Klawak Inlet: water passage, on E side of Wadleigh Island, extends 9 miles N of Craig, on W coast of Prince of Wales Island, Alexander Archipelago; 55° 32' N, 133° 07' W; (map 4). Variant: Kiawak Inlet, Klawack Inlet, Klawack Strait, Klawak Passage, Klawok Inlet, Kliavakhan Inlet, Tlevak Inlet, Tlevakh Inlet, Tlevakkhyn Bay, Zaliv Tlevakkhan. Tlingit Indian name obtained by the Russians; shown on the 1853 Russian Hydrog. Dept. Chart 1493 as "Zal[iv] Tlevakkhan," or "Tlevakkhyn Bay." The 1960 Tongass National Forest map applies this name to Shinaku Inlet, on the northwest side of Wadleigh Island, and to Big Salt Lake, 4 miles to the northeast.

Klawak Island: island, 2 miles long, W of Klawock, between Klawak Harbor and Klawak Inlet, on W coast of Prince of Wales Island, Alexander Archipelago; 55° 33' 00" N, 133° 06' 20" W; (map 4). Variant: La Galera. Local name derived from the Tlingit Indian village name; reported in 1897 by J. F. Moser, USN. This appears to be the same island called "La Galera," meaning "the galley," by the 1779 Don Ignacio Arteaga expedition.

Klawak Lake: lake, 7 miles long, on W coast of Prince of Wales Island, 2 miles E of Klawock, Alexander Archipelago; 55° 31' N, 132° 59' W; (map 4). Local name. See Klawak Island.

Klawak Passage: water passage, see Dry Pass.

Klawak Passage: water passage, see El Capitan Passage.

Klawak Passage: water passage, see Klawak Inlet.

Klawak Reef: reef, extends 0.5 miles, between Klawak Inlet and San Alberto Bay, SW of Wadleigh Island, Alexander Archipelago; 55° 31' 00" N, 133° 10' 30" W; (map 4). Named in 1897 by Lt. Comdr. J. F. Moser, USN.

Klawak River: stream, heads in Klawak Lake, on W coast of Prince of Wales Island, flows W 2.3 miles to Klawak Harbor, Alexander Archipelago; 55° 33' 00" N, 133° 05' 40" W; (map 4). Variant: Klawak Stream. Local name. See Klawak Island.

Klawak: village, see Klawock.

Klawasena Creek: stream, see Klawasi River.

Klawasi River: stream, flows SW 23 miles from glacier on Mount Drum to Copper River, at Copper Center, Copper River Basin; 61° 58' N, 145° 18' W; (map 68). Variant: Klawasena Creek, Klawasina River. Indian name reported in 1885 as "Klawasina" by Lt. Allen (1887, p. 62), USA.

Klawasina River: stream, see Klawasi River.

Klawock: village, pop. 251, on W coast of Prince of Wales Island, 5 miles N of Craig, Alexander Archipelago; 55° 33' 15" N, 133° 05' 45" W; BGN 1962; (map 4). Variant: Chla-wak-kon, Khlawak, Kiawak, Klawak, Klawak City, Klawok, Klawook, Kliavakhan, Kliawak, Klyavakkhan, Klyakkhan, Lawak, Thlewhakh, Tlevak, Tlewak. Tlingit Indian village reported in 1853, on Russian Hydrog. Dept. Chart 1493, as "Sel[eniye] Klyakkhan," i.e. "Klyakkhan settlement," applied to a location on the west side of Shinaku Inlet. This may represent the location of the village prior to the establishment of a cannery at the present site in 1878. H. J. Holmberg referred to the village in 1855 as "Thlewhakh"; Aurel Krause reported "Chla-wak-kon," i.e. "Chla-wak people"; listed as "Klawak" in the 1890 Census. The population was 261 in 1890; 131 in 1900; 241 in 1910; 19 in 1920; 437 in 1930; 455 in 1939; and 404 in 1950. The Klawock post office was established in 1882 (Ricks, 1965, p. 34).

Klawok Inlet: water passage, see Klawak Inlet.

Klawok: village, see Klawock.

Klawook: village, see Klawock.

Klaxermette: locality, see Tuksuk.

Klchakuk: locality, on E shore Kuskokwim Bay, N of Goodnews Bay, Kilbuck-Kuskokwim Mountains; (map 53). Variant: Klahangamut, Klchangamute, Zaliv Khchakuk. Former Eskimo camp or village reported by Ivan Petroff as "Kl-changamute," with a population of 18, in the 1880 Census. This locality is shown as "Z[aliv] Khchakuk," or "Khchakuk Bay," by Lt. Sarichev (1826, map 3), IRN.

Kleguchegamiut: locality, see Kleguchek.

Kleguchek: locality, on right bank of Kuskokwim River 3 miles SW of Helmick Point and 45 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 17' N, 162° 33' W; (map 58). Variant: Klegutshagamut, Kleguchegamiut. Eskimo camp or small settlement reported on an 1898 fieldsheet by W. S. Post, USGS. Post and J. E. Spurr obtained the "Klegutshagamut" spelling from J. H. Kilbuck, Moravian missionary.

Klegutshagamut: locality, see Kleguchek.

Kleheena River: stream, see Klehini River.

Klehini River: stream, heads in a glacier on Nadahini Mountain in Canada, flows SE 42 miles to Chilkat River at Wells, 22 miles W of Skagway, St. Elias Mountains; 59° 24' 45" N, 135° 55' 30" W; BGN 1954; (map 45). Variant: Klahheela River; Kleheena River, Kluheena River, Kluheeny River, Kluheny River, Kluhini River, Tlehini River. Tlingit Indian name reported in 1880 as Kluheeny by U.S. Navy. It was published by USC&GS in the 1883 Coast Pilot (p. 199) as T' lehini (or Kluhini) River. It is the Tlehini of Aurel and Arthur Krause (1883, map).

Klein Creek: stream, flows SE 11 miles to Beaver Creek, 6.5 miles W of mouth of Ptarmigan Creek and 67 miles NE of McCarthy, Alaska Range; 61° 58' 45" N, 141° 14' 00" W; (map 67). Local name reported in 1914 by C. E. Giffin (Capps, 1916, pl. 2), USGS.

Kleiti Islands: islands, in Tuxekan Passage between Prince of Wales and Stoney Islands, 24 miles N of Craig, Alexander Archipelago; 55° 48' 45" N, 133° 11' 00" W; (map 4). Indian name published in 1964 by USC&GS.

Klery Creek: locality, on Klery Creek, W of Kallarichuk Hills and 20 miles NE of Deviation Peak, Brooks Range; 67° 09' 30" N, 160° 24' 00" W; (map 127). Name reported on a 1923 ARC map.

Klery Creek: stream, in Baird Mountains, flows SW 25 miles W of Kallarichuk Hills to Squirrel River, 12 miles NNW of Kiana, Brooks Range; 67° 06' N, 160° 36' W; (map 127). According to A. H. Brooks, USGS, this stream "was prospected by some Italians who had been on Cleary Creek near Fairbanks; they named this creek after the other but spelled it phonetically not knowing the original spelling." The name was reported in 1910 by P. S. Smith, USGS.

Klet-san-dek Creek: stream, see Kletsan Creek.

Kletsan Creek: stream, heads at Natazhat Glacier terminus in Yukon, Canada, and flows NW 13 miles to White River, 66 miles NE of McCarthy, St. Elias Mountains; BGN 1954; 61° 44' 12" N, 141° 01' 12" W; (map 67). Variant: Copper Creek, Klet-san-dek Creek, Klutson Creek. Indian name reported in 1891 by C. W. Hayes (1892, p. 143), USGS, as "Klet-san-dek," meaning "copper creek."

Kletsan Glacier: glacier, see Natazhat Glacier.

Kliavakhan Inlet: water passage, see Klawak Inlet.

Kliavakhan: village, see Klawock.

Kliawak: village, see Klawock.

Klikakillah Creek: stream, see Tlikakila River.

Klikakillah: stream, see Tlikakila River.

Klikaklik Island: island, see Latouche Island.

Klikaklit Island: island, see Latouche Island.

Klikhtentotzna Creek: stream, heads in lake, S of Norutak Hills, flows S 30 miles to Hogatza River, 25 miles NW of Hughes, Hogatza Highlands; 66° 21' N, 154° 45' W; (map 116). Indian name "Klikh-ten-totz-na," reported to mean "bow and arrow river," recorded at Hughes in 1956 by Orth.

Klikitarik Bay: bay, 2 miles across, off Norton Sound, 18 miles E of Saint Michael, Yukon-Kuskokwim Delta; 63° 28' N, 161° 26' W. Variant: Kiktaguk Bay. Eskimo name reported in 1905 by USC&GS as "Kiktaguk Bay."

Klikitarik Mountain: hill, 844 ft., E of Klikitarik River, 18 miles SE of Saint Michael, Nulato Hills, 63° 25' N, 161° 26' W; (map 91). Eskimo name reported in 1952 by USC&GS. Name derived from that of the nearby camp.

Klikitarik River: stream, flows N 18 miles to Klikitarik Bay, 18 miles E of Saint Michael, Nulato Hills; 63° 27' 25" N, 161° 27' 15" W; (map 91). Eskimo name reported in 1952 by USC&GS. Name derived from that of the camp.

Klikitarik: locality, on W shore of Klikitarik Bay, 17 miles E of Saint Michael, Yukon-Kuskokwim Delta; 63° 28' 10" N, 161° 28' 15" W; BGN 1966; (map 91). Variant: Ikikiktoik, Kegiktowruk, Kiektaguk, Kikhtuk, Kikiktaruk, Kiktagak, Kiktaguk, Tlickearrik, Tlicketawik. Reindeer camp and corral reported in 1905 by USC&GS as "Kiktaguk." The Eskimo name "Kegiktowruk" was reported by W. H. Dall, USC&GS, who visited it October 8 1866.

Klim Creek: stream, in De Long Mountains, flows S 10 miles to Nimiuktuk River, 15 miles E of Thunder Mountain, Brooks Range; 68° 25' N, 159° 51' W; BGN 1961; (map 131). Named by a USGS exploring party in 1924. "So named because the only substance remaining for the [field] party at this point, was a part of a can of Klim." The product Klim was powdered milk (spelled backwards).

Klinau Island: island, 0.4 miles long, W of Prince of Wales Island, in mouth of Naukati Bay, 27 miles N of Craig, Alexander Archipelago; 55° 51' 35" N, 133° 11' 15" W; (map 4). Indian name published in 1964 by USC&GS.

Klinchef Mountain: hill, see Kliuchef, Mount.

Kline Creek: stream, see Klein Creek.

Klingaktakamute: locality, see Kingaktakamiut.

Klinkwan Cove: bay, extends NE 1 mile on SW coast of Prince of Wales Island, SE of Klakas Inlet, Alexander Archipelago; 54° 53' N, 132° 21' W; (map 1). Name derived from the now abandoned village of Klinkwan; published by USGS in 1951.

Klinkwan: locality, near E entrance to Klakas Inlet, on SW coast of Prince of Wales Island, Alexander Archipelago; 54° 53' 25" N, 132° 21' 50" W; BGN 1954; (map 1). Tlingit Indian name recorded in 1897 by Lt. Comdr. J. F. Moser, USN. A 1951 USGS map shows one building at the site of this abandoned village. According to J. R. Swanton (in Hodge, 1907, p. 714), BAE, "Klinkwan" is derived from the Tlingit "linqan" meaning "shellfish town" or "town where they split yellow cedar bark into long strings." This is a "Haida town, occupied by the Yaku-lanas * * *" (Hodge, 1907, p. 714).

Klinkwan: locality, see Koianglas.

Klinquan: locality, see Koianglas.

Klioutchevskai: volcano, see Kliuchef, Mount.

Kliqtluaq: lake, see Canyon Lake.

Kliskan, Mount: mountain, see Kliskon, Mount.

Kliskon, Mount: mountain, 3,943 ft., at heads of Camp and Clearwater Creeks, 52 miles NW of Talkeetna, Alaska Range; 62° 24' 30" N, 151° 43' 45" W; (map 81). Variant: Mount Kliskan, Mount Tlis-kon. Tanaina Indian name obtained in 1899 by Lt. J. S. Herron, USA, and spelled by him "Tlis-kon."

Kliuchef Peninsula: peninsula, on W coast of Baranof Island, 16 miles S of Sitka, Alexander Archipelago; 56° 49' 40" N, 135° 22' 20" W; BGN 1926; (map 5). Variant: Kliuchevina. Russian name meaning "spring," applied in 1926 by USC&GS, which described this area as a "maze of springs, bogs, marshes, ponds, etc., sparsely wooded."

Kliuchef, Mount: hill, 820 ft., 1.4 miles E of Goddard, on W coast of Baranof Island, Alexander Archipelago; 56° 50' 20" N, 135° 20' 15" W; (map 5). Variant: Gora Klyuchevaya, Klinchef Mountain, Kliucheff Mountain, Mount Kliuchevaia, Springs Mountain. Named in 1809 by the Russian navigator, Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "G[ora] Klyuchevaya," meaning "Springs Mountain," probably because of the hot springs in the vicinity.

Kliuchef, Mount: volcano, 3,000 ft., 2.5 miles across, on N Atka Island, Aleutian Islands; 52° 19' N, 174° 09' W; (map 18). Variant: Klioutchevskoi, Kliuchevskaia, Kljutschewskoj. Descriptive name, from the Russian "Kliuchevskaia," meaning "springs," applied because of numerous warm springs on its west slope according to Capt. Lutke (1836, p. 318), who published the name as "Klioutchevskoi volcan," or "Kliuchef volcano." Name published as Mount Kliuchef on a 1952 USGS map.

Kliucheff Mountain: hill, see Kliuchef, Mount.

Kliuchevaia, Mount: hill, see Kliuchef, Mount.

Kliuchevaya Gora: mountain, see Camel Mountain.

Kliuchevina: peninsula, see Kliuchef Peninsula.

Kliuchevoi Bay: bay, 0.5 miles long, on W coast of Baranof Island, N of Goddard, 14 miles S of Sitka, Alexander Archipelago; 56° 50' 20" N, 135° 22' 20" W; (map 5). Local name published in 1943 by USC&GS. See Mount Kliuchef.

Kliuchevoi Island: island, 0.1 miles across, in Kliuchevoi Bay, on W coast of Baranof Island, 14 miles S of Sitka, Alexander Archipelago; 56° 50' 18" N, 135° 22' 35" W; (map 5). Local name published in 1943 by USC&GS. See Mount Kliuchef.

Kliuchevskaia: volcano, see Kliuchef, Mount.

Kljutschewskoj: volcano, see Kliuchef, Mount.

Klocheblok River: stream, see Klokerblok River.

Klochkof Rock: rock, 2 or 3 miles E of Amlia Island, Aleutian Islands; 52° 06' N, 172° 54' W; (map 19). Variant: Klochkova, Kamen. Named for the pilot, Klochkov, of the Russian American Company ship Chirikof, who discovered the rock in 1818 though Ingenstrem, in 1830, denied its existence. The Aleuts called it "Sivuch," from the Russian "Sivuch," meaning "sea lion." G. Davidson's copy of Lt. G. A. Sarichev's atlas contains a manuscript note of a "rock awash." The rock is possibly part of the Agligadak Reefs.

Klochkova, Kamen: rock, see Klochkof Rock.

Kloh Kutz, Mount: mountain, 3,600 ft., in Glacier Bay National Monument, on Wachusett Inlet and 61 miles NW of Hoonah, St. Elias Mountains; 58° 53' 10" N, 136° 15' 50" W; (map 10). Named by members of the Glacier Bay Expedition of 1941 (Field, 1947, pl. 1) for Kloh Kutz, whose name means "hole-in-the-cheek," a chief of the Chilkats. In 1869, these Indians reportedly informed George Davidson, USC&GS, of the existence of Glacier Bay.

Klokachef Island: island, 1.5 miles long, N of Salisbury Sound, off SW coast of Chichagof Island, Alexander Archipelago; 57° 24' 30" N, 135° 53' 00" W; BGN 1897; (map 9). Variant: Fortuna Island, Klokacheff Island, Klokatcheff Island, Vincent Island. Name published in 1884 on Brit. Adm. Chart 2337 as "Klokacheff Island." USC&GS reported names "Fortune" and "Vincent" for this island in 1883 Coast Pilot (p. 160).

Klokachef Point: point of land, on SW tip of Klokachef Island, N of Salisbury Sound, off SW coast of Chichagof Island, Alexander Archipelago; 57° 24' 10" N, 135° 54' 15" W; BGN 1897; (map 9). Variant: Mys Klokacheva, Point Klokacheff, Point Olga. Russian name given in 1833 by the navigator Ens. Vasiliev; published in 1848 on Russian Hydrog. Dept. Chart 1397 as "M[ys] Klokacheva."

Klokacheff Island: island, see Klokachef Island.

Klokacheff Sound: water passage, see Salisbury Sound.

Klokacheff, Point: point of land, see Klokachef Point.

Klokacheva, Mys: point of land, see Klokachef Point.

Klokatcheff Island: island, see Klokachef Island.

Klokblok River: stream, see Klokerblok River.

Klokerblok River: stream, flows E 26 miles to Fish River, 32 miles ENE of Solomon, Seward Peninsula Highlands; 64° 38' N, 163° 23' W; (map 95). Variant: Klokblok River, Kluchablok River, Klocheblok River. Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Klooch Glacier: glacier, heads on SW slope of Mount Klooch, trends SW 3 miles to its 1961 terminus, 1.5 miles SE of 1961 terminus of South Crillon Glacier and 75 miles WNW of Hoonah, St. Elias Mountains; 58° 35' 05" N, 137° 21' 15" W; (map 10) Name reported by the Harvard-Dartmouth Expedition, 1933-34 (Washburn and Goldthwait, 1937, map).

Klooch, Mount: mountain, 7,661 ft., 3.6 miles NW of Mount Dagelet, 75 miles NW of Hoonah, St. Elias Mountains; 58° 36' 40" N, 137° 16' 15" W; (map 10). Name published by members of the Harvard-Dartmouth Expedition, 1933-34 (Washburn and Goldthwait, 1936, map).

Kloquan: village, see Klukwan.

Klotz Hills: hills, 1 mile across, in Glacier Bay National Monument, near E shore of Muir Inlet, 1.6 miles N of Point George, 57 miles NW of Hoonah, St. Elias Mountains; 58° 52' 45" N, 136° 02' 00" W; (map 10). Variant: The Dumplings. Named by members of the Glacier Bay Expedition of 1941 for Otto Julius Klotz, 1852-1923, of the Dominion of Canada Survey. Klotz wrote an article about the application of photo-topographic methods in the surveying of the Baird Glacier in 1895, as well as other scientific articles about Alaskan glaciers in 1899 and 1907. He was employed by the Canadian government as topographic surveyor and explorer, 1872-84. In 1885, he became Dominion Astronomer.

Klu Bay: estuary, extends ME 1.3 miles off Shrimp Bay, on NW coast of Revillagigedo Island, Alexander Archipelago; 55° 50' 15" N, 131° 28' 00 W; (map 3). Local name published in 1943 by USC&GS.

Klu Creek: stream, heads in lake, flows SW 4 miles to Klu Bay, on NW coast of Revillagigedo Island, Alexander Archipelago; 55° 50' 40" N, 131° 26' 05" W; (map 3). Local name published in 1943 by USC&GS.

Klu River: stream, flows 24 miles NE to Chakina River 8 miles S of junction of Chakina and Chitina Rivers, 17 miles SW of McCarthy, Chugach Mountains; 61° 12' 30" N, 143° 09' 18" W; (map 67). Name reported in 1900 by T. G. Gerdine, USGS. This may be the Ahtena Indian word (Khlu) meaning "glacier."

Kluanil Island: island, 900 ft. long, in Kasaan Bay, on E coast of Prince of Wales Island, 1.3 miles SW of Patterson Island, Alexander Archipelago; 55° 23' 05" N, 132° 13' 50"W; (map 4). This may be an Indian name; published in 1927 by USC&GS.

Kluchablok River: stream, see Klokerblok River.

Kluheff Bay: bay, see Hot Springs Bay.

Kluhev Bay: bay, see Marsh Bay.

Kluhev Bay: lake, see Redoubt Lake.

Kluhevoi Bay: bay, see Hot Springs Bay.

Kluchman Mountain: mountain, elev. 4,940 ft., 5.2 miles E of terminus of East Twin Glacier and 31 miles NE of Juneau, Coast Mountains; 58° 34' 00" N, 133° 44' 30" W; (map 12). Name reported in 1922 by IBC surveyors; published in 1923 on IBC sheet 8 (1951 Atlas). It is a Chinook word meaning "woman."

Kludasetsh: stream, see Ludaseska Creek.

Klughuggue: locality, "on Chichagof Island," Alexander Archipelago; (map 9 or 11). Variant: Chul-chagu. Former Huna Tlingit Indian camp or settlement reported by Ivan Petroff, with a population of 108, in the 1880 Census.

Klughuggue: locality, see Tlushashakian.

Kluheena River: stream, see Klehini River.

Kluheeny River: stream, see Klehini River.

Kluheny River: stream, see Klehini River.

Kluhini River: stream, see Klehini River.

Kluklaklatna River: stream, see Little Mud River.

Kluklaklatna River: stream, see Mud River.

Klukquan: village, see Klukwan.

Kluktak Creek: stream, flows NW 12 miles to Kuskokwak Creek, 52 miles S of Bethel, Yukon-Kuskokwim Delta; 60° 04' N, 161° 44' W; (map 59). Eskimo name reported in 1951 by USC&GS.

Kluktoo: locality, see Kluktu.

Kluktu: locality, 0.7 miles E of mouth of Yokeak Creek in Klehini River, 31 miles W of Skagway, St. Elias Mountains; 59° 25' 55" N, 136° 10' 30" W; (map 45). Variant: Kluktoo. Name shown on a recent Canadian map.

Klukwah Mountain: mountain, 7,000 ft., 5.3 miles NE of Klutshah Mountain and 21 miles NW of Skagway, Coast Mountains; 59° 35' 20" N, 135° 52' 00" W; (map 45). Tlingit Indian name that appears to be similar to the village name Klukwan. It was published in 1954 by USGS.

Klukwan: village, pop. 112, on N shore of Chilkat River, 1.4 miles SE of Glass Point and 21 miles SW of Skagway, Coast Mountains; 59° 24' 00" N, 135° 53' 30" W; (map 45). Variant: Chilcat, Chilkat, Klakwan, Kloquan, Klukquan, Klukwan, Klukwan. Originally a Tlingit Indian village the name of which, as reported by the U.S. Navy in 1880, was "Chilcat of Klukquan," which is said to mean "the old town." W. H. Dale (U.S. Coast and Geodetic Survey, 1883, p. 198), USC&GS, reported the inhabitants called the village "Klu-kwan." At that time it consisted of 65 houses and 560 inhabitants. Aurel and Arthur Krause (1883, map) reported the name as "Kloquan." It was listed in the 11th Census in 1890 as "Klakwan," and it had 30 houses and 326 inhabitants, of which only three were non-Indian. The spelling "Klukwan" was adopted by the Canadian Board on Geographic Names.

Klukwan: village, see Kake.

Klumma Gutto: glacier, see Taku Glacier.

Klumu Gutta: glacier, see Taku Glacier.

Klunathkada Hill: hill, 1,950 ft., N of Mundthag Lake, 11 miles S of Northway, Alaska Range; 62° 48' N, 141° 57' W; (map 84). Indian name reported by USGS in 1955.

Klunistana Creek: stream, flows SW 6 miles to Nenana River, 45 miles SE of Healy, Alaska Range; 63° 20' 30" N, 148° 13' 30" W; (map 87). Tanana Indian name reported in 1910 by D. C. Witherspoon (in Moffit, 1915, pl. 1), USGS.

Klusiktok Creek: stream, flows SE 9 miles to the Inglutalik River, 38 miles E of Haycock, Nulato Hills; 65° 12' N, 159° 52' W; (map 109). Eskimo name meaning "it is far back" reported in 1956 by Orth.

Klutagmiut: locality, see Klutak.

Klutak Inlet: estuary, see Lutak Inlet.

Klutak: locality, "in the Kuskokwim district." Variant: Klutagmiut. Former Eskimo camp or settlement listed as "Klutagmiut," with a population of 21, in the 1890 Census.

Klutena Glacier: glacier, see Klutina Glacier.

Klutena Lake: lake, see Klutina Lake.

Klutena: stream, see Klutina River.

Klutina Glacier: glacier, heads N of Mount Mahlo, trends NE 6 miles to head of Klutina River, 20 miles N of Valdez, Chugach Mountains; 61° 23' 55" N, 146° 07' 30" W; (map 68). Variant: Klutena Glacier. Local name reported in 1900 by F. C. Schrader, USGS; named for the river.

Klutina Lake Trail: trail, heads on N shore of Klutina Lake, near mouth of Chultik Creek, extends N 21 miles to Hudson Lake, 48 miles NE of Valdez, Chugach Mountains; 61° 44' 35" N, 145° 49' 10" W; (map 68). Named after lake of the same name.

Klutina Lake: lake, 16 miles long, on Klutina River, 2.5 miles SE of Dowling Peak and 44 miles N of Valdez, Chugach Mountains; 61° 42" N, 145° 58' W; (map 68). Variant: Abercrombie Lake, Klutena Lake. Named by several hundred prospectors who camped at this lake in 1898; derived from the river's name. It has also been locally called "Abercrombie Lake" for Capt. W. R. Abercrombie, USA, who was exploring this area at this same time.

Klutina River: stream, heads in Klutina Glacier, flows 63 miles NE to Copper River at Copper Center, 66 miles NE of Valdez, Copper River Basin; 61° 57' 20" N, 145° 17' 00" W; (map 68). Variant: Klatena, Klati River, Klutena. Ahtena Indian name meaning "glacier river [khlu ti-tna]" obtained in 1885 by Lt. H. T. Allen (1887, p. 61), USA, and spelled "Klatena."

Klutlan Glacier: glacier, 40 miles long, heads in Alaska SW of Mount Natazhat, trends E across Alaska-Canada boundary to headwaters of Klutlan River, St. Elias Mountains; 61° 27' N, 141° 00' W; BGN 1954; (map 67). Native name reported in 1891 by C. W. Hayes, USGS.

Klutshah Mountain: mountain, 6,000 ft., 3.4 miles SE of junction of Kellsall River with Chilkat River, 22 miles NW of Skagway, Coast Mountains; 59° 25' 20" N, 135° 52' 00" W; (map 45). Tlingit Indian name given by E. C. Robertson, USGS, and published in 1952 by USGS.

Klutson Creek: stream, see Kletsan Creek.

Klutson Glacier: glacier, see Natazhat Glacier.

Klutuk Creek: stream, heads at Kemuk Mountain and flows SE 36 miles to Nushagak River at Ekwok, 42 miles NE of Dillingham, Bristol Bay Lowland; 59° 22' N, 157° 30' W; BGN 1931; (map 52). Eskimo name reported by Gerald FitzGerald, USGS, in 1930.

Klutuspak Creek: stream, heads at 60° 12' N, 158° 08' W, flows SE 30 miles to Nushagak River, 115 miles S of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 02' N, 157° 21' W; (map 60). Variant: Klu-tus Pah Creek, Klu-tus Pas. Eskimo name reported in 1952 by USC&GS as "Klu-tus Pas."

Kluvesna Glacier: glacier, trends SW 7.2 miles to its terminus at head of Kluvesna River, 16 miles NW of Mount Blackburn, Wrangell Mountains; 61° 47' N, 143° 52' W; (map 67). Variant: Kluwesna Glacier. Prospectors' name reported in 1900 as "Kluwesna Glacier" by T. G. Gerdine, USGS; it may have been derived from the Ahtena Indian word "khly" meaning "glacier."

Kluvesna River: stream, flows SW 8 miles from terminus of Kluvesna Glacier to Kotsina River, 22 miles NE of Chitina, Chugach Mountains; 61° 43' N, 144° 03' W; (map 68). Indian name published in 1900 on a prospector's manuscript map.

Kluwesna Glacier: glacier, see Kluvesna Glacier.

Klyakkhan: village, see Klawock.

Klyavakkhan: village, see Klawock.

Klymunget Lake: lake, 1.5 miles across, between Besziviit Lake and mouth of Telukhti Creek, 17 miles NW of Hochandochtla Mountain, Kokrines-Hodzana Highlands; 65° 40' N, 155° 23' W; (map 107). Koyukan Indian name obtained at Huslia in 1956 by Orth.

Klyuchevaya, Gora: hill, see Kliuchef, Mount.

Klyuchevoy, Zaliv: bay, see Hot Springs Bay.

Klyuchi: locality, see Goddard.

Knakatnuk: locality, on N side of Knik Arm Cook Inlet, Chugach Mountains; (map 63 or 69). Variant: Knik Station. Former Eskimo camp or settlement, with a population of 35, reported by Ivan Petroff in the 1880 Census; shown as "Knik Station" on a 1903 post route map.

Knapp Creek: stream, heads in Igichuk Hills, and flows SW 10 miles to Noatak River, 22 miles N of Kotzebue, Kotzebue-Kobuk Lowland; 67° 13' N, 162° 28' W; (map 128). Variant: Akoblak Creek. Name reported by the U.S. Army Corps of Engineers in 1954.

Knecktakimut: locality, see Chiukak.

Knee Bay: bay, extends SW Island 1 mile, on NE coast of Spruce Island, NE of Kodiak Island; 57° 56' N, 152° 25' W; (map 34). Local name published in 1943 by USC&GS.

Knee Hill: mountain, 1,350 ft., west-central Kiska Island, Aleutian Islands; 51° 57' 50" N, 177° 21' 45" E; (map 14). An arbitrary name beginning with "K" to correspond to the "K" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Kneep River: stream, see Knik River.

Kneep: village, see Knik.

Knetena: stream, see Nadina River.

Knetina: stream, see Nadina River.

Kniegnagamute: locality, see Kinegnak.

Knife Creek Glaciers, The: glaciers, on Mount Katmai, trend NW 4 miles to a central terminus at head of Knife Creek, on Alaska Peninsula, in Katmai National Monument, Aleutian Range; 58° 18' N, 155° 05' W; (map 42). Local name reported in 1951 by USGS.

Knife Creek: stream, on Alaska Peninsula, heads at central terminus of The Knife Creek Glaciers, flows NW 13 miles to River Lethe at Three Forks, in Katmai National Monument, 16 miles NW of Mount Katmai, Aleutian Range; 58° 22' 25" N, 155° 22' 00" W; (map 42). Named in 1922 by R. F. Griggs, National Geographic Society, after Knife Peak (now called Mount Griggs), which overlooks the stream on the north.

Knife Peak Volcano: volcano, see Griggs, Mount.

Knife Peak: mountain, 3,000 ft., 12 miles NE of Mount Veniaminof and 27 miles W of Chignik, on Alaska Peninsula, Aleutian Range; 56° 16' N, 159° 06' W; (map 30). Descriptive name reported in 1923 by R. H. Sargent, USGS.

Knife Peak: volcano, see Griggs, Mount.

Knifeblade Ridge: ridge, extends 15 miles W of Angoyakvik Pass between Colville and Kigalik Rivers, 12 miles S of head of Ikpikpuk River, Arctic Slope; 69° 10' N, 154° 48' W; (map 142). Variant: Kimikpak Ridge, Kimikpuk Ridge. Probably named in the 1940's by the geologists on the Naval Petroleum Reserve No. 4 exploration. The Eskimo name for this ridge, "Kimikpak," has been applied to a ridge 17 miles further east by USGS.

Knig Slough: water passage, see King Slough.

Knight Creek: stream, see Sushana River.

Knight Island Passage: water passage, see Lower Passage.

Knight Island Passage: water passage, trends S 36 miles from Prince William Sound to Montague Strait, 10 miles NW of Montague Island, Chugach Mountains; 60° 15' N, 148° 00' W; (map 63). Local name published in 1913 by USC&GS; derived from nearby Knight Island.

Knight Island: island, 2.8 miles across, on E shore of Yakutat Bay, 12 miles NE of Yakutat, St. Elias Mountains; 59° 43' N, 139° 33' W; (map 46). Variant: Dalnie Island, Dalni Island, Dalniy Island, Knight's Island. Named "Knight's Island" in 1794 by Lt. Peter Puget (in Vancouver, 1798, v. 3, p. 226), RN, probably for Sir John Knight, RN, who had been a fellow prisoner with Lt. W. R. Broughton, commander of the Chatham, in America in 1777, during the Revolutionary War (Wagner, 1937, p. 394). It was called "O[strov] Dalniy," meaning "distant island," by Capt. Tebenkov (1852, map 7), IRN, and "Dalni Island" by W. H. Dall in 1883 Coast Pilot (p. 210).

Knight Island: island, in Prince William Sound, trends NE-SW 26 miles, on E side of Knight Island Passage, 56 miles ENE of Seward, Chugach Mountains; 60° 21' N, 147° 45' W; (map 63). Variant: Knight's Island. Name shown on Capt. George Vancouver's chart but not mentioned in his text; no doubt named in honor of Sir John Knight. See Knight Island in Yakutat Bay.

Knight Mountain: mountain, 1,749 ft., 1 mile NE of Pyramid Mountain and 7.5 miles SE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 01' 30" N, 161° 28' 50" W; (map 53). Named in 1914 by USC&GS; published in 1915 on Chart 9103.

Knight's Island: island, see Knight Island.

Knik Anchorage: anchorage, in Knik Arm just offshore from city of Anchorage; 61° 13' N, 149° 55' W; (map 69). Name published in 1913 by the Alaska Coast Company on a folder.

Knik Anchorage: city, see Anchorage.

Knik Arm: estuary, 3 miles wide, extends NE 40 miles from Cook Inlet, W of Anchorage, Cook Inlet Lowland; 61° 12' N, 150° 13' W; (map 70). Variant: Fire River, Knik River. Eskimo name meaning "fire [ignik]" used to identify the Tanaina Indians living on the north shore of this estuary. See Knik. The estuary name was reported in 1869 by George Davidson, USC&GS.

Knik Glacier: glacier, heads on Mount Marcus Baker, trends W 30 miles to its terminus near head of Knik River, 20 miles SE of Palmer, Chugach Mountains; 61° 24' N, 148° 34' W; (map 69). Eskimo name reported in 1906 by T. G. Gerdine and R. H. Sargent, USGS.

Knik Heights: suburb, near head of Rabbit Creek, 6 miles SE of Anchorage, Cook Inlet Lowland; 61° 06' 18" N, 149° 47' 30" W; (map 69) Local name reported in 1962 by USGS; derived from Knik Arm.

Knik Lake: lake, 0.5 miles long, on W bank of Knik Arm, N of Knik, 17.5 miles NE of Anchorage, Cook Inlet Lowland; 61° 27' 40" N, 149° 43' 30" W; (map 69). Eskimo name reported in 1911 by GLO [BLM]; name derived from the village of Knik.

Knik River: estuary, see Knik Arm.

Knik River: stream, heads at Knik Glacier, flows NW 25 miles to Knik Arm, 10 miles SW of Palmer, Cook Inlet Lowland; 61° 29' N, 149° 16' W; (map 69). Variant: Kinik River, Kneek River, Kneep River, Knick River, Knuyk River, Reka Knyk, Kook River, Kweek River. Eskimo name meaning "fire [igniq]" reported by Capt. Tebenkov (1852, map 6), IRN, as "Reka Knyk." Present spelling was reported by George Davidson, USC&GS, in 1869 Coast Pilot (p. 190).

Knik Station: locality, see Knakatnuk.

Knik: village, pop. 40, on W bank of Knik Arm Cook Inlet, 17.5 miles NE of Anchorage, Cook Inlet Lowland; 61° 27' 30" N, 149° 43' 15" W; (map 69). Variant: Kinik, Kneep, Knick, Knuyk, Kook, Kweek, Kinnick, K' niq-a-mut, Palmers Store. Tanaina Indian village name, meaning "fire [igniq]," originally applied to a settlement of several villages at the head of Cook Inlet. The principal village (probably the one at the mouth of Knik River) was listed by Ivan Petroff as "Kinik" and "Kinnick" in 1880 U.S. Census with a population of 46; in 1890, 160. The total number of "Kinik" Indians living in the area in 1900 was about 250, obtaining their subsistence by hunting, trapping and bartering. The present village called "Knik" developed around a trading post called "Palmers Store" in 1903. Its population was 118 in 1910; 40 in 1920; and 34 in 1930. The Knik post office was here from 1904 to 1919 (Ricks, 1965, p. 35). See Eklutna.

Kniktag-miut: locality, see Iknetuk.

Knob Creek: stream, flows SW 2 miles to Eska Creek, 3 miles NW of Sutton and 12 miles NE of Palmer, Cook Inlet Lowland; 61° 45' 05" N, 148° 55' 05" W; BGN 1946; (map 69). Local name reported about 1946 by USGS.

Knob G: mountain, 1,760 ft., on W side of Muir Inlet, between valleys of Morse and Plateau Glaciers, 58 miles NW of Hoonah, St. Elias Mountains; 58° 52' 30" N, 136° 08' 30" W; (map 10). Variant: G, The Rat. Named by members of the American Geographical Society's Glacier Bay Expedition of 1941 (Field, 1947, map) because H. F. Reid's triangulation station "G" was established on this point in 1890 (Reid, 1892, pl. 14) and was used by many subsequent observers. It was also known as "The Rat" by tourists of the 1880's.

Knob H: peak, 1,138 ft., in Glacier Bay National Monument, 3.5 miles SE of Point McLeod and 57 miles NW of Hoonah, St. Elias Mountains; 58° 52' 30" N, 136° 02' 45" W, (map 10). Variant: The Mouse. Named by members of the American Geographical Society's Glacier Bay Expedition of 1941 (Field, 1947, map) for H. F. Reid's triangulation station "H" of 1890 and 1892 which was located there (Reid, 1892, pl. 14). It was also known as "The Mouse" by tourists in the 1880's.

Knob Hill: hill, see Court House Hill.

Knob Hill: mountain, 1,365 ft., on west-central Kiska Island, Aleutian Islands; 51° 56' 05" N, 177° 21' 38" E; (map 14). Variant: Siberia Hill. An arbitrary name beginning with "K" to correspond to "K" grid used by U.S. Army for tactical purposes during World War II; published on a 1953 AMS map. Variant published on a 1943 USAAF map.

Knob Hill: ridge, see Chicken Ridge.

Knob I: hill, 700 ft., in Klotz Hills, in Glacier Bay National Monument, 1.5 miles SE of Knob H and 56 miles NW of Hoonah, St. Elias Mountains; 58° 51' 40" N, 136° 02' 05" W; (map 10). Named by members of the American Geographical Society's Glacier Bay Expedition of 1941 (Field, 1947, map). This was the site of H. F. Reid's triangulation station "I" in 1890 and 1892 (Reid, 1892, pl. 14).

Knob Island: island, 0.4 miles across, in El Capitan Passage, off S coast El Capitan Island, Alexander Archipelago; 55° 54' 35" N, 133° 20' 15" W; (map 4). Local name published in 1925 Coast Pilot (p. 154).

Knob Lake: lake, 0.7 miles long, between Trail Lake and East Fork Matanuska River, 60 miles NW of Valdez, Copper River Basin; 61° 50' 05" N, 147° 20' 20" W; BGN 1960; (map 69). Descriptive name reported in 1956 to USGS by George Belanger. So named because of the knobby character of the terrain surrounding it.

Knob Point: promontory, on E coast of Amatignak Island, Delarof Islands, Aleutian Islands; 51° 15' 10" N, 179° 03' 45" W; (map 16). Descriptive name applied because of a conspicuous knob-shaped hill; published by USC&GS in 1954 Coast Pilot (p. 458).

Knob Ridge: ridge, 3,450 ft., extends N 9 miles from Bear Creek, 41 miles NW of Tok, Alaska Range; 63° 35' 10" N, 144° 15' 40" W; BGN 1937; (map 86). So named in 1937 by USGS "because of a granite knob, 70 feet high, near its center."

Knob, The: hill, 700 ft., on S side of Pleasant Island, in Icy Strait, 4.3 miles W of Noon Point and 45 miles W of Juneau, St. Elias Mountains; 58° 20' 30" N, 135° 39' 20" W; (map 11). Local name published in 1948 by USGS.

Knockhock: locality, on E bank of Black River, 46 miles S of Kwiguk, Yukon-Kuskokwim Delta; 62° 06' 30" N, 164° 55' 00" W; (map 77). Variant: Nahk-hahk, Nakhak. Eskimo village abandoned in favor of New Knockhock.

Knoll Bay: bay, 2 miles across, 10 miles NE of Kaguyak, on SE coast of Kodiak Island; 56° 57' N, 153° 35' W; (map 33). Descriptive name given in 1933 by USC&GS.

Knoll Head: promontory, 500 ft., W of mouth of Iniskin Bay, 21 miles N of Augustine Island, Aleutian Range; 59° 38' 30" N, 153° 30' 00" W; BGN 1966; (map 51). Variant: Back Range Head. Descriptive name given about 1916 by USC&GS.

Knoll Point: point of land, 8.5 miles NE of Kaguyak, on SE coast of Kodiak Island; 56° 56' 10" N, 153° 36' 00" W; BGN 1934; (map 33). Named in 1934 by USC&GS "for a knoll at the end of the point."

Knoll Point: point of land, see Nichols Point.

Knolls, The: hills, see Nichols Hills.

Knot Point: point of land, on NE end of Hawkins Island, 3 miles N of Cordova, Chugach Mountains; 60° 35' 40" N, 145° 45' 40" W; (map 64). Named in 1897 by Lt. Comdr. J. F. Moser, USN, while collecting hydrographic data and making harbor sketches along the coast of Alaska.

Knowat Creek: stream, see Jungjuk Creek.

Knowat River: stream, see Owhat River.

Knowl, The: peak, 5,150 ft., on edge of Taku Glacier at N end of the Taku Range, 1.1 miles NW of Flower Tower and 25 miles N of Juneau, Coast Mountains; 58° 39' 40" N, 134° 23' 55" W; (map 11). Descriptive name published in 1960 by USGS.

Knowles Bay: bight, 3.5 miles wide, NE edge of Prince William Sound, 30 miles NW of Cordova, Chugach Mountains; 60° 41' N, 146° 33' W; (map 64). Local name published in 1953 by USGS; derived from nearby Knowles Head.

Knowles Creek: stream, flows SE 12 miles to Koyuk River, 14 miles SW of Kiwalik Mountain and 23 miles SE of Imuruk Lake, Seward Peninsula Highlands; 65° 23' N, 162° 35' W; (map 110). Prospectors' name reported in 1900 by W. J. Peters (in Mendenhall, 1901, pl. 20), USGS.

Knowles Head: point of land, at W end of Knowles Bay, 32 miles NW of Cordova, Chugach Mountains; 60° 41' 00" N, 146° 37' 30" W; (map 64). Named by Capt. Abercrombie (1900, map), USA, while exploring the Copper River region in 1898.

Knox Peak: mountain, 5,970 ft., in Teocalli Mountains, 6 miles SE of junction of South Fork Kuskokwim and Tatina Rivers, 90 miles SE of McGrath, Alaska Range; 62° 13' N, 153° 20' W; (map 80). Named in 1898 by J. E. Spurr and W. S. Post, USGS.

Knoxville Lake: lake, oxbow along Selawik River, 13 miles E of Selawik, Kotzebue-Kobuk Lowland; 66° 35' N, 159° 33' W; (map 114). Local name reported in 1955 by the U.S. Army Corps of Engineers.

Knub Hill: mountain, 1,750 ft., on Iniskin Peninsula, 1 mile W of Dry Bay, Aleutian Range; 59° 40' N, 153° 10' W; BGN 1916; (map 51). Variant: Nub Hill. Name published as "Nub Hill" by USC&GS in 1913, but spelling was changed by BGN at the recommendation of Andrew Braid, USC&GS.

Knudson Cove: bay, 1.2 miles wide, on W coast of Revillagigedo Island, at S entrance to Clover Passage, 35 miles NW of Ketchikan, Alexander Archipelago; 55° 28' 30" N, 131° 48' 00" W; (map 3). Local name recorded in 1954 by USGS.

Knudson Cove: village, see Clover Pass.

Knudson Creek: stream, see Duck Creek.

Knudson Mountain: peak, see Knutson Mountain.

Knutruin Rock: rock, in Cook Inlet, at West Foreland, 20 miles NNW of Kenai, Cook Inlet Lowland; 60° 43' 00" N, 151° 42' 30" W; (map 62). Variant: Knuttrain Rocks. Reported in 1958 as Knuttrain Rocks by USGS.

Knutson Bay: bight, 6 miles across, in Iliamna Lake, at mouth of Knutson Creek, 18 miles E of Iliamna, Aleutian Range; 59° 48' N, 154° 15' W; (map 51). Local name reported by G. C. Martin and F. J. Katz (in Brooks and others, 1910, pl. 5), USGS. Name was apparently derived from nearby Knutson mining prospect.

Knutson Creek: stream, flows SW 11 miles to Knutson Bay, at NE end of Iliamna Lake, Aleutian Range; 59° 48' N, 154° 09' W; (map 51). Local name derived from Knutson Bay; published by Martin and Katz (1912, p. 91).

Knutson Lake: lake, 0.5 miles across, S of Mount Dana, 6 miles NE of Pavlof Bay, Aleutian Range 55° 38' N, 161° 13' W; (map 28). Named in 1929 by USGS.

Knutson Mountain: peak, 3,880 ft., N of Knutson Bay, at NE end of Iliamna Lake, Aleutian Range; 59° 40' N, 154° 11' W; (map 51). Variant: Knudson Mountain. Local name published by Martin and Katz (1912, p. 91), USGS.

Knutson Valley: valley, of Knutson Creek, 3 miles across, on NE shore of Iliamna Lake, at W end of Knutson Bay, Aleutian Range; 59° 48' N, 154° 09' W; (map 51). Local name published by USGS in 1952.

Knuttrain Rocks: rock, see Knutruin Rock.

Knuyk River: stream, see Knik River.

Knuyk: village, see Knik.

Knyk, Reka: stream, see Knik River.

Knykhtag-myut, Selyeniye: locality, see Iknetuk.

Knykhtakg-miut: locality, see Iknetuk.

Knykhtakg-myut: locality, see Iknetuk.

Ko-kon-hee-ni: stream, see Muddy Creek.

Kobakof Bay: bay, 2 miles across, on S coast of Atka Island, Aleutian Islands; 52° 04' N, 174° 30' W; (map 18). Variant: Kabakof Bay, Kabakovskaia Bay, Kobakotshaia. Name published as "Bukh[ta] Kobakovskaia," or "Kobakovskaia Bay," on Russian Hydrog. Dept. Chart 1400 (1848). "Kabakof Bay" is said by Baker (1906, p. 340) to be named "by the pilot Ingenstrem" (cna), about 1830.

Kobakotshaia: bay, see Kobakof Bay.

Kobal: locality, see Cobol.

Kobe: railroad station, see Rex.

Kobi: railroad station, see Rex.

Kobolunak: locality, on right bank of Yukon River, 7.7 miles NW of Pitkas Point and 48 miles NW of Marshall, Yukon-Kuskokwim Delta; 62° 05' N, 163° 30' W; (map 77). Variant: Cobolunuk. Eskimo camp reported in 1899 by G. R. Putnam, USC&GS, who spelled it "Cobolunuk."

Kobuk Creek: stream, in Ray Mountains, flows SSW 10 miles to Gishna Creek, 38 miles NE of Tanana Kokrines-Hodzana Highlands; 65° 37' N, 151° 20' W; (map 106). Local name obtained in 1956 at Tanana by Orth; so named because Kobuk Eskimo herded reindeer here about 50 years ago.

Kobuk Lake: lake, 0.8 miles long, on N side of Chandalar River, 0.5 miles NE of Mary Lake and 23 miles SSE of Chandalar, Brooks Range 67° 11' N, 148° 10' W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Kobuk River Delta: delta, extends W 32 miles to Hotham Inlet, 35 miles WNW of Selawik, Kotzebue-Kobuk Lowland; 66° 45' N, 161° 45' W; (map 114). Descriptive name published in 1951 by AMS.

Kobuk River: stream, flows W 280 miles to Hotham Inlet 25 miles SE of Kotzebue; 66° 54' N, 160° 38' W; BGN 1905; (map 114). Variant: Holoatna, Holoatna, Koowak, Kowak, Kowuk, Kooak, Kopak, Kubuk, Kuvuk, Kubuck, Putnam. Eskimo name meaning "big river" first transcribed by John Simpson in 1850 as "Kowuk." Explored by Lt. G. M. Stoney, USN, in 1883-1886, who wrote the name "Ku-buck," but proposed that it be called "Putnam" in honor of Master Charles Flint Putnam, USN, officer of the Rodgers, who was carried to sea on the ice and lost in 1880. Lt. J. C. Cantwell, USRCS, also explored the river in 1884 and 1885 and spelled the name "Koowak" on his map and "Kowak" in his text. Ivan Petroff spelled the river name "Kooak" in 1880, and W. H. Dall spelled it "Kowak" in 1870. Lt. H. T. Allen, USA, obtained the Koyukan Indian name in 1885 which he spelled "Holoatna" and "Holoatna."

Kobuk Villages: localities, on lower Kobuk River. Variant: Kooagamutes, Kowagamute, Kuagamut, Kubok, Ku-wung-mutes. This name was reported in 1842-44 and spelled "Kubok" by Lt. L. A. Zagoskin, IRN. Ivan Petroff in the 1880 U.S. Census listed "Kowagamute," i.e. "Kowak people," which more than likely refers in general to the Eskimo living on the Kobuk River in camps and small settlements.

Kobuk: village, pop. 54, on right bank of Kobuk River 7 miles NE of Shungnak, Kotzebue-Kobuk Lowland; 66° 55' N, 156° 52' W; (map 115). Variant: Kochuk, Shungnak. Village established about 1899 as a supply point for the mining activities in the Cosmos Hills to the north. It was then called Shungnak. Because the village was the location of a trading post, school, and Friends mission, it became primarily an Eskimo settlement by 1910. Due to river

erosion the population of Shungnak decided to relocate at a new site called "Kochuk" about 10 miles downstream in the 1920's. The few families that remained behind, and some who returned, renamed the village "Kobuk." The Shungnak post office was established in 1903; the name was changed to Kobuk in 1928. Its population was 210 in 1910; 95 in 1920, 31 in 1939, and 38 in 1950.

Kocacho Creek: stream, see Kokacho Creek.

Kochalitno River: stream, see Swift River.

Kocheelagok: hill, see Nushkolik Mountain.

Kochek, Ostrov: island, see Middleton Island.

Kochekmak, Zaliv: bay, see Kachemak Bay.

Kochilagok Hill: hill, 225 ft., W of Nungatak River, 78 miles SW of Marshall, Yukon-Kuskokwim Delta; 61° 38' N, 164° 22' W; (map 74). Variant: Kutchilkag Hill, Co-chee-shluck Hill. Eskimo name that refers to the "crane" (lesser sandhill crane, *Grus canadensis canadensis*) and reported by USC&GS in 1949. The name means "color body, red" (Gabrielson and Lincoln, 1959, p. 314).

Kochkogamute: locality, see Kakamut.

Kochkomut: locality, see Kakamut.

Kochlogtoggamiut: locality, see Kukuktuk.

Kochluk Pass: watercourse, in Yukon Delta, heads at Kwikpak Pass, flows NW 6 miles to Norton Sound, 27 miles N of Kwiguk, Yukon-Kuskokwim Delta; 63° 09' N, 164° 33' W; (map 92). Eskimo name reported in 1952 by USC&GS.

Kochrines: village, see Kokrines.

Kochu Island: island, 0.8 miles long, in Chilkat Inlet, 1.6 miles S of Letnikof Cove, on Chilkat Peninsula, 22 miles SSW of Skagway, Coast Mountains; 59° 08' 45" N, 135° 23' 45" W; (map 45). Variant: Alexander Island, Gla-huts, Jachlanissa, Ventosa Island. Name published by Russian Hydrog. Dept. (1848, inset dated 1838, Chart 1396) as "O[hsov]," Kochu or "Kochu Island." The island was called Ventosa Island in 1869 by Comdr. R. W. Meade, USN; the Tlingit Indian name was said to be Gla-huts (1883 Coast Pilot, p. 167). Aurel and Arthur Krause (1883, map), however, reported the name as Jachlanissa.

Kochuitno: stream, see Kashwitna River.

Kochuk: village, see Kobuk.

Kodiak Island: island, see Afognak Island.

Kodiak Island: island, see Kodiak Island.

Kodiak Harbor: bight, see Saint Paul Harbor.

Kodiak Harbor: water passage, between Kodiak and Near Island, on NE coast of Kodiak Island; 57° 47' 15" N, 152° 24' 00" W; (map 34). Name derived from Kodiak Island and published in 1943 by USC&GS.

Kodiak Island: island, 100 miles long, 60 miles across, in Gulf of Alaska, S of Cook Inlet; 57° 20' N, 153° 22' W; BGN 1901; (map 34). Variant: Cadiack Island, Codiack, Florida Blanca, Great Island, Kadiak Island, Kadjak Island, Kadyak Island, Kaniag Island, Kichtak, Kikhtak, Kikhtowik, Kodiack Island, Kuktak Island, Rodiac. This island, the largest in Alaska, native home to the Kodiak Bear, was first discovered by Stephen Glotov in 1763. "Glotof [sic] however did not land till he reached the last and most Eastward of these islands, called by the inhabitants Kadyak." (Coxe, 1787, p. 124). According to Bancroft (1886, p. 141), "Glotof finally anchored on the 8th of September off the coast of a large and mountainous island, called Kikhtak by the natives, but now known as Kadiak." Petroff (in Bancroft, p. 224) says, "Kikhtak, or Kikhtowik, is the Innuvit word for island. At the present day [1886] the natives of the peninsula speak of the Kodiak people simply as Kikhtagamutes, islanders. The tribal name appears to have been Kaniag and the Russian appellation now in use probably derived from both." The name "Kodiak" was first used on October 20, 1778, by Capt. Cook (1785, v. 2, p. 504) who wrote, "It was from him [Ismyloff] that we got the name of Kodiak." During the 1800's many spellings of the name were used and "Kadiak" was adopted as the official name in 1890, but was changed to its present spelling in 1901 because of popular local usage. This island was named "Florida Blanca" in 1788 by E. J. Martinez and Lopez de Haro (Baker, 1906, p. 375).

Kodiak Ranch: locality, 23 miles SSE of Kodiak, on E coast of Kodiak Island; 57° 28' N, 152° 20' W; (map 34). Name derived from Kodiak Island and published in 1964 by USGS.

Kodiak Rock: rock, in Gulf of Alaska, 2 miles NE of Long Island, 7.5 miles NE of Kodiak, Kodiak Island; 57° 48' 30" N, 152° 12' 00" W; (map 34). Variant: Kadiak Rock. Name derived from Kodiak Island and given in 1868 by USC&GS as "Kadiak."

Kodiak: town, pop. 2,628, on NE coast of Kodiak Island; 57° 47' 20" N, 152° 24' 10" W; BGN 1944; (map 34). Variant: Gavan Saint Pavla, Kadiak, Paul's Harbor, Pavlovsky Gavan, Saint Paul, Seleniye Pavlovskoy Gavani. Local name derived from Kodiak Island and first published by the U.S. Post Office Department when the Kodiak post office was established in 1869 (Ricks, 1965, p. 35). The post office was discontinued in 1875 and reestablished in 1888. The town was founded in 1792 by Alexander Baranov, Manager of the Shelikov (later the Russian American) Company from 1792 to 1808. He named it "Pavlovsk Gavan," or "Paul's Harbor." Baranov moved Shelikov's settlement from Three Saints Harbor to this location because "the land surrounding it was higher and drier * * * it was surrounded by the timber needed to build boats, buildings and better fortifications * * *." (Ameigh and Chaffin, 1962, p. 45). The 11th Census in 1890 (1893, p. 74) reported, "The most important permanent settlement in the Second district is Kadiak, designated on our charts as St. Paul. The place was selected as a central station and headquarters of the Russian fur-trading companies in the year 1789 on account of its good harbor and close vicinity of good building timber. Previous to the establishment of New Archangel, or Sitka, on its present site, Kadiak was also the headquarters of the Russian American Company." The town was called "St.

Paul" in 1805 by Lisianski (1814, p. 168), and "gavan St. Pavla" in 1849 by Capt. Tebenkov (1852, map 23). Sarichev (1826, map 16) showed it as "Seleniye Pavlovskoy Gavani," or "Settlement of Paul's Harbor."

Kodogh: ravine, extends N from Garden Cove, on SE coast of St. George Island, in Pribilof Islands; 56° 35' 10" N, 169° 30' 30" W; (map 38). An Aleut name listed by Putnam (1903, p. 1015), USC&GS, as "Ko'dogh [Ko'doch]" meaning "gulch."

Kodosin Minnkohwin Lake: lake, 3.4 miles long, W of Konedsin Minnkohwin Lake, 22 miles SE of Allakaket, Kanuti Flats; 66° 22' N, 152° 00' W; (map 117). Koyukan Indian name obtained in 1956 at Allakaket by T. E. Taylor, USGS.

Kodosin Nolitna Creek: stream, flows NE 21 miles to Kanuti Kilolitna River 3 miles N of its junction with Holorada Creek, 31 miles SE of Allakaket, Kanuti Flats; 66° 10' 30" N, 152° 04' 00" W; (map 117). Koyukan Indian name obtained in 1956 at Allakaket by Orth.

Koduit Lake: lake, 2 miles long, 17 miles NE of Fort Yukon, Yukon Flats; 66° 35' 30" N, 144° 38' 00" W; (map 119). Indian name reported in 1956 by T. E. Taylor, USGS.

Koggiung: settlement, on E bank of Kvichak River at Graveyard Point, on Alaska Peninsula 9 miles N of Naknek, Bristol Bay Lowland, 58° 52' 00" N, 157° 00' 15" W; BGN 1910; (map 41). Variant: Kogiung. Eskimo village listed by Ivan Petroff in the 1880 Census with a population of 29, 133 in 1890; and 533 in 1900. Its increase in population was due to the establishment of several canneries. The Koggiung post office operated from 1935 to 1946.

Kogish Mountain: mountain, near W coast of Prince of Wales Island, 10 miles N of Klawock, Alexander Archipelago; 55° 41' 30" N, 133° 10' 25" W; (map 4). Named in 1904 by E. F. Dickins, USC&GS, "after Indian chief who formally [sic] resided at Tuxekan, from information obtained from Captain [Cyrus] Orr."

Kogiukhtuli: stream, see Swan River.

Kogiung: settlement, see Koggiung.

Kogluk: locality, "at Cape Nome," Seward Peninsula Highlands; (map 94). Former Eskimo camp or settlement listed in the 1890 Census (p. 162).

Kogohokruk River: stream, see Henry Creek.

Kogohokruk River: stream, see Kogosukruk River.

Kogok River: stream, flows NW 35 miles to Norton Sound, 22 miles SW of St. Michael, Yukon-Kuskokwim Delta; 63° 16' 30" N, 162° 35' 30" W; (map 92). Eskimo name reported in 1898 by USC&GS.

Kogok River: stream, see Nunakogok River.

Kogoluk River: stream, heads at 67° 26' N, 156° 09' W, flows SW 52 miles to Kobuk River, 4 miles E of Kobuk, Brooks Range; 66° 55' N, 156° 45' W; (map 115). Variant: El-yog-o-lok-tok,

Koguluk River, Rocky River. Eskimo name obtained by Lt. Stoney (1900, map), USN, in 1885. The same year, Lt. J. C. Cantwell, USRCS, recorded the name as “El-yog-o-lok-tok or Rocky River” (Healy, 1887, p. 44). According to P. S. Smith and H. M. Eakin, USGS, this name means “river with falls” (in Brooks and others, 1911, p. 275).

Kogoluktuk River: stream, heads at Shishakshinovik Pass, flows SW 45 miles to Kobuk River, 10 miles E of Shungnak, Kotzebue-Kobuk Lowland; 66° 55' N, 156° 48' W; (map 115). Variant: El-yog-o-lok-tok, Koguluk River. Eskimo name written “Ko-go-luk-tuk” in 1885 by Lt. Stoney (1900, map), USN. This is probably the same stream spelled “El-yog-o-lok-tok” by Lt. J. C. Cantwell, USRCS, in 1885.

Kogomiut: locality, on Bering Sea coast, 9 miles NE of Black River and 8 miles SW of Waklarok, Yukon-Kuskokwim Delta; 62° 28' N, 165° 10' W; (map 76). Former Eskimo village reported about 1938 by USC&GS.

Kogosukruk River: stream, heads at 69° 27' 30" N, 152° 45' 30" W, flows NE 80 miles to Colville River, 41 miles NE of Umiat, Arctic Plain; 69° 56' N, 151° 35' W; BGN 1959; (map 141). Variant: Kogohokruk River. Eskimo name reported in 1946 by USC&GS.

Kogosukruk River: stream, see Henry Creek.

Kogotpak River: stream, flows 17 miles NE to Nuvagapak Lagoon, SE of Nuvagapak Point and 26 miles NW of Demarcation Point, Arctic Plain; 69° 52' N, 142° 16' W; (map 138). Eskimo name reported by USGS in 1956.

Kogoyuk Creek: stream, flows N 12 miles to Holokuk River 6.7 miles SE of its junction with Kuskokwim River, 36 miles SE of Aniak and 46 miles SW of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 28' N, 158° 28' W; BGN 1948; (map 72). Variant: Koyoyuk Creek. Eskimo name meaning “swan” refers to the many long stretches of white water; reported in 1945 by USGS.

Kograk Deep: locality, a deep place in Wulik River, 3 miles NE of Kivalina, Kotzebue-Kobuk Lowland; 67° 45' N, 164° 27' W; (map 128). Variant: Kaugrak Deep, Kaugzaaq, Kowgrock. Eskimo name, so called because a young man with this name was mysteriously killed here; reported in 1966 by E. S. Burch.

Kogru River: estuary, extends 14 miles W off Harrison Bay, Arctic Plain; 70° 34' N, 152° 00' W; (map 149). Variant: River Kogru, River Kogruak. This Eskimo name first appears on Maguire's map (Great Britain, 1854, facing p. 186) as R. Kogru, and on John Simpson's map, of about the same time, it is shown as R. Kogruak. Kugauraq means “a creek” and Kugruak means “old river.” Maguire shows this stream as an outlet for Teshekpuk Lake.

Kogruak River: stream, see Canning River.

Kogruak, River: estuary, see Kogru River.

Kogruk Creek: stream, heads on Nucleus Mountain, in De Long Mountains, flows W 15 miles to join Tupik Creek to form the Utukok River, Brooks Range; 68° 34' N, 161° 06' W; BGN 1961; (map 131). Named by USGS geologists in 1951. It is an Eskimo name.

Kogrukluk River: stream, heads at 60° 26' N, 158° 44' W, flows NE 44 miles, joins Shotgun Creek to form Holitna River, 65 miles SW of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 49' N, 157° 51' W; BGN 1948; (map 60). Variant: Middle Fork Holitna River. Eskimo name spelled "Ko-gruk-luk" in the winter of 1902-03 by W. R. Buckman, prospector.

Koguklik: stream, see Middle Fork Goodnews River.

Koguluk River: stream, see Kogoluk River.

Koguluk River: stream, see Kogoluktuk River.

Koh River: stream, see Kuk River.

Kohklux: locality, S of Klukwan, on E bank of Chilkat River, 20 miles SW of Skagway, St. Elias Mountains; 59° 23' 41" N, 135° 53' 30" W; (map 45). Tlingit Indian name for the site of a USC&GS station during the total eclipse of the sun in 1869. Name reported in the 1883 Coast Pilot (p. 198).

Kohl Island: island, 0.2 miles long, off S coast of Agattu Island, 2.6 miles W of Cape Sabak, Aleutian Islands; 52° 21' 00" N, 173° 39' 20" E; BGN 1938; (map 13). Variant: Kuhl Island. This island was named "for Mr. Kohl, a partner in the firm of Hutchinson, Kohl & Co., of San Francisco, which bought the vessels and other property of the Russian American Company in 1867 and organized the Alaska Commercial Company." The name was proposed to BGN as "Kuhl" in 1938 by U.S. Navy Hydrog. Office and was approved as "Kohl" the same year. The name was published in 1944 Aleutian Coast Pilot (p. 135).

Kohlsaak Peak: mountain, 6,250 ft., 8 miles S of Simpson Pass, 87 miles W of Talkeetna, Alaska Range; 62° 13' 30" N, 152° 48' 00" W; (map 81). Local name reported in 1958 by USGS.

Kohlتيene's Village: locality, "on Stikine River" in SE Alaska, Coast Mountains. Former Stikine Indian summer camp, with a population of 28, reported by Ivan Petroff in the 1880 Census.

Kohokachalla Mountain: hill, 1,200 ft., at NE end of Indian Mountains, 33 miles NE of Hughes, Kokrines-Hodzana Highlands; 66° 22' N, 153° 21' W; (map 116). Indian name, reported to mean "heart," recorded at Hughes in 1956 by Orth.

Koianglas: locality, site of a Haida Indian village, on SW coast of Long Island, Alexander Archipelago; 54° 49' 00" N, 132° 42' 10" W; BGN 1929; (map 1). Variant: Klinkwan, Klinquan, Korahunglus. Name reported by Rev. Sheldon Jackson in 1880. This village, called "Klinkwan" by Baker (1906, p. 371), was absorbed by the village of Kaigani which, in turn, was abandoned in 1911 when the village of Hydaburg was established to centralize the school system. Mrs. Clara McLeod, an early teacher at Howkan wrote to USC&GS, "The name sometimes spelled 'Korahunglus' is said to mean 'muddy water'. About 1885 two of the natives were drowned and through native superstitions the village was deserted * * *." See Kaigani and Klinkwan.

Koikpak River: stream, see Koyuk River.

Koingak: village, see Quinhagak.

Koinooten: stream, see Kanuti River.

Koipak River: stream, see Koyuk River.

Koiyaktot Mountain: mountain, 4,280 ft., in Brooks Range, 17 miles E of Howard Pass; 68° 12' N, 156° 15' W; (map 132). Eskimo name probably obtained at Anaktuvok Pass by T. E. Taylor, USGS, in 1956.

Kok River: stream, see Kuk River.

Kok, Mys: point of land, see Coke, Point.

Kok-set-no River: stream, see Koksetna River.

Kok-wok-ha-mut: locality, see Kokwok.

Kok-wok-kagati: lakes, extend 2 miles E-W, 14 miles N of Okstukuk Lake and 50 miles N of Dillingham, Bristol Bay Lowland; 59° 44' N, 158° 23' W; (map 52). Eskimo name reported in 1910 by H. C. Fassett, USBF; he says name refers in meaning to “both lakes” or “twin lakes.”

Koka Island: island, 0.1 miles across, 12 miles S of Sitka, on W coast of Baranof Island, Alexander Archipelago; 56° 54' 20" N, 135° 23' 00" W; (map 5). Variant: Koka Islet, Ostrov Koka. A Finnish family name applied to this island in 1809 by Ivan Vasiliev the first, IRN, published by Lt. Sarichev (1826, map 19), IRN, as “O[strov] Koka,” or “Koka Island.”

Koka Islet: island, see Koka Island.

Kokachatna River: stream, see Hogatza River.

Kokachatna: stream, see Hogatza River.

Kokacho Creek: stream, heads at 67° 30' N, 146° 00' W, flows S 56 miles to Marten Creek, 24 miles NW of Fort Yukon, Yukon Flats; 66° 50' N, 145° 50' W; (map 119). Variant: Kocacho Creek. Indian name obtained in 1956 by T. E. Taylor, USGS.

Kokachutna River: stream, see Hogatza River.

Kokachutna: stream, see Hogatza River.

Kokechik Bay: bay, 11 miles long, on coast of Bering Sea, 10 miles N of Hooper Bay, Yukon-Kuskokwim Delta; 61° 43' N, 166° 08' W; (map 75). Variant: Igiak Bay, Kakechik Bay, Kokechik Painga. Eskimo name, reported by USC&GS in 1949, meaning “has wood.” It is sometimes called “Kokechik Painga” meaning “the mouth of that which has wood.” In 1919, R. H. Sargent, USGS, gave the name as Igiak Bay, presumably derived from the nearby village called “Igiagamiut” or “Igiayarok.”

Kokechik Painga: bay, see Kokechik Bay.

Kokechik River: stream, distributary of Kashunuk River, heads at 61° 43' 25" N, 164° 52' 00" W, flows W 60 miles to Igiak Bay, Kokechik Bay, Yukon-Kuskokwim Delta; 61° 41' N, 165° 51' W; (map 75). Variant: Kakechik River. Eskimo name, meaning "has wood" or "wooded," reported as Kakechik by R. H. Sargent, USGS, in 1919.

Kokhanok Bay: bay, see Kakhonak Bay.

Kokhanok Bay: locality, 1.5 miles E of Lookout Mountain, on N shore of Kakhonak Bay, 22 miles SE of Iliamna, Aleutian Range; 59° 30' N, 154° 34' W; (map 51). Variant: Kakhonak Bay. Site of a former Eskimo village reported in 1951 by USGS. Recent USGS maps indicate one building here.

Kokhanok River: stream, see Kakhonak River.

Kokhanok: village, see Kakhonak.

Kokhlokhtokhpagamute: locality, see Kukuktuk.

Kakhonak Bay: locality, see Kakhonak Bay.

Kokhtuli: stream, see Kakhtul River.

Kokin Henik: island, see Kokinhenik Island.

Kokin Henik: locality, see Kokinhenik.

Kokinhenic Branch: stream, see Kokinhenik Branch.

Kokinhenic: locality, see Kokinhenik.

Kokinhenik Bar: bar, 3.5 miles long, off S coast of Alaska, 22 miles W of Katalla, Malaspina Coastal Plain; 60° 14' N, 145° 09' W; (map 64). Name published in 1951 by USGS; derived from Kokinhenik Island.

Kokinhenik Branch: stream, distributary of Copper River, flows S 4 miles to Gulf of Alaska, 22 miles NW of Katalla, Malaspina Coastal Plain; 60° 19' N, 145° 05' W; (map 64). Variant: Coquenhena Slough, Kokinhenic Branch. Name reported on a USC&GS manuscript dated 1898 of the Copper River delta.

Kokinhenik Island: island, 600 ft. across, at mouth of Copper River, 21 miles NW of Katalla, Malaspina Coastal Plain; 60° 18' 30" N, 145° 05' 00" W; (map 64). Variant: Coquenhena, Kokin Henik, Kokinhenic. Indian name reported in 1897 by Lt. Comdr. J. F. Moser, USN, as "Coquenhena"; written by H. P. Ritter, USC&GS, in 1898 as "Kokinhenic" and "Kokin Henik."

Kokinhenik: locality, on Kokinhenik Island, at mouth of Copper River, 21 miles NW of Katalla, Malaspina Coastal Plain; 60° 18' 30" N, 145° 05' 00" W; (map 64). Variant: Coquenhena,

Kokin Henik, Kokinhenic. Indian name reported in 1897 by Lt. Comdr. J. F. Moser, USN, as "Coquenhena," later written as "Kokinhenic" and "Kokin Henik" by H. P. Ritter, USC&GS.

Kokirat Creek: stream, heads in Kemegrak Hills, flows NE 10.5 miles to Kukpuk River 2 miles S of junction of Ipewik River, Arctic Slope; 68° 18' 45" N, 165° 42' 10" W; BGN 1963; (map 129). Variant: Kokkeerat Creek, Kokkeerax Creek. Eskimo name recorded in 1960 as "Kokkeerax" by D. C. Foote in connection with Project Chariot studies.

Kokkeerat Creek: stream, see Kokirat Creek.

Kokkeerax Creek: stream, see Kokirat Creek.

Koklak, Mount: mountain, 3,192 ft., in De Long Mountains, W of Kelly River, 38 miles SE of Mount Kelly, Brooks Range; 68° 05' N, 162° 32' W; (map 130). Eskimo name obtained in 1956 at Noatak by Orth.

Kokmullit: locality, see Nuwuk.

Koknuk Flats: tidal flats, at mouth of Stikine River, between Mitkoff Island and mainland, 7 miles NW of Wrangell, Coast Mountains; 56° 35' N, 132° 30' W; (map 6). Local name recorded in 1951 by USGS.

Koko: locality, see Kakamut.

Kokolik Lake: lake, 0.5 miles across, N of Sulungatak Ridge, 40 miles NW of Misheguk Mountain, Brooks Range; 68° 43' N, 161° 59' W; (map 131). Named for the Kokolik River by USGS about 1949.

Kokolik Pass: water passage, see Akunik Pass.

Kokolik River: stream, heads in De Long Mountains at 68° 28' N, 161° 58' W, flows NW 200 miles to Kasegaluk Lagoon, 1 mile E of Point Lay, Arctic Plain; 69° 45' 15" N, 163° 00' 00" W; (map 145). Variant: Kepizetka River, Kepizetko River, Kokoluk River, Kokotik River. Eskimo name reported by Lt. D. H. Jarvis, USRCS, in 1898. A. J. Collier, USGS, reported the name "Kepizetka," probably obtained from the so-called Cullinghow's map of Cape Lisburne, a manuscript map drawn by an Eskimo about 1890. Kokolik refers to the bistort, an edible flowering plant that is abundant in the Arctic (Chapman and Sable, 1960, p. 53). Kepizetka (qipigsatqaq) means "it twists" or "crooked."

Kokolik: locality, E of Point Lay, near mouth of Kokolik River, Arctic Plain; (map 145). This name was published on a chart by USC&GS in 1899 and probably represents an Eskimo settlement that is now only a site.

Kokoluk River: stream, see Kokolik River.

Kokomo Creek: stream, flows NW 11 miles to Chatanika River, 25 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 10' 45" N, 147° 17' 15" W; (map 105). Named by prospectors; reported in 1903 by USGS (Prindle, 1905, pl. 13).

Kokonak: village, see Kakhonak.

Kokonok Bay: bay, see Kakhonak Bay.

Kokonok River: stream, see Kakhonak River.

Kokonok: village, see Kakhonak.

Kokonuk Bay: bay, see Kakhonak Bay.

Kokopuk Creek: stream, flows SW 11 miles to Selawik Lake, 22 miles NW of Selawik, Kotzebue-Kobuk Lowland; 66° 39' N, 160° 49' W; (map 114). Eskimo name obtained in 1955 by U.S. Army Corps of Engineers.

Kokos, Mys: point of land, see Cocos, Point.

Kokotik River: stream, see Kokolik River.

Kokrein: village, see Kokrines.

Kokrine Mountains: mountains, see Kokrines Hills.

Kokrine Station: village, see Kokrines.

Kokrines Hills: mountains, 3,669 ft., trend NE-SW 15 miles, on right bank of Yukon River, 21 miles NE of Ruby, Kokrines-Hodzana Highlands; 64° 58' N, 154° 54' W; (map 98). Variant: Kokrine Mountains, Suquonilla Range, Yukon Hills. It is hard to determine when this name or an equivalent was used first. The first known reference appears to be 1902 manuscript map by A. J. Collier, USGS. These mountains are probably the same, in part, as those called "Suquonilla range of mountains" in 1869 by Capt. Raymond (1871, p. 23), USA. Named for the village of Kokrines.

Kokrines: village, pop. 68, on right bank of Yukon River, 27 miles NE of Ruby, Kokrines-Hodzana Highlands; 64° 56' N, 154° 42' W; (map 98). Variant: Cochranes Post, Cochrein, Kochrines, Kokrein, Kokrine Station, Newikargut. This Indian village appears to have been named for a Russian trader, whose name Lt. Allen (1887, p. 89), USA, spells "Cochrein." Capt. Raymond (1871, p. 23), U.S. Engineers, refers to a trading village here called "Newikargut," a name borrowed from the stream on the opposite side of Yukon River. See Nowitna River.

Kokruagarok: locality, on coast of Beaufort Sea, E of Pitt Point, 88 miles SE of Barrow; Arctic Plain; 70° 55' N, 153° 05' W; (map 148). This locality is an Eskimo campsite reported by USC&GS in 1951.

Koksetna River: stream, heads at 60° 28' N, 154° 34' W, flows S 45 miles to Chulitna River, 13 miles N of Nondalton, Alaska Range; 60° 11' N, 154° 54' W; (map 61). Variant: Kok-set-no River. Indian name published as "Kok-set-no" in the 1905 Alaska Short Line Prospectus.

Koksukdeparga Creek: stream, see Casadepaga River.

Koksuktapaga River: stream, see Casadepaga River.

Kokumpat Creek: stream, heads in Lockwood Hills, flows N 6 miles to Kobuk River, 30 miles ESE of Kobuk, Kotzebue-Kobuk Lowland; 66° 46' N, 155° 48' W; (map 116). Eskimo name recorded at Kobuk by Orth in 1956 and reported to mean "the south one," which refers to south of the Kobuk River.

Kokwok River: stream, heads at Okstutuk Lake and flows SE 36 miles to Nushagak River, 36 miles NE of Dillingham, Bristol Bay Lowland; 59° 18' N, 157° 36' W; BGN 1931; (map 52). Variant: Agutukpok River, Kakuak River, Kakwok River, Kok-Wok River, Ui-lu-gu-lum-gui-guok. Eskimo name written "Kakuak" by Ivan Petroff in the 10th Census of 1880. The present spelling was established by BGN in 1931 after being published by USBF in 1924.

Kokwok: locality, on right bank of Nushagak River, near mouth of Kokwok River, 36 miles NE of Dillingham, Bristol Bay Lowland; 59° 19' N, 157° 33' W; (map 52). Variant: Kakuak, Kawok, Kok-wok-ha-mut, Kukuak. Eskimo village or camp mentioned by Ivan Petroff in the 10th Census of 1880 as "Kukuak." It was called "Kok-wok-ha-mut," meaning "Kok-wok people," on a 1910 manuscript map by H. C. Fassett, USBF. F. H. Waskey, a local resident, reported in 1931 that the name "Kokwok" was nearer the Eskimo pronunciation than "Kakuak" or "Kakwok." The population of the village was 104 in 1880; 45 in 1890. The village is now abandoned.

Kolaktok: stream, see Lookout River.

Kolavinarak River: stream, heads at Baird Inlet, flows SW 40 miles to Etolin Strait forming SE boundary of Nelson Island, 107 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 17' N, 164° 42' W; (map 58). Variant: Kolovinerak River. Eskimo name meaning "silting," reported in 1949 by USC&GS.

Kolchichet Mountain: mountain, 2,000 ft., 3 miles N of Nenevok Lake, 80 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 49' N, 159° 48' W; (map 53). Eskimo local name shown on an 1898 fieldsheet by W. S. Post, USGS.

Kolevokharit Koygut Falls: falls, on unnamed stream, 1 mile SW of Grant Lake and 54 miles N of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 47' N, 158° 34' W; (map 52). Eskimo name shown as "Ko-le-vok-ha-rit Ko-y-gut" on a 1910 manuscript map by H. C. Fassett, USBF.

Koliganek: village, pop. 100, on left bank of Nushagak River, 65 miles NE of Dillingham, Bristol Bay Lowland; 59° 48' N, 157° 25' W; BGN 1931; (map 52). Variant: Kah-lig-y-nak, Kakuak, Kalignak. Eskimo village listed by Ivan Petroff in the 10th Census in 1880 as "Kalignak"; shown as "Kah-lig-y-nak" on a 1910 manuscript map by H. C. Fassett, USBF. The name "Koliganek" was obtained in 1930 from F. H. Waskey and Beverley Polley, local inhabitants, by Gerald FitzGerald, USGS. Since then the village has been moved 4 miles downstream.

Kolipsun Creek: stream, heads in lake, flows W 18 miles to Kungok River, 20 miles SE of Wainwright, Arctic Plain; 70° 31' N, 159° 16' W; (map 146). Variant: Ezrok River, Sungokruak

Creek. Eskimo name recorded in 1956 at Wainwright as “Kolipsiun” by Orth; refers to a “kind of clay.”

Kollioksak Lake: lake, 2.5 miles long, 20 miles NE of Shungnak, Brooks Range; 66° 59' N, 156° 29' W; (map 115). Local name reported by USGS in 1925. Named after the river.

Kollioksak River: stream, flows S 6 miles to Kobuk River 17 miles E of Shungnak, Kotzebue-Kobuk Lowland; 66° 53' N, 156° 30' W; (map 115). Variant: Kollioksok River, Kollyoksok River. Eskimo name spelled “Kollyoksok” by P. S. Smith, USGS.

Kollioksok River: stream, see Kollioksak River.

Kolloen, Mount: mountain, 2,780 ft., on E coast of Baranof Island, 3.5 miles NW of Port Alexander, Alexander Archipelago; 56° 16' 15" N, 134° 43' 50" W; BGN 1957; (map 5). Named in 1957 by USF&WS for Lawrence Kolloen, USF&WS, who was killed in an airplane crash while on official duty.

Kollutarak Creek: stream, rises E of Chandler Lake, flows SE 22 miles to Ekokpuk Creek 1 mile N of that stream's mouth, 12 miles SW of Anaktuvuk Pass, Brooks Range; 68° 02' 00" N, 152° 06' 30" W; BGN 1932; (map 134). This is an Eskimo name reported in 1932 by Robert Marshall.

Kollutuk Creek: stream, flows N 4 miles from Fork Peak beside Kollutuk Mountain to John River, 8 miles SW of Anaktuvuk Pass, Brooks Range 68° 04' 15" N, 151° 59' 00" W; (map 134). Eskimo name meaning “sheep horn dipper” reported in 1930 by Robert Marshall, taken from the name of the peak, past which it flows.

Kollutuk Mountain: mountain, 6,302 ft., E of John River, 6 miles SW of Anaktuvuk Pass Brooks Range; 68° 03' 30" N, 151° 51' 00" W, BGN 1932; (map 134). Eskimo word, reported in 1930 by Robert Marshall; means “sheep horn dipper” referring to the shape of the mountain.

Kollyoksok River: stream, see Kollioksak River.

Kolmakof Fort: locality, see Kolmakof.

Kolmakof Lake: lake, 1.5 miles long, S of Kuskokwim River, 18 miles E of Aniak, Kilbuck-Kuskokwim Mountains; 61° 33' N, 158° 57' W; BGN 1948; (map 72). Local name taken from the Russian trading post, now abandoned; reported in 1945 by USGS.

Kolmakof Redoubt: locality, see Kolmakof.

Kolmakof River: stream, flows S 50 miles to Kuskokwim River opposite Kolmakof, 21 miles E of Aniak, Kilbuck-Kuskokwim Mountains; 61° 34' 30" N, 158° 53' 30" W; BGN 1945; (map 72). Local name, derived from nearby Kolmakof; reported in 1914 by A. G. Maddren, USGS.

Kolmakof: locality, on left bank of Kuskokwim River, 21 miles E of Aniak, Kilbuck-Kuskokwim Mountains; 61° 34' 15" N, 158° 33' 45" W; BGN 1952; (map 72). Variant: Kolmakoff, Kolmakof Fort, Kolmakof Redoubt, Kolmakov Redoubt Kolmakovski, Kvigym Painagmute, Lukeens

Fort, Lukins Fort, Redut Kolmakova. Russian American Company stockaded trading post, located by Alexander Kolmakov and built in 1832 by Ivan Simonson Lukeen (Lukin), after whom it was first named. In 1841 the post was partly destroyed by fire by Indians, rebuilt by Kolmakov, and took his name. In 1866 the garrison was withdrawn and the post dismantled. In 1885 a Moravian mission was located on the site of Kolmakof. According to Andrei Glazanov, in 1838, an Eskimo settlement called "Kvigym Painagmute" was located at the trading post.

Kolmakoff: locality, see Kolmakof.

Kolmakov Redoubt: locality, see Kolmakof.

Kolmakova Redut: locality, see Kolmakof.

Kolmakovski: locality, see Kolmakof.

Kologho: cove, see Dravnoi'.

Kolomak River: stream, flows SW 15 miles to Kokechik River, 3.2 miles E of Igiak Bay and 12 miles SE of Cape Romanzof, Yukon-Kuskokwim Delta; 61° 41' N, 165° 46' W; (map 75). Variant: Ishkialik River, Kalomak River. Eskimo name reported by USC&GS in 1951.

Kolomin Lake: lake, 1 mile long, on Kenai Peninsula, 7 miles S of Caribou Island in Tustumena Lake and 30 miles SSE of Kenai, Cook Inlet Lowland; 60° 07' 30" N, 151° 02' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Koloock: locality, site of Eskimo village, on Cape Kuliuk, on NW coast of Kodiak Island; 57° 48' N, 153° 55' W; (map 34). Variant: Kulyugmyuk. Native name recorded in 1805 by Lisianski (1814, map facing p. 169).

Koloogrua River: stream, see Meade River.

Kolosh Island: island, 0.4 miles across, in Hot Springs Bay, 0.5 miles NW of Goddard, on W side of Baranof Island, Alexander Archipelago; 56° 50' 30" N, 135° 23' 15" W; (map 5). Variant: Doctor Island, Ostrov Kolosh. Named in 1809 by the Russian navigator, Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Kolosh," or "Kolosh Island." In 1925 it was called "Doctor Island" by USC&GS. "Kolosh" was the Russian name for the Tlingit Indians.

Kolosh, Ostrov: island, see Kolosh Island.

Koloshenka, Reka: stream, see Indian River.

Koloshskoy Strechi, Mys: point of land, see Escape Cape.

Kolotuk Creek: stream, in Romanzof Mountains, heads at glacier, 2 miles SW of Tugak Peak, flows NW 8.6 miles to Hulahula River, 31 miles E of Mount Michelson, Brooks Range; 69° 10' N, 144° 35' W; (map 139). Eskimo name reported in 1960 by USGS.

Kolovik: locality, on coast of Beaufort Sea, on E shore of Avatanak Bight, 5 miles W of Pitt Point and 83 miles SE of Barrow, Arctic Plain; 70° 53' 30" N, 153° 21' 00" W; (map 148). This name was reported to be applied to an abandoned village by USC&GS in 1951. Orth was told at Barrow in 1965 that the name means "tipping place (where boats are emptied of water)."

Kolovinerak River: stream, see Kolavinarak River.

Kolugrua River: stream, see Meade River.

Kolukruak River: stream, see Meade River.

Koluktak Lakes: lakes, numerous and closely spaced, extend 40 miles between Ikpikpuk River and Key Creek, S of Price River, Arctic Plain; 69° 42' N, 154° 00' W; (map 142). Eskimo name for Price River; obtained in 1956 at Anuktuvuk Pass by T. E. Taylor, USGS. The name has been transposed to the lakes just south of the Price River.

Kolumakturook: locality, see Kilimantavi.

Kolumatourok: locality, see Kilimantavi.

Kolumaturok: locality, see Kilimantavi.

Kom-tok Hon: estuary, see Frederick, Port.

Komakak Creek: stream, flows N 9 miles to Noatak River, 41 miles SE of Howard Pass, Brooks Range; 67° 42' N, 156° 09' W; (map 126). Eskimo name meaning "outgoing trail," obtained at Kobuk by Orth in 1956.

Komarof: locality, "near mouth of Yukon River," Yukon-Kuskokwim Delta; (map 77 or 92). Variant: Komarov Odinotchka. Former Eskimo camp, or settlement, and trading post reported in 1878 by E. W. Nelson, U.S. Signal Service. Ivan Petroff listed "Komarov Odinotchka," with a population of 13, in the 1880 Census.

Komarov Odinotchka: locality, see Komarof.

Komliouck, Cap: peninsula, see Kumliun, Cape.

Komoiarak Slough: stream, flows NE 8 miles to Kwecharak River, 14 miles S of village of Scammon Bay, Yukon-Kuskokwim Delta; 61° 39' N, 165° 41' W; (map 75). Eskimo name reported by USC&GS in 1951.

Kon Bay: bay, see Tebenkof Bay.

Kon-gon-wik: stream, see Hunt River.

Kona: locality, "on Baranof Island," Alexander Archipelago; (map 5 or 9). Former Tlingit Indian camp or settlement reported by J. R. Swanton (in Hodge, 1907, p. 724), BAE.

Konamoxt Glacier: glacier, heads 2 miles SW of Alaska-Canada boundary, trends NE 8 miles into Canada to Melbern Glacier, 82 miles W of Skagway, St. Elias Mountains; 59° 23' N, 137° 38' W; (map 45). Local name published by USGS in the 1950's.

Konarut Mountain: mountain, 5,100 ft., 2 miles NW of Shadow Bay, 100 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 02' N, 159° 15' W; BGN 1932; (map 59). Eskimo name meaning "the source" reported in 1932 by USGS.

Konchane Lake: lake, 1.1 miles long, on Kenai Peninsula, 1 mile NW of Swan Lake and 25 miles NE of Kenai, Cook Inlet Lowland; 60° 41' 30" N, 150° 34' 45" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Konedsin Minnkohwin Lake: lake, 2 miles long, E of Kodosin Minnkohwin Lake, 22 miles SE of Allakaket, Kanuti Flab; 66° 22' 30" N, 151° 57' 00" W; (map 117). Koyukan Indian name obtained in 1956 at Allakaket, by T. E. Taylor, USGS.

Konega Island: island, see Kanaga Island.

Koness River: stream, heads at 68° 30' N, 144° 45' W, flows SE 72 miles to Sheenjok River, 50 miles NE of Christian, Brooks Range; 67° 44' N, 143° 46' W; (map 121). Local name reported in 1927 by J. B. Mertie, Jr. (in Smith, P. S., 1929, pl. 1), USGS. This may be "crows nest" in an altered form.

Konets Head: point of land, on SW tip of Unalaska Island, Aleutian Islands; 53° 18' 30" N, 167° 50' 00" W; BGN 1939; (map 23). Variant: Southwest End, Southwest Konets. Russian name published by Capt. Tebenkov, IRN, in 1852 as "S. W. Konets" (map 26), and translated by USBF in 1888 as "Southwest end."

Konetz Point: point of land, see Dalnoi Point.

Kong River: stream, see Kuk River.

Kongagak River: stream, see Kongakut River.

Kongakut River: stream, heads in Davidson Mountains at 68° 49' N, 143° 09' W, flows 100 miles NE to Siku Lagoon, 8 miles NW of Demarcation Point, Arctic Plain; 69° 46' N, 141° 42' W; BGN 1959; (map 138). Variant: Kangikat River, Kongagak River, Turner River. Eskimo name reported by Leffingwell (1919, p. 100) and meaning approximately "deer pond." See Turner River.

Konganevik Point: point of land, on Beaufort Sea coast, extending NE into Camden Bay, 21 miles SE of Flaxman Island, Arctic Plain; 70° 01' 30" N, 145° 10' 30" W; (map 151). Variant: Kanganeyik Point, Kangigivik Point, Kongangevik Point, Konyenavik Point. Eskimo name reported in 1912 by Leffingwell (1919, p. 97) to mean "place where there is a deer pond."

Kongangevik Point: point of land, see Konganevik Point.

Kongeruk River: stream, flows SW 16 miles to Johnson River, 14 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 43' N, 162° 09' W; (map 58). Eskimo name reported to mean "corner" in 1949 by USC&GS.

Kongigamute: locality, see Kongik.

Kongiganak: locality, on W shore of Kuskokwim Bay, 14 miles SW of Kulvagavik, 34 miles SW of Quinnagak, Yukon-Kuskokwim Delta; 59° 52' N, 163° 02' W; (map 54). Name of an Eskimo village reported in 1878 by E. W. Nelson, U.S. Signal Service, as "Kongiganagamiut," i.e. "Kongiganak people."

Kongik: locality, on Buckland River, Seward Peninsula Highlands; (map 110). Variant: Kangoot, Kengugmiut, Kongigamute. Former Eskimo camp or settlement reported as "Kongigamute," with a population of 90, by Ivan Petroff in the 1880 Census; as "Kengugmiut," with a population of 54, in the 1890 Census.

Kongishluk Bay: cove, 2 miles across, on S shore of Scammon Bay, 10 miles E of Cape Romanzof, Yukon-Kuskokwim Delta; 61° 50' N, 165° 46' W; (map 75). Variant: Edmonds Cove. Eskimo name reported by USC&GS in 1949. The name "Edmonds Cove" was given by G. R. Putnam, USC&GS, in 1899.

Kongkok Basin: basin, rimmed by Owalit and Ivekan Mountains, 3 miles NW of Bunnell Cape, 26 miles S of Gambell, Saint Lawrence Island; 63° 24' N, 171° 45' W; BGN 1951; (map 93). Variant: Kangkak Basin, Kongkok Valley. Eskimo name reported in 1949 by Maj. H. B. Allen, USAF.

Kongkok Bay: bay, 1 mile wide, 3 miles NW of Bunnell Cape, 27 miles S of Gambell, W coast of St. Lawrence Island; 63° 23' N, 171° 47' W; BGN 1951; (map 93). Variant: Kangkak, Kangkok. Eskimo name obtained from Lawrence Kulukhan, of Gambell, in 1944. Orth spelled the name "Kangkak" while there in 1965 but could not obtain a meaning for it.

Kongkok Valley: basin, see Kongkok Basin.

Konglah: locality, S of Rush Hill, on W coast of Saint Paul Island, in Pribilof Islands; 57° 10' 45" N, 170° 24' 30" W; (map 38). An Aleut name reported by Elliott (1881, Saint Paul map).

Konguk: stream, see Buckland River.

Kongumavik Creek: stream, flows SE 3.5 miles to Anaktuvuk River, 0.5 miles N of Cache Lake and 5 miles NE of Anaktuvuk Pass, Brooks Range; 68° 11' 30" N, 151° 38' 00" W; (map 134). Variant: Kannumavik Creek, Kongumavuk Creek, Kungomovik Creek. Eskimo name, meaning "gathering place," published by Rausch (1951, p. 159) as "Kungomovik," so called because the Kobuk Eskimo often came here to trade with the local Tulugakmiut.

Kongumavuk Creek: stream, see Kongumavik Creek.

Koniag Glacier: glacier, heads on Koniag Peak, trends N 2.3 miles, 7 miles W of head of Kiliuda Bay, Kodiak Island; 57° 22' 00" N, 153° 19' 10" W; (map 34). Named in 1963 by the

Kodiak and Aleutian Islands Historical Society Inc. for the Koniag Eskimo, “the oldest inhabitants of Kodiak Island.”

Koniag Peak: mountain, 4,470 ft., 7 miles W of head of Kiliuda Bay, Kodiak Island; 57° 21' 15" N, 153° 19' 20" W; BGN 1964; (map 34). Named in 1963 by the Kodiak and Aleutian Islands Historical Society Inc. See Koniag Glacier.

Konichesk Volcano: mountain, see Conical Volcano.

Konicheskaia: mountain, see Conical Volcano.

Konicheskaya Sopka: mountain, see Conical Volcano.

Konicheskaya Sopka: mountain, see Potato Mountain.

Koniginktalikmute: locality, see Kanikyakstalikmiut.

Koniougi Island: island, see Koniuji Island.

Koniouji Island: island, see Koniuji Island.

Konioujii: island, see Big Koniuji Island.

Koniugi: island, see Big Koniuji Island.

Koniuji Island: island, 0.8 miles long, 10 miles N of Atka Islands, Andreanof Islands, Aleutian Islands; 52° 13' 20" N, 175° 08' 00" W; BGN 1890; (map 18). Variant: Canooskie Island, Kaniugi Island, Koniougi Island, Koniouji Island, Ostrov Kanyugi, Konyuzhey. Name applied because of the great number of crested auks which the Russians call “Kanoozhki” or “Kanooskie,” and which the Aleuts call “Kunuliuk.” Name published as “O[strov] Kanyugi,” or “Kaniugi Island,” by Lt. Sarichev (1826, map 3), IRN.

Koniuji Island: island, 400 ft. long, in Whale Passage, 18 miles NW of Kodiak, Kodiak Island; 57° 55' 50" N, 152° 50' 10" W; (map 34). Variant: Canooskie Island, Kanooskie Island, Kanoozhki Island, Ostrov Konuzhiy. Transliteration of the name “Os[strov] Konuzhiy” given in 1839 or 1840 by Sub.-Lt. Mikhail Murashev and published in 1849 on Russian Hydrog. Dept. Chart 1425. Baker (1906, p. 378) wrote, “The name is a corruption of the Aleut name ‘Kunuliuk,’ meaning crested auk. Elliott spells it ‘Canooskie.’ “

Koniuji Strait: water passage, between Little and Big Koniuji Islands, in Shumagin Islands, Aleutian Range; 55° 02' N, 159° 30' W; (map 27). Variant: Koniushi Strait. Named “Koniushi Strait” by W. H. Dall, USC&GS; “Koniuji Strait” was published by USC&GS in 1947 Alaska Coast Pilot (v. 2, p. 313).

Koniushi Strait: water passage, see Koniuji Strait.

Koniuzhka: island, see Big Koniuji Island.

Konke Creek: stream, see Kunk Creek.

Konke Lake: lake, see Kunk Lake.

Konnekova River: stream, see Andrafsky River.

Konniaga Island: island, see Kanaga Island.

Konogkelyokamiat: locality, see Bill Moores.

Konoo Creek: stream, see Kunuk Creek.

Konootena Village: locality, site of village on Kanuti River, near mouth of Mentanontli River, 18 miles SW of Allakaket, Kokrines-Hodzana Highlands; 66° 22' N, 153° 00' W; (map 117). Koyukuk Indian village visited in 1885 by Lt. Allen (1887, p. 97), USA; consisted of "five men, three women, and five children."

Konootena: locality, see Kanuti.

Konootena: stream, see Kanuti River.

Konovalof Lake: lake, Island 1 mile long, on Kenai Peninsula, 4 miles W of Beaver Lake and 8 miles NNE of Kenai, Cook Inlet Lowland; 60° 40' N, 151° 09' W; (map 62). Named about 1963 by officials of Kenai National Moose Range for administrative purposes.

Konsena: stream, see Tiekel River.

Konsina: stream, see Tiekel River.

Konstantin Harbor: lagoon, see Constantine Harbor.

Konstantina Harbor: bay, see Constantine Harbor.

Konstantina, Mys: point of land, see Constantine, Cape.

Konstantine, Fort: locality, see Nuchek.

Konstantinovsk: locality, see Nuchek.

Konstantinya, Mys: point of land, see Constantine, Cape.

Kontlalhevena Lake: lake, see Kontrashibuna Lake.

Kontleehebna Lake: lake, see Kontrashibuna Lake.

Kontog Island: island, see Khantaak Island.

Kontrashibuna River: stream, see Tanalian River.

Konuch Creek: stream, see Kunuk Creek.

Konuzhiy, Ostrov: island, see Koniuji Island.

Konyenavik Point: point of land, see Konganevik Point.

Konyukmute: village, see Koyuk.

Konyuzhey: island, see Koniuji Island.

Koo River: stream, see Kuk River.

Koo: locality, see Kuk.

Kooagamutes: localities, see Kobuk Villages.

Kooak: stream, see Kobuk River.

Koobuk Creek: stream, flows W 6 miles to the Buckland River, 53 miles NE of Haycock, Nulato Hills; 65° 59' N, 161° 07' W; (map 109). Eskimo name meaning "big river" reported in 1923 by A. H. Brooks, USGS.

Koocheak River: stream, see Kuchiak Creek.

Koog River: stream, see Kuk River.

Koog: locality, see Kuk.

Koogacheak River: stream, see Kugachiak Creek.

Koogarak: stream, see Kugarak River.

Koogaro River: stream, see Canning River.

Koogmute: locality, see Kuk.

Koogowranga: stream, see New Heart Creek.

Koogrock River: stream, see Kougarok River.

Koogroog River: stream, see Kugruk River.

Koogrook River: stream, see Kugrupaga River.

Kooguru River: stream, see Canning River.

Kooigamute: locality, see Kwik.

Kook Bay: bay, see Basket Bay.

Kook Lake: lake, 2 miles long, 7 miles S of mouth of Tenakee Inlet, on Chichagof Island, 13 miles SE of Tenakee Springs, Alexander Archipelago; 57° 40' N, 134° 59' W; (map 9). Tlingit Indian name meaning "basket" given in 1901 by Lt. Comdr. J. F. Moser, USN.

Kook pow ruk: stream, see Kukpowruk River.

Kook River: stream, see Knik River.

Kook River: stream, see Kuk River.

Kook: locality, see Kuk.

Kook: village, see Knik.

Kookjilik Point: point of land, 10 miles SE of Cape Etolin, on NE coast of Nunivak Island; 60° 19' 30" N, 165° 57' 10" W; (map 57). Variant: Kooxjiliwix Point, Kukhchiliwikh Point, Kukchivik Point. Eskimo name obtained in 1949 by USC&GS.

Kookookgit Mountains: mountains, see Kookooligit Mountains.

Kookoolget Mountains: mountains, see Kookooligit Mountains.

Kookoolgit Mountains: mountains, see Kookooligit Mountains.

Kookooligit Mountains: mountains, of volcanic origin, extending E-W 21 miles on the central part of Saint Lawrence Island; 63° 36' N, 170° 26' W; BGN 1951; (map 93). Variant: Kookoolget Mountains, Kookookgit Mountains, Kookoolgit Mountains, Kugukgit Mountains, Kugulgit Mountains, Kukulgit Mountains. Eskimo name reported in 1921 by USC&GS.

Kookoolik Cape: point of land, 4 miles E of Savoonga, N coast of St. Lawrence Island; 63° 42' N, 170° 21' W; BGN 1951; (map 93). Variant: Cape Kukuliak, Kookoolik Point, Kookooliuk Cape, Kukuliak Cape. Eskimo name reported in 1932 by O. W. Geist, Univ. of Alaska. Orth spelled the name "Kukuliak," as reported by informants at Savoonga in 1965. See Kookoolik.

Kookoolik Hill: hill, 337 ft., 5 miles SE of Savoonga, St. Lawrence Island; 63° 40' 30" N, 170° 20' 10" W; BGN 1951; (map 93). Variant: Kukuliak Hill, Kukulik Hill, Mount Vivghaanok. Eskimo name reported by Lawrence Kulukhan, of Gambell, in 1944. Orth spelled the name "Kukuliak," as obtained from informants at Savoonga in 1965. See Kookoolik.

Kookoolik Point: point of land, see Kookoolik Cape.

Kookoolik: locality, Kookoolik Cape, 4 miles E of Savoonga, N coast of St. Lawrence Island; 63° 42' N, 170° 21' W; BGN 1951; (map 93). Variant: Kuklik Village, Kukuliak, Kukulik. This is an old Eskimo village site.

Kookooliktook River: stream, flows NE 15 miles to lagoon on N coast of St. Lawrence Island, 22 miles SE of Gambell; 63° 36' N, 171° 11' W; BGN 1951; (map 93). Variant: Kukulikhtuk, Kukuliktook River. Eskimo name reported in 1932 by O. W. Geist, Univ. of Alaska. Orth

recorded the name in 1965 as “Kukulikhtuk,” from informants at Gambell who were unable to furnish a meaning.

Kookooliuk Cape: point of land, see Kookoolik Cape.

Kookpakruk River: stream, see Kuparuk River.

Kookpoowrook River: stream, see Kukpowruk River.

Kookpowrook River: stream, see Kukpowruk River.

Kookpuk River: stream, see Kukpuk River.

Kookroak River: stream, see Kugrua River.

Kookrook Creek: stream, see Kukruk Creek.

Kooku Beach: beach, extends SW 3 miles, along Tapaghtalghee Bay, 11 miles NE of Southeast Cape, St. Lawrence Island; 63° 05' N, 169° 32' W; BGN 1951; (map 93). Variant: Kuka Beach. Eskimo name recommended by the Savoonga village Council and reported in 1949 by Maj. H. B. Allen, USAF.

Kookukluk Creek: stream, flows S 5 miles to Kinegnak River, 28 miles NE of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 50' N, 161° 40' W; BGN 1988; (map 39). Eskimo name probably best spelled “Kukaklak” and probably referring to “a small stream” reported in 1938 by J. B. Mertie and Gerald FitzGerald, USGS.

Kool-mo-gon Slough: watercourse, see Kulmogon Slough.

Koolokroak River: stream, see Meade River.

Koolvagavigamiut: locality, see Kulvagavik.

Koomlangeelkuk Bay: bay, 3 miles across, 3 miles SW of Savoonga, N coast of St. Lawrence Island; 63° 40' N, 170° 36' W; BGN 1951; (map 93). Variant: Kumlangikhkak Bay, Kumlang-Khkak. Eskimo name reported in 1944 by Lawrence Kulukhan, of Gambell. Orth spelled the name “Kumlang-Khkak,” as spoken by informants at Savoonga in 1965.

Koongook Creek: stream, see Kunuk Creek.

Koongooyowluk: bend, see Kunguyoluk Bend.

Koonjeskie: locality, see Kunjeskie.

Koonthrashiboona Lake: lake, see Kontrashibuna Lake.

Koonthrashiboona River: stream, see Tanalian River.

Koopangoomuk Creek: stream, flows SE 2 miles to Bering Sea, 1.3 miles NE of Southwest Cape and 34 miles SE of Gambell, St. Lawrence Island; 63° 19' N, 171° 24' W; BGN 1951; (map 93). Variant: Kupangumak. Eskimo name reported in 1944 by Lawrence Kulukhan, of Gambell. Orth spelled the name "Kupangumak" as recorded at Gambell in 1965.

Koopowra River: stream, see Kugaruk River.

Koosetrina: stream, see Kuzitrin River.

Koot-mahk-nak Channel: water passage, see Kutmuknuk Channel.

Koot: locality, near Cape Etoin, Nunivak Island; 60° 24' N, 166° 06' W; (map 57). Former Eskimo camp or village listed with a population of 117 in the 1890 Census; reported as "the largest village of the Nunivagmiut [Nunivak people]" by Hodge (1907, p. 725), BAE.

Koot: village, see Mekoryuk.

Kootcheak River: stream, see Kurupa River.

Kootoark River: stream, see Kutuk River.

Kootsnoo Inlet: water passage, see Kootznahoo Inlet.

Kootsnoo: islands, see Kootzanhoo Archipelago.

Kootzahoo Roads: bay, 1 mile across, 1.5 miles S of Angoon, on W coast of Admiralty Island, Alexander Archipelago; 57° 29' N, 134° 36' W; (map 9). Tlingit Indian name given in 1880 by Comdr. R. W. Meade, USN.

Kootznahoo Archipelago: islands, west-central part of Admiralty Island, in vicinity of Kootznahoo Inlet, Alexander Archipelago; 57° 30' N, 134° 20' W; (map 9). Variant: Hoochinoo, Hoosnoff, Houchnou, Hudsunoo, Kenasnow, Khutz-n' hu, Killisnoo, Kootsnoo, Kootzanhoo, Koutsnou, Koutznou, Kutznou. Named in 1869 by Comdr. R. W. Meade and published in 1881 on Hydrog. Chart 882. It was described "as a low wooded plain of great extent * * * the seat of an extensive network of inland waters not fully explored, and which from the observations of the USN, appear to wash the shores of the islands and ramifying inlet which are the seat of extensive coal fields * * *." To the interior system of canals mentioned above Meade has applied the term "Kootznahoo Archipelago." (U.S. Coast and Geodetic Survey, 1883, p. 177.) The name is derived from the Tlingit Indian word "Khutz-n' hu" meaning "bear fort" and has a diversity of renderings. This so-called "Archipelago" by Meade is not as extensive as he thought and the name is not used on recent maps.

Kootznahoo Head: promontory, 700 ft., 1.5 miles N of Angoon, on W coast of Admiralty Island, Alexander Archipelago; 57° 31' 40" N, 134° 35' 00" W; (map 9). Obscure Tlingit Indian name meaning 'bear fort' given in 1869 by Comdr. R. W. Meade, USN, and published by the USC&GS in 1883 Coast Pilot (p. 177). Locally, the name is pronounced "Hu-che-nu." This name was also used for the rum distilled by the Indians by methods learned by them from the white soldiers in the area. "Hootch," a derivative of this name, has long been used as a colloquial term for "moonshine."

Kootznahoo Inlet: water passage, 6 miles long, extends from Mitchell Bay to Chatham Strait, at Angoon, on W coast of Admiralty Island, Alexander Archipelago; 57° 32' N, 134° 31' W; BGN 1899; (map 9). Variant: Hoochinoo Inlet, Hoosnoff Inlet, Houchnov Inlet, Hudsunoo Inlet, Khutz-nhu, Kootsnoo Inlet, Koutsnou Inlet, Koutsnow Inlet, Kutznov Inlet. Tlingit Indian name given in 1880 by Comdr. R. W. Meade, USN.

Kootznahoo: islands, see Kootzanhoo Archipelago.

Kootznahoo: locality, see Letushkwin.

Koourovskaia: bay, see Kovurof Bay.

Koovakseluk Cape: point of land, see Koovukseluk Point.

Koovghsheluk Point: point of land, see Koovukseluk Point.

Koovikoilik, Cape: point of land, see Koovukseluk Point.

Kooviksilik Cape: point of land, see Koovukseluk Point.

Koovloomute: locality, see Kuvlomiut.

Koovukseluk Point: point of land, N coast of St. Lawrence Island, 2 miles SW of Savoonga, 63° 41' N, 170° 33' W; BGN 1951; (map 93). Variant: Cape Koovikoilik, Cape Kooviksilik, Koovghsheluk Point, Kooviksilik Cape, Koovukseluk Cape, Kuvakhselak. Eskimo name spelled "Kooviksilik" by O. W. Geist, Univ. of Alaska, in 1932 and as "Kuvakhselak" by Orth in 1965. Its meaning is unknown.

Koowak: stream, see Kobuk River.

Kooxjiliwix Point: point of land, see Kookjilik Point.

Koozata Lagoon: lagoon, extends NW 35 miles from Siknik Cape, S coast of St. Lawrence Island, 50 miles SE of Gambell; 63° 21' N, 170° 39' W; BGN 1951; (map 93). Locally named for Warren Koozata, formerly president of the Gambell village council. Its full Eskimo name is "Koozata Naivak." Naivak means "lake."

Koozata River: stream, flows SW 20 miles to Koozata Lagoon, S coast of St. Lawrence Island; 63° 24' N, 170° 40' W; BGN 1951; (map 93). Locally named for Warren Koozata, formerly president of the Gambell village council.

Kopak: stream, see Kobuk River.

Kopkakisak Island: barrier island, 15 miles long, between Kasegaluk Lagoon and Chukchi Sea, 6 miles SW of Point Lay, Arctic Plain; 69° 34' N, 163° 09' W; (map 145). Variant: Kopkukisuk Island. Eskimo name obtained at Point Lay by Orth in 1956.

Kopkukisuk Island: barrier island, see Kopkakisak Island.

Koposo, Ostrov: island, see Coposo Island.

Koppen Creek: stream, flows SW 3.5 miles to Sheep Bay, 12 miles NW of Cordova, Chugach Mountains; 60° 42' 20" N, 145° 53' 30" W; (map 64). Name published in 1950 by USGS.

Kopshehut Creek: stream, flows SW 6 miles to Kobuk River, 26 miles NW of Shungnak, Brooks Range; 67° 04' N, 158° 00' W; (map 126). Eskimo name reported by the U.S. Army Corps of Engineers in 1955.

Korab Cove: cove, see Karab Cove.

Korahunglus: locality, see Koianglas.

Korga Island: island, 0.4 miles across, in Redoubt Bay, 9 miles S of Sitka, off W coast of Baranof Island, Alexander Archipelago; 56° 55' 45" N, 135° 23' 00" W; BGN 1929; (map 5). Variant: Crow Island. Named in 1809 by the Russian navigator, Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Korga," meaning "crow island."

Koriga Point: point of land, on NW coast of Unalaska Island, Aleutian Islands; 53° 57' 40" N, 167° 00' 30" W; BGN 1938; (map 23). Siberian word applied by Capt. Tebenkov (1852, atlas notes, p. 270), IRN, to describe this feature's resemblance to Cape Kovrizhka.

Koriumanyi: lake, see Govorushka Lake.

Korivin, Ostrov: island, see Korovin Island.

Kornui Lake: lake, 1.5 miles long, 4.7 miles SW of Hectic Village, Brooks Range; 68° 04' N, 145° 39' W; (map 136). Kutchin Indian name obtained at Arctic Village in 1956 by T. E. Taylor, USGS.

Kornutena: stream, see Kanuti River.

Kornuti: stream, see Kanuti River.

Kornutna: stream, see Kanuti River.

Koronados, Los: islands, see Coronados Islands.

Koronotsii, Ostrov: island, see Coronation Island.

Koroshiy Pogodi: mountain, see Fairweather, Mount.

Korovei: point of land, see Korovin, Cape.

Korovenski: bay, Korovin Bay.

Korovin Bay: bay, 4.5 miles across, on N coast of Atka Island, Aleutian Islands; 52° 15' N, 174° 27' W; BGN 1890; (map 18). Variant: Korovenski, Korovinskaia, Korovinskoi, Korovinsky, Zaliv Korovinskoy. Published as “Korovinskoy Zaliv,” or “Korovinskoy Bay,” by Lt. Sarichev (1826, map 3), IRN, probably for Capt. Ivan Korovin of the trading vessel Trinity, which was in these waters in 1762.

Korovin Bay: bight, 2.5 miles across, on S coast of Korovin Island, in Shumagin Islands, Aleutian Range; 55° 24' N, 160° 15' W; (map 28). Named in 1915 for the island by USC&GS; published on 1917 coast chart.

Korovin Island: island, 8 miles long, in Shumagin Islands, Aleutian Range; 55° 26' N, 160° 15' W; (map 28). Variant: Korovinskoi, Ostrov Korivin, Ostrov Korovinskiy, Ostrov Korovinskoi. Name published by Capt. Tebenkov (1852, map 24) as “O[strov] Korovinskoi” and shown on a Russian Hydrog. Dept. Chart as “O[strov] Korovinskiy,” presumably for Ivan Korovin of the ship Sv. Troitzka (Holy Trinity), who explored the Aleutian Islands in 1762. The name is derived from the Russian “Korova,” meaning “cow.”

Korovin Strait: water passage, between Korovin and Popof Islands, in Shumagin Islands, Aleutian Range; 55° 23' N, 160° 20' W; (map 28). Name published by USC&GS on a 1903 coast chart.

Korovin Volcano: volcano, 4,852 ft., in N part of Atka Island, Aleutian Islands; 52° 23' N, 74° 10' W; (map 18). Variant: Korovinskaia, Korovinskaia Volcano, Korovinskaya Sopka. Name published as “Korovinskoi volcan” by Capt. Lutke (1836, p. 310), IRN, after Korovin Bay to the southwest.

Korovin, Cape: point of land, on NW coast of Atka Island, Aleutian Islands; 52° 19' N, 174° 27' W; (map 18). Variant: Korovei, Korovinski. Named for Korovin Bay, published as “M[ys] Korovei,” or “Cape Korovei,” by Lt. Sarichev (1826, map 13), IRN.

Korovinskaia Volcano: volcano, see Korovin Volcano.

Korovinskaia: bay, see Korovin Bay.

Korovinskaia: volcano, see Korovin Volcano.

Korovinskaya Sopka: volcano, see Korovin Volcano.

Korovinski: locality, an abandoned village, on N shore of Korovin Bay, Atka Island, Aleutian Islands; 52° 17' N, 174° 21' W; (map 18). Variant: Korovinsky, Korovinsky Village, Nikolskoi, Nikolskoye, Seleniye. Former Aleut village, called “Nikolskoi” by Capt. F. P. Lutke, IRN; residents moved to a site on Nazan Bay, according to Baker (1906, P 379).

Korovinski: point of land, see Korovin, Cape.

Korovinskiy, Ostrov: island, see Korovin Island.

Korovinskoi Bay: bay, see Korovin Bay.

Korovinskoi, Ostrov: island, see Korovin Island.

Korovinskoi: volcano, see Korovin Volcano.

Korovinskoy, Zaliv: bay, see Korovin Bay.

Korovinsky Village: locality, see Korovinski.

Korovinsky: bay, see Korovin Bay.

Korovinsky: locality, see Korovinski.

Kortleana Bay: bay, see Katlian Bay.

Kos' era-an' ag: lake, see Upper Lake.

Kosakuts River: stream, heads at Bering Glacier, flows S 3 miles to Kaliakh River, 2.5 miles E of Hanna Lake, St. Elias Mountains; 60° 13' 30" N, 143° 04' 00" W; (map 65). Variant: Cosacoots River. Indian name reported as "Cosacoots" in 1903 by J. L. McPherson, Deputy U.S. Mineral Surveyor.

Kosciusko Island: island, extends NE-SW 26 miles, separated from Prince of Wales Island by El Capitan Passage, W of Clarence Strait, Alexander Archipelago; 56° 03' N, 133° 33' W: (map 6). Named in 1879 by W. H. Dall, USC&GS, probably for Tadeusz (Thaddeus) Andrzej Bonawentura Kosciusko, 1746-1817, a Polish citizen who joined the American Revolutionary Army in 1776 as a volunteer and was appointed an engineer with the rank of colonel later to become a major general.

Koserefski River: stream, see Kozherevsky River.

Koserefski: locality, see Kozherevsky.

Koserefski: village, see Holy Cross.

Koshiga: village, see Kashega.

Koshigin: bay, see Kashega Bay.

Koshigin: village, see Kashega.

Koshiginskoi: bay, see Kashega Bay.

Koshotok Creek: stream, see Casadepaga River.

Kosina Creek: stream, flows N 35 miles to Susitna River 21 miles NW of its junction with Oshetna River and 55 miles SE of Cantwell, Talkeetna Mountains: 62° 46' 55" N, 147° 56' 07" W; (map 82). Indian name reported in 1951 by USGS.

Kosinas, Mys: point of land, see Cosinas, Point.

Koskakat: locality, see Cos Jacket.

Koskakat: stream, see Cosna River.

Koskanok: locality, see Kaskanak.

Koskatantna Creek: stream, in Hogatza River flats, flows W 11 miles to Hogatza River, 24 miles NW of Hughes, Hogatza Highlands: 69° 16' 30" N, 154° 54' 00" W; (map 116). Indian name recorded in 1956 at Hughes by Orth.

Kosna: stream, see Cosna River.

Kosoktok Creek: stream, see Casadepaga River.

Kostromitinof, Cape: point of land, at mouth of Duck Bay, 10 miles NE of Afognak, on SE coast of Afognak Island, N of Kodiak Island; 58° 05' 05" N, 152° 32' 30" W; (map 43). Variant: Cape Kazakofskie. Russian family name given as "M[ys] Kostromitinov" by Sub-Lt. Mikhail Murashev, IRN, in 1839 or 1840 and published by the Russian Hydrog. Dept. in 1849 on Chart 1425. The name "M[ys] Kazakovskiy," or "Cossack Cape," was applied to this point by Capt. Tebenkov (1852, map 23), IRN. See Cape Kazakof.

Kotaglikark: stream, see Helpmejack Creek.

Kotak Point: point of land, see Kowtuk Point.

Kotalhno River: stream, see Foraker River.

Kotel'noy, M[ys]: point of land, see Kettle Cape.

Kotelnoi: point of land, see Kettle Cape.

Kothlik Island: island, in Yukon Delta on Norton Sound, 4 miles long, W of Kochluk Pass, 23 miles N of Kwiguk, Yukon-Kuskokwim Delta; 63° 07' N, 164° 32' W; (map 92). Eskimo name reported in 1899 by G. R. Putnam, USC&GS; published in 1901 on Chart 9372.

Kotil: locality, at junction of Kateel and Koyukuk Rivers, Koyukok Lowland; 62° 27' N, 157° 37' W; (map 108). Variant: Khotilkakat, Khotilkakate, Khotylnakat. Former Eskimo camp or settlement reported as "Khotilkakate" on an 1850 map by Lt. L. A. Zagoskin, IRN. Ivan Petroff listed "Khotilkakat" with a population of 65 in the 1880 Census.

Kotleana Bay: bay, see Katlian Bay.

Kotleana, Guba: bay, see Katlian Bay.

Kotlian Bay: bay, see Katlian Bay.

Kotlians Bay: bay, see Katlian Bay.

Kotlick: village, see Kotlik.

Kotlik Lagoon: lagoon, 4.5 miles long, on Chukchi Sea coast, 16 miles N of Cape Krusenstern, Kotzebue-Kobuk Lowland; 67° 23' N, 163° 48' W; (map 128). This name refers in some way to “an incident that occurred a hundred years ago, when a Russian was killed here.” according to USC&GS in 1950.

Kotlik River: stream, in Yukon Delta, flows N 30 miles to Apoon Pass, 36 miles NE of Kwiguk, Yukon-Kuskokwim Delta; 63° 02' N, 163° 33' W; (map 92). Eskimo name from the word meaning “breeches”; probably reported in 1899 by R. L. Faris, USC&GS.

Kotlik: village, pop. 116, on E bank of Kotlik River, 0.3 miles S of Apoon Pass and 35 miles NE of Kwiguk, Yukon-Kuskokwim Delta; 63° 02' N, 163° 33' W; (map 92). Variant: Kotlick. Eskimo village listed in 1880 Census with a population of 10; in 1890, it was 31; in 1920, 83; in 1930, 14; in 1940, 35; in 1950, 44; and, although the 1960 Census lists 57 inhabitants, the BIA gives the population as 116.

Kotol River: stream, see Khotol River.

Kotovy: islands, see Pribilof Islands.

Kotschekmaksy, Bai: bay, see Kachemak Bay.

Kotsena: stream, see Kotsina River.

Kotsina River: stream, heads at glacier at about 61° 46' N, 143° 45' W, flows SW 42 miles to Copper River, 2 miles NE of Chitina and 67 miles NE of Valdez, Copper River Basin; 61° 32' 30" N, 144° 24' 30" W; (map 68). Variant: Katselena, Katzzelena, Kotsena. Ahtena Indian name meaning “coal river [kho-tsi-tns],” spelled Katz-zelena and Katselena in 1898 by Capt. W. R. Abercrombie, USA. W. J. Peters, USGS, used the Kotsina spelling on an 1899 fieldsheet.

Kotsokhotana: stream, see Buckland River.

Kotush Mountains: mountain range, see Chilkat Range.

Kotzebue Creek: stream, flows SW 2 miles to Bering Sea, 29 miles NW of Teller, Seward Peninsula Highlands; 65° 24' N, 167° 18' W; (map 111). Prospectors' name reported on the 1908 “Map of Seward Peninsula” by Arthur Gibson.

Kotzebue Sound: bay, 35 miles wide and 80 miles long, on W coast of Alaska, N of Seward Peninsula, Kotzebue-Kobuk Lowland; 66° 45' N, 163° 00' W; (map 113). Variant: Kotzebue's Sound. Named by Lt. Otto von Kotzebue for himself after discovering the bay in 1816. He said, “In compliance with the general wish of my companions, I called this newly discovered sound by my name, Kotzebue's Sound.” Kotzebue, 1787-1846, IRN, accompanied Adm. A. J. von Krusenstern on his circumnavigation of the world in 1803-06 and commanded two other voyages around the world, 1815-17 and 1823-26. On his second voyage he explored the northwest coast of Alaska in 1816 to find the western end of a Northwest passage.

Kotzebue's Sound: bay, see Kotzebue Sound.

Kotzebue: town, pop. 1,290, on NW shore of Baldwin Peninsula, Kotzebue-Kobuk Lowland; 66° 54' N, 162° 35' W; BGN 1944; (map 113). Variant: Kee-kik-tag-ameut, Kikikhtagyut, Kikiktagamute, Kikiktak, Kikitaruk Mission. Kotzebue was established as a permanent Eskimo village when a reindeer station was located here about 1897. Prior to then, it was a summer fish camp first mentioned by Lt. Zagoskin (1847, pl. 1, p. 74), IRN, who recorded the name as "Kikikhtagyut." The 1880 Census lists the name as "Kikiktagamute," with a population of 200. A post office called "Kotzebue" was established here in 1899, the name being derived from Kotzebue Sound. A Society of Friends mission was founded the same year. Kotzebue's population was 193 in 1910; 230 in 1920; 291 in 1930; 372 in 1940; and 623 in 1950.

Kou Island: island, see Kuiu Island.

Koubougakhli, Cape: point of land, see Kubugakli, Cape.

Koudekan: village, see Hoonah.

Koudiakoff Islands: islands, see Kudiakof Islands.

Kougachuk Creek: stream, on Seward Peninsula, flows SE 15.6 miles to Kotzebue Sound, 34 miles NW of Deering, Kotzebue-Kobuk Lowland; 66° 15' N, 163° 50' W; (map 113). Eskimo name reported in 1950 by USGS.

Kougarok Mountain: mountain, 2,870 ft., 34 miles SE of Ear Mountain and 44 miles NE of Teller, Seward Peninsula Highlands; 65° 41' N, 165° 14' W; (map 111). Variant: Kugruk Mountains. Local name reported as "Kugruk" in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS. See Kugruk River.

Kougarok River: stream, formed by junction of Macklin and Washington Creeks, flows S 45 miles to Kuzitrin River, 47 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 15' N, 164° 34' W; BGN 1904; (map 110). Variant: Koogrock River, Kougrok River, Kugiruk River, Kugrok River, Kugrock River, Kugruk River. Eskimo name reported on a map of Cape Nome goldfields by David Fox, Jr., dated 1901. Reported in 1900 as "Kugruk River" by Brooks (1901, pl. 11), USGS. See Kugruk River.

Kougarok: locality, at junction of Kougarok and Kuzitrin Rivers, 15 miles NW of Mount Bendeleben, Seward Peninsula Highlands; (map 110). Variant: Checkers, Kugruk, Davidson. In 1900, at the beginning of gold mining on the interior of Seward Peninsula, Brooks (1901, p. 125), USGS, reported a small settlement "usually known as Checkers" had sprung up here. This was the point where loads on small boats from Marys Igloo were transferred to pack horses and then shipped to placer camps. Collier (1902, pl. 12), USGS, showed this settlement as "Kugruk," which was at that time the name of the Kougarok River. The 1901 map of Seward Peninsula goldfields by David Fox, Jr., showed "Kougarok." Subsequent maps did not name this place. The Kougarok Post Office was established in 1902 and discontinued the following year (Ricks, 1965, p. 37). A post office named "Kugarok" was established in 1905 and changed to Davidson in 1906 (*ibid.*); its location is unknown.

Kougkok: locality, see Kangkok.

Kougrok River: stream, see Kougarok River.

Kouiak River: stream, see Koyukuk River.

Kouiou-ioukack, Cap: promontory, see Kuyuyukak, Cape.

Koujulik Bay: bay, see Kujulik Bay.

Koukack, Baie: estuary, see Kukak Bay.

Koukak Bay: estuary, see Kukak Bay.

Koukak: locality, see Kukak.

Koukhat: point of land, see Douglas, Cape.

Koulagayakh: island, see Kulyugayak.

Kouliliak: bay, see Kuliliak Bay.

Koulitchkow Bay: bay, see Snipe Bay.

Kouloukak Bay: bay, see Kulukak Bay.

Kouloulak Bay: bay, see Kulukak Bay.

Koulugmut, Cap: point of land, see Kuliuk, Cape.

Koumlick, Cap: promontory, see Kumlik, Cape.

Koumlick, Ile: island, see Kumlik Island.

Koumloun: peninsula, see Kumliun, Cape.

Koumlun: peninsula, see Kumliun, Cape.

Koumlune: peninsula, see Kumliun, Cape.

Kounkoun, Cap: promontory, see Kunmik, Cape.

Koupolinaia Hill: mountain, see Cupola Peak.

Kousilvak: watercourse, see Kwemeluk Pass.

Kousk Island: island, 0.4 miles long, one of Keku Islets, in Keku Strait, 5 miles SW of Kake, Alexander Archipelago; 56° 54' 30" N, 133° 59' 30" W; (map 6). Local fishermen's name reported in 1947 by USC&GS.

Kouskokvim Bay: gulf, see Kuskokwim Bay.

Koutousoff, Cap: promontory, see Kutuzof, Cape.

Koutouzoff, Cap: promontory, see Kutozof, Cape.

Koutsnou Inlet: water passage, see Kootznahoo Inlet.

Koutsnou: islands, see Kootzanhoo Archipelago.

Koutsnow Inlet: water passage, see Kootznahoo Inlet.

Koutznou: islands, see Kootzanhoo Archipelago.

Kouwegok Slough: stream, flows S 5 miles to mouth of Unalakleet River, E of Unalakleet, Nulato Hills; 63° 52' 25" N, 160° 47' 00" W; (map 91). Eskimo name reported in 1952 by USC&GS.

Kov River: stream, see Kuk River.

Koven, Mount: peak, 12,210 ft., in Mount McKinley National Park, E of Muldrow Glacier, 6 miles NE of summit of Mount McKinley, Alaska Range; 63° 08' 05" N, 150° 53' 40" W; BGN 1947; (map 88). Named for Theodore G. Koven, a member of the Rockefeller Cosmic Ray Expedition who, with Allen Carpe, was killed in May 1932 by falling into a crevasse on Muldrow Glacier. See Carpe, Mount.

Kovighat River: stream, see Kavalghak Creek.

Kovogzruk: locality, at Port Clarence, Seward Peninsula Highlands; (map 111). Former Eskimo camp or settlement listed in the 1890 Census (p. 162).

Kovrizhka, Cape: point of land, 9 miles NW of Makushin Bay, on NW coast of Unalaska Island Aleutian Islands; 53° 50' 40" N, 167° 09' 00" W, BGN 1938; (map 23). Variant: Ermoshkinskie, Cape Gatan, Cape Gattan, Cape Hatan, Cape Hattan, Makushin Cape. Russian name reported by Lt. Sarichev (1826, map 14), IRN, as "M[ys] Gattan," or "Cape Gattan," and by Capt. Tebenkov (1852, map 26), IRN, as "M[ys] Kovrizhka," meaning "Cape Gingerbread (ginger cake)." This point was called "Makushin Cape" by USBF in 1888.

Kovrorak Hill: hill, see Kavrarak Hill.

Kovrorak Lagoon: lagoon, see Kavrarak Lagoon.

Kovrorak Mountain: hill, see Kavrarak Hill.

Kovrorak Spring: springs, see Kavrarak Springs.

Kovroruk Springs: springs, see Kavrarak Springs.

Kovurof Bay: bay, 1 mile across, on N coast of Atka Island, Aleutian Islands; 52° 05' N, 174° 56' W; (map 18). Variant: Koourovskaiia, Kovurova So named by Ingenstrem (cnna) or Capt. Lutke, IRN, about 1830 and published as "Koourovskaiia baie" by Lutke (1836, p. 315). Called "Zaliv Kovurova," or "Kovurova Bay," by Capt. Tebenkov (1852, map 27), IRN.

Kovurof Point: promontory, elev. 1,320 ft., on N coast of Atka Island, Aleutian Islands, 52° 07' 00" N, 174° 54' 15" W; (map 18). Variant: Cape Tolstoi. Name given for Kovurof Bay to the west and published by USC&GS in the 1944 Aleutian Coast Pilot (p. 97). It was called "Cape Tolstoi" meaning "broad," by Ingenstrem (cnna); the name was published by Capt. Lutke (1836,p. 310), IRN.

Kovurova: bay, see Kovurof Bay.

Kow-e-rok: locality, on NE side of Grantley Harbor, about 2 miles N of Imuruk Basin and 9 miles E of Teller, Seward Peninsula Highlands; (map 111). Site of an Eskimo village reported in 1827 by Capt. Beechey (1831, map facing p. 328), RN. This may have been the village subsequently known as "Kaviak."

Kow-e-rook River: stream, see Kaviruk River.

Kow-eeh Creek: stream, see Kowee Creek.

Kowagamute: localities, see Kobuk Villages.

Kowak: stream, see Kobuk River.

Kowee Creek: stream, on Douglas Island, flows 2.5 miles NE to Gastineau Channel at West Juneau, 0.5 miles SW of Juneau, Coast Mountains; 58° 17' 50" N, 134° 25' 55" W; BGN 1964; (map 11). Variant: Cowee Creek, Kow-eeh Creek, Kowie Creek. Named locally for Kowee, a chief of the Auk Tlingit Indians, who reportedly had his summer home at the mouth of the creek and who is credited with having guided Joe Juneau and Dick Harris to their gold find at Silver Bow Basin in 1880. Early miners spelled the name "Kowee" or "Kow-eeh," but after the USGS mapped the area in 1903 the name was published as "Cowee Creek" (DeArmond, 1957,p. 13).

Koweejoongak River: stream, flows N 10 miles to Bering Sea, 9 miles SE of Cape Etolin, on NE coast of Nunivak Island; 60° 19' 20" N, 166° 03' 45" W; (map 57). Variant: Kauichungak Creek. Eskimo name obtained in 1949 by USC&GS.

Koweelik Bluff: bluff, on N coast of Nunivak Island, E of Iloodak Point and 36 miles SW of Cape Etolin; 60° 13' 15" N, 167° 03' 30" W; (map 57). Variant: Kauilikh Bluff, Koweelix Cliff. Eskimo name refers to the fact that the "bluff is cut by streams"; reported in 1949 by USC&GS.

Koweelix Cliff: bluff, see Koweelik Bluff.

Kowgrock: locality, see Kograk Deep.

Kowguckpak: ravine, see Kugukpak Valley.

Kowie Creek: stream, see Kowee Creek.

Kowigilikalik: locality, at headwaters of Tagayarak River, 20 miles SW of Tuntutuliak and 60 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 18' N, 163° 12' W; (map 58). Former small settlement or camp reported in 1949 by USC&GS.

Kowikarurmiut: locality, on N shore of Duchikthluk Bay, 3 miles N of Cape Mendenhall, Nunivak Island; 59° 51' N, 166° 15' W; (map 55). Eskimo summer fish camp reported in 1949 by USC&GS.

Kowkow Creek: stream, flows NW 2.5 miles to Trail Creek, 25 miles N of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 28' 45" N, 161° 28' 00" W; (map 53). Eskimo name published by G. L. Harrington (in Brooks, 1921, pl. 7), USGS. Gold production along this creek started in 1913.

Kownruk: canyon, see Kunruk Canyon.

Kowquialik Lake: lake, see Kawialik Lake.

Kowtuck Point: point of land, see Kowtuk Point.

Kowtuk Point: point of land, on Chukchi Sea coast, 15 miles NE of Point Hope, Arctic Slope; 68° 27' 07" N, 166° 19' 30" W; (map 129). Variant: Kotak Point, Kowtuck Point. Eskimo name reported in 1950 to mean "little point" by USC&GS.

Kowuk: stream, see Kobuk River.

Koyakutuk River: stream, see Kuyukutuk River.

Koyana Creek: stream, flows SE 1.9 miles to Norton Sound, 23 miles E of Solomon, Seward Peninsula Highlands; 64° 34' N, 163° 40' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Koyoukuk River: stream, see Koyukuk River.

Koyoukut Mountain: hill, see Koyukuk Mountain.

Koyoyuk Creek: stream, see Kogoyuk Creek.

Koyuk Inlet: estuary, at mouth of Koyuk River, on Norton Bay, 30 miles NW of Christmas Mountain, Seward Peninsula Highlands; 64° 54' N, 161° 10' W; (map 96). Eskimo name reported about 1954 by U.S. Army Corps of Engineers.

Koyuk River: stream, flows SE 115 miles to Koyuk Inlet, 30 miles NW of Christmas Mountain, Nulato Hills; 64° 55' N, 161° 08' W, BGN 1952; (map 96). Variant: Kanguksuk River, Kayuk River, Koikpak River, Koipak River, Kuyuk River, Kviiguk River, Left Fork Kviiguk River, Reka Kvyguk, Reka Kvynkhak. Eskimo name reported by Capt. Tebenkov (1852, map 2), IRN, as "Kvyguk." The present spelling comes from A. H. Brooks, USGS, in 1900. The Western Union Telegraph Expedition spelled the name "Koikpak," which means "big river."

Koyuk: village, pop. 129, on right bank at mouth of Koyuk River, 31 miles NW of Christmas Mountain, Seward Peninsula Highlands; 64° 56' N, 161° 09' W; BGN 1944; (map 96). Variant: Kangekosook, Kanguksuk, Kangusuk, Konyukmute, Kuyuk Kvienkhakg-miut, Kvynkhakg-miut, Norton Bay Station. Eskimo village reported in 1842-44 by Lt. L. A. Zagoskin, IRN, who recorded its name as "Kvynkhak-miut," meaning "Kvynkhak people." Baron Otto von Bendeleben, Western Union Telegraph Expedition, wrote the name "Konyukmute" in 1865. The village became a supply center for local mining, and a trading station, called "Norton Bay Station," was established about 1900. The population in 1930 was 110.

Koyuktolik Bay: bay, 2 miles wide, at SW tip of Kenai Peninsula, 16 miles SW of Seldovia, Chugach Mountains; 59° 14' 30" N, 151° 56' 30" W; BGN 1908; (map 50). Variant: Dog Salman, Dogfish, Dogsalman, Hiko-Bukta. Eskimo name reported by USC&GS in 1908. The name "Hiko-Bukta" appears to be partly Russian.

Koyuktulik River: stream, see Kuiuktulik River.

Koyukuk Island: island, on Yukon River, 18 miles NE of Nulato, Koyukok Lowland, 64° 53' N, 157° 35' W; (map 97). Variant: Traders Island. Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by U.S. Dept. of Interior.

Koyukuk Mountain: hill, 903 ft., on right bank of Yukon River, 3 miles N of Koyukok and 19 miles NE of Nulato, Koyukuk Lowland, 64° 54' N, 157° 39' W; BGN 1890; (map 97). Variant: Benelaracher, Be-ne-le-rah-cher, Koyoukut Mountain, Koyukuk Sopka. Name obtained in 1869 from the Russians by Capt. C. W. Raymond, U.S. Army Corps of Engineers, and written "Koyukuk Sopka" by him. A. V. Zane, USN, of Lt. G. M. Stoney's expedition gave in 1886 the Koyukan Indian name as "Be-ne-le-rah-cher," meaning "big mountain."

Koyukuk River: stream, heads at its Middle and North Forks, flows SW 425 miles to Yukon River, 22 miles NE of Nulato, Koyukuk Lowland; 64° 55' N, 157° 32' W; BGN 1890; (map 97). Variant: Coyukuk River, Reka, Junaka, Junnaka, Kouiak River, Koyoukuk River, Reka Kuiuk, Kujupak, Kuryukak, Kuyukak, Reka Kuyaak, Tug-ga-rag-a-wick, Yunaka, Yunnaka. Koyukan Indian name first recorded by Lt. L. A. Zagoskin, IRN, as "Kuyukak" (and "Yunaka" or "Yunnaka"). The Russians at Nulato referred to the stream as "Kuiuk" or "Kuyaak." The Western Union Telegraph Expedition spelled the name "Coyukuk." BGN standardized the present spelling. The lower part of the river was explored by Zagoskin in 1842-44 and in 1885, Lt. H. T. Allen, USA, explored almost its entire length.

Koyukuk Sopka: hill, see Koyukuk Mountain.

Koyukuk: village, pop. 128, on right bank of Yukon River, W of Koyukuk Island and 16 miles NE of Nulato, Nulato Hills; 64° 53' N, 157° 42' W; (map 97) A trading post and Eskimo village listed with a population of 150 by Ivan Petroff in the 1880 Census. A post office was established in 1898; discontinued in 1900 and re-opened in 1933 (Ricks, 1965, p. 37). Its population was 121 in 1910; 124 in 1920; 143 in 1930 106 in 1940; and 79 in 1950.

Kozakakat Slough: stream, flows NW 11 miles to Koyukuk River, 15 miles SW of Roundabout Mountain, Koyukuk Lowland; 65° 28' N, 157° 02' W; (map 108) Koyukan Indian name, meaning “mouth of the Kosa,” obtained in 1955 at Huslia by USGS.

Kozerevsky: village, see Holy Cross.

Kozherevsky River: stream, flows SE 30 miles to Yukon River, 7 miles NW of Holy Cross, Innoko Lowland; 62° 14' 30" N, 159° 58' 30" W; (map 78). Variant: Koserefski River. Local name reported in 1916 by G. L. Harrington and R. H. Sargent (in Harrington, 1918, pl. 1), USGS; name derived from the earlier name of Holy Cross.

Kozherevsky: locality, on left bank of Yukon River opposite Holy Cross, Innoko Lowland; 62° 12' N, 159° 43' W; (map 78). Variant: Koserefski. Site of an Ingalik Indian village which, according to Hrdlicka (1943, p. 221), was called “Kozherevsky” by the Russians. See Holy Cross.

Kozian Reef: reef, see Cozian Reef.

Kozikakat River: stream, see Bear Creek.

Koznuten: stream, see Kanuti River.

Kradigy: hill, see Fox Castle.

Kraemer Creek: stream, flows SE 0.6 miles to Trout Lake, 28 miles NE of Paxson, Alaska Range; 63° 07' 50" N, 144° 38' 32" W; (map 86). Name published on relatively recent maps.

Kraenberi Lake: lake, 0.8 miles long, on Kenai Peninsula W of Angler Lake, 6 miles SW of Point Possession and 41 miles NE of Kenai, Cook Inlet Lowland; 60° 58' N, 150° 28' W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Kragluchten Point: point of land, at W end of Little East Rookery, on NE coast of Saint George Island, in Pribilof Islands; 56° 36' 25" N, 169° 31' 20" W; (map 38). An Aleut name listed by Putnam (1903, p. 1015), USC&GS, as “Krag' lucht' en” meaning “squealing * * * so called from the noise made by the pup seals on the rocks beneath.”

Krainie Cape: point of land, see Last Point.

Krakankringa: cove, see Garden Cove.

Krasnaia Bay: bay, see Red Bay.

Krasnaya, Bukhta: bay, see Red Bay.

Krasni Point: point of land, at E entrance to Temnac Bay, on S coast of Attu Island, Aleutian Islands; 52° 47' 10" N, 173° 07' 30" E; BGN 1938; (map 13). Variant: Krasni Cape, Krasnoi Cape, Point Rouge, Red Cape, Temnac Point. Derived from a Russian name, “Krasnoy Mys,” meaning “red cape,” and applied to a point at the west entrance to Massacre Bay (Sarichev,

1826, map 13). The name was changed in the 1930's to its present form and location. See Murder Point.

Krasni Point: point of land, see Murder Point.

Krasnoi Bay: bay, see Redfish Bay.

Krasnoi Cape: point of land, see Krasni Point.

Krasnoi Point: point of land, see Murder Point.

Krasnoi Ribi: bay, see Redfish Bay.

Krasnoi Ribi: islands, see Redfish Islets.

Krasnoi Ribi: point of land, see Redfish Cape.

Krasnoy Ryby, Bukhta: bay, see Redfish Bay.

Krasnoy Ryby, Mys: point of land, see Redfish Point.

Krasnyy Ryby: islands, see Redfish Islets.

Krasnyy Ryby: point of land, see Redfish Cape.

Krauses Hole: cove, 0.1 miles across, on W coast of Woewodski Island, 19 miles SW of Petersburg, Alexander Archipelago; 56° 32' 20" N, 133° 03' 20" W; (map 6). Local fishermen's name reported in 1947 by USC&GS.

Kravaksanak: locality, on E bank of Kwikpak Pass, 14 miles E of Kwiguk, Yukon-Kuskokwim Delta; 62° 48' 45" N, 164° 04' 30" W; (map 77). Variant: Kravaksarak. Eskimo camp reported in 1899 by R. L. Faris, USC&GS; written by him as "Kravaksarakamiut," meaning "Kravaksarak people."

Kravaksarak: locality, see Kravaksanak.

Kravaksarok: watercourse, see Little Apoon Pass.

Kreg'lucht'en-ang'ten-algarel'ogrey: rookery, see Little East Rookery.

Krein Lake: lake, 0.8 miles long, on Kenai Peninsula, N of Grus Lake, 27 miles NE of Kenai, Cook Inlet Lowland; 60° 47' 20" N, 150° 40' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Krekatok Island: island, 4.5 miles long, one of Sand Islands, between Bering Sea and Scammon Bay, Yukon-Kuskokwim Delta; 62° 02' N, 165° 59' W; (map 76). Eskimo name reported by USC&GS in 1923.

Krenitsy, Mys: point of land, see Krenitzin, Cape.

Krenitsyn: point of land, see Krenitzin, Cape.

Krenitsyna, Mys: point of land, see Krenitzin, Cape.

Krenitzin Islands: islands, in Fox Islands, Aleutian Islands, consisting principally of Akutan, Akun, Rootok, Avatanak, Tigalda, Ugamak, and Aiktak Islands; 54° 07' N, 165° 30' W; (map 24). Variant: Krenytsin Islands. Probably named by Capt. Tebenkov (1852, map 26), IRN, for Capt. Lt. Peter Kuzmich Krenitzin (or Krenitsyn), IRN, who, with Lt. M. D. Levashev, IRN, in 1768-69 explored and mapped over 30 islands in the Aleutians. Capt. Tebenkov spelled the name "Ostrova Krinitsyna," or "Krinitsyn Islands."

Krenitzin, Cape: point of land, at N entrance to Bechevin Bay, 14 miles N of False Pass, at SW end of Alaska Peninsula, Bristol Bay Lowland; 55° 04' N, 163° 25' W; (map 29). Variant: Cap Krenitsyn, Krenitzine Point, Krenytsin, Cap Krenitzyn, Mys Krenitsy, Mys Krenitsyna. Named for Capt. Lt. Peter Kuzmich Krenitzin, IRN, commander of the galliot Saint Catherine, who led a Russian exploring expedition to the Aleutian Islands in 1768-69. The name was published by Adm. von Krusenstern (1827, atlas map 20), IRN, as "C[ap] Krenitzyn," or "Cape Krenitzyn."

Krenitzine: point of land, see Krenitzin, Cape.

Krenitzyn, Cap: point of land, see Krenitzin, Cape.

Krenytsin Islands: islands, see Krenitzin Islands.

Krenytsin: point of land, see Krenitzin, Cape.

Krepost Georgiyevskaya: village, see Kasilof.

Kresta Mys: point of land, see Cross, Cape.

Kresta Point: point of land, on NW coast of Attu Island, Aleutian Islands; 53° 00' 10" N, 172° 38' 20" E; BGN 1938; (map 13). Variant: Cape Cross, Mys Kresta, Northwest Shoulder. This cape was called "M[ys] Kresta," meaning "Cape Cross" (Tebenkov, 1852, map 30). Baker (1906, p. 469), USGS, calls it "Northwest Shoulder" and reports this name as being given by the North Pacific Exploring Expedition of 1854-55.

Kresta Point: point of land, on S tip of Krestof Island, 9 miles NW of Sitka, Alexander Archipelago; 57° 08' 30" N, 135° 30' 30" W; (map 9). Variant: Krestof Point, Mys Kresta. Russian name meaning "cross," given in 1833 by the navigator Ens. Vasiliev; published in 1848 on Russian Hydrog. Dept. Chart 1397 as "M[ys] Kresta."

Kresta Strait: water passage, see Cross Sound.

Kresta, Mys: point of land, see Kresta Point.

Krestina, Ostrov: island, see Cristina Island.

Krestof Island: island, 6 miles long, between Kruzof and Baranof Islands, 10 miles NW of Sitka, Alexander Archipelago; 57° 11' N, 135° 30' W; BGN 1897; (map 9). Variant: Cross Island, Krestoff Island, Krestov Island, Ostrov Krestovskiy. Published in 1848 on Russian Hydrog. Dept. Chart 1397 as "Os[trov] Krestovskiy," meaning "cross island."

Krestof Mountain: mountain, 1,631 ft., on Krestof Island, 10 miles NW of Sitka, Alexander Archipelago; 57° 11' N, 135° 29' W; (map 9). Variant: Gora Krestovskaya. Russian name meaning "cross" given in 1809 by the navigator Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "Gore Krestovskaya."

Krestof Point: point of land, see Kresta Point.

Krestof Sound: sound, 4 miles across, 3 miles N of Sitka Sound, off NW coast of Baranof Island, Alexander Archipelago; 57° 12' N, 135° 35' W; BGN 1897; (map 9). Variant: Cross Sound, Krestoff Sound, Krestoff Strait, Krestov Sound, Proliv Krestovskiy. Russian name meaning "cross," given in 1809 by the navigator Ivan Vasiliev the first, IRN; published in 1848 on Russian Hydrog. Dept. Chart 1397 as "Pr[oliv] Krestovskiy."

Krestof Strait: water passage, see Olga Strait.

Krestof, Port: bight, 0.7 miles across, on E coast of Kruzof Island, 12 miles NW of Sitka, Alexander Archipelago; 57° 09' 00" N, 135° 35' 30" W; (map 9). Variant: Gavan Krestovskaya, Port Cross, Port Krestov, Zaliv Mylkoy. Name published in 1848 on Russian Hydrog. Dept. Chart 1397 as "Gavan Krestovskaya," meaning "cross harbor." It was called "Zaliv Mylkoy," meaning "shallow bay," in 1809 by the Russian navigator Ivan Vasiliev the first; published as such by Sarichev (1826, map 19).

Krestoff Island: island, see Krestof Island.

Krestoff Sound: sound, see Krestof Sound.

Krestoff Strait: sound, see Krestof Sound.

Krestofski Islet: island, see Guide Island.

Krestov Island: island, see Krestof Island.

Krestov Sound: sound, see Krestof Sound.

Krestov, Port: bight, see Krestof, Port.

Krestovskaya, Gavan: bight, see Krestof, Port.

Krestovskaya, Gora: mountain, see Krestof Mountain.

Krestovskin, Zaliv: cove, see Gibson Cove.

Krestovskiy, Ostrov: island, see Krestof Island.

Krestovski, Proliv: sound, see Krestof Sound.

Krestovskoy, Ostrov: island, see Guide Island.

Krestovskoy, Proliv: water passage, see Olga Strait.

Krestrel Island: island, see Kestrel Island.

Kreuger Creek: stream, flows SE 7 miles to Arctic River, 7 miles SE of Ear Mountain and 44 miles NE of Teller, Seward Peninsula Highlands; 65° 53' N, 166° 03' W; (map 111). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Krilon, Gora: mountain, see Crillon, Mount.

Kripniyagok River: stream, see Kipniyagok River.

Kripniyuk: stream, see Black River.

Krischa: glacier, see Krishna Glacier.

Krishna Glacier: glacier, 0.5 miles long, on N slope of Takhinsha Mountains, 6 miles W of Mount Emmerick and 25 miles SW of Skagway, St. Elias Mountains; 59° 12' 30" N, 135° 49' 30" W; (map 45). Variant: Krischa. Probably a Tlingit Indian name shown as Krischa by Aurel and Arthur Krause (1883, map). Called Krishna Glacier by USC&GS (1883 Coast Pilot, pl. 1819).

Krishka Island: island, 1 mile across, in Whale Bay, off SE coast of Baranof Island, Alexander Archipelago; 56° 36' 10" N, 134° 55' 30" W; BGN 1926; (map 5). Variant: Cone Island, Gasilnik Island, Gasilo Island, Zakrishka Island. Russian word, "kryshka" meaning "cover," given in 1925 by USC&GS because the island closes the entrance to Kritoi Basin. The descriptive name "Cone Island" was used for this island in 1924 by USC&GS because of "its marked resemblance to an inverted cone, when seen from the northwestward."

Krissey Island: island, see Rat Island.

Kritchek River: stream, see Kvichavak River.

Kritoi Basin: bay, 1 mile across, enclosed by Krishka Island in Whale Bay, on SW coast of Baranof Island, Alexander Archipelago; 56° 35' 45" N, 134° 59' 30" W; (map 5). Variant: Zakritoi Basin. Russian word, "krytoi" meaning "covered," given in 1926 by USC&GS.

Kritskoi Island: island, 2 miles long, one of Kudobin Islands, 16 miles W of village of Port Moller, Bristol Bay Lowland; 56° 01' 15" N, 161° 00' 00" W; (map 28). Variant: L'ile aux Loups, Wolf Island. Named "Kritskoi ile" by Capt. Lutke (1836, p. 261), IRN. He erroneously called it "L' ile aux Loups," or "wolf island," on his Chart 14.

Krivoi Island: island, see Crooked Island.

Krivoi Island: island, see Kriwoi Island.

Krivoy, Ostrov: island, see Crooked Island.

Kriwoi Island: island, 1.2 miles across, in Yakutat Bay, 0.6 miles NE of Dolgoi Island and 5.5 miles NE of Yakutat, Malaspina Coastal Plain; 59° 37' 30" N, 139° 39' 30" W; (map 46).

Variant: Crooked Island, Krivoi Island. Named "O[strov] Krivoy," meaning "crooked island," by Capt. Tebenkov (1852, map 7), IRN.

Krogh Lake: lake, 0.3 miles across, S coast of Etolin Island, Alexander Archipelago; 55° 55' 25" N, 132° 20' 15" W; (map 4). Named in 1886 by Lt. Comdr. A. S. Snow, USN.

Kroto Creek: stream, heads in Kroto Lake, flows SE 80 miles to Susitna River, 36 miles NW of Anchorage, Cook Inlet Lowland; 61° 42' N, 150° 19' W; BGN 1961; (map 70). Variant: Croto River, Deshka River. Name reported in 1954 by USGS; derived from the name of the Indian village once located at the mouth of this stream.

Kroto Lake: lake, 0.5 miles long, at head of Kroto Creek, 19 miles NW of Talkeetna, Alaska Range; 62° 26' 55" N, 150° 39' 20" W; (map 81). Local name reported in 1958 by USGS.

Kroto Slough: stream, anabranch of Susitna River, flows SW 11 miles to Yentna River 1.7 miles N of its junction with Susitna River, 32 miles NW of Anchorage, Cook Inlet Lowland; 61° 35' 20" N, 150° 27' 45" W; BGN 1962; (map 70). Variant: Croto Slough. Name published by AMS in 1947 as "Croto Slough." Present spelling reported by USGS in 1961; derived from the Indian village of Kroto which was formerly located in the vicinity.

Kroto: locality, site of an Indian village, at junction of Kroto Creek and Susitna River, 36 miles NW of Anchorage, Cook Inlet Lowland; 61° 41' 36" N, 150° 18' 40" W; (map 70). Name of a former Tanaina Indian village; reported by Robert Muldrow (in Eldridge, 1900, map 3), USGS.

Krugloi Island: island, 0.1 miles long, in Peril Strait, 1 mile NW of N coast of Duffield Peninsula, N tip of Baranof Island, Alexander Archipelago; 57° 33' 45" N, 135° 28' 05" W; (map 9). Variant: Krugloi Islet, Kruoloi Island, Ostrov Krugloy. Russian name meaning "round" given in 1809 by the navigator Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Krugloy."

Krugloi Island: island, see Agattu Island.

Krugloi Island: island, see Round Island.

Krugloi Islands: islands, 0.5 miles across, on N shore of Salisbury Sound, off Chichagof Island, 26 miles NW of Sitka, Alexander Archipelago; 57° 21' 50" N, 135° 43' 30" W; (map 9). Name derived from Krugloi Island, the former name of Round Island. The name was published by Baker (1906, p. 383).

Krugloi Islet: island, see Krugloi Island.

Krugloi Point: point of land, on NE tip of Agattu Island, Aleutian Islands; 52° 30' 50" N, 173° 46' 20" E; BGN 1938; (map 13). Variant: Farrar Cape, Northeast Cape, Ostrov Krugly.

Translation of "Ostrov Krugly," published in 1848 on Russian Hydrog. Dept. Chart 1400. The point was also listed as Farrar Cape in the 1944 Aleutian Coast Pilot.

Krugloi Point: point of land, on S tip of Halleck Island, 10 miles NW of Sitka, Alexander Archipelago; 57° 11' N, 135° 27' W; BGN 1897; (map 9). Variant: Mys Krugloy, Round Point. Russian name meaning "round" given in 1809 by the navigator Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "M[ys] Krugloy," or "Round Cape."

Krugloy, Mys: point of land, see Krugloi Point.

Krugloy, Ostrov: island, see Krugloi Island.

Krugloy, Ostrov: island, see Mills Island.

Krugloy, Ostrov: island, see Round Island.

Krugly, Ostrov: point of land, see Krugloi Point.

Kruoloi Island: island, see Krugloi Island.

Krupa Point: point of land, at SE end of Hodikof Bay, in Sarana Bay, on E coast of Attu Island, Aleutian Islands; 52° 52' 55" N, 173° 16' 55" E; BGN 1965; (map 13). Variant: Hodikof Point, Hodikoff Point, Cape Hodikof. This name was published in 1948 on an AMS map.

Krupa Point: point of land, see Hodikof Point.

Krusenstern Island: island, see Little Diomede Island.

Krusenstern Lagoon: lagoon, 7 miles long, on Chukchi Sea coast, NE of Cape Krusenstern, Kotzebue-Kobuk Lowland; 67° 09' N, 163° 08' W; BGN 1962; (map 128). Variant: Eenyitkaleeoom Tehsaya. Local name reported in 1942 by USC&GS. E. S. Burch reported in 1966 that the Eskimo call it "Eenyitkaleeoom Tehsaya [Inyitkalium Teseya]."

Krusenstern, Cape: point of land, on Chukchi Sea coast, N point of entrance to Kotzebue Sound, 35 miles NW of Kotzebue, Kotzebue-Kobuk Lowland; 67° 08' 00" N, 163° 44' 45" W; (map 128). Variant: Killianuk, Krusenstern Cape, Noovowa. On August 14, 1816, Lt. Otto von Kotzebue, IRN, wrote "we reached the promontory which forms the north entrance to the sound, which received the name of Krusenstern." It was named for Admiral Adam Johann von Krusenstern, first Russian circumnavigator, 1803-04. Apparently the lagoon and the lowlands west of Ingitkalik Mountain were not seen at that time and Kotzebue applied the name to this promontory. The Eskimo name "Killianuk" was recorded by Rev. Stuck (1920, p. 85) in 1918.

Krusoff Island: island, see Kruzof Island.

Krusow Island: island, see Kruzof Island.

Krustoi Island: island, see Krutoi Island.

Kruto, Cape: point of land, see Steep Cape.

Krutoi Island: island, 0.6 miles across, in Yakutat Bay, 2.5 miles NW of Humpback Point and 8.8 miles NE of Yakutat, Malaspina Coastal Plain; 59° 40' 10" N, 139° 38' 4.0" W; (map 46). Variant: Krustoi Island, Steep Island. Named "O[strov] Krutoy," meaning "steep island," by Capt. Tebenkov (1852, map 7), IRN.

Krutoi, Cape: point of land, see Steep Cape.

Krutoy, Cape: point of land, see Steep Cape.

Kruzenstern Cape: point of land, see Krusenstern, Cape.

Kruzenstern Island: island, see Little Diomede Island.

Kruzgamapa River: stream, see Pilgrim River.

Kruzgamapah River: stream, see Pilgrim River.

Kruzgamepa Hot Springs: locality, see Pilgrim Springs.

Kruzgamepa River: stream, see Pilgrim River.

Kruzof Island: island, 25 miles long, W of Baranof Island and 10 miles NW of Sitka, Alexander Archipelago; 57° 10' N, 135° 40' W; BGN 1896; (map 9). Variant: Crooze Island, Edgecumb Island, Grooze, Krusoff Island, Krusow Island, Kruzoff Island, Kruzow Island, Pitt Island, Saint Hyacinthe, San Jacinto, Sitka Island, Tleekh. The Tlingit Indian name for this island was recorded in 1849 by Capt. Tebenov (1852, map 7), IRN, as "O[strov] Tliikh." After 1775, when Don Juan de la Bodega y Quadra named Mount Edgecumbe "Montana de San Jacinto," the island became known as San Jacinto or, as La Perouse called it, St. Hyacinthe. In 1787 Capt. Nathaniel Portlock named it "Pitt Island" (Wagner, 1937, p. 485). The early Russian traders called it "Sitka Island," but in 1805 Capt. U. T. Lisianski, IRN, named it "Crooze Island" after a Russian admiral. In 1849 Constantin Grewingk called it "Edgecumb or Krusow Island." "Kruzof" was adopted by BGN (Baker, 1906, p. 384).

Kruzof, Point: point of land, on NW tip of Kruzof Island, 27 miles NW of Sitka, Alexander Archipelago; 57° 20' 15" N, 135° 50' 30" W; (map 9). Named in 1896 by Lt. Comdr. W. Island Moore, USN. The name was published in 1900 by USC&GS on Chart 8282.

Kruzoff Island: island, see Kruzof Island.

Kruzow Island: island, see Kruzof Island.

Kryci Iles: islands, see Rat Islands.

Kryci Iles: islands, see Rat Islands.

Kryci Islands: islands, see Rat Islands.

Krysi Island: island, see Rat Island.

Krysi Islands: islands, see Rat Islands.

Krysi Pass: water passage, between Sea Lion Rock and Rat Island, Rat Islands, Aleutian Islands; 51° 52' N, 178° 03' E; (map 15). Russian name meaning “rat” published in I 1954 Coast Pilot (p. 466).

Krysi Point: point of land, NW tip of Rat Island, Aleutian Islands; 51° 50' N, 178° 12' E; BGN 1937; (map 15). Name derived from the Russian word “krysi,” meaning “rat.” Published on a 1935 chart by U.S. Navy Hydrog. Office.

Krysiy, Ostrova: islands, see Rat Islands.

Kshaliuk Cape: point of land, see Kshaliuk Point.

Kshaliuk Point: point of land, on W coast of Umnak Island, Aleutian Islands; 53° 13' 45” N, 168° 40' 30” W; BGN 1940; (map 22). Variant: Bulldog Point, Kshaliuk Cape, Mys Kshalyukh. Aleut name published by Capt. Tebenkov (1852, map 25), IRN, as “M[ys] Kshalyukh,” or “Cape Kshalyukh.” This feature was called “Bulldog Point” in 1939 by USC&GS.

Kshalyukh, Mys: point of land, see Kshaliuk Point.

Ku River: stream, see Kuk River.

Ku-buck: stream, see Kobuk River.

Ku-gat-gui-gut: stream, flows S 25 miles to Ke-mam-gu-y-guok, 36 miles NE of Dillingham, Bristol Bay Lowland; 59° 33' N, 158° 12' W; (map 52). Eskimo name reported in 1910 by H. C. Fassett, USBF.

Ku-Henmut: locality, see Kutmiut.

Ku-wung-mutes: localities, see Kobuk Villages.

Kuagamut: localities, see Kobuk Villages.

Kuahroo River: stream, see Inaru River.

Kuahru: lagoon, see Tachinisok Inlet.

Kuahu River: stream, see Inaru River.

Kuakan Point: point of land, northernmost tip of Deer Island, between Ernest Sound and Seward Passage, Alexander Archipelago; 56° 05' 40” N, 132° 01' 50” W; BGN 1023; (map 6). Tlingit Indian word from “qowakan” meaning “deer” given in 1923 by USC&GS.

Kuakat Ridge: ridge, elev. 1,615 ft., extends N-S 8 miles, along E side of Kuna River near its mouth, Arctic Slope; 68° 51' N, 157° 35' W; (map 132). Eskimo name reported by T. E. Taylor, USGS, in 1956.

Kualiug-miut: village, see Kiwalik.

Kualyugmut: village, see Kiwalik.

Kuaru River: stream, see Inaru River.

Kuaruaipa: stream, on Beaufort Sea coast, E of Point Barrow; (map 153). Listed in Ray's Eskimo vocabulary as meaning "The Second Kuaru" (Ray, P. H., 1885, p. 55). The stream has not been identified.

Kuaruaipa: stream, see Avak Creek.

Kubanof Rock: rock, in Tonowek Bay, 0.7 miles N of Harmony Islands, Alexander Archipelago; 55° 44' 00" N, 133° 25' 10" W; (map 4). Local name recorded in 1951 by USGS.

Kubieshka Island: island, see Jug Island.

Kubok: localities, see Kobuk Villages.

Kubugakhli, Cape: point of land, see Kubugakli, Cape.

Kubugakli, Cape: point of land, S point of entrance to Kashvik Bay, in Katmai National Monument, on E coast of Alaska Peninsula, 26 miles S of Mount Katmai, Aleutian Range; 57° 53' 50" N, 155° 03' 35" W; (map 35). Variant: Cape Koubougakhli, Cape Kubugakhli. Native name published by Capt. Lutke (1835, map , p. 274), IRN, as "Cape Koubougakhli" and by Capt. Tebenkov (1852, map 22), IRN, as "M[ys] Kubugakhli," or "Cape Kubugakhli."

Kubugakli, Mount: mountain, 2,900 ft., on E coast of Alaska Peninsula, 27 miles SW of Mount Katmai, Aleutian Range; 57° 53' 10" N, 155° 07' 55" W; (map 35). Name derived from Cape Kubugakli, and given by USC&GS in 1910.

Kubuk: stream, see Kobuk River.

Kubyshka, Ostrov: island, see Jug Island.

Kuch-Kan Island: island, see Kutkan Island.

Kuchat: point of land, see Douglas, Cape.

Kuchaurak Creek: stream, flows NW 13 miles to S end of Kasegaluk Lagoon, 28 miles S of Point Lay, Arctic Plain; 69° 21' N, 163° 09' W; (map 145). Eskimo name reported by USC&GS in 1949, meaning "new small stream."

Kuceak Creek: stream, heads in lake, flows NE 25 miles to Inaru River, 15 miles NW of village of Meade River, Arctic Plain; 70° 40' 47" N, 157° 39' 25" W; (map 147). Eskimo name obtained in 1956 at Wainwright by T. E. Taylor, USGS.

Kucher Creek: stream, flows NW 30 miles to Colville River 5 miles E of its junction with Etivluk River, Brooks Range; 68° 57' N, 155° 45' W; BGN 1925; (map 133). Name spelled “Koo-che-ak” on manuscript map made by an Eskimo about 1890. The Eskimo name probably is “Kugchiak,” meaning “new river.” Published by Schrader (1904, pl. 3), USGS.

Kuchiak Creek: stream, flows NW 19 miles to Chukchi Sea, 35 miles SW of Point Lay, Arctic Plain; 69° 15' 30" N, 163° 20' 00" W; (map 145). Variant: Koocheak River. Eskimo name reported by USC&GS in 1949, meaning “new stream.”

Kuchiak Creek: stream, flows SE 3 miles to Oblaron Creek, 10 miles NW of Selawik, Kotzebue-Kobuk Lowland; 66° 43' N, 160° 13' W; (map 114). Eskimo name obtained by U.S. Army Corps of Engineers in 1955.

Kuchuk Creek: stream, heads in Waring Mountains and flows S 16 miles to Kugarak River, 45 miles SW of Shungnak, Kotzebue-Kobuk Lowland; 66° 44' N, 158° 43' W; (map 115). Eskimo name shown on a 1927 manuscript map by the “trader at Selawik.”

Kuchyuma, Ostrov: islands, see Kutchuma Islands.

Kuckokwak Creek: stream, see Kuskokwak Creek.

Kudiakof Islands: islands, including Glen, Operl, and Neumann Islands, forming the NW boundary of Izembek and Moffet Lagoons, at SW end of Alaska Peninsula, Bristol Bay Lowland; 55° 22' N, 162° 50' W; (map 29). Variant: Chimiudi Islands, Chudoekow Islands, Koudiakoff Islands, Khoudiakoff Islands, Khudiakoff Islands, Ostrova Chimyudy. Named for a surveyor, Kudiakov (cna), who was sent to the area by Lt. Sarichev, IRN, in 1791 (Baker, 1906, p. 384) and published by Lutke (1836, p. 291) as “Khoudiakoff.” These islands were called “O[strova] Chimyudy” or “Chimyudy Islands” by Capt. Tebenkov (1852, map 24), IRN. This Aleut name may possibly be derived from the words “cingup” and “uddag” which, according to R. H. Geoghegan, mean “small saltwater fish” [common to this area] and “bay.”

Kudobin Islands: island chain, 8 miles long, includes Walrus and Kritskoi Islands, on Bering Sea coast 13 miles W of village of Port Moller, Bristol Bay Lowland; 56° 01' N, 160° 55' W; (map 28). Variant: Ile aux Loups, Khudobin Islands, Khudobine Islands, Khudubin Islands, Wolf Island. Named “Khudobin Island” in 1882 by W. H. Dall, USC&GS, for Andrew Khudobin, one of Capt. F. P. Lutke's naval officers in 1828. Khudobin surveyed and named the group “Ile aux Loups,” or “Wolf Island,” according to Lutke. Lutke (1836, p. 263) called the feature “Khudobine.”

Kudobin Peninsula: island, see Deer Island.

Kudugnak, Cape: point of land, on NE entrance point to Nazan Bay, on NE coast of Atka Island, Aleutian Islands; 52° 13' 35" N, 174° 03' 30" W; (map 18). Variant: Kadugnak, Kudugnake. Aleut name, published as “M[ys] Kudugnak,” or “Cape Kudugnak,” by Capt. Tebenkov (1852, map 27), IRN.

Kudugnake: point of land, see Kudugnak, Cape.

Kue-che-ark: stream, see Kuikcherk River.

Kue-ga-rack: stream, see Kugarak River.

Kue-wark River: stream, see Kagueruk Creek.

Kuearuk River: stream, see Steamboat Slough.

Kuegerak: stream, see Kugarak River.

Kuethluk: stream, see Kwethluk River.

Kugachiak Creek: stream, heads in lake, flows NW 20 miles to Kasegaluk Lagoon, 20 miles NE of Point Lay, Arctic Plain; 69° 56' 30" N, 162° 29' 30" W; (map 145). Variant: Koogacheak River, Kugachiak River, Kugachiakruak River. Eskimo name reported by USGS in 1956 and means, in a sense, "new stream."

Kugachiak River: stream, see Kugachiak Creek.

Kugachiakruak River: stream, see Kugachiak Creek.

Kugachuk River: stream, see Lane River.

Kugak Volcano: peak, see Kukak Volcano.

Kugak, Mount: peak, see Kukak Volcano.

Kugak: locality, see Kukak.

Kugakrak Mountains: hills, see Kakagrak Hills.

Kugalga: island, see Tigalda Island.

Kugaluk: village, see Kiwalik.

Kugalukmut: village, see Kiwalik.

Kugalukmute: village, see Kiwalik.

Kugarak River: stream, flows SW 58 miles to Selawik River, 27 miles SE of Selawik, Kotzebue-Kobuk Lowland; 66° 34' N, 159° 00' W; BGN 1912; (map 114). Variant: Koogarak, Kue-ga-rack, Kuegerak. Eskimo name reported in 1886 as "Kue-ga-rack" by Lt. Stoney (1900, map), USN. The present spelling was reported in 1901 by USGS.

Kugat Volcano: peak, see Kukak Volcano.

