River,” reported in 1905 by G. C. Martin, USGS.

Split Creek: stream, flows NE 2.3 miles to Bear Creek, 24 miles N of Haycock, Seward Peninsula Highlands; 65° 33' N, 161° 05' W; (map 109). Local name shown on a 1903 fieldsheet by D. C. Witherspoon, USGS.

Split Creek: stream, heads at Canyon Glacier, flows S 4.5 miles to Alsek River, 4.6 miles NE of Dry Bay and 50 miles SE of Yakutat, St. Elias Mountains; 59° 12' 00" N, 138° 28' 15" W;

(map 46). Descriptive name published in 1959 by USGS. So called because of its braided condition.

Split Glacier: glacier, trends NE 3 miles to head of Split Creek, in Romanzof Mountains, 5 miles S of Mount Michelson, Brooks Range; 69° 15' N, 144° 07' W; (map 139). Name published on a map by E. G. Sable, in USGS Open File Report 810, 1965. So named because the foot of the glacier is split or bifurcated.

Split Glacier: glacier, trends S 1.5 miles from unnamed ice field in Kenai Mountains to an unnamed stream 3 miles N of North Arm Nuka Bay, 38 miles E of Homer, Chugach Mountains; 59° 38' 30" N, 150° 28' 00" W; BGN 1929; (map 50). Descriptive name given by Grant and Higgins (1913, pl. 2), USGS, and so named "because a huge rock splits or divides this glacier."

Split Island: island, 0.1 miles long, in Clarence Strait, 0.8 miles S of Kelp Point, W coast of Etolin Island, Alexander Archipelago; 55° 57' N, 132° 27' W; (map 4) Descriptive name given in 1886 by Lt. Comdr. A. S. Snow, USN.

Split Point: point of land, between Middle and South Arms of Three Arm Bay, on W coast Adak Island, Aleutian Islands; 51° 44' 28" N, 176° 51' 00" W; BGN 1936; (map 17). Variant: Spit Point. Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934, "because it separates the South Arm from the Middle Arm of Three Arm Bay."

Split Rock: rock, in Bering Sea, 1 mile SW of St. Matthew Island and 6.5 miles NW of Sugarloaf Mountain; 60° 22' N, 172° 46' W; (map 56). Descriptive name published in 1874 by USC&GS on Chart 891.

Split Thumb Icefall: icefall, at head of Middle Branch Morris Glacier, 1.5 miles E of Split Thumb and 10 miles NE of Juneau, Coast Mountains; 58° 24' 30" N, 134° 16' 30" W; (map 11). Local mountaineering name reported in 1965 by D. A. Brew and A. B. Ford, USGS.

Split Thumb: peak, 5,523 ft., 2 miles SE of Nugget Mountain and 9 miles NE of Juneau, Coast Mountains; 58° 24' 25" N, 134° 18' 35" W; (map 11). Local name published in 1951 by USGS.

Split Tip Island: island, see Megotsol Island.

Split Top Mountain: mountain, 1,851 ft., E shore of Unalaska Bay, NE coast of Unalaska Island, Aleutian Islands; 53° 55' 59" N 166° 25' 44" W; (map 23). Descriptive name given in 1871 by W. H. Dall, USC&GS.

Split Top: mountain, 2,010 ft., on SW coast of Adak Island, Aleutian Islands, 51° 42' 30" N, 176° 45' 00" W; (map 17). Descriptive name given by Lt. William Gibson, USN, commander of the schooner Fenimore Cooper, during the North Pacific Exploring Expedition in 1855.

Splitrock Point: point of land, on SE shore of Olga Bay, 35 miles SE of Karluk, on SW part of Kodiak Island; 57° 06' 18" N, 154° 05' 30" W; (map 35). Descriptive local name published in 1943 by USC&GS.

Splits, The: beach, 3 miles long, in Salcha River, between North and South Forks Salcha River, 36 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 39' N, 145° 24' W; (map 101). A reach having a braided pattern; reported in 1904 by D. C. Witherspoon (in Prindle, 1913a, pl. 1), USGS.

Spokane Cove: bay, 1 mile across, in Glacier Bay National Monument, on E side of Glacier Bay, 20 miles NW of Gustavus, St. Elias Mountains; 58° 41' 45" N, 135° 58' 00" W; BGN 1963; (map 11). Named in 1942 by USC&GS for the excursion steamer SS Spokane. After the great Yakutat Earthquake of 1899, excursion steamers had not been able to get to the vicinity of the Muir Glacier. In 1907, however, the SS Spokane succeeded for the first time in approaching to within one mile of the face of the glacier.

Spokane Creek: stream, on Kenai Peninsula, flows NW 1.5 miles to Granite Creek, 2 miles SW of Whittier, Chugach Mountains; 60° 44' 30" N, 149° 15' 30" W; (map 63). Local name reported in 1909 by Grant and Higgins (1913, pl. 1), USGS.

Spook Island: island, 0.6 miles long, in South Pass, 0.5 miles W of Hydaburg, on W coast of Prince of Wales Island, Alexander Archipelago; 55° 12' 15" N, 132° 50' 35" W; (map 41). Local name published in 1965 by USC&GS.

Spooky Valley: valley, in Ray Mountains, extends 4.5 miles across headwaters of Kobuk Creek, 9 miles WNW of Mount Tozi and 45 miles NNE of Tanana, Kokrines-Hodzana Highlands; 65° 43' N, 151° 16' W; (map 106). Local name reported in 1956 by Orth: so named because of the weird rock formations there.

Spoon Fish Lake: lake, 1 mile long, 4 miles N of Titus Mountain and 19 miles NE of Arctic Village, Brooks Range; 68° 17' N, 144° 55' W; (map 136). Local name reported in 1956 by R. C. Foley, USGS.

Spoon Glacier: glacier, on Resurrection Peninsula, trends E 1 mile to its terminus. 8 miles SE of Seward, Chugach Mountains; 60° 01' 15" N, 149° 16' 05" W; BGN 1911; (map 63). Named in 1908 by Grant and Higgins (1913, p. 55), USGS. So named "on account of its smooth, glassy, round front, which reminds one approaching from below of the inverted end of a huge spoon."

Spooner: locality, at junction of Noxapaga and Kuzitrin Rivers, 32 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 23' N, 164° 13' W; (map 110). Site of a mining camp established about 1901 at the beginning of gold mining in the region: reported that year by T. G. Gerdine (in Collier, 1902, pl. 12), USGS. The Spooner Post Office was established in 1902 and discontinued in 1903 (Ricks, 1965, p. 60). By 1906, the name was left off maps.

Sportfish Lake: lake, 1 mile long, on Kenai Peninsula NW of Barabara Lake, 27 miles SSW of Anchorage, Cook Inlet Lowland; 60° 51' 30" N, 150° 17, 00" W; BGN 1965; (map 62). Variant: Fish Lake, Hinchey Lake, One Island Lake. Named about 1963 by officials of Kenai National Moose Range, because it "has a good population of sport fish * * * and the name * * * is more compatible [than Hinchey Lake] with a recreational area."

Spot Mountain: mountain, 1,755 ft, on E coast of Gravina Island, 1.6 miles W of Blank Point, Alexander Archipelago; 55° 15' 35" N, 131° 42' 35" W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Spotted Glacier: glacier, heads on Mount Douglas, in Katmai National Monument, trends N 8 miles to its terminus, 24 miles S of Augustine Island, Aleutian Range; 58° 58' N, 153° 28' W; (map 43). Descriptive name published in 1926 on a USGS map.

Spray Cape: point of land, W coast of Unalaska Island, Aleutian Islands; 53° 36' 50" N, 167° 09' 20" W; (map 23). Variant: Cape Mokrovskoi, Cape Morkovskoi, Mys Mokrovskoy. Named by USBF in 1888. This cape was called "Mys Mokrovskoy" meaning "wet cape" by Capt. Sarichev (1826, map 14, dated 1792), IRN.

Spray Creek: stream, flows SW 3 miles to Maclaren River, 0.8 miles S of Maclaren Glacier terminus and 25 miles SE of Mount Hayes. Alaska Range; 63° 16' 30" N, 146° 31' 00" W; (map 86). Name published on relatively recent maps.

Spray Island: island, 5 miles long, in Thomas Bay, 1 mile E of Ruth Island, and 15 miles NE of Petersburg, Coast Mountains; 57° 00' 00" N, 132° 47' 35" W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for charting purposes; published in 1888 on USC&GS Chart 705.

Spring Camp Lake: lake, 3 miles long, drains N to Fish Creek, 1.5 miles WSW of Fish Lake and 22 miles SE of Tanana, Nowitna Lowland; 65° 01' 30" N, 151° 23' 00" W; (map 106). Local name reported in 1952 by USGS.

Spring Cove: cove, 0.3 miles across, 2.3 miles SE of Dark Cove, on SW coast of Kiska Island, Aleutian Islands; 51° 51' 40" N, 177° 16' 15" E; (map 14) One of many arbitrary names applied to features on Kiska Island by USAAF for tactical purposes during World War II.

Spring Creek: stream, anabranch of Rabbit Slough, flows W 4.3 miles to join Rabbit Slough to form Palmer Slough, 7 miles SW of Palmer, Cook Inlet Lowland; 61° 32' N, 149° 16' W; (map 69). Local name reported in 1951 by USGS.

Spring Creek: stream, flows E 5 miles to Marsh Creek at Otter Bight, N of Fort Glenn, NE coast of Umnak Island, Aleutian Islands; 53° 25' 40" N, 167° 51' 30" W; (map 23). Name reported in 1942 as Reindeer Creek by U.S. Army Corps of Engineers and published as Spring Creek by USGS (Byers, 1959 pl. 41).

Spring Creek: stream, flows S 0.2 miles to N tip of Karluk Lake, in E part of Kodiak Island, 16 miles SE of Karluk; 57° 26' 35" N, 154° 05' 50" W; (map 35). Name published in 1957 on an AMS map.

Spring Creek: stream, flows S 18 miles to Gakona River, 19 miles NW of Chistochina, Copper River Basin; 62° 37' N, 145° 15' W; (map 83). Local name reported by USGS in 1950.

Spring Creek: stream, flows SE 18 miles to Junjik River, 4.5 miles SE of Little Njoo Mountain and 22 miles NW of Arctic Village, Brooks Range; 68° 25' N, 145° 57' W; (map 136). Local name reported in 1956 by R. C. Foley, USGS.

Spring Creek: stream, flows SW 8 miles to Sweepstakes Creek, 9 miles NW of Haycock, Seward Peninsula Highlands; 65° 20' N, 161° 16' W; (map 109). Local name reported in 1917 by G. L. Harrington, USGS.

Spring Creek: stream, flows W 3 miles to Wild Lake, 9 miles N of junction of Flat Creek and Wild River, Brooks Range; 67° 31' 10" N, 151° 32' 15" W; (map 124). Local descriptive name obtained in 1909 by A. G. Maddren, USGS.

Spring Creek: stream, heads at glacier in Tordrillo Mountains, flows NE 17 miles to Hayes River, 64 miles NW of Tyonek, Alaska Range; 61° 53' 45" N, 152° 03' 50" W; (map 70). Local descriptive name reported in 1958 by USGS.

Spring Creek: stream, on Cleveland Peninsula, flows NE 2.5 miles to Lake Shelokum, Alexander Archipelago; 55° 59' 15" N, 131° 39' 28" W; (map 3) Local name recorded in 1916 by Waring (1917, fig. I), USGS; derived from Bailey Bay Hot Springs.

Spring Creek: stream, see Bull Creek.

Spring Gulch: ravine, tributary to Gold Creek, about 2 miles W of Juneau, Coast Mountains; 58° 18' N, 134° 20" W; (map 11). Miners' name for a gulch subsequently destroyed by mining operations (DeArmond 1957, p. 22).

Spring Lake: lake, 1,000 ft. long, 1,300 ft. SW of Sixmile Lake and 5 miles NE of Anchorage, Cook Inlet Lowland; 61° 17' N, 149° 49' W; (map 69). Local name reported in 1942 by AMS.

Spring Lakes: lakes, group of lakes, at NE entrance to Chinitna Bay, 48 miles NW of Homer, Aleutian Range; 59° 53' 30" N, 152° 51' 00" W (map 50). Local name reported and published by USGS in the 1950's.

Spring Point: point of land, on W shore of Cook Inlet, 48 miles NW of Homer, Aleutian Range; 59° 52' 45" N, 152° 48' 15" W; (map 50). Local name reported and published by USGS in the 1950's.

Spring Water Lakes: lakes, four, largest 800 ft. across, 0.3 miles N of Tyonek, Cook Inlet Lowland; 61° 04' 20" N, 151° 08' 25" W; (map 70). This group of lakes was reported by USGS on a map published in 1958.

Springs Mountain: hill, see Kliuchef, Mount.

Springway Creek: stream, flows S 7 miles to Mulchatna River, 14 miles NW of Tutna Lake and 45 miles NW of Nondalton, Lime Hills; 60° 28' 30" N, 155° 44' 00" W; (map 61). Local name reported in 1950 by USC&GS.

Spruce Cape: point of land, between Mill Bay and Woody Island Channel, 3.5 miles NE of Kodiak, Kodiak Island; 57° 49' 15" N, 152° 20' 00" W; (map 34). Variant: Elovoy Cape, Elovoy Vneshnie Cape, Mys Yelovoy Vneshney. Name derived from Spruce Island and published as "M[ys] Yelovoy Vneshney," meaning "outer spruce cape," by Sarichev (1826, map 16).

Spruce Cape: point of land, see Uzinki Point.

Spruce Creek: stream, at S end of Kantishna Hills, flows SSE 4 miles to North Fork Moose Creek, 7.5 miles ENE of Wonder Lake, Alaska Range; 63° 31' 35" N, 150° 40' 00" W; (map 88). Local name shown on a 1916 fieldsheet by C. E. Giffin, USGS.

Spruce Creek: stream, flows N 2 miles to Little Eldorado Creek, 16 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 04' 50" N, 147° 35' 00" W; (map 105). Named by prospectors, published in 1908 by USGS.

Spruce Creek: stream, flows NE 2 miles to Hunter Creek, 35 miles NW of Haycock, Seward Peninsula Highlands; 65° 42' N, 161° 25' W; (map 109). Local name reported in 1908 by USGS (Brooks and others, 1909, fig. 21).

Spruce Creek: stream, flows NE 3.5 miles to Rex Creek, 50 miles SE of Nenana, Alaska Range; 64° 06' 25" N, 148° 49' 30" W; (map 100). Local name reported in 1950 by USGS topographers.

Spruce Creek: stream, flows NE 4 miles to Sulatna River, 2.8 miles SE of Sulatna Crossing and 2.5 miles W of Tamarack Bluff, Kilbuck-Kuskokwim Mountains; 64° 10' 12" N, 155° 24' 45" W; (map 98). Prospectors' name reported in 1913 by Eakin (1914, pl. 3), USGS.

Spruce Creek: stream, flows NE 6.4 miles to Innoko River, 1.7 miles SE of Ophir, 30 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 07' 40" N, 156° 28' 20" W; (map 90). Prospectors' name obtained in 1908 by Maddren (1910, pl. 1), USGS.

Spruce Creek: stream, flows NE 7.8 miles to join Circle Creek to form Holtz Creek in Kugruk River Basin, 19 miles E of Imuruk Lake, Seward Peninsula Highlands; 65° 33' N, 162° 32' W; (map 110). Prospectors' name reported in 1903 by D. C. Witherspoon (in Moffit, 1905, pl. 2), USGS.

Spruce Creek: stream, flows NW 3 miles to Casadepaga River, 23 miles NE of Solomon, Seward Peninsula Highlands; 64° 53' N, 164° 13' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Spruce Creek: stream, flows NW 7 miles to Norton Sound, 4.9 miles NE of Tolstoi Point and 14 miles SW of Unalakleet, Nulato Hills; 63° 40' 15" N, 160° 53' 20" W; (map 91). Local name reported in 1952 by USC&GS; so named because of "the growth of scrub spruce pine in the ravine through which the stream runs."

Spruce Creek: stream, flows S 1.9 miles to Bear Creek, 5.4 miles NE of Nyac and 38 miles SW of Aniak, Kilbuck-Kuskokwim Mountains; 61° 02' 35" N, 159° 48' 00" W; (map 73). Prospectors' name shown on a 1914 fieldsheet by A. G. Maddren, USGS.

Spruce Creek: stream, flows S 4.5 miles to Tozimoran Creek, 22 miles NW of Tanana, Kokrines-Hodzana Highlands; 65° 24' N, 152° 38' W; (map 106). Prospectors' name reported in 1956 by R. M. Chapman, USGS.

Spruce Creek: stream, flows SE 2 miles to Klokerblok River, 22 miles NE of Solomon, Seward Peninsula Highlands; 64° 40' 30" N, 163° 44' 45" W; (map 95) Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Spruce Creek: stream, flows SW 1 mile to Eldorado Creek which flows to Norton Sound, N of Basin Creek, 22 miles E of Solomon, Seward Peninsula Highlands; 64° 36' N, 163° 44' W; (map 95). Prospectors' name shown on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904. This feature cannot be precisely located on current maps.

Spruce Creek: stream, flows SW 1.5 miles to Minook Creek, 9 miles S of Rampart, Yukon-Tanana Highlands; 65° 22' 30" N, 150° 07' 30" W; (map 106). Prospectors' name reported in 1931 by J. B. Mertie, USGS.

Spruce Creek: stream, flows SW 8 miles to Peluk Creek, 46 miles NW of Nome, Seward Peninsula Highlands; 64° 58' N, 166° 32' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Spruce Creek: stream, flows W 12.5 miles to Wilson Creek Slough, 5 miles S of Marshall, Yukon-Kuskokwim Delta; 61° 48' 20" N, 162° 02' 10" W; (map 74). Miners' name published by Harrington (1918, p. 63), USGS.

Spruce Creek: stream, heads in Peters Hills, flows SW 3.1 miles to Cache Creek, S of Fox Gulch, 30 miles NW of Talkeetna, Alaska Range; 62° 25' 25" N, 151° 01' 40" W; (map 81). Prospectors' name obtained in 1906 by R. W. Porter, USGS.

Spruce Creek: stream, heads on W side of Bear Mountain, flows S 2 miles, then NE 3 miles, to Resurrection Bay, 1.5 miles S of Seward, Chugach Mountains; 60° 04' 30" N, 149° 26' 30" W; (map 63). Local name reported in 1951 by USGS.

Spruce Creek: stream, in Baird Mountains, flows SW 11 miles to Timber Creek 11 miles N of its junction with Squirrel River, 22 miles NW of Kiana Brooks Range; 67° 16' 15" N, 160° 42' 30" W; (map 127). Prospectors' name; reported in 1910 by P. S. Smith, USGS.

Spruce Creek: stream, on Hawkins Island, flows NW 1.5 miles to Cedar Bay, 9 miles W of Cordova, Chugach Mountains; 60° 33' 20" N, 146° 00' 00" W; (map 64). Name published in 1950 by USGS.

Spruce Creek: stream, see Cache Creek.

Spruce Creek: stream, see Sheep Creek.

Spruce Island: island, 0.3 miles long, in Frederick Sound, 2 miles off SE coast of Admiralty Island Alexander Archipelago; 57° 12' 45" N, 134° 05' 00" W; BGN 1910; (map 9). Variant: Ostrov Yelovyy, Yelowy Island, Yellowy Island. An 1882 translation by USC&GS of the name given in 1838 by Capt. Lt. D. F. Zarembo; published in 1848 on Russian Hydrog. Dept. Chart 1396 as "Os[trov] Yelovyy."

Spruce Island: island, 7 miles long, NNE of Kodiak Island, 8 miles N of Kodiak; 57° 55' N, 152° 25' W; (map 34). Variant: Elow Island, Elovoi Island, Jellowa Island, Ostrov Yelovoi,

Pine Island, Yelovoi Island. The name "Ostrov Yelovoi," or "Pine Island," was recorded in 1805 by Lisianski (1814, map facing p. 169).

Spruce Island: island, see Elovoi Island.

Spruce Knob: peak, 2,300 ft., spur of Zane Hills, 47 miles WNW of Hughes, Hogatza Highlands; 66° 14' N, 155° 52' W; (map 116). Named by mining engineers about 1940.

Spruce Lake: lake, 0.5 miles long, between Halfway Lake and Lake Long, 8 miles SE of Talkeetna, Cook Inlet Lowland; 62° 12' 35" N, 150° 01' 30" W; (map 81). Local descriptive name reported in 1958 by USGS.

Spruce Lake: lake, 1 mile across, 51 miles NE of Medfra, Kuskokwim Lowland; 63° 33' N, 153° 24' W; (map 89). Local name reported in 1958 by USGS.

Spruce Lake: lake, 1 mile long, on Kenai Peninsula, 1 mile N of Rock Lake and 23 miles NE of Kenai, Cook Inlet Lowland; 60° 41' 15" N, 150° 38' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Spruce Peak: peak, 4,753 ft., in Kantishna Hills, 8 miles NE of Wonder Lake, Alaska Range; 63° 35' N, 150° 42' W; (map 88). Name shown on a 1916 fieldsheet by C. E. Giffin, USGS.

Spruce Point: point of land, at junction of Nizina and Chitistone Rivers, 12 miles E of McCarthy, Wrangell Mountains; 61° 25' N, 142° 36' W; (map 67). Local name obtained by USGS and published on maps since 1954.

Spruce Point: point of land, on W coast of Mitkof Island, in Wrangell Narrows, 13 miles S of Petersburg, Alexander Archipelago; 56° 37' 50" N, 132° 56' 30" W; (map 6). Variant: Point Schroeder, Schroeder Point, Yelovyy. Name published by USC&GS in the 1883 Coast Pilot (p. 114); translated from the Russian "Yelovyy" given in 1838 by G. Lindenberg. Feature was named "Point Schroeder" in 1869 by Comdr. R. W. Meade, USN, for Lt. Seaton Schroeder, USN.

Spruce Point: point of land, see Uzinki Point.

Spruce Strait: water passage, see Narrow Strait.

Spruce Tree Point: point of land, on S tip of Big Eightmile Island, in Yukon River, 47 miles SW of Nulato, Nulato Hills; 64° 05' 30" N, 158° 48' 00" W; (map 97). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the U.S. Dept. of Interior.

Sprucefish Lake: lake, 1.5 miles long, in course of Lonestar Creek, 24 miles SSW of village of Lake Minchumina, Kuskokwim Lowland; 63° 34' 15" N, 152° 42' 30" W; (map 88). Variant: Texas Star Lake, Tsemalukmena. This name is a translation of the Tanana Indian name "Tsemalukmena" reported in 1962 by USGS.

Spuhn Island: island, 1.2 miles long, off SW coast of Mendenhall Peninsula, in Fritz Cove, 2 miles W of Entrance Point and 9 miles NW of Juneau, Coast Mountains; 58° 20' 15" N, 134°

39' 30" W; (map 11). Variant: Mineral Island. Named in 1880 by Capt. L. A. Beardslee, USN, for Carl Spuhn, 1855-1927, of the Northwest Trading Company. He was born in Germany and came to Juneau soon after the town was founded in 1881 and operated the company's store, and engaged in mining. Later he moved to Killisnoo where he managed the herring fishery and reduction plant, and served as postmaster and commissioner (DeArmond, 1957, p. 40). The name was published by USC&GS in the 1883 Coast Pilot (p. 173).

Spuhn Point: point of land, on SW end of Spuhn Island, at N end of Gastineau Channel, 9 miles NW of Juneau, Coast Mountains; 58° 20' N, 134° 40' W; (map 11). Name published by USC&GS in the 1883 Coast Pilot (p. 173).

Spuhn Point: point of land, see Zimovia Point.

Spur Mountain Lake: lake, 1.5 miles long, 1 mile E of Spur Mountain, Coast Mountains; 56° 09' 20" N, 131° 04' 15" W; BGN 1966; (map 7). Named in 1966 by USGS.

Spur Mountain: mountain, 4,930 ft., 8.5 miles long, extends from East Bradfield River to Unuk River, N of Burroughs Bay, Coast Mountains; 56° 09' 25" N, 131° 05' 35" W; (map 7). Local name reported in 1955 by USGS.

Spurr, Mount: mountain, 11,100 ft., in Tordrillo Mountains, 40 miles NW of Tyonek, Alaska Range; 61° 18' N, 152° 15' W; (map 70). Variant: Hatay Mountain. Named in 1900 by A. H. Brooks, for Josiah Edward Spurr, 1870-1950, USGS, who led an expedition in the area in 1898.

Spurt Point Lake: lake, 2 miles long, trends N-S 2 miles N of Spurt Point, on Thomas Bay, 90 miles E of Sitka, Coast Mountains; 57° 04' 40" N, 132° 54' 15" W; (map 8). Local name reported in 1961 by USGS.

Spurt Point: point of land, on W shore of Thomas Bay, 2 miles NW of Ruth Island and 98 miles E of Sitka, Coast Mountains; 57° 01' 30" N, 132° 53' 30" W; (map 8). Named in 1887 by Lt. Comdr. C. 1d Thomas, USN; name published in 1888 by USC&GS.

Spy Islands: barrier islands, 3.5 miles long, one of Jones Islands, on Beaufort Sea coast, 3.5 miles N of Oliktok Point, 15 miles NW of Beechey Point Arctic Plain; 70° 34' N, 149 50' W; (map 150). There were "two or three closely connected sand islands," when Leffingwell (1919, p. 99) named them, "after the schooner Spy, which went inside them about 1881."

Squab Island: island, 0.2 miles long, at N end of Aialik Bay, 16 miles SW of Seward, Chugach Mountains; 59° 56' N, 149° 43' W; BGN 1911; (map 49). Named in 1909 by U. S. Grant, USGS.

Square Bluff: promontory, 1 mile SE of Bird Cape, on Bering Sea coast of Amchitka Island Aleutian Islands; 51° 39' 15" N, 178° 40' 50" E, BGN 1937; (map 15). Named by the U.S. Navy North Pacific Exploring Expedition in 1855.

Square Cove: cove, 0.2 miles across, on W coast of Admiralty Island, 33 miles N of Angoon, Alexander Archipelago; 57° 58' 40" N, 134° 45' 45" W; (map 9) Descriptive name given in

1880 by M. Baker, USC&GS; published in 1883 Coast Pilot (p. 179). So named because the head of the cove is square in shape.

Square Island: island, 1 mile across, in Spacious Bay on NE coast of Cleveland Peninsula, Alexander Archipelago; 55° 51' N, 131° 50' W; (map 3). Descriptive name given in 1891 b' USC&GS.

Square Island: island, 600 ft. long, between Kaigani and Tlevak Straits, 2 miles E of Rose Point, on E coast of Dall Island, Alexander Archipelago; 54° 58' 15' N, 132° 53' 30" W; (map 1). Descriptive name given in 1881 by Lt. Comdr. H. E. Nichols, USN.

Square Lake: lake, 0.5 miles across, 5 miles E of Christian' Brooks Range; 67° 22' N, 145° 01, W; (map 122). Local name reported in 1956 by T. E. Taylor, USGS.

Square Lake: lake, 0.6 miles long, 2 miles NE of junction of Little Oshetna and Oshetna Rivers, 17 miles S of Susitna River, Talkeetna Mountains; 62° 24' N, 147° 28' W; BGN 1960; (map 82) Local descriptive name reported in 1956 by USGS.

Square Lake: lake, 0.8 miles across, 30 miles SE of Bitzshtini Mountains, Tanana Lowland; 64° 11' N, 151° 13' W; (map 99). Local descriptive name reported in 1952 by USGS.

Square Lake: lake, 0.8 miles long, 4 miles S of Ustay Lake, and 42 miles SE of Yakutat, Malaspina Coastal Plain; 59° 14' 10" N, 138° 43' 15" W; BGN 1966; (map 46). Local descriptive name reported in 1966 by USFS.

Square Lake: lake, 1 mile across, E of Key Creek, 30 miles NW of Umiat, Arctic Plain; 69° 35' N, 153° 15' W; BGN 1960; (map 142). Descriptive name given in the 1940's by geologists on the Naval Petroleum Reserve No. 4 exploration.

Square Point: point of land, 0.8 miles NW of Matthews Mountain, on E coast of Attu Island, Aleutian Islands; 52° 51' 45" N, 173° 20' 20" E; BGN 1945; (map 13). Descriptive name listed in the 1944 Aleutian Coast Pilot.

Square Rock: rock, in Norton Sound, 4 miles E of village of Bluff and 25 miles E of Solomon, Seward Peninsula Highlands; 64° 34' N, 163° 37' W; (map 95) Local name reported about 1940 by USC&GS and published on Chart 9380.

Squarehead Cove: cove, 1.5 miles across, on N shore of Tuxedni Bay, 53 miles SW of Kenai, Aleutian Range; 60° 14' N, 152° 40' W; (map 62). Local name reported in 1958 by USGS.

Squashinski Bay: sound, see Nakwasina Sound.

Squaw Bay: estuary, trends SW 2.5 miles to SE end of Esther Passage, 29 miles NE of Whittier, Chugach Mountains; 60° 49' 15" N, 147° 50' 30" W; (map 63). Name published in 1943 by USC&GS.

Squaw Creek: stream, between Ray and Rampart Mountains, flows SE 23 miles to Yukon River, 1 mile N of Rampart and 61 miles ENE of Tanana, Kokrines-Hodzana Highlands; 65°

31' 00" N, 150° 09' 30" W; (map 106). Local name shown on Edwards Track Chart of the Yukon River, dated 1899.

Squaw Creek: stream, flows NE 3.5 miles to Victoria Creek, 78 miles W of Circle, Yukon-Tanana Highlands; 65° 50' N, 146° 45' W; (map 104). Named by prospectors; published in 1906 by USGS.

Squaw Creek: stream, flows NE then NW 4 miles from Little Squaw Peak to Squaw Lake, 11 miles NE of Chandalar, Brooks Range; 67° 36' N, 148° 12' W; (map 123). Variant: Big Squaw Creek. Name reported in 1909 as "Big Squaw Creek" by A. G. Maddren, USGS.

Squaw Creek: stream, flows S 1.8 miles to Whale Passage, 2 miles NW of Thorne Island, Alexander Archipelago; 56° 07' 50" N, 133° 05' 15" W; (map 6). Local name recorded in 1949 by USC&GS.

Squaw Creek: stream, flows S 2.6 miles to Harrison Creek, 39 miles SW of Circle, Yukon-Tanana Highlands; 65° 22' 30" N, 144° 54' 00" W; BGN 1938; (map 104). Variant: Squaw Gulch. Originally named Squaw Gulch by prospectors; reported in 1896 by USGS (Spurr, 1898, pl. 50). However, the present name was reported in 1904 by D. C. Witherspoon, USGS.

Squaw Creek: stream, flows S 5 miles to Middle Fork Chulitna River, 45 miles SW of Healy, Alaska Range; 63° 14' N, 149° 18' W; (map 87). Local name obtained in 1951 by USGS.

Squaw Creek: stream, flows SE 2.1 miles to Kuskulana River, 33 miles NW of McCarthy, Wrangell Mountains; 61° 33' N, 143° 52' W; (map 67). Local name reported in 1901 by T. G. Gerdine (in Brooks and others, 1915, pl. 5), USGS.

Squaw Creek: stream, flows SE 4 miles to Tiekel River, 1.7 miles SW of Tiekel Cache and 37 miles NE of Valdez, Chugach Mountains; 61° 22' 00" N, 145° 16' 15" W; (map 68). Local name published in the 1950's by USGS.

Squaw Creek: stream, flows SW 11 miles to Caribou Creek, 54 miles NE of Palmer, Talkeetna Mountains; 61° 52' 20" N, 147° 35' 35" W; (map 69). Name used by local prospectors; reported in 1906 by T. G. Gerdine and R. H. Sargent, USGS.

Squaw Creek: stream, flows W 5.5 miles to South Fork Koyukuk River, 21 miles E of Bettles, Kokrines-Hodzana Highlands; 66° 55' N, 150° 56' W; (map 117). Named used by prospectors; reported in 1899 by F. C. Schrader and T. G. Gerdine, USGS.

Squaw Creek: stream, heads at glacier, flows E through Puntilla Lake 9 miles to Happy River, 84 miles SW of Talkeetna, Alaska Range; 62° 04' 10" N, 152° 40' 00" W; (map 81). Local name reported in 1945 by USGS.

Squaw Creek: stream, heads in lake and flows SE 5 miles to Nushagak River, 1.5 miles W of Dillingham, Bristol Bay Lowland; 59° 02' N, 158° 31' W; (map 52). Local name recorded in 1948 by USGS.

Squaw Creek: stream, heads in lake, flows E 5 miles to Kvichak River at Nakeen, 14 miles N of Naknek, Bristol Bay Lowland; 58° 56' 10" N, 157° 02' 15" W; (map 41). Local name reported in 1952 by USGS.

Squaw Creek: stream, see Kal Creek.

Squaw Crossing Slough: stream, flows N 3 miles from Tanana River at Squaw Point to Hay Slough, 9 miles SE of Tanana, Nowitna Lowland; 65° 08' 50" N, 151° 45' 30"; (map 106). Riverboat pilots' name shown on a 1940 Navigation Chart, Tanana-Yukon Rivers.

Squaw Crossing: stream, channel of Tanana River, flows W from Squaw Point toward Aeolian Hills, 10 miles SE of Tanana, Nowitna Lowland; 65° 05' 30" N, 151° 47' 00" W; (map 106). Riverboat pilots' name shown on a 1940 Navigation Chart, Tanana-Yukon Rivers.

Squaw Gulch: ravine, trends NE 4 miles to Canyon Creek, 45 miles S of Eagle, Yukon-Tanana Highlands; 64° 10' N, 141° 08' W; (map 102). Named by prospectors and reported in 1896 by Spurr (1898, pl. 46), USGS.

Squaw Gulch: stream, see Bottom Dollar Creek.

Squaw Gulch: stream, see Squaw Creek.

Squaw Harbor: bay, see Baralof Bay.

Squaw Harbor: village, pop. 45 (1950), on E coast of Unga Island, on N shore of Baralof Bay, in Shumagin Islands, Aleutian Range; 55° 14' 30" N, 160° 32' 55" W; BGN 1966; (map 28). Variant: Baralof Bay. Name published as "Baralof or Squaw Harbor" by Atwood (1911, p. 21), USGS. Squaw Harbor is shown on a 1953 USGS map as being located on the south coast of Unga Island, but USGS in 1966 reported the location given above.

Squaw Island: island, 1,300 ft. long, in Nizina River 11 miles NE of McCarthy, Wrangell Mountains; 61° 27' 00" N, 142° 36' 30" W; (map 67). Local name obtained by USGS and published on maps since 1954.

Squaw Lake: lake, 2.7 miles long, at mouth of Squaw Creek and head of Lake Creek, 11 miles NE of Chandalar, Brooks Range; 67° 37' N, 148° 11' W; (map 123). Local name published in 1951 by USGS.

Squaw Mountain: mountain, 2,575 ft., NE of Sakie Bay, on W coast of Dall Island, Alexander Archipelago; 55° 04' N, 133° 09' W; (map 4). Name published in 1924 by USC&GS.

Squaw Mountain: mountain, 4,715 ft., on Alaska-Canada boundary, 20 miles NNE of Eagle, Porcupine Plateau; 65° 03' 30" N, 141° 00' 30" W; (map 103). Named for IBC triangulation station Squaw placed on its summit in 1910; published by Mertie (1930, pl. 12), USGS.

Squaw Point: point of land, on E bank of Tanana River, 11 miles SE of Tanana, Nowitna Lowland; 65° 06' 30" N, 151° 45' 00" W; (map 106). Riverboat pilots' name shown on a 1940 Navigation Chart, Tanana-Yukon Rivers.

Squaw Rapids: rapids, in North Fork Koyukuk River, at mouth of Glacier River, 17 miles W of Wiseman, Brooks Range; 67° 19' 45" N, 150° 42' 00" W; (map 124). In reporting this name, Marshall (1956, p. 116) wrote, "Just below the mouth of Glacier River we battled Squaw Rapids, named after an Indian woman who drowned in its fury more than fifty years ago."

Squawgirl Creek: stream, see Chinitna River.

Squent River: stream, see Skwentna River.

Squentna River: stream, see Skwentna River.

Squid Bay: bay, 0.5 miles across, on SW coast of Yakobi Island, 21 miles NW of Chichagof, Alexander Archipelago; 57° 53' N, 136° 29' W; BGN 1928; (map 9) Named in 1926 by USC&GS and published in 1928 on Chart 8250.

Squire Island: island, 4 miles long, in Knight Island Passage, off SW end of Knight Island, 6 miles SE of Chenega, Chugach Mountains; 60° 14' 30" N, 147° 55' 30" W; BGN 1908; (map 63). Variant: Long Island. Name published in 1908 by USC&GS.

Squire Point: point of land, S end of Squire Island, Chugach Mountains; 60° 13' 25" N, 147° 56' 20" W; BGN 1929; (map 63). Name reported in 1929 by USC&GS.

Squirrel Bay: bay, trends W 1 mile to Prince of Wales Passage, at SW end of Evans Island, 20 miles S of Chenega, Chugach Mountains; 60° 00' 20" N, 148° 09' 30" W; BGN 1930; (map 63). Variant: Gopher Bay. So named in 1927 by a USC&GS party "because feature on topographic map bears likeness to head and paws of a squirrel."

Squirrel Cove: cove, 0.5 miles across, on NE coast of Kenai Peninsula, at SE end of Passage Canal, 7 miles NE of Whittier, Chugach Mountains; 60° 48' 20" N, 148° 28' 00" W; BGN 1915; (map 63). Name reported in 1914 by USC&GS.

Squirrel Creek: stream, flows E 1.5 miles to lake on S edge of Red Glacier, 7.5 miles N of Chinitna Bay and 55 miles NW of Homer, Aleutian Range; 59° 59' 30" N, 152° 56' 30" W; (map 50). Local name reported and published by USGS in the 1950's.

Squirrel Creek: stream, flows NE 0.5 miles, joins Wagner Gulch to form Mills Creek, 46 miles W of Talkeetna, Alaska Range; 62° 21' 25" N, 151° 32' 00" W; (map 81). Prospectors' name reported in 1911 by Capps (1913, fig. 7), USGS.

Squirrel Creek: stream, flows NE 16 miles to Tonsina River, 1 mile N of Tonsina and 53 miles NE of Valdez, Chugach Mountains; 61° 40' 05" N, 145° 10' 00" W; BGN 1932; (map 68). Local name reported in 1930 by USGS.

Squirrel Creek: stream, flows NW 1 mile to Casadepaga River, 14 miles N of Solomon, Seward Peninsula Highlands; 64° 46' N, 164° 28' W; (map 95). Variant: Dewey Creek. Prospectors' name reported on a 1902 prospectors' manuscript map. Reported as "Dewey" on a 1901 map of Cape Nome gold fields by David Fox, Jr.

Squirrel Creek: stream, flows NW 18 miles to Sucker River, 5 miles E of Fort Yukon, Yukon Flats; 66° 34' 30" N, 145° 05' 00" W; (map 119). Variant: Black River. Local name reported in 1909 by A. G. Maddren (in Brooks and others, 1910, pl. 7), USGS.

Squirrel Creek: stream, flows S 1.5 miles to Platinum Creek, 25 miles NE of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 55' 25" N, 161° 43' 30" W; BGN 1938; (map 39). Local name published in a 1933 U.S. Dept. Of Interior mining report.

Squirrel Creek: stream, flows SW 20 miles to Patsy Slough, 6 miles NE of Nulato, Koyukuk Lowland; 64° 46' N, 157° 56' W; (map 97). Local name reported in 1954 by USGS.

Squirrel Creek: stream, see Black River.

Squirrel Island: island, 1 mile long, in Prince William Sound, off W coast of Knight Island, in Knight Island Passage, 7 miles NE of Chenega, Chugach Mountains; 60° 20' 00" N, 147° 53' 45" W; (map 63). Local name published in 1910 by USC&GS.

Squirrel Point: point of land, near E end and on S shore of Iliamna Lake at the mouth of Pile Bay, 24 miles SE of Iliamna, Aleutian Range; 59° 40' 30" N, 154° 15' 00" W; (map 51). Name published by USGS in 1954.

Squirrel Point: point of land, on NE coast of Kenai Peninsula, 6.5 miles NE of Whittier, Chugach Mountains; 60° 48' 20" N, 148° 28' 30" W; BGN 1915; (map 63). Name reported in 1914 by USC&GS.

Squirrel River: stream, flows SE 72 miles to Kobuk River, 28 miles NW of Selawik, Hogatza Highlands; 66° 19' N, 160° 24' W; (map 114). Variant: Shee-gar-rik-puk, Sheeleelictok, Shee-lee-li-tok, Shu-shuk-to-ark. This is a translation of the Eskimo name "sikrikpak," for the hoary marmot, *Marmota caligata broweri*, or "sikrik," for the Parry ground squirrel, *Citellus parryii barrowensis* (Rausch, 1951, p. 178, 179). In 1884 Lt. Cantwell (in Healy, 1889, p. 55), USRCS, called it "Sheeleelictok or squirrel," and a year later he spelled the Eskimo name "Shee-gar-rik-puk" and "Shee-lee-lie-tok" (Healy, 1887, p. 47 and map). Lt. Stoney (1900, map), USN, called it "Squirrel or Shu-shuk-to-ark."

Squirrel River: stream, see Black River.

Srednaia Bay: bay, see Alimuda Bay.

Srednaia: bay, see Middle Bay.

Srednaya Bay: bay, see Alimuda Bay.

Sredney, Kamen: rock, see Middle Rock.

Sredney, Ostrov: island, see Middle Island.

Sredni Bight: bight, 1.9 miles across, 7 miles NE of Kiska Harbor, on NE coast of Kiska Island, Aleutian Islands; 52° 03' 40" N, 177° 38' 40" E; (map 14). Variant: Raven Bay, Soldier Bay. Russian name "Sredniy," meaning "middle," given in 1935 by the U.S. Navy Hydrog.

Office relative to nearby Sredni Point. "Soldier" and "Raven" are names applied by U.S. forces during World War II for tactical purposes.

Sredni Island: island, see Apple Islands.

Sredni Point: point of land, S of Sredni Bight, on NE coast of Kiska Island, Aleutian Islands; 52° 02' 48" N, 177° 38' 35" E; BGN 1937; (map 14). Russian name "Sredniy," meaning "middle," given in 1935 by the U.S. Navy Hydrog. Office.

Srednie Island: island, see Middle Island.

Srednie Point: point of land, see Middle Point.

Srednie Rock: rock, see Middle Rock.

Sredniy, Farvater: water passage, see Middle Channel.

Sredniy, Kamen: rock, see Midway Rock.

Sredniy, Mys: point of land, see Middle Point.

Sredniy, Mys: point of land, see Nome Cape.

Sredniy, Mys: point of land, see Seredni Point.

Srednyaya, Guba: bay, see Middle Bay.

Sshitnak: locality, see Chitnak.

Ssitkaje: glacier, see Davidson Glacier.

Sskoan: locality, see Sukkwan.

Stab Creek: stream, in Bendeleben Mountains, flows NE 3 miles to Pargon River, 32 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 11' N, 163° 41' W; (map 110). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Stachin River: stream, see Stikine River.

Stachine River: stream, see Stikine River.

Stachinski Strait: Water passage, see Stakine Strait.

Stachtan Nitada: area, "discovered by the Russians in 1730" applied to the region east of Bering Strait, that is Alaska; it means "great continent." See Wagner (1937, p. 517) and Thomas Jefferys 1775 chart of "North and South America including the Atlantic and Pacific oceans, etc."

Stack Island: island, 0.3 miles long, between Behm Canal and Moser Bay, off W coast of Revillagigedo Island, 16 miles N of Ketchikan, Alexander Archipelago; 55° 33' 40" N, 131° 41' 55" W; (map 3) Local navigators' name obtained in 1904 by H. C. Fassett, USBF; probably named for Capt. R. Stack [cna], a local seaman.

Stack Pup: stream, flows N 2 miles to Crooked Creek, 10 miles W of Central and 36 miles SW of Circle, Yukon-Tanana Highlands; 65° 33' 20" N 145° 09' 10" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Stadia Rock: rock, in Rocky Pass of Keku Strait 16 miles SE of Kake, on NE coast of Kuiu Island Alexander Archipelago; 56° 46' 40" N, 133° 43' 35" W BGN 1929; (map 6). Named in 1927 by USC&GS.

Stag Bay: estuary, on Chichagof Island, extends NW 4 miles to Lisianski Strait, 22 miles N of Chichagof, Alexander Archipelago; 57° 35' 45" N, 136° 21' 30" W; BGN 1908; (map 9). Variant: Deer Bay. Named in 1908 by USC&GS; published in 1908 Coast Pilot (p. 169). It was locally known as "Deer Bay."

Stag Island: island, 750 ft. long, in Behm Canal off S Coast of Smeaton Island, Coast Mountains; 55° 19' 10" N, 130° 56' 50" W; (map 3). Local name published in 1911 by USC&GS.

Stag Point: point of land, on N coast of Deer Island, at SW end of Aleutian Range; 54° 59' N, 162° 18' W; (map 25). Variant: North Cape. Named by H. Dall, USC&GS, and published on USC&GS Chart 806 in 1882. The USBF called this point North Cape in 1888.

Stag River: stream, on Chichagof Island, flows NW 4 miles to Stag Bay, 5 miles SW of Pelican and 18 miles N of Chichagof, Alexander Archipelago; 57° 53' 50" N, 136° 16' 30" W; BGN 1960; (map 9). Named in 1955 by D. L. Rossman, USGS, "for Stag Bay."

Staganuk: locality, see Sfaganuk.

Stagarok: village, see Clarks Point.

Stah-Keena River: stream, see Stikine River.

Stahkin River: stream, see Stikine River.

Staines River: Stream, tributary of Canning River, heads at 69° 52' 45" N, 146° 23' 45" W, and flows NE 20 miles to Lion Bay, Arctic Plain; 70° 08' 20" N, 145° 59' 45" W; (map 151). Variant: Sir T. Staines River. Named by Franklin (1828, map) in 1826; the name appeared on his map as "Sir T. Staines R." and was applied to either this stream or the West Canning River.

Staines River: stream, see Canning River.

Stair Mountain: mountain, 1,732 ft., 4.3 miles N of Cape Cleare, on Montague Island, 59 miles SE of Seward, Chugach Mountains; 59° 50' N, 147° 53' W; BGN 1931; (map 49).

Named by the 1927 USC&GS field party; suggested by the name of the triangulation station "Stair" on its summit.

Stairway Glacier: glacier, trends S 4 miles to Surprise Glacier, 49 miles SE of Anchorage, Chugach Mountains; 61° 03' 15" N, 148° 28' 05' W; (map 69). So named by members of the Harriman Alaska Expedition in 1899 because the glacier resembles a stairway.

Stairway Icefall: icefall, extends 4 miles S at head of Root Glacier, 15 miles N of McCarthy, Wrangell Mountains; BGN 1966; 61° 38' 00" N, 142° 53' 15" W; (map 67). Variant: Stairway to Heaven Icefall The name "Stairway to Heaven Icefall" was proposed in 1965 by USGS, but it was shortened by BGN.

Stairway to Heaven Icefall: icefall, see Stairway Icefall.

Stairway, The: glacier, see Surprise Glacier

Stake Island: island, in Yukon River, 3.5 miles SW of Nulato, Nulato Hills; 64° 41' N, 158° 13' W; (map 97). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by U.S. Dept. of Interior.

Stakeen River: stream, see Stikine River

Stakhin, Ryka: stream, see Stikine River.

Stakhinski Strait: water passage, see Stikine Strait.

Stakhinskiy, Proliv: water passage, see Stikine Strait.

Stalemate Bank: reef, extends W about 100 miles from Attu Island, Aleutian Islands; 53° 00' N, 171° 00' E; (map 13). Variant: Juan de Gama Bank. This bank was discovered by Comdr. L. V. Kielhorn, of the USGS cutter Chelan, while on patrol in the Bering Sea in 1936. The name was proposed by USGS in 1936 as "Juan de Gama Bank" in honor of the early Spanish navigator who was probably the first to sight the Aleutian Islands This name was not approved by the BGN pending further investigations as to the extent and definition of the feature. It was appropriately published as "Stalemate Bank" in 1954 Coast Pilot (p. 481).

Stampede Creek: stream, in Kantishna Hills flows NE 2.5 miles to Clearwater Fork 4 miles S of that stream's junction with Toklat River, Alaska Range; 63° 45' 35" N, 150° 19' 30" W; (map 88). Local name shown on a 1916 fieldsheet by C. E. Giffin, USGS.

Stamy, Mount: mountain, 4,685 ft., 8.4 miles SW of Mount Jette and 31 miles NE of Yakutat, St. Elias Mountains; 59° 56' 00" N, 139° 14' 30" W; (map 46). Named in 1905 by Tarr (1906, p. 145), USGS, for P. Stamy, one of the camp hands of Island C. Russell's party in 1891.

Standard Creek: railroad station, see Standard.

Standard Creek: stream, flows 2.3 miles W to Golconda Creek 5 miles NE of its junction with North Fork Bremner River and 34 miles SW of McCarthy, Chugach Mountains; 61° 00' N,

143° 28' W; (map 67). Local name reported in 1911 by D. C. Witherspoon (Moffit, 1914, pl. 1), USGS.

Standard Creek: stream, flows SE 7.5 miles to Goldstream Creek, 25 miles SW of Fairbanks, Yukon-Tanana Highlands; 64° 47' N, 148° 32' W; (map 100). Local name shown on a manuscript map of The Alaska Railroad in 1916.

Standard: railroad station, miles 439.5 on The Alaska Railroad, 25 miles SW of Fairbanks, Yukon-Tanana Highlands; 64° 47' N, 148° 32' W; (map 100). Variant: Standard Creek. Local name derived from Standard Creek listed in a timetable in 1922.

Standing Rock Lake: lake, 0.8 miles across, 2 miles E of Seward Passage and 42 miles SE of Wrangell, Alexander Archipelago; 56° 00' 15" N, 131° 54' 30" W; BGN 1923; (map 7). Local name reported in 1923 by USFS.

Staney Cone: mountain, 2,765 ft., on W coast of Prince of Wales Island, 12 miles N of Klawock, Alexander Archipelago; 55° 43' 45" N, 133° 09' 10" W; (map 4) Named in 1904 by E. F. Dickins, USC&GS. See Stanley Island.

Staney Creek: stream, flows W 5 miles to Lester River, on W coast of Prince of Wales Island, N of Twin Mountain, Alexander Archipelago; 55° 48' 55" N, 133° 07' 55" W; (map 4). Local name recorded in 1949 by USGS.

Staney Creek: stream, see Lester River.

Stanhope Island: island, 1 mile long, in Clarence Strait, on SW coast of Etolin Island, Alexander Archipelago; 56° 01' 30" N, 132° 36' 00" W; (map 6). Named in 1879 by W. H. Dall, USC&GS.

Stanhope, Point: point of land, S tip of Stanhope Island, on SW coast of Etolin Island, Alexander Archipelago; 56° 00' 50" N, 132° 36' 10" W; (map 6). Named on September 6, 1793, by Capt. George Vancouver, RN (Wagner, 1937, p. 417).

Staniukovich Mountain: mountain, 2,500 ft., between Port Moller and Herendeen Bay, on Alaska Peninsula, Aleutian Range; 55° 49' N, 160° 37' W; (map 28). Named by Atwood (1911, pl. 2), USGS.

Stanley Island: island, 0.4 miles long, in Tuxekan Passage, Alexander Archipelago; 55° 49' 10" N, 133° 11' 25" W; (map 4). Named in 1904 by E. F. Dickins, USC&GS, for "an Indian chief who once resided in Tuxekan Village."

Stanovoi Islet: island, see Kutkan Island.

Stanovoy, Ostrov: island, see Kutkan Island.

Stanstrom Creek: stream, see Paradise Creek.

Stanton Narrows: water passage, see Valdez Narrows.

Stanton Peak: peak, 4,265 ft., 5 miles NE of Farragut Bay and 88 miles E of Sitka, Coast Mountains; 57° 12' 38" N, 133° 03' 15" W; BGN 1934; (map 8) Named in 1887 by Lt. Comdr. C. M. Thomas, USN; probably for Edwin McMasters Stanton, 1814-69, statesman and Justice of the Supreme Court.

Star City: locality, see Star.

Star Creek: stream, flows NE 6.5 miles to South Fork Serpentine River, 6 miles N of Kougarok Mountain and 30 miles SE of Ear Mountain, Seward Peninsula Highlands; 65° 47' N, 165° 15' W; (map 111). Variant: Quartz Creek. Prospectors' name published in 1956 by USGS.

Star Creek: stream, flows NW 2.3 miles to Schlitz Creek which flows to Serpentine River, 7 miles NW of Midnight Mountain and 49 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 49' N, 164° 49' W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Star Creek: stream, flows SE 2 miles to Sunset Creek which flows to Grantley Harbor, 6 miles NE of Teller, Seward Peninsula Highlands; 65° 20' N, 166° 15' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Star Creek: stream, flows SE 3.6 miles to Pilgrim River 0.4 miles E of Salmon Lake and 29 miles NW of Solomon, Seward Peninsula Highlands; 64° 55' N, 164° 57' W; (map 95). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Star Creek: stream, flows SW 16 miles to Pargon River, 14 miles NE of Council and 38 miles S of Imuruk Lake, Seward Peninsula Highlands; 65° 01' N, 163° 19' W; (map 110). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Star Creek: stream, flows SW 2.9 miles to Sulatna River, 1.2 miles SE of Sulatna Crossing and 39 miles SE of Ruby, Kilbuck-Kuskokwim Mountains; 64° 11' 09" N, 155° 25' 30" W; (map 98). Prospectors' name reported in 1921 by USGS.

Star Creek: stream, flows W 2.5 miles to Bonanza River, 16 miles NW of Solomon, Seward Peninsula Highlands; 64° 45' N, 164° 45' W; (map 95). Variant: Burley Creek. Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Star Creek: stream, heads at glacier terminus, in Nutzotin Mountains, and flows S 4 miles to Notch Creek 7 miles NW of its junction with Cross Creek, 5 miles SE of Cooper Pass, Alaska Range; 62° 12' 45" N, 142° 22' 00" W; BGN 1941; (map 84). Local name reported by USGS in 1940.

Star Creek: stream, see Little Champion Creek.

Star Gulch: ravine, trends NW 1.5 miles to Discovery Fork, 9 miles S of Eagle, Yukon-Tanana Highlands; 64° 40' N, 141° 18' W; (map 102). Prospectors' name obtained in 1898 by E. C. Barnard, USGS.

Star Hill: hill, 700 ft., in NE part of Juneau, 0.3 miles E of Mount Maria, Coast Mountains; 58° 18' 20" N, 134° 24' 00" W; (map 11). Local name reported by R. N. DeArmond (1957, p. 32).

Star Lake: lake, 0.6 miles across, 7.2 miles E of junction of Nizina and Chitina Rivers, 7 miles S of McCarthy, Wrangell Mountains; BGN 1966; 61° 20' 15" N, 143° 01' 00" W; (map 67). Local name descriptive of five-pointed outline of the shoreline, reported in 1965 by L. A. Yehle, USGS.

Star Lake: lake, 1 mile long, on Kenai Peninsula near NW shore of Tustumena Lake, 20 miles S Kenai, Cook Inlet Lowland; 60° 17' N, 151° 09' W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Star Lake: lake, 1,600 ft. long, on Revillagigedo Island, near head of Thorne Arm, between Beaver and Granite Lakes, Alexander Archipelago; 55° 22' 58" N, 131° 10' 30" W; (map 3). Local name reported in 1901 by A. H. Brooks (1920b, pl. 2), USGS.

Star Rock: rock, at S end of Lisianski Strait, off S tip of Yakobi Island, 18 miles NW of Chichagof, Alexander Archipelago; 57° 49' 50" N, 136° 28' 00" W; (map 9) Name published in 1925 by USC&GS; published in 1925 Coast Pilot (p. 324).

Star Rock: rock, in Funter Bay, on Mansfield Peninsula, 0.3 miles S of Funter and 18 miles SW of Juneau, Alexander Archipelago; 58° 15' 05" N, 134° 53' 35" W; (map 11). Named in 1890 by Lt. Comdr. H. B. Mansfield, USN, and published by USC&GS in the 1891 Coast Pilot (p. 162).

Star Rocks: rocks, see Starr Rocks.

Star: locality, site of mining camp, on left bank of Yukon River, 11 miles N of Eagle, Yukon-Tanana Highlands; 64° 56' N, 141° 17' W; (map 102). Variant: Star City, Starr. Named by prospectors and reported as "Star City" in 1897 by Lt. W. P. Richardson, USA. A post office was maintained here from 1898 to 1902 (Ricks, 1965, p. 60).

Staraiia Gavan: bay, see Driftwood Bay.

Staraiia Selenie: locality, on right bank of Yukon River between Russian Mission and Devils Elbows; 61° 37' N, 161° 45' W; (map 73). This unidentified place is listed in the 1880 Census as having 55 inhabitants. It may be the old village referred to on Thirty-two Kazyga Slough (q.v.). It is a Russian name meaning "old village."

Staraya Artel: locality, see Staraya Artil.

Staraya Artel: rookery, see Staraya Artil Rookery.

Staraya Artil Rookery: rookery, near First Bluff, on N coast of St. George Island, in Pribilof Islands; 56° 36' 10" N, 169° 37' 30" W; (map 38). Variant: Staraya Artel, Starry Arteel, Tanogtu-ckan-Algaralogray. This seal rookery, called "Starry Ateel," by Elliott (1881, p. 59), has 500 ft. of sea-margin. The Aleut name, according to Putnam (1903, p. 1015), USC&GS, is

Tanogtuck'an-algaral'ogray [Tanagtakan-algarel'ogre] meaning "old village rookery." See Staraya Artil, locality, and Tanogtukan Lake.

Staraya Artil: locality, between High Bluffs and First Bluff, on N coast of St. George Island, in Pribilof Islands; 56° 36' 15" N, 169° 38' 30" W; (map 38). Variant: Old Settlement, Staraya Artel, Starry Ateel. Reported location of one of the first Russian settlements in the Pribilof Islands, founded in 1786. The name is derived from "staryy artel'nyy" meaning "old company (workmen's association) ," which was probably founded by the promyshlenniki (fur traders).

Staraya Bay: bay, 0.8 miles across, S coast of Unalaska Island, Aleutian Island; 53° 37' N, 166° 32' W; (map 23). Variant: Old Harbor. Russian name published as "Star Gavan" meaning "Old Harbor" by Capt. Tebenkov (1852, map 26), IRN. Baker (1906, p. 479) says that this name was probably erroneously applied to this location by Tebenkov and should have been applied to a small harbor near the northern entrance of Makushin Bay.

Starboard Cape: point of land, see Outer Right Cape.

Starfish Bluff: bluff, 700 ft., on right bank of Colville River 6 miles N of junction of Killik River, Arctic Slope; 69° 04' N, 153° 41' W; BGN 1949; (map 142). So named by USGS geologists "because of fossil starfish found in the rocks of this bluff."

Starichkof Bay: bay, see Skan Bay.

Starichkof Reef: reef, at mouth of Egg Bay, off N coast of Atka Island, Aleutian Islands; 52° 12' 30" N, 174° 30' 15" W; (map 18). Variant: Staritchkoff. Russian name published as "Staritchkoffile," meaning "old codger island," by Capt. Lutke (1836, p. 134), IRN.

Starichkof, Cape: point of land, 300 ft. wide, on W coast of Kenai Peninsula, 7.5 miles NNE of Anchor Point and 18 miles NW of Homer, Cook Inlet Lowland; 59° 53' N, 151° 48' W, (map 50). Variant: Staritschkow, Stuk Talj Chak, Stuk Talj Chin. This Russian name, "Staritschkow" or "Starichische," meaning "stout old man," appears to have been given about 1840 by Ilia G. Wosenesenski and published by Constantin Grewingk (1850, map 3). Wosenesenski also gives the Kenai Indian name as "Stuk Talji Chin" or "Chak."

Starichkof, Cape: point of land, S shore of Makushin Bay, on W coast of Unalaska Island, Aleutian Islands; 53° 41' 50" N, 167° 03' 00" W; (map 23). Variant: Cape Odd Fellows, Mys Starichkov. Russian name published by Capt. Tebenkov (1852, map 26), IRN as "M[ys] Starichkov" meaning "Old Fellow Cape." It was called "Cape Odd Fellows" by USBF in 1888, possibly due to a typographical error.

Starichkof: village, N end of Unalaska Island, Aleutian Islands; (map 23). Variant: Selo Akmagan. Russian name reported by Father Veniaminov (1840, v. I, p. 181) and published by Baker (1906, p. 597). It was called "S[elo] Akmagan" by Lt. Sarichev (1826, map 14), IRN. The name does not appear on modern maps.

Starichkov, Mys: point of land, see Starichkof, Cape.

Stariski Creek: stream, on Kenai Peninsula, flows W 23 miles to Cook Inlet at Cape Starichkof, 19 miles NW of Homer, Cook Inlet Lowland; 59° 53' N, 151° 48' W; (map 50).

Local name recorded in the 1950's by USGS; derived from the Russian word "staryy" meaning "old."

Staritchkoff: reef, see Starichkof Reef.

Staritschkow: point of land, see Starichkof, Cape.

Starling Cape: point of land, see Leontovich, Cape.

Starling Point: point of land, see Leontovich, Cape.

Starling: village, see Uzinki.

Starr Creek: stream, flows S 5 miles to Michigan Creek 1.6 miles NW of its junction with George River 39 miles N of Sleetmute, Kilbuck-Kuskokwim Mountains; 62° 14' 45" N, 157° 20' 40" W; (map 79) Local name obtained in 1945 by USGS topographers.

Starr Hill: area, in NE section of Juneau, Coast Mountains; 58° 18' 15" N, 134° 24' 25" W; (map 11). Named for Frank Starr, 1849-98 Born in Maine, he came to Alaska in 1874. He lived first in Sitka and moved to Juneau where he built the first wharf and did some mining. In 1888 he operated a salmon saltery at White water Bay and in 1896 he claimed a number of lots on Starr Hill (DeArmond, 1957, p. 41).

Starr Lake: lake, 2 miles across, between Muddy River and Birch Creek, 5 miles N of junction of McKinley and Kantishna Rivers, Tanana Lowland; 63° 57' N, 151° 40' W; (map 88). Local name reported in 1954 by USGS.

Starr Point: point of land, on E shore of Northeast Arm Uganik Bay, on N coast of Kodiak Island; 57° 45' 30" N, 153° 22' 00" W; (map 34). Local name published in 1943 by USC&GS

Starr Rocks: rocks, in Dark Passage, N of Shuyak Island, 51 miles N of Kodiak Island; 58° 37' 40" N, 152° 32' 30" W; BGN 1938; (map 43). Variant: Star Rocks. Named by USC&GS in 1931 "because the steamer Starr is reported to have struck on these rocks and remained several hours until floated off by the tide."

Starr, Cape: point of land, SW of Nikolski Bay on SW coast of Umnak Island, Aleutian Islands; 52° 55' 30" N, 168° 57' 30" W; (map 21). Name published by USC&GS in the 1944 Aleutian Coast Pilot (p. 67).

Starr: locality, see Star.

Starri-gavan: locality, see Nunamiut.

Starri-Gavan: locality, see Old Sitka.

Starrigavan Bay: bay, 1.4 miles across, on W coast of Baranof Island, 5.5 miles N of Sitka, Alexander Archipelago; 57° 08' 00" N, 135° 22' 30" W; BGN 1897; (map 9). Variant: Bay of Starri-gavan, Great Bay, Large Bay, Old Harbor Bay, Old Sitka Harbor. Russian name, "Starri-gavan," meaning "old harbor," reported in 1809 by Ivan Vasiliev the first. On the harbor

in this bay the first Russian settlement in this area was founded in 1799. After the fort's destruction in 1802, and the construction of a new settlement at Sitka, this bay acquired its present name. See Old Sitka.

Starrigavan: locality, see Three Saints Harbor

Starry Arteel: rookery, see Staraya Artil Rookery.

Starry Ateel: locality, see Staraya Artil.

Starry Ateel: rookery, see Staraya Artil Rookery.

Starry Creek: stream, flows SE 0.5 miles to Howard Creek which flows to California Creek, between Alta and Crush Creeks, 10 miles NW of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This stream cannot be precisely located on current maps.

Startup Camp: locality, at head of Squaw Creek, 20 miles WSW of Eureka Roadhouse and 65 miles NE of Palmer, Chugach Mountains; (map 69). Name of former camp used as supply point for gold placers on Albert Creek; reported in 1914 by Theodore Chapin (in Brooks and others' 1915, P. 128), USGS. Recent USGS maps do not indicate this locality.

Startup Creek: stream, heads in lake, flows SE 3.5 miles to Tahneta Lake, 63 miles NE of Palmer, copper River Basin; 61° 51' 10" N, 147° 18' 00" W; BGN 1960; (map 69). Local name reported in 1956 to USGS by George Belanger; derived from "Startup," abandoned supply camp for Albert Creek placers.

Startup Lake: lake, see Tahneta Lake.

Startup Lakes: lakes, extend NE-SW 1.8 miles, between Syncline Mountain and Glenn Highway, 64 miles NE of Palmer, Talkeetna Mountains; 61° 55' 45" N, 147° 16' 00" W; BGN 1960 (map 69). Variant: Eureka Lake. Local name reported in 1956 by USGS; derived from "Startup," abandoned supply camp for Albert Creek placers. See Startup Creek.

Starui Gavan: locality, see Three Saints Harbor.

Staruigavan: locality, see Nunamiut.

Staruigavan: village, see Old Harbor.

Starvation Creek: stream, flows NE 14 miles, joins Goose Creek to form West Fork Tolovana River, 30 miles SE of Rampart, Yukon-Tanana Highlands; 65° 21' 20" N, 149° 15' 00" W; (map 105). Named by prospectors; published in 1906 by USGS.

Stary Gavan: cove, see Old Harbor.

Starry Gavan: cove, see Three Saints Harbor.

Starry Gavan: locality, see Three Saints Harbor.

Staten island: island, 1 mile long, on W coast of Adak Island in Bay of Islands, Aleutian Islands; 51° 48' N, 176° 47' W; BGN 1936; (map 17). So named in 1934 by members of the U.S. Navy Aleutian Island Survey Expedition, "because of a fancied resemblance in outline to Staten Island, N.Y."

Station Bay: bay, 1.3 miles across, SW coast of Unalaska Island, Aleutian Islands; 53° 23' 30" N, 167° 37' 00" W; (map 23). This name was published in the 1944 Aleutian Coast Pilot (p. 50).

Station Creek: stream, flows 1.3 miles E to Frederika Creek, 0.5 miles SE of Frederika Glacier terminus and 30 miles NE of McCarthy, Wrangell Mountains; 61° 41' 00" N, 142° 11' 40" W; (map 67). Local name obtained by USGS and published on maps since 1954.

Station Creek: stream, heads 6 miles N of Mentasta Lake, flows SE, then E, 16 miles through Mineral Lake to Little Tok River, 27 miles SW of Tok, Alaska Range; 62° 57' 00" N, 143° 21' 30" W; BGN 1952; (map 84). Variant: Mentasta Creek, Tokio River. So named locally because the old Mentasta Pass telegraph station was located on the west bank of this creek at Eagle Trail crossing. Recent maps show the above heading; previous maps headed the stream north of Mentasta Pass.

Station Island: island, 0.1 miles long, at S point of entrance to Shakan Bay, on N coast of Kosciusko Island, Alexander Archipelago; 56° 08' 55" N, 133° 37' 25" W; (map 6). Named in 1886 by Lt. J. M. Helm, USN, for charting purposes; published in 1887 on USC&GS Chart 706.

Station Island: island, 0.2 miles across, in Lynn Canal, near mouth of Funter Bay, 0.8 miles SW of Clear Point and 19 miles SW of Juneau, Alexander Archipelago; 58° 13' 55" N, 134° 55' 15" W; (map 11). Named in 1890 by Lt. Comdr. H. B. Mansfield, USN, and published by USC&GS in the 1891 Coast Pilot (p. 161).

Station Island: island, 0.3 miles long, in Sumner Strait, off S coast of Mitkof Island, Alexander Archipelago; 56° 29' 35" N, 132° 46' 00" W; (map 6). Variant: Station Islet. Feature was named "Station Islet" in 1881 by Lt. Comdr. H. E. Nichols, USN.

Station Island: island, 1 mile long, in Yukon River, N of Basco Island, 13 miles WSW of Tanana, Nowitna Lowland; 65° 08' 30" N, 152° 32' 00" W; (map 106). Variant: Old Station Island, Walker Station Island. Riverboat pilots' name reported in the 1920's; so named because "A telegraph relay station [Walker Station] was located near here."

Station Islet: island, see Station Island.

Station Number One: locality, 1.5 miles SE of Valdez, Chugach Mountains; 61° 06' N, 146° 13' W; (map 68). Site of a station on a former military telegraph line reported by USGS (Moffit and Maddren, 1909, pl. 1).

Station Point: point of land, on E coast of Glass Peninsula, on Admiralty Island, 39 miles NE of Angoon, Alexander Archipelago; 58° 00' 00" N, 134° 05' 30" W; (map 9) Named in 1886 by

Lt. Comdr. A. S. Snow, USN, who had an astronomical station here. The name was published in 1888 by USC&GS on Chart 729.

Station Point: point of land, see Cemetery Point.

Station Rock: rock, in W channel of Tanana River, S of Eightmile Island, 7.5 miles SE of Tanana, Nowitna Lowland; 65° 07' N, 151° 51' W; (map 106). Riverboat pilots' name shown on a 1940 Navigation Chart, Tanana-Yukon Rivers.

Staunch Point: point of land, S point of entrance to Windfall Harbor, on E coast of Admiralty Island, 28 miles NE of Angoon, Alexander Archipelago; 57° 52' 20" N, 134° 14' 40" W; (map 11). Named in 1889 by Lt. Comdr. H. B. Mansfield; published by USC&GS on Chart 8228.

Steamboat Bay: bay, 1 mile across, on E shore of Stephens Passage, 0.5 miles N of Cleveland Passage and 71 miles E of Sitka, Coast Mountains; 57° 16' 15" N, 133° 32' 00 W; (map 8). Named in 1887 by Lt. Comdr. C. M. Thomas, USN; name published in 1888 by USC&GS.

Steamboat Bay: estuary, 1.3 miles long, N coast of Noyes Island, Alexander Archipelago; 55° 33' N, 133° 38' W; BGN 1923; (map 4). Named in 1923 by USC&GS; derived from Steamboat Point.

Steamboat Cabin Slough: lake, 1.5 miles long, oxbow, S of Black River, 20 miles NE of Fort Yukon, Yukon Flats; 66° 40' N, 144° 35' W; (map 119). Local name obtained in 1956 by USGS.

Steamboat Creek: stream, flows SE 1.4 miles to Pedro Creek, 13 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 00' 20" N, 147° 30' 50" W; (map 105). Named by prospectors; reported in 1903 by T. G. Gerdine (Prindle, 1905, pl. 13), USGS.

Steamboat Creek: stream, heads on Twin Buttes, flows SE 14 miles to Kuskokwim River 1.8 miles W of its junction with George River, 24 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 53' 45" N, 157° 45' 50" W; (map 72). Local name reported in 1914 by R. H. Sargent (in Smith, P. S., 1917, pl. 5), USGS. "So called because a steamboat woodyard was once located here."

Steamboat Creek: stream, see Steamboat Slough.

Steamboat Lake: lake, 0.6 miles across, on S bank of Bremner River, 2 miles SW of mouth of Little Bremner River and 58 miles E of Valdez, Chugach Mountains; 61° 01' 10" N, 144° 30' 50" W; (map 68). Local name published in the 1950's by USGS.

Steamboat Mountain: mountain, 1,775 ft., 11 miles NW of Midnight Hill, Porcupine Plateau; 66° 06' N, 141° 28' W; (map 120). Local name obtained in 1956 by T. E. Taylor and R. C. Foley, USGS.

Steamboat Point: point of land, W point of entrance to Steamboat Bay, N coast of Noyes Island, Alexander Archipelago; 55° 33' N, 133° 39' W; (map 4). Local navigators' name; published in 1925 Coast Pilot (p. 147).

Steamboat Slough: stream, anabranch of Kuskokwim River, trends SW 1.5 miles, 2 miles SE of Bethel, Yukon-Kuskokwim Delta; 60° 47' N, 161° 42' W; (map 59). Local name reported in 1949 by USGS.

Steamboat Slough: stream, channel of Yukon River, 0.8 miles long, at mouth of Tozitna River, 9 miles WSW of Tanana, Nowitna Lowland; 65° 08' 30" N, 152° 24' 00" W; (map 106). Named when the riverboats May West and Seattle No. 1 wintered here in 1897-98. Name shown on a navigation manuscript chart dated 1906.

Steamboat Slough: stream, flows W 14 miles to Fish River, 33 miles NE of Solomon, Seward Peninsula Highlands; 64° 46' N, 163° 27' W; (map 95). Variant: Kuearuk River, Steamboat Creek. Reported as "Steamboat Creek" in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17); shown as "Kuearuk River" by Schrader and Brooks (1900, map 3), USGS.

Steamboat Slough: watercourse, 2.5 miles long, anabranch of Andreafsky River, 37 miles NW of Marshall, Yukon-Kuskokwim Delta; 62° 02' 35" N, 163° 11' 00" W; (map 77). Riverboat pilots' name shown on a 1916 fieldsheet by R. H. Sargent, USGS. So named because it was used as a wintering place for steamboats from 1898 to 1905.

Steamboat Slough: watercourse, anabranch of the Yukon River, 11 miles long, 48 miles E of Unalakleet, Nulato Hills; 63° 52' N, 159° 13' W; (map 91). Variant: Three Mouth Creek. River pilots' name shown on a 1901 manuscript chart of the Yukon River.

Steamer Bay: bay, extends NW 2.5 miles to Stikine Strait, on W coast of Etolin Island, Alexander Archipelago; 56° 11' N, 132° 43' W; (map 6). Variant: Bukhta Parakhodnaya, Parakhotnia Bay. This is an 1882 translation by USC&GS of "Bukhta Parakhodnaya," which was published in 1853 on Russian Hydrog. Dept. Chart 1493.

Steamer Eclipse Slough: Stream, see Eclipse Slough.

Steamer Knoll: mountain, 2,115 ft., S of Steamer Bay, on W coast of Etolin Island, Alexander Archipelago; 56° 07' 30" N, 132° 41' 00" W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow, USN; published in 1887 on USC&GS Chart 706.

Steamer Point: point of land, N entrance to Kindergarten Bay, on NW coast of Etolin Island, Alexander Archipelago; 56° 13' 00" N, 132° 42' 40" W; (map 6). Local navigators' name reported in 1904 by H. C. Fassett, USBF.

Steamer Rocks: rocks, extend 0.5 miles in Clarence Strait, off W coast of Etolin Island, Alexander Archipelago; 56° 08' 30" N, 132° 43' 30" W; (map 6). Local navigators' name reported in 1904 by H. C. Fassett, USBF.

Stebbins: village, pop. 158, on NW coast of St. Michael Island, 8 miles NW of St. Michael, Yukon-Kuskokwim Delta; 63° 31' 20" N, 162° 17' 20" W; (map 92). Variant: Atroic, Atroik, Stephens. Village which a 1950 USC&GS field report gave as primarily Eskimo with about "80 people whose main livelihood is hunting, fishing, and herding reindeer." The village was first mentioned in 1898 by USC&GS; the name was published in 1900 on Chart 9370. Its Eskimo name is reported to be "Atroik."

Stedatna Creek: stream, flows SW 4.7 miles to Nikolai Creek, 13 miles W of Tyonek, Cook Inlet Lowland; 61° 02' 45" N, 151° 32' 00" W; (map 70) Tanaina Indian name reported in 1958 by USGS.

Stedman Cove: cove, 1.2 miles long, on Horseshoe Island between Big John Bay and Rocky Pass of Keku Strait, 14 miles SE of Kake, on W coast of Kupreanof Island, Alexander Archipelago; 56° 47' 50" N, 133° 45' 00" W; (map 6). Named by USC&GS for charting purposes; published in the 1932 Coast Pilot (p. 259).

Steel Creek: locality, see Steele Creek.

Steel Creek: stream, flows NE 4 miles to Tolovana River, 6 miles SE of Livengood, Yukon-Tanana Highlands; 65° 28' N, 148° 25' W; (map 105). Named by prospectors; reported in 1915 by USGS (Brooks and others, 1916, pl. 9).

Steel Creek: stream, see Steele Creek.

Steel Point: point of land, see Steele, Point.

Steele Creek Dome: mountain, 4,015 ft., 43 miles S of Eagle, Yukon-Tanana Highlands; 64° 11' N, 141° 20' W; (map 102). Variant: Steele Dome. Local name derived from Steele Creek; the stream was reported in 1903 by Prindle (1905, pl. 16), USGS.

Steele Creek: locality, on S bank of Fortymile River, at Steele Creek, 38 miles S of Eagle, Yukon-Tanana Highlands; 64° 16' 38" N, 141° 17' 00" W; BGN 1964; (map 102). Variant: Steel Creek. Mining camp and post office reported in 1903 by Prindle (1905, pl. 16), USGS. A post office was maintained here from 1907 to 1951 (Ricks, 1965, p. 61).

Steele Creek: stream, flows NE 7 miles to Fortymile River, 37 miles S of Eagle, Yukon-Tanana Highlands; 64° 16' 20" N, 141° 17' 00" W; BGN 1964; (map 102). Variant: Steel Creek. Prospectors' name reported in 1897 as "Steel Creek" by Spurr (1898, pl. 46), USGS.

Steele Creek: stream, flows S 8 miles to Chena River, 7 miles E of Fairbanks, Tanana Lowland; 64° 51' N, 147° 28' W; (map 100). Variant: Steel Creek. Local name published in 1908 by USGS.

Steele Dome: mountain, see Steele Creek Dome.

Steele Lake: lake, 0.9 miles long, N of Farewell Lake, 1.5 miles SW of junction of South Fork Kuskokwim and Dillinger Rivers and 68 miles SE of McGrath, Kuskokwim Lowland; 62° 34' 20" N, 153° 38' 30" W; (map 80). Local name obtained in 1958 by USGS.

Steele, Point: point of land, on NE coast of Hinchinbrook Island, 20 miles SW of Cordova, Chugach Mountains; 60° 21' N, 146° 12' W; BGN 1901; (map 64). Variant: Aguirre, Bentinck Point, Puntade, Steel Point. Named in 1787 by Capt. Nathaniel Portlock (1789, map facing p. 1) while exploring the region. It was later called "Point Bentinck," for William Henry Cavendish Bentinck, third Duke of Portland from 1762 (Wagner, 1937, p. 376) by Capt. George Vancouver, RN, during one of his many visits to the northwest American coast at the

end of the 18th Century. Don Ignacio Arteaga who, with Don Juan de la Bodega y Quadra on the Spanish vessels La Princesa and La Favorita explored the region in 1779, named the point "Punta De Aguirre" on July 17, 1779, probably after the pilot of the La Favorita, Juan Bautista de Aguirre (Wagner, 1937, p. 424).

Steelhead Creek: stream, in Glacier Bay National Monument, flows SE and SW 5 miles to Gulf of Alaska, 4.5 miles SE of Harbor Point, 83 miles NW of Hoonah, Malaspina Coastal Plain; 58° 34' 45" N, 137° 33' 00" W; BGN 1959; (map 10). Variant: Gaskal Creek. Local name reported by J. B. Mertie (in Smith and others, 1933, p. 118 and fig. 4), USGS. It was called "Gaskal Creek" by members of the Harvard-Dartmouth Expedition, 1933-34 (Washburn and Goldthwait 1936, map).

Steelhead Creek: stream, rises on N slope of Trader Mountain, flows N 15 miles to Bering Sea, Bristol Bay Lowland; 55° 49' N, 161° 55' W; (map 28). Local name shown on a 1963 USGS map.

Steelhead Creek: stream, see Topsy Creek.

Steelhead River: stream, on Chichagof Island, NW 6.5 miles to Lisianski Inlet, 14 miles N of Chichagof, Alexander Archipelago; 57° 51' 50" N, 136° 05' 55" W; BGN 1960; (map 9). Named in 1955 by D. L. Rossman, USGS, "for the Steelhead trout, which are reported to spawn in this stream. It is said to be the only stream on Chichagof Island in which these fish spawn."

Steelmute: village, see Sleetmute.

Steep Cape: point of land, 21 miles NW of Afognak, on W coast of Afognak Island, N of Kodiak Island; 58° 12' 00" N, 153° 12' 30" W; (map 43). Variant: Cape Kruto, Cape Krutoi, Cape Krutoy. Translation by USC&GS of the name "M[ys] Krutoy," published in 1849 by the Russian American Company.

Steep Creek: stream, flows 3 miles NW to Mendenhall Lake, 0.6 miles N of outlet to Mendenhall River and 10 miles NW of Juneau, Coast Mountains; 58° 25' N, 134° 34' W; (map 11). Local descriptive name published by Adolf Knopf (1912a, pl. 1), USGS.

Steep Creek: stream, flows NW 4 miles to Totatlanika River, 40 miles SE of Nenana, Alaska Range; 64° 03' N, 148° 30' W; (map 100). Local name reported in 1910 by USGS (Capps, 1912, pl. 1).

Steep Creek: stream, flows SW 1.4 miles to Silver Creek, 16 miles N of Nome, Seward Peninsula Highlands; 64° 45' N, 165° 24' W; (map 94). Prospectors' name reported in 1899 by Schrader (1900c, p. 16), USGS.

Steep Creek: stream, see Right Arm Creek.

Steep Glacier: glacier, see Canyon Glacier.

Steep Island: island, 150 ft. across, in Ogden Passage, 2 miles NW of Chicagof, Alexander Archipelago; 57° 40' 27" N, 136° 09' 15" W; BGN 1960; (map 9). Descriptive name given in 1908 by USC&GS; published in 1908 Coast Pilot (p 174).

Steep Island: island, see Krutoi Island.

Steep Point: point of land, on SE coast of Kenai Peninsula, 2 miles NE of Ragged Island and 52 miles ENE of Seldovia, Chugach Mountains; 59° 29' N, 150° 15, W, (map 50). Descriptive name reported in 1951 by USGS.

Steep Point: point of land, on W bank of Portland Canal, 6 5 miles N of Turn Point, Coast Mountains; 55° 31' 25" N, 130° 06' 40" W; (map 3). Descriptive name given in 1868 by Staff Comdr. David Pender, RN.

Steeple Peak: mountain peak, 2,300 ft., 1.6 miles NE of Taku Harbor on Stephens Passage and 22 miles SE of Juneau, Coast Mountains; 58° 05' 10 N, 133° 59' 30" W; (map 12). Descriptive name given in 1888 by Lt. Comdr. C. M. Thomas, USN.

Steeple Point: point of land, in Inanudak Bay on W central coast of Umnak Island, Aleutian Islands; 53° 16' 35" N, 168° 20' 35" W; BGN 1940; (map 22). Descriptive name given in 1938 by USC&GS "because of the steeple or spire-like rock formation which characterizes the point

Steer Creek: Stream, flows S to Anikovik River, about 14 miles SE of Cape Prince of Wales, Seward Peninsula Highlands; (map 111). Prospectors' name shown on a 1901 map of Cape Nome gold fields by David Fox, Jr. This feature cannot be precisely identified on current maps.

Steitmute: village, see Sleetmute.

Stella Creek: stream, flows NW 1.5 miles to Iron Creek 0.5 miles S of its junction with Pilgrim River, 28 miles NW of Solomon, Seward Peninsula Highlands; 64° 58' N, 164° 38' W; (map 95). Prospectors' name reported in 1908 by P.S. Smith (in Brooks and others, 1909, pl. 10), USGS.

Stella Creek: stream, flows NW 1.7 miles to Cripple River, 16 miles NW of Nome, Seward Peninsula Highlands; 64° 40' N, 165° 50' W; (map 94). Variant: Slate Creek. Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Stella Creek: stream, flows SE 1.1 miles to West Fork Kuyukutuk River 9.9 miles E of Marshall, Nulato Hills; 61° 52' 15" N, 161° 46' 50" W; (map 73) Prospectors' name reported by Harrington (1918, map), USGS, in 1916.

Stella Creek: stream, flows SW to California Creek which flows to Bonanza River, between Disappointment and Gold Creeks, 10 miles NW of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This stream cannot be precisely located on current maps.

Stellar Creek: stream, flows NW 3 miles to Sawmill Bay, 0.3 miles N of Devish Lake and 18 miles SW of Valdez, Chugach Mountains; 61° 03' 10" N, 146° 48' 00" W; (map 68). Variant: Steller Creek. Prospectors' name published in 1915 as Steller Creek by USGS.

Stellar, Mount: peak, see Steller, Mount.

Stellar Cove: cove, 2.8 miles across, on N coast of Attu Island, Aleutian Islands; 52° 59' 20" N, 172° 56' 00" E; BGN 1938; (map 13). Variant: Big Bay, Michael Bay, Three Arm Bay. Named for George Wilhelm Steller. See Steller, Mount. This cove is shown as "Big Bay" on a manuscript map drawn by L. M. Turner in the 1880's. The name was published in 1943 on an AMS map as "Stellar Cove."

Stellar Creek: stream, see Steller Creek.

Stellar Glacier: glacier, heads in W end of Bagley Icefield, trends SW 12 miles to Bering Glacier, 3 miles E of Fourth Lake and 73 miles E of Cordova, Chugach Mountains; 60° 24' N, 143° 38' W; (map 65). Name derived from Mount Steller near the glacier's head and published in 1950 by USGS.

Stellar River: stream, heads at 52° 56' 07" N, 172° 49' 10" E, flows 5.5 miles NE through West Steller Valley to Auburn Cove, in Steller Cove, on N coast of Attu Island, Aleutian Islands; 52° 58' 50" N, 172° 54' 25" E; (map 13). Name derived from Steller Cove and shown on an AMS map published in 1948.

Stellar, Mount: mountain, 10,267 ft., on Waxell Ridge, 20.5 miles SE of Mount Tom White and 90 miles E of Cordova, Chugach Mountains, 60° 31' 25" N, 143° 06' 45" W; BGN 1966; (map 65) Named in 1928 by USGS for George Wilhelm Steller, naturalist with Vitus Bering on his discovery voyage in 1741. Steller went ashore and collected specimens on Kayak Island which is about 60 miles southwest of this peak.

Stellar, Mount: peak, 7,300 ft., on ridge at head of Hook Glacier, on Alaska Peninsula in Katmai National Monument, 24 miles NE of Mount Katmai, Aleutian Range; 58° 25' 50" N, 154° 23' 15" W; BGN 1966; (map 42). Variant: Mount Stellar. Named for George Wilhelm Steller; published in 1951 by USGS. See Steller, Mount.

Steopender Creek: stream, flows SE to Solomon River, about 12 miles N of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This stream cannot be precisely located on current maps.

Step Creek: stream, heads in Step Gulch, on Ear Mountain, flows SE 3 miles to Crosby Creek, Seward Peninsula Highlands; 66° 53' 00" N, 166° 10' 30" W; (map 111). Variant: Step Gulch Creek. Named in 1954 relative to Step Gulch.

Step Gulch Creek: stream, see Step Creek.

Step Gulch: ravine, heads between Ears Peak and West Peak on Ear Mountain, trends SE 1 mile along Step Creek, Seward Peninsula Highlands; 65° 55' N, 166° 13' W; BGN 1954;

(map 111). So named in 1945 by a USGS field party "for the conspicuous step like flats on the fill of its bed in the headwater portion."

Step Mountain: mountain, 1,386 ft., 1 mile NE of Fortification Bluff and 16 miles NW of Augustine Island, Aleutian Range; 59° 26' 10" N, 153° 45' 50" W; BGN 1916; (map 11). Descriptive name published in 1913 on USC&GS Chart 3420.

Step Mountains: ridge, elev. 3,000-4,440 ft., extends NE-SW 5 miles between Kandik and Nation Rivers, 48 miles N of Eagle, Porcupine Plateau; 65° 29' N, 141° 28' W; BGN 1965; (map 103). So named in 1965 by Earl Brabb, USGS, because "the mountains are comprised of parallel ridges, either flat-topped or with flat benches near the top that look like steps at a distance."

Stepanof Cove: cove, 1 mile across, in Inanudak Bay on W coast of Umnak Island, Aleutian Islands; 53° 17' 15" N, 168° 21' 00" W; BGN 1940; (map 22). Variant: Cinder Cove, Stepanofskaia Anse, Stepanow Bay. Name reported by Capt. Lutke (1836, p. 301), IRN, as "Stepanovskaia"; also called "Cinder Cove" by a 1939 USC&GS field party "because it is adjacent to Cinder Point."

Stepanof Flats: beach, at mouth of the Big River, on S coast of Alaska Peninsula, at head of Stepovak Bay, Aleutian Range; 55° 51' 30" N, 159° 45' 00" W; (map 27). Name published by USC&GS in 1947 Coast Pilot (p. 305).

Stepanofskaia Anse: cove, see Stepanof Cove.

Stepanow Bay: bay, see Inanudak Bay.

Stepanow Bay: cove, see Stepanof Cove.

Stepanutcha Cliff: cliff, s of Tolstoi Point on E coast of St. George Island, in Pribilof Islands; 56° 35' 30" N, 169° 28' 00" W; (map 38). Aleut name listed by Putnam (1903, p. 1015), USC&GS, as "Ste'pan-utcha" meaning "Stepan's shelf * * *" so called because here Stepan, a native, gathered eggs, this ridge being reserved for him."

Stephan Lake: lake, 1.8 miles long, at head of Goose Creek, 18 miles N of Anchorage, Cook Inlet Lowland; 61° 29' N, 149° 56' W; (map 69). Local name reported in 1942 by AMS.

Stephan Lake: lake, 4.2 miles long, at head of Prairie Creek, 45 miles NE of Talkeetna, Talkeetna Mountains; 62° 42' 30" N, 148° 53' 00" W; (map 82). Local name reported in 1951 by USGS.

Stephans Creek: stream, see Stevens Creek.

Stephens Cove: bay, see Tee Harbor.

Stephens Creek: stream, flows NE 8 miles to Klutina River, 2.2 miles SE of Garrett Peak and 24 miles NE of Valdez, Chugach Mountains; 61° 28' 45" N, 146° 01' 50" W; (map 68). Named in 1898 by P. G. Lowe, USA, presumably for Sherman C. Stephens, a member of Capt. W. R. Abercrombie's party.

Stephens Creek: stream, see Stevens Creek.

Stephens Glacier: glacier, heads 1.5 miles N of Mount Cashman, trends NE 8.5 miles to its terminus at head of Stephens Creek, 22 miles N of Valdez, Chugach Mountains; 61° 26' 15" N, 146° 14' 15" W; (map 68). Local name published in the 1950's by USGS.

Stephens Gulch: ravine, see Stevens Gulch.

Stephens Pass: water passage, 1 mile long, between St. Michael and Stuart Islands, 9.5 miles NW of St. Michael, Yukon-Kuskokwim Delta; 63° 32' 30" N, 162° 20' 00" W; (map 92). Local name published in 1900 by USC&GS.

Stephens Passage: water passage, 80 miles long, trends SE from Portland Island to Frederick Sound, 11 miles W. of Juneau, Coast Mountains, 57° 13' N, 133° 39' W; (map 11). Named in 1794 by Capt. George Vancouver, RN, probably for Sir Philip Stephens (Wagner, 1937, p. 417).

Stephens Village: village, see Stevens Village.

Stephens, Cape: point of land, northernmost tip of St. Michael Island, 9 miles NW of St. Michael, Yukon-Kuskokwim Delta; 63° 32' 30" N; 162° 18' 40" W; (map 92). Named by Capt. James Cook, RN, in September 1778.

Stephens, Point: point of land, in Favorite Channel, 0.2 miles W of village of Tee Harbor and 15 miles NW of Juneau, Coast Mountains; 58° 25' 15" N, 134° 46' 00" W; (map 11). Named in 1880 by Capt. L. A. Beardslee, USN. The name was published in the 1883 Coast Pilot (p. 173), and probably was derived from Stephens Passage.

Stephens: village, see Stebbins.

Stephens: village, see Stevens Village.

Stephensons Stream: stream, flows SW 5.9 miles to Koyuk River, 6 miles SW of Haycock, Seward Peninsula Highlands; 65° 08' N, 161° 15' W; (map 109). Local name published on maps after 1950.

Stepo, Mount: mountain, 3,895 ft., on W shore of Stepovak Bay, near SW end of Alaska Peninsula, Aleutian Range; 55° 43' N, 160° 11' W; (map 28). Name shown on a 1953 USGS map.

Stepovak Bay: bay, 15 miles across, on S coast of Alaska Peninsula, Aleutian Range; 55° 40' N, 159° 50' W; BGN 1890; (map 27). Variant: Stepovakho Bay, Stepowoj Bai, Zaliv Zakharova. Named "Stepovakho," or "Stepof's Bay," by USC&GS in 1888, possibly for Stepanof, a Russian American Company captain who cruised in the Shumagin Islands prior to 1835. Capt. Tebenkov (1852, map 24) called it "Zal[iv] Zakharova," or "Zachary Bay."

Stepovakho Bay: bay, see Stepovak Bay.

Stepowoj Bai: bay, see Stepovak Bay.

Sterling Creek: stream, flows NW 2.8 miles to Grouse Creek which flows to Mint River, 41 miles NW of Teller, Seward Peninsula Highlands; 65° 38' N, 167° 26' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Sterling Creek: stream, flows SE 3 miles to Beverly Creek, 6 miles W of Twin Mountain and 52 miles SSE of Circle, Yukon-Tanana Highlands; 65° 05' N, 143° 44' W; (map 103). Prospectors' name reported in 1905 by D. C. Witherspoon, USGS.

Sterling Landing: locality, on W bank of Kuskokwim River, 6.5 miles SW of McGrath, Kilbuck-Kuskokwim Mountains; 62° 52' N, 155° 40' W; BGN 1966; (map 80). Variant: Candle Landing. River landing reported in 1923 by the ARC.

Sterling Shoal: shoal, 7 miles long, in Bristol Bay, 6 miles S of Cape Constantine and 54 miles SW of Dillingham, Bristol Bay Lowland; 58° 18' N, 158° 53' W; BGN 1932; (map 40). Named in 1911 by USC&GS for the cannery ship Sterling which was lost here.

Sterling: village, pop. 115, S of Sterling Highway at junction of Moose and Kenai Rivers, 18 miles E of Kenai, Cook Inlet Lowland; 60° 32' 15" N, 150° 45' 30" W; BGN 1959; (map 62). Variant: Naptowne. Village that apparently had its name formalized in 1954 when a post office was established (Ricks, 1965, pl. 61).

Stern Gulch: ravine, extends N from junction of Idaho Creek, 6 miles along course of Sunshine Creek, 51 miles NW of Talkeetna, Alaska Range; 62° 31' 15" N, 151° 39' 00" W; (map 81). Prospectors' name reported in 1906 by R. W. Porter, USGS.

Stetson Creek: stream, on Kenai Peninsula, flows N 4.5 miles to Cooper Creek, 28 miles NW of Seward, Chugach Mountains; 60° 26' 45" N, 149° 50' 50" W; (map 63). Local name reported in 1898 by Mendenhall (1900, p. 320), USGS.

Steve Creek: stream, flows N to Arctic River about 5 miles E of Ear Mountain and 45 miles NE of Teller, Seward Peninsula Highlands; (map 111). Prospectors' name reported on a precinct map of Seward Peninsula gold fields by Monroe and Hutchins, corrected up to June 1903 by Arthur Gibson. This feature cannot be precisely identified on current maps.

Steve Lake: lake, 0.5 miles long, between Alaska Highway and Chisana River, 1 mile S of Northway Junction, Yukon-Tanana Highlands; 63° 00' N, 141° 44' W; BGN 1961; (map 85). Variant: Totsahdmund Lake. Local name reported in 1960 by T. E. Taylor, USGS.

Stevens Creek: stream, heads in Taylor Mountains, flows NE 10 miles to Taylor Creek 8 miles S of its junction with Holitna River, 46 miles S of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 02' N, 157° 13' W; BGN 1948; (map 72). Named for a prospector and trapper who worked on the stream; reported in 1945 by USGS.

Stevens Creek: stream, heads on Roughtop Mountain, flows NW 20 miles to Yukon River, 22 miles WSW of Rampart, Yukon-Tanana Highlands; 65° 23' 40" N, 150° 53' 08" W; BGN 1961; (map 106). Variant: Stephans Creek, Stephens Creek. Riverboat pilots' name shown

on Edwards Track Chart of the Yukon, dated 1899. The same year Cantwell (1902, p. 277), USRCS spelled the name "Stephens."

Stevens Creek: stream, see Norberg Creek.

Stevens Creek: stream, see Orum Creek.

Stevens Gulch: ravine, trends SW 0.8 miles to Washington Creek 0.1 miles N of its junction with Nome River, 6 miles NE of Nome, Seward Peninsula Highlands; 64° 31' 12" N, 165° 12' 20" W; (map 94). Variant: Stephens Gulch. Prospectors' name published as "Stephens" on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Stevens Lake: lake, 0.7 miles long, 1 mile SE of Willow and 30 miles NW of Palmer, Cook Inlet Lowland; 61° 44' 10" N, 149° 59' 45" W; (map 69). Local name reported in 1950 by USGS.

Stevens Lakes: lakes, two, each 0.7 miles long, 1 mile W of Wellesley Mountain and 17 miles SW of point where Alaska Highway crosses Alaska-Canada boundary, Alaska Range; 62° 26' N, 141° 22' W; (map 84). Local name reported by USGS in 1960.

Stevens Village: village, pop. 102, on N bank of Yukon River, 5 miles E of Dall River and 54 miles SW of Beaver, Yukon Flats; 66° 01' N, 149° 06' W; (map 118). BGN 1957; Variant: Denyeet, Denyit, Shaman, Shamans Village Shamansville, Stephens, Stephens Village, Stevens. Indian village, which according to local tradition, was founded by three brothers from Kokrines, "Old Jacob," "Gochonayeeya," and "Old Steven." According to the story, the village was first called "Denyeet" meaning "canyon." In 1902 Old Steven was elected chief, and the village then took the name "Stevens Village" according to Leonard John (Alaska Sportsman, 1959, v. 25, no. 9, p. 3s, 34). This may be the same village called "Shamans" or "Shamansville" in 1898 by USC&GS. In 1910 the village (Stephens Village) had a population of 100; 103 in 1920; 48 in 1930; 54 in 1939 (Stevens); and 84 in 1950. The Stevens Village post office was established in 1936.

Stevens: village, see Stevens Village.

Stevenson Entrance: water passage, between Shuyak Island and Barren Islands, connecting Gulf of Alaska with Shelikof Strait; 58° 47' N, 152° 24' W; BGN 1966; (map 43). Named in 1966 by Alaska State Geographic Board to commemorate Adlai E Stevenson 1900-1965, Governor of Illinois and United States Ambassador to the United Nations.

Stevenson Island: island, 3.5 miles long, on NE coast of Prince of Wales Island; Alexander Archipelago; 56° 02' N, 132° 57' W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow USN; published in 1887 on USC&GS Chart 706.

Steward Creek: stream, flows SE 0.8 miles to Birch Creek which flows to Big Four Creek, 21 miles NE of Solomon, Seward Peninsula Highlands; 64° 50' N, 164° 08' W; (map 95). Prospectors' name reported on a 1902 prospectors' manuscript map.

Stewart Bend: bend, of Kuskokwim River, 1.5 miles W of junction of Grayling Creek, 9 miles E of McGrath, Kuskokwim Lowland; 62° 57' N, 155° 18' W; (map 80). Local name reported in 1931 by USGS.

Stewart Island: island, 100 ft. across, SE of Smith Island, 1 mile SW of Sitka, Alexander Archipelago; 57° 02' 33" N, 135° 21' 58" W; (map 9). Named in 1880 by the U.S. Navy; published by the USC&GS in 1883 Coast Pilot (p. 142).

Stewart Peak: peak, 3,080 ft., on Elephants Head, 1 mile E of head of Thomas Bay and 101 miles E of Sitka, Coast Mountains; 57° 05' 40" N, 132° 47' 35" W; (map 8). Named in 1887 by Lt. Comdr. C. M. Thomas, USN; name published in 1888 by USC&GS.

Stewart River: stream, formed by junction of Quartz and Thompson Creeks, flows SW 12 miles to Sinuk River, 22 miles NW of Nome, Seward Peninsula Highlands; 64° 48' N, 165° 43' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Stewart Rock: rock, in Security Bay, on N coast of Kuiu Island, Alexander Archipelago; 56° 50' 45" N, 134° 20' 45" W; (map 5). Local name used by fishermen; published in 1891 by USC&GS

Stewart, Port: estuary, extends NW 4 miles off Behm Canal, on E coast of Cleveland Peninsula Alexander Archipelago; 55° 42' N, 131° 50' W; (map 3). Named by Capt. George Vancouver, RN. on September 2, 1793, after John Stewart, master's mate on the ship Discovery, "who made a good survey of it." Vancouver was anchored here from August 22 to September 5, 1793 (Wagner, 1937, p. 417).

Steylmen, Mys: point of land, see Styleman, Point.

Stibnite Creek: stream, flows SW 5 miles to Tok River, 27 miles W of Tok, Alaska Range; 63° 14' N, 143° 50' W; BGN 1950; (map 85). Variant: Boulder Creek, Silver Creek. Local name published by A. H. Brooks (1916, p. 62), USGS; given in 1914 because of the discovery of stibnite (the primary ore of antimony) in the vicinity of this stream.

Stickeen River: stream, see Stikine River.

Stickienes River: stream, see Stikine River.

Stickleback Creek: stream, see Muddy Creek.

Stickwan Creek: stream, flows N 5 miles to Nenana River, 44 miles SE of Healy, Talkeetna Mountains; 63° 19' 40" N, 148° 10' 45" W; (map 87). Local name obtained in 1951 by USGS.

Stiernfeld Island: island, see Turner Island.

Stikeen River: stream, see Stikine River.

Stikin River: stream, see Stikine River.

Stikine River: stream, heads in British Columbia, Canada, at 57° 14' 30" N, 128° 19' 00" W, flows NW and S across Alaska-Canada boundary, 330 miles to Eastern Passage, 2 miles N of Wrangell, Alexander Archipelago; 56° 31' N, 132° 24' W; BGN 1952; (map 6). Variant: Francis River, Pelly River, Ryka Stakhin, Shikene River, Stachine River, Stachin River, Stah-Keena River, Stahkin River, Stakeen River, Stickeen River, Stickienes River, Stikeen River, Stikin River, Sucheen River. Tlingit Indian name meaning "Great River," reported in 1799 as "Stikine River" by Capt. Rowan, of the whaling ship Eliza out of Boston, Mass. Published in 1848 on Russian Hydrog. Dept. Chart 1396 as "Ryka Stakhin," or "Stakhin River." The present spelling of the name was adopted in 1869 by USC&GS.

Stikine Strait: water passage, separates Zarembo Island from Etolin and Woronkofski Islands, near mouth of Stikine River; 56° 20' N, 132° 36' W BGN Sixth Report; (map 6). Variant: Proliv Stakhinskiy, Stachinski Strait, Stakhinski Strait. Tlingit Indian name; published in 1848 on Russian Hydrog. Dept. Chart 1396 as "Proliv Stakhinskiy,, or "Stakhin Strait."

Stiles Creek: stream, flows ESE 8 miles to Chena River, 42 miles ENE of Fairbanks, Yukon-Tanana Highlands; 64° 56' 20" N, 146° 16' 45" W; (map 101). Local name published in 1956 by USGS.

Still Harbor: bay, 0.5 miles across, on S shore of Whale Bay, on SW coast of Baranof Island, Alexander Archipelago; 56° 33' 30" N, 135° 02' 30" W; (map 5). Variant: Gavan Tikhaya, Tichai Bay, Tichaia Bay Tikhaya Bay. This is a translation of the name "Gavan Tikhaya" given in 1850 by the Russian American Company.

Still Island: island, 0.8 miles long, W of Tanana Island in Corbusier Slough, 2.5 miles S of Tanana, Nowitna Lowland; 65° 08' 30" N, 152° 03' 00" W; (map 106) Local name reported in 1952 by USGS.

Stillwater Anchorage: water passage, in Kootznahoo Inlet on Admiralty Island, extends SW 1.2 miles from Pillsbury Point to Turn Point, 0.5 miles NE of Angoon, Alexander Archipelago; 57° 30' 30" N, 134° 34' 00" W; (map 9). Descriptive name given in 1869 by Comdr. R. W. Meade, USN; published by USC&GS in 1833 Coast Pilot (p. 177).

Stillwater Creek: stream, flows SE 4.5 miles to Bering River, 21 miles NE of Katalla, Chugach Mountains; 60° 22' N, 144° 00' W; (map 64). Local name reported in 1903 by G. C. Martin (in Emmons and Hayes, 1904, p. 366), USGS.

Stillwell: locality, on N shore of Kenai Lake, Kenai Peninsula, 1.5 miles NW of Black Point and 22 miles N of Seward, Chugach Mountains; 60° 24' 45" N, 149° 23' 45" W; (map 63). A 1951 USGS map indicates that this is a site of a single dwelling.

Stinenia, Mount: mountain, 4,050 ft., on left bank of Stikine River, 16 miles NE of Wrangell, Coast Mountains; 56° 40' 30" N, 132° 08' 30" W; (map 6). Named by USC&GS for charting purposes; name published in 1943.

Stink Creek: stream, flows NE 40 miles to Yukon River, W of Morgan Island, 57 miles SW of Nulato and 57 miles E of Unalakleet, Nulato Hills; 63° 59' N, 158° 56' W; (map 90). Variant: Aleek River. Local name reported in 1954 by USGS.

Stink Creek: stream, flows S 3 miles to Stink Lake, near Innoko River, 38 miles NW of Ophir, Innoko Lowland; 63° 38' N, 157° 03' W; (map 90). Local name reported in 1964 by Arthur Gervais, USGS.

Stink Creek: stream, on N end of Admiralty Island, flows N 3.7 miles to Stephens Passage, 4.8 miles SE of Point Young and 10 miles S of Juneau, Alexander Archipelago; 58° 10' 15" N, 134° 26' 10" W; (map 11). Local name published in 1951 by USGS.

Stink Lake: lake, 3 miles long, on N bank of Innoko River, N of Rennie's Landing, 38 miles NW of Ophir and 64 miles NW of McGrath, Innoko Lowland; 63° 38' N, 157° 04' W; (map 90). Local name obtained in 1954 by R. E. Isto, USGS.

Stink River: stream, heads in Tundra Lake, flows NW 35 miles to Stony River 24 miles SE of its junction with Kuskokwim River, 37 miles SE of Sleetmute, Stony River Lowland; 61° 30' 30" N, 156° 07' 50" W; (map 72). Local name reported in 1914 by R. H. Sargent (in Smith, P. S., 1917, pl. 5), USGS.

Stinking Lake: lake, 0.6 miles long, 1.7 miles S of Beaver Creek, Yukon Flats; 66° 12' 00" N, 146° 47' 20" W; (map 119). Local descriptive name obtained in 1956 by USGS.

Stintz Bluffs: bluffs, on S shore of Olga Bay, 32 miles S of Karluk, in SW part of Kodiak Island, 57° 06' 45" N, 154° 17' 00" W; (map 35). Local name published in 1943 by USC&GS.

Stockade Point: point of land, on E shore of Stephens Passage, at mouth of Taku Harbor, 2 miles NW of Limestone Inlet and 22 miles SE of Juneau, Coast Mountains; 58° 03' 30" N, 134° 01' 45" W; (map 11). So named in 1869 by Comdr. R. W. Meade, USN, because the ruins of a blockhouse and stockade built by the Hudson's Bay Co. in 1840-41 were on the point. The name was published by USC&GS in the 1883 Coast Pilot (p. 169).

Stockdale Harbor: bight, in Prince William Sound, on NW coast of Montague Island, at NE end of Montague Strait, 32 miles E of Chenega, Chugach Mountains; 60° 18' 45" N, 147° 12' 30" W; (map 63). Named in 1787 by Capt. Portlock for his publisher John Stockdale.

Stockholm Bay: cove, 0.2 miles across, on SE shore of Olga Bay, 34 miles SE of Karluk, on SW part of Kodiak Island; 57° 07' 30" N, 154° 07' 00" W; (map 35) Local name reported in 1900.

Stockholm Point: point of land, on SE shore of Olga Bay, 34 miles SE of Karluk, on SW part of Kodiak Island; 57° 07' 30" N, 154° 06' 30" W; (map 35) Local name reported in 1900.

Stockley Creek: stream, flows SW 0.8 miles to Dahl Creek, 10 miles NE of Shungnak, Brooks Range; 66° 59' N, 156° 52' W; (map 115). Local name reported in 1943 by R. R. Coats, USGS.

Stockton Islands: barrier islands, on Beaufort Sea coast W of Flaxman Island, extending 9 miles between Challenge and Newport Entrances, Arctic Plain; 70° 18' N, 146° 55' W; (map 151). Named by Leffingwell (1919, p. 99) in 1913 after Rear Adm. Charles Herbert Stockton, USN, 1845-1923.

Stoeckl, Mount: mountain, 6,014 ft., on Alaska-Canada Boundary, on right bank of Unuk River, Coast Mountains; 56° 21' 56" N, 130° 47' 10" W; BGN 1952; (map 7). Named in 1924 by USGS for "Privy-Councilor Edward de Stoeckl, Russian Minister to the United States, who signed the convention ceding Alaska on March 30, 1867", published in 1927 on IBC Sheet 3 (1951 atlas).

Stognang Creek: stream, flows W 5 miles to Kuskokwim Bay, 50 miles NW of Goodnews, Yukon-Kuskokwim Delta; 59° 48' N, 161° 57' W; (map 53). Eskimo name published in 1951 by USGS.

Stolb, Mys: point of land, see Bold Cape.

Stolb: rock, see Pillar Rock.

Stolbi Rocks: rocks, composed of Noonaghak and Tappaghak Rocks in Bering Sea, 3 miles SE of Cape Myaughee, Saint Lawrence Island; 63° 38' N, 170° 06' W; BGN 1951; (map 93). Variant: Noonaghak, Stolby Rocks. Descriptive Russian term meaning "pillar (stolb) applied to these rocks "on an old Russian chart" and published in 1908 as a geographic name by USC&GS.

Stolby Rocks: rocks, see Stolbi Rocks.

Stolby: rocks, see Pillars, The.

Stone Bay: estuary, see Necker Bay.

Stone Boy Creek: stream, flows NW 17 miles to Salcha River 4.8 miles SW of junction with Lost Creek and 58 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 47' N, 144° 36' W; (map 101). Local name reported in 1958 by USGS.

Stone Creek: stream, flows SE 11 miles to Eden Creek, 47 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 36' N, 153° 43' W; (map 89). Local name reported in 1958 by USGS.

Stone Creek: stream, in Nutzotin Mountains, heads at glacier terminus, flows NW 16 miles to Nabesna River 10 miles E of Devils Mountain, Alaska Range; 62° 28' N, 142° 37' W; (map 84). Named in 1902 by F. C. Schrader, USGS, "from the conspicuity and size of its barren stoney delta."

Stone Gulch: ravine, trends E 1.5 miles to Myrtle Creek, 1 mile NW of Livengood, Yukon-Tanana Highlands; 65° 32' N, 148° 34' W; (map 105). Named by prospectors; reported in 1916 by J. B. Mertie (in Brooks and others, 1918, pl. 13), USGS.

Stone Hut Peak: mountain, 2,505 ft., in De Long Mountains; 8 miles N of Mount Kelly; Brooks Range; 68° 35' N, 163° 39' W; (map 130). So named in 1956 by Orth because a stone hut was discovered on the mountain's summit in 1889 by Stockton (1890, p. 179).

Stone Islands: islands, an offshore group, extends 2.7 miles, in Ernest Sound, S of Etolin Island, Alexander Archipelago; 55° 54' N, 132° 19' W; (map 4). Named in 1886 by Lt. Comdr. A. S. Snow, USN, for J. C. Stone, a member of his party.

Stone Mountain: mountain, 2,747 ft., 8 miles W of Paradise Pass and 51 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 43' N, 153° 51' W; (map 89). Local name reported in 1958 by USGS.

Stone Ring Creek: stream, in De Long Mountains, flows SSW 15 miles to Anisak River, Brooks Range; 68° 22' N, 159° 06' W; BGN 1960; (map 131). Named in 1951 by B. H. Kent, USGS, "for large stone ring nearby."

Stone Rock Bay: bay, 1 mile wide, SE coast of Prince of Wales Island, 4.3 miles N of Cape Chacon, Alexander Archipelago; 54° 45' 30" N, 132° 00' 00" W; (map 2). Variant: Mallard Bay. Name derived from Stone Rock and published in 1913 on USC&GS Chart 8074. According to P. S. Smith (in Brooks and others, 1914, p. 82), USGS, this feature was known locally as Mallard Bay. See Mallard Bay.

Stone Rock: rock, elev. 20 ft., SW end of Clarence Strait, 4 miles NE of Cape Chacon, Alexander Archipelago; 54° 44' 45" N, 131° 58' 00" W; (map 2). Named in 1885 by Lt. Comdr. R. C. Clover, USN.

Stonehocker Creek: stream, on Kenai Peninsula, flows N 3 miles to China Poot Bay, on E shore of Kachemak Bay, 10 miles SE of Homer, Chugach Mountains; 59° 33' 15" N, 151° 18' 30" W; (map 50). Local name reported and published by USGS in the 1950's.

Stonehouse Creek: stream, flows SE 3 miles to Chicken Creek, 52 miles SW of Eagle, Yukon-Tanana Highlands; 64° 06' 20" N, 141° 54' 30" W; (map 102). Prospectors' name obtained in 1898 by E. C. Barnard, USGS.

Stonehouse Lake: lake, 0.4 miles long, on N shore of Iliamna Lake, 8.5 miles E of Iliamna, Aleutian Range; 59° 46' 30" N, 154° 34' 30" W; (map 51). Local name reported in 1958 by USGS.

Stonewall: cliff, on SE shore of Isanotski Strait, Aleutian Range; 54° 50' 00" N, 163° 21' 40" W; (map 25). Variant: Southwall. Probably a local name; published by USC&GS in 1912.

Stoney Creek: stream, flows SE to Noxapaga River, N of Turner Creek, about 24 miles W of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This stream cannot be precisely located on current maps.

Stoney Creek: stream, see Stony Creek.

Stoney Glacier: glacier, on Mount Stoney, trends NE 2.5 miles to its terminus at head of Portage Creek, 83 miles NW of Tyonek, Alaska Range 61° 56' 30" N, 152° 52' 00" W; (map 70). Variant: Allen Glacier. Named by Spurr (1900, p. 115), USGS, for Comdr. George Morse Stoney, USN, who explored the Kobuk River region from 1883 to 1886.

Stoney Ridge: hill, 200 ft., between Conglomerate and Ogotoruk Creeks, 8.3 miles E of Cape Thompson, Arctic Slope; 68° 08' 15" N, 165° 38' 45" W; BGN 1963; (map 129). Variant: Talaveeroqraw, Talaverokra Ridge. Named about 1962 by personnel of Project Chariot. This name is a translation of the Eskimo name, spelled "Talaveeroqraw," by W. P. Pruitt, Univ. of Alaska, in 1962.

Stoney River: stream, see Stony River.

Stoney, Mount: mountain, 6,915 ft., between Skwentna and Styx Rivers, 4 miles N of Mount Estelle and 82 miles NW of Tyonek, Alaska Range; 61° 54' 20" N, 152° 54' 30" W; (map 70). Variant: Allen, Mount. Named by Spurr (1900, p. 115), USGS, for Comdr. George Morse Stoney, USN, who explored the Kobuk River region from 1883 to 1886.

Stony Bay: estuary, see Necker Bay.

Stony Cape: point of land, see Rocky Point.

Stony Creek: stream, flows S 1.6 miles to Turner Creek which flows to Noxapaga Creek, 34 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 34' N, 164° 27' W; (map 110). Variant: Stoney Creek. Prospectors' name reported as "stoney Creek" in 1901 by T.G. Gerdine (in Collier 1902, pl. 12), USGS.

Stony Creek: stream, flows W 2 miles to Dutch Creek, 36 miles NW of Talkeetna, Alaska Range; 62° 33' 00" N, 151° 07' 30" W; (map 81). Prospectors' name reported in the 1930's by USGS.

Stony Creek: stream, in Mount McKinley National Park, flows N 25 miles from Gravel Mountain to Clearwater Fork, 5 miles S of that stream junction with Toklat River, Alaska Range; 63° 44' 15" N, 150° 19' 30" W; (map 88). Local name shown on a 1916 fieldsheet by C. E. Giffin, USGS.

Stony Dome: peak, 4,700 ft., in Mount McKinley National Park, S of Denali Highway 3.5 miles NE of Eielson Visitor Center, Alaska Range; 63° 27' 15" N, 150° 12' 30" W; BGN 1932; (map 88). Local name reported in 1932 by J. C. Reed Sr., and S. N. Stoner, USGS.

Stony Glacier: glacier, extends NE 4.5 miles from Mount Mausolus to the head of Stony River 95 miles NW of Tyonek, Alaska Range; 61° 36' 15" N, 153° 45' 30" W; (map 71). Local name reported in 1958 by USGS.

Stony Hill: mountain, 4,508 ft., in Mount McKinley National Park, N of Denali Highway 3.6 miles NE of Eielson Visitor Center, Alaska Range; 63° 28' 00" N, 150° 13' 40" W; (map 88). Local name reported in 1932 by J. C. Reed. Sr., USGS.

Stony Island: island, see Pyramid Island.

Stony Point: point of land, at S end of Karluk Lake, 27 miles SE of Karluk, Kodiak Island; 57° 16' 50" N, 154° 00' 45" W; (map 35). Local descriptive name reported in 1952 by USGS.

Stony Point: point of land, see Peschani Point.

Stony Point: point of land, see Tonki Point.

Stony River Cutoff: stream, distributary of Stony River, flows NW 5.7 miles to Kuskokwim River 3 miles W of its junction with Stony River, 17 miles NE of Sleetmute, Stony River Lowland; 61° 47' N, 156° 41' W; (map 72). Local descriptive name reported in 1952 by USGS.

Stony River Village: locality, see Moose Village.

Stony River Village: village, see Stony River.

Stony River: stream, heads at Stony Glacier in Alaska Range at 61° 36' 15" N, 153° 45' 30" W, flows SW and NW 190 miles to Kuskokwim River, 20 miles NE of Sleetmute, Stony River Lowland; 61° 46' 10" N, 156° 35' 20" W; (map 72). Variant: Mantaschlano, Mantashtano, Stoney River, Tchalchug, Tchalchuk, Tchaltshuck, Tkhalkhak, Tschaljchuk, Tschaltschuk. Descriptive name probably given by prospectors and reported in 1908 by A. G. Maddren, USGS. Native names obtained in 1842-44 by Lt. L. A. Zagoskin, IRN, were written "R[eka] Tkhalkhuk ili [or] Mantashtano"; the first is Eskimo, the last Indian.

Stony River: village, pop. 75, on N bank of Kuskokwim River 0.9 miles N of its junction with Stony River, 20 miles NE of Sleetmute, Stony River Lowland; 61° 47' N, 156° 35' W; (map 72). Variant: Moose Creek, Moose Village, Stony River Village. Indian village that began with a trading post and riverboat landing to supply the mining area to the north. This settlement, originally called "Moose Village," was located near the mouth of Moose Creek, but subsequently has moved to this location about 1.5 miles upstream. The Stony River post office was established in 1935 (Ricks, 1965, p. 61). See Moose Village.

Stop Island: island, 0.3 miles long, in Portage Bay, 16 miles NW of Petersburg, on N coast of Kupreanof Island, Alexander Archipelago; 56° 57' 10" N, 133° 17' 15" W; (map 6). So named in 1882 by Lt. Comdr. H. E. Nichols, USN, "because there is an extensive mud flat and shoal water beyond this island."

Storey Island: island, 1.5 miles long, at Copper River Delta, 22 miles NW of Katalla, Chugach Mountains; 60° 19' N, 145° 10' W; (map 64). Local name published by USGS in 1951; derived from nearby Storey Slough.

Storey Island: island, 4 miles long, in Prince William Sound, N of Peak Island, 38 miles NE of Chenega, Chugach Mountains; 60° 43' 30" N, 147° 25' 00" W; BGN 1906; (map 63). Local name reported in 1898 as Story Island by Schrader (1900a, pl. 5), USGS. "The island is named for Walter Storey of San Francisco." The present spelling reported in 1909 by Grant and Higgins (1910, pl. 2), USGS.

Storey Slough: stream, 8 miles long, distributary of Copper River, 27 miles SE of Cordova, Malaspina Coastal Plain; 60° 18' N, 145° 12' W; BGN 1906; (map 64). Variant: Story Slough. Local name reported in 1898 by H. P. Ritter, USC&GS.

Storkersen Point: point of land, on Beaufort Sea coast, E point of entrance to Gwydyr Bay, 11 miles SE of Beechey Point, Arctic Plain, 70° 25' 30" N, 148° 43' 30" W; (map 150). Variant:

Point Storkersen. Named Point Storkersen by Leffingwell (1919, p. 99), USGS, "after Storker Storkersen, who worked for Mikkelsen and Leffingwell and later for Stefansson."

Storm Creek: stream, heads in De Long Mountains, flows NE and W 23 miles to join Thunder Creek to form Colville River, Brooks Range; 68° 49' 20" N, 160° 20' 00" W; BGN 1961; (map 131). Named by the 1925 USGS exploring expedition "because of severe storms experienced while near this stream."

Storm Islands: islands, in Stephens Passage, 2 miles N of Cape Fanshaw and 68 miles E of Sitka, Coast Mountains; 57° 13' N, 133° 34' W; (map 8). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, name published in 1888 by USC&GS.

Storm Mountain: mountain, 3,793 ft., in Kenai Mountains, on SE coast of Kenai Peninsula, 34 miles ESE of Homer, Chugach Mountains, 59° 36' N, 150° 37' W; BGN 1929; (map 50). Named by USC&GS in 1929 and so called "because of the stormy conditions in the locality."

Storm Range: ridge, 1.5 miles long, 1.5 miles SE of Mount Ogilvie and 38 miles N of Juneau, Coast Mountains; 58° 50' 25" N, 134° 14' 45" W; BGN 1965; (map 11). Named by members of the Juneau Icefield Research Project in 1964.

Stormy Creek: stream, on Kenai Peninsula, flows NW 2.5 miles to Mills Creek, 34 miles N of Seward, Chugach Mountains; 60° 36' 25" N, 149° 24' 30" W; (map 63). Local name reported in 1912 by Grant and Higgins (1913, pl. 1), USGS.

Stormy Lake: lake, 2 miles long, on NW coast of Kenai Peninsula, S of Number Three Bay, 16 miles NE of Kenai, Cook Inlet Lowland; 60° 47' N, 151° 02' W; BGN 1966; (map 62). Variant: Three Bay Lake. So named in 1966 by Division of Lands, Department of Natural Resources, Alaska, because the "prevailing winds produce whitecaps."

Stormy Point: point of land, on NW shore of Olga Bay, 31 miles S of Karluk, on SW coast of Kodiak Island; 57° 07' 10" N, 154° 24' 30" W; (map 35). Descriptive local name published in 1943 by USC&GS.

Story Creek: stream, flows N 20 miles to Kuna River, 23 miles NNE of Feniak Lake, Brooks Range; 68° 34' N, 157° 54' W; (map 132). Named in 1951 by B. H. Kent and Island L. Tailleur, USGS, "for an episode on traverse of creek."

Story Island: island, see Storey Island.

Story Slough: stream, see Storey Slough.

Stoss, Cape: point of land, near S end of Russell Fiord, 3.8 miles SE of Sitak Lake and 16 miles NE of Yakutat, St. Elias Mountains; 59° 37' N, 139° 17' W; (map 46). Named in 1891 by Russell (1892, p. 90 and pl. 4).

Stout Island: island, 3 miles across, in Koyukuk River, 5.7 miles E of Allakaket, Kanuti Flats; 66° 32' N, 152° 24' W; (map 117). Named in 1885 by Lt. Allen (1887, map 4), USA.

Stove Creek: stream, flows NW 5.4 miles to Unalakleet River, 22 miles E of Unalakleet, Nulato Hills; 63° 56' 35" N, 160° 05' 05" W; (map 91). Local name reported in 1952 by USC&GS.

Straight Creek: stream, flows E 2.7 miles to Birch Creek, 5.5 miles NE of Long and 20 miles SE of Ruby, Kilbuck-Kuskokwim Mountains; 64° 27' 36" N, 155° 22' 10" W; BGN 1936; (map 98). Prospectors' name reported in 1913 by Eakin (1914, pl. 3), USGS.

Straight Creek: stream, flows NW 3.5 miles to Goldstream Creek, 16 miles W of Fairbanks Yukon-Tanana Highlands; 64° 52' N, 148° 15' W, (map 100). Named by prospectors; published in 1906 by USGS.

Straight Creek: stream, flows NW 5 miles to Sulatna River, 14 miles NE of Sulatna Crossing and 17 miles SW of Monzonite Hills, Kilbuck-Kuskokwim Mountains; 64° 15' N, 155° 01' W; (map 98). Local name reported about 1952 by USGS.

Straight Creek: stream, in Tordrillo Mountains, heads at glacier E of Mount Spurr, flows SE 9 miles to Chakachatna River, 24 miles W of Tyonek, Alaska Range; 61° 09' 15" N, 151° 50' 30" W; BGN 1930; (map 70). Named in 1927 by S. R. Capps and R. H. Sargent (in Smith and others, 1929, pls. 1, 2), USGS, "because of the straight course of the river."

Straight Creek: stream, on N coast of Kuiu Island, flows NW 2.5 miles to Saginaw Bay, Alexander Archipelago; 56° 50' 30" N, 134° 06' 30" W; (map 5). Local name recorded in 1948 by USGS.

Straight Island: island, extends NE-SW 3.1 miles in Yukon River, 5 miles NE of Ruby, Nowitna Lowland; 64° 48' N, 155° 23' W, (map 98). Riverboat pilots' name shown on 1940 "Navigation Chart, Tanana-Yukon River" of the River Boat Service, U.S. Dept. of Interior.

Straightaway Glacier: glacier, in Mount McKinley National Park, trends NW 13 miles from Mount Crosson to its 1954 terminus, 3.5 miles NE of Foraker Glacier terminus and 17 miles WNW of Mount McKinley, Alaska Range; 63° 10' N, 151° 30' W; BGN 1954; (map 88). Variant: Crosson Glacier. Local name reported in 1925 by S. R. Capps, USGS.

Strait Bay: bay, 1 mile across, on S side of Beaver Inlet, W coast of Sedanka Island, 13 miles SE of Dutch Harbor, Aleutian Islands; 53° 47' 45" N, 166° 17' 00" W; (map 23). Name given by J. J. Gilbert, USC&GS, Commander of the Coast Survey steamer Pathfinder during 1900-01.

Strait Creek: stream, flows NW 1.3 miles to Buster Bay, on N coast of Prince of Wales Island, Alexander Archipelago; 56° 19' 40" N, 133° 24' 50" W; (map 6) Local name recorded in 1949 by USGS.

Strait Island: island, 0.7 miles long, in Sumner Strait, 4.5 miles NW of Point Baker, Prince of Wales Island, Alexander Archipelago; 56° 23' 10" N, 133° 42' 30" W; (map 6). Variant: Barrie Island. Named in 1886 by Lt. J. M. Helm, USN; called "Barrie Island" by W. H. Dall (U.S. Coast and Geodetic Survey, 1883, p. 104), USC&GS.

Strait, Cape: point of land, 14 miles NW of Petersburg, on NE coast of Lindenberg Peninsula, Kupreanof Island, Alexander Archipelago; 56° 59' 55" N, 133° 05' 30" W; (map 6). Variant: Cape of the Strait, Cape of the Straits. Published in 1865 on Brit. Adm. Chart 2431 as "Cape of the Straits."

Straits, Cape of the: point of land, see Strait, Cape.

Strand Pass: pass, 3,000 ft., 2.6 miles N of Fish Creek, near SW end of Terra Cotta Mountains, 98 miles NW of Tyonek, Alaska Range; 61° 52' 30" N, 153° 35' 00" W; (map 71). Local name reported in 1958 by USGS.

Strand Peak: mountain, 1,610 ft., 12 miles N of Medfra, Kilbuck-Kuskokwim Mountains; 63° 17' N, 154° 43' W; (map 89). Local name reported in 1920 by G. C. Martin (in Brooks and others, 1922, fig. 5), USGS.

Strandline Lake: lake, 4.6 miles long, in Tordrillo Mountains, N of Triumvirate Glacier, 37 miles NW of Tyonek, Alaska Range; 61° 30' 30" N, 151° 55' 00" W; (map 70). Local descriptive name reported in 1958 by USGS.

Stranger River: stream, flows SW 3 miles to Ilin Bay, on W coast of Chichagof Island, 16 miles NW of Chichagof, Alexander Archipelago; 57° 50' 45" N, 136° 22' 20" W; (map 9). Named by USBF and reported in 1897 by Lt. Comdr. Moser (1899a, p. 128), USN.

Strangle Woman Creek: stream, flows WNW 38 miles to Coleen River, 17 miles NE of Lois Dome and 54 miles NE of Coleen Mountain, Brooks Range; 67° 51' N, 142° 15' W; (map 121). Local name reported in 1956 by T. E. Taylor, USGS.

Stranstrorn Creek: stream, flows SE 25 miles to Bonasila River, 33 miles NW of Holy Cross, Nulato Hills; 62° 30' N, 160° 34' W; (map 78). Local name reported in 1949 by USC&GS.

Strauss Rock: rock, in Stephens Passage, 0.6 miles S. of Shelters Island and 15 miles NW of Juneau, Alexander Archipelago; 58° 21' 45" N, 134° 48' 40" W; (map 11) Named by USC&GS in or prior to 1891 and published in the 1891 Coast Pilot (p. 151).

Straw Pass: water passage, 0.1 miles wide, between an island and S tip of Kosciusko Island, Alexander Archipelago; 55° 54' 05" N, 133° 42' 35" W; BGN 1963; (map 4). Local name "common to fishermen and loggers at Edna Bay;" reported in 1961 by USFS.

Strawberry Channel: channel, 3 miles long, E of NE tip of Hinchinbrook Island, 15 miles SW of Cordova, Chugach Mountains; 60° 24' N, 146° 03' W; (map 64). Name published by USGS in 1959; derived from nearby Strawberry Hill.

Strawberry Harbor: cove, 1 mile wide, at NW end of Controller Bay, 5 miles SE of Katalla, Malaspina Coastal Plain; 60° 10' N, 144° 23' W; (map 64). Local name reported in 1903 by J. F. Pratt, USC&GS.

Strawberry Hill: hill, on NE tip of Hinchinbrook Island, 17 miles SW of Cordova, Chugach Mountains; 60° 24' N, 146° 08' W; (map 64). Local name reported in 1899 by H. P. Ritter, USC&GS.

Strawberry Island: island, 1.6 miles across, W of Beardslee Entrance, in Glacier Bay, Glacier Bay National Monument, 60 miles NW of Juneau, St. Elias Mountains; 58° 31' N, 136° 00' W; BGN 1923; (map 11). Named in 1923 by W. S. Cooper, Univ. of Minnesota.

Strawberry Island: island, 2 miles across, in Grand Wash River, 1.2 miles W of Blizhni Point and 20 miles NW of Yakutat, Malaspina Coastal Plain; 59° 50' N, 139° 50' W; (map 46). Named by Tarr and Martin (1906, map facing p. 145), USGS.

Strawberry Passage: water passage, see Beardslee Entrance.

Strawberry Point: point of land, on S coast of Alaska, 2 miles NW of Kanak Island and 4 miles SE of Katalla, Malaspina Coastal Plain; 60' I O' N, 144° 26' W; (map 64). Local name reported in 1903 by G. C. Martin, USGS.

Strawberry Point: point of land, see Blaine Point.

Strawberry Point: point of land, see Raspberry Cape.

Strawberry Point: village, see Gustavus.

Stream Point: point of land, on N shore of Spiridon Bay, S of Spiridon Lake, on NW coast of Kodiak Island; 57° 39' 10" N, 153° 38' 30" W; BGN 1931; (map 34). Descriptive name given by USC&GS in 1929 "because of the large stream that flows into the cove to the east."

Street Lake: lake, see Streets Lake.

Streets Island: island, 1,000 ft. long, in Clarence Strait, 1.8 miles N of Grindall Island, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 28' 40" N, 132° 08' 15" W; (map 4). Named in 1886 by Lt. Comdr. R. C. Clover, USN.

Streets Lake: lake, 1 mile long, at head of Rocky Bay, on SW coast of Etolin Island, Alexander Archipelago; 56° 06' N, 132° 38' W; BGN 1966; (map 6). Variant: Lake Streets, Street Lake. Named in 1886 by Lt. Comdr. A. S. Snow, USN, for surgeon Thomas Hale Streets, USN, a member of his party.

Strelna Creek: stream, flows SW 14 miles to Kuskulana River, 1.6 miles S of Strelna and 77 miles NE of Valdez, Wrangell Mountains; 61° 29' N, 144° 03' W; (map 68). Ahtena Indian name adopted about 1899 by prospectors.

Strelna: locality, on Strelna Creek 1.7 miles N of its junction with Kuskulana River, 77 miles NE of Valdez, Wrangell Mountains; 61° 30' 40" N, 144° 04' 00" W; (map 68). Mining camp named for the stream, reported by USGS in 1910. The Strelna post office was in operation from 1912 to 1925.

Strelshla Mountain: peak, 5,400 ft., on Anthracite Ridge, 40 miles NE of Palmer, Talkeetna Mountains; 61° 49' 45" N, 147° 58' 30" W; BGN 1933; (map 69). Tanaina Indian name meaning "humped," reported in 1933 by USGS.

Strident Creek: stream, flows NE 10 miles to Jubilee Creek, 7 miles WSW of Liberator Lake, Arctic Slope; 65° 51' N, 158° 37' W; (map 132). Named in 1951 by B. H. Kent, USGS, "for a camping incident," which may have been a noisy argument.

Strike Creek: stream, flows NE 23 miles to Little Kamishak River, 36 miles SW of Augustine Island, Aleutian Range; 59° 01' 15" N, 154° 13' 30" W; (map 51). So named by R. H. Sargent's USGS field party in 1923 because the stream follows the strike of the underlying rock. Published by K. F. Mather (in Brooks and others, 192S pl. 3).

String Creek: stream, flows SE 5.5 miles to Martin Creek, 23 miles NW of Talkeetna, Alaska Range; 62° 25' 35" N, 150° 48' 00" W; (map 81). Local descriptive name reported in 1958 by USGS.

Stringo Lakes: lakes, W of Middle Fork Chandalar River and S of its confluence with Your Creek, 25 miles NE of Chandalar, Brooks Range; 67° 45' N, 147° 48' W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Stripe Mountain: mountain, 2,240 ft., on SW coast of Dall Island; Alexander Archipelago; 54 43' 05" N 132° 50' 50" W; (map 1). Local descriptive name published by USC&GS in 1924.

Stripe Mountain: mountain, 2,746 ft., in Peabody Mountains, 2 miles N of Hidden Inlet, Coast Mountains; 55° 03' 15" N, 130° 17' 50" W, (map 3). Descriptive name given in 1868 by Staff Comdr. David Pender, RN.

Stripe Point: point of land, E entrance point to Crescent Bay' on N coast of Atka Island, Aleutian Islands; 52° 03' 00" N, 175° 11' 45" W; (map 18). Descriptive name applied "because of conspicuous striped, gray rock slides." Published by USC&GS in the 1944 Aleutian Coast Pilot (P 99).

Stripe Rock: rock, in Marmot Bay, 7 miles NE of Afognak, on SE coast of Afognak Island; 58° 02' 30" N, 152° 35' 30" W; BGN 1910; (map 43). Variant: Pillar. Name published by USC&GS in 1910. The name "Pillar" was previously used for this feature by USC&GS, but was later changed because of duplications.

Stroganoff, Pointe: point of land, see Strogonof Point.

Strogonof Point: point of land, on N shore of Alaska Peninsula, NE end of 8-mi.-long barrier beach that extends from SW side of Port Heiden, 10 miles SW of Port Heiden Airfield. Bristol Bay Lowland; 56° 50' N, 158° 52' W; (map 30). Variant: Mys Strogonova, Pointe Stroganoff, Strogonov Point, Strogonoff Point, Cape Strogonoff, Cap du Baron Stroganoff. Shown as "Cap du Baron Stroganoff, meaning "Baron Stroganofs Cape," in A. J von Krusenstern's Atlas of the Pacific Ocean (1827, map 20). The point was possibly named for the early Russian salt merchant, Anika Stroganof. Strogonof Point is shown on an 1890 USBF chart.

Strogonoff Point: point of land, see Strogonof Point.

Strogonoff, Cape: point of land, see Strogonof Point.

Strogonov Point: point of land, see Strogonof Point.

Strogonova, Mys: point of land, see Strogonof Point.

Stroller White Mountain: mountain, see Stroller White, Mount.

Stroller White, Mount: mountain, 5,150 ft., on W side of Mendenhall Glacier, 3 miles NW of Mendenhall Lake and 13 miles NW of Juneau, Coast Mountains; 58° 28' 30" N, 134° 34' 45" W; (map 11). Variant: Stroller White, Stroller White Mountain. Named in 1931 by USFS for Elmer John ("Stroller") White, 1859-1930, a Douglas and Juneau newspaper publisher, who was born in Ohio. He went to Alaska in 1898 and worked for the Skagway News, published the Whitehorse Star, and purchased the Douglas Island News. In 1917 he moved to Juneau where he published the Strollers Weekly. In 1918 he was appointed Chief of the Territorial Bureau of Publicity and later served as Speaker of the Territorial House of Representatives (DeArmond, 1957, p. 41, 42).

Stroller White: mountain, see Stroller White, Mount.

Strong Point: point of land, on NE coast of Kenai Peninsula, at W entrance to Blackstone Bay 7.5 miles E of Whittier, Chugach Mountains; 60° 17' 30" N, 148° 26' 55" W; BGN 1915; (map 63) Local name reported in 1914 by USC&GS.

Stronghold Peak: peak, 6,310 ft., 0.7 miles SE of head of Avalanche Canyon and 32 miles NE of Juneau, Coast Mountains; 58° 45' 15" N, 134° 16' 15" W; (map 11). Local name published in 1960 by USGS.

Struya Point: point of land, on Chichagof Island, on E shore of Bradshaw Cove, 3 miles NE of Salisbury Sound and 25 miles SE of Chichagof, Alexander Archipelago; 57° 23' 00" N, 135° 39' 45" W; BGN 1930; (map 9). Named in 1930 by USC&GS. "Struya" is the Russian word meaning "ripple" and refers to the ripples caused by tidal swirls off this point.

Stuart Canal: watercourse, see Stuart Island Canal.

Stuart Creek: stream, flows E 12 miles to Tsina River 1 mile SW of its junction with Tiekell River and 34 miles NE of Valdez, Chugach Mountains; 61° 15' 30" N, 145° 16' 45" W; (map 68). Local name reported in 1900 by F. C. Schrader, USGS.

Stuart Creek: stream, flows N 5.3 miles to Fairview Creek, 30 miles NW of Nome, Seward Peninsula Highlands; 64° 47' N, 166° 12' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Stuart Creek: stream, flows NE 11 miles to South Fork Chena River 11 miles SSE of that stream's mouth and 46 miles NW of Big Delta, Yukon-Tanana Highlands; 64° 45' 15" N, 146° 28' 45" W; (map 101). Local name reported in 1958 by USGS.

Stuart Island Canal: watercourse, 6.3 miles long, divides Stuart Island in half from its S shore to North Bay, 16 miles NW of St. Michael, Yukon-Kuskokwim Delta; 63° 32' 30" N, 162° 33' 00" W; (map 92). Variant: Stuart Canal. Named in 1898 by USC&GS. published on Chart 9380.

Stuart Island Reef: reef, extends 8 miles to Norton Sound, off SW coast of Stuart Island, 17 miles W of St. Michael, Yukon-Kuskokwim Delta; 63° 32' N, 162° 40' W; (map 92). Local name obtained by USC&GS in 1952.

Stuart Island: island, 11 miles long, in Norton Sound, 10 miles NW of St. Michael, Yukon-Kuskokwim Delta; 63° 35' N, 162° 30' W; (map 92). Variant: Kikhtaknak, Ostrov Styard, Ostrov Styuart, Stuarts Island. Named on September 18, 1778, by Capt. Cook (1785, v. 2, p. 488), RN. Eskimo name was published by Lt. Sarichev (1826, map 4), IRN, as "Kikhataknaq."

Stuart Mountain: hill, 480 ft., on Stuart Island, 15 miles NW of St. Michael, Yukon-Kuskokwim Delta; 63° 36' N, 162° 26' W; (map 92). Named in 1898 by USC&GS.

Stuarts Island: island, see Stuart Island.

Stubble Ridge: mountain, see Magic Mountain.

Stuck Mountain: mountain, 3,800 ft., 4 miles W of Willow Lake and 55 miles NE of Valdez, Chugach Mountains; 61° 46' 40" N, 145° 18' 10" W; (map 68). Named Stuck Mountain in 1898 by Capt. W. R. Abercrombie, USA.

Stuck: mountain, see Stuck Mountain.

Stugarok: village, see Clarks Point.

Stuhinuk Creek: stream, see Cannery Creek.

Stuk Talj Chak: point of land, see Starichkof, Cape.

Stuk Talj Chin: point of land, see Starichkof, Cape.

Stump Cove: cove, 0.5 miles across, on W shore of Muir Inlet, in Glacier Bay National Monument, 0.3 miles SW of Westdahl Point, 65 miles NW of Hoonah, St. Elias Mountains; 58° 58' 30" N, 136° 09' 00" W; (map 10). Named by members of the American Geographical Society, Glacier Bay Expedition of 1941 (Field, 1947, pl. 1), because of the many stumps of an interglacial forest on the hillside at the head of the bay.

Stump Island: barrier island, 3 miles long, E island of Return Islands, on Beaufort Sea coast, 13 miles SE of Beechey Point, Arctic Plain; 70° 25' N, 148° 36' W; (map 150). Named by Leffingwell (1919, p. 99), USGS, in 1911.

Stump Lake: lake, 2 miles long, largest of Chedatna Lakes, in Susitna River delta, 20 miles NE of Tyonek, Cook Inlet Lowland; 61° 17' N, 150° 42' W; (map 70). Local descriptive name reported in 1958 by USGS.

Sturdevant Rock: rock, in Bering Sea, 12 miles W of Wolf Point, on N coast of Kiska Island, Aleutian Islands; 52° 08' 00" N, 177° 17' 15" E; (map 14). Listed in 1954 Coast Pilot (p. 467) which reports the rock "covered by about 7 fathoms at low water."

Sturgeon Head: point of land, on W coast of Kodiak Island, 7.5 miles SW of Karluk; 57° 30' 40" N, 154° 37' 20" W; (map 35). Name derived from Sturgeon River; published by Capps (1937, pl. 2), USGS.

Sturgeon Ridge: hill, 2,061 ft., 1 mile E of Kuzitrin Lake and 13 miles S of Imuruk Lake, Seward Peninsula Highlands; 65° 23' N, 163° 07' W; BGN 1952; (map 110). Reported in 1950 by D. M. Hopkins; so named by a USGS field party because "the hill bears a series of rock monuments along the crest-line so that its profile suggests the spiny back of a sturgeon."

Sturgeon River: stream, heads at 57° 27' N, 154° 15' W, flows SW and NW 23 miles to Shelikof Strait, 3.5 miles SW of Karluk, on W coast of Kodiak Island; 57° 32' 30" N, 154° 31' 30" W; (map 35). Variant: Shipinskaia River. Translation by USBF in 1888 of the Russian name "R[eka] Shipinskaya" published by Capt. Tebenkov (1852, map 22), IRN.

Sturgess Island: island, 0.6 miles across, in Glacier Bay, in Glacier Bay National Monument, 1.6 miles NW of Sandy Cove, 48 miles NW of Hoonah, St. Elias Mountains; 58° 43' 20" N, 136° 03' 00" W; (map 10). Name published on Brit. Adm. Chart 2431 in 1890.

Stuver Creek: stream, flows NE from Nutzotin Mountains 53 miles to Chisana River 12 miles SE of Northway, Alaska Range; 62° 50' N, 141° 40' W; (map 84). Named in 1902 by D. C. Witherspoon, USGS, for Charles H. Stuver, a member of the exploration party.

Stuver, Mount: mountain, 6,220 ft., at head of Akvalutak Creek, E of Anaktuvuk River, 12 miles NE of Anaktuvuk Pass, Brooks Range; 68° 12' 30" N, 151° 20' 00" W; (map 134). Named Stuver Mountain in 1901 by F. G. Schrader or W. J. Peters, USGS, for Charles H. Stuver, a member of their field party (Schrader, 1904, map).

Stuyahak River: stream, see Stuyahok River.

Stuyahok River: stream, flows N 75 miles to Bonasila River, 38 miles NW of Holy Cross, Nulato Hills; 62° 28' 15" N, 160° 49' 20" W; (map 78). Eskimo name meaning "the going down way" reported in 1916 by G. L. Harrington (in Brooks, 1918, pl. 16), USGS.

Stuyahok River: stream, heads at 59° 48' N, 155° 51' W, flows SW 30 miles to Swan River, 58 miles W of Iliamna, Bristol Bay Lowland; 59° 44' N, 156° 21' W; (map 52). Variant: Stuyahak River. Eskimo name reported in 1954 by USGS.

Stuyahok: settlement, in Iliwit Mountains, near head of Stuyahok River, 22 miles NE of Russian Mission, Nulato Hills; 62° 03' 35" N, 160° 57' 00" W; (map 78). Name of mining camp shown on recent USGS maps.

Stuyarok River: stream, flows NW 16 miles to Mulchatna River, 75 miles NE of Dillingham, Bristol Bay Lowland; 59° 50' N, 156° 42' W; (map 52). Variant: Estu-y-a-rok. Eskimo name reported as "Estu-y-a-rok" on a 1910 manuscript map by H. C. Fassett, USBF.

Stuyarok: locality, on Mulchatna River, 75 miles NE of Dillingham, Bristol Bay Lowland; 59° 50' N, 156° 42' W; (map 52). Eskimo village or camp reported in 1890 by A. B. Schanz, in Frank Leslie's Illustrated Newspaper.

Styard, Ostrov: island, see Stuart Island.

Styleman, Point: point of land, at N entrance to Port Snettisham, on Stephens Passage, 2 miles SW of Mist Creek and 29 miles SE of Juneau, Coast Mountains, 57° 58' 30" N, 133° 53' 45" W; (map 8). Variant: Mys Steylmen. Named by Capt. George Vancouver, RN, after its discovery by Lt. Joseph Whidbey on Aug. 12, 1794, for Henry Styleman of Snettisham, England (Wagner, 1937, p. 17). This name was published in 1848 as "Mys Steylmen," by the Russian Hydrog. Dept. on Chart 1396.

Styuart, Ostrov: island, see Stuart Island.

Styx Lake: lake, 0.5 miles long, in Ptarmigan Valley, 3.8 miles NE of junction of Styx River and Ptarmigan Creek, 90 miles NW of Tyonek, Alaska Range; 61° 58' N, 153° 06' W; (map 17). Local name reported in 1958 by USGS.

Styx River: stream, heads at glacier, flows N 35 miles to South Fork Kuskokwim River 5.4 miles SE of its junction with Hartman River, 90 miles NW of Tyonek, Alaska Range; 61° 54' 45" N, 153° 11' 20" W; (map 71). Named in 1898 by W. S. Post and J. E. Spurr, USGS, after the chief river of the lower world in Greek mythology.

Su-lan-na: locality, see Lulanna.

Sub Point: point of land, on S shore of Kiska Harbor, on E coast of Kiska Island, Aleutian Islands; 51° 57' 25" N, 177° 34' 00" E; (map 14). Shown on recent maps of Kiska Island.

Subienna Bay: bay, see Massacre Bay.

Sublik Mountains: mountain range, see Shublik Mountains.

Sublik Springs: springs, see Shublik Spring.

Submarine Creek: stream, flows NW 4.7 miles to Mystery Creek, 13 miles NW of Medfra, Kilbuck-Kuskokwim Mountains; 63° 17' N, 154° 49' W; (map 89). Local name reported in 1924 by J. S. Brown (in Smith, P. S., and others, 1926, map), USGS.

Submarine Lake: lake, 1.3 miles long, 0.5 miles NW of Farewell Lake, 2.5 miles W of junction of South Fork Kuskokwim and Dillinger Rivers and 67 miles SE of McGrath, Kuskokwim Lowland; 62° 34' 30" N, 153° 41' 00" W; (map 80). Local name obtained in 1958 by USGS.

Sucheen River: stream, see Stikine River.

Suchitna Mountain: mountain, see Susitna, Mount.

Suchitna River: stream, see Susitna River.

Suchitna Station: village, see Susitna.

Suchitno River: stream, see Susitna River.

Sucho: bay, see Dry Spruce Bay.

Suchoi Channel: water passage, see Dry Strait.

Sucia Ledge: reef, at S end of Portillo Channel, between Lulu and San Fernando Islands, Alexander Archipelago; 55° 27' N, 133° 25' W; BGN 1923; (map 4). Spanish nautical word meaning "foul," given in 1923 by USC&GS. The triangulation station Foul is located on this feature.

Sucker Creek: stream, flows SW 55 miles to Holikachuk Slough, 3.4 miles N of Holikachuk and 53 miles N of Holy Cross, Innoko Lowland; 62° 57' 40" N, 159° 32' 10" W; (map 78). Local name obtained in 1952 by USGS.

Sucker Lake: lake, 0.4 miles long, on Kenai Peninsula WNW of Canoe Lake, 23 miles NE of Kenai, Cook Inlet Lowland; 60° 43' 15" N, 150° 40' 45" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Sucker Lake: lake, 0.6 miles long, NE of Big Lake 24 miles N of Anchorage, Cook Inlet Lowland; 61° 33' 25" N, 149° 49' 25" W; BGN 1954; (map 69). Variant: Rocky Lake. Local name reported in 1953 by USGS.

Sucker Lake: lake, 1.2 miles long, between Upper and Lower Sucker Creeks, 41 miles NE of Tyonek, Cook Inlet Lowland; 61° 39' 15" N, 150° 54' 00" W; (map 70). Local name reported in 1935 by USGS.

Sucker Lake: lake, 3 miles long, N of Tazlina Lake, 27 miles SW of Glennallen, Copper River Basin; 62° 01' 30" N, 146° 20' 00" W; (map 83). Local name reported by USGS in 1949.

Sucker River: stream, S tributary of Little Black River, flows NW 50 miles to Porcupine River, 4 miles NE of Fort Yukon, Yukon Flats; 66° 36' 40" N, 145° 12' 00" W; BGN 1959; (map 119) This name, presumably a translation of an Indian name, was given in 1889-by J. H. Turner, USC&GS, to what is now called the Coleen River. The application of the name "Sucker" was changed about 1900.

Sucker River: stream, see Rapid River.

Suckik Creek: stream, flows SW 6 miles to Timber Creek, N of Button Mountain, 47 miles SW of Wiseman, Brooks Range; 67° 11' 30" N, 151° 46' 00" W; BGN 1932; (map 124). Local name "for an Eskimo prospector, Charlie Suckik * * *"; reported by Robert Marshall in 1932.

Suckling Hill: hills, extend NE-SW 10 miles, 2 miles N of Cape Suckling, near 1950 terminus of Bering Glacier, 74 miles SE of Cordova, Malaspina Coastal Plain; 60° 03' N, 143° 47' W; (map 65). Name derived from nearby Cape Suckling and published in 1951 by USGS.

Suckling, Cape: point of land, on Gulf of Alaska, 6 miles SE of Controller Bay and 75 miles SE of Cordova, Malaspina Coastal Plain; 59° 59' 30" N, 143° 53' 00"; (map 47). Variant: Cabo Chupador, Cabo de San Elias, Punta de la Isia. Named by Capt. Cook (1785, v. 2, p. 349), RN, May 10, 1778, for Maurice Suckling, Comptroller of the Royal Navy when Cook left

England. Malaspina's manuscript chart of 1791 shows Cabo Chupador meaning "sucking" or "suckling." The name Cabo de San Elias appears on Camacho's chart showing results of the Don Ignacio Arteaga expedition in 1779 with Francisco Antonio Maurelle as pilot (Wagner, 1937, p. 498).

Suckqwan: locality, see Sukkwan.

Sud Island: island, 1 mile long, in Gulf of Alaska one of Barren Islands, 5 miles SW of Nord Island, 67 miles NE of Afognak, Chugach Mountains; 58° 54' 00" N, 152° 12' 30" W; BGN 1908; (map 43) Named by USC&GS in 1908. The name is a French word meaning "south."

Sud, Ile du: rock, see South Island.

Sudak, Cape: point of land, on E coast of Tanaga Island, Aleutian Islands; 51° 50' 30" N, 177° 37' 40" W; (map 17). Variant: Mys Sudakh. Russian name published by Capt. Tebenkov (1852, map 28), IRN, as M[ys] Sudakh, "Cape Sudak."

Sudakh, Mys: point of land, see Sudak, Cape.

Sudden Stream: stream, heads in lake at terminus of Malaspina Glacier, flows S 2 miles to Yakutat Bay, 8 miles SW of Blizhni Point and 18 miles NW of Yakutat, Malaspina Coastal Plain; 59° 47' 00" N, 139° 58' 30" W, (map 46). Local name published by USGS in 1951.

Sudueste, Punta: point of land, "on the southwest point of San Fernando Island in Bucareli Bay," Alexander Archipelago; (map 4). Spanish name meaning "southwest point found on the maps of the 1779 Arteaga expedition (Wagner, 1937, p. 517).

Sue Creek: stream, heads in Horn Mountains, flows SE 16 miles to Kuskokwim River, 36 miles E of Aniak, Kilbuck-Kuskokwim Mountains; 61° 35' 3 N, 158° 26' 00" W; BGN 1948; (map 72). Local name reported in 1945 by USGS.

Suedla Island: island, 0.3 miles across, in Auke Bay off SW coast of Mendenhall Peninsula, 0.1 miles N of Spuhn Island and 9 miles NW of Juneau, Coast Mountains; 58° 21' 00" N, 134° 39' 30" W; (map 11). Local name apparently formed by combining the initial letters of several names or words. Its origin is unknown (DeArmond, 1957, p. 42).

Suemez Island: island, 9.5 miles across, E of Bucareli Bay, Alexander Archipelago; 55° 16' N, 133° 21' W; (map 4). Variant: Isla de Guemes, Isla Suemez, Ostrov Syumetsy. Spanish name given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco, Antonio Maurelle as "Isle Suemez," i.e. "Suemez Island"; shown as "Guemes" by D. A. Galiano (1802, map 2). It may have been named "Guemes" for "the Viceroy" (Wagner 1937, p. 460).

Suemez, Isla: island, see Suemez Island.

Sufus Creek: stream, flows NE 0.3 miles to Nome River, 0.4 miles upstream from Extra Dry Creek and 7 miles NE of Nome, Seward Peninsula Highlands; 64° 34' N, 165° 16' W; (map 94). Variant: Rufus Creek. Prospectors' name reported on the 1903 Campion Mining and Trading Co. map by George M. Ashford. Reported as "Rufus Cr." on a map by S. E. King dated 1900.

Sugakuik Creek: stream, see Sugakvik Creek.

Sugakvik Creek: stream, flows SE 3 miles to Killik River W of its junction with Easter Creek, Brooks Range; 68° 08' N, 154° 10' W; (map 133). Variant: Sugakuik Creek. Eskimo name meaning "resting place," obtained in 1956 at Anaktuvuk Pass by Orth.

Sugar Creek: stream, flows 1 mile E to Bering Sea, on N coast of Kiska Island, Aleutian Islands; 52° 05' 45" N, 177° 40' 15" E; (map 14). An arbitrary name beginning with "S" to correspond to "S" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Sugar Hill: hill, 400 ft, on N coast of Kiska Island, Aleutian Islands; 52° 06' 45" N, 177° 39' 50" E; (map 14). An arbitrary name beginning with "S" to correspond to S grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Sugar Loaf Creek: stream, flows SE 2.8 miles to Fairhaven Creek, 37 miles N of Haycock, Seward Peninsula Highlands; 65° 44' N, 161° 07' W; (map 109) Local name published on maps after 1950.

Sugar Loaf Island: island, see Hive Island.

Sugar Loaf Mountain: mountain, 4,450 ft., 4 miles SW of Dora Peak, and 6 miles SE of Healy, Alaska Range; 63° 47' 30" N, 148° 49' 00" W; (map 87). Variant: Sugar Mountain. Local descriptive name reported in 1950 by USGS.

Sugar Loaf, Cape: promontory, see Sugarloaf Mountain.

Sugar Loaf: mountain, see Pinnacle Mountain.

Sugar Mountain: mountain, see Sugar Loaf Mountain.

Sugar Top: mountain, 1,827 ft., 41 miles NW of Haycock, Seward Peninsula Highlands; 65° 48' N, 161° 18' W; (map 109). Local name published on maps after 1950.

Sugarloaf Head: point of land, on S coast of Semisopochnoi Island, Aleutian Islands; 51° 52' 45" N, 179° 73' 40" E; BGN 1937; (map 15). Reported by personnel of the U.S.S. Oglala in 1935, and named for nearby Sugarloaf Peak.

Sugarloaf Island: island, 0.7 miles across, one of Barren Islands, 1.3 miles S of Amatuli Islands, in Gulf of Alaska, 68 miles NE of Afognak, Chugach Mountains; 58° 53' 10" N, 152° 02' 15" W; (map 43). Probably named by Capt. Dixon (1789, p. 69), RN, of the vessel Queen Charlotte (1785-88).

Sugarloaf Island: island, 0.8 miles across, in Gulf of Alaska, at mouth of Dixon Harbor, in Glacier Bay National Monument, 54 miles NW of Hoonah, St. Elias Mountains; 58° 19' N, 136° 52' W; (map 10). Descriptive name given by USC&GS and published in 1889.

Sugarloaf Knob: point of land, 1 mile NE of Sugarloaf Head, on SE coast of Semisopchnoi Island, Aleutian Islands, 51° 53' 10" N, 179° 39' 00" E; (map 15). Name published on a 1943 U.S. Army Corps of Engineers map.

Sugarloaf Mountain: mountain, 1,680 ft., in Kuskokwim Mountains, on N bank of Moore Creek, 36 miles E of Flat, Kilbuck-Kuskokwim Mountains; 62° 32' 30" N, 156° 54' 00" W; (map 79). Local name obtained in 1952 by USGS topographers.

Sugarloaf Mountain: mountain, 1,725 ft., on W coast of Baranof Island, 4.5 miles SE of Sitka, Alexander Archipelago; 57° 01' 40" N, 135° 13' 20" W; (map 9). Variant: Sugarloaf. Local descriptive name published in 1900 by USC&GS. The mountain has a conical shape like a loaf of refined sugar, now rarely made.

Sugarloaf Mountain: mountain, 3,050 ft., in Chigmit Mountains, on NW shore of Iniskin Bay, Aleutian Range; 59° 45' 40" N, 153° 29' 00" W; (map 51). Descriptive name reported in 1904 by G. C. Martin, USGS.

Sugarloaf Mountain: mountain, 3,484 ft., 0.6 miles E of Solomon Lake and 3.7 miles S of Valdez, Chugach Mountains; 61° 03' 50" N, 146° 16' 00" W; (map 68). Variant: Quay Peak. Local name reported in 1911 by USGS. Originally named "Quay Peak" in 1898 by Capt. Abercrombie, USA, for the Hon. M. S. Quay, U.S. Senator from Pennsylvania.

Sugarloaf Mountain: peak, 2,085 ft., 12 miles N of Naknek Lake, on Alaska Peninsula at NW corner of Katmai National Monument, 30 miles NE of Naknek, Aleutian Range; 58° 53' 30" N, 155° 57' 45" W; (map 42). Variant: Sugarloaf Peak. Named "Sugarloaf Peak" in 1890 by USBF.

Sugarloaf Mountain: peak, 5,341 ft., in Amphitheater Mountains, E of Lower Tangle Lake, 16 miles NW of Paxson, Alaska Range; 63° 08' 40" N, 145° 55' 05" W; (map 86). Variant: Sugar Loaf Mountain. Local name reported in 1949 by T. L. Pewe, USGS.

Sugarloaf Mountain: promontory, 1,380 ft., on S coast of St. Matthew Island, 13 miles W of Cape Upright; 60° 19' N, 172° 37' W; (map 56). Variant: Cape Sugar Loaf, Mys Sakha Golovy, Mys Sikharnoy Golovy, Pain du Sucre, Sikarnoi Golovie. Called by the Russians "My[s] Sikharnoy golovy" (Hydrog. Dept. Chart 1427, dated 1849) and "My[s] Sakha Golovy" (Tebenkov, 1852, map 20), both names meaning "Cape Sugar Loaf." Capt. Lutke (1836, p. 341), IRN, calls it "Pain de Sucre," "sugarloaf," so called from its appearance.

Sugarloaf Peak: peak, see Sugarloaf Mountain.

Sugarloaf Peak: volcano, 2,870 ft., on S Semisopchnoi Island, Aleutian Islands; 51° 54' 00" N, 179° 37' 50" E; BGN 1952; (map 15). Variant: Sugar Loaf Peak. Named by the U.S. Navy North Pacific Exploring Expedition in 1855. According to R. R. Coats, USGS, the name may have been originally applied to a 1620-foot cinder cone on its flank.

Sugarloaf Rock: rock, see Humpback Rock.

Sugtutlig Mountain: mountain, 2,470 ft., 3 peaks, 10 miles S of Island Mountain and 17 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 19' N, 161° 20' W; (map 53). Eskimo

name reported to mean “old high mountain”; obtained at Goodnews about 1951 by J. M. Hoare, USGS.

Suhti Island: island, 1,000 ft. across, in Tuxekan Passage, SE of Tuxekan Island, 22 miles N of Craig, Alexander Archipelago; 55° 47' 00" N, 133° 14' 40" W (map 4). Indian name published in 1964 by USC&GS.

Suichi: rocks, see Sealion Rocks.

Suicide Cove: cove, 0.2 miles across, on E shore of Stephens Inlet, 1 mile S of Slocum Inlet and 18 miles SE of Juneau, Coast Mountains; 58° 07' 50" N, 134° 04' 15" W; (map 11). Local name published in 1951 by USGS.

Suicide Creek: stream, see Chalk Creek.

Suicide Falls: falls, on Cross Bay Creek near its mouth on Gastineau Channel, 2.8 miles SE of Juneau, Coast Mountains; 58° 16' 05" N, 134° 31' 20" W; (map 11). Local name published in 1962 by USGS.

Suicide Peak: mountain, 5,005 ft., at heads of Rainbow and McHugh Creeks, 17 miles SE of Anchorage, Chugach Mountains; 61° 01' 50" N, 149° 34' 25" W; (map 69). Local name reported in 1951 by USGS.

Suikhchak: bay, see Swikshak Bay.

Sukakpak Mountain: mountain, 4,200 ft., S of junction of Dietrich, Bettles, and Middle Fork Koyukuk Rivers, 39 miles WNW of Chandalar, Brooks Range; 67° 36' 30" N, 149° 45' 00" W BGN 1932; (map 123). Eskimo word, said to mean “martin deadfall,” reported about 1930 by Robert Marshall (1956, map).

Sukhago Yelnika, Poluostrov: island, see Dry Spruce Island.

Sukhlikh Island: island, see Suklik Island.

Sukhoi Bay: bay, 1.5 miles across, 7 miles W of Alitak Bay, at S end of Kodiak Island; 56° 57' N, 154° 21' W; (map 32). Variant: Dry Bay. Transliteration by USC&GS in 1910 of the Russian “Z[aliv] Sukhoi,” meaning “Dry Bay”; published by Capt. Tebenkov (1852, map 22). Baker (1906, p. 226) published the translation “Dry Bay.”

Sukhoi Lagoon: lagoon, 2.5 miles long, 5 miles W of Alitak Bay, at S end of Kodiak Island, 56° 57' N, 154° 18' W; (map 32). Russian name meaning “dry,” derived from Sukhoi Bay, and published in 1943 by USC&GS. This lagoon is reported by USC&GS to be dry at low tide.

Sukhoi Strait: water passage, see Dry Strait.

Sukhoi: bay, see Dry Spruce Bay.

Sukhoy Bay: bay, see Sukoi Bay.

Sukhoy Proliv Blind Slough: stream, see Blind River.

Sukhoy Proliv: estuary, see Blind Slough.

Sukhoy Yelnik, Zaliv: bay, see Dry Spruce Bay.

Sukhoy, Proliv: water passage, see Dry Strait.

Sukhoy, Proliv: water passage, see Hayward Strait.

Sukisalnut Point: point of land, see Sakisalnut Point.

Sukkwan Island: island, 15 miles long, between Dall and Prince of Wales Islands, Alexander Archipelago; 55° 06' N, 132° 46' W; (map 4). Name recorded in 1897 by Lt. Comdr. J. F. Moser, USN; published in 1899 by USC&GS.

Sukkwan Lake: lake, 1.3 miles long, near S end of Sukkwan Island, Alexander Archipelago: 55° 02' 30" N, 132° 45' 35" W; (map 4). Local name published in 1960 by USFS.

Sukkwan Narrows: water passage, at N entrance to Sukkwan Strait, W of Hydaburg, on W coast of Prince of Wales Island, Alexander Archipelago; 55° 12' N, 132° 49' W; (map 4). Local name published in 1905 by USC&GS.

Sukkwan Strait: water passage, 9 miles long, between Prince of Wales and Sukkwan Islands, Alexander Archipelago: 55° 10' N, 132° 46' W; BGN 1916; (map 4). Local name recorded in 1897 by Lt. Comdr. J. F. Moser, USN: published in 1899 by USC&GS.

Sukkwan: locality, on Sukkwan Island, at head of Cordova Bay, Alexander Archipelago; (map 4). Variant: Sakoa-n, Shakan, Shakwan, Shaw-a-gan, Shou-a-gan, Show-a-gan, Ssokaon, Suckqwan, Suqq-an. Former Tlingit Indian village or camp name published in 1895 by USC&GS. According to Hodge (1910, p. 648), the name "Sukkwan" was (said [by R. S. Swanton, BAE], to be from Tlingit suqq-an, 'grassy town'). A Haida town of the Koetas family, formerly on Cordova Bay, in the Kaigani country, Alaska. In 1836-41 John Work stated, "the number of houses here was 14 and the number of people 229." The population was absorbed by the village of Kaigani, which, in turn, was abandoned in 1911, when the village of Hydaburg was established, in order to centralize the school system. See Kaigani.

Suklik Island: island, 0.6 miles long, 1.5 miles E of Chowiet Island, in Semidi Islands, in Pacific Ocean, Aleutian Range; 56° 03' N, 156° 38' W; (map 31). Variant: Sukhlikh Island. Native name reported in 1874 by W. H. Dall, USC&GS, as "Sukhlikh Island."

Suklowik Mountain: mountain, see Saklowik Mountain.

Sukoi Bay: bay, extends W 3 miles on NE coast of Alaska Peninsula in Katmai National Monument, N of Cape Douglas, 31 miles S of Augustine Island, Aleutian Range: 58° 52' N, 153° 16' W; (map 43). Variant: Dry Bay, Sukhoy Bay, Sukoi Cove. This name is a transliteration of "Z[aliv] Sukhoy," or "Sukhoy Bay," published by Capt. Tebenkov (1852, map 22), IRN.

Sukoi Cove: bay, see Sukoi Bay.

Sukoi Inlet: water passage, extends S 6 miles from Salisbury Sound to Krestof Sound between Partishkof and Kruzof Islands, 17 miles NW of Sitka, Alexander Archipelago; 57° 14' N, 135° 36' W; BGN 1931; (map 9). Variant: Dry Strait, Hayward Strait, Souhoi Strait, Soukhoi Strait. It was called "Sukoi," meaning "dry," by the Russians, because at low water the inlet becomes partly dry. It was originally named "Hayward's Straits" in 1787 by Capt. Nathaniel Portlock, for Samuel Hayward, the third mate of Portlock's ship (Wagner, 1937, p. 391). The name "Hayward Strait" is now applied to the passage connecting Krestof and Sitka Sounds.

Sukoi Islets: islands, group of three, extend E-W 1.6 miles, in Frederick Sound, off E coast of Lindenberg Peninsula, Kupreanof Island, 6 miles N of Petersburg, Alexander Archipelago; 56° 53' 30" N, 132° 55' 25" W; (map 6). Indian name published by USC&GS in 1925 Coast Pilot (p. 211).

Sukoi Point: point of land, on NE coast of Kruzof Island, at N end of Sukoi Inlet, on Alexander Archipelago; 57° 19' 20" N, 135° 42' 00" W; BGN 1960 (map 9). Named in 1930 by USC&GS for Sukoi Inlet; published on Chart 8248.

Sukok Lake: lake, 3 miles across, 15 miles S of Barrow, Arctic Plain; 71° 03' 15" N, 156° 48' 15" W; (map 153). Eskimo name recorded by USC&GS about 1950. It seems to be a mistranscription of the name "Sikolik," meaning "having ice."

Suktu River: stream, see Usuktuk River.

Sukwayluk Creek: stream, see Sakvelak Creek.

Sulakpoatokvik Creek: stream, heads on NW side of Nilunorat Hills, flows S 9 miles to Kobuk River, 46 miles ESE of Kobuk, Kotzebue-Kobuk Lowland; 66° 46' N, 155° 14' W; (map 116). Eskimo name obtained at Kobuk by Orth in 1956 and reported to refer to a "place where grayling are caught."

Sulatna Bluff: bluff, on right bank of Sulatna River, near Sulatna Crossing, 38 miles SE of Ruby, Kilbuck-Kuskokwim Mountains; 64° 12' N, 155° 29' W; (map 98). Variant: Tamarack Bluff. Local name published in 1921 by USGS.

Sulatna Bluff: bluff, see Tamarack Bluff.

Sulatna Crossing: locality, on left bank of Sulatna River, 0.5 miles NW of junction of Spangle Creek and Sulatna River and 39 miles S of Ruby Kilbuck-Kuskokwim Mountains; 64° 11' N, 155° 28' W; (map 98). Variant: Tamarack Landing. Name reported in 1923 by ARC; so called because the trail from Ruby to Poorman crossed the Sulatna River at this point.

Sulatna River: stream, flows NE 100 miles to Nowitna River, 6 miles NE of Monzonite Hills and 32 miles SE of Ruby, Nowitna Lowland; 64° 36' N, 154° 28' W; BGN 1916; (map 98). Variant: Solatna, South Fork, Suletna. Prospectors' name reported in 1908 by Maddren (in Brooks and others, 1909, p. 230), USGS.

Sulawig-meuts: village, see Selawik.

Suldahtnah: stream, see Soldotna Creek.

Suletna: stream, see Sulatna River.

Sulima River: stream, see Ugashik River.

Sulima, Reka: stream, see Ugashik River.

Sullivan Bluffs: bluffs, on Seward Peninsula, extends 2.5 miles along Kotzebue Sound, 15 miles W of Deering, Kotzebue-Kobuk Lowland; 66° 04' N, 163° 12' W; (map 113). Local name reported in 1950 by USGS; derived from nearby Sullivan Creek.

Sullivan Camp: locality, see Sullivan.

Sullivan City: locality, see Sullivan.

Sullivan Creek: stream, flows NE to Agiapuk River, about 18 miles NE of Teller, Seward Peninsula Highlands; (map 111). Prospectors' name reported on a precinct map of Seward Peninsula gold fields by Monroe and Hutchins corrected up to June 1903 by Arthur Gibson. This feature cannot be precisely identified on current maps.

Sullivan Creek: stream, flows NW 18 miles between Bear and Sheep Creeks to Pitka Fork Kuskokwim River, 37 miles SE of McGrath, Kuskokwim Lowland; 62° 48' N, 154° 29' W (map 80). Local name obtained in 1954 by USGS.

Sullivan Creek: stream, heads on Serpentine Ridge, flows S 7.5 miles, joins Cache Creek to form Patterson Creek, 34 miles ESE of Tanana Yukon-Tanana Highlands; 65° 02' 30" N, 150° 55' 55" W; (map 106). Prospectors' name reported in 1911 by H. M. Eakin, USGS.

Sullivan Creek: stream, on Seward Peninsula, flows NE 7 miles to Kotzebue Sound, 9 miles W of Deering, Kotzebue-Kobuk Lowland; 66° 04' N, 163° 04' W; (map 113). Variant: May Creek. Name used by local prospectors and reported in 1901 by W. C. Mendenhall, USGS.

Sullivan Island: island, 7.4 miles long, off W shore of Lynn Canal, 2.5 miles SW of Chilkat Islands and 53 miles NW of Juneau, St. Elias Mountains; 58° 53' N, 135° 19' W; (map 11). Variant: Schikuk. Named by Comdr. R. W. Meade, USN, in 1869 for the master of the American Schooner Louisa Downs, which was wrecked on the island in 1867. The name was published by USC&GS in the 1883 Coast Pilot (p. 196). The Tlingit Indian name for this island is "Schikuk" (Krause, 1885, p. 253).

Sullivan Lake: lake, on Seward Peninsula, 0.8 miles across, 12 miles W of Deering, Kotzebue-Kobuk Lowland; 66° 03' N, 163° 09' W; (map 113). Local name reported in 1950 by USGS; derived from nearby Sullivan Creek.

Sullivan Mountain: mountain, 2,000 ft., on Gravina Island, N of High Mountain, 3.7 miles W of Ketchikan, Alexander Archipelago; 55° 22' 00" N, 131° 47' 15" W; (map 3). Named in 1886 by USC&GS.

Sullivan Mountain: mountain, 3,900 ft., 3.3 miles SW of mouth of Glacier River on Chilkat Inlet, 29 miles SSW of Skagway, St. Elias Mountains; 59° 02' 45" N, 135° 27' 15" W; (map 45). Local name obtained by USGS field personnel and published on Federal maps since 1950.

Sullivan Point: point of land, on W coast of Admiralty Island, 1 mile E of Angoon, Alexander Archipelago; 57° 29' 50" N, 134° 33' 30" W; (map 9). Named in 1895 by Lt. Comdr. E. K. Moore, USN.

Sullivan Rock: rock, off W shore of Lynn Canal, 0.2 miles S of Sullivan Island and 52 miles NW of Juneau, St. Elias Mountains; 58° 53' 50" N, 135° 18' 00" W; (map 11). Named in 1869 by the U.S. Navy Hydrog. Office and published by USC&GS in the 1883 Coast Pilot (p. 196).

Sullivan, Point: point of land, on W coast of Kuiu Island 32 miles NE of Port Alexander, Alexander Archipelago; 56° 40' 45" N, 134° 22' 00" W; (map 5). Named by Capt. George Vancouver, RN, on August 8, 1794, "apparently after William Francis Sullivan, who served in the navy during the American war" (Wagner, 1937, p. 418).

Sullivan: locality, in Bluestone River basin, at junction of Alder Creek and Gold Run, 15 miles SE of Teller, Seward Peninsula Highlands; 65° 04' N, 166° 12' W; (map 111). Variant: Sullivan Camp, Sullivan City. Site of a mining camp which was the center of the Bluestone gold mining region. The Bluestone region was staked in the stampedes of 1899, although gold was not found here until 1900 (Brooks, 1901, p. 131). A post office was established here in 1902 and was discontinued in 1909 (Ricks, 1965, p. 62). In 1907 USGS reported that Sullivan "has a summer population of about 50, a post office, and several roadhouses, and is connected with Teller and a landing at the mouth of Tisuk Creek by a regular line of stages" (Collier and others, 1908, p. 59).

Sullivans Roadhouse: locality, right bank of Delta Creek, 15 miles SW of Big Delta, Tanana Lowland; 64° 03' N, 146° 21' W; (map 101). Name of a former roadhouse; reported in 1910 by USGS (Capps, 1912, pl. 1).

Suloia Bay: bight, 1 mile across, at W end of Peril Strait, on SW coast of Chichagof Island, 25 miles SE of Chichagof, Alexander Archipelago; 57° 24' N, 135° 39' W; (map 9). Variant: Sulovoy Bay, Zaliv Suloya. Published in 1848 on Russian Hydrog. Dept. Chart 1397 as "Zal[iv] Suloya," meaning "porridge bay." It was called "Sulovoy," meaning "ripple," by George Kostrometinoff, U.S. court interpreter at Sitka.

Suloia Island: island, see Suloia Islet.

Suloia Islet: island, 200 ft. across, in Suloia Bay, at W end of Peril Strait, 25 miles SE of Chichagof, Alexander Archipelago; 57° 23' 50" N, 135° 39' 25" W; (map 9). Variant: Suloia Island. Named in 1884 by Comdr. J. B. Coghlan, USN; published by USC&GS on Chart 727. The name was derived from Suloia Bay.

Suloia Point: point of land, S point of entrance to Suloia Bay, at W end of Peril Strait, on SW coast of Chichagof Island, 25 miles SE of Chichagof, Alexander Archipelago; 57° 24' N, 135° 39' W; (map 9). Variant: Mys Suloya. Published in 1848 on Russian Hydrog. Dept. Chart 1397 as "M[ys] Suloya".

Suloia Rock: rock, in Suloia Bay, at W end of Peril Strait, 25 miles SE of Chichagof, Alexander Archipelago; 57° 24' 00" N, 135° 39' 20" W; (map 9). Named in 1884 by Comdr. J. B. Coghlan, USN, and published by USC&GS on Chart 727. The name was derived from Suloia Bay.

Suloia, Lake: lake, 2 miles long, on S coast of Chichagof Island, 3 miles NE of Salisbury Sound and 28 miles NW of Sitka, Alexander Archipelago; 57° 25' N, 135° 42' W; BGN 1923; (map 9). Named in 1923 by USFS for nearby Suloia Bay.

Suloktingirak: mountain, 1,150 ft., 2 miles S of Sapumik Creek and 30 miles NE of Kivalina, Brooks Range; 68° 08' N, 163° 58' W; (map 130). Variant: Sooloktingirack. Eskimo name reported in 1966 by E. S. Burch.

Sulovoy Bay: bight, see Suloia Bay.

Suloya, Mys: point of land, see Suloia Point.

Suloya, Zaliv: bight, see Suloia Bay.

Sulphide Gulch: canyon, 2.5 miles long, extends SW from Washbowl Basin, 5 miles SE of Valdez, Chugach Mountains; 61° 02' 30" N, 146° 10' 00" W; (map 68). Local name published in the 1950's by USGS.

Sulphur Creek: stream, formed by junction of Alfield and Monte Cristo Creeks, flows SW 1 mile to Nome River, 22 miles NE of Nome, Seward Peninsula Highlands; 64° 48' N, 165° 13' W; (map 94) Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Sulphur Creek: stream, on Alaska Peninsula, flows NW 3.3 miles to Porcupine Creek 0.8 miles SW of its junction with Becharof Creek, 54 miles NW of Karluk, Aleutian Range; 57° 42' 45" N, 155° 54' 10" W; (map 35). Variant: Porcupine Creek. Local name obtained from J. L. McPherson of Iliamna; published by G. C. Martin (1921, pl. 10), USGS.

Sulphur Point: point of land, on W coast of Great Sitkin Island, Aleutian Islands; 52° 04' 30" N, 176° 00' 30" W; BGN 1936; (map 17). So named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934, "because there is a sulphur spring not far from this point."

Sultana: peak, see Foraker, Mount.

Sulu Creek: stream, see Benson Creek.

Sulua Bay: bay, 1 mile across, part of Portage Bay, at head of Alitak Bay, at S end of Kodiak Island; 57° 00' N, 153° 51' W, BGN 1934; (map 33). Named in 1934 by USC&GS, "from the Eskimo word meaning 'cabin', there being several cabins on both shores of the bay."

Suluak Creek: stream, heads in lake, flows SW 17 miles to Easter Creek 6.3 miles SE of its junction with Killik River, Brooks Range; 68° 05' N, 153° 59' W; (map 133). Eskimo name meaning "hawk feather," reported in 1956 by Orth.

Sulugiak Creek: stream, flows E 4.5 miles from lake, joins Agiagiak Creek to form Okokmilaga River, Brooks Range; 68° 07' N, 153° 08' W; (map 133). Eskimo name obtained in 1956 at Anaktuvuk Pass by T. E. Taylor. USGS.

Sulukna River: stream, heads in Sischu Mountains, flows N 31 miles to Nowitna River, 27 miles SE of Monzonite Hills, Kilbuck-Kuskokwim Mountains; 64° 07' N, 154° 03' W; (map 98). Local name reported in 1915 by H. M. Eakin (in Brooks and others, 1916, pl. 10), USGS.

Sulukpuk Creek: stream, flows NE 5 miles to Paint River, 2 miles W of Akjemguiga Cove, 34 miles SW of Augustine Island, Aleutian Range; 59° 09' 30" N, 154° 17' 30" W; (map 51). Local name published on a 1926 USGS map.

Sulungatak Ridge: ridge, 3,000 ft., extends E-W 7 miles, on De Long Mountains, 37 miles NW of Misheguk Mountain, Brooks Range; 68° 41' N, 161° 54' W; (map 131). Eskimo name published by USGS in 1962.

Sulupoagaklak Channel: stream, see Sulupoagaktak Channel.

Sulupoagaktak Channel: stream, distributary of Kukpuk River, flows NW 7.5 miles to Marrayat Inlet, 10 miles NE of village of Point Hope, Arctic Slope; 68° 24' 15" N, 166° 25' 20" W; (map 129). Variant: Soo-loo-poa-gak-took, Sooloopoagaktuk Channel, Sulupoagaklak Channel. Eskimo name reported in 1950 by USC&GS to mean "it abounds with grayling"; spelled "Soo-loo-poa-gak-took."

Sulutak Creek: stream, flows E 4 miles to Quigmy River, 37 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 11' N, 160° 36' W; (map 53) Eskimo name reported to mean "gold" because gold was once found here; obtained at Goodnews about 1951 by J. M. Hoare, USGS.

Sulven Creek: stream, flows NW 3 miles to Willow Creek which flows to Port Clarence, 3 miles S of Teller, Seward Peninsula Highlands; 65° 13' N, 166° 22' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Sulzer Passage: water passage, 1.5 miles long, between Hetta Inlet and Portage Bay, on Prince of Wales Island, 24 miles SE of Craig, Alexander Archipelago; 55° 17' 15" N, 132° 36' 15" W; (map 4). Named in 1908 by USC&GS; derived from village of Sulzer.

Sulzer, Mount: peak, 10,926 ft., 6.5 miles SE of Russell Glacier terminus and 45 miles NE of McCarthy, St. Elias Mountains; 61° 37' 30" N, 141° 36' 30" W; (map 67). Local name obtained by USGS and published on maps since 1954.

Sulzer: locality, on Prince of Wales Island, near head of Hetta Inlet, on N shore of Sulzer Passage, Alexander Archipelago; 55° 17' 20" N, 132° 37' 15" W; BGN 1966; (map 4). Sulzer: locality, on Prince of Wales Island, near head of Hetta Inlet, on N shore of Sulzer Passage, Alexander Archipelago; 55° 17' 20" N, 132° 37' 15" W; BGN 1966; (map 4).

Sum Dum Glacier: glacier, see Sumdum Glacier.

Sum Dum: bay, see Holkham Bay.

Sumatra Creek: stream, flows NW 2 miles to Portage Creek, in American River basin, 22 miles SE of Ear Mountain and 41 miles NE of Teller, Seward Peninsula Highlands; 65° 45' N, 165° 36' W; (map 111). Variant: Samatra Creek, Summit Creek. Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Sumdum Glacier: glacier, heads on S slope of Mount Sumdum, trends SW 3 miles to Powers Creek, 6 miles E of Harbor Island and 50 miles SE of Juneau, Coast Mountains; 57° 46' 25" N, 133° 28' 35" W; (map 8). Variant: Soundon Glacier, Sum Dum Glacier. Tlingit Indian name reportedly representing the booming sound of the icebergs as they break off from the glacier; published in 1892 by USC&GS as "Soundon."

Sumdum Island: island, 1.5 miles long, in Endicott Arm, 8 miles SE of Harbor Island and 54 miles SE of Juneau, Coast Mountains; 57° 42' 15" N, 133° 27' 30" W; BGN 1900; (map 8). Variant: Fox Island, Sand Island, Soundon Island. Tlingit Indian name published as "Soundon" in 1869 by U.S. Navy Hydrog. Office; the island was called "Sumdum Island" by USC&GS in the 1883 Coast Pilot (p. 168). Locally, it was known as "Fox Island" because of a fox ranch there.

Sumdum, Mount: mountain, 6,666 ft., 7 miles SE Snettisham Peninsula, and 50 miles SE of Juneau, Coast Mountains; 57° 48' 25" N, 133° 26' 05" W; (map 8) Named for Sumdum Glacier on its southern flank and published in 1895 by USC&GS.

Sumdum: locality, pop. 42 (1890), at head of Sanford Cove on S shore of Endicott Arm, 8 miles SE of Harbor Island and 55 miles SE of Juneau, Coast Mountains; 57° 40' 30" N, 133° 28' 45" W; (map 8). Variant: Samdan, Slaodan, Soundun, Sundowns. Former mining town named for Sumdum Glacier; Sumdum post office was intermittently maintained here from 1897 to 1942 (Ricks, 1965, p. 62). This may be the same Sumdum which Hodge (1910, p. 649), BAE, listed as a Tlingit Indian village located at Port Houghton. He noted the population in 1868 as 150.

Summer Bay: bay, 1.7 miles across, E shore of Unalaska Bay, NE coast of Unalaska Island, Aleutian Islands; 53° 54' 45" N, 166° 27' 30" W; (map 23). Variant: Imagninskoe, Indian Bay. Local name reported by W. H. Dall, USC&GS, in 1871. Father Veniaminov (1840, v. 1, p. 184) called it "Imagninskoe." It was reported as "Indian Bay" by G. Davidson, USC&GS, in 1869.

Summer Cove: bight, 0.5 miles across, W of Vega Point, on S coast of Kiska Island, Aleutian Islands; 51° 49' 50" N, 177° 19' 00" E; (map 14). One of many arbitrary names applied to features on Kiska Island by USAAF for tactical purposes during World War II.

Summer Creek: stream, flows NW 5 miles to Norton Sound, 5.5 miles S of Unalakleet, Nulato Hills; 63° 47' 30" N, 160° 45' 30" W; (map 91). Local name reported in 1952 by USC&GS.

Summer Slough: watercourse, 5 miles long, channel of Yukon River N of Paimiut Island and 18 miles SW of Holy Cross, Innoko Lowland; 61° 58' 15" N, 160° 06' 30" W; (map 73). Variant: Paimiut Slough. Steamboat pilots' name shown on a 1922 manuscript chart of the Yukon River.

Summit Broad Pass Station: village and railroad station, see Summit.

Summit Creek: stream, flows E 3 miles to Boulder Creek 3.6 miles S. of that stream's junction with Eisenmenger Fork and 54 miles ENE of Big Delta, Yukon-Tanana Highlands; 64° 23' N, 144° 06' W; (map 101). Local name published in 1956 by USGS.

Summit Creek: stream, flows E 4 miles to Isirku River, 7.5 miles SW of Klukwan and 28 miles SW of Skagway, St. Elias Mountains; 59° 20' 15" N, 136° 04' 40" W; (map 45). Prospectors' name reported by C. W. Wright (1904, pl. 2), USGS.

Summit Creek: stream, flows NE 2.7 miles to Eldorado River, 21 miles NE of Nome, Seward Peninsula Highlands; 64° 45' N, 164° 59' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Summit Creek: stream, flows NW 1 mile to French Creek which flows to North Fork Kougarok Creek, 4 miles SE of Harris Dome and 33 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 36' N, 164° 25' W; (map 110). Prospectors' name shown on a map of Cape Nome sold fields by David Fox, Jr., dated 1901.

Summit Creek: stream, flows S 8 miles to Mulchatna River, 50 miles NW of Nondalton, Lime Hills; 60° 42' 30" N, 155° 13' 00" W; (map 61). Local name reported in 1954 by USGS.

Summit Creek: stream, flows SE 4 miles to Kahiltna River, S of junction of Cache Creek, 34 miles W of Talkeetna, Alaska Range; 62° 20' 25" N, 151° 09' 15" W; (map 81). Local descriptive name reported in 1958 by USGS.

Summit Creek: stream, flows W 18 miles to Mulchatna River, 60 miles NE of Nondalton, Alaska Range; 60° 49' 15" N, 154° 24' 30" W; (map 61). Local name reported in 1914 by P. S. Smith and R. H. Sargent, USGS.