Kugidach Jagutscha: volcano, see Pogromni Volcano.

Kugikukvik River: stream, see Kuskokwim River.

Kugikukwik River: stream, see Kuskokwim River.

Kugirarok Creek: stream, heads on Mount Nasak, in Lisburne Hills, flows SW 15 miles to Kukpuk River, 18 miles N of Cape Thompson, Arctic Slope; 68° 24' 30" N, 165° 56' 30" W; (map 129). Variant: Kutigrarak, Kutigraruk Creek. Eskimo name recorded in 1956 by Orth as "Kutigrarak"; said to mean "flint arrowheads."

Kugiruk River: stream, see Kougarok River.

Kugirukak River: stream, see Noxapaga River.

Kugok River: stream, see Kungok River.

Kugoosuguru: locality, camp site on Chukchi Sea coast 8 miles SW of Barrow, Arctic Plain; 71° 12' N, 157° 00' W; (map 153). Eskimo camp name published by R. F. Spencer (1959, map 2). Lt. P. H. Ray, (1885, p. 55), USA, spells the name "Kuosugru" and lists it as the third camp below the village at Cape Smyth.

Kugrak River: stream, flows N 20 miles to Noatak River, 41 miles SW of Survey Pass, Brooks Range; 67° 40' N, 155° 37' W; (map 125). Eskimo name meaning "old river," recorded in Kobuk by Orth, USGS, in 1956.

Kugrock River: stream, see Kougarok River.

Kugrok River: stream, see Kougarok River.

Kugrua Bay: bay, 9 miles long, off W end of Peard Bay, at mouth of Kugrua River, 18 miles NE of Wainwright, Arctic Plain; 70° 47' N, 159° 08' W; (map 146). See Kugrua River.

Kugrua River: stream, heads in lake, flows NW 40 miles to Kugrua Bay, 9 miles NE of Wainwright, Arctic Plain, 70° 46' 30" N, 159° 17' 00" W; BGN 1949; (map 146). Variant: River Cogrua, Kookroak River, Kugura River, Kugurua River, Kukroak River. Eskimo name shown as "R. Cogrua" on Brit. Adm. Chart 593, 1827-55. Lt. Ray (1885, p. 54), USA, lists the word "kug' ru," meaning "swan." However, other spellings of this name would indicate that it may be "Kukraq," meaning "creek."

Kugruak River: stream, see Canning River.

Kugruk Lagoon: lagoon, on Seward Peninsula, at mouth of Kugruk River, 1.2 miles wide and 3 miles long, 4 miles SE of Deering, Kotzebue-Kobuk Lowland; 66° 03' N, 162° 38' W; (map 113). Eskimo name reported in 1950 by USGS; derived from the Kugruk River which flows into the lagoon.

Kugruk Mountains: mountain, see Kougarok Mountain.

Kugruk River: stream, on Seward Peninsula, heads in Imuruk Lake, flows NE then NW 60 miles to Kugruk Lagoon, at Kotzebue Sound, 5 miles SE of Deering, Kotzebue-Kobuk Lowland; 66° 00' N, 162° 40' W; BGN 1952; (map 113). Variant: Koogroog River, Mammoth River, Right Fork Kugruk River, Swan River. Eskimo name reported in 1899 as "Koogroog" by

Schrader and Brooks (1900, map 3), USGS. This appears to be the stream that Ivan Petroff in 1880 named "Mammoth" "from the occurrence of Mammoth bones in the vicinity" (Baker, 1906, p. 424). Reported as "Swan River" in 1901 by D. L. Reaburn (in Mendenhall, 1902, pl. 42), USGS. In 1904, after USGS had completed reconnaissance map ping of Seward Peninsula, attention was called to the fact that three major rivers on the peninsula were named "Kugruk." Action was then taken to change these names. The above river was retained as Kugrok since that is the way it was used in court records. The Kugruk River which flows to the Kuzitrin River was changed to Kougarok River, because, as A. J. Collier, USGS, stated in a letter, "it has always been pronounced locally as Koogarak, and so appears on all claim notices. When I first heard the name in 1900, I fancied that it had reference to the Rocky Mountain lion as cougar. In court records it is usually spelled 'Kougarok,' and the mining district is the Kougarok district." The Kugruk River which flows northwest to the Chukchi Sea was changed to Kugrupaga River because that was the name shown on the Monroe and Hutchin's map prepared under direction of the court in 1901. Since no gold of economic value had yet been found on this stream, it was felt this change could be effected without inconvenience.

Kugruk River: stream, see Kougarok River.

Kugruk River: stream, see Kugrupaga River.

Kugruk: locality, see Kougarok.

Kugrukruk River: stream, see Noxapaga River.

Kugrupaga Creek: stream, see Henry Creek.

Kugrupaga Inlet: bay, extends S 3.3 miles, off Arctic Lagoon, at mouth of Kugrupaga River, 25 miles SW of Shishmaref, Kotzebue-Kobuk Lowland; 66° 01' N, 166° 49' W; (map 112). Named for the river; published in 1952 by AMS.

Kugrupaga River: stream, on Seward Peninsula, flows NW 32 miles to Kugrupaga Inlet, on Chukchi Sea, 16 miles NW of Ear Mountain and 52 miles NW of Teller, Kotzebue-Kobuk Lowland; 66° 00' N, 166° 48' W; BGN 1905; (map 111). Variant: Koogrook River, Kugruk River. Eskimo name reported in 1901 as "Kugruk" by T. G. Gerdine (in Collier, 1902, pl. 9), USGS. See Kugruk River.

Kuguk River: stream, see Kungok River.

Kugukgit Mountains: mountains, see Kookooligit Mountains.

Kuguklik River: stream, flows W 30 miles to Kinak Bay, 48 miles W of Kulvagavik and 4 miles NW of Kipnuk, Yukon-Kuskokwim Delta; 59° 58' N, 164° 08' W; (map 54). Eskimo name reported in 1878 by E. W. Nelson, U.S. Signal Service.

Kugukpak Creek: stream, heads in lake, flows SE 14 miles to Okokmilaga River 6 miles N of its head, Brooks Range; 68° 13' N, 153° 06' W; (map 133). Eskimo name meaning "biggest creek," obtained in 1956 at Anaktuvuk Pass by T. E. Taylor, USGS.

Kugukpak Valley: ravine, formed by Kuropak Creek, 11 miles SE of Point Thompson, Arctic Slope; 68° 05' N, 165° 35' W; (map 129). Variant: Kowguckpak. Eskimo name meaning “big gorge”; so called because the ravine's walls are fairly steep with few breaks in them. Name reported in 1966 by E. S. Burch.

Kugulgit Mountains: mountains, see Kookooligit Mountains.

Kugulik Bay: bay, see Kujulik Bay.

Kugun Point: point of land, on E coast of Tuxekan Island, 25 miles N of Craig, Alexander Archipelago; 55° 49' 15" N, 133° 12' 55" W; (map 4). Indian name recorded in 1949 by USGS.

Kugura River: stream, see Kugrua River.

Kuguru River: stream, see Canning River.

Kugurua River: stream, see Kugrua River.

Kuguyuk Lake: lake, 0.5 miles long, on Kenai Peninsula W of Bird Lake, 5 miles SW of Point Possession and 42 miles NE of Kenai, Cook Inlet Lowland; 60° 48' 40" N, 150° 26' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Kuhl Island: island, see Kohl Island.

Kuhnteah: lake, see Mosquito Lake.

Kuhsuman Creek: stream, flows NW 13 miles from a glacier to Nanushuk River, 37 miles ENE of Anaktuvuk Pass, Brooks Range; 68° 21' 15" N, 150° 35' 00" W; (map 134). Named by USGS geologists during the exploration of Naval Petroleum Reserve No. 4; name given in 1944.

Kui-kohk-tak Pass: water passage, see Kwikoktuk Pass.

Kuiagdak: island, see Poperechnoi Island.

Kuiak River: stream, flows NW 25 miles to Norton Sound, 14 miles SW of St. Michael, Yukon-Kuskokwim Delta; 63° 23' N, 162° 27' W; (map 92). Eskimo name obtained in 1952 by USC&GS

Kuigamute: locality, see Kwik.

Kuik River: stream, see Kwik River.

Kuik: locality, see Kwik.

Kuikcherk River: stream, flows NW 22 miles to Kobuk River, 3 miles E of Shungnak, Kotzebue-Kobuk Lowland; 66° 53' N, 157° 02' W; (map 115). Variant: Kue-che-ark. Eskimo

name spelled "Kue-che-ark" by Lt. Stoney (1900, map), USN, and applied by him to a stream to the east of this one. W. C. Mendenhall, USGS, reported the above spelling and application in 1901.

Kuikh: locality, see Kwik.

Kuikhlogamute: village, see Kwethluk.

Kuikhoglyuk, Reka: stream, see Ulukuk River

Kuikli: locality, see Kwik.

Kuikpak: stream, see Yukon River.

Kuilkluk: village, see Kwethluk.

Kuimla Reka: watercourse, see Kwemeluk Pass.

Kuingak: stream, see Akulik River.

Kuingshtetakten: village, see Shageluk.

Kuitzinjik Lake: lake, 0.8 miles long, on E bank of Sheenjek River, 7.4 miles NW of Table Mountain and 44 miles NE of Arctic Village, Brooks Range; 68° 23' N, 143° 57' W; (map 137). Variant: Lobo Lake. Kutchin Indian name obtained in 1956 by T. E. Taylor, USGS.

Kuiu Island: island, 65 miles long, Alexander Archipelago; 56° 35' N, 134° 00' W; BGN 1890; (map 5). Variant: Kou Island, Ostrov Kuyu. Tlingit Indian name published in 1848 as "Ostrov Kuyu," or "Kuyu Island," on Russian Hydrog. Dept. Chart 1396.

Kuiu Lake: lake, see Alecks Lake.

Kuiu Stream: stream, see Alecks Creek.

Kuiuk, Reka: stream, see Koyukuk River.

Kuiukpak Slough: distributary, of Yukon River, extends E-W 10 miles between Kwikluak and Alakanuk Passes, 7 miles SW of Kwiguk, Yukon-Kuskokwim Delta; 62° 43' N, 164° 43' W; (map 77). Eskimo name obtained in 1952 by U.S. Army Corps of Engineers.

Kuiukta Bay: bay, 5 miles across, on S coast of Alaska Peninsula, 24 miles SW of Chignik, Aleutian Range; 56° 00' N, 158° 36' W; (map 27). Variant: Dorai Bay. Aleut name published as "Z[aliv] Kuiukta," or "Kuiukta Bay," by Capt. Tebenkov (1852, map 24) and as "Kuiukta Bay (Dora) Bay" in USC&GS Alaska Coast Pilot (1947, v. 2, p. 291).

Kuiuktalik: locality, on NW shore of Norton Bay near Elim, Seward Peninsula Highlands. Site of an Eskimo village shown on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Kuiuktulik Creek: stream, see Quiktalik Creek.

Kuiuktulik River: stream, flows NE 8.5 miles to Norton Bay, 29 miles NW of Christmas Mountain, Seward Peninsula Highlands; 64° 50' N, 161° 18' W; BGN 1954; (map 96). Variant: Koyuktulik River, Kuiutulik River. Eskimo name reported in 1900 by J. J. Gilbert, USC&GS.

Kuiukuk: locality, "on SE coast of Alaska Peninsula," Aleutian Range Variant: Kuyukak, Wrangell Bay. Former Eskimo camp or settlement reported as "Kuyukak," with a population of 18, by Ivan Petroff in the 1880 Census; listed as "Wrangell Bay," with a population of 62, in the 1890 Census.

Kuiutulik River: stream, see Kuiuktulik River.

Kujulik Bay: bay, 16 miles long, on S coast of Alaska Peninsula, 25 miles SW of Cape Kunmik, Aleutian Range; 56° 35' N, 157° 45' W; (map 31). Variant: Kaiulik Bay, Kiehzulik Bay, Koujulik Bay, Kugulik Bay, Sitkum Bay, Zaliv Kizhulik. Native name shown as "Z[aliv] Kizhulik" on Russian Hydrog. Dept. Chart 1379 in 1847.

Kujulik River: stream, see Kejulik River.

Kujupak: stream, see Koyukuk River.

Kuk River Valley: valley, of Kuk River, S of Wainwright, Arctic Plain; (map 146). Variant: Kuk Valley. Named in 1924 by USGS for the Kuk River.

Kuk River: stream, formed by Avalik and Kaolak Rivers, flows N 35 miles to Wainwright Inlet, 5 miles SE of Wainwright, Arctic Plain; 70° 35' N, 159° 53' W; BGN 1966; (map 146). Variant: Kaolak River, Kee River, Koh River, Kok River, Kong River, Koo River, Koog River, Kook River, Kov River, Ku River, Tutua Wing River. Eskimo name meaning "river." Surgeon John Simpson's native map, 1853, shows "Koh," "Kong," and "Tutua Wing," streams connecting the Colville River with Wainwright Inlet. Lt. Ray (1885, p. 55), USA, records "River at Wainwright's Inlet-Ku." His map, however, shows "Koo River." Published by USC&GS in 1869, as "Kook." U.S. Navy Hydrog. Chart 69, 1892, shows two rivers, one called "Koo" and the other "Kee."

Kuk Valley: valley, see Kuk River Valley.

Kuk, Mys: point of land, see Coke, Point.

Kuk-kan Harbor: bay, see Portlock Harbor.

Kuk: locality, site of Eskimo village on Chukchi Sea coast, at Point Collie, SW of Wainwright, Arctic Plain; 70° 36' N, 160° 07' W; (map 146). Variant: Keogmute, Koo, Koog, Koogmute, Kook, Kunmeum. The 11th Census in 1890 (1893, p. 133) stated, "The Koog river debouches close to the village that bears its name, near Point Collie." This may be the same village with a population of 80 that Lt. Ray (1885, p. 38), USA, recorded as "Kunmeum," "near Wainwright Inlet." The Eskimo word "kuk" means "river," and "kukmiut" means "river people."

Kuka Beach: beach, see Kooku Beach.

Kuka Creek: stream, heads in lake at 61° 21' 15" N, 162° 33' 40" W, flows W 30 miles to Izaviknek River, 14 miles NE of Aropuk Lake, Yukon-Kuskokwim Delta; 61° 21' 35" N, 163° 13' 05" W; (map 74). Eskimo name referring to "its middle" reported by Orth in 1965.

Kuka, Kekur: rocks, see Signals, The.

Kukagruk Mountains: hills, see Kakagrak Hills.

Kukak Bay: estuary, extends SW 10 miles from Kukak Point, on S coast of Alaska Peninsula, in Katmai National Monument, 25 miles E of Mount Katmai, Aleutian Range; 58° 19' N, 154° 06' W; BGN 1925; (map 42). Variant: Baie Koukack, Guba Kukak, Koukak Bay, Kukat Bay, Zaliv Kukak. Eskimo name recorded by the early Russian explorers; published by Sarichev (1826, map 3) as "Guba Kukak."

Kukak Creek: stream, heads in lake, flows N 25 miles to Nigisaktuvik River, 7.5 miles W. of village of Meade River, Arctic Plain; 70° 27' N, 157° 43' W; (map 147). Eskimo name obtained in 1956 at Wainwright by T. E. Taylor, USGS.

Kukak Point: point of land, N point of entrance to Kukak Bay, on S coast of Alaska Peninsula, in Katmai National Monument, 33 miles NE of Mount Katmai, Aleutian Range; 58° 20' 40" N, 154° 05' 35" W; (map 42). Local name reported in 1951 by USGS; named after Kukak Bay.

Kukak Volcano: peak, 6,700 ft., on Alaska Peninsula, in Katmai National Monument, 26 miles NE of Mount Katmai, Aleutian Range; 58° 27' 15" N, 154° 21' 25" W; BGN 1957; (map 42). Variant: Kugak Volcano, Kugat Volcano, Kukak, Mount Kugak. Name reported in 1908 as "Kugak Volcano" by USC&GS. The spelling was changed to agree with that of the bay.

Kukak, Guba: estuary, see Kukak Bay.

Kukak, Zaliv: estuary, see Kukak Bay.

Kukak: locality, on Kukak Point, on S coast of Alaska Peninsula, in Katmai National Monument, 31 miles NE of Mount Katmai, Aleutian Range; 58° 21' 10" N, 154° 06' 10" W; BGN 1925; (map 42). Variant: Koukak, Kugak, Old Kukak, Selenie Kukak. Former Eskimo village reported in 1831 by Ens. Vasiliev; published in 1847 as "Selenie Kukak" on Russian Hydrog. Dept. Chart 1378.

Kukak: locality, on S shore of Kukak Bay, on S coast of Alaska Peninsula, in Katmai National Monument, 29 miles NE of Mount Katmai, Aleutian Range; 58° 19' 05" N, 154° 11' 15" W; (map 42). Variant: Kugak, Kugat, Toujajak. Eskimo village called "Toujajak Village" by von Langsdorff (1814, v. 2, p. 235), and "Kukak," by Ivan Petroff in the 1880 U.S. Census. Its population in 1880 was 37. There is a historical locality of the same name four miles to the NE.

Kukak: peak, see Kukak Volcano.

Kukaklek Lake: lake, 14 miles long, at head of Alagnak River, 40 miles SW of Iliamna Aleutian Range; 59° 10' N, 155° 20' W; (map 51). Variant: Aliknuk Lake. Native name published by Capt. Tebenkov, IRN, on an 1849 map as “Kukaklek Oz[ero],” or “Kukaklek Lake.”

Kukaklek Lake: lake, 3.7 miles across, in Yukon-Kuskokwim Portage, between Arhymot and Kulik Lakes, 26 miles SE of Russian Mission Yukon-Kuskokwim Delta; 61° 39' N, 160° 32' W; (map 73). Variant: Oakakhl, Oknakluk, Ookakhl, Ookaht, Ookakht, Ukak. This Eskimo name was first reported in Russian, by Lt. L. A. Zagoskin, IRN, in 1842-44, as “Ozero Kuka-Klik,” or “Lake Kukaklik.” Although it is shown as a large lake on Kuskokwim-Yukon Portage, its exact identity cannot be determined. R. H. Sargent, USGS, who traversed the portage in 1916, placed the name on the lake immediately south of Kulik Lake, in a location verified by USC&GS in 1949. The U.S. Army Corps of Engineers, however, applied the name to Kukaklik Lake's present location in 1952. Authorities give the Eskimo name with various spellings. They may represent two names for this feature, or confusion in the application of names to the “portage lakes.” Capt. R. W. Raymond, USA, called it “Ookakhl” and “Oakakhl,” in 1869, and W. S. Post, USGS, called it “Oknakluk” in 1898.

Kukaktlik River: stream, flows SW 20 miles to Middle Fork Goodnews River, 29 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 18' N, 160° 51' W; (map 53). Eskimo name reportedly meaning “middle one,” obtained about 1951 at Goodnews by J. M. Hoare, USGS.

Kukaktlim Lake: lake, 1.5 miles across, 12 miles SE of Nagyagat Mountain and 43 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 20' N, 160° 30' W; (map 53). Eskimo name published in 1951 by USGS.

Kukan Island: island, see Sitkalidak Island.

Kukanuwu: locality, “on the mainland, N of Cross Sound,” St. Elias Mountains; (map 10). Former Huna Tlingit camp or settlement reported by J. R. Swanton (in Hodge, 1907. p. 733), BAE.

Kukat Bay: estuary, see Kukak Bay.

Kukchivik Point: point of land, see Kookjilik Point.

Kukeatak River: stream, see Kahkatak Creek.

Kukeatak: point of land, see Beaufort, Cape.

Kukh-du-li: stream, see Kaktuli River.

Kukh-Kan Island: island, see Kutkan Island.

Kukhchiliwikh Point: point of land, see Kookjilik Point.

Kukitiyak Island: island, see Avogon Island.

Kukkan Bay: bay, 1 mile across, on N coast of Herbert Graves Island, 5 miles W of Chichagof, off W coast of Chichagof Island, Alexander Archipelago; 57° 40' N, 136° 14' W; BGN 1926; (map 9). Tlingit Indian name for Portlock Harbor reported by Comdr. H. E. Nichols, USN, in the USC&GS 1891 Coast Pilot (p. 189). At that time he thought that Kakkan Bay was identical to Portlock Harbor, but this was later discovered to be incorrect. The bay was named for a Tlingit Chief, Michael Kukkan, who in 1862 was appointed by the Russian Government to be "Chief Toyon of Koloshi" (Alaska Boundary Tribunal, v. 2, p. 316).

Kukkan Bay: water passage, see Kukkan Passage.

Kukkan Passage: water passage, 2 miles long, along SW coast of Herbert Graves Island, 10 miles WSW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 39' N, 136° 13' W; BGN 1926; (map 9). Variant: Cape Edward Pass, Kukkan Bay. Named in 1926 by USC&GS for Kukkan Bay which it joins; published in 1928 on Chart 8250. Cape Edward Pass was reported as the local name, but was misapplied at the time to another feature.

Kuklik Village: locality, see Kookoolik.

Kukpak: stream, see Kukpuk River.

Kukpayak River: stream, see Kakpeyak River.

Kukpowruk Inlet: water passage, see Kukpowruk Pass.

Kukpowruk Pass: water passage, between Chukchi Sea and Kasegaluk Lagoon, 6 miles S of Point Lay, Arctic Plain; 69° 40' 30" N, 163° 06' 00" W; (map 145). Variant: Keeverleek Inlet, Kivirlik Inlet, Kukpowruk Inlet, Singak Inlet. Eskimo name reported by USC&GS in 1949; named for the nearby Kukpowruk River. This passage is, however, referred to as "Keeverleek [Kivirlik]" meaning "further in" at Point Hope and as "Singak" at Wainwright.

Kukpowruk River: stream, heads in De Long Mountains at 68° 26' N, 162° 30' W, flows N 160 miles to Kasegaluk Lagoon, 9 miles S of Point Lay, Arctic Plain; 69° 37' 30" N, 163° 02' 45" W; BGN Sixth Report; (map 145). Variant: Kookpoowrook River, Kookpowrook River, Kook pow ruk, Kukpowrukuk River, Kupouruk River. Eskimo name listed in 11th U.S. Census of 1890 (p. 133). "At Point Lay a river called Kukpowrukuk enters the largest of these sheets of water [Kasegaluk Lagoon]." The name probably means "fairly large stream [Kukpauraq]" or "a stream [Kugauraq]." The name's earliest published use appears to be in John W. Kelly's "Eskimo Vocabulary," 1885-89, where it is listed as "Kook pow wk."

Kukpowruk: locality, site of Eskimo village on coast of Chukchi Sea, near mouth of Kukpowruk River, 10 miles S of Point Lay, Arctic Plain; 69° 36' 40" N, 163° 00' 00" W; (map 145). Variant: Kookpoowrook River, Kookpowrook River, Kukpowrukuk River, Sing-i-too-rok. In 1884 Brower (1944, p. 25) wrote: "we fairly ran to a village called Kukpowruk on a river of the same name. Nobody was home." In 1918 Archdeacon Stuck (1920, p. 182) referred to a single dwelling called "Sing-i-too-rok," at the mouth of the "Ku-pou-ruk" River. The 11th Census of 1890 (p. 158) lists a population of 52 Eskimo called "Kukpaurungmiut" on the Kukpowruk River.

Kukpowrukuk River: stream, see Kukpowruk River.

Kukpuk River: stream, heads in De Long Mountains at 68° 19' 50" N, 163° 24' 50" W, flows SW and NW 125 miles to E end of Marryat Inlet, 12 miles NE of village of Point Hope, Arctic Slope; 68° 25' N, 166° 22' W; (map 129). Variant: Kookpuk River, Kukpak Kupuk River, Marryat Creek, Tigara River. On September 6, 1826, Capt. Beechey (1831, p. 320), RN, wrote, "We noticed the water, whilst off Marryat Creek to be of very muddy colour, as if some river discharged itself there." Eskimo name "Kukpak" meaning "big river" was published in 1890 by USC&GS as "Kookpuk."

Kukpuk: locality, on S bank of Kukpuk River near Iglupak Creek, 18 miles N. of Cape Thompson, Arctic Slope; 68° 24' 30" N, 165° 55' 15" W; BGN 1963; (map 129). Site of an Eskimo camp reported in 1950 by USC&GS. Named for the river.

Kukritovik Entrance: water passage, see Kuvritovik Entrance.

Kukroak River: stream, see Kugrua River.

Kukruk Creek: stream, flows NW 2.5 miles to Chukchi Sea, 2 miles E of Arrow Creek and 27 miles E of Cape Lisburne, Arctic Slope; 68° 52' 15" N, 165° 08' 40" W; (map 129). Variant: Kookrook Creek. Eskimo name for "creek" reported in 1950 by USC&GS.

Kuktak Island: island, see Kodiak Island.

Kukthluk River: stream, flows SW 3 miles to Pikmiktalik River, 14 miles W of Bethel, Yukon-Kuskokwim Delta; 60° 49' N, 162° 11' W; (map 58). Eskimo name reported in 1949 by USC&GS.

Kuku Creek: stream, see Keku Creek.

Kukuak: locality, see Kokwok.

Kukuak: point of land, see Douglas, Cape.

Kukukpilak Creek: stream, heads in pond in De Long Mountains, flows SE 13 miles to Nimiuktuk River, 30 miles E of Misheguk Mountain, Brooks Range; 68° 17' N, 159° 55' W; (map 131). Eskimo name obtained at Noatak in 1956 by Orth.

Kukuktuk: locality, "on left bank of Kuskokwim River, about 30 miles downstream from Kolmakof," Kilbuck-Kuskokwim Mountains; (map 72). Variant: Kochlogtoggpagamiut, Kokhlokhtokhpagamute. Former Eskimo camp or settlement reported as "Kokhlokhtokhpagamute," with a population of 51, by Ivan Petroff in the 1880 Census: as "Kochlogtoggpagamiut," with a population of 20, in the 1890 Census.

Kukulgit Mountains: mountains, see Kookooligit Mountains.

Kukuliak Cape: point of land, see Kookoolik Cape.

Kukuliak Hill: hill, see Kookoolik Hill.

Kukuliak: locality, "on N shore of St. Lawrence Island"; (map 93). Former Eskimo village reported in 1849 by Capt. M. D. Tebenkov, IRN.

Kukuliak: locality, see Kookoolik.

Kukulik Hill: hill, see Kookoolik Hill.

Kukulik Mound: rocks, see Kitleekot Rocks.

Kukulik: locality, see Kookoolik.

Kukulikhtuk: stream, see Kookooliktook River.

Kukuliktook River: stream, see Kookooliktook River.

Kukwahyekukwo Mountain: mountain, see Four Winds Mountain.

Kul-thee-eth River: stream, see Kaliakh River.

Kulak Point: point of land, S entrance to Tanaga Bay, on SW Tanaga Island, Aleutian Islands; 51° 42' 30" N, 178° 06' 40" W; (map 16). Aleut name published as "M[ys] Kkhulak," or "Cape Kulak," by Capt. Tebenkov (1852, map 28).

Kulchavak River: stream, see Kvichavak River.

Kulebrina: island, see Culebrina Island.

Kulgiakh, Ostrov: island, see Kalgin Island.

Kulgurak Island: barrier island, 3 miles long, in Plover Islands, E of Dease Inlet, 38 miles SE of Barrow, Arctic Plain; 71° 08' 55" N, 155° 02' 30" W; (map 153). Eskimo name probably borrowed from adjacent Kulgurak Point, called Tangent Point on recent maps.

Kulgurak Point: point of land, see Tangent Point.

Kuliak Bay: bay, 4 miles wide, extends NW 5 miles from Cape Kuliak, on S coast of Alaska Peninsula, in Katmai National Monument, 29 miles ESE of Mount Katmai, Aleutian Range; 58° 10' N, 154° 10' W; (map 42). Named in 1919 by R. F. Griggs, National Geographic Society, after Cape Kuliak, its southern entrance point.

Kuliak, Cape: point of land, S point of entrance to Kuliak Bay, on S coast of Alaska Peninsula, in Katmai National Monument, 29 miles SE of Mount Katmai, Aleutian Range; 58° 08' 10" N, 154° 12' 30" W; (map 42). Variant: Mys Kuliak, Mys Kuliakuiak. Eskimo name from the early Russians; published by Capt. Tebenkov (1852, map 22) as "M[ys] Kulyak," also transliterated as "Kukak."

Kuliak, Mys: point of land, see Kuliak Cape.

Kuliakuiak, Mys: point of land, see Kuliak, Cape.

Kulich Rock: rock, see Kulichkof Rock.

Kulichavak River: stream, see Kvichavak River.

Kulichek, Kamen: rock, see Kulichkof Rock.

Kulichivak River: stream, see Kvichavak River.

Kulichkof Bay: bay, see Snipe Bay.

Kulichkof Island: island, 400 ft. long, in Woody Island Channel, 1.2 miles SE of Kodiak, Kodiak Island; 57° 46' 30" N, 152° 23' 00" W; (map 34). Variant: Kulichkoff Island, Ostrov Kulichkov. This is a transliteration by USC&GS in 1869 of the name "Os[trov] Kulichkov," meaning "Wookcock Island," published by Sarichev (1826, map 16).

Kulichkof Island: island, 500 ft. long, off Cape Ugyak, between Kukak Bay and Shelikof Strait, on S coast of Alaska Peninsula, in Katmai National Monument 32 miles E of Mount Katmai, Aleutian Range; 58° 17' 15" N, 154° 05' 50" W; (map 42). Local name reported in 1951 by USGS. Russian name, meaning "snipe," given in 1831 by Ensign Vasiliev.

Kulichkof Rock: rock, 200 ft. across, 6 miles SW of Sitka, off W coast of Baranof Island, Alexander Archipelago; 56° 59' 30" N, 135° 26' 30" W; BGN 1897; Variant: Kamen Kulichek, Kulich Rock, Kulichkoff Island Kulitch Rock, Kulitzkoff Island, Ostrov Kulichkov, Snipe Rock. Named in 1809 by the Russian navigator, Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Kulickkov" [from Kulichok], meaning "snipe island."

Kulichkoff Island: island, see Kulichkof Island.

Kulichkoff Island: rock, see Kulichkof Rock.

Kulichkov, Ostrov: island, see Kulichkof Island.

Kulichkov, Ostrov: rock, see Kulichkof Rock.

Kulichkova Bukhta: bay, see Snipe Bay.

Kulik Lake: lake, 12 miles long, near head of Alaska Peninsula, 45 miles N of Mount Katmai, Aleutian Range; 58° 57' N, 154° 57' W; BGN 1937; (map 42). Variant: Coolic Lake, Coolie Lake. Local name reported in 1923 as Coolic by R. H. Sargent, USGS, and edited to Kulik in 1927.

Kulik Lake: lake, 4.5 miles long, in Yukon-Kuskokwim Portage 19 miles SE of Russian Mission, Yukon-Kuskokwim Delta; 61° 42' N, 160° 42' W; (map 73). Eskimo name published as "Ozero Kulik" by P. Tikhmeniev, in 1861, probably from information given by Lt. L. A. Zagoskin, IRN. Capt. C. W. Raymond, USA, spelled it Koulakh" in 1869. The application of the name "Kulik Lake" appears to be well established. See Kukaklik Lake.

Kulik, Lake: lake, 16 miles long, 4 miles S of Eagle Mountain, in Wood River Lakes, 55 miles N of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 47' N, 158° 58' W; BGN 1937; (map 52). Variant: Ku-lik. Eskimo name shown as “Ku-lik” on a 1910 manuscript map by H. C. Fassett, USBF; the local name “Lake Kulik” was published in 1915 by USGS.

Kuliliak Bay: bay, 2.1 miles across, S coast of Unalaska Island, Aleutian Islands; 53° 26' N, 167° 01' W; (map 23). Variant: Kiliuluk, Kouliliak, Kullilak, Kullilyak. Aleut name published by Lt. Sarichev (1826, map 15, dated 1792), IRN, as “Zaliv Kul-lilyak,” or “Kullilyak Bay.” According to R. G. Geoghegan, this name was derived from the Aleut word “kulilak” meaning “sorrow” or “grief.”

Kulinyemute, Cape: point of land, see Kuliuk, Cape.

Kulitch Bay: bay, see Snipe Bay.

Kulitch Rock: rock, see Kulichkof Rock.

Kulitchok: bay, see Snipe Bay.

Kulitnak: stream, see Holitna River.

Kulitzkoff Island: rock, see Kulichkof Rock.

Kuliug-miut, Cape: point of land, see Kuliuk, Cape.

Kuliugiak: island, see Kulyugayak.

Kuliugmiute, Cape: point of land, see Kuliuk, Cape.

Kuliuk, Cape: point of land, N point of entrance to Uyak Bay, on NW coast of Kodiak Island; 57° 48' 10" N, 153° 55' W; BGN 1890; (map 34). Variant: Cape Kiliugmiut, Cape Kulinyemute, Cape Kuliug-miut, Cape Kuliugmiute, Cape Koulugmut, Kumelmot Point, Kumolmot Point. Eskimo name published as “Cap Koulugmut,” or “Cape of the Kuliuk people,” by Capt. Lutke (1836, p. 276). Name may have been derived from a native village known as “Koloock” located at this point as recorded in 1805 by Lisianski (1814, map facing p. 169).

Kuliukak, Zaliv: bay, see Kulukak Bay.

Kuljkhlugamute: village, see Kwethluk.

Kulkana: stream, see Gulkana River.

Kulkana: village, see Gulkana.

Kullilak: bay, see Kuliliak Bay.

Kullilyak: bay, see Kuliliak Bay.

Kulluk Bay: bay, see Kulukak Bay.

Kulluk: locality, see Kulukak.

Kullukuk Point: point of land, see Kulukak Bay.

Kulmogon Slough: watercourse, in Yukon Delta, extends NE 2 miles from Apoon Pass to Tatlalinguk Pass, 39 miles NE of Kwiguk, Yukon-Kuskokwim Delta; 63° 03' N, 163° 27' W; (map 92). Variant: Kool-mo-gon Slough. Eskimo name obtained in 1952 by USC&GS; means “counting to ten.”

Kulthieth Mountain: peak, 3,437 ft., in Robinson Mountains, 11 miles NW of Cape Yakataga, St. Elias Mountains; 60° 10' N, 142° 40' W; (map 65). Variant: Cultheeth Mountain. See Kultheith River.

Kulthieth River: stream, heads in Robinson Mountains, flows SW 12 miles to Kaliakh River, 18 miles WNW of Cape Yakataga, St. Elias Mountains, 60° 11' 30" N, 142° 53' 30" W; (map 65). Variant: Cultheeth River. Indian name “Cul-theeth” obtained in 1904 by G. C. Martin, USGS, from J. L. McPherson, Deputy U.S. Mineral Surveyor; pronounced “Kul-thee-e' th” according to F. H. Moffitt, USGS.

Kulthieth River: stream, see Kaliakh River.

Kultuk: locality, see Nikishka No. 3.

Kulugra Ridge: ridge, 25 miles long, between Meade River and Shaningarok Creek, 80 miles SE of Wainwright, Arctic Slope; 69° 35' N, 157° 59' W; (map 143). Eskimo name published in 1956 by USGS. This name was originally shown applied to what is now the Meade River on a manuscript map referred to as Cullinghow's map of Cape Lisburne, done by an Eskimo about 1890. P. H. Ray (1885, p. 55), USA, shows “Kulugrua” for the Meade River.

Kulugrua River: stream, see Meade River.

Kuluk Bay: bay, 5 miles across, on NE coast of Adak Island, Aleutian Islands, 51° 52' 30" N, 176° 33' 00" W; BGN 1936; (map 17). Variant: Khulukh Bay. Transliteration by the U.S. Navy Hydrog. Office in 1936 of the Aleut name published by Capt. Tebenkov (1852, map 28), IRN, as “Z[aliv] Khulukh,” or “Khulukh Bay.”

Kuluk Shoal: shoal, N of Kuluk Bay, on NE coast of Adak Island, Aleutian Islands; 51° 55' 05" N, 176° 32' 30" W; BGN 1936; (map 17). Name derived from Kuluk Bay, and given by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

Kulukak Bay: bay, extends NE 8 miles off Bristol Bay, between Kulukak and Right Hand Points, at head of Nushagak Peninsula, Kilbuck-Kuskokwim Mountains; 58° 49' N, 159° 44' W; (map 40). Variant: Kouloukak Bay, Kouloulak Bay, Kulluk Bay, Kululak Bay, Kulukuk Bay, Kululuk Bay, Kulutuk Bay, Zaliv Kuliukak. Eskimo name reported as “Z[aliv] Kuliukak” by Capt. Tebenkov (1852, map 4), IRN.

Kulukak Lake: lake, see Ualik Lake.

Kulukak Point: point of land, E point of entrance to Kulukak Bay, on N shore of Bristol Bay, 44 miles SW of Dillingham, Kilbuck-Kuskokwim Mountains; 58° 50' 30" N, 159° 39' 00" W; (map 40). Variant: Kullukuk Point. Eskimo name reported as "Kullukuk Point" by A. B. Chanz in 11th Census in 1890 (U.S. Bureau of the Census, 1893, p. 91) and reported as "Kulukak Point" in 1953 by USGS.

Kulukak River: stream, flows S 36 miles to Kulukak Bay, 45 miles SW of Dillingham, Kilbuck-Kuskokwim Mountains; 58° 56' N, 159° 44' W; (map 40). Eskimo name reported in 1952 by USGS.

Kulukak: locality, near head of Nushagak Peninsula, on W shore of Kulukak Bay, 43 miles W of village of Clarks Point, Kilbuck-Kuskokwim Mountains; 58° 55' 15" N, 159° 44' 30" W; (map 40). Variant: Kulluk. Former Eskimo village or camp reported in 1880 as "Kulluk," population 65, by Petroff (1884, p. 17); population 83 in 1920; 28 in 1930; and 55 in 1940.

Kulukbuk Hills: mountain, 1,000 ft., on W bank of Holitna River, 26 miles S of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 18' N, 157° 15' W; BGN 1945; (map 72). Eskimo name reported in 1944 by USGS.

Kulukuk Bay: bay, see Kulukak Bay.

Kululak Bay: bay, see Kulukak Bay.

Kululin: locality, see Sinaruruk.

Kululuk Bay: bay, see Kulukak Bay.

Kuluruak: locality, on SE end of Icy Reef, 2.5 miles W of Demarcation Point, Arctic Plain; 69° 41' 30" N, 141° 24' 30" W; (map 138). Eskimo name recorded on Barter Island in 1952 by USC&GS and reported to mean "like a thumb."

Kulutuk Bay: bay, see Kulukak Bay.

Kulvagavik: locality, on W shore of Kuskokwim Bay at mouth of Ishkowik River, 24 miles W of Quinhagak, Yukon-Kuskokwim Delta; 59° 59' N, 162° 45' W; (map 54). Variant: Koolvagavigamiut. Eskimo village reported in 1879 by E. W. Nelson, U.S. Signal Service, as "Koolvagavigamiut," that is, "Kulvagavik people" and published by Ivan Petroff in the 10th Census in 1880. Recent U.S. Geological Survey maps indicate a site with two buildings. Its population in 1880 was 10.

Kulyugayak: island, one of Shumagin Islands, 55° N, 160° W; (map 27). Variant: Koulagayavik Kuliugiak. This name, meaning "round and rocky," was applied by Father Veniaminov (1840, v. 1, p. 255) to one of Shumagin Islands; Capt. Lutke (1836, p. 267) called it "Koulagayakh." The exact location of this island is not known.

Kulyugmyuk: locality, see Kolock.

Kulyukak: lake, see Ualik Lake.

Kumelmot Point: point of land, see Kuliuk, Cape.

Kumikpeyat Creek: stream, flows NE 10 miles to Kivalina River 24 miles NE of Kivalina, Arctic Slope; 68° 04' N, 164° 18' W; (map 130). Variant: Kimickpayaht Koogowranga, Qimiqpayaat Kuugauzanga. Eskimo name reported by E. S. Burch, in 1966, to mean “short ridge.”

Kumisik Point: promontory, see Kumlik, Cape.

Kumlang-Khkak: bay, see Koomlangeelkuk Bay.

Kumlangikhkak Bay: bay, see Koomlangeelkuk Bay.

Kumlik Island: island, 1.5 miles across, S of Alaska Peninsula, 1 mile E of Cape Kumlik and 12 miles SW of Cape Kunmik, Aleutian Range; 56° 38' N, 157° 24' W; (map 31). Variant: Ile Koumlick, Ostrov Kumlik. Native name shown as “I[le] Koumlick” by von Krusenstern (1827, map 20), IRN; published as “O[strov] Kumlick” by Russian Hydrog. Dept. in 1847 on Chart 1379.

Kumlik, Cape: promontory, 2,325 ft., on S coast of Alaska Peninsula, 13 miles SW of Cape Kunmik, Aleutian Range; 56° 39' N, 157° 27' W; (map 31). Variant: Cap Koumlick, Kumisik Point, Mys Kumlik. Native name shown in 1847 as “M[ys] Kumlik,” or “Cape Kumlik,” on Russian Hydrog. Dept. Chart 1379 and as “C[ap] Koumlick” by von Krusenstern (1827, map 20), IRN.

Kumlium: peninsula, see Kumliun, Cape.

Kumliun, Cape: peninsula, extends E 12 miles between Kujulik and Chignik Bays, on S shore of Alaska Peninsula, 24 miles NE of Chignik, Aleutian Range; 56° 30' N, 157° 54' W; (map 31). Variant: Cap Komliouck, Foggy Cape, Koumloun, Koumlune, Kumlium, Kumtiak, Mys Kumliun. Native name published as “C[ap] Komliouck” by von Krusenstern (1827, map 20), IRN, and as “Cape Kumliun” in 1888 by USBF. According to Capt. Lutke (1836, p. 277), IRN, this peninsula may be the Foggy Cape reported by Capt. James Cook, RN, in 1798.

Kumliun, Cape: promontory, see Foggy Cape.

Kumlunak Peninsula: peninsula, on Nelson Island, formed by a bend in Ninglick River, 14 miles NW of Pingo Lake and 105 miles NW of Bethel Yukon-Kuskokwim Delta; 60° 55' N, 164° 55' W; (map 58). Eskimo name reported to mean “thumb” in 1949 by USC&GS.

Kumolmot Point: point of land, see Kuliuk Cape.

Kumthrashibuna Lake: lake, see Kontrashubuna Lake.

Kumtiak: peninsula, see Kumliun, Cape.

Kun River: stream, heads at 61° 54' N, 164° 37' W, flows W 65 miles to Scammon Bay, Yukon-Kuskokwim Delta; 61° 51' N, 165° 37' W; (map 75). Variant: Khun River, Maria Louisa.

W. H. Dall (1870, p. 275) wrote "North of Cape Dyer, a small river, called by Captain [Elijah E.] Smith the ' Maria Louisa River' ('Kun of the Innuit' [Eskimo]), empties into Scammon Bay."

Kuna River: stream, heads in Brooks Range' flows NNE 50 miles to Colville River, 20 miles NE of Liberator Lake; 68° 57' N, 157° 36' W; BGN 1926; (map 132). Variant: Kayatunak. This Eskimo name was given by P. S. Smith and J. B. Mertie, Jr. (1930, map), USGS, because of the many geese seen here. It refers to the lesser snow goose, (*Chen hyperborea* hyperborea), which Gabrielson and Lincoln (1959, p. 137) list in Barrow Eskimo as "Ku-no."

Kunaghak Creek: stream, flows NW 4 miles to Bering Sea, 1 mile S of Ungyat Point and 18 miles S of Gambell, St. Lawrence Island; 63° 31' N 171° 50' W; BGN 1951; (map 93). Variant: Kunaghak River. Eskimo name reported by Lawrence Kulukhan, of Gambell, in 1944.

Kunaghak River: stream, see Kunaghak Creek.

Kunaiugiuk Island: island, see Spectacle Island.

Kunakakvak: village, see Karluk.

Kunakan Island: island, see Sitkalidak Island.

Kunakh: stream, see Kunuk Creek.

Kunarak Creek: stream, flows NW 4.1 miles to Chukchi Sea, 18 miles E of Point Franklin, Arctic Plain; 70° 50' N, 158° 02' W; (map 147). Eskimo name reported in 1950 by USC&GS.

Kunayosh Creek: stream, heads in a swamp, flows SW 9 miles to Gulf of Alaska at Situk, 10 miles SE of Yakutat, Malaspina Coastal Plain 59° 26' 15" N, 139° 33' 00" W, (map 46). Tlingit Indian name reported by Lt. Comdr. Moser (1902, p. 385), USN.

Kung-kaka-lav' n tokhen: lakes, see Kungkaka Lakes.

Kung-uk River: stream, see Buckland River.

Kungagingan: peninsula, see Kungiugan.

Kungealoruk Creek: stream, on Seward Peninsula, flows NE 5.3 miles to Kotzebue Sound, 37 miles NW of Deering, Kotzebue-Kobuck Lowland; 66° 25' N, 163° 50' W; (map 113). Variant: Kungealarook Creek. Eskimo name reported in 1950 by USGS.

Kungiakrok Creek: stream, flows N 8 miles to Noatak River 1.2 miles SE of its junction with Kugururok River, 40 miles NE of Noatak, Brooks Range; 67° 58' N, 161° 52' W; (map 127). Variant: Kaniakhrak Creek. Eskimo name meaning "corral (pen)," obtained in 1956 at Noatak by Orth.

Kungik: locality, see Kangik.

Kungitak Cape: point of land, see Reef Point.

Kungitakh Cape: point of land, see Reef Point.

Kungitk: locality, see Kangik.

Kungkaka Lakes: lakes, group, extends S 5 miles along valley of Martha Creek, 35 miles NE of Hughes, Hogatza Highlands; 66° 21' N, 153° 15' W; (map 116). Variant: Kung-kaka-lav'n-tok-hen. Indian name recorded in 1956 as "Kung-kaka-lav'n-tok-hen" by Orth and reported to mean "lake beneath hill." The name was shortened for cartographic reasons and applied collectively to several lakes in the stream valley.

Kungok River: stream, heads in lake, flows W 26 miles to Kuk River, 12 miles S of Wainwright, Arctic Plain; 70° 29' 30" N, 159° 44' 15" W; (map 146). Variant: Kugok River, Kuguk River. Eskimo name reported in 1923 by Sidney Paige, USGS. The name probably refers to the snow goose (*Chen hyperboreus*).

Kungomovik Creek: stream, see Kongumavik Creek.

Kungsugrug River: stream, an anabranch, flows NW 7 miles to Selawik River, 5 miles NW of Selawik, Kotzebue-Kobuk Lowland; 66° 37' N, 160° 10' W; (map 114). Eskimo name obtained in 1955 by U.S. Army Corps of Engineers.

Kunguk Creek: stream, see Kunuk Creek.

Kunguyoluk Bend: bend, in Kivalina River, 14 miles NE of Kivalina, Arctic Slope, 67° 53' N, 164° 13' W; (map 128). Variant: Koongooyowluk, Kuunguyauluk. Eskimo name reported in 1966 by E. S. Burch.

Kuniguigan: peninsula, SW end of Big Koniuji Island, in Shumagin Islands, Aleutian Range; 55° 02' 30" N, 159° 38' 10" W; (map 27). Variant: Kiganghyne Ile, Kiganin, Kungagingan. Shown as a separate island given the Russian-Aleut name "O[strov] Kungiugan" by Capt. Tebenkov (1852, map 24), IRN. The Russian-French form, "Kiganghyne Ile," was used by Capt. Lutke (1836, p. 267), IRN, for one of the Shumagin Islands, not otherwise identified. "Kungiugan" is described as part of Big Koniuji Island in the USC&GS 1947 Coast Pilot (p. 312).

Kunjeskie: locality, "in SE Alaska;" Variant: Koonjeskie. Former Tlingit settlement reported in 1875 as "Koonjeskie" by H. W. Elliott (Hodge, 1907, p. 736).

Kunk Creek: stream, heads at Kunk Lake, flows E 1 mile to Zimovia Strait, on E coast of Etolin Island, Alexander Archipelago; 56° 17' 00" N, 132° 23' 30" W; (map 6). Variant: Konke Creek. Tlingit Indian name reported in 1901 by Lt. Comdr. J. F. Moser, USN, as "Konke Creek."

Kunk Lake: lake, 1.5 miles long, on NE coast of Etolin Island, Alexander Archipelago; 56° 16' 40" N, 132° 25' 30" W; (map 6). Variant: Konke Lake. Tlingit Indian name reported in 1901 by Lt. Comdr. J. F. Moser, USN, as "Konke Lake."

Kunkhogliak: locality, "on Yukon River, Alaska." Former Eskimo camp or settlement, with a population of 11, reported in 1844 by Lt. L. A. Zagoskin (Petroff, 1884, p. 37).

Kunmeum: locality, see Kuk.

Kunmik, Cape: promontory, 1,376 ft., on S coast of Alaska Peninsula between Yantarni and Amber Bays, Aleutian Range; 56° 46' N, 157° 12' W; (map 31). Variant: Cap Kounkoun. Named "C[ap] Kounkoun" by von Krusenstern (1827, map 20), IRN; published in 1899 as "Cape Kunmik" by USC&GS.

Kunmudlin: locality, see Nuwuk.

Kunneyook: locality, site of Eskimo encampment, on Chukchi Sea coast, about 10 miles S of Icy Cape, Arctic Plain; (map 146). Eskimo name recorded by Archdeacon Stuck (1920, p. 189).

Kunnyu-tanan: island, see Big Koniuji Island.

Kunruk Canyon: canyon, 3 miles long, along Sapumik Creek, 38 miles NE of Kivalina, Brooks Range; 68° 14' N, 163° 47' W; (map 130). Variant: Kownruk, Kuunruq. Eskimo name reported in 1966 by E. S. Burch.

Kunsiniali Point: bluff, elev. 80 ft., on N bank of Naknek River, on Alaska Peninsula, 5 miles E of Naknek, Bristol Bay Lowland; 58° 43' 40" N, 156° 52' 20" W; (map 41). Eskimo name reported in 1952 by USGS.

Kunthrashiboona Lake: lake, see Kontrashibuna Lake.

Kunthrashiboona River: stream, see Tanalian River.

Kunthrashibuna Lake: lake, see Kontrashibuna Lake.

Kunthrashibuna River: stream, see Tanalian River.

Kunujutanany: island, see Big Koniuji Island.

Kunuk Creek: stream, flows W 6.5 miles to Aiautak Lagoon, 8.2 miles NW of Cape Thompson, Arctic Slope; 68° 14' 45" N, 166° 08' 10" W; BGN 1963; (map 129). Variant: Konoo Creek, Konuch Creek, Koongook Creek, Kunakh, Kunguk Creek, Qoonukh Creek. Eskimo name meaning "narrow place" or "neck", referring to the narrow slough at the end of Aiautak Lagoon; reported in 1950 by USC&GS as "Koon-gook." Recorded as "Kunakh" at Point Hope in 1956 by Orth.

Kunuliuk Tanani: island, see Big Koniuji Island.

Kununak: stream, see Lucky Six Creek.

Kunyanak Creek: stream, flows E and SE 18 miles to Natmotirak Creek, 51 miles SW of Howard Pass, Brooks Range; 67° 46' N 158° 27' W; (map 126). Eskimo name reported by USGS in 1956.

Kuogaguruq: locality, area on coast between Singaruak Creek and Ireniviq, 16 miles SW of Barrow, Arctic Plain; 71° 06' N, 157° 09' W (map 153). Eskimo locality or camp name, published by R. F. Spencer (1959, map 2), which probably means “small stream.”

Kuosugru: locality, “inland from Point Barrow,” Arctic Plain; (map 147 or 153). Former Eskimo summer camp reported in 1892 by Sgt. John Murdoch, USA (Hodge, 1907, p. 736).

Kupangumak: stream, see Koopangoomuk Creek.

Kuparuk Mound: pingo, elev. 30 ft., on E side of Fawn Creek, near Beaufort Sea coast, 12 miles SE of Beechey Point, Arctic Plain; 70° 20' N, 148° 40' W; (map 150). Eskimo name given by Leffingwell in 1911 (1919, p. 41) to a pingo which he used as a triangulation station. It was named for the river.

Kuparuk River Delta: delta, 3 miles across, on Beaufort Sea coast, at mouth of Kuparuk River in Gwydyr Bay, Arctic Plain, 70° 25' N 148° 53' W; (map 150). Name reported in 1966 by USGS.

Kuparuk River: stream, heads in lake at 68° 32' N, 149° 12' W, flows N 200 miles to Gwydyr Bay, 8 miles SE of Beechey Point, Arctic Plain 70° 25' 30" N, 148° 52' 00" W, BGN 1949, (map 150). Variant: Kookpakruk River, Koopowra River, Kupaurak River, Kupowra River. Eskimo name shown on a manuscript map drawn in 1901 by S. J. Marsh, prospector, who spelled it Koopowra and which he translated as “big river” [probably kugauraq].

Kupaurak River: stream, see Kuparuk River.

Kupig River: stream, see Kupigruak Channel.

Kupigruak Channel: stream, distributary of Colville River, flows NE 15 miles to Harrison Bay Arctic Plain; 70° 30' N, 153° 23' W; (map 149). Variant: Kupig River. Schrader (1904, map), USGS, gave the name “Kupig River” for this stream. USC&GS reported the present form of the name in 1951. The name probably means “big old river [kugpakruaq].”

Kupik: stream, see Colville River.

Kupluruak Point: point of land, between Ivisaruk and Kuk Rivers, 18 miles S of Wainwright, Arctic Plain; 70° 22' 28" N, 159° 57' 45" W; (map 146). Variant: Kuvlurak. According to the Eskimo at Wainwright in 1965, the name “Kuvlurak,” meaning “thumb,” is applied to the point of land constricting the mouth of the Ivisaruk River S of Neakok Island

Kupolnaia, Gora: mountain, see Cupola Peak.

Kupolnaya, Gora: mountain, see Cupola Peak.

Kupouruk River: stream, see Kukpowruk River.

Kupowra River: stream, see Kuparuk River.

Kupreanof Harbor: anchorage, 1 mile across, between Paul and Jacob Islands, 12 miles E of Stepovak Bay, Aleutian Range; 55° 46' 30" N, 150° 22' 00" W; (map 27). Named by Lt. Woronkofski in 1837, published as "G[avan] Kupreanova," or "Kupreanof Harbor," by Russian Hydrog. Dept. on Chart 1379 (1847).

Kupreanof Island: island, 56 miles long, separated from mainland by Frederick Sound, Alexander Archipelago; 56° 45' N, 133° 30' W; BGN Sixth Report; (map 6). Variant: Kupreanoff Island, Kupreanov Island, Kuprianoff Island, Ostrov Kupreyanova. Published in 1848 on Russian Hydrog. Dept. Chart 1396 as "Os[trov] Kupreyanova." Named for Capt. Ivan Andreevich Kupreanov, Governor of the Russian American Colonies from 1836 to 1840.

Kupreanof Mountain: mountain, 2,440 ft., on Kupreanof Peninsula, on N coast of Kodiak Island 57° 56' N, 153° 05' W; BGN 1909; (map 34). Name derived from Kupreanof Island and given in 1909 by USC&GS.

Kupreanof Mountain: mountain, 2,511 ft., in Bohemian Range, on Kupreanof Island, 19 miles NW of Petersburg and 22 miles ESE of Kake, Alexander Archipelago; 56° 55' 30" N, 133° 24' 00" W; (map 6). Local name recorded in 1948 by USGS.

Kupreanof Peninsula: peninsula, 15 miles long, between Kupreanof Strait and Vickoda Bay, on N coast of Kodiak Island; 57° 55' N, 153° 05' W; (map 34). Name derived from Kupreanof Island and published in 1943 by USC&GS.

Kupreanof Peninsula: peninsula, 20 miles long, forms E shore of Stepovak Bay, on S coast of Alaska Peninsula, Aleutian Range; 55° 45' N, 159° 35' W; (map 27). Published by USC&GS in 1916 Alaska Coast Pilot (v. 2, p. 164).

Kupreanof Point: point of land, on Alaska Peninsula, SE tip of Kupreanof Peninsula, 5 miles E of Stepovak Bay, Aleutian Range; 55° 34' N, 159° 36' W; BGN 1890; (map 27). Variant: Cape Saint John, Cap Ivanovsky, Ivanof, Ivanoff, Kupreanoff Point, Point Kypreia. Name published as "Cap Ivanovsky," or "John's Cape," by Capt. Lutke (1836, p. 269) and as "M[ys] Kupreanova," or "Kupreanof Point," by Russian Hydrog. Dept. on Chart 1379 in 1847.

Kupreanof Strait: water passage, extends NW 22 miles from Whale Island, between Raspberry and Kodiak Islands; 57° 58' N, 153° 00' W; BGN 1901; (map 34). Variant: Karluk Strait, Northern Strait, North Strait, Proliv Karlukskiy, Proliv Syvernoy, Sievernoi Strait. Name derived from Kupreanof Island and published in 1849 by the Russian American Company. Called "Proliv Karlukskiy," or "Karluk Strait," [probably for village of Karluk] in 1839 or 1840 by Sub. Lt. Mikhail Murashev. The descriptive name "Proliv Syvernoy," meaning "Northern Strait," was published by Capt. Tebenkov (1852, map 23).

Kupreanoff Island: island, see Kupreanof Island.

Kupreanoff Point: point of land, see Kupreanof Point.

Kupreanov Island: island, see Kupreanof Island.

Kupreyanova, Ostrov: island, see Kupreanof Island.

Kuprianoff Island: island, see Kupreanof Island.

Kuptagok: locality, "on Agattu Island in Near Islands," Aleutian Islands; (map 13). Former Aleut village reported as "uninhabited" by Hodge (1907, p. 736), BAE.

Kupuk Creek: stream, flows SW 4.5 miles to Hammond River, 7 miles E of Whiteface Mountain and 26 miles N of Wiseman, Brooks Range; 67° 47' N, 150° 08' W; BGN 1932; (map 124). Named in 1930 by Robert Marshall for an Eskimo living at Wiseman.

Kupuk River: stream, see Kukpuk River.

Kuregamut: locality, on right bank of Kuskokwim River, E of mouth of Gweek River, 7 miles NE of Bethel, Yukon-Kuskokwim Delta; 60° 51' 30" N, 161° 34' 30" W; (map 59). Eskimo camp reported in 1951 by USC&GS.

Kurgorak Bay: bay, extends 5 miles SE from Dease Inlet, 37 miles SE of Barrow, Arctic Plain; 71° 02' N, 155° 15' W; (map 153). Eskimo name meaning "a small stream" referring to the creek at its head.

Kuropak Creek: stream, flows S 3.5 miles to Chukchi Sea, E of Telavirak Hills, 11 miles SE of Cape Thompson, Arctic Slope 68° 04' 33" N, 165° 35' 25" W; BGN 1963; (map 129). Variant: Kuropuk Creek, Nayvay Creek. Eskimo name "alluding to a big valley hidden by a narrow mouth" according to W. O. Pruitt, Univ. of Alaska, in 1962.

Kuropuk Creek: stream, see Kuropak Creek.

Kursa, Mys: point of land, see Course Point.

Kursoolah: locality, just NW of Zapadni Point, on SW coast of Saint Paul Island, in Pribilof Islands; 57° 09' 25" N, 170° 21' 30" W, (map 38). Variant: Kursula. A name reported by Elliott (1881, Saint Paul map), USC&GS.

Kursula: locality, see Kursoolah.

Kurtluk River: stream, flows S 6 miles to Togiak Bay, 4 miles SW of Togiak, Kilbuck-Kuskokwim Mountains; 59° 02' N, 160° 28' W; (map 53). Eskimo name published in 1951 by USGS.

Kuruk Creek: stream, in De Long Mountains, flows SW 7 miles, to Kelly River, 22 miles NW of Misheguk Mountain, Brooks Range; 68° 20' N, 161° 59' W; (map 131). Eskimo name obtained by the U.S. Army Corps of Engineers about 1955.

Kurupa Creek: stream, see Kurupa River.

Kurupa Hills: mountains, 4,200 ft., in group 5 miles long, in Brooks Range, 1.5 miles W of Kurupa Lake and 53 miles NE of Howard Pass; 68° 23' N, 154° 48' W; (map 133). Named in 1966 by geologists of BP Exploration Company (Alaska) Inc.

Kurupa Lake: lake, 3 miles long, one of Kurupa Lakes, in course of Kurupa River, Brooks Range; 68° 22' N, 154° 39' W; BGN 1960; (map 133). Named about 1946 by USGS geologists during exploration of Naval Petroleum Reserve No. 4.

Kurupa Lakes: lakes, two, include Kurupa and Cascade Lakes, at head of Kurupa River, Brooks Range; 68° 22' N, 154° 38' W; BGN 1949; (map 133). Named about 1947 by geologists associated with exploration of Naval Petroleum Reserve No. 4, initiated in 1944.

Kurupa River: stream, heads in Brooks Range at 60° 12' N, 154° 32' W, flows N 80 miles to Colville River, 21 miles SW of head of Ikpikpuk River, Arctic Slope; 69° 04' N, 155° 03' W; BGN 1949; (map 142). Variant: Kootcheak River, Kurupa Creek. Eskimo name reported in 1901 by W. J. Peters and F. C. Schrader, USGS. This may be a form of the Eskimo word "Kurugak," meaning "duck."

Kuryukak: stream, see Koyukuk River.

Kusaluck River: stream, see Kushluk River.

Kusalvak Island: island, see Kusilvak Island.

Kuselik Creek: stream, see Itkilyariak Creek.

Kushaluk River: stream, see Kushluk River.

Kushichagat: locality, see Vagitchitchate.

Kushluk River: stream, heads at 60° 35' N, 160° 51' W, flows NW 25 miles to Kwethluk River, 21 miles E of Bethel, Yukon-Kuskokwim Delta; 60° 46' N, 161° 19' W; BGN 1960; (map 59). Variant: Akulikutak River, Kusaluck River, Kushaluk River, Kuskaluk River. Eskimo name reported in 1948 by USC&GS.

Kushluk Slough: stream, see Kuskokuak Slough.

Kushluk: stream, see Kwethluk River.

Kushneaheen Creek: stream, see Kushneahin Creek.

Kushneaheen Lake: lake, see Kushneahin Lake.

Kushneahin Creek: stream, heads at Kushneahin Lake, flows SW 6 miles to Keku Strait, on S coast of Kupreanof Island, 2.5 miles N of Point Barrie, Alexander Archipelago; 56° 28' 20" N, 133° 39' 50" W; (map 6). Variant: Kushneaheen Creek, Kusnaheen Creek. Tlingit Indian name meaning "Kushnea River" reported in 1901 by Lt. Comdr. J. F. Moser, USN.

Kushneahin Lake: lake, 1 mile long, 6.5 miles NE of Point Barrie, on S coast of Kupreanof Island, Alexander Archipelago; 56° 30' N, 133° 31' W; (map 6). Variant: Kushneaheen Lake. Tlingit Indian name meaning "Kushnea River" reported in 1901 by Lt. Comdr. J. F. Moser, USN.

Kushtahcah Lake: lake, see Kushtaka Lake.

Kushtahka Lake: lake, see Kushtaka Lake.

Kushtahka Ridge: ridge, see Kushtaka Ridge.

Kushtahkah Lake: lake, see Kushtaka Lake.

Kushtahkah Ridge: ridge, see Kushtaka Ridge.

Kushtaka Glacier: glacier, trends S 3.5 miles to its terminus 0.6 miles N of Kushtaka Lake, 20 miles NE of Katalla, Chugach Mountains; 60° 24' 30" N, 144° 07' 00" W; (map 64). Local name reported in 1903 by G. C. Martin (1905, p. 17). Name derived from nearby lake.

Kushtaka Lake: lake, 3.5 miles long, at terminus of Kushtaka Glacier, 18 miles NE of Katalla, Chugach Mountains; 60° 23' N, 144° 07' W; (map 64). Variant: Kushtahcah Lake, Kushtahka Lake, Kushtahkah Lake. Indian name reported in 1903 as "Kushtahkah," meaning "demon" or "ghost," by G. C. Martin, USGS. "The natives believe that this lake is inhabited by evil spirits who often make the water boil in the winter or break up the ice. The cause of these phenomena is the escape of coal gas from the bottom of the lake through the water. In winter it accumulates under the ice, with increasing tension till the ice gives way and is sometimes shot into the air."

Kushtaka Ridge: ridge, elev. 1,200 ft., extends 5 miles SW of Martin River Glacier along W side of Kushtaka Lake, 20 miles NE of Katalla, Chugach Mountains; 60° 25' N, 144° 09' W; (map 64). Variant: Kushtahka Ridge, Kushtahkah Ridge. Native name reported in 1903 by G. C. Martin, USGS; name derived from Kushtaka Lake.

Kushutuk: locality, see Kashutuk.

Kusiloak: watercourse, see Kwemeluk Pass.

Kusiloff: mountains, see Kuzilvak Mountains.

Kusilov Mountain: mountains, see Kuzilvak Mountains.

Kusilvak Island: island, one of outer islands of Yukon Delta; Variant: Kusalvak Island. Eskimo name published about 1860. This feature cannot be identified on current maps.

Kusilvak Mountains: mountains, highest elev. 2,400 ft., extend 7 miles along SE shore of Nunavakanuk Lake, 50 miles S of Kwiguk, Yukon-Kuskokwim Delta; 62° 00' N, 164° 34' W; BGN 1966; (map 77). Variant: Ingieguk Ingriguk, Ingun, Kusiloff, Kusilov Mountain, Kusilvak Mountain, Kuzilvak Mountains. Eskimo name reported in 1867 as "Kusilvak" by Dall (1870, p. 232). The plural form of the generic is relatively recent. The Russian maps called it "Ingieguk," undoubtedly the Eskimo name meaning "mountain. "

Kusilvak: locality, "at mouth of Yukon River," Yukon-Kuskokwim Delta; (map 92). Variant: Kusilvak. Former Eskimo camp or settlement reported by Ivan Petroff on an 1880 map.

Kusilvak: watercourse, see Kwemeluk Pass.

Kusilvuk: locality, see Kusilvak.

Kuska: island, see Kiska Island.

Kuskaluk River: stream, see Kushluk River.

Kuskoguak Slough: stream, see Kuskokuak.

Kuskohkkagamiut: locality, see Kuskovak.

Kuskokuak Slough: stream, an anabranch of Kuskokwim River, heads at 60° 52' N, 161° 19' W, flows SW 25 miles, 8 miles E of Bethel, Yukon-Kuskokwim Delta; 60° 48' N, 161° 32' W; (map 59). Variant: Kushluk Slough, Kuskoguak Slough. Eskimo name reported in 1949 by J. M. Hoare, USGS.

Kuskokvagmute: locality, see Kuskovak.

Kuskokvakh Creek: stream, see Kuskokwak Creek.

Kuskokvim, Ryka: stream, see Kuskokwim River.

Kuskokwak Channel Kuskokwim Bay: channel, extends S 10 miles from mouth of Kuskokwak Creek to point 7 miles NW of Quinhagak, Yukon-Kuskokwim Delta; 59° 53' N, 162° 15' W; (map 54). Local name obtained in 1943 by USC&GS; name derived from Kuskokwak Creek.

Kuskokwak Creek: stream, heads at 59° 55' N, 161° 33' W, flows NW 50 miles to Kuskokwak Channel in Kuskokwim Bay, 55 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 02' N, 162° 14' W; (map 58). Variant: Kuckokwak Creek, Kuskokvakh Creek, Kuskovakh Creek. Eskimo name reported in 1914 by USC&GS.

Kuskokwim Bay: gulf, 100 miles wide, extends NE 60 miles from Bering Sea to mouth of Kuskokwim River, bounded on NW by Cape Avinof and on SE by Cape Newenham; 59° 00' N, 163° 00' W; BGN Sixth Report; (map 54). Variant: Kuskoquim Bay, Kouskokvim Bay. Eskimo name obtained by Ustingov [cnna], a Russian who visited the area in 1818. The word "Kuskokwim," according to the Moravian missionary J. H. Kilbuck, is the genitive of "Kuskokwik," the last syllable meaning "river," but the rest of the name is of unknown meaning (Spurr, 1900, p. 73). The name of the bay was derived from the river name.

Kuskokwim Mountains: mountain range, 430 miles long and 50 miles wide, extends NE-SW between Canyon Creek and Chikuminuk Lake on S and Tanana River on N; bounded on SE by Kantishna River, North Fork Kuskokwim River, Kuskokwim River, Holitna River, and Kogrukluk River, and on NW by Kaiyuh Mountains at Sulatna Crossing, Innoko River, Dishna River, Iditarod River, Russian Mountains, and Kilbuck Mountains; 64° 45' N, 151° 30' W [NE end], 60° 10' N, 159° 40' W [SW end]; Variant: Tanana Hills. Reported and defined in 1898 by Spurr (1900, p. 239), USGS. The name was derived from the Kuskokwim River which flows

across the range. Spurr (p. 70) applied the name "Tanana Hills" to the low mountains at the northeast end of what are now the Kuskokwim Mountains. See Kuskokwim Bay.

Kuskokwim River: stream, heads at confluence of its East and North Forks, flows SW 500 miles to Kuskokwim Bay; 60° 05' N, 162° 25' W; BGN 1964; (map 58). Variant: Chin-ana, Kugikukvik River, Kugikukwik River, Ryka Kuskokvim. Eskimo name apparently obtained in 1818 by Ustingov [cnna] and published by Lt. Sarichev (1826, map 3), IRN, as "Ryka Kuskokvim." According to Lt. J. S. Herron, USA, in 1899, the Tanana Indian name for the stream "was Chin-ana, now obsolete except among the old Indians." See Kuskokwim Bay.

Kuskokwim River: stream, see North Fork Kuskokwim River.

Kuskokwim River: stream, see South Fork Kuskokwim River.

Kuskoquim Bay: gulf, see Kuskokwim Bay.

Kuskovak: locality, on right bank of Kuskokwim River, 6 miles SW of Eek Island and 53 miles SW of Bethel, Yukon-Kuskokwim Delta, 60° 07' 30" N, 162° 30' 00" W; (map 58). Variant: Kuskohkagamiut, Kuskokvagmute, Kuskokvakh, Kuskovakh. Eskimo village reported by E. W. Nelson, U. S. Signal Service, who passed near it in January 1879; he spelled the name "Kuskovakh. " Its population in 1880 was 24. This may be the same place listed as "Kuskohkagamiut" in the 11th Census in 1890 with 115 people, but because of another village with a similar name on the left bank of the river, it is difficult to determine which place is meant.

Kuskovakh: locality, see Kuskovak.

Kuskulana Glacier: glacier, trends SW 15 miles from Mount Blackburn to its terminus at head of Kuskulana River, 29 miles NW of McCarthy, Wrangell Mountains; 61° 37' N, 143° 42' W; (map 67). Indian name given in 1900 by T. G. Gerdine, USGS.

Kuskulana Pass: pass, 4,500 ft. , between Kuskulana and Chokosna Rivers, at head of Trail Creek, 15 miles SW of Mount Blackburn and 25 miles NW of McCarthy, Wrangell Mountains; 61° 33' N, 143° 39' W; (map 67). Indian name reported in 1907 by D. C. Witherspoon, USGS (Moffit and Maddren, 1909, pl. 1).

Kuskulana River: stream, heads at Kuskulana Glacier, flows SW 21 miles to Chitina River, 0.4 miles NE of mouth of Nerelna Creek and 73 miles NE of Valdez, Copper River Basin; 61° 28' 00" N, 144° 10' 30" W; (map 68). Ahtena Indian name obtained in 1899 by Oscar Rohn.

Kuskunuk: locality, "on Hooper Bay," Yukon-Kuskokwim Delta; (map 75). Former Eskimo camp or settlement reported in 1899 by E. W. Nelson, U. S. Signal Service.

Kuslina Creek: stream, flows SW 5.5 miles to Copper River, 7 miles N of Chitina and 68 miles ENE of Valdez, Copper River Basin; 61° 36' 55" N, 144° 27' 00" W; (map 68). Ahtena Indian name obtained in 1900 by F. C. Schrader, USGS.

Kusluik: stream, see Fish River.

Kusnaheen Creek: stream, see Kushneahin Creek.

Kussan Point: point of land, on W coast of Prince of Wales Island, in Tuxekan Passage, 25 miles N of Craig, Alexander Archipelago; 55° 50' 25" N, 133° 10' 10" W; (map 4). Indian name recorded in 1949 by USGS.

Kussilof River: stream, see Kasilof River.

Kussilof: village, see Kasilof.

Kussiloff River: stream, see Kasilof River.

Kussiloff, Cape: point of land, see Kasilof, Cape.

Kussilowa River: stream, see Kasilof River.

Kussu Islands: islands, in Naukati Bay on W coast of Prince of Wales Island, 28 miles N of Craig, Alexander Archipelago; 55° 52' 05" N, 133° 10' 15" W (map 4). Indian name published in 1964 by USC&GS.

Kustahekdaan: locality, on Baranof Island, Alexander Archipelago. Former Tlingit Indian camp or settlement reported by J. R. Swanton (in Hodge, 1907, p. 738), BAE.

Kustatan Ridge: ridge, elev. 450 ft., extends S 9 miles from McArthur River, on SW shore of Trading Bay, 30 miles NW of Kenai, Cook Inlet Lowland; 60° 53' N, 151° 50' W; (map 62). Local name reported in 1958 by USGS. Name derived from Tanaina Indian village of Kustatan.

Kustatan River: stream, tributary of McArthur River, flows S 24 miles to Redoubt Bay, 24 miles NW of Kenai, Cook Inlet Lowland 60° 44' N, 151° 50' W; (map 62). Tanaina Indian name published by USFS on a Chugach National Forest map dated 1910. Name derived from village of Kustatan.

Kustatan: village, summer pop. only, on SW coast of West Foreland, 20 miles NW of Kenai Cook Inlet Lowland; 60° 43' N, 151° 45' W, (map 62). Tanaina Indian name published by Petroff (1881, p. 29) in the 10th Census in 1880. "The last syllable, tan, means point or cape."

Kut River: stream, see Kutna Creek.

Kut-tuk-wah Island: island, see Tongass Island.

Kutarlak Creek: stream, flows SW 3 miles to Kogoluktuk River, 39 miles NE of Kobuk Brooks Range; 67° 23' N, 156° 05' W, (map 126). Eskimo name literally meaning "big drop," probably referring to the head-wall at the head of the stream; obtained at Kobuk by Orth in 1956.

Kutchaurak Creek: stream, heads in Brooks Range, flows NNW 35 miles to Etivluk River, 36 miles NE of Howard Pass, Arctic Slope 68° 40' N, 156° 14' W; BGN 1960; (map 132). Variant: Etivolipar Creek. Eskimo name obtained probably in 1949 by USGS.

Kutchik River: stream, flows NE 40 miles to Chandler River 9 miles S of its junction with Colville River, Arctic Slope; 69° 19' 30" N, 151° 26' 00" W; (map 141). Eskimo name used in 1945 by USGS geologists during exploration of Naval Petroleum Reserve No. 4. The name may mean "hip [kutsik]."

Kutchilkag Hill: hill, see Kochilagok Hill.

Kutchiuma Island: islands, see Kutchuma Islands.

Kutchlok: locality, "on Unalaska Island," Aleutian Islands; (map 23). Variant: Ikutchlok. Former Aleut village reported by Coxe (1787, p. 160).

Kutchuma Group: islands, see Kutchuma Islands.

Kutchuma Islands: islands, group 1.3 miles long, 3 miles S of Sitka, off W coast of Baranof Island, Alexander Archipelago; 57° 00' 30" N, 135° 18' 30" W; BGN 1897; (map 9). Variant: Boidarkin Group, Kutchiuma Island, Kutchuma Group, Kutchuma Islets, Ostrov Boydarkin, Ostrov Kuchyuma. This feature was originally called "O[strov] Boydarkin," or "Boydarkin Island," in 1809 by the Russian navigator Ivan Vasiliev the first; Capt. Tebenkov (1852, map 38), IRN, published the name "Ostrov Kuchyuma." This was transliterated about 1882 by USC&GS.

Kutchuma Islets: islands, see Kutchuma Islands.

Kutegi Point: point of land, on E coast of Tuxekan Island, 30 miles N of Craig, Alexander Archipelago; 55° 54' 15" N, 133° 16' 05" W; (map 4). Indian name published in 1964 by USC&GS.

Kutigrarak Creek: stream, see Kugirarak Creek.

Kutkan Island: island, 0.15 miles across, in Galankin Islands, 1 mile S of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 02' 25" N, 135° 19' 30" W; (map 9). Variant: Garden Islet, Gull Island, Kuchkan Island, Kuch-Kan Island, Kukhkan Island, Kukh-Kan Island, Ostrov Stanovoy, Popoff Island, Stanovoi Islet. Named by the Russians for a famous Indian chief who freed his slaves and embraced Christianity (U.S. Coast and Geodetic Survey, 1883, p. 142). It was called "Ostrov Stanovoy" meaning "camp island" in 1809 by the Russian navigator Ivan Vasiliev the first.

Kutkwutlu: locality, see Katkwaahltu.

Kutlakoo Creek: stream, see Kutlaku Creek.

Kutlakoo Lake: lake, see Kutlaku Lake.

Kutlaku Creek: stream, flows NE 0.4 miles to head of Bay of Pillars, on W coast of Kuiu Island, Alexander Archipelago; 56° 37' 10" N, 134° 07' 00" W; (map 5). Variant: Kutlakoo Creek, Point Ellis Creek. Tlingit Indian name reported in 1900 as "Kutlakoo Creek" by Lt. Comdr. J. F. Moser, USN, commander of USBF steamer Albatross.

Kutlaku Lake: lake, 1.2 miles long, just SE of Bay of Pillars, on W coast of Kuiu Island, Alexander Archipelago; 56° 36' 40" N, 134° 08' 00" W; (map 5). Variant: Kutlakoo Lake, Point Ellis Lake. Tlingit Indian name reported in 1900 as "Kutlakoo Lake" by Lt. Comdr. J. F. Moser, USN, commander of USBF steamer Albatross.

Kutloot Island: rock, see South Island.

Kutmiut: locality, site of Eskimo village, on left bank of Kun River, 2.7 miles east of village of Scammon Bay, Yukon-Kuskokwim Delta; 61° 51' N, 165° 30' W; (map 75). Variant: Kutmut, Ku-Henmut. This name is first mentioned by W. H. Dall (1870, p. 275) who wrote "Ten miles from the mouth [of the Kun] is a native settlement known as Kuttenmut." The people at Scammon Bay told Orth in 1965, the name means "people of the Kun," and the name is sometimes used locally for the village of Scammon Bay.

Kutmiut: village, see Scammon Bay.

Kutmuknuk Channel: water passage, extends W from Kwemeluk Pass to Bering Sea, 17 miles NE of Black; 62° 34' N, 165° 08' W; (map 76). Variant: Koot-mahk-nak Channel. Eskimo name from USC&GS in 1898.

Kutmut: locality, see Kutmiut.

Kutna Creek: stream, flows SE and N 7 miles to Twentymile Slough, which flows to Yentna River, 50 miles NW of Anchorage, Cook Inlet Lowland; 61° 48' 35" N, 150° 48' 20" W; (map 70). Variant: Cutnu Creek, Kut River. Tanaina Indian name reported in 1899 by Lt. J. S. Herron, USA, as "Cut-nu," or "Cut [Kut] River."

Kutoark River: stream, see Kutuk River.

Kutokbuna Lake: lake, 1 mile across, in course of Hungry Creek, 3.3 miles NE of Tundra Lake and 60 miles SE of Sleetmute, Lime Hills; 61° 16' N, 155° 34' W; (map 71). Indian name published in 1951 by USGS.

Kuttak River: stream, heads in Kagankaguti Lake, flows SW 25 miles to Kokechik River, 11 miles S of village of Scammon Bay, Yukon-Kuskokwim Delta; 61° 41' N, 165° 35' W; (map 75). Eskimo name reported in 1952 by AMS.

Kutuark River: stream, see Kutuk River.

Kutuk Pass: pass, 3,450 ft., in Endicott Mountains, between head of April Creek to the N and Unakserak and Kutuk Rivers to the S, Brooks Range; 67° 52' N, 153° 58' W; (map 125). Local name reported in 1931 by Robert Marshall.

Kutuk River: stream, heads at 67° 53' N, 153° 49' W, flows SW 30 miles to Alatna River, 24 miles S of Survey Pass, Brooks Range; 67° 31' N, 153° 58' W; BGN 1912; (map 125). Variant: Kootoark River, Kutoark River, Kutuark River. Eskimo name first reported by Stoney (1900, map), USN, in 1886 as "Koo-too-ark" or "Koo-to-ark," but spelled "Kutuk" by P. S. Smith (1913, p. 35), USGS.

Kutuk River: stream, see Pish River.

Kutukhum River: stream, heads at 60° 44' N, 162° 59' W, flows SE 35 miles to Napatuk Creek, 36 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 30' N, 162° 37' W; (map 58). Eskimo name reported in 1949 by USC&GS.

Kutukturok River: stream, see Katakturuk River.

Kutul: locality, on Yukon River, 50 miles upstream from Anvik, Innoko Lowland Variant: Hultulkakut, Khutulkakat. Former Eskimo camp or settlement reported about 1844 as "Khutulkakat" by L. A. Zagoskin, IRN.

Kutulnakht: stream, see Kaiyuk Slough.

Kutulnakt: stream, see Khotol River.

Kutuzof, Cape: promontory, elev. 150 ft., on NW shore of Alaska Peninsula, 24.5 miles NE of Port Moller, Bristol Bay Lowland; 56° 18' N, 160° 20' W; (map 30). Variant: Mys Kutuzova, Cap Koutousoff, Cap Koutouzoff, Cape Kutuzoff, Cap Seniavine. Shown as C[ap] Koutousoff in von. Krusenstern's "Atlas of the Pacific Ocean" (1827, map 20); it was also reported as Cap Seniavine by Capt. Lutke (1836, map 14), IRN. Confusion between the names Kutuzof and Seniavine applied to the same cape was clarified in 1890 by USBF when the name "Cape Seniavin" was applied to a promontory 10 miles to the northeast.

Kutuzoff, Cape: promontory, see Kutuzof, Cape.

Kutuzova, Mys: promontory, see Kutuzof, Cape.

Kutzkatna Creek: stream, heads on Anthracite Ridge, flows SW 1.8 miles to Mudflow Creek, E of Tukmakna Creek, 37 miles NE of Palmer Talkeetna Mountains; 61° 49' 10" N, 148° 05' 45" W, BGN 1932; (map 69). Tanaina Indian name meaning "canyon river" reported in 1932 by a USGS field party.

Kutznou: islands, see Kootzanhoo Archipelago.

Kutznov Inlet: water passage, see Kootznahoo Inlet.

Kuunguyauluk: bend, see Kunguyoluk Bend.

Kuunruq: canyon, see Kunruk Canyon.

Kuvakhselak: point of land, see Koovukseluk Point.

Kuveleek River: stream, see Kivalina River.

Kuveleek: village, see Kivalina.

Kuviak Lake: lake, 0.6 miles long, on Kenai Peninsula, 0.5 miles E of Leaf Lake and 31 miles NE of Kenai, Cook Inlet Lowland; 60° 48' N, 150° 32' W; (map 62). An Eskimo-sounding

name given about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Kuvirok Lake: lake, 2 miles long, E of and drains into Epizetka River, 23 miles SE of Point Lay, Arctic Plain; 69° 31' N, 162° 21' W; (map 145). Eskimo name published by USGS in 1955.

Kuvlomiut: locality, 8 miles SE of Cape Etolin, on NE coast of Nunivak Island; 60° 20' 15" N, 166° 04' 20" W; (map 57). Variant: Kavaloonmiut, Kavlumiut, Koovloomute. Eskimo summer fish camp and winter village reported in 1932 by USC&GS.

Kuvlurak: point of land, see Kupluruak Point.

Kuvritovik Entrance: water passage, on coast of Beaufort Sea, between Arey and Barter Islands, Arctic Plain; 70° 07' N, 143° 47' W; BGN 1961; (map 152). Variant: Kukritovik Entrance. Eskimo name reported by USC&GS in 1952 as "Kuvritovik Ekit," meaning "Kuvritovik entrance (or inlet)."

Kuvritovik: locality, near Barter Island, on coast of Beaufort Sea, Arctic Plain; (map 152). This is the name of a fish camp reported by USC&GS in 1952, although its exact location is not given in the report. See Kuvritovik Entrance.

Kuvuk: stream, see Kobuk River.

Kuyaak, Reka: stream, see Koyukuk River.

Kuyanak Bay: estuary, extends W 5 miles off Admiralty Bay, at mouth of Meade River, 30 miles SE of Barrow, Arctic Plain; 70° 55' N, 156° 05' W; (map 147). Eskimo name obtained in 1956 at Wainwright by T. E. Taylor, USGS.

Kuyemabo, Mys: point of land, see Quemada, Point.

Kuyikanuikpul: locality, on right bank of Yukon River, below Holy Cross, Innoko Lowland; (map 78). Former Eskimo camp settlement reported in 1869 by C. W. Raymond, U.S. Engineers.

Kuyikanuikpul: settlement, see Paimiut.

Kuyu, Ostrov: island, see Kuiu Island.

Kuyuk River: stream, see Koyuk River.

Kuyuk: village, see Koyuk.

Kuyukak: locality, see Kuiuukuk.

Kuyukak: stream, see Koyukuk River.

Kuyuktuvok Creek: stream, flows S 14.5 miles to Dietrich River, 10 miles NNW of Snowden Mountain and 46 miles NW of Chandalar, Brooks Range; 67° 55' 30" N, 149° 50' 00" W; BGN 1939; (map 123). Eskimo name reported in 1939 by Marshall (1956, p. 160).

Kuyukutuk River: stream, heads at junction of its South and West Forks at 61° 52' N, 161° 41' W, flows NW 50 miles to Five Day Slough, 17.5 miles N of Marshall, Yukon-Kuskokwim Delta; 62° 08' N, 162° 10' W; (map 77). Variant: Koyakutuk River. Eskimo name obtained in 1948 by USC&GS.

Kuyungsik River: stream, heads in lake at 61° 29' N, 164° 35' W, flows SW 30 miles to join Aphrewn River, 1.5 miles S of its source, Yukon-Kuskokwim Delta; 61° 22' 30" N, 165° 10' 00" W; (map 75). Eskimo name reported by USC&GS in 1949.

Kuyuyukak, Cape: promontory, on S coast of Alaska Peninsula between Chiginagak Bay and Nakalilok Bay, 16 miles NE of Cape Kunmik, Aleutian Range; 56° 54' N, 156° 50' W; (map 31). Variant: Cap Kouiou-ioukack. Eskimo name published as "C[ap] Kouiouioukack" by Adm. von Krusenstern (1827, map 20), IRN, and as "Cape Kuyuyukak" by USC&GS on an 1899 chart.

Kuzilvak: village, see Kusilvak.

Kuzitrin Flats: flat, trends NE 30 miles from junction of Kougarok and Kuzitrin Rivers, 25 miles SE of Imuruk Lake, Seward Peninsula Highlands; 65° 22' N, 164° 15' W; (map 110). Local name published by Henshaw and Parker (1913, p. 195), USGS.

Kuzitrin Lake: lake, extends E-W 3 miles at head of Kuzitrin River, 15 miles S of Imuruk Lake, Seward Peninsula Highlands; 65° 23' N, 163° 13' W; BGN 1952; (map 110). Reported in 1950 by D. M. Hopkins, USGS. So named by a USGS field party in 1948 because the name "appears in the official station description of Coast and Geodetic Survey Bench Mark 'Kuzitrin,' 2 miles north of the lake * * * [the lake] is used by a few commercial pilots * * * [and] is the source of the Kuzitrin River."

Kuzitrin River: stream, heads in Kuzitrin Lake, 13 miles S of Imuruk Lake, flows W 95 miles to Imuruk Basin, 30 miles SE of Teller, Seward Peninsula Highlands; 65° 10' N, 165° 25' W; BGN 1952; (map 111). Variant: Kassatream, Kassatriem, Kaviavizak River, Koosetrina, Port Clarence River. Eskimo name reported in 1900 by Brooks (1901, pl. 3), USGS.

Kvichak Bay: bay, at head of Bristol Bay, extends NE 45 miles from line between Etoin Point and Goose Point at S entrance of Egegik River to mouth of Kvichak River at Koggiung, Bristol Bay Lowland; 58° 26' N, 157° 54' W; (map 41). Named in 1901 by Lt. Comdr. J. F. Moser, USN, commander of the USBF steamer Albatross. The name was probably derived from the Kvichak River.

Kvichak River: stream, heads in Iliamna Lake, flows SW 50 miles to Kvichak Bay at Koggiung on Alaska Peninsula, 9 miles N of Naknek, Bristol Bay Lowland; 58° 52' N, 157° 03' W; (map 41). Variant: Bristol River, Kvitchak, Reka Kviychak, Riviere Bristol. Eskimo name reported in 1828 by Capt. Lutke (1836, map 14), IRN, as "Riviere Bristol or Kvitchak." The spelling "Kvichak" was given by USBF on an 1888 map.

Kvichak River: stream, see Kvichavak River.

Kvichak: village, on E bank of Kvichak River, on Alaska Peninsula, 17 miles NE of Naknek, Bristol Bay Lowland; 58° 58' N, 156° 56' W; (map 41). Eskimo name “reported by the early Russians” and published in 1898 by USGS. See Kvichak River.

Kvichak: village, see Levelock.

Kvicharak River: stream, see Chelunginik River.

Kvicharak River: stream, see Kwecharak River.

Kvichavak River: stream, heads at 61° 20' N, 161° 28' W, flows SW 40 miles to Johnson River, 30 miles NW of Bethel, Yukon-Kuskokwim Delta; 61° 08' 30" N, 162° 07' 20" W; (map 74). Variant: Ankitaktuk Creek, Izawerknuk River, Kinvichavak, Kritchek River, Kulchavak River, Kulichavak River, Kulichivak River, Kvichak River, Kvichivak River, Kvinchagak River, Kwachuvak River. Eskimo name reported by Lt. L. A. Zagoskin, IRN, in 1842-44 as “R[eka] Kvinchagak.” It is shown, however, as flowing directly to the Bering Sea at about Hazen Bay and thus may refer to another stream. E. W. Nelson, U.S. Signal Service, traveled along the stream in January 1879, and gave the Eskimo name as “Kivvichavak,” from which the present spelling is derived.

Kvichavak River: stream, see Johnson River.

Kvichivak River: stream, see Kvichavak River.

Kvichpak: stream, see Yukon River.

Kvichvauk Pass: watercourse, in Yukon Delta, extends NE 5.8 miles from Apoon Pass to Pastol Bay, 40 miles NE of Kwiguk, Yukon-Kuskokwim Delta; 63° 05' N, 163° 27' W; (map 92). Eskimo name [Kuiguak] meaning “slough” obtained in 1899 by R. L. Faris, USC&GS; published in 1901 on Chart 9372.

Kvieguk River: stream, see Koyuk River.

Kvienkhakg-miut: village, see Koyuk.

Kvigathlogamute: locality, see Kvigatluk.

Kvigathluk: locality, see Kvigatluk.

Kvigatluk: locality, E of Kyigayalik Lake, 26 miles NW of Bethel, Yukon-Kuskokwim Delta, 60° 59' N, 162° 25' W; (map 58). Variant: Kvigathlogamute, Kvigathluk. Site of an Eskimo village or camp visited in January 1879 by E. W. Nelson, U.S. Signal Service, who spelled it “Kvigathlogamute,” that is “Kvigathlok people.”

Kvigmut: locality, see Kwik.

Kvigym Painagmute: locality, see Kolmakof.

Kvikhlyuak, Protok: stream, see Kwikluak Pass.

Kvikhlyuak, Reka: stream, see Kwikluak Pass.

Kvikhlyuak: locality, see Kwikluak.

Kvikhpak, Reka: stream, see Kwipak Pass.

Kvikhpakh: stream, see Yukon River.

Kvinchagak River: stream, see Kvichvak River.

Kvingak: village, see Quinhagak.

Kviougmioute: locality, see Kwik.

Kvitchak: stream, see Kvichak River.

Kviychak, Reka: stream, see Kvichak River.

Kvyguk, Reka: stream, see Koyuk River.

Kvyguk: stream, see Akulik River.

Kvynkhak, Reka: stream, see Koyuk River.

Kvynkhakg-myut: village, see Koyuk.

Kwachuvak River: stream, see Kvichavak River.

Kwahteetah River: stream, see Katete River.

Kwain Bay: bay, 1.2 miles across, on SE coast of Annette Island, Alexander Archipelago; 55° 05' 30" N, 131° 21' 30" W; (map 3). Variant: Khwain Bay. Local navigators' name published in 1917 by USC&GS; reported in 1904 as "Khwain" by H. C. Fassett, USBF.

Kwain Lake: lake, 0.5 miles long, on Annette Island, 1.4 miles SW of Kwain Bay, Alexander Archipelago; 55° 04' 45" N, 131° 24' 15" W; BGN 1917; (map 3). Variant: Khwain Lake. Named in 1917 by USC&GS.

Kwalana: stream, see Foraker River.

Kwatahein Creek: stream, flows W 6 miles to Bay of Pillars, on W coast of Kuiu Island, Alexander Archipelago; 56° 35' 50"N, 134° 14' 00" W; (map 5). Variant: Quat-a-hein. Tlingit Indian name reported in 1900 as "Quat-a-hein Creek," probably from "x' eitahhin," meaning "trout river," by Lt. Comdr. J. F. Moser, commander of USBF steamer Albatross.

Kwati Point: point of land, on NE coast of Tuxekan Island, in Jinhi Bay, 29 miles N of Craig Alexander Archipelago; 55° 53' 15" N, 133° 16' 30" W, (map 4). Indian name published in 1964 by USC&GS.

Kweakpak: locality, in SW Alaska, Yukon-Kuskokwim Delta; (map 74). Variant: Queakhpaghamiut. Former Eskimo camp or settlement listed as "Queakhpaghamiut" in the 1890 Census.

Kwecharak River: stream, heads in a lake, flows NE, then NW 10 miles to Kokechik River, 12 miles S of village of Scammon Bay, Yukon-Kuskokwim Delta; 61° 40' 20" N, 165° 41' 10" W; (map 75). Variant: Kvicharak River, Tellamishuk River. Eskimo name reported in 1951 by USC&GS.

Kweek River: stream, see Knik River.

Kweek-lok-choon: water passage, see Kwiklokchun Channel.

Kweek: village, see Knik.

Kwegamut: locality, see Kwik.

Kwegamy River: stream, see Quigmy River.

Kwegugamiut: village, see Kwiguk.

Kweguk River: watercourse, see Kwiguk Pass.

Kwek River: stream, see Gweek River.

Kwek: locality, see Kwik.

Kweleluk: locality, in SW Alaska, Yukon-Kuskokwim Delta; (map 58). Variant: Quelochamiut. Former Eskimo camp or settlement listed as "Quelochamiut," with a population of 112, in the 1890 Census.

Kwelow River: stream, see Kivalina River.

Kwemeluk Pass: watercourse, 30 miles long, a tributary of Yukon River, S of Kwikluak Pass, Yukon-Kuskokwim Delta; 62° 33' N, 165° 01' W; (map 76). Variant: Kousilvak, Reka Kuimla, Kusiloak, Kusilvak, Naulchi. Eskimo name shown by P. Tikhmeniev as "R[eka] Kuimla" meaning "Kuimla[k] River." The present spelling was recommended by USC&GS in 1898.

Kwethluk River: stream, heads at 60° 05' N, 160° 00' W, flows NW 85 miles to Kuskokuak Slough, 10 miles E of Bethel, Yukon-Kuskokwim Delta; 60° 49' N, 161° 27' W; BGN 1938; (map 59). Variant: Kuethluk, Kushluk, Kwikli, Kwiklimut, Kwikluk, Kwithluk River, Quethluk. Eskimo name shown as "Kwiklimut," meaning "Kwikli (river) people," and "Kwikluk" on an 1898 fieldsheet by W. S. Post, USGS, according to information obtained from J. H. Kilbuck,

Moravian missionary. The present spelling was used by A. G. Maddren (in Brooks, 1915, p. 355), USGS.

Kwethluk: village, pop. 325, on left bank of Kwethluk River E of its junction with Kuskokuak Slough, 11 miles E of Bethel, Yukon-Kuskokwim Delta; 60° 49' N, 161° 26' W; BGN 1938; (map 59). Variant: Kuilkhlogamute, Kuilkluk, Kuljkhlogamute, Kwiklak, Kwithluk, Quithlook. Eskimo village mentioned by Eakin (1914, pl. 1), USGS, who spelled it "Kwiklak." The spelling evolved to "Quithlook" in 1923 and to "Kwethluk" in 1938. Its population was 186 in 1939 and 242 in 1950. The Kwethluk post office was established in 1947 (Ricks, 1965, p. 38). This may be the same village reported in 1879 by E. W. Nelson, U.S. Signal Service, as "Kuilkhlogamute," or "Kuilkhlok people." In the 1880 U.S. Census, Ivan Petroff used Nelson's spelling on his map but spelled it "Kuljkhlogamute" in the text. In 1880, the population of the village was 75.

Kwichlowak Pass: watercourse, in Yukon Delta, extends N 5 miles from Okwega Pass to Pastol Bay, 38 miles NE of Kwiguk, Yukon-Kuskokwim Delta; 63° 07' N, 163° 37' W; (map 92). Variant: Kwikhlowak Pass. Eskimo name [Kuigtluak] meaning "good stream" reported in 1899 by G. R. Putnam, USC&GS.

Kwichpak: stream, see Yukon River.

Kwick River: stream, see Kwik River.

Kwickpack River: stream, see Kwipak Pass.

Kwigalogamute: locality, see Kwigalok.

Kwigalok: locality, on Kuskokwim River, between Tuluksak and Tuklak 40 miles NE of Bethel, Yukon-Kuskokwim Delta; 61° 12' N, 160° 45' W; (map 73). Variant: Kwigalogamute, Kwikagamut, Kwikak, Queekagamut, Quiechochlogamiut. This unidentified place is listed in the 1880 Census, on the right bank of the river, as "Kwigalogmute," having 314 inhabitants. The 1890 Census lists a place in the same area, on the left bank, as "Quiechoehlogamiut," population 65. This may be the same place shown in Russian by P. Tikhmeniev on his 1861 map as "S[eleniye] Kviguglyugmyut."

Kwigamute: locality, see Kwik.

Kwigillingok: village, pop. 344, on W shore of Kuskokwim Bay, 17 miles SW of Kulvagavik 37 miles SW of Kwinhagak, Yukon-Kuskokwim Delta; 59° 51' N, 163° 08' W; BGN 1937; (map 54). Variant: Quigillingok, Quillingok. Eskimo village reported as "Quillingok" on a map in the 1927 Annual Report of the Governor of Alaska. Its population was 146 in 1940 and 245 in 1950.

Kwigluk Island: island, 4 miles long, in Kuskokwim Bay, 5 miles SE of Kipnuk, Yukon-Kuskokwim Delta; 59° 42' N, 164° 00' W; (map 54). Eskimo name obtained in 1951 by USGS.

Kwigomiut: locality, see Ingloothloogramiut.

Kwigorlak: locality, at junction of Big and Kashunuk Rivers, 45 miles W of Marshall, Yukon-Kuskokwim Delta; 61° 48' 30" N, 163° 25' 30" W; (map 74). Eskimo fish camp shown on a manuscript map by "Father Delon," dated 1937; reported by USC&GS in 1949.

Kwiguk Pass: watercourse, in Yukon Delta, ex. tends NW-SE 15 miles between Kwikluak Pass and Norton Sound, Yukon-Kuskokwim Delta; 62° 49' N, 164° 52' W; (map 77). Variant: Kweguk River, Kwikak Pass, Kwikuk Slough. A common descriptive Eskimo name meaning "big stream" reported in 1898 by USC&GS.

Kwiguk: village, pop. 358, on left bank of Kwiguk Pass, 3 miles NNW of Akumsuk, Yukon-Kuskokwim Delta; 62° 45' 30" N, 164° 30' 00" W; (map 77). Variant: Kwegugamiut. Eskimo village reported in 1899 by G. R. Putnam, USC&GS. A post office was established here in 1920.

Kwihcherak: stream, see Goodnews River.

Kwihukhamut: locality, on E shore of Togiak Bay, S of Nunavarchak Lake, 78 miles NE of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 48' N, 160° 05' W; (map 39). Variant: Kwi-huk-ha-mut. Eskimo village or camp shown on a 1910 manuscript map by H. F. Fassett, USBF. It is now abandoned.

Kwik Delta: delta, at mouth of Kwik Stream, between Sudden Stream and Strawberry Island, 21 miles NW of Yakutat, St. Elias Mountains; 59° 47' N, 139° 50' W; (map 46). Name published by Tarr and Martin (1912, p. 30), USGS.

Kwik River: stream, flows SE 27 miles to Norton Bay, 37 miles NW of Christmas Mountain, Seward Peninsula Highlands; 64° 47' N, 161° 40' W; (map 96). Variant: Kuik River, Kwick River, Quick River. Eskimo name meaning "river" reported in 1897 by Lt. D. H. Jarvis, USRCS, as "Kuik."

Kwik River: stream, see Grand Wash River.

Kwik Stream: stream, heads in Hayden Glacier, flows SE 5 miles to Grand Wash, 7 miles NW of Blizhni Point and 25 miles NW of Yakutat, St. Elias Mountains; 59° 54' 00" N, 139° 57' 45" W; (map 46). Variant: Grand Wash. Native name given as "R[eka] Kvik," or "Kvik River," by Capt. Tebenkov (1852, map 7), IRN. The lower part of this stream is called "Grand Wash."

Kwik Stream: stream, see Grand Wash River.

Kwik: locality, at mouth of Kwik River, 3 miles W of Baldhead, on N shore of Norton Bay, Seward Peninsula Highlands; 64° 46' N, 161° 40' W (map 96). Variant: Isaacs, Kuik, Kuikh, Kuikli, Kwikmute, Kvigmut, Kviougmioute, Queekmute, Quick. Site of a former Eskimo village first reported in 1865 by members of Western Union Telegraph Expedition as "Kwikmute." Its population was 30 in 1880.

Kwik: locality, on right bank of Kuskokwim River, W of mouth of Gweek River, 7 miles NE of Bethel, Yukon-Kuskokwim Delta 60° 51' N, 161° 35' W; (map 59). Variant: Kooigamute, Kuigamute, Kwegamut, Kwek Kwigamute. Small Eskimo settlement, now abandoned, listed

by Ivan Petroff in the 10th Census, in 1880, as “Kooigamute” and “Kwigamute” with a population of 215. The name means “river [kuik].”

Kwik: locality, on S coast of Nunivak Island, 2 miles N of Cape Mendenhall, Nunivak Island; 59° 48' N, 166° 05' W; (map 55). Variant: Kweegamute, Kwigamiut. Eskimo village, reported as “Kweegamute” with a population of 43 in the 1890 Census (1893, map) and as “Kwigamiut” (p. 111) according to Hodge (1907, p. 747), BAE.

Kwikagamiut: locality, see Kwikak.

Kwikagamut: locality, see Kwigalok.

Kwikak Pass: watercourse, see Kwiguk Pass.

Kwikak: locality, on Bering Sea coast, 6.5 miles SW of Black, Yukon-Kuskokwim Delta; 62° 16' N, 165° 28' W; (map 76). Variant: Kwikagamiut. This is the site of a village reported by USC&GS in 1898, as “Kwikagamiut,” or “people of Kwikak.”

Kwikak: locality, see Kwigalok.

Kwikh: locality, see Kiwk.

Kwikhlwak Pass: watercourse, see Kwichlowak Pass.

Kwikhpak Pass: stream, see Kwikpak Pass.

Kwikhsak Pass: stream, see Kwikpak Pass.

Kwiklak: village, see Kwethluk.

Kwikli: stream, see Kwethluk River.

Kwiklimut: stream, see Kwethluk River.

Kwikluak: stream, see Kwikluak Pass.

Kwikloaklok: locality, on left bank of Yukon River, 6 miles W of Pitkas Point, 46 miles NW of Marshall, Yukon-Kuskokwim Delta; 62° 03' 40" N, 163° 28' 15" W; (map 77). Eskimo camp reported in 1899 by G. R. Putnam, USC&GS.

Kwiklokchun Channel: water passage, in Yukon Delta, E of Munson Island, extends N-S 2 miles between Kwemeluk and Kwikluak Passes, 17 miles SW of Kwiguk, Yukon-Kuskokwim Delta; 62° 34' N, 164° 52' W; (map 77). Variant: Kweek-lok-choon. Eskimo name meaning “fish saltry” reported in 1952 by USC&GS.

Kwiklokchun: locality, on left bank of Kwikluak Pass, Yukon Delta, 15 miles SW of Kwiguk, Yukon-Kuskokwim Delta; 62° 34' 50" N, 164° 49' 05" W; (map 77). Eskimo settlement or camp reported in 1899 by G. R. Putnam, USC&GS.

Kwiklowak Pass: stream, see Kwikluak Pass.

Kwikltak: stream, see Kwikluak Pass.

Kwikluagamiut: locality, see Kwikluak.

Kwikluak Channel: water passage, in off-shore mud flats between Avogon and Flat Islands, extends NW 9.5 miles from Kwikluak Pass to Bering Sea, Yukon-Kuskokwim Delta; 62° 42' N, 165° 07' W; (map 76). Named for Kwikluak Pass; reported by USC&GS in 1898.

Kwikluak Pass: channel, in Yukon Delta, heads at Head of Passes, flows NW and SW 40 miles to Norton Sound 18 miles SW of Kwiguk, Yukon-Kuskokwim Delta; 62° 35' N, 164° 58' W; (map 77). Variant: American Mouth, Kwikliuak Kwiklowak Pass, Kwikltak, Protok Kvikhlyuak, Reka Kvikhlyuak. Eskimo name published in 1842-44, by Lt. L. A. Zagoskin, IRN, as "Kvikhlyuak," with note in Russian "Krivoy, Izvilistyy," meaning "crooked, meandering." Capt. C. W. Raymond, U.S. Army Corps of Engineers, referred to it as "American Mouth" in 1869.

Kwikluak: locality, on S bank of Kwikluak Pass, Yukon Delta, 12.5 miles SW of Kwiguk, Yukon-Kuskokwim Delta; 62° 36' N, 164° 43' W; (map 77). Variant: Kaoklorokamiut, Kvikhlyuak, Kwikluagamiut. Eskimo village which, according to Lt. L. A. Zagoskin, IRN, in 1842-44, was mentioned in 1832 by Alexander Glazanov. Zagoskin spelled it "Kvikhlyuak." G. R. Putnam, USC&GS, recorded the name "Kaoklorokamiut" in 1899.

Kwikluk: stream, see Kwethluk River.

Kwikmute: locality, see Kwik.

Kwikoktuk Pass: water passage, S of Blind Island, in offshore mud flats, extends NW 4 miles from Avogon Island to Norton Sound, 13 miles SW of Kwiguk, Yukon-Kuskokwim Delta; 62° 40' N, 164° 58' W; (map 77). Variant: Blind Pass, Kui-kohk-tak Pass. Eskimo name reported to mean "blind" (USC&GS, 1949).

Kwikpak Crossing: crossing, at junction of Kwikpak and Apoon Passes, in Yukon Delta, Yukon-Kuskokwim Delta; 62° 55' N, 164° 03' W; (map 77). Riverboat pilots' name for the crossing or bar at the junction of two Yukon tributary channels; name reported in 1899 by USRCS.

Kwikpak Pass: stream, in Yukon Delta, flows NW 50 miles from Head of Passes to Norton Sound, 23 miles N of Kwiguk, Yukon-Kuskokwim Delta; 63° 05' N, 164° 34' W; BGN Sixth Reports (map 92). Variant: Kwickpack River, Kwikhpak Pass, Kwikhsak Pass, Reka Kwikhpak ili Yukkhana. Eskimo name [Kuigpak] meaning "big stream" published by Capt. Tebenkov (1852, map 3) as "Reka Kwikhpak."

Kwikpak: locality, on N bank of Kwikpak Pass, 22 miles N of Kwiguk, Yukon-Kuskokwim Delta; 63° 04' 15 " N, 164° 24' 15 " W; (map 92). Variant: Kwikpakamiut, Old Kwikpakamiut. Eskimo village, now abandoned, reported in 1879 by USC&GS as "Kwikpakamiut," meaning "Kwikpak people." "Kwikpak" is the Eskimo name for one of the major tributary channels of

the Yukon River; it is a name often applied to the Yukon itself. This may be the same as the village of Kwikpuk reported in 1899 by USC&GS at about 62° 40' N, 163° 55' W.

Kwikpak: stream, see Yukon River.

Kwikpakak Slough: watercourse, in Yukon Delta, flows NW 19 miles from Aproka Pass to Kawanak Pass opposite Sea Gull Point, 18.5 miles N of Kwiguk, Yukon-Kuskokwim Delta; 63° 01' N, 164° 22' W; (map 92). Eskimo name [Kuigpakak] meaning “part of (?) the big stream,” according to R. L. Faris, USC&GS, in 1899.

Kwikpakamiut: locality, see Kwikpak.

Kwikpuk River: stream, see Big River.

Kwikpuk: locality, see Kwikpak.

Kwikpukna River: stream, see Big River.

Kwiktalik Mountain: mountain, 1,707 ft., in Kwiktalik Mountains, 13 miles SE of Golovin and 19 miles SW of Elim, Seward Peninsula High; 64° 25' N, 162° 42' W; (map 95). Variant: Quiktalik Mountain. Eskimo name reported in 1900 by W. J. Peters (in Mendenhall, 1901, pl. 20), USGS.

Kwiktalik Mountains: mountain range, trends N-S 11 miles between Golovnin Bay and Norton Bay, 52 miles E of Solomon, Seward Peninsula Highlands; 64° 25' N, 162° 45' W; (map 95). Local name published in 1956 by USGS. The name is derived from Kwiktalik Mountain.

Kwikuk Slough: watercourse, see Kwiguk Pass.

Kwilokuk: locality, “in the Kuskokwim district.” Variant: Quilochugamiut. Former Eskimo camp or settlement listed as “Quilochugamiut,” with a population of 12, in the 1890 Census.

Kwimlithla Slough: watercourse, in Yukon Delta, extends NW-SE 25 miles between Kwikluak and Akularak Passes, 9 miles SW of Kwiguk, Yukon-Kuskokwim Delta; 62° 38' 30" N, 164° 20' 10" W; (map 77). Eskimo name possibly meaning “river without place or camp [kwimlithkok]” obtained in 1899 by G. R. Putnam, USC&GS.

Kwina River: stream, see Kanektok River.

Kwinak: village, see Quinhagak.

Kwinhagak: village, see Quinhagak.

Kwinhagamut: village, see Quinhagak.

Kwiniuk Inlet: lagoon, 6 miles long, on N side of Norton Bay, 13 miles NE of Elim, Seward Peninsula Highlands; 64° 45' N, 161° 50' W; (map 96). Local name reported in 1955 by USGS.

Kwiniuk Mountain: mountain, see Kwiniuk, Mount.

Kwiniuk River: stream, flows NE 43 miles to Norton Bay, at Moses Point, 72 miles NE of Solomon, Seward Peninsula Highlands; 64° 42' N, 162° 02' W; (map 95). Variant: Oweruk Creek, Quinnehuk River, Quinnelhook River. Eskimo name reported as "Quinnehuk" on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. Davidson and Blakeslee applied "Quinnehuk" to a stream to the southwest and applied "Oweruk" to this stream.

Kwiniuk, Mount: mountain, 2,073 ft., on NW shore of Norton Bay, 6 miles SW of Elim, Seward Peninsula Highlands; (map 95). Variant: Haystack Mountain, Kwiniuk Mountain, Quinnehuk Mountain. Eskimo name reported in 1900 as "Kwiniuk Mt." by W. J. Peters (in Mendenhall, 1901, pl. 20), USGS.

Kwinlatah Slough: stream, a distributary of the Oaklee River, flows W 2.7 miles to Controller Bay, 20 miles SE of Katalla, Malaspina Coastal Plain; 60° 02' N, 144° 00' W; (map 64). Variant: Quinlatah Slough. Eskimo name reported by F. H. Moffit (1914, pl. 1), USGS.

Kwinukamut: locality, on E shore of Kuskokwim Bay, 50 miles N of Goodnews, Yukon-Kuskokwim Delta; 59° 50' N, 162° 00' W; (map 53). Name of Eskimo village or camp meaning "Kwinuk people" was published on a 1928 post-route map. The place is now abandoned.

Kwithluk River: stream, see Kwethluk River.

Kwithluk: village, see Kwethluk.

Kwitschak-Sund: gulf, see Bristol Bay.

Kwittevunkud Lake: lake, 2 miles long, 12 miles SE of Christian and 12 miles SW of Burnt Mountain, Yukon Flats; 67° 16' N, 144° 49' W; (map 122). Kutcha-kutchin Indian name; obtained in 1956 by T. E. Taylor, USGS.

Kwiyadik Creek: stream, see Arolik River.

Kwiyadik Creek: stream, see North Mouth Arolik River.

Kwygyschpainagmjut: village, see Quinhagak.

Kyagamiut: locality, on N shore of Duchikthluk Bay, 3 miles N of Cape Mendenhall, Nunivak Island; 79° 51' 45" N, 166° 11' 45" W; (map 55). Variant: Kyagamute. Eskimo fish camp reported in 1942 by the USAAF.

Kyagamute: locality, see Kyagamiut.

Kyak Island: island, see Kayak Island.

Kychchogljuk River: stream, see Ulukuk River.

Kyena Hills: ridge, see Kiana Hills.

Kygane: point of land, see Muzon, Cape.

Kyigialik Lake: lake, see Kayigyalik Lake.

Kyikhgyit, Lake: lake, 0.5 miles long, in Hogatza Flats, W of Twin Lakes, 22 miles NW of Hughes, Hogatza Highlands; 66° 19' 30" N, 154° 39' 00" W; (map 116). Indian name "K' yikh-g' yi-it," reported to mean "between (or among) the birch," recorded at Hughes in 1956 by Orth.

Kykhkat: locality, see Kikhkat.

Kypreia, Point: point of land, see Kupreanof Point.

Kyska Harbor: bay, see Kiska Harbor.

Kyska: island, see Kiska Island.

Kystotank, Mys: point of land, see West Foreland.

Kytlek Island: rock, see South Island.

Kyuatka: island, see Kauatka.

L

L!uxa'caiyik-an: locality, see Tluhashaiyikan.

L' chtinige: cove, see Pyramid Harbor.

L' Kudinaku: stream, see Rosaunt Creek.

La Lakha: rock, see Laja, La.

La Perouse Glacier: glacier, in Glacier Bay National Monument, heads on the S slope of Mount Crillon, trends S 15 miles to the Gulf of Alaska 8 miles NW of Icy Point, 71 miles NW of Hoonah, St. Elias Mountains; 58° 27' N, 137° 17' W; (map 10). Named in 1874 by W. H. Dall, USC&GS, for Jean Francois de Galaup de la Perouse, 1741-1788, a French navigator who explored the coast in this area in 1786. The name was published in the 1883 Coast Pilot (p. 201). La Perouse, a member of the French navy, was sent in 1782 to Canada to attack the British forts on Hudson Bay. In 1785 he was given command of an expedition of exploration by Louis XVI. With two ships, La Boussole and L' Astrolabe, he sailed in 1791 from the Sandwich Islands to the Alaska coast in the neighborhood of Mount St. Elias where he mapped the coast and studied the Indians. While returning to France, La Perouse, his two ships, and crew were lost. Parts of his ships were found in 1827 on Santa Cruz Island in the New Hebrides in the South Pacific.

La Perouse, Mount: peak, 10,728 ft., in Glacier Bay National Monument, 12 miles N of Icy Point, St. Elias Mountains; 58° 34' N, 137° 05' W; (map 10). Named in 1874 by W. H. Dall, USC&GS, for Jean Francois de Galaup de la Perouse. See La Perouse Glacier.

La Spray Creek: stream, flows SE 3 miles, joins Myrtle Creek to form Flambeau River, 18 miles NE of Nome, Seward Peninsula Highlands; 64° 44' N, 165° 08' W; (map 94). Variant: Babylon Creek. Prospectors' name reported in 1904 by T. G. Gerdine, USGS. Shown as "Babylon Cr." on the 1902 "Map of the Nome and Snake River Country" by J. M. Davidson.

Labandera Rock: rock, between Bucareli Bay and Port Santa Cruz, on W coast of Suemez Island, Alexander Archipelago; 55° 17' 00" N, 133° 27' 35" W; (map 4). Variant: La Labandera. Spanish name given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "la Labandera," meaning "the washer-woman."

Labaree Creek: stream, flows N 3 miles to Kuzitrin River, 17 miles NW of Mount Bendeleben, Seward Peninsula Highlands; 65° 13' N, 164° 41' W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Labastida, Isla: island, "one of a small group of islands west of Umnak Island." This name appears on a 1791 map of Bodega y Quadra; probably named by him for his secretary (Wagner, 1937, p. 465).

Label Reef: reef, at mouth of Eagle Bay on S coast of Unalaska Island, Aleutian Islands; 53° 25' 50" N, 166° 57' 35" W; BGN 1939; (map 23). Descriptive name given by USC&GS in 1937 because, "its presence is advertised by breakers at all stages of tide."

Labor Hill: hill, 550 ft., central Kiska Island, Aleutian Islands; 51° 56' 10" N, 177° 22' 25" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Labouchere Anchorage: anchorage, see Highfield Anchorage.

Labouchere Bay: anchorage, see Highfield Anchorage.

Labouchere Bay: bay, extends SW 2 miles to Sumner Strait, 4 miles S of village of Point Baker, on N coast of Prince of Wales Island, Alexander Archipelago; 56° 17' 30" N, 133° 39' 30" W; (map 6). Variant: Labouchere Harbor, Port Labouchere. Named by local traders about 1880 for the Hudson Bay Co. steamer Labouchere.

Labouchere Harbor: bay, see Labouchere Bay.

Labouchere Harbor: cove, see Pyramid Harbor.

Labouchere Island: island, 0.1 miles long, at mouth of Labouchere Bay, 4.5 miles S of Point Baker, on NW coast of Prince of Wales Island, Alexander Archipelago; 56° 17' 35" N, 133° 40' 20" W; BGN 1900; (map 6). Variant: Ship Island. Published in 1891 Coast Pilot (p. 127). "Ship Island" was given to this feature in 1886 by Lt. J. M. Helm, USN.

Labret River: stream, see Tutuksuk River.

Lace Hill: hill, 600 ft., south-central Kiska Island, Aleutian Islands; 51° 56' 25" N, 177° 23' 05" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Lace River: stream, heads at terminus of branch of Meade Glacier, 13 miles S of Snow Top, flows S 19 miles to Berner Bay, 42 miles NW of Juneau, Coast Mountains; 58° 48' 30" N, 134° 59' 30" W; BGN 1965; (map 11). Local name derived from the network of interlocking sloughs near the stream's mouth; reported in 1928 by USFS.

Lacey Island: island, 1,000 ft. long, near head of Cordova Bay, 1 mile E of Jackson Island, Alexander Archipelago; 54° 58' 45" N, 132° 41' 20" W; (map 1). Local name recorded in 1905 by E. F. Dickins, USC&GS.

Lachbuna Lake: lake, 2.5 miles long, at head of Kijik River, 42 miles NE of Nondalton, Alaska Range; 60° 29' N, 154° 01' W; BGN 1910; (map 61). Variant: Ingersol Lake, Lawsbina Lake. Indian name obtained by A. G. Maddren, USGS, in 1902. The "buna" ending means "lake." Early prospectors called it Ingersol Lake.

Lachina: stream, see Lakina River.

Lackie Gulch: ravine, trends SE 1 mile to Osborn Creek, 10 miles NE of Nome, Seward Peninsula Highlands; 64° 34' 30" N, 165° 06' 00" W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Lacuna Glacier: glacier, heads W of Kahiltna Glacier at junction of three branches and trends SW 15 miles to Yentna Glacier, 56 miles NW of Talkeetna, Alaska Range; 62° 41' N, 151° 40' W; (map 81). Mountain climbers' name published in the late 1940's.

Lacy Cove: cove, 0.7 miles across, on N coast of Chichagof Island, 1.4 miles E of Point Lavinia, 33 miles NW of Hoonah, Alexander Archipelago; 58° 13' 10" N, 136° 19' 15" W; (map 10). Local name "for a Mr. Lacy (cnna)," by USFS in 1935.

Lad Hill: mountain, 1,260 ft., center of Kiska Island, Aleutian Islands; 51° 57' 55" N, 177° 29' 53" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Ladanan Creek: stream, flows SE 11 miles to Pegeeluk Creek, 16 miles S of Survey Pass, Brooks Range; 67° 37' N, 154° 16' W; (map 125). A girl's name recorded by USGS in 1956.

Ladd: locality, on NW shore of Cook Inlet at mouth of Chuitna River, 2 miles N of Tyonek, Cook Inlet Lowland; 61° 06' 00" N, 151° 06' 40" W; (map 70). Variant: Chuitna, Ladds, Ladds Station. A former trading post and fishing station on or near the site of an Indian village called "Chuitna," named for a Mr. Ladd (cnna), the operator. The name was in use in 1895. The place served as a base camp for Capt. E. F. Glenn, USA, in 1898. Recent USGS maps indicate a site with one building.

Ladder Island: island, 0.5 miles long, in Kiliuda Bay, on SE coast of Kodiak Island; 57° 18' 30" N, 152° 54' 30" W; BGN 1930; (map 34). Descriptive name given in 1928 by USC&GS "because there was a native's ladder for scaling the cliffs, hanging at the south end of this island."

Ladds Station: locality, see Ladd.

Ladds: locality, see Ladd.

Ladia Rocks: rocks, see Laida Rocks.

Ladron Islands: islands, see Ladrones Islands.

Ladrones Islands: islands, group, extend 2 miles in Trocadero Bay, on W coast of Prince of Wales Island, Alexander Archipelago; 55° 23' N, 133° 05' W; BGN 1922; (map 4). Variant: Islas de Ladrones, Ladron Islands, Robber Islands, Yslas de Ladrones. Name given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Isles de Ladrones," meaning "islands of robbers." This name is "Only found on the maps of the Arteaga expedition of 1779 [in which Quadra and Maurelle took part], but not in the narratives, although thieving Indians in this locality are mentioned by Mourelle [sic]" (Wagner, 1937, p. 395).

Ladue Creek: stream, see Ladue River.

Ladue River: stream, heads 2.5 miles NE of Tetlin Junction, flows E across Alaska-Canada boundary 110 miles to White River in Yukon, Canada, Yukon-Tanana Highlands; 63° 07' 25" N, 140° 22' 20" W; BGN 1954; (map 85). Variant: Ladue Creek, La Due River, West Fork

Ladue River. Presumably named for a prospector, La Due, who wintered on the Yukon in 1884-85.

Lady Hill: hill, 965 ft., 0.5 miles SE of Conquer Point, Kiska Island, Aleutian Islands; 52° 00' 13" N, 177° 29' 43" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Lady Island: island, in Yukon River, N of Burns Island, E of Lady Point, 10 miles SW of Birches, Kokrines-Hodzana Highlands; 65° 03' 45" N, 153° 52' 00" W; (map 107). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the Department of the Interior.

Lady Point: point of land, on N shore of Yukon River, W of Lady Island, N of Chokoyik Island and 11 miles WSW of Birches, Kokrines-Hodzana Highlands; 65° 03' 45" N, 153° 54' 46" W; (map 107). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the Department of the Interior.

Lafayette Glacier: glacier, trends NW 3.5 miles from Unakwik Peak, 4.5 miles SE of College Point and 51 miles W of Valdez, Chugach Mountains; 61° 02' 40" N, 147° 04' 15" W; BGN 1950; (map 69). Named in 1947 by Douglas Brown for Lafayette College, Easton, Penn., founded in 1826.

Lagartos, Rio de: stream, see Bering River.

Lagoma Bay: bay, 0.5 miles wide, on N shore of Roller Bay, W coast of Noyes Island, Alexander Archipelago; 55° 31' 35" N, 133° 43' 30" W; BGN 1923; (map 4). Variant: Gum Bay. Spanish name meaning "the gum," given in 1923 by USC&GS "because the topographic station here is called Gum."

Lagoon Creek: stream, flows SE 1 mile to lagoon on Bering Sea, 1.3 miles E of Tin City and 49 miles NW of Teller, Seward Peninsula Highlands; 65° 33' N, 167° 54' W; (map 111). Variant: Ocean Creek. Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Lagoon Creek: Stream, flows SW 3 miles to Landlocked Bay, 35 miles NW of Cordova, Chugach Mountains; 60° 51' 30" N, 146° 31' 00" W; (map 64). Local name reported in 1912 by Capps and Johnson (1915, pl. 1), USGS. So called because of the lagoonlike head of Landlocked Bay.

Lagoon Creek: stream, on S coast of Alaska, flows SE 3 miles to Harrison Lagoon, 21 miles NE of Whittier, Chugach Mountains; 60° 59' 40" N, 148° 12' 00" W; (map 63). Local name reported in 1951 by USGS.

Lagoon Creek: stream, see Boulder Creek.

Lagoon Creek: stream, see Ocean Creek.

Lagoon Island: island, 0.3 miles across, off E shore of Bartlett Cove near S entrance to Glacier Bay, 5.6 miles NE of Point Gustavus and 54 miles WNW of Juneau, St. Elias Mountains; 58° 27' 30" N, 135° 52' 15" W; BGN 1962; (map 11). Local name published in 1948 by USGS.

Lagoon Lake: lagoon, see Salt Lagoon.

Lagoon Point: point of land, on N coast of Sitkalidak Island, between Port Hobron and McDonald Lagoon, SE of Kodiak Island; 57° 11' 15" N, 153° 04' 00" W; (map 34). Descriptive local name; published in 1943 by USC&GS.

Lagoon Point: point of land, on N shore of Nelson Lagoon, 22 miles W of village of Port Moller, on Alaska Peninsula, Bristol Bay Lowland; 56° 00' 35" N, 161° 07' 00" W; (map 28). Variant: Cap Rojnoff, Rozhnof. Named in 1882 by W. H. Dall, USC&GS. This is possibly the same as "Cap Rojnoff (Rozhnof)" of Capt. Lutke (1836, p. 261). Shown as "Lagoon Point" on 1890 USBF chart.

Lagoon Rookery: rookery, on N shore of Village Cove, on S coast of Saint Paul Island, in Pribilof Islands; 57° 08' N, 170° 17' W; (map 38). Local name for a seal rookery reported by Elliott (1881, p. 5152).

Lagoon, The: estuary, 0.7 miles wide, at E end of Galena Bay, 40 miles NW of Cordova, Chugach Mountains; 60° 57' 30" N, 146° 33' 30" W; (map 64). Local name reported in 1912 by S. R. Capps and B. L. Johnson (in Brooks and others, 1913, pl. 4), USGS.

Lagoon, The: lagoon, 0.4 miles long, on E shore of Yakutat Roads, 0.6 miles NW of Yakutat, Malaspina Coastal Plain; 59° 33' 30" N, 139° 44' 45" W; (map 46). Local name reported in 1964 (de Laguna and others, map 4).

Lagoon: locality, mile 343.7 on The Alaska Railroad, 12 miles S of Healy, Alaska Range; 63° 41' N, 148° 52' W; BGN 1945; (map 87). Name of a railroad station reported by The Alaska Railroad on its 1922 timetable.

LaGorce Glacier: glacier, trends N 2 miles to its terminus, 6 miles S of junction of Bremner and Wernicke Rivers, 38 miles N of Katalla, Chugach Mountains; 60° 45' N, 144° 29' W; (map 64). Named in 1910 by Lawrence Martin for John O. LaGorce, 1880-1959, National Geographic Society.

LaGorce, Mount: mountain, 3,315 ft., on N shore Iliuk Arm Naknek Lake, on Alaska Peninsula in Katmai National Monument, 27 miles NW of Mount Katmai, Aleutian Range; 58° 33' 20" N, 155° 29' 15" W; BGN 1925; (map 42). Named in 1919 by R. F. Griggs, National Geographic Society, for John Oliver LaGorce, 1880-1959, of the National Geographic Society.

Lahach-tak: locality, see Chilkat.

Laida Point: point of land, see Nemo Point.

Laida Rocks: rocks, at tip of Kupreanof Peninsula on N coast of Kodiak Island; 58° 00' 05" N, 153° 17' 30" W; BGN 1966; (map 43). Variant: Ladia Rocks, Rocky Reef Point. This name is a partial transliteration by USC&GS of the name "M[ys] Kamenistoy Laidy," meaning "Cape Rocky Reef," given by Sub. Lt. Murashev, IRN, in 1839 or 1840 and published by the Russian Hydrog. Dept. on Chart 1425 in 1849. The Russian word "laida," meaning "bank" or "shoal," was published for this feature by Capt. Tebenkov (1852, map 7), IRN.

Laida Slough: lagoon, 1.5 miles long, on W coast of Kenai Peninsula, 1.5 miles NW of village of Anchor Point, 15 miles NW of Homer, Cook Inlet Lowland; 59° 48' N, 151° 51' W; (map 50). Local name reported by USGS or USC&GS in the 1940's.

Laida Spit: spit, on W coast of Kenai Peninsula, 1.5 miles NNE of village of Anchor Point and 15 miles NW of Homer, Cook Inlet Lowland; 59° 48' N, 151° 51' W; (map 50). Local name reported by USGS or USC&GS in the 1940's.

Laida: locality, see Kasnatchin.

Laidennoj: locality, see Kasnatchin.

Laidennoj: spit, see Anchor Point.

Laja, La: rock, or small island near San Fernando Island, Prince of Wales Island, Alexander Archipelago. Variant: La Lakha. Named by F. A. Maurelle and Don Juan de la Bodega y Quadra in 1779. Laja is a Spanish word for a "thin flat stone."

Lake Bay Creek: stream, heads at Barnes Lake, flows NE 1 mile to Lake Bay, on NE coast of Prince of Wales Island, Alexander Archipelago; 56° 01' 20" N, 132° 55' 30" W; BGN 1915; (map 6). Named in 1914 by E. Lester Jones, USBF.

Lake Bay: bay, 3 miles across, at S end of Kashevarof Passage, on NE coast of Prince of Wales Island, Alexander Archipelago; 56° 03' N, 133° 53' W; BGN 1915; (map 6). Local name reported by Lt. Comdr. J. F. Moser, USN, Commander of the USBF steamer Albatross.

Lake Bay: cove, trends NE 3 miles to Chignik Bay, 5 miles E of Chignik, Aleutian Range; 56° 18' N, 158° 17' W; (map 30). Name reported in 1923 by R. H. Sargent, USGS; published in 1927 by USGS.

Lake Bay: estuary, on S coast of Esther Island, extends SE 1.5 miles to Wells Passage, 22 miles E of Whittier, Chugach Mountains; 60° 47' 15" N, 148° 04' 15" W; (map 63). Local name reported in 1952 by USGS.

Lake Bay: locality, on E shore of Lake Bay Creek on NE coast of Prince of Wales Island SE of Stevenson Island, Alexander Archipelago; 56° 01' 00" N, 132° 55' 30" W; (map 6). This is the site of an abandoned fishing village; shown as an abandoned cannery on current maps. In 1890 the U.S. Census Bureau (1893, p. 29) reported this fishing station to be one of the best on Prince of Wales Island; concerning the population, it was reported that "There is a settlement here usually of about 50 natives and half a dozen white men during the fishing season, but it is wholly abandoned in the winter months." A post office operated here from 1911 to 1921 (Ricks, 1965, p. 38).

Lake Clark Pass: pass, 1,000 ft., NE of Summit Lake, 50 miles WNW of Kenai, Aleutian Range; 60° 49' N, 152° 44' W; (map 62). Local name reported in 1959 by USGS. "So named because it is a pass through the Aleutian Range from Cook Inlet to Lake Clark."

Lake Clark Villages: locality, see Kijik.

Lake Creek: stream, 3.5 miles long, flows NE to Fork Creek, 29 miles W of Chikuminuk Lake and 73 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 11' N, 160° 00' W; BGN 1959; (map 59). Local name reported in 1956 by USGS.

Lake Creek: stream, flows 10 miles N to Hanagita River W of Hanagita Lake, 33 miles SW of McCarthy, Chugach Mountains; 61° 15' 00" N, 143° 49' 45" W; (map 67). Local name reported in 1911 by D. C. Witherspoon, USGS.

Lake Creek: stream, flows 4 miles SE to Auke Lake, 1.2 miles NE of village of Auke Bay and 10 miles NW of Juneau, Coast Mountains; 58° 23' 30" N, 134° 38' 00" W; (map 11). Local name published by Knopf (1912a, pl. I), USGS.

Lake Creek: stream, flows NW 2 miles to Tisuk River, 18 miles E of Cape Douglas and 39 miles NW of Nome, Seward Peninsula Highlands; 64° 59' N, 166° 05' W; (map 94). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Lake Creek: stream, flows NW 5.5 miles from Squaw Lake to North Fork Chandalar River, 11 miles N of Chandalar, Brooks Range; 67° 39' 30" N, 148° 23' 45" W; (map 123). Prospectors' name shown on an 1899 fieldsheet by T. G. Gerdine, USGS.

Lake Creek: stream, flows NW 6 miles to Nizina River, 10 miles SE of McCarthy, St. Elias Mountains; 61° 22' 33" N, 142° 38' 30" W; (map 67). Name used by prospectors and shown on a map of the Nizina Mining District, dated 1902, by George M. Esterly of Valdez.

Lake Creek: stream, flows NW then SW 29 miles to Coleen River, 11 miles WNW of Rabbit Mountain and 33 miles N of Coleen Mountain, Brooks Range; 67° 35' N, 142° 38' W; (map 121). Local name reported in 1956 by T. E. Taylor, USGS.

Lake Creek: stream, flows SE 5.5 miles to an oxbow lake of North Fork Kuskokwim River, 26 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 18' N, 153° 59' W; (map 89). Local name reported in 1958 by USGS.

Lake Creek: stream, flows SE 6 miles to Susitna River, 80 miles SE of Healy, Alaska Range; 63° 01' 15" N, 147° 22' 00" W; (map 87). Prospectors' name shown on a 1910 fieldsheet by D. C. Witherspoon, USGS; published by Moffit (1912, pl. 1).

Lake Creek: stream, flows SW 2.5 miles from N of Mathews Dome to Wild Lake, 6.5 miles N of junction of Flat Creek and Wild River, Brooks Range; 67° 28' 30" N, 151° 35' 00" W; (map 124). Local name shown on an 1899 fieldsheet by T. G. Gerdine, USGS.

Lake Creek: stream, flows SW 4 miles through a lake to Helpmejack Creek, 60 miles SSE of Survey Pass, Brooks Range; 67° 02' N, 153° 33' W; (map 125). Local name reported by Orth, USGS, in 1956.

Lake Creek: stream, flows SW to Turner Creek which flows to Noxapaga River, about 30 miles SW of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Lake Creek: stream, heads at Chelatna Lake, at 62° 26' 30" N, 151° 24' 00" W, flows SE 50 miles to Yentna River, 58 miles NW of Anchorage, Cook Inlet Lowland; 61° 54' 25" N, 150° 54' 25" W; BGN 1911; (map 70). Variant: Mantalik Creek, Mentalik Creek. Prospectors' name reported by Sidney Paige and Adolph Knopf (in Brooks and others, 1906, p. 119), USGS. W. S. Post, USGS, reported in 1898 the Tanaina Indian name for this stream as "Mentalik."

Lake Creek: stream, heads in a lake, flows W 5 miles to Tatondan Lake 39 miles NE of Palmer, Chugach Mountains; 61° 46' 25" N, 147° 58' 55" W; (map 69). Local name reported in 1952 by USGS.

Lake Creek: stream, heads in Canada near boundary monument 30, flows SW 19 miles to Unuk River, 12 miles NE of head of Burroughs Bay, Coast Mountains; 56° 08' N, 130° 58' W; (map 7). Local descriptive name published in 1951 by USGS.

Lake Creek: stream, heads in Lake Nancy, flows SE 7 miles to Little Susitna River, 29 miles N of Anchorage, Cook Inlet Lowland; 61° 37' 30" N, 149° 56' 15" W; (map 69). Local name reported in 1942 by AMS.

Lake Creek: stream, heads in Wonder Lake, flows NNW 2 miles to Moose Creek, Alaska Range; 63° 31' 00" N, 150° 54' 25" W; (map 88). Local name reported in 1932 by USGS.

Lake Creek: stream, see Lone Creek.

Lake Creek: stream, see Sapsuk River.

Lake Dune: dune, 77 ft., on NE coast of Saint Paul Island, in Pribilof Islands; 57° 13' 25" N, 170° 08' 10" W; (map 38). Descriptive name reported by W. W. Duffield, USC&GS, in 1897.

Lake Fork Crescent River: stream, flows S 10 miles to Crescent Lake, 70 miles NE of Nondalton, Aleutian Range; 60° 24' N, 153° 01' W; (map 61). Local name reported in 1958 by USGS.

Lake Fork Crescent River: stream, flows SE 20 miles through Crescent Lake, joins North Fork to form Crescent River, 53 miles SW of Kenai, Aleutian Range; 60° 21' 20" N, 152° 44' 40" W; (map 62). Local name reported in 1959 by USGS.

Lake Fork Knik River: stream, heads in Upper Lake George, flows N 11.5 miles to join Glacier Fork to form Knik River, 20 miles SE of Palmer, Chugach Mountains; 61° 25' 30" N, 148° 37' 30" W; (map 69). Local name reported in 1960 by USGS.

Lake Fork Paint River: stream, flows SE 4 miles to Paint River, 8 miles NE of Akjemguiga Cove, 39 miles SW of Augustine Island, Aleutian Range; 59° 11' N, 154° 28' W; (map 51). Local name reported by K. F. Mather, USGS, in 1923 (in Brooks and others, 1925, pl. 3).

Lake Fork Sadlerochit River: stream, see Carnivore Creek.

Lake Fork Sadlerochit River: stream, see Kekiktuk River.

Lake George Glacier: glacier, trends N 14 miles to its terminus at a stream which drains into Upper Lake George, 42 miles E of Anchorage, Chugach Mountains; 61° 10' 45" N, 148° 37' 40" W; (map 69). Local name reported in 1960 by USGS.

Lake Hill: hill, 282 ft., on central Saint Paul Island, in Pribilof Islands; 57° 10' 40" N, 170° 14' 50" W; (map 38). A local name published in 1875 by USC&GS; so called because a small lake is located at its foot.

Lake Kenai: locality, see Primrose.

Lake Minchumina: village, pop. 30, on NW shore of Lake Minchumina, Tanana Lowland; 63° 53' N, 152° 19' W; (map 88). Variant: Minchumina. This is the location of an airfield, Indian village, and store. A post office was established in 1930.

Lake Point: point of land, on N shore of Kvichak Bay at mouth of Supply Creek, 29 miles W of Naknek, Bristol Bay Lowland; 58° 41' 55" N, 157° 47' 30" W; (map 41). Local name published in 1965 by USGS.

Lake Point: point of land, on SW coast of Adak Island, Aleutian Islands; 51° 37' 40" N, 176° 59' 00" W; BGN 1936; (map 17). Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934, "because of the numerous lakes back of the point."

Lake Point: point of land, see Aiak, Cape.

Lake Point: point of land, see Lance Point.

Lake River: stream, see Karta River.

Lakekta Point: point of land, 0.15 miles long, E shore of Revillagigedo Channel, Coast Mountains; 54° 51' 30" N, 130° 57' 00" W; BGN 1937; (map 2). Local name published in 1943 by USC&GS.

Lakeshore Cone: hill, 585 ft., W of Fenner Lake on Semisopochnoi Island, Rat Islands, Aleutian Islands; 51° 57' 40" N, 179° 37' 25" E; BGN 1952, (map 15). So named in 1950 by USGS "because of the proximity to Fenner Lake."

Lakeside Point: point of land, 5.5 miles NW of Naga Point, on central Kanaga Island, Aleutian Islands; 51° 50' N, 177° 12' W; (map 17). Name published by USC&GS in 1957 on Chart 9193.

Lakeside Roadhouse: roadhouse, along The Alaska Railroad, on W side of Bear Lake, Kenai Peninsula, 7 miles N of Seward, Chugach Mountains; 60° 12' N, 149° 22' W; BGN 1910 vacated 1966; (map 63). Local name reported in 1909 by Grant and Higgins (1910, pl. 2), USGS.

Lakeview: locality, on Kenai Peninsula, at E end of Kenai Lake, mile 20.0 on The Alaska Railroad, 16 miles N of Seward, Chugach Mountains; 60° 21' 15" N, 149° 21' 20" W; BGN 1945; (map 63). Variant: Kenai. Name of a stop on The Alaska Railroad listed in the timetables of 1927.

Lakina Lake: lake, 0.5 miles long, 5 miles SW of Long Lake and 18.5 miles SW of McCarthy, Wrangell Mountains; BGN 1966; 61° 20' 40" N, 143° 27' 00" W; (map 67). Name used by local airplane pilots, because of its proximity to the river of that name; reported in 1965 by L. A. Yehle, USGS.

Lakina River: stream, flows SW 25 miles from Lakina Glacier terminus to Chitina River, 23 miles SW of McCarthy, Copper River Basin; 61° 19' 30" N, 143° 34' 00" W; (map 67). Variant: Lachina. Oscar Rohn (1900, p. 406) spelled the Indian name "Lachina" in 1899.

Lakloey Hill: hill, 700 ft., SE of Badger Road, 5.5 miles E of Fairbanks, Tanana Lowland; 64° 49' 30" N, 147° 30' 30" W; (map 100). Local name reported in 1950 by USGS topographers.

Lakso Slough: stream, anabranch, flows SW 0.8 miles to Khotol River, 4.3 miles SW of Fall Camps Lake, 32 miles SE of Nulato, Koyukok Lowland; 64° 17' N, 158° 25' W; (map 97). Variant: Takuzatolatlna. Appears to be a translation of an Indian name; reported in 1935 by Frederica de Laguna, BAE.

Lamande Creek: stream, flows NW 1 mile to Discovery Creek, 22 miles NW of Solomon, Seward Peninsula Highlands; 64° 51' N, 164° 45' W; (map 95). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Lamb Creek: stream, heads in Canada, flows NW, across Alaska-Canada boundary, 5 miles to Baultoff Creek, in Nutzotin Mountains, 6 miles NE of Braye Pass, Alaska Range; 62° 05' 28" N, 141° 01' 38" W; (map 84). Local name reported in 1959 by USGS.

Lamb Island: island, 0.5 miles across, off mouth of Afognak Bay, 3.5 miles NE of Afognak, on S coast of Afognak Island; 58° 02' 35" N, 152° 41' 40" W; (map 43). Local name reported in 1900 by Lt. Comdr. Moser, USN, commander of the USBF steamer Albatross.

Lambda Rock: rock, 0.1 miles across, in Maurelle Islands, 0.6 miles S of Twin Islands, Alexander Archipelago; 55° 38' 35" N, 133° 40' 00" W; (map 4). Named in 1925 by USC&GS; derived "from the 11th letter of the Greek alphabet."

Lame Creek: stream, flows SE 1.6 miles to Lazy Creek, center of Kiska Island, Aleutian Islands; 51° 56' 20" N, 177° 25' 51" E; (map 14). Variant: Coffee Creek. An arbitrary name beginning with "L" to correspond to "L" grid used by U.S. Army for tactical purposes during World War II; published on a 1953 AMS map. Variant published on a 1943 USAAF map.

Lame Hill: hill, 1,600 ft., SW end of Russian Ridge, in center of Kiska Island, Aleutian Islands; 51° 57' 30" N, 177° 22' 13" E; (map 14). Variant: Russian Ridge. An arbitrary name beginning with "L" to correspond to "L" grid used by U.S. Army for tactical purposes during World War II; published on a 1953 AMS map. Variant published on a 1943 USAAF map.

Lamna Lake: lake, see Iliamna Lake.

Lamont Slough: watercourse, in Yukon Delta, extends NW-SE 5.6 miles between Sunshine Bay and Kwikluak Pass, 1.5 miles S of Kwiguk, Yukon-Kuskokwim Delta; 62° 44' N, 164° 30' W; (map 77). "Name derived from the name of the Eskimo family whose camp (Lamont) is situated at the mouth" of this slough; reported in 1952 by USC&GS.

Lamont: locality, on S bank of Lamont Slough, 4.5 miles SE of Kwiguk, Yukon-Kuskokwim Delta; 62° 42' 25" N, 164° 23' 50" W; (map 77). Variant: Eluktuk. This is the fish camp of an Eskimo family named Lamont; reported in 1952 by USC&GS.

Lamp Hills: hills, 1,015 ft., center Kiska Island, Aleutian Islands; 51° 58' 17" N, 177° 29' 44" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Lamplugh Glacier: glacier, in Glacier Bay National Monument, trends N 8 miles to its 1961 terminus in Johns Hopkins Inlet, 1.4 miles W of Ptarmigan Creek and 76 miles NW of Hoonah, St. Elias Mountains; 58° 53' 30" N, 136° 55' 45" W; BGN 1923; (map 10). Named by Lawrence Martin, USGS, about 1912 for George W. Lamplugh, 1859-1926, English geologist who visited Glacier Bay in 1884. Lamplugh joined the Geological Survey in 1901 and was assistant director of the Geological Survey of Great Britain, 1914-20.

Lana Lake: lake, 0.5 miles long, 19 miles E of Chitina and 31 miles W of McCarthy, Copper River Basin; 61° 30' N, 143° 52' W; (map 67). Local name obtained by USGS and published on maps since 1954.

Lanagan Creek: stream, in Bendeleben Mountains, flows SW 3.5 miles to Pargon River, 13 miles E of Mount Bendeleben, Seward Peninsula Highlands; 65° 09' N, 163° 39' W; (map 110). Variant: Dry Creek. Prospectors' name reported in 1909 by Smith and Eakin (1911, pl. 1), USGS. This appears to be the stream shown as "Dry" on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Lancashire Rocks: rocks, on W edge of Neptune Bay, on E shore of Kachemak Bay, 8 miles SE of Homer, Chugach Mountains; 59° 33' N, 151° 25' W; (map 50). Named by W. H. Dall, USC&GS, in 1880, for Sir Thomas Hesketh's yacht Lancashire Witch, which visited Cook Inlet that year.

Lancaster Cove: cove, extends SE 0.5 miles, off Cholmondeley Sound, on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 13' 15" N, 132° 05' 30" W; (map 4). Local name published in 1925 Coast Pilot (P 79).

Lancaster Creek: stream, flows SE 2 miles to Yukon River, 20 miles W of Tanana, Kokrines-Hodzana Highlands; 65° 12' N, 152° 46' W; (map 106). Prospectors' name reported in 1911 by H. M. Eakin, USGS.

Lance Hill: mountain, 1,315 ft., center of Kiska Island, Aleutian Islands; 51° 58' 14" N, 177° 29' 20" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Lance Point: point of land, on SW coast of Unalaska Island, Aleutian Islands; 53° 20' 10" N, 167° 18' 40" W; BGN 1939; (map 23). Variant: Lake Point. Named for triangulation station Lance which was established on this point by USC&GS in 1936. This point was reported as Lake Point by USBF in 1888, "because early chart showed a lake in the vicinity."

Lance Point: point of land, on W shore of Lynn Canal, at N entrance to William Henry Bay 42 miles NW of Juneau, St. Elias Mountains, 58° 44' 00" N, 135° 13' 50" W; (map 11). Name published in 1924 by USC&GS on Chart 8302.

Lanchas, Puerto de las: cove, "on the east side of Yakutat Bay." Name shown on a 1791 Spanish map, but not mentioned in Capt. Alessandr Malaspina's narrative; see Wagner (1937, p. 466).

Landing, The: landing, on Wilson Creek Slough 1.2 miles SE of Marshall, Nulato Hills, Yukon Kuskokwim Delta; 61° 52' N, 162° 03' W (map 74). The riverboat landing for the Willow Creek Mine was at the end of a "cat" road about 5 miles downstream from here. The USC&GS reported in 1951 that this place is now used and is referred to as "The Landing."

Landlocked Bay: bay, 2.2 miles wide, on N shore of Port Fidalgo, 35 miles NW of Cordova, Chugach Mountains; 60° 48' 40" N, 146° 35' 00" W; (map 64). Local descriptive name reported in 1898 by Schrader (1900a, p. 417, map 19), USGS.

Landlocked Creek: stream, flows NW 16 miles to lower Meshik River, 17 miles S of Port Heiden Airfield, Bristol Bay Lowland; 56° 43' N, 158° 33' W; (map 30). Name reported in 1923 by R. H. Sargent, USGS; published in 1927 by USGS.

Landmark Gap Lake: lake, 4 miles long, in Landmark Gap, in Amphitheater Mountains, 19 miles WNW of Paxson, Alaska Range; 63° 07' 30" N, 146° 05' 00" W; (map 86). Named in 1955 by Reuben Kachadoorian, USGS.

Landmark Gap: water gap, elev. 3,250 ft., 5.5 miles long, in Amphitheater Mountains, at Landmark Gap Lake, 19 miles NW of Paxson, Alaska Range; 63° 08' N, 146° 05' W; (map 86). Descriptive name given in 1898 by W. C. Mendenhall, USGS.

Landslide Creek: stream, flows NW 3.8 miles to Oshetna River 31 miles SW of its junction with Susitna River, Talkeetna Mountains; 62° 15' 15" N, 147° 52' 10" W; BGN 1960; (map 82). Named in 1956 by USGS "for a landslide on the east side of its valley."

Lane Creek: stream, flows NW 5 miles to Placer Creek which flows to Goodhope River, 25 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 48' N, 164° 00' W; (map 110). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Lane Creek: stream, flows NW to Niukluk River, between Camp and Richter Creeks, about 6 miles NW of Council and 30 miles NE of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name reported on a prospector's manuscript map dated 1902. This stream cannot be precisely located on current maps. See Paterson Creek.

Lane Creek: stream, flows SW 11 miles to Susitna River, 14 miles N of Talkeetna, Talkeetna Mountains; 62° 31' 55" N, 150° 06' 05" W; (map 81). Name reported on a 1915 railroad location blueprint map.

Lane Creek: stream, see Bennett Creek.

Lane Island: island, 800 ft. long, in Danger Passage between Felice Strait and Revillagigedo Channel, Alexander Archipelago; 55° 02' 10" N, 131° 13' 00" W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Lane Ridge: ridge, 0.6 miles long, between Mutt and Jeff Coves, center of Kiska Island, Aleutian Islands; 51° 56' 15" N, 177° 29' 06" E; (map 14). An arbitrary name beginning with "L" to correspond to the "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Lane River: stream, on Seward Peninsula, flows NE 17 miles to Nugnugaluktuk River, 44 miles NW of Deering, Kotzebue-Kobuk Lowland; 66° 12' N, 164° 15' W; (map 113). Variant: Kugachuk River. Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Lane, Mount: mountain, in York Mountains, about 30 miles NW of Teller, Seward Peninsula Highlands; (map 111). Prospectors' name shown on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This feature cannot be precisely identified on current maps.

Lane: city, see Anchorage.

Lane: locality, miles 242 on The Alaska Railroad, 15 miles N of Talkeetna, Talkeetna Mountains; 62° 32' 30" N, 150° 05' 20" W; (map 81). This place was listed as a flag stop in the 1922 Railroad Time Table.

Lanes Landing: locality, see Shelton.

Langara, Islas de: islands, "the easternmost of the Barren Islands including East and West Amatuli Islands." Name appears on a 1779 Spanish map (Wagner, 1937, p. 466). Probably named for Juan de Langara.

Langara, Islas de: islands, see Barren Islands.

Langdon Glacier: glacier, heads in Sargent Icefield, trends NW 4 miles to its terminus, 2 miles E of head of Kings Bay, 24 miles S of Whittier, Chugach Mountains; 60° 26' 15" N, 148° 39' 00" W; BGN 1911; (map 63). Named in 1908 by U. S. Grant and D. F. Higgins, USGS; "probably named for Seth Langdon of Evanston, Illinois."

Lange Island: island, 1.6 miles long, in Yukon River E of Clay Island, 11 miles E of Birches, Nowitna Lowland; 65° 07' 45" N, 153° 11' 30" W; (map 107). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the Department of the Interior.

Lange: area, the W part of Mountain View, in Anchorage, Cook Inlet Lowland; 61° 13' 40" N, 149° 48' 50" W; (map 69). Local name reported in 1954 by the city engineer of Anchorage.

Langmuir, Mount: mountain, 8,648 ft., N of Second Branch Columbia Glacier 29 miles NW of Valdez, Chugach Mountains; 61° 20' 30" N, 147° 00' 45" W; (map 69). Named for Irving Langmuir, 1881-1957, chemist; name published by Nielson (1963, p. 135).

Lanin, Cape: point of land, see Lapin, Cape.

Lankey Road House: locality, see Tatalina Roadhouse.

Lansberg Creek: stream, heads at Lake Gilbert, flows S to Morzhovoi Bay, at SW end of Alaska Peninsula, Bristol Bay Lowland; 55° 05' N, 163° 12' W; (map 29). Name reported by USC&GS in 1926.

Lansing Bluff: bluff, on E coast of Long Island, 5.5 miles SE of Kodiak, Kodiak Island; 57° 45' 40" N, 152° 16' 05" W; (map 34). Local name reported in 1949 by USGS.

Lansing Creek: stream, flows E 10 miles to Granite Fork, 60 miles N of Stevens Village, Kokrines-Hodzana Highlands; 66° 51' N, 149° 21' W; (map 118). Name reported in 1909 by A. G. Maddren (in Brooks and others, 1910, pl. 7), USGS.

Lantern Creek: stream, flowing N 1 mile to Bluff Cove, S of Leo Hill, Kiska Island, Aleutian Islands; 51° 59' 13" N, 177° 28' 52" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Lapin, Cape: point of land, on N coast of Unimak Island, Aleutian Islands; 54° 58' 00" N, 164° 07' 30" W; (map 24). Variant: Cape Lanin. Probably named for Capt. Ivan Savich Lapin, a fur trader in this area in 1762. Capt. Tebenkov (1852, map 26), IRN, however, shows the name as "M[ys] Lanin."

Lapin, Cape: point of land, see Cave Point.

Lapin, Cape: point of land, see Mordvinof, Cape.

Lapin, Cape: point of land, see Oksenof Point.

Larch Bay: bay, 2 miles across, 3 miles NW of Cape Ommaney, on S coast of Baranof Island, Alexander Archipelago; 56° 12' N, 134° 43' W; (map 5). Variant: Listvinichnaia Bay, Lisvinichnaya Bukhta, Lisvinitchny Bay. This is an 1865 translation by the British Admiralty of the name "Lisvinichnaya Bukhta," given in 1850 by the Russian American Company.

Lard Hill: mountain, 1,600 ft., NE end of Russian Ridge, westcentral Kiska Island, Aleutian Islands; 51° 57' 40" N, 177° 22' 30" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Lare Glacier: glacier, heads 1.8 miles SE of Mount McPherson, trends SW 1.5 miles to its 1950 terminus at head of Little River, 81 miles NW of Yakutat, St. Elias Mountains; 60° 02' 10" N, 141° 48' 45" W; (map 65). Name reported in 1913 by A. G. Maddren, USGS.

Larga, Isla: island, see Naked Island.

Large Bay: bay, see Starrigavan Bay.

Large Island: island, see Bolshoi Island.

Large Rock: rock, 80 yds. across, 0.4 miles S of Ringgold Island, in S part of Bay of Islands, Aleutian Islands; 51° 47' 37" N, 176° 48' 15" W; (map 17). Descriptive name published by USC&GS in 1960 on Chart 9120.

Large, Ile du: island, see Navy Island.

Largo Creek: stream, flows SW 9 miles to Berry Creek which flows to Noxapaga River, 19 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 40' N, 163° 56' W; BGN 1952; (map 110). Reported in 1950 by D. M. Hopkins, USGS; named for the ridge to the south.

Largo Ridge: ridge, elev. 1,157 ft., extends EW 10 miles, between Largo Creek and Noxapaga River, 12 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 40' N, 163° 45' W; BGN 1952; (map 110). Reported in 1950 by D. M. Hopkins, USGS; so named for the "musical term 'Largo,' * * * meaning 'broad and stately.' Both of these adjectives are appropriate when applied to Largo Ridge."

Lark Hill: mountain, 1,200 ft., central Kiska Island, Aleutian Islands; 51° 57' 55" N, 177° 24' 40" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Lark Island: island, in Yukon River, 33 miles NE of Nulato, Koyukuk Lowland; 64° 48' N, 157° 00' W; (map 97). Local name reported in 1954 by USGS.

Lark Lake: lake, 1.1 miles long, on Kenai Peninsula, 6 miles SE of Moose Point and 36 miles NE of Kenai, Cook Inlet Lowland; 60° 54' 30" N, 150° 31' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for the Pallid Horned Lark (*Eremophila alpestris articola*), the only lark found in Alaska.

Larratita: island, see Larzatita Island.

Larry Hill: mountain, 1,300 ft., central Kiska Island, Aleutian Islands; 51° 57' 40" N, 177° 23' 55" E; (map 14). Variant: Indian Hill. An arbitrary name beginning with "L" to correspond to "L" grid used by U.S. Army for tactical purposes during World War II; published on a 1953 AMS map. Variant published on a 1943 USAAF map.

Lars Island: island, 0.4 miles across, at mouth of Berg Bay, Glacier Bay National Monument, 0.3 miles SE of Netland Island and 38 miles NW of Hoonah, St. Elias Mountains; 58° 31' 30" N, 136° 07' 45" W; BGN 1942; (map 10). Named by USC&GS in 1939 for Lars Netland, 1869-1934, member of the U.S. section of the IBC from 1904-10. Netland aided in the reconnaissance survey of Berg Bay in 1907. He was born in Norway and came to the United States in 1889. After going to the Klondike in 1898, he did surveying work in Dawson. From 1900 to 1903 he was chief of a Canadian exploration party in the Yukon Territory.

Larsen Bay: bay, 1.5 miles across, on E coast of Nagai Island, in Shumagin Islands, Aleutian Range; 55° 03' 30" N, 159° 59' 00" W; (map 27). Variant: Pete Larssen. Named for Peter Larson, an Unga Island furrier, hunter, and guide according to Polk's Gazetteer (1915-16, p. 543), and published on USC&GS Chart 8700 (1917).

Larsen Bay: bay, extends W 6 miles off Uyak Bay, on NW coast of Kodiak Island; 57° 32' 30" N, 153° 58' 40" W; (map 34). Variant: Larsen Harbor, Larsens Bay, Larson's Bay. Local name reported in 1890 in the 11th Census in 1890 (1893, p. 79).

Larsen Bay: village, pop. 72, near mouth of Larsen Bay, on W shore of Uyak Bay, on NW coast of Kodiak Island; 57° 32' 20" N, 153° 58' 45" W; (map 34). Variant: Larsons Bay, Uyak. Name derived from Larsen Bay and reported in 1890 to be a native settlement "containing less than 20 people" in the 11th Census in 1890 (1893, p. 79). The native name was "Uyak."

Larsen Creek: stream, in Rampart Mountains, flows E and S 7 miles to Bear Creek 2 miles N of that stream's junction with Yukon River, 34 miles NE of Tanana, Kokrines-Hodzana Highlands; 65° 33' 30" N, 151° 01' 00" W; (map 106). Variant: Bonanza Creek. Named in 1956 by Orth, for John Larsen, prospector, who once lived near the mouth of Bear Creek.

Larsen Harbor: bay, see Larsen Bay.

Larsen Island: island, 1.7 miles long in Anton Larsen Bay, 1 mile NW of Kodiak, Kodiak Island; 57° 52' 30" N, 152° 39' 00" W; (map 34). Name derived from Anton Larsen Bay; published in 1952 by USGS.

Larsen Rocks: rocks, see Latax Rocks.

Larsens Bay: bay, see Larsen Bay.

Larson Lake: lake, 3 miles long, 6.5 miles E of Talkeetna, Talkeetna Mountains; 62° 20' 15" N, 149° 53' 10" W; BGN 1963; (map 82). Variant: Talkeetna Lake. Local name reported in 1962 by USGS.

Larsons Bay: village, see Larsen Bay.

Larzatita Island Reef: reef, in San Christoval Channel, N of Larzatita Island, Alexander Archipelago; 55° 35' 05" N, 133° 14' 40" W; (map 4). Named by USC&GS and published in 1932 Coast Pilot (p. 216).

Larzatita Island: island, 1,400 ft. long, in San Christoval Channel, between Prince of Wales and San Fernando Islands, Alexander Archipelago; 55° 34' 50" N, 133° 19' 40" W; BGN 1908; (map 4). Variant: Isla Larzatita, La Ratita, Larratita. Spanish name given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "La Ratita," meaning "a short time (?)" ; the name Larzatita is an alteration of Maurelle and Qudara's name (Wagner, 1937, p. 394).

LaSalle Creek: stream, flows W 7.5 miles from Emma Dome, S of Bluecloud Mountain, to Glacier River, 4 miles S of Delay Pass, 15 miles W of Wiseman, Brooks Range; 67° 23' N, 150° 39' W; (map 124). Local name obtained in 1956 by USGS topographers.

Lascano, Archipelago de: islands, see Lascano, Islas de.

Lascano, Islas de: islands, in Unimak Pass off the north end of Unalaska Island. Variant: Archipelago de Lascano. Name appears on the "Galiano map of 1802" (Wagner, 1937, p. 467).

Lash Bay: cove, 0.7 miles across, on S coast of Tanaga Island, Aleutian Islands; 51° 40' 00" N, 178° 02' 30" W; (map 16). Name published in the 1946 supplement to the 1944 Aleutian Coast Pilot (U.S. Coast and Geodetic Survey, 1946, p. 118).

Lash Hills: mountains, 1,400 ft., center of Kiska Island, Aleutian Islands; 51° 57' 43" N, 177° 28' 50" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Laska Cove: cove, 0.5 miles across, on W coast of Kagalaska Island, Aleutian Islands; 51° 49' 45" N, 176° 24' 40" W; BGN 1936; (map 17). A clipped name derived from Kagalaska Island, and given by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

Lass Lake: lake, 150 yd. across, 0.7 miles S of Beach Cove, on W central Kiska Island, Aleutian Islands; 51° 59' 05" N, 177° 29' 35" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II. Published on a 1943 Army map.

Lasso Hill: hill, 700 ft., on E side of Quisling Cove, W coast of Kiska Island, Aleutian Islands, 51° 58' 40" N, 177° 23' 30" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Last Chance Basin: valley, 0.2 miles SW of The Horn and 0.5 miles E of Juneau, Coast Mountains; 58° 18' 30" N, 134° 23' 30" W, (map 11). Variant: Lost Chance Basin. Named in 1881 by William Stewart, Squire Howe, and Oscar Cooper when they located here a group of placer claims called the "Last Chance group" (DeArmond, 1957, p. 29).

Last Chance Creek: ravine, see Last Chance Gulch.

Last Chance Creek: stream, flows E 0.6 miles to Salmon River, 26 miles NE of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 56' 15" N, 161° 42' 30" W; (map 39).

Probably a prospectors' name obtained in 1948 or 1949 from John Hill, of the Goodnews Mining Co., by USGS. The name was published in 1950.

Last Chance Creek: stream, flows E 3.5 miles to North Fork Snake River, 14 miles NW of Nome, Seward Peninsula Highlands; 64° 43' N, 165° 27' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Last Chance Creek: stream, flows ENE 1.5 miles to NW end of Big Lake, 1 mile N of village of Big Lake and 25 miles W of Chandalar, Brooks Range; 67° 31' 00" N, 149° 27' 30" W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Last Chance Creek: stream, flows N 1 mile to Seventymile River, 34 miles NW of Eagle, Yukon-Tanana Highlands; 64° 59' N, 142° 14' W; (map 102). Prospectors' name shown on a 1902 manuscript map by E. J. Chamberlain, U.S. Deputy Surveyor.

Last Chance Creek: stream, flows NE 1 mile to American Creek near its head, in Niukluk River basin, 23 miles N of Solomon, Seward Peninsula Highlands; 64° 53' 30" N, 164° 32' 50" W; (map 95). Prospectors' name reported in 1908 by P. S. Smith (in Brooks and others, 1909, pl. 10), USGS.

Last Chance Creek: stream, flows NE 3 miles to Fish Creek, 16 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 00' 30" N, 147° 12' 00" W; (map 105). So named by prospectors; published in 1908 by USGS.

Last Chance Creek: stream, flows NE 3 miles to Tibbs Creek 4.6 miles S of that stream's junction with Goodpaster River and 49 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 25' N, 144° 18' W; (map 101). Local name reported in 1958 by USGS.

Last Chance Creek: stream, flows NW 2 miles, joins Louis Creek to form Little Eldorado Creek, 17 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 03' 45" N, 147° 32' 00" W; (map 105). Variant: Big Eldorado Creek. Named by prospectors; published in 1908 by USGS.

Last Chance Creek: stream, flows NW 8 miles to Moose Creek, 25 miles NE of Healy, Alaska Range; 63° 59' 30" N, 148° 10' 50" W; (map 87). Local name reported in 1906 by L. M. Prindle (in Brooks and others, 1907, pl. 4), USGS.

Last Chance Creek: stream, flows SE 1.2 miles to Turner Creek which flows to Noxapaga River, 35 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 33' N, 164° 29' W; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Last Chance Creek: stream, flows SW 9 miles to Bering Sea, 44 miles NW of Nome, Seward Peninsula Highlands; 64° 56' N, 166° 30' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Last Chance Creek: stream, flows SW to Angeles Creek which flows to Garfield Creek, about 5 miles SE of Baldy Mountain and 37 miles SW of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This stream cannot be precisely located on current maps.

Last Chance Creek: stream, flows W 9.5 miles to Wapoo Creek 6.2 miles NE of its junction with Innoko River, 48 miles NW of Ophir and 74 miles NW of McGrath, Innoko Lowland; 63° 43' 20" N, 157° 18' 30" W; (map 90). Local name reported in 1964 by Arthur Gervais, USGS.

Last Chance Creek: stream, heads in Canada, flows W 6 miles to Yukon River, 6 miles NE of Eagle, Porcupine Plateau; 64° 51' 20" N, 141° 05' 00" W; BGN 1954; (map 102). Variant: Chance Creek, Last-Chance Creek, Last-chance Creek. Prospectors' name obtained in 1898 by E. C. Barnard, USGS.

Last Chance Creek: stream, heads N of Crater Mountain, flows NE 7 miles to Ganes Creek, 33 miles SW of McGrath, Kilbuck-Kuskokwim Mountains; 62° 53' 30" N, 156° 39' 40" W; BGN 1936; (map 79). Variant: Last Chance Gulch, Spalding Creek. Prospectors' name reported in 1908 by A. G. Maddren, USGS.

Last Chance Creek: stream, heads on W slope of Red Mountain, flows 1.5 miles W to Kuskokwim Bay, Kilbuck-Kuskokwim Mountains; 58° 58' N, 161° 44' W; BGN 1938; (map 39). Local name published by Mertie (1940, pl. 2), USGS.

Last Chance Creek: stream, in Kantishna Hills, flows NW 2.7 miles to Caribou Creek, 8 miles NNE of Wonder Lake, Alaska Range; 63° 36' 25" N, 150° 48' 35" W; (map 88). Name shown on a 1916 fieldsheet by C. E. Giffin, USGS.

Last Chance Creek: stream, see North Fork Snake River.

Last Chance Gulch: ravine, trends SE 3.2 miles to Long Creek, 2 miles NW of Long and 21 miles S of Ruby, Kilbuck-Kuskokwim Mountains; 64° 26' 45" N, 155° 31' 45" W; (map 98). Variant: Last Chance Creek. Prospectors' name reported in 1913 by Eakin (1914, pl. 3), USGS.

Last Chance Gulch: stream, see Last Chance Creek.

Last Chance: locality, on right bank of First Chance Creek, 5 miles SE of Kiwalik Mountain and 33 miles SE of Imuruk Lake, Seward Peninsula Highlands; 65° 27' N, 162° 02' W, (map 110). Variant: First Chance Cabin. Site of a mining camp; reported in 1951 by USGS. Shown as "First Chance Cabin" on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Last Creek: stream, heads on E slope of Sadlerochit Mountains, flows E 3 miles to Sadlerochit River, 23 miles N of Mount Michelson, Brooks Range; 69° 38' N, 144° 24' W; BGN 1961; (map 139). So named by USGS because the final fieldwork of the 1948 season in the Sadlerochit Mountains was done on this stream.

Last Lake: lake, see Ambresvajun Lake.

Last Point: point of land, at mouth of Back Bay, in Afognak Bay, 5 miles N of Afognak, on S coast of Afognak Island, N of Kodiak Island; 58° 04' 35" N, 152° 46' 05" W; (map 43). Variant: Krainie Cape. Translation of the name "M[ys] Krayniy," given by Sub-Lt. Mikhail Murashev, IRN, in 1839 or 1840, and published by the Russian Hydrog. Dept. in 1849 on Chart 1425.

Last Slough: stream, see Jacks Slough.

Last Tetlin Hill: hill, 2,360 ft., S of Tetlin Lake, 23 miles S of Tok, Alaska Range; 63° 01' N, 142° 40' W; (map 85). Local name reported in 1963 by USGS. Named for Last Tetlin Village.

Last Tetlin Village: village, pop. 19, on N bank of Tetlin River, 3.3 miles SE of Tetlin Lake, 23 miles SE of Tok, Alaska Range; 63° 02' N, 142° 37' W; (map 85). Local name reported in 1963 by USGS.

Last Timber Cape: point of land, see Last Timber Point.

Last Timber Point: point of land, on S coast of Raspberry Island, N of Kodiak Island; 57° 58' 50" N, 152° 58' 55" W; (map 34). Variant: Last Timber Cape, Mys Poslydnyago Lysu, Posliednaho Liesu. Translation of the descriptive name "M[ys] Poslydnyago Lysu" given in 1839 or 1840 by Sub-Lt. Mikhail Murashev and published in 1849 on Russian Hydrog. Dept. Chart 1425.

Lastex Hill: hill, 600 ft., S of Bluff Cove, Kiska Island, Aleutian Islands; 51° 58' 54" N, 177° 28' 25" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army For tactical purposes during World War II; published on a 1943 Army map.