Summit Creek: stream, on Kenai Peninsula, flows NE 4 miles to Resurrection River, 20 miles NW of Seward, Chugach Mountains; 60° 19' 05" N 149° 48' 00" W; (map 63). Local name reported in 1912 by Grant and Higgins (1913, pl. 1), USGS.

Summit Creek: stream, on Kenai Peninsula, flows SE 5 miles to Quartz Creek, S of Gilpatricks, 32 miles N of Seward, Chugach Mountains, 60° 35' 45" N, 149° 32' 45" W; (map 63). Local name reported in 1898 by USGS (1899, map 6).

Summit Creek: stream, see Sumatra Creek.

Summit Creek: stream, see Surprise Creek.

Summit Glacier: glacier, trends NE 6 miles to Shakes Glacier, 25 miles E of Petersburg, Coast Mountains; 56° 50' N, 132° 13' W; (map 6). So named in 1887 by Lt. Comdr. C. M. Thomas, USN, "because of its high elevation."

Summit Island: island, 0.2 miles long, in Dry Strait at mouth of Stikine River, off E coast of Mitkof Island, Alexander Archipelago; 56° 36' N, 132° 32' W; (map 6). Local name recorded in 1948 by USGS.

Summit Island: island, 0.6 miles long, in Rocky Pass of Keku Strait between Kuiu and Kupreanof Islands, 22 miles N of Point Baker, Alexander Archipelago; 56° 40' 30" N, 133° 43' 30" W; (map 6). Descriptive name given for charting purposes by USC&GS in 1932 Coast Pilot (p. 258).

Summit Island: island, 2.5 miles long, 3 miles S of Rocky Point and 17 miles NE of Hagemeister Island Kilbuck-Kuskokwim Mountains; 58° 50' N, 160° 12' W; (map 39). Local descriptive name published in 1943 by USC&GS on Chart 8802.

Summit Lake: lake, 0.4 miles long, in Chulitna Pass, at head of Pass Creek, 39 miles SW of Cantwell, Talkeetna Mountains; 62° 54' 15" N, 49° 36' 30" W; (map 82). Local descriptive name reported in 1931 by USGS.

Summit Lake: lake, 0.8 miles long, most easterly of Summit Lakes, on Phipps Peninsula, 2.8 miles SW of Yakutat, Malaspina Coastal Plain; 59° 30' 30" N, 139° 45' 30" W; (map 46). Local name published in 1964 (de Laguna and others, map 4).

Summit Lake: lake, 1,500 ft. long, in Kanatak Pass, on E coast of Alaska Peninsula, 50 miles E of Ugashik, Aleutian Range; 57° 35' 15" N, 156° 03' 45" W; (map 36). Name reported in 1902 by J. L. McPherson of Iliamna; published by G.C. Martin (1921, pl. 10), USGS.

Summit Lake: lake, 1.5 miles long, on Kenai Peninsula, along Canyon Creek, 34 miles N of Seward, Chugach Mountains; 60° 37' 45" N, 149° 30' 30" W; (map 63). Local name reported in 1912 by Grant and Higgins (1913, pl. 1), USGS. Name derived from nearby Summit Creek.

Summit Lake: lake, 2 miles long, at head of Tlikakila River, SW of Lake Clark Pass, 50 miles NW of Kenai, Aleutian Range; 60° 47' 30" N, 152° 47' 30" W; (map 62). Local name reported in 1958 by USGS.

Summit Lake: lake, 2.4 miles long, 2.3 miles SE of Falls Creek, 69 miles NE of Valdez, Chugach Mountains; 61° 18' 25" N, 144° 09' 25" W; (map 68). Descriptive name given in 1900 by F. C. Schrader and A. C. Spencer, USGS.

Summit Lake: lake, 5.5 miles long, source of White Pass Fork, S of White Pass on Alaska-Canada boundary, 13 miles NE of Skagway, Coast Mountains; 59° 37' 15" N, 135° 08' 05" W; (map 45). Local descriptive name reported in 1917 by the Canadian Permanent Committee on Geographical Names.

Summit Lake: lake, 6,000 ft. across, 1.2 miles NE of junction of Upper Willow and Willow Creeks, 13 miles NW of Palmer, Talkeetna Mountains; 61° 46' N, 149° 19' W; (map 69). Local name reported in 1942 by AMS.

Summit Lake: lake, 7 miles long, W of Richardson Highway, 3 miles NW of Paxson, Alaska Range; 63° 07' 45" N, 145° 31' 40" W; (map 86). Local name reported in 1900 by T. G.

Gerdine, USGS. So named because of its location near the pass between the Delta and Gulkana Rivers.

Summit Lake: lake, on Prince of Wales Island, E of Hetta Inlet, at head of Reynolds Creek, Alexander Archipelago; 55° 14' N, 132° 32' W; (map 4). Variant: Lake Simmons. Name reported in 1908 by C. W. Wright (in Brooks and others, 1909, pl. 3), USGS. "So called because it is located at an elevation of 1300 feet." This feature was called "Lake Simmons" by E. F. Dickins, USC&GS, in 1905.

Summit Lake: lake, see Edes Lake.

Summit Lake: lake, see Tutna Lake.

Summit Lake: village and railroad station, see Summit.

Summit Lakes: lakes, on Chinkelves Creek, 2.5 miles NW of Iliamna Bay and 26 miles NW of Augustine Island, Aleutian Range; 59° 42' 15" N, 153° 40' 30" W; (map 51). Name published by USGS in 1958.

Summit Lakes: lakes, two, largest 1 mile long, on SW coast of Phipps Peninsula, 2.6 miles SW of Yakutat, Malaspina Coastal Plain; 59° 30' 50" N, 139° 46' 20" W; (map 46). Local name published by USGS in 1959; shown as Aka Lake and Summit Lake in 1964 (de Laguna and others, map 4).

Summit Mountain: mountain, 5,300 ft., between Milk and Raven Glaciers, 29 miles SE of Anchorage, Chugach Mountains; 61° 03' 25" N, 149° 04' 30" W. BGN 1932; (map 69). Local descriptive name reported in 1932 by USGS.

Summit Peak: mountain peak, see Townsend Peak.

Summit Roadhouse: locality, see Cleary Summit Lodge.

Summit Station: locality, see Divide.

Summit Station: locality, see Summit.

Summit, The: point of land, in Rocky Pass in Keku Strait, on SW coast of Kupreanof Island, 23 miles N of Point Baker, Alexander Archipelago; 56° 41' 00" N, 133° 43' 30" W; (map 6). Local name published in 1943 by USC&GS.

Summit: locality, along Seward Peninsula Railroad, at NE base of Anvil Mountain, 5 miles NE of Nome, Seward Peninsula Highlands; 64° 35' N, 165° 21' W; (map 94). Variant: Summit Station. Site of a mining camp and railroad station shown as "Summit Station" on the 1903 Champion Mining and Trading Co. map by George M. Ashford.

Summit: locality, on divide between headwaters of Joseph Creek and Goodpaster River, 75 miles SW of Eagle, Yukon-Tanana Highlands; 64° 30' N, 143° 30' W; (map 102). Name of telegraph station established in 1903 by U.S. Army Signal Corps.

Summit: village, pop. 39, miles 312.5 on The Alaska Railroad, SW of Mirror Lake, 37 miles S of Healy, Alaska Range; 63° 19' 45" N, 149° 07' 10" W; (map 87). Variant: Summit Broad Pass Station, Summit Lake. This place began as a railroad camp, first called "Summit Lake" on a 1919 manuscript location map of the railroad.

Sumner Creek: stream, flows SW 2.5 miles to Nome Creek, 10 miles E of Table Top Mountain and 50 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 21' 10" N, 146° 37' 50" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Sumner Glacier: glacier, see Turner Glacier.

Sumner Island: island, 1.5 miles long, in Sumner Strait, between Kuiu, Kupreanof, and Prince of Wales Islands, Alexander Archipelago, 56° 24' 30" N, 133° 48' 30" W; (map 6). Named in 1886 by Lt. J. M. Helm, USN, for charting purposes; name published in 1887 on USC&GS Chart 706.

Sumner Mountains: mountains, 2,690 ft., 5 miles long, on SW coast of Mitkof Island, 18 miles S. of Petersburg, Alexander Archipelago; 56° 33' N, 132° 53' W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for charting purposes; published in 1888 on USC&GS Chart 705.

Sumner Peninsula: peninsula, see Seward Peninsula.

Sumner Strait: water passage, 10 miles wide, extends N and E 80 miles from Iphigenia Bay, around N end of Prince of Wales Island, Alexander Archipelago; 55° 53' N, 133° 59' W to 56° 31' N, 132° 35' W; (map 4). Named in 1875 by W. H. Dall, USC&GS, for Charles Sumner, 1811-1874, Senator from Massachusetts from 1851 to 1874.

Sumner Strait: water passage, heads at mouth of Stikine River at S end of Mitkof Islands, extends W and S 80 miles to Gulf of Alaska, between Kuiu and Kupreanof Islands on NW and Prince of Wales and Zarembo Islands on SE, Alexander Archipelago; 56° 32' N, 132° 36' W [NE end], 55° 50' N, 134° 05' W [SW end]; (map 6). Named in 1875 by W. H. Dall, USC&GS, for the Honorable Charles Sumner, 1811-74, U.S. Senator from Massachusetts from 1851 to 1874. See Alaska, state of.

Sun Lake: lake, 0.4 miles across, NW of Tetlin 19 miles SE of Tok, Alaska Range; 63° 08' 40" N, 142° 32' 00" W; (map 85). Local name published by USGS in 1965.

Sun Mountain: mountain, 2,193 ft., at southern end of Isahultila Mountains, N of Koyukuk River and 24 miles N of Hochandochtla Mountain, Kokrines-Hodzana Highlands; 65° 52' 30" N, 154° 45' 00" W; (map 107). Local name obtained in 1954 by USGS topographers.

Sun Rocks: rocks, off-shore group, extends 0.3 miles, in Clarence Strait, S of Rip Point, on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 02' 05" N, 131° 58' 30" W; (map 3). Local name published in 1912 by USC&GS.

Sunaghun Creek: stream, heads in Canada, flows SE 13 miles to Porcupine River, 3.5 miles N of Canalaska Mountain and 54 miles ENE of Coleen Mountain, Brooks Range; 67° 25' N, 141° 00' W; BGN 1959; (map 121). Variant: Old Woman Creek, Sunagun Creek. Kutcha-

kutchin Indian name reported by IBC in 1914 (sheet 9, 1918 atlas) and, according to O. W. Geist, Univ. of Alaska, means "old women." The creek was so called because "an old native woman at Rampart House couldn't climb the steep river banks for wood, so she used this creek as route to obtain firewood, hence, Old Woman Creek."

Sunagun Creek: stream, see Sunaghun Creek.

Sunbeam Creek: stream, flows S to Camp Creek which flows to Sinuk River, about 35 miles NE of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Sunbeam: area, in S Anchorage, 1.5 miles SSW of City Hall, Cook Inlet Lowland; 61° 11' 50" N, 149° 54' 00" W; (map 69). Residential district in city of Anchorage reported in 1954 by office of city engineer of Anchorage.

Sunby Creek: stream, heads on King Mountain, flows E 1.5 miles to Nome River, 8 miles NNE of Nome, Seward Peninsula Highlands; 64° 36' N, 165° 17' W; (map 94). Variant: Sundby Creek. Prospector's name published on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Sunday Bay: cove, see Sunday Harbor.

Sunday Creek: stream, flows E to Flambeau River, about 20 miles NE of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Sunday Creek: stream, flows NW to Belt Creek which flows to Kuzitrin River, about 6 miles NW of Mount Bendeleben, Seward Peninsula Highlands; (map 110). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This stream cannot be precisely located on current maps.

Sunday Creek: stream, flows SE 6.5 miles to Poorman Creek, 2 miles W of Poorman and 45 miles SW of Ruby, Kilbuck-Kuskokwim Mountains; 64° 06' 36" N, 155° 36' 55" W; (map 98). Prospectors' name reported in 1913 by Eakin (1914, pl. 3), USGS.

Sunday Creek: stream, flows SE 7 miles to Rocky Cove, 11 miles NW of Augustine Island, Aleutian Range; 59° 26' 50" N, 153° 44' 20" W; BGN 1916; (map 51). Name published in 1913 on USC&GS Chart 3420.

Sunday Creek: stream, flows SW 4 miles to Savage River, 20 miles SW of Healy, Alaska Range; 63° 48' 10" N, 149° 21' 00" W; BGN 1948; (map 87) Local name reported in 1947 by USGS.

Sunday Creek: stream, flows SW to Anikovik River, about 15 miles SE of Cape Prince of Wales, Seward Peninsula Highlands; (map 111). Prospectors' name shown on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This feature cannot be precisely identified on current maps.

Sunday Creek: stream, flows W 6.4 miles to Savage River, 15 miles NW of Healy, Alaska Range; 63° 54' 30" N, 149° 26' 20" W; (map 87). Variant: Fish Creek. Local name reported in 1951 by USGS.

Sunday Creek: stream, see Fish Creek.

Sunday Gulch: stream, flows SW 0.6 miles to Chititu Creek, 14 miles SE of McCarthy, St. Elias Mountains; 61° 18' N, 142° 36' W; (map 67). Local name used by prospectors; reported by George M. Easterly of Valdez on his 1902 map of the Nizina Mining District; and used by USGS (Mendenhall and Schrader, 1903, fig. 5).

Sunday Harbor: cove, 1.5 miles long, on E side of Port Dick, Kenai Peninsula, 28 miles SE of Seldovia, Chugach Mountains 59° 16' N, 151° 00' W; BGN 1908; (map 50). Variant: Sunday Bay. Local name recorded by USGS in 1908.

Sunday Harbor: cove, see Takoma Cove.

Sunday Rapids: rapids, in Killik River, 8.5 miles NE of Lake Udrivik, Brooks Range; 68° 37' N, 153° 48' W; BGN 1960; (map 133). So named by USGS geologists during exploration of Naval Petroleum Reserve No. 4, because a "Field party swamped several boats in going through the rapids on Sunday, June 3, 1945."

Sunday Creek: stream, see Sunby Creek.

Sunde Creek: stream, heads on Bean Ridge, flows NE 4.5 miles to Baker Creek, 44 miles ESE of Tanana, Yukon-Tanana Highlands; 65° 05' 20" N, 150° 34' 00" W; (map 106). Local name reported in 1952 by USGS.

Sundi Lake: lake, 1,100 ft. long, 5.5 miles SW of Anchorage, between Jewel and Sand Lakes, Cook Inlet Lowland; 61° 08' 25" N, 149° 57' 59" W; (map 69). Local name reported in 1952 by USGS.

Sundown Lake: lake, 1.4 miles long, in course of Meadow Creek 21 miles W of Beaver, Yukon Flats. 66° 20' 40" N, 148° 11' 00" W; (map 118). Local name obtained in 1956 by USGS.

Sundown Lake: lake, 1.8 miles long, between Big and Round Lakes 20 miles SW of Beaver, Yukon Flats; 66° 10' 30" N, 147° 58' 00" W; (map 118). Local name obtained in 1956 by USGS.

Sundowns: locality, see Sumdum.

Sundstrom Island: island, 1.2 miles long, off SW tip of Aiaktalik Island, 4 miles S of Kodiak Island; 56° 41' 20" N, 154° 08' 30" W; BGN 1931; (map 32). Variant: Little Aiktalik Island, Wart Island. Named in 1906 by Capt. Hodgkins, USC&GS, for Quartermaster Gustaf L. Sundstrom, USC&GS, a crewmember of the USC&GS steamer Patterson, "who lost his life on June 29, 1906, by drowning, in the performance of his official duties * * *."

Sunflower Basin: basin, 5 miles long, near head of Sunflower Creek, 50 miles NW of Talkeetna, Alaska Range; 62° 29' 25" N, 151° 37' 40" W; (map 81). Local name reported in 1958 by USGS.

Sunflower Creek: stream, heads in Stern Gulch, flows SE 25 miles through Sunflower Basin, to Lake Creek, 38 miles W of Talkeetna, Alaska Range: 62° 22' 00" N, 151° 17' 40" W; (map 81). Prospectors' name reported in 1906 by R. W. Porter, USGS.

Sungokruak Creek: stream, see Kolipsun Creek.

Sungooraq Lake: lake, see Sungovoak.

Sungovoak, Lake: lake, 9 miles long, 11 miles SE of Barrow, Arctic Plain; 71° 05' 40" N, 156° 30' 00" W; (map 153). Variant: Sungooraq Lake, Sunguruak Lake. Eskimo name recorded by USC&GS as "Sunguruak" about 1950. The name means "bridge of the nose" and refers to the 4 miles long Peninsula extending into the lake.

Sunguruak Lake: lake, see Sungovoak.

Sunik: locality, on Aggatu Island, Aleutian Islands; 52° 26' N, 173° 36' E; (map 13). Former Aleut village or camp listed by Hodge (1910, p. 652), BAE.

Sunka' kat: locality, see Soonkakat.

Sunken Island Lake: lake, 1.1 miles long, on Kenai Peninsula E of Donkey Lake, 6 miles NW of Sterling and 12 miles NE of Kenai, Cook Inlet Lowland; 60° 35' 30" N, 150° 53' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Sunken Lake: lake, 0.6 miles long, 2 miles SE of Sweeny Lake and 17 miles SW of Beaver, Yukon Flats; 66° 07' 30" N, 147° 39' 40" W; (map 118). Probably named by William Yanert who showed it on a 1916 manuscript map of the Yukon Flats (Stuck, 1917, map facing p. 122).

Sunny Bay: bay, 2 miles across, off Seward Passage on NW coast of Cleveland Peninsula, Alexander Archipelago; 55° 59' N, 132° 00' W; (map 3). Named in 1924 by USC&GS.

Sunny Cove: cove, 0.6 miles across, on W shore of Taku Inlet, 3.5 miles SW of Flat Point and 10 miles E of Juneau, Coast Mountains; 58° 18' 15" N, 134° 08' 00" W; (map 11). Name used by local navigators and reported in 1900 by Lt. Comdr. J. F. Moser, USN.

Sunny Cove: cove, 1 mile wide, on Renard Island, 15 miles SE of Seward, Chugach Mountains; 59° 54' 45" N, 149° 21' 10" W; BGN 1908; (map 49).

Sunny Cove: cove, extends N 0.2 miles, off Narrow Strait, on S coast of Spruce Island, NE of Kodiak Island; 57° 54' 10" N, 152° 25' 35" W; (map 34). Local name published in 1943 by USC&GS.

Sunny Cove: estuary, extends NW 1.5 miles off Cholmondeley Sound, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 15' N, 132° 15' W; (map 4). Local name reported in 1901 by A. H. Brooks, USGS.

Sunny Creek: stream, flows E 2.5 miles to Sunny Cove, on E coast of Prince of Wales Island, 37 miles SE of Craig, Alexander Archipelago, 55° 15' 55" N 132° 16' 55" W; (map 4). Local name published in 1943 by USC&GS.

Sunny Gulch: ravine, trends N 1.5 miles to Timberline Creek, 67 miles SE of Healy, Alaska Range; 63° 11' N, 147° 24' W; (map 87). Local descriptive name obtained in 1951 by USGS.

Sunny Hay Mountain: mountain, 2,920 ft., 2.5 miles SE of Craig, on W coast of Prince of Wales Island, Alexander Archipelago; 55° 27' 45" N, 133° 04' 45" W; (map 4). Local name recorded in 1951 by USGS.

Sunny Peak: mountain peak, 3,980 ft., 1.5 miles SE of Mount Carter and 49 miles NE of Valdez, Chugach Mountains; 61° 46' 45" N, 145° 42' 20" W; (map 68). Named in 1898 by Capt. W. R. Abercrombie, USA.

Sunny Point: point of land, N point of entrance to West Arm Cholmondeley Sound, at mouth of Sunny Creek, on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 15' N, 132° 16' W; (map 4) Local name reported in 1901 by A. H. Brooks, USGS.

Sunny Point: point of land, on N shore of Gastineau Channel, 1 mile E of Juneau Airport and 5.5 miles NE of Juneau, Coast Mountains 58° 21' 15" N, 134° 31' 30" W; (map 11). Local name which came into use in the 1930's (DeArmond, 1957, p. 42).

Sunnyside Creek: stream, flows NE 0.8 miles to Niukluk River, 6 miles NW of Council and 30 miles NE of Solomon, Seward Peninsula Highlands; 64° 55' N, 163° 52' W; (map 95). Prospectors' name reported on a 1902 prospectors' manuscript map.

Sunnyside: locality, on Chichagof Island, 1.7 miles NW of Pelican and 24 miles N of Chichagof Alexander Archipelago; 57° 59' N, 136° 15' W; (map 9). Name of a former mining camp reported in 1903 by A. C. Spencer and C. W. Wright USGS.

Sunrise Basin: valley, see Middle Basin.

Sunrise City: village, see Sunrise.

Sunrise Creek: stream, flows NE 3.5 miles to Bonanza River, 16 miles NW of Solomon, Seward Peninsula Highlands; 64° 45' N, 164° 45' W; (map 95). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Sunrise Creek: stream, flows NE 5 miles to Agiapuk River, 16 miles NE of Teller, Seward Peninsula Highlands; 65° 27' N, 166° 04' W; (map 111). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Sunrise Creek: stream, flows NW 1 mile to Fox River between Slate and Windy Creeks, 22 miles NE of Solomon, Seward Peninsula Highlands; 64° 45' 10" N, 163° 50' 30" W, (map 95).

Variant: Sunrise Creek. Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Sunrise Creek: stream, flows SW 12.3 miles to Susulatna River, 51 miles NW of Medfra, Kilbuck-Kuskokwim Mountains; 63° 50' N, 155° 02' W; (map 89). Local name obtained in 1924 by J. S. Brown (in Smith and others, 1926, pl. 5), USGS.

Sunrise Creek: stream, in Mount McKinley National Park, flows NW 2.9 miles from Sunrise Glacier terminus to Thorofare River, 2.5 miles SSE of Eielson Visitor Center, Alaska Range; 63° 24' 00" N, 150° 16' 40" W; BGN 1932; (map 88). Local name reported in 1932 by J. C. Reed, Sr., and S. N. Stoner, USGS.

Sunrise Creek: stream, on N end of Kenai Peninsula, flows NE 2.5 miles to Turnagain Arm, 0.5 miles NW of Sunrise and 52 miles N of Seward, Chugach Mountains; 60° 54' 20" N, 149° 26' 15" W; (map 63). Local name reported about 1914 by B. L. Johnson (in Martin and others, pl. 2), USGS. Name derived from nearby mining town.

Sunrise Glacier: glacier, in Mount McKinley National Park, trends NW 2 miles to its 1954 terminus at head of Sunrise Creek, 5 miles SE Of Eielson Visitor Center, Alaska Range; 63° 22' 45" N, 150° 11' 40" W; BGN 1932; (map 88) Local name reported in 1932 by J. C. Reed, Sr., and S. N. Stoner, USGS.

Sunrise Gulch: ravine, extends S 2 miles to Hammond River, 3 miles E of Vermont Dome and 9 miles N of Wiseman, Brooks Range; 67° 32' 20" N, 150° 05' 30" W; (map 124). Local name obtained in 1956 by USGS topographers.

Sunrise Hill: hill, see Rose Hill.

Sunrise Lake: lake, 0.4 miles long, on Woronokofski Island, Alexander Archipelago; 56° 24' 40" N, 132° 29' 10" W; BGN 1917; (map 6). Named in 1916 by USC&GS.

Sunrise Lake: lake, 0.6 miles long, on Kenai Peninsula NE of Grus Lake, 27 miles NE of Kenai, Cook Inlet Lowland; 60° 47' 15" N, 150° 38' 45" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Sunrise Peak: mountain, 2,750 ft., on Woronkofski Island, Alexander Archipelago; 56° 24' 40" N, 132° 28' 40" W; BGN 1917; (map 6). Variant: Adams Peak. Named in 1916 by USC&GS; named "Adams Peak" in 1886 by Lt. Comdr. A. S. Snow, USN, for U.S.S. Adams.

Sunrise Station: locality, see Johnson.

Sunrise Station: village, see Sunrise.

Sunrise: village, on N end of Kenai Peninsula, at mouth of Sixmile Creek, 7 miles SE of Hope and 52 miles N of Seward, Chugach Mountains, 60° 53' 30" N, 149° 25' 30" W; (map 63). Variant: Sunrise City, Sunrise Station. Mining town founded about 1895 and called Sunrise City; reported in 1898 by USGS (1899, map 6). A post office was established here in 1899 but was discontinued in 1918 (Ricks, 1965, p. 62). Present-day maps indicate Sunrise as a site with three or four buildings.

Sunset Cove: cove, 0.5 miles across, on E shore of Stephens Passage, 2 miles SE of Sunset Island and 75 miles NE of Sitka, Coast Mountains; 57° 29' 00" N, 133° 31' 15" W; (map 8). Named for Sunset Island and published in 1948 by USGS.

Sunset Creek: stream, 2 miles long, flows NE to Mountain Creek, 9.5 miles NW of Heart Lake and 76 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 11' N, 159° 54' W; (map 59). Local name reported in 1955 by J. M. Hoare, USGS.

Sunset Creek: stream, flows E to Agiapuk River, about 15 miles NW of Teller, Seward Peninsula Highlands; (map 111). Prospectors' name shown on a 1901 map of Cape Nome gold fields by David Fox, Jr. This feature cannot be precisely identified on current maps.

Sunset Creek: stream, flows NE 3 miles to Gold Run which flows to Bluestone River, 15 miles S of Teller, Seward Peninsula Highlands; 65° 02' N, 166° 17' W; (map 111). Local name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Sunset Creek: stream, flows NW 9.4 miles to South Fork Sulatna River, 11 miles SE of Poorman and 33 miles SW of Monzonite Hills, Kilbuck-Kuskokwim Mountains; 64° 01' N, 155° 13' W; (map 98). Prospectors' name published, but misapplied in 1921, by USGS.

Sunset Creek: stream, flows SE 2.3 miles to Harris Creek which flows to North Fork Kougarak River, NW of Harris Dome and 40 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 38' N, 164° 34' W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Sunset Creek: stream, flows SE 5.8 miles to Snake River, 4 miles NW of Nome, Seward Peninsula Highlands; 64° 32' N, 165° 33' W; (map 94). Variant: Shepard Creek. Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS. Reported in 1899 as "Shepard Creek" by D. C. Witherspoon (in Schrader and Brooks, 1900, map 2), USGS.

Sunset Creek: stream, heads on Gold Mountain, flows S 8 miles to Yukon River opposite Youngs Island, 20 miles WSW of Kallands, Kokrines-Hodzana Highlands; 65° 04' 20" N, 153° 44' 00" W; (map 107) Local name obtained in 1952 by USGS topographers.

Sunset Creek: stream, heads on Takotna Mountain, flows N 3.2 miles to Takotna River, 1.2 miles E of Takotna and 3 miles W of McGrath, Kilbuck-Kuskokwim Mountains; 62° 59' 10" N, 156° 01' 30" W; (map 79). Prospectors' name reported in 1923 by J. B. Mertie and G. L. Harrington, USGS.

Sunset Creek: stream, heads SW of Eva Mountain, flows SW 6 miles to Grantley Harbor, 4 miles NE of Teller, Seward Peninsula Highlands; 65° 18' N, 166° 17' W; (map 111). Local name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Sunset Creek: stream, on N end of Kenai Peninsula, flows N 2 miles to Turnagain Arm, 2 miles NW of Sunrise and 52 miles N of Seward, Chugach Mountains; 60° 55' 05" N, 149° 28' 15" W; (map 63). Local prospectors' name; reported in 1898 I by W. C. Mendenhall, USGS.

Sunset Glacier: glacier, in Mount McKinley National Park, trends NW 5 miles from Scott Peak to its 1954 terminus at head of Thorofare River, Alaska Range; 63° 22' 00" N, 150° 14' 30" W; BGN 1932; (map 88). Named by USGS in 1932. "This name was suggested as being appropriate in view of the fact that sunrise is the name of the glacier on the west fork [east fork] of the Thorofare River" [Sunrise Creek].

Sunset Island: island, 0.7 miles across, in Stephens Passage, 4 miles S of Point Windham and 64 miles SE of Juneau, Coast Mountains; 57° 30' 00" N, 133° 34' 45" W; (map 8). Named by Comdr. R. W. Meade, USN; published in 1869 by U.S. Navy Hydrog. Office.

Sunset Pass: pass, 2,000 ft., in Sadlerochit Mountains, at head of Itkilyariak Creek, 22 miles NW of Mount Michelson, Brooks Range; 69° 35' N, 144° 45' W; BGN 1961; (map 139). Probably named by S. J. Marsh, prospector, who in 1903 wrote, "At Sunset Pass, a low gap through the Franklin Mountains, leading from the head of Ooselik [Itkilyariak] Creek to the head of Barter [Sadlerochit] River * * *" (Brooks, 1906, p. 261).

Sunset Peak: mountain, 3,040 ft., on Woronkofski Island, 8 miles SW of Wrangell, Alexander Archipelago; 56° 22' N, 132° 31' W; BGN 1917; (map 6). Variant: Idaho Peak. Named in 1916 by USC&GS; named "Idaho Peak" in 1886 by Lt. Comdr. A. S. Snow, USN, for the steamship Idaho.

Sunset Peak: peak, 7,865 ft., in Mount McKinley National Park, 8.5 miles SSE of Eielson Visitor Center, Alaska Range; 63° 10' N, 150° 12' W; BGN 1932; (map 88). Named in 1932 by USGS "for the glacier."

Sunset: locality, on left bank of Sunset Creek, 7 miles NW of Nome, Seward Peninsula Highlands; 64° 34' N, 165° 34' W; (map 94). Site of a mining camp; published in 1956 by USGS.

Sunshine Bay: bay, 2.5 miles across, on left side of Kwikluak Pass, 5 miles SE of Kwiguk, Yukon-Kuskokwim Delta; 62° 41' 30" N, 164° 21' 00" W; (map 77). Local name obtained in 1948 by USC&GS. The water here is very shallow, and the land may in time be above normal water level owing to deposition.

Sunshine Creek: stream, flows Island 1 mile SW to Surprise Creek N of Skyscraper Peak, 18 miles W of Mount Blackburn, Wrangell Mountains; 61° 44' 00" N, 143° 48' 30" W; (map 67). Local name obtained by USGS and published on maps since 1954.

Sunshine Creek: stream, flows S 1 mile to Canyon Creek which flows to Casadepaga River, 21 miles NE of Solomon, Seward Peninsula Highlands; 64° 51' N, 164° 22' W; (map 95). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Sunshine Creek: stream, flows SW 1.3 miles to Quartz Creek in Casadepaga River basin, 24 miles N of Solomon, Seward Peninsula Highlands; 64° 55' N, 164° 20' W; (map 95). Prospectors name reported in 1907 by USGS geologists (Smith, P. S., 1910, pl. 4).

Sunshine Creek: stream, heads in largest of Sunshine Lakes, flows W 2.6 miles to Susitna River, 10 miles S of Talkeetna, Cook Inlet Lowland; 62° 10' 33" N, 150° 07' 35" W; (map 81). Prospectors' name reported in 1906 by T. G. Gerdine and R. H. Sargent, USGS.

Sunshine Creek: stream, see Montana Creek.

Sunshine Island: island, 0.2 miles across, in Vixen Inlet, off W coast of Cleveland Peninsula, 47 miles NE of Craig, Alexander Archipelago; 55° 49' 05" N, 132° 05' 05" W; (map 4). Named in 1915 by E. Lester Jones, USC&GS.

Sunshine Lakes: lakes, at head of Sunshine Creek, 9 miles S of Talkeetna, Cook Inlet Lowland; 62° 11' 10" N, 150° 02' 45" W; (map 81). Local name reported in 1958 by USGS.

Sunshine Mountains: mountains, 3,905 ft., trend NW 8 miles from junction of Nixon Fork and Boulder Creek, 28 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 29' N, 154° 57' W; (map 89) Local name reported in 1924 by USGS.

Sunshine Point: hill, on N side of Kaliakh River 2 miles below mouth of Kulthieth River and 100 miles SE of Cordova, St. Elias Mountains; 60° 10' 30" N, 142° 53' 00" W; (map 65). Local name published in 1951 by USGS.

Sunshine Valley: valley, extends NW 10 miles from W end of Lake Aleknagik, 38 miles NW of Dillingham, Kilbuck-Kuskokwim Mountains, 59° 30' N, 159° 05' W; BGN 1931; (map 53). Named by Frank Waskey, trader and prospector; reported in 1930 by USGS.

Sunshine: locality, pop. 4, miles 215.3 on The Alaska Railroad, 10 miles S of Talkeetna, Cook Inlet Lowland; 62° 10' 00" N, 150° 04' 20" W; (map 81). Name listed as a flag stop on the railroad.

Suntaheen Creek: stream, on N end of Chichagof f., flows S 6 miles to Whitestone Harbor, on Icy Inlet, 30 miles SW of Juneau, Alexander Archipelago; 58° 03' 25" N, 135° 05' 45" W; BGN 1959; (map 11). Variant: Flounder Creek. Local Tlingit Indian name reported by USGS in 1959 and thought to mean "middle creek." It is also locally known as Flounder Creek.

Suntrana Creek: stream, flows S 1.3 miles to Healy Creek, 3.5 miles E of Healy, Alaska Range, 63° 51' 30" N, 148° 50' 45" W; BGN 1945; (map 87). Variant: Coal Creek. Reported by USGS in 1927 to be an Indian name meaning "burning hills;" so called because "When it rains, steam rises from the surrounding ground." It is difficult to determine whether this is an indigenous Indian name.

Suntrana: village, pop. 81, on right bank of Healy River at Mouth of Suntrana Creek, 3.5 miles E of Healy, Alaska Range; 63° 51' 30" N, 148° 50' 45" W; (map 87). Village and mining camp listed in the 1930 census with a population of 61, 78 in 1939, and 130 in 1950.

Sunvalluk: locality, on NW shore of Norton Sound, opposite Sledge Island, at or near West Point, 20 miles W of Nome, Seward Peninsula Highlands; 64° 34' N, 166° 03' W; (map 94). Former Eskimo village or camp reported in the 1890 Census (1893, p. 162).

Superior: locality, on Chichagof Island, 4 miles E of Tenakee Springs, Alexander Archipelago, 57° 47' N, 135° 05' W; (map 9). Cannery reported to have been in operation prior to 1950.

Supply Creek: stream, heads in Supply Lake, flows S 2.2 miles to Kvichak Bay, 28 miles W of Naknek, Bristol Bay Lowland; 58° 42' 00" N, 157° 47' 35" W; (map 41). Local name published in 1958 by USGS.

Supply Lake: lake, 1.5 miles across, on N shore of Kvichak Bay at head of Supply Creek, 27 miles W of Naknek, Bristol Bay Lowland; 58° 44' N, 157° 48' W; (map 41). Local name published in 1958 by USGS.

Suqq-an: locality, see Sukkwan.

Suquonilla Range: mountains, see Kokrines Hills.

Sure Thing Gulch: ravine, see Surprise Gulch.

Surf Bay: bay, 4 miles across, on SW coast of Akun Island, in Krenitzin Islands Aleutian Islands, 54° 10' N, 165° 37' W; (map 24). Named in 1901 by J. J. Gilbert, USC&GS.

Surf Point: point of land, NW tip of Heceta Island, Alexander Archipelago; 55° 50' N, 133° 38' W; (map 4). Descriptive name given in 1903 or 1904 by E. F. Dickins, USC&GS, who wrote "named by our party, has no local name."

Surf Point: point of land, on S coast of Prince of Wales Island, 6 miles W of Cape Chacon, Alexander Archipelago; 54° 41' 30" N, 132° 09' 50" W; (map 1). Local descriptive name published by USC&GS in 1943.

Surf Rock: rock, in Sitka Sound, 2 miles SW of Sitka, Alexander Archipelago; 57° 01' 55" N, 135° 22' 30" W; (map 9). Variant: Burun Rocks, Kamen Burun, Polivnoi Rocks. This is an 1882 translation by USC&GS of the name given in 1809 by the Russian navigator Ivan Vasiliev the first; reported by Lt. Sarichev (1826, map 19), IRN, as "K[amen] Burun."

Surge Bay: bay, 2.5 miles across, on NW coast of Yakobi Island, 5 miles N of Cape Cross and 41 miles SW of Hoonah, Alexander Archipelago; 58° 20' N, 136° 33' W; (map 10). Probably named by W. H. Dall, USC&GS; published in the 1883 Alaska Coast Pilot (p. 185).

Surge Lake: lake, 1.1 miles across, on W coast of Yakobi Island, 1 mile S of gingham Peak, 40 miles WSW of Hoonah, Alexander Archipelago, 58° 00' 10" N, 136° 31' 30" W; (map 10). Local name published by USGS in the 1950's.

Surgeon Mountain: mountain, 4,397 ft., on Alaska-Canada boundary, 2 miles NE of Pleasant Camp and 35 miles W of Skagway, St. Elias Mountains; 59° 27' 55" N, 136° 18' 00" W, BGN 1952; (map 45). Variant: Boundary Peak 144, Yealthanuk Mountain. Named in 1952 for Samuel Martin Fraser, Surgeon of the Royal Mounted Police, when the international boundary was being surveyed in this area. This is apparently the same mountain reported by E. C. Robertson USGS, in 1952 as being called "Yealthanuk" by the Tlingit Indians. The word "yealth" reportedly means "raven" and probably refers to the Raven Tribe living nearby.

Surise Creek: stream, Sunrise Creek.

Surku Cove: estuary, 0.7 miles long, on W coast of Prince of Wales Island, N of Kussan Point, 26 miles N of Craig, Alexander Archipelago; 55° 50' 45" N, 133 09' 45" W; (map 4). Indian name published in 1964 by USC&GS.

Surok Point: point of land, on SE coast of Kenai Peninsula at E entrance to Paguna Arm, 53 miles E of Homer, Chugach Mountains; 59° 37' 45" N 150° 04' 00" W; BGN 1930; (map 50). Named "Marmot Point" by USC&GS in 1912, probably referring to the hoary marmot but later changed to the Russian equivalent to avoid confusion because of numerous other uses of the word.

Surprise Bay: bay, 1.5 miles wide, on E edge of West Arm Nuka Bay, 46 miles E of Seldovia Chugach Mountains; 50° 29' N, 150° 32' W; BGN 1929; (map 50). Variant: Palisade Bay. Named by U. S. Grant, USGS, in 1911 (Grant and Higgins, 1913, pl. 2).

Surprise Cove: cove, 0.7 miles across, on NE coast of Kenai Peninsula, 1 mile S of entrance to Passage Canal and 10 miles SE of Whittier, Chugach Mountains; 60° 45' 30" N, 148° 22' 15" W BGN 1911; (map 63). Named by U. S. Grant in 1909 and published by Grant and Higgins (1910-11, p. 402), USGS.

Surprise Creek: ravine, see Surprise Gulch.

Surprise Creek: stream, flows N 2.7 miles to Nevelna Creek, 1.8 miles E of mouth of Willow Creek and 70 miles NE of Valdez, Chugach Mountains; 61° 25' 10" N, 144° 14' 15" W; (map 68). Local name published by USGS (Moffit, 1914, pl. 1).

Surprise Creek: stream, flows NE 2 miles to Big Four Creek which flows to Casadepaga River, 20 miles NE of Solomon, Seward Peninsula Highlands; 64° 48' N, 164° 04' W; (map 95). Variant: California Creek. Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Surprise Creek: stream, flows NW 2.4 miles to Wilson Creek, between Davis and Disappointment Creeks, 4.8 miles E of Marshall, Nulato Hills; 61° 52' 40" N, 161° 56' 15" W; (map 73). Prospectors' name reported by Harrington (1918, map), USGS, in 1916.

Surprise Creek: stream, flows NW 4 miles to Totatlanika River, 20 miles NE of Healy, Alaska Range; 63° 58' 30" N, 148° 24' 30" W; (map 87). Prospectors' name shown on a 1910 fieldsheet by J. W. Bagley, USGS; published by Capps (1912, pl. 1), USGS.

Surprise Creek: stream, flows NW 5 miles to Washington Creek, 10 miles S of that stream's junction with Yukon River and 41 miles NE of Eagle, Yukon-Tanana Highlands; 65° 11' N, 142° 17' W; (map 103). Variant: Butte Creek. Prospectors' name reported by A. H. Brooks (in Brooks and others, 1907, p. 201), USGS.

Surprise Creek: stream, flows SE 3.5 miles to Topkok River, 1.8 miles NE of Topkok on Norton Sound and 15 miles NE of Solomon, Seward Peninsula Highlands; 64° 35' 25" N,

163° 55' 15" W; (map 95). Variant: Allen Creek. Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Surprise Creek: stream, flows SW 1 mile to Roosevelt Lake, 2.5 miles E of Lucky Hill and 72 miles SE of Healy, Alaska Range; 63° 11' N, 147° 09' W; (map 87). Local name obtained in 1951 by USGS.

Surprise Creek: stream, flows SW 2 miles to Wild Lake, 9.2 miles N of junction of Flat Creek and Wild River, Brooks Range; 67° 31' 15" N, 151° 32' 15" W; (map 124). Variant: Summit Creek. Local name obtained in 1956 by USGS topographers.

Surprise Creek: stream, heads at 68° 46' N, 162° 26' W, flows NW 24 miles to Tupikchak Creek, 46 miles E of Cape Sabine, Arctic Slope; 68° 58' 25" N, 162° 48' 15" W; BGN 1965; (map 130) Name proposed in 1965 by geologists of the B. P. Exploration Co., Inc., because of their surprise at finding an unexpected rock sequence along the stream.

Surprise Creek: stream, heads at glacier, flows SE 2.3 miles to Kotsina River, 13 miles W of Mount Blackburn, Wrangell Mountains; 61° 44' N, 143° 48' W; (map 67). Name used by prospectors, reported in 1900 by T. G. Gerdine (in Brooks and others, 1908, pl. 3), USGS.

Surprise Creek: stream, on Kenai Peninsula, flows NW 4 miles to Kenai River, 40 miles SE of Kenai. Chugach Mountains; 60° 28' 20" N, 150° 07' 30" W. (map 62) Local name reported about 1911 by USGS (Martin, Johnson, and Grant, 1915, pl. 2).

Surprise Creek: stream, see Allen Creek.

Surprise Glacier: glacier, heads at junction of two branches, trends SW 5.5 miles to its terminus near head of Tonzona River, 4 miles NE of Mystic Pass, Alaska Range; 62° 41' N, 152° 24' W, (map 81). Local name reported in 1925 by S. R. Capps (in Moffit, 1927, pl. 3), USGS.

Surprise Glacier: glacier, trends NE 8.5 miles to Surprise Inlet, W of Harriman Fiord, 51 miles SE of Anchorage, Chugach Mountains; 61° 03' N, 148° 25' W; BGN 1964; (map 69). Variant: Roaring Glacier, The Stairway. Named by members of the Harriman Alaska Expedition in 1899.

Surprise Gulch: ravine, trends SW 0.8 miles to Osborn Creek, 10 miles NE of Nome, Seward Peninsula Highlands; 64° 35' 36" N, 165° 06' 12" W; (map 94). Variant: Sure Thing Gulch, Surprise Creek. Reported as "Surprise Cr." on the 1902 "Map of the Nome and Snake River Country" by J. M. Davidson.

Surprise Harbor: bay, 1.4 miles across, on S tip of Admiralty Island, 33 miles S of Angoon, Alexander Archipelago; 57° 01' N, 134° 35' W; (map 9). Probably named in 1869 by Comdr. R. W. Meade, USN; published on Hydrographic Chart 225. "It owes its name to one of the two tragedies in the area, which resulted from attacks of Indians on whites."

Surprise Inlet: estuary, extends W 2.5 miles off Harriman Inlet, at terminus of Surprise Glacier, 51 miles SE of Anchorage, Chugach Mountains; 61° 03' N, 148° 21' W; (map 69). Local name reported in 1960 by USGS.

Surprise Lake: lake, 2 miles long, on Alaska Peninsula, at head of Aniakchak River and in NE part of Aniakchak Crater, 3.5 miles NE of Vent Mountain, Aleutian Range; 56° 55' N, 158° 05' W; (map 30). Variant: Devils Wash Basin. Named in 1922 by R. H. Sargent, USGS, "to indicate my reaction upon discovering it."

Surprise Point: point of land, on N coast of island in Nakat Inlet, 1 mile NE of Nakat Bay, Coast Mountains; 54° 49' 15" N, 130° 43' 45" W; (map 2). Named in 1888 by Lt. Comdr. H. E. Nichols, USN.

Surprise, Lake: lake, 0.8 miles long, on NW tip of Kruzof Island, 26 miles NW of Sitka, Alexander Archipelago 57° 19' 30" N, 135° 49' 30" W, (map 9). Probably named in 1929 by USC&GS.

Surprise, Rock: rocks, see Seal Rocks.

Surr Creek: stream, see Surr Creek.

Surr Mountain: mountain, see Surr Mountain.

Survey Cove: bay, 1.2 miles wide, SW coast of Kosciusko Island, Alexander Archipelago; 55° 54' N, 133° 44' W; (map 4). Local name recorded in 1951 by USGS.

Survey Creek: stream, flows S 6.5 miles to Survey Cove, on S coast of Kosciusko Island, Alexander Archipelago; 55° 55' 40" N, 133° 43' 30" W; (map 4). Local name recorded in 1951 by USGS.

Survey Creek: stream, heads at Survey Pass, flows SE 9 miles to Unakserak River, Brooks Range; 67° 46' N, 153° 59' W; BGN 1925; (map 125). Named by the USGS expedition of 1924 to commemorate the U.S. Geological Survey.

Survey Pass: pass, 3,300 ft., in Endicott Mountains, at head of Survey Creek to the S and April Creek to the N, Brooks Range; 67° 51' N, 154° 06' W; BGN 1925; (map 125). Named by the USGS expedition of 1924 to commemorate the U.S. Geological Survey. The expedition led by P. S. Smith crossed the Brooks Range at this point.

Survey Point: point of land, 2 miles NE of Raven Point, on shore of Cataract Cove, on W coast of Unimak Island, Aleutian Islands; 54° 38' 37" N, 164° 48' 12" W; BGN 1942; (map 24). Variant: Tundra Point. Named in 1940 by USC&GS, presumably for the "Coast Survey."

Survey Point: point of land, at S entrance to Clover Passage, on W coast of Revillagigedo Island, Alexander Archipelago; 55° 28' N, 131° 50' W; (map 3). Local navigators' name obtained in 1904 by H. C. Fassett, USBF.

Survey Point: point of land, on S coast of Annette Island, near E entrance to Tamgas Harbor, Alexander Archipelago; 55° 00' 45" N, 131° 29' 15" W (map 3) Named in 1883 by Lt. Comdr. H. E. Nichols, USN, "for the U.S. Coast Survey [now U.S. Coast and Geodetic Survey]."

Surveyor Bay: bay, 4 miles across, on SW coast of Unalaska Island, Aleutian Islands; 53° 16' N, 167° 34' W; BGN 1937; (map 23). Named by USC&GS in 1937 for the Coast Survey ship Surveyor, which was used for surveys in the vicinity in 1936.

Surveyor Creek: stream, heads in Canada, flows NW across Alaska-Canada boundary 9 miles to Bull Creek, 50 miles NE of junction of Charley and Yukon Rivers, Porcupine Plateau; 65° 58' N, 141° 09' W; (map 103). Local name published in 1956 by USGS.

Surveyor Passage: water passage, 2 miles long, along NE coast of Herbert Graves Island, on W coast of Chichagof Island, 3 miles NW of Chichagof, Alexander Archipelago; 57° 42' 20" N, 136° 09' 20" W; BGN 1926; (map 9). Named in 1926 by USC&GS for the USC&GS steamer Surveyor, from which the passage was charted in 1925. This vessel was the first of any large size to navigate this waterway. The name was published on Chart 8280 in 1928.

Susetna: village, see Susitna.

Sushana River: stream, heads at 63° 42' N, 149° 47' W and flows NW 40 miles to Toklat River, 12 miles NE of Chitsia Mountain and 40 miles SW of Nenana, Tanana Lowland; 64° 09' 30" N, 149° 59' 20" W; (map 100). Variant: Knight Creek, Shushana River, Toklat River. Tanana Indian name reported in 1910 by L. M. Prindle, USGS. The Indian name, "Toklat," was originally reported for it in 1905 by USGS. The stream was called "Knight Creek" from 1916 to 1925, by prospectors, possibly referring to a headwater branch.

Sushetna River: stream, see Susitna River.

Sushetna: village, see Susitna.

Sushetno Mountain: mountain, see Susitna, Mount.

Sushetno: village, see Susitna.

Sushgitit Hills: hills, 2,000 ft., extend E-W 10 miles, 22 miles E of Hughes, Kokrines-Hodzana Highlands; 66° 02' N, 153° 15' W; (map 116). A broad rendering of an Indian name recorded as "Sushgititgla," meaning "cache hill"; reported in 1956 by Orth.

Sushilna Island: island, 0.3 miles across, off Chichagof Island, in Islas Bay, 16 miles NW of Chichagof, Alexander Archipelago; 57° 50' 00" N, 136° 22' 40" W; (map 9). Local name derived from the Russian word "suchilna" meaning "drying place;" name reported in 1928 by USC&GS.

Sushilnoi Island: island, 0.4 miles across, 16 miles E of Deer Island, at SW end of Aleutian Range; 54° 53' 10" N, 161° 51' 00" W; (map 25). Variant: Chishelnoi, Ostrov Sushilnyy, Sushitnoi, Sushilnoy. Name published in 1847 by the Russian Hydrog. Dept. on Chart 1379 as "O[strov] Sushilnyy" meaning "drying-ground island."

Sushilnoy: island, see Sushilnoi Island.

Sushilnyy, Ostrov: island, see Sushilnoi Island.

Sushit River: stream, see Susitna River.

Sushitna Mountain: mountain, see Susitna, Mount.

Sushitna River: stream, see Susitna River.

Sushitna, Reka: stream, see Susitna River.

Sushitna: village, see Susitna.

Sushitnoi: island, see Sushilnoi Island.

Susie Creek: stream, flows SW 1.5 miles to Medicine Creek, 3 miles SE of Red Mountain and 28 miles NE of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 57' N, 161° 39' W; BGN 1938; (map 39) Local name reported in 1938 by J. B. Mertie and Gerald FitzGerald, USGS. Named for Susie Mountain, on which it heads.

Susie Creek: stream, heads in Ray Mountains, flows SE 8 miles to Yukon River, 5 miles N of Rampart and 63 miles ENE of Tanana, Kokrines-Hodzana Highlands. 65° 34' 30" N, 150° 10' 00" W; (map 106). Named in 1956 by Orth, for the Susie, one of the three largest and handsomest steamboats on the Yukon during the gold rush days. The Susie was named for Mrs. Susie Niebaum, wife of Capt. Gustav Niebaum. See Hannah Creek.

Susie Cutoff: stream, see Clayhill Slough.

Susie Mountain: mountain, 1,085 ft., 4.5 miles E of Red Mountain and 30 miles NE of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 57' N, 161° 37' W; BGN 1938; (map 39). Local name published in a 1933 U.S. Dept. Of Interior mining report.

Susitna Flats: flats, extend E and W 15 miles at mouth of Little Susitna River, 7 miles NW of Anchorage, Cook Inlet Lowland; 61° 16' N, 150° 16' W; (map 70). Local name reported in recent USGS publications: name derived from the Little Susitna River which flows through the flats.

Susitna Glacier: glacier, heads at 63° 29' N, 146° 35' W, trends SW 22 miles to its 1956 terminus, at junction of East Fork Susitna and Susitna Rivers, 64 miles SE of Healy, Alaska Range; 63° 26' N, 147° 12' W; (map 87). Reported in 1910 by D. C. Witherspoon (in Moffit, 1912, pl. 1), USGS; named for the river.

Susitna Lake: lake, 10 miles long, NW of Lake Louise, 42 miles NW of Glennallen, Copper River Basin; 62° 24' N, 146° 39' W; (map 83). Ahtena Indian name published by the ARC in 1925. See Susitna River.

Susitna River Station: locality, see Gold Creek.

Susitna River: stream, heads at Susitna Glacier in Alaska Range; flows SW 260 miles to Cook Inlet, 24 miles W of Anchorage, Cook Inlet Lowland; 61° 15' N, 150° 36' W; BGN 1906; (map 70). Variant: Reka Sushitna, Suchitna River, Sushetna River, Sushit River, Sushitna River, Suchitno River, Sutschitna River, Sustchino River. Tanaina Indian name meaning

“sandy river” published by the Russian Hydrog. Dept. as “R[eka] Sushitna,” meaning “Sushitna River,” on Chart 1378 dated 1847. The river appears to have been first explored in 1834, by a “creole named Malakov,” and the name may have been obtained by the Russians at that time (Dall, 1870, p. 12, 273). The present spelling of the name has evolved due to euphemistic reasons.

Susitna Station: village, see Susitna.

Susitna, Mount: mountain, 4,396 ft., extends N-S 13 miles, 6 miles SW of Susitna and 31 miles NW of Anchorage, Alaska Range, 61° 28' 30" N, 150° 44' 00" W; BGN 1962; (map 70). Variant: Suchitna Mountain, Sushetno Mountain, Sushitna Mountain. Tanaina Indian name reported in 1900 by USGS; name derived from nearby Susitna River.

Susitna: village, pop. 42, on E bank of Susitna River, 30 miles NW of Anchorage, Cook Inlet Lowland; 61° 32' 40" N, 150° 30' 45" W; BGN 1962; (map 70). Variant: Susetna, Sushetna, Sushetno, Sushitna, Suchitna Station, Susitna Station. Petroff (1881, p. 40) listed the name “Sushetno” referring to a collection of 146 Kenai Indians “on and up the Sushetno River.” The 1890 Census listed “Sushitna,” population 142, and 27 houses. Swanton (1952, p. 538 and 539) referred to the village as Tanaina Indian. Susitna post office was established in 1906 and discontinued in 1943 (Ricks, 1965, p. 63).

Suskaralogh Point: point of land, on NW coast of St. George Island, in Pribilof Islands; 56° 36' 45" N, 169° 45' 00" W; (map 38). Aleut name reported by W. W. Duffield USC&GS, in 1897. Putnam (1903, p. 1015), USC&GS, gives the meaning as “place where they get whales * * * so called because whales are said to have been cut up by the natives on the shore below this bluff, and carried away in bidarkas.” Putnam presents the name as “Suskara'logh [Saskare'loj].”

Suskita Range: mountain, see Roundabout Mountain.

Suslositna Creek: stream, in Mentasta Mountains, heads in lake, flows NW through Suslota Pass 16 miles to Slana River, 7 miles S of Mentasta Pass, Alaska Range; 62° 49' N, 143° 41' W; (map 84). Indian name reported in 1903 by F. C. Schrader, USGS.

Suslota Creek: stream, flows NW 20 miles from Mentasta Mountains to Slana River, 14 miles SW of Mentasta Pass, Alaska Range; 62° 44' N, 143° 49' W; (map 84). Variant: Sustota Creek. Indian name reported in 1885 by Lt. Allen (1887, p. 69), USA.

Suslota Lake: lake, 2.3 miles long, in Mentasta Mountains, drains E to Suslota Creek 14 miles S of Mentasta Pass, Alaska Range; 62° 42' N, 143° 35' W; (map 84). Indian name reported in 1885 by Lt. Allen (1887, p. 69), USA.

Suslota Pass: pass, 3,000 ft., in Mentasta Mountains, 12 miles SE of Mentasta Pass, Alaska Range, 62° 46' N, 143° 27' W; (map 84). Variant: Miles Pass. Named in 1899 by Schrader (1909a, p. 375), USGS, for Suslota Lake, which is 5 miles S of the pass.

Suspiro, Cape: point of land, on W coast of Prince of Wales Island, 1 mile S of Craig, Alexander Archipelago; 55° 27' 30" N, 133° 08' 30" W; (map 4). Variant: Cabo Suspiro, Mys

Suspiro. Spanish name given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Cabo Suspiro," meaning "cape sigh (hissing of the wind)."

Sussaymin Lakes: lakes, extend NE-SW 3 miles S of Dall River and 17 miles NW of Stevens Village, Yukon Flats; 66° 10' 30" N, 149° 35' 00" W; (map 118). Indian name reported in 1956 by T. E. Taylor, USGS.

Sustchino River: stream, see Susitna River.

Susto, Ensenada del: water passage, see Sitka Sound.

Sustota Creek: stream, see Suslota Creek.

Susulatna River: stream, heads on Fossil Mountain at 63° 31' N, 155° 49' W, flows NE 41 miles to Nowitna River, 35 miles SE of Ruby, Kilbuck-Kuskokwim Mountains; 63° 54' N, 154° 47' W, (map 89). Variant: Agate Fork. Indian name reported in 1915 by J. B. Mertie and G. L. Harrington (in Brooks and others, 1916, pl. 11), USGS.

Susy Q Creek: stream, flows W 3 miles to Delta River, crosses Richardson Highway, 28 miles SE of Mount Hayes, Alaska Range, 63° 29' 40" N 145° 51' 55" W; (map 86). Name published on relatively recent maps.

Sutchum: island, see Sutwik Island.

Sutchwik: island, see Sutwik Island.

Suter Creek: stream, heads in Russian Mountains flows SE 15 miles to Kolmakof River 1 mile N of its junction with Kuskokwim River, 21 miles E of Aniak, Kilbuck-Kuskokwim Mountains, 61° 34' 30" N, 158° 53' 45" W; BGN 1948; (map 72). Prospectors' name reported in 1914 by A. G. Maddren (in Brooks and others, 1915, p. 360) USGS.

Suter Creek: stream, see Sutter Creek.

Sutkhoon: locality, see Sutkum.

Sutkhum Island: island, see Sutwik Island.

Sutkhum: locality, see Sutkum.

Sutkhvik, Ostrov: island, see Sutwik Island.

Sutkum, Ostrov: island, see Sutwik Island.

Sutkum: locality, on Sutwik Island, off SE coast of Alaska Peninsula, Aleutian Range; 56° 34' N, 157° 12' W; (map 31). Variant: Sutkhoon, Sutkhum. Former Eskimo village or camp reported in the 1880 Census as "Sutkhoon" by Petroff (1884, p. 28).

Sutkwik Island: island, see Sutwik Island.

Sutro Creek: stream, flows NE 3 miles to Fox River, 30 miles NE of Solomon, Seward Peninsula Highlands; 64° 48' N, 163° 35' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Sutschitna River: stream, see Susitna River.

Sutter Creek: stream, flows E 3 miles to Buck Creek which flows to Grouse Creek, in Mint River basin, 42 miles NW of Teller, Seward Peninsula Highlands: 65° 38' N, 167° 30' W; (map 111). Prospectors' name reported in 1903 by Collier (1904, pl. 2), USGS.

Sutter Creek: stream, flows N 8 miles to Seventymile River, 28 miles NW of Eagle, Yukon-Tanana Highlands; 64° 58' N, 142° 02' W; (map 102). Variant: Suter Creek Local name shown on a 1902 manuscript map by E. J. Chamberlain, U.S. Deputy Surveyor.

Sutter Creek: stream, flows NW 3 miles to El Capitan Passage, on N coast of Kosciusko Island, Alexander Archipelago; 56° 09' 00" N, 133° 26' 30" W; (map 6). Local name recorded in 1949 by USGS.

Sutter Lake: lake, 0.2 miles long, on Sutter Creek, E shore of Shakan Bay, on N coast of Kosciusko Island, Alexander Archipelago; 56° 08' 50" N, 133° 26' 20" W; (map 6). Local name recorded in 1949 by USGS.

Sutton Siding: village, see Sutton.

Sutton: village, pop. 162, on Glenn Highway, 11 miles NE of Palmer, Cook Inlet Lowland; 61° 42' 40" N, 148° 53' 30" W; (map 69). Variant: Sutton Siding. Railroad station and siding on the Matanuska Branch of The Alaska Railroad founded about 1918. The Sutton post office was established in 1948 (Ricks, 1965, p. 63).

Sutwik Island: island, 14 miles long, SE of Alaska Peninsula, 14 miles S of Cape Kunmik, Aleutian Range: 56° 34' N, 157° 12' W; (map 31). Variant: Ile Sout-hvick, Ostrov Sutkhvik, Ostrov Sutkum Southkhvik, Soutvik Island, Sutchum, Sutchwik, Sutkhum Island, Sutkwik Island, Zutchwik Island. Eskimo name, shown as "[l]e Sout-hvick" by Adm. von Krusenstern (1827, map 20), IRN: published in 1847 as "Ostrov Sutkhvik" by the Russian Hydrog. Dept.

Suvaloyuk Creek: stream, in DeLong Mountains, Rows NW 7 miles to Singayoak Creek, 54 miles NE of Mishegak Mountain, Brooks Range: 68° 43' N, 159° 27' W; BGN 1960; (map 131). Eskimo name reported to mean "waster of food," given in 1953 by E. G. Sable and I. L. Traillleur, USGS.

Suvarov: village, see Naknek.

Suvoroff, Cape: bluff, see Suworof, Cape.

Suwanukto River: stream, see Sagavanirktok River.

Suwarof, Cape: bluff, see Suworof, Cape.

Suwarof: village, see Naknek.

Suwarof: village, see South Naknek.

Suworof, Cape: bluff, elev. 100 ft., on N coast of Alaska Peninsula, N point of entrance to Naknek River, W of Naknek, Bristol Bay Lowland; 58° 43' 20" N, 157° 02' 30" W; BGN 1932; (map 41). Variant: Cape Souvoroff, Cape Suvoroff, Cape Suwarof. Named in 1828 by Capt. M. N. Staniukovich of the corvette Moller, probably after nearby Russian Fort Suvorof. This "Russian family name was also spelled Souvoroff, Suvoroff, etc." The Moller, one of Capt. F. P. Lutke's ships, ended its exploration of the Alaska Peninsula at this point.

Suworof, Cape: bluff, see Pederson Point.

Suworof: village, see Naknek.

Suworof: village, see South Naknek.

Svataya Diomida, Ostrova: islands, see Diomedea Islands.

Svataya Ioanna Predtechi, Zaliv: bay, see Saint John Baptist Bay.

Svataya Lazarya, Mys: point of land, see Edgecumbe, Cape.

Svataya Lazarya, Ostrov: island, see Saint Lazaria Islands.

Svataya Lazarya: volcano, see Edgecumbe, Mount.

Svendson and Shaw: bay, see Shuyak Harbor.

Svensen Rock: rock, in E end of Peril Strait, N of Catherine Island, off Chichagof Island, 4 miles SE of Todd, Alexander Archipelago; 57° 26' 05" N, 134° 56' 55" W; (map 9). Variant: Swenson Rock. Named "Swenson Rock" in 1895 by Lt. Comdr. E. K. Moore, USN; published by USC&GS on Chart 8283. Baker (1906, p. 609), USGS, changed the name to "Svensen," the usual spelling of this Swedish proper name.

Svetchnikoff Port: cove, see Sviechnikof Harbor.

Sviatoy Paula, Ostrov: island, see Paul Island.

Svidania, Mys: point of land, see Swedania Point.

Sviechnikof Harbor: cove, 0.5 miles across, on S coast of Atka Island, Aleutian Islands; 52° 02' 30" N, 173° 23' 20" W; (map 19). Variant: Sbjeznikof, Souchikova, Svetchnikoff. Surveyed and probably named by pilot Ivan Chernof in 1832, and published as Svetchnikoff Port by Capt. Lutke (1836, p. 308), IRN. It may be a family name, or from "sviechnik," Russian for "tallow chandler."

Svikhchak Golfe: bay, see Kaguyak Bay.

Svikhshak: bay, see Swikshak Bay.

Svinoy, Ostrov: island, see Hog Island.

Svitlak Island: island, 0.4 miles long, in Kalsin Bay, 1 mile S of Kodiak, Kodiak Island; 57° 38' 00" N, 152° 21' 20" W; (map 34). Transliteration of the Russian word "svytlak" meaning "firefly," published in 1910 by USC&GS.

Svoget Slough: stream, anabranch of Kvichak River on its N bank, flows SW 2.8 miles, 17 miles N of Naknek, Bristol Bay Lowland; 58° 59' N, 156° 58' W; (map 41). Local name reported in 1952 by USGS.

Svyataya Matvyaya, Ostrov: island, see Saint Matthew Island.

Swaine Point: point of land, SW point of entrance to Explorer Basin, on W coast of Kuiu Island, S of Tebenkof Bay, Alexander Archipelago; 56° 25' 45" N, 134° 14' 00" W; BGN 1929; (map 5). Variant: Blake Point. Named in 1928 by USC&GS for "Lt. Swaine [cna], a member of the Vancouver expedition of 1792-1794."

Swallow Creek: stream, see Louse Creek.

Swallow Head: point of land, on N coast of Great Sitkin Island, Aleutian Islands; 52° 07' N, 176° 09' W; BGN 1936; (map 17). Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

Swallow Point: point of land, on SW shore of Kanaga Bay, SE coast of Kanaga Island, Aleutian Islands; 51° 42' 05" N, 177° 12' 15" W; (map 17). Name published in 1957 on an AMS map.

Swallow Reef: reef, in Captains Bay, in Unalaska Bay, NE coast of Unalaska Island, Aleutian Islands; 53° 50' 39" N, 166° 35' 30" W; (map 23). This name was published in the 1944 Aleutian Coast Pilot (p. 39).

Swallow Rocks: rocks, elev. 20 ft., between Bluff and Beach Coves, west-central coast of Kiska Island, Aleutian Islands; 51° 59' 35" N, 177° 29' 00" E; (map 14). One of the "bird names" arbitrarily applied to features on Kiska Island in 1943 by USAAF for tactical purposes during World War II.

Swamp Creek: stream, flows S 8 miles to Allen River, 4 miles W of Tobin Mountain and 44 miles NW of Wiseman, Brooks Range; 67° 39' 30" N, 151° 40' 00" W; BGN 1932; (map 124). Named about 1930 by Robert Marshall, "because of the flat swampy country which this creek drains."

Swamp Creek: stream, heads in Canada, flows W 0.3 miles into Alaska, to Yellow Water Creek, 25 miles E of Northway Junction, Alaska Range; 62° 58' 40" N, 141° 00' 40" W; BGN 1954; (map 84). Variant: Yellow Water Creek. Local name published in 1914 on Alaska-Canada boundary sheet 28.

Swamp Creek: stream, on Kalgin Island, flows NE 3 miles to Cook Inlet, 28 miles WSW of Kenai, Cook Inlet Lowland; 60° 23' 45" N, 151° 58' 50" W; (map 62). Local name reported in 1958 by USGS.

Swamp Lake: lake, see Memory Lake.

Swampbuggy Lake: lake, 0.4 miles long, 80 miles SE of Healy, Alaska Range; 63° 03' 20" N, 147° 25' 10" W; (map 87). Named and reported in 1953 by personnel of ARC. "Beside the lake is an abandoned vehicle used in 1952 called a 'swampbuggy' [used for transportation across tundra and swampy country.]"

Swampy Lakes: lakes, group, extend 2.5 miles W of Gakona River, 7 miles NE of Paxson, Alaska Range; 63° 06' 15" N, 145° 17' 15" W; (map 86). Name published on relatively recent maps.

Swampy River: stream, heads in lake, winds N 16 miles through several lakes to Egegik River on Alaska Peninsula, 4 miles E of Egegik and 38 miles SW of Naknek, Bristol Bay Lowland; 58° 11' 30" N, 157° 15' 50" W; (map 41). Descriptive name given by R. H. Sargent, USGS, in 1923 "because of the swampy area bordering the river's lower course."

Swan Cove: cove, 2 miles across, on E coast of Admiralty Island, in Seymour Canal, NW of Swan Island, 23 miles S. of Juneau, Alexander Archipelago; 57° 59' N, 134° 19' W; (map 9). Local name reported in 1951 by USGS.

Swan Creek: stream, heads in Little Merganser Lake and flows N and W 8 miles to Swanson River S of Quill Lake, 22 miles NE of Kenai, Cook Inlet Lowland; 60° 44' 45" N, 150° 44' 10" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Swan Creek: stream, see Kakhtul River.

Swan Creek: stream, see Swan River.

Swan Island: island, 3 miles across, on E coast of Admiralty Island, in Seymour Canal, 24 miles S of Juneau, Alexander Archipelago; 57° 56' N, 134° 14' W; (map 9). Named in 1890 by Lt. Comdr. H. B. Mansfield, USN; published by USC&GS in the 1891 Alaska Coast Pilot (p. 144).

Swan Island: island, 700 ft. across, largest in Walker Lake, Brooks Range, 67° 07' N, 154° 22' W; (map 125). Local name reported by Orth, USGS, in 1956.

Swan Lake: lake, 0.4 miles across, in Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 03' 30" N, 135° 20' 10" W; (map 9). Variant: Ozero Lebyazhye. This is an 1882 translation by USC&GS of the name given in 1809 by the Russian navigator Ivan Vasiliev the first; reported by Lt. Sarichev (1826, map 19), IRN, as "Oz[ero] Lebazhye."

Swan Lake: lake, 0.5 miles across, on Kenai Peninsula, S of Skilak Lake, 40 miles ESE of Kenai Cook Inlet Lowland; 60° 23' 30" N, 150° 24' 30" W; (map 62). Local name reported in 1951 by USGS.

Swan Lake: lake, 0.6 miles long, on N bank of Tanana River, 1 mile S of Midway Lake and 23 miles SE of Tok, Yukon-Tanana Highlands; 63° 12' N, 142° 19' W; (map 85). Local name published by USGS in 1964.

Swan Lake: lake, 1.3 miles long, between Jim Creek and Knik River, 7 miles SE of Palmer, Cool; Inlet Lowland; 61° 31' 40" N, 148° 54' 00" W; (map 69). Local name reported in 1942 by AMS.

Swan Lake: lake, 1.5 miles long, 4 miles NW of Swan Mountain and 8 miles NE of Arctic Village, Brooks Range; 68° 14' N, 145° 22' W; (map 136). Local name reported in 1956 by R. C. Foley USGS.

Swan Lake: lake, 2 miles long, 15 miles NW of Talkeetna, Cook Inlet Lowland; 62° 31' 30" N, 150° 23' 20" W; (map 81). Local name reported in 1958 by USGS.

Swan Lake: lake, 2 miles long, on Cascade Creek 2 miles N of Cosmos Peak and 105 miles E of Sitka, Coast Mountains; 57° 01' 45" N, 132° 44' 30" W; BGN 1923; (map 8). Name reported in 1917 by G. H. Canfield (in Martin and others, 1919, p. 53), USGS.

Swan Lake: lake, 2 miles long, on Kenai Peninsula 2.5 miles E of Rock Lake, 25 miles ENE of Kenai, Cook Inlet Lowland; 60° 40' N, 150° 33' W; (map 62). Local name reported in 1958 by USGS.

Swan Lake: lake, 3 miles long, on Revillagigedo Island near head of Carroll Inlet, Alexander Archipelago; 55° 37' N, 131° 17' W; (map 3). Local name recorded in 1916 by G. H. Canfield (in Brooks and others, 1918, p. 113), USGS.

Swan Lake: lake, on Kenai Peninsula, extends SW 2 miles, near head of Chickaloon River, 22 miles SW of Hope, Chugach Mountains; 60° 37' 25" N 149° 52' 00" W; (map 63). Local name reported in 1951 by USGS.

Swan Lake: lake, see High Lake.

Swan Mountain: mountain, 4,110 ft., 4 miles W of Signal Mountain and 10 miles NE of Arctic Village, Brooks Range; 68° 13' N, 145° 13' W; (map 136). Local name reported in 1956 by R. C. Foley, USGS.

Swan River: stream, flows SW 16 miles to Kakhtul River, 84 miles NE of Dillingham, Alaska Range; 59° 45' N, 156° 32' W; (map 52). Variant: Estu-y-a-rok, Kogiukhtuli, Swan Creek. Local name obtained in 1898 by J. E. Spurr and W. S. Post, USGS, from A. Mittendorf, a local trader; published by Spurr (1900, p. 235), USGS. The stream was shown as "Swan Creek" or "Estu-y-a-rok" on a 1910 manuscript map by H. C. Fassett, USBF.

Swan River: stream, see Kakhtul River.

Swan River: stream, see Kugruk River.

Swanneck Crossing: winter crossing, across Swanneck Slough, 4 miles NW of Minto and 47 miles W of Fairbanks, Tanana Lowland; 64° 55' 36" N, 149° 17' 00" W; (map 100). Local name published in 1950 by USGS.

Swanneck Slough: stream, an anabranch, flows NW 21 miles from Tanana River to Tolovana River, 40 miles SE of Rampart, Tanana Lowland; 65° 01' N, 149° 33' W; (map 105). Descriptive name derived from "Swanneck Bend" in the Tanana River; reported by USGS in 1940.

Swanport: anchorage, on S shore of Port Valdez, 5.2 miles SW of Valdez, Chugach Mountains, 61° 05' 15" N, 146° 24' 10" W; (map 68). Local name reported in 1898 by Capt. E. F. Glenn, USA.

Swanson Bay: estuary, on SW coast of Bainbridge Island, trends W 4.5 miles to Port Bainbridge, 40 miles E of Seward, Chugach Mountains; 60° 02' 30" N, 148° 18' 30" W; (map 63). Local name reported in 1908 by U. S. Grant and D. F. Higgins (in Brooks and others, 1909, pl. 4), USGS.

Swanson Creek: stream, heads on Eva Mountain, flows SE 2 miles to Allene Creek, 11 miles NE of Teller, Seward Peninsula Highlands; 65° 21' N, 166° 03' W; (map 111). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Swanson Harbor: water passage, 0.6 miles long, at mouth of Lynn Canal, between Couverden, Ansley, and Entrance Islands, 25 miles SW of Juneau, St. Elias Mountains; 58° 11' 30" N, 135° 05' 00" W; (map 11). Named in 1869 by Comdr. R. W. Meade, USN, and published in the 1883 Coast Pilot (P 193).

Swanson Island: island, 3 miles long, in Yukon River, 19 miles W of Tanana, Nowitna Lowland; 65° 11' N, 152° 44' W; (map 106). Local name reported in 1952 by USGS.

Swanson Lagoon: lagoon, 4 miles across, at NE end of Unimak Island, Aleutian Islands; 55° 02' N, 163° 36' W; (map 29). Name published by USC&GS in 1943 on Chart 8701.

Swanson Lake: lake, 1.5 miles long, one of the Swanson Lakes, on Kenai Peninsula W of Gene Lake, 33 miles NE of Kenai, Cook Inlet Lowland; 60° 49' 30" N, 150° 31' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Swanson Lakes: lakes, group extends 10 miles, on Kenai Peninsula, at head of Swanson River, 15 miles S of Point Possession and 28 miles NE of Kenai, Cook Inlet Lowland; 60° 50' N, 150° 30' W; (map 62). Local name reported in 1960 by USGS; derived from Swanson River.

Swanson Point: point of land, on SW coast of Bainbridge Island, at N entrance to Swanson Bay, 18 miles SW of Chenega, Chugach Mountains, 60° 03' N, 148° 18' W; BGN 1929; (map 63). Named in 1929 by USC&GS for nearby Swanson Bay.

Swanson River: stream, heads at Gene Lake, flows SW and N 40 miles to Number Three Bay, on NW coast of Kenai Peninsula, 19 miles NE of Kenai, Cook Inlet Lowland; 60° 48' N, 151° 02' W; (map 62). Local name published in 1939 by USGS.

Swanson Slough: channel, of Yukon River, flows NW 2.5 miles S of Swanson Island, 19 miles W of Tanana, Nowitna Lowland; 65° 11' N, 152° 45' W; (map 106). Local name reported in 1952 by USGS.

Swayback Creek: stream, flows NE 30 miles to Kuna River, 15 miles SE of Liberator Lake, Arctic Slope; 68° 47' N, 157° 46' W; BGN 1960; (map 132). Named in 1949 by Island L. Tailleur, USGS, for nearby Swayback Mountain; a name originally applied to a hill on the left bank of this stream at 68° 43' N, 157° 56' W. See Swayback Mountain.

Swayback Lakes: lakes, between Swayback Creek and Kuna River, 17 miles SE of Liberator Lake, Arctic Slope; 68° 42' N, 157° 51' W; BGN 1960; (map 132). Named in 1950 by B. H. Kent and Island L. Tailleur, USGS, for adjacent Swayback Mountain

Swayback Mountain: hill, 2,780 ft., 11 miles SSE of Liberator Lake, Arctic Slope; 68° 42' N, 158° 14' W; (map 132). Named by USGS geologists in 1949. The name was originally applied to a hill on the left bank of Swayback Creek at 68° 43' N, 157° 56' W. This feature was so named because of its “swayback” appearance. When the 1951 USGS Howard Pass map was edited, the original feature did not show, and the name was inadvertently misapplied to this mountain.

Sweater Bay: bay, trends SW 4 miles to Kuiukta Bay on Alaska Peninsula, 19 miles SW of Chignik, Aleutian Range; 56° 02' N, 158° 34' W; (map 30). Local name reported by a 1951 USGS field party.

Swedania Point: point of land, SW entrance point to Stepovak Bay near SW end of Alaska Peninsula, Aleutian Range; 55° 28' 45" N, 160° 31' 30" W; (map 28). Variant: Cape Swedania, Mys Svidaniya, Point Swedania. Name shown as “Point Swedania” on a USC&GS chart published in 1882; “M[ys] Svidaniya” is shown on a Russian Hydrog. Dept. chart published in 1847, possibly derived from the Russian expression “do svidaniy” meaning “till we meet again.”

Swede Boys Camp: locality, on left bank of Beaver Creek, NW of Olaf Lake, 18 miles SE of Beaver, Yukon Flats; 66° 12' 30" N, 146° 52' 25" W; (map 119). Local name obtained in 1956 by USGS.

Swede Creek: stream, flows NW to Snake River, about 32 miles NE of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 “Map of Nome Peninsula” by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Swede Creek: stream, flows SE 8 miles to Glacier River, 5 miles NW of Vermont Dome and 12.5 miles NW of Wiseman, Brooks Range; 67° 33' 15" N, 150° 25' 30" W; BGN 1932; (map 124). Local name reported by Robert Marshall in 1932.

Swede Hill: peak, see Roberts, Mount.

Swede Lake: lake, 2.2 miles long, drains S to Middle Fork Gulkana River, 13 miles SW of Paxson, Alaska Range; 63° 00' N, 145° 53' W; (map 83). Local name reported in 1950 by USGS.

Swede Point: point of land, on N bank of Taku River, at its junction with Taku Inlet, 1.6 miles E of terminus of Taku Glacier and 18 miles NE of Juneau, Coast Mountains; 58° 26' 10" N, 133° 59' 00" W; (map 12). Name published in 1943 by USC&GS.

Swedish Gulch: ravine, trends S 1 mile to Norton Sound, 1.7 miles E of village of Bluff and 22 miles E of Solomon, Seward Peninsula Highlands; 64° 34' N, 163° 42' W; (map 95). Prospectors' name shown on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Sweeney Lake: lake, 1.8 miles long, 16 miles SW of Beaver, Yukon Flats; 66° 09' N, 147° 43' W; (map 118). Local name obtained in 1956 by USGS.

Sweeney, Point: point of land, on Beaufort Sea coast, 2 miles E of Point Hopson and 5 miles W of Flaxman Island, Arctic Plain; 70° 11' 15" N, 146° 25' 45" W; (map 151). Named by Leffingwell (1919, p. 100) in 1913, "After Dan Sweeney, who worked for the writer."

Sweeny Creek: stream, flows NW 4 miles to E shore of Lynn Canal, 0.3 miles NE of Point Sherman and 47 miles NW of Juneau, Coast Mountains; 58° 52' 05" N, 135° 08' 25" W. (map 11). Local name reported in 1906 by R. B. Oliver, USGS; published in 1908.

Sweeper Cove: cove, 1 mile across, on W shore of Kuluk Bay, on NE coast of Adak Island, Aleutian Islands; 51° 51' 40" N, 176° 37' 30" W; BGN 1936; (map 17). Variant: Salmon Cove. So named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934, "because it was used as a refuge for the smaller ships of the expedition (mine sweepers) during had weather.'

Sweeper Creek: stream, flows S 1.2 miles to Sweeper Cove, Kuluk Bay, on NE coast of Adak Island, Aleutian Islands; 51° 51' 36" N, 176° 39' 10" W; BGN 1936; (map 17). Variant: Salmon Creek. Name derived from Sweeper Cove, given by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

Sweepstakes Creek: stream, flows SE 13 miles to Peace River, 6 miles N of Haycock, Seward Peninsula Highlands; 65° 17' N, 161° 08' W; (map 109). Local name reported in 1917 by G. L. Harrington, USGS.

Sweet Briar Creek: stream, see Sweetbrier Creek.

Sweetbrier Creek: stream, flows SE 0.8 miles to Shovel Creek, opposite Kasson Creek, 9 miles N of Solomon, Seward Peninsula Highlands; 64° 41' 30" N, 164° 25' 35" W; (map 95). Variant: Sweet Briar Creek. Prospectors' name reported on a 1902 prospectors' manuscript map.

Sweetcake Creek: stream, flows S 4 miles to Ophir Creek, 3 miles NW of Council and 33 miles NE of Solomon, Seward Peninsula Highlands; 64° 56' N, 163° 44' W, (map 95). Prospectors' name published in January 1900 by Schrader (1900c, p. 16), USGS.

Sweetheart Creek: stream, flows W 11 miles through Upper and Lower Sweetheart Lakes to Gilbert Bay, 37 miles SE of Juneau, Coast Mountains; 57° 56' 40" N, 133° 41' 00" W; BGN 1931; (map 8). Named in 1931 for Sweetheart Falls by USFS.

Sweetheart Falls: falls, on Sweetheart Creek, 0.3 miles E of Gilbert Bay and 37 miles SE of Juneau, Coast Mountains; 57° 56' 40" N, 133° 40' 30" W; (map 8). Named in 1888 by Lt. Comdr. C. M. Thomas, USN.

Sweetheart Lake: lake, see Lower Sweetheart Lake and Upper Sweetheart Lake.

Sweetwater Creek: stream, flows W 13 miles to Chisana River, 16 miles SE of Northway Junction, Alaska Range; 62° 45' 20" N, 141° 27' 55" W; (map 84). Local name reported by USGS in 1955.

Sweetwater Lake: lake, 4.5 miles long, N central Prince of Wales Island, Alexander Archipelago; 55° 58' N, 132° 56' W; (map 4). Local name recorded in 1949 by USGS.

Swen Waxell Ridge: ridge, see Waxell Ridge.

Swenson Rock: rock, see Svensen Rock.

Swewidow: mountain, see Vsevidof, Mount.

Swift Creek: stream, flows 4 miles SE to Kennicott River, 3 miles SW of McCarthy, Wrangell Mountains; BGN 1966; 61° 24' 23" N, 142° 59' 53" W; (map 67). Descriptive name used by local landowner and reported in 1965 by L. A. Yehle, USGS.

Swift Creek: stream, flows NW 13 miles to Crooked Creek, 65 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 18' N, 159° 56' W; BGN 1959; (map 59). Variant: Crooked Creek. Local descriptive name; reported in 1955 by J. M. Hoare, USGS.

Swift Creek: stream, flows S 2.1 miles to Basin Creek, 3.7 miles W of Long and 23 miles SW of Ruby, Kilbuck-Kuskokwim Mountains; 64° 24' 32" N, 155° 37' 10" W; BGN 1936; (map 98). Prospectors' name reported by Mertie and Harrington (1924, p. 94), USGS.

Swift Creek: stream, flows SW 8 miles to Kisaralik River, 58 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 29' N, 160° 10' W; (map 59) Local name reported in 1949 by USGS.

Swift Creek: stream, heads at glacier, flows S 4.3 miles to Hidden River, 41 miles N of Talkeetna, Alaska Range; 62° 54' 55" N, 150° 07' 40" W; (map 81). Descriptive name published in 1940 by USGS.

Swift Creek: stream, heads in Kilbuck Mountains and flows N 40 miles to Aniak Slough, 5 miles SW of Aniak, Yukon-Kuskokwim Delta; 61° 31' 30" N, 159° 37' 10" W; Variant: Amoloriasak River. A. G. Maddren, USGS, shows this name on a 1914 field sheet applied to what is now called "Discovery Creek." USGS reapplied the name to this stream in 1948.

Swift Creek: stream, on Kenai Peninsula, flows SE 5.5 miles to NE end of Kachemak Bay, 19 miles NE of Homer, Cook Inlet Lowland; 59° 47' 15" N, 151° 04' 30" W; (map 50). Local name reported by Grant and Higgins (1913, pl. 2), USGS. Probably so named because of the sharp stream gradient which would create a fast flowing stream.

Swift Creek: stream, see Crooked Creek.

Swift Fork Kuskokwim River: stream, see Swift Fork.

Swift Fork: stream, 75 miles long, flows NW from Chedotlothna Glacier, to North Fork Kuskokwim River, 2 miles SE of Little Hog Butte and 50 miles NE of Medfra, Kuskokwim Lowland; 63° 34' N, 153° 30' W; BGN 1956; (map 89). Variant: McKinley Fork Kuskokwim River, Shangavinapok, Swift Fork Kuskokwim River Swift River, Chedotlothna River. Local name reported about 1912 by Jacob Johnson, trapper, as "Swift River or "as the natives called it 'Shangavinapok'. Although local usage of "McKinley Fork" was reported in 1955 by USGS, "Swift Fork" as recommended in 1956.

Swift Fork: stream, see Tonzona River.

Swift Islands: islands, see Twin Islands.

Swift Point: point of land, on W coast of Amlia Island, Aleutian Islands; 52° 07' 20" N, 174° 02' 50" W; (map 18). Descriptive name applied "because of the swift currents and tide rips in Amlia Pass." Published by USC&GS in the 1944 Aleutian Coast Pilot (p. 90).

Swift River: stream, flows NE and SE 20 miles to Anvik River, 55 miles S of Unalakleet, Nulato Hills; 63° 04' 10" N, 160° 43' 00" W; (map 91). Local name reported in 1949 by USC&GS.

Swift River: stream, flows SE 8 miles to Chikululnuk Creek, 3 miles N of mouth of Gemuk River and 80 miles SW of Sleetmute, Kilbuck-Kuskokwim Mountains: 60° 50' N, 158° 32' W; (map 60). Local name obtained in 1932 by BIA.

Swift River: stream, heads from several glaciers in Alaska Range at 61° 36' 30" N, 153° 58' 50" W, flows W and NW 100 miles to Kuskokwim River, 13 miles NE of Sleetmute, Stony River Lowland; 61° 53' 20" N, 156° 18' 30" W; (map 72). Variant: Chagavenapuk, Chagvanakhtuli, Chakawunapuk River, Chotschnalitno, Kochalitno River, Tschagevanchtuli. Local translation of Eskimo name recorded as "R[eka] Chagvanakhtuli" in 1842-44 by Lt. L. A. Zagoskin, IRN. Given as "Chakawunapuk" on a 1898 fieldsheet by W. S. Post, USGS, but published as "Chagavenapuk" by J. E. Spurr, USGS. Zagoskin also gave the Indian name which he recorded as "Khockalitno." In 1908 A. G. Maddren, USGS, reported the translated name as "Swift River."

Swift River: stream, see Swift Fork.

Swift Rock, Point: rock, 0.3 miles N of Point Swift, W coast of Prince of Wales Island, 21 miles NW of Craig, Alexander Archipelago; 55° 46' N, 133° 19' W; (map 4). Local name published in 1925 Coast Pilot (p. 151).

Swift, Point: point of land, N point of entrance to Tonowek Narrows, on W coast of Prince of Wales Island, Alexander Archipelago; 55° 45' 45" N, 133° 19' 28" W; (map 4). Local name published in 1917 by USC&GS.

Swikschak: bay, see Swikshak Bay.

Swikshak Bay: bay, 8 miles across, on S shore of Alaska Peninsula, in Katmai National Monument, 25 miles SW of Cape Douglas, Aleutian Range; 58° 36' N, 153° 48' W; (map 43). Variant: Sbichsak, Suikhchak, Swikschak, Svikhshak. Native name published by Capt. Lutke (1836, p. 275), IRN, as "Svikhchak golfe" and by Capt. Tebenkov (1852, map 22), IRN, as "[Z[ali] Svikhshak," or "Svikhshak Bay."

Swikshak Lagoon: lagoon, mouth of Swikshak River, extends NE 2.2 miles, on NE coast of Alaska Peninsula, in Katmai National Monument, 50 miles SW of Augustine Island, Aleutian Range; 58° 36' 30" N, 153° 46' 30" W; (map 43). Name derived from Swikshak Bay and published in 1952 on a USGS map.

Swikshak River: stream, heads at glacier terminus, on NE coast of Alaska Peninsula, in Katmai National Monument, flows S through Swikshak Lagoon, 6.5 miles to Shelikof Strait, Aleutian Range; 58° 36' 25" N, 143° 46' 35" W; (map 43) Name derived from Swikshak Bay and published on a 1952 USGS map.

Swikshak: locality, site of village, on NE coast of Alaska Peninsula in Katmai National Monument, at mouth of Swikshak River, 50 miles SW of Augustine Island, Aleutian Range; 58° 36' 30" N, 153° 46' 25" W; (map 43). Name derived from Swikshak Bay and published on a 1952 USGS map.

Swineford Lake: lakes, 2.6 miles long, along Yehring Creek, 2 miles NW of Mount Swineford and 26 miles NE of Juneau, Coast Mountains; 58° 27' 30" N, 133° 46' 30" W; BGN 1932; (map 12). Named in 1952 by B. D. Stewart, USGS, because "the lakes received their principal water supply from hanging glaciers lying on the westerly slopes of Mount Swineford."

Swineford, Mount: mountain, elev. 6,841 ft., 8.7 miles SE of Taku Lodge on Taku River and 28 miles NE of Juneau, Coast Mountains; 58° 26' 05" N, 133° 43' 15" W; (map 12). Named in 1932 by B. D. Stewart, USGS, for Alfred P. Swineford, second governor of Alaska, who was appointed in 1885, and because "the mountain lies in the vicinity of the city of Juneau, where members of family of ax-Governor Swineford now reside."

Swing Creek: stream, see Hammer Creek.

Swinging Dome: mountain, 2,264 ft., W of Iditarod River, 11.7 miles SW of Flat and 49 miles NE of Holy Cross, Kilbuck-Kuskokwim Mountains; 62° 20' N, 158° 17' W; (map 79). Prospectors' name published in 1921 by USGS.

Swinoi Island: island, see Hog Island.

Swirl Islands: islands, see Yelnu Islets.

Swirl Reef: reef, see Fathometer Reef.

Swirl Rock: rock, in Akun Strait between Akun and Akutan Islands, 4.5 miles E of Akutan, Aleutian Islands; 54° 08' 05" N, 165° 39' 25" W; (map 24). Name published in 1943 by USC&GS.

Switch Creek: stream, flows NW 2 miles to Deadwood Creek, 35 miles SW of Circle, Yukon-Tanana Highlands; 65° 28' 30" N, 144° 54' 00" W; (map 104). Named by prospectors; reported in 1903 by USGS (Prindle, 1905, pl. 3).

Switch Creek: stream, flows W 2 miles to Chicken Creek, 50 miles SW of Eagle, Yukon-Tanana Highlands; 64° 06' N, 141° 55' W; (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Switchback Mountain: mountain, 1,711 ft., W Illinois Creek, 14 miles NE of Birches, Kokrines-Hodzana Highlands; 65° 16' 00 " N, 153° 13' 30" W; (map 107). Local name reported in 1915 by Waring (1917, fig. 12),USGS.

Sword Point: point of land, see Espada, Point.

Sword Point: point of land, SW tip of San Fernando Island, 10 miles W of Craig, Alexander Archipelago; 55° 28' 15" N, 133° 23' 50" W; (map 4). Variant: Punta de Espada. Translation by USC&GS of the name "Punta de Espada" given in 1775-1779 by Bodega y Quadra and Francisco Antonio Maurelle.

Sword Point: point of land, W tip of Tozitna Island, in Yukon River, 12 miles WSW of Tanana, Nowitna Lowland; 65° 07' 30" N, 152° 28' 00" W (map 106). Riverboat pilots' descriptive name shown on Navigation Chart of the Tanana-Yukon Rivers, dated 1940.

Syakhlidok, Ostrov: island, see Sitkalidak Island.

Syatkhlidak, Ostrov: island, see Sitkalidak Island.

Syatkhlidak, Proliv: water passage, see Sitkalidak Strait.

Syble Point: point of land, on NE coast of Cleveland Peninsula, between Behm Canal and Yes Bay, Alexander Archipelago; 55° 53' 20" N, 131° 44' 00" W; (map 3). Named in 1891 by USG&GS.

Sycamore Bay: bay, see Monashka Bay.

Syemidy, Ostrova: islands, see Semidi Islands.

Sykes Cove: estuary, extends S 0.5 miles off Behm Canal, 2 miles W of Behm Mountains, Coast Mountains. 55° 12' 00" N, 131° 04' 45" W; BGN 1929, (map 3). Local name reported in 1929 by USFS.

Sykes Lake: lake, 1.4 miles long, 4 miles SE of Point Sykes on Behm Canal, Coast Mountains; 55° 09' N, 131° 00' W; BGN 1962; (map 3). Local name recorded in 1955 by USGS.

Sykes, Point: point of land, E point of entrance to Behm Canal, Coast Mountains; 55° 11' 30', N 131° 05' 30" W; (map 3). Variant: Mys Seykes Named by Capt. Vancouver, RN, "August 7, 1793, after John Sykes, a master's mate on the Discovery" (Wagner, 1937, p. 418).

Sylburn Harbor: bay, 2 miles across, on W coast of Annette Island, N of Port Chester, Alexander Archipelago 55° 12' N, 131° 36' W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Sylva Creek: stream, heads about 57° 32' N, 133° 13' W, flows W about 4 miles to Chuck River 1.5 miles above river's mouth at head of Windham Bay and 65 miles SE of Juneau, Coast Mountains; 57° 33' 50" N, 133° 20' 40" W; (map 8). Variant: Sylvia Creek. Named by prospectors and reported in 1903 by Spencer (1906, fig. 3). It was probably named for "Nix" Sylva, prospector, who in 1869 made gold discoveries on Windham and Holkham Bays and later in the Juneau area. The creek contains gold-bearing gravels.

Sylvanite Creek: stream, flows S 2.5 miles to Aurora Creek which flows to Noxapaga River, 27 miles W of Imurok Lake, Seward Peninsula Highlands; 65° 38' N, 164° 13' W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Sylvia Creek: stream, see Sylva Creek.

Symond Bay: bay, see Symonds Bay.

Symonds Bay: bay, 0.5 miles across, on N coast of Biorka Island, W of Baranof Island, Alexander Archipelago: 56° 51' 40" N, 135° 31' 00" W; BGN 1897; (map 5). Variant: Symond Bay. Named in 1879 by USC&GS for Lt. Frederick Martin Symonds, USN, who surveyed the bay in 1879 with Master G. C. Hanus, USN.

Symonds Point: point of land, on N coast of Mansfield Peninsula, 3.3 miles SE of Barlow Point and 15 miles NW of Juneau, Alexander Archipelago; 58° 20' 30" N, 134° 50' 00" W; (map 11). Named in 1884 by Comdr. J. B. Coghlan USN, for Lt. Frederick M. Symonds, who served under Capt. L. A. Beardslee on the U.S.S. Jamestown and under Comdr. H. Glass' USN, on the U.S.S. Wachusett, while surveying this part of Alaska in 1879-81. The name was published by USC&GS in the 1883 Coast Pilot (p. 173).

Syncline Mountain: mountain, 5,400 ft., extends SW 8 miles from Belanger Pass, between Alfred and Squaw Creeks, 55 miles NE of Palmer, Talkeetna Mountains; 61° 55' 45" N, 147° 28' 05" W; BGN 1960; (map 69). So named in 1956 by USGS because "it is composed entirely of bedded rocks folded into a large syncline."

Synrock River: stream, see Sinuk River.

Syooknook River: stream, see Pile River.

Syroy, Mys: point of land, see Siroi Point.

Syumetsy, Ostrov: island, see Suemez Island.

Syvernoy, Mys: point of land, see Lighthouse point.

Syvernoy, Mys: promontory, see Akun Head.

Syvernoy, Proliv: water passage, see Kupreanof Strait.

Syvernyy, Mys: point of land, see North Cape.

T

T Lake: lake, 1.3 miles long, 1 mile SE of Long Lake and 19 miles W of Glennallen, Copper River Basin; 62° 11' N, 146° 07' W; (map 83). Local name published in 1952 by USGS.

T Lake: lake, Island 1 mile long, N of Billy Creek, 38 miles NW of Tanacross, Yukon-Tanana Highlands; 63° 48' N, 143° 53' W; (map 85). Local name published by USGS in 1950. Named because the lake's outline is in the form of a T.

T Mountain: mountain, see T, Mount.

T Peak: mountain, see T, Mount.

T'awat Creek: Stream, 0.3 miles long, connects Aka and Kardy Lakes, 2.7 miles SW of Yakutat, Malaspina Coastal Plain; 59° 31' 25" N, 139° 47' 45" W; (map 46). Tlingit Indian name reported in 1964 (de Laguna and others, 1964, p. 23, map 4).

T'Click: locality, see Tklik.

T'satsumi: locality, see Techek.

T'silkat Islands: islands, see Chilkat Islands.

T, Mount: mountain, 8,001 ft., Boundary Peak 72 on Alaska-Canada boundary, 3.5 miles NE of Mount Burkett and 118 miles E of Sitka, Coast Mountains; 57° 12' 45" N, 132° 14' 45" W; BGN 1953; (map 8). Variant: Boundary Peak 72, T Mountain, T Peak. So designated in 1903 by the Alaskan Boundary Tribunal.

T, Peak: mountain, 1,000 ft., 1.5 miles N of Beluga Hill, 6 miles W of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 08' N, 161° 44' W; (map 53). Name reported in 1954 by USGS.

Ta-clik: locality, see Tklik.

Ta-kahoela Lake: lake, see Takahula Lake.

Ta-tot-lee: bluff, see Eagle Bluff.

Taain Creek: stream, 1 mile long, flows SW to Wrangell Narrows on NW coast of Mitkof Island, 6 miles S of Petersburg, Alexander Archipelago; 56° 44' 45" N, 132° 56' 25" W; BGN 1933; (map 6). Named in 1933 by USFS "for an Indian who is said to have settled in this vicinity early in the nineteenth century, and to have had a widespread influence for good among the natives."

Taain Creek: stream, see Falls Creek.

Taaltsug River: river, one of five rivers on delta of Alsek River, flows to Gulf of Alaska, 50 miles SE of Yakutat, Malaspina Coastal Plain; 59° 07' N, 138° 30' W; (map 46). Tlingit Indian name published by Capt. Tebenkov (1852, map 7), IRN, on an 1849 map.

Taapkuk: locality, at Cape Espenberg on Kotzebue Sound, Kotzebue-Kobuk Lowland; 66° 33' N, 163° 36' W; (map 113). Variant: Tapkachmiut, Tapkhakgmüt, Tup-kug-ameuts. Former Eskimo village or camp reported in 1847 as "Tapkhakgmüt" by Lt. L. A. Zagoskin, IRN, (Hodge, 1910, p. 691); listed as "Ta-apkuk," population 42, in the 1880 Census by Petroff (1884, p. 4).

Taaqtaluuzaq: locality, see Taktalurak Rocks.

Tabasco Creek: stream, flows SE 2.4 miles to Sawpit Creek, 30 miles S of Aniak, Kilbuck-Kuskokwim Mountains; 61° 08' N, 159° 28' W; (map 73). Prospectors' name "from Tabasco sauce" reported by USC&GS in 1948.

Tabescot Lake: lake, 2 miles long, on N bank of Koyukuk River, 27 miles E of Allakaket, Kanuti Flats; 66° 34' 45" N, 152° 32' 00" W; (map 117). Koyukan Indian name obtained in 1956 at Allakaket by T. E. Taylor, USGS.

Tabernacle Mountain: mountain, 1,163 ft., in Paimiut Hills, on W bank of Yukon River, 16 miles SW of Holy Cross, Nulato Hills, 62° 00' 25" N, 160° 04' 20" W; (map 78). Local name obtained in 1952 by USGS.

Tabert Lake: lake, 0.8 miles long, 2.6 miles WSW of Little Lake Louise and 40 miles WNW of Glennallen, Copper River Basin; 62° 17' 30" N, 146° 45' 00" W; (map 83). Local name reported in 1959 by USGS.

Table Bay: bay, 1.5 miles across, 11 miles NW of Cape Decision, on S coast of Kuiu Island, Alexander Archipelago; 56° 09' N, 134° 15' W; (map 5). Local name used by fishermen; published in 1917 by USC&GS.

Table island: island, 0.1 miles across, southernmost of two islands in Killisnoo Harbor, off W coast of Admiralty Island, 3 miles S of Angoon, Alexander Archipelago; 57° 27' 25" N, 134° 34' 55" W; (map 9). Variant: Table Islands. Named in 1869 by Comdr. R. W. Meade, USN; published as "Table Islands" on Hydrographic Chart 225.

Table Island: island, 800 ft. long, at NE entrance to Sitkalidak Strait, SE of Kodiak Island; 57° 11' 20" N, 152° 55' 00" W; BGN 1930; (map 34). Variant: Entrance Island. Descriptive name given in 1928 by USC&GS, "because of the table-like appearance of the island." Previously called "Entrance Island;" the name was changed because of duplications.

Table Islands: island, see Table Island.

Table Mountain: hill, between heads of Koyuk and Kuzitrin Rivers, about 10 miles SW of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This stream cannot be precisely located on current maps.

Table Mountain: mountain, 1,350 ft., on NE end of Ushagat Island, in Barren Islands, 70 miles NE of Afognak, Chugach Mountains; 58° 56' 35" N, 152° 10' 05" W; (map 43). Descriptive name given in 1908 and published in 1910 by USC&GS.

Table Mountain: mountain, 2,700 ft., on Cleveland Peninsula near head of Santa Anna Inlet, Alexander Archipelago; 55° 58' 30" N, 131° 54' 15" W; (map 3). Name published in 1910 by USC&GS.

Table Mountain: mountain, 2,701 ft., on S end of Admiralty Island, S of Whitewater Bay, 20 miles S of Angoon, Alexander Archipelago; 57° 12' 15" N, 134° 34' 45" W; (map 9). Descriptive name published by USC&GS in the 1901 Alaska Coast Pilot (p. 161). This mountain is a prominent landmark in the Whitewater Bay area.

Table Mountain: mountain, 4,300 ft., on W bank of Crooked Creek, 66 miles NE of Palmer, Talkeetna Mountains; 61° 59' 35" N, 147° 18' 30" W; (map 69). Local descriptive name reported in 1951 by USGS.

Table Mountain: mountain, 5,042 ft., E of Sheenjek River, 50 miles NE of Arctic Village, Brooks Range; 68° 20' N, 143° 39' W; (map 137). Local descriptive name reported in 1926 by J. B. Mertie, Jr., USGS.

Table Mountain: mountain, 9,360 ft., surrounded by Columbus and Quintino Sella Glaciers, 9 miles NE of Mount Huxley and 79 miles NW of Yakutat, St. Elias Mountains; 60° 27' 20" N, 141° 05' 00" W; BGN 1917; (map 65). Descriptive name proposed by the IBC in 1916.

Table Rock: rock, 375 ft. long, in Sakie Bay, on W coast of Dall Island, Alexander Archipelago; 55° 04' 15" N, 133° 12' 45" W; (map 4). Descriptive name published in 1924 by USC&GS.

Table Rock: rock, on N side of Deer Passage, off Bold Cape, 23 miles SE of village of Cold Bay, at SW end of Alaska Peninsula, Aleutian Range; 55° 01' 30" N, 162° 13' 50" W; (map 29). Descriptive name given by USC&GS in 1927 on Chart 8703.

Table Top Mountain: mountain, 2,710 ft., N coast of Unalaska Island, Aleutian Islands; 53° 58' 15" N, 166° 40' 50" W; (map 23). This descriptive name was published in the 1944 Aleutian Coast Pilot (p. 41).

Table Top Mountain: mountain, 3,130 ft., 34 miles NW of Chena Hot Springs and 50 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 22' N, 146° 57' W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Table Top Mountain: mountain, 3,166 ft., on N part of Douglas Island, 3.5 miles W of Juneau, Coast Mountains; 58° 17' 35" N, 134° 30' 10" W; (map 11). Descriptive name given in 1962 by the USGS.

Table Top: mountain, 3,312 ft., 8.5 miles S of the junction of Kanayut and Anaktuvuk Rivers, 38 miles NE of Anaktuvuk Pass, Arctic Slope; 68° 37' 00" N, 151° 02' 30" W; (map 134). Descriptive name given by USGS geologists during the exploration of Naval Petroleum Reserve No. 4; name given in 1944.

Tacghli, Ile: island, see Takli Island.

Tachaichagat River: stream, see Iditarod River.

Tachanlowa Lake: lake, in Koyukuk River flats, 20 miles SW of Roundabout Mountain, Koyukuk Lowland; 65° 29' N, 157° 12' W; (map 108). Koyukan Indian name reported by USGS in 1955.

Tachat River: stream, see Takotna River.

Tachatna River: stream, see Takotna River.

Tachik: bay, see Golovnin Bay.

Tachik: bay, see Pavlof Bay.

Tachik: locality, see Techek.

Tachikthluk Bay: bay, see Duchikthluk Bay.

Tachilni, Cape: point of land, on E shore of Morzhovoi Bay, Aleutian Range; 53° 56' 00" N, 162° 52' 30" W; (map 25). Variant: Animatchoutchkok, Tochilnoi. Descriptive Russian name published by Capt. Tebenkov (1852, map 24), IRN, as "M[ys] Tochilnoi" meaning "Cape Grindstone." The Aleut name for this point was reported by Capt. Lutke (1836, p. 272), IRN, as "Animatchoutchkok."

Tachimesoa Lagoon: lagoon, 6 miles long, on coast of Chukchi Sea, at S end of Kasegaluk Lagoon, 28 miles S of Point Lay, Arctic Plain; 69° 19' N, 163° 12' W; (map 145). This is the Eskimo name meaning "end lagoon," for the S end of Kasegaluk Lagoon. Name obtained by Orth in 1956.

Tachinisok Inlet: lagoon, 1 mile across, off Peard Bay, 12 miles SE of Point Franklin, Arctic Plain; 70° 49' N, 158° 19' W; (map 147). Variant: Kuahru, Tatchinesua Inlet, Woody Inlet. Eskimo name reported by USC&GS in 1950. It was called "Woody Inlet" by English naval officers about 1850. Sgt. John Murdoch reported the Eskimo name as "Kuahru" (Ray, P.H., 1885, p. 95).

Tachkinach: island, see Simeonof Island.

Tachshilik River: stream, see Takshilik Creek.

Tachtli Island: island, see Takli Island.

Tachyhuimiut: locality, fish camp, on W shore of Dahloongamiut Lagoon, 35 miles NW of Cape Mendenhall, Nunivak Island; 60° 00' 07" N, 167° 04' 55" W; (map 57). Variant: Dahloongamiut, Dalongmute, Talungamiut. Eskimo name reported in 1937 by USAAF.

Tachyhuimiut: locality, see Dahloongamiut.

Taclodahten Lake: lake, 1.3 miles long, at head of Kadakina Creek, 32 miles SE of Allakaket, Kanuti Flats; 66° 18' 30" N, 151° 40' 30" W; (map 117). Variant: Taklodaten Lake. Koyukan Indian name obtained in 1956 at Allakaket by T. E. Taylor, USGS.

Taco Gulf: estuary, see Taku Inlet.

Taco Harbor: cove, see Taku Harbor.

Taco Inlet: estuary, see Taku Inlet.

Tacoma: locality, "on Valdez-Fairbanks trail (Richardson Highway). 55 miles N of Valdez," Chugach Mountains; 61° 25' N, 145° 15' W; (map 68). Variant: Kendall Cache. Former roadhouse name published in 1908 by USGS; and in 1916 in Polk's Gazetteer. Located at or near Kendall Cache roadhouse.

Tacotna River: stream, see Takotna River.

Tacotna: village, see Takotna.

Tacou Harbor: cove, see Taku Harbor.

Tacou Inlet: estuary, see Taku Inlet.

Taddiskey Harbor: bay, see Datzkoo Harbor.

Taddys Cove: bay, see Datzkoo Harbor.

Tadluk, Cape: point of land, on S coast of Atka Island, Aleutian Islands; 52° 01' N, 174° 43' W; (map 18). Aleut name published as "M[ys] Tadluk," or "Cape Tadluk," by Capt. Tebenkov (1852, map 27), IRN.

Tadoosh: locality, see Charley Village.

Tadrandike River: stream, see Chandalar River.

Tadrandike: lake, see Chandalar Lake.

Tadush: locality, see Charley Village.

Taffy Creek: stream, flows NW 5 miles to Ipnarik River, Brooks Range; 68° 36' N, 157° 07' W; (map 132). Named in 1950 by Island L. Tailleur, USGS, connected with the Naval Petroleum Reserve No. 4 explorations, for a taffy colored bear.

Taft Creek: stream, flows NW 13 miles to Big Lake 1.5 miles S of Rennies Landing on Innoko River, 37 miles NW of Ophir and 64 miles NW of McGrath, Innoko Lowland; 63° 35' 30" N, 157° 04' 50" W; (map 90). Local name obtained from Joseph Ferris in 1954 by R. E. Isto, USGS.

Tag Island: islands, see Tag Islands.

Tag Islands: islands, 0.5 miles across, 2.5 miles S of Skagul Islands, Delarof Islands, Aleutian Islands; 51° 33' 30" N, 178° 34' 15" W; (map 16). Variant: Tag Island, Tagachalugis

Island, Tagachalgise Island, Tagatchalgise Island. Aleut name published as “O[strov] Tagachalugis,” or “Tagachalugis Island,” by Capt. Tebenkov (1852, map 28), which refers to the largest island. This and other long variants were shortened to “Tag Islands” by BGN recommendation.

Tag-gag-a-wik: stream, see Tagagawik River.

Tagachalgise Island: islands, see Tag Islands.

Tagachalugis Island: islands, see Tag Islands.

Tagadak Island: island, 1 mile across, between Great Sitkin and Umak Islands, one of Andreanof Islands, Aleutian Islands; 51° 57' 30" N, 176° 00' 00" W; BGN 1936; (maps 17, 18). Variant: Tagadakh Island. Aleut name published by Capt. Tebenkov (1852, map 28), IRN, as “O[strov] Tagadakh,” or “Tagadakh Island.” According to R. H. Geoghegan, this Aleut word means “fresh” or “new.”

Tagadak Island: island, see Tagalak Island.

Tagadakh Island: island, see Tagadak Island.

Tagagawik River: stream, flows N 85 miles to Selawik River, 30 miles SE of Selawik, Kotzebue-Kobuk Lowland; 66° 28' N, 159° 00' W; (map 114). Variant: Tag-gag-a-wik. Eskimo name reported in 1886 as “Tag-gag-a-wik” by Lt. Stoney (1900, map), USN.

Tagakvik, Lake: lake, 2.4 miles long, 7 miles NE of junction of Kelley and Noatak Rivers, 35 miles NE of Noatak, Brooks Range; 67° 59' N, 162° 07' W; (map 128). Eskimo name meaning “shadowy place” obtained at Noatak in 1956 by Orth.

Tagalack Bay: bay, see Dakavak Bay.

Tagalack Lake: lake, see Dakavak Lake.

Tagalak Bay: bay, see Dakavak Bay.

Tagalak Island: island, 4 miles long, between Atka and Adak Islands, Andreanof Islands, Aleutian Islands; 51° 57' N, 175° 43' W; BGN 1936; (map 18). Variant: Tagadak Island, Tagalakh Island. Aleut name published from Commodore Joseph Billings' track chart of 1790-92 by Lt. Sarichev, IRN, in 1802; also published as “Tagalak” by Capt. Lutke (1836, p. 320). IRN.

Tagalak Pass: water passage, between Tagalak and Chugul Islands, Aleutian Islands; 51° 56' N, 175° 45' W; BGN 1936; (map 18). Named for Tagalak Island by the U.S. Navy Aleutian Island Survey Expedition of 1934, and published by the USC&GS in the 1944 Aleutian Coast Pilot (p. 104).

Tagalakh Island: island, see Tagalak Island.

Tagalaviksak Slough: watercourse, see Talbiksok River.

Tagamak: island, see Cherni Island.

Taganak: island, see Cherni Island.

Tagarayak River: stream, see Tagayarak River.

Tagarayak: locality, see Tagayarak.

Tagatchalgise Island: islands, see Tag Islands.

Tagayarak River: stream, heads at 60° 18' N, 163° 12' W, flows SE 25 miles to Kuskokwim River, 18 miles W of Eek and 46 miles SW of Bethel, Yukon-Kuskokwim Delta, 60° 15' N, 162° 32' W; (map 58). Variant: Tagarayak River. Eskimo name reported in 1949 by USC&GS.

Tagayarak: locality, on left bank of Tagayarak River, 25 miles W of Eek and 48 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 17' N, 162° 45' W; (map 58). Variant: Tagarayak. Former Eskimo camp or village, named for the stream; reported to be abandoned in 1951 by USC&GS.

Tagayooneechuk: lakes, see Tagiunituk Lake.

Tagayooneeichuk: stream, see Tagiunituk Creek.

Taghiaratzoriamute: locality, see Togiarsorik.

Taghinak: island, see Simeonof Island.

Tagiak: village, see Togiak.

Tagiunituk Creek: stream, flows SW 1 mile to Tatigirok Creek, 2 miles N of Kavroak Springs and 16 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 54' N, 164° 55' W; (map 128). Variant: Tagayooneeichuk, Tagiunituq. Eskimo name meaning “there is salt” reported in 1966 by E. S. Burch.

Tagiunituk Lakes: lakes, 5 miles ESE of mouth of Omikviorok River and 19 miles SE of Kivalina, Kotzebue-Kobuk Lowland; 67° 35' N, 163° 56' W; (map 128). Variant: Tagayooneechuk, Tagiunituq. Eskimo name meaning “there is salt” reported in 1966 by E. S. Burch.

Tagiunituq: lakes, see Tagiunituk Lakes.

Tagiunituq: stream, see Tagiunituk Creek.

Tagoomenik River: stream, flows NW 23 miles to Shaktoolik Bay, 24 miles SW of Christmas Mountain, Nulato Hills; 64° 21' N, 161° 11' W; BGN 1966; (map 96). Variant: Tagumanik River, Tagumenik River. Eskimo name reported in 1867 by members of the Western Union Telegraph Expedition as “Tagumanik.”

Tagumanik River: stream, see Tagoomenik River.

Tagumenik River: stream, see Tagoomenik River.

Taguntna Creek: stream, see Alexander Creek.

Taguta-kakat: locality, see Taguta.

Taguta: locality, on N bank of Yukon River, about 15 miles below junction of Khotol River. Nulato Hills; 61° 55' N, 159° 05' W; (map 91). Variant: Tagutakaka, Taguta-kakat. Former Indian village or camp recorded in 1869 as "Tagutakaka," by Capt. Raymond (1871, p. 25), U.S. Engineers.

Tagutakaka: locality, see Taguta.

Tah Bay: bay, extends SE 3.3 miles off Cordova Bay, on SW coast of Prince of Wales Island, SE of Klakas Inlet, Alexander Archipelago; 54° 51' N, 132° 21' W; (map 1). Tlingit Indian name published in 1943 by USC&GS.

Tah Island: island, 1.2 miles long, in Tah Bay, on SW coast of Prince of Wales Island, Alexander Archipelago; 54° 50' 45" N, 132° 19' 30" W; (map 1). Name published in 1951 by USGS.

Tahamund Lake: lake, 2 miles long, N of Black Hills, 14 miles S of Northway, Alaska Range; 62° 45' N, 141° 52' W; (map 84). Variant: Tahanund Lake. Indian name reported by USGS in 1955.

Tahanund Lake: lake, see Tahamund Lake.

Taheen River: stream, see Tahini River.

Tahini River: stream, heads in Duff Lake in Canada, flows SE 11 miles to Chilkat River, 26 miles NW of Skagway, St. Elias Mountains; 59° 36' 45" N, 135° 59' 10" W; BGN 1954; (map 45). Variant: Taheen River. Tlingit Indian name meaning "Ta River" reported by Aurel and Arthur Krause (1883 map).

Tahini River: stream, see Takhin River.

Tahinichok Mountains: mountains, 1,200 ft., extends 10 miles W of Rabbit Creek at SW end of Mulgrave Hills, 15 miles W of Noatak, Arctic Slope; 67° 34' N, 163° 42' W; (map 128). Variant: Agaerruich Hills, Agagrak Mountains, Ahgeyagrock, Tooinichook Mountains, Tueenichook Mountains, Tuinichuk Mountains. Eskimo name meaning "tastes salty" according to USC&GS in 1950.

Tahk-sahk-wee-vik: watercourse, see Taksakwivik Slough.

Tahka Point: point of land, on W coast of Prince of Wales Island at S end of Tuxekan Narrows, 28 miles N of Craig, Alexander Archipelago; 55° 52' N, 133° 13' W; (map 4). Indian name published in 1964 by USC&GS.

Tahkandik River: stream, see Nation River.

Tahkandit River: stream, see Nation River.

Tahko Inlet: estuary, see Taku Inlet.

Tahkonah Creek: stream, see Takonak Creek.

Tahneta Lake: lake, 0.9 miles long, in course of Eureka Creek, NE of Tahneta Pass, on Glenn Highway, 62 miles NF. of Palmer, Copper River Basin; 61° 54' 00" N, 147° 18' 20" W; BGN 1960; (map 69). Variant: Climax Lake, Eureka Lake, Startup Lake. Named in 1956 by USGS; derived from nearby Tahneta Pass.

Tahneta Pass: pass, 3,000 ft., on Glenn Highway, 60 miles SW of Glennallen and 62 miles NE of Palmer, Talkeetna Mountains; 61° 53' 10" N, 147° 20' 00" W; (map 69). Tanaina Indian name reported by Mendenhall (1900, p. 316), USGS.

Tahnokhalony: locality, see Tanakot.

Tahoma Reef: reef, 1.3 miles long, in Pacific Ocean, 33 miles S. of Buldir Island and 55 miles W of Kiska Island, Aleutian Islands; 51° 48' N, 175° 47' E; (map 14). Named for cutter Tahoma lost here in 1914 (U.S. Coast and Geodetic Survey, 1944, p. 129).

Taiga Lake: lake, 0.6 miles long, on Kenai Peninsula NW of Norak Lake, 38 miles NE of Kenai, Cook Inlet Lowland; 60° 54' 30" N, 150° 27' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range. "Taiga" is a transliterated Russian word for a cold, swampy, forested region which begins where the tundra leaves off.

Taigud Island: island, 0.5 miles across, one of Taigud Islands, in Redoubt Bay, on W coast of Baranof Island, Alexander Archipelago; 56° 55' 30" N, 135° 24' 00" W; (map 5). Variant: Ostrov Taygud. Named in 1809 by the Russian navigator, Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Taygud," or "Tayqud Island."

Taigud Islands: islands, 2 miles across, at mouth of Redoubt Bay, 10 miles S of Sitka, on W coast of Baranof Island, Alexander Archipelago; 56° 55' N, 135° 25' W; (map 5). Variant: Ostrov Taygud. Named "Ostrov Taygud," or "Taygud Island," in 1809 by the Russian navigator Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN.

Taiholman Lake: lake, 0.8 miles across, 7 miles S of Taclodahten Lake and 38 miles SE of Allakaket, Kanuti Flats; 66° 12' 00" N, 151° 37' 30" W; (map 117). Koyukan Indian name obtained in 1956 at Allakaket by T. E. Taylor, USGS.

Taiklano Creek: stream, see Bubb Creek.

Taiklano: stream, see Little Nelchina River.

Taixtsalda Hill: hill, 2,335 ft., between Kalukna and Tetlin Rivers, 17 miles SW of Northway, Alaska Range; 62° 50' N, 142° 23' W; (map 84). Tetlin Indian name reported to mean “sharp hill” by USGS in 1962.

Taiya Inlet: estuary, 13 miles long, trends S from mouth of Taiya River to Chilkoot Inlet, 12 miles S of Skagway, Coast Mountains; 59° 17' N, 135° 23' W; BGN Sixth Report; (map 45). Variant: Dayay Inlet, DehJah Inlet, Dejah Inlet, Dyea Inlet, Perrier Inlet, Tayay Inlet, Tya Inlet, Tyya Inlet. A Tlingit Indian name reported in 1868 by Comdr. R. W. Meade, USN, as Tyya and Tya; published in 1870 by USC&GS on Chart 701. Aurel and Arthur Krause (1883 map) reported the name as Dejah Inlet, and in 1883 Lt. Schwatka, USA, called it Dayay Inlet.

Taiya Point: point of land, at head of Chilkoot Inlet, 1 mile SE of Taiyasanka Harbor and 12 miles SW of Skagway, Coast Mountains; 59° 17' 15" N, 135° 24' 00" W; (map 45). Named for Taiya Inlet in 1923 on IBC Sheet 9 (1951 atlas).

Taiya River: stream, heads at Chilkoot Pass, on the Alaska-Canada boundary, flows S 17 miles to head of Taiya Inlet, 1 mile N of Dyea Point, and 2 miles NW of Skagway, Coast Mountains; 59° 28' 50" N, 135° 21' 15" W; BGN Sixth Report; (map 45). Variant: Dyea River. Name derived from Taiya Inlet and published by USC&GS in the 1891 Coast Pilot (p. 203). This stream was the first part of the “Dyea Trail” from Dyea through Chilkoot Pass to the Klondike. See Dyea, locality.

Taiya Sahnka: bay, see Taiyasanka Harbor.

Taiya: locality, see Dyea.

Taiyasanka Harbor: bay, 1.4 miles long, at head of Chilkoot Inlet, 1 mile NW of Taiya Point and 12 miles SW of Skagway, Coast Mountains; 59° 17' 45" N, 135° 25' 45" W; (map 45). Variant: Dejahssanke, Taiya Sahnka. Tlingit Indian name reported by Aurel and Arthur Krause (1883, map), as Dejahssanke. It is published by USC&GS in the 1891 Coast Pilot (p. 203). as Taiya Sahnka.

Tajittro Creek: stream, flows NW 11 miles to Upper Mouth Birch Creek, 25 miles SW of Fort Yukon, Yukon Flats; 66° 29' 00" N, 146° 04' 30" W; (map 119). Kutchin Indian name obtained in 1956 by T. E. Taylor, USGS.

Tak-chak: locality, see Takechak.

Tak-tchag-miout: settlement, see Takshak.

Takahola Lake: lake, see Takahula Lake.

Takahula Lake: lake, 1 mile across, in Alatna River valley, 25 miles NE of Walker Lake, Brooks Range; 67° 21' N, 153° 40' W; BGN 1912; (map 125). Variant: Ta-kahoela Lake, Takahola Lake. Eskimo name, variously spelled, reported in 1886 by Lt. Stoney (1900, map), USN. Stoney's manuscript map shows “Ta-kaho-la.” His description “eight miles long, one to one and a half miles wide * * *” exaggerates the lake's size but this may be due to snow cover in a fairly flat valley. The present spelling was established by P.S. Smith, USGS, in 1913.

Takai River: stream, see Tok River.

Takaiak: locality, in Kaiyuh Mountains near Totson Mountain, 23 miles SW of Galena, Kilbuck-Kuskokwim Mountains; 64° 28' N, 157° 15' W; (map 97). Variant: Letnik-Takaiak, Takaiaksa, Takajaksen. Former Indian village or camp shown as "Letniki-Takaiak" on Lt. L. A. Zagoskin's 1850 map (Hodge 1910, p. 673).

Takaiaka, Monte: mountain, see Totson Mountain.

Takaiaksa: locality, see Takaiak.

Takaitsky: range, see Kaiyuh Mountains.

Takajaksen: locality, see Takaiak.

Takakchak: locality, see Johnnys Village.

Takali, Ostrov: island, see Takli Island.

Takamgia Point: point of land, NE point of North Rookery, on N coast of St. George Island, in Pribilof Islands; 56° 36' 20" N, 169° 33' 35" W; (map 38). Aleut name reported by W. W. Duffield in 1897, and Putnam (1903, p. 1015), USC&GS, as "Takam'gia."

Takamitka: locality, on Unalaska Island, Aleutian Islands; 53° 40' N, 166° 45' W; (map 23). Variant: Tatamitka. Former Eskimo village or camp reported by Rev. Coxe (1787, p. 164).

Takanis Bay: bay, extends SW 2 miles to Pacific Ocean, on SW coast of Yakobi Island, Alexander Archipelago; 57° 55' N, 136° 31' W; (map 9). Variant: Takhanis Bay, Zaliv Takhanys. Tlingit Indian name published by Capt. Tebenkov (1852, map 8). as "Z[aliv] Takhanys," meaning "Takhany Bay."

Takanis Creek: Stream, flows SW 4 miles through Takanis Lake to Takanis Bay, on SW coast of Yakobi Island, 23 miles NW of Chichagof, Alexander Archipelago; 57° 55' 40" N, 136° 29' 30" W; (map 9). Name reported in 1942 by USGS (Kennedy and Walton, 1946, pl. 9).

Takanis Lake: lake, 1 mile long, in Takanis Creek, on S central Yakobi Island, 23 miles NW of Chichagof, Alexander Archipelago; 57° 57' 30" N, 136° 27' 15" W; (map 9). Name reported in 1942 by USGS (Kennedy and Walton, 1946, pl. 9).

Takanis Peak: mountain, 2,233 ft., on central Yakobi Island, off W coast of Chichagof Island, 25 miles NW of Chichagof, Alexander Archipelago; 57° 57' 35" N, 136° 28' 00" W; (map 9). Named in 1928 by USC&GS, and published in 1929 on Chart 8260. The name is derived from Takanis Bay.

Takanis Peninsula: peninsula, 2.5 miles long, on W coast of Yakobi Island, off Chichagof Island, 24 miles NW of Chichagof, Alexander Archipelago; 57° 56' N, 136° 32' W; BGN 1928; (map 9). Named in 1928 by USC&GS for Takanis Bay.

Takapna River: stream, see Takotna River.

Takatz Bay: bay, 3 miles long, on E coast of Baranof Island, 4 miles N of Baranof, Alexander Archipelago; 57° 09' N, 134° 50' W; (map 9). Tlingit Indian name reported in 1895 by Lt. Comdr. E. K. Moore, USN, and published in 1899 by USC&GS on Chart 8050.

Takatz Creek: stream, on Baranof Island, heads in Takatz Lake, flows NE 1 mile to Takatz Bay, 4 miles N of Baranof, Alexander Archipelago; 57° 08' 30" N, 134° 51' 50" W; (map 9). Local name reported in 1951 by USGS.

Takatz Island: islands, 1.2 miles across, 3.5 miles NE of Baranof, on E coast of Baranof Island, Alexander Archipelago; 57° 08' N, 134° 48' W; (map 9). Tlingit Indian name given in 1895 by Lt. Comdr. E. K. Moore, USN.

Takatz Lake: lake, 1.5 miles across, draining into Takatz Bay, on E coast of Baranof Island, 3 miles NW of Baranof, Alexander Archipelago; 57° 07' 30" N, 134° 54' 00" W; BGN 1923; (map 9). Named in 1921 or 1922 by USFS for nearby Takatz Bay.

Takawangha Island: island, see Tanaga Island.

Takayofu Creek: stream, heads near Kejulik Pass and flows NW 25 miles, joining Contact Creek to form King Salmon River, on Alaska Peninsula in Katmai National Monument, 39 miles SW of Mount Katmai, Aleutian Range; 58° 09' 45" N, 156° 00' 25" W; BGN 1966; (map 41). Variant: Takayoto Creek. Native name said to mean "king salmon" reported in 1923 by R. H. Sargent, USGS.

Takayoto Creek: stream, see Takayofu Creek.

Takchag-miut: settlement, see Takshak.

Takchak: locality, see Techek.

Takchak: settlement, see Takshak.

Takchuk Channel: water passage, see Tuksuk Channel.

Takchuk: locality, see Tuksuk.

Takechak Creek: stream, flows N 8 miles to Baird Inlet, on Nelson Island, 96 miles W of Bethel, Yukon-Kuskokwim Delta; 60° 49' N, 164° 35' W; (map 58). Eskimo name reported in 1964 by Orth.

Takechak: locality, on left side of mouth of Takechak Creek, on Nelson Island, 96 miles W of Bethel, Yukon-Kuskokwim Delta; 60° 49' N, 164° 36' W; (map 58). Variant: Tak-chak. Former Eskimo village now used as a camp. According to USC&GS in 1951, "A grave or two are the only signs of former habitation." This may be the same place referred to as "Tak-chak."

Takeena Peninsula: peninsula, 4 miles across, 6 miles S of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 34' N, 136° 00' W; BGN 1933; (map 9). Named

in 1933 by USFS “for Jacob Takeena, a Tlingit Indian who was friendly to both the Russian and American settlers, who hunted on this peninsula.”

Taket Creek: stream, flows W 3 miles to Norton Sound, 4.9 miles S of Unalakleet, Nulato Hills; 63° 48' N, 160° 46' W; (map 91). Eskimo name reported in 1924 by USC&GS. “This name comes from a native word meaning 'place to catch blackfish'.”

Takhakhdona Hills: hills, between Nayuka River and Glacier Creek, extend SE 15 miles from Bear Mountain on NW to Hochandochutla Mountain on S, Kokrines-Hodzana Highlands; 65° 42' 30" N, 155° 00' 00" W; (map 107). Koyukan Indian name obtained at Huslia in 1956 by Orth.

Takhakna: stream, see North Fork Innoko River.

Takhanis Bay: bay, see Takanis Bay.

Takhanys, Mys: point of land, see gingham, Cape.

Takhanys, Zaliv: bay, see Takanis Bay.

Takheen River: stream, see Takhin River.

Takhin Glacier: glacier, heads in Takhinsha Mountains, trends N 6 miles to its 1954 terminus at head of Takin River, 2 miles E of terminus of Le Blondeau Glacier and 31 miles SW of Skagway, St. Elias Mountains; 59° 16' 30" N, 136° 09' 40" W; (map 45). Tlingit Indian name published in 1923 on IBC Sheet 9 (1951 atlas).

Takhin Ridge: ridge, 12 miles long, extends E-W, 2 miles N of Takhin River and 24 miles SW of Skagway, St. Elias Mountains; 59° 17' N, 135° 58' W; (map 45). Variant: Takhinscha. Tlingit Indian name reported as Takhinscha by Aurel and Arthur Krause (1883, map).

Takhin River: stream, heads in the Takhin Glacier, flows E 16 miles to the Chilkat River, 6 miles NW of McClellan Flats, and 19 miles SW of Skagway, St. Elias Mountains; 59° 16' 30" N, 135° 41' 00" W; (map 45). Variant: Tahini River, Takheen River, Taklin River. Tlingit Indian name reported in 1880 by the U.S. Navy as Takheen River. Aurel and Arthur Krause (1883, map). show it as Takhin.

Takhinak: island, see Simeonof Island.

Takhinscha: ridge, see Takhin Ridge.

Takhinsha Mountains: mountain range, extends WNW 25 miles from N end of Chilkat Range to head of Riggs Glacier, 29 miles SW of Skagway, St. Elias Mountains; 59° 11' N, 135° 55' W; (map 45). Tlingit Indian name reported by E. C. Robertson, USGS; published in 1952.

Takhli, Ostrov: island, see Takli Island.

Takikatagamute: locality, see Takiketak.

Takiketagamute: locality, see Takiketak.

Takiketak: locality, on E shore of Kuskokwim Bay, near mouth of Cripple Creek, 21 miles NW of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 25' N, 161° 55' W; (map 53). Variant: Takikatagamute, Takiketagamute. Former Eskimo village or camp reported in 1878-79 by E. W. Nelson, U.S. Signal Service, as "Takikatagamute," meaning "Takikatak people," population 21; published by Ivan Petroff in the 1880 Census (1884 P. 17).

Takiroq: lake, see Takrak Lake.

Takkala Bay: bay, see Dakavak Bay.

Takkala Lake: lake, see Dakavak Lake.

Taklek: point of land, see Aklek, Cape.

Takli Island: island, 2 miles long, between Amalik Bay and Shelikof Strait, on S coast of Alaska Peninsula, in Katmai National Monument, 21 miles SE of Mount Katmai, Aleutian Range; 58° 04' N, 154° 29' W; (map 42). Variant: Ile Tacghli, Ile Takhli, Ostrov Takali. Ostrov Takhli, Tachtli Island, Takhli Island. Native name published in 1847 as "Os[trov] Takali" on Russian Hydrog. Dept. Chart 1378.

Taklin River: stream, see Takhin River.

Taklodaten Lake: lake, see Taclodahten Lake.

Tako: locality, see Taku Harbor.

Takoka Creek: stream, flows NW 5.5 miles to Kontrashibuna Lake, 25 miles NE of Nondalton. Aleutian Range; 60° 10' 45" N, 154° 10' 45" W; (map 61). Local name reported in 1954 by USGS.

Takokakaan: locality, see Taku Harbor.

Takoma Bluff: bluff, extends N-S 2.5 miles along left bank of Yukon River at mouth of Takoma Creek, 28 miles SE of Circle, Yukon-Tanana Highlands; 65° 28' 30" N, 143° 41' 00" W; (map 103). The bluff evidently received its name from Takoma Creek.

Takoma Cove: cove, 0.7 miles wide, at NE end of Port Dick, Kenai Peninsula, 28 miles SE of Seldovia, Chugach Mountains; 59° 15' 45" N, 151° 00' 00" W; (map 50). Variant: Sunday Harbor Local name reported by USGS in 1951.

Takoma Creek: Stream, flows E 4 miles to Yukon River, 28 miles SE of Circle, Yukon-Tanana Highlands; 65° 27' 30" N, 143° 41' 00" W; (map 103). Local name published in 1925 by ARC.

Takomahto Lake: lake, 2 miles long, E of Jatahmund Lake, 23 miles S of Northway, Alaska Range; 62° 37' N, 141° 57' W; (map 84). Indian name reported by USGS in 1955.

Takonak Creek: stream, flows W 9 miles to Kashunuk River, E of Mankakvik Creek, 36 miles W of Marshall, Yukon-Kuskokwim Delta; 61° 49' 45" N, 163° 10' 30" W; (map 74). Variant: Tahkonak Creek. Eskimo name obtained from a manuscript map of the Kashunuk River by "Father Delon," reported as "Tahkonak" by USC&GS in 1951.

Takondit River: stream, see Nation River.

Takoo River: stream, see Taku River.

Takoo: locality, see Taku Harbor.

Takotna Mountain: mountain, 3,203 ft., in Kuskokwim Mountains, E of Takotna River, 12 miles SW of McGrath, Kilbuck-Kuskokwim Mountains; 62° 56' N, 156° 01' W; (map 79). Indian name published in 1921 by USGS.

Takotna River: stream, heads at confluence of Little Waldren Fork and Moore Creek, 62° 32' 30" N, 156° 47' 30" W, flows NE 120 miles to Kuskokwim River and N of McGrath, Kilbuck-Kuskokwim Mountains; 62° 58' N, 155° 36' W; BGN 1936; (map 90). Variant: Reka Tochatno, Reka Tochotno, Tachat River, Tachatna River, Tacotna River, Takapna River, Tokopna River, Totschotno. Ingalik Indian name reported in 1838 by Alexander Kolmakov who was followed in 1842-44 by Lt. Zagoskin, IRN, who wrote it "Tochotno" and "Tochatno." W. S. Post, USGS, spelled the name "Tachatna" on an 1898 fieldsheet. The present spelling was established in 1908 by A. G. Maddren, USGS.

Takotna Station: village, see Takotna.

Takotna: village, pop. 40, on N bank of Takotna River, 14 miles W of McGrath, Kilbuck-Kuskokwim Mountains; 62° 59' 15" N, 156° 04' 00" W; BGN 1922; (map 79). Variant: Tacotna, Takotna Station, Tokotna. Riverboat landing and supply point for the Innoko placer district, reported in 1910 as "Takotna Station" by Maddren (1911, p. 243), USGS. The "Tokotna" post office was maintained from 1914 to 1926, then the name was changed to "Takotna" according to Ricks (1965, p. 63). The name is derived from the Takotna River. The population in 1930 was 65.

Takou Harbor: cove, see Taku Harbor.

Takou Village: locality, see Taku Harbor.

Takrak Lake: lake, 6 miles long, at head of Mikigealiak River, 33 miles SE of Wainwright, Arctic Plain; 70° 14' N, 159° 05' W; (map 146). Variant: Takiroq. Eskimo name reported in 1956 by Orth as "Takiroq," meaning "it is long."

Taksakwivik Slough: watercourse, in Yukon Delta, extends E-W 2.8 miles between Gukyuk Slough and Kwipak Pass, 18 miles NE of Kwiguk, Yukon-Kuskokwim Delta; 62° 57' 15" N, 164° 09' 00" W; (map 77). Variant: Tahk-sakh-wee-vik. Eskimo name obtained in 1948 by USC&GS.

Takshagemut: settlement, see Takshak.

Takshak: settlement, on point of land between Five Day and Poltes Sloughs, 6 miles NW of Marshall, Yukon-Kuskokwim Delta; 61° 57' 30" N, 162° 10' 00" W; (map 74). Variant: Takchag-miut, Takchak, Takshagemut, Taktchag-miout, Taktschagmjut, Tatschikmjut, Tlatekamute. Eskimo village reported as "Takchag-miut" by Lt. L. A. Zagoskin, IRN, in 1842-44. In 1949 USC&GS reported this village abandoned, however, the 1950 Census listed a population of 39. It may be a summer village or camp.

Takshanuk Mountains: mountain range, 26 miles long, extends NW-SE NE of Chilkat River, 17 miles SW of Skagway, Coast Mountains; 59° 26' N, 135° 50' W; (map 45). Tlingit Indian name meaning "water falls" reported by E. C. Robertson, USGS; published in 1952.

Takshilik Creek: stream, flows N 12 miles to Kanektok River, 50 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 44' N, 161° 00' W; (map 53). Variant: Tachshilik River. Eskimo name reported as "Tachshilik" on an 1898 fieldsheet by W. S. Post, USGS; published as "Takshilik Creek" by Spurr (1900, map 10), USGS.

Takslesluk Lake: lake, 12 miles long, E of Puk Palik Lake, 25 miles NE of Baird Inlet, Yukon-Kuskokwim Delta; 61° 04' N, 162° 52' W; (map 74). Variant: Long Lake. Eskimo name obtained at Bethel by USC&GS in 1948. Local airplane pilots call it Long Lake, according to Orth in 1965.

Takso: locality, see Tuksuk.

Taksomut: locality, see Tuksuk.

Taksomute: locality, see Tuksuk.

Taksumut: locality, see Tuksuk.

Taktahni Lake: lake, see Pippin Lake.

Taktalurak Rocks: locality, outcrops of rock, S of Umagatsiak Hill and 16 miles N of Kivalina, Arctic Slope; 67° 57' N, 164° 33' W; (map 128). Variant: Taaqtauuzaq, Talktaoorak. Eskimo name meaning "little black things" reported in 1966 by E. S. Burch.

Taktelak Creek: stream, flows SW 8 miles to Kukpuk River, 19 miles NE of Point Hope, Arctic Slope; 68° 25' 45" N, 166° 07' 00" W; (map 129). Variant: Daktaeluk Creek. Eskimo name recorded in 1960 as "Daktaeluk" by D. C. Foote in connection with Project Chariot studies.

Taktschagmjut: settlement, see Takshak.

Taktusak Hill: hill, 210 ft., on Peninsula near center of Kgun Lake, Yukon-Kuskokwim Delta; 61° 33' 30" N, 163° 46' 15" W; (map 74). Eskimo name, meaning "kidney-like," obtained at Hooper Bay by Orth in 1965.

Taku Channel: water passage, extends 1.5 miles, in off-shore mud flats, between Acharon Channel and Bering Sea, 14 miles N of Black, Yukon-Kuskokwim Delta; 62° 32' N, 165° 12'

W; (map 76). So named by G. R. Putnam, USC&GS, in 1899, for the Coast Survey steamer Taku.

Taku Glacier: glacier, heads at 58° 42' N, 134° 22' W and trends SE 27 miles to Taku Inlet, 2 miles NW of Taku Point and 15 miles NE of Juneau, Coast Mountains; 58° 25' 30" N, 134° 03' 00" W; BGN 1965; (map 11). Variant: Foster Glacier, Klumma Gutto, Klumu Gutta, Schulze Glacier. Local name used since 1890. The feature was named Schulze Glacier in 1883 for Paul Schulze, president of the Northwest Trading Co. Later, in 1890, it was named Foster Glacier by USC&GS for Hon. Charles Foster, 1828-1904, Governor of Ohio and Secretary of the Treasury under President Harrison. "Klumu Gutta" or "Klumma Klutt," meaning the "spirits home", is the Tlingit Indian name for the glacier.

Taku Harbor: cove, 0.6 miles across, on E shore of Stephens Passage, 2.4 miles NW of Limestone Inlet and 22 miles SE of Juneau, Coast Mountains; 58° 03' 30" N, 134° 02' 00" W; (map 11). Variant: Taco Harbor, Tacou Harbor, Takou Harbor. Named after the Taku division of the Tlingit Indians living in the vicinity, and first applied to the cove in 1848 by Capt. Lt. M. N. Vasiliev, IRN. This harbor was, through a treaty with the Russians, the site of a former Hudson's Bay Company trading post, which was established in 1840 (1883 Coast Pilot, p. 169). It was called "Tacou" and "Takou" by Comdr. R. W. Meade, USN, in 1868 and "Taco" by Sir George Simpson in 1841.

Taku Harbor: locality, on E shore of Taku Harbor, 22 miles SE of Juneau, Coast Mountains; 58° 04' 10" N, 134° 00' 30" W; (map 11). Variant: Tako, Takoo, Takokakaan, Takou Village, Taku-kon Villages, Taku Settlement. Former Tlingit Indian village or camp, collectively listed as four Taku-kon villages, population 269, in the 1800 Census by Ivan Petroff. In 1908 J. R. Swanton, BAE, published the name as "Takokakaan" (Hodge, 1910, p. 675).

Taku Hill: hill, probably on N slope of Mount Roberts, 3 miles SE of Juneau, Coast Mountains; 58° 18' N, 134° 20' W; (map 11). Named by miners about 1885 (DeArmond, 1957, p. 37).

Taku Inlet: estuary, fiord 20 miles long, extends N from Stephens Passage to mouth of Taku River, 13 miles SE of Juneau, Coast Mountains; 58° 12' N, 134° 06' W; (map 11). Variant: Icy Arm, Rukav Ledyanoy, Taco Gulf, Taco Inlet, Tacou Inlet, Tahko Inlet. Named for the Taku subdivision of the Tlingit Indians; probably first mentioned in 1841 by Sir George Simpson (1847, v. 1, p. 214). as Taco Gulf. The Russians called it "Rukav Ledyanoy," or "Icy Arm" (Tebenkov, 1852, map 8).

Taku Lake: lake, 0.4 miles across, in course of stream, 1.5 miles NW of Taku Harbor and 20 miles SE of Juneau, Coast Mountains; 58° 05' 20" N, 134° 01' 30" W; (map 11). Named in 1888 by Lt. Comdr. C. M. Thomas, USN; published in 1889 by USC&GS on Chart 8229.

Taku Lodge: locality, on left bank of Taku River. 20 miles NE of Juneau, Coast Mountains; 58° 29' 30" N, 133° 56' 27" W; BGN 1966; (map 12). Variant: Twin Glacier Camp. Name derived from the Taku River; published in 1951 on a USGS map. In 1932 the name "Twin Glacier Camp" was reported by B. D. Stewart, USGS, who wrote, "The name is in general use locally and has also been adopted by the U.S. Forest Service * * *."

Taku Mountain: mountain, 2,139 ft., on E shore of Stephens Passage, 1 mile NW of Taku Harbor and 21 miles SE of Juneau, Coast Mountains; 58° 04' 30" N, 134° 02' 30" W; (map

11). Named in 1888 by Lt. Comdr. C. M. Thomas, USN; published in 1891 Coast Pilot (p. 149).

Taku Point: point of land, on E shore of Taku Inlet, 3 miles SW of Swede Point and 16 miles NE of Juneau, Coast Mountains 58° 24' 10" N, 134° 01' 00" W; (map 11). Local name published by USC&GS in the 1891 Coast Pilot (p. 153).

Taku Range: mountain range, trends 7.5 miles S from 58° 38' N, 134° 22' W, 20 miles N of Juneau, Coast Mountains; 58° 31' N, 134° 22' W; BGN 1965; (map 11). Named by the Juneau Icefield Research Project in 1964.

Taku River: stream, heads in British Columbia at 58° 59' N, 133° 09' W, flows SW 54 miles to Taku Inlet, 18 miles NE of Juneau, Coast Mountains; 58° 25' 30" N, 133° 59' 00" W; (map 12). Variant: Takoo River. Name derived from Taku Inlet; published by Baker (1906, p. 614), USGS.

Taku Settlement: locality, see Taku Harbor.

Taku Towers: peaks, 6,000 ft., pair of peaks 0.2 miles apart, in Taku Range, 1.1 miles NE of Emperor Peak and 21 miles N of Juneau, Coast Mountains; 58° 35' 50" N, 134° 22' 15" W; (map 11). Local name published by USGS in 1960.

Taku-kon Villages: locality, see Taku Harbor.

Takuak Creek: stream, flows W 3 miles to Okokmilaga River 9.5 miles N of its head, Brooks Range; 68° 16' N, 153° 04' W; (map 133). Eskimo name reported in 1956 by T. E. Taylor, USGS.

Takukak Lake: lake, 0.7 miles long, on Kenai Peninsula E of Ursus Lake, 32 miles NE of Kenai, Cook Inlet Lowland; 60° 45' 45" N, 150° 26' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Takuzatolatlna: stream, see Lakso Slough.

Takwaklanuk Slough: watercourse, in Yukon Delta, extends NE-SW 4.6 miles between Kwikluak Pass and Naringolapak Slough, 15 miles E of Kwiguk, Yukon-Kuskokwim Delta; 62° 43' 15" N, 164° 01' 30" W; (map 77). Variant: Naringolapak Slough. Eskimo name obtained in 1899 by G. R. Putnam, USC&GS.

Tal-a-ve-rut: hill, see Talaverat Hill.

Talaaq: locality, see Talak.

Talachulitna Creek: stream, flows E 28 miles through Talachulitna and Judd Lakes to Talachulitna River, 37 miles N of Tyonek, Cook Inlet Lowland; 61° 35' 50" N, 151° 16' 30" W; (map 70). Tanaina Indian name reported in 1954 by USGS.

Talachulitna Lake: lake, 2,500 ft. long, in course of Talachulitna Creek, W of Judd Lake, 38 miles NW of Tyonek, Cook Inlet Lowland; 61° 34' 10" N, 151° 37' 30" W; (map 70). Tanaina Indian name reported in 1954 by USGS; derived from Talachulitna Creek.

Talachulitna River: stream, heads on Beluga Mountain, flows S and NW 45 miles to Skwentna River, 56 miles NW of Tyonek, Alaska Range; 61° 52' 00" N, 151° 24' 45" W; (map 70). Talushalitna River, Talushulitna River, Tu-lu-shu-lit-na. Tanaina Indian name spelled "Tu-lu-shu-lit-na" by Lt. J. S. Herron, USA, in 1899.

Talaghun River: stream, see Talarhun River.

Talahk: locality, see Talak.

Talak: locality, on left bank of Wulik River, 5 miles NE of Kivalina, Kotzebue-Kobuk Lowland; 67° 47' N, 164° 24' W; (map 128). Variant: Talaaq, Talahk. Named for an Eskimo who wintered here one year; reported in 1966 by E. S. Burch.

Talarhun River: stream, on Nelson Island, flows SE 15 miles to Kolavinarak River at Emperor Island, 93 miles W of Bethel, Yukon-Kuskokwim Delta; 60° 34' N, 164° 30' W; (map 58). Variant: Tallaghun River, Talaghun River. Eskimo name, meaning "rot" or "die," so called "because of the smell"; reported in 1949 by USC&GS.

Talarik Creek: stream, see Upper Talarik Creek.

Talaveeroqraw: hill, see Stoney Ridge.

Talaverat Hill: hill, 200 ft., between Kisimilok Creek and Kisimilok Mountain, 19 miles SE of Cape Thompson, Arctic Slope; 68° 04' 25" N, 165° 28' 00" W; (map 129). Variant: Tal-a-ve-rut. Eskimo name obtained in 1950 by USC&GS and spelled "Tal-a-ve-rut."

Talaverokra Ridge: hill, see Stoney Ridge.

Talawiizaq: hills, see Telavirak Hills.

Talawiizut: hills, see Telavirak Hills.

Talbigsak River: watercourse, see Talbiksok River.

Talbiksak River: watercourse, see Talbiksok River.

Talbiksok River: watercourse, in distributary system of Yukon River, heads in Twelvemile Slough at 61° 53' 30" N, 160° 11' 30" W, and flows SW 80 miles to Portage Slough, 6.5 miles S of Russian Mission, Yukon-Kuskokwim Delta; 61° 41' 30" N, 161° 14' 20" W; (map 73). Variant: Johnson Creek, Portage Creek, Tagalaviksak Slough, Talbigsak River, Talbiksak River, Talbiksokh River, Talgaksyuak River, Talgiksyuak River, Tatlaweesak River, Toloviksak River. Eskimo name reported in Russian by Lt. L. A. Zagoskin, IRN, 1842-44, as "R[eka] Talgaksyuak" and "R[eka] Talgiksyuak." Capt. C. W. Raymond, USA, shows "Talbiksokh" on his 1869 map. This name was simplified by USC&GS in 1895 to "Talbiksok." A 1951 USC&GS field survey calls the feature "Tagalaviksak Slough."

Talbiksokh River: watercourse, see Talbiksok River.

Talbot Lake: lake, 0.7 miles long, on Revillagigedo Island, 6.7 miles N of Ketchikan, Alexander Archipelago; 55° 26' 45" N, 131° 38' 30" W; BGN 1954 (map 3). Variant: Imhoff Lake, Ingraham Lake Ingram Lake, Third Lake. Named in 1951 by USFS for John A. Talbot, 1893-1951, former mayor of Ketchikan.

Talbot, Mount: mountain, 4,461 ft., on Alaska-Canada boundary, 10 miles N of Stikine River and 41 miles E of Petersburg, Coast Mountains; 56° 48' 20" N, 131° 52' 15" W; BGN 1923 (map 7). Named in 1923 for A. C Talbot, Canadian IBC surveyor.

Talgaksyuak River: watercourse, see Talbiksok River.

Talgiksiuak: stream, see Tatlawiksuk River.

Talgiksjuak: stream, see Tatlawiksuk River.

Talgiksyuak River: watercourse, see Talbiksok River.

Talgotno: stream, see Tatlawiksuk River.

Talhak, Lake: lake, 0.5 miles long, in Ambler Lowland; 19 miles N of Shungnak, Brooks Range; 67° 09' N, 157° 17' W; (map 126). Eskimo name reported by the U.S. Army Corps of Engineers in 1955.

Talik Ridge: ridge, trends NW-SE 18 miles, 26 miles NE of Haycock, Nulato Hills; 65° 24' N, 160° 24' W; (map 109). Eskimo name reported in 1949 by the U.S. Army Corps of Engineers.

Talik River: stream, heads in lake at 61° 19' N, 163° 54' W, flows W 50 miles to Azun River 7 miles S of its junction with Manokinak River, Yukon-Kuskokwim Delta; 61° 13' 30" N, 164° 39' 00" W; (map 74). Eskimo name reported by Orth in 1965.

Talikoot: locality, on E shore of Krusenstern Lagoon, 6.5 miles E of Cape Krusenstern, Kotzebue-Kobuk Lowland; 67° 09' N, 163° 30' W; (map 128). Eskimo camp and shelter; name reported in 1925 by USGS; according to USC&GS it means "seals forepaws."

Talit Village: locality, see Dementi.

Taliti: locality, see Dementi.

Talitui: locality, see Dementi.

Tality: locality, see Dementi.

Taljgotno: stream, see Tatlawiksuk River.

Taljiks-yu-ak: stream, see Tatlawiksuk River.

Talkeet River: stream, see Talkeetna River.

Talkeetna Glacier: glacier, trends NE 8 miles to head of Talkeetna River, 43 miles NW of Tahnetta Pass, Talkeetna Mountains; 62° 11' N, 148° 29' W; (map 82). Local name recorded in 1952 by USGS.

Talkeetna Lake: lake, see Larson Lake.

Talkeetna Lakes: lakes, extend N-S 3 miles, SE of Talkeetna, Cook Inlet Lowland; 62° 18' 00" N, 150° 03' 30" W; BGN 1959: (map 81). Local name reported in 1958 by W. H. Darch of Talkeetna.

Talkeetna Mountains: mountains, 6,000-8,800 ft., extend N-S 100 miles, E-W 80 miles; bounded on N by Broad Pass and Nenana River, on E by Susitna River and Tyone Creek; on S by Matanuska River; and on W by Chulitna and Susitna Rivers; 62° 30' N, 149° 00' W; (map 82). Eldridge (1900, p. 8), USGS, reported that in 1898 the name "Talkeetna" had been suggested for these mountains.

Talkeetna River: stream, heads at Talkeetna Glacier in Talkeetna Mountains at 62° 11' N, 148° 29' W, flows NW and SW 85 miles to Susitna River at Talkeetna, Cook Inlet Lowland; 62° 19' 30" N, 150° 07' 15" W; (map 81). Variant: Chunilna Creek, Talkeetno, Talkeet River, Talkitnu, Talkutna. Tanaina Indian name reported in 1898 to mean "river of plenty" by G. H. Eldridge and Robert Muldrow, USGS.

Talkeetna: village, pop. 76, miles 226.7 on the Alaska Railroad, at junction of Talkeetna and Susitna Rivers, 80 miles N of Anchorage, Cook Inlet Lowland; 62° 19' 30" N, 150° 06' 00" W; (map 81). This is reported to be the site of a Tanaina Indian village. Its present name was derived from that of the river. It developed as a major camp when the railroad was built; the village obtained a post office in 1916. A railroad station was opened to traffic here in 1920. Its population was 70 in 1920; 89 in 1930; 136 in 1939; and 106 in 1950.

Talkeetno: stream, see Talkeetna River.

Talkitnu: stream, see Talkeetna River.

Talktaoorak: locality, see Taktalurak Rocks.

Talkutna: stream, see Talkeetna River.

Tallaghun River: stream, see Talarhun River.

Tallapoosa Shoal: shoal, in Sitkalidak Strait, near S end of Sitkalidak Island, SE of Kodiak Island; 57° 02' 25" N, 153° 27' 00" W; (map 34). Local name published in 1943 by USC&GS.

Taller Pinnacle: rock, in Chiniak Bay, 0.2 miles NE of Cliff Point, on E coast of Kodiak Island; 57° 43' 40" N, 152° 26' 20" W; (map 34). Local descriptive name reported in 1949 by USGS.

Talliti: locality, see Dementi.

Tallity: locality, see Dementi.

Tallowpot Creek: stream, flows SW 5 miles to Goodhope River, 24 miles NW of Imurok Lake, Seward Peninsula Highlands; 65° 50' N, 163° 55' W; (map 110). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Talneek Point: point of land, see Talnik Point.

Talnik Point: point of land, 16.5 miles NW of Kodiak, on N coast of Kodiak Island; 57° 53' 30" N, 152° 49' 00" W; BGN 1939; (map 34). Variant: Mys Talnika, Talneek Point, Talnika Point, Willow Point. Transliteration of "M[ys] Talnika," the name given by Sub-Lt. Mikhail Murashev in 1839 or 1840 and published in 1849 on Russian Hydrog. Dept. Chart 1425. Baker (1906, p. 676). published "Willow Point," the translation of Murashev's name. Because of duplication the name was changed to its present form by USC&GS in 1937.

Talnik Zhilye: locality, see Akshadak.

Talnika Point: point of land, see Talnik Point.

Talnika, Mys: point of land, see Talnik Point.

Talsani Island: island, 0.8 miles long in the Chilkat Islands in Chilkoot Inlet, 1 mile SE of S end of Chilkat Peninsula and 26 miles S of Skagway, Coast Mountains; 59° 04' 40" N, 135° 16' 20" W (map 45). Variant: Alzane. Tlingit Indian name reported as "Alzane" by Aurel and Arthur Krause (1883, map). Published as "Talsani Island" in 1923 on IBC Sheet 9 (1951 atlas).

Talsona Creek: stream, see Tulsona Creek.

Taltheadamund Lake: lake, 0.8 miles long, SW of Old Albert Lake, 3.5 miles E of Tetlin Lake and 23 miles SE of Tok, Alaska Range; 63° 03' N, 142° 34' W; (map 85). Indian name published by USGS in 1964.

Taltlinkho Creek: stream, heads in lake, flows WNW 11 miles to Hogatza River, 25 miles NW of Hughes, Hogatza Highlands; 66° 22' N, 154° 40' W; (map 116). Indian name "Talt-linkho," reported to mean "always flowing," recorded at Hughes in 1956 by Orth.

Taluidek Island: island, 0.4 miles long, one of The Triplets, in Marmot Bay, between Afognak and Kodiak Islands; 57° 59' 30" N, 152° 28' 30" W; (map 34). Native name published in 1943 by USC&GS.

Talungamiut: locality, see Tachyhuimiut.

Talurarevuk Cape: point of land, see Talurarevuk Point.

Talurarevuk Point: point of land, on NW coast of Nelson Island, 2 miles NE of Cape Vancouver, Yukon-Kuskokwim Delta; 60° 35' N, 165° 23' W; (map 57). Variant: Talurarevuk Cape. Eskimo name meaning "place where nets are placed" obtained at Tanunak in 1951 by USC&GS.

Talus Bay: cove, 0.5 miles across, on NE coast of Resurrection Peninsula, W side of Day Harbor, 12 miles SE of Seward, Chugach Mountains; 60° 00' N, 149° 12' W; BGN 1929; (map 63). So named in 1928 by a USC&GS field party "because of the talus formation in the vicinity." Talus is an accumulation of rock fragments at the base of a mountain or cliff.

Talus Creek: stream, heads in Franklin Mountains, flows NE 6.5 miles to Sadlerochit River, NW of Okiotak Peak, 25 miles NW of Mount Michelson, Brooks, Range; 69° 27' N, 145° 12' W; BGN 1961; (map 139). So named by USGS geologists in 1948 because of the extensive amount of limestone talus in the area where the stream cuts through Third Range Name reported in 1960 by C. L. Whittington, USGS.

Talus Point: point of land, on SE coast of Akutan Island, 5 miles S of Akutan, Krenitzin Islands, Aleutian Islands; 54° 04' 15" N, 165° 50' 00" W; (map 24). Local name published in 1951 on a USGS map. "So called because of the talus [broken rock] accumulated on a slope at the point."

Talushalitna River: stream, see Talachulitna River.

Talushulitna River: stream, see Talachulitna River.

Taluyetlek Creek: stream, flows SW 5 miles to Bessie Creek, 43 miles N of Goodnews, Yukon-Kuskokwim Delta; 59° 58' N, 161° 39' W; (map 53). Eskimo name published in 1951 by USGS.

Tam-nik, Cape: point of land, see Tomname Point.

Tamantaloi Hill: mountain, 1,296 ft., 27 miles SW of Nulato, Nulato Hills; 64° 25' N, 158° 39' W; (map 97). Koyukan Indian name reported in 1954 by USGS.

Tamarack Bluff: bluff, elev. 1,245 ft., on left bank of Sulatna River between Foley and Masters Creeks, 4 miles E of Sulatna Crossing and 26 miles SW of Monzonite Hills, Kilbuck-Kuskokwim Mountains; 64° 10' N, 155° 20' W; (map 98). Variant: Sulatna Bluff. Local name reported in 1933 by USGS.

Tamarack Creek: stream, flows E 2 miles to Sullivan Creek, 6 miles SW of Roughtop Mountain, 33 miles E of Tanana, Yukon-Tanana Highlands; 65° 07' 00" N, 150° 55' 30" W; (map 106). Local name reported in 1952 by USGS.

Tamarack Creek: stream, flows N 0.7 miles to Chatham Creek, 17 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 03' 45" N, 147° 24' 15" W; (map 105). Variant: West Branch. Named by prospectors; published in 1908 by USGS.

Tamarack Creek: stream, flows NE 5.6 miles to Sulatna River, 3.2 miles SE of Sulatna Crossing and 40 miles SE of Ruby, Kilbuck-Kuskokwim Mountains; 64° 09' N, 155° 22' W; (map 98). Prospectors' name reported in 1913 by Eakin (1914, pl. 3), USGS.

Tamarack Creek: stream, flows NW 1 mile to Spruce Creek, 3.2 miles S of Ophir and 31 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 05' 45" N, 156° 31' 20" W; (map 90). Prospectors' name reported in 1912 by H. M. Eakin, USGS.

Tamarack Landing: locality, at Tamarack Bluff, on Sulatna River, 40 miles S of Ruby, Kilbuck-Kuskokwim Mountains; 64° 10' N, 155° 20' W; (map 98). Name derived from Tamarack Bluff, published in 1951 by USGS. So called because small boats unloaded supplies here for nearby mining operations. See Sulatna Crossing.

Tamarack Landing: locality, see Sulatna Crossing.

Tamayagiak Creek: stream, see Tamayariak River.

Tamayariak Creek: stream, see Tamayariak River.

Tamayariak River: stream, heads in lake, at W end of Sadlerochit Mountains and flows NE 40 miles to Canning River 2 miles SW of its mouth, Arctic Plain; 70° 03' N, 145° 34' W; BGN 1964; (map 151). Variant: Tamayagiak Creek, Tamayariak Creek. Eskimo name reported in 1912 by Leffingwell (1919, p. 100), USGS, to mean, "route where some people were lost."

Tamayyak Channel: stream, distributary of Colville River, flows NW 16 miles to Harrison Bay, Arctic Plain; 70° 26' 40" N, 151° 01' 50" W; (map 149). Eskimo name reported in 1951 by USC&GS; probably from tamaqtoq, meaning "it is lost."

Tamerack Bluff: bluff, see Sulatna Bluff.

Tamgas Harbor: bay, extends N 5.5 miles off Felice Strait, on S coast of Annette Island, Alexander Archipelago; 55° 01' N, 131° 31' W; (map 3). Variant: Gavan Tomgaz, Tomgass Harbor. Tlingit Indian name recorded in 1883 by A. K. Etolin: derived from the Tongas or Tamgas tribe living in the area.

Tamgas Lake: lake, 2.3 miles long, E of Tamgas Harbor, on Annette Island, Alexander Archipelago; 55° 04' N, 131° 29' W; (map 3). Name reported in 1901 by Lt. Comdr. J. F. Moser, USN; the Tongass (sometimes written Tamgas). are a subdivision of the Tlingit Indians.

Tamgas Mountain: mountain, 3,591 ft., on Annette Island, E of Tamgas Lake, Alexander Archipelago; 55° 04' N, 131° 24' W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN; derived from Tamgass Harbor.

Tamgas Reef: reef, 0.5 miles long, in Felice Strait, 1 mile N of Duke Island, Alexander Archipelago; 54° 59' 05" N, 131° 25' 00" W; (map 2). Named in 1883 by Lt. Comdr. H. E. Nichols, USN; derived from Tamgas Harbor.

Tamnik Camp: locality, see Sooghmeghat.

Tamnik Lagoon: lagoon, see Tomname Lagoon.

Tamnik Point: point of land, see Tomname point.

Tamoschgon: locality, see Tashoshgon.

Tamoshgon: locality, see Tashoshgon.

Tana Bight: cove, 1 mile across, on W coast of Little Tanaga Island, Aleutian Islands; 51° 51' N, 176° 13' W; BGN 1936; (map 17). A clipped name derived from Tanaga Island, given by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

Tana Glacier: glacier, heads in Bagley Icefield, trends NW 17 miles to its 1950 terminus near head of Tana River, Chugach Mountains; 60° 50' 30" N, 142° 46' 00" W; (map 65). Native name from a manuscript map made by prospectors in 1900.

Tana Point: point of land, on W coast of Little Tanaga Island, Aleutian Islands; 51° 49' 30" N, 176° 13' 45" W; BGN 1936; (map 17). A clipped name derived from Tanaga Island, and given by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

Tana River: stream, heads at Tana Glacier terminus and flows NW 31 miles to Chitina River, 15 miles S of McCarthy, St. Elias Mountains; 61° 12' 45" N, 142° 50' 00" W; (map 67). Indian name reported in 1907 by D. C. Witherspoon, USGS (Moffit and Maddren, 1909, pl. 1).

Tana-Unok Island: island, see Carlisle Island.

Tanaak Cape: point of land, 21 miles NW of Afognak, on W coast of Afognak Island, N of Kodiak Island; 58° 15' 30" N, 153° 05' 50" W; BGN 1910; (map 43). Aleut name reported by USC&GS in 1910. Baker (1906, p. 489) says Tanaak is the native name for Cape Paramanof, 4 miles northeast of this point; however, the name probably comes from the word, "tang" meaning "land" or "place," according to R. H. Geoghegan.

Tanaak: point of land, see Paramanof, Cape.

Tanach-Angunach Island: island, see Carlisle Island.

Tanacross: village, pop. 102, on Tanana River, 12 miles NW of Tok, Yukon-Tanana Highlands; 63° 23' N, 143° 21' W; BGN 1942; (map 85). Variant: Tanana Crossing, Tanana Junction, Saint Timothys. This village originated as a telegraph station, called "Tanana Crossing," where the telegraph lines crossed the river. After the telegraph was dismantled, it remained a village, and, upon the recommendation of the BIA, in 1932 the name was contracted to Tanacross. The post office was established in 1920 and called Saint Timothys. The post office name was changed to Tanacross in 1934 (Ricks, 1965, p. 55).

Tanada Creek: stream, heads in Tanada Lake, in Wrangell Mountains, flows NW 17 miles to Copper River 8 miles SE of junction of Slana River, Copper River Basin; 62° 18' N, 143° 48' W; (map 84). Indian name reported in 1899 by W. J. Peters, USGS.

Tanada Lake: lake, 5.7 miles long, at head of Tanada Creek, 11 miles W of Nabesna, Wrangell Mountains; 62° 25' N, 143° 22' W; (map 84). Indian name reported in 1899 by W. J. Peters, USGS.

Tanada Peak: mountain, 9,240 ft., 11 miles NE of Copper Glacier terminus and 17 miles SW of Nabesna, Wrangell Mountains; 62° 17' 30" N, 143° 31' 00" W; (map 84). Named in 1902 by D. C. Witherspoon, USGS, for nearby Tanada Lake.

Tanadak Island: island, 0.25 miles across, 3 miles E of Little Kiska Island and 7.5 miles E of South Head on Kiska Island, Aleutian Islands; 51° 56' 48" N, 177° 47' 00" W; BGN 1937; (map 14). Variant: Tanadakh. Aleut name reported by Capt. Lutke (1836, p. 327), IRN, as "Tannadakh Ile" and published by Capt. Tebenkov (1852, map 29), as "O[strov] Tanadakh," or "Tanadakh Island." According to R. H. Geoghegan the name means "eternal ground or burial place" from Tanadakug; literal meaning is "he dies or he goes to his eternal ground."

Tanadak Island: island, 0.5 miles long, 1.5 miles W of Ulak Island, Delarof Islands, Aleutian Islands; 51° 21' 30" N, 179° 10' 00" W; (map 16). Variant: Tanadakh. Aleut name published by Capt. Tebenkov (1852, map 28), IRN, as "O[strov] Tanadak," or "Tanadak Island." The Aleut name may mean "crab place" or according to R. H. Geoghegan, the name means "eternal ground" or "burial place," and comes from the Aleut "tanadakuq," which means "he goes to his eternal ground, he dies."

Tanadak Island: island, 0.6 miles long, 1.5 miles S of E tip of Amlia Island, Andreanof Islands, Aleutian Islands; 52° 04' 15" N, 172° 57' 00" W; (map 19). Named by Capt. Tebenkov (1852, map 27), IRN, as "Ostrov Tanadak," from an Aleut name.

Tanadak Pass: water passage, navigable channel 225 yd. wide, between Tanadak and Little Kiska Islands, 6 miles E of South Head on Kiska Island, Aleutian Islands; 51° 57' 20" N, 177° 45' 30" E, BGN 1937; (map 14). Named for Tanadak Island.

Tanadakh: island, see Tanadak Island.

Tanaga Bay: bay, 5 miles across, on W coast of Tanaga Island, Aleutian Islands; 51° 45' N, 178° 03' W; (map 16). Variant: Glory of Russia Bay, Slava Rossii Bay. Aleut name published by Lt. Sarichev (1826, map 13), IRN, as "Tanaga B[ukhta]," or "Tanaga Bay." The name "Zal[iv] Slav[a] Rossii" translated as "Glory of Russian Bay" was used by Capt. Tebenkov (1852, map 28), IRN, after the ship Glory of Russia under the command of Commodore Joseph Billings, IRN, 1790-92. Subsequent USC&GS and U.S. Navy charts also shown "Glory of Russia Bay."

Tanaga Island: island, 25 miles across, one of Andreanof Islands, Aleutian Islands; 51° 48' N, 177° 53' W; BGN 1944; (map 17). Variant: Takawangha Island, Taniaga Island, Tannaga Island. Aleut name published by Lt. Sarichev (1826, map 3), IRN, and Capt. Tebenkov (1852, map 28), IRN, as "O[strov] Tanaga," or "Tanaga Island." It was reported by Capt. Lutke (1836, p. 322), IRN, as "Taniaga" and by Grewingk (1850, p. 230). as "Takawangha."

Tanaga Island: island, see Little Tanaga Island.

Tanaga Pass: water passage, between Tanaga Island and Delarof Islands, Aleutian Islands; 51° 38' N, 178° 20' W; (map 16). Named for Tanaga Island and published by Dall (1870, p. 248).

Tanaga Volcano: volcano, 5,925 ft., in NW part of Tanaga Island, Aleutian Islands; 51° 53' 05" N, 178° 08' 25" W; (map 16). Name published by USC&GS in the 1944 Aleutian Coast Pilot (p. 117).

Tanager Point: point of land, W tip of Chugul Island, Aleutian Islands; 51° 56' 45" N, 175° 52' 25" W; BGN 1936; (map 18). Named for one of the ships of the U.S. Navy Aleutian Island Survey Expedition of 1934; name published in 1952 on a USGS map.

Tanaguni Island: island, see Chuginadak Island.

Tanaina Peak: peak, 5,350 ft., 2 miles N of Mount Williwaw and 14 miles ESE of Anchorage, Chugach Mountains; 61° 08' 05" N, 149° 31' 04" W; BGN 1966; (map 69). So named in 1966 by the Mountaineering Club of Alaska for the Tanaina Indians. It was first ascended September 4, 1966, by Theodore Shohl, Brian Wilson, and Todman Wilson.

Tanak, Cape: point of land, on N coast of Umnak Island, Aleutian Islands; 53° 33' 50" N, 168° 00' 00" W; (map 22, 23). Variant: Egorkovskoi, Mys Tanakh. Name published by Capt. Tebenkov (1852, map 25), IRN, as "M[ys] Tanakh," or "Cape Tanakh," from the Aleut word "tang, Meaning "lace," according to R. H. Geoghegan. This point was called "Egorkovskoi" by Capt. Lutke (1836, p. 300), IRN. See Egorkovskoi.

Tanak-Agunak Island: island, see Chuginadak Island.

Tanak-aniunak Island: island, see Chuginadak Island.

Tanakh, Mys: point of land, see Tanak, Cape.

Tanakh-Angounakh Island: island, see Chuginadak Island.

Tanakh-Angunakh Island: island, see Carlisle Island.

Tanakhothaiak: locality, see Tanakot.

Tanakhotkhaiak: locality, see Tanakot.

Tanakhotkhaik: locality, see Tanakot.

Tanaklak Island: island, 1.7 miles long, between Great Sitkin and Umak Islands, one of Andreanof Islands, Aleutian Islands; 51° 57' 20" N, 176° 06' 30" W; BGN 1936; (map 17). Variant: Tanaklakh Island. Aleut name published by Capt. Tebenkov (1852, map 28), IRN, as "O[strov] Tanaklakh", or Tanaklakh Island."

Tanaklakh Island: islands, see Tanaklak Island.

Tanakot: locality, on right bank of Yukon River 8 miles N of Bullfrog Island, Nulato Hills, 63° 52' N, 159° 12' W; (map 91). Variant: Tahnohkalony, Tanakhothaiak, Tanakhotkhaiak, Tanakhotkhaik. Former Indian village or camp reported in 1880 as "Tanakhotkhaik," population 62, by Petroff (1881, p. 62).

Tanaku: mountain, see Fairweather, Mount.

Tanalian Mountain: mountain, 3,960 ft., between Lake Clark and Kontrashibuna Lake, 25 miles NE of Nondalton, Aleutian Range; 60° 12' N, 154° 12' W; (map 61). Name reported in 1954 by USGS. See Tanalian River.

Tanalian Point: point of land, on SE shore of Lake Clark, 23 miles NE of Nondalton, Aleutian Range; 60° 12' 30" N, 154° 19' 00" W; (map 61). Name reported in 1909 by G. C. Martin, USGS. See Tanalian River.

Tanalian Point: village, see Port Alsworth.

Tanalian River: stream, flows W 4 miles to Lake Clark, 22 miles NE of Nondalton, Aleutian Range; 60° 12' N, 154° 21' W; BGN 1911; (map 61). Variant: Koonthrashiboona River, Kunthrashiboona River, Kunthrashibuna River, Kontrashibuna River. Tanaina Indian name originally applied to a fall or rapid on the stream, which, according to Chief Zachar of the Lake Clark people, descriptively means "strong falls." Map usage by USGS in 1909, however, applied the name to the stream which the Indians called "Kunthrashibuna."

Tanalian: village, see Port Alsworth.

Tanana Crossing: village, see Tanacross.

Tanana Ferry: village, see Big Delta.

Tanana Glacier: glacier, see Chisana Glacier.

Tanana Hills: mountain range, see Kuskokwim Mountains.

Tanana Hills: mountains, extend SE 225 miles from Minto Flats to Alaska-Canada boundary, N of Tanana River; 65° 00' N, 149° 00' W [W end], 64° 00' N, 141° 00' W [E end]; Variant: Tennanah Mountains, Yukon-Tanana Highlands; Yukon-Tanana Upland. Ivan Petroff on an 1880 Census map showed the name "Tennanah Mountains" paralleled to the middle course of the Tanana River. The name "Tanana Hills" was applied in 1948 by Erwin Raisz to the physiographic province referred to as the "Yukon-Tanana Highlands" in this report and as the "Yukon-Tanana Upland" in Wahrhaftig (1965, pl. 1), USGS.

Tanana Island: island, 2.5 miles long, SW of junction of Tanana and Yukon Rivers, 2 miles SE of Tanana, Nowitna Lowland; 65° 09' 00" N, 152° 01' 00" W; (map 106). Name shown on Navigation Chart of the Tanana-Yukon Rivers, dated 1940.

Tanana Junction: village, see Tanacross.

Tanana River: stream, formed by confluence of Chisana and Nabesna Rivers at Northway Junction, flows NW 440 miles to Yukon River, 3.5 miles E of Tanana; 65° 09' 30" N, 151° 57' 30" W, BGN 1960; (map 106). Variant: Gens des Buttes, Nabesna, River of the Mountain Men, Tananah, Tannanah, Tenan, Tenan-na, Tennanah. Indian name reported by the Western Union Telegraph expedition in 1867 as "Tananah" which, according to Dall (1870, p. 281), means "mountain river." The Hudson's Bay Company traders called it "Gens des

Buttes" (French meaning "mountain people"). which actually referred to the Indians living on its upper course and the Nabesna River. It was also known as "River of the Mountain Men." The present spelling of the name was recorded in 1885 by Lt. Allen (1887, p. 71), USA.

Tanana River: stream, see Chisana River.

Tanana Station: locality, see Tanana.

Tanana: village, pop. 349, near junction of Tanana and Yukon Rivers, Kokrines-Hodzana Highlands; 65° 10' N, 152° 04' W; (map 106). Variant: Fort Adams (American Station), Fort Gibbon, Harpers Station, Protestant Episcopal Mission of Our Savior, Saint James Episcopal Mission, Saint James Mission, Tanana Station, Weare. The junction of the Yukon and Tanana Rivers had been a long and well established Indian trading locality before the coming of the European. See Nuklukayet. Except for the Indian name, the first mention of a settlement in this area was made in 1869 by Capt. C. W. Raymond, U.S. Engineers, who on his map, applied the name "Fort Adams (American Station)," near the mouth of the Tozitna River. Near here, in 1880, Arthur Harper established his Alaska Commercial Company trading post, which he called "Nuklukyet," and which others often referred to as "Harpers Station", "St. James Episcopal Mission," or "Protestant Episcopal Mission of Our Savior," was founded in 1891 by Rev. J. L. Prevost, west of Mission Hill. About 1897, one mile downstream from the mission, the trading post of the Northern Commercial Company, "Tanana Station," was established and the Tanana post office was located here in 1898. A half-mile below "Tanana" was the post of the North American Trading and Transportation Company called "Weare," named for Portus B. or Ely E. Weare of that company. In 1899, immediately below Weare, the U.S. Army built "Fort Gibbon" which was abandoned in 1923. The population of the settlement was 27 in 1880 (Nuklukayet); 120 in 1890; 512 in 1910 (Tanana); 312 in 1920; 281 in 1930; 170 in 1939; and 228 in 1950.

Tananak: village, see Tanunak.

Tananei: locality, see Chilkoot.

Tanani Bay: bay, 1 mile across, at head of Chilkoot Inlet, just S of Tanani Point and 14 miles SSW of Skagway, Coast Mountains; 59° 16' N, 135° 26' W; BGN 1923; (map 45). Name derived from the village of Tanani on the bay shore.

Tanani Beach: beach, at mouth of Lutak Inlet just N of Tanani Bay, 13 miles SW of Skagway, Coast Mountains; 59° 16' 20" N, 135° 26' 20" W; (map 45). Local name obtained by USGS field personnel and published on Federal maps since 1950.

Tanani Point: point of land, on N end of Tanani Bay, in Chilkoot Inlet, N of Tanani and 14 miles SW of Skagway, Coast Mountains; 59° 16' 20" N, 135° 26' 20" W; BGN 1923; (map 45). Variant: Entrance Point. Name derived from the Indian village of Tanani near the point. The name was published in 1923 on IBC Sheet 9 (1951 atlas). USC&GS reports that the local fishermen call this feature Entrance Point because of its location at the mouth of Lukat Inlet.

Tanani Village: locality, site of an Indian village, on Tanani Point, 3 miles N of Haines and 14 miles S of Skagway, Coast Mountains; 59° 16' 30" N, 135° 26' 30" W; (map 45). Indian name

published by USC&GS in the 1883 Coast Pilot (p. 100). At that time the settlement consisted of three houses.

Tanani: locality, on Tanani Bay, at head of Chilkoot Inlet, just S of Tanani Point, 14 miles SW of Skagway, Coast Mountains; 59° 16' 10" N, 135° 26' 30" W; (map 45). This is the name of a Tlingit Indian village said to mean "leaping place," reported by Aurel and Arthur Krause (1883, map). and published by USC&GS in the 1883 Coast Pilot (p. 200). In 1883 it consisted of three houses.

Tanaskan Bay: bay, 0.9 miles across, part of Beaver Inlet, E coast of Unalaska Island, Aleutian Islands; 53° 43' 30" N, 166° 28' 45" W; BGN 1904; (map 23). Variant: Macks Bay, Tanaskhan Bay, Taneska Bay. Aleut name reported as "Zal[iv] Taneska," or "Taneska Bay," by Lt. Sarichev (1826, map 14), IRN. Father Veniaminov (1840, v. 1, p. 162). called this bay "Tanaskhan," from the word "tanaskha," meaning "garden with vegetables" (1846, p. 57). According to R. H. Geoghegan, who translated Veniaminov's dictionary in 1904, the name comes from the Aleut word "tanaxa" and means "field, meadow; kitchen garden." The USBF called this feature "Macks Bay" in 1888.

Tanaskhan Bay: bay, see Tanaskan Bay.

Taneska Bay: bay, see Tanaskan Bay.

Tanga'sh: locality, see Tongass.

Tangent Peak: peak, 2,562 ft., 8 miles SE of Cape Fanshaw and 77 miles E of Sitka, Coast Mountains; 57° 08' 25" N, 133° 21' 30" W; (map 8). Named in 1887 by Lt. Comdr. C. M. Thomas, USN.

Tangent Point: point of land, 2.8 miles NE of Cape Sajaka, on NW coast of Tanaga Island, Aleutian Islands; 51° 54' 30" N, 178° 11' 45" W; (map 16). Local name published on a 1954 USGS map.

Tangent Point: point of land, E point of entrance to Dease Inlet, 39 miles SE of Barrow, Arctic Plain; 71° 08' 50" N, 155° 05' 30" W; (map 153). Variant: Kulgurak Point, Maghi Point, Point Tangent, Tungent Point. Thomas Simpson (1843, p. 145) wrote, August 2, 1837, "The land, soon turned sharply off to SSW, forming an acute angle, well termed Point Tangent." However, it appears on his chart as Tangent Point. Comdr. Maguire's map (Great Britain, 1854, facing p. 186) gives the Eskimo name "Maghi."

Tangerra Lake: lake, 1.5 miles long, on Kenai Peninsula E of Neckshortka Lake, 44 miles NE of Kenai, Cook Inlet Lowland; 60° 58' 15" N, 150° 21' 45" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Tanghinakh Islet: island, see Pustoi Island.

Tanghinakh: island, see Ship Rock.

Tangik Island: island, 0.5 miles long, 1 mile SE of Akun Island; one of Krenitzin Islands, Aleutian Islands; 54° 08' 45" N, 165° 29' 00" W; BGN 1904; (map 24). Variant: Waverly

Island. Aleut name published by Capt. Tebenkov (1852, map 26), IRN, as "O[strov] Tangik," which, according to R. H. Geoghegan, means "island." USBF proposed the name Waverly."

Tangimak Island: island, see Little Koniuji Island.

Tangimak: island, see Karpa Island.

Tanginak Anchorage: anchorage, 1.5 miles across, on NE coast of Sitkalidak Island, SE of Kodiak Island; 57° 10' 30" N, 153° 01' 30" W; BGN 1930; (map 34). So named in 1928 by USC&GS, "because the whaling vessel Tanginak made occasional use of this anchorage."

Tanginak Island: island, 0.2 miles across, 2.2 miles E of Akun Island, one of Krenitzin Islands, Aleutian Islands; 54° 12' 00" N, 165° 19' 15" W; BGN 1902; (map 24). Variant: Breed Island, Propagation Island. Aleut name recorded by Capt. Tebenkov (1852, map 26), IRN, as "O[strov] Tanginakh." R. H. Geoghegan reports that the name is probably derived from the Aleut word "Tangidak" meaning "islet" or "small island."

Tanginak: island, see Pustoi Island.

Tanginak: island, see Ship Rock.

Tangle Lakes: lakes, group, extend SW 16 miles at head of Delta River, 15 miles W of Paxson, Alaska Range; 63° 02' 45" N, 146° 01' 20" W; (map 86). Descriptive name given in 1898 by W. C. Mendenhall, USGS.

Tangleblue Creek: stream, flows W 6.5 miles to John River, 1 mile S of mouth of Mashooshalluk Creek and 57 miles W of Wiseman, Brooks Range; 67° 34' 15" N, 152° 12' 00" W; (map 124). Local name obtained in 1956 by USGS topographers.

Tanglefoot Bay: bay, 1 mile across, on W coast of Kodiak Island, 1 mile W of Karluk; 57° 34' 30" N, 154° 29' 30" W; (map 35). Local name published by Baker (1906, p. 616), USGS.

Tango Creek: stream, 17 miles long, heads at 63° 42' 08" N, 155° 59' 00" W, flows NE to North Fork Innoko River, 17 miles SSW of Poorman, Kilbuck-Kuskokwim Mountains; 63° 53' 16" N, 155° 51' 48" W; BGN 1953; (map 89). Local name reported in 1925 by J. S. Brown, USGS.

Tango Creek: stream, flows NW 12 miles to Iditarod River, 12 miles SW of Flat, Kilbuck-Kuskokwim, Mountains; 62° 18' 20" N, 158° 11' 30" W; BGN 1945; (map 79). Local name obtained in 1944 by USGS.

Tango Creek: stream, see North Fork Innoko River.

Taniaga Island: island, see Tanaga Island.

Tanignak Lake: lake, 0.4 miles long, on W coast of Woody Island, 2 miles E of Kodiak, Kodiak Island; 57° 47' 05" N, 152° 20' 45" W; (map 34). Aleut name published in 1943 by USC&GS.

Tanis Lake: lake, 1 mile across, at mouth of Fassett Glacier, 46 miles SE of Yakutat and 9 miles NW of Dry Bay, St. Elias Mountains; 59° 16' 30" N, 138° 32' 00" W; BGN 1926; (map 46). Name derived from the Tanis River which heads at this lake. Name was published in 1928 by IBC.

Tanis River: stream, heads in Tanis Lake, flows SW 11 miles to Ustay River, 4 miles NW of Dry Bay and 43 miles SE of Yukutat, Malaspina Coastal Plain; 59° 12' 40" N, 138° 42' 30" W; BGN 1926; (map 46). Variant: Ustay, Us-tay. Probably a Tlingit Indian name, first reported by Capt. Tebenkov (1852, map 7), IRN. There has been considerable confusion of the stream names in this area. Tebenkov shows the name "Tanis" on what seems to be the headstream of the Ustay, which he calls the "Akve." See Ustay River and Kakanhini River.

Tanis River: stream, see Ustay River.

Tanjoga Lake: lake, 9 miles long, 20 miles NE of Stevens Village, 66° 16' N, 148° 40' W; (map 118). Kutchin Indian name obtained in 1956 by T. E. Taylor, USGS.

Tanker Island: island, 0.2 miles across, among the Wooded Islands, 75 miles SE of Seward, Chugach Mountains; 59° 52' 28" N, 147° 22' 30" W, BGN 1929; (map 49). So named by the 1928 USC&GS field party because of the island's "likeness to an oil tanker when viewed from the southwest."

Tankh-kin-iakh: island, see Simeonof Island.

Tankinak: island, see Little Koniuji Island.

Tannaga Island: island, see Tanaga Island.

Tannak Island: island, see Little Tanaga Island.

Tanner Head: island, 4.2 miles long, on W shore of Alitak Bay, tied to Kodiak Island; 56° 52' 20" N, 154° 15' 00" W; (map 32). Named in 1900 by Comdr. J. F Moser USN, commander of the Albatross, for Lt. Comdr. Zera Luther Tanner, USN, commander of the Albatross from 1888-93.

Tano Island: island, see Carlisle Island.

Tano Island: island, see Chuginadak Island.

Tanogtuckan-Algaralogray: rookery, see Staraya Artil Rookery.

Tanogtuckan-anyi: lagoon, see Tanogtukan Lake.

Tanogtukan Lake: lagoon, 0.1 miles long, on N coast of St. George Island, in Pribilof Islands, 56° 36' 15" N, 169° 36' 15" W; (map 38). Variant: Tanogtuckan-anyi. Aleut name recorded in 1897 as "Tanogtuckan-anyi," meaning "old lake village" referring to the nearby site of an old Russian village, by Putnam (1903, p. 1016), USC&GS. Elliott (1881, p. 59). wrote that he was told by the Aleut that this site "marks the first spot selected by the Russians for their village after the discovery of St. George [Island] in 1786."

Tantallon Point: point of land, at SE end of Douglas Island, on Stephens Passage, at S end of Gastineau Channel, 2.4 miles S of Dupont and 9.5 miles SE of Juneau, Coast Mountains; 58° 11' 45" N, 134° 15' 30" W; (map 11). Named in 1884 by W. H. Dall, USC&GS. published in 1883 Coast Pilot (p. 171). DeArmond (1957, p. 42-43). believed that Dall, as a student of Sir Walter Scott's writings, took the name from Tantallon Castle, North Berwick, Scotland, one of the castles of the Douglas Clan.

Tanuna: village, see Tanunak.

Tanunah: village, see Tanunak.

Tanunak Bay: bay, on NW coast of Nelson Island 6 miles NE of Cape Vancouver, Yukon-Kuskokwim Delta; 60° 36' N, 165° 18' W; (map 57). Name reported in 1951 by USC&GS.