Lastova Bay: bight, see Bedard Cove.

Latax Rocks: rocks, 3 miles long, 5 miles N of Shuyak Island and 56 miles N of Kodiak Island; 58° 41' N, 152° 30' W; BGN 1921; (map 43). Variant: Bobrovie Islands, Larsen Rocks, Sea Otter Islets, SeaOtter Rocks. Name given by USC&GS in 1910 in an effort to stem the increasing duplication of "Bobrovyye," published for this feature by the Russian American Company in 1849, and "Sea Otter," the translation of Bobrovyye, applied to these rocks by Baker (1906, p. 558). In 1910 " * * *. A suggestion was made [to USC&GS] * * * that the Indian[?] name for Sea Otter is Latax * * *." The word may possibly be from the Aleut "cngatuq" meaning "hairy sea otter" according to R. H. Geoghegan.

Latch Hill: hill, 350 ft., near S coast of Quisling Cove, on NW shore of Kiska Island, Aleutian Islands; 51° 58' 30" N, 177° 22' 45" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Late Point: point of land, the S tip of Windfall Island, in Seymour Canal, 29 miles NE of Angoon, on E coast of Admiralty Island, Alexander Archipelago; 57° 53' 00" N, 134° 15' 20" W; (map 9). Named in 1889 by Lt. Comdr. H. B. Mansfield, USN, and published by USC&GS on Chart 8228.

Lathrop, Mount: mountain peak, 6,190 ft., 1.4 miles E of Usibelli Peak and 17 miles NE of Healy, Alaska Range; 63° 54' 18" N, 148° 25' 40" W; BGN 1965; (map 87). Named in 1964 by USGS for Austin E. Lathrop, 1865-1950, coal-mining operator and businessman in the Healy area.

Latin Hill: hill, 900 ft., on Persian Ridge, westcentral Kiska Island, Aleutian Islands; 51° 58' 20" N, 177° 23' 30" E; (map 14). An arbitrary name beginning with "L" to correspond to "L"

grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Latouche Glacier: glacier, heads 3 miles SE of Point Latouche, trends N 0.9 miles to head of Indian Camp Creek, 23 miles NE of Yakutat, St. Elias Mountains; 59° 52' 30" N, 139° 35' 40" W; (map 46). Named by Tarr (1906, map 145), USGS, probably for Latouche Point.

Latouche Island: island, 13 miles long, between Montague Strait and Latouche Passage, 55 miles ESE of Seward, Chugach Mountains; 60° 00' N, 147° 55' W; BGN 1910; (map 63). Variant: Foot Island, Isla San Antonio, Khlikakhlik Island, Ostrov Khlikakhlik. Named in 1794 by Capt. George Vancouver, RN, probably "after the famous naval commander LaTouche-Treville, of France" (Wagner, 1937, p. 394). It was called "Foot Island" in 1787 by Capt. Nathaniel Portlock because of its shape. Its Eskimo name was reported by Martin Sauer in 1802 as "Ostrov Khlikakhlik," Island," i.e., "Khlikakhlik Island." The Eskimo name probably means "island."

Latouche Mountain: mountain, see Latouche Peak.

Latouche Passage: water passage, extends 16 miles SW from Knight Island Passage to Gulf of Alaska, on W side of Latouche Island, Chugach Mountains; 60° 00' N, 148° 00' W; BGN 1910; (map 63). Local name published in 1907 by USC&GS; derived from nearby Latouche Island.

Latouche Peak: mountain, 2,200 ft., on Latouche Island, 7 miles NE of Danger Island, 55 miles SE of Seward, Chugach Mountains; 59° 59' N, 147° 55' W; (map 49). Variant: Latouche Mountain. Named in 1928 by USC&GS "after the island."

Latouche Point: point of land, E point between Disenchantment and Yakutat Bays, 25 miles N of Yakutat, St. Elias Mountains; 59° 54' 10" N, 139° 37' 30" W; (map 46). Variant: Punta de la Esperanza. Named in 1794 by Lt. Peter Puget (in Vancouver, 1798, v. 3, p. 224), RN, undoubtedly for Adm. LaTouche-Treville, French naval commander (Wagner, 1937, p. 394) during the French Revolution and later under Napoleon Bonaparte. In 1791, Capt. Malaspina (Galiano, 1802, map 9). Named it "Punta de la Esperanza," meaning "point of hope," alluding to his hope of finding the Northwest Passage at the end of Yakutat Bay.

Latouche: village, on NW coast of Latouche Island, 18 miles SE of Chenega, Chugach Mountains; 60° 03' 05" N, 147° 54' W; BGN 1919; (map 63). Variant: Barracks, Beatson, Beatsons Wharf. A mining village and landing on Latouche Island. A post office was established here in 1905, but was discontinued in 1955 (Ricks, 1965, p. 39). Recent maps indicate a settlement of about 20 buildings at the site.

Lauder, Point: point of land, S point of entrance to Whale Bay, on SW coast of Baranof Island, Alexander Archipelago; 56° 32' 25" N, 135° 03' 30" W; (map 5). Variant: South Point. Named about June 23, 1787, by Capt. George Dixon, for William Lauder, the surgeon of the vessel Queen Charlotte.

Lauf Islands: islands, 0.4 miles across, at head of Rodman Bay, on N coast of Baranof Island, 9 miles NW of Todd, Alexander Archipelago; 57° 27' 15" N, 135° 23' 15" W; (map 9). Named in 1895 by Lt. Comdr. E. K. Moore, USN, and published by USC&GS on Chart 8283.

Laughton Glacier: glacier, trends N 2.2 miles to its terminus, 0.2 miles S of Skagway River, 1.6 miles SE of Glacier and 9 miles NE of Skagway, Coast Mountains; 59° 32' 10" N, 135° 05' 30" W; (map 45). Local name published in 1951 by USGS.

Launch Cove: cove, 0.2 miles across, in Peril Strait, 1 mile N of Fish Bay, on NW coast of Baranof Island, Alexander Archipelago; 57° 24' N, 135° 37' W; (map 9). Named in 1884 by Comdr. J. B. Coghlan, USN; published by USC&GS in 1891 Coast Pilot (p. 182).

Launch Passage: water passage, 1 mile long, between Anguilla and Esquibel Islands, in Maurelle Islands, Alexander Archipelago; 55° 39' N, 133° 34' W; (map 4). Named in 1925 by USC&GS.

Laura Lake: lake, 3 miles long, 3.5 miles SW of Duck Cape, on Afognak Island, 29 miles NE of Afognak, Kodiak Island; 58° 21' 30" N, 152° 18' 00" W; (map 43). Local name reported in 1952 by USGS.

Laurada Creek: stream, flows W 1.3 miles to Nome River, 5 miles E of Nome, Seward Peninsula Highlands; 64° 30' N, 165° 13' W; (map 94). Prospectors' name reported on a map by S. E. King dated 1900.

Lava Bight: cove, 1.4 miles across on NW coast of Akutan Island, Aleutian Islands; 54° 09' 30" N, 166° 05' 00" W; (map 23). Name published in 1965 by USC&GS.

Lava Cove: bight, 2 miles across, on SE coast of Seguam Island, Aleutian Islands; 52° 17' N, 172° 26' W; (map 19). Named for Lava Point, and published by USC&GS in 1944 Aleutian Coast Pilot (p. 85).

Lava Creek: stream, flows N 1.5 miles to Kashevarof Passage, on N coast of Prince of Wales Island, Alexander Archipelago; 56° 14' 30" N, 133° 06' 20" W; BGN 1923; (map 6). Named in 1923 by USFS.

Lava Creek: stream, flows N 21 miles to Cinder River, on Alaska Peninsula, 34 miles SW of Ugashik, Bristol Bay Lowland; 57° 06' N, 157° 51' W; (map 36). Descriptive name given in 1923 by R. H. Sargent, USGS, "because of the ejecta from Aniakchak Volcano which filled its valley and which is now deeply eroded."

Lava Creek: stream, flows NW 11 miles to Kiwalik River, 47 miles NW of Haycock, Seward Peninsula Highlands; 65° 49' N, 161° 50' W; (map 109). Local name shown on a 1903 fieldsheet by D. C. Witherspoon, USGS.

Lava Creek: stream, flows S 10 miles to Thorne River, 2 miles NW of Thorne Bay, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 42' 28" N, 132° 36' 30" W; BGN 1960; (map 4). Named in 1956 by C. L. Sainsbury, USGS, "because it is eroded into a sequence of lava beds."

Lava Creek: stream, heads in Bendeleben Mountains, flows SW 12 miles to Fish River, 34 miles S of Imuruk Lake, Seward Peninsula Highlands; 65° 05' N, 163° 01' W; (map 110). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Lava Creek: stream, on Seward Peninsula, flows N 4.4 miles to Eagle Creek, 32 miles SW of Deering, Kotzebue-Kobuk Lowland; 66° 00' N, 163° 51' W; (map 113). Local name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Lava Fork: stream, flows S 4.5 miles from Canada, near boundary monument 42, to left bank of Blue River, 1.5 miles S of Blue Lake, Coast Mountains; 56° 19' 10" N, 130° 52' 30" W; (map 7). Local name reported in 1955 by USGS.

Lava Island: island, 0.1 miles across, off S coast of Kruzof Island, 14 miles W of Sitka, Alexander Archipelago; 57° 00' 20" N, 135° 42' 15" W; (map 9). Variant: Ostrov Lava, Lava Islet. Derived from a Russian name meaning "lava," given in 1809 by the navigator Ivan Vasiliev the first, IRN; published by Lt. Sarichev (1826, map 19), IRN, as "O[stro] Lava."

Lava Lake: lake, 2 miles across, 19 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 35' N, 163° 55' W; BGN 1952; (map 110). Reported in 1950 by D. M. Hopkins, USGS. "The name 'Lava Lake' was applied by the 11th Weather Squadron, USAAF, to a weather station operated on the east shore of the lake in 1945."

Lava Point: point of land, on NW coast of Akutan Island, Aleutian Islands, 54° 10' 20" N, 166° 04' 45" W; (map 23). Variant: Flat Top. Descriptive name, reported by USC&GS in 1902. It was called Flat Top by J. I Moser, USN, in 1897.

Lava Point: point of land, on SE coast of Seguan Island, Aleutian Islands; 52° 17' 00" N, 172° 24' 50" W; (map 19). Descriptive name given by a special U.S. Navy survey party because the point forms the terminus of an extensive lava-flow; published by USC&GS in 1944 Aleutian Coast Pilot (p. 85).

Lavanak Point: point of land, see Twinlava Point.

Lavinia, Point: point of land, on N tip of Inian Peninsula, on Chichagof Island, on S shore of South Inian Pass, 1.3 miles N of Elfin Cove and 3 miles WNW of Hoonah, Alexander Archipelago; 58° 13' 30" N, 136° 10' 15" W; (map 10). Named by Capt. George Vancouver, RN, in 1794 for Lady Lavinia Spencer, daughter of Margaret Bingham, Countess of Lucan (Wagner, 1937, p. 394).

Lawak: village, see Klawock.

Lawing: locality, on E shore of Kenai Lake, mile 23.3 on The Alaska Railroad, 1 mile NE of Black Point, 21 miles N of Seward, Chugach Mountains 60° 24' 15" N, 149° 21' 50" W; (map 63). Variant: Roosevelt. Listed as a station in The Alaska Railroad guide of 1925. Recent USGS maps indicate a site of six or seven buildings.

Lawrence Creek: stream, flows SW 5 miles through Lawrence Valley to Herendeen Bay, near SW end of Alaska Peninsula, Aleutian Range; 55° 44' 30" N, 160° 39' 00" W; (map 28). Named in 1890 by Lt. Comdr. Z. L. Tanner USN.

Lawrence Creek: stream, flows SW and S 2 miles to Gulf of Alaska, N of Umbrella Reef and 87 miles NW of Yakutat, St. Elias Mountains; 60° 00' 30" N, 142° 02' 50" W; (map 65). Named

after Lawrence E. Barber, one of the first to locate oil in the Yakataga region in 1897. This local name was reported by G. C. Martin, USGS, in 1903 and published in 1905.

Lawrence Glacier: glacier, heads W of head of Tebenkof Glacier, trends NW 2.5 miles to Blackstone Bay, 8 miles SE of Whittier, Chugach Mountains; 60° 40' 30" N, 148° 38' 00" W; BGN 1930; (map 63). Named in 1910 by Lawrence Martin for Lawrence College, Appleton, Wisconsin.

Lawrence Valley: valley, 5 miles long, extends SW along course of Lawrence Creek to Herendeen Bay, between Gull and Crow Points, near SW end of Alaska Peninsula, Aleutian Range; 55° 44' 30" N, 160° 39' 00" W; (map 28). Named in 1890 by Lt. Comdr. Z. L. Tanner, USN.

Lawrence, Port: cove, 0.5 miles across, on S coast of Shuyak Island, 40 miles N of Kodiak Island; 58° 29' 30" N, 152° 36' 20" W; (map 43). Name published by USC&GS in 1926.

Lawrence: area, in NE part of Anchorage, between Runstettler and Vanover, Cook Inlet Lowland; 61° 13' 08" N, 149° 47' 35" W; (map 69). Local name reported in 1954 by the city engineer of Anchorage.

Lawsbina Lake: lake, see Lachbuna Lake.

Lawson Creek: stream, flows NE 8 miles, joins Munson Creek to form Clums Fork Birch Creek, 64 miles SW of Circle, Yukon-Tanana Highlands; 65° 07' 10" N, 145° 30' 00" W; (map 104). Named by prospectors; reported in 1911 by USGS (Prindle, 1913, pl. 1).

Lawson Creek: stream, on NE shore of Douglas Island, flows 2 miles NE to Gastineau Channel, 0.7 miles NW of Douglas and 1 mile S of Juneau, Coast Mountains; 58° 17' 12" N, 134° 24' 36" W; (map 11). Named for William Lawson, 1843-1932, a skilled carpenter and boatbuilder in Juneau in the 1880's. The name Lawson Creek appears first in the mining records in 1894 (DeArmond, 1957, p. 29).

Lawson Hills: mountains, 1,310 ft., center of Kiska Island, Aleutian Islands; 51° 57' 40" N, 177° 5' 06" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Lay, Point: point of land, on barrier island of Chukchi Sea coast, 43 miles SW of Icy Cape, Arctic Plain; 69° 45' 45" N, 163° 03' 05" W; (map 145). Variant: Lay Point, Sloistie. Named in September 1826 by Capt. Beechey (1831, v. 1, p. 303), RN, who wrote, "and to the points and inlets to the southward [of Cape Smyth] I with pleasure affixed the names of the officers of the ship, whose merits entitled them to this distinction." George Tradescant Lay was the naturalist of the expedition. Tikhmeniev's 1861 map shows the name M[ys] Sloisty meaning "in layers."

Laydanoprodevskie: locality, see Ledyanoprolivskoe.

Layman Hill: mountain, 1,445 ft., center of Kiska Island, Aleutian Islands; 51° 58' 07" N, 177° 28' 48" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Lazaref Peak: mountain, 1,259 ft., on SE coast of Unimak Island, Aleutian Islands, 54° 38' 40" N, 163° 31' 30" W; (map 25). Name derived from Cape Lazaref; reported by Ferdinand Westdahl, USC&GS, commander of the Coast Survey steamer McArthur, who made surveys in this area in 1901.

Lazaref Reef: reef, at Cape Lazaref, on SE coast of Unimak Island, Aleutian Islands; 54° 36' 20" N, 163° 35' 00" W; (map 25). Name derived from Cape Lazaref; published by USC&GS in 1938.

Lazaref River: stream, flows SE 10 miles to Pacific Ocean, on SE coast of Unimak Island, Aleutian Islands; 54° 37' 45" N, 163° 34' 00" W; (map 25). Name derived from Cape Lazaref; published in 1949 on a USGS map.

Lazaref, Cape: point of land, on SE coast of Unimak Island, Aleutian Islands; 54° 37' 00" N, 163° 35' 10" W; (map 25). Variant: Cape Lazareff, Touliouliaga. Named Lazareff by Capt. Lutke (1836, p. 295), IRN, who said "that Kudiakof, 1791, reported its native name as Touliouliaga."

Lazareff, Cape: point of land, see Lazaref, Cape.

Lazaro, Mount: mountain, 1,710 ft., on S coast of Duke Island, Alexander Archipelago; 54° 53' N, 131° 22' W; (map 2). Variant: Mount St. Lazaro. Named on June 8, 1789, by Capt. W. Douglas, RN, who described it as "a high mountain on the west side of the [Buccleugh] Sound." The name was shortened to its present form in 1880 by USC&GS.

Lazier, Mount: hill, 977 ft., 4 miles NW of Katalla, Chugach Mountains, 60° 13' N, 144° 37' W; (map 64). Local name reported in 1920 by G. C. Martin (1921, pl. 4), USGS.

Lazy Bay: cove, 1.5 miles across, on W shore of Alitak Bay, at S end of Kodiak Island; 56° 53' 30" N, 154° 14' 30" W; (map 32). Name reported in 1900 by Comdr. J. F. Moser, USN.

Lazy Creek: stream, flowing S 2.1 miles to Gertrude Cove, central Kiska Island, Aleutian Islands; 51° 56' 36" N, 177° 25' 38" E; (map 14). Variant: Cream Brook. An arbitrary name beginning with "L" to correspond to "L" grid used by U.S. Army for tactical purposes during World War II; published on a 1953 AMS map. Variant published on a 1943 USAAF map.

Lazy Mountain: mountain, 3,720 ft., 5 miles NE of Palmer, Chugach Mountains; 61° 37' 25" N, 148° 57' 50" W; (map 69). Local name reported in 1951 by USGS.

Lazy Slough: stream, flows S 9 miles to Yukon River N of Blackburn Island, Innoko Lowland; 63° 25' N, 159° 24' W; (map 91). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the U.S. Dept. of Interior.

Lead Hill: hill, 1,500 ft., westcentral Kiska Island, Aleutian Islands; 51° 58' 11" N, 177° 22' 13" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Leader Island: island, 125 ft. elev., 0.1 miles across, 8 miles E of Stepovak Bay, Aleutian Range; 55° 43' 30" N, 159° 27' 40" W; (map 27). Variant: Provodnik. Named "Provodnik," or

“leader,” by Lt. Woronkofski in 1837; published by USC&GS in 1947 Alaska Coast Pilot (v. 2, p. 302).

Leading Point: point of land, on SW coast of Prince of Wales Island, E of Barrier Islands, Alexander Archipelago; 54° 48' 30" N, 132° 22' 25" W; (map 1). Descriptive name published in 1899 by USC&GS.

Leading Point: point of land, see Harrison Point.

Leadville Mountain: mountain, 1,750 ft., on Annette Island, 2 miles E of Metlakatla, Alexander Archipelago; 55° 07' 30" N, 131° 31' 30" W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN, for “Leadville, Colorado.”

Leaf Hills: mountains, 1,260 ft., center of Kiska Island, Aleutian Islands; 51° 57' 51" N, 177° 29' 30" E; (map 14). An arbitrary name beginning with “L” to correspond to “L” grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Leaf Lake: lake, 0.7 miles long, on Kenai Peninsula, 1.5 miles SE of Owl Lake and 31 miles NE of Kenai, Cook Inlet Lowland; 60° 47' 45" N, 150° 33' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Leaf Lake: lake, 1 mile long, between Tanana River and Alaska Highway, 1.4 miles SW of Midway Lake and 22 miles SE of Tok, Yukon-Tanana Highlands; 63° 12' N, 142° 21' W; (map 85). Local name reported in 1963 by USGS; named because the lake's outline is similar to that of a leaf.

League, Point: point of land, on E shore of Stephens Passage, 0.3 miles S of Dry Bay and 53 miles SE of Juneau, Coast Mountains; 57° 37' 45" N, 133° 40' 20" W; (map 8). Named in 1868 by Lt. Comdr. R. W. Meade, USN; name published by USC&GS in 1891 Coast Pilot (p. 147).

Leah Creek: stream, anabranch of Yukon River, flows SW 4.3 miles to Steamboat Slough, 61 miles SSW of Nulato, Innoko Lowland; 63° 55' 30" N, 159° 04' 30" W; (map 90). So called by riverboat pilots shortly after the riverboat Leah sank at the stream's mouth in 1906. The Leah was built by the Alaska Commercial Co. at St. Michael in 1895. She had a net tonnage of 295 tons.

Leah Crossing: crossing, in Yukon River, downstream from Quail Island, Innoko Lowland; 63° 53' N, 159° 10' W; (map 91). Riverboat pilots' name shown on a 1940 “Navigation Chart of the Tanana-Yukon Rivers” published by the U.S. Dept. of Interior.

Leah Island: island, see Quail Island.

Leah Slough: channel, of Yukon River between Quail Island and right bank, Innoko Lowland; 63° 55' N, 159° 03' W; (map 91). Variant: Steamboat Slough. Riverboat pilots' name shown on a 1940 “Navigation Chart of the Tanana-Yukon Rivers” published by the U.S. Dept. of Interior. It is said to have been so named “because a river boat, probably the Leah, was wrecked in this slough many years ago.”

Leak Hill: mountain, 1,225 ft., center of Kiska Island, Aleutian Islands; 51° 57' 43" N, 177° 29' 56" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Leaking Glacier: glacier, just W of Two Echo Cliffs, trends S 1 mile to its 1962 terminus, 0.5 miles N of terminus of Nugget Creek Glacier and 9 miles N of Juneau, Coast Mountains; 58° 26' 20" N, 134° 25' 30" W; (map 11). Local name reported in 1965 by D. A. Brew and A. B. Ford, USGS.

Leaky Lake: lake, 150 yd. across, south-central Kiska Island, Aleutian Islands; 51° 56' 10" N, 177° 22' 55" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Lean Hill: hill, 661 ft., center of Kiska Island, Aleutian Islands; 51° 56' 52" N, 177° 24' 43" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Leap Hill: hill, 610 ft., center of Kiska Island, Aleutian Islands; 51° 56' 46" N, 177° 24' 38" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Leare Point: point of land, on left bank of Yukon River, at junction of Jimmy Slough and Yukon River, 32 miles NE of Nulato; 64° 46' N, 157° 02' W; (map 97). Local name reported in 1954 by USGS.

Learnard Glacier: glacier, at SW end of Chugach Mountains, trends S 2.5 miles to its terminus 1.5 miles NW of Whittier, Chugach Mountains; 60° 47' 35" N, 148° 43' 30" W; BGN 1930; (map 63). Variant: Longfellow Glacier. Named in 1910 by Lawrence Martin for Lt. H. G. Learnard, USA, of Capt. E. F. Glenn's expedition.

Lears Point: point of land, see Eightmile Point.

Leary Creek: stream, flows SW 2 miles to Twelvemile Creek, 50 miles S of Eagle, Yukon Tanana Highlands; 64° 06' N, 141° 20' W; (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Leask Cove: cove, 0.6 miles across, on Revillagigedo Island, near head of George Inlet, Alexander Archipelago; 55° 30' 15" N, 131° 30' 15" W; (map 3). Local navigators' name obtained in 1904 by H. C. Fassett, USBF.

Leask Creek: stream, 2.8 miles long, drains Leask Lake SE into Leask Cove, near head of George Inlet, on Revillagigedo Island, Alexander Archipelago; 55° 30' 40" N, 131° 31' 00" W; BGN 1962; (map 3). Local name reported in 1961 by USFS.

Leask Lake: lake, 0.7 miles across, drained by Leask Creek into Leask Cove, near N end of George Inlet, on Revillagigedo Island, Alexander Archipelago; 55° 32' N, 131° 34' W; BGN 1962; (map 3). Local name reported in 1961 by USFS.

Leather Hill: hill, 750 ft., on central Kiska Island, Aleutian Islands; 51° 57' 13" N, 177° 25' 00" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Leather Lake: lake, 125 yd. across, center of Kiska Island, Aleutian Islands; 51° 57' 15" N, 177° 25' 00" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Leavitt Island: barrier island, 2 miles long, one of Jones Islands on Beauford Sea coast, W of Pingok Island, Arctic Plain; 70° 34' N, 149° 35' W; (map 150). E. de K. Leffingwell (1919, p. 97). originally named "the largest of the Jones Islands, * * * Leavitt Island, * * * after Capt. [George] Leavitt of the whaling fleet." Leffingwell gave its Eskimo name as "Pingok," meaning "mound," which name is applied to the largest island on present day maps.

Leavitt Island: barrier island, see Pingok Island.

Lebedevski: islands, see Pribilof Islands.

Lebyazhye, Ozero: lake, see Swan Lake.

Lechner Glacier: glacier, 1.3 miles long, 1 mile E of Aialik Bay, 16 miles SW of Seward, Chugach Mountains; 59° 56' 30" N, 149° 39' 30" W; BGN 1911; (map 49). Named in 1909 by U. S. Grant, USGS, for John Lechner, prospector, then living at Seward; Lechner and F. P. Skee "probably had more to do with the finding of lode gold north of Seward than any other two men." See Skee Glacier.

LeConte Bay: bay, 1 mile across, at S end of Frederick Sound, 17 miles SE of Petersburg, Coast Mountains; 56° 44' 30" N, 132° 31' 00" W; BGN 1905; (map 6). Variant: Hulti Bay, Hutli Bay, Leconte Bay, Thunder Bay. Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for Joseph LeConte, professor of geology at the University of California That time. The Indian name is "Hutli," reported by John Muir, in 1884, for "the Tlingits' mythical thunder bird, the flapping of whose wings produces the thunder."

LeConte Glacier: glacier, trends S 6 miles to head of LeConte Bay, 20 miles E of Petersburg, Coast Mountains; 56° 49' 30" N, 132° 22' 30" W; BGN 1905; (map 6). Variant: Hutli Glacier, Thunder Glacier, Leconte Glacier. Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for Joseph LeConte, professor of geology at the University of Calif. See LeConte Bay.

Ledaunala: bay, see Icy Bay.

Ledge Creek: stream, flows NW 5 miles to Tolstoi Creek 2.7 miles S of its junction with Mastodon Creek, 21 miles NW of Ophir, Kilbuck-Kuskokwim Mountains; 63° 18' 35" N, 157° 03' 50" (map 90). Prospectors' descriptive name published in 1921 by USGS.

Ledge Creek: stream, heads on SE slope of Sadlerochit Mountains, flows 2.5 miles to Sadlerochit River 5 miles NE of junction of Kekiktuk River, 21 miles NW of Mount Michelson, Brooks Range; 69° 35' N, 144° 35' W; (map 139). Named by USGS geologists in the 1950's.

Ledge Island: island, in Funter Bay, on Mansfield Peninsula, 0.4 miles SE of Funter and 18 miles SW of Juneau, Alexander Archipelago; 58° 15' 05" N, 134° 53' 20" W; (map 11). Variant: Ledge Islet. Named in 1890 by Lt. Comdr. H. B. Mans Field, USN; published in 1897 by USC&GS.

Ledge Islet: island, see Ledge Island.

Ledge Lake: lake, 1 mile long, on N coast of Kuiu Island, just W of Saginaw Bay, Alexander Archipelago; 56° 53' 15" N, 134° 16' 30" W; (map 5). Local name recorded in 1948 by USGS.

Ledge Point: point of land, on mainland, S point of entrance to Walker Cove, Coast Mountains; 55° 42' 25" N, 130° 53' 35" W; (map 3). Descriptive name given in 1891 by USC&GS.

Ledge Point: point of land, on N shore of Harry Bay, at entrance into Nakat Bay, NE of Dixon Entrance, Coast Mountains; 54° 48' 40" N, 130° 45' 45" W; (map 2). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Ledianoi: point of land, see Icy Cape.

Leduc Lake: lake, 2.5 miles long, 3 miles NW of junction of Chickamin and Leduc Rivers, Coast Mountains; 55° 56' N, 130° 53' W; (map 3). Local name reported in 1955 by USGS.

Leduc River: stream, heads at a glacier in British Columbia, Canada, flows SW 30 miles into Alaska, to Chickamin River, Coast Mountains; 55° 54' N, 130° 47' W; (map 3). Variant: Le Duc River. Local name published in 1898 by USC&GS.

Ledyanoi: point of land, see Icy Cape.

Ledianoprolivskoe: locality, "in SE Alaska." Variant: Laydanoprodevskie. Russian name reported by Veniaminov (1840, v. 2, p. 29), meaning "icy strait." According to Hodge (1907, p. 761), BAE, this may be a former Tlingit Indian town, its population "numbering 200 in 1835."

Ledyanoy, Mys: point of land, see Icy Point.

Ledyanoy, Proliv: water passage, see Icy Strait.

Lee Creek: stream, see Des Moines Creek.

Lee Gulch: ravine, trends SW 1.1 miles to Hastings Creek, 10 miles SE of Nome, Seward Peninsula Highlands; 64° 27' 30" N, 165° 05' 37" W; (map 94). Variant: Lees Gulch, Leo Gulch. Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Lee, Lake: lake, 0.3 miles long, drains E through Lake Orbin to Sargent Creek, 9 miles SW of Kodiak, Kodiak Island; 57° 42' 50" N, 152° 36' 00" W; (map 34). Local descriptive name; reported in 1949 by USGS.

Lee, Mount: peak, 2,650 ft., S of Burls Pass, on Alaska Peninsula, 45 miles NE of Ugashik, Aleutian Range; 57° 39' 25" N, 156° 15' 00" W; (map 36). Local name reported in 1921 by

Capps (1923, pl. 2), USGS, as being named “for an oil prospector who had a cabin at the mouth of Des Moines Creek.”

Lee, Mount: peak, 6,300 ft., E of Glacier Point, E of Ruth Glacier, Alaska Range; 62° 53' 30" N, 150° 30' 20" W; (map 81). Mountain climbers' name probably given by members of the 1945 Mazama expedition to the area (Metcalf, 1945, map facing p. 11).

Leech Hill: hill, 760 ft., center of Kiska Island, Aleutian Islands; 51° 57' 00" N, 177° 29' 14" E; (map 14). An arbitrary name beginning with “L” to correspond to “L” grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Leeper Creek: stream, flows SW 1 mile to Carbon Creek, 17 miles NE of Katalla, Chugach Mountains; 60° 23' N, 144° 10' W; (map 64). Local name published in 1907 by USGS.

Leeper Glacier: glacier, heads 7 miles SW of summit of Mount Leeper, trends SW 12 miles to 1950 terminus, 4.2 miles N of Duktoth Mountain and 107 miles NW of Yakutat, Chugach Mountains; 60° 14' 40" N, 142° 27' 30" W; BGN 1957; (map 65). Local name derived from Mount Leeper; published in 1964 by USGS.

Leeper, Mount: mountain, 8,200 ft., in Robinson Mountains, 8 miles NW of Yaga Peak and 98 miles NW of Yakutat, Chugach Mountains; 60° 17' 40" N, 142° 06' 00" W; (map 65). Local name reported in 1943 by ARC.

Leer Hill: hill, 346 ft., NW of Mutt Cove, center of Kiska Island, Aleutian Islands; 51° 56' 37" N, 177° 29' 14" E; (map 14). An arbitrary name beginning with “L” to correspond to “L” grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Lees Camp: locality, on right bank of Solomon River, 4 miles NE of Solomon, Seward Peninsula Highlands; 64° 37' N, 164° 23' W; (map 95). Site of a mining camp; published in 1956 by USGS.

Lees Gulch: ravine, see Lee Gulch.

Lees, Point: point of land, on mainland, E of Bell Island, between Anchor Pass and Behm Canal, Alexander Archipelago; 55° 57' 40" N, 131° 23' 25" W; (map 3). Variant: Mys Liz. Named August 11, 1793, by Capt. George Vancouver, RN (Wagner, 1937, p. 394).

Leesia Bay: bay, see Aleutkina Bay.

Leesoffskaia Bay: bay, 0.2 miles across, in Aleutkina Bay, 4 miles SE of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 00' 00" N, 135° 16' 30" W; (map 5). Russian name meaning “fox” published in 1943 Coast Pilot (p. 357). See Aleutkina Bay.

Leesoffskaia Bay: bay, see Aleutkina Bay.

Leesy Island: island, see Fox Island.

Leffingwell Creek: stream, heads at Leffingwell Glacier, flows NE 3 miles to Okpilak River, in Romanzof Mountains, Brooks Range; 69° 21' N, 144° 03' W; (map 139). Name published on a map by E. G. Sable, in USGS open-file report 810, 1965. Named for Leffingwell Glacier.

Leffingwell Glacier: glacier, trends 5 miles from S side to E side of Mount Michelson at head of Leffingwell Creek in Romanzof Mountains, Brooks Range; 69° 18' N, 144° 08' W; (map 139). Named for Ernest de Koven Leffingwell who for several years, between 1906 and 1914, explored and studied the geology and geography of northeast Alaska, culminating with his report on "The Canning River Region." The name "Leffingwell Glacier" was published in USGS Open File Report 810, 1965, by E. G. Sable.

Lefler Creek: stream, 1.6 miles long, flows SE to Temnac Bay, on S coast of Attu Island, Aleutian Islands; 52° 49' 30" N, 173° 02' 30" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II; shown on an AMS map published in 1948.

Left Arm Amalik Bay: estuary, see Kinak Bay.

Left Arm: bay, see Lefthand Bay.

Left Cape: point of land, W point of entrance to Kiliuda Bay, on SE coast of Kodiak Island; 57° 15' 30" N, 152° 57' 00" W; (map 34). Variant: Lievoi, Mys Lyvoy. Partial translation of the descriptive name "M[ys] Lyvoy," meaning "Lefthand Cape," published by Capt. Tebenkov (1852, map 23).

Left Elk Creek: stream, flows SW 0.8 miles to Elk Creek, 6 miles NE of Nome, Seward Peninsula Highlands; 64° 34' 48" N, 165° 15' 00" W; (map 94). Prospectors' name reported on the 1903 Campion Mining and Trading Co. map by George M. Ashford.

Left Fork American River: stream, see American River.

Left Fork Banner Creek: stream, flows E 1.5 miles to Banner Creek, 10 miles N of Nome, Seward Peninsula Highlands; 64° 39' N, 165° 20' W; (map 94). Prospectors' name shown on the 1902 "Map of the Nome and Snake River Country" by J. M. Davidson.

Left Fork Cache Creek: stream, flows E 8 miles to Cache Creek, 15 miles W of Fairbanks, Yukon-Tanana Highlands; 64° 51' 10" N, 148° 19' 45" W; (map 100). Variant: Cash Creek. Name shown as Cash Creek by C. W. Joint on a manuscript map in 1905, but published in its present form by USGS in 1952.

Left Fork Casadepaga River: stream, see Lower Willow Creek.

Left Fork Chicken Creek: stream, flows S 2.5 miles to Chicken Creek, 50 miles SW of Eagle, Yukon-Tanana Highlands; 64° 07' N, 141° 55' W; (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Left Fork Chicken Creek: stream, see Chicken Creek.

Left Fork Dexter Creek: stream, flows N 0.5 miles to Dexter Creek, 6 miles NNE of Nome, Seward Peninsula Highlands; 64° 34' 42" N, 165° 20' 25" W; (map 94). Prospectors' name reported on a 1901 map of Cape Nome gold fields by David Fox, Jr.

Left Fork Dome Creek: stream, flows SW 1 mile to Dome Creek, 23 miles NW of Solomon, Seward Peninsula Highlands; 64° 53' N, 164° 39' W; (map 95). Variant: Left Fork Iron Creek. Prospectors' name reported as "Left Fork" on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Left Fork Dry Creek: stream, heads on Newton Peak, flows SW 1.5 miles to Dry Creek, 3 miles NE of Nome, Seward Peninsula Highlands; 64° 32' N, 165° 19' W; (map 94). Variant: Newton Creek, Newton Gulch No. 2. Prospectors' name reported in 1904 by T. G. Gerdine, USGS. Earlier maps showed "Newton Creek" or "Newton Gulch No. 2." See Newton Gulch.

Left Fork Goose Creek: stream, flows S 2 miles to Goose Creek, 30 miles SE of Rampart, Yukon-Tanana Highlands; 65° 19' 35" N, 149° 29' 00" W; (map 105). Local name reported in 1908 by USGS (Covert and Ellsworth, 1909, pl. 5).

Left Fork Harris Creek: stream, flows E 0.7 miles to Harris Creek which flows to North Fork Kougatok River, W of Harris Dome and 41 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 38' N, 164° 35' W; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Left Fork Hunter Creek: stream, flows NW 7.6 miles to Hunter Creek, 39 miles NW of Haycock, Seward Peninsula Highlands; 65° 46' N, 161° 28' W; (map 109). Local name reported in 1908 by USGS (Brooks and others, 1909, fig. 21).

Left Fork Iron Creek: stream, see Left Fork Dome Creek.

Left Fork Kougatok Creek: stream, see Left Fork Kougatok River.

Left Fork Kougatok River: stream, flows NE 4 miles to Kougatok River, 18 miles S of Midnight Mountain and 45 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 31' N, 164° 43' W; (map 110). Variant: Left Fork Kougatok Creek. Prospectors' name reported in 1900 by Brooks (1901, pl. 11), USGS.

Left Fork Kougatok River: stream, see Washington Creek.

Left Fork Kviguk River: stream, see Koyuk River.

Left Fork McKinley Creek: stream, see Enterprise Creek.

Left Fork Onokovik River: stream, see Ishut Creek.

Left Fork Slate Creek: stream, flows NE 0.5 miles, joins Right Fork to form Slate Creek which flows E to Nome River, 13 miles N of Nome, Seward Peninsula Highlands; 64° 42' N, 165° 20' W; (map 94). Prospectors' name shown on the 1902 "Map of the Nome and Snake River Country" by J. M. Davidson.

Left Fork Tributary Creek: stream, flows E to Tributary Creek near its head about 10 miles NE of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name reported on a prospector's manuscript map dated 1902. This stream cannot be precisely located on current maps.

Left Fork West Glacier Creek: stream, heads at glacier terminus in Chigmit Mountains, flows S 14 miles, joins Right Fork to form West Glacier Creek, 5 miles N of Chinitna Bay, Aleutian Range; 59° 55' 40" N, 153° 17' 20" W; (map 51). Local name published by USGS in 1958.

Left Fork Windy Creek: stream, flows NE 4.5 miles to Windy Creek which flows to Kougarok River, 48 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 26' N, 164° 48' W; (map 110). Variant: Blue-Stone Creek. Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Left Head: bay, NE arm of Port Moller, near SW end of Alaska Peninsula, Aleutian Range; 55° 50' 30" N, 160° 18' 00" W; (map 28). Named by Atwood (1911, pl. 2), USGS.

Lefthand Bay: bay, extends W 4 miles inland from Balboa Bay, 10 miles N of Unga Island, on Alaska Peninsula, Aleutian Range; 55° 32' N, 160° 40' W; (map 28). Variant: Left Arm. Named by Atwood (1911, pl. 2), USGS.

Leg Hills: hills, 500 ft., central Kiska Island, Aleutian Islands; 51° 58' 15" N, 177° 24' 15" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Legend Hills: hills, 506 ft., center of Kiska Island, Aleutian Islands; 51° 56' 30" N, 177° 25' 00" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Leghveehuk Creek: stream, heads in lake, flows SW 1 mile to Koozata River, 1 mile N of Koozata Lagoon and Silook Camp, St. Lawrence Island; 63° 25' N, 170° 40' W; BGN 1951; (map 93). Variant: Leghvihak Creek. Eskimo name sometimes spelled "Leghvihak;" reported in 1944 by Lawrence Kulukhan, of Gambell.

Leghvihak Creek: stream, see Leghveehuk Creek.

Legina Island: island, Legma Island.

Legma Island: island, 1.8 miles long, 3 miles W of Goddard, in Necker Islands off W coast of Baranof Island, Alexander Archipelago; 56° 49' 30" N, 135° 27' 00" W; (map 5). Variant: Legina Island. Aleut name reported to mean "calm" recorded in 1809 by Ivan Vasiliev the first, IRN.

Legon: stream, see Innoko River.

Lehunua Island: island, 0.2 miles long, in Chilkat Inlet, off SW coast of Chilkat Peninsula, 22 miles SW of Skagway, Coast Mountains, 59° 08' 45" N, 135° 22' 45" W; BGN 1923; (map 45). Variant: Lehunuwu Island, Tlekunuwu Island. "Lehunua" is a Tlingit Indian name variously

spelled "Lehunuwu" and "Tlekunuwu" and is said to mean "red-ocher fort"; reported in 1923 by IBC and published in 1924 by USC&GS.

Lehunua Point: point of land, on SW coast of Chilkat Peninsula, in Chilkat Inlet, 0.4 miles E of Kochu Island and 22 miles SW of Skagway, Coast Mountains; 59° 08' 45" N, 135° 22' 45" W; BGN 1923; (map 45). Variant: Lehunuwu Point, Tlekunuwu Point. "Lehunva" is a Tlingit Indian name variously spelled "Lehunuwu," "Tlekunuwu," etc., meaning "red-ocher fort," reported by IBC in 1923 and published by USC&GS in 1924.

Lehunuwu Point: point of land, see Lehunua Point.

Leila, Lake: lake, 1.1 miles long, in course of Eureka Creek, SE of Tahnetta Pass, on Glenn Highway, 62 miles NE of Palmer, Copper River Basin; 61° 52' 45" N, 147° 19' 00" W; (map 69). Named in 1898 by Capt. E. F. Glenn, USA.

Leisnoi Island: island, see Liesnoi Island.

Leland Islands: islands, in group 1.5 miles long, in Glacier Bay, Glacier Bay National Monument, 2 miles S of Sandy Cove and 62 miles NW of Juneau, St. Elias Mountains; 58° 39' 10" N, 135° 59' 15" W; BGN 1948; (map 11). Named in 1942 by USC&GS.

Leland, Mount: mountain peak, see Henry Clay, Mount.

Lemesurier Island: island, 5 miles across, in Icy Strait, between North and South Passages, 0.7 miles NW of Goose Island and 27 miles NW of Hoonah, St. Elias Mountains; 58° 17' N, 136° 05' W; (map 10). Named by W. H. Dall, USC&GS, in 1879, for a midshipman on H.M.S. Chatham, who commanded one of Vancouver's boats during the exploration of Cross Sound in 1794. The name was published in the 1883 Alaska Coast Pilot (p. 190).

Lemesurier Island: island, see Misery Island.

Lemesurier Point: point of land, on NE tip of Kayak Island, 18 miles SE of Katalla, Malaspina Coastal Plain, 60° 00' 15" N, 144° 12' 00" W; (map 64). Variant: Lemesurier Point, Mesurier Point, Punta de Navia. Explored by Le Mesurier, RN, about June 15, 1794, and named for him by Capt. George Vancouver, RN. Spanish explorers who were in the area about the same time, called it "Punta de Navia," meaning "ship point."

Lemesurier Point: point of land, W tip of Cleveland Peninsula, Alexander Archipelago; 56° 46' N, 132° 17' W; (map 4). Variant: Point Mesurier, Misery Point. This feature was discovered by James Johnstone, RN; named August 25, 1793, for a midshipman on H.M.S. Chatham (Wagner, 1937, P. 394).

Lemeta Subdivision: village, see Lemeta.

Lemeta Tract: village, see Lemeta.

Lemeta: village, pop. 1,015, a residential suburb 1 mile N of Fairbanks, Tanana Lowland; 64° 51' 30" N, 147° 43' 30" W; (map 100). Variant: Lemeta Tract, Lemeta Subdivision. Local name reported in 1950 by USGS topographers.

Lemley Rock: rocks, see Lemly Rocks.

Lemly Rock: rocks, see Lemly Rocks.

Lemly Rocks: rocks, offshore at Lemesurier Point SW coast of Cleveland Peninsula, Alexander Archipelago; 55° 46' 05" N, 132° 17' 00" W; BGN 1900; (map 4). Variant: Lemley Rock, Lemly Rock. Named in 1886 by Lt. Comdr. R. Clover, USN, for "Capt. Samuel Conrad Lemly, Judge Advocate General, USN." The name was published erroneously as Lemley by Lt. Comdr. H. E. Nichols (U.S. Coast and Geodetic Survey, 1891, p. 106), USN.

Lemon Brook: stream, flows S 1 mile to Lick Creek, on central Kiska Island, Aleutian Islands; 51° 57' 00" N, 177° 27' 35" E; (map 14). shown on a 1943 USAAF map.

Lemon Creek Glacier: glacier, 4 miles long, trends S to Blackerby Ridge, 1 mile NE of Salmon Creek Reservoir and 4 miles NE of Juneau, Coast Mountains; 58° 21' 30" N, 134° 21' 30" W; (map 11). Variant: Lemon Glacier. Local name derived from Lemon Creek which drains the glacier; reported by W. T. Peters, and published in 1902 by USGS.

Lemon Creek: stream, flows 6 miles SW to Gastineau Channel, 0.8 miles E of Sunny Point and 4.8 miles NW of Juneau, Coast Mountains; 58° 21' N, 134° 30' W; (map 11). Reportedly named for John Lemon, who in 1879 did some placer mining on the creek with James Hollywood. In 1880 he joined the Edmund Bean party of prospectors who blazed a trail over Chilkoot Pass to the headwaters of the Yukon (DeArmond, 1957, p. 2930).

Lemon Creek: stream, flows NE 0.7 miles to Bering Sea, center of Kiska Island, Aleutian Islands; 51° 59' 12" N, 177° 27' 08" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Lemon Glacier: glacier, see Lemon Creek Glacier

Lemon Point Rock: rock, in Affleck Canal, near the mouth of Port McArthur, on S coast of Kuiu Island, Alexander Archipelago; 56° 04' N, 134° 06' 35" W; (map 5). Local name published by USC&GS in 1932 Coast Pilot (p. 249).

Lemon Point: point of land, at N point of entrance to Port McArthur, in Affleck Canal, on S coast of Kuiu Island, Alexander Archipelago; 56° 04' 20" N, 134° 07' 20" W; (map 5). Named in 1886 by Lt. J. M. Helm, USN, for charting purposes; published in 1887 by USC&GS on Chart 706.

Lena Beach: village, pop. 54, in Lena Cove, on Favorite Channel, 14 miles NW of Juneau, Coast Mountains; 58° 23' 35" N, 134° 44' 50" W; (map 11). Name published in 1940 by the Bureau of the Census.

Lena Cove: cove, 0.5 miles across, on E shore of Favorite Channel, 0.6 miles S of Tee Harbor and 14 miles NW of Juneau, Coast Mountains; 58° 24' N, 134° 46' W; (map 11). Named by USC&GS for Mrs. Lena Vanderbilt DeGroof; published in 1893 on Chart 8300.

Lena Creek: stream, flows 1 mile NW to Lena Cove on Favorite Channel, 1 mile SE of Tee Harbor and 13 miles NW of Juneau, Coast Mountains; 58° 23' 40" N, 134° 44' 45" W; (map 11). Name published in 1962 by USGS.

Lena, Point: point of land, at S entrance to Lena Cove on Favorite Channel, 14 miles NW of Juneau, Coast Mountains; 58° 23' 45" N, 134° 46' 45" W; (map 11). Named by Capt. L. A. Beardslee, USN, in 1880 and published by USC&GS in the 1883 Coast Pilot (p. 174).

Lenant Creek: stream, flows SW 7 miles to McCoy Creek, 29 miles NW of Big Delta, Yukon-Tanana Highlands; 64° 29' 30" N, 146° 21' 00" W; (map 101). Local name reported in 1910 by USGS (Capps, 1912, pl. 1).

Lenard Harbor: bay, 2 miles across, on E side of Cold Bay, 9 miles SE of village of Cold Bay, at SW end of Alaska Peninsula, Aleutian Range; 55° 08' N, 162° 27' W; (map 29). Named by USBF in 1888.

Lend Ridge: ridge, 0.6 miles long, SW of Quisling Cove, along Bering Sea coast of Kiska Island, Aleutian Islands; 51° 58' 35" N, 177° 22' 15" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Lennan Shoal: shoal, off SW coast of Dolgoi Island, Aleutian Range; (map 28). Named in 1880 by W. H. Dall, USC&GS, and shown on an 1882 coast chart; the shoal has not been positively identified.

Lenora Lake: lake, 0.3 miles long, drains NW into Lower Ugashik Lake, on Alaska Peninsula, 20 miles SE of Ugashik; 57° 24' 40" N, 156° 54' 30" W; (map 36). Named in 1923 by R. H. Sargent, USGS.

Lenore Hill: mountain, 3,302 ft., on S coast of Alaska Peninsula, 9 miles NE of entrance to Chinitna Bay and 50 miles NW of Homer, Aleutian Range; 59° 58' 45" N, 152° 47' 00" W; (map 50). Name reported by F. H. Moffit, USGS, in 1920 (in Brooks and others, 1922, pl. 2).

Lentil Hill: hill, 420 ft., center of Kiska Island, Aleutian Islands; 51° 56' 09" N, 177° 25' 24" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Leo Anchorage: anchorage, 0.5 miles across, 1 mile NE of Klokachef Island, on Chichagof Island, 19 miles SE of Chichagof, Alexander Archipelago; 57° 25' 20" N, 135° 51' 30" W; (map 9). Surveyed and named in 1884 by Comdr. J. B. Coghlan, USN, presumably for the steamer Leo, which operated in these waters at that time. The name was published by USC&GS in 1891 Coast Pilot (p. 180).

Leo Creek: stream, 0.1 miles long, on Chichagof Island, 1.5 miles NE of Klokachef Island, flows from Leo Lake to Leo Anchorage, 19 miles SE of Chichagof, Alexander Archipelago; 57° 25' 30" N, 135° 51' 00" W; (map 9). Local name reported in 1951 by USGS.

Leo Gulch: ravine, see Lee Gulch.

Leo Hill: hill, 132 ft., E of Bluff Cove, Kiska Island, Aleutian Islands; 51° 59' 15" N, 177° 29' 05" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Leo Island: island, 0.1 miles across, in Klag Bay, 2 miles S of Chichagof, of W coast of Chichagof Island, Alexander Archipelago; 57° 38' 00" N, 136° 05' 35" W; BGN 1908; (map 9). Named in 1908 by USC&GS, probably for the steamer Leo.

Leo, Lake: lake, 0.5 miles across, 1.5 miles NE of Klokachef Island, on Chichagof Island, 19 miles SE of Chichagof, Alexander Archipelago; 57° 25' 30" N, 135° 51' 00" W; BGN 1930; (map 9). Named in 1928 by USC&GS for adjacent Leo Anchorage.

Leo, Point: point of land, on N shore of Salisbury Sound, on Chichagof Island, 20 miles SE of Chichagof, Alexander Archipelago; 57° 23' 30" N, 135° 50' 30" W; (map 9). Named in 1896 by Lt. Comdr. E. K. Moore, USN, for adjoining Leo Anchorage. The name was published in 1900 by USC&GS on Chart 8282.

Leon Bay: cove, 0.5 miles across, on E shore of Iliamna Lake, 0.8 miles SE of Tommy Point and 15 miles SE of Iliamna, Aleutian Range; 59° 35' N, 154° 38' W; (map 51). Local name published in 1954 by USC&GS.

Leon, Cape: point of land, see Leontovich, Cape.

Leona Lake: lake, 0.4 miles across, on E coast of Baranof Island, 2.4 miles NW of Port Alexander, Alexander Archipelago; 56° 16' N, 134° 42' W; (map 5). Local name recorded in 1951 by USGS.

Leonard Island: island, 0.7 miles long, 0.5 miles W of Long Island, in Yukon River, 2.5 miles SW of Tanana, Nowitna Lowland; 65° 09' 30" N, 152° 10' 00" W; (map 106). Local name reported in 1952 by USGS.

Leonard Wood Point: point of land, see Aurora Point.

Leone, Lake: lake, 0.5 miles across, 1 mile SW of Kuluk Bay, on NE coast of Adak Island, Aleutian Islands; 51° 50' 30" N, 176° 38' 30" W; (map 17). Local name published in 1951 on a USGS map.

Leonora Creek: stream, flows WSW 2.6 miles to Minook Creek, 1 mile E of Rampart and 62 miles ENE of Tanana, Yukon-Tanana Highlands; 65° 30' 30" N, 150° 07' 00" W; (map 106). Prospectors' name shown on a manuscript map dated 1906; reported in 1956 by Orth.

Leontavitch, Cape: point of land, see Leontovich, Cape.

Leontovich, Cape: point of land, on N coast of Alaska Peninsula, 4 miles NE of mouth of Cathedral River, 18 miles NE of Moffet Point and 33 miles NE of village of Cold Bay, Bristol Bay Lowland; 55° 40' 25" N, 162° 16' 45" W; BGN 1966; (map 29). Variant: Cape Leon, Cape Leontavitch, Cape Leontovitch, Starling Cape, Starling Point. Named by Capt. Lutke (1836, p. 261) IRN, for Lt. Alexander Leontovich, IRN, a member of his party on his voyage around the world, 1826-1829.

Leontovitch, Cape: point of land, see Leontovich, Cape.

Leper Lake: lake, 0.1 miles across, at mouth of Lazy Creek, center of Kiska Island, Aleutian Islands; 51° 56' 25" N, 177° 26' 00" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Lepping's, Cape: point of land, see Seppings, Cape.

Leroy Creek: stream, flows NW 2.4 miles to Bluestone River, 12 miles SE of Teller, Seward Peninsula Highlands; 65° 07' N, 166° 07' W; (map 111). Local name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Leskoff: point of land, see Lieskof, Cape.

Lesnoi Islet: island, see Liesnoi Island.

Lesser Arm: bay, see Small Arm Whale Bay.

Lessy, Mys: point of land, see Fox Cape.

Lester Island: island, 3.8 miles long, southernmost of the Beardslee Islands, in Glacier Bay, in Glacier Bay National Monument, St. Elias Mountains; 58° 28' N, 135° 50' W; BGN 1942; (map 11). Named in 1942 by USC&GS for Rear Adm. Lester Anthony Beardslee, 1836-1903, who as commander of the U.S.S. Jamestown, surveyed various Alaskan coves and harbors in 1879-1880, and who is supposed to have been the first to apply the name "Glacier Bay."

Lester River: stream, flows NW 15 miles to Tuxekan Passage, on W coast of Prince of Wales Island, Alexander Archipelago; 55° 49' 15" N, 133° 10' 00" W; (map 4). Variant: Staney Creek. Local name recorded in 1949 by USGS.

Let Island: island, 0.2 miles across, 4 miles SW of Deer Island, Aleutian Range; 54° 50' 15" N, 162° 26' 30" W; BGN 1942; (map 25). Variant: Big Sandy Island, Low Island Number 2. Named by USC&GS in 1939 for the triangulation station Let 1936 located on the island. According to USC&GS, this island was locally called "Big Sandy Island." The USBF called it "Low Island Number 2" in 1888.

Lethe, River: stream, on Alaska Peninsula, in Katmai National Monument, heads in glacial lake on Mount Mageik and flows NW 14 miles through Valley of Ten Thousand Smokes to Ukak River, 18 miles NW of Mount Katmai, Aleutian Range; 58° 23' 45" N, 155° 24' 00" W; BGN 1924; (map 42). Named in 1917 by R. F. Griggs, National Geographic Society; suggested by Lethe, the "river of forgetfulness" in the Hades of Greek mythology.

Letniki-Takaiak: locality, see Takaiak.

Letnikof Cove: cove, 0.5 miles across, on SW coast of Chilkat Peninsula, 1.6 miles N of Kochu Island, in Chilkat Inlet, 19 miles SW of Skagway, Coast Mountains; 59° 10' 40" N, 135° 24' 10" W; (map 45). Variant: Letnikov Cove, Litnekof Cove. Named "B[ukhta] Letnikov,"

meaning "Letnikov Cove," on the 1848 Russian Hydrog. Dept. Chart 1396. It was published as Letnikoff Cove by USC&GS in the 1883 Coast Pilot (p. 197).

Letnikof Cove: locality, on SW shore of Letnikof Cove, Chilkat Peninsula, Coast Mountains; 59° 11' N, 135° 24' W; (map 45). Cannery reported in 1962 by USC&GS.

Letnikov Cove: cove, see Letnikof Cove.

Leto Point: point of land, on E shore of Kizhuyak Bay, 3.3 miles SW of Kekur Point, 16 miles W of Kodiak, Kodiak Island; 57° 49' 30" N, 152° 50' 45" W; (map 34). Local name published in 1943 by USC&GS.

Letushkwin: locality, on Admiralty Island on N shore of Chaik Bay, 11 miles S of Angoon, Alexander Archipelago; 57° 20' 10" N, 134° 31' 40" W; (map 9). Variant: Bear Fort, Khudsnu, Old Khootznahoo, Old Kootznahoo. Tlingit Indian village reported by W. H. Dall, USC&GS, in the 1883 Coast Pilot.

Leuel Lake: lake, 100 yd. across, south-central Kiska Island, Aleutian Islands; 51° 56' 15" N, 177° 23' 03" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Levacheff, Port: bay, see Levashef, Port.

Levashef, Port: bay, at head of Captains Bay in Unalaska Bay, on NE coast of Unalaska Island, Aleutian Islands; 53° 49' 50" N, 166° 36' 15" W BGN 1931; (map 23). Variant: Captains Harbor, Port Levacheff, Saint Paul Harbor. Russian name given in honor of Lt. Michael Levashev, IRN, who spent the winter here in 1768-69, by Adm. Krusenstern (1827, atlas), IRN, who changed the name from "Captains Harbor" as given by Lt. Sarichev, IRN, in 1790 to distinguish it from Captains Bay. Levashev called this feature St. Paul Harbor after his ship (Coxe, 1787, p. 222).

Levashef, Port: bay, see Captains Bay.

Level Island: islands, see Level Islands.

Level Islands: islands, 2.7 miles long, between Sumner Strait and Duncan Canal, SE coast of Kupreanof Island, Alexander Archipelago; 56° 28' N, 133° 05' W; (map 6). Variant: Level Island. Descriptive name given in 1886 by Lt. Comdr. A. S. Snow, USN, because "at high water it becomes two islands."

Level Mountain: hill, 600 ft., on Revillagigedo Island, 0.4 miles N of Ketchikan, Alexander Archipelago; 55° 21' N, 131° 38' W; (map 3). Descriptive name given in 1883 by Lt. Comdr. H. E. Nichols, USN.

Levelock Creek: stream, flows SE 11 miles to Kvichak River, 58 miles E of Dillingham, Bristol Bay Lowland; 59° 07' 15" N, 156° 50' 30" W; (map 52). Local name published by USGS in 1952. The stream takes its name from the nearby village.

Levelock: village, pop. 88, on right bank of Kvichak River, 58 miles E of Dillingham, Bristol Bay Lowland; 59° 07' N, 156° 51' W; (map 52). Variant: Kvichak, Livelock, Old Kvichak. Eskimo village named "Kvichak" reported by early Russian explorers and mentioned in 11th Census in 1890. A post office called "Levelock" was established here in 1939 (Ricks, 1965, p. 39).

Lewes River: stream, see Yukon River.

Lewis Cass, Mount: mountain, 6,864 ft., on Alaska Canada boundary, 23 miles N of mouth of Unuk River, at Burroughs Bay, Coast Mountains; 56° 24' 25" N, 131° 05' 00" W; BGN 1924; (map 7). Named in 1924 by USGS for Lewis Cass, 1782-1866, American statesman, diplomat, soldier, and author.

Lewis Gulch: ravine, trends W 1.5 miles to Crooked Creek 1 mile N of its junction with American Creek, 43 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 62° 03' N, 158° 14' W; BGN 1945; (map 79). Variant: Louise Gulch. Prospectors' name obtained in 1944 by USGS; named for a "prospector named Lewis who mined at the mouth." Called "Louise Gulch" in 1923 by Mertie and Harrington (1924, pl. 4), USGS.

Lewis Island: island, 0.3 miles long, in Revillagigedo Channel, 0.5 miles E of Ham Island, Alexander Archipelago; 55° 11' 45" N, 131° 21' 50" W, (map 3). Variant: Side Island, Walker Island. Named by local pilots about 1880; called "Side Island" in the 1883 Coast Pilot (p. 7). This island has been confused with near Walker Island.

Lewis Island: island, see Walker Island.

Lewis Peak: peak, 7,800 ft., in Cathedral Spires of Kichatna Mountains, 81 miles W of Talkeetna, Alaska Range; 62° 24' N, 152° 41' W; (map 8). Named in 1899 by Lt. J. S. Herron, USA.

Lewis Point: locality, on Lewis Point on N bank of Nushagak River, 14 miles SE of Dillingham, Bristol Bay Lowland; 59° 00' N, 158° 06' W; BGN 1937; (map 40). Eskimo settlement or camp reported in 1924 by USBF.

Lewis Point: point of land, on N bank of Nushagak River, 13 miles SE of Dillingham, Bristol Bay Lowland; 59° 00' N, 158° 06' W; BGN 1937; (map 40). Local name reported in 1937 by USGS.

Lewis Point: point of land, on NE coast Gravina Island, 4 miles NW of Ketchikan Harbor, Alexander Archipelago; 55° 22' 30" N, 131° 44' 30" (map 3). Named about 1880 by local navigators; reported by USC&GS.

Lewis Reef: reef, in Tongass Narrows, extends 1,000 ft., off Lewis Point on NE coast of Gravina Island, Alexander Archipelago; 55° 22' 30" N, 131° 44' 15" W; (map 3). Named about 1880 by local navigators; reported by USC&GS.

Lewis Rich Channel: stream, tributary of Kobuk River, flows SW 7 miles to Hotham Inlet, 52 miles NW of Selawik, Kotzebue-Kobuk Lowland; 66° 43' N, 161° 52' W; (map 114). Local name reported by the U.S. Army Corps of Engineers in 1955.

Lewis River Slough: lake, 1 mile long, one Chedatna Lakes, on W bank of Ivan River, 1 mile NE of Tyonek, Cook Inlet Low; 61° 15' 45" N, 150° 46' 10" W; (map 70). Local name reported in 1958 by USGS derived from nearby Lewis River.

Lewis River: stream, heads on Mount Susitna, flows S 30 miles to Cook Inlet, 30 miles W of Anchorage, Cook Inlet Lowland; 61° 14' N, 150° 48' W; BGN 1916; (map 70). Local name reported in 1916 by USGS.

Lewis River: stream, see Igloo Creek.

Lewis River: stream, see Ivan River.

Lewis River: stream, see Yukon River.

Lewis' Store: locality, see Lewis.

Lewis, Cape: promontory, 1,222 ft., on Chukchi Sea coast, 29 miles NE of village of Point Hope, Arctic Slope; 68° 42' 50" N, 166° 12' 01" W; (map 129). Variant: Ee-ree-nick Cape, Irinik Point. Named in 1826 by Capt. Beechey (1831, map on p. 328), RN, for Charles Lewis of his party. According to USC&GS in 1950, the Eskimo name is "Ee-ree-nick [Irinik]," meaning "falling rocks."

Lewis: locality, on right bank of Yukon River and 58 miles E of Nulato, Koyukuk Lowland; 64° 43' 30" N, 156° 09' 00" W; (map 97). Variant: Lewis' Store. Riverboat pilots' name reported in 1908 by A. G. Maddren, USGS.

Lgun, Kamen: rocks, see Liar Rocks.

Lgvac, Cape: point of land, see Kanatak Cape.

Lhakatruntamena: lake, see Fish Creek Lake.

Lhookoovik Cape: point of land, see Shlokovik Point.

Lhookoovik, Cape: point of land, see Vngyat Point.

Liakik Bay: bay, see Three Saints Bay.

Liakik, Cape: point of land, between Three Saints Bay and Sitkalidak Strait, on SE coast of Kodiak Island; 57° 07' N, 153° 27' W; (map 34). Variant: Mys Lyakh, Mys Lyakhik. Transliteration of "M[ys] Lyakhik," published by Capt. Tebenkov (1852, map 23). Possibly derived from the Aleut word "lakh," which, according to R. H. Geoghegan, means "black-footed tundra goose," and which Father Veniaminov (1846, p. 47) published as "Lyakh."

Liar Rocks: rocks, S of Eastern Channel, Sitka Sound, 3 miles S of Sitka, Alexander Archipelago; 57° 01' 40" N, 135° 21' 50" W; (map 9). Variant: False Rock, Kamen Lgun. This is an 1882 translation by USC&GS of the name given in 1809 by the Russian navigator Ivan Vasiliev the first; reported by Lt. Sarichev (1826, map 19), IRN, as K[amen] Lgun."

Libbey Glacier: glacier, heads on Haydon Peak, trends S 6 miles to Agassiz Glacier, 11 miles S of Mount St. Elias and 60 miles NW of Yakutat, St. Elias Mountains; 60° 08' N, 140° 57' W; BGN 1929; (map 66). Variant: Libby Glacier. So named in 1888 by H. W. Topham (1889) for William Libbey, Jr., 1855-1927, of Princeton Univ., scientist, geologist, geographer, writer, and soldier, who was a member of the New York Times Expedition to this area in 1886.

Libby Creek: stream, heads about 57° 29' N, 133° 22' W, flows 5 miles SSW to Stephens Passage, 76 miles NE of Sitka, Coast Mountains; 57° 28' 10" N, 133° 30' 30" W; (map 8). Local name reported in 1955 by USGS.

Libby Glacier: glacier, see Libbey Glacier.

Libby Island: island, 0.5 miles across, at mouth of Graves Harbor, in Glacier Bay National Monument, 50 miles NW of Hoonah, St. Elias Mountains; 58° 16' 40" N, 136° 46' 45" W; (map 10). Name published by USC&GS in the 1901 Alaska Coast Pilot (p. 212).

Libby River: stream, heads N of Mount Bendeleben, flows SW 14 miles to Niukluk River, 50 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 02' N, 164° 14' W; (map 110). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Libby Station: village, see Teller.

Libbysville: village, see Teller.

Libbyville: village, on N coast of Alaska Peninsula, 3.5 miles NW of Naknek, Bristol Bay Lowland; 58° 46' 40" N, 157° 03' 20" W; (map 41). Name published by USC&GS in 1947 Coast Pilot (p. 521). This village is the site of a Libby, McNeill, and Libby Co. cannery.

Libel Hill: hill, 500 ft., center of Kiska Island, Aleutian Islands; 51° 57' N, 177° 26' E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Liberator Creek: stream, heads at Liberator Lake, flows NNE and E 12 miles to Colville River, Arctic Slope; 68° 59' N, 158° 10' W; BGN 1960; (map 132). Named by USGS geologists in 1950 for the lake which it drains.

Liberator Lake: lake, 1.5 miles across, 58 miles NW of Howard Pass, Arctic Slope; 68° 53' N, 158° 22' W; BGN 1960; (map 132). So named by personnel of the Naval Petroleum Reserve No. 4 explorations in the 1940's, because the lake was used as a landmark by supply-plane pilots flying converted B24 bombers called "Liberator" by the British during World War II.

Liberator Ridge: ridge, elev. 3,176 ft., trends EW 10 miles S of Liberator Lake, Arctic Slope; 68° 50' N, 158° 15' W; (map 132). Named by personnel of the Naval Petroleum Reserve No. 4 explorations in 1949 for Liberator Lake.

Liberty Cap: point of land, see Battery Point.

Liberty Creek: stream, flows N 5 miles to Walker Fork, 55 miles SW of Eagle; 64° 02' N, 141° 34' W; (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Liberty Creek: stream, flows NE 13 miles to Copper River, 4 miles SE of Lower Tonsina and 66 miles NE of Valdez, Copper River Basin; 61° 38' 15" N, 144° 32' 30" W; (map 68). Local name published in the 1950's by USGS.

Liberty Falls: falls, on Liberty Creek 1.2 miles S of its mouth, on Copper River, 66 miles NE of Valdez, Copper River Basin; 61° 37' 20" N, 144° 32' 45" W; (map 68). Local name published in the 1950's by USGS.

Liberty Fork: locality, see Liberty.

Liberty Fork: stream, heads in Canada, flows SW 12 miles to join King Solomon Creek to form O'Brien Creek, 22 miles S of Eagle, Yukon-Tanana Highlands; 64° 29' 30" N, 141° 11' 15" W; (map 102). Prospectors' name reported in 1898 by E. C. Barnard, USGS. This is one of several names in the "Fortymile district" that are patriotic.

Liberty Landing: locality, see Johnnys Village.

Liberty: locality, N of junction of King Solomon Creek and Liberty Fork, 22 miles S of Eagle, Yukon-Tanana Highlands; 64° 29' 30" N, 141° 11' 15" W; (map 102). Variant: Liberty Fork. Mining camp, now abandoned, reported in 1903 by Prindle (1905, p. 10), USGS.

Lick Creek: stream, flows S 2.6 miles to Gertrude Cove, central Kiska Island, Aleutian Islands; 51° 56' 24" N, 177° 27' 28" E; (map 14). Variant: Gin Brook, Collins Creek. An arbitrary name beginning with "L" to correspond to "L" grid used by U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Lick Creek: stream, heads in Nutzotin Mountains, flows NE and NW 18 miles to Nabesna River, 7.5 miles SW of Jatahmund Lake and 29 miles SW of Northway, Alaska Range; 62° 35' N, 142° 16' W; BGN 1941; (map 84). So named by USGS field party because the clays along the stream were licked by mountain sheep; reported in 1940 by P. S. Smith, USGS.

Licking Creek: stream, on Revillagigedo Island, flows SW 3.2 miles to Carroll Inlet, E of Nigelius Point, Alexander Archipelago; 55° 33' 20" N, 131° 20' 10" W; BGN 1923; (map 3). Named in 1921 by USFS.

Lida Island: island, 0.1 miles across, 0.5 miles NW of Caton Island, Sanak Islands; Aleutian Range; 54° 25' 20" N, 162° 29' 10" W; (map 25). Name given in 1880 by USBF.

Lidrejana Bay: bay, see Andrew Bay.

Liebes Cove: bay, 1.2 miles across, off Saint Michael Bay, 2 miles SE of Saint Michael Yukon-Kuskokwim Delta; 63° 27' N, 161° 59' W; (map 91). Local name reported in 1898 by USC&GS

Liebigstag River: stream, see Chetaslina River.

Liebigstag's: locality, see Liebigstag.

Liebigstag: locality, "on the left bank of Copper River, near 61° 57' N, 145° 45' W." Variant: Liebigstag's. A former Ahtena Indian village reported in 1885 as "Liebigstag's" by Lt. Allen (1887, p. 120), USA.

Lief Cove: cove, 0.8 miles across, on W coast of Kiska Island, Aleutian Islands; 51° 56' 15" N, 177° 19' 20" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II. Published on a 1953 AMS map.

Liesistoi: island, see Wooded Island.

Lieskof, Cape: point of land, on N coast of Alaska Peninsula, at its SW end, 5 miles N of Black Hills and 45 miles NE of village of Cold Bay, Bristol Bay Lowland; BGN 1965; (map 29). Variant: Garfield Point, Leskoff, Lieskoff, Liskoff Mys Lyskova. Named "Mys Lyskova," or "Lyskov Cape," in 1828 by Capt. Lutke (1836, p. 261), IRN, for Lt. Arkady Lyskov, IRN, who accompanied him on his voyage around the world in 1826-29. The name was published in 1847 on Chart 1379 by the Russian Hydrog. Dept. and by Capt. Tebenkov (1852, map 24), IRN. The name "Garfield" was applied to this point in 1888 by USBF.

Lieskoff: point of land, see Lieskof, Cape.

Liesnoi Island: island, 0.1 miles across, 2.5 miles N of Fish Bay, in Peril Strait, off NW coast of Baranof Island, 24 miles SE of Chichagof, Alexander Archipelago; 57° 25' 10" N, 135° 36' 20" W; (map 9). Variant: Liesnoi Islet, Ostrov Lysnoy, Woody Islet. Russian name meaning "wooded," given in 1809 by the navigator Ens. Vasiliev (cnna); published in 1848 on Russian Hydrog. Dept. Chart 1397 as "Os[trov] Lysnoy."

Liesnoi Island: island, 0.1 miles across, off S coast of Kruzof Island, 14 miles SW of Sitka, Alexander Archipelago; 57° 00' 45" N, 135° 41' 30" W; (map 9). Variant: Lesnoi Islet, Ostrov Lysnoy. Russian name meaning "wooded" given in 1809 by the navigator Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Lysnoy."

Liesnoi Island: island, 0.4 miles long, 4.4 miles SW of Goddard, in Necker Islands, on W coast of Baranof Island, Alexander Archipelago; 56° 48' 45" N, 135 28' 45" W; (map 5). Variant: Lusnoi Island, Ostrov Lysnoy. Named in 1809 by the Russian navigator, Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Lysnoy," meaning "wooded island."

Liesnoi Island: island, 0.5 miles long, 4.5 miles NW of Wrangell, Alexander Archipelago; 56° 30' N, 132° 29' W; (map 6). Variant: Leisnoi Island. Russian name meaning "wooded" given in 1863 by surveyors from the corvette Rynda See Rynda Island.

Liesnoi Island: island, 1.4 miles long, between Eliza and Woewodski Harbors, off SE coast of Admiralty Island, 14 miles NE of Tyee, Alexander Archipelago; 57° 10' N, 134° 17' W; (map 9). Variant: Ostrov Lysnoy. Named in 1838 by Capt. Lt. D. F. Zarembo; published as "Os[trov] Lysnoy" meaning "wooded island" in 1848 on Russian Hydrog. Dept. Chart 1396.

Liesnoi Island: island, see Makhnati Island.

Liesnoi Island: island, see Woody Island.

Liesnoi islet: island, see Liesnoi Island.

Liesnoi Shoal: shoal, in Peril Strait, 2 miles N of Fish Bay on Baranof Island, 25 miles SE of Chichagof, Alexander Archipelago; 57° 24' 45" N, 135° 36' 30" W; (map 9). Named in 1884 by Comdr. J. B. Coghlan, USN, probably for Liesnoi Island, a short distance to the north. The name was published by USC&GS in 1891 Coast Pilot (p. 182).

Lietnik Cape: point of land, see Lipsett Point.

Lietnik: locality, 10 miles W of Northeast Cape, NE coast of St. Lawrence Island; 63° 20' 10" N, 168° 59' 00" W; (map 93). Variant: Kangighsak Camp. Eskimo name reported by USC&GS in 1925.

Lietnik: locality, see Litnik.

Lieuy Lake: lake, 1 mile long, in course of Dorothy Creek 1.5 miles E of its mouth on Taku Inlet, 16 miles ESE of Juneau, Coast Mountains, 58° 14' 25" N, 134° 00' 15" W; BGN 1954; (map 12). Variant: Lake Veronica. Local name reported in 1947 by USFS.

Lievoi: point of land, see Left Cape.

Light House Rock: rock, see Pilot Rock.

Light Point: point of land, E tip of Kalgin Island, in Cook Inlet, 20 miles SW of Kenai, Cook Inlet Lowland; 60° 29' N, 151° 50' W; (map 62). Local name reported in 1959 by USGS. So named because of the navigation light on the point.

Lighter Creek: estuary, extends NE 1.5 miles to Davis Creek, 5 miles E of Angoon, on W central Admiralty Island, Alexander Archipelago; 57° 31' 20" N, 134° 26' 30" W; (map 9). Named by Comdr. R. W. Meade, USN, and published in 1869 on Hydrog. Chart 225. It was so named because near the mouth of the stream are extensive coal croppings from which considerable lignite was lightered in 1868-69 (U.S. Coast and Geodetic Survey, 1883, p. 159).

Lighthouse Point: point of land, at N tip of Afognak Island, 34 miles N of Afognak; 58° 28' 55" N, 152° 39' 00" W; (map 43). Variant: Mys Afognaka, North Point, Mys Syvernoy. Name published by USC&GS in 1926 and so called because "a 60 foot high light located in a white house is situated there." In 1849 this feature was called "Mys Afognaka," or "Cape Afognak," by the Russian American Company and "Mys Syvernoy" meaning "north cape" by Capt. Tebenkov (1852, map 22), IRN.

Lighthouse Rocks: rocks, 0.2 miles across, largest is 500 ft. long and 90 ft. high, 30 miles SW of Chowiet Island in Semidi Islands, in Pacific Ocean; Aleutian Range; 55° 47' N, 157° 24' W; (map 31). Variant: Namtschak Rock, Utes Namdak. Named in 1874 by W. H. Dall, USC&GS. Capt. Tebenkov (1852, map 22), IRN, called them "Ut[es] Namdak," or "Namdak

Crag,” whereas Capt. Archimandritov, IRN, is reported to have called them “Namtschak” in 1849.

Lightning Creek: stream, flows N 2 miles to Casadepaga River, 23 miles NE of Solomon, Seward Peninsula Highlands; 64° 53' N, 164° 14' W; (map 95). Prospectors' name reported on a 1902 prospectors' manuscript map.

Lignite Creek: Stream, flows W 15 miles to Nenana River, 3.5 miles NW of Healy, Alaska Range; 63° 54' N, 149° 00' W; (map 87). BGN 1947. Variant: Hoseanna Creek. Name from prospectors; reported in 1902 by A. H. Brooks, USGS. Named for the lignite coal deposits in the area. It was called “Hoseanna Creek” in 1916.

Lignite Creek: stream, in Nutzotin Mountains, heads in Canada, flows NW 2.6 miles to Rocker Creek, 0.3 miles W of Alaska-Canada boundary and 70 miles NE of McCarthy, Alaska Range; 61° 52' 30" N, 141° 00' 30" W; (map 67). Name used by prospectors and reported about 1908 by IBC surveyors.

Lignite: locality, mile 363.3 on The Alaska Railroad, 4 miles N of Healy, Alaska Range; 63° 54' 30" N, 149° 01' 10" W; (map 87). Variant: Dry Creek. Name of a railroad station reported by The Alaska Railroad on its 1922 timetable; derived from the lignite coal found in the area. This station was originally named “Dry Creek.”

Likes Creek: stream, on Kenai Peninsula, flows SW 5 miles to Thumb Cove, 8 miles SE of Seward, Chugach Mountains; 60° 00' 50" N, 149° 17' 45" W; BGN 1910; (map 63). Local name reported in 1909 by Grant and Higgins (1910, pl. 2), USGS.

Lil Creek: stream, flows SE 1 mile to Fox River, 24 miles NE of Solomon, Seward Peninsula Highlands; 64° 46' 45" N, 163° 48' 10" W; (map 95). Variant: “I.X.L. Creek. Prospectors' name published in 1956 by USGS. Reported as “I.X.L.” on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Lila Lake: lake, 0.4 miles long, N of Glenn Highway, SW of Nikolai Lake, 36 miles SW of Glennallen, Copper River Basin; 62° 03' N, 146° 37' W; (map 83). Local name published by USGS in 1951.

Lilac Hill: hill, 925 ft., center of Kiska Island, Aleutian Islands; 51° 58' 52" N, 177° 26' 30" E; (map 14). An arbitrary name beginning with “L” to correspond to “L” grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Lili Creek: stream, flows N 20 miles to Meade River, 88 miles SE of Wainwright, Arctic Slope; 69° 33' N, 158° 06' W; (map 143). Reported to be named for the wife of a member of one of the survey crews; name published by USGS in 1956.

Lili Lake: lake, 0.6 miles across, on Kenai Peninsula, 1.8 miles WNW of the Finger Lakes and 15 miles E of Kenai, Cook Inlet Lowland; 60° 39' 30" N, 150° 49' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Lilian Creek: stream, flows NW to Anvil Creek which flows to Cripple River, about 23 miles NW of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name reported on

a precinct map of Seward Peninsula by Monroe and Hutchins, corrected to June 1903 by Arthur Gibson. This stream cannot be precisely located on current maps.

Liljegren Passage: water passage, in Prince William Sound, extends EW 6 miles between Storey Island and Peak and Naked Islands, 39 miles NE of Chenega, Chugach Mountains; 60° 42' 30" N, 147° 25' 30" W; (map 63). Local name reported in 1910 by USC&GS.

Lillian Creek: stream, flows NW to Kuzitrin River, about 25 miles SW of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name reported on a precinct map of Seward Peninsula by Monroe and Hutchins, corrected to June 1903 by Arthur Gibson. This stream cannot be precisely located on current maps.

Lillian Creek: stream, flows S 2.4 miles to Buster Creek, 8 miles NE of Nome, Seward Peninsula Highlands; 64° 36' N, 165° 15' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Lillian Creek: stream, flows SW 2.2 miles to Henry Creek which flows to Kougarok Creek, 13 miles SW of Midnight Mountain and 50 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 38' N, 164° 55' W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Lillian Creek: stream, flows W 1 mile to Livengood Creek, 48 miles E of Rampart, Yukon-Tanana Highlands; 65° 30' 45" N, 148° 34' 40" W; (map 105). This stream was prospected and named about 1914, by N. R. Hudson, for his daughter. The name was reported in 1915 by A. H. Brooks, USGS.

Lillian Creek: stream, see Magnet Creek.

Lillie Creek: stream, flows SE 4 miles to Lake Aleknagik, in Sunshine Valley, 37 miles NW of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 28' N, 159° 03' W; (map 53). Local name published in 1951 by USGS.

Lilliput Cove: cove, 0.2 miles across, 1.8 miles NW of Vega Point, S coast of Kiska Island, Aleutian Islands; 51° 50' 50" N, 177° 17' 30" E; (map 14). One of many arbitrary names applied to features on Kiska Island by USAAF for tactical purposes during World War II.

Lilliwig Creek: stream, flows SE 1 mile to Ingle Creek, 56 miles SW of Eagle, Yukon Tanana Highlands; 64° 05' 30" N, 142° 01' 45" W; (map 102). Prospectors' name published in 1925 by ARC.

Lilly Creek: stream, flows NW 1 mile to Bering Sea, central Kiska Island, Aleutian Islands; 51° 58' 50" N, 177° 23' 50" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Lilly Creek: stream, flows W 5 miles to Lake Nancy, 3 miles SE of Willow and 34 miles N of Anchorage, Cook Inlet Lowland; 61° 42' 10" N, 150° 00' 25" W; (map 70). Local name reported in 1958 by USGS.

Lilly Lake: lake, on Kenai Peninsula, 0.1 miles long, 6 miles WSW of Ohlson Mountain and 7 miles NW of Homer, Cook Inlet Lowland; 59° 42' 10" N, 151° 42' 10" W; (map 50). Local name reported and published by USGS in the 1950's.

Lily Creek: stream, flows NE 10 miles to Nenana River, 38 miles SE of Healy, Talkeetna Mountains; 63° 22' 20" N, 148° 19' 00" W; (map 87). Local name obtained in 1951 by USGS.

Lily Lake: lake, 0.2 miles long, on Kenai Peninsula N of Sterling Highway, 26 miles E of Kenai, Cook Inlet Lowland; 60° 32' 10" N, 150° 30' 15" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Lily Lake: lake, 0.4 miles long, on Chilkat Peninsula, 1.2 miles SW of Battery Point on Chilkoot Inlet and 18 miles SW of Skagway, St. Elias Mountains; 59° 12' 15" N, 135° 23' 30" W; (map 45). Local name obtained by USGS field personnel and published on Federal maps since 1950.

Lily Lake: lake, 0.7 miles long, between Birch and Elbow Lakes, 15 miles SW of Beaver, Yukon Flats; 66° 17' 50" N, 147° 55' 00" W; (map 118). Probably named by William Yanert who recorded it on a 1916 manuscript map of the Yukon Flats (Stuck, 1917, map facing p. 122).

Lily Lake: lake, 1.2 miles long, in course of Tyone Creek, NW of Moore Lake, 49 miles NW of Glennallen, Copper River Basin; 62° 25' 30" N, 146° 57' 00" W; (map 83). Local name published in 1959 by USGS.

Lily Pad Lake: lake, see Long Lake.

Limb Island: island, 3 miles long, Stikine River. 14 miles NE of Wrangell, Coast Mountains; 56° 40' 30" N, 132° 17' 00" W; (map 6). Variant: Desert Island. Local name recorded in 1953 by USGS.

Lime Butte: ridge, elev. 5,100 ft., extends SW 2 miles from junction of Copper and Dan Creeks, 17 miles SE of McCarthy, Wrangell Mountains; 61° 21' 30" N, 142° 26' 30" W; (map 67). Local name obtained by USGS and published on maps since 1954.

Lime Creek: stream, flows 3 miles NE to Chitina River, E of Iron Creek, 45 miles SE of McCarthy, St. Elias Mountains; 61° 02' 30" N, 141° 50' 30" W; (map 67). Local name reported in 1915 by F. H. Moffit, USGS.

Lime Creek: stream, flows N 1.6 miles to East Fork Solomon River, 14 miles NE of Solomon Seward Peninsula Highlands; 64° 42' N, 164° 06' W, (map 95). Variant: Little Creek. Prospectors' name reported on a 1902 prospectors' manuscript map.

Lime Creek: stream, heads at glacier terminus, flows NW 1.5 miles to Rock Creek, 19 miles W of Mount Blackburn, Wrangell Mountains; 61° 41' 30" N, 143° 56, 45" W; (map 67). Local name reported in 1901 by T. G. Gerdine, USGS.

Lime Creek: stream, heads at Lime Glacier terminus and flows 7.2 miles SE to White River, 43 miles NE of McCarthy, Wrangell Mountains; 61° 45' N, 141° 47' W; (map 67). Local name reported in 1902 by D. C. Witherspoon (in Moffit and Knopf, 1910, pl. 1), USGS.

Lime Creek: stream, see Bear River.

Lime Glacier: glacier, trends 11 miles SE to its terminus at head of Lime Creek, E of Middle Fork Glacier and 42 miles NE of McCarthy, Alaska Range; 61° 47' 30" N, 141° 55' 00" W; (map 67). Name shown on 1908 fieldsheet by S. R. Capps, USGS.

Lime Gulch: ravine, trends NE 0.2 miles to Mystery Creek, 10 miles N of Medfra, Kilbuck-Kuskokwim Mountains; 63° 15' N, 154° 46' W; (map 89). Local name reported in 1920 by G.C. Martin (in Brooks and others, 1922, fig. 5), USGS.

Lime Hills: mountain range, 2,000 ft., extends NE 18 miles between Tundra Lake and Swift River, 80 miles NW of Lake Clark, Lime Hills; 61° 21' N, 155° 33' W; (map 71). So named in 1914 by P. S. Smith (1917, p. 50), USGS, "because they consist entirely of limestone."

Lime Peak: mountain, 5,062 ft., in White Mountains, 14 miles NW of Mount Prindle and 80 miles WSW of Circle, Yukon-Tanana Highlands; 65° 38' N, 146° 46' W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Lime Point: point of land, between Hetta and Nutkwa Inlets, on SW coast of Prince of Wales Island, Alexander Archipelago; 55° 03' 15" N, 132° 37' 50" W; (map 4). Name reported in 1897 by Lt. Comdr. J. F. Moser, USN; published by USC&GS in 1899.

Lime Springs Creek: stream, flows 4 miles NW to Chitistone River 2 miles E of junction of Nizina River and 13 miles E of McCarthy, Wrangell Mountains; 61° 27' 00" N, 142° 30' 30" W; (map 67). Local name obtained by USGS and published on maps since 1954.

Lime Village: settlement, pop. 15, on left bank of Stony River near junction of Hungry Creek, 11 miles NE of Tundra Lake and 85 miles NW of Lake Clark, Lime Hills; 61° 21' 20" N, 155° 28' 00" W; BGN 1966; (map 71). Variant: Hungry Village. Native village listed in the 1939 Census as "Hungry Village" with a population of 38; 29 persons in 1950. It is presently referred to as "Lime Village," named for the nearby Lime Hills.

Limestack Mountain: mountain, 6,000 ft., at head of Graylime Creek, E of Ernie Pass, 23 miles E of Anaktuvuk Pass, Brooks Range; 68° 06' 30" N, 150° 50' 54" W; (map 134). About his naming this mountain in 1930, Marshall (1956, p. 41) wrote, "Above me rose the last thousand feet of my mountain just a gray stack of limestone. So I called the peak ' Limestack Mountain'."

Limestone Bluffs: mountain, 3,650 ft., on N shore of Limestone Inlet, Stephens Passage, 25 miles SE of Juneau, Coast Mountains; 58° 03' 10" N, 133° 58' 30" W; (map 12). Named in 1869 by Comdr. R. W. Meade, USN (in Baker, 1906, p. 404), who says, "' * * From a remarkable-looking streak on the side of the mountain forming the west side of the inlet I called it ' Limestone Inlet' and the mountain ' Limestone Bluff.' "

Limestone Cliffs: cliffs, extends NE-SW 3 miles along NW coast of Norton Bay, 13 miles SW of Elim, Seward Peninsula Highlands; 64° 30' N, 162° 35' W; (map 95). Local name published in 1956 by USGS.

Limestone Creek: stream, flows 2.7 miles to Clear Creek, 4.5 miles NE of terminus of Long Glacier, 84 miles NE of Valdez, Wrangell Mountains; 61° 45' 35" N, 144° 04' 45" W; (map 68). Local name reported in 1900 by F. C. Schrader, USGS.

Limestone Creek: stream, flows NE 1.7 miles to Jump Creek which flows to Candle Creek, 4.5 miles SW of Candle and 37 miles NE of Imuruk Lake, Seward Peninsula Highlands; 65° 53' N, 162° 04' W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson

Limestone Creek: stream, flows S 2.5 miles to Bettles River opposite mouth of Eightmile Creek, 24 miles WNW of Chandalar, Brooks Range; 67° 34' 15" N, 149° 22' 30" W; (map 123). This name was reported prior to 1956 by USGS. It applied to a longer stream to the west. See Mathews River.

Limestone Creek: stream, flows SE, through Trout Lake, 6 miles to Middle Fork Chistochina River, 27 miles NE of Paxson, Alaska Range; 63° 05' 20" N, 144° 38' 00" W; (map 86). Name published on relatively recent maps.

Limestone Creek: stream, flows W 4 miles to head of Limestone Inlet, 25 miles SE of Juneau, Coast Mountains; 58° 02' 10" N, 133° 56' 10" W; BGN 1929; (map 12). Name derived from Limestone Bluffs in 1929 by USFS.

Limestone Creek: stream, see Mathews River.

Limestone Gap: gap, 5,025 ft., in Limestone Hills at head of Little Nelchina River, 16 miles NW of Tahnetna Pass, Talkeetna Mountains; 62° 03' 30" N, 147° 38' 50" W; (map 82). Descriptive name given in 1898 by Capt. E. F. Glenn, USA.

Limestone Gulch: ravine, extends W 2.3 miles to Billy Creek, in Limestone Hills, 16 miles NW of Tahnetna Pass, Talkeetna Mountains; 62° 02' 20" N, 147° 41' 45" W; (map 82). Local descriptive name reported in 1931 by USGS.

Limestone Gulch: ravine, trends SW 3.5 miles to Fossil Creek, 29 miles SE of Livengood, Yukon-Tanana Highlands; 65° 28' N, 147° 36' W; (map 105). Descriptive name applied by prospectors; published by USGS on recent maps.

Limestone Hills: mountains, 5,700 ft., extend NW-SE 10 miles at head of Little Nelchina River, 15 miles NW of Tahnetna Pass, Talkeetna Mountains; 62° 03' 30" N, 147° 37' 00" W; (map 82). Local descriptive name reported in 1931 by USGS.

Limestone Hogback: ridge, trends NE 1 mile from Yukon River, 1.6 miles NW of Hillard Peak and 12 miles NE of Eagle, Porcupine Plateau; 64° 57' 40" N, 141° 07' 00" W; BGN 1965; (map 102). Descriptive name published in 1956 by USGS.

Limestone Inlet: cove, 0.2 miles across, on E shore of Stephens Passage, 2.5 miles S of Taku Harbor and 25 miles SE of Juneau, Coast Mountains; 58° 01' 50" N, 133° 59' 30" W; (map 12). Named in 1869 by Comdr. R. W. Meade, USN, who (in Baker, 1906, p. 404) says, “* * * From a remarkable-looking streak on the side of the mountain forming the west side of the inlet I called it Limestone Inlet * * *.”

Limestone Mountain: mountain, 2,844 ft., 13 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 16' N, 154° 33' W; (map 89). Local name reported in 1953 by USGS.

Limestone Point: point of land, between Davidson Inlet and Edna Bay, SE coast of Kosciusco Island, Alexander Archipelago; 55° 56' 50" N, 133° 36' 50" W; (map 4). Local name recorded in 1951 by USGS.

Limestone Ridge: ridge, 1,100 ft., trends SW 3 miles between headwaters of Carter and Sphinx Creeks, 8 miles NW of Goodnews, Kilbuck Kuskokwim Mountains; 59° 12' N, 161° 41' W; (map 53). Local descriptive name published in 1954 by USGS.

Limit Creek: stream, heads in Sadlerochit Mountains between Back Dog and Dodo Creeks, flows S 5 miles to Fire Creek 1.5 miles W of its junction with Sadlerochit River, 24 miles NW of Mount Michelson, Brooks Range; 69° 31' 40" N, 145° 00' 00" W; BGN 1961; (map 139). Name used by USGS geologists in 1948 and reported by C. L. Whittington in 1960.

Limpid Creek: stream, flows N 1 mile to Quisling Cove, center of Kiska Island, Aleutian Islands; 51° 58' 37" N, 177° 23' 00" E; (map 14). Variant: Martini Creek. An arbitrary name beginning with “L” to correspond to “L” grid used by U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Lina Bay: bay, see Lituya Bay.

Lincoln Anchorage: bay, 1.4 miles across, along Favorite Channel on E coast of Lincoln Island, 24 miles NW of Juneau, Alexander Archipelago; 58° 29' 30" N, 134° 58' 00" W; (map 11). Local name derived from Lincoln Island; published in 1962 by USGS.

Lincoln Bay: bight, see Lincoln Bight.

Lincoln Bight: bight, 1.5 miles across, on NW coast of Saint Paul Island, in Pribilof Islands; 57° 12' 30" N, 170° 21' 30" W; (map 38). Variant: Lincoln Bay. Local name published in 1890 by USC&GS as “Lincoln Bay.”

Lincoln Channel: water passage, 3.5 miles long, between Kanaganut and Sitklan Islands, Coast Mountains; 54° 44' 30" N, 130° 41' 40" W; (map 2). Variant: Lincoln Passage. Named in 1869 for U.S. Revenue Cutter Lincoln; reported by G. Davidson, USC&GS.

Lincoln Creek: stream, flows NE 6 miles to Henry Creek which flows to Kougarok Creek, 16 miles SW of Midnight Mountain and 51 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 37' N, 164° 58' W; (map 110). Prospectors' name reported on the 1908 “Map of Seward Peninsula” by Arthur Gibson.

Lincoln Creek: stream, flows NE 7 miles to South Fork Serpentine River, 13 miles N of Kougarak Mountain and 27 miles SE of Ear Mountain, Seward Peninsula Highlands; 65° 52' N, 165° 18' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Lincoln Creek: stream, flows SE 2.5 miles to Eldorado Creek which flows to Noxapaga River, 28 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 42' N, 164° 13' W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Lincoln Creek: stream, flows SE 3.2 miles to Goldstream Creek, 16 miles W of Fairbanks, Yukon-Tanana Highlands; 64° 52' 50" N, 148° 13' 40" W; (map 100). Named by prospectors; published in 1906 by USGS.

Lincoln Creek: stream, flows SE to Washington Creek which flows to Lone Mountain Creek, near head of American River, about 35 miles NE of Teller, Seward Peninsula Highlands; (map 111). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This feature cannot be precisely identified on current maps.

Lincoln Creek: stream, flows SW 10 miles to Fourth of July Creek, 6 miles S of Crater Mountain and 40 miles SW of McGrath, Kilbuck-Kuskokwim Mountains; 62° 43' N, 156° 47' W; (map 79). Prospectors' name published in 1921 by USGS.

Lincoln Island: island, 250 ft. long, 0.3 miles NE of Lincoln Rock, on W coast of Etolin Island, Alexander Archipelago; 56° 03' 30" N, 132° 41' 30" W; (map 6). Variant: Lincoln Rock. Named by USC&GS for charting purposes; name published in 1943. See Abraham Islands.

Lincoln Island: island, 4.7 miles long, trending NW, in Lynn Canal just S of its Junction with Favorite Channel, 24 miles NW of Juneau, Alexander Archipelago; 58° 30' N, 135° 00' W; (map 11). Named in 1868 by Comdr. R. W. Meade, USN, presumably for Abraham Lincoln, 1809-1865, 16th President of the United States; published by the USC&GS in the 1883 Coast Pilot (p. 194).

Lincoln Mountains: mountain range, 5,000 ft., W of Portland Canal and Salmon River, extends S 17 miles from West Fork Texas Creek, Coast Mountains; 55° 56' N, 130° 10' W; (map 3). Name published in 1891 by USC&GS.

Lincoln Passage: water passage, see Lincoln Channel.

Lincoln Peak: peak, 4,750 ft., 2.5 miles NW of Grant Peak and 86 miles E of Sitka, Coast Mountains; 57° 14' 50" N, 133° 06' 27" W; (map 8). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for Abraham Lincoln, 1809-65, lawyer, statesman, and the 16th President of the United States, 1861-65.

Lincoln Rock: island, see Lincoln Island.

Lincoln Rock: rock, 0.3 miles SW of Lincoln Island, on W coast of Etolin Island, Alexander Archipelago; 56° 03' 25" N, 132° 41' 50" W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow, USN, for Abraham Lincoln. See Abraham Islands.

Lincoln, Cape: point of land, see Mordvinof, Cape.

Lind Creek: stream, flows NW 7 miles to Sethkokna River, 74 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 58' N, 153° 17' W (map 89). Local name reported in 1958 by USGS.

Lind Island: island, see Axel Lind Island.

Linda Creek Lake: lake, 0.1 miles across, at head of Linda Creek, 39 miles WNW of Chandalar, Brooks Range; 67° 33' N, 149° 45' W; (map 123). Local name obtained in 1956 by USGS.

Linda Creek Pass: pass, 2,400 ft., between Bettles and Middle Fork Koyukok Rivers by way of Linda Creek, a tributary of Middle Fork Koyukuk River, 31 miles WNW of Chandalar, Brooks Range; 67° 33' N, 149° 40' W; (map 123). Local name obtained in 1956 by USGS.

Linda Creek: stream, flows NW 5 miles to Hunter Creek, 39 miles NW of Haycock, Seward Peninsula Highlands; 65° 44' N, 161° 39' W; (map 109). Local name published on maps after 1950.

Linda Creek: stream, flows SW 5 miles from Linda Creek Lake to Middle Fork Koyukuk River, 36 miles W of Chandalar, Brooks Range; 67° 31' 15" N, 149° 51' 00" W; (map 123). Prospectors' name obtained in 1909 by A. G. Maddren (in Brooks and others, 1910, pl. 7), USGS.

Linda Vista Creek: stream, flows N 0.6 miles to Big Hurrah Creek, 9 miles NE of Solomon, Seward Peninsula Highlands; 64° 39' N, 164° 16' W; (map 95). Prospectors' name reported on a 1902 prospectors' manuscript map.

Lindale: area, in S part of Anchorage, between Rees and North Fork Chester Creek, Cook Inlet Lowland; 61° 12' 18" N, 149° 51' 15" W; (map 69). Local name reported in 1954 by the city engineer of Anchorage.

Lindblom Creek: stream, flows 1.6 miles to Snake River, 8 miles NW of Nome, Seward Peninsula Highlands; 64° 37' N, 165° 28' W; (map 94). Variant: Lindbloom Creek. Reported as "Lindbloom" on a map by S. E. King, dated 1900. Named for Erik C. Lindblom, one of the "three Swedes" who discovered gold in the Nome area in the summer of 1898. Lindblom, a native of Sweden, was 30 years old in 1898, and for several years had been a tailor in San Francisco. He joined the stampede to Kotzebue Sound, but ended up in Council where he met John Brynteson, a Swede, and Jafet Lindeberg, a Norwegian. These three, often called the "three Swedes," sought new territory and prospected along the coast of Norton Sound where they found gold along the Snake River (Rickard, 1909, p. 330-334).

Lindbloom Creek: stream, see Lindblom Creek.

Linden River: stream, see Don River.

Lindenberg Harbor: bay, 0.5 miles across, at Todd, on S coast of Chichagof Island, Alexander Archipelago; 57° 27' 30" N, 135° 01' 40" W; (map 9). Variant: Gavan Lindenberga.

Named in 1883 by the Russian navigator Ens. Vasiliev for G. Lindenberg (cnna), who made surveys in this area in 1838.

Lindenberg Head: point of land, 0.7 miles SE of Todd, on Peril Strait, on S coast of Chichagof Island, Alexander Archipelago; 57° 27' 20" N, 135° 01' 20" W; (map 9). Apparently named in 1895 by Lt. Comdr. E. K. Moore, USN, for adjacent Lindenberg Harbor. The name was published by USC&GS on Chart 8283.

Lindenberg Peninsula: peninsula, 30 miles long, on E coast of Kupreanof I., separated from Mitkof Island on SE by Wrangell Narrows, 26 miles NW of Wrangell, Alexander Archipelago; 56° 48' 30" N, 133° 06' 00" W; (map 6). Variant: Bereg Lindenerga, Lindenberg Shore. Named by the Russian Hydrog. Dept. in 1853, who published it on Chart 1493 as "Berg Lindenerga," i.e. "Lindenberg Shore," referring to the eastern shore. The generic "peninsula" was given by W. H. Dall, USC&GS, in 1883. This feature was named for the Russian, G. Lindenberg (cnna), who explored and surveyed in the Alexander Archipelago in 1838.

Lindenberg Shore: peninsula, see Lindenberg Peninsula.

Lindenerga, Bereg: peninsula, see Lindenberg Peninsula.

Lindenerga, Gavan: bay, see Lindenberg Harbor.

Linder Lakes: lakes, 1.8 miles SW of Sawmill Island and 9 miles N of Nenana, Tanana Lowland; 64° 42' N, 149° 11' W; (map 100). Local name reported in 1950 by USGS topographers.

Lindita Peak: mountain peak, 7,910 ft., 0.7 miles SE of Tazcol Peak and 20 miles NW of Valdez, Chugach Mountains; 61° 20' 38" N, 146° 36' 22" W; (map 68). Named about 1955 by L. E. Nielson; it is a Spanish word meaning "little beauty."

Lindman Lake: lake, 0.2 miles long, at head of Kasaan Peninsula, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 36' 35" N, 132° 29' 50" W; (map 4). Local name recorded in 1949 by USGS.

Line Island: island, 300 ft. across, in Sitka Sound, 1.5 miles W of Sitka, Alexander Archipelago; 57° 03' 27" N, 135° 22' 50" W; (map 9). Named by the U.S. Navy in 1880; published by USC&GS in 1883 Coast Pilot (p. 142).

Liner Island: island, 1.5 miles long, at NW end of Weir Island in Yukon River, 1 mile E of Birches, Nowitna Lowland; 65° 08' 15" N, 153° 30' 00" W; (map 107). Variant: Linet Island. Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the Department of the Interior.

Linet Island: island, see Liner Island.

Lingo: area, in SW Anchorage 1.5 miles SW of City Hall, Cook Inlet Lowland; 61° 12' 10" N, 149° 55' 15" W; (map 69). Residential district in city of Anchorage reported by office of city engineer of Anchorage.

Link Hills: mountains, 1,365 ft., center of Kiska Island, Aleutian Islands; 51° 58' 06" N, 177° 25' 10" E; (map 14). Variant: China Hills. An arbitrary name beginning with "L" to correspond to "L" grid used by U.S. Army for tactical purposes during World War II Published on a 1953 AMS map. Variant published on a 1943 USAAF map.

Link Island: island, 1.6 miles long, in Beardslee Islands in Glacier Bay, Glacier Bay National Monument, 4 miles NE of Strawberry Island and 56 miles NW of Juneau, St. Elias Mountains; 58° 33' 00" N, 135° 53' 45" W; BGN 1948, (map 11). So named by the USC&GS in 1939 because two islands shown on previous charts are now linked together near the center by a narrow grass-covered isthmus.

Link Lake: lake, 0.4 miles long, at head of Bottle Creek, 38 miles SW of Talkeetna, Cook Inlet Lowland; 62° 00' 05" N, 151° 05' 08" W; (map 81). Local name reported in 1958 by USGS.

Linkum Creek: stream, heads between Jacobs and Kasaan Mountains, flows SW 2 miles to Kasaan Bay at Kasaan, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 32' 20" N, 132° 23' 50" W BGN 1960; (map 4). "This stream name has reference usage since 1929. * * * used in a FPC [Federal Power Commission] license issued July 9, 1930 to Booth Fisheries * * *;" reported in 1960 by USFS.

Linquist Creek: stream, heads on Kings Mountain flows NW 2.3 miles to Matanuska River, 20 miles NE of Palmer, Chugach Mountains; 61° 45' 20" N, 148° 34' 45" W; (map 69). Local name reported in 1952 by USGS.

Linton Creek: stream, flows S 0.8 miles to join Sigard Creek to form Bonanza River, 18 miles NW of Solomon, Seward Peninsula Highlands; 64° 46' 55" N, 164° 47' 30" W; (map 95). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Liodiano Bay: bay, see Icy Bay.

Lion and Reliance Reef: island, see Tigvariak Island.

Lion and Reliance Reef: point of land, see Lion Point.

Lion and Reliance Reef: point of land, see Reliance Point.

Lion Bay: bay, on Beaufort Sea coast between Flaxman Island and mainland, extending 10 miles W of Point Brownlow, Arctic Plain; 70° 10' N, 146° 00' W; (map 151). Probably named for one of the two boats used by Sir John Franklin's party in 1826; the name, however, is recent.

Lion Bight: cove, 0.9 miles across, on SW coast of Unalaska Island, Aleutian Islands; 53° 25' 15" N, 167° 08' 00" W; BGN 1939; (map 23). Named by USC&GS in 1938, "because of its nearness to Lion Rock."

Lion Cove: cove, 0.6 miles across, halfway between Yug and Orient Points, S coast of Little Kiska Island, Aleutian Islands; 51° 57' N, 177° 41' E; (map 14). This is one of the animal

names arbitrarily applied to features in this area in 1943 by USAAF for tactical purposes during World War II.

Lion Creek: stream, flows N 1.1 miles to Big Hurrah Creek, 9 miles NE of Solomon, Seward Peninsula Highlands; 64° 38' N, 164° 12' W; (map 95). Prospectors' name shown on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Lion Head: mountain, 3,195 ft., at junction of Caribou Creek and Matanuska River, 49 miles NE of Palmer, 61° 47' N, 147° 40' W; (map 69). Local name reported in 1952 by USGS.

Lion Hills: hills, 520 ft., center Kiska Island, Aleutian Islands; 51° 56' 15" N, 177° 24' 56" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Lion Island: island, see Tigvariak Island.

Lion Point: point of land, NW tip of an island, was once part of Tigvariak Island, at E point of entrance to Foggy Island Bay, on Beaufort Sea coast, Arctic Plain; 71° 14' 30" N, 147° 16' 25" W; (map 150). Variant: Lion and Reliance Reef, Lion Reef, Point Lion. On August 7, 1826, Franklin (1828, p. 152). Named the island Lion and Reliance Reef after his two boats (the Lion was driven aground at this place). Leffingwell (1919, p. 100) adopted the Eskimo name "Tigariak" for the island, and, in his text, applied Franklin's names to the NE (Point Reliance) and NW (Point Lion) points of the island (p. 89). However Leffingwell's maps show these points as Reliance Point and Lion Point.

Lion Reef: point of land, see Lion Point.

Lion Reef: point of land, see Reliance Point.

Lion Rock: rock, in Lion Bight on SW coast of Unalaska Island, Aleutian Islands; 53° 25' 12" N, 167° 08' 45" W; BGN 1939; (map 23). Descriptive name given by USC&GS in 1938, "because, when seen from the southwest it has the appearance of a crouching lion."

Lions Head Mountain: mountain, 5,400 ft., on Kakuhan Range, 3.6 miles NE of Point Sherman on Lynn Canal and 46 miles NW of Juneau, Coast Mountains; 58° 52' 45" N, 135° 03' 40" W; BGN 1923; (map 11). Variant: Lions Head. Descriptive name given in 1867 by George Davidson, USC&GS, because its "serrated profile is said to show, when seen from Chatham strait, a resemblance to a couchant lion" (Knopf, 1911, p. 10). The name was published in the 1869 Coast Pilot. The mountain was charted, however, east of Berners Bay and continued to be so shown for nearly 40 years.

Lions Head: mountain, see Lions Head Mountain.

Lipsett Point: point of land, at mouth of Afognak Bay, 1.5 miles NE of Afognak, on S coast of Afognak Island, N of Kodiak Island; 58° 01' 35" N, 152° 45' 05" W; (map 43). Variant: Lietnik Cape, Point Lipsett. Local name reported in 1900 by Lt. Comdr. J. F. Moser, USN, Commander of the USBF steamer Albatross. This point was called "M[ys] Lytnika" meaning "summer village cape" by Sub-Lt. Mikhail Murashev, IRN, in 1839 or 1840, and published by the Russian Hydrog. Dept. in 1849 on Chart 1425.

Lira, Punta de: point of land, on S shore of Port Refugio on Suemez Island; Alexander Archipelago; 55° 77' N, 133° 18' W; (map 4). Spanish name given by F. A. Maurelle and Bodega y Quadra in 1779, probably for Benito de Lira, naval captain (Wagner, 1937, p. 467).

Lisa Lake: lake, 0.5 miles long, 2 miles SW of junction of Johnson and Tanana Rivers and 39 miles SE of Delta Junction, Tanana Lowland; 63° 42' 40" N, 144° 40' 50" W; (map 86). Name published on relatively recent maps.

Lisa Point: point of land, on a small island between Thetis and Tebenkof Bays, on W coast of Kuiu Island, Alexander Archipelago; 56° 26' 35" N, 134° 08' 50" W; BGN 1929; (map 5). Variant: Bridge Point. Russian name meaning "fox" given in 1928 by USC&GS; suggested by triangulation station Fox on the point.

Lisbon Creek: stream, flows NE 1 mile to Bering Sea, center of Kiska Island, Aleutian Islands; 51° 59' 13" N, 177° 28' 22" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Lisbon, Cape: promontory, see Lisburne, Cape.

Lisborne, Cape: promontory, see Lisburne, Cape.

Lisburn, Cape: promontory, see Lisburne, Cape.

Lisburne Hills: range, 2,000 ft., extends SE 45 miles from Cape Lisburne to Kakpuk River, Arctic Slope; 68° 35' N, 165° 49' W; (map 129). Variant: Lisburne Mountain, Lisburne Range. Named in 1904 "after the cape" by Collier (1906, p. 13), USGS.

Lisburne Mountain: range, see Lisburne Hills.

Lisburne Range: range, see Lisburne Hills.

Lisburne Ridge: ridge, elev. 2,660 ft., extends WNW-ESE 11 miles between Etivluk River and Hardway Creek, 29 miles N of Howard Pass, Arctic Slope; 68° 37' N, 156° 35' W, BGN 1960; (map 132). Variant: White Ridge. So named in 1950 by USGS because "the fifth and farthest north belt * * * the Lisburne [limestone] group is exposed * * * on Lisburne Ridge, a narrow * * * hogback * * * that coincides with a major fault" (Chapman and others, 1964, p. 342).

Lisburne, Cape: promontory, 1,500 ft., on Chukchi Sea coast, 40 miles NE of village of Point Hope, Arctic Slope; 68° 53' N, 166° 13' W; BGN 1944; (map 129). Variant: Cape Lisbon, Cape Lisborne, Cape Lisburn, Uivak, Uivaq, Uivfak, Uwuk, Webuk Unasiksuk, Wevok, Wevuk. Discovered and named by Capt. Cook (1785, p. 460), RN, on August 21, 1778, who wrote "The southern extreme seemed to form a point which was named Cape Lisburne." An early Eskimo name for the cape was "Uivaq," generally spelled "Wevuk" or "Wevok." Cape Lisburne was often referred to as "Uivaq Ungasiktoq" meaning "distant cape" as opposed to "Uivaq Qanitoq" (Cape Thompson) meaning "near cape."

Liscome Bay: estuary, extends N 2 miles, on S coast of Dall Island; Alexander Archipelago; 54° 41' N, 132° 48' W; (map 1). Named in 1792 by Ingraham (cna) (Baker, 1906, p. 405).

Liscome Point: point of land, on SW coast of Dall Island, W side of Liscome Bay, Alexander Archipelago; 54° 41' N, 132° 51' W; BGN 1929; (map 1). Named in 1928 by R. S. Patton, USC&GS.

Liscome, Port: water passage, see Kaigani Strait.

Liscum Slough: stream, flows SE 10 miles to Goodpaster River, 18 miles E of Big Delta, Yukon-Tanana Highlands; 64° 11' 30" N, 145° 15' 00" W; (map 101). Local name reported in 1908 by J. W. Bagley, USGS.

Lises, Cape: point of land, on the NW coast of Little Tanaga Island, Aleutian Islands; 51° 52' 50" N, 176° 12' 30" W; BGN 1936; (map 17). Variant: Fox Cape. Russian name reported by Capt. Tebenkov (1849, atlas notes, p. 119), IRN, as "rises," probably from the word "lisa" meaning "fox" or "vixen." "C. Lises (Fox Cape)" was published by the U.S. Navy Hydrog. Office (1868, chart 8).

Lishtak: stream, see Shotgun Creek.

Lisianski Bay: bay, see Barling Bay.

Lisianski Inlet: estuary, 25 miles long, trends SE from its mouth on Cross Sound, on NW coast of Chichagof Island, 37 miles W of Hoonah, Alexander Archipelago; 58° 07' 30" N, 136° 27' 30" W; BGN 1908; (map 10). Name published by USC&GS in the 1908 Alaska Coast Pilot (p. 169).

Lisianski Peninsula: peninsula, 8 miles N of Sitka, on NW coast of Baranof Island, Alexander Archipelago; 57° 10' N, 135° 23' W. (map 9). Named in 1883 by W. H. Dall, USC&GS; published in 1883 Coast Pilot (p. 152). It was named for Capt. Urey Theodorovich Lisianski, Russian explorer, who visited this area in 1804 and 1805.

Lisianski Point: point of land, on S tip of Lisianski Peninsula, 6.5 miles N of Sitka, on NW coast of Baranof Island, Alexander Archipelago; 57° 08' 35" N, 135° 23' 40" W; (map 9). Named in 1883 by W. H. Dall, USC&GS, for Capt. Urey Theodorovich Lisianski, Russian explorer, who visited Sitka in 1804 after the Indians had destroyed the settlement. He bombarded and destroyed the Indian village on Indian River in retaliation.

Lisianski River: stream, on Chichagof Island, flows 7 miles NW to head of Lisianski Inlet, 7 miles SE of Pelican, Alexander Archipelago; 57° 52' N, 136° 06' W; BGN 1960; (map 9). Named in 1955 by USGS for Lisianski Inlet.

Lisianski Strait: water passage, 13 miles long, extends S from Lisianski Inlet to Point Urey on NW coast of Chichagof Island, 18 miles NW of Chichagof, Alexander Archipelago; 57° 50' N, 136° 27' W; (map 9). Variant: Lisiansky Strait. Named in 1879 by W. H. Dall, USC&GS; published in 1883 Coast Pilot (p. 184). It was named for Capt. Urey Theodorovich Lisianski, Russian explorer, on whose chart this strait first appeared in 1814.

Lisiansky Strait: water passage, see Lisianski Strait.

Liskoff: point of land, see Lieskof, Cape.

Listi: locality, see Tlistee.

Listvinichnaia Bay: bay, see Larch Bay.

Lisvinichnaya Bukhta: bay, see Larch Bay.

Lisvinitchny Bay: bay, see Larch Bay.

Lisyy, Ostrova: island, see Fox Islands.

Lithkealik River: stream, heads in Askinuk Mountains, flows SW 10 miles to Kokechik Bay, 11 miles SE of Cape Romanzof, Yukon Kuskokwim Delta; 61° 42' N, 165° 51' W; Variant: Ishkialik River. Eskimo name reported by USC&GS in 1951.

Lithkealiktulik Slough: stream, see Owl Creek.

Litnekof Cove: cove, see Letnikof Cove.

Litnik Bay: estuary, see Afognak Bay.

Litnik Lake: lake, see Afognak Lake.

Litnik Mountain: mountain, 1,955 ft., 2.5 miles NW of Afognak, on S coast of Afognak Island; 58° 02' 20" N, 152° 48' 30" W; (map 43). Name derived from village of Litnik and published by USC&GS in 1910.

Litnik River: stream, see Afognak River.

Litnik: locality, on S coast of Afognak Island at head of Afognak Bay, 5 miles N of Afognak, Kodiak Island; 58° 05' 00" N, 152° 48' 20" W; (map 43). Variant: Elitnik, Lietnik. Russian name (from the words "lytniy domik" meaning "summer house") reported in 1900 by Lt. Comdr. J. F. Moser, USN. Baker (1906, p. 406) wrote that this village "is apparently the Afognak of other maps * * *". In 1889 USBF applied this name to the village of Afognak. See Afognak.

Litnik: locality, see Nunalik.

Little Abraham River: stream, flows SW 1.6 miles to Abraham Bay, Attu Island, Aleutian Islands; 52° 53' 35" N, 172° 47' 30" E; (map 13). Name shown on an AMS map published in 1948, derived from Abraham Bay.

Little Afognak: locality, 16 miles NE of Afognak, on SE Coast of Afognak Island; 58° 07' 50" N, 152° 24' 30" W; (map 43). Variant: Duck Village. Name derived from Afognak Island, reported in 1900 by Lt. Comdr. J. F. Moser, USN, commander of the USBF steamer Albatross, who made surveys and investigations in this area; published by USC&GS in 1910. Recorded in 11th Census in 1890 (1893, p. 74) as a part of greater Afognak. Sub. Lt. M. Murashev, IRN,

in 1839 or 1840, reported the name “S[eleniye] Afognakskoye” or “Afognak Village,” for this locality. See Afognak.

Little Aiktalik Island: island, see Sundstrom Island.

Little Alaid Island: island, see Alaid Island.

Little Albert Creek: stream, flows SE 7 miles to Albert Creek, 5 miles NW of Central and 30 miles SW of Circle, Yukon-Tanana Highlands; 65° 36' 40" N, 144° 57' 45" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Little Anvil Creek: stream, see Silverbow Creek.

Little Apoon Pass: watercourse, in Yukon Delta, extends NE-SW 7 miles between Chinikluk Slough and Kwikpak Pass, 20 miles NE of Kwiguk, Yukon-Kuskokwim Delta; 62° 54' N, 164° 00' W; (map 77). Variant: Kravaksarok, Little Aproon Pass. Name recorded as “Little Aproon” in 1899 by R. L. Faris, USC&GS, who also obtained the Eskimo name “Kravaksarok.”

Little Aproon Pass: watercourse, see Little Apoon Pass.

Little Axel Lind Island: island, 1 mile long, in Prince William Sound, 1 mile SE of mouth of Eaglek Bay, 36 miles E of Whittier, Chugach Mountains; 60° 48' 30" N, 147° 40' 00" W; (map 63). Local name published on recent USGS maps; name derived from nearby Axel Lind Island.

Little Baht Harbor: bight, 0.1 miles across, E of Baht Harbor, on N coast of Zarembo Island, Alexander Archipelago; 56° 27' 10" N, 132° 46' 20" W; BGN 1917; (map 6). Local name reported in 1916 by USC&GS.

Little Basket Bay: cove, 0.4 miles across, 9.5 miles S of mouth of Tenakee Inlet, on SE coast of Chichagof Island, Alexander Archipelago; 57° 38' 10" N, 134° 53' 00" W; BGN 1935; (map 9). Local name reported in 1935 by USFS.

Little Bay: bay, 0.2 miles across, 11 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 46' 30" N, 136° 18' 00" W; (map 9). Descriptive name given in 1919 by USC&GS.

Little Bay: bay, 1.3 miles across, on N coast of Akun Island, Aleutian Islands; 54° 16' 45" N, 165° 35' 00" W; (map 24). Variant: Riecheshni Bay. Descriptive name given in 1888 by USBF. “Called Riecheshni bay by [Father] Veniaminov, 1830” (Baker, 1906, p. 406).

Little Bay: bay, trends SW 1.5 miles to Knight Island Passage at S end of Knight Island, 12 miles SE of Chenega, Chugach Mountains; 60° 10' 30" N, 147° 48' 30" W; (map 63). Name published in 1909 by USC&GS.

Little Beach: beach, 1,700 ft. long, on S coast of Alaska Peninsula in Katmai National Monument, 1 mile N of Kukak Point and 32 miles NE of Mount Katmai, Aleutian Range; 58° 21' 30" N, 154° 05' 50" W; (map 42). Local name reported in 1955 by USC&GS.

Little Bear Creek: stream, heads at 64° 56' 35" N, 160° 20' 00" W, flows NW 12 miles to Inglutalik River, 24 miles SE of Haycock, Nulato Hills; 65° 03' 35" N, 160° 26' 55" W; BGN 1966; (map 109). Local name reported in 1909 by P. S. Smith, USGS.

Little Bear Creek: stream, in Kantishna Hills, flows NE 3.5 miles to Toklat River, 2.5 miles SW of junction of that stream's East Fork and 38 miles W of Healy, Alaska Range; 63° 53' 00" N, 150° 13' 30" W; (map 88). Prospectors' name shown on a 1916 fieldsheet by C. E. Giffin, USGS.

Little Bear Lake: lake, 0.1 miles long, on Kenai Peninsula, 0.8 miles SE of Bear Lake, 6 miles NE of Seward, Chugach Mountains; 60° 11' 05" N, 149° 20' 30" W; (map 63). Local name reported in 1951 by USGS.

Little Bear Rock: rock, on W shore of Bumble Bay, 23 miles SW of Karluk, Kodiak Island; 57° 16' 15" N, 154° 44' 00" W; (map 35). Local name reported in 1952 by USGS.

Little Beauty Creek: stream, heads on Bean Ridge, flows NE 5 miles to Sunde Creek 1.3 miles S of that stream's junction with Baker Creek, 44 miles ESE of Tanana, Yukon-Tanana Highlands; 65° 04' 15" N, 150° 34' 55" W; (map 106). Local name reported in 1952 by USGS.

Little Beaver Creek: stream, flows SW 9 miles to head of Nixon Fork, 24 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 26' N, 154° 21' W; (map 89). Local name reported in 1910 by A. G. Maddren (in Brooks and others, 1911, pl. 14), USGS.

Little Beaver Lake: lake, 0.5 miles long, in Nutzotin Mountains, N of Beaver Lake, 11.5 miles E of Euchre Mountain, Alaska Range; 62° 03' 30" N, 141° 49' 30" W; (map 84). Local name reported by USGS in 1960.

Little Beaver Lake: lake, 0.5 miles long, one of the Beaver Lakes, 25 miles N of Anchorage, Cook Inlet Lowland; 61° 35' 15" N, 149° 51' 35" W; (map 69). Local name reported in 1950 by USGS.

Little Beaver Lake: lake, 2,000 ft. across, 5 miles NW of Flat Creek Lake and 24 miles S of Beaver, Yukon Flats; 66° 01' 15" N, 147° 10' 30" W; (map 118). Local name obtained in 1956 by USGS.

Little Biorka Island: island, 0.5 miles long, NW of Biorka Island, in the Necker Islands, W of Baranof Island, Alexander Archipelago; 56° 52' N, 135° 34' W; (map 5). Local name published by USC&GS in the 1925 Coast Pilot (p. 285).

Little Black Creek: stream, flows NE 15 miles to Kobuk River, 17 miles NW of Shungnak, Kotzebue-Kobuk Lowland; 66° 59' N, 157° 40' W; (map 115). Local name reported in 1954 by the U.S. Army Corps of Engineers.

Little Black River: stream, heads at 65° 30' N, 143° 30' W, flows NNW 90 miles to its tributaries, the Grass and Sucker Rivers, 16 miles S of Chalkyitsik, Yukon Flats; 66° 26' N, 143° 49' W; BGN 1959; (map 120). Variant: Big Black River, Rat River. Local name published in 1890 by USC&GS. In the early days this stream was often confused with the Big Black (now Black) and Rat Rivers.

Little Black River: stream, see Grass River.

Little Black River: stream, see Grayling Fork Black River.

Little Blanche Creek: stream, flows NE 2 miles to Engineer Creek, 6.5 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 56' N, 147° 38' W; BGN 1933; (map 100). Variant: Engineer Creek. Local name reported in 1933 by J. M. Hill, USGS.

Little Blanche Creek: stream, see Hudson Coulee.

Little Blanche Creek: stream, see Rock Creek.

Little Bogus Creek: stream, heads in a lake and flows SW 8 miles to Tuluksak River, 2.5 miles NE of Tuluksak and 38 miles SE of Russian Mission Yukon-Kuskokwim Delta; 61° 07' N, 160° 5B' W; (map 73). Local name reported by the U.S. Army Corps of Engineers in 1952.

Little Bonanza Creek: stream, flows E 2.5 miles to North Fork Fortymile River, 30 miles SW of Eagle, Yukon-Tanana Highlands; 64° 36' N, 142° 10' W; (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Little Bonanza Creek: stream, flows N 5 miles to Boston Creek, 7 miles SW of Ruby, Kilbuck-Kuskokwim Mountains; 64° 38' 40" N, 155° 35' 45" W; (map 98). Local name reported in 1933 by USGS.

Little Bonanza Creek: stream, flows NE 5.4 miles to Bonanza Creek, 6 miles SW of Monzonite Hills, Nowitna Lowland; 64° 20' 12" N, 154° 40' 30" W; (map 98). Local name reported about 1952 by USGS.

Little Boulder Creek: stream, flows SW 9 miles from Boulder Ridge to Boulder Creek, 28 miles E of Tanana, Yukon-Tanana Highlands; 65° 08' 40" N, 151° 08' 00" W; (map 106). Local name reported in 1952 by USGS.

Little Boulder Creek: stream, heads in a glacier, 2.3 miles W of Four Winds Mountain, flows SE 6.5 miles to Klehini River, 3.6 miles E of Porcupine and 29 miles W of Skagway, St. Elias Mountains; 59° 25' 30" N, 136° 07' 55" W; BGN 1956; (map 45). Variant: Jeltakatschkahin Creek, Teltakatschkahin Creek, Teltakhatskahin Creek, Yealthkaklatselahini, Yeltakaska Creek. Prospectors' name reported by Wright (1904, pl. 2), USGS. It was called by its Indian name Teltakatschkahin Creek or Jeltakatschkahin by Krause (1883, map). In 1898, J. A. Flemer, USC&GS, spelled it Teltakhatskahin. The IBC (1923, map 9) gave the native name Yeltakaska, and in 1952, C. E. Robertson, USGS, reported the full name as Yealthkaklatselahini.

Little Boulder Creek: stream, heads on Fairview Mountain, flows S 0.8 miles to join Big Boulder Creek to form Twin Creek, 46 miles W of Talkeetna, Alaska Range; 62° 20' 45" N, 151° 33' 20" W; (map 81). Local name reported in 1911 by USGS.

Little Branch Bay: bay, 0.3 miles across, empties into Branch Bay, 8 miles NW of village of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 18' 00" N, 134° 50'

30" W; (map 5). Variant: Bukhta Maloy Strylky, Maloi Strelka. Named published by USC&GS in 1883 Coast Pilot (p. 132); derived from "Bukhta Maloy Strylky [from Strelka]," meaning "little arrow bay"; published by the Russian American Company in 1850.

Little Bremner River: stream, heads in glacier, flows SSW 13 miles to Bremner River, 0.8 miles S of the mouth of MacCreel Creek, and 60 miles W of Valdez, Chugach Mountains; 61° 02' 05" N, 144° 26' 30" W; (map 68). Local name reported by F. H. Moffit (1912, pl. 5), USGS.

Little Brownson Bay: bight, 0.5 miles across, on S coast of Prince of Wales Island, E of Brownson Bay, Alexander Archipelago; 54° 45' 30" N, 132° 13' 30" W; (map 1). Descriptive name derived from "Brownson Bay" and published in 1923 by USC&GS.

Little Brushman: peak, 3,810 ft., 3 miles SE of Brushman Mountain and 44 miles NE of Arctic Village, Brooks Range; 68° 25' N, 144° 00' W; BGN 1960; (map 136). Variant: Brushman Annex. Named in 1960 by USGS relative to Brushman Mountain.

Little Cambell Creek: stream, flows NW 8.3 miles to Campbell Creek 4.4 miles S of Anchorage, Cook Inlet Lowland; 61° 09' 23" N, 149° 52' 30" W; (map 69). Local name reported in 1962 by USGS.

Little Cape Corwin: point of land, extends into Etolin Strait, 3 miles SE of Twin Mountain and 24 miles NE of Cape Mendenhall, on E coast of Nunivak Island; 60° 01' 15" N, 165° 38' 00" W; (map 57). Name reported about 1908 by USC&GS.

Little Caribou Creek: stream, flows NW 6.5 miles to Caribou Creek, 8 miles N of Flat, 52 miles SE of Holikachuk, Kilbuck-Kuskokwim Mountains; 62° 34' 10" N, 158° 03' 40" W; (map 79). Prospectors' name published in 1921 by USGS.

Little Caribou Creek: stream, flows SE 0.8 miles to Chatanika River, 9.5 miles WNW of Mount Ryan and 47 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 17' 10" N, 146° 33' 45" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Little Caribou Creek: stream, in Kantishna Hills, flows NE 7 miles to Crooked Creek, 3 miles W of junction of Toklat River and its Clearwater Fork, Alaska Range; 63° 48' 30" N, 150° 22' 45" W; (map 88). Local name shown on a 1916 fieldsheet by C. E. Giffin, USGS.

Little Cedar Island: island, 0.1 miles across, in Freshwater Bay, 8.5 miles NE of Tenakee Springs, on E central Chichagof Island, Alexander Archipelago; 57° 52' 15" N, 135° 03' 05" W; BGN 1935; (map 9). Local name reported in 1935 by USFS.

Little Champion Creek: stream, flows SW 11 miles to Champion Creek, 54 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 25' N, 146° 49' W; BGN 1910; (map 104). Local name reported in 1909 by L. M. Prindle, USGS.

Little Champion Creek: stream, flows SW 6 miles to Champion Creek, 25 miles SW of Eagle, Yukon-Tanana Highlands; 64° 31' 20" N, 141° 35' 40" W; (map 102). Variant: Star Creek. Local name published in 1956 by USGS.

Little Chandler Lake: lake, 3 miles long, adjoins Chandler Lake on N, at head of Chandler River, 26 miles NW of Anaktuvuk Pass, Brooks Range; 68° 16' 30" N, 152° 40' 00" W; (map 134). So named by the USGS in 1956 for the larger body of water it adjoins, Chandler Lake, which was named by Lt. Stoney, USN, in 1886, for William E. Chandler, 1835-1917, Secretary of the Navy.

Little Chena River: stream, heads at 65° 11' N, 146° 36' W, flows SW 45 miles to Chena River, 9 miles E of Fairbanks, Yukon-Tanana Highlands; 64° 52' N, 147° 25' W; BGN 1965; (map 100). Variant: Little Chenoa River. Local name reported in 1903 by T. G. Gerdine (in Prindle, 1905, pl. 16), USGS.

Little Chena Roadhouse: locality, on Little Chena River, 14 miles E of Fairbanks, Tanana Lowland; 64° 52' N, 147° 15' W; (map 100). Name of a roadhouse published in the 1915 Polk's Gazetteer.

Little Chenoa River: stream, see Little Chena River.

Little Clearwater Creek: stream, heads in Clearwater Mountains, flows S 14 miles to Clearwater Creek, 41 miles S of Mount Hayes, Alaska Range; 63° 02' 35" N, 146° 52' 55" W; (map 86). Local name reported in 1910 by D. C. Witherspoon, USGS.

Little Coal Bay: estuary, extends S 0.5 miles off Kasaan Bay, E coast of Prince of Wales Island 0.5 miles E of Coal Bay, Alexander Archipelago; 55° 30' 25" N, 132° 27' 50" W; (map 4). Local descriptive name recorded in 1949 by USGS.

Little Coal Creek: stream, flows NW 3.8 miles to Chulitna River, 42 miles NE of Talkeetna, Talkeetna Mountains; 62° 53' 55" N, 149° 46' 15" W; (map 82). Local name reported in 1931 by USGS.

Little Cottonwood Creek: stream, flows NE 10 miles, to Noatak River, 37 miles ESE of Misheguk Mountain, Brooks Range; 68° 07' N, 159° 40' W; (map 131). Translation of an Eskimo name reported by Orth in 1956.

Little Cove: cove, 0.9 miles across, at head of Middle Bay, on NE coast of Kodiak I; 57° 39' 20" N, 152° 30' 05" W; (map 34). Variant: Zaliv Mylkoy. Translation by Baker (1906, p. 406) of the descriptive name "Zal[iv] Mylkoy," published by Sarichev (1826, map 16).

Little Crazy Mountains: mountains, 2,000 ft., extend 15 miles E from junction of Mule and Preacher Creeks, 25 miles W of Circle, Yukon-Tanana Highlands; 65° 50' N, 144° 55' W; (map 104). Local name reported by USGS in 1952; named in contrast to the higher Crazy Mountains three miles south.

Little Creek: locality, along Seward Peninsula Railroad, N of Nome, Seward Peninsula Highlands; (map 94). Site of a railroad station established in 1905 (Cole, 1953, p. 14). Its precise location is unknown.

Little Creek: stream, flows N 0.8 miles to California Creek, 14 miles NE of Shungnak, Brooks Range; 66° 57' 20" N, 156° 39' 00" W; (map 115). Prospectors' name reported by USGS after 1940.

Little Creek: stream, flows N 11 miles to Iditarod River, 3 miles SW of the junction of Montana Creek, 35 miles SE of Holy Cross, Kilbuck-Kuskokwim Mountains; 62° 05' 25" N, 158° 42' 00" W; BGN 1948; (map 79). Prospectors' name obtained in 1913 by Eakin (1914, pl. 1), USGS.

Little Creek: stream, flows NE 1.5 miles to Trail Creek, 8 miles E of Long and 25 miles SSE of Ruby, Kilbuck-Kuskokwim Mountains; 64° 23' 55" N, 158° 13' 15" W; (map 98). Prospectors' name reported in 1913 by Eakin (1914, pl. 3), USGS. The stream's identity is in doubt.

Little Creek: stream, flows NE 3 miles to Riley Creek, 12 miles S of Healy, Alaska Range; 63° 41' 45" N, 148° 55' 30" W; (map 87). Local descriptive name reported by USGS in 1950.

Little Creek: stream, flows NE 6 miles to Big Creek, 9 miles SE of Ruby, Kilbuck Kuskokwim Mountains; 64° 42' 15" N, 155° 12' 10" W; (map 98). Prospectors' name reported in 1933 by Mertie (1936, pl. 2), USGS.

Little Creek: stream, flows NE 6 miles to Innoko River, 4 miles of Ophir and 28 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 06' N, 156° 26' W; (map 90). Prospectors' name obtained in 1908 by Maddren (1910, pl. 1), USGS.

Little Creek: stream, flows NW 1 mile to Kuskokwim River 1.4 miles N of its junction with Oskawalik River, 33 miles W of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 45' 40" N, 158° 10' 20" W; (map 72). Local descriptive name reported in 1952 by USGS.

Little Creek: stream, flows NW 1.5 miles to Candle Creek, 9 miles SW of Candle and 34 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 48' N, 162° 05' W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Little Creek: stream, flows NW 4 miles to Otter Creek 12 miles E of its junction with Iditarod River, 4.5 miles E of Flat and 57 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 62° 27' 10" N, 157° 51' 40" W; (map 79). Name shown on 1910 manuscript map of "Iditarod Placer Fields."

Little Creek: stream, flows SE 2 miles to Red Bay, on N coast of Prince of Wales Island, Alexander Archipelago; 56° 16' 10" N, 133° 20' 50" W; (map 6). Named in 1886 by Lt. J. M. Helm, USN, for charting purposes; name published in 1887 on USC&GS Chart 706.

Little Creek: stream, flows SW 3 miles to Snake River, 3 miles NW of Nome, Seward Peninsula Highlands; 64° 32' N, 165° 30' W; (map 94). Variant: Moonlight Creek. Prospectors' name reported in 1899 by D. C. Witherspoon (in Schrader and Brooks, 1900, map 2), USGS. The 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee shows "Moonlight" along the lower half of the stream.

Little Creek: stream, in Nutzatin Mountains, flows SE 2.8 miles to easternmost of Braye Lakes, 1.5 miles NE of Braye Pass, Alaska Range; 62° 02' 28" N, 141° 06' 00" W; (map 84). Local name reported by USGS in 1959.

Little Creek: stream, see Lime Creek.

Little Crow Hills: mountains, 1,600 ft., extend SE 4 miles from junction of Kisaralik River and Quartz Creek, 55 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 32' N, 160° 15' W; (map 59). Local name reported in 1949 by USGS.

Little Dahl River: stream, see Little Dall River.

Little Daisy Creek: stream, flows NW 6 miles to Goodhope River, 27 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 50' N, 164° 02' W; (map 110). Prospectors' name reported in 1901 by USGS (Collier, 1902, pl. 12).

Little Dall River: stream, heads at Sussaymin Lakes, flows SE 30.0 miles to Yukon River, 42 miles NE of Rampart, Yukon Flats; 65° 57' N, 149° 17' W; (map 105). Variant: Little Dahl River. Local name reported in 1927 by USGS.

Little Daykoo Harbor: water passage, 0.8 miles long, between SE coast of Dall Island and Daykoo Islands, Alexander Archipelago; 54° 42' 10" N, 132° 42' 30" W; (map 1). Local name published in 1924 by USC&GS.

Little Delta Creek: stream, see Delta Creek.

Little Delta River: stream, heads at junction of East and West Forks of Little Delta River and flows N 24 miles to Tanana River, 28 miles NW of Big Delta, Tanana Lowland; 64° 17' N, 146° 42' W; (map 101). Variant: Delta Creek, Husacheg, Silok Creek, Silokh Creek. Lt. H. T. Allen, USA, named a stream west of the Delta River "Delta Creek," but its exact identity has been a problem to map makers. This particular stream came to be called "Little Delta River" in the early 1900's, no doubt in an effort to retain a form of Lt. Allen's name, but at the same time to differentiate it from nearby Delta River and Delta Creek. Its Indian name was "Silokh" according to A. H. Brooks, USGS, in 1898. J. T. Geoghegan, however, gives its Indian name as "Husacheg."

Little Delta: locality, see Delta Telegraph Station.

Little Denver Creek: stream, heads on Manley Hot Springs Dome, flows W 5.8 miles to Cache Creek, Yukon-Tanana Highlands; 65° 02' 35" N, 150° 54' 30" W; (map 106). Prospectors' name reported in 1931 by J. B. Mertie, USGS.

Little Derby Creek: stream, flows S 0.6 miles to Norton Sound, 6 miles SE of Nome, Seward Peninsula Highlands; 64° 28' 09" N, 165° 12' 10" W; (map 94). Variant: Minne Ha Ha Creek. Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Little Devil Lake: lake, 1.5 miles long, on Dall Island, SE of Devil Lake, Alexander Archipelago; 54° 54' 50" N, 133° 05' 00" W; (map 1). Local descriptive name reported in 1948 by USGS.

Little Dexter Creek: stream, flows SE to Dexter Creek 0.5 miles SW of its junction with Nome River, 7 miles NNE of Nome, Seward Peninsula Highlands; 64° 35' N, 165° 17' W; (map 94). Prospectors' name shown on the 1902 "Map of the Nome and Snake River Country" by J. M. Davidson.

Little Diomed Island: island, 2 miles across, one of Diomed Islands, in Bering Strait, 25 miles NW of Cape Prince of Wales, Seward Peninsula Highlands; 65° 45' N, 168° 55' W; (map 111). Variant: Imaglin Island, Krusenstern Island, Kruzenstern Island, Ostrov Imaklit, Ostrov Inqalyuk. In the late 1800's this island was commonly known as "Little Diomed," which was derived from the collective name of both islands named in 1728 by Vitus Bering. See Diomed Islands. In 1826 Capt. Beechey (1831, p. 247). Named it "Krusenstern," after the Russian Adm. [Adam Johann von] Krusenstern. Its Eskimo name, reported by Martin Sauer (1802, p. 258), was "Imaglin"; Capt. Tebenkov (1852, map 1), IRN, records the name as "Ingalyuk."

Little Dixie Creek: stream, flows NW 1.4 miles to Casadepaga River, 26 miles NE of Solomon Seward Peninsula Highlands; 64° 55' N, 164° 09' W, (map 95). Variant: Nipple Gulch. Reported in 1907 as "Nipple Gulch" by USGS geologists (Smith, P. S., 1910, pl. 3). The geologists applied "Little Dixie Creek" to the next stream to the northeast. Prospectors' name reported on a 1902 prospectors' manuscript map.

Little Dollar Creek: stream, flows SE 1.7 miles to Dollar Creek, 32 miles NW of Talkeetna, Alaska Range; 62° 28' 50" N, 151° 03' 40" W; (map 81). Prospectors' name reported in the 1930's by USGS.

Little Dome Creek: stream, flows E 8.7 miles to Sulatna River, 13 miles NE of Sulatna Crossing and 36 miles SE of Ruby, Kilbuck Kuskokwim Mountains; 64° 15' 45" N, 155° 02' 45" W, (map 98). Prospectors' name reported in 1913 by Eakin (1914, pl. 3), USGS.

Little Dome Creek: stream, flows N 0.8 miles to Sheep Creek, 9 miles NW of Fairbanks, Yukon-Tanana Highlands; 64° 54' 25" N, 147° 59' 15" W; (map 100). Locally named relative to Dome Creek north of Goldstream Creek Valley and published on a railroad location manuscript map of 1916 or 1917.

Little Dome: peak, 1,030 ft., on Hermit Ridge, 20 miles NW of Beaver, Kokrines Hodzana Highlands; 66° 26' N, 148° 10' W; (map 118). Local descriptive name obtained in 1956 by USGS.

Little Dry Creek: stream, see Cold Creek.

Little Dry Island: island, 0.8 miles long, between Dry and Farm Islands, at mouth of Stikine River, 11 miles NW of Wrangell, Coast Mountains, 56° 37' 10" N, 132° 31' 00" W; (map 6). Local name recorded in 1948 by USGS.

Little Duncan Bay: bay, extends SE 3.5 miles to W shore of Duncan Canal, 16 miles SW of Petersburg, on S coast of Kupreanof Island, Alexander Archipelago; 56° 35' 30" N, 133° 06' 30" W; BGN 1933; (map 6). Variant: Little Duncan Canal. Local name used by fishermen; name published in 1932 by USC&GS.

Little Duncan Canal: bay, see Little Duncan Bay.

Little Dutch Creek: stream, flows SE to Niukluk River, W of Ophir Creek, about 4 miles NW of Council and 32 miles NE of Solomon, Seward Peninsula Highlands; (map 95). Prospectors'

name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This stream cannot be precisely located on current maps.

Little Eagle Lake: lake, 0.7 miles long, on Eagle River 2.5 miles downstream from Eagle Lake, 40 miles SE of Wrangell, Coast Mountains; 56° 06' 15" N, 131° 31' 30" W; (map 7). Variant: Eagle Lake. Local name reported in 1966 by USFS; recorded in 1929 by USFS as "Eagle Lake."

Little East Fork George River: stream, flows SW 16 miles to join Munther Creek to form East Fork George River, 5 miles W of Granite Mountain and 38 miles SE of Flat, Kilbuck Kuskokwim Mountains; 62° 18' 20" N, 156° 53' 00" W; (map 79). Local name obtained in 1952 by USGS topographers.

Little East Rookery: rookery, 1.2 miles E of village of Saint George, on N coast of Saint George Island, in Pribilof Islands; 56° 36' 23" N, 169° 30' 40" W; (map 38). Variant: Kreg'lucht'en-ang' ten-algarel'ogrey, Little Eastern Rookery. The name is reported as "Little Eastern Rookery" by Elliott (1881, p. 61); this rookery has 750 ft. of sea-margin for seals. It was called "Little East Rookery" by Joseph Stanley-Brown, USGS, in 1891, and by W. W. Duffield, USC&GS, in 1897. Putnam (1903, p. 1015), USC&GS, gives the Aleut name as "Kreg' lucht' en-ang' ten-algarel' ogrey" [BGN orthography] meaning "the rookery at Kregluchten." See Kregluchten.

Little Eastern Rookery: rookery, see Little East Rookery.

Little Egg Island: island, 130 yds. across, in Popof Strait, in Shumagin Islands, Aleutian Range; 55° 17' 00" N, 160° 31' 25" W; (map 28). Variant: Egg Islands. Both Egg and Little Egg Islands were named Egg Islands in 1872 by W. H. Dall, USC&GS. The names were applied separately in USC&GS 1916 Coast Pilot (p. 177).

Little Eightmile Island: island, in Yukon River, 41 miles SW of Nulato, Koyukuk Lowland; 64° 11' N, 158° 40' W; (map 97). Variant: Dasger Island. Local descriptive name reported in 1954 by USGS.

Little Eldorado Creek: stream, heads at junction of Last Chance and Louis Creeks, flows NW 5.5 miles to Chatanika River, 17 miles N of Fairbanks, Yukon-Tanana Highlands; 65° 06' N, 147° 41' W; BGN 1933; (map 105). Variant: Eldorado Creek, Big Eldorado Creek. Named by prospectors; reported in 1903 by USGS as Eldorado Creek (Prindle, 1905, pl. 13).

Little Eldorado Creek: stream, heads N of Lookout Mountain, flows NW 15 miles to Bonanza Creek, 10 miles S of Flat, Kilbuck-Kuskokwim Mountains; 62° 18' 40" N, 158° 05' 40" W; (map 79). Prospectors' name reported in 1933 by J. B. Mertie, USGS.

Little Eldorado Creek: stream, in Nutzotin Mountains, flows S 2.2 miles to Bonanza Creek 2.2 miles NE of its junction with Chathenda Creek, 12 miles E of Euchre Mountain, Alaska Range; 62° 06' 15" N, 141° 50' 00" W; (map 84). Named by prospectors and reported by S. R. Capps (in Brooks and others, 1915, p.222), USGS.

Little Eldorado Creek: stream, see Nugget Creek.

Little Fairmount Island: island, 0.4 miles long, in Prince William Sound, 0.5 miles SW of Fairmount Island, 43 miles NE of Whittier, Chugach Mountains; 60° 51' 35" N, 147° 27' 45" W; (map 63). Local name published on recent USGS maps; derived from nearby Fairmount Island.

Little Falls Creek: stream, flows SE 0.5 miles to Falls Creek 0.8 miles NW of its junction with Cache Creek, 32 miles NW of Talkeetna, Alaska Range; 62° 29' 08" N, 151° 01' 20" W; (map 81). Local descriptive name reported in 1958 by USGS.

Little Fish Creek: stream, flows SW 11 miles through Fish Lake to Fish Creek, 5 miles NW of Tanacross, Yukon-Tanana Highlands; 63° 27' N, 143° 26' W; (map 85). Local name reported in 1950 by USGS.

Little Flash Lake: lake, 100 yd. across, on southern Kiska Island, Aleutian Islands; 51° 52' 42" N, 177° 18' 20" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Little Fork Island: island, 0.3 miles across, on SE coast of Shuyak Island, 42 miles N of Kodiak Island; 58° 30' 20" N, 152° 23' 00" W; (map 43). Variant: Maloi Krieposti. Translation of the name "Os[trov] Mal[o]y Krypост," published in 1849 by the Russian American Company.

Little Fox Creek: stream, flows S 2 miles to Sand Bay, Great Sitkin Island, Aleutian Islands; 51° 59' 48" N, 176° 05' 15" W; (map 17). Descriptive name published in 1951 on a USGS map.

Little Garfield Creek: stream, flows SE 8.5 miles to Noxapaga River, 3 miles S of Noxapaga and 29 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 26' N, 164° 13' W; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Little Gavanski Island: island, 0.4 miles across, in Gavanski Islands, 6 miles NW of Sitka, Alexander Archipelago; 57° 07' 30" N, 135° 25' 00" W; (map 9). Variant: Gavanski Islet, Little Gavanski Islet, Ostrov Gavanskoy Menshoy. USC&GS derived this name about 1882 from translation of part of "Ostrov Gavanskoy Menshoy," meaning "smaller harbor island"; published by Lt. Sarichev (1826, map 19), IRN; originally given in 1809 by the navigator Ivan Vasiliev the first, IRN.

Little Gavanski Islet: island, see Little Gavanski Island.

Little Gerstle River: stream, flows NE 24 miles to Tanana River, 34 miles SE of Delta Junction, Tanana Lowland; 63° 47' 50" N, 144° 46' 30" W; BGN 1937; (map 86). Local name reported in 1937 by USGS.

Little Glacier Slough: stream, on S coast of Alaska, flows S 3 miles to Gulf of Alaska, 10 miles SE of Cordova, Malaspina Coastal Plain; 60° 27' N, 145° 32' W; (map 64). Local name published in 1951 by USGS.

Little Glacier: glacier, see Popof Glacier.

Little Goat Lake: lake, 1.5 miles long, on mainland, drains into Big Goat Lake, 2 miles W of Wilson Lake, Coast Mountains; 55° 31' N, 130° 38' W (map 3). Local name reported in 1955 by USGS.

Little Gold Creek: stream, flows N 6.5 miles to Jarvis Creek, 26 miles S of Delta Junction, Alaska Range; 63° 39' 55" N, 145° 40' 40" W BGN 1937; (map 86). Local name reported in 1937 by USGS.

Little Gold Creek: stream, flows S 2.8 miles to Gold Creek, 48 miles N of Big Delta, Yukon-Tanana Highlands; 64° 49' 15" N, 145° 34' 30" W; (map 101). Named by prospectors and reported in 1905 by D. C. Witherspoon (in Prindle, 1913a, pl. 1), USGS.

Little Goldstream Creek: stream, heads at 64° 42' N, 148° 36' W, flows W and NE 32 miles to Goldstream Creek, 6 miles S of Minto Lakes Tanana Lowland; 64° 47' N, 148° 53' W, (map 100). Local name shown on an Alaska Railroad manuscript map dated 1914.

Little Goldstream: locality, see Berg.

Little Goldstream: railroad station, see Berg.

Little Goose Bay: cove, 0.4 miles wide, on Polk Inlet, Prince of Wales Island, Alexander Archipelago; 55° 24' 45" N, 132° 27' 30" W; BGN 1963; (map 4). Local name reported in 1961 by USFS; so called by local loggers and fishermen, "because of its proximity to Goose Bay."

Little Goose Island: island, 0.3 miles across, part of Sandman Reefs, 12 miles S of Deer Island, Aleutian Range; 54° 41' 00" N, 162° 12' 15" W; (map 25). Variant: Goose Island, Gusinnoi, Civoutchy Rocher. Name derived from Goose Island, published in 1882 by USC&GS on Chart 806. See Goose Island.

Little Granite Creek: stream, flows SW 3.5 miles to Matanuska River, 2 miles E of Sutton and 12 miles NE of Palmer, Chugach Mountains; 61° 43' 25" N, 148° 49' 35" W; (map 69). Local name reported in 1942 by AMS.

Little Granite Creek: stream, flows W 4 miles to North Fork Salcha River 7 miles N of that stream's junction with Salcha River and 45 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 45' N, 145° 18' W; (map 101). Local name reported in 1958 by USGS.

Little Green Island: island, 0.7 miles long, in Montague Strait, 1.5 miles SW of Green Island, 20 miles SE of Chenega, Chugach Mountains; 60° 12' 20" N, 147° 30' 30" W; (map 63). Local name published on recent USGS maps; named relative to nearby Green Island.

Little Gulch: ravine, see Phillips Gulch.

Little Gulch: ravine, trends NE 0.5 miles to Nome River, 22 miles NE of Nome, Seward Peninsula Highlands; 64° 48' N, 165° 13' W; (map 94). Variant: Mays Oaks Gulch. Prospectors' name reported as "Little or Mays Oaks Gulch" on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Little Gulch: ravine, trends W 0.5 miles to Glacier Creek, 8 miles N of Nome, Seward Peninsula Highlands; 64° 37' 15" N, 165° 20' 30" W; (map 94). Prospectors' name reported on the 1903 Campion Mining and Trading Co. map by George M. Ashford.

Little Gunnuk Creek: stream, flows W 3.5 miles to Keku Strait, 0.5 miles S of Keku, on NW coast of Kupreanof Island, Alexander Archipelago; 56° 58' 05" N, 133° 55' 45" W; (map 6). Local name recorded in 1951 by USGS.

Little Hamilton Island: island, 0.6 miles long, in Hamilton Bay, 7.5 miles SE of Kake, on NW coast of Kupreanof Island, Alexander Archipelago; 56° 53' 40" N, 133° 48' 30" W; (map 6). Local name recorded in 1951 by USGS.

Little Harbor: anchorage, see Fox Hole.

Little Harris Creek: stream, flows S 1 mile to North Fork Kougarok River, E of Harris Dome, 39 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 36' N, 164° 32' W; (map 110). Variant: Chilly Creek. Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson. This appears to be the "Chilly Creek" shown on a precinct map of Seward Peninsula by Monroe and Hutchins; corrected to 1903 by Arthur Gibson.

Little Hog Butte: hill, 930 ft., 51 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 36' N, 153° 31' W; (map 89). Local name reported in 1958 by USGS.

Little Hog River: stream, see Hogatzakhotak Creek.

Little Hogatza River: stream, see Hogatzakhotak Creek.

Little Honolulu Creek: stream, flows NW 4.5 miles to Honolulu Creek, 60 miles SW of Healy, Talkeetna Mountains; 63° 03' 10" N, 149° 34' 15" W; (map 87). Prospectors' name obtained in 1913 by J. W. Bagley, USGS; published by S. R. Capps (in Martin, 1919, pl. 5), USGS.

Little Humpback Lake: lake, 1 mile long, 0.4 miles S of Humpback Lake and 48 miles SE of Ketchikan, Coast Mountains; 55° 00' 30" N, 130° 33' 30" W; BGN 196S; (map 3). Local name reported in 1961 by USFS.

Little Hurrah Creek: stream, flows N 1.3 miles to Big Hurrah Creek, 9 miles NE of Solomon, Seward Peninsula Highlands; 64° 39' N, 164° 14' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Little Indian Creek: stream, on N end of Kenai Peninsula, flows W 8 miles to Chickaloon Bay, 10 miles W of Hope, Cook Inlet Lowland; 60° 56' 00" N, 149° 55' 30" W; (map 63). Local name reported in 1895 by Becker (1898, p. 82), USGS.

Little Indian River: stream, flows NW 34 miles to Mathews Slough, 25 miles NNE of Hochandochtla Mountain, Kokrines-Hodzana Highlands; 65° 51' N, 154° 27' W; (map 107). Local name obtained in 1952 by USGS topographers.

Little Island: island, 0.4 miles across, at mouth of Deep Bay, in Peril Strait, off S coast of Chichagof Island, 24 miles SE of Chichagof, Alexander Archipelago; 57° 25' 45" N, 135° 35' 45" W; (map 9). Variant: Ostrov Malyy. This is a translation by USC&GS about 1882 of the name given by the Russian pilot Ens. Vasiliev; published in 1848 on Russian Hydrog. Dept. Chart 1397 as "Os[trov] Malyy."

Little Island: island, in Lynn Canal, 0.4 miles N of Ralston Island and 28 miles NW of Juneau Alexander Archipelago; 58° 32' 25" N, 135° 02' 35" W, (map 11). Descriptive name given in 1880 by Lt. F. M. Symonds, USN, and published by USC&GS in the 1883 Coast Pilot (p. 194).

Little Jack Creek: stream, heads in Mentasta Mountains, flows S 7 miles to Jack Lake, Alaska Range; 62° 31' 20" N, 143° 18' 40" W; BGN 1939; (map 84). Local name reported in 1939 by USGS.

Little Jack Slough: stream, heads in lake, flows SE 4 miles to Redoubt Bay, 35 miles W of Kenai, Cook Inlet Lowland; 60° 32' N, 152° 16' W; (map 62). Local name published in 1963 by USGS.

Little Jarvis Glacier: glacier, heads 2.4 miles NE of Mount Henry Clay, trends N 2 miles to its terminus, 1.9 miles S of the terminus of Jarvis Glacier, and 39 miles W of Skagway, St. Elias Mountains; 59° 25' N, 136° 25' W; BGN 1959; (map 45). Variant: Jarvis Creek. Name published in 1954 by USGS.

Little Jessie Creek: stream, flows S to Niukluk River, about 6 miles NW of Council and 32 miles NE of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This stream cannot be precisely located on current maps.

Little Jew Mountain: peak, see Little Njoo Mountain.

Little Joe Creek: stream, flows SE 2.3 miles, joins New York Creek to form Beaver Creek, 11 miles SE of Ruby, Kilbuck-Kuskokwim Mountains, 64° 35' 30" N, 155° 24' 45" W; (map 98). Local name obtained in 1956 by Orth.

Little Joe Gulch: ravine, trends NE 1 mile to New Eldorado Creek, 13 miles NE of Nome, Seward Peninsula Highlands; 64° 40' 36" N, 165° 10' 30" W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Little Johnny Creek: stream, flows S 1.5 miles to Dome Creek, 29 miles S of Eagle, Yukon Tanana Highlands; 64° 23' 15" N, 141° 16' 30" W; (map 102). Local name published in 1956 by USGS.

Little Joker Island: island, 2.5 miles long, in Yukon River, 17 miles W of Tanana, Nowitna Lowland; 65° 14' 30" N, 152° 40' 00" W; (map 106). Local name reported in 1952 by USGS.

Little Kalusuk Creek: stream, flows NW 14 miles to Kalusuk Creek, 49 miles NE of Haycock, Nulato Hills; 65° 38' N, 159° 51' W; (map 109). Local name published on maps after 1950.

Little Kamishak River: stream, flows NE 18 miles to Akumwarvik Bay, 35 miles SW of Augustine Island, Aleutian Range; 59° 01' N, 154° 11' W; (map 51). Local name reported in 1923 by K. F. Mather (in Brooks and others, 1925, pl. 3), USGS.

Little Kanatak Creek: stream, flows SW 4.4 miles to Kanatak Creek, 0.2 miles W of its mouth at Portage Bay, on S coast of Alaska Peninsula 53 miles E of Ugashik, Aleutian Range; 57° 34' 15" N, 156° 01' 55" W; (map 36). Local name published in 1924 by USC&GS.

Little Kasigluk River: stream, flows N 14 miles to Kasigluk River, 40 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 41' N, 160° 36' W (map 59). Local name reported in 1955 by J. M. Hoare, USGS.

Little Kayak Island: island, see Wingham Island.

Little King Salmon River: stream, flows S 25 miles to Nuyakuk River, 65 miles NE of Dillingham, Bristol Bay Lowland; 59° 56' N, 157° 57' W; (map 52). Name published in 1932 by the U.S. BIA.

Little Kings Creek: stream, see Young Creek.

Little Kiska Beach: beach, 100 yds. long, facing South Pass, W coast of Little Kiska Island, Aleutian Islands; 51° 57' 30" N, 177° 37' 15" E; (map 14). One of many arbitrary names applied to features on Kiska Island by USAAF for tactical purposes during World War II.

Little Kiska Head: point of land, on NW tip of Little Kiska Island, Aleutian Islands, 51° 58' 20" N, 177° 38' 20" E; BGN 1937; (map 14). Name published on a 1905 USC&GS chart.

Little Kiska Island: island, 3.5 miles long, E of Kiska Island, one of Rat Islands, Aleutian Islands; 51° 57' N, 177° 39' E; BGN 1937; (map 14). So called by Capt. Lutke (1836, p. 326) IRN, to distinguish Petite Kyska Ile (Little Kiska Island) from Grande Kyska Ile (Kiska Island).

Little Kitoi Lake: lake, 0.8 miles long, at head of Kitoi Bay on SE coast of Afognak Islands, 20 miles NE of Afognak, Kodiak Island; 58° 12' N, 152° 22' W; (map 43). Local descriptive name reported in 1952 by USGS; derived from Kitoi Bay.

Little Kobuk Sand Dunes: sand dunes, 3 miles long and 1 mile wide, in Kobuk River valley, 32 miles NW of Shungnak, Brooks Range; 67° 01' N, 158° 18' W; (map 126). Descriptive name given in 1956 by Orth. See Big Kobuk Sand Dunes.

Little Koniuji Island: island, 8 miles long, in Shumagin Islands, Aleutian Range; 55° 00' N, 159° 23' W; (map 26). Variant: Ostrov Malyy Koniushi, Tangimak Island, Tankinak, Toughimik Island. Named "O[strov] Malyy Koniushi," meaning "little Koniushi island" by the Russian Hydrog. Dept. and Capt. Tebenkov (1853, map 24), IRN. Father Veniaminov (1840, v. 1, p. 254) used the Aleut name "Tangimak," and Capt. F. P. Lutke, IRN, called it "Tounghimik." "Little Koniuji" is shown on an 1888 USC&GS chart.

Little Kotlik River: stream, in Yukon Delta, flows NE 15 miles to Kotlik River opposite Kotlik, 36 miles NE of Kwiguk, Yukon-Kuskokwim Delta; 63° 02' N, 163° 33' W; (map 92). Local name published in 1901 by USC&GS on Chart 9372.

Little Lagoon: lagoon, 0.6 miles long, on W side of Morzhovoi Bay, at SW end of Alaska Peninsula, Bristol Bay Lowland; 55° 03' 30" N, 163° 13' 30" W; (map 29). Descriptive name published in 1943 on a USGS map.

Little Lagoon: lagoon, 1 mile long, on S coast of Port Houghton, 2 miles SW of Walter Island and 82 miles E of Sitka, Coast Mountains; 57° 17' 45" N, 133° 19' 30" W; (map 8). Local name reported in 1955 by USGS.

Little Lake Clark: lake, 8.5 miles long, at NE end of Lake Clark, 44 miles NE of Nondalton, Aleutian Range; 60° 25' N, 153° 40' W; (map 61). Name shown on a 1909 fieldsheet by C. E. Giffin, USGS.

Little Lake Louise: lake, 2.1 miles long, 1 mile W of Lake Louise and 37 miles WNW of Glennallen, Copper River Basin; 62° 19' N, 146° 40' W; (map 83). Local name reported in 1952 by USGS.

Little Lake: lake, 0.4 miles long, WSW of Harding Lake and 37 miles NW of Big Delta, Yukon-Tanana Highlands; 64° 24' 45" N, 146° 54' 00" W; (map 101). Local descriptive name; published in 1951 by USGS.

Little Lake: lake, 0.5 miles long, between Boulder Creek and Swift Fork Kuskokwim River, 15 miles NW of Mount Russell, Alaska Range; 62° 57' 45" N, 152° 11' 00" W; (map 81). Local descriptive name reported in 1958 by USGS.

Little Lake: lake, 0.7 miles long, 2.8 miles W of Ratz Harbor, NE Prince of Wales Island, Alexander Archipelago; 55° 53' N, 132° 41' W; BGN 1963; (map 4). Local descriptive name reported in 1961 by USFS.

Little Lake: lake, 765 ft. long, 52 miles NW of Valdez, between Nelchitna and South Fork Matanuska Rivers, Chugach Mountains; 61° 44' 25" N, 147° 13' 00" W; (map 69). Local name reported in 1960 by USGS.

Little Level Island: island, 1.2 miles long, one of Level Islands, off SE coast of Kupreanof Island, Alexander Archipelago; 56° 27' 30" N, 133° 06' 00" W; (map 6). Local descriptive name reported in 1949 by USGS.

Little Lockwood Creek: stream, heads NW of Wolf Creek Mountain, flows NE 14 miles to Hawk River, 34 miles SW of Anvik and 46 miles N of Russian Mission, Nulato Hills; 62° 27' 15" N, 161° 12' 40" W; (map 78). Local name reported in 1949 by USC&GS.

Little Long Lake: lake, 0.3 miles long, 2.2 miles SE of Big Lake and 14 miles SW of junction of Herron and Foraker Rivers, Tanana Lowland; 63° 30' N, 152° 27' W; (map 88). Local name reported in 1954 by USGS.

Little Macklin Creek: stream, flows NW 2 miles to Macklin Creek which flows to Kougarok River, 6 miles W of Midnight Mountain and 47 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 45' N, 164° 47' W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Little Macondray Creek: stream, flows SE to Nome River, about 37 miles NE of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Little Manila Creek: stream, flows W 3 miles, joins Chicago Boy Creek to form Manila Creek, 50 miles SW of Eagle, Yukon Tanana Highlands; 64° 21' 45" N, 142° 35' 00" W; (map 102). Variant: Little Manilla Creek. Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Little Manilla Creek: stream, see Little Manila Creek.

Little Martin Lake: lake, 2.3 miles long, along S side of Martin River, 13 miles N of Katalla, Chugach Mountains; 60° 24' N, 144° 29' W; BGN 1948; (map 64). Name published in 1948 by USGS.

Little Matterhorn: peak, 5,900 ft., on Taku Range at edge of Taku Glacier, 0.7 miles NW of Cathedral Peak and 22 miles N of Juneau, Coast Mountains; 58° 37' 20" N, 134° 22' 15" W; (map 11). Name proposed in 1964 by the Juneau Icefield Research Program.

Little May Creek: stream, flows SE to Nome River, about 36 miles NE of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Little McKinley: peak, see Hunter, Mount.

Little McLellan Creek: stream, flows NE 3.5 miles from McLellan Pass to McLellan Creek, 13 miles ENE of Chandalar, Brooks Range; 67° 33' N, 148° 02' W; (map 123). Variant: McLellan Creek. Local name reported in 1956 by T. E. Taylor, USGS.

Little Meadow Creek: stream, heads in a lake, flows SW 3.2 miles to join Lucile Creek to form Meadow Creek, 25 miles N of Anchorage, Cook Inlet Lowland; 61° 34' 00" N, 149° 46' 40" W; (map 69). Local name reported in 1942 by AMS.

Little Melozi River: stream, see Little Melozitna River.

Little Melozitna Hot Springs: springs, on course of Hot Springs Creek 1.4 miles SE of mouth of that stream, 24 miles NNE of Birches, Kokrine Hodzana Highlands; 65° 27' 30" N, 153° 18' 40" W; (map 107). So named because "they are on a tributary of Little Melozitna River, though they are about 2 1/2 miles from that stream. * * *. A small cabin was built near the principal spring [of the group of 21] in 1913 by two French trappers, but it has been occupied for only short times * * *." (Waring, 1917, p. 66).

Little Melozitna River: stream, heads W of Gold Mountain, flows NE 38 miles to Melozitna River, 37 miles NNE of Birches, Kokrines Hodzana Highlands; 65° 38' 25" N, 153° 11' 20" W; (map 107). Variant: Little Melozi River. Local name reported in 1908 as "Little Melozi River" by Maddren (1910, pl. 5) USGS.

Little Merganser Lake: lake, 0.3 miles long, on Kenai Peninsula NE of Big Merganser Lake, 25 miles NE of Kenai, Cook Inlet Lowland; 60° 43' 20" N, 150° 36' 15" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, probably for the Red-Breasted Merganser, Saltwater Sheldrake, or Sea Robin (*Mergus serrator*), a duck which breeds in Alaska and along the Arctic coast to Greenland.

Little Mike Point: point of land, see Murder Point.

Little Miller Creek: stream, flows S 1.5 miles to Dome Creek, 29 miles S of Eagle, Yukon-Tanana Highlands; 64° 23' 30" N, 141° 12' 10" W (map 102). Variant: Miller Creek. Prospectors' name shown on a 1902 manuscript map by E. J. Chamberlain, U.S. Deputy Surveyor.

Little Mink Lake: lake, 0.4 miles long, on Kenai Peninsula NW of Big Mink Lake, 20 miles NE of Kenai, Cook Inlet Lowland; 60° 39' 20" N, 150° 43' 50" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Little Minook Creek: stream, flows NW 5 miles to Minook Creek, between Idaho and California Bars, 3.5 miles SE of Rampart, Yukon-Tanana Highlands; 65° 27' 30" N, 150° 06' 00" W; (map 106). Prospectors' name published in 1898 by USC&GS on Chart 3098. Gold was discovered here in the early 1890's by John Minook, but the first claim was located by F. S. Langford in 1896. See Minook Creek.

Little Minook Junior Creek: stream, heads on California Bar, flows NW 2.1 miles to Minook Creek, 4 miles SSE of Rampart. Yukon-Tanana Highlands; 65° 27' 35" N, 150° 06' 10" W; (map 106). Prospectors' name reported in 1904 by Prindle and Hess (1906, pl. 3), USGS.

Little Montana Creek: stream, flows SE 1.6 miles to Bonanza Creek, 20 miles NE of Flat, Kilbuck-Kuskokwim Mountains; 62° 31' 20" N, 157° 23' 50" W; (map 79). Prospectors' name obtained in 1952 by USGS topographers.

Little Moose Creek: stream, flows NW 2 miles to Moose Creek, 37 miles S of Nenana, Alaska Range; 64° 02' N, 148° 58' W; (map 100). Named relative to Moose Creek, published in 1915 on GLO [BLM] survey Plateau

Little Moose Creek: stream, flows NW 5.4 miles to South Fork Sulatna River, 15 miles E of Poorman and 25 miles SW of Monzonite Hills, Kilbuck-Kuskokwim Mountains; 64° 07' 36" N, 155° 03' 40" W; (map 98). Local name reported in 1952 by USGS.

Little Moose Creek: stream, flows SW 10 miles to George River, 29 miles SE of Flat and 41 miles N of Sleetmute, Kilbuck-Kuskokwim Mountains; 62° 17' 40" N, 157° 11' 30" W; (map 79). Local name obtained in 1952 by USGS topographers.

Little Moose Creek: stream, in Kantishna Hills, flows NE 5.6 miles to Clearwater Fork, 2.7 miles S of that stream's junction with Toklat River, 63° 46' 40" N, 150° 20' 30" W; (map 88). Local name shown on a 1916 fieldsheet by C. E. Giffin, USGS.

Little Mosquito Creek: stream, flows SE 5 miles to Big Mosquito Creek, 7 miles ENE of Central and 21 miles SW of Circle, Yukon-Tanana Highlands; 65° 36' N, 144° 34' W; (map 104). Variant: Mosquito Creek. Name originally reported in 1915 as Mosquito Creek by Waring (1917, fig. 6), USGS.

Little Mount Juneau: peak, see Roberts, Mount.

Little Mount Susitna: mountain, 3,035 ft., W of Mt. Susitna, 31 miles NE of Tyonek, Alaska Range; 61° 30' 45" N, 150° 56' 30" W; (map 70). Local name reported in 1954 by USGS; so named in contrast to the larger Mount Susitna.

Little Mountain Village: locality, on right bank of Kuskokwim River, 32 miles E of Aniak, Kilbuck-Kuskokwim Mountains; 61° 33' 35" N, 158° 32' 15" W; (map 72). This former Eskimo village or camp appears to have been first mentioned in 1842 44 by Lt. L. A. Zagoskin, IRN, as "Ikalikhtuli," referring to a "fishing place" 2 miles above Wloyukuk [Holokuk River]. The name "Little Mountain Village," referring to Horn Mountain[s] behind it, was reported in 1916 by R. H. Sargent, USGS. W.S. Post, USGS, does not show a village here on his 1898 fieldsheet. There are no permanent buildings here.

Little Mountain: hill, 119 ft., on E shore of Reindeer Cove, 16 miles W of Christmas Mountain, Nulato Hills; 64° 32' N, 161° 05' W; (map 96). Local name reported about 1954 by U.S. Army Corps of Engineers.

Little Mountain: mountain, 4,468 ft., near head of Camp Creek, 12.5 miles NW of Mount Russell, Alaska Range; 62° 53' 35" N, 152° 13' 05" W; (map 81). Local descriptive name reported in 1958 by USGS.

Little Mountain: mountain, see Pilot Mountain.

Little Mud River: stream, flows SW 80 miles to Nowitna River 1.5 miles E of its junction with Lost River, 15 miles NE of Monzonite Hills, Kilbuck-Kuskokwim Mountains; 64° 29' N, 154° 12' W; (map 98). Local name reported in 1915 by Eakin (in Brooks and others, 1916, pl. 10), USGS.

Little Mud River: stream, heads on SE slope of Kaiyuh Mountains at 64° 10' N, 157° 17' W, flows SW and SE 110 miles to Mud River 10 miles N of its junction with Innoko River, 60 miles NW of Ophir and 64 miles S of Nulato, Innoko Lowland; 63° 48' N, 157° 46' W; BGN 1965; (map 90). Variant: Kluklaklatna River. Local name published in 1965 by USGS. Indian name "Kluklaklatna" was reported in 1908 by A. G. Maddren, USGS. See Mud River.

Little Mukhlung River: stream, see Little Muklung River.

Little Muklung River: stream, flows S 20 miles to Black Slough, 7 miles NE of Dillingham, Bristol Bay Lowland; 59° 03' 30" N, 158° 17' 00" W; BGN 1931; (map 52). Variant: Little Mukh-lung River. Eskimo name written Mukh-lung by H. C. Fassett, in 1910, USBF.

Little Mulchatna River: stream, flows W 17 miles to the Chilikadroth River, 40 miles NE of Nondalton, Alaska Range; 60° 33' 30" N, 154° 35' 00" W; (map 61). Local name reported in 1933 by USGS.

Little Mulchatna River: stream, see Mulchatna River.

Little Mummy Island: island, 300 ft. across, 1 mile E of Mummy Island and 12 miles SW of Cordova, Chugach Mountains; 60° 28' N, 146° 03' W; BGN 1933; (map 64). Local name reported by H. E. Smith, USFS, in 1933. So called because of its location near Mummy Island.

Little Munson Creek: stream, flows NE 8 miles to Munson Creek, 55 miles N of Big Delta, Yukon-Tanana Highlands; 64° 55' 50" N, 146° 01' 45" W; (map 101). Named by prospectors; reported in 1910 by USGS (Capps, 1912, pl. 1).

Little Naked Island: island, see Peak Island.

Little Naked Island: island, see Storey Island.

Little Narrows: water passage, between Miller and Kodiak Islands, on W shore of Alitak Bay, at S end of Kodiak Island; 56° 58' 00" N, 154° 08' 30" W; (map 32). Descriptive name published in 1943 by USC&GS.

Little Nation Hill: mountain, 3,350 ft., 33 miles N of Eagle, Porcupine Plateau; 65° 16' 30" N, 141° 15' 00" W; (map 103). Named by J. B. Mertie, Jr. (in Smith and others, 1933, p. 356), USGS, for purposes of geographic and geologic description, but the name did not become an established map name. It was named relative to the IBC survey triangulation station Nation on a higher hill 3.5 miles to the east.

Little Naukati Bay: estuary, on W coast of Prince of Wales Island, trends W 1 mile to Tuxekan Narrows, Alexander Archipelago; 55° 52' 30" N, 133° 13' 15" W; (map 4). Indian name recorded in 1949 by USGS.

Little Nelchina River: stream, heads at 62° 06' N, 147° 49' W, flows SE 43 miles to Nelchina River, 1.5 miles N of Twin Lakes and 61 miles NW of Valdez, Copper River Basin; 61° 57' 10" N, 146° 52' 30" W; BGN 1915; (map 68). Variant: Bubb Creek, Nelchina River, Taiklano. E. F. Glenn named this river in 1898 "Bubb Creek" and gave its Ahtena Indian name "Taiklano." It was called "Nelchina River" in 1906 by USGS and later "Little Nelchina" River (Moffit, 1915, fig. 3).

Little Nenana River: stream, distributary, flows N 4 miles from Nenana River to Tanana River, 0.7 miles W of Nenana, Tanana Lowland; 64° 34' 00" N, 149° 07' 15" W; (map 100). Variant: Nenana Slough. Local name derived from Nenana River and reported by USGS (Capps, 1919, pl. 1). The stream had been shown earlier as Nenana Slough on a railroad manuscript map in 1914.

Little Njoo Mountain: peak, 5,568 ft., in Philip Smith Mountains, on N bank of Junjik River, 26 miles NW of Arctic Village, Brooks Range; 68° 26' N, 146° 07' W; (map 136). Variant: Little Jew Mountain. Kutchin Indian name obtained in 1926 by Mertie (in Smith, P. S., 1929, pl. 1), USGS.

Little Noatak River: stream, see Little Noatak Slough.

Little Noatak Slough: stream, a distributary of Noatak River, flows SE 10 miles to Hotham Inlet, 12 miles NE of Kotzebue, Kotzebue-Kobuk Lowland; 67° 00' N, 162° 13' W; (map 128). Variant: Little Noatak River. Local name obtained at Kotzebue in 1956 by Orth.

Little Noquashinski Bay: water passage, see Nakwasina Passage.

Little Norway: bight, west arm of Clark Bay, on W shore of Stepovak Bay, near SW end of Alaska Peninsula, Aleutian Range; 55° 46' N, 160° 03' W; (map 28). Local name published by USC&GS in 1916 Coast Pilot (p. 164).

Little Oshetna River: stream, heads at 62° 08' N, 147° 50' W, flows NE 27 miles to Oshetna River, 5 miles E of Twin Hills and 70 miles W of Gulkana, Talkeetna Mountains; 62° 22' 25" N, 147° 29' 30" W; (map 82). Local name reported by F. H. Moffit (in Brooks and others, 1915, fig. 3), USGS.

Little Panguingue Creek: stream, flows NE 5 miles to Nenana River, 7 miles NW of Healy, Alaska Range; 63° 57' 20" N, 149° 02' 40" W; (map 87). Name reported in 1951 by USGS.

Little Pass: water passage, in Barrier Islands, 1 mile NE of Middle Island, SW coast of Prince of Wales Island, Alexander Archipelago; 54° 49' N, 132° 24' W; (map 1). Local descriptive name reported in 1951 by USGS.

Little Pavlof: mountain, 6,762 ft., 9 miles W of Pavlof Bay, near SW end of Alaska Peninsula, Aleutian Range; 55° 24' N, 161° 55' W; (map 28). Named in 1929 by USGS.

Little Peters Creek: stream, flows N 5 miles to Peters Creek, E of Birchwood, 20 miles NE of Anchorage, Cook Inlet Lowland; 61° 24' N, 149° 27' W; (map 69). Local name reported in 1942 by AMS.

Little Peters Hills: ridge, 2,500 ft., extends 6 miles along W bank of Bear Creek, 22 miles W of Talkeetna, Alaska Range; 62° 18' N, 150° 50' W; (map 81). Local name reported in 1911 by S. R. Capps (in Brooks, 1912, pl. 9), USGS.

Little Poker Creek: stream, flows SE 4.5 miles to Caribou Creek, 22 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 09' 15" N, 147° 29' 30" W; (map 105). Named by prospectors; reported in 1907 by C. C. Covert, USGS.

Little Polavina Rookery: rookery, see Little Polovina Rookery.

Little Pole Anchorage: estuary, see Fishermans Harbor.

Little Polly Creek: stream, flows SE 8 miles to Polly Creek, 1.8 miles W of Redoubt Point and 45 miles SW of Kenai, Aleutian Range; 60° 17' 00" N, 152° 27' 30" W; (map 62). Local name published in 1959 by USGS.

Little Polovina Hill: hill, 308 ft., on northcentral Saint Paul Island, in Pribilof Islands; 57° 11' 45" N, 170° 13' 40" W; (map 38). Variant: Little Polavina. "Polovina" is Russian for "halfway" (Baker, 1906, p. 408). The name was reported as "Little Polavina" by Elliott (1881, St. Paul map). See Polovina Hill.

Little Polovina Rookery: rookery, 1.1 miles N of Halfway Point, on E coast of Saint Paul Island, in Pribilof Islands; 57° 10' 40" N, 170° 09' 20" W; (map 38). Variant: Little Polovina Rookery, Polovina Cliffs Rookery. This seal rookery was named relative to Polovina Rookery; noted by Elliott (1881, p. 56): "There is a small rookery, which I call ' Little Polovina' * * *."

Little Polovina: hill, see Little Polovina Hill.

Little Port Walter: bay, 0.2 miles across, S of Port Walter, 9 miles N of village of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 23' 00" N, 134° 38' 30" W; BGN 193S; (map 5). Variant: Inner Port Walter. Local name used by fishermen; published in 1925 by USC&GS as "Inner Port Walter" and in 1927 as "Little Port Walter."

Little Potato Mountain: peak, 1,250 ft., on N side of Potato Mountain, 15 miles NE of Cape Prince of Wales, Seward Peninsula Highlands; 65° 29' 15" N, 167° 34' 00" W; (map 111). Local name reported in 1918 by Steidtmann and Cathcart (1922, fig. 14), USGS.

Little Preacher Creek: stream, flows NW 13 miles to Preacher Creek, 0.2 miles SE of junction of Preacher and Birch Creeks and 33 miles SE of Fort Yukon, Yukon Flats; 66° 07' 50" N, 144° 50' 00" W; (map 119). Local name obtained in 1956 by USGS.

Little Ptarmigan Creek: stream, flows SE 4 miles to Kuzitrin River, 22 miles NE of Salmon Lake and 22 miles W of Mount Bendeleben, Seward Peninsula Highlands; 65° 13' N, 164° 49' W; (map 110). Variant: Ptarmigan Creek. Prospectors' name published in 1956 by USGS. Reported as "Ptarmigan Creek" on a 1908 "Map of Seward Peninsula" by Arthur Gibson.

Little Puffin Bay: bay, 0.9 miles long, on W coast of Baranof Island, 5 miles W of Port Alexander, Alexander Archipelago; 56° 13' 50" N, 134° 47' 00" W; BGN 1925; (map 5). Named in 1925 by USC&GS; derived from Puffin Bay.

Little Pup: stream, flows NE 1 mile to Poorman Creek, 0.8 miles SE of Poorman and 45 miles S of Ruby, Kilbuck-Kuskokwim Mountains; 64° 05' 28" N, 155° 31' 58" W; (map 98). Local name reported in 1933 by USGS.

Little Pybus Bay: bay, 1 mile across, on SE coast of Admiralty Island, 5 miles SW of Pybus Bay, Alexander Archipelago; 57° 13' N, 134° 08' W; (map 9). Local name reported in 1951 by USGS.

Little Queenie Creek: stream, flows NW 3.5 miles to Goldstream Creek, 7 miles N of Fairbanks, Yukon-Tanana Highlands; 64° 56' 20" N, 147° 45' 15" W; (map 100). Named by prospectors; shown in 1905 on a manuscript map by C. W. Joint.

Little Question Lake: lake, 0.1 miles long, at head of Question Creek, 6 miles S of Talkeetna, Cook Inlet Lowland; 62° 13' 30" N, 150° 03' 55" W; (map 81). Local name reported in 1958 by USGS.

Little Rabbit Creek: stream, flows NW and W 6.2 miles to Rabbit Creek, 9.5 miles S of Anchorage, Cook Inlet Lowland; 61° 04' 38" N, 149° 49' 25" W; (map 69). Local name published in 1912 by USC&GS.

Little Rapids Island: island, 0.1 miles across, S of Rapids Island, in Sergius Channel, in Peril Strait, 26 miles NW of Sitka, Alexander Archipelago; 57° 24' 15" N, 135° 37' 40" W; (map 9). Descriptive name given by Comdr. J. B. Coghlan, USN; published by USC&GS in 1883 Coast Pilot (p. 181).

Little Raspberry Island: island, 1.7 miles long, between Raspberry and Afognak Islands, N of Kodiak Island; 58° 00' 00" N, 152° 54' 30" W; (map 43). Variant: Maloi Malinovoy Island. Translation of the name "Os[trov] Maloy Malinovoy" given by Sub-Lt. Mikhail Murashev, IRN, in 1839 or 1840, and published by the Russian Hydrog. Dept. in 1849 on Chart 1425.

Little Raspberry Strait: water passage, see Whale Passage.

Little Ratz Creek: stream, flows NE 4 miles to Little Ratz Harbor, NE coast of Prince of Wales Island, Alexander Archipelago; 55° 51' 45" N, 132° 34' 40" W; BGN 1962; (map 4). "This stream is the only drainage into Little Ratz Harbor and the name is used locally"; reported in 1961 by USFS.

Little Ratz Harbor: cove, 0.7 miles wide, 1.5 miles S of Ratz Harbor, NE coast of Prince of Wales Island, Alexander Archipelago; 55° 51' 45" N, 132° 34' 00" W; BGN 1962; (map 4). Local name reported in 1961 by USFS.

Little River Lake: lake, 1.5 miles long, in course of Little River, on NW coast of Kodiak Island; 57° 46' 20" N, 153° 39' 00" W; (map 34). Name derived from Little River and published in 1952 by USGS.

Little River: stream, flows NW through Little River Lake 13 miles to Shelikof Strait, 3.7 miles NE of Cape Kuliuk, on NW coast of Kodiak Island; 57° 50' 30" N, 153° 51' 30" W; (map 34). Descriptive name given in 1897 by Comdr. Moser, USN, of the USBF steamer Albatross.

Little River: stream, heads in Lare Glacier and flows S 3.5 miles to Gulf of Alaska, 5 miles NW of Icy Cape and 79 miles NW of Yakutat Malaspina Coastal Plain; 59° 59' 20" N, 141 49' 00" W; (map 47). Local name reported by A. G. Maddren USGS in 1913.

Little Rock Mountain: mountain, 3,120 ft., 31 miles NW of Christian and 42 miles N of Venetie Brooks Range; 67° 37' N, 146° 09' W; (map 122). Local name reported in 1956 by T. E. Taylor, USGS.

Little Rock: rock, 200 ft. long, in Revillagigedo Channel 3 miles S of Mary Island, Alexander Archipelago; 55° 00' 10" N, 131° 11' 30" W; (map 3). Named about 1880 by local navigators; reported by USC&GS.

Little Rose Island: island, 0.2 miles across, in Peril Strait, 0.5 miles NE of Rapids Point, off NW coast of Baranof Island, Alexander Archipelago; 57° 27' 30" N, 135° 32' 40" W; (map 9). Named in 1884 by Comdr. J. B. Coghlan USN; published by USC&GS on Chart 727.

Little Russian Mission: settlement, see Russian Mission.

Little Rusty Creek: stream, flows N 1.5 miles to White Creek, 69 miles SE of Healy, Alaska Range; 63° 11' 15" N, 147° 18' 20" W; (map 87). Named relative to nearby Rusty Creek published in 1960 by USGS.

Little Saint Michael Canal: watercourse, extends SW 6.8 miles, from North Branch, Big St. Michael Canal to Big St. Michael Canal 12 miles SW of St. Michael, Yukon-Kuskokwim Delta; 63° 24' N, 162° 24' W; (map 92). Variant: North Branch Saint Michael Canal. Local name obtained in 1952 by USC&GS the northeastern part of this feature was published as "North Branch Big Saint Michael Canal" in 1901 by USC&GS.

Little Salcha River: stream, flows SW 17 miles to Tanana River, 44 miles NW of Big Delta Tanana Lowland; 64° 31' 45" N, 147° 03' 00" W (map 100). Variant: Little Salchaket River. Named by prospectors; published in 1906 by USGS as "Little Salchaket River." Present name reported in local usage in 1907 by Prindle (1908, pl. 4), USGS.

Little Salchaket River: stream, see Little Salcha River.

Little Salmon Lake: lake, see Karta Lake.

Little Salmon River: stream, heads in a lake 1.6 miles NE of Porcupine Peak, flows E 8.5 miles to Tsirku River, 3.6 miles W of Klukwan and 25 miles SW of Skagway, St. Elias Mountains; 59° 23' 05" N, 135° 59' 20" W; (map 45). Local name reported by Wright (1904, pl. 2), USGS. At that time the Tsirku River was called the Salmon River by the miners, therefore the name.

Little Salmon: stream, see Karta River.

Little Salt Creek: stream, in Ray Mountains, flows ENE 13 miles to Yukon River, 21 miles N of Rampart and 73 miles NE of Tanana, Kokrines-Hodzana Highlands; 65° 48' 15" N, 150° 04' 00" W; (map 106). Prospectors' name reported in 1956 by Orth.

Little Saltery Island: island, 0.4 miles across, 15 miles SW of Petersburg, between Woewodski Island and Lindenberg Peninsula, Kupreanof Island, Alexander Archipelago; 56° 35' 45" N, 133° 01' 30" W; BGN 1933; (map 6). Local name reported in 1933 by R. H. Sargent, USGS; name obtained from G. J. Hilderbrand of Pearl Island.

Little Sandy Island: island, see Fawn Island.

Little Scottie Creek: stream, heads in lake S of Mount Dave in Yukon, Canada, flows NW, across Alaska-Canada boundary, 12 miles to Scottie Creek, 36 miles SE of Northway Junction, Alaska Range; 62° 38' 15" N, 141° 00' 15" W; (map 84). Local name reported in 1955 by USGS.

Little Selatna River: stream, flows W 16 miles to Kuskokwim River, 3.3 miles NE of junction of Selatna River, 29 miles S of McGrath, Kilbuck-Kuskokwim Mountains; 62° 33' N, 155° 43' W; (map 80). Local name reported in 1940 by USGS.

Little Sheep Creek: stream, 1.1 miles long, flows SW to SW shore of Gastineau Channel, 1.5 miles NW of Dumont and 5 miles SE of Juneau, Coast Mountains; 58° 14' 40" N, 134° 17' 30"

W; (map 11). Local name reported in 1916 by D. C. Witherspoon, USGS, and published in 1918.

Little Sheep Creek: stream, flows NE 1.5 miles to Goldstream Creek, 9 miles NW of Fairbanks, Yukon-Tanana Highlands; 64° 55' N, 147° 59' W; BGN 1939; (map 100). Local name reported in 1939 by USGS.

Little Shotgun Creek: stream, flows SE 5 miles to Shotgun Creek, 61 miles SW of Healy, Alaska Range; 63° 02' 40" N, 149° 48' 00" W; (map 87). Prospectors' name obtained in 1913 by J. W. Bagley, USGS; published by S. R. Capps (in Martin, 1919, pl. 5), USGS.

Little Silver Bow Basin: valley, see Lurvey Basin.

Little Singatook: mountain, 3,653 ft., at W end of Kigluaik Mountains, 1 mile N of Grand Singatook and 35 miles NW of Nome, Seward Peninsula Highlands; 64° 55' N, 166° 05' W; (map 94). Named in 1966 by L. G. Madland; he reported "the name 'Singatook' is the name the Eskimos living in the area use for both peaks."

Little Sitchin Island: island, see Little Sitkin Island.

Little Sitkin Island: island, 6.8 miles across, one of Rat Islands, Aleutian Islands; 51° 57' N, 178° 31' E, BGN 1937; (map 15). Variant: Little Sitchin Island, Western Sitkin Island. Named "Os[trov] Malyy Sitkhin," meaning "little Sitkin island" on the 1848 Russian Hydros. Dept. Chart 1400. The name "Sitkin" may possibly be from the Aleut word "sitxan," which, according to R. H. Geoghegan, means "from beneath or from under."

Little Sitkin Pass: water passage, between Little Sitkin and Davidof Islands in Rat Islands, Aleutian Islands; 51° 58' N, 178° 24' E; BGN 1937; (map 15). Named for Little Sitkin Island in 1936 by U.S. Hydrographic Office. See Little Sitkin Island.

Little Situk Lake: lake, see Mountain Lake.

Little Skookum Chuck: water passage, see Tonowek Narrows.

Little Smith Island: island, 0.5 miles long, off W coast of Smith Island, in Prince William Sound, 28 miles NE of Chenega, Chugach Mountains; 60° 31' 15" N, 147° 25' 30" W; (map 63). Variant: Smith Islands. Local name reported in 1905 by U. S. Grant, USGS.

Little South Fork George River: stream, flows W 30 miles to East Fork George River, 32 miles N of Sleetmute, Kilbuck Kuskokwim Mountains; 62° 09' 30" N, 157° 03' 40" W; (map 79). Local name obtained in 1952 by USGS topographers.

Little Specimen Gulch: ravine, trends NW 0.6 miles to Specimen Gulch, on NE slope Anvil Mountain, 5 miles N of Nome, Seward Peninsula Highlands; 64° 34' 48" N, 165° 22' 50" W; (map 94). Variant: California Gulch. Prospectors' name reported on the 1903 Campion Mining and Trading Co. map by George M. Ashford.

Little Spruce Creek: stream, flows SW 3 miles to Willow Creek, 3 miles E of junction of Willow and Robert Creeks and 16.5 miles NW of Chandalar, Brooks Range; 67° 39' 30" N, 148° 56' 00" W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Little Squaw Creek: stream, flows NE 2.5 miles to Little Squaw Lake, 11 miles NE of Chandalar, Brooks Range; 67° 35' 00" N, 148° 08' 30" W; (map 123). Prospectors' name obtained in 1909 by A. G. Maddren (in Brooks and others, 1910, pl. 7), USGS.

Little Squaw Lake: lake, 1 mile across, 2 miles SE of Squaw Lake, and 12 miles NE of Chandalar, Brooks Range; 67° 36' N, 148° 06' W; (map 123). Local name published in 1951 by USGS.

Little Squaw Peak: peak, 5,000 ft., 3.5 miles S of Squaw Lake and 8.5 miles NE of Chandalar, Brooks Range; 67° 33' 00" N, 148° 11' 30" W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Little Squaw: settlement, see Chandalar.

Little Stony Creek: stream, heads N of Gravel Mountain, flows N 4.5 miles to Stony Creek, 2 miles N of Stony Hill and 11.5 miles NE of head of McKinley River, Alaska Range; 63° 29' 45" N, 150° 15' 00" W; (map 88). Local name reported in 1954 by USGS.

Little Supreme Bluff: bluff, on E shore of Ikpikpuk River, 18 miles N of its head, Arctic Plain; 69° 35' N, 154° 56' W; (map 142). Probably named in the 1940's by the geologists on the Naval Petroleum Reserve No. 4 exploration.

Little Susitna River: stream, heads at Mint Glacier, in Talkeetna Mountains at 61° 51' 30" N, 149° 03' 30" W, flows SW 110 miles to Cook Inlet, 13 miles W of Anchorage, Cook Inlet Lowland; 61° 15' 15" N, 150° 17' 30" W; (map 70). Local name published in 1898 by USC&GS.

Little Swede Creek: stream, flows E 2 miles to Glacier River, 1.5 miles S of mouth of Swede Creek 11.5 miles NW of Wiseman, Brooks Range; 67° 31' 45" N, 150° 24' 30" W; (map 124). Local name reported by Marshall (1956, map).

Little Swift Creek: stream, flows NW 14 miles to Crooked Creek, 74 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 16' N, 159° 51' W; (map 59). Local descriptive name; reported in 1955 by J. M. Hoare, USGS.

Little Swift River: stream, see Enatalik Creek.

Little Tanaga Island: island, 10 miles long, one of Andreanof Islands, Aleutian Islands; 51° 50' N, 176° 08' W; BGN 1936; (map 17). Variant: Tanaga Island, Tannak Island. Aleut name published by Capt. Tebenkov (1852, map 28), IRN, as "O[strov] Tanaga," or "Tanaga Island." The name was changed to Little Tanaga Island by the North Pacific Exploring Expedition in 1855 to distinguish it from the larger Tanaga Island.

Little Tanaga Strait: water passage, between Little Tanaga and Kagalaska Islands, Aleutian Islands; 51° 48' N, 176° 14' W; BGN 1936; (map 17). Name derived from Little Tanaga Island and given by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

Little Tanana Slough: stream, anabranch of Tanana River, N of Tanacross, flows W 15 miles, Yukon-Tanana Highlands; 63° 22' 30" N, 143° 26' 00" W; (map 85). Name reported in 1902 by Lt. William Mitchell, U.S. Army Signal Corps.

Little Taylor Mountains: mountains, 2,200 ft. in group 8 miles across, 5 miles SE of Taylor Mountains, Kilbuck-Kuskokwim Lowland; 60° 52' N, 157° 12' W; BGN 1948; (map 60). Named relative to the Taylor Mountains; name reported about 1915 by USGS.

Little Togiak Lake: lake, extends SE 6 miles to Lake Nerka, 22 miles E of Togiak Lake and 96 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 34' N, 159° 06' W; BGN 1931; (map 53). Name reported in 1925 by USBF.

Little Tok River: stream, heads at glacier terminus in Mentasta Mountains, flows N 32 miles to Tok River, 22 miles SW of Tok, Alaska Range; 63° 05' N, 143° 22' W; BGN 1936; (map 85). Variant: Little Tokio River. Local name reported in 1902 by Schrader, USGS (in Mendenhall and Schrader, 1903, pl. 3, p. 48).

Little Tokichitna Glacier: glacier, see Kanikula Glacier.

Little Tokio River: stream, see Little Tok River.

Little Tonsina River: stream, flows NW 20 miles to Tonsina River, 3.3 miles SW of Tonsina and 49 miles NE of Valdez, Chugach Mountains; 61° 36' 45" N, 145° 12' 35" W; BGN 1932; (map 68). Variant: Mosquito River. Local name reported in 1932 by C. F. Feuchsel, USGS.

Little Tonzona River: stream, heads at glacier, 62° 36' N, 152° 56' W, flows NW 70 miles to South Fork Kuskokwim River, 46 miles E of McGrath, Kuskokwim Lowland; 62° 58' N, 154° 10' W; BGN 1964; (map 81). Variant: Tonzona River. Name suggested by C. F. Herbert, Deputy Commissioner, Alaska Dept. of Natural Resources, in order to qualify the local name "Tonzona River" for this feature. Long standing map usage applies the name "Tonzona River" to another feature.

Little Totem Bay: cove, W arm of Totem Bay, on S coast of Kupreanof Island, Alexander Archipelago; 56° 28' N, 133° 25' W; (map 6). Local name recorded in 1949 by USGS.

Little Tulsona Creek: stream, flows S 7 miles to Tulsona Creek at Glenn Highway, 13 miles SW of Chistochina, Copper River Basin; 62° 26' N, 144° 58' W; (map 83). Local name published by USGS in 1951.

Little Turner Creek: stream, flows S to Turner Creek which flows to Noxapaga River, about 34 miles SW of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This stream cannot be precisely located on current maps.

Little Ugalentz River: stream, see Kiklukh River.

Little Ugashik Creek: stream, heads between Mounts Demian and Lee, and flows W 2.2 miles to Blue Creek 0.7 miles NE of its junction with Ugashik Creek, on Alaska Peninsula, 42 miles NE of Ugashik, Aleutian Range; 57° 39' 45" N, 156° 19' 30" W; (map 36). Variant: Blue Creek. Name reported in 1920 by G. C. Martin, USGS, based on information obtained from J. L. McPherson, Deputy Mineral Surveyor, in 1902.

Little Ugashik Creek: stream, see Blue Creek.

Little Underhill Creek: stream, heads at glacier terminus, flows SW 47 miles to Stony River 18 miles NW of its junction with Telaquana River, 70 miles NW of Lake Clark, Lime Hills; 61° 14' 45" N, 154° 47' 40" W; (map 71). Prospectors' name published in 1951 by USGS.

Little Wabash Creek: stream, flows NW 4.5 miles to lake in Nixon Fork Takotna River, 20 miles NW of Medfra, Kilbuck-Kuskokwim Mountains; 63° 15' N, 155° 15' W; (map 89). Local name reported in 1958 by USGS.

Little Waldren Fork: stream, flows NE 14 miles to join Moore Creek to form Takotna River, 39 miles E of Flat, Kilbuck-Kuskokwim Mountains; 62° 32' 30" N, 156° 47' 30" W; (map 79). Variant: Waldren Fork. Local name obtained in 1952 by USGS topographer.

Little Washington Creek: stream, flows SW 5 miles to Seventymile River, 22 miles NW of Eagle, Yukon-Tanana Highlands; 64° 56' N, 141° 51' W; (map 102). Variant: Washington Creek. Named by prospectors and reported in 1898 by E. C. Barnard, USGS.

Little Waterfall Bay: bay, extends S 1.2 miles off Perenosa Bay, on N coast of Afognak Island, Kodiak Island; 58° 24' 00" N, 152° 29' 30" W; (map 43). Local descriptive name published in 1952 by USGS.

Little Whale Bay: bay, see Small Arm Whale Bay.

Little Whiteman Creek: stream, flows NW 9 miles to McKinley Creek, 60 miles SW of Eagle, Yukon-Tanana Highlands; 64° 20' 20" N, 142° 53' 50" W; (map 102). Variant: Solomon Gulch. Local name derived from Whiteman Creek; published in 1956 by USGS.

Little Williams Slough: stream, anabranch, heads at Tanana River, flows NW 5.8 miles to Williams Slough, 37 miles NE of The Bitzshini Mountains, Nowitna Lowland; 64° 58' N, 151° 28' W; (map 99). Riverboat pilots' name published on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" by the U.S. Dept. of Interior.

Little Willow Creek: stream, flows NW and SW 36 miles to Susitna River, 5.5 miles NW of Willow and 42 miles NW of Anchorage, Cook Inlet Lowland; 61° 48' 40" N, 150° 09' 30" W; (map 70). Name reported in 1906 by R. H. Sargent and T. G. Gerdine, USGS.

Little Willow Creek: stream, flows S 1.9 miles to Willow Creek, 30 miles NE of Flat, Kilbuck-Kuskokwim Mountains; 62° 37' N, 157° 07' W; (map 79). Variant: Willow Creek. Prospectors' name obtained in 1952 by USGS topographers.

Little Willow Creek: stream, flows SW 2 miles to Chatanika River, 17 miles N of Fairbanks, Yukon-Tanana Highlands; 65° 06' N, 147° 41' W; (map 105). Variant: Willow Creek. Name originally published in 1908 as Willow Creek by USGS, but changed by local use to its present form.

Little Windy Creek: stream, flows NW 2 miles to Windy Creek which flows to Right Fork Bluestone River, 12 miles S of Teller, Seward Peninsula Highlands; 65° 05' N, 166° 20' W; (map 111). Prospectors' name reported on a map of Cape Nome goldfields by David Fox, Jr., dated 1901.

Little Windy Creek: stream, flows SE 6 miles to Windy Creek, 30 miles S of Healy, Alaska Range; 63° 25' 27" N, 148° 54' 30" W; (map 87). Local descriptive name obtained in 1951 by USGS.

Little Windy Gulch: ravine, trends SSE 2 miles to Salcha River, 7 miles NE of West Point and 56 miles SW of Circle, Yukon-Tanana Highlands; 65° 01' 30" N, 144° 29' 30" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Little Woods Creek: stream, flows SE 5.8 miles to Mae West Lake, S of Glenn Highway, 17 miles W of Glennallen, Copper River Basin, 62° 05' N, 146° 05' W; (map 83). Local name reported in 1949 by USGS.

Little Wrangell Island: island, 0.2 miles across in Biorka Channel, S of Wrangell Island and E of Biorka Island, 4.5 miles WNW of Goddard, Alexander Archipelago; 56° 50' 50" N, 135° 29' 30" W, (map 5). Variant: Ostrov Malyy Vrangel. This island was named in 1809 by the Russian navigator Ivan Vasiliev the first Lt. Sarichev (1826, map 19), IRN, pub fished the name as "O[strov] Mal[yy] Vrangel" or "little Wrangell island."

Little Writer Creek: stream, heads in Dutch Hills, flows SE 1 mile to Willow Creek, 0.5 miles N of its junction with Cottonwood Creek, 28 miles NW of Talkeetna, Alaska Range; 62° 33' 20" N, 150° 49' 40" W; (map 81). Prospectors' name reported in the 1930's by USGS.

Little Yetna River: stream, flows NE 55 miles to join Big Yetna River to form Yetna River, 32 miles E of Holikachuk and 32 miles NW of Flat, Innoko Lowland; 62° 51' 30" N, 158° 30' 00" W; (map 79). Local name obtained in 1952 by USGS topographers.

Littlejohn Lagoon: lagoon, 2 miles long, on E side of Morzhovoi Bay, at SW end of Alaska Peninsula, Aleutian Range; 55° 01' N, 162° 56' W; (map 29). Local name published in 1925 by USC&GS.

Lituya Bay: bay, in Glacier Bay National Monument, heads at terminus of Cascade Glacier, trends 7.5 miles SW to Gulf of Alaska, at Harbor Point, 88 miles NW of Hoonah, Malaspina Coastal Plain; 58° 36' 45" N, 137° 39' 30" W; (map 10). Variant: Alituya Bay, Altona Bay, Altuya Bay, Busen Altua, Entrada de Aragon, Frenchman's Bay, H' lit-tu-yah, Lina Bay, Ltuya Bay, Port des Francais, Skecter Bay. Tlingit Indian name obtained and used by the Russians. In 1805 Capt. Lisianski (1814, p. 221), IRN, called it "L' tooa Bay." It was published in Russian as "Z[aliv] L' tua" by Capt. Tebenkov (1852, map 8), IRN, and the Russian Hydrog. Dept. Chart 1378 shows "Zal [iv] Altua ili Port Frantsuzov" meaning "Altua Bay or Port of Frenchmen." La Perouse (1797, map 19) originally called the bay "Port des Francais"

meaning the “bay of the Frenchmen.” Whalers knew it as Frenchman's Bay. La Perouse visited and surveyed the bay in 1786 and made observations about the Indians living there.

Lituya Glacier: glacier, in Glacier Bay National Monument, heads on SW slope of Fairweather Range; trends SW 11 miles to Gilbert Inlet, on Lituya Bay, 1.6 miles NW of the terminus of Cascade Glacier and 85 miles NW of Hoonah, St. Elias Mountains; 58° 40' 30" N, 137° 31' 00" W; BGN 1945; (map 10). Variant: Desolation Glacier. Named in 1917 by J. B. Mertie, Jr., USGS.

Lituya Mountain: mountain, 11,924 ft., in Glacier Bay National Monument, 0.8 miles SW of Mount Salisbury, 87 miles NW of Hoonah, St. Elias Mountains; 58° 48' 20" N, 137° 26' 00" W; (map 10). Variant: Mount Crillon. Name published in Russian by Capt. Tebenkov (1852, map 8), IRN, as “G[lor]a Livelock. L' tua” meaning “Lituya Mountain”, named for Lituya Bay.

Live Trap Lake: lake, 0.5 miles long, &.7 miles SSE of junction of Foraker and Herron Rivers, Tanana Lowland; 63° 31' 30" N, 152° 04' 00" W; (map 88). Local name obtained in 1958 from Fabian Carey and “Val” Blackburn by USGS.

Livelock: village, see Levelock.

Lively Islands: islands, in Tlevak Strait, NE of Dall Island, Alexander Archipelago; 55° 14' N, 133° 05' W; (map 4). Variant: Voorhees Isles. Named in 1882 by W. H. Dall, USC&GS, for the steam launch Lively of the Coast Survey steamer Hassler. These islands were called “Voorhees Isles” by Sheldon Jackson in 1880.

Lively Rock: rock, in Port Chester, on W coast of Annette Island, Alexander Archipelago; 55° 09' 30" N, 131° 35' 00" W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN, for the steamer Hassler's launch Lively.

Livengood Creek: stream, flows SW 10 miles to Tolovana River, 5 miles SW of Livengood, Yukon-Tanana Highlands; 65° 28' 30" N, 148° 34' 10" W; (map 105). Named by prospectors for Jay Livengood, who, with N. R. Hudson, discovered gold on July 24, 1914, on the banks of this creek. The name was reported in 1915 by USGS (Brooks and others, 1916, pl. 9).

Livengood Dome: mountain, 2,622 ft., 5 miles NE of Livengood and 55 miles NW of Fairbanks, Yukon-Tanana Highlands; 65° 35' 25" N, 148° 28' 40" W; (map 105). Named for Jay Livengood, who discovered gold in the area in 1914. The name was reported in 1916 by J. B. Mertie (in Brooks and others, 1918, pl. 13), USGS.

Livengood: village, (pop. 40), on Livengood Creek, 50 miles NW of Fairbanks, Yukon-Tanana Highlands; 65° 31' 30" N, 148° 32' 45" W; BGN 1944, (map 105). Variant: Brooks. Gold was discovered on July 24, 1914, on Livengood Creek by N. R. Hudson and Jay Livengood. The village was founded near their claim as a mining camp during the winter of 1914-15 when hundreds of people came into the district. A post office was established in 1915 and discontinued in 1957 (Ricks, 1965, p. 39). The town was named for Jay Livengood.

Liver Creek: stream, flowing NE 1 mile to Bering Sea, center of Kiska Island, Aleutian Islands; 51° 58' 54" N, 177° 25' 57" E; (map 14). An arbitrary name beginning with “L” to correspond to

“L” grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Liver Lakes: lakes, 0.2 miles long, center Kiska Island, Aleutian Islands; 51° 57' 05" N, 177° 24' 15" E; (map 14). An arbitrary name beginning with “L” to correspond to “L” grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Livingston Creek: stream, flows NW 9 miles to Feather River, 32 miles NW of Nome, Seward Peninsula Highlands; 64° 50' N, 166° 09' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Livingston Creek: stream, see Jordan Creek.

Liz, Mys: point of land, see Lees, Point.

Lizzie Creek: stream, flows NE 1 mile to Kougarok River, 16 miles SE of Midnight Mountain and 45 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 33' N, 164° 44' W; (map 110). Prospectors' name reported on the 1908 “Map of Seward Peninsula” by Arthur Gibson.

Loaf Island: island, tied to shore, on W shore of Massacre Bay, on SE coast of Attu Island, Aleutian Islands; 52° 50' 15" N, 173° 12' 45" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II; shown on an AMS map published in 1948.

Loaf Ridge: ridge, 2 miles long, between Nakat Mountain and Fillmore Inlet, Coast Mountains; 54° 51' 15" N, 130° 36' 30" W; (map 2). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Lobo Lake: lake, see Kuirzinjik Lake.

Lobo, El: island, “shown on Camacho's map of 1779 where none exists. It was possibly the north end of Shuyak Island” (Wagner, 1937, p. 468).

Lobos, Islas de: islands, see Sealion Islands.

Lobster Creek: stream, flows NE 0.3 miles to Bluff Cove, Kiska Island, Aleutian Islands; 51° 59' 08" N, 177° 28' 39" E; (map 14). An arbitrary name beginning with “L” to correspond to “L” grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Lock Island: island, 0.15 miles across, in Portlock Harbor, 5.5 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 43' 30" N, 136° 11' 50" W; (map 9). Named by USC&GS and published in 1928 on Chart 8258. “Lock” is the last syllable of the name “Portlock,” the name of the harbor.

Lockanok: locality, on right bank of Alagnak River, 2.5 miles S of Hallersville and 60 miles E of Dillingham, Bristol Bay Lowland; 59° 00' 30" N, 156° 49' 30" W; (map 52). Eskimo name for a village and cannery recorded on the 1941 Cannery Map of Alaska. The cannery is now abandoned.

Lockenuck: stream, see Alagnak River.

Lockwood Hills: mountains, 4,130 ft., extend from Pick River E and SE 60 miles to Kokhila Hills at 66° 29' N, 155° 00' W, 50 miles NW of Hughes, Hogatza Highlands; 66° 40' N, 155° 30' W; (map 116). Variant: Asiksat Hills, Lockwood Mountains. Named in 1885 by Lt. Stoney (1900, map) USN probably for Lt. J. B. Lockwood. See Lockwood Peak. The Eskimo name "Asiksat," means "bending frame."

Lockwood Lake: lake, 1.3 miles long, E of Yentna River, 43 miles NW of Anchorage, Cook Inlet Lowland; 61° 45' 30" N, 150° 34' 25" W, (map 70). Local name reported in 1954 by USGS.

Lockwood Peak: mountain, 3,300 ft., in Missionary Range; 13 miles NW of Petersburg, on Lindenberg Peninsula, Kupreanof Island, Alexander Archipelago; 56° 57' 15" N, 133° 11' 10" W, (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for Lt. James Booth Lockwood USA, who died in 1883 at Cape Sabine.

Lockwood, Point: point of land, on E coast of Woewodski Island, 18 miles S of Petersburg, Alexander Archipelago; 56° 33' 25" N, 132° 57' 50" W; (map 6). Variant: Mys Poverotnyy, Poverotni Point. Named in 1869 by Comdr. R. W. Meade, USN; named "Mys Poverotnyy" meaning "turning point" in 1838 by the Russian surveyor, G. Lindenberg.

Loco Creek: stream, flows NE 4 miles to Cripple Creek, 76 miles SE of Bethel, Kilbuck Kuskokwim Mountains; 60° 43' 30" N, 159° 33' 10" W; (map 59). Prospectors' name reported in 1914 by A. G. Maddren (in Brooks, 1915, pl. 11), USGS.

Locust Hill: hill, 300 ft., center of Kiska Island, Aleutian Islands; 51° 56' 33" N, 177° 26' 17" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Lodestone Creek: stream, flows SW 2 miles to Secret Creek, 4.5 miles NE of Solomon, Seward Peninsula Highlands; 64° 35' N, 164° 15' W; (map 95). Prospectors' name reported in 1907 by USGS geologists (Smith, P. S., 1910, pl. 3).

Lodge Hill: hill, 850 ft., south-central Kiska Island, Aleutian Islands; 51° 56' 35" N, 177° 23' 15" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Lodge Island: island, 5 miles across, 7 miles SE of Goddard, on W coast of Baranof Island, Alexander Archipelago; 56° 46' N, 135° 13' W; (map 5). Named by USC&GS for charting purposes: name published in the 1932 Coast Pilot (p 366).

Lodge Lake: lake, 150 yd. across, Kiska Island, Aleutian Islands; 51° 56' 40" N, 177° 23' 12" E; (map 14). Variant: Double Lake. An arbitrary name beginning with "L" to correspond to 'L' grid used by U.S. Army for tactical purposes during World War II; published on a 1953 AMS map. Variant published on a 1943 USAAF map.

Lodge, Mount: mountain, 10,530 ft., in St. Elias Mountains, on Alaska-Canada boundary, 6.8 miles N of Mount Watson, 83 miles WSW of Skagway, St. Elias Mountains; 59° 06' 55" N,

137° 32' 25" W; BGN 1954; (map 45). Variant: Boundary Peak 166. Named in 1908 by USC&GS for Senator Henry Cabot Lodge, 1850-1924, U.S. Boundary Commissioner in 1903. Senator Lodge was born and educated in Massachusetts, taught American history at Harvard Univ., and was a literary editor before entering politics. He was a member of Congress from 1887 to 1893 and Senator from 1893 to 1924.

Lofty Mountain: mountain, 2,284 ft., on NE part of Unalaska Island, Aleutian Islands; 53° 56' 38" N, 166° 18' 00" (map 23). Descriptive name published in the 1944 Aleutian Coast Pilot (p. 28).

Log Cabin Inn: roadhouse, on Glenn Highway 3.6 miles S of junction of Little Tok and Tok Rivers, 23 miles S of Tok, Alaska Range; 63° 01' 30" N, 143° 21' 00" W; (map 85). Name reported by USGS in 1952.

Log Island: island, see Loy Island.

Log Jam Road House: locality, on left bank of Tolovana River, 22 miles S of Livengood, Yukon-Tanana Highlands; 65° 14' N, 148° 40' W; (map 105). Variant: Log Jam. Former roadhouse reported in 1915 by USGS (Brooks and others, 1916, pl. 9). The name was given by prospectors because of a huge log jam there in the Tolovana River.

Log Jam: locality, see Log Jam Road House.

Log Lakes: lakes, 0.2 miles across, center of Kiska Island, Aleutian Islands; 51° 57' 12" N, 177° 26' 15" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Log Point: point of land, on N coast of Liesnoi Island, in Woewodski Harbor, on Admiralty Island, 26 miles SE of Angoon, Alexander Archipelago; 57° 10' 30" N, 134° 16' 00" W; (map 9). Named in 1889 by Lt. Comdr. H. B. Mansfield, USN; published by USC&GS in 1891 Coast Pilot (p. 142).

Logan Beach: beach, 4 miles long, on E shore of Yakutat Bay, S of Logan Bluffs, 19 miles NE of Yakutat, St. Elias Mountains; 59° 49' 00" N, 139° 35' 30" W; (map 46). Named by Tarr and Martin (1906, map), USGS. Gold, disseminated through the gravel of this beach, attracted prospectors to this area in 1905 (Tarr, 1909, p. 166-167).

Logan Bluffs: bluffs, on E shore of Yakutat Bay, extend 3 miles S of Point Latouche and 23 miles NE of Yakutat, St. Elias Mountains; 59° 52' 30" N, 139° 38' 00" W; (map 46). Local name derived from nearby Logan Beach; published in 1959 by USGS.

Logan Creek: stream, flows NE 10 miles to Yukon River, 43 miles NW of Eagle, Yukon-Tanana Highlands; 65° 16' 20" N, 141° 59' 10" W; (map 103). Variant: Butter Creek, Jewett Creek. Name used by prospectors and reported in 1905 by D. C. Witherspoon. Mertie (1930, p. 7) reports some usage of "Jewett Creek" in 1925, which is probably derived from F. L. Jewett, one of the operators of a nearby coal mine in 1902 (Collier, 1903, p. 29).

Logan Creek: stream, flows NW to Inmachuk River near its junction with Pinnell River, about 16 miles N of Imuruk River, Seward Peninsula Highlands; (map 110). Local name published

on a precinct map of Seward Peninsula by Monroe and Hutchins; corrected to June 1903 by Arthur Gibson. This stream cannot be precisely identified on current maps.

Logan Glacier: glacier, heads in Canada, 10 miles NE of Mount Logan, trends NW 50 miles into Alaska to Chitina Glacier, 13 miles SW of Mount Tittmann and 115 miles NW of Yakutat, St. Elias Mountains, 60° 57' 30" N, 141° 29' 00" W; BGN 1960; (map 65). Named in 1912-13 by IBC because of its nearness to Mount Logan. Mount Logan was named by Island C. Russell in 1890, in honor of Sir William Edmond Logan, "founder and long director of the Geological Survey of Canada", who was born in Montreal and educated in the British Isles. After working for a while in a copper smelting works in Swansea, he became actively interested in geology, especially the coal beds of South Wales. He was director of the Geological Survey of Canada from 1842-69. He was knighted in 1856.

Logan Reef: reef, in outer Chiginagak Bay, 0.6 miles S of Derickson Island, near S shore of Alaska Peninsula, Aleutian Range; 56° 58' 40" N, 156° 43' 10" W; (map 31). Local name published in 1953 by USC&GS.

Logan, Mount: mountain, 6,300 ft., 4.4 miles SE of Mount Cashman and 16 miles N of Valdez, Chugach Mountains; 61° 20' 25" N, 146° 20' 10" W; BGN 1960; (map 68). Variant: Mount Egan, Sourdough Peak. Named by L. E. Nielsen in 1959 for "Dr. Logan who spent the winter of 1898-99 in the interior of Alaska where he saved the lives of many prospectors. About March, 1899, he died on the Valdez Glacier while trying to bring a group of prospectors with scurvy to Valdez."

Logger Gulch: ravine, extends N 1.5 miles, from N of Devils Thumb to Boston Creek, 7 miles S of Ruby, Kilbuck-Kuskokwim Mountains; 64° 38' 15" N, 155° 29' 00" W; (map 98). Prospectors' name reported in 1908 by A. G. Maddren, USGS.

Logging Cabin Creek: stream, heads on Mount Fairplay, flows N 15 miles to West Fork Dennison Fork, 43 miles NE of Tok, Yukon-Tanana Highlands; 63° 52' N, 142° 18' W; (map 85). Local name reported by USGS in 1956.

Logging Camp Bay: cove, 0.1 miles across, at NE side of Passage Canal, 8.5 miles NE of Whittier, Chugach Mountains; 60° 49' 45" N, 148° 25' 30" W; BGN 1915; (map 63). Local name reported in 1914 by USC&GS.

Logging Lake: lake, 0.7 miles long, between Tetlin and Tetlin Lake, 19 miles SE of Tok, Alaska Range; 63° 08' N, 142° 35' W; (map 85). Local name reported by USGS in 1964.

Logjam Creek: stream, flows N 19 miles to Sweetwater Lake, N central Prince of Wales Island, Alexander Archipelago; 55° 56' 28" N, 132° 58' 25" W; BGN 1963; (map 4). Local name reported in 1961 by USFS; "stream has a huge log jam that has accumulated over several hundred years."

Lohtianoi Point: point of land, see Glacier Point.

Lohtianoi: water passage, see Cross Sound.

Lois Creek: stream, heads in Davidson Mountains, and flows S 20 miles to Coleen River 14 miles SE of Bear Mountain and 45 miles SE of Table Mountain, Porcupine Plateau; 68° 12' N, 141° 57' W; (map 137). Local name reported in 1956 by USGS.

Lois Dome: mountain, 2,592 ft., 7 miles W of junction of Pass Creek with Coleen River, 43 miles N of Coleen Mountain, Brooks Range; 67° 43' N, 142° 48' W; (map 121). Local name reported in 1956 by T. E. Taylor, USGS.

Lois Glacier: glacier, see Brilliant Glacier.

Loma Point: point of land, see Lomas, Point.

Lomas, Point: point of land, on W coast of Prince of Wales Island, in Port Caldera, 6.8 miles S of Craig, Alexander Archipelago; 55° 22' 40" N, 133° 10' 30" W; BGN 1922; (map 4). Variant: Cabo de las Lomas, Cape Lomas, Mys de los Lomas, Point Loma. Name given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Cabo de las Lomas," meaning "cape of the hillocks." Baker (1906, p. 411), published the name "Cape Lomas"; changed to "Point Lomas" in 1922 by USC&GS, because "Not bold or prominent enough to be styled a Cape."

Lomauik: locality, see Lomavik.

Lomavigamute: locality, see Lomavik.

Lomavik Slough: channel, of Kuskokwim River, 8 miles long, 23 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 33' N, 162° 12' W; (map 58). Variant: The Canal. Local name reported in 1949 by USC&GS.

Lomavik: locality, on left bank of Kuskokwim River, 14 miles SW of Bethel, Yukon Kuskokwim Delta; 60° 38' N, 161° 59' W; (map 59). Variant: Lomauik, Lomavikmut, Lomavigamute, Lomawigamute. Eskimo village, now abandoned, listed by Ivan Petroff in the 10th Census, in 1880, with a population of 81. Petroff received his information from E. W. Nelson, U.S. Signal Service, who was there in January 1879 and who spelled the name "Lomavigamute," meaning "Lomavik people." In 1890 the village population was 53, of whom 29 were Eskimos.

Lomavikmut: locality, see Lomavik.

Lomawigamute: locality, see Lomavik.

Lombard Creek: stream, flows SW 2 miles to Sunset Creek which flows to Grantley Harbor, 6 miles NE of Teller, Seward Peninsula Highlands; 65° 20' N, 166° 14' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Lomen Creek: stream, flows NE 9 miles to Mangoak River, 25 miles SW of Selawik, Kotzebue-Kobuk Lowland; 66° 14' N, 160° 05' W; (map 114). Prospectors' name reported in 1911 by USGS.

Lone Baldy: mountain, 1,294 ft., 2.5 miles NW of Katalla, Chugach Mountains; 60° 13' N, 144° 35' W; (map 64). Name published in 1907 by USGS.

Lone Butte Creek: stream, flows N 15 miles to Serpentine River, 33 miles SE of Shishmaref, Kotzebue-Kobuk Lowland; 66° 02' N, 165° 03' W; (map 112). Prospectors' name reported in 1901 by Collier (1902, pl. 12), USGS.

Lone Butte: mountain, 3,668 ft., 10 miles SE of junction of Oshetna and Susitna River and 64 miles NW of Gulkana, Talkeetna Mountains; 62° 30' N, 147° 18' W; (map 82). Local descriptive name reported by F. H. Moffit (in Brooks and others, 1915, pl. 6), USGS.

Lone Creek: stream, flows NW 1 mile to Big Hurrah Creek 0.4 miles E of its junction with Solomon River, 7 miles NE of Solomon, Seward Peninsula Highlands; 64° 39' 10" N, 164° 18' 00" W; (map 95). Local name reported on a 1902 prospector's manuscript map.

Lone Creek: stream, flows NW 3.5 miles to Igloo Creek which flows to American River, 29 miles NE of Teller, Seward Peninsula Highlands; 65° 26' N, 165° 27' W; (map 111). Variant: Lake Creek, Victoria Creek. Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS. This appears to be the "Victoria Creek" reported in 1900 by Messrs. Kemp and David Fox (in Brooks, 1901, pl. 11).

Lone Creek: stream, flows S 11.8 miles to Chuitna River, 6 miles NW of Tyonek, Cook Inlet Lowland; 61° 07' 10" N, 151° 17' 35" W; (map 70). Local descriptive name reported in 1958 by USGS.

Lone Creek: stream, flows SW 1.5 miles to Sigard Creek which flows to head of Bonanza River, 18 miles NW of Solomon, Seward Peninsula Highlands; 64° 46' 55" N, 164° 47' 30" W; (map 95). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Lone Creek: stream, see Bullion Creek.

Lone Hill: mountain, 2,060 ft., on Alaska Peninsula SW of Wide Bay, 34 miles SE of Ugashik, Aleutian Range; 57° 16' N, 156° 39' W; (map 36). Local descriptive name published in 1956 by USGS.

Lone Indian Mountain: mountain, 2,701 ft., 45 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 44' N, 154° 25' W; (map 89). Local name reported in 1954 by USGS.

Lone Island: island, 0.1 miles across, in Glacier Bay, Glacier Bay National Monument, 2 miles NE of Geike Rock and 53 miles NW of Hoonah, St. Elias Mountains; 58° 43' 10" N, 136° 17' 40" W; (map 10). Local name published by Reid (1896, p. 425), USGS.

Lone Island: island, 2 miles long, in Prince William Sound, between Naked and Perry Islands, 30 miles NE of Chenega, Chugach Mountains, 60° 40' 30" N, 147° 45' 30" W; BGN 1908; (map 63). Variant: Long Island. Local name reported in 1900 by USC&GS. This island was occupied for many years after 1896 for the propagation of blue foxes.

Lone Jim Mountain: hill, 678 ft., S of Fourmile Creek, 53 miles N of Ophir and 66 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 53' 30" N, 156° 08' 30" W; BGN 1936; (map 90). Variant: Lone Mountain. Prospectors' name obtained in 1933 by J. B. Mertie, Jr. (in Smith, P. S., 1936, pl. 4), USGS.

Lone Mountain: hill, see Lone Jim Mountain.

Lone Mountain: mountain, 3,000 ft., in Ahklun Mountains, 4 miles E of Gechiak Lake and 52 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 22' N, 160° 15' W; (map 53). Descriptive name reported in 1954 by USGS.

Lone Mountain: mountain, 3,452 ft., S of Hodzana River, 40 miles NW of Beaver, Kokrines-Hodzana Highlands; 66° 34' N, 148° 46' W; (map 118). Local name published in 1951 by USGS.

Lone Mountain: mountain, near head of American River, about 20 miles SE of Ear Mountain and 35 miles NE of Teller, Seward Peninsula Highlands; (map 111). Prospectors' name shown on a map of Cape Nome goldfields by David Fox, Jr., dated 1901. This feature cannot be precisely identified on current maps.

Lone Mountain: mountain, on Mansfield Peninsula, 1.8 miles SE of Barlow Cove and 15 miles W of Juneau, Alexander Archipelago; 58° 18' 20" N, 134° 50' 00" W; BGN 1900; (map 11). Variant: Barlow Mountain. Descriptive name given in 1869 by Comdr. R. W. Meade, USN, and published in 1881 on Hydrog. Chart 883.

Lone Mountain: ridge, 1,807 ft., extends N S 7.5 miles between Middle Fork Kuskokwim and Big Rivers, 39 miles SE of McGrath, Kuskokwim Lowland; 62° 30' N, 154° 51' W; (map 80). Local name reported in 1931 by USGS.

Lone Passage: water passage, 4 miles long, in Prince William Sound, between Lone and Perry Islands, 32 miles SE of Whittier, Chugach Mountains; 60° 43' N, 147° 47' W; (map 63). Local name published on recent USGS maps; derived from nearby Lone Island.

Lone Peak: mountain, 1,847 ft., on SW end of Unalaska Island, Aleutian Islands; 53° 19' 25" N, 167° 45' 15" W; (map 23). Name reported by U.S. Army Corps of Engineers in 1942 and published in the 1944 Aleutian Coast Pilot (p. 50).

Lone Point: point of land, on SW tip of Lone I 30 miles NE of Chenega, Chugach Mountains; 60° 39' 45" N, 147° 46' 15" W; (map 63). Local name published on recent USGS maps; derived from the name of the island.

Lone Ridge: mountain, 1,800 ft., 3.5 miles long, 15 miles NW of Tyonek, Alaska Range; 61° 14' N, 151° 28' W; BGN 1964; (map 70). So named by USGS in 1962 "because the ridge stands alone on the surrounding lowland several miles from the nearest uplands."

Lone Rock: rock, 0.2 miles long, in Pacific Ocean E of Port Wrangell, 1 mile NE of David Island, on E coast of Alaska Peninsula, 40 miles NE of Sutwik Island, Aleutian Range; 57° 03' N, 156° 28' W; (map 36). Variant: Kamen Odinakoi, Kamen Odinakiy. This is a translation of

the Russian name “K[amen] Odinakiy,” meaning “isolated (lone) rock,” given by Ens. Vasiliev (cnna) in 1832 and published by Capt. Lutke (1836 p. 274), IRN.

Lone Rock: rock, 1.5 miles NE of Kigul Island, off SE coast of Umnak Island, Aleutian Islands, 53° 03' 45" N, 168° 24' 15" W; (map 22). Name published by USC&GS in 1944 Aleutian Coast Pilot (p. 71).

Lone Rock: rock, 2 miles S. Matushka Island, in Gulf of Alaska, 40 miles SW of Seward, Chugach Mountains; 59° 34' 30" N, 149° 37' 25" W, BGN 1908; (map 49). Local descriptive name reported in 1908 by USC&GS.

Lone Rock: rock, see Polka Rock.

Lone Spruce Rock: rock, 200 ft. long, between Tlevak and South Pass Sukkwan Strait, NW of Sukkwan Island, Alexander Archipelago; 55° 10' 00" N, 132° 53' 05" W; BGN 1908; (map 4). Variant: Green Rock. Descriptive name reported in 1907 by E F Dickins, USC&GS. This feature was called Green Rock in 1903, “according to Swift, of the Albatross.”

Lone Tree Islet: island, 300 ft. across, at S point of entrance to Whitewater Bay, on Admiralty Island, 17 miles S of Angoon, Alexander Archipelago; 57° 15' 00" N, 134° 38' 15" W; (map 9). Descriptive name given by Lt. Comdr. H. E. Nichols, USN, and published in the 1891 Coast Pilot (p. 157). So named because of its single dead tree.

Lone Tree Point: point of land, westernmost tip of Mickey Island in Yukon River, 0.3 miles S of Hardluck Island and 30 miles NE of Ruby, Nowitna Lowland; 64° 55' N, 154° 33' W; (map 98). Riverboat pilots' name shown on 1940 “Navigation Chart, Tanana-Yukon Rivers” of the River Boat Service, U.S. Dept. of Interior.

Lonely Lake: lake, 0.5 miles long, 14 miles NE of Shivering Mountain, Brooks Range; 67° 57' 15" N, 153° 11' 00" W; BGN 1966; (map 125). So named in 1966 by Mr. and Mrs. Gilbert F. Staender because when they set up a base camp at this lake they were completely isolated.

Lonely Lake: lake, 0.7 miles long, on Kenai Peninsula 0.3 miles SE of Leaf Lake and 31 miles NE of Kenai, Cook Inlet Lowland; 60° 47' 25" N, 150° 32' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Lonesome Bay: cove, 2 miles long, on N shore of Pile Bay, at E end of Iliamna Lake, Aleutian Range; 59° 47' N, 153° 59' W; (map 51). Local name published by USGS in 1954.

Lonesome Island: island, see Ninemile Island.

Lonesome Lake: lake, 0.3 miles long, on Kenai Peninsula, 3 miles E of Barabara Lake and 27 miles SSW of Anchorage, Cook Inlet Lowland; 60° 50' 30" N, 150° 06' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range for administrative purposes.

Lonesome Point: point of land, on NE shore of Iliamna Lake, between Lonesome and Pile Bays, Aleutian Range; 59° 46' 30" N, 153° 58' 20" W; (map 51). Local name derived from nearby Lonesome Bay; reported in 1954 by USGS.

Lonesome River: stream, see Magitchlie Creek.

Lonestar Creek: stream, heads in Moose Lake, flows SSW, through Sprucefish Lake, 7 miles to Highpower Creek, 31 miles SSW of village of Lake Minchumina, Kuskokwim Lowland; 63° 29' 30" N, 152° 37' 20" W; (map 88). Local name obtained in 1958 from Fabian Carey and "Val" Blackburn by USGS.

Lonetree Point: point of land, on Elrington Island at SW cod of Elrington Passage, 45 miles SE of Seward, Chugach Mountains; 59° 59' N, 148° 12' W; (map 49). Local name reported in the early 1950's by USC&GS.

Long Arm: estuary, extends NE 1.5 miles from mouth of Moser Bay, on W coast of Revillagigedo Island, Alexander Archipelago; 55° 34' 15" N, 131° 39' 30" W (map 3). Local navigators' descriptive name reported in 1904 by H. C. Fassett, USBF.

Long Bay: bay, 0.5 miles across, 3.5 miles long, on W shore of Tenakee Inlet, on Chicagof Island 14 miles NW of Tenakee Springs, Alexander Archipelago; 57° 52' 30" N, 135° 35' 00" W, BGN 1935; (map 9). Local descriptive name; reported in 1935 by USGS.

Long Bay: estuary, extends S 6.5 miles to Prince William Sound, 52 miles NE of Whittier, Chugach Mountains; 60° 55' 30" N, 147° 13' 00" W; (map 63). Local name reported in 1900 by K C Schrader, USGS.

Long Bay: estuary, on E coast of Kenai Peninsula, trends NE 2.5 miles to Culross Passage, 16 miles SE of Whittier, Chugach Mountains, 60° 42' 00" N, 148° 15' 10" W; (map 63). Descriptive name reported in 1916 by J. W. Bagley, USGS.

Long Beach: beach, 16 miles long on W shore of Pavlof Bay, on Alaska Peninsula, Aleutian Range; 55° 20' N, 161° 47' W; (map 28). Published by USC&GS in 1916 Coast Pilot (p. 183).

Long Beach: locality, on right bank of Kobuk River near Kobuk; (map 115). This appears to have been an Eskimo camp or village near present-day Kobuk (Stuck, 1914b, p. 88).

Long Bend: bend, of Koyukuk River, 13 miles NE of Hughes, Hogatza Highlands; 66° 14' N, 154° 03' W; (map 116). Local name reported in 1956 by Orth as a translation of a Koyukan Indian name transcribed as "Kild-o-gidiinakh-ten."

Long Channel: water passage, trends NS 6 miles, from Drier Bay to Knight Island Passage, on SW side of Knight Island, Chugach Mountains; 60° 15' 00' N, 147° 54' 30" W; BGN 1908; (map 63). Local name published in 1908 by USC&GS.

Long City: settlement, see Long.

Long Creek: stream, between Dutch and Peters Hills, formed by junction of Canyon and Divide Creeks, flows NE 3 miles to Tokositna River, 27 miles NW of Talkeetna, Alaska Range; 62° 37' 25" N, 150° 41' 15" W; (map 81). Variant: Dog Creek. Prospectors' name reported in 1911 by S. R. Capps (in Brooks, 1912, pl. 9 and p. 196), USGS. In 1906, R. W. Porter, USGS, applied the name "Dog Creek" to the same feature.

Long Creek: stream, flows NE to Eagle Creek which flows to Cripple River, about 30 miles NW of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name reported in 1901 by USGS (Collier, 1902, pl. 12). This stream cannot be identified on current maps.

Long Creek: stream, flows NW 3.8 miles to Otter Creek, 8.7 miles NE of Flat, Kilbuck Kuskokwim Mountains; 62° 29' 45" N, 157° 44' 50" W; (map 79). Prospectors' name obtained in 1952 by USGS topographers.

Long Creek: stream, flows S 23 miles to Sulatna River, 6.3 miles NW of Sulatna Crossing and 33 miles S of Ruby, Kilbuck Kuskokwim Mountains; 64° 15' 36" N, 155° 35' 30" W; (map 98). Prospectors' name reported in 1911 by A. G. Maddren (in Brooks and others, 1912, p. 294-296), USGS.

Long Creek: stream, flows SE 4 miles to Victoria Creek, 4.4 miles NNE of Victoria Mountain and 80 miles W of Circle, Yukon-Tanana Highlands; 65° 51' N, 146° 52' W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Long Creek: stream, flows SW 2.8 miles to a small lake 0.8 miles SE of Big Lake, 21 miles W of Chandalar, Brooks Range; 67° 28' 20" N, 149° 17' 30" W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Long Creek: stream, flows SW 6 miles to Chatanika River, 31 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 13' 15" N, 147° 04' 15" W; (map 105). Local name published by USGS in the 1950's.

Long Creek: stream, heads at an unnamed glacier, 63° 12' N, 149° 45' W, flows SE 12 miles to West Fork Chulitna River, 58 miles SW of Healy, Alaska Range; 63° 05' 20" N, 149° 35' 25" W; (map 87). Prospectors' name obtained in 1913 by J. W. Bagley, USGS; published by S. R. Capps (in Martin, 1919, pl. 5), USGS.

Long Creek: stream, heads in Peters Hills, flows NW and SW 3.5 miles to Cache Creek, 27 miles NW of Talkeetna, Alaska Range; 62° 30' 50" N, 150° 54' 50" W; (map 81). Variant: Coal Creek. Name published by Cook (1908, map).

Long Creek: stream, see Coal Creek.

Long Fred Lake: lake, 0.8 miles long between Kalukna River and Titus Paul Hill, 22 miles SE of Tok, Alaska Range; 63° 07' N, 142° 28' W; (map 85). Local name reported by USGS in 1964.

Long Glacier: glacier, heads at 61° 49' N, 144° 01' W, trends SW 9 miles to its terminus 3 miles NW of Hubbard Peak and 80 miles NW of Valdez, Wrangell Mountains; 61° 43' 55" N, 144° 10' 45" W; (map 68). Glacier named by F. C. Schrader, USGS, in 1900 "because of its shape."

Long Island Channel: stream, anabranch of Copper River, on W side of Long Island, 25 miles NW of Katalla, Malaspina Coastal Plain; 60° 26' N, 145° 03' W; (map 64). Local descriptive name published in 1952 by USGS.

Long Island: barrier island, 5.5 miles long, on Beaufort Sea coast, in Return Islands, 2.5 miles E of Beechey Point, Arctic Plain; 70° 28' 55" N, 148° 55' 30" W; (map 150). Named by Leffingwell (1919, p. 97) in 1911, "After Capt. Long of the whaling fleet."

Long Island: island, 0.3 miles long, in Ugak Bay, on E coast of Kodiak Island; 57° 25' 40" N, 152° 34' 10" W; (map 34). Local descriptive name reported in 1952 by USGS.

Long Island: island, 0.4 miles long, in Kootznahoo Inlet, 4 miles NE of Angoon, on Admiralty Island, Alexander Archipelago; 57° 32' 10" N, 134° 30' 00" W; (map 9). Descriptive name given by Comdr. R. W. Meade, USN, and published by USC&GS in 1883 Coast Pilot (p. 177).

Long Island: island, 0.6 miles long, at mouth of Tonsina Bay, 30 miles SE of Seldovia, Chugach Mountains; 59° 18' 30" N, 150° 54' 00" W; (map 50). Local name reported by USC&GS in 1938.

Long Island: island, 0.6 miles long, off W shore of Port Frederick, 1 mile SW of Hoonah, Alexander Archipelago; 58° 05' 50" N, 135° 28' 00" W; (map 11). Descriptive name given in 1880 by USN and published in 1881 on Hydrog. Chart 883.

Long Island: island, 1 mile long, in Southwest Islands, in Pybus Bay, on Admiralty Island, 25 miles SE of Angoon, Alexander Archipelago; 57° 16' 30" N, 134° 03' 30" W; (map 9). Descriptive name given in 1869 by Comdr. R. W. Meade; published on Hydrog. Chart 225. "The island is ten times longer than wide."

Long Island: island, 1 mile long, on W coast of Baranof Island, 3.5 miles S of Sitka, Alexander Archipelago; 57° 00' N, 135° 21' W; (map 5). Variant: Dolgay Island, Dolgoi Island, Ostrov Dolgoy. This is a translation by USC&GS of the name given in 1809 by the navigator Ivan Vasiliev the first, IRN. Lt. Sarichev (1826, map 19), IRN, published it as "Os[trov] Dolgoy."

Long Island: island, 14 miles long, 7 miles wide, E of Dall Island, Alexander Archipelago; 54° 51' N, 132° 41' W; (map 1). Variant: Dolgoi Island, Ostrov Dolgoy. Translation of the name "Ostrov Dolgoy," given by the Russians; published in 1865 on Brit. Adm. Chart 2431.

Long Island: island, 3.1 miles long, W of Tanana Island in Yukon River, 1 mile S of Tanana, Nowitna Lowland; 65° 10' N, 152° 06' W; (map 106). Variant: Bull Island. Local name reported in 1952 by USGS.

Long Island: island, 3.5 miles long, SW of Sanak Island, one of Sanak Islands, Aleutian Range; 54° 24' N, 162° 49' W; (map 25). Variant: Clifford Island. Name published by USC&GS in the 1947 Alaska Coast Pilot (p. 348); called "Clifford Island" by USBF in 1890. See Clifford Island.

Long Island: island, 3.7 miles long, between Chiniak Bay and Gulf of Alaska, 5 miles E of Kodiak, NE of Kodiak Island, 57° 46' N, 152° 17' W; (map 34). Variant: Barren Island, Dolgoi Island, Goloi Island, Ostrov Dolgoy ili Goloy. Partial translation of The descriptive name "Os[trov] Dolgoy ili Goloy," meaning "long or bare island," published by Sarichev (1826, map 16). Called "Barren Island" by Lisianski in 1804 (1814, p. 169).

Long Island: island, 8 miles long, in Copper River, 23 miles NW of Katalla, Malaspina Coastal Plain; 60° 28' N, 144° 58' W; (map 64). Local descriptive name reported in 1912 by Grant and Higgins (1913, pl. 1), USGS.

Long Island: island, see Bull Island.

Long Island: island, see Clifford Island.

Long Island: island, see Dolgoi Island.

Long Island: island, see Kasaan Island.

Long Island: island, see Lone Island.

Long Island: island, see Squire Island.

Long Island: spit, see Carter Spit.

Long John Lagoon: lagoon, 2.5 miles long, on W shore of Pavlof Bay, 6 miles NW of Dolgoi Island, near SW end of Alaska Peninsula, Aleutian Range; 55° 14' 30" N, 161° 53' 30" W; BGN 1939; (map 28). Variant: East Bay, East Bay Lagoon, Long Johns Lagoon. W. H. Dall, USC&GS, reported the name as "East Bay" in 1880 it was published in 1911 by USC&GS as "Long Johns Lagoon." A 1929 USGS map shows "Long John Lagoon."

Long John: locality, on Long John Lagoon, 7 miles NW of Dolgoi Island, near SW end of Alaska Peninsula, Aleutian Range; 55° 15' 15" N, 161° 53' 50" W; (map 28). Reported in 1929 by USGS.

Long Johns Lagoon: lagoon, see Long John Lagoon.

Long Lake Hills: ridge, 2,500 ft., extends E W 6 miles between Happy and Skwentna Rivers, 78 miles NW of Tyonek, Alaska Range; 62° 00' N, 152° 31' W; (map 70). Local name reported in 1958 by USGS.

Long Lake: lake, 0.5 miles across, on N coast of Woody Island, 2 miles E of Kodiak, NE of Kodiak Island; 57° 47' 10" N, 152° 20' 00" W; (map 34). Local descriptive name published in 1965 by USC&GS.

Long Lake: lake, 0.5 miles long, 0.3 miles NW of Jack Lake and 18 miles NW of Nebesna, Wrangell Mountains; 62° 33' 30" N, 143° 24' 00" W; (map 84). Variant: Lily Pad Lake. Local descriptive name reported by USGS in 1960.

Long Lake: lake, 0.7 miles long, in course of Sawmill Creek, 7 miles SW of Talkeetna, Cook Inlet Lowland; 62° 16' 00" N, 150° 18' 45" W, (map 81). Local descriptive name reported in 1958 by USGS.

Long Lake: lake, 0.8 miles long, on Baranof Island, among Wakefield Lakes, 26 miles SE of Sitka, Alexander Archipelago; 56° 52' 30" N, 134° 44' 00" W; (map 5). Local descriptive name obtained in 1951 by USGS.

Long Lake: lake, 0.9 miles long, 1 mile SE of Sprucefish Lake, 26 miles SSW of village of Lake Minchumina, Kuskokwim Lowland; 63° 32' 45" N, 152° 38' 30" W; (map 88). Local name obtained in 1958 from Fabian Carey and "Val" Blackburn by USGS.

Long Lake: lake, 0.9 miles long, in Matanuska Valley, 3.5 miles SW of Palmer, Cook Inlet Lowland; 61° 33' 45" N, 149° 12' 05" W; (map 69). Local name reported in 1942 by AMS.

Long Lake: lake, 0.9 miles long, on Kenai Peninsula, 1.3 miles W of Swan Lake, and 25 miles NE of Kenai, Cook Inlet Lowland; 60° 40' 30" N, 150° 35' 20" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Long Lake: lake, 1.2 miles long, on Glenn Highway, 32 miles NE of Palmer, Talkeetna Mountains; 61° 48' 25" N, 148° 12' 30" W; (map 69). Local name reported in 1948 by USGS.

Long Lake: lake, 1.3 miles long, between Alaska Highway and Tanana River, S of Midway Lake, 23 miles SE of Tok, Yukon-Tanana Highlands; 63° 12' N, 142° 16' W; (map 85). Local descriptive name reported by USGS in 1964.

Long Lake: lake, 1.3 miles long, W of Fish Lake 1.5 miles SE of Northway, Alaska Range; 62° 57' N, 141° 52' W; (map 84). Local descriptive name reported by USGS in 1955.

Long Lake: lake, 1.5 miles long, drains NE to Tolsona Creek, 22 miles NW of Glennallen, Copper River Basin; 62° 12' N, 146° 10' W; (map 83). Local descriptive name reported by USGS in 1949.

Long Lake: lake, 1.8 miles long, 1.7 miles SW of Willow and 35 miles N of Anchorage, Cook Inlet Lowland; 61° 43' 30" N, 150° 05' 15" W B(7N 1961; (map 70). Variant: Big Lake. Local descriptive name reported in 1958 by USGS.

Long Lake: lake, 2 miles long, 2 miles W of Nelson Lake and 13 miles NW of Beaver, Yukon Flats; 66° 30' N, 147° 46' W; (map 118). Probably named by William Yanert, who recorded it on a 1916 manuscript map of the Yukon Flats (Stuck, 1917, map facing p. 122).

Long Lake: lake, 2 miles long, drains W to Patterson Creek, E of Harper Bend, 21 miles SE of Tanana, Nowitna Lowland; 65° 00' 30" N, 151° 27' 00" W; (map 106). Local name reported in 1952 by USGS.

Long Lake: lake, 2 miles long, E of Iliamna Lake, 1.7 miles NE of Pile Bay, Aleutian Range; 59° 49' 30" N, 153° 50' 30" W; (map 51). Local name published by USGS in 1954.

Long Lake: lake, 2 miles NE of Huslia, 14 miles NE of Roundabout Mountain, Koyukuk Lowland; 65° 43' N, 156° 19' W; (map 108). Descriptive local name obtained in 1956 at Huslia by Orth.

Long Lake: lake, 2.2 miles long, on NW coast of Revillagigedo Island, 3 miles off Curlew Point, Alexander Archipelago; 55° 55' N, 131° 28' W; (map 3). Local name reported in 1952 by USGS.

Long Lake: lake, 3 miles long, 2.5 miles NW of junction of Nizina and Chitina Rivers and 18 miles SW of McCarthy, Cooper River Basin; 61° 23' N, 143° 16' W; (map 67). Local name published on manuscript map 1909, by the Copper River and Northwestern Railway, Chitina Branch Line.

Long Lake: lake, 3 miles long, 38 miles NW of Midnight Hill, Porcupine Plateau; 66° 12' N, 142° 24' W; (map 120). Local descriptive name; reported in 1956 by R. C. Foley, USGS.

Long Lake: lake, 3 miles long, drains W to Hay Slough, 13 miles ESE of Tanana, Nowitna Lowland; 65° 08' N, 151° 36' W; (map 106). Local name reported in 1952 by USGS.

Long Lake: lake, 3 miles SE of Fish Lake and 7 miles E of Roundabout Mountain, Koyukuk Lowland; 65° 32' N, 156° 18' W; (map 108). Local name obtained at Huslia by USGS in 1954 or 1955.

Long Lake: lake, 3.5 miles long, 1 mile NW of Devils Lake and 21 miles SW of Beaver, Yukon Flats; 66° 17' N, 148° 10' W; (map 118). Local descriptive name obtained in 1956 by USGS.

Long Lake: lake, 4 miles long on Long River, 27 miles SE of Juneau, Coast Mountains; 58° 10' 00" N, 133° 43' 00" W; (map 12). Name derived from Long River; published in 1951 on a USGS map.

Long Lake: lake, 4.5 miles long, 12 miles W of Lake Clark and 12 miles NW of Nondalton, Alaska Range; 60° 08' 30" N, 155° 03' 30" W; (map 61). Variant: Portage Lake. Named by R. H. Sargent and P. S. Smith, USGS, in 1914. The name "Portage Lake" was reported in 1914 by Thomas Hanmore, U.S. Commissioner at Iliamna.

Long Lake: lake, extends NS 1 mile, 4 miles SE of Selawik, Kotzebue-Kobuk Lowland; 66° 34' N, 159° 57' W; (map 114). Local name reported by the U.S. Army Corps of Engineers in 1955.

Long Lake: lake, oxbow 1.4 miles long, 0.3 miles N of Beaver Creek and 17 miles SE of Beaver, Yukon Flats; 66° 14' N, 146° 51' W; (map 119). Local descriptive name obtained in 1956 by USGS.

Long Lake: lake, see Mundthag Lake.

Long Lake: lake, see Takslesluk Lake.

Long Lakes: lakes, 3 miles W of Beaver Lake and Creeks, 16 miles SE of Beaver, Yukon Flats; 66° 11' 20" N, 146° 57' 00" W; (map 119). Local descriptive name obtained in 1956 by USGS.

Long Mountain: mountain, on Peninsula between Unalaska and Kalekta Bays, on N coast of Unalaska Island, Aleutian Islands, near 53° 59' N, 166° 23' W; (map 23). Descriptive name used by the Harriman Alaska Expedition in 1899 (p. 91). The name was published by Baker (1906, p. 412), but is not shown on modern maps.

Long Mountains: mountains, 1,000 ft., on right bank of Yukon River, between Carlo and Turtle Islands, 17 miles NW of Holy Cross, Nulato Hill; 62° 25' N, 160° 10' W; (map 78). Local name reported in 1916 by G. L. Harrington and R. H. Sargent (in Harrington, 1918, pl. 1), USGS.

Long Point 'SD' : point of land, on SW coast of Kanaga Island, Aleutian Islands; 51° 41' 42" N, 177° 34' 12" W; (map 17). Name published in 1943 on an AMS map.

Long Point: point of land, 4 miles long, formed by a bend of Yukon River, 10 miles NE of Stevens Village, Yukon Flats; 66° 03' N, 148° 45' W; (map 118). Local descriptive name obtained in 1956 by USGS.

Long Point: point of land, at E entrance to Long Bay, 54 miles NE of Whittier, Chugach Mountains 60° 55' 55" N, 147° 10' 45" W; (map 63). Local name published on recent USGS maps; derived from nearby Long Bay.

Long Point: point of land, on SE shore of Karluk Lake, 24 miles SE of Karluk, Kodiak Islands; 57° 18' 20" N, 154° 01' 00" W; (map 35). Local descriptive name reported in 1952 by USGS.

Long Pond: estuary, flows NW 5 miles to Wrangell Narrows at Petersburg, on NW coast of Mitkof Island, 34 miles NW of Wrangell, Alexander Archipelago; 56° 48' 30" N, 132° 57' 30" W; (map 6). Local name published in 1943 by USC&GS.

Long Portage Creek: stream, see Beaver Creek.

Long Portage Creek: stream, see Goblet Creek.

Long Ridge: ridge, elev. 2,200 ft., extends NE 17 miles from Dall River, 32 miles NW of Stevens Village, Kokrines-Hodzana Highlands; 66° 27' N, 149° 24' W; (map 118). Local descriptive name obtained in 1956 by USGS.

Long River: stream, flows E 12 miles to Speel River, 30 miles SE of Juneau, Coast Mountains; 58° 11' 45" N, 133° 37' 30" W; (map 12). Variant: Indian Creek. Descriptive name reported in 1916 by G. H. Canfield (in Brooks and others, 1918, p. 136), USGS. In 1921 this stream was shown as Indian Creek by the U.S. Federal Power Commission.

Long Sands: shoal, 4.5 miles long, in Nushagak Bay, between Middle and Ship Channels, 19 miles S of Dillingham, Bristol Bay Lowland; 58° 44' N, 158° 32' W; (map 40). Local name reported in 1950 by USC&GS.

Long Slough: lake, 2 miles long, between Beaver Lake and Jefferson Creek, 18 miles SE of Beaver, Yukon Flats; 66° 11' 50" N, 146° 54' 00" W; (map 119). Local descriptive name obtained in 1956 by USGS.

Long Slough: stream, anabranch of Koyukuk River, 6 miles long E of Long Bend, 13 miles NE of Hughes, Hogatza Highlands; 66° 14' N, 154° 02' W; (map 116). Local name reported by Orth in 1956.

Long Stretch: reach, of Koyukuk River, extends NS 12.4 miles, 43 miles SW of Roundabout Mountain, Koyukuk Lowland; 65° 08' N, 157° 39' W; (map 108). Descriptive name obtained in 1955 at Koyukuk by USGS.

Long Tangle Lake: lake, 4.5 miles long, one of Tangle Lakes, near head of Delta River, 15 miles W of Paxson, Alaska Range; 63° 06' 10" N, 145° 57' 40"W; (map 86). Name published on relatively recent maps.

Long, Lake: lake, 1 mile long, NE of Spruce Lake, 7.5 miles SE of Talkeetna, Cook Inlet Lowland; 62° 13' 05" N, 150° 00' 50" W; (map 81). Variant: Long Lake. Local name reported in 1958 by USGS.

Long: settlement, pop. 28, on left bank of Long Creek, 23 miles S of Ruby, Kilbuck Kuskokwim Mountains; 64° 24' 15" N, 155° 30' 00" W; (map 98). Variant: Long City. This mining camp developed after the discovery of gold on Long Creek in 1911. A post office was established here in 1913 and discontinued in 1932 (Ricks, 1965, p. 39).

Longfellow Glacier: glacier, see Learnard Glacier.

Longmare Lake: lake, 1.4 miles long, on Kenai Peninsula, S of Sterling Highway, 13 miles E of Kenai, Cook Inlet Lowland; 60° 30' N, 150° 55' W; BGN 1954; (map 62). Variant: DeLong Lake. Local name reported in 1954 by USGS.

Lonieof Lake: lake, 2 miles long, on Baranof Island, 20 miles NW of Port Alexander, Alexander Archipelago; 56° 30' N, 134° 55' W; (map 5). Local name recorded in 1951 by USGS.

Lontana Point: point of land, S tip of Suemez Island, Alexander Archipelago; 55° 12' 15" N, 133° 20' 10" W; BGN 1923; (map 4). Spanish word (from "lontanaza"), meaning "distant" or "background," given in 1923 by USC&GS.

Look Lake: lake, 0.1 miles across, center of Kiska Island, Aleutian Islands; 51° 57' 40" N, 177° 26' 10" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Lookoovik Cape: point of land, see Vngyat.

Lookout Cove: cove, 2 miles across, on SE coast of Umnak Island, Aleutian Islands; 53° 00' 25" N, 168° 36' 45" W; (map 22). Name derived from Lookout Point; published in 1951 on a USGS map.

Lookout Glacier: glacier, heads 1.5 miles W of Mount Klooch, trends 1.5 miles SW to its 1961 terminus, 1.2 miles E of 1961 terminus of South Crillon Glacier and 77 miles NW of Hoonah, St. Elias Mountains; 58° 36' N, 137° 21' W; (map 10). Name published by members of the Harvard Dartmouth Expedition, 1933-34 (Washburn and Goldthwait, 1936, map).

Lookout Hill: hill, 700 ft. elev., 1 mile NE of Bales Landing, on N shore of Stepovak Bay, Aleutian Range; 55° 52' N, 159° 47' W; (map 27). Local name published by USC&GS in 1916 Alaska Coast Pilot (v. 2, p. 164).

Lookout Hill: mountain, 1,500 ft., on SE side of Attu Island, Aleutian Islands; 52° 49' 37" N, 173° 07' 30" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II; shown on an AMS map published in 1948.

Lookout Hill: mountain, 2,440 ft., NW of Rainy Pass Lodge, 86 miles SW of Talkeetna, Alaska Range; 62° 06' 00" N, 152° 44' 45" W; (map 81). Local name reported in 1958 by USGS.

Lookout Mountain: hill, 413 ft., 7 miles E of Mumtrak Hill and 10 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 09' 15" N, 161° 20' 00" W; (map 53). Variant: Kiayankayagak. Name published in 1951 by USGS. The Eskimo name, reported to be "Kiayankayagak," was obtained about 1951 at Goodnews by J. M. Hoare, USGS.

Lookout Mountain: hill, 528 ft., 3 miles N Reindeer Island, and 21 miles SE of Iliamna, Aleutian Range; 59° 30' N, 154° 37' W; (map 51). Name published by USGS (in Martin and Katz, 1912, pl. 1).

Lookout Mountain: mountain, 1,622 ft., on Kenai Peninsula, 3 miles NW of Kachemak Bay and 6 miles NE of Homer, Cook Inlet Lowland; 59° 42' 30" N, 151° 27' 00" W; (map 50). Local name reported and published by USGS in the 1950's.

Lookout Mountain: mountain, 2,118 ft., at E end of Alatna Hills, 3.5 miles SW of Bettles, Brooks Range; 66° 53' N, 151° 48' W; (map 117). Named by Lt. Allen (1887, p. 101), USA, who climbed this mountain in 1885.

Lookout Mountain: mountain, 2,146 ft., 23 miles S of Flat and 40 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 62° 07' 30" N, 157° 59' 30" W; (map 79). Local name published in 1921 on a USGS map.

Lookout Mountain: mountain, 2,965 ft., 16 miles NW of Honolulu Pass, 50 miles SW of Healy, Alaska Range; 63° 13' 30" N, 149° 34' 20" W; (map 87). Local name obtained in 1951 by USGS.

Lookout Peak: hill, see Dexter Peak.

Lookout Point: point of land, on SE Caton Island, Sanak Islands, Aleutian Range; 54° 23' N, 163° 27' W; (map 25). Name reported in 1900 by USC&GS.

Lookout Point: point of land, on SE coast of Umnak Island, Aleutian Islands; 53° 00' 15" N, 168° 36' 50" W; (map 22). Name published by USC&GS in 1944 Aleutian Coast Pilot (p. 70).

Lookout Point: point of land, see Watch Point.

Lookout Ridge: ridge, extends 60 miles E from Disappointment Creek, between Colville and Awuna River, 115 miles SE of Wainwright, Arctic Slope; 69° 07' N, 158° 36' W; BGN 1926; (map 143). Name proposed by Gerald FitzGerald USGS, in 1925, in reference to the numerous Eskimo lookout stations and frames of old camps seen there. This ridge is a convenient observation area for the Eskimo in hunting caribou.

Lookout River: stream, heads in lake, flows E 60 miles to Awuna River, 140 miles SE of Wainwright, Arctic Slope; 69° 03' N, 156° 34' W; BGN 1926; (map 143). Variant: Kolaktok. So named in 1925 by Gerald FitzGerald, USGS, after Lookout Ridge. The Eskimo name for this stream is "Kolaktok."

Lookout, Cape: point of land, off S point of entrance to Sea Otter Harbor, on W coast of Dall Island, Alexander Archipelago; 55° 06' N, 133° 14' W; (map 4). Name published in 1912 by USC&GS.

Lookout, Point: point of land, on E shore of Stephens Passage, 0.8 miles N of Dry Bay and 52 miles SE of Juneau, Coast Mountains, 57° 39' 00" N, 133° 40' 30" W; (map 8). Named in 1868 by Comdr. R. W. Meade, USN; name published in 1869 on Hydrog. Chart 225. Probably so named because "a very dangerous reef awash at high water, extends off this point a mile and a half" (U.S. Coast and Geodetic Survey, 1891, p. 168).

Lookout, Point: point of land, on W shore of Security Bay, on N coast of Kuiu Island, Alexander Archipelago; 56° 50' 00" N, 134° 20' 10" W; (map 5). Named in 1869 by Comdr. R. W. Meade USN.

Lookta-ek: locality, see Alaganik.

Loomis Glacier: glacier, in Glacier Bay National Monument, 2.2 miles long, heads NE of Emerson Peaks, flows N to Plateau Glacier, 68 miles NW of Hoonah, St. Elias Mountains; 58° 56' 30" N, 136° 25' 30" W; (map 10). Named by members of the American Geographical Society's Glacier Bay Expedition of 1941 (Field, 1947, map) for Henry B. Loomis, a companion of John Muir on his trip to the Muir Glacier in 1890.

Loon Creek: stream, flowing S 2.3 miles to Vega Bay, Kiska Island, Aleutian Islands, 51° 55' 58" N, 177° 24' 20" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Loon Creek: stream, flows S 9.5 miles through Loon Lake to Agiak Creek, 9 miles N of Sillyasheen Mountain and 76 miles NW of Wiseman Brooks Range; 67° 53' 30" N, 152° 40' 30" W BGN 1932; (map 124). Named in 1931 by Marshall (1956, p. 102) who wrote, "*** we called it 'Loon Creek' after some loons we observed ***."

Loon Island: island, see Gagarin Island.

Loon Lake: lake, 0.8 miles long, at head of Kasaan Peninsula, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 37' 40" N, 132° 20' 00" W; BGN 1960; (map 4). So named by C. L. Sainsbury, USGS, in 1956 "because of the large number of loons observed on it at various times."

Loon Lake: lake, 1 mile long, 0.5 miles S of Arctic Village, Brooks Range; 68° 07' N, 145° 33' W; (map 136). Local name reported in 1956 by R. C. Foley, USGS.

Loon Lake: lake, 1 mile long, 13 miles N of Chalkyitsik, Yukon Flats; 66° 50' N, 143° 45' W; (map 120). Local name obtained in 1956 by T. E. Taylor and R. C. Foley, USGS.

Loon Lake: lake, 1.2 miles long, 2 miles NNE of Old Man Lake and 35 miles WNW of Glennallen, Cooper River Basin; 62° 11' 30" N, 146° 36' 00" W; (map 83). Local name reported in 1949 by USGS.

Loon Lake: lake, 1.5 miles long, in course of Loon Creek, 13 miles N of Sillyasheen Mountain and 76 miles NW of Wiseman, Brooks Range; 67° 57' 30" N, 152° 37' 00" W; (map 124). Named about 1930 by Marshall (1956, p. 103) for the stream that flows through it; "we suddenly came upon a gorgeous lake * * * fresh as at creation."

Loon Lake: lake, 1.8 miles long, on Kenai Peninsula, 0.5 miles SW of Swan Lake and 24 miles NE of Kenai, Cook Inlet Lowland; 60° 39' 15" N, 150° 35' 45" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, probably for the Black-Throated Loon or Arctic Diver, (*Gavia arctica*), which breeds in the tundra near Kotzebue Sound. (Pearson, 1944, pt. 1, p. 14).

Loon Lake: lake, 800 ft. long, on Revillagigedo Island, N of Throne Arm, between Ella and Mirror Lakes, Alexander Archipelago; 55° 29' 50" N, 131° 09' 00" W; (map 3). Local name reported in 1955 by USGS.

Loon Lakes: lakes, N of Beaver Creek, 19 miles SE of Beaver, Yukon Flats; 66° 14' N, 146° 49' W; (map 119). Local name obtained in 1956 by USGS.

Loon Point: point of land, at mouth of Eliza Harbor, on Admiralty Island, 25 miles SE of Angoon, Alexander Archipelago; 57° 10' 35" N, 134° 16' 55" W; (map 9). Named in 1889 by Lt. Comdr. H. B. Mansfield, USN; published by USC&GS on Chart 8216.

Loon Rock: rock, at N entrance to Hawkins Island Cutoff, 20 miles SW of Cordova, Chugach Mountains; 60° 29' N, 146° 20' W; (map 64). Named in 1903 by Homer P. Ritter, USC&GS, for the family Gaviidae, birds, which are found throughout the Northern Hemisphere.

Loop, The: lake, an oxbow of Nowitna River, 38 miles NE of Ruby, Nowitna Lowland; 64° 46' N, 154° 14' W; (map 98). Local name obtained by Orth in 1956

Loot Hill: hill, 675 ft., N of Mutt Cove, center of Kiska Island, Aleutian Islands; 51° 56' 43" N, 177° 29' 54" E; (map 14). An arbitrary name beginning with "L," to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Loper Creek: stream, flows N 19 miles to Preacher Creek, 45 miles W of Circle, Yukon Tanana Highlands; 65° 46' N, 145° 37' W; (map 104). Variant: Preacher Creek. Name originally reported in 1896 by J. E. Spurr, USGS, to be Preacher Creek. However, in 1903, T. G. Gerdine, USGS, reported the present name (in Prindle, 1905 pl. 13)

Loper Island: island, 0.4 miles across, between Marconi Slough and Chena River at Tanana River, 6 miles SW of Fairbanks, Tanana Lowland; 64° 47' 45" N, 147° 55' 00" W; (map 100). Local name reported in 1950 by USGS topographers.

Lopp Lagoon: lagoon, 18 miles long, on NW coast of Seward Peninsula, 2 miles NE of Cape Prince of Wales and 52 miles NW of Teller, Kotzebue-Kobuk Lowland; 65° 45' N, 167° 45' W; (map 111). Named in 1900 by A. H. Brooks, USGS. for "Rev. William Thomas Lopp, of Indiana. a missionary to the Eskimo, who began work here in 1890" (Baker, 1906, p. 413). According to Schrader and Brooks (1900, p 25), USGS, Lopp was in charge of a U.S. government reindeer station in 1899 and employed Kivyearzuk, the Eskimo who discovered gold in the Cape York region.

Lorraine Creek: stream, flows SW 3.7 miles to Kotsina River, 0.3 miles N of mouth of Iron Creel; and 76 miles NE of Valdez, Wrangell Mountains: 61° 36' 15" N, 144° 12' 15" W; (map 68). Prospectors' name shown on a 1912 field sheet by D. C. Witherspoon, USGS.

Loras Harbor: harbor, see Dora Harbor.

Lord Islands: islands, 2 miles across, at mouth of Nakat Bay, Coast Mountains; 54° 44' N, 130° 47' W; (map 2). Named in 1868 by Staff Comdr. David Pender, RN.

Lord Rock: island, 0.1 miles across, in SW end of Lord Islands at mouth of Nakat Bay, Coast Mountains; 54° 43' 35" N, 130° 49' 05" W; (map 2). Name derived from Lord Islands; given in 1883 by Lt. Comdr. H. E. Nichols, USN

Lords Harbor: harbor, see Dora Harbor

Lords Lake: lake, 1 mile long, 12 miles N. of Eagle, Porcupine Plateau; 64° 57' 30" N, 141° 18 0 W; (map 102). Local name published in 1956 by USGS

Lords Pocket: bay, 0.1 miles across, 4 miles N of mouth of Patterson Bay, on SE coast of Baranof Island, Alexander Archipelago; 56° 35' 35" N, 134 37 30 W, (map 6). Local fishermen's name reported in 1947 by USC&GS.

Lore Hill: mountain, 1,275 ft., center of Kiska Island, Aleutian Islands; 51° 58 20" N, 177° 26' 30" E; (map 14). Variant: Sorghum Hill. An arbitrary name beginning with "L" to correspond to "L" grid used by U.S. Army for tactical purposes during World War II; published on a 1953 AMS map. Variant published on a 1943 USAAF map.

Loren Hill: mountain, 1,600 ft., center of Kiska Island, Aleutian Islands; 51° 58' 20" N, 177° 28' 25" E; (map 14). Variant: Panther Peak. An arbitrary name beginning with "L" to correspond to "L" grid used by U.S. Army for tactical purposes during World War II; published on a 1953 AMS map. Variant published on a 1943 USAAF map.

Lorentz River: stream, see Zitziana River.

Lorenz River: stream, see Zitziana River.

Loring: village, pop. 10, on W coast of Revillagigedo Island, near head of Naha Bay, Alexander Archipelago; 55° 36' 12" N, 131° 38' 00" W; (map 3). This fishing village was built around a salmon cannery established in 1885 and abandoned in 1930. A post office, established here in 1885 was discontinued in 1936 (Ricks, 1965, p 4o)

Lorna Creek: stream, flows SE 5 miles to Aurora Creek which flows to Noxapaga River, 27 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 38' N, 164° 13' W; (map 110). Variant: Money Creek. Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson. Reported as "Money Creek" in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Lorraine, Lake: lake, 0.7 miles long, in Elmendorf Moraine, W of Knik Arm Cook Inlet, 5.4 miles NW of Anchorage, Cook Inlet Lowland; 61° 17' 38" N, 149° 57' 00" W; (map 69). Local name reported in 1952 by USGS.

Losa Island: island, 0.1 miles long, in Iphigenia Bay, 2.4 miles SW of Cape Lynch, off NW coast of Heceta Island, Alexander Archipelago; 55° 46' 20" N, 133° 45' 30" W; BGN 1925; (map 4). Spanish name meaning "flagstone," given in 1924 by USC&GS.

Lost Butte: hill, 2,305 ft., 1.8 miles W of Billy Lake 17 miles SE of Chitina and 34 miles W of McCarthy, Copper River Basin; 61° 26' N, 143° 58' W; (map 67). Local name published by Moffit (1914, pl. 1), USGS.

Lost Cabin Lake: lake, 1 mile long, at mouth of Atlasta Creek, S of Glenn Highway, 21 miles W of Glennallen, Copper River Basin, 62° 04' 30" N, 146° 11' 00" W; (map 83). Local name reported in 1949 by USGS

Lost Chance Basin: valley, see Last Chance

Lost Chicken Creek: stream, flows SE 1 mile to South Fork Fortymile River, 55 miles SW of Eagle, Yukon-Tanana Highlands; 64° 03' N, 141° 3' W, (map 102). Prospectors, name shown on a 1902 manuscript map by E. J. Chamberlain U.S. Deputy Surveyor.

Lost Chicken Hill: mountain, 2,100 ft., 1 mile N of junction of Dennison and Mosquito Forks, 55 miles SW of Eagle, Yukon-Tanana Highlands; 64° 04' N, 141° 55' W; (map 102). Local name published in 1956 by USGS.

Lost Cove: cove, 0.3 miles across, near S end of Lisianski Strait, on Chichagof Island, 12 miles SW of Pelican, Alexander Archipelago; 57° 51' 40" N, 136° 25' 00" W; (map 9). Named by USC&GS and published in 1928 on Chart 8258.

Lost Creek: stream, flows 2.5 miles S to North Fork Bremner River, 4.5 miles SW of Hanagita Peak and 41 miles SW of McCarthy, Chugach Mountains; 61° 01' 35" N, 143° 48' 30" W; (map 67). Local name published by Moffit (1914, pl. 1), USGS.

Lost Creek: stream, flows N 1 mile to Lower Willow Creek which flows to Casadepaga River, 16 miles N of Solomon, Seward Peninsula Highlands; 64° 48' N, 164° 24' W; (map 95). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Lost Creek: stream, flows N 3.2 miles to Stewart River, 22 miles N of Nome, Seward Peninsula Highlands; 64° 49' 24" N, 165° 21' 50" W; (map 94). Variant: Christmas Creek. Prospectors' name reported in 1904 by T. G. Gerdine, USGS. Shown as "Christmas Cr." on the 1902 "Map of the Nome and Snake River Country" by J. M. Davidson.

Lost Creek: stream, flows NE 2 miles to Nome River, 6 miles NE of Nome, Seward Peninsula Highlands; 64° 34' N, 165° 13' W; (map 94). Prospectors' name reported on a map by S. E. King, dated 1900.

Lost Creek: stream, flows NW 1.3 miles to American Creek which flows to Niukluk River, 26 miles N of Solomon, Seward Peninsula Highlands; 64° 56' N, 164° 25' W; (map 95). Variant: Game Creek. Prospectors' name reported in 1907 by USGS geologists (Smith, P. S., 1910, pl. 4).

Lost Creek: stream, flows NW 2 miles to Portage Creek which flows to American River, 12 miles NW of Kougarok Mountain and 22 miles SE of Ear Mountain, Seward Peninsula Highlands; 65° 46' N, 165° 33' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Lost Creek: stream, flows NW 5 miles to Klokerblok River, 20 miles E of Solomon, Seward Peninsula Highlands; 64° 39' N, 163° 49' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Lost Creek: stream, flows S 1 mile to Chatanika River, 11 miles NE of Twin Buttes and 45 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 16' 30" N, 146° 41' 15" W; (map 104). Variant: Nome Creek. Originally reported in 1903 as "Nome Creek" by Prindle (1905, pl. 13), USGS. However, the name was later changed by local usage, probably because there is a Nome Creek a few miles north of this stream.

Lost Creek: stream, flows S 2 miles to Mission Creek, 2 miles NW of Eagle, Yukon-Tanana Highlands; 64° 48' 30" N, 141° 16' 20" W; (map 102). Local name published in 1956 by USGS.

Lost Creek: stream, flows SW 1.2 miles to Kasson Creek which flows to Solomon River, 9 miles NE of Solomon, Seward Peninsula Highlands; 64° 41' 40" N, 164° 23' 45" W; (map 95). Prospectors' name shown on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Lost Creek: stream, flows SW 15 miles to West Fork Tolovana River, & miles SW of Livengood Yukon-Tanana Highlands; 65° 29' N, 148° 49' W; (map 105). Named by prospectors, reported in 1915 by Brooks (Brooks and others, 1916, pl. 9), USGS.

Lost Creek: stream, flows SW 2.6 miles to Tubutulik River, 28 miles N of Elim and 50 miles SE of Imuruk Lake, Seward Peninsula Highlands; 65° 00' N, 162° 06' W; (map 110). Prospectors' name reported in 1900 by W. J. Peters (in Mendenhall, 1901, pl. 20) USGS.

Lost Creek: stream, flows SW 20 miles to Serpentine Creek, 62 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 51' N, 144° 30' W; (map 101). Named by prospectors; reported in 1910 by USGS (Prindle 1913, pl. 1).

Lost Creek: stream, flows W 3 miles to Minook Creek, 15 miles S of Rampart, Yukon Tanana High; 65° 17' N, 150° 06' W; (map 106). Prospectors' name reported in 1904 by L. M. Prindle, USGS.

Lost Creek: stream, heads at 65° 52' N, 147° 35' W, flows NW 37 miles to Tincan Lake, 20 miles SW of Beaver, Yukon Flats; 66° 09' 45" N, 147° 55' 00" W; (map 118). Named by prospectors and reported in 1902 by Lieut. H. Erickson, USA.

Lost Creek: stream, in Mentasta Mountains, flows S 10 miles to Jack Creek, 2.5 miles SE of Jack Lake Alaska Range; 62° 30' 00" N, 143° 10' 45" W, (map 84). Local name reported by Mendenhall (1905, pl. 11), USGS.

Lost Creek: stream, on Kenai Peninsula, heads at Lost Lake, flows S 6.5 miles to Salmon Creek 4.5 miles NE of Seward, Chugach Mountains; 60° 15' 45" N, 149° 24' 45" W; (map 63). Local name reported in 1909 by Grant and Higgins (1910, pls. 1, 2), USGS.

Lost Creek: stream, see Crescent Creek.

Lost Creek: stream, see Lost River.

Lost Creek: stream, see Panamaroff Creek.

Lost Creek: stream, see Serpentine Creek.

Lost Harbor: bay, 1.5 miles across, on W coast of Akun Island, Krenitzen Islands, Aleutian Islands; 54° 13' 45" N, 165° 36' 30" W; (map 24). Named in 1901 by J. J. Gilbert, USC&GS.

Lost Harbor: locality, at Lost Harbor on W coast of Akun Island, Aleutian Islands; (map 24). Name of a former mining camp that was located on the island in the 1920's. The camp contained a smelter, tramway, machine shop, commissary and other buildings for the operation of a sulphur mine.

Lost Horse Creek: stream, flows SW 5.5 miles to Washington Creek, 22 miles N of Fairbanks, Yukon-Tanana Highlands; 65° 09' 45" N, 147° 49' 20" W; (map 105). Local name published by USGS in the 1950's.

Lost Jim Cone: hill, 1,536 ft., in lava, 3 miles NW of Sandy Lake and 5 miles S of Imuruk Lake, Seward Peninsula Highlands; 65° 29' N, 163° 18' W; BGN 1952; (map 110). Reported in 1950 by D. M. Hopkins, USGS; so named because while "mapping the [lava] flow in 1947, a member of the Geological Survey field party was separated from the remainder of the group and lost for nearly a day."

Lost Lake: lake, 0.2 miles across, 1 mile NE of Chitina and 56 miles NE of Valdez, Chugach Mountains; 61° 31' 45" N, 144° 25' 45" W; (map 68). Local name published in the 1950's by USGS.

Lost Lake: lake, 0.2 miles across, N of Pierucci Ridge, on E end of Attu Island, Aleutian Islands; 52° 54' 03" N, 173° 17' 15" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II; shown on an AMS map published in 1948.

Lost Lake: lake, 0.5 miles long, WSW of Quartz Lake and 3.3 miles N of Big Delta, Yukon-Tanana Highlands; 64° 12' N, 145° 51' W; (map 101). Local name published in 1951 by USGS.

Lost Lake: lake, 0.6 miles long, 0.4 miles S of mouth of Dome Creek and 29 miles NW of Birches, Kokrines-Hodzana Highlands; 65° 30' 30" N, 154° 03' 00" W; (map 107). Local name obtained in 1954 by USGS topographers.

Lost Lake: lake, 0.7 miles long, 1 mile SW of Sweeney Lake and 18 miles SW of Beaver Yukon Flats; 66° 08' 20" N, 147° 47' 00" W (map 118). Local name obtained in 1956 by USGS.

Lost Lake: lake, 0.7 miles long, on Kenai Peninsula SW of Woods Lake, 32 miles NE of Kenai, Cook Inlet Lowland; 60° 48' 40" N, 150° 30' 15" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Lost Lake: lake, 1.2 miles long, W of Knik Arm Cook Inlet, 8.4 miles NW of Anchorage, Cook Inlet Lowland; 61° 20' 10" N, 149° 59' 40" W; (map 69). Local name reported in 1952 by USGS.

Lost Lake: lake, on Kenai Peninsula, 1.5 miles long, at head of Lost Creek, 10 miles N of Seward, Chugach Mountains; 60° 16' N, 149° 26' W; BGN 1910; (map 63). Local name reported in 1909 by Grant and Higgins (1910, pls. 1, 2), USGS.

Lost Lake: lake, see Crescent Lake.

Lost River: locality, on Bering Sea coast, near mouth of Lost River, about 2 miles S of York Mountains and 25 miles NW of Teller, Seward Peninsula Highlands; (map 111). Site of a mining camp and landing listed in the 1915-16 Polk's Gazetteer. In 1903 A. J. Collier, USGS, accompanied three miners to Lost River, where he discovered the first lode tin in the York district (Steidtmann and Cathcart, 1922, p. 14). This area remained an important source of tin for many years. It appears a resident population was never established at this site.

Lost River: stream, flows NE 46 miles to Nowitna River, 14 miles NE of Monzonite Hills, Kilbuck-Kuskokwim Mountains; 64° 30' N, 154° 15' W; (map 98). Local name reported in 1915 by H. M. Eakin (in Brooks and others, 1916, pl. 10), USGS.

Lost River: stream, flows SW 5 miles to Gulf of Alaska, 7 miles SE of Yakutat, Malaspina Coastal Plain; 59° 27' 20" N, 139° 36' 30" W, BGN 1962; (map 46). Variant: Lost Creek, Thaghe-an, Thaghian Creek, Thaghian River. Local name reported as early as 1903; a general translation of the stream's Tlingit Indian name was reported in 1901 by Lt. Comdr. J. F. Moser, USN, as 'Tha-ghe-an.'

Lost River: stream, heads in York Mountains, flows S 9 miles to Bering Sea, 24 miles NW of Teller, Seward Peninsula Highlands; 65° 23' N, 167° 09' W; (map 111). Prospectors' name reported in 1903 by Collier (1904, pl. 2), USGS.

Lost Rocker Falls: waterfall, somewhere along Sheep Creek, about 5 miles SE of Juneau, Coast Mountains; 58° 16' N, 134° 19' W; (map 11). Miners' name reported by DeArmond (1957, P.39).

Lost Slough: stream, distributary of Nenana River, flows N 12 miles to Seventeenmile Slough, 9 miles S of Nenana, Tanana Lowland; 64° 27' 30" N, 149° 10' 20" W; (map 100). Local name published by USGS in 1919.

Lost Temper Creek: stream, heads on Monument Ridge, flows N 17 miles to Colville River, Arctic Slope; 68° 54' N, 157° 25' W; (map 132). Named in 1950 by B. H. Kent, USGS geologist connected with the Naval Petroleum Reserve No. 4 explorations because of a camp incident. Name was published by USGS in 1951.

Lothiano: bay, see Icy Bay.

Lotus Island: island, 0.15 miles long, between Nizki and Shemya Islands, Semichi Islands, Aleutian Islands; 52° 43' 40" N, 174° 02' 40" E; (map 13). Name published in 1948 on USC&GS Chart 9130.

Lou Lake: lake, 2 miles across, 2 miles W of Kagalurpak Lake and 83 miles W of Bethel, Yukon-Kuskokwim Delta; 60° 56' N, 164° 12' W; (Map 58). Name reported about 1965 by personnel of Clarence Rhode National Wildlife Range.

Loud Hill: hill, 1,307 ft., center of Kiska Island Aleutian Islands, 51° 58' 20" N, 177° 27' 23" E. (map 14). Variant: Tobacco Hill. An arbitrary name beginning with "L" to correspond to "L" grid used by U.S. Army for tactical purposes during World War II; published on a 1953 AMS map. variant published on a 1943 USAF map.

Louden Slough: stream, anabranch of Yukon River, 40 miles E of Nulato, Koyukuk Lowland; 64° 40' N, 156° 46' W; (map 97). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the U.S. Dept. of Interior.

Louden Slough: stream, see Kala Slough.

Louden: locality, on right bank of Yukon River, 43 miles E of Nulato, Koyukuk Lowland; 64° 38' N, 156° 41' W; (map 97). Variant: Lowden, Sachertelontin, Saghadelautin, Sakadelontin, Sakatalan, Sakataloden, Sakedelontin, Sar-du-Loten, Zakatlantan. Telegraph station established in 1903 by the U.S. Army Signal Corps. Former Indian village or camp, which Frederick Whympier (1869, p. 226) reported as "Sachertelontin;" Petroff (1881, p. 62) listed "Sakatalan," population 25; the 1890 Census recorded "Sakataloden," population 39; "Sar-du-Loten" was Shown in 1899 on Edwards Track Chart of the Yukon. Since the origin of the name Louden has not been determined, it is of interest to note the various endings of the Indian names, from which the name Louden may have been derived.

Louie Creek: stream, flows SW 14 miles to Koyukuk River, 7 miles W of Roundabout Mountain Koyukuk Lowland; 65° 33' N, 156° 47' W; (map 108). Local name obtained at Huslia by USGS in 1954 or 1955.

Louie Lake: lake, 0.8 miles long, 3 miles ENE of Tetlin and 21 miles SE of Tok, Alaska Range; 63° 09' N, 142° 25' W; (map 85). Local name reported by USGS in 1964.

Louie Pup: stream, flows NW 2 miles to Boulder Creek, 7 miles SW of Central and 35 miles SW of Circle, Yukon-Tanana Highlands; 65° 31' N, 145° 00' W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Louies Corner: locality, on S coast of Alaska Peninsula at head of Stepovak Bay, Aleutian Range; 55° 51' 10" N, 159° 47' 00" W; (map 27). Local name published by USC&GS in 1916 Coast Pilot.

Louis Bay: estuary, at NE end of Knight Island, extends NE 1 mile to Lower Passage, in Prince William Sound, 42 miles SE of Whittier, Chugach Mountains; 60° 28' 45" N, 147° 40' 00" W; BGN 1908; (map 63). Local name reported in 1908 by Grant and Higgins (1909, pl. 4), USGS.

Louis Creek: stream, flows N 0.8 miles to Little Eldorado Creek, 16 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 03' 35" N, 147° 32' 00" W; (map 105). Named by prospectors; published in 1908 by USGS.

Louis Creek: stream, flows NW 8 miles to Yanert Fork, 28 miles SE of Healy, Alaska Range; 63° 36' 20" N, 148° 10' 00" W; (map 87). Local name obtained in 1913 by J. W. Bagley, USGS, published by Moffit (1915, pl. 1).

Louis Creek: stream, see California Creek.

Louis Lake: lake, 5 miles NE of Bucket Lake and 26 miles SW of Roundabout Mountain, Koyukuk Lowland; 65° 14' N, 157° 01' W; (map 108). Local name obtained at Huslia by USGS in 1954 or 1955.

Louisa Creek: stream, flows W 1.2 miles to Kougarok River, 18 miles S of Midnight Mountain and 45 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 31' N, 164° 42' W; BGN 1966; (map 110). Variant: Louise Creek. Prospectors' name reported in 1901 by T G. Gerdine (in Collier, 1902, pl. 12), USGS.

Louisa, Point: point of land, on E shore of Stephens Passage, 0.8 miles SW of Fairhaven and 12 miles NW of Juneau, Coast Mountains; 58° 22' 25" N, 134° 43' 30" W; (map 11). Named in 1880 by Capt. L. A. Beardslee, USN, for the great aunt of Oliver J. Vanderbilt; local miner; published by USC&GS in the 1883 Coast Pilot (p. 174).

Louise Cove: cove, 0.8 miles across, in Kakul Narrows, on NW coast of Baranof Island, 26 miles NW of Sitka, Alexander Archipelago; 57° 22' 10" N, 135° 40' 00" W; (map 9). Variant: Rodman Cove. Probably a local name, reported in 1896 by Lt. Comdr. E. K. Moore, USN, and published in 1900 by USC&GS on Chart 8282.

Louise Cove: cove, on SE coast of Kuiu Island, trends SE 1 mile to Sumner Strait, 18 miles SW of village of Point Baker, Alexander Archipelago; 56° 11' 30" N, 133° 57' 00" W; BGN 1966; (map 6). Local name published by USC&GS in 1917 Coast Pilot (p. 126).

Louise Creek: stream, flows S 1.5 miles to Lignite Creek, 5 miles NE of Healy, Alaska Range; 63° 54' 55" N, 148° 52' 15" W; (map 87). Local name reported in 1950 by USGS.

Louise Creek: stream, see Louisa Creek.

Louise Gulch: ravine, see Lewis Gulch.

Louise Island: island, see Blackburn Island.

Louise, Lake: lake, 0.5 miles long, drains S to Buskin River, 4 miles SW of Kodiak, Kodiak Island; 57° 45' 40" N, 152° 30' 00" W; (map 34). Local name reported in 1949 by USGS.

Louise, Lake: lake, 8.5 miles long, 32 miles NW of Glennallen' Copper River Basin; 62° 20' N, 146° 32' W; (map 83). Local name reported in 1898 by Capt. E. F. Glenn (in Glenn and Abercrombie, 1889, p. 63), USGS.

Louise, Point: point of land, on the mainland, S point of entrance to Rudyerd Bay, Behm Canal, Coast Mountains; 55° 32' 42" N, 130° 52' 05" W; (map 3). Variant: Cape New Eddystone, Mys Novoeddiston, New Eddystone Point. Name published in 1899 by USC&GS; originally named "New Eddystone Point" by Capt. George Vancouver, RN, August 9, 1793, "for a supposed resemblance to Eddystone [lighthouse off the coast of Cornwall] in England * *" (Wagner, 1937, p. 399-400).

Louisville Creek: stream, flows NW 3 miles to Igloo Creek which flows to American River 35 miles NE of Teller, Seward Peninsula Highlands; 65 29' N, 165° 16' W; (map 111). Prospectors, name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Loups, Ile aux: island chain, see Kudobin Islands.

Loups, L' ile aux: island, see Kritskoi Island.

Louse Creek: stream, flows N 2.2 miles to Bluff Cove through Middle Pass, Kiska Island, Aleutian Islands; 51° 59' N, 177° 29' E; (map 14). Variant: Swallow Creek. An arbitrary name beginning with "L" to correspond to "L" grid used by U.S. Army for tactical purposes during World War II; published on a 1953 AMS map. Variant published on a 1943 USAAF map.

Lousy Creek: stream, flows N 2 miles to Middle Fork Fortymile River, 45 miles SW of Eagle, Yukon-Tanana Highlands; 64° 27' 45" N, 142° 31' 50" W; (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Lousy Hill: mountain, 1,300 ft., center of Kiska Island, Aleutian Islands; 51° 57' 33" N, 177° 28' 22" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Love Lakes: lakes, 0.2 miles across, center of Kiska Island, Aleutian Islands; 51° 56' 37" N, 177° 24' 55" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Lovelace Creek: stream, flows NW 5.5 miles to Keku Strait, on SW coast of Kupreanof Island, 14 miles N of Point Baker, Alexander Archipelago; 56° 33' 15" N, 133° 39' 20" W; (map 6). Local name recorded in 1960 by USGS.

Lovers Cove: bay, 0.2 miles across, on N shore of Big Port Walker, 10 miles N of village of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 23' 20" N, 134° 43' 00" W; (map 6). Local fishermen's name reported in 1947 by USC&GS.

Low Bluff: point of land, 1.2 miles SE of Chitka Point, on N coast of Amchitka Island, Aleutian Islands; 51° 34' 52" N, 178° 59' 30" E; BGN 1937; (map 15). Name recorded by the U.S. Navy North Pacific Exploring Expedition of 1855.

Low Bluffs: bluffs, between Zapadni and Southwest Points, on SW coast of Saint Paul Island, in Pribilof Islands; 57° 09' 30" N, 170° 23' 00" W; (map 38). A local descriptive name reported in 1965 by USBF.

Low Cape: point of land, 13 miles NW of Alitak Bay, on SW coast of Kodiak Island; 56° 59' 35" N, 154° 31' 10" W; (map 32). Variant: Mys Nizmennoi, Nizmenno Point. Translation by USC&GS in 1868 of the Russian "M[ys] Nizmennoi," published by Capt. Tebenkov (1852, map 22), IRN.

Low Cape: point of land, on W shore near head of Kizhuyak Bay, on N coast of Kodiak Island; 57° 44' 30" N, 152° 52' 30" W; (map 34). Variant: Nizmennie. Baker (1906 p. 414) published this name as a translation of Sub-Lt. Mikhail Murashev's "Nizmennie," which is an error in location since Murashev's application of the name was to the E shore of the bay. See Dovolno Point.

Low Cape: point of land, see Narrow Cape.

Low Creek: stream, on Iniskin Peninsula, flows N 2 miles to Trail Creek, Aleutian Range; 59° 48' N, 153° 16' W; BGN 1962; (map 51). Local name published by USGS in 1958.

Low Creek: stream, see Trail Creek.

Low Hill: hill, 407 ft., just S of North Hill, on northcentral Saint Paul Island, in Pribilof Islands; 57° 11' 50" N, 170° 18' 30" W; (map 38). Named by Elliott (1881, Saint Paul map).

Low Island Anchorage: anchorage, 1 mile across, between Low Island and Shakmanof Point, 11 miles NW of Kodiak, on N coast of Kodiak Island; 57° 55' N, 152° 34' W; (map 34). Name derived from Low Island, published in 1943 by USC&GS.

Low Island Number One: island, see Sozavarika Island.

Low Island Number Two: island, see Let Island.

Low Island: island, 0.1 miles across, in Sitka Sound, 10 miles SW of Sitka, Alexander Archipelago; 57° 00' 40" N, 135° 36' 35" W; (map 9). Variant: Low Islets, Ostrov Nizmennoy, Ostrov Nizmynnoy. This is an 1882 translation by USC&GS of the name given in 1809 by the Russian navigator Ivan Vasiliev the first; reported by Lt. Sarichev (1826, map 19) IRN, as "O[strov] Nizmynnoy."

Low island: island, 0.5 miles long, 0.8 miles W of Entrance Point, at NW end of Narrow Strait on N coast of Kodiak Island; 57° 54' 45" N, 152° 33' 20" W; (map 34). Variant: Nizmennie,

Ostrov Nizmennyy. Translation of the descriptive name "O[strov] Nizmennyy" given in 1839 by Sub-Lt. Mikhail Murashev and published in 1849 on Russian Hydrog. Dept. Chart 1425.

Low Islets: island, see Low Island.

Low Islets: islands, group of, 0.5 miles across, in Sitka Sound, 1 mile E of Shoals Point, on Kruzof Island, 11 miles W of Sitka, Alexander Archipelago; 57° 00' 41" N, 135° 36' 30" W; (map 9). Descriptive name published by USC&GS in 1883 Coast Pilot (p. 138). They are "low rocky islets, wooded and with some rocks * * *" (U.S. Coast and Geodetic Survey, 1891, p. 168).

Low Lake: lake, 0.6 miles long, on Revillagigedo Island, in course of Fish Creek, at head of Thorne Arm, Alexander Archipelago; 55° 23' 50" N, 131° 11' 40" W; (map 3). Local name reported in 1949 by USGS.

Low Lake: lake, 0.7 miles long, between Farewell Lake and junction of South Fork Kuskokwim River and Tin Creek, 71 miles SE of McGrath, Kuskokwim Lowland; 62° 33' 00" N, 153° 36' 20" W; (map 80). Local descriptive name reported in 1958 by USGS.

Low Point: point of land, N point of entrance to Mine Harbor, on SE shore of Herendeen Bay, on Alaska Peninsula, Aleutian Range; 55° 46' 15" N, 160° 42' 00" W; (map 28). Named in 1890 by Lt. Comdr. Z. L. Tanner, USN.

Low Point: point of land, on E shore of Bay of Waterfalls, on S coast of Adak Island, Aleutian Islands; 51° 41' 20" N, 176° 50' 20" W; BGN 1936; (map 17). Descriptive name given by Lt. William Gibson, USN, commander of the schooner Fenimore Cooper, during The North Pacific Exploring Expedition in 1855.

Low Point: point of land, on E shore of Chilkoot Inlet, 2.3 miles SW of Mount Villard, 14 miles S of Skagway, Coast Mountains; 59° 15' 50" N, 135° 22' 10" W; BGN 1929; (map 45). Local descriptive name published in 1914 by USC&GS. The point is marked by Low Point Light, a white wooden house, 35 feet above high tide, built in 1915.

Low Point: point of land, on E shore of St. John Harbor, on NW coast of Zarembo Island, Alexander Archipelago; 56° 27' N, 132° 57' W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow, USN; name published in 1887 on USC&GS Chart 706.

Low Point: point of land, see Broken Point.

Low Point: point of land, see Kaslokan Point.

Low Point: rock, on W shore of Bay of Waterfalls, on SW coast of Adak Island, Aleutian Islands; 51° 41' 25" N, 176° 50' 45" W; (map 17). Descriptive name published by USC&GS in 1956 on Chart 9145.

Low Ridge: moraine, 4 miles long, 27 miles SE of Palmer, between Inner and Lower Lakes George, Chugach Mountains; 61° 18' 45" N, 148° 31' 00" W; (map 69). Descriptive name reported in 1951 by Stone (1963, p. 33).

Low Rock: rock, in Hook Arm Sea Otter Harbor, 0.1 miles S of Channel Island, on W coast of Dall Island, Alexander Archipelago; 55° 07' 30" N, 133° 09' 52" W; (map 4). Descriptive name given by USC&GS in 1924.

Lowden: locality, see Louden.

Lowe River: stream, heads in Deserted Glacier, flows W 28 miles to head of Port Valdez, 1.6 miles S of Valdez, Chugach Mountains; 61° 05' 30" N, 146° 15' 30" W; (map 68). Named by Capt. W. R. Abercrombie, USA, in 1898, for Lt. Percival G. Lowe, a member of his exploring party.

Lowe, Point: point of land, on N shore of Valdez Arm, 1 mile W of Valdez, Chugach Mountains; 61° 02' 35" N, 146° 45' 50" W; (map 68). Named by Capt. W. R. Abercrombie, USA, in 1898, for Lt. Percival G. Lowe, USA, a member of his exploring party.

Lowell Creek: stream, on Kenai Peninsula, heads between Marathon Mountain and Bear Mountain, flows E 2.5 miles to an aqueduct W of Seward, Chugach Mountains; 60° 06' 10" N, 149° 27' 00" W; (map 63). Local name published by D. H. Sleem on his map of Central Alaska dated 1910. Probably named for Capt. Lowell who, with his family, were the first white settlers in the area, arriving there in 1884.

Lowell Glacier: glacier, in Dora Keen Range; trends W 4 miles to Harvard Glacier, 46 miles NW of Valdez, Chugach Mountains; 61° 18' 30" N, 147° 37' 30" W; BGN 1930; (map 69). Named by Lawrence Martin in 1910 for Abbot Lawrence Lowell, 1856-1943, educator and president of Harvard Univ., Cambridge, Mass.

Lowell Glacier: glacier, in Kenai Mountains on Kenai Peninsula, trends NE 5 miles to head of Placer Creek, 14 miles NW of Seward, Chugach Mountains; 60° 14' 59" N, 149° 44' 30" W; BGN 1966; (map 63). Variant: Placer River Glacier. Name reported in 1915 by USGS; probably named "for Mr. Lowell the first white settler in Seward."

Lowell Glacier: glacier, trends NE 2 miles to its terminus, 3 miles SE of Carmen Lake and 5 miles N of Whittier, Chugach Mountains; 60° 51' N, 148° 41' W; (map 63). Named by USC&GS in 1915 for James Russell Lowell, 1819-91, American poet, essayist, editor, and dramatist.

Lowell Island: island, see Renard Island.

Lowell Point: point of land, at NW side of Resurrection Bay, on Kenai Peninsula, 2 miles S of Seward, Chugach Mountains; 60° 04' 15 " N, 149° 26' 00" W; BGN 1906; (map 63). Local name reported in 1905 by USC&GS.

Lowenstern, Cape: point of land, E entrance point to Shishmaref Inlet, 6 miles E of Shishmaref, Kotzebue-Kobuk Lowland; 66° 14' N, 165° 52' W; (map 112). Named in August 1816, by Lt. Otto von Kotzebue, IRN.

Lower Arm Cabin Cove: cove, 0.4 miles across, on E coast of Kagalaska Island, Aleutian Islands; 51° 49' 20" N, 176° 18' 00" W; BGN 1936; (map 17). Variant: South Arm Cabin Cove.

Descriptive name given by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

Lower Basin: valley, on lower part of Nugget Creek, 0.2 miles E of 1962 terminus of Mendenhall Glacier and 9 miles NW of Juneau, Coast Mountains; 58° 25' 30" N, 134° 30' 45" W; (map 11). Local name published by USGS (Knopf, 1912, pl. 1).

Lower Beluga Lake: lake, 3 miles long, in course of Beluga River, 20 miles NW of Tyonek, Cook Inlet Lowland; 61° 21' 30" N, 151° 21' 30" W; (map 70). Local name published in 1954 by USGS.

Lower Birch Creek Slough: stream, anabranch of Yukon River, flows SW 15 miles, 44 miles SW of Fort Yukon, Yukon Flats; 66° 27' N, 146° 50' W; (map 119). Local name obtained in 1956 by USGS.

Lower Boulder Creek: stream, flows NW 9 miles to Salcha River 9.5 miles E of that stream's junction with its North Fork and 46 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 39' N, 145° 00' W; (map 101). Local name reported in 1958 by USGS.

Lower Checats Lake: lake, 0.7 miles long, 1 mile NE of Winstanley Island in Behm Canal, 32 miles NE of Ketchikan, Coast Mountains; 55° 27' 50" N, 130° 52' 10" W; (map 3). Local name recorded in 1955 by USGS. See Checats Point.

Lower Cohoe Lake: lake, 0.8 miles long, one of the Cohoe Lakes, on W coast of Kenai Peninsula, 16 miles SW of Kenai, Cook Inlet Lowland; 60° 19' 35" N, 151° 20' 30" W; BGN 1966; (map 62). D. F. Smith, Anchorage, proposed this name in 1965 to differentiate the Cohoe Lakes.

Lower Dewey Lake: lake, 0.8 miles long, 1.4 miles W of Upper Dewey Lake and 2 miles SE of Skagway, Coast Mountains; 59° 26' 30" N, 135° 19' 00" W; (map 45). Local name obtained by USGS field personnel and published on Federal maps since 1950.

Lower Doame Lake: lake, 0.6 miles long, on Doame River, 3 miles S of Gateway Knob, in Alsek River, 62 miles SE of Yakutat, St. Elias Mountains; 59° 08' 50" N, 138° 09' 25" W; (map 46). Local name published in 1959 by USGS.

Lower Ella Lake: lake, 1 mile long, on E coast of Revillagigedo Island, in course of Ella Creek, 2 miles W of Behm Canal, Alexander Archipelago; 55° 30' 15" N, 131° 02' 55" W; (map 3). Local name reported in 1952 by USGS.

Lower Engineers Camp: locality, pop. 60, on The Alaska Railroad, on Kenai Peninsula, at E end of Turnagain Arm, Chugach Mountains; 60° 49' N, 148° 58' W; (map 63). Railroad camp reported in 1953 by USGS.

Lower Falls: falls, on Kisaralik River, 4.5 miles NW of Quicksilver Creek, 65 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 25' 30" N, 160° 05' 30" W; (map 59). Local name reported in 1949 by USGS.

Lower Fire Lake: lake, 0.4 miles long, one of the Fire Lakes, at head of Fire Creek, 15 miles NE of Anchorage, Cook Inlet Lowland; 61° 21' 20" N, 149° 32' 30" W; (map 69). Variant: Fire Lake. Local name reported in 1942 as Fire Lake by AMS.

Lower Fish Lake: lake, 1 mile long, in course of Fish Creek, 4 miles NE of Paxson, Alaska Range; 63° 05' 15" N, 145° 25' 00" W; (map 86). Name published on relatively recent maps.

Lower Fork Twelvemile Creek: stream, flows S 3 miles to Twelvemile Creek, 3 miles NNE of Twelvemile Mountain and 17 miles SW of Wiseman, Brooks Range; 67° 11' 30" N, 150° 24' 00" W; (map 124). Local name reported in 1956 by T. E. Taylor, USGS.

Lower Halfway Lake: lake, 1.2 miles long, 0.7 miles S of Gas Lake and 23 miles SE of Beaver, Yukon-Tanana Highlands; 66° 05' N, 146° 57' W; (map 119). Local descriptive name obtained in 1956 by USGS.

Lower Herring Bay: estuary, on NW coast of Knight Island, extends SW 4.5 miles to Knight Island Passage, 10 miles NE of Chenega, Chugach Mountains; 60° 22' 45" N, 147° 51' 15" W; (map 63). Local name published in 1908 by USC&GS. So named because it is south of Herring Bay.

Lower Horseshoe Lake: lake, 2 miles long, E of Big Rat Lake, 21 miles SW of Beaver, Yukon Flats; 66° 15' 30" N, 148° 09' 00" W; (map 118). Variant: Lower Horseshoe. Probably named by William Yanert, who recorded it on a 1916 manuscript map of the Yukon Flats (Stuck, 1917, map facing p. 122).

Lower Icefall: icefall, in Muldrow Glacier, NW of Mount Tatum, in Carpe Ridge, on NE slopes of Mount McKinley, Alaska Range; 63° 12' 30" N, 150° 51' 00" W; (map 88). Mountain climbers' name published in 1954 by USGS.

Lower Kalskag: village, pop. 122, on right bank of Kuskokwim River 2.2 miles SW of Kalskag and 27 miles W of Aniak, Yukon Kuskokwim Delta; 61° 30' 50" N, 160° 21' 30" W; (map 73). Variant: Kaltchagamut, Kaltkhagamute, Kaltshak. This name is listed as "Kaltkhagamute," having a population of 106, in the 10th Census, in 1880. W. S. Post, USGS, spells the name "Kaltchagamut" on his 1898 field sheet, but places the village on the right bank of a slough 1.5 miles west of the present village called "Lower Kalskag." The place shown by Post is now abandoned; the people have moved to Lower Kalskag and Kalskag. The Russian (Greek) Orthodox Church maintains a mission here which probably accounts for its separation from Kalskag.

Lower Ketchikan Lake: lake, 1.8 miles long, in course of Ketchikan Creek, 1 mile N of Ketchikan, Revillagigedo Island, Alexander Archipelago; 55° 22' 15" N, 131° 37' 30" W; BGN 1966; (map 3). Variant: Ketchikan Lake, Ketchikan Lakes, Ketchikan Lake Number One. Local name reported in 1911 as "Ketchikan Lake" by USFS.

Lower Khudsnu Bay: bay, see Whitewater Bay.

Lower Kobuk Canyon: canyon, on Kobuk River, 9 miles W of Norutak Lake, Kotzebue Kobuk Lowland; 66° 49' N, 154° 42' W; (map 116). Name published by USGS in 1956. Referred to as the "lower gorge of the Kowak" by Mendenhall (1902, p. 25).

Lower Kootznahoo Bay: bay, see Whitewater Bay.

Lower Koutsnow Bay: bay, see Whitewater Bay.

Lower Lagoon, The: bend, of Naknek River 0.6 miles wide, S of Grassy Point, on Alaska Peninsula, 15 miles SE of Naknek, Bristol Bay Lowland; 58° 39' 45" N, 156° 39' 00" W; (map 41). Descriptive name given by USGS in 1962 "because of the wide bend in the Naknek River."

Lower Lake George: lake, 2.7 miles long, 27 miles SE of Palmer, between Inner Lake George and Knik Glacier, Chugach Mountains; 61° 19' N, 148° 30' W; (map 69). Local name reported in 1951 by Stone (1963, p. 33)

Lower Lake: lake, see Dolgoi Lake.

Lower Malina Lake: lake, 1.5 miles long, 17 miles NW of Afognak, on W coast of Afognak Island; 58° 09' 30" N, 153° 08' 00" W; (map 43). Name derived from Malina Bay; published by USGS in 1952.

Lower Mountain: mountain, 5,462 ft., on N bank of Beaver Creek, 18 miles N of Pingpong Mountain and 65 miles NE of McCarthy, Alaska Range; 62° 00' N, 141° 21' W; (map 67). Local name obtained by USGS and published on maps since 1954.

Lower Mouth Birch Creek: stream, distributary, flows NW 50 miles from Birch Creek to Lower Birch Creek Slough, 39 miles SW of Fort Yukon, Yukon Flats; 66° 27' N, 146° 38' W; (map 119). Local name published in 1951 by USGS.

Lower Mouth Porcupine River: stream, distributary of Porcupine River, flows SW 6.4 miles to Yukon River, 5 miles W of Fort Yukon, Yukon Flats; 66° 34' 40" N, 145° 26' 00" W; (map 119). Local name obtained in 1956 by USGS.

Lower Niklaremut Creek: stream, flows SW 2.3 miles to Yukon River, 5 miles NW of Ruby, Kokrines-Hodzana Highlands; 64° 44' 30" N, 155° 35' 40" W; (map 98). Variant: Necklaremont River. Riverboat pilots' name shown on 1940 "Navigation Chart, Tanana-Yukon Rivers" of the Riverboat Service, U.S. Dept. of Interior.

Lower Noatak Canyon: canyon, 8 miles long, course of Noatak River through Igichuk Hills, 21 miles N of Kotzebue, Arctic Slope; 67° 14' N, 162° 33' W; (map 128). Variant: Amortak Canyon, Amortuk Canyon. Local name reported in 1956 by Orth. The Eskimo name "Amortak" means "canyon."

Lower Ohmer Lake: lake, 0.9 miles long, on Kenai Peninsula, 1 mile N of Skilak Lake and 33 miles ESE of Kenai, Chugach Mountains; 60° 27' 20" N, 150° 18' 50" W; BGN 1966; (map 62). Variant: Alcatraz Lake. Local name reported in 1966 by USGS. Named for the late Earl N. Ohmer, former chairman of the Territorial Game Commission. "Alcatraz Lake" was a local name reported in 1958 by USGS.

Lower Paradise Lake: lake, extends NE-SW 1.5 miles, at SW end of Paradise Lakes, 20 miles NE of Seward, Chugach Mountains; 60° 20' 30" N, 149° 04' 30" W; (map 63). Local name reported in 1951 by USGS.

Lower Passage: water passage, trends SE-NW 6 miles, between Knight and Disk Islands, in Prince William Sound, 40 miles SE of Whittier, Chugach Mountains; 60° 30' N, 147° 40' W; BGN 1908; (map 63). Variant: Knight Island Passage. Local name reported in 1908 by USC&GS.

Lower Ramparts: bluffs, 300 ft. high, extend 4 miles along banks of Porcupine River, 35 miles NE of Chalkyitsik, Porcupine Plateau; 66° 59' N, 142° 46' W; (map 120). Descriptive name published in 1895 by USC&GS.

Lower Ramparts: canyon, see Rampart Gorge.

Lower Ruby Creek: stream, flows SW 1.6 miles to Cache Creek, opposite Hansen Bar, 31 miles NW of Talkeetna, Alaska Range; 62° 26' 32" N, 151° 03' 00" W; (map 81). Prospectors' name reported in the 1930's by USGS.

Lower Russian Lake: lake, on Kenai Peninsula, 1.5 miles long, coursed by Russian River, 6 miles NW of Upper Russian Lake, 29 miles NW of Seward, Chugach Mountains; 60° 26' 30" N, 149° 59' 00" W; (map 63). Local name published by USGS (Martin and others, 1915, pl. 2).

Lower Silvis Lake: lake, 0.8 miles long, on Revillagigedo Island, W of George Inlet, in course of Beaver Falls Creek, Alexander Archipelago; 55° 23' 00" N, 131° 30' 30" W; (map 3). Variant: Silvis Lake. Local name reported in 1919 by USGS.

Lower Sucker Creek: stream, heads in Sucker Lake, flows SE 13 miles to Alexander Creek, 6.5 miles NW of Susitna and 33 miles NW of Anchorage, Cook Inlet Lowland; 61° 36' 50" N, 150° 39' 30" W; (map 70). Local name reported in 1958 by USGS.

Lower Summit Lake: lake, 0.5 miles long, on Kenai Peninsula, along Canyon Creek, 16 miles S of Sunrise, Chugach Mountains; 60° 39' 45" N, 149° 28' 40" W; (map 63). Local name reported about 1914 by USGS (Martin and others, 1915, pls. 2, 4).

Lower Sweetheart Lake: lake, 5 miles long, on Sweetheart Creek, 2 miles from Gilbert Bay and 38 miles ESE of Juneau, Coast Mountains; 57° 56' 45" N, 133° 38' 05" W; (map 8). Variant: Gilbert Lake, Sweetheart Lake. Local name reported in 1955 by USGS; named "Sweetheart Lake; not Gilbert Lake" in 1923 by USFS.

Lower Talarik Creek: stream, flows SSW 10 miles to Iliamna Lake 24 miles SW of Iliamna, Bristol Bay Lowland; 59° 37' 25" N, 155° 32' 00" W; (map 51). Name published in 1957 by USGS.

Lower Tangle Lake: lake, 2 miles long, one of Tangle Lakes, near head of Delta River, 16 miles NW of Paxson, Alaska Range; 63° 08' 20" N, 145° 57' 30" W; (map 86). Name published on relatively recent maps.

Lower Tazimina Lake: lake, 6 miles long, in course of Tazimina River, 10 miles E of Nondalton and 20 miles NE of Iliamna, Aleutian Range; 50° 00' N, 154° 28' W; BGN 1910; (map 51). Variant: Lower Taschemna Lake, Nohutno Lake, Nulkutno Lake, Tazhemina Lake, Taziminah Lake. Tanaina Indian name reported in 1902 as “Taziminah Lakes” by A. G. Maddren, USGS. The present spelling was shown on a 1909 fieldsheet by D.C. Witherspoon, USGS.

Lower Telida Lake: lake, 1 mile long, 52 miles NE of Medfra, Kuskokwim Lowland; 63° 25' N, 153° 14' W; (map 89). Local name derived from the village name; reported in 1958 by USGS.

Lower Tonsina: locality, 1 mile NW of junction of Tonsina River with Copper River, 64 miles NE of Valdez, Copper River Basin; 61° 39' 20” N, 144° 40' 30” W; (map 68). This probably was little more than a roadhouse; first reported by F. H. Moffit, USGS, in 1914.

Lower Trail Lake: lake, extends N 1.5 miles from head of Trail River to Upper Trail Lake, 22 miles N of Seward, Chugach Mountains; 60° 26' 30” N, 149° 21' 45” W; (map 63). Local name reported in 1951 by USGS.

Lower Ugashik Lake: lake, 11 miles across, in course of Ugashik River, S of Upper Ugashik Lake, on Alaska Peninsula, 14 miles E of Ugashik, Aleutian Range; 57° 31' N, 156° 54' W; (map 36). Variant: Ugashik Lakes. Local name reported in 1903 as “Ugashik Lakes” for both Upper and Lower Ugashik Lakes by G. C. Martin (1905, pl. 6), USGS. The name “Lower Ugashik Lake” is applied separately on 1956 USGS map.

Lower Willow Creek: stream, flows SE 7.5 miles to Casadepaga River, 18 miles NE of Solomon, Seward Peninsula Highlands; 64° 49' N, 164° 21' W; (map 95). Variant: Alert Creek, First Fork Koksuktapaga, Left Fork Casadepaga River, Willow Creek. Prospectors' name reported in 1905 by T. G. Gerdine, USGS. It was reported in 1900 as “Left Fork” by E. C. Barnard (in Brooks, 1901, pl. 17), USGS. It was shown as “Left Fork” on the lower course and as “Willow” at the head on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Lower Wolf Lake: lake, 0.7 miles long, drains into Moser Bay, on W coast of Revillagigedo Island, Alexander Archipelago; 55° 33' 30” N, 131° 37' 00” W; BGN 1962; (map 3). Local name reported in 1961 by USFS.

Lowlying Point: point of land, see Nismeni Point.

Lowpal Pass: pass, see Kiwook Pass.

Lowrie Island: island, 0.6 miles long, in Pacific Ocean, 1.2 miles N of Forrester Island, Alexander Archipelago; 54° 51' 30” N, 133° 32' 15” W; (map 1). Named in 1879 by Dall, USC&GS, for “Captain Lowrie, of the [vessel] * * * Captain Cook, in 1786, who was perhaps the first English-speaking navigator to visit [the] Queen Charlotte Islands, and possibly the first who saw this island.”

Loy Island: island, 1,700 ft. across, in Twelvemile Arm Kasaan Bay, near center of Prince of Wales Island, Alexander Archipelago; 55° 29' N, 132° 37' W; (map 4). Variant: Log Island.

Local descriptive name; reported in 1905 by E. F. Dickins, USC&GS. A loy is a long, narrow spade once used for stony soil.

Loyal Hills: mountains, 1,325 ft., center of Kiska Island, Aleutian Islands; 51° 57' 30" N, 177° 28' 46" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Loyd Hill: mountain, 1,340 ft., center of Kiska Island, Aleutian Islands; 51° 57' 53" N, 177° 28' 47" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II. Published on a 1943 Army map.

Lozi-koket: village, see Ruby.

Ltua, Mys: point of land, see Fairweather, Cape.

Ltuya Bay: bay, see Lituya Bay.

Lubbe Creek: stream, flows 3 miles W to McCarthy Creek 10 miles NE of McCarthy, Wrangell Mountains; 61° 32' 45" N, 142° 47' 10" W; (map 67). Local name obtained by USGS and published on maps since 1954.

Lucan, Point: point of land, on N tip of Althorp Peninsula, on Chichagof Island, 0.8 miles SE of Three Hill Island, 34 miles W of Hoonah, Alexander Archipelago; 58° 09' N, 136° 22' W; (map 10). Named in 1794 by Capt. George Vancouver, RN, probably for the Countess of Lucan. Lucan was also the family name of the wife of the second Earl of Spencer (Wagner 1931, P. 395). ,

Lucan, Point: point of land, see Column Point.

Lucas Island: island, 0.8 miles long, in Skilak Lake on Kenai Peninsula, 41 miles ESE of Kenai, Chugach Mountains; 60° 24' 30" N, 150° 10' 00" W; (map 62). Local name reported in 1959 by USGS.

Luce Island: island, 0.1 miles across, in Kutchuma Islands, 3 miles S of Sitka, off W coast of Baranof Island, Alexander Archipelago; 57° 00' 40" N, 135° 19' 20" W; (map 9). Named in 1880 by U.S. Navy "for Mr. Luce, USN, one of the men on the U.S.S. Jamestown at Sitka that year." The name was published by USC&GS in 1883 Coast Pilot (p. 144).

Luce Island: island, see Emgeten Island.

Luchek Mountain: mountain, 1,699 ft., on W shore of Moser Bay, on SW coast of Kodiak Island, 41 miles S of Karluk; 57° 00' 20" N, 154° 10' 00" W; BGN 1934; (map 35). Named by USC&GS in 1934 from the "Eskimo word meaning 'signal' because the summit forms a natural signal for navigation."

Lucia Glacier: glacier, heads at 60° 05' N, 140° 00' W, and trends SE and S 15 miles to 1961 terminus, 4 miles NW of Blizhni Point and 23 miles NW of Yakutat, St. Elias Mountains, 59° 52' N, 139° 53' W; (map 46). Named in 1891 for Lucia Kerr, the mother of Mark B. Kerr, USGS topographer, who accompanied Russell on his expedition to this area.

Lucia Nunatak: nunatak, 1,400 ft., in Lucia Glacier, 2 miles E of Floral Pass and 30 miles NW of Yakutat, St. Elias Mountains; 59° 58' 30" N, 139° 54' 30" W; (map 46). Named in 1906 by Tarr (1909, p. 79), USGS, for Lucia Glacier.

Lucile Creek: stream, heads in Lucile Lake, flows W 11 miles and joins Little Meadow Creek to form Meadow Creek, 22 miles W of Palmer, Cook Inlet Lowland; 61° 34' 00" N, 149° 46' 45" W; (map 69). Local name published by The Alaska Railroad on a 1918 blueprint map.

Lucile Gulch: stream, see Lucille Creek.

Lucile Lake: lake, 1.7 miles long, in Matanuska Valley, W of Wasilla, 11 miles SW of Palmer, Cook Inlet Lowland; 61° 34' 30" N, 149° 28' 30" W; (map 69). Variant: Wassillas Lake, Lucille Lake. Named in 1898 by Capt. E. F. Glenn, USA, and published by him on a map of military expeditions of the route from Knik Arm to Tanana River.

Lucille Creek: stream, flows N 0.6 miles to Livengood Creek, 3 miles NE of Livengood, Yukon-Tanana Highlands; 65° 32' 25" N, 148° 27' 10" W; (map 105). Variant: Lucile Gulch. Name originally reported in 1916 by J. B. Mertie, USGS, as Lucile Gulch (in Brooks and others, 1918, pl. 13), but local usage has applied the name to the stream as shown on recent USGS maps.

Lucille Lake: lake, see Lucile Lake.

Luck Creek: stream, flows N 7.5 miles to Luck Lake, on NE coast of Prince of Wales Island, Alexander Archipelago; 55° 55' 42" N, 132° 45' 51" W; BGN 1963; (map 4). Local name recorded in 1949 by USGS; derived from Luck Point.

Luck Lake: lake, 2 miles long, NE coast of Prince of Wales Island, Alexander Archipelago; 55° 56' N, 132° 46' W; (map 4). Local name recorded in 1949 by USGS; derived from Luck Point.

Luck Point: point of land, 2.4 miles NE of Luck Lake, on NE coast of Prince of Wales Island, Alexander Archipelago; 55° 59' N, 132° 44' W; (map 4). Named in 1886 by Lt. Comdr. A. S. Snow, USN.

Luck-Luc Creek: stream, flows SW to Noxapaga River, about 15 miles W of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name reported on a precinct map of Seward Peninsula by Monroe and Hutchins; corrected to June 1903 by Arthur Gibson. The stream cannot be precisely located on current maps.

Lucky Bay: estuary, extends SW 1.5 miles to Knight Island Passage, at SW end of Knight Island, 8.5 miles SE of Chenega, Chugach Mountains; 60° 13' 00" N, 147° 52' 15" W; (map 63). Local name reported in 1909 by USC&GS.

Lucky Chance Lakes: lakes, on Baranof Island, W of Lucky Chance Mountain, 12 miles SE of Sitka, Alexander Archipelago; 56° 57' 10" N, 135° 03' 00" W; (map 5). Local name recorded in 1951 by USGS.

Lucky Chance Mountain: mountain, 3,240 ft. on Baranof Island, 13 miles SE of Sitka, Alexander Archipelago; 56° 57' 00" N, 135° 02' 30" W; (map 5). Local name recorded in 1951 by USGS.

Lucky Cove: estuary, 0.2 miles long, on S coast of Revillagigedo Island, 3.4 miles NW of Point Alaya, Alexander Archipelago; 55° 12' 45" N, 131° 16' 00" W; (map 3). Local navigators' name obtained in 1904 by H. C. Fassett, USBF.

Lucky Creek: stream, flows NW 2 miles to Livengood Creek, 4 miles NE of Livengood, Yukon-Tanana Highlands; 65° 33' 05" N, 148° 25' 35" W; (map 105). Variant: Goodluck Creek. Name originally reported in 1916 as Goodluck Creek by J. B. Mertie (in Brooks and others, 1918, pl. 13), USGS; however, local usage has shortened it to the present form shown on recent USGS maps.

Lucky Creek: stream, flows S 2 miles to Cache Creek, between Iron and Rambler Creeks, 29 miles NW of Talkeetna, Alaska Range; 62° 29' 50" N, 150° 27' 15" W; (map 81). Prospectors' name reported in 1911 by Capps (1913, fig. 5), USGS.

Lucky Creek: stream, flows S to Sinuk River, about 39 miles NW of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Lucky Creek: stream, flows SW 1.7 miles to join Shasta Creek to form Harris Creek which flows to North Fork Kougarkok River, 5 miles NE of Harris Dome and 37 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 41' N, 164° 27' W; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Lucky Dick Creek: stream, see Lucky Ditch Creek.

Lucky Ditch Creek: stream, flows NW 1.4 miles to Grantley Harbor, 4 miles SE of Teller, Seward Peninsula Highlands; 65° 15' N, 166° 14' W; (map 111). Variant: Lucky Dick Creek. Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Lucky Dog Creek: stream, flows SW 5 miles to Pilgrim River, 18 miles W of Mount Bendeleben and 56 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 07' N, 164° 43' W; (map 110). Variant: Williams Creek. Prospectors' name reported on a map of Cape Nome sold fields by David Fox, Jr., dated 1901. Fox appears to have applied the name "Williams" to this stream and "Lucky Dog" to the next stream south.

Lucky Gulch: ravine, in Kantishna Hills, extends S 0.5 miles to Eureka Creek, 3.5 miles N of Wonder Lake, Alaska Range; 63° 32' 40" N, 150° 53' 30" W; BGN 1932; (map 88). Prospectors' name reported in 1932 by F. G. Wells and S. C. Kain, USGS.

Lucky Gulch: ravine, trends E 2 miles to Faro Creek, 25 miles N of Goodnews, Kilbuck Kuskokwim Mountains; 59° 27' 30" N, 161° 31' 00" W; (map 53). Probably a prospector's name reported in 1919 by G. L. Harrington (in Brooks, 1921, pl. 7), USGS. Gold was discovered in this area about 1900.

Lucky Gulch: ravine, trends N 5 miles to Fourth of July Creek, 33 miles NW of Eagle, Yukon-Tanana Highlands; 65° 09' 45" N, 141° 50' 00" W; (map 103). Prospectors' name reported in 1902 by Lt. Hjalmar Erickson and William Yanert, USA.

Lucky Gulch: ravine, trends NW 1 mile to Valdez Creek, 70 miles SE of Healy, Alaska Range; 63° 12' 30" N, 147° 17' 00" W; (map 87). Prospectors' name reported in 1908 by F. H. Moffit (in Brooks and others, 1909, p. 159), USGS.

Lucky Gulch: ravine, trends SE 2.5 miles to Fox I Creek, 15 miles NW of Eagle, Yukon-Tanana Highlands; 64° 57' N, 141° 34' W; (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Lucky Gulch: ravine, trends SW 3.1 miles to Monument Creek, 11 miles S of Long, Kilbuck-Kuskokwim Mountains; 64° 15' N, 155° 30' W; (map 98). Prospectors' name reported by Mertie and Harrington (1924, p. 97), USGS.

Lucky Gulch: stream, see Bullion Creek.

Lucky Hill: mountain, 5,200 ft., 70 miles SE of Healy, Alaska Range; 63° 11' 25" N, 147° 14' 50" W; (map 87). Name taken from the name of the ravine which heads on its western flank; reported in 1960 by USGS.

Lucky Point: point of land, between Finger and Sweeper Coves, on SW shore of Kuluk Bay, on NE coast of Adak Island, Aleutian Islands, 51° 51' 20" N, 176° 35' 00" W; BGN 1930; (map 17). Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934, for the survey signal Luk, located on this point.

Lucky Point: point of land, on left bank of Yukon River, S of Horseshoe Lake, 3 miles NW of Holy Cross, Innoko Lowland; 62° 14' 20" N, 159° 48' 50" W; (map 78). Local name obtained in 1952 by USGS.

Lucky Shot Landing: village, pop. 10 (1940), at junction of Grubstake and Willow Creeks, 15 miles NW of Palmer, Talkeetna Mountains; 61° 46' 30" N, 149° 24' 30" W; (map 69). Variant: Lucky Shot. Name of a mining camp reported in 1942 by AMS. A post office was established here in 1933, using just the name Lucky Shot, but was discontinued in 1942 (Ricks, 1965, p. 40). Recent USGS maps indicate an airfield and five or six buildings at this site. The name is derived from the nearby Lucky Shot mine.

Lucky Shot: village, see Lucky Shot Landing.

Lucky Six Creek: stream, flows SW 7 miles from Gull Pass to Noatak River, Brooks Range; 67° 32' N, 154° 57' W; (map 125). Variant: Kununak. Gold was discovered on this stream in 1898 and the stream was probably named at that time. The place was so inaccessible, however, that the miners spent only a few days there. Not only was the area inaccessible but it was also difficult to prospect because of lack of timber. It is reported that the planks used for sluice boxes were whipsawed by hand on the Reed River, 30 miles away, and hauled by dogs and men to the "Lucky Six." The Eskimo name for it is "Kununak," reported by Orth, USGS, in 1956 to mean "waterfall."

Lucky Strike Creek: stream, flows S 4.5 miles to Bluestone River, 11 miles SE of Teller, Seward Peninsula Highlands; 65° 08' N, 166° 09' W; (map 111). Local name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Lucy Lake: lake, 1,700 ft. long, in Matanuska Valley, 16 miles SW of Palmer, Cook Inlet Lowland; 61° 31' N, 149° 34' W; (map 69). Local name reported in 1950 by USGS.

Lucy Lake: lake, 1.6 miles long, near Eldridge Glacier terminus, 40 miles N of Talkeetna Alaska Range; 62° 53' 40" N, 149° 53' 15" W, (map 82). Local name reported in 1951 by USGS.

Lucy, Port: bay, 1 mile across, extends NE 5 miles 6 miles N of the village of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 20' N, 134° 39' W; (map 5). Named for charting purposes; name published in 1901 by USC&GS.

Ludaseska Creek: stream, flows E 1 mile to Chilkat Inlet, 3 miles NW of Glacier Point and 23 miles SW of Skagway, St. Elias Mountains, 59° 07' 45" N, 135° 27' 00" W; BGN 1922; (map 45). Variant: Hludasetzk, Kludasetsh, Tikudasetzk. "Ludaseska" is a Tlingit Indian name published in 1923 on IBC Sheet 9 (1951 atlas). The variant names are also reported to be Indian.

Ludvik Lake: lake, 0.4 miles across, on Baranof Island 9 miles N of Port Alexander, Alexander Archipelago; 56° 22' 40" N, 134° 42' 00" W; (map 5). Local name recorded in 1951 by USGS.

Luebner Lake: lake, 0.3 miles across, on Kenai Peninsula, 10 miles SW of Whittier, Chugach Mountains; 60° 45' 30" N, 148° 59' 15" W; (map 63). Local name reported in 1952 by USGS.

Lufin Point: point of land, see Manning Point

Lug Point: point of land, SE tip of Lane Ridge, between Mutt and Jeff Coves, on SE coast of Kiska Island, Aleutian Islands; 51° 56' 00" N, 177° 29' 20" E; (map 14). Variant: Walrus Point. Name shown on a 1943 AMS map; variant name shown on a 1943 USAAF map.

Luisa Creek: stream, flows SW to Coarse Gold Creek which flows to Penny River, about 8 miles N of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name shown on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904. This stream cannot be precisely located on current maps.

Lukanin Bay: bay, 1.5 miles across, between Lukanin and Tonki Points, on SE coast of Saint Paul Island, in Pribilof Islands; 57° 08' 30" N, 170° 14' 00" W; (map 38). Variant: Lukannon Bay. See Lukanin Rookery.

Lukanin Hill: hill, 90 ft., on S coast of Saint Paul Island, in Pribilof Islands; 57° 07' 40" N, 170° 15' 40" W; (map 38). Variant: Lukannon Hill. See Lukanin Rookery.

Lukanin Point: point of land, just NE of Saint Paul, on SE coast of Saint Paul Island, in Pribilof Islands; 57° 07' 50" N, 170° 15' 15" W; (map 38). Variant: Lukannon Point. See Lukanin Rookery.

Lukanin Rookery: rookery, on Lukanin Point, on S coast of Saint Paul Island, in Pribilof Islands; 57° 04' 50" N, 170° 15' 15" W; (map 38). Variant: Lukannon Rookery. Elliott (1881, p. 164) wrote "' Lukannon'; so named after one of the Russian pioneers, a sailor, who is said to have taken from St. Paul Island in 1787, over 5,000 sea-otter, aided by another promyshlenik, named Kaiekov; * * *." According to Petroff (Bancroft, 1886, p. 183) Ivan Lukanin was "the peredovchik [senior officer] with Ismailof."

Lukannon Bay: bay, see Lukanin Bay.

Lukannon Hill: hill, see Lukanin Hill.

Lukannon Point: point of land, see Lukanin Point.

Lukannon Rookery: rookery, see Lukanin Rookery.

Lukas Creek: stream, see Lumber Creek.

Luke Creek: stream, flows S 2.5 miles to Luke Lake, 16 miles W of Beaver, Yukon Flats; 66° 22' 30" N, 147° 59' 00" W; (map 118). Local name obtained in 1956 by USGS.

Luke Lake: lake, 0.7 miles across, E of Doctor Cook Lake, 16 miles W of Beaver, Yukon Flats; 66° 22' 30" N, 147° 59' 00" W; (map 118). Variant: Third Lake. Local name reported in 1956 by USGS; in 1916, William Yanert recorded the lake as "Third Lake" on a manuscript map. It was so called because the lake is third in a series of lakes.

Luke Point: point of land, between Grace Harbor and Vesta Bay on E coast of Dall Island, Alexander Archipelago; 54° 55' 45" N, 132° 53' 35" W BGN 1929; (map 1). Variant: Grace Point. Named in 1928 by USC&GS "in honor of Frank Luke, aviator in World War I, who made a brilliant record in the few weeks he served before being killed in action * * *." The name "Grace Point" was proposed for this feature in 1927 by Capt. R. S. Patton, USC&GS.

Lukeens Fort: locality, see Kolmakof.

Lukins Fort: locality, see Kolmakof.

Lukluksukwik Lake: lake, 0.9 miles across, 2.6 miles W of Seemalik Butte, 45 miles NW of Cape Mendenhall, Nunivak Island; 60° 09' N, 167° 14' W; (map 57). Eskimo name reported in 1942 by the USAAF.

Lukthlukrit Marsh: marsh, 1 mile across, 2 miles N of Kimiksthek Hill and 38 miles NW of Cape Mendenhall, Nunivak Island; 60° 09' N, 167° 00' W; (map 57). Eskimo name refers to "molting place of geese," according in 1949 to USC&GS.

Lulanna: locality, "in SE Alaska." Variant: Sul-an-na. Former Haida Indian town reported in 1836-41 by Work (cnna) (Hodge, 1907 p. 778).

Lull, Point: point of land, on E shore of Echo Cove at S tip of Catherine Island, 16 miles SW of Angoon, Alexander Archipelago; 57° 18' 00" N, 134° 48' 45" W; (map 9). Named in 1883 by

W. H. Dall, USC&GS for Capt. Phelps Lull, USN, a hydrographic inspector for USC&GS; published by USC&GS in 1883 Coast Pilot (map , p. 122).

Lulu Creek: stream, flows NW 1 mile to Allene Creek, in Agiapuk River basin, 11 miles NE of Teller, Seward Peninsula Highlands; 65° 21' N, 166° 02' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Lulu Creek: stream, flows NW 2 miles to Cleary Creek, 20 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 06' 30" N, 147° 29' 00" W; (map 105). Variant: Cora Gulch. Local name originally reported in 1909 by L. M. Prindle (in Brooks and others, 1910, fig. 4), USGS, as Cora Gulch; however, through local usage the present name was adopted and published on recent maps.

Lulu Creek: stream, see Benson Creek.

Lulu Hill: mountain, 1,275 ft., center of Kiska Island, Aleutian Islands; 51° 58' 20" N, 177° 24' 54" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Lulu Island: island, 7 miles across, between Noyes and San Fernando Islands, Alexander Archipelago; 55° 28' N, 133° 30' W; BGN 1922; (map 4). Named in 1915 by Theodore Chapin (in Brooks and others, 1916, pl. 3), USGS, for his sister.

Lumber Bay: bight, 1 mile across, on SW coast of Chignik Bay and 4 miles NE of Chignik, Aleutian Range; 56° 19' N, 158° 18' W; (map 30). Name reported in 1923 by R. H. Sargent, USGS; published in 1927 by USGS.

Lumber Bay: bight, 1.5 miles across, on S coast of Alaska Peninsula, Aleutian Range; 55° 31' 30" N, 160° 27' 00" W; (map 28). Variant: Rough Beach. Published as "Lumber Bay, or Rough Beach as it is called locally" by USC&GS in 1916 Coast Pilot (p. 165).

Lumber Cove: cove, 0.3 miles across, at S end of Lisianski Strait, on Chichagof Island, 17 miles SW of Chichagof, Alexander Archipelago; 57° 50' N, 136° 25' W; (map 9). Descriptive name given by USC&GS; published in 1925 Coast Pilot (p. 325). So named "because of the high trees in this area."

Lumber Creek: stream, flows SW 1 mile to Niukluk River, 1 mile SW of Council and 32 miles NE of Solomon, Seward Peninsula Highlands; 64° 53' N, 163° 39' W; (map 95). Variant: Lukas Creek. Prospectors' name published in 1956 by USGS; reported as "Lukas Cr." on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Lump Island: island, 0.1 miles across, in entrance to Pavlof Bay, Aleutian Range; 55° 24' 25" N, 161° 37' 40" W; (map 28). Named in 1924 by USC&GS.

Lump Mountain: mountain, 1,270 ft., 3 miles NE of Beluga Hill and 10 miles NW of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 09' N, 161° 43' W; (map 53). Descriptive name given in 1914 by USC&GS; published in 1915 on Chart 9103.

Lunatic Lake: lake, 0.5 miles across, N of Jeff Cove, center of Kiska Island, Aleutian Islands; 51° 56' 25" N, 177° 28' 15" E; (map 14). An arbitrary name beginning with "L" to correspond to "L" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Lunch Creek: stream, heads in a lake, flows SW and NW 4 miles to Clover Passage, on W coast of Revillagigedo Island, Alexander Archipelago; 55° 30' 45" N, 131° 43' 20" W; BGN 1962; (map 3). Local name reported in 1961 by USFS.

Lunch Gulch: ravine, in Peters Hills, trends SE 2.6 miles to South Fork Martin Creek, 25 miles NW of Talkeetna, Alaska Range; 62° 25' 30" N, 150° 52' 00" W; (map 81). Prospectors' name reported in the 1930's by USGS.

Lunch Lake: lake, 2 miles long, 5 miles SW of Minto, Tanana Lowland; 64° 52' N, 149° 19' W; (map 100). Local name reported in 1950 by USGS topographers.

Lung Island: island, 1 mile long, at mouth of Duncan Canal, on S coast of Kupreanof Island, 21 miles SW of Petersburg, Alexander Archipelago; 56° 30' 45" N, 133° 04' 15" W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for charting purposes; published in 1888 on USC&GS Chart 705.

Lupine River: stream, heads in Brooks Range; flows NW 45 miles to Sagavanirktok River 30 miles SW of its junction with Ivishak River, Arctic Slope; 69° 05' N, 148° 44' W; (map 140). Named about 1951 by USGS geologists.

Lure Lake: lake, 0.4 miles long, on Kenai Peninsula NW of Paddle Lake, 31 miles NE of Kenai Cook Inlet Lowland; 60° 46' 45" N, 150° 31' 20" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Lurvey Basin: valley, near head of Lurvey Creek on NW slope of Sheep Mountain, 3 miles E of Juneau, Coast Mountains; 58° 18' N, 134° 19' W; (map 11). Variant: Dix Bow Basin, Little Silver Bow Basin, Upper Silver Bow Basin. Locally named for W. L. Lurvey who mined in this valley about 1883. The miners also called it "six Bow Basin" for John Dix, one of the early miners at Juneau in 1881 (DeArmond, 1957, p. 30).

Lurvey Creek: stream, heads in glacier on NW slope of Sheep Mountain, flows 1 mile NW to Gold Creek, 2.5 miles E of Juneau, Coast Mountains; 58° 18' 35" N, 134° 19' 50" W; (map 11). Variant: Dix Creek, Dix Gulch. Locally named for W. I. Lurvey, who mined along the creek about 1883. The creek was also called "six Creek" and "six Gulch" by the miners working for John Dix (DeArmond, 1957, p. 30).

Lush Creek: stream, flows SE 25 miles to East Fork Chandalar River 30 miles W of Christian, Brooks Range; 67° 32' N, 146° 13' W; (map 122). Local name reported in 1927 by J. B. Mertie, Jr., USGS. In his notes one finds the notation "name of pike, trans[lation] of Ind[ian]."

Lush Lake: lake, 1.3 miles long, on W bank of Yukon River, 3 miles N of Rampart, 61 miles ENE of Tanana, Kokrines-Hodzana Highlands; 65° 33' N, 150° 10' W; (map 106). Local name reported in 1956 by Orth.

Lusnoi Island: island, see Liesnoi Island.

Lutak Inlet: estuary, 4.5 miles long, trends NW from head of Chilkoot Inlet to outlet of Chilkoot Lake, 0.5 miles S of Chilkoot and 13 miles SW of Skagway, Coast Mountains; 59° 17' 15" N, 135° 22' 30" W; (map 45). Variant: Klutak Inlet, West Arm Chilkoot Inlet. Tlingit Indian name published in 1923 on IBC Sheet 9 (1951 atlas).

Luther Creek: stream, flows E 6.5 miles to American River, 31 miles NE of Teller, Seward Peninsula Highlands; 65° 36' N, 165° 39' W; (map 111). Prospectors' name reported on a map by George M. Ashford dated August 1907.

Lutke, Cape: point of land, on S central coast of Unimak Island, Aleutian Islands; 54° 29' 10" N, 164° 20' 15" W; (map 24). Variant: Cape Promontory, Mys Sivuchiy, Sealion Cape, Siuchi. Named by the Russian Hydrog. Dept. (1847, chart 1379) for Capt. Feodor Petrovitch Lutke who, in command of the corvette Seniavine, named many features in the Aleutian Islands while on a voyage around the world in 1826-29, and published an account of the voyage in 1836 which was used quite extensively in the preparation of this dictionary. This point was called M[ys] Sivuchiy meaning "sealion cape" by Capt. Tebenkov (1852, map 26) and Cape Promontory by USBF in 1888.

Lyakh, Mys: point of land, see Liakik, Cape.