Tanunak: village, pop. 183, on NW coast of Nelson Island at Tanunak Bay, 6 miles NE of Cape Vancouver, Yukon-Kuskokwim Delta; 60° 37' N, 165° 15' W; (map 57). Variant: Dununak' Dununuk, Tananak, Tanuna, Tanunah, Tununa, Tununak, Tununuk. Eskimo village which was visited in December 1878 by E. W. Nelson, U.S. Signal Service, and reported as "Tununuk," population 6; listed as "Dununak" in the 1890 Census population 48; 65 in 1939; and 112 in 1950 A Roman Catholic mission was established here in 1891.

Tap-hok: locality, see Topkok.

Tapaghtalghee Bay: bight, 12 miles NE of Southeast Cape, SE coast of St. Lawrence Island; 63° 06' N, 169° 29' W; BGN 1951; (map 93). Variant: Tappaghtalghee Bay. Eskimo name recommended by the Savoonga village council and reported in 1949 by Maj. H. B. Allen, USAF.

Taphaparak: locality, see Ataakas Camp.

Taphatikuk Bay: cove, 1.5 miles wide, between Agnayaghit Point and Oomyosit Point, N coast of St. Lawrence Island; 63° 28' N, 169° 57' W; BGN 1951; (map 93). Variant: Tapphatickuk Bay. Eskimo name recommended by the Savoonga village council and reported in 1949 by Maj. H. B. Allen, USAF.

Taphok Camp: locality, see Apatiki Camp.

Taphok Mountain: mountain, see Taphook Mountain.

Taphook Mountain: mountain, 1,200 ft., in Poovoot Range, 20 miles SE of Gambell, St. Lawrence Island; 63° 35' N, 171° 15' W; BGN 1951; (map 93). Variant: Mount Tapphook, Taphok Mountain, Tapphook, Tapphook Mountain. Named for Taphook Point. Reported in 1949 by Maj. H. B. Allen, USAF.

Taphook Point: point of land, N coast of St. Lawrence Island, 8 miles SE of Naskok Camp and 19 miles SE of Gambell; 63° 37' N, 171° 15' W; BGN 1951; (map 93). Variant: Cape Tapphook, Taphook, Tapphook Cape, Tapphook Point. Eskimo name probably from taphak meaning "barrier bar"; reported in 1932 by O. W. Geist, Univ. of Alaska.

Taphook: locality, see Apatiki.

Taphook: point of land, see Taphook Point.

Tapioca Creek: stream, flows E 2 miles to Grouse Creek which flows to Mint River, 41 miles NW of Teller, Seward Peninsula Highlands; 65° 38' N, 167° 26' W; (map 111). Prospectors' name published in 1956 by USGS.

Tapirag, Mount: mountain, see Fourpeaked Mountain.

Tapisaghak River: stream, heads in Kimpaghulghat Mountains, flows N 7 miles to Bering Sea, 5 miles NW of Northeast Cape, N coast of St. Lawrence Island; 63° 19' N, 168° 51' W; BGN 1951; (map 93). Eskimo name reported in 1949 by Maj. H. B. Allen, USAF.

Tapkachmiut: locality, see Taapkuk.

Tapkaluk Island: barrier islands, see Tapkaluk Islands.

Tapkaluk Islands: barrier islands, extend 9 miles, in Plover Islands, between Elson Lagoon and Beaufort Sea, 13 miles NE of Barrow, Arctic Plain; 71° 19' N, 156° 01' W; (map 153). Variant: Deadmans Island, Tapkaluk Island. Eskimo name recorded by Leffingwell (1919, p. 100). in 1914.

Tapkaurak Entrance: water passage, on coast of Beaufort Sea, 9 miles E of Barter Island, between Jago and Tapkaurak Spits, Arctic Plain; 70° 08' N, 143° 12' W; (map 152). Local Eskimo name reported by USC&GS in 1952. The name is derived from that of the spit.

Tapkaurak Lagoon: lagoon, 6 miles long, on coast of Beaufort Sea, between Martin and Tapkaurak Points, 8 miles E of Barter Island, Arctic Plain; 70° 06' N, 143° 08' W; (map 152). Local Eskimo name derived from that of the spit, reported by USC&GS in 1952.

Tapkaurak Point: point of land, on coast of Beaufort Sea, between Oruktalik and Tapkaurak Lagoons, Arctic Plain; 70° 05' N, 143° 01' W; (map 152). Local Eskimo name derived from that of the spit, reported by USC&GS in 1952.

Tapkaurak Spit: barrier island, 7 miles long, between Beaufort Sea and Tapkaurak Lagoon, 9 miles E of Barker Island, Arctic Plain; 70° 06' N, 143° 05' W; (map 152). Eskimo name reported by USC&GS in 1952 to mean "little narrow spit."

Tapkhakg-miut: locality, on Chukchi Sea coast, on Seward Peninsula, midway between Cape Prince of Wales and Shishmaref Inlet, Kotzebue-Kobuk Lowland; (map 111). Variant: Topok. Site of an Eskimo village recorded by Lt. L. A. Zagoskin, IRN, in 1842-44.

Tapkhakgmut: locality, see Taapkuk.

Tapkhamikhuagmut: locality, see Topanika.

Tapkhamikkhuag-miut: locality, see Topanika.

Tapok Camp: locality, see Apatiki.

Tapor Point: point of land, see Hatchet Point.

Tappaghtalghee Bay: bight, see Tapaghtalghee Bay.

Tappghappaghak: rock, northernmost rock of Stolbi Rocks, in Bering Sea, 12 miles ESE of Savoonga, St. Lawrence Island; 63° 38' N, 170° 06' W; (map 93). Eskimo name reported in 1932 by O. W. Geist, Univ. of Alaska.

Tapphaghuk Camp: locality, see Silook Camp.

Tapphatickuk Bay: cove, see Taphatikuk Bay.

Taphook Mountain: mountain, see Taphook Mountain.

Taphook Point: point of land, see Taphook Point.

Taphook, Cape: point of land, see Taphook Point.

Taphook, Mount: mountain, see Taphook Mountain.

Taphook: locality, see Apatiki Camp.

Taqdjikan: locality, see Tuxekan.

Taral Creek: stream, flows NE 5.5 miles to Copper River at Taral, 64 miles ENE of Valdez, Chugach Mountains; 61° 28' 15" N, 144° 27' 00" W; (map 68). Variant: Taralna. According to T. G. Gerdine, USGS, in 1901, the local name for this stream was "Taralna," meaning "Taral River."

Taral: locality, on E bank of Copper River, N of Wood Canyon, 64 miles NE of Valdez, Chugach Mountains; 61° 28' 20" N, 144° 27' 00" W; (map 68). Variant: Taral, Toral, Tarel. Former Ahtena Indian village or camp reported in 1885 by Lt. Allen (1887, p. 49), USA; at that time it consisted of two houses.

Taralna: stream, see Taral Creek.

Taranovokchovik Pass: watercourse, in Yukon Delta, E. of Kwiklokchum Channel, extends N-S 2.4 miles between Kwemeluk and Kwikluak Passes, 16 miles SW of Kwiguk, Yukon-Kuskokwim Delta; 62° 34' N, 164° 50' W; (map 77). Eskimo name obtained in 1899 by C. R. Putnam, USC&GS.

Tarasof Bay: bay, see Humpback Bay.

Tarasof Point: point of land, between Anderson Bay and Makushin Bay, W coast of Unalaska Island, Aleutian Islands; 53° 42' 55" N, 166° 53' 40" W; BGN 1939; (map 23). Name derived from Tarasof Bay, which was the name for the present Humpback Bay.

Tarel: locality, see Taral.

Target Island: island, 0.1 miles across, in Mitchell Bay, 6.5 miles NE of Angoon, on central Admiralty Island, Alexander Archipelago; 57° 32' 27" N, 134° 25' 30" W; (map 9). Variant: Target Islet. Named in 1869 by Comdr. R. W. Meade, USN, because "target practice was held here." The name was published by USC&GS in the 1891 Coast Pilot (p. 159).

Tarheel Lagoon: lagoon, 0.2 miles across, at NE end of Cataract Cove, on W coast of Unimak Island, Aleutian Islands; 54° 39' 50" N, 164° 42' 10" W; BGN 1942; (map 24). Name selected in 1940 at random by USC&GS field party; presumably the nickname of North Carolina.

Tarn Mountain: mountain, 3,800 ft., on Chichagof Island, 3.6 miles NE of Pelican and 25 miles W of Hoonah, Alexander Archipelago; BGN 1960; (map 10). So named in 1955 by USGS "because many small lakes in depressions carved in solid rock occur on its flanks." A tarn is a small mountain lake.

Tarn Valley: ravine, extends 1.3 miles S of Sevenmile Lake, near W end of Amphitheater Mountains, 27 miles NW of Paxson, Alaska Range; 63° 10' 45" N, 146° 17' 30" W; (map 86). Named in 1955 by T. L. Pewe, USGS, for the small (tarn). lake at the head of the valley.

Taroka Arm: bay, 1 mile wide, on SE coast of Kenai Peninsula, 50 miles E of Homer, Chugach Mountains; 59° 36' N, 150° 07' W; (map 50). Variant: West Arm. Native name "for the brown bear found in this locality"; given in 1930 by USC&GS.

Tarpkwa: locality, on Seward Peninsula, on Chukchi Sea coast, N of Cape Prince of Wales, Kotzebue-Kobuk Lowland; (map 111). Site of an Eskimo village reported in 1897 by Lt. E. P. Bertholf, USRCS, but not found on any map.

Tarr Inlet: estuary, heads in Grand Pacific Glacier, trends SE 10 miles to Glacier Bay, 1 mile NW of Russell Island, in Glacier Bay National Monument, 78 miles NW of Hoonah, St. Elias Mountains; 58° 57' 30" N, 136° 54' 00" W; BGN 1954; (map 10). Named by Lawrence Martin, USGS, about 1912 for Ralph Stockman Tarr, 1864-1912, professor of physical geography at Cornell Univ., who visited this fiord in 1911. Tarr was with USGS 1888-91, and taught geology and geography at Harvard and Cornell Universities 1890-1912. He was the author of many geological publications including several on Alaska.

Tas'yuk: lagoon, see Elson Lagoon.

Tas-lin-tna: stream, see Tazlina River.

Tasaitsaat Angayukaangaq: lagoon, see Tasaitsat Angayukangak Lagoon.

Tasaitsaat: lagoons, see Tasaitsat Lagoons.

Tasaitsat Angayukangak Lagoon: lagoon, 17 miles SE of Kivalina, Kotzebue-Kobuk Lowland; 67° 34' N, 164° 03' W; (map 128). Variant: Tasaitsaat Angayukaangaq,

Tessaychaht Angayookahngak. Eskimo name meaning “parent of Tasaitsat [Lagoons]” reported in 1966 by E. S. Burch.

Tasaitsat Lagoons: lagoons, 15 miles SE of Kivalina, Kotzebue-Kobuk Lowland; 67° 35' N, 164° 04' W; (map 128). Variant: Tasaitsaat, Tessaychaht. Eskimo name meaning “lagoons” reported in 1966 by E. S. Burch.

Tasaychak Lagoon: lagoon, see Tasaychek Lagoon.

Tasaychek Lagoon: lagoon, 1 mile long, on Chukchi Sea coast, 9.5 miles N of Cape Krusenstern, Kotzebue-Kobuk Lowland; 67° 16' 30" N, 163° 45' 30" W; (map 128). Variant: Tasaychak Lagoon, Tasechek Lagoon. Eskimo name meaning “small lagoon,” according to USC&GS in 1950.

Taschemna River: stream, see Tazimina River.

Tasechek Lagoon: lagoon, see Tasaychek Lagoon.

Tasekpuk Lake: lake, see Teshekpuk Lake.

Tasezekot: lake, see White Fish Lake.

Tash-a leach: stream, see Tashalich River.

Tashalich River: stream, heads in lake at 1950 Bering Glacier terminus, flows SW 4 miles to Gulf of Alaska, 8 miles NE of Cape Suckling, Malaspina Coastal Plain; 60° 01' 30" N, 143' 39' 30" W; (map 65). Variant: Tash-a leach. Indian name “Tash-a leach” reported in 1904 by G. C. Martin, USGS.

Tashicpuk Lake: lake, see Teshekpuk Lake.

Tashoshgon: locality, on left bank of Yukon River at mouth of Pilot Slough, 10 miles SSW of junction of Koyukok River, Koyukuk Lowland; 64° 48' N, 157° 25' W; (map 97). Variant: Tamoschgon, Tamoshgon. Former Indian village or camp reported in 1842-44 by Lt. L. A. Zagoskin, IRN. Population 30 in 1880.

Tashuk: lagoon, see Elson Lagoon.

Tashuk: locality, see Techek.

Tasighoovik Bay: cove, 2 miles NW of Southeast Cape, S coast of St. Lawrence Island; 62° 57' N, 169° 42' W; BGN 1951; (map 93). Variant: Tasiguvik Cove. Eskimo name recommended by the Savoonga village council and reported in 1949 by Maj. H. B. Allen, USAF.

Tasiguvik Cove: cove, see Tasighoovik Bay.

Tasikpak Creek: stream, flows SW 2.5 miles to Tasikpak Lagoon, 19 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 56' N, 165° 04' W; BGN 1963; (map 128). Variant: Toosigpahk Creek, Tusigpak Creek, Tusikpok Creek. Local name reported in 1950 by USC&GS.

Tasikpak Lagoon: lagoon, 3 miles long, on Chukchi Sea coast, 19 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 56' N, 165° 06' W; BGN 1963; (map 128). Variant: Toosigpahk Lagoon, Tusikpak Lagoon, Tusikpok Lagoon. Eskimo name meaning “big lagoon,” according to USC&GS in 1950.

Tasikpak: lagoon, see Kivalina Lagoon.

Tasirkpuk Lake: lake, see Teshekpuk Lake.

Tasiswane Lake: lake, 1 mile across, on E bank of Koyukuk River, 5 miles SW of Allakaket, Kokrines-Hodzana Highlands; 66° 30' 30" N, 152° 44' 30" W; (map 117). Koyukan Indian name obtained in 1956 at Allakaket by T. E. Taylor, USGS.

Tasnuna Glacier: glacier, heads 13 miles NW of Cordova Peak, trends NE 8 miles to its 1953 terminus, 3.4 miles SE of Marshall Pass and 28 miles SE of Valdez, Chugach Mountains; 61° 03' 50" N, 145° 24' 50" W; BGN 1964; (map 68). Named in 1963 by A. S. Post, -Univ. of Washington, “for the Tasnuna River.”

Tasokpoh Lake: lake, see Teshekpuk Lake.

Tasuk: lagoon, see Elson Lagoon.

Tasyukpun Lake: lake, see Teshekpuk Lake.

Tatalena River: stream, see Tatalina River.

Tatalina River: stream, heads 8 miles S of Mount Joaquin, flows NE 55 miles to Takotna River and 1.8 miles N of McGrath, Kilbuck-Kuskokwim Mountains; 62° 58' 45" N, 155° 37' 40" W; (map 80). Variant: Tatalena River. Indian name “Tatalena” reported in 1910 by C. G. Anderson (in Eakin, 1914, pl. 1), USGS.

Tatalina River: stream, heads at 65° 30' N, 147° 55' W, flows SW 60 miles to Chatanika River, 48 miles NW of Fairbanks, Tanana Lowland; 65° 04' 30" N, 149° 17' 00" W; (map 105). Variant: Benikakakat River, East Fork Tolovana River. Indian name published in 1907 by USGS.

Tatalina Road House: locality, an left bank of Tatalina River, 1 mile SW of O'Brien Creek, 15 miles SE of Livengood, Yukon-Tanana Highlands; 65° 19' N, 148° 18' W; (map 105). Variant: Lankey Road House. Former roadhouse reported as “Lankey” in 1915 by USGS and a year later it was called “Tatalina” by J. B. Mertie, USGS.

Tatamitka: locality, see Takamitka.

Tatasco: locality, at Cape Muzon on S tip of Dall Island, Alexander Archipelago; 54° 40' N, 132° 40' W; (map 1). Name shown on the 1795 Arrowsmith map and if an Indian village, it may be Kaigani. See Kaigani.

Tatatontly, Lake: lake, see Todatonten, Lake.

Tatchek: locality, see Techek.

Tatchik: bay, see Golovnin Bay.

Tatchinesua Inlet: lagoon, see Tachinisok Inlet.

Tateekeerak: hill, see Tatigirok Hill.

Tategnak Cape: point of land, see Tategnak Point.

Tategnak Point: point of land, 1.6 miles SE of Chibukak Point, 3 miles SE of Gambell, NW tip of St. Lawrence Island; 63° 46' N, 171° 39' W; BGN 1951; (map 93). Variant: Tategnak Cape. Eskimo name said to mean like the bridge of the nose" [tateghnak]. The name was reported in 1949 by Maj. H. B. Allen, USAF.

Tatena River: stream, see Tatina River.

Tateno River: stream, see Tatina River.

Tatigirok Hill: hill, 400 ft, 2 miles N of Kevroruk Springs and 16 miles NW of Kivalina, Arctic Slope; 67° 54' N, 164° 56' W; (map 128). Variant: Tateekeerak, Tatikiizaq, Tatikirak Hill. Eskimo name meaning "to touch" reported in 1950 by USC&GS.

Tatik Cape: point of land, see Tatik Point.

Tatik Point: point of land, 4 miles NW of Bunnell Cape, 26 miles S of Gambell, W coast of St. Lawrence Island; 63° 24' N, 171° 48' W; BGN 1951; (map 93). Variant: Cape Sanachno, Cape Sanakno, Tatik Cape, West Cape. Eskimo name meaning "bridge of the nose," reported in 1949 by Maj. H. B. Allen, USAF.

Tatikhlek: village, see Tatitlek.

Tatikiizaq: hill, see Tatigirok Hill.

Tatikirak Hill: hill, see Tatigirok Hill.

Tatilack: village, see Tatitlek.

Tatina River: stream, heads at a glacier, in Cathedral Spires of Kichatna Mountains, flows SW 24 miles to South Fork Kuskokwim River, 85 miles SE of McGrath, Alaska Range; 62° 18' N, 153° 23' W; BGN 1963; (map 80). Variant: Rohn River, Tatena River, Tateno River. Tatino River. Indian name reported as "Tateno" and "Tat-no" by Lt. J. S. Herron, USA, who went

down the stream in 1899. It was called "Rohn River" in 1898 by J. E. Spurr, USGS, for Oscar Rohn, a member of his party.

Tatina: stream, see Dadina River.

Tatino River: stream, see Tatina River.

Tatitlack: village, see Tatitlek.

Tatitlak: village, see Tatitlek.

Tatitlek Narrows: water passage, 5 miles long, E of Bligh Island, 40 miles NW of Cordova, Chugach Mountains; 60° 53' N, 146° 43' W; (map 64). Named by H. P. Ritter in 1903, USC&GS, "Tatitlack." Named for the nearby village.

Tatitlek: village, pop. 96, on NE shore of Tatitlek Narrows, 1 mile NE of Thigh Island and 40 miles NW of Cordova, Chugach Mountains. 60° 52' 45" N, 146° 41' 00" W; (map 64). Variant: Tatikhlek, Tatilack, Tatitlack, Tatitlak. Taytet-lek. Indian village reported by Ivan Petroff in the 1880 Census as "Tatikhlek," population 73; 90 in 1890. The present spelling was published by Grant and Higgins (1910, pl. 2), USGS. T. E. Gerdine, USGS wrote, "formerly it stood at the head of Gladhaugh Bay, but some years ago it was moved to its present site near Copper Mountain." A post office was established here in 1946 (Ricks, 1965 p. 64).

Tatlalinguk Pass: watercourse, in Yukon Delta, extends N 2.7 miles from Apoon Pass to Pastol Bay 41 miles NE of Kwiguk, Yukon-Kuskokwim Delta; 63° 05' N, 163° 25' W; (map 92). Eskimo name obtained in 1899 by R. L. Faris, USC&GS; published in 1901 on Chart 9372.

Tatlanika Creek: stream, heads at junction of Sheep and Moose Creeks, flows N 50 miles to Wood River, 14 miles E of Nenana, Tanana Lowland; 64° 35' 30" N, 148° 39' 00" W; (map 100). Tanana Indian name meaning "Tatla Creek" adopted by miners and reported in 1906 by L. M. Prindle (in Brooks and others, 1907, pl. 4), USGS.

Tatlaweeksak River: watercourse, see Talbiksok River.

Tatlawiksuk River: stream, heads at 62° 19' 40" N, 155° 14' 00" W, flows SW 80 miles to Kuskokwim River, 3 miles NE of its junction with Swift River, 34 miles NE of Sleetmute, Stony River Lowland; 61° 55' 10" N, 156° 14' 30" W; (map 72). Variant: Talgiksiuak, Talgiksjuak, Talgotno, Taljgotno, Taljiks-you-ak, Tuliviksak, Tusoluksuk. Eskimo name known as "R[eka] Talgiksiuak" to Russian fur traders as early as 1832, according to Lt. L. A. Zagoskin, IRN, in 1842-44. He gives the Indian name as "Talgotno." In 1908 A. G. Maddren, USGS, recorded the Eskimo name as "Tusoluksuk," and in 1914, R. H. Sargent, USGS, recorded the present form.

Tatlignagpeke Mountain: mountain, 2,498 ft., with 3 major peaks, 5 miles NW of Sugtutlig Mountain and 20 miles N of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 22' N, 161° 25' W; (map 53). Eskimo name reported in 1954 by USGS.

Tatondan Lake: lake, 0.9 miles long, at mouth of Lake Creek, between Gravel Creek and Matanuska River, 39 miles NE of Palmer, Chugach Mountains; 61° 56' 35" N, 147° 59' 00" W; (map 69). Tanaina Indian name meaning "curved" or "bent"; reported in 1933 by USGS.

Tatondur River: stream, see Tatonduk River.

Tatonduc River: stream, see Tatonduk River.

Tatondue River: stream, see Tatonduk River.

Tatonduk River: stream, heads in Canada at 65° 24' N, 140° 10' W, flows SW 60 miles to Yukon River, 15 miles N of Eagle, Porcupine Plateau; 65° 00' N, 141° 20' W; BGN 1954; (map 102). Variant: Sheep Creek, Tatondur River, Tatonduc River, Tatondue River, Totondur River. Indian name reported in 1883 by Lt. Schwatka (1885, sheet 7); USA, as "Tatondur River or Totondur River." In 1896 the name was reported as "Tatonduc" by Spurr (1898, p. 261), USGS.

Tatoosh Islands: islands, group extending 1.3 miles in Behm Canal, off W coast of Betton Island, Alexander Archipelago; 55° 31' N, 131° 50' W; (map 3). Named in 1886 by USC&GS.

Tatoosh Point: point of land, on W coast of Betton Island, near W entrance to Behm Canal, Alexander Archipelago; 55° 31' 30" N, 131° 49' 30" W; (map 3). Local navigators' name obtained in 1904 by H. C. Fassett, USBF; derived from Tatoosh Islands.

Tatoosh Rocks: rocks, N of Tatoosh Islands, near W entrance to Behm Canal, Alexander Archipelago; 55° 32' N, 131° 51' W; (map 3). Named by local pilots in the late 1880's.

Tatotlinda: stream, see Mission Creek.

Tatschik: bay, see Pavlof Bay.

Tatschik: locality, see Techek.

Tatschikmiut: locality, see Techek.

Tatschikmjut: settlement, see Takshak.

Tatsimisa: locality, on NW end of Kivalina Lagoon, 10 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 50' N, 164° 45' W; (map 128). Variant: Tatsimisaa, Techeemesaw. Eskimo name reported in 1966 by E. S. Burch.

Tatsimisaa: locality, see Tatsimisa.

Tattitgak Bluff: bluff, elev. 500 ft., on S bank of Colville River, 2 miles S of Umiat, Arctic Slope; 69° 20' N, 152° 11' W; (map 141). Eskimo name "tatidgak" for the lesser sandhill crane, *Grus canadensis canadensis*, reported in 1956 by T. E. Taylor, USGS.

Tatum, Mount: peak, 11,140 ft., in Mount McKinley National Park on Carpe Ridge, between Muldrow and Traleika Glaciers, 10 miles NNE of Mount McKinley, Alaska Range; 63° 10' 50"

N, 150° 48' 30" W; BGN 1947; (map 88). Named by Bradford Washburn about 1945 for Robert G. Tatum, postulant for holy orders, stationed at the mission at Nenana, who at the age of 21 accompanied Archdeacon Stuck, Henry Karstens, and Walter Harper on the first ascent of Mount McKinley (South Peak). on June 7, 1913.

Taupanica: locality, see Topanika.

Tava Island: island, 1 mile long, 3 miles W of Goddard, in Necker Islands, on W coast of Baranof Island, Alexander Archipelago; 56° 49' 30" N, 135° 28' 30" W; (map 5). Variant: Ostrov Tava. Named in 1809 by the Russian navigator, Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "Os[trov] Tava," meaning "tent island."

Taveeluk Cape: point of land, see Taveeluk Point.

Taveeluk Point: point of land, 6 miles NW of Southwest Cape, SW coast of St. Lawrence Island; 63° 20' N, 171° 39' W; BGN 1951; (map 93). Variant: Taveeluk Cape, Tavilak Point. Eskimo name recommended by the Gambell village council and reported in 1949 by Maj. H. B. Allen, USAAF.

Tavilak Point: point of land, see Taveeluk Point.

Tawah Creek: stream, flows SE along the coast 7 miles to Lost River, 0.8 miles N of its mouth in the Gulf of Alaska and 6.5 miles SE of Yakutat, Malaspina Coastal Plain; 59° 28' 00" N, 39° 36' 50" W; BGN 1962; (map 46). Variant: An-kau Creek, Ankau River, Ankau Inlet, Ta-wah Creek. Tlingit Indian name reported by Lt. Comdr. Moser, USN, in 1901. This stream was often called "Ankau Creek" on early charts.

Tawah: estuary, see Ankau, The.

Tawak Passage: water passage, 2 miles long, on coast of Gulf of Alaska, E of Myriad Islands, 4.5 miles SW of Chichagof, Alexander Archipelago; 57° 38' 00" N, 136° 12' 15" W; BGN 1926; (map 9). Named in 1926 by USC&GS. "Tawak" is the Tlingit Indian name for "goose." The name was published in 1928 on Chart 8280.

Tawawe Lake: lake, 0.5 miles long, SE of Old Man Lake, 36 miles W of Glennallen, Copper River Basin; 62° 06' N, 146° 39' W; (map 83). Local name reported by USGS in 1949.

Taxlina Glacier: glacier, see Tazlina Glacier.

Taxlina River: stream, see Tazlina River.

Tay-tet-lek: village, see Tatitlek.

Tayay Inlet: estuary, see Taiya Inlet.

Taygud, Ostrov: island, see Taigud Island.

Taygud, Ostrov: islands, see Taigud Islands.

Taylor Bay: bay, 2 miles wide, at N end of Port Dick, on Kenai Peninsula, 26 miles SE of Saldovia, Chugach Mountains; 59° 16' 30" N, 151° 06' 00" W; BGN 1910; (map 50). Local name reported in 1909 by U. S. Grant (in Martin and others, 1915, pl. 2), USGS.

Taylor Bay: bay, 3.4 miles across, in Glacier Bay National Monument, extends NW from Cross Sound to Brady Glacier, 41 miles NW of Hoonah, St. Elias Mountains; 58° 16' 30" N, 136° 30' 30" W; (map 10). Named by W. H. Dall, USC&GS, "for Mr. C. H. Taylor of Chicago, who visited this locality." The name was published in the 1883 Alaska Coast Pilot (p. 186).

Taylor Creek: stream, flows NE 2 miles to American Creek which flows to Niukluk River, 26 miles N of Solomon, Seward Peninsula Highlands; 64° 56' N, 164° 32' W; (map 95). Prospectors' name reported in 1908 by P. S. Smith (in Brooks and others, 1909, pl. 10), USGS.

Taylor Creek: stream, flows SE 1 mile to Wade Creek, 46 miles SW of Eagle, Yukon-Tanana Highlands; 64° 08' 30" N, 141° 29' 30" W; (map 102). Local name published in 1956 by USGS.

Taylor Creek: stream, flows SW 24 miles to Kougarok River, 9 miles SW of Midnight Mountains and 46 miles NW of Imurok Lake, Seward Peninsula Highlands; 65° 41' N, 164° 48' W; (map 110). Prospectors' name reported in 1900 by Brooks (1901, pl. 11), USGS.

Taylor Creek: stream, flows W 4.5 miles to head of Duncan Canal, on Lindenberg Peninsula, Kupreanof Island, Alexander Archipelago; 56° 46' 50" N, 133° 20' 00" W; (map 6). Local name published by F. E. Wright and C. W. Wright (1908, fig. 11), USGS.

Taylor Creek: stream, heads in Taylor Lake, flows 0.5 miles SW to Windham Bay, 61 miles SE of Juneau, Coast Mountains; 57° 35' 30" N, 133° 24' 45" W; (map 8). Local name reported in 1951 by USGS.

Taylor Creek: stream, heads in Taylor Mountains, flows N 30 miles to Holitna River, 38 miles S of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 09' N, 157° 13' W; BGN 1948; (map 72). Named for a prospector who discovered gold near the headwaters of the stream; reported in 1945 by USGS.

Taylor Creek: stream, on Kenai Peninsula, flows NW 2 miles to Granite Creek, 11 miles SE of Sunrise, Chugach Mountains; 60° 45' 45" N, 149° 14' 00" W; (map 63). Local name reported in 1912 by Grant and Higgins (1913, pl. 1), USGS.

Taylor Creek: stream, on N end of Kenai Peninsula, flows N 7 miles to SW side of Turnagain Arm, 8 miles NW of Hope, Chugach Mountains; 60° 58' 00" N, 149° 49' 30" W; (map 63). Local name reported in 1952 by USGS.

Taylor Glacier: glacier, trends SE 5.5 miles to its terminus, 0.5 miles NW of Kings Bay and 16 miles SE of Whittier, Chugach Mountains; 60° 33' 10" N, 148° 34' 00" W; BGN 1910; (map 63). Named by U.S. Grant in 1910 and published by Grant and Higgins (1910, pl. 2), USGS.

Taylor Island: island, 2.2 miles long, off E shore of Taylor Bay, in Glacier Bay National Monument, 4 miles W of Point Wimbledon, 40 miles NW of Hoonah, St. Elias Mountains; 58°

18' N, 136° 30' W; (map 10). Named by J. F. Pratt, USC&GS; published in the 1901 Alaska Coast Pilot (p. 205). The name was derived from Taylor Bay.

Taylor Lagoon: lagoon, extends E-W 2.5 miles along Norton Sound, 10 miles E of Solomon, Seward Peninsula Highlands; 64° 34' N, 164° 08' W; (map 95). Local name reported on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Taylor Lake: lake, 0.8 miles long at head of Taylor Creek, 0.8 miles from stream's mouth on Windham Bay, 60 miles SE of Juneau, Coast Mountains 57° 35' 55" N, 133° 23' 50" W; (map 8). Local name reported in 1951 by USGS.

Taylor Mountain: mountain, 5,059 ft., 55 miles SW of Eagle, Yukon-Tanana Highlands; 64° 03' N, 142° 18' W; (map 102). Local name published in 1943 by USGS.

Taylor Mountains: mountains, 3,583 ft., in group 8 miles across, 25 miles NW of Finn Mountain and 55 miles S of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 55' N, 157° 26' W; BGN 1948; (map 60). Locally named for "a prospector who spent a number of years in the area [canna]" and reported in 1945 by USGS.

Taylor Peak: mountain, 1,910 ft., 1.6 miles SW of Point Hope, eastern Attu Island; Aleutian Islands; 52° 54' 30" N, 173° 16' 23" E; (map 13). Name shown on an AMS map published in 1948, and given by the U.S. Army during World War II. The name is not used today.

Taylor Spur: ridge, 15,000 ft., extends E from Pioneer Ridge to Muldrow Glacier, on NE side of Mount McKinley, Alaska Range; 63° 07' 30" N, 150° 56' 00" W; (map 88). Mountain climbers' name published in 1954 by USGS.

Taylor: locality, pop. 29 (1940), on left bank of Kougarok River, 8 miles SW of Midnight Mountain and 48 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 44' N, 164° 51' W; (map 110). Mining camp founded about 1906. A post office of this name was established in 1906 and discontinued in 1934 (Ricks, 1965, p. 64). Taylor served as a center for the upper Kougarok gold mining region.

Taylor: locality, see Camp Taylor.

Taz Basin: cove, 0.4 miles across, on W coast of Granite Island, 35 miles SW of Seward, Chugach Mountains; 59° 39' N, 149° 49' W; (map 49). Local name reported in the early 1950's by USC&GS.

Tazcol Peak: mountain, 7,800 ft., 3.5 miles NE of Pandora Peak and 21 miles NW of Valdez, Chugach Mountains; 61° 20' 53" N, 146° 37' 28" W; BGN 1965; (map 68). Probably named about 1959 by Nielsen (1963, p. 153); a made-up name from the first three letters of the Tazlina and Columbia Glaciers.

Tazhemina Lake: lake, see Lower Tazimina Lake.

Tazimeena River: stream, see Tazimina River.

Tazimina River: stream, heads at 60° 03' N, 153° 43' W, flows SW 48 miles, through Tazimina Lakes, to Sixmile Lake, 1 mile S of Nondalton, Aleutian Range; 59° 58' N, 154° 50' W; BGN 1910; (map 51). Variant: Nulhutno Creek Nulhutno River, Taschemna River, Tazimeena River, Taziminah River, Tazimine River. Tanaina Indian name meaning “trap lake” reported in 1902 as “Tazimeena” by W. H. Osgood, USDA.

Taziminah Lake: lake, see Lower Tazimina Lake.

Taziminah River: stream, see Tazimina River.

Tazimine River: stream, see Tazimina River.

Tazlena River: stream, see Tazlina River.

Tazlina Glacier Lodge: roadhouse, see Tazlina.

Tazlina Glacier: glacier, heads 1.6 miles N of Mount Cashman, trends N 25 miles to its 1960 terminus, 1 mile S of Tazlina Lake and 43 miles N of Valdez, Chugach Mountains; 61° 44' 30" N, 146° 25' 30" W; BGN 1915; (map 68). Variant: Taxlina Glacier. Lt. Allen (1887, map), USA, obtained Ahtena Indian name “Tezlina” for the present-day Tazlina River (p. 62). W. C. Mendenhall, USGS, is responsible for applying the Indian stream name, which he spelled Tax Lina [Takhlina], to the glacier at the stream's head in 1898. Tazlina [Tas-lintna] “swift river.”

Tazlina Lake: lake, 21 miles long, at head of Tazlina River, 1 mile N of 1952 terminus of Tazlina Glacier and 62 miles N of Valdez, Copper River Basin; 61° 53' N, 146° 27' W; (map 68). Variant: Lake Pluvezna, Plavezhnoi, Pleveznie. Local name taken from the stream that drains the lake, reported in 1898 by F. C. Schrader, USGS. The Russian Serebrenikov (cnna). appears to have been the first “white man” to reach this lake; according to his notes he was here on May 30, 1848 He recorded the name as “Plavezhnoye Ozero,” or “Plavezhni Lake.” He reported two Indian families living on the lake (Allen, 1887, p 21).

Tazlina Lodge: roadhouse, see Tazlina.

Tazlina River: stream, flows E 30 miles from Tazlina Lake to Copper River, 7 miles SE of Glennallen, Copper River Basin; 62° 02' N, 145° 23' W; BGN Isis; (map 83). Variant: Tas-lintna, Taxlina River, Tazlena River, Tezlina River, Tlieshitna River. Ahtena Indian name sometimes written “Tas-lin-tna,” meaning “swift river,” reported in 1848 by the Russian Serebrenikov (cnna). as “Tlieshitna.” This name was spelled “Tezlina” in 1885 by Lt. Allen (1887, p. 62), USA.

Tazlina River: stream, see Nelchina River.

Tazlina Tower: peak, 8,300 ft., on divide between Tazlina and Columbia Glaciers, 0.8 miles NW of Madean Peak and 26 miles NW of Valdez, Chugach Mountains; 61° 23' 17" N, 146° 45' 45" W; BGN 1965; (map 68). Probably named about 1959 by Nielsen (1963, p. 135).

Tazlina: roadhouse, on Glenn Highway, 30 miles W of Glennallen, Copper River Basin; 62° 04' N, 146° 27' W; (map 83). Variant: Tazlina Glacier Lodge, Tazlina Lodge. Local name of a

roadhouse reported by USGS (in Brooks and others, 1914, pl. 11). as being on the Copper River at the mouth of the Tazlina River. The name has been transferred to this lodge on the Glenn Highway.

Tchagulak Island: island, see Herbert Island.

Tchagvagtchatchachat: locality, see Chagvagchat.

Tchagvan Bay: bay, see Chagvan Bay.

Tchaimuth: locality, see Chaik.

Tchakhikh: point of land, see Chakik, Cape.

Tchakoch: stream, see Chakok River.

Tchalchuk: stream, see Stony River.

Tchaseeni, Point: point of land, see Chasina Point.

Tchegoula Island: island, see Chagulak Island.

Tchegoulak Island: island, see Chugul Island.

Tchegoulak Island: island, see Herbert Island.

Tchernobour Island: island, see Cherni Island.

Tchernofskaia: harbor, see Chernofski Harbor.

Tchiboukak: point of land, see Chibukak Point.

Tchiboukougak: village, see Gambell.

Tchibukak: point of land, see Chibukak Point.

Tchigul: island, See Chugul Island.

Tchillkat Inlet: estuary, see Chilkat Inlet.

Tchillkat Islands: islands, see Chilkat Islands.

Tchillkat River: stream, see Chilkat River.

Tchineyak, Cape: point of land, see Chiniak Cape.

Tchinik: locality, see Chinik.

Tchinimuth: village, see Golovin.

Tchinkitanay Bay: water passage, see Sitka Sound.

Tchirikoff: island, see Chirikof Island.

Tchitchagoff' Cap: bluff, see Chichagof, Cape.

Tchitchagow, Cape: bluff, see Chichagof, Cape.

Tchitchakoff Strait: water passage, see Chichagof Pass.

Tchitnak, Cape: point of land, see Siknik Cape.

Tchitnak: locality, see Chitnak.

Tchouchago: locality, see Tutago.

Tchougatskoi Golfe: gulf, see Prince William Sound.

Tchougatskoi: mountain range, see Chugach Mountains.

Tchougoul lie: island, see Chugul Island.

Tchougoulak: island, see Chugul Island.

Tchougoule Island: island, see Segula Island.

Tchougoulok Island: island, see Chagulak Island.

Tchougoulok: island, see Chugul Island.

Tchougovlak: island, see Chugul Island.

Tchounnok: point of land, see Chunak Point.

Tchovgoul: island, see Chugul Island.

Tchuginadak: island, see Chuginadak Island.

Tchulkade Lake: lake, 0.5 miles across, 24 miles SE of Chalkyitsik, Porcupine Plateau; 66° 22' N, 143° 20' W; (map 120). Tranjik-kutchin Indian name; obtained in 1956 by T. E. Taylor, USGS.

Tchuna, cape: point of land, see Chunu, Cape.

Tdlogaiyakh: locality, off right bank of Khotol River, 2.5 miles E of Yukon River and 39 miles SW of Nulato, Koyukuk Lowland; 64° 11' N, 158° 30' W; (map 97). Indian name reported in 1935 by Frederica de Laguna, BAE.

Tea Creek: stream, flows NW 7 miles to Unalakleet River, 11 miles E of Unalakleet, Nulato Hills; 63° 53' 30" N, 160° 25' 50" W; (map 91). Local name reported in 1952 by USC&GS.

Tea Kettle Rock: rock, see Teapot Rock.

Tea Lake: lake, 1,200 ft. long, on Kenai Peninsula, 8 miles SW of Sterling and 23 miles SE of Kenai, Cook Inlet Lowland; 60° 25' 45" N, 150° 38' 40" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Teal Creek: stream, flows E 4 miles to Thirtythree Creek, N of Fort Glenn, on NE coast of Umnak Island, Aleutian Islands; 53° 24' 57" N, 167° 51' 35" W; (map 23). Name published in 1958 on an AMS map and later by USGS (Byers, 1959, pl. 41). This is one of the many names given by the U.S. military during World War II and probably refers to the Aleutian common teal *Anas crecca nimia*, which is one of the most common of the so-called river ducks (Gabrielson and Lincoln, 1959, p. 160-161).

Teal Island: island, 0.6 miles long, in SW El Capitan Passage, Alexander Archipelago; 55° 55' 40" N, 133° 21' 15" W; (map 4). Variant: South Island. Named in 1932 by R. S. Patton, USC&GS, for triangulation station Teal located on this island and "to replace the descriptive name by a distinctive one." The descriptive name "South Island" was published in the 1925 Coast Pilot (p. 154).

Teal Lake: lake, 0.5 miles long, on Kenai Peninsula SE of Birch Lake, 2 miles N of Swan Lake and 28 miles ENE of Kenai, Cook Inlet Lowland; 60° 42' 45" N, 150° 31' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, probably for the green-winged teal (*Nettion carolinense*), a duck which breeds in the Aleutian Islands.

Teapot Hill: hill, 250 ft., on SW coast of Umnak Island, Aleutian Islands; 53° 08' 40" N, 168° 47' 57" W; (map 22). Name published in 1951 on a USGS map.

Teapot Rock: rock, off NE coast of Great Sitkin Island, Aleutian Islands; 52° 06' 50" N, 176° 03' 00" W; BGN 1936; (map 17). Variant: Tea Kettle Rock. So named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934, "because of its shape."

Tease Lake: lake, 0.5 miles across, 3 miles SE of Speel Point on the Speel River and 31 miles SE of Juneau, Coast Mountains; 58° 06' 30" N, 133° 40' 00" W; BGN 1930; (map 12). Local name published by Theodore Chapin (in Brooks and others, 1916, p. 107), USGS.

Teasekpuk Lake: lake, see Teshekpuk Lake.

Tebay Creek: stream, see Tebay River.

Tebay Lakes: lakes, in line 7 miles long trend NE at head of Tebay River, 68 miles E of Valdez, Chugach Mountains; 61° 12' N, 144° 15' W; (map 68). Local name published in 1912 by USGS.

Tebay Mountain: mountain, "in Mentasta Mountains, near Suslota Pass," Alaska Range; Variant: Mount Tebay. Named in 1885 by Lt. Allen (1887, p. 7), USA.

Tebay River: stream, heads in Tebay Lakes, flows NE 15 miles to Chitina River, 36 miles SW of McCarthy, Copper River Basin; 61° 24' N, 143° 59' W; (map 67). Variant: Tebay Creek. Indian name reported in 1885 by Lt. Allen (1887, p. 57), USA, to mean “a variety of sheep” (p. 54).

Tebay, Mount: mountain, see Tebay Mountain.

Tebenkof Bay: bay, 5 miles across, on W central coast of Kuiu Island, Alexander Archipelago; 56° 30' N, 134° 12' W; BGN 1899; (map 5). Variant: Kon Bay, Tebenkoff Bay, Tebenkov Bay, Tebienkof Bay, Tebienkoff Bay. Named in 1879 by W. H. Dall, USC&GS, for Capt. Michael Dmitrievich Tebenkov, governor of the Russian American colonies in 1845-50, whose “Atlas of the Northwest Coast of America” was used extensively in the preparation of this dictionary.

Tebenkof Bay: bay, see Saint Michael Bay.

Tebenkof Glacier: glacier, on E side of Kenai Peninsula, heads at 60° 38' 30" N, 148° 35' 30" W, trends NE 8 miles to its terminus, 2 miles S of SE side of Blackstone Bay and 7 miles SE of Whittier, Chugach Mountains; 60° 44' 30" N, 148° 28' 30" W; BGN 1910; (map 63). Variant: Spencer Glacier. Named about 1909 by U. S. Grant, USGS, for Mikhail Dmitrievich Tebenkov. Published by Grant and Higgins (1910, pls. 1, 2), USGS.

Tebenkof Glacier: glacier, see Spencer Glacier.

Tebenkof, Mount: mountain, 4,280 ft., 2.2 miles NE of Chicago Harbor, 16 miles NE of Yakutat, St. Elias Mountains; 59° 23' 20" N, 139° 25' 30" W; (map 46). Variant: Mount Tebienkof. Named in 1890 by Russel (1892, pl. 4). for Capt. Mikhail Dmitrievich Tebenkov, governor of the Russian-American Colonies, 1845-50.

Tebenkof, Point: point of land, on N coast of Unalaska Island, Aleutian Islands; 53° 59' 20" N, 166° 52' 45" W; BGN 1938; (map 23). Named by USC&GS in 1938 for Capt. Mikhail Dmitrievich Tebenkov, director of the Russian American Company and Governor of Russian America between 1845 and 1850. He was responsible for the compilation of one of the early atlases of Alaska (1852). which has been used extensively in the preparation of this publication.

Tebenkoff Bay: bay, see Tebenkof Bay.

Tebenkov Bay: bay, see Tebenkof Bay.

Tebetnkova, Zaliv: bay, see Saint Michael Bay.

Tebienkof Bay: bay, see Tebenkof Bay.

Tebienkof, Mount: mountain, see Tebenkof, Mount.

Tebienkoff Bay: bay, see Tebenkof Bay.

Tebooktolic River: stream, see Tubutulik River.

Tebooktolic: locality, see Tubutulik.

Techeemesaw: locality, see Tatsimisa.

Tecek: locality, at or near Saint Michael, Yukon-Kuskokwim Delta; 63° 29' N, 162° 02' W; (map 92). Variant: Agakhlyak, Tachik, Takchak, Tashuk, Tatchek, Tatschik, Tatschikmiut, T'satsumi, Tutsogemut. Eskimo village name reported to mean "the bay"; recorded in 1842-44 by Lt. L. A. Zagoskin, IRN, as "Tachik ili Agakhlyak," i.e. "Tachik or Agakhlyak." In 1842 Lt. L. A. Zagoskin recorded a population of 19 Eskimos in 3 houses. The 1880 Census lists "Tachik," population included in that of Saint Michael.

Techik: bay, see Golovnin Bay.

Teck Island: island, 0.3 miles across, at mouth of Bluefox Bay, on N coast of Afognak Island; 58° 27' 50" N, 152° 42' 20" W; (map 43). Local name published by USC&GS on Chart 8573 in 1928.

Tecla Creek: stream, flows NE 0.7 miles to Ruby Creek, 10 miles NW of Medfra, Kilbuck-Kuskokwim Mountains; 63° 14' N, 154° 48' W; (map 89). Local name reported in 1920 by G. C. Martin (in Brooks and others, 1922, fig. 5), USGS.

Tecumseh Creek: stream, flows SE 1.5 miles to Bear Creek, 19 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 02' 40" N, 147° 11' 30" W; (map 105). Named by prospectors; published in 1908 by USGS.

Teddy Bear Harbor: harbor, see Bernard Harbor.

Teddy Creek: stream, flows SE 2.5 miles, joins Rabbit Creek to form Quartz Creek, 9 miles SE of Long and 30 miles SSE of Ruby, Kilbuck-Kuskokwim Mountains; 64° 19' N, 155° 17' W; (map 98). Prospectors' name reported in 1913 by Eakin (1914, pl. 3), USGS. The stream's identity is in doubt.

Teddys Fork: stream, flows NE 8 miles to join Discovery Fork to form American Creek, 10 miles SW of Eagle, Yukon-Tanana Highlands; 64° 40' 45" N, 141° 19' 15" W; (map 102). Variant: Alder Creek. Prospectors' name shown on a 1902 manuscript map by E. J. Chamberlain, U.S. Deputy Surveyor.

Tee Creek: stream, flows 1 mile N and W to Tee Harbor, 0.5 miles N of village of Tee Harbor and 15 miles NW of Juneau, Coast Mountains; 58° 23' 45" N, 134° 44' 45" W; (map 11). Local name published by USGS in 1962. Name derived from Tee Harbor.

Tee Harbor: bay, 1.5 miles long, on E shore of Favorite Channel, 0.4 miles N of Lena Cove and 15 miles NW of Juneau, Coast Mountains; 58° 25' 30" N, 134° 46' 00" W; BGN 1906; (map 11). Variant: Stephens Cove. Named by local navigators because of its resemblance to the letter "T." In 1887 USC&GS called it "Stephens Cove," a name derived from Point Stevens. The name was changed to "Tee Harbor" by BGN.

Tee Harbor: village, pop, 32 (1950), at S end of Tee Harbor, on Favorite Channel, 3 miles NW of Fairhaven and 14 miles NW. of Juneau, Coast Mountains; 58° 24' 35" N, 134° 45' 30" W; (map 11). Local name derived from the harbor. Originally a saltery built by W. N. Lazier in 1901, followed by a salmon cannery on the same site in 1911. The cannery burned down in 1912 (DeArmond, 1957, p. 43). The name was published in Polk's Gazetteer in 1916.

Tee Pee Creek: stream, flows W 2 miles to Flambeau River, 16 miles NE of Nome, Seward Peninsula Highlands; 64° 41' 30" N, 165° 04' 30" W; (map 94). Prospectors' name shown on the 1904 "Map of Cape Nome Precinct" by Arthur Gibson.

Tee-at-iokwik River: stream, flows to Bering Sea in Yukon Delta area S of Kwemeluk Pass; 62° 30' N, 165° 10' W; (map 76). Eskimo name reported by Dall (1870, p. 275). Its identity, however, is uncertain and may apply to the channel shown on present-day maps as Kiangolevik Pass. Dall gives it as the fourth and last stream, going north, from Scammon Bay to the Yukon Delta.

Tee-atee-ogemut: locality, see Tiatuik.

Tee-kee-voga-meuts: village, see Point Hope.

Tee-kee-voga: point of land, see Hope, Point.

Teecan Creek: stream, see Tikan Creek.

Teegaldenskoi: locality, see Tigalda.

Teelaveeruk Mountain: hills, see Telavirak Hills.

Teetaluk River: stream, see Titaluk River.

Teethcanoe Lake: lake, oxbow of Dulbi River, 10 miles S of Roundabout Mountain, Koyukuk Lowland; 65° 24' N, 156° 28' W; (map 108). Local name obtained at Huslia by USGS in 1954 or 1955.

Tefaknaghamiut: locality, see Tefaknak.

Tefaknak: locality, S of the Yukon River, Yukon-Kuskokwim Delta; (map 74). Variant: Tefaknaghamiut. Former Eskimo village reported as "Tefaknaghamiut," population 195, in the 1890 Census (1893, p. 110).

Tehighinagac, Baie: bay, see Chiginagak Bay.

Tehitchagoff Bay: bay, see Chichagof Bay.

Tehivilh-Kyd, Baie: bay, see Missak Bay.

Teikell River: stream, see Uranatina River.

Teikhell River: stream, see Uranatina River.

Teikhell: locality, see Tiekel and Tiekel Cache.

Teiteluk River: stream, see Titaluk River.

Tekeaksakrak Lake: lake, 2 miles long, 6 miles SW of Shungnak, Kotzebue-Kobuk Lowland; 66° 50' N, 157° 15' W; (map 115). Variant: Tekeaksukrak Lake. Eskimo name reported in 1954 by the U.S. Army Corps of Engineers.

Tekeaksukrak Lake: lake, see Tekeaksakrak Lake.

Tegegakrok Point: point of land, extends N into Elson Lagoon, 7 miles E of Barrow, Arctic Plain; 71° 17' 32" N, 156° 26' 10" W; (map 153). Variant: Eider Point, Tikigasukruk Point. Eskimo name "Tikikasugruk" recorded by USC&GS at Barrow in 1950, means "great big finger." Its spelling on recent maps appears to be a corruption of the Eskimo pronunciation.

Teklanika Channel Lake: lake, 0.7 miles long, 15 miles SW of Nenana, Tanana Lowland; 64° 29' N, 149° 34' W; (map 100). Name derived from Teklanika River and published on recent maps.

Teklanika River: stream, heads at Cantwell Glacier, in Alaska Range, flows N 90 miles to Nenana River, 10 miles SW of Nenana, Tanana Lowland; 64° 28' 45" N, 149° 19' 00" W; (map 100). Indian name, meaning "Tekla Creek," reported in 1910 by L. M. Prindle, USGS.

Telaquana Lake: lake, 9 miles long, on Telaquana River, 75 miles NE of Nondalton, Alaska Range; 60° 57' N, 153° 52' W; BGN 1930; (map 61). Tanaina Indian name reported about 1928 by Capps (1935, pl. 2), USGS.

Telaquana Mountain: mountain, 8,070 ft., 3 miles E of Turquoise Lake, 70 miles NE of Nondalton, Alaska Range; 60° 48' 30" N, 153° 45' 30" W; (map 61). Tanaina Indian name shown on 1928 fieldsheet by S. R. Capps and Gerald FitzGerald, USGS.

Telaquana Pass: pass, 3,100 ft., between headwaters of Neacola and Telaquana Rivers, 80 miles NE of Nondalton, Alaska Range; 60° 56' N, 153° 28' W; (map 61). Tanaina Indian name reported in 1958 by USGS; derived from nearby Telaquana River.

Telaquana River: stream, heads at glacier, 5.4 miles SW of Telaquana Pass, flows NW 60 miles, through Telaquana Lake to Stony River, 60 miles N of Tanalian Point on Lake Clark, Alaska Range; 61° 04' 10" N, 154° 24' 30" W; BGN 1931; (map 71). Indian name reported in 1919 by USGS.

Telavirak Hills: hills, 800 ft., on Chukchi Sea coast, between Kuropak and Ogotoruk Creeks 7.5 miles SE of Cape Thompson, Arctic Slope; 68° 06' N, 165° 38' W; BGN 1963; (map 129). Variant: Teelaveeruk Mountain, Tellaveeruk. Eskimo name reported as Tellaveeruk, by personnel of Project Chariot about 1962.

Telegram Creek: stream, flows NW 2.2 miles, Joins Eldorado Creek to form Dome Creek, 23 miles NW of Solomon, Seward Peninsula Highlands; 64° 53' N, 164° 38' W; (map 95).

Variant: Telegraph Creek. Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr. dated 1901.

Telegraph Creek: stream, flows SE 8 miles to Kechumstak Creek, 68 miles SW of Eagle, Yukon-Tanana Highlands; 64° 07' 15" N, 142° 50' 30" W; (map 102). Local name published in 1956 by USGS.

Telegraph Creek: stream, see Telegram Creek.

Telegraph Hill: hill, 248 ft., 2 miles N of St. Paul, on S-central St. Paul Island, in Pribilof Islands; 57° 08' 45" N, 170° 16' 10" W; (map 38). Name reported in 1875 by USC&GS.

Telegraph Hill: hill, 375 ft., between Thinpoint Cove and Deer Island, SW end of Alaska Peninsula Aleutian Range; 54° 59' N, 162° 36' W; (map 25). Name published by USC&GS in 1925.

Telegraph Hill: hill, see Court House Hill.

Telemitz Island: island, 0.2 miles across, 2 miles S of Sanak Island, one of Sanak Islands, Aleutian Range; 54° 20' 40" N, 162° 31' 25" W; (map 25). Name reported by Ferdinand Westdahl, USC&GS, commander of the Coast Survey steamer McArthur, who made surveys in this area in 1901.

Telephone Creek: stream, heads in Bendeleben Mountains, flows SW 17 miles to Fish River, 35 miles SE of Imuruk Creek, Seward Peninsula Highlands; 65° 04' N, 162° 58' W; BGN 1910; (map 110). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Telephone Point: bluff, elev. 105 ft., on N bank of Naknek River, on Alaska Peninsula, 3.5 miles NE of Naknek, Bristol Bay Lowland; 58° 44' 15" N, 156° 54' 40" W; (map 41). Local name reported in 1952 by USGS.

Telephone Point: point of land, on W bank of Kvichak River, 13 miles N of Naknek, Bristol Bay Lowland; 58° 54' 50" N, 157° 02' 10" W; (map 41). Local name reported in 1952 by USGS.

Telephone Slough: lake, 0.6 miles long, on E bank of Fish River, 12 miles NW of Golovnin Lagoon and 30 miles NE of Solomon, Seward Peninsula Highlands; 64° 44' N, 163° 31' W; (map 95). Local name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Teliamina Lake: lake, 0.7 miles across, 58 miles NE of Medfra, Kuskokwim Lowland; 63° 36' N, 153° 14' W; (map 89). Indian name obtained in 1958 by T. E. Taylor, USGS.

Telida Mountains: mountain, 2,981 ft., between Swift Fork Kuskokwim River and Highpower Creek, 57 miles NE of Medfra, Kuskokwim Lowland; 63° 32' N, 153° 08' W; (map 89). Local name derived from the nearby village; reported in 1958 by USGS.

Telida, Lake: lake, see Fish Creek Lake.

Telida: village, pop. 14, on left bank of Swift Fork Kuskokwim River, 50 miles NE of Medfra, Kuskokwim Lowland; 63° 23' N, 153° 16' W; (map 89). Variant: Old Telida. In 1960, this Ingalik Indian village consisted of three families (Hosley, 1961, p. 95). The village was established at its present site about 1916. Lt. J. S. Herron, USA, visited Telida in 1899 and gave its population then as 17 persons. This “old” location is closer to Lake Minchumina and is now referred to as “Old Telida.”

Telidaside Creek: stream, flows SW 40 miles to Middle Creek, 43 miles NE of Medfra, Kuskokwim Lowland; 63° 17' N, 153° 25' W; (map 89). Local name derived from the village name; reported in 1958 by USGS.

Tellamishuk River: stream, see Kwecharak River.

Tellamishuk: locality, see Igiak.

Tellaveerak: hills, see Telavirak Hills.

Tellaveeruk Hills: hills, see Telavirak Hills.

Tellaveeruk Mountain: hills, see Telavirak Hills.

Teller Creek: stream, flows NE 9 miles to Snowshoe Creek which flows to South Fork Serpentine River, 16 miles N of Kougarok Mountain and 26 miles E of Ear Mountain, Seward Peninsula Highlands; 65° 54' N, 165° 20' W; (map 111). Prospectors' name reported in 1901 by T. G. Gardine (in Collier, 902, pl. 12), USGS.

Teller Mission: village, pop. 77, at mouth of Shelman Creek, on N shore of Port Clarence, 6 miles NW of Teller, Seward Peninsula Highlands; 65° 20' N, 166° 29' W; (map 111). Variant: Brevig Mission, Okaveenok, Singick, Siniogamut, Siniogamute Sinuk, Teller Reindeer Station. Established in 1892 as “Teller Reindeer Station” by Sheldon Jackson, who named it for the Hon. Henry Moore Teller, 1830-1914, U.S. Senator, 1876-82 and 1885-1909, and Secretary of the Interior, 1882-85. The station was operated by the U.S. Government from 1892 to 1900. On September 1, 1900, a Norwegian Evangelical Lutheran mission was established here, and received 100 deer on a five-year loan from the Government (Jackson, 1906, p. 15). About 1906 the U.S. Government's role was diminished, and the mission became dominant. The population in 1950 was 109; prior to this time no population was given. In 1963 the Brevig Mission Post Office was established here. This may have been the site of an old Eskimo village. See Siniogamute.

Teller Reindeer Station: village, see Teller Mission.

Teller: village, pop. 217, on a spit between Port Clarence and Grantley Harbor, 55 miles SE of Cape Prince of Wales, Seward Peninsula Highlands; 65° 16' N, 166° 22' W; BGN 1944; (map 111). Variant: Libby Station, Libbysville, Nook, Nooke, Nookmut, Nookmute, Nukmiute. In 1827 Capt. Beechey (1831, p. 543), RN, reported that at this place “called Nooke by the natives, there were some Esquimaux fishermen * * *. They appeared to have established themselves upon this point for the purpose of catching and drying fish.” This location was used in the winter of 1866-67 as quarters by Capt. Daniel B. Libby's section of the Western Union Telegraph Expedition, and was known as “Libbysville” or “Libby Station “ In 1867 “The

Esquimaux,” a monthly newspaper, which was published there, noted (July 2, p. 38), “Nook, the spot which divided Grantley Harbor from Port Clarence.” In the 1880 Census, Petroff (1884, p. 11). listed a “Nook” at Cape Douglas with a population of 36 Eskimos. It is doubtful that any permanent settlement was established here before 1900, when the village of Teller “was founded * * * after the Bluestone placers, 15 miles to the south, were discovered. A town named “Bering * * * 5 miles south of Teller, was the first settlement, but the newer town of Teller drew its people from it. The latter town [Teller], which, during the boom of 1900, had over 1,000 inhabitants, now has not over 100” (Collier and others, 1908, p. 270). The name was probably derived from the Teller Reindeer Station situated on the north shore of Port Clarence. The population in 1910 was 125; In 1920, 80; in 1930, 76; in 1939, 118; in 1950, 160. Teller post office was established in 1900 (Ricks, 1965, p. 64). See Teller Mission.

Telrod Cove: cove, extends N 0.7 miles, on NE shore of Spiridon Bay, E of Stream Point, on NW coast of Kodiak Island; 57° 39' N, 153° 38' W; BGN 1931; (map 34). Descriptive name given by USC&GS in 1929 because a “field party found a lost telemeter rod in this cove.”

Telsitna River: stream, heads in Sischu Mountains, flows NE 37 miles to Titna River 8 miles SE of its junction with Nowitna River, 39 miles SE of Monzonite Hills, Kilbuck-Kuskokwim Mountains; 64° 20' N, 153° 22' W; (map 98). Local name reported in 1915 by H. M. Eakin (in Brooks and others, 1916, pl. 10), USGS.

Teltakatschkahin Creek: stream, see Little Boulder Creek.

Teltakhatskahin Creek: stream, see Little Boulder Creek.

Telukhti Creek: stream, flows NE 20 miles to Nayuka River, 17 miles NW of Hochandochtla Mountain, Kokrines-Hodzana Highlands; 65° 21' 50" N, 155° 18' 15" W; (map 107). Koyukan Indian name obtained at Huslia in 1956 by Orth.

Temnac Bay: bay, 2 miles across, on S coast of Attu Island, Aleutian Islands; 52° 48' 30" N, 173° 02' 30" E; BGN 1965; (map 13). Variant: Temnac Cove, Temnag Bay, Ubienni Bay, Uchtumuch Bay, Yubae Wan. Named for a native of Attu Island who was taken from his home to Kamchatka by Michael Nevidiskov, the navigator of the merchant fur-hunting vessel Yevdokia, in 1746, to facilitate the Russians' knowledge of the native language. Temnac confirmed the suspicions of the Russian authorities by telling them about the cruel treatment given the natives by the hunters on the island. He was later baptized as Paul and adopted by Nevidiskov (Coxe, 1787, p. 30-31, and Bancroft, 1886, p. 102-107). This name was first published in 1943 on an AMS map.

Temnac Beach: beach, 0.8 miles long, at mouth of Temnac Bay; 52° 50' 02" N, 173° 03' 45" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II; shown on an AMS map published in 1948.

Temnac Cove: bay, see Temnac Bay.

Temnac Point: point of land, see Krasni Point.

Temnac River: stream, heads at Abraham-Temnac Pass, flows ESE 8.4 miles to Temnac Bay, Attu Island, Aleutian Islands; 52° 50' 02" N, 173° 03' 30" E; (map 13). Name derived from Temnac Bay and shown on an AMS map published in 1948.

Temnac Valley: valley, 7.5 miles long, formed by Temnac River, Attu Island, Aleutian Islands; 52° 50' 02" N, 173° 03' 30" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II; shown on an AMS map published in 1948.

Temnag Bay: bay, see Temnac Bay.

Temnie Island: island, see Dark Island.

Temptation Peak: mountain, 5,300 ft., 2.5 miles NW of junction of Ship Creek with its North Fork and 12 miles SE of Anchorage, Chugach Mountains; 61° 10' 00" N, 149° 31' 15" W; BGN 1964; (map 69). So named in 1963 by members of the Mountaineering Club of Alaska because "many have been tempted to climb it."

Ten Gulch: ravine, trends SE 1 mile to Fourth of July Creek 6 miles SW of that stream's junction with Yukon River and 33 miles NW of Eagle Yukon-Tanana Highlands; 65° 08' 30" N, 141° 58' 30" W; (map 103). Local name published in 1956 by USGS.

Ten Pup: stream, heads on Yukon Bar, flows SW 0.7 miles to Hunter Creek, 0.4 miles ESE of Rampart, Yukon-Tanana Highlands; 65° 08' 40"N 150° 02' 30" W; (map 106). Prospectors' name shown on a manuscript map dated 1906; reported in 1956 by Orth.

Ten Thousand Smokes, Valley of: valley, of River Lethe, extends NW 13 miles from Mount Mageik, on Alaska Peninsula, in Katmai National Monument, 10 miles W of Mount Katmai, Aleutian Range; 58° 19' N, 155° 15' W; BGN 1924; (map 42). Discovered and named July 31, 1916, by R. F. Griggs and L. G. Folsom, members of the National Geographic Society Katmai Expedition. Griggs wrote, "The whole valley as far as the eye could reach was full of hundreds, no thousands-literally, tens of thousands-of smokes curling up from its fissured floor." By 1950, the number of smokes had dwindled to fewer than 100. Most of the original smokes are now extinct and the valley is becoming a "valley of evolution," as hardy pioneer plants struggle to re-establish a floral mantle over nearly sterile ground.

Tenadziladlakatna: stream, see Manslaughter Creek.

Tenakee Channel: estuary, see Tenakee Inlet.

Tenakee Hot Springs: village, see Tenakee Springs.

Tenakee Inlet: estuary, 35 miles long, in E central Chicagof Island, 44 miles E of Chicagof, Alexander Archipelago; 57° 47' N, 134° 57' W; (map 9). Variant: Berry Passage, Blind Passage, Siwash Canal, Siwash Channel, Tenakee Channel, Tenakee Passage. Tlingit Indian name given in 1869 by USC&GS and published in the 1883 Coast Pilot (p. 178).

Tenakee Passage: estuary, see Tenakee Inlet.

Tenakee Springs: village, pop. 109, on N shore of Tenakee Inlet, on Chicagof Island, 50 miles NE of Sitka, Alexander Archipelago; 57° 46' 50" N, 135° 13' 00" W; BGN 1965; (map 9). Variant: Hoonah Hot Springs, Hooniah, Tenakee, Tenakee Hot Springs. Local name derived from "Tenakee," the former name of a cannery located 4 miles to the east. Tenakee Springs is a health resort because of the warm springs located here. It has a wharf, store, cafe, crab cannery (USC&GS, 1962, p. 145). and a post office, established here in 1903, called "Tenakee," but the name was changed to Tenakee Springs in April 1928. It was called "Hoonah Hot Springs" by Lt. Comdr. H. E. Nichols, USN, in 1891 Coast Pilot (p. 163).

Tenakee: locality, see Cannery.

Tenakee: village, see Tenakee Springs.

Tenany: locality, see Chilkoot.

Tenas Creek: stream, flows NW 3.5 miles to Copper River at Wood Canyon, 63 miles NE of Valdez, Chugach Mountains; 61° 26' 00" N, 144° 26' 45" W; (map 68). Variant: Tinnas Creek. Named by prospectors about 1898, reported in 1901 by T. Gerdine, USGS. "Tenas" is a Chinook name meaning "little."

Tenas Lake: lake, 0.4 miles long, along Roosevelt Creek, 0.3 miles W of Roosevelt Lake and 72 miles SE of Healy, Alaska Range; 63° 11' 15", N, 147° 11' 10" W; (map 87). Indian name reported in 1951 by USGS.

Tenass Island: island, 0.9 miles long, in El Capitan Passage, 0.4 miles E of Spanbery Island, Alexander Archipelago; 55° 59' 45" N, 133° 17' 40" W; (map 4). Local "chinook name" meaning "small"; published in 1923 by USC&GS.

Tenass Pass: water passage, 2.5 miles long, between Kosciusko Island and Orr and Spanberg Islands, Alexander Archipelago; 56° 00' N, 133° 20' W; (map 4). Variant: Tenass Passage. Local "chinook name" meaning "small"; published in 1923 by USC&GS.

Tenass Passage: water passage, see Tenass Pass.

Tendashundu River: stream, see Washington Creek.

Tenderfoot Creek: stream, flows SE 5 miles to Tanana River, 13 miles NW of Big Delta, Tanana Lowland; 64° 15' 15" N, 146° 11' 15" W; (map 101). Named by prospectors and reported in 1905 by L. M. Prindle (in Brooks and others, 1906, fig. 8), USGS.

Tenderfoot Creek: stream, flows SW 2.2 miles to Poorman Creek at Poorman, 45 miles S of Ruby, Kilbuck-Kuskokwim Mountains; 64° 06' 10" N, 155° 32' 45" W; BGN 1936; (map 98). Prospectors' name reported in 1913 by Eakin (1914, p. 367), USGS.

Tenderfoot Creek: stream, on Kenai Peninsula, flows NW 2.5 miles to NE side of Summit Lake, 18 miles S of Sunrise, Chugach Mountains; 60° 38' 10" N, 149° 29' 58" W; (map 63). Local prospectors' name reported about 1914 by B. L. Johnson (in Martin and others, 1915, pl. 2), USGS.

Tenderfoot: locality, near the mouth of Tenderfoot Creek, 15 miles NW of Big Delta, Tanana-Yukon Highlands; 64° 15' 15" N, 146° 13' 30" W; (map 101). Site of a mining camp and roadhouse reported by USGS in 1918.

Tenfathom Anchorage: bay, 0.2 miles across, in Redfish Bay, 9.3 miles NW of village of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 18' 45" N, 134° 51' 30" W; (map 5). Variant: Ten Fathom Anchorage. Named in 1897 by Lt. Comdr. J. F. Moser, USN.

Tenk Creek: stream, a short stream flowing into Salt Lake, E of Eagle Harbor and 20 miles NW of Juneau, Coast Mountains; 58° 29' 45" N, 134° 47' 00" W; (map 11). Local name found in early mining records and reported by DeArmond (1957, p. 38).

Tenmile Creek: stream, flows NW 17 miles to Unalakleet River, 44 miles SE of Christmas Mountain, Nulato Hills; 64° 05' N, 159° 08' W; (map 96). Variant: Tenmile River. Local name reported about 1954 by U.S. Army Corps of Engineers.

Tenmile Creek: stream, flows SE 21 miles to Goodpaster River, 25 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 17' N, 145° 09' W; (map 101). Named by prospectors and reported in 1908 by J. W. Bagley, USGS.

Tenmile Creek: stream, flows SW 14 miles to Tozitna River 3 miles N of that stream's junction with Yukon River, 10 miles W of Tanana Kokrines-Hodzana Highlands; 65° 10' 00" N, 152° 26' 30" W; (map 106). Local name reported in 1952 by USGS: so named because it is considered to be 10 miles from Tanana on the sled trail.

Tenmile Creek: stream, flows SW 5.5 miles to Chisana River, 10 miles SE of Northway Junction, Alaska Range; 62° 54' 55" N, 141° 36' 20" W; (map 84). Local name reported by USGS in 1954. So named because the stream crosses the Alaska Highway 10 miles from Northway Junction.

Tenmile Hill: hill, 2,310 ft., between Chisana River and Alaska Highway, 13 miles SE of Northway Junction, Alaska Range; 62° 51' N, 141° 38' W; (map 84). Locally named for Tenmile Creek and reported by USGS in 1955.

Tenmile Island: island, 0.5 miles long, in Iliamna Lake 8 miles SW of Iliamna, Bristol Bay Lowland; 59° 39' N, 155° 00' W; (map 51). Name published by USGS in 1954.

Tenmile Lake: lake, 2.1 miles long, drains N to Tenmile Creek N of Tenmile Hill, 4.5 miles SE of Northway Junction, Alaska Range; 62° 54' N, 141° 36' W; (map 84). Locally named for Tenmile Creek and reported by USGS in 1955.

Tenmile Post: locality, on left bank of Oksik Channel, Kobuk River, 28 miles NW of Selawik, Kotzebue-Kobuk Lowland; 66° 53' N, 160° 46' W; (map 114). Variant: Oksik. Local name reported by the U.S. Army Corps of Engineers in 1955. Former Eskimo village reported as "Oksik" by P. S. Smith (1913, p. 46), USGS.

Tennaly: mountain, see McKinley, Mount.

Tennanah Mountains: mountains, see Tanana Hills.

Tenos Creek: stream, see Texas Creek.

Tenounam Island: island, see Seguam Island.

Tenra'rum-any'i: lake, see Bear Lake.

Tent Point: point of land, on NW shore of Karluk Lake, 18 miles SE of Karluk, Kodiak Island; 57° 24' 05" N, 154° 04' 35" W; (map 35). Local name reported in 1952 by USGS.

Tent Point: point of land, on W shore of Tamgas Harbor, on S coast of Annette Island, Alexander Archipelago; 55° 03' 40" N, 131° 02' 00" W; (map 3). Variant: Observatory Point. So named in 1883 by Lt. Comdr. H. E. Nichols, USN, because "his observation tent was erected at this point"; the name "Observatory Point" has been published by USC&GS for this feature.

Tentree Island: island, 100 ft., across in Islas Bay on W coast of Chichagof Island, 16 miles NW of Chichagof, Alexander Archipelago; 57° 49' 45" N, 136° 22' 45" W; (map 9). Named published in 1928 by USC&GS on Chart 8258.

Teocalli Mountains: range, 6,060 ft., E of South Fork Kuskokwim River, extends N 40 miles from junction of Styx River, 80 miles SE of McGrath, Alaska Range; 62° 14' N, 153° 17' W; (map 80). So named in 1898 by J. E. Spurr, USGS "because of the fancied resemblance to the Aztec temples."

Teplyya Tseplitel Yuchya Klyuchi: locality, see Goddard.

Terbilon Island: island, 0.5 miles across, S of Biorka Island, on W coast of Baranof Island, Alexander Archipelago; 56° 49' 45" N, 135° 32' 00" W; (map 5). Variant: Ostrov Terbilon. Named in 1809 by the Russian navigator Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Terbilon," or "Terbilon Island."

Terentief's Barabara: locality, see Terentief.

Terentief's Station: locality, see Terentief.

Terentief: locality, on right bank of Yukon River below junction of Koyukuk River, Koyukuk Lowland; 64° 51' N, 157° 55' W; (map 97). Variant: Terentief's Barabara, Terentief's Station. Former Indian village or camp recorded as "Terentief's Barabara" by Petroff (1881, p 62), listed in the 1880 Census (1884, p. 12). as "Terentief's Station," population 15.

Teresa Creek: stream, on E coast of Alaska Peninsula, flows SE 4.3 miles to Puale Bay, 44 miles NW of Karluk, Aleutian Range; 57° 44' 20" N, 155° 37' 05" W; (map 35). Variant: Terrace Creek. Local name obtained from J. L. McPherson of Iliamna in 1903 by G. C. Martin, USGS. This stream was called "Terrace Creek" by R. H. Sargent, USGS, in 1923.

Terminal Island: island, see Anthony Island.

Terminal Lake: lake, see Harlequin Lake.

Termination Cape: point of land, see Termination Point.

Termination Point: point of land, 4.5 miles N of Kodiak, on NE coast of Kodiak Island; 57° 51' 15" N, 152° 24' 00" W; (map 34). Variant: Mys Okonchatelnyy, Okonchatelnie, Termination Cape. Translation of "M[ys] Okonchatelnyy," the name given to this point by Sub-Lt. Mikhail Murashev in 1839 or 1840 and published in 1849 on Russian Hydrog. Dept. Chart 1425.

Termination Point: point of land, NE tip of Long Island, in Kootznahoo Inlet, 4 miles NE of Angoon, on W central Admiralty Island, Alexander Archipelago; 57° 32' 20" N, 134° 29' 40" W; (map 9). Descriptive name given in 1869 by Comdr. R. W. Meade, USN; published by USC&GS in the 1883 Coast Pilot (p. 177).

Tern Lake: lake, 0.6 miles long, on Kenai Peninsula S of Lake Ootka, 11 miles NE of Kenai, Cook Inlet Lowland; 60° 41' 30" N, 151° 03' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, probably for the Arctic Tern (*Sterna paradisaea*), called "The world's migration champion * * *, [round trip of 22,000 miles]" (Pearson, 1944, pt. 1, p. 64).

Terra Cotta Mountains: range, 6,210 ft., extends N 40 miles from Fish Creek, between South Fork Kuskokwim and Post Rivers, 80 miles SE of McGrath, Alaska Range; 62° 05' N, 153° 26' W; (map 80). So named in 1898 by J. E. Spurr and W.S. Post, USGS, because of "their superb and peculiar coloring."

Terrace Creek: stream, flows NE 25 miles W of Banded Mountain to Anaktuvuk River, 15 miles N of Table Top and 51 miles NE of Anaktuvuk Pass, Arctic Slope; 68° 50' N, 151° 10' W; BGN 1949; (map 134). Descriptive name given by USGS geologists during exploration of Naval Petroleum Reserve No. 4; name given in 1944.

Terrace Creek: stream, heads in lake, flows NE 11 miles to Kosina Creek, 22 miles SW of junction of Oshetna and Susitna Rivers, Talkeetna Mountains; 62° 34' 45" N, 148° 03' 00" W; (map 82). Local name recorded in 1917 by USGS.

Terrace Creek: stream, see Teresa Creek.

Terrace Island: island, 1.2 miles across, in Wide Bay, between Hartman and West Channel Islands, off S coast of Alaska Peninsula, 44 miles SE of Ugashi, Aleutian Range; 57° 23' N, 156° 16' W; (map 36). Descriptive name given in 1923 by USC&GS.

Terrace Mountain: mountain, 5,535 ft., 5 miles W I of head of Klutina Lake and 34 miles N of Valdez, Chugach Mountains; 61° 35' 00" N, 146° 08' 40" W; (map 68). Named in 1898 by Capt. W. R. Abercrombie (Baker, 1906). Local name published in the 1950's by USGS.

Terrace Point: point of land, on edge of Atrevida Glacier, 2.2 miles NW of Amphitheater Knob and 29 miles NW of Yakutat, St. Elias Mountains; 59° 57' 35" N, 139° 50' 20" W; (map 46). So named by Russell (1891, p. 105), " * * * because this point of land consists of a series of glacial stream terraces."

Terrible Mountain: mountain, 2,200 ft., at SE end of Henderson Ridge on eastern Attu Island, Aleutian Islands; 52° 51' 30" N, 173° 09' 30" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II; shown on an AMS map published in 1948.

Territory of Alexander: state, see Alaska.

Terror Bay: bay, extends S 6.5 miles, off Uganik Passage, SE of Uganik Island, on N coast of Kodiak Island; 57° 46' N, 153° 12' W; BGN 1909; (map 34). Named in 1909 by W. C. Hodgkins, USC&GS.

Terror Lake: lake, 1.8 miles long, 25 miles SW of Kodiak, on N central Kodiak Island; 57° 38' 30" N, 153° 00' 45" W; (map 34). Name derived from Terror Bay and published in 1952 by USGS.

Teschekpuk Lake: lake, see Teshekpak Lake.

Teseerug Lake: lake, see Tusikvoak, Lake.

Teshekpak Lake: lake, 1.8 miles long, 10 miles E of village of Point Hope, Arctic Slope; 68° 21' N, 166° 23' W; (map 129). Variant: Teschekpuk Lake, Teshepak Lake. Eskimo name meaning "big lake" reported in 1956 by Orth.

Teshekpuk Lake: lake, 22 miles across, 12 miles E of Harrison Bay, S of Pitt Point, Arctic Plain; 70° 35' N, 153° 26' W; BGN 1930; (map 148). Variant: Tasekpuk Lake, Tashicpuk Lake, Tasirkpuk Lake, Tasokpoh Lake, Tasyukpun Lake, Teasekpuk Lake, Tesukpuk Lake. Eskimo name recorded on Maguire's chart (Great Britain, 1954, facing p. 186). as Tasokpoh, and reported to mean "big enclosed coastal water" or "big coastal lake." Capt. P. H. Ray's (1885), p. 55). vocabulary lists Tasyukpun, meaning "great enclosed water." According to Leffingwell (1919, p. 100), USGS, Stefansson spells it Tasirkpuk, while Leffingwell himself appears to have established the present-day spelling.

Teshepak Lake: lake, see Teshekpak Lake.

Tessaychaht Angayookangak: lagoon, see Tasaitsat Angayukangak Lagoon.

Tessaychaht: lagoons, see Tasaitsat Lagoons.

Testigos, Los: islands, see Witnesses, The.

Testin, Mount: mountain, see Distin, Mount.

Tesukpuk Lake: lake, see Teshekpuk Lake.

Tetahena River: stream, see Bremner River.

Tetelna: stream, see Indian Creek.

Tetena: stream, see Dadina River.

Tetilesook Creek: stream, flows NNW 7.5 miles to Kobuk River 1 mile SE of its junction with Kallarichuk River, 21 miles NE of Kiana, Brooks Range; 67° 06' N, 159° 43' W; (map 127). Eskimo name obtained in 1955 by U.S. Army Corps of Engineers.

Tetlin Hills: ridge, elev. 3,000 ft., extends 11 miles, E of Tok River, N of Tetlin Lake, 10 miles S. of Tok, Alaska Range; 63° 11' N, 142° 45' W; BGN 1943; (map 85). Variant: Tetling Hills. Local name reported by USGS in 1936.

Tetlin Junction: village, at junction of Alaska and Taylor Highways, 12 miles E of Tok, Yukon-Tanana Highlands; 63° 19' N, 142° 36' W; BGN 1952; (map 85). Variant: Forty Mile, Tetling Center, Tetling Junction. Local name published by USGS in 1951. Named because it marks the junction of two important highways in the Tetlin Indian Reservation.

Tetlin Lake: lake, 8 miles long, in course of Tetlin River, 16 miles S of Tok, Alaska Range; 63° 05' N, 142° 45' W; BGN 1942; (map 85). Variant: Big Tetling Lake, Lake Wagner, Tetling Lake, Wagner Lake. Local name reported in 1936 by USGS. In 1889 Lt. P. G. Lowe, USA, called it "Lake Wagner."

Tetlin River: stream, heads at glacier terminus, flows NE 75 miles to Tanana River, 22 ml. SE of Tok, Alaska Range; 63° 10' N, 142° 24' W; BGN 1942; (map 85). Variant: Bear Creek, Tetling River. Indian name recorded in 1885 as "Telling" by Lt. Allen (1887, p. 78), USA. It was called "Bear Creek" by F. C. Schrader, USGS, because some bears were seen on this stream during his trip in 1902.

Tetlin: village, pop. 122, on Tetlin River, 4.5 miles E of Tetlin Lake and 20 miles SE of Tok, Yukon-Tanana Highlands; 63° 08' N, 142° 31' W; BGN 1942; (map 85). Variant: Tetling, Tetlings, Tetling's Village. Lt. Allen (1887, p. 77) wrote "We reached 'Tetling's June 12, 1885 * * * six men * * * four women, and seven children, occupying two houses situated on a deep, clear stream, the outlet of a lake * * *." Apparently named for the local tyone or chief "Telling." Lt. P. G. Lowe (Glenn and Abercrombie, 1899, p. 370), USA, wrote "On August 29, 1898 we stopped at 'Telling,' and were met by Chief David * * *. 'Tetlings' consists of four log houses * * *." In 1942 at the recommendation of BIA, BGN officially changed the spelling to "Tetlin" to agree with that of the river.

Tetling Center: village, see Tetlin Junction.

Tetling Hills: ridge, see Tetlin Hills.

Tetling Junction: village, see Tetlin Junction.

Tetling Lake: lake, see Tetlin Lake.

Tetling River: stream, see Tetlin River.

Tetling's Village: village, see Tetlin.

Tetling: village, see Tetlin.

Tetlings: village, see Tetlin.

Teton Creek: stream, flows S 1.7 miles to Hutlinana Creek, 20 miles SE of Rampart, Yukon-Tanana Highlands; 65° 15' 30" N, 149° 56' 10" W; (map 105). Named by prospectors; reported in 1906 by USGS.

Tetrakof Point: point of land, on SE coast of Shuyak Island, Kodiak Island; 58° 31' 00" N, 152° 23' 40" W; (map 43). Local name reported in 1952 by USGS.

Tetravun Lakes: lakes, 5 miles E of Venetie and 41 miles SW of Christian, Yukon Flats; 67° 02' N, 146° 17' W; (map 122). Kutcha-kutchin Indian name obtained in 1956 by T. E. Taylor, USGS.

Tetsyeh Lake: lake, 1 mile long, 8 miles SW of Tetsyeh Mountain and 21 miles NE of Arctic Village, Brooks Range; 68° 24' N, 145° 08' W; (map 136). Kutchin Indian name obtained at Arctic Village in 1956 by T. E. Taylor, USGS.

Tetsyeh Mountain: peak, 6,528 ft., 29 miles NE of Arctic Village, Brooks Range; 68° 29' N, 144° 54' W; (map 136). Kutchin Indian name obtained at Arctic Village in 1956 by T. E. Taylor, USGS.

Tetthajik Creek: stream, heads at 66° 46' N, 141° 13' W, flows SW 30 miles to Salmon Fork Black River, 38 miles NW of Midnight Hill, Porcupine Plateau; 66° 31' N, 141° 49'; (map 120). Tranjik-kutchin Indian name; obtained in 1956 by T. E. Taylor, USGS.

Teucher Creek: stream, see Teuchet Creek.

Teuchet Creek: stream, flows NW 10 miles to East Fork Chena River, 60 miles N of Big Delta, Yukon-Tanana Highlands; 64° 59' 30" N, 145° 37' 45" W; (map 101). Variant: Teucher Creek. Prospectors' name derived from the German words "Teichel," or later "Teuchel," meaning "water conduit" or "conduit-pipe"; reported in 1909 by USGS (Capps, 1912, pl. 1).

Teufelsberg: hill, see Devil Mountain.

Texas Creek: stream, flows 3 miles S to Pacific Ocean, 2 miles NE of Kettle Cape, on E coast of Umnak Island, Aleutian Islands; 53° 17' 45" N, 168° 04' 40" W; (map 22). Name published by Byers (1959, pl. 41), USGS.

Texas Creek: stream, flows 3 miles W to Copper Creek NW of its junction with Eagle Creek, 18 miles SE of McCarthy, St. Elias Mountains; 61° 21' N, 142° 26' W; (map 67). Local name reported in 1908 by D. C. Witherspoon (Moffit and Capps, 1911, pl. 2), USGS.

Texas Creek: stream, flows N 11 miles to Yukon River, 33 miles ENE of Tanana, Yukon-Tanana Highlands; 65° 18' N, 151° 00' W; (map 106). Variant: Dickie Creek, Tenos Creek. Local name reported in 1931 by USGS; called "Tenos Creek" by ARC surveyors in 1905.

Texas Creek: stream, flows NE 1.8 miles to Canyon Creek which flows to Casadepaga River, 21 miles NE of Solomon, Seward Peninsula Highlands; 64° 51' N, 164° 25' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Texas Creek: stream, flows NE 3 miles to Fish Creek, 55 miles SW of Eagle, Yukon-Tanana Highlands; 64° 17' N, 142° 40' W; (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Texas Creek: stream, flows NW 3 miles to Troublesome Creek, 16 miles SE of Rampart, Yukon-Tanana Highlands; 65° 25' N, 149° 42' W; (map 105). Named by prospectors; reported in 1908 by USGS (Covert and Ellsworth, 1909). pl. 5).

Texas Creek: stream, heads at confluence of its North and West Forks, flows S 2 miles to Salmon River, 7.5 miles N of Hyder, Coast Mountains; 56° 01' 30" N, 130° 04' 30" W; (map 7). Local name published by Theodore Chapin (in Brooks and others, 1916, p. 95), USGS.

Texas Creek: Stream, heads on Beluga Mountain, flows E 8 miles to Bear Creek, W of Alexander Lake, 45 miles N of Tyonek, Cook Inlet Lowland; 61° 43' 30" N, 150° 57' 30" W; (map 70). Local name reported in 1935 by USGS.

Texas Glacier: glacier, trends E 5 miles to its 1955 terminus at North Fork Texas Creek, 11.5 miles N of Hyder, Coast Mountains; 56° 04' 45" N, 130° 05' 45" W; (map 7). Local name published by Theodore Chapin (in Brooks and others, 1916, p. 95), USGS.

Texas Lake: lake, 0.3 miles across, at head of West Fork Texas Creek, 13 miles NW of Hyder, Coast Mountains; 56° 03' 10" N, 130° 15' 30" W; (map 7). Local name reported in 1928 by USGS.

Texas Star Lake: lake, see Sprucefish Lake.

Tha-ghe-an: stream, see Lost River.

Thadlthamud Lake: lake, see Thadlthamund Lake.

Thadlthamund Lake: lake, 0.8 miles long, SE of Shashamund Lake, 1.2 miles NW of Northway Junction, Yukon-Tanana Highlands; 63° 01' 30" N, 141° 50' 45" W; BGN 1961; (map 85). Indian name meaning "lily pad lake," reported in 1960 by T. E. Taylor, USGS.

Thadlthamund Lake: lake, 1.4 miles long, N of Halthalda Hill, 13 miles W of Northway, Alaska Range; 62° 59' N, 142° 22' W; (map 84). Variant: Thadlthamud Lake. Indian name obtained in 1962 at Tetlin by USGS and reported to mean "lily pads on lake," or possibly "lily pad lake."

Thaghian River: stream, see Lost River.

Thane Mountain: mountain, 3,200 ft., 2 miles W of 1951 terminus of Eagle Glacier and 30 miles NW of Juneau, Coast Mountains; 58° 35' 15" N, 134° 47' 00" W; (map 11). Named about 1902 for Bartlett L. Thane mine superintendent of the Eagle River mine which is located on its southeast slope. The name is no longer in use (DeArmond, 1957 p. 5). See Thane.

Thane: village, pop. 82, 4 miles SE of Juneau on Gastineau Channel and 6 miles NW of Point Salisbury, Coast Mountains; 58° 15' 50" N, 134° 19' 45" W; BGN 1929; (map 11).

Variant: Sheep Creek. Named in 1914 for Bartlett L. Thane, 1878-1927, general manager of the Alaska Gastineau Mining Co. which had its mill here. Bartlett Thane was born in California and went to Alaska in 1897. The name "Sheep Creek," which was the original miners name for the town, was published by USC&GS in the 1901 Coast Pilot but was later changed to "Thane by BGN The town was founded in 1881 as a result of mining operations in the vicinity.

Thanksgiving Creek: stream, flows NE 16 miles to Yukon River, 30 miles SSE of Circle, Yukon-Tanana Highlands; 65° 25' 40" N, 143° 37' 50" W; (map 103). Prospectors' name recorded in 1905 by D. C. Witherspoon (in Prindle, 1906, pl. 1), USGS.

Thanksgiving Creek: stream, flows SE 5.5 miles to Omega Creek 1.2 miles N of that stream's junction with Baker Creek, 27 miles SSW of Rampart. Yukon-Tanana Highlands; 65° 07' 00" N, 150° 20' 30" W; (map 106). Prospectors' name reported in 1904 by USGS (Prindle and Hess, 1906, p. 45). Gold was discovered here in February 1903.

Thanksgiving Ditch: watercourse, flows SE 1 mile, diverts head waters of California, Chicago, and New York Creeks, to Omega Creek. 6.8 miles N of Baker Lake and 27 miles S of Rampart, Yukon-Tanana Highlands; 65° 07' N, 150° 20' W; (map 106). Local name reported in 1963 by USGS.

Thatcher Channel: water passage, 1.5 miles long. between Trader Islands and N coast of Catherine Island, off NE coast of Baranof Island, Alexander Archipelago; 57° 25' 30" N, 134° 53' 00" W; (map 9). Name published by USC&GS in the 1943 Coast Pilot (p. 379). It was probably named for Point Thatcher at the channel's mouth.

Thatcher, Point: point of land, on NE coast of Catherine Island, off NE coast of Baranof Island, Alexander Archipelago; 57° 25' N, 134° 50' W; (map 9). Variant: Coleman Point, Scahkaliakh, Shkaliakh. Named in 1869 by Comdr. R. W. Meade. USN. It was called "Shkaliakh" or "Schkaliakh" by the Tlingit Indians. It is "Point Coleman" on the maps of Homfray, Cartographer of the Western Union Telegraph Expedition 1867 (USC&GS, 1883, p. 167).

Thayer Basin: cirque, at head of Traleika Glacier, in Mount McKinley National Park. on E slope of Mount McKinley, Alaska Range; 62° 04' N, 150° 56' W; BGN 1960; (map 88). Named in 1955 by Bradford Washburn for Elton S. Thayer, NPS ranger, who was the first to cross this basin while climbing South Peak Mount McKinley in May 1954 and who lost his life in the descent.

Thayer Creek: stream, heads in Thayer Lake, flows SW 6 miles to Chatham Strait, on W coast of Admiralty Island, 5.5 miles N of Angoon, Alexander Archipelago; 57° 34' 45" N, 134° 37' 30" W; (map 9). Variant: Poison Creek. Named in 1929 by USFS for John A. Thayer 1896-1929, a junior forester in the USFS. See Thayer Lake.

Thayer Lake: lake, 7 miles long, 10 miles NE of Angoon, on W central Admiralty Island, Alexander Archipelago, 57° 39' N, 134° 29' W; (map 9). Named in 1929 by USFS for John A. Thayer, 1896-1929, a junior forester in the USFS, who was killed by a brown bear on Admiralty Island. John Thayer made a reconnaissance of the timber bordering this lake a few weeks before his death and was the first United States forester to visit the lake.

Thayer Mountain: mountain, 3,890 ft., 5 miles long, on W central Admiralty Island, E of Thayer Lake, 14 miles NE of Angoon, Alexander Archipelago; 57° 41' N, 134° 21' W; (map 9). Local name reported in 1951 by USGS.

Thayer Peak: mountain, 3,550 ft., on W central Admiralty Island, 3 miles N of Thayer Lake and 14.5 miles NNE of Angoon, Alexander Archipelago; 57° 42' 15" N, 134° 30' 00" W; (map 9). Local name reported in 1951 by USGS.

Thazzik Mountain: mountain, 5,600 ft., between Funchion Creek and East Fork Chandalar River, 33 miles SE of Chandalar, Brooks Range; 67° 17' N, 147° 22' W; (map 123). Kutchin Indian name reported in 1956 by T. E. Taylor, USGS.

The Cache: locality, on Crow Creek, 6 miles N of Girdwood and 29 miles SE of Anchorage, Chugach Mountains; 61° 01' 45" N, 149° 07' 10" W; BGN 1932; (map 69). Local name reported in 1932 by W. G. Carson and C. F. Park, USGS, as a place "at the end of the wagon road where supplies are left [cached] for the mines, Girdwood district."

The Forks: locality, at confluence of Nixon and Takotna Rivers, 31 miles SW of Medfra, Kilbuck-Kuskokwim Mountains; 63° 02' N, 155° 40' W; (map 89). Local name reported in 1955 by USGS.

The Forks: locality, at junction of Khotol River and Kaiyuh Slough, 20 miles SE of Nulato, Koyukuk Lowland; 64° 26' N, 157° 57' W; (map 97). Variant: Tlutlertaut. Appears to be a translation of an Indian name; reported in 1935 by Frederica de Laguna, BAE.

The Mission: village, see Russian Mission.

The Redoubt: locality, on W side of Baranof Island, S of Mount Dranishnikov, between Redoubt Bay and Redoubt Lake, 4 miles NE of Goddard, Alexander Archipelago; 56° 53' 15" N, 135° 17' 15" W; (map 5). Variant: Dranishikoff Settlement, Ozerskoy Redut, Seleniye Danishnikova. Previously called "Seleniye Dranishnikova," or "Dranishnikov Settlement," by Lt. Sarichev (1826, map 19), IRN, for Mount Drainishnikof. It was first reported by Capt. Tebenkov (1852, map 38), IRN, as "Ozerskoy Redut," meaning "redoubt lake." It is the site of an abandoned Russian fishery and flour mill (Colby, 1945, p. 175).

The Stone Wall: locality, on W coast of Glass Peninsula, 2 miles SE of Sore Finger Cove, 45 miles S of Juneau, Alexander Archipelago; 57° 42' 00" N, 133° 58' 20" W; (map 8). Local name reported in 1955 by USGS.

The-con-da: stream, see Cooper Creek.

Thekonda: stream, see Camp Creek.

Thekonda: stream, see Cooper Creek.

Theodor Point: point of land, see Theodore, Point.

Theodore Creek: stream, flows SE 20 miles to Anvik River, 17 miles NW of Anvik and 48 miles NW of Holy Cross, Nulato Hills; 62° 45' N, 160° 43' W; (map 78). Local name reported in 1949 by USC&GS.

Theodore Island: island, 3 miles long, in Yukon River, 48 miles NE of Rampart, Yukon Flats; 65° 59' 15" N, 149° 01' 00" W; (map 105). Named for Theodore Hudson, who prospected in the Livengood area.

Theodore Point: point of land, S tip of Attu Island, Aleutian Islands: 52° 45' 10" N, 172° 55' 00" E; BGN 1938; (map 13). Variant: Tubkooch Point. Derived from "Saint Theodore, former name of Attu Island." The name was proposed in 1938 by U.S. Navy Hydrog. Office; published in 1943 by AMS. Shown as "Tubkooch Point" on a manuscript map by L. M. Turner in the 1880's.

Theodore Ridge: ridge, elev. 1,000-2,500 ft., on S coast of Attu Island, extends N 6 miles from Theodore Point, Aleutian Islands; 52° 47' 30" N, 172° 56' 00" E; (map 13). Name derived from Theodore Point; published in 1948 by AMS.

Theodore River: stream, flows SE 35 miles to Cook Inlet, 32 miles W of Anchorage, Cook Inlet Lowland; 61° 13' 45" N, 150° 49' 50" W; (map 70). Local name reported in 1898 by USGS.

Theodore, Point: point of land, S tip of Yakobi Island, off W coast of Chichagof Island, 19 miles NW of Chichagof, Alexander Archipelago; 57° 50' 50" N, 136° 27' 30" W; (map 9). Variant: Theodor Point. Named in 1879 by W. H. Dall, USC&GS, for Capt. Urey Theodorovich Lisianski, Russian navigator, who explored these waters and was the first to make detailed charts of this region, 1804-05.

Theresa Creek: stream, flows SW 6.7 miles to Independence Creek in Kugruk River basin, 22 miles E of Imuruk Lake, Seward Peninsula Highlands; 65° 34' N, 162° 25' W; (map 110). Prospectors' name reported in 1903 by D. C. Witherspoon (in Moffit, 1905, pl. 2), USGS.

Thetis Bay: bay, 1 mile across, at S end of Tebenkof Bay, on W coast of Kuiu Island, Alexander Archipelago; 56° 24' 00" N, 134° 08' 30" W; BGN 1929; (map 5). Named in 1928 by USC&GS for USRCS ship Thetis, in which Adm. Stockton, USN, made explorations in Alaska in 1889.

Thetis Creek: stream, flows NW 19 miles to Chukchi Sea 7 miles W of Cape Sabine, 43 miles NW of Mount Kelly, Arctic Slope, 68° 53' 30" N, 164° 54' 00" W; (map 130). Variant: Eegik-kah-Lik Creek, Igikalik Creek. So named in 1901 by Schrader (1904, p. 111). and W. J. Peters, USGS, "because the Thetis Coal Mine is near its mouth." The Thetis Coal Mine was named about 1889 for the U.S.S. Thetis. The Eskimo name for this stream is "Igikalik" which is said, by USC&GS, to refer to the "black cormorant."

Thetis Creek: stream, flows SE to Anikovik River, about 15 miles SE of Cape Prince of Wales, Seward Peninsula Highlands; (map 111). Prospectors' name shown on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This feature cannot be precisely identified on current maps.

Thetis Island: barrier island, 1.5 miles long, on coast of Beaufort Sea, the W island of the Jones Islands, Arctic Plain; 70° 33' 25" N, 150° 10' 00" W; (map 149). Variant: Amandliktok Island, Amaudliktok Island, West Thetis Island. In 1889 the revenue cutter U.S.S. Thetis under command of Capt. Charles H. Stockton, USN, "skirted along some long, low islands, which stretched between the mouth of the Colville and Return Reef. These islands, * * * [he] designated the Thetis Islands" (Leffingwell, 1919, p. 100). Because these islands had previously been discovered and named "Jones Islands" by Dease and Simpson in 1837, Leffingwell applied the name "Thetis" to the unnamed western island of this chain of barrier islands (p. 91). Leffingwell (p. 100) reports the Eskimo name "Amaudliktok," meaning perhaps "Pacific eider," but spells it "Amandliktok" on his map. He further reports the whalers call this "West Thetis Island."

Thetis Islands: barrier islands, see Jones Islands.

Thetis Mound: pingo, elev. 36 ft., 4 miles SE of Oliktok Point and 13 miles W of Beechey Point, Arctic Plain; 70° 28' 25" N, 149° 43' 30" W; (map 150). Named and used as a triangulation station by Leffingwell (1919, p. 41), USGS, in 1911.

Thetis Ridge: ridge, 1,462 ft., trends NE-SE 7 miles, 15 miles S of Cape Sabine and 60 miles NE of Point Hope, Arctic Slope; 68° 42' N, 164° 43' W; [NW end] 68° 38' N, 164 31' W; [SE end]; BGN 1965; (map 130). Named in 1965 by geologists of the B.P. Exploration Co. Inc., for the U.S.S. Thetis, which coaled on the coast near here in the 1880's.

Thicket Creek: stream, flows NW 5 miles to Tatonduk River 4 miles ENE of that stream's junction with Yukon River and 16 miles N of Eagle, Porcupine Plateau; 65° 01' 15" N, 141° 12' 30" W; (map 103). So named in 1930 by J. B. Mertie, Jr., USGS, because "its valley was filled with underbrush from source to mouth."

Thief Creek: stream, flows W 3.5 miles to Wells Creek, 40 miles SE of Healy, Alaska Range; 63° 27' 15" N, 148° 05' 00" W; (map 87). Local name obtained in 1913 by J. W. Bagley, USGS; published by Moffit (1915, pl. 1), USGS.

Thiel Glacier: glacier, heads at 58° 41' N, 134° 45' W trends 7 miles NE to Battle Glacier, 2.5 miles NE of Horn Spire and 31 miles N of Juneau, Coast Mountains; 58° 44' 30" N, 134° 34' 30" W; BGN 1965; (map 11). Variant: Reversed Glacier. Named by members of the Juneau Icefield Research Project in 1964 for Edward Thiel, 1928-61, glaciologist and geophysicist. He received his Ph.D. from Univ. of Wisconsin in 1955. Thiel was chief seismologist with the Arctic Institute of North America and co-leader of the Fletcher Ice Shelf Traverse in Antarctica. He was chief scientist for Antarctic airborne geophysical operations as well as assistant professor of geophysics at the Univ. of Minnesota.

Thiel Pass: pass, W of McNew Hill, on eastern Attu Island, Aleutian Islands; 52° 50' 50" N, 173° 22'+ 00" W; (map 13). Name shown on an AMS map published in 1948, and given by the U.S. Army during World War II.

Thimble Cove: cove, 1,200 ft. across, on E coast of Baker Island, N of Amarilla Point, Alexander Archipelago; 55° 18' 45" N, 133° 34' 40" W; (map 4). Descriptive name given in 1923 by USC&GS because of "its shape, the outline being remarkably perfect."

Thimbleberry Bay: bay, 0.6 miles across, 2.5 miles SE of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 02' N, 135° 16' W; (map 9). Local name reported in 1954 by R. N. DeArmond. Thimbleberry is the common name of plants belonging to the genus *Rubus*, which have thimble-shaped fruits, such as raspberries and blackberries.

Thimbleberry Lake: lake, 0.2 miles across, 3 miles E of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 02' 30" N, 135° 15' 00" W; (map 9). Local name derived from Thimbleberry Bay and reported in 1954 by R. N. DeArmond.

Thin Point: locality, on Thin Point, at SW end of Alaska Peninsula, Aleutian Range; 54° 57' N, 162° 33' W; (map 25). Former cannery; reported in 1898 by Lt. Comdr. J. F. Moser (1899a, p. 171), USN.

Thin Point: point of land, W point of entrance to Cold Bay, on S coast of Alaska Peninsula, Aleutian Range; 54° 57' 30" N, 162° 33' 30" W; (map 25). Variant: Cape Tonkoy, Mys Tonkoi, Slim Point, Tonki Point. Translation of "M[ys] Tonkoi" published by Capt. Tebenkov (1852, map 24), IRN; called "Slim Point" and "Cape Tonkoy" by USBF in 1888.

Thinpoint Cove: bay, 4 miles across, 30 miles E of False Pass, between Morzhovoi and Cold Bays, on SW end of Aleutian Range; 54° 58' N, 162° 40' W; (map 25). Variant: Thin Point Cove. Name derived from Thin Point and published in 1912 by USC&GS.

Thinpoint Lagoon: lake, see Thinpoint Lake.

Thinpoint Lake: lake, 3 miles long, 10 miles S of village of Cold Boy, at SW end of Alaska Peninsula, Aleutian Range; 55° 02' N, 162° 38' W; (map 29). Variant: Thinpoint Lagoon. Name published by USC&GS in 1943 on Chart 8860.

Third Berg Lake: lake, 3 miles across, at 1905 terminus of Bering Glacier, 3 miles E of Doughton Peak and 66 miles E of Cordova, Chugach Mountains; 60° 25' N, 143° 49' W; (map 65). Variant: Third Lake. Local name reported in 1905 by G. C. Martin (1908, pl. 2), USGS. This lake was originally one of five Berg Lakes. As a result of the retreat of Steller and Bering Glaciers in recent times, Third Berg Lake and Second Berg Lake have joined with First Berg Lake to form Berg Lake.

Third Creek: stream, flows NW 14 miles to Reindeer Cove, 16 miles SW of Christmas Mountain, Nulato Hills; 64° 30' N, 161° 05' W; (map 96). Local name reported about 1954 by U.S. Army Corps of Engineers.

Third Kekoor: rock, see Third Kekur.

Third Kekour: rock, see Third Kekur.

Third Kekur: rock, 0.2 miles across, 22 miles NW of village of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 29' 15" N, 135° 01' 15" W; (map 5). Variant: Third Kekour. Descriptive name meaning "pinnacle rock" given in 1849 by the Russian American Company. See Kekur Island.

Third Lake: lake, 1 mile long, on Revillagigedo Island, N of Throne Arm, in course of Fish Creek, Alexander Archipelago; 55° 26' 30" N, 131° 16' 45" W; (map 3). Local name reported in 1955 by USGS.

Third Lake: lake, 1,700 ft. long, 2 miles NW of Tyonek, Cook Inlet Lowland; 61° 05' 30" N, 151° 10' 30" W; (map 70). Local name reported in 1958 by USGS. So named because it is the third lake in a chain of lakes which extend NW from Tyonek.

Third Lake: lake, one of Chenan Lakes, 0.5 miles long, 3 miles N of Chitina and 67 miles NNE of Valdez, Chugach Mountains; 61° 33' 50" N, 144° 26' 40" W; (map 68). Local name published in the 1950's by USGS.

Third Lake: lake, see Berg Lake.

Third Lake: lake, see Luke Lake.

Third Lake: lake, see Talbot Lake.

Third Lake: lake, see Third Berg Lake.

Third Pup: stream, flows NW 2 miles to Flat Creek, 41 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 12' 30" N, 146° 41' 00" W; (map 104). Named "3rd Pup" by prospectors; reported in 1907 by Covert (Henshaw and Covert, 1908, pl. 9). See First Pup and Second Pup.

Third Range: mountain range, 4,500 ft., extends W 18 miles from Sadlerochit River, between Ikiakpuk and Ikiakpaurak Valleys, 26 miles NW of Mount Michelson, Brooks Range; 69° 26' N, 145° 30' W; BGN 1961; (map 139). Leffingwell (1919, p. 50). wrote, "of the three outlying ranges south of Camden Bay * * * the southern most range is simply called the Third Range."

Thirteen Gulch: ravine, trends SE 1.5 miles to Fourth of July Creek 6.5 miles SW of that stream's junction with Yukon River and 33 miles NW of Eagle, Yukon-Tanana Highlands; 65° 07' 46" N, 141° 59' 45" W; (map 103). Local name published in 1956 by USGS.

Thirteen Pup: ravine, extends NE 2.5 miles to Quail Creek, 13 miles SE of Rampart, Yukon. Tanana Highlands; 65° 22' N, 149° 53' W, (map 105). Local name published by USGS in the 1950's.

Thirteen Pup: stream, flows SE 1.5 miles to Grant Creek, 3.2 miles SSE of Grant Dome and 22 miles WNW of Tanana, Kokrines-Hodzana Highlands 65° 15' 30" N, 152° 48' 30" W; (map 106). Prospectors' name reported in 1956 by R. M. Chapman, USGS.

Thirty-Seven Hill: hill, 650 ft., on Attu Island, W of Navy Town, on N bank of Peaceful River, Aleutian Islands; 52° 50' 43" N, 173° 09' 10" E; (map 13). Named by U.S. Army during World War II: published in 1948 by AMS.

Thirty-three Creek: stream, flows E 4 miles to Marsh Creek, N of Fort Glenn, on NE coast of Umnak Island, Aleutian Islands; 53° 25' 05" N, 167° 51' 25" W; (map 23). Name published in 1958 on AMS map and later by USGS (Byers, 1959, pl. 41).

Thirteight Mile Lake: lake, 0.9 miles long, drains W to Fish Creek Lake, 17 miles SSW of village of Lake Minchumina, Tanana Lowland; 63° 41' 30" N, 152° 38' 00" W; (map 88). Variant: Shesrghoyemena. Local name reported in 1958 by USGS. "Sherghoyemena" is a Tanana Indian name meaning "lake where bear was killed."

Thirtymile Lake: lake, 0.5 miles long, on Glenn Highway, 20 miles NE of Palmer, Talkeetna Mountains; 61° 45' 45" N, 148° 34' 40" W; (map 69). Local name reported in 1942 by AMS.

Thirtymile River: stream, see Eureka Creek.

Thirtymile Roadhouse: locality, see Piledriver Roadhouse.

Thirtytwo Kazim Slough: watercourse, see Thirtytwo Kazyga Slough.

Thirtytwo Kazyga Slough: watercourse, 7 miles long, channel of Yukon River W of Grand Island and 12 miles SW of Russian Mission, Yukon-Kuskokwim Delta; 61° 38' 30" N, 161° 32' 00" W; (map 73). Variant: Thirtytwo Kazim Slough. This name is first mentioned in Hrdlicka's (1943, p. 67). diary on July 7, 1926. A USC&GS report of 1949 states "so called because an old village of 32 kazygas (native dwelling) was thought to have been located here. Repeated searches by anthropologists have failed to turn up any trace."

Thirtytwo Mile Creek: stream, heads on Twentynine Mile Ridge, flows NE to Hadweenzic River, 29 miles N of Beaver, Yukon Flats; 66° 46' 30" N, 147° 13' 40" W; (map 118). Local name obtained in 1956 by USGS name derived from the distance to Beaver via a year-round trail.

Thistle Cove: cove, 1.2 miles long, on NE side of Astrolabe Peninsula, at N end of Dixon Harbor 55 miles NW of Hoonah, St. Elias Mountains; 58° 22' N, 136° 52' W; (map 10). Name published in 1923 on IBC Sheet 10 (1951 atlas).

Thistle Creek: Stream, flows E 1.5 miles to Star Creek in Pargon River basin, 12 miles N of Council and 16 miles SE of Mount Bendeleben, Seward Peninsula Highlands; 65° 04' N, 163° 37' W; (map 110). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Thistle Creek: stream, flows N 6 miles to Totatlanika River, 17 miles NE of Healy, Alaska Range; 63° 59' 15" N, 148° 31' 00" W; (map 87). Local name reported in 1910 by J. W. Bagley (in Capps, 1912, pl. 2), USGS.

Thistle Creek: stream, flows W 3 miles to Feather River, 34 miles NW of Nome, Seward Peninsula Highlands; 64° 51' N, 166° 14' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Thistle Ledge: shoal, off E shore of Stephens Passage, 1.4 miles N of Point Lookout and 50 miles SE of Juneau, Coast Mountains; 57° 40' 20" N, 133° 40' 45" W; (map 8). Discovered and named in 1893 by Otto J Klotz for his steamer the SS Thistle. The name was published in 1895 by USC&GS.

Thistle Rock: island, 0.1 miles across, in N end of Lord Islands, at mouth of Nakat Bay, Coast Mountains; 54° 44' 55" N, 130° 48' 15" W; (map 2). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Thistle Rock: rock, in Spiridon Bay 3.6 miles W of Anguk Island, on NW coast of Kodiak Island; 57° 39' 25" N, 153° 48' 00" W; BGN 1930; (map 34). Descriptive name given in 1929, by USC&GS, because of "the barrenness of rock and puncturing possibilities to ships * * *"

Thlewhakh: village, see Klawock.

Thlikhahdaluk: lake, 0.7 miles across, 13 miles N of Okstukuk Lake and 48 miles N of Dillingham, Bristol Bay Lowland; 59° 43' N, 158° 21' W; (map 2). Eskimo name shown as "Thlik-hah-da-luk" on a 1910 manuscript map by H. C. Fassett, USBF.

Thlingit Point: point of land, see Tlingit Point.

Thluichohnjik Creek: stream, flows E 20 miles to Sheenjek River 24 miles NE of Christian, Yukon Flats; 67° 26' N, 144° 14' W; (map 122). Kutcha-kutchin Indian name obtained in 1956 by T. E. Taylor, USGS.

Thomas Basin: harbor, SE of Ketchikan Harbor, on S coast of Revillagigedo Island, Alexander Archipelago; 55° 20' 20" N, 131° 38' 30" W; (map 3). Local name published in the 1932 Coast Pilot (p. 102).

Thomas Bay: bay, extends SW 10 miles from Baird Glacier to Frederick Sound, 14 miles N of Petersburg, Coast Mountains; 57° 00' 30" N, 132° 59' 00" W; (map 6). Named by USC&GS for charting purposes; published in 1925 Coast Pilot (p. 211).

Thomas Bay: estuary, see Clover Bay.

Thomas Bay: estuary, see Culross Bay.

Thomas Creek: stream, flows E 5.5 miles to Birch Creek, 46 miles SW of Circle, Yukon-Tanana Highlands; 65° 18' 40" N, 145° 01' 40" W; (map 104). Named by prospectors and reported in 1905 by D. C. Witherspoon (in Prindle, 1906, pl. 1), USGS.

Thomas Creek: stream, flows SE 2 miles to Candle Creek, 9.5 miles SW of Candle and 34 miles NE of Imuruk Lake, Seward Peninsula Highlands; 65° 48' N, 162° 05' W; (map 110). Prospectors' name reported in 1903 by D.C. Witherspoon (in Moffit, 1905, pl. 2), USGS.

Thomas Creek: stream, flows SW to Goodhope River, about 24 miles NW of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name reported in 1901 by USGS (Collier, 1902, pl. 12). This stream cannot be identified on current maps.

Thomas Island: island, 1,700 ft. long, in Helm Bay, on E coast of Cleveland Peninsula, Alexander Archipelago; 55° 37' 10" N, 131° 56' 45" W; (map 3). Local navigators' name obtained in 1904 by H. C. Fassett, USBF.

Thomas Rock: rock, between Afognak and Kupreanof Straits, M of Kodiak Island; 57° 58' 10" N, 152° 56' 20" W; (map 34). Local name reported in 1900 by Lt. Comdr. Moser, USN, of the USBF steamer Albatross.

Thomas, Mount: mountain, 4,350 ft., 2 miles NNW of Potato Point and 15 miles WSW of Valdez, Chugach Mountains; 61° 05' 00" N, 146° 43' 00" W; (map 68). Named in 1898 by Capt. W. R. Abercrombie, USA, presumably for Gen. G. H. Thomas, USA.

Thompson Creek: stream, flows N to Arctic River, about 5 miles E of Ear Mountain and 45 miles NE of Teller, Seward Peninsula Highlands; (map 111). Prospectors' name reported on a precinct map of Seward Peninsula gold fields by Monroe and Hutchins, corrected up to June 1903 by Arthur Gibson. This feature cannot be precisely identified on current maps.

Thompson Creek: stream, flows NE 1 mile to Snake River, 8 miles NW of Nome, Seward Peninsula Highlands; 64° 37' N, 165° 29' W; (map 94). Prospectors' name shown on a 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Thompson Creek: stream, flows NE 3 miles to Grand Central River, 31 miles NE of Nome, Seward Peninsula Highlands; 64° 57' N, 165° 11' W; (map 94). Prospectors' name reported in 1906 by USGS.

Thompson Creek: stream, flows NW 1.5 miles, joins Quartz Creek to form Stewart River, 23 miles NE of Nome, Seward Peninsula Highlands; 64° 50' N, 165° 19' W; Variant: Thomson Creek. Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Thompson Creek: stream, flows SE 1 mile to Klokerblok River, 0.5 miles E of Spruce Creek and 22 miles NE of Solomon, Seward Peninsula Highlands; 64° 40' 50" N, 163° 44' 45" W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Thompson Creek: stream, flows SE 2 miles to Walker Fork, 53 miles SW of Eagle, Yukon-Tanana Highlands; 64° 03' 15" N, 141° 24' 30" W; (map 102). Named by prospectors and shown on an 1898 manuscript map by E. F. Ball, prospector.

Thompson Creek: stream, flows SE 45 miles to Yukon River, 29 miles N of Anvik and 61 miles SE of Unalakleet, Nulato Hills; 63° 06' N, 159° 48' W; (map 91). Named about 1916 after Thompson Landing at the stream's mouth.

Thompson Creek: stream, flows SE 6 miles to Chignik Bay, 11 miles N of Chignik, on Alaska Peninsula, Aleutian Range; 56° 27' N, 158° 25' W; (map 30). Local name reported in 1904 by R. W. Stone, USGS.

Thompson Creek: stream, flows SW 6 miles to Breving Lagoon, 14 miles NW of Teller, Seward Peninsula Highlands; 65° 22' N, 166° 45' W; (map 111). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Thompson Creek: stream, see Shaw Creek.

Thompson Island: island, see Galankin Island.

Thompson Lake: lake, 0.5 miles long, drains E to Indian Creek 1 mile N of that stream's junction with Tanana River and 5.5 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 12' N, 145° 42' W; (map 101). Local name published in 1951 by USGS.

Thompson Landing: locality, on right bank of Yukon River at mouth of Thompson Creek, Nulato Hills; 63° 06' N, 159° 48' W; (map 91). Riverboat landing and trading post name published in 1916 Polk's Gazetteer.

Thompson Pass: pass, 2,771 ft., 0.3 miles long, on Richardson Highway, at head of Ptarmigan Creek, 3.2 miles NE of Wortmanns and 18 miles E of Valdez, Chugach Mountains; 61° 07' 45" N, 145° 43' 45" W; (map 68). Variant: Thomson Pass. Named in 1898 by Capt. Abercrombie (1899, p. 302), USA, "in compliment to Hon. Frank Thomson, of Pennsylvania." He spells the name "Thompson" on his map and it is this form that survived.

Thompson Passage: water passage, 4 miles long, through a group of offshore islands, E of Eureka Channel, on SW coast of Prince of Wales Island, Alexander Archipelago; 54° 46' 00" N, 132° 20' 30" W; (map 1). Local name reported in 1951 by USGS.

Thompson Ridge: ridge, extends E 17 miles from Tana Glacier, 8 miles S of Granite Range and 43 miles N of Cape Yakataga, Chugach Mountains; 60° 42' N, 142° 25' W; BGN 1960; (map 65). Named in 1960 by USGS for J. B. Thompson, a prospector who, with J. B. Miller, went from Cape Yakataga across the glaciers to Granite Creek and returned the same way in 1906 or 1907.

Thompson Valley: valley, trends SE 6 miles to Chignik Bay, 11 miles N of Chignik, on Alaska Peninsula, Aleutian Range; 56° 27' N, 158° 25' W; (map 30). Local name reported in 1908 by W. W. Atwood, USGS.

Thompson, Cape: point of land, N tip of Big Koniuji Island, in Shumagin Islands, Aleutian Range; 55° 15' N, 159° 31' W; (map 27). Named by W. H. Dall, USC&GS, in 1880 and published in 1888 on USC&GS Chart 806.

Thompson, Cape: promontory, on Chukchi Sea coast, 26 miles SE of Point Hope, Arctic Slope; 68° 08' 40" N, 165° 58' 40" W; BGN 1963; (map 129). Variant: Eebruligorruk, Cape Ricord, Ipnot, Mys Rikord, Mys Rikorda, Uivaq Qanitoq, Unukpay, Unuqpay, Webuk Konikto. Named by Capt. Beechey (1831, p. 262), RN, who wrote on August 2, 1886, "we closed with a high cape, which I named after Mr. Deas Thomson, one of the commissioners of the navy." Beechey spelled the name "Thompson" on his chart, a form that has been copied by succeeding cartographers. An early Eskimo name for the cape was "Uivaq," generally spelled "Wevuk" or "Wevok." Cape Thompson was often referred to as "Uivaq Qanitoq," meaning "near cape," as opposed to "Uivaq Ungasiktoq" (Cape Lisburne). meaning "distant cape." This cape was discovered by the Russians in the late eighteenth century and was called by them "M[ys] Rikord," i.e. "Cape Rikord," for Peter Ivanovich Rikord, 1776-1855, IRN, Governor of Kamchatka, 1817-22.

Thompson, Point: point of land, on Beaufort Sea Coast, at W entrance to Lion Bay, 2.5 miles SW of Flaxman Island, Arctic Plain; 70° 11' 15" N, 146° 19' 45" W; (map 151). Variant: Point

Thomson, Thomson Point. Named "Point Thomson" by Franklin (1828, p. 152). August 7, 1826, but appears on his map as "Point Thompson."

Thompson: area, in S Anchorage 1 mile SSW of City Hall, Cook Inlet Lowland; 61° 12' 15" N, 149° 53' 45" W; (map 69). Residential district in city of Anchorage reported in 1954 by office of city engineer of Anchorage.

Thoms (Aw-aw): lake, see Thoms Lake.

Thoms Creek: stream, heads in Thoms Lake, flows SE 4.5 miles to Thoms Place, on S coast of Wrangell Island, Alexander Archipelago; 56° 11' 00" N, 132° 08' 45" W; (map 6). Variant: Aw-aw Creek, Old Village Stream. Local name reported in 1901 by Lt. Comdr. J. F. Moser, USN, who, in 1897, called it "Old Village Stream."

Thoms Lake: lake, 1.5 miles long, on SW coast of Wrangell Island, 18 miles SSE of Wrangell, Alexander Archipelago; 56° 14' N, 132° 15' W; (map 6). Variant: Aw-aw Lake, Thoms (Aw-aw). Local name reported in 1900 by Lt. Comdr. J. F. Moser, USN, as "Thoms (Aw-aw)." This is probably derived from the Tlingit Indian word "ah" meaning "lake."

Thoms Place: bay, extends SE 2 miles to Zimovia Strait, 24 miles SE of Wrangell, on S coast of Wrangell Island, Alexander Archipelago; 56° 09' 30" N, 132° 07' 00" W; (map 6). Local name reported in 1900 by Lt. Comdr. J. F. Moser, USN.

Thoms Point: point of land, southernmost tip of Wrangell Island, Alexander Archipelago; 56° 07' 00" N, 132° 04' 15" W; (map 6). Variant: Thorns Point. Local name recorded in 1948 by USGS.

Thomson Creek: stream, see Thompson Creek.

Thomson Pass: pass, see Thompson Pass.

Thomson Point: point of land, see Thompson Point.

Thorne Arm: estuary, extends NE 14 miles off Revillagigedo Channel, on S coast of Revillagigedo Island, Alexander Archipelago; 55° 14' N; 131° 21' W; (map 3). Named in 1880 by USC&GS for Capt. Charles Thorne, commander of the steamer California which explored this area (U.S. Coast and Geodetic Survey, 1883, p. 77).

Thorne Bay: estuary, extends NW 6.5 miles off Clarence Strait, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 41' N, 132° 27' W; (map 4). Named in 1891 after Frank Manley Thorn, Superintendent of USC&GS from 1885 to 1889; misspelled when published.

Thorne Bay: locality, on Thorne Bay, E coast of Prince of Wales Island, 12 miles NNW of Kasaan, Alexander Archipelago; 54° 41' N, 132° 31' W; (map 3). Logging camp reported in 1960.

Thorne Head: point of land, on E coast of Prince of Wales Island, N point of entrance to entrance to Thorne Bay, Alexander Archipelago; 55° 41' 00" N, 132° 27' 30" W; (map 4). Named by local fishermen and reported in 1904 by H. C. Fassett, USBF.

Thorne Island: island, 4 miles long, between Kashevarof and Whale Passages, on NE coast of Prince of Wales Island, Alexander Archipelago; 56° 05' N, 133° 02' W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow USN, for Frank Manley Thorn, Superintendent of USC&GS 1885-89.

Thorne Lake: lake, 1.5 miles long, on Thorne River, central Prince of Wales Island, Alexander Archipelago; 55° 46' N, 132° 46' W; BGN 1935; (map 4). Named in 1935 by USC&GS for Frank Manley Thorn (erroneously spelled Thorne when published), superintendent of USC&GS from 1885 to 1889.

Thorne River: stream, heads in lake, on Prince of Wales Island and flows SE 15 miles to Thorne Bay, Alexander Archipelago; 55° 42' N, 132° 35' W; (map 4). Local name reported in 1949 by USGS. See Thorne Bay.

Thorns Point: point of land, see Thoms Point.

Thornton Mountain: mountain, 2,608 ft., 5.7 miles E of Point Higgins, on Revillagigedo Island, Alexander Archipelago; 55° 27' N, 131° 41' W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Thorofare Pass: pass, 3,800 ft., in Mount McKinley National Park, S of Denali Highway, 1.6 miles ENE of Eielson Visitor Center, Alaska Range; 63° 26' 20" N, 150° 15' 30" W; (map 88). Descriptive name shown on a 1916 field sheet by C. E. Giffin, USGS.

Thorofare River: stream, in Mount McKinley National Park, flows W 16 miles from sunset Glacier terminus to McKinley River, 6 miles SW of Wonder Lake, Alaska Range; 63° 25' N, 150° 42' W; BGN 1932; (map 88). Shown on a 1921 field map of Mount McKinley National Park. So named because the stream's "valley has been an important caribou thorofare."

Thoroughfare Creek: stream, flows S 8 miles to Portage Creek, 34 miles SW of Cantwell. Talkeetna Mountains; 62° 55' 20" N, 149° 10' 40" W; (map 82). Local name recorded in 1950 by USGS.

Thoroughfare Mountain: mountain, 4,170 ft. SE of Dead Branch Norris Glacier, 5 miles NW of Scow Cove on Taku Inlet and 8 miles NE of Juneau, Coast Mountains; 58° 22' 00" N, 134° 14' 30" W; (map 11). Local name published by USGS in 1962.

Thoroughfare, The: ridge, 6.2 miles long, extends NE from Martin Peak to Mount Thoroughfare, 10 miles NE of Juneau, Coast Mountains; 58° 22' N, 134° 15' W; (map 11). Local name reported by D. A. Brew and A. B. Ford, USGS, in 1965.

Thorpe Creek: stream, flows NW 1 mile to Casadepaga River, 24 miles NE of Solomon, Seward Peninsula Highlands; 64° 53' 20" N, 164° 12' 30" W; (map 95). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr. Dated 1901.

Thors Pond: lake, 800 ft. long, 20 miles SE of junction of Copper and Slana Rivers, Wrangell Mountains; 62° 34' N, 143° 25' W; (map 84). Local name reported in 1965 by Arthur Gervais, USGS.

Thorsen Mountain: mountain, 1,110 ft., 3 miles S of Red Mountain and 24 miles NE of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 54' 30" N, 161° 45' 10" W; BGN 1938; (map 39). Named by local miners and prospectors for one of the discoverers of the platinum placers of this district. Name published in 1933 by the U.S. Dept. of the Interior.

Thothendig: stream, see Delta River.

Thousand Flowers Point: point of land, see Miliflores, Point.

Three Arm Bay: bay, 1 mile across, includes North, Middle, and South Arms, on W coast of Adak Island, Aleutian Islands; 51° 45' 20" N, 176° 53' 00" W; BGN 1936; (map 17). Variant: West Bay. Descriptive name given by Lt. William Gibson, USN, commander of the schooner Fenimore Cooper, during the North Pacific Exploring Expedition in 1855.

Three Arm Bay: cove, see Steller Cove.

Three Bay Lake: lake, see Stormy Lake.

Three Brothers: rocks, three, extend 1,200 ft. near NW entrance to Narrow Strait, 1.2 miles E, of Shakmanof Point, N of Kodiak Island; 57° 55' 30" N, 152° 33' 00" W; (map 34). Variant: Kamen Tri Brata, Tre Brata. Partial translation of the name "K[amen] Tri Brata," meaning "three brothers rocks," given by Sub-Lt. Mikhail Murashev in 1839 or 1840 and published in 1849 on Russian Hydrog. Dept. Chart 1425.

Three Castle Mountain: mountain, 5 miles W of Alaska-Canada boundary and 28 miles N of Eagle, Porcupine Plateau; 65° 12' N, 141° 11' W; (map 103). So named in 1930 by J. B. Mertie, Jr., USGS, because of "a group of pinnacles along the ridge * * *."

Three Day Slough: stream, anabranch of Koyukuk River, 46 miles long, 27 miles SW of Roundabout Mountain, Koyukuk Lowland; 65° 29' N, 157° 30' W; (map 108). Local name obtained at Huslia by USGS in 1954 or 1955.

Three Domes, The: hills, 1,000 ft., extends N-S 10 miles, 20 miles NW of Anvik, Nulato Hills; 62° 52' N, 160° 36' W; (map 78). Local descriptive name reported in 1949 by USC&GS.

Three Entrance Bay: cove, 0.5 miles across, 5.5 miles SW of Sitka, on W coast of Baranof Island, Alexander Archipelago; 56° 58' 40" N, 135° 22' 40" W; (map 6). Local fishermen's name reported in 1947 by USC&GS.

Three Forks: locality, junction of Knife and Windy Creeks with River Lethe, on Alaska Peninsula, Katmai National Monument, 16 miles NW of Mount Katmai, Aleutian Range; 58° 22' 25" N, 155° 22' 00" W; (map 42). Local name published in 1919 by R. F. Griggs, National Geographic Society.

Three Hill Island: island, 1.7 miles long, in Cross Sound, off N coast of Chichagof Island, 0.8 miles NW of Point Lucan, 35 miles W of Hoonah, Alexander Archipelago; 58° 10' N, 136° 22' W; (map 10). Descriptive name given by W. H. Dall, USC&GS, in 1880, "because the island

consists of three high hills united by low isthmuses" (U.S. Coast and Geodetic Survey, 1883, p. 187).

Three Hole Bay: bay, 2 miles wide, on W coast of Aialik Peninsula, 5 miles NW of Aialik Cape, 26 miles SW of Seward, Chugach Mountains; 59° 45' N, 149° 38' W; BGN 1911; (map 49). Named in 1909 by U. S. Grant, USGS, "for the three prominent natural arches there."

Three Hole Point: point of land, on W coast of Aialik Peninsula at Three Hole Bay, 25 miles SW of Seward, Chugach Mountains; 59° 45' 50" N, 149° 38' 30" W; BGN 1911; (map 49). Named in 1909 by U. S. Grant, USGS. See Three Hole Bay.

Three Island Bay: bay, 1.5 miles across and 5 miles deep, SE coast of Unalaska Island, Aleutian Islands; 53° 33' N, 166° 38' W; (map 23). Descriptive name given in 1888 by USBF.

Three Islands: islands, each 200 ft. long, in Clarence Strait, on SW coast of Cleveland Peninsula, Alexander Archipelago; 55° 42' 10" N, 132° 14' 00" W; (map 4). Local descriptive name recorded in 1951 I by USGS.

Three Lakes: lakes, 4 miles SW of Birch Creek (locality), 30 miles SW of Fort Yukon, Yukon Flats; 66° 13' N, 145° 50' W; (map 119). Local name obtained in 1956 by USGS.

Three Mile Bay: cove, 0.4 miles wide, on S shore of Orca Inlet, 3 miles SW of Cordova, Chugach Mountains; 60° 31' N, 145° 48' W; BGN 1961; (map 64). Local name reported in 1960 by USFS. So called because it is three miles from Cordova.

Three Mouth Creek: watercourse, see Steamboat Slough.

Three Pillar Cape: point of land, see Three Pillar Point.

Three Pillar Point: point of land, on E shore of Sharatin Bay, 12 miles NW of Kodiak, N coast of Kodiak Island; 57° 51' 10" N, 152° 42' 50" W; BGN 1966; (map 34). Variant: Mys Trekh Kekurnyy, Three Pillar Cape, Threepillar Point, Trekh Kekurnie. Translation of the name "M[ys] Trekh Kekurnyy" given by Sub-Lt. Mikhail Murashev in 1839 or 1840 and published in 1849 an Russian Hydrog. Dept. Chart 1425.

Three River Mountain: mountain, 6,140 ft., 7 miles across, at heads of John, Anaktuvuk, and North Fork Koyukuk Rivers, 6 miles S of Anaktuvuk Pass, Brooks Range; 68° 04' N, 151° 38' W; BGN 1933; (map 134). Reported by Robert Marshall, after his 1930 trip, (1956, p. 46). who wrote, "to the southwest, about two miles along the divide on which I stood, was a very high mountain (later named Three River Mountain). which I imagined must be at the junction of the major rivers, the Anaktuvuk, North Fork, and John."

Three Saints Bay: bay, extends N 9 miles, off Sitkalidak Strait, on SE coast of Kodiak Island 57° 06' N, 153° 28' W; (map 34). Variant: Liakik Bay, Zaliv Lyakhik. Name derived from Three Saints Harbor and reported by Petroff in the 10th Census in 1880 (1881, p. 32). Called "Z[aliv] Lyakhik," or "Lyakhik Bay," by Capt. Tebenkov (1852, map 23). Baker (1906, p. 625). transliterated the Russian spelling of this Aleut name as "Liakik," "perhaps from liak, the Aleut name for the black-footed goose." R. H. Geoghegan (notes). suggests "Liakik," "may be dual form of laq, blackfoot goose-pair of geese."

Three Saints Harbor: cove, 0.5 miles across, on W shore of Three Saints Bay, SE coast of Kodiak Island; 57° 09' N, 153° 30' W; (map 34). Variant: Gavan Trekh Svyatiteley, Harbor of 3 Saints, Old Harbor, Schelikoff Harbor, Starrigavan, Staryy Gavan, Zfiatitz, Ziatitz. Named by Grigori Shelikov in 1784 for his ship the Three Saints. Von Langsdorff (1813-14, v. 2, p. 88). called the cove "Schelikoff Harbor." Sarichev (1826, map 17). used the name "Gavan Trekh Svyatiteley," meaning "Three Saints." See Three Saints Harbor, locality.

Three Saints Harbor: locality, on W shore of Three Saints Harbor, in Three Saints Bay, SE coast of Kodiak Island; 57° 09' N, 153° 31' W; (map 34). Variant: Nunamiut, Old Harbor, Starri-gavan, Starrigavan, Starui Gavan. Staryy Gavan, Seleniye Rossiysko-Amyerikanskoy Kompaniy, Ziatitz. Site of the first permanent Russian settlement in Alaska; established by Shelikov, founder of the Russian American Company. It was the headquarters of the company for only a short time before it was moved to Saint Paul (Kodiak). Sarichev (1826, map 17). applied the name "Seleniye Rossiysko-Amyerikanskoy Kompaniy," or "Settlement of the Russian American Company." Baker (1906, p. 625) wrote, "Three Saints has, by a curious transformation, become Ziatitz on some maps. The Russian verb sviatit, to sanctify, whence sviatoi, a saint, was written in English, 1849, by the Russian skipper Archimandritof Zfiatitz. The manuscript map on which this appeared * * * was published by the United States [Navy] Hydrographic Office in 1869. On that map we have 'Hr of 3 Saints and Zfiatitz'. One more changed and we have on late charts- Ziatitz as the name of the native village Nunamiut." See Nunamiut.

Three Saints Harbor: locality, see Nunamiut.

Three Saints Harbor: village, see Old Harbor.

Three Saints, Harbor of: cove, see Three Saints Harbor.

Three Sisters Mountain: ridge, elev. 2,000-4,810 ft., in Chigmit Mountains, extends 8.5 miles on E bank of Pile River, NE of Iliamna Lake, Aleutian Range; 59° 55' N, 153° 41' W; (map 51). "So named because the mountain is composed of three peaks over 4,500 ft.;" reported in 1958 by USGS.

Three Sisters Rocks: rocks, in Sitkalidak Strait, 0.8 miles NW of Cathedral Island, between Sitkalidak Island and SE coast of Kodiak Islands; 57° 12' 45" N, 153° 09' 00" W; (map 34). Local name published in 1943 by USC&GS.

Three Sisters, The: islands, group of three, each 0.2 miles long, in Three Arm Bay, on W coast of Adak Island, Aleutian Islands; 51° 45' N, 176° 53' W; BGN 1936; (map 17). Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

Three Sisters: peaks, 2,001-2,405 ft., 3.5 miles NW of Kodiak, on NE end of Kodiak Island; 57° 48' 30" N, 152° 29' 30" W; (map 34). Variant: The Devils Prongs. Local name recorded in 1949 by USGS.

Three Sisters: peaks, see Devils Prongs.

Three Sleep Point: point of land, on a hill, 1 mile E of The Buttes Gap, 22 miles SW of Beaver, Yukon Flats; 66° 06' 30" N, 147° 54' 00" W; (map 118). Local name obtained in 1956 by USGS.

Three Star Point: point of land, 1 mile SW of Perryville, on S coast of Alaska Peninsula, 19 miles E of Stepovak Bay, Aleutian Range, 55° 53' 20" N, 159° 10' 30" W; (map 27). Descriptive name published in 1916 by USC&GS.

Three Step Mountain: mountain, 1,500 ft., 9 miles N of Elbow Mountain and 37 miles SE of Bethel Kilbuck-Kuskokwim Mountains; 60° 26' N, 160° 58' W; (map 59). Descriptive name shown on a 1902 manuscript map by USRCS.

Three Tree Island: island, 200 ft. across, 5.5 miles SW of Chichagof, W of Rough Channel, off W coast of Chichagof Island, Alexander Archipelago; 57° 35' 30" N, 136° 08' 50" W; BGN 1908; (map 9). Descriptive name given in 1908 by E. F. Dickens, USC&GS; published in 1909 on Chart 8280. So named because "of three lone trees which identify it."

Three Way Passage: water passage, between Stanhope and Etolin Islands, Alexander Archipelago; 56° 02' N, 132° 37' W; BGN 1917; (map 6). Named in 1917 by USC&GS.

Threemile Arm: bay, extends SE 2 miles to Keku Strait, 18 miles NW of Point Baker, on E coast of Kuiu Island, Alexander Archipelago; 56° 35' N, 133° 50' W; BGN 1966; (map 6). Variant: Three Mile Arm. Named in 1892 by Lt. W. Island Moore, USN.

Threemile Canyon: canyon, 3 miles long, on Bremner River, 0.5 miles E of junction of Bremner River and South Fork Bremner River, 55 miles NE of Katalla, Chugach Mountains; 60° 58' 30" N, 144° 12' 00" W; (map 64). Variant: Three Mile Canyon. Local name reported in 1911 by F. H. Moffit (in Brooks and others, 1912, p. 99), USGS.

Threemile Creek: stream, flows NW 7 miles to Wood River, 56 miles S of Fairbanks, Alaska Range; 64° 04' N, 147° 34' W; (map 100). Local name reported in 1950 by USGS topographers.

Threemile Creek: stream, flows SE 20 miles to Kandik River, 2.3 miles NE of that stream's junction with Yukon River, Porcupine Plateau; 65° 23' 30" N, 142° 27' 00" W; (map 103). So named locally because this stream is located about 3 miles upstream from the mouth of the Kandik River; published in 1956 by USGS.

Threemile Creek: stream, heads in a lake, flows SE 12 miles to Happy River, 87 miles SW of Talkeetna, Alaska Range; 62° 10' N, 152° 48' W; (map 81). Local name reported in 1945 by USGS.

Threemile Creek: stream, heads in a lake, near center of Prince of Wales Island, flows W 4.5 miles to Klawak Lake, 4 miles SW of Klawock, Alexander Archipelago; 55° 31' 45" N, 132° 59' 50" W; (map 4). Variant: Three-mile Creek. Local descriptive name; reported as "Threemile Creek" in 1897 by Lt. Comdr. J. F. Moser, USN.

Threemile Creek: stream, heads in lake, flows SE 8 miles through Tukallah Lake to Cook Inlet, 5.5 miles NE of Tyonek, Cook Inlet Lowland; 61° 08' 35" N, 151° 04' 00" W; (map 70). Local name reported in 1933 by USGS.

Threemile Creek: stream, heads in Threemile Lake, flows SW 2.8 miles to Fish Creek, 18 miles N of Anchorage, Cook Inlet Lowland; 61° 28' 40" N, 149° 48' 55" W; (map 69). Local name reported in 1942 by USGS.

Threemile Lake: lake, 1 mile long, at head of Threemile Creek, 2.7 miles NW of Knik and 20 miles NE of Anchorage, Cook Inlet Lowland; 61° 30' 05" N, 149° 45' 30" W; (map 69). Local name reported in 1942 by AMS.

Threemile Lake: lake, 2.5 miles long, 8.4 miles SE of junction of Chitina and Nizina Rivers and 12 miles SW of McCarthy, Copper River Basin; 61° 19' 15" N, 142° 57' 30" W; (map 67). Local name obtained by USGS and published on maps since 1954.

Threenob Rock: rock, 0.5 miles S of Point Urey 16 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 48' 55" N, 136° 25' 30" W; (map 9). Descriptive name published in 1928 by USC&GS on Chart 8258. "A conspicuous triple-headed rock, the highest part having an elevation of 20 feet * * *."

Threequarter Cone: peak, cinder cone, elev. 1,700 ft., on W wall of caldera in central Semisopochnoi Island, 2 miles NW of Mount Cerberus, Aleutian Islands; 51° 57' 00" N, 179° 32' 50" E; BGN 1951; (map 15). So named in 1950 by R. R. Coats, USGS, because "part of the cone has been removed in the formation of the caldera"

Threesome Mountain: mountain, 4,230 ft., in Glacier Bay National Monument, 1.3 miles N of Abyss Lake and 52 miles NW of Hoonah, St. Elias Mountains; 58° 32' 20" N, 136° 35' 30" W; (map 10). Local descriptive name reported in 1951 by USGS.

Threetime Mountain: mountain, 2,635 ft., between Timber Creek and John River, 49 miles SW of Wiseman, Brooks Range; 67° 14' N, 151° 54' W; (map 124). Local name obtained in 1956 by USGS topographers.

Throat River: stream, flows NE 5 miles to Selawik River, 3 miles S of Selawik, Kotzebue-Kobuk Lowland; 66° 33' N, 159° 58' W; (map 114). Variant: Eegyak. Translation of an Eskimo name reported in 1884 as "Eegyak or Throat River," by Lt. J. C. Cantwell, USRCS.

Through Creek: stream, flows E 6 miles to Chignik Bay, 8 miles NNW of Chignik, on S shore of Alaska Peninsula, Aleutian Range; 56° 24' N, 158° 28' W; (map 30). Named in 1923 by R. H. Sargent, USGS, because of the low pass at its head leading across the Aleutian Range to Boulevard Creek and the Bristol Bay Lowland;

Through Glacier: glacier, heads at 55° 59' N, 130° 22' W, trends NE 5 miles to Chickamin Glacier, 14 miles NW of Hyder, Coast Mountains; 56° 02' 30" N, 130° 19' 00" W; BGN 1927; (map 7). Descriptive name given in 1926 by A. F. Buddington, USGS, because "this glacier extends over a high divide and for many miles toward Portland Canal."

Thru Creek: stream, flows NE 3 miles then S 4 miles to North Fork Chandalar River W of Reds Lake and 24 miles NNW of Chandalar, Brooks Range; 67° 50' N, 148° 40' W; (map 123). Local name reported in 1956 by T E. Taylor, USGS.

Thumb Bay: estuary, trends W 1.5 miles to Mummy Bay, at S end of Knight 1.7 miles SE of Chenega, Chugach Mountains; 60° 12' 45" N, 147° 49' 00" W; (map 63). Local name published in 1911 by USC&GS.

Thumb Cove Glacier: glacier, see Porcupine Glacier.

Thumb Cove: bay, on W coast of Resurrection Peninsula, extends SW 1.5 miles to Resurrection Bay, 8 miles SE of Seward, Chugach Mountains; 60° 00' 15" N, 149° 19' 30" W; BGN 1906 (map 63). Variant: Dickinson Cove. Named in 1906 by Andrew Braid, USC&GS.

Thumb Creek: stream, heads at Thumb Glacier flows E 5 miles to Salmon River, 5.5 miles N of Hyder, Coast Mountains; 56° 00' N, 130° 05' W; (map 3). Local name recorded in 1923 by A. F. Buddington (in Brooks and others, 1925, p. 85), USGS.

Thumb Glacier: glacier, in Lincoln Mountains, trends E 2 miles to its (1955). terminus at head of Thumb Creek, 7.5 miles NW of Hyder, Coast Mountains; 55° 59' 10" N, 130° 11' 30" W; (map 3). Local name recorded in 1955 by USGS.

Thumb Island: island, see Akusha Island.

Thumb Lake: lake, 0.7 miles long, E of Karluk Lake, at head of Thumb River, Kodiak Island: 57° 21' 10" N, 153° 59' 00" W; (map 34). Local name reported in 1954 by USGS.

Thumb Mountain: mountain, 2,969 ft., 20 miles NE of Jack Smith Bay and 38 miles N of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 37' N, 161° 14' W; (map 53). Variant: Helmick Mountain. Originally named "Helmick Mountain" by J. E. Spurr and W. S. Post (in Spurr, 1900, map 10), USGS, for Rev. Benjamin Helmick, Moravian missionary who worked in this area. The descriptive name "Thumb Mountain" was published in 1915 by USC&GS on Chart 9103. It was so called because "from off Quinhagak it resembles a huge thumb placed on a high flat mountain plateau." (U.S. Coast and Geodetic Survey, 1916, p. 249).

Thumb Point: point of land, on SE coast of Umnak Island, Aleutian Islands; 53° 11' 55" N, 168° 19' 00" W; BGN 1938; (map 22). Descriptive name given in 1438 by USC&GS, "because of its remarkable resemblance to the outline of a thumb."

Thumb Point: point of land, on SW coast of Liesnoi Island, at mouth of Eliza Harbor, on Admiralty Island, 21 miles E of Baranof, Alexander Archipelago; 57° 09' 50" N, 134° 17' 20" W; (map 9). Descriptive name given in 1889 by Lt. Comdr. H. B. Mansfield, USN; published by USC&GS in the 1891 Coast Pilot (p. 142).

Thumb River: stream, heads at Thumb Lake, flows NW 0.4 miles to Karluk Lake, Kodiak Island. 57° 21' 25" N, 153° 59' 45" W; (map 34). Local name reported in 1954 by USGS.

Thumb, The: bluff, see Devils Thumb.

Thumit Creek: stream, see Tunit Creek.

Thunder Bay: bay, 1.5 miles wide, on SE coast of Kenai Peninsula, 48 miles E of Homer, Chugach Mountains; 59° 33' N, 150° 10' W; (map 50). Local name reported by USGS or USC&GS in the 1940's.

Thunder Bay: bay, see LeConte Bay.

Thunder Bird Creek: stream, flows NW 12 miles to Eklutna River, 24 miles NE of Anchorage, Cook Inlet Lowland; 61° 26' 45" N, 149° 21' 40" W; (map 69). Local name reported in 1951 by USGS.

Thunder Bird Falls: waterfalls, on Thunder Bird Creek, 0.4 miles S of its junction with Eklutna River, 4.7 miles NE of Birchwood and 24 miles NE of Anchorage, Cook Inlet Lowland; 61° 26' 30" N, 149° 21' 15" W; (map 69). Local name reported in 1942 by AMS.

Thunder Creek: stream, heads in a glacier, flows 2.5 miles E to Copper River, 3 miles above mouth of Cleave Creek and 70 miles E of Valdez, Chugach Mountains; 61° 10' 45" N, 144° 54' 35" W, (map 68). Local name published in the 1950's by USGS.

Thunder Creek: stream, heads in Dutch Hills, flows SW 4.8 miles to Cache Creek, 31 miles NW of Talkeetna, Alaska Range; 62° 29' 05" N, 151° 00' 00" W; (map 81). Prospectors' name reported in 1906 by R. W. Porter, USGS.

Thunder Creek: stream, heads on Thunder Mountain, in De Long Mountains, flows N 12 miles to join Storm Creek to form Colville River, Brooks Range; 68° 49' 20" N, 160° 20' 00" W; BGN 1961; (map 131). Named by the 1925 USGS exploring expedition after Thunder Mountain.

Thunder Glacier: glacier, see LeConte Glacier.

Thunder Mountain: mountain, 2,900 ft., 1.5 miles NE of Juneau Airport and 6 miles NW of Juneau, Coast Mountains; 58° 22' 50" N, 134° 31' 30" W; (map 11). Local name reported by D. A. Brew and A. B. Ford, USGS, in 1965.

Thunder Mountain: mountain, 3,110 ft., N of Sakie Bay, on W coast of Dall Island, Alexander Archipelago; 55° 04' 30" N, 133° 10' 20" W; (map 4). Name published in 1924 by USC&GS.

Thunder Mountain: mountain, 3,425 ft., 13 miles E of Petersburg, Coast Mountains; 56° 49' 30" N, 132° 36' 00" W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN; name published in 1888 on USC&GS Chart 705.

Thunder Mountain: mountain, 4,850 ft., in DeLong Mountains, 35 miles NE of Misheguk Mountain, Brooks Range; 68° 34' N, 160° 18' W; BGN 1961; (map 131). Named by USGS exploring expedition in 1925 "because of numerous thunder-storms experienced in the area."

Thunder Point: point of land, on E coast of Adak Island, Aleutian Islands; 51° 51' 10" N, 176° 28' 00" W; BGN 1936; (map 17). Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

Thunder Point: point of land, on N shore of LeConte Bay, 19 miles E of Petersburg, Coast Mountains; 56° 47' 10" N, 132° 27' 40" W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN; name published in 1888 on USC&GS Chart 705.

Thurman Creek: stream, heads in lake, on Kenai Peninsula, in Kenai Mountains, NW of Trout Lake, flows NW 10 miles to Chickaloon River, 26 miles SW of Hope, Chugach Mountains; 60° 39' N, 150° 05' W; (map 62). Local name reported in 1944 by USGS.

Thursday Creek: stream, flows E 12.4 miles to Talachulitna River, 51 miles NW of Tyonek, Alaska Range; 61° 47' 45" N, 151° 24' 45" W (map 70). Local name reported in 1954 by USGS.

Thurston Canyon: canyon, on Kenai Peninsula, 0.5 miles long, 3 miles E of Lookout Mountain and 8 miles NE of Homer, Cook Inlet Lowland; 59° 42' 30" N, 151° 22' 30" W; (map 50). Local name reported and published by USGS in the 1950's.

Thurston Creek: stream, flows NW 6 miles to Seventymile River, 9 miles NW of Eagle, Yukon-Tanana Highlands; 64° 55' N, 141° 18' W; (map 102). Prospectors' name shown on a 1902 manuscript map by E. J. Chamberlain, U.S. Deputy Surveyor.

Tiakinak: island, see Simeonof Island.

Tiatiuk: locality, on Yukon-Kuskokwim Delta N of Black River, 62° 25' N, 165° 15' W; (map 76). Variant: Tee-atee-ogemut. Former Eskimo village or camp reported as "Tee-atee-ogemut" by Dall (1870, p. 264).

Tibbs Creek: stream, flows N 10 miles to Goodpaster River, 52 miles ENE of Big Delta, Yukon-Tanana Highlands; 64° 28' N, 144° 15' W; (map 101). Local name published in 1943 by USGS.

Tibukligarra Creek: stream, flows W to Inglutalik River, Nulato Hills; near 65° 00' N, 160° 00' W; (map 109). Eskimo name reported in 1907 by P. S. Smith, USGS. This feature cannot be identified on current maps.

Tichai Bay: bay, see Still Harbor.

Tichaia Bay: bay, see Still Harbor.

Tichaichachass: locality, see Paltchikatno.

Tichik River: stream, see Nuyakuk River.

Tichininik River: stream, see North Fork Kuskokwim River.

Tichnak Creek: stream, see Cheenik Creek.

Tichtinige: cove, see Pyramid Harbor.

Tick Shoal: shoal, 0.5 miles across, in Yakutat Roads, 0.3 miles N of Puget Cove and 1.5 miles N of Yakutat, Malaspina Coastal Plain; 59° 34' 15" N, 139° 43' 30" W; (map 46). Named by Lt. Giles B. Harber, USN, and published on Hydrog. Chart 2157 in 1892.

Tidal Basin: lagoon, 0.5 miles long, on SW coast of Marmot Island, Kodiak Island; 58° 11' N, 151° 52' W; (map 43). Local descriptive name reported in 1952 by USGS.

Tidal Inlet: estuary, fiord in Glacier Bay National Monument, trends W 4.5 miles to Glacier Bay, 4 miles E of Gilbert Island and 61 miles NW of Hoonah, St. Elias Mountains; 58° 49' 30" N, 136° 24' 00" W; BGN 1948; (map 10). Variant: Favorite Inlet. Named in 1890 by H. F. Reid (1896, p. 427). who established a tidal observation station in the inlet. The inlet is not tidal in the true sense, however, but is protected by a natural breakwater.

Tide Island: island, 0.1 miles long, at N end of Clarence Strait, between Zarembo and Prince of Wales Islands, Alexander Archipelago; 56° 17' 00" N, 133° 03' 35" W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow, USN; name published in 1887 on USC&GS Chart 706.

Tidertip Point: point of land, on SW coast of Unalaska Island, Aleutian Islands; 53° 16' 45" N, 167° 46' 30" W; BGN 1939; (map 23). Variant: Southwest End. This descriptive name given by USC&GS in 1939 "because of heavy tiderips encountered upon this point." The name "Southwest End" was applied by USC&GS before the area had been surveyed.

Tidgatukh Island: island, see Tidgituk Island.

Tidgitok, Ostrov: island, see Tidgituk Island.

Tidgituk Island: island, 0.5 miles long, in entrance to South Bay, on S coast of Tanaga Island, Aleutian Islands; 51° 38' 00" N, 178° 00' 30" W; (map 16). Variant: Ostrov Tidgitok, Tidgatukh Island. Aleut name published by Capt. Tebenkov (1852, map 28), IRN, as "O[strov] Tidgitok," i.e. "Tidgitok Island."

Tiedeman Island: island, 9 miles long, in Seymour Canal, off E coast of Admiralty Island, 27 miles NE of Angoon, Alexander Archipelago; 57° 50' N, 134° 10' W; (map 9). Named by W. H. Dall, USC&GS, and published in the 1883 Coast Pilot (p. 129).

Tiedeman Slough: stream, 5 miles long, distributary of Glacier River, 12 miles SE of Cordova, Malaspina Coastal Plain; 60° 25' N, 145° 28' W; (map 64). Local name published in 1951 by USGS.

Tiehovun Lake: lake, 3 miles long, 18 miles S of Chalkyitsik, Yukon Flats; 66° 24' N, 143° 40' W; (map 120). Tranjik-kutchin Indian name; obtained in 1956 by T. E. Taylor, USGS.

Tiekaga: point of land, see Hope, Point.

Tiekagagmiut: village, see Point Hope.

Tiekel Cache: locality, on Tiekkel River, 1.7 miles NE of mouth of Squaw Creek and 40 miles ENE of Valdez, Chugach Mountains; 61° 23' N, 145° 14' W; BGN 1932; (map 68). Variant: Teikhell, Tiekkel City. Former telegraph station named "Teikhell" in 1902 by U.S. Signal Corps;

may be the same place referred to as "Tiekel City" (See Tiekel). In 1932 USGS reported that the old buildings are now maintained by the ARC and used as a "cache" for supplies and road equipment.

Tiekel City: locality, see Tiekel and Tiekel Cache.

Tiekel River: stream, flows SW and E 34 miles to Copper River, 3.5 miles NE of junction of Thunder Creek and 47 miles ENE of Valdez, Chugach Mountains; 61° 13' 15" N, 144° 50' 40" W; (map 68). Variant: Konsena, Konsina, Tiekhell, Tsaina, Zeikhell. Indian names "Tiekel" and "Tiekhell" applied by Lt. H. T. Allen, USA, to a stream now known as Uranatina River. In about 1900 the name was reapplied to this stream by USGS. In 1885 Allen reported another Indian name, "Konsina," for this stream; in 1898 Capt. W. R. Abercrombie, USA, recorded the names "Tsina" and "Konsena." "Tsina," is now applied to the south fork of the Tiekel River.

Tiekel Roadhouse: locality, see Tiekel.

Tiekel, Mount: mountain, 6,300 ft., 3.5 miles S of Rice Mountain and 32 miles NE of Valdez, Chugach Mountains; 61° 15' 15" N, 145° 20' 40" W; (map 68). Local name published in the 1950's by USGS.

Tiekel: locality, between Tiekel River and Richardson Highway, 2.3 miles NE of Mount Tiekel and 35 miles NE of Valdez, Chugach Mountains; 61° 19' 35" N, 145° 18' 30" W; (map 68). Variant: Teikhell, Tiekell City, Tiekel Roadhouse. In June, 1899, John F. Rice (in U.S. Congress, 1900, p. 780). wrote, "After several miles of travel we passed what was known as Tiekell City, it having been destroyed by fire some few years before our arrival." A roadhouse was established later, which was reported in 1908 by USGS (Moffit and Maddren, 1909, pl. 1).

Tiekell River: stream, see Uranatina River.

Tiekhell: stream, see Tiekel River.

Tienasheavun Slough: stream, 2 miles long, anabranch of Black River 33 miles E of Chalkyitsik, Porcupine Plateau; 66° 34' N, 142° 34' W; (map 120). Tranjik-kutchin Indian name; obtained in 1956 by T. E. Taylor, USGS.

Tiengak: locality, on Kvichavak River, Yukon-Kuskokwim Delta; 61° 20' N, 161° 00' W; (map 73). Former Eskimo village or camp reported as "Tiengaghamiut," population 60, in the 1890 Census (1893, p. 111).

Tieschenni: stream, see Chistochina River.

Tifcha-ak: locality, see Difchahak.

Tiflighak Bay: bight, between Tetegnak Point and Meruwtu Point, along N coast of St. Lawrence Island, 3 miles SE of Gambell; 63° 46' N, 171° 38' W; BGN 1951; (map 93). Variant: Asowalak Cove, Tiplighak Bay. Recorded in 1932 as "Tiplighak Bay" by USCG. Orth was told in 1955 at Gambell that this name is locally applied to what is shown on present-day

maps as “Dovelawik Bay.” This bight is locally known as “Asowalak,” meaning “something white.”

Tiflighak Bay: bight, see Dovelawik Bay.

Tigaida: island, see Tigalda Island.

Tigalda Bay: bay, 2 miles long, on N coast of Tigalda Island, Krenitzin Islands, Aleutian Islands; 54° 07' 45" N, 165° 00' 00" W; (map 24). Named in 1888 by USBF for Tigalda Island.

Tigalda Island: island, 12 miles long, 23 miles E of Akutan, in Krenitzin Islands, Aleutian Islands; 54° 06' N, 165° 05' W; (map 24). Variant: Coagalga, Coogalga, Croyalgu, Kagalga, Kigalga, Kugalga, Tigaida, Tigalga. Aleut name published by Capt. Lutke (1836, p. 291); called “Kagalga” by Capt. Lt. Krenitzin and Lt. Levashev in 1768 (Coxe, 1787, map p. 205).

Tigalda: locality, on Tigalda Island, Aleutian Islands; 54° 06' N, 165° 05' W; (map 24). Variant: Teegaldenskoi, Tigaldinskoe. Former Aleut village reported in 1833 as “Tigaldinskoe,” population 91, by Father Veniaminov (1840, v. 2. p. 203).

Tigaldinskoe: locality, see Tigalda.

Tigalga: island, see Tigalda Island.

Tigara River: stream, see Kukpuk River.

Tigara: point of land, and village, see Hope, Point and Point Hope.

Tigaraha Mountain: mountain, 3,200 ft., in Kigluaik Mountains, 4.5 miles S of Mount Osborn and 30 miles NE of Nome, Seward Peninsula Highlands; 64° 56' N, 165° 18' W; (map 94). Eskimo name meaning “index finger” reported in 1912 by R. H. Sargent, USGS.

Tigarak: point of land, and village, see Hope, Point and Point Hope.

Tigchelde: locality, see Tigshelde.

Tiger Cape: point of land, on NE coast of Raspberry Island, 8 miles NW of Afognak, Kodiak Island; 58° 01' 20" N, 152° 58' 45" W; (map 43). Local name reported in 1952 by USGS.

Tiger Cove: cove, see Navy Cove.

Tiger Glacier: glacier, heads at Sargent Icefield, on Kenai Peninsula, trends E 6 miles to Icy Bay, 14 miles SW of Chenega, Chugach Mountains; 60° 11' 00" N, 148° 26' 40" W; BGN 1910; (map 63). Named in 1910 by U. S. Grant and D. F. Higgins, USGS.

Tigera: point of land, and village, see Hope, Point and Point Hope.

Tigertail Glacier: glacier, heads on Sargent Icefield, on Kenai Peninsula, trends NE 4 miles to Nassau Fiord, 10 miles W of Chenega, Chugach Mountains; 60° 15' 45" N, 148° 23' 35" W;

(map 63). Named in 1909 by George W. Perkins, USGS (Grant and Higgins, 1910-11, p. 415).

Tiglukpuk Creek: stream, heads on N slope of Soakpak Mountain, flows N 25 miles to Siksikpuk River, 24 miles NE of Chandler Lake, Arctic Slope; 68° 31' N, 152° 03' W; BGN 1960; (map 134). Eskimo name meaning “moose” given in 1950 by a USGS field party.

Tignagvik Point: point of land, on SW shore of Cook Inlet, N point of entrance to Kamishak Bay, Aleutian Range; 59° 26' 15" N, 153° 43' 30" W; (map 51). Eskimo name published in 1915 on USC&GS Chart 8554.

Tigshelde: locality, on left bank of Innok River, 7 miles SE of Holikachuk. Innoko Lowland; 62° 51' N, 159° 21' W; (map 78). Variant: Tigchelde, Tizhgelede, Tozhgelede. Former Indian village or camp recorded as “Tigchelde” on Lt. L. A. Zagoskin's 1850 map.

Tigugha Point: point of land, see Tikugha Point.

Tigvariak Island: island, 2 miles long, between Mikkelsen and Foggy Island Bays, on Beaufort Sea coast, 23 miles W of Flaxman Island, Arctic Plain 70° 13' 15" N, 147° 12' 55" W; (map 150). Variant: Lion and Reliance Reef, Lion Island. E. de K. Leffingwell (1919, p. 100), USGS adopted this Eskimo name for the island which Franklin, RN, (1828, p. 152). originally named “Lion and Reliance Reef,” after his two boats, the Lion having been driven aground at this place. Leffingwell applied Franklin's names to “the NE and NW points of the islands * * *.” Lt. W. H. Hooper, RN in 1853, calls this Lion Island. As the name “Lion” has been misapplied on the early charts, Hooper may have been referring to the chain of islands lying several miles to the north. The Eskimo name Tigvariak means “portage.”

Tiinkdhul Lake: lake, 2.5 miles across, 17 miles SE of Chalkyitsik, Porcupine Plateau; 66° 34' N, 143° 10' W; (map 120). Tranjik-kutchin Indian name; obtained in 1956 by T. E. Taylor, USGS.

Tik Hill: cinder cone, 572 ft., in Ingakslugwat Hills, 8.5 miles N of Aropuk Lake, Yukon-Kuskokwim Delta; 61° 21' N, 163° 50' W; (map 74). Eskimo name, meaning “rectum,” published by USGS in 1966.

Tikaghapuk Cape: point of land, see Tikaghapuk Point.

Tikaghapuk Point: point of land, 10 miles NW of Bunnell Cape, 21 miles S of Gambell, W coast of St. Lawrence Island; 63° 29' N, 171° 51' W; BGN 1951; (map 93). Variant: Cape Tikighapak, Tikaghapuk Cape, Tikerapak Point, Tikighapak Cape, Tikighpat Cape. Eskimo name meaning “big point of land” [tikerapak], reported in 1949 by Maj. H. B. Allen, USAF.

Tikan Creek: stream, heads in Canada, flows W 10 miles to Grayling Fork Black River, 9 miles NW of Midnight Hill, Porcupine Plateau; 66° 10' 20" N, 141° 10' 40" W; BGN 1914; (map 120). Variant: Teecan Creek. Indian name reported as “Teecan” in 190A by IBC surveyors; published in 1914 on IBC Sheet 15 (1918 Atlas). The spelling was changed to “Tikan” in 1914 by the Canadian Geographic Board.

Tikarakh: point of land and village, see Hope. Point and Point Hope.

Tikchik Falls: falls, on Nuyakuk River, 3 miles E of Tikchik Lake and 63 miles NE of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 54' N 158° 08' W; (map 52). Local name obtained in 1919 from C. A. Fowler, local inhabitant, by G. L. Harrington, USGS

Tikchik Lake: lake, extends E 10 miles from Nuyakuk Lake to head of Nuyakuk River, 63 miles NE of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 56' N, 158° 13' W; BGN 1932; (map 52). Variant: Nushagak, Nu-ya-kok, Nu-ya-kok Nun-vuk, Nuyukuk, Tikshik, Tukshik. Eskimo name reported in 1891 as "Tikshik," variously written "Tikchik" and "Tukshik," by A. B. Schanz in Frank Leslie's Illustrated Newspaper. Ivan Petroff in the 1880 Census recorded the name as "Lake Nushagak, but it may also apply to Lake Beverley." The Eskimo names, "Nu-ya-kok" and "Nuyukuk," appear on a 1910 manuscript map by H. C. Fassett, USBF. The name "Tikchik Lake" was adopted because of the long local usage.

Tikchik Lake: lake, see Nuyakok Lake.

Tikchik Lakes: lakes, seven, N of Wood River Lakes, extend 45 miles between Nishlik Lake on N and Nuyakuk Lake on S, 65 miles NW of Dillingham, Kilbuck-Kuskokwim Mountains; 60° 15' N, 158° 59' W; BGN 1931; (map 60). Name derived from Tikchik Lake; a descriptive reference name used as early as 1891.

Tikchik Mountain: mountain, 2,742 ft., 40 miles W of Sleitat Mountain and 115 miles SW of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 03' N, 158° 16' W; BGN 1932; (map 60). Eskimo name reported in 1902 by W. H. Osgood, USDA; "A conspicuous landmark on the right bank of the Nushagak River, near the mouth of Tikchik River."

Tikchik Mountains: mountains, see Wood River Mountains.

Tikchik River: stream, heads in Nishlik Lake, flows SE 45 miles to Tikchik Lake, 65 miles N of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 59' N, 158° 22' W; BGN 1932; (map 52). Variant: Tikshik River, Tukshik River. Eskimo name shown on a 1910 manuscript map by H. C. Fassett, USBF, as "Tuk-shik." Originally reported as the name of what is now the Nuyakuk River by A. B. Schanz, a member of the Leslie Expedition in 1890.

Tikchik: locality, on N shore of Tikchik Lake. E of Tikchik River and 65 miles N of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 59' N, 158° 22' W; (map 52). Variant: Tuk-shik-ha-mut. Eskimo village reported with a population of 38 by Ivan Petroff in the 10th Census in 1880: recorded as "Tuk-shik-ha-mut" on a 1910 manuscript map by H. C. Fassett, USBF.

Tikeerot: locality, see Tikizat.

Tikeh: point of land, and village, see Hope, Point and Point Hope.

Tikek: point of land, and village, see Hope, Point and Point Hope.

Tikekowac: locality, see Tikekowak.

Tikekowak: locality, on Norton Sound, probably in area of Shorty Cove; (map 91). Variant: Tikekowac. Eskimo village or camp reported in 1890 by E. H. Wells. This may be the same place called "Klikitarik" on present-day maps, although it appears doubtful.

Tikera: point of land, and village, see Hope, Point and Point Hope.

Tikerak: point of land, see Hope, Point.

Tikeramiut: village, see Point Hope.

Tikerana: point of land, and village, see Hope, Point and Point Hope.

Tikeranmeun: village, see Point Hope.

Tikerapak Point: point of land, see Tikaghapuk point.

Tikhaia Bay: bay, see Still Harbor.

Tikhaia Islands: islands, 0.7 miles across, at mouth of Still Harbor, on SW coast of Baranof Island, Alexander Archipelago 56° 33' 30" N, 135° 03' 00" W; BGN 1926; (map 5). Russian name "tikhaya," meaning "still," given in 1925 by USC&GS; taken from the original Russian name for "Still Harbor."

Tikhaya, Gavan: bay, see Still Harbor.

Tikhiniak: island, see Simeonof Island.

Tikigaruk Point: point of land, on W shore of Elson Lagoon, S point of entrance to Central Marsh Slough, 5 miles NE of Barrow, Arctic Plain; 71° 18' 40" N, 156° 32' 50" W; (map 153). Eskimo name recorded by USC&GS in 1950 and reported to mean "big finger."

Tikigasukruk Point: point of land, see Tekegakrok Point.

Tikighapak Cape: point of land, see Tikaghapuk Point.

Tikighapak Cape: point of land, see Vngyat Point.

Tikighpat Cape: point of land, see Tikaghapuk Point.

Tikigiluk River: stream, see Tikikluk Creek.

Tikigiuk River: stream, see Tikikluk Creek.

Tikikluk Creek: stream, flows NW 20 miles to Nigisaktuvik River, 7 miles W of village of Meade River, Arctic Plain; 70° 27' 15" N, 157° 42' 00" W; (map 147). Variant: Tikigiluk River, Tikigiuk River. Eskimo name meaning "bad finger"; shown on 1923 fieldsheet by E. C. Guerin, USGS, as "Tikigluk River."

Tikikluk: village, see Meade River.

Tikilook: village, see Meade River.

Tikiluk: village, see Meade River.

Tikiqaq: point of land, and village, see Hope, Point and Point Hope.

Tikira: point of land, and village, see Hope, Point and Point Hope.

Tikirah: point of land, and village, see Hope, Point and Point Hope.

Tikirahmun: village, see Point Hope.

Tikirak: point of land, and village, see Hope, Point and Point Hope.

Tikirat: locality, see Tikizat.

Tikirat: point of land, and village, see Hope, Point and Point Hope.

Tikizaat: locality, see Tikizat.

Tikizat: locality, on Chukchi Sea Coast at N end of Krusenstern Lagoon, 5 miles NE of Cape Krusenstern, Kotzebue-Kobuk Lowland; 67° 12' N, 163° 39' W; (map 128). Variant: Tee-kee-zaht-meuts, Tikeerot, Tikirat, Tikizaat. Eskimo camp or shelter cabin; the name, according to E. S. Burch, means "other sides of the bend" referring to two vaguely defined areas near Cape Krusenstern. When one is traveling north "Tikizat" is any place just to the north of the cape that can be considered "the other side." When traveling south from Kivalina, the reverse is true. Ivan Petroff, in the 1880 Census, applied the name to a camp or settlement near the cape with a population of 75.

Tikkerak: point of land and village, see Hope, Point and Point Hope.

Tikmiakpalik Creek: stream, flows NE 3 miles to Okokmilaga River, 6.3 miles S of mouth of Fire Creek, Brooks Range; 68° 22' N, 153° 06' W; (map 133). Eskimo name for "golden eagle's nest," obtained in 1956 at Anaktuvuk Pass by T. E. Taylor, USGS.

Tikshik River: stream, see Tikchik River.

Tikshik: lake, see Tikchik Lake.

Tikudasetzk: stream, see Ludaseska Creek.

Tikugha Cape: point of land, see Tikugha Point.

Tikugha Point: point of land, 15 miles SW of Savoonga, N Coast of St. Lawrence Island; 63° 35' N, 170° 53' W; BGN 1951; (map 93). Variant: Cape Kagh-Kasalik, Cape Kagh-Kasslik, Kangea, Tigugha Point, Tikugha Cape. Eskimo name meaning "pointer" [tikara], reported in 1949 by Maj. H. B. Allen, USAF.

Tilhini Creek: stream, see Salmon Creek.

Till Creek: stream, flows W 9.5 miles to John River, 20 miles NE of Sillyasheen Mountain and 67 miles NW of Wiseman, Brooks Range; 67° 58' 30" N, 152° 09' 00" W; (map 124). Local name reported about 1930 by Marshall (1956, map).

Till Valley: ravine, extends NW 2 miles, on Granite Mountain, W of Rhoades Creek, 18 miles SE of Delta Junction, Alaska Range; 63° 48' 00" N, 145° 28' 30" W; (map 86). Named between 1948 and 1955 by T. L. Pewe, USGS.

Tillman Mountain: mountain, see Wrangell, Mount.

Tilman, Point: bluff, elev. 1,000 ft., on S bank of Yukon River, 17 miles E of Tanana, Yukon-Tanana Highlands; 65° 10' 30" N, 151° 29' 00" W; (map 106). Riverboat pilots' name shown on a Yukon River track chart manuscript dated 1906.

Tilounan Naivak: lagoon, see Kiloknak Lagoon.

Tilted Hills: ridge, extends NE 22 miles from Iniskin Bay to Chinitna Bay, on W shore of Cook Inlet, Aleutian Range; 59° 50' N, 153° 00' W; [NE end], 59° 39' N, 153° 25' W [SW end]; BGN 1963; (map 51). So named in 1903 by G. C. Martin (1905, pl. 4), USGS, because the beds of resistant rock tilt to the SE. In the 1950's the name was applied to another ridge 6 miles to the west; the error was corrected in 1963 by R. L. Detterman, USGS.

Timber Cove: cove, see Anchor Cove.

Timber Creek: stream, flows E 10 miles to Christian River 10 miles NW of Christian, Brooks Range; 67° 28' N, 145° 22' W; (map 122). Local name reported in 1956 by T. E. Taylor, USGS.

Timber Creek: stream, flows N 15 miles to Iditarod River, 3.3 miles SE of Swinging Dome and 13 miles SW of Flat, Kilbuck-Kuskokwim Mountains; 62° 17' 30" N, 158° 13' 30" W; BGN 1945; (map 79). Local name obtained in 1944 by USGS.

Timber Creek: stream, flows N 6 miles to Koyuk River, 10 miles S of Kiwalik Mountain and 32 miles SE of Imuruk Lake, Seward Peninsula Highlands; 65° 21' N, 162° 15' W; (map 110). Prospectors' name reported in 1903 by D. C. Witherspoon (in Moffit, 1905, pl. 2), USGS.

Timber Creek: stream, flows NW 11 miles to Poorman Creek, 3.7 miles SW of Poorman and 47 miles SW of Ruby, Kilbuck-Kuskokwim Mountains; 64° 04' 30" N, 155° 39' 20" W; BGN 1936; (map 98). Prospectors' name reported in 1913 by Eakin (1914, pl. 3), USGS.

Timber Creek: stream, flows NW 16 miles to Aniak River, 34 miles SE of Aniak, Kilbuck-Kuskokwim Mountains; 61° 07' N, 159° 08' W; BGN 1948; (map 73). Prospectors' name reported by USGS in 1919.

Timber Creek: stream, flows NW 6.3 miles to Styx River 3.2 miles SE of that stream's junction with South Fork Kuskokwim River, 86 miles NW of Tyonek, Alaska Range; 61° 53' 20" N,

153° 06' 30" W; (map 71). This name reported in 1926 by S. R. Capps And K. W. Trimble, USGS, "because it was the first timber met on the west side of the divide."

Timber Creek: stream, flows S 21 miles to John River, 52 miles SW of Wiseman, Brooks Range; 67° 04' N, 151° 50' W; (map 124). Local name reported in 1909 by Maddren (1910, pl. 7). USGS.

Timber Creek: stream, heads NW of Sikonsina Pass, flows NE 8.5 miles to Tok River 8.5 miles W of junction of Little Tok River, 24 miles SW of Tok, Alaska Range; 63° 07' N, 143° 37' W; (map 85). Local name published by USGS in 1964.

Timber Creek: stream, in Baird Mountains, flows SW 28 miles to Squirrel River, 13 miles NW of Kiana, Brooks Range; 67° 07' 15" N, 160° 44' 15" W; (map 127). Name used by prospectors; reported in 1910 By P. S. Smith (in Brooks and others, 1911, pl. 13), USGS.

Timber Gulch: ravine, somewhere along Sheep Creek, about 5 miles SE of Juneau, Coast Mountains; 58° 16' N, 134° 19' W; (map 11). Miners' name reported by R. N. DeArmond (1957, p. 39).

Timber Knob: mountain, 1,551 ft., SW Heceta Island, Alexander Archipelago; 55° 44' 45" N, 133° 34' 10" W; (map 4). Descriptive name given in 1903 or 1904 by E. F. Dickins, USC&GS, who wrote 'named by our party, has no local name.'

Timber Lake: lake, 1.2 miles long, 3 miles N of Portage Lake and 29 miles NW of Arctic Village, Brooks Range; 68° 23' N, 146° 27' W; (map 136). Local name reported in 1956 by R. C. Foley, USGS.

Timber Lake: lake, between Happy Slough and Tom Cook Slough, 21 miles NE of Roundabout Mountain, Koyukuk Lowland; 65° 50' N, 156° 27' W; (map 108). Local name obtained at Huslia by USGS in 1954 or 1955.

Timber Point: point of land, between Hodzana Slough and Yukon River, 16 miles SW of Beaver, Yukon Flats; 66° 14' N, 147° 55' W; (map 118). Local descriptive name obtained in 1956 by USGS.

Timbered Island: island, 0.3 miles long, in Iphigenia Bay, 7 miles NW of St. Joseph Island, Alexander Archipelago; 55° 41' 45" N, 133° 48' 00" W; (map 4). Variant: Timbered Islet. Descriptive name published in 1906 by USC&GS as "Timbered Islet."

Timbered Islet: island, see Timbered Island.

Timberline Creek: stream, flows NW 3.5 miles to Valdez Creek, 67 miles SE of Healy, Alaska Range; 63° 11' N, 147° 35' W; (map 87). Local descriptive name reported in 1910 by Moffit (in Brooks, 1911, fig. 15), USGS.

Timberline Creek: stream, on Kenai Peninsula, flows NW 4 miles to Mills Creek, 18 miles S of Sunrise, Chugach Mountains; 60° 39' 00" N, 149° 24' 45" W; (map 63). Local name reported in 1952 by USGS.

Timberline Lake: lake, 0.4 miles long, on Kenai Peninsula, in Kenai Mountains, 7 miles E of Tustumena Lake 30 miles SE of Kenai, Chugach Mountains; 60° 14' 30" N, 150° 34' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Timberlost Lake: lake, 1.1 miles long, on Kenai Peninsula, 1 mile NE of Kenai, Cook Inlet Lowland; 60° 42' N, 151° 08' W; BGN 1950; (map 62). Named in 1959 by Stanley F. Thompson, a homesteader on the lake, "because the lake shore is caving in, allowing the trees to fall into the water."

Tin Can Point: point of land, on Yukon Delta, between Caseys Channel and Kwikluak Pass, 13 miles SW of Kwiguk, Yukon-Kuskokwim Delta; 62° 36' 30" N, 164° 46' 50" W; (map 77). Variant: A-gahk-la-rok, Agaklarok. Local name obtained in 1948 by USC&GS The Eskimo name for this point, or locality on the point, is "Agaklarok."

Tin City: village, pop. 10, at mouth of Cape Creek, on Bering Sea Coast, 5 miles SE of Cape Prince of Wales, Seward Peninsula Highlands; 65° 33' N, 167° 51' W; (map 111). Former mining camp established at the base of Cape Mountain in 1903 (Collier, 1904, p. 59). Tin ore was discovered on Cape Mountain in July 1902, by Mr. W. C. J. Bartels. * * * Extensive developments were planned for the season of 1903, and a well-equipped prospecting plant was sent to Cape Mountain" (Collier, 1904, p. 25). By 1907 "a few widely scattered houses" formed Tin City (Knopf, 1908, p. 35), and two companies operated out of the village and a 10-stamp mill was located here (p. 40). Tin City post office was established in 1904 and was discontinued in 1909 (Ricks, 1965, p. 65).

Tin Creek: stream, flows N 13 miles to South Fork Kuskokwim River, 1 mile E of Farewell Lake, 72 miles SE of McGrath, Alaska Range; 62° 32' 40" N, 153° 35' 10" W; (map 80). Locally so called "because of tin ore [cassiterite ?] found along this stream." Name reported in 1958 by USGS.

Tin Creek: stream, flows NE 13 miles to Shishmaref Inlet, 10 miles S of Shishmaref, Kotzebue-Kobuk Lowland; 66° 07' N, 166° 04' W; (map 112). Prospectors' name reported in 1908 by Knopf (1908, fig. 2), USGS.

Tin Creek: stream, in York Mountains, flows SW 3.5 miles to Lost River 27 miles NW of Teller, Seward Peninsula Highlands; 65° 27' N, 167° 11' W; (map 111). Prospectors' name reported in 1903 by Collier (1904, pl. 2), USGS. Named for the occurrence of tin ore in the area.

Tin Gulch: ravine, extends SW 0.7 miles to Buck Creek, in Mint River basin, 2 miles ESE of Potato Mountain and 17 miles NE of Cape Prince of Wales, Seward Peninsula Highlands; 65° 28' 30" N, 167° 30' 30" W; (map 111). Prospectors' name reported in 1918 by Steidtmann and Cathcart (1922, fig. 14), USGS.

Tin Kettle Creek: stream, flows NE 2.5 miles to Franklin Creek, 48 miles SW of Eagle, Yukon-Tanana Highlands; 64° 10' N, 141° 48' W; (map 102). Named by prospectors and reported in 1903 by Prindle (1905, pl. 16), USGS.

Tina Creek: stream, see Mascot Creek.

Tina Lake: lake, 1,200 ft. long, 1.3 miles NW of junction of Campbell and Little Campbell Creeks, 3.5 miles S of Anchorage, Cook Inlet Lowland; 61° 10' 00" N, 149° 53' 20" W; (map 69). Local name reported in 1942 by USGS.

Tinast: stream, see Chisana River.

Tinayguk River: stream, flows W and SE 44 miles to North Fork Koyukuk River, 3 miles S of Eroded Mountain and 27 miles NW of Wiseman, Brooks Range; 67° 34' 15" N, 151° 01' 15" W; BGN 1932; (map 124). Variant: West Fork Koyukuk River. In 1930 Robert Marshall recommended "tinayguk," the Eskimo word for moose, for the name of this stream because of the abundance of these animals in the area. In his recommendation he noted a limited local use of the name "West Fork," a term he felt was already too commonly used.

Tincan Creek: stream, on N end of Kenai Peninsula, flows NW 5 miles to Granite Creek, 10 miles SE Of Sunrise, Chugach Mountains; 60° 46' 45" N, 149° 13' 50" W; (map 63). Local name reported in 1912 by Grant and Higgins (1913, pl. 1), USGS.

Tincan Lake: lake, 1 mile across, at mouth of Lost Creek, 19 miles SW of Beaver, Yukon Flats; 66° 10' N, 147° 54' W; (map 118). Variant: Tin-Can Lake. Probably named by William Yanert who recorded it on a 1916 manuscript map of the Yukon Flats (Stuck, 1917, map facing p. 122).

Tindestak: locality, see Gantegastaki.

Tindir Creek: stream, heads in Canada, flows NW across Alaska-Canada boundary 22 miles to Nation River, 19 miles NE of that stream s junction with Yukon River and 45 miles N of Eagle, Porcupine Plateau; 65° 25' 30" N, 141° 23' 00" W; BGN 1912; (map 103). Named in 1910 by IBC survey and reported by Thomas Riggs, of the survey, to be an Indian word meaning "moose"

Tine Lake: lake, 0.4 miles long, on Kenai Peninsula, W of Snowshoe Lake, 33 miles NE of Kenai, Cook Inlet Lowland; 60° 46' 10" N, 150° 25' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Tingberg Island: island, 0.2 miles long, W of Nakat Bay, off NW coast of Kauaganut Island, Coast Mountains; 54° 45' 30" N, 130° 44' 30" W; BGN 1937; (map 2). Named in 1936 by USC&GS for C. E. Tingberg, a member of the crew of the U.S.S. Hassler, which made the first surveys in this area for USC&GS in 1883.

Tingmeachsiovik River: stream, distributary of Fish Creek, flows NE 10 miles to Harrison Bay, W of Colville River Delta, Arctic Plain; 70° 25' N, 151° 22' W; (map 149). Eskimo name reported in 1951 by USC&GS.

Tingmeachsiovik: stream, see Inigok Creek.

Tingmerkpu Mountain: mountain, 3,787 ft., in De Long Mountains, 30 miles ENE of Mount Kelly, Brooks Range; 68° 33' 45" N, 162° 28' 00" W; (map 130). Named by USGS in 1926. See Tingmerkpu River.

Tingmerkpuk River: stream, in De Long Mountains. flows NE 27.5 miles to Kokolik River, E of Tingmerkpuk Mountain, 8 miles E of Poko Mountain and 44.5 miles NE of Mount Kelly, Brooks Range; 68° 47' 30" N, 162° 04' 30" W; (map 130). Eskimo name for the American Golden Eagle (*Aquila chrysaetos canadensis*), shown on a 1926 fieldsheet by Gerald FitzGerald, USGS. The Eskimo name means "largest bird [tingmiakpak]."

Tingo Shugarum: locality, see Pingoshugarun.

Tingook Ridge: ridge, see Tinguk Ridge.

Tingowaiak Island: island, see Boulder Shoals.

Tinguk Ridge: ridge, 600 ft., extends 4.5 miles along E bank of Mapsorak Creek, 18 miles SE of Cape Thompson, Arctic Slope; 68° 07' N, 165° 17' W; BGN 1963; (map 129). Variant: Tingook Ridge. Eskimo name meaning "liver [tinguq]" reported in 1950 by USC&GS as "Tingook."

Tinhorn Gulch: ravine, extends NE 1.5 miles to Greenhorn Gulch, 39 miles SW of Circle, Yukon-Tanana Highlands; 65° 26' 50" N, 145° 04' 10" W; (map 104). Named by prospectors; reported in 1896 by Spurr (1898, pl. 50), USGS.

Tinjik Lake: lake, 0.9 miles long, 1 mile SW of Below Tree Lake and 14 miles NE of Arctic Village, Brooks Range; 68° 19' N, 145° 19' W; (map 136). Kutchin Indian name obtained at Arctic Village in 1956 by T. E. Taylor, USGS.

Tinjikvun Lake: lake, 0.6 miles across, 6 miles NW of Venetie and 40 miles SW of Christian, Yukon Flats.; 67° 06' N, 146° 32' W; (map 122). Kutcha-kutchin Indian name obtained in 1956 by T. E. Taylor, USGS.

Tinnas Creek: stream, see Tenas Creek.

Tinplate Hill: hill, 3,440 ft., between Skolai Creek and Nizina Glacier, 24 miles NE of McCarthy, Wrangell Mountains; 61° 40' 00" N, 142° 24' 30" W; (map 67). Local name obtained by USGS and published on maps since 1954.

Tiny Island: island, 0.8 miles long, between Devils Cove and Kukak Bay, on E coast of Alaska Peninsula, in Katmai National Monument, 30 miles NE of Mount Katmai, Aleutian Range; 58° 20' 15" N, 154° 10' 00" W; (map 42). Local descriptive name; reported in 1951 by USGS.

Tiny Island: island, 2 miles long, in Dease Inlet, one of Kikiktak Islands, 32 miles SE of Barrow, Arctic Plain; 71° 00' 30" N, 155° 36' 00" W; (map 153). The origin of the name is unknown, but it appears to have been first used on Brit. Adm. charts compiled between 1843 and 1855.

Tiochpit Mountain: mountain, see Tiokpit Mountain.

Tiokpit Mountain: mountain, 2,000 ft., 3 miles N of junction of Paiyun Creek and Kanektok River and 72 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 56' N, 160° 22' W; (map 53). Variant: Tiochpit Mountain. Eskimo name published by J. E. Spurr and W. S. Post (in Spurr, 1900, map 10), USGS.

Tip Creek: stream, flows NE 9 miles to Flint Creek, 18 miles NE of Long, Nowitna Lowland; 64° 29' N, 154° 55' W; (map 98). Prospectors' name reported in 1912 by Eakin (in Brooks and others, 1913, pl. 10), USGS.

Tiplighak Bay: bay, see Tiflighak Bay.