Lyakhik, Mys: point of land, see Liakik, Cape.

Lyakhik, Zaliv: bay, see Three Saints Bay.

Lydick Creek: stream, heads in Robinson Mountains and flows SW 2.5 miles to Gulf of Alaska, 4.5 miles NW of Icy Cape and 79 miles NW of Yakutat, Malaspina Coastal Plain; 59° 59' 20" N, 141° 48' 20" W; (map 47). Local name published in 1945 by USGS.

Lydick Slough: stream, flows SW 2 miles to Eyak River, 4 miles SE of Cordova, Malaspina Coastal Plain; 60° 30' 15" N, 145° 40' 00" W; (map 64). Local name published in 1951 by USGS.

Lydonia Island: island, 0.7 miles long, 4 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 42' 40" N, 136° 10' 00" W, BGN 1926; (map 9). Named in 1926 by USC&GS for the USC&GS steamer Lydonia, which anchored near the foot of Mount Lydonia, just northwest of the island, a few years before.

Lydonia, Mount: mountain, 3,262 ft., 4.5 miles NNW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 43' 45" N, 136° 08' 00" W; BGN 1920; (map 9). Named in 1920 by the USC&GS for the U.S.S. Lydonia, a USC&GS vessel, which was used in a reconnaissance of this region about this time.

Lydonia, Point: point of land, N point of entrance to Black Bay, 4 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 42' 35" N, 136° 09' 15" W; BGN 1926; (map 9). Named in 1926 by USC&GS. See Mount Lydonia and Lydonia Island.

Lyee-Ighit Cliff: cliff, 4 miles SW of Savoonga, Koomlangeelkuk Bay, N coast of St. Lawrence Island; 63° 40' N, 170° 36' W; (map 93). Eskimo name reported in 1932 by O. W. Geist, Univ. of Alaska.

Lydam Rock: rock, see Lyman Rock.

Lyman Anchorage: anchorage, 1.2 miles across, on E coast of Prince of Wales Island, between Figgins and Lyman Points, on Kasaan Peninsula, Alexander Archipelago; 55° 33' N, 132° 17' W; (map 4). Variant: Port Hadley. Named in 1901 by USC&GS for "Charles Lyman, second watch officer of the Coast Survey steamer Gedney, engaged in Coast Pilot work in 1900."

Lyman Creek: stream, see Sockeye Falls.

Lyman Point: point of land, on E coast of Prince of Wales Island, E point of entrance to Lyman Anchorage on Kasaan Peninsula, Alexander Archipelago; 55° 32' 30" N, 132° 16' 35" W; (map 4). Named and described in the 1901 Alaska Coast Pilot (p. 84).

Lyman Rock: rock, in Lyman Anchorage, on E coast of Prince of Wales Island, on Kasaan Peninsula Alexander Archipelago; 55° 32' 25" N, 132° 17' 25" W, (map 4). Variant: Lydam Rock. Named and described in the 1901 Alaska Coast Pilot (p. 84).

Lynch, Cape: point of land, S of Cone Bay, on NW coast of Heceta Island, Alexander Archipelago; 55° 47' N, 133° 42' W; (map 4). Local navigators' name recorded by Lt. Comdr. H. E. Nichols (U.S. Coast and Geodetic Survey, 1891, p. 122) USN.

Lynden Creek: stream, flows W 2.4 miles to Herendeen Bay, 14 miles SW of Village of Port Moller near SW end of Alaska Peninsula, Aleutian Range; 55° 49' N, 160° 45' W; (map 28). Name shown on 1963 USC&GS chart.

Lynn Brothers: islands, in chain about 3.5 miles long, on W side of Lynn Canal in St. James Bay, 35 miles NW of Juneau, St. Elias Mountains; 58° 36' 30" N, 135° 12' 00" W; (map 11). Variant: Brothers, The Brothers. Named "The Brothers" in 1868 by Comdr. R. W. Meade, USN; published by USC&GS in the 1883 Coast Pilot (p. 195). The name was modified to Lynn Brothers in the 1891 Coast Pilot (p. 119). See Lynn Sisters.

Lynn Canal: water passage, 60 miles long, trends S from Chilkat Islands to Chatham Strait, 22 miles W of Juneau; 58° 10' N, 134° 58' W; BGN 1933; (map 11). Variant: Lynn Channel. Examined by Joseph Whidbey and named in July 1794, by Capt. Vancouver (1798, v. 3, p. 249), RN, for his birthplace, King's Lynn, Norfolk, England (Wagner, 1937, p. 395).

Lynn Channel: water passage, see Lynn Canal.

Lynn Creek: stream, flows W 1 mile to Snake River, 5 miles NW of Nome, Seward Peninsula Highlands; 64° 35' N, 165° 28' W; (map 94). Prospectors' name reported in 1899 by D. C. Witherspoon (in Schrader and Brooks, 1900, map 2), USGS.

Lynn Sisters: islands, both are 0.2 miles long, off W shore of Lynn Canal 5.5 miles S of Point Whidbey and 29 miles NW of Juneau, St. Elias Mountains; 58° 30' 00" N, 135° 07' 15" W;

(map 11). Variant: The Sisters. Named "The Sisters" in 1868 by Comdr. R. W. Meade, USN, and later modified to "Lynn Sisters." The present name was published by USC&GS in the 1883 Coast Pilot (p. 194). See Lynn Brothers.

Lynne Lake: lake, 3,300 ft. long, 2 miles S of Willow and 34 miles N of Anchorage, Cook Inlet Lowland; 61° 42' 40" N, 150° 02' 20" W; (map 70). Local name reported in 1958 by USGS.

Lynx Creek: stream, flows NE 16 miles to Hess Creek, 20 miles NE of Rampart, Yukon-Tanana Highlands; 65° 41' N, 149° 34' W; (map 105). Named by prospectors; reported in 1902 by Lt. H. Erickson, USA. The name was published by USGS (Prindle, 1905, pl. 16).

Lynx Creek: stream, flows NE 18 miles to Kantishna River, 44 miles SE of Bitshtini Mountains, Tanana Lowland; 64° 19' N, 150° 34' W; (map 99). Local name reported in 1952 by USGS.

Lynx Creek: stream, flows S 5 miles to Grant Creek 2 miles N of that stream's junction with Yukon River, 25 miles W of Tanana, Kokrines-Hodzana Highlands; 65° 13' 15" N, 152° 56' 00" W; (map 106). Prospectors' name reported in 1911 by H. M. Eakin, USGS.

Lynx Creek: stream, flows SW 1 mile to Nenana River, 1.4 miles E of village of McKinley Park, Alaska Range; 63° 43' 58" N, 148° 52' 20" W BGN 1965; (map 87). Named in 1965 by the Alaska Dept. of Highways for the "many lynx which live in the area." See Iceworm Gulch.

Lynx Creek: stream, flows SW 2 miles to Kogoluktuk River, 13 miles NE of Shungnak, Brooks Range; 66° 58' N, 156° 44' W; (map 115). Prospectors' name reported by USGS after 1940.

Lynx Creek: stream, flows SW 2 miles to McAdam Creek, 40 miles SE of Nenana, Alaska Range; 64° 02' 10" N, 148° 40' 45" W; (map 100). Prospectors' name reported in 1950 by USGS topographers.

Lynx Creek: stream, heads in Kuskokwim Mountains, flows SSE 12 miles to North Fork Kuskokwim River, 11 miles W of village of Lake Minchumina, Kuskokwim Lowland; 63° 52' 05" N, 152° 50' 45" W; (map 88). Local name obtained in 1958 from Fabian Carey and "Val" Blackburn by USGS.

Lynx Creek: stream, in Teocalli Mountains, flows SE 5 miles to Tatina River, 2.5 miles E of junction with South Fork Kuskokwim River, 85 miles SE of McGrath, Alaska Range; 62° 17' 45" N, 153° 18' 20" W; (map 80). Local name obtained in 1958 by USGS.

Lynx Creek: stream, on Kenai Peninsula, flows N 3 miles to Center Creek, 14 miles SE of Sunrise, Chugach Mountains; 60° 43' 00" N, 149° 17' 35" W; (map 63). Local name published in 1899 by USGS.

Lynx Creek: stream, on Seward Peninsula, flows NW 9 miles to Lopp Lagoon, 11 miles NE of Cape Prince of Wales and 51 miles NW of Teller, Kotzebue-Kobuk Lowland; 65° 41' N, 167° 49' W; (map 111). Variant: Potato Creek. Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Lynx Dome: mountain, 1,952 ft., N of Yukon River, 27 miles WNW of Tanana, Kokrines-Hodzana Highlands; 65° 16' N, 152° 59' W; (map 106). Prospectors' name reported in 1956 by R. M. Chapman, USGS.

Lynx Lake: lake, 0.5 miles long, one of the Swanson Lakes, on Kenai Peninsula S of Birch Tree Lake, 36 miles NE of Kenai, Cook Inlet Lowland; 60° 51' 10" N, 150° 23' 55" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Lynx Lake: lake, 1.8 miles long, 6 miles S of Willow and 28 miles N of Anchorage, Cook Inlet Lowland; 61° 38' 00" N, 150° 03' 20" W; (map 70). Local name reported in 1958 by USGS.

Lynx Lake: lake, 2 miles long, S of Frog Mountains and Lake Nerka, 35 miles NW of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 30' N, 158° 53' W; BGN 1931; (map 52). Variant: Chu-du-lung. Local name published by USBF in 1929. The Eskimo name "Chu-du-lung" was used in 1910 by H. C. Fassett, USBF, and is reported to mean "a lot of trout."

Lynx Mountains: mountain, see Sawtooth Mountain

Lyon Creek: stream, on Kenai Peninsula, flows NW 5 miles to Tincan Creek, 11 miles SE of Sunrise, Chugach Mountains; 60° 46' 50" N, 149° 13' 00" W; (map 63). Local name reported in 1909 by Grant and Higgins (1913, pl. 1), USGS.

Lysistoy, Ostrov: island, see Wooded Island.

Lyskova, Mys: point of land, see Lieskof Cape.

Lysnoy, Ostrov: island, see Liesnoi Island.

Lysnoy, Ostrov: island, see Woody Island.

Lyvoy, Mys: point of land, see Left Cape.

M

M' Kay Inlet: bay, see McKay Inlet.

M' Kay Inlet: lagoon, see Fatigue Bay.

M' Ladies Mountain: peak, 8,880 ft., near head of Fels Glacier, 24 miles N of Paxson, Alaska Range; 63° 22' 35" N, 145° 25' 00" W; (map 86). Name published on relatively recent maps.

M' Leod Point: point of land, see McLeod Point.

M'Pherson Point: point of land, see McPherson Point.

Mab Island: island, 3 miles long, off E shore of Lynn Canal, 3 miles SE of Point Bridget and 30 miles NW of Juneau, Coast Mountains; 58° 38' 00" N, 134° 57' 15" W; (map 11). Named in 1800 by Lt. Comdr. H. B. Mansfield, USN, and published in 1897 by USC&GS on Chart 8302.

Mabe Gulch: ravine, trends NW 0.4 miles to Lost Creek which flows to Nome River, 6 miles NE of Nome, Seward Peninsula Highlands; 64° 33' 15" N, 165° 14' 20" W; (map 94). Prospectors' name reported on the 1903 Campion Mining and Trading Co. map by George M. Ashford.

Mabel Bay: bay, extends SE 3 miles, off Cordova Bay, on SW coast of Prince of Wales Island, E of Point Webster, Alexander Archipelago; 54° 59' 40" N, 132° 36' 30" W; (map 1). Local name published in 1924 by USC&GS Derived from Mabel Island.

Mabel Creek: stream, flows N 8 miles to Rocky Bay, 2 miles SW of Thorne Island, on N coast of Prince of Wales Island, Alexander Archipelago; 56° 02' N, 133° 04' W; (map 6). Local name reported in 1949 by USGS; derived from Mable Island.

Mabel Creek: stream, flows SE 5 miles to Mascot Creek in Noxapaga River basin, 33 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 27' N, 164° 23' W; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Mabel Island: island, 0.7 miles long, between Mabel and Cordova Bays, on SW coast of Prince of Wales Island, Alexander Archipelago; 54° 59' 30" N, 132° 35' 45" W; (map 1). Local name recorded in 1900 by E. F. Dickins, USC&GS.

Mabel Island: island, 1 mile long, in Whale Passage, between Thorne and Prince of Wales Islands 40 miles SW of Wrangell, Alexander Archipelago; 56° 03' 00" N, 133° 04' 30" W; (map 6). Local name published in 1943 by USC&GS.

Mabel, Lake: lake, see Josephine, Lake.

Mable Island: island, 0.4 miles long, in Dewey Anchorage, between Etoilin and Onslow Islands Alexander Archipelago; 55° 55' 10" N, 132° 24' 40" W, (map 4). Variant: Mable Island. Named in 1886 by Lt. Comdr. A. S. Snow USN.

Mable Island: island, see Mabel Island.

Mable, Lake: lake, see Josephine, Lake.

Mac's Pond: lake, see Ned Pond.

Macaroni Creek: stream, flows S 6.3 miles to Indian River, S of Indian Mountains, 40 miles NE of Hochandochtla Mountain, Kokrines-Hodzana Highlands; 65° 54' 15" N, 153° 46' 30" W, (map 107). Local name obtained in 1954 by USGS topographers.

Macartney, Point: point of land, between Frederick Sound and Keku Strait, on NW coast of Kupreanof Island, 38 miles SE of Angoon, Alexander Archipelago; 57° 01' 30" N, 134° 02' 50" W; (map 9). Named in 1794 by Capt. Vancouver (1798, v. 3, p. 292) for George, Earl Macartney, English Governor of the Windward Islands in the Caribbean and later Governor of Madras, India (Wagner, 1937, p. 395). It was discovered in 1794 by James Johnstone, a member of Capt. Vancouver's party.

MacColl Ridge: ridge, elev. 5,500 ft., 26 miles long, between Chitina River and Young Creek, 15 miles SE of McCarthy, St. Elias Mountains; 61° 09' N, 142° 12' W (SE end), 61° 18' N, 142° 54' W (NW end); BGN 1962; (map 67). Named in 1962 by USGS for Robert S. MacColl, 1933-61, USGS geologist, who lost his life in the Kiagna River while mapping in this area.

MacCreel Creek: stream, heads in glacier, flows SE 2.6 miles to Little Bremner River, 60 miles E of Valdez, Chugach Mountains; 61° 02' 45" N, 144° 26' 25" W; (map 68). Local name reported by Moffit (1914, pl. 1), USGS.

MacDougall Creek: stream, flows NW 4.2 miles to Kuskulana River, 17 miles SW of Mt. Blackburn and 31 miles NW of McCarthy, Wrangell Mountains; 61° 33' 45" N, 143° 50' 00" W; (map 67). Local name reported in 1912 by D. C. Witherspoon, USGS.

Machewik Mountain: hill, 730 ft., 4 miles NE of Beluga Hill and 3 miles NW of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 08' N, 161° 40' W; (map 53). Eskimo name reported in 1954 by USGS.

Machie Creek: stream, flows NE 5 miles to Fox River, 30 miles NE of Solomon, Seward Peninsula Highlands; 64° 48' N, 163° 38' W; (map 95). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Machin Island: islands, see Magoun Islands.

Mackay Inlet: bay, see McKay Inlet.

Mackay Inlet: lagoon, see Fatigue Bay.

Mackenzie Bay: estuary, see Iko Bay.

MacKenzie, Point: point of land, on S shore of Knik Arm, 3.4 miles NW of Anchorage, Cook Inlet Lowland; 61° 14' 18" N, 149° 59' 00" W; (map 69). Variant: Point Mackinzie. Named by Joseph Whidbey of Capt. Vancouver's party on May 4, 1794 for the Rt. Hon. James Stuart Mackenzie (Wagner 1937 P 395).

Mackey Creek: stream, see Fred Creek.

Mackeys Lakes: lakes, group extends 4.5 miles NW of Soldatna, on Kenai Peninsula, 10 miles E of Kenai, Cook Inlet Lowland; 60° 01' 30" N, 151° 00' 00" W; (map 62). Local name reported in 1965 by USGS.

Mackinzie, Point: point of land, see MacKenzie, Point.

Macklin Creek: stream, flows SW 6.5 miles to join Washington Creek, forms Kougarok River, 8 miles SW of Midnight Mountain and 49 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 44' N, 164° 51' W; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Macks Bay: bay, see Tanaskan Bay.

Macks Head Island: island, 300 ft. across, in Sanborn Harbor, on W coast of Nagai Island, in Shumagin Islands, Aleutian Range; 55° 07' 25" N, 160° 01' 00" W; (map 28). Variant: Mack's Head Island. Local name published in 1872 by W. H. Dall, USC&GS.

Macks Head: point of land, in Sanborn Harbor on W coast of Nagai Island, in Shumagin Islands, Aleutian Range; 55° 07' 20" N, 160° 00' 30" W; (map 28). Variant: Mack's Head. Local name shown on a USC&GS chart about 1900.

Maclaren Glacier: glacier, trends W and S 13 miles to its 1951 terminus at head of Maclaren River, 24 miles SE of Mount Hayes, Alaska Range; 63° 17' N, 146° 31' W; (map 86). Local name shown on 1910 fieldsheet by C. E. Giffin, USGS.

Maclaren River: stream, heads at Maclaren Glacier in Clearwater Mountains, flows SW 55 miles to Susitna River, 16 miles NE of junction of Oshetna River, Alaska Range; 62° 50' 15" N, 147° 07' 20" W; (map 82). Local name reported in 1909 by USGS.

MacLeod Harbor: bay, 3 miles long, on NW coast of Montague Island, 8 miles NE of Cape Cleare, 60 miles SE of Seward, Chugach Mountains; 59° 53' N, 147° 15' W; (map 49). Variant: Macleod Harbor, McLeods Harbour. Named "McLeods Harbour" in 1789 by Capt. Nathaniel Portlock (1789, pp. 260-211), for William MacLeod, one of the mates of the King George (Wagner, 1937, p. 468). Portlock was anchored here from April 24 to May 1, 1787.

Macnamara Point: point of land, on W coast of Zarembo Island, 28 miles SW of Wrangell, Alexander Archipelago; 56° 19' 50" N, 133° 03' 45" W; (map 6). Variant: McNamara Point. Named on September 1, 1793, by Capt. George Vancouver, RN, "no doubt in honor of James Macnamara, who served under Hood and was later Rear-Admiral in the RN" (Wagner, 1937, p. 395).

Macomb Plateau: plateau, 4,490 ft., at head of Dry Creek, 45 miles SE of Delta Junction, Alaska Range; 63° 36' 30" N, 144° 41' 00" W; BGN 1937; (map 86). Local name shown on a 1927 manuscript map of the "Endicott and Haley Hunting Expedition."

Macooshino: settlement, see Makushin.

MacVicar, Mount: mountain, 6,600 ft., 4 miles SE of S end of Chandler Lake and 15 miles NW of headwater of John River, Brooks Range; 68° 10' N, 152° 37' W; BGN 1959; (map 134). Named in 1958 by John M. Campbell of Yale Univ. for Donald George MacVicar who drowned in Chandler Lake while doing geologic studies in the area in 1956.

Mad Hill: hill, 315 ft., between Kilignak and Niyiklik Creeks, 8 miles E of Cape Thompson, Arctic Slope; 68° 09' 50" N, 165° 40' 35" W; BGN 1963; (map 129). Named about 1962 by personnel of Project Chariot.

Madan Bay: bay, 2 miles long, at S end of Eastern Passage, N of Wrangell Island, 12 miles SE of Wrangell, Coast Mountains; 56° 23' N, 132° 09' W; BGN 1936; (map 6). Named in 1935 by USFS; derived from Point Madan.

Madan, Point: point of land, W entrance to Madan Bay, N of Wrangell Island, 11 miles SE of Wrangell, Coast Mountains; 56° 22' 45" N, 132° 09' 45" W; (map 6). Named on August 27, 1793, by Capt. George Vancouver, RN, "possibly after Bishop Spencer Madan" (Wagner, 1937, p. 395).

Made Creek: stream, flows SW 0.6 miles to Osborn Creek, 11 miles NE of Nome, Seward Peninsula Highlands; 64° 36' 30" N, 165° 07' 30" W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Madean Peak: mountain peak, 8,190 ft., 0.8 miles SE of Tazlina Tower and 25 miles NW of Valdez, Chugach Mountains; 61° 23' 00" N, 146° 44' 30" W; BGN 1965; (map 68). Named about 1955 by L. E. Nielsen (1963, p. 135).

Madeira Creek: stream, flows W 0.3 miles to Slate Creek which flows to Pilgrim River, 25 miles NW of Solomon, Seward Peninsula Highlands; 64° 53' 00" N, 164° 49' 45" W; (map 95). Prospectors' name reported in 1908 by P. S. Smith (in Brooks and others, 1909, pl. 10), USGS.

Madhouse, The: locality, see Phoenix.

Madison Creek: stream, flows NE 8 miles to Wild River, 5 miles N of Twoday Mountain and 36 miles W of Wiseman, Brooks Range; 67° 21' 30" N, 151° 27' 30" W; BGN 1932; (map 124). Local name reported by Robert Marshall in 1932.

Madison Creek: stream, flows NE to Adams Creek which flows to Shovel Creek, W of Button Creek, 10 miles N of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name reported on a prospector's manuscript map dated 1902. This stream cannot be precisely located on current maps.

Madison Creek: stream, flows SE to Anikovik River, about 15 miles SE of Cape Prince of Wales, Seward Peninsula Highlands; (map 111). Prospectors' name shown on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This feature cannot be precisely identified on current maps.

Madison Creek: stream, heads on N slope of Madison Mountain, flows NW and SW 23 miles to Tolstoi Creek 6 miles SE of its junction with Dishna River, 26 miles NW of Ophir and 55 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 23' 40" N, 157° 07' 00" W; (map 90). Prospectors' name reported in 1907 by USGS.

Madison Gulch: ravine, heads on Mount Brynteson, trends E 0.5 miles to Glacier Creek, 9 ml. N of Nome, Seward Peninsula Highlands; 64° 38' 18" N, 165° 20' 40" W; (map 94). Variant: Mountain Gulch. Prospectors' name reported on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904. Reported as "Mt. Gull" on the 1902 "Map of the Nome and Snake River Country" by J. M. Davidson.

Madison Mountain: mountain, 1,958 ft., on W slope of Kuskokwim Mountains, at heads of Fourmile and Madison Creeks, 19 miles NW of Ophir and 47 miles NW of McGrath, Kilbuck Kuskokwim Mountains; 63° 23' N, 156° 47' W; (map 90). Prospectors' name reported in 1933 by USGS.

Madjujuinuk: locality, on E shore of Norton Sound between Cape Denbigh and Point Dexter, 14 miles NW of Shaktoolik, Nulato Hills; 64° 28' 30" N, 161° 28' 30" W; (map 96). Eskimo name for an archeological site reported in 1950 by Geddings (1964, p. 9).

Madre de Deos, Ostrov de la: island, see Madre de Dios Island.

Madre de Dios Island: island, 1.8 miles long, between Bucareli and Trocadero Bays, on W coast of Prince of Wales Island, Alexander Archipelago; 55° 23' 40" N, 133° 08' 00" W; (map 4). Variant: Isla de la Madre de Dios, Isla Madre de Dios, Ostrov de la Madre de Deos. Name "Isle de la Madre de Dios" or "Mother of God Island" was given to this island June 1, 1779, by Francisco Antonio Maurelle (Wagner, 1937, p. 395).

Madre de Dios, Isla de la: island, see Madre de Dios Island.

Madre de Dios, Isla: island, see Madre de Dios Island.

Madson Mountain: mountain, 5,269 ft., on Kenai Peninsula, 24 miles N of Seward, Chugach Mountains; 60° 27' 30" N, 149° 25' 45" W; BGN 1910; (map 63). Local name reported in 1909 by Grant and Higgins (1910, pls. 1, 2), USGS.

Mae West Lake: lake, 0.6 miles long, S of Glenn Highway, 17 miles W of Glennallen, Copper River Basin; 62° 05' 30" N, 146° 04' 30" W; (map 83). Local name published in 1964 by USGS.

Mafsorak Hill: hill, see Mafsorak Mountain.

Mafsorak Mountain: hill, see Mafsorak Hill.

Mafsorak: stream, see Mafsorak Creek.

Magaktlek Creek: stream, flows SW 10 miles to Bessie Creek, 4 3 mi. N of Goodnews, Yukon-Kuskokwim Delta; 59° 58' N, 161° 37' W; (map 53). Local Eskimo name published in 1951 by USGS.

Magazine Ridge: ridge, 2.5 miles long, N of Fort GlenN, between Teal and Thirty Three Creeks, NE coast of Umnak Island, Aleutian Islands; 53° 25' N, 167° 55' W; (map 23). Name published by Byers (1959, Pl. 41), USGS. This name is one of many given to local features during and after World War II, by U.S. military personnel.

Magdalena, Cape: point of land, N point of entrance to Port Bazan, on SW coast of Dall Island, Alexander Archipelago; 54° 50' 10" N, 133° 00' 30" W; (map 1). Variant: Cabo de Santa Maria Magdalena. According to Baker (1906, p. 421), “* * * Either this cape or Cape Muzon was named ' Cabo dc Santa Maria Magdalena' [Cape of St. Mary Magdalen] by [Juan] Perez, 1774.”

Magdalena, Isla de la: island, see Hinchinbrook Island.

Mageik Creek: stream, on Alaska Peninsula, in Katmai National Monument, heads near Katmai Pass, flows SE 10 miles to Katmai River 7 miles S of Mount Katmai, Aleutian Range; 58° 09' 10" N, 155° 01' 00" W; BGN 1924; (map 42). Named in 1916 by R. F. Griggs, National Geographic Society, probably after Mount Mageik.

Mageik Landslide: slope, along upper course of Martin Creek, on Alaska Peninsula, in Katmai National Monument, 12 miles SW of Mount Katmai, Aleutian Range; 58° 07' 30" N, 155° 12' 00" W; (map 42). Named in 1917 by R. F. Griggs, National Geographic Society, to designate this unusual slide of boulders, soil, peat, and other debris triggered by the Mount Katmai eruption.

Mageik Mountain: mountain, see Mageik, Mount.

Mageik Volcano: mountain, see Mageik, Mount.

Mageik, Mount: mountain, 7,250 ft., on Alaska Peninsula, in Katmai National Monument 11 miles SW of Mount Katmai, Aleutian Range; 58° 11' 45" N, 155° 15' 10" W; BGN 1966; (map 42). Variant: Mageik Mountain, Mageik Volcano. Native name reported in 1917 by R. F. Griggs, National Geographic Society, as Mageik Volcano (map) and as Mount Mageik (text).

Maggie Creek: stream, flows W to Agiapuk River, about 18 miles N of Teller, Seward Peninsula Highlands; (map 111). Prospectors' name reported on a precinct map of Seward Peninsula gold fields by Monroe and Hutchins, corrected up to June 1903 by Arthur Gibson. This feature cannot be precisely identified on current maps.

Maggie Creek: stream, in Rampart Mountains, flows S 3 miles to Morelock Creek, NW of Bonanza Creek, 23 miles ENE of Tanana, Kokrines-Hodzana Highlands; 65° 20' N, 151° 23' W; (map 106). Prospectors' name reported in 1911 by H. M. Eakin, USGS.

Maghi Point: point of land, see Tangent Point.

Magic Mountain: mountain, 1,260 ft., central Kiska Island, Aleutian Islands; 51° 57' 27" N, 177° 30' 18" E; (map 14). Variant: Stubble Ridge. An arbitrary name beginning with “M” to correspond to “M” grid used by U.S. Army for tactical purposes during World War II; published on a 1953 AMS map. Variant published on a 1943 USAAF map.

Magician Creek: stream, flows SW 0.5 miles to Mutt Cove, Kiska Island, Aleutian Islands; 51° 55' 52" N, 177° 30' 30" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Magician Hill: hill, 470 ft., E of Mutt Cove, Kiska Island, Aleutian Islands; 51° 56' 02" N, 177° 30' 33" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Magitchlie Creek: stream, heads on E slope of the Magitchlie Range, flows S 90 miles to Innoko River, 60 miles NW of Ophir and 60 miles NE of Holikachuck, Innoko Lowland; 63° 32' 30" N, 158° 12' 30" W; (map 90). Variant: Lonesome River. Local name obtained from Joseph Ferris in 1954 by R. E. Isto, USGS.

Magitchlie Range: mountain range, extends NS 15 miles, 39 miles SW of Nulato, Kilbuck-Kuskokwim Mountains; 64° 08' N, 158° 24' W; (map 97). Variant: Black River Mountain, Sistdlila. Ingalik Indian name reported in 1939 by USGS. It was referred to in 1935 as "Black Bear Mountain" by Frederica de Laguna.

Magnet Creek: stream, flows 2.5 miles N from N of Poss Mountain to Gold Creek, 33 miles W of Chandalar, Brooks Range; 67° 31' N, 149° 43' W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Magnet Creek: stream, flows NE 5.7 miles to Pinnell River, 14 miles NE of Imuruk Lake, Seward Peninsula Highlands; 65° 47' N, 163° 02' W BGN 1952; (map 110). Prospectors' name reported in 1903 by D. C. Witherspoon (in Moffit, 1905, pl. 2) USGS.

Magnet Creek: stream, flows S 1.3 miles to North Fork Kougarok River, 2 miles SW of Harris Dome and 42 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 36' N, 164° 37' W, (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Magnet Creek: stream, flows S 3 miles to Cache Creek, on coast of Norton Sound, 7 miles E of Solomon, Seward Peninsula Highlands; 64° 34' N, 164° 13' W; (map 95). Variant: Lillian Creek. Prospectors' name shown on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Magnet Rock: rock, in Cook Inlet, 0.5 miles W of SW end of Kenai Peninsula, 14 miles SW of Seldovia, Chugach Mountains; 59° 18' 30" N, 152° 00' 00" W; BGN 1908; (map 50). Local name published in 1908 by USC&GS.

Magnetic Island: island, 1 mile long, in Tuxedni Bay, W of Rusty Mount, 59 miles SW of Kenai, Aleutian Range; 60° 14' 30" N, 152° 51' 00" W; (map 62). Local name reported in 1958 by USGS.

Magnetic Point: point of land, E point of entrance to Union Bay, W coast of Cleveland Peninsula, Alexander Archipelago; 55° 47' 00" N, 132° 11' 15" W; (map 4). Local name published in 1943 by USC&GS.

Magnificent, Mount: mountain, 4,285 ft., 5 miles E of the village of Eagle River and 18 miles NE of Anchorage, Chugach Mountains; 61° 19' N, 149° 24' W; BGN 1959; (map 69). Variant: My Mountain. Descriptive name given in 1953 by Mrs. Ollie A. Trower of Anchorage.

Magnolia Creek: stream, flows NW to Snake River, about 31 miles NE of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Magnolia Creek: stream, flows S 5 miles to Igloo Creek which flows to American River, 32 miles NE of Teller, Seward Peninsula Highlands; 65° 28' N, 165° 22' W; (map 111). Prospectors' name reported in 1900 by Messrs. Kemp and David Fox (in Brooks, 1901, pl. 11).

Magnolia Gulch: ravine, trends SW 0.7 miles to Grouse Creek which flows to Goldbottom Creek, 15 miles N of Nome, Seward Peninsula Highlands; 64° 33' 30" N, 165° 22' 20" W; (map 94). Prospectors' name reported on the 1903 Campion Mining and Trading Co. map by George M. Ashford.

Magoffin Lake: lake, see Volkmar Lake.

Magoghyik River: stream, see Maghoweyik River.

Magot Point: point of land, E of mouth of Susitna River, 22 miles NW of Anchorage, Cook Inlet Lowland; 61° 17' N, 150° 32' W; (map 70). Local name reported in 1958 by USGS.

Magoun Islands: islands, 1.5 miles long, between Krestof and Sitka Sounds, 11 miles NW of Sitka, Alexander Archipelago; 57° 10' N, 135° 34' W; (map 9). Variant: Machin Island, Magun Island, Ostrov Magun. Named by the Russians in the 1840's for Capt. Magoun (cnna), an early trader.

Magpie Creek: stream, flows SW 1.5 miles to Elliott Creek, 2.3 miles SE of Hubbard Peak and 78 miles NE of Valdez, Wrangell Mountains; 61° 40' 05" N, 144° 11' 20" W; (map 68). Name published by USGS (Moffit and Maddren, 1909, fig. 2).

Magpie Creek: stream, see Camp Creek.

Magtok: locality, "on Agattu Island in Near Islands," Aleutian Islands Former Aleut village reported as "uninhabited" by Hodge (1907, p. 785), BAE.

Maguire Creek: stream, flows S 18 miles to Little Susitna River, 15 miles NW of Anchorage, Cook Inlet Lowland; 61° 16' 25" N, 150° 19' 00" W; (map 70). Local name reported in 1958 by USGS.

Maguire Islands: barrier islands, on Beaufort Sea coast W of Flaxman Island, extends 9 miles between Challenge and Mary Sachs Entrances, Arctic Plain; 70° 14' N, 146° 30' W; (map 151). Named in 1910 by Leffingwell (1919, p. 97) for Comdr. Rochfort Maguire, RN.

Magun, Ostrov: islands, see Magoun Islands.

Maguriak Creek: stream, heads in lake, flows N 15 miles to Kungok River, 19 miles SE of Wainwright, Arctic Plain; 70° 31' N, 159° 17' W; (map 146). Eskimo name obtained at Wainwright in 1956 by T. E. Taylor, USGS; probably means (Magurok) "it howls."

Mahid Island: island, see Maid Island.

Mahlo River: stream, heads on E slope of Bence Mountain, flows NNE 16 miles to Klutina Lake, 48 miles NE of Valdez, Chugach Mountains; 61° 44' 10" N, 145° 44' 30" W; (map 68). Named in 1898 by Capt. W. R. Abercrombie, USA, for Emil Mahlo, a member of his party.

Mahlo, Mount: mountain, 6,300 ft., 0.5 miles SE of Mount Brookfield and 17 miles N of Valdez, Chugach Mountains; 61° 21' 20" N, 146° 16' 20" W BGN 1960; (map 68). Named in 1898 for Emil Mahlo, a topographer with Capt. W. R. Abercrombie, who with F. C. Schrader, USGS, made the first topographic map of the Valdez Glacier area.

Mahon: locality, 4 miles N of Nenana, Tanana Lowland; 64° 37' N, 149° 04' W; (map 100). Railroad station name published in 1923 railway guide and on a USGS map in 1924.

Mahoney Lake: lake, 0.7 miles across, on Revillagigedo Island, on W bank of George Inlet, 7 miles NE of Ketchikan, Alexander Archipelago; 55° 25' 15" N, 131° 31' 15" W; (map 3). Local name published in 1943 by USC&GS

Mahoney Mountain: mountain, 3,350 ft., on Revillagigedo Island, between Mahoney and Up Per Silvis Lakes, 5 miles NE of Ketchikan, Alexander Archipelago; 55° 23' 50" N, 131° 32' 40" W; (map 3). Local name published in 1943 by USC&GS.

Mahtkweengak Slough: watercourse, see Mahtkwingak Slough.

Mahtkwingak Slough: watercourse, in Yukon Delta, flows N 20 miles from Kwikpak Pass to Norton Sound, 34 miles N of Kwiguk, Yukon-Kuskokwim Delta; 63° 14' N, 164° 21' W; (map 92). Variant: Mahtkweengak Slough, Malitqweengak Slough. Eskimo name reported in 1899 by G. R. Putnam, USC&GS; published in 1901 on Chart 9372.

Mahtqweengak Slough: watercourse, see Mahtkwingak Slough.

Mahutzu River: stream, see Delta Creek.

Maiachnoi Island: island, see Signal Island.

Maid Island: island, 0.7 miles long, in Necker Islands, 16 miles S of Sitka, Alexander Archipelago; 56° 50' 10" N, 135° 27' 45" W; BGN 1940; (map 5). Variant: Mahid Island, Maid Island, Ostrov Mayd. Tlingit Indian name reported in 1809 by Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Mayd" or "Maya Island."

Maid Lake: lake, 0.9 miles long, on E bank of Susitna River, 23 miles NW of Anchorage, Cook Inlet Lowland; 61° 25' 25" N, 150° 26' 40" W; (map 70). Local name reported in 1958 by USGS.

Maiden Creek: stream, flows N 1.7 miles to Spruce Creek, 3.5 miles S of Ophir and 32 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 05' 30" N, 156° 31' 30" W; (map 90). Prospectors' name reported in 1912 by H. M. Eakin, USGS.

Maiden Creek: stream, flows SE 3 miles to Salcha River 11 miles E of that stream's junction with its North Fork and 45 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 39' N, 144° 56' W; (map 101). Local name reported in 1958 by USGS.

Maiden Lake: lake, 100 ft. long, S of Kiska Harbor, on E coast of Kiska Island; Aleutian Islands; 51° 56' 50" N, 177° 35' 30" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Maiden Mountain: hill, 300 ft., on eastern Kiska Island, near South Pass, Aleutian Islands; 51° 56' 50" N, 177° 35' 45" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Maiden Pup: stream, flows W 1.5 miles to North Fork Harrison Creek, 15 miles SW of Circle Hot Springs and 42 miles SW of Circle, Yukon-Tanana Highlands; 65° 23' 20" N, 145° 07' 10" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Mail Slough: stream, an anabranch of Yukon River, flows W 16 miles, 4 miles NE of Stevens Village, Yukon Flats; 66° 03' N, 149° 00' W; (map 118). Local name obtained in 1956 by USGS.

Mailboat Cove: cove, 0.5 miles across, on S shore of Chernofski Harbor, on SW coast of Unalaska Island, Aleutian Islands; 53° 23' 35" N, 167° 32' 25" W; BGN 1940; (map 23). Variant: West Bight. Named by USC&GS in 1939 because "the mailboat on its regular calls generally anchors in this cove." The cove was first called West Bight in 1937 by a USC&GS field party.

Mailbox Creek: stream, flows S 3 miles from Twelvemile Mountain to Middle Fork Koyukuk River, 23 miles S of Wiseman, Brooks Range; 67° 06' 20" N, 150° 28' 30" W; (map 124). Variant: Branson Creek. This stream was reported as Branson Creek in 1899 by T. G. Gerdine, USGS, but in 1956 USGS reported "Mailbox Creek" to be local usage.

Main Bay: estuary, on E coast of Kenai Peninsula, extends NE 3.5 miles to Prince William Sound, 20 miles N of Chenega, Chugach Mountains; 60° 33' N, 148° 02' W; BGN 1914; (map 63). Descriptive name given in 1913 by USC&GS.

Main Creek: stream, flows S 14 miles to Amber Bay, 12 miles NW of Cape Kunmik, near S shore of Alaska Peninsula, Aleutian Range; 56° 51' N, 157° 28' W; (map 31). Local name published in 1951 by USGS.

Main Creek: stream, heads on Yuki Mountain, flows N 26 miles to Ruby Slough, 12 miles W of Ruby, Kilbuck-Kuskokwim Mountains; 64° 42' 45" N, 155° 52' 45" W; (map 98).

Prospectors' name reported in 1908 by A. G. Maddren (in Brooks and other., 1909, p. 230), USGS.

Main Lake: lake, former glacier lake in Glacier Bay National Monument, extending S 4 miles from present mouth of Berg Creek, 64 miles NW of Juneau, St. Elias Mountains; 58° 50' 00" N, 135° 45' 30" W; (map 11). Variant: Endicott Lake. Named in 1890 by H. F. Reid (1892, pl. 14) for the valley in which the lake was located. Later he changed the name to Endicott Lake for the river which drained it. Reid's map shows the lake at the terminus of Muir Glacier. Since 1900 the glacier has retreated 6 miles to the N, a condition resulting in the lake's disappearance. The name Endicott Lake is now given to a small lake 2 miles SW of the outlet of the original lake.

Main Lake: lake, see Endicott Lake.

Main Valley: lake, see Endicott Lake.

Main Valley: valley, 7 miles long, in Glacier Bay National Monument, extending N from Endicott Gap, 60 miles NW of Juneau, St. Elias Mountains; 58° 52' N, 135° 43' W; (map 11). Variant: Endicott Valley. Named in 1882 by John Muir when the valley was occupied by a branch of Muir Glacier. In 1890 H. F. Reid (1892, pl. 114) showed "Main Valley" as the ice-filled portion NW of Main Lake. Later Reid (1896, p. 86 and 90), named the entire valley "Endicott Valley" because it drained into the Endicott River. With the retreat of the Muir Glacier after 1890, the entire valley was uncovered. The northern part of the valley now drains into Muir Inlet, and the southern part drains into the Endicott River.

Main Valley: valley, see Endicott Valley.

Maioagaluk: locality, see My-og-g-a-gal-look.

Maiyumerak Creek: stream, in Baird Mountains, at N end of Maiyumerak Mountains, flows NE 8 miles to Noatak River, 55 miles NE of Noatak, Brooks Range; 67° 59' N, 161° 12' W; (map 127). Named for the mountains; reported in 1956 by Orth.

Maiyumerak Mountains: mountains, 1,000-4,000 ft., in Baird Mountains, extend W 45 miles from Nakolik River, between Eli and Noatak Rivers, 15 miles NE of Noatak, Brooks Range; 67° 50' N, 161° 27' W; (map 127). Eskimo name meaning "all the mountains are steep," obtained in 1956 at Noatak by Orth.

Major Creek: stream, 1.4 miles long, flows SE to Sargeant Cove on E coast of Kiska Island, Aleutian Islands; 51° 56' 02" N, 177° 33' 23" E; (map 14). Variant: Brandy Creek. An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II; published on a 1953 AMS map. Variant published on a 1943 USAAF map.

Major Ridge: ridge, 1 mile long, extending from Mason Hill to Kiska Harbor, Kiska Island, Aleutian Islands; 51° 57' 25" N, 177° 31' 40" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Majority Creek: stream, flowing SE 1 mile to Trout Lagoon, W of Kiska Harbor, Kiska Island, Aleutian Islands; 51° 58' 34" N, 177° 31' 25" E; (map 14). Variant: Trout Creek. An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II; published on a 1953 AMS map. Variant published on a 1943 USAAF map.

Makag' mut: locality, see Makak.

Makagamute: locality, see Makak.

Makak: locality, "on right bank of Yukon River below Anvik." Variant: Akka, Makagamute, Makag' mut, Makeymut, Makka, Makki, Manki. Former Eskimo camp or settlement reported in 1861 as "Makka" by P. Tikhmeniev. Ivan Petroff listed the name as "Makeymute" with a population of 121 in the 1880 Census, its population was 50 in 1890.

Makaka Point: point of land, at NW end of Hawkins Island, 20 miles W of Cordova, Chugach Mountains; 60° 31' 00" N, 146° 17' 20" W; (map 64). This is presumably a "native" name reported in 1898 by Capt. Abercrombie (1900 map), USA, while exploring the Copper River region.

Makaktuk Lake: lake, 1.5 miles long, in Anaktuvuk River valley, 11 miles NE of Anaktuvuk Pass, Brooks Range; 68° 17' N, 151° 32' W; (map 134). Eskimo name obtained at Anaktuvuk Pass in 1956 by T. E. Taylor, USGS.

Makarius Bay: bay, 2 miles across, on SW facing coast of Amchitka Island, Aleutian Islands, 51° 23' 15" N, 179° 12' 00" E; (map 15). Variant: Saint Makarius Bay. Name shown on a 1951 USGS map; shown as "St. Makarius Bay" on a 1955 AMS map.

Makeymut: locality, see Makak.

Makhnak, Ostrov: rock, see Black Rock.

Makhnashka, Mys: point of land, see Rocky Point.

Makhnashka, Zaliv: bay, see Monashka Bay.

Makhnashkina, Mys: point of land, see Miller Point.

Makhnati Island: island, 0.1 miles across, connected to Japonski Island, in Sitka Sound, 2 miles SW of Sitka, Alexander Archipelago; 57° 02' 25" N, 135° 23' 15" W; BGN 1932; (map 9). Variant: Liesnoi Island, Mokhnatoi Island, Moknatoi Island, Ostrov Mokhnatoy, Ostrov Mokhnatyy, Wooded Island. Russian name meaning "rough" given in 1809 by the navigator Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "Os[trov] Makhnatyy."

Makhnati Islands: islands, 0.8 miles across, near head of Whale Bay, on SW coast of Baranof Island, Alexander Archipelago; 56° 38' N, 135° 01' W; (map 5). Variant: Makhnatoi Islet, Ostrov Makhnatoy. Russian name from "mokhnatyy," meaning "rough" or "rugged," published in 1850 by the Russian American Company as "Ostrov Makhnatoy."

Makhnati Rock: rock, sunken rock SW of Makhnati Island, in Sitka Sound, 2.5 miles SW of Sitka, Alexander Archipelago; 57° 02' 10" N, 135° 23' 30" W; (map 9). Variant: Beacon Rock. Named in 1883 by USC&GS and published in the 1883 Alaska Coast Pilot (p. 141). Name was derived from Makhnati Island.

Makhnatoi Islet: islands, see Makhnati Islands.

Makhnatoy, Ostrov: islands, see Makhnati Islands.

Makingiyeeek Bay: cove, 1 mile across, between Taphook Point and base of Pungokosit Spit 19 miles SE of Gambell, N coast of St. Lawrence Island; 63° 37' N, 171° 16' W; BGN 1951; (map 93). Variant: Makiugiyuk Bay. Eskimo name reported in 1932 by O. W. Geist, Univ. of Alaska.

Makiugiyuk Bay: cove, see Makingiyeeek Bay.

Makka: locality, see Makak.

Makki: locality, see Makak.

Maknak Creek: stream, see Muknuk River.

Maknashka Bay: bay, see Monashka Bay.

Maknashkina Cape: point of land, see Miller Point.

Maknek River: stream, heads at Soomaghat Mountain, flows S 12 miles to Bering Sea, on St. Lawrence Island; 63° 08' N, 169° 24' W; BGN 1951; (map 93). Eskimo name recommended by the Gambell village council and reported in 1949 by Maj. H. B. Allen, USAF.

Maknighak, Camp: locality, Eskimo camp, on barrier beach, S of Maknik Lagoon, 20 miles SW of Northeast Cape, St. Lawrence Island, 63° 10' N, 169° 18' W; (map 93). Eskimo name reported in 1932 by O. W. Geist, Univ. of Alaska.

Maknik Lagoon: lagoon, 7 miles long, 16 miles SW of Northeast Cape, on S coast of St. Lawrence Island; 63° 11' N, 169° 15' W; BGN 1951; (map 93). Variant: Lake Cynthia. Eskimo name recommended by the Gambell village council and reported in 1949 by Maj. H. B. Allen, USAF.

Makpik Creek: stream, heads in DeLong Mountains, flows SSW 38 miles through Feniak Lake to Noatak River, 47 miles WSW of Howard Pass Brooks Range; 68° 01' 30" N, 158° 39' 00" W, (map 132). Eskimo name obtained at Noatak by Orth in 1956, and reported to mean "mouth of a small stream" or "outlet."

Makpik, Lake: lake, 1.7 miles long, NE of Aiutak Lagoon, 15 miles E of Point Hope, Arctic Slope 68° 20' N, 166° 12' W; (map 129). Variant: Lake Mukpik. Eskimo name reported in 1956 by Orth. See Makpik Creek. It was originally applied to the short stream which connects Makpik Lake to another lake to the north.

Maktak Mountain: mountain, 1,128 ft., on S bank of Ipewik River, 10 miles NE of its junction with Kukpuk River, Arctic Slope; 68° 25' N, 165° 26' W; (map 129). Eskimo name meaning “whale skin” reported in 1956 by Orth.

Makuschkin Volcano: volcano, see Makushin Volcano.

Makushi, Cape: point of land, see Makushin Point.

Makushi: bay, see Makushin Bay.

Makushin Bay: bay, 2.4 miles across, W coast of Unalaska Island, Aleutian Islands; 53° 44' N, 167° 00' W; BGN 1890; (map 23). Variant: Guba Makushinskaya, Makushi, Makushinskoi, Makyshinskaia. Russian name given by Capt. P. K. Krenitzin and Lt. M. Levashev (Coxe, 1787, p. 222). IRN, and was transliterated as “Makyshinskaia Bay” by Rev. Coxe (1787, p. 205). This name may have been taken from the Russian word “makushka,” meaning “the crown (of the head)” or “top,” possibly referring to Makushin Volcano. Lt. Sarichev (1826, map 14, dated 1792), IRN, published the name “Guba Makushinskaya,” meaning “Makushin Bay.”

Makushin Cape: point of land, see Kovrizhka Cape.

Makushin Cape: point of land, see Makushin Point.

Makushin Cape: point of land, see Point Kadin.

Makushin Point: point of land, N shore of Makushin Bay, W coast of Unalaska Island, Aleutian Islands; 53° 45' 30" N, 167° 01' 20" W; BGN 1938; (map 23). Variant: Cape Makushi, Cape Makushinck, Cape Makushinski, Makushin Cape, Mys Makushinskoy. According to Lt. Sarichev (1802, v. 2, p. 82), IRN, this name was published by the Russians as “M[ys] Makushinskoy” or “Cape Makushin.” The USBF used the generic “Point” in 1888.

Makushin Valley: valley, extends E 4.5 miles to Unalaska Bay, on NE coast of Unalaska Island, Aleutian Islands; 53° 54' 50" N, 166° 38' 20" W; (map 23). Variant: Glacier Valley. Named for Makushin Bay. Reported by George Davidson, USC&GS, in 1869; called “Glacier Valley” by W. H. Dall in 1873.

Makushin Volcano: volcano, 6,680 ft., northcentral Unalaska Island, Aleutian Islands; 53° 53' 15" N, 166° 55' 00" W; (map 23). Variant: Aigagin, Aiyagin, Ajagisch, Ayagish, Ayyagyh, Cheerful Mountain, Makuschkin Volcano, Ognedieshutshai Gora, Ognedyshushchaya Gora, Wesselow. Russian name, probably derived from the word “makushka,” meaning “the crown (of the head)” or “top,” and applied to this feature because it is the highest point on Unalaska Island. This volcano was called “Ognedyshushchaya Gora” meaning “burning mountain” by Sarichev (1826, map 14, dated 1792), IRN. Sarichev also called it “Ayyagyh” (1802, v. 2., p. 132). Rev. Coxe (1787, p. 210) wrote “there is a burning mountain here called ' Ayagish.' “ These native names are probably derived from the Aleutian word “ayaq” which, according to R. H. Geoghegan, is the name applied to Makushin Volcano on Unalaska Island. This Aleut word may possibly come from the words “aigay meaning “greater, larger,” and “kigusiq,” meaning “volcano.” Bank (1956, p. 24) reported “an old Aleut legend which told of a great battle that had occurred between the Makushin and Recesnoi, one of the volcanoes on the

next island to the west. As the legend relates, Makushin still smokes a little, resting and waiting while the other volcano is quiet, extinguished in the duel.”

Makushin: settlement, pop. 10 (1940), on N shore of Makushin Bay, on W coast of Unalaska Island, Aleutian Islands; 53° 46' 15" N, 166° 59' 05" W; (map 23). Variant: Macooshino, Makushinskoe. Named after Makushin Bay and published by Lt. Sarichev (1826, map 14), IRN, as “Makushinskoe Seleniye” meaning “Makushin village.” The location of Makushin Village on Sarichev's map is 4 miles NW of The location applied on modern maps.

Makushinck, Cape: point of land, see Makushin Point.

Makushinskaya, Guba: bay, see Makushin Bay.

Makushinski, Cape: point of land, see Makushin Point.

Makushinskoe: settlement, see Makushin.

Makushinskoi: bay, see Makushin Bay.

Makushinskoy, Mys: point of land, see Makushin Point.

Makushinskaia: bay, see Makushin Bay.

Malaia Ugalenka, Reka: stream, see Kiklukh River.

Malalolik Creek: stream, see Melatolik Creek.

Malamute Creek: ravine, see Malamute Gulch.

Malamute Fork Alatna River: stream, flows SW 35 miles to Alatna River, 6.5 miles SW of mouth of Iniakuk River, Brooks Range; 67° 02' 00" N, 153° 15' 45" W; (map 125). Variant: Mettenpherg Creek. Local name reported in 1930 by USGS.

Malamute Fork John River: stream, flows SE 40 miles to John River, W of Ninemile Hills, 37.5 miles SW of Wiseman, Brooks Range; 67° 02' 10" N, 151° 48' 45" W; (map 124). Variant: Malamute River. Local name reported in 1899 as “Malamute River” by T. G. Gerdine, USGS.

Malamute Gulch: ravine, trends S 0.8 miles to Otter Creek, 3 miles E of Flat, Kilbuck Kuskokwim Mountains; 62° 28' N, 157° 56' W; (map 79). Variant: Malamute Creek, Malamute Pup. Prospectors' name reported in 1933 by J. B. Mertie, USGS.

Malamute Pup: ravine, see Malamute Gulch.

Malamute River: stream, see Malamute Fork John River.

Malaspina Glacier: glacier, 30 miles across, heads 8 miles S of Alaska-Canada boundary, trends S 28 miles to Gulf of Alaska, 38 miles NW of Yakutat, St. Elias Mountains; 59° 42' 30" N, 140° 37' 30" W; BGN 1944; (map 46). Variant: Malaspina Plateau. Named Malaspina

Plateau in 1874 by W. H. Dall, USC&GS, who at the time did not recognize its true character because of its cover of morainal material. Named for Capt. Don Alessandro Malaspina, Italian navigator and explorer in the service of Spain, who explored the NW coast of North America in 1791. A closer approach to the glacier was made in 1880 and its true character was seen. Since then it has been known as the Malaspina Glacier (U.S. Coast and Geodetic Survey, 1883, p. 211).

Malay Creek: stream, see Maylay Creek.

Malay Hill: mountain, 1,025 ft., 0.5 miles E of Beach Cove, Kiska Island, Aleutian Islands; 51° 59' 35" N, 177° 30' 10" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Malburn Creek: stream, flows NE 7 miles to Birch Creek, 57 miles SW of Circle, Yukon Tanana Highlands; 65° 16' 30" N, 145° 32' 00" W; (map 104). Named by prospectors; reported in 1911 by USGS (Prindle, 1913, pl. 1).

Malchatna: locality, see Mulchatna.

Malchatna: stream, see Mulchatna River.

Malcolm River: stream, heads in British Mountains, 14.5 miles E of Mount Greenough, flows NE, across Alaska-Canada boundary, 56 miles to Beaufort Sea, 5.5 miles W of Herschel Island, Yukon, Canada, Arctic Plain; 69° 33' N, 139° 32' W; BGN 1953; (map 138). Variant: Firth River, Sir Pulteney Malcolm River. Named "Sir Pulteney Malcolm River" by Sir John Franklin, July 23, 1826.

Male Creek: stream, see Mule Creek.

Male Hill: hill, 843 ft., 1.3 miles W of Kiska Harbor, Kiska Island, Aleutian Islands; 51° 58' 25" N, 177° 30' 25" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Male Point: point of land, SW tip of Fillmore Island, Coast Mountains; 54° 47' 40" N, 130° 36' 55" W; (map 2). Named in 1891 by USC&GS.

Malemute Riffle: rapids, in Koyukuk River at Allakaket, Kanuti Flats; 66° 34' N, 152° 40' W; (map 117). This name was reported by Archdeacon Stuck (1917, p. 329), because the riffle is opposite Alatna, "a little village of Eskimos, or ' Malemutes' as the Indians call them, from the Kobuk [River] * * *."

Maley Roukav: bay, see Small Arm Whale Bay.

Malga Bay: bay, 0.8 miles across, on NW coast of Unalga Island, Aleutian Islands; 53° 59' 30" N, 166° 10' 40" W; (map 23). Variant: Unalga Cove. Named "Unalga Cove" by J. J. Gilbert, commander of the USC&GS steamer Pathfinder during 1900-01. Published as "Malga Bay" in the 1916 Coast Pilot (pt. 2, p. 205).

Maliard Lake: lake, see Millard Lake.

Malikfik Bay: bay, on Norton Sound, 24 miles SW of Christmas Mountain, Nulato Hills; 64° 24' N, 161° 17' W; (map 96). Variant: Malikvik Bay. Eskimo name reported about 1954 by U.S. Army Corps of Engineers.

Malikvik Bay: bay, see Malikfik Bay.

Malina Bay: bay, 4 miles across, 18 miles NW of Afognak, on W coast of Afognak Island; 58° 13' N, 153° 05' W; BGN 1913; (map 43). Variant: Alimvoak Bay. Local Russian name meaning “raspberry” reported by G. C. Martin, USGS, in 1912. The Russian American Company published the native name “Zal[iv] Alimvoak,” or “Alimvoak Bay,” for this feature in 1849.

Malina Creek: stream, heads at Upper Malina Lake, flows W 4.5 miles to Shelikof Strait, 20 miles NW of Afognak, on W coast of Afognak Island; 58° 10' 30" N, 153° 12' 45" W; (map 43). Name derived from Malina Bay; published in 1952 on a USGS map.

Malina Point: point of land, 22 miles W of Afognak, on W coast of Raspberry Island; 58° 02' 20" N, 153° 21' 45" W; BGN 1909; (map 43). Variant: Cape Malinoff, Cape Ustya, Raspberry Cape. Russian name meaning “raspberry,” given in 1909 by USC&GS. Sub-Lt. Mikhail Murashev, IRN, applied the name “M[ys] Malinovoy,” “cape raspberry,” to this feature in 1839 or 1840 and the Russian American Company called it “M[ys] Ustya,” “Cape Ustya,” in 1849. see Raspberry Cape and Ustia Point.

Malinof Island: island, see Raspberry Island.

Malinoff Island: island, see Raspberry Island.

Malinoff, Cape: point of land, see Malina Point.

Malinoff, Cape: point of land, see Raspberry Cape.

Malinovoi Strait: water passage, see Raspberry Strait.

Malinovoi: point of land, see Raspberry Cape.

Malinovski Litnik: locality, see Nunalik village.

Malinovskie lietnik: locality, see Nunalik village.

Malinovskie lietnik: point of land, see Nuniliak, Cape.

Malinovskiy Lytnik: locality, see Nunalik.

Malinovskoi, Cape: point of land, see Nuniliak, Cape.

Malka Bay: bay, 0.5 miles across, Malina Bay, 15 miles NW of Afognak, on W coast of Afognak Island, N of Kodiak Island; 58° 11' 30" N, 153° 00' 00" W; BGN 1923; (map 43).

Named by USC&GS in 1923; suggested by the Russian name meaning “bevel” for a nearby village “found on an 1849 Russian map.”

Mallard Bay: bay, see Stone Rock Bay.

Mallard Bay: cove, see Mallard Cove.

Mallard Bay: estuary, on W coast of Knight Island, extends N 1.5 miles to Drier Bay, 9 miles E of Chenega, Chugach Mountains; 60° 18' 10" N, 147° 49' 00" W; (map 63). Local name published in 1910 by USC&GS.

Mallard Bay: estuary, trends 1.6 miles to Clarence Strait, SE coast of Prince of Wales Island, Alexander Archipelago; 54° 46' 30" N, 131° 59' 30" W; (map 2). Name published by P. S. Smith (in Brooks and others, 1914, p. 82), USGS, who says “according to local usage this name correctly applies to the next bay south which is called on the charts Stone Rock Bay * * *.” See Stone Rock Bay.

Mallard Cove: cove, 0.5 miles across, on E shore of Port Snettisham, 0.4 miles W of Fannie Island and 29 miles SE of Juneau, Coast Mountains; 58° 02' 45" N, 133° 48' 10" W; BGN 1930; (map 12). Variant: Mallard Bay. Local name reported in 1921 by USFS.

Mallard Duck Bay: estuary, on S shore of Alaska Peninsula, trends NW 4 miles to head of Chignik Lagoon, 9 miles W of Chignik, Aleutian Range; 56° 16' N, 158° 37' W; (map 30). Local name reported in 1908 by W. D. Atwood, USGS.

Mallard Head: point of land, on W coast of Knight Island, on S side of Drier Bay, between Cathead Bay and Mallard Bay, 8.5 miles E of Chenega, Chugach Mountains; 60° 18' 10" N, 147° 49' 45" W; (map 63). Local name published in 1910 by USC&GS.

Mallard Lake: lake, 0.5 miles long, on Kenai Peninsula, 1 mile N of Swan Lake and 27 miles NE of Kenai, Cook Inlet Lowland; 60° 42' 45" N, 150° 32' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for the Mallard (*Anas platyrhynchos*), “the one duck most important to the human race.”

Mallard Lake: lake, 1.5 miles long, N of Big Grass Lake, 16 miles W of Beaver Yukon Flats; 66° 20' N, 147° 59' W; (map 118). Probably named by William Yanert, who recorded it on a 1916 manuscript map of the Yukon Flats (Stuck, 1917, map facing p. 122).

Mallard Rocks: rocks, see Northeast Rocks.

Malmesbury, Port: estuary, 6 miles long, on W coast of Kuiu Island, 15 miles E of Port Alexander, Alexander Archipelago; 56° 01' 30" N, 134° 16' 00" W; (map 5). Variant: Port Malmsbury. Named by Capt. George Vancouver, RN, on August 4 or 6, 1794, “no doubt in honor of James Harris, first Earl of Malmesbury” (Wagner, 1937, p. 396).

Malmsbury, Port: estuary, see Malmesbury, Port.

Maloi Krieposti: island, see Little Fort Island.

Maloi Malinovoi: island, see Little Raspberry Island.

Maloi Rukov: bay, see Small Arm Whale Bay.

Maloi Strelka: bay, see Little Branch Bay.

Maloney Creek: stream, flows NW to Goodhope River near its head, about 16 miles NW of Imurak Lake, Seward Peninsula Highlands; (map 110). Prospectors' name reported on a precinct map of Seward Peninsula by Monroe and Hutchins; corrected to June 1903 by Arthur Gibson. This stream cannot be precisely located on current maps.

Maloy Malinovoy Proliv: water passage, see Whale Passage.

Maloy Malinovoy, Proliv: water passage, see Narrow Strait.

Maloy Rukav: bay, see Small Arm Whale Bay.

Maloy Strylky, Bukhta: bay, see Little Branch Bay.

Malpelo, Bajo del: shoals, off S end of Kayak Island Name shown on a 1779 chart by Josef Camacho. It may represent a transposition of "pelo malo" meaning "bird's down" (Wagner, 1937, p. 470).

Malyy Koniushi, Ostrov: island, see Little Koniuji Island.

Malyy Vrangell, Ostrov: island, see Little Wrangell Island.

Malyy, Ostrov: island, see Little Island.

Mamagnak Mountains: hills, 500 ft., extend 4 miles at N end of Poovookpuk Mountain, 20 miles S of Gambell, St. Lawrence Island; 63° 31' N, 171° 34' W; BGN 1951; (map 93). Variant: Momaghunk Mountains. Eskimo descriptive name reported in 1965 by Orth, to mean "like breasts."

Mamalak Creek: stream, see Mamelak Creek.

Mamelak Creek: stream, heads in Igichuk Hills, and flows SE 9 miles to Noatak River, 18 miles N of Kotzebue, Kotzebue-Kobuk Lowland; 67° 10' 30" N, 162° 06' 30" W; (map 128). Variant: Mamalak Creek, Mumayluk Creek. Eskimo name meaning "stink" (mamaqtoq-it smells bad") according to USC&GS in 1950.

Mamelak Mountain: hill, 699 ft., 1.5 miles NW of junction of Noatak River and Mamelak Creek, 18 miles N of Kotzebue, Arctic Slope; 67° 10' 30" N, 162° 39' 30" W; (map 113). Variant: Mumayluk Mountain. Eskimo name, probably derived from the nearby stream, reported in 1950 by USC&GS.

Mammary Peak: peak, 6,800 ft., 3 miles NE of Avalanche Canyon between Gilkey Glacier and Matthes Glacier, and 16 miles NE of Juneau, Coast Mountains; 58° 49' 00" N, 134° 16'

00" W; (map 11). Variant: Mammary Point. Descriptive name proposed in 1964 by members of the Juneau Icefield Research Project.

Mammoth Creek: stream, flows NE 4 miles joins Porcupine Creek to form Crooked Creek, 37 miles SW of Circle, Yukon-Tanana Highlands; 65° 33' 20" N, 145° 09' 00" W; (map 104). Named by prospectors; reported in 1896 by USGS (Spurr, 1898, pl. 1). So named because fossil remains of mammoths, mastodons and several other prehistoric animals have been found near the stream.

Mammoth Creek: stream, flows SW 1.3 miles to Mastodon Creek, 20 miles NW of Ophir and 50 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 22' N, 156° 56' W; (map 90). Prospectors' name published in 1921 by USGS.

Mammoth Creek: stream, see Kiliguak Creek.

Mammoth Gulch: ravine, trends W 1 mile to Bluff Creek which flows to Arctic Creek, a tributary of Cripple River, 12 miles NW of Nome, Seward Peninsula Highlands; 64° 37' 30" N, 165° 45' 00" W; (map 94). Prospectors' name shown on the 1904 "Map of Cape Nome Precinct" by Arthur Gibson.

Mammoth House: locality, see Miller House.

Mammoth River: stream, see Kugruk River.

Mamtrellich: town, see Bethel.

Man-of-War Peak: peak, 2,800 ft., N of Frederick Sound, 1 mile W of Alaska Peak and 77 miles E of Sitka, Coast Mountains; 57° 08' 30" N, 133° 20' 15" W; (map 8). Named in 1887 by Lt. Comdr. C. M. Thomas, USN; name published in 1888 by USC&GS.

Manayagavik Slough: stream, flows W 2.3 miles to Bering Sea, 3.5 miles NW of village of Hooper Bay, Yukon-Kuskokwim Delta; 61° 34' N, 166° 11' W; (map 75). Eskimo name reported by USC&GS in 1951 to refer to the "place where fish are hooked."

Manby Stream: stream, at terminus of Malaspina Glacier, flows S 3.5 miles to Yakutat Bay, 1.5 miles W of Point Manby and 23 miles NW of Yakutat, Malaspina Coastal Plain; 59° 41' 35" N, 140° 20' 00" W; (map 46). Named in 1891 by Russell (1892, pl. 4), USGS, for Point Manby.

Manby, Cape: point of land, see Manby, Point.

Manby, Point: point of land, at mouth of Yakutat Bay, 4 miles S of Malaspina Glacier and 23 miles NW of Yakutat, Malaspina Coastal Plain; 59° 41' 30" N, 140° 18' 15" W; BGN Sixth Report; (map 46). Variant: Bolshoi Point, Cape Manby, Cape Saint Elias, Pointe de la Boussole. Named by Capt. Vancouver (1798, v. 3, p. 205), RN, for Thomas Manby, master's mate of the H.M.S. Discovery. The point is apparently identical with Pointe de la Boussole of La Perouse, 1786 (U.S. Coast and Geodetic Survey, 1883, p. 206).

Mancha Creek: stream, flows SE 30 miles across Alaska-Canada boundary to Firth River in Yukon, Canada, Brooks Range; 68° 40' N, 140° 57' W; (map 137). Name reported in 1911 by IBC survey crew.

Mandarin Hill: hill, 447 ft., 1.5 miles E of Conquer Point, Kiska Island, Aleutian Islands; 52° 00' 20" N, 177° 31' 03" E; (map 14). An arbitrary name beginning with "M" to correspond to the "M" grid used by U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Mandarin Rock: rock, at head of Zachary Bay, on N coast of Unga Island, in Shumagin Islands, Aleutian Range. Named in 1872 by W. H. Dall, USC&GS; not identified on present maps.

Manelak River: stream, see Mauneluk River.

Maneuver Hills: hill, 458 ft., 1 mile W of Salmon Lagoon, center Kiska Island, Aleutian Islands; 52° 00' 10"N, 177° 31' 20"E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Mangoak River: stream, flows NW 34 miles to Selawik Lake, 15 miles SW of Selawik, Kotzebue-Kobuk Lowland; 66° 25' N, 160° 13' W; (map 114). Variant: Mangoak. Name reported in 1886 as "Man-go-ak" by Lt. Stoney (1900, map), USN.

Mangy Hill: hill, 410 ft., E of Moron Lake, 1.5 miles E of Conquer Point, Kiska Island, Aleutian Islands; 52° 00' 27" N, 177° 31' 13" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Manhattan Arm Sea Otter Harbor: estuary, extends E 2.5 miles, off Sea Otter Harbor, on W coast of Dall Island, Alexander Archipelago; 55° 06' 30" N, 133° 11' 15"W; (map 4). Named in 1923 by USC&GS after the nearby Manhattan Copper Mine.

Manhattan Creek: stream, flows S 1.2 miles to Jeff Cove, on south-central coast of Kiska Island, Aleutian Islands; 51° 56' 18" N, 177° 28' 30" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Manhattan Lake: lake, 0.6 miles long, on W coast of Dall Island, near head of Manhattan Arm Sea Otter Harbor, Alexander Archipelago; 55° 05' 20" N, 133° 08' 30" W; (map 4). Named in 1923 by USC&GS.

Maniac Hill: mountain, 1,220 ft., center of Kiska Island, Aleutian Islands; 51° 57' 30" N, 177° 30' 35" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Manigam Kunga: stream, see Manikam Creek.

Manikam Creek: stream, flows E 1 mile to Kangnirvik Creek, 25 miles NE of Kivalina, Brooks Range; 68° 02' N, 163° 55' W; (map 130). Variant: Maniqam Kunga, Moneykam Koonga. Eskimo name reported in 1966 by E. S. Burch.

Manila Creek: stream, flows NW 7 miles to Middle Pork Fortymile River, 54 miles SW of Eagle, Yukon-Tanana Highlands; 64° 25' 20" N, 142° 45' 40" W; (map 102). Variant: Manilla Creek. Named by prospectors for Manila Bay, Philippine Islands, where the United States destroyed the Spanish fleet in 1898 at the end of the Spanish-American War. The name is shown on an 1898 manuscript map by C. A. Woodruff.

Manila Creek: stream, flows S 1 mile to Salmon Lagoon, Kiska Island, Aleutian Islands; 52° 00' 20" N, 177° 33' 00" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Manila Creek: stream, flows SE 1.8 miles to Hobson Creek, 17 miles NE of Nome, Seward Peninsula Highlands; 64° 45' N, 165° 17' W; (map 94). Variant: Manilla Creek. Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Manila Creek: stream, flows SE 1.8 miles to Solomon River, 2 miles NE of Solomon, Seward Peninsula Highlands; 64° 35' N, 164° 25' W; (map 95). Variant: Manilla Creek, Mannilla Creek. Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Manilla Creek: stream, see Manila Creek.

Maningdlik River: stream, see Maninglik River.

Maninglik River: stream, flows W 6.4 miles to Kashunuk River, 15 miles N of Kgun Lake and 58 miles W of Marshall, Yukon-Kuskokwim Delta; 61° 49' N, 163° 50' W; (map 74). Variant: Maningdlik River. Eskimo name shown on a manuscript map by "rather Delon" dated 1937.

Maniqam Kunga: stream, see Manikam Creek.

Mankakvik Creek: stream, flows SW 4 miles to Kashunuk River, W of Takonak Creek, 37 miles W of Marshall, Yukon-Kuskokwim Delta; 61° 50' 15" N, 163° 12' 45" W; (map 74). Eskimo name reported by USC&GS in 1951.

Manker Creek: stream, flows NE 20 miles to Klutina River, 1 mile SW of The Gorge and 49 miles NE of Valdez, Chugach Mountains; 61° 45' 55" N, 145° 38' 40" W; (map 68). Variant: Grayling Creek. Named in 1898 by Capt. W. R. Abercrombie, USA.

Mankomen Lake: lake, 3.7 miles long, at head of East Fork Chistochina River, 30 miles NE of Chistochina, Alaska Range; 63° 00' N, 144° 32' W; (map 83). Indian name, applied by prospectors and reported by USGS (in Mendenhall and Schrader, 1903, map).

Manley Hot Springs Dome: mountain, 2,649 ft., on Bean Ridge, 3.5 miles NW of village of Manley Hot Springs, 40 miles ESE of Tanana, Yukon-Tanana Highlands; 65° 01' 50" N, 150° 44' 30" W; BGN 1962; (map 106). Variant: Hot Springs Dome. Prospectors' name, generally

referred to locally as “Hot Springs Dome.” The name “Manley” was added to differentiate from a similarly named feature.

Manley Hot Springs: village, pop. 72, on Hot Springs Slough, 54 miles NE of the Bitzhtini Mountains, Yukon-Tanana Highlands; 65° 00' N, 150° 38' W; (map 99). Variant: Hot Springs, Baker Hot Springs. J. F. Karshner located a homestead here in 1902, about the same time the U.S. Army Signal Corps established a telegraph station nearby; the place soon became known as Baker Hot Springs after Baker Creek. In 1907 Frank Manley (Hilliard B. Knowles) built a four-story Hot Springs Resort Hotel (Sims, 1965, p. 14). The village population became 101 in 1910; 29 in 1920; 45 in 1930; 39 in 1939; and 29 in 1950. The Hot Springs post office was established in 1907; name changed to Manley Hot Springs in 1957 (Ricks, 1965, p. 27, 41).

Manleyville: locality, 1 mile E of Baranof, on E coast of Baranof Island, Alexander Archipelago; 57° 05' 35" N, 134° 48' 30" W; (map 9). This locality, shown with two cabins, was reported in 1966 by USGS.

Manna Creek: stream, on Seward Peninsula, flows NNW 7.5 miles to Lynx Creek which flows to Lopp Lagoon, 11 miles NE of Cape Prince of Wales and 50 miles NW of Teller, Kotzebue-Kobuk Lowland; 65° 41' N, 167° 47' W; (map 111). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Mannilla Creek: stream, see Manila Creek.

Manning Lake: lake, 0.1 miles across, on W end of Agattu Island at head of Miner Creek, 2.5 miles NE of Gillon Point, Aleutian Islands; 52° 25' 20" N, 173° 25' 15" W; BGN 1946; (map 13). Proposed in 1944 to honor Pfc. Ned H. Manning, USA, who was killed in action on Attu Island, May 29, 1943.

Manning Point: point of land, at mouth of Kismaliuk Bay, on SW coast of Unalaska Island, Aleutian Islands; 53° 27' 20" N, 167° 20' 00" W; BGN 1938; (map 23). Variant: Lufin Point. Named by USC&GS in 1937 for the USCG steamer Manning.

Manning Point: point of land, on coast of Beaufort Sea, 8 miles E of Barter Island, between Jago and Kaktovik Lagoons, Arctic Plain; 70° 07' N, 143° 30' W; (map 152). Variant: Manning Spit, Nanning Point, Nuwaak Point, Nuwuak Point, Point Manning. On August 4, 1826, Sir John Franklin (1828, p. 146), applied the name “Point Manning” to the E point of an island, which now is, by local usage, called “Barter Island” John Simpson's 1853 native map seems to apply the Eskimo name “Nuwaak Point [the place of barter]”; however, Leffingwell (1919, p. 94) applies the similar Eskimo name “Nuwuak” to Collinson Point, although these two names may be of entirely separate origins. Leffingwell is probably responsible for the present application of the name “Manning Point.”

Manning Rock: rock, see Manning Rocks.

Manning Rocks: rock, in Prince William Sound, 2 miles E of Bay of Isles off E coast of Knight Island, 20 miles NE of Chenega, Chugach Mountains; 60° 24' N, 147° 34' W; BGN 1966; (map 63). Variant: Manning Rock. Name reported in 1908 by USC&GS. “Named for the U.S. Revenue Cutter Manning which struck here in 1907.”

Manning Spit: point of land, see Manning Point.

Manning, Cape: promontory, 20 miles SE of Cape Etoin, on E coast of Nunivak Island; 60° 16' 30" N, 165° 40' 30" W; (map 57). Name reported about 1908 by USC&GS.

Manning, Point: island, see Barter Island.

Manokenak River: stream, see Manokinak River.

Manokinak River: stream, tributary of Kashunuk River, heads at 61° 48' N, 163° 53' W, flows SW 140 miles to Hazen Bay, Yukon-Kuskokwim Delta; 61° 08' N, 165° 12' W; BGN 1965; (map 75). Variant: Manokenak River, Manokinok River, Manopiknak River. Eskimo name reported by E. W. Nelson (1882, v. 4, p. 667) as "Manopiknak" in his text and "Manokinak" on his map. Nelson crossed this stream in December 1878.

Manokinok River: stream, see Manokinak River.

Manokotak: village, pop. 149, on left bank of Igushik River, 22 miles SW of Dillingham, Kilbuck-Kuskokwim Mountains; 58° 58' 50" N, 159° 03' 25" W; (map 40). Variant: Manokutuk. Eskimo village reported in 1948 by USC&GS. Its population was 120 in 1950; a post office was established here in 1960 (Ricks, 1965,p.41).

Manokutuk: village, see Manokotak.

Manook Creek: stream, see Minook Creek.

Manopiknak River: stream, see Manokinak River.

Mansfield Creek: stream, flows SW 31 miles to Lake Mansfield, 7 miles N of Tanacross, Yukon-Tanana Highlands; 62° 29' N, 143° 26' W; (map 85). Named by E. H. Wells, of Frank Leslie's Illustrated Newspapers, in 1890.

Mansfield Peninsula: peninsula, on N end of Admiralty Island extending from Point Retreat 23 miles S to Hawk Point, 14 miles W of Juneau, Alexander Archipelago; 58° 15' N, 134° 50' W; (map 11). Named in 1893 by USC&GS for Lt. Comdr. Henry Buckingham Mansfield, USN, 1846-1918. As commander of the USC&GS steamer Patterson, he made coast and hydrographic surveys of Alaska waters from 1889 to 1891.

Mansfield Village: village, pop. 39, S of Lake Mansfield, 6 miles NW of Tanacross, Yukon-Tanana Highlands; 63° 28' N, 143° 26' W; BGN 1944; (map 85). Variant: Mansfield. Named for the lake.

Mansfield, Cape: point of land, on Kenai Peninsula, at W end of Whidbey Bay, 20 miles SE of Seward, Chugach Mountains; 59° 57' N, 149° 01' W; BGN 1910; (map 49). Named in 1908 by U. S. Grant, USGS, for Lt. Comdr. Henry Buckingham Mansfield, USN. See sources in the Introduction.

Mansfield, Lake: lake, 3 miles long, N of Mansfield Village, 7 miles N of Tanacross, Yukon-Tanana Highlands; 63° 30' N, 143° 25' W; (map 85). Named in 1890 by E. H. Wells, of Frank Leslie's Illustrated Newspaper, for Lt. Comdr. Henry Buckingham Mansfield, USN.

Mansfield, Point: point of land, in Sitklan Passage, on N coast of Sitklan Island, Coast Mountains; 54° 45' 50" N, 130° 40' 30" W; (map 2). Named for Lt. Comdr. Henry Buckingham Mansfield, USN, who made surveys in this vicinity in 1889-91; published in 1943 by USC&GS.

Mansfield: village, see Mansfield Village.

Manslaughter Creek: stream, flows S 12 miles to Khotol River, 2 miles SE of junction of Khotol River and Ground Surface Slough, 22 miles SE of Nulato, Koyukuk Low; 64° 24' N, 158° 13' W; (map 97). Variant: Tenadziladlakatna. Appears to be a translation of an Indian name; reported in 1935 by Frederica de Laguna.

Mantalik Creek: stream, see Lake Creek.

Mantas River: stream, see Mentasta Creek.

Mantaschlano: stream, see Stony River.

Mantashtano: stream, see Stony River.

Manuilyisat Hills: hills, 960 ft., extend 5 miles on right bank of Ambler River 5 miles NNE of its junction with Kobuk River, Brooks Range; 67° 10' N, 157° 43' W; (map 126). Eskimo name reported in 1965 by Wilfried Zibell.

Manzanita Bay: estuary, extends SW 2 miles off Behm Canal, between Skirt and Wart Points, on E coast of Revillagigedo Island, Alexander Archipelago; 55° 35' N, 130° 58' W; BGN 1929; (map 3). Local name reported in 1928 by USFS to have been given for "the lighthouse tender Manzanita, detailed on the International boundary work in 1901."

Manzanita Creek: stream, 2 miles long, drains Manzanita Lake into Manzanita Bay, on E coast of Revillagigedo Island, 32 miles NE of Ketchikan, Alexander Archipelago; 55° 35' 50" N, 130° 58' 20" W; BGN 1923; (map 3). Named in 1923 by USFS.

Manzanita Island: island, 1.2 miles long, in Behm Canal, E of Wart Point on E coast of Revillagigedo Island, Alexander Archipelago; 55° 35' N, 130° 56' W; (map 3). Named in 1891 by USC&GS. See Manzanita Bay.

Manzanita Lake: lake, 6 miles long, in course of Manzanita Creek, on E coast of Revillagigedo Island, Alexander Archipelago; 55° 34' N, 131° 03' W; (map 3). Variant: Ella Lake, Lake Manzanita. Name recorded in 1926 by R. H. Sargent and F. H. Moffit (in Smith and others, 1929 pl. 5), USGS. See Manzanita Bay.

Manzanita Lake: lake, see Ella Lake.

Manzanita Peak: mountain, 2,481 ft., on E coast of Mitkof Island, 12 miles NW of Wrangell, Alexander Archipelago; 56° 35' 30" N, 132° 39' 00" W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for charting purposes; name published in 1888 on USC&GS Chart 705.

Manzoni, Lake: lake, 2.4 miles long, on mainland, S of Walker Cove, at head of Granite Creek, Alexander Archipelago; 55° 39' N, 130° 46' W; BGN 1963; (map 3). Named by the Ketchikan Chamber of Commerce and USFS in 1962 for Carl Anthony Manzoni, 1928-62, a local bush pilot who, in cooperation with USFS, helped in selecting sites and in planning multiple type recreational facilities in and adjacent to the lake, streams, and bays of the Tongass National Forest.

Map Hill: mountain, 1,227 ft., at head of Moose Creek, central Kiska Island, Aleutian Islands, 51° 57' 40" N, 177° 30' 58" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Mapsa, Lake: lake, 1 mile long, on S bank of Noatak River, 37 miles NE of Noatak, Brooks Range; 67° 57' N, 161° 57' W; (map 127). Eskimo name meaning "spleen" reported in 1956 by Orth.

Mapsorak Creek: stream, flows S 5 miles to Mapsorak Lagoon, between Mapsorak Mountain and Tinguk Ridge, 18 miles SE of Cape Thompson, Arctic Slope; 68° 02' N, 165° 20' W, BGN 1963; (map 129). Variant: Mafsorak, Mapsorrak Creek, Singdolik Creek, Singoolik Creek. Eskimo name reported in 1962 by Project Chariot personnel; named after the hill.

Mapsorak Hill: hill, 152 ft., E of Mapsorak Lagoon, 19 miles SE of Cape Thompson, Arctic Slope; 68° 02' 05" N, 165° 19' 30" W; BGN 1963; (map 129). Variant: Mafsorak Mountain, Mapsorrak Mountain, Mapsorrax Mountain, Mupsorut Hill. Eskimo descriptive name meaning "overhanging," reported in 1950 by USC&GS. See Mapsorak Mountain.

Mapsorak Lagoon: lagoon, 2 miles long, on Chukchi Sea coast, 17 miles SE of Cape Thompson, Arctic Slope; 68° 02' 11" N, 165° 22' 00" W; BGN 1963; (map 129). Variant: Mapsorrak Lagoon, Mupsorut Lagoon. Named "Mapsorrak Lagoon" in 1960 by Project Chariot personnel "for the hill." Spelling changed to conform with that of the hill."

Mapsorak Mountain: hill, 740 ft., between Kisimilok and Mapsorak Creeks, 17 miles SE of Cape Thompson, Arctic Slope; 68° 04' N, 165° 21' W; (map 129). Variant: Mafsorak Hill, Mapsorrax Mountain, Mupsorut Hill. Eskimo name reported in 1950 by USC&GS as "Mupsorut." W. O. Pruitt, Univ. of Alaska, spelled the name "Mafsorak" and gives its meaning as "overhanging." The name is derived from the low hill located just to the south.

Mapsorrak Creek: stream, see Mapsorak Creek.

Mapsorrak Lagoon: lagoon, see Mapsorak Lagoon.

Mapsorrak Mountain: hill, see Mapsorak Hill

Mapsorrax Mountain: hill, see Mapsorak Hill.

Mapsorrax Mountain: hill, see Mapsorak Mountain.

Maquinna Cove: cove, 0.2 miles across, in Glacier Bay National Monument, on Muir Inlet, 0.5 miles N of Point George and 57 miles NW of Hoonah, St. Elias Mountains; 58° 51' 45" N, 136 03' 15" W; (map 10). Named by members of the American Geographical Society's Glacier Bay Expedition of 1941 (Field, 1947, map) for the SS Princess Maquinna, which anchored there on an excursion of the Twelfth International Geological Congress in 1913.

Marabilla Island: island, 0.4 miles long, in Saint Nicholas Channel, off NW coast of Lulu Island, Alexander Archipelago; 55° 31' 00" N, 133° 32' 30" W; (map 4). Variant: Isla Maravilla, Ostrov de la Mirabilya, Ysla de la Marabilla. Spanish name given in 1779 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Isle Maravilla" or "marigold island."

Marabilla, Point: point of land, on NW coast of Lulu Island, Alexander Archipelago; 55° 30' 20" N, 133° 32' 30" W; (map 4). Variant: Mys de la Mirabilya, Punta de la Marabilla, Punta Maravilla. Spanish name given in 1779 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Punta Maravilla" or "point marigold."

Marabilla, Punta de la: point of land, see Marabilla, Point.

Marabilla, Ysla de la: island, see Marabilla Island.

Marack Lake: lake, 0.6 miles long, in course of Meadow Creek, 24 miles W of Beaver, Yukon Flats; 66° 17' 40" N, 148° 16' 00" W; (map 118). Local name obtained in 1956 by USGS.

Marathon Mountain: mountain, 4,603 ft., in Kenai Mountains, on Kenai Peninsula, 2 miles W of Seward, Chugach Mountains; 60° 07' N, 149° 30' W; (map 63). Named for the marathon races that are run on the mountain each year. The first "mountain marathon" race was run in 1915. The marathon consists of a race to the top of the mountain and back (Currier, 1966, p. 1013).

Maravilla, Isla: island, see Marabilla Island.

Maravilla, Punta: point of land, see Marabilla, Point.

Marble Bluffs: bluffs, 1,000 ft., 17 miles NW of Angoon, on W coast of Admiralty Island, Alexander Archipelago; 57° 44' 30" N, 134° 43' 20" W (map 9) , Descriptive local name published by USC&GS in the 1883 Coast Pilot (p. 179). This may be a misnomer because the USGS shows this area covered by plutonic rocks.

Marble Cliffs: cliffs, on SE side of Mount Kwiniuk, on NW coast of Norton Bay, 6 miles SW of Elim, Seward Peninsula Highlands; 64° 34' N, 162° 26' W; (map 95). Local name published in 1956 by USGS.

Marble Cove: cove, 0.1 miles across, 13 miles NW of Angoon, on W coast of Admiralty Island, Alexander Archipelago; 57° 41' 15" N, 134° 41' 50" W; (map 9). Descriptive name reported in 1919 by USGS and published by Chapin (1920, p. 50). The marble here is of "considerable scientific interest and possibly some commercial value."

Marble Creek: stream, 6 miles long, in Tongass National Forest, on Chichagof Island, heads in series of small lakes on N slope of Tarn Mountain, flows circuitously N to Idaho Inlet, Alexander Archipelago; 58° 04' 30" N, 136° 09' 00" W; BGN 1960; (map 10). Named in 1955 by Rossman (1959, map), USGS, because it flows through an area underlain by marble.

Marble Creek: stream, flows SW 4 miles to Shakan Bay, on NW coast of Prince of Wales Island, 15 miles SE of Point Baker, Alexander Archipelago; 56° 10' 30" N, 133° 28' 00" W; (map 6). Local name obtained from Capt. Cyrus Orr, of Shaken in 1904 by E. F. Dickins, USC&GS.

Marble Creek: stream, heads in glacier, on N slope of Mount Gage, flows N 5 miles to Chitina River, 68 miles NE of Cape Yakataga, Chugach Mountains; 60° 59' 10" N, 140° 42' 00" W; (map 65). Name derived from a 1915 fieldsheet by F. H. Moffit, USGS.

Marble Creek: stream, on Chichagof Island, flows W 4 miles to Black River, 4 miles NE of Chichagof, Alexander Archipelago; 57° 42' 45" N, 136° 01' 45" W; (map 9). Descriptive local name reported in 1939 by USGS. So named because "a band of white marble is exposed near its mouth."

Marble Creek: stream, on Revillagigedo Island, flows SW 5 miles to Carroll Inlet, 3 miles N of Island Point, Alexander Archipelago; 55° 29' 45" N, 131° 18' 00" W; (map 3). Local name recorded in 1915 by Theodore Chapin (in Brooks and others, 1916, fig. 6), USGS.

Marble Hill: hill, 100 ft., W of Kiska Harbor, Kiska Island, Aleutian Islands; 51° 58' 15" N, 177° 31' 55" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II, published on 1943 Army map.

Marble Island: island, 4 miles across, NE Davidson Inlet, Alexander Archipelago; 55° 58' N, 133° 27' W BGN 1906; (map 4). Variant: Fox Island. Named in 1904 by E. F. Dickins, USC&GS, "at request of President of Great American Marble Company whose quarry is on the island * * *. This island was discovered by R. L. Fox which he earlier named after himself before being surveyed."

Marble Islands: islands, two small islands, 0.3 miles and 1.6 miles across, in Glacier Bay, Glacier Bay National Monument, 45 miles NW of Hoonah, St. Elias Mountains; 58° 39' N, 136° 03' W; (map 10). Variant: Marble Islets. So named by Capt. W. E. George in 1883 "because the islands are composed largely of marble" (USC&GS, 1883, p. 189).

Marble Islet: island, 0.1 miles long, 7 miles NE of Cape Decision, in Affleck Canal, on S coast of Kuiu Island, Alexander Archipelago; 56° 06' 05" N, 134° 05' 10" W; (map 5). Descriptive name given in 1886 by Lt. Comdr. A. S. Snow, USN, "from its [geological] formation."

Marble Islets: islands, see Marble Islands.

Marble Mountain: mountain, 3,364 ft., in Glacier Bay National Monument, 0.7 miles E of Shag Cove and 48 miles NW of Hoonah, St. Elias Mountains; 58° 38' 30" N, 136° 18' 15" W; (map 10). Local name reported by USGS in 1951.

Marble Passage: water passage, 1.5 miles long, between Marble and Orr Islands, Alexander Archipelago; 55° 57' 30" N, 132° 25' 30" W; (map 4). Name published in 1914 by USC&GS.

Marble Point: point of land, E entrance to Mosman Inlet, on SW coast of Etolin Island, 29 miles S of Wrangell, Alexander Archipelago; 56° 04' 45" N, 132° 31' 45" W; BGN 1917; (map 6). Named in 1916 by USC&GS.

Marble Point: point of land, on E shore of Herendeen Bay, 16 miles SW of village of Port Moller, near SW end of Alaska Peninsula, Aleutian Range; 55° 47' 15" N, 160° 45' 00" W; (map 28). Named in 1890 by Lt. Comdr. Z. L. Tanner, USN, "because of the white marble-like appearance of the rock on the point."

Marble Point: point of land, on SW shore of Russell Fiord, 4.5 miles SE of Osier Island and 29 miles NE of Yakutat, St. Elias Mountains; 59° 56' 20" N, 139° 23' 55" W; (map 46). Descriptive name given in 1905 by Tarr (1906, map and p. 165), USGS, because of a mile-long band of white marble on the point.

Marchainville, Mount: mountain, 4,067 ft., in Glacier Bay National Monument, 2.7 miles N of Palma Bay and 62 miles NW of Hoonah, St. Elias Mountains; 58° 26' 55" N, 137° 01' 30" W; (map 10). Name published by USC&GS in 1943.

Marcia Cove: estuary, see Marsha Bay.

Marconi Slough: stream, distributary, flows SW 0.3 miles from Chena River to Tanana River, 5.5 miles SW of Fairbanks, Tanana Lowland; 64° 47' 45" N, 147° 55' 10" W; (map 100). So named for the inventor of the telegraph, Guglielmo Marconi, 1874-1937, because the Fairbanks-Nenana telegraph line followed the right bank of stream. The name is published on recent USGS maps.

Marcus Baker Glacier: glacier, heads on Mount Marcus Baker, trends W 23 miles to its terminus at head of Glacier Fork, 29 miles SE of Palmer, Chugach Mountains; 61° 27' N, 148° 17' W; (map 69). Name reported in 1960 by USGS.

Marcus Baker, Mount: mountain, 13,176 ft., at head of Knik and Matanuska Glaciers, 47 miles SE of Palmer, Chugach Mountains; 61° 26' 15" N, 147° 45' 00" W; BGN 1924; (map 69). Variant: Mount Saint Agnes. Named in 1924 by A. H. Brooks, USGS, for Marcus Baker, 1849-1903, cartographer with USC&GS and USGS.

Mardow Creek: stream, flows SE 13 miles to Kandik River, 7 miles NE of that stream's junction with Yukon River, Porcupine Plateau; 65° 26' N, 142° 19' W; (map 103). Local name published in 1956 by USGS.

Mardow Lake: lake, 1.5 miles long, 24 miles SW of Chalkyitsik, Yukon Flats; 66° 19' N, 143° 56' W; (map 120). Local name obtained in 1956 by T. E. Taylor and R. C. Foley, USGS.

Marelock Creek: stream, see Morelock Creek.

Margaret Bay: bay, 0.15 miles across, 0.6 miles NW of Unalaska, in Unalaska Bay on NE coast of Unalaska Island, Aleutian Islands; 53° 53' 02" N, 166° 32' 48" W; (map 23). Name published by USC&GS in 1965 on Chart 9008.

Margaret Creek: stream, flows SW 17 miles to Kejulik River, on Alaska Peninsula, 8 miles E of Becharof Lake and 40 miles SW of Mount Katmai, Aleutian Range; 57° 51' 10" N, 155° 44' 15" W; (map 35). Local name obtained from J. L. McPherson of Iliamna, and published by W. R. Smith and A. A. Baker (in Brooks and others, 1924, pl. 9), USGS.

Margaret Creek: stream, on Revillagigedo Island, flows NW, through Margaret Lake, 6 miles to Traitors Cove, Alexander Archipelago; 55° 41' 40" N, 131° 37' 30" W; BGN 1962; (map 3). Local name reported in 1961 by USFS.

Margaret Lake: lake, 1 mile long, in course of Margaret Creek, on W coast of Revillagigedo Island, Alexander Archipelago; 55° 41' N, 131° 36' W; BGN 1962; (map 3). Local name reported in 1961 by USFS.

Margaret Lake: lake, see Catherine, Lake.

Margaret, Mount: mountain, 5,059 ft., 11 miles W of Mount Healy and 14 miles SW of Healy, Alaska Range; 63° 45' 10" N, 149° 21' 00" W; (map 87). Name reported and perhaps given by Woodbury Abbey on his 1921 survey of the boundaries of McKinley National Park.

Margaretta Creek: stream, flows NW to Big Hurrah Creek, E of Little Hurrah Creek, about 9 miles NE of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name reported on a prospector's manuscript map dated 1902. This stream cannot be precisely located on current maps.

Marge, Lake: lake, 0.6 miles across, on Prince of Wales Island, E of Hetta Inlet, S of Summit Lake, Alexander Archipelago; 55° 13' N, 132° 31' W; (map 4). Local name reported in 1908 by C. W. Wright (in Brooks and others, 1909, pl. 3), USGS.

Margerie Glacier: glacier, heads on S slope of Mount Root, on Alaska-Canada boundary trends NE 21 miles to Tarr Inlet, 1 mile SE of the terminus of Grand Pacific Glacier and 87 miles NW of Hoonah, St. Elias Mountains; 59° 02' 12" N, 137° 04' 00" W; BGN 1923; (map 45). Named by Lawrence Martin, USGS, in 1923 for Emmanuel de Margerie, 1862-1953 French geologist, who visited Glacier Bay in 1913. Margerie was a famous geographer and geologist, who published many scientific papers including several on the geology of North America.

Margot Creek: stream, flows NW 24 miles to Iliuk Arm Naknek Lake, on Alaska Peninsula, in Katmai National Monument, 27 miles NW of Mount Katmai, Aleutian Range; 58° 29' 15" N, 155° 34' 10" W; (map 42). Local name reported in 1951 by USGS.

Margret Creek: stream, on N part of Chichagof Island, heads in lake 0.4 miles N of Mount Althorp flows 4 miles N to Port Althorp, 1.8 miles SE of Point Lucan, 33 miles W of Hoonah, Alexander Archipelago; 58° 07' N, 136° 20' W; BGN 1960; (map 10). Local name reported in an application for a power license dated 1927.

Marguerite Creek: stream, flows NW 9 miles, joins with Emma Creek to form California Creek, 41 miles SE of Nenana, Alaska Range; 64° 01' N, 148° 44' W; (map 100). Local name reported by USGS (Capps, 1912, pl. 1).

Marhlan Creek: stream, see Marlan Creek.

Maria Antonia, Punta: point of land, on S side of San Juan Bautista Island, Bucareli Bay, Alexander Archipelago; 55° 24' N, 133° 18' W; (map 4). Named by the 1779 Don Ignacio Arteaga expedition. "One of the children of Fernando IV, King of Naples, bore this name" (Wagner, 1937, p. 470).

Maria Creek: stream, flows NW 8 miles to Kugrupaga River, 7 miles SW of Ear Mountain and 40 miles N of Teller, Seward Peninsula Highlands; 65° 50' N, 166° 24' W; (map 111). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Maria Josefa, Punta de: point of land, see Maria, Point.

Maria Josefa, Punta: point of land, see Maria, Point.

Maria Khosefa, Mys: point of land, see Maria, Point.

Maria Louisa: stream, see Kun River.

Maria, Point: point of land, on E coast of Baker Island, NE point of entrance to Port Asumcion, Alexander Archipelago; 55° 22' 00" N, 133° 29' 30" W; (map 4). Variant: Mys Maria Khosefa, Punta de Maria Josefa, Punta Maria Josefa. Name given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Punta de Maria Josefa," i.e. "Point of Mary Josephine." "Maria Josefa was one of the daughters of Charles III" (Wagner, 1937, p. 470).

Mariagamiut: see Scammon Bay.

Mariakamut: village, see Scammon Bay.

Marian Creek: stream, see Mariner Creek.

Marie Creek: stream, flows 12 miles SW to Becharof Lake, on Alaska Peninsula, 1 mile N of Kejulik River and 44 miles SW of Mount Katmai, Aleutian Range; 57° 53' 05" N, 155° 56' 00" W; (map 35). Local name reported in 1923 by R. H. Sargent, USGS, and published by W. R. Smith (in Brooks and others, 1925, pl. 4), USGS.

Marie Creek: stream, flows NE 3 miles to Bonanza Creek, 10 miles SE of junction of Charley and Yukon Rivers, Yukon-Tanana Highlands; 65° 12' N, 142° 35' W; (map 103). Prospectors' name from an unpublished map by E. J. Chamberlain, dated 1902.

Marie Creek: stream, flows SE 2 miles to Walker Fork, 54 miles SW of Eagle, Yukon Tanana Highlands; 64° 03' 00" N, 141° 26' 30" W; (map 102). Named by prospectors and shown on an 1898 manuscript map by E. F. Ball, prospector.

Marie Creek: stream, flows W to Nome River, about 20 miles NE of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Marie Lake: lake, 0.9 miles long, in course of Mendeltna Creek, 46 miles WNW of Glennallen, Copper River Basin; 62° 10' N, 146° 57' W; (map 83). Local name reported in 1949 by USGS.

Marie Mountain: mountain, 4,350 ft., in Romanzof Mountains, between McCall Creek and Jago River, 15 miles NE of Mt. Michelson, Brooks Range; 69° 24' N, 143° 41' W; (map 138). Named about 1959 by members of the International Geophysical Year McCall Glacier expedition.

Marie, Point: point of land, S point of entrance to Ushk Bay, in Peril Strait, on Chichagof Island, 21 miles SE of Chichagof, Alexander Archipelago; 57° 33' N, 135° 34' W; (map 9). Named in 1895 by Lt. Comdr. Moore, USN, and published in 1900 by USC&GS on Chart 8282.

Marilyns Twins: peak, see Peril Peak.

Marin Range: ridge, elev. 1,800 ft., 5 miles long, 16 miles S of Kodiak, Kodiak Island; 57° 33' N, 152° 23' W; (map 34). Local name reported in 1949 by USGS.

Marina, Port de la: water passage, see Real Marina, Port.

Marine Creek: stream, flows NW 1.3 miles to Taylor Creek which flows to Kougarok River, 4 miles SE of Midnight Mountain and 39 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 45' N, 164° 29' W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Mariner Creek: stream, flows NE 7.5 miles to Canyon Creek, 40 miles S of Eagle, Yukon-Tanana Highlands; 64° 14' N, 141° 08' W; BGN 1954; (map 102). Variant: Marian Creek, Marion Creek, Merriam Creek. Prospectors' name obtained in 1898 by E. C. Barnard, USGS.

Marion Creek: stream, flows NW 3 miles to American Creek, 5 miles SW of Eagle, Yukon Tanana Highlands; 64° 43' 45" N, 141° 15' 30" W; (map 102). Named by prospectors; reported in 1898 by E. C. Barnard, USGS.

Marion Creek: stream, flows W 17.5 miles to Middle Fork Koyukuk River, 7 miles S of Wiseman, Brooks Range; 67° 19' 12" N, 150° 10' 00" W; (map 124). Local name shown on an 1899 fieldsheet by T. G. Gerdine, USGS.

Marion Creek: stream, see Mariner Creek.

Marion Gulch: ravine, trends NW 0.5 miles to Darling Creek which flows to Nome River, 17 miles NE of Nome, Seward Peninsula Highlands; 64° 44' N, 165° 12' W; (map 94). Prospectors' name shown on the 1904 "Map of Cape Nome Precinct" by Arthur Gibson.

Marion, Lake: lake, 0.8 miles long, S of Big Lake, 20 miles N of Anchorage, Cook Inlet Lowland; 61° 30' 35" N, 149° 54' 20" W; BGN 1960; (map 69). Variant: Oscar Lake. Named "in memoriam" in 1960 by a petition of friends of Marion Calvert Suomela, who died in 1955.

Mariposa Creek: stream, flows N 1.5 miles to Yankee River which flows to Mint River, 35 miles NW of Teller, Seward Peninsula Highlands; 65° 38' N, 167° 10' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Mariposa Gulch: ravine, trends NE to American Creek which flows to Niukluk River, W of Game Creek and 26 miles N of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name reported in 1908 by USGS (Smith, P. S., 1910, p. 206). This feature cannot be precisely identified on current maps.

Mariposa Reef: reef, S of Strait Island in Sumner Strait, between Kupreanof, Kuiu, and Prince of Wales Islands, 3 miles NW of Point Baker, Alexander Archipelago; 56° 22' 45" N, 133° 42' 00" W; (map 6). Local name recorded in 1948 by USGS.

Mariposa Rock: rock, at entrance to Steamer Bay, on W coast of Etolin Island, 24 miles SW of Wrangell, Alexander Archipelago; 56° 10' 40" N, 132° 44' 15" W; (map 6). Spanish word meaning "butterfly" given in 1918 by USC&GS.

Mariuk: village, see Scammon Bay.

Mariy, Port: bay, see Shelikof Bay.

Mark Creek: stream, anabranch of Chisana River, flows N 11 miles to its mouth 1 mile SE of Northway Junction, Alaska Range; 63° 00' N, 141° 47' W; (map 84). Local name reported in 1955 by USGS.

Marka Bay: estuary, extends NW 1 mile, on S coast of Afognak Island, 6 miles NE of Afognak, Kodiak Island; 58° 04' 00" N, 152° 39' 15" W; (map 43). Local name published in 1943 by USC&GS.

Marks Creek: stream, flows NE 3.3 miles, joins Orthmer Creek to form Flat Creek, 19 miles S of junction of Charley and Yukon Rivers, Yukon-Tanana Highlands; 65° 03' N, 142° 50' W; (map 103). Prospectors' name from an unpublished map by E. J. Chamberlain dated 1902.

Marlan Creek: stream, flows NE 5 miles to Niukluk River valley, 3.5 miles SE of Council and 32 miles NE of Solomon, Seward Peninsula Highlands; 64° 51' N, 163° 37' W; (map 95). Variant: Marhlan Creek. Prospectors' name published as "Marhlan Cr." on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Marmion Island: island, 0.2 miles across, SE of Douglas Island at S end of Gastineau Channel 9 miles SE of Juneau, Coast Mountains; 58° 11' 55" N, 134° 15' 20" W; (map 11). Named and published by W. H. Dall USC&GS, in the 1883 Coast Pilot (p. 171). The name was taken from the title of a narrative poem by Sir Walter Scott (DeArmond, 1957, p. 31).

Marmot Bay: bay, extends E 25 miles from Whale Island, between Afognak and Kodiak Islands; 58° 00' N, 152° 06' W; (map 34). Variant: Chigik, Evershichie Bay, Ewatschitze Bay,

Tsalk, Tschijtschi, Ulnik, Whitsuntide Bay, Zaliv Yevvashichey. Translation by USC&GS of the name "Zaliv Yevvashichey," derived from an early name for Marmot Island, published by Capt. Tebenkov (1852, map 22), IRN. Capt. Cook (1785, v. 2, p. 404), RN, called it "Whitsuntide Bay" in 1778[?]. See Izhut Bay.

Marmot Cape: point of land, on S tip of Marmot Island, at mouth of Marmot Bay, N of Kodiak Island; 58° 10' 00" N, 151° 51' 50" W; BGN 1910; (map 43). Name derived from Marmot Island and given by USC&GS in 1910.

Marmot Island: island, 6 miles long, 3 miles E of Afognak Island, N of Kodiak Island; 58° 13' N, 151° 50' W; (map 43). Variant: Evrashichie Island, Isla de Camacho, St. Hermogenes Island. Translation by USC&GS of "Os[trov] Yevrashichey," from the Russian "Yevrashka," published by Sarichev (1826, map 5). Otto von Kotzebue (in Baker, 1906, p. 426) says "An animal in many respects similar to the squirrel; but it is much larger and lives in the earth; it is called in Siberia 'Gewraschka.' The Americans call it 'Tschikschi' [probably from the Eskimo 'Sikrik' or 'Siksik' meaning 'ground squirrel']. In 1890 the U.S. Census Bureau (11th Census, 1893, p. 73) reports "The only land animals [on Marmot Island] are the foxes and myriads of ground squirrels (spermophilus), * * *. These rodents are called 'yevrashka' in Russian. This word our mapmakers erroneously translated 'marmot,' and thus misnamed the island * * *." Father Veniaminov (1846, p. 63) published the Aleut name "Uhnik" [for Yevrashka] from "ulngiq" which according to R. H. Geoghegan, means "ground squirrel." This island was named "St. Hermogenes" on May 25, 1778, by Capt. Cook (1785, v. 2, p. 384) and "Isle de Camacho" in 1779 by Don Juan Francisco de la Bodega y Quadra and Francisco Antonio Maurelle (Baker, 1906, p. 426). Wagner (1937, p. 437) says, "Afognak Island is drawn so out of place on Camacho's map that I have grave doubts about this being Marmot Island, as identified by Baker. It has more the appearance of being Afognak Island proper." The name given by Quadra and Maurelle was probably for the navigator Josef Camacho who copied their map.

Marmot Strait: water passage, between Afognak and Marmot Islands, N of Kodiak Island, 58° 15' N, 151° 55' W; (map 43). Variant: Evarashichiche. Translation of "Pr[oliv] Yevrashichiy" from an early name for Marmot Island published by the Russian American Company in 1849.

Marmot Valley: valley, 1.5 miles long, near head of Rhine Creek, 0.5 miles SW of North Rhine Peak and 8 miles SE of Juneau, Coast Mountains; 58° 15' 00" N, 134° 11' 25" W; (map 11). Local name reported in 1965 by D. A. Brew and A. B. Ford, USGS. Named for the hoary marmot (*Marmota caligata*).

Maroonitch: locality, see Marunich.

Marquette Glacier: glacier, on Kenai Peninsula trends NW 2.5 miles to its terminus E of SE side of Blackstone Bay, 8 miles SE of Whittier Chugach Mountains; 60° 39' 40" N, 148° 39' 20" W BGN 1930; (map 63). Named in 1910 by Lawrence Martin for Marquette Univ., Milwaukee, Wis.

Marr, Mount: mountain, 2,211 ft., in Coleen Hills, 4 miles SW of Coleen Mountain, Brooks Range; 67° 05' N, 142° 56' W; (map 121). Local name reported in 1939 by FitzGerald (1944, p. 234), USGS.

Marr, Mount: mountain, 2,283 ft., 3 miles S of Helm Bay, on SE coast of Cleveland Peninsula, Alexander Archipelago; 55° 33' 30" N, 131° 58' 55" W; (map 3). Named in 1886 by USC&GS for Robert Athelston Marr, USC&GS.

Marryat Creek: stream, see Kukpuk River.

Marryat Inlet: lagoon, on Chukchi Sea coast, extends NE 10 miles from Point Hope, Arctic Slope; 68° 22' N, 166° 33' W; BGN 1966; (map 129). Variant: Marrayatt Inlet, Marriet Inlet, Marryatt Inlet. Discovered by Lt. Edward Belcher in September 1827 and named by Capt. Beechey (1831, v. 2, p. 549), RN, who wrote "This cove, which I have named after his (Lieut. Belcher's) relation, Captain Marryat, R.N., is the estuary of a river which has no doubt contributed to throw up the point [Point Hope]." Captain Marryat was a famous sailor and novelist.

Marsan: village, see Alatna.

Marsden, Point: point of land, on W coast of Admiralty Island in Chatham Strait, 2 miles S of mouth of Hawk Inlet and 22 miles SW of Juneau, Alexander Archipelago; 58° 03' 30" N, 134° 48' 25" W; (map 11). Joseph Whidbey in 1794 passed by The point which was later named by Capt. Vancouver, RN (1801, v. 15, p. 439), either for William Marsden or Samuel Marsden of Paramatta New South Wales (Wagner, 1937, v. 2, p. 396).

Marsh Bay: bay, 0.4 miles across, at S end of Redoubt Lake, 0.4 miles NE of Goddard on western Baranof Island, Alexander Archipelago; 56° 50' 50" N, 135° 20' 00" W; (map 5). Variant: Kluchev Bay. The 1848 Russian Hydrog. Dept. Chart 1397 applied the name "Zaliv Klyuchevoy" to a bay on the coast about two miles to the southwest. In 1880 the British Admiralty translated the Russian name as "Marsh Bay," but misapplied it to this feature. Subsequent maps have followed the British Admiralty application.

Marsh Creek: stream, flows NE 7 miles to Otter Bight, on NE coast of Umnak Island, Aleutian Islands; 53° 25' 42" N, 167° 51' 20" W; (map 23). Name published in 1958 by AMS.

Marsh Creek: stream, flows SE 0.8 miles to Marsh Lake, E central Heceta Island, Alexander Archipelago; 55° 45' 55" N, 133° 25' 15" W; (map 4). Local name recorded in 1951 by USGS.

Marsh Creek: stream, heads N of Mount Weller in the Sadlerochit Mountains, flows N 28 miles to Camden Bay, 3 miles E of Collinson Point and 27 miles SW of Barter Island, Arctic Plain; 69° 59' N, 144° 48' W; (map 139). Variant: Marsh River, Nuvoak Creek. Named by Leffingwell (1919, p. 97) for the prospector, S. J. Marsh, who spent many years in northern Alaska. In 1948 USC&GS reported the Eskimo name "Nuvoak [nuvuk]" meaning "point of land" or "cape."

Marsh Creek: stream, in Chigmit Mountains, flows S 2 miles to Chinitna Bay, Aleutian Range; 59° 49' 50" N, 153° 16' 30" W; BGN 1961; (map 51). Local name published by USGS in 1922. The name was originally applied to what is now known as Clearwater Creek.

Marsh Creek: stream, see Clearwater Creek.

Marsh Fork Canning River: stream, heads at glacier in Philip Smith Mountains, flows N 50 miles to Canning River, 11 miles NE of Mount Salisbury and 40 miles W of Mount Michelson, Brooks Range; 69° 12' N, 145° 51' W; (map 139). Variant: Right Fork Channing River, Right Fork Kooguru River. In 1903 S. J. Marsh, who explored and sketched this stream, called it "Right Fork," after the manner of prospectors who term the tributaries right and left when ascending the stream. "Marsh Fork" first appears in Baker's Dictionary, 1906.

Marsh Island: island, 0.4 miles long, off W coast of Etolin Island, 27 miles SW of Wrangell, Alexander Archipelago; 56° 07' N, 132° 43' W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow, USN.

Marsh Lake: lake, 0.2 miles long, E central Heceta Island, Alexander Archipelago; 55° 45' 55" N, 133° 25' 00" W; (map 4). Local name recorded in 1951 by USGS.

Marsh Lake: lake, 0.4 miles long, in Ptarmigan Valley, 1 mile S of Houston Pass and 92 miles NW of Tyonek, Alaska Range; 62° 01' 45" N, 153° 07' 20" W; (map 80). Local name obtained in 1958 by USGS.

Marsh Lake: lake, 0.5 miles long, 7.5 miles WSW of Lake Louise and 40 miles WNW of Glennallen Copper River Basin; 62° 15' N, 146° 45' W (map 83). Local name reported in 1959 by USGS.

Marsh Lake: lake, 1 mile long, on Kenai Peninsula, 2.5 miles N of Skilak Lake and 28 miles SE of Kenai, Cook Inlet Lowland; 60° 30' N, 150° 27' W; (map 62). So named about 1963 by officials of Kenai National Moose Range, because the lake is located in a low wetland or marsh.

Marsh Mountain: mountain, 1,600 ft., E of Aleknagik Lake and 17 miles N of Dillingham Kilbuck-Kuskokwim Mountains; 59° 17' N, 158° 31' W; BGN 1932; (map 52). Local name reported in 1932 by Gerald FitzGerald, USGS.

Marsh Peak: peak, 4,000 ft., 2 miles W of head of Thomas Bay and 98 miles E of Sitka, Coast Mountains; 57° 07' 30" N, 132° 52' 05" W; (map 8). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, presumably for O. C. Marsh, 1831-99, vertebrate paleontologist. He was professor of paleontology at Yale Univ., 1866-99. He headed numerous scientific expeditions to the Rocky Mountain Area, and in 1887 he was made honorary curator in vertebrate paleontology at the U.S. National Museum. His best known work dealt with the evolution of the horse.

Marsh River: stream, see Marsh Creek.

Marsh, Point: point of land, on an island, E point of entrance to Cordova Bay, on SW coast of Prince of Wales Island, Alexander Archipelago; 54° 43' 15" N, 132° 19' 05" W; (map 1). Named in 1885 by Lt. Comdr. R. Clover, USN, for Ens. Charles C. Marsh, USN, a member of his party.

Marsh, Point: point of land, on the Chukchi Sea coast, at S point of entrance to Wainwright Inlet 2.5 miles S of Wainwright, Arctic Plain; 70° 36' 25" N, 160° 07' 00" W; (map 146). Named by Capt. Beechey (1831, p. 303), RN, in September, 1826, for George Marsh, ship's purser.

Marsha Bay: estuary, on E coast of Knight Island extends SE 2 miles to Prince William Sound, 15 miles ENE of Chenega, Chugach Mountains; 60° 19' 30" N, 147° 39' 30" W; BGN 1908; (map 63). Variant: Marcia Cove. Local name published in 1908 by USC&GS.

Marsha Peak: mountain, 4,525 ft., 14 miles E of Wrangell, Coast Mountains; 56° 29' 20" N, 132° 02' 00" W; (map 6). Local name recorded in 1955 by USGS.

Marshall Creek: stream, flows NW 8 miles to Yukon River, 10 miles W of Rampart, Yukon-Tanana Highlands; 65° 29' N, 150° 29' W; (map 106). Riverboat pilots' name shown on Edwards Track Chart of the Yukon, dated 1899.

Marshall Glacier: glacier, trends N 5 miles to its terminus, 2 miles SW of Marshall Pass and 25 miles E of Valdez, Chugach Mountains; 61° 04' 45" N, 145° 31' 30" W; (map 68). Local name published in the 1950's by USGS.

Marshall Gulch: ravine, trends W 1.7 miles to Little Eldorado Creek, 15 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 04' 30" N, 147° 32' 15" W; (map 105). Named by prospectors; published in 1908 by USGS.

Marshall Island: island, 0.1 miles across, in Thimbleberry Bay, 2.5 miles SE of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 02' 00" N, 135° 15' 10" W; (map 9). Variant: Marshall Islet. Named in 1880 by the U.S. Navy and published by USC&GS in the 1883 Coast Pilot (P 144)

Marshall Islet: island, see Marshall Island.

Marshall Lake: lake, 1 mile long, on Mount Doonerak, 37 miles NW of Wiseman, Brooks Range; 67° 54' N, 150° 35' W; BGN 1954; (map 124). Named in 1956 by USGS for Robert Marshall, 1901-39, woodsman, explorer, and author.

Marshall Landing: village, see Marshall.

Marshall Mountain: mountain, 5,200 ft., 5.6 miles SE of Powell Peak and 41 miles NE of Valdez, Chugach Mountains; 61° 41' 15" N, 145° 53' 55" W; (map 68). Named in 1898 by Capt. W. R. Abercrombie, USA.

Marshall Pass: pass, 4 miles E of Heiden Canyon and 26 miles E of Valdez, Chugach Mountains; 61° 06' 15" N, 145° 28' 30" W; (map 68). Named in 1898 by Capt. W. R. Abercrombie, USA.

Marshall Reese, Mount: mountain, 1,930 ft., on N coast of Unalaska Island, Aleutian Islands; 54° 59' 05" N, 166° 49' 00" W; (map 23). Name derived from Reese Bay and published in 1951 by USGS.

Marshall: village, pop. 166, on E bank of Poltes Slough, N of Arbor Island, on right bank of Yukon River, Yukon-Kuskokwim Delta; 61° 53' N, 162° 05' W; (map 74). Variant: Marshall Landing, Fortuna Ledge. On July 15, 1913, gold was discovered on Wilson Creek by E. L. Mack and Joe Mills and Marshall quickly became a placer mining camp with the ensuing

stampede. The camp was located on a channel of the Yukon River because of the convenience for a riverboat landing. A post office called "Fortune Ledge" was established here 1915 (Ricks, 1965, p. 21). The camp was named for Thomas Riley Marshall, 1854-1925, Vice President of the United States in the Woodrow Wilson administration, 1913-21 (Stuck, 1917, p. 197). See Wilson Creek.

Marshmallow Mountain: mountain, 7,000 ft. between Nanushuk River and Alapah Creek N of Alapah Mountain, 24 miles NE of Anaktuvuk Pass, Brooks Range; 68° 13' 00" N, 150° 50' 30" W; BGN 1932; (map 134). So named by Robert Marshall in 1930 "because the appearance of its summit looked like a marshmallow."

Marten Arm Lake: lake, 2 miles long, 1 mile N of Marten Arm and 4 miles NE of Bactrian Point, Coast Mountains; 55° 09' 10" N, 130° 36' 00" W; (map 3). Local name recorded in 1955 by USGS.

Marten Arm: estuary, extends 7 miles NE off Boca de Quadra, Coast Mountains; 55° 07' N, 130° 42' W; (map 3). Named in 1891 by USC&GS.

Marten Creek: stream, flows SE 20 miles to Coleen River 11 miles NNE of its junction with Strangle Woman Creek, 66 miles NE of Coleen Mountain, Brooks Range; 67° 59' N, 142° 04' W; (map 121). Local name reported in 1956 by T. E. Taylor, USGS.

Marten Creek: stream, flows WSW 8 miles to South Fork Chena River 7 miles SW of that stream's junction with Chena River and 35 miles E of Fairbanks, Yukon-Tanana Highlands; 64° 49' N, 146° 30' W; (map 101). Local name published in 1956 by USGS

Marten Creek: stream, heads at 67° 28' N, 145° 43' W, flows S 68 miles to Cutoff Slough, Yukon River, 18 miles NW of Fort Yukon, Yukon Flats; 66° 39' 45" N, 145° 53' 45" W; (map 119). Local name obtained in 1956 by USGS.

Marten Creek: stream, heads in Upper Marten Lake, flows 5 miles S through Marten and Clay Lakes to Bradfield Canal, Coast Mountains; 56° 14' N, 131° 53' W; BGN 1923; (map 7). Named in 1923 by USFS.

Marten Creek: stream, in Kantishna Hills, flows SE 3.5 miles to Crooked Creek, 4 miles W of junction of Toklat River and its Clearwater Fork, Alaska Range; 63° 48' 40" N, 153° 25' 00" W; (map 88). Local name shown on a 1916 fieldsheet by C. E. Giffin, USGS.

Marten Island: island, 8 miles long, in Yukon River N of Marten Slough, 20 miles SW of Beaver, Yukon Flats; 66° 13' N, 148° 06' W; (map 118). Local name obtained in 1956 by USGS.

Marten Lake: lake, 0.5 miles long, 0.7 miles SW of Chalkyitsik, Yukon Flats; 66° 39' N, 143° 45' W; (map 120). Local name obtained in 1956 by T. E. Taylor and R. C. Foley, USGS.

Marten Lake: lake, 0.6 miles long, N of Heart Lake, 15 miles W of Beaver, Yukon Flats; 66° 21' N, 147° 57' W; (map 118). Probably named by William Yanert, who recorded it on a 1916 manuscript map of the Yukon Flats (Stuck, 1917, map facing p. 122).

Marten Lake: lake, 1.8 miles long, in course of Marten Creek, 2 miles N of Bradfield Canal, Coast Mountains; 56° 16' N, 131° 51' W; BGN 1923; (map 7). Named in 1923 by USFS.

Marten River: stream, heads at glacier, in Peabody Mountains, flows SW 23 miles to Marten Arm, Coast Mountains; 55° 09' 30" N, 130° 31' 45" W; BGN 1963; (map 3). Local name reported in 1961 by USFS.

Marten Slough: stream, an anabranch of Yukon River, flows W 9 miles, 21 miles SW of Beaver, Yukon Flats; 66° 12' N, 148° 15' W, (map 118). Local name obtained in 1956 by USGS.

Marten Stand Mountain: peak, 3,810 ft., 7.5 miles SW of Arctic Village, Brooks Range; 68° 01' 30" N, 145° 36' 30" W; (map 136). Local name reported in 1956 by R. C. Foley, USGS.

Marten Upper Lake: lake, see Upper Marten Lake.

Martha B Creek: stream, flows N 7.5 miles to Koyukuk River, E of Kohokachalla Mountain, 36 miles NE of Hughes, Hogatza Highlands; 66° 23' N 153° 17' W; (map 116). Name reported by Orth in 1956.

Martha Creek: stream, flows NW 3.7 miles to Tisuk River, 18 miles E of Cape Douglas and 38 miles NW of Nome, Seward Peninsula Highlands; 64° 59' N 166° 04' W; (map 94). Prospectors, name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Martin Creek: stream, flows SW 1 mile to Norton Sound, 0.5 miles E of Peluk Creek and 2 miles E of Nome, Seward Peninsula Highlands; 64° 29' N, 165° 20' W; (map 94). Prospectors' name shown on the 1902 "Map of the Nome and Snake River Country" by J. M. Davidson.

Martin Creek: stream, flows SW 4 miles to Goldstream Creek, 6 miles NE of Livengood, Yukon-Tanana Highlands; 65° 32' 50" N, 148° 21' 20" W; (map 105). Variant: Cash Creek. Named by prospectors; reported in 1915 by Brooks (Brooks and others, 1916, pl. 9), USGS.

Martin Creek: stream, heads in Peters Hills, flows SE 8 miles to Peters Creek, 20 miles W of Talkeetna, Alaska Range; 62° 30' 40" N, 150° 44' 15" W; (map 81). Prospectors' name reported in 1911 by S. R. Capps (in Brooks, 1912, pl. 9), USGS.

Martin Creek: stream, heads in Slender Lake, flows generally NE 7 miles to Kiagna River, 119 miles NE of Cordova, Chugach Mountains; 60,57' 40" N, 142° 19' 30" W; (map 65). Name published by F. H. Moffit (1918, pl. 6), USGS.

Martin Creek: stream, in Baird Mountains, flows SE 2.5 miles to Klery Creek, 18 miles N of Kiana, Brooks Range; 67° 13' 40" N, 160° 24' 00" W; (map 127). Name used by prospectors; reported in 1910 by P. S. Smith (in Brooks and others, 1911, pl. 13), USGS.

Martin Creek: stream, on Alaska Peninsula, in Katmai National Monument, flows SE through Mageik Landslide 10 miles to Katmai River, 11 miles SW of Mount Katmai, Aleutian Range; 58° 06' 25" N, 155° 03' 10" W; BGN 1925; (map 42). Named in 1916 by R. F. Griggs, National Geographic Society, for Mount Martin.

Martin Creek: stream, on Kenai Peninsula, flows SW 6 miles to Resurrection River, 12 miles NW of Seward, Chugach Mountains; 60° 14' 30" N, 149° 38' 45" W; (map 63). Local name reported in 1912 by Grant and Higgins (1913, pl. 1), USGS.

Martin Glacier: glacier, on W slope of Brabazon Range; trends W 2.4 miles to 1961 terminus at head of Gines Creek, 0.8 miles W of Tanis Lake and 47 miles SE of Yakutat, St. Elias Mountains; 59° 16' 45" N, 138° 30' 00" W; (map 46). Named by Blackwelder (1907, p. 417, 426), USGS, for E. R. Martin, who was in charge of the U.S. Boundary Survey party that surveyed this area in 1906.

Martin Harbor: bay, 0.9 miles across, on SE side of Korovin Bay, on NW coast of Atka Island, Aleutian Islands; 52° 13' 40" N, 174° 17' 00" W; (map 18). Variant: Pestchanaia, Peschani, Sand Bay, Sand Harbor. Named for Capt. Martin Klinkofstrom of the Russian American Company, who first used the bay, according to Dall (1873, p. 114). It was called "Peshtchanaia anse," meaning "sandy bay," by Capt. Lutke (1836, p. 313), IRN.

Martin Island: barrier island, 4 miles long, E of Cooper Island, in Plover Islands, 27 miles E of Barrow, Arctic Plain; 71° 13' N, 155° 30' W; BGN 1916; (map 153). Variant: Shiningarok. Named in 1850 by Comdr. Moore, RN, after one of his officers. Comdr. Maguire (Great Britain, 1854, map facing p. 186), RN, shows it as the first island E of Point Barrow, now named Doctor Island. Leffingwell (1919, p. 97) applied the name to the present day Cooper Island and reported the Eskimo name "Shiningarok," meaning "he slept."

Martin Island: island, 0.1 miles across, in Kutchuma Islands, 3 miles S of Sitka, off W coast of Baranof Island, Alexander Archipelago; 57° 00' 18" N, 135° 18' 05" W; (map 9). Variant: Gravel Island, Pesiak. Local name reported in 1898 by USC&GS. It was called "Pesiak," a Russian name meaning "gravel," by Ivan Vasiliev the first, in 1809.

Martin Islands: islands, off S coast of Alaska, 0.5 miles S of Cape Martin, 2.7 miles SW of Katalla, Malaspina Coastal Plain; 60° 10' N, 144° 36' W; (map 64). Variant: Anglice Island, Fox Islands, Ostrov Kikhtak. Name published in 1904 by USC&GS. Capt. Tebenkov (1852, map 6) showed one island here called "Ostrov Kikhtak," or "Kiktak island." It was an Eskimo name meaning "island."

Martin Lake: lake, 0.7 miles long, one of the Canoe Lake Chain, on Kenai Peninsula, 23 miles NW of Kenai, Cook Inlet Lowland; 60° 41' 40" N, 150° 30' 00" W; (map 62). Named about 1963 by officials of the Kenai National Moose Range, for administrative purposes.

Martin Lake: lake, 4.2 miles long, drains NW to Martin River E of Ragged Mountain, 10 miles N of Katalla, Chugach Mountains; 60° 22' N, 144° 32' W; BGN 1948; (map 64). Variant: Big Martin Lake. Originally named "Big Martin Lake" in 1938 by geologists of the Iniskin Drilling Company; changed, in 1948, to its present form by USGS.

Martin Mountain: volcano, see Martin, Mount.

Martin Point: point of land, on coast of Beaufort Sea, 8 miles E of Barter Island, between Jago and Tapkaurak Lagoons, Arctic Plain; 70° 07' 50" N, 143° 15' 30" W; BGN 1944; (map 152). Variant: Point Sir Henry Martin. Named Point Sir Henry Martin by Sir John Franklin (1828, p.

146), August 4, 1826. The original location is doubtful; however, the name was definitely applied to this point by Leffingwell (1919, p. 97) in 1912.

Martin River Glacier: glacier, trends SW 25 miles to its terminus at head of Martin River, 20 miles NE of Katalla, Chugach Mountains; 60° 28' N, 144° 20' W; (map 64). Local name reported in 1905 by G. C. Martin (1906, pl. 12), USGS.

Martin River Slough: stream, distributary of Martin River, flows S 12 miles to Gulf of Alaska, 8 miles NW of Katalla, Malaspina Coastal Plain; 60° 17' N, 144° 42' W; BGN 1948; (map 64). Local name reported about 1947 by USGS.

Martin River: stream, heads at terminus of Martin River Glacier, flows W 22 miles to Copper River, 19 miles NW of Katalla, Malaspina Coastal Plain; 60° 24' N, 144° 53' W; (map 64). Named by Capt. Abercrombie (Glenn and Abercrombie, 1899, map), USA.

Martin River: stream, on Kenai Peninsula, flows N 7 miles to Kachemak Bay, 20 miles NE of Homer, Chugach Mountains; 59° 45' 45" N, 151° 00' 00" W; (map 50). Local name reported and published by USGS in the 1950's.

Martin Rock: rock, in Port Chester, on W coast of Annette Island, Alexander Archipelago; 55° 08' 30" N, 131° 33' 15" W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Martin Volcano: volcano, see Martin, Mount.

Martin, Cape: point of land, see Martin Point.

Martin, Mount: volcano, 6,050 ft., on Alaska Peninsula, in Katmai National Monument, 16 miles SW of Mount Katmai, Aleutian Range; 58° 10' N, 155° 21' W; BGN 1966; (map 42). Variant: Martin Mountain, Martin Volcano. Named in 1919 by R. F. Griggs, National Geographic Society, for George C. Martin, USGS, who wrote the first authoritative report of the eruption of Mount Katmai.

Martin, Point: point of land, at NW end of Controller Bay, 0.5 miles N of Whale Island and 2.7 miles SW of Katalla, Malaspina Coastal Plain; 60° 11' N, 144° 36' W; (map 64). Variant: Cape Martin, Punta de Eguia, Punta Nodales. Named in 1794 by Capt. Vancouver (1798, v. 3, p. 217), RN, who wrote, there are "two rocky islets lying off the northwest point of Controllers Bay which after Sir Henry Martin, I called Point Martin * * *." It was called "Punta de Eguia" by Don Jacinto Arteaga in July, 1779, probably for "Manuel de Eguia, a brigadier in the Spanish navy who wrecked in 1787 in the San Pedro Alcantara, while enroute from Callao to Cadiz" (Wagner, 1937, p. 449). The "Punta Nodales" of Capt. Alessandro Malaspina appears to be this point of land also. He named it thus July 16, 1791.

Martin: railroad station, on The Alaska Railroad, 15 miles NW of Fairbanks, Yukon-Tanana Highlands; 64° 54' N, 148° 11' W; (map 100). Variant: Spinach Reek. Local name listed on a timetable in 1922. It had been formerly called Spinach Creek as the stream by that name enters Goldstream Creek nearby.

Martinez Mountain: mountain, 3,000 ft., between Temnac River and O'Donnell Creek, on E central Attu Island, Aleutian Islands; 52° 52' 25" N, 173° 03' 25" E; (map 13). Named by the U.S. Army during World War II; published in 1948 by AMS.

Martinez, Punta de: point of land, see East Forland.

Martini Creek: stream, see Limpid Creek.

Martins Bar: island, see Henry Martin Island.

Marukta Mountain: hill, 1.5 miles E of Sevuokuk Mountain, 0.5 miles SE of Sevooghak Mountain and 3 miles SE of Gambell, St. Lawrence Island, 63° 46' N, 171° 39' W; BGN 1951; (map 93). Variant: Mount Marukta, Mount Merukta. Eskimo name reported by Orth in 1965; name derived from that of an unidentified point of land.

Marunich: locality, just SE of North Point, on N Coast of Saint Paul Island, in Pribilof Islands; 57° 12' 50" N, 170° 17' 20" W; (map 38). Variant: Maroonitch, Marunichen. Elliott (1881, St. Paul notes) wrote "Maroonitch, the site of a pioneer village, established by one Maroon."

Marvel Creek: stream, flows SE 6 miles to Eagle Creek, 73 miles E of Bethel, Kilbuck Kuskokwim Mountains; 60° 53' N, 159° 36' W; (map 59). Prospectors' name reported in 1914 by A. G. Maddren (in Brooks, 1915, pl. 11), USGS.

Marvel Dome: mountain, 4,500 ft., 72 miles NE of Bethel, in Kilbuck Mountains, Kilbuck Kuskokwim Mountains; 60° 58' N, 159° 41' W; (map 59). Local name reported in 1914 by A. G. Maddren (in Brooks, 1915, pl. 11), USGS.

Marvine Glacier: glacier, heads on Mount Cook and trends SW 12 miles to Malaspina Glacier, 49 miles NW of Yakutat, St. Elias Mountains; 60° 03' N, 140° 12' W; (map 66). Named by Russell (1891, p. 112), for Archibald Robertson Marvine, 1848-76 American geologist.

Mary Anderson Bay: cove, extends N 1.4 miles off Duck Bay, on SE coast of Afognak Island, 15 miles NE of Afognak, Kodiak Island, 58° 08' 00" N, 152° 27' 30" W; (map 43). Local name reported in 1952 by USGS.

Mary Bay: bay, see Mary, Port.

Mary Creek: stream, see Marys Creek.

Mary Creek: stream, see Marys Slough.

Mary Ellen Creek: stream, flows SW 10 miles to Killik River 11 miles SW of its junction with Easter Creek, Brooks Range; 68° 02' N, 154° 30' W; (map 133). Name reported in 1956 by Orth.

Mary Frances Anchorage: bay, see Orel Anchorage.

Mary Gulch: ravine, at head of Mountain Creek, trends W 0.7 miles to Snake River valley, 6 miles NW of Nome, Seward Peninsula Highlands; 64° 35' N, 165° 27' W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Mary Island Anchorage: bay, on N coast of Mary Island Revillagigedo Channel, Alexander Archipelago; 55° 06' 40" N, 131° 11' 45" W; (map 3). Local name published in 1883 by USC&GS.

Mary Island: island, 0.3 miles long, one of Sanak Islands, Aleutian Range; 54° 20' 40" N, 162° 38' 00" W; (map 25). Name reported by Ferdinand Westdahl USC&GS, commander of the Coast Survey steamer McArthur, who made surveys in this area in 1901.

Mary Island: island, 0.4 miles long, in Womens Bay, 7 miles SW of Kodiak, Kodiak Island, 57° 42' 25" N, 152° 32' 00" W; (map 34). Local name published in 1943 by USC&GS.

Mary Island: island, 5 miles long, between Felice Strait and Revillagigedo Channel, 25 miles SE of Ketchikan, Alexander Archipelago; 55° 05' N, 131° 12' W; (map 3). Variant: Saint Mary Island. Named in 1880 by W. E. George, a local pilot. The British Admiralty erroneously called it "Saint Mary Island" on Chart 2431 published in 1882.

Mary Island: locality, on NE coast of Mary Island on W shore of Revillagigedo Channel, 25 miles SE of Ketchikan, Alexander Archipelago; 55° 06' 00" N, 131° 10' 08" W; (map 3). This is the site of an abandoned settlement which had a post office from 1892-1900 (Ricks, 1965, p. 41).

Mary Lake: lake, 0.8 miles long, N of Chandalar River, 5.5 miles W of Caro and 23 miles SSE of Chandalar, Brooks Range; 67° 10' 40" N, 148° 14' 00" W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Mary Lake: lake, see Bart Lake.

Mary Lou Gulch: ravine, trends SE 4 miles to Granite Creek, 58 miles NE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 59' 40" N, 160° 05' 30 W; (map 59). Local name reported in 1955 by J. M. Hoare, USGS.

Mary Louise Fork: stream, flows NE 1 mile to Ketchem Creek, 4 miles SW of Circle Hot Springs and 32 miles SW of Circle, Yukon-Tanana Highlands; 65° 27' 29" N, 144° 45' 25" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Mary Mountain: hill, see Soomaghat Mountain

Mary Mountain: hill, see Tomname Mountain

Mary Range: mountains, 7,700 ft., extend N 18 miles from crest of Brooks Range to the mouth of Whistler Creek, between Whistler Creek on W and Carnivore Creek on E, in Franklin Mountains, Brooks Range; 69° 15' N, 145° 10' W; (map 139). Name published by Bee and Hall (1956, p 295).

Mary Sachs Entrance: water passage, on Beaufort Sea coast between Flaxman Island and Maguire Islands, Arctic Plain; 70° 13' N, 146° 15' W; (map 151). Named by Leffingwell (1919, p. 97) after the schooner Mary Sachs, of the Canadian Arctic Expedition, which first passed through this entrance in August 1913.

Mary Sachs Island: island, now part of Flaxman Island on Beaufort Sea coast; (map 151). "First sand island west of Flaxman Island" (Leffingwell, 1919, p. 97). See Mary Sachs Entrance.

Mary, Lake: lake, in course of Old Franks Creek, on Prince of Wales Island, NW of Skowl Arm Kasaan Bay, Alexander Archipelago; 55° 26' 40" N, 132° 30' 20" W; (map 4). Name published in 1927 by USC&GS.

Mary, Lake: lake, see Bart Lake.

Mary, Mount: hill, see Tomname Mountain.

Mary, Mount: mountain, 2,920 ft., at SW end of Lake Schrader-Lake Peters Channel in Franklin Mountains, Brooks Range; 69° 20' N, 145° 08' W; (map 139). Name published by Bee and Hall (1956, p. 295).

Mary, Point: point of land, at N entrance to Shelikof Bay, on Kruzof Island, 20 miles NW of Sitka, Alexander Archipelago; 57° 10' 10" N, 135° 49' 30" W; (map 9). Name published in 1899 by USC&GS on Chart 8050.

Mary, Port: bay, see Shelikof Bay.

Maryland Creek: stream, flows N 1 mile to North Fork Kougarak River, 1.5 miles SE of Harris Dome and 38 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 37' N, 164° 30' W; (map 110). Variant: Napoleon Creek. Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Marys Bay: cove, 0.7 miles wide, on Rugged Island, 19 miles S of Seward, Chugach Mountains; 59° 51' N, 149° 23' W; (map 49). Local name reported in the early 1950's by USC&GS.

Marys Creek: stream, flows S 1.5 miles to Puffy Slough, 6 miles E of Katalla, Malaspina Coastal Plain; 60° 12' N, 144° 20' W; (map 64). Variant: Mary Creek. Local name reported in 1903 by G. C. Martin (1905, p. 12), USGS.

Marys Igloo: village, pop. 5, in Kuzitrin River basin, 2 miles NW of Marys Mountain and 40 miles SE of Teller, Seward Peninsula Highlands; 65° 09' N, 165° 04' W; (map 111). Variant: Igloo. Miners' name popularly applied to the Eskimo settlement at the head of steamboat navigation on the Kuzitrin River; reported as "Marys Igloo" by Brooks (1901, p. 11) USGS, in 1900, the first year of gold prospecting in this area. At this place, goods were transferred to flat-bottomed river boats that were towed upstream to the gold fields along the Kougarak and Kuzitrin Rivers or to the railway at Lanes Landing (Collier and others 1908, p. 09). Balcom (1965, p. 16) attributes the name to an "Eskimo woman named Mary who held open house there for visiting miners, trappers and other travelers, who never arrived too late or too early

for snacks and coffee at Mary's house, or ' igloo,' the Eskimo word for 'shelter.' “ Balcom (ibid.) also notes that in “1952 the Alaska Native School was closed for lack of students by the teacher, the only white man left in the place.” In 1952 the post office of Igloo, which had been in continuous operation since 1901, was discontinued. The population in 1910 was 141; in 1930, 113; and in 1950, 64.

Marys Lake: lake, 0.5 miles across, at mouth of Kaviruk River, N of Lake Omiaktalik, 32 miles E of Teller, Seward Peninsula Highlands; 65° 13' N, 165° 15' W; (map 111). Local name published in 1956 by USGS.

Marys Mountain: hill, 550 ft., between Kuzitrin and Pilgrim Rivers, 40 miles SE of Teller, Seward Peninsula Highlands; 65° 08' N, 165° 01' W; (map 111). Prospectors' name reported on the 1908 map of Seward Peninsula” by Arthur Glbson.

Marys River: stream, see Kaviruk River.

Marys Slough: stream, flows Island 1 mile NW to Unalakleet River, 1.1 miles S of Unalakleet, Nulato Hills; 63° 51' 25” N, 160° 46' 15” W; (map 91). Variant: Mary Creek. Local name reported in 1952 by USC&GS; named for “Sinrock Mary, an Eskimo woman famed for her part as interpreter in the first reindeer purchase in Siberia.”

Mascot Creek: stream, flows N 11 miles to Beaver Creek, 80 miles W of Circle, Yukon Tanana Highlands; 65° 44' 30” N, 146° 53' 10” W; (map 104). Named by prospectors; published in 1906 by USGS.

Mascot Creek: stream, flows N 4 miles to East Fork Chena River, 63 miles SW of Circle, Yukon-Tanana Highlands; 65° 03' N, 145° 10' W; (map 104). Named by prospectors; reported in 1911 by USGS (Prindle, 1913, pl. 1).

Mascot Creek: stream, flows S 8.5 miles to Glacier River, 4 miles E of Delay Pass and 12.5 miles W of Wiseman, Brooks Range; 67° 27' N, 150° 34' W; (map 124). Local name shown on an 1899 fieldsheet by T. G. Gerdine, USGS.

Mascot Creek: stream, flows SE 2 miles to Magnolia Creek which flows to Igloo River, in American River basin, 32 miles NE of Teller, Seward Peninsula Highlands; 65° 28' N, 165° 23' W; (map 111). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Mascot Creek: stream, flows SE 4 miles to North Fork Salcha River 3 miles N of that stream's junction with Salcha River and 42 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 41' N, 145° 18' W; (map 101). Local name reported in 1958 by USGS.

Mascot Creek: stream, flows SE 7.2 miles to Little Garfield Creek which flows to Noxapaga River, 31 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 26' N, 164° 16' W; (map 110). Variant: Tina Creek. Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS. Gerdine showed the upper course of the stream as “Tine Creek.”

Mascot Creek: stream, flows SW to Dome Creek which flows to American River, about 30 miles NE of Teller, Seward Peninsula Highlands; (map 111). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This feature cannot be precisely identified on current maps.

Mashik: village, see Port Heiden.

Mashik: village, see Port Moller.

Mashikh: village, see Port Moller.

Mashooshalluk Creek: stream, flows S 15 miles from Pamichtuk Lake to John River, 8.5 miles NW of Gunsight Mountain and 57 miles W of Wiseman, Brooks Range; 67° 35' N, 152° 12' W; BGN 1932; (map 124). Robert Marshall reported this in 1932 as an "Eskimo name, the first part being the Eskimo word for the root of the wild potato plant."

Masked Bay: estuary, on N end of Chenega Island, extends NW 2 miles to Dangerous Passage, 36 miles SE of Whittier, Chugach Mountains; 60° 22' 30" N, 148° 03' 00" W; BGN 1934; (map 63). Named in 1933 by a USC&GS field party "because the entrance to the bay is masked by a group of small islands."

Mason Creek: stream, flows SE 10 miles to Mason Slough, 7.5 miles WSW of Kallands, Kokrines-Hodzana Highlands; 65° 10' N, 153° 19' W; (map 107). Prospectors' name reported in 1908 by Maddren (1910, pl. 5), USGS.

Mason Creek: stream, flows SE 2.8 miles to Goldbottom Creek which flows to Niukluk River, 32 miles NE of Solomon, Seward Peninsula Highlands; 64° 58' N, 163° 54' W; (map 95). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Mason Hill: mountain, 1,275 ft., center of Kiska Island, Aleutian Islands; 51° 56' 57" N, 177° 31' 12" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Mason Narrows: reach, on Tanana River, extends 4 miles S of Goodpaster River and 7 miles E of Big Delta, Tanana Lowland; 64° 07' N, 145° 48' W; (map 101). Variant: Mason's Narrows. Named in 1885 by Lt. Allen (1887, p. 84), USA, for Otis Tufton Mason of the Smithsonian Institution.

Mason Slough: stream, anabranch of Yukon River, extends 11 miles from W end of Flora Island to E end of Clay Island, 5 miles E of Birches, Kokrines-Hodzana Highlands; 65° 07' 30" N, 153° 18' 00" W; (map 107). Variant: Herman Slough. Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the Department of the Interior.

Mason's Narrows: reach, see Mason Narrows.

Massacre Bay: bay, 4 miles across, on SE coast of Attu Island, Aleutian Islands; 52° 50' N, 173° 14' E; BGN 194:4; (map 13). Variant: Gavan Ubiennaya, Gavan Ubiennykh, Gavan Ubiyennykh, Gaven Ubiyennaya, Massacre Harbor, Oubiennaia Bay, Subienna Bay,

Ubienni Bay, Uniyenna Bay, Ubiyenna Harbor. This name was given by G. Island Davidov in 1802, presumably referring to the killing of 15 Aleut by promyshlenniki in 1745. See Attu Island. The Russians called it "Gavan Ubiyennykh" and "Gavan Ibiyennaya" meaning "massacre harbor" (Sarichev, 1826, map 13), IRN. This bay was also called "Oubiennaia" by Capt. F. P. Lutke (1836, p. 329) and "Subienna" by Grewingk (1849, p. 235).

Massacre Beach: beach, 0.9 miles long, on SE coast of Attu Island, on N shore of Massacre Bay, Aleutian Islands; 52° 51' 15" N, 173° 12' 40" E; (map 13). Name derived from Massacre Bay; published in 1948 by AMS.

Mastadon Creek: stream, flows N 4 miles to Chena River, 7 miles WNW of Granite Tors and 56 miles NW of Big Delta, Yukon-Tanana Highlands; 64° 53' 45" N, 146° 24' 45" W; (map 101). Local name reported in 1958 by USGS. "Named for the mastodon bones found in the frozen muck while mining."

Masters Creek: stream, flows SE 2.8 miles to Sulatna River E of Tamarack Bluff, 7.5 miles SE of Sulatna Crossing, Kilbuck-Kuskokwim Mountains; 64° 10' 15" N, 155° 13' 30" W; (map 98). Prospectors' name reported in 1913 by Eakin (1914, pl. 3), USGS.

Mastic Rock: rock, in Revillagigedo Channel, between Bold and Revillagigedo Islands, near mouth of Coho Cove, Alexander Archipelago; 55° 15' 31" N, 131° 24' 00" W; (map 3). Variant: Mastick Rock, Mystic Rock. Name published "as Mastick Rock" in 1883 Coast Pilot (p. 78). "A vessel named Mastick struck on this rock in July, 1882."

Mastodon Creek: stream, flows NE 6 miles, joins Independence Creek to form Mammoth Creek, 40 miles SW of Circle, Yukon-Tanana Highlands; 65° 30' 25" N, 145° 13' 45" W; (map 104). Named in 1894 by prospectors; name reported in 1896 by USGS (Spurr, 1898, pl. 50). So called because "fossil mastodon bones were found in the muck along the creek."

Mastodon Creek: stream, flows NW 1 mile to Columbia Creek in Kougarok River basin, 12 miles SW of Midnight Mountain and 53 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 43' N 165° 00' W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Mastodon Creek: stream, flows S 10 miles to Fish Creek, 20 miles NW of Livengood, Yukon-Tanana Highlands; 65° 41' N, 149° 04' W; (map 105). Local name published by USGS (Mertie, 1937, pl. 1).

Mastodon Creek: stream, flows SW 11 miles to Nowitna River 14 miles SW of its junction with Titna River, Kilbuck-Kuskokwim Mountains; 64° 13' 30" N, 153° 54' 48" W; (map 98). Local name reported in 1915 by H. M. Eakin (in Brooks and others, 1916, pl. 10), USGS.

Mastodon Creek: stream, flows W 11 miles to Tolstoi Creek, 23 miles NW of Ophir and 53 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 21' N, 157° 04' W; (map 90). Prospectors' name reported in 1917 by G. L. Harrington (in Martin and others, 1919, pl. 9), USGS.

Mastodon Dome: mountain, 4,418 ft., 46 miles SW of Circle, Yukon-Tanana Highlands; 65° 25' 45" N, 145° 20' 40" W; (map 104). Named by prospectors; reported in 1896 by USGS (Spurr, 1898, pl. 39).

Mastodon Fork Eagle Creek: stream, flows NW 2.2 miles, joins Miller Fork to form Eagle Creek, 46 miles SW of Circle, Yukon-Tanana Highlands; 65° 27' N, 145° 25' W; (map 104). Named by prospectors; name reported in 1896 by USGS (Spurr, 1898, pl. 50).

Mastodon: locality, on Mastodon Creek, 40 miles SW of Circle, Yukon-Tanana Highlands; 65° 30' N, 145° 14' W; (map 104). Name of an early mining camp, derived from the name Mastodon Creek. A post office was maintained here from 1902 to 1906 (Ricks, 1965, p. 41).

Mastoid Hill: mountain, 1,380 ft., center of Kiska Island, Aleutian Islands; 51° 56' 36" N, 177° 31' 40" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Maston Creek: stream, flows NW 5.5 miles to Crosby Creek which flows to Kugrupaga River, 6 miles SW of Ear Mountain and 42 miles N of Teller, Seward Peninsula Highlands; 65° 51' N, 166° 23' W; (map 111). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Masu Creek: stream, flows SE 11 miles to Kollutarak Creek 1 mile N of its junction with Ekokpuk Creek, 11 miles SW of Anaktuvuk Pass, Brooks Range; 68° 03' N, 152° 07' W; (map 134). Eskimo name published by Rausch (1951, p. 150)

Masukatalik Creek: stream, flows NW 18 miles to West Fork Buckland River, Nulato Hills; 65° 43' N, 160° 33' W; (map 109). Eskimo name reported in 1949 by the U.S. Army Corps of Engineers.

Matach Bay: cove, 0.6 miles across, between Kresta Point and Cape Wrangell, on NW coast of Attu Island, Aleutian Islands; 52° 57' 30" N, 172° 31' 30" E; (map 13). This name was shown on a manuscript map by L. M. Turner in the 1880's.

Mataktook Creek: stream, see Mataktook.

Mataktook Creek: stream, flows NW 2 miles to Chukchi Sea, between Tulugak and Kahkatak Creeks, Arctic Plain; 69° 01' N, 163° 52' W; (map 145). Variant: Mataktook Creek. Eskimo name reported by USC&GS in 1949, meaning "without parka." There is another stream with this name about 15 miles to the SW.

Matanooski River: stream, see Matanuska River.

Matanuska Glacier: glacier, trends NW 27 miles to its terminus at a stream which drains into Matanuska River, 46 miles NE of Palmer, Chugach Mountains; 61° 46' 35" N, 147° 46' 00" W; (map 69). Named in 1898 by Mendenhall (1900, p. 299 and 327), USGS; derived from the Matanuska River.

Matanuska Lake: lake, 3,000 ft. long, in Matanuska Valley, 4.5 miles SW of Palmer, Cook Inlet Lowland; 61° 33' 20" N, 149° 13' 40" W, (map 69). Name published on a 1918 blueprint map of The Alaska Railroad

Matanuska River: stream, formed by its East and South Forks at 61° 47' 30" N, 147° 30' 15" W, flows SW 75 miles to the Knik Arm Cook Inlet, 9.5 miles SW of Palmer, Cook Inlet Lowland; 61° 29' 40" N, 149° 16' 00" W; (map 69). Variant: Matanooski River, Mednofski River, Mednorchka River, Mednoviska River, Miduuski River. Name derived from the Russian term for the "copper river people" spelled Matanooski, Mednofski, Miduuski, Mednoviska, etc. It appears to be the same name used by the Russians for the Ahtena Indians on the Copper River, and may have originally been used in the 19th century to imply a route from Cook Inlet to the Copper River. The present spelling was used by USC&GS in 1897.

Matanuska Valley: valley, of Matanuska River extends SW 60 miles from terminus of Matanuska Glacier to Knik Arm Cook Inlet, 25 miles NE of Anchorage, Cook Inlet Lowland; 61° 40' N, 149° 06' W; (map 69). Name reported in 1898 by Mendenhall (1899, p. 46), USGS, while he was exploring the Matanuska River region under the command of Capt. E. F. Glenn, USA.

Matanuska: locality, on E shore of Old Man Lake, 21 miles W of junction of Tolsona Creek and Tazlina River, Copper River Basin; 62° 08' N, 146° 38' W; Former Indian village reported in 1898 by Capt. E. F. Glenn, USA. See Miduuski.

Matanuska: village, pop. 50, mile 150.7 on The Alaska Railroad, in Matanuska Valley, 5.5 miles SW of Palmer, Cook Inlet Lowland; 61° 32' 30" N, 149° 13' 45" W; (map 69). Village established as a railroad station about 1914 and named for the Matanuska River. A townsite was surveyed here in 1916 because this was the junction of the main railroad line and the Matanuska Branch to the coal fields.

Matcharak, Lake: lake, 2 miles long, in Noatak River valley, 37 miles SE of Howard Pass, Brooks Range; 67° 45' N, 156° 12' W; (map 126). Eskimo name reported by USGS in 1956.

Mather, Mount: peak, 12,123 ft. in Mount McKinley National Park, 20 miles NE of Mount McKinley, Alaska Range; 63° 11' 45" N, 150° 26' 00" W; BGN 1947; (map 88). Named in 1947 by NPS in honor of Stephen T. Mather, Director of the National Park Service from May 16, 1917, to January 8, 1929.

Mathews Dome: mountain, 4,710 ft., 3 miles E of Wild Lake and 37 miles W of Wiseman, Brooks Range; 67° 28' N, 151° 28' W; BGN 1932; (map 124). Robert Marshall reported this local name in 1932, "given by the prospectors for the late Joe Mathews, who made the first gold strike on the Wild River."

Mathews River: stream, flows S 22 miles from N of Snowden Mountain to Bettles River S of Wiehl Mountain, 27 miles WNW of Chandalar, Brooks Range; 67° 33' 30" N, 149° 30' 00" W; (map 123). Variant: Limestone Creek. This stream was reported as Limestone Creek in 1899 by T. G. Gerdine (in Maddren 1913, pl. 1), USGS, and in 1901 by W. J. Peters (Schradler, 1904, pl. 2), USGS. This present name was published in 1956 by USGS

Mathews Slough: stream, an anabranch of Koyukuk River, flows SW 16 miles on S and E side of Huggins Island, 24 miles NNE of Hochandochtla Mountain, Kokrines-Hodzana Highlands; 65° 51' 15" N, 154° 33' 00" W; (map 107). Local name obtained in 1954 by USGS topographers.

Matin Peak: peak, 4,700 ft., 2 miles NW of Olds Mountain and 7 miles NE of Juneau, Coast Mountains; 58° 21' 45" N, 134° 19' 35" W; (map 11). Local name reported in 1965 by D. A. Brew and A. B. Ford, USGS. It may be from the French word meaning "morning".

Matogak River: stream, heads at 59° 12' N, 160° 40' W, flows SW 28 miles to Hagemeister Strait, 10 miles N of Hagemeister Island, Kilbuck Kuskokwim Mountains; 58° 53' N, 160° 57' W; (map 39). Variant: Matuwalk River. Eskimo name obtained about 1947 from Frank Waskey, trader and prospector, by USGS. He states "This stream is well known to former prospectors as 'Matuwalk'."

Matsnu: island, see Moose Island.

Matson Creek: stream, flows NW 1.2 miles to East Fork Solomon River, 11 miles NE of Solomon, Seward Peninsula Highlands; 64° 41' 30" N, 164° 12' 45" W; (map 95). Prospectors' name shown on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Matson Creek: stream, flows SE 2 miles to Garnet Creek which flows to Flambeau River, 15 miles NE of Nome, Seward Peninsula Highlands; 64° 41' N, 165° 07' W; (map 94). Prospectors' name reported on a 1901 map of Cape Nome gold fields by David Fox, Jr.

Matsutuak River: stream, flows NW 8 miles to Ekaluakat River SE of its junction with Egaksrak River, 19 miles W of Demarcation Point, Arctic Plain; 69° 44' N, 142° 04' W; (map 138). Eskimo name recorded on Barter Island in 1952 by USC&GS and refers to a kind of tuber used for food.

Matthes Branch: glacier, see Matthes Glacier.

Matthes Glacier: glacier, heads at Alaska Canada boundary, 3 miles SE of Mount Ogilvie, and trends SW 12 miles to Taku Glacier, 27 miles NE of Juneau, Coast Mountains; 58° 41' N, 138° 17' W; BGN 1965; (map 11). Variant: Matthes Branch, North Branch Taku Glacier, Upper Taku Neve. Named in 1964 by members of the Juneau Icefield Research Program for Dr. Francois Emile Matthes, 1874-1948, topographer and glaciologist.

Matthes Glacier: glacier, see Bucher Glacier.

Matthews Creek: stream, flows NW 1.5 miles to Pilgrim River, 28 miles NW of Solomon, Seward Peninsula Highlands; 64° 56' 35" N, 164° 45' 30" W; (map 95). Variant: Mattis Creek. Reported as "Mattis" in 1906 by P. S. Smith (in Brooks and others, 1907, fig. 8).

Matthews Mountain: mountain, 1,710 ft., 3 miles W of Chirikof Point, on E coast of Attu Island Aleutian Islands; 52° 51' 06" N, 173° 21' 03" E BGN 1945; (map 13). This name was proposed in 1944 to honor Capt. Ralph D. Matthews, USAAF, killed December 26, 1943; published in 1951 on USC&GS Chart 9127.

Mattis Creek: stream, see Matthews Creek.

Mattress Hill: mountain, 1,370 ft., central Kiska Island, Aleutian Islands; 51° 56' 43" N, 177° 31' 17" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Matushka Island: island, 1.2 miles long, among Chiswell Islands, 36 miles SW of Seward, Chugach Mountains; 59° 37' N, 149° 37' W; BGN 1930; (map 49). Named by the 1912 USC&GS field party; it is "a Russian word meaning 'mother'."

Matuwalk River: stream, see Matogak River.

Matwi Island: island, see Saint Matthew Island.

Maud Creek: stream, flows NE 8 miles to Derwent Creek, 12 miles SE of junction of Charley and Yukon Rivers, Yukon-Tanana Highlands; 65° 10' N, 142° 34' W; (map 103). Prospectors' name from an unpublished map by E. J. Chamberlain dated 1902.

Maud Creek: stream, heads in Kigluaik Mountains, flows NE 1 mile to Golden Gate Creek, 3.5 miles SW of that stream's junction with Pilgrim River, 12 miles NE of Salmon Lake and 22 miles SW of Mount Bendeleben, Seward Peninsula Highlands; 65° 02' 45" N, 164° 45' 30" W; (map 110). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Maud Point: point of land, on S shore of Kimsham Cove, 2 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 41' 10" N, 136° 07' 30" W; (map 9). Name published in 1928 by USC&GS on Chart 8258. Reported to be named for Amundsen's ship. See Maudheim.

Maude, Lake: lake, 1 mile long, on Cleveland Peninsula, E of Bailey Bay, 4 miles N of Bell Island Hot Springs, Alexander Archipelago; 55° 58' N, 131° 39' W; (map 3). Local name published in 1943 by USC&GS.

Maudheim: locality, site of settlement at entrance to Wainwright Inlet, 3 miles SW of Wainwright, Arctic Plain; 70° 36' N, 160° 06' W; (map 146). Roald Engelbregt Gravning Amundsen, 1872-1928, explorer, established a small settlement here when investigating airplane navigation prior to his flight over the North Pole in 1925. Named for the expedition's ship Maud (Smith and Mertie, 1930, p. 104).

Mauneluk River: stream, heads in Schwatka Mountains, flows SW 50 miles to Kobuk River, 23 miles E of Shungnak, Kotzebue-Kobuk Lowland; 66° 52' N, 156° 18' W; (map 115). Variant: Mau-ne-luck, Manelak River. Eskimo name written "Mau-ne-luck" by Lt. Stoney (1900, map), USN, in 1885.

Maurelle Islands: islands, extend 7 miles W, off Gulf of Esquibel, W coast of Prince of Wales Island Alexander Archipelago; 55° 39' N, 133° 37' W; (map 4). Named by W. H. Dall, USC&GS, in 1879, for the Spanish navigator Don Francisco Antonio Maurelle who, under the command of Don Juan de la Bodega y Quadra, made and took part in surveys in this region from 1775 to 1779.

Maury Peak: peak, 5,452 ft., 2.5 miles E of Farragut Lake, 97 miles E of Sitka, Coast Mountains; 57° 16' 00" N, 132° 53' 40" W; (map 8). Named in 1895 by USC&GS for Capt. M. F. Maury, USN. The name was published in 1895 by USC&GS on Chart 8050.

Mausolus, Mount: mountain, 9,170 ft., NW of Stony Glacier, between headquarters of Stony and Swift Rivers, 100 miles NW of Tyonek, Alaska Range; 61° 37' 30" N, 153° 51' 20" W; (map 71). Name shown on a manuscript map, probably done by a prospector, dated 1917. He must have been a classicist because several of his names come from classical history. Mausolus, ruler of Caria (now Turkey) about 353 B.C., was commemorated by a magnificent tomb at Halicarnassus.

Mauze Gulch: ravine, trends SW 2 miles to Kougarok River 13 miles N of its junction with Kuzitrin River, 45 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 26' N, 164° 40' W; (map 110). Variant: Moses Gulch. Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson. Reported as "Moses Gulch" in 1906 by A. H. Brooks (in Collier and others, 1908, pl. 9), USGS.

Mavis Island: island, 0.3 miles long, in Eyak Lake, 2 miles E of Cordova, Chugach Mountains; 60° 32' 45" N, 145° 41' 30" W; BGN 1937; (map 64). Named for Miss Mavis Fields of Cordova, who was killed in an airplane accident near this island on May 19, 1935; reported in 1936 by USGS.

Max Cove: estuary, extends SE 3 miles off Klakas Inlet, on SW coast of Prince of Wales Island, Alexander Archipelago; 54° 57' 15" N, 132° 24' 15" W; (map 1). Local name published by USC&GS in 1911.

Max Hill: hill, 980 ft., center of Kiska Island, Aleutian Islands; 51° 56' 57" N, 177° 30' 30" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Max Lake: lake, 3,000 ft. long., in Tordrillo Mountains, 12 miles NW of Chakachamna Lake and 61 miles NW of Tyonek, Alaska Range; 61° 22' 25" N, 152° 52' 25" W; (map 70). Local name reported in 1958 by USGS.

Maxeys-Cache: locality, near junction of North Fork Goodpaster River and Eisenmenger Fork, 51 miles ENE of Big Delta, Yukon-Tanana Highlands; 64° 28' N, 144° 14' W; (map 101). Local name published in 1943 by USGS.

Maxon Lake: lake, see Maxson Lake.

Maxson Lake: lake, 1 mile across, 13 miles SW of Lake Louise, 45 miles NW of Glennallen, Copper River Basin; 62° 12' 30" N, 146° 55' 00" W; (map 83). Variant: Maxon Lake. Local name reported in 1959 by USGS.

Maxwell Creek: stream, flows W 1.5 miles to Shepherd Creek, 18 miles NE of Katalla, Chugach Mountains; 60° 24' N, 144° 12' W; (map 64). Name used by local prospectors and reported in 1905 by G. C. Martin, USGS.

May Creek: locality, on Dan Creek Road at May Creek crossing, 9 miles SE of McCarthy, St. Elias Mountains; 61° 21' 00" N, 142° 41' 40" W; (map 67). Local name obtained by USGS and published on maps since 1954.

May Creek: stream, between Chititu and Young Creeks, flows N 8 miles to Nizina River, 9 miles SE of McCarthy, St. Elias, Mountains; 61° 22' 00" N, 142° 41' 40" W; (map 67). Local name recorded in 1902 by G. M. Easterly of Valdez.

May Creek: stream, flows E 5.6 miles to join Iron Creek to form Sullivan Creek which flows to Kotzebue Sound, 27 miles N of Imuruk Lake, Seward Peninsula Highlands; 66° 00' N, 163° 10' W; (map 110). Prospectors' name reported in 1901 by D. L. Reaburn (in Mendenhall, 1902, pl. 4a), USGS.

May Creek: stream, flows NE 6.2 miles to Sulatna River, 9 miles E of Sulatna Crossing, Kilbuck-Kuskokwim Mountains; 64° 11' N, 155° 10' W; (map 98). Local name reported about 1952 by USGS.

May Creek: stream, flows NW 31 miles around E And N sides of Arc Mountain to Nanushuk River, 15 miles NE of Table Top and 52 miles NE of Anaktuvuk Pass, Arctic Slope, 68° 45' N, 150° 34' W; BGN 1949; (map 134). Named in 1944 by USGS geologists during The exploration of Naval Petroleum Reserve No. 4 during the month of May.

May Creek: stream, flows SW 1.5 miles to Bear Creek, 28 miles N of Haycock, Seward Peninsula Highlands; 65° 37' N, 161° 09' W; (map 109). Local name shown on a 1903 fieldsheet by D. C. Witherspoon, USGS.

May Creek: stream, see Sullivan Creek.

May Gulch: ravine, trends NW 0.5 miles to Hungry Creek which flows to Oregon Creek, a tributary of Cripple River, 14 miles NW of Nome, Seward Peninsula Highlands; 64° 39' 40" N, 165° 40' 20" W; (map 94). Prospectors' name shown on the 1904 "Map Of Cape Nome Precinct" by Arthur Gibson.

May Gulch: ravine, trends W 1 mile to Heine Creek, 5 miles NE of Livengood, Yukon-Tanana Highlands; 65° 33' 30" N, 148° 24' 50" W; (map 105). Local name published by USGS in the 1950's.

May Lake: lake, 0.8 miles across, at head of Canoe Creek, between Canoe Hills and Fortress Creek, 47 miles NW of Anaktuvuk Pass, Arctic Slope; 68° 37' 30" N, 153° 00' 00" W; (map 134). Named in 1944 by W. W. Patton, USGS, For a May camp during the exploration of Naval Petroleum Reserve No. 4.

Mayachnoy, Ostrov: island, see Signal Island.

Mayastetchnoi Island: island, see Signal Island.

Maybe Creek: stream, flows NW 5 miles to Moose Creek, 8 miles SE of its junction with Billy Goat Creek and 33 miles NE of Flat, Kilbuck-Kuskokwim Mountains; 62° 45' 10" N, 157° 11' 30" W; (map 79). Prospectors' name obtained in 1952 by USGS topographers.

Maybe Creek: stream, heads in lake at 69° 15' 30" N, 153° 26' 00" W, flows W 55 miles to join Kigalik River to form Ikpikpuk River, Arctic Slope; 69° 20' 45" N, 154° 42' 30" W; BGN 1925; (map 142). Named by members of USGS Expedition of 1924, because "when searching for a portage, we were doubtful where this [stream] led."

Maybeso Creek: stream, flows E 6.4 miles to Hollis Anchorage, near center of Prince of Wales Island, N of Cat Island, Alexander Archipelago; 55° 29' 10" N, 132° 39' 55" W; (map 4). Name published by Wright and Wright (1908, fig. 15), USGS.

Mayd, Ostrov: island, see Maid Island.

Mayer Peak: mountain peak, 5,100 ft., 4.2 miles SE of Terrace Mt. and 32 miles N of Valdez, Chugach Mountains; 61° 33' 45" N, 146° 01' 30" W; (map 68). Variant: Meyer Peak. Named in 1898 by Capt. W. R. Abercrombie, USA.

Mayeral, Gavan: water passage, see Mayoral, Port.

Mayflower Creek: stream, flows NE 1 mile to Kal Sin Bay, 10 miles S of Kodiak, Kodiak Island; 57° 38' 45" N, 152° 25' 45" W; BGN 1966; (map 34). Local name reported in 1966 by the Alaska State Geographic Board.

Mayflower Island: island, see Juneau Island.

Maylay Creek: stream, flowing N 1.1 miles to Bering Sea, 0.5 miles NE of Conquer Point, Kiska Island, Aleutian Islands; 52° 00' 35" N, 177° 30' 03" E; (map 14). Variant: Bourbon Creek, Malay Creek. An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Maynard Glacier: glacier, 3 miles long, in Glacier Bay National Monument, heads on Goat Ridge, trends NE to its 1950 terminus 1.4 miles W of Charpentier Inlet, 58 miles NW of Hoonah, St. Elias Mountains; 58° 42' 15" N, 136° 33' 00" W; BGN 1937; (map 10). Named by W. O. Field and W. S. Cooper For Rear Adm. Washburn Maynard, 1844-1913, USN, who was in command of the U.S.S. Pinta when he took H. F. Reid to Muir Glacier in 1892.

Maynard Hill: hill, 380 ft., on west central Saint George Island, in Pribilof Islands; 56° 35' 25" N, 169° 41' 00" W; (map 39). Variant: Eganuta-kover-ushka' , Iganata-koverushka' , Maynards Hill. This feature was named in 1891 by Joseph Stanley-Brown, USGS, probably for Lt. Washburn Maynard, USN, who accompanied H. W. Elliott in 1874. According to Putnam (1903, p. 1014), USC&GS, "Eganuta-kover-ushka' is the Aleut-Russian name meaning "hill near Eganuta."

Maynard Mountain: mountain, 4,000 ft., in Chugach Mountains, 3 miles NW of Whittier, Chugach Mountains; 60° 48' 12" N, 148° 44' 40" W; BGN 1965; (map 63). Named by R. G. Warns, USA, for Robert L. Maynard, U.S. Army helicopter pilot, who was killed in April 1964, while aiding victims of the Good Friday earthquake.