Tipooktulearuk River: stream, flows S 19 miles to Inglutalik River, 23 miles SE of Haycock, Nulato Hills; 65° 00' N, 160° 33' W; (map 109). Eskimo name reported by the U.S. Army Corps of Engineers in 1949.

Tipping Point: point of land, W tip of Perry Island, of E side of Perry Passage, 22 miles ESE of Whittier, Chugach Mountains; 60° 43' 30" N, 148° 01' 05" W, (map 63). Local name reported in 1952 by USGS.

Tired Mountain: mountain, 2,575 ft., on Annette Island, 5 miles NE of Metlakatla, Alexander Archipelago; 55° 10' 08" N, 131° 28' 00" W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Tired Pup Creek: stream, heads at Tired Pup Glacier terminus, flows SE 14 miles to Stony River 21 miles NE of junction of Necons River, 62 miles N of Lake Clark, Alaska Range; 61° 17' N, 153° 47' W; (map 71). Name shown on a 1907 manuscript map probably done by a prospector.

Tired Pup Glacier: glacier, extends NW 5.5 miles at head of Tired Pup Creek, 4.5 miles SW of Mount Mausolus and 75 miles N of Lake Clark, Alaska Range; 61° 30' N, 153° 56' W; (map 71). Named in 1956 by Orth.

Tishdogatumina Lake: lake, 1.8 miles long, 1 mile W of Echoing Lake and 20 miles NW of Stevens Village, Yukon Flats; 66° 17' N, 149° 23' W; (map 118). Kutchin Indian name obtained in 1956 by T. E. Taylor, USGS.

Tishou River: stream, see Tisuk River.

Tiskeet Lake: lake, in Koyukuk River flats, 26 miles SW of Roundabout Mountain, Koyukuk Lowland; 65° 26' N, 157° 25' W; (map 108). Koyukan Indian name reported by USGS, in 1955.

Tisku River: stream, see Tsirku River.

Tisook River: stream, see Tisuk River.

Tisuk River: stream, flows W 22 miles to Bering Sea, 11 miles SE of Cape Douglas and 40 miles NW of Nome, Seward Peninsula Highlands; 64° 53' N, 166° 24' W; (map 94). Variant:

Tishou River, Tissook River. Eskimo name reported in 1900 as "Tisuk" by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Titaluk River: stream, heads at 69° 23' N, 157° 11' W, flows NE 180 miles to Ikpikpuk River, Arctic Plain; 69° 57' N, 154° 44' W; BGN 1925; (map 142). Variant: Teetaluk River, Teiteluk River. Named in 1924 by USGS; derived from the Eskimo name of a fish caught by Ens. W. L. Howard in June 1886. "Caught our first fish; native name Tee-tal-uk, scientific name, *Lota marculosa*" (Stoney, 1900, p. 74).

Titarlilik Lake: lake, see Etivlik Lake.

Titcliff Island: island, 0.5 miles long, in Wide Bay, N of Cape Kayakliut, on S coast of Alaska Peninsula, 43 miles SE of Ugashik, Aleutian Range; 57° 19' 45" N, 156° 20' 10" W; (map 36). Named in 1923 by USC&GS and published in the 1925 supplement to the 1916 Coast Pilot (p. 157).

Tithe Creek: stream, flows S 10 miles to Kanik River, 38 miles W of Dillingham, Kilbuck-Kuskokwim Mountains; 58° 59' 30" N, 159° 31' 30" W; (map 40). Local name reported in 1951 by USGS.

Titely Creek: stream, flows SE to Pargon River, 15 miles E of Council, Seward Peninsula Highlands; (map 110). Prospectors' name recorded on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This stream has not been positively identified.

Titna River: stream, heads on Sischu Mountain, flows W 80 miles to Nowitna River, 31 miles SE of Monzonite Hills, Kilbuck-Kuskokwim Mountains; 64° 22' N, 153° 38' W; (map 94). Local name reported in 1915 by H. M. Eakin (in Brooks and others, 1916, pl. 10), USGS.

Titnuk Creek: stream, flows N 45 miles to Holitna River, 25 miles S of Sleetmute, Stony River Lowland; 61° 21' N, 157° 03' W; BGN 1948; (map 72). Eskimo name reported in 1943 by USGS.

Tittmann Glacier: glacier, heads on Mount Tittmann and trends 7 miles SE to Anderson Glacier, 3 miles W of Alaska-Canada boundary and 65 miles SE of McCarthy, St. Elias Mountains; BGN 1917; 61° 07' N, 141° 05' W; (map 67). Named for Dr. Otto Hilgard Tittman, 1850-1938, former International Boundary Commissioner for the U.S.

Tittmann, Mount: peak, 9,400 ft., at head of Tittmann Glacier, 56 miles SE of McCarthy, St. Elias Mountains; BGN 1917; 61° 07' N, 141° 13' W; (map 67). See Tittmann Glacier.

Titukilsk: locality, see Nikishka No. 3.

Titus Creek: stream, heads on Titus Mountain, flows SE 20 miles to Koness River, 26 miles SE of Arctic Village, Brooks Range; 68° 01' 45" N, 144° 33' 30" W; (map 136). Local name reported in 1956 by R. C. Foley, USGS.

Titus Island: island, 0.4 miles long, in Halthmund Lake, 11 miles W of Northway, Alaska Range; 62° 58' N, 142° 19' W; (map 84). Local name reported in 1962 by USGS, so named because for years it has been claimed by the Titus clan of Indians as its trapping grounds.

Titus Lakes: lakes, group, extends 2.5 miles SE of Titus Paul Hill, W of Kalutna River, 25 miles SE of Tok, Yukon-Tanana Highlands; 63° 05' 30" N, 142° 21' 00" W; (map 85). Local name published by USGS in 1965. The lakes are considered the fishing grounds of the Titus clan of Indians.

Titus Mountain: peak, 5,307 ft., at head of Titus Creek, 17 miles NE of Arctic Village, Brooks Range; 68° 26' 30" N, 144° 56' 30" W; (map 136). Local name shown on a 1926 field sheet by Gerald FitzGerald, USGS.

Titus Paul Hill: hill, 2,113 ft., 8.3 miles E of Tetlin Lake, 23 miles SE of Tok, Alaska Range; 63° 07' N, 142° 24' W; (map 85). Local name reported by USGS in 1963. Probably named for one of the Titus Indian chiefs.

Tiunok: village, see Tyonek.

Tiurpa Island: island, 0.5 miles long, in Necker Islands, on W coast of Baranof Island, Alexander Archipelago; 56° 48' 50" N, 135° 25' 00" W; (map 5). Variant: Ostrov Tyurpa. Named in 1809 by the Russian navigator, Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Tyurpa," or "Tyurpa Island."

Tivehvun Lake: lake, 2 miles long, 3 miles N of Shovun Lake and 19 miles NW of Fort Yukon, Yukon Flats; 66° 50' N, 145° 22' W; (map 119). Kutchin Indian name obtained in 1956 by T. E. Taylor, USGS.

Tivlarak Bay: bight, see Dovelawik Bay.

Tivyagak Creek: stream, flows NW 8 miles to South Fork Goodnews River, 10 miles E of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 08' 45" N, 161° 18' 30" W (map 53). Eskimo name reported in 1954 by USGS.

Tiyaktalik Mountain: mountain, 1,840 ft., in Igichuk Hills, 13 miles NE of Cape Krusenstern. Kotzebue-Kobuk Lowland; 67° 14' 30" N, 163° 19' 30" W; (map 128). Eskimo name meaning "place where the weasel lives" according to USC&GS in 1950.

Tizhgelede: locality, see Tigshelde.

Tizhgelede: village, see Shageluk.

Tiznik: bay, see Chignik Bay.

Tkhalka, Ostrov: island, see Hinchinbrook Island.

Tkhalkhak: stream, see Stony River.

Tklik: locality, on right bank of Yukon River, 26 miles below Andreafsky, near mouth of Azacharum Slough, Yukon-Kuskokwim Delta; 62° 14' N, 163° 51' W; (map 77). Variant: Ta-clik, T'Click. Former Eskimo village or camp recorded as "Ta-clik," on "Edwards Track Chart of the Yukon," dated 1899.

Tkok: point of land and village, see Hope, Point and Point Hope.

Tlachkahiniku: stream, see Porcupine Creek.

Tlakinikut, Point: point of land, see Craven, Point.

Tlanak: locality, "in the Sitka country." Former Tlingit village or camp published in 1909 by J. R. Swanton, BAE, (Hodge 1910, p. 762).

Tlatek: locality, on right bank of Yukon River, 35 miles above Andrafsky, Yukon-Kuskokwim Delta; 62° 00' N, 162° 30' W; (map 74). Variant: Tlatekamat, Tlatekamute. Former Eskimo village or camp recorded in 1869 as "Tlatekamute" by Capt. Raymond (1871, p. 25).

Tlatekamat: locality, see Tlatek.

Tlatekamute: locality, see Tlatek.

Tlatekamute: settlement, see Takshak.

Tlatl Hills: range, NE spur of Kaiyuh Mountains, extends NE 40 miles, between Mud and Little Mud Rivers, 45 miles S of Galena and 50 miles SW of Nulato, Kilbuck-Kuskokwim Mountains; 64° 00' N, 157° 30' W; (map 90). Indian name reported in 1954 by USGS.

Tlatskokot: locality, see Camp Creek.

Tlatsqeqatna: stream, see Ground Surface Slough.

Tlechegn Lake: lake, 1 mile long, E of Kalutna River, between Fish Camp and Tsilchin Lakes, 26 miles SE of Tok, Alaska Range; 63° 09' 30" N, 142° 13' 30" W; (map 85). Indian name published by USGS in 1965.

Tlechopcity: water passage, see Tongass Port.

Tleekakeela River: stream, see Tlikakila River.

Tleekh: island, see Kruzof Island.

Tlegan River: river, southernmost of five rivers on delta of Alsek River, flows S into Gulf of Alaska, 50 miles SE of Yakutat, Malaspina Coastal Plain; 59° 07' N, 138° 30' W; (map 46). Variant: Reka Tlegan. Tlingit Indian name reported by Capt. Tebenkov (1852, map 7), IRN, as "R[eka] Tlegan", or "Tlegan River." This name is not shown on recent maps.

Tlegan, Reka: stream, see Tlegan River.

Tlegogitno: village, see Shageluk.

Tlegokokhkakat: locality, see Tleket.

Tlegon: locality, on Innoko River E of junction of its North Fork, Kilbuck-Kuskokwim Mountains; 63° 48' N, 156° 30' W; (map 90). Former Indian village reported in 1838 b). F. Kolmakov, and 1842-44 by Lt. L. A. Zagoskin, IRN.

Tlegoshitno: village, see Shageluk.

Tlegozhitno: village, see Shageluk.

Tlegu Beach: beach, N of Tanani at head of Chilkoot Inlet, 14 miles S of Skagway, Coast Mountains; 59° 16' 25" N, 135° 26' 30" W; (map 45). Tlingit Indian name published in 1923 on IBC Sheet 9 (1951 atlas).

Tlehini River: stream, see Klehini River.

Tlehonsiti: water passage, see Tongass Port.

Tleket: locality, on Innoko River, between the junctions of its North Fork and Iditarod River. Innoko Lowland; (map 90). Variant: Kkholikakat. Tlegokokhkakat, Tlek-et. In 1842-44 Lt. L. A. Zagoskin reported three Indian villages or camps in this area. They were named Kkholikakat, Tlegokokhkakat, and Tlek-et.

Tlekunuwu Point: point of land, see Lehunua Point.

Tlevach Strait: water passage, see Tlevak Strait.

Tlevak Inlet: water passage, see Klawak Inlet.

Tlevak Narrows: water passage, 0.5 miles long. between Dall and Prince of Wales Islands, in N entrance to Tlevak Strait, Alexander Archipelago. 55° 16' N, 133° 07' W; BGN 1934; (map 4). Variant: The Skookum Chuck. Name published in 1902 by USGS. USC&GS reported in 1932 that this feature is locally known as "The Skookum Chuck." See Salt Chuck, village.

Tlevak Strait: water passage, extends SE 28 miles from Meares Passage to Cordova Bay, between Dall and Sukkwan Islands, Alexander Archipelago; 55° 02' N, 132° 58' W; BGN 1939; (maps 1 and 4). Variant: Proliv Tlevaak, Tlevach Strait. Tlevak Straits, Tlevakan Bay. "The name Tlevaak Strait appears to be due to [Capt. M. D.] Tebenkov [IRN], and may have its origin in the same root as the name of Klahuak [Klawock] settlement and Tlevakhan Gulf [Klawak Inlet] farther north" (USC&GS, 1883, p. 69). The name was published in 1852 as "Proliv Tlevaak," i.e. "Tlevaak Strait," by the Russian Hydrog. Dept. on Chart 1493.

Tlevak Straits: water passage, see Tlevak Strait.

Tlevak, Proliv: water passage, see Tlevak Strait.

Tlevak: village, see Klawock.

Tlevakan Bay: water passage, see Tlevak Strait.

Tlevakh Inlet: water passage, see Klawak Inlet.

Tlevakkhan, Zaliv: water passage, see Klawak Inlet.

Tlevakkhyn Bay: water passage, see Klawak Inlet.

Tlewak: village, see Klawock.

Tliagenadeden: locality, see Parks.

Tliagenaleden: locality, see Parks.

Tliakinikut, Point: point of land, see Craven, Point.

Tlialil-kakat: locality, see Tlialil.

Tlialil: locality, on left bank of Yukon River near mouth of Patsy Slough, 3.5 miles NE of Nulato, Koyukuk Lowland; 64° 45' N, 158° 00' W; (map 97). Variant: Tlialil-kakat, Tljaliikachat. Former Indian village or camp reported in 1842-44 as "Tlialil-kakat" by Lt. L. A. Zagoskin. In the 1880 Census Petroff (1884, p. 37). recorded a population of 27 in 3 houses.

Tliankhini, Point: point of land, see Craven, Point.

Tlickearrik: locality, see Klikitarik.

Tlicketawik: locality, see Klikitarik.

Tlieshitna River: stream, see Tazlina River.

Tlikakila River: stream, flows SW 50 miles from its head at Summit Lake to Little Lake Clark, 45 miles NE of Nondalton, Aleutian Range; 60° 23' 30" N, 153° 48' 30" W; BGN 1910; (map 61). Variant: Klikakillah Creek, Big River, Bulshi River, Chickalachno River, Tleekakeela River. Tanaina Indian name reported as "Tleekakeela" in 1902 by W. H. Osgood, USDA.

Tlikakila River: stream, heads at glacier terminus, flows NW 15 miles to Two Lakes, 88 miles W of Tyonek, Alaska Range; 61° 08' 30" N, 153° 44' 50" W; (map 71). Variant: Big River, Bulshi River, Chicakalchno, Klikakillah, Tleekakeela. Tanaina Indian name reported in 1902 by W. H. Osgood, USDA, as "Tleekakeela."

Tlingit Peak: mountain, 3,274 ft., in Glacier Bay National Monument, 1.6 miles E of mouth of Tyndall Cove on Geikie Inlet and 48 miles NW of Hoonah, St. Elias Mountains. 58° 37' 00" N, 136° 20' 20" W; (map 10). Name reported in 1951 by USGS: named "for the Tlingit Indians."

Tlingit Point: point of land, at mouth of Muir Inlet, in Glacier Bay National Monument, 52 miles NW of Hoonah, St. Elias Mountains; 58° 45' 20" N, 136° 10' 30" W; BGN 1937; (map 10). Variant: Thlingit Point. Named Thlingit Point in 1936 by W. S. Cooper (1937, p. 62 and pl. 1) for the Tlingit Indians who lived in this area.

Tlis-kon, Mount: mountain, see Kliskon, Mount.

Tlistee: locality, "in the north part of the Tlingit territory, * * * definite locality unknown." Variant: L!isti. Former Tlingit village or camp reported as L!isti by J. R. Swanton, BAE (Hodge, 1910, p. 765).

Tlitlna: stream, see Herb Creek.

Tljalilkachat: locality, see Tlialil.

Tlocogn Lake: lake, 1 mile long, on S bank of Tanana River, 26 miles SE of Tok, Alaska Range; 63° 09' N, 142° 13' W; (map 85). Indian name published by USGS in 1964.

Tlozhavun Lake: lake, 1 mile long, 6 miles SW of Twelvemile Lake and 17 miles SW of Fort Yukon, Yukon Flats, 66° 24' 20" N, 145° 44' 00" W; (map 119). Kutchin Indian name obtained in 1956 by T. E. Taylor, USGS.

Tluhashaiyikan: locality, "in the Sitka country." Variant: L!luxacaiyik-an. Former Tlingit village reported as "L!luxa'caiyik-an, town straight opposite Mt. Edgecombe" by J. R. Swanton, BAE (Hodge, 1910, p. 766).

Tlukatsukot: lake, see Skinny Fish Lake.

Tluna Icefall: icefall, of 800 ft., in Mount McKinley National Park, extends N 0.8 miles between Peters Basin and Peters Glacier, 6 miles NW of summit of Mount McKinley, Alaska Range. 63° 08' N, 151° 07' W; (map 88). Name reported about 1952 by USGS.

Tlushashakian: locality, at or near Cape Spencer, St. Elias Mountains; 58° 13' N, 136° 39' W; (map 10). Variant: Klughuggue. Former native village reported as "L!uca'cak!i-an, town on top of a sand hill" by J. R. Swanton, BAE (Hodge 1910, p. 766).

Tlutlertaut: locality, see The Forks.

Tlyakhini, Mys: point of land, see Craven, Point.

Tlyakhinikut, Mys: point of land, see Craven, Point.

Tmaktogmiut: locality, on E shore of Norton Sound, E of Besboro Island, Nulato Hills; (map 96). Eskimo village or camp published in 1861 by P. Tikhmeniev of the Russian American Company. The name does not appear on any other available map.

To-lah-gah: mountain, see McKinley, Mount.

To-pan-i-kwa: locality, see Topanika.

To-toy-lon Mountains: mountains, see Totoilon Mountains.

Toadstools, The: islands, in Iniskin Bay, 21 miles N of Augustine Island, Aleutian Range; 59° 20' 00" N, 153° 24' 30" W; BGN 1916; (map 51). Named by USC&GS in 1914.

Toatut: locality, see Espenberg.

Toaulevik Point: point of land, see Toawlevic point.

Toawlevic Point: point of land, on Seward Peninsula, extends into Kotzebue Sound, 7 miles NW of Deering, Kotzebue-Kobuk Lowland; 66° 06' N, 162° 57' W; (map 113). Variant: Gullhead Point, Toaulevik Point. Eskimo name reported in 1950 by USGS.

Tobacco Hill: hill, see Loud Hill.

Tobatokh Creek: stream, flows NE and SE 12 miles to Melozitna River, 2 miles N of Norseman Lake and 51 miles NW of Tanana, Kokrines-Hodzana Highlands; 65° 49' 30" N, 152° 56' 00" W; (map 106). Koyukan Indian name obtained in 1956 at Hughes by Orth.

Tobin Creek: stream, flows SE 5 miles to Wild River, 5 miles S of Tobin Mountain and 36 miles NW of Wiseman, Brooks Range; 67° 34' 20" N, 151° 28' 00" W; BGN 1932; (map 124). Named for August Tobin, a prospector in the early 1900's; reported by Robert Marshall in 1932.

Tobin Creek: stream, flows WSW 7 miles to Chandalar Lake, 1.5 miles N of Chandalar, Brooks Range; 67° 31' N, 148° 29' W, (map 123). Named for August L. Tobin, who prospected in the area from 1898 to 1919: reported by A. G. Maddren (in Brooks and others, 1910, pl. 7), USGS.

Tobin Mountain: mountain, 4,460 ft., 6 miles NNE of Sirr Mountain and 40 miles NW of Wiseman, Brooks Range; 67° 39' 15" N, 151° 32' 00" W; BGN 1932; (map 124). See Tobin Creek.

Tobin Pass: pass, 3,200 ft., between drainage basins of Big Creek and North Fork Chandalar River, 6 miles E of Chandalar, Brooks Range; 67° 30' N, 148° 17' W; (map 123). Locally named for August L. Tobin, who was a prospector in this area from 1898 to 1919.

Tobit Creek: stream, flows S 0.6 miles to Ogotoruk Creek, N of Mitik Creek, 6.5 miles SE of Cape Thompson, Arctic Slope; 68° 06' 50" N, 165° 44' 20" W; BGN 1963; (map 129). Name reported in 1962 by personnel of Project Chariot.

Toboggan Glacier: glacier, trends N 2.3 miles to its terminus at head of a stream which drains into Harriman Fiord, 56 miles SE of Anchorage, Chugach Mountains; 61° 02' 20" N, 148° 16' 45" W; (map 69). Named in 1899 by members of the Harriman Alaska Expedition.

Tobona: locality, on N shore of Cook Inlet at North Foreland, 2 miles S of Tyonek, Cook Inlet Lowland; 61° 02' 40" N, 151° 11' 15" W; BGN 1961; (map 70). Variant: Moquawkie, Tyonek Town. Name of a former Tanaina Indian village, supposedly meaning "people of the beach," reported by USGS in 1958.

Tobuk Creek: stream, flows S 28 miles through Iniakuk Lake to Malamute Fork Alatna River, Brooks Range; 67° 04' N, 153° 10' W; BGN 1932; (map 125). Named by Robert Marshall in 1931 for "Old Tobuk," a Kobuk Eskimo then living at Alatna.

Toby Creek: stream, heads at glacier terminus, flows NW 3.3 miles to Chitistone River, 3.1 miles NE of junction with Glacier Creek, 21 miles NE of McCarthy, Wrangell Mountains; 61° 29' N, 142° 18' W; (map 67). Local name reported in 1907 by D. C. Witherspoon, USGS. Name may have been derived from “tebay” which Lt. Allen (1887, p. 54), USA, says is an Indian word for “a variety of sheep.”

Toby Creek: stream, in Nutzatin Mountains, flows NW 2.7 miles to Chathenda Creek, 4.2 miles N of Beaver Lake, Alaska Range; 62° 06' 10" N, 141° 46' 15" W; (map 84). Local name reported by USGS in 1960.

Tochatno, Reka: stream, see Takotna River.

Tochidack: island, see Tugidak Island.

Tochilnoi: point of land, see Tachilni, Cape.

Tochotno, Reka: stream, see Takotna River.

Tochotno: locality, on Kuskokwim River. Former Indian village reported in 1842-44 by Lt. L. A. Zagoskin, quoted in the 1880 Census with a population of 9, by Petroff (1884, p. 37).

Tochtlik: locality, see Toklik.

Toclat River: stream, see Kantishna River.

Toclat River: stream, see Toklat River.

Todatonten, Lake: lake, 3.5 miles long, 29 miles SW of Allakaket, Kokrines-Hodzana Highlands; 66° 09' N, 152° 56' W; BGN 1960; (map 117). Variant: Lake Mentanontle, Lake Mentanontli, Mentanontlekakat Lake, Mentantlekakat Lake, Tatatontly Lake, Todatonten Lake. Koyukan Indian name reported in 1885 by Lt. Allen (1887, p. 96), USA, as “Tatatontly Lake.” His map however, showed “Mentanontlekakat Lake,” obviously a cartographer's error, for he writes “The outlet of this lake has the euphaneous name of 'Mentanontlekakat.' The ending '-kakat' means 'mouth of.'” The present spelling of the name was reported by Orth in 1956.

Todd Creek: stream, flows N 5.5 miles to Charley River 14 miles SW of that stream's junction with Yukon River, Yukon-Tanana Highlands; 65° 08' N, 142° 57' W; (map 103). Prospectors' name from an unpublished map by E. J. Chamberlain, dated 1902.

Todd: settlement, pop. 5, on Chichagof Island, 9 miles W of Chatham Strait and 27 miles NW of Baranof, Alexander Archipelago; 57° 27' 40" N, 135° 02' 30" W; (map 9). Name of a former cannery; published by USC&GS in the 1943 Alaska Coast Pilot (p. 378).

Toe Point: point of land, at S tip of Harbor Island, 35 miles SW of Seward, Chugach Mountains; 59° 38' 31" N, 149° 39' 50" W; BGN 1930; (map 49). So named by the 1912 USC&GS field party, “because of its shape.”

Tofty Gulch: stream, flows SE 1.1 miles to Sullivan Creek, 0.9 miles SW of Tofty and 35 miles ESE of Tanana, Yukon-Tanana Highlands; 65° 05' 00" N, 150° 53' 40" W; (map 106). Named for A. F. Tofty who discovered gold here in 1909; reported in 1931 by J. B. Mertie, USGS. See Tofty, locality.

Tofty: locality, summer pop. 6, on E bank of Sullivan Creek, 7 miles SW of Roughtop Mountain and 35 miles ESE of Tanana, Yukon-Tanana Highlands; 65° 05' 35" N, 150° 53' 00" W; (map 106). Mining camp developed as a supply point for the Sullivan Creek workings about 1908. A post office was established in 1908; discontinued in 1943 (Ricks, 1965, p. 65). Named for A. F. Tofty who discovered gold in the area, and is reported to have taken out 376 ozs. in 6 weeks. He died in British Guiana in 1923.

Togaik Bay: bay, see Togiak Bay.

Togiagamiut: village, see Togiak.

Togiagamut: village, see Togiak.

Togiagamute: village, see Togiak.

Togiak Bay: bay, extends SW 18 miles from Togiak River to Hagemeister Island and E 25 miles from Tongue Point to mouth of Neguthlik River, Kilbuck-Kuskokwim Mountains; 58° 51' N, 160° 30' W; (map 39). Variant: Togaik Bay, Towogiak Bay, Zaliv Tugiak, Zaliv Tugiyak. Eskimo name reported in 1849 as "Zaliv Tugiak," meaning "Tugiak Bay," by Capt. Tebenkov (1852, map 4), IRN. It was called "Togiak Bay" by Ivan Petroff in 1880 Census.

Togiak Lake: lake, extends SW 13 miles from mouth of Izavieknik River, 75 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 32' N, 159° 42' W; (map 53). Variant: Kagan Lake, Ozero Tugiak. Eskimo name reported as "Oz[ero] Tugiak" meaning "Lake Tugiak" by Lt. Sarichev, (1826, map 3), IRN.

Togiak River: stream, heads at Togiak Lake, flows SW 48 miles to Togiak Bay, 2 miles E of Togiak and 45 miles E of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 03' N, 160° 21' W; (map 53). Variant: Reka Tugiyak, Tugiak River. Eskimo name reported as "R[eka] Tugiyak," or "Tugiak River," by Capt. Tebenkov (1852, map 3), IRN. It was called "Togiak River" by Ivan Petroff in the 1880 Census.

Togiak Village: village, see Togiak.

Togiak: village, pop. 220, at head of Togiak Bay, 2 miles W of mouth of Togiak River and 43 miles E of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 04' N, 160° 24' W; (map 53). Variant: Nasauguluk, Owens, Selo Tugiak, Selo Tugiatak, Tagiak, Togiagamiut, Togiagamut, Togiagamute, Togiakamut, Togiak Village. Eskimo village name reported as "S[elo] Tugiatak," or "Tugiak Village," by Lt. Sarichev (1826, map 3); and as "S[elo] Tugiak" by Capt. Tebenkov (1852, map 4), IRN. In 1880 Petroff (1881, p. 48). recorded two villages, "Togiagamute," population 276 (94 in 1890). and "Togiak Station," population 28 (14 in 1890), both located, on his map, E of the mouth of the river about 7 miles apart. The southernmost "Togiak Station" has been called "Owens," named, according to Frank Waskey, local trader and prospector, for Johnny Owens who operated this important trading post.

"Togiak Village" was published in the 1947 Coast Pilot (p. 530). The population was 71 in 1945 and 108 in 1950.

Togiakamut: village, see Togiak.

Togiakpak: locality, on Tagayarak River at mouth of Jew River, 8 miles SW of Helmick Point and 48 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 16' N, 162° 41' W; (map 58). Eskimo name reported in 1949 by USC&GS.

Togiaratsorik: locality, on left bank of Kuskokwim River near its mouth, Yukon-Kuskokwim Delta; 60° 33' N, 162° 12' W; (map 58). Variant: Taghiaratzoriamute, Togiarihazoramute. Former Eskimo village or camp recorded as "Taghiaratzoriamute" on the 1880 Census map by Ivan Petroff.

Togiarhazoramute: locality, see Togiarsorik.

Toglik Mountain: mountain, 1,361 ft., 2 miles NE of Dome Mountain and 9 miles SE of Goodnews Kilbuck-Kuskokwim Mountains; 59° 05' 30" N, 161° 21' 00" W; (map 53). Eskimo name reported in 1954 by USGS.

Togoyuk Creek: stream, flows NW 9 miles to Killik River, N of Mayukuit Mountain, Brooks Range; 68° 14' N, 154° 06' W; (map 133). Eskimo name reported in 1956 by T. E. Taylor, USGS.

Togrorurak: hill, see Sakrorak Mountain.

Tohitkah Mountain: mountain, 5,750 ft., 5.5 miles N of junction of Kelsall and Chilkat Rivers, 28 miles NW of Skagway, St. Elias Mountains; 59° 36' 35" N, 136° 03' 10" W; (map 45). Tlingit Indian name given by E. C. Robertson, geologist; published in 1952 by USGS.

Tohnokalong: locality, on right bank of Yukon River, 30 miles ENE of Ruby, Nowitna Lowland; 64° 57' N, 154° 26' W; (map 98). Former Indian village name published by Hodge (1910, p. 771), BAE.

Tohwun-nukakat: stream, see Birch Creek.

Toik Hill: mountain, 1,298 ft., 6.5 miles SE of Klikitarik and 36 miles SW of Unalakleet, Nulato Hills, 63° 25' 30" N, 161° 18' 00" W; (map 91). Variant: Tok Hill. Eskimo name reported in 1898 by USC&GS.

Tok Glacier: glacier, trends SE 3 miles to its terminus at head of Tok River, 38 miles SW of Tok, Alaska Range; 63° 08' N, 144° 09' W; (map 86). Name reported in 1952 by USGS.

Tok Hill: mountain, see Toik Hill.

Tok Junction: village, see Tok.

Tok River: stream, heads at glacier terminus, flows NE 60 miles to Tanana River, 5 miles NE of Tok, Alaska Range; 63° 22' N, 142° 50' W BGN 1936; (map 85). Variant: Takai River, Tokai

River, Tokio River. Indian name reported in 1885 as "Tokai River" by Lt. Allen (1887, p. 78), USA. "Tok River" was reported in 1901 by Brooks (1900a, p. 451), USGS.

Tok-HeHe Creek: stream, see Tokhini Creek.

Tok-Hene Creek: stream, see Tokhini Creek.

Tok-Hene: locality, see Old Token.

Tok-kakat: locality, see Tok.

Tok-khakat: locality, see Tok.

Tok: locality, on Koyukuk Island at junction of Koyukuk and Yukon Rivers, Koyukuk Lowland; 64° 54' N, 157° 35' W; (map 97). Variant: Tokhakate, Tok-kakat, Tok-khakat. Former Indian village or camp reported as "Tokhakate," population 6 in 1844 by Lt. L. A. Zagoskin.

Tok: village, pop. 129, at junction of Alaska and Glenn Highways, 5 miles SW of junction of Tok and Tanana Rivers and 12 miles SE of Tanacross, Alaska Range; 63° 20' N, 142° 59' W; (map 85). Variant: Tok Junction. Tok, which took its name from the nearby stream, developed since the building of the Alaska and Glenn Highways in the 1940's. The U.S. Customs and Immigration office is located here.

Tokai River: stream, see Tok River.

Tokaina Creek: stream, flows NNW 9 miles to Tazlina Lake, 56 miles N of Valdez, Chugach Mountains; 61° 55' 00" N, 146° 24' 50" W; (map 68). Name shown on a manuscript map by USGS dated 1917.

Tokatjikh Creek: stream, flows SE 13 miles to Melozitna River, 4 miles S of Tokatjikh Hill, 39 miles NNE of Birches, Kokrines-Hodzana Highlands; 65° 39' 35" N, 153° 02' 30" W; (map 107). Koyukan Indian name obtained at Huslia in 1956 by Orth.

Tokatjikh Hill: hill, 1,488 ft., E of Tokatjikh Creek and N of Melozitna River, 43 miles NNE of Birches, Kokrines-Hodzana Highlands; 65° 43' 15" N, 153° 03' 00" W; (map 107). Koyukan Indian name obtained at Huslia in 1956 by Orth.

Tokchouk Channel: water passage, see Tukchuk Channel.

Tokchouk: locality, see Tuksuk.

Tokeatl's Village: locality. Former Indian summer camp reported in the 1880 Census with a population of 26, by Petroff (1884, p. 32).

Token Bay: bay, 3 miles across, on S coast of Kosciusko Island, Alexander Archipelago; 56° 00' N, 133° 25' W; (map 6). Indian name published by USC&GS in 1925 Coast Pilot (p. 163). See Token.

Tokeen Cove: bay, 0.6 miles across, on NW coast of Marble Island, Alexander Archipelago; 55° 59' 45" N, 133° 28' 30" W; (map 4). Local name published in 1964 on USC&GS Chart 8171.

Tokeen Peak: mountain, 2,352 ft., between Davidson Inlet and Tokeen Bay, on SE coast of Kosciusko Island, Alexander Archipelago; 56° 02' 45" N, 133° 25' 45" W; (map 6). Indian name published in 1943 by USC&GS. See Tokeen.

Tokeen: locality, see Old Tokeen.

Tokeen: village, on W coast of El Capitan Island, 33 miles NW of Craig, Alexander Archipelago; 55° 56' 15" N, 133° 19' 30" W; (map 4). Variant: New Tokeen. This settlement was probably established by the former residents of Old Tokeen, 7 miles to the northwest, when the marble quarry there was abandoned in the late 1930's. It has a store, an ice and cold-storage plant, and a floating shrimp cannery (U.S. Coast and Geodetic Survey, 1962, p. 97). The name "New Tokeen" was recorded in 1949 by USGS.

Tokhakate: locality, see Tok.

Tokhakklanten Lake: lake, see Tokhaklanten, Lake.

Tokhaklanten, Lake: lake, 2.5 miles long, 16 miles NW of Hughes, Hogatza Highlands; 66° 12' N, 154° 42' W; (map 116). Variant: Tokhakklanten Lake. Indian name recorded at Hughes in 1956 by Orth.

Tokhin: locality, see Old Tokeen.

Tokhini: locality, see Old Tokeen.

Tokichitna Glacier: glacier, see Tokositna Glacier.

Tokichitna River: stream, see Tokositna River.

Tokini Creek: stream, flows E 1.8 miles to El Capitan Passage, on NE coast of Kosciusko Island, Alexander Archipelago; 56° 07' 30" N, 133° 17' 30" W; (map 6). Variant: Tok-Hene Creek, Tok-Hene Creek. Tlingit Indian name "adopted by the fisheries" and reported in 1897 by Lt. Comdr. J. F. Moser, USN, as "Tok-Hehe Creek" and in 1901 as "Tok-Hene Creek." This name is from the words "Tok" and "Hin" meaning "Tok River." See Tokeen.

Tokio River: stream, see Station Creek.

Tokio River: stream, see Tok River.

Tokisha Mountains: ridge, see Tokosha Mountains.

Toklat River: stream, flows NW 85 miles to Kantishna River 50 miles E of the Bitzshtini Mountains, Minto Flats; 64° 27' 15" N, 150° 18' 45" W; (map 99). Variant: Toclats River, Tutlut River. Tanana Indian name reported as "Toclats River" in 1885 by Lt. H. T. Allen, USA, with the translation, "dish water" (1887, p. 85). Lt. Allen applied the name to the stream presently

known as Kantishna River and the name "Toklat" is relegated to a major tributary of the Kantishna. This is probably the same name spelled "Tutlut" by Ivan Petroff in 1880.

Toklat River: stream, see Sushana River.

Toklat: locality, in Mount McKinley National Park, on W bank of Toklat River at Denali Highway, 10 miles NE of Eielson Visitor Center, Alaska Range; 63° 31' 10" N, 150° 02' 45" W; (map 88). Published in 1932 by ARC.

Toklat: locality, on left bank of Kantishna River near junction of Toklat River, Tanana Lowland; 64° 28' N, 150° 20' W; (map 99). Former settlement and river landing which, named for the Toklat River, had a population of 44 in 1930.

Toklik: locality, on N bank of Yukon River 16 miles SW of Russian Mission, Yukon-Kuskokwim Delta; 61° 37' 15" N, 161° 41' 50" W; (map 73). Variant: Bennetts, Tochtlik, Toklikmute. Eskimo name shown on a 1916 field sheet by R. H. Sargent, USGS. Sargent shows three cabins here, but present maps show one. Hrdlicka (1943, p. 234). refers to it as "a small live village," called "Tochtlik," in 1929.

Toklikmute: locality, see Toklik.

Tokomarik Mountain: mountain, 1,131 ft., 12 miles E of Cape Newenham and 30 miles W of Hagemeister Island, Kilbuck-Kuskokwim Mountains; 58° 38' 30" N, 161° 51' 15" W; (map 39). Eskimo name published in 1948 by USGS.

Tokopna River: stream, see Takotna River.

Tokosha Mountains: ridge, 6,000 ft., extends NE-SW 8 miles between Ruth and Tokositna Glaciers, 26 miles NW of Talkeetna, Alaska Range; 62° 42' N, 150° 37' W; BGN 1962; (map 81). Variant: Tokisha Mountains. Tanaina Indian name meaning "treeless mountains (or treeless area)," given in 1906 By the Cook-Parker Expedition "after the Tokositna River" (Browne, 1913, p. 54, 66).

Tokoshitna River: stream, see Tokositna River.

Tokositna Glacier: glacier, heads E of Mount Hunter and trends SE 23 miles to its terminus at head of Tokositna River, 32 miles NW of Talkeetna, Alaska Range; 62° 40' N, 150° 47' W; BGN 1962; (map 81). Variant: Tokichitna Glacier. Named after the river by the Cook-Parker Expedition in 1906.

Tokositna River: stream, heads at Tokositna Glacier, flows SE and NE 41 miles to Chulitna River, 25 miles NW of Talkeetna, Cook Inlet Lowland; 62° 40' 45" N, 150° 17' 00" W; BGN 1962; (map 81). Variant: Tokichitna River, Tokoshitna River. Tanaina Indian name meaning "stream from treeless area;" reported to A. H. Brooks in 1902 by prospector George Aberhardt.

Tokotna: village, see Takotna.

Tokshook Channel: water passage, see Tuksuk Channel.

Tokshook: locality, see Tuksuk.

Toksook Bay: village, pop. 160, on Nelson Island, 6.5 miles SE of Tanunak, Yukon-Kuskokwim Delta; 60° 31' 45" N, 165° 06' 00" W; BGN 1965; (map 57). Eskimo village established in 1964 when most of the population of Nightmute moved to this new location.

Toksook River: stream, heads in Kaluyut Mountains, flows SW 35 miles to Kangirlvar Bay, 110 miles SW of Bethel, on Nelson Island, Yukon-Kuskokwim Delta; 60° 30' N, 165° 00' W; (map 58). Variant: Tuksuk River, Tooksook River. Eskimo name reported in 1949 by USC&GS.

Tokun Creek: stream, flows N 1.5 miles to Lake Tokun, 16 miles NE of Katalla, Chugach Mountains; 60° 24' N, 144° 17' W; (map 64). Indian name reported in 1903 by G. C. Martin, USGS.

Tokun Ridge: ridge, 1,900 ft., extends 3.5 miles, along E side of Lake Tokun, 18 miles NE of Katalla, Chugach Mountains; 60° 24' N, 144° 15' W; (map 64). Local name reported on a GLO plat of the Bering River Coal Field in 1915. Name derived from nearby Tokun Lake and Tokun Creek.

Tokun, Lake: lake, 1.5 miles long, 16 miles NE of Katalla, Chugach Mountains; 60° 24' N, 144° 18' W; (map 64). Indian name reported in 1903 by G. C. Martin, USGS.

Tokusatatkuaten Lake: lake, see Tokusatatkuaten Lake.

Tokusatatkuaten Lake: lake, 1.3 miles across, 4 miles E of Sithylemenkat Lake and 56 miles SE of Bettles, Brooks Range; 66° 07' N, 151° 11' W; (map 117). Variant: Tokusatatkuaten Lake. Koyukan Indian name obtained in 1956 at Allakaket by Orth as "Tokusatatkuaten;" published as above.

Tolageak: locality, site of Eskimo village, on Kasegaluk Lagoon, at S point of entrance to Utukok River, 24 miles SW of Icy Cape, Arctic Plain; 70° 02' N, 162° 27' W; (map 146). Smith and Mertie (1930, p. 103), USGS, noted that "there are a great number of abandoned sod huts and igloos that mark the site of what was once a native village of considerable size." The name was reported in 1965 to Orth to mean "landing place."

Tolaktovut Point: point of land, extends N into Harrison Bay from the Colville River Delta, Arctic Plain; 70° 27' 50" N, 150° 54' 20" W; (map 149). Eskimo name referring to "a place where boats are landed," reported in 1951 by USC&GS.

Tolavana: village, see Tolovana.

Tolch Rock: hill, 0.5 miles W of S end of Mendenhall Lake and 10 miles NW of Juneau, Coast Mountains; 58° 25' N, 134° 36' W; (map 11). Local name published by USGS in 1962.

Toledo Harbor: bay, 0.2 miles across, 8.5 miles N of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 22' 25" N, 134° 38' 00" W; (map 5). Local name used by fishermen; published in 1925 by USC&GS.

Tolishden Slough: stream, flows NE 10 miles to Koyukuk River, 7 miles SW of Roundabout Mountain, Koyukuk Lowland; 65° 27' N, 156° 39' W; (map 108). Koyukan Indian name reported by USGS in 1955.

Tollison Lake: lake, see Question Lake.

Tolookuk Creek: stream, see Kahgeatak Creek.

Tolookuk Creek: stream, see Tulugak Creek.

Tolovana Hot Springs Dome: mountain, 2,386 ft., N of Tolovana Hot Springs, 20 miles SW of Livengood, Yukon-Tanana Highlands; 65° 17' N, 148° 54' W BGN 1962; (map 105). Variant: Hot Springs Dome. Originally named Hot Springs Dome about 1906 by prospectors for the nearby hot springs. However, the present name was suggested to differentiate the mountain from another Hot Springs Dome.

Tolovana Hot Springs: springs, W of Tolovana River, 20 miles SW of Livengood, Yukon-Tanana Highlands; 65° 16' N, 148° 52' W; (map 105). Variant: Hot Spring, Hot Springs. Local name derived from Tolovana River; Published in 1906 by USGS.

Tolovana River: stream, heads at junction of Livengood and Olive Creeks, flows SW 117 miles to Tanana River, 64 miles W. of Fairbanks, Tanana Lowland; 64° 51' N, 149° 50' W; (map 100). Variant: Nilkoka River, Tolovana River. A Tanana Indian name reported in 1902 by A. H. Brooks and D. L. Reaburn, USGS. The stream had been given the Indian name "Nilkoka" by W. J. Peters and A. H. Brooks in 1898.

Tolovana River: stream, see Chatanika River.

Tolovana: village, pop. 13, on right bank of Tanana River, near mouth of Tolovana River, 64 miles W of Fairbanks, Tanana Lowland; 64° 51' 15" N, 149° 49' 25" W; Variant: Tolavana, Tolvano, Hootana. Named "Tolavana" by the U.S. Army Signal Corps in 1903. A postmaster was appointed the same year and the post office was tentatively called Hootana, but when the post Office was finally established the following year, it was given the name "Tolovana," for the stream. The post office was discontinued in 1957 (Ricks, 1965, p. 66).

Tolovana River: stream, see Tolovana River.

Tolovano: village, see Tolovana.

Toloviksak River: watercourse, see Talbiksok River.

Tolson Creek: stream, flows NW 12 miles to Sanona Creek, 13 miles SE of junction of Oshetna and Susitna Rivers, Talkeetna Mountains; 62° 28' 15" N, 147° 12' 20" W; (map 82). Local name reported in 1951 by USGS.

Tolson Mountain: mountain, see Totson Mountain.

Tolsona Creek: stream, heads in lake, flows SE 30 miles to Tazlina River, 15 miles W of Glennallen, Copper River Basin; 62° 04' N, 146° 00' W; (map 83). Variant: Tolsona River. Indian name reported by USGS (Brooks end others, 1915,p. 124).

Tolsona Lake: lake, 1.3 miles long, N of Glenn Highway, 17 miles W of Glennallen, Cooper River Basin; 62° 07' N, 146° 03' W; (map 83). Local name published in 1951 by USGS.

Tolsona River: stream, see Tolsona Creek.

Tolstie: point of land, see Tolstoi Point.

Tolstoi Bay: estuary, extends S 4 miles off Clarence Strait, on E coast of Prince of Wales Island, at head of Kasaan Peninsula, Alexander Archipelago; 55° 40' N, 132° 26' W; (map 4). Descriptive Russian name meaning “broad,” given in 1882 by Lt. Comdr. H. E. Nichols, USN.

Tolstoi Bay: locality, site of a fishing station on E coast of Prince of Wales Island, in Thorne Bay; 55° 41' 30” N, 132° 33' 00” W; (map 4). The name of this former fishing station was first published in the 11th Census (1893, p. 30); derived from Tolstoi Point. See Tolstoi Point.

Tolstoi Cape: point of land, see Tolstoi Point.

Tolstoi Creek: stream, heads in Beaver Mountains at 62° 57' N, 157° 01' W, flows N 75 miles to Dishna River 11 miles S of its junction with Innoko River, 32 miles NW of Ophir and 61 miles NW of McGrath, Innoko Lowland; 63° 27' N, 157° 16' W; (map 90). Variant: Tolstoi River. Prospectors' name obtained in 1908 by Maddren (1910, pl. 1), USGS.

Tolstoi Island: island, 500 ft., long, in Clarence Strait, on E coast of Prince of Wales Island, 1.5 miles NE of Thorne Head, Alexander Archipelago; 55° 41' 45” N, 132° 25' 40” W; (map 4). Descriptive Russian name. Sec Tolstoi Bay.

Tolstoi Mountain: mountain, 1,910 ft., near head of Kasaan Peninsula, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 38' 45” N, 132° 23' 00” W; (map 4). Named in 1914 by A. H. Brooks, USGS. See Tolstoi Point.

Tolstoi Peak: mountain, 1,700 ft., near E entrance of Pavlof Bay, near SW end of Alaska Peninsula, Aleutian Range; 55° 22' 20” N, 161° 28' 00” W; (map 28). Local name reported in 1929 by USGS.

Tolstoi Point: point of land, between Clarence Strait and Tolstoi Bay, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 40' 10” N, 132° 23' 10” W; (map 4). Variant: Broad Point, Mys Tolstyy. Name published in 1853 as “M[ys] Tolstyy,” meaning “broad point,” on Russian Hydrog. Dept. Chart 1493; published as “Broad Point” in the 1883 Coast Pilot (p. 87).

Tolstoi Point: point of land, between Seal and Tonki Bays, 36 miles NE of Afognak, on NE coast of Afognak Island, N of Kodiak Island; 58° 23' 45' N, 152° 07' 30” W; (map 43). Variant: Tolstie, Tolstoi Cape. Transliteration of the descriptive name 'M[ys] Tolstyy,’ meaning “broad point” published by the Russian American Company in 1849.

Tolstoi Point: point of land, on E tip of St. George Island, in Pribilof Islands; 56° 35' 40" N, 169° 28' 00" W; (map 38). Variant: Kagalogh, Mys Vostochnoy, Vostochnoi. Descriptive Russian name, reported in 1903 by G. R. Putnam, USC&GS, from the Russian "tolstoy" meaning "thick" (p. 1013-15). Putnam claimed (in Baker. 1906, p. 631): "The native name is 'Kagalogh' * * *," which probably comes from the Aleut word "Kagaluk," meaning "stern of a baidarka," according to R. H. Geoghegan. This feature was called by Capt. Tebenkov (1852, map 21). "M[ys] Vostochnoy," meaning "Eastern Cape."

Tolstoi Point: point of land, on Norton Sound, 18 miles SW of Unalakleet, Nulato Hills; 63° 37' 30" N, 161° 00' 50" W; (map 91). Russian name reported in 1842-44 by Lt. L. A. Zagoskin, IRN, as "Mys Tolstoy."

Tolstoi Point: point of land, on SW coast of St. Paul Island, in Pribilof Islands; 57° 08' 15" N, 170° 17' 30" W; (map 38). Descriptive Russian name, published by Elliott (1881, St. Paul map). and derived from the Russian "tolstoy," meaning "broad."

Tolstoi Point: point of land, see Broad Point.

Tolstoi River: stream, see Tolstoi Creek.

Tolstoi Rookery: rookery, on N shore of Tolstoi Point, on SW coast of St. Paul Island, in Pribilof Islands; 57° 08' 15" N, 170° 17' 30" W; (map 38). Local name of a seal rookery with 3,000 ft. of sea-margin, reported by Elliott (1881, p. 53-54).

Tolstoi Sands: beach, 0.5 miles long, on E shore of English Bay, on SW coast of St. Paul Island, in Pribilof Islands; 57° 08' 40" N, 170° 17' 00" W; (map 38). Local name reported in 1965 by USBF.

Tolstoi, Cape: point of land, on E entrance of Pavlof Bay, near SW end of Alaska Peninsula Aleutian Range; 55° 22' N, 161° 30' W; (map 28). Variant: Broad Cape. Shown as "M[ys] Tolstoi," or "broad cape," on Russian Hydrog. Dept. Chart 1379 (1847); reported as "Cape Tolstoi" in 1929 by USGS.

Tolstoi, Cape: point of land, see Burunof, Cape.

Tolstoi, Cape: promontory, see Kovurof Point.

Tolstoi: locality, on E bank of Tolstoi Creek N of its junction with Mastodon Creek and 23 miles NW of Ophir, Kilbuck-Kuskokwim Mountains; 63° 21' 10" N, 157° 04' 10" W; (map 90). Variant: Olsons Roadhouse, Tolstoy. Boat landing and supply camp for the Mastodon Creek diggings established about 1916. It had a post office in 1917 and 1918. It is now abandoned.

Tolstoi: point of land, see Chiniak, Cape.

Tolstoy Point: point of land, see Broad Point.

Tolstoy, Mys: point of land, see Burunof, Cape.

Tolstoy, Mys: point of land, see Nome, Cape.

Tolstoy: locality, see Tolstoi.

Tolstyy, Mys: point of land, see Nome, Cape.

Tolstyy, Mys: point of land, see Tolstoi Point.

Tolugakruak: stream, see Carbon Creek.

Tolukak Creek: stream, see Kahgeatak Creek.

Tolukak Creek: stream, see Tulugak Creek.

Toluksagamut: village, see Tuluksak.

Tom Cook Slough: stream, flows SW 25 miles to Huslia River, 24 miles NW of Roundabout Mountain, Koyukuk Lowland; 65° 53' N, 156° 37' W; (map 108). Local name obtained at Huslia by USGS in 1954 or 1955.

Tom Creek: stream, between Wapoo Creek and Innoko River, flows W 9.5 miles to Crescent Creek 1 mile E of its junction with Wapoo Creek, 45 miles NW of Ophir and 73 miles NW of McGrath, Innoko Lowland; 63° 39' 40" N, 157° 23' 20" W; (map 90). Prospectors' name reported in 1913 by H. M. Eakin, USGS.

Tom Creek: stream, flows SE 8.5 miles to Bradfield Canal, 12 miles E of its mouth at Ernest Sound, Coast Mountains; 56° 12' 40" N, 131° 40' 45" W; BGN 1923; (map 7). Variant: Grant Creek. Named in 1923 by USFS for an Indian who used to live at the mouth of the stream. The stream had previously been called "Grant Creek" for William D. Grant, president of the Wrangell Pulp and Paper Company.

Tom Creek: stream, flows SW 2 miles to Gilmore Creek, 3 miles W of Gilmore Dome, 13 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 59' N, 147° 27' W; (map 100). Apparently, named locally for Tom Gilmore, Felix Pedro's partner; reported in 1903 by T. G. Gerdine (in Prindle, 1905, pl. 16), USGS.

Tom Gray Creek: stream, heads E of Wolf Creek Mountain, flows SW 12 miles to Nageethluk River, 29 miles N of Russian Mission, Yukon-Kuskokwim Delta; 62° 12' 25" N, 161° 29' 00" W; (map 78). Local name reported in 1949 by USC&GS.

Tom Killae Creek: stream, flows N 10 miles to South Fork Hoholotna River, 32 miles WSW of Whitefish Lake and 70 miles NW of Nondalton, Lime Hills; 60° 49' N, 155° 54' W; (map 61). Local name reported in 1950 by USC&GS.

Tom Lake: lake, 0.3 miles across, E of Tom Creek, 12 miles NE of mouth of Bradfield Canal at Ernest Sound, Coast Mountains; 56° 15' 30" N, 131° 42' 30" W; (map 7). Local name derived from Tom Creek and published in 1955 on USGS map.

Tom Lake: lake, see Brooks, Lake.

Tom Paine Creek: stream, flows N 6.5 miles to Liberty Creek, 14 miles SE of Chicken and 58 miles NE of Tok, Yukon-Tanana Highlands; 63° 55' 00" N, 141° 37' 35" W; (map 85). Local name published by USGS in 1950.

Tom Thumb Cove: cove, see Corvie Bay.

Tom White, Mount: mountain, 10,630 ft., 15 miles NE of Carbon Mountain and 72 miles NE of Cordova, Chugach Mountains; 60° 39' 45" N, 143° 38' 50" W; BGN 1950; (map 65). Named for Tom White, "pioneer of southeastern Alaska."

Tom's Ranch: locality, on Security Bay, on N coast of Kuiu Island, Alexander Archipelago; 56° 52' N. 134° 20' W; (map 5). Variant: Tonis Ranch. Former Indian village or camp destroyed in 1869 by Commander R. W. Meade, USN; published by USC&GS in the 1880's.

Tomasagnu River: stream, flows W into Dease Inlet, Arctic Plain; (map 148). Name shown in 1855 on British Admiralty Chart 593, but not definitely located.

Tomato Creek: stream, flows NE 8 miles to Mosquito Creek, 55 miles SW of Eagle, Yukon-Tanana Highlands; 64° 08' N, 142° 10' W; (map 102). Named by prospectors and shown on a 1902 manuscript map by C. A. Woodruff, Fort Cudahy, Canada. This stream is not identified on present-day maps.

Tombstone Bay: bay, 0.8 miles across, along W hank of Portland Canal, 1.5 miles S of Turn Point, Coast Mountains; 55° 24' 30" N, 130° 03' 00" W, (map 3). Named in 1868 by Staff Comdr. David Pender, RN.

Tombstone Rocks: rocks, on W coast of Kodiak Island, 15 miles NW of Ayakulik and 20 miles SW of Karluk; 57° 21' 12" N, 154° 49' 00" W; BGN 1931; (map 35). Named by USC&GS in 1919 "because of the resemblance to tombstones."

Tomgass Harbor: bay, see Tamgas Harbor.

Tomgass: water passage, see Tongass Port.

Tomgaz Gavan: bay, see Tamgas Harbor.

Tommy Creek: stream, flows W 12 miles to Iliamna Lake, 15 miles SE of Iliamna, Aleutian Range; 59° 37' N, 154° 35' W; (map 51). Local name published by USGS in 1954.

Tommy Creek: stream, flows W 5.5 miles to Lake Clark, 25 miles NE of Nondalton, Aleutian Range; 60° 09' N, 154° 14' W; (map 61). Local name reported in 1954 by USGS.

Tommy Glacier: glacier, 1 mile long, just S of Crescent Glacier, 30 miles NE of Whittier, Chugach Mountains; 60° 59' 15" N, 147° 53' 00" W; BGN 1910; (map 63). Local name reported in 1908 by Grant and Higgins (1910, pls. 1, 2), USGS.

Tommy Island: island, 0.3 miles long, in Lake Clark, 7 miles S of Kijik Mountain and 27 miles NE of Nondalton, Aleutian Range; 60° 14' 45" N, 154° 14' 30" W; (map 61). Local name reported in 1954 by USGS.

Tommy Lake: lake, 1.5 miles long, 41 miles SE of Chalkyitsik, Porcupine Plateau; 66° 18' N, 142° 32' W; (map 120). Local name obtained in 1956 by T. E. Taylor and R. C. Foley, USGS.

Tommy Point: point of land, on SE shore of Iliamna Lake, 1 mile WNW of Leon Bay and 15 miles SE of Iliamna, Aleutian Range; 59° 35' 30" N, 154° 39' 00" W; (map 51). Local name published by USGS in 1954.

Tommys Pup: stream, flows SE 1 mile to Deadwood Creek, 8 miles W of Circle Hot Springs and 34 miles SW of Circle, Yukon-Tanana Highlands; 65° 28' 15" N, 144° 55' 30" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Tomname Lagoon: lagoon, 5.5 miles long, 0.5 miles W of Tomname Point, N coast of St. Lawrence Island; 63° 21' N, 169° 30' W; BGN 1951; (map 93). Variant: Tamnik Lagoon. Eskimo name reported in 1949 by Maj. H. B. Allen, USAF.

Tomname Mountain: hill, 889 ft., 21 miles W of Northeast Cape, St. Lawrence Island; 63° 20' N, 169° 22' W; BGN 1951; (map 93). Variant: Mary Mountain, Mount Mary, Mount Sooghmeghat, Sooghmeghat Mountain. Eskimo name reported in 1949 by Maj. H. B. Allen, USAF.

Tomname Point: point of land, at Sooghmeghat 22 miles W of Northeast Cape; N coast of St. Lawrence Island; 63° 21' N, 169° 24' W; (map 93). Variant: Cape Tam-nik, Tamnik Point. Eskimo name reported in 1932 by O. W. Geist, Univ. of Alaska.

Toms Creek: stream, heads in lake, flows NW 3.5 miles to Bear Creek, 45 miles N of Tyonek, Cook Inlet Lowland; 61° 43' N, 150° 58' W; (map 70). Local name reported in 1954 by USGS.

Tonawanda Creek: stream, flows S 3 miles to Baker Creek, 7 miles SE of Roughtop Mountain and 42 miles ESE of Tanana, Yukon-Tanana Highlands; 65° 06' 00" N, 150° 38' 38" W; (map 106). Prospectors' name reported in 1963 by Bond Taber, USGS.

Tonclanukna Creek: stream, heads at Swift Fork Kuskokwim River, flows SW 22 miles to Slow Fork Kuskokwim River, 40 miles NE of Medfra, Kuskokwim Lowland; 63° 18' N, 153° 35' W; (map 89). Indian name obtained in 1958 by T. E. Taylor, USGS.

Tondustek: locality, see Gantegastaki.

Tongas: locality, see Tongass.

Tongas: water passage, see Tongass Port.

Tongass Island: island, 0.8 miles long, W of Port Tongass, in Nakat Bay, NE Dixon Entrance, Coast Mountains; 54° 46' 30" N, 130° 14' 30" W; (map 2). Variant: Kut-tuk-wah Island, Tongas Island. Local name published in the 1891 Coast Pilot (p. 79). The Indian name "Kut-tuk-wah" was published in 1869 by USC&GS.

Tongass Narrows: water passage, 14 miles long, connects W end of Behm Canal with Revillagigedo Channel, between Gravina and Revillagigedo Islands, SE end is divided by

Pennock Island into its East and West Channels, Alexander Archipelago; 55° 22' N, 131° 43' W; BGN 1937; (map 3). Named by local pilots about 1878-80; published in 1885 by USC&GS.

Tongass National Forest: forest, in SE Alaska, extends SE from White Pass, on Alaska-Canada boundary, and Glacier Bay National Monument along the Coast Mountains to Dixon Entrance, including most of the mainland and off-shore archipelagos. The Tongass National Forest, the largest national forest in the United States, was created by Presidential Proclamation on September 10, 1907.

Tongass Passage: water passage, 4 miles long, extends SE from Sitklan Passage to Dixon Entrance, E of Sitklan Island, Coast Mountains; 54° 45' 50" N, 130° 39' 30" W; BGN 1954; (map 2). Local name published in the 1891 Coast Pilot (p. 80).

Tongass Passage: water passage, see Sitklan Passage.

Tongass Point: point of land, see Katakwa Point.

Tongass Reef: reef, in Nakat Bay, extends NW 0.3 miles from Port Tongass, 0.5 miles N of Tongass Island, Coast Mountains; 54° 47' N, 130° 44' W; (map 2). Named by Lt. Comdr. H. E. Nichols, USN, and published in the 1891 Coast Pilot (p. 79).

Tongass, Port: water passage, 1.5 miles long, extends N between Tongass Island and mainland, Coast Mountains; 54° 46' 30" N, 130° 43' 45" W; (map 2). Variant: Tlehopcity, Tlehonsiti, Tomgass, Tongas. Lt. Comdr. H. E. Nichols, USN, reported, in the 1891 Coast Pilot (p. 79), "Port Tongass is a small harbor, * * *." The Russians who used this harbor called it "Tlehonsiti" (Baker, 1906, p. 632).

Tongass: locality, on E coast of Tongass Island, Coast Mountains; 54° 46' 30" N, 130° 14' 30"; (map 2). Variant: Fort Tomgas, Fort Tongas, Tangash, Tongas, Tont-a-quans, Tungass, Tungass-kon, Tungrass. Former Tlingit Indian village or camp named for the island. In June 1868 a military post, called "Fort Tongass" was established, and maintained here until September 1870. Population recorded as 273 in 1880 and 255 in 1890.

Tongue Glacier: glacier, trends NW 2.5 miles to its terminus at Left Fork West Glacier Creek, 52 miles NE of Nondalton, Aleutian Range; 60° 05' N, 153° 19' W, (map 61). Descriptive name reported in 1958 by USGS.

Tongue Point: point of land, in Valdez Arm, at S entrance to Jack Bay, 15 miles WSW of Valdez, Chugach Mountains; 61° 02' 10" N, 146° 39' 45" W; (map 68). Named in 1898 by Capt. W. R. Abercrombie, USA.

Tongue Point: spit, between Hagemeister Strait and Togiak Bay, 23 miles SW of Togiak, Kilbuck-Kuskokwim Mountains; 58° 49' N, 160° 50' W; (map 39). So named in 1890 by USBF "because it is long and narrow-like a tongue."

Tonina Island: island, 0.3 miles across, N Maurelle Islands, Alexander Archipelago; 55° 41' 30" N, 133° 36' 15" W; BGN 1925; (map 4). Spanish name meaning "fresh tunny (blue fin

tuna);” given in 1924 by USC&GS, “because the fish is mentioned by [Francisco Antonio] Maurelle in his journal.” [Author's Note: I have been unable to locate such a reference.]

Tonis Ranch: locality, see Tom's Ranch.

Tonitleagmund Lake: lake, 0.9 miles long, S of Tetlin Lake, 22 miles SSE of Tok, Alaska Range; 63° 03' N, 142° 42' W; (map 85). Indian name published by USGS in 1964.

Tonka: locality, 6 miles S of Petersburg, on SE coast of Kupreanof Island, Alexander Archipelago; 56° 43' 30" N, 132° 57' 30" W; (map 6). This is the site of an abandoned cannery, established in 1901 (U.S. Coast and Geodetic Survey, 1901, addenda facing p. 9). It obtained a post office in 1902 which was discontinued in 1905 (Ricks, 1965, p. 66).

Tonkey, Point: point of land, see Narrow Point.

Tonkeye: point of land, see Narrow Cape.

Tonki Bay: bay, 4 miles across, 35 miles NE of Afognak, on E coast of Afognak Island, N of Kodiak Island; 58° 20' N, 152° 04' W; BGN 1910; (map 43). Russian name meaning “thin” derived from Tonki Cape, given by USC&GS in 1910.

Tonki Cape Peninsula: peninsula, 10 miles long, on E coast of Afognak Island, 30 miles NE of Afognak, Kodiak Island; 58° 15' N, 152° 00' W; (map 43). Local name reported in 1952 by USGS; derived from Tonki Cape.

Tonki Cape: point of land, on E coast of Afognak Island, 37 miles NE of Afognak, N of Kodiak Island 58° 21' N, 151° 59' W; BGN 1910; (map 43). Variant: Tonkie Cape. Transliteration by USC&GS in 1868 of the descriptive name “M[ys] Tonkiy,” meaning “thin cape,” published by the Russian American Company in 1849.

Tonki Point: point of land, on SE coast of St. Paul Island, in Pribilof Islands; 57° 08' 50" N, 170° 12' 40" W; (map 38). Variant: Narrow Point, Rocky Point Stony Point, Tonkie Mees. Name published by Elliott (1881, St. Paul notes). as “Tonkie Mees” from the Russian “M[ys] Tonkiy” meaning “thin (or slender). cape.”

Tonki Point: point of land, see Narrow Point.

Tonki Point: point of land, see Thin Point.

Tonki, Mys: spit, see Unga Spit.

Tonkie Cape: point of land, see Tonki Cape.

Tonkie Mees: point of land, see Tonki Point.

Tonkie: point of land, see Narrow Cape.

Tonkina: stream, see Gulkana River.

Tonkiy, Mys: point of land, see Narrow Cape.

Tonkiy, Mys: point of land, see Narrow Point.

Tonkoi Point: point of land, see Bay Point.

Tonkoi, Cap: point of land, see Bay Point.

Tonkoi, Mys: point of land, see Thin Point.

Tonkoy, Cape: point of land, see Thin Point.

Tonnie Creek: stream, on Iniskin Peninsula, flows E 1.5 miles to Fitz Creek, 4 miles S. of Chinitna Bay, Aleutian Range; 59° 45' 40" N, 153° 13' 15" W; BGN 1947; (map 51). Local name reported in 1947 by USGS. It was named for a rock unit along the creek named in 1938 by oil company geologists.

Tonnie Creek: stream, see Right Branch Trail Creek.

Tonnie Creek: stream, see Trail Creek.

Tonnie Peak: peak, 2,500 ft., on Iniskin Peninsula, 3 miles S of head of Chinitna Bay, Aleutian Range, 59° 46' 00" N, 153° 16' 00" W, (map 51). Local name reported in 1922 by USGS.

Tonoek Bay: bay, see Tonowek Bay.

Tonok: locality, at mouth of Eldorado Creek on Norton Sound, 1 mile W of Bluff and 19 miles E of Solomon, Seward Peninsula Highlands; 64° 34' N, 163° 48' W; (map 95). Site of a mining camp; reported about 1940 by USC&GS and published on Chart 9380.

Tonowek Bay: bay, extends NE 3 miles, off Gulf of Esquibel, between Prince of Wales and Heceta Islands, Alexander Archipelago; 55° 44' N, 133° 24' W; (map 4). Variant: Bukhta Tonoyek, Tonoek Bay, Tonoyek Bay. Probably an Indian name; published in 1853 on Russian Hydrog. Dept. Chart 1493 as "Bukh[ta] Tonoyek," or "Tonoyek Bay."

Tonowek Creek: stream, heads in Jay Lake, Rows SE 1.7 miles to Tonowek Bay, SE coast of Heceta Island, Alexander Archipelago; 55° 45' 40" N, 133° 22' 10" W; (map 4). Local name recorded in 1951 by USGS. See Tonowek Bay.

Tonowek Narrows: water passage, extends NE 2 miles from Tonowek Bay to Karheen Passage, between Heceta and Prince of Wales Islands, Alexander Archipelago; 55° 45' 30" N, 133° 20' 00" W, BGN 1914; (map 4). Variant: Little Skookum Chuck. Name reported in 1914 by USC&GS. This feature is known locally as "Little Skookum Chuck" (U.S. Coast and Geodetic Survey, 1925, p. 251; 1962, p. 93). See Salt Chuck, village.

Tonowek Ridge: cliff, elev. 1,000 ft., SE coast of Heceta Island, Alexander Archipelago; 55° 44' 45" N, 133° 24' 15" W; (map 4). Local name recorded in 1951 by USGS. See Tonowek Bay.

Tonoyek Bay: bay, see Tonowek Bay.

Tonoyek, Bukhta: bay, see Tonowek Bay.

Tonsina Bay: bay, 1.5 miles wide, on Kenai Peninsula, on W short of Nuka Passage, 30 miles SE of Seldovia, Chugach Mountains; 59° 18' N, 150° 54' W; (map 50). Local name reported by USGS in 1951.

Tonsina Creek: stream, on Kenai Peninsula, flows NE 5 miles to W side of Resurrection Bay, 3.5 miles S of Seward, Chugach Mountains; 60° 02' 59" N, 149° 26' 15" W; (map 63). Variant: Archer. Local name published by D. H. Sleem on his map of Central Alaska dated 1910.

Tonsina Glacier: glacier, heads at 61° 17' 45" N, 145° 58' 30" W, trends E 11 miles to its terminus (1951). at head of Tonsina River, 25 miles NE of Valdez, Chugach Mountains; 61° 19' 45" N, 145° 40' 00" W; BGN 1932; (map 68). Name published in 1933 by USGS.

Tonsina Lake: lake, trends N-S 6 miles on Tonsina River, 8 miles NNE of Tonsina Glacier and 37 miles NE of Valdez, Chugach Mountains; 61° 31' 45" N, 145° 29' 45" W; (map 68). Indian name, derived from the stream name, reported in 1900 by F. C. Schrader.

Tonsina Lodge: locality, see Tonsina.

Tonsina Point: point of land, on Kenai Peninsula, on NW side of Resurrection Bay, 3.5 miles S of Seward, Chugach Mountains; 60° 03' N, 149° 26' W; (map 63). Name published on recent USGS maps; derived from nearby Tonsina Creek.

Tonsina Roadhouse: locality, see Tonsina.

Tonsina: locality, on Richardson Highway, 0.5 miles S of Tonsina River and 52 miles NE of Valdez, Chugach Mountains; 61° 39' 20" N, 145° 10' 30" W; (map 68). Variant: Tonsina Lodge, Tonsina Roadhouse. A telegraph station was established here in 1902 by the U.S. Army Signal Corps. A post office was established in 1903 and was discontinued in 1916. It was reestablished in 1930 and was discontinued in 1933.

Tonsol Lake: lake, 0.7 miles long, SW of Fish Lake 2 miles E of Tetlin Lake and 21 miles SE of Tok, Alaska Range; 63° 02' N, 142° 39' W; (map 85). Local name published by USGS in 1965.

Tont-a-quans: locality, see Tongass.

Tontethaimund Lake: lake, 2.5 miles long, 1.8 miles N of Northway, Alaska Range; 62° 59' N, 141° 52' W; BGN 1962; (map 84). Variant: Birch Lakes. Indian name reported by USGS in 1955.

Tony Creek: stream, flows W 1 mile to Venetia Creek, between Colly and Victoria Creeks, 21 miles NW of Solomon, Seward Peninsula Highlands; 64° 50' N, 164° 46' W; (map 95). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Tony Lake: lake, 2.5 miles long, 9.5 miles NE of Beaver, Yukon Flats; 66° 28' N, 147° 07' W; (map 118). Local name obtained in 1956 by USGS.

Tony Slough: stream, an anabranch of Yukon River, flows NW 4.5 miles, 7 miles NE of Beaver, Yukon Flats; 66° 25' 30" N, 147° 12' 00" W; (map 118). Local name obtained in 1956 by USGS.

Tonzona River: stream, heads in Alaska Range, at Mystic Pass, flows NE 15 miles, then NW 60 miles, to join Slow Fork to form East Fork Kuskokwim River, 30 miles E of Medfra, Kuskokwim Lowland; 63° 11' 30" N, 153° 45' 30" W; BGN 1964; (map 89). Variant: East Fork Kuskokwim River, Ghedotlothna, Swift Fork. The Indian name "Tonzona" was applied in 1899 to the stream now called "Little Tonzona River" by Lt. J. S. Herron, USA. A. H. Brooks, USGS, traveling nearer the foot of the Alaska Range in 1902 mistakenly applied Herron's name "Tonzona" to this stream. The greater publication of Brooks' application of the name established its present usage.

Tonzona River: stream, see Little Tonzona River.

Too Much Cold Creek: stream, flows SE 1 mile to Fairbanks Creek, 20 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 04' N, 147° 18' W; (map 105). Named by prospectors; published in 1908 by USGS.

Too Much Gold Creek: stream, flows NW 1 mile to Fish Creek, 20 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 01' 45" N, 147° 09' 10" W; (map 105). Named by prospectors; published in 1908 by USGS.

Too-clok: locality, see Tutlut.

Too-look-sook River: stream, see Tutuksuk River.

Toogamak: bight, see Unimak Bight.

Toogedach: island, see Tugidak Island.

Toogidach: island, see Tugidak Island.

Tooguk Lagoon: lagoon, see Tugak Lagoon.

Tooie Creek: stream, in Chigmit Mountains, flows SE 6 miles to Silver Salmon Creek, 1 mile N of Chinitna Bay, Aleutian Range; 59° 52' 30" N, 153° 13' 30" W; BGN 1962; (map 51). Local name reported in 1951 by USGS.

Tooinichook Mountains: mountains, see Tahinichok Mountains.

Took-key-auk Mountain: mountain, see Tukungak Mountain.

Tookhlagamute: locality, see Tuklak.

Tookinhak: mountain, see Tukungak Mountain.

Tookozetna Bay: estuary, see Tuxedni Bay.

Tookrook River: water passage, see Tukrok River.

Tooksook Bay: bay, see Kangirlvar Bay.

Tooksook Channel: water passage, see Tuksuk Channel.

Tooksook River: stream, see Toksook River.

Tooksook: locality, see Tuksuk.

Toolavia: point of land, see Christie Point.

Tooleekskoi: locality, see Tulik.

Toolemina: barrier island, see Tulimanik Island.

Toolemina: locality, see Boat Extreme.

Toolik Lake: lake, see Tulilik Lake.

Toolik River: stream, heads in lake at 68° 36' 30" N, 149° 16' 30" W, flows N 120 miles to Kuparuk River, 35 miles SW of Gwydyr Bay, Arctic Plain; 69° 56' N, 149° 30' W; (map 140). Eskimo name for common loon (*Gavia immer*). and yellow-billed loon (*Gavia adamsi*); often spelled "tudlik" or "tulik"; given about 1951 by USGS geologists.

Toolilik Lake: lake, see Tulilik Lake.

Toologuk Creek: stream, see Tulugak Creek.

Toolooka-anahamute: locality, see Tuluka.

Tooolak Koogowranga: stream, see Tulukak Creek.

Toolorak: cliffs, see Tukurak.

Tooolouk River: locality, see Tuluka.

Toolukaanahamute: locality, see Tuluka.

Toome Creek: stream, see Tumi Creek.

Toongak River: stream, see Tungak Creek.

Toonuk Mountain: hill, see Tungnak Hill.

Toosigpahk Creek: stream, see Tasikpak Creek.

Toosigpahk Lagoon: lagoon, see Tasikpak Lagoon.

Tooth Cove: cove, 0.9 miles long, on W coast of Aialik Peninsula, 4 miles N of Three Hole Bay, 23 miles SW of Seward, Chugach Mountains; 59° 49' N, 149° 40' W; (map 49). Descriptive name published in 1915 by USGS.

Tooth Lake: lake, 0.7 miles long, N of Chitina River, 1.4 miles NW of Skull Lake and 26 miles SW of McCarthy, Copper River Basin; 61° 23' 30" N, 143° 41' 00" W; (map 67). So named by USGS in 1951 because the shoreline traces the outline of a tooth.

Tooth Mountain: mountain, 1,000 ft., 7 miles E of Carter Bay and 12 miles NW of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 16' N, 161° 45' W; (map 53). Descriptive name given in 1913 by USC&GS "because it has a sharp tooth-like pinnacle on the northern edge of the summit." The name was published in 1915 on Chart 9103.

Tootooksook River: stream, see Tutuksuk River.

Top Lake: lake, 2,500 ft. long, drains into Eightmile Creek, 51 miles NW of Tyonek, Alaska Range; 61° 48' 10" N, 151° 18' 15" W; (map 70). Local descriptive name reported in 1954 by USGS.

Top Mountain: mountain, see Pop Mountain.

Topagaruk River: stream, see Topagoruk River.

Topagoruk River: stream, heads at 69° 40' N, 156° 41' W, flows N 160 miles to Admiralty Bay, Arctic Plain; 70° 50' N, 155° 54' W; (map 148). Variant: Kagavik River, Topagaruk River. This Eskimo name first appears on a field sheet by J. E. Whitaker, USGS, in 1923. Orth recorded the name as "Tupikrorak" at Barrow in 1965, and was told it refers in meaning to "place for tent."

Topanica: locality, see Topanika.

Topanika: locality, on E shore of Norton Sound, 22 miles SE of Cape Denbigh, Nulato Hills; 64° 21' N, 160° 57' W; (map 96). Variant: Tapkhamikhuagmut, Tapkhamikkhuag-myut, Taupanica, Topanica, To-pan-i-kwa, Tulpanika, Tulpanikha, Tuphamikva, Tuphamikwa, Tuphanikwa. Former Eskimo village or camp published as "Tapkhamikhuagmut" by Lt. Zagoskin (1847, v. 1, p. 72). Recorded in 1869 as "Topanika" by W. H. Dall (1870, p. 20); listed in the 1880 Census as "Tup-hamikva," population 10, by Ivan Petroff.

Topcock Creek: stream, see Topkok River.

Topcock, Cape: point of land, see Topkok Head.

Topcock: locality, see Topkok.

Topeka Glacier: glacier, in Glacier Bay National Monument, trends S 2 miles to its 1961 terminus 2 miles NE of head of Toyatte Glacier, 82 miles NW of Hoonah, St. Elias Mountains; 58° 56' 15" N, 137° 05' 00" W; (map 10). Named in 1936 by W. O. Field, Jr., and W. S. Cooper for the SS Topeka.

Topkak, Cape: point of land, see Topkok Head.

Topkok Head: point of land, on N coast of Norton Sound, 14 miles E of Solomon, Seward Peninsula Highlands; 64° 33' N, 163° 58" W; (map 95). Variant: Cape Topcock, Cape Topkak, Cape Topkok, Mys Utes, Mys Utesistyy. Local name reported in 1900 by Barnard (in Brooks, 1901, pl. 17), USGS. USC&GS published "Cape Topkok" in 1900. The name is derived from the village reported as "Tupka-ak" by Petroff in the 10th Census in 1880. This appears to be the feature reported in 1842-44 as "M[ys] Utesistyy," meaning "cliffy cape," by Lt. L. A. Zagoskin, IRN, and shown as "M[ys] Utes" by Capt. Tebenkov (1852, map 2), IRN.

Topkok River: stream, flows SE 5 miles to Norton Sound at Topkok, 15 miles E of Solomon, Seward Peninsula Highlands; 64° 34' N, 163° 56' W; (map 95). Variant: Topcock Creek. Eskimo name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS. Reported as "Topcock Creek" in 1899 by Schrader and Brooks (1900, map 3), USGS.

Topkok, Cape: point of land, see Topkok Head.

Topkok: locality, at mouth of Topkok River, N shore of Norton Sound, 15 miles E. of Solomon, Seward Peninsula Highlands; 64° 34' N, 163° 57' W; (map 95). Variant: Tap-hok, Topcock, Tup-ka-ak. Former Eskimo village reported in the 1880. Census as "Tup-ka-ak," population 15. The 1890 Census listed "Tap-hole" hut gave no population. A mining camp appears to have been set up here in about 1900 and the 1908 "Map of Seward Peninsula" by Arthur Gibson shows a "Topkok Roadhouse" at this site.

Topkok: locality, see Tapkhakg-miut.

Topless Peak: peak, 4,100 ft., 0.8 miles N of Vesper Peak and 6 miles NE of Juneau, Coast Mountains; 58° 23' 00" N, 134° 21' 45" W; (map 11). Local descriptive name reported by D. A. Brew and A. B. Ford, USGS, in 1965.

Topnotch Creek: stream, flows S 2 miles to Kasson Creek which flows to Solomon River, 9 miles NE of Solomon, Seward Peninsula Highlands; 64° 41' N, 164° 24' W; (map 95). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Topographers Peak: peak, 3,015 ft., on Alaska Peninsula, in Katmai National Monument, 14 miles SW of Mount Katmai, Aleutian Range; 58° 05' 15" N, 155° 09' 30" W; BGN 1924; (map 42). Named by R. F. Griggs, for Paul R. Hagelbarger, topographer on the 1919 National Geographic Society Katmai Expedition.

Topor, Mys: point of land, see Hatchet Point.

Toporkof Bay: bay, see Puffin Bay.

Toporkof Point: point of land, see Puffin Point.

Toporkof: island, see Puffin Island.

Toporkoff Bay: bay, see Puffin Bay.

Toporkov Bay: bay, see Puffin Bay.

Toporkov Point: point of land, see Puffin Point.

Toporkov, Ostrov: island, see Puffin Island.

Toporkova Bukhta: bay, see Puffin Bay.

Toporkovy, Mys: point of land, see Puffin Point.

Topsy Creek: stream, in Glacier Bay National Monument, flows SW 5 miles to Gulf of Alaska, 2.4 miles S of mouth of Steelhead Creek and 81 miles NW of Hoonah, St. Elias Mountains; 58° 33' 30" N, 137° 29' 45" W; BGN 1959; (map 10). Variant: Steelhead Creek, North Branch Steelhead Creek. Local name reported by J. B. Mertie (in Smith and others, 1933, fig. 4), USGS. It was published as "Steelhead Creek" by members of the Harvard-Dartmouth Expedition, 1933-34, (Washburn and Goldthwait, 1936, map).

Toqakvik: locality, see Chrome.

Toral: locality, see Taral.

Torbert, Mount: mountain, 11,413 ft., in Tordrillo Mountains, 49 miles NW of Tyonek, Alaska Range; 61° 24' 35" N, 152° 24' 35" W; BGN 1964; (map 70). Name reported by S. R. Capps and R. H. Sargent (in Smith and others, 1929, pl. 3), USGS. Named for John B. Torbert, USGS cartographer, who died in 1929.

Torch Bay: bay, 3 miles long, in Glacier Bay National Monument, on Gulf of Alaska, 2 miles SE of Dixon Harbor and 52 miles NW of Hoonah, St. Elias Mountains; 58° 18' 30" N, 136° 48' 30" W; (map 10). Named by USC&GS in 1926; published in 1929.

Tordrillo Mountains: mountains, 8,000-11,000 ft., in group 50 miles long and 40 miles wide, at SW end of Alaska Range; bounded on N and W by Skwentna River, on S by Chakachatna River, and on E by lowlands of Susitna River; 61° 30' N, 152° 15' W; (map 70). Variant: Tordrillo Range. Named in 1898 by J. E. Spurr, USGS; probably a form of an Indian name.

Tordrillo Range: mountains, see Tordrillo Mountains.

Torment Creek: stream, heads in Ray Mountains, flows NE 19 miles to Kanuti Kilolitna River, 50 miles NW of Rampart and 62 miles NE of Tanana, Kokrines-Hodzana Highlands; 65° 59' N, 151° 14' W; (map 106). Local name reported in 1956 by Orth; so named because of the "tormenting course of the creek and the mosquitoes."

Torno Cape: point of land, see Black Cape.

Torok Creek: stream, flows NE 15 miles to Chandler River, 3 miles S of Tukto Bluff and 41 miles NW of Anaktuvuk Pass, Arctic Slope; 68° 41' 15" N, 152° 17' 30" W; BGN 1949; (map 134). Eskimo name given in 1948 by J. S. Detterman, USGS, for the camp dog.

Torongwalk: mountain, see Towak Mountain.

Torpedo Lake: lake, 0.5 miles long, drains W to Kenai River 3 miles W of Skilak Lake, 24 miles SE of Kenai, Cook Inlet Lowland; 60° 28' 40" N, 150° 34' 35" W; (map 62). Local name reported in 1951 by USGS

Torrance Creek: stream, see Mina Creek.

Torrent Inlet: bay, 2 miles across, off Peard Bay E of Nalimiut Point, 10 miles SE of Point Franklin, Arctic Plain; 70° 49' N, 158° 24' W; (map 147). Named by English naval officers about 1850.

Torres, Ensenada de: bay, see Saint Nicholas, Port.

Torsar Island: island, 0.5 miles across, 2 miles NW of Goddard, in Necker Islands, on W coast of Baranof Island, Alexander Archipelago; 56° 51' 00" N, 135° 25' 30" W; (map 5). Variant: Ostrov Torsar. Named in 1809 by the Russian navigator Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Torsar," or "Torsar Island."

Tortella: locality, near mouth of Nenana River, probably at or near present village of Nenana, Tanana Lowland; 64° 34' N, 149° 05' W; (map 100). Variant: Tortilli. Former Tanana Indian village reported in 1902 by A. H. Brooks, USGS. A map by Lt. Gibbs, USA, dated 1902, shows a village spelled "Tortilli" on the north side of the Tanana River.

Tortilli: locality, see Tortella.

Tosechargut: stream, see Tozitna River.

Tosekargut: stream, see Tozitna River.

Totakdagrich Cachegen Lake: lake, 0.4 miles long, 1 mile S of Ninemile Island and 10 miles NE of Ruby, Nowitna Lowland; 64° 49' N, 155° 11' W; (map 98). Local name reported about 1952 by USGS.

Totascholeden: locality, see Dementi.

Totascholjoden: locality, see Dementi.

Totaskholeden: locality, see Dementi.

Totatlanika River: stream, heads at junction of All Gold and Dexter Creeks, flows N 63 miles to Tanana River, 10 miles E of Nenana, Tanana Lowland; 64° 34' 10" N, 148° 46' 30" W, (map 100). Variant: Bradley River. Tanana Indian name meaning "Totatla Creek" adopted and used by miners and reported in 1906 by L. M. Prindle (in Brooks and others, 1907, pl. 4),

USGS. This may have been the stream named "Bradley River" by Lt. Allen (1887, pl. 1), USA, in 1885 although it was more likely to have been the present-day Wood River.

Totchaket Slough: stream, flows N 7 miles to Tanana River, 7 miles S of Minto and 44 miles W of Fairbanks, Tanana Lowland; 64° 47' N, 149° 12' W; (map 100). Indian name published in the 1950's.

Totchikala: locality, on Unalaska Island, Aleutian Islands; 53° 35' N, 166° 55' W; (map 23). Variant: Totzikala. Former Aleut village or camp published by Rev. Coxe (1787, p. 161).

Totek Hills: mountains, 1,370 ft., 32 miles SW of Nenana, Tanana Lowland; 64° 17' N, 149° 54' W; (map 100). Tanana Indian name published by USGS on recent maps.

Totem Bay: bay, extends 4 miles S to Sumner Strait, on S coast of Kupreanof Island, Alexander Archipelago; 56° 28' N, 133° 23' W; (map 6). Named in 1886 by USC&GS "on account of the detached pillars of rock on its western shore, which resemble the Indian totem poles."

Totem Bight: bight, 0.7 miles wide, on W coast of Revillagigedo Island, on E shore of Tongass Narrows, 5 miles NW of Ketchikan, Alexander Archipelago; 55° 25' 30" N, 131° 47' 00" W; (map 3). Local name recorded in 1954 by USGS.

Totem Lodge: suburb, see Mud Bay.

Totem Point: point of land, on a small island at W point of entrance to Totem Bay, on S coast of Kupreanof Island, Alexander Archipelago; 56° 27' 10" N, 133° 26' 00" W; (map 6). Local name recorded in 1949 by USGS.

Totem Rock: rock, in Kanaga Bay, on SE coast of Kanaga Island, Aleutian Islands; 51° 42' 30" N, 177° 11' 37" W; (map 17). Name published in 1957 on an AMS map.

Totem Village: suburb, see Mud Bay.

Toti Island: island, 0.5 miles long, between Bucareli and Trocadero Bays, on W coast of Prince of Wales Island, Alexander Archipelago; 55° 24' 45" N, 133° 07' 25" W; BGN 19Z2; (map 4). Variant: Isla Toti, Isla Toty, Robber Island. Spanish name given in 1775-79 by Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Isle Toti," meaning "robber island." The translation of this name was used by USC&GS but was discontinued in 1922 because of confusion with Ladrones Islands. See Ladrones Islands.

Totoilon Mountains: mountains, at head of Yentna drainage basin, Alaska Range; 62° 00' N, 153° 00' W; (map 81). Variant: To-toy-lon Mountains. Tanaina Indian name obtained in 1899 by Lt. J. S. Herron. USA, who spelled it "To-toy-lon."

Totondu River: stream, see Tatonduk River.

Tototlindu: stream, see Mission Creek.

Totsahdmund Lake: lake, see Steve Lake.

Totschunda Creek: stream, heads in Mentasta Mountains, flows SE 12 miles to Nabesna River, 7.5 miles NE of Devils Mountain, Alaska Range; 62° 27' N, 142° 42' W; (map 84). Indian name reported in 1902 by F. C. Schrader, USGS. According to Moffit (1941, p. 137), USGS, the name is "derived from Indian words meaning 'red stone' and is appropriate' as the rocks of this appearance are readily traced from the north side of the Totschunda Creek Valley to Suslota Creek."

Totsenbet River: stream, see John River.

Totsenbet: stream, see Wild River.

Totsenbetna: stream, see Wild River.

Totshotno: stream, see Takotna River.

Totson Mountain: mountain, 2,714 ft., in Kaiyuh Mountains; 23 miles SW of Galena and 31 miles SE of Nulato, Kilbuck-Kuskokwim Mountains; 64° 27' N, 157° 18' W; (map 97). Variant: Monte Takaiaaka, Tolson Mountain. Indian name reported in 1927 by USC&GS. This may be the same as "M[onte] Takaiaaka." on Lt. L. A. Zagoskin's 1850 map.

Toty, Isla: island, see Toti Island.

Totzikala: locality, see Totchikala.

Totzunbetna: stream, see Wild River.

Totzunbitna: stream, see Wild River.

Touchit Cove: estuary, extends E 0.6 miles near mouth of Shoe Inlet, on NW coast of Long Island, Alexander Archipelago; 54° 55' 30" N, 132° 48' 00" W; BGN 1929; (map 1). Name published on a 1923 manuscript map by USFS.

Tougamak: bight, see Unimak Bight.

Tough Luck Creek: stream, flows S 1 mile to Chatanika River, 1.9 miles upstream from the mouth of Sourdough Creek and 49 miles NE of Yukon-Tanana Highlands; 65° 17' 50" N, 146° 25' 45" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Toughimik Island: island, see Little Koniuji Island.

Tougidak: island, see Tugidak Island.

Tougidok: island, see Tugidak Island.

Toukatl Creek: stream, see Ulukuk River.

Toulak, Mount: mountain, see Tulik Volcano.

Toulaksagamut: village, see Tuluksak.

Toulikskoi: mountain, see Tulik Volcano.

Touliouliaga: point of land, see Lazaref, Cape.

Tounak: island, see Chernabura Island.

Toungovlik: island, see Tungulik.

Tours, Ile de: island, see Pinnacle Island.

Toussaint Island: island, 1.5 miles across, in Yukon River, 2 miles SE of Fort Yukon, Yukon Flats; 66° 32' N, 145° 15' W; (map 119). Local name obtained in 1956 by USGS.

Towahmina Lake: lake, 1 mile long, 36 miles NE of Medfra, Kuskokwim Lowland; 63° 20' N, 153° 41' W; (map 89). Indian name obtained in 1958 by T. E. Taylor, USGS.

Towak Creek: stream, on N slope of Towak Mountain, flows N 3.4 miles to Scammon Bay, 7.5 miles E of Cape Romanzof, Yukon-Kuskokwim Delta; 61° 49' 30" N, 165° 52' 15" W; (map 75). Variant: Towak River. Eskimo name reported by AMS in 1952.

Towak Mountain: mountain, 2,342 ft., on Cape Romanzof, in Askinuk Mountains, between Kokechik and Scammon Bays, Yukon-Kuskokwim Delta; 61° 47' N, 165° 57' W; (map 75). Variant: Tro-wak, Torongwalk. Eskimo name reported by USC&GS in 1949.

Towak River: stream, see Towak Creek.

Towayat's Village: locality, on Etolin Island, Alexander Archipelago; 56° 06' N, 132° 21' W; (map 6). Variant: Toya't's Village. Former summer camp of a Tlingit Indian chief, Toya't, listed in the 1880 Census, with a population of 82, by Petroff (1884, p. 32).

Tower Bluff Rapids: rapids, in Tanana River, at base of Tower Bluffs, 17 miles NW of Tanacross, Yukon-Tanana Highlands; 63° 32' 30" N, 143° 47' 00" W; (map 85). Named in 1885 by Lt. Allen (1887, p. 81), USA.

Tower Bluffs: bluffs, elev. 3,210 ft., on E bank of Tanana River, extend N 6.5 miles from junction of Robertson and Tanana Rivers, 15 miles NW of Tanacross, Yukon-Tanana Highlands; 63° 31' N, 143° 45' W; (map 85). Named in 1885 by Lt. Allen (1887, p. 81), USA.

Tower Point: point of land, on SW coast of Unalaska Island, Aleutian Islands; 53° 23' 05" N, 167° 13' 00" W; BGN 1939; (map 23). So named by USC&GS in 1939 because "the nearness of this point to Buttress Point forms two most conspicuous landmarks in the vicinity."

Towers Arm: bay, 4 miles long, at head of Duncan Canal, on Kupreanof Island, Alexander Archipelago; 56° 48' N, 133° 19' W; BGN 1966; (map 6). Variant: Towers Bay. Local name reported in 1933 by USC&GS; "given for a prospector who carried on extensive mining operations in this vicinity for several years."

Towers Bay: bay, see Towers Arm.

Towers Lake: lake, 1 mile long, 4.5 miles NW of Towers Arm and 20 miles W of Petersburg, on Kupreanof Island, Alexander Archipelago; 56° 52' 15" N, 133° 28' 30" W; (map 6). Local name recorded in 1948 by USGS.

Towers, The: ridge, see Mendenhall Towers.

Towhead Mountain: mountain, 4,856 ft., on E bank of Tana River 12 miles SE of its junction with Chitina River and 27 miles SE of McCarthy, St. Elias Mountains; 61° 03' N, 142° 40' W; (map 67). Named in 1900 by F. C. Schrader (Mendenhall and Schrader, 1903, pl. 3), USGS.

Town Lake: lake, 0.3 miles across, S of Chitina and 66 miles NE of Valdez, Chugach Mountains; 61° 30' 50" N, 144° 26' 10" W; (map 68). Local name published in the 1950's by USGS.

Townsend Peak: mountain, 5,700 ft., 1.7 miles E of Mount Mahlo and 17 miles N of Valdez, Chugach Mountains; 61° 21' 20" N, 146° 13' 20" W; BGN 1960; (map 68). Variant: Rice Peak, Summit Peak. Named by L. E. Nielsen in 1960 for "Dr. Leroy S. Townsend * * * physician at Copper Center during the winter of 1898-99 * * * wrote a report on scurvy in the Abercrombie report * * *."

Townshend, Point: point of land, see Brightman, Point.

Towogiak Bay: bay, see Togiak Bay.

Towrockeeleegowrak: locality, see Turakiligorak.

Towshecargut: stream, see Tozitna River.

Toy Harbor: cove, 0.1 miles across, on SE shore of Necker Bay, on Baranof Island, Alexander Archipelago; 56° 43' 10" N, 135° 04' 40" W; BGN 1926; (map 5). Named in 1924 by USC&GS; published in 1925 Coast Pilot (p. 284).

Toyatte Glacier: glacier, in Glacier Bay National Monument, trends SE 3 miles to Johns Hopkins Inlet 5.5 miles NE of Johns Hopkins Glacier, 80 miles NW of Hoonah, St. Elias Mountains; 58° 53' 45" N, 137° 03' 45" W BGN 1937; (map 10). Named by Muir (1915, p. 204) for Toyatte, a chief of the Stickeen Indians, who accompanied him in 1879 and who was killed while attempting to quell a riot between the Taku and Stickeen Indians, described by Muir in "Travels in Alaska."

Toyonak: locality, on W shore of Cook Inlet near mouth of McArthur River, Cook Inlet Lowland; 60° 54' N, 151° 42' W; (map 62). Former Eskimo village or camp published in Polk's Gazetteer, 1916.

Toyoniek: settlement, see Old Tyonek.

Toyonok: settlement, see Old Tyonek.

Toyonok: village, see Tyonek.

Toyons Bay: bay, see Redoubt Bay.

Toza Island: island, 0.3 miles long, Maurelle Islands, Alexander Archipelago; 55° 37' 15" N, 133° 39' 30" W; (map 4). Spanish name meaning "log (bulky piece of wood)," recorded in 1951 by USGS.

Tozer Creek: stream, flows SW 8 miles to Don River which flows to Breving Lagoon, 18 miles NW of Teller, Seward Peninsula Highlands; 65° 26' N, 166° 48' W; (map 111). Prospectors' name shown on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Tozhgelede: locality, see Tigshelde.

Tozi River: stream, see Tozitna River.

Tozi, Mount: peak, 5,519 ft., highest point in Ray Mountains, 25 miles NW of Rampart and 48 miles NE of Tanana, Kokrines-Hodzana Highlands; 65° 41' 30" N, 150° 57' 00" W; (map 106). Local name reported in 1956 by Orth; named for the Tozitna River.

Tozikakat: locality, on N bank of Yukon River at mouth of Tozitna River, Kokrines-Hodzana Highlands; 65° 09' N, 152° 24' W; (map 106). Former Indian village or camp recorded in the 1880 Census by Ivan Petroff (Hodge, 1910, p. 797).

Tozikakat: stream, see Tozitna River.

Tozimoran Creek: stream, flows E 13 miles to Tozitna River, 17 miles NW of Tanana, Kokrines-Hodzana Highlands; 65° 21' 00" N, 152° 30' 00" W; (map 106). Prospectors' name reported by USGS about 1940, but probably in use many years before. Name derived from Moran Dome and Tozitna River.

Tozitna Island: island, 2 miles long, in Yukon River at mouth of Tozitna River, 10 miles WSW of Tanana, Nowitna Lowland; 65° 07' 30" N, 152° 26' 00" W; (map 106). Variant: Zona Island. Local name reported in 1952 by USGS.

Tozitna River: stream, heads in Ray Mountains, flows W and S, between the Ray and Rampart Mountains, 83 miles to Yukon River, 10 miles WSW of Tanana, Kokrines-Hodzana Highlands; 65° 08' 15" N, 152° 25' 00" W; BGN 1907; (map 106). Variant: Tosechargut, Tosekargut, Towshechargut, Tozi River, Tozikakat. Indian name, "Tozi River," reported by personnel of the Western Union Telegraph Expedition of 1867 as "Towshechargut." In 1869 Raymond (1871 p. 23), U.S. Engineers, wrote it "Tosekargut," and Dall (1870, p. 282) spelled it "Tosikakat," or "mouth of the Tozi."

Tozitna Slough: channel, Yukon River, flows W 2 miles N of Tozitna Island, 10 miles WSW of Tanana, Nowitna Lowland; 65° 07' 30" N, 152° 26' 00" W; (map 106). Local name reported in 1952 by USGS.

Trace Creek: stream, see Montana Creek.

Track Rock: rock, 0.3 miles across, N of Tongass Island, in Nakat Bay, Coast Mountains; 54° 46' 50" N, 130° 44' 28" W; (map 2). Named by Lt. Comdr. H. E. Nichols, USN, in 1883.

Tractor Creek: stream, flows 3.7 miles S to Nizina River W of its junction with Kennicott River, 7 miles SW of McCarthy, Wrangell Mountains; BGN 1966; 61° 23' 00" N, 143° 06' 40" W; (map 67). Local name for the stream in which "Sam Snyder got his caterpillar tractor stuck"; reported in 1965 by L. A. Yehle, USGS.

Tractor Lake: lake, 4 miles long, 25 miles S of Barrow, Arctic Plain; 70° 55' 45" N, 157° 11' 15" W; (map 147). Local name reported in 1956 by USGS.

Tracy Arm: estuary, a fiord, heads in South Sawyer Glacier, trends SW 28 miles to Holkham Bay, 42 miles SE of Juneau, Coast Mountains; 57° 46' 54" N, 133° 37' 42" W; BGN 1964; (map 8). Named in 1889 by Lt. Comdr. H. B. Mansfield, USN, for B. F. Tracy, 1830-1915, Secretary of the Navy under Benjamin Harrison, 1889-93. He was a lawyer and U.S. District Attorney in New York. During the Civil War he served in the Union forces, achieving the rank of Brigadier General.

Trader Mountain: mountain, 2,641 ft., 9 miles W of Pavlof Bay, Bristol Bay Lowland; 55° 33' N, 161° 55' W; (map 28). Local name reported in 1929 by USGS. Possibly named for Traders Cove, an anchorage on the eastern side of Isanotski Strait.

Traders Bay: bight, see Trading Bay.

Traders Cove: bay, 1 mile across, part of Driftwood Bay, on S coast of Umnak Island, Aleutian Islands; 52° 57' 30" N, 168° 42' 15" W; BGN 1940; (map 21). Local name given in 1939 by USC&GS because "an early Russian trading vessel anchored in Driftwood Bay."

Traders Cove: cove, 0.7 miles across, in Bechevin Bay, Aleutian Range; 54° 54' N, 163° 19' W; (map 25). Local name, published in 1882 by USC&GS.

Traders Cove: cove, 1 mile across, on S coast of Amukta Island, Aleutian Islands; 52° 27' 30" N, 171° 17' 10" W; (map 20). Name published in 1951 on a USGS map.

Traders Head: point of land, on E side of Bechevin Bay, SW end of Alaska Peninsula, Aleutian Range; 54° 56' N, 163° 19' W; (map 25). Named by USC&GS in 1926: derived from Trader Cove.

Traders Island: island, about 2 miles across, in E end of Peril Strait, N of Catherine Island, 23 miles N. of Baranof, Alexander Archipelago; 57° 26' N, 134° 53' W; (map 9). The name "Traitors Island" was given by Lt. Comdr. R. W. Meade, USN, in 1869, to the largest island in a group of islands located here. It was spelled erroneously by USC&GS as "Traders Island" which is the name of another island about 2 miles in extent (USC&GS 1883, p. 167.). No island of this size now exists in this group. Either Meade mistook several of the islands as one island or else the island has been broken up to form the Traders Islands of present charts. The original name "Traitors Islands" is no longer used.

Traders Island: island, see Koyukuk Island.

Traders Islands: islands, extend 1.3 miles N of Catherine Island, in E end of Peril Strait, 23 miles N of Baranof, Alexander Archipelago; 57° 26' N, 134° 53' W; (map 9). Variant: Traitors Islands. The largest of this group of islands was called "Traitor Island" by Comdr. R. W. Meade, USN, in 1869; this name was published on Hydrog. Chart 225. USC&GS erroneously published the name as "Traders" for both the largest island and the group.

Traders Mountain: mountain, 1,845 ft., on Traders Head, on E shore of Bechevin Bay. Aleutian Range; 54° 55' 55" N, 163° 19' 00" W; (map 25). Name taken from Traders Cove and published in 1927 by USC&GS.

Trading Bay: bight, extends NE 25 miles on W shore of Cook Inlet, from West Foreland to Granite Point, 23 miles NW of Kenai, Cook Inlet Lowland; 60° 55' N, 151° 35' W; (map 62). Variant: Traders Bay. Named in August 1786 by Capt. Portlock (1789, p. 119). who anchored here and traded with the Indians.

Trail Creek: stream, at E end of Brooks Range, flows NE 5.5 miles across Alaska-Canada boundary to Joe Creek in Yukon, Canada; 68° 55' 30" N, 140° 56' 30" W; (map 137). Local name reported in 1956 by USGS.

Trail Creek: stream, distributary of Kouwegok Slough, flows SE 2 miles to Unalakleet River, 1 mile E. of Unalakleet, Nulato Hills; 63° 52' 30" N, 160° 44' 45" W; (map 91). Local name reported in 1952 by USC&GS.

Trail Creek: stream, flows NE 15 miles to Beaver Creek, 40 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 23' N, 147° 20' W; (map 105). Named by prospectors; published in 1906 by USGS.

Trail Creek: stream, flows NE 16 miles to Sulatna River, 5 miles NW of Monzonite Hills, Nowitna Lowland; 64° 26' N, 154° 47' W; (map 98). Prospectors' name reported in 1911 by A. G. Maddren (in Brooks and others, 1912, p. 294-296), USGS.

Trail Creek: stream, flows NE 17 miles to West Fork North Fork Chandalar River, 21 miles SSW of Chandalar, Brooks Range; 67° 12' 00" N, 148° 36' 20" W; (map 123). Prospectors' name obtained in 1909 by A. G. Maddren (in Brooks and others, 1910, pl. 7), USGS.

Trail Creek: stream, flows NW 4.5 miles from Kuskulana Pass to Kuskulana River, 30 miles NW of McCarthy, Wrangell Mountains; 61° 35' N, 143° 44' W; (map 67). Local name reported in 1900 by T. G. Gerdine, USGS.

Trail Creek: stream, flows NW 5 miles to Butte Creek, 28 miles N of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 29' 45" N, 161° 30' 00" W; (map 53). Probably a prospectors' name reported by A. G. Maddren (in Brooks, 1915, p. 358). USGS.

Trail Creek: stream, flows S 22 miles to Izavieknik River, 90 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 48' N, 159° 33' W; (map 53). Local name published in 1951 by USGS

Trail Creek: stream, flows S W 12 miles to Little Tok River, 25 miles S of Tok, Alaska Range; 62° 59' N, 143° 20' W; BGN 1936; (map 84). Local name given because the route from Mentasta Pass to Tetling village follows this stream.

Trail Creek: stream, flows S W 5 miles to Boulder Creek, 27 miles E. of Tanana, Yukon-Tanana Highlands; 65° 08' 30" N, 151° 10' 00" W; (map 106). Local name reported in 1952 by USGS.

Trail Creek: stream, flows SE 13 miles to Iditarod River, 7.3 miles W of Flat and 53 miles NE of Holy Cross, Kilbuck-Kuskokwim Mountains; 62° 28' 05" N, 158° 14' 20" W; (map 79). Prospectors' name published in 1921 by USGS.

Trail Creek: stream, flows SE 2.5 miles to Ogotoruk Creek, 6.7 miles E of Cape Thompson, Arctic Slope; 68° 08' 15" N, 165° 43' 20" W; BGN 1963; (map 129). Named about 1962 by personnel of Project Chariot.

Trail Creek: stream, flows SE 7.7 miles to Alexander Creek, 3 miles W of Susitna, and 33 miles NW of Anchorage, Cook Inlet Lowland; 61° 32' 40" N, 150° 36' 50" W; (map 70). Local name reported in 1935 by USGS.

Trail Creek: stream, flows SE to Garfield Creek which flows to Kuzitrin River, 2 miles S. of Baldy Mountain and 38 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 31' 30" N, 164° 34' 00" W; (map 110). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Trail Creek: stream, flows W 2 miles to Dome Creek, 25 miles S of Eagle, Yukon-Tanana Highlands; 64° 25' N, 141° 06' W; (map 102). Named by prospectors and shown on an 1898 manuscript map by E. E. Ball, prospector. Probably so named because the winter trail from Liberty to Dome Creek passed through this area. This stream is not shown on present-day maps.

Trail Creek: stream, flows W 2.8 miles to Cottonwood Creek which flows to Goodhope River, 15 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 47' N, 163° 25' W; BGN 1952; (map 110). Prospectors' name reported in 1901 by USGS (Collier, 1902, pl. 12).

Trail Creek: stream, heads at Trail Glacier on Kenai Peninsula, flows SW 22 miles to Kenai Lake, 20 miles N of Seward, Chugach Mountains; 60° 24' 40" N, 149° 22' 30" W; BGN 1966: (map 63). Variant: North Fork Trail Creek Trail River. Local name reported in 1898 by Mendenhall (1900, map 6), USGS.

Trail Creek: stream, heads E of Nucleus Mountain in DeLong Mountains, flows S W 44 miles to Kugururok River, 11 miles SW of Misheguk Mountain, Brooks Range; 68° 09' N, 161° 28' W; BGN 1926; (map 131). Local name reported in 1925 by Gerald FitzGerald, USGS, named by the Eskimos in the vicinity.

Trail Creek: stream, heads in a lake, flows SW 8.6 miles, through Trail Lake, to East Fork Matanuska River, 60 miles NW of Valdez, Copper River Basin; 61° 49' 10" N, 147° 23' 30" W; (map 69). Local name reported in 1951 by USGS.

Trail Creek: stream, in Bendeleben Mountains, flows E 2.7 miles to Caribou Creek which flows to Tubutulik River, 38 miles SE of Imuruk Lake, Seward Peninsula Highlands; 65° 07' N, 162° 27' W; (map 110). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Trail Creek: stream, in Chigmit Mountains, at head of Iniskin Peninsula, formed by its Right and Wrong Branches, flows NE 1 mile to Chinitna Bay, Aleutian Range; 59° 48' 45" N, 153° 16' 00' W; BGN 1962; (map 51). Variant: Low Creek, Tonnie Creek. Local name reported in 1958 by USGS

Trail Creek: stream, in Mentasta Mountains, flows S 10 miles to Jack Creek, E of Jack Lake, 12 miles NW of Devils Mountain, Alaska Range; 62° 31' N, 143° 14' W; BGN 1939; (map 84). Local name reported by USGS in 1939.

Trail Creek: stream, see Geohenda Creek.

Trail Glacier: glacier, heads 4 miles SW of head of Spencer Glacier, trends NW 6 miles to its terminus at head of Trail Creek, 36 miles NE of Seward, Chugach Mountains; 60° 35' 15" N, 149° 01' 15" W; (map 63). Local name reported in 1912 by Grant and Higgins (1913, pl. 1), USGS. Name derived from Trail Creek which drains the glacier.

Trail Lake: lake, 0.4 miles long, on Kenai Peninsula N of Tustumena Lake, 18 miles S of Kenai, Cook Inlet Lowland; 60° 18' 45" N, 151° 04' 40" W; (map 62). Named about 1963 by officials of Kenai National Moose Range. for administrative purposes.

Trail Lake: lake, 0.7 miles long, E of Lower Sucker Creek, 40 miles NE of Tyonek, Cook Inlet Lowland; 61° 37' 25" N, 150° 45' 30" W; (map 70). Local descriptive name reported in 1954 by USGS.

Trail Lake: lake, 1 mile long, in course of Trail Creek, 60 miles NW of Valdez, Copper River Basin; 61° 50' 45" N, 147° 19' 30" W; BGN 1960; (map 69). So named in 1956 by USGS because "the lake drains out through Trail Creek."

Trail Lake: lake, see Upper Trail Lake.

Trail Lake: locality, see Crown Point.

Trail Ridge: ridge, 475 ft., extends NW 10 miles from Susitna River, between Yentna River and Alexander Creek, 35 miles NW of Anchorage, Cook Inlet Lowland; 61° 37' N, 150° 37' W; (map 70). Local descriptive name reported in 1958 by USGS.

Trail River: stream, on N part of Chichagof Island flows NW 7 miles to head of Idaho Inlet, 22 miles W of Hoonah, Alexander Archipelago; 58° 03' 55" N, 136° 06' 20" W; BGN 1960; (map 10). So named by USGS in 1955 "because the stream affords a natural trail between Idaho Inlet and Tenakee Inlet."

Trail River: stream, see Trail Creek.

Trail Station: locality, see Crown Point.

Trail: locality, see Crown Point.

Train Creek: stream, flows NW 17 miles to Telaquana River, 75 miles NE of Nondalton, Alaska Range; 60° 52' N, 154° 03' W; BGN 1931; (map 61). Local name reported in 1929 by S. R. Capps and Gerald FitzGerald, USGS.

Traitors Cove: estuary, extends NE 8 miles off Behm Canal, on W coast of Revillagigedo Island, Alexander Archipelago; 55° 42' N, 131° 39' W; (map 3). Variant: Bukhta Tretr (izmyny). Named by Capt. Vancouver, RN, "August 12, 1793, on account of trouble there with the Indians" (Wagner, 1937, p. 419); this name was transliterated and published in 1853 as "Bukhta Tretr (izmyny)" on Russian Hydrog. Dept. Chart 1495.

Traitors Creek: stream, heads in lake, on Revillagigedo Island, flows NW 6.3 miles to Traitors Cove, Alexander Archipelago; 55° 44' 10" N, 131° 30' 50" W; BGN 1962; (map 3). Local name reported in 1961 by USFS.

Traitors Islands: islands, see Traders Islands.

Traleika Col: pass, 9,900 ft., in Mount McKinley National Park near head of Traleika Glacier, 7 miles E of Mount McKinley, Alaska Range; 62° 04' N, 150° 46' W; (map 88). Named by Bradford Washburn about 1945. See Traleika Glacier.

Traleika Glacier: glacier, in Mount McKinley National Park, trends N 12 miles to Muldrow Glacier, 10 miles NE of Mount McKinley, Alaska Range; 63° 13' N, 150° 42' W; BGN 1947; (map 88). Named by Bradford Washburn about 1945; derived from the Susitna [Tanaina] Indian Name for Mount McKinley reported to mean "great one" or "the high one."

Traleika Icefall: icefall, of 2,500 ft., in Mount McKinley National Park, extends NNE 0.8 miles at head of West Fork Traleika Glacier, 4 miles E of Mount McKinley, Alaska Range; 63° 05' 30" N, 150° 52' 30" W; (map 88). Climbers' name published on recent maps.

Traleika: mountain range, in Alaska Range near Mount McKinley. For this undefined range, J. E. Spurr, USGS, suggested the Indian word "Traleyka," meaning "high mountains."

Traleika: mountain, see McKinley, Mount.

Traleyka: mountain, see McKinley, Mount.

Tramp Point: point of land, on E coast of Revillagigedo Island, S of Sargent Bay, Alexander Archipelago; 55° 31' 30" N, 130° 58' 50" W; (map 3). Arbitrary name given in 1891 by USC&GS.

Tramway Bar: locality, on Middle Fork Koyukuk River, opposite mouth of Chapman Creek and 24 miles SW of Wiseman, Brooks Range; 67° 05' N, 150° 30' W; (map 124). Variant: Tramway. Shown as "Tramway" in 1899 by T. G. Gerdine. USGS, on a fieldsheet of it, Marshall (1956 p. 84). wrote, "The major scenic feature along the Middle Fork * * * is the canyon * * * called Tramway Bar, where gold in paying quantities was first discovered * * * in

1893. It is probable that a mining tramway [a small dumpcart running on an overhead cable] existed here during the early gold-mining operations.”

Tramway: locality, see Tramway Bar.

Tranquil Point: point of land, on W coast of Prince of Wales Island, 7 miles SW of Craig, Alexander Archipelago; 55° 23' 00" N, 133° 13' 30" W; (map 4). Variant: Mys del Sosiyego, Punta del Sosiego, Punta Sosiego. Translation of the name “Punta del Sosiego,” or “point of tranquillity,” given in 1775-1779 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle.

Traodee Creek: stream, see Charley River.

Trap Bay: bay, 1 mile across, along SE shore of Tenakee Inlet along E coast of Chichagof Island, 8 miles SE of Tenakee Springs, Alexander Archipelago; 57° 45' N, 135° 01' W; BGN 1930; (map 9). Local name reported in 1928 by USFS.

Trap Creek: stream, flows SW 0.5 miles to East Fork Solomon River near its head, 15 miles NE of Solomon, Seward Peninsula Highlands; 64° 42' N, 164° 04' W; (map 95). Prospectors' name reported on a 1902 prospectors' manuscript map.

Trap House Hills: hills, on SW shore of Nelson Lagoon, 28 miles W of settlement of Port Moller, Bristol Bay Lowland; 55° 57' 30" N, 161° 18' 30" W; (map 28). Local name shown on a 1963 USC&GS chart.

Trap Lake Glacier: glacier, see Tsina Glacier.

Trap Lake: lake, 1 mile long, 1 mile S of Tsina Glacier and 13 miles NE of Valdez, Chugach Mountains; 61° 14' 20" N, 145° 55' 00" W; BGN 1965; (map 68). So named in 1964 by A. S Post, USCS, “because the lake lies in a valley trapped between two glaciers.”

Trap Lake: lake, 1,500 ft. long, on Revillagigedo Island, near mouth of Carroll Inlet, 3.5 miles NE of Carroll Point, Alexander Archipelago; 55° 19' 35" N, 131° 24' 00" W; BGN 1923; (map 3). Named in 1923 by USGS.

Trap Point: point of land, on S bank of Chickamin River, at Behm Canal, Coast Mountains; 55° 47' N, 130° 58' W; (map 3). Name published in 1891 by USC&GS.

Trap Point: point of land, on W coast of Chichagof Island, NW point of entrance to Ford Arm of Slocum Arm, 8 miles SE of Chichagof, Alexander Archipelago; 57° 33' 15" N, 136° 00' 40" W; (map 9). Name published in 1928 by USC&GS on Chart 8280.

Trap Point: point of land, on W shore of Moser Bay, 41 miles S of Karluk on SW coast of Kodiak Island; 57° 00' 10" N, 154° 09' 00" W; (map 35). Local name published in 1943 by USC&GS.

Trapper Creek: stream, flows SW 2.3 miles to Crooked Creek 5 miles NW of its junction with Kuskokwim River, 5 miles NW of Village of Crooked Creek, Kilbuck-Kuskokwim Mountains; 61° 55' 45" N, 158° 11' 40" W; BGN 1945; (map 72). Local name reported in 1944 by USGS.

Trapper Creek: stream, heads in lake, flows S 34 miles through Trapper Lake to Kroto Creek, 13 miles NW of Willow, and 46 miles NW of Anchorage, Cook Inlet Lowland; 61° 51' N, 150° 22' W; (map 70). Local name reported in 1954 by USGS.

Trapper Joe Lake: lake, 0.7 miles long, on Kenai Peninsula, drains N to Chickaloon River, 20 miles SW of Hope and 40 miles NE of Kenai, Cook Inlet Lowland; 60° 46' N, 150° 05' W; (map 62). Local name reported in 1958 by USGS.

Trapper Lake: lake, 4.8 miles long, in course of Trapper Creek, W of Susitna River, 53 miles NW of Anchorage, Cook Inlet Lowland; 62° 00' 00" N, 150° 14' 30" W; (map 70). Local name reported in 1954 by USGS.

Trappers Cove: cove, 0.2 miles across, on SW shore of Bay of Islands, Aleutian Islands; 51° 46' 35" N, 176° 49' 00" W; BGN 1936; (map 17). Named by members of the the Navy Aleutian Island Survey Expedition in 1933.

Trasera Island: island, 0.2 miles across, central Maurelle Islands, Alexander Archipelago; 55° 38' 05" N, 133° 36' 25" W; (map 4). Spanish name meaning "back (posterior part)." recorded in 1951 by USGS.

Trava Point: point of land, in Kuliliak Bay, on S coast of Unalaska Island, Aleutian Islands; 53° 26' 11" N, 167° 01' 50" W; BGN 1939; (map 23). Russian name meaning 'grass" given by USC&GS in 1937 because of the tall grass which covers this point.

Travasey Creek: stream, see Traverse Creek.

Travelair Creek: stream, flows NW 20 miles to Oolamnagavik River, 14 miles N of Kurupa Lake, Brooks Range; 68° 39' N, 154° 28' W; BGN 1960: (map 133). So named about 1950 by USGS geologists during exploration of the Naval Petroleum Reserve No. 4 because "a Travelair [plane] crashed and burned near the creek."

Traver Creek: stream, heads at Guerin Glacier terminus and flows 8 miles N to White River, 65 miles NE of McCarthy, St. Elias Mountains; 61° 44' N, 142° 04' W; (map 67). Local name reported in 1908 by S. R. Capps (Moffit and Knopf, 1910, pl. 1), USGS.

Travers Creek: stream, on Kenai Peninsula, flows SW 2 miles to N entrance of Kachemak Bay 11 miles NW of Homer, Cook Inlet Lowland; 59° 43' 40" N, 151° 49' 30" W; (map 50). Name reported by R. W. Stone (1904, pl. 13), USGS.

Traverse Creek: stream, flows SSW 4.4 miles to Harrison Creek, 9 miles SSW of Circle Hot Springs and 38 miles SW of Circle, Yukon-Tanana Highlands; 65° 22' N, 144° 49' W; BGN 1959; (map 104). Variant: Portage Creek Travasey Creek. In 1908 USGS reported this stream as Travasey Creek (Covert and Ellsworth, 1909 pl. 4); however, the present name came into local usage and was published by Mertie (1937b, pl. 1), USGS.

Traverse Peak: mountain, 2,838 ft., at head of Ungalik River, 57 miles SE of Haycock, Nulato Hills; 65° 10' N, 159° 12' W; BGN 1910; (map 109). Variant: Divide Peak. Named in 1909 by A. H. Brooks, USGS.

Traversie: area, in S Anchorage, 2 miles SE of City Hall, Cook Inlet Lowland; 61° 11' 40" N, 149° 51' 20" W; (map 69). Residential district in city of Anchorage reported in 1954 by office of city engineer of Anchorage.

Tre Brata: rocks, see Three Brothers.

Treadwell Ditch: ditch, on E part of Douglas Island, extends from Fish Creek NW and S along base of mountains 15 miles to Bullion Creek, 5 miles SE of Juneau, Coast Mountains; 58° 14' 20" N, 134° 20' 45" W; (map 11). Named for the Treadwell Gold Mining Company which, between 1882-90, built the ditch to deliver water to the mines for power purposes. It is now in poor repair (DeArmond, 1957, p. 45).

Treadwell Glory Hole: locality, on NE coast of Douglas Island, 0.4 miles NW of Treadwell and 2.7 miles SE of Juneau Coast Mountains; 58° 16' 00" N, 134° 22' 45" W; (map 11). Variant: Glory Hole. Named for the Treadwell Gold Mining Co. which carried on open-pit mining in this area from 1881 to 1917 which resulted in an enormous hole now partly filled with water (DeArmond, 1957, p. 44).

Treadwell: village, pop. 13 (1940). on NE coast of Douglas Island, on Gastineau Channel, 1.2 miles SE of Douglas and 3 miles SE of Juneau, Coast Mountains; 58° 16' N, 134° 22' W; (map 11). Named for John Treadwell, 1842-1927. one of the early miners in the Juneau area. He arrived in Juneau in 1881 and mined in the Gold Creek area. Later the same year he organized the Treadwell Gold Mining Co. In 1889 he sold his interests and left Alaska. Treadwell was a company town founded in 1881, incorporated in 1901, and district incorporated in 1912. The town had a pop. of 1,222 in 1910. After the mines flooded in 1917, the pop fell to 325 in 1920 and continued to decline as mining operations gradually stopped (DeArmond, 1957, p. 44-45).

Treasure Creek: stream, anabranch of Kahiltna River flows SE 9.5 miles, 27 miles SW of Talkeetna, Alaska Range; 62° 13' 30" N, 150° 55' 35" W; (map 81). Prospectors' name reported in 1906 by R. W. Porter, USGS.

Treasure Creek: stream, flows NE 4.2 miles to Vault Creek, 13 miles N of Fairbanks, Yukon-Tanana Highlands; 65° 01' 50" N, 147° 42' 45" W; (map 105). Named by prospectors; reported in 1903 by T. G. Gerdine (Prindle, 1905, pl. 13), USGS.

Treasure Creek: stream, heads E of Chelatna Lake, flows SE 14 miles to Kahiltna River, 33 miles W of Talkeetna, Alaska Range; 62° 21' 35" N, 151° 11' 10" W; (map 81). Prospectors name reported in 1906 by R. W. Porter, USGS.

Treasury Hill: mountain, 1,800 ft., 4 miles N of Auke Bay, near head of Lake Creek and 14 miles NW of Juneau, Coast Mountains; 58° 26' 20" N, 134° 41' 00" W; (map 11). Named by miners V. C. Spaulding and Charles Wyley in 1908 (Knopf, 1912, p. 56).

Treat Island: island, 16 miles long, formed by Koyukuk River and Cutoff Slough, 30 miles NE of Roundabout Mountain, Koyukuk Lowland; 65° 55' N, 156° 08' W; (map 107 and 108). Variant: Treats Island. A letter written by Lt. H. T. Allen, USA, Jan. 3, 1894, states that this

island was named in 1885 "In honor of Lt. Charles G. Treat, U.S.A., my classmate and special friend." It is shown as Treats Island by Allen (1887, map).

Treats Island: island, see Treat Island.

Treble Mountain: mountain, 4,500 ft., "near the head of Portland Canal," near Hyder; (map 3). Descriptive name given in 1868 by Staff Comdr. David Pender, RN.

Tree Island: island, 0.1 miles across, at mouth of Gambier Bay, off Admiralty Island, 1 mile NW of Church Point and 60 miles NE of Sitka, Alexander Archipelago; 57° 27' 40" N, 133° 55' 20" W (map 8). Name published by USC&GS in the 1925 Coast Pilot (p. 225). because "Tree Island appears as a clump of tress * * *."

Tree Lake: lake, 0.4 miles long, on Kenai Peninsula 6 miles NW of Sterling and 11 miles E of Kenai, Cook Inlet Lowland; 60° 33' 50" N, 150° 54' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Tree Mountain: mountain, 3,374 ft., in Glacier Bay National Monument, 5 miles E of Adams Inlet and 64 miles NW of Juneau, St. Elias Mountains; 58° 51' 50" N, 135° 49' 10" W; (map 11). Named by John Muir in 1892. The name was published by Reid (1892, p. 22), USGS.

Tree Point: point of land, 0.2 miles long, extends SW from E shore of Revillagigedo Channel, Coast Mountains; 54° 48' 15" N, 130° 55' 45" W; (map 2). This point was reserved for lighthouse purposes and named by Executive Order, January 4, 1901.

Tree Point: point of land, on W shore of Karluk Lake, 21 miles SE of Karluk, Kodiak Island; 57° 21' 10" N, 154° 03' 05" W; (map 35). Local descriptive name reported in 1952 by USGS.

Treeless Island: island, 450 ft. across, in Marmot Bay, 0.5 miles E of Whale Island, N of Kodiak Island; 57° 59' 12" N, 152° 42' 20" W; (map 34). Variant: Nizmennie Kamennie, Ostrov Nizmennyy Kamennyy. Described by Sub-Lt. Mikhail Murashev, IRN, in 1839 or 1840 as "Os[trov] Nizmennyy Kamennyy," meaning "Low Rocky Island." The descriptive name "Treeless" was given to this island in 1900 by Lt. Comdr. J. F. Moser, USN, of the USBF steamer Albatross.

Trekh Kekurnie: point of land, see Three Pillar Point.

Trekh Kekurnyy, Mys: point of land, see Three Pillar Point.

Trekh Svyatiteley, Gavan: cove, see Three Saints Harbor.

Trekhamena: lake, see Snohomish, Lake.

Trembley Creek: stream, flows SE 5.5 miles to Kuyuktuvuk Creek, 1.5 miles NW of junction of Kuyuktuvuk Creek with Dietrich River and 48 miles NW of Chandalar, Brooks Range; 67° 51' 15" N, 149° 53' 30" W; (map 123). Variant: Sheep Creek. Name reported in 1901 by W. J. Peters, USGS (Schrader, 1904, pl. 2).

Tremel Island: island, on left bank of Yukon River, W of Brant Island and 13 miles E of Birches, Nowitna Lowland; 65° 09' N, 153° 09' W; (map 107). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the Department of the Interior.

Trena Lake: lake, 0.4 miles long, on Kenai Peninsula, 0.7 miles N of Seldovia, Chugach Mountains; 59° 27' 15" N, 151° 42' 20" W; (map 50). Local name reported by USGS in 1951.

Tretr (izmyny), Bukhta: estuary, see Traitors Cove.

Treville, Punta de: point of land, see Whitshed, Point.

Tri Brata, Kamen: rocks, see Three Brothers.

Trial Creek: stream, on E coast of Alaska Peninsula, flows E 7.2 miles to Puale Bay, 44 miles NW of Karluk, Aleutian Range; 57° 42' 20" N, 153° 37' 45" W; (map 35). Local name published in 1943 by USC&GS.

Triangle Island: island, 0.1 miles across, at N end of Queen Inlet, on Glacier Bay, in Glacier Bay National Monument, 1.7 miles S of terminus of Carroll Glacier and 71 miles NW of Hoonah, St. Elias Mountains; 58° 57' 25" N, 136° 31' 50" W; (map 10). Variant: Triangle Islet. So named in 1892 by Reid (1896, pl. 8.6). "because of the shape of the island."

Triangle Island: island, 0.2 miles long, 2.2 miles NE of Dunulimjingia Point and 15 miles SE of Cape Etolin, off NE coast of Nunivak Island; 60° 21' 00" N, 165° 45' 20" W; (map 57). Name reported about 1908 by USC&GS.

Triangle Island: island, 1.2 miles across, in Iliamna Lake, 4 miles W of Flat Island and 16 miles E of Iliamna, Aleutian Range; 59° 43' N, 154° 28' W; (map 51). Local descriptive name for this generally triangular island. The name was published by USGS in 1954.

Triangle Islet: island, see Triangle Island.

Triangle Lake: lake, 1,000 ft. across, in Matanuska Valley, 4 miles SW of Palmer, Cook Inlet Lowland; 61° 33' 25" N, 149° 12' 25" W; (map 69). Descriptive name reported in 1951 by USGS.

Triangle Lake: lake, 1.5 miles long, 8 miles S of Harlequin Lake and 33 miles SE of Yakutat, Malaspina Coastal Plain; 59° 17' 38" N, 138° 56' 20" W; BGN 1966; (map 46). Local descriptive name reported in 1966 by USFS.

Triangle Lake: lake, 500 ft. across, 1.2 miles S of Sixmile Lake and 4.5 miles NE of Anchorage, Cook Inlet Lowland; 61° 16' 18" N, 149° 48' 35" W; (map 69). Descriptive name reported in 1952 by USGS.

Triangle Peak: peak, 3,505 ft., W of Cook Inlet, 4.5 miles SW of Slope Mountain and 64 miles SW of Kenai, Aleutian Range; 60° 01' 40" N, 152° 45' 00" W; (map 62). Local descriptive name; published in 191" by USC&GS.

Tributary Creek: stream, flows 2.8 miles to Big Hurrah Creek, 9 miles NE of Solomon, Seward Peninsula Highlands; 64° 39' N, 164° 13' W; (map 95). Prospectors' name reported on a 1902 prospectors' manuscript map.

Tributary Creek: stream, flows E 7 miles, N of Slatepile Mountain, to Ernie Creek, 43 miles NW of Wiseman, Brooks Range; 67° 58' 45" N, 150° 50' 00" W; (map 124). Name reported in 1939 by Marshall (1956, map).

Tributary Creek: stream, flows N W 5 miles to East Fork Toklat River, 35 miles SW of Healy, Alaska Range; 63° 36' 30" N, 149° 53' 00" W; (map 87). Local descriptive name reported by USGS in 1954.

Tributary Creek: stream, on Kenai Peninsula, flows NE 2 miles to Pass Creek, 12 miles SW of Sunrise, Chugach Mountains; 60° 43' 05" N, 149° 30' 30" W; (map 63). Local name reported about 1914 by B. L. Johnson (in Martin and others, 1915, pl. 2), USGS.

Tricouni Peak: peak, 5,505 ft., at junction of West Branch and Taku Glaciers, 3 miles NE of The Snow Towers and 26 miles N of Juneau, Coast Mountains; 58° 40' 15" N, 134° 29' 15" W; (map 11). Name proposed by members of the Juneau Icefield Research Project and published by USGS in 1960.

Trident Bay: bay, 1 mile across, on SE coast of Akun Island, Krenitzin Islands, Aleutian Islands; 54° 08' 30" N, 165° 32' 30" W; (map 24). Named in 1901 by J. J. Gilbert, USC&GS.

Trident Glacier: glacier, three arms, heads on Mount Shand, trends N 18 miles to its terminus at head of Delta Creek, 13 miles NE of Mount Hayes, Alaska Range; 63° 45' 15" N, 146° 25' 00" W; BGN 1949; (map 86). Named in 1941 by Bradford Washburn "because of its three prongs."

Trident Volcano: volcano, see Trident, Mount.

Trident, Mount: volcano, 6,790 ft., three peaks, between Katmai Pass and Mount Katmai, in Katmai National Monument, Alaska Peninsula, Aleutian Range; 58° 14' N, 155° 05' W; BGN 1966; (map 42). Variant: The Trident, Trident Volcano. Descriptive name given as Trident by R. F. Griggs, National Geographic Society, in 1916, because of its three peaks.

Trident, The: volcano, see Trident, Mount.

Trigger Lake: lake, 0.7 miles long, on Kenai Peninsula N of Bedlam Lake, 42 miles NE of Kenai, Cook Inlet Lowland; 60° 56' 30" N, 150° 21' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Trilby Creek: stream, flows NW 4 miles to Windy Creek which flows to Budd Creek, in American River basin, 11 miles SW of Kougarak Mountain and 33 miles NE of Teller, Seward Peninsula Highlands; 65° 34' N, 165° 28' W; (map 111). Variant: Ohio Creek. Prospectors' name reported in 1901 by T. C. Gerdine (in Collier, 1902, pl. 12), USGS.

Trilby Creek: stream, flows SE 4 miles to Middle Fork Chandalar River, 14 miles ESE of Chandalar, Brooks Range; 67° 24' N, 148° 02' W; (map 123). Prospectors' name obtained in 1909 by A. G. Maddren (in Brooks and others, 1910, pl. 7), USGS.

Trilby Creek: stream, flows SE to Magnolia Creek which flows to Igloo Creek, in American River basin, 14 miles SW of Kougarok Mountain and 33 miles NE of Teller, Seward Peninsula Highlands; 65° 30' N, 165° 22' W; (map 111). Prospectors' name reported on a map of Cape Nome goldfields by David Fox, Jr., dated 1901.

Trilby Creek: stream, flows SW 1.6 miles to Big Hurrah Creek, 8 miles NE of Solomon, Seward Peninsula Highlands; 64° 39' N, 164° 16' W; (map 95). Variant: Right Branch Big Hurrah Creek. Prospectors' name reported in 1899 by Schrader and Brooks (1900, map 3), USGS.

Trilby Creek: stream, in Bendeleben Mountains, flows SW 2 miles to Paragon River near its head, 11 miles NE of Mount Bendeleben, Seward Peninsula Highlands; 65° 14' N, 163° 45' W; (map 110). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Trilby Creek: stream, see East Fork Solomon River.

Trilby Creek: stream, see Grizzly Creek.

Trilby Gulch: ravine, trends W 1 mile to Hungry Creek which flows to Oregon Creek, a tributary to Cripple River, 15 miles NW of Nome, Seward Peninsula Highlands; 64° 40' 20" N, 165° 42' 00" W; (map 94). Prospectors' name shown on the 1904 map of Cape Nome Precinct by Arthur Gibson.

Trim Island: island, 0.2 miles wide, in Karheen Passage, between Heceta and Tuxekan Islands, Alexander Archipelago; 55° 47' 30" N, 133° 17' 30" W; (map 4). Name published in 1923 by USC&GS.

Trimble Glacier: glacier, in Tordrillo Mountains, formed by the junction of its North and South Branches, trends NE 4 miles to its terminus at head of Trimble River, 56 miles NW of Tyonek, Alaska Range; 61° 44' 45" N, 152° 03' 00" W; BGN 1963; (map 70). Variant: Hayes Glacier. Named by USGS in 1961 for Kelley W. Trimble, 1885-1955, USGS topographer, who did the first topographic survey in this area.

Trimble River: stream, heads at terminus of Trimble Glacier in Tordrillo Mountains, flows N 7 miles to Hayes River, 62 miles NW of Tyonek, Alaska Range; 61° 50' 20" N, 152° 05' 00" W; BGN 1963; (map 70). Name proposed in 1958 by USGS for Kelly W. Trimble, 1885-1955, USGS topographer, who did the first topographic survey in this area in 1926.

Trimokish Hills: range, 4,000 ft., extends N 18 miles between headwaters of Middle and Windy Forks Kuskokwim River, 68 miles SE of McGrath, Alaska Range; 62° 15' N, 154° 10' W; (map 80). Local name obtained in 1958 by USGS.

Trims Creek: stream, flows SW 3 miles to Delta River, crossing Richardson Highway 28 miles NW of Paxson, Alaska Range; 63° 25' 25" N, 145° 46' 05" W; (map 86). Name reported in 1952 by USGS.

Trinachak: locality, "in the Nushagak district," Bristol Bay Lowland; (map 40). Variant: Trinachamiut. Former Eskimo village recorded as "Trinachamiut," population 20, in the 1890 Census (1893, p. 164).

Trinachamiut: locality, see Trinachak.

Trinidad Island: islands, see Trinity Islands.

Trinidad, Cabo de: point of land, see Trinity, Cape.

Trinidad, Cape: point of land, see Trinity, Cape.

Trinidad, Islas de: islands, see Trinity Islands.

Trinity Creek: stream, flows NE 2.2 miles to Washington Creek which flows to Kougarok Creek, 9 miles SW of Midnight Mountain and 50 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 44' N, 164° 54' W; (map 110). Prospectors' name reported in 1906 by A. H. Brooks (in Collier and others, 1908, pl. 9), USGS.

Trinity Creek: stream, flows NW 1.5 miles to Sinuk River, 22 miles NW of Nome, Seward Peninsula Highlands; 64° 46' N, 165° 48' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Trinity Creek: stream, flows SW 2 miles to Kobuk River, 13 miles E of Shungnak, Kotzebue-Kobuk Lowland; 66° 54' N, 156° 41' W; (map 115). Prospectors' name reported by USGS after 1940.

Trinity Creek: stream, in Baird Mountains, flows SW 4 miles to Kobuk River, 13 miles ENE of Kiana, Brooks Range; 67° 00' 20" N, 159° 58' 00" W; (map 127). Name used by prospectors; reported in 1910 by P. S. Smith (in Brooks and others, 1911 Pl. 13), USGS.

Trinity Island: islands, see Trinity Islands.

Trinity Islands: islands, extend 1 mile NW off Long Island, in Sanak Islands; 54° 26' N, 162° 52' W; (map 25). Name reported by Ferdinand Westdahl USC&GS, commander of the Coast Survey steamer McArthur, who made surveys in this area in 1901.

Trinity Islands: islands, off SW coast of Kodiak Island, include Sitkinak and Tugidak Islands, 56° 33' N, 154° 20' W; (map 32). Variant: Islas de Trinidad, Kightak Sichtunak, Siktunak Island, Trinidad Island, Trinity Island. Name published as "Trinity Island" by Capt. Cook (1785, v. 2, p. 407), RN. These islands were called "Trinidad Island" by Galiano (1802, map 3). and "Kightak Sichtunak," (Sichtunak Island), by Sauer (1802, p. 174). The Russian Hydrog. Dept. published the name as "O[strov]y Troitsy," (Trinity Islands). in 1847 on Chart 1378; this name was also published by USC&GS in 1868.

Trinity Lakes: lakes, extend N-S 3.5 miles, 36 miles NW of Tyonek, Cook Inlet Lowland; 61° 36' 25" N, 151° 26' 30" W; (map 70). Local descriptive name reported in 1954 by USGS.

Trinity Point: point of land, on NE coast of Kenai Peninsula, on S side of Passage Canal, 5 miles NE of Whittier, Chugach Mountains; 60° 48' 25" N, 148° 33' 20" W; (map 63). Named in 1914 by USC&GS; published in 1916.

Trinity, Cape: point of land, on SW coast of Kodiak Island, at S tip of Aliulik Peninsula, Kodiak Island; 56° 44' 50" N, 154° 08' 30" W; (map 32). Variant: Aliulik, Aliutik, Cape South, Cape Trinidad, Iuzhnoi, Mys Yuzhnoy, Trinidad, Utchno. Name derived from Trinity Islands, given by Capt. Cook (1785, v. 2, p. 407-08), RN, in 1778. He wrote "the Westernmost [sic] part of the continent now in sight, being a low point facing Trinity Island, and which we called Cape Trinity * * *." This feature was called "M[y]s Yuzhnoy," (South Cape), by Capt. Tebenkov (1852, map 22); USC&GS gave "Aliulik" as the native name for this feature in 1934.

Trip Cove: cove, 0.5 miles across, on N coast of Spruce Island NE of Kodiak Island; 57° 57' 30" N, 152° 27' 30" W; (map 34). Local name published in 1943 by USC&GS.

Triple Creek: stream, flows E 1.7 miles to Minook Creek, 12 miles S of Rampart, Yukon-Tanana Highlands; 65° 19' 50" N, 150° 08' 20" W; (map 106). Prospectors' name reported in 1931 by J. B. Mertie, USGS.

Triple Creek: stream, see Iron Creek.

Triple Divide Peak: mountain, 2,250 ft., at head of Middle Yoke Creek, on central Great Sitkin Island, Aleutian Islands; 52° 02' 30" N, 176° 05' 30" W; (map 17). Descriptive name published by USGS (in Simons and Mathewson, 1955, p. 29).

Triple Lakes: lakes, extend NW-SE 1.5 miles, 1 mile W of Yanert and 13 miles S of Healy, Alaska Range; 63° 40' N, 148° 52' W; (map 87). Local descriptive name reported in 1950 by USGS.

Triplet Islands: islands, the largest 0.3 miles long, in Portlock Harbor on W. coast of Chichagof Island, 6.5 miles NW of Chichagof, Alexander Archipelago; 57° 43' 35" N, 136° 13' 35" W; (map 9). Descriptive name published in 1928 by USC&GS on Chart 8258.

Triplet Rocks: rocks, group of three, at S tip of Akutan Island, Aleutian Islands; 54° 02' 30" N, 166° 03' 00" W; (map 23). Descriptive name given by J. J. Gilbert, commander of the Coast Survey steamer Pathfinder during 1900-01.

Triplet Rocks: rocks, in Tlevak Strait, extend 1,300 ft., near head of Cordova Bay, 0.3 miles SE of Jackson Island, Alexander Archipelago; 54° 58' 30" N, 132° 42' 10" W; (map 1). Local descriptive name reported in 1951 by USGS.

Triplets, The: islands, 0.3 miles long, at SE end of Kashevarof Island, on NE coast of Prince of Wales Island, Alexander Archipelago; 56° 03' 30" N, 132° 50' 00" W; (map 6). Navigator's descriptive name published in 1907 by USC&GS.

Triplets, The: islands, extend 1.2 miles, in Marmot Bay 1.5 miles N of Spruce Island, NE of Kodiak Island; 57° 59' 15" N, 152° 28' 30" W; BGN 1909; (map 34). Variant: Ostrova Kameniste, Rocky Islands, Rocky Islets. Named "Os[trova] Kameniste" by Sub-Lt. Mikhail Murashev in 1839 or 1840 and published on Russian Hydrog. Dept. Chart 1425. Baker (1906, p. 532). published "Rocky Islands," a translation of Murashev's name. Because of duplication the name was changed to "The Triplets" by USC&GS in 1909.

Tripod Creek: stream, see Nuka River.

Tripod Hill: mountain, 1,255 ft., on SE shore of Orca Inlet, 1 mile NE of Cordova, Chugach Mountains; 60° 33' 20" N, 145° 44' 00" W; (map 64). Local name published in 1951 by USGS.

Tripple Creek: stream, flows SE 2.8 miles to Nome River, 6 miles NE of Nome, Seward Peninsula Highlands; 64° 31' N, 165° 13' W; (map 94). Variant: Extra Dry Creek. Prospectors' name reported on a map by S. E. King dated 1900.

Tripple Creek: stream, see Iron Creek.

Tripyramid, Mount: mountain, 11,600 ft., in Mount McKinley National Park, consists of East, Central, and West Pyramid Peaks, 12 miles NE of Mount McKinley, Alaska Range; 63° 09' 30" N, 150° 41' 30" W; (map 88). Named in 19-15 by Bradford Washburn; name suggested by Mount Tripyramid in the Sandwich Range of New Hampshire.

Trista, Isla: rock, see Seal Rocks.

Triste Island: island, 150 ft. long, in Port Real Marina, on NE coast of Baker Island, NE of Triste Point, Alexander Archipelago; 55° 25' 15" N, 133° 29' 45" W; (map 4). Variant: Ostrov Triste, Isla Triste, Ysla Triste. Spanish name given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Isle Triste," meaning "Sorrowful Island."

Triste Point: point of land, 1.3 miles W of Santa Rita Island, on NE coast of Baker Island, Alexander Archipelago; 55° 25' 15" N, 133° 30' 00" W; BGN 1923; (map 4). Spanish word meaning "sorrowful" given in 1923 by USC&GS; derived from Triste Island.

Tritt Creek: stream, heads in Seagull Lake, flows SW through Seagull Lake, 27 miles to East Fork Chandalar River, 1 mile E of Arctic Village, Brooks Range; 68° 08' N, 145° 30' W; (map 136). Locally named for Albert Tritt; reported in 1926 by J. B. Mertie (in Smith, P. S., and others, 1929, pl. 1), USGS.

Triumvirate Glacier: glacier, in Tordrillo Mountains, formed by junction of three glaciers, trends SW 14 miles to its terminus (1958), 4 miles W of Beluga Lake and 32 miles NW of Tyonek, Alaska Range; 61° 25' N, 151° 46' W; BGN 1930; (map 70). Named by S. R. Capps and R. H. Sargent (in Smith and others, 1929, pl. 3), USGS, "because this glacier is composed of the joining of three large glaciers."

Tro-wak: mountain, see Towak Mountain.

Trocadero Bay: bay, extends SE 11 miles, off Bucareli Bay, on W coast of Prince of Wales Island, Alexander Archipelago; 55° 24' N, 133° 08' W; (map 4). Variant: Canos del Trocadero,

Frocadero Bay, Big Harbor. Named "Canoe del Trocadero" on June 1, 1779, by Francisco Antonio Maurelle. "Trocadero was the name of a fort in the Bay of Cadiz. Adopted by Capt. George Vancouver, RN, under the same name, except that he spelled it with an F" (Wagner, 1937, p. 420).

Trogshak: locality, on E bank of Kwimlithla Slough, 9.5 miles SE of Kwiguk, Yukon-Kuskokwim Delta; 62° 39' N, 164° 18' W; (map 77). Eskimo camp or village, now abandoned, reported in 1899 by G. R. Putnam, USC&GS, who wrote it "Trogshagamiut," "Trogshak people."

Troller Islands: islands, at entrance to Tebenkof Bay, on W coast of Kuiu Island, Alexander Archipelago; 56° 28' 00" N, 134° 12' 20" W; BGN 1929; (map 5). So named in 1928 by USC&GS because "a channel running north and south through this group is used by trollers as anchorage."

Troller Point: point of land, at N end of Troller Islands, at entrance to Tebenkof Bay, on Kuiu Island, Alexander Archipelago; 56° 28' 45" N, 134° 13' 00" W; BGN 1929; (map 5). Named in 1928 by USC&GS.

Trollers Cove: cove, extends S 1 mile off Kasaan Bay, on E coast of Prince of Wales Island, 1.8 miles S of Patterson Island, Alexander Archipelago; 55° 22' 15" N, 132° 12' 00" W; BGN 1923; (map 4). So named in 1923 by USC&GS because this cove is a "favorite Haven for Fishermen from Twentyfathom Bank in Clarence Strait."

Trollers Creek: stream, flows N 1.4 miles to Knudson Cove, E of Survey Point, on W coast of Revillagigedo Island, Alexander Archipelago; 55° 28' 15" N, 131° 47' 50" W; BGN 1937; (map 3). Local name reported in 1936 by USFS.

Trollup, Point: point of land, on E bank of Behm Canal, N point of entrance to Smeaton Bay, Coast Mountains; 55° 18' 50" N, 130° 52' 15" W; (map 3). Named by Capt. Vancouver, RN, in 1793 "no doubt after Sir Henry Trollope, RN, who served during the American war" (Wagner, 1937, p.420).

Trophy Lake: lake, 0.2 miles across, on Kenai Peninsula, 13 miles S of Caribou Island in Tustumena Lake and 35 miles S of Kenai, Cook Inlet Lowland; 60° 03' 25" N, 151° 04' 45" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Tropical Ridge: ridge, elev. 1,040 ft., 1.5 miles long, between Conquer Point and Kiska Harbor, central Kiska Island, Aleutian Islands; 51° 59' 30" N, 177° 30' 30" E; (map 14). One of many arbitrary names applied to features on Kiska Island by USAAF for tactical purposes during World War II.

Trouble Creek: stream, flows NW 11 miles to Chandler River, 20 miles SE of Umiat, Arctic Slope; 69° 08' N, 151° 40' W; BGN 1960; (map 141). So named by USGS geologists during exploration of Naval Petroleum Reserve No. 4, between 1945-53, "because our field party had difficulty crossing this stream with weasels [tracked vehicles]. Several tracks and springs were broken."

Trouble Island: island, 0.2 miles long, at S end of Keku Strait, between Kupreanof and Kuiu Islands, Alexander Archipelago; 56° 27' 50" N, 133° 41' 00" W; (map 6). Named by USC&GS for charting purposes; published in 1932 Coast Pilot (p. 256).

Troublesome Creek: stream, heads at 65° 17' N, 149° 45' W, flows N 40 miles to Hess Creek, 80 miles NW of Fairbanks, Yukon-Tanana Highlands; 65° 43' N, 149° 28' W; (map 105). Named by prospectors, according to a report in 1909 by Lt. Hjalmar Erickson, USA; published by USGS (Prindle, 1905, pl. 16).

Troublesome Creek: stream, heads at glacier W of Upper Lake George, flows E 2.2 miles to Lake Fork Knik River, 28 miles SE of Palmer, Chugach Mountains; 61° 16' 40" N, 148° 36' 35" W; (map 69). Local name reported in 1960 by USGS.

Troublesome Creek: stream, heads in lake, flows SW 14 miles to Chulitna River, 21 miles NW of Talkeetna, Cook Inlet Lowland; 62° 37' 30" N, 150° 14' 30" W; (map 81). Prospectors' name published in 1940 by USGS.

Troublesome Creek: stream, on Kenai Peninsula, flows W 2 miles to Travers Creek, 11 miles NW of Homer, Cook Inlet Lowland; 59° 43' 45" N, 151° 49' 00" W; (map 50). Local name reported and published by USGS in the 1950's.

Trout Creek: stream, flows E 1 mile to valley of Nome River, 15 miles N of Nome, Seward Peninsula Highlands; 64° 43' N, 165° 19' W; (map 94). Prospectors' name published on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Trout Creek: stream, flows E 3 miles to Granite Creek, 14 miles S of Rampart, Yukon-Tanana Highlands; 65° 18' 10" N, 150° 09' 30" W; (map 106). Prospectors' name reported in 1931 by J. B. Mertie, USGS.

Trout Creek: stream, flows E 6 miles and joins Slate Creek to form Pitka Fork 53 miles NW of Beaver, Kokrines-Hodzana Highlands; 66° 58' 20" N, 148° 33' 30" W; (map 118). Local name obtained in 1956 by USGS.

Trout Creek: stream, flows NE 3.2 miles to Bear River which flows to Niukluk River, 26 miles NE of Solomon, Seward Peninsula Highlands; 64° 50' N, 163° 51' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Trout Creek: stream, flows NW 11 miles to Yukon River, 27 miles NNW of Eagle, Yukon-Tanana Highlands; 65° 07' 20" N, 141° 39' 50" W; (map 103). Prospectors' name from an unpublished map by E. J. Chamberlain, dated 1902.

Trout Creek: stream, flows NW 3.5 miles to McHenry Inlet, on SW coast of Etolin Island, Alexander Archipelago; 56° 02' 00" N, 132° 22' 40" W; (map 6). Local name "given by the fisheries"; reported in 1900 by Lt. Comdr. J. F. Moser, USN.

Trout Creek: stream, flows S 2.5 miles to Stillwater Creek, 22 miles NE of Katalla, Chugach Mountains; 60° 24' N, 144° 02' W; (map 64). Local name reported in 1903 by G. C. Martin, USGS.

Trout Creek: stream, flows S to Ishut Creek which flows to Anikovik River, about 14 miles E of Cape Prince of Wales, Seward Peninsula Highlands; (map 111). Prospectors' name reported on a precinct map of Seward Peninsula gold fields by Monroe and Hutchins, corrected up to June 1903 by Arthur Gibson. This feature cannot be precisely identified on current maps.

Trout Creek: stream, flows W 7 miles to Sumner Strait, on W coast of Kosciusko Island, Alexander Archipelago; 56° 03' N, 133° 42' W; (map 6). Local name recorded in 1949 by USGS.

Trout Creek: stream, heads in Peters Hills, flows NW 1.9 miles to Cache Creek, 30 miles NW of Talkeetna, Alaska Range; 62° 29' 45" N, 150° 27' 50" W; (map 81). Prospectors' name reported in 1911 by Capps (1913, fig. 5), USGS.

Trout Creek: stream, on E shore of Arctic Lagoon. flows W 21 miles to Kugrupaga Inlet 26 miles SW of Shishmaref, Kotzebue-Kobuk Lowland; 66° 01' N, 166° 47' W; (map 112). Prospectors' name reported in 1901 by A. J. Collier, USGS.

Trout Creek: stream, see Majority Creek.

Trout Hill: hill, 895 ft., on Annette Island, E of Port Chester, Alexander Archipelago; 55° 08' 30" N, 131° 30' 30" W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Trout Lagoon: lagoon, 0.3 miles across, W of Kiska Harbor on east-central Kiska Island, Aleutian Islands; 51° 58' 25" N, 177° 32' 00" E; BGN 1937; (map 14). Local name reported in 1905 by USC&GS.

Trout Lake: lake, 0.3 miles long, in course of Pat Creek, 8.5 miles S of Wrangell, on NW coast of Wrangell Island, Alexander Archipelago; 56° 21' N, 132° 20' W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow, USN; published in 1887 on USC&GS Chart 706.

Trout Lake: lake, 1 mile long, on Kenai Peninsula, SW of Gavia Lake, 24 miles NE of Kenai, Cook Inlet Lowland; 60° 41' N, 150° 37' W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Trout Lake: lake, 1,200 ft. long, in course of Limestone Creek 2.8 miles N of its junction with Middle Fork Chistochina River, 28 miles NE of Paxson, Alaska Range; 63° 07' 45" N, 144° 38' 30" W; (map 86). Prospectors' name reported 171 1902 by T. G. Gerdine, USGS.

Trout Lake: lake, 1.7 miles long, on Kenai Peninsula, 1.5 miles SW of Juneau Lake and 28 miles SW of Hope, Chugach Mountains; 60° 33' 30" N, 149° 54' 30" W; (map 63). Local name reported in 1951 by USGS.

Trout Lake: lake, 2.8 miles long, in course of Hungry Creek, 4.5 miles NE of Tundra Lake and 61 miles SE of Sleetmute, Lime Hills; 61° 17' N, 155° 32' W (map 71). Prospectors' name published in 1951 by USGS.

Trout Lake: lake, on Annette Island, drains W into Port Chester, Alexander Archipelago; 55° 68' 50" N, 131° 30' 15" W; BGN 1923; (map 3). Variant: Upper Trout Lakes. Named Upper Trout Lakes in 1896 by USC&GS; changed to Trout Lake in 1923.

Troutman Lake: lake, 2.5 miles long, 0.5 miles S of Gambell, NW end of St. Lawrence Island; 63° 46' N, 171° 43' W; BGN 1551; (map 93). Variant: Navvook Lake, Nayrak Lake, Ninghak, Niyghak Lake. Named in the 1930's by O. W. Geist, Univ. of Alaska, for S. P. Troutman, a government teacher on the island.

Troy Creek: stream, flows S to Ishut Creek which flows to Anikovik River, about 14 miles E of Cape Prince of Wales, Seward Peninsula Highlands; (map 111). Prospectors' name shown on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This feature cannot be precisely identified on current maps.

Troy, Mount: mountain, 3,005 ft., on Douglas Island, 3 miles SW of Douglas and 3.5 miles SW of Juneau, Coast Mountains; 58° 16' 00" N, 134° 28' 30" W; BGN 1952; (map 11). Named by the USFS in 1950 for John Weir Troy, 1868-1942, former Alaskan governor and newspaperman. He was born and brought up in the State of Washington, and then entered the newspaper business. In 1897, he went to Alaska to cover the gold rush. In 1899 he became editor and publisher of the Skagway Daily Alaskan and in 1913 he went to Juneau as editor of the Daily Alaska Empire. In 1919 he became Collector of Customs for Alaska. He served as Governor from 1933-39.

Truax Range: hills, trend N-S, SE of Mount Kachauik and about 10 miles NE of Golovin, Seward Peninsula Highlands; (map 95). Local name published by Schrader (1900c p. 16), USGS. The feature was not identified on subsequent maps.

Trubitsin Point: point of land, 0.5 miles E of Cape Edgecumbe, on S tip of Kruzof Island, Alexander Archipelago; 56° 59' 40" N, 135° 50' 10" W; BGN 1926; (map 5). Variant: Trubitsina Cape. Named in 1926 by USC&GS for Grigori Trubitsin, who was a boatswain who served under Capt. A. I. Chirikov, IRN, in 1741. Alexander Baranov applied this name to Cape Edgecumbe in the 1790's.

Trubitsin Point: point of land, see Edgecumbe, Cape.

Trubitsina Cape: point of land, see Trubitsin Point.

Trubitsina, Cape: point of land, see Edgecumbe, Cape.

Trubitsina, Mys: point of land, see Edgecumbe, Cape.

True Summit: peak, 4,500 ft., on Olds Mountain, 2.7 miles N of Clark Peak and 5 miles NE of Juneau, Coast Mountains; 58° 20' 20" N, 134° 17' 25" W; (map 11). Local name reported by D. A. Brew and A. B. Ford, USGS, in 1965.

Trumpeter Lake: lake, 0.4 miles across, on course of Ratz Creek. NE part of Prince of Wales Island, Alexander Archipelago; 55° 53' N, 132° 38' W; BGN 1962; (map 4). Local name given "because of the use [by] trumpeter swans for wintering area"; reported in 1961 by USFS.

Trumpeter Lake: lake, 0.4 miles across, on Kenai Peninsula S of Brood Lake, 28 miles E of Kenai. Cook Inlet Lowland; 60° 33' 45" N, 150° 25' 45" W; (map 62). Named about 1963 by

officials of Kenai National Moose Range, for the Trumpeter Swan (*Olor buccinator*). which breeds in southern Alaska.

Trunk Island: island, 1 mile long, in Behm Canal, off Helm Point, off E coast of Cleveland Peninsula, Alexander Archipelago; 55° 36' N, 131° 53' W; (map 3). Named in 1886 by USC&GS.

Trunk Point: point of land, on E coast of Tanaga Island, Aleutian Islands; 51° 46' 10" N, 177° 46' 45" W; (map 17). Name published by USC&GS in the 1944 Aleutian Coast Pilot (p. 118).

Truth River: Stream, flows NE 3 miles to Throat River 4 miles S of Selawik, Kotzebue-Kobuk Lowland; 66° 33' N, 159° 59' W; (map 114). Local name reported by the U.S. Army Corps of Engineers in 1955.

Truuli Peak: peak, 6,612 ft., in Kenai Mountains on Kenai Peninsula, 19 miles NE of head of Kachemak Bay, Chugach Mountains; 59° 54' 50" N, 150° 25' 55" W; BGN 1966; (map 50). So named in 1966 by the Mountaineering Club of Alaska to preserve the native name for the Kenai Mountains. According to Baker (1906, p. 359), USGS, Constantin "Grewingk, 1849, deriving his information from Wosnesenski, 1842, gives the native name of these mountains as Truuli, also written Truuli."

Tsa Cove: cove, 1,600 ft. across, along S coast of Revillagigedo Island, NE of Bull Island, near head of George Inlet, Alexander Archipelago; 55° 30' N, 131° 28' W; (map 3). Arbitrary name given in 1891 by USC&GS.

Tsadaha Canyon: canyon, see Tsadaka Canyon.

Tsadaka Canyon: canyon, 2 miles long, near mouth of Moose Creek, 6 miles NE of Palmer, Cook Inlet Lowland; 61° 41' N, 149° 04' W; BGN 1966; (map 69). Variant: Tsadaha Canyon. Tanaina Indian name meaning "moose," reported in 1898 by Capt. Glenn (Glenn and Abercrombie, 1899, p. 52), USA.

Tsadaka Creek: stream, see Moose Creek.

Tsaina: stream, see Tiekel River.

Tsaina: stream, see Tsina River.

Tsalk: bay, see Marmot Bay.

Tsammana: locality, S of Lincoln Bight, on NW coast of St. Paul Island, in Pribilof Islands; 57° 12' 20" N, 170° 22' 40" W; (map 38). Variant: Tsammanah. Probably an Aleut name which appeared on a map by Elliott (1881, St. Paul map) as "Tsammanah." USBF reports in 1965 that the name is still used.

Tsammanah: locality, see Tsammana.

Tsantikihin: locality, on Gold Creek near Juneau, Coast Mountains; 58° 18' N, 134° 24' W; (map 11). Variant: Tsantik!ihin, Tsenta-ka-hini. Former Tlingit village name published in 1909

as “Tsantiklihin,” meaning “small flounder creek” [Gold Creek], by J. R. Swanton, BAE (Hodge 1910, p. 822).

Tsaritsa Rock: rock, in Galankin Islands, off W coast of Baranof Island, 2 miles S of Sitka, Alexander Archipelago; 57° 01' 18" N, 135° 19' 25" W; (map 9). Named by the Russians for one of their vessels, which struck the rock (U.S. Coast and Geodetic Survey, 1883, p. 143).

Tsatasronick: stream, see Herron River.

Tsatasronik: stream, see Herron River.

Tsayagtulek Creek: stream, flows NW 3 miles to Kancktok River, 70 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 54' N, 160° 21' W; (map 53). Eskimo name reported in 1954 by USGS.

Tsbantotloden Lake: lake, 1 mile across, 1 mile N of Duck Lake and 64 miles SE of Shungnak, Koyukuk Lowland; 65° 03' N, 156° 15' W; (map 115). Koyukan Indian name reported in 1952 by USGS.

Tschagevanachtuli: stream, see Swift River.

Tschaljchuk: stream, see Stony River.

Tschallono: stream, see Selatna River.

Tschaltschuk: stream, see Stony River.

Tschaltshuck: stream, see Stony River.

Tschantotalich: stream, see Shantatalik Creek.

Tschechina Island: island, see Great Sitkin Island.

Tschechina: island, see Great Sitkin Island.

Tschechovla Island: island, see Segula Island.

Tschechovla: island, see Chugul Island.

Tschechovle Island: island, see Segula Island.

Tscherikow's Island: island, see Chirikof Island.

Tscherikow: island, see Chirikof Island.

Tschernowskoje: village, see Chernofski.

Tschibocki Island: island, see Saint Lawrence Island.

Tschigmit Mountains: mountain range, see Alaska Range.

Tschijtschi: bay, see Marmot Bay.

Tschilkat Islands: islands, see Chilkat Islands.

Tschilkat See: lake, see Chilkat Lake.

Tschilkathin: stream, see Chilkat River.

Tschilkut See: lake, see Chilkoot Lake.

Tschilkut: locality, see Chilkoot.

Tschillkat Inlet: estuary, see Chilkoot Inlet.

Tschiniklik: mountain, see Chiniklik, Mount.

Tschinkitane, Baie de: bay, "this probably is Norfolk Sound (Sitka Sound)," Alexander Archipelago. Tlingit Indian name recorded by Marchand expedition in 1787. See Wagner (1937, p. 363).

Tschirikoff: island, see Chirikof Island.

Tschirikow Bay: water passage, see Chatham Strait.

Tschirikow: point of land, see Ommaney, Cape.

Tschitschagoff Harbor: bay, see Chichagof Harbor.

Tschitschitnak: stream, see Chichitnok River.

Tschokfachtoligamut: village, see Chakwaktolik.

Tschugatschik, Bai: bay, see Kachemak Bay.

Tschugatsk Halbinsel: peninsula, see Kenai Peninsula.

Tschuh-nek-kutsch-kleh-EEK: mountain, see Chunekukleik Mountain.

Tschuiou River: stream, see Douglas River.

Tschuiow River: stream, see Douglas River.

Tschuktschen-See: sea, see Chukchi Sea.

Tsedolalindin Lake: lake, 6 miles N of Roundabout Mountain, Koyukuk Lowland; 65° 38' N, 156° 34' W; (map 108). Koyukan Indian name obtained at Huslia by USGS in 1955.

Tsee-na: stream, see Tsina River.

Tseetoht: stream, see Ray River.

Tsek-nuk-sank-y: locality, see Sikanasankian.

Tseldatna: stream, see Soldotna Creek.

Tsemalukmena: lake, see Sprucefish Lake.

Tsenta-ka-hini: locality, see Tsantikihin.

Tseplitel Teplyye Klyuchi: locality, see Goddard.

Tsetchina Island: island, see Great Sitkin Island.

Tsetseka: stream, see Unalakleet River.

Tshachaling-Atachtoli Lake: lake, 1 mile long, W of Nenevok Lake and 78 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 47' N, 159° 53' W; (map 53). Eskimo name shown on an 1898 fieldsheet by W. S. Post, USGS.

Tshakhtol, Guba: bay, see Shaktoolik Bay.

Tshaktog-mytut: village, see Shaktoolik.

Tshayagagamut: locality, on right bank of Togiak River, 1 mile above mouth of Tshayagaguk River and 66 miles NE of Goodnews Kilbuck-Kuskokwim Mountains; 59° 27' N, 159° 48' W; (map 53). Eskimo name of a camp shown with two structures labeled “caches” on a fieldsheet by W. S. Post, USGS. The name means “Tshayagak people.” The place is no longer occupied.

Tshayagaguk River: stream, flows 5 miles SE to Togiak River, 7 miles S of Togiak Lake and 66 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 26' N, 159° 50' W; (map 53). Eskimo name shown on a 1898 fieldsheet by W. S. Post, USGS.

Tshernov, Cape: point of land, see Chernofski Point.

Tshugulla: island, see Chugul Island.

Tsi'choan: locality, see Shakan.

Tsi-u: stream, see Tsvat River.

Tsilchin Lake: lake, 1.8 miles long, between Kalutna and Tanana River, 15 miles NW of Northway Junction, Alaska Range; 63° 07' N, 142° 12' W; (map 85). Indian name published by USGS in 1964.

Tsilkat Inlet: estuary, see Chilkat Inlet.

Tsilkat River: stream, see Chilkat River.

Tsina Glacier: glacier, heads 4.2 miles NW of Girls Mountain, trends SE and NE, 6.2 miles to its terminus (1953), 0.5 miles W of Tsina River and 19 miles NE of Valdez, Chugach Mountains; 61° 15' 30" N, 145° 48' 30" W; BGN 1964; (map 68). Variant: Trap Lake Glacier. Named in 1963 by USGS.

Tsina River: stream, heads in glacier, flows E 24 miles to Tiekel River, 0.7 miles SE of mouth of Stuart Creek and 34 miles NE of Valdez, Chugach Mountains; 61° 16' N, 145° 16' W; (map 68). Variant: China River, Tsaina, Tsee-na. Ahtena Indian name meaning "bent (crooked) river [tsa'i-na]" spelled "Tsaina" by F. C. Schrader, USGS, in 1898 and as "China" by Capt. W. R. Abercrombie, USA, the same year. See Tiekel River.

Tsina Station: locality, along Tsina River, 2 miles NE of Ptarmigan and 25 miles NE of Valdez, Chugach Mountains; 61° 11' 45" N, 145° 33' 30" W; (map 68). Variant: Tsina, Saina. A telegraph station was established here in 1902 by the U.S. Army, Signal Corps. It was officially called "Saina."

Tsina: locality, see Tsina Station.

Tsingigkalik Lake: lake, 1 mile wide, 2 miles E of Kwinhagak and 45 miles NW of Goodnews, Yukon-Kuskokwim Delta; 59° 45' N, 161° 50' W; (map 53). Eskimo name published in 1951 by USGS.

Tsirku Glacier: glacier, heads in British Columbia at 59° 17' N, 136° 47' U', trends E 10 miles to its 1954 terminus, 1 mile W of head of Tsirku River and 41 miles SW of Skagway, St. Elias Mountains; 59° 18' 00" N, 136° 26' 30" W; BGN 1954; (map 45). Tlingit Indian name given by United States and Canada, published in 1923 on IBC Sheet 9 (1951 atlas).

Tsirku River: stream, heads in glacier on N slope of Takhinsha Mountains, flows NE 25 miles to Chilkat River at Klukwan, 21 miles SW of Skagway, St. Elias Mountains; 59° 23' 20" N, 135° 52' 00" W; BGN 1921; (map 45). Variant: Big Salmon River, Salmon River, Tisku River, Zirku River. Tlingit Indian name reported as "Zirku" by Aurel and Arthur Krause (1883, map). The Indian name meaning "big salmon" is spelled "Tsirku" in the 1883 Coast Pilot (p. 198). It was called "Tisku River" by surveyors in 1899, and "Salmon River" by Brooks (1900b, pl. 49), USGS. According to E. C. Robertson, USGS, the local residents speak of it as the Big Salmon River.

Tsisi Creek: stream, flows NE 22 miles to Kosina Creek 6.5 miles S of its junction with Susitna River and 65 miles SE of Cantwell, Talkeetna Mountains; 62° 42' N, 148° 00' W; (map 82). Indian name reported in 1951 by USGS.

Tsiu River: stream, heads in lake at 1950 Bering Glacier terminus, flows S 8 miles to Tsvat River, Alaska, 24 miles E of Cape Yakataga, Malaspina Coastal Plain; 60° 04' N, 143° 08' W; (map 65). Indian name reported in 1904 by G. C. Martin, USGS; originally applied to the Tsvat River; both names may be derived from the same source.

Tsivat River: stream, heads at terminus of Bering Glacier, flows E and SW 16 miles to Gulf of Alaska, 9 miles W of mouth of Kaliakh River and 97 miles SE of Cordova, Malaspina Coastal Plain; 60° 04' 30" N, 143° 04' 30" W; (map 65). Variant: Tsi-u. Indian name transcribed into Russian by Capt. Tebenkov (1852, map 7), IRN, as "R[eka] Tsivot," or "Tsivor River." G. C. Martin, USGS, recorded the name in 1904 as "Tsi-u. "

Tsiyeehvun Lake: lake, 1 mile long, oxbow of Black River, 32 miles NE of Fort Yukon, Yukon Flats; 66° 39' 10" N, 144° 08' 30" W; (map 119). Kutchin Indian name obtained in 1956 by I. E. Taylor, USGS.

Tsl-Kaht River: stream, see Chilkat River.

Tsogliakten: locality, see Zogliakten.

Tsoglyakhten: locality, see Zogliakten.

Tsoktui Hill: hill, 600 ft., S of Black River and 0.3 miles W of Chalkyitsik, Yukon Flats; 66° 39' N, 143° 45' W; (map 120). Kutchin Indian name obtained in 1944 by USGS.

Tsolmund Lake: lake, 1.6 miles long, W of Chisana River, 9.6 miles SE of Northway, Alaska Range; 62° 50' N, 141° 44' W; (map 84). Variant: Big Lake. Indian name reported by USGS in 1955.

Tsonagoliakten: locality, see Zonagoliakten.

Tsonagolyakhten: locality, see Zonagoliakten.

Tsonogokhyakhten: locality, see Zonagoliakten.

Tsukhwarat Bay: estuary, see lookswarat Bay.

Tsukli Island: island, see Montague Island.

Tsukon: locality, on W bank of Marten Creek, 24 miles NW of Fort Yukon, Yukon Flats; 66° 50' 35" N, 145° 48' 00" W; (map 119). Kutchin Indian name obtained in 1956 by T. E. Taylor, USGS.

Tsurolurna Slough: stream, flows NE 14 miles to Khotol River, 23 miles SE of Nulato, Koyukuk Lowland; 64° 24' N, 158° 16' W; (map 97). Indian name reported in 1935 by Frederica de Laguna, BAE.

Tsusena Butte: mountain, 4,312 ft., on E bank of Tsusena Creek 7 miles N of its junction with Susitna River and 35 miles SE of Cantwell, Talkeetna Mountains; 62° 55' 30" N, 148° 31' 30" W; (map 82). Indian name published in 1917 on a USGS manuscript map.

Tsusena Creek: stream, flows S 28 miles to Susitna River, 41 miles SE of Cantwell, Talkeetna Mountains; 62° 49' 25" N, 148° 36' 40" W; (map 82). Indian name reported in 1951 by USGS.

Tsyooktuihvun Lake: lake, 1.5 miles long, 29 miles W of Christian and 24 miles N of Venetie, Brooks Range; 67° 22' N, 146° 18' W; (map 122). Kutcha-kutchin Indian name obtained in 1956 by T. E. Taylor, USGS.

Ttachegno, Reka: stream, see North Fork Innoko River.

Ttakhtog-myut: village, see Shaktoolik.

Ttalitui: locality, see Dementi.

Ttallily: locality, see Dementi.

Ttallity: locality, see Dementi.

Ttatity: locality, see Dementi.

Ttieguzhek: locality, see Tuchiak.

Ttiekigakg: point of land, and village, see Hope, Point, and Point Hope.

Ttikigakg: point of land and village, see Hope, Point, and Point Hope.

Ttunaiskysch: estuary, see Cook Inlet.

Ttutago: locality, see Tutago.

Ttutaho: locality, see Tutago.

Tu-ca-omina: lake, see Snohomish, Lake.

Tu-i-u'nak: village, see Tyonek.

Tu-i-u'nuk: village, see Tyonek.

Tu-lu-shu-lit-na: stream, see Talachulitna River.

Tuak Peak: mountain, see Tugak Peak.

Tuapaktushak Creek: stream, heads in lake, flows N 5 miles to Chukchi Sea, 21 miles E of Point Franklin, Arctic Plain; 70° 54' 30" N, 157° 38' 30" W; (map 147). Variant: Tuapaktushuk Creek. Eskimo name reported in 1950 by USC&GS.

Tuapaktushuk Creek: stream, see Tuapaktushak Creek.

Tubkooch Point: point of land, see Theodore Point.

Tubukhtuligmut: locality, see Tubutulik.

Tubuktuligmiut: locality, see Tubutulik.

Tubuktulik River: stream, see Tubutulik River.

Tubuktulik: locality, see Tubutulik.

Tubungaluk Creek: stream, flows SE 15 miles to Kuskokwim River, 6.5 miles NE of Bethel, Yukon-Kuskokwim Delta; 60° 51' N, 161° 36' W; (map 59). Variant: Tubungaluk River. Eskimo name reported in 1951 by USC&GS.

Tubungaluk River: stream, see Tubungaluk Creek.

Tubutulik River: stream, flows SE 25 miles to Kwiniuk Inlet at NW end of Norton Bay, 25 miles SW of Koyuk, Seward Peninsula Highlands; 64° 45' N, 161° 54' W; (map 96). Variant: Tubuktulik River, Tebooktolic River. Eskimo name reported as "Tubuktulik" in 1849 by Capt. M. D. Tebenkov, IRN.

Tubutulik: locality, on Kwiniuk Inlet, on N shore of Norton Bay near mouth of Tubutulik River, Seward Peninsula Highlands; 64° 45' N, 161° 34' W; (map 96). Variant: Tebooktolic Tubukutuligmut, Tubuktuligmiut, Tubuktulik. Former large Eskimo village reported in 1842-44 as "Tubukhtuligmut" by Lt. Zagoskin (1847, p. 73).

Tuchan Tan: promontory, see East Foreland.

Tuchiak: locality, on left bank of Kawanak Pass, 15 miles NE of Kwiguk, Yukon-Kuskokwim Delta; 62° 55' 30" N, 164° 12' 00" W, (map 77). Variant: Ttieguzhek. Eskimo summer camp reported in 1948 by USC&GS. This may be the "Ttieguzhek" Eskimo village or camp reported in 1832 by the creole Glazunof and which name Lt. Zagoskin, IRN, published in 1848.

Tuchidock: island, see Tugidak Island.

Tuchidok: island, see Tugidak Island.

Tuck Creek: stream, in Mentasta Mountains, flows E 17 miles to Tetlin River, 27 miles SW of Northway, Alaska Range; 62° 50' N, 142° 45' W; (map 84). Variant: Tuck River. Named in 1902 by D. C. Witherspoon, USGS; derived from the nickname of a member of his survey party.

Tuck River: stream, see Tuck Creek.

Tucker River: stream, see Coleen River.

Tuckers Crossing: crossing, in Yukon River 8 miles NE of Russian Mission, Yukon-Kuskokwim Delta; 61° 53' N, 160° 13' W; (map 73). Riverboat pilots' name for a navigational crossing in the river, shown on a 1922 manuscript chart of the Yukon River.

Tuckers Fish Camp: fish camp, on N bank of Yukon River, between Baldhead and Dogfish Mountains, 14 miles NE of Russian Mission, Nulato Hills; 61° 55' N, 161° 00' W; (map 73). Local name shown on a 1916 field sheet by R. H. Sargent, USGS.

Tuckers Slough: watercourse, anabranch of Yukon River, flows SW 14 miles, 1.5 miles N of Pearl Island and 15 miles NE of Russian Mission, Yukon-Kuskokwim Delta; 61° 56' N, 160° 58' W; (map 73). Local name shown on a 1916 fieldsheet by R. H. Sargent, USGS; named for the local Tucker family.

Tuckers: locality, on W bank of Tuckers Slough 2.3 miles N of its junction with Yukon River and 17 miles NE of Russian Mission, Nulato Hills; 61° 57' 40" N, 160° 55' 50" W; (map 73). Variant: Hitts. Named for the Tucker family and shown on maps since 1942; the place consists of one or two cabins.

Tuckfield: locality, site of a whaling station, on gravel bar between Chukchi Sea and mouth of Kukpuk River, 11 miles NE of village of Point Hope. Arctic Slope; 68° 25' 10" N, 166° 24' 05" W; (map 129). Variant: Tuckfields. The local name Tuckfields was reported in 1903 by A. J. Collier, USGS. It was probably named after "Little Joe" Tuckfield, a whaler who served with Capt. Dexter on Grampus (Stockton, 1890, p. 183).

Tuckfields: locality, see Tuckfield.

Tueenichook Mountains: mountains, see Tahinichok Mountains.

Tuentna River: stream, see Nixon Fork.

Tuesday Creek: stream, flows W to Anikovik River, about 15 miles SE of Cape Prince of Wales, Seward Peninsula Highlands; (map 111). Prospectors' name shown on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This feature cannot be precisely identified on current maps.

Tuft Rock: rock, in San Christoval Channel, 0.7 miles W of Rosary Island, Alexander Archipelago; 55° 34' 35" N, 133° 19' 20" W; (map 4). Name published by USC&GS in the 1917 Alaska Coast Pilot (p. 109).

Tug Gulch: ravine, trends S 0.7 miles to Lillian Creek, 9 miles NE of Nome, Seward Peninsula Highlands; 64° 37' N, 165° 14' W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Tug'una'raro'logh': point of land, see Sea Lion Point.

Tug'una'raro'logh-koverushka': hill, see South Sealion Hill.

Tug-ga-rag-a-wick: stream, see Koyukuk River.

Tugak Lagoon: lagoon, 0.7 miles long, on Chukchi Sea coast, 16 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 54' N, 164° 59" W; BGN 1963; (map 128). Variant: Tooguk Lagoon. Eskimo name meaning "walrus ivory," according to USC&GS in 1950.

Tugak Peak: mountain, 8,500 ft., in Romanzof Mountains, 2 miles S of Mount Michelson, Brooks Range; 69° 17' N, 144° 16' W; BGN 1965; (map 139). Variant: Mount Murie, Tuak Peak. Eskimo name [Tuak] reported to mean "walrus tusk" by G. G. Barnes, USGS. Originally approved by BGN as Mount Murie, November 1964, but rescinded April 1965 at the request

of Mrs. Murie. Her late husband, Olaus Murie, leading proponent in establishing the Arctic Wilderness Range, disapproved applying personal names to physical features.

Tugamak Range: mountain range, 7.5 miles long, on NW coast of Unimak Island, Aleutian Islands; 54° 51' N, 164° 27' W; BGN 1942; (map 24). Aleut name for Unimak Bay; given by USC&GS in 1940 "because visible from Unimak Bay * * *."

Tugamak: bight, see Unimak Bight.

Tugedak: island, see Tugidak Island.

Tugiak River: stream, see Togiak River.

Tugiak, Ozero: lake, see Togiak Lake.

Tugiak, Zaliv: bay, see Togiak Bay.

Tugidak Island: island, 18 miles long, in Trinity Islands, Kodiak Island; 56° 30' N, 154° 40' W; (map 32). Variant: Toogedach, Toogidach, Toohidack, Tougidak, Tougidok, Tuchidock, Tuchidok, Tugedak, Tugijak. Transliteration of the Aleut name published by Sarichev (1852, map 3). as "Os[trov] Tugidak." According to R. H. Geoghegan, the word means "moon" or "mouth."

Tugidak Passage: water passage, between Tugidak and Sitkinak Islands, in Trinity Islands, Kodiak Island; 56° 33' N, 154° 22' W, BGN 1935; (map 32). Variant: Tugidak Slue. Name derived from Tugidak Island and given by USC&GS in 1934. This feature was reported in 1906 as "Tugidak Slue" by W. C. Hodgkins, USC&GS.

Tugidak Slue: water passage, see Tugidak Passage.

Tugijak: island, see Tugidak Island.

Tugiyak, Reka: stream, see Togiak River.

Tugiyak, Zaliv: bay, see Togiak Bay.

Tugnnuk Creek: stream, see Oligavik Creek.

Tuinichuk Mountains: mountains, see Tahinichok Mountains.

Tuk-sed-ni Bay: estuary, see Tuxedni Bay.

Tuk-shik-ha-mut: locality, see Tikchik.

Tukachak: locality, on right bank of Yukon River, 13 miles below Andrafsky, Yukon-Kuskokwim Delta; 62° 06' N, 163° 08' W; (map 77). Variant: Tukamiut. Former Eskimo village or camp reported in 1899 by G. R. Putnam, USC&GS.

Tukallah Lake: lake, 1 mile long, in course of Threemile Creek, 4.5 miles N of Tyonek, Cook Inlet Lowland; 61° 08' 40" N, 151° 07' 30" W; (map 70). Tanaina Indian name reported in 1958 by USGS.

Tukamiut: locality, see Tukachak.

Tukgahgo Mountain: mountain, 4,675 ft., in Takshanuk Mountains, 3.5 miles SW of Chilkoot and 16 miles SW of Skagway, Coast Mountains; 59° 18' N, 135° 38' W; (map 45). Indian name given by E. C. Robertson, geologist; published in 1952 by USGS.

Tukhlak: locality, see Tuklak.

Tukikapak: locality, see Tukukapak.

Tukingak Mountain: mountain, 1,080 ft., in Mulgrave Hills, 20 miles SE of Kivalina, Arctic Slope; 67° 37' N, 163° 51' W; (map 128). Variant: Tookinghak, Took-key-auk Mountain, Tunkingaaq. Eskimo name meaning "to brace oneself" reported in 1950 by USC&GS.

Tukingarok Creek: stream, heads in Lisburne Hills, flows SE 6 miles to Ipewik River 8 miles NE of its junction with Kukpuk River, Arctic Slope; 68° 25' 30" N, 165° 30' 00" W; (map 129). Variant: Tukungnuwa. Eskimo name reported in 1960 as "Tukungnuwa" by D. C. Foote, Project Chariot.

Tukungnuwa: stream, see Tukungarok Creek.

Tukkeragerum: locality, on coast of Beaufort Sea, W of Barter Island; (map 152). This Eskimo name appears on John Simpson's 1853 native map. The name appears to be applied to a stream and is shown as, "Tuk-ke-ra-ge-run 5th sleep do."

Tuklak: locality, on right bank of Kuskokwim River, between Kwigalok and Uknavik, below Yukon-Kuskokwim Portage; 61° 29' N, 160° 27' W; (map 73). Variant: Tookhlagamute, Tukhlak. Former Indian Village or camp recorded in 1879 as "Tookhlagamute," population 92, by E. W. Nelson, U.S. Signal Service, and reported by Ivan Petroff in the 1880 Census.

Tuklomarak Lake: lake, 4 miles across, 9 miles SW of Selawik, Kotzebue-Kobuk Lowland; 66° 27' N, 160° 05' W; (map 114). Eskimo name obtained by U.S. Army Corps of Engineers in 1955.

Tuklon Igloos: locality, see Tuklung.

Tuklukyet: locality, see Grant Creek.

Tuklukyet: locality, see Nuklukyet.

Tuklung River: stream, flows SE 24 miles to Igushik River, 28 miles SW of Dillingham, Bristol Bay Lowland; 58° 50' N, 159° 07' W; (map 40). Eskimo name reported in 1952 by USGS.

Tuklung: locality, on W bank of Tuklung River, on Nushagak Peninsula, 31 miles SW of Dillingham, Bristol Bay Lowland; 58° 49' 35" N, 159° 14' 25" W; (map 40). Variant: Tuklon

Igloos. Eskimo village, reported by USC&GS in 1948 to be abandoned. It may be used as a camp because it had a population of 30 in 1950.

Tukmakna Creek: stream, heads on Anthracite Ridge, flows SW 2.5 miles to Mudflow Creek, between Kutzkatna and Purinton Creeks, 36 miles NE of Palmer, Talkeetna Mountains; 61° 49' 10" N, 148° 07' 00" W; BGN 1932; (map 69). Reported in 1932 by a USGS field party.

Tukomina, Lake: lake, see North Snohomish Lake.

Tukomina, Lake: lake, see Snohomish, Lake.

Tukpahlearik Creek: stream, in Baird Mountains, flows SW 17 miles to Omar River 22 miles NE of its junction with Squirrel River, 32 miles N of Kiana, Brooks Range; 67° 26' N, 160° 36' W; (map 127). Eskimo name obtained in 1955 by U.S. Army Corps of Engineers.

Tukrok River: water passage, 7.3 miles long, between Krusenstern Lagoon and Kotzebue-Kobuk Lowland; 67° 04' N, 163° 18' W; (map 128). Variant: Ahneeyahm Koonga, Tookrook River, Tukrok River, Tukruk River. Eskimo name meaning "inlet (entrance)" according to USC&GS in 1950.

Tukruk River: water passage, see Tukrok River.

Tukshik River: stream, see Tikchik River.

Tukshik: lake, see Tikchik Lake.

Tuksuk Channel: water passage, extends NW-SE 9 miles between Imurok Basin and Grantley Harbor, 10 miles E of Teller, Seward Peninsula Highlands; 65° 14' N, 166° 02' W; (map 111). Variant: Takchuk Channel, Tokchouk Channel, Tokshook Channel, Tooksook Channel. In 1827 Capt. Beechey (1831, p. 541), RN, described the feature as "strait, called Tokshook by the natives " Reported as "Tuksuk" and mapped in 1900 by E. C. Barnard (in Brooks, 1901, pl. 12), USGS. "Tuksuk" is Eskimo, said to mean "channel" or "long."

Tuksuk River: stream, see Toksook River.

Tuksuk: locality, on Seward Peninsula at mouth of Tuksuk Channel, 10 miles E of Teller, Seward Peninsula Highlands; 65° 14' N, 166° 03' W; (map 111). Variant: Klaxermette, Takchuk, Takso, Taksomut, Taksomute, Taksumut, Tokchouk, Tokshook, Tooksook. Former Eskimo village or camp reported in 1827 as "Tokshook" by Capt. Beechey (1831, p.541).

Tuktu Bluff: bluff, E of junction of Chandler and Kiruktagiak Rivers, 11 miles W of Gunsight Mountain and 44 miles NW of Anaktuvok Pass, Arctic Slope; 68° 44' N, 152° 18' W; BGN 1949; (map 134). Eskimo name used by USGS geologists during the exploration of Naval Petroleum Reserve No. 4, name given in 1944 "Tuktu" is an Eskimo word for caribou.

Tukuapak: locality, on E bank of Akularak Pass, 11 miles SE of Kwiguk, Yukon-Kuskokwim Delta; 62° 36' 35" N, 164° 21' 30" W; (map 77). Variant: Tukikapak. According to a 1950 USC&GS field report, this is a small Eskimo settlement of three families The name was originally obtained in 1894 by C; K. Putnam, USC&GS.

Tukusitnu Bay: estuary, see Tuxedni Bay.

Tukuto Creek: stream, heads in Howard Hills, flows NE 25 miles to Etivluk River, 20 miles NE of Howard Pass, Brooks Range; 68° 31' N, 156° 31' W; BGN 1926; (map 132). This Eskimo name appears on a fieldsheet by Gerald FitzGerald, USGS, in 1925. It may be the Eskimo name for “fog” [taktuktoq] which frequently occurs on the north slope of Brooks Range, or it may be a form of “taqtu” meaning “kidney.”

Tukuto Lake: lake, 2 miles long, in Brooks Range, 20 miles N of Howard Pass; 68° 30' N, 157° 02' W; (map 132). Variant: Nioktun Lake. Named by USGS for nearby Tukuto Creek in 1951 Orth reports the present-day Eskimo name as “Nioqtun” meaning “drill” or “bit.” This is the same name as Nigtun Lake in Howard Pass.