Maynards Hill: hill, see Maynard Hill.

Mayoeak River: stream, flows N 5 miles to Elson Lagoon, 5 miles SE of Barrow, Arctic Plain 71° 16' N, 156° 24' W; (map 153). Variant: Belle Vue River, Bellevue River, Bellevue River Mayoria. Eskimo name reported in 1950 by USC&GS meaning “to ascend,” [meokiak], referring to step-like ponds along its course. The name was first recorded as “Mayoria” by Comdr. Maguire (Great Britain, 1854, map facing p 186), RN. Thomas Simpson (1843 p. 152). Named the stream “Bellevue” in expression of delight on seeing his goal, Point Barrow.

Mayoral Cove: water passage, see Moyoral, Port.

Mayoral, Port: water passage, 3 miles long, between Baker and Saint Ignace Islands, Alexander Archipelago; 55° 24' N, 133° 27' W; (map 4). Variant: Gavan Mayeral, Mayoral Cover, Puerto de Mayoral. Name “Puerto de Mayoral” or “port of steward” was given on May 20, 1779, by Francisco Antonio Maurelle (Wagner, 1937, p 396).

Mayoral, Puerto: water passage, see Mayoral Port.

Mayoria: stream, see Mayoeak River.

Mayoriak River: stream, heads in Imakruak Lake, flows N 5 miles to Smith Bay, Arctic Plain; 70° 48' N, 154° 03' W; (map 148) Variant: Miguakiak River. Eskimo name attributed to Stefansson by Leffingwell (1919, p. 97). Reported as an outlet of Teshekpuk Lake, this feature is probably the same stream shown on Maguire's chart (Great Britain, 1854, facing p. 186) as “R. Miguakiak” (see Miguakiak River).

Mayoriak: stream, see Miguakiak River.

Maypole Hill: mountain, 1,724 ft., 16 miles NE of Rampart, Kokrines-Hodzana Highlands; 65° 41'45” N, 149° 52' 10” W; (map 105). Local name published by USGS in the 1950's.

Mays Oaks Gulch: ravine, see Little Gulch.

Maysi, Cabo: point of land, in Port Refugio Bucareli Bay, Alexander Archipelago. Spanish name probably given by Francisco Antonio Maurelle in 1779 “after a cape of that name at the east end of Cuba as he had seen service in the Caribbean” (Wagner 1937, p. 471).

Mayuasanik Creek: stream, flows N 10 miles to Colville River 1.2 miles S of its junction with Killik River, Brooks Range; 68° 59' N, 153° 58' W; (map 133). Eskimo name reported in 1956 by T. E. Taylor, USGS.

Mayukuit Mountain: mountain, 6,200 ft., E of junction of Easter Creek and Killik River, Brooks Range; 68° 10' N, 154° 00' W; (map 133). Eskimo name referring to “hunting [Dall] sheep with dogs, and reported in 1956 by T. E. Taylor, USGS.

Mazama, Mount: peak, 6,860 ft, 4 miles NE of Glacier Point, E of Ruth Glacier, Alaska Range; 62° 54' 50” N, 150° 29 30” W; (map 81). Mountain climbers' name probably given by members of the 1945 Mazama expedition to the area (Metcalf, 1945, map facing p. 11).

Mazarredo'Puerto: estuary, see Fidalgo, Port.

Mazuma Creek: stream, flows SW 6 miles to Caribou Creek, 20 miles NW of Tahnetta Pass, Talkeetna Mountains; 62° 01' 25" N, 147° 52' 20" W; (map 82). Local name published by G. C. Martin and J. B. Mertie (in Brooks and others, 1914, pl. 11), USGS.

McAdam Creek: stream, flows NW 3 miles to California Creek, 38 miles SE of Nenana, Alaska Range; 64° 02' 25" N, 148° 42' 30" W; (map 100). Local name published in 1915 on a GLO[BLM] survey Plateau

McAdam Creek: stream, flows SW 4.2 miles to Tisuk River, 40 miles NW of Nome, Seward Peninsula Highlands; 64° 59' N, 166° 11' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

McAlister Creek: stream, see McAllister Creek.

McAllister Creek: stream, flows E 2.5 miles to Shoup Bay, 0.5 miles SE of Palmer Creek and 11 miles W of Valdez, Chugach Mountains; 61° 08' 05" N, 146° 35' 45" W; (map 68). Variant: McAlister Creek. Local name published in 1912 by USGS.

McAllister Gulch: ravine, trends NE 1 mile to Arizona Creek which flows to Kougarok Creek, 15 miles SW of Midnight Mountain and 48 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 36' N, 164° 52' W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

McAntee Creek: stream, flows SE 7.5 miles to Yukon River, 13 miles NE of Ruby, Kokrines Hodzana Highlands; 64° 51' 30" N, 155° 09' 10" W; (map 98). Local name obtained in 1956 by Orth.

McArthur Cove: cove, 0.5 miles wide, on N coast of Ragged Island, in Pye Islands, 48 miles E of Seldovia, Chugach Mountains; 59° 22' 30" N, 150° 21' 30" W BGN 1929; (map 50). Named by USC&GS in 1927, probably for nearby McArthur Pass.

McArthur Creek: stream, flows N 23 miles to Ladue River, W of Moosehorn Ridge, 30 miles NE of Northway Junction, Yukon-Tanana Highlands; 63° 16' N, 141° 02' W; BGN 1912; (map 85). Probably named in 1912 for J. J. McArthur of the IBC.

McArthur Flats: flats, extend NE 8 miles from Kustatan Ridge at mouth of McArthur River, 30 miles NW of Kenai, Cook Inlet Lowland; 60° 55' N, 151° 43' W; (map 62). Local name reported in 1958 by USGS.

McArthur Glacier: glacier, in Chigmit Mountains, trends E 6.2 miles to its terminus at head of McArthur River, 33 miles W of Tyonek, Aleutian Range; 61° 06' 50" N, 152° 21' 00" W; (map 70). Local name reported in 1958 by USGS.

McArthur Pass: water passage, 0.5 miles wide, N of Ragged Island, connecting East Arm Nuka Bay with Gulf of Alaska, 48 miles E of Seldovia, Chugach Mountains; 59° 27' 30" N, 150° 21' 00" W; (map 50). Named by USC&GS in 1906 for Coast Survey steamer McArthur which was used for surveys in this area during 1906-07.

McArthur Pass: water passage, on approach to Kiska Harbor from Bering Sea, between McArthur Reef and NE coast of Kiska Island, Aleutian Islands; 52° 04' N, 177° 46' E; (map 14). Name published in the 1954 Coast Pilot (p. 466).

McArthur Reef: reef, 0.8 miles across, in Bering Sea, 11.5 miles ESE of Kiska Volcano, Kiska Island, Aleutian Islands; 52° 03' 45" N, 177° 52' 10" E; BGN 1937; (map 14). Named for USC&GS steamer McArthur and published on a 1906 USC&GS chart.

McArthur Reef: reef, in Sumner Strait, between Zarembo, Prince of Wales and Kupreanof Islands, Alexander Archipelago; 56° 23' 45" N, 133° 10' 30" W; (map 6). Named in late 1880's by USC&GS for its steamer McArthur.

McArthur Reef: rock, see Westdahl Rock.

McArthur River: stream, heads at McArthur Glacier terminus, flows SE 33 miles to Trading Bay, 30 miles NW of Kenai, Cook Inlet Lowland; 60° 55' N, 151° 43' W; BGN 1916; (map 62). Named in 1910 by USC&GS for the steamer McArthur.

McArthur, Mount: mountain, 2,150 ft., 6 miles N of Cape Decision, on S coast of Kuiu Island Alexander Archipelago; 56° 05' 00" N, 134° 11' 15" W, (map 5). Named in 1886 by Lt. J. M. Helm, USN, for the Coast Survey steamer McArthur, which he commanded in 1886.

McArthur, Port: bay, 0.6 miles across, in Affleck Canal, on S coast of Kuiu Island, Alexander Archipelago; 56° 04' 00" N, 134° 07' 30" W; (map 5). Named in 1886 by Lt. J. M. Helm, USN, for the Coast Survey steamer McArthur, which he commanded in 1886.

McBann Creek: stream, flows NW 1.5 miles to Gold Run Creek which flows to Casadepaga River, 23 miles NE of Solomon, Seward Peninsula Highlands; 64° 51' N, 164° 05' W; (map 95). Prospectors' name reported on a 1902 prospectors' manuscript map.

McBlaine Lake: lake, see Sadie Lake.

McBride Glacier: glacier, in Glacier Bay National Monument, heads on S slope of Takhinsha Mountains, trends S 14 miles to Muir Inlet, 4 miles N of Sealers Island, and 42 miles SW of Skagway, St. Elias Mountains; 59° 02' 00"N, 136° 08' 30" W; (map 45). Variant: Second North Tributary. Named in 1890 by Reid (1896, pl. 86) for H. McBride, a member of his party in 1890. On the map dated 1890, Reid (1892, pl. 14) had named the glacier "Second North Tributary Muir Glacier," but later he changed the name to McBride Glacier.

McCall Creek: stream, heads at McCall Glacier in Romanzof Mountains, flows NE 8 miles to Jago River, 18 miles NE of Mt. Michelson, Brooks Range; 69° 25' N, 143° 36' W; BGN 1959; (map 138). Named in 1958 by R. E. Isto, USGS, "after McCall Glacier."

McCall Glacier: glacier, heads on Mt. Hubley in Romanzof Mountains, trends N 5 miles to its terminus at head of McCall Creek, 10 miles E of Mt. Michelson, Brooks Range; 69° 20' N, 143° 49' W; BGN 1960; (map 138). Named in 1956 by R. C. Hubley for John Gill McCall, glaciologist, University of Alaska, who died in 1954.

McCallie Creek: stream, flows E 3 miles to Ohio Creek, 60 miles SW of Healy, Alaska Range; 63° 06' N, 149° 49' W; (map 87). Local name reported in 1925 by S. R. Capps (in Moffit and others, 1927, pl. 2), USGS.

McCallum Creek: stream, heads at glacier near head of West Gulkana Glacier, flows SW 6 miles to Phelan Creek, 2 miles N of Fielding Lake and 14 miles NW of Paxson, Alaska Range; 63° 13' 22" N, 145° 40' 00" W; (map 86). Named for the McCallum telegraph station; local name reported about 1913 by U.S. Army Signal Corps personnel.

McCally Creek: stream, heads on Barometer Mountain, flows NE 2.8 miles to Kuskokwim River, 0.6 miles N of Red Devil and 7 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 46' 15" N, 157° 19' 20" W; BGN 1943; (map 72). Locally named "for a prospector" according to USGS in 1942.

McCament Creek: stream, flows SW 6 miles to Allen River, 6.5 miles S of Gunsight Mountain and 50 miles W of Wiseman, Brooks Range; 67° 23' N, 151° 59' W; BGN 1932; (map 124). Named in 1931 by Robert Marshall "for an old prospector in the area, 'Mac' McCament."

McCann Creek: stream, flows NE 1 mile to Smalls River, 29 miles NE of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 58' 50" N, 161° 42' 40" W; BGN 1938; (map 39). Local name published in a 1933. U.S. Dept. of Interior mining report.

McCann Hill: mountain, 4,275 ft., on Alaska-Canada boundary, 11 miles NE of Eagle, Porcupine Plateau; 64° 55' N, 141° 00' W; (map 102). Named in 1914 by CPCGN for W. S. McCann, member of 1912 Canadian Geological Survey party under D. D. Cairnes.

McCartey, Point: point of land, on an island in Bronaugh Islands, at mouth of Nichols Passage, Alexander Archipelago; 55° 05' 50" N, 131° 42' 15" W; (map 3). Variant: McCarty Point. Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

McCarthy Creek Glacier: glacier, trends S 1.9 miles to its terminus at head of McCarthy Creek, 11 miles NE of McCarthy, Wrangell Mountains; 61° 36' N, 142° 49' W; (map 67). Named for the creek; reported by Moffit and Capps (1911, p. 48), USGS.

McCarthy Creek: stream, flows S and W 18 miles from McCarthy Glacier terminus to Kennicott River at McCarthy, Wrangell Mountains; 61° 25' 45" N, 142° 56' 00" W; (map 67). Local name reported in 1900 by T. G. Gerdine (in Mendenhall and Schrader, 1903, pl. 3), USGS.

McCarthy Glacier: glacier, see McCarty Glacier.

McCarthy Telegraph Station: village, see Big Delta.

McCarthy, Mount: mountain, see McCarty, Mount.

McCarthy: settlement, at mouth of McCarthy Creek near Kennicott Glacier, 12 miles NE of the junction of the Nizina and Chitina Rivers, Wrangell Mountains; 61° 26' 00" N, 142° 55' 30" W; (map 67). Variant: Shushanna Junction. Mining camp named for nearby stream.

Established about 1908; population of 127 in 1920; 115 in 1930; and 49 in 1939. The McCarthy post office operated from 1912 to 1943. See Kennicott.

McCarthy: village, see Big Delta.

McCarthy's Marsh: basin, 25 miles long, at junction of Pardon and Fish Rivers, S of Bendeleben Mountains and W of Darby Mountains, Seward Peninsula Highlands; 65° 05' N, 163° 10' W; (map 110). Variant: Upper Fish River Basin. Local name published in 1956 by USGS; referred to as "Upper Fish River Basin" by Mendenhall (1901, p. 125), USGS.

McCarty Glacier: glacier, heads 0.2 miles W of summit of Mount McCarty, trends SE 1.6 miles to 1961 terminus, 2.7 miles NW of Cape Enchantment and 25 miles NE of Yakutat, St. Elias Mountains; 59° 51' 45" N, 139° 23' 10" W; BGN 1911; (map 46). Variant: McCarthy Glacier. Named in 1905 by R. S. Tarr and G. C. Martin, USGS. See McCarty, Mount.

McCarty Glacier: glacier, heads in Kenai Mountains and trends S 7 miles to its terminus at East Arm Nuka Bay, 45 miles E of Homer, Chugach Mountains; 59° 44' 00" N, 150° 13' 30" W; BGN 1911; (map 50). Named for William McCarty of Seward and reported by USGS in 1911.

McCarty Lagoon: lagoon, 0.5 miles wide, on E shore of East Arm Nuka Bay, Kenai Peninsula, 43 miles ESE of Homer, Chugach Mountains; 59° 32' N, 150° 21' W; BGN 1911; (map 50). Local name reported by USGS in 1911 as being "named for William McCarty of Seward."

McCarty Point: point of land, see McCartey, Point.

McCarty Roadhouse: village, see Big Delta.

McCarty Telegraph Station: village, see Big Delta.

McCarty, Mount: mountain, 3,519 ft., 2.6 miles SE of Mount Alexander and 26 miles NE of Yakutat, St. Elias Mountains; 59° 53' N, 139° 24' W; (map 46). Variant: Mount McCarthy. Named in 1905 by Tarr and Martin, (1906, map), USGS, for Neil McCarty, one of Island C. Russell's assistants on his 1891 expedition.

McCarty: village, see Big Delta.

McClellan Flats: tidal flat, 2.2 miles across, at mouth of Chilkat River on Chilkat Inlet, 1 mile N of Pyramid Harbor and 17 miles SW of Skagway, Coast Mountains; 59° 13' N, 135° 29' W; (map 45). Published by USC&GS in the 1891 Coast Pilot (p. 201). This flat was named by the U.S. Navy for Lt. E. P. McClellan, USN who visited the locality in 1880.

McClellan Group: islands, 0.1 miles across, in Galankin Islands, Sitka Sound, 1.5 miles S of Sitka Alexander Archipelago; 57° 01' 40" N, 135° 20' 30" W, (map 9). Named in 1880 by U.S. Navy for Lt. E. P. McClellan, USN, and published by USC&GS in the 1883 Coast Pilot (p. 143).

McClellan Rock: rock, 0.7 miles SE of Todd in Peril Strait, off S coast of Chichagof Island, Alexander Archipelago; 57° 27' 10" N, 135° 01' 30" W; (map 9). Variant: McLellan. Named in

1880 by U.S. Navy for its discoverer Lt. E. P. McClellan, USN (U.S. Coast and Geodetic Survey, 1883, p. 166).

McCloud Creek: stream, flows NW 4 miles to Murphy Creek, 17 miles NW of Fairbanks, Yukon-Tanana Highlands; 65° 00' N, 148° 07' W; (map 105). Named by prospectors; reported in 1908 by USGS (Covert and Ellsworth, 1909, pl. 2).

McCloud Creek: stream, see McLeod Creek.

McCloud Head: promontory, on E tip of Attu Island, Aleutian Islands; 52° 49' 50" N, 173° 25' 40" E; (map 13). Named by the U.S. Army during World War II; map published in 1948 by AMS.

McCloud Lake: lake, see McLeod Lake.

McCloud Ranch Creek: stream, flows SE 1.6 miles to Hot Springs Slough, 52 miles NE of Bitzshini Mountains, Yukon-Tanana Highlands; 64° 59' N, 150° 43' W; (map 99). Local name reported in 1952 by USGS.

McClure Bay: estuary, on E coast of Kenai Peninsula, extends N 8 miles to Port Nellie Juan, 24 miles SE of Whittier, Chugach Mountains; 60° 34' 00" N, 148° 10' 30" W; BGN 1910; (map 63). Named in 1910 by U. S. Grant, USGS.

McClure Islands: barrier islands, extends 6.5 miles on Beaufort Sea coast, 8 miles N of Foggy Island Bay and 28 miles NW of Flaxman Island, Arctic Plain; 70° 22' N, 147° 25' W; (map 150). Named by Leffingwell (1919, p. 97) after Capt. Robert McClure, RN, who discovered, in August 1850, "the long chain of islands that extend from the Midways to Flaxman Island * * *."

McConnell Ridge: ridge, 3 miles long, in Glacier Bay National Monument, extends W from McBride Glacier to Muir Inlet, 4 miles N of Sealers Island and 40 miles SW of Skagway, St. Elias Mountains; 59° 03' N, 136° 07' W; (map 45). Named in 1947 for R. G. McConnell, 1857-1942, Canadian geologist, who visited Muir Inlet in 1913. McConnell was a member of the Canadian Geological Survey and was famous for his geological investigations of the Klondike and Yukon areas of Canada.

McCord Bay: bay, 0.5 miles across, at head of Port Hobron, on N coast of Sitkalidak Island, SE of Kodiak Island; 57° 08' 30" N, 153° 12' 00" W; (map 34). Local name published in 1943 by USC&GS.

McCord Creek: stream, flows E 11 miles to McElfish Creek W of Alaska-Canada boundary 49 miles NE of Northway Junction, Yukon Tanana Highlands; 63° 37' 30" N, 141° 00' 00" W; (map 85). Local name reported in 1956 by USGS.

McCord Creek: stream, flows SW 5.5 miles to Tolovana River, 8 miles SE of Livengood, Yukon-Tanana Highlands; 65° 28' 40" N, 148° 12' 45" W; (map 105). Named by prospectors for a local miner; reported in 1915 by USGS (Brooks and others, 1916, pl. 9).

McCord: locality, site of former village, on E shore of McCord Bay, at head of Port Hobron on N coast of Sitkalidak Island, SE of Kodiak Island, 57° 08' 30" N, 153° 11' 45" W; (map 34). The McCord post office was established in 1929 and moved to Old Harbor in 1931.

McCoy Creek: stream, flows NW 22 miles to Salcha River, 31 miles NW of Big Delta, Yukon-Tanana Highlands; 64° 30' 55" N, 146° 23' 45" W; BGN 1964; (map 101). Variant: Flat Creek. Name originally applied by mistake by USGS to the stream now known as Flat Creek (Capps, 1912, pl. 1).

McCoy Creek: stream, see Flat Creek.

McCulloch Rock: rock, at mouth of Chapel Cove, on SW coast of Adak Island, Aleutian Islands; 51° 38' 52" N, 176° 48' 44" W; (map 17). Name published by USC&GS in the 1954 Coast Pilot.

McCumber Creek: stream, heads 1.6 miles N of St. Anthony Pass, flows NW 13 miles to Jarvis Creek, 21 miles S of Delta Junction, Alaska Range; 63° 44' 55" N, 145° 39' 10" W; BGN 1937; (map 86). Name recorded in 1937 by USGS.

McCune Glacier: glacier, trends N 4 miles to its terminus 1.5 miles S of Honey Glacier, 50 miles NW of Katalla, Chugach Mountains; 60° 54' 00" N, 144° 48' 30" W; (map 64). Named by Lawrence Martin in 1910 for "McCune of the Copper River and Northwestern Railroad."

McCurdy Creek: stream, flows N 4.5 miles to Chitina River, 3 miles SW of Gibraltar Hill and 35 miles SE of McCarthy, St. Elias Mountains; 61° 05' N, 142° 11' W; (map 67). Local name reported in 1915 by F. H. Moffit, USGS.

McCush Lake: lake, see Mendenhall Lake.

McDame Creek: stream, flows NE 1 mile to Gold Run which flows to Bluestone River, 14 miles SE of Teller, Seward Peninsula Highlands; 65° 04' 00" N, 166° 12' 00" W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

McDermott Creek: stream, flows N 12 miles to Yukon River, 15 miles NE of Rampart, Yukon-Tanana Highlands; 65° 38' 45" N, 149° 48' 50" W; (map 105). Named by prospectors; reported in 1902 by Lt. Hjalmar Erickson, USA. The name was published by USGS (Prindle, 1905, pl. 16).

McDoel Peak: mountain, 5,111 ft., 3 miles NE of junction of Happy and Skwentna Rivers, 74 miles SW of Talkeetna, Alaska Range; 62° 01' 10" N, 152° 18' 20" W; (map 81). Named in 1898 by W. S. Post, USGS.

McDonald Arm: bay, 3.5 miles long, at head of Duncan Canal, on Kupreanof Island, 11 miles E of Petersburg, Alexander Archipelago; 56° 47' 30" N, 133° 15' 30" W; (map 6). Local name recorded in 1951 by USGS.

McDonald Bar: ridge, elev. 2,600 ft., extends S 3 miles from junction of Hoosier and Minook Creeks, 5.5 miles SSE of Rampart, Yukon-Tanana Highlands; 65° 25' 30" N, 150° 05' 30" W;

(map 106). Variant: MacDonald Bar. Prospectors' name reported in 1904 by L. M. Prindle, USGS.

McDonald Bay: cove, see McDonald Cove.

McDonald Bay: estuary, see Yes Bay.

McDonald Cove: cove, 0.6 miles across, S of Monolith Point, on E coast of Agattu Island, Aleutian Islands; 52° 27' 40" N, 173° 42' 00" E, BGN 1938; (map 13). Variant: McDonald Bay. Named in 1896 by USBF to honor Marshall McDonald, who was U.S. Commissioner of Fish and Fisheries before his death in 1895.

McDonald Creek: stream, flows S 1 mile to Discovery Creek which flows to Flambeau River, 13 miles NE of Nome, Seward Peninsula Highlands; 64° 38' N, 165° 05' W; (map 94). Prospectors' name shown on the 1904 "Map of Cape Nome Precinct" by Arthur Gibson.

McDonald Creek: stream, flows SE 2.2 miles to Nome River, 5 miles E of Nome, Seward Peninsula Highlands; 64° 30' N, 165° 14' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks and others, 1901, pl. 17), USGS. This stream may have been named for "Alex" McDonald, who claimed Polte Gulch on Cripple Creek.

McDonald Creek: stream, flows W 14 miles to Anvik River, 32 miles SE of Unalakleet, Nulato Hills; 63° 28' N, 160° 17' W; (map 91). Local name reported in 1949 by USC&GS.

McDonald Island: island, 0.2 miles long, in Frederick Sound, 6 miles NE of Petersburg, Alexander Archipelago; 56° 50' 50" N, 132° 49' 00" W; (map 6). Named in 1887 by Lt. Comdr. C. S1. Thomas, USN, for Ens. John McDonald, USN a member of his party.

McDonald Lagoon: lagoon, 4 miles long, on E central Sitkalidak Island, SE of Kodiak Island; 57° 09' N, 153° 05' W; (map 34). Local name published in 1943 by USC&GS.

McDonald Point: point of land, on E coast of Agattu Island, Aleutian Islands; 52° 26' 00" N, 173° 42' 20" E; BGN 1938; (map 13). Name derived from McDonald Cove; proposed by the U.S. Navy Hydrog. Office in 1938.

McDonald Rock: rock, in Stephens Passage W of Hobart Bay, about 3 miles W of The Twins and 71 miles NE of Sitka, Coast Mountains, 57° 25' N, 133° 38' W, (map 8). Name published in 1895 by USC&GS.

McDonald Spit: spit, 1 mile long, on Kenai Peninsula, at W edge of Kasitsna Bay, 5 miles NE of Seldovia, Chugach Mountains; 59° 29' N, 151° 35' W; (map 50). Local name published by USGS in 1951.

McDonald, Lake: lake, 4.5 miles long, on Cleveland Peninsula, N of Yes Bay, Alexander Archipelago; 55° 58' N, 131° 50' W; (map 3). Local navigators' name obtained in 1904 by H. C. Fassett, USBF.

McDonald, Mount: mountain, 2,157 ft., E of Anvik River, 40 miles S of Unalakleet, Nulato Hills; 63° 17' 30" N. 160° 28' 00" W; (map 91). Local name reported in 1949 by USC&GS

McDonald: locality, see Yes Bay.

McDonalds Trading Post: locality, on S bank of Kuskokwim River, 3 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 44' 30" N, 157° 13' 10" W; (map 72). Published in 1950 by USGS.

McDonell, Mount: mountain, 5,481 ft., on Alaska-Canada boundary, 4 miles NW of Pleasant Camp and 41 miles W of Skagway, St. Elias Mountains; 59° 28' 00" N, 136° 28' 30" W; BGN 1952; (map 45). Variant: Boundary Peak 150, Mount McDonnell. Named in 1950 by the IBC for Inspector A. E. C. McDonell (died 1938) of the Royal Mounted Police. Inspector McDonell, in 1904, was commanding officer and assistant surgeon of the Mounted Police at Pleasant Camp; he later became superintendent of this camp.

McDonnell, Mount: mountain, see McDonell, Mount.

McDonough Peak: mountain, 2,700 ft., on S part of Douglas Island, 5.2 miles E of Point Hilder on Stephens Passage and 6 miles S of Juneau, Coast Mountains; 58° 13' 25" N, 134° 21' 25" W; (map 11). Named in 1893 by USC&GS and published on Chart 8235.

McDougal: locality, E of junction of Lake Creek and Yentna River, 57 miles NW of Anchorage, Cook Inlet Lowland; 61° 54' 05" N, 150° 52' 30" W; (map 70). Variant: McDougall. Local name reported in 1911 by USGS. In 1912 S. R. Capps, USGS, reported the locality as McDougall, "possibly named for a local businessman."

McDougal Creek: stream, flows NE 3.5 miles to Flat Creek, 12 miles NW of Tahnetna Pass and 70 miles SW of Gulkana, Talkeetna Mountains; 62° 03' N, 147° 27' W; (map 82). Local name reported in 1917 by USGS.

McDougall: locality, see McDougall

McElfish Creek: stream, flows SE, across Alaska-Canada boundary, 15 miles to North Ladue River in Yukon, Canada, 48 miles NE of Northway Junction, Yukon-Tanana Highlands; 63° 36' 45" N, 140° 59' 30" W; BGN 1954; (map 85). Name reported in 1912 by Thomas Riggs, IBC.

McFadden Creek: stream, see Buffalo Creek.

McFarland Islands: islands, extend 4 miles in Tlevak Strait off W coast of Sukkwan Island, Alexander Archipelago; 55° 04' N, 132° 55' W; (map 4). Variant: Hill Islets. Named in 1882 by W. H. Dall, USC&GS for "Mrs. A. R. McFarland, a missionary and teacher who began work in Alaska in 1877." These islands were called "Hill Islets" by Jackson (1880, p. 376).

McGilvery Creek: stream, heads on Pin Peak, near center of Prince of Wales Island, flows NE 6 miles to Salmon Lake, 15 miles E of Klawock, Alexander Archipelago; 55° 34' 13" N, 132° 42' 50" W; (map 4). Local name recorded in 1949 by USGS.

McGinnis Creek: stream, flows SW 3 miles to Montana Creek, 2.5 miles NW of Mendenhall Lake and 12.5 miles NW of Juneau, Coast Mountains; 58° 26' 30" N, 134° 38' 40" W; (map

11). Variant: McInnis River, McKinnis Creek. Named "McInnis River" in 1881 by John McInnis and Edward Brennan who staked claims there (DeArmond, 1957, p. 30). The name "McGinnis Creek" was reported in 1903 by A. C. Spencer and C. W. Wright, USGS.

McGinnis Glacier: glacier, heads on McGinnis Peak, trends NE 8 miles, in two arms which join 2 miles W of its 1951 terminus NW of Mount Pillsbury, 19 miles E of Mount Hayes, Alaska Range; 63° 35' 30" N, 146° 05' 35" W; (map 86). Name published on relatively recent maps.

McGinnis Mountain: mountain, 4,228 ft., 1.6 miles NW of Mendenhall Lake and 12 miles NW of Juneau, Coast Mountains; 58° 27' 10" N, 134° 35' 45" W; BGN 1930; (map 11). Variant: Mount McGinnis. Local name reported in 1912 by the USFS and published by USGS (Knopf, 1912, pl. 1).

McGinnis Peak: peak, 11,400 ft., at head of McGinnis Glacier, 14 miles SE of Mount Hayes, Alaska Range; 63° 32' 45" N, 146° 18' 00" W; (map 86). Name published on relatively recent maps.

McGinnis, Mount: mountain, see McGinnis Mountain.

McGinty Point: point of land, W entrance point to Beaver Bay, 10 miles NW of Unga Island, on Alaska Peninsula, Aleutian Range; 55° 27' 30" N, 160° 59' 00" W; (map 28). Variant: McGintys Point. Published as McGintys Point in USC&GS 1916 Coast Pilot (p. 182) and as McGinty Point in 1926 Coast Pilot (v. 2, p. 201).

McGintys Point: point of land, see McGinty Point.

McGonagall Mountain: peak, 6,560 ft., in Mount McKinley National Park, W of Muldrow Glacier, 14 miles NE of Mount McKinley, Alaska Range; 63° 14' 10" N, 150° 44' 20" W; (map 88). Named for Charles McGonogal; spelling was changed in publication. See McGonagall Pass.

McGonagall Pass: pass, 5,600 ft., in Mount McKinley National Park, N of Muldrow Glacier, between McGonagall and Oastler Mountains, 14 miles NE of Mount McKinley, Alaska Range; 63° 14' N, 150° 43' W; (map 88). BGN 1948. Variant: Glacier Pass, McGonigal Pass, McGonnagal Pass, McGonogal Pass, McGonogill Pass. Named about 1916 for Charles McGonogal, prospector, who was one of the first to discover this pass; spelling was changed in publication. He almost reached the north summit of Mount McKinley, April 3, 1910, but stopped a few hundred feet below while his partners, "Pete" Anderson and "Billy" Taylor, made the first ascent.

McGonigal Pass: pass, see McGonagall Pass.

McGonnagal Pass: pass, see McGonagall Pass.

McGonogal Pass: pass, see McGonagall Pass.

McGonogill Pass: pass, see McGonagall Pass.

McGrath: town, pop. 241, on left bank of Kuskokwim River opposite junction of Takotna River, Kuskokwim Lowland; 62° 57' 30" N, 155° 35' 30" W; BGN 1944; (map 80). Variant: Old McGrath. A small trading post was established here in the spring of 1907 for the new diggings on the Innoko River. The town was named for Peter McGrath, U.S. Deputy Marshall for the area who established headquarters here the same year. A post office was established in 1913. Its population in 1920 was 90; in 1930, 112; in 1940, 138; and in 1950, 175. The original townsite, now called "Old McGrath" was on the right bank of the river.

McHenry Anchorage: bay, 1.7 miles long, SW coast of Etolin Island, Alexander Archipelago; 55° 58' N, 132° 27' W; (map 4). Named in 1886 by Lt. Comdr. A. S. Snow, USN, for John McHenry, a member of his party.

McHenry Inlet: estuary, extends SW 3 miles to Clarence Strait, on SW coast of Etolin Island, 32 miles S of Wrangell, Alexander Archipelago; 56° 00' 30" N, 132° 24' 30" W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow, USN, for John McHenry, a member of his party.

McHenry Lake: lake, 0.7 miles long, E of Navy Peak, on Etolin Island, 28 miles S of Wrangell, Alexander Archipelago; 56° 03' 45" N, 132° 20' 30" W; BGN 1923; (map 6). Named in 1923 by USFS; derived from McHenry Inlet.

McHenry Ledge: shoal, 1 mile NW of Lemesurier Point, W coast of Cleveland Peninsula, Alexander Archipelago; 55° 46' 45" N, 132° 18' 00" W; (map 4). Named in 1886 by Lt. Comdr. R. Clover, USN.

McHugh Creek: stream, flows NW 11 miles to Hess Creek, 14 miles NW of Livengood, Yukon-Tanana Highlands; 65° 43' N, 148° 42' W; (map 105). Named by prospectors; reported in 1916 by J. B. Mertie (in Brooks and others, 1918, pl. 13), USGS.

McHugh Creek: stream, heads in lake, NE of Suicide Peak, flows SW 5 miles to Turnagain Arm Cook Inlet, 15 miles S of Anchorage, Chugach Mountains; 61° 01' 00" N, 149° 43' 40" W; (map 69). Local name published in 1912 by USC&GS.

McHugh Peak: mountain, 3,500 ft., on N bank of McHugh Creek, 14 miles SE of Anchorage, Chugach Mountains; 61° 02' 05" N, 149° 41' 50" W; (map 69). Local name reported in 1942 by AMS.

McIntosh Peak: peak, 4,000 ft., in Robinson Mountains on SW side of Bering Glacier, 25 miles NW of Cape Yakataga, St. Elias Mountains; 60° 18' N, 42° 55' W; BGN 1960; (map 65). Named in 1960 by USGS for "Scotty" McIntosh, who, after surviving a Royal Canadian Air Force plane crash in about 1943, was drowned while attempting to cross the Kosakuts River.

McIntosh Property: locality, see McIntosh.

McIntosh: locality, roadhouse on Mineral Creek, 5.4 miles NW of Valdez, Chugach Mountains; 61° 11' 00" N, 146° 20' 30" W; (map 68). Variant: McIntoshs Road House, McIntosh Property. Local name for a former roadhouse; published in 1912 by USGS.

McIntoshs Road House: locality, see McIntosh.

McIntyre, Point: point of land, W point of entrance to Prudhoe Bay, on Beaufort Sea coast, 15 miles SE of Beechey Point, Arctic Plain; 70° 24' N, 148° 35' W; (map 150). Named by Leffingwell (1919, p. 15, 97). "After Samuel [Scotty] McIntyre, who worked for the writer for 3 years."

McIver Bight: cove, 1.2 miles across, on SW coast of Unalaska Island, Aleutian Islands; 53° 30' 20" N, 167° 10' 30" W; (map 23). Name published as being "locally known" in the 1944 Aleutian Coast Pilot (p. 47).

McKay Creek: stream, flows S 4 miles to Chatanika River, 30 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 13' 20" N, 147° 09' 30" W; (map 105). Named by prospectors; published in 1907 by USGS.

McKay Inlet: bay, 5 miles long and 2 miles wide, extends S from Fatigue Bay, 3 miles SE of Tangent Point at mouth of Dease Inlet and 44 miles SE of Barrow, Arctic Plain; 71° 07' 20" N, 154° 59' 25" W; BGN 1966; (map 153). Variant: Fatigue Bay, Mackay Inlet, M' Kay Inlet. Named in 1837 by Thomas Simpson in honor of one of his guides, James McKay.

McKay Inlet: lagoon, see Fatigue Bay.

McKelvie Creek: stream, in Bendeleben Mountains, flows NE 3.2 miles to Pargon River, 31 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 11' N, 163° 42' W; (map 110). Variant: Warnecke Creek. Prospectors' name published on the 1908 Map of Seward Peninsula" by Arthur Gibson. This appears to be the stream shown as "Warnecke" on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

McKensie's Bay: estuary, see Iko Bay.

McKenzie Creek: stream, flows NE 2 miles to Chichagof Harbor, NE Attu Islands, Aleutian Islands; 52° 55' 43" N, 173° 14' 15" E; (map 13). Named by the U.S. Army during World War II; published in 1948 by AMS.

McKenzie Creek: stream, flows W 1.8 miles to Susitna River, 3.5 miles SW of Curry and 17 miles N of Talkeetna, Talkeetna Mountains; 62° 34' 00" N, 150° 03' 20" W; (map 81). Prospectors' name reported in 1922 by USGS.

McKenzie Inlet: estuary, extends S 6 miles off Skowl Arm, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 25' N, 132° 22' W; (map 4). Local navigators' name reported in 1901 by A. H. Brooks, USGS.

McKenzie Rock: rock, 300 ft. long, between McKenzie Inlet and Skowl Arm Kasaan Bay, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 24' 45" N, 132° 22' 00" W; (map 4). Local navigators' name reported in 1901 by A. H. Brooks, USGS.

McKeon Flats: flats, at E edge of lagoon in back of Neptune Bay, on S shore of Kachemak Bay, on Kenai Peninsula, 9 miles SE of Homer, Chugach Mountains; 59° 32' 15" N, 151° 21' 30" W; (map 50). Local name reported by USGS or USC&GS in the 1940's.

McKeon Rock: rock, at entrance to Neptune Bay, on E shore of Kachemak Bay, on Kenai Peninsula, 8 miles SE of Homer, Chugach Mountains; 59° 33' N, 151° 24' W; (map 50). Local name reported by USGS or USC&GS in the 1940's.

McKinley Bar: bar, in headwaters of McKinley River in Mount McKinley National Park, extends W 18 miles from Muldrow Glacier terminus to Eagle Gorge, Alaska Range; 63° 25' N, 150° 50' W; (map 88). Local name reported in 1954 by USGS.

McKinley Creek: stream, flows 3.5 miles to Rhode Island Creek 0.3 miles N of that stream's junction with Omega Creek, 26 miles S of Rampart, Yukon-Tanana Highlands; 65° 07' 45" N, 150° 20' 15" W; (map 106). Prospectors' name reported in 1931 by J. B. Mertie, USGS.

McKinley Creek: stream, flows N 11 miles to Preacher Creek, 60 miles SW of Circle, Yukon-Tanana Highlands; 65° 33' N, 146° 02' W; (map 104). Named by prospectors; reported in 1903 by T. G. Gerdine (in Prindle, 1905, pl. 13), USGS.

McKinley Creek: stream, flows N 8 miles to Middle Fork Fortymile River, 58 miles SW of Eagle, Yukon-Tanana Highlands; 64° 23' N, 142° 53' W;;(map 102). Named by prospectors; shown on a 1902 manuscript map by E. J Chamberlain, U.S. Deputy Surveyor.

McKinley Creek: stream, flows NE 4 miles to Bryan Creek which flows to Serpentine River, 8 miles NE of Kougarok Mountain and 33 miles SE of Ear Mountain, Seward Peninsula Highlands; 65° 47' N, 165° 07' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

McKinley Creek: stream, flows NW 15 miles from Halfway Mountain to South Fork Hoholitna River. 65 miles NW of Nondalton, Lime Hills; 60° 50"00" N, 155° 35' 30" W; (map 61). Local name reported in 1950 by USC&GS

McKinley Creek: stream, flows NW 6 miles to Walker Fork, 53 miles S of Eagle, Yukon-Tanana Highlands; 64° 03' N, 141° 23' W; (map 102). Named by prospectors and shown on an 1898 manuscript map by E. F. Ball, prospector

McKinley Creek: stream, flows SE 10 miles to John River, 5.5 miles S of Gunsight Mountain and 51 miles W of Wiseman, Brooks Range; 67° 24' 00" N, 152° 03' 30" W; BGN 1932; (map 124). Local name reported by Robert Marshall in 1932.

McKinley Creek: stream, flows SE to Boulder Creek which flows to Snake River, about 25 miles NW of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

McKinley Creek: stream, flows SW 3 miles to Grantley Harbor, 9 miles E of Teller, Seward Peninsula Highlands; 65° 15' N, 166° 04' W; (map 111). Variant: Dewey Creek. Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

McKinley Creek: stream, flows SW 7 miles to Golovnin Bay, 5 miles SE of Golovin and 47 miles SE of Solomon, Seward Peninsula Highlands; 64° 30' N, 162° 53' W; (map 95).

Prospectors' name shown on a precinct map of Seward Peninsula by Monroe and Hutchins, corrected up to June 1903 by Arthur Gibson.

McKinley Creek: stream, flows W 4 miles to O'Brien Creek, 24 miles S of Eagle, Yukon-Tanana Highlands; 64° 27' N, 141° 17' W; (map 102). Named by prospectors; reported in 1903 by L. M. Prindle (1905, pl. 16), USGS.

McKinley Creek: stream, heads in a glacier, 1.5 miles S of Porcupine Creek, flows NW 5 miles to Porcupine Creek, 2 miles S of Porcupine and 33 miles SW of Skagway, St. Elias Mountains; 59° 23' 35" N, 136° 14' 50" W; (map 45). Probably named by prospectors. Name as reported in 1899 by USGS.

McKinley Fork Kuskokwim River: stream, see Swift Fork Kuskokwim River.

McKinley Fork: stream, see McKinley River.

McKinley Fork: stream, see Swift Fork.

McKinley Glacier: glacier, see Muldrow Glacier.

McKinley Lake: lake, 1.2 miles long, 4 miles W of Copper River, 1 mile N of Copper River Highway, 20 miles SE of Cordova, Chugach Mountains; 60° 28' N, 145° 11' W; (map 64). Local name reported in 1909 by Grant and Higgins (1910, pl. 2), USGS.

McKinley Park: settlement, pop. 28, and railroad station, miles 347.9 on the Alaska Railroad, 9 miles S of Healy, Alaska Range; 63° 43' 45" N, 148° 55' 00" W; (map 87). Variant: Riley Creek, Riley. Settlement reported in 1920 as Riley Creek, perhaps in a slightly different location than the present place. The Riley post office was Established in 1922 and its name changed to McKinley Park the same year (Ricks, 1965, p. 40). Its population was listed as 49 in the 1930 census.

McKinley Peak: mountain, 2,351 ft., 18 miles SE of Cordova, Chugach Mountains; 60° 28' N, 145° 13' W; (map 64). Local name reported by Moffit (1914, pl. 1), USGS.

McKinley Range: mountain range, that part of Alaska Range; including Mount McKinley, which extends SW from the Chulitna Cantwell divide; (map 88). So defined in 1899 by Lt. J. S. Herron, USA, but not used on subsequent maps.

McKinley River: stream, heads at Muldrow Glacier terminus, flows NW 58 miles, joins Birch Creek to form Kantishna River, 23 miles E of village of Lake Minchumina, Alaska Range; 63° 52' N, 151° 33' W; BGN 1947; (map 88). Variant: McKinley Fork. Named in 1902 "McKinley Fork" by A. H. Brooks; shown as "McKinley River" on a 1905 manuscript map of "Kantishna Gold Fields," by A. Friedrich, prospector.

McKinley, Mount: mountain, highest elev. on North American Continent, consists of two summit peaks, South Peak, 20,320 ft., and North Peak, 19,470 ft., collectively called Churchill Peaks, in Mount McKinley National Park, Alaska Range; 63° 04' 15" N, 151° 00' 20" W; (map 88). Variant: Bulshaia Gora, Bulshaya Gora, Denmores Peak, Denali, Din-al-ee, Din-az-ee, Doleika, Doleyka, Mount Denali, Mount Doleika, Tennaly, To-lah-gah, Traleika, Traleyka.

Named in 1896 by William A. Dickey, prospector, "after William McKinley of Ohio, who had been nominated for the presidency, and That fact was the first news we received on our way out of that wonderful wilderness." McKinley, 1843-1901, was the 25th President of the United States. The first mention of the Mount McKinley massif is by Capt. George Vancouver, who, after seeing it from Cook Inlet in 1794, referred to the "stupendous snow mountains." The Russians descriptively called the mountain "Bolshaya (Bulshaia) Gora" or "big mountain." Alfred Mayo and Arthur Harper, pioneer Alaska traders, after a trip up the Tanana in 1878, reported an enormous ice mountain to the south but did not name it. A prospector, Frank Densmore, spoke so enthusiastically after seeing the mountain from Lake Minchumina in 1889, that it was known for years among prospectors as "Densmores Peak." The Tanana Indian name was reported as "Denali," and the Tanaina Indian name is given as "Doleika" or "Traleika." Each of these names is said to mean "the big one" or "the high one." North Peak was first reached on April 3, 1910, by two prospectors, Peter Anderson and William Taylor. South Peak, the higher was first "conquered" on June 7, 1913, by Archdeacon Hudson Stuck, Walter Harper, Robert Tatum and Harry Karstens (later park superintendent).

McKinley: locality, see Denali.

McKinney Lake: lake, 2 miles long, on central Admiralty Island, empties into Hasselborg Lake, 15 miles NE of Angoon, Alexander Archipelago; 57° 40' 30" N, 134° 18' 30" W; (map 9). Local name reported in 1951 by USGS.

McKinsey Valley: valley, trends SE 3 miles to Chignik Bay, 11.5 miles N of Chignik, Aleutian Range; 56° 27' 30" N, 158° 24' 00" W; (map 30). Local name published in 1927 by USC&GS.

McKorryok: village, see Mekoryuk.

McLain Creek: stream, see McLean Creek.

McLain Lake: lake, 1 mile long, on Kenai Peninsula, 1 mile SE of Hook Lake, 32 miles NE of Kenai, Cook Inlet Lowland; 60° 52' N, 150° 35' W; (map 62). Local name reported in 1958 by USGS.

McLane Creek: stream, flows E 3 miles to Faro Creek, 25 miles N of Goodnews, Kilbuck Kuskokwim Mountains; 59° 28' N, 161° 31' W; (map 53). Variant: McLean Creek. Probably a prospector's name reported in 1919 by G. I., Harrington (in Brooks, 1921, pl. 7), USGS.

McLanes Creek: stream, heads in Babantaltlin Hills, flows SE and SW 19 miles to Hogatza River, 30 miles W of Hughes, Hogatza Highlands; 66° 00' N, 155° 19' W; (map 116). Local name obtained in 1956 at Hogatza by Orth.

McLean Arm: estuary, extends 5.5 miles W from Clarence Strait, SE coast of Prince of Wales Island Alexander Archipelago; 54° 47' 45" N, 131° 57' 15" W, (map 2). Variant: McLeans Arm. Named in 1885 by Lt. Comdr. R. Clover USN, for Ens. Walter McLean, USN, a member of his party.

McLean Creek: stream, flows NW 6 miles to Birch Creek, 12 miles SSE of Mastodon Dome and 50 miles SW of Circle, Yukon-Tanana Highlands; 65° 18' 20" N, 145° 02' 00" W; (map

104). Variant: McLain Creek. Named by prospectors and reported in 1910 by C. E. Ellsworth and G. L. Parker (in Brooks and others, 1911, p. 195), USGS.

McLean Creek: stream, flows NW 8 miles to Colorado Creek 0.2 miles E of its junction with Innoko River, 38 miles N of Ophir and 54 miles NW of McGrath, Innoko Lowland; 63° 40' 25" N, 156° 21' 10" W; (map 90). Prospectors' name reported in 1933 by USGS.

McLean Creek: stream, flows SE 1 mile to Eldorado Creek which flows to Noxapaga River, 27 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 43' N, 164° 12' W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

McLean Creek: stream, see McLane Creek.

McLean Point: point of land, S point of entrance to McLean Arm, SE coast of Prince of Wales Island, Alexander Archipelago; 54° 47' 30" N, 131° 57' 15" W; (map 2). Local name derived from McLean Arm; reported in 1904 by H. C. Fassett, USBF.

McLeans Arm: estuary, see McLean Arm.

McLees Lake: lake, 1.7 miles long, on N coast of Unalaska Island, Aleutian Islands; 53° 59' 00" N, 166° 43' 35" W; BGN 1937; (map 23). Named for George T. M. McLees, quartermaster, USC&GS, who drowned September 26, 1936, off the coast near this lake during a survey of the locality.

McLellan Creek: stream, flows NE 5 miles, E of McLellan Peak, joins Slate Creek to form Grave Creek, 15 miles ENE of Chandalar, Brooks Range; 67° 34' 30" N, 147° 58' 00" W; (map 123). Local name reported in 1923 by USGS and applied in part to Little McLellan Creek.

McLellan Creek: stream, flows SW 1 mile to Deep Canyon Creek which flows S to Nome River, 28 miles NNE of Nome, Seward Peninsula Highlands; 64° 53' N, 165° 15' W; (map 94). Prospectors' name shown on the 1904 "Map of Cape Nome Precinct" by Arthur Gibson.

McLellan Creek: stream, see Little McLellan Creek.

McLellan Pass: pass, 3,800 ft., between Crystal Peak and McLellan Peak, 9 miles ENE of Chandalar, Brooks Range; 67° 32' N, 148° 09' W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

McLellan Peak: peak, 5,320 ft., SE of McLellan Pass, 9 miles ENE of Chandalar, Brooks Range; 67° 31' 15" N, 148° 08' 30" W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

McLellan: rock, see McClellan Rock.

McLeod Bay: bay, 1.5 miles across, on SE coast of Dall Island, Alexander Archipelago; 54° 41' 30" N, 132° 41' 40" W; (map 1). Local name published by USC&GS in 1911.

McLeod Creek: stream, heads at glacier terminus in Mount McKinley National Park, flows N 20 miles to McKinley River at W end of Eagle Gorge, 11 miles W of Wonder Lake, Tanana Lowland; 64° 28' 10" N, 151° 14' 45" W; (map 88). Variant: McCloud Creek. Named by prospectors for John McLeod a member of Judge James Wickersham's McKinley Expedition in 1903. "The Circle philologer, the interpreter for Day-yin-num, the medicine man of too-whun-na. He is a hunter, a canoeman, a trapper who knows the wilderness life like his foster brothers, the [Tena] Indians." (From Wickersham's notes printed in the Fairbanks News-Miner July 17, 1963). Name reported as "McCloud" by S. R. Capps, USGS, in 1925.

McLeod Lake: lake, 0.9 miles long, between McLeod Creek and Muddy River, 4 miles SW of mouth of Muddy River, Alaska Range; 63° 22' 30" N, 151° 05' 00" W; (map 88). Variant: McCloud Lake. Local name reported in 1954 by USGS.

McLeod Lake: lake, 1,000 ft. across, in Matanuska Valley, 2.5 miles SW of Palmer, Cook Inlet Lowland; 61° 33' 55" N, 149° 09' 00" W; (map 69). Local name reported in 1942 by AMS.

McLeod Point: point of land, on coast of Beaufort Sea, 4 miles E of Smith Bay, Arctic Plain; 70° 53' N, 153° 46' W; (map 148). Variant: M' Leod Point, Macleod Point. The exact identity of several points of land, in this area, named in 1837 by P. W. Dease and Thomas Simpson, are difficult to determine. These points, from east to west, are McLeod, McPherson, and Drew. It seems the Point McLeod of current maps is applied to what Dease and Simpson named Point McPherson, and their Point McLeod is applied to a small point 3 miles to the east (Simpson, Thomas, 1843, pp. 136-137).

McLeod, Point: point of land, on W shore of Muir Inlet, in Glacier Bay National Monument, at mouth of Hunter Cove, 61 miles NW of Hoonah, St. Elias Mountains; 58° 54' 50" N, 136° 06' 25" W; (map 10). Named by members of the American Geographical Society's Glacier Bay Expedition of 1941 (Field, 1947, map) for "Capt. McLeod" of the SS Princess Maquinna which brought members of an excursion of the Twelfth International Geological Congress to Glacier Inlet in 1913.

McLeods Harbour: bay, see MacLeod Harbor.

McLoughlin Rocks: reef, see Yukon Reef.

McLoughlins Point: point of land, see Petrof, Point.

McLoughlins Rocks: reef, see Yukon Reef.

McMahon Creek: stream, flows W 1 mile to Butte Creek, 30 miles SW of Eagle, Yukon Tanana Highlands; 64° 42' N, 142° 02' W; (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

McManus Creek: stream, flows SW 14 miles, joins Smith Creek to form Chatanika River, 76 miles SW of Circle, Yukon-Tanana Highlands; 65° 17' 30" N, 146° 20' 50" W; (map 104). Named by prospectors; reported in 1903 by T. G. Gerdine (in Prindle, 1905, pl. 13), USGS.

McMullen Cove: cove, on E coast of Harris Peninsula, 28 miles SW of Seward, Chugach Mountains; 59° 46' N, 149° 46' W; BGN 1930; (map 49). Named by the 1912 USC&GS field party "in honor of Capt. McMullen, a veteran pilot, who commanded the steamer Dora."

McNair Island: island, see Grand Island.

McNairy Point: point of land, at S limit of entrance to Steamboat Bay, 1 mile NE of Whitney Island and 61 miles E of Sitka, Coast Mountains; 57° 15' 45" N, 133° 32' 00" W; (map 8). Named in 1887 by Lt. Comdr. C. M. Thomas, USN; published in 1888 by USC&GS.

McNally Creek: stream, flows N 1.4 miles to Ugashik Creek, on Alaska Peninsula, 42 miles NE of Ugashik, Aleutian Range; 57° 37' 45" N, 156° 16' 50" W; (map 36). Prospector's name reported in 1921 by Capps (1923, pl. 2), USGS.

McNaughton Point: point of land, near head of Big John Bay, 13.5 miles SE of Kake, on W coast of Kupreanof Island, Alexander Archipelago; 56° 50' 10" N, 133° 41' 40" W; (map 6). Local fishermen's name reported in 1947 by USC&GS.

McNears: locality, on S bank of Goldstream Creek, 5 miles NW of Fairbanks, Yukon-Tanana Highlands; 64° 55' N, 147° 48' W, (map 100). Name of a railroad station of the now defunct Chatanika Branch of The Alaska Railroad (formerly Tanana Valley Railroad); published on a timetable in 1922.

McNeil Canyon: canyon, on Kenai Peninsula, trends S 2 miles in course of McNeil Creek to Kachemak Bay, 12 miles NE of Homer, Cook Inlet Lowland; 59° 43' N, 151° 15' W; (map 50). Local name reported and published by USGS in the 1950's.

McNeil Cove: bay, 3 miles across, on W shore of Kamishak Bay, 32 miles SW of Augustine Island, Aleutian Range; 59° 08' 30" N, 154° 11' 30" W; (map 51). Named for Charlie McNeil, a rancher in the area, and reported by R. H. Sargent, USGS, in 1923. The name was published by K. F. Mather (in Brooks and others, 1925, pl. 3).

McNeil Creek: stream, on Kenai Peninsula, flows S 3 miles to Kachemak Bay, 12 miles NE of Homer, Cook Inlet Lowland; 59° 43' N, 151° 15' W; (map 50). Local name reported by W. H. Dall, USGS, in 1895.

McNeil Head: promontory, on E shore of Kamishak Bay, 1.5 miles N of Horseshoe Cove 32 miles SW of Augustine Island, Aleutian Range; 59° 07' 20" N, 154° 10' 30" W; (map 51). Local name published by USGS in 1951. Charlie McNeil was a rancher in the area in the early 1920's.

McNeil Islet: island, 45 ft. high, in Kamishak Bay, 0.7 miles NE of McNeil Head, 31 miles SW of Augustine Island, Aleutian Range; 59° 07' 40" N, 154° 09' 30" W; (map 51). Local name published by USGS in 1951. Charlie McNeil was a rancher in the area in the early 1920's.

McNeil River: stream, heads at a glacier at 58° 56' N, 154° 40' W, and flows NE 22 miles to McNeil Cove, 34 miles SW of Augustine Island, Aleutian Range; 59° 07' 20" N, 154° 15' 00" W; (map 51). Named for Charlie McNeil, a rancher in the area, and reported by R. H. Sargent, USGS, in 1923. The name was published by K. F. Mather (in Brooks and others, 1925, pl. 3).

McNeill Creek: stream, flows S 5 miles, between Faith and Joe Wise Creeks, to Spruce Creek, 10.3 miles SE of Marshall, Nulato Hills; 61° 46' 45" N, 161° 50' 45" W; (map 73). Prospectors' name reported by Harrington (1918, map), USGS, in 1916.

McNett Fork: stream, flows 2 miles E to Squaw Creek 2 miles S of Squaw Lake, 9.5 miles NE of Chandalar, Brooks Range; 67° 34' 30" N, 148° 11' 30" W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

McNew Hill: ridge, (elev. 1,050 ft.), on E end of Attu Island, Aleutian Islands; 52° 50' 15" N, 173° 23' 00" W; BGN 1945; (map 13). Proposed in 1944 to honor Sgt. John B. McNew, USA, who was killed in action on Attu Island, May 30, 1943.

McNichol Bay: bay, see Kittilingook Bay.

McPherson Bay: bay, on N coast of Naked Island, extends N 2 miles to McPherson Passage, 38 miles NE of Chenega, Chugach Mountains; 60° 40' 30" N, 147° 22' 30" W; (map 63). Local name published on recent USGS maps; derived from nearby McPherson Passage.

McPherson Glacier: glacier, trends W 6 miles to its terminus at a Lake, 1.5 miles S of Goat Mountain, 27 miles N of Katalla, Chugach Mountains; 60° 40' N, 144° 39' W; (map 64). Name published in 1959 by USGS.

McPherson Passage: water passage, in Prince William Sound, extends NW-SE 6 miles between Peak and Naked Islands, 38 miles NE of Chenega, Chugach Mountains, 60° 40' 45" N, 147° 22' 30" W; (map 63). Local name published in 1910 by USC&GS.

McPherson Point: point of land, on coast of Beaufort Sea, near Point McLeod, Arctic Plain; (map 148). Variant: M'Pherson Point, McPherson. Named by P. W. Dease and Thomas Simpson July 27, 1837. See McLeod Point.

McPherson, Mount: mountain, 6,461 ft., in Robinson Mountains, 4.3 miles E of Munday Peak and 82 miles NW of Yakutat, Chugach Mountains; 60° 04' 15" N, 141° 49' 45" W; (map 65). Probably named for J. L. McPherson, Deputy U.S. Mineral Surveyor. Name reported in 1913 by A. C. Maddren, USGS, and published in 1921 by G. C. Martin (pl. 6). USGS.

McQuesten Creek: stream, heads in Ray Mountains, flows S 15 miles to Tozitna River, 28 miles NNE of Tanana, Kokrines-Hodzana Highlands; 65° 32' 47" N, 151° 42' 40" W; BGN 1961; (map 106). Variant: McQuisten Creek, McQuistern Creek. Named in 1956 by Orth for Napoleon Leroy "Jack" McQuesten, one of the first prospectors and fur traders on the Yukon. He Was born in New Hampshire in 1836 and came to Alaska in 1872. See Harpers Bend.

McQuesten Island: island, see Huggins Island.

McQuestion Island: island, see Huggins Island.

McQuisten Creek: stream, see McQuesten Creek.

McQuister Island: island, see Huggins Island.

McQuistern Creek: stream, see McQuesten Creek.

McTarish Point: point of land, see McTavish Point.

McTavish Point: point of land, on W shore between Admiralty Bay and Dease Inlet, Arctic Plain; 70° 57' 35" N, 155° 49' 15" W; (map 148). Variant: McTarish Point, Point McThvisk. This name originated on Maguire's chart (Great Britain, 1854, facing p. 186) as "Pt. McThvisk." This spelling was considered an error, and published on British Admiralty Chart No. 593 as "McTavish Point."

McThvisk, Point: point of land, see McTavish Point.

Mead Creek: stream, heads in Horn Mountains, flows N 3 miles to Flat Creek, 2 miles SW of its junction with Little Nelchina River and 13 miles N of Tahnetta Pass, Talkeetna Mountains; 62° 04' 20" N, 147° 21' 50" W; BGN 1960; (map 82). Variant: Placer Creek. Local name reported in 1956 by USGS.

Mead Point: point of land, see Heald Point.

Mead River: stream, see Meade River.

Mead River: village, see Meade River.

Meade Glacier: glacier, heads 5 miles W of Mount Poletica on Alaska-Canada boundary, trends NW 27 miles to its terminus at head of Katzehin River, 8 miles E of Chilkoot Inlet and 17 miles SE of Skagway, Coast Mountains; 59° 14' 15" N, 135° 05' 00" W; (map 45). Named by the USC&GS, probably for Rear Adm. R. W. Meade, 1870-1933, USN, who as commander of the U.S.S. Saginaw made a reconnaissance voyage through the Alexander Archipelago in the winter of 1868-69.

Meade Mountain: mountain range, see Brooks Range.

Meade Point: point of land, on Kuiu Island, at entrance to Security Bay, 38 miles SE of Sitka, Alexander Archipelago; 56° 53' 30" N, 134° 21' 00" W; (map 5). Named in late 1880's by USC&GS for Rear Adm. Richard Worsam Meade, USN, who made surveys in this vicinity in 1868-69. See Meade Glacier.

Meade River Delta: delta, 11 miles across, on W shore of Admiralty Bay, 30 miles SE of Barrow, Arctic Plain, 70° 52' N, 156° 07' W; (map 148). Name published by USGS in 1955.

Meade River Mountains: mountain range, see Brooks Range.

Meade River Village: village, see Meade River.

Meade River: stream, heads on Kulugra Ridge at 69° 23' N, 158° 40' W, flows NE 250 miles to Admiralty Bay Arctic Plain; 70° 52' N, 155° 55' W; BGN 1893; (map 148). Variant: Cogtua River, Kaksu River, Koloogrua River, Kolukruak River, Koolokroak River, Kulugrua River, Mead River, Meads River. This river was explored by Capt. P. H. Ray (1885, p. 27), USA, in

April 1883. Ray name the river “presumably after an admiral of The U.S. Navy [Richard Worsam Meade] who was engaged * * * in survey work in southwest Alaska * * *” (Stuck, 1920, p. 263-264). The Eskimo name, according to John Murdoch of Ray's party, was “Kulugrua, second large river east of Point Barrow (Meade) “ (Ray, p. 55). On a 1925 fieldsheet by Gerald FitzGerald, USGS, the name Kaksu River is shown applied to present-day Awuna River. This name [Kaksu] somehow migrated to the headwaters of the Meade River, and is so applied on current maps.

Meade River: village, pop. 30, on W bank of the Meade River near Imakrak Lake, 58 miles SW of Barrow, Arctic Plain, 70° 28' N, 157° 24' W; BGN 1965; (map 147). Variant: Atkasak, Atkasuk, Mead River, Meade River Village Tikikluk, Tikilook, Tikiluk. The Eskimo name for this place is “Atkasak” according to 1923 fieldsheet by E. C. Guerin, USGS, although another Eskimo name, “Tikiluk,” was reported in 1951. A post office was established there in 1951 with the name “Meade River”; it was discontinued in 1957.

Meadow Creek: stream, 6 miles long, on Chichagof Island, heads in lake, flows generally W to Lisianski Inlet, 30 miles W of Hoonah, Alexander Archipelago; BGN 1960; 55° 01' 00” N, 136° 18' 15” W; (map 10). Named in 1955 by USGS and published in 1959 (Rossman, 1959, map). So named “because the lower part of this stream flows through a low-lying park or meadow-like area.”

Meadow Creek: stream, flows N 33 miles to Nowitna River, 41 miles N of Medfra, Kilbuck-Kuskokwim Mountains; 63° 49' N, 154° 46' W; (map 89). Local name obtained in 1924 by J. S. Brown (in Smith, P. S., and others, 1926, pl. 5), USGS.

Meadow Creek: stream, flows NE 2.5 miles to Karluk Lake, 24 miles SE of Karluk, Kodiak Island; 57° 18' 00” N, 154° 02' 25” W; (map 35). Local name reported in 1952 by USGS.

Meadow Creek: stream, flows NE 5 miles to Brushkana Creek, 50 miles SE of Healy, Talkeetna Mountains; 63° 13' N, 148° 25' W; (map 87). Local name obtained in 1913 by J. W. Bagley, USGS; published by Moffit (1915, pl. 1), USGS.

Meadow Creek: stream, flows SE 1.7 miles to Purinton Creek, 35 miles NE of Palmer, Talkeetna Mountains; 61° 49' 00” N, 148° 08' 30” W BGN 1932; (map 69). So named in 1931 by a USGS field party because the stream flows through several meadows.

Meadow Creek: stream, flows W 8.5 miles to Eagle River S of village of Eagle River, 12 miles NE of Anchorage, Chugach Mountains; 61° 18' 45” N, 149° 34' 30” W; (map 69). Local name reported in 1960 by USGS.

Meadow Creek: stream, formed by Little Meadow and Lucille Creeks, flows SW 5 miles to Big Lake, 23 miles N of Anchorage, Cook Inlet Lowland; 61° 33' 00” N, 149° 52' 30” W; (map 69). Local name reported in 1914 by GLO [BLM].

Meadow Creek: stream, heads at Roaring Bear Lake, flows SW 4 1 mile to Gamble Slough, 13 miles NE of Stevens Village, Yukon Flats; 66° 10' N, 148° 51' W; (map 118). Local name obtained in 1956 by USGS.

Meadow Creek: stream, heads on Mount Adair, in Kenai Mountains, flows NE 3.5 miles to Kenai Lake, 20 miles N of Seward, Chugach Mountains; 60° 23' 45" N, 149° 25' 45" W; (map 63). Local name reported in 1951 by USGS.

Meadow Island: island, 0.5 miles long, at S end of Keku Strait, between Kupreanof and Kuiu Islands, 11 miles NW of Baker Point, Alexander Archipelago; 56° 29' 40" N, 133° 42' 50" W; (map 6). Descriptive name given for charting purposes by USC&GS in 1932 Coast Pilot (p. 257).

Meadow Lake: lake, 0.6 miles long, on Kenai Peninsula, 0.7 miles SW of Rock Lake and 21 miles NE of Kenai, Cook Inlet Lowland; 60° 38' 30" N, 150° 40' 15" W; (map 62). Named about 1963 by officials of Kenai National Moose Range for administrative purposes.

Meadow Lake: lake, 4 miles long, 5 miles S of Pile Bay and 29 miles NW of Augustine Island, Aleutian Range; 59° 38' N, 154° 02' W; (map 51). Variant: Medow Lake. This name first appears in 1907 on a blueprint manuscript map drawn by W. E. Smith, Chief Engineer, Alaska Short Line Railway.

Meadow Lake: lake, 650 ft. long, 4.2 miles SW of Anchorage, Cook Inlet Lowland; 61° 10' 03" N, 149° 57' 35" W; (map 69). Name published on a 1918 blueprint map of The Alaska Railroad.

Meadow Lakes: lake, approximately 10 miles long, between Little Susitna River and The Alaska Railroad, 5 miles NW of Wasilla, Cook Inlet Lowland; 61° 37' N, 149° 38' W; (map 69). Local name reported in 1942 by AMS.

Meads River: stream, see Meade River.

Meakerville: village, pop. 48, on Odiak Slough, 0.5 miles S of Cordova, Chugach Mountains; 60° 32' 30" N, 145° 00' 30" W; Name of a settlement reported in 1955 by Rand McNally.

Mean Rock: rock, part of Sandman Reefs, 4.5 miles S of Deer Island, Aleutian Range; 54° 46' 25" N, 162° 22' 05" W; BGN 1942; (map 25). Named by USC&GS in 1941 "because the waters surrounding it are generally rough."

Meares Glacier: glacier, heads between Aspero Peak and Mount Michelson, trends SW 15 miles to Unakwik Inlet, 42 miles W of Valdez, Chugach Mountains; 61° 09' N, 147° 31' W; BGN 1910; (map 69). Variant: Brooks Glacier. Named in 1909 by U. S. Grant and D. F. Higgins, USGS, for Capt. John Meares, 1756-1809, British explorer and trader. Capt. Meares, while on a trading expedition aboard the English vessel Nootka, spent the winter of 1786-87 in Prince William Sound.

Meares Island: island, 0.9 miles long, in Meares Passage 1 mile N of Dall Island, Alexander Archipelago; 55° 16' 15" N, 133° 10' 30" W; (map 4). Named in 1907 by E. F. Dickins, USC&GS.

Meares Passage: water passage, 6 miles long, between Dall and Suemes Islands, Alexander Archipelago; 55° 14' N, 133° 14' W; (map 4). Variant: Sea Otter Bay. Name

published by W. H. Dall, USC&GS, in the 1883 Coast Pilot (p. 97). This feature was named for Capt. John Meares, who visited this vicinity in 1788 while on a trading cruise.

Meares Point: point of land, southernmost point on Perry Island, SW entrance to South Bay, 26 miles NE of Chenega, Chugach Mountains; 60° 39' 15" N, 147° 55' 45" W; BGN 1966; (map 63). Variant: South Point. Name published in 1954 by USGS; undoubtedly named for Capt. John Meares who explored the region in 1788.

Meares, Port: bay, "in Prince William Sound." Named by Capt. William Douglas on August 14, 1788 (Wagner, 1937, p. 472).

Meares, Port: bay, see Bazan, Port.

Meat Mountain: mountain, 2,900 ft., near head of Colville River, 49 miles NNE of Misheguk Mountain, Arctic Slope; 68° 56' N, 160° 45' W; BGN 1926; (map 131). Variant: Nikipak Mountain. Named by the 1925 USGS exploring expedition, "derived from the Eskimo name, 'Nikipak,' which means 'meat'" (Chapman and Sable, 1960, p. 54).

Mechakamiut: locality, on a stream flowing to Bering Sea, 8 miles NW of Cape Mendenhall, Nunivak Island; 59° 51' 40" N, 166° 25' 15" W; (map 55). Eskimo camp reported in 1949 by USC&GS.

Mechanic Creek: stream, in DeLong Mountains, flows NE 9 miles to Singayoak Creek, 54 miles NE of Misheguk Mountain, Brooks Range; 68° 43' N, 159° 27' W; BGN 1960; (map 131). Named in 1953 by Island L. Tailleux, USGS, "for mechanical work on vehicles."

Mecklenberg Creek: stream, see Mettenpherg Creek.

Meddler Creek: stream, flows SE 1 mile to Minnesota Creek which flows to Penny Creek, 0.1 miles NE of Sapphire Creek and 8 miles N of Solomon, Seward Peninsula Highlands; 64° 40' 35" N, 164° 21' 20" W; (map 95). Prospectors' name reported in 1907 by USGS geologists (Smith, P. S., 1910, pl. 3).

Medfra: village, pop. 8, on right bank of Kuskokwim River, 29 miles SW of Mystery Mountains, Kuskokwim Lowland; 63° 06' N, 154° 43' W; BGN 1937; (map 89). Variant: Berrys Landing. Medfra may have been a small Indian camp, but more likely owes its existence to the establishment early in the 20th century of a trading post here and of a landing originally called "Berrys Landing." In 1930 the settlement had a population of 24. A post office was maintained here from 1922 to 1955 (Ricks, 1965, p. 41).

Medial Creek: stream, heads between the two parts of Smith Mountain, flows N 7 miles to Ipnarik River, 41 miles N of Howard Pass, Arctic Slope; 68° 47' N, 156° 31' W; (map 132). Named by geologists connected with the Naval Petroleum Reserve No. 4 explorations; name published by USGS in 1951.

Medicine Creek: stream, flows SW 0.8 miles to Chatanika River, 4 miles downstream from mouth of Sourdough Creek, 45 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 16' 30" N, 146° 37' 00" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Medicine Creek: stream, flows SW 16 miles to Kuskokwim River, 0.4 miles upstream from Medfra, Kilbuck-Kuskokwim Mountains; 63° 06' N, 154° 42' W; (map 89). Local name reported in 1933 by J. B. Mertie (in Smith, P. S. and others, 1936, pl. 4), USGS.

Medicine Creek: stream, flows SW 3 miles to Salmon River, 27 miles NE of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 55' 40" N, 161° 42' 30" W; (map 39). Local name published in a 1933 U.S. Dept. of Interior mining report.

Medicine Lake: lake, 1.2 miles across, 3 miles NE of Circle Hot Springs and 26 miles SW of Circle, Yukon-Tanana Highlands; 65° 30' N, 144° 30' W; (map 104). Named by prospectors; reported in 1896 by USGS (Spurr, 1898, pl. 39).

Medicine Man Creek: stream, heads at glacier terminus in Nutzotin Mountains and flows SE 4 miles to Cross Creek near its junction with Chisana River, Alaska Range; 62° 10' 30" N, 142° 06' 00" W; (map 84). Local name reported by USGS in 1960.

Medicineman Creek: stream, flows SW 12 miles to Red Slough, 54 miles NE of Medfra, Kuskokwim Lowland; 63° 34' N, 153° 20' W; (map 89). Local name reported in 1958 by USGS.

Mednofski River: stream, see Matanuska River.

Mednorchka River: stream, see Matanuska River.

Mednoviska River: stream, see Matanuska River.

Medow Lake: lake, see Meadow Lake.

Medvednaia: locality, "on left bank of Yukon River." Former Eskimo camp or settlement reported with a population of 15 by Ivan Petroff in the 1880 Census.

Medvednikova: bay, see Bear Bay.

Medvejie Lake: lake, 1 mile long, drains into Silver Bay, 8 miles SE of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 01' 30" N, 135° 07' 00" W; BGN 1935; (map 9). Variant: Bear Lake. Russian word meaning "bear" reported as a local name in 1934 by USFS; USFS published the name "Bear Lake" for this feature in 1929.

Medvetcha River: stream, see Sawmill Creek.

Medviezhi, Ostrova: island, see Woewodski Island.

Medvydnyk, Mys: point of land, see Bear Cape.

Medvydnykova, Zaliv: bay, see Bear Bay.

Medvyzhiy, Mys: point of land, see Bear Cape.

Medvyzhya, Reka: stream, see Sawmill Creek.

Mee-sulk-mah-nee: lake, see Big Lake.

Meehan City: locality, see Meehan.

Meehan: locality, 1.5 miles N of Fairbanks Creek Camp, on left bank of Fairbanks Creek, 22 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 04' 20" N, 147° 09' 45" W; (map 105). Variant: Alder Creek Camp, Meehan City, Mehan. Name published in 1907 by USGS as Mehan, a former mining camp. The settlement began about 1905 (Kitchener, 1954, p 297) and was named by prospectors for an early miner, Pat Meehan. A post office was established here in 1906 and maintained until 1942 (Ricks, 1965, p. 41).

Meek, Mount: mountain, 3,000 ft., on N end of Douglas Island, 2.5 miles S of Entrance Point and 8 miles W of Juneau, Coast Mountains; 58° 17' 55" N, 134° 36' 40" W; BGN 1959; (map 11). Named by USF&WS for Joseph Robert Meek, 1909-54, a pilot for the Service. The mountain peak overlooks the Juneau airport from which he operated.

Meeks Pond: lake, 500 ft. long, 2.5 miles W of terminus of Sheridan Glacier and 10 miles E of Cordova, Chugach Mountains; 60° 31' 45" N, 145° 26' 30" W; (map 64). Name published in 1950 by USGS.

Meela-toal-ik Slough: stream, see Melatolik Creek.

Megotsol Island: island, on Yukon River, 13 miles NE of Nulato, Koyukuk Lowland; 64° 51' N, 157° 46' W; (map 97). Variant: Split Tip Island. Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by U.S. Dept. of Interior.

Mehan: locality, see Meehan.

Meiers Roadhouse: locality, see Meiers.

Meiers: locality, on Richardson Highway, 4 miles SE of Paxson Lake, Copper River Basin; 62° 49' N, 145° 29' W; (map 83). Variant: Meiers Roadhouse, Myers. Local name of a station or roadhouse reported in 1910 by D. C. Witherspoon, USGS; named for C. J. Meiers, the proprietor.

Meigs Peak: peak, 2,661 ft., on Snettisham Peninsula, 4 miles E of Midway Islands, and 40 miles SE of Juneau, Coast Mountains; 57° 51' 15" N, 133° 42' 15" W; BGN 1935; (map 8). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for Gen. Montgomery Cunningham Meigs, 1816-92, USA, who was in charge of building the Potomac Aqueduct and other structures in Washington, D.C., including parts of the Capitol.

Meiklejohn Entrance: water passage, see Hinchinbrook Entrance.

Meiklejohn Pass: pass, 4,500 ft., in Mentasta Mountains, between Little Tok and Nebesna Rivers. 25 miles E of Mentasta Lake, Alaska Range; 62° 59' 30" N, 143° 00' 00" W, (map 84). Named in 1898 by Lt. P. G. Lowe, USA, in honor of the Assistant Secretary of War, the Honorable George DeRoe Meiklejohn, 1857-1929.

Meinzer Creek: stream, flows NE 11.7 miles to Fairhaven Creek, 50 miles N of Haycock, Seward Peninsula Highlands; 65° 55' N, 161° 07' W; (map 109). Local name published on maps after 1950

Mejillones, Punta de los: point of land, see Miliflores, Point.

Meketchum Creek: stream, flows SW 2.1 miles to Sulatna River, 14 miles SE of Long, Kilbuck-Kuskokwim Mountains; 64° 12' 15" N, 155° 28' 55" W; BGN 1936; (map 98). Prospectors' name reported in 1933 by Mertie (1936, pl. 2), USGS.

Mekorryok: village, see Mekoryuk.

Mekoryok: village, see Mekoryuk.

Mekoryuk River: stream, heads at 60° 04' N, 166° 21' W, flows NE 32 miles to Shoal Bay at Mekoryuk, 3 miles S of Cape Etolin, on N coast of Nunivak Island; 60° 23' N, 166° 11' W; (map 57). Eskimo name reported in 1937 by USAAF.

Mekoryuk: village, pop. 242, at mouth of Shoal Bay, 2.7 miles SSW of Cape Etolin, Nunivak Island; 60° 23' 20" N, 166° 11' 00" W; BGN 1952, (map 57). Variant: Koot, Mekorryok, McKorryok, Mekoryok. Eskimo village shown on a 1937 manuscript map of Nunivak Island. USC&GS reported a summer camp here in 1874, and it may be the same place shown on early maps as "Koot."

Melalolic: stream, see Melatolik Creek.

Melanson Lake: lake, 1.2 miles long, on Annette Island, 2 miles NE of Metlakatla, Alexander Archipelago; 55° 08' 10" N, 131° 30' 30" W; (map 3). Named in 1897 by USC&GS.

Melalolic: stream, see Melatolik Creek.

Melatolik Creek: stream, flows NW 30 miles to Bering Sea, 28 miles NE of Cape Romanzof, 16 miles SW of Black, Yukon-Kuskokwim Delta; 62° 09' N, 165° 08' W; (map 76). Variant: Malalolik Creek, Melalolic, Melatolic, Muganolowik, Meela-toal-ik Slough. Eskimo name published by Dall (1870, p. 275) as "Muganolowik" and reported by G. R. Putnam, USC&GS, in 1899, as "Melatolic."

Melba Creek: stream, flows N 1 mile to Monte Cristo Creek, 15 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 59' 55" N, 147° 20' 55" W; BGN 1033; (map 100). Name reported in 1913 by Theodore Chapin, USGS (in Brooks and others, 1914, p. 330).

Melboune Creek: stream, flows W to Cripple River, about 31 miles NW of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee, this feature has not been positively identified.

Meli, Point: point of land, see Green Point.

Meliktahkvik: locality, see Mitliktavik.

Melkouodiya, Mys: point of land, see Dolphin Point.

Melkowadia, Mys: point of land, see Dolphin

Mellen Rock: rock, in Cordova Bay, off SE coast of Sukkwan Island, 2.4 miles SW of Lime Point Alexander Archipelago; 55° 01' 35" N, 132° 39' 55" W; (map 4). Named in 1905 by E. F. Dickins, USC&GS; derived from Lake Mellen.

Mellen, Lake: lake, 1 mile long, on Prince of Wales Island, E of Hetta Inlet, in course of Reynolds Creek, Alexander Archipelago; 55° 13' N, 132° 34' W; (map 4). Local name reported in 1905 by E. F. Dickins, USC&GS

Mellicks Trading Post: locality, on W bank of Kuskokwim River 1 mile S of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 41' 05" N, 157° 10' 45" W; (map 72). Variant: Smeaton's Trading Post. Named for the owner, "Nick" R. Mellick, former postmaster at Sleetmute. In 1923 the Alaska Road Commission reported Smeaton's Trading Post here. William M. Smeaton was postmaster at Sleetmute from 1926 to 1933.

Mellow Creek: stream, flows N 2 miles to Phoebe Creek, 2 miles NW of the more northern Twin Lake and 18 miles WNW of Chandalar, Brooks Range; 67° 34' 30" N, 149° 08' 15" W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Melnichi, Ozero: lake, see Island Lake.

Melnichnoi: point of land, see Miller Point.

Melnichnoy, Mys: point of land, see Miller Point.

Melnitsa Lake: lake, see Island Lake.

Melokoshar Point: bluff, 25 ft., on N bank of Naknek River opposite Smelt Island, on Alaska Peninsula, 10 miles SW of Naknek, Bristol Bay Lowland; 58° 41' 30" N, 156° 44' 00" W; (map 41). Eskimo name reported in 1952 by USGS.

Meloy Creek: stream, flows N 10 miles to Cinder River, on Alaska Peninsula, 37 miles NW of Sutwik Island, Aleutian Range; 57° 01' 25" N, 157° 48' 30" W; (map 36). Named in 1923 by R. H. Sargent, USGS, for "Joe Meloy," a packer for Sargent and for earlier USGS expeditions.

Meloze: stream, see Melozitna River.

Melozecargut: stream, see Melozitna River.

Melozekargut: stream, see Melozitna River.

Melozitna Creek: stream, flows N 0.8 miles to Yukon River, 1.5 miles NE of Ruby, Kilbuck Kuskokwim Mountains; 64° 45' N, 155° 27' W; (map 98). Prospectors' name reported in 1908 by A. G. Maddren, USGS.

Melozi Hot Springs: springs, in course of Hot Springs Creek 3.5 miles E of its mouth, 26 miles NNW of Hochandochtla Mountain, Kokrines-Hodzana Highlands; 65° 54' 30" N, 154° 59' 30" W; (map 107). Local name reported in 1954 by USGS.

Melozi Island: island, in Yukon River, 6 miles NW of Ruby, Kokrines-Hodzana Highlands; 64° 46' N, 155° 40' W; (map 98). Variant: Woodchopper Island. Named for the Melozi telegraph station on the river shore nearby; reported in 1956 by Orth.

Melozi Landing: locality, at mouth of Melozitna River, 2 miles NE of Ruby, Kilbuck Kuskokwim Mountains; 64° 46' N, 155° 28' W; (map 98). Former riverboat landing and telegraph station.

Melozi River: stream, see Melozitna River.

Melozi Springs: springs, S shore of Hot Springs Creek, 0.7 miles NE of mouth of Glacier Creek, 33 miles W of Birches, Kokrines-Hodzana Highlands; 65° 07' 45" N, 154° 41' 30" W; (map 107). Group of 20 springs is so called "because they are on a tributary of Melozitna (or Big Melozi) River, though they are fully 10 miles from the main stream. "In December, 1911, a two room cabin and a dog house were built. * * * Two small log bath houses, apparently of somewhat earlier construction on either side of the spring have furnished bathing facilities * * * " (Waring, 1917, p. 6768).

Melozi: locality, on right bank of Yukon River, 8 miles NW of Ruby, Kokrines-Hodzana Highlands; 64° 46' N, 155° 45' W; (map 98). Former riverboat landing and telegraph station. This may be the same place as the Melozi Landing mentioned in early records as being at the mouth of the Melozitna River.

Melozikakat: locality, on N bank of Yukon River N of Ruby, at mouth of Melozitna River, Kokrines-Hodzana Highlands; 64° 45' N, 155° 28' W; (map 98). Former Indian village or camp reported in 1880 Census, with a population of 30, by Petroff (1884 p. 12).

Melozikakat: stream, see Melozitna River.

Melozimoran Creek: stream, heads on Moran Dome and flows NW 21 miles to Little Melozitna River, 39 miles NNE of Birches, Kokrines-Hodzana Highlands; 65° 36' 03" N, 153° 10' 30" W; (map 107). Prospectors' name derived from parts of the names "Little Melozitna River" and "Moran Dome"; reported by USGS in the 1940's.

Melozitna Canyon: canyon, extends NE SW 13 miles along Melozitna River, 7 miles N of Ruby, Kokrines-Hodzana Highlands; 64° 51' N, 155° 30' W; (map 98). Local name obtained in 1956 by Orth.

Melozitna River: stream, flows SW 135 miles to Yukon River, 2 miles NE of Ruby, Kokrines-Hodzana Highlands; 64° 46' N, 155° 28' W; (map 98). Variant: Meloze, Melozecargut, Melozekargut, Melozikakat, Melozi River, Melozoi River, Melzoi River, Reka Molekostna. Indian name recorded in 1867 by the Western Union Telegraph Expedition as "Melozecargut," or "mouth of the Meloze." The river appears to be the same stream reported as "R[eka] Molekostna" in 1842-44 by Lt. Zagoskin, IRN. Present-day usage is "Melozi River."

Melozoi River: stream, see Melozitna River.

Melsing Creek Divide: ridge, 15 miles long, divides drainage of Pargon River to N and Niukluk River to S, 8 miles NE of Council and 40 miles NE of Solomon, Seward Peninsula Highlands; 64° 57' N, 163° 25' W; (map 95). Local name reported in 1906 by USGS.

Melsing Creek: stream, flows SW 8.5 miles to Niukluk River at Council, 33 miles NE of Solomon, Seward Peninsula Highlands; 64° 54' N, 163° 40' W; (map 95). Prospectors' name reported in 1899 by Schrader and Brooks (1900, map 3), USGS. Named for L. S. Melsing, one of those who found gold in this area.

Melvin Channel: stream, distributary of Kobuk River, flows SW 45 miles to Hotham Inlet, 53 miles NW of Selawik, Kotzebue-Kobuk Lowland; 66° 48' N, 161° 51' W; (map 114). Local name reported by the U.S. Army Corps of Engineers in 1955.

Mely, Mys: point of land, see Green Point.

Melzoi River: stream, see Melozitna River.

Mememdez, Ensenada de: bay, see Sheep Bay.

Memorial Creek: stream, flows NE 18 miles to Ipnarik River, 17 miles NNW of Howard Pass, Brooks Range; 68° 26' N, 157° 12' W; (map 132). So named in 1951 by Island L. Tailleur, USGS, "for a traverse on May 30 [Memorial Day]."

Memorial Point: point of land, on E shore of Kanaga Bay, and SE coast of Kanaga Island, Aleutian Islands; 51° 42' 55" N, 177° 11' 55" W; (map 17). Name published in 1957 by AMS.

Memory Lake: lake, 0.6 miles across, in Matanuska Valley, 10 miles NW of Palmer, Cook Inlet Lowland; 61° 37' 45" N, 149° 25' 15" W; BGN 1958; (map 69). Variant: Swamp Lake. Named by C. C. Shrock, of Wasilla, in 1957 because "Swamp Lake," the former name, "was not appropriate for the feature" and because a school for children was about to be established on the lake frontage and Mr. Shrock wished the students to leave the school with "happy memories."

Menace Creek: stream, flows SE 0.6 miles to Salmon Lagoon, Kiska Island, Aleutian Islands; 52° 00' 05" N, 177° 32' 22" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Menafee Anchorage: bay, see Menefee Anchorage.

Menafee Inlet: inlet, see Menefee Inlet.

Menchikoff, Cap: bluff, see Menshikof, Cape.

Menchikoff, Cape: bluff, see Menshikof, Cape.

Mendana, Isla: island, "in about 57° 32' N." Probably named by Capt. Alessandro Malaspina in 1791 for Alvaro de Mendana, the discoverer of the Solomon Islands (Wagner, 1937, p. 472).

Mendeltna Creek: stream, heads in Cat Lake, flows SE through Marie and Old Man Lakes, 40 miles to Tazlina Lake, 30 miles SW of Glennallen, Copper River Basin; 61° 58' N, 146° 25' W; (map 68). Indian name reported by USGS (in Moffit, 1915, pl. 6).

Mendeltna Lodge: locality, near Mendeltna Creek, SW of Glennallen, Copper River Basin; 62° 00' N, 146° 30' W; (map 83). Name reported in 1961 (Rand McNally, 1961, p. 57).

Mendeltna Springs: springs, in course of Mendeltna Creek, 4 miles NW of Old Man Lake and 40 miles WNW of Glennallen, Copper River Basin; 62° 11' N, 146° 46' W; (map 83). Local name reported in 1949 by USGS.

Mendenhall Glacier: glacier, heads just N of Mendenhall Towers and trends S 10 miles to its terminus (1962) at Mendenhall Lake, 10 miles NW of Juneau, Coast Mountains; 58° 25' 30" N, 134° 33' 30" W; (map 11). Variant: Auke Glacier. The feature was called Auke Glacier by John Muir in 1879, and this name was used by the early miners (DeArmond, 1957, p. 31). USC&GS renamed the glacier for its Superintendent, Prof. Thomas Corwin Mendenhall, 1841-1924, in 1892.

Mendenhall Lake: lake, 1.8 miles across, at 1962 terminus of Mendenhall Glacier, 3 miles N of the Juneau Airport, Coast Mountains; 58° 24' 30" N, 134° 34' 30" W; (map 11). Variant: McCush Lake. Local name derived from the Mendenhall Glacier and published in 1962 by USGS. In 1909 the lake was called McCush Lake by miners because Neil McCush had mining property near it (DeArmond, 1957, p. 31).

Mendenhall Peninsula: peninsula, 2.6 miles long, trending S from N shore of Auke Bay, 9 miles NW of Juneau, Coast Mountains; 58° 22' N, 134° 38' W; BGN 1929; (map 11). Named by USFS in 1928 for Prof. Thomas Corwin Mendenhall, 1841-1924, Superintendent of USC&GS, 1889-94. See Mendenhall Glacier.

Mendenhall River: stream, heads in Mendenhall Lake, flows 4 miles S to Gastineau Channel at Juneau Airport, 8 miles NW of Juneau, Coast Mountains; 58° 21' 30" N, 134° 36' 00" W; (map 11). Variant: Glacier River. Local name reported in 1903 by A. C. Spencer and C. W. Wright, USGS, and derived from Mendenhall Glacier. Early miners about 1885 called this stream Glacier River (DeArmond, 1957, p. 32).

Mendenhall Towers: ridge, with a series of peaks, trending EW 1.5 miles, 2.5 miles SW of Emperor Peak and 21 miles N of Juneau, Coast Mountains; 58° 32' 00" N, 134° 29' 05" W; BGN 1965; (map 11). Variant: The Towers. Descriptive name given in 1964 by members of the Juneau Icefield Research Project. The name is derived from nearby Mendenhall Glacier.

Mendenhall, Cape: point of land, protrudes SE 5 miles into Bering Sea from SE coast of Nunivak Island; 59° 45' N, 166° 10' W; BGN 1944; (map 55). Variant: Ignatiet Point. Named for Thomas C. Mendenhall, Supt. of USC&GS and listed by Baker (1906, p. 431), USGS.

Mendenhaven: locality, 2 miles N of Juneau Airport and 8 miles NW of Juneau, Coast Mountains; 58° 23' 30" N, 134° 34' 00" W; (map 11). Local name published in 1962 by USGS.

Menefee Anchorage: bay, 1 mile across, near S entrance to Moira Sound, on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 02' 15" N, 132° 01' 00" W; (map 4). Variant: Menafee Anchorage, Menefes Anchorage. Named in 1885 by Lt. Comdr. R. Clover, USN, "for Ensign Daniel Preston Menefee," USN, a member of his party. This name was published erroneously as "Menafee" in 1891 Coast Pilot (p. 87).

Menefee Inlet: inlet, extends SE 8 miles to Ernest Sound, on E coast of Etolin Island, 29 miles S of Wrangell, Alexander Archipelago; 56° 03' 30" N, 132° 09' 30" W; (map 6). Variant: Menafee Inlet, Menefes Inlet. Named in 1886 by Lt. Comdr. A. S. Snow, USN, for Ens. Daniel Preston Menefee, USN; a member of his party.

Menefee Islands: islands, extend 1 mile in Menefee Anchorage, on SE coast of Prince of Wales Island, near entrance to Moira Sound, Alexander Archipelago; 55° 02' 00" N, 132° 01' 30" W; (map 4). Local name published in 1925 Coast Pilot (p. 76).

Menefee Point: point of land, S entrance to Menefee Inlet, SE coast of Etolin Island, 30 miles S of Wrangell, Alexander Archipelago; 56° 02' 45" N, 132° 10' 00" W; (map 6). Named in 1924 by USC&GS.

Menefes Anchorage: bay, see Menefee Anchorage.

Menefes Inlet: inlet, see Menefee Inlet.

Menotl Creek: stream, heads in Kaiyuh Mountains, flows S 15 miles to Hather Creek, 51 miles NE of Holikachuck and 68 miles SE of Unalakleet, Kilbuck-Kuskokwim Mountains; 63° 32' 45" N, 158° 42' 00" W; (map 90). Indian name reported in 1954 by USGS.

Menshikof, Cape: bluff, 25 ft., on N coast of Alaska Peninsula, SW of Ugashik Bay and 16 miles W of Ugashik, Bristol Bay Lowland; 57° 31' 20" N, 157° 49' 15" W; (map 36). Variant: Cap du Prince Menshikoff, Cap Menchikoff, Cape Menchikoff, Mys Menshikova. Named "M[ys] Menshikova," meaning "Menshikov's Cape," by Capt. Lutke (1836, map 14), IRN, probably for a Russian prince.

Menshikova, Mys: bluff, see Menshikof, Cape.

Mensis Point: point of land, at SW end of Chignik Lagoon, 10 miles W of Chignik, Aleutian Range; 56° 17" N, 158° 38' W; (map 30). Local name published in 1927 by USC&GS.

Mentalik Creek: stream, see Lake Creek.

Mentanontle River: stream, see Mentanontli River.

Mentanontle, Lake: lake, see Todatonten, Lake.

Mentanontlekakat Lake: lake, see Todatonten, Lake.

Mentanontlekakat: stream, Mentanontli River.

Mentanontli Creek: stream, see Mentanontli River.

Mentanontli River: stream, flows N 17 miles from Lake Todatonten to Kanuti River 6.5 miles S of its junction with Kobuk River 53 miles SW of Bettles, Kokrines-Hodzana Highlands; 66° 21' 15" N, 152° 58' 30" W; (map 117). Variant: Mentanontlekakat, Mentanontle River, Mentanontli Creek, Mentantlekakat. Name reported in 1901 as "Mentanontli Creek" by D. L. Reaburn (in Mendenhall, 1902, pl. 4a), USGS. In a sense, Lt. Allen (1887, p. 96), USA, reported this name on 1885 when he referred to the outlet of "Lake Todatonten (Tatatontly)" as "Mentanontlekakat," or "mouth of the Mentanontle."

Mentanontli, Lake: lake, see Todatonten, Lake.

Mentantlekakat Lake: lake, see Todatonten' Lake.

Mentantlekakat: stream, see Mentanontli River

Mentasta Creek: stream, flows S 1.1 miles from Mentasta Lake to Slana River 37 miles SW of Tok, Alaska Range; 62° 54' 20" N, 143° 46' 00" W; BGN 1952; (map 84). Variant: Mantas River. Named for the lake; reported by USGS in 1929.

Mentasta Creek: stream, see Station Creek.

Mentasta Lake Pass: pass, see Mentasta Pass.

Mentasta Lake: lake, 3.3 miles long, 3 miles W of Mentasta Pass and 36 miles SW of Tok, Alaska Range; 62° 55' N, 143° 46' W; BGN 1952; (map 84). Indian name reported in 1885 by Lt. Allen (1887, p. 72), USA.

Mentasta Lake: village, pop. 40, on shore of Mentasta Lake, on W side of Mentasta Pass, 38 miles SW of Tok, Alaska Range; 62° 54' 50" N, 143° 45' 10" W; BGN 1952; (map 84). Variant: Johnnie's Village, John's House, John's Village, Mentasta, Mentasta Telegraph Station, Mentasta Village, Montasta Lake. This appears to be an early Indian settlement site which has been located in more than one place around Mentasta Lake. P. G. Lowe in 1898 reported near the lake an Indian's house which he called John's House or John's Village, after the Indian occupant. The U.S. Army Signal Corps established a telegraph station in the pass in 1902. Mendenhall (1905, p. 23), USGS, noted that this area has been the best known route of native migration across the Alaska Range since the first native settlements here. The Mentasta Lake post office was established in 1947 and discontinued in 1951 (Ricks, 1965, p. 42). The 1940 U.S. Census reported "Montasta Lake native village" with a population of 15.

Mentasta Mountains: mountain range, elev. 4,000-7,000 ft., 40 miles long and 25 miles wide, bounded by Slana River on W, Jack Creek on S, Nabesna River on E, and Station and Tuck Creeks on N, Alaska Range; 62° 30' N, 142° 40' W [SE end], 62° 50' N, 143° 35' W [NW end]; (map 84). Indian name used in 1902 by D. C. Witherspoon (in Mendenhall, 1905, pl. 11), USGS; derived from Mentasta Pass at the NW end of the range. See Mentasta Pass.

Mentasta Pass: pass, 2,280 ft., on Glenn Highway, at NW end of Mentasta Mountains, 35 miles SW of Tok, Alaska Range; 62° 55' N, 143° 40' W; (map 84). Indian name reported in 1885 by Lt. Allen (1887, Tanana River map), USA. In 1905 F. C. Schrader USGS. observed that the name "Mentasta" appears to be a corruption of the name "Mantasna," i.e. "Mantas River." See Mentasta Lake: village.

Mentasta Telegraph Station: village, see Mentasta Lake.

Mentasta Village: village, see Mentasta Lake.

Mentasta: village, see Mentasta Lake.

Mentokakat: locality, "on left bank of Yukon River." Variant: Minkhotliatno, Montekakat. Former Eskimo camp or settlement reported in 1844 as "Minkhotliatno" with a population of 46 by Lt. L. A. Zagoskin, IRN. Ivan Petroff listed the entry name with a population of 20 in the 1880 Census.

Menu Hill: hill, 280 ft., E side of Kiska Island, Aleutian Islands; 51° 56' 16" N, 177° 34' 03" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Menzies Cape: point of land, see Ommaney, Cape.

Menzies Strait: water passage, see Chatham Strait.

Menzies' Strait: water passage, see Chatham Strait.

Merchandise Peaks: hills, 491 ft., E side of Kiska Island, Aleutian Islands; 51° 56' 45" N, 177° 35' 00" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II; published on 1943 Army map.

Mercy Hill: hill, 704 ft., W of Kiska Harbor, Kiska Island, Aleutian Islands; 51° 58' 55" N, 177° 31' 28" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Meri, Port: bay, see Shelikof Bay.

Meridian Creek: stream, heads near Noluck Lake, flows N 13 miles to Colville River, Arctic Slope; 69° 00' N, 159° 56' W; BGN 1925; (map 131). So named by the 1924 USGS field party, "because it runs close to and nearly parallel to the 160th meridian."

Meridian Island: island, 1.5 miles long, in Tanana River, 5 miles SE of Fairbanks, Tanana Lowland; 64° 47' N, 147° 38' W; (map 100). Named for the Fairbanks meridian that crosses the west end of the island. The name was published in 1949 by the USGS.

Meroyuk River: stream, see Napatuk Creek.

Merriam Creek: stream, see Mariner Creek.

Merriam, Mount: mountain, 5,083 ft., in Glacier Bay National Monument, 0.6 miles N of head of Twin Glacier, 66 miles NW of Hoonah, St. Elias Mountains; 58° 54' 05" N, 136° 26' 00" W; (map 10). Named by members of the 1941 Glacier Bay Expedition for Dr. Clinton Hart Merriam, 1855-1942, Chief of the USDA Biological Survey. He was with the Harriman Expedition in 1899 and was editor of the Harriman Alaska Series of the Smithsonian Institution. Merriam was born in New York and practiced medicine 1879-85. He became chief of the U.S. Biological Survey in 1885, a position he held until 1910. In 1891 he visited Alaska as a member of the U.S. Bering Sea Seal Commission. He was a founder of the National Geographical Society and the Chairman of the U.S. Geographic Board, 1917-25. He was also the author of numerous publications.

Merrifield Bay: cove, 0.2 miles across, on N coast of Prince of Wales Island, 1.5 miles E of Point Baker, Alexander Archipelago; 56° 21' 00" N, 133° 35' 20" W; (map 6). Local name recorded in 1949 by USGS.

Merrill Pass: pass, 3,180 ft., in Alaska Range; at head of Merrill River, 10 miles W of Kenibuna Lake and 73 miles NW of Tyonek; 61° 12' N, 153° 18' W; BGN 1930; (map 71). Named in 1929 by USGS "for R. H. Merrill, pioneer aviator of Alaska, who discovered this pass, and who was killed in 1929 while flying near Anchorage."

Merrill River: stream, heads at Merrill Pass, flows NW 10 miles to Necons River, 7.4 miles NE of Two Lakes and 84 miles NW of Tyonek, Alaska Range; 61° 13' 20" N, 153° 36' 30" W; (map 71). Named in 1929 by USGS. See Merrill Pass.

Merry Christmas Creek: stream, flows SE 3 miles to Slate Creek, 40 miles SW of Eagle, Yukon-Tanana Highlands; 64° 37' N, 142° 29' W; (map 102). Prospectors' name shown on a 1902 manuscript map by E. J. Chamberlain, U.S. Deputy Surveyor.

Mertz Island: island, 0.1 miles across, N of Long Island, 3.5 miles S of Sitka, Alexander Archipelago; 57° 00' 02" N, 135° 21' 15" W; (map 9). Variant: Mertz Islet. Named in 1880 by the U.S. Navy for Lt. Albert Mertz, USN, and published by USC&GS in the 1883 Coast Pilot (p. 143).

Mertz Islet: island, see Mertz Island.

Merukhta: point of land, see Meruwtu Point.

Merukta, Mount: hill, see Marukta Mountain.

Meruwtu Cape: point of land, see Meruwtu Point.

Meruwtu Point: point of land, 4 miles SE of Gambell, N coast of St. Lawrence Island; 63° 45' N, 171° 38' W; BGN 1951; (map 93). Variant: Cape Noovookiak, Merukhta, Meruwtu Cape. Eskimo name reported in 1949 by Maj. H. B. Allen, USAF; recorded in 1965 as "Merukhta" by Orth.

Mesa Creek: stream, flows N 9 miles to Jacksina Creek, 10 miles NE of Jacksina Glacier terminus, Wrangell Mountains; 62° 14' 30" N, 143° 12' 30" W; (map 84). Named in 1902 by F. C. Schrader, USGS, "because its source is in the lava mesa of the locality."

Mesa Lake: lake, 1.8 miles long, on Revillagigedo Island, in course of Gokachin Creek, 2 miles E of head of Thorne Arm, Alexander Archipelago; 55° 23' 45" N, 131° 07' 20" W; (map 3). Local name reported in 1949 by USGS.

Mesa Mountain: mountain, 3,200 ft., 2 miles E of Tutna Lake and 28 miles NW of Nondalton, Alaska Range; 60° 22' 30" N, 155° 12' 00" W; (map 61). Variant: Cornforth Peak. Descriptive name given by R. H. Sargent and P. S. Smith, USGS, in 1914. It was called Cornforth Peak by early prospectors.

Mesa Rocks: rocks, between Uganik Bay and Uganik Passage, on N coast of Kodiak Island; 57° 50' 35" N, 153° 28' 40" W; (map 34). Descriptive local name; published in 1943 by USC&GS.

Meshagak: locality, see Nushagak.

Meshik Lake: lake, 1.3 miles long, at head of Meshik River, in a low pass through Aleutian Range; on S side of Pinnacle Mountain, 28 miles W of Cape Kunmik, on Alaska Peninsula, Aleutian Range; 56° 47' N, 157° 57' W; (map 31). Variant: Mishik Lake. Presumably an Eskimo name used by local fishermen; published as Mishik in 1905 by USGS.

Meshik River: stream, on Alaska Peninsula, heads in Meshik Lake, flows W 31 miles to Port Heiden, 34 miles NNW of Chignik, Bristol Bay Lowland; 56° 46' N, 158° 38' W; (map 30). Variant: Mishik River. Probably an Eskimo name adopted by the fishermen. It is shown as Mishik River on a 1905 USGS map and reported as Meshik River by A. G. Maddren, USGS.

Meshik: village, see Port Heiden.

Messy Slough: stream, flows W 16 miles from Koyukuk River to Cutoff Slough, 42 miles NW of Hochandochtla Mountain, Kokrines-Hodzana Highlands; 65° 55' 45" N, 155° 59' 45" W; (map 107). Local name obtained in 1954 by USGS topographers.

Mesurier Point: point of land, see Lemesurier Point.

Metal Creek Glacier: glacier, trends W 5.7 miles to its terminus at head of Metal Creek, 23 miles E of Palmer, Chugach Mountains; 61° 38' N, 148° 25' W; (map 69). Local name reported in 1960 by USGS.

Metal Creek: stream, heads at Metal Creek Glacier, flows SW 15 miles to Glacier Fork Knik River, 23 miles SE of Palmer, Chugach Mountains; 61° 26' 28" N, 148° 30' 45" W; (map 69). Named by local prospectors; reported in 1906 by T. G. Gerdine and R. H. Sargent, USGS.

Metal Hill: hill, 866 ft., W of Minute Hill, center Kiska Island, Aleutian Islands, 51° 56' 42" N, 177° 32' 30" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II; published on 1943 Army map.

Meteor Hill: hill, 455 ft., S of Kiska Harbor, Kiska Island, Aleutian Islands; 51° 57' 12" N, 177° 33' 20" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Meteor Peak: peak, 8,574 ft., near head of Black Rapids Glacier, 14 miles SE of Mount Hayes, Alaska Range; 63° 27' 05" N, 146° 27' 00" W; (map 86). Name published on relatively recent maps.

Meteorite Mountain: mountain, 6,565 ft., 15 miles NE of Mount Denson, 32 miles NW of Cordova, Chugach Mountains; 60° 59' N, 145° 58' W, (map 64). Local name published in 1953 by USGS.

Meter Bight: bight, 5 miles across, on E coast of Zarembo Island, 14 miles SW of Wrangell, Alexander Archipelago; 56° 21' N, 132° 40' W; BGN 1917; (map 6). Named in 1916 by J. A. Daniels, USC&GS.

Metervik Bay: bay, extends NW 2 miles off Kulukak Bay, 4 miles NE of Right Hand Point and 48 miles SW of Dillingham, Kilbuck Kuskokwim Mountains; 58° 49' N, 159° 46' W; (map 40). Native name reported in 1952 by USGS.

Metlah-Catlah: town, see Metlakatla.

Metlahkatlah: town, see Metlakatla.

Metlakahtla: town, see Metlakatla.

Metlakatla: town, pop. 830, on W coast of Annette Island, 15 miles S of Ketchikan, Alexander Archipelago; 55° 07' 45" N, 131° 34' 30" W; BGN 1957; (map 3). Variant: Metlah-Catlah, Metlah-catlah, Metlahkatlah, Metla-katla, Metla-kahtla, New Metlakahta, New Metlakatla, Port Chester. Tsimshian Indian town established in 1887 when Rev. William Duncan, who established a mission of the Church of England at [Old] Metlakatla in British Columbia in 1857, moved here with most of the Indians in his charge due to differences with his superiors over the conduct of his work. The Annette Island location was first called New Metlakatla and "sometimes Port Chester by outsiders." The 1890 census listed a population of 823; 465 in 1900; 602 in 1910; 574 in 1920; 466 in 1930; 674 in 1939; and 817 in 1950. The Metlakahtla post office was established in 1888, discontinued in 1889. It was reestablished as New Metlakahtla in 1892; spelling changed to Metlakahtla in 1895 and again changed in 1904 to its present form (Ricks, 1965, p. 42, 45).

Metlatavik: locality, see Mitliktavik.

Metletukeruk: locality, see Mitletukeruk.

Mettenpherg Creek: stream, flows S 25 miles to Malamute Fork Alatna River, 32 miles NW of Bettles, Brooks Range; 67° 06' N, 152° 44' W; BGN 1959; (map 124). Variant: Mecklenberg Creek. Reported as "Mecklenberg Creek" by P. S. Smith (1913, p. 143), USGS. The present spelling was recommended about 1930 by Robert Marshall after his work in the region.

Mettenpherg Creek: stream, see Malamute Fork Alatna River.

Metukatoak: locality, "at Port Clarence," Seward Peninsula Highlands; Former Eskimo camp or settlement listed in the 1890 Census (p. 162).

Metzdorf Slough: stream, anabranch on left side of Yukon River, flows SW 17 miles E of Quail Island, Innoko Lowland; 63° 54' N, 159° 00' W, (map 90). Riverboat pilots' name shown on 1940 "Navigation Chart of the Tanana-Yukon Rivers," U.S. Dept. of Interior.

Mexico Point: point of land, on an island at S entrance to Eureka Channel, on SW coast of Prince of Wales Island, Alexander Archipelago; 54° 45' 20" N, 132° 22' 30" W; (map 1). Local name published by USC&GS in 1899.

Meyer Creek: stream, heads in Horn Mountains, flows NW 1.7 miles to Flat Creek, 2 miles SW of its junction with Little Netchina River and 13 miles N of Tahnetta Pass, Talkeetna Mountains; 62° 04' 25" N, 147° 21' 30" W; (map 82). Local name reported in 1917 by USGS.

Meyer Peak: mountain peak, see Mayer Peak.

Meyers Chuck: cove, on E side of Clarence Strait on SW side of Lemesurier Point, on Cleveland Peninsula, Alexander Archipelago; 55° 44' 30" N, 132° 15' 45" W; BGN 1965; (map 4). Variant: Meyerschuck, Myers Chuck. Local name published in 1917 by USC&GS see Salt Chuck, village.

Meyers Chuck: village, pop. 27, on Clarence Strait, at SW end of Cleveland Peninsula, Alexander Archipelago; 55° 44' 30" N, 132° 15' 15" W; BGN 1965; (map 4). Variant: Myers Chuck. Fishing village reported to be named for "a prospector named Meyer who found his food in the woods" (Alaska Sportsman, 1962 No. 12, p. 26). A post office was established here in 1922 and discontinued in 1945 (Ricks 1965, p. 44). See Salt Chuck, village.

Meyers Creek: stream, flows S 2 miles to Butte Creek, 22 miles W of Eagle, Yukon-Tanana Highlands; 64° 45' N, 141° 55' W; (map 102). Prospectors' name shown on a 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Meyers Island: island, 1,600 ft. long, in Clarence Strait, W of village of Meyers Chuck, on SW coast of Cleveland Peninsula, Alexander Archipelago; 55° 44' 25" N, 132° 15' 40" W; BGN 1965; (map 4). Named by local fishermen and reported in 1904 by H. C. Fassett, USBF.

Meyers Stream: stream, flows NW 0.7 miles to Meyers Chuck, on SW coast of Cleveland Peninsula, Alexander Archipelago; 55° 44' 13" N, 132° 14' 40" W; BGN 1965; (map 4). Name reported in 1900 by Lt. Comdr. J. F. Moser, USN; so named because "it is fished by Mr. Meyers."

Miam, Lake: lake, 1 mile long, drains SW to Portage Bay, on N shore of Ugak Bay, on E coast of Kodiak Island; 57° 30' 30" N, 152° 34' 00" W; (map 34). Local name reported in 1949 by USGS.

Mice Creek: stream, flows E 11 miles to Bear Creek, 6.3 miles S of Tetlin Lake and 32 miles S of Tok, Alaska Range; 62° 58' N, 142° 42" W; (map 84). Local name reported by USGS in 1960.

Michael Bay: cove, see Steller Cove.

Michael Creek: stream, flows SW 3 miles to Delta River, crosses Richardson Highway, 29 miles NW of Paxson, Alaska Range; 63° 25' 55" N, 145° 47' 00" W; (map 86). Name published on relatively recent maps.

Michael Point: point of land, see Mikhail Point

Michaelovski Island: island, see Saint Michael Island.

Michaelovski: village, see Saint Michael.

Michaels Sword: peak, 6,840 ft., on Hades Highway, 1.2 miles W of Devils Paw, 36 miles NW of Juneau, Coast Mountains; 58° 43' 30" N, 133° 52' 30" W; (map 12). Local name reported in 1960 by USGS.

Michel Lake: lake, 0.7 miles long, among Loon Lakes, 48 miles SW of Fort Yukon, Yukon Flats; 66° 14' N, 146° 47' W; (map 119). Local name obtained in 1956 by USGS

Michelson, Mount: mountain, 8,855 ft., in Romanzof Mountains, between Hulahula and Okpilak Rivers, 56 miles SW of Barter Island, Brooks Range; 69° 19' N, 144° 15' W; BGN 1961; (map 139). Named by Leffingwell (1919, p. 97) for Albert Abraham Michelson, 1852-1931, American scientist.

Michelson, Mount: mountain, 8,975 ft. at head of Meares Glacier, 34 miles NW of Valdez, Chugach Mountains; 61° 16' 50" N, 147° 13' 40" W; (map 69). Named about 1957 by members of the Chugach Mountains Expedition sponsored by the Arctic Institute of North America (Nielsen, 1963, p. 135). Named for Albert Abraham Michelson, 1852-1931, American physicist.

Michigan Creek: stream, flows N 14 miles to Yukon River, 30 miles SE of junction of Charley River, Yukon-Tanana Highlands; 65° 12' N, 141° 48' W; (map 103). Prospectors' name reported in 1898 by E. F. Ball.

Michigan Creek: stream, flows NW 8 miles to South Fork Goodpaster River, 35 miles E of Big Delta, Yukon-Tanana Highlands; 64° 11' 15" N, 144° 41' 00" W; (map 101). Local name reported in 1955 by USGS.

Michigan Creek: stream, flows SE 24 miles to George River, 27 miles SE of Flat and 37 miles N of Sleetmute, Kilbuck-Kuskokwim Mountains; 62° 13' 40" N, 157° 18' 30" W; (map 79). Prospectors' name obtained in 1913 by Eakin (1914, pl. 1), USGS.

Michigan Creek: stream, flows SW 20 miles to Wild River, E of Twoday Mountain and 35 miles SW of Wiseman, Brooks Range; 67° 16' 15" N, 151° 24' 00" W; (map 124). Local name shown on an 1899 fieldsheet by T.G. Gerdine, USGS.

Mickey Creek: stream, flows NE 6 miles to Chandalar River, 3.5 miles W of Caro and 25 miles SSE of Chandalar, Brooks Range; 67° 09' 30" N, 148° 08' 30" W; (map 123). Prospectors' name obtained by A. G. Maddren, USGS, in 1909 (in Brooks and others, 1910, pl. 7).

Mickey Island: island, extends EW 2.5 miles, in Yukon River, 2 miles W of Edith Island and 32 miles NE of Ruby, Nowitna Lowland; 64° 55' N, 154° 31' W; (map 98). Riverboat pilots' name shown on 1940 "Navigation Chart, Tanana-Yukon Rivers" of the River Boat Service, U.S. Dept. of Interior.

Mid Point: point of land, between Scabbard and Finger Bays, on S shore of Kuluk Bay, on NE coast of Adak Island, Aleutian Islands; 51° 50' 40" N, 176° 33' 00" W; BGN 1936; (map 17). So named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934, "because it is midway between Lucky Point and Thunder Point."

Mid Point: point of land, see Middle Point.

Mid Reef: reef, in Amlia Pass, between Atka and Amlia Islands, Aleutian Islands; 52° 07' 47" N, 174° 04' 15" W; (map 18). Name published by the USC&GS in the 1944 Aleutian Coast Pilot (p. 90). So called because "it is midway between the islands."

Midarm Island: island, 0.2 miles long, on SE Coast of Afognak Island, in W arm Izhut Bay at mouth of Kitoi Bay, 20 miles NE of Afognak, Kodiak Island; 58° 11' 10" N, 152° 19' 40" W; (map 43). Local name published in 1943 by USC&GS.

Midas Camp: site, mining camp 0.5 miles S of Solomon Gulch, 7 miles S of Valdez, Chugach Mountains; 61° 00' 55" N, 146° 16' 30" W, (map 68). Local name reported in 1911 by USGS.

Midas Creek: stream, flows N 8 miles to Sixtymile Creek, 5 miles W of that stream's mouth and 56 miles W of Wiseman, Brooks Range; 67° 20' 45" N, 152° 13' 30" W; (map 124). Local name shown on a 1899 fieldsheet by T. G. Gerdine, USGS.

Midas Creek: stream, flows NW 3 miles to South Fork Avolik River, 28 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 28' N, 161° 19' W; (map 53). Local name reported in 1954 by USGS.

Midas Creek: stream, heads at 67° 56' N, 155° 36' W, flows SW 27 miles to Noatak River, 27 miles SE of Howard Pass, Brooks Range; 67° 51' N, 156° 27' W; (map 126). Prospectors' name probably given around 1900 when a small amount of placer gold was found in the stream's gravel. The name was reported by P. S. Smith (1913, p. 141), USGS, in 1911. The Eskimo name for this stream is "Ningyak" meaning "cottonwood," reported by Orth in 1956.

Midday Creek: stream, flows SW to Penny River, about 27 miles NW of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Middle Arm Kelp Bay: bay, 1 mile across, 5 miles long, empties into Kelp Bay, on Baranof Island, 10 miles SE of Todd, Alexander Archipelago; 57° 20' N, 134° 57' W; (map 9). Named in 1895 by Lt. Comdr. E. K. Moore, USN, and published by USC&GS on Chart 8050.

Middle Arm Perenosa Bay: bay, see Delphin Bay.

Middle Arm Three Arm Bay: bay, 0.7 miles across, part of Three Arm Bay, on W coast of Adak Island, Aleutian Islands; 51° 45' 00" N, 176° 51' 20" W; BGN 1936; (map 17). Descriptive name given by Lt. William Gibson, USN. See Low Point.

Middle Arm: cove, 0.8 miles long, on E shore of Eyak Lake, 3.5 miles E of Cordova, Chugach Mountains; 60° 33' 30" N, 145° 38' 30" W; (map 64). Local descriptive name published in 1951 by USGS.

Middle Basin: valley, on Nugget Creek, 2 miles E of terminus of Mendenhall Glacier and 9 miles NW of Juneau, Coast Mountains; 58° 25' 45" N, 134° 28' 30" W; (map 11). Variant: Sunrise Basin. Local name published in 1962 by USGS. The original name used by miners was "Sunrise Basin."

Middle Bay: bay, extends SW 5 miles off Chiniak Bay between Broad and Cliff Points, 8 miles S of Kodiak, Kodiak Island; 57° 41' N, 152° 27' W; (map 34). Variant: Guba Srednyaya, Srednaia. Translation by USC&GS in 1881 of the name "Guba Srednyaya," published by Sarichev (1826, map 16).

Middle Bay: bay, see Alimuda Bay.

Middle Bay: bay, see Kismaliuk Bay.

Middle Bluff: bluff, 110 ft., on W coast of Alaska Peninsula, 29 miles SW of Naknek, Bristol Bay Lowland; 58° 24' 20" N, 157° 31' 15" W; (map 41). Local name published in 1958 by USGS.

Middle Branch Norris Glacier: glacier, heads E of Nugget Mountain, trends NE 5.5 miles to Death Valley Branch Morris Glacier, 13 miles NE of Juneau, Coast Mountains; 58° 28' N, 134° 15' W; (map 11). Local name reported in 1965 by D. A. Brew and A. B. Ford, USGS.

Middle Branch South Fork Chester Creek: stream, flows SW 2.7 miles through De Barr Vista, Nunaka Valley, and Bonibrook, joins South Branch to form South Fork Chester Creek in Anchorage, Cook Inlet Lowland; 61° 11' 23" N, 149° 47' 05" W; (map 69). Local name reported in 1962 by USGS.

Middle Breaker: rocks, 10 miles S of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 31' 00" N, 136° 04' 40" W; BGN 1908; (map 9). Named in 1908 by USC&GS and published in the 1908 Coast Pilot (p. 167). Named presumably because the rocks are halfway between the reefs off the West coast of Khaz Peninsula and the Khaz Breakers.

Middle Cape: point of land, on S shore of Halibut Bay, on W coast of Kodiak Island, 18 miles SW of Karluk; 57° 22' N, 154° 46' W; BGN 1931; (map 35). Variant: Middle Headland. Named by USC&GS in 1929 "because of its central location with respect to other prominent points or capes." The USC&GS survey of 1919 called it "Middle Headland."

Middle Cape: point of land, see Sereдни Point.

Middle Channel Kiwalik River: stream, a distributary of Kiwalik River, heads at Mud Creek Channel, flows NE 0.8 miles to Kiwalik Lagoon, 56 miles NW of Haycock, Seward Peninsula Highlands; 65° 58' N, 161° 52' W; (map 109). Local name published on maps after 1950.

Middle Channel: channel, 10 miles long, in Nushagak Bay, between Long Sands and Big Sands, 22 miles S of Dillingham, Bristol Bay Lowland; 58° 40' N, 158° 30' W; (map 40). Local name reported in 1950 by USC&GS. The Nushagak Bay channels are constantly changing in location and navigability.

Middle Channel: stream, 6 miles long, anabranch of Porcupine River 14 miles N of Chalkyitsik, Yukon Flats; 66° 54' N, 143° 36' W; (map 120). Local name published in 1951 by USGS.

Middle Channel: water passage, 2.5 miles long, along NW coast of Beauchamp Island, W of Baranof Island, 8.5 miles SE of Goddard, Alexander Archipelago; 56° 43' 00" N, 135° 17' 30" W; (map 5). Local name published by USC&GS in 1932 Coast Pilot (p. 376).

Middle Channel: water passage, in Sitka Sound, extends NE 1.5 miles to Sitka, Alexander Archipelago; 57° 02' N, 135° 21' W; (map 9). Variant: Farvater Sredniy. An 1882 translation by USC&GS of name "Farv[ater] Sredniy" published by Capt. Tebenkov (1852, map 38).

Middle Chugach Island: island, see Perl Island.

Middle Craig Point: point of land, on NE coast of Zarembo Island, 11 miles SE of Wrangell, Alexander Archipelago; 56° 26' 15" N, 132° 39' 20" W; (map 6). Local name used by fishermen; name published in 1923 by USC&GS.

Middle Creek: stream, flows N 6 miles to W shore of Duncan Canal, on S coast of Kupreanof Island, 16 miles SW of Petersburg, Alexander Archipelago; 56° 38' 20" N, 133° 14' 50" W; (map 6). Local descriptive name obtained in 1951 by USGS.

Middle Creek: stream, flows NW 8 miles to East Fork Matanuska River, 59 miles NE of Palmer, Copper River Basin, 61° 49' 15" N, 147° 21' 30" W; BGN 1960; (map 69). Local descriptive name reported in 1956 by USGS.

Middle Creek: stream, heads N of Slow Fork Hills, flows SW 26 miles to Slow Fork Kuskokwim River, 42 miles E of Medfra, Kuskokwim Lowland; 63° 16' N, 153° 27' W; (map 89). Local name reported in 1958 by USGS.

Middle Dome: mountain, 2,117 ft., in Glacier Bay National Monument, on W side of La Perouse Glacier, 3 miles NE of Gulf of Alaska and 73 miles NW of Hoonah, St. Elias Mountains; 58° 31' 10" N, 137° 16' 15" W; (map 10). Local name published by USGS in the 1950's.

Middle Finger Lake: lake, longest of the Finger Lakes, on Kenai Peninsula, 1.7 miles long, 13 miles NE of Kenai, Cook Inlet Lowland; 60° 38' 45" N, 150° 53' 45" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Middle Fork Bremner River: stream, heads at a glacier terminus, flows NW 14 miles, joins North Fork to form Bremner River, 42 miles SSE of Chitina, Chugach Mountains; 60° 57' N, 143° 53' W; (map 65). Name published by Moffit (1914, fig. 2), USGS.

Middle Fork Buckland River: stream, flows SW 25 miles to the Buckland River, 50 miles NE of Haycock, Nulato Hills; 65° 44' N, 160° 00' W; (map 109). Local name published in 1951 by USGS.

Middle Fork Chandalar River: stream, flows SW 102 miles, joins North Fork Chandalar River to form Chandalar River, 23 miles SSE of Chandalar, Brooks Range; 67° 10' N, 148° 18' W; (map 123). Prospectors' name reported in 1899 by Schrader (1900b, pl. 60), USGS.

Middle Fork Chester Creek: stream, heads in Russian Jack Springs, flows SW 2.6 miles, joins South Fork to form Chester Creek in Anchorage, Cook Inlet Lowland; 61° 11' 58" N, 149° 49' 55" W; (map 69). Local name reported in 1962 by USGS.

Middle Fork Chistochina River: stream, flows SW 20 miles from E terminus of Chistochina Glacier to Chistochina River, 30 miles NW of Slana, Alaska Range; 62° 54' N, 144° 47' W; (map 83). Local name reported by USGS (in Mendenhall and Schrader, 1903).

Middle Fork Chulitna River: stream, heads at 63° 18' N, 148° 50' W, flows SW 28 miles to join East Fork Chulitna River to form Chulitna River, 55 miles SW of Healy, Talkeetna Mountains; 63° 06' 30" N, 149° 31' 30" W; (map 87). Name reported in 1913 by J. W. Bagley, USGS.

Middle Fork Copper Creek: stream, flows N 3 miles to Copper Creek, 1.4 miles S of Kotsina River, 82 miles NE of Valdez, Wrangell Mountains; 61° 41' 20" N, 144° 03' 15" W; (map 68). Local name shown on a 1912 fieldsheet by D. C. Witherspoon, USGS.

Middle Fork Eek River: stream, heads at 60° 03' N, 160° 30' W, flows NW 44 miles to the Eek River, 46 miles S of Bethel, Yukon Kuskokwim Delta; 60° 09' N, 161° 35' W; (map 59). Local name reported in 1935 by USGS.

Middle Fork Eldorado Creek: stream, heads on NE side of East Peak of Ear Mountain, flows E 1.5 miles to Eldorado Creek, in Arctic River basin, 2.8 miles E of The Ears, Seward Peninsula Highlands; 65° 56' 05" N, 166° 08' 50" W; BGN 1954; (map 111). Named in 1945 by a USGS field party.

Middle Fork Fortymile River: stream, heads at 64° 01' N, 144° 50' W, flows NE 60 miles to North Fork Fortymile River, 38 miles SW of Eagle, Yukon-Tanana Highlands; 64° 27' 40" N, 142° 13' 00" W; (map 102). Variant: Granite Fork, Middle Fork North Fork Fortymile River, Two White Men Creek. Named by prospectors and shown in 1902 on a manuscript map by E. J. Chamberlain, U.S. Deputy Surveyor. The name was reported in 1898 as "Granite Fork" by C. A. Woodruff, Fort Cudahy, Canada.

Middle Fork George River: stream, see Julian Creek.

Middle Fork Glacier Creek: stream, flows SW 2 miles to join the Glacier Fork to form Glacier Creek, 8 miles N of Nome, Seward Peninsula Highlands; Prospectors' name published in

1900 by Schrader (1900c, p. 16), USGS. Subsequent maps show a different drainage pattern at the head of Glacier Creek.

Middle Fork Glacier: glacier, trends E 9.6 miles to its terminus at head of Middle Fork White River, 39 miles NE of McCarthy, Wrangell Mountains; 61° 46' N, 141° 59' W; (map 67). Local name reported by Capps (1916, pl. 1), USGS.

Middle Fork Goodnews River: stream, flows SW 44 miles to Goodnews River, 4 miles E of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 08' N, 161° 29' W; (map 53). Variant: Koguklik. Name published by G. L. Harrington (in Brooks 1921, pl. 7), USGS. Harrington reports that the Eskimo name of the fork is "Koguklik," meaning "having the middle."

Middle Fork Gulkana River: stream, flows E through Dickey Lake 29 miles to Gulkana River, 2.5 miles SW of Paxson Lake, Alaska Range; 62° 51' N, 145° 40' W; (map 83). Local name reported by USGS (in Moffit, 1912, pl. 1).

Middle Fork Holitna River: stream, see Kogruklu River.

Middle Fork Iron Creek: stream, flows W 8 miles to Iron Creek, 14 miles SE of its junction with Talkeetna River and 32 miles E of Talkeetna, Talkeetna Mountains; 62° 20' 15" N, 149° 07' 30" W; (map 82). Local name recorded in 1917 by S. R. Capps (in Brooks and others, 1919, pl. 4) USGS.

Middle Fork Jones Creek: stream, flows W 6 miles to Jones Creek 10 miles SE of its junction with East Fork Kuskokwim River and 30 miles SE of Medfra Kuskokwim Lowland; 63° 30' 00" N, 153° 45' 30" W; (map 89). Local name reported in 1958 by USGS

Middle Fork Koyukuk River: stream, heads from junction of Bettles and Dietrich Rivers flows SW 62 miles to join North Fork, to form Koyukuk River, 26 miles SW of Wiseman, Brooks Range; 67° 02' 30" N, 151° 04' 00" W; (map 124). Local name shown on an 1899 fieldsheet by T. C. Gerdine, USGS.

Middle Fork Koyukuk River: stream, see Dietrich River.

Middle Fork Kuskokwim River: stream, heads SW of Trimokish Hills at 62° 07' 40" N, 154° 24' 00" W, flows NW 130 miles to Kuskokwim River, 21 miles E of McGrath, Alaska Range; 62° 59' N, 154° 58' W; (map 80). Variant: Keklone River. Local name reported in 1905 by A. H. Brooks, USGS. The native name was "Keklone" according to Gordon (1917, map).

Middle Fork Lake: lake, 1.5 miles long, on Middle Fork Goodnews River, 6 miles W of Gechiak Lake and 42 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 24' N, 160° 36' W; (map 53). Local name reported in 1954 by USGS.

Middle Fork Montana Creek: stream, flows SW 19 miles joining the North Fork to form Montana Creek, 11 miles SE of Talkeetna, Cook Inlet Lowland; 62° 11' 25" N, 149° 57' 00" W; (map 82). Local name recorded in 1950 by USGS.

Middle Fork North Fork Fortymile River: stream, see Middle Fork Fortymile River.

Middle Fork of the West Fork Tozitna River: stream, see Banddana Creek.

Middle Fork Okpikruak River: stream, heads at glacier terminus, flows N 20 miles to Okpikruak River 11 miles SW of its junction with Okokmilaga River, Brooks Range; 68° 35' N, 153° 29' W; (map 133). So named in 1949 by W. W. Patton, USGS during exploration of Naval Petroleum Reserve No. 4.

Middle Fork Paint River: stream, flows N 1 5 miles, joins South Fork Paint River to form Paint River, 8 miles SE of Spectacle Lake, 4 miles SW of Augustine Island, Aleutian Range; 59° 07' 15" N, 154° 38' 10" W; (map 51). Local name reported by K. F. Mather' USGS, in 1923 (in Brooks and others, 1925, pl. 3).

Middle Fork Salcha River: stream, see Salcha River.

Middle Fork Tozitna River: stream, see Banddana Creek.

Middle Fork Tuentna River: stream, see West Fork Nixon Fork.

Middle Fork White River: stream, heads at Middle Fork Glacier, flows SE 8 miles to White River, 42 miles NE of McCarthy, Wrangell Mountains; 61° 45' N, 141° 18' W; (map 67). Local name reported in 1908 by D. C. Witherspoon (Moffit and Knopf, 1910, pl. 2), USGS.

Middle Fork Willow Creek: stream, flows S 1.7 miles to Willow Creek, 18 miles N of Fairbanks, Yukon-Tanana Highlands; 65° 07' N; 147° 44' W; (map 105). Local name published by USGS in the 1950's.

Middle Glacier Creek: stream, heads at glacier terminus, flows S 5.5 miles to Chinitna Bay, Aleutian Range; 59° 52' N, 153° 09' W; BGN 1906; (map 51). Local name published by G. C. Martin (1905, pl. 4), USGS.

Middle Glacier: glacier, see Cascade Glacier.

Middle Ground Shoal: shoal, 3.5 miles long, in Gompertz Channel of Cook Inlet, 12 miles N of East Foreland and 24 miles NW of Kenai, Cook Inlet Lowland; 60° 53' N, 151° 23' W; (map 62). Local descriptive name; published in 1943 by USC&GS.

Middle Ground Shoal: shoal, 4 miles long, in Orca Bay, NW of Hawkins Island; 20 miles W of Cordova, Chugach Mountains; 60° 31' 30" N, 146° 20' 00" W BGN 1933; (map 64). Local name reported in 1908 by Grant and Higgins (1909, pl. 4), USGS.

Middle Harbor Kaigahnee Harbors: bay, see South Kaigani Harbor.

Middle Headland: point of land, see Middle Cape.

Middle Hill: hill, 125 ft., 2 miles N of Saint Paul Saint Paul Island, in Pribilof Islands, 57° 09' N, 170 17' W; (map 38). Local name published in 1897 by W. W. Duffield, USC&GS.

Middle Hill: hill, 650 ft., center of Kiska Island, Aleutian Islands; 51° 56' 46" N, 177° 34' 10" E; (map 14). Variant: Elephant Hill. An arbitrary name beginning with "M" to correspond to "M"

grid used by U.S. Army for tactical purposes during World War II; published on a 1953 AMS map. Variant name was published on a 1943 USAAF map.

Middle Island Sankhat: island, see San Island.

Middle Island: island, 0.2 miles across, 11 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 46' 55" N, 136° 19' 20" W; (map 9). Named in 1925 by USC&GS and published in the 1925 Coast Pilot (p. 322). Presumably named because it is at the middle of the mouth of Davison Bay.

Middle Island: island, 0.5 miles across, in Natuhini Bay, 1.5 miles N of Hydaburg, on W coast Of Prince of Wales Island, Alexander Archipelago; 55° 14' N, 132° 51' W; (map 4). Local descriptive name published in 1965 by USC&GS.

Middle Island: island, 2 miles across, in Sitka Sound, 5.5 miles NW of Sitka, Alexander Archipelago; 57° 06' N, 135° 27' W; (map 9). Variant: Ostrov Sredney, Ostrov Yabloshny. This is an 1882 translation by USC&GS of the name given in 1809 by the Russian navigator Ivan Vasiliev the first; reported by Lt. Sarichev (1826, map 19), IRN, as "Os[trov] Sredney." The name "Ostrov Yabloshny," meaning "apple island," was published for this island in 1848 by the Russian Hydrog. Dept. on Chart 1397.

Middle Island: island, 2 miles long, in Shakan Bay, between Kosciusko and Prince of Wales Islands, 14 miles S of Point Baker, Alexander Archipelago; 56° 10' N, 133° 32' W; (map 6). Named in 1886 by Lt. J. M. Helm, USN, for charting purposes; name published in 1887 on USC&GS chart 706.

Middle Island: island, 2.3 miles long, largest of Barrier Islands, in Cordova Bay, off SW coast of Prince of Wales Island, Alexander Archipelago; 54° 48' N, 132° 26' W; (map 1). Local descriptive name reported in 1951 by

Middle Island: island, 200 ft. long, in Kalsin Bay, on E coast of Kodiak Island; 57° 38' 30" N, 152° 21' 51" W; (map 34). Variant: Ostrov Sredney, Srednie Island. Translation of the name "Os[trov] Sredney" published by Sarichev (1826, map 16).

Middle Island: island, 700 ft. long, in Sakie Bay on W coast of Dall Island, Alexander Archipelago; 55° 03' 35" N, 133° 11' 30" W; (map 4). Descriptive name published in 1924 by

Middle Island: islands, see Apple Islands.

Middle Islands: islands, 2.5 miles long, in Kashevarof Islands, off NE coast of Prince of Wales Island, 30 miles SW of Wrangell, Alexander Archipelago; 56° 11' N, 132° 57' W; (map 6). Descriptive name given in 1886 by Lt. Comdr. A. S. Snow, USN, because of their location.

Middle Islands: islands, group in north arm of Lake Nerka, 1 mile NE of Anvil Bay and 38 miles NW of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 35' N, 158° 45' W; BGN 1931; (map 52). Local name obtained in 1930 from F. H. Waskey and Beverley Polley, local inhabitants, by Gerald FitzGerald, USGS; published in 1938 by J. B. Mertie, USGS.

Middle Islands: islands, see Vitskari Island.

Middle Kaigani Harbor: bay, see South Kaigani Harbor.

Middle Kiska Lake: lake, 0.5 miles across, between East and West Kiska Lakes, north central Kiska Island, Aleutian Islands; 52° 03' 45" N, 177° 34' 00" E; (map 14). One of many arbitrary names applied to features on Kiska Island by USAAF during World War II.

Middle Lagoon: lagoon, 1.5 miles long, on W side of Morzhovoi Bay, at SW end of Alaska Peninsula, Bristol Bay Lowland; 55° 04' 30" N, 163° 13' 00" W; (map 29). Descriptive name published in the 1926 Coast Pilot (p. 215).

Middle Lake: lake, 0.3 miles long, 3 miles W of terminus of Sheridan Glacier, 10 miles E of Cordova, Chugach Mountains; 60° 32' N, 145° 23' W; (map 64). Local descriptive name published in 1950 by USGS.

Middle Lake: lake, 2,100 ft. across, E of Little Susitna River, 14 miles NW of Anchorage, Cook Inlet Lowland; 61° 23' 00" N, 150° 09' 30" W; (map 70). Local descriptive name reported in 1958 by USGS.

Middle Lake: lake, 3.4 miles long, N of Ewan Lake, 27 miles NW of Glennallen, Copper River Basin; 62° 29' N, 145° 44' W; (map 83). Local name reported in 1950 by USGS.

Middle Ledge: rocks, extending W 0.3 miles toward middle of Tanaga Bay, Tanaga Island, Aleutian Islands; 51° 45' 50" N, 177° 57' 00" W; (map 17). Descriptive name published by USC&GS in 1957 on Chart 9146.

Middle Mountain: mountain, 1,000 ft., 5.5 miles W of McNeil Cove, 39 miles SW of Augustine Island, Aleutian Range; 59° 08' N, 154° 25' W; (map 51). Local name reported by K. F. Mather, USGS, in 1923 (in Brooks and others, 1925, pl. 3).

Middle Mountain: mountain, 1,760 ft., near E coast of Annette Island, between Blunt and Narrows Mountains, Alexander Archipelago; 55° 09' 30" N, 131° 24' 25" W; (map 3). Descriptive name given in 1883 by Lt. Comdr. H. E. Nichols, USN.

Middle Mountain: mountain, 3,328 ft., on Admiralty Island, 7 miles NE of Soapberry Mountain and 49 miles NE of Sitka, Alexander Archipelago; 57° 27' 17" N, 134° 16' 00" W; BGN 1962; (map 9). Local name reported in 1962 by USFS. Named for the middle arm of Pybus Bay, which trends toward it. "The Indians have called it by this name for many years."

Middle Pass: pass, between Bluff Cove and Kiska Harbor, Kiska Island, Aleutian Islands; 51° 59' 00" N, 177° 29' 35" E; (map 14). Variant: Windy Pass. An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II; published on a 1943 USAAF map.

Middle Peak: peak, 2,050 ft., on E end of Attu Island, 2 miles W of Point Hope, Aleutian Islands; 52° 54' 47" N, 173° 16' 07" E; (map 13). Descriptive name given in 1854-55 by Lt. William Gibson, USN.

Middle Peak: peak, 3,722 ft., 0.6 miles SW of Hawthorne Peak, 3 miles SE of Thane on Gastineau Channel, and 7 miles SE of Juneau, Coast Mountains; 58° 15' 20" N, 134° 15' 00' W; (map 11). Descriptive name given in 1916 by D. C. Witherspoon, USGS, and published in 1918.

Middle Point: point of land, 4 miles N of Fish Bay, on N coast of Baranof Island, 27 miles N of Sitka, Alexander Archipelago; 57° 26' 20" N, 135° 34' 00' W; (map 9). Variant: Mid Point, Mys Sredniy, Srednie Point. This is a translation by USC&GS about 1882 of the name given by the Russian pilot Ens. Vasiliev; published in 1848 on Russian Hydrog. Dept. Chart 1397 as "M[ys] Sredniy."

Middle Point: point of land, in Ham Cove, on E Coast of Dall Island, Alexander Archipelago; 54° 52' 40" N, 132° 51' 15" W; (map 1). Local descriptive name reported in 1951 By USGS.

Middle Point: point of land, in Stephens Passage on The W coast of Douglas Island, 2 miles NW of Inner Point and 9 miles SW of Juneau, Coast Mountains; 58° 15' 00" N, 134° 37' 30" W; (map 11).Local name published in 1942 by USGS.

Middle Point: point of land, on E shore of Bay of Waterfalls, at Chapel Cove, on SW coast of Adak Island, Aleutian Islands; 51° 39' 15" N, 176° 49' 20" W; BGN 1936; (map 17). Named by U.S. Navy officers in 1893; published by the U.S. Navy Hydrog. Office in 1895.

Middle Point: point of land, on N coast of Montague Island, between Rocky Bay and Zaikof Bay, 39 miles E of Chenega, Chugach Mountains; 60° 20' 40" N, 147° 00' 00" W; (map 63). Variant: Punta de Carrillo. Descriptive name given in 1902 by Ferdinand Westdahl, USC&GS. Named "Punta de Carrillo" about August 1, 1779, by Don Ignacio Arteaga "perhaps after one of the Carrillos then in California" (Wagner, 1937, p. 440).

Middle Point: point of land, on SW shore of Port Moller, near SW end of Alaska Peninsula, Aleutian Range; 55° 51' 30" N, 160° 41' 00' W; (map 28). Name shown on a 1963 USC&GS chart.

Middle Point: point of land, see Bear Cape.

Middle Point: point of land, see Center Point.

Middle Point: point of land, see Sennett Point.

Middle Point: point of land, see Vincennes Point.

Middle Pujuk Island: island, in Pujuk Islands, 16 miles S of Northeast Cape, St. Lawrence Island; 63° 05' N, 168° 49' W; (map 93). Descriptive name; see Pujuk Islands.

Middle Reef: reef, 3 miles long, in middle of Alitak Bay. at S end of Kodiak Island: 56° 54' N, 154° 03' W; (map 32). Descriptive name reported in 1900 by Comdr. T. F. Moser USN.

Middle Reef: reef, in Pacific Ocean, 22 miles S Of Buldir Island and 50 miles W of Kiska Island, Aleutian Islands: 51° 59' N, 176° 01' E; (map 14). Local name reported in the 1944 Aleutian Coast Pilot (p. 129).

Middle River: stream, distributary of Chakachatna River, flows SE 10 miles to Trading Bay, 32 miles NW of Kenai, Cook Inlet Lowland; 60° 58' N, 151° 35' W; (map 62). Local descriptive name; reported in 1958 By USGS.

Middle Rock: island, see Prolewy Rocks.

Middle Rock: rock, 1 mile N of Legma Island, in Necker Islands, 16 miles SW of Sitka, Alexander Archipelago; 56° 50' 55" N, 135° 26' 00" W; (map 5). Variant: Srednie Rock, Kamen Sredney. This is a translation by USC&GS of the name given in 1809 by the navigator Ivan Vasiliev the first, IRN. Lt. Sarichev (1826, map 19), IRN, published it as "K[amen] Sredney."

Middle Rock: rock, in Bay of Waterfalls, on SW coast of Adak Island, Aleutian Islands; 51° 40' 15" N, 176° 51' 35" W; BGN 1936; (map 17). Descriptive name given by Lt. William Gibson, USN. See Low Point.

Middle Rock: rock, in Valdez Narrows, at entrance to Port Valdez, 13 miles SW of Valdez, Chugach Mountains; 61° 04' 55" N, 146° 39' 00" W; (map 68). Name published in 1911 by the USC&GS on Chart 5519; so called because of its position in the channel.

Middle Rocks: rocks, E of Kennon Island, in mouth of Chichagof Harbor, on NE coast of Attu Island, Aleutian Islands; 52° 55' 22" N, 173° 15' 55" E; (map 13). Descriptive name given in 1854-55 by Lt. William Gibson, USN.

Middle Rocks: rocks, see Vistskari Rocks.

Middle Salt Lagoon: lagoon, 1 mile across, on Chukchi Sea coast, at mouth of Beaded Creek, 2 miles NE of Barrow, Arctic Plain; 71° 19' N, 156° 41' W; (map 153). Variant: Sinnyu, Sinnyuli. Named for scientific purposes (Carson and Hussey, 1962). This is probably the same lagoon that Lt. P. H. Ray (1885, p. 55) recorded as Sinnyu, meaning "thong" or "shoestring."

Middle Slough: water passage, on N coast of Blacksand Island at mouth of Situk River, 10 miles SE of Yakutat, Malaspina Coastal Plain; 59° 26' 40" N, 139° ' 33' 10" W; (map 46). Variant: Johnsons Slough. Local name published in 1959 by USGS.

Middle Slough: watercourse, 4.5 miles long, a channel of Yukon River, in Devils Elbow, W of Blade Island and 25 miles SW of Russian Mission, Yukon-Kuskokwim Delta; 61° 36' N, 162° 00' W; (map 73). Riverboat pilots' descriptive name shown on a 1916 field sheet by R. H. Sargent, USGS.

Middle Spit: point of land, see Cutter Point.

Middle Yoke Creek: stream, flows SE 2 miles to Yoke Bay, on SE coast of Great Sitkin Island, Aleutian Islands; 52° 01' 24" N, 176° 02' 28" W; (map 17). Descriptive name published in 1951 by USGS.

Middleton Island: island, 19 miles long, in Gulf of Alaska, 80 miles SW of Cordova, Malaspina Coastal Plain; 59° 26' N, 146° 20' W; (map 48). Variant: Achakoo Island, Achek Island, Atchaka Island, Galiano Island, Isla de Hijosa, Middletons Island, Ostrov Kocheck, Rasa Island. Named in 1794 by Capt. George Vancouver RN, “probably after Sir Charles Middleton a rear admiral and comptroller of the navy. In 1788 it had been discovered by [E.J.] Martinez who named it 'Hijosa' In 1791 Malaspina first named it 'Rasa' but soon changed this to 'Galiano'” (Wagner, 1937, p. 397-398). The Eskimo name 'Achakoo' was published for this island by Bancroft (1886 p. 268); Capt. Tebenkov (1852, map 6) IRN, called it “Ostrov Ochek” or “Ochek Island,” probably from “ochekanit,” meaning “to chisel (or carve) round,” because of its shape.

Middleton, Mount: mountain, 5,266 ft., on Alaska-Canada boundary, 34 miles NW of Hyder, Coast Mountains, 56° 16' 00” N, 130° 37' 20” W; BGN 1924; (map 7). Named in 1924 by USGS for Henry Middleton, 1771-1846, U.S. minister to Russia, 1820-1830, who “negotiated treaty with Russia, 1824, regulating trade and fisheries in the Pacific Ocean and northwest coast of America, and establishing the line of 54° 40' as the southern limit of Russian settlement.”

Middletons Island: island, see Middleton Island

Middy Point: point of land, E tip of Ham Island, at N entrance to Felice Strait, Alexander Archipelago; 55° 10' 15” N, 131° 19' 30” W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols. USN; “named for the [U.S. Naval] Academy middies.”

Midnight Cove: cove, 0.3 miles wide, on N shore of Moonlight Bay, on SE coast of Kenai Peninsula, 43 miles ESE of Homer, Chugach Mountains; 59° 30' 40” N, 150° 20' 15” W; BGN 1929; (map 50). Named by USC&GS field party in 1927.

Midnight Creek: stream, flows SW 5.6 miles to Long Creek, 8 miles W of Long and 31 miles SW of Ruby, Kilbuck-Kuskokwim Mountains; 64° 18' 12” N, 155° 37' 45” W; (map 98). Prospectors' name reported in 1911 by A. G. Maddren (in Brooks and others, 1912, p. 294-296), USGS.

Midnight Creek: stream, heads in Canada, flows NW across Alaska-Canada boundary 15 miles to Bull Creek, 50 miles NE of junction of Charley and Yukon Rivers, Porcupine Plateau; 65° 58' 30 N, 141° 12' 45” W; (map 103). Local name published in 1956 by USGS.

Midnight Creek: stream, heads NE of Midnight Mountain, flows SE 5 miles to Taylor Creek which flows to Kougarok River, 38 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 45 N, 164° 28' W; (map 110). Variant: Kennedy Creek. Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12). USGS.

Midnight Dome: mountain, 3,600 ft., 1.5 miles S of Smith Creek Dome and 3.5 miles N of Wiseman, Brooks Range; 67° 27' 30” N, 150° 09 W; BGN 1932; (map 124). Local name reported in 1932 by Robert Marshall, “because it is a spot to which the inhabitants climb on June 22, to see the midnight sun.”

Midnight Hill: mountain, 3,180 ft., 3 miles SW of Alaska-Canada boundary and 84 miles SE of Chalkyitsik, Porcupine Plateau; 66° 03' N, 141° 06' W; (map 120). Local name obtained in 1956 by T. E. Taylor and R. C. Foley, USGS.

Midnight Mountain: mountain, 2,720 ft., 11 miles N of Harris Dome and 40 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 46' N, 164° 35' W; (map 110). Local name reported in 1900 by Brooks (1901, pl. 11), USGS.

Midnight Mountain: mountain, 6,000 ft., 2 miles S of Mount Doonerak and 36 miles NW of Wiseman, Brooks Range; 67° 53' 00" N, 150° 36' 30" W; (map 124). Named in 1939 by Marshall (1956, p. 148) who wrote, "we spent more than an hour, equally distributed around midnight, on the summit, and called our peak Midnight Mountain."

Midsitena: stream, see Canoe Portage Creek.

Midtimber River: stream, heads in lake at 1950 terminus of Bering Glacier, flows SE and W 8 miles to Gulf of Alaska, 13 miles NE of Cape Suckling, Malaspina Coastal Plain; 60° 05' 30" N, 143° 24' 50" W; (map 65). Name published by F. H. Moffit (1914, pl. 1), USGS.

Midun Island: island, 0.5 miles across, 4 miles SE of Deer Island, SW end of Aleutian Range; 54° 50' 30" N, 162° 10' 20" W; (map 25). Name reported by W. H. Dall, USC&GS, and published in 1882 by USC&GS on Chart 806.

Miduuski River: stream, see Matanuska River.

Miduuski: locality, "On E bank of Copper River." Former Athapascan Indian camp or settlement listed by Hodge (1907, p. 859).

Midway Bay: bay, extends NW 2 miles, off Sitkalidak Strait, W of Bush Point, on SE coast of Kodiak Island; 57° 13' 30" N, 153° 14' 00" W; BGN 1930; (map 34). Variant: Sheep Bay. Descriptive name given in 1930 by USC&GS, "because this bay is about midway of the length of Sitkalidak Strait * * *." The name "Sheep Bay" was suggested in 1928 by a USC&GS field party.

Midway Camp: locality, 2 miles S of Mount Cameron and 15 miles NW of Valdez, Chugach Mountains; 61° 10' 45" N, 146° 40' 30" W; (map 68). Former mining camp name reported in 1911 by USGS.

Midway Island: island, 0.1 miles across, in S part of Port Frederick, 10 miles SW of Hoonah, OD N central Chichagof Island, Alexander Archipelago; 57° 59' 50" N, 135° 36' 30" W; (map 9). Descriptive name published in 1926 by USC&GS on Chart 8304. Presumably so named because the island is in the center of The Narrows.

Midway Island: island, 0.2 miles across, in Redfish Bay, 10 miles NW of village of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 19' 40" N, 134° 52' 10" W; (map 5). Named in 1897 by Lt. Comdr. J. F. Moser, USN, commander of USBF steamer Albatross.

Midway Island: island, 300 ft. long, in Tlevak Strait, between Dall and Prince of Wales Islands, Alexander Archipelago; 55° 15' 15" N, 133° 05' 55" W; (map 4). Local descriptive name; published in 1925 Coast Pilot (p. 138).

Midway Island: rock, see Hague Rock.

Midway Islands: barrier islands, consist of Argo and Reindeer Islands, extend 3 miles on Beaufort Sea coast, 7 miles N of Prudhoe Bay, and 18.5 miles E of Beechey Point, Arctic Plain; 70° 27' N, 148° 16' W; (map 150). Name reported in 1889 by Capt. C. R. Stockton, RN.

Midway Islands: islands, 1 mile across, in N part of Pybus Bay, on SE coast of Admiralty Island, Alexander Archipelago; 57° 19' N, 134° 05' W; (map 9). Name published in 1947 by USC&GS on Chart 8218.

Midway Islands: islands, in Stephens Passage between Snettisham Peninsula and Admiralty Island, 4 miles NE of Point Glass and 37 miles SE of Juneau, Coast Mountains; 57° 50' 15" N, 133° 48' 45" W; (map 8). Named by Comdr. R. W. Meade, USN; name published in 1869 on Hydrog. Chart 225; so named because "they are nearly in the middle of Stephens Passage."

Midway Lake: lake, 3.4 miles long, S of Alaska Highway, 22 miles E of Tok, Yukon Tanana Highlands; 63° 13' N, 142° 17' W, (map 85). Local name published by USGS in 1950.

Midway Lakes: lakes, extend NW-SE 1.5 miles between East and West Forks Yentna River, 59 miles W of Talkeetna, Alaska Range; 62° 21' 25" N, 151° 56' 40" W; (map 81). Local descriptive name reported in 1958 by USGS.

Midway Point: point of land, E point of entrance to Isthmus Bay, on S shore of Chiniak Bay, 13 miles SE of Kodiak, Kodiak Island; 57° 37' 30" N, 152° 15' 00" W; (map 34). Local descriptive name; reported in 1949 by USGS.

Midway Point: point of land, on E coast of Glass Peninsula, 5 miles S of Point Glass and 42 miles S of Juneau, Alexander Archipelago; 57° 44' 00" N, 133° 52' 25" W; (map 8). Named in 1889 by Lt. Comdr. H. B. Mansfield, USN; published in 1892 by USC&GS.

Midway Reef: reef, at E end of Peril Strait, 2 miles S of Chichagof Island, 11 miles SW of Angoon, Alexander Archipelago; 57° 26' 00" N, 134° 50' 40" W; (map 9). Named by W. H. Dall, USC&GS, and pub fished in 1883 Coast Pilot (p. 167).

Midway Reef: reef, in Mine Harbor, in SE arm of Herendeen Bay, near SW end of Alaska Peninsula, Aleutian Range; 55° 45' 50" N, 160° 41' 40" W; (map 28). Named in 1890 by Lt. Comdr. Z. L. Tanner, USN, and shown on a 1963 USC&GS chart.

Midway Rock: rock, at S end of Wrangell Narrows, 19 miles S of Petersburg, Alexander Archipelago; 56° 31' 50" N, 132° 57' 45" W; (map 6). Variant: Polivnoi Rock, Polivnoy. Named in 1869 by Comdr. R. W. Meade, USN; named "Polivnoy" meaning "awash" in 1838 by the Russian surveyor, G. Lindenberg.

Midway Rock: rock, between Ukolnoi and Wosnesenski Islands, 10 miles NE of Dolgoi Island, Aleutian Range; 55° 12' 15" N, 161° 28' 30" W; (map 28). Name shown on a USC&GS chart published in 1964.

Midway Rock: rock, in Peril Strait, 2.5 miles N of Fish Bay, off NW coast of Baranof Island, Alexander Archipelago; 57° 25' 00" N, 135° 36' 20" W; (map 9). Variant: Kamen Sredniy. This is a translation by USC&GS about 1882 of the name given by the Russian pilot Ens. Vasiliev; published in 1848 on Russian Hydrog. Dept. Chart 1397 as "Kam[en] Sredniy."

Midway Rocks: rocks, in Port Frederick on Chichagof Island, 1.6 miles S of Chimney Rock and 0.5 miles SW of Hoonah, Alexander Archipelago; 58° 00' 00" N, 135° 37' 25" W; (map 11). Local name published in 1950 by USC&GS on Chart 8304.

Miednaia: stream, see Copper River.

Mielkie Point: point of land, see Rock Point.

Mielkoi Cove: bay, 0.2 miles across, 6.5 miles S of Sitka, on W coast of Baranof Island, Alexander Archipelago; 56° 57' 45" N, 135° 22' 30" W; (map 5). Russian word "melkoi," meaning "shallow," published in 1929 by USC&GS.

Mieshak, Zaliv: bay, see Missak Bay.

Miesof: point of land, see Black Point.

Miesofski: point of land, see Black Point.

Miga, Cape: point of land, on N coast of Kanaga Island, Aleutian Islands; 51° 56' 20" N, 177° 10' 50" W; BGN 1936; (map 17). Variant: Mys Miga. Russian name published by Capt. Tebenkov (1852, map 28), IRN, as "M[ys] Miga," or "Cape Miga," from the word "mig," meaning "wink" or "twinkling of an eye."

Migrant Lakes: lakes, 16 miles WSW of Liberator Lake, Arctic Slope; 68° 49' 30" N, 158° 58' 00" W; BGN 1960; (map 132). Named in 1953 by Island L. Tailleur, USGS, "for migration of lake beds."

Miguakiak River: stream, tributary of Ikpikpuk River, flows E 20 miles to Teshekpuk Lake, Arctic Plain; 70° 39' N, 154° 06' W; (map 148). Variant: Mayoriak. Eskimo name that first appeared on Maguire's chart (Great Britain, 1854, facing p. 186) as "R. Miguakiak." This feature is probably the same stream spelled "Mayoriak" by Stefansson (Leffingwell, 1919, p. 97).

Miguakiak River: stream, see Mayoriak River.

Mijillones, Punta de los: point of land, see Miliflores, Point.

Mikchalk Lake: lake, extends SE 1.6 miles from mouth of Wind River to head of Peace River, 51 miles NW of Dillingham, Kilbuck Kuskokwim Mountains; 59° 45' N, 158° 52' W; BGN 1931; (map 52). Variant: Fourth Lake, Nan-viuk-ka-nuk. The Eskimo name of this lake was

reported as “Nan-viuk-ka-nuk” on a 1910 manuscript map by H. C. Fassett, USBF; called “Fourth Lake” in 1925 by the U.S. Commissioner of Fisheries because it is the fourth one from Nushagak Bay. The descriptive Eskimo name “Mikchalk,” meaning “small lake,” was recorded in 1931 by Gerald FitzGerald, USGS; published by Mertie (1938b, pl. 1), USGS.

Mike Creek: stream, heads at Leak Hill, flows SE 2 miles to Mutt Cove, center of Kiska Island, Aleutian Islands; 51° 56' 20" N, 177° 30' 14" E; (map 14). Variant: Sidecar Creek. An arbitrary name beginning with “M” to correspond to “M” grid used by U.S. Army for tactical purposes during World War II; published on a 1953 AMS map. Variant published on a 1943 USAAF map.

Mike Hess Creek: stream, see Hess Creek.

Mike Hill: hill, 350 ft., E of Mutt Cove, center Kiska Island, Aleutian Islands; 51° 56' 30" N, 177° 30' 15" E (map 14). An arbitrary name beginning with “M” to correspond to “M” grid used by U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Mike Point: point of land, between Raymond and Wadding Coves, on E coast of Cleveland Peninsula, Alexander Archipelago; 55° 37' 15" N, 131° 52' 40" W; (map 3). Local navigators' name obtained in 1904 by H. C. Fassett, USBF.

Mikes Bay: cove, 0.5 miles wide, on W coast of Nuka Island, 36 miles ESE of Seldovia, Chugach Mountains; 59° 21' 30" N, 150° 43' 00" W; (map 50). Local name published by USGS in 1953.

Mikfik Creek: stream, flows N 5 miles to McNeil River, 35 miles SW of Augustine Island, Aleutian Range; 59° 07' N, 154° 15' W; (map 51). Native name reported by K. F. Mather, USGS, in 1923 (in Brooks and others, 1925, pl. 3).

Mikhail Point: point of land, between Abraham and Etienne Bays, on SW coast of Attu Island Aleutian Islands; 52° 52' N, 172° 37' E; BGN 1938, (map 13). Variant: Michael Point, Portage Point. Named for Capt. Mikhail Dmitrievich Tebenkov, 1831-50, early explorer of the North Pacific, director of the Russian American Company and Governor of Russian America from 1845-50. Shown as “Portage Point” on a manuscript map by L. M. Turner in the 1880's. The name “Michael Point” was proposed in 1938 by U.S. Navy Hydrog. Office and was subsequently approved as “Mikhail Point” by BGN.

Mikhaila, Ostrov: island, see Saint Michael Island.

Mikhailovosk: locality, see Fort Saint Michael.

Mikhailovsk: locality, see Old Sitka.

Mikigealiak River: stream, heads in Takrak Lake, flows N 25 miles to Kungok River, 17 miles SE of Wainwright, Arctic Plain; 70° 30' N, 159° 25' W; (map 146). Variant: Mikigialek River. Eskimo name reported as “Mikigialek” in 1924 by USGS.

Mikigialek River: stream, see Mikigealiak River.

Mikisagimiut: locality, on N coast of Nunivak Island, 7 miles NW of Seemalik Butte, 42 miles SW of Cape Etolin; 60° 13' 15" N, 167° 16' 30" W; (map 57). Eskimo summer camp reported in 1932 by USC&GS.

Mikischkin, Cap: promontory, see East Foreland.

Mikkelsen Bay: bay, 9 miles across, on Beaufort Sea coast, between Bullen Point and Tigvariak Island, 15 miles W of Flaxman Island, Arctic Plain; 70° 11' N, 147° 04' W; (map 150). Named by Leffingwell (1919, p. 97) for his associate, Capt. Ejnar Mikkelsen of the Anglo-American Polar Expedition, 1906.

Milady Island: island, off left bank of Yukon River, S of Koyukuk and between Megotsol and Koyukuk Island, Koyukuk Lowland; 64° 50' N, 157° 43' W; (map 97). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by U.S. Dept. of Interior.

Mile Creek: stream, flows SE 1 mile to Shovel Creek near its head, 12 miles N of Solomon, Seward Peninsula Highlands; 64° 43' 30" N, 165° 26' 00" W; (map 95). Prospectors' name reported on a 1902 prospectors' manuscript map.

Mile Twenty: locality, see Bluff.

Miles Glacier: glacier, trends W 30 miles to its terminus at Miles Lake, 2 miles N of Goat Mountain and 33 miles N of Katalla, Chugach Mountains; 60° 40' N, 144° 37' W; (map 64). Named in 1885 by Lt. Allen (1887, pl. 5), USA, during his Alaska expedition, for Maj. Gen. Nelson A. Miles, 1839-1925, USA. "He entered the Army as a volunteer in 1861, attaining the rank of Maj. General of Volunteers, grade by grade, and at age of 25 commended an army corps. He entered regular army at close of Civil War, rose by regular grades to be Major General, succeeding to command of USA on retirement of Gen. Schofield. He conducted several campaigns against hostile Indians on the Western frontiers, notably that against Apaches under Geronimo and Natchez, who surrendered in 1886." (Who's Who in America, 1899, p. 491).

Miles Lake: lake, 3.5 miles across, in Copper River, at terminus of Miles Glacier, 33 miles N of Katalla, Chugach Mountains; 60° 41' N, 144° 40' W; (map 64). Local name published by the Alaska Railroad Commission (1913, pl. 5). Name derived from nearby Miles Glacier.

Miles Pass: pass, see Suslota Pass.

Miliak Cove: estuary, see Soapstone Cove.

Miliflores Point: point of land, see Miliflores Point.

Miliflores, Point: point of land, SE tip of San Juan Bautista Island, in Bucareli Bay, Alexander Archipelago; 55° 24' 30" N, 133° 15' 05" W, (map 4). Variant: Miliflores Point, Punta de los Mejillones Punta de los Mijillones, Punta de los Milillores, Thousand Flowers Point. This point was originally called "Punta de MeJillones" meaning "mussel (or clam) point", by the 1779 Don Ignacio Arteaga expedition. Its present name was derived from a mistake in

reading the original Spanish map and recording “Milflores (Miliflores),” i.e. “thousand flowers.”

Milillores, Punta de los: point of land, see Miliflores, Point.

Military Creek: stream, flows NW 0.8 miles to Birch Creek, which flows to Big Four Creek 19 miles NE of Solomon, Seward Peninsula Highlands; 64° 49' N, 164° 10' W; (map 95). Variant: Milton Creek. Prospectors' name published in 1956 by USGS. Reported as “Milton” on a prospectors' manuscript map dated 1902.

Militia Hill: hill, 325 ft., on eastern Kiska Island, near South Pass, Aleutian Islands; 51° 56' 15" N, 177° 36' 10" E; (map 14). An arbitrary name beginning with “M” to correspond to “M” grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Milk Creek: stream, 22 miles long, flows NE from Heart Lake to Chikuminuk Lake, 98 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 12' N, 159° 09' W; (map 59). Descriptive name given in 1954 by J. M. Hoare and W. L. Conrad, USGS; “Chikuminuk Glacier drains into this creek causing it to appear white.”

Milk Creek: stream, flows SW 5 miles to lower Alec River, 3 miles E of Black Lake, Aleutian Range; 56° 27' N, 158° 52' W; (map 30). Name reported in 1923 by R. H. Sargent, USGS; published in 1927 by USGS.

Milk Creek: stream, heads at Milk Glacier, flows SW 0.9 miles to Crow Creek, 29 miles SE of Anchorage, Chugach Mountains; 61° 01' 35" N, 149° 06' 30" W; BGN 1932; (map 69). Local name reported in 1932 by W. G. Carson and C. F. Park, USGS.

Milk Glacier: glacier, heads between Goat and Summit Mountains, trends SW 2 miles to its terminus at Milk Creek, 29 miles SE of Anchorage, Chugach Mountains; 61° 02' 15" N, 149° 06' 10" W; BGN 1932; (map 69). Local name reported in 1932 by W. G. Carson and C. F. Park, USGS.

Mill Bay: bay, extends SW 1.4 miles, between Miller Point and Spruce Cape, 3 miles NE of Kodiak, Kodiak Island; 57° 49' 30" N, 152° 20' 30" W; BGN 1933; (map 34). Variant: Bukhta Popovskaya, Popof Bay, Popofskaja, Popogg Bay, Priest Bay. Local name reported in 1933 by Gerald FitzGerald, USGS; “given because there was an old Russian flour mill, now in ruins, at the head of this bay.” Sub-Lt. Mikhail Murashev in 1839 or 1840 named it “Bukhta Popovskaya,” meaning “Popov bay.” Baker (1906, p. 504) wrote, “Vasili and Ivan Popof were pioneer traders and fur hunters in Alaska in 1762-63.”

Mill Creek: stream, flows SE 4.8 miles to Lakina River, 2.5 miles SW of Lakina Glacier terminus 17 miles NW of McCarthy, Wrangell Mountains, 61° 32' N, 143° 23' W; (map 67). Local name reported in 1900 by T. G. Gerdine, USGS.

Mill Creek: stream, heads at Virginia Lake, flows SW 0.7 miles to Eastern Passage, 7 miles NE of Wrangell, Coast Mountains; 56° 27' 30" N, 132° 12' 20" W; (map 6). Local name reported in 1914 by E. Lester Jones, USBF.

Mill Creek: stream, heads in a series of lakes, flows SW 2 miles to marsh along Stuart Creek, 4 miles W of Mount Tiekel and 29 miles NE of Valdez, Chugach Mountains; 61° 17' 40" N, 145° 28' 20" W; (map 68). Local name published in the 1950's by USGS.

Mill Hill: hill, 310 ft., 0.9 miles E of Conquer Point, Kiska Island, Aleutian Islands; 52° 00' 30" N, 177° 30' 40" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Mill Lake: lake, see Virginia Lake.

Millar Rocks: rocks, extend 0.6 miles, between Meares Passage and Pacific Ocean, S of Suemez Island, Alexander Archipelago; 55 11' 50" N, 133° 15' 45" W; (map 4). Name published as "Millers Reef" in 1914 by USC&GS; possibly named for Craig Millar, a cannery man for whom the village of Craig was named. See Craig.

Millard Creek: stream, flows NW 5 miles to Galen' Bay, 40 miles NW of Cordova, Chugach Mountains; 60° 55' 30" N, 146° 35' 30" W; (map 64). Local name reported in 1912 by Capps and Johnson (in Brooks and others, 1913, p. 88) USGS; possibly named for B. F. Millard, an officer of the Granite Gold Mining Co.

Millard Lake: lake, 0.7 miles long, 2.5 miles N of Copper Mountain, 38 miles NW of Cordova, Chugach Mountains; 60° 54' 30" N, 146° 34' 30" W; (map 64). Variant: Mallard Lake. Reported in 1912 as "Mallard" by R. H. Sargent and C. E. Giffin, USGS, but was published in 1918 as "Millard Lake" by USC&GS.

Miller Cape: point of land, see Miller Point.

Miller Creek: stream, flows NE 4 miles to Troublesome Creek, 15 miles E. of Rampart, Yukon-Tanana Highlands; 65° 26' 40" N, 149° 42' 00" W; (map 105). Named by prospectors; reported in 1908 by USGS (Covert and Ellsworth, 1909, pl. 5).

Miller Creek: stream, flows NE 5 miles to Mammoth Creek, 40 miles SW of Circle, Yukon-Tanana Highlands; 65° 31' 20" N, 145° 13' 10" W; (map 104). Named for O. C. Miller, who discovered the creek and prospected there in 1894; reported in 1896 by USGS (Spurr, 1898, p. 349).

Miller Creek: stream, flows S to Fish River between Bourne and Jarvis Creeks, about 40 miles NE of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This stream cannot be precisely located on current maps.

Miller Creek: stream, flows SE 5.5 miles to Lake Clark, 32 miles NE of Nondalton, Alaska Range; 60° 19' 30" N, 154° 09' 30" W; (map 61). Local name reported in 1954 by USGS.

Miller Creek: stream, flows SE 6.5 miles to Fish Creek, 28 miles NE of Fairbanks, Yukon Tanana Highlands; 65° 03' 40" N, 146° 58' 00" W; (map 104). Named by prospectors; reported in 1903 by T. G. Gerdine (M. Prindle, 1905, pl. 13), USGS.

Miller Creek: stream, flows SW 3 miles to Hunter Creek, 0.5 miles E of that stream's junction with Minook Creek and 3 miles SE of Rampart, Yukon-Tanana Highlands; 65° 29' N, 150° 05' W; (map 106). Prospectors' name reported in 1931 by J. B. Mertie, USGS.