Tukuzit Bay: estuary, see Tuxedni Bay.

Tukuzit, Zaliv: estuary, see Tuxedni Bay.

Tul'yagmyut: village, see Tuluksak.

Tula, Punta de: point of land, see Fula, Point.

Tulageak Point: point of land, on S shore of Elson Lagoon, 24 miles SE of Barrow, Arctic Plain; 71° 11' 45" N, 155° 44' 10" W; (map 153). Eskimo name “Tulakgeak” which means “landing place” and was first recorded at Barrow by USC&GS in 1951.

Tulatdlukhna: stream, see Green Water Creek.

Tulebagh Lake: lake, 2.4 miles long, 2 miles N of Tanjoga Lake and 26 miles NE of Stevens Village, Yukon Flats; 66° 20' N, 148° 36' W; (map 118). Kutchin Indian name obtained in 1956 by T. E. Taylor, USGS.

Tulik Lake: lake, see Tulilik Lake.

Tulik River: stream, on E coast of Umnak Island, flows SE to Umnak Pass, SW of Fort Glenn, Aleutian Islands; 53° 21' 10" N, 167° 55' 30" W; (map 23). Aleut name [tuluq] reported in 1942 by U.S. Army Corps of Engineers and published by USGS (Byers, 1959, pl. 41). The name means “crack or fissure” (Geoghegan, 1944, p. 121).

Tulik Volcano: mountain, 4,111 ft., on Umnak Island 3 miles SE of Okmok Caldera, Aleutian Islands; 53° 21' 30" N, 168° 03' 15" W; (map 22). Variant: Mount Toulak, Mount Tulik, Sopka Tulikskaya, Touliskoi, Tuliskoi. Aleut name published as “Touliskoi,” by Capt. Lutke (1836, p. 298), and as “So[pka] Tulikskaya,” or “Tulik Volcano,” by Capt. Tebenkov (1852, map 25), IRN. The name is probably from the Aleut word “tuliq,” which according to R. H. Geohegan means “crack” or “fissure.”

Tulik, Mount: mountain, set Tulik Volcano.

Tulik: locality, on E coast of Umnak Island near Tulik Volcano, Aleutian Islands; 53° 19' N, 168° 00' W; (map 22). Variant: Tooleekskoi, Tulikskoi, Tulinskoe. Former Eskimo village or camp reported in 1834 as "Tulinskoe," population 26, by Father Veniaminov (1840. v. 2, p. 202).

Tulikskaya, Sopka: mountain, see Tulik Volcano.

Tulikskoi: locality, see Tulik.

Tulikskoi: mountain, see Tulik Volcano.

Tulilik Lake: lake, 1 mile across, on Chukchi Sea coast, 6 miles NE of Cape Krusenstern, Kotzebue-Kobuk Lowland; 67° 13'N; 163° 40' W; (map 128). Variant: Toolik Lake, Toolilik Lake, Tulik Lake. Eskimo name meaning "king loon," reported by USC&GS in 1950. Probably refers to the Yellow-billed Loon (*Gavia adamsi*), normally written "tulik" or "tutlik."

Tulilik, Lake: lake, 0.3 miles long, 2.1 miles S of junction of Easter Creek and Killik River, Brooks Range; 68° 07' N, 154° 08' W; (map 133). Eskimo name reported in 1956 by T. E. Taylor, USGS.

Tulimanak Island: barrier island, see Tulimanik Island.

Tulimanak: locality, see Boat Extreme.

Tulimanik Island: barrier island, 1 mile long, between Fatigue Bay and Beaufort Sea, 43 miles ESE of Barrow, Arctic Plain; 71° 07' 30" N, 154° 56' 00" W; (map 153). Variaton: Toolemina, Tulimanak Island, Tullimanik Island. Eskimo name "Toolemina [tulimanak]," meaning "whale rib" was shown on Comdr. Maguire's map (Great Britain, 1854, map facing p. 186), located at the southeast end of Fatigue Bay; other maps have shown the name on nearby islands.

Tulinskoe: locality, see Tulik.

Tulioumnint: peninsula, see Castle Point.

Tuliumnit Point: peninsula, see Castle Cape.

Tuliumnit Point: promontory, on E shore of Alaska Peninsula, NE tip of Castle Cape, SE entrance to Chignik Bay, 12 miles SE of Chignik, Aleutian Range; 56° 14' N, 158° 07' W; (map 30). Variant: Castle Cape, Castle Point Mys Tuliumnit, Point Tutiumnik. Native name shown in 1847 as "M[ys] Tuliumnit," meaning "Tuliumnit Point," on Russian Hydrog. Dept. Chart 1379; reported about 1899 by Lt. Comdr. J. F. Moser, USN, of the USBF steamer Albatross, as "Tuliumnit Point or Castle Cape." Its many pinnacles and buttresses suggest the name "Castle."

Tuliumnit, Mys: peninsula, see Castle Cape.

Tuliviksak: stream, see Tatlawiksuk River.

Tullimanik Island: barrier island, see Tulimanik Island.

Tullimanirk: locality, see Boat Extreme.

Tulpanika: locality, see Topanika.

Tulpanikha: locality, see Topanika.

Tulsona Creek: stream, flows S 28 miles to Copper River, 13 miles SE of Chistochina, Copper River Basin; 62° 24' N, 145° 04' W; (map 83). Variant: Talsona Creek. Indian name called "Talsona" by the U.S. Army Signal Corps and published as "Tulsona" by Mendenhall (in Mendenhall and Schrader, 1903, p. 14), USGS.

Tuluga River: stream, formed by its East and West Forks, flows 45 miles NE to Anaktuvuk River, 29 miles SW of Umiat, Arctic Slope; 69° 15' N, 151° 01' W; BGN 1949; (map 141). Eskimo name meaning "raven [tulugak]" reported in 1901 by Peters and Schrader (1904, pl. 2), USGS. This refers to the northern raven, *Corvus corax principalis* (I. N. Gabrielson and F. C. Lincoln 1959 p 616).

Tulugak Creek: stream, flows N 6 miles to Chukchi Sea, 1 mile S of Cape Beaufort and 55 miles SW of Point Lay, Arctic Plain; 69° 01' 15" N, 163° 52' 30" W; (map 145). Variant: Tolookuk Creek, Toolooguk Creek, Tolukak Creek. Eskimo name reported as Toolookok by USC&GS in 1949, meaning "two ravens." USGS published the present spelling, a name meaning "raven."

Tulugak Creek: stream, flows NW 5 miles N of Tulugak Lake to Anaktuvuk opposite Makaktuk Lake, 13 miles NE of Anaktuvuk Pass Brooks Range; 68° 17' 45" N, 151° 29' 00" W, (map 134). Eskimo name, meaning "raven," reported by Rausch (1951, p. 150).

Tulugak Lake: lake, 0.8 miles long, 1 mile SE of junction of Tulugak Creek with Anaktuvuk River, 12 miles NE of Anaktuvuk Pass, Brooks Range; 68° 17' N, 151° 28' W; (map 134). Eskimo name, meaning "raven," reported by Rausch (1951, p. 150).

Tulugak, Lake: lake, 2 miles long, in Noatak River Valley, N of Noatak Canyon, 42 miles NE of Noatak, Brooks Range; 67° 58' N, 161° 43' W; (map 127). Variant: Neeksigalik Lake. Eskimo name meaning "raven," obtained in 1956 at Noatak by Orth.

Tuluka: locality, on right bank of Kuskokwim River near Aniak; 61° 36' N, 159° 25' W; (map 73). Variant: Toolukaanahamute, Toolooka-anahamute, Tulukaenagamyut, Tulukagnagamiut. Former Eskimo village or camp reported in 1842-44 by Lt. L. A. Zagoskin, IRN, and published in 1861 by P. Tikhmeniev as "Tulukaenagamyut." Petroff, in the 1880 Census, shows "Toolooka-anahamute" and "Toolukaanahamute" with a population of 59. The 1890 Census lists "Tulukagnagamiut" with 17 inhabitants. The name may mean "raven people."

Tulukaenagamyut: locality, see Tuluka.

Tulukagnagamiut: locality, see Tuluka.

Tulukak Creek: stream, flows SE 8 miles to Kivalina River, 18 miles NE of Kivalina, Kotzebue-Kobuk Lowland; 67° 58' N, 164° 14' W; (map 128). Variant: Tooloolak Koogowranga, Tulukak Kuugauzanga. Eskimo name meaning “two ravens” reported in 1966 by E. S. Burch.

Tulukak Kuugauzanga: stream, see Tulukak Creek.

Tuluksagmiut: village, see Tuluksak.

Tuluksak River: stream, heads at 61° 11' N, 159° 55' W, and flows S and NW 90 miles to Kuskokwim River S of Tuluksak, 48 miles SE of Russian Mission, Yukon-Kuskokwim Delta; 61° 06' N, 160° 58' W; (map 73). Variant: Tulusksak River. Local name reported by A. G. Maddren, USGS, in 1908; derived from the name of a village located at the stream's mouth.

Tuluksak: village, pop. 137, on S bank of Tuluksak River, 48 miles SE of Russian Mission, Yukon-Kuskokwim Delta; 61° 06' N, 160° 58' W; (map 73). Variant: Iulukiak, Toluksagamut, Toulaksagamut, Tuluksagmiut, Tulusksak, Tul'yagmyut. Eskimo name meaning “raven [?]” published by Tikhmeniev in 1861 as “Tul'yagmyut,” presumably from information obtained by L. A. Zagoskin, IRN, in 1842-44. In the 1880 Census Ivan Petroff lists the name as “Tuluksak,” population 150.

Tulurak: cliffs, at junction of Tulukak Creek and Kivalina River, 18 miles NE of Kivalina, Kotzebue-Kobuk Lowland; 67° 58' N, 164° 14' W; (map 128). Variant: Tooloorak, Tuluraq. Eskimo name meaning “raven” reported in 1966 by E. S. Burch.

Tuluraq: cliffs, see Tulurak.

Tulusksak River: stream, see Tuluksak River.

Tulusksak: village, see Tuluksak.

Tuluuk: locality, on S bank of Yukon River, near mouth of Etivluk River, Arctic Slope; 68° 59' N, 156° 00' W; (map 133). Variant: Tooloouk River. Former Eskimo village of 10 houses and 70 inhabitants, visited in 1886 by Lt. Stoney (1900, p. 68), and recorded as “Tooloouk.”

Tuluvak Bluffs: bluffs, elev. 600 ft., between Chandler River and Outpost Creek, 20 miles SE of Umiat, Arctic Slope; 69° 10' N, 151° 30' W; BGN 1949; (map 141). Eskimo name meaning “raven [tulugak],” reported in 1956 by T. E. Taylor, USGS.

Tum Point: point of land, S point of entrance to Hunter Bay, on SW coast of Prince of Wales Island, Alexander Archipelago; 54° 52' 40” N, 132° 21' 40” W; (map 1). Name published in 1951 by USGS.

Tum Tum, Mount: mountain, 1,960 ft., on S coast at SW end of Unalaska Island, Aleutian Islands; 53° 15' 50” N, 167° 38' 05” W; (map 23). Name reported in 1942 by U.S. Army Corps of Engineers and published in 1951 on a USGS map.

Tumakof Lake: lake, 1.4 miles long, 11 miles NW of village of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 22' 00” N, 134° 51' 30” W; BGN 1933; (map 5).

Named in 1933 by USFS “for a Russian who was killed in the massacre of the first Sitka settlement” in 1802.

Tuman Head: promontory, elev. 200-300 ft., includes North and South Tuman Points, on W coast of Semisopochnoi Island, Aleutian Islands; 51° 58' 30" N, 179° 28' 30" E; (map 15). Name published on a 1943 U.S. Army Corps of Engineers map.

Tuman Point: point of land, on W coast of Semisopochnoi Island, Aleutian Islands; 51° 58' 55" N, 179° 28' 05" E; BGN 1937; (map 15). Variant: North Tuman Point. Transliteration of the Russian word “tuman” meaning “fog.” The name was reported by personnel of the U.S.S. Oglala in 1935. The point was shown as part of Tuman Head on a 1943 U.S. Army Corps of Engineers map.

Tumannoi Island: island, see Poa Island.

Tumannoi Islands: islands, see Semidi Islands.

Tumannoi, Ostrova: islands, see Hazy Islands.

Tumannoi: island, see Chirikof Island.

Tumble Creek: stream, heads at glacier terminus E of Copper Glacier, flows E 10 miles to Jacksina Creek 4.5 miles NE of Jacksina Glacier terminus, Wrangell Mountains; 62° 11' N, 143° 21' W; (map 84). Named in 1902 by F. C. Schrader, USGS, because of its “torrential gradient and roughness.”

Tumi Creek: stream, flows SW 1 mile to Chukchi Sea, W of Telavirak Hills, 7.5 miles SE of Cape Thompson, Arctic Slope; 68° 05' 45" N, 165° 43' 20" W; BGN 1963; (map 129). Variant: Toome Creek, Tunit Creek. Eskimo name meaning “trail [foot print]” reported in 1962 by personnel of Project Chariot.

Tunit Creek: stream, flows E 2 miles to Grand Central River, 30 miles NE of Nome, Seward Peninsula Highlands; 64° 56' N, 165° 10' W; (map 94). Variant: Thunit Creek. Eskimo name meaning “trail” reported in 1912 by R. H. Sargent, USGS.

Tunit Creek: stream, in De Long Mountains, flows SE 25 miles to Nimiuktuk River, 30 miles E of Misheguk Mountain, Brooks Range; 68° 13' N, 159° 55' W; (map 131). Eskimo name, obtained at Noatak by Orth in 1956, meaning “trails.”

Tunit Creek: stream, see Tumi Creek.

Tummy: lake, see Twin Glacier Lake.

Tun-nu-e-run-pak: watercourse, see Tunurokpak Channel.

Tunagak: locality, “in the Kuskokwim district.” Variant: Tunaghamiut. Former Eskimo village or camp recorded as “Tunaghamiut,” population 71, in the 1890 Census (1893,p. 1964).

Tunaghamiut: locality, see Tunagak.

Tunak Hill: hill, see Tungnak Hill.

Tunalik River: stream, heads in lake, flows NW 29 miles to Avak Inlet, 10 miles S of Icy Cape, Arctic Plain; 70° 11' N, 161° 44' W; (map 146). Eskimo name recorded at Wainwright in 1956 by Orth; means “the one behind,” referring to its position behind Sikolik Lake.

Tunalkten Hot Spring: spring, S of Tunalkten Lake, in Koyukuk River valley, 12 miles NE of Hughes, Kokrines-Hodzana Highlands; 66° 12' N, 154° 01' W; (map 116). Indian name, reported to mean “hot spring,” recorded at Hughes in 1956 by Orth.

Tunalkten Lake: lake, 0.5 miles long, in Koyukuk River valley, 12 miles NE of Hughes, Kokrine-Hodzana Highlands; 66° 12' N, 154° 01' W; (map 116). Indian name recorded at Hughes in 1956 by Orth; named for Tunalkten Hot Spring.

Tundra Creek: stream, flows SW 5 miles to Smalls River, 10 miles SW of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 00' 25" N, 161° 44' 30" W; BGN 1938; (map 53). Local name reported in 1933 by USGS. “So named because it flows through tundra consisting of dwarf shrubs and herbs with mosses and lichens, which covers much of this region.”

Tundra Creek: stream, flows W 6 miles from a lake to Kanayut River, 4 miles E of Kanayut Bluff and 45 miles NE of Anaktuvuk Pass, Arctic Slope; 68° 43' N, 150° 59' W; BGN 1960; (map 134). Named in 1945 by R. E. Fellows, USGS, while doing geological investigation.

Tundra Hill: mountain, see Riot Hill.

Tundra Lake: lake, 0.6 miles long, on Kenai Peninsula, 1.5 miles W of McLain Lake and 31 miles NE of Kenai, Cook Inlet Lowland; 60° 51' 45" N, 150° 38' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Tundra Lake: lake, 4.5 miles long, at head of Stink River, 56 miles SE of Sleetmute, Lime Hills; 61° 13' 30" N, 155° 43' 40" W; (map 71). Prospectors' name published in 1951 by USGS.

Tundra Point: point of land, see Survey Point.

Tundra River: stream, see Johnson River.

Tundra River: stream, see Pikmiktalik River.

Tundra: locality, on N shore, or near Takslesluk Lake, Yukon-Kuskokwim Delta; 61° 08' N, 162° 49' W; BGN 1937; (map 74). Former Eskimo village or camp recorded on a 1923 map, locality has not been definitely identified.

Tunehean Creek: stream, flows W 10 miles to Keku Strait, on SW coast of Kupreanof Island, 17 miles N of Point Baker, Alexander Archipelago; 56° 36' 00" N, 133° 38' 30" W; (map 6). Indian name published by USC&GS in 1932 Coast Pilot (p. 256).

Tunga Inlet: water passage, extends 0.8 miles, between El Capitan Passage and Salt Water Lagoon, W coast of Prince of Wales Island, Alexander Archipelago; 55° 58' 20" N, 133° 15' 00" W; BGN 1932; (map 4). Variant: Salt Water Lagoon, Tunga Lagoon. Haida Indian name from the word "tanga," meaning "sea" or "salt," given in 1932 by USC&GS. The name "Salt Water Lagoon" was published for this feature in 1925 Coast Pilot (p. 155).

Tunga Lagoon: water passage, see Tunga Inlet.

Tungaich Point: point of land, extends N into Kasegaluk Lagoon, 15 miles NE of Point Lay, Arctic Plain; 69° 54' N, 162° 37' W; (map 145). Variant: Tungaitch Point. Eskimo name reported by USC&GS in 1949, which is supposed to mean "devil's profile" referring to the appearance of the lagoon bank.

Tungaitch Point: point of land, see Tungaich Point.

Tungak Creek: stream, flows W 15 miles to Kuskokwak Channel Kuskokwim Bay, 5 miles NW of Quinnagak, Yukon-Kuskokwim Delta; 59° 59' N, 162° 09' W; (map 54). Eskimo name obtained in 1938 by the ARC.

Tungak Creek: stream, flows W 20 miles to Kasegaluk Lagoon, 13 miles NE of Point Lay, Arctic Plain; 69° 54' N, 162° 39' W; (map 145). Variant: Toongak River, Tungak River. Eskimo name reported by Orth in 1956, referring to "spirit" or "devil," and probably is related in derivation to nearby Tungaich Point. USC&GS reported the name Kugaghourak in 1949, meaning "easy to ford stream."

Tungak Island: island, see Barter Island.

Tungak River: stream, see Tungak Creek.

Tungaluk Slough: stream, flows E 6.5 miles to Aphrewn River, 5 miles N of Hazen Bay, Yukon-Kuskokwim Delta; 61° 14' N, 165° 20' W; (map 75). Eskimo name obtained at Hooper Bay by USC&GS in 1951.

Tungass-kon: locality, see Tongass.

Tungass: locality, see Tongass.

Tungent Point: point of land, see Tangent Point.

Tungnak Creek: stream, heads in Lisburne Hills, flows E 23 miles to Nilik River, 28 miles E of Cape Dyer, Arctic Slope; 68° 37' 30" N, 165° 07' 45" W; (map 129). Eskimo name reported in 1956 by Orth; derived from Tungnak Hill.

Tungnak Creek: stream, see Oligavik Creek.

Tungnak Hill: hill, 510 ft., 3.5 miles SW of junction of Tungnak Creek and Nilik River, 25 miles E of Cape Dyer, Arctic Slope; 68° 36' 15" N, 165° 15' 30" W; (map 129). Variant: Toonuk Mountain, Tunak Hill. Eskimo name meaning "resembles back fat [as on a caribou]" reported in 1956 by Orth.

Tungnaq Creek: stream, see Oligavik Creek.

Tungpuk River: stream, heads at 61° 49' N, 164° 52' W, flows NW 25 miles to Kun River, 10 miles E of village of Scammon Bay, Yukon-Kuskokwim Delta; 61° 52' 20" N, 165° 17' 30" W; (map 75). Eskimo name reported by USC&GS in 1949.

Tungrass: locality, see Tongass.

Tungsten Gulch: ravine, extends NW 0.5 miles to First Chance Creek, 9 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 57' 15" N, 147° 32' 50" W; (map 100). Local name derived from Tungsten Hill; reported in 1916 by J. B. Mertie, Jr. (in Brooks and others, 1918, p. 423), USGS.

Tungsten Hill: mountain, 1,900 ft., 1.5 miles SW of Gilmore Dome, Yukon-Tanana Highlands; 64° 57' 30" N, 147° 30' 40" W; (map 100). Local name reported in 1916 by J. B. Mertie, Jr. (in Brooks and others, 1918, p. 423). USGS.

Tungulara Mountain: mountain, 1,581 ft., on W coast of Alitak Bay, at S end of Kodiak Island; 56° 59' 05" N, 154° 11' 20" W; BGN 1934; (map 32). Variant: Blacktop Mountain. Native name, "synonymous with Blacktop * * *," given in 1934 by USC&GS.

Tungulik: island, in Shumagin Islands, Aleutian Range; 55° N, 160° W; (map 27). Variant: Toungovlik, Tunulik, Tunulyak. Aleut name published by Lutke (1836, p. 267). as "Toungovlik," and by Father Veniaminov (1840, v. 1, p. 255). as "Tunulik" and "Tunulyak" (p. 266). According to R. H. Geoghegan, Father Veniaminov took the name from the Aleut "tunggaq" meaning "hard, solid, or firm." The exact location of this island is not known.

Tuniak Bay: bay, see Chiniak Bay.

Tuniak Point: point of land, see Chiniak, Cape.

Tuniak, Cape: point of land, see Chiniak, Cape.

Tuniakhpuk: locality, see Tuniakpuk.

Tuniakpuk: locality, on left bank of Togiak River, 2 miles W of Kashiagamiut and 54 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 22' N, 160° 09' W; (map 53). Variant: Tuniapak, Tuniakhpuk, Tunniakhpuk, Tunniakhpuk. Former Eskimo village reported by Ivan Petroff in the 1880 Census as "Tuniakhpuk" and "Tunniakhpuk", meaning "big Tuniak." The population in 1880 was 137.

Tunilkhanten, Lake: lake, 0.5 miles across, 2 miles N of Lake Tokhaklanten and 18 miles NW of Hughes, Hogatza Highlands; 66° 14' N, 154° 42' W; (map 116). Indian name reported to mean "clear water lake," recorded at Hughes in 1956 by Orth.

Tunis Mountain: ridge, 4,790 ft., extends NW 6 miles from Post River, between South Fork Kuskokwim River and Tin Creek, 76 miles SE of McGrath, Alaska Range; 62° 24' N, 153° 34'

W; (map 80). Named in 1898 by W. S. Post, USGS; "in keeping with the rest of our [Post's and J. E. Spurr's] exotic names."

Tunkaleshna Creek: stream, flows SW 18 miles to Stony River 3 miles N of its junction with Telaquana River, 60 miles N of Lake Clark, Alaska Range; 61° 07' N, 154° 26' W; (map 71). Indian name published in 1951 by USGS.

Tunnel Creek: stream, flows SE 1.3 miles to Eldorado Creek which flows to Candle Creek 0.4 miles NE of Mosquito Creek and 33 miles NE of Imuruk Lake, Seward Peninsula Highlands; 65° 44' N, 162° 04' W; (map 110). Local name reported in 1950 by USGS.

Tunnel Station: locality, see Tunnel.

Tunnel: locality, mile 51.0 on The Alaska Railroad, 3 miles S of Placer River Valley, 22 miles SE of Sunrise, Chugach Mountains; 60° 40' 00" N, 149° 02' 30" W; (map 63). Variant: Tunnel Siding, Tunnel Station. Local name for a station on The Alaska Railroad reported in 1909 as Tunnel Siding by Grant and Higgins (1913, pl. 1), USGS The Alaska Railroad guides of 1922 list the station as "Tunnel." A post office was estate fished here in 1930, but was discontinued in 1931. Recent maps indicate a site with three or four buildings. The name of the station was derived from the two RR tunnels in the vicinity.

Tunniakhpuk: locality, see Tuniakpuk.

Tunniakhput: locality, see Tuniakpuk.

Tunnuuraq: stream, see Tunurak Slough.

Tunravik Creek: stream, flows SE 10 miles to Nushagak River, 14 miles NE of Ekwok and 56 miles NE of Dillingham, Bristol Bay Lowland; 59° 30' N, 157° 17' W; BGN 1931; (map 52). Eskimo name obtained in 1931 from F. H. Waskey and Beverley Polley, local inhabitants, by Gerald FitzGerald, USGS.

Tunravik: locality, on right bank of Nushagak River 1 mile NE of junction of Tunravik Creek 57 miles NE of Dillingham, Bristol Bay Lowland; 59° 31' N, 157° 15' W; BGN 1931; (map 52). Variant: Tunravk. Eskimo village or camp name obtained in 1930 from F. H. Waskey and Beverley Polley, local inhabitants, by Gerald FitzGerald, USGS; published by Mertie (1938b, pl. 1). USGS.

Tunravk: locality, see Tunravik.

Tuntaluliag: village, see Tuntutuliak.

Tuntatuliag: village, see Tuntutuliak.

Tuntatuliak: village, see Tuntutuliak.

Tuntatuling: village, see Tuntutuliak.

Tuntunguak Mountain: mountain, 2,000 ft., 4 miles N of Goodnews Lake and 48 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 32' N, 160° 35' W; (map 53). Eskimo name reported to mean “deer-like: obtained about 1951 by D. H. Hoare, USGS. from Rev. C. B. Michael, missionary at Quinhagak.

Tuntut Mountains: mountain range, extends SSW 220 miles from Kuskokwim River to Togiak Bay on N side of Bristol Bay, Kilbuck Kuskokwim Mountains; 60° N, 160° W. Shown by Ivan Petroff in the 1880 Census; applied to what is now the Ahklun Mountains, Kilbuck Mountains, and lower end of the Kuskokwim Mountains.

Tuntutuli: locality, on Wolf Creek Mountain, bounded by Stuyahok, Nageethluk, Atchuelinguk, and Bonasila Rivers, Nulato Hills; 62° 20' N, 161° 20' W; (map 78). Variant: Dondadulik. Eskimo name meaning “abounding with caribou” reported in 1949 by USC&GS.

Tuntutuliak: village, pop. 144, 3 miles NW of junction of Kinak River with Kuskokwim River, 45 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 22' N, 162° 38' W; BGN 1963; (map 58). Variant: Tuntaluliag, Tuntatuliag, Tuntatuliak, Tuntatuling, Tuntutuliag. Eskimo village listed in the 1950 Census with a population of 68. The name is reported to mean “many caribou (reindeer).”

Tunugarat Hill: hill, 1,610 ft., on right bank of Colville River, between Kuakat Ridge and Lost Temper Creek, Arctic Slope; 68° 52' N, 157° 28' W; (map 132). Eskimo name meaning “to turn aside” or “to turn away,” reported by T. E. Taylor, USGS, in 1956.

Tunuigak Slough: watercourse, 2.5 miles long, in Yukon Delta, 5 miles SW of Kwiguk, Yukon-Kuskokwim Delta; 62° 42' N, 164° 35' W; (map 77). Eskimo name obtained in 1948 by USC&GS.

Tunuing River: stream, heads in lake, W of Nichols Spit, on Nushagak Peninsula, flows NW 30 miles to Igushik River, 25 miles SW of Dillingham, Bristol Bay Lowland; 58° 49' N, 159° 02' W; (map 40). Local name reported in 1952 by USGS.

Tunukuchiak Creek: stream, flows N 17 miles to Noatak River, 26 miles SE of Howard Pass, Brooks Range; 67° 52' N, 156° 30' W; (map 126). Eskimo name reported to mean “to go (or sneak). behind,” obtained at Noatak by Orth in 1956.

Tunulik River: stream, flows SW 13 miles to Goodnews Bay, 1.5 miles NW of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 08' 00” N, 161° 37' 30” W; (map 53). Eskimo name reported in 1919 by G. L. Harrington (in Brooks, 1921, pl. 7), USGS, who reported that it means “one that has the back [?].”

Tunulik: island, see Tungulik.

Tunulyak: island, see Tungulik.

Tununa: village, see Tanunak.

Tunurak Slough: stream, channel of Kobuk River, 2.5 miles long, near Ambler, Kotzebue-Kobuk Lowland; 67° 04' N, 157° 54' W; (map 126). Variant: Tunnunraq. Eskimo name reported as "Tunnunraq" by Wilfried Zibell in 1965.

Tunurokpak Channel: watercourse, anabranch of Yukon River, flows N 21 miles, 28 miles SE of Kwiguk, Yukon-Kuskokwim Delta; 62° 27' 30" N, 163° 55' 00" W; (map 77). Variant: Tunnu-e-run-pak. Eskimo name obtained in 1899 by G. R. Putnam, USC&GS, who suggested that it may mean "big slough."

Tunusiktok Lake: lake, 3.5 miles long, 22 miles SE of Point Lay, Arctic Plain; 69° 34' N, 162.° 14' W; (map 145). Eskimo name obtained at Point Lay by Orth in 1956, meaning "it lies behind."

Tunutuk Creek: stream, heads on W side of Little Kobuk Sand Dune, flows N 8 miles to Kobuk River, Brooks Range; 67° 07' N, 158° 22' W, (map 126). Eskimo name obtained by Mendenhall (1902, pl. 5), USGS, in 1901.

Tuomi Lake: lake, 800 ft. across, 1.4 miles S of Sixmile Lake and 4.4 miles NE of Anchorage, Cook Inlet Lowland; 61° 16' 32" N, 149° 49' 16" W; (map 69). Local name reported in 1942 by AMS; named for Onni Tuomi, a Finnish family who homesteaded here in the 1920's. The name "tuomi" means "chokecherry."

Tuomi: settlement, on NE shore of Tuomi Lake, 4.7 miles NE of Anchorage, Cook Inlet Lowland; 61° 16' 32" N, 149° 49' 10" W; (map 69). Local name reported in 1942 by AMS. Recent USGS maps indicate a site of five or six buildings. See Tuomi Lake.

Tup-hamikva: locality, see Topanika.

Tup-hamikwa: locality, see Topanika.

Tup-hanikwa: locality, see Topanika.

Tup-ka-ak: locality, see Topkok.

Tup-kug-ameuts: locality, see Taapkuk.

Tupichalik Creek: stream, heads in a lake, flows NW 9 miles to Desperation Lake, 47 miles WNW of Howard Pass, Brooks Range; 68° 19' 30" N, 158° 42' 00" W; (map 132). Named by Orth in 1958; a translation of the Eskimo name for Desperation Lake. "Tupichalik" means "new tent."

Tupichalik: lake, see Desperation Lake.

Tupik Creek: stream, heads at glacier on Mount Igikpak, flows NW 8 miles to Noatak River, Brooks Range; 67° 32' N, 155° 08' W; (map 125). Eskimo name meaning "tent," recorded in Kobuk by Orth, USGS, in 1956.

Tupik Creek: stream, in De Long Mountains, flows ESE 7 miles to join Kogruk Creek to form the Utukok River, Brooks Range; 68° 34' N, 161° 06' W; BGN 1961; (map 131). Named by USGS geologists in 1950 “for Tupik Mountain on the north side of this stream.”

Tupik Mountain: mountain, 3,900 ft., in De Long Mountains, 23 miles N of Misheguk Mountain, Brooks Range; 68° 34' N, 161° 11' W; BGN 1961; (map 131). Named by USGS geologists in 1950. It is an “Eskimo word meaning 'tent', which the mountain resembles.”

Tupikchak Creek: stream, flows W 22 miles to Kukpowruk River, 10 miles N of Poko and Igloo Mountains, 40 miles NNW of Mount Kelly, Arctic Slope; 68° 59' N, 162° 54' W; (map 130). Eskimo name meaning “new house (tent)” reported in 1926 by P. S. Smith, USGS.

Tupikchak Creek: stream, heads on Tupikchak Mountain, flows NE 17 miles to Utukok River, Arctic Slope; 68° 57' N, 161° 13' W; (map 131). Named by USGS geologists in 1950 for the mountain.

Tupikchak Mountain: mountain, 2,950 ft., 45 miles NNW of Misheguk Mountain, Arctic Slope; 68° 51' N, 161° 45' W; (map 131). Eskimo name reported by P. S. Smith, USGS, in 1926, meaning “new tent.” Smith's notes refer to the Tupikchak Hills on the west side of the Kokolik River.

Tupkak Bar: spit, on E side of entrance to Wainwright Inlet, 3 miles SW of Wainwright, Arctic Plain; 70° 35' 40” N, 160° 06' 30” W; (map 146). Eskimo name published in 1955 by AMS. The Eskimo word “tapqaq” means “sandspit.”

Tupoy, Mys: point of land, see Blunt Point.

Tupuknuk Slough: stream, anabranch of Kuskokwim River, flows SW 15 miles to Napaiskak Slough, 5 miles S of Bethel, Yukon-Kuskokwim Delta; 60° 42' 40” N, 161° 44' 30” W; (map 59). Eskimo name reported in 1951 by USC&GS.

Tuqjkan: locality, see Tuxekan.

Turaaqiligauzaq: locality, see Turakiligorak.

Turakiligorak: locality, 9 miles NE of Kivalina Kotzebue-Kobuk Lowland; 67° 49' N, 164° 17' W, (map 128). Variant: Towrockeeleegowrak, Turaaqiligauzaq. Eskimo name meaning “little tobacco [wild plants] making place” reported in 1966 by E. S. Burch.

Turbid Creek: stream, flows SE 18 miles across Beaufort Basin to Kukpowruk River, 6 miles N of Raven Basin, 31 miles ENE of Mount Kelly, Arctic Slope; 68° 53' N, 163° 08' W; (map 130). Probably so named in 1949 by Chapman Or Sable (1960, p. 55), USGS, “because of its exceptionally yellow muddy water.”

Turbot, Point: point of land, N point of entrance to Takatz Bay, on E coast of Baranof Island, 5 miles N of Baranof, Alexander Archipelago, 57° 09' 45” N, 134° 48' 00” W; (map 9). Named in 1895 by Lt. Comdr. E. K. Moore, USN; published in 1899 by USC&GS on Chart 8050.

Turf Point: point of land, southernmost point of Seguam Island, Aleutian Islands; 52° 15' N, 172° 32' W; (map 19). Descriptive name given by a special U.S. Navy survey party, because of its grass-covered slopes; published by USC&GS in 1944 Aleutian Coast Pilot (p. 86).

Turk Creek: stream, flows NW 2.5 miles to Cherry Creek, 53 miles S of Eagle, Yukon-Tanana Highlands; 64° 05' N, 141° 09' W; (map 102). Named by prospectors and shown on an 1898 manuscript map by E. F. Ball, prospector.

Turkey Cove: cove, 0.4 miles across, 1.25 miles W Of Gertrude Cove, on Vega Bay, S coast of Kiska Island, Aleutian Islands, 51° 55' 50" N, 177° 24' 20" E; (map 14). One of the "bird names" arbitrarily applied to features on Kiska Island in 1943 by USAAF for tactical purposes during World War II.

Turmath Creek: stream, flows S 2 miles to Sand Bay, Great Sitkin Island, Aleutian Islands; 51° 59' 50" N, 176° 07' 47" W; (map 17). Name published in 1951 on a USGS map.

Turn Cape: point of land, see Course Point.

Turn Island: island, 400 ft. long, in Cordova Bay, near entrance to Klakas Inlet, on SW coast of Prince of Wales Island, Alexander Archipelago; 54° 52' 10" N, 132° 23' 30" W; (map 1). Name published in 1899 by USC&GS.

Turn Island: island, see Amik Island.

Turn Islands: island, 0.2 miles long, in Zimovia Strait 1.5 miles E of Anita Bay, between Wrangell and Etolin Islands, Alexander Archipelago; 56° 14' 20" N, 132° 20' 10" W; BGN 1923; (map 6). Named in 1923 by USC&GS.

Turn Mountain: mountain, 2,867 ft., on N part of Kupreanof Island, 3 miles SE of Pinta Point and 58 miles E of Sitka; Alexander Archipelago; 57° 03' 55" N, 133° 50' 55" W; (map 8). Local name reported in 1955 by USGS.

Turn Point: point of land, at W end of Kootznahoo Inlet, on W coast of Admiralty Island, 0.3 miles N of Angoon, Alexander Archipelago; 57° 30' 25" N, 134° 34' 40" W; (map 9). Named in 1869 by Comdr. R. W. Meade, USN; published on Hydrographic Chart 225. Boats turn at this point when going from Chatham Inlet to Stillwater Anchorage.

Turn Point: point of land, N tip of Dall Island. Alexander Archipelago; 55° 15' 55" N, 133° 07' 55" W; (map 4). Local name published by Dall (U.S. Coast and Geodetic Survey, 1883, p. 69).

Turn Point: point of land, NW tip of Mitkof Island in Wrangell Narrows, 1 mile W of Petersburg, Alexander Archipelago; 56° 59' 05" N, 132° 58' 50" W; (map 6). Variant: Cone Point. Named in 1881 by Lt. Comdr. H. E. Nichols, USN; called "Cone Point" in 1869 by Comdr. R. W. Meade, USN.

Turn Point: point of land, on W bank of Portland Canal, 5.6 miles N of Breezy Point, Coast Mountains; 55° 26' 10" N, 130° 03' 00" W; (map 3). Named in 1868 by Staff Comdr. David Pender, RN.

Turn Point: point of land, W tip of Tuxekan Island, Alexander Archipelago; 55° 50' 45" N, 133° 21' 35 W; (map 4). Named in 1903 or 1904 by E. F. Dickins USC&GS, who wrote "named by our party, has no local name."

Turn Rock: rock, between Goat Mouth Inlet and Tlevak Strait on S coast of Goat Island, Alexander Archipelago; 55° 10' 02" N, 132° 54' 50" W; (map 4). Name published in 1905 by USC&GS.

Turnabout Island: island, 1 mile long, E-W in Frederick Sound, 4 miles NW of Pinta Point and 52 miles E of Sitka; Alexander Archipelago; 57° 07' 30" N, 133° 58' 40" W; (map 8). Variant: Ostrov Povorotnyy, Povorotny Island. This is an 1882 translation by USC&GS of "Ostrov Povorotnyy," the name published in 1848 on Russian Hydrog. Dept. Chart 1396.

Turnabout Island: island, see Povorotni Island.

Turnabout Point: point of land, see Povorotni Point.

Turnagain Arm: estuary, trends NW 48 miles from mouth of Placer River to head of Cook Inlet, SW of Anchorage, Cook Inlet Lowland; 61° 06' N, 150° 12' W; (map 63). Variant: Resurrection Bay, River Turnagain, Turnagain Bay, Zaliv Vozvratseniya. So named "River Turnagain" by Capt. Cook (1785, v. 2, p. 395-396), RN, on June 1, 1778, because he was unable to proceed any further inland and had to turn around here. He made various observations and concluded, "These circumstances convinced me, that no passage [from the Pacific to the Atlantic Ocean] was to be expected by this side river, any more than by the main branch." The name was adopted by Capt. Vancouver, RN, in 1794 as "Turnagain Arm." The name "Zaliv Vozvratseniya" meaning 'Return Bay' was published for this feature by Capt. Tebenkov (1852, map 5), IRN.

Turnagain Bay: estuary, see Turnagain Arm.

Turnagain Heights: area, in SW part of Anchorage, Cook Inlet Lowland; 61° 11' 54" N, 149° 56' 40" W; (map 69). Local name reported in 1952 by USGS.

Turnagain Island: island, see Fire Island.

Turnagain: railroad station, mile 106.2, on The Alaska Railroad, 6.3 miles S of Anchorage, Cook Inlet Lowland; 61° 07' 41" N, 149° 52' 00" W; BGN 1945; (map 69). Variant: Edes, Finnegan, Turnagin. Railroad station established about 1940.

Turnagin: locality, see Turnagain.

Turnagin: railroad station, see Turnagain.

Turnaround Creek: stream, flows NW 13 miles to Melozitna River, 48 miles W of Birches, Kokrines-Hodzana Highlands; 65° 04' 00" N, 155° 11' 25" W; (map 97). So named in 1956 by Orth because his airplane pilot had to turn around here on two occasions because of bad weather.

Turner Bay: cove, 1.3 miles long, at SW end of Chulitna Bay, 15 miles NE of Nondalton, Alaska Range; 60° 11' N, 154° 33' W; (map 61). Local name reported in 1954 by USGS.

Turner Cape: point of land, see Chichagof Point.

Turner Creek: stream, flows SE 11 miles to Noxapaga River, 1 mile N of Noxapaga and 30 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 29' N, 164° 15' W; BGN 1952; (map 110). Prospectors' name reported in 1900 by Brooks (1901, pl. 11), USGS.

Turner Creek: stream, flows W 1 mile from Turner Lake to Taku Inlet, 16 miles E of Juneau, Coast Mountains; 58° 19' 10" N, 133° 59' 10" W; BGN 1931; (map 12). Name derived from Turner Lake in 1931 by USFS.

Turner Glacier: glacier, heads on Mount Cook, trends 20 miles SE to its 1951 terminus on Disenchantment Bay, 32 miles NE of Yakutat, St. Elias Mountains; 60° 01' N, 139° 05' W; BGN 1900; (map 66). Variant: Dalton Glacier, Duffield Glacier, Sumner Glacier. This feature was named "Dalton Glacier" by Russell (1891, p. 98), "in honor of John Dalton, a miner and frontiersman." Dalton was subsequently accused of murder and Russell made a request to BGN in 1894 to change the name to honor John Henry Turner USC&GS, who spent three years in Alaska making surveys. Before BGN acted in 1900, USC&GS used the name "Duffield Glacier" on its charts in honor of William Ward Duffield, USC&GS.

Turner Island: island, 3 miles long, between Big Koniuji and Nagai Islands, in Shumagin Islands, Aleutian Range; 55° 02' N, 159° 49' W; (map 27). Variant: Stiernfeld Island. Named by USC&GS first as Stiernfeld Island in 1887 and then as Turner Island in 1891.

Turner Island: island, see Bendel Island.

Turner Lake: lake, 0.7 miles long, 1.5 miles E of Ellamar Mountain and 40 miles NW of Cordova, Chugach Mountains; 60° 54' 30" N, 146° 37' 30" W; (map 64). Local name reported in 1912 by R. H. Sargent and C. E. Giffin (in Capps and Johnson 191S, pl. 1), USGS.

Turner Lake: lake, 9 miles long, trends NE from 58° 17' N, 133° 48' W, to Turner Creek, 1 mile E of Taku Inlet and 16 miles E of Juneau, Coast Mountains; 58° 18' 40" N, 133° 57' 30" W; (map 12). Local name published in 1890 by USC&GS.

Turner River: stream, flows 12 miles NW to Demarcation Bay, 4 miles SW of Demarcation Point, Arctic Plain; 69° 39' N 141° 23' W BGN 1912; (map 138). Variant: Akootchook Creek, Akutsok Creek. This name was originally applied to the Kongakut River in 1894 by Frederick Funston, USA, and honors John Henry Turner, USC&GS, who made a sled trip from the Porcupine River to the Arctic Ocean in 1890. The name has since been relegated to this smaller stream because of confusion as to which stream Funston had named (Leffingwell, 1919. p. 91-92).

Turner River: stream, see Kongakut River.

Turner, Cape: point of land, see Chichagof Point.

Turner, Mount: mountain, 8,500 ft., in Glacier Bay National Monument, on Alaska-Canada boundary, 4.3 miles SW of Mount Porde and 90 miles NW of Hoonah, St. Elias Mountains; 59° 00' 00" N, 137° 16' 50" W; BGN 1922; (map 10). Named by USC&GS for George Turner, 1850-1932, who was Boundary Commissioner in 1903. He was U.S. Senator from Washington, 1887-1903, and a member of the International Joint Commission, United States and Canada, 1913-14. The name was published on USC&GS Chart 8000 in 1908.

Turner, Point: point of land, on S tip of Khantaak Island, in Monti Bay, 1.9 miles NW of Yakutat, Malaspina Coastal Plain; 59° 33' 30" N, 139° 46' 50" W; (map 46). Variant: Mys Povorotnyy, Point Turni, Turning Point. Named by Capt. George Dixon, RN, in 1789 for James Turner, the mate of his ship, Queen Charlotte. It was called "M[ys] Turney," meaning "Point Turni," by Capt. Tebenkov, IRN, (1852, map 7); it was mistranslated from the English on the 1847 Russian Hydrog. Dept. Chart 1378 as "M[ys] Povorotnyy," meaning "Cape Turning" or "Turning Point" (U.S. Coast and Geodetic Survey, 1883, p. 207).

Turni, Point: point of land, see Turner Point.

Turning Island: island, 300 ft. across, in Middle Channel, in Sitka Sound, S of Sitka, Alexander Archipelago; 57° 02' 40" N, 135° 20' 05" W; (map 9). Variant: Ostrov Povorotni, Turning Islet. This is an 1882 translation by USC&GS of the name "Ostrov Povorotni" given by the Russians about 1850.

Turning Islet: island, see Turning Island.

Turning Point: point of land, see Turner Point.

Turquoise Lake: lake, 5 miles long, at head of Mulchatna River, 60 miles NE of Nondalton, Alaska Range; 60° 47' N, 152° 57' W; (map 61). Local descriptive name; reported by Capps (1935, pl. 2), USGS.

Turret Point: point of land, on S coast of Adak Island, Aleutian Islands; 51° 36' 45" N, 176° 48' 15" W; BGN 1936; (map 17). Name given by Lt. William Gibson, USN, commander of the schooner Fenimore Cooper, during the North Pacific Exploring Expedition in 1855.

Turtle Hill: hill, 3,104 ft., in Mount McKinley National Park, S of McKinley Bar, 7.5 miles SE of Wonder Lake, Alaska Range; 63° 23' N, 150° 41' W; (map 88). Local name reported in 1954 by USGS.

Turtle Island: island, 0.7 miles across, central Maurelle Islands, Alexander Archipelago; 55° 39' N, 133° 37' W; BGN 1917; (map 4). Descriptive name given in 1917 by USC&GS because "The charted outline resembles a turtle."

Turtle Island: island, 1.3 miles long, in Yukon River, 21 miles NW of Holy Cross, Nulato Hills; 62° 28' 15" N, 160° 06' 30" W; (map 78). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the U.S. Dept. of the Interior.

Turtle Reef: reef, in Cook Inlet at S entrance of Iliamna Bay, 18 miles N of Augustine Island, Aleutian Range; 59° 36' 40" N, 153° 33' 00" W; BGN 1916; (map 51). Named by USC&GS in 1907.

Tuscarora Rock: rock, N of Unalaska in Unalaska Bay, NE coast of Unalaska Island, Aleutian Islands; 53° 52' 45" N, 166° 32' 00" W; (map 23). Local name published in 1900 by USC&GS.

Tuseraru: lake, see Nuwuk Lake.

Tushaday Lake: lake, see Tushadg Lake.

Tushadg Lake: lake, 1.2 miles long, 3 miles SE of Northway, Alaska Range; 62° 56' N, 141° 50' W; (map 84). Variant: Tushaday Lake. Local name reported by USGS in 1960.

Tushtena Pass: pass, 4,800 ft., between Tok and Robertson Rivers, 19 miles SW of Tanacross, Alaska Range; 63° 17' N, 143° 57' W; BGN 1936; (map 85). Indian name reported by USGS in 1936.

Tusich, Cape: point of land, see Tusik, Cape.

Tusigpak Creek: stream, see Tasikpak Creek.

Tusik, Cape: point of land, on S central Kanaga Island, Aleutian Islands; 51° 41' 05" N, 177° 16' 00" W; BGN 1936; (map 17). Variant: Cape Tusich, Mys Tusikh. Aleut name published by Capt. Tebenkov (1852, map 28), IRN, as "M[ys] Tusikh," or "Cape Tusikh."

Tusikh, Mys: point of land, see Tusik, Cape.

Tusikpak Lagoon: lagoon, see Tasikpak Lagoon.

Tusikpak Lake: lake, 2 miles long, on Chukchi Sea coast, 18 miles NE of Point Hope, Arctic Slope; 68° 28' N, 166° 12' W; (map 129). Eskimo name meaning "big lagoon [lake]" published in 1964 by USGS.

Tusikpok Creek: stream, see Tasikpak Creek.

Tusikpok Lagoon: lagoon, see Tasikpak Lagoon.

Tusikvoak, Lake: lake, 8 miles long, 17 miles SE of Barrow, Arctic Plain; 71° 04' 40" N, 156° 06' 30" W; (map 153). Variant: Sikukik Lake, Teseeruq Lake. Eskimo name "tasikruak," recorded at Barrow by T. E. Taylor, USGS, in 1956 which means "old lagoon."

Tusk Tower: peak, see Tusk, The.

Tusk, The: mountain, 5,730 ft., in Another River basin, 6.5 miles SW of Kenibuna Lake and 69 miles W of Tyonek, Alaska Range; 61° 08' 30" N, 153° 10' 10" W; (map 71). So named in 1928 by S. R. Capps and Gerald FitzGerald, USGS, because of "the tusk-like appearance of the glaciated granite pinnacle."

Tusk, The: peak, 6,680 ft., in Berners Bay Peaks, 4.5 miles W of Echo Mountain and 24 miles N of Juneau, Coast Mountains; 58° 43' 08" N, 134° 30' 15" W; BGN 1965; (map 11). Variant:

Black Tusk, Tusk Tower. Descriptive name given by members of the Juneau Icefield Research Project in 1964.

Tusoluksuk: stream, see Tatlawiksuk River.

Tusta Creek: stream, flows SE 0.5 miles into Salt Lake 20 miles NW of Juneau, Coast Mountains; 58° 29' 45" N, 134° 47' 00" W; (map 11). Local name reported by R. N. DeArmond (1957, p. 38).

Tustumena Glacier: glacier, on Kenai Peninsula, trends NW 16 miles from Harding Icefield to its 1951 terminus at head of Glacier Creek, 42 miles SE of Kenai, Chugach Mountains; 60° 03' 30" N, 150° 34' 00" W; (map 62). Local name reported about 1911 by USGS (Martin and others, 1915, pl. 2).

Tustumena Lake: lake, 24 miles long, on Kenai Peninsula, 20 miles SE of Kenai, Cook Inlet Lowland; 60° 10' N, 150° 50' W; (map 62). Variant: Ozero Chustylena, Skilakh Lake, Tustumena See. Tanaina Indian name reported in 1840 by the Russian scientist Island G. Wosnesenski; published in 1847 as "Oz[ero] Chustylena," meaning "Chustylena Lake," on Russian Hydrog. Dept. Chart 1378. Skilak and Tustumena Lakes were shown on Ivan Petroff's 1880 map as one lake to which he applied the name "Skilakh Lake."

Tustumena See: lake, see Tustumena Lake.

Tutago: locality, on left bank of Yukon River opposite mouth of Bear Creek, Innoko Lowland; 63° 30' N, 159° 21' W, (map 91). Variant: Tchouchago, Ttutago, Ttutaho, Tuttago, Yakutskalitnik, Yakutzkelignik, Yakutsklitnik. Former Indian village recorded in 1848 as "Tuttago" by Lt. L. A. Zagoskin, IRN; published as "Tchouchago" on his 1850 map. Whympers (1869 p. 264). published the name "Yakutzkelignik."

Tutagvak Bay: bay, see Wainwright Inlet.

Tutak Creek: stream, heads on Kikmiksot Mountain in Mulgrave Hills, flows NW 24 miles to Wulik River, 25 miles NE of Kivalina, Arctic Slope; 67° 52' 30" N, 163° 41' 00" W; (map 128). Variant: Seevoochaek, Seevooram Koonga. Eskimo name meaning "labret" obtained at Kivalina by Orth in 1956. In 1960, D. C. Foote reported that the stream is called "Seevoochaek" derived from a bluff by the same Name.

Tutakoke River: stream, flows W 13 miles to Angyoyaravak Bay, Yukon-Kuskokwim Delta; 61° 15' N, 165° 37' W; (map 75). Eskimo name reported by USC&GS in 1951.

Tutumnik, Point: promontory, see Tuliumnit Point.

Tutumnik: peninsula, see Castle Cape.

Tutkaimund Lake: lake, 1 mile long, 7 miles E of Tetlin Lake and 20 miles W of Northway Junction, Alaska Range; 63° 05' N, 142° 26' W; (map 85). Indian name published by USGS in 1964.

Tutkiya: locality, on W side of Colville River Delta, Arctic Plain; 70° 25' N, 151° 10' W; (map 149). Eskimo name appearing on Maguire's map (Great Britain, 1854, facing p. 186). It may refer to a camping place.

Tutlut River: stream, see Nenana River.

Tutlut River: stream, Toklat River.

Tutlut: locality, at junction of Kantishna and Yukon Rivers, Minto Flats; 64° 45' N, 149° 59' W; (map 100). Variant: Too-clok. Former Indian village or camp recorded in the 1880 Census by Petroff (1884 map); published as "Too-clock band" by Lt. Schwatka (1885, p. 95), USA.

Tutna Lake: lake, 2.5 miles across, 2 miles W of Mesa Mountain, and 30 miles NW of Nondalton, Alaska Range; 60° 21' N, 155° 21' W; (map 61). Variant: Summit Lake, Dootny Lake, Davna Lake, Duvna Lake. Tanaina Indian name reported in 1914 by P. S. Smith and R. H. Sargent, USGS. According to Lt. L. A. Zagoskin, IRN, in 1842-44, Tutna was the name of an Indian tribe along the Kuskokwim from Kolmakof to the Holitna River.

Tutolivik: locality, on Wainwright Inlet, 4.5 miles SE of Wainwright, Arctic Plain; 70° 35' 52" N, 159° 52' 29" W; (map 146). Eskimo name reported in 1955 by AMS.

Tutsogemut: locality, see Techek.

Tuttago: locality, see Tutago.

Tuttle Creek: stream, flows SW 15 miles to Kugrupaga River, 11 miles W of Ear Mountain and 44 miles NW of Teller, Seward Peninsula Highlands; 65° 53' N, 166° 37' W; (map 111). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Tutua Wing River: stream, see Kuk River.

Tutuksuk River: stream, heads in Baird Mountains, flows S 45 miles to Kobuk River 2 miles NE of its junction with Salmon River, 36 miles NE of Kiana, Brooks Range; 67° 10' 30" N, 159° 22' 00" W; BGN 1912; (map 127). Variant: Labret River, Too-look-sook River, Tootooksook River. In 1885, Lt. Stoney (1900, map), USN. gave the name for this stream as "Labret or Too-look-sook River." W. C. Mendenhall, USGS, in 1901 wrote the name "Tootooksook" and says it means "caribou pelt."

Tutusirok, Lake: lake, 1 mile long, 5 miles NE of confluence of Noatak and Nimiuktuk Rivers, Brooks Range; 68° 10' N, 159° 51' W; (map 131). Eskimo name meaning "he meets a caribou," obtained at Noatak by Orth in 1956.

Tututalak Mountain: mountain, 4,474 ft., in Maiyumerak Mountains of the Baird Mountains, on W bank of Akikukchiak Creek, 49 miles NE of Noatak, Brooks Range; 67° 46' N, 161° 10' W; (map 127). Eskimo name meaning "caught a caribou," obtained in 1956 at Noatak by Orth.

Tuukingaaq: mountain, see Tukungak Mountain.

Tuvak, Lake: lake, 4 miles long, 15 miles SE of Point Franklin, Arctic Plain; 70° 42' 10" N, 158° 24' 30" W; (map 147). Eskimo name meaning "old (stranded) ice-cake"; reported in 1956 by Orth.

Tuviarok: locality, see Nushagak.

Tuxeau: locality, see Tuxekan.

Tuxecan: locality, see Tuxekan.

Tuxedni Bay: estuary, extends SE 14 miles from mouth of Tuxedni River to Cook Inlet, at Chisik Island, 52 miles SW of Kenai, Aleutian Range; 60° 12' N, 152° 34' W; BGN 1926; (map 62). Variant: Snug Harbor, Tookozetna Bay, Tuk-sed-ni Bay, Tukusitnu Bay, Tukuzit Bay, Tuxedni Harbor, Zaliv Tukuzit. Native name published as "Z[aliv] Tukuzit," or "Tukuzit Bay," by Capt. Tebenkov (1852, map 5). W. H. Dall, USC&GS, reported the name as "Tuk-sed-ni" in the late 1800's.

Tuxedni Channel: water passage, extends SE 6 miles, from Tuxedni Bay to Cook Inlet, W of Chisik Island, 55 miles SW of Kenai, Aleutian Range; 60° 08' N, 152° 37' W; (map 62). Local name published in 1943 by USC&GS; derived from Tuxedni Bay.

Tuxedni Glacier: glacier, trends N 16 miles from Iliamna Volcano to its terminus 2.5 miles S of the Tuxedni River, 65 miles NE of Nondalton, Aleutian Range; 60° 15' 30" N, 153° 02' 00" W; (map 61). Local name reported in 1958 by USGS; derived from Tuxedni River.

Tuxedni Harbor: estuary, see Tuxedni Bay.

Tuxedni River: stream, heads at glacier terminus, flows E 19 miles to Tuxedni Bay, 60 miles SW of Kenai, Aleutian Range; 60° 15' N, 152° 55' W; (map 62). Local name reported in 1958 by USGS; derived from Tuxedni Bay.

Tuxekan Island: island, 10 miles long, between Heceta and Prince of Wales Islands, Alexander Archipelago; 55° 51' N, 133° 17' W; (map 4). Named in 1904 by E. F. Dickins, USC&GS, "after the Indian Village * * *."

Tuxekan Narrows: water passage, 2 miles long, N end of Tuxekan Passage, between Prince of Wales and Tuxekan Islands, Alexander Archipelago; 55° 52' 30" N, 133° 14' 00" W; (map 4). Name published in 1943 by USC&GS.

Tuxekan Passage: water passage, 7 miles long and 2 miles wide, between Prince of Wales and Tuxekan Islands, Alexander Archipelago; 55° 50' N, 133° 12' W; (map 4). Named in 1904 by E. F. Dickins, USC&GS, "after the Indian Village situated on that passage."

Tuxekan: locality, at N entrance to Tuxekan Narrows, W coast of Prince of Wales Island, Alexander Archipelago; 55° 53' 20" N, 133° 14' 30" W; BGN 1954; (map 4). Variant: Taqdjikan, Tuxeau, Tuxecan, Tuxican, Tuqdjkan. Name of a former Tlingit Indian village published in 1895 as "Tuxeau" and in 1899 as "Tuxecan" by USC&GS. Hodge (1910, p. 858), BAE, says "Tuxican. An old Tlingit town belonging to the Henya * * *. Formerly it was the chief Henya town, but the Henya have now moved to Klawak."

Tuxican: locality, see Tuxekan.

Tuxsuk River: stream, see Dooksook River.

Tuyugiak: locality, see Togiak.

Tvativak Bay: cove, extends N 1 mile, off Bristol Bay, on W coast of Nushagak Peninsula, E of Kulukak Bay, 40 miles SW of Dillingham, Kilbuck-Kuskokwim Mountains; 58° 50' N, 159° 33' W; (map 40). Eskimo name reported in 1952 by USGS.

Tvikan, Mount: mountain, see Ivekan Mountain.

Tvishak River: stream, see Ivishak River.

Twelve Fathom Strait: water passage, between Simeonof and Little Koniuji Islands, in Shumagin Islands, Aleutian Range; 54° 57' N, 159° 22' W; (map 26). Variant: Twelve Fathom Straits, 12 Fathom Strait. Named by fishermen for its depth; surveyed in 1872 by W. H. Dall, USC&GS.

Twelve Fathom Straits: water passage, see Twelve Fathom Strait.

Twelve Mile Creek: stream, see Excelsior Creek.

Twelvemile Arm Kasaan Bay: estuary, extends SW 15 miles off Kasaan Bay, on Prince of Wales Island; Alexander Archipelago; 55° 32' N, 132° 31' W; (map 4). Variant: Eighteen-mile Arm. Named in 1886 by Lt. Comdr. R. Clover, USN. This feature was called Eighteen-mile Arm in 1883 Coast Pilot (p. 86).

Twelvemile Cache: locality, see Twelvemile House.

Twelvemile Canyon: canyon, 12 miles long, near mouth of North Fork Bremner River, 8 miles SW of Hanagita Peak and 69 miles NE of Cordova, Chugach Mountains; 60° 58' 40" N, 143° 54' 00" W; (map 65). Variant: Twelve Mile Canyon. Local name reported by H. F. Moffit (1914, pl. 1), USGS.

Twelvemile Creek: stream, flows E 4.5 miles to Middle Fork Koyukuk River, 2 miles NW of Cathedral Mountain and 17 miles S of Wiseman, Brooks Range; 67° 11' N, 150° 20' W; (map 124). Local name reported on a map of the Koyukuk River dated 1899 made by G. H. Wonson, master of the steamer Dorothy.

Twelvemile Creek: stream, flows E 8 miles to Birch Creek, 56 miles SW of Circle, Yukon-Tanana Highlands; 65° 23' 30" N, 145° 43' 00" W; (map 104). So named by prospectors probably because its mouth is about 12 miles west of Mastodon Dome. Some of the early gold discoveries of the Birch Creek region were made there in 1893 (Spurr, 1898, p. 347). The name was reported in 1903 by Gerdine (in Prindle, 1905, pl. 13), USGS.

Twelvemile Creek: stream, flows N 6 miles to Frederick Sound, 12 miles NW of Petersburg on NE coast of Lindenberg Peninsula, Kupreanof Island, Alexander Archipelago; 56° 58' 40" N, 133° 04' 00" W (map 6). Local name recorded in 1951 by USGS.

Twelvemile Creek: stream, flows S 5 miles to Walker Fork, 51 miles S of Eagle, Yukon-Tanana Highlands; 64° 04' 30" N, 141° 20' 00" W; (map 102). Named by prospectors and reported in 1898 by E. C. Barnard, USGS. So named because the stream is 12 miles up Walker Fork.

Twelvemile Creek: stream, flows SW 10 miles to Noatak River, 35 miles SW of Survey Pass, Brooks Range; 67° 35' N, 155° 13' W; (map 125). Named used by prospectors, reported by P. S. Smith (1913), USGS.

Twelvemile Creek: stream, heads at lake, flows E 12 miles to Gulkana River 3.2 miles SW of Paxson Lake, Alaska Range; 62° 49' N, 145° 40' W; (map 83). Local name reported by USGS in 1950.

Twelvemile Creek: stream, heads in small glacier on S slope of Granite Ridge, flows N then S, 8 miles to Granite Creek, 1.5 miles E of Barkley Lake and 110 miles E of Cordova, St. Elias Mountains; 60° 43' 00" N, 141° 30' 45" W; (map 65). Local name reported by F. H. Moffit (1918 pl. 6), USGS.

Twelvemile Creek: stream, on Prince of Wales Islands, flows N 6 miles to head of Twelvemile Arm Kasaan Bay, Alexander Archipelago; 55° 21' N, 133° 44' W; (map 4). Name published in 1920 by USC&GS.

Twelvemile Creek: stream, see Angayu Creek.

Twelvemile Fishing Camp: locality, on N end of Huggins Island, opposite mouth of Batza River and 32 miles NNE of Hochandochtla Mountain, Kokrines-Hodzana Highlands; 65° 56' 50" N, 154° 26' 00" W; (map 107). Local name obtained in 1954 by USGS topographers.

Twelvemile House: locality, on Birch Creek, 1 2 miles SW of Circle, Yukon-Tanana Highlands; 65° 42' N, 144° 23' W; (map 104). Variant: Twelvemile Cache. Local name for a former mining camp originally reported to be "Twelvemile Cache" by J. E. Spurr, USGS, in 1896. However, when a roadhouse developed there, local usage adopted the present form reported in 1903 by T. G. Gerdine (in Prindle, 1905, pl. 13), USGS.

Twelvemile Island: island, 0.7 miles long, in Yukon River, 11 miles W of Rampart, Kokrines-Hodzana Highlands; 65° 29' 30" N, 150° 33' 00" W; (map 106). Local name reported in 1956 by Orth; so named because it was considered to be 12 miles downstream from Rampart.

Twelvemile Island: island, 1.5 miles long, in Yukon River, 9 miles ENE of Tanana, Kokrines-Hodzana Highlands; 65° 12' N, 151° 47' W; (map 106). Riverboat pilots' name shown on a Yukon River track chart manuscript dated 1906.

Twelvemile Island: island, 3.4 miles long, in the Yukon River, 12 miles SE of Fort Yukon, Yukon Flats; 66° 26' 30" N, 145° 05' 00" W; (map 119). Variant: Seventeenmile Island. Local name reported by USGS in 1956; so named because the island is 12 miles upstream from

Fort Yukon; the island was shown on Edwards' Track Chart of the Yukon in 1899 as "Seventeenmile Island."

Twelvemile Lake: lake, 0.6 miles long, 0.7 miles S of junction of Peters and Willow Creeks, 23 miles NW of Palmer, Talkeetna Mountains; 61° 46' 20" N, 149° 43' 00" W; (map 69). Local name reported on a 1961 Alaska Highway Division planning map.

Twelvemile Lake: lake, 1 mile long, 9 miles NE of Beaver, Yukon Flats; 66° 28' N, 147° 12' W; (map 118). Local name obtained in 1956 by USGS; name derived from the distance to Beaver via a year-round trail.

Twelvemile Lake: lake, 1 mile long, on S bank of Yukon River, 0.5 miles S of Twelvemile Island and 9 miles ENE of Tanana, Yukon-Tanana Highlands; 65° 11' 30" N, 151° 48' 00" W; (map 106). Local name reported in 1954 by R. E. Isto, USGS; so named because of its relationship to Twelvemile Island.

Twelvemile Lake: lake, 1.4 miles across, 4.5 miles NW of Lake George, and 34 miles SE of Delta Junction, Tanana Lowland; 63° 51' 40" N, 144° 40' 45" W; (map 86). Name reported in 1952 by USGS.

Twelvemile Lake: lake, 2 miles long, 11 miles SW of Fort Yukon, Yukon Flats; 66° 27' N, 145° 32' W; (map 119). Local name obtained in 1956 by USGS; so called because the lake is about 12 miles from Fort Yukon by way of the winter trail.

Twelvemile Lakes: lakes, see Chicago Lakes.

Twelvemile Mountain: mountain, 3,190 ft., 6 miles W of Cathedral Mountain and 20 miles S of Wiseman, Brooks Range; 67° 09' 15" N, 150° 27' 00" W; BGN 1932; (map 124). Local name reported in 1932 by Robert Marshall who wrote "in general use since 1898, because the mountain and nearby creek stand about 12 miles from Bettles."

Twelvemile Slough: watercourse, in distributary system of Yukon River, heads at Paimiut Slough and flows W 15 miles to Yukon River 28 miles NE of Russian Mission, Yukon-Kuskokwim Delta; 61° 56' 30" N, 160° 30' 30" W; (map 73). Variant: Reindeer Slough. Local name shown on a manuscript chart of the Yukon River dated 1922; probably so named because the slough was thought to be twelve miles long.

Twelvemile Summit: pass, 3,000 ft., 10 miles SW of Pinnell Mountain and 62 miles SW of Circle, along the Steese Highway, Yukon-Tanana Highlands; 65° 24' N, 145° 58' W; (map 104). This pass is on the divide between the Tanana and Yukon River drainage areas. It was named early by prospectors because of its distance from a group of mining claims on Birch Creek (Henning, 1965, p. 206). The name was published in 1952 by USGS.

Twenty Fathom Bank: shoal, extends NE 2 miles from E coast of Prince of Wales Island, 4.5 miles SE of Patterson Island, Alexander Archipelago; 55° 20' 30" N, 132° 07' 00" W; (map 4). Descriptive name given in 1895 by USC&GS.

Twenty-five Pup: stream, flows NW 1 mile to Deadwood Creek, 11 miles SSW of Central and 37 miles SW of Circle, Yukon-Tanana Highlands; 65° 26' 10" N, 144° 58' 00" W; (map 104). Named by prospectors and reported in 1952 by W. S. West and J. J. Matzko, USGS.

Twenty-six Pup: stream, flows NW 2 miles to Deadwood Creek, 6.8 miles W of Circle Hot Springs and 30 miles SW of Circle, Yukon-Tanana Highlands; 65° 29' 40" N, 144° 52' 10" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Twenty-two Pup: stream, flows E 1.4 miles to Deadwood Creek, 6.9 miles W of Circle Hot Springs and 33 miles SW of Circle, Yukon-Tanana Highlands; 65° 29' 30" N, 144° 53' 00" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Twentyfive Mile Creek: stream, flows W 4.5 miles to Salcha River, 30 miles NW of Big Delta, Yukon-Tanana Highlands; 64° 32' N, 146° 17' W; (map 101). Local name published in 1951 by USGS. So named because its mouth is approximately 25 miles upstream from the junction of the Salcha and Tanana Rivers.

Twentyfive Mile Lake: lake, 1,300 ft. across, 3 miles NE of Kroto Lake and 18 miles NW of Talkeetna, Alaska Range; 62° 28' 45" N, 150° 35' 10" W; (map 81). Local descriptive name reported in 1958 by USGS.

Twentyfour Mile Creek: stream, flows NE 16 miles to Hadweenzic River, 25 miles NE of Beaver Yukon Flats; 66° 41' 30" N, 147° 04' 00" W; (map 118). Local name obtained in 1956 by USGS; name derived from the distance to Beaver via a year-round trail.

Twentyfour Mile Slough: stream, anabranch of Tanana River, flows NE 3 miles, 21 miles N of Nenana, Tanana Lowland; 64° 51' N, 149° 07' W; (map 100). So named because the mouth of the slough is 24 miles from Nenana, following the meanders of the Tanana River. Name published on recent USGS maps.

Twentymile Creek: stream, flows S 12 miles to Kroto Creek, 18 miles SW of Talkeetna, Cook Inlet Lowland; 62° 15' 05" N, 150° 39' 10" W; (map 81). Local descriptive name reported in 1958 by USGS.

Twentymile Creek: stream, flows SE 19 miles to Yukon River, 12 miles NE of Rampart, Kokrines-Hodzana Highlands; 65° 38' 20" N, 149° 55' 50" W; (map 105). So named by prospectors "because the mouth of the stream is twenty miles upstream along the Yukon River from Rampart." The name is shown in 1902 on a map by Lt. Hjalmer Erickson, USA, and W. Yanert.

Twentymile Glacier: glacier, in SE end of Chugach Mountains, trends SW 9 miles to head of Glacier River, 12 miles NW of Whittier, Chugach Mountains; 60° 56' N, 148° 48' W; (map 63). Local name reported on recent USGS map s; derived from nearby Twentymile River.

Twentymile Lake: lake, 1.5 miles long, 1.2 miles W of Christian River and 18 miles NW of Fort Yukon, Yukon Flats; 66° 48' 30" N, 145° 34' 00" W; (map 119). Local name obtained in 1956 by USGS; so called because the lake is approximately 20 miles from Fort Yukon by way of the winter trail.

Twentymile River Station: locality, on The Alaska Railroad on E end of Turnagain Arm, 15 miles SE of Sunrise, Chugach Mountains; 60° 50' 15" N, 148° 58' 45" W; (map 63). This railroad station or stop was reported by Grant and Higgins (1913, pl. 1), USGS; it has since been abandoned.

Twentymile River: stream, heads in W end of Chugach Mountains, flows SW 17 miles to head of Turnagain Arm, 16 miles SE of Sunrise, Chugach Mountains; 60° 50' 45" N, 148° 59' 30" W; (map 63). Variant: Twenty Mile River, 20 Mile River. Local name reported in 1898 by Capt. Glenn (Glenn and Abercrombie, 1899, map), USA.

Twentymile Slough: stream, anabranch of Yentna River, flows SE 13.6 miles, 50 miles NW of Anchorage, Cook Inlet Lowland; 61° 49' 40" N, 150° 47' 15" W; (map 70). Local name reported in 1954 by USGS.

Twentynine Mile Ridge: ridge, trends NE-SW 10 miles between Thirtytwo Mile and Twentyfour Mile Creeks, 20 miles N of Beaver, Kokrines-Hodzana Highlands; 66° 40' N, 147° 26' W; (map 118). Local name published in 1951 by USGS; "so named because the ridge is approximately 29 miles up the Hadweenzic River from the Yukon River."

Twentyseven Mile Glacier: glacier, heads 2 miles S of Girls Mountain, trends SE 1.2 miles to its terminus, 1.5 miles NW of Thompson Pass and 17 miles E of Valdez, Chugach Mountains; 61° 08' 45" N, 145° 45' 15" W; BGN 1965; (map 68). Named in 1960 by H. W. Coulter, USGS, "because the glacier is about twentyseven miles up the Richardson Highway from Valdez."

Twentysixmile Creek: stream, on E bank of Yukon River, about 17 miles SE of Circle, Porcupine Plateau; 65° 35' N, 143° 55' W; (map 103). Name published in 1925 by ARC; this feature has not been positively identified.

Twentythree Mile Slough: stream, anabranch flows NW 8 miles to Tanana River, 23 miles SE of Fairbanks, Tanana Lowland; 64° 41' N, 147° 16' W; (map 100). So called because it is 23 miles southeast of Fairbanks; published on recent maps.

Twentytwo Gulch: ravine, in Kantishna Hills, extends N 1.5 miles to Glacier Creek, 5.5 miles N of Wonder Lake, Alaska Range; 63° 34' 30" N, 150° 53' 00" W; BGN 1932; (map 88). Prospectors' name referring to "Claim No. 22"; reported in 1932 by F. G. Wells and S. C. Kain, USGS.

Twentytwo Mile Slough: stream, anabranch of Yukon River, flows NW 4.3 miles, 14 miles SE of Fort Yukon, Yukon Flats, 66° 03' 30" N, 144° 17' 40" W; (map 119). Local name obtained in 1956 by USGS; so called because it is 22 miles downstream from Circle.

Twentytwo Mile Village: locality, on an island in Yukon River, 46 miles SE of Fort Yukon, Yukon Flats; 66° 02' 20" N, 144° 16' 00" W, (map 119). Local name of a camp derived from Twentytwo Mile Slough; name obtained in 1956 by USGS.

Twilight Creek: stream, flows NE 1.5 miles to Trail Creek, 10 miles E of Long and 26 miles SE of Ruby, Kilbuck-Kuskokwim Mountains; 64° 23' 50" N, 155° 10' 15" W; (map 98).

Prospectors' name reported in 1913 by Eakin (1914, pl. 3), USGS. The stream's identity is in doubt.

Twilight Creek: stream, in Ray Mountains, W of Mount Tozi, flows SE 9.5 miles to Tozitna River, 44 miles NE of Tanana, Kokrines-Hodzana Highlands; 65° 35' 30" N, 150° 56' 30" W; (map 106). So named in 1956 by Orth, because, from the ridge above, the deep stream valley appeared to be in twilight, owing to the low sun.

Twin Bay: bay, see Driftwood Bay.

Twin Bay: bay, see Skan Bay.

Twin Bays: bay, 0.6 miles across, on SE coast of Tanaga Island, Aleutian Islands; 51° 52' 10" N, 177° 53' 30" W; (map 17). Descriptive name published in 1951 on a USGS map.

Twin Bluffs: bluffs, on E side of Nanushuk River, 8 miles NE of Rooftop Ridge and 64 miles NE of Anaktuvak Pass, Arctic Slope; 69° 00' N, 150° 45' W; (map 134). Descriptive name given by USGS geologists during the exploration of Naval Petroleum Reserve No. 4; name given in 1944.

Twin Butte Mountain: buttes, see Twin Buttes. Twin Buttes: mountain, 1,982 ft., 28 miles S of Flat and 33 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 62° 03' N, 157° 52' W; (map 79). Local name reported in 1933 by J. B. Mertie, USGS.

Twin Buttes: buttes, 1,368 ft., extend NE-SW 2.4 miles, 8 miles NW of Poorman and 44 miles SW of Ruby, Kilbuck-Kuskokwim Mountains; 64° 08' N, 155° 48' W; (map 98). Variant: Twin Butte Mountain. Prospectors' name reported in 1911 by A. B. Maddren (in Brooks and others, 1912, p. 294-296), USGS.

Twin Buttes: mountain, 3,025 ft., 30 miles NW of Chena Hot Springs and 35 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 10' N, 146° 58' W; (map 104). Descriptive name given by prospectors; reported in 1903 by USGS (Prindle, 1905 pl. 13).

Twin Calderas: craters, two, 0.2 miles across, 1 mile N of W end of Kuzitrin Lake and 12 miles S of Imuruk Lake, Seward Peninsula Highlands; 65° 25' N, 163° 16' W; BGN 1952; (map 110). Reported in 1950 by D. M. Hopkins, USGS; descriptive name applied by a USGS field party about 1948.

Twin Creek: stream, flows E 4.5 miles to Tatalina River, 34 miles NW of Fairbanks, Yukon-Tanana Highlands; 65° 12' 45" N, 148° 28' 50" W; (map 105). Local name published by USGS in the 1950's.

Twin Creek: stream, flows S 3 miles to Fortymile River, 37 miles S of Eagle, Yukon-Tanana Highlands; 64° 01' N, 141° 16' W; (map 102). Prospectors' name obtained in 1898 by E. C. Barnard, USGS.

Twin Creek: stream, flows SW 2.5 miles to Pedro Creek, 13 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 00' 47" N, 147° 28' 30" W; (map 105). Named by prospectors, reported in 1903 by T. G. Gerdine, (Prindle, 1905, pl. 13), USGS.

Twin Creek: stream, formed by Big and Little Boulder Creeks, flows E 3.5 miles to Mills Creek, 44 miles W of Talkeetna, Alaska Range; 62° 20' 05" N, 151° 28' 00" W; (map 81). Prospectors' name reported in 1906 by R. W. Porter, USGS.

Twin Creek: stream, see Davidson Creek.

Twin Dewey Peaks: peaks, highest 5,645 ft., 0.4 miles apart, 1.8 miles E of Reid Falls and 3 miles NE of Skagway, Coast Mountains; 59° 28' 15" N, 135° 13' 50" W; (map 45). Local name obtained by USGS field personnel and published on federal maps since 1950.

Twin Falls Creek: stream, heads in 3 lakes, flows S 3 miles to head of Sawmill Bay, 18 miles SW of Valdez, Chugach Mountains; 61° 04' 15" N, 146° 47' 10" W; (map 68). Local name reported in 1911 by USGS.

Twin Glacier Camp: locality, see Taku Lodge.

Twin Glacier Lake: lake, 2.4 miles across, at S terminus of West Twin Glacier, 0.4 miles N of Taku River and 25 miles NE of Juneau, Coast Mountains; 58° 31' 45" N, 133° 53' 00" W; BGN 1929; (map 12). Variant: Tummy Twin Lake. Descriptive name given in 1929 by USFS and shown as Twin Lake in 1923 on IBC Sheets (1951 Atlas).

Twin Glacier Peak: mountain peak, 4,596 ft., 3 miles N of Twin Glacier Lake, between East Twin Glacier and West Twin Glacier, 27 miles NE of Juneau, Coast Mountains; 58° 36' 10" N, 133° 56' 20" W; BGN 1940; (map 12). Descriptive name derived from Twin Glacier Lake; published in 1960 on a USGS map.

Twin Glacier: glacier, in Glacier Bay National Monument, heads 0.6 miles S of Mount Merriam, trends E 1.2 miles, 64 miles NW of Hoonah, St. Elias Mountains; 58° 53' 35" N, 136° 23' 50" W; (map 10). Variant: Twin Glaciers. Descriptive name given in 1890 by Reid (1896, p. 427). At that time there were two glaciers here. Since then, one has disappeared and the larger has retreated northward.

Twin Glaciers: glacier, see East Twin Glacier.

Twin Glaciers: glacier, see Harvard Glacier.

Twin Glaciers: glacier, see Twin Glacier.

Twin Glaciers: glacier, see West Twin Glacier.

Twin Glaciers: glacier, see Yale Glacier.

Twin Hills: mountains, 5,690 ft., 14 miles SW of Lone Butte and 74 miles W of Gulkana, Talkeetna Mountains; 62° 23' N, 147° 39' W; (map 112). Local descriptive name reported in 1931 by USGS.

Twin Island Creek: stream, flows NW 10 miles to Iditarod River, 23 miles N of Flat and 51 miles E of Holkachuck, Kilbuck-Kuskokwim Mountains; 62° 46' 50" N, 157° 56' 40" W; (map 79). Local name obtained in 1952 by USGS topographers.

Twin Island Lake: lake, 1.2 miles long, in Elmendorf Moraine, 7 miles NW of Anchorage, Cook Inlet Lowland; 61° 19' 00" N, 150° 00' 45" W; (map 70). Local descriptive name reported in 1958 by USGS.

Twin Island Lake: lake, 1.7 miles long, 4.5 miles N of Neck Lake, on Prince of Wales Island, Alexander Archipelago; 56° 09' 45" N, 133° 13' 00" W, (map 6). Local descriptive name reported in 1949 by USGS.

Twin Island Lake: lake, 3 miles long, 30 miles SW of Fort Yukon, Yukon Flats; 66° 12' N, 145° 48' W, (map 119). Local name obtained in 1956 by USGS; named for the two islands in the lake.

Twin Island: island, 0.3 miles across 4.5 miles S of Chichagof along W coast of Chichagof Island, Alexander Archipelago; 57° 36' 00" N, 136° 05' 40" W ;BGN 1908; (map 9). Named in 1908 by USC&GS and published in 1909 on Chart 8280.

Twin Islands: islands, on W shore of Dora Passage, 1 mile E of Harris Peninsula, 36 miles SW of Seward, Chugach Mountains; 59° 40' N, 149° 43' W; BGN 1911; (map 49). Descriptive name given in 1909 by U. S. Grant, USGS.

Twin Islands: islands, see Sister Islands.

Twin Islands: islands, two, extend 0.2 miles, in El Capitan Passage, between El Capitan and Orr Islands, Alexander Archipelago; 55° 55' 00" N, 133° 21' 25" W; (map 4). Local descriptive name published in the 1925 Coast Pilot (p. 154).

Twin Islands: islands, two, Favorita and Princesa Islands, Maurelle Islands, Alexander Archipelago; 55° 39' 30" N, 133° 40' 30" W, (map 4). Variant: Swift Islands. Descriptive name given in 1917 by USC&GS.

Twin Islands: islands, two, larger of which is 0.2 miles long, in Revillagigedo Channel at its junction with Behm Canal and Felice Strait, 1.8 miles N of Mary Island, Alexander Archipelago; 55° 08' N, 131° 28' W; (map 3). Variant: The Sisters. Named in 1880 by W. E. George, a local pilot; called "The Sisters" on USC&GS Chart 710 published in 1885.

Twin Islet: rocks, between Holiday and Near Islands, 0.7 miles E of Kodiak, Kodiak Island; 57° 47' 15" N, 152° 23' 05" W; (map 34). Variant: Dvoynoi, Ostrova Dvoynoy. Translation by Baker (1906, p. 644). of the name "Os[trova] Dvoynoy" published by Sarichev (1826, map 16). This feature is not named on current sources.

Twin Lake Creek: stream, heads in a lake, flows SE 2 miles to Greyling Creek, 3 miles W of Tonsina Lake and 36 miles NE of Valdez, Chugach Mountains; 61° 31' 40" N, 145° 35' 40" W; (map 68). Local name published in the 1950's by USGS.

Twin Lake: lake, see Twin Glacier Lake.

Twin Lakes Creek: stream, flows S 1 mile to Yukon River, 1 mile NW of Stevens Village, Yukon Flats; 66° 01' 15" N, 149° 07' 30" W; (map 118). Local descriptive name obtained in 1956 by USGS.

Twin Lakes: lake, 2.3 miles long, 12 miles S of Beaver, Yukon Flats; 66° 11' 15" N, 147° 30' 00" W; (map 118). Descriptive name obtained in 1956 by USGS; so called because the north and south halves of the lake are almost cut off by a peninsula.

Twin Lakes: lakes, 0.5 miles long, on Narrow Cape, on E coast of Kodiak Island; 57° 25' 40" N, 152° 20' 40" W; (map 34). Local descriptive name reported in 1951 by USGS.

Twin Lakes: lakes, 1.5 and 3.5 miles long, respectively, at N end of South Fork Flats, 15 miles W of Chandalar, Brooks Range; 67° 30' N, 149° 04' W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Twin Lakes: lakes, 12 miles long, at head of Chilikadrotna River, 55 miles NE of Nondalton, Alaska Range; 60° 38' N, 153° 55' W; (map 61). Descriptive name reported by Capps (1935, pl. 2). USGS.

Twin Lakes: lakes, at head of Moose Creek, 16 miles NW of Glennallen, Copper River Basin; 62° 13' N, 145° 56' W; (map 83). Local name reported in 1898 by Capt. Glenn (in Glenn and Abercrombie, 1899, p. 63), USA.

Twin Lakes: lakes, at head of Twin Lakes Creek, 2 miles NW of Stevens Village, Yukon Flats; 66° 02' 20" N, 149° 08' 20" W; (map 118). Local descriptive name obtained in 1956 by USGS.

Twin Lakes: lakes, between Pat and Meadow Creeks, 20 miles NE of Stevens Village, Yukon Flats; 66° 14' N, 148° 39' W; (map 118). Local descriptive name obtained in 1956 by USGS.

Twin Lakes: lakes, each 0.8 miles long, on Kenai Peninsula, in Kenai Mountains, W of Skilak Glacier, 43 miles SE of Kenai, Chugach Mountains; 60° 16' 45" N, 150° 09' 30" W; (map 62). Local descriptive name; reported in 1958 by USGS.

Twin Lakes: lakes, each 900 ft. long, 9 miles SE of Dickey Lake, 23 miles SW of Paxson, Alaska Range; 62° 48' N, 146° 01' W; (map 83). Local name reported by USGS in 1951.

Twin Lakes: lakes, N of Jack Lake, 13 miles NW of Nabesna, Wrangell Mountains; 62° 32' N, 143° 16' W; (map 84). Local name reported in 1960 by USGS.

Twin Lakes: lakes, two lakes, each 1 mile long, in Hogatza Flats, 21 miles NW of Hughes, Hogatza Highlands; 66° 19' 30" N, 154° 36' 00" W; (map 116). Local descriptive name; recorded at Hughes in 1956 by Orth.

Twin Lakes: lakes, two, each 1,300 ft. long, on Attu Island, 3 miles SW of Attu Mountain, Aleutian Islands; 52° 52' 30" N, 172° 51' 45" E; (map 13). Named by the U.S. Army during World War II; published in 1948 by AMS.

Twin Lakes: lakes, two, largest 0.4 miles across, between Elk Creek and Nome River, 7 miles NE of Nome, Seward Peninsula Highlands; 64° 35' N, 165° 15' W; (map 94). Local name reported on the 1903 Campion Mining and Trading. Co. map by George M. Ashford.

Twin Lakes: lakes, two, one 2 miles long, other 1.4 miles long, NW of Heavenly Ridge and 59 miles NW of Valdez, Copper River Basin; 61° 56' 30" N, 146° 48' 00" W, (map 68). Local name published in the 1950's by USGS.

Twin Mountain Creek: stream, flows S 2 miles to Canyon Creek which flows to Imuruk Basin. 17 miles SE of Teller, Seward Peninsula Highlands; 65° 03' N, 166° 05' W; (map 111). Prospectors' name reported on a map of Cape Nome goldfields by David Fox, Jr., dated 1901.

Twin Mountain: hill, 627 ft., 22 miles NE of Cape Mendenhall, near E coast of Nunivak Island; 60° 02' N, 165° 43' W; (map 57). Variant: Twin Mountains. This is a breached volcanic crater which gives the appearance of two mountains. Name reported in 1912 by USC&GS.

Twin Mountain: hill, see Ingri Butte.

Twin Mountain: hills, see Mulik Hills.

Twin Mountain: mountain, 1,140 ft., W of Snake River, 11 miles NW of Nome, Seward Peninsula Highlands; 64° 40' N, 165° 28' W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Twin Mountain: mountain, 2,195 ft., 9 miles N of Tooth Mountain and 20 miles N of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 23' N, 161° 42' W; (map 53). Descriptive name given in 1914 by USC&GS "because it has two peaks of similar elevation, Northeast Twin and Southwest Twin."

Twin Mountain: mountain, 2,630 ft., 2.5 miles E of S entrance of Tuxekan Passage, W coast of Prince of Wales Island, Alexander Archipelago, 55° 46' N, 133° 10' W; (map 4). Descriptive name given in 1903 or 1904 by E. F. Dickins, USC&GS, who wrote "named by our party, has no local name."

Twin Mountain: mountain, 3,595 ft., in Kuskokwim Mountains, near head of Innoko River, 9 miles E of Ophir and 24 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 09' N, 156° 14' W; (map 90). Variant: Twin Peaks. Prospectors' name obtained in 1908 by Maddren (1910, pl. 1), USGS.

Twin Mountain: mountain, 5,784 ft., 25 miles SW of junction of Charley and Yukon Rivers, Yukon-Tanana Highlands; 65° 06' N, 143° 28' W; (map 103). Prospectors' name reported in 1905 by D. C. Witherspoon, USGS. Probably so named because the mountain appears to have two peaks when seen from the north.

Twin Mountains Creek: stream, heads W of Twin Mountain, flows SW 2 miles to Boulder Creek, 11 miles NW of Nome, Seward Peninsula Highlands; 64° 39' N, 165° 31' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Twin Mountains: hill, see Twin Mountain.

Twin Peaks: mountain, 1,478 ft., 5 miles N of Narrow Cape, on E coast of Kodiak Island; 57° 30' 20" N, 152° 09' 30" W; (map 34). Local descriptive name reported in 1949 by USGS.

Twin Peaks: mountain, 1,494 ft., includes North and South Peaks, on W shore of Alitak Bay at S end of Kodiak Island; 56° 54' 15" N, 154° 13' 30" W; (map 32). Descriptive name reported in 1900 by Lt. Comdr. J. F. Moser, USN.

Twin Peaks: mountain, 2,500 ft., two summits. at head of Waterfall Bay on W coast of Dall Island, Alexander Archipelago; 54° 56' 25" N, 133° 02' 00" W; (map 1). Local descriptive name published by USC&GS in 1943.

Twin Peaks: mountain, 3,090 ft., on Revillagigedo Island, near mouth of George Inlet, 5 miles NE of Ketchikan, Alexander Archipelago; 55° 22' 10" N, 131° 30' 15" W; (map 3). Local named reported in 1954 by USGS.

Twin Peaks: mountain, see Twin Mountain.

Twin Peaks: mountains, 7,087 ft., 20 miles ENE of Petersburg, Coast Mountains; 56° 56' 40" N, 132° 25' 45" W; (map 6). Descriptive name given for charting purposes in 1943 by USC&GS.

Twin Point: point of land, on E coast of Glass Peninsula on Admiralty Island, 6 miles N of Washburn Peak and 38 miles SE of Juneau, Alexander Archipelago; 57° 54' 45" N, 133° 59' 30" W; (map 8). Descriptive name given in 1889 by Lt. Comdr. H. B. Mansfield, USN; published in 1892 by USC&GS.

Twin Point: point of land, on NW coast of Kruzof Island, 24 miles NW of Sitka, Alexander Archipelago; 57° 16' N, 135° 51' W; (map 9). Descriptive name given in 1897 by Lt. Comdr. E. K. Moore, USN. This is the more northern of two similar points.

Twin Rift: mountain, 3,502 ft., on Cleveland Peninsula, E of Lake McDonald, Alexander Archipelago; 55° 59' N, 131° 48' W; (map 3). Name published in 1910 by USC&GS.

Twin Rocks: rocks, 0.7 miles ESE of Harpoon Point on SE coast of Kiska Island, Aleutian Islands; 51° 55' 17" N, 177° 37' 15" E; BGN 1937; (map 14). Local name reported in 1906 by USC&GS.

Twin Rocks: rocks, 7 miles SE of Mummy Island, 10 miles SW of Cordova, Chugach Mountains; 60° 27' N, 145° 57' W; (map 64). Descriptive name published in 1943 by USC&GS.

Twin Rocks: rocks, awash at high tide, in St. Nicholas Channel, between Lulu and Noyes Islands, Alexander Archipelago; 55° 28' 30" N, 133° 36' 30" W; (map 4). Local descriptive name published in the 1925 Coast Pilot (p. 181).

Twin Sisters Peak: mountain, 5,750 ft., 3 miles S of junction of Styx River and South Fork Kuskokwim River, 87 miles NW of Tyonek, Alaska Range; 61° 52' 20" N, 153° 10' 00" W; (map 71). Local name reported in 1958 by USGS.

Twin Sisters: ridge, 2,000 ft., extends SW 5 miles from junction of Goldrun Creek and Pitka Fork, 45 miles NW of Beaver, Kokrines-Hodzana Highlands; 66° 48' N, 148° 39' W; (map 118). Local descriptive name obtained in 1956 by USGS.

Twin Slough: stream, flows NW 12 miles to Yukon River, NE of Ham Island, 23 miles NE of Ruby, Nowitna Lowland; 64° 54' N, 154° 49' W; (map 98). Riverboat pilots' name shown on 1940 "Navigation Chart, Tanana Yukon-Rivers" of the River Boat Service, U.S. Dept. of Interior.

Twin Summit Ridge: ridge, with two peaks, 3,780 and 3,700 ft. high, extends 2 miles NE from Gold Pass to Carlson Creek, 6 miles E of Juneau, Coast Mountains; 58° 19' N, 134° 15' W; (map 11). Local descriptive name reported by D. A. Brew and A. B. Ford, USGS, in 1965.

Twincairn Cone: hill, 1,878 ft., 2 miles NW of Asses Ears Mountain and 12 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 47' N, 163° 19' W; BGN 1952; (map 110). Reported in 1950. by D. M. Hopkins, USGS, so named because at 'the summit of the cone there are two large cairns built by Eskimos before white men entered the country. The cairns are a conspicuous landmark from four miles away in any direction."

Twinlava Point: point of land, on SW coast of Umnak Island, Aleutian Islands; 53° 10' 45" N, 168° 46' 00" W; BGN 1940; (map 22). Variant: Lavanak Point. Named in 1939 by USC&GS. This point was called "Lavanak," a coined name, in 1938 by a USC&GS field party.

Twins, The: islands, 1 mile across, in Galankin Islands, 1.2 miles S of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 02' 30" N, 135° 18' 45" W; (map 9). Variant: Dvoini Bratev, Entrance Island. USC&GS derived the name "Twins" about 1882 from translation of part of "Dvoini Bratev," meaning "twin brothers"; published by Lt. Sarichev (1826, map 19), IRN, given in 1809 by the navigator Ivan Vasiliev the first.

Twins, The: islands, in Stephens Passage, 3 miles W of Hobart Bay and 73 miles NE of Sitka, Coast Mountains; 57° 25' 30" N, 133° 32' 15" W; (map 8). Descriptive name given in 1869 by Comdr. R. W. Meade, (USC&GS, 1883, p. 129), USN.

Twins, The: islands, on S edge of Walrus Islands, 3 miles SW of Crooked Island and 20 miles E of Hagemeister Island, Kilbuck-Kuskokwim Mountains; 58° 35' 30" N, 160° 18' 30" W; (map 39). These two islands were collectively named in 1890 by officers of the USBF steamer Albatross.

Twins, The: mountains, two, 3,200 ft., on S side of Alaska Peninsula, 7.5 miles NW of Cape Kunmik, Aleutian Range; 56° 52' N, 157° 16' W; (map 31). Named by prospectors; reported in 1923 by R. H. Sargent, USGS, and published in 1924 on a USGS map.

Twins: islands, three, 10 miles E of Nagai Island, in Shumagin Islands, Aleutian Range; 54° 57' 30" N, 159° 52' 00" W; (map 26). Local name reported in 1872 by W. H. Dall, USC&GS.

Twins: rocks, see Hanin Rocks.

Twist Creek: stream, flows SE 1 mile to Fitz Creek, at Iniskin, 28 miles NE of Augustine Island, Aleutian Range; 59° 44' 40" N, 153° 14' 25" W; BGN 1962; (map 51). Local name published by USGS in 1958.

Twistem Creek: stream, heads in De Long Mountains, flows NE 4 miles to Kiligwa River, 20 miles N of Feniak Lake, Brooks Range; 68° 33' N, 158° 30' W; BGN 1960; (map 132). Named in 1950 by Island L. Tailleux, USGS, 'for a game of chance played while resting on this stream.'

Twister Creek: stream, heads in a lake, flows SW 2.5 miles to Susitna River, 0.5 miles S of Talkeetna, Cook Inlet Lowland; 62° 18' 50" N, 150° 06' 30" W; (map 81). Descriptive name given by surveyors and shown on a railroad location blueprint map compiled in 1915.

Twitter Creek: stream, on Kenai Peninsula, flows W 8 miles to Anchor River, 6 miles NW of Homer, Cook Inlet Lowland; 59° 43' N, 151° 38' W (map 50). Local name reported and published by USGS in the 1950's.

Two Arm Bay: bay, 3 miles wide, on SE coast of Kenai Peninsula, 50 miles E of Homer, Chugach Mountains; 59° 36' N, 150° 03' W; (map 50). Descriptive name reported by Grant and Higgins (1910, pl. 3), USGS, in 1909.

Two Bit Gulch: stream, see Two-bit Creek.

Two By Four Creek: stream, in Nutzotin Mountains, flows W 5 miles to Sheep Creek 3.5 miles SE of its junction with Chisana River, Alaska Range; 62° 14' 30" N, 141° 45' 00" W; (map 84). Local name reported by USGS in 1960.

Two Echo Cliffs: cliffs, with two summits, 5,095 ft. and 5,000 ft., 1.7 miles NW of Nugget Mountain and 10 miles N of Juneau, Coast Mountains; 58° 26' 45" N, 134° 23' 30" W; (map 11). Local name reported in 1965 by D. A. Brew and A. B. Ford, USGS.

Two Girl Lagoon: lagoon, see Aghnaghak Lagoon.

Two Headed Cape: island, see Twoheaded Island.

Two Island Lake: lake, 0.7 miles long, on Kenai Peninsula, 1.7 miles N of Barabara Lake and 21 miles W of Hope, Cook Inlet Lowland; 60° 53' N, 150° 16' W; (map 62). Local descriptive name; reported in 1958 by USGS.

Two Lakes: lake, 4.8 miles long, in course of Necons River, 50 miles N of Lake Clark and 87 miles W of Tyonek, Alaska Range; 61° 07' 30" N, 153° 47' 45" W; BGN 1930; (map 71). Descriptive name reported in 1928, by S. R. Capps and Gerald FitzGerald, USGS, "as applied by prospectors and trappers who occasionally come to live in a cabin on the north side of these lakes."

Two Moon Bay: bay, 2 miles wide, on S shore of Port Fidalgo, 32 miles NW of Cordova, Chugach Mountains; 60° 46' N, 146° 34' W; BGN 1910; (map 64). Variant: Bowie Bay. Local

name reported in 1905 by U. S. Grant, USGS. The bay was originally called "Bowie Bay" in 1901 by H. P. Ritter, USC&GS, for a member of his party, William Bowie.

Two Plate Creek: stream, heads at glacier and flows SE 2.8 miles to Maclaren River, 0.7 miles S of Maclaren Glacier terminus, 25 miles SE of Mount Hayes, Alaska Range; 63° 16' 20" N, 146° 30' 30" W; (map 86). Name reported in 1952 by USGS.

Two Spot Mountains: mountain, 1,223 ft., on W bank of Paradise Creek, 30 miles NW of Holy Cross, Nulato Hills, 62° 21' N, 160° 39' W; (map 78). Named in 1916 by R. H. Sargent (in Harrington, 1918, pl. 1), USGS; name suggested by "two patches of snow on its slopes."

Two Tree Island: island, 200 ft. long, N of Yank Island, Alexander Archipelago; 56° 29' 40" N, 132° 38' 00" W; (map 6). Variant: Two-tree Islet. Descriptive name given in 1869 by Comdr. R. W. Meade, USN.

Two White Men Creek: stream, see Middle Fork Fortymile River.

Two, Lake: lake, 2,000 ft. long, SW of Lake Four, 8 miles S of Talkeetna, Cook Inlet Lowland; 62° 12' 30" N, 150° 03' 30" W (map 81). Local descriptive name reported in 1958 by USGS.

Two-bit Creek: stream, flows S 1 mile to Half Dollar Creek, 2.5 miles S of Ketchum Dome and 34 miles SW of Circle, Yukon-Tanana Highlands; 65° 25' 30" N, 144° 47' 00" W; (map 104). Variant: Two Bit Gulch. Named by prospectors and reported in 1910 by C. E. Ellsworth and G. L. Parker (in Brooks and others, 1911, p. 164), USGS, as "Two Bit Gulch."

Two-bit Gulch: ravine, trends E to Kougarok River, S of Course Gold Creek, 16 miles SW of Midnight Mountain, Seward Peninsula Highlands; 65° 34' N, 164° 44' W; (map 111). Local name reported in 1907 by Henshaw and Covert (1908, p. 95), USGS. This feature cannot be precisely located on current maps.

Two-headed Point: island, see Twoheaded Island.

Two-tree Islet: island, see Two Tree Island.

Twocone Point: point of land, 2 miles NE of Cape Kuliuk, on NW coast of Kodiak Island; 57° 50' 00" N, 153° 53' 30" W; BGN 1930; (map 34). Descriptive name given by USC&GS in 1930, "because of two prominent cones back of the point * * *."

Twocrack Island: island, 0.3 miles across, N end of Maurelle Islands, Alexander Archipelago; 55° 42' N, 133° 37' W; BGN 1908; (map 4). Local descriptive name reported in 1907 by E. F. Dickins, USC&GS.

Twoday Mountain: mountain, 4,460 ft., 11 miles S of Wild Lake and 40 miles W of Wiseman, Brooks Range; 67° 18' 15" N, 151° 35' 00" W; BGN 1932; (map 124). Local name in use since 1904; reported by Robert Marshall in 1932.

Twoheaded Island: island, 3 miles long, 7 miles NE of Kaguyak, on coast of Kodiak Island; 56° 54' N, 153° 35' W; (map 33). Variant: Double Headed Point, Nazikach Island, Nasikan Island, Nazikak Island, Nazikak Point, Two Headed Cape, Two-headed Point. Descriptive

name; first reported by Capt. Cook (1785, v. 2, p. 406), RN, as Twoheaded Point. It seems that he was not able to tell that this feature was not a part of the mainland as he said, "The North East extreme was lost in a haze, but the point to the South West, whose elevated summit terminated in two round hills, on that account was called two-headed Point * * *." The generic, island, was first used by Lt. Sarichev (1826, map 17), IRN, who published the native name as "Os[trov] Nasiktakh," i.e. "Nasiktakh Island"

Twomile Creek: stream, flows NE 8 miles to Innoko River, parallel to Fourmile Creek, 39 miles N of Ophir and 55 miles NW of McGrath, Innoko Lowland; 63° 41' 45" N, 156° 22' 40" W; (map 90). Prospectors' name reported in 1913 by H. M. Eakin, USGS.

Twomile Creek: stream, on S slope of Watson Peak, flows 1 mile S to Gulf of Alaska, 1.2 miles E of Cape Yakataga and 99 miles NW of Yakutat, St. Elias Mountains; 60° 03' 45" N, 142° 21' 30" W; BGN 1945; (map 65). Local descriptive name reported in 1945 by USGS; named because "the creek is two miles east of Cape Yakataga."

Twomile Island: island, 1.3 miles across, largest of Rabbit Islands, in Iliamna Lake, 6 miles ESE of Iliamna, Aleutian Range; 59° 44' N, 154° 44' W; (map 51). Local name published in 1954 by USGS.

Twomile Lake: lake, 0.6 miles across, 15 miles SE of Minto, Tanana Lowland; 64° 44' N, 148° 52' W; (map 100). Probably so named because the lake is approximately 2 miles southwest of Dunbar, a station on The Alaska Railroad. The name appears on recent maps.

Two prong Mountain: mountain, 6,000 ft., 5 miles N of Mt. Doonerak and 40 miles N of Wiseman, Brooks Range; 67° 58' 30" N, 150° 37' 30" W; BGN 1932; (map 124). Named in 1930 by Marshall (1956, p. 50). who wrote "Directly across Nakshakluk Creek rose the paired pinnacle of Two prong mountain, each prong jutting straight up into the sky."

Tya Inlet: estuary, see Taiya Inlet.

Tyee Creek: stream, heads in Tyee Lake, flows NW 1 mile to Hidden Creek, S of mouth of Bradfield River at head of Bradfield Canal, Coast Mountains; 56° 12' 50" N, 131° 31' 20" W; (map 7). Local name derived from Mount Tyee; reported in 1923 by USFS.

Tyee Lake: lake, 2 miles long, 2 miles S of head of Bradfield Canal, Coast Mountains; 56° 11' 30" N, 131° 28' 30" W; (map 7). Local name derived from Mount Tyee; reported in 1923 by USFS.

Tyee, Mount: mountain, 4,716 ft., 3 miles SE of head of Bradfield Canal, Coast Mountains; 56° 12' 20" N, 131° 26' 10" W; (map 7). Named in 1886 by Lt. Comdr. A. S. Snow, USN. Baker (1906, p. 645). wrote, "Native word, meaning 'chief' or 'head man'."

Tyee: locality, on Murder Cove, on S tip of Admiralty Island, Alexander Archipelago; 57° 02' 30" N, 134° 32' 30" W; (map 9). This is the former location of a cannery and fishing station. A post office by this name was established in 1907 and discontinued in 1953 (Ricks, 1965). In 1962 the facilities were in ruins.

Tyeen Glacier: glacier, in Glacier Bay National Monument, trends SE 1.5 miles to its 1961 terminus, 1.8 miles NW of Johns Hopkins Inlet and 2.4 miles W of terminus of Toyatte Glacier, 80 miles NW of Hoonah, St. Elias Mountains; 58° 53' N, 137° 08' W; BGN 1937; (map 10). Named in 1936 by W. O. Field and W. S. Cooper (in Cooper, 1937, fig. 17 and p. 62). for Tyeen, a Stickeen Indian, who was captain of John Muir's boat on his journey up "Sum Dum" or Holkham Bay in 1880 (Muir, 1915, p. 208-233).

Tyndall Cove: estuary, 2.6 miles long in Glacier Bay National Monument, extends NW to Geikie Inlet, 50 miles NW of Hoonah, St. Elias Mountains; 58° 37' 30" N, 136° 23' 30" W; (map 10). Local name reported in 1951 by USGS.

Tyndall Glacier: glacier, heads 5 miles S of The Hump, trends SW 16 miles to head of Icy Bay, 65 miles NW of Yakutat, Chugach Mountains; 60° 03' 30" N, 141° 18' 00" W; (map 65). Named by members of the New York Times Expedition of 1886 for John Tyndall, 1820-93, British physicist and natural philosopher. In his early life he was a member of The Irish Ordnance Survey and English Survey. He received his Ph.D. at the Univ. of Marburg in 1851 and in 1854 he was appointed professor of physics at the Royal Institution of London. He made frequent trips to Switzerland to study glaciers and glacial phenomena, especially the cause of the flow of glacier ice.

Tyone Creek: stream, flows SW 5 miles to Keno Creek, 32 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 33' N, 161° 20' W; (map 53). Name published by G. L. Harrington (in Brooks and others, 1921, pl. 7), USGS.

Tyone Creek: stream, heads at 62° 14' N, 147° 29' W, flows NE 56 miles to Tyone River, 60 miles NW of Gulkana, Copper River Basin; 62° 39' 25" N, 147° 02' 10" W; (map 82). Local name reported in 1906 by Sidney Paige and Adolph Knopf (in Brooks and others, 1907, pl. 118), USGS. The name is an "Alaska jargon word for 'chief'."

Tyone Lake: lake, 5.5 miles long, N of Susitna Lake, at head of Tyone River, 43 miles NW of Gulkana, Copper River Basin; 62° 30' N, 146° 45' W, (map 83). Local name reported by F. H. Moffit (in Brooks and others, 1915, p. 6), USGS.

Tyone River: stream, heads at Tyone Lake, flows NW 30 miles to Susitna River, 7 miles NE of Oshetna River and 68 miles NW of Gulkana, Copper River Basin; 62° 42' 20" N, 147° 12' 45" W; (map 82). Variant: Tyrone River. Local name reported in 1906 by Sidney Paige and Adolph Knopf (in Brooks and others, 1907, p. 118), USGS. The name is an "Alaska jargon word for 'chief'."

Tyone Village: locality, on N shore of Tyone Lake, 46 miles NW of Gulkana, Copper River Basin; 62° 31' N, 146° 43' W; (map 83). Local name reported in 1952 by USGS.

Tyonek Creek: stream, flows SE 15 miles to Cook Inlet at North Foreland, 2 miles SW of Tyonek, Cook Inlet Lowland; 61° 02' 30" N, 151° 11' 30" W; BGN 1916; (map 70). Local name reported in 1958 by USGS.

Tyonek Station: settlement, see Old Tyonek.

Tyonek Town: locality, see Tobona.

Tyonek: village, pop. 187, on NW shore of Cook Inlet, 43 miles SW of Anchorage, Cook Inlet Lowland; 61° 04' 00" N, 151° 08' 20" W; (map 70). Variant: Beluga, Moquawkie, Tiunok. Toyonok, Tu-i-u'nak, Tu-i-u'nuk, Tyonick, Toyonok, Tyoonok, Tyunok. Tanaina Indian village reported in 1880 "Toyonok" by Ivan Petroff as consisting of "2 whites, 6 creoles, and 109 natives." This Indian name means "little chief" and the Eskimo name "Tu-i-u'nuk" reportedly means "marsh people" (Hodge, 1907, p. 860). A post office named "Tyoonok" was established in 1896; renamed Tyonok in 1905, Beluga in 1909, Moquawkie in 1915, and Tyonek in 1933 (Ricks, 1965, p. 67). In 1890, the village had a population of 115; 50 in 1920 136 in 1939; and 132 in 1950.

Tyonick: village, see Tyonek.

Tyonok: village, see Tyonek.

Tyons Bay: bay, see Redoubt Bay.

Tyoonok: village, see Tyonek.

Typhoon Peak: peak, 7,600 ft., in Storm Range, 1.5 miles SE of Mount Ogilvie and 38 miles N of Juneau, Coast Mountains; 58° 50' 47" N, 134° 13' 40" W; BGN 1965; (map 11). Named in 1964 by members of the Juneau Icefield Research Program.

Tyrena Creek: stream, flows NE 2 miles to Trout Creek, 3.4 miles S of that stream's junction, with Yukon River and 25 miles NW of Eagle, Yukon-Tanana Highlands; 65° 04' 30" N, 141° 42' 40" W; (map 103). Prospectors' name from an unpublished map by E. J. Chamberlain, dated 1902.

Tyrone River: stream, see Tyone River.

Tyunok: village, see Tyonek.

Tyurpa, Ostrov: Island, see Tiurpa Island.

Tyya Inlet: estuary, see Taiya Inlet.

Tyya: locality, see Dyea.

Tzaharagamute: locality, see Tzahavak.

Tzahavagamut: locality, see Tzahavak.

Tzahavagamute: locality, see Tzahavak.

Tzahavak: locality, on S shore of Chagvan Bay, 20 miles S of Goodnews Bay, Kilbuck-Kuskokwim Mountains; 58° 45' N, 161° 45' W; (map 39). Variant: Tzaharagamute, Tzahavagamut, Tzahavagamute. Former Eskimo village or camp reported as "Tzahavagamute," population 48, by Petroff (1881, p. 53).

Tzeldatnu: stream, see Soldotna Creek.

Tzuse Shoal: shoal, 0.4 miles long, at S entrance to Yakutat Roads, N of Monti Bay and 1.4 miles NW of Yakutat, Malaspina Coastal Plain; 59° 33' 40" N, 139° 45' 55" W; (map 46).

Variant: Southeast Shoal. Local name published in 1959 by the USGS. It is called Southeast Shoal in the USC&GS 1947 Alaska Coast Pilot (p. 79).

U

U Lake: lake, 1 mile long, 1 mile S of Swan Lake and 8 miles NE of Arctic Village, Brooks Range; 68° 13' 30" N, 145° 23' 30" W; (map 136). Local descriptive name obtained in 1956 by USGS.

U-gai-yak, Cape: point of land, see Ugyak, Cape.

U-S Creek: stream, flows SW 2.5 miles to American Creek, 2.7 miles E of Fish Lake and 26 miles ESE of Tanana, Yukon-Tanana Highlands; 65° 04' 20" N, 151° 13' 00" W; (map 106). Local name reported in 1952 by USGS.

U.S. Camp: locality, at mouth of U.S. Creek 45 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 16' N, 146° 44' W; (map 104). Name of a road camp along Steese Highway; derived from U.S. Creek and published in 1954 by USGS.

U.S. Creek: stream, flows S 3 miles to Chatanika River, 25 miles NW of Chena Hot Springs and 45 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 15' 50" N, 146° 44' 00" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

U.S. Gulch: ravine, trends N 1 mile to Uhler Creek, 45 miles SW of Eagle, Yukon-Tanana Highlands; 65° 12' N, 141° 40' W; (map 102). Named by prospectors and shown on an 1898 manuscript map by E. F. Ball, prospector. This ravine is not identified on present-day maps.

Ualik Lake: lake, 8 miles long, near head of Nushagak Peninsula, source of Kanik River, 35 miles WNW of village of Clarks Point, Kilbuck-Kuskokwim Mountains; 59° 03' N, 159° 29' W; (map 53). Variant: Kulukak Lake, Kulyukak, Lake Ualik, Oallek Lake. Eskimo name "Oallek" obtained in 1898 from Rev. Wood [cna], missionary; published by Spurr (1900, map 10), USGS. Recorded as "Oz[ero] Kulyukak" by Capt. Tebenkov (1852, map 4), IRN.

Ualik: locality, near head of Nushagak Peninsula, on W shore of Kulukak Bay, 43 miles W of village of Clarks Point, Kilbuck-Kuskokwim Mountains; 58° 55' N, 159° 45' W; (map 40). Variant: Ooailik, Ooalligamut, Ooallikh. Former Eskimo village or camp reported in 1880 as "Ooallikh," population 68, by Petroff (1884,p. 17).

Ubezhisheha, Ostrov: island, see Refuge Island.

Ubezhitsha: island, see Refuge Island.

Ubi Island: island, 700 ft. long, in Bucareli Bay, on NW coast of Suemez Island, W of Point Remedios, Alexander Archipelago; 55° 19' 40" N, 133° 26' 25" W; (map 4). Variant: Isla Obi, Isla Ubi, Ysla Ubi. Spanish name given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Isle Ubi," or "Ubi Island."

Ubi, Isla: island, see Ubi Island.

Ubi, Ysla: island, see Ubi Island.

Ubiennaya, Gavan: bay, see Massacre Bay.

Ubiennoi Bay: bay, see Massacre Bay.

Ubiennoi Bay: bay, see Temnac Bay.

Ubiennykh, Gavan: bay, see Massacre Bay.

Ubiyenna Bay: bay, see Massacre Bay.

Ubiyenna Harbor: bay, see Massacre Bay.

Ubiyennaya, Gavan: bay, see Massacre Bay.

Ubiyennykh, Gavan: bay, see Massacre Bay.

Ublutuoch River: stream, heads in lake at 69° 58' N, 152° 01' W, flows NE and NW 55 miles to Fish Creek, 5 miles S of Harrison Bay, Arctic Plain; 70° 19' 15" N, 151° 21' 10" W; (map 149). Eskimo name reported in 1951 by USC&GS and reported to mean "fat fish."

Uchagmjut: locality, see Uchak.

Uchak: locality, "on right bank of Kuskokwim River." Variant: Uchagmjut, Ugokhamiut. Former Eskimo village or camp recorded as "Uchagmjut" by Holmberg (1855, map); and as "Ugokhamiut" in the 1890 Census (1893, p. 164).

Uchitak: locality, on SE shore of Norton Sound near Tolstoi Point, Nulato Hills; 63° 37' N, 161° 00' W; (map 91). Variant: Outchitak-Mioute. Former Eskimo village or camp published in 1850 as "Outchitak-Mioute" on Lt. L. A. Zagoskin's map. (Hodge 1910 p. 862).

Uchtumuch Bay: bay, see Temnac Bay.

Uchugrak Hills: hills, 1,863 ft., extend N-S 4 miles, N of Noatak River, 4 miles W of Poktovik Mountains and 18 miles SW of Misheguk Mountain, Brooks Range; 68° 04' N, 161° 35' W; (map 131). Variant: Chugruk Hills. Descriptive Eskimo name meaning "old vulva," reported by USGS in 1956.

Ucomude: locality, on N shore of Kiliuda Bay, on SE coast of Kodiak Island; (map 34). Aleut name reported in 1805 by Lisianski (1814, map facing p. 169). This name probably means "akom bay." Location unknown.

Udagak Bay: cove, 0.6 miles across, 2 miles SW of Sedanka, at E end of Unalaska Island, Aleutian Islands; 53° 44' 15" N, 166° 19' 20" W; (map 23). Variant: Ilmudichtchit, Ilmudikhchit. Name derived from Udagak Strait and given by J. J. Gilbert, USC&GS, commander of the Coast Survey Steamer Pathfinder during 1900-01. The name "Ilmudikhchit" was reported for this feature in 1790 by Lt. G. A. Sarichev, IRN.

Udagak Strait: water passage, between Unalaska and Sedanka Islands, Aleutian Islands; 53° 44' 20" N, 166° 17' 30" W; (map 23). Variant: Idagak Strait, Oudagakh Strait, Spirkin Strait, Udagakh Strait. Aleut name published by Lt. Sarichev (1826, map 14), IRN, as "Proliv

Udagakh," or "Udagakh Strait." It was later called "Oudagakh" by Capt. Lutke (1836, p. 284), IRN, and then "Proliv Spirkin," or "Spirkin Strait," by Capt. Tebenkov (1852, map 26), IRN. According to R. H. Geoghegan, the name may have been taken from the Aleut word "idakuk" which means "leaves, passes away, emanates from."

Udagakh Strait: water passage, see Udagak Strait.

Udak, Cape: point of land, on S coast of Umnak Island, Aleutian Islands: 52° 55' N, 168° 46' W; (map 21). Variant: Mys Udakh. Aleut name published by Capt. Tebenkov (1852, map 25), IRN, as "M[ys] Udakh," or "Cape Udakh," probably from the Aleut "udaq" which, according to R. H. Geoghegan, means "dried fish."

Udakh, Mys: point of land, see Udak, Cape.

Udakhta Harbor: anchorage, see Dutch Harbor.

Udamak Cove: cove, 0.6 miles across, in Anderson Bay, part of Makushin Bay on W coast of Unalaska Island, Aleutian Islands; 53° 38' 20" N, 166° 48' 00" W; (map 23). Aleut name reported in 1802 by Lt. G. A. Sarichev, IRN, as "Udamak."

Udamat Bay: bay, 1.1 miles across, in Beaver Inlet N central coast of Sedanka Island, Aleutian Islands; 53° 48' 30" N, 166° 13' 30" W; (map 23). Variant: Gull Bay. Aleut name reported by Lt. Sarichev (1826, map 14), IRN, as "Zal[iv] Udamat," or "Udamat Bay." This feature was called Gull Bay by USBF in 1888.

Udrivik, Lake: lake, 1.8 miles across, in Killik River valley, 19 miles NE of Kurupa Lake, Brooks Range; 68° 30' N, 154° 00' W; (map 133). Variant: Blank Lake. Eskimo name reported in 1956 by T. E. Taylor, USGS. A 1924 fieldsheet by Gerald FitzGerald, USGS, shows "Blank Lake," a name probably given for Walter R. Blankenship, the expedition's camp hand.

Ufigag Creek: stream, see Ukfigag Creek.

Ugadachan Creek: stream, flows S into Ugadaga Bay on N side of Beaver Inlet, on Unalaska Island, Aleutian Islands; 53° 49' 30" N, 166° 25' 00" W; (map 23). Name derived from Ugadagan Bay (Ugadaga Bay) and reported by von Langsdorff (1813-14, v. 2, p. 29). It is not named on modern maps.

Ugagak River: stream, see Ugashik River.

Ugagak: village, see Ugashik.

Ugagik River: stream, see Egegik River.

Ugagik: village, see Egegik.

Ugaguk River: stream, see Egegik River.

Ugaguk River: stream, see Ugashik River.

Ugaguk: village, see Egegik.

Ugaiak: point of land, see Ugyak, Cape.

Ugainshak Island: island, see Ugaiushak Island.

Ugaiuscha Island: island, see Ugaiushak Island.

Ugaiuschak Island: island, see Ugaiushak Island.

Ugaiushak Island: island, 2 miles long, 7 miles S of Cape Kuyuyukak and 13 miles E of Cape Kunmik, Aleutian Range; 56° 47' N, 156° 51' W; (map 31). Variant: Ile Agaiouchack, [Ostrov] Ugaiutak, Ugaiuscha Island, Ugaiuschak Island, Ugaiutak Island, Ugainshak Island, Ugajutchak Island, Ugaluschak Island. Eskimo name published in 1827 as “[le] Agaiouchack” by Adm. A. J. von Krusenstern (1827, map 20), IRN.

Ugaiutak Island: island, see Ugaiushak Island.

Ugaiutak, Ostrov: island, see Ugaiushak Island.

Ugajutchak Island: island, see Ugaiushak Island.

Ugak Bay: bay, extends NW 21 miles, off Gulf of Alaska, on E coast of Kodiak Island; 57° 25' N, 152° 35' W; (map 34). Variant: Dgak Bay, Igak Bay, Igakskie, Igatskai, lhack Bay, Irak Bay, Oohack, Puerto de Roxas, Zaliv Igatskoy. Native name given in 1805 by Lisianski (1814, p. 173) as “Bay of lhack.” Published as “Za[liv] Igatskoy,” or “Igat Bay,” by Sarichev (1826, map 3). Name possibly comes from the Aleut “qugaq” which, according to R. H. Geoghegan means “evil spirit.” Wagner (1937, p. 492) says “According to Baker's dictionary [p. 646] * * * Puerto de Roxas * * * was a Spanish name for Ugak Bay * * * but I have never discovered it on any Spanish map in that locality.”

Ugak Island: island, 0.1 miles across, in Chiniak Bay, N of Cape Chiniak, on E coast of Kodiak Island; 57° 37' 55" N, 152° 09' 30" W; (map 34). Native name reported by von Langsdorff (1814, p. 56).

Ugak Island: island, 3 miles long, in Gulf of Alaska, at mouth of Ugak Bay, on E coast of Kodiak Island; 57° 23' N, 152° 17' W; (map 34). Variant: Dgak Island, Oohack Island. Native name derived from Ugak Bay and published as “Oohack island” by Lisianski (1814, p. 142). See Ugak Bay.

Ugaklik River: stream, flows NW 35 miles to Eek River, 47 miles S of Bethel, Yukon-Kuskokwim Delta; 60° 07' 30" N, 161° 38' 15" W; (map 59). Eskimo name reported in 1951 by USC&GS.

Ugalak Creek: stream, flows NW 3.2 miles around Guard Hill to Ogotoruk Creek, 9 miles E of I Cape Thompson, Arctic Slope; 68° 09' N, 165° 38' W; BGN 1963; (map 129). Variant: Oogahluk Creek. Eskimo name reported in 1962 by personnel of Project Chariot as “Oogahluk.”

Ugalek Bay: bay, on coast of Sedanka Island, off NE coast of Unalaska Island, Aleutian Islands; (map 23). Aleut name called "Zal[iv] Ugalek," or "Ugalek Bay," by Lt. Sarichev (1826, map 14), IRN, and published by Baker (1906, p. 647). The name does not appear on modern maps.

Ugalgal Island: island, see Egg Island.

Ugalgan Island: island, see Egg Island.

Ugalohan Island: island, see Egg Island.

Ugaluschak Island: island, see Ugaiushak Island.

Ugamak Bay: bay, 2 miles across, on SE coast of Ugamak Island, Krenitzin Islands, Aleutian Islands; 54° 12' 30" N, 164° 47' 30" W; (map 24). Named in 1901 for Ugamak Island by J. J. Gilbert, USC&GS.

Ugamak Island: island, 5.2 miles long, 36 miles E of Akutan, easternmost of Krenitzin Islands, Fox Islands, Aleutian Islands; 54° 12' 30" N, 164° 50' 00" W; (map 24). Variant: Ooagalga, Ugamok Island, Ugomok Island, Ukamak Island. Aleut name transcribed by Father Veniaminov (1840, v. 1, p. 202) as "O[strov] Ugamak," which, according to R. H. Geoghegan, may mean "ceremony island."

Ugamak Strait: water passage, 3 miles wide, between Ugamak and Kaligagan Islands, in Krenitzin Islands, Aleutian Islands; 54° 11' N, 164° 52' W; (map 24). Variant: Ugamakskie. Aleut name transcribed by Father Veniaminov (1840, v. 1, p. 16) as "Ugamakskey," and probably is derived from the name of the island.

Ugamakskie: water passage, see Ugamak Strait.

Ugamok Island: island, see Ugamak Island.

Ugamok: island, see Chirikof Island.

Uganik Bay: bay, extends SE 11 miles, off Shelikof Strait, on N coast of Kodiak Island; 57° 50' N, 153° 32' W; (map 34). Variant: Ooganak Bay, Ooganok, Uganuk Bay. Name derived from Uganik Island and published as "Ooganak Bay" by Petroff (1881, p. 29) in the 10th Census in 1880.

Uganik Island: island, 16 miles long, between Uganik and Vickoda Bays, on N coast of Kodiak Island; 57° 53' N, 153° 20' W; BGN 1931; (map 34). Variant: Oohanick Island, Uganuk Island. Native name reported in 1805 by Lisianski (1814, p. 169) as "Oohanick Island." Baker (1906, p. 647) wrote a transliteration of the Russian "O[strov] Uganik," or "Uganik Island," published by Capt. Tebenkov (1852, map 23). The USC&GS erroneously transliterated Capt. Tebenkov's spelling as "Uganuk" and USBF did the same in 1888.

Uganik Lake: lake, 3.5 miles long, in course of Uganik River, SE of East Arm Uganik Bay, on N coast of Kodiak Island; 57° 40' N, 153° 20' W; (map 34). Name derived from Uganik Island and published in 1952 by USGS.

Uganik Passage: water passage, 20 miles long, between Uganik Bay and Uganik Island, N coast of Kodiak Island; 57° 51' N, 153° 25' W; BGN 1909; (map 34). Name derived from Uganik Island and given in 1909 by Capt. W. C. Hodgkins, USC&GS.

Uganik River: stream, heads in lake, flows NW through Uganik Lake 24 miles to East Arm Uganik Bay, on N coast of Kodiak Island; 57° 41' 30" N, 153° 25' 45" W; (map 34). Name derived from Uganik Island and published in 1952 by USGS.

Uganik, Cape: point of land, at NW tip of Uganik Island, N coast of Kodiak Island; 57° 58' N, 153° 30' W; (map 34). Variant: East Point, Mys Uganik. Name derived from Uganik Island and published as "M[ys] Uganik," or "Cape Uganik," by Capt. Tebenkov (1852, map 23). Called East Point in 1897 by Lt. Comdr. J. F. Moser, USN, of USBF steamer Albatross.

Uganik: locality, on W shore of Northeast Arm Uganik Bay, on N coast of Kodiak Island; 57° 46' N, 153° 24' W; (map 34). Variant: Oohanick, Ooganak, Uganuk. Eskimo village reported as "Oohanick" in 1805 by Lisianski (1814, map facing p. 169). The Tenth Census in 1880 lists "Ooganak," population 73 while the Eleventh Census in 1890 lists "Uganak," population 31.

Uganuk Bay: bay, see Uganik Bay.

Uganuk Island: island, see Uganik Island.

Uganuk Spit: spit, see Packers Spit.

Uganuk: locality, see Uganik.

Ugashek, Ozero: lake, see Becharof Lake.

Ugashik Bay: estuary, extends NW 9 miles to Bristol Bay, on N coast of Alaska Peninsula, at mouth of Ugashik River, 6 miles W of Ugashik, Bristol Bay Lowland; 57° 35' N, 157° 42' W; (map 36). Local name published in 1909 by USC&GS; derived from Ugashik River.

Ugashik Creek: stream, flows NW 18 miles to Upper Ugashik Lake, on Alaska Peninsula, 35 miles NE of Ugashik, Aleutian Range; 57° 42' 40" N, 156° 34' 05" W; (map 36). Eskimo name reported in 1902 by J. L. McPherson of Iliamna.

Ugashik Lakes: lake, see Lower Ugashik Lake.

Ugashik River: stream, heads in Upper Ugashik Lake and flows W, through Lower Ugashik Lake, 43 miles to Ugashik Bay, on NW coast of Alaska Peninsula, 9 miles SW of Ugashik, Bristol Bay Lowland; 57° 30' N, 157° 37' W; (map 36). Variant: Egegik River, Igakik River, Oogahik, Oogashak, Oogashik, Ougatchik Riviere, Reka Sulima, Reka Ugazhak, Riviere Soulima, Ugagak River, Ugaguk River, Ugatschik River, Ugazhik River. Eskimo name transcribed in French as "Ougatchik Riviere," in 1828 by Capt. Lutke (1836, p. 259), IRN. At the same time Capt. M. N. Staniukovich of the corvette Moller, called it "Soulima" in his journal, and for many years there was considerable confusion concerning the name of the stream or streams. According to Grewingk (1850, p. 129) there were two streams. The present spelling was given by W. H. Dall in 1868.

Ugashik, Mount: mountain, 2,230 ft., between Crooked and Ugashik Creeks, on Alaska Peninsula, 41 miles NE of Ugashik, Aleutian Range; 57° 37' N, 156° 19' W; (map 36). Name reported in 1902 by J. L. McPherson of Iliamna; published by G. C. Martin (1921, pl. 10), USGS.

Ugashik: village, pop. 36, on NW coast of Alaska Peninsula, on E bank of Ugashik River, 9 miles from its mouth, Bristol Bay Lowland; 57° 30' 45" N, 157° 23' 45" W; (map 36). Variant: Igagik, Oogahik, Oogashik, Ugagak, Ungashik. Eskimo village listed by Ivan Petroff in the 1880 Census as "Oogashik," population 177; 154 in 1890; 84 in 1930; 55 in 1939; and 48 in 1950. The Ugashik post office was maintained here intermittently from 1932 to 1963 (Ricks, 1965, p. 67).

Ugat, Cape: point of land, 6.5 miles NE of Cape Kuliuk, on NW coast of Kodiak Island; 57° 52' 20" N, 153° 50' 40" W; (map 34). Variant: Mys Ugat, Ugat Point. Transliteration by USC&GS in 1868 of the native name published in Russian as "M[ys] Ugat," "Cape Ugat," by Capt. Tebenkov (1852, map 22).

Ugatschik River: stream, see Ugashik River.

Ugavigamiut: locality, see Uknavig.

Ugavik: locality, see Uknavig.

Ugazhak, Reka: stream, see Ugashik River.

Ugazhik River: stream, see Ugashik River.

Ugchirnak Mountain: hill, 948 ft., on NW coast of Nelson Island, 8 miles NE of Cape Vancouver, Yukon-Kuskokwim Delta; 60° 37' N, 165° 14' W; (map 57). Eskimo name meaning "it goes on top" obtained at Tanunak in 1951 by USC&GS.

Ughkooleekuk Cove: cove, in Koomlangeelkuk Bay, 4.6 miles SW of Savoonga, N coast of St. Lawrence Island; 63° 40' N, 170° 37' W; BGN 1951; (map 93). Variant: Ughkulikak Cove. Eskimo name recommended by the Savoonga village and reported in 1949 by Maj. H. B. Allen, USAF.

Ughkulikak Cove: cove, see Ughkooleekuk Cove.

Ugiagik: village, see Egegik.

Ugiagwik, Lake: lake, see Becharof Lake.

Ugiak: point of land, see Ugyak, Cape.

Ugiatok: locality, on Agattu Island, Aleutian Islands; 52° 25' N, 173° 35' E; (map 13). Former Aleut village or camp (Hodge, 1910, p. 863), BAE.

Ugidak Island: island, 0.1 miles across, borders Tanaga Pass, 3.5 miles E of Skagul Island, Aleutian Islands; 51° 35' 00" N, 178° 30' 30" W; (map 16). Variant: Kamen Ugidakh, Ugidakh Island. Aleut name published by Capt. Tebenkov (1852, map 28), IRN, as "K[amen] Ugidakh," or "Ugidakh Rock," and shown on an 1855 U.S. Navy Hydrog. Chart as Ugidakh Island.

Ugidakh Island: island, see Ugidak Island.

Ugidakh, Kamen: island, see Ugidak Island.

Ugiu-ug: village, see Biorka.

Uglaamie: town, see Barrow.

Uglivia: locality, see Uglovaia.

Uglovaia: locality, on right bank of Yukon River, at or near Marshall, Yukon-Kuskokwim Delta; 61° 53' N, 162° 05' W; (map 74). Variant: Ooglovia, Ouglovaia, Sabotnisky, Uglivia. Russianized Eskimo name reported in 1879 as "Ouglovaia" by E. W. Nelson, U.S. Signal Service. Listed in 1880 as "Ooglovia," Eskimo village, population 102, by Ivan Petroff.

Ugnasik: village, see Unga.

Ugnuravik River: stream, flows N 35 miles to Simpson Lagoon, 14 miles W of Beechey Point, Arctic Plain; 70° 29' 30" N, 149° 46' 30" W; (map 150). Eskimo name referring to the "place where ducks are driven and killed"; reported by USC&GS in 1951.

Ugokhamiut: locality, see Uchak.

Ugolnoi: island, see Ukolnoi Island.

Ugolnoy, Mys: point of land, see Coal Point.

Ugolnoy, Ostrov: island, see Charcoal Island.

Ugolnoy, Zaliv: bay, see Coal Bay.

Ugomok Island: island, see Ugamak Island.

Ugovik: locality, see Uknavig.

Ugroorak: bluff, see Ugrurak Bluff.

Ugrurak Bluff: bluff, on shore of Chuckchi Sea, 15 miles N of Cape Krusenstern, Kotzebue-Kobuk Lowland; 67° 18' N, 163° 48' W; (map 128). Variant: Ogrooruk, Ookwroorat Bluff, Ugroorak, Ugzuuzaq. Eskimo name meaning "little piece of blubber" reported in 1950 by USC&GS.

Ugtikun: locality, on Agattu Island, Aleutian Islands; 52° 25' N, 173° 35' E; (map 13). Former Aleut village or camp (Hodge, 1910, p. 863), BAE.

Ugtumuk: locality, on Agattu Island, Aleutian Islands; 52° 25' N, 173° 35' E; (map 13). Former Aleut village or camp (Hodge, 1910, p. 863), BAE.

Uguiug: locality, see Beaver.

Ugujuk: village, see Uyak.

Uguligik Island: island, see Aguligik Island.

Ugushtu, Ostrov: island, see Crooked Island.

Ugutchtu Island: island, see Ushagat Island.

Uguyug: locality, see Beaver.

Uguyug: village, see Biorka.

Ugyak, Cape: point of land, between Kafliia and Kukak Bays, on E coast of Alaska Peninsula, in Katmai National Monument, 32 miles E of Mount Katmai, Aleutian Range; 58° 16' 45" N, 154° 06' 00" W; (map 42). Variant: Cape U-gai-yak, Cap Ighiack, Ilak, Mys Igiak, Ugaiak, Ugiak. Native name published in French as "C[ap] Ighiack" by von Krusenstern (1827, map 17); published in 1847 in Russian as "M[ys] Igisk" on Russian Hydrog. Dept. Chart 1378. Locally called Cape "U-gai-yak" according to W. H. Dall, USC&GS; published as "Cape Ugyak" in 1888 by USBF.

Ugzuuzaq: bluff, see Ugrurak Bluff.

Uhaiak Peninsula: peninsula, see Hepburn, Peninsula.

Uhaiak: locality, on Hepburn Peninsula on S coast of Kodiak Island, 57° 00' N, 153° 55' W; (map 33). Variant: Oohaiack. Former Eskimo village or camp recorded in 1804 as "Oohaiack" by Capt. Lisianski (1814, map facing p. 169), IRN.

Uhaskek: locality, between Gull and Dangerous Capes, on SE coast of Kodiak Island; 57° 24' N, 152° 38' W; (map 43). Variant: Oohaskeck. Former Eskimo village or camp recorded in 1804 as "Oohaskeck" by Capt. Lisianski (1814, map facing p. 169), IRN.

Uhler Creek: stream, flows W 9 miles to South Fork Fortymile River, 45 miles SW of Eagle Yukon-Tanana Highlands; 64° 12' 20" N, 141° 05' 00" W; (map 102). Variant: Yuler Creek. Named by prospectors and reported in 1896, by Spurr (1898, pl. 44), USGS.

Uhvak: hills, see Awak Hills.

Uhvowm Koonga: stream, see Auvom Creek.

Ui-lu-gu-lum-gui-guok: stream, see Kokwok River.

Uiak Bay: bay, see Uyak Bay.

Uinakhtagewik: locality, see Uinuk.

Uinaklagovik: locality, see Uinuk.

Uindkhem, Mys: point of land, see Windham, Point.

Uinuk: locality, on N shore of Norton Sound at mouth of Nome River, 4 miles SE of Nome, Seward Peninsula Highlands; 64° 29' N, 165° 18' W; (map 94). Variant: Oo-innakhtagowik, Ooinukhlagowik, Ooinuklagowik, Ooinuktagowik. Uinakhtagewik. Former Eskimo village reported in 1880 by Ivan Petroff as "Oo-innakhtagowik", population 10, in the 10th Census.

Uivak: promontory, see Lisburne, Cape.

Uivaksak Creek: stream, heads in DeLong Mountains flows SW 15 miles through Desperation Lake to Anisak River, Brooks Range; 68° 18' N, 158° 58' W; BGN 1960; (map 132). Variant: Fry Creek. Eskimo name meaning "like a cape, for going around," reported by USGS in 1956.

Uivaq: promontory, see Lisburne, Cape.

Uivfak: promontory, see Lisburne, Cape.

Ujah Islet: island, see Uyak Island.

Ujakushatsch: volcano, see Redoubt Volcano,

Ujut Bay: bay, see Izhut Bay.

Ujut Bay: bay, see King Cove.

Ukagamut: locality, see Nunaikak.

Ukak River: stream, heads in lake, flows N 12 miles to Iliuk Arm Naknek Lake, on Alaska Peninsula, in Katmai National Monument, 23 miles NW of Mount Katmai, Aleutian Range; 58° 31' 50" N, 155° 20' 30" W; BGN 1924; (map 42). Native name published in 1917 by R. F. Griggs, National Geographic Society. Griggs camped near the site of a village named "Ukak" and called his camp and the river by that name

Ukak: lake, see Kukaklik Lake.

Ukak: locality, on NW coast of Nelson Island. 27 miles NE of Cape Vancouver, Yukon-Kuskokwim Delta; 60° 44' N, 164° 56' W; (map 58). Variant: Ookagamiut, Ookagamute Ookak, Ukogamute. Former Eskimo village, abandoned before 1945, now used as a summer camp; reported as "Ookagamiut," by E. W. Nelson, U.S. Signal Service, who visited the village in December 1878. Ivan Petroff, in the 1880 Census, recorded "Ookagamute," population 25; 15 in 1939. Some maps have erroneously located this village on the Ningaluk River. See Unakak.

Ukak: locality, see Nunaikak.

Ukak: locality, see Savonoski.

Ukak: locality, see Unakak.

Ukalikchik River: stream, flows SE 20 miles to Kashunuk River 28 miles E of village of Hooper Bay, Yukon-Kuskokwim Delta; 61° 26' N, 165° 16' W, (map 75). Eskimo name reported by USC&GS in 1951.

Ukalikchik: locality, on W bank of Ukalikchik River near its junction with Kashunuk River, 28 miles E of village of Hooper Bay, Yukon-Kuskokwim Delta; 61° 26' 30" N, 165° 16' 25" W; (map 75). Eskimo name reported by USC&GS in 1951.

Ukamak Island: island, see Ugamak Island.

Ukamok: island, see Chirikof Island.

Ukashik: locality, on Agattu Island, Aleutian Islands; 52° 25' N, 173° 35' E, (map 13). Former Aleut village or camp (Hodge, 1910, p. 864), BAE.

Ukawatne: stream, see Ukawutni Creek.

Ukawutni Creek: stream, flows SW 15 miles to Victor Slough in the Yukon River, 0.4 miles N of Mickey Island and 32 miles NE of Ruby, Kokrines-Hodzana Highlands; 64° 56' 20" N, 154° 30' 25" W; (map 98). Variant: Ukawatne. Native name reported in 1869 by W. H. Dall (1870, p. 282), USC&GS, as Ukawatne and Ukawutni.

Ukayukhpalyk Island: island, see Kiukpalik Island.

Ukazatel, Ostrov: island, see Guide Island.

Ukerukuvik River: stream, see Okerokovik River.

Ukfigag Creek: stream, flows NW 4 miles to Goodnews Bay, 3.5 miles S of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 04' N, 161° 36' W; (map 53). Variant: Ufigag Creek. Eskimo name reported to mean "little trees" obtained at Goodnews about 1951 by J. M. Hoare, USGS.

Ukhagmiut: locality, see Oknagamut.

Ukhapatit: rocks, see Youghapotit Rocks.

Ukhvigchagvag: locality, on Holitna River, Stony River Lowland; 61° 30' N, 157° 00' W; (map 72). Variant: Ukvigchagvag-myt. Former Eskimo village or camp recorded in 1842-44 as "Ukvigchagvag-myt" by Lt. L. A. Zagoskin (1847, p. 75), IRN.

Ukinik Creek: stream, see Ukinyak Creek.

Ukinyak Creek: stream, heads in Lisburne Hills, flows S and W 11 miles to Chukchi Sea, 6 miles N of Cape Dyer, Arctic Slope; 68° 44' 10" N, 166° 11' 55" W; (map 129). Variant: Ukinik Creek, Ukinyaq Creek, Ukinyuk Creek. Eskimo name reported in 1956 by Orth to mean "cut"; so called "because the stream cuts into the mountains."

Ukinyaq Creek: stream, see Ukinyak Creek.

Ukinyuk Creek: stream, see Ukinyak Creek.

Ukivak: locality, see Ukivok.

Ukivok Island: island, see King Island.

Ukivok: village, pop. 30, on King Island, in Bering Sea W of Seward Peninsula, 43 miles S of Cape Prince of Wales, 64° 58' N, 168° 04' W; (map 111). Variant: King Island, Ookevok, Ookivok. Oukivak, Oukevok, Oukwak, Ovkevok, Ukivak, Ukivuk, Ukiwuk. Eskimo village reported by Dall (1877, p. 15); this was also the Eskimo name for King Island. Recorded in the 1880 Census as "Ookivok" by Petroff (1884, map). The 1890 Census (1893, p. 145) reported "The only Alaskan people residing in cliff dwellings * * * enlarged from the cavernous fissures that exist on the island," population 200. Balcom (1965, p. 32) wrote, "Most of the inhabitants moved to Nome and other places to find employment, as King Island is inaccessible part of the year because of its location and weather."

Ukivuk: locality, see Ukivok.

Ukiwuk Island: island, see King Island.

Ukiwuk: locality, see Ukivok.

Uklik Dunes: sand dunes, see Ooklik Dunes.

Ukmaggruk Mountain: mountain, see Angmakrok Mountain.

Uknadak Island: island, see Hog Island.

Uknadak: locality, see Uknodok.

Uknavik: locality, on right bank of Kuskokwim River, between Lower Kalskag and Tuklak, 40 miles SE of Russian Mission, Yukon-Kuskokwim Delta; 61° 25' N, 160° 37' W; (map 73). Variant: Gavimamut, Odogavigamut, Odogovigamut, Ogavik, Ogalvick, Ogalvik, Ogilvik, Okavigamut, Okhnagamiut, Okavigamut, Oogavigmute, Oogovigamute, Oogovik, Oogowigamute, Ougavik, Ugavik, Ugavigamiut, Ugovik. Although it is difficult to correlate names of the Eskimo villages along the Kuskokwim River on the early small-scale maps, this place appears to have been the same as the "Oogovigamute," population 206, listed in Petroff's 1880 Census. It is probable that E. W. Nelson, U.S. Signal Service, obtained the name for Petroff in January 1879. The 1890 Census listed "Ugavigamiut," population 57. W. S. Post, USGS, on his 1898 fieldsheet recorded "Oknavigamut" with a note "from Kilbuck" (Rev. J. H. Kilbuck, Moravian missionary); he also showed a Moravian Mission school located there. The mission, called "Ougavik," was established about 1893 (Schwalbe, 1951,

p. 46) and abandoned about 1906 (p. 94), because of a declining population caused “by a shifting river bed.” In his diary in 1930, Hrdlicka (1943, p. 317) wrote, “Oogovik, a place abandoned some years ago. A large fine site * * * twenty hollows from igloos.” See Akahamut and Nak.

Uknodok, Ostrov: island, see Hog Island.

Uknodok: locality, on Hog Island in Unalaska Bay, on N coast of Unalaska Island, Aleutian Islands; 53° 54' N, 166° 34' W; (map 23). Variant: Ouknadok, Uknadak, Ukunadok. Former Aleut village or camp published as “Ukunadok” by Rev. Coxe (1787, p. 167). Reported as “Uknadak” by Father Veniaminov (1840, v. 1, p. 188), who wrote that the village was the site of a dispute between the Unalaskans and the Aleuts from Unimak in which the latter were exterminated.

Ukodlint: locality, on Golovnin Bay, on N shore of Norton Sound, Seward Peninsula Highlands; 64° 27' N, 163° 00' W; (map 95). Former Eskimo village or camp reported in the 1890 Census (1893, p. 162).

Ukogamute: locality, see Ukak.

Ukolnoi Island: island, 7.5 miles long, 4 miles NE of Dolgoi Island, one of Pavlof Islands, Aleutian Range; 55° 13' N, 161° 38' W; (map 28). Variant: Kitagutak, Ugolnoi, Youkolny. Name reported as “O[strov] Youkolny,” meaning “stone coal” by Capt. Lutke (1836 p. 271), IRN. Shown as “Ukolnoi Island” on 1882 USC&GS chart. The Aleut name is “Kitagutak,” according to Father Veniaminov (1840, v. 1, p. 252).

Ukolnoi Rocks: rocks, between Ukolnoi and Wosnesenski Islands, 12 miles NE of Dolgoi Island, Aleutian Range; 55° 14' 30" N, 161° 27' 30" W; (map 28). Probably named for Ukolnoi Island; shown on a 1964 USC&GS chart.

Ukpik Slough: stream, see Ikpik Slough.

Ukpiksuk: locality, 3 miles N of Kivalina, Kotzebue-Kobuk Lowland; 67° 46' N, 164° 32' W; (map 128). Variant: Ookpicksook, Uqpiqsuq. Eskimo name meaning “there are willows” reported in 1966 by E. S. Burch.

Ukshivik: locality, on Barling Bay, on SE coast of Kodiak Island, 57° 11' N, 153° 22' W; (map 34). Variant: Ukshivikag-miut, Ukshivikak, Ukshivkag-miut. Former Eskimo village or camp published as “Ukshivikag-miut” on the Russian American Company's 1849 map. Baker (1906, p. 649) wrote, “Ukshi'vik means a winter village from Ukshuk (winter), and vik, the locative termination.”

Ukshivikag-miut: locality, see Ukshivik.

Ukshivikak: locality, see Ukshivik.

Ukshivkag-miut: locality, See Ukshivik.

Uksukalik: locality, along left bank of Black River, 10 miles ESE of Black, Yukon-Kuskokwim Delta; 62° 20' N, 165° 12' W; (map 76). Reported about 1946 by USGS.

Uksukfak River: stream, see Kinia River.

Ukuk: locality, on Nelson Island, Yukon-Kuskokwim Delta; 60° 30' N, 165° 00' W; (map 57). Former Eskimo village or camp reported in The 1890 Census (1893, p. 111).

Ukuksik: locality, see Amungna.

Ukunadok: locality, see Uknodok.

Ukushe Island: island, see Akusha Island.

Ukvigchagvag-mytut: locality, see Ukhvigchagvag.

Ukvikhtulig-mut: locality, see Opiktulik.

Ukvikhtulig-mytut: locality, see Opiktulik.

Ukviktulik: locality, see Opiktulik.

Ul'malyanok, M[ys]: point of land, see Ilmalianuk, Cape.

Ulach Island: island, see Ulak Island.

Ulaga Island: island, see Carlisle Island.

Ulahula River: river, see Hulahula.

Ulak Island: island, 6.5 miles long, Delarof Islands, Aleutian Islands; 51° 22' N, 178° 57' W; (map 16). Variant: Illak Island, Ioulakh Island, Ulach Island, Ulakh Island, Youlak Island. Name published by Lt. Sarichev (1826, map 3), IRN, as "Illak" apparently from the Aleut name "Ulak" or "Ulaq" meaning "house" or "everybody's house." The adopted name was published on a USC&GS chart.

Ulak Island: island, elev. 688 ft., 1 mile long, 3 miles E of Great Sitkin Island, Andreanof Islands, Aleutian Islands; 52° 02' 40" N, 175-54' 00" W; BGN 1890; (map 18). Variant: Ulakh Island, Uliadak Island, Ulyadak, Ostrov, Ulyadakh, Ostrov. Aleut name published as "Ulak lie," or "Ulak Island." by Capt. Lutke (1836, p. 323), IRN, and is apparently of the same derivation as "O[strov] Ulyadak," or "Ulyadak Island," shown on Russian Hydrog. Dept. Chart 1400 in 1848. The Aleut name "Ulaq" means "house."

Ulak Pass: water passage, 4 miles wide, between Ulak and Amatignak Islands, Delarof Islands, Aleutian Islands; 51° 18' 30" N, 179° 03' 00" W; (map 16). Name published by USC&GS in 1954 Coast Pilot (p. 459).

Ulakaia Hill: hill, 946 ft., 2 miles S of St. George, highest point on St. George Island, in Pribilof Islands, 56° 34' 40" N, 169° 34' 45" W; (map 38). Variant: Ahlucheyak Hill, Ahluckeyak Hill,

Alukeyak Hill, Oolakaiya Hill, Ulakiya. Aleut name shown as “Ahlukeyak” and “Ahlukeyak” by Elliott (1881, p. 18), meaning “rough back-bone”; as “Oolakaiya” by Joseph Stanley-Brown in 1891; and as “Ul'akiya” by Putnam (1903, p. 1016), USC&GS, meaning “high house,” because “the old native houses had rounded roofs similar to the shape of this hill.” These three names appear to be different spellings of the same Aleut name.

Ulakakogavik: village, see Utukakarvik.

Ulakh Island: island, see Ulak Island.

Ulakhta Harbor: anchorage, see Dutch Harbor.

Ulakiya: hill, see Ulakaia Hill.

Ulakta Head: point of land, N tip of Amaknak Island in Unalaska Bay, Aleutian Islands; 53° 55' 35" N, 166° 30' 45" W; (map 23). Variant: North Head, Ulakhta Head. Aleut name reported by George Davidson, USC&GS, in 1869. Baker (1906, p. 649), wrote “a name derived from Udakta (now Dutch) harbor, the change from Udakta to Ulakta being apparently accidental.”

Ulamashak Mountain: hill, see Oolamushak Hill.

Ulanach, Cape: point of land, see Chlanak. Cape.

Ulaneak Creek: stream, heads on NW slope of Blind Pass Mountain, flows SW 20 miles to Ambler River, Brooks Range; 67° 24' N, 156° 51' W; (map 126). Eskimo name reported to generally mean “wrong route” or “blind pass,” obtained at Shungnak and Kobuk by Orth in 1956.

Ularakartha Point: point of land, at Great East Rookery, NW of Tolstoi Point, on NE coast of St. George Island, in Pribilof Islands; 56° 36' N, 169° 29' W; (map 38). This Aleut name meaning “point opposite house,” was reported as “Ul'arakartha” by Putnam (1903, p. 1016), USC&GS.

Ulezara: locality, on Chukchi Sea coast near Cape Krusenstern, Kotzebue-Kobuk Lowland; 67° N, 163° W; (map 128). Variant: Ulezaramiut. Former Eskimo village or camp recorded as “Ulezaramiut” in the 1890 Census (1893, p. 162).

Ulezaramiut: locality, see Ulezara.

Uliadak Island: island, see Ulak Island.

Uliaga Island: island, 2 miles across, northernmost of Islands of Four Mountains, Aleutian Islands; 53° 04' 00" N, 169° 05' 30" W; (map 22). Variant: Kagalgin Island, Kigalga Island, Kigalgin Island, Ostrov Chegulak, Ostrov Ulyyaga. Aleut name reported in 1894 by the U.S. Navy Hydrog. Office. The island was recorded in 1847 as “O[strov] Chegulak,” or “Chegulak Island,” on Russian Hydros. Dept. Chart 1379, and “O[strov] Ulyyaga,” or “Ulyyaga Island,” by Capt. Tebenkov (1852, map 25, dated 1849), IRN.

Uliaga Island: island, see Carlisle Island.

Uliaga Pass: water passage, between Kagamil and Uliaga Islands, Aleutian Islands; 53° 02' 30" N, 169° 45' 00" W; (map 22). Name derived from Uliaga Island; published in 1944 Aleutian Coast Pilot (p. 72).

Uliagant Island: island, see Carlisle Island.

Ulinnoi Island: island, see Ulinoi Island.

Ulinnoy, Ostrov: island, see Ulinoi Island.

Ulinoi Island: island, 0.2 miles long, in Redoubt Bay, 9 miles SW of Sitka, on W coast of Baranof Island, Alexander Archipelago; 56° 56' 00" N, 135° 23' 40" W; (map 5). Variant: Ostrov Ulinnoy, Ulinnoi Island. Named in 1809 by the Russian navigator, Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Ulinnoy," or "Ulinnoy Island."

Ulitka Bay: bay, 0.8 miles wide, NW coast of Noyes Island, Alexander Archipelago; 55° 33' 35" N, 133° 43' 00" W; BGN 1923; (map 4). Named in 1923 by USC&GS; derived from Cape Ulitka. See Ulitka, Cape.

Ulitka, Cape: point of land, NW tip of Noyes Island, Alexander Archipelago; 55° 33' 45" N, 133° 43' 35" W BGN 1923; (map 4). Variant: Snail Cape. Russian word meaning "snail," given in 1923 by USC&GS.

Ulliaga Island: island, see Carlisle Island.

Ulliagin Island: island, see Carlisle Island.

Ulloa Canal: water passage, see Ulloa Channel.

Ulloa Channel: water passage, extends SE 10 miles, off Bucareli Bay, between Prince of Wales and Suemez Islands, Alexander Archipelago; 55° 19' N, 133° 17' W; BGN 1908; (map 4). Variant: Canal Ysla de Ulloa, Ulloa Canal. This feature was named "Canal Ysla de Ulloa," meaning "Canal of Ulloa Island," by the Spanish about 1792, possibly for Francisco de Ulloa, a Spanish explorer; shortened to Ulloa Channel in 1907 by E. F. Dickins, USC&GS. "Ulloa canal appears to have derived its name from being supposed to communicate with Cordova Bay, the land north of Cordova Bay being styled Isla Ulloa [Ulloa Island] in Galiano's Atlas [1802, map 3]" (U.S. Coast and Geodetic Survey, 1883, p. 97).

Ulloa Island: island, 0.7 miles long, in Ulloa Channel, 0.5 miles N of Dall Island, Alexander Archipelago, 55° 17' N, 133° 09' W; BGN 1908; (map 4). Named in 1907 by E. F. Dickins, USC&GS.

Ullyaga, Ostrov: island, see Carlisle Island

Ullyaga, Ostrov: island, see Uliaga Island.

Ullyagin Island: island, see Herbert Island.

Ulyagin, Ostrov: island, see Carlisle Island.

Ulnik: bay, see Marmot Bay.

Ulo Mountain: mountain, see Oolah Mountain.

Ulo Pass: pass, see Oolah Pass.

Ulo Valley: valley, see Oolah Valley.

Ulokagmiut: locality, see Ulokak.

Ulokak River: stream, see Holokuk River.

Ulokak: locality, in Kuskokwim district, probably near mouth of Holokuk River, Kilbuk-Kuskokwim Mountains; 61° 33' N, 158° 36' W; (map 72). Variant: Ulokagmiut. Former Eskimo village or camp recorded as "Ulokagmiut" in the 1890 Census (1893, p. 164). See Holokuk River.

Ulokat Hills: hills, 1,000 ft., extend 2.5 miles N of Black River, at S end of Kuzilvak Mountains, 31 miles E of Scammon Bay, Yukon-Kuskokwim Delta; 61° 57' N, 164° 38' W; (map 74). Eskimo name meaning "slate" or "slate knife [Ulo]," reported by G. R. Putnam, USC&GS, in 1899.

Ultramarine Glacier: glacier, on E side of Kenai Peninsula, heads in Sargent Icefield, trends NE 4 miles to its terminus, 1 mile SW of head of Blue Fiord, 14 miles NW of Chenega, Chugach Mountains; 60° 25' 30" N, 148° 18' 00" W; BGN 1910; (map 63). So named in 1908 by Grant (Grant and Higgins, 1913, p. 45), USGS, "because of the clear blue color of the ice near its end * * *."

Ulukak: locality, see Ulukuk.

Ulukluk Creek: stream, flows NE 19 miles to the Buckland River, 49 miles NE of Haycock, Nulato Hills; 65° 45' N, 160° 05' W; (map 109). Eskimo name reported in 1949 by the U.S. Army Corps of Engineers.

Uluksian Creek: stream, flows SW 15 miles to Noatak River 15 miles SW of its junction with Nimiuktuk River, Brooks Range; 67° 55' 05" N, 160° 12' 15" W; (map 127). Eskimo name meaning "[going the] wrong way," obtained in 1956 at Noatak by Orth.

Ulusrak Bluff: bluff, elev. 700 ft., on W bank of Colville River 3 miles N of its junction with Chandler River, Arctic Slope; 69° 30' N, 151° 30' W; (map 141). Eskimo name meaning "material for ulus [semi-circular knife]," reported in 1956 by T. E. Taylor, USGS.

Ulukuk Hills: hills, near the Unalakleet River, 30 or 40 miles E of Norton Sound, Nulato Hills, near 63° 55' N, 160° 15' W; (map 91). Eskimo name reported in 1866 by W. H. Dall.

Ulukuk River: stream, tributary to Unalakleet River, 30 or 40 miles E of Norton Sound, Nulato Hills, near 63° 55' N, 160° 15' W; (map 91). Variant: Kychchogljuk River, Reka Kuikhoglyuk,

Ryka Toukatl ili Tstsytsekatoyna, Toukatl Creek, Zyzek-twina River. Eskimo name reported in 1866 by W. H. Dall. The name "Ryka Toulatl ili Tstsytsekatoyna," meaning "Toukatl or Little Tstsytsek River," was reported in 1842-1844 by Lt. L. A. Zagoskin, IRN.

Ulukuk: locality, on Unalakleet River 20 or 30 miles E of Norton Sound, Nulato Hills; 63° 55' N, 160° 15' W; (map 91). Variant: Alookuk; Alukuk, Ulukak, Zlukak. Former Eskimo village or camp reported in 1842-44 by Lt. L. A. Zagoskin, IRN.

Uluruk Point: promontory, on SW coast of Nelson Island, 4 miles SE of Cape Vancouver, Yukon-Kuskokwim Delta; 60° 30' N, 165° 22' W; (map 57). Eskimo name meaning "old knife (ulu)" obtained in 1951 by USC&GS. Another source gives the meaning as "tongue."

Ulva Cove: cove, 0.4 miles across, N of Knob Point on E coast of Amatignak Island, Delarof Islands, Aleutian Islands; 51° 15' 40" N, 179° 04' 00" W; (map 16). Local name published on 1954 USGS map.

Ulyadak, Ostrov: island, see Ulak Island.

Ulyadakh, Ostrov: island, see Ulak Island.

Ulyaga Island: island, see Herbert Island.

Ulyaga, Ostrov: island, see Carlisle Island.

Ulyagan, Ostrov: island, see Carlisle Island.

Um-nok-a-luk-ta: stream, see Black River.

Um-ok-a-look-tok: stream, see Black River.

Umaatchak Peak: hill, see Umarachek Peak.

Umagachiak Hill: mountain, see Umagatsiak Hill.

Umagachyam, Kugoranga: stream, see Umagatsiak Creek.

Umagatsiak Mountain: mountain, 1,045 ft., 2 miles SE Kisemaraktuk Mountain and 17 miles N of Kivalina, Arctic Slope; 67° 58' N, 164° 34' W; (map 128). Variant: Oomagahchyak, Ummagaatsiaq. Eskimo name meaning "new heart" according to E. S. Burch in 1966.

Umagatsiak Creek: stream, flows SW 4 miles to Chukchi Sea, 20 miles SE of Kivalina, Kotzebue-Kobuk Lowland; 67° 32' N, 164° 01' W; Variant: Oomagahchyam Koogowranga, Umagachyam Kugoranga. Eskimo name reported by E. S. Burch, in 1966, to mean "new heart."

Umagatsiak Hill: mountain, 6 miles N of Imik Lagoon and 21 miles SE of Kivalina, Arctic Slope; 67° 34' N, 163° 36' W; Variant: Oomagahchyak, Ummagaatsiaq, Umagachiak Hill. Eskimo name reported by E. S. Burch, in 1966

Umagvirak: locality, patch of willows, along Omikviorok River, 12 miles SE of Kivalina, Kotzebue-Kobuk Lowland; 67° 40' N, 164° 08' W; (map 128). Variant: Oomagveerak. Eskimo name meaning “place where there is willows” reported in 1966 by E. S. Burch.

Umahachek Creek: stream, heads in Tahinichok Mountains at SW end of Mulgrave Hills, flows SW 4.5 miles to Chukchi Sea, 19 miles SE of Kivalina, Kotzebue-Kobuk Lowland; 67° 32' N, 164° 00' W; (map 128). Variant: Oommahahtchek Creek. Eskimo name meaning “heart,” according to USC&GS in 1950.

Umak Bight: cove, 0.6 miles across, Umak Island, Aleutian Islands; 51° 53' 45" N, 176° 00' 00" W; BGN 1986; (map 17). Name derived from Umak Island, and given by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

Umak Island: island, 6.5 miles long, one of Andreanof Islands, Aleutian Islands; 51° 53' N, 176° 02' W; BGN 1890; (map 17). Variant: Oumakh Island, Umakh Island, Yumakh Island. Aleut name published by Capt. Tebenkov (1852, map 28), IRN, as “O[strov] Umakh,” or “Umakh Island.”

Umak Pass: water passage, between Umak and Little Tanaga Islands, Aleutian Islands; 51° 51' 30" N, 176° 03' 00" W; BGN 1986; (map 17). Name derived from Umak Island, and given by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

Umak, Cape: point of land, on SW coast of Umak Island, Aleutian Islands; 51° 51' 40" N, 176° 03' 00" W; BGN 1936; (map 17). Name derived from Umak Island, and given by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

Umakalookta: stream, see Black River.

Umakh Island: island, see Umak Island.

Umalik: stream, see Omilak Creek.

Umanangula Bluffs: cliff, extends 1.3 miles along S coast of St. George Island, in Pribilof Islands; 56° 32' 10" N, 169° 36' 00" W; (map 38). Aleut name reported by Putnam (1903, p. 1016), USC&GS, as “Uman'angul'a,” meaning “cannot be seen”; so named “because they are not visible from the village * * *.”

Umanangula Lake: lake, 0.1 miles across, near S coast of St. George Island, in Pribilof Islands; 56° 32' 35" N, 169° 37' 00" W; (map 38). Aleut name listed by Putnam (1903, p. 1016), USC&GS, as “Uman'angu'lan-an'yi,” meaning “lake near Umanangula.”

Umarachek Creek: stream, flows SW 7 miles to Okpiksugruk Creek, 13 miles NW of Kivalina, Arctic Slope; 67° 52' 10" N, 164° 50' 55" W; BGN 1963; (map 128). Variant: Oakpisoorook River, Oomarachek Creek, Umarachiak Creek. Eskimo name meaning “heart,” according to USC&GS in 1950.

Umarachek Peak: hill, 500 ft., on N bank of Asikpak River, 12 miles NW of Kivalina, Arctic Slope; 67° 53' N, 164° 47' W; (map 128). Variant: Umaatchak Peak. Eskimo name meaning “heart,” according to USC&GS in 1950.

Umarachiak Creek: stream, see Umarachek Creek.

Umbrella Glacier: glacier, on Iliamna Volcano, in Chigmit Mountains, trends SW 6 miles to its 1958 terminus at head of Right Fork West Glacier Creek, Aleutian Range; 59° 58' N, 153° 14' W; (map 51). Named in 1924 by R. H. Sargent, USGS, "because of an overhang-like an umbrella."

Umbrella Reef: reef, 0.1 miles across, in Gulf of Alaska, E of mouth of Lawrence Creek, 14 miles SE of Cape Yakataga, Chugach Mountains; 60° 01' 25" N, 142° 02' 50" W; (map 65). Name reported by Moffit (1914, pl. 1), USGS.

Umeyalak Point: point of land, see Emekyalok Point.

Umga Island: island, 0.4 miles long, between Sanak Island and Alaska Peninsula, 14 miles SW of Deer Island, Aleutian Range; 54° 48' 10" N, 162° 43' 20" W; (map 25). Aleut name reported in 1847 as "O[strov] Umga," or "Umga Island," by the Russian Hydrog. Dept. on Chart 1379.

Umiak Bend: bend, on Wulik River, 8 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 47' N, 164° 17' W; (map 128). Variant: Oomeyak. Eskimo name referring to an incident here when a skin boat (umiak) was destroyed by rough water; reported in 1966 by E. S. Burch.

Umiak Mountain: mountain, see Igloo Mountain.

Umiat Lake: lake, 1 mile long, on N bank of Colville River, 1 mile NE of Umiat, Arctic Slope; 69° 23' 05" N, 152° 06' 00" W; (map 141). Named about 1945 by USGS geologists of the Naval Petroleum Reserve No. 4.

Umiat Mountain: hill, 843 ft., on N bank of Colville River, 2.5 miles NE of Umiat, Arctic Slope; 69° 23' 30" N, 152° 00' 00" W; BGN 1949; (map 141). Named about 1945 by USGS geologists of the Naval Petroleum Reserve No. 4.

Umiat: village, pop. 5, on N bank of Colville River, 75 miles S of Harrison Bay, Arctic Slope; 69° 22' N, 152° 08' W; (map 141). Eskimo name meaning "boats," a name applied to the locality because the river boats were cached there. The name was borrowed from the Eskimo when an emergency airfield was established there, and in 1945 the place became a supply and operation base for oil exploration in Naval Petroleum Reserve No. 4. The place is still maintained as a major airfield between Barrow and Fairbanks.

Umiukrak Hill: hill, see Sentinel Hill.

Umiurak Hill: hill, see Sentinel Hill.

Umivrak Hill: hill, see Sentinel Hill.

Umkumiut: locality, on Nelson Island, on Kangirlvar Bay, 9 miles SE of Cape Vancouver, Yukon-Kuskokwim Delta; 60° 30' N, 165° 12' W; (map 57). Variant: Umkumute, Umkumut. This is an Eskimo summer camp or village that had a population of 99 in 1950.

Umkumut: locality, see Umkumiut.

Umkumute: locality, see Umkumiut.

Umla Island: island, 0.7 miles long, between Sanak and Caton Islands, one of Sanak Islands, Aleutian Range; 54° 20' 55" N, 162° 27' 45" W; (map 25). Aleut name reported by Ferdinand Westdahl, USC&GS, commander of the Coast Survey steamer McArthur, who made surveys in this area in 1901.

Ummagaatsiaq: mountain, see Umagatsaiak Mountain.

Ummagaatsiaq: mountain, see Umagatsiak Hill.

Umnak Island: island, 70 miles long, one of Fox Islands, Aleutian Islands; 53° 15' N, 168° 20' W; BGN 1890; (map 22). Variant: Amnak Island, Amnuk Island, Isla de Omanaca, Oomanak Island, Oomnak Island, Oumnakh Island, Oumnak Island, Umyak Island. Aleut name reported in 1768 by Capt. Lt. Krenitzin and Lt. Levashev (Coxe, 1787, map p. 205), IRN. This island was called "Oomanak" by Capt. Cook (1785, v. 2, p. 504), RN, and "Umnak" by Father Veniaminov (1840, v. 1, p. 139). There is an old Aleut legend, as told by Ted Bank (1956, p. 227-228), that when the first Aleuts came to the islands there were no trees, as now, except on this island. There was one tree, with no branches or leaves, so tall that it disappeared in the clouds. The tree was twisted, and to the Aleuts it looked like the seaweed that they used to make fish lines; therefore, they called the island "Umnaqs" meaning "fish line." Visions told the people that the tree stood for the Aleut way of life, and if it were destroyed, the Aleut race would disappear forever. When the Russians came to the island, they cut down the tree to make a house for themselves, but they all died soon after. The Aleuts were afraid and built a house around the stump of the tree to protect it. Bank reports that this house is still there.

Umnak Lake: lake, 1.3 miles long, in SW part of Umnak Island, Aleutian Islands; 52° 56' 00" N, 168° 51' 40" W; BGN 1940; (map 21). So named in 1938 by USC&GS, "because it is the largest lake on Umnak Island."

Umnak Pass: water passage, between Umnak and Unalaska Islands, Aleutian Islands; 53° 22' N, 167° 50' W; (map 23). Variant: Umnakskoy. Aleut name published as "Pr[oliv] Umnakskoy," or "Umnak Strait," by Capt. Tebenkov (1852, map 25), IRN.

Umnak: village, pop. 20, on Umnak Island, 3 miles N of Nikolski, Aleutian Islands; 53° 16' N, 168° 13' W; (map 22). Aleut village listed in 1960 census.

Umnak: village, see Nikolski.

Umnakskoy: water passage, see Umnak Pass.

Umnokalukta: locality, on Black River, near its junction with Kobuk River, Kotzebue-Kobuk Lowland; 66° 55' N, 157° 30' W; (map 115). Former Eskimo fishing village reported in 1885 as "Um-nok-a-luk-ta" by Lt. J. C. Cantwell (in Healy, 1887, p. 28), USRCS. See Black River.

Umshaliuk Cape: point of land, see Sedanka Point.

Umyak Island: island, see Umnak Island.

Un-nah-tak: locality, see Unnatak.

Un-suz-ee: mountain, see Haystack Mountain.

Una, Lake: lake, 800 ft. long, on W coast of Woody Island, 2.2 miles SE of Kodiak, Kodiak Island; 57° 46' 25" N, 152° 21' 00" W; (map 34). Local name published in 1943 by USC&GS.

Unagtuligmut: locality, see Ungalik.

Unaguig Inlet: estuary, see Unakwik Inlet.

Unaguik Inlet: estuary, see Unakwik Inlet.

Unakagak: locality, see Unakak.

Unakagmut: locality, see Unakak.

Unakak: locality, on Ningaluk River near Hazen Bay, 32 miles NE of Cape Vancouver, Yukon-Kuskokwim Delta; 60° 54' N, 164° 48' W; (map 58). Variant: Oonakagamute, Ukak, Unakagak, Unakagmut. Former Eskimo village listed as "Oonakagamute," population 20, in the 1880 Census by Petroff (1884, p. 11); probably obtained by W. H. Nelson, U.S. Signal Service, who visited the village in December 1878.

Unakerair River: stream, see Unakserak River.

Unakserak River: stream, heads at Kutuk Pass, flows 25 miles SW to Alatna River, 21 miles S of Survey Pass, Brooks Range; 67° 33' N, 154° 08' W; BGN 1912; (map 125). Variant: Unakerair River. Eskimo name reported by P. S. Smith (1913), USGS.

Unaktolik River: stream, see Ungalik River.

Unaktolik: locality, see Ungalik.

Unakwik Bay: estuary, see Unakwik Inlet.

Unakwik Inlet: estuary, on S coast of Alaska, trends S 19 miles from terminus of Meares Glacier to Prince William Sound, 38 miles NE of Whittier, Chugach Mountains; 60° 53' 00" N, 147° 33' 15" W; (map 63). Variant: Unaquick Bay, Unaguig Inlet, Unaguik Inlet. Eskimo name reported in 1898 as "Unaguig Inlet" by Capt. Glenn (in Glenn and Abercrombie, 1899, p. 24), USA. Its present spelling was given by Grant and Higgins (1910, pl. 2), USGS.

Unakwik Peak: mountain, 3,229 ft., near head of Lafayette Glacier, 50 miles SW of Valdez, Chugach Mountains; 61° 00' 45" N, 147° 44' 30" W; BGN 1964; (map 69). Variant: Unawik Point. Eskimo name reported in 1908 by Grant and Higgins (1910, pl. 2), USGS.

Unakwik Point: point of land, at E side of entrance to Unakwik Inlet, 42 miles NE of Whittier, Chugach Mountains; 60° 53' 40" N, 147° 31' 00" W; (map 63). Eskimo name published on recent USGS map s; derived from nearby Unakwik Inlet.

Unalachleet River: stream, see Unalakleet River.

Unalachleet: village, see Unalakleet.

Unalakhlit: village, see Unalakleet.

Unalakleet River: stream, heads in Kaltag Mountains at 64° 20' N, 159° 16' W, flows SW 90 miles to Norton Sound S of Unalakleet, Nulato Hills; 63° 52' 10" N, 160° 47' 15" W; BGN 1919; (map 91). Variant: Oonalakleet River, Ounalaklik River, Reka Unalakhlit, Tsetseka, Unalachleet River, Unalaklik River. Eskimo name recorded in 1842-44 as "R[eka] Unalaklik" by Lt. L. A. Zagoskin, IRN; spelled "Unalakhlit" in 1852 on Russian Hydrog. Dept. Chart 1455, which also gives the Indian name as "Tsetseka."

Unalakleet: village, pop. 574, on Norton Sound, N of mouth of Unalakleet River, Nulato Hills; 63° 52' 25" N, 160° 47' 00" W; BGN 1919; (map 91). Variant: Oonalakleet, Oonalaklik, Ounalakleet, Ounalaklik, Unalachleet, Unalakhlit, Unalaklik, Unalakhlit. Eskimo name spelled "Ounalaklik" by Lt. L. A. Zagoskin, IRN, on an 1850 map. Ivan Petroff lists "Oonalakleet," population 100, in the 1880 Census, population 175 in 1890; 247 in 1910; 285 in 1920; 261 in 1930; 329 in 1939; and 469 in 1950. Because it is the terminus of a long used winter route from Anvik on the Yukon, the inhabitants are a mixed race of Eskimo and Indian. The Unalakleet post office was established in 1901 (Ricks, 1865, p. 68).

Unalaklik River: stream, see Unalakleet River.

Unalaklik: village, see Unalakleet.

Unalakhlit, Reka: stream, see Unalakleet River.

Unalakhlit: village, see Unalakleet.

Unalashka Bay: bay, see Unalaska Bay.

Unalashka: island, see Unalaska Island.

Unalaska Bay: bay, 7 miles across, on NE coast of Unalaska Island, Aleutian Islands; 53° 58' N, 166° 30' W; BGN 1905; (map 23). Variant: Baie de Iliuliuk, Baie du Capitaine, Captains Bay, Captains Harbor, Kapitanskaya Gavan, Unalashka Bay. Named by George Davidson, USC&GS, in 1867. William H. Dall, USC&GS, called it Captain's Bay in 1875, but the USBF reverted to "Unalaska Bay" in 1888. This feature was published by Lt. Sarichev (1826, map 14, dated 1792), IRN, as "Kapitanskaya Gavan," or "Captains Harbor," in honor of Lt. Michael Levashev, IRN, who spent the winter of 1768-69 in what is now known as Captains Bay, an arm of Unalaska Bay.

Unalaska Harbor: bay, see Iliuliuk Bay.

Unalaska Harbor: harbor, see Iliuliuk Harbor.

Unalaska Island: island, 20 miles long, one of Fox Islands, Aleutian Islands; 53° 35' N, 166° 50' W; BGN 1905; (map 23). Variant: Aavn Alaska, Agunalaksha, Auan Alaska, Nagounalaska, Nagunalaska, Oonalashka, Ounalachka, Unalashka. This island, largest of the eastern Aleutians, was first discovered by the Russians in about 1760. They called it both "Unalashka" and "Agunalashka" (Coxe, 1787, chap. 8-10). The Aleut name was published by Lt. Sarichev (1826, map 14, dated 1792), IRN, as "Ostrov Unalashka," or "Unalashka Island," which Baker (1906, p. 652) says is "a contraction of the true name "Nagounalaska' * * *." Father Veniaminov (1840, v. I, p. 158), who lived on the island for ten years, wrote that the Aleuts called it "Na-u-an Alakhska," meaning "this here Alakhska." According to R. H. Geoghegan, the name comes from the word "unanak" which is the name the Fox Islanders use to designate themselves.

Unalaska Lake: lake, 0.5 miles long, S of Iliuliuk Bay, in Unalaska Bay, on NE coast of Unalaska Island, Aleutian Islands; 53° 52' 05" N, 166° 31' 25" W; (map 23). Named for Unalaska Island and published in 1951 on a USGS map.

Unalaska: village, pop. 218, on S shore of Unalaska Bay, Unalaska Island, Aleutian Islands; 53° 52' 30" N, 166° 32' 00" W; BGN 1934; (map 23). Variant: Gavanskoe, Gavanskoi, Ilijjuljuk, Iliuliuk, Ilyulyuk, Ilookook, Oonalaska, Ounalaska. Aleut village reported as "Ilyulyuk" by Lt. Sarichev (1826, map 14), IRN, on a map dated 1792. R. H. Geoghegan considers the name to be derived from the Aleut word "ilulaq," meaning "dwelling together harmonious[ly]." The village developed into the commercial center of the Aleutians in the 19th century and the name "Unalaska" derived from the island, became popular usage. The village population was 196 in 1831; 406 in 1880; 317 in 1890; 281 in 1910; 299 in 1920; 226 in 1930; 298 in 1939; and 173 in 1950. The Ounalaska post office was established in 1888; name changed to Unalaska in 1898.

Unalga Bight: cove, 0.7 miles across, Bay of Islands, Adak Island, Aleutian Islands; 51° 47' 10" N, 176° 48' 00" W; (map 17). Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1933 "for the U.S.S. Unalga, or for one of the other Alaskan features after which the ship was named."

Unalga Cove: bay, see Malga Bay.

Unalga Island: island, 1.5 miles across, one of Delarof Islands, Aleutian Islands; 51° 34' 40" N, 179° 03' 00" W; (map 16). Variant: Ostrov Unalga, Ostrov Zapadnyy Unalga. Name of Aleut origin; published in 1848 on Russian Hydrog. Chart 1400, as "O[strov] Zapadnyy Unalga," or "western Unalga island," to distinguish it from the Unalga Island between Akutan and Unalaska Islands; published by Capt. Tebenkov (1852, map 28), IRN, as "O[strov] Unalga."

Unalga Island: island, 4.5 miles long, one of Fox Islands between Akutan and Unalaska Islands, Aleutian Islands; 53° 58' 30" N, 166° 08' 30" W; (map 23). Variant: Oonella Island, Ostrov Oonalgi, Ounalga Isle. Aleut name reported by Rev. Coxe (1787, p. 209), who took it from the 1768-69 logs of Capt. Lt. P. K. Krenitzin and Lt. M. Levashev. Published as "O[strov] Unalga," or "Unalga Island," by Lt. Sarichev (1826, map 14, dated 1792), IRN; reported as

“Oonella Island” by Capt. Cook (1778, v. 2, p. 425), RN; as “Ostrov Oonalgi” by Commodore Billings (1792, p. 232), IRN; and as “Ounalga Isle” by Capt. Lutke (1836, p. 288), IRN.

Unalga Pass: water passage, between Unalga and Unalaska Islands, Aleutian Islands, 53° 58' N, 166° 14' W; (map 23). Variant: Canal de Camacho, Ounalga Pass. Aleut name derived from Unalga Island and reported by Capt. Lutke (1836, p. 283), IRN, as “Detroit d'Ounalga,” or “Ounalga Strait.” This feature was also published by Father Veniaminov (1840, v. 1, p. 19) as “P[roliv] Unalginskiy,” or “Unalga Strait.” It was called “Canal de Camacho” by Martinez about July 22, 1788, in honor of one of his pilots (Wagner, 1937, p. 437).

Unalga: locality, on Malga Bay, on NW coast of Unalga Island, Aleutian Islands; 53° 59' N, 166° 10' W; (map 23). Variant: Oonalga, Oonalgenskoi, Unalginskoe. Former Eskimo village recorded as “Unalginskoe” by Father Veniaminov (1840, v. 2, p. 203). Listed in the 1880 census as “Oonalga.” The population in 1880 was 23.

Unalginskoe: locality, see Unalga.

Unalischachwak, Cape: point of land, see Unalishagvak Cape.

Unalishagvak, Cape: point of land, on E coast of Alaska Peninsula, E of Jute Bay, 47 miles W of Karluk, Aleutian Range; 57° 32' 45" N, 155° 43' 40" W; (map 35). Variant: Cape Unalischachwak, Cape Unalishakhvak, Cape Unalishogvak. Native name published by Capt. Tebenkov (1852, map 22), IRN, as “M[ys] Unalishagvak,” or “Cape Unalishagvak.”

Unalishakhvak, Cape: point of land, see Unalishagvak, Cape.

Unalishogvak, Cape: point of land, see Unalishagvak, Cape.

Unaluk River: stream, flows SW 16 miles to Kinegnak River, 1 mile E of Kinegnak and 24 miles NE of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 50' N, 161° 38' W; BGN 1938; (map 39). Eskimo name reported in 1938 by J. B. Mertie and Gerald FitzGerald, USGS.

Unana, Mount: mountain, 5,490 ft., 4 miles NE of Shelter Cove on Russell Fiord and 23 miles NE of Yakutat, St. Elias Mountains; 59° 45' 35" N, 139° 13' 05" W; (map 46). Name reported by Russell (1892, p. 88), USGS.

Unangashik: locality, near Strogonof Point, SW entrance to Port Heiden, Bristol Bay Lowland; 56° 50' N, 158° 57' W; (map 30). Variant: Oonangashik, Oonongashik. Former Eskimo village listed as “Oonangashik” and “Oonongashik” in the 1880 Census with a population of 37; 190 in 1890.

Unanimous Creek: stream, heads on Eureka Dome, flows SE 1.2 miles to Eureka Creek, 20 miles S of Rampart, Yukon-Tanana Highlands; 65° 12' 15" N, 150° 12' 30" W; (map 106). Prospectors' name reported in 1931 by J. B. Mertie, USGS.

Unaquick Bay: estuary, see Unakwik Inlet.

Unaska Island: island, see Yunaska Island.

Unastal Island: island, see Guide Island.

Unatkuyuk Island: island, see Wosnesenski Island.

Unatlotly Creek: stream, heads in lake and flows SE 10 miles to Koyukok River, 2 miles SW of Allakaket, Hogatza Highlands; 66° 33' N, 152° 42' W; (map 117). Name reported in 1885 by Lt. Allen (1887, p. 99), USA.

Unatlotly: bluff, on N bank of Koyukok River, 1 mile SW of Allakaket, Hogatza Highlands; 66° 34' N, 152° 41' W; (map 117). Variant: Nishthla-tot-li, Unutlatly. Koyukan Indian name obtained in 1885 by Lt. Allen (1887, p. 98), USA. The area on top of the bluff was a trading place of the Eskimos and Indians. Archdeacon Stuck (1917, p. 340) gave the name as "Nish-thlatot-li."

Unatolik: locality, see Ungalik.

Unavikhshak, Ostrov: island, see Unavikhshak Island.

Unavikhshak Island: island, 2 miles long, S of Alaska Peninsula, 4 miles E of Cape Kumliun and 27 miles SW of Cape Kunmik, Aleutian Range; 56° 30' N, 157° 43' W; (map 31). Variant: Ile Ouna-nigh-mack, Ostrov Unavikhshak. Eskimo name published as "I[le] Ounanighmack" by von Krusenstern (1827, map 20), IRN, and as "O[strov] Unavikhshak" by the Russian Hydrog. Dept. (1847, Chart 1379).

Unawik Point: mountain, see Unakwik Peak.

Uncle Sam Creek: stream, flows E 13 miles to Tolovana River, 35 miles SE of Rampart, Tanana Lowland; 65° 09' 30" N, 149° 19' 30" W; (map 105). Named by prospectors; published in 1906 by USGS.

Uncle Sam Creek: stream, flows S 3.7 miles to Pine Creek, 5 miles NE of Solomon, Seward Peninsula Highlands; 64° 36' N, 164° 18' W; (map 95). Prospectors' name shown on Arthur Gibson's "Map of Nome Precinct" dated 1904.

Uncle Sam Creek: stream, flows SW 8 miles to McCoy Creek, 28 miles NW of Big Delta, Yukon-Tanana Highlands; 64° 29' N, 146° 21' W; (map 101) Prospectors' name; reported in 1910 by USGS (Capps, 1912, pl. 1).

Uncle Sam Creek: stream, see Sam Patch Creek.

Uncle Sam Mountain: mountain, 1,297 ft., 7 miles NE of Solomon, Seward Peninsula Highlands; 64° 37' N, 164° 16' W; (map 95). Local name reported in 1905 by T. G. Gerdine, USGS.

Uncompahgre Creek: stream, flows N 4 miles to Charley River 12 miles S of that stream's junction with Yukon River, Yukon-Tanana Highlands; 65° 09' N, 142° 53' W; (map 103). Probably named by prospectors from the mining area of southwestern Colorado, where this Ute Indian name was common; from an unpublished map by E. J. Chamberlain, dated 1902.

Under Cloud Mountain: peak, 4,005 ft., 4.5 miles NW of Arctic Village, Brooks Range; 68° 11' N, 145° 36' W; (map 136). Translation of a Kutchin Indian name reported in 1956 by T. E. Taylor, USGS.

Underhill Creek: stream, flows W 10 miles to Stony River 15 miles NW of its junction with Telaguana River, 65 miles NW of Lake Clark, Lime Hills; 61° 14' N, 154° 44' W; (map 71). Prospectors' name published in 1951 by USGS.

Unga Cape: point of land, SE tip of Unga Island, in Shumagin Islands, Aleutian Range; 55° 08' 10" N, 160° 31' 30" W; (map 28). Variant: Cape Unga. Named in 1888 by USBF; published in 1916 Coast Pilot (p. 180).

Unga Creek: stream, heads on N slope of Tulik Volcano, flows SE 4.5 miles to the Pacific Ocean, on NE coast of Umnak Island, Aleutian Islands; 53° 20' 10" N, 167° 58' 40" W; (map 23). Name published by USGS (Byers, 1959, pl. 41). This name may have been derived from an Aleut word and arbitrarily "clipped" for convenience. See Geoghegan (1944, p. 123).

Unga Harbor: cove, see Delarof Harbor.

Unga Island: island, 15 miles long, largest and most important of Shumagin Islands, Aleutian Range; 55° 15' N, 160° 40' W; (map 28). Variant: Ostrov Unga, Ounga Island. Aleut name reported as "Ounga" in 1827 by Adm. A. J. von Krusenstern, IRN; in 1840 Veniaminov (v. 1, p. 254), gave the name "O[strov] Unga."

Unga Islands: islands, see Shumagin Islands.

Unga Reef: reef, in Popof Strait, in Shumagin Islands, Aleutian Range; 55° 20' 20" N, 160° 31' 25" W; (map 28). Named in 1872 by W. H. Dall.

Unga Spit: spit, N tip of Unga Island, in Shumagin Islands, Aleutian Range; 55° 24' 30" N, 160° 43' 30" W; (map 28). Variant: Narrow Cape, Mys Tonki. Local name published by USC&GS in 1926 Coast Pilot (p. 199). Called "M[ys] Tonki," or "narrow cape," on Russian Hydrog. Dept. Chart 1379 (1847) and listed as Narrow Cape by Baker (1906, p. 454), USGS. Recent maps show the point to be fairly wide.

Unga Strait: water passage, between Unga Island and S part of Alaska Peninsula, Aleutian Range; 55° 25' N, 160° 30' W; (map 28). Named in 1872 by W. H. Dall.

Unga: village, pop. 43, on Delarof Harbor, on SE coast of Unga Island, in Shumagin Islands, Aleutian Range; 55° 11' 00" N, 160° 30' 10" W; (map 28). Variant: Delarof, Delarov, Delarovskoi, Oongenskoi, Ounga, Ougnagok, Ugnasik. Aleut village reported as "Ougnagok" by F. P. Lutke in 1836. According to Petroff (1884, p. 35) Father Ioann Veniaminov called it "Delarov" in 1833. See Delarof Harbor. The population was 116 in 1833; 185 in 1880; 159 in 1890; 108 in 1910; 313 in 1920; 150 in 1930; 152 in 1939; and 107 in 1950. The "Ounga" post office, established in 1888, changed its name to Unga in 1894; discontinued in 1958 (Ricks, 1965, p. 49, 68).