Miller Creek: stream, flows SW 4 miles to Goldstream Creek, 6 miles E of Livengood, Yukon-Tanana Highlands; 65° 31' 25" N, 148° 20' 10" W; (map 105). Local name reported in 1915 by Brooks (Brooks and others, 1916, pl. 9), USGS.

Miller Creek: stream, heads at Canwell Glacier terminus, flows W 3 miles to Delta River, crossing Richardson Highway 25 miles NW of Paxson, Alaska Range; 63° 22' 35" N, 145° 45' 00" W; (map 86). Name reported in 1952 by USGS.

Miller Creek: stream, heads in Miller Glacier trends S and W 9 miles to Ahrnklin River, 4 miles W of Harlequin Lake and 22 miles SE of Yakutat, Malaspina Coastal Plain, 59° 27' 00" N, 139° 06' 50" W; (map 46). Name published in 1928 by IBC.

Miller Creek: stream, heads in Robinson Mountains flows 3 miles SW to North Channel Yakataga River, 4.5 miles N of Cape Yakataga and 102 miles NW of Yakutat; St. Elias Mountains; 60° 07' 40" N, 142° 24' 30" W; BGN 1945; (map 65). Probably named for J. B. Miller, a prospector in this region about 1907.

Miller Creek: stream, heads in Vogel Lake, flows NW 4 miles to Cook Inlet, 25 miles SW of Anchorage, Cook Inlet Lowland; 61° 00' 18" N, 150° 30' 30" W; (map 70). Local name reported in 1933 by USGS.

Miller Creek: stream, see Little Miller Creek.

Miller Fork Eagle Creek: stream, flows SW 2.6 miles, joins Mastodon Fork to form Eagle Creek, 46 miles SW of Circle, Yukon Tanana Highlands; 65° 27' N, 145° 25' W; (map 104). Named by prospectors; reported by USGS in 1896 (Spurr, 1898, pl. 50).

Miller Glacier: glacier, heads on S slope of Crescent Mountain, trends S 4 miles to 1961 terminus at head of Miller Creek, 26 miles E of Yakutat, St. Elias Mountains; 59° 31' 50" N, 139° 00' 10" W; (map 46). Name published in 1928 by IBC.

Miller Glacier: glacier, trends SE 5 miles to its 1959 terminus near head of Disenchantment Bay, 36 miles NNE of Yakutat, St. Elias Mountains; 60° 03' N, 139° 31' W; (map 66). Named by Lt. Comdr. J. F. Moser, USN, in 1901 for Ens. Cyrus R. Miller, USN, a member of his party.

Miller Gulch: ravine, extends NE 0.8 miles to Slate Creek 1.5 miles E of its junction with Chistochina River 23 miles NE of Paxson, Alaska Range; 63° 10' 02" N, 144° 49' 40" W; (map 86). Named about 1900 by prospectors for Jack Miller, who first found gold here; reported by W.C. Mendenhall, USGS.

Miller Gulch: ravine, extends SE 3 miles to Sullivan Creek, 34 miles ESE of Tanana, Yukon-Tanana Highlands; 65° 03' 30" N, 150° 55' 20" W; (map 106). Prospectors' name reported in 1931 by J. B. Mertie, USGS.

Miller House: locality, pop. 20, on right bank of Mammoth Creek, 40 miles SW of Circle, Yukon-Tanana Highlands; 65° 31' 30" N, 145° 13' 00" W; (map 104). Variant: Mammoth House, Miller House Post Office. Local name reported in 1903 by T. G. Gerdine (in Prindle, 1905, pl. 13), USGS. The name was previously reported as "Mammoth House" in 1896 by Spurr (1898, pl. 50), USGS.

Miller House: locality, see Millers Camp.

Miller Island: island, 1 mile across, at mouth of Moser Bay, in Alitak Bay, S end of Kodiak Island; 56° 57' 30" N, 154° 08' 00" W; (map 32). Named in 1900 by Comdr. J. F. Moser, USN, commander of the Albatross, for Ens. Cyrus R. Miller, USN, a member of his party.

Miller Lake: lake, 2.5 miles long, on Prince of Wales Island, N of Eudora Mountains, Alexander Archipelago; 55° 08' 45" N, 132° 13' 30" W; (map 4). Variant: Mitten Lake, Mitter Lake. Named in 1885 by Lt. Comdr. R. C. Clover, USN, for Gen. John F. Miller, senator from California, his wife's father.

Miller Lake: lake, see Situk Lake.

Miller Peak: peak, 3,556 ft., in Glacier Bay National Monument, 3 miles NE of Sandy Cove on E shore of Glacier Bay and 61 miles NW of Juneau, St. Elias Mountains; 58° 43' 05" N, 135° 53' 45" W; BGN 1957; (map 11). Named by NPS in 1956 for Ben C. Miller, 1898-1953, first Superintendent of Sitka National Monument and the first NPS official in charge of Glacier Bay National Monument and Old Kasaan National Monument.

Miller Point: point of land, between Mill and Monashka Bays, 3.5 miles NE of Kodiak, Kodiak Island; 57° 50' 15" N, 152° 21' 10" W; (map 34). Variant: Maknashkina Cape, Melnichnoi, Miller Cape, Millers Cape, Mys Makhnashkina, Mys Melnichnoy, Popof Cape, Popofskie. "M[ys] Melnichnoy," which literally means "mill cape," was published by Capt. Tebenkov (1852, map 23). Called "M[ys] Makhnashkina," or "Makhnashkina Cape," in 1839 or 1840 by Sub-Lt. Mikhail Murashev and published in 1849 on Russian Hydrog. Dept. Chart 1425.

Miller, Mount: mountain, 11,000 ft., near W end of Barkley Ridge, 13 miles NW of Mount Leeper and 110 miles NW of Yakutat, Chugach Mountains; 60° 27' N, 142° 19' W; (map 65). Name reported by F. H. Moffit (1914, pl. 1), USGS, for a prospector who accompanied James Barkley on his trip across this area in 1906 or possibly 1905 (Moffit, 1918, p. 77).

Millers Camp: locality, on N bank of Yukon River, 0.5 miles NW of junction of Tatonduk River and 15 miles N of Eagle, Porcupine Plateau; 65° 00' 15" N, 141° 20' 40" W; (map 103). Variant: Miller House, Millers Roadhouse. A roadhouse name published in 1925 by ARC.

Millers Landing: locality, on N shore of Kachemak Bay, on Kenai Peninsula, 4 miles NW of Homer, Cook Inlet Lowland; 59° 40' N, 151° 26' W; (map 50). Local name reported and published by USGS in the 1950's.

Millers Roadhouse: locality, see Millers Camp.

Millichetah Creek: stream, flows SW 10 miles to Alatna River, 25 miles NE of Walker Lake, Brooks Range; 67° 22' N, 153° 38' W; BGN 1932; (map 125). Variant: Akoblooiek River, A-

koo-loo-ik River. Indian name of unknown meaning reported by Robert Marshall in 1931. The Eskimo name "Akoblooiek" reported by Mendenhall (1902, pl. 4), USGS, or "A-koo-loo-ik" reported by Stoney (1900, map), USN, is similar to the present-day name "Akabluk" for a nearby pass.

Million Creek: stream, flows W 4 miles to Windy Creek which flows to Budd Creek, in American River basin, 10 miles SW of Kougatok Mountain and 33 miles NE of Teller, Seward Peninsula Highlands; 65° 34' N, 165° 27' W; (map 111). Prospectors' name reported on a map by George M. Ashford dated August 1907.

Million Creek: stream, see Windy Creek.

Millowcrawlook Mountain: mountain, see Milokrawlok Mountain.

Mills Bay: cove, extends N 0.5 miles off Kasaan Bay, on E Coast of Prince of Wales Island, Alexander Archipelago; 55° 35' 10" N, 132° 29' 30" W; (map 4). Local name recorded in 1949 by USGS.

Mills Creek: stream, heads at junction of Wagner Gulch and Squirrel Creek, flows SE 8 miles to Camp Creek, 40 miles W of Talkeetna, Alaska Range; 62° 20' 45" N, 151° 21' 00" W; (map 81). Prospectors' name reported in 1906 by R. W. Porter, USGS.

Mills Creek: stream, on Kenai Peninsula, flows N 10 miles to Canyon Creek, 16 miles S of Sunrise, Chugach Mountains; 60° 40' 25" N, 149° 28' 15" W; (map 63). Name used by local miners and reported in 1895 by Becker (1898, p. 82), USGS.

Mills Island: island, 0.1 miles across, in Krestof Sound, 12 miles NW of Sitka, Alexander Archipelago; 57° 11' 10" N, 135° 34' 00" W; (map 9). Variant: Mills Islet, Ostrov Krugloy. This feature was named "Mills Islet" in 1897 by Comdr. E. K. Moore, USN, for a prominent Sitka merchant. It was originally called "Ostrov Krugloy," meaning "round island," in 1809 by the Russian navigator Ivan Vasiliev the first.

Mills Islet: island, see Mills Island.

Mills, Mount: mountain, 3,205 ft., in Kenai Mountains, 13 miles SE of Seldovia, Chugach Mountains; 59° 17' N, 151° 32' W; BGN 1910; (map 50). Named by U. S. Grant and D. F. Higgins USGS, in 1909, for Sanford J. Mills, a local prospector.

Milne Point: point of land, on Beaufort Sea coast, 7 miles W of Beechey Point, Arctic Plain; 70° 31' 00" N, 149° 27' 30" W; (map 150). Variant: Point Milne. Named "Point Milne" by P. W. Dease and Thomas Simpson on July 24, 1837 (in Simpson, 1843, p. 129). Leffingwell (1919, p. 89) writes, "Point Milne has been placed [by Leffingwell] on a conspicuous point on the mainland in the approximate position indicated by the Dease and Simpson map."

Milocrawluk Mountain: mountain, see Milokrawlok Mountain.

Milokrawlok Creek: stream, heads on Milokrawlok Mountain in Igichuk Hills, and flows S 9 miles to Situkuyok River, 10 miles SE of Cape KrusensterN, Kotzebue-Kobuk Lowland; 67°

05° 30" N, 163° 22' 30" W; (map 128). Variant: Millowcrawlook River, Milowcrawluk Creek. Eskimo name obtained in 1950 by USC&GS.

Milokrawlok Mountain: mountain, 1,000 ft., in Igichuk Hills at head of Milokrawlok Creek, 10 miles NE of Cape KrusensterN, Arctic Slope; 67° 12' N, 163° 26' W; (map 128). Variant: Millowcrawlook Mountain, Milocrawluk Mountain. Eskimo name obtained in 1950 by USC&GS.

Milowcrawluk Creek: stream, see Milokrawlok Creek.

Milroy Creek: stream, flows SE 2.3 miles to Hannum Creek which flows to Inmachuk River, 22 miles N of Imuruk Lake, Seward Peninsula Highlands; 65° 55' N, 163° 17' W; (map 110). Prospectors' name reported in 1903 by USGS (Collier, 1902, pl. 12).

Milton Creek: stream, flows E 0.8 miles to North Pass Kiska Harbor, S of Model Cove, Kiska Island, Aleutian Is; 51° 59' 10" N, 177° 34' 26" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Milton Creek: stream, see Military Creek.

Milton Lake: lake, 0.5 miles long, 1 mile E of lower arm of Simpson Bay, 6 miles N of Cordova, Chugach Mountains; 60° 38' N, 145° 48' W; (map 64). Local name published in 1951 by USGS.

Miluet Creek: stream, flows S 25 miles to Ambler River, 25 miles NW of Shungnak, Brooks Range; 67° 08' N, 157° 47' W; (map 126). Probably an Eskimo name, reported by the U.S. Army Corps of Engineers in 1955.

Miluveach River: stream, heading at 69° 57' N, 150° 18' W, flows N 50 miles to Colville River Delta, Arctic Plain; 70° 23' N, 150° 31' W; (map 149). Eskimo name reported in 1951 by USC&GS.

Mimosa Hill: hill, 296 ft., on east-central Kiska Island, Aleutian Islands; 51° 56' 25" N, 177° 35' 46" E; (map 14). Variant: Minosa Hill. An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II Published on a 1953 AMS map. Variant published on a 1943 USAAF map.

Mina Creek: stream, flows SW, then NW, 8.8 miles to Kugruk River, 24 miles NE of Imuruk Lake, Seward Peninsula Highlands; 65° 46' N, 162° 26' W; (map 110). Variant: Torrance Creek. Prospectors' name reported in 1903 by D. C. Witherspoon (in Moffit, 1905, pl. 2), USGS. This appears to be the Torrance Creek noted on a precinct map of Seward Peninsula by Monroe and Hutchins; corrected up to June 1903 by Arthur Gibson.

Minchumina, Lake: lake, 9 miles long, 66 miles NNW of Mount McKinley, Tanana Lowland; 63° 53' 30" N, 152° 14' 00" W; (map 88). Tanana Indian name meaning "clear lake," reported in 1899 by Lt. J. S. Herron, USA.

Minchumina: village, see Lake Minchumina.

Mindalina Island: island, 0.1 miles long, at S entrance to Squid Bay, on S coast of Yakobi Island, 11 miles SW of Pelican, Alexander Archipelago; 57° 52' 20" N, 136° 29' 35" W; BGN 1928; (map 9). Russian word meaning "almond" given in 1928 by USC&GS "on account of its shape."

Mine Cove: cove, see Kimshan Cove.

Mine Harbor: cove, 1 mile across, on SE arm of Herendeen Bay, 16 miles SW of village of Port Moller, near SW end of Alaska Peninsula, Aleutian Range; 55° 45' 50" N, 160° 42' 20" W; (map 28). Variant: Coal Harbor. Named in 1890 by USBF "for a coal mine opened in the vicinity in 1888."

Mine Mountain: mountain, 2,500 ft., on Chichagof Island, 4 miles N of head of Goulding Harbor, 13 miles N of Chichagof, Alexander Archipelago; 57° 50' 30" N, 136° 10' 30" W; (map 9). Name reported by Rossman (1959, p. 209), USGS. So named because of the gold mine on the west side, which was opened in 1921.

Miner Cove: bay, 0.2 miles across, 4 miles N of village of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 18' 30" N, 134° 38' 10" W; (map 5). Local name used by fishermen; published in 1927 by USC&GS.

Miner Creek: stream, on SW coast of Agattu Island, heads at Manning Lake, flows S 2 miles to the Pacific Ocean W of Nile Point, Aleutian Islands; 52° 23' 45" N, 173° 24' 40" E; (map 13). Name published in 1953 by USGS.

Miner Hill: point of land, on S shore of Nelson Lagoon, 19 miles W of village of Port Moller, on Alaska Peninsula, Bristol Bay Lowland; 55° 58' N, 161° 08' W; (map 28). Named in 1929 by USGS.

Miner Island: island, 0.3 miles across, off E coast of Yakobi Island, on Lisianski Inlet, 0.5 miles N of Rock Point, 34 miles SW of Hoonah, Alexander Archipelago; 58° 00' 40" N, 136° 20' 15" W; BGN 1908; (map 10). Named by USC&GS in 1908 and published in the 1908 Alaska Coast Pilot (p. 169).

Miner River: stream, see Miners Creek.

Mineral Creek Glacier: glacier, heads 3.5 miles S of Mount Logan, trends S 2 miles to its terminus, 3 miles N of Smith Mill on Mineral Creek and 10 miles N of Valdez, Chugach Mountains; 61° 15' 25" N, 146° 18' 30" W; (map 68). Variant: Mineral Glacier. Local name published in 1915 by USGS.

Mineral Creek Islands: islands, 1 mile across, at E end of Port Valdez, 2 miles NW of Valdez, Chugach Mountains; 61° 07' 35" N, 146° 19' 00" W; (map 68). Local name published in the 1950's by USGS.

Mineral Creek: stream, flows N 2 miles to Woodchopper Creek, 4 miles SSW of that stream's junction with Yukon River and 41 SE of Circle, Yukon-Tanana Highlands; 65° 18' 20" N, 143° 22' 40" W; (map 103). Prospectors' name reported by A. H. Brooks (in Brooks and others,

1907, p. 203), USGS. This stream was “staked” as early as 1898, and by 1906 was the principal placer gold-mining site on Woodchopper Creek.

Mineral Creek: stream, flows NW 1.7 miles to Kluvesna River, 18 miles NW of Mount Blackburn, Wrangell Mountains; 61° 45' N, 143° 55' W; (map 67). Name reported by USGS in 1923.

Mineral Creek: stream, flows SW 1 mile to Gulf of Alaska, 1.5 miles NW of mouth of Crillon River, 80 miles WNW of Hoonah, Malaspina Coastal Plain; 58° 32' 25" N, 137° 27' 1" W; (map 10). Name published by the Harvard-Dartmouth Expedition, 1933-34 (Washburn and Goldthwaite, 1936, map).

Mineral Creek: stream, flows SW 1.7 miles to Nome River, 12 miles NE of Nome, Seward Peninsula Highlands; 64° 40' N, 165° 18' W; (map 94). Local name published in 1900 on USC&GS Chart 9380.

Mineral Creek: stream, heads in Mineral Creek Glacier, flows S 11 miles to Port Valdez, 4.7 miles NW of Valdez, Chugach Mountains; 61° 07' 45" N, 146° 24' 05" W; (map 68). This is presumably a local name published in 1898.

Mineral Glacier: glacier, see Mineral Creek Glacier.

Mineral Hill: hill, probably on N slope of Mount Roberts, about 3 miles SE of Juneau, Coast Mountains; 58° 18' N, 134° 20' W; (map 11). Named about 1885 by miners (DeArmond, 1957, p. 37).

Mineral Hill: mountain, 2,050 ft, 0.7 miles W of Alaska-Canada boundary and 8.5 miles N. of Hyder, Coast Mountains, 56° 02' 30" N, 130° 03' 15" W; (map 6). Local descriptive name published by USGS in 1928.

Mineral Island: island, see Spuhn Island.

Mineral Lake: lake, 1.2 miles across, in course of Station Creek, in Mentasta Mountains, 29 miles S of Tok, Alaska Range; 62° 56' N, 143° 22' W; BGN 1936; (map 84). Local name reported in 1936 by USGS.

Mineral Mountain: mountain, 3,400 ft., on Chichagof Island, 2 miles N of mouth of Phonograph Creek, on Lisianski Inlet, 3.8 miles SE of Pelican, Alexander Archipelago; 57° 56' 07" N, 136° 08' 00" W; BGN 1960; (map 9). So named in 1955 by D. L. Rossman USGS, “because of the presence of well-formed minerals in several localities on its slopes.”

Mineral Point: point of land, on E coast of Baker Island, in Port San Antonio, Alexander Archipelago; 55° 21' 00" N, 133° 35' 30" W; (map 4). Variant: Punta de Mineral. Spanish name given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as “Punta de Mineral,” i.e., “mineral point.”

Mineral, Punta de: point of land, see Mineral Point.

Miners Bay: estuary, extends E 1.5 miles off Unakwik Inlet, Prince William Sound, 40 miles W of Valdez, Chugach Mountains; 61° 04' N, 147° 31' W; (map 69). Local name reported in 1898 by Capt. Glenn (Glenn and Abercrombie, 1899, p. 24), USA.

Miners Creek: stream, heads at Pedro Glacier, flows SW 6.7 miles, through Miners Lake, to Miners Bay, 40 miles W of Valdez, Chugach Mountains; 61° 04' N, 147° 29' W; BGN 1910; (map 69). Variant: Miner River. Local name reported in 1897 by Lt. Comdr. J. F. Moser (1899c, p. 138), USN, while collecting hydrographic data for USBF.

Miners Lake: lake, 2.2 miles long, E of Unakwik Inlet, in course of Miners Creek, 38 miles W of Valdez, Chugach Mountains; 61° 04' 45" N, 147° 26' 30" W; BGN 1910; (map 69). Variant: Boot Lake. Local name reported in 1897 by Lt. Comdr. J. F. Moser, USN, while doing survey work in the area aboard the USBF steamer Albatross.

Miners Point: point of land, W point of entrance to Uganik Bay, on NW coast of Kodiak Island; 57° 54' 00" N, 153° 43' 20" W; BGN 1910; (map 34). Named in 1908 by W. C. Hodgkins, USC&GS.

Minerva Mountain: mountain, 2,602 ft., on Revillagigedo Island 2 miles N of Ketchikan, Alexander Archipelago; 55° 22' 22" N, 131° 39' 15" W (map 3). This is one of several names given in 1883 by Lt. Comdr. H. E. Nichols, USN, which were suggested by classical mythology.

Minett Island: island, 150 ft. across, in Jamestown Bay, 1.5 miles SE of Sitka, on W coast of Baranof Island, Alexander Archipelago; 56° 57' 02' 30" N, 135° 17' 30" W; (map 9). Variant: Minett Islet. Named in 1880 by the U.S. Navy, presumably for Lt. Henry Minett, USN. The name was published by USC&GS in 1883 Coast Pilot (p. 144).

Minga, Lake: lake, see Sinclair Lake.

Mingkoket Lake: lake, 1.8 miles long, drains E to Koyukuk River, 15 miles SE of Allakaket, Kanuti Flats; 66° 30' N, 152° 07' W; (map 117). Koyukan Indian name meaning "big lake," obtained in 1956 at Allakaket by Orth.

Mingkoket, Lake: lake, 1 mile long, N of Niitluktalugi Mountain, drains N to Siruk Creek, 38 miles NE of Hughes, Hogatza Highlands; 66° 31' N, 153° 36' W; (map 116). Indian descriptive name, meaning "big lake," recorded at Allakaket in 1956 by Orth.

Mingogut Lake: lake, 0.3 miles N of Huslia, 12 miles NE of Roundabout Mountain, Koyukuk Lowland; 65° 42' N, 156° 24' W; (map 108). Koyukan Indian name meaning "big lake [mingkokat]," reported in 1955 by USGS.

Miniatulik Creek: stream, flows NE 4 miles to Iron Creek which flows to Norton Bay, 4 miles N of Elim and 66 miles E of Solomon, Seward Peninsula Highlands; 64° 41' N, 162° 15' W; (map 95). This is an Eskimo name reported in 1909 by Smith and Eakin (1911, pl. 1), USGS.

Miniatulik Creek: stream, see Iron Creek.

Miniatulik River: stream, flows E 9.8 miles to Koyuk Inlet, 30 miles NW of Christmas Mountain Seward Peninsula Highlands; 64° 55' N, 161° 12' W, BGN 1910; (map 96). Variant: Iron Creek, Neechuck River. Eskimo name reported in 1900 by J. J. Gilbert, USC&GS.

Mink Bay: estuary, extends S 5.4 miles from Boca de Quadra, 3 miles E of Vixen Bay and 40 miles SE of Ketchikan, Coast Mountains; 55° 05' 30" N, 130° 43' 30" W; (map 3). One of many arbitrary names applied to features in this area in 1891 by USC&GS.

Mink Creek Lake: lake, 0.6 miles long, on Kenai Peninsula at head of Mink Creek, 14 miles NE of Kenai, Cook Inlet Lowland; 60° 41' N, 150° 53' W; (map 62). Named about 1963 by officials of Kenai National Moose Range for administrative purposes.

Mink Creek: stream, 0.5 miles long, drains Mink Lake into Tonovek Creek, E central Heceta Island, Alexander Archipelago; 55° 46' 25" N, 133° 23' 55" W; (map 4). Local name recorded in 1951 by USGS.

Mink Creek: stream, flows S 5.7 miles to Kaiyuh Slough, 0.5 miles W of The Forks, 20 miles SE of Nulato, Koyukuk Lowland; 64° 26' N, 157° 58' W; (map 97). Local name reported in 1935 by Frederica de Laguna.

Mink Creek: stream, flows W 4 miles to Squirrel River, 3.2 miles NE of Kiana, Brooks Range; 67° 01' N, 160° 23' W; (map 127). Name used by prospectors; reported in 1910 by P. S. Smith (in Brooks and others, 1911, pl. 13),USGS.

Mink Creek: stream, heads in a lake, flows W 1.9 miles to Fire Creek, 17 miles NE of Anchorage, Cook Inlet Lowland; 61° 23' 30" N, 149° 32' 15" W; (map 69). Local name reported in 1942 by AMS.

Mink Creek: stream, heads on W slope of Watson Peak and flows generally SW 4.5 miles to Gulf of Alaska, 1.4 miles NW of Cape Yakataga and 102 miles NW of Yakutat, St. Elias Mountains; 60° 04' 35" N, 142° 27' 45" W; BGN 1945; (map 65). Local name reported in 1945 by USGS.

Mink Creek: stream, on S side of Mount Ripinski, flows E 1 mile to Tanani Bay at Tanani, 14 miles SW of Skagway, Coast Mountains; 59° 16' 00" N, 135 D 26' 30" W; (map 45). Local name obtained by USGS field personnel and published on Federal maps since 1950.

Mink Lake: lake, 0.2 miles long, E central Heceta Island, Alexander Archipelago; 55° 45' 50" N, 133° 23' 45" W; (map 4). Local name recorded in 1951 by USGS.

Mink Lake: lake, 1 mile long, 2 miles WNW of Graphite Lake and 21 miles W of Coleen Mountain, Yukon Flats; 67° 06' N, 143° 34' W; (map 121). Local name reported in 1956 by T. E. Taylor, USGS.

Mink Point: point of land, between South and East Arms Uganik Bay, on N coast of Kodiak Island; 57° 43' 00" N, 153° 25' 50" W; (map 34). Named in 1897 by Lt. Comdr. J. F. Moser, USN, of the USBF steamer Albatross.

Mink Slough: stream, flows SW 6 miles to Yukon River, Innoko Lowland; 63° 17' N, 159° 38' W; (map 91). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the U.S. Dept. of Interior.

Minkokhwin Lake: lake, see Minnkohwin Lake.

Minkoshchaliton Lake: lake, 3 miles long, 1.5 miles NW of Abraham Lake and 12 miles N of Stevens Village, Yukon Flats; 66° 11' N, 148° 59' W; (map 118). Kutchin Indian name obtained in 1956 by T. E. Taylor, USGS.

Minnehaha Creek: stream, flows NE 9 miles to Kiwalik Lagoon, 7 miles N of Candle, Kotzebue-Kobuk Lowland; 66° 03' N, 161° 56' W; (map 114). Prospectors' name reported in 1901 by W. C. Mendenhall and D. L. Reaburn, USGS.

Minnesota Creek: stream, flows NE 4 miles to Arolik River, 32 miles N of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 34' N, 161° 29' W; (map 53). Name published by Harrington (in Brooks, 1921, pl. 7), USGS.

Minnesota Creek: stream, flows SW 2 miles to Penny Creek, 7 miles NE of Solomon, Seward Peninsula Highlands; 64° 40' N, 164° 23' W; (map 95). Prospectors' name reported on a 1901 map of Cape Nome gold fields by David Fox, Jr.

Minnesota Creek: stream, flows W 5 miles from O'Keefe Hills to South Fork Koyukuk River, 25 miles WSW of Chandalar, Brooks Range; 67° 21' N, 149° 23' W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Minnesota Ridge: ridge, in Glacier Bay National Monument, trends NW 5 miles from Curtis Hills, on Muir Inlet, 67 miles NW of Hoonah, St. Elias Mountains; 58° 59' 30" N, 136° 13' 30" W; (map 10). Named by members of the American Geographical Society's Glacier Bay Expedition of 1941 (Field, 1947, map) for the Univ. of Minnesota in recognition of the studies carried on in Muir Inlet since 1916 by W. S. Cooper of the Botany Department.

Minnie Bay: estuary, on SW coast of Prince of Wales Island, extends NE 0.5 miles off Minnie Cutoff, E of Point March, Alexander Archipelago; 54° 43' 15" N, 132° 18' 30" W; (map 1). Local name published by USC&GS in 1923.

Minnie Creek Lake: lake, 0.7 miles long, drains into Minnie Creek, 4 miles W of Poss Mountain and 36 miles WSW of Chandalar, Brooks Range; 67° 27' 15" N, 149° 52' 00" W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Minnie Creek: stream, flows NE 17 miles to Takotna River, 34 miles SW of McGrath, Kilbuck-Kuskokwim Mountains; 62° 41' 05" N, 156° 32' 00" W; (map 79). Local name obtained in 1952 by USGS topographers.

Minnie Creek: stream, flows NW 5 miles to Hidden Creek, 9 miles NW of Medfra, Kilbuck-Kuskokwim Mountains; 63° 12' N, 154° 52' W; (map 89). Local name reported in 1958 by USGS.

Minnie Creek: stream, flows W 14.5 miles from S of Poss Mountain to Middle Fork Koyukuk River at Wiseman, Brooks Range; 67° 25' N, 150° 06' W; (map 124). Local name shown on an 1899 fieldsheet by T. G. Gerdine, USGS.

Minnie Creek: stream, heads in Bendeleben Mountains, flows NW 20 miles to Kuzitrin River, 25 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 26' N, 164° 02' W; BGN 1952; (map 110). Variant: South Fork Kuzitrin River. Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Minnie Cutoff: water passage, 1 mile long, between SW coast of Prince of Wales Island and Point Marsh, Alexander Archipelago; 54° 43' 00" N, 132° 18' 15" W; (map 1). Name reported in 1948 by USGS; derived from Minnie Bay.

Minnie Reef: reef, N of Lydonia Island, in Portlock Harbor, 4.5 miles NW of Chichagof, on W coast Of Chichagof Island, Alexander Archipelago; 57° 43' 10" N, 136° 10' 15" W; (map 9). Name published by USC&GS in 1925 Coast Pilot (p. 320). The Minnie Reef Light is located here.

Minnkohwin Lake: lake, 0.7 miles across, 2 miles N of Katalahosa Lake, 21 miles SE of Allakaket, Kanuti Flats; 66° 19' 45" N, 152° 08' 30" W; (map 117). Variant: Minkokhwin Lake. Koyukan Indian name obtained in 1956 at Allakaket by T. E. Taylor, USGS.

Mino Creek: stream, flows SE 9 miles to Pacific Ocean, 12 miles W of Unga Island, on Alaska Peninsula, Aleutian Range; 55° 23' 50" N, 161° 08' 00" W; (map 28). Named in 1929 by USGS.

Minook Creek: stream, heads on Eureka Dome and flows N 22 miles to Yukon River, 1 mile N of Rampart, Yukon-Tanana Highlands; 65° 31' N, 150° 08' W; (map 106). Variant: Clanachargut, Klanachargut River, Klana-Kakat, Manook Creek, Minuk Creek, Munook Creek, Mynook Creek. Named in the early 1890's by prospectors for John Minook, "Russian half-breed," who is reported to have found gold on Little Minook Creek about 1893. The Indian name for this stream, reported by Capt. Raymond (1871, p. 113), USA, was "Clanachargut" "Klana-Kakat, or mouth of the Kla River."

Minook Island: island, 1.5 miles long, in Yukon River, 2 miles NNE of Rampart, Kokrines-Hodzana Highlands; 65° 32' N, 150° 08' W; (map 106). Local name reported in 1956 by Orth.

Minor Creek: stream, flows SE 1.2 miles to Major Creek, N of Sargeant Cove, Kiska Island, Aleutian Islands; 51° 56' 09" N, 177° 33' 20" E; (map 14). Variant: Vermouth Brook. An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II; published on a 1953 AMS map. Variant published on a 1943 USAAF map.

Minosa Hill: hill, see Mimosa Hill.

Minotocloga Lake: lake, 0.3 miles long, on W bank of Alatna River, 1 mile N of Allakaket, Kanuti Flats; 66° 34' 45" N, 152° 39' 00" W; (map 117). Koyukan Indian name obtained in 1956 at Allakaket by T. E. Taylor, USGS.

Mint Creek: stream, flows E to Solomon River, S of Gem Creek, about 9 miles NE of Solomon Seward Peninsula Highlands; (map 95). Prospectors' name reported on a prospector's manuscript map dated 1902. This stream cannot be precisely located on current maps.

Mint Glacier: glacier, on Montana Peak, extends S 1.5 miles to its terminus at head of Little Susitna River, 18 miles N of Palmer, Talkeetna Mountains; 61° 51' 30" N, 149° 03' 30" W; (map 69). Local name reported in 1942 by AMS.

Mint River: stream, on Seward Peninsula, heads in York Mountains, flows NW 23 miles to Lopp Lagoon, 47 miles NW of Teller, Kotzebue Kobuk Lowland; 65° 45' N, 167° 30' W; (map 111). Prospectors' name reported in 1900 by Brooks (1901, pl. 13), USGS.

Minto Lake: lakes, see Minto Lakes.

Minto Lakes: lakes, near mouth of Goldstream Creek, 34 miles NW of Fairbanks, Tanana Lowland; 64° 53' N, 148° 49' W; (map 100). Variant: Mintokh Lake, Minto Lake, Mintu Lake. This is a Tanana Indian name published in 1861 by P. Tikhmeniev as "Oz[ero] Mintokh" or "Lake Mintokh." Although early maps apply the name to a vaguely shown single lake, present-day usage applies the name to all the lakes in this lowland area. R. H. Geoghegan spells the name "Mintu," the first syllable, "min," meaning "lake."

Minto Landing: village, see Minto.

Minto Roadhouse: village, see Minto.

Minto Telegraph Station: village, see Minto.

Minto: village, pop. 161, on E bank of Tanana River, 44 miles W of Fairbanks, Tanana Lowland; 64° 53' 15" N, 149° 11' 00" W; BGN 1944; (map 100). Variant: Minto Landing, Minto Roadhouse, Minto Telegraph Station, Munto. Name derived from Minto Lakes and reported by the Chief Signal Officer, U.S. Army, 1909 as Minto Telegraph Station and published in 1911 by the USGS (Brooks and others, pl. 12).

Mintokh Lake: lakes, see Minto Lakes.

Minton Creek: stream, flows NW 5 miles to McCoy Creek, 23 miles NW of Big Delta, Yukon-Tanana Highlands; 64° 25' 45" N, 146° 15' 00" W; (map 101). Prospectors' name; reported in 1910 by USGS (Capps, 1912, pl. 1).

Mintu Lake: lakes, see Minto Lakes.

Minuk Creek: stream, see Minook Creek.

Minute Hill: hill, 875 ft., between Major and Minor Creeks, center of Kiska Island, Aleutian Islands; 51° 56' 40" N, 177° 32' 40" E; (map 14). Variant: Clover Spur. An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II; published on a 1953 AMS map. Variant published on a 1943 USAAF map.

Minx Islands: islands, extend 0.5 miles, at head of Thorne Arm off S coast of Revillagigedo Island, Alexander Archipelago; 55° 23' 10" N, 131° 15' 35" W; (map 3). Arbitrary name given in 1891 by USC&GS.

Minya Peak: peak, 7,700 ft., S of Canwell Glacier, 18 miles N of Paxson, Alaska Range; 63° 17' 45" N, 145° 28' 00" W; (map 86). Named between 1948 and 1955 by T. L. Pewe, USGS.

Mirabales, Mys: point of land, see Miraballes, Point.

Miraballes, Point: point of land, between Port Saint Nicholas and Trocadero Bay, on W coast of Prince of Wales Island, Alexander Archipelago; 55° 25' 50" N, 133° 05' 05" W; (map 4). Variant: Mys Mirabales, Punta de Miraballes, Punta de Miravalles. Spanish name given in 1779 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Punta de Miraballes," meaning "sunflower point."

Mirabilia, Mys de la: point of land, see Marabilla, Point.

Mirabilia, Ostrov de la: island, see Marabilla Island.

Miramar, Mount: mountain, 2,001 ft., highest point on Baker Island, Alexander Archipelago; 55° 19' 25" N, 133° 36' 00" W; BGN 1923; (map 4). Spanish word meaning "seaview," given in 1923 by USC&GS because this feature "commands a magnificent view of the sea."

Miranda, Volcan de: mountain, see Iliamna Volcano.

Miranda, Volcan de: volcano, see Redoubt Volcano.

Miravalles, Punta de: point of land, see Miraballes, Point.

Mirror Bay: bay, extends NE 2 miles to Nuyakuk Lake, 105 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 54' N, 159° 05' W; BGN 1932; (map 53). So named in 1932 by Gerald FitzGerald, USGS, because "the bay gives a remarkable reflection of the surrounding mountain tops."

Mirror Creek: stream, heads in Yukon, Canada, flows NW across Alaska-Canada boundary 13 miles to Chisana River, 37 miles SE of Northway Junction, Alaska Range; 62° 36' N, 141° 18' W; BGN 1952; (map 84). Named in 1898 by W. J. Peters and A. H. Brooks, USGS, "because of the exceptional clear character of the water for this region."

Mirror Creek: stream, on Attu Island, flows N 1.3 miles to McKenzie Creek, 1.2 miles SW of Attu, Aleutian Islands; 52° 55' 27" N, 173° 13' 50" E; (map 13). Named by the U.S. Army during World War II; published in 1948 by AMS.

Mirror Harbor: bay, 0.2 miles across, 12 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 47' 45" N, 136° 19' 00" W; (map 9). Descriptive name published by USC&GS in 1925 Coast Pilot (p. 322).

Mirror Lake: lake, 0.2 miles across, on NE coast of Attu Island, 2 miles SW of Attu, Aleutian Islands; 52° 54' 43" N, 173° 13' 35" E; (map 13). Named by U.S. Army during World War II, published in 1948 by AMS.

Mirror Lake: lake, 0.5 miles across, 2 miles NE of Birchwood and 21 miles NE of Anchorage, Cook Inlet Lowland; 61° 25' 30" N, 149° 24' 40" W; BGN 1962; (map 69). Variant: Bear Lake. Local name reported in 1960 by USGS.

Mirror Lake: lake, 0.6 miles long, between Flat and Big Lakes, 22 miles N of Anchorage, Cook Inlet Lowland; 61° 32' 05" N, 149° 58' 45" W; BGN 1958; (map 69). Variant: Mud Lake. Named in 1958 by Mrs. Margaret Almdale because "the former name 'Mud Lake' implies that the water is muddy, while it is clear and has a sandy, rocky bottom. 'Mirror Lake' would be more appropriate since the lake itself is small in size and reflects the trees surrounding the lake along the water's edge."

Mirror Lake: lake, 1.3 miles long, in Broad Pass, 37 miles S of Healy, Talkeetna Mountains; 63° 20' N, 149° 07' W; (map 87). Local descriptive name reported in 1953 by USGS.

Mirror Lake: lake, 1.6 miles long, on Funnel Creek, 3 miles NE of Spectacle Lake, 37 miles S of Iliamna, Aleutian Range; 59° 14' N, 154° 45' W; (map 51). Local name reported by K. F. Mather, USGS, in 1923 (in Brooks and others, 1925, pl. 3).

Mirror Lake: lake, 4.5 miles long, on Revillagigedo Island, 6 miles N of Thorne Arm, in course of Fish Creek, Alexander Archipelago; 55° 31' N, 131° 09' W; (map 3). Local name reported in 1916 by USGS.

Mirror Slough: stream, flows NW 6.5 miles to Gulf of Alaska, 6 miles NW of Katalla, Malaspina Coastal Plain; 60° 16' N, 144° 41' W; (map 64). Local name reported in 1904 by G. C. Martin, USGS.

Misery Creek: stream, on Alaska Peninsula, flows 2 miles SE to lower Yantarni Creek, 7.5 miles N of Cape Kunmik, Aleutian Range; 56° 52' N, 157° 11' W; (map 31). Local name published in 1951 by USGS.

Misery Island: island, 0.6 miles long, in Clarence Strait, W of Lemesurier Point on SW coast of Cleveland Peninsula, Alexander Archipelago; 55° 45' 00" N, 132° 16' 30" W; (map 4). Variant: Lemesurier Island. Local name reported in 1904 by H. C. Fassett, USBF. This name is derived from the French name "Lemesurier" and has been "folk etymologized" to its present form.

Misery Point: point of land, see Lemesurier Point.

Mishap Creek: stream, flows SW 5.7 miles to Unimak Pass, on SW coast of Unimak Island, Aleutian Islands; 54° 25' 40" N, 164° 50' 52" W; BGN 1939; (map 24). Variant: Big Loss Creek, Big River. USC&GS reports that the name "Big Loss Creek" was derived "from an incident * * *. A lightkeeper attempting to swim the creek, when finding the foot bridge washed out, tried to throw his clothes ahead across the creek. Misjudging the distance, his bundle of clothes fell short of the far bank and were washed down stream." When USC&GS recommended a name for this feature, they chose "Mishap Creek."

Misheguk Mountain: mountain, 4,500 ft., in De Long Mountains, Brooks Range; 68° 15' N, 161° 03' W; BGN 1961; (map 131). Named by the 1925 USGS exploring expedition. An Eskimo named Misheguk helped the USGS field party, and the mountain may have been named for him.

Mishevik Slough: stream, flows SW 23 miles to Kuskokwim River, 3.3 miles NE of Akiak and 23 miles NE of Bethel, Yukon-Kuskokwim Delta; 60° 56' 30" N, 161° 07' 40" W; (map 59). Eskimo name reported in 1948 by USC&GS.

Mishik Lake: lake, see Meshik Lake.

Mishik River: stream, see Meshik River.

Mishik: village, see Port Heiden.

Mishuk Creek: stream, flows NNE 8 miles through a low wetland to Kobuk River, 24 miles NW of Shungnak, Brooks Range; 67° 04' N, 157° 54' W; (map 126). Eskimo name reported by the U.S. Army Corps of Engineers in 1955.

Missak Bay: bay, extends N 5 miles from Cape Atushagvik, on E coast of Alaska Peninsula, in Katmai National Monument, 25 miles SE of Mount Katmai, Aleutian Range; 58° 06' N, 154° 16' W; BGN 1924; (map 42). Variant: Baie Tehivilh-Kyd, Zaliv Mieshak. Aleutian name published in 1847 as "Z[aliv] Mieshak" on Russian Hydrog. Dept. Chart 1379. In 1919 R. F. Griggs, National Geographic Society, reported the present spelling.

Mission Cove: bight, extends SE 800 ft. off Howkan Narrows, on W coast of Long Island, Alexander Archipelago; 54° 52' 25" N, 132° 48' 10" W; (map 1). Variant: Hyda Cove, Hydah Cove. Descriptive name given in 1882 by W. H. Dall, USC&GS, probably for the Presbyterian mission at Howkan village. According to Baker (1906, p. 440) this cove "has also been named 'Hydah' by Sheldon Jackson."

Mission Creek: stream, flows N 10 miles to Arctic River, 15 miles NE of Ear Mountain and 53 miles NE of Teller, Seward Peninsula Highlands; 65° 59' N, 165° 45' W; (map 111). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Mission Creek: stream, flows W to Anikovik River, about 15 miles ESE of Cape Prince of Wales, Seward Peninsula Highlands; (map 111). Prospectors' name reported on a precinct map of Seward Peninsula gold fields by Monroe and Hutchins, corrected up to June 1903 by Arthur Gibson. This feature cannot be precisely identified on current maps.

Mission Creek: stream, heads at 64° 38' N, 141° 40' W, flows NE 27 miles to Yukon River, N of Eagle, Yukon-Tanana Highlands; 64° 47' 45" N, 141° 12' 00"; (map 102). Variant: Tatotlinda, Tototlindu. Prospectors' name reported in 1896 by Spurr (1898, pl. 48), USGS; so called because a "small temporary mission" was located at the stream's mouth. Its Indian name was recorded by Lt. Schwatka (1885, map 7), USA, as "Tototlindu" and his text "Tatotlinda."

Mission Creek: stream, heads in Russian Mountains and flows S 8.5 miles to Kuskokwim River 11 miles E of Aniak, Kilbuck-Kuskokwim Mountains; 61° 34' 15" N, 159° 11' 00" W; BGN 1948; (map 73). Local name reported by A. G. Maddren, USGS, in 1914; so called for the Russian (Greek) Orthodox Mission at its mouth.

Mission Creek: stream, in Rampart Mountains, flows SW 8 miles to Yukon River, E of Mission Hill, 4 miles NE of Tanana, Kokrines-Hodzana Highlands; 65° 11' 30" N, 151° 58' 00" W; (map 106). Local name reported in 1956 by Orth; so named because St. James Episcopal Mission was located nearby.

Mission Creek: stream, see Bear Creek.

Mission Creek: stream, see Dupont Creek.

Mission Creek: stream, see Shelman Creek.

Mission Creek: stream, see Village Creek.

Mission Hill: hill, 852 ft., on N bank of Yukon River, 3 miles ENE of Tanana, Kokrines-Hodzana Highlands; 65° 11' N, 151° 59' W; (map 106). Variant: Misson Hill. Local name shown on a 1930(?) manuscript chart of junction of Yukon and Tanana Rivers; named for St. James Episcopal Mission.

Mission Hill: mountain, 1,270 ft., between Minor and Hatch Creeks, center Kiska Island, Aleutian Islands; 51° 56' 25" N, 177° 31' 55" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Mission Island: island, 1 mile across, in Yukon River, S of Mission Hill, 3 miles E of Tanana, Nowitna Lowland; 65° 10' N, 151° 58' W; (map 106). Local name reported in 1952 by USGS.

Mission Warehouse: locality, see Shiniak.

Missionary Range: mountain range, elev. 1,000,253 ft., 8 miles long, on Lindenberg Peninsula, Kupreanof Island, 10 miles NW of Petersburg, Alexander Archipelago; 56° 58' N, 133° 15' W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for charting purposes; name published in 1888 on USC&GS Chart 705.

Misson Hill: hill, see Mission Hill.

Missoula Creek: stream, flows NE 1 mile to Fish Creek, 58 miles SW of Eagle, Yukon Tanana Highlands; 64° 20' 45" N, 142° 45' 00" W; (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Missouri Creek: stream, flows NE 6 miles to John River, W of Threetime Mountain, 13 miles N of mouth of Timber Creek and 51 miles W of Wiseman, Brooks Range; 67° 14' 30" N, 151° 58' 30" W; (map 124). Local name reported in 1939 by Marshall (1956, map).

Missouri Creek: stream, flows NW to Anikovik River, about 15 miles E. of Cape Prince of Wales, Seward Peninsula Highlands; (map 111). Prospectors' name shown on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This feature cannot be precisely identified on current maps.

Missouri Creek: stream, flows SE 5 miles to the Pacific Ocean, on NE coast of Umnak Island, 6 miles SE of Okmak Caldera, Aleutian Islands; 53° 19' 30" N, 167° 59' 45" W; (map 23). Name published by Byers (1959, pl. 41), USGS.

Mist Cove: bay, 0.6 miles across, at W point of entrance to Patterson Bay, 19 miles N of village of Port Alexander, on SE coast of Baranof Island, Alexander Archipelago; 56° 31' 20" N, 134° 40' 00" W; BGN 1937; (map 5). Variant: Deep Cove. Descriptive name given in 1928 by USC&GS because "a high waterfall into the cove causes a heavy mist at all times"; previously named "Deep Cove" by USFS in 1923.

Mist Creek: stream, heads E of Fillmore Peak, flows S 1.5 miles to N shore of Port Snettisham, 2 miles NE of Point Styleman and 30 miles SE of Juneau, Coast Mountains; 57° 59' 35" N, 133° 51' 00" W; (map 8). Name derived from Mist Island near its mouth; reported in 1921 by USFS.

Mist Harbor: cove, 0.6 miles across, on E coast of Nagai Island, in Shumagin Islands, Aleutian Range; 55° 08' N, 159° 51' W; (map 27). Name published by USC&GS in 1882.

Mist Island: island, 0.1 miles across, in Port Snettisham, 0.5 miles SE of mouth of Mist Creek and 30 miles SE of Juneau, Coast Mountains, 57° 59' 20" N, 133° 50' 40" W; (map 8). Name published in 1895 by USC&GS.

Misty Creek: stream, see Mystery Creek.

Misty Mountain: mountain, 6,010 ft., 12 miles NW of Arctic Village, Brooks Range; 68° 15' N, 145° 54' W; (map 136). Descriptive name given by USGS party; reported in 1926 by Mertie (in Smith, P. S., and others, 1929, pl. 1), USGS.

Misty, Cape: point of land, on SW coast of Amlia Island, Aleutian Islands; 52° 03' N, 173° 50' W; (map 19). Descriptive name published on a 1951 USGS map.

Mit-Le-Topik: locality, see Mitletukeruk.

Mitchel Creek: stream, see Mitchell Creek.

Mitchell Bay: bay, 3.5 miles across, 7 miles NE of Angoon, on W central Admiralty Island, Alexander Archipelago; 57° 33' N, 134° 24' W; (map 9). Named in 1869 by Comdr. R. W. Meade, USN, for his classmate Lt. Comdr. John Gardner Mitchell, USN. The name was published by USC&GS in 1883 Coast Pilot (p. 177).

Mitchell Creek: stream, flows NE 6 miles to Agiapuk River, 22 miles NE of Teller, Seward Peninsula Highlands; 65° 24' N, 165° 44' W; (map 111). Variant: Mitchel Creek. Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Mitchell Creek: stream, flows SW 2 miles to East Fork Solomon River 1 mile E of its mouth and 1 mile NE of Solomon, Seward Peninsula Highlands; 64° 41' N, 164° 15' W; (map 95). Prospectors' name reported on a 1902 prospectors' manuscript map.

Mitchell Point: point of land, E entrance to Douglas Bay, on S coast of Kupreanof Island, 26 miles SW of Petersburg, Alexander Archipelago; 56° 27' N, 133° 12' W; (map 6). Named on August 31, 1793, by Capt George Vancouver, RN, "after Captain William Mitchell, RN" (Wagner, 1937, p. 398)

Mitchell Rock: rock, in Galankin Islands, in Sitka Sound, 0.8 miles S of Sitka, Alexander Archipelago; 57° 02' 40" N, 135° 20' 15" W; (map 9). Named in 1880 by the U.S. Navy; published in 1883 Coast Pilot (p. 142).

Mitchell Slough: estuary, on Kupreanof Island, extends NW 1 mile to Duncan Canal, 11 miles SW of Petersburg, Alexander Archipelago; 56° 44' 10" N, 133° 12' 30" W; BGN 1961; (map 6). Variant: Ohmer Slough. Local name reported in 1960 by USFS. See Ohmer Slough.

Mitchells Island: island, see Wingham Island.

Mitcher Creek: stream, flows SE 1 mile to Redwood Creek, 4 miles E of Katalla, Chugach Mountains; 60° 11' N, 144° 25' W; BGN 1946; (map 64). Local name reported in 1945 by USGS; "named for the Mitcher group of oil fields near the head of the creek."

Mite Cove: cove, 0.2 miles across, on N coast of Yakobi Island, on Lisianski Inlet, 1.3 miles SE of Ewe Ledge and 37 miles W of Hoonah, Alexander Archipelago; 58° 04' 15" N, 136° 26' 20" W; (map 10). Named by J. F. Pratt, USC&GS, in 1901 and published in the 1901 Alaska Coast Pilot (p. 205).

Mite Island: island, 0.1 miles across at mouth of Mite Cove, in Lisianski Inlet, on Yakobi Island, 1.2 miles SE of Ewe Ledge, 37 miles W of Hoonah, Alexander Archipelago; 58° 04' 25" N, 136° 26' 50" W; (map 10). Variant: Mite Islet. Named by J. F. Pratt, USC&GS, in 1901 and published in the 1901 Alaska Coast Pilot.

Mite Islet: island, see Mite Island.

Mitgoff Island: island, see Mitkof Island.

Mitik Creek: stream, flows W 2.5 miles to Ogotoruk Creek, S of Conglomerate Creek, 6.5 miles SE of Cape Thompson, Arctic Slope; 68° 06' 40" N, 165° 44' 30" W; BGN 1963; (map 129). Eskimo name meaning "eider duck" given in 1963 by personnel of Project Chariot. An earlier name, "Duck Creek," was changed to avoid duplication.

Mitkof Island: island, 17 miles long, separated from Kupreanof and Woewodski Islands by Wrangell Narrows, 12 miles NW of Wrangell, Alexander Archipelago; 56° 40' N, 132° 50' W; BGN 1890; (map 6). Variant: Mitgoff Island, Mitkoff Island, Mittkoff Island, Ostrov Mitkova. Published in 1848 on Russian Hydrog. Dept. Chart 1396 as "Os[trov] Mitkova" for a Capt. Mitkov (cna).

Mitkoff Island: island, see Mitkof Island.

Mitkova, Ostrov: island, see Mitkof Island.

Mitlak Mountain: mountain, 1,800 ft., 15 miles NE of Tooth Mountain and 22 miles N of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 26' N, 161° 32' W; (map 53). Eskimo name published in 1951 by USGS.

Mitlak Mountain: mountain, 2,900 ft., in Ahklun Mountains, 53 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 36' N, 160° 21' W; (map 53). Eskimo name reported in 1954 by USGS.

Mitletukeruk: locality, on spit at NE end of Lopp Lagoon, on Chukchi Sea coast, 22 miles NE of Cape Prince of Wales, at W end of Seward Peninsula, Kotzebue-Kobuk Lowland; 65° 49' N, 167° 33' W; (map 111). Variant: Mit-Le-Topik, Metletukeruk. Site of an Eskimo village or campground; name obtained in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS. The name "Mit-Le-Topik," was shown on the 1908 "Map of Seward Peninsula," by Arthur Gibson.

Mitliktavik: locality, site of an Eskimo village, on Chukchi Sea coast, on Kasegaluk Lagoon, 21 miles SW of Wainwright, Arctic Plain; 70° 25' N, 160° 38' W; (map 146). Variant: Metlatavik, Meliktahvik. Eskimo name recorded as "Me-lik-tahk-vik" by Archdeacon Stuck (1920, p. 192). Orth was told at Wainwright in 1965 that this is a place where canoes are built. "Mitlik" means "adz", or "place where the adz is used."

Mitre, The: peak, 6,600 ft., 5.5 miles S of Eklutna Lake and 30 miles E of Anchorage, Chugach Mountains; 61° 15' 52" N, 148° 57' 12" W; BGN 1966; (map 69). Named in 1965 by members of the Mountaineering Club of Alaska. "In Europe mitre is the term used for a sharp, symmetrical, rock peak such as this one."

Mitrofa Island: island, see Mitrofanina Island.

Mitrofanina Bay: bay, 6 miles across, on S coast of Alaska Peninsula, 25 miles SW of Chignik, Aleutian Range; 55° 55' N, 158° 48' W; (map 27). Named for Mitrofanina Island; published in 1888 by USBF.

Mitrofanina Harbor: anchorage, on E side of Mitrofanina Bay, 24 miles SW of Chignik, Aleutian Range; 55° 59' N, 158° 43' W; (map 27). Named in 1888 by USBF.

Mitrofanina Island: island, 8 miles across, 33 miles E of Stepovak Bay, Aleutian Range; 55° 53' N, 158° 50' W; BGN 1890; (map 27). Variant: Mitrofa Island, Saint Mitrofanina Island, Saint Mitrophan. Name published as "St. Mitrophan" by Grewingk (1850, p. 49), and as "Os[trov] Sv[iataya] Mitrofanina," or "St. Mitrofanina Island," on Russian Hydrog. Dept. Chart 1455 (1852). "Os[trov] Mitrofanina," or "Mitrofanina Island" is shown by Capt. Tebenkov (1852, map 24), IRN.

Mitrofanina: locality, between Kuiukta and Mitrofanina Bays, on S coast of Alaska Peninsula, 24 miles SW of Chignik, Aleutian Range; 55° 59' N, 158° 43' W; (map 27). Native village, shown on a USBF Chart (1890) and reported as abandoned in USC&GS Alaska Coast Pilot (1947, v. 2, p. 293).

Mitt Lake: lake, 0.1 miles across, 0.5 miles SW of Sweeper Cove, Kuluck Bay, on NE coast of Adak Island, Aleutian Islands; 51° 50' 37" N, 176° 39' 24" W; (map 17). Name published by USC&GS in 1961 on Chart 9141.

Mitten Creek: stream, flows N 7 miles to Colville River, 13 miles NW of Liberator Lake, Arctic Slope; 68° 59' N, 158° 46' W; BGN 1960; (map 132). Named in 1951 by H. N. Reiser, USGS, "for mitten lost on this creek."

Mitten Hill: hill, 4,300 ft., on S bank of Beaver Creek, 11 miles N of Rock Lake and 66 miles NE of McCarthy, Alaska Range; 61° 58' 30" N, 141° 14' 25" W; (map 67). Local name obtained by USGS and published on maps since 1954.

Mitten Lake: lake, see Miller Lake.

Mitter Lake: lake, see Miller Lake.

Mittkoff Island: island, see Mitkof Island.

Miyghapak, Cape: point of land, see Niyghapak Point.

Miykhapakhit Mountain: mountain, see Myghapowit Mountain.

Miyook Mountain: hill, see Owalit Mountain.

Mizofek Point: point of land, see Black Point.

Mkleetokumenah: mountain, see Schwatka, Mount.

Model Cove: cove, 1.4 miles across, on E coast of Kiska Island, Aleutian Islands; 52° 00' N, 177° 35' E; (map 14). Variant: Crawfish Cove. An arbitrary name beginning with "M" to correspond to "M" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Model Creek: stream, flows SE 1.8 miles to Model Cove, on eastern Kiska Island, Aleutian Islands; 52° 00' 32" N, 177° 34' 50" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Model Hill: hill, 300 ft., NW of Model Cove, on Kiska Island, Aleutian Islands; 52° 00' 35" N, 177° 34' 15" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Modesta Creek: stream, flows SE to Don River, 6 miles SE of Cassiterite Peak and 17 miles NW of Teller, Seward Peninsula Highlands; (map 111). Variant: Modesty Creek. Prospectors' name shown on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This feature cannot be precisely identified on current maps.

Modesty Creek: stream, see Modesta Creek.

Modoc Creek: stream, flows NW 4.5 miles to Chatanika River, 45 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 16' 45" N, 146° 34' 30" W; (map 104). Named by prospectors; reported in 1908 by USGS (Covert and Ellsworth, 1909, pl. 4).

Mofeta, Mys: point of land, see Moffet Point.

Moffet Bay: lagoon, see Moffet Lagoon.

Moffet Cove: lagoon, see Moffet Lagoon.

Moffet Lagoon: lagoon, 7 miles long, 15 miles NE of village of Cold Bay, at SW end of Alaska Peninsula, Bristol Bay Lowland; 55° 24' N, 162° 35' W; BGN 1965; (map 29). Variant: Moffet Bay, Moffet Cove, Neumann Bay, Sloss Bay. Name derived from Moffet Point and given by W. H. Dall, USC&GS, in 1882. This lagoon was given the names "Neumann and Sloss Bays" by USBF in 1888 and was called "Moffet Cove" by USC&GS in 1890 (chart 806).

Moffet Point: point of land, at N end of Moffet Lagoon, 19 miles N of village of Cold Bay, SW end of Alaska Peninsula, Bristol Bay Lowland; 55° 27' 20" N, 162° 32' 00" W; BGN 1966; (map 29). Variant: Mys Mofeta, Mys Moffeta, Neumann Point. Named by Capt. Lutke (1836, p. 262), IRN, for Midshipman Samuel Moffet, a member of his crew on the sloop Moller during his voyage around the world from 1826-29. This point was called "Neumann" by USBF in 1888.

Moffet, Cape: point of land, see Moffett, Cape.

Moffet, Mount: volcano, see Moffett, Mount.

Moffeta, Mys: point of land, see Moffet Point.

Moffett, Cape: point of land, on NW coast of Adak Island, Aleutian Islands; 51° 57' 25" N, 176° 47' 10" W; BGN 1936; (map 17). Variant: Cape Moffet. Named by the U.S. Navy Hydrog. Office in 1936 for Rear-Adm. William Adger Moffett, 1869-1933, USN, who was lost with the U.S.S. Akron on April 4, 1933, off Barnegat, N.J.

Moffett, Mount: volcano, 3,924 ft., on N Adak Island, Aleutian Islands; 51° 56' 18" N, 176° 44' 22" W; BGN 1936; (map 17). Variant: Mount Moffet. Named by the U.S. Navy Hydrog. Office in 1936 for Rear-Adm. William Adger Moffett, 1869-1933, USN. See Moffett, Cape.

Moffit, Mount: peak, 13,020 ft., near head of Trident Glacier, 11 miles SE of Mount Hayes, Alaska Range; 63° 34' 08" N, 146° 23' 50" W; BGN 1960; (map 86). Named in 1950 by USGS for Fred Howard Moffit, 1874-1958, USGS, who worked in Alaska for 40 years and authored over fifty publications on Alaskan geology and mining.

Mogak Creek: stream, heads in lake at 61° 25' N, 162° 33' W, flows SE 35 miles to Putu Creek 6 miles NW of its junction with Johnson River, Yukon-Kuskokwim Delta; 61° 18' 30" N, 162° 11' 45" W; (map 74). Eskimo name reported by Orth in 1965, as "Morale" meaning "wood," but misspelled on a recent USGS map.

Moghoweyik River: stream, flows NW 12 miles to Bering Sea, 22 miles S of Gambell, St. Lawrence Island; 63° 28' N, 171° 51' W; BGN 1951; (map 93). Variant: Magoghyik River, Mogoghyik River, Mookyik River. Eskimo name reported in 1944 by Lawrence Kulukhan of Gambell.

Mogilnoi Island: island, 250 ft. across, connected to Japonski Island, in Sitka Sound, 2 miles W of Sitka, Alexander Archipelago; 57° 02' 35" N, 135° 23' 00" W; (map 9). Variant: Ostrov Mogilnoy, Shell Island. Russian name meaning "grave" given in 1809 by the navigator Ivan Vasiliev the first, IRN, published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Mogilnoy."

Mogilnoy, Ostrov: island, see Mogilnoi Island.

Mogoghyik River: stream, see Moghoweyik River.

Mogtalik: locality, see Mukialik.

Mogul Creek: stream, flows NE 19 miles to Seventymile River, 18 miles NW of Eagle, Yukon-Tanana Highlands; 64° 40' N, 141° 42' W; (map 102). Prospectors' name obtained in 1898 by E. C. Barnard, USGS.

Mohican, Cape: peninsula, on Nunivak Island, extends NW 2 miles into Bering Sea, 53 miles NW of Cape Mendenhall; 60° 12' N, 167° 25' W; BGN 1902; (map 57). Variant: Ikoox, Ikukh, Mys Boil. Name reported about 1899 by USC&GS. Capt. M. D. Tebenkov, IRN, in 1849 named it "Mys Boil" for Lt. Roman Boil, who was in the party when Capt. Lt. M. N. Vasiliev, IRN, discovered Nunivak Island in 1821.

Mohler Lake: lake, 0.5 miles long, 11 miles SW of Lake Louise, E of Nicholson Lake, 45 miles WNW of Glennallen, Copper River Basin; 62° 13' 30" N, 146° 54' 00" W; (map 83). Variant: Moyler Lake. Local name reported in 1949 by USGS.

Moira Island: island, 0.8 miles long, at mouth of Moira Sound, on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 03' 45" N, 132° 00' 45" W; (map 4). Named in 1886 by Lt. Comdr. R. C. Clover, USN.

Moira Rock: rock, 0.1 miles long, at mouth of Moira Sound, on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 05' 00" N, 131° 59' 45" W; BGN 1966; (map 3). Variant: Moira Rocks. Named in 1885 by Lt. Comdr. Richardson Clover, USN.

Moira Rocks: rock, see Moira Rock.

Moira Sound: estuary, extends from junction of its South and West Arms 10 miles NE to Clarence Strait, on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 05' N, 132° 00' W; (map 4). Named by Capt. Vancouver (1798, v. 2, p. 206), RN, in August 1793, "after the noble Earl of that title." See Apodaca, Bocas de.

Mojovy Island: island, see Hall Island.

Moke Rock: rock, near water level, SE of Maurelle Islands, Alexander Archipelago; 55° 36' 30" N, 133° 34' 55" W; (map 4). Local name published in 1925 by USC&GS.

Mokhnatoi Island: island, see Makhnati Island.

Mokhnatoy, Ostrov: island, see Makhnati Island.

Mokhnatyy, Ostrov: island, see Makhnati Island.

Mokhoweyik Camp: locality, see Booshu Camp.

Moknatoi Island: island, see Makhnati Island.

Mokrovskoi, Cape: point of land, see Spray Cape.

Mokrovskoi: bay, see Pumicestone Bay.

Molchatna: locality, see Mulchatna.

Molchatna: stream, see Mulchatna River.

Moldy Lake: lake, oxbow lake of Koyukuk River, 10 miles NW of Roundabout Mountain, Koyukuk Lowland; 65° 41' N, 156° 36' W; (map 108). Local name obtained at Huslia by USGS in 1954 or 1955.

Mole Harbor: bay, 1.3 miles across, in Seymour Canal, on Admiralty Island, 24 miles NE of Angoon, Alexander Archipelago; 57° 40' N, 134° 03' W; (map 9). Named in 1889 by Lt. Comdr. H. B. Mansfield, USN; published by USC&GS in 1891 Coast Pilot (p. 144).

Mole River: stream, flows E 3 miles to Mole Harbor Admiralty Island, 20 miles NE of Angoon, Alexander Archipelago; 57° 38' 50" N, 134° 06' 00" W; (map 9). Local name reported in 1951 by USGS.

Molekostna, Reka: stream, see Melozitna River.

Moller Island: barrier island, one of Kudobin Islands, about 20 miles W of village of Port Moller, Bristol Bay Lowland; 56° 01' N, 161° 05' W; (map 28). Variant: Moller Island. This name was reported in 1882 by W. H. Dall, USC&GS; shown as Moller Island on an 1890 USBF chart. Subsequent changes in the shore line make it impossible to identify this feature at present.

Moller, Port: bay, 3 miles across, trends NW 18 miles toward Bristol Bay, near SW end of Alaska Peninsula, Aleutian Range; 55° 53' N, 160° 28' W; BGN 1944; (map 28). Named by Capt. M. N. Staniukovich, of Capt. F. P. Lutke's expedition, for the sloop Moller, in which he explored the bay in 1828.

Molly Creek: stream, flows NW 13 miles to Middle Fork Fortymile River, 80 miles SW of Eagle, Yukon-Tanana Highlands; 64° 11' 40" N, 143° 28' 20" W; (map 102). Local name published in 1956 by USGS.

Molybdenum Mountain: mountain, 1,705 ft., on W bank of Owhat River 19 miles NE of Aniak, Kilbuck-Kuskokwim Mountains; 61° 49' N, 161° 15' W; (map 73). Prospectors' name reported by USC&GS in 1948.

Molybdenum Ridge: ridge, elev. 5,900 ft., extends 5.5 miles, between East Fork Little Delta River and Delta Creek, 14 miles N of Mount Hayes, Alaska Range; 63° 49' 15" N, 146° 39' 00" W; (map 86). Name published on relatively recent maps.

Momaghnuk Mountains: hills, see Mamagnak Mountains.

Monahan Creek: stream, flows NE 18 miles to Chakina River, 7 miles N of Goodlata Peak and 18 miles SW of McCarthy, Chugach Mountains; 61° 10' N, 143° 07' W; (map 67). Local name reported in 1911 by D. C. Witherspoon, USGS.

Monahan Creek: stream, heads N of Butte Lake, flows NNW 19 miles to Brushkana Creek, on S side of Monahan Flats, 46 miles SE of Healy, Talkeetna Mountains; 63° 19' 00" N, 148° 04' 20" W; (map 87). Name reported in 1966 by USGS.

Monahan Flat: flat, extends SW 18 miles from West Fork Glacier to junction of Canyon Creek and Nenana River, 50 miles SE of Healy, Alaska Range; 63° 20' N, 147° 50' W; (map 87). Named locally for George Monahan, prospector; name reported in 1913 by J. W. Bagley, USGS.

Monarch Creek: stream, flows NE 8 miles to North Fork Chandalar River, 9.5 miles W of Caro and 22 miles S of Chandalar, Brooks Range; 67° 10' 30" N, 148° 22' 00" W; (map 123). Prospectors' name obtained in 1909 by A. G. Maddren (in Brooks and others, 1910, pl. 7), USGS.

Monarch Slough: stream, channel of Yukon River, extends N 2 miles to Poltes Slough 2 miles NW of Marshall, Yukon-Kuskokwim Delta; 61° 54' N, 162° 09' W; (map 74). Riverboat pilots name shown on a fieldsheet by R. H. Sargent, USGS, in 1916.

Monashka Bay: bay, 1.2 miles N of Kodiak, extends SW 3 miles, between Miller and Termination Points, Kodiak Island; 57° 50' N, 152° 25' W; BGN 1933; (map 34). Variant: Chernieshef, Devils Bay, Maknashka Bay, Sycamore Bay, Zaliv Chernysheva, Zaliv Makhnashka. Local name reported in 1933 by Gerald FitzGerald, USGS, derived from the name "Z[aliv] Makhnashka" [from Monakhinya], meaning "nun bay," published by Capt. Tebenkov (1852, map 23). This feature was called "Zaliv Chernysheva" [from Chernichie] meaning "sycamore bay," by Sub Lt. Mikhail Murashev in 1839 or 1840. USC&GS called it "Devils Bay" in 1881 and later in 1910, "Sycamore Bay."

Monashka Creek: stream, flows NE 3.8 miles to Monashka Bay, 3.7 miles NW of Kodiak, Kodiak Island; 57° 50' 15" N, 152° 26' 30" W; (map 34). Name derived from Monashka Bay and published in 1952 by USGS.

Monashka Mountain: mountain, 1,814 ft., N of Monashka Bay, 4.7 miles NW of Kodiak, Kodiak Island; 57° 51' 20" N, 152° 27' 15" W; (map 34). Name derived from Monashka Bay and published in 1943 by USC&GS.

Monday Creek: stream, flows S 1.8 miles to Grant Creek 4.5 miles NE of that stream's junction with Yukon River, 23 miles WNW of Tanana, Kokrines-Hodzana Highlands; 65° 14' 08" N, 152° 57' 25" W; (map 106). Prospectors' name reported in 1956 by R. M. Chapman, USGS.

Monday Creek: stream, flows W to Anikovik River, about 15 miles SE of Cape Prince of Wales, Seward Peninsula Highlands; (map 111). Variant: Right Fork Ono-ko-vuk River. Prospectors' name shown on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This stream cannot be precisely identified on current maps.

Mondragones, Los: islands, see Ballena Islands.

Money Creek: stream, see Lorna Creek.

Money Gulch: ravine, trends to Albert Creek, 8 miles N of Tahnetta Pass, 62° 00' N, 147° 20' W; (map 82). Local name published by Theodore Chapin (in Brooks and others, 1915, p. 128), USGS.

Money Knob: mountain, 1,800 ft., 1.5 miles SE of Livengood, Yukon-Tanana Highlands; 65° 30' 15" N, 148° 31' 30" W; (map 105). Local name published by USGS in the 1950's.

Moneykam Koonga: stream, see Manikam Creek.

Monie Lake: lake, 1 mile long, on E coast of Prince of Wales Island, W of Doctor Point, Alexander Archipelago; 55° 19' 25" N, 132° 10' 20" W; (map 4). Name published in 1927 by USC&GS.

Monja, La: rock, see Perl Rock.

Monkey Ridge: ridge, 0.5 miles long, 0.5 miles W of Kiska Harbor, Kiska Island, Aleutian Islands; 51° 58' 10" N, 177° 31' 20" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Monocline Bluff: promontory, 628 ft., on right bank of Yukon River, in Paimiut Hills, 16 miles SW of Holy Cross, Nulato Hills; 62° 05' N, 160° 02' W; (map 78). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by U.S. Dept. of Interior.

Monolith Point: point of land, on E coast of Agattu Island, N point of entrance to McDonald Cove, 3.7 miles SW of Krugloi Point, Aleutian Islands; 52° 28' 00" N, 173° 42' 05" E; (map 13). This name was published in the USBF Annual Report for 1893-94 (1896, p. 223).

Monolith Point: point of land, on W shore of Albatross Anchorage, at head of Balboa Bay, 28 miles S of village of Port Moller, on Alaska Peninsula, Aleutian Range; 55° 35' 00" N, 160° 36' 45" W; (map 28). Name published in 1893 by U.S. Navy Hydrog. Office.

Monopoly Creek: stream, flows SE 8 miles to Fish Creek, 25 miles NE of Fairbanks, Yukon Tanana Highlands; 65° 03' N, 147° 02' W; (map 105). Local name published in 1940 by USGS.

Monotis Creek: stream, flows NE 4.5 miles to Kiruktagiak River, 13 miles S of Castle Mountain and 33 miles WNW of Anaktuvuk Pass, Brooks Range; 68° 24' N, 152° 49' W; (map 134). Named in 1944 by USGS geologists during the exploration of Naval Petroleum Reserve No. 4 for the fossil, *Monotis subcircularis*, abundant on the creek.

Monrak River: stream, flows SW 4 miles to Kolavinarak River, 6 miles SE of Emperor Island and 92 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 29' N, 164° 26' W; (map 58). Variant: Munroke River. Eskimo name reported in 1949 by USC&GS.

Monrak: locality, S of mouth of Monrak River on left bank of Kolavinarak River, 92 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 29' N, 164° 26' W; (map 58). Variant: Munroke. Former Eskimo camp or village reported in 1949 by USC&GS.

Monrak: locality, see Agiukchuk.

Monroe Bay: bay, 0.7 miles across, on W coast of Kanaga Island, Aleutian Islands; 51° 42' 20" N, 177° 41' 30" W; (map 17). Name published in 1951 by USGS.

Monroke: locality, see Agiukchuk.

Monsoon Lake: lake, 0.1 miles long, S of Kiska Harbor on east-central Kiska Island, Aleutian Islands, 52° 56' 15" N, 177° 35' 45" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Monsoon Lake: lake, 2.1 miles long, 15 miles E of junction of MacLaren and Susitna Rivers, Alaska Range; 62° 50' N, 146° 37' W; (map 83). Local name reported by USGS in 1959.

Montagnas Brillantes: mountain, see Iliamna Volcano.

Montagu Island: island, see Montague Island.

Montague Island: island, trends NE-SW 50 miles in Prince William Sound, 76 miles E of Seward Chugach Mountains; 60° 10' N, 147° 15' W, BGN 1900; (map 63). Variant: Isla de Quiros, Montagu Island, Ostrov Tsukli, Tsukli Island. This island was named "Montagu" by Capt. James Cook, RN, on May 18, 1778, for John Montagu, Earl of Sandwiche, the son of Viscount Hinchinbroke (Wagner, 1937, p. 398). It was called "Isle de Quiros" or "Quiros' Island" by the Spaniards in the late 1700's. The Eskimo name, published by Lt. Sarichev (1826, map 5), IRN, was "Ostrov Tsukli," or "Tsukli Island."

Montague Peak: mountain, 2,160 ft., at NE end Of Montague Island, 37 miles E of Chenega, Chugach Mountains; 60° 14' 59" N, 147° 00' 45" W (map 63). Named in 1903 by Ferdinand Westdahl USC&GS.

Montague Point: point of land, on N tip of Montague Island, above NW entrance to Rocky Bay, 36 miles ENE of Chenega, Chugach Mountains; 60° 22' 30" N, 147° 05' 15" W; (map 63). Variant: Punta de Aliaga. Named in 1902 by Ferdinand Westdahl, USC&GS. It was called "Punta de Aliaga" by Don Ignacio Arteaga in 1779.

Montague Strait: water passage, 5 miles wide, between Montague and Latouche Islands, at SW edge of Prince William Sound, 20 miles SE of Chenega, Chugach Mountains; 60° 00' N, 147° 45' W; (map 63). Local name reported in 1909 by Grant and Higgins (1910, pl. 2), USGS. Name derived from nearby Montague Island.

Montana Bill Creek: stream, distributary of South Fork Big River, flows E 13 miles to Redoubt Bay, 28 miles W of Kenai, Cook Inlet Lowland; 60° 38' 15" N, 152° 04' 30" W; (map 62). Local name reported in 1958 by USGS.

Montana Creek: ravine, see Montana Gulch.

Montana Creek: stream, flowing 8 miles SE to the Mendenhall River, 1 mile N of Juneau Airport and 8 miles NW of Juneau, Coast Mountains; 58° 22' 55" N, 134° 36' 00" W; (map 11). Variant: Brennan River. The origin of the name is unknown. The Name was in use in the 1880's, but the stream was called Brennan River in 1881 by Edward J. Brennan who with John McInnis located placer claims along the stream (DeArmond, 1957, p. 32).

Montana Creek: stream, flows E 3 miles to Hutchinson Creek, 47 miles SW of Eagle, Yukon-Tanana Highlands; 64° 19' 15" N, 142° 19' 00" W; (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Montana Creek: stream, flows N 4 miles to Creston Creek, 5.5 miles N of Cripple Creek Mountains and 52 miles NW of Medfra, Kilbuck Kuskokwim Mountains; 63° 36' N, 155° 58' W; (map 89). Local name reported in 1954 by USGS.

Montana Creek: stream, flows NE 5 miles to Beaver Creek, 26 miles E of Livengood, Yukon Tanana Highlands; 65° 30' N, 147° 39' W; (map 105). Local name published by USGS in the 1950's.

Montana Creek: stream, flows NW 1 mile to South Fork Grouse Creek, in Mint River basin, 41 miles NW of Teller, Seward Peninsula Highlands; 65° 35' N, 167° 31' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Montana Creek: stream, flows S 2.3 miles to East Fork Chena River, 67 miles SW of Circle, Yukon-Tanana Highlands; 65° 02' 15" N, 145° 23' 50" W; (map 104). Named by prospectors and reported in 1911 by USGS (Prindle, 1913, pl. 1).

Montana Creek: stream, flows S 3 miles to McManus Creek, 67 miles SW of Circle, Yukon-Tanana Highlands; 65° 21' 30" N, 146° 05' 10" W; (map 104). Named by prospectors; reported in 1903 by T. G. Gerdine (Prindle, 1905, pl. 13), USGS.

Montana Creek: stream, flows S 7.5 miles to Yukon River, E of Birches and 14 miles WSW of Kallands, Kokrines-Hodzana Highlands; 65° 08' 15" N, 153° 33' 00" W; (map 107). Local name obtained in 1952 by USGS topographers.

Montana Creek: stream, flows SE 1.6 miles to Solomon River, 15 miles NE of Solomon, Seward Peninsula Highlands; 64° 46' N, 164° 19' W; (map 95). Prospectors' name reported on a 1902 prospectors' manuscript map.

Montana Creek: stream, flows SE 3 miles to Seventymile River, 40 miles NW of Eagle, Yukon-Tanana Highlands; 64° 58' N, 142° 40' W; (map 102). Named by prospectors and shown on a 1902 manuscript map by E. J. Chamber, U.S. Deputy Surveyor.

Montana Creek: stream, flows SW 21 miles to Tolovana River, 50 miles NW of Fairbanks, Tanana Lowland; 65° 10' N, 149° 16' W. (map 105). Named by prospectors; published in 1906 by USGS.

Montana Creek: stream, flows W 6 miles to Nenana River, 10 miles S of Healy, Alaska Range; 63° 43' 30" N, 148° 53' 00" W; (map 87). Local name reported in 1923 by The Alaska R. R. on a manuscript map.

Montana Creek: stream, flows W 8.6 miles to Kugruk River, 26 miles NE of Imuruk Lake, Seward Peninsula Highlands; 65° 49' N, 162° 26' W; (map 110). Variant: Trace Creek. Prospectors' name reported in 1903 by D. C. Witherspoon (in Moffit, 1905, pl. 2), USGS. This appears to be the Trace Creek noted on a precinct map of Seward Peninsula by Monroe and Hutchins; corrected up to June 1903 by Arthur Gibson.

Montana Creek: stream, formed by its North and Middle Forks, flows SW 9.2 miles to Susitna River, 15 miles S of Talkeetna, Cook Inlet Lowland; 62° 06' 18" N, 150° 04' 20" W; BGN 1954; (map 81). Variant: Sunshine Creek. Prospectors' name reported in 1898 by Capt. E. F. Glenn, USA.

Montana Creek: stream, heads near Black Pass, flows S 2.4 miles to Bonanza Creek, 2 miles SW of Camelback Mountain and 20 miles NE of Flat, Kilbuck-Kuskokwim Mountains; 62° 31' 15" N, 157° 22' 30" W; (map 79). Prospectors' name published in 1921 by USGS.

Montana Creek: stream, heads on Juninggulra Mountain, flows NW 22 miles to Iditarod River, 24 miles NW of village of Crooked Creek and 37 miles SE of Holy Cross, Kilbuck-Kuskokwim Mountains; 62° 06' 45" N, 158° 38' 00" W; BGN 1945; (map 79). Prospectors' name reported in 1933 by Mertie (1936, p. 243), USGS.

Montana Creek: stream, see Polly Creek.

Montana Creek: stream, see Sheep Creek.

Montana Creek: village, see Montana.

Montana Gulch: ravine, extends E 1.9 miles to Minook Creek, 3 miles SSE of Rampart, Yukon-Tanana Highlands; 65° 27' 50" N, 150° 06' 20" W; (map 106). Variant: Montana Creek. Prospectors' name reported in 1904 by Prindle and Hess (1960, pl. 3), USGS.

Montana Peak: peak, 6,900 ft., 20 miles N of Palmer, at head of Mint Glacier, Talkeetna Mountains; 61° 53' 00" N, 149° 03' 30" W; (map 69). Local name reported in 1942 by AMS.

Montana: village, pop. 39, mile 209.3 on The Alaska Railroad, 17 miles S of Talkeetna, Cook Inlet Lowland; 62° 04' 47" N, 150° 04' 15" W (map 81). Variant: Montana Creek. This place originated as a railroad construction camp and was so named in 1919 by the builders. Homesteaders settled here in fall of 1957.

Montasta Lake: village, see Mentasta Lake.

Montauk Bluff: bluff, 2,643 ft., extends 1 mile on N bank of Yukon River, 23 miles NNW of Eagle, Porcupine Plateau; 65° 06' 30" N, 141° 29' 00" W; (map 103). Variant: Montauk Point. Local name published in 1956 by USGS. Probably the "Montauk Point" reported in 1900 by Lt. J. C. Cantwell, USRCS, although Baker (1906, p. 442) states that the point is on the left bank.

Montauk Creek: stream, flows NE 6 miles to Yukon River, opposite Montauk Bluff, 23 miles NNW of Eagle, Yukon-Tanana Highlands; 65° 06' N, 141° 31' W; (map 103). Local name published in 1956 by USGS.

Monte Carlo Creek: stream, flows SE 1 mile to Star Creek in Pargon River basin, 12 miles NE of Council and 18 miles SE of Mount Bendeleben, Seward Peninsula Highlands; 65° 03' N, 163° 32' W; (map 110). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Monte Carlo Island: island, 0.7 miles long, between Kuiu and Kupreanof Islands, 13 miles NW of Point Baker, Alexander Archipelago; 56° 32' 00" N, 133° 46' 15" W; (map 6). Named by USC&GS for charting purposes; name published in 1932 Coast Pilot (p. 257).

Monte Cristo Creek: stream, flows NE 1.5 miles to Barnes Creek, 16 miles NE of Fairbanks Yukon-Tanana Highlands; 65° 01' N, 147° 21' W. BGN 1933; (map 105). Variant: Fish Creek. This stream was originally considered part of Fish Creek; the present name was reported in 1917 by Theodore Chapin (in Martin, G. C., and others, 1919, fig. 13), USGS.

Monte Cristo Creek: stream, flows S 1 mile to O'Connor Creek, 10 miles NW of Fairbanks Yukon-Tanana Highlands; 64° 58' 15" N, 147° 50' 45" W; (map 100). Local name published in 1908 by USGS.

Monte Cristo Creek: stream, flows SW 1 mile, joins Alfield Creek to form Sulphur Creek, 23 miles NE of Nome, Seward Peninsula Highlands; 64° 49' 00" N, 165° 11' 40" W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Monte Cristo Creek: stream, flows SW 7 miles to McCoy Creek, 24 miles NW of Big Delta, Yukon-Tanana Highlands; 64° 26' 15" N, 146° 17' 307, W; (map 101). Named by prospectors; reported in 1910 by USGS (Capps, 1912, pl. 1).

Monte Cristo Creek: stream, heads on Mount Gordon, flows NE 9.5 miles to Nabesna River 11 miles SE of Nabesna, Wrangell Mountains; 62° 14' N, 142° 54' W; (map 84). Variant: Na-un-da. Named by prospectors and reported in 1902 by F. C. Schrader, USGS, who states that the Indian name is "Na-un-da."

Montekakat: locality, see Mentokakat.

Monterde, Isla: island, "one of a group of islands west of Umnak," Aleutian Islands. Name shown on a 1791 map by Don Juan de la Bodega y Quadra probably to honor Jose Maria de Monterde, one of the royal officials at San Blas at this time (Wagner, 1937, p. 474).

Monterey Creek: stream, flows SW 1.5 miles to California Creek which flows to Pargon River, 13 miles NE of Council and 25 miles SE of Mount Bendeleben, Seward Peninsula Highlands; 65° 00' N, 163° 18' W; (map 110). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Montgomery Bay: cove, 0.6 miles across, on NW coast of Latouche Island, 4.3 miles NE of Danger Island, 5.2 miles SE of Seward, Chugach Mountains; 59° 58' 45" N, 148° 01' 20" W; (map 49). Local navigators' name published in 1907 by USC&GS on Chart 8522.

Monti Bay: bay, 3.5 miles long on SE shore of Yakutat Bay, S of Khantaak Island, W of Yakutat, Malaspina Coastal Plain; 59° 34' N, 139° 50' W; (map 46). Variant: Bahia de Monti, Bahie de Monti, Baie de Monti, De Monti Bay. The name "Baie de Monti" was given to 1786 to Yakutat Bay or a part of it by Capt. La Perouse. It was named for Lt. de Monti who was the first officer of L' Astolabe, one of La Perouse's ships, and the first to reconnoiter the bay. It was called De Monti Bay by USC&GS. Since 1945 the name has been contracted to Monti Bay, although the name De Monti Bay is still used on some maps.

Monti, Baie de: bay, see Yakutat Bay.

Monument Creek: stream, flows NE 1.3 miles to Casadepaga River, 15 miles NE of Solomon, Seward Peninsula Highlands; 64° 47' N, 164° 24' W; (map 95). Prospectors' name reported on a 1902 prospectors' manuscript map.

Monument Creek: stream, flows NW 1.6 miles to North Fork Kougarok River, 2 miles SW of Harris Dome and 41 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 36' N, 164° 37' W; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Monument Creek: stream, flows S 1.5 miles to Skowl Arm Kasaan Bay, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 26' 10" N, 132° 23' 40" W; BGN 1963; (map 4). Local name reported in 1961 by USFS; given "because of its proximity to Old Kasaan National Monument * * *."

Monument Creek: stream, flows SE 3 miles to Snake River, 6 miles NW of Nome, Seward Peninsula Highlands; 64° 35' N, 165° 28' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS. This appears to be the stream labeled "Peacer Creek" by Schrader (1900c, p. 16), USGS.

Monument Creek: stream, flows SE 36 miles to Sheenjek River, 4 miles W of Grayling Lake and 63 miles NW of Coleen Mountain, Brooks Range; 67° 59' N, 143° 16' W; (map 121). Prospectors, name reported in 1927 by J. B. Mertie, Jr., USGS.

Monument Creek: stream, flows SW 9 miles to Sulatna River, 3.6 miles NW of Sulatana crossing and 35 miles S of Ruby, Kilbuck Kuskokwim Mountains, 64° 13' 48" N, 155° 32' 10" W; (map 98). Prospectors' name reported in 1913 by Eakin (1914, pl. 3), USGS.

Monument Creek: stream, flows WSW 10 miles to North Fork Chena River, 1.3 miles NW of Chena Hot Springs and 78 miles SW of Circle, Yukon-Tanana Highlands; 65° 04' N, 146° 05' W; (map 104). Named by prospectors and reported in 1914 by Ellsworth and Davenport (1915b, pl. 12), USGS.

Monument Creek: stream, heads at glacier, flows NE 5.5 miles to Matanuska River, 37 miles NE of Palmer, Chugach Mountains; 61° 46' 25" N, 148° 02' 45" W; (map 69). Local name reported in 1913 by USGS.

Monument Hill: mountain, 1,050 ft., between Beach Cove and Kiska Harbor, Kiska Island, Aleutian Islands; 51° 59' 32" N, 177° 30' 27" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Monument Mountain: mountain, 2,400 ft., 6 miles N of Kiwalik Mountain and 25 miles E of Imuruk Lake, Seward Peninsula Highlands; 65° 36' N, 162° 13' W; (map 110). Prospectors' name reported in 1903 by D. C. Witherspoon (in Moffit, 1905, pl. 2), USGS.

Monument Mountain: mountain, 2,667 ft., 24 miles NE of Katalla, Chugach Mountains; 60° 26' N, 44° 01' W; (map 64). So named after a GLO (BLM) monument on its top; name reported in 1905 by G. C. Martin (1908, pl. 335), USGS.

Monument Mountain: mountain, see Monument Rock.

Monument Ridge: ridge, elev. 2,000 ft., extends EW 12 miles, divided by Cutaway Creek, 20 miles SE of Liberator Lake, Arctic Slope; 68° 41' N, 157° 40' W; (map 132). So named in 1949 by USGS geologists "because the eroded hogback forms freestanding monuments."

Monument Rock: mountain, 1,447 ft., 1.7 miles N of Sunset and 7 miles NW of Nome, Seward Peninsula Highlands; 64° 36' N, 165° 33' W; (map 94). Variant: Monument Mountain. Local name reported on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904. Shown as "Mounment Mountain" on the 1903 Campion Mining and Trading Co. map by George M. Ashford.

Monument Rocks: rocks, elev. 1,405 ft., on mountain at head of Flint Creek, 10 miles NE of Sulatna Crossing and 28 miles SE of Ruby, Kilbuck-Kuskokwim Mountains; 64° 20' N, 155° 27' W; (map 98). Local name reported about 1952 by USGS.

Monzonite Creek: stream, heads in Monzonite Hills, flows NE 10 miles to Sulatna River, Nowitna Lowland; 64° 32' N, 154° 35' W; (map 98). Local name reported about 1952 by USGS.

Monzonite Hills: hills, extend EW 11 miles, on right bank of Sulatna River, 33 miles SE of Ruby, Nowitna Lowland; 64° 25' N, 154° 30' W; (map 98). Local name reported about 1952 by USGS.

Moody Creek: stream, flows NW 21 miles to Healy River, 2.5 miles E of Healy, Alaska Range; 63° 51' N, 148° 53' W; (map 87). Local name reported in 1910 by J. W. Bagley (in Capps, 1912, pl. 2), USGS.

Moody: locality, mile 353.2 on The Alaska Railroad, 4 miles S of Healy, Alaska Range; 63° 47' 45" N, 148° 56' 00" W; (map 87). Name of a flag stop reported on a 1922 timetable by the Alaska Railroad

Mookyik River: stream, see Moghoweyik River.

Moon Creek: stream, flows SE 2.3 miles to Peace River, 4 miles NW of Haycock, Seward Peninsula Highlands; 65° 15' N, 161° 14' W; (map 109). Local name reported in 1917 by G. L. Harrington, USGS.

Moon Lake: lake, 0.5 miles across, on Kenai Peninsula W of Aspen Lake, 11 miles S of Point Possession and 38 miles NE of Kenai, Cook Inlet Lowland; 60° 52' 45" N, 150° 22' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Moon Lake: lake, 0.9 miles long, between Alaska Highway and Tanana River, 6 miles W of Tanacross, Alaska Range; 63° 23' N, 143° 23' W; (map 85). Local name reported by USGS in 1964.

Moon Lake: lake, 2.5 miles long, 1 mile SW of Gamble Slough, 9 miles NE of Stevens Village, Yukon Flats; 66° 08' N, 148° 56' W; (map 118). Local name obtained in 1956 by USGS.

Moonlight Bay: cove, 0.7 miles wide, on SE coast of Kenai Peninsula, 5 miles SW of Black Mountain and 42 miles ESE of Homer, Chugach Mountains; 59° 30' 15" N, 150° 22' 00" W; BGN 1929; (map 50). Named by USC&GS in 1928.

Moonlight Creek: stream, flows NE 2.5 miles to Eldorado River, 20 miles NW of Solomon, Seward Peninsula Highlands; 64° 44' N, 164° 58' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Moonlight Creek: stream, flows NE 5.6 miles to Humboldt Creek which flows to Goodhope River, 38 miles NW of Imuruk Lake on Seward Peninsula, Kotzebue-Kobuk Lowland; 65° 59' N, 164° 07' W; (map 110). Prospectors' name reported in 1901 by USGS (Collier, 1902, pl. 12).

Moonlight Creek: stream, flows S 1.5 miles to Casadepaga River, 15 miles N of Solomon, Seward Peninsula Highlands; 64° 47' N, 164° 27' W; (map 95). Variant: Alert Creek. Prospectors' name reported in 1905 by T. G. Gerdine, USGS. Shown as "Alert" on a prospector's 1902 manuscript map.

Moonlight Creek: stream, flows SW 3 miles to Tubutulik River in Death Valley, 38 miles SE of Imuruk Lake, Seward Peninsula Highlands; 65° 09' N, 162° 17' W; (map 110). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Moonlight Creek: stream, heads in Moonlight Springs, flows S 0.7 miles to Little Creek, 3.2 miles N of Nome, Seward Peninsula Highlands; 64° 32' 48" N, 165° 24' 40" W; (map 94). Prospectors' name published on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Moonlight Creek: stream, heads in York Mountains, flows NW 2 miles to Anikovik River, 15 miles E of Cape Prince of Wales and 41 miles NW of Teller, Seward Peninsula Highlands; 65° 33' N, 167° 34' W; (map 111). Prospectors' name shown on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Moonlight Creek: stream, heads on Eva Mountain, flows SW 5.5 miles to Grantley Harbor, 5 miles NE of Teller, Seward Peninsula Highlands; 65° 18' N, 166° 13' W; (map 111). Variant: Igloo Creek. Local name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Moonlight Creek: stream, in Kantishna Hills, heads on Kankone Peak, flows NE 6.4 miles to Clearwater Fork Toklat River, 17 miles N of Eielson Visitor Center, Alaska Range; 63° 40' N, 150° 24' W; (map 88). Prospectors' name shown on a 1916 fieldsheet by C. E. Giffin, USGS.

Moonlight Creek: stream, see Little Creek.

Moonlight Point: point of land, S tip of Nevensky Island, in Yukon River, 1.5 miles SW of Marshall, Yukon-Kuskokwim Delta; 61° 51' 40" N, 162° 07' 00" W; (map 74). Riverboat pilots' name shown on a fieldsheet by R. H. Sargent, USGS, in 1916.

Moonlight Springs: springs, 0.3 miles SE of Perkinsville and 4 miles N of Nome, Seward Peninsula Highlands; 64° 33' 20" N, 165° 24' 25" W; (map 94). Prospectors' name reported on the 1903 Campion Mining and Trading Co. map by George M. Ashford.

Moonshine Creek: stream, flows NW 2.5 miles to Frederick Sound, 10 miles SE of Petersburg, Coast Mountains; 56° 48' 50" N, 132° 42' 22" W; (map 6). Local name recorded in 1961 by USGS.

Moonshine Creek: stream, flows SE 1 mile to Birch Creek which flows to Big Four Creek, 20 miles NE of Solomon, Seward Peninsula Highlands; 64° 49' N, 164° 09' W; (map 95). Prospectors' name reported on a 1902 prospectors' manuscript map.

Moonshine Creek: stream, flows W 5.3 miles to Nizina River, 4.5 miles E of Nizina Mountain and 20 miles NE of McCarthy, Wrangell Mountains; 61° 36' N, 142° 26' W; (map 67). Local name reported in 1922 by Moffitt (in Smith and others, 1930, pl. 3), USGS.

Moore Channel: water passage, see Eluitkak Pass.

Moore City: locality, on Ganes Creek, at mouth of Last Chance Gulch, 38 miles SW of McGrath, Kilbuck-Kuskokwim Mountains; 62° 53' 30" N, 156° 39' 40" W; (map 79). Mining camp and recording office established in 1907; local name reported in 1908 by A. G. Maddren, USGS. Probably abandoned in 1908.

Moore Creek: locality, on Moore Creek, 7.5 miles NE of Camelback Mountain and 30 miles E of Iditarod, Kilbuck-Kuskokwim Mountains; 62° 36' 00" N, 157° 09' 10" W; (map 79). Name reported in 1947 by USGS.

Moore Creek: stream, flows N 12 miles to Mosquito Fork, 9.5 miles E of Eagle Cliff and 42 miles SW of Chandalar, Brooks Range; 67° 04' 15" N, 149° 37' 00" W; (map 123). Prospectors' name obtained in 1901 by Schrader (1904, pl. 3), USGS.

Moore Creek: stream, flows NW 10 miles to Crooked Creek, 5 miles E of its mouth at Upper Ugashik Lake, on Alaska Peninsula, 35 miles NE of Ugashik, Aleutian Range; 57° 37' 05" N, 156° 30' 00" W; (map 36). Local name reported in 1923 by R. H. Sargent, USGS.

Moore Creek: stream, flows NW 2 miles to Woodchopper Creek, 3 miles S of that stream's junction with Yukon River and 41 miles SE of Circle, Yukon-Tanana Highlands; 65° 19' N, 143° 21' W; (map 103). Local name published in 1956 by USGS.

Moore Creek: stream, heads 2 miles SE of Camelback Mountain, flows E 25 miles to join Little Waldren Fork to form Takotna River, 39 miles E of Flat, Kilbuck-Kuskokwim Mountains; 62° 32' 30" N, 156° 32' 30" W; (map 79). Prospectors' name reported in 1910 by A. G. Maddren, USGS.

Moore Harbour: bay, see Moore, Port.

Moore Icefall: icefall, of 2,200 ft., extends WNW 1.8 miles from Icefall Peak, at head of Gulkana Glacier, 18 miles NNE of Paxson, Alaska Range; 63° 17' N, 145° 22' W; (map 86). Variant: Moores Icefall. Named between 1948 and 1955 by T. L. Pewe, USGS.

Moore Island: island, in Koyukuk River, about 7 miles S of Bettles, Kanuti Flats; 66° 48' N, 151° 45' W; (map 117). This island, named in 1885 by Lt. Allen (1887, p. 100), USA, cannot be identified.

Moore Lake: lake, 2.3 miles long, in course of Tyone Creek, 6 miles W of Susitna Lake and 46 miles NW of Glennallen, Copper River Basin; 62° 24' N, 146° 54' W; (map 83). Local name reported in 1959 by USGS.

Moore Mountains: mountains, 30 miles long, on central Chichagof Island, 38 miles N of Sitka, Alexander Archipelago; 57° 38' N, 135° 20' W; (map 9). Named in 1895 by USC&GS for Lt. Comdrs. Edwin King Moore and William Irwin Moore, USN.

Moore Nunatak: nunatak, 1,000 ft., at junction of Agassiz Glacier and Malaspina Glacier, 5 miles SW of Samovar Hills and 57 miles NW of Yakutat, St. Elias Mountains; 60° 06' 30" N, 140° 55' 30" W; (map 66). Named by Island C. Russell, in 1891, presumably for Will C. Moore, a member of his party, who was drowned while landing at Icy Bay on June 6, 1891.

Moore Ridge: ridge, 1 mile long, between West and East Arms Holtz Bay, Attu Island, Aleutian Islands; 52° 55' 20" N, 173° 09' 00" E; (map 13). Named by the U.S. Army during World War II; published in 1948 by AMS.

Moore's Harbour: bay, see Moore, Port.

Moore, Mount: peak, 7,410 ft., 0.8 miles SW of Elephant Promontory and 37 miles N of Juneau, Coast Mountains; 58° 48' 29" N, 134° 07' 45" W; BGN 1965; (map 11). Named in 1964 by members of the Juneau Icefield Research Program.

Moore, Port: bay, 3.5 miles across, SE side of Point Barrow at W end of Elson Lagoon, Arctic Plain; 71° 22' N, 156° 27' W; (map 153). Variant: Ikiraaluk, Ikkeraluk, Moore Harbour, Moore's Harbour. Comdr. Rochfort Maguire (Great Britain, 1854, map facing p. 188) applied the name "Moore's Harbour" to the area just S of Plover Point where he wintered the H.M.S. Plover in 1852-53. The subsequent 1853 Brit. Adm. Chart 2164 used the name "Port Moore." It commemorates Comdr. Thomas E. L. Moore, RN (Leffingwell, 1919, p. 97).

Moores Channel: water passage, see Eluitkak Pass.

Moores Icefall: icefall, see Moore Icefall.

Moorovskoy: bay, see Pumicestone Bay.

Moose Creek Bluff: hill, 805 ft., NE of junction of Moose Creek and Piledriver Slough, 13 miles SE of Fairbanks, Tanana Lowland; 64° 44' N, 147° 12' W; (map 100). Name derived from Moose Creek; published on recent maps.

Moose Creek Lake: lake, 0.6 miles long, near head of Moose Creek, 83 miles W of Talkeetna, Alaska Range; 62° 13' 40" N, 152° 40' 40" W; (map 81). Local name reported in 1958 by USGS.

Moose Creek Number One: stream, flows N 1.5 miles to Dome Creek, 13 miles N of Fairbanks, Yukon-Tanana Highlands; 65° 02' N, 147° 38' W; (map 105). Variant: Moose Creek. Originally published in 1908 by USGS; as Moose Creek, however, local usage has applied the present name to the stream's lower course, including its west fork; "Moose Creek Number Two" applies to the east fork.

Moose Creek Number Two: stream, flows NW 1 mile to Moose Creek Number One, 12 miles N of Fairbanks, Yukon-Tanana Highlands; 65° 01' 20" N, 147° 37' 20" W; (map 105). Variant: Moose Creek. Originally published in 1908 by USGS as Moose Creek; however, when local usage applied the name Moose Creek Number One to lower course of the stream, the present name was applied to this tributary.

Moose Creek: locality, along Richardson Highway, 20 miles SE of Fairbanks, Tanana Lowland; 62° 42' 30" N, 147° 08' 30" W; (map 100). Local name derived from Moose Creek that flows north of the locality. The name has appeared on recent maps.

Moose Creek: settlement, pop. 10, on Alaska R. R., on N bank of Matanuska River, E of Moose Creek, 5.8 miles NE of Palmer, Cook Inlet Lowland; 61° 40' 30" N, 149° 01' 45" W; (map 69). Name of a station on The Alaska Railroad that had its beginning about 1916. A post office was established here in 1917; discontinued in 1922 (Ricks, 1965, p. 43). Recent USGS maps indicate a site with four or five buildings.

Moose Creek: stream, flows E 1 mile to Steel Creek, 8 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 56' N, 147° 29' W; BGN 1933; (map 100). Local name reported in 1933 by J. M. Hill, USGS; “many mining claims have been recorded under this name.”

Moose Creek: stream, flows E 4.5 miles from Emma Dome to Middle Fork Koyukuk River, 3 miles S of Wiseman, Brooks Range; 67° 22' 15" N, 150° 08' 30" W; BGN 1932; (map 124). Local name reported by Robert Marshall in 1932.

Moose Creek: stream, flows NE 1.1 miles to Kiska Harbor, on east-central Kiska Island, Aleutian Islands 51° 58' 06" N, 177° 32' 07" E; (map 14). Variant: Whiskey Creek. An arbitrary name beginning with “M” to correspond to “M” grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Moose Creek: stream, flows NE 10 miles to Starvation Creek, 30 miles SE of Rampart, Yukon Tanana Highlands; 65° 20' 05" N, 149° 17' 10" W; (map 105). Named by prospectors; reported in 1908 by USGS (Covert and Ellsworth, 1909, pl. 5).

Moose Creek: stream, flows NE 7 miles to Beaver Creek, 9.5 miles ENE of Victoria Mountain and 72 miles W of Circle, Yukon-Tanana Highlands; 65° 49' 50" N, 146° 34' 10" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Moose Creek: stream, flows NW 10 miles to its junction with Sheep Creek to form Tatlanika Creek, 46 miles SE of Nenana, Alaska Range; 64° 01' N, 148° 12' W; (map 100). Named by prospectors; reported in 1906 by L. M. Prindle (in Brooks and others, 1907, pl. 4), USGS.

Moose Creek: stream, flows NW 12 miles to South Fork Hess Creek, 12 miles NE of Livengood, Yukon-Tanana Highlands; 65° 40' 30" N, 148° 20' 45" W; (map 105). Local name reported in 1915 by Brooks (Brooks and others, 1916, pl. 9), USGS.

Moose Creek: stream, flows NW 17 miles to Yanert Fork, 17 miles SE of Healy, Alaska Range; 63° 40' N, 148° 38' W; (map 87). Local name reported in 1913 by J. W. Bagley (in Brooks, 1914, pl. 12), USGS.

Moose Creek: stream, flows NW 18 miles to join Billy Goat Creek to form California Creek, 35 miles NE of Flat, Kilbuck Kuskokwim Mountains; 62° 50' 50" N, 157° 19' 50" W; (map 79). Local name obtained in 1952 by USGS topographers.

Moose Creek: stream, flows NW 2.3 miles to Stewart River, 20 miles NW of Nome, Seward Peninsula Highlands; 64° 47' N, 165° 36' W; (map 94). Prospectors' name published on the 1900 “Map of Nome Peninsula” by J. M. Davidson and B. D. Blakeslee.

Moose Creek: stream, flows NW 30 miles to Iditarod River, 20 miles N of Flat and 50 miles SE of Holikachuck, Kilbuck-Kuskokwim Mountains; 62° 45' 15" N, 157° 59' 00" W; (map 79). Prospectors' name reported in 1912 by H. M. Eakin, USGS.

Moose Creek: stream, flows NW 8 miles to Bonanza Creek, 9.4 miles SE of Flat and 51 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains, 62° 22' 25" N, 157° 46' 00" W; (map 79). Prospectors, name obtained in 1952 by USGS topographers.

Moose Creek: stream, flows NW 9.3 miles to South Fork Sulatna River 13 miles E of Poorman and 27 miles SW of Monzonite Hills, Kilbuck Kuskokwim Mountains; 64° 05' N, 155° 06' W; (map 98). Variant: Big Moose Creek. Local name reported as Big Moose Creek by Mertie and Harrington (1924, pl. 1), USGS.

Moose Creek: stream, flows S 1.5 miles to Seventymile River, 15 miles NW of Eagle, Yukon-Tanana Highlands; 64° 54' N, 141° 36' W; (map 102). Named by prospectors and reported in 1903 by Prindle (1905, pl. 16), USGS.

Moose Creek: stream, flows S 3.5 miles to Boulder Creek, 24 miles E of Tanana, Yukon-Tanana Highlands; 65° 08' 30" N, 151° 14' 30" W; (map 106). Local name reported in 1952 by USGS.

Moose Creek: stream, flows S 40 miles to Kuskokwim River, 18 miles NE of Sleetmute, Stony River Lowland; 61° 47' 40" N, 156° 39' 15" W; (map 72). Local name obtained in 1952 by USGS.

Moose Creek: stream, flows S 7 miles to West Fork Gulkana River 32 miles NW of that stream's junction with Gulkana River, Alaska Range; 62° 44' N, 146° 33' W; (map 83). Local name reported by F. H. Moffit (1912, p. 114), USGS.

Moose Creek: stream, flows S 7.8 miles to Yentna River, 52 miles NW of Anchorage, Cook Inlet Lowland; 61° 47' 30" N, 150° 41' 45" W; (map 70). Local name reported in 1954 by USGS.

Moose Creek: stream, flows SE 1 mile to Fairbanks Creek, 20 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 04' 10" N, 147° 16' 10" W; (map 105). Local name reported in 1903 by T. G. Gerdine (Prindle, 1905, pl. 13), USGS.

Moose Creek: stream, flows SE 5 miles to Mosquito Fork, 58 miles SW of Eagle, Yukon-Tanana High; 64° 17' 30" N, 142° 16' 00" W; (map 102). Local name reported in 1956 by USGS.

Moose Creek: stream, flows SE 5 miles to Tuck Creek, 23 miles SE of Mentasta Pass, Alaska Range; 62° 52' N, 142° 56' W; BGN 1936; (map 84). Local name reported by USGS in 1933.

Moose Creek: stream, flows SW 1.9 miles to Poorman Creek, 14 miles SW of Poorman, Kilbuck-Kuskokwim Mountains; 64° 01' 20" N, 155° 48' 55" W; BGN 1936; (map 98). Prospectors' name reported in 1935 by USGS.

Moose Creek: stream, flows SW 3 miles to Chatanika River, 4.5 miles N of Twin Buttes and 40 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 13' 30" N, 146° 56' 30" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Moose Creek: stream, flows SW 3.4 miles to Taku River, 1.7 miles E of outlet of Twin Glacier Lake and 25 miles NE of Juneau, Coast Mountains; 58° 31' 45" N, 133° 50' 30" W; BGN 1932; (map 12). Local descriptive name reported in 1932 by B. D. Stewart, USGS, to have been given because "moose abound in the vicinity * * * [and this area] is the moose hunting ground of [the] natives and the people of Juneau."

Moose Creek: stream, flows SW 6 miles to Wicker. sham Creek, 30 miles N of Fairbanks, Yukon-Tanana Highlands; 65° 16' 30" N, 147° 48' 20" W; (map 105). Local name published by USGS in the 1950's.

Moose Creek: stream, flows SW 7 miles to Nome Creek, 4.5 miles SE of Table Top Mountain and 48 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 20' N, 146° 49' W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Moose Creek: stream, flows SW 8.5 miles to Goldstream Creek, 12 miles NW of Fairbanks, Yukon-Tanana Highlands; 64° 55' 30" N, 148° 04' 40" W; (map 100). Local name shown on a location map of the Tanana Mines Railroad dated 1905.

Moose Creek: stream, flows W 23 miles to Piledriver Slough, 17 miles SE of Fairbanks, Tanana Lowland; 64° 43' N, 147° 13, W; (map 100). Local name reported in 1903 by T. G. Gerdine (in Prindle, 1905, pl. 16), USGS.

Moose Creek: stream, flows W 9 miles to Nenana River, 23 miles S of Nenana, Alaska Range; 64° 03' 45" N, 149° 09' 30" W; (map 100). Local name reported in 1910 by S. R. Capps (in Brooks and others, 1911, pl. 10), USGS.

Moose Creek: stream, heads at glacier on Montana Peak, in Talkeetna Mountains, flows S 18 miles to Matanuska River, 5.5 miles NE of Palmer, Cook Inlet Lowland; 61° 40' 30" N, 149° 02' 05" W; BGN 1910; (map 69). Variant: Tsadaka Creek. Local name obtained in 1910 by USGS. In 1898 Capt. Glenn (in Glenn and Abercrombie, 1899, p. 52), USA, referred to the stream as "Tsadaka," which appears to be either a Tanaina Indian word or a combination of Indian and Russian words meaning "moose."

Moose Creek: stream, heads in a lake at 62° 29' 30" N, 150° 24' 00" W, flows S 52 miles to Kroto Creek, 20 miles NW of Willow and 56 miles NW of Anchorage, Cook Inlet Lowland; 61° 59' 10" N, 150° 23' 45" W; BGN 1961; (map 70). Variant: Deshka River. Local name reported in 1954 by USGS.

Moose Creek: stream, heads in a lake, flows SW, through Moose Creek Lake, 8 miles to Happy River, 86 miles W of Talkeetna, Alaska Range; 62° 08' 15" N, 152° 44' 20" W, BGN 1962, (map 81). Named in 1902 by A. H. Brooks, USGS.

Moose Creek: stream, heads in Black Hills 2 miles N of Jatahmund Lake, flows N through many lakes 45 miles to Chisana River, at Northway Junction, Alaska Range; 63° 01' N, 141° 49' W; (map 84). Local name reported by USGS in 1954.

Moose Creek: stream, heads in Canada, flows NW 13 miles to Fortymile River, 36 miles SE of Eagle, Yukon-Tanana Highlands; 64° 17' 15" N, 141° 01' 30" W; (map 102). Named by prospectors and reported in 1896 by Spurr (1898, pl. 46), USGS.

Moose Creek: stream, heads in Kenai Mountains 9 miles S of Grandview, flows NW to Trail Creek, 0.5 miles E of Hunter, 26 miles SE of Sunrise, Chugach Mountains; 60° 33' 50" N, 149° 07' 30" W; (map 63). Local name reported in 1951 by USGS

Moose Creek: stream, heads in Mount McKinley National Park, flows W and N 50 miles to Bearpaw River, 18 miles E of Chilchukabena Lake, Tanana Lowland; 63° 53' 15" N, 150° 54' 05" W; (map 88). Name shown on a 1905 manuscript map of "Kantishna Gold Fields," by A. Friedrich, prospector.

Moose Creek: stream, heads in Rampart Mountains, flows S 12 miles to Yukon River, 2 miles N of Garnet Island, 15 miles WSW of Rampart, Kokrines Hodzana Highlands; 65° 28' N, 150° 40' W; (map 106). Local name reported in 1956 by Orth.

Moose Creek: stream, heads in Twin Lakes, flows SE through Glennallen, 17 miles to Tazlina River, Copper River Basin; 62° 04' 40" N. 145° 28' 35" W; (map 83). Local name reported by USGS (in Moffit, 1915, pl. 6).

Moose Creek: stream, heads on Granite Mountain flows SW 18 miles to East Fork George River 36 miles N of Sleetmute, Kilbuck Kuskokwim Mountains; 62° 12' 45" N, 156° 56' 30" W; (map 79). Local name obtained in 1952 by USGS topographers.

Moose Creek: stream, on Kenai Peninsula, flows E 3 miles to Resurrection Creek, 14 miles SSW of Hope, Chugach Mountains; 60° 43' 25" N, 149 43 30" W; (map 63). Local prospectors' name; reported in 1904 by Moffit (1906, pl. 2), USGS.

Moose Creek: stream, on Kenai Peninsula, flows NE 3 miles to Resurrection River, 18 miles NW of Seward, Chugach Mountains; 60° 18' 00" N, 149° 45' 20" W; (map 63). Local name reported in 1912 by Grant and Higgins (1913, pl. 1), USGS.

Moose Creek: stream, on Kenai Peninsula, flows SE 3 miles to Upper Trail Lake, 27 miles N of Seward, Chugach Mountains; 60° 30' 15" N, 149 25' 15" W, (map 63). Local prospectors' name; reported in 1904 by Moffit (1906, pl. 2), USGS.

Moose Creek: stream, on Kenai Peninsula, flows SE 3.5 miles to Fox Creek 0.8 miles N of NE end of Kachemak Bay, 21 miles NE of Homer, Cook Inlet Lowland; 59° 48' 20" N, 151° 03' 00" W; (map 50). Local name reported and published by USGS in the 1950's.

Moose Creek: stream, on Kenai Peninsula, flows W 1.5 miles to Canyon Creek, 11 miles S of Sunrise, Chugach Mountains; 60° 43' 55" N, 149° 27' 00" W; (map 63). Local name reported by G. F. Becker (1898, p. 82), USGS.

Moose Creek: stream, on Kenai Peninsula, in Kenai Mountains, flows W 11 miles to Tustumena Lake, 35 miles SE of Kenai, Cook Inlet Lowland; 60° 09' N, 150° 42' W; (map 62). Local name reported about 1911 by USGS

Moose Creek: stream, see Happy River.

Moose Creek: stream, see Ida Creek.

Moose Creek: stream, see Moose Creek Number One.

Moose Creek: stream, see Moose Creek Number Two.

Moose Creek: stream, see Vault Creek.

Moose Creek: village, see Stony River.

Moose Gulch: ravine, trends S 0.9 miles to Ester Creek, 10 miles W of Fairbanks, Yukon-Tanana Highlands; 64° 50' 50" N, 148° 03' 55" W; (map 100). Local name reported in 1913 by P. S. Smith, USGS.

Moose Hill: hill, 925 ft., 24 miles SW of Medfra, Kuskokwim Lowland; 63° 04' N, 153° 57' W; (map 89). Local name reported in 1958 by USGS.

Moose Island: island, 0.4 miles across, in entrance to Giles Bay, in Lake Minchumina; 63° 51' 45" N, 152° 19' 30" W; (map 88). Variant: Matsnu Local named reported about 1952 by "Val" Blackburn of village of Lake Minchumina The Tanana Indian name was reported to be "Matsnu," meaning "gull island."

Moose Island: island, 3.5 miles long, in Yukon River, 20 miles NE of Stevens Village Yukon Flats; 66° 13' N, 148° 30' W; (map 118). Local name obtained in 1956 by USGS.

Moose Lake: lake, 0.9 miles long, at head of Lonestar Creek, NE of Sprucefish Lake, 23 miles SSW of village of Lake Minchumina, Kuskokwim Lowland; 63° 35' 15" N, 152° 41' 30" W; (map 88). Local name obtained in 1958 from Fabian Carey and "Val" Blackburn by USGS.

Moose Lake: lake, 1 mile long, on Kenai Peninsula, SW of Grouse Lake, 35 miles NE of Kenai, Cook Inlet Lowland; 60° 45' N, 150° 19' W; (map 62). Named about 1963 by officials of Kenai National Moose Range for administrative purposes.

Moose Lake: lake, 1 mile N of Crow Lake and 19 miles NW of Roundabout Mountain, Koyukok Lowland; 65° 47' N, 156° 48' W; (map 108). Local name obtained at Huslia by USGS in 1954 or 1955.

Moose Lake: lake, 1,000 ft. long, on N bank of Yukon River, 17 miles E of Tanana, Kokrines-Hodzana Highlands; 65° 12' 20" N, 151° 29' 30" W; (map 106). Local name reported in 1956 by Orth.

Moose Lake: lake, 1.2 miles long, SW of Healy Lake, 29 miles SE of Delta Junction, Tanana Lowland; 63° 55' 25" N, 144° 48' 05" W; (map 86). Name published on relatively recent maps.

Moose Lake: lake, 1.3 miles long, drains E to Tolsona Creek N of Glenn Highway, 17 miles W of Glennallen, Copper River Basin; 62° 08' N, 146° 04' W; (map 83). Local name reported by USGS in 1949.

Moose Lake: lake, 3 miles long, 8 miles SE of Pile Bay and 26 miles NW of Augustine Island, Aleutian Range; 59° 35' N, 154° 00' W; (map 51). Local name reported by Martin and Katz (1912a, pl. 1), USGS.

Moose Pass: pass, on Kenai Peninsula, between Mud and Upper Trail Lakes, 28 miles N of Seward, Chugach Mountains; 60° 31' N, 149° 28' W; (map 63). Local name reported in 1952 by USGS

Moose Pass: village, pop. 136, mile 29.3 on The Alaska Railroad on Seward Highway, on SW shore of Upper Trail Lake, 26 miles N of Seward, Chugach Mountains; 60° 29' 20" N, 149° 22' 00" W; (map 63). Name of a station on The Alaska Railroad reported in 1912 by A. H. Brooks, USGS. It is reported that the village originally got the name Moose Pass because "in 1903, a mail carrier driving a team of dogs had considerable trouble gaining the right-of-way from a giant moose * * *." A post office was established here in 1928 (Ricks, 1965, p. 43).

Moose Pasture Lake: lake, 0.5 miles long, on Kenai Peninsula, 4 miles NW of Trapper Joe Lake and 30 miles SSW of Anchorage, Cook Inlet Lowland; 60° 48" N, 150° 08' W; (map 62). Named about 1963 by officials of Kenai National Moose Range for administrative purposes.

Moose Pasture Pass: pass, 5 miles SW of junction of North Fork Tlikadila and Tlikadila Rivers, at head of Chokotonk River, 70 miles NE of Nondalton, Aleutian Range; (map 61). Local name reported in 1958 by USGS.

Moose Point Shoal: shoal, extends NE-SW 5 miles, in Cook Inlet, 1.8 miles NW of Moose Point, Kenai Peninsula, 27 miles SW of Anchorage, Cook Inlet Lowland; 61° 00' N, 150° 39' W; (map 70). Local name reported in 1952 by USGS.

Moose Point: locality, on right bank of Yukon River, 33 miles NE of Ruby, Kokrines-Hodzana Highlands; 64° 57' N, 154° 27' W; (map 98). Variant: Mouse Point. Settlement reported in 1917 by USGS; now abandoned.

Moose Point: point of land, NW coast of Kenai Peninsula, 12 miles WSW of Point Possession and 35 miles NE of Kenai, Cook Inlet Lowland; 60° 57' 15" N, 150° 41' 00" W; (map 62). Local name published in 1933 by USGS.

Moose Rapids: rapids, see Moosehead Rapids.

Moose River: stream, on Kenai Peninsula, flows SW 23 miles to Kenai River at Sterling, 18 miles E of Kenai, Cook Inlet Lowland; 60° 32' 15" N, 150° 45' 30" W; (map 62). Local name reported in 1904 by Moffit (1906, pl. 2), USGS.

Moose Slough: stream, see Hardluck Slough.

Moose Valley: valley, 2 miles long, between Klehini River and Mosquito Lake, 3 miles NW of Wells, 25 miles W of Skagway, St. Elias Mountains; 59° 26' 30" N, 136° 01' 15" W; (map 45). Local name obtained by USGS field personnel and published on Federal maps since 1950,

Moose Village: locality, on right bank of Kuskokwim River at mouth of Moose Creek, 17 miles NE of Sleetmute, Stony River Lowland; 61° 47' 40" N, 156° 40' 00" W; (map 72). Variant: Stony River Village. Trading post and riverboat landing reported by the Alaska Road Commission on its 1923 map. This may have been the original site of the Indian village prior to the development of nearby Stony River.

Moose Village: village, see Stony River.

Moosehead Lake: lake, 2 miles long, S of Lake George, 41 miles SE of Delta Junction, Tanana Lowland; 63° 45' N, 144° 32' W; (map 86). Name published on relatively recent maps.

Moosehead Rack: bluff, elev. 600 ft., on S bank of Yukon River, at mouth of Cheyenne Creek, 25 miles ENE of Tanana, Yukon-Tanana Highlands; 65° 15' N, 151° 16' W; (map 106). Riverboat pilots' name shown on a Yukon River track chart manuscript dated 1906.

Moosehead Rapids: rapids, in Kasilof River on Kenai Peninsula, 18 miles S of Kenai, Cook Inlet Lowland; 60° 18' N, 151° 13' W; (map 62). Variant: Moose Rapids. Reported by D. H. Sleem as "Moose Rapids" on his 1910 map of Central Alaska. The present name was reported about 1911 by USGS.

Mooseheart Mountain: mountain, 2,136 ft., 34 miles NE of Bitzstini Mountains, Kilbuck Kuskokwim Mountains; 64° 45' N, 151° 03' W; (map 99). Local name reported in 1937 by USGS.

Moosehorn Island: island, 2 miles long, in Yukon River, W of Bonasila Island, and 23 miles NW of Holy Cross, Innoko Lowland; 62° 30' N, 160° 07' W; (map 78). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the U.S. Dept. of Interior.

Moosehorn Lake: lake, 0.4 miles across, 24 miles N of Chalkyitsik, Yukon Flats; 66° 59' N, 143° 48' W; (map 120). Local name obtained in 1956 by T. E. Taylor and R. C. Foley, USGS.

Moosehorn Lake: lake, 1.1 miles long, on Kenai Peninsula, 1 mile SW of Swan Lake and 24 miles NE of Kenai, Cook Inlet Lowland; 60° 38' 40" N, 150° 34' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range for administrative purposes.

Moosehorn Mountain: ridge, see Moosehorn Ridge.

Moosehorn Mountains: ridge, see Moosehorn Ridge.

Moosehorn Ridge: ridge, elev. 3,400 to 4,400 ft., 14 miles long, extends across Alaska Canada boundary S of Ladue River, 61 miles E of Tok, Yukon-Tanana Highlands; 63° 08' N, 140° 58' W; BGN 1954; (map 85). Variant: Moosehorn Mountain, Moosehorn Mountains. Named "Moosehorn Mountain" in 1898 by A. H. Brooks (1900a, p. 434), USGS.

Mooses Tooth, The: peak, 10,335 ft., near head of Buckskin Glacier, 15 miles SE of Mount McKinley, Alaska Range; 62° 58' 15" N, 150° 36' 45" W; (map 81). Variant: Mount Hubbard. A translation of the original Athabaskan Indian name obtained in 1953 by USGS; originally named "Mt. Hubbard" in 1910 by The Browne-Parker Expedition for Thomas H. Hubbard, then president of the Peary Arctic Club.

Moowookyik Camp: locality, see Booshu Camp.

Mop Point: point of land, on N shore of Thorne Arm on S coast of Revillagigedo Island, Alexander Archipelago; 55° 22' 55" N, 131° 14' 20" W; (map 3). Arbitrary name given in 1891 by USC&GS

Moquawkie: locality, see Tobona.

Moquawkie: village, see Tyonek.

Moraine Creek: stream, at Russell Glacier terminus, flows N 1.7 miles to White River, 42 miles NE of McCarthy, St. Elias Mountains; 61° 42' N, 141° 47' W; (map 67). Name reported in 1908 by F. H. Moffit, USGS; so named because of its relationship to moraine of Russell Glacier.

Moraine Creek: stream, flows NW 4 miles to Crescent Creek, 80 miles W of Eagle, Yukon Tanana Highlands; 64° 48' N, 143° 55' W; (map 102). Local name reported in 1912 by USGS.

Moraine Creek: stream, flows NW 4 miles to Karluk Lake, 17 miles SE of Karluk, Kodiak Island; 57° 26' 00" N, 154° 04' 30" W; (map 35). Local name reported in 1952 by USGS.

Moraine Creek: stream, heads at 59° 05' N, 154° 47' W, flows NW 23 miles to Kukaklek Lake, 14 miles S of Big Mountain, 41 miles SW of Iliamna, Aleutian Range; 59° 11' 30" N, 155° 11' 00" W; (map 51). Named in 1923 by K. F. Mather (in Brooks, and others, 1925, pl. 3), USGS.

Moraine Creek: stream, heads on Caribou Mountain in Zane Hills, flows E 5 miles to Bear Creek, 39 miles WNW of Hughes, Hogatza Highlands; 66° 10' 30" N, 155° 37' 00" W; (map 116). Named about 1955 by mining engineers; reported in 1956 by Orth.

Moraine Island: island, 0.7 miles long, 0.4 miles from S shore of Icy Bay, Malaspina Coastal Plain; 59° 55' 30" N, 141° 23' 00" W; (map 47). Descriptive name published by USC&GS in 1923. This island is a part of the moraine of Malaspina Glacier.

Moraine Pass: pass, 4,000 ft., at head of North Fork Ship Creek, 25 miles SE of Anchorage, Chugach Mountains; 61° 05' 30" N, 149° 11' 50" W; BGN 1964; (map 69). So named in 1963 by members of the Mountaineering Club of Alaska because "the surface of the pass consists of morainal material."

Moraine Reef: reef, extends 1 mile along S shore of Icy Bay, 0.5 miles SW of Moraine Island, Malaspina Coastal Plain; 59° 55' N, 141° 25' W; (map 47). Descriptive name published by USC&GS in 1923. The reef is a part of a moraine of Malaspina Glacier.

Moraine: locality, mile 7.1 on the Whittier branch of The Alaska Railroad, 4 miles WNW of Whittier, Chugach Mountains; 60° 47' N, 148° 52' W; (map 63). Name of a railroad engineering camp reported in 1951 by USGS.

Morakas Point: bluff, elev. 122 ft., on S bank of Naknek River, on Alaska Peninsula, 2.5 miles E of Naknek, Bristol Bay Lowland; 58° 44' N, 156° 56' W; (map 41). Local name reported in 1952 by USGS.

Moran Creek: stream, flows NW 19 miles to Little Melozitna River, 22 miles N of Birches. Kokrines-Hodzana Highlands; 65° 26' 40" N, 153° 31' 30" W; (map 107). Name from prospectors, reported in 1908 by Maddren (1910, pl. 5), USGS.

Moran Creek: stream, flows W 0.8 miles to Solomon River, 4 miles NE of Solomon, Seward Peninsula Highlands; 64° 37' 15" N, 164° 23' 20" W; (map 95). Prospectors' named reported in 1903 or 1904 on a location map of Council City & Solomon River Railroad.

Moran Dome: mountain, 3,608 ft., at head of Melozimoran Creek, 28 miles NW of Tanana, Kokrines-Hodzana Highlands; 65° 23' N, 152° 55' W; (map 106). Named about 1908 by prospectors for Moran Creek.

Mordaunt Creek: stream, flows NE to Niukluk River, between Alice Creek and Casadepaga River, 31 miles NE of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name reported on a prospector's manuscript map dated 1902. This stream cannot be precisely located on current maps. Probably named for A. P. Mordaunt, one of the party that found gold along Melsing and Ophir Creeks in early 1898 (Collier and others, 1908, p. 15).

Mordaunt, Mount: hill, 662 ft., 1 mile NE of junction of Ophir Creek and Niukluk River and 34 miles NE of Solomon, Seward Peninsula Highlands; 64° 56' N, 163° 43' W; (map 95). Local name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson. See Mordaunt Creek.

Mordvinof, Cape: point of land, on NW coast of Unimak Island, Aleutian Islands; 54° 56' 45" N, 164° 26' 00" W; BGN 1942; (map 24). Variant: Cape Lapin, Cape Lincoln, Mys Mordvinova, Mys Oksenova, Noisak, Oksenof. Russian name given as M[ys] Mordvinova, probably from the word morda meaning "muzzle" or "snout," [the point does look like the snout of an animal] by Capt. Staniukovich (cna), in 1828. This point was called M[ys] Mordvinova (M[ys] Oksenova) by Capt. Tebenkov (1852, map 26), IRN. It was also called Cape Lincoln by USBF in 1888.

Mordvinof, Cape: point of land, see Oksenof Point.

Mordvinova, Mys: point of land, see Mordvinof, Cape.

Mordvinove, Mys: point of land, see Oksenof Point.

More Creek: stream, flows SE 0.3 miles to Clear Creek, 24 miles NE of Katalla, Chugach Mountains; 60° 25' 30" N, 144° 00' 05" W; (map 64). Local name published in 1951 by USGS.

Morelock Creek: stream, in Rampart Mountains, flows SE 14 miles to Yukon River, 23 miles ENE of Tanana, Kokrines-Hodzana Highlands; 65° 16' N, 151° 18' W; (map 106). Variant: Marelock Creek. Prospectors' or riverboat pilots' name shown on Edwards Track Chart of the Yukon, dated 1899; published by Cantwell (1902, p. 277), USRCS.

Morgan Creek: stream, flows W 1.2 miles to Cache Creek 3 miles E of its junction with Kahiltna River, 30 miles W of Talkeetna, Alaska Range; 62° 23' 30" N, 151° 02' 30" W; (map 81). Prospectors' name reported in the 1930's by USGS.

Morgan Gulch: ravine, trends S 1 mile to Glacier Creek which flows to Snake River, 7 miles N of Nome, Seward Peninsula Highlands; 64° 36' N, 165° 24' W; (map 94). Prospectors' name shown on the 1904 map of Cape Nome Precinct by Arthur Gibson.

Morgan Hill: hill, 850 ft., 1.7 miles NE of Conquer Point, Kiska Island, Aleutian Islands; 52° 01' 00" N, 177° 31' 25" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map.

Morgan Island: island, 0.7 miles long, in Tanana River, E of mouth of Chena River and 6 miles SW of Fairbanks, Tanana Lowland; 64° 47' 30" N, 147° 51' 45" W; (map 100). Local name reported in 1950 by USGS topographers.

Morgan Island: island, 0.9 miles long, in Yukon River opposite Stink Creek, 56 miles SW of Nulato and 57 miles E of Unalakleet, Innoko Lowland; 63° 59' N, 158° 55' W; (map 90). Name shown on 1940 "Navigation Chart of the Tanana-Yukon Rivers" U.S. Dept. of Interior.

Morgan Point: point of land, at W entrance to King Cove, on SW end of Alaska Peninsula, 18 miles SE of village of Cold Bay, Aleutian Range; 55° 02' 20" N, 162° 20' 00" W; (map 29). Name reported by USC&GS in 1927.

Morgan, Cape: point of land, S tip of Akutan Island, Aleutian Islands; 54° 02' 50" N, 166° 02' 30" W; (map 23). Name given by the USBF in 1888.

Morjevskaja: bay, see Morzhovoi Bay.

Morjevskoi Pic: peak, see North Walrus Peak.

Morjovi Island: island, see Hall Island.

Morjovi: island, see Walrus Island.

Morkovskoi, Cape: point of land, see Spray Cape.

Morkovskoi: bay, see Pumicestone Bay.

Morne Island: island, 0.1 miles across, in Galankin Islands, 1 mile S of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 02' 15" N, 135° 19' 15" W; (map 9). Variant: Horn Island, Homey Island, Ostrov Rogova, Rogova Island, Rokhova Island. This name may be a misspelled translation of the Russian name "Rogova," meaning "horn," given in 1809 by Ivan Vasiliev the first, IRN The "M" may represent a typographical error.

Morning Call Creek: stream, flows N 2.7 miles to Grand Central River, 29 miles NE of Nome, Seward Peninsula Highlands; 64° 54' N, 165° 06' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Morning Cove: cove, 0.3 miles wide, on NE coast of Ragged Island, in Pye Islands, 50 miles E of Seldovia, Chugach Mountains; 59° 27' 30" N, 150° 18' 00" W; BGN 1929; (map 50).

Variant: Morning Sun Cove. Named "Morning Sun Cove" by USC&GS in 1927; shortened to "Morning Cove" by BGN.

Morning Star Creek: stream, flows NE to Goodhope River, about 17 miles NW of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This stream cannot be precisely located on current maps.

Morning Sun Cove: cove, see Morning Cove.

Morningstar Creek: stream, flows NW 7 miles to McCumber Creek, 24 miles SE of Delta Junction, Alaska Range; 63° 42' N, 145° 33' W; BGN 1937; (map 86). Local name reported in 1937 by USGS.

Moron Lake: lake, 0.2 miles across, 1.1 miles E of Conquer Point, on Westcentral Kiska Island Aleutian Islands; 52° 00' 25" N, 177° 30' 50" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Moroyak: locality, on right bank of Tagayarak River, 18 miles SW of Tuntutuliak and 58 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 17' N, 163° 07' W; (map 58). Former Eskimo camp or small settlement reported in 1949 by USC&GS. The exact location of this site is in doubt; however, the name is similar to "Meroyuk," a variant name of Napatuk Creek.

Morozofa Bay: bay, see Cold Bay.

Morozoffski Bay: bay, see Cold Bay.

Morozova Bay: bay, see Cold Bay.

Morozovskie Bay: bay, see Cold Bay.

Morozovskiy, Zaliv: bay, see Cold Bay.

Morris Cove: cove, 0.3 miles across, in Summer Bay, on E shore of Unalaska Bay, on NE coast of Unalaska Island, Aleutian Islands; 53° 55' 00" N, 166° 26' 10" W; (map 23). Name published by USC&GS in 1966 on Chart 9007.

Morris Creek: stream, flows NE 5 miles to Fox River, 31 miles NE of Solomon, Seward Peninsula Highlands; 64° 48' N, 163° 33' W; (map 95). Variant: Dewey Creek. Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson. Reported in 1900 as "Dewey Cr." by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Morris Creek: stream, heads at glacier E of Simpson Pass, flows SE 8 miles to Kichatna River, 83 miles W of Talkeetna, Alaska Range; 62° 18' N, 152° 41' W; (map 81). Named in 1899 by Lt. J. S. Herron, USA.

Morris Reef: reef, at mouth of Sitkoh Bay, off SE tip of Chichagof Island, 8 miles E of Todd, Alexander Archipelago; 57° 28' 30" N, 134° 50' 30" W; (map 9). Named in 1880 by the U.S.

Navy for William Gouverneur Morris, U.S. Collector of Customs at Sitka (U.S. Coast and Geodetic Survey, 1883,p. 167).

Morris, Lake: lake, 1.5 miles long, 13.5 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 50' N, 136° 17' W; (map 9). Named in 1917 by USGS and published by R. M. Overbeck (in Martin and others, 1919, pl. 2), USGS.

Morse Cove: estuary, 2 miles long, E coast of Duke Island, Alexander Archipelago; 54° 55' 45" N, 131° 14' 15" W; (map 2). Named in 1883 by Lt. Comdr. H. E. Nichols, USN, for Fremont Morse, a member of his party.

Morse Creek: stream, see Ida Creek.

Morse Glacier: glacier, in Glacier Bay National Monument, heads 2 miles N of Tidal Inlet trends E 5 miles to its 1948 terminus, 3 miles W of Muir Inlet, 58 miles NW of Hoonah, St. Elias Mountains; 58° 51' 50" N, 136° 11' 00" W; (map 10). Variant: West Tributary Muir Glacier. Named in 1892 by Reid (1896, p. 440) for J. F. Morse, one of his companions on his trip to this area in 1890. Reid originally called it "West Tributary" (1892, map).

Morse Island: island, see Bendel Island.

Morse Lake: lake, 65 yd. across, 1.3 miles W of Kiska Harbor, Kiska Island, Aleutian Islands; 51° 59' 03" N, 177° 30' 40" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Morse Peak: mountain, 3,554 ft., on Glass Peninsula, 33 miles NE of Angoon, on E coast of Admiralty Island, Alexander Archipelago; 57° 51' 15" N, 134° 02' 20" W; BGN 1934; (map 9). Named in 1887 by Lt. C. M. Thomas, USN, for Samuel Finley Breese Morse, 1791-1872, American inventor and artist, who invented the electric telegraph in 1832.

Morse Rock: rock, in Port Chester, on W coast of Annette Island, Alexander Archipelago; 55° 09' 15" N, 131° 34' 05" W; (map 3). Named in the 1880's by USC&GS, probably for Fremont Morse, USC&GS; published in 1891 Coast Pilot (p. 93).

Morserovia: island, see Walrus Island.

Morsezovia: island, see Walrus Island.

Morshevoi: bay, see Morzhovoi Bay.

Morshovoi: bay, see Morzhovoi Bay.

Morskiy Ostrov: island, see Navy Island.

Morskoi Rock: rock, 2 miles off NW tip of Kruzof Island and 28 miles NW of Sitka, Alexander Archipelago; 57° 20' 30" N, 135° 54' 00" W; BGN Sixth Report; (map 9). Variant: Kamen Morskoy, Ostrov Morskoy, Sea Rock. Russian name meaning "sea," given in 1833 by the

navigator Ens. Vasiliev; published in 1848 on Russian Hydrog. Dept. Chart 1397 as “Os[trov] Morskoy.”

Morskoi, Cape: peninsula, see Phipps Peninsula.

Morskoi, Cape: point of land, see Ocean Cape.

Morskoi, Ostrov: island, see Navy Island.

Morskoy, Kamen: rock, see Morskoi Rock.

Morskoy, Mys: point of land, see Ocean Cape.

Morsky, Mys: point of land, see Hinchinbrook Cape.

Morzhevskoy Pik: peak, see North Walrus Peak.

Morzhovia: village, see Morzhovoi.

Morzhovoi Bay: bay, 5 miles across, on SW end of Alaska Peninsula, Aleutian Range; 55° N, 163° W; BGN 1890; (map 25). Variant: Adamagan, Morjevskaja, Morshevoi, Morshovoi, Morzovia Bay. Transliteration of the Russian name published by Capt. Tebenkov (1852, map 24), IRN, as “Za[liv] Morzhovoi,” meaning “walrus island.” Baker (1906, p. 445) reports “Its Aleut name as Adamagan “

Morzhovoi Island: island, see Hall Island.

Morzhovoi: island, see Walrus Island.

Morzhovoi: village, pop. 17, on S shore of Traders Cove, on Bechevin Bay, Aleutian Range; 54° 54' 35" N, 163° 18' 10" W; BGN 1890; (map 25). Variant: Morzhovia, New Morzhovoi Old Morzhovoi, Protassof, Selo Morzhovskoe. Name published in 1847 on Chart 1379 of the Russian Hydrog Dept. as “S[elo] Morzhovskoe” (walrus village).

Morzhovoy, Ostrov: island, see Hall Island.

Morzhovoy, Ostrov: island, see Walrus Island.

Morzovia Bay: bay, see Morzhovoi Bay.

Moser Bay: bay, 1.5 miles across, on NW shore of Alitak Bay, at S end of Kodiak Island; 56° 59' N, 154° 08' W; (map 32). Named by USBF in 1901 for Lt. Comdr. Jefferson F. Moser, 1848-1934, USN, commander of the USBF steamer Albatross from 1897 to 1901. Moser made a reconnaissance of the Alitak Bay area in 1900 and named many features along the south coast of Alaska.

Moser Bay: estuary, extends SE 3 miles, off Behm Canal, on W coast of Revillagigedo Island, 3 miles S of Naha Bay, Alexander Archipelago; 55° 34' N, 131° 41' W; (map 3). Named in 1886 by USC&GS for Lt. Comdr. Jefferson Franklin Moser, USN.

Moser Creek: stream, heads in Moser Glacier, flows S 6 miles to Ahrnklin River, 4.2 miles S of Slate Peak and 22 miles E of Yakutat, St. Elias Mountains; 59° 30' 00" N, 139° 06' 30" W; (map 46). Name published in 1928 by IBC.

Moser Glacier: glacier, heads on S slope of Crescent Mountain, trends W 1.4 miles to 1961 terminus at head of Moser Creek, 24 miles E of Yakutat, St. Elias Mountains, 59° 34' 20" N, 139° 03' 15" W; (map 46). Named by USBF for Lt. Comdr. Jefferson Franklin Moser, USN, 1848-1934, who, as Commander of the USBF steamer Albatross, made a reconnaissance trip to this region in 1901.

Moser Island: island, 0.5 miles long, between Behm Canal and Moser Bay on W coast of Revillagigedo Island, 16 miles N of Ketchikan, Alexander Archipelago; 55° 34' 30" N, 131° 41' 00" W; (map 3). Local navigator's name reported in 1904 by H. C. Fassett, USBF.

Moser Island: island, 6 miles long, separating North and South Arms Hoonah Sound on Chichagof Island, 17 miles E of Chichagof, Alexander Archipelago; 57° 41' N, 135° 40' W; (map 9). Named by USC&GS for Lt. Comdr. Jefferson Franklin Moser, 1848-1934, USN, who later became Rear Adm. He was in command of the USBF steamer Albatross which explored salmon streams in Alaska. The results of these studies were published in 1899 and 1902.

Moser Peninsula: peninsula, 13 miles long, between Deadman Bay and Moser Bay, at head of Alitak Bay, S end of Kodiak Island; 57° 04' N, 154° 00' W; BGN 1934; (map 32, 34, 35). Variant: Kashuvak Peninsula. Named by USC&GS in 1934 for Lt. Comdr. Jefferson F. Moser. "Kashuvak" is the name of a former native village located on this peninsula. See Moser Bay.

Moser Point: point of land, at S tip of Moser Peninsula, between Moser and Alitak Bays, at S end of Kodiak Island; 56° 58' 10" N, 154° 05' 35" W; BGN 1934; (map 32). Named by USC&GS in 1935 for Lt. Comdr. Jefferson F. Moser. See Moser Bay.

Moses Gulch: ravine, see Mauze Gulch.

Moses Point: point of land, on N side of Norton Bay, NE tip of bar on SE shore of Kwinink Inlet, 20 miles NE of Elim, Seward Peninsula Highlands; 60° 45' 30" N, 161° 45' 00" W; BGN 1910; (map 96). Local name reported in 1910, derived from Moses Roadhouse to the southwest.

Moses Point: village, pop. 15 (1958), at mouth of Kwiniuk River on N shore of Norton Bay, 8 miles NE of Elim, Seward Peninsula High; 64° 42' N, 162° 02' W; (map 95). Variant: Moses, Roadhouse Moses. Shown as "Moses" on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Moses Rocks: rocks, off Coal Bay, 8 miles E of Pavlof Bay, near SW end of Alaska Peninsula, Aleutian Range; 55° 21' N, 161° 20' W; (map 28). Local name reported in 1897 by Lt. Comdr. J. F. Moser, USN, commander of the USBF steamer Albatross from 1897 to 1901, who surveyed and investigated this area.

Moses Village: locality, see Arctic City.

Moses, Point: point of land, on W shore of Hanus Bay, on NE coast of Baranof Island, 3 miles S of Todd, Alexander Archipelago; 57° 25' 15" N, 135° 03' 40" W; (map 9). Named in 1895 by Lt. Comdr. E. K. Moore, USN, for asst. engineer Stanford Elwood Moses, a member of his party.

Moses: village, see Moses Point.

Mosheim Dome: mountain, 6,450 ft., on Alaska-Canada boundary, 23 miles NE of mouth of Unuk River at Burroughs Bay, Coast Mountains; 56° 22' 15" N, 131° 49' 00" W; (map 7). Named by IBC for Adolph Mosheim, one of the U.S. Boundary Commission surveyors who worked in this area in 1905. The name was published in 1927 on IBC sheet 3.

Mosk Cape: point of land, see Moss Cape.

Mosman Inlet: estuary, extends SE 6 miles to Clarence Strait, on SW coast of Etolin Island, 28 miles SW of Wrangell, Alexander Archipelago; 56° 04' 30" N, 132° 32' 00" W; (map 6). Named in 1879 by W. H. Dall, USC&GS, for Alonzo Tyler Mosman, USC&GS, who made surveys in Alaska in 1867.

Mosman Island: island, 1 mile long, at mouth of Mosman Inlet, on SW coast of Etolin Island, 30 miles SW of Wrangell, Alexander Archipelago; 56° 04' N, 132° 33' W; (map 6). Local name recorded in 1953 by USGS.

Mosman Point: point of land, on S coast of Mosman Island, off SW coast of Etolin Island, 30 miles SW of Wrangell, Alexander Archipelago; 56° 03' 15" N, 132° 32' 15" W; BGN 1914; (map 6). Variant: Reef Point. Named in 1914 by USC&GS.

Mosquito Creek: stream, flows NE 4 miles, joins Junction Creek to form Redmond Creek, 28 miles NW of Big Delta, Yukon-Tanana Highlands; 64° 22' 40" N, 146° 36' 10" W; (map 101). Prospectors' name; reported in 1910 by C. E. Ellsworth and G. L. Parker (in Brooks and others, 1911, p. 193), USGS.

Mosquito Creek: stream, flows SE 1.3 miles to Eldorado Creek which flows to Candle Creek, 0.4 miles SW of Tunnel Creek and 33 miles NE of Imuruk Lake, Seward Peninsula Highlands; 65° 43' N, 162° 05' W; (map 110). Local name reported in 1950 by USGS.

Mosquito Creek: stream, flows SW 2.5 miles, joins Ernestine Creek to form Tiekkel River, 1 mile NE of mouth of Fall Creek and 44 miles NE of Valdez, Chugach Mountains; 61° 26' 05" N, 145° 07' 00" W; (map 68). Local name published in the 1950's by USGS.

Mosquito Creek: stream, flows SW 25 miles to Mulchatna River, 100 miles SE of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 19' N, 156° 13' W; (map 60). Local name reported in 1952 by USC&GS.

Mosquito Creek: stream, formed by junction of its North and South Forks, flows NW to Telephone Creek, 0.7 miles E of its junction with Fish River, 25 miles NW of Council and 34 miles S of Imuruk Lake, Seward Peninsula Highlands; 65° 05' N, 162° 57' W; (map 110). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Mosquito Creek: stream, see Little Mosquito Creek.

Mosquito Flats: swamp, 13 miles across, at junction of Wolf Creek and Mosquito Fork, 33 miles N of Tok, Yukon-Tanana Highlands; 63° 52' N, 142° 55' W; (map 85). Named by Lt. William Mitchell, U.S. Army Signal Corps, in 1902.

Mosquito Fork South Fork Fortymile River: stream, see Mosquito Fork.

Mosquito Fork: stream, heads at 63° 58' N, 143° 47' W, flows NE 86 miles, joins Dennison Fork to form South Fork Fortymile River, Yukon-Tanana Highlands; 64° 03' 20" N, 141° 54' 40" W; (map 102). Variant: Mosquito Fork South Fork Fortymile River. Prospectors' name obtained in 1898 by E. C. Barnard, USGS.

Mosquito Fork: stream, see Kechumstuk Creek.

Mosquito Islands: islands, 0.3 miles long, on NW coast of Kupreanof Island, 1.3 miles W of Kake Alexander Archipelago; 56° 58' 15" N, 133° 58' 15" W, (map 6). Local name recorded in 1951 by USGS.

Mosquito Lake: lake, 0.8 miles long, on Kenai Peninsula SW of Silver Lake, 15 miles ENE of Kenai, Cook Inlet Lowland; 60° 38' N, 150° 49' W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Mosquito Lake: lake, 1 mile long, on SW side of Chilkat River, 4.6 miles NW of Wells and 25 miles W of Skagway, St. Elias Mountains; 59° 28' 00" N, 136° 01' 45" W; (map 45). Variant: Kuhnteah. Local name reported by E. C. Robertson and published in 1952 by USGS. It was called "Kuhnteah" by the Indians. A road was cut to it in the summer of 1951 for recreational purposes.

Mosquito Mountain: mountain, 2,474 ft., W of Iditarod River, 29 miles SE of Holy Cross, Kilbuck-Kuskokwim Mountains; 62° 05' N, 158° 54' W; (map 79). Local name obtained in 1945 by USGS topographers.

Mosquito Pass: pass, in Kigluaik Mountains, between Windy Creek and Cobblestone River, 30 miles N of Nome, Seward Peninsula Highlands; 64° 56' N, 165° 28' W; (map 94). Local name reported in 1912 by R. H. Sargent, USGS.

Mosquito Point: locality, N of Aleknagik, at SE end of Lake Aleknagik, 18 miles N of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 18' N, 158° 37' W; BGN 1937; (map 52). Variant: I-gi-ahk. Former Eskimo village called "I-gi-ahk"; recorded on a 1910 manuscript map by H. C. Fassett, USBF. The local name "Mosquito Point" was reported in 1937 by USGS and published by Mertie (1938, pl. I), USGS. In 1937 this village consisted of 40 white people.

Mosquito River: stream, see Little Tonsina River.

Moss Cape: point of land, 4 miles NE of Belkofski, near SW end of Alaska Peninsula, Aleutian Range; 55° 07' 30" N, 161° 57' 00" W; (map 28). Variant: Mosk Cape. Local name reported in 1880 by W. H. Dall, USC&GS.

Moss Creek: ravine, see Moss Gulch.

Moss Creek: stream, flows E 1.4 miles to Moose Creek, W of Kiska Harbor, Kiska Island, Aleutian Islands; 51° 57' 51" N, 177° 31' 57" E; (map 14). Variant: Rum Brook. An arbitrary name beginning with "M" to correspond to "M" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Moss Creek: stream, heads at a glacier, flows SE 3 miles to Chickaloon River, 38 miles NE of Palmer, Talkeetna Mountains; 61° 59' 15" N, 148° 18' 00" W; (map 69). Named in 1898 by guide John Bagg of Capt. E. F. Glenn's expedition.

Moss Gulch: ravine, trends SW 1 mile to Nome River, 5 miles E of Nome, Seward Peninsula Highlands; 64° 31' N, 165° 13' W; (map 94). Variant: Moss Creek. Prospectors' name reported in 1899 as "Moss Creek" by D.C. Witherspoon (in Schrader and Brooks. 1900, map 2), USGS. Witherspoon appears to have applied the name to Osborn Creek. "Moss Gulch" was shown on a 1901 map of Cape Nome gold fields by David Fox, Jr.

Moss Island: island, 0.8 miles long, in Douglas Bay, on S coast of Kupreanof Island, 27 miles SW of Petersburg, Alexander Archipelago; 56° 27' 30" N, 133° 18' 00" W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for charting purposes; published in 1888 on USC&GS Chart 705.

Moss Point: point of land, on E coast of Umak Island, Aleutian Islands; 51° 53' 40" N, 175° 57' 25" W; BGN 1936; (map 18). Named by a member of the U.S. Navy Aleutian Island Survey Expedition of 1934, and shown on a 1952 USGS map.

Moss Point: point of land, on SE coast of Kenai Peninsula, at entrance to North Arm Nuka Bay, 34 miles SE of Homer, Chugach Mountains; 59° 32' 30" N, 150° 36' 30" W; BGN 1929; (map 50). Descriptive local name reported by USC&GS in 1927. So named "because of a close-by cluster of moss covered rocks."

Moss Point: point of land, on SE coast of Prince of Wales Island, in Port Johnson, Alexander Archipelago; 55° 07' 15" N, 132° 02' 45" W; (map 4). Local name published in 1943 by USC&GS.

Moss Point: point of land, W point of entrance to Tamgas Harbor, on S coast of Annette Island, 22 miles S of Ketchikan, Alexander Archipelago; 55° 01' 15" N, 131° 33' 30" W; (map 3). Name published in 1891 by USC&GS.

Moss: locality, where The Alaska R. R. crosses Moose Creek, 3 miles N of Ferry and 36 miles S of Nenana, Alaska Range; 64° 03' N, 149° 08' W; (map 100). Former railroad station listed on a 1922 timetable.

Moth Bay: estuary, extends N 1.7 miles from Thorne Arm, on S coast of Revillagigedo Island, Alexander Archipelago; 55° 16' N, 131° 20' W; BGN 1917; (map 3). Named in 1917 by USC&GS; derived from Moth Point.

Moth Point: point of land, between Moth Bay and Thorne Arm, on S coast of Revillagigedo Island, Alexander Archipelago; 55° 15' 55" N, 131° 19' 35" W; (map 3). Arbitrary name given in 1891 by USC&GS.

Mother Goose Glacier: glacier, on Kenai Peninsula, heads 1.5 miles W of Snow River Pass, trends W 2.5 miles to its terminus at head of Victor Creek, 18 miles NE of Seward, Chugach Mountains; 60° 21' 00" N, 149° 14' 30" W; (map 63). Local name reported in 1951 by USGS.

Mother Goose Lake: lake, 6.4 miles long, at head of King Salmon River, on Alaska Peninsula, 21 miles S of Ugashik, Aleutian Range; 57° 13' N, 157° 22' W; (map 36). Variant: King Salmon Lake. Named in 1923 by R. H. Sargent, USGS; "suggested by its goose-like shape." According to Sargent, the local name was King Salmon Lake.

Motherwood Point: point of land, on Seward Peninsula, extends into Spafarief Bay, 16 miles E of Deering, Kotzebue-Kobuk Lowland; 66° 04' N, 162° 02' W; (map 113). Local name reported in 1950 by USGS.

Mound Hill: hill, 900 ft., on S coast of Revillagigedo Island, 3.3 miles NW of Point Alava, Alexander Archipelago; 55° 13' 50" N, 131° 14' 05" W; (map 3). Descriptive name given in 1883 by Lt. Comdr. H. E. Nichols, USN.

Mound Point: point of land, N point of entrance to Karta Bay, on E coast of Prince of Wales I Alexander Archipelago; 55° 34' 30" N, 132° 33' 55" W; (map 4). Descriptive name given in 1886 by Lt. Comdr. R. C. Clover, USN.

Moundhill Point: point of land, on E coast of Seguam Island, Aleutian Islands; 52° 20' 00" N, 172° 18' 30" W; (map 19). Descriptive name published by USC&GS in 1944 Aleutian Coast Pilot (p. 85).

Mount Andrew: locality, on Kasaan Peninsula, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 30' N, 132° 20' W; (map 4). Former mining camp operated by the Andrew mining company; reported by Brooks (1902, p. 13), USGS, in 1901.

Mount Edgecumbe: locality, pop. 1,884, on E coast of Japonski Island, 0.5 miles W of Sitka, Alexander Archipelago; 57° 03' N, 135° 21' W; (map 9). Name derived from Mount Edgecumbe. The place, formerly a USN center, is now a hospital and a boarding school for Alaska natives. The vocational school operated by the BIA had an enrollment of 650 in 1962. The hospital consisting of a tuberculosis sanatorium and an orthopedic hospital is operated by the U.S. Public Health Service. A post office was established here in 1947 but was discontinued in 1959 (Ricks, 1965, p. 44).

Mount Fairweather Range: mountain range, see Fairweather Range.

Mount McKinley National Park: national park, 3,030 sq. miles of subarctic wilderness, on N slope of Alaska Range; extends SW 115 miles from Nenana River, E of Mount Healy, to Mount Russell: it includes Mount McKinley, highest peak on North American Continent; 63° 20' N , 150° 20' W; (map 88). Charles Sheldon, 1867-1928, noted hunter-naturalist, visited the Mount McKinley area in 1906, 1907, and 1908 to study Dall sheep and other wildlife. He believed the outstanding wilderness wonders of the area should be protected, and worked

unrelentingly toward that goal. He was the prime figure in Mount McKinley's establishment as a National Park on February 26, 1917.

Mountain Bay: bay, see Uniktali Bay.

Mountain Cape: point of land, see Gori Point.

Mountain Cape: point of land, see Kayak Cape

Mountain Creek: stream, flows E to Frederick Creek which flows to Hungry Creek, about 33 miles NW of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Mountain Creek: stream, flows NE 1 mile to Bonanza River, between Frost and Sunrise Creeks, about 13 miles NW of Solomon, Seward Peninsula Highlands; 64° 46' N, 164° 48' W; (map 95). Prospectors' name reported on the 1900 "Map of Nome Peninsula," by J. M. Davidson and B. D. Blakeslee. This stream cannot be precisely located on current maps.

Mountain Creek: stream, flows NE 7 miles to Black River, 8 miles E of Bear Mountain and 39 miles W of Midnight Hill, Porcupine Plateau; 66° 05' N, 142° 19' W; (map 120). Local descriptive name; reported in 1956 by R. C. Foley, USGS.

Mountain Creek: stream, flows NW 1.4 miles to Stewart River, 20 miles NW of Nome, Seward Peninsula Highlands; 64° 48' N, 165° 29' W, (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS

Mountain Creek: stream, flows NW 7 miles to Fork Creek, 11 miles E of Eek Lake and 71 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 13' 30" N, 160° 01' 00" W; (map 59). Local descriptive name; reported in 1955 by J. M. Hoare, USGS.

Mountain Creek: stream, flows S 9 miles to Chandalar River E of Funchion Creek, 38 miles SE, of Chandalar, Brooks Range; 67° 07' N, 147° 28' W; (map 123). Prospectors' name obtained in 1909 by A. G. Maddren (in Brooks and others, 1910, pl. 7), USGS.

Mountain Creek: stream, flows SE to Flambeau River, about 13 miles E of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Mountain Creek: stream, flows SW 5 miles to s lagoon on Port Clarence, 3 miles SE of Teller Mission and 4 miles N of Teller, Seward Peninsula Highlands; 65° 19' N, 166° 23' W; (map 111). Local name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Mountain Creek: stream, heads in Mary Gulch. flows W 1.5 miles to Gold Creek, 6 miles NW of Nome, Seward Peninsula Highlands; 64° 35' N, 165° 28' W; (map 94). Prospectors' name reported in 1899 by D. C. Witherspoon (in Schrader and Brooks 1900, map 2), USGS.

Mountain Creek: stream, heads in Paimiut Mountains. flows NW and SW 25 miles to Tuckers Slough. 36 miles N of Base Island in Yukon River and 27 miles NE of Russian Mission, Nulato Hills: 62° 00' 25" N, 160° 40' 00" W; (map 78). Variant: Ingram Kwik, Ingrie Kwik, Ingrik Kwik. Name translated from the Eskimo and reported in 1916 by G. L. Harrington and R H. Sargent (Harrington, 1918, pl. 1), USGS

Mountain Creek: stream, on Alaska Peninsula, flows SW 4 miles to Northeast Creek 2 miles above that stream's mouth on Amber Bay, 11 miles NW of Cape Kunmik, Aleutian Range; 56° 50' N, 157° 23' W; (map 31). Local name published in 1951 by USGS.

Mountain Gulch: ravine, see Madison Gulch.

Mountain Head: point of land, in Peril Strait 2 miles N of Fish Bay on Baranof Island, 26 miles NW of Sitka, Alexander Archipelago; 57° 24' 35" N, 135° 35' 15" W; (map 9). Descriptive name given in 1884 by Comdr. J B. Coghlan, USN; published by USC&GS in 1891 Coast Pilot (p. 182).

Mountain Lake: lake, 1.9 miles long, 16 miles NE of Yakutat, St. Elias Mountains; 59° 40' 00" N, 139° 20' 45" W; BGN 1962; (map 46). Variant: Little Situk Lake. Local name reported by USGS in 1959. It is also known locally as Little Situk Lake.

Mountain Men, River of the: stream, see Tanana River

Mountain Peak, Cape: point of land, see Upright, Cape.

Mountain Point: point of land, E point of entrance to Carroll Inlet, on S coast of Revillagigedo Island, Alexander Archipelago; 55° 17' 35" N, 131° 32' 20" W; (map 3). So named in 1883 by Lt. Comdr. H. E. Nichols, USN, "because of the view of the mountains to the northwest of this point."

Mountain Point: point of land, on E coast of Kruzof Island, 10 miles NW of Sitka, Alexander Archipelago; 57° 07' N, 135° 34' W; (map 9). Name published in 1932 by USGS.

Mountain Point: point of land, on E coast of Lindenberg Peninsula, Kupreanof Island, W shore of Wrangell Narrows, 5 miles S of Petersburg, Alexander Archipelago; 56° 44' 15" N, 132° 57' 30" W; (map 6). Variant: Cove Point. Named in 1884 by Comdr. J. B. Coghlan, USN; published in 1883 Coast Pilot (p. 115) as "Cove Point." This point is possibly "Mys Vodopada" meaning "waterfall cape," or "Mys Kritoy," meaning "steep cape": given in 1838 by the Russian surveyor, G. Lindenberg.

Mountain Point: point of land, on S tip of Nagai Island, in Shumagin Islands, Aleutian Range; 54° 52' N, 160° 13' W; (map 26). Variant: Golova, Mountain Cape. Named M[ys] Golova, meaning "chief (head) point," by Capt. Tebenkov (1852, map 24), IRN.

Mountain Point: point of land, on W coast of Knight Island, at W point of entrance to Port Audrey. at head of Drier Bay, 11 miles NE of Chenega Chugach Mountains, 60° 20' 00" N, 147° 21' 15" W; (map 63). Local name published in 1908 by USC&GS.

Mountain Point: suburb, pop. 372, on S coast of Revillagigedo Island at Mountain Point 5 miles SE of Ketchikan, Alexander Archipelago; 55° 17' 45" N, 131° 32' 00" W; (map 3). Local name for this residential district of Ketchikan reported in 1960 by the U.S. Census Bureau.

Mountain Slough: stream, distributary of Eyak River, flows SW 4 miles to Gulf of Alaska, 5 miles S of Cordova. Malaspina Coastal Plain; 60° 28' 30" N, 145° 44' 00" W; (map 64). Local name reported in 1897 by Lt. Comdr. J. F. Moser, USN, commander of the USBF steamer Albatross in 1897-1901.

Mountain View: area, in NE section of Anchorage, Cook Inlet Lowland; 61° 13' 42" N, 149° 48' 25" W; (map 69). Local name reported in 1941 by AMS.

Mountain View: locality, at the junction of Fish and Skookum Creeks, 4.5 miles N of Hyder, Coast Mountains; 55° 59' 10" N. 130° 03' 00" W; (map 3). Settlement referred to as a camp in 1949 by USFS.

Mountain Village: locality, see Ingregamiut.

Mountain Village: village, pop. 300, on N bank of Yukon River, 52 miles SE of Kwiguk, Yukon-Kuskokwim Delta; 62° 05' N, 163° 43' W; (map 77). Variant: Mountain. Eskimo village listed with a population of 136 in 1920; 76 in 1930; 128 in 1939; and 221 in 1950. So called because "it is located at the foot of the first mountain met with going up the Yukon."

Mountain: village, see Mountain Village.

Mountaineers Pass: pass, 8,700 ft., between 2 arms of Nabesna Glacier, 6 miles NE of Mount Blackburn and 26 miles NW of McCarthy, Wrangell Mountains; 61° 46' 45" N, 143° 13' 30" W; BGN 1966; (map 67). Named in 1965 by the Mountaineering Club of Alaska, "because it can be reached only by glacier travel and is likely to be used only by mountaineers."

Mouse Creek: stream, heads in lake and flows ESE 2.5 miles to Alfred Creek, 4 miles upstream from Caribou Creek, 56 miles NE of Palmer, Talkeetna Mountains; 61° 57' 00" N, 147° 33' 30" W; BGN 1960; (map 69). Named in 1956 by USGS for the small rodent.

Mouse Point: locality, see Moose Point.

Mouse Point: point of land, easternmost tip of Mickey Island, in Yukon River, 33 miles NE of Ruby, Nowitna Lowland; 64° 56' N, 154° 29' W; (map 98). Riverboat pilots' name shown on 1940 "Navigation Chart, Tanana-Yukon Rivers" of the River Boat Service, U.S. Dept. of Interior.

Mouse Point: point of land, extends into Kagalurpak Lake, 2 miles N of Blair Inlet and 80 miles W of Bethel, Yukon-Kuskokwim Delta; 60° 54' N, 164° 05' W. (map 58). Name used by personnel of Clarence Rhode National Wildlife Range; reported in 1965.

Mouse, The: peak, see Knob H.

Movie Lake: lake, 0.8 miles long, northern lake of Trinity Lakes, 39 miles NW of Tyonek, Cook Inlet Lowland; 61° 37' 30" N, 151° 27' 00" W; (map 70). Local name reported in 1954 by USGS.

Moving Mountain: mountain, 3,600 ft., 5 miles S of Redstar Mountains and 27 miles NW of Wiseman, Brooks Range; 67° 40' N, 150° 54' W; BGN 1932; (map 124). According to Marshall (1956, p. 12), "there had been large landslides on the sides of this mountain which accounted for our naming it ' Moving Mountain'."

Mox Lake: lake, 0.5 miles long, on Kenai Peninsula, 0.7 miles N of Hidden Lake and 33 miles E of Kenai, Cook Inlet Lowland; 60° 30' 45" N, 150° 18' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Moyler Lake: lake, see Mohler Lake.

Mu-gee-lu Creek: stream, Ikkileruk Creek.

Mucha Lake: lake, 1.7 miles long, 9 miles N of Bearpaw Mountain, 37 miles SE of Bitzstini Mountains, Tanana Lowland; 64° 13' N, 150° 54' W; (map 99). Local name reported in 1952 by USGS.

Muck-a-Charley Mountain: mountain, see Mukacharni Mountain.

Mucker Hill: hill, 890 ft., 1.2 miles W of Kiska Harbor, Kiska Island, Aleutian Islands; 51° 58' 16" N, 177° 30' 30" E; (map 14). An arbitrary name beginning with "M" to correspond to "M" grid used by the U.S. Army for tactical purposes during World War II; published on a 1943 Army map.

Mud Bay River: stream, on N end of Chichagof Island, flowing N 10 miles to Mud Bay on Icy Strait, 19 miles NW of Hoonah, Alexander Archipelago; 58° 10' 30" N, 135° 57' 30" W; BGN 1960; (map 11). Variant: Hyde Bay River. Local name derived from Mud Bay published by USGS in 1948.

Mud Bay: bay, 0.5 miles across, on SE shore of Hetta Inlet, on SW coast of Prince of Wales Island, Alexander Archipelago; 55° 05' N, 132° 38' W; (map 4). Local name recorded in 1951 by USGS.

Mud Bay: bay, 0.8 miles across, on N coast of Chichagof Island on Icy Strait, 1 mile SE of Goose Island and 20 miles NW of Hoonah, Alexander Archipelago; 58° 11' 30" N, 135° 59' 00" W; (map 11). Descriptive name given in 1880 by Master G. C. Hanus, USN, and published by USC&GS in the 1883 Coast Pilot (p. 190).

Mud Bay: bay, SW arms of Port Moller, extends S 3.5 miles inland, near SW end of Alaska Peninsula, Aleutian Range; 55° 49' N, 160° 27' W; (map 28). Named by Atwood (1911, pl. 2), USGS.

Mud Bay: cove, 0.2 miles across, 8.5 miles W of Wrangell, on S coast of Yank Island, Alexander Archipelago; 56° 27' 10" N, 132° 36' 10" W; (map 6). Local name published by USC&GS in 1925 Coast Pilot (p. 205).

Mud Bay: cove, 0.4 miles wide, on W coast of Revillagigedo Island, on E shore of Tongass Narrows, 5 miles NW of Ketchikan, Alexander Archipelago; 55° 25' 15" N, 131° 46' 00" W; (map 3). Local name published in 1932 Coast Pilot (p. 104).

Mud Bay: cove, 0.5 miles across, on E coast of Kruzof Island, 13.5 miles NW of Sitka, Alexander Archipelago; 57° 10' 45" N, 135° 36' 30" W; (map 9). Descriptive name published in 1900 by USC&GS.

Mud Bay: cove, see Flat Bay.

Mud Bay: estuary, 0.5 miles wide, on N shore of Orca Inlet, on Hawkins Island, 3 miles W of Cordova, Chugach Mountains; 60° 33' 30" N, 145° 50' 00" W; BGN 1961; (map 64). Variant: Hyde Bay. Local descriptive name reported in 1960 by USFS.

Mud Bay: estuary, trends NE 6 miles past extensive mud flats, to Chignik Bay, 6 miles NW of Chignik, on S shore of Alaska Peninsula, Aleutian Range; 59° 19' N, 158° 25' W; (map 30). Variant: Doris Bay. Local name reported in 1899 by Lt. Comdr. J. F. Moser, USN, Commander of the USBF steamer Albatross.

Mud Bay: lagoon, 0.5 miles wide, at NW end of Homer Spit, on N shore of Kachemak Bay, on Kenai Peninsula, 0.5 miles E of Homer, Cook Inlet Lowland; 59° 38' 15" N, 151° 29' 30" W; (map 50). Local name reported by USGS or USC&GS in the 1940's.

Mud Bay: lagoon, see Guyot Bay.

Mud Bay: suburb, pop. 35, on W coast of Revillagigedo Island, 5.5 miles NW of Ketchikan, Alexander Archipelago; 55° 25' 15" N, 131° 46' 00" W; (map 3). Variant: Totem Lodge, Totem Village. This is a residential suburb of Ward Cove, recorded in 1954 by USGS.

Mud Canyon: canyon, trends N 4.6 miles, 4.5 miles SW of Abraham Lake and 21 miles SE of Beaver, Yukon-Tanana Highlands; 66° 09' 00" N, 146° 47' 30" W; (map 119). Local descriptive name obtained in 1956 by USGS.

Mud Creek Channel Kiwalik River: stream, a tributary of Kiwalik River, flows NW 3 miles to Kiwalik Lagoon, 57 miles NW of Haycock, Seward Peninsula Highlands; 65° 59' N, 161° 54' W; (map 109). Local name published on maps after 1950.