Ungalak Mountain: mountain, 1,553 ft., N of Bend Mountain, 10 miles SW of Russian Mission, Yukon-Kuskokwim Delta; 61° 41' 30" N, 161° 33' 15" W; (map 73). Eskimo name reported by USC&GS in 1948.

Ungalambingoi: dunes, see Oongalambingoi Dunes.

Ungalik River: stream, heads on Traverse Peak, flows SW 90 miles to Norton Bay at Ungalik, Nulato Hills; 64° 34' N, 160° 55' W; (map 96). Variant: Oungaklitalik River, Unaktolik River, Ungaliktalik River, Unoktolik River. Eskimo name given in 1880 by Ivan Petroff as "Oungaklitalik R." See Ungalik.

Ungalik: locality, on SE shore of Norton Bay near mouth of Ungalik River, Nulato Hills; 64° 33' N, 160° 53' W; (map 96). Variant: Oonakhtolik, Ounag-touli, Unagtuligmut, Unaktolik, Unatolik, Ungaliktalik, Ungawaktolik, Unoctolik, Unoktolik. Former Eskimo village reported in 1842-44 as "Ounag-touli" and "Unagtuligmut," by Lt. L. A. Zagoskin, IRN. In the 1880 Census, Ivan Petroff listed "Oonakhtolik," population 15. The name is now applied to a placer mine several miles upstream.

Ungaliktalik River: stream, see Ungalik River.

Ungaliktalik: locality, see Ungalik.

Ungalikthluk River: stream, heads at 59° 15' N, 159° 45' W, flows SW 40 miles to Togiak Bay E of Rocky Point, 13 miles SE of Togiak, Kilbuck-Kuskokwim Mountains; 58° 54' N, 160° 10' W; (map 39). Variant: Kukayachagak River, Nukayachagak Creek, Nukayachagak River. Eskimo name obtained about 1948 by USGS from Frank Waskey, local trader and prospector.

Ungalikthluk River: stream, see Negukthlik River.

Ungalikthluk: locality, on left bank of Ungalikthluk River, 12 miles SE of Togiak, Kilbuck Kuskokwim Mountains; 58° 56' N, 160° 08' W; (map 39) Eskimo name reported in 1948 by USC&GS. Ivan Petroff showed a village symbol in this area on an 1881 map, but he failed to give a name.

Ungalukthluk River: stream, see Negukthlik River.

Ungalukuk River: stream, see Negukthlik River.

Ungashik: village, see Ugashik.

Ungay Bay: bay, see Alimuda Bay.

Ungayak Hill: hill, see Oongayuk Hill.

Ungaymilud Bay: bay, see Alimuda Bay.

Ungayukaukurnik: mountains, see Parents Mountains.

Ungeeleganjiak: stream, see Reed River.

Ungeeletargeeak: stream, see Reed River.

Ungluayagat Mountain: mountain, 1,400 ft., E of Goodnews Lake, 45 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 28' N, 160° 30' W; (map 53). Eskimo name reported to mean "little nest" referring to nests of the eagles located on the mountain. This name was obtained at Goodnews about 1951 by J. M. Hoare, USGS.

Ungulak: hill, see Ungulungwak Hill.

Ungulukthluk River: stream, see Negukthlik River.

Ungulungwak Hill: hill, 377 ft., 35 miles S of Kwiguk, Yukon-Kuskokwim Delta; 62° 17' N, 164° 14' W; (map 77). Variant: Ungulak. Eskimo name obtained in 1899 by G. R. Putnam, USC&GS.

Unguriak Camp: locality, Eskimo camp, on Ongoveyuk Lagoon, 29 miles SE of Savoonga, St. Lawrence Island; 63° 27' N, 169° 47' W; (map 93). Variant: Franks Camp, Oongooriak Camp, Oongooviak Camp, Sepilla Camp. Eskimo name reported in 1932 by O. W. Geist, Univ. of Alaska, as "Oongooviak."

Ungwaktolik: locality, see Ungalik.

Ungyat: point of land, see Vngyat Point.

Unietkhalen: bay, see Uniktali Bay.

Unigun: islands, see Four Mountains, Islands of.

Uniktali Bay: bay, 0.7 miles across, part of Beaver Inlet, E coast of Unalaska Island, Aleutian Islands; 53° 47' 15" N, 166° 30' 00" W; (map 23) Variant: Mountain Bay, Uniktalia, Unietkhalen. Aleut name called "Zal[iv] Unytkhalen," or "Unytkhalen Bay," by Lt. Sarichev (1826 map 14), IRN. This name possibly comes from the Aleut word "unaxtak" which, according to R. H. Geoghegan, means "broken." This bay was called "Mountain Bay" by USBF in 1888.

Uniktalia: bay, see Uniktali Bay.

Unilak: locality, see Omilak.

Unimak Bay: bight, see Unimak Bight.

Unimak Bight: bight, extends 15 miles from Cape Lutke to Cape Rukavitsie, on S coast of Unimak Island, Aleutian Islands; 54° 35' N, 164° 10' W. BGN 1965; (map 24). Variant: Toogamak Tougamak, Tugamak, Unimak Bay. Named about 1885 by USC&GS for Unimak Island. Its Aleut name was recorded by Father Veniaminov (1840, v. 1, p. 211) as "Tyramak" ["Tugamak"].

Unimak Cove: bay, 0.7 miles across, on N central coast of Sanak Island, Aleutian Range; 54° 27' 30" N, 162° 39' 30" W; (map 25). Name derived from Unimak Island; reported by Ferdinand Westdahl, USC&GS, commander of the Coast Survey steamer McArthur, who made surveys in this area in 1901.

Unimak Island: island, 67 miles long and 22 miles wide, in Fox Islands, Aleutian Islands; 54° 45' N, 165° 00' W; BGN 1890; (map 24). Variant: Don Jose de Flores, Ile de Ounimak, Isla San Gonzalo, Oonemak Island, Oonimak Island. Aleut name recorded by Capt. Cook (1785. v. 2, p. 426), RN, July 2, 1778; it is called by the people of these parts "Oonemak, * * *." Esteban Jose Martinez called the island "Don Jose de Flores" in 1788; and Lopez de Haro called it "Isle San Gonzalo" on July 16, 1788, probably derived from his Christian name (Wagner, 1937, p. 500).

Unimak Pass: water passage, 13 miles wide, between Unimak Island and Krenitzin Islands, Aleutian Islands; 54° 20' N, 164° 50' W; BGN 1890; (map 24). Variant: Ounimak Detroit, Proliv Unimaskiy. Capt. Lutke (1836, p. 304-5), IRN, reports this name as "Ounimak detroit" [strait] probably for convenience after the island name. Capt. Tebenkov (1852, map 26), IRN, shows "Proliv Unimaskiy" meaning "Unimak Strait." Unimak Pass is one of the Principal ship passages through the Aleutian Islands.

Unimak: locality, at SW end of Unimak Island, Aleutian Islands; 54° 28' N, 164° 40' W; (map 24). Village reported in the 1940 Census with a population of 88.

Unimaskiy, Proliv: water passage, see Unimak Pass.

Union Bay: bay, near mouth of Ernest Sound, on NW coast of Cleveland Peninsula, 42 miles NE of Craig, Alexander Archipelago; 55° 46' N, 132° 13' W; (map 4). Name appears prior to 1880 on unpublished charts (Baker, 1906, p. 653).

Union City: locality, see New Boston.

Union City: locality, site of prospectors' camp at junction of Koyukuk River and its South Fork, 20 miles E of Allakaket, Kanuti Flats; 66° 35' N, 151° 56' W (map 117). Variant: Union. Name reported in 1899 by G. H. Wonson, Master of the steamer Dorothy, on his manuscript map of the Koyukuk River. One of several temporary camps established by prospectors caught on the river during the winter of 1898-99.

Union Creek: ravine, see Union Gulch.

Union Creek: stream, flows N 1 mile to Teddys Fork, 10 miles SW of Eagle, Yukon-Tanana Highlands; 64° 41' N, 141° 22' W; (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff of Fort Cudahy, Canada.

Union Creek: stream, flows NW 8 miles to Troublesome Creek, 17 miles E of Rampart, Yukon-Tanana Highlands; 65° 30' N, 149° 33' W; (map 105). Named by prospectors; reported in 1908 by USGS (Covert and Ellsworth, 1909, pl. 5).

Union Creek: stream, flows W 1.7 miles to Kvichak River, 1 mile S of Levelock and 58 miles E of Dillingham, Bristol Bay Lowland; 59° 05' 45" N, 156° 50' 30" W; (map 52). Local name published in 1952 by USGS.

Union Creek: stream, flows WSW 2 miles to Bonanza River, 17 miles NW of Solomon, Seward Peninsula Highlands; 64° 45' 40" N, 164° 45' 30" W; (map 95). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Union Gulch: ravine, trends NW 1.3 miles to Fourth of July Creek 7 miles WSW of that stream's junction with Yukon River and 33 miles NW of Eagle, Yukon-Tanana Highlands; 65° 07' 45" N, 141° 59' 50" W; (map 103). Variant: Union Creek. "Union Creek" was reported in 1938 by Mertie (1942, p. 250), USGS.

Union Gulch: ravine, trends SW 0.7 miles to Buster Creek, 9 miles NE of Nome, Seward Peninsula Highlands; 64° 36' N, 165° 13' W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Union Point: point of land, W tip of Cleveland Peninsula, between Union Bay and Vixen Inlet, Alexander Archipelago; 55° 48' 10" N, 132° 11' 05" W; (map 4). Named by local fishermen and reported in 1904 by H. C. Fassett, USBF.

Union: locality, see Union City.

Unishka Island: island, 0.3 miles long, 5 miles N of Goddard, on W coast of Baranof Island, Alexander Archipelago; 56° 54' 30" N, 134° 22' 30" W; (map 5). Variant: Ostrov Unishka. Named in 1809 by the Russian navigator, Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Unishka," or "Unishka Island."

Unishka, Ostrov: island, see Unishka Island.

University of Alaska Range: mountain range, see University Range.

University Peak: peak, 15,030 ft., at E end of University Range, 4 miles SW of Mount Bona and 38 miles SE of McCarthy, St. Elias Mountains; BGN 1953; 61° 20' N, 141° 48' W; (map 67). Variant: Peak A. Named in 1952 by Terris Moore, then President of the Univ. of Alaska, who wrote: "I herewith claim by virtue of prior discovery to name two peaks about five and ten miles west-southwest of Mount Bona. I informed regents of the University of my intention to name one of these peaks University Peak for the University of Alaska."

University Range: mountain range, elev. 7,000 to 15,000 ft., trends 20 miles SE from Chitistone River to University Peak, 38 miles E of McCarthy, St. Elias Mountains; BGN 1966; 61° 20' N, 141° 47' W (SE end) 61° 29' N, 142° 18' W (NW end); (map 67). Variant: University of Alaska Range. Named in 1965 by Terris Moore, former President of the Univ. of Alaska, for the Univ. of Alaska.

Unknown Glacier: glacier, heads near Alaska-Canada Boundary Peak 94 about 58° 47' N, 134° 05' W; trends SE about 3.5 miles to Hades Highway, 33 miles NNE of Juneau, Coast Mountains; 58° 42' 30" N, 133° 56' 30" W; (map 12). Local name reported in 1960 by USGS.

Unlucky Island: island, 900 ft. long, between Doyle and Trocadero Bays, on W coast of Prince of Wales Island, Alexander Archipelago; 55° 24' 00" N, 133° 03' 15" W; (map 4). Variant: Isla Desgraciada, La Desgraciada. Translation of the name "Isle Desgraciada" given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle.

Unmanokuk Creek: stream, flows NW 5 miles to Kobuk River, 25 miles NW of Selawik, Hogatza Highlands; 66° 55' N, 160° 27' W; (map 114). Eskimo name obtained in 1955 by U.S. Army Corps of Engineers.

Unnamed Peak: peak, see Centurian Peak.

Unnatak: locality, on N bank of Kobuk River near mouth of Ambler River, Brooks Range; 67° 06' N, 157° 48' W; (map 126). Variant: Un-nah-tak. Former Eskimo village or camp reported in 1885 as "Un-nah-tak," by Lt. J. C. Cantwell, USRCS (Baker, 1906, p. 654).

Uno Basin: basin, 1 mile across, near head of Uno Creek, 1.4 miles NE of Shoup Bay and 9.8 miles N of Valdez, Chugach Mountains; 61° 14' 15" N, 146° 32' 30" W; (map 68). Local name reported in 1909 by U. S. Grant and D. F. Higgins, USGS.

Uno Creek: stream, flows SW 2.5 miles to head of Shoup Bay, and 11 miles NW of Valdez, Chugach Mountains; 61° 08' 40" N, 146° 35' 15" W; (map 68). Local name reported in 1909 by U. S. Grant and D. F. Higgins, USGS.

Unoctolik: locality, see Ungalik.

Unoktolik River: stream, see Ungalik River.

Unoktolik: locality, see Ungalik.

Unowhokkuik Creek: stream, flows S 5 miles to Hardluck Bay, 46 miles N of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 42' N, 158° 48' W; (map 52). Eskimo name recorded as "U-now-hok-kuik" on a 1910 manuscript map by H. C. Fassett, USBF.

Unroojithok Lake: lake, 0.5 miles across, 3 miles N of Kimiksthek Hill, 40 miles NW of Cape Mendenhall, Nunivak Island; 60° 09' N, 167° 04' W; (map 57). Variant: Unruchithak Lake. Eskimo name reported to mean "stomach" in 1949 by USC&GS.

Unruchithak Lake: lake, see Unronjithok Lake.

Unsuzi Mountain: mountain, see Haystack Mountain.

Unuk River: stream, heads in Canada, on E side of Mount Stoeckl, flows SW 28 miles to head of Burroughs Bay, Coast Mountains; 56° 05' N, 131° 05' W; (map 7). Variant: Junock River, Junuk River. Indian name reported by USC&GS between 1880 and 1900. M. W. Gorman (in Baker, 1906, p. 654) says "The correct name of this river is 'Junuk' or 'Junock'."

Unuk: locality, see Uinuk.

Unukpay Cliff: cliff, see Imnakpak Cliff.

Unukpay: promontory, see Thompson, Cape.

Unuqpay: promontory, see Thompson, Cape.

Unutlatly: bluff, see Unatlotly.

Up-nut: stream, see Anikovik River.

Upapak Cape: point of land, see Upapak Point. **Upapak Point:** point of land, 10.5 miles S of Gambell, W coast of St. Lawrence Island; 63° 38' 30" N, 171° 47' 00" W; BGN 1951; (map 93). Variant: Apapok Cape, Cape Apapak, Upapak Cape. Eskimo name meaning "potlach" [apapak], reported in 1932 by O. W. Geist, Univ. of Alaska.

Uphoon Mouth: stream mouth, see Apoon Mouth.

Uphoon Pass: stream, see Apoon Pass.

Upiktalik: locality, see Opiktulik.

Upkuarok Creek: stream, on Seward Peninsula, flows NW 19 miles to Arctic Lagoon on Chukchi Sea, 48 miles NW of Teller, Kotzebue-Kobuk Lowland; 65° 55' N, 166° 57' W; (map 111). Prospectors' name published in 1956 by USGS.

Upland Creek: stream, see Shepard Creek.

Upnuck Lake: lake, see Upnuk Lake.

Upnuk Lake: lake, 10 miles long, among Tikchik Lakes, 5 miles N of Chikuminuk Lake and 112 miles SW of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 22' N, 158° 47' W; BGN 1932; (map 60). Variant: Upnuck Lake, Uppnuk Lake. Eskimo name reported in 1915 by USBF.

Upper Arm Cabin Cove: cove, 0.3 miles across, part of Cabin Cove, on E coast of Kagalaska Island, Aleutian Islands; 51° 50' 00" N, 176° 18' 45" W; BGN 1936; (map 17). Variant: North Arm Cabin Cove. Descriptive name given in 1934 by members of the U.S. Navy Aleutian Island Survey Expedition.

Upper Basin: valley, 1.2 miles long, along upper course of Nugget Creek, 3 miles E of Mendenhall Lake and 9 miles N of Juneau, Coast Mountains; 58° 26' N, 134° 26' W; (map 11). Name published in 1962 by USGS.

Upper Boulder Creek: stream, flows NW 6 miles to Salcha River 11 miles E of that stream's junction with its North Fork and 46 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 40' N, 144° 57' W; (map 101). Local name reported in 1958 by USGS.

Upper Brentwood Lake: lake, 1.5 miles long, one of Brentwood Lakes, 2.5 miles W of Patterson Bay, on SE Baranof Island, Alexander Archipelago; 56° 37' N, 134° 45' W; (map 5). Local name reported in 1933 by USFS.

Upper Camp Creek: stream, see Camp Creek.

Upper Canyon: canyon, of Moose Creek, extends E 5 miles from junction of Eureka Creek, 1.3 miles N of Wonder Lake, Alaska Range; 63° 31' N, 150° 53' W; (map 88). Local name reported in 1954 by USGS.

Upper Carmen River: stream, flows NW 5.5 miles to Carmen Lake, 8.5 miles NW of Whittier, Chugach Mountains; 60° 53' 35" N, 148° 45' 50" W; (map 63). Local name reported in 1951 by USGS.

Upper Checats Lake: lake, 3.6 miles long, 3 miles E of Behm Canal between Punchbowl and Winstanley Lakes, Coast Mountains; 55° 28' 30" N, 130° 47' 15" W; (map 3). Variant: Checats Lake. Tlingit Indian name recorded in 1955 by USGS; reported as "Checats Lake" in 1897 by Lt. Comdr. J. F. Moser, USN.

Upper Chignik Lake: lake, see Black Lake.

Upper Chuligmiut: locality, see Chulik.

Upper Coho Lake: lake, 0.7 miles long, one of Coho Lakes, on W coast of Kenai Peninsula, 15 miles SW of Kenai, Cook Inlet Lowland; 60° 20' 00" N, 151° 19' 35" W; BGN 1966; (map 62). D. F. Smith, Anchorage, proposed this name in 1965 to differentiate the Coho Lakes.

Upper Copper Lake: lake, 2.5 miles long, 1 mile SW of Meadow Lake and 30 miles NW of Augustine Island, Aleutian Range; 59° 35' 45" N, 154° 07' 30" W; (map 51). Name published in 1954 by USGS.

Upper Dewey Lake: lake, 0.4 miles long, 1.4 miles E of Lower Dewey Lake and 2 miles SE of Skagway, Coast Mountains; 59° 26' 30" N, 135° 18' 45" W; (map 45). Local name obtained by USGS field personnel and published on Federal maps since 1950.

Upper Doame Lake: lake, 1 mile long, in Deception Hills, 2.4 miles SE of Lower Doame Lake and 64 miles SE of Yakutat, St. Elias Mountains; 59° 06' 25" N, 138° 08' 20" W; (map 46). Local name published in 1959 by USGS.

Upper Fire Lake: lake, 0.5 miles long, one of the Fire Lakes, along Glenn Highway, 15 miles NE of Anchorage, Cook Inlet Lowland; 61° 21' N, 149° 32' W; (map 69). Local name reported in 1960 by USGS.

Upper Fish Lake: lake, 1.3 miles long, at head of Fish Creek, 3.5 miles NE of Paxson, Alaska Range; 63° 04' N, 145° 23' W; (map 86). Name reported in 1952 by USGS.

Upper Fish River Basin: basin, see McCarthys Marsh.

Upper Fork Twelvemile Creek: stream, flows SW 4 miles to Twelvemile Creek, 3 miles NW of Twelvemile Mountain and 18 miles SW of Wiseman, Brooks Range; 67° 12' 00" N, 150° 30' 00" W; (map 124). Local name reported in 1956 by T. E. Taylor, USGS.

Upper Halfway Lake: lake, 1.3 miles long, 1.5 miles SW of Lower Halfway Lake and 24 miles SE of Beaver, Yukon-Tanana Highlands; 66° 04' N, 147° 00' W; (map 119). Local descriptive name obtained in 1956 by USGS.

Upper Jean Lake: lake, 0.6 miles long, on Kenai Peninsula, at head of Jean Creek, 37 miles E of Kenai, Chugach Mountains; 60° 31' 45" N, 150° 12' 30" W; (map 62). So named about 1963 by officials of Kenai National Moose Range, because it is the largest of several lakes above Jean Lake.

Upper Kaltag: village, see Kaltag.

Upper Ketchikan Lake: lake, 1.7 miles long, in course of Ketchikan Creek, 2.4 miles N of Ketchikan, Revillagigedo Island, Alexander Archipelago, 55° 23' 30" N, 131° 37' 30" W; BGN 1966; (map 3). Variant: Ketchikan Lake, Ketchikan Lakes, Ketchikan Lake Number Two. Local name reported in 1911 as "Ketchikan Lake" by USFS.

Upper Killey Lake: lake, 0.3 miles long, on Kenai Peninsula, 5 miles NE of Killey Glacier terminus and 40 miles SE of Kenai, Chugach Mountains; 60° 12' 45" N, 150° 18' 50" W; (map 62). Named for the Killey River about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Upper Kobuk Canyon: canyon, along Kobuk River, 10 miles N of Norutak Lake, Brooks Range; 66° 58' N, 154° 22' W; (map 116). Name published in 1956 by USGS. Lt. J. C. Cantwell, USRCS, refers to it as a gorge (Healy, 1887, p. 34).

Upper Lake George: lake, 8 miles long, near terminus of Lake George Glacier, 40 miles E of Anchorage, Chugach Mountains; 61° 13' 30" N 148' 38' 15" W; (map 69). Descriptive name reported in 1951 by K.H. Stone (1963,p. 33).

Upper Lake: lake, 0.1 miles across, on NE coast of St. George Island, in Pribilof Islands; 56° 35' 55" N, 169° 32' 05" W; (map 38). Variant: Kos'era'an'ag. This is a translation of an Aleut name listed by Putnam (1903, p. 1015), USC&GS, as "Kos'era-an'ag," and so called because the lake "is above the marshy hollow back of the village [St. George], where there was formerly a lake."

Upper Lake: lake, see Black Lake.

Upper Mahoney Lake: lake, 0.7 miles long, on Revillagigedo Island, 0.5 miles W of George Inlet, 1 mile SW of Mahoney Lake, Alexander Archipelago; 55° 24' 40" N, 131° 33' 30" W; (map 3). Local name reported in 1954 by USGS.

Upper Malina Lake: lake, 1.4 miles long, 15 miles NW of Afognak, on W coast of Afognak Island; 58° 09' 30" N, 153° (15' 00" W; (map 43). Name derived from Malina Bay; published in 1952 by USGS.

Upper Marten Lake: lake, 1 mile long, at head of Marten Creek, 4.5 miles N of Bradfield Canal, Coast Mountains, 56° 17' 30" N, 131° 50' 00" W; (map 7). Variant: Marten Upper Lake. Local name reported in 1955 by USGS.

Upper Mouth Birch Creek: stream, distributary, flows NW 35 miles from Birch Creek to Yukon River, 25 miles SW of Fort Yukon, Yukon Flats; 66° 31' 20" N, 146° 09' 00" W; (map 119). Local name published in 1951 by USGS.

Upper Mouth Porcupine River: stream, distributary of Porcupine River, flows S 2 miles to Yukon River, 1 mile NW of Fort Yukon, Yukon Flats; 66° 34' 30" N, 145° 19' 00" W; (map 119). Local name obtained in 1956 by USGS.

Upper Nickeyville: area, in city limits of Ketchikan, on Revillagigedo Island, Alexander Archipelago; 55° 21' 15" N, 131° 41' 15" W; (map 3). Named for an early settler, Nickey [cnna], but the once prominent name is "used very little today."

Upper Niklaremut Creek: stream, flows S 1.5 miles to Yukon River, 3 miles NW of Ruby, Kokrines-Hodzana Highlands; 64° 44' 45" N, 155° 32' 40" W; (map 98). Variant: Necklaremont River. Riverboat pilots' name shown on 1940 "Navigation Chart, Tanana-Yukon Rivers" of the River Boat Service, U.S. Dept. of Interior.

Upper Ohmer Lake: lake, on Kenai Peninsula, 0.5 miles long, 0.5 miles E of Lower Ohmer Lake, 34 miles E of Kenai, Cook Inlet Lowland; 60° 27' 20" N, 150° 17' 30" W; BGN 1966; (map 62). Named about 1963 by officials of Kenai National Moose Range for the late Earl N. Ohmer, former chairman of the Territorial Game Commission.

Upper Paradise Lake: lake, 1.5 miles long, at NE end of Paradise Lakes, 22 miles NE of Seward, Chugach Mountains; 60° 22' N, 149° 01' W; (map 63). Local name reported in 1951 by USGS.

Upper Passage: water passage, in Prince William Sound, 3.5 miles long, between Eleanor and Ingot Islands, 24 miles NE of Chenega, Chugach Mountains; 60° 32' N, 147° 37' W; BGN 190S; (map 63). Variant: Eleanor Passage. Local descriptive name reported in 1908 by USC&GS.

Upper Quartz Creek: stream, see Slate Creek.

Upper Ramparts: canyon, extends 11 miles along Porcupine River, 8 miles N of Old Rampart and 33 miles NE of Coleen Mountain, Porcupine Plateau; 67° 19' N, 141° 30' W; (map 121). Name reported in 1895 by USC&GS.

Upper Rock Creek: stream, flows NE 8 miles to Rock Creek, 13 miles NNE of Porcupine Dome and 39 miles SW of Circle, Yukon-Tanana Highlands; 65° 42' N, 145° 22' W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Upper Russian Lake: lake, on Kenai Peninsula, 3 miles SW of Cooper Mountain and 22 miles NW of Seward, Chugach Mountains; 60° 20' 30" N, 149° 52' 30" W; (map 63). Variant: Russian Lake. Local name published by USGS (Martin and others, 1915, pl. 2).

Upper Silver Bow Basin: valley, see Lurvey Basin.

Upper Silvis Lake: lake, 1 mile long, on Revillagigedo Island, near mouth of George Inlet, in course of Beaver Falls Creek, Alexander Archipelago; 55° 22' 40" N, 131° 31' 45" W; (map 3). Variant: Silvis Lakes. Local name reported in 1954 by USGS.

Upper Skolai Lake: lake, W of Russell Glacier, at head of Skolai Creek, 33 miles NE of McCarthy, Wrangell Mountains; 61° 38' N, 141° 59' W; (map 67). Local name reported in 1914 by C. E. Giffin, USGS.

Upper Slate Creek: locality, on S bank of Slate Creek 1.5 miles E of its junction with Chistochina River and 23 miles NE of Paxson, Alaska Range; 63° 10' 00" N, 144° 49' 15" W; (map 86). Name reported in 1952 by USGS.

Upper Sucker Creek: stream, heads in lake, flows NE 9 miles to Sucker Lake, 41 miles NE of Tyonek, Cook Inlet Lowland; 61° 39' 15" N, 150° 54' 25" W; (map 70). Local name reported in 1954 by USGS.

Upper Sweetheart Lake: lake, 1.5 miles long, on Sweetheart Creek, 1 mile E of Lower Sweetheart Lake and 40 miles ESE of Juneau, Coast Mountains; 57° 59' 45" N, 133° 30' 15" W; (map 8). Local name reported in 1955 by USGS.

Upper Taku Neve: glacier, see Matthes Glacier.

Upper Talarik Creek: stream, flows S 25 miles to Iliamna Lake, 15 miles SW of Iliamna, Bristol Bay Lowland; 59° 38' 40" N, 155° 11' 30" W; (map 51). Variant: Talarik Creek. Name published as "Talarik Creek", by G. C. Martin and F. J. Katz (1912, pl. 1), USGS. Local usage added the adjective "Upper" to differentiate it from Lower Talarik Creek to the west.

Upper Tangle Lake: lake, 0.3 miles long, N of Tangle Lakes, between Gulkana and MacLaren Rivers, 18 miles W of Paxson, Alaska Range; 63° 00' N, 146° 05' W; (map 83). Local name reported in 1956 by USGS.

Upper Tazimina Lake: lake, 8.5 miles long in course of Tazimina River, 20 miles NE of Nondalton, Aleutian Range; 60° 03' N, 154° 06' W; (map 61). Local name reported in 1909 by USGS; derived from the Tazimina River which runs through both Upper and Lower Tazimina Lakes.

Upper Telida Lake: lake, 2.5 miles NE of Lower Telida Lake and 54 miles NE of Medfra, Kuskokwim Lowland; 63° 26' N, 153° 09' W; (map 89). Local name derived from the village name: reported in 1958 by USGS.

Upper Togiak Lake: lake, 5 miles long, in Izavieknik River, 7 miles NE of Togiak Lake and 90 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 50' N, 159° 30' W; (map 53). Local name published in 1951 by USGS.

Upper Trail Lake: lake, 5.8 miles long, on Kenai Peninsula in course of Trail Creek, N of Lower Trail Lake, 24 miles N of Seward, Chugach Mountains; 60° 30' N, 149° 22' W; BGN 1966; (map 63). Variant: Trail Lake. Local descriptive name reported in 1915 by USGS.

Upper Trout Lakes: lake, see Trout Lake.

Upper Ugashik Lake: lake, 17 miles long at head of Ugashik River S of Becharof Lake, on Alaska Peninsula, 22 miles NE of Ugashik, Aleutian Range, 57° 41' N, 156° 39' W; (map 36). Local name reported as "Ugashik Lakes" for both Upper and Lower Ugashik Lakes in 1903 by G. C. Martin (1905, pl. 6), USGS. Upper Ugashik Lake is shown separately on a USGS map published in 1956.

Upper Willow Creek: stream, flows SW 2.5 miles to Willow Creek SE of Bullion Mountain, 14 miles NW of Palmer, Talkeetna Mountains; 61° 45' 40" N, 149° 21' 25" W; (map 69). Local name reported in 1942 by AMS.

Upper Wolf Lake: lake, 1.3 miles long, on Revillagigedo Island, SE of Moser Bay, Alexander Archipelago; 55° 32' N, 131° 36' W; BGN 1962; (map 3). Variant: Wolf Lake. Local name reported in 1961 by USFS.

Uppnuk Lake: lake, see Upnuk Lake.

Uprayt, Mys: point of land, see Upright, Cape.

Upright, Cape: point of land, 13 miles E of Sugarloaf Mountain, on SE tip of St. Matthew Island; 60° 19' N, 172° 15' W; (map 56). Variant: Cape Mountain Peak, Cape Otviesnoi, Cape Peak, Cape Perpendiculaire, Cape Upwright, Mys Otvysnoy, Mys Pik, Mys Uprayt. Named by Capt. Cook (1785, p. 438), on July 29, 1778, who wrote "It was the South East extremity, and formed a perpendicular cliff of considerable height; on which account it was called Point Upright * * *." Cook later referred to it as "Cape Upright" (p. 491). The name was transliterated on Russian Hydrog. Dept. Chart 1427 (1849) as "M[ys] Uprayt," and translated by Capt. Tebenkov (1852, map 20) to "M[ys] Otvysnoy." G. A. Sarichev calls it "Mys Pik," i.e., "Cape Peak" in 1826.

Uprugalet Mountain: mountain, 2,350 ft., at head of East Fork Andrafsky River, 26 miles SE of Saint Michael, Nulato Hills; 63° 08' N, 161° 36' W; (map 91). Eskimo name reported in 1949 by USC&GS.

Upshur, Mount: mountain, 6,701 ft., on Alaska-Canada boundary, 20 miles NW of Hyder, Coast Mountains; 56° 07' 45" N, 130° 21' 00" W; BGN 1924; (map 7). Named in 1924 for Abel Parker Upshur, 1790-1844, American statesman.

Upwright, Cape: point of land, see Upright, Cape.

Uqqiqsugzum Kunga: stream, see Okpiksugruk Creek.

Uqqiqsugzuq: locality, see Ukpiksugruk.

Uqqiqsuq: locality, see Ukpiksuk.

Uquksiq: locality, see Amungna.

Uranatina River: stream, flows E 13 miles to Copper River, 3.3 miles NW of Spirit Mountain and 54 miles NE of Valdez, Chugach Mountains; 61° 21' 15" N, 144° 42' 10" W; (map 68).

Variant: Teikell River, Teikhell River, Tiekell River. Indian name reported in 1898 by Capt. W. R. Abercrombie, USA. It is the "Tiekhell River" reported in 1885 by Lt. H. T. Allen, USA.

Urey Rocks: rocks, off W coast of Chichagof Island, at S end of Lisianski Strait, 17 miles NW of Chichagof, Alexander Archipelago; 57° 49' 15" N, 136° 26' 20" W; (map 9). Named in 1925 by USC&GS; published in the 1925 Coast Pilot (p. 324). The name was derived from nearby Urey Point.

Urey, Point: point of land, between Islas Bay and S end of Lisianski Strait, on W coast of Chichagof Island, 17 miles NW of Chichagof, Alexander Archipelago; 57° 49' 15" N, 136° 25' 00" W; (map 9). Named in 1879 by W. H. Dall, USC&GS; published in the 1883 Alaska Coast Pilot (p. 184). It was named for Capt. Urey Theodorovich Lisianski, IRN. Russian navigator who explored these waters in 1804 and 1805. The name "Urey" is sometimes spelled "Iuri" from the Russian "Yuriy," meaning "George."

Urielof Island: island, see Urilof Island.

Urili Island: island, see Shag Island.

Urili Rocks: rocks, see Shag Rocks.

Urili, Kamen: rocks, see Shag Rocks.

Urilia Bay: bay, 8 miles across, on N coast of Unimak Island, Aleutian Islands; 54° 55' N, 164° 18' W; BGN 1904; (map 24). Variant: Bukhta Urilya, Shaw Bay. Russian name published by Capt. Tebenkov (1852, map 26) as Bukh[ta] Urilya meaning "Shag (Cormorant) Bay." This feature was called Shaw Bay in 1888 by USBF.

Urilie Rocks: rocks, see Shag Rocks.

Urilof Island: island, 0.2 miles long, 5 miles SW of Goddard, in Necker Islands, on W coast of Baranof Island, Alexander Archipelago; 56° 47' 15" N, 135° 28' 05" W; (map 5). Variant: Ostrov Urilov, Urielof Island. Named in 1809 by the Russian navigator, Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Urilov," or "Urilov Island."

Urilov, Ostrov: island, see Urilof Island.

Urilya, Bukhta: bay, see Urilia Bay.

Ursua Channel: water passage, 7 miles long, connects Bucareli and San Alberto Bays, S of San Fernando Island, Alexander Archipelago; 55° 27' N, 133° 20' W; BGN 1923; (map 4). Named in 1923 by USC&GS "for El Bailio Frey Don Antonio Maria Bucareli y Ursua [1717-99] the most popular and successful Viceroy of New Spain [Mexico]."

Ursus Cove: bay, 6 miles across, enters Kamishak Bay on SE coast of Alaska Peninsula. 14 miles NW of Augustine Island, Aleutian Range; 59° 32' N, 153° 40' W; BGN 1906; (map 51). Variant: Bear Cove. According to G. C. Martin, USGS, the local name for this feature in 1904 was Bear Cove. However, owing to the multiplicity of "bear" names throughout Alaska, BGN renamed the bay using the Latin word for bear.

Ursus Head: promontory, 1,400 ft., on N side of entrance to Ursus Cove, Kamishak Bay, 11 miles NW of Augustine Island, Aleutian Range; 59° 33' 15" N, 153° 35' 20" W; BGN 1916; (map 51). Variant: Bear Head. Named by USC&GS in 1913.

Ursus Lake: lake, 1.2 miles long, on Kenai Peninsula 0.8 miles N of Coyote Lake and 32 miles NE of Kenai, Cook Inlet Lowland; 60° 46' N, 150° 27' W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Ursus Peak: peak, 4,850 ft., in Endicott Mountains, 13.5 miles NNE of Sillyasheen Mountain, Brooks Range; 67° 57' 00" N, 152° 32' 00" W; BGN 1966; (map 124). So named in 1966 by Mr. and Mrs. Gilbert F. Staender because they observed numerous grizzlies on this peak.

Urumangnak River: stream, on Nelson Island, flows SE 16 miles to Kolavinarak River, 88 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 34' 50" N, 164° 22' 45" W; (map 58). Variant: Awomanak River. Eskimo name meaning "very warm" reported in 1949 by USC&GS.

Us-tay River: stream, see Ustay River.

Usak: locality, along shore of Chukchi Sea, 4 miles SE of Kivalina, Kotzebue-Kobuk Lowland; 67° 42' N, 164° 25' W; (map 128). Variant: Oosak. Eskimo name reported in 1966 by E. S. Burch.

Uschugat Island: island, see Ushagat Island.

Useless Cove: estuary, extends SW 1 mile to SE shore of Long Bay, 53 miles NE of Whittier, Chugach Mountains; 60° 56' 20" N, 147° 11' 45" W; (map 63). Local name reported in 1951 by USGS.

Userdie Point: point of land, see Zeal Point.

Userdiye, Mys: point of land, see Zeal Point.

Ushagat Island: island, 8 miles long, in Gulf of Alaska, westernmost of Barren Islands, between Nord and Sud Islands, 68 miles NE of Afognak, Chugach Mountains; 58° 55' 30" N, 152° 15' 00" W; (map 43). Variant: Ugutchtu Island, Uschugat Island, Ushugat Island. Aleut [?] name published by Capt. Tebenkov (1852, map 5), IRN; as "O[strov] Ushagat," or "Unshagat Island," and as "O[strov] Ugushtu," or "Ugushtu Island" (map 22). The feature was called Ushugat Island by USC&GS in 1868.

Usher Rock: rock, in Western Channel, Sitka Sound, 2 miles W of Sitka, Alexander Archipelago; 57° 03' 15" N, 135° 23' 55" W; (map 9). Named in 1879 by the U.S. Navy for Lt. Nathaniel R. Usher, USN, then on duty at Sitka. The name was published by USC&GS in the 1883 Coast Pilot (p. 140).

Ushk Bay: bay, 4 miles long and 1 mile wide, 4 miles S of Hoonah Sound, 20 miles SE of Chichagof, Alexander Archipelago; 57° 34' N, 135° 35' W; (map 9) Name reported in 1895 by Lt. Comdr. E. K. Moore, USN; published in 1899 by USC&GS on Chart 8050.

Ushk Point: point of land, on Chichagof Island, N point of entrance to Ushk Bay, 4 miles S of Hoonah Sound, 20 miles SE of Chichagof, Alexander Archipelago; 57° 34' 15" N, 135° 34' 45" W; (map 9). Named in 1895 by Lt. Comdr. E. K. Moore, USN; published in 1900 by USC&GS on Chart 8282.

Ushki Hills: hills, see Nichols Hills.

Ushugat Island: island, see Ushagat Island.

Usibelli Peak: peak, 6,129 ft., 1.4 miles W of Mount Lathrop and 15 miles ENE of Healy, Alaska Range; 63° 54' 20" N, 148° 28' 30" W; BGN 1965; (map 87). Named in 1965 by USGS for Emile Usibelli, 1892-1964, former operator of a local coal mine.

Usibelli: settlement, pop. 30, on right bank of Healy Creek 6 miles E of Healy, Alaska Range; 63° 51' 30" N, 148° 46' 45" W; (map 87). Named for Emil Usibelli who opened a coal mine in the area about 1940.

Usinka Narrows: water passage, see Narrow Strait.

Usinka: village, see Uzinki.

Uski Island: island, 0.3 miles long, in St. Paul Harbor W of Near Island, 0.6 miles SW of Kodiak, Kodiak Island; 57° 46' 50" N, 152° 24' 35" W; (map 34). Variant: Ostrov Uskoy, Uskoi Island. Aleut name published as "Os[trov] Uskoy," or "Uskoy Island," by Lt. Sarichev (1826, map 16), IRN; Father Veniaminov (1846, p. 65) suggested that this name may be from "usgiq," meaning "willow."

Uskoi Island: island, see Uski Island.

Uskoy, Ostrov: island, see Uski Island.

Usof Bay: bay, 1.5 miles across, S coast of Unalaska Island, Aleutian Islands; 53° 30' N, 166° 45' W; BGN 1904; (map 23). Variant: Usova, Whalebone Bay. Russian name published by Capt. Tebenkov (1852 map 26), IRN, as "Z[aliv] Usova" meaning "Usof's Bay." It was called Whalebone Bay in 1888 by USBF.

Usova: bay, see Usuf Bay.

Ustay Lake: lake, 1.4 miles across, at 1961 terminus of Rodman Glacier, head of Ustay River, 2 miles SE of Akwe Lake and 41 miles SE of Yakutat, St. Elias Mountains; 59° 17' 30" N, 138° 42' 30" W; BGN 1962; (map 46). Local name derived from Ustay River.

Ustay River: stream, heads at Ustay Lake and flows S and NW to Akwe River, 37 miles SE of Yakutat, Malaspina Coastal Plain; 59° 14' 00" N, 138° 49' 40" W; BGN 1962; (map 46). Variant: Akwe River, Tanis River, Us-tay River. Tlingit Indian name reported as "Us-tay" by Lt. Comdr. Moser (1901, p. 387 and pl. 43), USN. The name seems to have been applied to both the Akwe and Tanis Rivers of Capt. Tebenkov (1852, map 7), IRN. The name has been restricted to its present application since 1926.

Ustay River: stream, see Akwe River.

Ustay: stream, see Tanis River.

Ustia Point: point of land, 17 miles W of Afognak, W point of entrance to Onion Bay, SW coast of Raspberry Island, N of Kodiak Island; 58° 02' 45" N, 153° 15' 00" W; BGN 1909; (map 43). Variant: Entrance Cape. Russian descriptive name meaning "mouth (of a river)" given by Sub-Lt. Mikhail Murashev, IRN, in 1839 or 1840 and published by the Russian Hydrog. Dept. in 1849 on Chart 1425. The Russian American Company applied this name in 1849 to Malina Point, 4 miles SW of this point.

Ustia rieki: point of land, see Rivermouth Point.

Ustiugof Shoal: shoal, 15 miles long, in Bristol Bay, 10 miles SE of Cape Constantine on Nushagak Peninsula and 48 miles S of Dillingham, Bristol Bay Lowland; 58° 17' N, 158° 41' W; (map 40). Variant: Banka Ustiugova. Named by Capt. Tebenkov (1852, map 4), IRN, as "Banka Ustiugova" for a Mr. Ustiugof [cna], whose surveys of this area in 1818 were praised by Capt. Tebenkov.

Ustiugova, Banka: shoal, see Ustiugof Shoal.

Ustya, Cape: point of land, see Malina Point.

Usukteo River: stream, see Usuktuk River.

Usuktu River: stream, see Usuktuk River.

Usuktuk River: stream, heads at 69° 40' N, 156° 41' W, flows NE and NW 135 miles to Meade River, 3 miles N of village of Meade River, Arctic Plain; 70° 31' 10" N, 157° 23' 00" W; BGN 1949; (map 147). Variant: Esuktak River, Esukteo River, Esuktu River, Esuktuk River, Suktuk River, Usukteo River. Usuktu River, Usuuktu River. Lt. Ray (1885, p. 27), USA, wrote on March 29, 1883, "a large stream called Usuuktu comes in from the eastward with a channel about forty yards wide and Highlands bold banks." Lt. Ray spells it "Esuktu" on his map. It has been reported that this Eskimo name refers in meaning to a penis.

Usuuktu River: stream, see Usuktuk River.

Utah Creek: stream, flows E 3 miles to Mission Creek, 11 miles W of Eagle, Yukon-Tanana Highlands; 64° 44' 25" N, 141° 34' 00" W; (map 102). Prospectors' name obtained in 1898 by E. C. Barnard, USGS.

Utah Creek: stream, flows S to Pacific Ocean, 0.5 miles NE of Kettle Cape, on E coast of Umnak Island, Aleutian Islands; 53° 17' 15" N, 168° 06' 10" W; (map 22). Name published by Byers (1959, pl. 41), USGS.

Utah Creek: stream, heads on Roughtop Mountain, flows SE 9.5 miles to Baker Creek, 44 miles ESE of Tanana, Yukon-Tanana Highlands; 65° 05' 30" N, 150° 34' 40" W; (map 106). Prospectors' name reported in 1931 by J. B. Mertie, USGS.

Utakaht Slough: watercourse, in Yukon Delta, 4.8 miles long, 3 miles E of Kwiguk, Yukon-Kuskokwim Delta; 62° 45' N, 164° 23' W; (map 77). Eskimo name obtained in 1899 by G. R. Putnam, USC&GS. Published in 1899 on Chart 9372.

Utakakg: villages, see Utukok villages.

Utalug, Cape: point of land, SE tip of Atka Island, Aleutian Islands; 52° 06' 00" N, 174° 05' 50" W; (map 18). Name published as "M[ys] Utalug," or "Utalug," by Capt. Tebenkov (1852, map 27), IRN, possibly from the Aleut word "Utaq," meaning "thumb," since Cape Utalug promontory resembles a thumb.

Utaqaq: villages, see Utukok villages.

Utchno: point of land, see Trinity, Cape.

Utes, Cape: point of land, on S shore of Nazan Bay, on E coast of Atka Island, Aleutian Islands; 52° 10' 15" N, 174° 08' 15" W; (map 18). Russian name, meaning "cliff" or "escarpment," published as "M[ys] Utes," or "Cape Utes," by Capt. Tebenkov (1852, map 27), IRN.

Utes, Mys: point of land, see Topkok Head.

Utesistoi Island: island, see Zaimka Island.

Utesistoi Island: shoal, 0.3 miles long, in Kalsin Bay, near Isthmus Cove, on E coast of Kodiak Island; 57° 37' 30" N, 152° 22' 00" W; BGN 1941; (map 34). Variant: Ostrov Utesistoy, Rocky Island. Transliteration of the name "Os[trov] Utesistoy" published by Sarichev (1826, map 16). Baker (1906, p. 531) published "Rocky Island," the translation of Sarichev's name. Because of duplications the name was changed to its present form in 1940 by USC&GS.

Utesistoy, Ostrov: island, see Zaimka Island.

Utesistoy, Ostrov: shoal, see Utesistoi Island.

Utesistyy, Mys: point of land, see Topkok Head.

Utesof: point of land, see Cliff Point.

Utesov, Mys: point of land, see Cliff Point.

Utica Creek: stream, flows SW 1 mile to Ophir Creek, 8 miles N of Council and 42 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 01' N, 163° 39' W; (map 110). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Utica: locality, on left bank of Inmachuk River, 1 mile NE of settlement of Fink Creek and 21 miles NNE of Imuruk Lake, Seward Peninsula Highlands; 65° 55' N, 162° 59' W; (map 110). Site of landing strip reported about 1950 by USGS.

Utichey, Ostrov: island, see Calming Island.

Utichey, Ostrov: island, see Rocky Islet.

Utichi Island: island, see Calming Island.

Utkeagvik: town, see Barrow.

Utkeakhvik: town, see Barrow.

Utkeavic: town, see Barrow.

Utkiavi: town, see Barrow.

Utkiavik: locality, 25 miles NE of Point Hope, Arctic Slope; near 68° 30' N, 166° 15' W; (map 129). Archeological site reported in 1932 by H. B. Collins (Giddings, 1964, p. 38).

Utkiaving: town, see Barrow.

Utkiawin: town, see Barrow.

Utkok Valley: valley, see Utukok River Valley.

Utkusikrak Hill: hill, 525 ft., on Chukchi Sea coast, E of Tasikpak Lagoon, 20 miles NW of Kivalina, Arctic Slope; 67° 56' 30" N, 165° 02' 30" W; BGN 1963; (map 128). Variant: Oatcoosekruk Mountain, Otkusekrak Mountain. Eskimo name meaning "material for making a cooking pot"; reported in 1950 by USC&GS.

Utmak: point of land, see Kettle Cape.

Utnathlokik Creek: stream, flows SW 10 miles to Mulchatna River, 75 miles NE of Dillingham, Bristol Bay Lowland; 59° 45' N, 156° 58' W; (map 52). Eskimo name shown on a 1910 manuscript map by H. C. Fassett, USBF, as "Ut-na-thlo-kik."

Utokak: villages, see Utukok villages.

Utopia Creek: stream, flows E 4.5 miles, S of mining community of Utopia, to Indian River, 60 miles N of Birches, Kokrines-Hodzana Highlands; 65° 59' 40" N, 153° 39' 50" W (map 107). Local name obtained in 1954 by USGS topographers.

Utopia: locality, airplane landing field and installation, between Utopia Creek and Indian River, 60 miles N of Birches, Kokrines-Hodzana Highlands; 65° 59' 40" N, 153° 41' 30" W; (map 107). Local name obtained in 1954 by USGS topographers.

Utoqaq: locality, see Otokkok.

Utta Rock: rock, see Hattie Rock.

Utuka: locality, see Otokkok.

Utukak River: stream, see Utukok River.

Utukakarvik: village, on W bank of Black River, 27 miles E of Scammon Bay, Yukon-Kuskokwim Delta; 61° 57' 40" N, 164° 45' 00" W; (map 74). Variant: Oolakukkogavik, Ulakakogavik. This Eskimo name is probably better rendered "Ulakakogavik" and generally means "place where slate [for making Ulas] is found." The name was reported by USC&GS in 1948 as "Oolakukkogavik."

Utukok Cape: point of land, see Icy Cape.

Utukok Pass: water passage, in barrier bar between Chukchi Sea and Kasegaluk Lagoon S of Solivik Island, 23 miles SW of Icy Cape, Arctic Plain; 70° 05' N, 162° 31' W; (map 146). Name reported in 1949 by USC&GS.

Utukok River Basin: valley, see Utukok River Valley.

Utukok River Valley: valley, along Utukok River, on N slope of Brooks Range, 80 miles S of Wainwright, Arctic Slope; (map 144). Variant: Utukok River Basin, Utkok Valley. Named in 1923 by W. T. Foran, USGS, after the Utukok River.

Utukok River: stream, formed in De Long Mountains by junction of Kogruk and Tupik Creeks, at 68° 34' N, 161° 06' W, flows NW 225 miles to Kasegaluk Lagoon, 20 miles SW of Icy Cape, Arctic Plain; 70° 03' N, 162° 21' W; (map 146). Variant: Ootokok River, Ootookok River, Otokok River, Utoqaq River, Utukak River. "Utoqaq" is the Eskimo name for "Icy Cape" and means "old" or "ancient." The name of the river appears to have been first mentioned by Lt. Zagoskin (1847, p. 74) IRN, when he referred to the Utukak-myut, or Utukak people, "on river of same name." Zagoskin received this information from Kashevarov whose Creole guide, Uluktak, drew a map of the coast south of Point Barrow in 1838. The name was published in 1899 by USC&GS as "Ootokok River."

Utukok: locality, see Otokkok.

Utukok: villages: "Utoqaq" is an Eskimo word meaning "old" or "ancient," and as a name was applied to Icy Cape and the present Utukok River. The name was also applied to the Eskimo living on the river and in the vicinity of Icy Cape near the stream's mouth. The Utukok people were first mentioned, as such, by Lt. Zagoskin (1847, p. 74), IRN, as the "Utukak-myut," or "Utukak people." Zagoskin received his information from Kashevarov whose Creole guide named "Utuktat" drew a map of the coast S of Barrow in 1838. The villages where many of these "Ututok" people lived in 1880 were referred to as "Otok-kok" in the 10th U.S. Census, and late 19th century maps show at least two villages with this name. One was located at the mouth of the Utukok River and the other at or near Icy Cape. Russian Hydrog. Dept. Chart 1495, dated 1854, shows the name "sel[enie] Kayakishvigmyut," or "Kayakishvig people's village," in the Icy Cape area. Variant: Kaiakishvigmiut, Kayakishvigmyut, Ootookok, Otokkok, Otokok, Ootookok, Otukah, Utokak, Utoqaq, Utukakg.

Uviuvok Island: island, see King Island.

Uwik Slough: watercourse, in Yukon Delta, flows N 15 miles from Okshokwewhik Pass to Norton Sound, 37 miles N of Kwiguk, Yukon-Kuskokwim Delta; 63° 15' N, 164° 09' W; (map 92). Variant: Oowik. Eskimo name reported in 1899 as "Oowik" by G. R. Putnam, USC&GS.

Uwuk: promontory, see Lisburne, Cape.

Uyak Anchorage: water passage, at mouth of Uyak Bay between Harvester Island and NW coast of Kodiak Island; 57° 39' N, 154° 00' W; (map 35). Aleut name derived from Cape Uyak; reported in 1897.

Uyak Bay: bay, extends SSE 40 miles off Shelikof Strait, on NW coast of Kodiak Island; 57° 48' N, 154° 04' W; (map 34). Variant: Bay of Oohiack, Ooiak Bay, Ooyak Bay, Uiak Bay, Zaliv Uyak. Native name recorded in 1805 as Bay of Oohiack by Lisianski (1814, map facing p. 169). The name was given as "Zaliv Uyak," or "Uyak Bay," by Capt. Tebenkov (1852, map 9) and "Ooyak Bay" by Petroff (1881, p. 29) in the 10th Census in 1880.

Uyak Island: island, 0.15 miles across, in center of Nazan Bay, on E coast of Atka Island, Aleutian Islands; 52° 12' 20" N, 174° 09' 02" W; (map 18). Variant: Ujah Islet. Aleut name, published as "O[strov] Uyak," or "Uyak Island," by Capt. Tebenkov (1852, map 27), IRN.

Uyak, Cape: point of land, 6.5 miles NE of Karluk, on W coast of Kodiak Island; 57° 38' 20" N, 154° 20' 50" W; (map 35). Variant: Sevenmile Point, West Point. Aleut name published by Capt. Tebenkov (1852, map 22), IRN, as "M[y]s Uyak," or "Cape Uyak." This feature was called "West Point" by Capt. Lisianski (1814, map, p. 169), IRN, and Baker (1906, p. 656) reports "Locally called 'Sevenmile point' * * *."

Uyak: village, pop. 10, on W shore of Uyak Bay S of Harvester Island, on NW coast of Kodiak Island; 57° 38' 20" N, 154° 00' 00" W; (map 34). Variant: Bobrowskoje, Ooiak, Ooiatsk, Ugujuk. Eskimo village reported in 1805 as "Ooiatsk" by Capt. Lisianski (1814, map facing p. 169). Listed in the 10th Census as "Ooiak," population 76, by Petroff (1884, p. 29); and in the 11th Census as "Uyak," population less than 20 (1893, p. 79). A post office, established in 1900, was discontinued in 1937 (Ricks, 1965, p. 68).

Uyak: village, see Larsen Bay.

Uyakturok Creek: stream, heads in Lisburne Hills, flows E 19 miles to Nilik River 4 miles N of its junction with Ipewik River, 28 miles SE of Cape Dyer, Arctic Slope; 68° 32' 30" N, 165° 09' 00" W; (map 129). Variant: Yarukturuk Creek. Eskimo name reported in 1960 by D. C. Foote, of Project Chariot, to mean "rough rocks."

Uyaraaqsiwwik: hill, see Uyaraksivik Hill.

Uyaraksivik Hill: hill, 268 ft., on right bank of Kivalina River 14 miles NE of Kivalina, Arctic Slope; 67° 53' N, 164° 14' W; (map 128). Variant: Ooyarockseevick, Uyaraaqsiwwik. Eskimo name meaning "place where things are buried under stones"; so called because the Eskimo reportedly once buried here for safe keeping, under moss and stones, the caribou they killed; reported in 1966 by E. S. Burch.

Uyon Lakes: lakes, two, 2.3 miles and 3.5 miles long, drain NW to Noatak River 12 miles SW of its junction with Nimiuktuk River, 68 miles N of Kiana, Brooks Range; 67° 51' N, 160° 13' W (map 127). Eskimo name obtained in 1955 by U.S. Army Corps of Engineers.

Uyut Bay: bay, see Izhut Bay.

Uzavigiak River: stream, see Osviak River.

Uzenkiy, Proliv: water passage, see Narrow Strait.

Uzenkoi Strait: water passage, see Narrow Strait.

Uzenkoy, Proliv: water passage, see Narrow Strait.

Uzinkee: village, see Ouzinkie.

Uzinki Point: point of land, W tip of Spruce Island, at N entrance to Narrow Strait, NE of Kodiak Island; 57° 55' N, 152° 31' W; BGN 1909; (map 34). Variant: Elovoi, Mys Yelovoy, Spruce Cape, Spruce Point, Yelovoi. Transliteration of the Russian "Uzenkiy," from "uzkiy," meaning "narrow." Named "M[ys] Yelovoy" by Sub-Lt. Mikhail Murashev in 1839 or 1840 and published in 1849 on Russian Hydrog. Dept. Chart 1425. Baker (1906, p. 594) published "Spruce Cape," the translation of Murashev's name. Because of duplication and its appropriate descriptive qualities, the present name was given by USC&GS in 1909.

Uzinki: village, see Ouzinkie.

Uzinkie: village, see Ouzinkie.

Uzinkoy Prolivchik: water passage, see Narrow Strait.

Uzkostey, Mys: point of land, see Uzkosti Point.

Uzkosti Point: point of land, on SW coast of Whale Island, 18 miles NW of Kodiak, N coast of Kodiak Island; 57° 55' 40" N, 152° 48' 50" W; BGN 1957; (map 34). Variant: Mys Uzkostey, Narrow Point, Narrows Point. Transliteration of the name "M[ys] Uzkostey," meaning "narrow cape," given by Sub-Lt. Mikhail Murashev in 1839 or 1840 and published in 1849 on Russian Hydrog. Dept. Chart 1425.

V

V Lake: lake, 0.9 miles long, S of Grayling Lake, 44 miles WNW of Glennallen, Copper River Basin; 62° 16' 45" N, 146° 52' 00" W; (map 83). Local name reported in 1959 by USGS.

Vacahanyande Mountain: mountain, 1,445 ft., N of Salmon Village, 33 miles E of Chalkyitsik, Porcupine Plateau; 66° 35' N, 142° 33' W; (map 120). Tranjik-kutchin Indian name; obtained in 1956 by T. E. Taylor, USGS.

Vachon Island: island, 3 miles long, in Tanana River, at mouth of Cosna River, 33 miles NE of Bitzshtini Mountains, Nowitna Lowland; 64° 52' N, 151° 20' W; (map 99). Riverboat pilots' name published on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" by the U.S. Dept. of Interior.

Vadine Creek: stream, flows NW 4 miles to Kokomo Creek, 27 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 10' 45" N, 147° 12' 00" W; (map 105). Local name published by USGS in the 1950's.

Vagitchitchate: locality, near mouth of Innoko River, at or near Railroad City, Innoko Lowland; 62° 11' N, 159° 39' W; (map 78). Variant: Kushichagat, Vashichagat. Former Indian village or camp published on Lt. L. A. Zagoskin's 1850 map (Hodge 1910, p. 879).

Vagt Lake: lake, 0.5 miles long, 0.2 miles E of Lower Trail Lake, 24 miles NE of Seward, Chugach Mountains; 60° 27' N, 149° 21' W; (map 63). Local name reported in 1951 by USGS.

Vakeekalik Creek: stream, flows NW 3 miles to Etolin Strait, 10 miles SE of Cape Etolin, on NE coast of Nunivak Island; 60° 18' 45" N, 166° 00' 00" W; (map 57). Eskimo name reported in 1937 by USAAF.

Valdes Narrows: water passage, see Valdez Narrows.

Valdes, Puerto de: estuary, see Valdez, Port.

Valdez Arm: water passage, 15 miles long, connects Prince William Sound and Port Valdez, 12 miles W of Valdez, Chugach Mountains; 60° 53' N, 146° 54' W; BGN 1913; (map 64). Variant: Port Valdez, Valdez Bay. Named about 1910 by USC&GS.

Valdez Bay: water passage, see Valdez Arm.

Valdez Camp: locality, 2.4 miles N of West Peak and 6 miles NE of Valdez, Chugach Mountains; 61° 11' 40" N, 146° 12' 15" W; (map 68). This was the name of a mining camp reported in 1911 by USGS.

Valdez Creek: locality, see Denali.

Valdez Creek: stream, flows SW 14 miles to Susitna River, 66 miles SE of Healy, Alaska Range; 63° 10' N, 147° 30' W; (map 87). Local name reported in 1908 by F. H. Moffit (in Brooks and others, 1909, p. 159), USGS.

Valdez Glacier: glacier, heads 0.7 miles S of Mount Cashman, trends SE 22 miles to its terminus 2 miles SE of West Peak and 4 miles NE of Valdez, Chugach Mountains; 61° 08' 45" N, 146° 09' 30" W; (map 68). Named in 1898 by Capt. W. R. Abercrombie, USA.

Valdez Narrows: water passage, trends SW 2 miles from Port Valdez to Valdez Arm, 14 miles SW of Valdez, Chugach Mountains; 61° 03' 15" N, 146° 40' 30" W; (map 68). Variant: Stanton Narrows, Valdes Narrows. Named "Valdes Narrows" in 1898 by Capt. W. R. Abercrombie, USA. He also called the passage "Stanton Narrows."

Valdez Summit: pass, highest point on trail over Valdez Glacier; Chugach Mountains; 61° 20' N, 146° 20' W; BGN 1904; (map 68). Variant: Valdes Summit. "So called by the 3,000 (more or less) prospectors who used it in 1898" (Baker, 1906, p. 657).

Valdez, Port: estuary, 13 miles long, trends E-W from 3 miles NE of Valdez Arm to its head at Valdez, Chugach Mountains; 61° 05' N, 146° 39' W. BGN 1913; (map 68). Variant: Puerto de Valdes. Named on June 16, 1790, by Don Salvador Fidalgo for the celebrated Spanish naval officer Antonio Valdes y Basan. Having been adopted by Capt. Vancouver, the name came into local use (Wagner, 1937, p. 420).

Valdez, Port: water passage, see Valdez Arm.

Valdez: town, pop. 555, on E end of Port Valdez, 45 miles NW of Cordova and 115 miles E of Anchorage, Chugach Mountains; 61° 07' N, 146° 16' W; (map 68). Variant: Copper City. Town established in 1898 as a debarkation point, with an excellent ice-free harbor, for men seeking a route to the Klondike gold region. It was originally called "Copper City" but name was changed when the Valdez post office was established in 1899. Valdez soon became the supply center of its own gold mining region. The town is located on the distributary delta of Valdez Glacier, and was severely damaged during the 1964 Good Friday earthquake. Plans are being made to move the town to more stable ground three miles northwest. The population of Valdez was 810 in 1910; 466 in 1920, 442 in 1930; 529 in 1939; and 554 in 1950.

Vale, Mys: point of land, see Whaley, Point.

Valerie Glacier: glacier, heads at 60° 11' N, 139° 45' W, trends SE 14 miles to Hubbard Glacier, 2 miles NE of head of Disenchantment Bay and 29 miles NE of Yakutat, St. Elias Mountains; 60° 04' N, 139° 25' W; BGN 1960; (map 66). Named after Miss Valerie F. Wood, 1933-1951, who served as an assistant to the scientific part of Project Snow Cornice of the Arctic Institute of North America. She was killed in an airplane crash about July 27, 1951, with her mother (see Mount Foresta), somewhere in the vicinity of this glacier. The name was proposed by the Arctic Institute of North America.

Valhalla, Mount: mountain, 12,135 ft., 2.5 miles SE of Mount Willard Gibbs and 36 miles NW of Valdez, Chugach Mountains; 61° 27' 35" N, 147° 04' 40" W; BGN 1965; (map 69). Named in 1957 by L. E. Nielsen because the peak is "a fitting throne of the gods." Nielsen was a member of the first ascent party on July 1, 1957.

Vallenar Bay: estuary, extends SE 2 miles, off Clarence Strait, on NW coast of Gravina Island, Alexander Archipelago; 55° 23' 30" N, 131° 51' 30" W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN. See Vallenar Point.

Vallenar Creek: stream, flows NW 4 miles to Vallenar Bay, on Gravina Island, Alexander Archipelago; 55° 22' 35" N, 131° 49' 40" W; BGN 1962; (map 3). Local name reported in 1961 by USFS.

Vallenar Point: point of land, N tip of Gravina Island, Alexander Archipelago; 55° 25' 35" N, 131° 51' 00" W; (map 3). Named by Capt. Vancouver, RN, "August 13, 1793, no doubt after his friend Ambrosio O'Higgins de Vallenar, Viceroy of Chile" (Wagner, 1937, p. 420); O'Higgins, of Ballenagh, Ireland, naturalized in Chile, became a national hero.

Vallenar Rock: rock, between Clarence Strait and Tongass Narrows, 0.6 miles NW of Vallenar Point, Gravina Island, Alexander Archipelago; 55° 25' 50" N, 131° 51' 46" W; BGN 1966; (map 3). Variant: Vallenar Rocks. Named in 1885 by Lt. Comdr. H. E. Nichols, USN.

Vallenar Rocks: rock, see Vallenar Rock.

Valley Creek: stream, flows S 5.2 miles to Bonanza Creek, 5 miles SW of Monzonite Hills, Nowitna Lowland; 64° 21' 12" N, 154° 40' 45" W; (map 98). Local name reported about 1952 by USGS.

Valpa Creek: stream, flows NE 3 miles to Canyon Creek which flows to Imuruk Basin, 33 miles NW of Nome, Seward Peninsula Highlands; 64° 56' N, 165° 54' W; (map 94). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Valpol, Mys: point of land, see Walpole, Point.

Valve Creek: stream, heads on Serpentine Ridge, flows NW 1.7 miles to Boulder Creek, 23 miles ESE of Tanana, Yukon-Tanana Highlands; 65° 07' 50" N, 151° 16' 50" W; (map 106). Local name reported in 1952 by USGS.

Van Auke Bay: cove, see Admiralty Cove.

Van Cleve Glacier: glacier, trends W to its terminus 1 mile E of Van Cleve Lake, 35 miles NE of Katalla, Chugach Mountains; 60° 42' N, 144° 17' W; (map 64). Named in 1910 by Lawrence Martin, USGS, for J. R. Van Cleve, general manager of the Copper River and Northwestern Railroad.

Van Cleve Lake: lake, 4 miles long, 7 miles E of Miles Lake and 35 miles NE of Katalla, Chugach Mountains; 60° 42' N, 144° 22' W; (map 64). Named for nearby Van Cleve Glacier and published in 1959 by USGS.

Van Hatten Creek: stream, flows NE 15 miles to Black River, 33 miles NNE of junction of Kandik and Yukon Rivers, Porcupine Plateau; 65° 48' N, 142° 02' W; (map 103). Local name published in 1956 by USGS.

Van Horn Ridge: ridge, in Glacier Bay National Monument, extends SW 3 miles, 1 mile W of Red Mountain and 40 miles SW of Skagway, St. Elias Mountains; 59° 02' N, 136° 03' W; (map 45). Named by American Geographical Society in 1947 for F. R. Van Horn, 1872-1933, American geologist who visited Muir Inlet in 1913. Van Horn was born in Ohio and was a graduate of Rutgers Univ. He taught geology and mineralogy at Rutgers Univ. and at the Case School of Applied Science. He was Director of the Cleveland Museum of Natural History, 1920-33. He was the author of numerous scientific papers mostly dealing with mineralogy.

Van Milligan Creek: stream, flows NE 1.5 miles to Fish Creek, 58 miles SW of Eagle, Yukon-Tanana Highlands; 64° 19' 15" N, 142° 44' 00" W; (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Van Sant Cove: bight, 0.5 miles across, off Davidson Inlet, on SE coast of Kosciusko Island, 40 miles NW of Craig, Alexander Archipelago; 55° 59' N, 133° 32' W; (map 4). Named in 1904 by E. F. Dickins, USC&GS "after the Superintendent of the Holbrook Fishery."

Van Wagenen, Mount: mountain, 7,038 ft., on Alaska-Canada boundary, 5.2 miles NW of Chilkoot Pass and 20 miles N of Skagway, Coast Mountains; 59° 44' 15" N, 135° 21' 30" W; BGN 1954; (map 45). Named in 1927 by the United States and Canada for James H. Van Wagenen, 1881-1935, civil engineer and IBC Commissioner. Van Wagenen was born in Iowa and was educated in Illinois and Missouri. He was topographic engineer with USGS in 1909. In 1915 he was appointed chief engineer of the U.S. section of the IBC; he was appointed Commissioner in 1929.

Vancouver Island: island, 0.1 miles long, off S tip of Duke Island, Alexander Archipelago; 54° 51' 15" N, 131° 20' 15" W; (map 2). Name published in 1885 by USC&GS; named for Capt. George Vancouver, RN, who, "in command of the sloop of war Discovery * * * made a surveying and exploring voyage from England to Northwest America and around the world from 1790 to 1795." The published account of this voyage was used extensively in the preparation of this dictionary.

Vancouver, Cape: promontory, on W tip of Nelson Island, 125 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 33' N, 165° 25' W; BGN 1944; (map 57). Discovered in 1821 by A. K. Etolin and named by him for Capt. George Vancouver, RN, 1757-98.

Vancouver, Mount: mountain, 15,700 ft., on Alaska-Canada boundary, 26 miles E of Mount Augusta and 55 miles N of Yakutat, St. Elias Mountains; 60° 20' N, 139° 41' W; (map 66). Variant: Boundary Peak 181. Named by W. H. Dall, USC&GS, in 1874, for Capt. George Vancouver, RN, 1757-98, British navigator who explored the SE coast of Alaska in 1792-94. The name was first published in the 1881 USC&GS Coast Pilot (p. 211). It was first climbed July 5, 1949 (Farquhar, 1959, p. 232).

Vandeput, Point: point of land, extends S 3 miles into Frederick Sound, 90 miles E of Sitka; Coast Mountains; 57° 01' 15" N, 133° 00' 00" W; (map 8). Variant: Mys Vendipot. Named by Capt. George Vancouver, RN, in 1794 for Adm. George Vandeput, RN, who died in 1800. It was reached by Lt. Joseph Whidbey, RN, on Aug. 16, 1794, and marked the end of one of his trips of exploration (Wagner, 1937, p. 420).

Vanderbilt Hill: locality, on E shore of Gastineau Channel, 1 mile SE of mouth of Lemon Creek and 3 miles NW of Juneau, Coast Mountains; 58° 20' 40" N, 132° 29' 30" W; (map 11). Apparently named for John W. Vanderbilt who lived in the vicinity between 1906-07, as watchman for one of the mining properties on Lemon Creek (DeArmond, 1957, p. 46).

Vanderbilt Point: point of land, on E bank of Chilkat River, 3 miles W of the summit of Tukgahgo Mountain and 18 miles SW of Skagway, St. Elias Mountains; 59° 18' 30" N, 135° 43' 10" W; (map 45). Variant: Povorotni. Named in 1880 by the U.S. Navy for Capt. J. M. Vanderbilt, captain of the trading steamer Favorite; the name was published by USC&GS in the 1883 Coast Pilot (p. 198 and pl. 1819). It is apparently equivalent to the Russian name Povorotni.

Vanderbilt Reef: reef, at junction of Favorite Channel and Lynn Canal, 3.6 miles NE of Little Island and 30 miles NW of Juneau, Coast Mountains; 58° 35' 30" N, 135° 01' 00" W; (map 11). Named in 1880 by Capt. L. A. Beardslee, USN, for the man who discovered the reef, Capt. J. M. Vanderbilt of the Northwest Trading Co. Capt. Vanderbilt came to Alaska about 1875 and became captain of the company's steamer Favorite, which did surveying work for the U.S. Navy. He died in 1890 (DeArmond, 1957, p. 30). The name was published by USC&GS in 1883 Coast Pilot (p. 194).

Vanderlann Peak: mountain, 1,810 ft., 1.1 miles N of Lake Nicholas, eastern Attu Island, Aleutian Islands; 52° 53' 39" N, 173° 14' 30" E; (map 13). Name shown on an AMS map published in 1948, and given by the U.S. Army during World War II. The name is not used today.

Vank Island: island, 3.5 miles long, 8 miles W of Wrangell, Alexander Archipelago; 56° 28' N, 132° 36' W; (map 6). Variant: Ostrov Vank. Published in 1848 on Russian Hydrog. Dept. Chart 1396 as "O[strov] Vank," or "Vank Island."

Vankagina River: stream, see Vankahini River.

Vankahini River: stream, one of five rivers on delta of Alsek River, flows S into Gulf of Alaska, 50 miles SE of Yakutat, Malaspina Coastal Plain; 59° 07' N, 138° 30' W; (map 46). Variant: Vankagina River. Tlingit Indian name reported by Capt. Tebenkov (1852, map 7), IRN, as "R[eka] Vankagina," or "Vankagina River." Name is not shown on recent maps.

Vanover: area, in NE part of Anchorage, between Glenn Highway and Lawrence, Cook Inlet Lowland; 61° 13' 12" N, 149° 48' 15" W; (map 69). Local name reported in 1954 by the city engineer of Anchorage.

Vantage Peak: peak, 5,585 ft., 0.5 miles N of Icy Basin, 3.8 miles SE of Exploration Peak and 26 miles NE of Juneau, Coast Mountains; 58° 39' 20" N, 134° 09' 50" W; (map 11). Name proposed by members of the Juneau Icefield Research Program and published in 1960 by USGS.

Vantage Rock: rock, at mouth of Seal Bay, 35 miles NE of Afognak, on NE coast of Afognak Island; 58° 23' 48" N, 152° 10' 30" W, BGN 1934; (map 43). This descriptive name published by USC&GS in 1932 "because of its [the island's] prominence."

Vanticlese Creek: stream, heads at Old John Lake, flows SE 23 miles to Kones River 42 miles NE of Christian, Brooks Range; 67° 53' N, 144° 23' W; (map 122). Kutcha-kutchin Indian name obtained in 1956 by T. E. Taylor, USGS.

Variegated Glacier: glacier, heads 0.5 miles W of Mount Jette, trends W 12 miles to its 1961 terminus, 1.5 miles E of mouth of Russell Fiord and 34 miles NE of Yakutat, St. Elias Mountains; 60° 00' 00" N, 139° 22' 30" W; (map 46). Descriptive name given by Tarr and Martin (1906, p. 147), USGS, "because of its varicolored moraines."

Vashichagat: locality, see Vagitchitchate.

Vasileva Rock: rock, see Vasilief Rock:

Vasileva, Banka: rock, see Vasilief Rock.

Vasileva, Mel: rock, see Vasilief Rock.

Vasileva, Podvodnaya Banka: shoal, see Vasilief Bank.

Vasilevka: shoal, see Vasilief Bank.

Vasilief Bank: shoal, 1.5 miles long, at N entrance to Redoubt Bay, 7 miles SW of Sitka, Alexander Archipelago; 56° 57' 15" N, 135° 26' 00" W; (map 5). Variant: Podvodnaya Banka Vasileva, Vasilevka. Named "Podvodnaya banka Vasileva," meaning "Vasilev's submerged bank," in 1809 by the Russians; published by Lt. Sarichev (1826, map 19), IRN. It was probably named for the navigator Ivan Vasiliev the first, IRN, who made surveys in this vicinity in 1809.

Vasilief Bay: bay, 1 mile across, on SE coast of Atka Island, Aleutian Islands; 52° 06' 20" N, 174° 22' 00" W; (map 18). Named for the pilot, Ens. Vasiliev, IRN, and published as "Bukh[ta] Vasilieva," or "Vasiliev Bay," by Capt. Lutke (1836, p. 317), IRN. Vasili means "Basil" or "William."

Vasilief Point: promontory, see Corwin, Cape.

Vasilief Reef: reef, see Williams Reef.

Vasilief Rock: rock, in Chiniak Bay, 1 mile S of Woody Island and 4 miles SE of Kodiak, Kodiak Island; 57° 45' 05" N, 152° 19' 35" W; (map 34). Variant: Banka Vasileva. Name published as "Banka Vasileva" meaning "Vasiliev Bank" by Sarichev (1826, map 16) and given its present form by USC&GS in 1907.

Vasilief Rock: rock, on W coast of Baranof Island, 1.3 miles S of Biorka Island and 19 miles SW of Sitka, Alexander Archipelago; 56° 49' 00" N, 135° 32' 30" W; (map 5). Variant: Mel Vasileva, Vasileva Rock. Named "Mel Vasileva," meaning "Vasilev's Shoal," in 1809 by the Russians. See Vasilief Bank.

Vassar Glacier: glacier, trends SE 4.3 miles to College Fiord, 2 miles W of College Point and 52 miles W of Valdez, Chugach Mountains; 61° 12' N, 147° 47' W; (map 69). Named by members of the Harriman Alaska Expedition in 1899 for Vassar College, Poughkeepsie, N.Y.

Vassar Heights: ridge, see Chicken Ridge.

Vasyleva, Podvodnaya banka: reef, see Williams Reef.

Vatney Gulch: ravine, see Shaft Gully.

Vaughan Lewis Glacier: glacier, heads 2.5 miles W of Mount Moore, trends NW 3 miles to Gilkey Glacier, 2.5 miles W of gizzard Peak and 37 miles N of Juneau, Coast Mountains, 58° 49' 45" N, 134° 17' 25" W; BGN 1962; (map 11). Named in 1962 by members of the Juneau Icefield Research Program for W. Vaughan Lewis, English geomorphologist and world-renowned expert on glaciers.

Vault Creek: stream, flows NW 7 miles to Chatanika River, 15 miles N of Fairbanks, Yukon-Tanana Highlands; 65° 04' 15" N, 147° 45' 40" W. (map 105). Variant: Moose Creek. Local name originally reported in 1903 as Moose Creek by USGS; however, a manuscript map by C. W. Joynt dated 1905 shows it as Vault Creek.

Vault: locality, on right bank of Vault Creek, 0.5 miles E of Treasure Creek and 12 miles N of Fairbanks, Yukon-Tanana Highlands; 65° 02' N, 147° 42' W; (map 105). Name of a former mining camp published in 1907 by USGS. A post office was established here in 1908 and discontinued in 1909 (Ricks, 1965, p. 69).

Vavilofskaja Gavan: bay, see Baralof Bay.

Vcevidofski: mountain, see Vsevidof, Mount.

Veahna Creek: stream, flows NW 20 miles to Kuskokwim River 7.7 miles NE of its junction with Holokuk River, 6 miles NE of Little Mountain Village, Kilbuck-Kuskokwim Mountains; 61° 35' 45" N, 158° 24' 00" W; BGN 1948; (map 72). Native name said to mean "I don't know river"; reported in 1945 by USGS.

Vecelovskoi, Cape: point of land, see Cheerful, Cape.

Vedzh, Ostrov: islands, see Wedge Islands.

Vega Bay: bight, 7.5 miles across, faces SE to Pacific Ocean, on southern Kiska Island, Aleutian Islands; 51° 53' 00" N, 177° 00' 24" E; BGN 1937; (map 14). Named for the U.S.S. Vega, a supply ship for the U.S. Navy Exploring Expedition of 1935.

Vega Point: point of land, S tip of Kiska Island, Aleutian Islands; 51° 50' N, 177° 19' E; BGN 1937; (map 14). Named for the U.S.S. Vega, supply ship for the U.S. Navy Exploring Expedition of 1935.

Vegas Islands: islands, 1 mile long, at NE end of Sealed Passage, N of Duke Island, Alexander Archipelago; 54° 58' 00" N, 131° 28' 00" W; (map 2). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Veh-tenjerlow: lakes, see Vetenjerlo Lakes.

Vein Mountain: mountain, 2,375 ft., on Althorp Peninsula, on Chichagof Island, 1.4 miles E of Column Point and 35 miles W of Hoonah, Alexander Archipelago. 58° 07' 10" N, 136° 24' 20" W; (map 10). Local name published by USGS in the 1950's.

Vein Point: point of land, S tip of island in Ogden Passage, off W coast of Chichagof Island, 3.2 miles SW of Chichagof, Alexander Archipelago; 57° 37' 30" N, 136° 08' 45" W; (map 9). Name published in 1928 by USC&GS on Chart 8280.

Veleska Lake: lake, 0.9 miles long, at foot of Tunis Mountain, 4.7 miles W of junction of South Fork Kuskokwim and Post Rivers and 75 miles SE of McGrath, Alaska Range; 62° 24' 30" N, 153° 36' 40" W; (map 80). Local name obtained in 1958 by USGS.

Velvet Creek: stream, flows S 4 miles to Barnum Creek, 13 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 18' N, 161° 26' W; (map 53). Local name reported in 1954 by USGS.

Vendipot, Mys: point of land, see Vandepot, Point.

Venetia Creek: stream, flows SW 7 miles to Eldorado River, 23 miles NW of Solomon, Seward Peninsula Highlands; 64° 47' N, 164° 58' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Venetie Lake: lake, 2.4 miles long, 3 miles N of Venetie and 40 miles SW of Christian, Yukon Flats; 67° 03' N, 146° 21' W; (map 122). Local name reported in 1956 by T. E. Taylor, USGS.

Venetie Landing: locality, on N bank of Yukon River, 20 miles NW of Fort Yukon, Yukon Flats; 66° 36' 40" N, 145° 59' 40" W; (map 119). Local name obtained in 1956 by USGS; named for the Venetie Indian Reservation on which the landing is located.

Venetie: village, pop. 107, 41 miles SW of Christian, Yukon Flats; 67° 01' N, 146° 25' W; (map 122). Kutcha-kutchin Indian village. Post office established in 1938 (Ricks, 1965, p. 69).

Veniaminof Crater: volcano, see Veniaminof, Mount.

Veniaminof Volcano: volcano, see Veniaminof, Mount.

Veniaminof, Mount: volcano, 8,225 ft., on Aleutian Peninsula, Aleutian Range; 56° 12' N, 159° 24' W; (map 30). Variant: Veniaminof Crater, Veniaminof Volcano, Vulkan Wenjaminow. Constantin Grewingk in 1849 wrote "We have named this point on our maps 'Vukan Wenjaminow.'" Named in honor of Father Ioann [Ivan Popov] Veniaminov, 1797-1879, Russian Orthodox missionary priest, Bishop of Russian America, and Metropolitan of Moscow, whose writings on Aleut language and ethnology are still standard references. The

name "Veniaminof Crater" is shown on a 1927 USGS map , presumably intended to apply only to the volcano's crater.

Venisa Point: point of land, in Glacier Bay National Monument, 0.8 miles E of Sugarloaf Island and 53 miles NW of Hoonah, St. Elias Mountains; 58° 18' 40" N, 136° 50' 20" W; BGN 1930; (map 10). Variant: Garnet Point. So named Garnet Point by USC&GS in 1926, because the rocky face of the point is studded with small particles resembling garnets. The name was changed in 1929 to the Russian word for garnet (venisa) "in order to eliminate duplication."

Venizali: locality, see Vinasale.

Vent Mountain: crater, see Aniakchak Crater.

Vent Mountain: mountain, 3,200 ft., on Alaska Peninsula, on S slope of Aniakchak Crater, 19 miles SE of Port Heiden Airfield, Aleutian Range; 56° 53' N, 158° 09' W; (map 30). Descriptive name given in 1923 by R. H. Sargent, USGS.

Ventosa Island: island, see Kochu Island.

Ventura Creek: stream, flows W 0.5 miles to Alma Creek, 18 miles NE of Solomon, Seward Peninsula Highlands; 64° 48' N, 164° 10' W; (map 95). Prospectors' name reported on a 1902 prospector's manuscript map.

Ventura, La: island, "in the northeast part of San Alberto Bay, Bucareli Bay," Alexander Archipelago; (map 4). Variant: Bentura Island, Isla de Bentura. Spanish name referring to a "woman innkeeper" given by the 1779 Arteaga expedition (Wagner, 1937, p. 522).

Venturi Lake: lake, 1 mile across, 3 miles SW of Seven Sisters and 31 miles W of Augustine Island, Aleutian Range; 59° 23' N, 154° 17' W; (map 51). Local name published in 1954 by USGS.

Vera Bay: bight, 1.1 miles across, on N coast of Long Island; 6 miles E of Kodiak, Kodiak Island; 57° 47' 10" N, 152° 14' 00" W; (map 34). Local name reported in 1949 by USGS.

Verdant Creek: stream, flows N 24 miles to Okpikruak River 11 miles S of its junction with Okokmilaga River, Brooks Range; 68° 35' N, 153° 29' W; (map 133). So named in 1949 by W. W. Patton, USGS, during exploration of Naval Petroleum Reserve No. 4, because "during the summer months the broad valley through which this creek flows supports a thick cover of green tundra vegetation."

Verdant Island: island, 0.3 miles across, at mouth of Icy Bay, off E coast of Kenai Peninsula, 4 miles SW of Chenega, Chugach Mountains; 60° 16' N, 148° 11' W; BGN 1934; (map 63). So named by a USC&GS field party in 1933, "because it is heavily wooded and has a green appearance."

Verdant Island: island, in Aialik Bay, 0.3 miles SE of Harris Peninsula and 32 miles SW of Seward, Chugach Mountains; 59° 43' N, 149° 44' W; (map 49). Local name reported in the early 1950's by USC&GS.

Verde Island: island, 0.5 miles long, in Port Refugio, off E coast of Suemez Island, 15 miles SW of Craig, Alexander Archipelago; 55° 17' N, 133° 19' W; (map 4). Variant: Isla Verde, Ysla Verde. Spanish name given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Isle Verde," meaning "Green Island."

Verde Point: point of land, N point of entrance to Port Refugio, on E coast of Suemez Island, Alexander Archipelago; 55° 18' 30" N, 133° 17' 45" W; (map 4). Variant: Ostrov Verde, Punta Verde, Point Verde. Spanish name given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Punta Verde," meaning "Green Point."

Verde, Isla: island, see Verde Island.

Verde, Ostrov: point of land, see Verde Point.

Verde, Point: point of land, see Verde Point.

Verde, Punta: point of land, see Verde Point.

Verde, Ysla: island, see Verde Island.

Verdure Point: point of land, on W bank of Portland Canal, 0.7 miles S of Davis River, Coast Mountains; 55° 45' N, 130° 10' W; (map 3). Descriptive name given in 1868 by Staff Comdr. David Pender, RN.

Verkhui, Ozero: lake, see Beaver Lake.

Vermont Creek: stream, flows 3 miles S to Pacific Ocean, 2.6 miles NE of Kettle Cape, on E coast of Umnak Island, Aleutian Islands; 53° 18' N, 168° 14' W; (map 22). Name published by Byers (1959, pl. 41), USGS.

Vermont Creek: stream, flows E 2 miles from Vermont Dome to Hammond River, 7 miles N of Wiseman, Brooks Range; 67° 31' N, 150° 06' W; (map 124). Local name taken from Vermont Dome; reported by Robert Marshall about 1930.

Vermont Dome: mountain, 4,560 ft., 9 miles N of Wiseman, Brooks Range; 67° 31' 30" N, 150° 13' 00" W; BGN 1932; (map 124). Local name in general use since 1901; reported by Robert Marshall in 1932.

Vermont Pass: pass, between heads of Nolan and Right Fork Vermont Creeks 2 miles SW of Vermont Dome and 7 miles N of Wiseman, Brooks Range; 67° 30' N, 150° 12' W; (map 124). Local name taken from Vermont Dome; reported by Robert Marshall about 1930.

Vermouth Brook: stream, see Minor Creek.

Veronica, Lake: lake, see Lieuy Lake.

Verstova Mountain: mountain, see Verstovia, Mount.

Verstovaia Peak: mountain, see Verstovia, Mount.

Verstovaia, Mount: mountain, see Verstovia, Mount.

Verstovaya, Gora: mountain, see Verstovia, Mount.

Verstovia, Mount: mountain, 3,300 ft., 2.5 miles E of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 03' 30" N, 135° 16' 00" W, BGN 1897; (map 9). Variant: Gora Verstovaya, Mount Verstovaia, Verstova Mountain, Verstovaia Peak, Werstberg Mountain. Russian name meaning "verst [Russian unit of distance equal to 0.6629 miles]" given in 1809 by the navigator Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "Gore Verstovaya."

Verstovia, Mount: mountain, see Arrowhead Peak.

Vert Island: island, 0.1 miles long, 0.2 miles SW of Scott Island and 19 miles N of Augustine Island, Aleutian Range; 59° 38' N, 153° 26' W; BGN 1916; (map 11). So named in 1913 by USC&GS because of the green color of the island.

Very Inlet: estuary, extends S 4 miles NE from Foggy Bay along Revillagigedo Channel, Coast Mountains; 54° 58' 45" N, 130° 55' 30" W; (map 2). Local name reported by H. C. Fassett, USBF, in 1904.

Veselofski, Cape: point of land, see Cheerful, Cape.

Veselofski: locality, see Cheerful.

Veselovskiy, Mys: point of land, see Cheerful, Cape.

Vesoki: island, see High Island.

Vesolia Mista: locality, just NE of Big Lake, on NE coast of St. Paul Island, in Pribilof Islands; 57° 13' 30" N, 170° 08' 30" W; (map 38). Russian name reported by Elliott (1881, p. 20) meaning "jolly place"; the site of one of the first settlements on St. Paul Island "where much carousing was indulged in."

Vesper Peak: peak, 4,505 ft., E of Ptarmigan Glacier, 1.3 miles NW of Observation Peak and 5 miles NE of Juneau, Coast Mountains; 58° 22' 15" N, 134° 21' 45" W; (map 11). Local name published in 1962 by USGS.

Vesta Bay: estuary, extends W 1.4 miles off Kaigani Strait, on E coast of Dall Island, Alexander Archipelago; 54° 56' 15" N, 132° 54' 00" W; BGN 1908; (map 1). Local name recorded in 1907 by Capt. E. F. Dickins, USC&GS.

Vesta Point: point of land, N point of entrance to Vesta Bay, on E coast of Dall Island, Alexander Archipelago; 54° 56' 20" N, 132° 54' 20" W; BGN 1928; (map 1). So named in 1927 by Capt. R. S. Patton, USC&GS, "because of its proximity to Vesta Bay and also because the triangulation station Vesta is on this point."

Vesta, Mount: mountain, 2,095 ft., 0.6 miles S of Rose Inlet, on W coast of Dall Island, Alexander Archipelago; 54° 56' N, 132° 58' W; (map 1). Name derived from Vesta Bay; published in 1951 by USGS.

Vesuvius Valley: valley, extends 2.5 miles N of Copper Mountain, 38 miles NW of Cordova, Chugach Mountains; 60° 54' N, 146° 35' W; (map 64). Local name reported by Capps and Johnson (1915, pl. 1), USGS. The valley derived its name from a mining claim in the area.

Veta Bay: bay, 3 miles wide, on W coast of Baker Island, 21 miles SW of Craig, Alexander Archipelago; 55° 21' N, 133° 39' W; BGN 1923; (map 4). Spanish word meaning “a vein (or stripe of mineral),” given in 1923 by USC&GS, because “it is bordered by bluffs of veined or striped rock.”

Veta Creek: stream, flows SE 6 miles to Kechumstuk Creek, 68 miles SW of Eagle, Yukon-Tanana Highlands; 64° 08' 30" N, 142° 54' 40" W; (map 102). Local name derived from Mount Veta; published in 1956 by USGS.

Veta Point: point of land, on W coast of Baker Island, N point of entrance to Veta Bay, Alexander Archipelago; 55° 22' 05" N, 133° 38' 45" W; (map 4). Named in 1923 by USC&GS. See Veta Bay.

Veta, Mount: mountain, 5,825 ft., 15 miles NW of Kechumstuk Mountain and 68 miles SW of Eagle, Yukon-Tanana Highlands; 64° 12' N, 143° 00' W; (map 102). Named by prospectors and shown on a manuscript map compiled in 1905 by Maj. William A. Glassford, USA.

Vetenjerlo Lakes: lakes, between Kokacho and Marten Creeks, 35 miles NW of Fort Yukon, Yukon Flats; 66° 59' N, 145° 56' W; (map 119). Variant: Veh-tenjerlow. Kutchin Indian name obtained in 1956 by T. E. Taylor, USGS.

Vettatrin Lake: lake, 1 mile long, 5 miles NW of Tetsyeh Mountain and 28 miles NE of Arctic Village, Brooks Range; 68° 30' N, 145° 04' W; (map 136). Kutchin Indian name obtained at Arctic Village in 1956 by T. E. Taylor, USGS.

Vettekwi Lake: lake, 3 miles long, 2.5 miles NE of Arctic Village, Brooks Range; 68° 09' N, 145° 25' W; (map 136). Kutchin Indian name obtained at Arctic Village in 1956 by T. E. Taylor, USGS.

Vexation Point: point of land, easternmost point of Woody Island, in Wrangell Narrows, off coast of Lindenberg Peninsula, Kupreanof Island, 11 miles S of Petersburg, Alexander Archipelago; 56° 39' 15" N, 132° 55' 40" W; (map 6). Named in 1869 by Comdr. R. W. Meade, USN, for charting purposes; “in memory of the annoyance experienced at this point in taking the Saginaw through Wrangell strait.”

Vi Creek: stream, flows SSE 8 miles to Middle Fork Koyukuk River, 1.2 miles N of mouth of Gold Creek and 36 miles W of Chandalar, Brooks Range; 67° 32' N, 149° 52' W; (map 123). Variant: Adams Creek. Local name reported in 1956 by T. E. Taylor, USGS.

Viapan Lake: lake, 0.9 miles long, on NW shore of Cook Inlet, 4 miles NE of Tyonek, Cook Inlet Lowland; 61° 08' 00" N, 151° 06' 20" W; (map 70). Local name reported in 1958 by USGS.

Vichnefski Rock: rock, in Sumner Strait, off NW coast of Zarembo Island, Alexander Archipelago; 56° 26' 15" N, 133° 01' 00" W; (map 6). This feature was probably named in the middle 1800's by the Russians.

Vickery Creek: stream, see Victor Creek.

Vicory Creek: stream, see Victor Creek.

Victari Creek: stream, see Victoria Creek.

Victor Creek: stream, heads at terminus of Mother Goose Glacier, flows W 5 miles to E shore of Kenai Lake, 17 miles N of Seward, Chugach Mountains; 60° 21' 45" N, 149° 21' 15" W; BGN 1912; (map 63). Variant: Victory Creek, Vicory Creek, Vickery Creek. Local name published in 1910 by D. H. Sleem on a map of Central Alaska.

Victor Gulch: ravine, at head of Nugget Creek, extends 2.5 miles NW from Poss Mountain, 35 miles W of Chandalar, Brooks Range; 68° 28' N, 149° 52' W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Victor Gulch: ravine, extends N 1.2 miles to left bank of Innoko River, 1.2 miles SE of Ophir and 30 miles NW of McGrath, Kilbuck- Kuskokwim Mountains; 63° 08' N, 156° 29' W; (map 90). Prospectors' name reported in 1912 by A. G. Maddren and H. M. Eakin, USGS.

Victor Island: island, 1.5 miles across, formed by Victor Slough and Yukon River, 12 miles SW of Beaver, Yukon Flats; 66° 14' 30" N, 147° 46' 00" W; (map 118). Locally named for a "sourdough" who had a cabin on the island, as shown on William Yanert's 1916 manuscript map (in Stuck, 1917, map facing p. 122).

Victor Lake: lake, 0.8 miles long, 0.2 miles SE of Olaf Lake and 19 miles SE of Beaver, Yukon Flats; 66° 12' 00" N, 146° 50' 20" W; (map 119). Local name obtained in 1956 by USGS.

Victor Slough: channel, in Yukon River, flows SW 2.6 miles around N side of Mickey Island, 30 miles NE of Ruby, Nowitna Lowland; 64° 56' N, 154° 33' W; (map 98). Riverboat pilots' name shown on 1940 "Navigation Chart, Tanana-Yukon Rivers" of the River Boat Service, U.S. Dept. of Interior.

Victor Slough: stream, anabranch of Yukon River, 2 miles long, N of Victor Island and 13 miles SW of Beaver, Yukon Flats; 66° 15' 30" N, 147° 47' 45" W; (map 181). Local name derived from Victor Island; reported in 1956 by T. E. Taylor, USGS.

Victoria Creek: stream, flows N 15 miles to Kuskokwim River, 6.3 miles SW of Little Mountain Village and 27 miles E of Aniak, Kilbuck-Kuskokwim Mountains; 61° 31' 50" N, 158° 44' 20" W; BGN 1948; (map 72). Local name given when the steamboat Victoria was frozen in at the stream's mouth one winter; reported in 1945 by USGS.

Victoria Creek: stream, flows N to McKinley Creek which flows to Boulder Creek, about 25 miles NW of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M Davidson and B. D. Blakeslee; this feature has not been positively identified.

Victoria Creek: stream, flows NE 37 miles to Beaver Creek, 75 miles W of Circle, Yukon-Tanana Highlands; 65° 48' 25" N, 146° 39' 00" W; (map 104). Variant: Golden Creek. Named by prospectors and reported in 1902 by Lt. Hjalmar Erickson, USA. Named for the riverboat Victoria.

Victoria Creek: stream, flows S 1 mile to Venetia Creek, 21 miles NW of Solomon, Seward Peninsula Highlands; 64° 49' N, 164° 48' W; (map 95). Variant: Victari Creek. Prospectors' name shown as "Victari" on a map by David Fox, Jr., dated 1901.

Victoria Creek: stream, flows SW 2 miles, joins Johnson Creek to form Smallwood Creek, 13 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 57' 25" N, 147° 21' 00" W; (map 100). Local name published in 1908 by USGS.

Victoria Creek: stream, flows SW 3 miles to Coal Creek which flows to Solomon River, 14 miles NE of Solomon, Seward Peninsula Highlands, 64° 45' N, 164° 14' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Victoria Creek: stream, see Lone Creek.

Victoria Mountain: mountain, 4,588 ft., 50 miles ENE of Livengood and 80 miles W of Circle, Yukon-Tanana Highlands; 65° 47' N, 146° 56' W; (map 104). Name derived by prospectors from Victoria Creek and published in 1951 by USGS.

Victory Creek: stream, see Victor Creek.

Viekhoda: point of land, see Outlet Cape.

Viekoda Bay: bay, extends SE 18 miles, off Shelikof Strait, on N coast of Kodiak Island; 57° 55' N, 153° 15' W; BGN 1909; (map 34). Russian name meaning "outlet" given in 1909 by USC&GS. The name was derived from "M[ys] Vykhoda," or "Outlet Cape," given by Sub-Lt. Mikhail Murashev in 1839 or 1840 for the eastern point of entrance to this bay, and was published in 1849 on Russian Hydrog. Dept. Chart 1425.

Viesokaia: volcano, see Redoubt Volcano.

Viesoki Island: island, 750 ft. long, in mouth of Middle Bay, 6 miles S of Kodiak, Kodiak Island; 57° 42' 15" N, 152° 26' 15" W; BGN 1941; (map 34). Variant: Ostrov Vysokoy, Visokoi Rock. Transliteration by USC&GS in 1910 of the name "Os[trov] Vysokoy," meaning "High Island"; published by Sarichev (1826, map 16), IRN.

Viesokie Kamen: rock, see Pillar Rock.

Viesokoi Rock: rock, 0.1 miles across, 1.8 miles NW of Goddard, on W coast of Baranof Island, Alexander Archipelago; 56° 52' 10" N, 135° 25' 00" W; (map 5). Variant: High Rock, High Rock Islet Ostrov Vysokoy Kamen. Named in 1809 by the Russian navigator, Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Vysokoy Kamen," meaning "high rock island."

Viesokoi: island, see High Island.

Vieth Ridge: ridge, 2 miles long, E of Ballentine Creek, on northern Attu Island, Aleutian Islands; 53° 57' 30" N, 173° 04' 00" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II; name shown on an AMS map published in 1948.

View Cove: estuary, extends NW 5 miles off Baldy Bay, on E coast of Dall Island, Alexander Archipelago; 55° 03' N, 132° 59' W; (map 4). Named in 1881 by Lt. Comdr. H. E. Nichols, USN.

Vigor Creek: stream, flows SW 3 miles to Tolovana River, 14 miles SW of Livengood, Yukon-Tanana Highlands; 65° 20' N, 148° 41' W; (map 105). Local name published by USGS in the 1950's.

Viking Rock: rock, on W shore of Redfish Bay, 9.9 miles NW of village of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 19' 05" N, 134° 52' 20" W; (map 5). Named in 1897 by Lt. Comdr. J. F. Moser, USN, commander of USBF steamer Albatross.

Village Cove: cove, 0.4 miles across, N of St. Paul, on S coast of St. Paul Island, in Pribilof Islands; 57° 07' 40" N, 170° 16' 40" W; (map 38). Local name recorded about 1900 by USC&GS.

Village Cove: cove, see Zolotoi Bay.

Village Creek: stream, flows NE 7.7 miles to Kuskokwim River 0.6 miles S of its junction with Crooked Creek, 34 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 51' 40" N, 158° 07' 40" W; BGN 1944; (map 72). So named because the mouth of the stream is by the village of Crooked Creek; reported in 1944 by USGS.

Village Creek: stream, flows NW 4 miles to Bering Strait at Wales, on Cape Prince of Wales, 55 miles NW of Teller, Seward Peninsula Highlands; 65° 36' N, 168° 05' W; (map 111). Variant: Mission Creek. Prospectors' name reported in 1907 by Knopf (1908, pl. 1), USGS.

Village Creek: stream, on S coast of Alaska Peninsula, flows E 4 miles to a lagoon at head of Aniakchak Bay, 16 miles SW of Cape Kunmik, Aleutian Range; 56° 43' N, 157° 35' W; (map 31). Local name reported in 1951 by USGS.

Village Creek: stream, on Seward Peninsula, flows N 6 miles to Lopp Lagoon, 8 miles NE of Cape Prince of Wales and 52 miles NW of Teller, Kotzebue-Kobuk Lowland; 65° 40' N, 167° 52' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Village Ekouk: village, see Ekuuk.

Village Island: island, 0.2 miles long, in Cat Passage, 0.4 miles SW of Cat Island, Alexander Archipelago; 55° 00' 40" N, 131° 17' 00" W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN; so called because he "found an Indian village here containing 15 houses."

Village Islands: islands, 0.6 miles long, in Zimovia Strait, between Wrangell and Etolin Islands, 20 miles S of Wrangell, Alexander Archipelago; 56° 12' 30" N, 132° 17' 30" W; (map 6). Variant: Village Islets. So named in 1896 by Lt. Comdr. A. S. Snow, USN, because they are opposite a deserted Indian village.

Village Islands: islands, group extends 1.7 miles in Uganik Bay, 1.6 miles NW of Rock Point, on N coast of Kodiak Island; 57° 47' 15" N, 153° 32' 30" W; (map 34). Named in 1897 by Lt. Comdr. J. F. Moser, USN, of the USBF steamer Albatross.

Village Islets: islands, see Village Islands.

Village Katmay: locality, see Katmai.

Village Point: point of land, at Metlakatla, on W coast of Annette Island, Alexander Archipelago; 55° 08' 00" N, 131° 34' 30" W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN; so called "because of an Indian village here."

Village Point: point of land, N point of entrance to Chaik Bay, on W coast of Admiralty Island, 11 miles S of Angoon, Alexander Archipelago; 57° 20' 30" N, 134° 34' 20" W; (map 9). Named in 1869 by Comdr. R. W. Meade, USN, and published on Hydrog. Chart 225. So named because a mile to the east was a very populous Tlingit Indian village named Letushkwin sometimes called Old Kootznahoo or Khudsnu (USC&GS, 1883, p. 175).

Village Point: point of land, see Cabin Point.

Village Reef: reef, in Hot Springs Bay, off E coast of Tanaga Island, Aleutian Islands; 51° 47' 00" N, 177° 47' 45" W; (map 17). Name published by USC&GS in 1956 on Chart 9145.

Village Reefs: reefs, 1 mile long, 1 mile E of Afognak, off S coast of Afognak Island; 58° 00' 30" N, 152° 45' 00" W; (map 43). Local name reported in 1900 by Lt. Comdr. J. F. Moser, USN, commander of the USBF steamer Albatross.

Village Rock: rock, along W coast of Admiralty Island, at W end of Kootznahoo Inlet, 0.1 miles N of Angoon, Alexander Archipelago; 57° 30' 20" N, 134° 34' 50" W; (map 9). Named by Comdr. R. W. Meade, USN, and published in 1869 on Hydrographic Chart 225. So named because the village of Angoon is just to the S.

Village Rock: rock, in Jinhi Bay, NE coast of Tuxekan Island, Alexander Archipelago; 55° 53' 20" N, 133° 15' 15" W; (map 4). Local name published in 1964 by USC&GS.

Village Shoal: shoal, 0.5 miles across, at mouth of Port Mulgrave, on Khantaak Island, 2 miles NW of Yakutat, Malaspina Coastal Plain; 59° 34' 10" N, 139° 46' 30" W; (map 46). Named by Lt. Giles B. Harber, USN, in 1892. Name published by USC&GS in 1904 on Chart 8455.

Village Slough: estuary, see Esatkuat.

Village Spit: spit, on Alaska Peninsula SW of village of Port Moller, on W shore of Herendeen Bay, Bristol Bay Lowland; 55° 48' 15" N, 160° 54' 00" W; (map 28). Local name published by USC&GS in 1963.

Villaluenga, Point: point of land, in Glacier Bay National Monument, N shore of Cross Sound, 0.6 miles W of Cape Spencer and 46 miles NW of Hoonah, St. Elias Mountains; 58° 12' 45" N, 136° 40' 45" W; BGN 1930; (map 10). Named by Dufлот de Mofras in his "Exploration du Territoire de Oregon, 1830- 42," for an unidentified point on Cape Spencer. A sharp point drawn in this area on his chart resembles this point more than any of the others. The name is probably a surname.

Villaluenga, Punta de: point of land, see Cape Spencer.

Villard Glacier: glacier, on N side of Mt. Villard, trends NE 2 miles to its 1964 terminus, 12 miles S of Skagway, Coast Mountains; 59° 17' 30" N, 135° 15' 30" W; (map 45). Named by W. H. Dall, USC&GS, for Henry Villard, and published in the 1883 Alaska Coast Pilot (pl. 1819).

Villard, Mount: mountain, 4,990 ft., 5 miles N of mouth of Katzehin River, on Chilkoot Inlet, 13 miles S of Skagway, Coast Mountains; 59° 16' 15" N, 135° 18' 10" W; (map 45). Probably named by W. H. Dall, USC&GS, in 1883 for Henry Villard, 1835-1900, American journalist and financier. The name was published in the 1883 Coast Pilot (p. 199). Henry Villard was born in Germany and came to the United States in 1853. He was a newspaper reporter and reported the Lincoln-Douglas debates. He was also a Civil War correspondent.

Vinasahle Mountain: mountain, see Vinasale Mountain.

Vinasahle: locality, see Vinasale.

Vinasale Mountain: mountain, 1,683 ft., on E bank of Kuskokwim River, 18 miles S of McGrath, Kilbuck-Kuskokwim Mountains; 62° 42' N, 155° 42' W; (map 80). Variant: Sopka Vinisali, Vinasahle Mountain. This is probably an Ingalik Indian name recorded in 1842-44 by Lt. L. A. Zagoskin, IRN, as "Sopka Vinisali." See Vinasale.

Vinasale: locality, on left bank of Kuskokwim River, 20 miles S of McGrath, Kilbuck-Kuskokwim Mountains; 62° 40' 30" N, 155° 44' 30" W; (map 80). Variant: Gorod Vinisali, Venizali, Vinasahle, Vinisahle. Ingalik Indian village and later a trading post reported in 1842-44 by Lt. L. A. Zagoskin, IRN, as "G[orod] Vinisali." W. S. Post and J. E. Spurr, USGS, who visited the place August 1, 1898, found it deserted, and Post recorded "Vinasahle" on his fieldsheet. It is reported to have been abandoned about 1935 (Hosley, 1961, p. 112). The population in 1890 was 140.

Vincennes Point: point of land, on S shore of Expedition Harbor, Bay of Islands, Adak Island, Aleutian Islands; 51° 47' 18" N, 176° 44' 50" W; BGN 1936; (map 17). Variant: Middle Point. Named by the U.S. Navy Hydrog. Office in 1936 for the U.S.S. Vincennes, flagship of the North Pacific Exploring Expedition in 1855 (in A. B. Cole, 1947, p.5).

Vincennes, Mount: mountain, 1,942 ft., on W Adak Island, Aleutian Islands; 51° 46' 05" N, 176° 46' 30" W; BGN 1936; (map 17). Named by the U.S. Navy Hydrog. Office for the U.S.S. Vincennes. See Vincennes Point.

Vincent Island: island, see Hogan Island.

Vincent Island: island, see Klokachef Island.

Vincent Reef: reef, SW of Chichagof Island, off SE Coast of Klokachef Island, 20 miles SE of Chichagof, Alexander Archipelago; 57° 24' N, 135° 52' W; BGN 1930; (map 9). Named in 1930 by USC&GS "for Vincent Point from which the reef extends."

Vincent, Point: point, on SE coast of Klokachef Island, SW of Chichagof Island, 20 miles SE of Chichagof, Alexander Archipelago; 57° 24' N, 135° 52' W; BGN 1930; (map 9). Name reported in 1930 by USC&GS.

Vincents Camp: locality, on right bank of Koyukuk River, 14 miles W of Roundabout Mountain, Koyukuk Lowland; 65° 33' N, 157° 02' W; (map 108). Local name obtained at Huslia by USGS in 1954 or 1955.

Vinegar Creek: stream, flows SW 1.4 miles to East Fork Solomon River, 11 miles NE of Solomon, Seward Peninsula Highlands; 64° 42' N, 164° 17' W; (map 95). Prospectors' name reported on a 1902 prospector's manuscript map.

Vinisahle: locality, see Vinasale.

Vinkhem, Ostrov: island, see Wingham Island.

Viola Creek: stream, see Violet Creek.

Violet Creek: stream, flows SW 1 mile to Hazel Creek, 7 miles NE of Nome, Seward Peninsula Highlands; 64° 33' N, 165° 13' W; (map 94). Variant: Viola Creek. Prospectors' name shown on the 1902 "Map of the Nome and Snake River Country" by J. M. Davidson.

Virgin Bay: cove, 0.6 miles wide, on E shore of Tatlitlek Narrows, 40 miles NW of Cordova, Chugach Mountains; 60° 53' 30" N, 146° 42' 30" W; (map 64). Variant: Gladhaugh Bay. Local name reported by Capps and Johnson (1915, pl. 1), USGS. The Bay has also been called "Gladhaugh Bay" for M. O. Gladhaugh who, with C. Peterson, staked mining claims here in 1897.

Virgin Creek: stream, flows W 3.5 miles to Glacier Creek, 1 mile NE of Girdwood and 35 miles SE of Anchorage, Chugach Mountains; 60° 57' 05" N, 149° 08' 30" W; (map 63). Local miners' name reported in 1899 by Lt. Herron (1901, map facing p. 11), USA.

Virgin Creek: stream, see Virginia Creek.

Virginia Butte: hill, 1,796 ft., 2 miles E of Cloud Lake and 4.5 miles N of Imuruk Lake, Seward Peninsula Highlands; 65° 43' N, 163° 09' W; BGN 1952; (map 110). Reported in 1950 by D.

M. Hopkins, USGS; "named for the home State of one of the members of the Geological Survey Field party in 1948."

Virginia Creek: stream, flows N 4 miles to Igloo Creek which flows to American River, 34 miles NE of Teller, Seward Peninsula Highlands; 65° 28' N, 165° 18' W; (map 111). Prospectors' name reported in 1900 by Messrs. Kemp and David Fox (in Brooks, 1901, pl. 11).

Virginia Creek: stream, flows NW 7 miles to Wood River, 35 miles E of Healy, Alaska Range; 63° 53' 15" N, 147° 50' 10" W; (map 87). Prospectors' name shown on a 1910 fieldsheet by J. W. Bagley, USGS; published by Capps (1912, pl. 1), USGS.

Virginia Creek: stream, flows S 0.6 miles to Skowl Arm Kasaan Bay, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 25' 50" N, 132° 25' 50" W; (map 4). Local name recorded in 1949 by USGS.

Virginia Creek: stream, flows S to Garfield Creek which flows to Kuzitrin River, about 22 miles NW of Mount Bendeleben and 37 miles SW of Imuruk Lake, Seward Peninsula Highlands; (map 110). Variant: Virgin Creek. Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS. This feature cannot be identified on current Maps.

Virginia Creek: stream, flows SE 0.6 miles to Shovel Creek, 11 miles N of Solomon, Seward Peninsula Highlands; 64° 42' 50" N, 164° 26' 15" W; (map 95). Prospectors' name reported on a 1902 prospectors' manuscript.

Virginia Creek: stream, flows SW 2.3 miles to join Russel Creek to form Goldbottom Creek which flows to Niukluk River, 10 miles NW of Council and 43 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 01' N, 163° 50' W; (map 110). Prospectors' name published on 1908 "Map of Seward Peninsula" by Arthur Gibson.

Virginia Creek: stream, on Seward Peninsula, flows NE 5.3 miles to Kirk Creek, 19 miles SE of Deering, Kotzebue-Kobuk Lowland; 66° 00' N, 162° 04' W; (map 113). Prospectors' name reported in 1908 by F. F. Henshaw (in Brooks and others, 1909, fig. 21), USGS.

Virginia Gulch: ravine, trends N.W. 1.3 miles to White Creek, 17 miles SE of McCarthy, St. Elias Mountains; 61° 16' N, 142 32' W; (map 67). Named by prospectors; reported by George M. Esterly of Valdez on his 1902 map of the Nizina Mining District; and used by USGS (Mendenhall and Schrader, 1903, fig 5).

Virginia Lake: lake, 0.8 miles long, on W bank of Nabesna River, at mouth of Jacksina Creek, 4 miles E of Nabesna, Wrangell Mountains; 62° 21' N, 142° 54' W; (map 84). Local name reported in 1960 by USGS.

Virginia Lake: lake, 2 miles long, 8 miles E of Wrangell, Coast Mountains; 56° 28' 45" N, 132° 10' 00" W; BGN 1966; (map 6). Variant: Lake Virginia, Mill Lake. Named in 1914 by E. L. Jones, USBF, for his wife Virginia Brent Fox Jones; "Mill Lake" was reported as a local name for this feature in 1905 by F. E. Wright and C. W. Wright (1908, fig. 22), USGS.

Virginia Peak: mountain, 3,760 ft., N of Anita Bay, on NE coast of Etolin Island, Alexander Archipelago; 56° 13' 30" N, 132° 26' 30" W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow, USN.

Virgo Mountain: mountain, 1,400 ft., 15 miles SE of Susie Mountain and 14 miles NW of Hagemeister Island, Kilbuck-Kuskokwim Mountains; 58° 51' N, 161° 16' W; (map 39). Local name published in 1951 by USGS.

Virublennoi Island: island, 0.1 miles across, connected to Japonski Island, in Sitka Sound, 1.5 miles SW of Sitka, Alexander Archipelago; 57° 02' 44" N, 135° 22' 30" W; (map 9). Variant: Ostrov Vyrublenney. Russian name meaning "cut out" given in 1809 by the navigator Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Vyrublennoy."

Visokoi Rock: island, see Viesoki Island.

Visokoi: island, see High Island.

Vista Creek: stream, flows NW 1 mile to Nugget Creek, 1.8 miles E of 1962 terminus of Mendenhall Glacier and 8.5 miles NW of Juneau, Coast Mountains; 58° 25' 15" N, 134° 29' 00" W; (map 11). Local name published in 1962 by USGS

Vitskari Island: island, 0.1 miles across, in Sitka Sound, 8.5 miles SW of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 00' 00" N, 135° 32' 30" W, (map 5). Variant: Middle Islands, Ostrov Vitskary. Named in 1809 by the Russian navigator. Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Vitskary," or "Vitskary Island." "According to George Kostrometinoff, United States court interpreter at Sitka, this means "Capt. Witz's chastisement" (Baker, 1906, p. 661). In 1804 this feature was called "Middle Islands" by Capt. U. T. Lisianski, IRN.

Vitskari Rocks: rocks, N of Vitskari Island, in Sitka Sound, 8.5 miles SW of Sitka, Alexander Archipelago; 57° 00' 25" N, 135° 33' 00" W; (map 9). Variant: Kamen Vitskary, Middle Rocks. Named "Vitskary" in 1809 by the Russian navigator, Ivan Vasiliev the first. See Vitskari Island.

Vitskary, Kamen: rocks, see Vitskari Rocks.

Vitskary, Ostrov: island, see Vitskari Island.

Vivghaanok, Mount: hill, see Kookoolik Hill.

Vivid Lake: lake, 0.8 miles long, in Glacier Bay National Monument, 2 miles W of Black Cap Mountain, and 62 miles NW of Hoonah, St. Elias Mountains, 58° 50' 30" N, 136° 27' 20" W; BGN 62; (map 10). So named by NPS in 1962, "because its vivid blue-green color is in striking contrast to the color of the other lakes in the area."

Vixen Bay: estuary, extends S 3 miles off Boca de Quadra, 3 miles W of Mink Bay, Coast Mountains; 55° 04' 30" N, 130° 47' 50" W; (map 3). One of many arbitrary names applied to features in this area in 1891 by USC&GS.

Vixen Harbor: bay, 1.2 miles wide, near mouth of Vixen Inlet, on W coast of Cleveland Peninsula, 45 miles NE of Craig, Alexander Archipelago; 55° 48' 15" N, 132° 09' 15" W; (map 4). Name derived from Vixen Inlet; published in 1924 by USC&GS.

Vixen Inlet: estuary, 5.5 miles long, W coast of Cleveland Peninsula, Alexander Archipelago; 55° 50' N, 132° 07' W; (map 4). Named in 1886 by Lt. Comdr. A. S. Snow, USN, after the USC&GS steam launch Vixen.

Vixen Islands: islands, 0.5 miles across, in Hoonah Sound, off S coast of Chichagof Island, 20 miles E of Chichagof, Alexander Archipelago; 57° 37' N, 135° 35' W; (map 9). Named in 1895 by Lt. Comdr. E. K. Moore, USN, "for the USC&GS launch Vixen." The name was published in 1900 by USC&GS on Chart 8282.

Vixen Lake: lake, 1 mile long, on Kenai Peninsula E of Coyote Lake, 31 miles NE of Kenai, Cook Inlet Lowland; 60° 44' 00" N, 150° 25' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Vixen Point: point of land, N point of entrance to Vixen Inlet, W coast of Cleveland Peninsula, Alexander Archipelago; 55° 50' 45" N, 132° 05' 30" W; (map 4). Named by local fishermen and reported in 1904 by H. C. Fassett, USBF.

Vkhoda, Mys: point of land, see South Point.

Vnechni Rock: rock, see Outer Rock.

Vngyat Cape: point of land, see Vngyat Point.

Vngyat Point: point of land, 18 miles S of Gambell, W coast of St. Lawrence Island; 63° 32' N, 171° 50' W; BGN 1951; (map 93). Variant: Cape Lhookoovik, Lhookoovik Cape, Lhookoovik Point, Lookoovik Cape, Tikighapak Cape, Ungyat, Vngyat Cape, West Cape. Eskimo name meaning "boats" [ungyat]; so named, according to Orth in 1965, because rocks on the point look like boats from a distance. The "V" spelling, recommended in 1949 by Maj. H. B. Allen, USAF, appears to be an error.

Vnutrennie: point of land, see Inner Point.

Vnutrenniy Gorbun, Kamyen: rock, see Inner Humpback Rock.

Vnutrenniy, Mys: point of land, see Inner Point.

Vnyshniy, Kamen: rock, see Outer Rock.

Vodapoini Point: point of land, on N shore of Deer Passage, at E entrance to Cold Bay, 16 miles SE of village of Cold Bay, on SW end of Alaska Peninsula, Aleutian Range; 55° 02' 10" N, 162° 24' 30" W; (map 29). Variant: Cold Cape, Vodopoini Point. Name published in the 1916 Coast Pilot (p. 186); derived from the Russian "Vodopoynyy" meaning "watering place."

Vodopad River: stream, flows W 10 miles through Green Lake to Silver Bay, 9 miles SE of Sitka, on W coast of Baranof Island, Alexander Archipelago; 56° 59' 10" N, 135° 07' 10" W;

(map 5). Descriptive Russian name meaning “waterfall” given in 1898 by USC&GS. This adjective is applied to individual falls on early Russian charts.

Vodopoini Point: point of land, see Vodapoini Point.

Voevodskago Island: island, see Woewodski Island.

Vogel Lake: lake, 0.9 miles long, on Kenai Peninsula, at head of Miller Creek, 3.5 miles SW of Point Possession and 25 miles SW of Anchorage, Cook Inlet Lowland; 60° 59' 30" N, 150° 25' 30" W; (map 62). Local name reported in 1958 by USGS.

Volcan de Miranda: mountain, see Iliamna Volcano.

Volcan Point: point of land, see Vulcan Point.

Volcano Bay: bay, 2 miles across, W coast of Unalaska Island, 2 miles SE of Cape Kovrizhka, Aleutian Islands; 53° 48' 45" N, 167° 06' 30" W; (map 23). Named in 1888 by USBF.

Volcano Bay: bay, 3 miles across, 28 miles E of village of Cold Bay, at SW end of Alaska Peninsula, Aleutian Range; 55° 13' N, 162° 00' W; (map 28, 29). Name reported by W. H. Dall, USC&GS, in 1880, “because of its proximity to Pavlof Volcano.”

Volcano Creek: stream, flows N 4.5 miles to Clums Fork Birch Creek, 63 miles SW of Circle, Yukon-Tanana Highlands; 65° 08' 30" N, 145° 29' 00" W; (map 104). Named by prospectors; reported in 1911 by USGS (Prindle, 1913, pl. 1).

Volcano Creek: stream, flows W 13 miles to Mother Goose Lake, on Alaska Peninsula, 23 miles SE of Ugashik, Aleutian Range; 57° 13' N, 157° 16' W; (map 36). Descriptive name given in 1923 by R. H. Sargent, USGS, because the river heads on the volcano, Mount Chiginagak.

Volcano Creek: stream, heads on N side of Kavaksurak Mountain, flows E 9 miles to Etivluk River, 12 miles NNE of Howard Pass, Brooks Range; 68° 22' 30" N, 156° 42' 00" W; (map 132). Named in 1966 by geologists of BP Exploration Company, Alaska, Inc., “for the volcanic rock, well exposed in cliffs along the creek course.”

Volcanoes, The: hills, see Ingakslugwat Hills.

Volchie Island: barrier beach, see Walrus Island.

Volga Island: island, 200 ft. long, in Middle Channel, Sitka Sound, 0.8 miles S of Sitka, Alexander Archipelago; 57° 02' 28" N, 135° 20' 45" W; (map 9). Variant: Ostrov Volga. Russian name published by Capt. Tebenkov (1852, map 38) as “O[strov] Volga,” meaning “Volga Island,” presumably for the great river in Russia.

Volkmar Lake: lake, 1.7 miles long, 20 miles E of Big Delta, Yukon-Tanana Highlands; 64° 07' N, 145° 11' W; (map 101). Variant: Magoffin Lake. Named in 1887 by Lt. H. T. Allen, USA.

Volkmar River: stream, heads at 64° 09' N, 144° 12' W, flows SW 33 miles to Tanana River, 23 miles SE of Big Delta, Yukon-Tanana Highlands; 64° 04' N, 145° 08' W; (map 101). Variant: Goodpaster River. Originally named Goodpaster River in 1885 by Lt. H. T. Allen, USA, "in honor of the Goodpaster family in Kentucky." The stream now known as Goodpaster River he named Volkmar River for Col. William Volkmar, USA (Allen, 1887, pl. 3). Later, the names were transposed by explorers and Volkmar River was reported in 1903 by USGS at its present location (Prindle, 1913a, pl. 16).

Volkmar River: stream, see Goodpaster River.

Volunteer Creek: stream, flows SE 2.2 miles to Bonanza River, 10 miles NW of Solomon, Seward Peninsula Highlands; 64° 37' N, 164° 44' W; (map 95). Prospectors' name shown on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Von Frank Creek: stream, flows SW 9 miles to Nixon Fork, 24 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 26' N, 154° 28' W; (map 89). Local name reported in 1910 by A. G. Maddren (in Brooks and others, 1911, pl. 14), USGS.

Von Frank Mountain: mountain, 4,508 ft., 32 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 33' N, 154° 20' W; (map 89). Local name obtained in 1924 by J. S. Brown (in Smith, P. S., and others, 1926, pl. 5), USGS.

Voorhees Isles: islands, see Lively Islands.

Vork, Mys: point of land, see Cape York.

Voroney, Ostrov: island, see Crow Island.

Voronkoffski Island: island, see Woronkofski Island.

Voronkovskiy, Ostrov: island, see Woronkofski Island.

Voronkowski Island: island, see Woronkofski Island.

Vorontsova, Mys: point of land, see Woronzof, Point.

Vorota Island: island, 0.4 miles long, 3.5 miles S of Chichagof, between Elbow Passage and Smooth Channel, on W coast of Chichagof Island, Alexander Archipelago; 57° 36' 40" N, 136° 06' 15" W; BGN 1922; (map 9). Russian word meaning "gates" given in 1922 by USC&GS.

Vorsehung, Cap der: point of land, see Providence, Cape.

Vorzui Mountain: mountain, 4,200 ft., 3 miles S of Signal Mountain and 12 miles NE of Arctic Village, Brooks Range; 68° 11' N, 145° 06' W; (map 136). Kutchin Indian name obtained at Arctic Village in 1956 by T. E. Taylor, USGS.

Voskresenskaia Bay: estuary, see Resurrection Bay.

Voskresenskaya Gavan: estuary, see Resurrection Bay.

Voskresenskaya Guba: estuary, see Resurrection Bay.

Vosnesenski Island: island, see Vosnesenski Island.

Voss Creek: stream, flows NE 2 miles to South Fork Fortymile River, 50 miles SW of Eagle, Yukon-Tanana Highlands; 64° 07' 10" N, 141° 46' 20" W; (map 102). Prospectors' name obtained in 1898 by E. C. Barnard, USGS.

Voss Creek: stream, see Justice Creek.

Vossnessenski Island: island, see Vosnesenski Island.

Vossnessensky Island: island, see Vosnesenski Island.

Vostochni, Cape: point of land, see Chirikof Point.

Vostochni: point of land, see Orient Point.

Vostochnie Point: point of land, see Northeast Point.

Vostochnie Rookery: rookery, on Northeast Point, on NE coast of St. Paul Island, in Pribilof Islands; 57° 15' N, 170° 06' W; (map 38). Variant: North East Rookery, Novastoshnah Rookery. According to Elliott (1881, p. 56-57) this is the largest seal rookery on St. Paul Island with 15,840 ft. of sea-margin. See Vostochnie.

Vostochnie: locality, on NE tip of St. Paul Island, in Pribilof Islands; 57° 14' 30" N, 170° 06' 30" W; (map 38). Variant: Novastoshnah. Russian name meaning "east," published by USC&GS in 1898. Elliott (1881, St. Paul notes) reported the local name "Novastoshnah," meaning "of recent growth," so called because "this locality in pioneer days was an island to itself * * *." This name is derived from the Russian word "novyy" meaning "new."

Vostochnie: point of land, see East Cape.

Vostochnoi: point of land, see Tolstoi Point.

Vostochnoy, Mys: point of land, see Chirikof Point.

Vostochnoy, Mys: point of land, see Tolstoi Point.

Vostochnyy, Farvater: water passage, see Eastern Channel.

Vostochnyy, Mys: point of land, see East Cape.

Vostochnyy, Mys: point of land, see East Foreland.

Vostochnyy, Mys: point of land, see Northeast Point.

Vostochnyy, Mys: point of land, see Orient Point.

Vostoi Forland, Mys: promontory, see East Foreland.

Vovodskago, Gavan: bight, see Woewodski Harbor.

Voyevodskago, Ostrova: island, see Woewodski Island.

Voznesensky Island: island, see Vosnesenski Island.

Vozoychenski Island: island, see Vosnesenski Island.

Vozvratseniya, Zaliv: estuary, see Turnagain Arm.

Vrangel, Gavan: bay, see Wrangell, Port.

Vrangeli, Gavan: estuary, see Wrangell, Port.

Vrangeli, Zaliv: bay, see Wrangell, Port.

Vrangelya, Mys: point of land, see Wrangell Cove.

Vrangelya, Ostrov: island, see Wrangell Island.

Vrangelya, Proliv: water passage, see Wrangell Narrows.

Vreeland Creek: stream, flows NE 30 miles to Kuskokwim River, 0.9 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 42' 50" N, 157° 11' 15" W; BGN 1948; (map 72). Named for Mary Vreeland, native trapper who lived near mouth of stream; reported in 1945 by USGS.

Vsevidof Island: island, 1.5 miles across, 4 miles S of Amos Bay, on S coast of Umnak Island, Aleutian Islands; 52° 59' N, 168° 28' W; (map 21). Variant: Ostrova Vsevidova, Ostrovki Sevidovskaia, Sevidovskie Ostrovki, Sevidow Island, Vsevidof Islets, Vsevidow Island. Published by Father Veniaminov (1840, v. 1, p. 155) as "Sevidovskie Ostrovki," or "Sevidovskie Island," and by Capt. Tebenkov (1852, map 25), IRN, as "O[stro]va Vsevidova," or "Vsevidova Island." Baker (1906, p. 662) suggested that this feature may have been named for "Andrei Vsevidof, a Russian fur trader, who was in the Aleutian Islands in 1747."

Vsevidof Islets: island, see Vsevidof Island.

Vsevidof Volcano: mountain, see Vsevidof, Mount.

Vsevidof, Mount: mountain, 7,050 ft., on Umnak Island, 6 miles W of Mount Recheshnoi, Aleutian Islands; 53° 07' 45" N, 168° 40' 45" W; BGN 1947; (map 22). Variant: Mount Recheshnoi, Mount Sewidowsky, Swewidow, Vcevidofski, Vsevidof Volcano, Wsewidow. Name derived from Vsevidof Island and reported in 1830 by Father Ioann Veniaminov.

Vsevidof, Mount: mountain, see Recheshnoi, Mount.

Vsevidova, Ostrova: island, see Vsevidof Island.

Vsevidow Island: island, see Vsevidof Island.

Vtoryee Porogi: rapids, see Southern Rapids.

Vuikhtuligmute: locality, see Vuikhtulik.

Vuikhtulik: locality, on N shore of Aleknagik Lake, 30 miles NNW of Dillingham, Kilbuck Kuskokwim Mountains; 59° 25' N, 158° 54' W; (map 52). Variant: Vuikhtuligmute. Former Eskimo village or camp recorded in 1880 as “Vuikhtuligmute,” population 51, by Petroff (1881, p. 50).

Vukhduli: locality, on right bank of Wood River, 13 miles N of Dillingham, Bristol Bay Lowland; 59° 14' N, 158° 33' W; (map 52). Eskimo village or camp recorded as “Vukhdu-li” on a 1910 manuscript map by H. C. Fassett, USBF.

Vukpalik Creek: stream, flows SW 25 miles to Nushagak River, 85 miles W of Lake Clark and 112 miles S of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 11' N, 157° 15' W; BGN 1932; (map 60). Eskimo name reported in 1931 by Gerald FitzGerald, USGS.

Vulcan Cove: bay, see Sarana Bay.

Vulcan Creek: stream, flows SE 5.6 miles to Tubutulik River, 22 miles NE of Elim and 73 miles NE of Solomon, Seward Peninsula Highlands; 64° 55' N, 162° 09' W; (map 95). Local name reported in 1900 by W. J. Peters (in Mendenhall, 1901, pl. 20), USGS.

Vulcan Point: point of land, 2.7 miles W of Kiska Volcano, on NW coast of Kiska Island, Aleutian Islands; 52° 06' 10" N, 177° 32' 35" E; BGN 1937; (map 14). Variant: Volcan Point. Named for its proximity to Kiska Volcano.

Vulcan Point: point of land, on S coast of Akutan Island, in Krenitzin Islands, Fox Islands, Aleutian Islands; 54° 04' 35" N, 165° 49' 00" W; (map 24). Named in 1888 by USBF. The name is derived from adjacent Aarana Bay, which was originally called “Vulcan Cove” by USBF.

Vundik Lake: lake, 5 miles long, 33 miles NW of Coleen Mountain, Yukon Flats; 67° 22' N, 143° 48' W; (map 121). Kutcha-kutchin Indian name reported in 1956 to mean “big lake [vandjik]” by T. E. Taylor, USGS.

Vunich Lakes: lakes, see Vunikth Lakes.

Vunikth Lakes: lakes, 2 miles W of Vehtenjerlo Lakes and 39 miles NW of Fort Yukon, Yukon Flats; 66° 59' N, 146° 08' W; (map 119). Variant: Vunich Lakes. Kutchin Indian name obtained in 1956 by T. E. Taylor, USGS.

Vunittsieh Lakes: lakes, E of Ackerman Lake, draining into Chekhechunnjik Creek, 29 miles E of Chandalar, Brooks Range; 67° 32' 30" N, 147° 24' 00" W; (map 123). Kutchin Indian name obtained in 1956 by T. E. Taylor, USGS. The “vun” (or “van”) means lake.

Vunle Lakes: lakes, 12 miles S of Chalkyitsik, Yukon Flats; 66° 28' N, 143° 42' W; (map 120). Tranjik-kutchin Indian name; obtained in 1956 by T. E. Taylor, USGS.

Vunlui Lake: lake, 0.5 miles long, 17 miles NW of Bearman Lake and 44 miles NW of Fort Yukon, Yukon Flats; 66° 51' 30" N, 146° 41' 30" W. (map 119). Kutchin Indian name obtained in 1956 by T. E. Taylor, USGS.

Vunvekottlui Lake: lake, 1.5 miles long, in Dempsey Creek, 23 miles W of Midnight Hill, Porcupine Plateau; 66° 06' N, 141° 54' W; (map 120). Tranjik-kutchin Indian name, obtained in 1956 by T. E. Taylor, USGS.

Vunzik Lake: lake, 1 mile long, 17 miles NW of Bearman Lake and 42 miles NW of Fort Yukon, Yukon Flats; 66° 48' N, 146° 39' W; (map 119). Kutchin Indian name obtained in 1956 by T. E. Taylor, USGS.

Vykhoda, Mys: point of land, see Outlet Cape.

Vykhodnoy, Mys: point of land, see Outlet Cape.

Vyrublennoy, Ostrov: island, see Virublennoi Island.

Vysokoi Island: island, see Cliff Island.

Vysokoy Kamen, Ostrov: rock, see Viesokoi Rock.

Vysokoy, Ostrov: island, see Cliff Island.

Vysokoy, Ostrov: island, see Viesoki Island.

Vysylovskoe: locality, see Cheerful.

W

W. Smith's River: stream, see Smith River.

Wabash Creek: stream, flows NW 10 miles to Kiwalik Lagoon, 57 miles NW of Haycock, Seward Peninsula Highlands; 65° 59' N, 161° 46' W; (map 109) Local name reported in 1908 by USGS (Brooks and others, 1909, fig. 21).

Wabash Creek: stream, flows NW 17 miles to Nixon Fork 21 miles NW of Medfra, Kilbuck-Kuskokwim Mountains; 63° 15' N, 155° 18' W; (map 89) Local name reported in 1958 by USGS.

Wachsmuth, Mount: mountain, 4,921 ft., E of Shainin Lake, 23 miles NE of Anaktuvuk Pass, Brooks Range; 68° 20' N, 151° 00' W; BGN 1960; (map 134) Named by USGS geologists in 1951 for Charles Wachsmuth, 1829-96, American geologist and paleontologist.

Wachusett Cove: cove, 0.4 miles across, at mouth of Freshwater Bay, on E coast of Chichagof Island, 8.5 miles NE of Tenakee Springs, Alexander Archipelago; 57° 50' N, 135° 00' W; (map 9). Named in 1881 by the U.S. Navy for the U.S.S. Wachusett, commanded by Comdr. Henry Glass, USN, used in surveying the cove that year. The name was published by USC&GS in the 1883 Alaska Coast Pilot (p. 180).

Wachusett Inlet: estuary, in Glacier Bay National Monument, heads in Plateau Glacier, trends E 4 miles to Muir Inlet, 1.6 miles NW of Point McLeod and 63 miles NW of Hoonah, St. Elias Mountains; 58° 56' 30" N, 136° 08' 00" W; BGN 1948; (map 10). Variant: Cushing Inlet, Wisconsin Inlet. Named for the U.S.S. Wachusett which entered Glacier Bay in 1881. The inlet has been formed since 1907 by the recession of Plateau and Muir Glaciers. It was named "Cushing Inlet" for Cushing Glacier by USC&GS and published on Chart 8306 in 1942. It was called "Wisconsin Inlet" by members of the Glacier Bay Expedition of 1941 (Field. 1947, map), because John Muir, R. S. Tarr, Lawrence Martin, and F. T. Thwaites, geologic investigators in this area, were connected with the Univ. of Wisconsin.

Wachusett Point: point of land, see Rowlee Point.

Wacker City: village, see Ward Cove.

Wacker: village, see Ward Cove.

Wadding Cove: estuary, extends N 1.8 miles off Behm Canal, on E coast of Cleveland Peninsula, Alexander Archipelago; 55° 37' N, 131° 53' W; (map 3). Local navigators' name obtained in 1904 by H. C. Fassett, USBF.

Wade Creek: stream, flows SW 9 miles to Walker Fork, 52 miles SW of Eagle, Yukon-Tanana Highlands; 64° 04' 30" N, 141° 37' 15" W; (map 102). Variant: Jack Wade Creek. Reported in 1898 by E. C. Barnard, USGS. Named for Jack Wade, a prospector, who discovered gold on this stream about 1895 (Prindle, 1905, p. 40).

Wade Creek: stream, see Burnt River.

Wade, Mount: mountain, 7,960 ft., on Alaska-Canada boundary, 2.4 miles SE of Mount Duff and 41 miles NE of Yakutat, St. Elias Mountains; 59° 49' N, 138° 40' W; BGN 1923; (map 46). Variant: Boundary Peak 173. Named by IBC in 1923 for Frederick Coate Wade, 1860-1924, who was junior councilor before the Alaska Tribunal in 1903. He was born in Ontario and attended Toronto Univ. He was employed as an editorial writer before being called to the bar in 1886. In 1887 he represented the U.S. Department of Justice concerning a claim for the surrender of Sitting Bull after the Custer Massacre. He was active in the public affairs of Canada and was the author of several books.

Wadell Lake: lake, 0.5 miles long, 4 miles W of Harriet Point and 39 miles SW of Kenai, Aleutian Range; 60° 24' 30" N, 152° 21' 15" W; (map 62). Local name reported in 1958 by USGS.

Wadleigh Creek: stream, see Waydelich Creek.

Wadleigh Island: island, 5.5 miles long, between Klawak Inlet and San Alberto Bay, Alexander Archipelago; 55° 34' N, 133° 09' W; (map 4). Name published in 1943 by USC&GS; derived from Wadleigh Rock.

Wadleigh Rock: rock, in San Alberto Bay, S of Alberto Islands, 4 miles N of Craig, of Klawock, Alexander Archipelago; 55° 31' 45" N, 133° 10' 25" W; BGN 1908; (map 4). Local name recorded in 1907 by E. F. Dickins, USC&GS, as "name of person or vessel lost on it."

Wadzis: island, see Biorka Island.

Wager Creek: stream, heads in De Long Mountains, flows N 9 miles to Drenchwater Creek, 18 miles N of Desperation Lake, Brooks Range; 68° 35' N, 158° 35' W; BGN 1960; (map 132). Named in 1951 by B. H. Kent, USGS, for a camp incident.

Wagner Gulch: ravine, extends NW 0.7 miles, at head of Mills Creek, 46 miles W of Talkeetna, Alaska Range; 62° 21' 25" N, 151° 32' 00" W; (map 81). Prospectors' name reported in 1911 by Capps (1913, fig. 7), USGS.

Wagner Lake: lake, see Tetlin Lake.

Wagon Box Creek: stream, flows N 4.8 miles to Norton Sound, 24 miles E of Saint Michael, Nulato Hills; 63° 29' N, 161° 15' W; (map 91). Local name reported in 1952 by USC&GS.

Wagon Wheel Creek: stream, heads in Bendeleben Mountains, flows SW 8 miles to Fish River 28 miles S of Imuruk Lake, Seward Peninsula Highlands; 65° 10' N, 163° 07' W; (map 110). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Wahmus Creek: stream, see Wattamuse Creek.

Wahoo Lake: lake, 1 mile long, W of and draining into Echooka River, 16 miles SW of Mount Salisbury and 67 miles SW of Mount Michelson, Brooks Range; 69° 04' 20" N, 146° 55' 30" W; BGN 1960; (map 139). Named by W. P. Brosge, USGS, in 1952 for the Wahoo limestone formation.

Wahpoo Creek: stream, flows SW 3.7 miles to Wilson Creek 3.3 miles E of Marshall, Nulato Hills; 61° 53' N, 161° 59' W; (map 73). Prospectors' name reported in 1916 by Harrington (1918, map), USGS.

Wainwright Inlet: bay, 6 miles across, at mouth of Kuk River, S of Wainwright, Arctic Plain; 70° 36' N, 160° 00' W; BGN 1925; (map 146). Variant: Olrona, Tutagvak Bay, Wainwright Lagoon. Named by Capt. F. W. Beechey, RN, for Lt. John Wainwright, RN, astronomical observer and officer on his ship, the H.M.S. Blossom. Surgeon John Simpson's native map of 1853 shows the Eskimo name "Olrona" and P. Tikhmeniev's 1861 map shows "Zal[iv] Tutagvak," which may mean "big labret."

Wainwright Inlet: village, see Wainwright.

Wainwright Lagoon: bay, see Wainwright Inlet.

Wainwright: village, pop. 253, on Chukchi Sea coast N of Wainwright Inlet, 47 miles NE of Icy Cape, Arctic Plain; 70° 38' 15" N, 160° 01' 45" W; (map 146). Variant: Olgonik, Wainwright Inlet. Name derived from that of the lagoon. This area has been conducive to settlement for centuries. Several villages have existed on the land between Wainwright Inlet and the sea, the most recent one being Wainwright, the major village between Barrow and Point Hope. A post office was established here in 1916.

Wait Creek: stream, flows SE 6.6 miles to Jacksina Creek 8.5 miles SW of its junction with Nabesna River, Wrangell Mountains; 62° 18' N, 143° 06' W; (map 84). Variant: Waite Creek. Named in 1902 by F. C. Schrader, USGS, because for a week he was delayed here by bad weather.

Waite Creek: stream, see Wait Creek.

Wakefield Lakes: lakes, on Baranof Island, includes Deep and Long Lakes, 27 miles SE of Sitka, Alexander Archipelago; 56° 52' N, 134° 44' W; (map 5). Local name recorded in 1951 by USGS.

Wakeup Creek: stream, flows 1.7 miles SE, then SW, to California Creek, 3 miles SW of Big Lake and 26 miles W of Chandalar, Brooks Range; 67° 28' 30" N, 149° 29' 00" W; (map 123). This name was applied to a neighboring stream, as reported in 1923 by J. B. Mertie, Jr. (in Brooks and others, 1925, pl. 6), USGS. The present name application was first published by USGS on a 1956 map.

Waklarok Slough: stream, on left bank of Kwemeluk Pass near its mouth at Waklarok, Yukon-Kuskokwim Delta; 62° 32' N, 165° 00' W; (map 76). Eskimo name obtained by G. R. Putnam, USC&GS, in 1899.

Waklarok: locality, site of an Eskimo village, on S shore of Kwemeluk Pass, 17 miles NE of Black, Yukon-Kuskokwim Delta; 62° 32' 15" N, 165° 00' 20" W; (map 76). Variant: Waklarokamiut. Eskimo name obtained by G. R. Putnam, USC&GS, in 1899, as "Waklarokamiut," or "people of Waklarok."

Waklarokamiut: locality, see Waklarok.

Walakpa Bay: estuary, extends 6 miles E from Chukchi Sea, 11 miles SW of Barrow, Arctic Plain; 71° 08' 25" N, 157° 02' 45" W; (map 153). Variant: Refuge Inlet, Walapai, Walakpaat, Walakpan. In 1853 Comdr. Rochfort Maguire, RN, recorded the Eskimo name as "Walakpan" (Great Britain, 1854, map facing p. 186). Lt. P. H. Ray (1885, p. 55), USA, recorded the name "Walakpa" for the sixth camp site below Nuwuk. Sgt. John Murdoch, USA, of Ray's party spelled the name "Walapai." The Eskimo of today pronounce the name "Walakpak" and say it refers in meaning to a "big village." Beechey (1831, p. 313-316), RN, named the estuary "Refuge Inlet" after the barge sent to explore the coast to Point Barrow was trapped there by ice from August 25 to 28, 1826. Will Rogers and Wiley Post were killed in a plane crash there August 15, 1935 (Brower, 1942, p. 295-301).

Walakpa River: stream, flows N 6 miles to Walakpa Bay, 13 miles SW of Barrow, Arctic Plain; 71° 07' 45" N, 157° 02' 15" W; (map 153). Eskimo name. See Walakpa Bay and Walakpa.

Walakpa: locality, on Chukchi Sea coast, at Walakpa Bay, 11 miles SW of Barrow, Arctic Plain; (map 153). Variant: Walapai, Walakpan, Walakpat, Walakpra, Wallikipi, Wolikpot. Eskimo name, Walakpak, reported to mean "big village" (see Walakpa Bay). This locality has been a campsite for generations because of its relation to a good coastal inlet. William Smyth reported that in August 1826 a village of nine tents was located one-half mile from the mouth of the inlet (Beechey, 1831, p. 312, 315).

Walakpaat: estuary, see Walakpa Bay.

Walakpan: estuary, see Walakpa Bay.

Walakpan: locality, see Walakpa.

Walakpat: locality, see Walakpa.

Walakpra: locality, see Walakpa.

Walapai: estuary, see Walakpa Bay.

Walapai: locality, see Walakpa.

Walby Creek: stream, flows N 1 mile to Wade Creek at Jack Wade, 46 miles SW of Eagle, Yukon-Tanana Highlands; 64° 09' 00" N, 141° 27' 30" W; (map 102). Local name published in 1956 by USGS.

Walden Point: point of land, between Annette Bay and Nichols Passage, on N coast of Annette Island, Alexander Archipelago; 55° 16' 30" N, 131° 35' 15" W; (map 3). Local navigators' name obtained in 1904 by H. C. Fassett, USBF.

Walden Rocks: rocks, extend 0.5 miles, in Nichols Passage, 0.6 miles W of Walden Point, on Annette Island, Alexander Archipelago; 55° 16' 15" N, 131° 36' 20" W; (map 3). Variant: Race Reef. Named by Lt. Comdr. H. E. Nichols, USN, in 1883; "Race Reef" was published as a local name for this feature in 1883 Coast Pilot (P. 79).

Waldren Fork: stream, see Little Waldren Fork.

Waldron Creek: stream, flows W 14 miles to Yukon River, 40 miles NE of Rampart, Yukon-Tanana Highlands; 65° 52' N, 149° 19' W; (map 105). Named by prospectors; reported by Lt. Erickson, USA, in 1902. Name was published by USGS (Prindle, 1905, pl. 16).

Wales: village, pop. 128, at mouth of Village Creek, on coast of Cape Prince of Wales, at W end of Seward Peninsula, Kotzebue-Kobuk Lowland; 65° 37' N, 168° 05' W; BGN 1944; (map 111). Variant: Eidannoo, Kingaghee, King-a-khi, Kingegan, Kingegan Mission, Kingeghee, Kingigamute. In 1827 Capt. Beechey (1831, p. 540), RN, wrote: "The natives have a village upon the low land near the cape called Eidannoo, and another inland named King-a-ghe * * *." Beechey later noted (1831, p. 543): "These were some of the most clearly and well dressed people we had seen anywhere on the coast. Their residence was at King-a-ghee, a place which, judging from the respectability of parties from that place, whom we had seen elsewhere, must be important among the Esquimaux villages upon the coast." Capt. E. E. Smith, USRCS, reported the village as "Kingigamute" with a population of 400 Eskimo in the 10th Census in 1880. The 1890 Census listed 488 persons. In 1890 the American Missionary Association of the Congregational Church established a mission here (Brooks, 1901, p. 23), and in 1894 a U.S. Government reindeer station was organized. The post office of Wales was established in 1902 and continues in operation today. The population in 1910 was 337; in 1920, 136; in 1930, 170; in 1939, 193; and in 1950, 141.

Walhalla Slough: stream, 8 miles long, tributary of Copper River, 20 miles SE of Cordova, Malaspina Coastal Plain; 60° 21' N, 145° 22' W; (map 64). Local name published in 1951 by USGS.

Walik Creek: stream, flows N 8 miles to Peard Bay, 9 miles SE of Point Franklin, Arctic Plain; 70° 47' 50" N, 158° 33' 35" W; (map 147). Eskimo name reported in 1950 by USC&GS.

Walkaround Creek: stream, flows S 10 miles to Hunt Fork, 6.5 miles NE of Sillyasheen Mountain and 73 miles NW of Wiseman, Brooks Range; 67° 51' N, 152° 37' W; BGN 1932; (map 124). Named in 1931 by Marshall (1956, p. 105) as a result of his party's lighthearted approach to the difficulties they encountered in trying to cross this storm-flooded stream. His companion remarked, "'There's one safe rule in traveling this north country in summer. If you can't get across them, you can always walk around them.' So as we headed upstream once more, we christened this stream Walkaround Creek."

Walker Channel: water passage, 4 miles long along SE coast of Beauchamp Island, 10 miles SE of Goddard, on SW coast of Baranof Island, Alexander Archipelago; 56° 42' N, 135° 13' W; (map 5). Local name used by fishermen; published in 1929 by USC&GS.

Walker Cove: estuary, on mainland, extends NE 8.5 miles, off Behm Canal, Coast Mountains; 55° 43' N, 130° 54' W; (map 3). This feature was "examined by Joseph Whidbey, August 25, 1793 and named by him or [Capt. George] Vancouver [RN] after the surgeon of the Chatham William Walker" (Wagner, 1937, p. 421).

Walker Creek: stream, at N end of Cleveland Peninsula, heads in a lake, flows S 4.5 miles to Lake McDonald, Alexander Archipelago; 55° 39' N, 131° 50' W; (map 3). Local name reported in 1952 by USGS.

Walker Creek: stream, flows N 6.6 miles to Sanona Creek, 22 miles S of junction of Oshetna and Susitna Rivers, Talkeetna Mountains; 62° 19' 30" N, 147° 19' 00" W; (map 82). Local name reported in 1951 by USGS.

Walker Creek: stream, flows NW 2 miles to Eagle Creek which flows to Right Fork Bluestone River, 13 miles S of Teller, Seward Peninsula Highlands; 65° 05' N, 166° 25' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Walker Creek: stream, flows NW 7 miles to Nenana River, 38 miles S of Nenana, Alaska Range; 64° 01' N, 149° 07' W; (map 100). Local name published in 1915 on GLO [BLM] survey Plateau

Walker Creek: stream, on mainland, flows W 2.6 miles to Walker Cove off Behm Canal, 8 miles E of Ledge Point, Coast Mountains; 55° 45' 10" N, 130° 42' 00" W; BGN 1923; (map 3). Named in 1923 by USFS.

Walker Creek: stream, on N end of Kenai Peninsula flows NW 6 miles to Sixmile Creek, 2 miles S of Sunrise and 30 miles SE of Anchorage, Chugach Mountains; 60° 51' 15" N, 149° 25' 00" W; (map 63). Local prospectors' name; reported about 1914 by B. L. Johnson (in Martin and others 1915, pl. 2), USGS.

Walker Dome: mountain, 3,942 ft., 7 miles W of Jumbo Dome and 8 miles N of Healy, Alaska Range; 63° 57' 45" N, 148° 53' 30" W; (map 87). Local name reported in 1950 by USGS.

Walker Fork South Fork: stream, see Walker Fork.

Walker Fork: stream, flows W 7.5 miles to South Fork Fortymile River, 52 miles SW of Eagle, Yukon-Tanana Highlands; 64° 06' N, 141° 46' W; (map 102). Variant: Walker Fork South Fork, Walker's Fork Walkers Fork. Named by prospectors and reported in 1896 By Spurr (1898, pl. 46), USGS. In 1889 "the headwaters of Walker Fork were staked out in claims" (p. 116).

Walker Island: island, 1,800 ft. long, NE of Ham Island, between Felice Strait and Revillagigedo Channel, Alexander Archipelago; 55° 11' 15" N, 131° 19' 45" W; (map 3). Variant: Lewis Island. Named about 1880 by local navigators; reported by USC&GS.

Walker Island: island, see Lewis Island.

Walker Lake: lake, 1 mile long, on a branch of Little Salmon River, 3.8 miles SE of Porcupine and 29 miles SW of Skagway, St. Elias Mountains; 59° 23' 30" N, 136° 08' 30" W; (map 45). Local name obtained by USGS field personnel and published on Federal maps since 1950.

Walker Lake: lake, on mainland, 3.5 miles E of Walker Cove, drains SW to Rudyerd Bay, Coast Mountains; 55° 45' N, 130° 35' W, BGN 1962; (map 3) Local name reported in 1961 by USFS.

Walker Point: point of land, E point of entrance To Murder Cove, on S coast of Admiralty Island, 1 mile S of Tyee, Alexander Archipelago; 57° 01' 30" N, 134° 32' 35" W; (map 9). Name published by USC&GS in the 1925 Coast Pilot (p. 219).

Walker Slough: stream, 7 miles long, anabranch of Yukon River, E of Holy Cross, Innoko Lowland; 62° 09' N, 159° 46' W; (map 78). Local name reported in 1916 by G. L. Harrington and R. H. Sargent (in Harrington, 1918, pl. 1), USGS.

Walker Station Island: island, see Station Island.

Walker's Fork: stream, see Walker Fork.

Walker, Lake: lake, see Naknek Lake.

Walkers Fork: settlement, see Boundary.

Wall Bay: bay, 1.2 miles across, on N coast of Atka Island, Aleutian Islands; 52° 06' 30" N, 174° 53' 10" W; (map 18). Name published on a 1943 USC&GS chart.

Wall of China: ridge, 4,300 ft., extends NW 3 miles between Little Nelchina River and White Hill, 16 miles N of Tahnetta Pass, Talkeetna Mountains; 62° 07' N, 147° 25' W; BGN 1960; (map 82). Descriptive local name reported in 1956 to USGS by C. F. Fields. "A whitish ledge or outcrop band of steeply-dipping limestone winds across the hilltops."

Wall Street Creek: stream, flows NW 4 miles to South Fork Fortymile River, 54 miles SW of Eagle, Yukon-Tanana Highlands; 64° 03' 30" N, 141° 45' 50" W; (map 102). Named by prospectors "for the famous street in New York City"; reported in 1898 by E. C. Barnard, USGS.

Wall, The: ridge, trends N-S 2.5 miles, at head Of Taku Glacier, 2.3 miles W of Centurian Peak and 30 miles N of Juneau, Coast Mountains; 58° 45' N, 134° 20' W; (map 11). Descriptive name published in 1960 by USGS.

Walla Walla Creek: stream, flows S 6 miles around W side of Mount Kwinink to Norton Bay, 8 miles SW of Elim, Seward Peninsula Highlands; 64° 33' N, 162° 28' W; BGN 1910; (map 95). Local name reported in 1909 by Smith and Eakin (1911, pl. 1), USGS.

Walla Walla Roadhouse: locality, see Walla Walla.

Walla Walla: locality, on Norton Bay, 8 miles SW Of Elim and 59 miles E of Solomon, Seward Peninsula Highlands; 64° 33' N, 162° 28' W; (map 95). Variant: Walla Walla Roadhouse. Local name reported in 1909 by Smith and Eakin (1911, pl. 1), USGS. Site of a roadhouse on the winter trail to Nome.

Wallace Lake: lake, see Clear Lake.

Wallace Reef: reef, off S coast of Annette Island, in Felice Strait, Alexander Archipelago; 55° 00' 20" N, 131° 24' 20" W; (map 3). Named in 1893 by Lt. G. B. Harber, USN.

Wallace Rock: rock, in Cordova Bay, 3.6 miles SE Of Shipwreck Point; on SW coast of Prince of Wales Island, Alexander Archipelago; 54° 51' N, 132° 27' W; (map 1). Named in 1899 by USC&GS.

Wallcutt Mountain: mountain, 5,593 ft., at headwaters of Bear and Mission Creeks, 23 miles SW of Eagle, Yukon-Tanana Highlands; 64° 39' N, 141° 40' W; (map 102). Variant: Wolcot Mountain. Local name shown on an 1899 fieldsheet by W. J. Peters, USGS. The name was spelled "Wolcot" on a 1905 manuscript map by Maj. W. A. Glassford, U.S. Army Signal Corps.

Wallick Creek: stream, flows SE 6 miles to Caribou Creek 2.5 miles W of that stream's junction with Hogatza River, 37 miles WNW of Hughes, Hogatza Highlands; 66° 10' N, 155° 32' W; (map 116). Local name applied about 1955; reported to be the family name of an Indian worker who helped in the mining development; recorded in 1956 by Orth.

Wallikipi: locality, see Walakpa.

Walling Gulch: ravine, trends S 0.5 miles to Norton Sound, between Silverbow and Eldorado Creeks, 18 miles E of Solomon, Seward Peninsula Highlands; 64° 39' N, 163° 50' W; (map 95). Prospectors' name shown on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904. This feature cannot be precisely located on current maps.

Wally Creek: stream, in Rampart Mountains, flows SE 1.7 miles to Morelock Creek 2 miles N of that stream's junction with Yukon River, 24 miles ENE of Tanana, Kokrines-Hodzana Highlands; 65° 17' 30" N, 151° 18' 00" W; (map 106). Prospectors' name reported by USGS about 1940.

Walnut Creek: stream, flows SW 2 miles to Fairbanks Creek, 21 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 04' 45" N, 147° 11' 30" W; (map 105). Named by prospectors; reported in 1903 by T. G. Gerdine (Prindle, 1905, pl. 13), USGS.

Walpole, Point: point of land, on W end of an island, in Stephens Passage at S entrance to Port Houghton, 2 miles N of Fort Point and 71 miles E of Sitka, Coast Mountains; 57° 18' 15" N, 133° 31' 10" W; (map 8). Variant: Mys Valpol. Named by Capt. George Vancouver, RN, in 1794 after its discovery by Lt. Joseph Whidbey on August 4, 1794, for George Walpole, Earl of Oxford, England (Wagner, 1937, p. 421). This name was published in 1848 as "Mys Valpol," or "Valpol Cape," by the Russian Hydrog. Dept. on Chart 1396.

Walrus Bight: bight, 0.3 miles across, between Northeast and Sea Lion Points, on NE coast of St. Paul Island, in Pribilof Islands; 57° 14' 30" N, 170° 05' 50" W; (map 38). Named in 1897 by W. W. Duffield, USC&GS.

Walrus Island: barrier beach, 22 miles long, one of Kudobin Islands, 9 miles W of village of Port Moller, Bristol Bay Lowland; 56° 01' 40" N, 160° 50' 00" W; (map 28). Variant: Volchie Island. Named in 1882 by W. H. Dall, USC&GS. Capt. Lutke (1836) referred to the island as "Volchie," meaning "wolf"; name now applied to the eastern tip of this feature.

Walrus Island: island, 0.4 miles long, 9 miles E of St. Paul Island, in Pribilof Islands; 57° 11' N, 169° 56' W; (map 38). Variant: Morjovi, Morserovia, Morsezovia, Morzhovoi, Ostrov

Morzhovoy. Translation from the Russian "O[strov] Morzhovoy" meaning "Walrus Island," published by Lt. Sarichev (1826, map 3).

Walrus Island: island, see Amak Island.

Walrus Island: island, see Round Island.

Walrus Islands: islands, extend SE 30 miles, in Bristol Bay, include High Island, Crooked Island, Black Rock Island, and Round Island, 15 miles E of Hagemeister Island, Kilbuck-Kuskokwim Mountains; 58° 43' N, 160° 15' W; (map 39). The Russian name "Morzh," meaning "walrus," was applied to an island by Lt. Sarichev (1826, map 3), IRN, which Capt. Tebenkov (1852, map 4), IRN, identified with the Round Island of Capt. Cook (1785, v. 2, p. 431), RN. Tebenkov applied the name "Ostrova Morzbovyia," or "Walrus Islands," to the whole group of islands east of Hagemeister Island.

Walrus Peak South: peak, see South Walrus Peak.

Walrus Peak: peak, see North Walrus Peak.

Walrus Peak: peak, see South Walrus Peak.

Walrus Point: point of land, see Lug Point.

Walrussia: state, see Alaska.

Walsh Creek: stream, flows NW 0.9 miles to Ward Cove, on SW coast of Revillagigedo Island, Alexander Archipelago; 55° 23' 45" N, 131° 43' 40" W; BGN 1933; (map 3). Variant: Watering-place Creek. Named in 1933 by USFS "for the founders of the first salmon packing company in the vicinity."

Walsh Glacier: glacier, heads in Canada at about 60° 55' N, 140° 40' W, trends W 48 miles to Logan Glacier, 10 miles SW of Mount George and 107 miles NW of Yakutat, St. Elias Mountains 60° 55' N, 141° 12' W; BGN 1917; (map 65). Named in 1900 by J. F. McArthur for Maj. J. M. Walsh, Royal Northwest Mounted Police. Published in 1916 by the IBC on Sheet No. 36.

Walter Island Arm: estuary, see Sandborn Canal.

Walter Island: island, 0.5 miles long, in Port Houghton, 1 mile NW of Sandborn Canal and 83 miles E of Sitka, Coast Mountains; 57° 18' 30" N, 133° 17' 15" W; (map 8). Named in 1882 by Lt. Comdr. H. E. Nichols, USN; name published by USC&GS in the 1883 Coast Pilot (p. 128).

Walter, Port: bay, 0.5 miles across, 9.5 miles N of the village of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 23' 30" N, 134° 38' 30" W; (map 5). Named for charting purposes; name published in 1901 by USC&GS.

Walton Creek: stream, flows SE to Kigezruk Creek, about 12 miles SE of Cape Prince of Wales, Seward Peninsula Highlands; (map 111). Prospectors' name shown on the 1900

“Map of Nome Peninsula” by J. M. Davidson and B. D. Blakeslee. This feature cannot be precisely identified on current maps.

Wanda Island: island, 0.2 miles long, between Sanak and Caton Islands, one of Sanak Islands, Aleutian Range; 54° 24' 40" N, 162° 31' 30" W; (map 25). Name reported by Ferdinand Westdahl, USC&GS, commander of the Coast Survey steamer McArthur, who made surveys in this area in 1901.

Wanda Island: island, off left bank of Yukon River, across from Falcon Cliffs and about 11 miles SW of Nulato, Koyukuk Lowland; 64° 32' N, 158° 16' W; (map 97). Riverboat pilots' name shown on a 1940 “Navigation Chart of the Tanana-Yukon Rivers” published by U.S. Dept. of Interior.

Wanita Creek: stream, see Flat Creek.

Wanmayee Creek: stream, flows SE 4 miles to Boxer River, 5 miles NW of Southwest Cape, St. Lawrence Island; 63° 21' N, 171° 34' W; BGN 1951; (map 93). Variant: Wanmayee River, Wanmey Creek. Eskimo name reported in 1949 by Maj. H. B. Allen, USAF.

Wanmayee River: stream, see Wanmayee Creek.

Wanmey Creek: stream, see Wanmayee Creek.

Wapoo Creek: stream, flows SW 45 miles to Innoko River 6.4 miles NW of its junction with Dishna River, 46 miles NW of Ophir and 74 miles NW of McGrath, Innoko Lowland; 63° 39' 30" N, 157° 27' 00" W; (map 90). Prospectors' name reported in 1913 by H. M. Eakin, USGS.

Wapoo Hills: range, 700 ft., between Galatea and Wapoo Creeks, extends NE 20 miles from Innoko River, 48 miles NW of Ophir and 65 miles S of Galena; Kilbuck-Kuskokwim Mountains; 63° 47' N, 157° 15' W; (map 90). Local name reported in 1964 by Arthur Gervais, USGS.

Warbler Lake: lake, 0.7 miles long, on Kenai Peninsula E of Mull Lake, 42 miles NE of Kenai, Cook Inlet Lowland; 60° 54' 50" N, 150° 17' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, probably for the Orange-crowned Warbler (*Vermivora celata celata*), which migrates from the south Atlantic states to northwestern Alaska (Pearson, 1944, pt. 3, p. 120).

Warburton Island: island, 400 ft. long, in Nichols Passage, 2 miles W of Metlakatla, Alexander Archipelago; 55° 08' N, 131° 38' W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Ward Cove: estuary, extends NE 1.5 miles off Tongass Narrows, on the SW coast of Revillagigedo Island, Alexander Archipelago; 55° 23' 30" N, 131° 44' 30" W; (map 3). Variant: Wards Cove. Named in the 1880's by USC&GS for one of the officers of the U.S.S. Patterson, the first Coast Survey ship to enter Alaska waters in 1884.

Ward Cove: village, pop. 69, on N shore of Ward Cove at SW end of Revillagigedo Island, 4.5 miles NW of Ketchikan, Alexander Archipelago; 55° 24' 30" N, 131° 43' 30" W; BGN

1966; (map 3). Variant: Wards Cove, Wacker, Wacker City. This village is an extension of the settlement area of Ketchikan northwest along the highway. A saltery was established here in 1883-84 by W. W. Ward. Eugene Wacker was first postmaster of the Wacker post office established 1920. The post office name was changed to Wards Cove in 1951 and then to Ward Cove in 1954 (Ricks, 1965, p. 69-70). The village population was 57 in 1930.

Ward Creek: stream, flows W 14 miles to Chatham Strait, on W coast of Admiralty Island, 25 miles N of Angoon, Alexander Archipelago; 57° 52' N, 134° 43' W; (map 9). Named in 1920 by J. P. Williams, USFS. The name "so far as known has no local significance."

Ward Creek: stream, heads in a lake, flows SW through Ingram, Connell, and Ward Lakes, 7.5 miles to Ward Cove, on SW coast of Revillagigedo Island, Alexander Archipelago; 55° 24' 30" N, 131° 42' 55" W; (map 3). Local name recorded in 1954 by USGS.

Ward Lake: lake, in course of Ward Creek, 0.7 miles NE of Ward Cove, on SW coast of Revillagigedo Island, Alexander Archipelago; 55° 24' 45" N, 131° 42' 00" W; (map 3). Local name recorded in 1954 by USGS.

Ward Mountain: mountain, 2,670 ft., W of Juno Mountain and 2 miles SE of Ward Cove, on Revillagigedo Island, Alexander Archipelago; 55° 23' 18" N, 131° 40' 45" W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Warde, Point: point of land, S point of entrance to Bradfield Canal, 30 miles SE of Wrangell, Alexander Archipelago; 56° 10' 30" N, 131° 58' 00" W; (map 7). Named in 1793 by Capt. George Vancouver, RN.

Wards Cove: estuary, see Ward Cove.

Wards Cove: village, see Ward Cove.

Warehouse Bluff: promontory, 2 miles long, rises 30 ft. above shore of Kuskokwim Bay, S of Warehouse Creek, 4 miles N of Quinhagak, Yukon-Kuskokwim Delta; 59° 56' N, 162° 06' W; (map 54). Local name reported by USC&GS in the 1914 Annual Report (p. 63); derived from a mission warehouse near Shiniak village.

Warehouse Channel Kuskokwim Bay: channel, extends S 25 miles from mouth of Warehouse Creek to point 16 miles NW of mouth of Jacksmith Creek, 19 miles NW of Carter Bay, Yukon-Kuskokwim Delta; 59° 36' N, 162° 12' W (map 54). Local name reported by USC&GS in the 1914 Annual Report (p. 63); derived from a mission warehouse near Shiniak village.

Warehouse Creek: stream, flows W 10 miles to Kuskokwim Bay, 3 miles N of Quinhagak, Yukon-Kuskokwim Delta; 59° 56' N, 162° 06' W; (map 54). Local name published in 1915 by USC&GS derived from the mission warehouse near Shiniak village.

Waring Mountains: mountain range, 1,800 ft., trends E 65 miles from Hotham Peak, S of Kobuk River valley, Brooks Range, 66° 50' N, 159° 45' W; (maps 114, 115). Named in 1886 by Lt. Stoney (1900, map), USN, possibly for Howard Scott Waring, USN.

Warm Chuck Inlet: estuary, on SE coast of Heceta Island, trending SE 5 miles to Gulf of Esquibel, 20 miles NW of Craig, Alexander Archipelago; 55° 45' N, 133° 29' W; (map 4). Named in 1914 by USC&GS. See Salt Chuck, village.

Warm Creek: stream, flows SW 8.2 miles to Goldbottom Creek which flows to Niukluk River, 32 miles NE of Solomon, Seward Peninsula Highlands; 64° 57' N, 163° 55' W; (map 95). Variant: Anderson Creek. Prospectors' name published in January 1900 by Schrader (1900c, p. 16), USGS. This appears to be the stream shown as "Anderson" on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. They applied the name "Warm" to a stream to the north.

Warm Pass Valley: valley, 2 miles long on Skagway River, 0.6 miles N of Laughton Glacier and 10 miles NE of Skagway, Coast Mountains; 59° 32' 35" N, 135° 04' 00" W; (map 45). Local name obtained by USGS field personnel and published on Federal maps since 1950.

Warm Spring Bay: bay, 1 mile across, on E coast of Baranof Island, at Baranof, Alexander Archipelago; 57° 05' N, 134° 47' W; (map 9). Named in 1895 by Lt. Comdr. E. K. Moore, USN; published in 1899 by USC&GS on Chart 8050. So named because "at the head of the bay is a waterfall * * * and near the waterfall there are several warm mineral springs." (U.S. Coast and Geodetic Survey, 1943, p. 332).

Warm Springs Slough: stream, see Ketili River.

Warm Springs: springs, on E coast of Baranof Island, at head of Warm Spring Bay, 20 miles E. of Sitka, Alexander Archipelago; 57° 05' 10" N, 134° 50' 20" W; (map 9). Local descriptive name reported in 1951 by USGS.

Warnecke Creek: stream, see McKelvie Creek.

Warner Bay: bay, on Alaska Peninsula, trends S 4 miles W of Ship Mountain to Pacific Ocean, 11 miles S of Chignik, Aleutian Range; 56° 08' N, 158° 24' W; (map 30). Variant: Prospect Bay. Called Prospect Bay by USGS (in P. S. Smith and others, 1929, pl. 6) because of a copper prospect nearby. "Warner or Prospect Bay" is given by USC&GS in 1916 Coast Pilot (p. 160), whereas Warner Bay is shown on a 1928 USC&GS chart.

Warner Creek: stream, flows NW 2.5 miles, joins Grace Creek to form Wade Creek, 45 miles SW of Eagle, Yukon-Tanana Highlands; 64° 10' 00" N, 141° 24' 30" W; (map 102). Local name published in 1956 by USGS.

Warner Creek: stream, heads in Kuskokwim Mountains, flows SW 20 miles to Innoko River, 2.8 miles NW of Ophir and 34 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 10' N, 156° 36' W; (map 90). Variant: Warren Creek. Prospectors' name reported in 1912 by H. M. Eakin, USGS; the stream was called Warren Creek in 1910 by A. G. Maddren, USGS.

Warren Channel: water passage, 3 miles long, between Kosciusko and Warren Islands, Alexander Archipelago; 55° 55' N, 133° 50' W; (map 4). Named in 1904 by E. F. Dickins, USC&GS, "after the Island."

Warren Cove: bay, 1 mile long, SW coast of Warren Island, Alexander Archipelago; 55° 52' 30" N, 133° 50' 30" W; (map 4). Named in 1904 by E. F. Dickins, USC&GS, "after the Island on which it is situated."

Warren Creek: stream, flows NW 8.5 miles to Mascot Creek, 80 miles W of Circle, Yukon-Tanana Highlands; 65° 43' N, 146° 53' W; (map 104). Named by prospectors; published in 1906 by USGS.

Warren Creek: stream, flows SE 1 mile to Cosmos Creek, 7 miles N of Shungnak, Brooks Range; 66° 59' 20" N, 157° 09' 45" W; (map 115). Prospectors' name reported after 1940 by USGS.

Warren Creek: stream, see Warner Creek.

Warren Island: island, 6.5 miles long in Iphigenia Bay, 42 miles NW of Craig, Alexander Archipelago; 55° 53' N, 133° 53' W; (map 4). Variant: Warren's Island, Warrens Island. Discovered on September 11, 1793, by Joseph Whidbey and named "Warren's Island" by Capt. George Vancouver, RN, for Sir John Borlase Warren.

Warren Peak: mountain, 2,329 ft., highest point on Warren Island, Alexander Archipelago; 55° 54' 50" N, 133° 53' 15" W; (map 4). Named in 1886 by Lt. Comdr. A. S. Snow, USN.

Warren, Point: point of land, at W end of barrier beach on N shore of Norton Sound, 1 mile SW of Solomon, Seward Peninsula Highlands; 64° 33' N, 164° 25' W; (map 95). Local name reported on a 1903-04 Council City and Solomon River Railroad map.

Warren: locality, along Seward Peninsula Railroad, on Banner Creek which flows to Nome River, 10 miles NE of Nome, Seward Peninsula Highlands; 64° 39' N, 165° 19' W; (map 95). Variant: Banner Creek. Site of a railroad station established in 1905 (Cole, 1953, p. 14). The mining camp located here was known as "Banner Creek."

Warrens Island: island, see Warren Island.

Warrick Peak: peak, 7,590 ft., in Nutzotin Mountains, E. of junction of Chavolda Creek and Chisana River, 10 miles N of Euchre Mountain, Alaska Range; 62° 11' 05" N, 142° 01' 30" W; (map 84). Local name reported in 1960 by USGS.

Warsham Bay: bay, see Kisselen Bay.

Wart Island: island, see Sundstrom Island.

Wart Point: point of land, S point of entrance to Manzanita Bay, on E coast of Revillagigedo Island, Alexander Archipelago; 55° 35' 20" N, 130° 56' 30" W; (map 3). Arbitrary name given in 1891 by USC&GS.

Warton: town, see Palmer.

Wash Reef: rocks, 1.5 miles NE of Cape Sasmik, Tanaga Island, Aleutian Islands; 51° 37' 53" N, 177° 54' 15" W; (map 17). Name published by USC&GS in 1957 on Chart 9146.

Washbowl Basin: valley, 0.4 miles long, 1 mile W of mouth of Canyon Slough and 5 miles SE of Valdez, Chugach Mountains; 61° 03' 45" N, 146° 08' 45" W; (map 68). Local name published in 1950 by USGS.

Washburn Peak: mountain, 1,760 ft., 2.7 miles SW of Attu, Attu Island, Aleutian Islands; 52° 54' 50" N, 173° 11' 30" E; (map 13). Name shown on an AMS map published in 1948, and given by the U.S. Army during World War II. The name is not used today.

Washburn Peak: peak, 3,316 ft., NW of Wheeler Peak on Glass Peninsula, Admiralty Island, 36 miles SE of Juneau, Alexander Archipelago; 57° 49' 50" N, 133° 58' 30" W; BGN 1g34; (map 8). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, probably for Cadwallader Colden Washburn, 1818-1882, a major general in the Union Army in the Civil War, U.S. Representative from Wisconsin, 1867-71, and Governor of Wisconsin, 1872-74.

Washburn Slough: slough, flows 1.5 miles to Yukon River at Devils Elbow, 1 mile NW of Roundabout Mountain and 23 miles SW of Russian Mission, Yukon-Kuskokwim Delta; 61° 35' N, 161° 55' W; (map 73). Riverboat pilots' name shown on a 1922 manuscript chart of the Yukon River; probably named for the riverboat Washburn that was sunk here in 1918.

Washburn: locality, 2 miles SW of Birch Lake, on left bank of Tanana River, 28 miles NW of Big Delta, Tanana Lowland; 64° 18' N, 146° 44' W; (map 101) Site of a stage station reported in 1908 by J. W. Bagley, USGS. A post office was established here in 1907, but discontinued in 1913 (Ricks, 1965, p. 70). It does not appear on recent maps.

Washburn: village, see Big Delta.

Washdown Point: point, on SE tip of Koyukuk Island, in Yukon River, 19 miles NE of Nulato, Koyukuk Lowland; 64° 52' N, 157° 32' (map 97). Local name reported in 1954 by USGS.

Washes Creek: stream, flows NE 6 miles to Cross Creek, 6 miles N of Euchre Mountain, Wrangell Mountains; 62° 08' N, 142° 12' W; (map 84). Local name reported in 1960 by USGS.

Washington Bay: bay, 0.2 miles across, on NW coast of Kuiu Island, Alexander Archipelago; 56° 43' 00" N, 134° 23' 20" W; (map 5). Local name used by fishermen; published in 1899 by USC&GS.

Washington Creek: stream, flows E 12 miles to join Macklin Creek to form Kougarok River, 8 miles SW of Midnight Mountain and 49 miles WNW of Imuruk Lake, Seward Peninsula Highlands; 65° 44' N, 164° 51' W; (map 110). Variant: Left Fork Kougarok River. Prospectors' name reported in 1906 by A. H. Brooks (in Collier and others, 1908, pl. 9), USGS.

Washington Creek: stream, flows NW 2 miles to Inmachuk River, 23 miles NE of Imuruk Lake, Seward Peninsula Highlands; 65° 52' N, 162° 58' W; (map 110). Prospectors' name reported in 1903 by D. C. Witherspoon (in Moffit, 1905, pl. 2), USGS.

Washington Creek: stream, flows NW 28 miles to Yukon River 14 miles E of junction of Charley River, Yukon-Tanana Highlands; 65° 19' 15" N, 142° 18' 10" W; (map 103). Variant:

Tendashundu River. Prospectors' name from an unpublished map by E. J. Chamberlain, dated 1902. Lt. Schwatka (1885, sheet 8), USA, used the Indian name "Tendashundu."

Washington Creek: stream, flows SE to Lone Mountain Creek which flows to American River, about 35 miles NE of Teller, Seward Peninsula Highlands; (map 111). Prospectors' name shown on a 1901 map of Cape Nome gold fields by David Fox, Jr. This feature cannot be precisely identified on current maps.

Washington Creek: stream, flows SW 1 mile to Nome River, 0.1 miles W of Stevens Gulch and 6 miles NE of Nome, Seward Peninsula Highlands; 64° 31' N, 165° 12' W; (map 94). Prospectors' name reported on the 1903 Campion Mining and Trading Co. map by George M. Ashford.

Washington Creek: stream, flows SW 15 miles to Nixon River, 16 miles NW of Medfra, Kilbuck-Kuskokwim Mountains; 63° 15' N, 155° 14' W; (map 89) Local name reported in 1910 by A. G. Maddren (in Brooks and others, 1911, pl. 14), USGS.

Washington Creek: stream, flows SW 2.4 miles to Flambeau River, 16 miles NE of Nome, Seward Peninsula Highlands; 64° 42', 165° 05' W; (map 94). Prospectors' name reported on a map by S. E. King dated 1900.

Washington Creek: stream, flows SW 50 miles to Tatalina River, 40 miles NW of Fairbanks, Yukon-Tanana Highlands; 65° 04' N, 149° 03' W; (map 105). Variant: Benikakat River. Named by prospectors; reported in 1908 by USGS (Covert and Ellsworth, 1909, pl. 2). The Indian name, Benikakat, appeared on a railroad map in 1911.

Washington Creek: stream, flows SW 7 miles to Sinuk River, 21 miles NW of Nome, Seward Peninsula Highlands; 64° 43' N, 165° 56' W; (map 94) Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Washington Creek: stream, heads on Bean Ridge, flows SE 5 miles to Hot Springs Slough, 3 miles E of village of Manley Hot Springs and 46 miles ESE of Tanana, Yukon-Tanana Highlands; 65° 00' 15" N, 150° 31' 00" W; (map 106). Local name reported in 1952 by USGS.

Washington Creek: stream, see Little Washington Creek.

Washington Glacier: glacier, see Barry Glacier.

Washington Monument Rock: rock, in Revillagigedo Channel, SW of entrance to Boca de Quadra, Coast Mountains; 55° 04' 30" N, 131° 02' 05" W; (map 3). Discovered and named in the 1920's by USC&GS while conducting underwater sweeping operations in coastal waters for the purpose of charting navigational hazards. This feature was named because of its resemblance to the Washington Monument in Washington, D.C., and "reached within 17 feet of the surface in general depths of 650 feet" (Weight and Roberts, 1957, p. 33-34).

Washington Peak: peak, 4,065 ft., 3 miles E of Sandborn Canal and 88 miles E of Sitka, Coast Mountains; 57° 15' 50" N, 133° 09' 20" W; (map 8). Named in 1895 by USC&GS.

Wasilieff Reef: reef, see Williams Reef.

Wasilla Creek: stream, flows SW 22 miles in Matanuska Valley to Palmer Slough, 11 miles SW of Palmer, Cook Inlet Lowland; 61° 31' N, 149° 23' W; (map 69). Variant: Wassila Creek, Wassilla Creek. Name used by local miners; reported in 1906 as "Wassilla Creek" by T. G. Gerdine and R. H. Sargent, USGS. Reportedly named for "Wassilla, a chief of the Knik Indians." The name "Wassila" is apparently derived from the Russian surname, "Vasiliev," meaning "Basil."

Wasilla Lake: lake, 2 miles long, in Matanuska Valley, E of Wasilla, 8.5 miles SW of Palmer, Cook Inlet Lowland; 61° 35' 15" N, 149° 23' 45" W; (map 69). Named about 1917 by the builders of The Alaska Railroad; name derived from nearby Wasilla Creek.

Wasilla: village, pop. 112, in Matanuska Valley, miles 159.8 on The Alaska Railroad, between Lucile and Wasilla Lakes, 11 miles SW of Palmer, Cook Inlet Lowland; 61° 34' 55" N, 149° 26' 15" W; BGN 1917; (map 69). Variant: Wassila. Name of station on The Alaska Railroad that came into being about 1916. A post office was established here in 1917 (Ricks, 1965, p. 70). The village derived its name from nearby Wasilla Creek.

Waskanareska Bay: cove, 0.6 miles across, on SW coast of Afognak Island, 6.7 miles NW of Afognak, Kodiak Island; 58° 01' 30" N, 152° 57' 00" W; (map 43) Local name reported in 1952 by USGS.

Waskey, Mount: mountain, 5,026 ft., 12 miles NE of Togiak Lake and 85 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 46' N, 159° 15' W; BGN 1931; (map 53). Named by local inhabitants for Frank H. Waskey, the first delegate to Congress from the Territory of Alaska. He was a local trader and prospector and traveled much of the resign. He collected information over a period of more than 30 years about local names from natives, prospectors, and airplane pilots. This name was reported in 1931 by USGS.

Wasp Cove: cove, extends SW 0.5 miles off Behm Canal, on SE coast of Revillagigedo Island, Alexander Archipelago; 55° 25' 45" N, 130° 58' 45" W; BGN 1928; (map 3). Local name reported in 1928 by USFS; derived from Wasp Point.

Wasp Point: point of land, on SE coast of Revillagigedo Island, between Princess Bay and Short Pass, Alexander Archipelago; 55° 22' 45" N, 130° 59' 25" W; (map 3). Named in 1891 by USC&GS.

Wasp Point: point of land, S tip of Quail Island in Yukon River, Innoko Lowland; 63° 53' N, 159° 08' W; (map 91) Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the U.S. Dept. of Interior.

Wassila Creek: stream, see Wasilla Creek.

Wassila: village, see Wasilla.

Wassilla Creek: stream, see Wasilla Creek.

Wassillas Lake: lake, see Lucile Lake.

Wasta Creek: stream, heads in lake, flows E 4 miles to Spacious Bay, on NE coast of Cleveland Peninsula, Alexander Archipelago; 55° 51' 25" N, 131° 55' 00" W; (map 3). Local name published in 1943 by USC&GS.

Watana Creek: stream, flows SW 24 miles to Sustina River, 31 miles NW of mouth of Oshetna River and 45 miles SE of Cantwell, Talkeetna Mountains; 62° 49' 50" N, 148° 15' 30" W; (map 82). Indian name reported by Ellsworth and Davenport (1915b, pl. 5), USGS.

Watana Lake: lake, 1.6 miles long, E of Mount Watana, 12 miles NW of junction of Oshetna and Susitna Rivers, Talkeetna Mountains; 62° 43' 45" N, 148° 02' 45" W; (map 82). Local name recorded in 1952 by USGS.

Watana, Mount: mountain, 6,255 ft., 24 miles NW junction of Oshetna and Susitna Rivers, Talkeetna Mountains; 62° 43' 30" N, 148° 07' 00" W; (map 82). Local name recorded in 1952 by USGS.

Watch Point: point of land, on E shore of Seldovia Bay, within the limits of village of Seldovia, Chugach Mountains; 59° 26' 45" N, 151° 43' 00" W; BGN 1908; (map 50). Variant: Lookout Point. Name reported by USC&GS in 1908. It was locally called Lookout Point, but because of duplication, the name was changed to a suitable synonym.

Water Creek Mountain: peak, 4,920 ft., 7 miles N of junction of Water Creek and Junjik River and 25 miles N of Arctic Village, Brooks Range; 68° 29' N, 145° 38' W; (map 136). Local name reported in 1956 by R. C. Foley, USGS.

Water Creek: stream, flows S 28 miles to Junjik River, 18 miles NW of Arctic Village, Brooks Range; 68° 23' N, 145° 41' W; (map 136). Translation of Kutchin Indian name reported in 1956 by T. E. Taylor, USGS.

Water Lake: lake, 1,200 ft. long, on E coast of Prince of Wales Island, N of Thorne Bay, Alexander Archipelago; 55° 41' 30" N, 132° 30' 55" W; BGN 1962; (map 4). Local name reported in 1961 by USFS.

Waterboot Creek: stream, flows NW 10 miles to Atsaksovluk Creek 5 miles SE of its junction with Aniak River, 83 miles SW of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 54' N, 159° 00' W; BGN 1948; (map 60). Local name reported in 1945 by USGS; the name refers to "an incident in connection with prospectors boating on this stream."

Waterboot Creek: stream, see Atsaksovluk Creek.

Waterfall Bay: estuary, extends E 4 miles on W coast of Dall Island, Alexander Archipelago; 54° 56' N, 133° 09' W; (map 1). Name published by USC&GS in 1914.

Waterfall Cove: cove, 0.4 miles across, on NE coast of Baranof Island, 7 miles N of Baranof, Alexander Archipelago; 57° 11' 45" N, 134° 50' 00" W; (map 9). Local name reported in 1951 by USGS.

Waterfall Cove: cove, 0.6 miles across, along W coast of Chichagof Island, on E side of Slocum Arm, 11 miles SE of Chichagof, Alexander Archipelago; 57° 31' N, 135° 55' W; BGN

1908; (map 9). Named in 1908 by E. F. Dickins, USC&GS, for "the waterfall located on the outlet of Waterfall Lake." The name was published in the 1908 Coast Pilot (p. 172).

Waterfall Creek: stream, flows S 10 miles to Susitna River, 65 miles SE of Cantwell, Alaska Range; 62° 57' 50" N, 147° 12' 05" W; (map 82). Local descriptive name reported in 1931 by USGS.

Waterfall Creek: stream, flows S 8 miles to Meshik River, on Alaska Peninsula, 11 miles S of Vent Mountain in Aniakchak Crater, Bristol Bay Lowland; 56° 43' N, 158° 08' W; (map 30). Descriptive name reported in 1923 by R. H. Sargent, USGS.

Waterfall Creek: stream, heads at Alaska-Canada boundary, flows NW 16 miles to Nation River 15 miles NNE of that stream's junction with Yukon River and 41 miles N of Eagle, Porcupine Plateau; 65° 22' 30" N, 141° 26' 30" W; (map 103). Descriptive name reported in 1930 by J. B. Mertie, Jr., USGS.

Waterfall Creek: stream, see North Fork Snake River.

Waterfall Head: point of land, see Cascade Point.

Waterfall Lake: lake, 0.3 miles across, on W coast of Chichagof Island, 12 miles SE of Chichagof, Alexander Archipelago; 57° 32' N, 135° 52' W; BGN 1923-(map 9). Named in 1923 by USFS for the waterfall located on the stream that drains the lake.

Waterfall Lake: lake, 0.8 miles long, 14 miles N of Chalkyitsik, Yukon Flats; 66° 45' N, 143° 49' W; (map 120). Local descriptive name; reported in 1956 by R. C. Foley, USGS.

Waterfall Lake: lake, 0.9 miles long, on W coast of Dall Island, 1 mile N of Waterfall Bay, Alexander Archipelago; 54° 58' 20" N, 133° 06' 00" W; BGN 1935; (map 1). Named in 1935 by USGS.

Waterfall Peak: mountain, see Porter Peak.

Waterfall Peak: peak, 3,400 ft., 1.5 miles W of Swanlake and 103 miles E of Sitka, Coast Mountains; 57° 01' 30" N, 132° 46' 30" W; (map 8). Named in 1887 by Lt. Comdr. C. M. Thomas, USN; name published in 1888 by USC&GS. So named because of the falls along Cascade Creek south of the mountain.

Waterfall Point: point of land, between Clark and Orzinski Bays, on W shore of Stepovak Bay, near SW end of Alaska Peninsula, Aleutian Range, 55° 43' 20" N, 160° 01' 20" W; (map 28). Descriptive name published by USC&GS in 1916 Coast Pilot (p. 164); so named because of "a conspicuous waterfall at the southern tip."

Waterfall: locality, a cannery, on W coast of Prince of Wales Island, 13 miles SW of Craig, Alexander Archipelago; 55° 17' 50" N, 133° 14' 30" W; (map 4). Name published by H. M. Eakin (in Brooks and others, 1915, pl. 5), USGS. "Waterfall * * * has a cannery and store at which some fishermen's supplies, gasoline, and fuel oil can be obtained * * * cannery wharf * * *. Waterfall has radio communication during the canning season" (U.S. Coast and Geodetic Survey, 1962, p. 83).

Waterfalls, Bay of: bay, 5 miles across on SW coast of Adak Island, Aleutian Islands; 51° 38' N, 176° 52' W; BGN 1936; (map 17). Name given by Lt. William Gibson, USN, commander of the schooner Fenimore Cooper, during the North Pacific Exploring Expedition in 1855.

Waterfowl Lake: lake, 0.7 miles long, on Kenai Peninsula W of Canoe Lake, 22 miles NE of Kenai, Cook Inlet Lowland; 60° 43' 10" N, 150° 42' 45" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Watering-place Creek: stream, see Walsh Creek.

Waterman Canyon: canyon, 0.5 miles long, on Kenai Peninsula, 1 mile N of Kachemak Bay and 6 miles NE of Homer, Cook Inlet Lowland; 59° 41' 30" N, 151° 24' 15" W; (map 50). Local name reported and published by USGS in 1950.

Watermelon Lake: lake, 1 mile across, 11 miles NE of head of Ikpikpuk River, Arctic Plain; 69° 28' N, 154° 22' W; BGN 1960; (map 142). So named by geologists in the 1940's "because a supply airplane which landed here brought a rare treat—a watermelon."

Watermouse Creek: stream, see Wattamuse Creek.

Waters, Mount: mountain, 5,237 ft., at head of Nelson Glacier, 14 miles E of Wrangell, Coast Mountains; 56° 31' 30" N, 132° 01' 30" W; BGN 1944; (map 6). Named in 1944 by USGS.

Waters, Point: point of land, on E shore of Port Bainbridge, 14 miles SW of Chenega, and 40 miles E of Seward, Chugach Mountains; 60° 07' 00" N, 148° 18' 15" W; (map 63). Named about May 28, 1794, by Joseph Whidbey, of Capt. George Vancouver's party, while exploring Port Bainbridge (Wagner, 1937, p. 421).

Waterson Gulch: ravine, trends W 0.5 miles to Glacier Creek, about 8 miles N of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name published on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This feature cannot be precisely identified on recent maps.

Watkins Point: point of land, on W coast of Cleveland Peninsula, at S entrance to Seward Passage, Alexander Archipelago; 55° 58' N, 132° 02' W; (map 4). Named by local fishermen and reported in 1904 by H. C. Fassett, USBF.

Watson Creek: stream, flows NW 1.3 miles to Birch Creek which flows to Big Four Creek, 21 miles NE of Solomon, Seward Peninsula Highlands; 64° 49' N, 164° 09' W; (map 95). Prospectors' name reported on a 1902 prospectors' manuscript map.

Watson Creek: stream, heads in Robinson Mountains and flows 4 miles SW to the Gulf of Alaska, 1.8 miles W of Claybluff Point and 71 miles NW of Yakutat, Malaspina Coastal Plain; 59° 57' 50" N, 141° 38' 05" W; (map 47). Local name published in 1948 by USGS.

Watson Fork: stream, flows SW 4 miles to Fish Creek, 55 miles SW of Eagle, Yukon-Tanana Highlands; 64° 18' 30" N, 142° 45' 00" W; (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Watson Glacier: glacier, trends S 4 miles to Yakataga Glacier, 11 miles NE of Cape Yakataga and 95 miles NW of Yakutat, Chugach Mountains; 60° 09' 30" N, 142° 10' 45" W; BGN 1946: (map 65). Named in 1945 by USGS for Ben Watson who "has contributed to knowledge of the Territory as a collector for the Smithsonian Institution and other natural history museums."

Watson Lake: lake, 0.5 miles long, one of the Seven Lakes, on Kenai Peninsula, in course of East Fork Moose River, 29 miles SE of Kenai, Cook Inlet Lowland; 60° 32' 15" N, 150° 28' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Watson Peak: peak, 2,258 ft., 2.8 miles NE of Cape Yakataga and 99 miles NW of Yakutat, St. Elias Mountains; 60° 05' 00" N, 142° 22' 30" W; (map 65). Local name published in 1951 by USGS.

Watson Point: point of land, on NW coast of Baranof Island, 1.4 miles NW of Sitka, Alexander Archipelago; 57° 04' 00" N, 135° 21' 50" W; (map 9). Local name reported in 1951 by USGS.

Watson, Mount: mountain, 12,516 ft., 2 miles W of Alaska-Canada boundary, 6.5 miles S of Mount Lodge, and 84 miles SW of Skagway, St. Elias Mountains; 59° 00' 30" N, 137° 33' 15" W; BGN 1924; (map 45). Named in 1924 for David Thompson Watson, 1844-1916, lawyer, who was U.S. Counsel of the Alaska Boundary Tribunal in 1903. Watson was born in Pennsylvania and received his law degree from Harvard Univ. The name was published in 1928 on IBC Sheet 12 (1951 atlas).

Wattamuse Creek: stream, flows SE 3 miles to Cascade Creek, 20 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 20' N, 161° 15' W; (map 53). Variant: Nakahkpuk, Wahmus Creek, Watermouse Creek. Eskimo name reported as "Wahmus" or folk etymologized into "Watermouse Creek" according to G. C. Martin (1919, p. 40), USGS. In 1919 G. L. Harrington, USGS, reported that the name is a corruption of "Bartimeus," the baptismal name of an Eskimo for whom the stream was named. He also reported that the Eskimos called it "Nakahkpuk," said to mean "stream between mountains." Gold was found on this creek in 1917 by an Eskimo herding reindeer in the vicinity. This discovery resulted in the Discovery group of productive placer mines located along the creek (Brooks and others, 1921, p. 225).

Waverly Island: island, see Tangik Island.

Waw, Mount: mountain, 7,910 ft., in Romanzof Mountains, 4 miles NE of Mt. Hubley and 14 miles NE of Mt. Michelson, Brooks Range; 69° 20' N, 143° 43' W; (map 138). Named about 1957 by personnel participating in the International Geophysical Year glaciological work in the Romanzof Mountains.

Waxel Ridge: ridge, see Waxel; Ridge.

Waxell Ridge: ridge, elev. 4,000-10,000 ft., extends from head of Steller Glacier E 26 miles to Bering Glacier, 90 miles E of Cordova, Chugach Mountains and St. Elias Mountains; 60° 32'

N, 143° 04' W; (map 65). Variant: Swen Waxell Ridge, Waxel Ridge. Named in 1913 by A. G. Maddren, USGS, for Lt. Sven Waxell (Waxel), sailing master under Vitus Bering on the Alaskan discovery voyage in 1741; upon Bering's death, Waxell succeeded to command.

Way Point: point of land, on W coast of Dall Island, in Hook Arm Sea Otter Harbor, Alexander Archipelago; 55° 07' 40" N, 133° 09' 00" W; (map 4). Name published in 1924 by USC&GS.

Wayanda Ledge: reef, in Sergius Narrows, at W end of Peril Strait, off NW coast of Baranof Island, Alexander Archipelago; 57° 24' 23" N, 135° 37' 22" W; BGN 1897; (map 9). Variant: Eureka Ledge, Wayanda Rock, Wyanda Ledge. Named by USC&GS; published as "Wayanda Rock" in the 1883 Coast Pilot (p. 161). The ledge was named for the Revenue Cutter Wayanda which once struck it. It has also been called "Eureka Ledge" for the steamer Eureka which struck it in 1883. The latter name was published on Chart 8259.

Wayanda Rock: reef, see Wayanda Ledge.

Wayanda Rock: rock, see California Rock.

Waydelich Creek: stream, flows 2 miles SE to Auke Bay at Spaulding Point, 10 miles NW of Juneau, Coast Mountains; 58° 23' 00" N, 134° 39' 15" W; BGN 1964; (map 11). Variant: Wadleigh Creek. Named for John W. Waydelich, 1837-1914, one of the first white settlers in the Auke Bay area. After graduating from Yale University, he went to Montana and then to Alaska. In 1881 he moved to Juneau, and in 1892 claimed a homestead on Auke Bay along the creek which now bears his name. (DeArmond, 1957, p. 46-47).

We-wa-le-ah: point of land, see Simpson, Cape.

Weare Dike: locality, on a slough N of Yukon River, 6 miles E of Blade Island and 19 miles SW of Russian Mission, Yukon-Kuskokwim Delta; 61° 37' 20" N, 161° 46' 00" W; (map 73). Variant: Weare Dyke. Site of a dike shown on a 1916 USGS map ; name derived from "the Portus B. Weare [that] was the first steamboat of the N.A.T. and T. Company, built in 1892. She was named for Portus B. Weare, of Chicago, one of the organizers of the company" (Curtain, 1938, p. 280). "During the winter of 1898-99 the Weare * * * wintered about fifteen miles below Russian Mission, where she was stuck in the open river, near the bank. A breakwater was built in front of her at a cost of five thousand dollars, and she was saved from the ice jams in the spring. The breakwater must have stood, for on U.S. [Geological] Survey Maps made * * * in 1916 the place is marked, and named 'Weare Dyke'" (p. 283).

Weare Dyke: locality, see Weare Dike.

Weare: locality, see Tanana.

Weary River: stream, flows SE 40 miles to Snake River, 13 miles SW of Dillingham, Bristol Bay Lowland; 58° 58' N, 158° 49' W; BGN 1937; (map 40). So named in 1952 by USGS "because of the sluggishness of the stream and the time consumed in traversing its very winding course."

Weasel Cove: cove, extends S 1 mile, at head of Spiridon Bay, on NW coast of Kodiak Island; 57° 36' 00" N, 153° 36' 45" W; BGN 1931; (map 34). Descriptive name given by USC&GS in 1929, "because of numerous weasels seen on the beach in the cove."

Weasel Cove: estuary, extends N 1.3 miles, off Boca de Quadra, 0.5 miles W of Badger Bay, Coast Mountains; 55° 08' 30" N, 130° 49' 45" W; (map 3). One of many arbitrary names applied to features in this area in 1891 by USC&GS.

Weasel Creek: stream, flows N 12 miles to Tom Killae Creek, 30 miles SW of Whitefish Lake and 60 miles NW of Nondalton, Lime Hills; 60° 42' 30" N, 155° 46' 50" W; (map 61). Local name reported in 1950 by USC&GS.

Weasel Creek: stream, flows W and NE 12 miles to Maybe Creek, E of Kimikpak Ridge and 20 miles SE of head of Ikpikpak River, Arctic Slope; 69° 14' N, 153° 56' W; BGN 1949; (map 142). Named by the geologists on the Naval Petroleum Reserve No. 4 exploration for the tracked vehicle called a Weasel, which was used extensively for tundra exploration.

Weasel Lake: lake, 0.7 miles long, on Kenai Peninsula, 1.4 miles W of Rock Lake and 21 miles NE of Kenai, Cook Inlet Lowland; 60° 39' 40" N, 150° 41' 45" W; (map 62). Named about 1963 by officials of the Kenai National Moose Range, for administrative purposes.

Weasel Mountain: mountain, 2,410 ft., on Alaska Peninsula, forms SE end of a 6-mi. promontory between Hook and Chignik Bays, 17 miles NE of Chignik, Aleutian Range; 56° 29' N, 158° 08' W; (map 30). Name reported in 1923 by R. H. Sargent, USGS; published in 1927 by USGS.

Weasel Point: ridge, near S end of Lake Peters, Franklin Mountains, Brooks Range; (map 139). Name published by Bee and Hall (1956, p. 295).

Webber Creek: stream, flows NE 17 miles to Yukon River, 32 miles SSE of Circle, Yukon-Tanana Highlands; 65° 24' 30" N, 143° 33' 00" W; (map 103). Prospectors' name recorded in 1902 by Lt. Hjalmar Erickson, USA, and William Yanert.

Weber Creek: stream, on Kenai Peninsula, flows NW 2 miles to Canyon Creek, 12 miles S of Sunrise and 27 miles W of Whittier, Chugach Mountains; 60° 42' 50" N, 149° 27' 25" W; (map 63). Local prospectors' name reported about 1914 by B. L. Johnson (in Martin and others, 1915, pl. 2), USGS.

Weber Point: point of land, see Beacon Point.

Webories Creek: stream, flows SE 3 miles to Melozimoran Creek, 3.5 miles N of Moran Dome and 30 miles NW of Tanana, Kokrines-Hodzana Highlands; 65° 25' 30" N, 152° 55' 00" W; BGN 1960; (map 106). Named in 1955 by R. M. Chapman, USGS, for Martin Webories, who died in 1946, "who prospected in the Grant-Tozimoran Creeks for a number of years. He had a cabin on this stream * * *."

Webster Lake: lake, 0.3 miles across, on NE coast of St. Paul Island, in Pribilof Islands; 57° 14' 10" N, 170° 06' 40" W; (map 38). Name reported by W. W. Duffield, USC&GS, in 1897;

probably named for the owner of a nearby house, labeled "Webster's House" on Elliott's map of St. Paul (1881).

Webster Peak: mountain peak, 3,500 ft., 1 mile NW of Everett Peak, 3 miles NW of Point Styleman, on Stephens Passage, 27 miles SE of Juneau, Coast Mountains; 58° 00' 45" N, 133° 55' 50" W; (map 12). Local name reported in 1951 by USGS.

Webster Point: point of land, on SW coast of Prince of Wales Island, 4 miles E of Jackson Island Alexander Archipelago; 54° 58' 15" N, 132° 36' 45" W (map 1). Local name recorded in 1905 by E. F. Dickens, USC&GS.

Webuk Konikto: promontory, see Thompson, Cape.

Webuk Unasiksuk: promontory, see Lisburne, Cape.

Webuk: locality, see Wevok.

Wedge Cape: point of land, in Bay of Waterfalls, on SW coast of Adak Island, Aleutian Islands; 51° 38' 30" N, 176° 49' 50" W; BGN 1936; (map 17). Named by U.S. Navy in 1893, and published by the U.S. Navy Hydrog. Office in 1895.

Wedge Glacier: glacier, trends NW 1 mile to its terminus, 1.5 miles E of head of Harriman Fiord, 18 miles NE of Whittier, Chugach Mountains; 60° 58' 00" N, 148° 23' 45" W; (map 63). Descriptive name given in 1899 by the members of the Harriman Alaska Expedition; probably named because the glacier trends down a progressively narrowing valley.

Wedge Island: islands, see Wedge Islands.

Wedge Islands: islands, off-shore group, extends 1.3 miles in Clarence Strait, 2 miles N of Adams Point, on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 08' 45" N, 131° 57' 45" W; (map 3). Variant: Ostrov Vedzh, Wedge Island. The largest of these islands was named "Wedge Island" in 1793 by Capt. George Vancouver, RN, because of its shape (Wagner, 1937, p. 421).

Wedge Mountain: mountain, 3,400 ft., on Chichagof Island, 2.3 miles NE of Pelican, Alexander Archipelago; 57° 59' 22" N, 136° 11' 50" W; BGN 1960; (map 9). Descriptive name given in 1955 by D. L. Rossman, USGS, because "the mountain has a wedge shape."

Wedge Peak: peak, 10,239 ft., in Mount McKinley National Park, 17 miles SSW of Eielson Visitor Center and 18 miles ENE of Mount McKinley, Alaska Range; 63° 12' 15" N, 150° 30' 40" W; (map 88). Descriptive name given in 1945 by the U.S. Army Air Force Cold Weather test party.

Wedge Point: point of land, between Aspid and Alimuda Bays, on SW coast of Unalaska Island, Aleutian Islands; 53° 26' 55" N, 167° 23' 35" W; BGN 1938; (map 23). Descriptive name given in 1937 by USC&GS.

Wedge Point: point of land, on NW coast of Woronkofski Island, Alexander Archipelago; 56° 25' 15" N, 132° 32' 00" W; (map 6). Descriptive name obtained from local navigators; reported in 1904 by H. C. Fassett, USBF.

Wedge Point: point of land, on SW coast of Adak Island, Aleutian Islands; 51° 42' 00" N, 176° 55' 45" W; BGN 1936; (map 17). Name given by Lt. William Gibson, USN, commander of the schooner Fenimore Cooper' during the North Pacific Exploring Expedition in 1855.

Wedge Point: point of land, see Ram Point.

Wedge, Cape: point of land, on N tip of Nagai Island, in Shumagin Islands, Aleutian Range; 55° 17' N, 159° 53' W; (map 27). Variant: Wedge Cape. Named by W. H. Dall, USC&GS, in 1872.

Wedgewood Creek: stream, flows SW 6 miles to Rock Creek, 13 miles NNE of Porcupine Dome, and 38 miles SW of Circle, Yukon-Tanana Highlands; 65° 41' 15" N, 145° 20' 00" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Weed Bight: bight, between Shoal Point and Round Head, on NE coast of Kanaga Island, Aleutian Islands; 51° 53' N, 177° 04' W; (map 17). Name published in 1957 on an AMS map.

Weed Lake: lake, 0.3 miles long, on Kenai Peninsula SW of Dabbler Lake, 18 miles NE of Kenai, Cook Inlet Lowland; 60° 41' 30" N, 150° 46' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range for administrative purposes.

Weedy Shoals: reefs, on E shore of Zachary Bay, Unga Island, in Shumagin Islands, Aleutian Range; 55° 22' 20" N, 160° 36' 00" W; (map 28). Named in 1872 by W. H. Dall.

Weelung Creek: stream, flows W 3 miles to Kuskokwim Bay, 55 miles NW of Goodnews, Yukon-Kuskokwim Delta; 59° 50' N, 162° 03' W; (map 54) Name reported in 1951 by USGS.

Weeping Wall: cliff, on NW coast of Umnak Island, Aleutian Islands; 53° 28' N, 168° 15' W; BGN 1° 42; (map 22). Descriptive name given in 1939 by USC&GS "because several cracks in the rocks emit a series of waterfalls during and immediately after the rainy season."

Weigle, Point: point of land, between Little and Davison Bays, on W coast of Chichagof Island, 11 miles NW of Chichagof, Alexander Archipelago; 57° 46' 40" N, 136° 18' 20" W; (map 9). Named by the USC&GS for W. G. Weigle, U.S. Forest Supervisor at Ketchikan. The name was published in 1919 on Chart 8250.

Weinie Lake: lake, 2,000 ft. long, in Matanuska Valley, 12 miles SW of Palmer, Cook Inlet Lowland; 61° 31' 40" N, 149° 26' 45" W; (map 69). Local name reported in 1942 by USGS.

Weir Island: island, 2.1 miles long, in Yukon River, 56 miles SSW of Nulato, Innoko Lowland; 63° 58' 30" N, 158° 54' 00" W; (map 90). Riverboat pilots' name shown on 1940 "Navigation Chart of the Tanana-Yukon Rivers" by Dept. of Interior.

Weir Island: island, 3.3 miles long, in Yukon River, S of Flora Island and 2 miles E of Birches, Nowitna Lowland; 65° 07' 30" N, 153° 27' 00" W; (map 107). Riverboat pilots' name shown on

a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the Department of the Interior.

Weir Slough: slough, anabranch of Yukon River, flows W 4 miles, S of Weir Island and 2 miles E of Birches, Nowitna Lowland; 65° 08' N, 153° 30' W; (map 107). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the Department of the Interior.

Welcome Bay: bay, 0.2 miles across, on N coast of Tigalda Island, Aleutian Islands; 54° 05' 45" N, 165° 01' 30" W; (map 24). Name published in 1965 by USC&GS.

Welcome Cove: estuary, extends NE 0.6 miles, on W coast of Dall Island, W of Lake Welcome, Alexander Archipelago; 54° 58' 30" N, 133° 09' 45" W; (map 1). Name published by USC&GS in the 1925 Coast Pilot (p. 168).

Welcome Creek: stream, flows NW 15 miles from a glacier to Kanayut River, 9 miles S of Table Top and 31 miles NE of Anaktuvuk Pass, Brooks Range; 68° 29' N, 150° 58' W; (map 134). Named by USGS geologists during the exploration of Naval Petroleum Reserve No. 4; name given in 1944.

Welcome Point: point of land, between Camp and Welcome Coves, on W coast of Dall Island, Alexander Archipelago; 54° 53' 55" N, 133° 10' 15" W; BGN 1928; (map 1). Named in 1927 by USC&GS "because of its proximity to Welcome Cove."

Welcome, Lake: lake, 1.6 miles long, on W coast of Dall Island, 1.2 miles E of Welcome Point, Alexander Archipelago; 54° 59' N, 133° 07' W; BGN 1935; (map 1). Named in 1935 by USGS.

Welcome, Point: point of land, on S coast of Bird Island, in Shumagin Islands, Aleutian Range; 54° 48' N, 159° 47' W; (map 26). Named published in 1882 by USC&GS.

Welker, Mount: mountain, 5,155 ft., Alaska-Canada boundary, 6 miles N of Hyder, Coast Mountains; 56° 00' 30" N, 130° 00' 05" W; BGN 1923; (map 7). Named in 1923 by USC&GS for Capt. Philip A. Welker, USC&GS, an IBC surveyor from 1893 to 1895 and "who, in 1895, astronomically determined the southern land origin of the Alaska Lisiere boundary, at a point about 2 miles east of this peak * * *."

Well Creek: stream, flows SE 1.5 miles to Bowser Creek, 0.5 miles N of Oil Bay and 22 miles N of Augustine Island, Aleutian Range; 59° 40' 30" N, 153° 19' 00" W; BGN 1962; (map 51). So named locally because it flows through an area where wells were drilled for oil.

Weller, Mount: mountain, 4,744 ft., in Sadlerochit Mountains, 4 miles NW of Sunset Pass and 27 miles NW of Mount Michelson, Brooks Range; 69° 38' N, 144° 53' W; BGN 1961; (map 139). Variant: Weller Peak. Named by Leffingwell (1919. p. 100), USGS, for Stuart Weller, 1870-1927, American geologist and paleontologist.

Wellesley Glacier: glacier, trends E 4 miles to a lagoon, on W bank of College Fiord, 3.7 miles SW of College Point and 54 miles W of Valdez, Chugach Mountains; 61° 11' N, 147°

52' W; (map 69) Named in 1899 by members of the Harriman Alaska Expedition of Wellesley College, Wellesley, Mass.

Wellesley Lakes: lakes, group, extend 3 miles, in Nutzotin Mountains, N of Wellesley Mountain, 13 miles SW of point where Alaska Highway crosses Alaska-Canada boundary, Alaska Range; 62° 28' N, 141° 18' W; (map 84). Named in 1891 by C. W. Hayes, USGS, for Wellesley College.

Wellesley Mountain: mountain, 4,966 ft., between Snag Creek and Chisana River, 16 miles SW of point where Alaska Highway crosses Alaska-Canada boundary, Alaska Range; 62° 11' N, 141° 17' W; (map 84). Named in 1898 by W. J. Peters and A. H. Brooks, USGS, for Wellesley College.

Wells Bay: estuary, extends S. 9.5 miles to Prince William Sound, 44 miles NE of Whittier, Chugach Mountains; 60° 53' 30" N, 147° 28' 30" W; (map 63). Local name reported in 1908 by U. S. Grant and D. F. Higgins (in Brooks and others, 1909, pl. 4), USGS. Name probably derived from nearby Port Wells.

Wells Creek: stream, flows SE 5.5 miles to Tozimoran Creek 6 miles NW of that stream's junction with Tozitna River, 23 miles NW of Tanana. Kokrines-Hodzana Highlands; 65° 24' 00" N, 152° 39' 30" W; (map 106). Prospectors' name reported in 1956 by R. M. Chapman, USGS.

Wells Creek: stream, flows SW 18 miles to Nenana River, 38 miles SE of Healy, Alaska Range; 63° 23' 30" N, 148° 22' 30" W; (map 87). Local name reported in 1913 by J. W. Bagley, USGS.

Wells Mountain: ridge, 5,500 ft., extends NE 13 miles between Iron Creek and Talkeetna River, 24 miles NE of Talkeetna, Talkeetna Mountains; 62° 26' N, 149° 12' W; (map 82). Local name recorded in 1950 by USGS.

Wells Passage: water passage, extends E 16 miles from S end of Port Wells to Prince William Sound, on S side of Esther Island, 24 miles E of Whittier, Chugach Mountains; 60° 46' N, 148° 04' W; BGN 1914; (map 63). Local name reported in 1914 by USC&GS; so named because it leads to Port Wells.

Wells, Port: estuary, extends S 14 miles from S end of College Fiord to Wells Passage, 16 miles E of Whittier, Chugach Mountains; 60° 48' N, 148° 14' W; (map 63). Named in 1794 by Capt. Vancouver (Wagner, 1937, p. 421), RN, "perhaps for Edward Wells, mathematician and geographer."

Wells: locality, on E shore of Chilkat River, 1.8 miles NW of Klukwan and 22 miles W of Skagway, Coast Mountains. 59° 25' 00" N, 135° 55' 45" W; (map 45). Local name reported by Wright (1904, pl. 2 and p. 11) USGS. A mining office was established here in 1900 and in 1903 it was a post for the Northwest Mounted Police on what was then the provisional boundary between the United States and Canada.

Wenjaminow, Vulkan: volcano, see Veniaminof, Mount.

Wenrich Island: island, 1.1 miles long, in Tanana River, across from mouth of Chena River, 6 miles SW of Fairbanks, Tanana Lowland; 64° 47' 15" N, 147° 55' 00" W; (map 100). Local name reported in 1950 by USGS topographers.

Werick Island: island, 0.5 miles long, SW of Hotspur Island, in Sealed Passage, Alexander Archipelago; 54° 57' 45" N, 131° 31' 00" W; (map 2). Named by USC&GS in 1886.

Wernicke Glacier: glacier, trends W 20 miles to its terminus at Wernicke River, 45 miles N of Katalla, Chugach Mountains; 60° 49' 15" N, 144° 18' 30" W; (map 64). Name published in 1959 by USGS.

Wernicke River: stream, flows W 8 miles to the Copper River, 45 miles N of Katalla, Chugach Mountains; 60° 15' N, 144° 30' W; (map 64). Named by Lawrence Martin in 1910, for L. Wernicke "one of the engineers building the Copper River and Northwestern Railway."

Werstberg Mountain: mountain, see Verstovia, Mount.

Weshrinarin Creek: stream, flows NE 8 miles to Yukon River 9 miles E of its junction with Charley River, Yukon-Tanana Highlands; 65° 20' N, 142° 28' W; (map 103). Prospectors' name from a map by E. F. Ball dated 1898. The name appears to be of Indian origin.

Wesley Creek: stream, flows S 9 miles to Kobuk River, 2 miles E of Shungnak, Kotzebue-Kobuk Lowland; 66° 54' N, 157° 03' W; (map 115). Local name reported in 1910 by P. S. Smith and H. M. Eakin, USGS.

Wesley Creek: stream, see Seattle Creek.

Wesley Falls Creek: stream, flows NW 2 miles to Rude River, 10 miles NE of Cordova, Chugach Mountains; 60° 40' 30" N, 145° 35' 20" W; (map 64). Local name reported in 1913 by B. L. Johnson (in Brooks and others, 1914, pl. 7), USGS.

Wesselow: volcano, see Makushin Volcano.

Wessels Reef: reef, in Gulf of Alaska, 22 miles N of Middleton Island, Malaspina Coastal Plain; 59° 47' N, 146° 12' W; (map 48). Named by USC&GS for John Wessels, master of the schooner Kodiak, who discovered the reef on October 25, 1881.

West Amatuli Island: island, 3 miles long, one of the Barren Islands, in Gulf of Alaska, between East Amatuli Island and Ushagat Island, 70 miles NE of Afognak, Chugach Mountains; 58° 56' N, 152° 03' W; (map 43). Variant: Amatuli Island. Name given by USGS in 1908 in contradistinction to East Amatuli Island. This island is one of the "Isles de Langara" [Barren Islands] named in 1779 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle for Juan de Langara. See East Amatuli Island.

West Anchor Cove: bay, 2.5 miles across, on Iktan Peninsula on SE coast of Unimak Island, Aleutian Islands; 54° 41' N, 163° 11' W; (map 25). Descriptive name given in 1888 by USBF.

West Arm Bay of Isles: estuary, on E coast of Knight Island, trends E 2 miles to head of Bay of Isles, 14 miles NE of Chenega and 44 miles SE of Whittier, Chugach Mountains; 60° 23' 15" N, 147° 42' 30" W; BGN 1917; (map 63). Variant: North Arm. Descriptive name published in 1917 by USC&GS.

West Arm Chilkoot Inlet: estuary, see Lutak Inlet.

West Arm Cholmondeley Sound: estuary, extends W 7.5 miles, at head of Cholmondeley Sound, on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 15' N, 132° 17' W; BGN 1961; (map 4). Local name reported in 1901 by A. H. Brooks, USGS.

West Arm Holtz Bay: bay, on Attu Island, extends W 1.5 miles from Center Point in Holtz Bay, Aleutian Islands; 52° 55' 50" N, 173° 09' 00" E; (map 13). Descriptive name published in 1947 Alaska Coast Pilot (pt. 2, p. 492).

West Arm Kendrick Bay: estuary, extends NW 2.5 miles off Kendrick Bay, on SE coast of Prince of Wales Island, Alexander Archipelago; 54° 53' 30" N, 132° 03' 15" W; (map 1). Local name reported by H. C. Fassett, USBF, in 1904.

West Arm Mirror Harbor: bay, 0.1 miles across, between Bertha Bay and Mirror Harbor, on W coast of Chichagof Island, 12 miles NW of Chichagof, Alexander Archipelago; 57° 47' 40" N, 136° 19' 30" W; (map 9). Descriptive name published by USC&GS in the 1925 Coast Pilot (p. 322).

West Arm Moira Sound: estuary, extends W 3 miles, off Moira Sound, on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 00' N, 132° 11' W; (map 1). Descriptive local name recorded in 1904 by H. C. Fassett, USBF.

West Arm Nakwasina Passage: water passage, see Nakwasina Passage.

West Arm Nevidiskov Bay: bay, 0.8 miles across, on S coast of Attu Island, NW part of Nevidiskov Bay, Aleutian Islands; 52° 47' 30" N, 172° 49' 30" E; (map 13). Descriptive name referred to as the "West Arm" in 1946 supplement to 1944 Aleutian Coast Pilot.

West Arm Nuka Bay: estuary, 2 miles wide, on SE coast of Kenai Peninsula, 42 miles E of Seldovia, Chugach Mountains; 59° 28' N, 150° 33' W; BGN 1929; (map 50). Local descriptive name reported in 1927 by USC&GS.

West Arm Perenosa Bay: bay, see Big Waterfall Bay.

West Arm Port Dick: bay, 1.2 miles wide, on S shore of Kenai Peninsula, 25 miles SE of Seldovia, Chugach Mountains; 59° 15' 45" N, 151° 05' 45" W; (map 50). Local descriptive name reported in 1912 by USC&GS on Coast Chart 8554.

West Arm Solomon River: stream, tributary of Solomon River, flows S 2 miles from Solomon River at Solomon to a lagoon at Norton Sound, Seward Peninsula Highlands; 64° 28' N, 164° 26' W; (map 95). Local name reported in 1903 or 1904 on a location map of Council City & Solomon River Railroad.

West Arm: bay, see Deep Cove.

West Arm: bay, see Taroka Arm.

West Bay: bay, see Three Arm Bay.

West Bay: cove, 0.7 miles wide, on N coast of Thigh Island, 42 miles NW of Cordova, Chugach Mountains; 60° 54' N, 146° 47' W; BGN 1913; (map 64). Variant: Busby Bay. Local name used by boat captains reported in 1903 by H. P. Ritter, USC&GS.

West Beach: beach, 0.7 miles long, on NE coast of Attu Island at head of West Arm Holtz Bay, Aleutian Islands; 52° 55' 40" N, 173° 07' 40" E; (map 13). Descriptive name given by U.S. Army during World War II; published in 1948 by AMS.

West Beaver Lake: lake, 0.8 miles long, one of the Beaver Lakes, 25 miles N of Anchorage, Cook Inlet Lowland; 61° 35' 10" N, 149° 50' 30" W; (map 69). Local name reported in 1950 by USGS.

West Bee Rock: rock, one of Bee Rocks in Clarence Strait, 4 miles SW of Duke Island, Alexander Archipelago; 54° 52' 55" N, 131° 33' 55" W; (map 2). Local name published in 1943 by USC&GS.

West Bight: cove, see Mailboat Cove.

West Branch Eklutna Glacier: glacier, trends NE 4 miles to Eklutna Glacier, 30 miles E of Anchorage, Chugach Mountains; 61° 15' 05 " N, 148°-59' 30" W; BGN 1964; (map 69). Local name reported in 1964 by USGS.

West Branch Sherrette Creek: stream, flows NE 9 miles to Sherrette Creek, 17 miles SE of Mount Bendeleben and 56 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 01' N, 164° 32' W; (map 110). Variant: Sherrett Creek. Local name published in 1956 by USGS. Shown as "Sherrett" on a 1901 map of Cape Nome gold fields by David Fox, Jr.

West Branch Simeon Creek: stream, see Featherly Creek.

West Branch Taku Glacier: glacier, trends NE 6.5 miles to Taku Glacier, 3 miles E of Tricouni Peak and 26 miles N of Juneau, Coast Mountains; 58° 41' N, 134° 25' W; BGN 1965; (map 11). Variant: Northwest Branch Taku Glacier. Named in 1964 by members of the Juneau Icefield Research Project.

West Branch: stream, see Tamarack Creek.

West Brother Island: island, 2 miles long, in The Brothers Islands, 59 miles E of Sitka, Alexander Archipelago; 57° 17' 30" N, 133° 51' 15" W; (map 8). Variant: West Brother. Descriptive name published in 1940 by USGS.

West Brother: island, see West Brother Island.

West Buttons: mountain, E of South Fork Flats, 11 miles W of East Buttons and 31 miles SW of Chandalar, Brooks Range; 67° 15' N, 149° 26' W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

West Buttress: ridge, elev. 12,000-18,000 ft., in Mount McKinley National Park, extends W 2.7 miles from Denali Pass, on Mount McKinley, Alaska Range; 63° 05' N, 151° 04' W; (map 88). Descriptive name reported in 1910 by F. A. Cook.

West Canning River: stream, distributary of Canning River, heads at 69° 56' 30" N, 146° 19' 00" W, and flows NE 18 miles to Lion Bay, Arctic Plain; 70° 09' 10" N, 145° 56' 10" W; (map 151) This may be the stream Franklin (1828) shows as Sir T. Staines R. on his map.

West Cape Lazaref: point of land, see Aksit, Cape.

West Cape: point of land, on W coast of Deer Island, at SW end of Aleutian Range; 54° 55' 40" N, 162° 26' 00" W; (map 25). Descriptive name given in 1888 by USBF.

West Cape: point of land, see Bunnell Cape.

West Cape: point of land, see Tatik Point.

West Cape: point of land, see Vngyat Point.

West Cape: point of land, see Zapadni Point.

West Channel Hayward Strait: water passage, between Hayward Strait and Krestof Sound, 11 miles NW of Sitka, Alexander Archipelago; 57° 09' 10" N, 135° 34' 00" W; (map 9). Descriptive name published in 1900 by USC&GS on Chart 8281.

West Channel Island: island, 0.7 miles long, in Wide Bay, NE of Terrace Island, on SE coast of Alaska Peninsula, 45 miles SE of Ugashik, Aleutian Range; 57° 23' 20" N, 156° 14' 30" W; (map 36). Descriptive name given in 1923 by USC&GS.

West Channel Kuskokwim Bay: channel, extends S 24 miles from mouth of Kuskokwim River to point 20 miles W of Kwinhagak, 30 miles NW of Carter Bay, Yukon-Kuskokwim Delta; 59° 40' N, 162° 30' W; (map 54). Descriptive name given in 1913 by USC&GS.

West Channel Massacre Bay: water passage, western entrance to Massacre Bay, on SE coast of Attu Island, Aleutian Islands; 52° 49' 00" N, 172° 12' 15" E; (map 13). Descriptive name listed in 1944 Aleutian Coast Pilot.

West Channel: channel, 13 miles long, in Nushagak Bay, W of Big Shoals, 20 miles SW of Dillingham, Bristol Bay Lowland; 58° 36' N, 158° 30' W; (map 40) Name reported in 1950 by USC&GS; location and navigability of these channels changes from year to year.

West Channel: water passage, along W shore of Pybus Bay, at SE end of Admiralty Island, 25 miles SE of Angoon, Alexander Archipelago; 57° 18' N, 134° 06' W; (map 9). Descriptive name published by USC&GS in the 1932 Coast Pilot (p. 290).

West Chunu Point: point of land, on SW coast Of Kanaga Island, Aleutian Islands; 51° 39' 50" N, 177° 40' 00" W, (map 17). Descriptive name published in 1951 on a USGS map.

West Clem Creek: stream, flows SW 4.3 miles to Duck Creek, 52 miles NW of Haycock, Seward Peninsula Highlands; 65° 57' N, 161° 30' W; (map 109). Local name published on maps after 1950.

West Cove: cove, 0.6 miles across, on W coast of Agattu Island, Aleutian Islands; 52° 25' 10" N, 172° 24' 30" E; (map 13). Listed in 1944 Aleutian Coast Pilot.

West Cove: cove, 0.8 miles across, just N of Sitkin Point, on the W coast of Little Sitkin Island, Aleutian Islands; 51° 57' 30" N, 178° 27' 30" E; (map 15). Variant: West-northwest Cove. Reported by Snyder (1959, pl. 23), USGS.

West Cove: cove, 1 mile across, on W shore of Stepovak Bay, near SW end of Alaska Peninsula Aleutian Range; 55° 38' 30" N, 160° 16' 00" W, (map 28). Named by Harriman Alaska Expedition (1904, v. 4, p. 75).

West Crawfish Inlet: bay, 0.5 miles across and 8 miles long, 5 miles SE of Goddard, on W coast of Baranof Island, Alexander Archipelago; 56° 47' N, 135° 15' W; (map 5). Local name used by fishermen; published In 1929 by USC&GS.

West Creek: stream, flows E 1.7 miles to Inmachuk River, 23 miles NE of Imuruk Lake, Seward Peninsula Highlands; 65° 52' N, 162° 58' W; (map 110). Prospectors' name reported in 1901 by D. L. Reaburn (in Mendenhall, 1902, pl. 4a), USGS.

West Creek: stream, flows SE 2.8 miles to Shovel Creek, 8 miles N of Solomon, Seward Peninsula Highlands; 64° 40' N, 164° 25' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 1.7), USGS.

West Creek: stream, flows SE 5 miles to mouth of Main Creek, at Amber Bay, on S shore of Alaska Peninsula, 11.5 miles NW of Cape Kunmik, Aleutian Range; 56° 51' N, 157° 28' W; (map 31). Local descriptive name reported in 1951 By USGS.

West Creek: stream, see Esch Creek.

West End Creek: stream, heads on Sheep Mountain, flows W 1.7 miles to Caribou Creek, 49 miles NE of Palmer, Talkeetna Mountains; 61° 48' 30" N, 147° 41' 30" W; BGN 1960; (map 69). Named in 1956 by USGS because "it is located at the west end of Sheep Mountain."

West Finger Lake: lake, one of the Finger Lakes, on Kenai Peninsula, 13 miles NE of Kenai, Cook Inlet Lowland; 60° 39' N, 150° 54' W; (map 62). Named about 1963 by officials of Kenai National Moose Range' for administrative purposes.

West Flank Island: island, off SE coast of Esther Island, at SE end of Esther Passage, 26 miles NE of Whittier, Chugach Mountains; 60° 48' 50" N, 147° 54' 15" W; (map 63). Local name reported in 1952 by USGS.

West Foreland: point of land, on W shore of Cook Inlet, between Redoubt and Trading Bays, 20 miles NW of Kenai, Cook Inlet Lowland; 60° 43' 00" N, 151° 42' 30" W; (map 62). Variant: Mys Zapadnyy ili Kystotank, West Forland. Named by Capt. George Vancouver, RN, on April 18, 1794 (Wagner, 1937, p. 421). The name "M[ys] Zapadnyy ili Kystotank," meaning "West or Kystotank Cape," was published in 1847 for this feature on Russian Hydrog. Dept. Chart 1378.

West Forest Lake: lake, 0.7 miles long, on Kenai Peninsula W of East Forest Lake, 9 miles N of Sterling and 15 miles NE of Kenai, Cook Inlet Lowland; 60° 40' N, 150° 50' W; (map 62). Variant: Forest Lake. Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

West Fork Ahtell Creek: stream, flows SE 6 miles to Ahtell Creek, 8 miles NW of Slana, Alaska Range; 62° 49' N, 144° 04' W; (map 83). Local name reported in 1954 by USGS.

West Fork Arolic Creek: stream, see Faro Creek.

West Fork Blue River: stream, flows S 1.5 miles from Canada near boundary monument 46 to left bank of Blue River, 3 miles NW of Blue Lake, Coast Mountains; 56° 22' 30" N, 130° 58' 15" W; (map 7). Local name reported in 1955 by USGS.

West Fork Buck Creek: stream, heads on Potato Mountain and flows NE 1 mile to Buck Creek, in Mint River basin, 17 miles NE of Cape Prince of Wales, Seward Peninsula Highlands; 65° 39' 30" N, 167° 31' 45" W; (map 111). Prospectors' name reported in 1918 by Steidtmann and Cathcart (1922, fig. 14), USGS.

West Fork Buckland River: stream, flows NW 41 miles to Buckland River, 45 miles NE of Haycock, Seward Peninsula Highlands; 65° 49' N, 160° 40' W; (map 109). Local name reported in 1908 by USGS (Brooks and others, 1909, fig. 21).

West Fork Chandalar River: stream, flows E 24 miles to North Fork Chandalar River 5 miles W of that stream's junction with Middle Fork Chandalar River and 21 miles S of Chandalar, Brooks Range; 67° 11' 20" N, 148° 30' 30" W; BGN 1912; (map 123). Variant: Granite Creek. Local name reported in 1912 by A. H. Brooks, USGS. T. G. Gerdine, USGS, shows the name "Granite Creek" on an 1899 fieldsheet.

West Fork Chandalar River: stream, see Crooked Creek.

West Fork Chandalar River: stream, see Granite Creek.

West Fork Chena River: stream, flows SW 16 miles, joins North Fork Chena River to form Chena River, 48 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 03' 12" N, 146° 11' 00" W; BGN 1965; (map 104). Named by prospectors; reported in 1903 by USGS (Prindle, 1905, pl. 13). The early maps included Frozenfoot Creek as part of West Fork.

West Fork Chena River: stream, see Frozenfoot Creek.

West Fork Chena River: stream, see North Fork Chena River.

West Fork Chignik River: stream, heads on Mount Veniaminof on Alaska Peninsula, flows NE 24 miles to Chignik River, 4 miles N of Chignik Lake, Aleutian Range; 56° 23' N, 158° 56' W; (map 30). Name reported in 1923 by R. H. Sargent, USGS; published in 1927 by USGS.

West Fork Chilkat River: stream, see Kelsall River.

West Fork Chistochina River: stream, heads at glacier between Gakona and Chistochina Glaciers, flows SE 5.8 miles to Chistochina River, 18 miles NE of Paxson, Alaska Range; 63° 07' 10" N, 144° 56' 45" W; (map 86). Local name reported in 1900 by T. G. Gerdine (in Mendenhall and Schrader, 1903, pl. 9), USGS.

West Fork Chukowan River: stream, see Enatalik Creek.

West Fork Chulitna River: stream, heads at West Fork Glacier, flows SE 30 miles to Chulitna River, 60 miles SW of Healy, Alaska Range; 63° 03' 15" N, 149° 36' 00" W; (map 87). Local name reported in 1913 by J. W. Bagley, USGS.

West Fork Coal Creek: stream, heads NE of Strandline Lake, flows SE 12 miles to Coal Creek, 33 miles NW of Tyonek, Cook Inlet Lowland; 61° 28' 50" N, 151° 37' 55" W; (map 70). Local name reported in 1958 by USGS.

West Fork Dall River: stream, flows E 25 miles to Dall River, 30 miles NW of Stevens Village, Kokrines-Hodzana Highlands; 66° 20' N, 149° 48' W; (map 118). Local name obtained in 1956 by USGS.

West Fork Dennison Fork: stream, flows NE 53 miles from Sixtymile Butte to Dennison Fork, 49 miles NE of Tok, Yukon-Tanana Highlands; 63° 54' N, 142° 03' W; (map 85). Local name reported by D. C. Witherspoon USGS, in 1907.

West Fork Espenberg River: stream, on Seward Peninsula, flows NW then NE 15 miles to Espenberg River, 48 miles NW of Deering, Kotzebue-Kobuk Lowland; 66° 30' N, 164° 06' W; (map 113). Local name reported in 1950 by USGS.

West Fork Fish Creek: stream, tributary of Fish Creek, flows SW 2.5 miles to Susitna River, 23 miles NW of Anchorage, Cook Inlet Lowland; 61° 25' 15" N, 150° 27' 45" W; (map 70). Local name reported in 1958 by USGS.

West Fork Flat Creek: stream, flows NE 10 miles joins East Fork Flat Creek to form Flat Creek, 25 miles SE of Beaver, Yukon-Tanana Highlands: 66° 04' 10" N, 146° 51' 40" W; (map 119). Local name obtained in 1956 by USGS.

West Fork Glacier: glacier, trends 7.9 miles SE to its terminus at head of West Fork Nizina River, 8 miles NE of McCarthy, Wrangell Mountains: 61° 36' N, 142° 40' W; (map 67). Local name reported in 1902 by USGS (Mendenhall and Schrader, 1903, pl. 9).

West Fork Glacier: glacier, trends E 11 miles from Anderson Pass to its terminus at head of West Fork Chulitna River, 24 miles SE of head of McKinley River, Alaska Range; 63° 16' N, 149° 55' W; BGN 1917; (map 87). Local name reported by Woodbury Abbey, U.S. Army Corps of Engineers, on the blueprint of his 1921 Mount McKinley National Park survey.

West Fork Glacier: glacier, trends SW 20 miles to its 1956 terminus at headwaters of West Fork Susitna River, 55 miles SE of Healy, Alaska Range; 63° 24' N, 147° 32' W; (map 87). Local name reported in 1913 by J. W. Bagley (in Moffit, 1915, fig. 2), USGS.

West Fork Glen Creek: stream, flows SE 1.2 miles from Glacier Peak, joins East Fork to form Glen Creek, 11 miles NE of Wonder Lake, Alaska Range; 63° 33' 20" N, 150° 44' 25" W. (map 88). Prospectors' name reported in 1905 by L. M. Prindle, USGS.

West Fork Granite Creek: stream, flows NE 3.5 miles to Granite Creek 5.5 miles SW of its junction with Slana River, 31 miles NE of Chistochina. Alaska Range; 62° 56' N, 144° 10' W; (map 83). Local name reported in 1954 by USGS.

West Fork Grubstake Creek: stream, flows N 1 mile to Grubstake Creek, 14 miles NW of Palmer, Talkeetna Mountains. 61° 44' 55" N, 149° 25' 05" W; (map 69). Local name reported in 1950 by USGS.

West Fork Gulkana River: stream, flows SE 43 miles from a lake to Gulkana River, 5 miles NW of Sourdough and 32 miles N of Glennallen, Copper River Basin: 62° 35' N, 145° 38' W; (map 83). Local name shown on a 1910 field sheet by D. C. Witherspoon, USGS.

West Fork Henshaw Creek: stream, heads in lake, in Alatna Hills, flows SE 24 miles, joins East Fork to form Henshaw Creek, 14 miles NE of Allakaket, Hogatza Highlands; 66° 43' N, 152° 20' W. (map 117). Local name reported in 1956 by T. E. Taylor, USGS.

West Fork Iigluruk Creek: stream, see Spike Creek.

West Fork Indian Creek: stream, flows NE 3.4 miles to Indian Creek, 89 miles SW of Talkeetna, Alaska Range; 62° 08' 55" N, 152° 50' 00" W; (map 81). Local name reported in 1958 by USGS.

West Fork Jackson Creek: stream, see OK Creek.

West Fork Katete River: stream, heads at 56° 26' 50" N, 131° 44' 10" W; flows N 13 miles into Canada near boundary monument 60, Coast Mountains; 56° 40' N, 131° 45' W; (map 7). Local name reported in 1955 by USGS.

West Fork Kiligwa River: stream, see Jubilee Creek.

West Fork Koyukuk River: stream, see Tinayguk River.

West Fork Kuskokwim River: stream, see Big River.

West Fork Kustatan River: stream, distributary of Bachatna Creek, flows SE 6 miles to Kustatan River, 28 miles NW of Kenai, Cook Inlet Lowland; 60° 47' N, 151° 54' W; (map 62). Local name reported in 1958 by USGS.

West Fork Kuyukutuk River: stream, flows E 4 miles to its junction with South Fork to form Kuyukutuk River, 13 miles NW of Russian Mission, Nulato Hills; 61° 52' N, 161° 41' W; (map 73). Prospectors' name reported in 1916 by Harrington (1918, map), USGS.

West Fork Ladue River: stream, see Ladue River.

West Fork Libby River: stream, flows SE 13 miles to Libby River, 10 miles SW of Mount Bendeleben and 49 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 04' N, 164° 16' W; (map 110). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

West Fork Little Delta River: stream, flows NW 29 miles, joins East Fork to form Little Delta River, 25 miles NW of Mount Hayes, Alaska Range; 63° 57' 40" N, 146° 55' 20" W; (map 86). Name reported in 1910 by D. C. Witherspoon, USGS.

West Fork Little Mud River: stream, heads on E slope of Magitchlie Range, flows SE 35 miles to Little Mud River, 53 miles S of Nulato and 74 miles NW of Ophir, Kilbuck-Kuskokwim Mountains; 63° 57' N, 158° 06' W; (map 90). Local name obtained from Joseph Ferris in 1954 by R. E. Isto, USGS.

West Fork Maclaren River: stream, heads at glacier terminus in Clearwater Mountains, flows SE 14 miles to Maclaren River, 3 miles N of Denali Highway, 32 miles S of Mount Hayes, Alaska Range; 63° 09' 45" N, 146° 33' 15" W; (map 86). Local name reported on 1910 fieldsheet by C. E. Giffin, USGS.

West Fork Middle River: stream, see West Middle River.

West Fork Moose Creek: stream, flows SE 5.8 miles to Moose Creek, 10.5 miles W of Talkeetna, Cook Inlet Lowland; 62° 19' 00" N, 150° 26' 30" W; (map 81). Local name reported in 1958 by USGS.

West Fork Moose River: stream, on Kenai Peninsula, flows SE 8.5 miles to Moose River, 21 miles E of Kenai, Cook Inlet Lowland; 60° 35' N, 150° 40' W; (map 62). Local name reported in 1958 by USGS.

West Fork Nixon Fork: stream, flows SE 24 miles to Nixon Fork, 23 miles NW of Medfra, Kilbuck-Kuskokwim Mountains; 63° 15' N, 155° 22' W; (map 89). Variant: Middle Fork Nixon Fork, Tuentna River. Local name published in 1921 by USGS.

West Fork Nizina River: stream, heads at terminus of West Fork Glacier and flows 7.2 miles SE to Nizina River, 18 miles NE of McCarthy, Wrangell Mountains; 61° 36' N, 142° 34' W; (map 67). Local name reported in 1922 by F. H. Moffit (in Smith and others, 1930, p. 144), USGS.

West Fork North Fork Innoko River: stream, flows NE and S 40 miles to North Fork Innoko River, 56 miles SE of Galena and 58 miles N of Ophir, Kilbuck-Kuskokwim Mountains; 63° 57' N, 156° 18' W; (map 90). Local name obtained from Joseph Ferris in 1954 by R. E. Isto, USGS.

West Fork Oakpisoorook River: stream, see Okpiksugruk Creek.

West Fork Rainy Creek: stream, flows SE 5.3 miles, joins North Fork to form Rainy Creek, 22 miles NW of Paxson, Alaska Range; 63° 17' 30" N, 145° 53' 35" W; (map 86). Local name reported in 1910 by C. E. Giffin, USGS.

West Fork Robertson River: stream, heads at glacier N of Mount Kimball, and flows NE 20 miles to Robertson River, 36 miles NW of Tok, Alaska Range; 63° 27' N, 144° 07' W; (map 86). Name reported in 1952 by USGS.

West Fork Ruth Glacier: glacier, heads S of Mt. McKinley National Park and trends E 7.5 miles, joining Northwest Fork at Ruth Amphitheater, 9 miles SE of Denali Pass, Alaska Range; 62° 59' 30" N, 150° 49' 30" W; (map 81). Mountain climbers' name published in the late 1940's.

West Fork Shavivoik River: stream, see Shaviovik River.

West Fork Shellman Creek: stream, flows SE 7.5 miles to Shellman Creek, 57 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 41' N, 153° 26' W; (map 89). Local name reported in 1958 by USGS.

West Fork Situk River: stream, heads 0.1 miles S of Lake Redfield, flows S 6 miles to Situk River, 4.2 miles SE of Redfield Cove and 8.5 miles NE of Yakutat, Malaspina Coastal Plain; 59° 30' 00" N, 139° 29' 20" W; (map 46). Local name published in 1959 by USGS.

West Fork South Fork Goodpaster River: stream, flows SW 13 miles to South Fork Goodpaster River 38 miles E of Big Delta, Yukon-Tanana Highlands; 64° 12' 40" N, 144° 35' 50" W; (map 101). Local name reported in 1955 by USGS.

West Fork Susitna River: stream, heads at terminus of West Fork Glacier, flows SE 15 miles to Susitna River, 65 miles SE of Healy, Alaska Range; 63° 13' N, 147° 29' W; (map 87). Local name reported in 1910 by D. C. Witherspoon (in Moffit, 1912, pl. 1), USGS.

West Fork Texas Creek: stream, heads at Texas Lake, flows E 6.5 miles to join North Fork to form Texas Creek, 5 miles S of Mount Bayard and Alaska-Canada boundary, Coast Mountains; 56° 03' 10" N, 130° 05' 30" W; (map 7). Descriptive name published by A. F. Buddington (in Brooks and others, 1925, p. 85), USGS.

West Fork The Forks: stream, flows S 27 miles to join the East Fork to form The Forks, 15 miles N of Stevens Village, Yukon Flats; 66° 13' N, 149° 05' W; (map 118). Local name obtained in 1956 by USGS.

West Fork Tolovana River: stream, heads at junction of Goose and Starvation Creeks, flows NE 25 miles to Tolovana River, 6 miles SW of Livengood, Yukon Tanana Highlands; 65° 27' N, 148° 39' W; (map 105). Local name published in 1907 by USGS.

West Fork Tozitna River: stream, see Dagislahna Creek.

West Fork Trail Creek: stream, flows ESE 3 miles to Trail Creek 1 mile N of that stream's junction with Boulder Creek, 27 miles E of Tanana, Yukon-Tanana Highlands; 65° 09' 30" N, 151° 09' 00" W; (map 106). Local name reported in 1952 by USGS.

West Fork Traleika Glacier: glacier, trends NE and E 3.5 miles from Traleika Icefall to Traleika Glacier, 4 miles E of Mount McKinley, Alaska Range; 63° 07' N, 150° 50' W; (map 88). Mountain climbers' name published in 1954 by USGS.

West Fork Tuluga River: stream, flows N 15 miles to join East Fork to form Tuluga River, 14 miles NE of Gunsight Mountain and 53 miles N of Anaktuvuk Pass, Arctic Slope; 68° 54' N, 151° 34' W; (map 134). Name reported in 1950 by USGS.

West Fork Twentytwo Gulch: ravine, in Kantishna Hills, extends NE 1 mile from Wickersham Dome to Twentytwo Gulch, 5 miles N of Wonder Lake, Alaska Range; 63° 34' 10" N 150° 53' 10" W; (map 88). Local name reported in 1954 by USGS

West Fork Twin Creek: stream, heads at 57° 34' 15" N, 152° 20' 00" W, flows NE 7 miles to join East Fork Twin Creek at Chiniak Bay 14 miles SE of Kodiak, Kodiak Island; 57° 37' 10" N 152° 15' 30" W; (map 34). Local name reported in 1966 by the Alaska State Geographic Board.

West Fork Windy Creek: stream, flows SE 8 miles to Windy Creek, 30 miles S of Healy, Alaska Range; 63° 26' 30" N, 149° 04' 00" W; (map 87) Local name shown on a 1916 fieldsheet b, C. E. Giffin, USGS.

West Fork Wolf Creek: stream, flows N 13 miles to Wolf Creek, 3 miles SE of that stream mouth and 31 miles NW of Birches, Kokrines Hodzana Highlands; 65° 28' 00" N, 154° 06' 40" W (map 107). Local name obtained in 1954 by USGS topographers.

West Fork Yentna River: stream, heads 4 miles W of Mystic Pass, flows SE 45 miles, joins East Fork to form Yentna River, 53 miles W of Talkeetna, Alaska Range; 62° 26' 50" N, 151° 46' 30" W; (map 81). Name reported in 1906 by R. W. Porter, USGS.

West Fork Young Creek: stream, flows S 3.3 miles to Young Creek, 17 miles NE of Palmer, Talkeetna Mountains; 61° 45' 30" N, 148° 48' 10" W; (map 69). Local name reported in 1915 by GLO[BLM].

West Fork: locality, on right bank of West Fork Tolovana River, 6 miles SW of Livengood, Yukon-Tanana Highlands; 65° 27' N, 148° 39' W; (map 105). This place, being at the head of navigation for small boats on the Tolovana River, was established in 1915 as a small supply point for the Livengood camp. In 1916 it contained a sawmill, roadhouse, and some warehouses (Brooks and others, 1918, p. 229).

West Fork: stream, see Big River.

West Forland: point of land, see West Foreland.

West Francis Rock: rock, off N coast of Baranof Island in Sergius Narrows, in Peril Strait, 26 miles NW of Sitka, Alexander Archipelago; 57° 24' 20" N, 135° 38' 05" W; (map 9). Named in

1884 by Comdr. J. B. Coghlan, USN, for pilot E. H. Francis, who was the first person to make soundings on the rock (U.S. Coast and Geodetic Survey, 1891, p. 187).

West Gable Cannery: locality, see Port Nellie Juan.

West Georgia: coast, region between Point Barrow and Cape Lisburne, Arctic Plain; (map 147). Name shown on Capt. F. W. Beechey's chart of Point Rodney to Point Barrow, 1826-27.

West Glacier Creek: stream, in Chigmit Mountains, formed by its Left and Right Forks, flows SE 6 miles to Chinitna Bay, Aleutian Range; 59° 51' 45" N, 153° 12' 10" W; BGN 1906; (map 51). Local name reported in 1904 by G. C. Martin, USGS.

West Glacier: glacier, extends NE 11 miles from Mount Sanford to its 1957 terminus near Copper River, 5.5 miles N of Copper Glacier terminus, Wrangell Mountains; 62° 15' N, 144° 00' W; (map 84). Local name reported in 1951 by USGS.

West Gland Lake: lake, 100 yd. across, 0.8 miles NW of Bukhti Point, Kiska Island, Aleutian Islands; 51° 55' 20" N, 177° 27' 30" E.; (map 14). An arbitrary name beginning with "W" to correspond to "W" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

West Gulkana Glacier: glacier, see Gulkana Glacier.

West Gulkana Glacier: glacier, trends S 2 miles to its terminus, 16 miles N of Paxson, Alaska Range; 63° 15' 30" N, 145° 29' 25" W; BGN 1959; (map 86). Named in 1958 by the American Geographical Society.

West Head: point of land, NW entrance point to Popof Strait, on NE coast of Unga Island, in Shumagin Islands, Aleutian Range; 55° 22' 45" N, 160° 31' 30" W; (map 28). Named in 1872 by W. H. Dall, USC&GS.

West Head: promontory, see Alaid Head.

West Hill: hill, 293 ft., on Stuart Island, 19 miles NW of St. Michael, Yukon-Kuskokwim Delta; 63° 35' 30" N, 162° 36' 30" W; (map 92). Named in 1898 by USC&GS.

West Island: island, 2.5 miles long, one of Kashevarof Islands, in Kashevarof Passage, off N coast of Prince of Wales Island, Alexander Archipelago; 56° 10' N, 133° 00' W; (map 6). Descriptive name given in 1886 by Lt. Comdr. A. S. Snow, USN, because it is the westernmost of central group of Kashevarof Islands.

West Juneau: area, of Juneau on Douglas Island, on W shore of Gastineau Channel, 1.8 miles NW of Douglas, Coast Mountains; 58° 17' 45" N, 134° 26' 00" W; (map 11). Name published in 1948 by USGS.

West Kiska Lake: lagoon, 1.7 miles long, separated from Bamboo Bay on Bering Sea by a barrier beach on NW Kiska Island, Aleutian Islands; 52° 04' 00" N, 177° 32' 00" E; (map 14). Name shown on 1943 USAAF map.

West Konetz: point of land, see Dalnoi Point.

West Lake: lake, see West Lili Lake.

West Landing: beach, on S shore of Village Cove at St. Paul, on S coast of St. Paul Island, in Pribilof Islands; 57° 07' 30" N, 170° 16' 40" W; (map 38). Local name reported in 1965 by USBF.

West Lili Lake: lake, 800 ft. long, on Kenai Peninsula W of Lili Lake, 8.5 miles N of Sterling and 15 miles E of Kenai, Cook Inlet Lowland; 60° 39' 30" N, 150° 49' 30" W; (map 62). Variant: West Lake. Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

West Massacre Valley: valley, on Attu Island extends SW 4.3 miles from Jarmin Pass to Massacre Bay, Aleutian Islands; 52° 51' N, 173° 12' E; (map 13). Descriptive name derived from Massacre Bay by U.S. Army during World War II; published in 1948 by AMS.

West Middle River: stream, distributary, flows N 15 miles from Nenana River to Tanana River, 4 miles NW of Nenana, Tanana Lowland; 64° 37' 25" N, 149° 08' 00" W; BGN 1952; (map 100). Variant: West Fork Middle River. Local name published by USGS (Capps, 1940, pl. 3).

West Mill Rock: rock, 400 ft. long, in Kaigani Strait, 0.3 miles S of Keg Point, on E coast of Dall Island, Alexander Archipelago; 54° 53' 30" N, 132° 50' 55" W; (map 1). Named by Lt. Comdr. H. E. Nichols, USN, in 1881.

West Mountain: mountain, see Bebauch Mountain.

West Mountains: mountains, see Weston Mountains.

West Nagai Strait: water passage, between Nagai and Andronica Islands, in Shumagin Islands, Aleutian Range; 55° 16' N, 160° 00' W; (map 28). Named in 1874 by W. H. Dall, USC&GS.

West Nunatak Glacier: glacier, heads at 59° 37' N, 138° 39' W, trends NW 16 miles to its 1961 terminus 1 mile S of Nunatak Fiord, 32 miles NE of Yakutat, St. Elias Mountains; BGN 1965, (map 46). Variant: Nunatok Glacier. Named by USGS in 1961. Originally this glacier was part of Nunatak Glacier, named in 1891 by Russell (1892, p. 86), because it then appeared to be a single glacier with a nunatak, or rock island, projecting through the ice near its terminus. Since then the glacier has retreated seven miles, completely uncovering the nunatak. The glacier now consists of two arms. The arm to the southwest is West Nunatak Glacier, the other arm is East Nunatak Glacier.

West Patuk Creek: stream, heads at glacier in Franklin Mountains, flows NE 9.5 miles to Hulahula River, 11 miles SW of Mount Michelson, Brooks Range; 69° 11' N, 144° 35' W; (map 139). Eskimo name reported in 1956 by USGS.

West Peak: mountain, see Ancon Peak.

West Peak: peak, 1,960 ft., on NE coast of Attu Island, at N end of Fishhook Ridge, Aleutian Islands; 52° 55' 42" N, 173° 12' 15" E; (map 13). Descriptive name given in July 1855 by Lt. William Gibson, USN.

West Peak: peak, 2,329 ft., on Ear Mountain, 0.5 miles SW of Ears Peak and 46 miles N of Teller, Seward Peninsula Highlands; 65° 55' 20" N, 166° 14' 30" W; (map 111). Mountain. Descriptive name given in 1945 by a USGS field party.

West Peak: peak, 3,620 ft., 3 miles ESE of Thane and 7 miles SE of Juneau, Coast Mountains; 58° 15' 10" N, 134° 15' 10" W; (map 11). Local name reported in 1917 by D. C. Witherspoon, USGS.

West Peak: peak, 5,200 ft., 2 miles NW of terminus of Valdez Glacier, and 3.5 miles NE of Valdez, Chugach Mountains; 61° 09' 40" N, 146° 12' 50" W; (map 68). Named in 1898 by Capt. W. R. Abercrombie, USA.

West Petersburg: village, pop. 26, on E coast of Lindenberg Peninsula, Kupreanof Island, separated from Petersburg by Wrangell Narrows, Alexander Archipelago; 56° 48' 10" N, 132° 58' 15" W; (map 6). This is a residential area probably inhabited by those employed in the operation of a nearby sawmill on Bayou Point.

West Point: mountain, 5,865 ft., 68 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 57' N, 144° 42' W; (map 101). Local name reported in 1904 by D. C. Witherspoon (in Prindle, 1913a, pl. 1), USGS.

West Point: point of land, on Chichagof Island, at mouth of Pavlof Harbor, on SW shore of Freshwater Bay, 8 miles NE of Tenakee Springs, Alexander Archipelago; 57° 51' 00" N, 135° 01' 45" W; (map 9). Descriptive name given by Comdr. R. W. Meade, USN; published in 1869 on Hydrog. Chart 225. Name not shown on recent maps.

West Point: point of land, on N coast of Kupreanof Island, at mouth of Portage Bay, 77 miles SE of Sitka, Alexander Archipelago; 57° 00' 30" N, 133° 19' 40" W; (map 8). Descriptive name given in 1882 by Lt. Comdr. H. E. Nichols, USN; name published in 1889 by USC&GS.

West Point: point of land, on right bank of Kuskokwim River, 4 miles NW of Eek Island and 48 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 12' N, 162° 27' W; (map 58). Descriptive name published in 1915 by USC&GS on Chart 9104.

West Point: point of land, on S coast of Seward Peninsula, 6 miles E of mouth of Sinuk River and Variant: South Summit Ear 20 miles W of Nome, Seward Peninsula Highlands; 64° 34' N, 166° 03' W; (map 94). Local descriptive name published by Schrader and Brooks (1900, map 3), USGS.

West Point: point of land, on W coast of Chirikof Island, 100 miles SW of Kodiak Island; 55° 49' N, 155° 44' W; (map 32). Descriptive name given in 1874 by W. H. Dall, USC&GS.

West Point: point of land, on W shore of Uganik Bay, on N coast of Kodiak Island; 57° 50' 00" N, 153° 34' 20" W; (map 34). Descriptive name given in 1897 by Lt. Comdr. J. F. Moser, USN, of the USBF steamer Albatross.

West Point: point of land, see Uyak, Cape.

West Point: point of land, SW entrance to Chernofski Harbor, SW coast of Unalaska Island, Aleutian Islands; 53° 24' 30" N, 167° 34' 55" W; (map 23). Descriptive name given in 1888 by USBF.

West Point: point of land, SW point of Fire Island, in Cook Inlet, 14 miles SW of Anchorage, Cook Inlet Lowland; 61° 07' 35" N, 150° 17' 00" W; BGN 1916; (map 70). Local name reported in 1898 by Capt. Glenn and Capt. Abercrombie (1899, map), USA.

West Point: point of land, W entrance to Chichagof Bay, on W shore of Stepovak Bay, near SW end of Alaska Peninsula, Aleutian Range; 55° 39' N, 160° 15' W; (map 28). Named in 1899 by Harriman Alaska Expedition (1904, v. 4, p. 75).

West Portage Creek: stream, see Portage Creek.

West Pyramid Peak: peak, 11,720 ft., in Mount McKinley National Park, on Mount Tripyramid, 11 miles NE of Mount McKinley, Alaska Range; 63° 08' 45" N, 150° 42' 30" W; BGN 1948; (map 88). Named in 1948 by Bradford Washburn.

West Rock: rock, 500 ft. across, in Clarence Strait, 6 miles SW of Cape Northumberland at S end of Duke Island, Alexander Archipelago; 54° 48' 45" N, 131° 30' 00" W; (map 2). Named in 1883 by Lt. Comdr. H. E. Nichols, USN, in 1883.

West Rock: rock, in Sumner Strait, 0.5 miles W of village of Point Baker, on N coast of Prince of Wales Island. Alexander Archipelago; 56° 21' 15" N, 133° 38' 00" W; (map 6). Local descriptive name reported in 1949 by USGS.

West San Lorenzo Island: island, 1 mile long, one of San Lorenzo Islands, in Gulf of Esqibel, 2.5 miles N of Noyes Island, Alexander Archipelago; 55° 35' N, 133° 37' W; BGN 1917; (map 4). Variant: Hydra Island. Named in 1916 by USC&GS. See San Lorenzo Islands.

West Sentinel Island: island, 650 ft. long, in McKenzie Inlet, off E coast of Prince of Wales Island, S of Skowl Arm Kasaan Bay, Alexander Archipelago; 55° 23' 30" N, 132° 22' 30" W; (map 4). Local descriptive name obtained in 1905 by E. F. Dickins, USC&GS.

West Spit: point of land, on E coast of Whitney Island, 0.5 miles NW of village of Cape Fanshaw and 77 miles E of Sitka, Coast Mountains; 57° 13' 10" N, 133° 30' 45" W; (map 8). Descriptive name given by Lt. Comdr. H. E. Nichols, USN; published by USC&GS in the 1891 Coast Pilot (p. 145).

West Steller Valley: valley, 2.5 miles long, in course of Steller River, on N coast Attu Island, Aleutian Islands; 52° 58' 50" N, 172° 54' 25" E; (map 13). Descriptive name derived from Steller Cove by U.S. Army during World War II; published in 1948 by AMS.

West Summit: peak, 4,400 ft., on Olds Mountain, 0.4 miles SW of True Summit and 5 miles NE of Juneau, Coast Mountains; 58° 20' 15" N, 134° 18' 00" W; (map 11). Local descriptive name reported in 1965 by D. A. Brew and A. B. Ford, USGS.

West Thetis Island: barrier island, see Thetis Island.

West Tributary Muir Glacier: glacier, see Morse Glacier.

West Twin Bay: estuary, on Perry Island, trends NW 3 miles to Wells Passage, 22 miles E of Whittier, Chugach Mountains; 60° 44' 10" N, 147° 59' 15" W; (map 63) So named in 1914 "because it is the western one of the two bays" and published in 1915 by USC&GS.

West Twin Glacier: glacier, heads in Hades Highway, trends SSE 5 miles to Twin Glacier Lake, 7.5 miles W of Kluchman Mountain, Coast Mountains; 58° 33' 25" N, 133° 56' 10" W; BGN 1966; (map 12). Variant: Twin Glacier, Twin Glaciers. Named relative to East Twin Glacier; published by Lawrence (1950, p. 195).

West Twin Lake: lake, 1.1 miles long, on Chukchi Sea coast, 6 miles SE of Barrow, Arctic Plain; 71° 16' 30" N, 156° 29' 30" W; (map 153). Descriptive name used for scientific purposes (Carson and Hussey, 1962).

West Twin Lake: lake, 2.7 miles long, 4 miles W of East Twin Lake and 35 miles E of Bitzshini Mountains, Tanana Lowland; 64° 27' N, 150° 50' W; (map 99) Local descriptive name reported in 1952 by USGS.

West Twin Peak: peak, 5,401 ft., 2.5 miles N of Eklutna Lake and 11 miles SW of Palmer, Chugach Mountains; 61° 26' 30" N, 149° 09' 30" W; (map 69). Local name reported in 1960 by USGS.

West Yahtse River: stream, see Yahtse River.

West-northwest Bight: bight, 1 mile across, on NW coast of Semisopochnoi Island, Aleutian Islands 51° 59' 05" N, 179° 30' 40" E; (map 15). Name published on a 1943 U.S. Army Corps of Engineers map.

West-northwest Cove: cove, see West Cove.

West-northwest Point: point of land, on NW coast of Semisopochnoi Island, Aleutian Islands; 51° 59' 35" N, 179° 31' 20" E; (map 15). Name published on a 1943 U.S. Army Corps of Engineers map.

West-southwest Bight: bight, 1.5 miles across, on W coast of Semisopochnoi Island, Aleutian Islands; 51° 57' 00" N, 179° 28' 30" E; (map 15). Name published on a 1943 U.S. Army Corps of Engineers map.

West-Southwest Cape: point of land, see Sarichef Cape.

West-southwest Head: point of land, on W coast of Semisopochnoi Island, Aleutian Islands; 51° 56' 00" N, 179° 28' 05" E; (map 15). Name published on a 1943 U.S. Army Corps of Engineers map.

Westbrook Glacier: glacier, trends N 1.3 miles to its terminus at head of Big Creek, 5 miles SW of Mount Shasta and 14 miles W of Valdez, Chugach Mountains; 61° 07' 45" N, 146° 41' 10" W; (map 68). Local name reported in 1911 by USGS.

Westdahl Cove: cove, 1 mile wide, on W coast of Nuka Island, 34 miles SE of Seldovia, Chugach Mountains; 59° 19' 30" N, 150° 46' 00" W; BGN 1931; (map 50). Named by a USC&GS field party "for the Launch Westdahl used in making surveys in this area."

Westdahl Peak: mountain, 5,118 ft., on SW Unimak Island, 13 miles W of Cape Lutke, Aleutian Islands, 54° 31' N, 164° 39' W; (map 24). Named in 1902 by O. H. Tittmann, USC&GS, for Ferdinand Westdahl, USC&GS, who determined its geographic position in 1901.

Westdahl Point: point of land, in Glacier Bay National Monument, 4 miles N of Wachusett Inlet, on Muir Inlet, 66 miles NW of Hoonah, St. Elias Mountains; 58° 58' 45" N, 136° 08' 30" W; (map 10). Named by members of the Glacier Bay Expedition of 1941 (Field, 1947, pl. 1) for the USC&GS vessel Westdahl, which was engaged in charting Muir Inlet in 1939 and 1940. The most northerly soundings in the bay were made off this point.

Westdahl Reef: rock, see Westdahl Rock.

Westdahl Rock: rock, 9 miles SE of Cape Pankof, Unimak Island, and 9 miles N of Point Petrof, Sanak Island, Aleutian Range; 54° 37' 30" N, 162° 50' 15" W; BGN 1965; (map 25). Variant: Gilbert Reef, McArthur Reef, New Shoal, Westdahl Reef. Named "Westdahl Reef" by USC&GS in 1925 for Ferdinand Westdahl, USC&GS, commander of the Coast Survey steamer McArthur, who made surveys in the area in 1901. This feature was discovered by W. E. Parker, USC&GS, commander of the steamer Patterson, during a survey of the area in 1911.

Westerly Island: island, 0.2 miles long, in Ernest Sound, 1.6 miles S of Brownson Island and 48 miles NE of Craig, Alexander Archipelago; 55° 54' 10" N, 132° 09' 15" W; (map 4). Local descriptive name published in 1923 by USC&GS.

Western Anchorage: water passage, in NW part of Sitka Harbor, 1 mile NW of Sitka, Alexander Archipelago; 57° 03' 30" N, 135° 21' 40" W; (map 9) Local name reported by Baker (1906, p. 670), USGS.

Western Channel: water passage, in Sitka Sound, extends N toward Western Anchorage, Sitka Harbor, 2 miles W of Sitka, Alexander Archipelago; 57° 03' 00" N, 135° 23' 30" W; (map 9). Variant: Farvater Zapadnyy. An 1882 translation by USC&GS of name "Farv[ater] Zapadnyy" published by Capt. Tebenkov (1852, map 38).

Western Inlet: bay, 0.3 miles across, on NW coast of Shuyak Island, 46 miles N of Kodiak Island; 58° 35' 30" N, 152° 37' 30" W; (map 43). Name published by USC&GS in 1927 on Chart 8555.

Western Point: point of land, W tip of Kanaga Island, Aleutian Islands; 51° 42' 30" N, 177° 42' 00" W; (map 17). Name published by USC&GS in the 1947 Coast Pilot (pt. 2, p. 469).

Western Sitkin Island: island, see Little Sitkin Island.

Western Unalga Island: island, see Unalga Island.

Westgate: area, subdivision now within corporate limits of City of Fairbanks, on S bank of Chena River, Tanana Lowland; 64° 50' 15" N, 147° 47' 25" W; (map 100). Name probably derived from its being at the west end of the city adjacent to the airport.

Weston Mountains: mountains, 1,850 ft., on southeastern Attu Island, Aleutian Islands; 52° 49' N, 173° 08' E; (map 13). Variant: West Mountains. Name published in 1948 as "Weston Mountains" and in 1959 as "West Mountains" by AMS.

Westover Creek: stream, flows SW 6 miles and joins Bear Creek to form Rock Creek, 36 miles SW of Circle, Yukon-Tanana Highlands; 65° 40' 15" N, 145° 17' 00" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Wests Peak: peak, 4,800 ft., 5 miles W of Cranberry Peak and 45 miles N of Valdez, Chugach Mountains; 61° 45' 25" N, 146° 05' 30" W; (map 68). Named in 1898 by Lt. P. G. Lowe, USA, of Capt. W. R. Abercrombie's party.

Westway Bight: bight, between Shoal and Naga Points, on NE coast of Kanaga Island, Aleutian Islands; 51° 49' 30" N, 177° 07' 30" W; (map 17). Name published in 1957 on an AMS map.

Wet Gulch: ravine, extends SE 3 miles from Willow Creek, W of Bald Mountain Ridge, 17 miles NW of Palmer, Talkeetna Mountains; 61° 45' 40" N, 149° 29' 05" W; (map 69). Local name reported in 1906 by Sidney Paige and Adolph Knopf (in Brooks and others, 1907, p. 118), USGS.

Wet Gulch: ravine, trends NW 0.3 miles to Left Fork Dexter Creek, 5.5 miles NE of Nome, Seward Peninsula Highlands; 64° 35' N, 165° 20' W; (map 94) Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Wet Gulch: ravine, trends W 0.4 miles to Hobson Creek, 18 miles NE of Nome, Seward Peninsula Highlands; 64° 46' N, 165° 16' W; (map 94). Prospectors' name shown on the 1902 "Map of the Nome and Snake River Country" by J. M. Davidson.

Wetbutt Creek: stream, heads W of terminus of Kahiltna Glacier and flows SE 13 miles to Kahiltna River, 35 miles W of Talkeetna, Alaska Range; 62° 30' 45" N, 151° 20' 05" W; (map 81). Mountain climbers' name published in the late 1940's.

Wevok: locality, on Chukchi Sea coast, 3 miles E of Cape Lisburne and 41 miles NE of Point Hope, Arctic Slope; 68° 52' 25" N, 166° 05' 10" W; (map 129). Variant: Webuk, Wevuk. Former Eskimo village name derived from the Eskimo name of Cape Lisburne and published in 1890 by USC&GS.

Wevok: promontory, see Lisburne, Cape.

Wevuk: locality, see Wevok.

Wevuk: promontory, see Lisburne, Cape.

Whacksback Mountain: hill, see Coffee Dome.

Whakatna Creek: stream, flows 6 miles to Yukon River, 29 miles NE of Nulato, Koyukuk Lowland; 64° 49' 30" N, 156° 57' 00" W; (map 97). Koyukan Indian name shown on a 1905 manuscript navigation chart of the Yukon River.

Whale Bay: bay, 1.5 miles across, on Caton Island, Sanak Islands, Aleutian Range; 54° 24' N, 162° 23' W; (map 25). Name reported by Ferdinand Westdahl, USC&GS, commander of the Coast Survey steamer McArthur, who made surveys in this area in 1901.

Whale Bay: bay, 2.5 miles across, on SW coast of Baranof Island, Alexander Archipelago; 56° 35' N, 135° 05' W; (map 5). Variant: Kay-e-ghlen, Keetovaia Bay, Kitovaya Bukhta, Port Banks, Port Guibert. Name published by USC&GS in the 1883 Coast Pilot (p. 133); derived from "Kitovaya Bukhta"; published in 1850 by the Russian American Company.

Whale Bay: bay, on E coast of Kenai Peninsula, extends NE 4 miles to Knight Island Passage, 4 miles SW of Chenega and 45 miles E of Seward, Chugach Mountains; 60° 14' 30" N, 148° 09' 30" W; (map 63). Local name reported in 1905 by U. S. Grant, USGS.

Whale Creek: stream, flows 3 miles SW to Gulf of Alaska, 3 miles NW of mouth of Steelhead Creek, 83 miles NW of Hoonah, Malaspina Coastal Plain; 58° 35' 00" N, 137° 33' 25" W; (map 10). Name published by members of the Harvard-Dartmouth Expedition, 1933-34 (Washburn and Goldthwait, 1936 map).

Whale Head Island: island, 1.3 miles long, at mouth of Davidson Inlet, Alexander Archipelago; 55° 51' 40" N, 133° 41' 00" W; (map 4). Named in 1903 or 1904 by E. F. Dickins, USC&GS, who wrote "named by our party, has no local name."

Whale Head: cliff, 400 ft., on SW coast of Whale Head Island, 35 miles NW of Craig, Alexander Archipelago; 55° 51' 15" N, 133° 41' 00" W; (map 4) Descriptive name derived from Whale Head Island; published in 1906 by USC&GS.

Whale Island: barrier island, on Beaufort Sea coast, one of Plover Islands, Arctic Plain; (map 153). Probably named by a British naval officer prior to 1855. The island can not now be identified.

Whale Island: island, 0.3 miles across, in Galankin Islands, Sitka Sound, 1.5 miles S of Sitka, Alexander Archipelago; 57° 01' 30" N, 135° 20' 30" W; (map 9). Variant: Kitovi Island, Ostrov Kitovey, Quitoway Island, Whalebone Island. This is an 1882 translation by USC&GS of the name given in 1809 by the Russian navigator Ivan Vasiliev the first; reported by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Kitovey."

Whale Island: island, 0.3 miles long, off S coast of Alaska, 0.5 miles S of Cape Martin, 2.7 miles SW of Katalla, Malaspina Coastal Plain; 60° 10' 30" N, 144° 35' 00" W; (map 64). Local name reported in 1905 by G. C. Martin (in Brooks and others, pl. 16), USGS.

Whale Island: island, 0.5 miles long, on Norton Sound, 0.6 miles N of St. Michael, Yukon-Kuskokwim Delta; 63° 29' 35" N, 162° 00' 30" W; (map 92). Local descriptive name obtained in 1898 by USC&GS; published on Chart 9370.

Whale Island: island, 5 miles across, between Kupreanof Strait and Marmot Bay, N of Kodiak Island; 57° 57' N, 152° 47' W; BGN 1905; (map 34). Variant: Govorushechie Island, Ketoy Island, Kittiwake Island, Kitoi Island, Ostrov Govorushechiy ili Kitoy. Called "Os[trov] Govorushechiy ili Kitoy," meaning "Kittiwake [red-legged seagull, *Rissa brevirostris*], or Whale Island," by Sub-Lt. Mikhail Murashev in 1839 or 1840 and published in 1849 on Russian Hydrog. Dept. Chart 1425. The name "Whale Island" was reported to be the local name for this feature in 1897 by Lt. Comdr. J. F. Moser, USN, of the USBF steamer Albatross.

Whale Mountain: mountain, 5,930 ft., on E bank of Kongakut River, 30 miles S of Demarcation Point, Brooks Range; 69° 15' N, 141° 30' W; (map 138). Descriptive name shown on a 1912 (?) fieldsheet by E. de K. Leffingwell.

Whale Passage: water passage, 10 miles long, between Thorne and Prince of Wales Islands, Alexander Archipelago; 56° 04' N, 133° 05' W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow USN; name published in 1887 on USC&GS Chart 706.

Whale Passage: water passage, extends NW 4.5 miles from Kizhuyak Bay to Kupreanof Strait, between Whale and Kodiak Islands; 57° 56' N, 152° 50' W; (map 34). Variant: Little Raspberry Strait, Proliv Maloy Malinovoy, Sievernoi. Name derived from Whale Island and given in 1897 by Lt. Comdr. J. F. Moser, USN, of the USBF Albatross. Called "Pr[oliv] Maloy Malinovoy," meaning "Little Raspberry Strait," by Sub-Lt. Mikhail Murashev in 1839 or 1840 and published in 1849 on Russian Hydrog. Dept. Chart 1425. Baker (1906, p. 671) erroneously wrote, "Called 'Sievernoi' (northern) by Murashev."

Whale Point: point of land, E point of entrance to Mutt Cove, S coast of Kiska Island, Aleutian Islands; 51° 55' 45" N, 177° 30' 40" E; (map 14). This is one of the animal names arbitrarily applied to features in this area in 1943 by USAAF for tactical purposes during World War II.

Whale Point: point of land, E tip of Smeaton Island, in Behm Canal, Coast Mountains; 55° 20' 30" N, 130° 55' 40" W; (map 3). Local name published in 1891 by USC&GS.

Whale Point: point of land, on Caton Island, Sanak Islands, Aleutian Range; 54° 24' 15" N, 162° 24' 00" W; (map 25). Name reported by Ferdinand Westdahl, USC&GS, commander of the Coast Survey steamer McArthur, who made surveys in this area in 1901.

Whale Point: point of land, on S coast of St. Paul Island, in Pribilof Islands; 57° 07' 30" N, 170° 15' 20" W; (map 38). Variant: Ketavie Point, Kitovi Point. This is a translation of the Russian name "Mys Kitovyy," which means "whale cape," reported by Elliott (1881, St. Paul notes) as "Ketavie (of a whale) because a large right whale was stranded here in 1849."

Whale Rock: rock, 400 ft. long, in Revillagigedo Channel, 2 miles S of Mary Island, Alexander Archipelago; 55° 01' N, 131° 11' W; (map 3). Named by local pilots about 1880; published in 1885 by USC&GS.

Whale Rock: rock, at mouth of Davidson Inlet, 0.5 miles SW of Whale Head Island, Alexander Archipelago; 55° 50' 40" N, 133° 41' 25" W; (map 4) Named in 1904 by E. F. Dickins, USC&GS. "The rock looks like a whale at low tide."

Whaleback, The: rock, elev. 22 ft., 0.1 miles across, between Nagai and Andronica Islands, in Shumagin Islands, Aleutian Range; 55° 16' 50" N, 160° 04' 50" W; (map 28). Local descriptive name published in 1953 by USGS.

Whalebone Bay: bay, see Usuf Bay.

Whalebone Cape: point of land, S coast of Unalaska Island, Aleutian Islands; 53° 30' N, 166° 40' W; BGN 1904; (map 23). So named in 1888 by USBF because of the great amount of whalebone found there.

Whalebone Island: island, see Whale Island.

Whalen Bay: estuary, 0.8 miles wide, at E end of Port Fidalgo, 25 miles NW of Cordova, Chugach Mountains; 60° 49' N, 146° 16' W; (map 64). Named for a local miner and reported in 1908 by U. S. Grant (in Brooks and others, 1909, pl. 4), USGS.

Whalers Creek: stream, on Alaska Peninsula, flows E 3 miles to Chignik Lagoon, 9 miles W of Chignik, Aleutian Range; 56° 18' N, 158° 37' W; (map 30). Local name reported in 1904 by R. W. Stone (in Brooks and others, 1905, p. 165), USGS.

Whaletail Cove: cove, 22 miles SE of Wrangell, extends E 1 mile to Zimovia Strait, 2.5 miles E of Olive Cove, on E coast of Etolin Island, Alexander Archipelago; 56° 11' 10" N, 132° 15' 00" W; BGN 1923; (map 6). Descriptive name given in 1923 by USC&GS "because of its shape."

Whaletail Point: point of land, at entrance to Whitetail Cove, in Zimovia Strait, on E coast of Etolin Island, 21 miles SE of Wrangell, Alexander Archipelago; 56° 11' 30" N, 132° 09' 15" W; (map 6). Descriptive name given for charting purposes by USC&GS in 1925 Coast Pilot (p. 121).

Whaley, Point: point of land, N tip of Revillagigedo Island, Alexander Archipelago; 55° 58' 20" N, 131° 15' 45" W; (map 3). Variant: Cape Whaley, Mys Vale. Named August 11, 1793, by Capt. Vancouver, RN (Wagner, 1937, p. 421).

Wharf Point: point of land, on NE coast of Seguam Island, Aleutian Islands; 52° 22' N, 172° 20' W; (map 19). Descriptive name given by a special U.S. Navy survey party because the point resembles a wharf or pier from a distance; published by USC&GS in 1944 Aleutian Coast Pilot (p. 85).

Wheat Cove: cove, 0.3 miles across, 1.5 miles S of Witchcraft Point, on NW coast of Kiska Island, Aleutian Islands, 52° 02' N, 177° 30' E; (map 14). This is one of the plant names arbitrarily applied to features on Kiska Island in 1943 by USAAF for tactical purposes during World War II.

Wheat Lake: lake, 0.8 miles long, 4.5 miles E of junction of Nizina and Chitina Rivers, 8.5 miles SW of McCarthy, Wrangell Mountains; BGN 1966; 61° 20' 20" N, 143° 05' 45" W; (map 67). Named in 1965 by L. A. Yehle, USGS, for publication and geologic description purposes.

Wheel Creek: stream, flows SE 0.6 miles to Penny River, 12 miles NW of Nome, Seward Peninsula Highlands; 64° 39' N, 165° 38' W; (map 94). Variant: Wheel Gulch. Prospectors' name reported as "Wheel Gulch" on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Wheel Gulch: stream, see Wheel Creek.

Wheeler Creek: stream, flows NE 10 miles to Munson Creek, 52 miles N of Big Delta, Yukon-Tanana Highlands; 64° 54' 30" N, 145° 59' 00" W; (map 101). Local name reported in 1910 by USGS (Capps, 1912, pl. 1).

Wheeler Creek: stream, flows S 24 miles to Dakli River, 56 miles SE of Shungnak, Hogatza Highlands; 66° 10' N, 156° 18' W; (map 115). Local name reported by USGS in 1952.

Wheeler Creek: stream, near NW coast of Admiralty Island, flows NNW 9 miles to Game Cove on Chatham Strait, 22 miles SW of Juneau, Alexander Archipelago; 58° 03' 30" N, 134° 47' 30" W; BGN 1929; (map 11). Named for Frank Wheeler, an early settler along the creek. Name reported in 1928 by USFS.

Wheeler Peak: peak, 2,731 ft., on Glass Peninsula on Admiralty Island, 2 miles SW of Point Glass and 38 miles SE of Juneau, Alexander Archipelago; 57° 47' 30" N, 133° 56' 30" W; BGN 1934; (map 8) Named in 1887 by Lt. Comdr. C. M. Thomas, USN, probably for Lt. George M. Wheeler, who made extensive surveys of the United States west of the 100th meridian.

Whelan Creek: stream, flows NE 2.5 miles to Coffee Creek in Kougarok River basin, 47 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 18' N, 164° 38' W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Whidbey Bay: bay, 4.7 miles across, between Capes Fairfield and Mansfield, on Kenai Peninsula, 22 miles SE of Seward, Chugach Mountains; 59° 56' N, 148° 56' W; BGN 1910; (map 49). Named in 1908 by U. S. Grant, USGS, "after Vancouver's Lieut., 'Joseph Whidbey.'"

Whidbey Passage: water passage, 9 miles long, along the W shore of Glacier Bay, in Glacier Bay National Monument, E of Fingers Bay, 40 miles NW of Hoonah, St. Elias Mountains; 58° 37' N, 136° 12' W; BGN 1942; (map 10). Named by USC&GS in 1942 for Joseph Whidbey, Master of the Discovery and one of Capt. George Vancouver's principal assistants, who landed at the mouth of Glacier Bay in 1794.

Whidbey, Point: point of land, on Lynn Canal, E entrance to St. James Bay, 1.4 miles NE of St. James Point and 32 miles NW of Juneau, St. Elias Mountains; 58° 34' 40" N, 135° 08' 10" W; (map 11). Variant: Point Grant, Whidby Point. Named by George Davidson, USC&GS, for Joseph Whidbey, RN, one of Capt. George Vancouver's principal assistants during his explorations in 1792-95 and Master of the H.M.S. Discovery. The name "Point Whidbey" was

published by USC&GS in 1883 Coast Pilot (p. 195). In 1889 Comdr. R. W. Meade, USN, called it "Point Grant."

Whihshet, Point: point of land, see Whitshed, Point.

Whip Island: island, 0.2 miles long, one of seven in SW entrance to Lash Bay, off SW coast of Tanaga Island, Aleutian Islands; 51° 39' 50" N, 178° 03' 00" W; (map 16). Local name published on a 1954 USGS map.

Whipple Creek: stream, on Revillagigedo Island, flows W 4 miles to Tongass Narrows, 1.9 miles SE of Point Higgins, Alexander Archipelago; 55° 26' 15" N, 131° 48' 00" W; BGN 1933; (map 3). Variant: Falls Creek. Local name reported in 1933 by USFS; named "for an early settler who had a fish trap near the mouth of the creek."

Whipple, Mount: mountain, 5,745 ft., on Alaska-Canada boundary, 10 miles SE of Stikine River, Coast Mountains; 56° 36' 45" N, 131° 34' 45" W; (map 7). Variant: Mount Wipple. Named "by Hunter in 1877 * * *" (Baker, 1906, p. 671).

Whirl Point: point of land, E coast of Unimak Island, in Isanotski Strait, Aleutian Islands; 54° 49' 30" N, 163° 22' 30" W; (map 25). Name published by USC&GS in the 1926 Coast Pilot (p. 216). It was so named because the tidal currents swirl violently about it.

Whirlpool Creek: stream, flows SW 10 miles to head of Nixon Fork, 24 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 26' N, 154° 28' W; (map 89). Local name reported in 1910 by A. G. Maddren (in Brooks and others, 1911, pl. 14), USGS.

Whirlpool Island: island, 4.6 miles long, between Whirlpool Slough and Yukon River, 8 miles SW of Beaver, Yukon Flats; 66° 17' N, 147° 38' W, (map 118). Locally named for the whirlpool on the west side of the island at the mouth of Whirl pool Slough; reported in 1956 by T. E. Taylor, USGS.

Whirlpool Point: point of land, extends S between Winter Bay and Hessa Narrows, on SW coast of Prince of Wales Island, Alexander Archipelago; 54° 46' 50" N, 132° 18' 20" W; (map 1). Local descriptive name reported in 1948 by USGS.

Whirlpool Point: point of land, on N central coast of Sitkinak Island, in Trinity Islands, Kodiak Island; 56° 37' 00" N, 154° 05' 30" W; BGN 1934; (map 32). Descriptive name given in 1934 by USC&GS "because of the dangerous whirlpools extending NE from the point."

Whirlpool Rock: rock, 0.5 miles NW of Careful Point, off W coast of Adak Island, Aleutian Islands; 51° 50' 00" N, 176° 52' 35" W; (map 17). Name published by USC&GS in the 1944 Aleutian Coast Pilot (p. 111).

Whirlpool Slough: stream, anabranch of Yukon River, flows W 4.5 miles, 9 miles SW of Beaver, Yukon Flats; 66° 17' N, 147° 40' W; (map 118). Local name shown on a 1916 manuscript map by William Yanert (Stuck, 1917, p. 122). The channel was named for the whirlpool at its mouth.

Whirlwind Creek: stream, flows SW 10 miles to Nixon Fork Takotna River 5 miles NE of mouth of Cottonwood Creek and 24 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 26' N, 154° 28' W; (map 89). Local name obtained in 1924 by J. S. Brown (in P. S. Smith and others, 1926, pl. 5), USGS

Whirlwind Ridge: ridge, extends NE-SW 2.5 miles, 34 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 31' N, 154° 13' W; (map 89). Local name obtained in 1924 by J. S. Brown (in Smith, P. S., and others 1926, pl. 5), USGS.

Whisker Point: point of land, between Tlevak Strait and South Pass, on SE coast of Goat Island, Alexander Archipelago; 55° 10' 10" N, 132° 53' 30" W; (map 4). Local name published in 1965 by USC&GS.

Whiskers Creek: stream, flows S 11.5 miles to Susitna River, 4 miles N of Talkeetna, Cook Inlet Lowland; 62° 22' 40" N, 150° 10' 10" W; (map 81). Local name reported in 1958 by USGS.

Whiskey Cove: cove, 0.3 miles wide, on NW coast of Hawkins Island, 12 miles W of Cordova, Chugach Mountains; 60° 32' N, 146° 06' W; (map 64). Name published in 1950 by USGS.

Whiskey Creek: locality, on right bank of Yukon River, at mouth of Whiskey Creek and 52 miles E of Nulato, Kokrines-Hodzana Highlands; 64° 41' N, 156° 21' W; (map 97). Local name reported in 1954 by USGS.

Whiskey Creek: stream, flows NE 3 miles to Casadepaga River 15 miles NE of Solomon, Seward Peninsula Highlands; 64° 47' N, 164° 35' W; (map 95) Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Whiskey Creek: stream, flows S 2.3 miles to Edgar Creek 11.2 miles E of Marshall, Nulato Hills; 61° 53' 08" N, 161° 44' 30" W; (map 73). Variant: Whisky Creek. Prospectors' name reported in 1916 by Harrington (1918, map), USGS.

Whiskey Creek: stream, flows SE 1.8 miles to Yukon River, 52 miles E of Nulato, Kokrines-Hodzana Highlands; 64° 41' N, 156° 21' W; (map 97). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by U.S. Dept. of Interior.

Whiskey Creek: stream, see Moose Creek.

Whiskey Gulch: ravine, 0.3 miles long, on W coast of Kenai Peninsula, 4 miles NNE of Anchor Point and 16 miles NW of Homer, Cook Inlet Lowland; 59° 50' N, 151° 49' W; (map 50). Local name reported and published by USGS in 1950.

Whiskey Gulch: ravine, trends NE 0.5 miles to Little Eldorado Creek, 16 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 03' 55" N, 147° 32' 20" W; (map 105). Named by prospectors and published in 1908 by USGS.

Whiskey Hill Glacier: glacier, trends 5 miles S from Chisana Pass to Rohn Glacier, 10 miles NE of Regal Mountain and 30 miles NE of McCarthy, Wrangell Mountains; 61° 50' N, 142° 35' W; (map 67). Local name published by USGS in 1954.

Whiskey Island: island, 2.5 miles long, adjacent to Hot Slough, in Tanana River, 24 miles SW of Fairbanks, Tanana Lowland; 64° 39' 15" N, 148° 22' 00" W; (map 100). Local name reported in 1950 by USGS topographers.

Whiskey Jack Slough: channel, of Yukon River, flows NW 2.5 miles N of Little Joker Island, 17 miles W of Tanana, Nowitna Lowland; 65° 10' N, 152° 40' W; (map 106). Local name reported in 1952 by USGS. Probably named for the Alaska Jay, Whiskey Jack, or Camp Robber (*Perisoreus canadensis fumifrons*).

Whiskey Lake: lake, 1 mile long, in course of Hewitt Creek, 63 miles NW of Tyonek, Alaska Range; 61° 59' 30" N, 151° 24' 00" W; (map 70). Local name reported in 1954 by USGS.

Whiskey Pass: water passage, 1 mile long, between Butterworth and Woewodski Islands, 19 miles SW of Petersburg, on S coast of Kupreanof Island, Alexander Archipelago; 56° 32' 30" N, 133° 03' 30" W; (map 6). Local fishermen's name reported in 1947 by USC&GS.

Whiskey Slough: stream, anabranch of Talkeetna River, flows S 1.2 miles, 3.5 miles NE of Talkeetna, Cook Inlet Lowland; 62° 21' N, 150° 01' W; (map 81). Local name reported in 1958 by USGS.

Whisky Cove: cove, 1,100 ft. across, on N coast of Pennock Island, 0.8 miles SE of Ketchikan, Alexander Archipelago; 55° 19' 45" N, 131° 37' 55" W; (map 3). Local name reported in 1954 by USGS.

Whisky Creek: stream, see Whiskey Creek.

Whisper Lake: lake, 0.7 miles long, on Kenai Peninsula N of Sterling Highway, 5 miles W of Sterling and 13 miles E of Kenai, Cook Inlet Lowland; 60° 31' N, 150° 54' W; BGN 1948; (map 62). Named in 1948 by local homesteaders.

Whistle Ridge: ridge, 4,700 ft., extends E 6.5 miles from headwaters of Rock Creek, 25 miles W of Paxson, Alaska Range; 63° 05' N, 146° 20' W; (map 86). So named in 1955 by Reuben Kachadoorian, USGS, "because of the abundance of whistling marmots" in the area.

Whistler Creek: stream, flows SW 3.8 miles to Delta River, crossing Richardson Highway 32 miles NW of Paxson, Alaska Range; 63° 28' 05" N, 145° 51' 00" W; (map 86). Name reported in 1952 by USGS.

Whistler Creek: stream, flows SW 4 miles to Caribou Creek, 19 miles NW of Tahnetta Pass, Talkeetna Mountains; 62° 01' 05" N, 147° 50' 35" W; BGN 1960; (map 82). Named in 1956 by USGS; it "is a common nickname of the marmot" which inhabit the area.

Whistler Creek: stream, heads at glacier and flows N 4 miles to East Fork Delta River, 11 miles NW of Mount Hayes, Alaska Range; 63° 46' 25" N, 146° 49' 40" W; (map 86). Name reported in 1952 by USGS.

Whistler Creek: stream, heads at glacier in Franklin Mountains, flows NE 11 miles to Lake Schrader, 19 miles NW of Mount Michelson, Brooks Range; 69° 22' N, 145° 03' W; BGN 1960; (map 139). Variant: Snake Creek. Named by Bee and Hall (1956, p. 295) in August 1952, for the whistle-like call of the hoary marmot (*Marmota caligata broweri*).

Whistler Creek: stream, heads at glacier, flows S 3.5 miles to Alder Creek 10 miles NW of its junction with Tokositna River, 35 miles NW of Talkeetna, Alaska Range; 62° 47' 40" N, 150° 30' 10" W; (map 81). Prospectors' name published in 1940 by USGS.

Whistler Creek: stream, heads in Dutch Hills, flows SW 4 miles to Granite Creek, 36 miles NW of Talkeetna, Alaska Range; 62° 30' 35" N, 151° 09' 45" W; (map 81). Local name. reported in 1958 by USGS.

Whistler Creek: stream, see Pirate Creek.

Whistlewing Bay: lagoon, 1.3 miles long, on N shore of Iliamna Lake, 7 miles E of Iliamna, Aleutian Range; 59° 45' 45" N, 154° 41' 30" W (map 51). Local name reported in 1954 by USGS.

Whistling Gulch: ravine, trends SW 1 mile to Hidden Creek, 8 miles N of Medfra, Kilbuck-Kuskokwim Mountains; 63° 13' N, 154° 44' W; (map 89). Local name reported in 1958 by USGS.

White Bluff: bluff, elev. 80 ft., 7 miles S of Point Baker, on NW coast of Prince of Wales Island, Alexander Archipelago; 56° 15' 20" N, 133° 37' 45" W (map 6). Local descriptive name recorded in 1964 by USC&GS.

White Bluff: cliff, elev. 480 ft., on W shore of Zachary Bay, Unga Island, in Shumagin Islands, Aleutian Range; 55° 22' 00" N, 160° 39' 00" W; (map 28). Local name published on a 1917 USC&GS chart.

White Cap Mountain: mountain, 3,299 ft., in Glacier Bay National Monument, 2.6 miles NE of mouth of Dundas River and 37 miles NW of Hoonah, St. Elias Mountains; 58° 24' 30" N, 136° 15' 40" W; BGN 1960; (map 10). Descriptive name given by USGS in 1956 "because the top of the mountain is capped by massive white limestone."

White Channel Creek: stream, flows NE 4.7 miles to Trail Creek, 10 miles E of Long and 26 miles SE of Ruby, Nowitna Lowland; 64° 24' N, 155° 09' W; (map 98). Prospectors' name reported in 1913 by Eakin (1914, pl. 3), USGS.

White Cliff Island: island, 1 mile across, E part of Davidson Inlet, Alexander Archipelago; 55° 59' 30" N, 133° 29' 00" W; (map 4). Descriptive name given in 1903 or 1904 by E. F. Dickins, USC&GS, who wrote "named by our party, has no local name."

White Cliff Passage: water passage, 0.5 miles long, between Orr and White Cliff Islands, E part of Davidson Inlet, Alexander Archipelago; 55° 54' 45" N, 133° 28' 30" W; (map 4). Local descriptive name published in 1964 by USC&GS.

White Cliff Point: point of land, S tip of Moser Island, in Hoonah Sound, 18 m. E of Chichagof, Alexander Archipelago; 57° 38' 30" N, 135° 37' 10" W; (map 9). Descriptive name given in 1895 by Lt. Comdr. E. K. Moore, USN.

White Cliff: cliff, 700 ft., SW Heceta Island, Alexander Archipelago; 55° 44' 00" N, 133° 38' 25" W; BGN 1908; (map 4). Local navigators' name recorded by Lt. Comdr. H. E. Nichols (U.S. Coast and Geodetic Survey, 1891, p. 122), USN.

White Cliff: cliff, elev. 300 ft., on SW coast of White Cliff Island, in Davidson Inlet, 33 miles NW of Craig, Alexander Archipelago; 55° 54' 20" N, 133° 29' 30" W; (map 4). Descriptive name published in 1923 by USC&GS.

White Cliff: cliff, on E coast of Baranof Island, 1.5 miles N of Takatz Bay and 20 miles E of Sitka, Alexander Archipelago; 57° 11' N, 134° 49' W; (map 9). Local descriptive name reported in 1951 by USGS.

White Cliffs: cliffs, southern cliffs of Kokrines Hills, on right bank of Yukon River, 19 miles NE of Ruby, Kokrines-Hodzana Highlands; 64° 54' N, 154° 58' W; (map 98). Local name reported about 1952 by USGS.

White Crag Island: island, 0.1 miles across, in Takanis Bay, on SW coast of Yakobi Island, 24 miles NW of Chichagof, Alexander Archipelago; 57° 54' 20" N, 136° 32' 35" W; BGN 1929; (map 9). Descriptive name given in 1928 by USC&GS. The island "is bare and has a conspicuous white top, which forms a prominent landmark."

White Creek: stream, flows 5 miles NW and joins Rex Creek to form Chititu Creek, 15 miles SE of McCarthy, St. Elias Mountains; 61° 17' 35" N, 142° 34' 40" W, (map 67). Variant: White Gulch. Local name reported in 1908 by D. C. Witherspoon (in Moffit and Capps, 1911, pl. 2), USGS. Reported in 1902 as "White Gulch" by G. M. Esterly, of Valdez (Mendenhall and Schrader, 1903, fig. 5).

White Creek: stream, flows 6 miles SW to Tok River 16 miles NW of junction of Little Tok River, 26 miles SW of Tok, Alaska Range, 63° 12' N, 113° 47' W; BGN 1936; (map 85). Local name reported in 1936 by USGS.

White Creek: stream, flows NW 5 miles to Valdez Creek, 65 miles SE of Healy, Alaska Range; 63° 12' 15" N, 147° 19' 30" W; (map 87). Prospectors' name shown on a 1910 fieldsheet by D. C. Witherspoon, and published by Moffit (1912, pl. 1), USGS.

White Creek: stream, flows SW 10 miles to South Fork Goodpaster River, 23 miles E of Big Delta, Yukon-Tanana Highlands; 64° 12' N, 145° 05' W; (map 101). Local name reported in 1908 by J. W. Bagley, USGS.

White Creek: stream, heads at glacier terminus, in Mount McKinley National Park, flows NW 30 miles to Foraker River, 35 miles SSE of village of Lake Minchumina, Tanana Lowland; 63° 27' 00" N, 151° 52' 10" W; (map 88). Local name reported in 1925 by S. R. Capps, USGS.

White Creek: stream, on Kenai Peninsula, flows NE 3.5 miles to Resurrection Creek, 11 miles SW of Hope, and 35 miles W of Wittier, Chugach Mountains; 60° 45' 10" N, 149° 42' 10" W; (map 63). Local prospectors' name reported in 1904 by Moffit (1906, pl. 2), USGS.

White Eye Camp: settlement, see White Eye.

White Eye: settlement, on right bank of Yukon River, 46 miles SW of Fort Yukon, Yukon Flats; 66° 28' N, 146° 54' W; (map 119). Variant: White Eye Camp, White Eyes Camp. Indian settlement named by prospectors above 1898 for the chief; name published on an 1898 manuscript map by E. F. Ball, prospector, as "White Eye's Camp." The 1940 Census gave a population of 15.

White Eyes Camp: settlement, see White Eye.

White Falls: waterfall, on S shore of Expedition Harbor, Bay of Islands, Adak Island, Aleutian Islands; 51° 47' 05" N, 175° 46' 05" W; (map 17). Descriptive name published by USC&GS in 1960 on Chart 9120.

White Fish Lake: lake, 5 miles SE of junction of Kaiyuh Slough and Wounded Cub Creek, 17 miles SE of Nulato, Koyukuk Lowland; 64° 29' N, 158° 02' W; (map 97). Variant: Tasezekot. Appears to be a translation of an Indian name; reported in 1935 by Frederica de Laguna, BAE.

White Fish Lake: lake, on Seward Peninsula, 2 miles across, 60 miles NW of Deering, Kotzebue-Kobuk Lowland; 66° 23' N, 164° 45' W; (map 113). Local name reported in 1950 by USGS.

White Fish Lake: lake, see Fish Lake.

White Fox Lake: lake, 0.6 miles long, E of Long Lake, 21 miles SW of Beaver, Yukon Flats; 66° 16' 40" N, 148° 07' 00" W; (map 118). Probably named by William Yanert who showed it on a 1916 manuscript map of the Yukon Flats (Stuck, 1917, map facing p. 122).

White Glacier: glacier, in Glacier Bay National Monument, trends W 3 miles to its 1961 terminus, 0.7 miles SW of Mount Case and 66 miles NW of Juneau, St. Elias Mountains; 58° 48' 40" N, 135° 58' 55" W; (map 11). Descriptive name given in 1890 by Reid (1892, p. 33), USGS.

White Gulch: stream, see White Creek.

White Gull Island: island, 0.1 miles across, in Iliamna Bay, 19 miles N of Augustine Island, Aleutian Range; 59° 37' N, 153° 34' W; BGN 1916; (map 51). Local name published in 1907 on USC&GS Chart 8665.

White Hill: hill, 4,610 ft., between Little Nelchina River and Tyone Creek, 17 miles N of Tahnetta Pass, Talkeetna Mountains; 62° 08' N, 147° 23' W; BGN 1960; (map 82). Descriptive name given by USGS in 1956 because it is a conspicuous whitish hill of limestone.

White Hills: ridge, extends SW 25 miles from Toolik River, 15 miles W of junction of Ivishak and Sagavanirktok Rivers, Arctic Plain 69° 34' N, 149° 27' W; BGN 1949; (map 140). Local name reported in 1949 by USGS.

White Island: island, see Error Island.

White Lake: lake, 0.2 miles long, on W bank of Knik Arm Cook Inlet, 0.6 miles W of Knik and 17 miles NE of Anchorage, Cook Inlet Lowland; 61° 27' 30" N, 149° 43' 45" W; (map 69). Local name reported in 1942 by AMS.

White Lake: lake, 1 mile across, W of Chandler River, 28 miles WNW of Anaktuvuk Pass, Brooks Range; 68° 20' 30" N, 152° 35' 00" W; (map 134). Named in 1944 by USGS geologists during the exploration of Naval Petroleum Reserve No. 4, because "higher altitude preserves ice later."

White Lake: lake, 1 mile long, 16 miles S of Christian and 13 miles SE of Flooded Lake, Yukon Flats; 67° 08' N, 145° 06' W; (map 122). Local name reported in 1956 by T. E. Taylor, USGS.

White Mans Point: point of land, see Muir Point.

White Mountain Creek: stream, flows N 17 miles to Johns Creek, 45 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 41' N, 154° 11' W; (map 89) Local name reported in 1954 by USGS.

White Mountain Creek: stream, flows SW 18 miles to Porcupine River, 14 miles WSW of Canalaska Mountain and 38 miles ENE of Coleen Mountain, Brooks Range; 67° 19' N, 141° 32' W; (map 121). Name reported by M. G. White (1952, fig. 1), USGS, in 1948.

White Mountain: mountain, 2,121 ft., on Dall Island, W of View Cove, Alexander Archipelago; 55° 04' 40" N, 133° 06' 30" W; (map 4). Descriptive name published in 1924 by USC&GS.

White Mountain: mountain, N of Nabesna, 5 miles NW of junction of Jacksina Creek and Nabesna River, Wrangell Mountains; 62° 23' N, 143° 02' W; BGN 1939; (map 84). Local name reported in 1960 by USGS; so named because of massive white limestone outcrops on its east slope.

White Mountain: peak, see Snowy Peak.

White Mountain: village, pop. 151, on left bank of Fish River, 15 miles NW of Golovin and 33 miles NE of Solomon, Seward Peninsula Highlands; 64° 41' N, 163° 24' W; (map 95). Established in 1899 when C. D. Lane put up a large warehouse as headquarters for the supplies he intended to use on his numerous gold claims in the Council district (North American Transportation and Trading Company, 1900, p. 25). The name was derived from the mountain on its north side. Colby (1939, p. 363) referred to this as a fishing village with a population of 205. A post office was established in 1932 and continues today (Ricks, 1965, p. 70-71). The population was 198 in 1920; 205 in 1930; 199 in 1939; 129 in 1950; and 151 in 1960, of whom 119 were Eskimo.

White Mountains: mountains, 5,000 ft., trend ENE 70 miles, bounded on the SW and NW by Beaver Creek and on the NE by Preacher Creek, 60 miles W of Circle, Yukon-Tanana Highlands; 65° 24' N, 147° 30' W [SW end], 65° 49' N, 145° 33' W [NE end]; (map 104). Descriptive name given by prospectors; reported in 1903 by Prindle (1905, p. 74), USGS. So named because they are composed of white limestone (Brooks and others, 1906, p. 130).

White Pass Fork: stream, heads in Summit Lake and flows 4 miles S to Skagway River, 9 miles NE of Skagway, Coast Mountains; 59° 34' 05" N, 135° 09' 50" W; (map 45). Local name obtained by USGS personnel and published on Federal maps since 1950.

White Pass: pass, 2,900 ft., on Alaska-Canada boundary, 4 miles NE of Mount Cleveland and 13 miles NE of Skagway, Coast Mountains; 59° 37' 30" N, 135° 08' 05" W; BGN 1954; (map 45). Variant: Shasheki, Skagway Pass. Named by William Ogilvie, Dominion Land Surveyor, in 1887 for Thomas White, Canadian Minister of the Interior. This pass is probably the same as Shasheki, a Tlingit Indian name reported by W. H. Dall, USC&GS, and published in the 1883 Coast Pilot (p. 200). This pass was on one of the principal routes to the Yukon taken by the prospectors during the Klondike Gold Rush 1897-1900. Although the White Pass route was less direct than the favorite, but steeper Chilkoot Pass route, it was used by more prospectors during the winter months.

White Pass: railroad station, on The White Pass and Yukon Railroad, on Alaska-Canada boundary, 12 miles NW of Skagway, Coast Mountains; 59° 37' N, 135° 08' W; (map 45). Local name reported in 1925 by IBC.

White Point: point of land, on NW coast of El Capitan Island, 25 miles N of Craig, Alexander Archipelago; 55° 56' 45" N, 133° 20' 25" W; (map 4). Local name published in 1925 Coast Pilot (p. 155).

White Point: point of land, W entrance point to Bechevin Bay, N coast of Atka Island, Aleutian Islands; 52° 03' 20" N, 175° 07' 00" W; (map 18). Descriptive name applied "because of light gray bluffs." Published by the USC&GS in the 1944 Aleutian Coast Pilot (p. 99).

White Princess: peak, 9,800 ft., near head of Gerstle Glacier, 27 miles N of Paxson, Alaska Range; 63° 25' 15" N, 145° 25' 20" W; (map 86). Name reported in 1952 by USGS.

White Reef: rocks, extend 1,500 ft., in Revillagigedo Channel, near mouth of Boca de Quadra, Coast Mountains; 55° 04' N, 131° 02' W; (map 3). Descriptive name given in 1883 by Lt. Comdr. H. E. Nichols, USN.

White River Glacier: glacier, heads at Guyot Glacier, 2 miles N of Munday Peak, trends SW and W 5 miles to its 1950 terminus in lake at head of White River, 11 miles E of Cape Yakataga, Chugach Mountains; 60° 04' 15" N, 142° 07' 00" W; (map 65). Name published by F. H. Moffit (1914, pl. 1), USGS.

White River: stream, about 200 miles long, heads in Alaska at terminus of Russell Glacier, flows NE into Canada to Yukon River, Wrangell Mountains; 63° 10' N, 139° 32' W; BGN 1953; (map 67). Discovered in 1850 by Robert Campbell of Hudson's Bay Company and so named by him on account of its color. Lt. Schwatka (1885b, p. 39), USA, wrote of this stream: "its waters seemingly liquid mud, from whence it probably derives its name. It is called by the

“Sticks” the Yukokon Heenah (Yu-ko-kon) or Yukokon River, and by the Chilkats another name, meaning Sand River, from the immense number of sand bars and banks which they say exists along its course.”

White River: stream, flows NE 10 miles to Imuruk Basin, 19 miles SE of Teller, Seward Peninsula Highlands; 65° 05' N, 165° 51' W; (map 111). Prospectors' name reported on the 1908 “Map of Seward Peninsula” by Arthur Gibson.

White River: stream, heads at White River Glacier terminus, flows W and S 5.6 miles to Gulf of Alaska, 7 miles SE of Cape Yakataga, Chugach Mountains; 60° 02' 50" N, 142° 13' 15" W; (map 65). Named in 1897 by oil prospectors; reported in 1903 by G. C. Martin, USGS.

White River: stream, heads in lake NW of Kapho Mountains, flows SE 8 miles to join Bradfield River at head of Bradfield Canal, Coast Mountains; 56° 14' N, 131° 30' W; (map 7). Local name reported in 1923 by USFS.

White River: stream, on Revillagigedo Island, flows NE 8 miles to George Inlet, SW of Bull Island, Alexander Archipelago; 55° 28' N, 131° 32' W; (map 3). Local navigators' name obtained in 1904 by H. C. Fassett, USBF.

White Rock: rock, 120 ft. high, in Clarence Strait, 1.3 miles S of Duke Island, Alexander Archipelago; 54° 50' 15" N, 131° 22' 00" W; (map 2). Named in 1886 by R. Clover, USN.

White Rock: rock, at mouth of Kempff Bay, in Alitak Bay, at S end of Kodiak Island; 56° 54' 08" N, 154° 10' 55" W; (map 32). Descriptive name published in 1943 by USC&GS.

White Rock: rock, in Chatham Strait, 4.5 miles NE of Chatham, off SE coast of Chichagof Island, Alexander Archipelago; 57° 32' 45" N, 134° 50' 55" W; (map 9). Variant: Kamen Byloy. An 1882 translation by USC&GS of descriptive name “Kamen Byloy” given in 1849 by Capt. Tebenkov (1852, map 8).

White Rock: rock, in Sumner Strait, between Zarembo and Kupreanof Islands, Alexander Archipelago; 56° 28' 30" N, 133° 01' 45" W; (map 6). Descriptive name given in 1886 by Lt. Comdr. A. S. Snow, USN, because of its “very white” color.

White Rock: rock, off Point of Turbot, N of Takatz Bay, along E coast of Baranof Island, 5 miles N of Baranof, Alexander Archipelago; 57° 09' 50" N, 134° 47' 55" W; (map 9). Descriptive name published by USC&GS in the 1943 Coast Pilot (p. 342). So named because it is “a prominent, light-colored rock.”

White Rock: rock, see Hattie Rock.

White Rock: rocks, see Bieli Rocks.

White Rocks: rocks, extend 700 ft., between Brownson Bay and Dixon Entrance, on S coast of Prince of Wales Island, Alexander Archipelago; 54° 43' N, 132° 14' W; (map 1). Local name reported in 1948 by USGS.

White Sand Creek: stream, flows SE 5.8 miles to Tyrone Creek, 22 miles NE of Tahnetta Pass, Talkeetna Mountains; 62° 11' 35" N, 147° 11' 00" W; BGN 1960; (map 82). Named in 1956 by USGS "for the bluffs of white sand located along this stream."

White Sisters: islands, 0.2 miles across, along W coast of Chichagof Island, 6.2 miles WSW of Chichagof, Alexander Archipelago; 57° 38' N, 136° 15' W; BGN 1908; (map 9). Descriptive name given in 1908 by USC&GS. So named because "they consist of two large white rocks close together."

White Snow Mountain: mountain, 2,497 ft., 20 miles NW of Outlook Point and 29 miles NE of Christian, Brooks Range; 67° 34' N, 144° 16' W; (map 122). Local name reported in 1956 by T. E. Taylor, USGS.

White Sulphur Springs: springs, on N shore of Bertha Bay, on W coast of Chichagof Island, 13 miles NW of Chichagof, Alexander Archipelago; 57° 48' 25" N, 136° 20' 45" W; BGN 1917; (map 9). Variant: Hooniah Hot Springs, Hooniah Sound Hot Springs, Hooniah Warm Springs. Named in 1916 by "Surveyor Crowthers of Juneau." The name is derived from the white color of the sulphur deposits. "Prior to 1916 the springs were used only by a few natives who ventured north from Sitka on hunting and trapping expeditions. No improvements were made to the springs, the natives merely using the shallow natural pools in the ledges." The springs were originally called "Hooniah Hot Springs" by USC&GS on Chart 8050 in 1902, and "Hooniah Warm Springs" in the 1908 Coast Pilot (p. 168). The name was changed to "White Sulphur Springs" in 1917 to avoid confusion with Tenakee Hot Springs.

White Thunder Ridge: ridge, 4 miles long, trends SE from Muir Glacier to W shore of Muir Inlet, 44 miles SW of Skagway, St. Elias Mountains; 59° 02' 00" N, 136° 11' 30" W; (map 45). Named by Douglas Brown, American Geographical Society, who established a photographic station on the summit in 1946. Named from the noise produced by the discharging front of the glaciers. The name was published by the American Geographical Society (Field, 1947, pl. 1).

White, Point: point of land, on NW coast of Kupreanof Island, between Frederick Sound and Keku Strait, 40 miles SE of Angoon, Alexander Archipelago; 57° 00' 15" N, 134° 00' 30" W; (map 9) Apparently a local descriptive name published by USC&GS in the 1891 Coast Pilot (p. 140).

White, Point: point of land, W coast of Duke Island, Alexander Archipelago; 54° 56' 00" N, 131° 29' 30" W (map 2). Local name reported in 1955 by USGS.

Whiteface Mountain: mountain, 6,000 ft., 5 miles SW of Harvey Mountain and 28 miles N of Wiseman, Brooks Range; 67° 48' 15" N, 150° 23' 00" W; BGN 1932; (map 124). So named about 1930 by Robert Marshall, "because of its resemblance to a peak of the same name in the Adirondacks."

Whitefish Lake: lake, 1 mile across, 42 miles NW of Midnight Hill, Porcupine Plateau; 66° 15' 30" N, 142° 29' 00" W; (map 120). Local name obtained in 1956 by T. E. Taylor and R. C. Foley, USGS.

Whitefish Lake: lake, 4 miles N of Old Cutoff Trading Post and 19 miles NE of Roundabout Mountain, Koyukuk Lowland; 65° 47' N, 156° 15' W; (map 108). Local name obtained at Huslia by USGS in 1954 or 1955.

Whitefish Lake: lake, 7.5 miles across, 18 miles SW of Aniak Yukon-Kuskokwim Delta; 61° 22' N, 160° 01' W; (map 73). Local name shown on a 1914 fieldsheet by A. G. Maddren, USGS.

Whitefish Lake: lake, at head of Hoholitna River, 65 miles N of Nondalton, Lime Hills; 60° 57' 30" N, 154° 52' 30" W; (map 61). Variant: White Fish Lake. Local name reported on a 1912 blueprint of the Alaska Short Line Railway.

Whitefish Lake: locality, 1 mile W of Whitefish Lake and 65 miles N of Nondalton, Lime Hills; 60° 56' 30" N, 155° 01' 30" W; BGN 1966; (map 61). Variant: Hungry. Local name reported in April 1966 by the postmaster at Stony River. Recent USGS maps indicate only a cabin at this site.

Whitehorse Creek: stream, flows NE 3 miles to Grouse Creek which flows to Mint River, 41 miles NW of Teller, Seward Peninsula Highlands; 65° 40' N, 167° 24' W; (map 111). Variant: White Horse Creek. Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Whiteout Glacier: glacier, 11 miles long, heads at 61° 06' 45" N, 148° 55' 30" W, trends N for 4 miles, then E, to Upper Lake George, 39 miles E of Anchorage, Chugach Mountains; 61° 10' 30" N, 148° 43' 20" W; [1957] BGN 1966; (map 69). Named in 1963 by the Mountaineering Club of Alaska for nearby Whiteout Peak.

Whiteout Peak: mountain, 7,135 ft., 7.5 miles SW of Upper Lake George and 33 miles E of Anchorage, Chugach Mountains; 61° 07' 45" N, 148° 54' 15" W; BGN 1964; (map 69). Descriptive name given in 1963 by members of the Mountaineering Club of Alaska pertaining to the "usual weather conditions experienced by climbers in this area." A whiteout is an "opaque diffusion of sky and snow."

Whiterock Island: island, 0.5 miles long, at mouth of Moira Sound, along SE coast of Prince of Wales Island, Alexander Archipelago; 55° 03' 20" N, 131° 59' 35" W; (map 3). Variant: White Rock Island. Local name published in the 1925 Coast Pilot (p. 75).

Whites Point: point of land, see Shoals Point.

Whites Roadhouse: locality, on right bank of Tanana River, 8 miles SE of Fairbanks, Tanana Lowland; 64° 45' N, 147° 30' W; (map 100). Name of a roadhouse along the Fairbanks-Valdez Trail, probably named for the original owner. The name was published in 1912 by USGS.

Whitshed: village, see Whitshed.

Whitestone Cove: cove, 0.2 miles across, in Neva Strait on NW coast of Baranof Island, 15 miles NW of Sitka, Alexander Archipelago; 57° 14' 50" N, 135° 33' 40" W; (map 9). Name

published in 1900 by USC&GS on Chart 8281; probably named for Whitestone Narrows just to the west.

Whitestone Creek: stream, flows N 1 mile to Alder Creek, in Bluestone River basin, 15 miles SE of Teller, Seward Peninsula Highlands; 65° 04' N, 166° 10' W; (map 111). Prospectors' name reported on a map of Cape Nome goldfields by David Fox, Jr., dated 1901.

Whitestone Harbor: cove, 1 mile across, on Icy Straits, on N coast of Chichagof Island, 4 miles WNW of Point Augusta and 29 miles SW of Juneau, Alexander Archipelago; 58° 04' N, 135° 04' W; BGN 1929; (map 11). Local name reported in 1928 by USFS.

Whitestone Islet: rock, see Whitestone Rock.

Whitestone Narrows: water passage, in Neva Strait, on NW coast of Baranof Island, 16 miles NW of Sitka, Alexander Archipelago; 57° 14' 50" N, 135° 33' 45" W; (map 9). Named in 1869 by Comdr. R. W. Meade, USN; published by USC&GS in the 1883 Coast Pilot (p. 156).

Whitestone Point: point of land, on SE shore of Neva Strait, at Whitestone Narrows, on NW coast of Baranof Island, 16 miles NW of Sitka, Alexander Archipelago; 57° 14' 45" N, 135° 33' 30" W; (map 9) Name published by W. H. Dall, USC&GS, in the 1883 Coast Pilot (p. 156). The name probably was derived from nearby Whitestone Narrows.

Whitestone Rock: rock, in Neva Strait on NW coast of Baranof Island, 16 miles NW of Sitka, Alexander Archipelago; 57° 14' 50" N, 135° 33' 45" W; (map 9). Variant: Whitestone Islet. Local name given about 1880 and published By USC&GS in the 1883 Coast Pilot (p. 156). The name is probably derived from Whitestone Narrows where the rock is located.

Whitestripe Lake: lake, 0.5 miles across, 5 miles NNE of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 44' 20" N, 136° 04' 20" W; BGN 1939; (map 9). Descriptive name given in 1939 by local inhabitants. The lake is called "Whitestripe" because it is underlaid by the same band of white marble which gives Whitestripe Mountain its name.

Whitestripe Mountain: mountain, 2,877 ft., 4.5 miles NE of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 43' 30" N, 136° 03' 00" W; BGN 1939; (map 9). Named in 1939 by local inhabitants. So named because of a conspicuous band of white marble which crosses the mountain.

Whitewater Bay: bay, 1.5 miles across, on SW coast of Admiralty Island, 16 miles S of Angoon, Alexander Archipelago; 57° 15' N, 134° 37' W; (map 9). Variant: Lower Khudsnu Lower Kootznahoo Bay, Lower Koutsnow Bay. Descriptive name given in 1869 by Comdr. R. W. Meade, USN, and published by USC&GS in the 1883 Coast Pilot (p. 174).

Whitewater Creek: stream, flows SW 6 miles to Kiknik Creek, 7 miles SW of Taylor Mountains and 63 miles S of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 50' N, 157° 30' W; BGN 1948; (map 60). Local descriptive name reported in 1945 by USGS.

Whitewing Valley: valley, extends NE-SW 7 miles in Horn Mountains 34 miles NE of Aniak, Kilbuck-Kuskokwim Mountains; 61° 42' N, 158° 30' W; BGN 1945; (map 72). So named in 1944 by USGS because of "the unusual abundance of whitewing ptarmigan in this valley."

Whitham Lake: lake, 0.7 miles long, 1.2 miles W of junction of Fish and Jacksina Creeks and 2.6 miles SE of Nabesna, Wrangell Mountains; 62° 20' 00" N, 142° 57' 30" W; (map 84). Local name reported in 1960 by USGS.

Whiting Falls: waterfall, on a tributary to Copper River, 55 miles NW of Cordova, Chugach Mountains; 60° 59' 30" N, 144° 50' 20" W; (map 64). Name published in 1950 by USGS.

Whiting Harbor: bay, 0.4 miles across, formed by islands tied to Japonski Island, 1 mile W of Sitka, Alexander Archipelago; 57° 03' N, 135° 22' W; (map 9). Named in 1880 by the U.S. Navy presumably for Commodore William D. Whiting, USN; published in 1883 Coast Pilot (p. 142).

Whiting Point: point of land, on Whiting River, 3 miles NE of Port Snettisham and 35 miles SE of Juneau, Coast Mountains; 58° 01' 05" N, 133° 38' 25" W; (map 8). Named in 1888 by Lt. Comdr. C. M. Thomas, USN, for Assistant-Surgeon Robert Whiting, USN, a member of his party.

Whiting River: stream, heads in British Columbia 58° 20' N, 132° 30' W, flows SW, across Alaska-Canada boundary, 50 miles to Gilbert Bay, 33 miles SE of Juneau, Coast Mountains; 57° 59' 30" N, 133° 42' 30" W; BGN 1954; (map 8) Named in 1888 by Lt. Comdr. C. M. Thomas, USN, for assistant surgeon Robert Whiting, USN, a member of his surveying party. The name was published by USC&GS in the 1891 Coast Pilot (p. 149).

Whitman Creek: stream, on Revillagigedo Island, heads in a lake, flows SE through Whitman Lake 4 miles to mouth of George Inlet, Alexander Archipelago; 55° 19' 45" N, 131° 30' 40" W; BGN 1966; (map 3). Variant: Case Creek. Local name reported in 1966 by USFS.

Whitman Lake: lake, Island 1 mile long, on Revillagigedo Island, W of mouth of George Inlet, in course of Whitman Creek, Alexander Archipelago; 55° 20' 10" N, 131° 32' 45" W; (map 3). Local name published in 1917 by USC&GS.

Whitney Island: island, 3 miles long, between Fanshaw Bay and Cleveland Passage, 3 miles NE of Cape Fanshaw and 70 miles E of Sitka, Coast Mountains; 57° 13' 30" N, 133° 31' 30" W; (map 8). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for William Collins Whitney, 1841-1904, lawyer and Secretary of Navy under President Grover Cleveland, 1885-89. Name published by USC&GS in the 1891 Coast Pilot (p. 145).

Whitney: suburb, part of Elmendorf Air Force Base, miles 119.1 on The Alaska Railroad 4.3 miles NE of Anchorage, Cook Inlet Lowland; 61° 15' 15" N, 149° 46' 30" W; (map 69). Name of a station on The Alaska Railroad first published in the 1918 Railway Guide Index.

Whitshed, Point: point of land, at SW end of Heney Range, 8 miles SW of Cordova, Chugach Mountains; 60° 27' N, 145° 53' W; (map 64). Variant: Cape Whitshed, Point Whihshet, Point Whitshet, Point Witshed, Puenta de Orevilla, Punta de Treville. Named by Capt. George Vancouver, RN, for Capt. Whitshed, RN, after the point of land was examined by James Johnstone on June 25, 1794 (Wagner, 1937, p. 421). It was called "Punta de Treville" by Don Ignacio Arteaga in 1779 for Louis Rene Madeleine le Vasson de Latouche Treville, French admiral who died in 1804 (Wagner, 1937, p. 520).

Whitshed: village, pop. 10 (summer pop. 60), on peninsula 8 miles SW of Cordova, Chugach Mountains; 60° 28' N, 145° 57' W; (map 64). Variant: Port Whitshed, Port Whitshed, Whitshed. Local name published in 1951 by USGS on a map indicating a probable cannery with two or three buildings. Name derived from nearby Point Whitshed.

Whitshet, Point: point of land, see Whitshed Point.

Whitsol Lake: lake, 0.8 miles long, N of Kroto Slough, 35 miles NW of Anchorage, Cook Inlet Lowland; 61° 40' 10" N, 150° 25' 20" W; (map 70). Local name reported in 1958 by USGS.

Whitsunday Bay: bay, see Izhut Bay.

Whitsunday, Cape: point of land, see Pillar Cape.

Whitsuntide Bay: bay, see Marmot Bay.

Whitsuntide Bay: water passage, see Shelikof Strait.

Whitsuntide: point of land, see Izhut, Cape.

Whittier Creek: stream, heads at terminus of Whittier Glacier, flows NW 2 miles to Passage Canal at Whittier, Chugach Mountains; 60° 41' 35" N, 148° 41' 35" W; (map 63). Local name reported in 1951 by USGS.

Whittier Glacier: glacier, on NE end of Kenai Peninsula, trends NE 4 miles to its terminus, 1 mile S of Whittier, Chugach Mountains; 60° 40' 30" N, 148° 40' 30" W; (map 63). Variant: Portage Glacier. Named and published in 1915 by USC&GS for the American poet John Greenleaf Whittier, 1807-92.

Whittier: village, pop. 809, on NE end of Kenai Peninsula, at head of Passage Canal, 28 miles SE of Sunrise and 50 miles SE of Anchorage, Chugach Mountains; 60° 46' 30" N, 148° 41' 00" W; (map 63). Port and railroad terminus established during World War II. The name derived from nearby Whittier Glacier was reported in 1943 by USGS. The population in 1950 was 629. A post office was established here in 1946 and discontinued in 1961 (Ricks, 1965, p. 71).

Whittren Creek: stream, flows NE 1 mile to Gold Run which flows to Bluestone River, 14 miles SE of Teller, Seward Peninsula Highlands; 65° 04' 45" N, 166° 12' 20" W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Whontleya: locality, along right bank of Yukon River, extends 10 miles from Bishop Rock to mouth of Koyukuk River, 20 miles NE of Nulato, Koyukuk Lowland; 64° 52' N, 157° 30' W; (map 97). Indian fishing ground reported in 1952 by USGS.

Why Creek: stream, see Query Creek.

Why Lake: lake, 1.5 miles long, 2 miles SE of Big Creek and 29 miles SE of Beaver, Yukon-Tanana Highlands; 66° 02' 50" N, 146° 39' 00" W; (map 119). Local descriptive name obtained in 1956 by USGS.

Whymper Creek: stream, flows NE 8 miles to Lynx Creek, 20 miles NE of Rampart, Yukon-Tanana Highlands; 65° 37' 30" N, 149° 36' 00" W; (map 105). Name originally applied to Hess Creek in 1866-67 by Capt. Frank Ketchum, leader of the Western Union Telegraph Company Expedition, for Frederick Whymper, English artist with the party. However, when gold was discovered in the area by Mike Hess in 1892, the larger stream came to be known as Hess Creek.

Whymper Creek: stream, see Hess Creek.

Whymper River: stream, see Hess Creek.

Wibel's: locality, see Wibel.

Wibel: locality, on Kenai Peninsula, 6 miles NNE of Lower Summit Lake and 10 miles S. of Sunrise, Chugach Mountains; 60° 44' 50" N, 149° 27' 00" W; (map 63). Variant: Wibel's. Former mining camp reported in 1915 by USGS as "Wibel's." Recent USGS maps indicate a site of six buildings.

Wick, Mount: mountain, 1,476 ft., 7 miles E of Mount Mordaunt and 39 miles NE of Solomon, Seward Peninsula Highlands; 64° 55' N, 163° 28' W; (map 95). Local name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Wickersham Creek: stream, flows NE 20 miles to Beaver Creek, 37 miles N of Fairbanks, Yukon-Tanana Highlands; 65° 22' 30" N, 147° 44' 45" W; (map 105) Named by prospectors for James Wickersham, 1857-1939, district judge; published in 1906 by USGS.

Wickersham Creek: stream, flows S 3 miles to Gold Creek, 48 miles N of Big Delta, Yukon-Tanana Highlands; 64° 49' 35" N, 145° 36' 00" W; (map 101). Named by prospectors and reported in 1905 by D. C. Witherspoon (in Prindle, 1913a, pl. 1), USGS.

Wickersham Creek: stream, flows S 7 miles to Butte Creek, 68 miles SE of Healy, Talkeetna Mountains; 63° 04' N, 147° 39' W; (map 87). Locally named for James Wickersham; reported in 1913 by J. W. Bagley (in Brooks and others, 1914, pl. 12), USGS.

Wickersham Dome: mountain, 3,207 ft., 27 miles NW of Fairbanks, Yukon-Tanana Highlands; 65° 13' N, 148° 04' W; (map 105). Name derived from Wickersham Creek that heads on the southeast slope of the mountain. The name is published in recent USGS maps.

Wickersham Dome: peak, 3,858 ft., on E bank of Moose Creek, at S end of Kantishna Hills 4 miles N of Wonder Lake, Alaska Range, 63° 33' 15" N, 150° 55' 15" W; (map 88). Named in 1932 by USGS for James Wickersham, 1857-1939. See Wickersham, Mount.

Wickersham Wall: cliff, elev. 16,500 ft., in Mount McKinley National Park, W face of Mount McKinley, rises 9,000 ft. above Peters Basin, 7.7 miles NW of summit of Mount McKinley, Alaska Range; 63° 07' N, 151° 03' W; (map 88). Named by Bradford Washburn about 1945

for James Wickersham, 1857-1939. "Judge Wickersham made the first attempt to climb McKinley by this wall in June 1903." See Wickersham, Mount.

Wickersham, Mount: mountain, 7,415 ft., W of Matanuska Glacier, 47 miles NE of Palmer, Chugach Mountains; 61° 42' 30" N, 147° 42' 00" W; BGN 1960; (map 69). Named in 1960 by E. L. Bartlett, U.S. Senator from Alaska and F. A. Seaton, Secretary of the Interior, for James Wickersham, 1857-1939, attorney, District Judge of the Third Judicial Division of Alaska, and Territorial Delegate to Congress. He was the leader of the first and unsuccessful attempt to climb Mount McKinley in 1903.

Wide Bay: bay, 0.7 miles across, on NE side of Unalaska Bay on NE coast of Unalaska Island Aleutian Islands; 53° 57' N, 166° 37' W; (map 23). This name was published in 1944 Aleutian Coast Pilot (p. 39).

Wide Bay: bay, 15 miles across, between Capes Igvak and Kayakliut, on S coast of Alaska Peninsula, 40 miles SE of Ugashik, Aleutian Range; 57° 22' N, 156° 11' W; BGN 1923; (map 36). Variant: Baie Khallikvit, Baie Kiialiakvit, Kialagvik Bay, Kialagvit, Kialakvit, Kialyakvit. Local descriptive name reported by USC&GS in 1921. The Eskimo name for this feature was published as "Kialakvit" by the Russian Hydrog. Dept. in 1848 on Chart 1379.

Widgeon Creek: stream, flows NW 7.4 miles to Bonanza Creek, 9 miles SE of Flat, Kilbuck-Kuskokwim Mountains; 62° 19' 50" N, 157° 54' 30" W; (map 79). Prospectors' name reported in 1933 by J. B. Mertie, USGS.

Widgeon Lake: lake, 0.5 miles long, in Teocalli Mountains; 2 miles W of Rainy Pass Lake and 95 miles SE of McGrath, Alaska Range, 62° 12' 15" N, 153° 09' 00" W; (map 80). Local name reported in 1958 by USGS: named for the float and wheel airplane "that once landed here."

Widgeon Lake: lake, 1 mile long, 2 miles NE of Philacte Bay and 90 miles W of Bethel, Yukon-Kuskokwim Delta; 60° 53' N, 164° 24' W. (map 58). Name used by personnel of Clarence Rhode National Wildlife Refuge; reported in 1965.

Wiehl Mountain: mountain, 5,600 ft., 4.5 miles NW of junction of Mathews and Bettles Rivers and 30 miles WNW of Chandalar, Brooks, Range. 67° 37' 00" N, 149° 35.30" W; (map 123). Name reported about 1930 by Robert Marshall (1956, map).

Wien Lake: lake, 4.5 miles long, 22 miles SE of Bitzstini Mountains, Kilbuck-Kuskokwim Mountains; 64° 21' N, 151° 18' W; (map 99). Locally named for "Sig or Noel Wien who once landed here with a float plane"; reported in 1952 by USGS.

Wien Mountain: mountain, 6,000 ft., 2 miles NE of Mount Doonerak and 37 miles NW of Wiseman, Brooks Range; 67° 55' N, 150° 32' W; BGN 1932; (map 124). Named about 1930 by Robert Marshall "after Noel Wien, first aviator to land in the Koyukuk and to fly over this peak."

Wiener Lake: lake, 2,100 ft. long, on Glenn Highway 34 miles NE of Palmer, Talkeetna Mountains; 61° 48' 40" N, 148° 10' 00" W; (map 69). Local name reported in 1948 by USGS.

Wigand Creek: stream, heads in Wyoming Hills, in Mount McKinley National Park, flows N 17 miles to Toklat River W of junction of its East Fork, Alaska Range; 63° 54' N, 150° 09' W; (map 88). Name shown on a 1922 blueprint map of "Mount McKinley National Park" by Woodbury Abbey, U.S. Army Corps of Engineers.

Wiggle Creek: stream, heads in lake, flows S 9 miles to Talkeetna River, 1.4 miles N of Talkeetna, Cook Inlet Lowland; 62° 20' 45" N, 150° 06' 30" W; (map 81). Name published in 1918 on a plat by GLO (BLM).

Wiggly Creek: stream, on Alaska Peninsula, meandering WNW 7 miles to Upper Cinder River, 26 miles NW of Cape Kunmik, Aleutian Range; 56° 59' N, 157° 46' W; (map 31). So named in 1923 by R. H. Sargent, USGS, "because of its [wiggly] meanders."

Wigwam Creek: stream, flows E 3 miles to Columbia Creek, 5.6 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 52' 40" N, 147° 32' 45" W; (map 100). Local name reported in 1907 by C. C. Covert, USGS.

Wiki Peak: mountain, 7,655 ft., 5 miles N of Ptarmigan Lake and 67 miles NE of McCarthy, Alaska Range; 61° 56' 15" N, 141° 12' 30" W; (map 67). Local name published by USGS in 1954.

Wilber Creek: stream, flows NE 7 miles to Tolovana River, 7 miles SE of Livengood, Yukon-Tanana Highlands; 65° 27' 45" N, 148° 20' 45" W; (map 105). Variant: Wilbur Creek. Local name reported in 1915 as Wilbur Creek by USGS (Brooks and others, 1916, pl. 9). Local usage has changed the spelling to "Wilber."

Wilbur Creek: stream, see Wilber Creek.

Wilbur, Mount: mountain, 10,820 ft., in Fairweather Range, Glacier Bay National Monument, 1 mile W of Mount Orville and 80 miles NW of Hoonah, St. Elias Mountains; 58° 44' 25" N, 137° 19' 00" W; BGN 1962; (map 10). Name proposed to NPS by Senator Ernest Gruening in 1961 to honor Wilbur Wright, 1867-1912, who with his brother Orville, designed the first successful airplane. When published, this name was misapplied to a mountain 4.5 miles to the southeast.

Wilburs Place: locality, on right bank of Yukon River, 6.5 miles NW of Pitkas Point and 47 miles NW of Marshall, Yukon-Kuskokwim Delta; 62° 04' 55" N, 163° 28' 00" W; (map 77). Eskimo name obtained in 1952 by U.S. Army Corps of Engineers.

Wilby Island: island, 0.5 miles long, at S entrance to Port Chalmers, off W coast of Montague Island, 30 miles E of Chenega, Chugach Mountains; 60° 14' 30" N, 147° 13' 20" W; (map 63). Named in 1787 by Capt. Portlock (1789, p. 215), possibly for William Wilbye, assistant trader on Capt. Portlock's voyage.

Wild Creek: stream, heads in lake, flows S 8.5 miles to Ugak Bay, on E coast of Kodiak Island, 57° 30' 15" N, 152° 53' 40" W; BGN 1933; (map 34). Local name reported in 1933 by Gerald FitzGerald, USGS.

Wild Creek: stream, see Rainy Creek.

Wild Creek: stream, see Wild River.

Wild Goose Creek: stream, flows NW 1 mile to Port Clarence, 7 miles SW of Teller, Seward Peninsula Highlands; 65° 10' N, 166° 28' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Wild Goose Creek: stream, see Goose Creek.

Wild Lake: lake, 0.5 miles long, on Kenai Peninsula 1 mile N of Gene Lake and 35 miles NE of Kenai, Cook Inlet Lowland; 60° 51' 50" N, 150° 28' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Wild Lake: lake, 6 miles long, in course of Wild River, 40 miles W of Wiseman, Kanuti Flats; 67° 30' N, 151° 35' W; BGN 1932; (map 124). Local name reported in 1932 by Robert Marshall.

Wild Rice Lake: lake, 0.1 miles across, on W coast of Chichagof Island, N of Bertha Bay, 13.5 miles NW of Chichagof, Alexander Archipelago; 57° 48' 25" N, 136° 21' 00" W; (map 9). Local name published in 1928 by USC&GS.

Wild River: stream, heads in lake, flows S 60 miles from Tobin Mountain through Wild Lake to Koyukuk River, 6 miles NE of Bettles, Kanuti Flats; 66° 56' 30" N, 151° 30' 00" W; BGN 1906; (map 117). Variant: Hokatena, Hokotena River, Totsenbet, Totsenbetna, Totzunbetna, Totzunbitna, Wild Creek. This name, reported in 1899 by F. C. Schrader, USGS, appears to be a translation of Koyukan Indian name often spelled "Totsenbetna." In 1885, Lt. Allen (1887, p. 99), USA, obtained the Indian name, which he spelled "Totzunbitna." Wild River was the scene of a gold stampede in 1913-15 (Marshall, 1956, p. 117).

Wildcat Cove: bay, 1.5 miles wide, on E coast of Ragged Island, in Pye Islands; 48 miles E. of Seldovia, Chugach Mountains; 59° 25' N, 150° 22' W; BGN 1929; (map 50). Named in 1927 by USC&GS for the motor launch Wildcat, which was used in making the survey in this locality in 1927.

Wildcat Creek: stream, flows N 1.5 miles to Treasure Creek, 12 miles N of Fairbanks, Yukon-Tanana Highlands; 65° 01' 10" N, 147° 43' 25" W; (map 105). Named by prospectors; published in 1908 by USGS.

Wildcat Pass: water passage, 0.3 miles wide, between Ragged Island and Rabbit Island, in Pye Islands, 47 miles E of Seldovia, Chugach Mountains; 59° 23' 00" N, 150° 23' 30" W; BGN 1929; (map 50). Named in 1929 by USC&GS for the motor launch Wildcat, used during a survey in this vicinity in 1927.

Wilderness Lake: lake, 0.7 miles across, on Kenai Peninsula NW of King Lake, 36 miles NE of Kenai, Cook Inlet Lowland; 60° 49' 30" N, 150° 22' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Wildhorse Creek: stream, flows E 3 miles to left bank of Resurrection Creek, 1.5 miles S of Hope, Chugach Mountains; 60° 53' 45" N, 149° 38' 15" W; (map 63). Name published on 1952 USGS map.

Wildhorse Creek: stream, flows SE 6.5 miles to Bear Creek 1 mile E of its junction with Tokositna River and 33 miles NW of Talkeetna, Alaska Range; 62° 39' 35" N, 150° 50' 50" W; (map 81). Prospectors' name reported in 1906 by R. W. Porter, USGS.

Wildhorse Creek: stream, heads near E end of Sevenmile Lake, flows E 11 miles to Delta River, 17 miles NW of Paxson, Alaska Range; 63° 10' 50" N, 145° 56' 15" W, (map 86). Name shown on 1910 fieldsheet by C. E. Giffin, USGS.

Wiley Creek: stream, heads at glacier terminus and flows NW 4.5 miles to White River at Russell Glacier, 42 miles NE of McCarthy, St. Elias Mountains; 61° 04' N, 141° 37' W, (map 67). Local name reported in 1914 by C. E. Giffin (in Capps, 1916, pl. 1), USGS.

Wilhelmina Creek: stream, flows NE to Eagle Creek, 73 miles E of Bethel, Kilbuck-Kuskokwim Mountains; 60° 53' N, 159° 38' W; (map 59). Prospectors' name reported in 1914 by A. G. Maddren (in Brooks, 1915, pl. 11), USGS.

Wilkes Peak: mountain, 3,201 ft., in Wilkes Range, 19 miles SE of Petersburg, Coast Mountains; 56° 43' 45" N, 132° 28' 30" W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for Rear Adm. Charles Wilkes, USN.

Wilkes Range: mountain range, extends SE 6 miles from Wilkes Peak, at mouth of Stikine River 20 miles SE of Petersburg, Coast Mountains; 56° 43' N, 132° 26' W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for Rear Adm. Charles Wilkes, USN.

Wilkins Creek: stream, flows NW 5.4 miles to Maston Creek which flows to Crosby Creek, in Kugrupaga River basin, 6 miles SW of Ear Mountain and 40 miles N of Teller, Seward Peninsula Highlands; 65° 50' N, 166° 20' W; (map 111). Prospectors name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Wilkins Creek: stream, flows NW to Big Hurrah Creek near its head, about 9 miles NE of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name reported on a prospector's manuscript map dated 1902. This stream cannot be precisely located on current maps.

Willard Inlet: estuary, on mainland, extends N 14 miles off Fillmore Inlet, Coast Mountains; 54° 48' N, 130° 38' W; (map 24). Named in 1891 by USC&GS.

Willard Island: island, 4 miles long, in Blackstone Bay, 2 miles NE of terminus of Blackstone Glacier, 4 miles SE of Whittier, Chugach Mountains; 60° 42' N, 148° 38' W; (map 63). Named in 1909 by U. S. Grant and published by USGS (Grant and Higgins, 1910-11, p 402).

William Cove: cove, 0.7 miles across, faces NW to Little Sitkin Pass, between Northwest Head and Finger Point, on NW coast of Little Sitkin Island, Aleutian Islands; 51° 58' 45" N, 178° 27' 30" E; (map 15). Variant: Northwest Cove. Reported by Snyder (1959, pl. 23), USGS.

William Creek: stream, flows E 6 miles to Notch Creek, 10 miles N of Euchre Mountain, Wrangell Mountains; 62° 12' N, 142° 21' W; (map 84). Local name reported in 1959 by USGS.

William Henry Bay: bay, 1 mile long, on W shore of Lynn Canal, 2 miles NW of Danger Point and 41 miles NW of Juneau, St. Elias Mountains; 58° 43' 30" N, 135° 13' 30" W; (map 11). Name obtained in 1869 by Comdr. Richard W. Meade, USN, from the Hudson Bay traders. The name was published in 1883 Coast Pilot (p. 195).

William Smith River: stream, see Smith River.

William, Port: bay, 0.2 miles across, on S coast of Shuyak Island, 40 miles N of Kodiak Island; 58° 29' 20" N, 152° 35' 00" W; (map 43). Local name published by USC&GS in the 1920's.

Williams Cove: cove, 1 mile across, on W shore of Tracy Arm, 4 miles N of Holkham Bay, 39 miles SW of Juneau, Coast Mountains; 54° 51' 15" N, 133° 37' 00" W; BGN 1964; (map 8). Named by Maxine Williams for her husband, Valta F. Williams, 1907-62, who guided hunters in this area and who organized the first Guides Association of Southeast Alaska. He lived in Alaska for almost 30 years and was an outdoorsman, hunter, fisherman, and guide.

Williams Creek: stream, tributary of Tanis River, flows SE 8 miles to Alsek River, 0.8 miles N of Dry Bay and 48 miles SE of Yakutat, Malaspina Coastal Plain; 59° 10' 20" N, 138° 34' 40" W; BGN 1962; (map 46). Variant: Gines Creek. Feature named for deceased pioneer resident; name used locally for over 40 years.

Williams Creek: stream, flows E 3 miles to Iliamna Bay, 24 miles NW of Augustine Island, Aleutian Range; 59° 41' N, 153° 38' W; (map 51). Local name published in 1958 by USGS.

Williams Creek: stream, flows NE 4 miles to Salcha River, 24 miles W of Twin Mountain and 52 miles S of Circle, Yukon-Tanana Highlands; 65° 05' N, 144° 08' W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Williams Creek: stream, see Lucky Dog Creek.

Williams Glacier: glacier, trends NW 1.2 miles, 4.5 miles E of College Point and 50 miles W of Valdez, Chugach Mountains; 61° 04' N, 147° 47' W; BGN 1910; (map 69). Name reported in 1908 by Grant and Higgins (1910, pl. 2), USGS. Named for Williams College, Williamstown, Mass., founded in 1785.

Williams Hill: mountain, 1,140 ft., 2.6 miles N of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 42' 10" N, 136° 06' 30" W; BGN 1939; (map 9). Named in 1939 by local inhabitants for D. J. Williams who died about 1935. Williams was manager of operations for the Hirst Chichagof Mine, and brought the mine into production.

Williams Island: island, see Grassy Island.

Williams Lake: lake, 0.2 miles long, 0.5 miles S of Addison Creek at its mouth, on Holtz Bay, Attu Island, Aleutian Islands; 52° 55' 00" N, 173° 08' 15" E; (map 13). Name shown on an

AMS map published in 1948, and given by the U.S. Army during World War II. The name is not used today.

Williams Lake: lake, 0.9 miles long, 6.1 miles N of village of Lake Minchumina, Tanana Lowland; 63° 58' 30" N, 152° 20' 00" W; (map 88). Local name reported in 1954 by USGS.

Williams Mountain: mountain, 3,336 ft., trends NW-SE 2 miles, E of Stephens Passage, 2.5 miles NE of Butler Peak and 15 miles SE of Juneau, Coast Mountains; 58° 09' 35" N, 134° 02' 55" W [NW end]; 58° 08' 16" N, 134° 00' 35" W [SE end]; BGN 1966; (map 11). Variant: Williams Peak. Named in 1966 by USFS for Jason P. Williams, 1878-1954, who spent many years engaged in forest research in the area.

Williams Peak: mountain, see Williams Mountain.

Williams Reef: reef, extends 0.4 miles in Gulf of Alaska, 4 miles NE of Long Island, NE of Kodiak Island; 57° 49' 55" N, 152° 10' 15" W; BGN 1907; (map 34). Variant: Podvodnaya banka Vasyleva, Vasilief Reef, Wasilieff Reef. Local name given by USC&GS in 1907. Identified as "Podvodnaya banka Vasyleva", meaning "the submerged Vasiliev bank", and published by Lt. Sarichev (1826, map 16).

Williams Slough: stream, flows NW 7.5 miles to Tanana River, 3 miles E of Harper Bend, and 35 miles NE of Bitzshini Mountains, Nowitna Lowland; 64° 56' N, 151° 31' W; (map 99). Riverboat pilots' name published on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" by the U.S. Dept. of Interior.

Williams, Lake: lake, 1,000 ft. across, on SE coast of Prince of Wales Island, between Paul Lake and Port Johnson, E of John Creek, Alexander Archipelago; 55° 08' 40" N, 132° 02' 40" W; (map 4). Local name reported in 1901 by Lt. Comdr. J. F. Moser, USN, of the USBF steamer Albatross.

Williams, Mount: mountain, 7,500 ft., 6 miles NW of Miles Lake and 40 miles NW of Katalla, Chugach Mountains; 60° 43' N, 144° 54' W; BGN 1930; (map 64). Named in 1910 by Lawrence Martin for Alfred Williams, assistant engineer of the Copper River and Northwestern Railroad at that time.

Williams, Point: point of land, see Craven, Point.

Williamsport: locality, in Chigmit Mountains, on W shore of Iliamna Bay, at mouth of Williams Creek, Aleutian Range; 59° 41' N, 153° 38' W; (map 51). Local name reported in 1957 by USGS.

Willibert, Mount: mountain, 6,782 ft., on Alaska-Canada boundary, 29 miles NW of Hyder, Coast Mountains; 56° 14' 40" N, 130° 28' 00" W; BGN 1927; (map 7). Named in 1927 for Willibert Simpson, Canadian IBC surveyor.

Willie Petes: locality, on Graveyard Point, 4 miles S of Bethel, Yukon-Kuskokwim Delta; 60° 44' 30" N, 161° 44' 00" W; (map 59). Eskimo camp reported in 1951 by USC&GS.

Willis Creek: stream, flows SW 3 miles to Feather River, 32 miles NW of Nome, Seward Peninsula Highlands; 64° 50' N, 166° 10' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Willis Creek: stream, flows SW 3.7 miles to Kuskokwim River, 5.4 miles NW of Red Devil and 11 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 48' 45" N, 157° 26' 00" W; (map 72). Local name obtained in 1952 by USGS.

Williwaw Cove: cove, 0.9 miles across, W of Patterson Point, Little Sitkin Island, Aleutian Islands; 51° 59' 10" N, 178° 29' 30" E; (map 15). Descriptive name given by personnel by the U.S.S. Oglala in 1935, "for a dangerous, downslope, gusty wind, common on Little Sitkin and other Aleutian Islands."

Williwaw Pass: pass, 550 ft., 0.7 miles SE of Lief Cove on west-central Kiska Island, Aleutian Islands; 51° 55' 40" N, 177° 20' 30" E; (map 14). One of many arbitrary names applied to features on Kiska Island by USAAF for tactical purposes during World War II.

Williwaw Point: point of land, in Kuliliak Bay, on S coast of Unalaska Island, Aleutian Islands; 53° 28' 00" N, 167° 01' 35" W; BGN 1939; (map 23). Variant: Sand Point. Descriptive name given by USC&GS in 1931 because of "the violent gusts of wind called williwaws which come up suddenly and then calm down."

Williwaw, Mount: mountain, 5,445 ft., near head of Ship Creek, 14 miles SE of Anchorage, Chugach Mountains; 61° 06' 15" N, 149° 30' 45" W; BGN 1964; (map 69). Named in 1963 by the Mountaineering Club of Alaska because "in May 1892 an infantry company from nearby Fort Richardson was caught in a williwaw on the near slopes of this mountain. Three soldiers died of exhaustion before they were rescued."

Willoughby Cove: cove, 1 mile across, on SE coast of Lemesurier Island, in South Passage, 3 miles S of Lemesurier Light and 25 miles NW of Hoonah, St. Elias Mountains; 58° 16' 20" N, 136° 03' 15" W; (map 10). Named by G. C. Hanus, USN, in 1880 for Richard S. Willoughby, "an Alaskan pioneer." The name was published by USC&GS in the 1883 Alaska Coast Pilot (p. 190). Willoughby came to Alaska about 1860 and is mentioned in Alexander Badlam's "Wonders of Alaska," (1890, p. 127-131), in which Badlam describes "Willoughby's Mirage" on Muir Glacier.

Willoughby Island: island, 3.8 miles long, in Glacier Bay, in Glacier Bay National Monument, 1.6 miles E of Finders Bay and 40 miles NW of Hoonah, St. Elias Mountains; 58° 35' N, 136° 07' W; (map 10). Named by U.S. Navy in 1880 for Richard G. Willoughby, "an Alaskan pioneer" (USC&GS, 1883, p. 189).

Willow Bay: bay, 5 miles across, on NE coast of Seward Peninsula, 10 miles E of Deering, Kotzebue-Kobuk Lowland; 66° 05' N, 162° 21' W; (map 113). Local name reported in 1955 by the U.S. Army Corps of Engineers; derived from Willow Creek.

Willow Bay: locality, on N coast of Seward Peninsula, on shore of Willow Bay, 10 miles E of Deering, Kotzebue-Kobuk Lowland; (map 113). Name of a former landing published in a 1921 Alaska Steamship Company folder. Recent maps show a site with ruins.

Willow Creek Ridge: ridge, see Rooftop Ridge.

Willow Creek: locality, 3.5 miles E of junction of Willow Creek and Iditarod River, 6.3 miles SW of Flat Kilbuck-Kuskokwim Mountains; 62° 22' N, 158° 04' W; (map 79). Mining camp established in 1908; name reported in 1910 by A. G. Maddren, USGS.

Willow Creek: settlement, camp for the Willow Creek Mine, on W bank of Willow Creek, 7.5 SE of Marshall, Nulato Hills; 61° 48' 30" N, 161° 54' 30" W; (map 73). This camp was established about 1916 when extensive mining operations began on the stream "Willow Creek."

Willow Creek: stream, 2.5 miles long, flows NE to Fork Creek, 14.5 NW of Heart Lake, 71 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 14' N, 160° 01' W; (map 59). Local name reported in 1955 by J. M. Hoare, USGS.

Willow Creek: stream, anabranch, heads at Camp Creek, flows SW 2.8 miles to Khotol River, 19 miles SE of Nulato, Koyukuk Lowland; 64° 28' N, 157° 50' W; (map 97). Variant: Yuquaqilokhna. Appears to be a translation of an Indian name; reported in 1935 by Frederica de Laguna, BAE.

Willow Creek: stream, flows 5 miles NW to Anaktuvuk River, 11 miles N of Table Top and 48 miles NE of Anaktuvuk Pass, Arctic Slope; 68° 47' N, 151° 06' W; (map 134). Named by USGS geologists about 1950. Schrader, USGS, originally applied the name to the Kanayut River in 1901.

Willow Creek: stream, flows E 2 miles to Solomon River, 12 miles NE of Solomon, Seward Peninsula Highlands; 64° 43' 30" N, 164° 19' 00" W; (map 95). Prospectors' name reported on a 1902 prospectors' manuscript map.

Willow Creek: stream, flows E 2.3 miles to Osborn Creek, 11 miles NE of Nome, Seward Peninsula Highlands; 64° 36' N, 165° 08' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Willow Creek: stream, flows N 0.8 miles to Cleary Creek, 17 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 04' N, 147° 27' W; (map 105). Named by prospectors; published in 1908 by USGS.

Willow Creek: stream, flows N 2.5 miles to Pilgrim River, 28 miles NW of Solomon, Seward Peninsula Highlands; 64° 55' 20" N, 164° 48' 50" W; (map 95). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Willow Creek: stream, flows N 3 miles to Nerelna Creek, 68 miles NE of Valdez, Chugach Mountains; 61° 24' 45" N, 144° 17' 25" W, (map 68). Local name published by USGS (Moffit, 1914, pl. 1).

Willow Creek: stream, flows N 5.5 miles to Clear River, W of Foggytop Mountain, 24 miles NW of Wiseman, Brooks Range; 67° 40' 30" N, 150° 42' 00" W; (map 124). Local descriptive name obtained in 1956 by USGS topographers.

Willow Creek: stream, flows NE 13 miles to Koyuk River, 8 miles SW of Haycock, Seward Peninsula Highlands; 65° 08' N, 161° 22' W; (map 109). Prospectors' name reported in 1909 by P. S. Smith, USGS.

Willow Creek: stream, flows NE 14 miles to Rock Creek, 14 miles NNE of Porcupine Dome and 40 miles SW of Circle, Yukon-Tanana Highlands; 65° 43' N, 145° 24' W; (map 104). Named by prospectors and reported in 1904 by D. C. Witherspoon, USGS.

Willow Creek: stream, flows NE 3 miles to South Fork Hess Creek, 9 miles NE of Livengood, Yukon-Tanana Highlands; 65° 38' N, 148° 26' W; (map 105). Named by prospectors; reported in 1915 by Brooks (Brooks and others, 1916, pl. 9), USGS.

Willow Creek: stream, flows NE 3.3 miles to Casadepaga River, 14 miles N of Solomon, Seward Peninsula Highlands; 64° 46' N, 164° 31' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Willow Creek: stream, flows NE 6.5 miles to Troublesome Creek, 16 miles E of Rampart, Yukon-Tanana Highlands; 65° 29' 20" N, 149° 38' 25" W; (map 105). Named by prospectors; reported in 1902 by Lt. H. Erickson, USA.

Willow Creek: stream, flows NE to West Creek which flows to Shovel Creek, E of Branch Creek, 8 miles NNW of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name reported on a prospector's manuscript map dated 1902. This stream cannot be precisely located on current maps.

Willow Creek: stream, flows NW 1 mile to Macklin Creek near its junction with Kougarok River, 8 miles SW of Midnight Mountain and 49 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 44' N, 164° 51' W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Willow Creek: stream, flows NW 1 mile to Solomon River between Quartz and Moran Creeks, about 6 miles NE of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name reported on prospector's manuscript map dated 1902. This stream cannot be precisely located on current maps.

Willow Creek: stream, flows NW 17 miles to Beaver Creek, 44 miles NE of Livengood, Yukon-Tanana Highlands; 65° 45' 30" N, 147° 10' 00" W; (map 105). Named by prospectors; and published in 1906 by USGS.

Willow Creek: stream, flows NW 2 miles to Tozer Creek which flows to Don River, 3.8 miles NW of Black Mountain and 22 miles NW of Teller, Seward Peninsula Highlands; 65° 31' N, 166° 47' W; (Map 111). Prospectors' name reported in 1918 by Steidtmann and Cathcart (1922, pl. 12), USGS.

Willow Creek: stream, flows NW 26 miles to Sevenmile Slough, 20 miles SW of Fairbanks, Tanana Lowland; 64° 40' N, 148° 14' W; (map 100). Local name shown on a manuscript railroad location map dated 1914.

Willow Creek: stream, flows NW 4 miles to Salcha River, 17 miles W of Twin Mountain and 52 miles S of Circle, Yukon-Tanana Highlands; 65° 05' N, 144° 02' W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Willow Creek: stream, flows S 0.4 miles to Valdez Creek, 67 miles SE of Healy, Alaska Range; 63° 10' 45" N, 147° 28' 20" W; (map 87). Local name reported in 1908 by Moffit (in Brooks, 1909, fig. 16), USGS.

Willow Creek: stream, flows S 2.5 miles to Crosby Creek which flows to Kugrupaga River, 4 miles S of Ear Mountain and 42 miles N of Teller, Seward Peninsula Highlands; 65° 52' N, 166° 16' W; (map 111). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Willow Creek: stream, flows S 2.5 miles to North Fork Moose Creek, 2 miles ENE of Wonder Lake, Alaska Range; 63° 32' 00" N, 150° 39' 25" W; BGN 1932; (map 88). Prospectors' name reported in 1905 by L. M. Prindle, USGS.

Willow Creek: stream, flows S 3 miles to Birch Creek, 6 miles S of Pinnell Mountain and 54 miles SW of Circle, Yukon-Tanana Highlands; 65° 24' 20" N, 145° 40' 00" W; (map 104). Prospectors' name reported in 1952 by USGS topographers.

Willow Creek: stream, flows S W 5 miles to Chatanika River, 16 miles N of Fairbanks, Yukon-Tanana Highlands; 65° 05' 05" N, 147° 45' 40" W; (map 105). Named by prospectors; published in 1908 by USGS.

Willow Creek: stream, flows S W 5 miles to Port Clarence, 5 miles SW of Teller, Seward Peninsula Highlands; 65° 12' N, 166° 28' W; (map 111). Local name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Willow Creek: stream, flows SE 1.2 miles to Nome River Valley, 15 miles N of Nome, Seward Peninsula Highlands; 64° 43' N, 165° 19' W; (map 94) Prospectors' name reported on a map by S. E. King dated 1900.

Willow Creek: stream, flows SE 1.5 miles to Ester Creek, 11 miles W of Fairbanks, Yukon-Tanana Highlands; 64° 50' 55" N, 148° 04' 45" W; (map 100). Local name reported in 1908 by A. H. Brooks, USGS.

Willow Creek: stream, flows SE 2 miles to Candle Creek, 9 miles SW of Candle and 34 miles NE of Imurak Lake, Seward Peninsula Highlands, 65° 48' N, 162° 05' W; (map 110). Prospectors' name reported in 1903 by D. C. Witherspoon (in Moffit, 1905, pl. 2), USGS.

Willow Creek: stream, flows SE 2 miles to Kotsina River, 2.4 miles W of Hubbard Peak and 76 miles NE of Valdez, Wrangell Mountains; 61° 42' 10" N, 144° 18' 15" W, (map 68). Local name reported in 1907 by USGS.

Willow Creek: stream, flows SE 2.2 miles to Burnt River which flows to Kugruk River, 21 miles NE of Imurak Lake, Seward Peninsula Highlands; 65° 52' N, 162° 48' W; (map 110). Prospectors' name reported in 1908 by F. F. Henshaw (in Brooks and others, 1909, fig. 21), USGS.

Willow Creek: stream, flows SE 3.5 miles to Penny River, 9 miles NW of Nome, Seward Peninsula Highlands; 64° 35' N, 165° 40' W; (map 94). Variant: Biggs Creek. Prospectors' name reported in 1899 by D. C. Witherspoon (in Schrader and Brooks, 1900, map 2), USGS. The 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee shows "Biggs" along the upper half of this stream.

Willow Creek: stream, flows SE 5.3 miles to Moore Creek, 30 miles NE of Flat and 54 miles SW of McGrath, Kilbuck-Kuskokwim, Mountains; 62° 36' 00" N, 157° 07' 40" W; (map 79). Prospectors' name reported in 1912 by H. M. Eakin, USGS.

Willow Creek: stream, flows SE 8 miles to Beaver Creek 8.4 miles W of its junction with Anvik River 28 miles NW of Anvik, Nulato Hills; 62° 52' 30" N; 160° 58' 30" W; (map 78). Local name obtained in 1952 by USGS.

Willow Creek: stream, flows SW 1.7 miles to Chisna River 3.5 miles NE of its junction with Chistochina River, 23 miles NE of Paxson Alaska Range; 63° 05' 30" N, 144° 47' 05" W, (map 86). Variant: Red Mountain Creek. Prospectors' name reported in 1903 by W. C. Mendenhall, USGS.

Willow Creek: stream, flows SW 2.3 miles to Basin Creek, 3.4 miles W of Long and 24 miles SW of Ruby, Kilbuck-Kuskokwim Mountains; 64° 24' N, 155° 37' W; BGN 1936; (map 98). Prospectors' name published by Mertie and Harrington (1924, p. 94), USGS.

Willow Creek: stream, flows SW 2.5 miles to Cripple River, 17 miles NW of Nome, Seward Peninsula Highlands; 64° 40' N, 165° 48' W; (map 94). Prospectors' name reported on a 1901 map of Cape Nome gold fields by David Fox, Jr.

Willow Creek: stream, flows SW 3 miles to Ungalik River, 4.2 miles NW of Christmas Mountain, Nulato Hills; 64° 35' N, 160° 41' W; (map 96). Local name published in 1943 by USC&GS.

Willow Creek: stream, flows SW 3.5 miles to Spruce Creek 8.4 miles SE of Marshall, Nulato Hills; 61° 46' 55" N, 161° 55' 30" W; (map 73). Prospectors' name reported in 1916 by Harrington (1918, map), USGS.

Willow Creek: stream, flows SW 5 miles to Koyukuk River, 2.5 miles N of Fry Island and 20 miles NNW of Hochandochtla Mountain, Kokrines-Hodzana Highlands; 65° 49' 20" N, 155° 00' 30" W; (map 107). Local name obtained in 1954 by USGS topographers.

Willow Creek: stream, flows SW 7 miles to Gold Creek, 58 miles SW of Eagle, Yukon-Tanana Highlands; 64° 10' 30" N, 142° 27' 40" W; (map 102). Named by prospectors and shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Willow Creek: stream, flows SW and NW 6.9 miles to Iditarod River, E of Swinging Dome, 8.4 miles SW of Flat and 52 miles NE of Holy Cross, Kilbuck-Kuskokwim Mountains; 62° 21' 40" N, 158° 10' 50" W; (map 79). Prospectors' name obtained in 1913 by Eakin (1914, pl. 1), USGS.

Willow Creek: stream, flows SW to Kougarok River, N of Arctic Creek, about 12 miles SW of Midnight Mountain and 46 miles W of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name reported on a precinct map of Seward Peninsula by Monroe and Hutchins. This stream cannot be precisely located on current maps.

Willow Creek: stream, flows W 3.5 miles to Eldorado River near its head, 25 miles NW of Solomon, Seward Peninsula Highlands; 64° 51' N, 164° 58' W; (map 95). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Willow Creek: stream, flows W 7 miles to George River, 28 miles SE of Flat, Kilbuck-Kuskokwim Mountains; 62° 21' N, 157° 12' W; (map 79). Local name obtained in 1952 by USGS topographers.

Willow Creek: stream, flows W 7 miles to Robert Creek, E of Horace Mountain, 18.5 miles NW of Chandalar, Brooks Range; 67° 40' N, 149° 03' W; (map 123). Variant: Sheep Creek. Local name reported in 1956 by T. E. Taylor, USGS.

Willow Creek: stream, heads in Dutch Hills, flows SE 3 miles to Cottonwood Creek 0.4 miles N of its junction with Peters Creek, and 27 miles NW of Talkeetna, Alaska Range; 62° 32' 50" N, 150° 49' 10" W; (map 81). Prospectors' name reported in 1906 by R. W. Porter, USGS.

Willow Creek: stream, heads in Horn Mountains, flows NE 3 miles to Crooked Creek, 12 miles NE of Tahnetta Pass and 63 miles SW of Gulkana, Talkeetna Mountains; 62° 02' 50" N, 147° 14' 00" W; (map 82). Local name published by Theodore Chapin (in Brooks and others, 1915, fig. 3), USGS.

Willow Creek: stream, heads in Mount McKinley National Park, flows N 3.7 miles to Moose Creek, 1.3 miles NNW of Wonder Lake, Alaska Range; 63° 31' 15" N, 150° 56' 25" W; (map 88). Prospectors' name shown on a 1905 manuscript map of "Kantishna Gold Fields" by A. Friedrich, prospector.

Willow Creek: stream, heads on Bald Mountain Ridge, flows W 34 miles to Susitna River, 5 miles NW of Willow and 40 miles NW of Anchorage, Cook Inlet Lowland; 61° 47' 00" N, 150° 09' 40" W; (map 70). Variant: Andrew River. Local name reported in 1906 by T. G. Gerdine and R. H. Sargent, USGS. This may be the same stream that Lt. H. G. Learnard, USA, of Capt. E. F. Glenn's party gave as the Andrew River, in 1898.

Willow Creek: stream, heads on N slope of Stuck Mountain, flows SE 10 miles to Tonsina River, 8 miles NE of Tonsina and 59 miles NE of Valdez, Chugach Mountains; 61° 42' 35" N, 144° 56' 50" W; (map 68). Local name published in 1950 by USGS.

Willow Creek: stream, in Nutzotin Mountains, flows NE 6 miles to Beaver Creek, 2.6 miles SE to Beaver Lake, Alaska Range; 62° 01' N, 141° 43' W; (map 84). Local name reported by Capps (1916, pl. 1), USGS.

Willow Creek: stream, on Kenai Peninsula, flows NW 1.5 miles to Resurrection Creek, 7 miles S of Hope and 33 miles W of Whittier, Chugach Mountains; 60° 48' 50" N, 149° 38' 45" W; (map 63). Local prospectors' name reported in 1904 by Moffit (1906, pl. 2), USGS.

Willow Creek: stream, on Seward Peninsula, flows NE 7.6 miles to Willow Bay, 10 miles SE of Deering, Kotzebue-Kobuk Lowland; 66° 02' N, 162° 21' W; (map 113). Prospectors' name reported in 1908 by F. F. Henshaw (in Brooks and others, 1909, fig. 21), USGS.

Willow Creek: stream, see Kanayut River.

Willow Creek: stream, see Little Willow Creek.

Willow Creek: stream, see Lower Willow Creek.

Willow Creek: stream, see Rock Creek.

Willow Creek: village, see Willow.

Willow Gulch: ravine, trends SW 0.7 miles to Casadepaga River, 2.7 miles SW of Casadepaga and 15 miles NE of Solomon, Seward Peninsula Highlands; 64° 47' N, 164° 26' W; (map 95). Prospectors' name reported in 1907 by USGS geologists (Smith, P. S., 1910, pl. 4).

Willow House: locality, on right bank of Christian River, 35 miles N of Christian, Brooks Range; 67° 53' N, 145° 17' W; (map 122). Local name reported in 1956 by T. E. Taylor, USGS.

Willow Island: island, 0.8 miles across, in Yukon River, S of Blade Island and 22 miles S of Marshall, Yukon-Kuskokwim Delta; 61° 34' N, 161° 59' W; (map 73). Riverboat pilots' name shown on a 1916 field sheet by R. H. Sargent, USGS.

Willow Island: islands, see Willow Islands.

Willow Islands: islands, 0.4 miles across, at mouth of Unuk River and head of Burroughs Bay, Coast Mountains; 56° 04' 20" N, 131° 05' 00" W; (map 7). Variant: Willow Island. Named in 1889 by USC&GS. This name was applied to one of the islands by Baker (1906, p. 676).

Willow Lake: lake, 0.4 miles long, on Kenai Peninsula, 0.4 miles S. of Kayak Lake, 27 miles NE of Kenai, Cook Inlet Lowland; 60° 44' 25" N, 150° 35' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range for administrative purposes.

Willow Lake: lake, 0.7 miles long, 13 miles NE of Chalkyitsik, Yukon Flats; 66° 50' N, 143° 34' W; (map 120). Local name obtained in 1956 by T. E. Taylor and R. C. Foley, USGS.

Willow Lake: lake, 0.7 miles long, W of Alaska Highway, 19 miles SE of Tok, Alaska Range; 63° 14' N, 142° 23' W; (map 85). Local name published in 1964 by USGS.

Willow Lake: lake, 0.9 miles long, 1.6 miles S of Beaver Creek and 19 miles SE of Beaver, Yukon Flats; 66° 12' N, 146° 49' W; (map 119). Local descriptive name obtained in 1956 by USGS.

Willow Lake: lake, 0.9 miles long, W of Willow, 36 miles N of Anchorage, Cook Inlet Lowland; 61° 44' 40" N, 150° 03' 30" W; (map 70). Local name reported in 1958 by USGS.

Willow Lake: lake, 1.7 miles long, 1 mile NE of Willow Mountain and 58 miles NE of Valdez, Chugach Mountains; 61° 47' N, 145° 10' W; BGN 1932; (map 68). Local name reported in 1932 by C. F. Feuchsel, USGS.

Willow Mountain: mountain, 2,033 ft., between Lake and Yenlo Creeks, 34 miles SW of Talkeetna, Alaska Range; 62° 12' 45" N, 151° 08' 45" W; (map 81). Local name reported in 1906 by R. W. Porter, USGS.

Willow Mountain: mountain, 3,300 ft., 3.2 miles SE of Stuck Mountain and 57 miles NE of Valdez, Chugach Mountains; 61° 46' 20" N, 145° 12' 10" W; (map 68). Local name published in 1950 by USGS.

Willow Point: point of land, on N end of island in Yukon River, 27 miles SW of Fort Yukon, Yukon Flats; 66° 32' 00" N, 146° 14' 30" W; (map 119). Local descriptive name obtained in 1956 by USGS.

Willow Point: point of land, see Talnik Point.

Willow Station: village, see Willow.

Willow: village, pop. 78, miles 185.7 on The Alaska Railroad, 37 miles N of Anchorage Cook Inlet Lowland; 61° 44' 45" N, 150° 02' 30" W; BGN 1965; (map 70). Variant: Willow Creek, Willow Station. Name of a village along The Alaska Railroad that had its start when gold was discovered in the area about 1897. The name appears on an Alaska Railroad Commission map dated 1923. A post office was established here in 1948 (Ricks, 1965, p. 71).

Willows, Valley of the: valley, extending 3 miles, near head of Ikpikpuk River, Arctic Slope; 69° 26' N, 154° 48' W; (map 142). This originated as a locality name used by geologists on the Naval Petroleum Reserve No. 4 exploration in the 1940's. It is near here that Ens. W. L. Howard noted "at this place the last green brush was seen ten to twelve feet high" (Stoney, 1900, p. 72).

Willson Creek: stream, see Wilson Creek.

Wilson Arm: estuary, heads at Wilson River, extends SW 6.3 miles, joins Bakewell Arm to form Smeaton Bay, Coast Mountains; 55° 19' N, 130° 42' W; (map 3). Local navigators' name obtained in 1904 by H. C. Fassett, USBF.

Wilson Bay: cove, 0.1 miles across, on NW coast of Latouche Island, 19 miles SE of Chenega, Chugach Mountains; 60° 02' 20" N, 147° 54' 50" W; (map 63). Named for a "local miner"; reported in 1908 by U. S. Grant and D. F. Higgins (in Brooks and others, 1909, pl. 4), USGS.

Wilson Creek Slough: stream, channel of Yukon River, extends 8 miles between Ingrihak and Marshall, E of Arbor Island, Yukon-Kuskokwim Delta; 61° 49' N, 162° 03' W; (map 74). Local name published in 1962 by USGS.

Wilson Creek: stream, flows NE 2.5 miles to Eva Creek, 37 miles SE of Nenana, Alaska Range, 64° 03' N, 148° 49' W; (map 100). Local name reported in 1916 by G. C. Martin, USGS.

Wilson Creek: stream, flows NE 3 miles to Mosquito Fork, 55 miles SW of Eagle, Yukon-Tanana Highlands; 64° 04' N, 141° 59' W; (map 102). Prospectors' name shown on a 1902 manuscript map by E. J. Chamberlain, U.S. Deputy Surveyor.

Wilson Creek: stream, flows NE 6 miles to North Fork Fortymile River, 42 miles SW of Eagle, Yukon-Tanana Highlands; 64° 16' 20" N, 141° 54' 10" W; (map 102). Prospectors' name obtained in 1898 by E. C. Barnard, USGS.

Wilson Creek: stream, flows NW 10 miles to Kiwalik River, 19 miles NW of Haycock, Seward Peninsula Highlands; 65° 26' N, 161° 32' W; (map 109). Local name reported in 1917 by G. L. Harrington, USGS.

Wilson Creek: stream, flows NW 2.5 miles to Mastodon Creek, 18 miles NW of Ophir and 47 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 20' 50" N, 156° 51' 40" W, (map 90). Prospectors' name obtained in 1933 by J. B. Mertie, Jr. (in Smith, P. S., 1936, pl. 4) USGS.

Wilson Creek: stream, flows S 6.5 miles from Rosie Creek Pass to South Fork Koyukuk River, 24 miles S of Wiseman, Brooks Range; 67° 03' 50" N, 150° 10' 00" W; (map 124). Local name shown on an 1899 fieldsheet by T. G. Gerdine, USGS.

Wilson Creek: stream, flows SE 2.5 miles to Lower Willow Creek which flows to Casadepaga River, 18 miles N of Solomon; 64° 48' N, 164° 28' W; (map 95). Variant: Willson Creek. Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Wilson Creek: stream, flows SE 3 miles to South Fork Hess Creek, 10 miles NE of Livengood, Yukon-Tanana Highlands; 65° 38' 40" N, 148° 24' 30" W; (map 105). Named by prospectors; reported in 1916 by J. B. Mertie, (in Brooks and others, 1918, pl. 13), USGS.

Wilson Creek: stream, flows W 2.5 miles to American River, 28 miles NE of Teller, Seward Peninsula Highlands; 65° 33' N, 165° 40' W; (map 111). Prospectors' name reported on a map of Cape Nome goldfields by David Fox, Jr., dated 1901.

Wilson Creek: stream, heads near Disappointment Mine, flows W. 8 miles to Wilson Creek Slough, 1.3 miles S of Marshall, Yukon-Kuskokwim Delta; 61° 51' 50" N, 162° 03' 20" W; (map 74). Miners' name published by Harrington (1918, p. 56), USGS. Named for Woodrow Wilson, 1856-1913, 28th President of the United States, 1913-1921 (Stuck, 1917, p. 197). See Marshall Village.

Wilson Creek: stream, N of Switchback Mountain, flows SE 7 miles, joins Golden Creek to form Illinois Creek, 17 miles NE of Birches, Kokrines-Hodzana Highlands; 65° 17' 10" N, 153° 07' 00" W; (map 107) Prospectors' name reported by USGS in the 1940's, but probably was used much earlier.

Wilson Creek: stream, on Kenai Peninsula, flows W 2 miles to Canyon Creek near Saxton, 13 miles S of Sunrise and 27 miles SW of Whittier, Chugach Mountains; 60° 42' 05" N, 149° 27' 35" W; (map 63). Local prospectors' name reported about 1914 by B. L. Johnson (in Martin and others, 1915, pl. 2), USGS.

Wilson Creek: stream, see Alameda Creek.

Wilson Creek: stream, see Chavolda Creek.

Wilson Creek: stream, see Deer Creek.

Wilson Gulch: ravine, trends W 0.8 miles to Cache Creek, 30 miles NW of Talkeetna, Alaska Range; 62° 29' 20" N, 150° 59' 20" W; (map 81). Local name reported in 1958 by USGS.

Wilson Islands: islands, 0.4 miles long, off SE coast of Mitkof Island, 10 miles NW of Wrangell, Alexander Archipelago; 56° 33' N, 132° 36' W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for charting purposes; name published in 1888 on USC&GS Chart 705.

Wilson Lake: lake, 2 miles across, cutoff meander on E bank of Kuskokwim River, 12 miles SW of McGrath, Kuskokwim Lowland; 62° 46' 30" N, 155° 40' 30" W; (map 80). Local name obtained in 1954 by USGS.

Wilson Lake: lake, 5 miles long, on mainland, drained by Wilson River into Wilson Arm, Coast Mountains; 55° 31' N, 130° 33' W; (map 3). Local name reported in 1955 by USGS.

Wilson River: stream, heads in Adam Mountains, flows SW 25 miles through Wilson Lake to Wilson Arm, Coast Mountains; 55° 23' 45" N, 130° 36' 28" W; (map 3). Local name reported in 1955 by USGS.

Wilson River: stream, heads on W shore of Snowy Lake, flows NW 1.5 miles through Lake Hayden to Wilson Bay, on Latouche Island, 18 miles SE of Chenega, Chugach Mountains, 60° 02' 20" N, 147° 54' 33" W; (map 63). Name published on 1951 USGS map; derived from Wilson Bay.

Wilson, Mount: mountain, 7,390 ft., in Tongass National Forest, 4 miles SE of Mount John Jay, Coast Mountains; 56° 05' 47" N, 130° 21' 45" W; BGN 1960; (map 7). Named by R. E. Isto, USGS, for Roland M. Wilson, 1891-1959, USGS topographic engineer who mapped this area in 1924.

Wilson, Point: point of land, at S point of entrance to Wilson Cove, on S coast of Admiralty Island, 9 miles NE of Baranof, Alexander Archipelago; 57° 08' 05" N, 134° 38' 00" W; (map 9). Name published in 1899 by USC&GS on Chart 8050.

Wilson: locality, on E bank of Kuskokwim River, 0.6 miles N of Wilson Lakes and 11 miles SW of McGrath, Kuskokwim Lowland; 62° 47' 45" N, 155° 42' 15" W; (map 80). Name shown on a 1923 ARC map.

Wimbledon, Point: point of land, on N shore of North Inian Pass, in Glacier Bay National Monument, 3 miles SW of Dundas Bay, 36 miles NW of Hoonah, St. Elias Mountains, 58° 18' 00" N 136° 22' 30" W; (map 10). Variant: Point Wimbledon. Named by Capt. George Vancouver, RN, in 1794 for Wimbledon, one of the seats of the Spencer family in England (Wagner 1937, p. 422). Some charts erroneously call it "Winbledon." Wimbledon is a suburb of London and is now the headquarters of tennis in England.

Winbledon, Point: point of land, see Wimbledon, Point.

Wind Creek: stream, flows SE 6 miles to Kinegnak River, 4 miles SE of Susie Mountain and 30 miles NE of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 56' N, 161° 32' W; BGN 1938; (map 39) Local name reported in 1938 by J. B. Mertie, Jr., and Gerald FitzGerald, USGS.

Wind Creek: stream, on Alaska Peninsula, flows S 3 miles to Rainbow Creek, 7 miles SE of Vent Mountain in Aniakchak Crater, Aleutian Range; 56° 47' N, 158° 05' W; (map 30). Name reported in 1923 by R. H. Sargent, USGS; published in 1927 by USGS.

Wind Point: point of land, on W shore of Thomas Bay, 2 miles NW of Ruth Island and 96 miles E of Sitka, Coast Mountains; 57° 02' 45" N, 132° 51' 50" W, (map 8). Named in 1887 by Lt. Comdr. C. M. Thomas, USN; name published in 1888 by USC&GS.

Wind River: stream, heads at 68° 34' N, 147° 18' W, flows SE 80 miles to East Fork Chandalar River 39 miles NW of Christian, Brooks Range; 67° 47' N, 146° 09' W; (map 122). Local name reported in 1927 by J. B. Mertie, USGS.

Wind River: stream, heads at Lake Kulik, flows SE 2 miles to Mikchalk Lake, 53 miles NW of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 45' N, 158° 53' W; BGN 1931; (map 52). Variant: Gui-guok-lok. Local name obtained in 1930 from F. H. Waskey and Beverley Polley, local inhabitants, by Gerald FitzGerald, USGS. The Eskimo name "Gui-guok-lok" was recorded on a 1910 manuscript map by H. C. Fassett, USBF.

Windbound Bay: bay, 0.8 miles across, on W shore of Stepovak Bay, near SW end of Alaska Peninsula, Aleutian Range; 55° 40' N, 160° 10' W (map 28). Local name published by USC&GS in 1916 Coast Pilot (p. 165).

Windfall Creek: stream, flows NW 4.5 miles to Herbert River, 2 miles SW of terminus of Herbert Glacier and 20 miles NW of Juneau, Coast Mountains; 58° 30' 55" N, 134° 44' 30" W; (map 11). Prospectors' name found in mining records of 1891. "Windfall" was a name frequently used by early miners for creeks in this part of the country (DeArmond, 1957, p. 48).

Windfall Creek: stream, see Pirate Creek.

Windfall Harbor: bay, 2 miles across, on W side of Seymour Canal, on E coast of Admiralty Island, 28 miles NNE of Angoon, Alexander Archipelago; 57° 52' N, 134° 17' W; (map 9). Named in 1889 by Lt. Comdr. H. B. Mansfield, USN; published by USC&GS in the 1891 Coast Pilot (p. 145).

Windfall Harbor: estuary, extends SW 2 miles off Clarence Strait, near head of Kasaan Peninsula, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 36' N, 132° 20' W; (map 4). Named by local fishermen and reported in 1904 by H. C. Fassett, USBF.

Windfall Island: island, 1 mile long, in mouth of Windfall Harbor, on coast of Admiralty Island, 29 miles NNE of Angoon, Alexander Archipelago; 57° 53' 30" N, 134° 15' 30" W; (map 9). Named in 1889 by Lt. Comdr. H. B. Mansfield, USN; published by USC&GS in the 1891 Coast Pilot (p. 145).

Windfall Islands: islands, 1.5 miles long, at S point of entrance to Tebenkof Bay, on W coast of Kuiu Island, Alexander Archipelago; 56° 27' 30" N, 134° 14' 00" W; BGN 1929; (map 5). Local name reported in 1928 by USC&GS.

Windfall Lake: lake, 0.8 miles long, on Windfall Creek, 2 miles S of terminus of Herbert Glacier and 18 miles NW of Juneau, Coast Mountains; 58° 30' 40" N, 134° 44' 00" W; (map 11). Name derived from Windfall Creek, which drains it, and first mentioned in mining records in 1894 (DeArmond, 1957, p. 47-48).

Windfall Mountain: mountain, 2,581 ft., on E bank of Yukon River, 20 miles N of Eagle, Porcupine Plateau; 65° 02' 40" N, 141° 16' 10" W; (map 103). So named in 1930 by J. B. Mertie, Jr., USGS, because of the heavy fall of burned trees found on its slopes.

Windham Bay: estuary, extends SW 8 miles from Windham to Stephens Passage, 14 miles S of Holkham Bay and 61 miles SE of Juneau, Coast Mountains; 57° 33' 30" N, 133° 31' 30" W; (map 8). Name derived from Point Windham by W. H. Dall, USC&GS, published in the 1883 Coast Pilot (p. 129).

Windham, Point: point of land, on E shore of Stephens Passage, at mouth of Windham Bay, 4 miles N of Sunset Island and 60 miles SSE of Juneau, Coast Mountains; 57° 33' 40" N, 133° 34' 00" W; (map 8). Variant: Mys Uindkhem. Named by Capt. George Vancouver, RN, after its discovery by Lt. Joseph Whidbey on Aug. 13, 1794, probably for William Windham, 1750-1810, English statesman (Wagner, 1937, p. 422). Windham served as English Secretary of War 1792-1801, and Secretary of State for War and Colonies, 1806-07. This name was published in 1848 as "Mys Uindkhem," that is, "Uindkhem Cape," by the Russian Hydrog. Dept. on Chart 1396.

Windham: locality, pop. 20 (1940), at head of Windham Bay, 4 miles E of The Narrows and 63 miles SE of Juneau, Coast Mountains; 57° 35' 50" N, 133° 20' 45" W; (map 8). Site of a gold-mining camp built about 1900, when mining operations along Spruce Creek were expanded. Here a post office was maintained from 1903 to 1956 (Ricks, 1965, P. 71).

Winding Creek: stream, flows NW 12 miles to Bering Sea, 2 miles S of Oksenof Point, on NW coast of Unimak Island, Aleutian Islands; 54° 51' N, 164° 33' W; BGN 1942; (map 24). Variant: Snake River. This stream was originally called Snake River by the 1939 USC&GS field party because " * * * this river is very crooked." The name, however, was changed the following year to Winding Creek, thought to be more appropriate " * * * since the stream is small to be called a river and the name snake might be thought to indicate the presence of many reptiles in it."

Winding Creek: stream, flows SW 1.5 miles, from Glenn Highway to Matanuska River, 37 miles NE of Palmer, Talkeetna Mountains; 61° 46' 50" N, 148° 03' 30" W; (map 69). Descriptive name reported on 1913 USGS manuscript map.

Windmill Lake: lake, 1 mile long, in swamp, 26 miles NE of Ruby, Nowitna Lowland; 64° 49' N, 154° 34' W; (map 98). Local name obtained in 1956 by Orth.

Windom Glacier: glacier, see Norris Glacier.

Windy Arm: locality, at S end of valley between Twelvemile and Cathedral Mountains, on Middle Fork Koyukok River, 2.5 miles N of mouth of Chapman Creek and 21 miles S of Wiseman, Brooks Range; 67° 07' 30" N, 150° 26' 00" W; (map 124). Local name reported in 1930 by Marshall (1956, p. 81).

Windy Bay: bay, 1.5 miles wide, on S coast of Kenai Peninsula, Chugach Mountains; 59° 13' 30" N, 151° 27' 30" W; (map 50). Local name reported in 1909 by U. S. Grant and D. F. Higgins (in Brooks and others, 1910, pl. 3), USGS.

Windy Bay: bay, 2 miles long, W coast of Coronation Island, 55 miles NW of Craig, Alexander Archipelago; 55° 52' N, 134° 20' W; (map 4). Descriptive name published in 1916 by USC&GS.

Windy Bay: estuary, 1 mile wide, on NW coast of Hawkins Island, 9 miles W of Cordova, Chugach Mountains; 60° 34' N, 145° 58' W; (map 64). Named in 1900 by H. P. Ritter, USC&GS.

Windy Bay: estuary, on S shore of Alaska Peninsula, trends SE 4 miles to Kuiukta Bay, 16 miles SW of Chignik, Aleutian Range; 56° 06' N, 158° 39' W; (map 30). Local name published by USC&GS in 1916 Coast Pilot (p. 161). So named "because of the strong winds and 'williwaws' encountered there."

Windy Bend: bend, of Yukon River, W of Long Point, 9 miles NE of Stevens Village, Yukon Flats; 66° 05' N, 148° 49' W; (map 118). Local descriptive name obtained in 1956 by USGS.

Windy Camp: locality, 0.7 miles W of junction of Banner Creek and Nome River, 9 miles NNE of Nome, Seward Peninsula Highlands; 64° 38' N, 165° 19' W; (map 94). Site of a mining camp shown on the 1902 "Map of Nome and Snake River Country" by J. M. Davidson.

Windy Channel: water passage, see Windy Passage.

Windy Corner: pass, 13,150 ft., at S end of Wickersham Wall, on W slope of Mount McKinley, Alaska Range; 63° 04' N, 151° 06' W; (map 88). Mountain climbers' name published in 1954 by USGS.

Windy Cove: bay, 1.1 miles across, on N shore of Cape Romanzof, Yukon-Kuskokwim Delta; 61° 49' N, 166° 04' W; (map 75). Named by G. R. Putnam, USC&GS, in 1899, "because of its exposed position."

Windy Cove: bight, 2 miles wide, along S shore of Imuruk Basin, 25 miles SE of Teller, Seward Peninsula Highlands; 65° 04' N, 165° 42' W, (map 111). Variant: Graphite Bay. Local name reported about 1940 by USC&GS and published on Chart 9380. Shown as “Graphite Bay” by S. H. Cathcart (in Brooks and others, 1922, fig. 16), USGS.

Windy Cove: estuary, extends N 1.7 miles to Coco Harbor on E coast of Dall Island, 32 miles S of Craig, Alexander Archipelago; 55° 02' 15" N, 133° 01' 10" W; (map 4). Local name published in 1932 Coast Pilot (p. 192)

Windy Creek: locality, see Windy.

Windy Creek: stream, flows E 2 miles to Lynx Creek S of Lynx Dome, 25 miles WNW of Tanana, Kokrines-Hodzana Highlands, 65° 15' N, 152° 56' W; (map 106). Prospectors' name reported in 1956 by R. M. Chapman, USGS.

Windy Creek: stream, flows E 9 miles to Kougarok River 15 miles NW of its junction with Kuzitrin River and 45 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 28' N, 164° 42' W; (map 110). Prospectors' name reported in 1900 by Brooks (1901, pl. 11), USGS.

Windy Creek: stream, flows N 15 miles to Julius Creek, 20 miles S of Nenana, Tanana Lowland; 64° 17' N, 149° 03' W; (map 100). Variant: Chicken Creek. Local name reported in 1916 by G. C. Martin (in Brooks and others, 1918, pl. 17), USGS.

Windy Creek: stream, flows N to River Lethe at Three Forks, on Alaska Peninsula, in Katmai National Monument, 16 miles NW of Mount Katmai, Aleutian Range; 58° 22' 25" N, 155° 20' 05" W; (map 42). Descriptive name given in 1919 by R. F. Griggs, National Geographic Society.

Windy Creek: stream, flows NE 0.5 miles to Bullion Creek 1 mile W of its junction with Pargon River, 13 miles NE of Council and 24 miles SE of Mount Bendeleben, Seward Peninsula Highlands 65° 02' N, 163° 21' W; (map 110). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Windy Creek: stream, flows NE 3 miles to Right Fork Bluestone River, 11 miles SE of Teller, Seward Peninsula Highlands; 65° 06' N, 166° 20' W; (map 111). Local name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Windy Creek: stream, flows NW 1 mile to Fox River between Hugh Rowe and Sunrise Creeks, 21 miles NE of Solomon, Seward Peninsula Highlands; 64° 44' 45" N, 163° 52' 05" W; (map 95). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Windy Creek: stream, flows NW 4 miles to Tanana River, 7 miles E of Nenana, Tanana Lowland; 64° 34' N, 148° 51' W; (map 100). Local descriptive name published in 1916 on a GLO [BLM] survey Plateau

Windy Creek: stream, flows NW 7 miles to Budd Creek which flows to American River, 10 miles SW of Kougarok Mountain and 34 miles NE of Teller, Seward Peninsula Highlands,

65° 36' N, 165° 32' W BGN 1957; (map 111). Variant: Million Creek. Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Windy Creek: stream, flows NW to Candle Creek, about 14 miles SW of Candle and 30 miles NE of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name reported on a precinct map of Seward Peninsula by Monroe and Hutchins; corrected to June 1903 by Arthur Gibson. This stream cannot be precisely located on current maps.

Windy Creek: stream, flows S 2 miles to Stewart River, 21 miles N of Nome, Seward Peninsula Highlands; 64° 48' N, 165° 27' W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Windy Creek: stream, flows S 7 miles to Sinuk River, 26 miles N of Nome, Seward Peninsula Highlands; 64° 53' N, 165° 27' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Windy Creek: stream, flows SE 1.8 miles to O'Connor Creek, 8.5 miles NW of Fairbanks, Yukon-Tanana Highlands; 64° 56' 15" N, 147° 53' 30" W; (map 100). Local name published in 1908 by USGS.

Windy Creek: stream, flows SE 12 miles to Jack River, 32 miles S of Healy, Alaska Range; 65° 25' 45" N, 148° 52' 30" W; (map 87). Local name obtained in 1913 by J. W. Bagley, and published by Moffit (1915, pl. 1), USGS.

Windy Creek: stream, flows W 15 miles to Susitna River, 70 miles SE of Healy, Alaska Range; 63° 07' N, 147° 31' W; (map 87). Local name reported in 1910 by F. H. Moffit, USGS.

Windy Creek: stream, flows W 2 miles to Windy Bay, on Hawkins Island, 7 miles W of Cordova Chugach Mountains; 60° 33' 30" N, 145° 55' 30" W, (map 64). Name published in 1950 by USGS, derived from Windy Bay to which the stream flows.

Windy Creek: stream, heads in Beaver Mountains, flows W 24 miles to Dishna River, 35 miles NE of Flat, Kilbuck-Kuskokwim Mountains; 62° 54' 25" N, 157° 31' 00" W; (map 79). Local name obtained in 1952 by USGS topographers.

Windy Creek: stream, heads in Bendeleben Mountains, flows SW 10 miles to Telephone Creek which flows to Fish River, 33 miles SE of Imuruk Lake Seward Peninsula Highlands; 65° 07' N, 162° 54' W, (map 110). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Windy Creek: stream, heads in Peters Hills, flows W 4 miles to Cache Creek 31 miles NW of Talkeetna, Alaska Range; 62° 27' 25" N, 151° 01' 50" W; (map 81). Prospectors' name reported in 1906 by R. W. Porter, USGS.

Windy Creek: stream, in Rampart Mountains, heads on Senatis Mountain, flows S 4 miles to Yukon River, 25 miles ENE of Tanana, Kokrines-Hodzana Highlands; 65° 16' 00" N, 151° 14' 30" W; (map 106). Named in 1905 by ARC surveyors.

Windy Fork Middle Fork Kuskokwim River: stream, heads at glacier at 62° 00' N, 153° 58' W, flows NW 70 miles to Middle Fork Kuskokwim River 19 miles SE of its junction with Kuskokwim River and 34 miles SE of McGrath, Kuskokwim Lowland; 62° 45' 40" N, 154° 37' 50" W; (map 80). Local name reported in 1940 by USGS.

Windy Gap: pass, 1,900 ft., trends NW 0.5 miles from Fossil Creek, 5 miles NW of Cache Mountain, 32 miles E of Livengood, Yukon-Tanana Highlands; 65° 34' 30" N, 147° 27' 10" W; (map 105). Local name published by USGS in the 1950' 5.

Windy Lake: lake, 0.4 miles long, on Kenai Peninsula 4 miles W of Devils Bay in Tustumena Lake and 40 miles SE of Kenai, Cook Inlet Lowland; 60° 02' 45" N, 150° 48' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Windy Lake: lake, 0.7 miles long, in Mentasta Mountains, SE of Devils Mountain, Alaska Range; 62° 25' N, 142° 54' W; (map 84). Local name reported in 1960 by USGS.

Windy Lake: lake, 1.5 miles long, 19 miles S of Cape Sabine, 68 miles E of Point Hope, Arctic Slope; 68° 39' 50" N, 164° 16' 30" W; BGN 1965; (map 130). Named in 1965 by geologists of the B. P. Exploration Co. Inc.

Windy Pass: pass, see Middle Pass.

Windy Passage: water passage, 2 miles S of Goddard, between Gornoi Island and W coast of Baranof Island, Alexander Archipelago; 56° 48' N, 135° 21' W; (map 5). Variant: Audrey Passage, Dorothy Narrows, Windy Channel. Descriptive name given for charting purposes by USC&GS as "Windy Channel" in the 1925 Coast Pilot (p. 287) and in 1929 as "Windy Passage."

Windy Peak: mountain, 1,765 ft., on W coast of Coronation Island N of Windy Bay, 56 miles NW of Craig, Alexander Archipelago; 55° 53' 10" N, 134° 19' 15" W; BGN 1925; (map 4). Descriptive name derived from Windy Bay and given in 1925 by USC&GS.

Windy Point: point of land, on N coast of Kenai Peninsula, S shore of Turnagain Arm, 5.5 miles NW of Sunrise, Chugach Mountains; 60° 56' 15" N, 149° 34' 00" W; (map 63). Name published in 1943 by USC&GS.

Windy Point: point of land, on S coast of Alaska, extending W into Softuk Lagoon, 5 miles NW of Katalla, Malaspina Coastal Plain; 60° 13' 30" N, 144° 40' 00" W; (map 64). Local descriptive name published in 1950 by USGS.

Windy Point: point of land, on SE coast of Prince of Wales Island, 4.8 miles SE of Chasina Point, Alexander Archipelago, 55° 13' 00" N, 131° 58' 45" W; (map 3). Local name published in 1923 by USC&GS.

Windy River: stream, on Kenai Peninsula, flows N 3 miles then S 2.5 miles to Rocky River, 11 miles SE of Seldovia, Chugach Mountains; 59° 23' N, 151° 25' W; (map 50). Local name reported by A. C. Gill (in Martin and others, 1920, pl. 1), USGS.

Windy River: stream, see Rocky River.

Windy: locality, at junction of Bain Creek with Nenana River, 28 miles S of Healy, miles 326.7 on Alaska Railroad, Alaska Range; 63° 28' N, 148° 49' W; (map 87). Variant: Bain Creek, Windy Creek. Name of a railroad station reported by The Alaska Railroad on its 1922 timetable.

Winers Lake: lake, 0.8 miles long, in headwaters of Slate Creek, 12 miles S of Poss Mountain and 38 miles SW of Chandalar Brooks Range; 67° 15' N, 149° 47' W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Winfield Creek: stream, flows NW to Port Clarence, about 9 miles SW of Teller, Seward Peninsula Highlands; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson. This stream cannot be identified on current maps.

Winfred Island: island, 0.3 miles across, in Porcupine Islands, on W coast of Chichagof Island, 14 miles NW of Chichagof, Alexander Archipelago; 57° 48' N, 136° 23' W; (map 9). Name published in 1928 by USC&GS on Chart 8258.

Wingham Island: island, 4 miles long, at mouth of Controller Bay and 11 miles of SE of Katalla, Malaspina Coastal Plain; 60° 01' N, 144° 23' W; (map 64). Variant: Isla Dudosa, Little Kayak Island, Mitchells Island, Ostrov Shiganik, Ostrov Vinkhem. Named on June 13, 1794, by Peter Puget, RN, a member of Vancouver's expedition (Wagner, 1937, P. 422). It was called "Mitchells Island" in 1788 by Capt. John Meares, RN. The Eskimo name for this island, published by Capt. Tebenkov (1852, map 6) was "Os[trov] Shiganik," or "Shiganik Island." It was called "Isle Dudosa" July 16, 1791, by Capt. Alessandro Malaspina "which he thought might be connected to Kayak Island and hence a peninsula" (Wagner 1937, P 449). ,

Winnebago Creek: stream, see Winston Creek.

Winneham Creek: stream, see Winston Creek.

Winner Creek: stream, flows W 6.5 miles to Glacier Creek, 14 miles NE of Sunrise and 20 miles NW of Whittier, Chugach Mountains; 60° 59' 40" N, 149° 04' 30" W; (map 63). Local name published in 1898 by Mendenhall (1900, p. 279), USGS.

Winnie Creek: stream, flows E 7 miles to North Fork Koyukuk River, 3.5 miles NE of Florence Lake and 23.5 miles SW of Wiseman, Brooks Range; 67° 11' 45" N, 150° 48' 15" W; (map 124). Local name shown on an 1899 fieldsheet by T. G. Gerdine, USGS.

Winning Cove: cove, 0.2 miles across, along E shore of Glass Peninsula, on E coast of Admiralty Island, 30 miles NE of Angoon, Alexander Archipelago, 57° 51' 50" N, 134° 06' 30" W; (map 9). Local name reported in 1928 by H. E. Smith, USFS.

Winona Creek: stream, flows SW 2.8 miles to Skookum Creek in Noxapaga River basin, 32 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 33' N, 164° 17' W; BGN 19.52; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Winslow Island: island, see Wislow Island.

Winslow Point: point of land, see Giant Point.

Winslow, Cape: point of land, see Wislow Cape.

Winslow, Point: point of land, E point of entrance to Mary Island Anchorage, on N coast of Mary Island, Alexander Archipelago; 55° 06' 30" N, 131° 11' 25" W; (map 3). This name was originally applied about 1880 to Giant Point by local pilots; transferred in 1883 to above location by USC&GS.

Winstanley Creek: stream, flows NW through Winstanley Lakes 8 miles to Shoalwater Pass On E shore of Behm Canal, Coast Mountains, 55° 24' 28" N, 130° 52' 55" W; (map 3). Local name reported in 1955 by USGS.

Winstanley Island: island, 4.3 miles long, in Behm Canal, 2 miles NE of Smeaton Island, Coast Mountains. 55° 26' N, 130° 59' W; (map 3). Named in 1879 by W. H. Dall, USC&GS, for the English engineer who built the first Eddystone Lighthouse near Plymouth, England in 1696-1699, and who lost his life there in 1703; published in the 1883 Coast Pilot (p. 72)

Winstanley Lakes: lakes, two, extend 3.5 miles in course of Winstanley Creek, 1.5 miles E of Behm Canal, Coast Mountains; 55° 26' N, 130° 50' W; (map 3). Local name recorded in 1955 by USGS.

Winston Creek: stream, flows NE 1 mile to Solomon River, 11 miles NE of Solomon, Seward Peninsula Highlands; 64° 42' N, 164° 18' W; (map 95). Variant: Winnebago Creek, Winneham Creek. Prospectors' name published in 1956 by USGS. The name "Winnebago" was shown on a prospectors' manuscript map dated 1902, it was reported in 1905 as applying to this stream by T. G. Gerdine, USGS.

Winter Anchorage: bay, see Gibson Cove.

Winter Bay: bay, 1.8 miles across, on SW coast of Prince of Wales Island, N of Hessa Island, Alexander Archipelago; 54° 46' 00" N, 132° 20' 50"; (map 1). Local name reported in 1948 by USGS.

Winter Cove: cove, see Dark Cove.

Winter Creek: stream, flows NW 0.4 miles to Bluestone River, 13 miles SE of Teller, Seward Peninsula Highlands; 65° 06' N, 166° 12' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Winter Creek: stream, flows NW 3 miles to Bonanza Creek, 41 miles SE of Nenana, Alaska Range; 64° 01' N, 148° 41' W; (map 100). Local name reported by USGS (Capps, 1912, pl. 1).

Winter Creek: stream, flows SW 12 miles to Kaviruk River, 37 miles NE of Teller, Seward Peninsula Highlands; 65° 19' N, 165° 06' W, (map 111). Prospector's name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Winter Creek: stream, flows W 2.3 miles to Tolovana River, 9 miles SW of Livengood, Yukon-Tanana Highlands; 65° 24' 30" N, 148° 38' 00" W; (map 105) Local name published by USGS in the 1950's.

Winter Harbor: bay, 0.3 miles wide, near S entrance to Tuxekan Passage, W coast of Prince of Wales Island, Alexander Archipelago; 55° 46' 15" N, 133° 13' 45" W; (map 4). Local name published in 1964 by USC&GS.

Winter Harbor: bay, see Gibson Cove.

Winter Island: island, 900 ft. long, at head of Afognak Bay, 4.5 miles NNW of Afognak, Kodiak Island, 58° 04' 25" N, 152° 47' 00" W; (map 43). Name reported in 1900 by Lt. Comdr. J. F. Moser, USN, who made surveys and investigations in this area while commander of the USBF steamer Albatross from 1897 to 1901.

Winter Lake: lake, 0.6 miles long, on Attu Island, in course of Diehm Creek, Aleutian Islands; 52° 56' 00" N, 173° 00' 15" E; (map 13). Named by U.S. Army during World War II; (map published in 1948 by AMS.

Winthrop Point: bend, on left bank of Koyukuk River, 36 miles NW of Hochandochtla Mountain, Kokrines-Hodzana Highlands; 66° 00' N, 155° 30' W; (map 107). Named in 1899 by F. C. Schrader, USGS.

Wipple, Mount: mountain, see Whipple, Mount.

Wisconsin Inlet: estuary, see Wachusett Inlet.

Wiseman Creek: stream, flows E 12 miles to Middle Fork Koyukuk River at Wiseman, Brooks Range; 67° 24' 30" N, 150° 06' 00" W; (map 124). Local name shown on an 1899 fieldsheet by T. G. Gerdine, USGS.

Wiseman: village, pop. 12, on Middle Fork Koyukuk River, at junction of Wiseman Creek, Brooks Range; 67° 25' N, 150° 06' W; (map 124). Variant: Nolan, Wrights. In response to increased activity in mining on Nolan and Wiseman Creeks in 1911, the local population began to abandon Coldfoot, 10 miles to the south. Supplies were brought up the Middle Fork Koyukuk River to the site of "Wright's old roadhouse, named for B. E. Wright, keeper, at the mouth of Wiseman Creek" where a new town developed. It was first called "Wright's," after the roadhouse, then "Nolan," after the nearby gold-bearing creek, and finally "Wiseman," after the stream (Marshall, 1933, p. 42). A post office was established here in 1909 called "Nolan." The post office name was changed in 1923 to "Wiseman"; it was discontinued in 1956 (Ricks, 1965, p. 71).

Wishbone Hill: mountain, 2,333 ft., E of Moose Creek, 10 miles NE of Palmer, Cook Inlet Lowland; 61° 44' 10" N, 148° 57' 00" W; (map 69). Local name reported in 1910 by G. C. Martin (in Brooks and others, 1911, pl. 8), USGS. So named because of its shape.

Wishbone Lake: lake, 0.6 miles long, 9 miles NE of Palmer at head of Buffalo Creek, Cook Inlet Lowland; 61° 43' 40" N, 149° 01' 00" W; (map 69) Local name reported in 1915 by USGS; name derived from nearby Wishbone Hill.

Wislow Cape: point of land, on N coast of Unalaska Island, Aleutian Islands; 54° 50' 00" N, 166° 44' 45" W; BGN 1962; (map 46). Variant: Cape Winslow. Named in 1888 by USBF. It may be a possible error for "Winslow."

Wislow Island: island, 0.1 miles long, in Reese Bay, N coast of Unalaska Island, Aleutian Islands; 54° 00' 25" N, 166° 43' 03" W; BGN 1962. Variant: Winslow Island. Named in 1888 by USBF. It may be a possible error of "Winslow."

Witchcraft Point: point of land, 2 miles SW of West Kiska Lake, on NW coast of Kiska Island, Aleutian Islands; 52° 03' 10" N, 177° 30' 00" E; BGN 1937; (map 14). Named in 1936 by the U.S. Navy Hydrog. Office.

Witches Cauldron: valley, heads near Devils Thumb on Alaska-Canada boundary, extends NW 10 miles to Baird Glacier, 105 miles E of Sitka, Coast Mountains; 57° 10' N, 132° 34' W; BGN 1966; (map 8). Descriptive name given in 1965 by A. S. Post, USGS, who wrote "The confused moraines on the glaciers, the lack of surface drainage and the steep, gloomy canyon walls all heighten the feeling of foreboding. It is a sinister unworldly place."

Witherspoon, Mount: mountain, 12,012 ft., in Dora Keen Range, at head of Columbia Glacier, 36 miles NW of Valdez, Chugach Mountains; 61° 23' 45" N, 147° 11' 55" W; BGN 1928; (map 69) Named in 1928 by USGS for David C. Witherspoon, USGS topographer, "who at the time of his retirement in 1921 had mapped a greater area of Alaska than any other man."

Witness Rocks: rocks, in San Alberto Bay, NW of The Witnesses, 6 miles NW of Craig, Alexander Archipelago; 55° 33' 25" N, 133° 15' 15" W; (map 4) Local name published in 1914 by USC&GS.

Witnesses, The: islands, in San Alberto Bay, 5 miles W of Klawock and 7 miles NW of Craig, Alexander Archipelago; 55° 33' 10" N, 133° 13' 30" W; (map 4). Variant: Los Testigos. Translation of the name "Los Testigos" given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle.

Witshed, Point: point of land, see Whitshed, point.

Wloyukuk River: stream, see Holokuk River.

Wnderika Mountain: mountain, see Abercrombie Mountain.

Wodehouse Point: point of land, see Woodhouse, Point.

Woewodski Harbor: bight, 1.3 miles across, on SE coast of Admiralty Island between Liesnoi Island And Deepwater Point, Alexander Archipelago; 57° 10' N, 134° 14' W; (map 9). Variant: Gavan Vovodskago, Woewodsky Harbor. Named in 1838 by Capt. Lt. D. F. Zarembo for Stepan Vasilivich Woewodski, Director of the Russian American Colonies from 1854 to 1859; published in 1848 as "Gavan Vovodskago" meaning "Woewadski Harbor" on Russian Hydrog. Dept. Chart 1396.

Woewodski Island: island, 5 miles long, between Duncan Canal and Wrangell Narrows, 15 miles S of Petersburg, Alexander Archipelago; 56° 34' N, 133° 00' W; (map 6). Variant: Medviezhi, Ostrova, Voevodskago Island, Voyevodskago, Ostrova, Woewodsky Island, Bear Island. Published in 1848 on Russian Hydrog. Dept. Chart 1396 as "O[strov]a Voyevodskago." Named for Capt. Lt. Stepan Vasilivich Woewodski, chief director of the Russian American Colonies, 1854-59. In 1838 G. Lindenberg called part of the island "Medvezhiy," meaning "of the bear."

Woewodski Lake: lake, see Harvey Lake.

Woewodsky Harbor: bight, see Woewodski Harbor.

Woewodsky Island: island, see Woewodski Island.

Wohlschlag Slough: stream, see Central Marsh Slough

Wolasatux: village, on left bank of Yukon River, 7 miles S of Nulato, Nulato Hills; BGN 1932; (map 97). Variant: Wolasaluk, Wolsatux. Reported as "Wolsatux" in 1885 by Lt. H. T. Allen, USA. Wolasatux was a young man who escaped massacre at Nulato in 1851.

Wolcot Mountain: mountain, see Sheep Mountain.

Wolcot Mountain: mountain, see Wallcutt Mountain.

Wolcott Mountain: mountain, see Sheep Mountain.

Wolcott Reef: reef, 11 miles NE of Karluk, on W coast of Kodiak Island; 57° 40' 15" N, 154° 11' 45" W; (map 35). Local name published in 1943 by USC&GS.

Woleek River: stream, see Wulik River.

Wolf Creek Mountain: mountain, 2,455 ft., 37 miles N of Russian Mission and 51 miles W of Holy Cross, Nulato Hills, 62° 20' N, 161° 21' W; (map 78). Local name obtained in 1952 by USGS.

Wolf Creek: locality, on Wolf Creek, 24 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 04' N, 147° 21' W; (map 105). Local name of a temporary mining camp; published in 1916 in Polk's Gazetteer.

Wolf Creek: stream, flows E 18 miles to Mosquito Fork, 37 miles N of Tok, Yukon-Tanana Highlands; 63° 50' 50" N, 142° 58' 45" W; (map 85). Local name reported in 1907 by D. C. Witherspoon, USGS.

Wolf Creek: stream, flows N 12 miles to Birch Creek, 45 miles SW of Circle, Yukon-Tanana Highlands; 65° 18' 20" N, 145° 02' 00" W; (map 104). Named by prospectors and reported in 1905 by D. C. Witherspoon (in Prindle, 1906, pl. 1), USGS.

Wolf Creek: stream, flows N 18 miles to Herron River, 27 miles S of village of Lake Minchumina, Tanana Lowland; 63° 28' 15" N, 152° 20' 30" W; (map 88). Local name reported in 1954 by USGS.

Wolf Creek: stream, flows N 2.5 miles to Kukpuk River S of its junction with Kakpeyak River, 16 miles NE of Cape Thompson, Arctic Slope; 68° 14' 35" N, 165° 24' 40" W; BGN 1963; (map 129). Named in 1960 by Project Chariot personnel.

Wolf Creek: stream, flows NE 10 miles to Mission Creek, 3.5 miles NW of Eagle, Yukon-Tanana Highlands; 64° 49' N, 141° 19' W; (map 102). Named by prospectors and reported in 1896 by Spurr (1898, pl. 48), USGS.

Wolf Creek: stream, flows NW 2 miles to Cleary Creek, 19 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 05' 15" N, 147° 25' 00" W; (map 105). Named by prospectors: reported in 1903 by T. G. Gerdine (Prindle, 1905, pl. 13), USGS.

Wolf Creek: stream, flows NW 4.5 miles to East Fork Chena River, 13 miles ESE of Far Mountain and 65 miles SW of Circle, Yukon-Tanana Highlands; 65° 02' 45" N, 145° 20' 05" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Wolf Creek: stream, flows SW 3 miles to SE end of Big Lake 21 miles W of Chandalar, Brooks Range; 67° 29' 00" N, 149° 18' 30" W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Wolf Creek: stream, flows SW 4.5 miles to Moose Creek, 12 miles NE of Livengood, Yukon-Tanana Highlands; 65° 40' N, 148° 17' W; (map 105). Named by prospectors; reported in 1916 by J. B. Mertie (in Brooks and others, 1918, pl. 13), USGS.

Wolf Creek: stream, flows SW 6.5 miles from a lake to Tinayguk River, 7 miles NNE of Tobin Mountain and 48 miles NW of Wiseman, Brooks Range; 67° 44' 30" N, 151° 26' 30" W; BGN 1932; (map 124). Local name reported by Robert Marshall in 1932.

Wolf Creek: stream, heads at 69° 21' N, 153° 22' W, flows NW 75 miles and joins Key Creek to form Price River, 35 miles NE of head of Ikpikpuk River, Arctic Plain; 69° 44' 30" N, 153° 49' 30" W. BGN 1960; (map 142). Name proposed in 1951 by USGS for use in geologic mapping; named for the numerous wolves seen in this area.

Wolf Creek: stream, heads in Dutch Hills, flows SE 2 miles to Ramsdyke Creek, 30 miles NW of Talkeetna, Alaska Range. 62° 36' 38" N, 150° 48' 30" W; (map 81). Prospectors' name reported in 1906 by R. W. Porter, USGS.

Wolf Creek: stream, heads on Wolf Creek Mountain, flows S 7 miles to Tom Gray Creek 3.5 miles NE of its junction with Nageethluk River, 32 miles N of Russian Mission, Yukon-Kuskokwim Delta.; 62° 14' 45" N, 161° 25' 00" W; (map 78). Local name obtained in 1952 by USGS.

Wolf Creek: stream, heads on Wolf Mountain, flows NW 14 miles to Melozitna River, 30 miles NW of Birches, Kokrines-Hodzana Highlands; 65° 29' 35" N, 154° 09' 45" W; (map 107). Local name obtained in 1954 by USGS topographers.

Wolf Creek: stream, in Glacier Bay National Monument, flows NW 4 miles to tidal flat on Spokane Cove, Glacier Bay, 21 miles NW of Gustavus, St. Elias Mountains; 58° 42' 17" N, 135° 57' 06" W; BGN 1963; (map 11). Local name reported in 1961 by NPS.

Wolf Creek: stream, on Alaska Peninsula, flows NW 6 miles to Meshik River, 13 miles S of Vent Mountain in Aniakchak Crater, Bristol Bay Lowland; 56° 41' N, 158° 12' W; (map 30). Name reported in 1923 by R. H. Sargent, USGS; published in 1927 by USGS.

Wolf Creek: stream, on Kenai Peninsula flows SE 3.5 miles to Resurrection Creek, 7.5 miles S of Hope and 32 miles W of Whittier, Chugach Mountains; 60° 48' 15" N, 149° 39' 00" W; (map 63). Local prospectors' name reported in 1904 by Moffit (1906, pl. 2), USGS.

Wolf Island: island, see Kritskoi Island.

Wolf Island: islands, see Kudobin Islands.

Wolf Lake: lake, 0.6 miles long, in Matanuska Valley, 6 miles NW of Palmer, Cook Inlet Lowland; 61° 38' 40" N, 149° 16' 35" W; (map 69). Variant: Wolfe Lake. Local name reported in 1942 as Wolfe Lake by AMS.

Wolf Lake: lake, 0.7 miles long, on Kenai Peninsula NNE of the Finger Lakes 13 miles NE of Kenai, Cook Inlet Lowland; 60° 40' 00" N, 150° 54' 50" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Wolf Lake: lake, 0.8 miles long, on Prince of Wales Island, 2 miles W of entrance to Twelvemile Arm and 22 miles NE of Craig, Alexander Archipelago; 55° 32' N, 132° 36' W; BGN 1960; (map 4). Named in 1956 by C. L. Sainsbury, USGS, because of "the large number of wolves that live near the lake and prey upon the beaver in the numerous small ponds near Wolf Lake."

Wolf Lake: lake, 2.6 miles long, N of Tanana River, 7 miles NE of Tanacross, Yukon-Tanana Highlands; 63° 27' N, 143° 10' W; (map 85). Local name published by USGS in 1950.

Wolf Lake: lake, see Upper Wolf Lake.

Wolf Lakes: lakes, extend N-S 1.5 miles, between Beluga and Little Susitna Mountains, 38 miles N of Tyonek, Alaska Range; 61° 38' 15" N, 151° 05' 00" W; (map 70). Local name reported in 1954 by USGS.

Wolf Mountain: mountain, 1,565 ft., in Kuskokwim Mountains, 2.5 miles NE of Sugarloaf Mountain, 38 miles E of Flat, Kilbuck-Kuskokwim Mountains; 62° 33' 15" N, 156° 49' 30" W; (map 79). Local name obtained in 1952 by USGS topographers.

Wolf Mountain: mountain, 4,978 ft., in Kokrines Hills between headwaters of Wolf and Hot Springs Creeks, 19 miles NW of Birches, Kokrines-Hodzana Highlands; 65° 19' N, 154° 04' W (map 107). Local name obtained in 1954 by USGS topographers.

Wolf Point: point of land, E tip of Walrus Island, Kudobin Islands, 8.5 miles NW of village of Port Moller, Bristol Bay Lowland; 56° 01' 30" N 160° 49' 00" W; (map 28). Translation of the Russian word "volchie" by W. H. Dall, USC&GS, in 1882; Capt. F. P. Lutke applied the name "Volchie" to the entire island in 1836.

Wolf Point: point of land, in Glacier Bay National Monument on W shore of Muir Inlet, 43 miles SW of Skagway, St. Elias Mountains; 59° 00' 15" N, 136° 09' 10" W; (map 45). So named by the American Geographical Society (Field, 1947, pl. 1) "because of wolf tracks seen there in 1941."

Wolf Point: point of land, on N coast of Kiska Island, Aleutian Islands; 52° 07' 25" N, 177° 33' 40" E; (map 14). Variant: Blackbird Point. Shown on recent maps of Kiska Island; variant shown on a 1943 USAAF map.

Wolf Point: promontory, on N bank of Knik River, 16 miles SE of Palmer, Chugach Mountains; 61° 28' 45" N, 148° 41' 30" W; (map 69). Local name reported in 1960 by USGS.

Wolf Pup: ravine, trends NW 2 miles to Middle Fork Koyukuk River, 1 mile S of mouth of Gold Creek and 36 miles W of Chandalar, Brooks Range; 67° 30' N, 149° 52' W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Wolf Rock: rock, 750 ft. long, in Pacific Ocean, 13 miles W of Dall Island, Alexander Archipelago; 55° 01' 15" N, 133° 29' 15" W; (map 4). Variant: Flat Island, Forrester's Island, Isla Algives, Isla Rasa. Named in 1794 by Capt. George Vancouver, RN. In 1774-1779, the Spaniards called the island "Isle Rasa" meaning "flat island;" and in 1788, Capt. John Meares called it "Forrester's Island." It was called "Isle Algives" by Don Juan de la Bodega y Quadra about August 1, 1779.

Wolfe Lake: lake, see Wolf Lake.

Wolik River: stream, see Wulik River.

Wolikpot: locality, see Walakpa.

Wolk Harbor: bay, 1.8 miles long, on S coast of Dall Island, Alexander Archipelago; 54° 40' 45" N, 132° 47' 15" W; (map 1). Variant: Polk Harbour. Local name published in USC&GS in 1911.

Wolk Point: point of land, S point of entrance to Wolk Harbor, on S coast of Dall Island, Alexander Archipelago; 54° 40' 20" N, 132° 46' 35" W; BGN 192g; (map 1). Name derived from Wolk Harbor; given by Capt. R. S. Patton, USC&GS, in 1928.

Wolley, Cape: point of land, see Woolley, Cape.

Wolverine Creek: stream, 1.5 miles long, on NE coast of Cleveland Peninsula, drains Lake McDonald into Yes Bay, Alexander Archipelago; 55° 55' 00" N, 131° 47' 30" W, (map 3). Local name reported by USGS in 1952.

Wolverine Creek: stream, flows N 10 miles from Hatbox Mesa to Aiyak River, 57 miles NW of Anaktuvuk Pass, Brooks Range; 68° 55' N, 152° 26' W; (map 134). Named by USGS geologists during the exploration of Navel Petroleum Reserve No. 4; name given in 1944.

Wolverine Creek: stream, flows NE 16.5 miles S of Crag Peak to John River, 9.5 miles SE of junction of Hunt Fork and John River and 59 miles W of Wiseman, Brooks Range; 67° 37' N, 152° 16' W; BGN 1932; (map 124). Variant: Wolverine River. Name reported in 1930 by Robert Marshall.

Wolverine Creek: stream, flows S and W 3.2 miles, from Mount Eielson to Crystal Creek, E of Muldrow Glacier, 4.5 miles SSW of Eielson Visitor Center, Alaska Range; 63° 22' 15" 150° 22' 00" W; BGN 1932; (map 88). So named by USGS in 1931 because "many wolverines were observed on this creek during the past summer."

Wolverine Creek: stream, flows SE 2.8 miles to right bank of Ottertail Creek, 8 miles SE of Chena Hot Springs and 60 miles N of Big Delta, Yukon-Tanana Highlands; 64° 59' 10" N, 145° 50' 00" W; (map 101). Prospectors' name reported in 1913 by USGS as the name of the stream now known as Demar Creek.

Wolverine Creek: stream, flows SE 3.1 miles to Camp Creek, 49 miles W of Talkeetna, Alaska Range; 62° 25' 38" N, 151° 36' 40" W; (map 81). Prospectors' name reported in 1906 by R. W. Porter, USGS.

Wolverine Creek: stream, flows SE 8 miles to North Fork Kuskokwim River, 32 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 22' N, 153° 51' W; (map 89). Local name reported in 1958 by USGS.

Wolverine Creek: stream, flows SW 6.5 miles to North Fork Baker Creek, 6 miles E of Rough Top Mountain and 25 miles SW of Rampart, Yukon-Tanana Highlands; 65° 11' 00" N, 150° 35' 30" W; (map 106) Prospectors' name reported in 1911 by H. M. Eakin, USGS.

Wolverine Creek: stream, flows W 3 miles to Tibbs Creek 6 miles S of that stream's junction with Goodpaster River and 50 miles ENE of Big Delta, Yukon-Tanana Highlands; 64° 23' N, 144° 16' W; (map 101). Local name published in 1956 by USGS.

Wolverine Creek: stream, heads at glacier, flows NW 16 miles to Matanuska River, 4.8 miles NE of Palmer, Cook Inlet Lowland; 61° 40' N, 149° 03' W; (map 69). Name reported by GLO (BLM) on a 1915 land Plateau

Wolverine Creek: stream, heads on Little Mount Susitna, flows NE 15 miles to Lower Sucker Creek, 39 miles NE of Tyonek, Cook Inlet Lowland; 61° 36' 40" N, 150° 45' 01" W; (map 70). Local name reported in 1935 by USGS.

Wolverine Creek: stream, in Teocalli Mountains, heads SE of Knox Peak, flows SW 3.7 miles to South Fork Kuskokwim River 9 miles S of junction of Tatina River, 91 miles SE of McGrath, Alaska Range; 62° 10' N, 153° 22' W; (map 80). Local name reported in 1931 by USGS.

Wolverine Creek: stream, on N end of Kenai Peninsula, flows NW 4.5 miles to Ingram Creek, 12 miles SE of Sunrise and 16 miles W of Whittier, Chugach Mountains; 60° 49' 20" N,

149° 07' 15" W; (map 63). Local prospectors' name reported in 1904 by Moffit (1906, pl. 2), USGS.

Wolverine Creek: stream, on S shore of Alaska Peninsula, flows NE 3 miles to a lagoon, at head of Aniakchak Bay, 15 miles SW of Cape Kunmik; Aleutian Range; 56° 42' N, 157° 34' W; (map 31). Local name reported in 1951 by USGS.

Wolverine Creek: stream, see Demar Creek.

Wolverine Falls: falls, on S tributary 3 miles SE of its junction with Savonoski River, on Alaska Peninsula, in Katmai National Monument, 21 miles NE of Mount Katmai, Aleutian Range; 58° 32' 50" N, 154° 43' 10" W; (map 42). Local name reported in 1951 by USGS.

Wolverine Fork: stream, flows SE 7 miles to Chuitna River, 20 miles NW of Tyonek, Alaska Range; 61° 12' 00" N, 151° 39' 30" W; BGN 1964; (map 70). Named in 1963 by USGS.

Wolverine Gulch: ravine, trends N 1.5 miles to Canoe Bay, 11 miles E of Pavlof Bay, near SW end of Alaska Peninsula, Aleutian Range; 55° 31' 40" N, 161° 09' 30" W; (map 28). Local name reported in 1929 by USGS.

Wolverine Lake: lake, 0.3 miles across, 15 miles NE of Chalkyitsik, Yukon Flats; 66° 50' N, 143° 29' W; (map 120). Local name obtained in 1956 by T. E. Taylor and R. C. Foley, USGS.

Wolverine Lake: lake, 0.3 miles long, on Kenai Peninsula in Kenai Mountains, 4 miles E of Tustumena Lake and 32 miles SE of Kenai, Chugach Mountains; 60° 12' N, 150° 38' W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Wolverine Lake: lake, 0.8 miles long, 6 miles NE of Palmer, Cook Inlet Lowland; 61° 39' 45" N, 148° 58' 00" W; (map 69). Local name reported in 1942 by AMS.

Wolverine Mountain: mountain, 4,580 ft., 14 miles SE of Rampart, Yukon-Tanana Highlands; 65° 20' N, 149° 53' W; (map 105). Named by prospectors and reported in 1902 by A. H. Brooks, USGS.

Wolverine Mountain: mountain, 4,653 ft., 3.7 miles E of Paxson, Alaska Range; 63° 01' 25" N, 145° 22' 40" W; (map 86). Name reported in 1952 by USGS.

Wolverine Peak: mountain, 4,455 ft., between North and South Forks Campbell Creek, 10 miles SE of Anchorage, Chugach Mountains; 61° 08' 05" N, 149° 36' 45" W; BGN 1964; (map 69). Named in 1963 by members of the Mountaineering Club of Alaska because "wolverine Tracks were seen near its summit on an early M.C.A. ascent in winter."

Wolverine River: stream, see Wolverine Creek.

Woman Lake: lake, 0.2 miles long, 0.8 miles NE of junction of Montana Creek and Susitna River 14 miles S of Talkeetna, Cook Inlet Lowland; 62° 05' 50" N, 150° 03' 20" W; (map 81). Local name reported in 1958 by USGS.

Womans Bay: bay, see Womens Bay.

Womens Bay: bay, extends SW 5 miles off Chiniak Bay, 5 miles SW of Kodiak, Kodiak Island; 57° 43' N, 152° 31' W; BGN 1939, (map 34). Variant: Babia Bay, Babya Bay, English Bay, Guba Babya, Womans Bay. Translation by Baker (1906, p. 679) of the name "Guba Babya," published by Sarichev (1826, map 16). In 1938 USC&GS published the name "English Bay."

Womens Bay: bay, see Shakmanof Cove.

Wonder Bay: bay, 2 miles across, on NW coast of Shuyak Island, 48 miles N of Kodiak Island; 58° 36' 40" N, 152° 36' 00" W; (map 43). Name published by USC&GS in 1927 on Chart 8555.

Wonder Creek: stream, flows SE 1.5 miles to Livengood Creek, 3 miles NE of Livengood, Yukon-Tanana Highlands; 65° 33' N, 148° 26' W; (map 105). Named by prospectors; reported in 1915 by Brooks (in Brooks and others, 1916, pl. 9), USGS.

Wonder Creek: stream, flows SW 0.5 miles to Center Creek 2 miles N of Nome, Seward Peninsula Highlands; 64° 32' 10" N, 165° 23' 50" W; (map 94). Prospectors' name published on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Wonder Creek: stream, flows W 1 mile to California Creek, 15 miles NE of Shungnak, Brooks Range; 66° 57' 40" N, 156° 37' 00" W; (map 115). Prospectors' name reported after 1940 by USGS.

Wonder Creek: stream, see Center Creek.

Wonder Gulch: ravine, in Dutch Hills, trends NE 0.8 miles to Ramsdyke Creek 30 miles NW of Talkeetna, Alaska Range; 62° 36' 15" N, 150° 48' 30" W; (map 81). Prospectors' name reported in the 1930's by USGS.

Wonder Gulch: ravine, trends 5 1 mile to Coffee Creek, in Kougarok River basin, 49 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 19' N, 164° 44' W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Wonder Lake: lake, 0.9 miles long, on Kenai Peninsula, 0.8 miles SE of Pepper Lake, 35 miles NE of Kenai, Cook Inlet Lowland; 60° 49' 15" N, 150° 24' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Wonder Lake: lake, 2.7 miles long, in Mount McKinley National Park, 27 miles NNE of Mount McKinley, Alaska Range; 63° 28' 30" N, 150° 52' 30" W; BGN 1932; (map 88). Local name shown on a 1916 fieldsheet by C. E. Giffin, USGS.

Wonder Park: suburb, E of Anchorage and S of Glenn Highway, Cook Inlet Lowland; 61° 13' 24" N, 149° 47' 00" W; (map 69). Local name reported in 1954 by the city engineer of Anchorage.

Wood Canyon: canyon, extends 7 miles along Copper River, 1 mile S of Taral and 62 miles NE of Valdez, Chugach Mountains; 61° 25' N, 144° 28' W; (map 68). Named "Woods Canon" in 1885 by Lt. H. T. Allen, USA, for Col. H. Clay Wood, USA.

Wood Cove: cove, 1,500 ft. across, on E coast of Forrester Island, Alexander Archipelago; 54° 48' 30" N, 133° 31' 00" W; (map 1). Local name published by USC&GS in 1943.

Wood Creek: stream, flows NW 10 miles to South Fork Sulatna River, 13 miles E of Sulatna Crossing and 22 miles SW of Monzonite Hills, Kilbuck-Kuskokwim Mountains; 64° 09' 45" N, 155° 02' 48" W; (map 98). Local name reported about 1952 by USGS.

Wood Creek: stream, flows SW 2.5 miles to Mineral Creek, 0.1 miles N of McIntosh and 5.4 miles NW of Valdez, Chugach Mountains; 61° 11' 10" N, 146° 20' 20" W; (map 68). Prospectors' name reported in 1911 by USGS. There was an Olsen and Wood Mine on the stream.

Wood Creek: stream, heads in Horn Mountains, flows S 1.6 miles to Alfred Creek, 58 miles NE of Palmer, Talkeetna Mountains; 61° 57' N, 147° 30' W; (map 69). Local name reported in 1952 by USGS.

Wood Creek: stream, see Wood River.

Wood Island: island, see Woody Island.

Wood Islands: islands, among Maurelle Islands, 26 miles NW of Craig, Alexander Archipelago; 55° 40' N, 133° 43' W; (map 4). Variant: Gardiner Islands. Local descriptive name published in 1915 by USC&GS.

Wood Lake: lake, 1.6 miles long, in Glacier Bay National Monument, 0.5 miles S of head of Geikie Inlet and 48 miles NW of Hoonah, St. Elias Mountains; 58° 34' 45" N, 136° 28' 50" W; (map 10). Local name published by USGS in the 1950's.

Wood Point: point of land, NW tip of Point Agassiz Peninsula, 13 miles N of Petersburg, Coast Mountains; 56° 59' 45" N, 132° 56' 57" W; (map 6). Local name published by USC&GS in 1925 Coast Pilot (p. 211).

Wood Point: point of land, on S shore of Norton Sound, 10 miles E of St. Michael Bay and 40 miles SW of Unalakleet, Nulato Hills; 63° 28' N, 161° 40' W; (map 91). Local name reported in 1903 by Dr. C. D. Lind of Unalakleet (Jackson, 1904, p. 55).

Wood River Buttes: mountains, 1,051 ft., 4 miles long, between Wood River and Crooked Creek, 28 miles S of Fairbanks, Tanana Lowland; 64° 28' N, 148° 08' W; (map 100). Local name derived from Wood River; reported in 1910 by USGS (Capps, 1912, pl. 1).

Wood River Cannery: village, see Wood River.

Wood River Lakes: lakes, four, extend S 45 miles from Lake Kulik to Lake Aleknagik, S of Tikchik Lakes, 18 miles N of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 30' N, 159° 00'

W; (map 52). Reported about 1930 by Gerald Fitzgerald (in Mertie, 1938b, p. 14), USGS. The four lakes are drained by the Wood River.

Wood River Landing: locality, see Wood River.

Wood River Mountains: mountains, 2,000-3,500 ft., in group 100 miles long and 30 miles wide, extend NNE from Bristol Bay to Chikuminuk Lake, bounded on W by Togiak River, Kilbuck-Kuskokwim Mountains; 60° 13' N, 159° 00' W [N end], 58° 50' N, 159° 50' W [S end]; (map 53). Variant: Tikchik Mountains. Local name reported in 1939 by USC&GS. Mertie (1938b, p. 14), USGS, referred to these mountains when he wrote "here designated the Tikchik Mountains."

Wood River: locality, on Tanana River near mouth of Wood River, 15 miles E of Nenana, Tanana Lowland; 64° 35' N, 148° 38' W; (map 100). Variant: Wood River Landing. Name of site of a trading post, riverboat woodyard, and landing; published in Polk's Gazetteer in 1916.

Wood River: stream, flows NW 26 miles to Black River, 50 miles NE of junction of Charley and Yukon Rivers, Porcupine Plateau; 65° 57' N, 142° 02' W; (map 103). Variant: Wood Creek. Local name published in 1951 as "Wood Creek," and in 1956 as "Wood River" by USGS.

Wood River: stream, heads at glacier in Alaska Range at 63° 42' N, 147° 32' W, flows NW 115 miles into Tanana River, 14 miles E of Nenana, Tanana Lowland; 64° 35' 15" N, 148° 38' 40" W; (map 100). Variant: Bradley River. Local name reported in 1906 by L. M. Prindle (in Brooks and others, 1907, pl. 4), USGS. Probably so called because a riverboat woodyard was located near the stream's mouth. This is probably the same feature Lt. Allen (1887, pl. 1), USA, named Bradley River in 1885.

Wood River: stream, heads in Aleknagik Lake and Rows SSE 20 miles to Nushagak River just NE of Dillingham, Bristol Bay Lowland; 59° 03' N, 158° 25' W; (map 52). Variant: Ahleknuguk River, Aleknagik River, Aliagnagik River, Alyagnagik River, Reka Aleknagek. Local name published by USBF in 1890. Lt. Sarichev (1826, map 3), IRN, calls the stream "Alyagnagik" and Capt. Tebenkov (1852, map 2), IRN, shows "Aleknagek," both obviously referring to the same Eskimo name.

Wood River: village, pop. 15, at junction of Wood and Nushagak Rivers, 2 miles NE of Dillingham, Bristol Bay Lowland; 59° 04' N, 158° 26' W; (map 52). Variant: Ah-lek-nug-uk, Wood River Cannery. Located on site of Eskimo village of "Ah-lek-nug-uk," which was recorded on a 1910 manuscript map by H. C. Fassett, USBF.

Wood Spit: spit, on S shore of Holkham Bay at entrance to Endicott Arm, 3 miles E of Point Astley and 50 miles SE of Juneau, Coast Mountains. 57° 43' 30" N, 133° 34' 30" W; (map 8). Name applied in 1889 by Lt. Comdr. H. B. Mansfield, USN, "because it was wooded;" published by USC&GS in the 1891 Coast Pilot (p. 147).

Wood Spur: settlement, pop. 30, along The Alaska Railroad near Nenana, Tanana Lowland; (map 69). Village or railroad siding on The Alaska Railroad reported by Rand McNally (1966, p. 63).

Wood, Mount: mountain, 2,836 ft., in Glacier Bay National Monument, 1.7 miles E of Wood Lake and 47 miles NW of Hoonah, St. Elias Mountains; 58° 32' 45" N, 136° 26' 20" W; (map 10). Local name reported in 1951 by USGS.

Woodard Canyon: ravine, 0.3 miles long, on Kenai Peninsula, 0.5 miles N of Homer, Cook Inlet Lowland; 59° 39' 30" N, 151° 33' 15" W; (map 50). Local name reported and published in 1950 by USGS.

Woodcamp Creek: stream, flows SE 13 miles to Yukon River, 30 miles NE of Rampart, Kokrines-Hodzana Highlands; 65° 52' 30" N, 149° 41' 45" W; (map 105). Local name published by USGS in the 1950's.

Woodchopper Creek: locality, on Woodchopper Creek at mouth of Iron Creek, 19 miles W of junction of Charley and Yukon Rivers, Tanana-Yukon Highlands; 65° 17' 40" N, 143° 24' 30" W; (map 103). Mining camp shown on maps after 1940.

Woodchopper Creek: stream, heads at 65° 11' N, 143° 46' W, flows NE 20 miles to Yukon River 16 miles NW of its junction with Charley River, Yukon-Tanana Highlands; 65° 21' 20" N, 143° 19' 10" W; (map 103). Local name found on a manuscript map by E. F. Ball dated 1898 and on a fieldsheet prepared by A. J. Collier, USGS, in 1902. The name may allude to woodchopping on the banks of this stream to furnish fuel for river steamboats.

Woodchopper Creek: stream, heads on Bismark Mountain, flows SW 6 miles to Garland Creek, 11 miles NW of Shungnak, Brooks Range; 67° 00' N, 157° 24' W; (map 126). Local name given about 1901 "due to a woodyard located at the mouth" of Garland Creek which furnished fuel for the riverboats.

Woodchopper Creek: stream, heads on Serpentine Ridge, flows SSE 8.5 miles to Patterson Creek, 33 miles SE of Tanana, Yukon-Tanana Highlands; 65° 01' 20" N, 151° 02' 00" W; (map 106). Prospectors' name reported in 1906 by USGS (Prindle, 1908, p. 5).

Woodchopper Island: island, see Melozi Island.

Woodchopper Roadhouse: locality, abandoned roadhouse on left bank of Yukon River, 1 mile E of mouth of Woodchopper Creek, Yukon-Tanana Highlands; 65° 21' 30" N, 143° 18' 00" W; (map 103). Variant: Woodchopper. Locality at the site of Woodchopper, a mining camp, which was established about 1910; reported by L. M. Prindle and J. B. Mertie, Jr. (in Brooks and others, 1912, pl. 10), USGS.

Woodchopper's Island: island, in Mitchell Bay, on W coast of Admiralty Island, 5 miles E of Angoon, Alexander Archipelago; 57° 32' N, 134° 21' W; (map 9). Named in 1869 by Comdr. R. W. Meade, USN; published in 1881 on Hydrog. Chart 882. Comdr. Meade indicates a probable island in this area, but recent maps show a peninsula instead of an island. The name does not appear on recent maps.

Woodchopper: locality, on Woodchopper Creek at junction of Deep Creek, 33 miles ESE of Tanana, Yukon-Tanana Highlands; 65° 03' N, 151° 00' W; (map 106). This was a former mining camp established about 1907.

Woodchuck Gulch: ravine, trends W 0.5 miles to Buster Creek, 10 miles NE of Nome, Seward Peninsula Highlands; 64° 37' N, 165° 12' W; (map 94). Variant: Goodluck Gulch. Prospectors' name published in 1956 by USGS. Shown as "Goodluck Gulch" on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Woodcock, Point: point of land, on NW coast of Montague Island, 10 miles NE of Cape Clear, 60 miles SE of Seward, Chugach Mountains; 59° 54' 15" N, 147° 48' 40" W; (map 49). Named by Capt. Nathaniel Portlock (1789, p. 7), about April 24, 1787, for Joseph Woodcock, an apprentice aboard the King George, who was frequently sent ashore among the Indians as a hostage. Name shown only on his chart (Wagner, 1937, p. 524).

Wooded Island: island, 0.8 miles long, in Marmot Bay, NW of Spruce Island, NE of Kodiak Island; 57° 57' 30" N, 152° 29' 30" W; (map 34). Variant: Liesistoi, Ostrov Lysistoy. Translation of the descriptive name "O[strov] Lysistoy," given to this island by Sub-Lt. Mikhail Murashev in 1839 or 1840 and published in 1849 on Russian Hydrog. Dept. Chart 1425.

Wooded Island: island, see Makhnati Island.

Wooded Island: island, see Woody Island.

Wooded Islands: islands, 1 mile SE of Montague Island, in Gulf of Alaska, 75 miles SE of Seward Chugach Mountains; 59° 52' N, 147° 23' W; (map 49) These islands were described by Capt. George Vancouver, RN, in 1794 and apparently named in 1869 by USC&GS.

Wooden Canoe Lake: lake, 0.5 miles across, 7 miles SE of Minto, Tanana Lowland; 64° 51' 45" N, 148° 58' 30" W; (map 100). Local name reported in 1950 by USGS topographers.

Wooden Island: island, 0.2 miles across, S of Cape Ommaney, 6 miles S of Port Alexander, Alexander Archipelago; 56° 09' 40" N, 134° 39' 30" W; (map 5). Variant: Woodens Rock. Named by Capt. George Vancouver, RN who called it "Woodens Rock" on August 24, 1794, "to commemorate Isaac Wooden [a member of his party], who fell overboard and was drowned near this island" (Wagner, 1937, p. 422).

Wooden Wheel Cove: cove, 0.6 miles long, in Port Protection, 1.5 miles S of village of Point Baker on N coast of Prince of Wales Island, Alexander Archipelago, 56° 19' 45" N, 133° 36' 30" W; (map 6). Local name recorded in 1949 by USGS.

Woodens Rock: island, see Wooden Islands.

Woodhouse, Point: point of land, on S coast of Biorka Island, 18 miles SW of Sitka, Alexander Archipelago; 56° 50' 05" N, 135° 32' 15" W; (map 5). Variant: Wodehouse Point. Named by Capt. George Vancouver, RN, on July 30, 1794 (Wagner, 1937, p. 422). Vancouver gave this name to high land west of Crawfish Inlet, 14 miles southeastward. The name was reapplied to the present location by Russian naval officers in the early 1800's (Sarichev, 1826, map 19).

Woodland Creek: stream, see Woodland Echo Creek.

Woodland Echo Creek: stream, flows E 7 miles from Woodland Echo Pass to North Fork Chandalar River, 7.5 miles SW of Chandalar, Brooks Range; 67° 27' N, 148° 46' W; (map 123). Variant: Woodland Creek. Name reported in 1909 as "Woodland Creek" by A. G. Maddren (in Brooks and others, 1910, pl. 7),USGS.

Woodland Echo Pass: pass, 7 miles NE of O'Keefe Hills and 13 miles WSW of Chandalar, Brooks Range; 67° 26' 30" N, 149° 00' 00" W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Woodman Creek: stream, flows E to Big Four Creek, between Birch and Surprise Creeks, about 20 miles NE of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This stream cannot be precisely located on current maps.

Woodpecker Cove: cove, extends SW 0.5 miles to Sumner Strait, on S coast of Mitkof Island, Alexander Archipelago; 56° 30' 00" N, 132° 49' 15" W; BGN 1917; (map 6). Local name reported in 1916 by USC&GS.

Woodpecker Lake: lake, 0.7 miles long, on Kenai Peninsula N of Eagle Lake, 9 miles NE of Kenai, Cook Inlet Lowland; 60° 37' 15" N, 151° 00' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, probably for the Alaska Three-toed Woodpecker (*Picoides americanus fasciatus*), "Far into the north * * * it becomes the commonest of Woodpeckers" (Pearson, 1944, pt. 2, p. 144).

Woodrow Creek: stream, see Ship Creek.

Woodrow, Port: city, see Anchorage.

Woodrow: city, see Anchorage.

Woodrow: locality, on Kenai Peninsula, W of Bear Lake, miles 6.9 on The Alaska Railroad, 6 miles NE of Seward, Chugach Mountains; 60° 01' 30" N, 149° 22' 30" W; (map 63). Variant: Bear Creek. Listed as a flag stop in the 1918 railroad guide of The Alaska Railroad Recent USGS maps indicate a site with three or four buildings.

Woods Creek: stream, flows N 2 miles to join Camp Creek to form Canyon Creek, 48 miles S of Eagle, Yukon-Tanana Highlands; 64° 06' 45" N, 141° 06' 45" W; (map 102). Variant: J. Woods Creek. Named by prospectors and reported in 1898 by E. C. Barnard, USGS. Probably named for a prospector J. Woods (cnna) in that it is shown as J. Woods Creek on a 1902 manuscript map by C. A. Woodruff.

Woods Creek: stream, flows NE 15 miles to Yukon River, 2.5 miles N of Blackburn Island and 50 miles SE of Unalakleet, Nulato Hills; 63° 27' 20" N, 159° 28' 00" W; (map 91). Local name reported in 1949 by USC&GS.

Woods Creek: stream, flows SE 2.5 miles to Mendeltna Creek S of Glenn Highway, 31 miles W of Glennallen, Copper River Basin; 62° 02' N, 146° 29' W; (map 83). Local name published by ARC in 1924.

Woods Glacier: glacier, see Carroll Glacier.

Woods Lake: lake, 0.6 miles long, on Kenai Peninsula, 0.5 miles SW of Gene Lake and 33 miles NE of Kenai, Cook Inlet Lowland; 60° 48' 20" N, 150° 29' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Woods Willow Creek: stream, flows NE 3.3 miles to Bonanza Creek, which flows to Casadepaga River, 28 miles NE of Solomon, Seward Peninsula Highlands; 64° 57' N, 164° 12' W; (map 95). Prospectors' name published in 1956 by USGS.

Woodworth Glacier: glacier, heads 10 miles W of Cordova Peak, trends NE 10 miles to its terminus (1953) at Tasnuna River, 5 miles E of terminus of Tasnuna Glacier, and 34 miles SE of Valdez, Chugach Mountains; 61° 02' 00" N, 145° 15' 30" W; (map 68). Named in 1898 by F. C. Schrader, for Jay Backus Woodworth, 1865-1925, geologist, Harvard University.

Woody Inlet: lagoon, see Tachinisok Inlet.

Woody Island Channel: water passage, 5 miles long, between Woody and Kodiak Islands, 1.5 miles E of Kodiak, 57° 47' N, 152° 22' W; (map 34). Name derived from Woody Island and published in 1949 by USGS.

Woody Island: island, 0.2 miles long, in Wrangell Narrows, E coast of Lindenberg Peninsula, Kupreanof Island, 11 miles S of Petersburg, Alexander Archipelago; 56° 39' 10" N, 132° 56' 00" W; (map 6). Variant: Liesnoi Island, Ostrov Lysnoy. This is a translation about 1880 by USC&GS of the name "Ostrov Lysnoy," which was given in 1838 by G. Lindenberg.

Woody Island: island, 2.7 miles long, in Chiniak Bay, 2.6 miles E of Kodiak, Kodiak Island; 57° 47' N, 152° 20' W; (map 34). Variant: Liesnoi Island, Ostrov Lysnoy, Wooded Island, Wood Island. Translation of the descriptive name "Os[trov] Lysnoy given in 1804 by Lisianski (1814, p. 169). Ameigh and Chaffin (1962, p. 51) stated "it is believed that the Russians were using it [Woody Island] as an agricultural colony as early as 1792 * * *." They also noted that the Russian American Ice Co. [Kodiak Ice Co. after 1867] imported horses [the first in Alaska] to Woody Island and built a road [the first in Alaska] around the island. "Boat building flourished both at Kodiak and Woody Island during the late 1800's" (p. 50). In 1894 the U.S. Post Office Department established the "Wood Island" Post Office, but it was discontinued in 1895.

Woody Islet: island, see Liesnoi Island.

Woody Point: point of land, N point of entrance to Whitewater Bay, on W coast of Admiralty Island, 15 miles NE of Baranof, Alexander Archipelago; 57° 16' 20" N, 134° 36' 45" W; (map 9). Descriptive name given in 1869 by Comdr. R. W. Meade, USN, published by USC&GS in the 1883 Coast Pilot (p. 174) with this note: "In SE Alaska all points are woody, and about one-third of them have been named so, to the great confusion of hydrographers."

Woodyard Creek: stream, flows NE 24 miles to Koyukuk River, 47 miles SW of Roundabout Mt., Koyukuk Lowland; 65° 02' N, 157° 39' W; (map 108). Local name obtained at Koyukuk by Orth in 1956. The name probably originated during the period of steamboat river transportation when a woodyard for the boats was located at the stream's mouth.

Wooleek: stream, see Wulik River.

Woolley, Cape: point of land, on Bering Sea, 37 miles NW of Nome, Seward Peninsula Highlands; 64° 48' N, 166° 28' W; (map 94). Variant: Cape Wolley, Cape Wooly. Named in 1826 by Capt. Beechey (1831, map facing p. 328), RN.

Woolly Harbor: lagoon, see Kitchen, The.

Wooly Head: promontory, elev. 1,200 ft., on W coast of Nagai Island, in Shumagin Islands, Aleutian Range; 55° 06' 30" N, 160° 11' 00" W; (map 28). So named by fishermen prior to 1871 because of the violent gusts of wind called "woolies" experienced there; published by USC&GS on an 1882 coast chart. This term is considered to be derived from a Patagonian word for "gust of wind" or may be descriptive of the "white foam formed on the water from wind."

Wooly, Cape: point of land, see Woolley Cape.

Wordie, Mount: mountain, 4,950 ft., in Glacier Bay National Monument, 5 miles NW of Mount Merriam and 81 miles NW of Hoonah, St. Elias Mountains; 58° 26' 25" N, 136° 28' 15" W; (map 10). Named by members of the Glacier Bay Expedition of 1941 (Field, 1947, map) for James Mann Wordie, a British glacier geologist and polar explorer, who visited Muir Glacier in 1913. He was a geologist on the Shackleton Antarctic Expedition, 1914-17, and on several expeditions to Greenland.

Woronkofski Island: island, 7 miles long, between Stikine and Zimovia Straits, 5 miles SW of Wrangell, Alexander Archipelago; 56° 23' N, 132° 30' W; (map 6). Variant: Ostrov Voronkovskiy, Voronkoffski Island, Voronkowski Island. Published in 1848 on Russian Hydrog. Dept. Chart 1396 as "O[strov] Voronkovskiy." Named for Lt. Woronkovski, IRN, who explored the southern shore of the Alaska Peninsula in 1836.

Woronkofski Point: point of land, northernmost point on Woronkofski Island, Alexander Archipelago; 56° 26' 20" N, 132° 28' 40" W; (map 6). Named in 1879 by W. H. Dall, USC&GS.

Woronkofski, Mount: mountain, 3,240 ft., on central Woronkofski Island, 6.5 miles SW of Wrangell, Alexander Archipelago; 56° 23' 20" N, 132° 29' 15" W; BGN 1917; (map 6). Variant: Ancon Peak. Named by USC&GS in 1916; it was called "Ancon Peak" by Lt. Comdr. A. S. Snow, USN, in 1886 for the steamship Ancon. See Woronkofski Island and Ancon Peak.

Woronzo, Point: point of land, see Woronzof, Point.

Woronzof, Point: point of land, on S coast of Knik Arm, 4 miles W of Anchorage, Cook Inlet Lowland; 61° 12' 15" N, 150° 01' 00" W; (map 70). Variant: Mys Vorontsova, Point Woronzo, Point Woronzow. Named by Lt. Joseph Whidbey, RN, a member of Capt. George Vancouver's expedition, on May 4, 1794, "after the Russian ambassador at St. James [the English court]" (Wagner, 1937, p. 422).

Woronzow, Point: point of land, see Woronzof Point.

Worsham Bay: bay, see Kisselen Bay.

Worship Cove: cove, 1 mile across, on northwestern Kiska Island, Aleutian Islands; 52° 06' 45"-N, 177° 33' 20" E; (map 14). An arbitrary name beginning with "W" to correspond to "W" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map

Worthington Glacier: glacier, heads 2 miles SW of Girls Mountain, trends E 3.8 miles to its terminus, 3 miles SW of Ptarmigan and 20 miles NE of Valdez, Chugach Mountains; 61° 10' 10" N, 145° 42' 30" W; (map 68). Local name reported in 1900 by F. C. Schrader, USGS.

Worthmans: locality, see Wortmanns.

Wortmann Creek: stream, Wortmanns Creek.

Wortmann Glacier: glacier, see Wortmanns Glacier.

Wortmann's Road House: locality, see Wortmanns.

Wortmanns Creek: stream, heads at terminus (1953) of Wortmanns Glacier and flows NW 6.5 miles to Lowe River, 0.5 miles SE of Wortmanns and 16 miles E of Valdez, Chugach Mountains; 61° 06' 15" N, 145° 48' 15" W; BGN 1964; (map 68). Variant: Wortmann Creek. Named in 1963 by A. S. Post "for the village of Wortmann."

Wortmanns Glacier: glacier, heads 8 miles E of Meteorite Mountain and trends N 3.3 miles to its terminus (1953) at head of Wortmanns Creek, 6 miles SE of Wortmanns and 18 miles SE of Valdez, Chugach Mountains; 61° 01' 30" N, 145° 44' 55" W; BGN 1964; (map 68). Variant: Wortmann Glacier. Named in 1963 by A. S. Post "for the village of Wortmann."

Wortmanns: locality, on Richardson Highway 1.5 miles NE of mouth of Bear Creek and 15 miles E of Valdez, Chugach Mountains; 61° 06' 35" N, 145° 49' 15" W; (map 68). Variant: Worthmans, Wortmann's Road House, Wortmanns, Wortmans. Former roadhouse and mining camp reported 1908 by Moffit and Maddren (1909, pl. 1), USGS.

Wortmans: locality, see Wortmanns.

Wosnesenski Glacier: glacier, heads in Kenai Mountains and trends to its terminus at an unnamed stream 18 miles SE of Homer, Chugach Mountains; 59° 30' 30" N; 151° 03' 00" W; (map 50). Named by Dall (1870, p. 339), for Island G. Wosnesenski, Russian Academy of Sciences, who made collections and observations in this region about 1840.

Wosnesenski Island: island, 4.5 miles across, 10 miles NE of Dolgoi Island, one of Pavlof Islands, Aleutian Range; 55° 11' N, 161° 22' W; BGN 1901; (map 28). Variant: Ostrov Peregrebnoy, Peregrebny Island, Unatkuyuk Island, Vosnesenski Island, Vossnessensky Island, Vossnessenski Island, Voznesensky Island, Vozoychenski Island, Wosnesensky Island, Wossnessensky Island. In 1868 the name Wossnessenski Island was shown on USC&GS charts, undoubtedly named in honor of Ilia (Ella) G. Wosnesenski who in 1842-44 explored western Alaska for the St. Petersburg Academy of Sciences. This island was formerly named "O[strov] Peregrebnoy" by Father Ioann Veniaminov (1840, v. 1, p. 252),

which is the Russian form of the Aleut name “Unatkuyuk” meaning “crested” or “serrated.” Capt. F. P. Lutke, IRN, in 1836 reported it as “[Ile] Peregrebny.”

Wosnesensky Island: island, see Wosnesenski Island.

Wosnessensky Island: island, see Wosnesenski Island.

Wounded Cub Creek: stream, flows SE 10 miles to Mink Creek, 13 miles S of Nulato, Koyukuk Lowland; 64° 32' N, 158° 20' W; (map 97). Variant: Nitdlqaitaldatdlna. Appears to be a translation of an Indian name; reported in 1935 by Frederica de Laguna, BAE.

Wrangel Bay: bay, see Wrangell, Port.

Wrangel Peak: mountain, see Wrangell Peak.

Wrangel, Baie: bay, see Wrangell, Port.

Wrangel, Cape: point of land, see Wrangell, Cape.

Wrangel, Mount: mountain, see Wrangell, Mount.

Wrangel: town, see Wrangell.

Wrangel: town, see Wrangell.

Wrangell Bay: bay, see Wrangell, Port.

Wrangell Bay: locality, see Kuiukuk.

Wrangell Cove: bay, 1.5 miles across on W coast of Attu Island, W of Etienne Head, Aleutian Islands; 52° 55' N, 172° 30' E; (map 13). Variant: Kapsco Bay. Named derived from Cape Wrangell and published in 1946 supplement to 1944 Aleutian Coast Pilot (p. 19). The name “Kapsco Bay” was shown on a manuscript map by L. M. Turner in the 1880's.

Wrangell Crater: peak, 13,951 ft., volcanic cone on Mount Wrangell 3 miles N of head of Cheshnina Glacier, 9 miles N of its terminus (1959) and 93 miles NE of Valdez, Wrangell Mountains; 61° 59' 30" N, 144° 04' 20" W; (map 68). Variant: Mount Wrangell Crater. Name published in 1931 by USGS.

Wrangell Harbor: harbor, 0.3 miles across, at Wrangell, on N coast of Wrangell Island, Alexander Archipelago; 56° 28' N, 132° 23' W; (map 6). Variant: Etholine Harbor, Etolin Harbor, Gavan Etolina, Port Wrangell, Wrangell Harbor. This feature was originally called “Etolin Harbor,” for Capt. Adolph Karlovich Etolin, Director of the Russian American Colonies from 1841 to 1845; named by Capt. Lt. D. F. Zarembo, who surveyed it in 1834. It was called “Port Wrangell” by Lt. Comdr. H. E. Nichols, USN, in 1882.

Wrangell Island: island, 0.4 miles long, in Necker Islands, E of Biorka Island, 16 miles SW of Sitka, Alexander Archipelago; 56° 51' 05" N, 135° 29' 30" W; (map 5). Variant: Big Wrangell Island, Kach-Khanna, Ostrov Bolshoy Vrangell, Wrangle Island. Named in early 1800's by

Russians for Adm. Baron Ferdinand Petrovich von Wrangell, IRN; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Bol[shoy] Vrangel," meaning "Big Wrangell Island." Capt. Tebenkov (1852, map 38), IRN, published the Indian name "Kach-Khanna" for this island.

Wrangell Island: island, trends NW-SE 30 miles, separated from Etolin Island on W by Zimovia Strait, 14 miles E of Zarembo Island, Alexander Archipelago; 56° 16' N, 132° 12' W; (map 6). Variant: Ostrov Kachhanna, Ostrov Vrangelya. This name was published in 1848 as "Os[strov] Vrangelya" on Russian Hydrog. Dept. Chart 1396; named for Adm. Baron Ferdinand Petrovich von Wrangell. According to Capt. Tebenkov (1852, map 8), IRN, the Indian name was "O[strov] Kachhanna," or "Kachkhanna Island."

Wrangell Mountains: mountain range, 100 miles long and 60 miles wide, bounded on W by Copper River; on NE by Jack Creek, Copper Creek, Notch Creek, and Geohenda Creek; on SE by head of White River, Skolai Pass, Chitistone River; and on S by Chitina and Nizina Rivers; 61° 45' N, 141° 50' W [E end], 62° 05' N, 144° 50' W [W end] (map 67). So called in 1901 by F. C. Schrader, USGS; presumably for Mount Wrangell, which was thought at that time to be the highest peak in the range.

Wrangell Narrows: water passage, extends S 24 miles from Frederick Sound to Sumner Strait, separates Mitkof Island from Kupreanof and Woewodski Islands, Alexander Archipelago; 56° 31' N, 132° 55' W; BGN 1917; (map 6). Variant: Proliv Vrangelya, Wrangell Strait. This feature was named "Proliv Vrangelya," or "Wrangell Strait," in 1838 by G. Lindenberg for Adm. Baron Ferdinand Petrovich von Wrangell; name published in 1850 on Russian Hydrog. Dept. Chart 1441. The name "Wrangell Narrows" was originally applied to the central part of Wrangell Strait where it is most constricted.

Wrangell North Flat: tidal flat, see North Flat.

Wrangell Peak : mountain, 3,747 ft., 5 miles NE of Wrangell, Coast Mountains; 56° 32' 30" N, 132° 19' 10" W; (map 6). Variant: Wrangel Peak. Named in 1887 by USC&GS. See Wrangell.

Wrangell Range: mountain range, 1,000-1,600 ft., on W end of Attu Island, extends ENE 12 miles from Cape Wrangell, Aleutian Islands; 52° 57' N, 172° 38' E; (map 13). Name derived from Cape Wrangell; published in 1948 by AMS.

Wrangell South Flat: tidal flat, see South Flat.

Wrangell Strait: water passage, see Wrangell Narrows.

Wrangell, Cape: point of land, on W tip of Attu Island, westernmost point of Aleutian Islands; 52° 55' 30" N, 172° 28' 00" E; (map 13). Variant: Cape Wrangel, Mys Vrangelya. Named for Baron von Wrangell by Capt. Lutke (1836, p. 328), IRN. The name was published by the Russians as "Mys Vrangelya," or "Cape Wrangell," in 1848 on Russian Hydrog. Dept. Chart 1400.

Wrangell, Mount: mountain, 14,163 ft., 15 miles S of Mount Sanford, Wrangell Mountains; 62° 00' N, 144° 00' W; (map 83). Variant: Chechitno Peak, Mount Wrangel, Mount Wrangle, Tillman Mountain. Named by the Russians for Baron von Wrangell; reported in 1885 by Lt.

Allen (1887, p. 57), USA, however it appears that he named this same mountain "Tillman" for Samuel Escue Tillman, professor at United States Military Academy at West Point.

Wrangell, Port: estuary, extends NW 6.5 miles from Cape Providence, on E coast of Alaska Peninsula, 35 miles NE of Sutwik Island, Aleutian Range; 57° 01' N, 156° 31' W; (map 36). Variant: Baie Wrangel, Gavan Vrangeli. Surveyed in 1831 by Ens. Vasiliev and named for Adm. Baron Ferdinand Petrovich von Wrangell, 1794-1870, IRN, Director of Russian American Colonies. The name was published in 1835 as "B[aie] Wrangel" by Adm. A. J. von Krusenstern, IRN.

Wrangell, Port: harbor, see Wrangell Harbor.

Wrangell: town, pop. 1,315, on N coast of Wrangell Island, Alexander Archipelago; 56° 28' 00" N, 132° 22' 40" W; BGN 1944; (map 6). Variant: Fort Wrangell, Fort Stikine, Redoubt Saint Dionysius, Redut Svataya Dioniciya, Wrangel, Wrangle. Wrangell began as a stockade built by the Russians occupying the island in 1834 "to prevent encroachment by the Hudson's Bay Company traders" (Bridgewater and Sherwood, 1950, p. 2, 175). It was called "Red[ut] Sv[ataya] Dioniciya," meaning "Redoubt [fort] Saint Dionysius," by the Russian Hydrog. Dept. on Chart 1396 published in 1848. In 1839 the Russians leased part of Southeast Alaska to the British who changed the name to "Fort Stikine." When the United States purchased Alaska in 1867 a military post, called Fort Wrangell, was established here; it was abandoned in 1877. Fort Wrangell post office was established in 1869; changed to Wrangell in 1902 (Ricks, 1965, p. 21, 72). Because of its location Wrangell became an important supply point for fur traders and miners beginning with the Stikine gold rush in 1861 (Alaska Sportsman, 1962, no. 12, p. 30). The population in 1890 was 316; 1000 (est.) in 1938; 948 in 1945; and 1162 in 1950. Wrangell's economy today is dominated by the fishing and lumbering industries, maintaining three canneries and two large lumber mills.

Wrangle Island: island, see Wrangell Island.

Wrangle Mount: mountain, see Wrangell, Mount.

Wren Lake: lake, 0.5 miles long, on Kenai Peninsula W of King Lake, 36 miles NE of Kenai, Cook Inlet Lowland; 60° 48' 30" N, 150° 22' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, probably for the Western Winter Wren (*Nunnus hiemalis pacificus*), which breeds on the south coast of Alaska (Pearson, 1944, pt. 3, p. 195).

Wren Point: point of land, see Nemo Point.

Wrench Creek: stream, heads in De Long Mountains, flows SSE 30 miles to Kelly River, 40 miles SE of Mount Kelly, Brooks Range; 68° 05' N, 162° 19' W; BGN 1966; (map 130). Variant: Katak Creek. So named in 1965 by the B. P. Exploration Co. "because the creek is being eroded along the line of a strong transcurrent (wrench) fault." The Eskimo name for this stream is Katak, meaning "fallow."

Wrench Lake: lake, 64 miles NE of Haycock, Nulato Hills; 65° 43' N, 159° 20' W; (map 109) Local name published on maps after 1950.

Wright Creek: stream, on SW coast of Prince of Wales Island, flows SW 1.5 miles to Hetta Inlet, SE of Copper Harbor, Alexander Archipelago; 55° 11' 50" N, 132° 36' 35" W; (map 4). Name reported in 1908 by C. W. Wright (in Brooks and others, 1909, pl. 3), USGS.

Wright Glacier: glacier, heads in British Columbia at 58° 22' N, 133° 22' W, trends NW 16 miles to Wright River, 31 miles E of Juneau, Coast Mountains; 58° 29' 45" N, 133° 39' 15" W; BGN 1953; (map 12). Named in 1891 by C. W. Hayes, USGS, for George Frederick Wright, 1838-1921, professor at Oberlin Theological Seminary from 1881-1907.

Wright Island: island, see Aston Island.

Wright Peaks: mountain peaks, 3.2 miles NE of terminus of Wright Glacier and 35 miles E of Juneau, Coast Mountains; 58° 31' 15" N, 133° 33' 45" W; (map 12). Name derived from Wright Glacier; published in 1923 on IBC sheet 8 (1951 Atlas).

Wright Point: point of land, on E shore between Admiralty Bay and Dease Inlet, 37 miles SE of Barrow, Arctic Plain; 70° 56' 40" N, 155° 30' 30" W. (map 148). Variant: Point Wright. Name first appears on Comdr. Maguire's map (Great Britain, 1854, facing p. 186) as Pt. Wright, but published on the Brit. Adm. Chart 593 with the generic last.

Wright River: stream, heads at terminus of Wright Glacier, flows NW 4 miles to Taku River, 29 miles NE of Juneau, Coast Mountains; 58° 31' 45" N, 133° 44' 15" W; BGN 1932; (map 12). Local name derived from Wright Glacier; reported in 1932 by B. D. Stewart, USGS.

Wright, Mount: mountain, 4,275 ft., 15 miles W of Mount Healy, Alaska Range; 63° 44' 45" N, 149° 30' 00" W; BGN 1947; (map 87). Named in 1943 by NPS for George M. Wright, 1904-1936, founder of the Wildlife Division of the National Park Service in 1929. He was the first to discover a surfbird nest in Mount McKinley National Park.

Wright, Mount: mountain, 5,139 ft., 1 mile N of Dirt Glacier, Glacier Bay National Monument, 52 miles NW of Hoonah, St. Elias Mountains; 58° 47' 55" N, 136° 01' 30" W; (map 10). Named in 1891 by Reid (1892, p. 30), USGS, for George Frederick Wright, 1838-1921, pastor and glacial geologist. Most of his life was spent as a theologian and Congregational minister. He was professor at the Oberlin Theological Seminary from 1881 to 1907. He was the author of many geological publications, including "The Ice Age in North America." Wright spent some time in the Glacier Bay area in 1886. There is another Mount Wright 43 miles W of this feature.

Wright, Mount: peak, ESE of Ketchikan in the Coast Mountains; (map 3). Probably named for the brothers Charles Will Wright and Fred Eugene Wright, USGS geologists, who worked in southeast Alaska in the early 1900's and contributed to the nomenclature of the area in their reports. This feature has not been precisely located on maps.

Wrights: village, see Wiseman.

Wrong Branch Trail Creek: stream, in Chigmit Mountains at head of Iniskin Peninsula, flows NE 2.5 miles, joins Right Branch to form Trail Creek, 0.7 miles S of Chinitna Bay, Aleutian Range; 59° 47' 45" N, 153° 16' 40" W; BGN 1962; (map 51). Local name reported in 1951 by USGS.

Wrong Creek: stream, distributary of Kashunuk River, flows S 20 miles to Nungatak River, 2 miles N of Nuigalak Lake, Yukon-Kuskokwim Delta; 61° 35' 15" N, 164° 35' 20" W; (map 74). Local name reported by Orth in 1965.

Wrongtail Creek: stream, flows NE and E 20 miles to Dagislahna Creek 4 miles NW of that stream's junction with Tozitna River, 28 miles NNW of Tanana, Kokrines-Hodzana Highlands; 65° 34' 00" N, 152° 17' 30" W; (map 106). Local name reported in 1956 by Orth.

Wsewidow: mountain, see Vsevidof, Mount.

Wukuklook Creek: Stream, flows SE 7 miles to Iyoukeen Cove on E coast of Chichagof Island, 14 miles NE of Tenakee Springs, Alexander Archipelago; 57° 55' 20" N, 134° 56' 15" W; (map 9). Local name derived from a Tlingit Indian word, "wa-kak-luk," meaning "stream by cliff" or "cliff;" reported in 1958 by USGS.

Wulik Peaks: mountain peaks, trend NE-SW 17 miles, in De Long Mountains, 18 miles S of Mount Kelly, 47 miles N of Noatak, Brooks Range; 68° 15' N, 163° 16' W [NE end] 68° 08' N, 163° 54' W. [SW end]; BGN 1965; (map 130). Named for the nearby Wulik River, which is an Eskimo name. Named in 1965 by geologists of the B.P. Exploration Co., Inc.

Wulik River: stream, heads in the De Long Mountains 5 miles N of Sheep Mountain, at 68° 23' N, 162° 54' W and flows SW 80 miles to Kivalina Lagoon, E of Kivalina, and 42 miles NW of Noatak, Kotzebue-Kobuk Lowland; 67° 44' N, 164° 31' W; (map 128). Variant: Woleek River, Wooleek River, Wolik River. Eskimo name reported by Lt. G. M. Stoney, USN, in 1886, as "Woleek."

Wyanda Ledge: reef, see Wayanda Ledge.

Wyanda Rock: rock, see California Rock.

Wye Creek: stream, flows W 0.8 miles to Dahl Creek 9 miles NE of Shungnak, Brooks Range; 66° 08' N, 156° 51' W; (map 115). Local name reported in 1943 by R. R. Coats, USGS.

Wyoming Creek: stream, flows NW 2 miles to Creston Creek, 5.5 miles N of Cripple Creek Mountains and 52 miles NW of Medfra, Kilbuck-Kuskokwim Mountains; 63° 36' N, 155° 57' W; (map 89). Local name reported in 1954 by USGS.

Wyoming Hills: mountains, 5,800 ft., extend NE 7.2 miles from Toklat River to East Fork Toklat River, 8.5 miles SW of Healy, Alaska Range; 63° 39' N, 149° 58' W; (map 87). Local name published by USGS in 1954.

Wyvill Reef: reef, off W coast of Baranof Island, in Neva Strait, 1 mile S of Saint John Baptist Bay, Alexander Archipelago; 57° 16' 24" N, 135° 35' 18" W; (map 9). Probably locally named; reported in 1897 by Lt. Comdr. E. K. Moore, USN, and published in 1900 on USC&GS Chart 8281.

X

X Creek: stream, flows NE 0.7 miles to Bering Sea on northern Kiska Island, Aleutian Islands; 52° 07' 05" N, 177° 39' 00" E; (map 14). An arbitrary name beginning with "X" to correspond to "X" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

X-Ray Creek: stream, flows E 1.1 miles to Bering Sea, on N coast of Kiska Island, Aleutian Islands; 52° 06' 03" N, 177° 39' 42" E; (map 14). An arbitrary name beginning with "X" to correspond to "X" grid used by the U.S. Army For tactical purposes during World War II; published on a 1953 AMS map.

X-Ray Ridge: ridge, 1 mile long, between X- Ray Creek and X-Wave Creek, on N coast of Kiska Island, Aleutian Islands; 52° 06' 00" N, 177° 38' 15" E; (map 14). An arbitrary name beginning with "X" to correspond to "X" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

X-Wave Creek: stream, flows E 1.2 miles to Bering Sea, on N coast of Kiska Island, Aleutian Islands, 52° 06' 07" N, 177° 39' 45" E; (map 14). An arbitrary name beginning with "X" to correspond to "X" grid used by the U.S. Army for tactical purposes during World War II: published on a 1953 AMS map.

Xask Creek: stream, see Haska Creek.

Xatacyan Lagoon: lagoon, 0.2 miles long, 0.6 miles NW of Unalaska, in Unalaska Bay on NE coast of Unalaska Island, Aleutian Islands; 53° 52' 58" N, 166° 33' 00" W; (map 23). Name published by USC&GS in 1965 on Chart 9008.

Y

Y Lake: lake, 1.3 miles long, 5 miles W of Deep Lake, 33 miles NW of Glennallen, Copper River Basin; 62° 29' N, 146° 13' W; (map 83). Local name reported in 1951 by USGS.

Y'hindastachy: locality, see Gantegastaki.

Yaachnoy, Ostrov: island, see Deranof Island.

Yaas Bay: estuary, see Yes Bay.

Yabloshny, Ostrov: island, see Middle Island.

Yachergamut: locality, see Yacherk.

Yacherk: locality, 30 miles W of Dillingham, on left bank of Igushik River, 2 miles E of Amanka Lake, Kilbuck-Kuskokwim Mountains; 59° 03' N, 159° 13' W; (map 53). Variant: Yachergamut, Yatshergamut. Former Eskimo village or camp shown on a 1898 field sheet as "Yatshergamut," meaning "Yatsherk people" by W. S. Post, USGS.

Yachnoi: island, see Deranof Island.

Yachnoy Island: island, see Hunt Island.

Yachtshilagamiut: locality, see Yakchilak.

Yachzikatna River: stream, see Iditarod River.

Yacko Creek: stream, flows N 12 miles, joins Joe Creek to form Sanona Creek, 22 miles S of junction Of Oshetna and Susitna Rivers and 65 miles W of Gulkana, Talkeetna Mountains; 62° 19' 30" N, 147° 22' 00" W; (map 82). Indian name reported by F. H. Moffit (in Brooks and others, 1915, fig. 3), USGS.

Yacootat Bay: bay, see Yakutat Bay.

Yadno River: stream, see Yentna River.

Yaga Glacier: glacier, heads 2 miles SW of Yaga Peak, trends 2 miles SW to Yakataga Glacier, 4.1 miles NW of Mount Eberly and 92 miles NW of Yakutat, Chugach Mountains; 60° 10' N, 142° 04' W; BGN 1945; (map 65). Local name derived from Yaga Peak.

Yaga Peak: peak, 8,440 ft., in Robinson Mountains, W of Guyot Glacier, at head of Yaga Glacier, 19 miles NE of Cape Yakataga, Chugach Mountains; 60° 12' 20" N, 141° 57' 35" W; BGN 1945; (map 65). Name reported in 1913 by USGS; published by Martin (1921, pl. 6).

Yagak, Cape: point of land, see Yakak, Cape.

Yaganuda Cove: cove, 1.5 miles across, between Dalnoi and Rush Points, on SW coast of St. George Island, in Pribilof Islands; 56° 36' N, 169° 46' W; (map 38). Aleut name reported in

1897 by Putnam (1903, p. 1016), USC&GS, as “Yag'an-uda', meaning “wooded bay * * * so called because there is drift-wood on the beach.”

Yagekhtalyk: bay, see Alitak Bay.

Yagektaliek: bay, see Alitak Bay.

Yaghmelingak Mountain: hill, 594 ft., 15 miles N of Southwest Cape, St. Lawrence Island; 63° 31' N, 171° 26' W; BGN 1951; (map 93). Variant: Olugooseenuk Mountain. Eskimo name meaning “the lowest one.” according to Orth in 1965. The name was reported in 1949 by Maj. H. B. Allen, USAF.

Yaghmelugak Mountain: mountain, see Olugooseenuk Mountain.

Yahku Cove: cove, 0.5 miles long, on SE coast of Tuxekan Island, 23 miles N of Craig, Alexander Archipelago; 55° 47' 30" N, 133° 14' 15" W; (map 4). Indian name published in 1964 by USC&GS.

Yahtse Glacier: glacier, heads on Barkley Ridge, at Mount Miller, trends SE 40 miles to its 1963 terminus at Icy Bay, Chugach Mountains; 60° 08' N, 141° 24' W; BGN 1964; (map 65). Name proposed in 1963 by A. S. Post, USGS, because the relatively recent retreat of Guyot Glacier formed another branch on the W side of the Guyot Hills. The name is derived from the Yahtse River, which may have once flowed into Icy Bay in this area.

Yahtse River: stream, heads at terminus of Malaspina Glacier and flows SW 10 miles to Gulf of Alaska, 5 miles E of Point Riou and 63 miles W of Yakutat, Malaspina Coastal Plain; 59° 51' 45" N, 141° 24' 00" W; BGN 1965; (map 47). Variant: East Yahtse River, Jones River, West Yahtse River, Yahtse-Tah, Yatseha Hini. According to William Williams (1889, p. 392), “Yahtse” is “the name by which the Jones River is known to the Indians.” H. Vi. Topham reported the name in 1889 as Yahtse-Tah. In 1886 Lt. F. Schwatka, USA, named it the Jones River after the proprietor of the New York Times.

Yahtse-tah-shah: mountain, see Saint Elias, Mount.

Yaichni Island: island, see Guillemot Island.

Yaichnia Islets: island, see Guibert Islets.

Yaichnoy, Mys: point of land, see Egg Point.

Yaichnyy, Mys: point of land, see Egg Point.

Yaichnyy, Ostrov: island, see Egg Island.

Yaichnyya, Ostrova: islands, see Guibert Islets.

Yaignoy, Ostrov: island, see Egg Island.

Yaitchni, Mys: point of land, see Egg Point.

Yaitchny Islets: islands, see Guibert.

Yak'da't Hlahayik: village, see Yakutat.

Yakaio, Cape: point of land, see Yakataga, Cape.

Yakak Peninsula: peninsula, 10 miles long, SW part of Adak Island, Aleutian Islands; 51° 40' N, 176° 55' W; (map 17). Name published by USGS (in Fraser and Snyder, 1959, pl. 52).

Yakak, Cape: point of land, SW tip of Adak Island, Aleutian Islands; 51° 35' 40" N, 176° 56' 00" W; BGN 1936; (map 17). Variant: Cape Jachach, Cape Yagak, Mys Yakhakh. Aleut name published by the Russians as "M[ys] Yakhakh," or "Cape Yakhakh" (in Tebenkov, 1852, map p. 28). This point was reported by Father Ioann Veniaminov as "Yagak," which he translated as "firewood" or "driftwood." This word may come from the Aleut word "Yagaqadaq" which, according to R. H. Geoghegan, means "firewood" or "firgrove."

Yakatag, Cape: point of land, see Yakataga, Cape.

Yakatag: village, see Cape Yakataga.

Yakataga Glacier: glacier, heads at E end of Dahlgren Ridge, in Robinson Mountains, trends SW 15 miles to its 1950 terminus at head of Yakataga River, Chugach Mountains; 60° 07' 30" N, 142° 16' 00" W; BGN 1945; (map 65). Name reported by A. C. Maddren (in Brooks and others, 1914, pl. 4), USGS.

Yakataga Reef: point of land, see Yakataga, Cape.

Yakataga Ridge: ridge, in Robinson Mountains, extends W from Guyot Glacier 10 miles to 1950 terminus of Yakataga Glacier, 92 miles NW of Yakutat, Chugach Mountains; 60° 06' 50" N, 142° 10' 00" W; BGN 1945; (map 65). Local name derived from Yakataga Glacier.

Yakataga River: stream, heads at Yakataga Glacier terminus, flows SW 10 miles, in two major channels: North Channel to Duktoth River 2 miles above its mouth; South Channel to Gulf of Alaska 2 miles W of Cape Yakataga, Chugach Mountains; 60° 06' 00" N, 142° 31' 00" W (N mouth); 60° 04' 30" N, 142° 28' 30" W (S mouth); BGN 1945; (map 65). Variant: Yaktag River. Local name reported in 1903 as "Yaktag" by G. C. Martin, USGS; spelling changed to agree with Cape Yakataga.

Yakataga River: stream, see North Channel Yakataga River.

Yakataga River: stream, see South Channel Yakataga River.

Yakataga, Cape: point of land, on Gulf of Alaska, 2.4 miles SW of Watson Peak and 100 miles NW of Yukutat, St. Elias Mountains; 60° 03' 40" N, 142° 26' 00" W; BGN 1908; (map 65). Variant: Cape Iaktag, Cape Yakaio, Cape Yakatag, Yokataga Reef. Tlingit Indian name published by Capt. Tebenkov (1852, map 7), IRN, as "M[ys] Yaktaga" on an 1849 map.

Yakataga: village, see Cape Yakataga.

Yakchilak: locality, on Helmick Point, 43 miles SW of Bethel, Yukon-Kuskokwim Delta, 60° 18' N, 162° 27' W; (map 58). Variant: Yachtshilagamiut, Yukhtokialgamute. Former Eskimo village reported in 1878 by E. W. Nelson, U.S. Signal Service, who gave its name as "Yukhtokialgamute." W. S. Post and J. E. Spurr, USGS, spelled the name "Yachtshilagamut," which they obtained in 1898 from J. H. Kilbuck, Moravian missionary.

Yakiao, Cape: point of land, see Yakataga, Cape.

Yakitat: village, see Yakutat.

Yaklak, Mys: point of land, see Aklek, Cape.

Yaklek: point of land, see Aklek, Cape.

Yakobi Island: island, 19 miles long, trends N- S, off NW coast of Chichagof Island, Alexander Archipelago; 57° 56' N, 136° 27' W; (map 9). Variant: Jacob Island, Jacobieff Island, Jakobi Island, Ostrov Yakobiya. Named in 1804 by Capt. U. T. Lisianski, IRN, probably for General Ivan Yakobi, "afterward the head of the Colonial Direction (U.S. Coast and Geodetic Survey 1883 p. 184)."

Yakobi Island: island, see Chichagof Island.

Yakobi Peak: mountain, 2,444 ft., on S central Yakobi Island, off W coast of Chichagof Island, 22 miles NW of Chichagof, 57° 55' N, 136° 27' W; (map 9). Name published in 1929 by USC&GS on Chart 8260; probably named for Yakobi Island.

Yakobi Rock: rock, off NW coast of Yakobi Island, 0.4 miles W of gingham Cove, 41 miles W of Hoonah, Alexander Archipelago; 58° 05' 10" N, 136° 33' 40" W; (map 10). Named in 1901 by J. F. Pratt, USC&GS for Yakobi Island; published on Chart 8304 in 1904.

Yakobiya, Ostrov: island, see Yakobi Island.

Yakorni Point: point of land, see Anchorage Point.

Yakorniy, Mys: point of land, see Anchorage Point.

Yaktag River: stream, see Yakataga River.

Yaktag, Cape: point of land, see Yakataga, Cape.

Yaktaga, Cape: point of land, see Yakataga, Cape.

Yakudat: village, see Yakutat.

Yakutania Point: point of land, in Taiya Inlet, 0.5 miles SW of Skagway, Coast Mountains; 59° 27' 10" N, 135° 20' 00" W; (map 45). Tlingit Indian name "Yakutan-ya," reported to mean "canoe-landing", published in 1923 on IBC Sheet 9 (1951 atlas).

Yakutanya Creek: stream, see Kasidaya Creek.

Yakutat Bay: bay, 18 miles across, extends SW from Disenchantment Bay to Gulf of Alaska, Malaspina Coastal Plain; 59° 40' N, 140° 00' W; BGN 1944; (map 46). Variant: Admiralty Bay, Almirantazgo, Amirante Bay, Bahia Admiralty, Baie de Monti, Bay of Yakutat, Behring Bay, Bering Bay, Jacootat Bay, Yacootat Bay. Tlingit Indian name reported as “Jacootat” and “Yacootat” by Lisianski in 1805. It was named “Baie de Monti” by La Perouse, who visited it in 1786, for one of his officers. In the same year Capt. Nathaniel Portlock named it “Admiralty Bay.” The Spaniards called it “Almirantazgo.” Bering's name (Bering Bay) has been applied to the feature on the assumption that he visited it in 1741. As a result of usage the native name “Yakutat” has been adopted.

Yakutat Colony: locality, see Glory of Russia.

Yakutat Foreland: area, between Dangerous River and Yakutat Bay, and St. Elias Mountains and Gulf of Alaska, Malaspina Coastal Plain; 59° 32' N, 139° 24' W; (map 46). Name reported by Tarr and Martin (1906, map), USGS.

Yakutat Glacier: glacier, heads at 59° 32' N, 138° 38' W, trends 11 miles SW to its 1961 terminus on Harlequin Lake, 29 miles E of Yakutat, St. Elias Mountains; 59° 28' N, 138° 54' W; (map 46). This name, derived from Yakutat Bay, was published in 1895 by USC&GS on Chart 8000.

Yakutat Roads: water passage, 2 miles long, trends NE between Monti Bay and Johnstone Passage, 1 mile NW of Yakutat, Malaspina Coastal Plain; 59° 33' 30" N, 139° 46' 00" W; (map 46). Named by Lt. Giles B. Harber, USN, in 1892 probably for Yakutat Bay. Name published in 1901 by USC&GS on Chart 8455.

Yakutat: village, pop. 230, on W end of Monti Bay, 210 miles NW of Juneau, Malaspina Coastal Plain; 59° 33' N, 139° 44' W; BGN 1944; (map 46). Variant: Yak'da't Hlahayik, Yakitat, Yakudat. Tlingit Indian village; the principal winter village of the Yakutats, a subtribe of the Tlingits, reported by Ivan Petroff in the 1880 Census. Its population was 500 in 1880, 300 in 1890, 271 in 1910, 165 in 1920, 265 in 1930, 292 in 1939, and 298 in 1950. The Yakitat post office was established in 1892 and discontinued in 1895. It was reestablished as “Yakutat” in 1901 (Ricks, 1965, P. 72).

Yakutskalitnik: locality, see Tutago.

Yakutsklitnik: locality, see Tutago.

Yakutzkelignik: locality, see Tutago.

Yalchikatna River: stream, see Iditarod River.

Yalchikatno River: stream, see Iditarod River.

Yale Arm College Fiord: estuary, extends NE 3.4 miles between College Fiord and Yale Glacier, 50 miles W of Valdez, Chugach Mountains; 61° 12' N, 147° 46' W; (map 69). Variant: East Arm Yale Fiord. Named in 1910 by Lawrence Martin (in Tarr and Martin, 1914, map 7).

Yale Creek: stream, flows S 5 miles to Igloo Creek which flows to American River, 34 miles NE of Teller, Seward Peninsula Highlands; 65° 28' N, 165° 18' W; (map 111). Prospectors' name reported in 1900 by Messrs. Kemp and David Fox (in Brooks, 1901, pl. 11).

Yale Glacier: glacier, heads between Mount Cardozo and Mount Einstein, trends SW 20 miles to Yale Arm College Fiord, 47 miles W of Valdez, Chugach Mountains; 61° 12' N, 147° 42' W; (map 69). Variant: Twin Glaciers. Named by members of the Harriman Alaska Expedition in 1899 for Yale University, New Haven, Conn. Harvard and Yale Glaciers were called "Twin Glaciers" in 1898 by Capt. E. F. Glenn, USA.

Yalik Bay: bay, 1 mile wide, at SW entrance to West Arm Nuka Bay, 40 miles E of Seldovia, Chugach Mountains; 59° 28' N, 150° 35' W; BGN 1929; (map 50). Variant: Cabin Bay. Named by U. S. Grant, USGS, in 1911, for an old settlement there (Grant and Higgins, 1913, pl. 2).

Yalik Glacier: glacier, heads at 59° 34' 30" N, 150° 47' 00" W, in Kenai Mountains, trends S 9 miles to its terminus 1.7 miles N of Nuka Passage, Chugach Mountains; 59° 27' 15" N, 150° 43' 00" W; BGN 1911; (map 50). Variant: Avis Glacier. Named by U. S. Grant, USGS, in 1911, for an abandoned Indian settlement on the shore of Yalik Bay.

Yalik Point: point of land, on NW shore of Nuka Bay, 40 miles E of Seldovia, Chugach Mountains; 59° 27' N, 150° 35' W; BGN 1929; (map 50). So named by USC&GS in 1929 because of its proximity to Yalik Bay.

Yalik: locality, on SE coast of Kenai Peninsula on shore of Yalik Bay, 38 miles E of Seldovia, Chugach Mountains; 59° 27' N, 150° 36' W; (map 50). Former Indian village reported in the 1880 Census, with a population of 32, by Ivan Petroff (1884, p. 29).

Yamani Cove: bay, 0.2 miles across, formed by Yamani Islets, at N point of entrance to Necker Bay, on SW coast of Baranof Island, Alexander Archipelago; 56° 40' 20" N, 135° 10' 30" W; BGN 1926; (map 5). Russian name from "yamisty" meaning "full of holes" given in 1925 by USC&GS because of "the islands which plug the bay."

Yamani Islets: islands, 0.8 miles across, at N point of entrance to Necker Bay, on SW coast of Baranof Island, Alexander Archipelago; 56° 40' 15" N, 135° 11' 00" W; (map 5). Variant: Ostrova Yamanyi. In 1850 this feature was named "O[stro]va Yamanyi," meaning "islands of holes [or pits]," by the Russian American Company.

Yamanyi, Ostrova: islands, see Yamani Islets.

Yanaliuk, Cape: point of land, on S coast of Unalaska Island, Aleutian Islands; 53° 32' 20" N, 166° 35' 30" W; BGN 1938; (map 23). Variant: Bog Cape, Cape Alexander, Cape Yanalyun, Ianaliun. Aleut name published as "M[ys] Yanalyun," or "Cape Yanalyun," by Capt. Tebenkov (1852, map 26), IRN. According to R. H. Geoghegan, this is possibly derived from the Aleut word "yunalgakuk," meaning "it is cut through." This point was called "Bog Cape" by USBF in 1888. It was also called "Alexander" by USC&GS in 1900.

Yanalyun, Cape: point of land, see Yanaliuk Cape.

Yancarnie Bay: estuary, see Yantarni Bay.

Yanert Fork: stream, heads at Yanert Glacier and flows NW 31 miles to Nenana River, 14 miles SE of Healy, Alaska Range; 63° 41' N, 148° 46' W; (map 87). Named for Sergeant William Yanert, USA, a member of the 1898 expedition under the command of Capt. Edwin F. Glenn, USA. Reported in 1910 by J. W. Bagley and D. C. Witherspoon (in Moffit, F. H., 1915, pl. 1), USGS.

Yanert Glacier: glacier, heads at 63° 38' N, 147° 18' W, and trends W 19 miles to head of Yanert Fork, 40 miles SE of Healy, Alaska Range; 63° 35' 45" N, 147° 52' 45" W; (map 87). Named for Sergeant William Yanert, USA. See Yanert Fork.

Yanert: locality, mile 343.7 on The Alaska Railroad, 13 miles S of Healy, Alaska Range; 63° 39' 40" N, 148° 50' 15" W; (map 87). Name of a railroad stop reported by The Alaska Railroad on its 1922 timetable.

Yankee Basin: valley, 0.6 miles long, at head of South Fork Cowee Creek, 2.4 miles NW of Terminus of Eagle Glacier and 24 miles NW of Juneau, Coast Mountains; 58° 35' N, 134° 49' W; (map 11). Name given by miners about 1903, published by C. W. Wright (in Spencer, 1906, p. 131); USGS.

Yankee Cove: cove, 0.2 miles across, on E shore of Favorite Channel, 1.2 miles NE of North Island and 26 miles NW of Juneau, Coast Mountains; 58° 35' 20" N, 134° 54' 05" W; (map 11). Local name published by C. W. Wright (in Spencer, 1906, p. 132 and pl. 37), USGS. In 1906 a 2-mile plank road ran from the beach at the head of the cove to a mining stamp mill.

Yankee Creek: stream, flows N 2 miles to Porcupine Creek, 2 miles NNE of Porcupine Dome and 45 miles SW of Circle, Yukon- Tanana Highlands; 65° 33' N, 145° 30' W; (map 104). Named by prospectors and reported in 1931 by Mertie (1937b, pl. 1), USGS.

Yankee Creek: stream, flows NE 13 miles to Innoko River, 8 miles SE of Ophir and 25 miles NW of McGrath, Kilbuck-Kuskokwim Mountains 63° 04' N, 156° 20' W; (map 90). Prospectors' name obtained in 1908 by Maddren (1910, pl. 1), USGS.

Yankee Creek: stream, flows W 3.5 miles, N of Snowshoe Pass to Glacier River, 1 mile S of mouth of Washington Creek and 10 miles NW of Wiseman, Brooks Range; 67° 30' N, 150° 25' W; (map 124). Local name reported in 1938 by Marshall (1956, p. 139).

Yankee Point: point of land, on W bank of Portland Canal, 2.3 miles NE of Glacier Point, Coast Mountains; 55° 50' 40" N, 130° 04' 25" W; (map 3). Name published in 1897 by USC&GS.

Yankee Ridge: ridge, elev. 1,800-2,600 ft., extends 8 miles on S bank of Old Crow River, SW of Ammerman Mountain, 3 miles W of Alaska-Canada boundary and 59 miles E of Table Mountain, Porcupine Plateau; 68° 18' N, 141° 15' W; (map 137). Local name reported in 1956 by USGS.

Yankee River: stream, heads in York Mountains, flows to Lopp Lagoon, 43 miles NW of Teller, Seward Peninsula Highlands; 65° 43' N, 167° 22' W (map 111). Prospectors' name reported in 1900 by Brooks (1901, pl. 13), USGS.

Yankee Slough: stream, flows SW 5.5 miles to St. Joe Creek 1 mile N of its junction with Yukon River, 55 miles SE of Unalakleet, Innoko Lowland; 63° 14' 45" N, 159° 41' 00" W; (map 91). Local name reported in 1949 by USC&GS.

Yanovski, Mount: mountain, 3,492 ft., 8 miles NE of Whale Bay, on S central Baranof Island, Alexander Archipelago; 56° 38' 30" N, 134° 48' 30" W, BGN 1935; (map 5). Named in 1935 by USFS "for Semeon Ivanovich Yanovski, Governor of Russian America from October 24, 1818, to September 15, 1820."

Yantar, Reka: stream, see Amber Creek.

Yantarni Bay: estuary, 4 miles long, on S coast of Alaska Peninsula, NE of Cape Kunmik, Aleutian Range; 56° 48' N, 157° 07' W; (map 31). Variant: Baie d'Ambre Jaoune, Yancarnie Bay, Yantarnie Bay, Zaliv Yantarniy. So named by the Russians because of the reported occurrence of "yantarni," or "amber," here; published in French as "Baie d'Ambre Jaoune" by von Krusenstern (1827, map 20), IRN, and as "Z[aliv] Yantarniy" by the Russian Hydrog. Dept. Chart 1379 in 1847.

Yantarni Creek: stream, on Alaska Peninsula, flows SE 8 miles to head of Yantarni Bay, 6.5 miles N of Cape Kunmik, Aleutian Range; 56° 52' N, 157° 11' W; (map 31). Local name reported in 1951 by USGS.

Yantarnie Bay: estuary, see Yantarni Bay.

Yantarniy, Zaliv: bay, see Amber Bay.

Yantarniy, Zaliv: estuary, see Yantarni Bay

Yantnu River: stream, see Yentna River.

Yaponskoi Island: island, see Japonski Island.

Yaponskoy, Ostrov: island, see Japonski Island.

Yar'am-anatu'ulug: point of land, at W end of Great East Rookery, on NE coast of St. George Island, in Pribilof Islands; 56° 36' 20" N, 169° 29' 35" W; (map 38). Aleut name reported by Putnam (1903, p. 1016), USC&GS, meaning "narrow point."

Yarboro Inlet: estuary, see Yarborough Inlet.

Yarborough Inlet: estuary, of W channel of Sagavanirktok River, near E entrance to Prudhoe Bay, 24 miles SE of Beechey Point, Arctic Plain; (map 150). Variant: Yarboro Inlet. So named by Franklin (1828, p. 159), RN, Aug. 16, 1826. Leffingwell (1919, p. 89) writes, "no inlet exists, unless it is the western mouth of the river." Marcus Baker (1906, p. 685) spells it Yarboro.

Yarger Lake: lake, 1.4 miles long, between Alaska Highway and Chisana River, 5.5 miles SE of Northway Junction, Alaska Range; 62° 58' N, 141° 39' W; (map 84). Local name reported in 1954 by USGS.

Yarrow Creek: stream, flows NE Island 1 mile to Eldorado Creek which flows to Noxapaga River, 26 miles NW of Imuruk Lake, Seward Peninsula Highlands. 65° 42' N, 164° 08' W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Yarukturuk Creek: stream, see Uyakturok Creek.

Yas Bay: estuary, see Yes Bay.

Yasha Island: island, 0.2 miles across, in Chatham Strait, 5 miles S of Admiralty Island and 30 miles SE of Sitka, Alexander Archipelago; 56° 58' 00" N, 134° 33' 30" W; (map 5). Russian name, diminutive of "Yakov" and equivalent to the English "Jacob"; probably first applied to this island in 1809 by Ivan Vasiliev the first.

Yasni Island: island, see Andronica Island.

Yasuda Mountain: mountain, 5,200 ft., 4 miles W of Nichenthrav Mountain and 20 miles N of Arctic Village, Brooks Range; 68° 25' N, 145° 32' W; (map 136). Locally named for Frank Yasuda who came to Alaska about 1900; reported in 1926 by J. B. Mertie, Jr. (in Smith, P. S., and others, 1929, pl. 1), USGS.

Yath-ta-gotna River: stream, see Iditarod River.

Yatseha Hini: stream, see Yahtse River.

Yatshergamut: locality, see Yacherk.

Yatuk Creek: stream, on W coast of Prince of Wales Island, flows S 4 miles to Naukati Bay, 30 miles N of Craig, Alexander Archipelago; 55° 53' 25" N, 133° 09' 20" W; (map 4). Indian name recorded in 1949 by USGS.

Yayik Peninsula: peninsula, see Chilkat Peninsula.

Yealthanuk Mountain: mountain, see Surgeon Mountain.

Yealthkaklatselahini: stream, see Little Boulder Creek.

Yearling Lake: lake, 0.5 miles long, on Kenai Peninsula NE of Camp Island Lake, 20 miles NE of Kenai, Cook Inlet Lowland; 60° 38' 15" N, 150° 41' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Yeatman, Mount: mountain, 5,670 ft., at head of Irene Glacier, 5.4 miles W of Mount Carmack and 8 miles NW of Skagway, Coast Mountains; 59° 33' 30" N, 135° 24' 15" W; (map 45). Named in 1898 by J. A. Flemer, USC&GS.

Yedokyeovskiye, Ostrova: islands, see Semidi Islands.

Yeek Sha Mountain: mountain, 2,320 ft., on Admiralty Island, 2 miles S of Pleasant Bay, on E shore of Seymour Bay, 49 miles S of Juneau, Alexander Archipelago; 57° 36' 30" N, 133° 59' 45" W; (map 8) Tlingit Indian name reported in 1951 by USGS.

Yehldagahl Creek: stream, see Yeldagalga Creek.

Yehring Creek: stream, heads in glacier, flows S 8 miles to Taku River, 5 miles SW of Canyon Island and 27 miles NE of Juneau, Coast Mountains; 58° 30' 00" N, 133° 48' 10" W; BGN 1932; (map 12). Local name reported in 1932 by B. D. Stewart, USGS, named for Oscar Yehring, a settler who resided in the vicinity of the mouth of this stream.

Yekgolm Ekgalit-tch, Ostrova: islands, see Eck-holms, The.

Yekuk: village, see Ekuk.

Yekuk: village, see Ekwok.

Yelchthini: stream, see Kelsall River.

Yeldagalga Creek: stream, heads 1 mile NW of Sinclair Mountain, flows 4 miles W to Chilkoot Inlet, 3.2 miles ENE of Seduction Point and 25 miles S of Skagway, Coast Mountains; 59° 06' 05" N, 135° 13' 20" W; (map 45). Variant: Yehldagahl Creek. Tlingit Indian name published in 1923 on IBC Sheet 9 (1951 atlas).

Yellow Bear Mountain: mountain, 3,050 ft., of central Admiralty Island, 6 miles S of Hasselborg Lake and 14 miles NE of Angoon, Alexander Archipelago; 57° 34' 10" N, 134° 13' 30" W; BGN 1928; (map 9) Named in 1925 by H. J. Coolidge "after a bear I got there whose hair was almost all a light sandy yellow color."

Yellow Bluff Creek: stream, on Alaska Peninsula, flows N 17 miles to Port Heiden, 15 miles S of Port Heiden Airfield, Bristol Bay Lowland; 56° 46' N, 158° 44' W; (map 30). Descriptive name reported in 1923 by R. H. Sargent, USGS.

Yellow Cliffs: cliffs, on E coast of Knight Island, 2 miles SE of Iron Mountain and 16 miles NE of Chenega, Chugach Mountains; 60° 20' 30" N, 147° 38' 20" W; (map 63). Descriptive name published in 1930 by USC&GS.

Yellow Creek: stream, flows NW 4 miles to Beaver Creek, 80 miles W of Circle, Yukon-Tanana Highlands; 65° 46' 10" N, 146° 45' 10" W; (map 104). Named by prospectors and published in 1906 by USGS.

Yellow Creek: stream, flows SE 12 miles to Kvichak River, 60 miles NE of Dillingham, Bristol Bay Lowland; 59° 11' N, 156° 46' W; (map 52). Local name reported in 1952 by USGS.

Yellow Creek: stream, flows W 1.8 miles to Lynx Creek, 1.5 miles W of Lynx Dome and 26 miles WNW of Tanana, Kokrines-Hodzana Highlands; 65° 16' 00" N, 152° 56' 30" W; (map 106). Prospectors' name reported in 1956 by R. M. Chapman, USGS.

Yellow Creek: stream, in Kantishna Hills, flows N 1.4 miles to Glacier Creek, 5.5 miles NNE of Wonder Lake, Alaska Range; 63° 34' 10" N, 150° 50' 05" W; BGN 1932; (map 88). Local name shown on a 1916 fieldsheet by C. E. Giffin, USGS.

Yellow Hill: hill, 540 ft., on SW coast of Annette Island, 1.7 miles S of Metlakatla, Alexander Archipelago; 55° 06' 10" N, 131° 34' 29" W; (map 3). Descriptive name given in 1883 by Lt. Comdr. H. E. Nichols, USN.

Yellow Island: island, 0.3 miles long, off S coast of Kupreanof Island, Alexander Archipelago; 56° 25' 45" N, 133° 32' 45" W; (map 6). Local name recorded in 1949 by USGS.

Yellow Jacket Creek: stream, flows S 3 miles to East Fork Matanuska River 55 miles NE of Palmer, Copper River Basin; 61° 47' 35" N, 147° 30' 05" W; BGN 1952; (map 69). Variant: Iron Creek. Local name reported by C. F. Fuechsel, USGS, in 1950. So named because the rocks along the side of the stream are "bright yellow, red, and white."

Yellow Point: point of land, in Peril Strait, on Baranof Island, 0.7 miles N of Middle Point and 28 miles NW of Sitka, Alexander Archipelago; 57° 26' 50" N, 135° 33' 00" W; (map 9). Variant: Mys Zheltyy, Zholti Point. An 1882 translation by USC&GS of name published in 1848 on Russian Hydrog. Dept. Chart 1397 as "M[ys] Zheltyy."

Yellow Point: point of land, on NE shore of Tamgas Harbor, Annette Island, Alexander Archipelago; 55° 04' 12" N, 131° 32' 12" W; BGN 1901: (map 3). Variant: Signal Point. This point was probably named in 1883 by Lt. Comdr. H. E. Nichols, USN; called "Signal Point" by USC&GS in 1886.

Yellow Pup: stream, flows NE 1 mile to Pearl Creek, 15 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 59' 20" N, 147° 17' 40" W; BGN 1933; (map 100). Variant: Pearl Creek, Yellow Pup Creek. Local name reported in 1913 by T. Chapin (in Brooks and others, 1914, fig. 5), USGS.

Yellow River: stream, flows SW 60 miles to Anvik River, 57 miles NW of Holy Cross, Nulato Hills; 62° 55' N, 160° 41' W; (map 78). Prospectors' descriptive name reported in 1916 by G. L. Harrington (in Brooks and others, 1918,p1. 16),USGS.

Yellow River: stream, flows to the central section of Kuskokwim River. During the winter of 1900-01, a typical dogsled stampede to the Kuskokwim Valley was made by a large number of men from Nome. The movement was based on rumors of the discovery of placer gold on a stream designated as the Yellow River, but the location of this stream has never been determined. The stampede was called the "Yellow River stampede" or the "Pete McDonald stampede" (Brooks and others, 1915, p. 299).

Yellow Rock: rock, on NE coast of Baranof Island in Kelp Bay, NE of Crow Island, 15 miles N of Baranof, Alexander Archipelago; 57° 18' 15" N, 134° 54' 00" W; (map 9). Descriptive name given in 1895 by Lt. Comdr. E. K. Moore, USN.

Yellow Rocks: islands, 0.3 miles long, NE of Dixon Entrance, 6.5 miles S of Duke Island, Alexander Archipelago; 54° 47' 30" N, 131° 13' 45" W; (map 2). Descriptive name given in 1883 by Lt. Comdr. H. E. Nichols, USN.

Yellow Water Creek: stream, flows S 8.2 miles to Scottie Creek, 21 miles N of Point where Alaska Highway crosses Alaska-Canada boundary, Alaska Range; 62° 54' 50" N, 141° 00' 10" W; BGN 1912; (map 84). Name reported in 1912 by Thomas Riggs, IBC, "because of the water's yellow appearance."

Yellow Water Creek: stream, see Swamp Creek.

Yellowjacket Creek: stream, flows NE 13 miles to Talkeetna River, 15 miles N of Talkeetna Glacier and 51 miles E of Talkeetna, Talkeetna Mountains; 62° 24' 20" N, 148° 31' 50" W; (map 82). Local name recorded in 1906 by T. G. Gerdine and R. H. Sargent, USGS.

Yellowstone Creek: stream, flows NW 4.4 miles to Willow Creek, 0.1 mile E of Port Clarence and 5 miles SW of Teller, Seward Peninsula Highlands; 61° 15' 09" N, 166° 28' W; (map 111). Local name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Yellowy Island: island, see Spruce Island.

Yelnu Islets: islands, group extends 0.2 miles, in Pearse Canal, 0.9 miles S of Hidden Inlet, Coast Mountains; 54° 56' N, 130° 20' W; BGN 1937; (map 2). Variant: Swirl Islands, Yentnoo Islets. Local name recorded in 1936 by USC&GS.

Yelovoi Island: island, see Spruce Island.

Yelovoi, Ostrov: island, see Spruce Island.

Yelovoi: locality, on SW coast of Spruce Island in Narrow Strait, 7.5 miles N of Kodiak, Kodiak Island; 57° 54' N, 152° 24' W; (map 34). Russian name for a former Eskimo village or camp, reported in the 1880 Census, with a population of 78, by Petroff (1884, p. 28).

Yelovoi: point of land, see Uzinki Point.

Yelovoy Vneshney, Mys: point of land, see Spruce Cape.

Yelovoy, Mys: point of land, see Uzinki Point.

Yelovoy, Ostrov: island, see Elovoi Island.

Yelovoy, Proliv: water passage, see Narrow Strait.

Yelowoi Island: island, see Elovoi Island.

Yelowy Island: island, see Spruce Island.

Yelper Cove: cove, on Hinchinbrook Island, at NW entrance to Hawkins Island Cutoff, 22 miles SW of Cordova, Chugach Mountains; 60° 28' N, 146° 23' W; (map 64). Name published in 1950 by USGS.

Yeltakaska Creek: stream, see Little Boulder Creek.

Yempalizda, Mys de la: point of land, see Palisade Point.

Yende'staq!e: locality, see Gantegastaki.

Yendestaka: locality, see Gantegastaki.

Yenituk Creek: stream, flows SE 7 miles to John River 9 miles NE of Cairn Mountain and 67 miles NW of Wiseman, Brooks Range; 67° 57' 00" N, 152° 13' 00" W; BGN 1932; (map 124). Eskimo name reported about 1930 by Marshall (1956, p. 107) who wrote, "near the mouth of a minor western tributary, Yenituck (white face) Creek * * *. Its name refers to the appearance of the hills in which the stream rises."

Yenlo Creek: stream, heads in lake W of Willow Mountain, flows SE 15.5 miles to Lake Creek, 33 miles SE of Talkeetna, Cook Inlet Lowland; 62° 03' 45" N, 150° 59' 20" W; (map 81). Prospectors' name reported in 1906 by R. W. Porter, USGS.

Yenlo Hills: ridge, extends N-S 10 miles, 37 miles SW of Talkeetna, Alaska Range; 62° 08' N, 151° 16' W; (map 81). Local name reported in 1911 by S. R. Capps (in Brooks and others, 1912, pl. 9), USGS.

Yenlo, Mount: mountain, 3,961 ft., in Yenlo Hills, 39 miles SW of Talkeetna, Alaska Range; 62° 09' N, 151° 16' W; (map 81). Named in 1898 by J. E. Spurr and W. S. Post, USGS.

Yentna Glacier: glacier, heads in Mount McKinley National Park, trends SW 20 miles to its terminus at East Fork Yentna River, 60 miles NW of Talkeetna, Alaska Range; 62° 35' 30" N, 151° 53' 30" W; (map 81). Name published by Cook (1908, p. 157).

Yentna River: stream, formed by its East and West Forks at 62° 16' 50" N, 151° 43' 10" W, flows SE 75 miles to Susitna River, 30 miles NW of Anchorage, Cook Inlet Lowland; 61° 33' 45" N, 150° 28' 30" W; (map 70). Variant: Johnson River, Katcheldat River, Yadno River, Yantnu River, Yetna River. Tanaina Indian name reported by Spurr (1900, p. 46), USGS. "Sometimes called Johnson River after the first white man to ascend it."

Yentnoo Islets: islands, see Yelnu Islets.

Yeri Pass: pass, see Yori Pass.

Yermak Lake: lake, 1.1 miles long, 2.5 miles S of Gut Bay, on SE coast of Baranof Island, Alexander Archipelago; 56° 41' 45" N, 134° 39' 30" W, BGN 1935; (map 5). Named in 1935 by USFS "for a ship in fleet brought to Sitka by Baranof in 1804 when he re-established the post after an absence of two years." See Baranof Island.

Yerrick Creek: stream, heads on Mount Neuberger and flows N to Tanana River, 6.5 miles W of Tanacross, Alaska Range; 63° 24' N, 143° 33' W; (map 85). Local name published by USGS in 1951.

Yes Bay: estuary, extends NW 6 miles off Behm Canal, on NE coast of Cleveland Peninsula, Alexander Archipelago; 55° 53' N, 131° 44' W; BGN 1899; (map 3). Variant: McDonald Bay, Yaas Bay Yas Bay, Yess Bay. Name published as "Yess Bay" in the 11th Census in 1890 (1893, p. 23); derived from the Tlingit Indian word "yes" meaning "mussel." This feature was called "McDonald Bay" in 1879 by W. H. Dall, USC&GS.

Yes Bay: locality, on NE coast of Cleveland Peninsula, 3 miles N of Spacious Bay, Alexander Archipelago 55° 55' N, 131° 48' W; BGN 1890; (map 3). Variant: Yess Bay, Yes, McDonald. This is the site of an abandoned cannery which was established in 1886. Published as "Yess Bay * * * about 30 Chinese usually employed here, with a dozen white men, and a large number of native [Indian] men and women" (11th Census in 1890, 1893, p. 23).

Yes: locality, see Yes Bay.

Yess Bay: estuary, see Yes Bay.

Yess Bay: locality, see Yes Bay.

Yestrelya, Zaliv de la: estuary, see Estrella Port.

Yetna Creek: stream, flows E 10 miles to Copper River, 0.3 miles N of Copper Center and 66 miles NE of Valdez, Copper River Basin; 61° 57' 30" N, 145° 17' 30" W; (map 68). Local name published in 1950 by USGS.

Yetna River: stream, formed by confluence of Big and Little Yetna Rivers flows NE 60 miles to Iditarod River, 43 miles NE of Holikachuck and 55 miles W of Ophir, Innoko Lowland; 63° 10' 45" N, 158° 16' 00" W, (map 90). Local name obtained in 1954 by R. E. Isto. USGS.

Yetna River: stream, see Yentna River.

Yevvashichey, Zaliv: bay, see Marmot Bay.

Yindastuki Indian Reservation: locality, see Gantegastaki.

Yindastuki: locality, see Gantegastaki.

Yistletaw: locality, on right bank of Yukon River, 23 miles NE of Nulato, Koyukuk Lowland; 64° 49' N, 157° 22' W; (map 97). Indian fish camp reported in 1952 by USGS

Yklyk: mountain, see Barometer Mountain.

Yllota Slough: stream, anabranh of Yukon River at Fort Yukon, flows NW 2.3 miles, Yukon Flats; 66° 33' 30" N, 145° 14' 40" W; (map 119). Local name obtained in 1956 by USGS.

Ynveeghik River: stream, flows NW 7 miles to lagoon, 2 miles SW of Tikukha Point, N coast of St. Lawrence Island; 63° 34' N, 170° 57' W; BGN 1951; (map 93). Variant: Anvik River, Ingresik, River. Eskimo name more correctly rendered “Ingresik,” meaning “rising slope.” The entry spelling was reported in 1949 by Maj. H. B. Allen, USAF.

Yoder Lake: lake, 0.6 miles long, 0.9 miles NNW of Blackfish Lake, 21 miles SSW of village of Lake Minchumina, Tanana Lowland; 63° 37' 45” N, 152° 41' 30” W; (map 88). Local name obtained in 1958 from Fabian Carey and “Val” Blackburn by USGS.

Yohn Lake: lake, 0.6 miles long, W of Little Susitna River, 19 miles NW of Anchorage, Cook Inlet Lowland; 61° 28' 10” N, 150° 10' 30” W; (map 70). Local name reported in 1958 by USGS.

Yokakek: locality, on right bank of Yukon River, 56 miles E of Nulato, Koyukuk Lowland; 64° 43' N, 156° 13' W; (map 97). Koyukan Indian camp shown on a 1905 manuscript navigation chart of the Yukon River.

Yoke Bay: bay, 3 miles across, on SE coast of Great Sitkin Island, Aleutian Islands; 52° 00' 30” N, 176° 00' 00” W; BGN 1 936; (map 17). So named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934, because “its shape suggests the letter v Yoke is the name for the letter Y when sent by signal.”

Yoke Mountain: mountain, 2,539 ft., with 2 peaks called North Yoke and South Yoke Mountains, 4 miles E of Jacksmith Bay and 28 miles N F Goodnews, Kilbuck-Kuskokwim Mountains; 59° 30' N, 161° 38' W; (map 53). Named “North Yoke” and “South Yoke” in 1914 by USC&GS.

Yoke Pass: water passage, between Great Sitkin Island and Igitkin Bank, Aleutian Islands; 51° 59' 00” N, 176° 00' 50” W; BGN 1936; (map 17). Name derived from Yoke Bay, and given by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

Yokeak Creek: stream, see Big Boulder Creek.

Yokneda Lakes: lakes, group, 2 miles across, 4.7 miles S of Chistochina and 37 miles NE of Glennallen, Copper River Basin; 62° 29' N, 144° 42' W; (map 83). Indian name reported in 1949 by USGS.

Yokontah Slough: watercourse, see Yokontoh Slough.

Yokontoh Slough: watercourse, 5 miles long, anabranch of Yukon River, SE of Blackburn Island and 54 miles SE of Unalakleet, Innoko Lowland; 63° 21' 35” N, 159° 28' 10” W; BGN 1960; (map 91). Variant: Papa Willie Creek, Yokontah Slough, Yukontoh Slough. Indian name reported in 1935 by Frederica de Laguna, BAE.

Yokuchargut Creek: stream, see Hess Creek.

Yondestuk: locality, see Gantegastaki.

Yori Pass: pass, 3,700 ft., near head of Contact Creek, on Alaska Peninsula, in Katmai National Monument, 25 miles NW of Mount Katmai, Aleutian Range; 58° 20' 15" N, 155° 38' 45" W; (map 42). Variant: Yeri Pass. Named by R. F. Griggs for Charles Yori, his assistant on the 1919 National Geographic Society Katmai Expedition.

York Creek: stream, 4 miles long, flows W to Glacier Bay E of S tip of South Marble Island, in Glacier Bay National Monument, St. Elias Mountains; 58° 38' 25" N, 135° 55' 00" W; BGN 1948; (map 11). Variant: York River. Named in 1948 for William York, a camp helper for a time with H. F. Reid's expedition in 1892.

York Creek: stream, heads in York Mountains, flows NE 18 miles to Pinguk River which flows to Arctic Lagoon, 40 miles NW of Teller, Seward Peninsula Highlands; 65° 46' N, 167° 02' W; (map 111). Prospectors' name reported in 1903 by Collier (1904, pl. 2), USGS.

York Mountains: mountains, in group, 18 miles long and 10 miles wide, on S coast Seward Peninsula, 20 miles SE of Cape Prince of Wales and 25 miles NW of Teller, Seward Peninsula Highlands; 65° 30' N, 167° 15' W; (map 111). Local name reported in 1900 by Brooks (1901, pl. 3), USGS.

York River: stream, see York Creek.

York, Cape: point of land, about 6 miles SW of York Mountains, on Bering Sea, 35 miles NW of Teller, Seward Peninsula Highlands; 65° 25' N, 167° 28' W; (map 111). Variant: Mys Iork, Mys Vork. Named in 1827 by Capt. Beechey (1831, p. 541), RN, "in honor of his late Royal Highness," the Duke of York of England.

York: locality, on Bering Sea coast, at mouth of Anikovik River, 14 miles SW of Cape Prince of Wales and 41 miles NW of Teller, Seward Peninsula Highlands; 65° 30' N, 167° 41' W; (map 111). Site of a mining camp established in 1899. Brooks (1901, p. 69), USGS, noted: "In the spring of 1900 York promised to be a place of importance, but in the early fall its population had been reduced to about twenty or thirty." Upon Brooks' return to the States, he widely disseminated the announcement that stream tin had been found in the vicinity of York (Steidtmann and Cathcart, 1922, p. 13-14). The camp probably had a resurgence of people for "In the latter part of the season [1901], a great many prospectors searched the York region for tin" (Collier, 1904, p. 11). A post office was established here in 1900 and was discontinued in 1902 (Ricks, 1965, p. 72). By 1907 York was described as "a small collection of cabins and tents" (Collier and others, 1908, p. 59).

You Creek: stream, heads at E end of Brooks Range; flows SE 7 miles across Alaska-Canada boundary to Firth River in Yukon, Canada; 68° 40' 30" N, 140° 55' 00" W; (map 137). Local name reported in 1956 by USGS.

Youcon: stream, see Yukon River.

Youghapotit Rocks: rocks, 14 miles SE of Siknik Cape, 14 miles NW of Southeast Cape, off St. Lawrence Island; 63° 04' N, 169° 57' W; BGN 1951; (map 93). Variant: Ukhapatit. Eskimo name more correctly rendered "Ukhatatit"; reported in 1949 by Maj. H. B. Allen, USAF.

Youkolny: island, see Ukolnoi Island.

Youlak Island: island, see Ulak Island.

Younaska Island: island, see Yunaska Island.

Young Bay: bay, 5 miles across, on N coast of Admiralty Island, W of Point Young, 12 miles SW of Juneau, Coast Mountains; 58° 10' N, 134° 40' W; (map 11). Apparently named by W. H. Dall, USC&GS, and published in 1883 Coast Pilot (p. 172). The name probably derived from Point Young which was named by Capt. George Vancouver, RN, in 1794.

Young Beach: beach, on N coast of Admiralty Island, 0.2 miles SW of Point Young and 9 miles SW of Juneau, Alexander Archipelago; 58° 11' 30" N, 134° 34' 15" W; (map 11). Local name published in 1951 by USGS.

Young Creek: stream, flows 4.5 miles SE to Rock Lake, 5 miles N of Pingpong Mountain and 59 miles NE of McCarty, Alaska Range; 61° 48' 20" N, 141° 19' 00" W; (map 67). Local name obtained by USGS and published on maps since 1954.

Young Creek: stream, flows N 5 miles to Wood River 33 miles SE of Healy, Alaska Range; 63° 45' N, 147° 53' W; (map 87). Local name reported in 1910 by J. W. Bagley (in Capps, 1912, pl. 2), USGS.

Young Creek: stream, flows S 9 miles to Kings River, 16 miles NE of Palmer, Chugach Mountains; 61° 44' 55" N, 148° 42' 25" W; (map 69). Variant: Little Kings Creek, Youngs Creek. Named by Capt. E. F. Glenn, USA, in 1898, after Cpl. Young [cna], a member of his party.

Young Creek: stream, heads at glacier terminus and flows 28 miles NW to Nizina River, 3 miles SE of McCarthy, St. Elias Mountains; 61° 22' N, 142° 37' W; (map 67). Named in 1901 by T. G. Gerdine (Moffit, 1914, pl. 13, USGS, for Robert Young, a member of his party.

Young Glacier: glacier, see Dawes Glacier.

Young Goose Creek: stream, flows NE 4 miles to West Fork Buckland River, 41 miles NE of Haycock, Seward Peninsula Highlands; 65° 45' N, 160° 35' W; (map 109). Local name published on maps after 1950.

Young Hill: mountain, 2,360 ft., 1.4 miles SE of Winter Lake, Attu Island, Aleutian Islands; 52° 55' 23" N, 173° 02' 05" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II; name shown on an AMS map published in 1948.

Young Island: island, 2 miles across, in Beardslee Islands, in Glacier Bay, Glacier Bay National Monument, 0.2 miles NW of Lester Island, and 57 miles WNW of Juneau, St. Elias Mountains; 58° 28' 30" N, 135° 58' 30" W. BGN 1948; (map 11). Named in 1938 by a USC&GS field party for Rev. S. Hall Young, who accompanied John Muir to Glacier Bay in 1879-80.

Young Island: island, bounded by Huntington Slough and Koyukuk River, 21 miles NE of, Roundabout Mountain, Koyukuk Lowland; 65° 49' N, 156° 17' W; (map 108). Variant: Dall

Island, Dolls Island. "River boat name" reported in 1900 by Lt. B. H. Camden, USRCS. This may be the same island Lt. H. T. Allen, USA, in 1885 called "Dall Island" for W. H. Dall, USC&GS.

Young Lake: lake, 6 miles long, on Admiralty Creek, 4 miles SE of Admiralty Cove and 12 miles SSW of Juneau, Alexander Archipelago; 58° 08' 00" N, 134° 29' 30" W; (map 11). Local name published in 1946 by USFS.

Young Rock: rock, 7.5 miles S of Wrangell, off N coast of Etolin Island, Alexander Archipelago; 56° 21' 30" N, 132° 23' 10" W; (map 6). Named in 1882 by USC&GS for Rev. Samuel Hall Young who discovered this rock the same year.

Young, Mount: mountain, 5,700 ft., on boundary of Glacier Bay National Monument, in Chilkat Range, 4.3 miles NE of Endicott Lake and 57 miles NW of Juneau, St. Elias Mountains; 58° 51' 45" N, 135° 34' 35" W; (map 11). Named in 1892 by Harry F. Reid, USGS, for Rev. S. Hall Young, who accompanied John Muir to Glacier Bay in 1879-80 (Reid, 1892, p. 30).

Young, Point: point of land, in Stephens Passage, on N. coast of Admiralty Island, 0.5 miles NE of Admiralty Cove and 9 miles SW of Juneau, Alexander Archipelago; 58° 11' 45" N, 134° 33' 30" W; (map 11). Discovered by Joseph Whidbey, RN, and named in 1794 by Capt. George Vancouver, RN, for Adm. Sir George Young, RN (Wagner, 1937, p. 422).

Younger Creek: stream, heads in Canada, flows W 3 miles to Poker Creek, 52 miles S of Eagle, Yukon-Tanana Highlands; 64° 03' N, 141° 02' W; (map 102). Named by prospectors; reported in 1896 by Spurr (1898, pl. 46), USGS.

Youngs Creek: stream, see Young Creek.

Youngs Island: island, 3.9 miles long, between Yukon River and Pike Slough, 4 miles SW of Birches, Nowitna Lowland; 65° 05' N, 153° 41' W; (map 107). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the Department of the Interior.

Youngstown Bend: bend, in Yentna River 10 miles SW of Collinsville and 50 miles SW of Talkeetna, Alaska Range; 62° 13' 45" N, 151° 38' 30" W; (map 81). Local name reported in 1958 by USGS.

Youngstown: locality, site of settlement, on E bank of Yentna River, at Youngstown Bend, 50 miles SW of Talkeetna, Alaska Range; 62° 13' 50" N, 151° 39' 00" W; (map 81). Name reported in 1906 by R. W. Porter, USGS.

Younnglik River: stream, see Yuonglik River.

Youp-nut: stream, see Anikovik River.

Your Creek: stream, flows SE 46 miles to Middle Fork Chandalar River, 14 miles E of Bend Mountain and 28 miles NE of Chandalar, Brooks Range; 67° 47' N, 147° 46' W; (map 123). Prospectors' name obtained in 1909 by A. G. Maddren (in Brooks and others, 1910, pl. 7), USGS.

Youth Creek: stream, flows SE 12 miles to Lake Aleknagik, 34 miles NW of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 26' N, 159° 01' W; BGN 1931; (map 53). Local name given by Frank Waskey, local trader and prospector; reported in 1931 by Gerald FitzGerald, USGS.

Ysleta: island, see Isleta.

Yslotillos, Punta de los: point of land, see Isleta, Point.

Yubae Wan: bay, see Temnac Bay.

Yucon: stream, see Yukon River.

Yug Point: point of land, on S tip of Little Kiska Island, Aleutian Islands; 51° 56' 40" N, 177° 39' 10" E; BGN 1937; (map 14). Variant: South Cape. Russian word "Yug," meaning "south," given in 1933 by the Hydrog. Office of the U.S. Navy. It was reported in 1905 as "South Cape" by USC&GS.

Yugnak Rocks: rocks, see Yugnat Rocks.

Yugnat Rocks: rocks, group, extends 1 mile in Shelikof Strait, 1.5 miles E of Kukak Point, on S coast of Alaska Peninsula, in Katmai National Monument, 34 miles NE of Mount Katmai, Aleutian Range; 58° 20' 50" N, 154° 02' 30" W; (map 42). Variant: Kamen Yugnat, Yugnak Rocks. Native name reported in 1831 by Ens. Vasiliev and published in 1847 as "K[amen] Yugnat" on Russian Hydrog. Dept. Chart 1378.

Yugok Lake: lake, 0.4 miles long, on Kenai Peninsula between Chick and Paddle Lakes, 30 miles NE of Kenai, Cook Inlet Lowland; 60° 45' 40" N, 150° 30' 45" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Yuka Mountain: mountain, see Yuki Mountain.

Yukagamut: locality, see Akahamut.

Yukagamut: locality, see Nunaikak.

Yukagamute: locality, see Nunaikak.

Yukamak: island, see Chirikof Island.

Yukamut: locality, see Akahamut.

Yukaniluk Creek: stream, heads in a lake and flows W 17 miles to Little Bogus Creek, 7 miles NE of Tuluksak and 48 miles SE of Russian Mission, Yukon-Kuskokwim Delta; 61° 10' N, 160° 47' W; (map 73). Local name reported by USC&GS in 1948.

Yukhtokialgamute: locality, see Yakchilak.

Yuki Island: island, in Yukon River, 60 miles E of Nulato, Kilbuck-Kuskokwim Mountains; 64° 43' N, 156° 04' W; (map 97). Variant: Yukie Island. Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by U.S. Dept. of Interior.

Yuki Mountain: mountain, 2,149 ft., 23 miles SW of Ruby, Kilbuck-Kuskokwim Mountains; 64° 28' N, 155° 53' W; (map 98). Variant: Yuka Mountain, Yuko Mountain. Name reported as "Yuko Mountain" in 1921 by USGS; named for the nearby stream

Yuki River: stream, flows NE 85 miles to Yukon River, 59 miles E of Nulato, Kilbuck-Kuskokwim Mountains; 64° 43' N, 156° 07' W; (map 97). Local name reported in 1954 by USGS.

Yukie Island: island, see Yuki Island.

Yukkhana, Reka: stream, see Kwikpak Pass.

Yukla Creek: stream, see Eagle River.

Yukla, Mount: mountain, 7,535 ft., 7.5 miles NE of Moraine Pass and 26 miles E of Anchorage Chugach Mountains; 61° 11' 30" N, 149° 06' 30" W BGN 1964; (map 69). Named in 1963 by members of the Mountaineering Club of Alaska; derived from Tanaina Indian name "Yuklahina" meaning "eagle river." "This mountain is the highest in the Eagle River drainage * * *."

Yuklahina River: stream, see Eagle River.

Yuklahitna River: stream, see Eagle River.

Yuko Mountain: mountain, see Yuki Mountain.

Yukochakat Creek: stream, see Hess Creek.

Yukokakat: stream, see Soonkakat River.

Yukon Bar: ridge, elev. 2,600 ft., extends E 2 miles from junction of Hunter and Miller Creeks, 4 miles SE of Rampart, Yukon-Tanana Highlands; 65° 29' N, 150° 02' W; (map 106). Prospectors' name shown on a manuscript map dated 1906; reported in 1956 by Orth.

Yukon Creek: stream, flows NW 34 miles to Khotol River, 23 miles S of Nulato, Koyukuk Lowland; 64° 24' N, 158° 15' W; (map 97). Local name reported in 1935 by Frederica de Laguna, BAE.

Yukon Flats: flat, 180 miles long, and 70 miles wide, along Yukon River and lower course of Porcupine River, extends 60 miles E and 120 miles W from Fort Yukon; 66° 30' N, 146° 00' W. Descriptive name long applied to this feature.

Yukon Fork: stream, flows NW 10 miles to South Fork Birch Creek, 42 miles S of Circle, Yukon-Tanana Highlands; 63° 14' 30" N, 144° 18' 40" W; (map 104). Variant: East Fork of Birch Creek, South Fork of Birch Creek. According to D. C. Witherspoon, USGS, this stream

was locally called South Fork or East Fork Birch Creek in 1904. Its present name is Yukon Fork, reported in 1955 by USGS.

Yukon Harbor: cove, 0.7 miles across, on SE coast of Big Koniuji Island, in Shumagin Islands, Aleutian Range; 55° 04' 20" N, 159° 30' 30" W; (map 27). Named by W. H. Dall, USC&GS, in 1874, for the USC&GS schooner Yukon.

Yukon Hill: mountain, 1,200 ft., 35 miles N of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 35' N, 161° 38' W; (map 53). Named in 1914 by USC&GS for its surveying vessel Yukon; published in 1915 on Chart 9103.

Yukon Hills: mountains, see Kokrines Hills.

Yukon Island: island, 1.5 miles long, on SE edge of Kachemak Bay, on Kenai Peninsula 9 miles S of Homer, Chugach Mountains; 59° 31' 30" N, 151° 29' 30" W; (map 50). Named by W. H. Dall, in 1880, for the USC&GS schooner Yukon.

Yukon Reef: reef, 1 mile long, on NW coast of Sanak Island, Aleutian Range; 54° 30' N, 162° 51' W; BGN 1940; (map 25). Variant: McLoughlin Rocks, McLoughlins Rocks. Local name reported by USC&GS in 1939 "since the SS Yukon of the Pacific Alaska Navigation Company was lost there June 23, 1913. The residents of Sanak * * * sometimes refer to Yukon reef as McLoughlins Rocks * * *." Samuel Applegate, reported the name "McLoughlin Rocks" in 1900. See Point Petrof.

Yukon River: stream, about 1,500 miles long, heads in Marsh Lake in Yukon, Canada, flows NW into Alaska to Fort Yukon, then SW to Bering Sea at Norton Sound; 62° 32' N, 163° 54' W; BGN 1950; Variant: Jukchana, Juna, Kuikpak, Kvichpak, Kvikhpakh, Kwichpak, Kwipak, Lewes River, Lewis River, Nigato, Youcon, Yucon. This the principal river in Alaska, presently has an Indian name first obtained by Hudson's Bay Company traders who explored the upper river, establishing Fort Yukon in 1847. The Russians explored the lower river in the 1830's establishing the post at Nulato in 1841. The Eskimo, who occupied the lower Yukon, including its delta, descriptively called it "Kuikpak" meaning "big river." The Indian name "Yukon" probably means the same thing. Lt. H. T. Allen recorded in 1885 another Indian name, "Nigato" ("Niga" is said to mean "river"), and Constantin Grewingk recorded the names "June" and "Jukchana." All of these names were variously spelled. The present form of the name was adopted by Canada and the United States in the 1890's.

Yukon-Kuskokwim Portage: portage, 30 miles long, extends generally from Portage Slough on Yukon River up Talbiksok River, across Kulik Lake, down Johnson River and Crooked and Mud Creeks to Kuskokwim River, Yukon-Kuskokwim Delta; 61° 35' N, 160° 45' W; (map 73). This is the closest the Yukon and Kuskokwim Rivers approach each other. This almost all-water portage between the two great rivers has been used since prehistoric times. Probably the first known white man to use this portage was the Russian, Glazunov, in 1834. Trail cabins were located at various distances along the portage. The airplane has reduced its importance in recent years. R. H. Sargent, USGS, made the first detailed map of the portage in 1919.

Yukon-Tanana Highlands: mountains, see Tanana Hills.

Yukon-Tanana Upland: mountains, see Tanana Hills.

Yukontoh Slough: watercourse, see Yokontoh Slough.

Yukuk Bay: bay, 0.6 miles across, 8 miles NW of Afognak, on SW coast of Afognak Island, N of Kodiak Island; 58° 02' 10" N, 152° 58' 30" W; (map 43). Variant: lukuk Bay. Transliteration of the Aleut name reported by Sub-Lt. Mikhail Murashev, IRN, in 1839 or 1840 and published by the Russian Hydrog. Dept. in 1849, on Chart 1425 as "Zaliv Yukuk." This name may be from the word "Uxcuq," which means "puffin" according to R. H. Geoghegan.

Yukutat Settlement: locality, see Glory of Russia.

Yukutzcharkat Creek: stream, see Hess Creek.

Yukwonilnuk River: stream, see George River.

Yukwonilnuk River: stream, see Jungjuk Creek.

Yukwonilnuk River: stream, see Owhat River.

Yukwonilnuk: stream, see Julian Creek.

Yuler Creek: stream, see Uhler Creek.

Yumakh Island: island, see Umak Island.

Yunaka: stream, see Koyukuk River.

Yunakh Island: island, see Kanu Island.

Yunakh, Ostrov: island, see Kanu Island.

Yunaska Island: island, 14 miles long, one of Islands of Four Mountains; Aleutian Islands; 52° 38' N, 170° 40' W; BGN 1890; (map 20). Variant: Junaska Island, Unaska Island, Younaska Island, Yunaska, Ostrov. Aleut name published by Lt. Sarichev (1826, map 3) as "Os[trov] Yunaska," or "Yunaska Island."

Yunnaka: stream, see Koyukuk River.

Yuonglik River: stream, flows SE 12 miles to Golovnin Lagoon, 7 miles N of Golovin and 40 miles NE of Solomon, Seward Peninsula Highlands; 64° 39' N, 163° 07' W; (map 95). Variant: Eureka Creek, Younglik River. Eskimo name reported in 1900 as "Younglik River" and published in 1902 on USC&GS Chart 9380. "Eureka Creek" was reported in 1909 by Smith and Eakin (1911, pl. 1), USGS.

Yuqua qilokhna: stream, see Willow Creek.

Yuthagotna River: stream, see Iditarod River.

Yutokh Hill: hill, 1,105 ft., on S shore of Lake Minchumina, Tanana Lowland; 63° 52' 40" N, 152° 11' 20" W; (map 88). Tanana Indian name reported in 1954 by USGS.

Yuzhni Point: point of land, on S coast of Whale Island, N of Kodiak Island; 57° 55' 15" N, 152° 46' 30" W; (map 34). Variant: Mys Yuzhnyy. Transliteration of the descriptive name "M[ys] Yuzhnyy," meaning "south cape," given to this point by Sub-Lt. Mikhail Murashev in 1839 or 1840 and published in 1849 on Russian Hydrog. Dept. Chart 1425.

Yuzhniy, Ostrov: rock, see South Island.

Yuzhnoy, Mys: point of land, see Trinity, Cape.

Yuzhnyy, Mys: point of land, see Cascade Point.

Yuzhnyy, Mys: point of land, see South Point.

Yuzhnyy, Mys: point of land, see Yuzhni Point.

Z

Zachar Bay: bay, extends SE 8.5 miles off Uyak Bay, on NW coast of Kodiak Island; 57° 35' N, 153° 50' W; BGN 1910; (map 34). Name reported in 1910 by USC&GS.

Zachary Bay: bay, 2 miles across, on N coast of Unga Island, in Shumagin Islands, Aleutian Range; 55° 22' N, 160° 38' W; (map 28). Variant: Coal Harbor, Sacharowskaja, Zakharefskaia, Zakhareffskaia. Named "Zakharovskaia anse," or "Zakharof Bay," by Capt. Lutke (1836, p. 267) "for a Russian named Zakharef," according to W. H. Dall. Published as "Zachary Bay" in 1872 by USC&GS. Shown as "Coal Harbor" on 1890 USBF chart.

Zaikof Bay: bay, at NE end of Montague Island, trends NE 6.7 miles to W side of Hinchinbrook Entrance, at S end of Prince William Sound 40 miles ENE of Chenega, Chugach Mountains; 60° 19' N, 146° 58' W; (map 63). Variant: Zaikoff Bay, Zaliv Zaykova. Name published by Capt. Tebenkov (1852, map 6), IRN, presumably after Stepan Kosmovich Zaikof, who was chief of the trading post St. Nicholas (Kenai) in the 18th century.

Zaikof Point: point of land, on NE tip of Montague Island, 45 miles SW of Cordova, Chugach Mountains; 60° 19' N, 146° 55' W; (map 64). Variant: Punta de Puente. So named in 1868 by George Davidson, USC&GS. Name derived from nearby Zaikof Bay. This is probably the "Punta de Puente," meaning "point of the bridge" in Spanish, given by Don Ignacio Arteaga about August 1 1779 (Wagner, 1937, p. 487).

Zaikoff Bay: bay, see Zaikof Bay.

Zaimka Island: island, 0.4 miles long, in mouth of Womens Bay, 5 miles SW of Kodiak, Kodiak Island; 57° 43' 50" N, 152° 27' 50" W; BGN 1941; (map 34). Variant: Cliff Islet, High Island, Ostrov Utesistoy, Utesistoi Island. Local Russian name meaning "meadow" reported by USC&GS in 1940. Called "Os[trov] Utesistoy" meaning "Rocky Island" by Sarichev (1826, map 16). Baker (1906, p. 187) translated this name as "Cliff Island" which USC&GS misapplied to this island in 1910. This error was corrected in 1940 by USC&GS. See Cliff Island.

Zaimka Ridge: ridge, 200 ft., 1.5 miles long, on E shore of Womens Bay, 7 miles SW of Kodiak, Kodiak Island; 57° 42' 30" N, 152° 30' 00" W, (map 34) Name derived from Zaimka Island and published in 1943 by USC&GS.

Zakatlatan: locality, see Louden.

Zakhareffskaia: bay, see Zachary Bay.

Zakharova, Zaliv: bay, see Stepovak Bay.

Zakrishka Island: island, see Krishka Island.

Zakritoi Basin: bay, see Kritoi Basin.

Zakritoi Bay: bay, see Banks, Port.

Zakritoy, Zaliv: bay, see Banks, Port.

Zaliva Point: point of land, on S coast of Great Sitkin Island, Aleutian Islands; 51° 58' 45" N, 176° 04' 50" W; BGN 1936; (map 17). Russian name meaning "bay," given by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

Zaliva Point: point of land, see Bay Point.

Zaliva Point: point of land, see Bukhti Point.

Zaliva Point: point of land, see Hatchet Point.

Zaliva, Mys: point of land, see Bay Point.

Zane Hills: mountains, 4,053 ft., 8 miles wide, extend NW-SE 50 miles from near Zane Pass to Koyukuk River, 50 miles SE of Shungnak, Hogatza Highlands; 66° 15' N, 156° 00' W; (map 116). Named in 1910 by P. S. Smith (1913, p. 24), USGS, for Ens. A. V. Zane, USN, a member of Lt. G. M. Stoney's expedition, who made a side trip from Fort Cosmos, on the Kobuk, to Nulato, on the Yukon, and back, in the winter of 1885-86. He traveled alongside these mountains on his trip.

Zane Pass: pass, 1,200 ft., at N end of Zane Hills, 33 miles SE of Shungnak, Hogatza Highlands; 66° 30' N, 156° 30' W; (map 115). Named in 1886 by Lt. Stoney (1900, map and p. 57-65), USN, for Ens. A. V. Zane, USN, a member of Stoney's expedition.

Zanett Mount: peak, see Zanetti, Mount.

Zanetti. Mount: peak, 13,000 ft., 4 miles NW of Mount Wrangell, Wrangell Mountains; 62° 02' N, 144° 06' W; (map 83). Variant: Mount Zanett. Local name reported by Mendenhall. (1903, p. 399), USGS.

Zapad Head: point of land, on NW coast of Segula Island, Aleutian Islands; 52° 02' 30" N, 178° 05' 20" E. BGN 1937; (map 15). From the Russian word for "west." This name was reported by personnel of the U.S.S. Oglala, and published on a 1935 chart of the U.S. Navy Hydrog. Office.

Zapadni Bay: bay, 3 miles across, on SW coast of St. George Island, in Pribilof Islands; 56° 34' N, 169° 41' W; (map 38). Variant: Southwest Bay. Russian name from the word "zapad," meaning "west," reported by Putnam (1903, p. 1016), USC&GS. According to Elliott (1881, p. 19), the Russians imported Aleuts of other islands, for their fur seal industry, and about 1787 a village was established at Zapadni Bay.

Zapadni Point: point of land, on NW coast of Spruce Island, NE of Kodiak Island; 57° 57' 20" N, 52° 28' 40" W; (map 34). Variant: Mys Zapadniy, West Cape. Transliteration of "M[ys] Zapadniy" a name given by Sub-Lt. Mikhail Murashev in 1839 or 1840, and published in 1849 on Russian Hydrog. Dept. Chart 1425. Baker (1906, p. 668) published "West Cape," the translation of Murashev's name. Because of duplication the name was changed to its present form by USC&GS in 1909.

Zapadni Point: point of land, on SW coast of St. Paul Island, in Pribilof Islands, 57° 08' 45" N, 170° 20' 40" W; (map 38). Variant: South Point, Zapadnie Point. Russian name from the word "zapad" meaning "west," reported by Elliott (1881 St. Paul map) in 1874 as "Zapadnie." USC&GS called this feature "South Point."

Zapadni Reef Rookery: rookery, see Zapadni Rookery.

Zapadni Rookery: rookery, on Zapadni Bay on SW coast of St. George Island, in Pribilof Islands; 56° 34' 00" N, 169° 39' 35" W; (map 38). Variant: Zapadnie Numaden-algaralogray. Russian name reported by Elliott (1881, St. George map), derived from the Russian word "zapad" meaning "west."

Zapadni Rookery: rookery, on Zapadni Point, on W shore of English Bay, St. Paul Island, in Pribilof Islands; 57° 08' 50" N, 170° 20' 00" W; (map 38). Variant: Zapadnie Rookery, Zapadni Reef Rookery. Local Russian name reported by Elliott (1881, St. Paul map) in 1874 as "Zapadnie." Rookery name was derived from Zapadni Point.

Zapadnie Numaden-algaralogray: rookery, see Zapadni Rookery.

Zapadnie Point: point of land, see Southwest Point.

Zapadnie Point: point of land, see Zapadni Point.

Zapadnie Rookery: rookery, see Zapadni Rookery.

Zapadniy, Mys: point of land, see Zapadni Point.

Zapadnyy, Farvater: water passage, see Western Channel.

Zapadnyy, Mys: point of land, see Southwest Point.

Zapadnyy, Mys: point of land, see West Foreland.

Zarembo Island: island, see Zarembo.

Zarembo Island: island, 15 miles across, between Kupreanof and Etolin Islands, Alexander Archipelago; 56° 20' N, 132° 50' W; (map 6). Variant: Duke of York Island, Ostrov Zarembo, Zarembo Island. Published in 1848 on Russian Hydrog. Dept. Chart 1396 as "Os[trov] Zarembo." Named for Capt. Lt. Dionysius Fedorovich Zarembo who made surveys in this vicinity in 1834 and 1838. Capt. George Vancouver, RN, called it "Duke of York Island" in 1793.

Zarembo, Ostrov: island, see Zarembo Island.

Zatchlitschak Island: island, see Sitkalidak Island.

Zatschra Island: island, see Hydra Island.

Zaykova, Zaliv: bay, see Zaikof Bay.

Zdluiat: locality, on E shore of Knik Arm Cook Inlet, Cook Inlet Lowland; (map 69). Former Tanaina Indian village listed by Ivan Petroff in the 1880 Census with a population of 16.

Zdorovya, Mys: point of land, see Heald Point.

Zeal Point: point of land, between Neva Strait and Saint John Baptist Bay, on NW coast of Baranof Island, 19 miles NW of Sitka, Alexander Archipelago; 57° 17' 30" N, 135° 36' 00" W; (map 9). Variant: Mys Userdiye, Ouserdie Point, Userdie Point. This is a translation by USC&GS about 1882 of the name given by the Russian pilot Ens. Vasiliev; published in 1848 on Russian Hydrog. Dept. Chart 1397 as "M[ys] Userdiye."

Zeaman Gulch: ravine, trends N 0.5 miles to Osborn Creek, 7.5 miles NE of Nome, Seward Peninsula Highlands; 64° 32' 45" N, 165° 09' 50" W; (map 94) Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Zeikhell: stream, see Tiekel River.

Zelenoi Point: point of land, see Green Point.

Zelenoi Rocks: rocks, see Green Rocks.

Zelenoi, Mys: point of land, see Green Point.

Zelenoy, Mys: point of land, see December Point.

Zelenyy, Mys: point of land, see December Point.

Zelenyy, Mys: point of land, see Green Point.

Zeloni Point: point of land, see December Point.

Zelnoi Point: point of land, see Green Point.

Zelony Point: point of land, see Green Point.

Zeman Creek: stream, flows NW to Banner Creek which flows to Belt Creek, about 3 miles N of Mount Bendeleben, Seward Peninsula Highlands (map 110). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This stream cannot be precisely located on current maps.

Zenobia Rock: rock, in Sitka Sound, 3.8 miles SW of Sitka, Alexander Archipelago; 57° 00' 15" N, 135° 23' 18" W; (map 9). Named by Russians for the ship Zenobia "which struck upon it in 1855" (Baker, 1906, p. 689).

Zephyr Creek: stream, flows SE 2 miles to Hope Creek, 71 miles SW of Circle, Yukon-Tanana Highlands; 65° 24' 20" N, 146° 19' 10" W; (map 104). Named by prospectors; published by USGS (Prindle, 1908, pl. 4).

Zeto Point: point of land, on NE coast of Adak Island, Aleutian Islands; 51° 54' 35" N, 176° 33' 25" W BGN 1936; (map 17). Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934, for the survey signal Zeto, located on this point.

Zfiatitz: cove, see Three Saints Harbor.

Zharof, Ostrov: island, see Egg Island.

Zhekiski, Point: point of land, see Shekesti, Point.

Zheltyy, Mys: point of land, see Yellow Point.

Zhila, Mys: point of land, see Blunt Point.

Zhila, Mys: point of land, see Head Point.

Zhilo Cove: cove, 0.4 miles across, at head of Islas Bay, 16 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 50' 15" N, 136° 22' 20" W; (map 9). Russian word from "zhilishche" meaning "house", given in 1928 by USC&GS.

Zholti Point: point of land, see Yellow Point.

Zhuravlina Cove: estuary, see Crane Cove.

Zhuravlina, Guba: estuary, see Crane Cove.

Ziatitz: cove, see Three Saints Harbor.

Ziatitz: locality, see Nunamiut.

Ziegler Cove: cove, at N entrance to Pigot Bay, on SW side of Port Wells, 14 miles NE of Whittier, Chugach Mountains; 60° 50' N, 148° 19' W; (map 63). Local named reported in 1954 by USC&GS.

Zimmerman Creek: stream, flows SE 7 miles to Iditarod River, 7 miles NW of Flat, Kilbuck-Kuskokwim Mountains; 62° 31' 30" N, 158° 10' 15" W; (map 79). Prospectors' name obtained in 1952 by USGS topographers.

Zimmerman Creek: stream, flows SE 8 miles from Thazzik Mountain to East Fork Chandalar River, 40 miles SE of Chandalar, Brooks Range; 67° 09' 40" N, 147° 17' 00" W; (map 123). Prospectors' name obtained in 1909 by A. G. Maddren (in Brooks and others, 1910, pl. 7), USGS.

Zimovia Islets: islands, 22 miles SE of Wrangell, 0.7 miles long, in Zimovia Strait between Wrangell and Etoilin Islands, Alexander Archipelago, 56° 11' 10" N, 132° 12' 30" W; BGN 1937; (map 6). Named in 1937 by USFS.

Zimovia Point: point of land, on N bank of Chilkat River, 1 mile W of Dok Point and 17 miles SW of Skagway, Coast Mountains; 59° 15' 55" N, 135° 37' 55" W; (map 45). Variant: Spuhn

Point. Named “M[y]s Zimovia” meaning “winter point” by the Russian Hydrog. Dept. in 1848 on Chart 1396. It appears to be identical with Spuhn Point, named in 1880 by the U.S. Navy. Both names were published by USC&GS in the 1883 Coast Pilot, p. 198.

Zimovia Strait: water passage, extends SE 30 miles from Sumner Strait to Ernest Sound, separates Wrangell Island from Etolin and Woronkofski Islands, Alexander Archipelago; 56° 13' N, 132° 20' W; (map 6). Variant: Proliv Zimovya. Published in 1853 on Russian Hydrog. Dept. Chart 1493 as “Proliv Zimovya” meaning “winter strait.”

Zimovya, Proliv: water passage, see Zimovia Strait.

Zingaramute: locality, see Siniogamute.

Zip Rock: rock, in Glacier Bay National Monument, off N shore of Cross Sound, 0.5 miles SW of mouth of Dicks Arm, 45 miles NW of Hoonah, St. Elias Mountains; 58° 12' 20" N, 136° 39' 40" W; BGN 1930; (map 10). Named by USC&GS in 1929 for the triangulation point Zip on the rock. The rock is useful as a landmark for entering the harbor.

Zipper Creek: stream, heads in Brassiere Hills, flows 1 mile S to head of Taku Inlet, 0.5 miles NE of 1962 terminus of Taku Glacier and 19 miles NE of Juneau, Coast Mountains; 58° 56' 50" N, 134° 01' 15" W; (map 11). Local name reported in 1965 by D. A. Brew and A. B. Ford, USGS.

Zirku River: stream, see Tsirku River.

Ziskokadlo: ridge, 25 miles long, trends NW from head of Chilkoot Inlet, 10 miles W of Skagway, St. Elias Mountains; 59° 25' N, 135° 35' W; (map 45). Probably a Tlingit Indian name given by Aurel and Authur Krause (1883, map).

Zitziana River: stream, flows NE 63 miles to Tanana River, 55 miles NE of the Bitzshtini Mountains, Nowitna Lowland; 64° 58' N, 150° 30' W; (map 99). Variant: Lorentz River, Lorenz River, Nushakantra River. Tanana Indian name reported in 1909 by C. E. Giffin and R. B. Oliver (in Eakin, 1918, pl. 1), USGS. Lt. Allen (1887, map) in 1885 reported the stream's name as “Lorenz River” and in 1898 Capt. E. F. Glenn reported “Lorentz River.” In the 1880 census Ivan Petrof reported the stream as “Nushakantra River.”

Zlukak: locality, see Ulukuk.

Zogliakten: locality, on left bank of Koyukuk River, between Khotylkakat and Zonagoliakten, about 42 miles SW of Huslia, Koyukuk Lowland; 65° 23' N, 157° 36' W; (map 108). Variant: Tsogliakhten, Tsogliakten, Tsoglyakhten, Zogljachten. Former Koyukuk Indian village or camp reported in 1844, with a population of 7, by Lt. L. A. Zagoskin, IRN.

Zogljachten: locality, see Zogliakten.

Zolotoi Bay: cove, 0.5 miles across, S of settlement of St. Paul, on S coast of St. Paul Island, in Pribilof Islands; 57° 07' 00" N, 70° 17' 00" W; (map 38). Variant: Village Cove, Zoltoi Bay. Russian word “zolotoy” meaning “golden,” reported in 1874 by Elliott (1881, St. Paul notes) as “Zoltoi.”

Zolotoi Sands: beach, 0.1 miles long, S of St. Paul, on S coast of St. Paul Island, in Pribilof Islands; 57° 07' 00" N, 170° 16' 20" W; (map 38). Variant: Zoltoi Sands. Russian word "zolotoy" meaning "golden," reported as "Zoltoi" by Elliott (1881, St. Paul notes).

Zoltoi Bay: cove, see Zolotoi Bay.

Zoltoi Sands: beach, see Zolotoi Sands.

Zona Island: island, see Tozitna Island.

Zonagoliakten: locality, see Zonagoliakten.

Zonagoliakten: locality, on left bank of Koyukuk River, between Zogliakten and Kakhlyakhlyakakat, about 45 miles SW of Huslia, Koyukuk Lowland; 65° 20' N, 157° 38' W; (map 108). Variant: Tsonagoliakten, Tsonagolyakhten, Tsonogokhlyakhten, Zonagogliakten, Zonogchljachten. Former Koyukan Indian village or camp reported in 1844 with a population of 11, by Lt. L. A. Zagoskin, IRN.

Zone Creek: stream, flows NE 2 miles to an unnamed stream in Sunshine Valley, 40 miles NW of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 30' N, 159° 06' W; (map 53). Local name published in 1951 by USGS.

Zone Creek: stream, flows S and SW 3 miles to Spruce Creek, W of Slope Creek and 7.2 miles SE of Marshall, Nulato Hills; 61° 47' 10" N, 161° 58' 50" W; (map 73). Prospectors' name reported by Harrington (1918, map), USGS, in 1916.

Zonogchljachten: locality, see Zonagoliakten.

Zotschomnia Islands: islands, see Noisy Islands.

Zouboff: islands, see Pribilof Islands.

Zoubov: islands, see Pribilof Islands.

Zowoputhek, Mys: point of land, see Gull, Cape.

Zubof Rock: rock, in The Basin, Kelp Bay, SW of Crow Island, on NW coast of Baranof Island, Alexander Archipelago; 57° 17' 30" N, 134° 55' 50" W; (map 9). Variant: Zuboff Rock. Name reported in 1895 by Lt. Comdr. J. F. Moser, USN, as "Zuboff," which is a Russian surname.

Zuboff Rock: rock, see Zubof Rock.

Zumik Islands: islands, see Semidi Islands.

Zutchwik Island: island, see Sutwik Island.

Zwinge Valley: valley, on Attu Island, extends E 1.4 miles to West Massacre Valley S of Black Mountain, Aleutian Islands; 52° 52' 40" N, 173° 09' 15" E; (map 13). Named by U.S. Army during World War II; published in 1948 by AMS.

Zysek-twina River: stream, see Ulukuk River.

#'s

12 Fathom Strait: water passage, see Twelve Fathom Strait.

1848 Hill: mountain, 1,848 ft., 1 mile W of Andrew Lagoon on N coast of Adak Island, Aleutian Islands; 51° 56' 10" N, 176° 41' 45" W; (map 17). Name published by USGS (Coats, 1956, p. 59); "Place name not shown on standard maps but used for convenience in this report."

196 Mile Creek: stream, flows SW 9 miles to Susitna River 10 miles NW of Willow and 47 miles N of Anchorage, Cook Inlet Lowland; 61° 53' 45" N, 150° 06' 00" W; (map 70). Name published in 1954 by USGS; "so named because it is 196 miles from Seward to where The Alaska Railroad crosses the stream."

197.5 Mile Creek: stream, flows SW 6.4 miles to 196 Mile Creek, 47 miles N of Anchorage, Cook Inlet Lowland; 61° 53' 50" N, 150° 04' 30" W; (map 70). Name published by USGS in 1954: "so named because it is 197.5 miles from Seward to where the Alaska Railroad crosses this stream."

8900, Peak: mountain, see Aylesworth, Mount.

Glossary

Airfield: area of land cleared and maintained for the operation of aircraft.

Anabranh (modifier of stream): a diverging branch of a stream which reenters the original stream or a tributary to it.

Anchorage: a protected area of water where ships anchor safely.

Area: part of a larger tract of land, especially applicable to parts of cities.

Aufeis (modifier of area): a sheet of ice on a river flood plain; formed in winter when shoals in the river freeze solid or are otherwise dammed so that water spreads over the flood plain and freezes.

Bank: the land rising along the side of a stream.

Bar: an accumulation in a stream of sand, gravel, or alluvium, which forms an obstruction to navigation.

Barrier beach: a ridge of sand extending above high tide, parallel to the coastline and separated from it by a lagoon or other body of water.

Barrier island: a detached part of a barrier beach between two inlets; an island between an area of sheltered water and the open sea.

Basin: a low area enclosed by higher land.

Bay: a large indentation of a sea or lake into the land. A bay is as long or longer than it is wide; its width is at least 1 mile, as opposed to the width of a cove. See also bight.

Beach: a gently sloping part of a shore that is washed by waves or tides and is generally covered by sand or pebbles.

Bench: a step-like strip of relatively level land with a sharp rise on one side and a sharp drop on the other.

Bend: a sharp curve in the course of a stream and the land enclosed therein.

Bight: a wide gentle curve or indentation of a coast, commonly between two headlands; unlike a bay or cove, the length across its mouth is greater than the length of the indentation into the coast.

Bluff: a high broad-faced bank or cliff cut by lateral erosion of a stream.

Canal: a manmade watercourse constructed and maintained primarily for navigation.

Canyon: a large steep-walled chasm, gorge, or ravine cut into the earth's surface by water.

Channel: a deep part of a bay, stream, or strait frequently used as a route for ships.

Cirque: a steep-walled rock basin of glacial origin.

City: a place having more than 5,000 inhabitants.

Cliff: a high steep rock face or precipice.

Coast: the area along the contact between the land and sea, including offshore islands.

Cove: a small bay or indentation along the edge of a larger body of water. Like a bay, it is as long or longer than it is wide; its width is less than 1 mile, as opposed to the width of a bay.

Crater: a bowl-shaped depression at the vent of a volcano.

Crossing: a short stretch of a stream where a boat, following a channel, crosses from one side of the stream to the other. This term is common on the Yukon and Tanana Rivers.

Delta: low-lying alluvial deposits at the mouth of a stream over which distributaries of the main stream often flow.

Distributary (modifier of stream): a branch of a stream flowing away from the original stream and not rejoining it; generally on a delta.

Ditch: a manmade watercourse constructed primarily for drainage, irrigation, or placer mining.

Drainage divide: the line of separation between drainage basins.

Dune: a ridge or hill of drifted sand.

Embankment: a natural or manmade ridge along the course of a stream or along the coast; designed to hold back water or carry a roadway.

Escarpment: a nearly continuous line of cliffs or steep slopes facing in one general direction.

Estuary: the lower course of a stream or former glacier which has been drowned by a relative rise in sea level and within which the tide ebbs and flows; an inlet or arm of the sea where the tide meets the current at the mouth of a stream.

Fish camp: a site occupied by natives during the fishing season.

Flat: a notably level area within a region of relief.

Ford: a place where a road or trail crosses a shallow stream or body of water without a bridge or ferry.

Gap: a notch or opening between hills or mountains or in a ridge or mountain range.

Glacier: a stream of ice moving outward and downslope from an area of accumulation.

Gulf: a very large indentation of the sea into the land: much larger than a bay.

Hill: a prominent elevation of less than 1,000 feet.

Hummock: a small area of land slightly above the general level of a swamp or marsh.

Icefall: a steep part of a glacier characterized by numerous crevasses which are formed by movement down the steep gradient.

Icefield: extensive area of permanent ice.

Interfluve: the neck of land between two parallel or converging streams.

Intermontane valley: a valley or depression enclosed by mountains; the drainage is generally internal but may have an outlet.

Island: an area of dry or normally dry land entirely surrounded by water.

Island chain: a group of islands in fairly close proximity to each other and extending along a line.

Lagoon: a body of water cut off from a larger body of water by a barrier beach or reef.

Lake: any standing body of inland water.

Landing strip: a small area of land cleared for the limited use of aircraft.

Locality: a place or location with past or present cultural associations.

Marsh: wet land along the coast, frequently covered with salt water.

Meadow: an expanse of low or level grassland.

Military reservation: a tract of land designated and administered for military purposes.

Moraine: a mass of undifferentiated material deposited by a glacier.

Mountain: a prominent elevation rising more than 1,000 feet above the level of the surrounding country.

Mountain range: a chain of mountains or one complex mountain much longer than it is broad.

Natural bridge: a natural rock arch.

Nunatak: an isolated hill or peak projecting above the surface of a glacier.

Open area: an area devoid of standing trees in a woodland.

Pass: a relatively low gap or opening in a mountain range or ridge which serves as a route of travel.

Peak: the pointed top of a mountain or a hill.

Peninsula: a fairly narrow body of land nearly surrounded by water and connected on one side to a larger body of land.

Pingo: a relatively large mound raised by frost action above the permafrost; generally persists for more than a single season.

Pinnacle: a high spire-shaped pillar of rock.

Plateau: an elevated plain or flat-topped region of considerable extent.

Point of land: a protuberance of land along the shore of a lake, river, or sea or along the side of a hill, mountain, or ridge, or glacier; a projecting or tapering piece of land.

Portage: an overland route of travel between navigable bodies of water.

Promontory: a projection, headland, or cliff protruding into the sea, commonly with offshore rocks.

Rapids: a fast-flowing section of a stream, generally with exposed rock or boulders.

Ravine: a rather small steep-walled valley; a gulch.

Reach: any section of a stream which is unique from the sections above and below it.

Reef: a line of rocks or a ridge of sand lying at or near the surface of the water.

Ridge: an elevation with a narrow elongated crest.

Roadhouse: an inn or trading post along a road or a trail.

Rock(s): a mass of rock, visible or exposed at low tide along the coast or in rivers and lakes.

Rookery: a natural breeding ground of seals.

RR station: an established stop along a railroad.

Sea: large open body of saline water.

Settlement: a place inhabited by several persons, normally less than 10.

Shoal: a shallow area in a sea, river, or lake.

Shore: the strip of land constituting the border between the land and sea, lake, or lagoon.

Slope: an inclined face of any part of the earth's surface.

Spit: a long, narrow accumulation of sand or gravel attached to the land and projecting into a sea or a bay.

Spring: a place where water issues naturally from the surface of the earth.

Stream: a body of water flowing overland; it includes anabranch, creek, distributary, pup, river, run, slough.

Suburb: an unincorporated cluster of population near an urban center.

Swamp: wet land, partially inundated with fresh water.

Tidal flat: a flat area of sand or mud, inundated at high tide

Town: a place having 1,000 to 5,000 inhabitants.

Trail: a designated path or line of travel.

Valley: a linear depression in the earth's surface, generally produced by erosion and drained by a stream.

Village: a place having 1 to 1,000 inhabitants.

Volcano: a mountain with a recent history of volcanic activity.

Watercourse: a natural or manmade channel through which water flows.

Waterfall: a perpendicular or nearly perpendicular cascade along a stream.

Water gap: a pass or gap through which a stream flows.

Water passage: a coastal waterway connecting bodies of open water or other passages; it includes inlets to lagoons and channels between islands.

Whirlpool: a violent circular eddy in a body of water.

Winter crossing: a place where a person may cross a major stream during the freezeup.

Wooded area: an area covered with trees, in contrast to the surrounding area.

Russian Generic Terms

This Russian-English glossary lists in transliterated form a few of the more common terms and name generics found on 18th and 19th century Russian maps. The masculine, feminine, and neuter nominative singular inflections of adjectives are given; other parts of speech have not been distinguished.

Russian	English	Russian	English
bereg	river bank, seashore	mys	cape, point of land
bolsh-oy, aya, oye	big, broad, large	nizk-iy, aya, oye	low
bukhta	bay, bight, cove	okean	ocean
vostok	east	ostrov	island
vostochn-yy, aya, oye	eastern	otmel	bank, shoal
vpadeniye	river confluence	ozero	lake
vsek	mountain pass	pereval	mountain pass
vyosk-iy, aya, oye	high	pesok	sand
gavan	harbor	poluostrov	peninsula
gora	mountain	proliv	strait, sound, channel
guba	bay, gulf, estuary	reka	river
dolina	valley	sever	north
zaliv	gulf, bay	severn-yy, aya, oye	northern
zapad	west	seleniye	village, settlement
zapadn-yy, aya, oye	western	selo	village with a church
zemlya	earth, land, country	sopka	peak, mud volcano
krugl-yy, aya, oye	round	utes	rock, crag, cliff
krut-oy, aya, oye	steep	yug	south
mal-yy, aya, oye	small	yuzhn-yy, aya, oye	southern
more	sea		

U.S. Board on Geographic Names Transliteration System For Russian

Russian	Roman	Russian	Roman	Russian	Roman	Russian	Roman	Russian	Roman	Russian	Roman
А, а	a	Ё, ё	ë, yë ¹	Д, д	l	С, с	s	Ч, ч	ch	Э, э	e
Б, б	b	Ж, ж	zh	М, м	m	Т, т	t	Ш, ш	sh	Ю, ю	yu
В, в	v	З, з	z	Н, н	n	У, у	u	Щ, щ	shch	Я, я	ya
Г, г	g	И, и	i	О, о	o	Ф, ф	f	Ъ, ъ	''		
Д, д	d	Й, й	y ²	П, п	p	Х, х	kh	Ы, ы	y ²		
Е, е	e, ye ³	К, к	k	Р, р	r	Ц, ц	ts ⁴	Ь, ь	'		

¹ The letter ё is not considered a separate letter of the alphabet, and the ë is often omitted. When printed in Russian as ë, it is transliterated as yë initially, after vowels, and after ъ and ь; elsewhere as ë.

² Both й and ы are transliterated as y, but these letters rarely occur initially and the likelihood of confusion is slight; the й generally occurs only as the second part of diphthongs, while the ы occurs before other vowels or between consonants.

³ The Russian letter e is transliterated as ye initially, after vowels, and after ъ and ь; elsewhere as e.

⁴ This system provides no means of distinguishing between the transliterations of the Russian letter ц and the Tc letter combination; however, the latter occurs rarely.