Mud Creek Ditch: ditch, flows NE, then SE 4.4 miles to Kiwalik River, 54 miles NW of Haycock, Seward Peninsula Highlands; 65° 56' N, 161° 55' W; (map 109). Local name published on maps after 1950.

Mud Creek: stream, flows NE 1 mile to Snake River along Norton Sound coast, 5 miles W of Nome, Seward Peninsula Highlands; 64° 36' N, 165° 34' W; (map 94). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Mud Creek: stream, flows NE, then SE 5.2 miles to Mud Creek Channel Kiwalik River, 57 miles NW of Haycock, Seward Peninsula Highlands; 65° 58' N, 161° 54' W; (map 109). Local name reported in 1908 by USGS (Brooks and others, 1909, fig. 21).

Mud Creek: stream, flows NW 1.2 miles to Ruby Creek which flows to Casadepaga River, 17 miles NE of Solomon, Seward Peninsula Highlands; 64° 48' N, 164° 17' W; (map 95). Variant: Iowa Creek. Prospectors' name reported in 1905 by T. G. Gerdine, USGS. The variant name "Iowa" was reported in 1907 by USGS geologists (P. S. Smith, 1910, pl. 4).

Mud Creek: stream, flows S 0.5 miles to Red Bay, on N coast of Prince of Wales Island, 12 miles E of Point Baker, Alexander Archipelago; 56° 18' 55" N, 133° 20' 40" W; (map 6). Named in 1886 by Lt. J. M. Helm, USN, for charting purposes; name published in 1887 on USC&GS Chart 706.

Mud Creek: stream, flows SE 0.5 miles to Mystery Creek 2 miles upstream from its junction with Niukluk River, 34 miles NE of Solomon, Seward Peninsula Highlands; 64° 52' N, 163° 31' W; (map 95). Prospectors' name reported in 1903 by USGS (Collier and others, 1908, p. 240).

Mud Creek: stream, flows SW 10 miles to Koyukuk River, 10 miles ESE of Ninemile Hills and 43 miles SW of Wiseman, Brooks Range; 67° 00' 30" N, 151° 19' 30" W; BGN 1932; (map 124). Local name reported by Robert Marshall in 1932.

Mud Creek: watercourse, anabranch of Kuskokwim River, heads at Lower Kalskag and flows W 9 miles, 30 miles W of Aniak, Yukon-Kuskokwim Delta; 61° 30' N, 160° 27' W; (map 73). Local name shown on a 1919 field sheet by R. H. Sargent, USGS.

Mud Fork: stream, flows NE 18 miles to Troublesome Creek, 24 miles NW of Livengood, Yukon-Tanana Highlands; 65° 35' N, 149° 20' W; (map 105). Named by prospectors; reported in 1908 by USGS (Covert and Ellsworth, 1909, pl. 5).

Mud Fork: stream, heads on Dall Mountain, flows NE 32 miles to Hodzana River, 49 miles NW of Beaver, Kokrines-Hodzana Highlands; 66° 42' N, 148° 58' W; (map 118). Local name reported in 1909 by Maddren (1910, pl. 7), USGS.

Mud Lake: lake, 0.7 miles long, 14 miles NE of Chalkyitsik, Yukon Flats; 66° 50' N, 143° 32' W; (map 120). Local descriptive name; reported in 1956 by R. C. Foley, USGS.

Mud Lake: lake, 1 mile long, on Kenai Peninsula, 26 miles S of Sunrise, Chugach Mountains; 60° 31' 50" N, 149° 32' 30" W; (map 63). Local name reported in 1952 by USGS.

Mud Lake: lake, 1.3 miles across, 1 mile W of Little Lake Louise and 4 miles NW of Glennallen, Copper River Basin; 62° 19' N, 146° 43' W; (map 83). Local name reported in 1959 by USGS.

Mud Lake: lake, 1.3 miles long, 1 mile NE of Khaali Lake and 0.9 miles S of Arctic Village, Brooks Range; 68° 06' 30" N, 145° 32' 00" W; (map 136). Local descriptive name obtained in 1956 by USGS.

Mud Lake: lake, 1.4 miles long, N of Glenn Highway, 12 miles W of Glennallen, Copper River Basin; 62° 08' N, 145° 56' W; (map 83). Local name reported in 1951 by USGS.

Mud Lake: lake, see Flat Horn Lake

Mud Lake: lake, see Mirror Lake.

Mud Lakes: lakes, at head of Ed Berg Slough 7 miles SE of Beaver, Yukon Flats; 66° 19' N, 147° 00' W; (map 118). Local descriptive name obtained in 1956 by USGS.

Mud River: stream, heads in Tlatl Hills at 64° 04' N, 156° 55' W, flows SW 100 miles to Innoko River, 52 miles NW of Ophir and 74 miles S of Nulato, Innoko Lowland; 63° 40' N, 157° 42' W; BGN 1965; (map 90). Variant: Kluklaklatna River. Local name published by USGS in 1965: The Indian name "Kluklaklatna" was reported in 1908 by A. G. Maddren, USGS. See Little Mud River.

Mudbank, The: bank, on Hodzana River, 35 miles NW of Beaver, Kokrines-Hodzana Highlands; 66° 41' N, 148° 21' W; (map 118). Local descriptive name obtained in 1956 by USGS.

Muddy Creek: stream, distributary of Ustay River, flows SE 3 miles to Dry Bay, at mouth of Clear Creek, 47 miles SE of Yakutat, Malaspina Coastal Plain; 59° 09' 45" N, 138° 37' 45" W; BGN 1962; (map 46). Variant: Kakangina, Kakanhini Creek, Kakan River, Ko-kon-hee-ni, Stickleback Creek. Local descriptive name reported in 1927 by USGS. Capt. Tebenov (1852, map 7), IRN, shows five outlets of the Alsek River and one he recorded as "Kakangina [Kakanhini]," meaning "stickleback river." Lt. Comdr. J. F. Moser, USN, found the Alsek to have only three main outlets. Just west of these is The "Ko-kon-hee-ni" an outlet of the Ustay River. It is this latter application that is now called "Muddy Creek."

Muddy Creek: stream, flows NE 5 miles to Skwentna River, 8 miles NE of Mount Estelle and 76 miles NW of Tyonek, Alaska Range; 61° 54' N, 152° 41' W; (map 70). Local descriptive name reported by S. R Capps (in Smith and others, 1929, pl. 1), USGS.

Muddy Creek: stream, heads on Anthracite Ridge, flows S 4.2 miles to Matanuska River, 38 miles NE of Palmer, Talkeetna Mountains; 61° 47' 00" N, 148° 00' 35" W; (map 69). Descriptive name reported in 1913 by USGS.

Muddy Lake: lake, 0.7 miles long, in Kenai Mountains, on Kenai Peninsula, in distributary of Skilak River, 0.8 miles E of Skilak Lake and 42 miles ESE of Kenai, Chugach Mountains; 60° 24' N, 150° 06' W; (map 62). Local name reported in 1959 by USGS.

Muddy Lake: lake, 1 mile long, W of Jefferson Creek and 19 miles S of Beaver, Yukon Flats; 66° 05' 35" N, 147° 09' 20" W; (map 118). Local descriptive name obtained in 1956 by USGS.

Muddy River: stream, flows E 25 miles from Lake Minchumina to Birch Creek, 2 miles SW of Chilchukabena Lake, Tanana Lowland; 63° 53' 10" N, 151° 35' 50" W; (map 88). Local descriptive name reported in 1925 by USGS. Once considered to be the head of the Kantishna River.

Muddy River: stream, flows NW 18 miles to Frederick Sound, 8 miles NE of Petersburg, Coast Mountains; 56° 54' 10" N, 132° 49' 05" W; BGN 1923; (map 6). Descriptive name given in 1923 by USFS.

Muddy River: stream, in Mount McKinley National Park, flows N 14 miles from Peters Glacier terminus to McKinley River, 6 miles WSW of Wonder Lake, Tanana Lowland; 63° 25' 30" N, 151° 02' 30" W; BGN 1947 (map 88). Variant: Nichutalino, The Great Muddy. Descriptive name reported in 1913 by Belmore Browne as "The Great Muddy." The present form of the name was given in 1925 by S. R. Capps, USGS; the Indian name is "Nichutalino."

Mudflow Creek: stream, heads on Anthracite Ridge, flows SW 3 miles to Purinton Creek, 36 miles NE of Palmer, Talkeetna Mountains; 61° 49' 10" N, 148° 07' 30" W; BGN 1932; (map 69). So named by a 1932 USGS field party because of "large mudflow in middle course of stream."

Mudslide Creek: stream, 0.7 miles long, in Glacier Bay National Monument, flows NW to Lituya Bay 1 mile SW of Crillon Inlet and 84 miles NW of Hoonah, St. Elias Mountains; 58° 30' 55" N, 137° 39' 00" W; BGN 1959; (map 10). Local name reported by Mertie (1930, fig. 4), USGS.

Mudslide Creek: stream, see Fall Creek.

Mudyutok River: stream, distributary of Fish River, flows SE 8 miles to Golovnin Lagoon, 37 miles NE of Solomon, Seward Peninsula Highlands; 64° 36' N, 163° 14' W; (map 95). Local name reported about 1940 by USC&GS and published on Chart 9382.

Mueller Cove: cove, 0.4 miles across, in SE part of Nikolski Bay, on SW coast of Umnak Island, Aleutian Islands; 52° 56' 35" N, 168° 52' 00" W; BGN 1940; (map 21). Variant: Inner Nikolski Anchorage. Named in 1938 by USC&GS for Karl Mueller, USC&GS, a coxswain on a survey party who was killed on May 28, 1938, when his boat struck a reef at the entrance to the cove. See Rudisell Reef.

Mueller Cove: estuary, extends SE 1.5 miles to W side of Unakwik Inlet, 38 miles NE of Whittier, Chugach Mountains; 60° 53' 15" N, 147° 35' 30" W; (map 63). Local name reported in 1951 by USGS.

Mueller Mountain: hill, 945 ft., 50 miles E of Nulato, Kokrines-Hodzana Highlands; 64° 44' N, 156° 25' W; (map 97). Local name reported in 1954 by USGS.

Muerta Island: island, 1,100 ft. across, in Port Real Marina, on NE coast of Baker, Island, Alexander Archipelago; 55° 25' 10" N, 133° 29' 15" W; (map 4). Variant: Isla del Muerto, Ysla del Muerta. Name "Isle del Muerto," meaning "island of the dead," was probably given to this island in 1779 by Francisco Antonio Maurelle. "[Juan] Pantoja in his account of the 1779 exploration of the bay [Bucareli] describes finding a dead male Indian on an island in the Puerto Real Marina * * *" (Wagner, 1937, p. 398).

Muerto, Isla del: island, see Muerta Island.

Muffin Islands: islands, extend 1.2 miles in SW Ernest Sound, 0.4 miles E of Eagle Island, Alexander Archipelago; 55° 52' 30" N, 132° 17' 30" W; (map 4). Named in 1886 by Lt. Comdr. Snow, USN.

Muganolowik: stream, see Melatolik Creek.

Mugilak Creek: stream, see Ikikileruk Creek.

Mugisitokiwik: locality, on bar between Lopp Lagoon and Chukchi Sea, 12 miles NE of Cape Prince of Wales, at W end of Seward Peninsula, 54 miles NW of Teller, Kotzebue-Kobuk Lowland; 65° 44' N, 167° 52' W; (map 111). Site of an Eskimo village or camp reported about 1940 by USC&GS and published on Chart 9380.

Mugum Peak: hill, 370 ft., 4 miles E of Taphook Mountain and 23 miles SE of Gambell, St. Lawrence Island; 63° 34' 30" N, 171° 09' 00" W; BGN 1951; (map 93). Variant: Mount Niivouk, Mount Nyghook No. 1, Mugum-Nyagha, Nairak, Naiwak. Eskimo name reported in 1944 by Lawrence Kulukhan, of Gambell. Orth, recorded local usage in 1965 as "Naiwak" or "Nairak," meaning "high mound" or "mount."

Mugum-Nyagha: hill, see Mugum Peak.

Muir Glacier: glacier, in Glacier Bay National Monument, heads about 9 miles S of Mount Harris, trends SE 12 miles to Muir Inlet, 6 miles NW of Westdahl Point and 77 miles NW of Hoonah, St. Elias Mountains; 69° 00' N, 136° 10' W; (map 10). Named about 1880 for John Muir, 1834-1918, the American naturalist who discovered this glacier on his 1879 trip to Alaska. See Muir Inlet.

Muir Inlet: estuary, in Glacier Bay National Monument, heads in Muir Glacier, extends S 21 miles to Glacier Bay, 51 miles NW of Hoonah, St. Elias Mountains; 58° 45' N, 136° 05' W; (map 10). Named in 1883 by USC&GS for John Muir, 1834-1918, an American naturalist who visited this area in 1890. Born in Scotland, he came to the United States in 1849 and settled in California in 1868. He was a conservationist and crusader for national parks and made extended trips throughout the United States and Alaska.

Muir Island: island, see Sealers Island.

Muir Point: point of land, at mouth of Adams Inlet, on Muir Inlet, in Glacier Bay National Monument, 2 miles SSW of Point George, 55 miles NW of Hoonah, St. Elias Mountains; 58° 49' 40" N, 136° 04' 35" W; BGN 1948; (map 10). Variant: Cabin Point, Camp Muir, White Mans Point. Camp Muir was named in 1890 by Reid (1892, p. 21). "On July 1st the George W. Elder cast anchor in Muir Inlet, not far from the glacier, and landed our instruments, tents, personal baggage, and provisions on the eastern shore. We found Professor Muir and Mr. Loomis encamped there * * *. This was our base-camp, and, in honor of Professor Muir we named it Camp Muir." The point of land was named for the camp. It was known by the Huna Indians as "White Mans Point," probably because of the tourists who landed there.

Muir, Mount: mountain, 7,605 ft., NW of Harriman Fiord, 8 miles NW of Point Doran and 50 miles E of Anchorage, Chugach Mountains; 61° 06' 30" N, 148° 22' 45" W; BGN 1910; (map

69). Name reported in 1908 by Grant and Higgins (1910, pl. 2), USGS. Probably named for John Muir, 1838-1914, American naturalist and writer who traveled in Alaska. See Muir Inlet.

Muisofski Island: island, see Saint Lazaria Islands.

Mukacharni Mountain: mountain, 1,426 ft., 1 mile W of Eva Mountain and 8 miles NE of Teller, Seward Peninsula Highlands; 65° 21' N, 166° 11' W; (map 111). Variant: Muck-a-Charley Mountain. Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson. This appears to be the feature reported in 1896 as "Muck-a-Charley Mountain" (Jackson, 1896, p. 45).

Mukachiak Creek: stream, flows N 4 miles to Noatak River, 2 miles E of its junction with Kalluktarik River, 59 miles NE of Noatak, Brooks Range; 67° 55' N, 160° 56' W; (map 127). Eskimo name meaning "baby diaper," obtained in 1956 at Noatak by Orth.

Mukh-lung River: stream, see Muklung River.

Mukhak: locality, near mouth of Kun River, Yukon-Kuskokwim Delta; 61° 51' N, 165° 37' W, (map 75). Reported in 1949 by USC&GS to be the name of a fish camp, but its location is unverified.

Mukialik: locality, on left bank of Yukon River, 49 miles SE of Kwiguk, Yukon Kuskokwim Delta; 62° 06' N, 163° 55' W; (map 77). Variant: Mogtalik. Eskimo camp name obtained in 1899 by G. R. Putnam, USC&GS. Published in 1901 on Chart 9370.

Mukluk Creek: stream, flows N 4 miles to Schlitz Creek which flows to Serpentine River, 11 miles NW of Midnight Mountain and 53 miles NW of Imuluk Lake, Seward Peninsula Highlands; 65° 52' N, 164° 54' W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Mukluk Creek: stream, flows S 12.4 miles through Nulato to Mukluk Slough, Nulato Hills; 64° 43' N, 158° 06' W; (map 97). Local name reported in 1954 by USGS.

Mukluk Slough: channel, on Yukon River, flows SW 3.2 miles around Nulato Island, Nulato Hills; 64° 42' N, 158° 08' W; (map 97). Local name reported in 1954 by USGS.

Mukluktulik River: stream, flows NE 12 miles to Koyuk Inlet, 31 miles NW of Christmas Island, Seward Peninsula Highlands; 64° 55' N, 161° 12' W; BGN 1910; (map 96). Variant: Mukluktuluk River. Eskimo name reported in 1900 by J. J. Gilbert, USC&GS.

Mukluktuluk River: stream, see Mukluktulik River.

Muklung Hills: mountains, 2,526 ft., trend SE 14 miles, 10 miles E of Marsh Mountain and 22 miles NE of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 20' N, 158° 20' W; BGN 1937; (map 52). Local name published by USGS in 1934; named for the Muklung River.

Muklung River: stream, flows S 24 miles to Wood River, 9 miles N of Dillingham, Bristol Bay Lowland; 59° 10' N, 158° 32' W; BGN 1931; (map 52). Variant: Mukhlung River. Eskimo name written in 1910 as "Mukhlung" by H. C. Fassett, USBF.

Muknuk River: stream, heads in Kookooligit Mountains, flows W 5 miles to Bering Sea, 12 miles SW of Savoonga, St. Lawrence Island; 63° 36' N, 170° 48' W; BGN 1951; (map 93). Variant: Maknak Creek. Eskimo descriptive name reported in 1965 by Orth as "Maknak," meaning "a drainage." The spelling recommended by the Savoonga village council in 1949, was "Muknuk."

Mukpik, Lake: stream, see Makpik, Lake.

Mukslulik Creek: stream, flows SE 20 miles to Holitna River 4 miles N of its junction with Chukowan River, 59 miles SW of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 54' N, 157° 47' W; BGN 1948; (map 60). Eskimo name reported in 1945 by USGS to mean "dirty water."

Mukugnuk: locality, "on Agattu Island in Near Islands," Aleutian Islands. Former Aleut village reported as "uninhabited" by Hodge (1907, p. 955), BAE.

Mukuksok Channel: stream, heads at Nazurak Channel, Kobuk River, flows SE 7 miles to Selawik Lake, 33 miles NW of Selawik, Kotzebue-Kobuk Lowland; 66° 35' N, 161° 12' W; (map 114). Eskimo name obtained by U.S. Army Corps of Engineers in 1955.

Mukuksok Point: point of land, extends into Selawik Lake, 33 miles W of Selawik, Kotzebue-Kobuk Lowland; 66° 35' N, 161° 13' W; (map 114). Eskimo name obtained by U.S. Army Corps of Engineers in 1955.

Mulchatna River: stream, heads at Turquoise Lake, flows SW 160 miles to Nushagak River, 65 miles NE of Dillingham, Bristol Bay Lowland; 59° 40' N, 157° 07' W; (map 52). Variant: Little Mulchatna River, Malchatna, Molchatna, Pahls-chat-nok. Native name reported as "Molchatna" by Ivan Petroff in the 1880 U.S. census; shown as "Pahls-chat-nok" by H. C. Fassett, USBF, on a 1910 manuscript map. "Mulchatna" reportedly conforms to the local pronunciation.

Mulchatna: locality, "near Nushagak River," Bristol Bay Lowland; Variant: Malachatna, Molchatna. Former Eskimo camp or settlement listed as "Molchatna" with a population of 180 by Ivan Petroff in the 1880 Census.

Muldrow Glacier: glacier, in Mount McKinley National Park, trends NE 30 miles from foot of Harper Icefall to its 1952 terminus at head of McKinley River, Alaska Range; 63° 24' N, 150° 33' W; BGN 1947; (map 88). Variant: McKinley Glacier. Named in 1902 by A. H. Brooks, USGS, for Robert Muldrow, 1864-1946, USGS topographer, who with George Homans Eldridge made a reconnaissance in the Susitna River basin in 1898.

Mule Creek: stream, flows NW 13 miles to Preacher Creek, 32 miles NW of Circle, Yukon-Tanana Highlands; 65 55 N, 145 20 W; (map 69). Prospectors' name reported in 1952 by USGS topographers.

Mule Creek: stream, flows S 3 miles to Bettles River, 3.8 miles SW of junction of Phoebe and Robert Creeks and 23 miles WNW of Chandalar, Brooks Range; 67° 34' 45" N, 149° 21' 00", W (map 123). Variant: Male Creek. Name reported in 1931 by Marshall (USGS 1934, pl. 6).

Mule Creek: stream, heads in a lake, flows SE 3 miles to Knik Arm, 7.5 miles N of Anchorage, Cook Inlet Lowland; 61° 19' 30" N, 149° 55' 00" W; (map 69). Local name reported in 1942 by AMS.

Mule Creek: stream, see Big Spruce Creek.

Mule Rock: rock, in Tamgas Harbor, on S coast of Annette Island, Alexander Archipelago; 55° 01' 20" N, 131° 30' 40" W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Mulgrave Hills: mountains, 1,800 ft., extend N 37 miles between Noatak and Wulik Rivers, Arctic Slope; 67° 42' N, 163° 24' W; BGN 1962; (map 128). Variant: Cape Mulgrave, Mulgrave Range, Mulgrove Hills, Point Mulgrave. Named on July 31, 1826, by Capt. F. W. Beechey, RN; derived from name given on August 14, 1778, by Capt. James Cook, RN. who wrote (1785, p. 453) "The coast here forms a point, named Point Mulgrave * * *. Beechey (1831, p. 262) observed "a low range of hills terminating about four miles from the sea, which must be the Cape [sic] Mulgrave of Capt. Cook, who navigated this part of the coast at too great a distance to see the land in front of the hills which * * * after passing the Mulgrave Range, forms an extensive plain * * *." Beechey's chart shows Mulgrave Hills. Rev. Stuck (1920, p 89) says that they were named for Lord Mulgrave who was "the Captain Constantine Phipps who made a noted voyage to the North Pole in 1772 and reached a latitude of 80° 48' off the coast of Spitzbergen * * *."

Mulgrave Island: island, "at N point of Montague Island, where none exists." Name given by Capt. Nathaniel Portlock on May 1, 1787. See Wagner (1937, P 474).

Mulgrave Range: mountains, see Mulgrave Hills.

Mulgrave, Cape: mountains, see Mulgrave Hills

Mulgrave, Point: mountains, see Mulgrave Hills.

Mulgrave, Port: cove, 0.9 miles long, on S end of Khantaak Island, N of Graveyard Cove, 1.8 miles NW of Yakutat, Malaspina Coastal Plain; 59° 33' 45" N, 139° 46' 40" W; (map 46). Variant: Foggy Harbor, Rurik Harbor. Named in 1787 by Capt. George Dixon, RN (Vancouver, 1798, v. 3, p. 170) for Constantine John Phipps, the Baron Mulgrave, an English Arctic explorer. The cove, the harbor, and adjacent waters were called "Rurik Harbor" by Capt. C. V. Kromchenko in 1823 (U.S. Coast and Geodetic Survey, 1883, p 208) presumably for the brig of the Russian American Company by this name. Capt. James Colnett, RN, called it "Foggy Harbor in 1788 (de Laguna and others, 1964, p. 20). See Phipps Peninsula.

Mulgrove Hills: mountains, see Mulgrave Hills.

Mulik Hills: hills, 800 ft., in Igichuk Hills, extend N 5 miles from junction of Noatak River and Hugo Creek, 18 miles NE of Kotzebue, Brooks Range; 67° 10' N, 162° 19' W; (map 128). Variant: Erecheck Mountain, Igachorok Mountain, Igachoruk Mountain, Twin Mountain. Eskimo name obtained by U.S. Army Corps of Engineers in 1954.

Mull Lake: lake, 1.7 miles long, on Kenai Peninsula, one of the Bedlam Lakes, at head of Bedlam Creek, 8 miles S of Point Possession and 25 miles SW of Anchorage, Cook Inlet Lowland; 60° 55' N, 150° 20' W; (map 62). Local name reported in 1961 by USGS.

Mullen Slough: stream, anabranch, flows SW 2 miles to Chena River, 20 miles E of Fairbanks, Tanana Lowland; 64° 49' 50" N, 147° 02' 30" W; (map 100). Local name reported in 1950 by USGS topographers.

Muller Creek: stream, flows NW 4.3 miles to St. Joe Creek, 4.5 miles SE of Blackburn Island in Yukon River, 58 miles SE of Unalakleet, Innoko Lowland; 63° 19' 30" N, 159° 21' 00" W; (map 91). Local name reported in 1949 by USC&GS.

Mulligan Creek: stream, flows SW 4.2 miles to Eldorado River, 16 miles NW of Solomon, Seward Peninsula Highlands; 64° 41' N, 164° 54' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Mumayluk Creek: stream, see Mamelak Creek.

Mumayluk Mountain: hill, see Mamelak Mountain.

Mumik Lake: lake, 3 miles long, 3 miles E of Tunusiktok Lake, 25 miles SE of Point Lay, Arctic Plain; 69° 35' N, 162° 03' W; (map 145). Variant: Mumiq. Eskimo name "Mumiq", meaning "drumstick" obtained at Point Lay in 1956 by Orth.

Mumiq Lake: lake, see Mumik Lake.

Mummy Bay: estuary, trends SW 3.5 miles to Knight Island Passage, at S end of Knight Island, 10 miles SE of Chenega, Chugach Mountains; 60° 12' 30" N, 147° 51' 15" W; (map 63). Local name reported in 1905 by U.S. Grant, USGS.

Mummy Island: island, 1 mile long, at S entrance to Orca Inlet, 10 miles SW of Cordova, Chugach Mountains; 60° 28' N, 146° 00' W; (map 64). Local name reported by H. P. Ritter USC&GS, in 1899.

Mummy Island: island, in Knight Island Passage, extends NS 1.5 miles, off W coast of Knight Island, 5.5 miles E of Chenega, Chugach Mountains; 60° 17' 00" N, 147° 54' 30" W; (map 63). Local name published in 1908 by USC&GS.

Mumsuk: locality, see Akumsuk

Mumtrahahamut: locality, see Mumtrak.

Mumtrahamiut: locality, see Mumtrak.

Mumtrahamut: locality, see Mumtrak.

Mumtrahamute: locality, see Mumtrak.

Mumtrak Creek: stream, see South Fork Goodnews River.

Mumtrak Hill: hill, 773 ft., 1.5 miles NE of Goodnews, 3 miles SE of Kiglapak Mountains, Kilbuck-Kuskokwim Mountains; 59° 08' 30" N, 161° 32' 30" W; (map 53). Variant: Boots Mountain, Kamguvluagvik. Named in 1914 by USC&GS for the Eskimo village of Mumtrak at its base. The name was published in 1915 on Chart 9103. The Eskimo name of the hill, "Kamguvluagvik," was obtained at Goodnews about 1951, by J. M. Hoare, USGS.

Mumtrak: locality, on Goodnews Bay at mouth of Goodnews River, 0.2 miles SE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 07' N, 161° 35' W; (map 53). Variant: Mumtrahahamut, Mumtrahamiut, Mumtrahamut, Mumtrahamute, Mumtrakmut. This Eskimo village was first mentioned by Ivan Petroff in the 10th Census in 1880 as "Mumtrahamute" or "Mumtrah people." Its population in 1880 was 162; it was the same in 1890. It was abandoned about 1930 after the people moved to Goodnews.

Mumtrak: village, see Goodnews.

Mumtrakmut: locality, see Mumtrak.

Mumtreckhlagamute: town, see Bethel.

Mumtreckhlagamute: town, see Bethel.

Mumtreckhlogamute: town, see Bethel.

Mumtrelega: town, see Bethel.

Mumtrelegamut: town, see Bethel.

Mun-sat-lee Ridge: ridge, see Munsatli Ridge.

Muncaster Creek: stream, flows 2.5 miles S to a point 0.2 miles N of Klehini River, 4.5 miles W of Wells and 26 miles W of Skagway; St. Elias Mountains; 59° 25' 20" N, 136° 03' 20" W; (map 45). Local name obtained by USGS field personnel and published on Federal maps since 1950.

Munday Creek: stream, heads in glacier 1.4 miles S of Munday Peak, flows 3.5 miles to Gulf of Alaska, 3.8 miles SE of Umbrella Reef and 84 miles WNW of Yakutat, St. Elias Mountains; 60° 00' 50" N, 141° 56' 20" W; (map 65). Name derived from Munday Peak, published in 1951 by USGS.

Munday Peak: peak, 4,800 ft., in Robinson Mountains, 4.7 miles NE of Umbrella Reef on Gulf of Alaska and 86 miles NW of Yakutat, Chugach Mountains; 60° 04' 30" N, 141° 57' 10" W; (map 65). Named by J. L. McPherson, Deputy U.S. Mineral Surveyor, for Charles F. Munday, one of the first to locate petroleum lands in the Yakataga region about 1897. The name was reported in 1903 by G. C. Martin, USGS.

Mundcho Lake: lake, 0.8 miles long, 3.5 miles SE of Tetlin, SW of Titus Paul Hill, 21 miles W of Northway Junction, Alaska Range; 63° 06' N, 142° 26' W; (map 85). Indian name reported by USGS in 1964.

Mundthag Lake: lake, 1.4 miles long, at N end of Black Hills, 12 miles S of Northway, Alaska Range; 62° 47' N, 141° 58' W; BGN 1962; (map 84). Variant: Long Lake. Indian name reported by USGS in 1955.

Munina: village, see Ninilchik.

Munook Creek: stream, see Minook Creek.

Munoz Goosens, Cabo de: point of land, see Muzon, Cape.

Munoz Gorens, Cabo de: point of land, see Muzon, Cape.

Munoz, Cabe de: point of land, see Muzon, Cape.

Munoz, Point: point of land, on SW coast of Khantaak Island, 2.2 miles NE of Point Carrew and 3.5 miles NW of Yakutat, Malaspina Coastal Plain: 59° 35' 10" N, 139° 48' 10" W; (map 46). Variant: Mys JW, Southwest Point. Named in 1791 by Capt. Alessandro Malaspina, probably for a Spanish naval officer named Munoz Goosens (Wagner, 1937, p. 399). Capt. Tebenkov (1852, map 7), IRN, called the point "Mys JW," which was interpreted by Baker (1906, p. 449) to mean "Southwest Point."

Munro Glacier: glacier, see Boundary Glacier.

Munroke River: stream, see Monrak River.

Munroke: locality, see Monrak.

Munsatli Ridge: ridge, elev. 1,900 ft., extends NE 18 miles from the Telida Mountains, between Fish Creek and North Fork Kuskokwim River, Tanana Lowland; 63° 45' N, 153° 00' W; (map 89). Variant: Mun-sat-lee Ridge. Tanana Indian name obtained in 1899 by Lt. J. S. Herron, USA, who wrote it "Mun-sat-lee."

Munson Creek: stream, flows NE 8 miles, joins Lawson Creek to form Clums Fork Birch Creek, 64 miles SW of Circle, Yukon-Tanana Highlands; 65° 07' 10" N, 145° 30' 00" W; (map 104). Named by prospectors; reported in 1911 by USGS (Prindle, 1913, pl. 1).

Munson Creek: stream, flows NW 17 miles to East Fork Chena River, 56 miles N of Big Delta, Yukon-Tanana Highlands; 64° 57' N, 146° 04' W; (map 101). Named by prospectors; reported in 1909 by T. W. Bagley (in Capps, 1912, pl. 1), USGS.

Munson Island: island, 3.4 miles long, in offshore islands of Yukon Delta, between Kwemeluk and Kwikluak Passes, 17 miles SW of Kwiguk, Yukon-Kuskokwim Delta; 62° 33' N, 165° 55' W; (map 77). Local name obtained in 1948 by USC&GS.

Munsons: settlement, see Aurora Lodge.

Munther Creek: stream, flows SE 3.2 miles to join Little East Fork to form Little East Fork George River, 5 miles W of Granite Mountain, 38 miles SE of Flat, Kilbuck-Kuskokwim

Mountains; 62° 18' 20" N, 156° 53' 00" W; (map 79). Prospectors' name obtained in 1952 by USGS topographers.

Munto: village, see Minto.

Mupsorut Hill: hill, see Mapsorak Hill.

Mupsorut Hill: hill, see Mapsorak Mountain.

Mupsorut Lagoon: lagoon, see Mapsorak Lagoon.

Muravief Peak: mountain, see Muravief, Mount.

Muravief, Mount: mountain, 3,330 ft., 19 miles N of village of Port Alexander, on S central Baranof Island, Alexander Archipelago; 56° 31' 15" N, 134° 45' 20" W; BGN 1933; (map 5). Variant: Muravief Peak. Named in 1933 by USGS for Matrei Ivanovich Muraviev, Fourth Russian Governor of Alaska, 1820-1825.

Murchison, Mount: mountain, 6,263 ft., on S edge of Sheridan Glacier, 35 miles NW of Katalla, Chugach Mountains; 60° 37' N, 145° 07' W; (map 64). Local name published in 1951 by USGS.

Murder Cove: bay, 0.7 miles across, on S tip of Admiralty Island, 11 miles SE of Baranof, Alexander Archipelago; 57° 01' 30" N, 134° 28' 30" W; (map 9). Named presumably by Comdr. R. W. Meade, USN, in 1869 because "traders occasionally anchor here and one small party, while asleep on the beach, were murdered by natives, their boat rifled and bodies left to be destroyed by wild animals." (U.S. Coast and Geodetic Survey, 1883, p. 131).

Murder Point: point of land, at W entrance to Massacre Bay, on SE coast of Attu Island, Aleutian Islands; 52° 47' 40" N, 173° 10' 45" E; (map 13). Variant: Akachaga Head, Krasni Point, Krasnoi Point, Little Mike Point. Name published in 1943 by AMS and shown as "Murder (Little Mike) Point" in the 1944 Aleutian Coast Pilot (p. 133); originally named by the Russians "Krasnoy Mys" meaning "red cape" (Sarichev, 1826, map 13). See Krasni Point.

Murdo Island: island, in Port Chester, on W coast of Annette Island, Alexander Archipelago; 55° 09' N, 131° 35' W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Murie Islets: islands, 1 mile long, NW of Simeonof Island, in Shumagin Islands, Aleutian Range; 54° 54' 30" N, 159° 20' 00" W; BGN 1964; (map 26). Named for Olaus J. Murie, 1889-1963, ecologist and biologist.

Murie, Mount: mountain, see Tugak Peak.

Murk Bay: bay, 1 mile across, on N side of Graves Harbor, in Glacier Bay National Monument, 49 miles NW of Hoonah, St. Elias Mountains; 58° 17' 15" N, 136° 44' 45" W; BGN 1930; (map 10). Named by USC&GS in 1926 and published in 1929.

Murphy Bay: bay, 3 miles across, between Southwest Cape and Iwoonut Point, SW coast of St. Lawrence Island; 63° 20' N, 171° 30' W; BGN 1954; (map 93). Name published by USC&GS in 1921.

Murphy Cove: cove, 0.8 miles long, in Glacier Bay National Monument, on S side of Graves Harbor, 2 miles E of Libby Island and 48 miles NW of Hoonah, St. Elias Mountains; 58° 16' 30" N, 136° 43' 15" W; (map 11). Name published by USC&GS in 1901 Alaska Coast Pilot (p. 212).

Murphy Creek: stream, flows S to Stoney Creek which flows to Noxapaga River, about 25 miles W of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This stream cannot be precisely located on current maps.

Murphy Creek: stream, heads N of Murphy Dome, flows NE 12 miles to Chatanika River, 18 miles NW of Fairbanks, Yukon-Tanana Highlands; 65° 02' 20" N, 148° 05' 30" W; (map 105). Named by prospectors; reported in 1908 by USGS. (Covert and Ellsworth, 1909, pl. 2).

Murphy Dome: mountain, 2,930 ft., 20 miles NW of Fairbanks, Yukon-Tanana Highlands; 64° 57' N, 148° 21' W; (map 100). Local name published in 1949 by USGS.

Murphys Mint Creek: stream, flows SE to Cripple River, about 24 miles NW of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Murray Creek: stream, flows NW 3.5 miles to Otter Creek, 6 miles E of Flat, Kilbuck Kuskokwim Mountains; 62° 28' N, 157° 48' W; (map 79). Prospectors' name obtained in 1952 by USGS topographers.

Murray Creek: stream, flows SW 1 mile to Dome Creek, 13 miles N of Fairbanks, Yukon-Tanana Highlands; 65° 02' N, 147° 36' W; (map 105). Named by prospectors; published in 1908 by USGS.

Murray Gulch: ravine, extends N 2 miles to New York Creek 1.5 miles N of its junction with Kuskokwim River, 1 mile NW of Little Mountain Village, Kilbuck-Kuskokwim Mountains; 61° 34' 15" N, 158° 35' 00" W; BGN 1948; (map 72). Prospectors' name reported in 1914 by Maddren (in Brooks and others, 1915, p. 353), USGS.

Murray Island: island, 1.5 miles long, in Tanana River, at W end of Harper Bend, 17 miles SE of Tanana, Nowitna Lowland; 65° 00' N, 151° 40' W; (map 106). Riverboat pilots' name shown on a 1940 Navigation Chart, Tanana-Yukon Rivers.

Murray Lake: lake, 3 miles long, on Alaska Peninsula, in course of American Creek, SE of Hammersly Lake, 34 miles N of Mount Katmai, Aleutian Range; 58° 47' N, 155° 04' W; (map 42). Local name reported in 1951 by USGS.

Murray, Cape: point of land, see Chacon, Cape.

Murray, Cape: point of land, see Nunez Point.

Murre Point: point of land, see Inner Right Cape.

Murre Rocks: rocks, off SE coast of Big Koniui Island, in Shumagin Islands, Aleutian Range; 55° 05' 30" N, 159° 30' 00" W; (map 27). Named in July 1874 by W. H. Dall, USC&GS, "because of the large number of these birds in the vicinity." This probably pertains to the North Pacific Murre (*Uria aalge inornata*).

Musatchie Nose: point of land, see Chacon, Cape.

Muscle Cove: bay, see Agamgik Bay.

Muse Island: island, 0.4 miles long, in Gambier Bay, on E coast of Admiralty Island, 0.8 miles NW of Church Point and 60 miles NW of Sitka, Alexander Archipelago; 57° 27' 25" N, 133° 57' 10" W; (map 8). Named in 1889 by Lt. Comdr. H. B. Mansfield, USN; published in 1892 by USC&GS.

Mush Lake: lake, 1.3 miles long, between South and East Arms Uganik Bay, on N coast of Kodiak Island; 57° 41' N, 153° 27' W; (map 34). Local name reported in 1954 by USGS.

Mushevik Point: bluff, elev. 3 ft., at E, or up. stream end, of Lower Lagoon on Naknek River, on Alaska Peninsula, 15 miles SE of Naknek Bristol Bay Lowland; 58° 40' N, 156° 37' W; (map 41). Eskimo name reported in 1952 by USGS.

Mushroom Island: island, 0.5 miles across, in Sukkwan Strait, 0.6 miles NW of Hydaburg, on W coast of Prince of Wales Island, Alexander Archipelago; 55° 12' 40" N, 132° 50' 45" W; (map 4). Local name published in 1965 by USC&GS.

Mushroom Islets: islands, group of 5, at entrance to Iniskin Bay, 20 miles N of Augustine Island, Aleutian Range; 59° 38' 35" N, 153° 26' 30" W; BGN 1916; (map 51). Descriptive name published in 1914 on USC&GS Chart 3421.

Mushroom Reef: reef, on W coast of Kodiak Island, 13 miles NW of Ayakulik and 20 miles SW of Karluk; 57° 20' 00" N, 154° 47' 12" W; BGN 1931; (map 35). Named by USC&GS in 1929 "because of the mushroom shape of the reef."

Mushukhli, Ostrov: island, see Fire Island.

Mushukli Island: island, see Fire Island.

Muskeg Creek: stream, heads in lake, flows NW 22 miles to Stony River 10 miles SE of its junction with Kuskokwim River, 26 miles E of Sleetmute. Stony River Lowland; 61° 39' 40" N, 156° 23' 35" W; (map 72). Local name reported in 1914 by R. H. Sargent (in Smith, P. S., 1917, pl. 5), USGS

Muskeg: locality, on The Alaska R. R., 20 miles W of Fairbanks, Yukon-Tanana Highlands; 64° 49' N 148° 28' W; (map 100). This is the name of a former railroad station reported on a

timetable in 1922. The name is derived from a Chippewa word meaning “grassy swamp” and describes the character of the Goldstream Creek valley.

Muskellunge Creek: stream, flows NW 10 miles to Noxapaga River, 17 miles W of Imuruk Lake. Seward Peninsula Highlands; 65° 37' N, 163° 52' W; BGN 1952; (map 110). Reported in 1950 by D. M. Hopkins, USGS: so named because “the creek abounds with muskellunge, a large game fish.”

Muskomee Bay: bay, extends E 1.8 miles off Raspberry Strait on SW coast of Afognak Island, 13 miles NW of Afognak, Kodiak Island; 58° 06' 20" N, 153° 04' 00" W; (map 43). Local name reported in 1952 by USGS

Muskrat Creek: stream, flows NW 9 miles to Basket Creek 8.2 miles SE of its junction with Holitna River, 15 miles SE of Sleetmute, Stony River Lowland; 61° 36' 00" N, 156° 45' 20" W; (map 72). Local name obtained in 1952 by USGS

Muskrat Lake: lake, 0.6 miles long, on Kenai Peninsula, 2.6 miles SW of Moose Lake and 34 miles NE of Kenai, Cook Inlet Lowland; 60° 42' 40" N, 50° 22' 25" W; (map 62). Named about 1963 by officials of Kenai National Moose Range for administrative purposes.

Muskrat Lake: lake, 1.2 miles long, in course of Dora Creek 2 miles N of that stream's junction with Chitina River and 30 miles SW of McCarthy, Copper River Basin; 61° 24' 45" N, 143° 51' 00" W; (map 67). Local name obtained by USGS and published on maps since 1954.

Muskwa Village: locality, on Kenai Peninsula along Seward Highway, 21 miles N of Seward, Chugach Mountains; 60° 24' 15" N, 149° 21' 30" W; (map 63). Recent USGS maps indicate a site with five buildings.

Mussel Cove: bay, see Agamgik Bay.

Mussel Point: point of land, on E shore of Redfish Bay, 9.8 miles NW of village of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 19' 35" N, 134° 51' 35" W; (map 5). Named commander of USBF steamer Albatros in 1897 by Lt. Comdr. J. F. Moser, USN.

Mussel Point: point of land, see Fern Point.

Mustang Peak: peak, 6,720 ft., 0.8 miles SE of Dike Mountain and 25 miles N of Juneau, Coast Mountains; 58° 38' 45" N, 134° 34' 40" W, BGN 1965; (map 11). Variant: Jan Peak. Named in 1964 by members of the Juneau Icefield Research Program.

Mutaktuk Creek: stream, flows NW 7.5 miles to Chukchi Sea, E of Agiak Lagoon, 37 miles NW of Mount Kelly, Arctic Slope; 68° 55' N, 164° 25' W; (map 130). Variant: Punutuk Creek. Eskimo name reported to mean “no parka” by USGS (Chapman and Sable, 1960, p. 54).

Muth Glacier: glacier, trends SW 1.5 miles to its terminus at head of stream which drains into Coghill Lake, Chugach Mountains; 61° 06' 30" N, 147° 14' 15" W; (map 69). Named in 1908 by U. S. Grant and D. F. Higgins, USGS.

Mutnaia Gulch: ravine, on Kenai Peninsula, trends W 0.5 miles along course of Travers Creek to NW entrance to Kachemak Bay, 11 miles NW of Homer, Cook Inlet Lowland; 59° 43' 40" N, 151° 50' 00" W; (map 50). Named "Mutnaya", meaning "muddy", about 1840 by I. G. Wosnesenski

Mutt Cove: cove, 0.6 miles across, E of Jeff Cove, on S coast of Kiska Island, Aleutian Islands; 51° 56' N, 177° 30' E; (map 14). An arbitrary name beginning with "M" to correspond to "M," grid used by the U.S. Army for tactical purposes during World War II Published on a 1943 Army map.

Mutton Cove: cove, 0.3 miles across, on N shore of Chernofski Harbor, SW coast of Unalaska Island, Aleutian Islands; 53° 24' 15" N, 167° 31' 00" W, BGN 1940; (map 23). Variant: East Cove. Descriptive name given in 1937 by USC&GS' because, "Wool and mutton were shipped out of this locality by the sheep ranchmen, the only inhabitants." The field party first called it "East Cove."

Muzon, Cape: point of land, SE tip of Dall Island, Alexander Archipelago; 54° 39' 50" N, 132° 41' 30" W; (map 1). Variant: Cabo de Munoz, Cabo de Munoz Goosens, Cabo de Munoz Gorens, Cape Caigane, Cape Irving, Cape Kaygany, Cape Pitt, Kaigahnee, Kaigane, Kaigani, Kygane, Mys Kaygany. Baker (1960, p. 450) says "It is highly probable that this is Cabo de Munoz or Munoz Goosens or Munoz Gorens of [Don Jacinto] Caamano, in 1792, and that [G.] Vancouver, in copying from Caamano, transposed two letters, making "Muzon." In this form it has come into general use and is well established." In 1787 this point was called "Cape Pitt" by Capt. George Dixon and "Cape Irving" by Capt. William Douglas. The native name was published in Russian as "M[ys] Kaygany (Muzon)," i. e. "Cape Kaygany (Muzon)," by Capt. Tebenkov (1852, map 9)

My Creek: stream, flows W 7 miles to Molly Creek, 80 miles SW of Eagle, Yukon-Tanana Highlands; 64° 06' 45" N, 143° 23' 00" W; (map 102). Local name published in 1956 by USGS.

My Lake: lake, 0.6 miles long, E of Little Susitna River, 17 miles NW of Anchorage, Cook Inlet Lowland; 61° 27' 00" N, 150° 06' 25" W; (map 70). Local name reported in 1958 by USGS.

My Mountain: mountain, see Mount Magnificent.

My-Ghapawit Mountain: mountain, see Myghapowit Mountain.

My-o-ga-a-gal-uk: locality, see My-og-g-a-gal-look.

My-og-arg-a-look: locality, see My-og-g-a-gal-look.

My-og-g-a-gal-look: locality, probably near head of Easter Creek, Brooks Range; 67° 56' N, 153° 28' W; (map 125). Variant: Maiogagaluk, My-o-ga-a-gal-uk, My-og-arg-a-look, Maiogagaluk. The exact location of this Eskimo village or camp, reported by Lt. G. M. Stoney, USN, in 1886, is conjectural, but it must have been located somewhere on Easter Creek near its headwaters. He spells the name variously and its meaning is unknown. Baker (1906, p. 422) spelled the name "Maiogagaluk."

Myak Rock: rock, 471 ft., just N of Ananongutka, 1 mile E of Suskaralugh Point, on NW coast of Saint George Island, in Pribilof Islands; 56° 36' 40" N, 169° 43' 10" W; (map 38). Aleut name reported by Putnam (1903, p. 1015), USC&GS, meaning " ' pile of rock or landmark' * * * remarkable crag 471 feet in elevation, standing in front of a bluff [Ananongutka] and visible along almost the entire north shore of the island. The same word [Myak] is applied by The natives to the numerous cairns or piles of rocks, erected by them over the island, which serve as guide posts to them when caught out in thick and foggy weather * * *."

Myaughee, Cape: promontory, on NE coast of St. Lawrence Island, 9 miles SE of Savoonga; 63° 39' N, 170° 12' W; (map 93). Eskimo name reported in 1932 by O. W. Geist, University of Alaska. Orth in 1965 recorded the name as "Maiyure," meaning "cling."

Mydnaya Ryka: stream, see Copper River.

Myers Chuck: cove, see Meyers Chuck.

Myers Chuck: village, see Meyers Chuck.

Myers Creek: stream, flows E 2.5 miles to Lower Willow Creek which flows to Casadepaga River, 18 miles NW of Solomon, Seward Peninsula Highlands; 64° 49' N, 164° 31' W; (map 95). Prospectors' name reported on a 1901 map of Cape Nome gold fields by David Fox, Jr.

Myers Creek: stream, flows N 1 mile to Little Caribou Creek, 3 miles W of the junction of Clearwater Fork, Toklat River with The Toklat River, Tanana Lowland; 63° 48' 15" N, 150° 22' 50" W; (map 88). Local name reported in 1954 by USGS.

Myers Creek: stream, see Myers Fork.

Myers Creek: stream, see Ridgeway Creek.

Myers Fork: stream, flows SE 4 miles to Chicken Creek, 55 miles SW of Eagle, Yukon-Tanana Highlands; 64° 05' N, 141° 55' W; (map 102). Variant: Myers Creek. Named by prospectors and reported in 1896 by Spurr (1898, p. 332), USGS.

Myers: locality, see Meiers.

Myghapowit Mountain: mountain, 1,453 ft., 32 miles SW of Northeast Cape, on Saint Lawrence Island; 63° 13' N, 169° 40' W; BGN 1951; (map 93). Variant: Miykhapakhit, Miykhapakhit Mountain, Mount Ghapawit, Mount Rosoff, My-Ghapawit Mountain. Eskimo name recorded in 1931 by Otto W. Geist, Univ. of Alaska.

Mylkiy, Mys: point of land, see Rock Point.

Mylkoy, Zaliv: bight, see Krestof, Port.

Mylkoy, Zaliv: cove, see Little Cove.

Mynook Creek: stream, see Minook Creek.

Myriad Islands: islands, 2.3 miles long, 5 miles WSW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 38' N, 136° 13' W; BGN 1926; (map 9). Descriptive name given in 1925 by USC&GS; published in 1927 Coast Pilot (supp. p. 27), The numerous (myriad) islands include rocks and islands as much as 1 mile long.

Myrtle Creek: stream, flows NW 1.6 miles to Casadepaga River, 21 miles NE of Solomon, Seward Peninsula Highlands; 64° 51' N, 164° 19' W; (map 95). Prospectors' name reported on a map of 1901 Cape Nome gold fields by David Fox, Jr.

Myrtle Creek: stream, flows NW 3.6 miles to Bear Creek 7.5 miles NE of Nyac and 37 miles SW of Aniak, Kilbuck-Kuskokwim Mountains; 61° 03' 45" N, 159° 45' 15" W; (map 73). Prospectors' name shown on a 1914 fieldsheet by A. G. Maddren, USGS.

Myrtle Creek: stream, flows S 1 mile to join La Spray Creek to form Flambeau River, 18 miles NE of Nome, Seward Peninsula Highlands; 64° 44' 09" N, 165° 07' 40" W; (map 94). Variant: Abbie Creek. Prospectors' name reported in 1904 by T. G. Gerdine, USGS. Shown as "Abbie" on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Myrtle Creek: stream, flows SW 4 miles to Livengood Creek, 0.3 miles W of Livengood, Yukon-Tanana Highlands; 65° 31' 30" N, 148° 33' 15" W; (map 105). Named by prospectors; name reported in 1915 by (Brooks and others, 1916, pl. 9), USGS.

Myrtle Creek: stream, flows SW 8 miles to Slate Creek, 5 miles SE of that stream's junction with Middle Fork Koyukuk River and 13.5 miles S of Wiseman, Brooks Range; 67° 13' N, 150° 03' W; (map 124). Local name shown on an 1899 fieldsheet by T. G. Gerdine, USGS.

Myrtle Creek: stream, heads on NW side of Marin Range; flows N to E side of Kalsin Bay, 13 miles S of Kodiak, Kodiak Island. 57° 36' 30" N, 152° 24' 20" W; BGN 1966; (map 34). Local name reported in 1966 by The Alaska State Geographic Board.

Myrtle Creek: stream, in Kantishna Hills, flows E 5.5 miles from Spruce Peak to Clearwater Fork Toklat River, 13 miles NNE of Eielson Visitor Center, Alaska Range; 63° 35' 30" N, 150° 31' 00" W; (map 88). Local name obtained in 1913 by Archdeacon Stuck (1921, p. 15).

Myrtle Lake: lake, 0.8 miles long, on SE coast of Prince of Wales Island, near head of Niblack Anchorage, Alexander Archipelago; 55° 04' 30" N, 132° 08' 30" W; (map 4). Local name reported in 1901 by A. H. Brooks, USGS.

Myrtle, Mount: mountain, 1,402 ft., 24 miles S of Karluk, on W coast of Kodiak Island; 57° 13' 30" N, 154° 28' 20" W; (map 35). Local name published in 1943 by USC&GS.

Mysovskoy, Mys: point of land, see Black Point.

Mysovskoy, Ostrov: islands, see Saint Lazaria Islands.

Mystery Creek: stream, flows 3 miles SE to Shovel Creek, 6 miles N of Solomon; 64° 38' N, 164° 25' W; (map 95). Variant: Misty Creek. Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Mystery Creek: stream, flows NW 7 miles to Nixon Fork Takotna River, 14 miles NW of Medfra, Kilbuck-Kuskokwim Mountains; 63° 17' N, 154° 53' W; (map 89). Local name reported in 1920 by G. C. Martin (in Brooks and others, 1922, fig. 5), USGS.

Mystery Creek: stream, flows S to Sinuk River, about 30 miles NW of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Mystery Creek: stream, flows SW 3 miles to Niukluk River, 5 miles SE of Council and 33 miles NE of Solomon, Seward Peninsula Highlands; 64° 50' N, 163° 33' W; (map 95). Prospectors' name reported in 1899 by Schrader and Brooks (1900, map 3), USGS.

Mystery Creek: stream, flows SW 7 miles to Cripple River, 23 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 55' N, 163° 35' W; (map 110). Prospectors' name reported in 1901 by USGS (Collier, 1902, pl. 12).

Mystery Creek: stream, on Alaska Peninsula, flows SE 4 miles to Aniakchak River, 20 miles W of Cape Kunmik; Aleutian Range; 56° 48' N, 157° 43' W; (map 31). Local name obtained from trappers in 1923 by R. H. Sargent, USGS.

Mystery Creek: stream, on Kenai Peninsula, heads N of Round Mountain, flows NW 21 miles to Chickaloon 38 miles ENE of Kenai, Cook Inlet Lowland; 60° 45' N, 150° 15' W; (map 62). Local name reported about 1911 by USGS (Martin, G.C., and others, 1915, pl. 2).

Mystery Mountain: peak, see Deception, Mount.

Mystery Mountains: mountains, 3,850 ft., trend NS 9 miles, 30 miles N of Medfra, Kilbuck-Kuskokwim Mountains; 63° 31' N, 154° 34' W; (map 89). Local name reported in 1924 by USGS.

Mystic Creek: stream, flows E 6.5 miles to Wood River, 36 miles NE of Healy, Alaska Range; 63° 57' 30" N, 147° 47' 40" W; (map 87). Prospectors' name reported in 1906 by L. M. Prindle (in Brooks and others, 1907, pl. 4), USGS.

Mystic Creek: stream, flows SE 4 miles to Inmachuck River, 27 miles NE of Imuruk, Seward Peninsula Highlands; 65° 59' 10" N, 162° 56' 45" W; (map 110). Prospectors' name reported in 1901 by D. L. Reaburn (in Mendenhall, 1902, pl. 4a), USGS.

Mystic Mountain: mountain, 5,111 ft., 35 miles NE of Healy and 25 miles E of Jumbo Mountain, Alaska Range; 63° 58' 50" N, 147° 50' 30" W; (map 87). Name taken from the name of the stream that flows on its south side; published in 1963 by USGS.

Mystic Pass: pass, 2,800 ft., between head of Tonzona and West Fork Yentna Rivers, 80 miles NW of Talkeetna, Alaska Range; 62° 38' 30" N, 152° 32' 00" W; (map 81). Local name reported in 1925 by S. R. Capps (in Moffit, 1927), USGS.

Mystic Rock: rock, see Mastic Rock.

N

N Mys: point of land, see North Cape.

N. E. Twin: peak, see Northeast Twin.

Na-pac-took-took Mountain: hill, see Napaktuktuk Mountain.

Na-un-da: stream, see Monte Cristo Creek.

Nabaksyalik Point: point of land, 7 miles SW of Cape Etolin, on N coast of Nunivak Island; 60° 22' 20" N, 166° 18' 45" W; (map 57). Variant: Nabaxyalix Point. Eskimo name obtained in 1949 by USC&GS.

Nabangoyak Rock: rock, 6 miles SE of Cape Mohican off W coast of Nunivak Island; 60° 08' N, 167° 21' W; (map 57). Eskimo name obtained in 1949 by USC&GS.

Nabaxyalix Point: point of land, see Nabaksyalik Point.

Nabesna Glacier: glacier, trends E and NE 50 miles from Mount Wrangell to its 1957 terminus at head of Nabesna River, Wrangell Mountains 62° 00' N, 143° 00' W; (map 84). Named in 1902 by F. C. Schrader, USGS for the Nabesna River.

Nabesna River: stream, heads at Nabesna Glacier and flows NE 73 miles to join the Chisana River to form the Tanana River, 41 miles SE of Tok Alaska Range; 63° 03' N, 141° 52' W; BGN 1960; (map 84). Named by W. J. Peters and A. H. Brooks USGS, in 1898; derived from the local Indian name for the upper Tanana River (Allen, 1887, p. 136).

Nabesna Slough: stream, anabranch of Nabesna River, flows NE 8 miles, 7 miles SW of Northway Junction, Alaska Range; 62° 57' 45" N, 141° 58' 00" W; (map 84). Local name reported by USGS in 1955.

Nabesna Village: locality, on W bank of Nabesna River 6 miles SW of Northway Junction, Alaska Range; 62° 59' N, 141° 58' W; (map 84). Variant: Khiltats. Nabesna Indian village reported by USGS in 1945. This may represent the same people that once occupied a village called "Khiltats" at the mouth of the Nabesna River (Hodge, 1907, p. 679).

Nabesna: village, pop. 41, W of Nabesna River, at base of White Mountain, 84 miles NE of Glennallen, Wrangell Mountains; 62° 22' N, 143° 00' W; BGN 1939; (map 84). This village began as a camp of the Nabesna Mining Co., from which its name was derived. Its first post office was established in 1909 (Ricks, 1965, p. 44).

Nachalney, Ostrov: island, see Nachalni Island.

Nachalni Island: island, 0.5 miles long, between Afognak and Kupreanof Straits, S of Raspberry Island, 6 miles SW of Afognak, Kodiak Island, 57° 58' 40" N, 152° 55' 30" W; (map 34). Variant: Ostrov Nachalney. Named "Ostrov Nachalney," i.e. "beginning island," in 1809 by the Russian navigator Ivan Vasiliev the first; published as such by Lt. Sarichev (1826, map 19), IRN.

Nachalni Point: point of land, S tip of Nachalni Island, in Kupreanof Strait, 23 miles NW of Kodiak. Kodiak Island; 57° 58' 30" N, 152° 55' 45" W; BGN 1909; (map 34). Variant: Entrance Point, Mys Nachalnyy, Nachalnie Point. Transliteration of "M[ys] Nachalnyy meaning "point of entrance," the name given to this point by Sub-Lt. Mikhail Murashev in 1839 or 1840 and published in 1849 on Russian Hydrog. Dept. Chart 1425. Baker (1906, p. 244) published "Entrance Point," as the translation of Murashev's name. Because of duplication this name was changed to its present form by USC&GS in 1909.

Nachalnie Point: point of land, see Nachalni Point.

Nachalnie: point of land, see Entrance Point.

Nachalny, Mys: point of land, see Entrance Point.

Nachalnyy, Mys: point of land, see Nachalni Point.

Nachlezhnia: bay, see Camp Coogan Bay.

Nachliwagimiut: locality, see Nakhliwak.

Nachliwagimiut: village, see Chaniliut.

Nacholchavigamut: locality, see Nakolkavik.

Nachralik Pass: pass, 2,250 ft., in DeLong Mountains, between head of Cairn Creek and Utukok River drainage, Brooks Range; 68° 33' N, 161° 06' W; (map 131). Eskimo name published by USGS in 1962.

Nachramkunga Creek: stream, see Contact Creek.

Nack-tchamick, Ile: island, see Nakchamik Island.

Nackchamik Island: island, see Nakchamik Island.

Nacooytoolecmiut: locality, see Nakooytoolekmiut.

Nadezhda Island: islands, 0.6 miles across, in Kresta Sound, 14 miles NW of Sitka, Alexander Archipelago; 57° 12' N, 135° 36' W; (map 9). Variant: Ostrova Nadezhdy. Russian name meaning "hope," given in 1833 by the navigator Ens. Vasiliev (cnna); published in 1848 on Russian Hydrog. Dept. Chart 1397 as "O[stro]va Nadezhdy." It was named for Adm. A. J. von Krusenstern's vessel the Nadezhda.

Nadezhdy, Ostrova: islands, see Nadezhda Island.

Nadina Glacier: glacier, heads on Mount Drum and trends SW 9 miles to its terminus at head of Nadina River, Wrangell Mountains; 62° 00' 30" N, 144° 49' 00" W; (map 83). Local name reported by USGS (in Mendenhall and Schrader, 1903, p. 63); named for the river.

Nadina River: stream, heads at Nadina Glacier, flows 18 miles SW to Copper River, 3.3 miles NE of the locality of Willow Creek, 62 miles NE of Valdez, Copper River Basin; 61° 51' 20" N, 145° 09' 50" W; (map 68). Variant: Knetena, Knetina. Ahtena Indian name spelled Knetena by Capt. W. R. Abercrombie, USA, in 1898. T. G. Gerdine and W. C. Mendenhall, USGS, introduced the present spelling in 1902.

Nadiwen Lake: lake, see Butte Lake.

Nadviktak Creek: stream, flows NW 8 miles to Kivalina River, 21 miles NE of Kivalina, Arctic Slope; 67° 59' N, 164° 12' W; (map 128). Variant: Nadviktak Koogowrak, Nazwiztaq Kuugauzaq. Eskimo name reported in 1966 by E. S. Burch.

Nadviktak Koogowrak: stream, see Nadviktak Creek.

Nadviktak Lakes: lakes, 25 miles NE of Kivalina, Arctic Slope; 68° 00' N, 164° 00' W; (map 130). Variant: Nazwiqtaq. Eskimo name reported in 1966 by E. S. Burch.

Nadzaheen Cove: estuary, 0.8 miles long, on NE coast of Annette Island, Alexander Archipelago, 55° 13' 45" N 131° 28' 00" W, (map 3). Tlingit Indian name [Nadzahin] meaning "Nadza River"; published in 1911 by

Naerie Rock: rock, near mouth of Hot Springs Bay, 1.4 miles NW of Goddard, on W coast of Baranof Island, Alexander Archipelago; 56° 50' 53" N, 135° 24' 00" W; (map 5). Variant: Kamen Nayery. Named in 1804 by the Russian navigator, Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN as "K[amen] Nayery" or "Nayery Rock."

Nag-Miout: locality, see Nak.

Naga Point: point of land, on E coast of Kanaga Island, Aleutian Islands; 51° 46' 20" N, 177° 06' 50" W; BGN 1936; (map 17). A clipped name derived from Kanaga Island, and given by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

Naga: rocks, see Nagai Rocks.

Nagahut Rocks: rocks, 2 miles SW of Perl and 24 miles SW of Seldovia, Chugach Mountains; 59° 11' N, 151° 46' W; BGN 1908; (map 50). Variant: Los Frailes. Indian name reported by USC&GS in 1908. These rocks were called "Los Frailes" meaning "the brothers," on an unpublished Spanish map by Francisco Antonio Maurelle, Don Ignacio Arteaga, and Don Juan Francisco de la Bodega y Quadra in 1779.

Nagai Island: island, 31 miles long, one of largest of Shumagin Islands, Aleutian Range; 55° 05' N, 160° 00' W; BGN 1890; (map 28). Variant: Ilagia Island, Nagay Island. This native name was reported in English by Sauer (1802, p. 166); reported in French as "Ile Nagay" by Capt. Lutke (1836, map 24). According to the log of V. Bering's ship St. Peter for August 31, 1741, a sailor named Shumagin died and was buried here, and his name was given to the group of islands.

Nagai Rocks: rocks, 2 miles W of Chirikof Island, 100 miles SW of Kodiak Island, Kodiak Islands; 55° 49' 30" N, 155° 46' 00" W; (map 32). Variant: Kamen Nagay, Naga, Nagau.

Named "by Kashevarof about 1830 * * *" (Baker, 1906, p. 451) and published by Capt. Lutke (1836, p. 278), IRN.

Naganak: cove, see Naginak Cove.

Naganakh: cove, see Naginak Cove.

Nagasay Cove: cove, 0.4 miles long, N coast of Esquibel Island in Maurelle Islands, Alexander Archipelago; 55° 38' 45" N, 133° 33' 50" W; BGN 1925; (map 4). Tlingit Indian name, meaning "blue fox," given in 1924 by USC&GS because of a fox-farm on the W shore of this Cove.

Nagau: rocks, see Nagai Rocks.

Nagay Island: island, see Nagai Island.

Nagay, Kamen: rocks, see Nagai Rocks.

Nagchamik, Ostrov: island, see Nakchamik Island.

Nageesluk River: stream, see Nageethluk River.

Nageethluk River: stream, heads at 62° 17' N, 161° 08' W, flows W 90 miles to Atchuelinguk River, 31 miles N of Marshall, Yukon-Kuskokwim Delta; 62° 20' N, 162° 08' W; (map 77). Variant: Nageesluk River, Nagislak River. Eskimo name meaning "place of snares," according to a 1948 field report by USC&GS.

Naghaikhavigamute: locality, see Nakolkavik.

Naghikhavigamute: locality, see Nakolkavik.

Naginak Cove: cove, 0.7 miles across, in Anderson Bay, part of Makushin Bay, W coast of Unalaska Island, Aleutian Islands; 53° 39' N, 166° 51' W; (map 23). Variant: Naganak, Naganakh. Aleut name published by Lt. Sarichev (1802, v. 2, p. 139), IRN, as "Naganakh" from the word "naganak" which, according to R. H. Geoghegan, means "sickness." The name was later published as "Naginak" by Father Veniaminov (1840, v. I, p. 164).

Nagishlamina River: stream, heads in lake, flows NE and SE 23 miles to Chakachamna Lake, 45 miles NW of Tyonek, Alaska Range; 61° 14' N, 152° 27' W; BGN 1930; (map 70). Tanaina Indian name reported in 1927 by S. R. Capps (in Smith and others, 1930, p. 146), USGS.

Nagislak River: stream, see Nageethluk River.

Naglatuk Hill: hill, 931 ft., highest point in Kakagrak Hills, at W end of Igichuk Hills, 12 miles N of Cape Krusenstern, Arctic Slope; 67° 18' N, 163° 39' W; BGN 1962; (map 128). Variant: Naglatak Mountain, Naglutook Mountain. Eskimo name meaning "restless," according to USC&GS in 1950.

Naglatuk Mountain: hill, see Naglatuk Hill.

Nagle Creek: stream, flows S to Anikovik River, about 15 miles E of Cape Prince of Wales, Seward Peninsula Highlands; (map 111). Prospectors' name shown on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This feature cannot be precisely identified on current maps.

Naglutook Mountain: hill, see Naglatuk Hill.

Nagokchik: locality, see Naguchik.

Nagosakchowik Slough: stream, heads in lake, flows N 9.5 miles to Kwemeluk Pass, 4 miles W of Sheldon Point and 21 miles SW of Kwiguk, Yukon-Kuskokwim Delta; 62° 32' N, 164° 57' W; (map 77). Variant: Nargosakchokowik Slough, Narosigak Slough, Nioklakowik Slough. Eskimo name obtained by USC&GS in 1952. Probably the same as "Nioklakowik" recorded in 1899 by G. R. Putnam, USC&GS.

Nagosakchowik: locality, on S bank of Kwemeluk Pass 4 miles W of Sheldon Point and 21 miles SW of Kwiguk, Yukon-Kuskokwim Delta; 62° 31' 45" N, 164° 57' 40" W; (map 77). Variant: Nahr-go sak-choko wik, Nargosakchokowik, Narosigak, Narosigagamieut. Fish camp reported in 1952 by USC&GS. Former Eskimo village recorded in 1899 as "Narosigagamieut" by G. R. Putnam, USC&GS.

Nagotligageivik Mountain: mountain, 1,305 ft., 4 miles W of Tatlinagpeke Mountain and 20 miles N of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 23' N, 161° 34' W; (map 53). Eskimo name reported in 1954 by USGS.

Nagounalaska: island, see Unalaska Island.

Naguchik: locality, on E bank of Apoon Pass, 24 miles NE of Kwiguk, Yukon-Kuskokwim Delta; 62° 55' 40" N, 163° 49' 15" W; (map 77). Variant: Nagokchik. Eskimo fish camp reported in 1952 by USC&GS.

Nagugun Creek: stream, heads at Nagugun Lake, flows SE 5 miles to Nayorurun River, 58 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 36' N, 160° 16' W; (map 53). Eskimo name reported to mean "river that others meet," obtained in 1951 by J. M. Hoare, USGS, from C. B. Michael, missionary at Quinhagak.

Nagugun Lake: lake, extends SE 5 miles to headwaters of Nagugun Creek, 58 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 39' N, 160° 21' W; (map 53). Name derived from Nagugun Creek of which it is the source; published in 1951 by USGS.

Nagunalaska: island, see Unalaska Island.

Nagyagat Mountain: mountain, 2,600 ft., in Ahklun Mountains, 10 miles SW of Goodnews Lake and 33 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 22' N, 160° 48' W; (map 53). Eskimo name reported to mean "place to smell bear," obtained about 1951 at Goodnews by J. M. Hoare, USGS.

Nagzamik Island: island, see Nakchamik Island.

Nah Speel: rookery, NW of Saint Paul, near West Landing, on Saint Paul Island, Pribilof Islands; 57° 07' 30" N, 170° 16' 40" W; (map 38). Variant: Nah Speetsah. Elliott (1881, p. 164 and 174) says this is an Aleut "corruption" of the Russian name "Nah Speetsah" meaning "on the point." This term in turn is derived from "Spitsa," meaning "a pointed stick," which is of German derivation.

Nah-park-lu-lik: locality, see Napaklulik.

Naha Bay: estuary, extends E 3 miles, off Behm Canal, on W coast of Revillagigedo Island, Alexander Archipelago; 55° 36' N, 131° 41' W; (map 3). Tlingit Indian name reported in 1883 by W. H. Dall, USC&GS.

Naha River: stream, on Revillagigedo Island, flows SW through several lakes 17 miles to Naha Bay, Alexander Archipelago; 55° 35' 45" N, 131° 38' 00" W; (map 3). Name reported in 1897 by Lt. Comdr. J. F. Moser, USN. See Naha Bay.

Nahihmood: locality, see Nahimud.

Nahimud: locality, site of Eskimo village, on S shore of Kiliuda Bay, SE coast of Kodiak Island; 57° 18' N, 153° 06' W; (map 34). Variant: Nahihmood. Native name recorded in 1805 as "Nahihmood" by Lisianski (1814, map facing p. 169).

Nahk-hahk: locality, see Knockhock.

Nahku Bay: estuary, 1 mile long and 0.2 miles wide, at head of Taiyu Inlet, 1 mile W of Skagway, Coast Mountains; 59° 27' 45" N, 135° 20' 15" W; (map 45). Tlingit Indian name published in 1923 on IBC Sheet 9 (1951 atlas).

Nahku Portage: portage, 1.5 miles long, between Mud Bay and Letnikof Cove, on Chilkat Peninsula, 20 miles S of Skagway, Coast Mountains; 59° 10' 00" N, 135° 21' 30" W; (map 45). Indian name published by the IBC (1923, map 9).

Nahltushkan: locality, see Neltushkin.

Nahn-var-ahn-ak Slough: stream, see Nanvaranak Slough.

Nahr-go sak-choko wik: locality, see Nagosakchowik.

Nahsayvernia: point of land, see North Point.

Nahtuk Mountain: mountain, 5,980 ft., in Endicott Mountains, 32 miles SE of Survey Pass, Brooks Range; 67° 35' N, 153° 07' W; BGN 1932; (map 125). Eskimo name reported by Robert Marshall in 1931. So named because it is at the head of the Nahtuk River. Nahtuk [Natak] means "owl."

Nahtuk River: stream, heads on N slope of Nahtuk Mountain, and flows SW 23 miles to Alatna River, 27 miles SE of Survey Pass, Brooks Range; 67° 25' N, 153° 43' W; BGN 1912;

(map 125). Variant: Akoblueik, Akuluik, Nuhluk River, Nuluk River. Eskimo name reported by Stoney (1900, map), USN, in 1886 as “Nuhluk,” but spelled “Nahtuk” by Mendenhall (1902, pl. 4) in 1901 as conforming more to local pronunciation. Nahtuk [Natak] means “owl.”

Nahulkavik: lake, see Coville Lake.

Nahwazuk: lake, see Salmon Lake.

Naimak Islet: island, see Chernabura Island.

Nain Creek: stream, tributary to the Kuskokwim River. Name mentioned as a note on an 1898 fieldsheet by W. S. Post, USGS; however, he noted that the exact location was undetermined. The name was probably derived from that of a Moravian mission built in 1757 in Pennsylvania which in turn was named for a biblical town in Galilee (Luke 7: 11-17).

Nairak: hill, see Mugum Peak.

Naiwak: hill, see Mugum Peak.

Najwarwak: lake, see Chandler Lake.

Nak River: stream, flows N 6 miles to Tanunak Bay at Tanunak, 6 miles NE of Cape Vancouver, Yukon-Kuskokwim Delta; 60° 37' N, 165° 15' W; (map 57). Eskimo name meaning “behind one’s back.” So called because both forks of this river has its mouth at the village [?]; reported in 1929 by USC&GS.

Nak: locality, on right bank of Kuskokwim River, near the Yukon-Kuskokwim Portage; (map 73). Variant: Nag-Miout. Former Eskimo village recorded as “Nagmiout” on an 1850 map by Lt. L. A. Zagoskin, IRN (Hodge, 1910, p. 12). This may be the same place as Uknavig; shown on some maps as “Ok[nag]amiut.”

Nakahkpuk: stream, see Wattamuse Creek:

Nakailingak Creek: stream, flows SE 4 miles to Kanektok River, 60 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 51' N, 160° 45' W; (map 53). Eskimo name published in 1951 by USGS.

Nakaktuk Lakes: lakes, extend 5 miles, W of Kutchik River, 8.5 miles S of Umiat, Arctic Slope; 69° 14' N, 152° 18' W; (map 141). Eskimo name referring to stones or turf “lined up” to point to something or as a barrier against caribou; name reported in 1956 by T. E. Taylor, USGS.

Nakalilok Bay: bay, 4 miles long, on S coast of Alaska Peninsula, 16 miles NE of Cape Kunmik, Aleutian Range; 56° 55' N, 156° 56' W; (map 31). Variant: Nakkhalilok Bay, Zaliv Nakkhalilok. Eskimo name shown in 1847 as “Z[aliv] Nakkahalilok” on Russian Hydrog. Dept. Chart 1379.

Nakat Bay: bay, 5 miles across, extends NE 5 miles from Cape Fox on mainland, Coast Mountains; 54° 46' N, 130° 47' W; BGN 1916; (map 2). Variant: Bukhta Nakat, Nakat Inlet.

Tlingit Indian name published in 1853 on Russian Hydrog. Dept. Chart 1493 as “Bukh[ta] Nakat” meaning “Nakat Bay.”

Nakat Harbor: bay, 4.3 miles long, E of and parallel to Nakat Inlet, Coast Mountains; 54° 50' N, 130° 42' W; (map 2). Name derived from Nakat Inlet; given in 1888 by Lt. Comdr. H. E. Nichols, USN.

Nakat Inlet: bay, see Nakat Bay.

Nakat Inlet: estuary, extends N 11 miles from Ledge Point, at head of Nakat Bay, Coast Mountains; 54° 48' 30" N, 130° 44' 30" W, (map 2). Tlingit Indian name possibly derived from the word “Nakatse” meaning fox (Krause 1956, p. 256). Lt. Comdr. H. E. Nichols USN, writes in the USC&GS Alaska Coast Pilot (1891, p. 79) “The body of water between Cape Fox and Tongass is sometimes called Nakat Inlet, but that name really applies only to the inlet proper,” whose southern limit is at Ledge Point.

Nakat Inlet: estuary, see Fillmore Inlet.

Nakat Lake: lake, 1.5 miles long, between Nakat and Willard Inlets, Coast Mountains; 54° 55' 15" N 130° 42' 45" W; BGN 1962; (map 2). Name derived from Nakat Inlet; given in 1962 by USFS.

Nakat Mountain: mountain, 2,875 ft., on mainland between Filmore and Willard Inlets Coast Mountains; 54° 52' 15" N, 130° 38' 20" W; (map 2). Name derived from Nakat Inlet; given in 1883 by Lt. Comdr. H. E. Nichols, USN.

Nakchamik Island: island, 3.5 miles across, S of Alaska Peninsula, 7.3 miles S of Cape Kumliun, Aleutian Range; 56° 20' N, 157° 49' W; (map 31). Variant: Ile Nack-tchamick, Nackchamik Island, Nagzamik Island, Ostrov Nagchamik, Ostrov Nakchamik. Eskimo name shown in 1847 as “Os[trov] Nakchamik” on Russian Hydrog. Dept. Chart 1379.

Nakchamik, Ostrov: island, see Nakchamik Island.

Naked Island: island, 8 miles across, in Prince William Sound, 32 miles NE of Chenega, Chugach Mountains; 60° 40' N, 147° 25' W; (map 63) Variant: Big Naked Island, Isla Larga. Named in 1898 by Capt. W. R. Abercrombie, USA, who applied the name to a group of three islands. F. C. Schrader USGS, in 1900 reported the largest of these islands as Naked Island. John Goodell of Valdez states, “the islands are called 'Naked,' so it is said, from the fact that the natives once found on them a naked woman, who `` as crazy.” This appears to be the Isla Larga named by the 1779 Don Ignacio Arteaga expedition.

Naked Island: island, in Lynn Canal, 1.3 miles NW of Clear Point on Mansfield Peninsula and 19 miles SW of Juneau, Alexander Archipelago; 58° 15' 20" N 134° 56' 30" W; (map 11). Descriptive name given in 1890 by Lt. Comdr. H. B. Mansfield, USN, and published by USC&GS in the 1883 Coast Pilot (p. 161)

Nakedrixa: locality, see Akilloaq.

Nakeduxo: locality, see Akilloaq.

Nakee Creek: stream, flows SW 2 miles to Kuskokwim Bay, 3 miles SW of Kwinhagak and 45 miles NW of Goodnews, Yukon-Kuskokwim Delta; 59° 44' N, 161° 55' W; (map 53). Eskimo name published in 1951 by USGS.

Nakeen: village, on W bank of Kvichak River, 1.5 miles N of Telephone Point and 14 miles N of Naknek, Bristol Bay Lowland; 58° 46' 10" N, 157° 02' 15" W; (map 41). Local name published by USC&GS in 1954 Coast Pilot (p. 505)

Nakhak: locality, see Knockhock.

Nakhapagak: stream, see Noxapaga River.

Nakhliwak: locality, on S bank of Apoon Pass, 1 mile W of Pastol Bay and 40 miles NE of Kwiguk, Yukon-Kuskokwim Delta; 63° 02' 15" N, 163° 23' 00" W; (map 92). Variant: Nachliwagimiut. Eskimo village, now abandoned, reported in 1899 by R. L. Faris, USC&GS, as "Nachliwagimiut." This name is often applied to nearby Chaniliut, but cartographic usage has reapplied the name to a few existing cabins in the described location.

Nakhliwak: village, see Chaniliut.

Nakkhalilok Bay: bay, see Nakalilok Bay.

Nakkhalilok, Zaliv: bay, see Nakalilok Bay.

Nakmaktuak Pass: pass, 2,450 ft., between Noatak River (Nushralutak Creek) and Kobuk River (Ambler River) drainages, Brooks Range; 67° 38' N, 156° 27' W; (map 126). Named by Orth in 1956 and derived from the Eskimo name for the Ambler River. The name means "backpacking place" and refers in a sense to a "pass or to a short-cut." The name appears to be similar to Natmotirak [Creek],

Nakmaktuak: stream, see Ambler River.

Nakneck, Fleuve: stream, see Naknek River.

Nakneck, Riviere de: stream, see Naknek River.

Naknek Lake: lake, 20 miles long, at head of Naknek River, on Alaska Peninsula, intersected by western boundary of Katmai National Monument, 22 miles E of Naknek, Aleutian Range; 58° 38' N, 155° 52' W; (map 42). Variant: Agulogak Lake, Akougak, Akulogak, Lac Acoulogack, Lake Walker. Eskimo name published in 1836 by F. P. Lutke. Ens. Vasiliev, IRN, reported the lake name to be "Akulogak" in 1831. Ivan Petroff named it "Lake Walker" for Francis A. Walker, Superintendent of the 1880 census.

Naknek River: stream, heads in Naknek Lake, flows W 35 miles to Kvichak Bay, on Alaska Peninsula, 2 miles W of Naknek, Bristol Bay Lowland; 58° 43' N, 157° 04' W; (map 41). Variant: Agulogak River, Fleuve Nakneck, Naknek Riviere, Naknik River, Reka Naknek, Riviere de Nakneck. Eskimo name published as "Naknek Riviere" by Capt. Lutke (1836, p. 257). It was shown as "R[eka] Naknek" by Capt. Tebenkov (1852, map 4).

Naknek Riviere: stream, see Naknek River.

Naknek, Reka: stream, see Naknek River.

Naknek: village, pop. 249, on N bank of Naknek River near its mouth, on N coast of Alaska Peninsula, 56 miles SE of Dillingham, Bristol Bay Lowland; 58° 43' 40" N, 157° 00' 45" W; BGN 1948; (map 41). Variant: Fort Souworoff, Fort Suvaroff, Fort Suworof, Kinghiak, Kingiak, Kinuiak, Kiniak, Kinuiak, Naugvik, Pawik, Suvarov, Suwarof, Suworof. Originally an Eskimo village reported about 1821 by Capt. Lt. M. N. Vasiliev, IRN, who gave its name as "Naugeik." Lt. Sarichev (1826, map 3), IRN, reported it as "Naugvik " Spelled "Naknek" by Capt. Tebenkov (1852, map 4), IRN. The Russians built a post called "Fort Suvarov" at or near the village, named after the nearby point of land. The 1880 Census lists the village name as Kinghiak , Its population in 1 890 was 51; 111 in 1920; 173 in 1930; 152 in 1939, and 174 in 1950. The Naknek post office was established in 1907. Naknek is noted for its Red Salmon', canneries. See Suworof, Cape.

Naknek: village, see South Naknek.

Naknik River: stream, see Naknek River.

Nakocheik Creek: stream, flows NW 11 miles to Kobuk River, 35 miles NW of Shungnak, Brooks Range; 67° 05' N, 158° 19' W; (map 126). Eskimo name reported by the U.S. Army Corps of Engineers in 1955.

Nakochna River: stream, heads in lake, flows SE 24 miles to Kichatna River, 54 miles SW of Talkeetna, Alaska Range; 62° 09' 25" N, 151° 45' 00" W; (map 81). Tanaina Indian name obtained in 1899 by Lt. J. S. Herron, USA, and spelled by him "Na-Koch-nu," or "Nakoch River."

Nakolik Mountain: mountain, 2,200 ft., at E end of Maiyumerak Mountains, in Baird Mountains, 59 miles NE of Noatak, Brooks Range; 67° 51' N, 160° 52' W; (map 127). Eskimo name meaning "it has a head," obtained in 1956 at Noatak by Orth.

Nakolik River: stream, in Baird Mountains, flows N 20 miles to Noatak River 7 miles E of its junction with Kaluktavik River, Brooks Range; 67° 53' N, 160° 46' W; (map 127). Named for the nearby mountain; reported in 1956 by Orth.

Nakolikurok Creek: stream, in Baird Mountains, flows NW 24 miles to Nakolik River 4.5 miles S of its junction with Noatak River, 59 miles N of Kiana, Brooks Range; 67° 50' N, 160° 42' W; (map 127). Eskimo name meaning "little Nakolik," obtained in 1956 at Noatak by Orth.

Nakolkavik: locality, on left bank of Kuskokwim River near its mouth, Yukon-Kuskokwim Delta; (map 58). Variant: Nacholchavigamut, Naghaikhavigamute, Naghikhavigamute. Former Eskimo village, recorded as "Naghaikhavigamute" in 1878 by E. W. Nelson, U.S. Signal Service, and on an 1880 map by Ivan Petroff, who also reported "Naghikhavigamute" with a population of 193 in his text. In 1898 the spelling "Nacholchavigamut" was obtained from a Moravian missionary, J. H. Kilbuck, by J. E. Spurr and W. S. Post, USGS.

Nakooytoolekmiut: locality, 20 miles NE of Cape Mendenhall, on SE coast of Nunivak Island; 59° 53' 30" N, 164° 42' 10" W; (map 55). Variant: Nacooytoolecmiut, Naknitulekmiut. Eskimo camp reported in 1949 by USC&GS.

Naksrak Pass: pass, 1,200 ft., at head of Cutler River and Apkugagruk Creek, 25 miles NNE of Ambler, Brooks Range; 67° 26' N, 157° 35' W; (map 126). Variant: Naqraq. Eskimo name meaning "pass" reported in 1965 by Wilfried Zibell. This is the best pass between the Ambler-Redstone drainage and the Noatak-Cutler drainage.

Nakuitulekmiut: locality, see Nakooytoolekmiut.

Nakvasina, Guba: sound, see Nakwasina Sound.

Nakvasinskaya, Guba: water passage, see Nakwasina Passage.

Nakvassin Lake: lake, 0.7 miles long, near head of Port Herbert, 14.5 miles NW of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 27' 00" N, 134° 44' 15" W; BGN 1933; (map 5). Named in 1923 by USFS "for a Russian hunter who was killed in the massacre at the first site of Sitka," in 1802.

Nakwasina Bay: bay, 2 miles across, at head of Nakwasina Sound, on Baranof Island, 13 miles N of Sitka, Alexander Archipelago; 57° 15' 00" N, 135° 20' 30" W; (map 9). Local name reported in 1929 by USFS. Name is derived from Nakwasina Sound.

Nakwasina Passage: water passage, 6 miles long between N coast of Halleck Island, and Baranof Island, 14 miles N of Sitka, Alexander Archipelago; 57° 15' N, 135° 30' W; BGN 1940; (map 9). Variant: Guba Nakvasina, Guba Nakvasinskaya, Little Noquashinski Bay, Nakvasina Creek, Nakwasinskaia Bay, Noquashinski Bay, West Arm Nakwasina Passage. Russian name meaning "fermented" given in 1809 by the navigator Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "Guba Nakvasinskaya." This name was applied to both the water passage and the sound until 1929, when USC&GS made a distinction between the two features.

Nakwasina Sound: sound, between Baranof Island and E coast of Halleck Island, 11 miles N of Sitka, Alexander Archipelago; 57° 12' N, 135° 24' W; BGN 1940; (map 9). Variant: Eastern Arm Nakwasina Passage, Guba Nakvasina, Guba Nakvasinskaya, Nakwasina Passage, Squashinski Bay. Russian name meaning "fermented," given in 1809 by the navigator Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "Guba Nakvasinskaya." See Nakwasina Passage.

Nakwasinskaia Bay: water passage, see Nakwasina Passage.

Nalageavik: barrier island, see Arey Island.

Nalakachak Creek: stream, flows SW 6.5 miles to Aiautak Lagoon, 10 miles NW of Cape Thompson, Arctic Slope; 68° 15' 55" N, 166° 09' 25" W; BGN 1963; (map 129). Variant: Nalakacheak Creek. Eskimo name recorded in 1960 as "Nalakacheak" by D. C. Foote in connection with Project Chariot studies.

Nalakacheak Creek: stream, see Nalakachak Creek.

Nalikaaurak: locality, on Kangnirvik Creek, 35 miles NW of Kivalina, Brooks Range; 68° 02' N, 164° 05' W; (map 130). Variant: Nalikauzaq, Nellikowrak. Eskimo name referring to a willow grove reported in 1966 by E. S. Burch who relates that it was named for an Eskimo woman who hung herself here.

Nalikauzaq: locality, see Nailikaaurak.

Nalimiu Point: point of land, see Nalimiut Point.

Nalimiut Point: point of land, on SE shore of Peard Bay, 10 miles SE of Franklin Point, Arctic Plain; 70° 48' 30" N, 158° 26' 45" W; (map 147). Variant: Nalimiu Point. Eskimo name reported in 1950 by USC&GS.

Naltuck-an: locality, see Neltushkin.

Naluakruk Lake: lake, 3 miles across, between Teshekpuk Lake and Beaufort Sea, Arctic Plain; 70° 49' 30" N, 153° 33' 30" W; (map 148). Eskimo name (nalukraq?) reported by USGS in 1956, refers in meaning to "a place where swimming caribou are hunted."

Naluk Creek: stream, flows NE 10 miles to Kobuk River, 26 miles NW of Selawik, Hogatza Highlands; 66° 59' N, 160° 06' W; (map 114). Eskimo name obtained by U.S. Army Corps of Engineers in 1955.

Nalvaruk Lake: lake, see Narvakrak, Lake.

Namdak, Utes: rocks, see Lighthouse Rocks.

Name River: stream, see Penny River.

Nameless Creek: stream, flows NE 10 miles to Kokwok River, 33 miles NE of Dillingham, Bristol Bay Lowland; 59° 29' N, 158° 04' W; (map 52). Local name reported by USC&GS in 1950.

Nameless Island: island, 0.2 miles long, in Necker Islands W of Baranof Island, 20 miles S of Sitka, Alexander Archipelago; 56° 47' 10" N, 135° 27' 30" W; (map 5). Variant: Beziemiamnoi Island, Ostrov Bezymyannoy. Translation in 1929 by USC&GS of the name given in 1809 by the navigator Ivan Vasiliev the first, IRN. Lt. Sarichev (1826, map 19), IRN, published "O[strov] Bezymyannoy."

Namtschak Rock: rocks, see Lighthouse Rocks.

Nan-viuk-ka-nuk: lake, see Mikchalk Lake.

Nan-y-vuk-cho-ak: lake, see Grant Lake.

Nan-y-vuk-ha-luk Lake: lake, see Nunavaugaluk Lake.

Nan-y-vuk-hak Lake: lake, see Nunavaugaluk Lake.

Nanana River: stream, see Nenana River.

Nanava-ak Lake: lake, see Nenevok Lake.

Nanavochtshak Lake: lake, 2 miles long, just W of Togiak Lake and 75 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 39' N, 159° 39' W; (map 53). Eskimo name shown on an 1898 fieldsheet by W. S. Post, USGS.

Nancy Lee Creek: stream, flows SW 0.6 miles to New Eldorado Creek, at head of Osborn Creek, 12 miles NE of Nome, Seward Peninsula Highlands; 64° 38' N, 165° 10' W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Nancy, Lake: lake, 3.5 miles long, at Nancy, on The Alaska Railroad, 31 miles N of Anchorage, Cook Inlet Lowland; 61° 41' N, 149° 59' W; (map 69) Name reported about 1917 by builders of The Alaska Railroad on a railroad blueprint.

Nancy: locality, mile 180.7 on The Alaska Railroad, 33 miles N of Anchorage, Cook Inlet Lowland; 61° 41' 40" N, 149° 59' 00" W; (map 69). Name of station stop on The Alaska Railroad published in 1919 Railway Guide Index; derived from nearby Lake Nancy. Recent USGS maps indicate a site with one building.

Nandell's Village: locality, see Nandell.

Nandell: locality, on Tetlin River near Tetlin Lake, Yukon-Tanana Highlands; (map 85). Variant: Nandellas, Nandell's Village. Former Indian village or camp. Called "Nandell's Village," named for its chief, reported to have a population of 86 in 1885, by Lt. H. T. Allen, USA.

Nandellas: locality, see Nandell.

Nando River: stream, see South Fork Kuskokwim River.

Nangmut: locality, between Kagati Lake and Kolchichet Mountain, 75 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 51' N, 160° 12' W; (map 53). Eskimo name shown on an 1898 fieldsheet by W. S. Post, USGS.

Nanikakaya Point: point of land, see Alexai Point.

Nanikax: locality, on E coast of Attu Island, probably on Alexai Point, Aleutian Islands; 52° 49' N, 173° 18' E; (map 13). Archaeological site reported to be an old Aleutian village. It was one of three sites excavated on Attu Island in 1909-10 (Jochelson, 1925, p. 24).

Naniksarak Mountain: hill, 1,800 ft., S of junction of Kanayut and Anaktuvuk Rivers, 43 miles NE of Anaktuvuk Pass, Arctic Slope; 68° 42' 30" N, 151° 08' 00" W; (map 134). Eskimo name obtained at Anaktuvuk Pass in 1956 by T. E. Taylor, USGS.

Nanimak, Ostrov: island, see Chernabura Island.

Naniratkohort Creek: stream, flows SW 8 miles to Ambler River, 20 miles N of Shungnak, Brooks Range; 67° 11' N, 157° 08' W; (map 126). Eskimo name reported by the U.S. Army Corps of Engineers in 1955.

Nankahkwik Creek: stream, flows from Driftwood Slough to Kashunuk River, 37 miles E of Marshall, Yukon-Kuskokwim Delta; 61° 51' N, 163° 15' W; (map 74). Eskimo name shown on a manuscript map of the Kashunuk River by "Father Delon" dated 1937.

Nanning Point: point of land, see Manning Point.

Nanook Creek: stream, heads in Shublik Mountains, flows NW 17 miles to Canning River, 7 miles NW of Mount Copleston and 53 miles NW of Mount Michelson, Arctic Slope; 69° 34' 30" N, 146° 16' 30" W; (map 139). "Nanoq" is the Eskimo name for the "polar bear." The name probably was applied by USGS geologists in the 1950's.

Nanouan Toughat Lac: lake, see Becharof Lake.

Nantok River: stream, part of distributary system of Yukon River, heads at 61° 58' N, 163° 17' W, flows SW 50 miles to Kashunuk River, 18 miles N of Kgun Lake and 58 miles W of Marshall, Yukon-Kuskokwim Delta; 61° 51' 15" N 163° 51' 30" W; (map 74). Eskimo name found on a manuscript map by "Father Delon" and reported by USC&GS in 1951.

Nanuk Lake: lake, 1.5 miles long, between Nechelik and Sagoonang Channels, in Colville River Delta, Arctic Plain, 70° 19' N, 151° 01' W; (map 149). Eskimo name reported in 1951 by USC&GS as "Nanuk Narivanga" meaning "polar bear lake," because "the bears frequent this area to catch fish on the [channel] bars."

Nanuktuk Creek: stream, flows NW 18 miles to Kukaklek Lake, 47 miles SW of Iliamna, Aleutian Range; 59° 08' 29" N, 155° 28' 29" W, (map 51). Local name published on 1951 USGS map

Nanushuk Lake: lake, 0.7 miles across, 2 miles S of the junction of Nanushuk River and Kuhsuman Creek, 35 miles NE of Anaktuvuk Pass Brooks Range; 68° 24' N, 150° 35' W; (map 134). Eskimo name used by USGS geologists during the exploration of Naval Petroleum Reserve No. 4; name given in 1944.

Nanushuk River: stream, heads at a glacier, in Endicott Mountains, 68° 07' 30" N, 150° 45' 05" W, flows N 100 miles to Anaktuvuk River, 28 miles E of Umiat, Arctic Slope; 69° 18' N, 151° 00' W; BGN 1949; (map 141). Eskimo name reported in 1901 by Peters and Schrader (1904, p. 79),USGS. Schrader named an "Upper Cretaceous" rock series for this stream.

Nanva-Nelhook: bay, see Iliuk Arm Naknek Lake.

Nanvak Bay: bay, extends S 4 miles from mouth of Slug River to Bristol Bay, 25 miles W of Hagemeister Island, Kilbuck-Kuskokwim Mountains; 58° 35' N, 161° 45' W; (map 39). Eskimo name from Frank Waskev, trader and prospector; published in 1948 by USGS.

Nanvakfak Lake: lake, 2.5 miles across, 1 mile NW of Goodnews Bay and 13 miles W of Goodnews Kilbuck-Kuskokwim Mountains; 59° 08' N, 161° 54' W; (map 53). Variant: Big Lake, Great Lake. Eskimo name meaning “big lagoon” reported in 1902 by USC&GS field party. The local name “Big Lake” was reported about 1940 by USC&GS. It is also known as “Great Lake.”

Nanvaranak Choa: lake, 1.7 miles across, in course of Kashunuk River, 2.6 miles N of Nuigalak Lake and 36 miles E of Hooper Bay, Yukon-Kuskokwim Delta; 61° 36' N, 164° 43' W; (map 74). Eskimo name referring to “little lake in course of river”; reported by USC&GS in 1951.

Nanvaranak Lake: lake, 5 miles long, in course of Kashunuk River, W of Nuigalak Lake, Yukon-Kuskokwim Delta; 61° 35' N, 164° 45' W; (map 74). Variant: Sohy Bay. Eskimo name that refers to “lake in course of river”; reported by USC&GS in 1951.

Nanvaranak Slough: stream, heads in lake, flows NW 7 miles to Kwipak Pass, 18 miles W of Kwiguk, Yukon-Kuskokwim Delta; 62° 43' 40" N, 163° 56' 15" W; (map 77). Variant: Nahn-var-ahn-ak Slough. Eskimo name obtained in 1948 by USC&GS.

Nanvaranok: locality, see New Hamilton.

Nanvarnaluk: locality, see Nanvarnarluk.

Nanvarnarluk: locality, 8 miles NW of Nunavakpak Lake and 40 miles NW of Bethel, Yukon-Kuskokwim Delta; 60° 55' N, 162° 54' W; (map 58). Variant: Nanvarnaluk. Eskimo camp reported in 1949 by USC&GS.

Nanvarnok: locality, see New Hamilton.

Nanvogalokhlagamute: locality, see Nanvogaloklak.

Nanvogaloklak: locality, on lake which drains to Kvichavak River, Yukon-Kuskokwim Delta; (map 74). Variant: Nanvogalokhlagamute, Nauvogalokhlagamute, Nauvogalokhlagamute, Nunavoknakchlugamiut. Former Eskimo village or camp reported in 1879 as “Nanvogalokhlagamute” by E. W. Nelson, U.S. Signal Service. In the 1880 Census Ivan Petroff recorded “Nauvogalokhlagamute” with a population of 100, but spelled it “Nauvogalokhlagamute” on his map . The 1890 Census lists Nunavoknakchlugamiut, population 107.

Nanwakhchiak Crater: crater, see Nanwaksjiak Crater.

Nanwakhthak Lake: lake, see Nanwaksthak Lake.

Nanwaksjiak Crater: crater, 15 miles N of Cape Mendenhall, 13 miles W of Twin Mountain, Nunivak Island; 60° 01' 45" N, 166° 05' 00" W; (map 57). Variant: Nanwakhchiak Crater, Nanwaxjiak Crater. Eskimo name meaning “deep hole” refers to this deep crater; reported in 1949 by USC&GS.

Nanwaksthak Lake: lake, 0.5 miles across, 5 miles SW of Cape Etolin, on N coast of Nunivak Island; 60° 22' 30" N, 166° 16' 30" W; (map 57). Variant: Nanwakhthak Lake, Nanwaxthak Lake. Eskimo name reported to mean "big lake" in 1949 by USC&GS.

Nanwaxjiak Crater: crater, see Nanwaksjiak Crater.

Nanwaxthak Lake: lake, see Nanwaksthak Lake.

Nanwhyenuk Lake: lake, see Nonvianuk Lake.

Naokok Pass: water passage, between Chukchi Sea and Kasegaluk Lagoon, 21 miles S of Point Lay, Arctic Plain; 69° 27' 30" N, 163° 08' 30" W; (map 145). Variant: Kasegaluk Inlet. Name published by USGS in 1955; named for nearby Naokok. USC&GS reports that the Eskimo refer to it as Kasegaluk, the same name as that of the lagoon.

Naokok: locality, site of Eskimo village on coast of Chukchi Sea, on point of land, near S end of Kasegaluk Lagoon, 19 miles S of Point Lay, Arctic Plain; 69° 29' N, 163° 05' W; (map 145). Variant: Neakok. Eskimo name reported by USGS in 1923. According to a USC&GS field report this place [Neakok] was an old whaling post, now abandoned, consisting in 1949 of two old buildings. The name means "head."

Naouchkak: locality, see Kaguyak.

Naouchlagamut: locality, see Nauklak.

Napachiakachagamut: locality, see Napakiak.

Napachiakachagamut: village, see Napakiak.

Napahaiagamut: locality, see Napakiak.

Napahaiagamut: village, see Napakiak.

Napahaiagamute: village, see Napaiskak.

Napahayagamiut: locality, see Napakiak.

Napahayagamiut: village, see Napakiak.

Napahayagamute: locality, see Napakiak.

Napahayagamute: village, see Napakiak.

Napai: village, see Napaimiut.

Napaimiut: locality, see Napaimute.

Napaimiut: village, pop. 10, on right bank of Kuskokwim River, 28 miles E of Aniak, Kilbuck-Kuskokwim Mountains; 61° 32' 30" N, 158° 41' 30" W; BGN 1945; (map 72). Variant:

Hoffmans, Napai, Napaimut, Napaimute, Napamiute, Napamute. Eskimo and Indian village listed in the 1880 Census with a population of 60; its population was 23 in 1890; and 111 in 1930. The name is reported to mean “forest people.”

Napaimut: village, see Napaimiut.

Napaimute: locality, on south shore of Iliamna Lake 1 mile W of Kakhonak and 22 miles S of Iliamna, Aleutian Range; 59° 26' N, 154° 52' W; (map 51). Variant: Napai, Napaimiut. Former Eskimo village or camp reported in the 1890 Census as “Napaimiut” with a population of 11.

Napaimute: village, see Napaimiut.

Napaishak: village, see Napaiskak.

Napaiskagamut: village, see Napaiskak.

Napaiskak Slough: stream, anabranch of Tupuknuk Slough, flows SW 3.5 miles to Kuskokwim River, 9 miles S of Bethel, Yukon-Kuskokwim Delta; 60° 42' 40" N, 161° 46' 30" W; (map 59). Eskimo name reported in 1948 by USC&GS.

Napaiskak: village, pop. 154, on left bank of Kuskokwim River at mouth of Napaiskak Slough, 6 miles S of Bethel, Yukon-Kuskokwim Delta; 60° 42' 30" N, 161° 54' 30" W; BGN 1941; (map 59). Variant: Napahaiagamute, Napaishak, Napaiskagamut, Napasheagamiut, Napasiak, Napaiskeagamiut, Napaskiagamut, Napaskiagamute, Napaskiak, Napiakmut. (The spelling Napaskiak should be used to conform to present-day local usage.) Eskimo village shown on an 1867 USC&GS map as “Napasiak” located on the right bank of the Kuskokwim River. In the 1880 Census Ivan Petroff lists “Napaskiagamute” with a population of 196. In 1890, “Napasheagamiut” contained 97 persons; in 1939, 67; and in 1950, 121. The present spelling of the name was first used in 1898 by J. H. Kilbuck, Moravian missionary. In 1956 the village had a Russian Orthodox church, school and about 30 dwellings (Oswalt, 1963, map and p. 11). Note: The spelling “Napaskiak” should be used to conform to present-day local usage.

Napakiak: locality, on right bank of Johnson River near its mouth, 14 miles SW of Bethel Yukon-Kuskokwim Delta; 60° 41' N, 162° 07' W; (map 58). Variant: Napachiakachagamut Napahaiagamut, Napahaiagamute, Napahayagamiut, Napahayagamute. Former Eskimo village or camp recorded in 1878 as “Napahaiagamut” by E. W. Nelson, U.S. Signal Service. In the 1880 Census Ivan Petroff reported “Napahaiagamute” with a population of 98, and in 1898 W. S. Post recorded “Napachiakachagamut.”

Napakiak: village, pop. 190, on right bank of Kuskokwim River, 10 miles SW of Bethel Yukon-Kuskokwim Delta; 60° 42' N, 161° 57' W; (map 59). Variant: Napachiakachagamut Napahaiagamut, Napahaiagamute, Napahayagamiut, Napahayagamute, Napakiakachagamut, Napakiakamute, Napakiarek. Eskimo village reported as “Napahaiagamute” by E. W. Nelson, U.S. Signal Service, in December 1878; the 1880 Census gave the village population as 98. The name was spelled “Napahayagamiut” in the 1890 Census, but J. E. Spurr and W. S. Post, USGS, showed the name as “Napachiakachagamut” from information received from J. H. Kilbuck, a Moravian missionary. The village population had increased to 139 in 1950 and the Napakiak post office was

established in 1951 (Ricks, 1965, p. 44). Today, the village has a church, a school and about 12 dwellings.

Napakiakachagamut: village, see Napakiak.

Napakiakamute: village, see Napakiak.

Napakiarek: village, see Napakiak.

Napaklulik: locality, on Mangoak River, SE of Selawik Lake, Kotzebue-Kobuck Lowland; 66° 20' N, 160° 20' W; (map 14). Variant: Nahpark-lu-lik. Former Eskimo village or camp recorded in 1886 as "Nah-park-lu-lik" by Lt. G. M. Stoney, USN.

Napaktualuit Lake: lake, 0.7 miles long, at western base of Napaktualuit Mountain, 5 miles NE of Anaktuvuk Pass, Brooks Range; 68° 10' N, 151° 34' W; (map 134). Eskimo name obtained at Anaktuvuk Pass in 1956 by T. E. Taylor, USGS.

Napaktualuit Mountain: mountain, 5,840 ft., E of Anaktuvuk River, 6 miles NE of Anaktuvuk Pass, Brooks Range; 68° 10' N, 151° 30' W; (map 134). Eskimo name obtained at Anaktuvuk Pass in 1956 by T. E. Taylor, USGS.

Napaktuktuk Mountain: hill, 436 ft., NW of Noatak River delta, 13 miles N of Kotzebue Kotzebue-Kobuck Lowland; 67° 05' N, 162° 41' W, (map 128). Variant: Na-pac-took-took Mountain. Eskimo name meaning "many trees" according to USC&GS in 1950.

Napamiute: village, see Napaimiut.

Napamute: village, see Napaimiut.

Napanik Creek: stream, flows N 7 miles to Avalik River, 43 miles SE of Wainwright, Arctic Plain; 73° 05' N, 159° 10' W; (map 146). Eskimo name recorded at Wainwright in 1956 by T. E. Taylor, USGS. Orth was told in 1965 that "Napanik" is the name of the man who died at the mouth of the stream "long ago."

Naparagamiut: village, see Hooper Bay.

Napareayak Slough: stream, flows S 5 miles past village of Hooper Bay to Hooper Bay, Yukon-Kuskokwim Delta; 61° 31' 40" N, 166° 05' 15" W; (map 75). Eskimo name, meaning "little stakes," reported by USC&GS in 1951.

Naparacheak: locality, site of Eskimo village on Chukchi Sea coast, on barrier reef 15 miles NE of Point Lay, Arctic Plain; 69° 57' N, 162° 45' W; (map 145). Eskimo name reported by USGS in 1923.

Napasiak: village, see Napaiskak.

Napaskeagamiut: village, see Napaiskak.

Napaskiagamiut: village, see Napaiskak.

Napaskiagamut: village, see Napaiskak.

Napaskiagamute: village, see Napaiskak.

Napaskiak: village, see Napaiskak.

Napatolik Creek: stream, flows SW 11 miles to Selawik Lake, 14 miles W of Selawik, Kotzebue-Kobuk Lowland; 66° 37' N, 160° 30' W; (map 114). Eskimo name obtained by U.S. Army Corps of Engineers in 1955.

Napatorak Creek: stream, in DeLong Mountains, flows SSE 20 miles to Kelly River, 40 miles SE of Mount Kelly, Brooks Range; 68° 12' N, 162° 13' W; (map 130). Eskimo name, means "small trees"; name obtained in 1956 at Noatak by Orth.

Napatuk Creek: stream, heads at 60° 33' N, 163° 00' W, flows SE 36 miles to Kuskokwim River, 20 miles NW of Eek and 35 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 25' N, 162° 25' W; (map 58). Variant: Meroyuk River. Eskimo name reported in 1925 by USGS. The name "Meroyuk" was reported as local usage by USC&GS in 1949.

Napautokik Creek: stream, flows S 5 miles to Kobuk River, 26 miles N of Selawik, Kotzebue-Kobuk Lowland; 66° 58' N, 160° 11' W; (map 114). Eskimo name obtained by U.S. Army Corps of Engineers in 1955.

Napawrax: locality, area on Chukchi Sea coast between Kugoosuguru and Natirnuq, 9 miles SW of Barrow, Arctic Plain; 71° 11' N, 157° 01' W; (map 153). Variant: Nunaktuau. Eskimo locality or camp name published by Spencer (1959, map 2) in the same general area as "Nunaktuau," listed by Lt. P. H. Ray (1885, p. 55). Hodge (1910, p. 97) lists "Nunaktuau * * * Eskimo summer village," which he locates near Walakpa Bay.

Napean, Point: point of land, at entrance to Eliza Harbor, on SE coast of Admiralty Island, 22 miles SE of Angoon, Alexander Archipelago; 57° 08' 35" N, 134° 16' 45" W; (map 9). Variant: Nepean Point, Nepen Point, Nepken Point. Named in 1794 by Capt. George Vancouver, RN, for Evan Nepean of the British Admiralty (Wagner, 1937, p. 399). Lt. Joseph Whidbey of Vancouver's party explored the point on August 3, 1794. On Vancouver's original chart and the French copy of it, the name was spelled "Nepean," and this form was widely used. However, in his text, Capt. Vancouver spelled it "Napean."

Napi: locality, see Napaimute.

Napiakmut: village, see Napaiskak.

Napoleon Creek: stream, flows SW 7 miles to South Fork Fortymile River, 50 miles SW of Eagle, Yukon-Tanana Highlands; 64° 06' 30" N, 141° 44' 30" W; (map 102). Variant: Napoleon Gulch. Named by prospectors and reported in 1896 by Spurr (1898, pl. 47), USGS. "Napoleon Gulch, named after the Frenchman who located it, is rich in nuggets" (Ogilvie, 1897, p. 8).

Napoleon Creek: stream, see Maryland Creek.

Napoleon Gulch: stream, see Napoleon Creek.

Napotoli Creek: stream, flows E 20 miles to Nushagak River, 65 miles NE of Dillingham, Bristol Bay Lowland; 59° 48' N, 157° 25' W; BGN 1931; (map 52). Eskimo name obtained in 1930 from F. H. Waskey and Beverly Polley, local inhabitants, by Gerald FitzGerald, USGS.

Nappy Creek: stream, flows NE 0.5 miles to Ophir Creek which flows to Niukluk River, 11 miles of Council and 15 miles SE of Mount Bendeleben, Seward Peninsula Highlands; 65° 03' N, 163° 41' W; (map 110). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Naptowne Lodge: suburb, see Naptowne.

Naptowne: suburb, of Sterling on Sterling Highway, 1.5 miles ESE of Sterling, 19 miles ESE of Kenai, Cook Inlet Lowland; 60° 30' 30" N, 150° 43' 30" W; (map 62). Variant: Naptowne Lodge. Name published in 1965 by USGS. This village was reported in 1959 by USGS as Naptowne Lodge.

Naptowne: village, see Sterling.

Nargosakchokowik: locality, see Nagosakchowik.

Nargosakchokowik: stream, see Nagosakchowik Slough.

Nariksiut River: stream, heads in Ingrilukat Hills, flows NW 16 miles to Bering Sea at Nariksiut, 40 miles NW of Cape Mendenhall, on N coast of Nunivak Island; 60° 24' N, 166° 43' W; (map 57). Variant: Narixmiut River. Eskimo name obtained in 1949 by USC&GS.

Nariksiut: locality, at mouth of Nariksiut River, 40 miles NW of Cape Mendenhall, Nunivak Island; 60° 24' N; 166° 43' W; (map 57). Variant: Narixmiut. Eskimo camp reported in 1949 by USC&GS.

Naringolapak Slough: distributary, in Yukon Delta, extends N-S 12 miles between Kwikluak and Kwikpak Passes, 14 miles E of Kwiguk, Yukon-Kuskokwim Delta; 62° 48' 10" N, 164° 05' 10" W; (map 77). Eskimo name obtained in 1899 by G. R. Putnam, USC&GS. Published in 1901 on Chart 9372.

Naringolapak Slough: watercourse, see Takwaklanuk Slough.

Narivakvak: lake, see Chandler Lake.

Narivakvuk: lake, see Chandler Lake.

Narivukpuk Lake: lake, see Neruokpuk Lakes.

Narixmiut River: stream, see Nariksiut River.

Narixmiut: locality, see Nariksiut.

Nariyauck River: stream, heads in lake, flows SW 15 miles to Kashunuk River, 29 miles E of village of Hooper Bay, Yukon-Kuskokwim Delta; 61° 26' N, 165° 15' W; (map 75). Eskimo name reported by USC&GS in 1951.

Naroam-anyi: lake, see Atka Lake.

Naroam-unga: bluff, just E of Rush Point, on SW coast of Saint George Island, in Pribilof Islands; 56° 35' 15" N, 169° 43' 30" W; (map 38). Aleut name, meaning "Atka natives' trail," reported by Putnam (1903, p. 1015), USC&GS. "The tradition is that natives of Atka who had been taken to Saint Paul by the Russians left Saint Paul in their bidarkas, intending to return to Atka. They landed on the beach below this point, not knowing where they were, and hauled their bidarkas up on the bluff and spent the night on top. They then went to Zapadni where they lived for a time, and were later taken to Atka by the Russians. This place does not seem to offer a safe place of descent at present."

Narogurum River: stream, see Kemuk River.

Narokachik River: stream, heads in a lake at 61° 01' N, 164° 15' W, flows NW 40 miles to Azun River, 2 miles E of Hazen Bay, Yukon-Kuskokwim Delta; 61° 05' N, 164° 51' W; (map 74). Variant: Narokachuk Creek. Eskimo name reported by USC&GS in 1949.

Narokachuk Creek: stream, see Narokachik Creek.

Naros Bay: bight, see Beyer Bay.

Narosigagamieut: locality, see Nagosakchowik.

Narosigak: locality, see Nagosakchowik.

Narosigak: stream, see Nagosakchowik Slough.

Narrow Cape: point of land, E point of entrance to Ugak Bay, 3 miles N of Ugak Island, on E coast of Kodiak Island, 57° 25' 30" N, 152° 20' 00" W; (map 34). Variant: Cape Hollings, Low Cape, Mys Tonkie, Mys Tonkiy, Tonkeye, Tonkie. Named "Cape Hollings" in 1788 or 1789 by Meares (1790, p. 304). See Wagner (1937, p. 462). In 1804 Lisianski (1814, p. 169) gave the descriptive name "Narrow Cape." About 1808-10 Lt. G. A. Sarichev published "Mys Tonkiy," a Russian translation of the present name. In 1869 USC&GS identified it as "Low Cape."

Narrow Cape: spit, see Unga Spit.

Narrow Cove: cove, 5 miles long, at E end of Kukaklek Lake, 42 miles S of Iliamna, Aleutian Range; 59° 09' N, 155° 05' W; (map 51). Descriptive name published by USGS in 1926

Narrow Creek: stream, flows NW 0.6 miles to Red Bay, on N coast of Prince of Wales Island, Alexander Archipelago; 56° 16' 35" N, 133° 19' 15" W; (map 6). Named in 1886 by Lt. J. M. Helm, USN, for charting purposes; name published in 1887 on USC&GS Chart 706.

Narrow Pass: water passage, 1.2 miles long, off Behm Canal, between Revillagigedo and Rudyerd Islands, Alexander Archipelago; 55° 18' 00" N, 131° 02' 45" W; (map 3). Descriptive name given in 1891 by USC&GS.

Narrow Point: point of land, on E coast of Prince of Wales Island, 8 miles W of Lemesurier Point, Alexander Archipelago; 55° 47' 30" N, 132° 28' 30" W; (map 4). Variant: Mys Tonkiy, Point Tonkey, Tonki Point. This is a translation of "M[ys] Tonkiy"; published in 1853 on Russian Hydrog. Dept. Chart 1493.

Narrow Point: point of land, see Tonki Point.

Narrow Point: point of land, see Uzkosti Point.

Narrow Strait: water passage, 7 miles long, between Spruce Island and NE coast of Kodiak Island; 57° 54' N, 152° 27' W; (map 34). Variant: Elovoi Strait, Proliv Maloy Malinovoy, Proliv Uzenkiy, Proliv Uzenkoy ili Yelovoy, Prolivchik Uzinkoy, Spruce Strait, Usinka Narrows, Uzenkoi Strait. Partial translation of the name "Proliv Uzenkoy ili Yelovoy," meaning "narrow or spruce strait" given by Sub-Lt. M. Murashev, IRN, in 1839 or 1840 and published in 1849 on Russian Hydrog. Dept. Chart 1425.

Narrows Mountain: mountain, 2,075 ft., on Annette Island, W of Cascade Inlet, Alexander Archipelago; 55° 10' 50" N, 131° 24' 25" W; (map 3). Named in 1883 by Lt. Cmdr. H. E. Nichols, USN; derived from Tongass Narrows.

Narrows Peak: peak, 2,600 ft., on SW side of Petersburg Mountain on Lindenberg Peninsula, Kupreanof Island, 2.2 miles NW of Petersburg, Alexander Archipelago; 56° 50' 18" N, 132° 59' 00" W; (map 6). Named in 1887 by Lt. Cmdr. C. M. Thomas, USN, for charting purposes; published in 1888 on USC&GS Chart 705.

Narrows Point: point of land, on NE coast of Little Tanaga Island, Aleutian Islands; 51° 51' 15" N, 176° 04' 05" W; BGN 1936; (map 17). Descriptive name given by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

Narrows Point: point of land, see Uzkosti Point.

Narrows, The: water gap, of Hodzana River, 32 miles NW of Beaver, Kokrines-Hodzana Highlands; 66° 39' N, 148° 17' W; (map 118). Local descriptive name obtained in 1956 by USGS.

Narrows, The: water passage, 0.1 miles wide, S of Ismailof Island, connecting Halibut Cove and Kachemak Bay, 11 miles SE of Homer, Chugach Mountains; 59° 35' 45" N, 151° 14' 00" W; (map 50). Local name reported by USGS or USC&GS in the 1940's.

Narrows, The: water passage, 1 mile long, between SW coast of Prince of Wales Island and NE islands of Barrier Islands, Alexander Archipelago; 54° 49' N, 132° 22' W; (map 1). Named by Lt. Comdr. J. F. Moser, USN, in 1897.

Narrows, The: water passage, 1 mile long, on Windham Bay, 5 miles E of Point Windham and 60 miles SW of Juneau, Coast Mountains; 57° 35' 10" N, 133° 26' 45" W; (map 8). Local name reported in 1951 by USGS.

Narrows, The: water passage, between Blake Channel and Eastern Passage, on E coast of Wrangell Island, Alexander Archipelago; 56° 22' N, 132° 06' W; (map 6). Named in 1917 by USC&GS.

Narrows, The: water passage, between Little Raspberry and Afognak Islands, Kodiak Island; 58° 00' N, 152° 53' W; (maps 34, 43). Local descriptive name reported in 1952 by USGS.

Narrows, The: water passage, in S part of Port Frederick, 11 miles SW of Hoonah, on N central Chichagof Island, Alexander Archipelago; 57° 59' 20" N, 135° 38' 30" W; (map 9). Descriptive name published by USC&GS in the 1943 Coast Pilot (p. 417).

Narrows, The: water passage, NW of N tip of Hawkins Island, 5 miles NW of Cordova, Chugach Mountains; 60° 37' N, 145° 47' W; (map 64). Named in 1897 by Lt. Cmdr. J. F. Moser, USN, while doing hydrographic studies along the coast of Alaska.

Narrows, The: water passage, see Olga Narrows.

Narrows, The: water passage, see Sitkalidak Passage.

Narrows, The: watercourse, 0.3 miles wide, in Galena Bay, 42 miles NW of Cordova, Chugach Mountains; 60° 57' N, 146° 39' W; (map 64). Local name reported in 1912 by Capps and Johnson (1913, pl. 4), USGS.

Narvakra, Lake: lake, 3 miles long, in Noatak River Valley, 3 miles N of Noatak Canyon, 43 miles NE of Noatak, Brooks Range; 68° 00' N, 161° 43' W; (map 127). Variant: Nalvaruk Lake. Eskimo name meaning "great old lake," obtained in 1956 at Noatak by Orth.

Narvaqpak Lake: lakes, see Neruokpuk Lakes.

Narwhal Island: barrier island, 2 miles long on Beaufort Sea coast, northern island of McClure Islands, 38 miles E of Beechey Point. Arctic Plain, 70° 23' 45" N, 147° 28' 50" W; (map 150). Named by Leffingwell (1919, p. 14, 97) after the whaleship Narwhal, on which he "returned to civilization in the fall of 1908, as the guest of Capt. George Leavitt."

Nasak, Mount: peak, 2,126 ft., in Lisburne Hills, 13 miles SE of Cape Dyer, Arctic Slope; 68° 34' 30" N, 165° 45' 50" W; (map 129). Eskimo descriptive name meaning "cap" reported in 1956 by Orth.

Nasanki Harbor: anchorage, see Pavlof Harbor.

Nasaugluk: village, see Togiak.

Nasaurak Mountain: mountain, 2,979 ft., on W side of Anaktuvuk River, 14 miles N of Anaktuvak Pass, Brooks Range; 68° 20' N, 151° 37' W; (map 134). Eskimo name obtained at Anaktuvuk Pass in 1956 by T. E. Taylor, USGS.

Nasauzaq: hill, see Nasorak Hill.

Naseleniya, Mys: point of land, see Possession, Point.

Nash Harbor: bay, 3 miles across from Cape Alonquin to Chingeruk Point, 25 miles SW of Cape Etolin, on N coast of Nunivak Island, 60° 15' 00" N, 166° 52' 30" W; (map 57). Local name reported in 1902 by USC&GS.

Nash Harbor: village, pop. 49 (1950), on SW shore of Nash Harbor, 32 miles SW of Cape Etolin, on Nunivak Island; 60° 12' 15" N, 166° 56' 15" W; (map 57). Eskimo village shown on a 1937 manuscript map of Nunivak Island; name derived from that of the cove.

Nashak Lake: lake, 6.5 miles long, on S bank of Kuyungsik River, SE of Nuigalak Lake, Yukon-Kuskokwim Delta; 61° 26' N, 164° 48' W; (map 74). Eskimo name referring to a "coat (or parka) hood"; obtained at Chevak by Orth in 1965.

Nasikach Island: island, see Twoheaded Island.

Nasikan Island: island, see Twoheaded Island.

Naskak Camp: locality, on Bering Sea coast, near W end of Niyrakpak Lagoon, 12 miles SE of Gambell, St. Lawrence Island; 63° 39' N, 171° 29' W; BGN 1951; (map 93). Variant: Naskok. Eskimo name reported in 1932 by O. W. Geist, Univ. of Alaska. Its meaning is unknown.

Naskok: locality, see Naskak Camp.

Naskonat Peninsula: peninsula, extends into Bering Sea, just N of Ningaluk River, 110 miles W of Bethel, Yukon-Kuskokwim Delta; 61° 00' N, 165° 00' W; (map 57). Eskimo name meaning "small hand" obtained at Tanunak in 1951 by USC&GS.

Naskowhak, Point: point of land, at W entrance to Seldovia Bay, 1.5 miles NW of Seldovia, Chugach Mountains; 59° 27' 30" N, 151° 44' 30" W; BGN 1908; (map 50). Kenai Indian name reported by USC&GS in 1908.

Nasoaruk Creek: stream, see Nasorak Creek.

Nasorak Creek: stream, flows SW 4 miles to Chukchi Sea, 1.4 miles W of Crowbill Point and 4 miles SE of Cape Thompson, Arctic Slope; 68° 06' 30" N, 165° 51' 05" W; BGN 1963; (map 129). Variant: Nasoaruk Creek, Nusoaraq Creek, Nusoaruk Creek. Eskimo name reported as "Nu-soa-ruk" in 1950 by USC&GS.

Nasorak Hill: hill, 610 ft., 7 miles S of Jarvis Mountain and 12 miles NE of Kivalina, Arctic Slope; 67° 49' N, 164° 06' W; (map 128). Variant: Nasauzaq, Nasowrak. Eskimo name meaning "little hood" reported in 1966 by E. S. Burch.

Nasowrak: hill, see Nasorak Hill.

Nassau Fiord: estuary, on E coast of Kenai Peninsula, trends SE 4 miles to Icy Bay, 8.5 miles SW of Chenega, Chugach Mountains; 60° 14' 30" N, 148° 20' 00" W; BGN 1910; (map 63). Named about 1910 by G. W. Perkins (possibly of the Alaska Steamship Company).

Nataga Creek: stream, heads on E side of Mount Seltat, on Alaska-Canada boundary, flows SE 11 miles to Kellsall River, 28 miles NW of Skagway, St. Elias Mountains; 59° 32' 20" N, 136° 06' 00" W; BGN 1922; (map 45). Variant: Natagehin Creek. Tlingit Indian name reported as Natagehin by Aurel and Arthur Krause (1883, map). The "hin" or "hini" termination means "creek."

Natagehin: stream, see Nataga Creek.

Natalia Bay: bay, extends NE 3.5 miles off Sitkalidak Strait, on SW coast of Sitkalidak Island, SE of Kodiak Island; 57° 04' N, 153° 21' W; BGN 1934; (map 34). Named in 1934 by USC&GS, "in honor of Madame Natalia Shelikov, wife of Capt. Grigori Ivanovich Shelikov, and his companion in all his travels * * *. After Shelikov's death in 1795, Madame Natalia succeeded him as manager of the Russian American Company."

Natalia Island: island, 2,000 ft. long, between Soda Bay and Tlevak Strait, on W coast of Prince of Wales Island, Alexander Archipelago; 55° 14' 15" N, 133° 01' 45" W; BGN 1934; (map 4). Variant: Nathalie Island, Natalie Island. Named in 1928 by USFS for Natalia Shelikov, wife of Grigori Ivanovich Shelikov. See Natalia Bay and Shelikov Strait.

Natalia Peninsula: peninsula, 4 miles long, on SW coast of Sitkalidak Island, SE of Kodiak Island; 57° 05' N, 153° 22' W; BGN 1934; (map 34). Named in 1934 by USC&GS, "in honor of Madame Natalia Shelikov * * *." See Natalia Bay.

Natalia Point: point of land, S point of entrance to Soda Bay, on W coast of Prince of Wales Island, Alexander Archipelago; 55° 14' 00" N, 133° 02' 20" W; BGN 1934; (map 4). Variant: Nathalie Point. Named in 1928 by USFS for Natalia Shelikov, wife of Grigori Ivanovich Shelikov. See Natalia Bay and Shelikov Strait.

Natalia Point: point of land, S tip of Natalia Peninsula on SW coast of Sitkalidak Island, SE of Kodiak Island; 57° 04' N, 153° 23' W; BGN 1934; (map 34). Named in 1934 by USC&GS, "in honor of Madame Natalia Shelikov * * *." See Natalia Bay.

Natalie Island: island, see Natalia Island.

Natalie, Mount: mountain, see Nathalie Mountain.

Nataroarak Creek: stream, heads in lake and flows N 25 miles to Camden Bay, 3 miles SW of mouth of Hulahula River and 12 miles SW of Barter Island, Arctic Plain; 70° 02' 10" N, 144° 10' 40" W; (map 151). Eskimo name reported by USGS in 1956.

Natat Creek: stream, heads in Mentasta Mountains, flows NW 14 miles to Slana River 3.2 miles NE of its junction with Copper River, Alaska Range; 62° 43' N, 143° 52' W; (map 84). Indian name reported in 1903 by F. C. Schrader, USGS.

Natat Creek: stream, see Rufus Creek.

Natazhat Glacier: glacier, 4 miles long, trends NE from Mount Natazhat, Alaska, to head of Kletsan Creek, Canada, St. Elias Mountains, 61° 33' N, 141° 55' W; BGN 1953; (map 67). Variant: Kletsan Glacier, Klutson Glacier. Named in 1912 by Thomas Riggs, Jr., IBC; named after Mount Natazhat.

Natazhat, Mount: peak, 13,435 ft., at head of Natazhat Glacier, 61 miles NE of McCarthy, St. Elias Mountains; 61° 31' N, 141° 06' W; BGN 1917; (map 67). Indian name reported in 1891 by Hayes (1892, sheet 2), USGS.

Natcheck: locality, see Nuchek.

Natcheck: locality, see Nuchek.

Nateekin Bay: bay, 1 mile across, in Unalaska Bay, N coast of Unalaska Island, Aleutian Islands; 53° 53' N, 166° 36' W; (map 23). Variant: Natiekinshaia, Natykin, Natykinskaya. Aleut name recorded by Father Veniaminov (1840, v. 1, p. 163) as “Natykinskaya” or “Natykin.” It was published in 1875 with the present spelling by USC&GS.

Nateekin: locality, at the head of Nateekin Bay in Unalaska Bay, Unalaska Island, Aleutian Islands; (map 23). Variant: Natiekinskoe, Selo Natyka, Natieka. Former Aleut name published as “Sel[o] Natyka” or “Natyka village” by Lt. Sarichev (1826, map 14), IRN. Father Veniaminov (Baker, 1906, p. 455) reported “Natiekinskoe,” and says it consists of two huts (yourts) and 15 people.”

Nathalie Island: island, see Natalia Island.

Nathalie Mountain: mountain, see Nathlie Mountain.

Nathalie Point: point of land, see Natalia Point.

Nathlie Mountain: mountain, 6,910 ft., N of Sanford Glacier, 10 miles SW of Mount Sanford and 33 miles SE of Gulkana, Wrangell Mountains; 62° 09' N, 144° 24' W; (map 83). Variant: Mount Natalie, Nathalie Mountain. Name reported in 1898 as “Mount Natalie” by Capt. W. F. Abercrombie (1899, p. 312), USA. The “Nathlie” spelling was published by Schrader (1900, map 20), USGS.

Natieka: village, see Nateekin.

Natiekinshaia: bay, see Nateekin Bay.

Natiekinskoe: village, see Nateekin.

Natinakunit Pass: pass, 1,650 ft., in DeLong Mountains, between Nimiuktuk and Anisak Rivers, Brooks Range; 68° 26' N, 159° 42' W; (map 131). Eskimo name reported by USGS in 1956.

Nation City: locality, see Nation.

Nation Point: point of land, NW tip of Coronation Island, Alexander Archipelago; 55° 55' 45" N, 134° 20' 05" W; (map 4). Named in 1886 by Lt. Cmdr. Snow, USN.

Nation Reef: island, 2 miles long, in Yukon River at mouth of Fourth of July Creek, 34 miles NNW of Eagle, Yukon-Tanana Highlands; 65° 12' N, 141° 50' W; (map 103). Variant: Rock of Ages. Local name published in 1956 by USGS. The generic "reef" may refer to rock stratum that extends into or across the Yukon River at this point and may be the same stratum that J. B. Mertie, Jr., USGS, called "Rock of Ages" in 1937.

Nation River: stream, heads in Canada at 65° 35' N, 140° 23' W, flows SW 50 miles to Yukon River, 32 miles NW of Eagle, Porcupine Plateau; 65° 12' N, 141° 43' W; (map 103). Variant: Tahkandik River, Tahkandit River, Takondit River. Lt. Schwatka (1885, sheet 8), USA, first mapped this stream in 1883 using the Indian name "Tahkandik." Spurr (1898, pl. 38), USGS, spelled the name "Tahkandit," but the English name, reported as early as 1896 by F. C. Schrader, USGS, soon became fixed. The stream had some prominence from 1897 to 1898 because of a coal mine located near its mouth.

Nation: locality, on S bank of Yukon River, 2.2 miles below mouth of Nation River, Yukon-Tanana Highlands; 65° 12' 10" N, 141° 47' 20" W; (map 103). Variant: Nation City. Former mining settlement and river landing for the Fourth of July Creek placer mining area. As early as 1900, Lt. John Cantwell reported the existence of the settlement, but it never developed into a large permanent population.

National Creek: stream, flows W 2.6 miles to Kennicott Glacier, 4 miles NE of McCarthy, Wrangell Mountains; 61° 29' N, 142° 53' W; (map 67). Local name published on a manuscript map of the Copper River and Northwestern Railway, Chitina Branch Line, dated 1909.

Natirnuq: locality, area on Chukchi Sea coast between Walakpa Bay and Napawrax, 10 miles SW of Barrow, Arctic Plain; 71° 10' N, 157° 03' W; (map 153). Variant: Ippersua. Eskimo locality or camp name published by Spencer (1959, map 2). It is in the same general area that Lt. P.H. Ray (1885, p. 55) lists the name "Ippersua."

Native Creek: stream, flows NW 0.8 miles to Ophir Creek which flows to Niukluk River, 3 miles NNW of Council and 35 miles NE of Solomon, Seward Peninsula Highlands; 64° 56' N, 163° 42' W; (map 95). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Native Creek: stream, flows S 4 miles to Barnum Creek, 13 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains 59° 16' N, 161° 23' W; (map 53). Local name published in 1954 by USGS.

Native Hill: hill, 408 ft., 2 miles SE of Newton Peak and 6 miles NE of Nome, Seward Peninsula Highlands; 64° 33' N, 165° 15' W; (map 94). Local name published in 1956 by USGS.

Natlavtlen River: stream, flows SW 44 miles to Nikolai Slough, 40 miles SW of Roundabout Mountain, Koyukuk Lowland; 65° 02' N, 157° 10' W; (map 108). Koyukan Indian name reported in 1955 by USGS.

Natmotirak Creek: stream, heads at 67° 36' N, 159° 00' W, flows NE 24 miles to Kaluich Creek, 48 miles SW of Howard Pass, Brooks Range; 67° 46' N, 158° 24' W; (map 126). Eskimo name meaning “old pack route,” as reported to Orth at Noatak in 1956. This name is similar to the Eskimo name for the Ambler River.

Natnohoka Creek: stream, in the Dulbi Flats, 2 miles E of Boatmakers Creek, flows NW 6 miles to Nayuka River, 24 miles WNW of Hochandochtla Mountain, Kokrines-Hodzana Highlands; 65° 38' N, 155° 40' W; (map 107). Koyukan Indian name obtained at Huslia in 1956 by Orth.

Natoa Island: island, 1.5 miles long, 2 miles SE of Harbor Island, in Gulf of Alaska, 34 miles S of Seward, Chugach Mountains; 59° 38' 30" N, 149° 36' 30" W; BGN 1930; (map 49). Variant: High Island. Named by the 1912 USC&GS field party; it is an “Eskimo word meaning 'summit,' this being the highest spot on any island in this vicinity.”

Natohona Creek: stream, flows W 10 miles to Tok River 11 miles NW of its junction with Little Tok River and 25 miles SW of Tok, Alaska Range; 63° 07' 30" N, 143° 41' 00" W; BGN 1936; (map 85). Indian name reported by USGS in 1936.

Natoma Bay: bay, extends NW 2.3 miles off Cordova Bay, on E coast of Long Island, Alexander Archipelago; 54° 52' N, 132° 38' W; BGN 1929; (map 1). Named in 1928 by USC&GS for the steamer Natoma, used for surveys in this area.

Natoma Point: point of land, N point of entrance to Natoma Bay, on E coast of Long Island, Alexander Archipelago; 54° 52' 15" N, 132° 37' 28" W; BGN 1929; (map 1). Named in 1928 by USC&GS for the steamer Natoma.

Natrahazuivun Lake: lake, 1.5 miles long, 1 mile S of Black River and 23 miles NE of Fort Yukon, Yukon Flats; 66° 38' 20" N, 144° 27' 00" W; (map 119). Kutchin Indian name obtained in 1956 by T. E. Taylor, USGS.

Natravak Lake: lake, see Galbraith Lake.

Natural Arch: natural bridge, 50-ft. arch, composed of volcanic rock, at S edge of point where Bering Glacier heads at Bagley Icefield, 30 miles N of Cape Yakataga, St. Elias Mountains; 60° 29' 30" N, 142° 23' 30" W; BGN 1960; (map 65). Name recorded on field notes in 1913 by A. G. Maddren, USGS.

Natural Bridge: natural bridge, with opening about 20 ft. in diameter, 1.5 miles W of Nimrod Peak and 19 miles N of Eagle, Porcupine Plateau; 65° 04' 07" N, 141° 07' 00" W; BGN 1965; (map 103). Name proposed in 1965 by Earl Brabb, USGS.

Natural Hill: hill, 300 ft., on north-central Little Kiska Island, Aleutian Islands; 51° 57' 45" N, 177° 38' 35" E; (map 14). An arbitrary name beginning with “N” to correspond to “N” grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map .

Natvakra Lakes: lakes, two, largest of which is 1 mile long, between Ivisaruk and Kaolak Rivers, 45 miles S of Wainwright, Arctic Plain; 70° 00' N, 160° 25' W; (map 146). Eskimo name recorded at Wainwright in 1956 by T. E. Taylor, USGS; means “lakes.”

Natvakruak Creek: stream, flows NW 20 miles from Natvakruak Lake to Siksikpuk River, 36 miles N of Anaktuvuk Pass, Arctic Slope; 68° 38' 15" N, 152° 00' 30" W; (map 134). Named in 1950 by W. W. Patton and A. S. Keller, USGS, for the lake at the stream's head.

Natvakruak Lake: lake, 1.3 miles across, at head of Natvakruak Creek, 3 miles NW of Nasaurak Mountain and 11 miles N of Anaktuvuk Pass, Arctic Slope; 68° 22' N, 151° 42' W; (map 134). Eskimo name, meaning "old lake [narvakruak]," reported in 1945 by USGS.

Natvakruak Lake: locality, near Anaktuvuk Pass, in the Endicott Mountains, Brooks Range; 68° 15' N, 151° 45' W; (map 134). Eskimo name for an archeological site reported in 1950 by Ralph Solecki (in Giddings, 1964, p. 263).

Natvaksukruk Hill: mountain, see Outpost Mountain.

Natvatchiak Hill: mountain, elev. 1,355 ft., between Chandler and Kutchik Rivers, 13 miles S of Umiat, Arctic Slope; 69° 11' N, 151° 53' W; (map 141). Eskimo name reported in 1956 by T. E. Taylor, USGS.

Natyka: village, see Nateekin.

Natykin: bay, see Nateekin Bay.

Natykinskaya: bay, see Nateekin Bay.

Natzuhini Bay: estuary, extends N 4.3 miles off Sukkwan Strait, on W coast of Prince of Wales Island N of Hydaburg, Alexander Archipelago; 55° 13' N, 132° 51' W; (map 4). Indian name published in 1965 by USC&GS.

Naugeik: village, see Naknek.

Naugolka Point: point of land, between Viekoda Bay and E end of Uganik Passage, on N coast of Kodiak Island; 57° 53' 30" N, 152° 13' 40" W; (map 34). Native name published in 1943 by USC&GS.

Naugvik: village, see Naknek.

Naukatee Bay: bay, see Naukati Bay.

Naukati Bay: bay, 2.4 miles long, off Tuxekan Passage, W coast of Prince of Wales Island, Alexander Archipelago; 55° 51' 20" N, 133° 11' 00" W; (map 4). Variant: Naukatee Bay. Named "Naukatee Bay" in 1904 by E. F. Dickins, USC&GS, who wrote "Indian name for this inlet from information given by Capt. Cyrus Orr."

Naukati Creek: stream, heads in lake, flows W 3.5 miles to Naukati Bay, W coast of Prince of Wales Island, Alexander Archipelago; 55° 53' 18" N, 133° 08' 45" W; (map 4). Local name recorded in 1949 by USGS.

Nauklagamut: locality, see Nauklak.

Nauklak: locality, on Alaska Peninsula, in Katmai National Monument, about 15 miles E of Naknek Lake, Aleutian Range; 58° 35' N, 154° 56' W; (map 42). Variant: Naouchlagamut, Nauklagamut. Former Eskimo village recorded in 1898 as "Naouchlagamut" by J. E. Spurr and W. S. Post, USGS, who obtained their information from the chief of Savonoski.

Naulchi: watercourse, see Kwemeluk Pass.

Naumliack Bay: bay, see Kiavak Bay.

Naumliack: locality, site of Eskimo village, on Kiavak Bay, on SE shore of Kodiak Island; 57° 01' N, 153° 35' W; (map 34). Native name recorded in 1805 by Lisianski (1814, p. 180).

Nautilus Creek: stream, flows NW 3 miles to North Fork Indian River, 14 miles NW of Goodnews, Kilbuck-Kuskokwim Mountains, 59° 17' N, 161° 42' W; (map 53). Local name published in 1951 by USGS.

Nauvogalokhlagamute: locality, see Nanvogaloklak.

Nauwogalokhlagamute: locality, see Nanvogaloklak.

Navarak: lake, see Feniak Lake.

Navashak Lake: lake, 1.5 miles across, in Noatak River valley, 8 miles SE of Feniak Lake, Brooks Range; 68° 07' N, 158° 10' W; (map 132). Eskimo name obtained at Noatak in 1956 by Orth, and reported to refer in meaning "to call for," in reference to the lake.

Navia, Punta de: point of land, see Lemesurier Point.

Navia, Punta de: point of land, see Saint Elias, Cape.

Navisok: locality, on Agattu Island, Aleutian Islands 52° 26' N, 173° 36' E; (map 13). Former Aleut village or camp listed by Hodge (1910, p. 46).

Navvook Lake: lake, see Troutman Lake.

Navy Cove: bight, 0.4 miles across, on SE coast of Attu Island, on NW shore of Massacre Bay Aleutian Islands; 52° 50' 30" N, 173° 12' 25" E, (map 13). Named by U.S. Army during World War II; published in 1948 by AMS.

Navy Cove: cove, 0.7 miles across, SE of Little Kiska Head on N coast of Little Kiska Island Aleutian Islands; 51° 57' 50" N, 177° 38' 40" E, (map 14). Variant: Tiger Cove. Name shown on a 1957 AMS map ; variant shown on 1943 USAAF map .

Navy Hill: hill, see Court House Hill.

Navy Island: island, 0.3 miles across, smallest and most southerly of three islands east of Port Wrangell, in the Pacific Ocean, 22 miles SE of Mount Chiginagak; Aleutian Range; 56° 59' 40" N; 156° 27' 30" W; (map 31). Variant: Ile du Large, Navy Islet, Ostrov Morskiy, Ostrov

Morskoi. Named "Ostrov Morskoi," i.e. "sea island," by Ens. Vasiliev, IRN, in 1832. This name was translated by USC&GS as "Navy Island" probably intentionally changing the meaning somewhat. Lutke (1836, p. 274) called it "Ile du Large."

Navy Islet: island, see Navy Island.

Navy Lake: lake, 1 mile long, 1.5 miles E of Burnett Inlet, on Etolin Island, Alexander Archipelago; 56° 04' 15" N, 132° 25' 30" W; (map 6). Local name recorded in 1953 by USGS.

Navy Peak: mountain, 3,665 ft., 2.5 miles N of McHenry Inlet, on Etolin Island, Alexander Archipelago; 56° 04' 10" N, 132° 23' 00" W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow, USN; name published in 1887 on USC&GS Chart 706.

Navy Town: locality, on SE coast of Attu Island, on W shore of Massacre Bay, Aleutian Islands; 52° 50' 20" N, 173° 11' 45" E; (map 13). Named during the military occupation of the island in World War II; published in 1948 by AMS.

Nayery, Kamen: rock, see Naerie Rock.

Nayorurun River: stream, flows S 27 miles to Togiak River, 1 mile W of Kashiagamiut, 56 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 22' 12" N, 160° 06' 07" W; (map 53). Variant: Kashaiak River, Kashaiyak River. Eskimo name reported in 1956 by USGS. The name of the river was reported as "Kashaiyak" on an 1898 fieldsheet by W. S. Post, USGS.

Nayrak Lake: lake, see Troutman Lake.

Nayuka River: stream, in Dulbi Flats, heads NW of Dulbatna Mountain, flows N 24 miles then WSW 22 miles to Dulbi Slough, 32 miles W of Hochandochtla Mountain, Kokrines-Hodzana Highlands; 65° 38' 20" N, 155° 57' 30" W; (map 107). Koyukan Indian name obtained at Huslia in 1956 by Orth.

Nayvay Creek: stream, see Kuropak Creek.

Nazan Bay: bay, 4 miles across, on NE coast of Atka Island, Aleutian Islands; 52° 12' N, 174° 06' W; (map 18). Variant: Baie de l'Est, East Bay, Zaliv Nazan. Apparently named as "Z[aliv] Nazan," or "Nazan Bay," by Capt. Tebenkov (1852, map 27), IRN. It was called "Baie de l'Est," or "east bay," by Capt. Lutke (1836, p. 313), IRN.

Nazan Bay: bay, see Chisak Bay.

Nazan Cape: point of land, see Agony Point.

Nazan, Zaliv: bay, see Chisak Bay.

Nazan: village, see Atka.

Nazi Creek: stream, flowing SE 0.7 miles to Pacific Ocean, Little Kiska Island, Aleutian Islands; 51° 56' 52" N, 177° 40' 20" E; (map 14). An arbitrary name beginning with "N" to

correspond to “N” grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map .

Nazikak Island: island, see Twoheaded Island.

Nazikak Point: island, see Twoheaded Island.

Nazowlakdalak: stream, see Girl Creek.

Nazuruk Channel: stream, a tributary of Kobuk River, heads at Melvin Channel Kobuk River, and flows SW 41 miles to Hotham Inlet, 39 miles WSW of Selawik, Kotzebue-Kobuk Lowland; 66° 31' N, 161° 24' W; (map 114). Eskimo name reported in 1926 by USGS.

Nazwiqtaq: lake, see Nadviktak Lake.

Nazwiztaq Kuugauzaq: stream, see Nadviktak Creek.

NC Creek: stream, flows SW 6 miles to Yukon River at Tanana, Kokrines-Hodzana Highlands 65° 10' N, 152° 04' W; (map 106). Local name reported in 1952 by USGS named for the N[orthern] C[ommercial] Company which maintained a store at Tanana.

Ne-ohi-lik River: stream, see Nechelik Channel.

Nea-kluk: stream, see Niukluk River.

Neacola River: stream, heads in lake 2 miles E of Telaguana Pass, flows NE 21 miles to Kenibuna Lake, 60 miles W of Tyonek, Alaska Range; 61° 09' 40" N, 152° 55' 30" W; BGN 1930; (map 70). Tanaina Indian name reported in 1928 by S. R. Capps and Gerald FitzGerald (in Smith and others, 1930b, pl. 2), USGS.

Neak Creek: stream, see Niak Creek.

Neakok Island: island, 0.5 miles across, in mouth of Ivisaruk River, 18 miles S of Wainwright, Arctic Plain; 70° 22' 58" N, 159° 59' 15" W; (map 146). Eskimo name recorded at Wainwright in 1956 by Orth; means “head.”

Neakok: locality, see Naokok.

Neal Point: point of land, 8.5 miles W of Wrangell, southernmost tip of Yank Island, Alexander Archipelago; 56° 27' N, 132° 36' W; (map 6). Local name used by fishermen and published in 1920 by USC&GS.

Nealruk Mountain: hill, 774 ft., on Nelson Island, 9 miles E of Cane Vancouver, Yukon-Kuskokwim Delta; 60° 33' N, 165° 09' W; (map 57). Eskimo name obtained at Tanunak in 1951 by USC&GS.

Near Island: island, 1,289 ft. elev., 1.5 miles long, 3 miles SE of Nagai Island, in Shumagin Islands. Aleutian Range; 54° 56' 30" N, 160° 03' 00" W; (map 26). Variant: Blichni. Ostrov

Blizhniy. This is a translation of "O[strov] Blizhniy" published by Capt. Tebenkov (1852, map 24), IRN.

Near Island: island, 1.5 miles long, in Saint Paul Harbor. 0.5 miles S of Kodiak, Kodiak Island; 57° 47' N, 152° 24' W; BGN 1939: (map 34). Variant: Bliskie Island, Blisnie Island, Blizki Island, Blizkiy Island, Close Island, Ostrov Blizkiy, Pogibshi Island. The name "Ostrov Blizkiy" or "close island" was recorded in 1805 by Lisianski (1814, map facing p. 169). The Russian word "pogibshiy" meaning "perishing" was applied to this island by W. H. Dall (in Emerson and others, 1904, p. 52).

Near Islands: islands, chain comprising west end of Aleutian Islands, extend from Ingenstrem Rocks, westward about 95 miles to Peaked Island, off Cape Wrangell; principal islands are Attu, Agattu, and Semichi Islands (Alaid, Nizki, and Shemya); 52° 55' N, 172° 28' E [west end] 52° 37' N, 174° 32' E [east end]; BGN 1963; Variant: Bliinies Islands, Bliihi Islands, Blizhnie Islands, Blizhniye Islands, Plishnie Ostrova, Rat Islands. This is a translation of the descriptive name "Plishnie Ostrova," published by G. H. von Langsdorff (1813-14, v. 2, p. 13). Lt. G. A. Sarichev (1826, map 1), IRN. published the name as "O[stro]va Blizhniye." This name was given by early Russian explorers because these are the nearest of the Aleutian Islands to Asia. See Aleutian Islands.

Near Point: point of land, on N coast of Whale Island, 2.3 miles SW of Afognak, N of Kodiak Island; 57° 58' 30" N, 152° 49' 20" W; (map 34). Variant: Blizhnie Cape, Mys Blizhniy. Translation of the descriptive name "M[ys] Blizhniy" given by Sub-Lt. Mikhail Murashev in 1839 or 1840 and published in 1849 on Russian Hydrog. Dept. Chart 1425.

Near Point: point of land, on W coast of Piper Island, in Fish Bay, on Baranof Island, 25 miles NW of Sitka, Alexander Archipelago; 57° 23' 30" N, 135° 35' 45" W; (map 9). Named in 1880 by U.S. Navy and published by USC&GS on Chart 727.

Nebel Island: island, see Shuyak Island.

Necessity Cove: cove, 1 mile across, on S shore of Alaska Peninsula, on SE shore of Castle Cape NE of Ship Mountain, Aleutian Range; 56° 09' N, 158° 21' W; (map 30). Local name published by USC&GS in 1916 Coast Pilot (p. 160).

Nechelik Channel: stream, tributary of Colville River, flows N 22 miles to Harrison Bay, Arctic Plain; 70° 27' N, 151° 04' W; (map 149). Variant: Ne-ohi-lik River. Eskimo name reported in 1951 by USC&GS meaning "new deep channel."

Nechraje: rock, see Eldred Rock.

Neck Lake: lake, 0.15 miles across, on northwestern Little Kiska Island, Aleutian Islands; 51° 58' N, 177° 38' E; (map 14). An arbitrary name beginning with "N" to correspond to "N" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map .

Neck Lake: lake, 3 miles long, on Prince of Wales Island, Alexander Archipelago; 56° 06' N, 133° 11' W; (map 6). Local name recorded in 1949 by USGS.

Neck Point: point of land, on N coast of Chichagof Island, 3.4 miles SE of Point Sophia on Icy Strait and 4 miles E of Hoonah, Alexander Archipelago; 58° 07' 10" N, 135° 20' 00" W; (map 11). Descriptive name given in 1901 by E. F. Dickins, USC&GS, and published in the 1901 Coast Pilot (p. 204).

Neck Point: point of land, on SE coast of Montague Island, 9 miles NE of Cape Cleare, 66 miles SE of Seward, Chugach Mountains; 59° 48' N, 147° 41' W; (map 49). Local name reported in the early 1950's by USC&GS.

Necker Bay: estuary, 10 miles long, on W coast of Baranof Island, 35 miles NW of Port Alexander, Alexander Archipelago; 56° 40' N, 135° 05' W; (map 5). Variant: Kamenistaia Bay, Kamenistaya Bukhta, Port Necker, Port Neker, Rocky Bay, Stone Bay, Stony Bay. Originally named "Port Necker" in 1786 by La Perouse in honor of Jacques Necker, French minister of finance; published in 1850 by Russian American Company as "Kamenistaya Bukhta," meaning "rocky bay."

Necker Islands: islands, extend SE 12 miles from Biorka and Little Biorka Islands, to Bachek Island, off W coast of Baranof Island, Alexander Archipelago; 56° 49' N, 135° 27' W; (map 5). Name published in the 1883 Coast Pilot (p. 136). Named on September 5, 1786, by La Perouse.

Necker Isles: islands, see Guibert Islets.

Necker, Port: estuary, see Necker Bay.

Necklaremout River: stream, see Lower Niklaremout Creek.

Necklaremout River: stream, see Upper Niklaremout Creek.

Neckshortka Lake: lake, 1.3 miles long, on Kenai Peninsula, 4.8 miles S of Point Possession and 43 miles NE of Kenai, Cook Inlet Lowland; 60° 57' 30" N, 150° 23' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Necodayno: stream, see Nikadavna Creek.

Necons River: stream, heads in glacier lake, flows SW 40 miles, through Two Lakes to Stony River, 47 miles N of Lake Clark and 100 miles W of Tyonek, Alaska Range; 61° 01' 30" N, 154° 05' 30" W; BGN 1930; (map 71). Local name reported in 1928 by S. R. Capps and Gerald FitzGerald, USGS.

Ned Pond: lake, 0.4 miles across, NE of Big Lake and 18 miles SW of Beaver, Yukon Flats; 66° 17' N, 148° 01' W; (map 118). Variant: Mac's Pond. Local name obtained in 1956 by USGS; shown as "Mac's Pond" on William Yanert's 1916 manuscript map (Stuck, 1917, map facing p. 122).

Neds Lake: lake, 0.8 miles long, 3.5 miles SE of Allakaket, Kanuti Flats; 66° 31' 30" N, 152° 32' 45" W; (map 117). Local name reported in 1956 by T. E. Taylor, USGS.

Neeextouwik Mountain: mountain, see Niaktuvik, Mount.

Neechuck River: stream, see Miniatulik River.

Needle Island: island, 0.9 miles long, in Yukon River W of Garden Island, 2 miles N of Anvik, Nulato Hills; 62° 41' N, 160° 12' W; (map 78). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon River" published by U.S. Dept. of Interior.

Needle Mountain: mountain, 8,000 ft., on Thompson Ridge, 3 miles SE of Barkley Lake and 110 miles E of Cordova, St. Elias Mountains; 60° 41' 00" N, 142° 31' 30" W; (map 65). Local name reported by F. H. Moffit (1918, pl. 6), USGS.

Needle Peak: mountain, 1,960 ft., highest point on Coronation Island, Alexander Archipelago; 55° 52' 25" N, 134° 15' 50" W; (map 4). Descriptive name given in 1886 by Lt. Comdr. A. S. Snow, USN.

Needle Peak: mountain, 7,586 ft., in Nutzotin Mountains, on W bank of Snag Creek 4 miles SW of junction with its East Fork, Alaska Range; 62° 11' N, 141° 33' W; (map 84). Descriptive name given in 1898 by W. J. Peters and A. H. Brooks, USGS.

Needle Peak: peak, 4,540 ft., on Kenai Peninsula, at head of Petrof Glacier, 30 miles ENE of Seldovia, Chugach Mountains; 59° 30' 30" N, 150° 47' 30" W; (map 50). Descriptive name reported by USC&GS in 1912. So named "because of its pointed appearance."

Needle Rock: mountain, 2,900 ft., 8 miles E of Jumbo Dome and 20 miles NE of Healy, Alaska Range; 63° 58' 50" N, 148° 29' 45" W; (map 87). Descriptive name published in 1952 by USGS.

Needle Rock: rock, off NW coast of Amaknak Island, in Unalaska Bay, on NE coast of Unalaska Island, Aleutian Islands; 53° 55' 31" N, 166° 31' 46" W; (map 23). Descriptive name given by W. H. Dall, USC&GS, in 1874. A 1791 map by John Henry Cox shows this name applied to another rock near here. See Wagner (1937, p. 475).

Needle, The: rock, about 260 ft. across, in Montague Strait, 8 miles SW of S tip of Green Island, Chugach Mountains; 60° 06' 40" N, 147° 36' 00" W; BGN 1908; (map 63). Descriptive name reported in 1908 by USC&GS.

Neekahueena: lake, see Nikabuna Lake.

Neekahweena: lake, see Nikabuna Lake.

Neeksigalik Lake: lake, see Tulugak, Lake.

Neenana River: stream, see Nenana River.

Neenana: locality, see North Nenana.

Neenivik River: stream, see Golsovia River.

Neets Bay: estuary, extends E 9 miles from Behm Canal, along NW coast of Revillagigedo Island, Alexander Archipelago; 55° 46' N, 131° 42' W; (map 3). Arbitrary name given in 1891 by USC&GS.

Neets Creek: stream, flows W, through Bluff Lake, 5 miles to Neets Bay, on NW coast of Revillagigedo Island, Alexander Archipelago; 55° 47' 15" N, 131° 29' 20" W; BGN 1923; (map 3). Named in 1923 by USFS.

Neets Lake: lake, 0.6 miles long, drains into Neets Creek E of Neets Bay, on NW coast of Revillagigedo Island, Alexander Archipelago; 55° 45' 50" N, 131° 28' 30" W; BGN 1923; (map 3). Named in 1923 by USFS.

Neeyiklik Creek: stream, see Niyiklik Creek.

Negaleh: locality: see Nigalik.

Negheling River: stream, see Newhalen River.

Negotsena Creek: stream, flows SW 8 miles to Yukon River, 12 miles NE of Nulato, Nulato Hills; 64° 52' N, 157° 54' W; (map 97). Koyukan Indian name reported in 1954 by USGS.

Negra, Punta: point of land, "E of Cape Suckling." Spanish name meaning "black" shown on a 1791 map of Capt. Alessandro Malaspina.

Negrillos, Rocas: rocks, "at the south end of Hinchinbrook Island." Name recorded in Capt. Alessandro Malaspina's journal written about 1791.

Negritos, Los: rocks, see Porpoise Rocks.

Negro Creek: stream, heads near summit of Dahlgren Peak, flows N 4.5 miles to Port Houghton, 75 miles E of Sitka, Coast Mountains; 57° 17' N, 133° 25' W; (map 8). Local name reported in 1955 by USGS.

Negro Lake: lake, 0.5 miles across, 2 miles SW of Alexey Lake and 7 miles NE of Iliamna, Aleutian Range; 59° 51' N, 154° 49' W; (map 51). Local name published by USGS in 1954.

Negro, Cabo: point of land, "on Prince of Wales Island, in east part of Bucareli Bay." Descriptive Spanish name meaning "black cape" given by members of the 1779 Don Ignacio Arteaga expedition.

Negromoon Creek: stream, flows E to Inglutalik River, NE of Norton Bay, Nulato Hills; (map 109). Local name reported in 1910 by A. H. Brooks, USGS.

Negsue Creek: stream, flows SW 2 miles to Penny River, 9 miles W of Nome, Seward Peninsula Highlands; 64° 33' N, 165° 41' W; (map 94). Prospectors' name reported in 1899 by D. C. Witherspoon (in Schrader and Brooks, 1900, map 2), USGS.

Negukthlik River: stream, heads at 59° 09' N, 159° 55' W, flows SW 25 miles to Ungalikthluk River, 12 miles SE of Togiak, Kilbuck-Kuskokwim Mountains; 58° 56' N, 160° 08' W; (map

39). Variant: Ungalikthluk River, Ungalukthluk River, Ungalukuk River, Ungulukthluk River. Eskimo name reported as "Ungulukthluk River" in 1951 by USGS. Name changed to present spelling on recent maps.

Negvelnuk: stream, see Golsovia River.

Neh-leel-ahk: point of land, see Nililak Point.

Nehenta Bay: cove, extends NE 0.6 miles from Clarence Strait, on SW coast of Gravina Island, Alexander Archipelago; 55° 09' 25" N, 131° 47' 45" W BGN 1923; (map 3). Variant: Copper Bay. Tlingit Indian word meaning "copper ore;" name given in 1922 by USC&GS because the "Field-party of 1921 * * * reported the existence of copper-prospects there."

Nehlutahalik Slough: stream, see Nelutahalik Creek.

Neil Lake: lake, 0.9 miles long, W of Kroto Creek, 52 miles NW of Anchorage, Cook Inlet Lowland; 61° 56' 00" N, 150° 22' 40" W; (map 70). Local name reported in 1954 by USGS.

Neilson Canyon: canyon, 0.5 miles long, on Kenai Peninsula, 5 miles NE of Homer, Cook Inlet Lowland; 59° 41' 30" N, 151° 25' 00" W; (map 50). Local name reported and published by USGS in the 1950's.

Neilson Creek: stream, on N end of Douglas Island, flowing 1.6 miles NE to Gastineau Channel, 3.7 miles NW of Juneau, Coast Mountains; 58° 19' 55" N, 134° 30' 00" W; (map 11). Local name published in 1962 by USGS.

Neka Bay: bay, extends W 6.5 miles off Port Frederick, Chichagof Island, 8 miles SW of Hoonah, Alexander Archipelago; 58° 02' 30" N, 135° 38' 00" W; (map 11). Name published in 1951 by USGS.

Neka Island: island, 0.3 miles across, in Port Frederick at mouth of Neka Bay on Chichagof Island, 8.8 miles SW of Hoonah, Alexander Archipelago; 58° 02' 00" N, 135° 38' 15" W; (map 11). Name published in 1951 by USGS.

Neka Mountain: mountain, 2,972 ft., on Chichagof Island, 0.9 miles N of Neka Bay on Port Frederick and 8 miles SW of Hoonah, Alexander Archipelago; 58° 04' 00" N, 135° 38' 30" W; BGN 1959; (map 11). Local name published in 1951 by USGS.

Neka River: stream, on Chichagof Island, flows SE 7 miles to Neka Bay on Port Frederick, 13 miles SW of Hoonah, Alexander Archipelago; 58° 03' 30" N, 135° 47' 15" W; BGN 1959; (map 11). Local name published in 1951 by USGS.

Nekakte Creek: stream, heads at 67° 29' N, 158° 19' W, flows SSW 19 miles to Akillik River, 45 miles NW of Shungnak, Brooks Range; 67° 16' N, 158° 29' W; (map 126). Eskimo name reported by USGS in 1956.

Nekeelit Point: point of land, 5.5 miles S of Gambell, W coast of St. Lawrence Island; 63° 42' N, 171° 45' W; BGN 1951; (map 93). Variant: Ikhkelik, Nekiylit. Eskimo name reported in 1932 by O. W. Geist. In 1965 Orth recorded the name as "Ikhkelik," meaning "like a visor."

Neker, Port: estuary, see Necker Bay.

Neketa Bay: bay, 0.5 miles across, on W coast of Shuyak Island, 43 miles N of Kodiak Island; 58° 31' 30" N, 152° 38' 00" W; (map 43). Name published by USC&GS on Chart 8555 in 1927.

Neketa Creek: stream, flows E 6 miles to Chignik Bay, 10.5 miles N of Chignik, Aleutian Range; 56° 27' N, 158° 25' W; (map 30). Native name reported by a 1951 USGS field party.

Nekiylit: point of land, see Nekeelit Point.

Nekula Gulch: ravine, trends NW 0.6 miles to Anvil Creek N of Dexter Peak and 6 miles N of Nome, Seward Peninsula Highlands; 64° 35' 29" N, 165° 20' 50" W; (map 94). Variant: Nikkala Gulch, Nickala Creek. Prospectors' name of Finnish origin published on the 1902 "Map of the Nome and Snake River Country" by J. M. Davidson. In 1916, Polk's Gazetteer showed a mining camp along the ravine, calling the camp "Nickala Gulch."

Nekutak Lake: lake, 0.8 miles long, on Kenai Peninsula N of Embryo Lake, 34 miles NE of Kenai, Cook Inlet Lowland; 60° 48' N, 150° 26' W; (map 62). An Eskimo-sounding name given about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Nelchina Bench Lake: lake, 0.5 miles long, at SW end of Heavenly Ridge, 57 miles NW of Valdez, Copper River Basin; 61° 52' 30" N, 146° 56' 30" W; (map 68). Local name published in the 1950's by USGS.

Nelchina Glacier: glacier, heads on Mount Willard Gibbs, trends N 23 miles to its terminus at head of Nelchina River, 49 miles NW of Valdez, Chugach Mountains; 61° 43' N, 147° 05' W; BGN 1915; (map 69). Local name reported in 1914 by USGS (Brooks and others, 1915, pl. 6).

Nelchina River: stream, heads in Nelchina Glacier, flows N and SE 28 miles to Tazlina Lake, 1.6 miles SW of mouth of Mendeltna Creek and 58 miles N of Valdez, Copper River Basin; 61° 56' 30" N, 146° 26' 30" W; BGN 1915; (map 68). Variant: Tazlina River. Indian name adopted by miners. This stream was originally the upper part of the Tazlina River. The name "Nelchina" was applied to a tributary now called Little Nelchina River.

Nelchina River: stream, see Little Nelchina River.

Nelchina: locality, at the junction of Little Nelchina River and Crooked Creek, 16 miles NE of Tahnetna Pass, Talkeetna Mountains, 62° 06' 15" N, 147° 09' 00" W; (map 82). Former mining settlement established about 1913; reported by Theodore Chapin (in Brooks, 1915, p. 122), USGS.

Neliupiaki: point of land, see Kekurnoi, Cape.

Nell Juan, Port: estuary, see Nellie Juan, Port.

Nellag Island: island, 0.7 miles long, between Hook and Manhattan Arms, at head of Sea Otter Harbor, off W coast of Dall Island, Alexander Archipelago; 55° 06' 45" N, 133° 10' 30" W; (map 4). Variant: Goose Island. Local name recorded in 1920 by USC&GS.

Nellie Gulch: ravine, trends NW 0.8 miles to Mountain Creek, 6 miles NW of Nome, Seward Peninsula Highlands; 64° 35' 10" N, 165° 26' 40" W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Nellie Juan Bay: bay, see Aspid Bay.

Nellie Juan Cape: point of land, see Aspid Cape.

Nellie Juan Glacier: glacier, on E side of Kenai Peninsula, heads in Sargent Icefield, trends NE 2 miles to Derickson Bay, 26 miles SE of Whittier, Chugach Mountains; 60° 28' N, 148° 21' W; (map 63). Named in 1910 by U. S. Grant, USGS, "for Samuel Applegate's schooner Nellie Juan."

Nellie Juan Lake: lake, on Kenai Peninsula, trends N 4 miles to head of Nellie Juan River, 14 miles NE of Seward, Chugach Mountains; 60° 14' N, 149° 03' W; BGN 1960; (map 63). Variant: Snow Lake. Local name reported in 1959 by USGS.

Nellie Juan River: stream, heads at Nellie Juan Lake, flows NE 20 miles to Kings Bay, 24 miles S of Whittier, Chugach Mountains; 60° 26' 30" N, 148° 42' 30" W; (map 63). Named in 1910 by U. S. Grant, USGS.

Nellie Juan, Port: estuary, trends NE 18 miles from mouth of Kings Bay to Prince William Sound, on E coast of Kenai Peninsula, 24 miles SE of Whittier, Chugach Mountains; 60° 38' N, 148° 05' W; (map 63). Variant: Kings Bay, Port Nell Juan, Port Nelly Juan. Discovered and named in 1887 by Samuel Applegate, for his schooner, the Nellie Juan. This spelling is from Applegate's map .

Nellie Martin River: stream, flows NE 5 miles to Patton Bay, 70 miles SE of Seward, Chugach Mountains; 59° 55' N, 147° 30' W; (map 49). Local name reported in the early 1950's by USC&GS.

Nellie, Lake: lake, 1.3 miles long, 1.5 miles W of Reflection Lake, 12 miles S of Bradfield Canal, Alexander Archipelago; 56° 01' 00" N, 131° 37' 45" W; (map 7). Local name reported in 1955 by USGS.

Nellikowrak: locality, see Nalikaurak.

Nelly Juan, Port: estuary, see Nellie Juan, Port.

Nels Klevens: area, NE part of Mountain View, in Anchorage, Cook Inlet Lowland; 61° 13' 52" N, 149° 47' 55" W; (map 69). Local name reported in 1954 by the city engineer of Anchorage.

Nels Miller Slough: stream, flows SE 3 miles to Copper River, 45 miles N of Katalla, Chugach Mountains; 60° 51' N, 144° 36' W; (map 64). Name published in 1959 by USGS.

Nelsaluk Pass: water passage, on coast of Beaufort Sea, between Barter Island and Manning Point, Arctic Plain; 70° 07' 30" N, 143° 02' 45" W; (map 152). Variant: Nelsaluk Passage. Local Eskimo name reported by USC&GS in 1952.

Nelsaluk Passage: water passage, see Nelsaluk Pass.

Nelsaluk: locality, near end of spit that extends E from Barter Island into Bernard Harbor, Arctic Plain; 70° 08' N, 143° 34' W; (map 152). Eskimo name reported by USC&GS in 1952 to mean in general, "big Nelsons place."

Nelson Askhomut: village, see Holy Cross.

Nelson Bay: bay, 0.7 miles across, 10 miles SE of Baranof, off E coast of Baranof Island, Alexander Archipelago; 56° 57' N, 134° 44' W; (map 5). Local name used by fishermen; published in 1901 by USC&GS.

Nelson Bay: bay, 1.5 miles wide, at delta of Rude River, 9 miles NE of Cordova, Chugach Mountains; 60° 40' N, 145° 39' W; (map 64). Name published in 1959 by USGS; derived from the proposed townsite of Nelson, which was never built.

Nelson Bluff: bluff, 250 ft. high, extends 1.5 mile along left bank of Black River, 25 miles E of Chalkyitsik, Porcupine Plateau; 66° 38' N, 142° 50' W; (map 120). Local name obtained in 1956 by T. E. Taylor and R. C. Foley, USGS.

Nelson Butte: hill, see Army Peak.

Nelson Cove: cove, extends SE 0.3 miles from Clarence Strait, on SW coast of Gravina Island, 6 miles NW of Dall Head, Alexander Archipelago, 55° 12' 15" N, 131° 49' 45" W; (map 3). Local name recorded in 1921 by USC&GS; "named for an early prospector."

Nelson Creek: stream, flows E 1.3 miles to Lower Willow Creek which flows to Casadepaga River, 19 miles N of Solomon, Seward Peninsula Highlands; 64° 50' N, 164° 32' W; (map 95). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Nelson Creek: stream, flows SE 0.6 miles to Old Glory Creek in Inmachuk River basin, 17 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 51' N, 163° 11' W; (map 110). Local name published on a precinct map of Seward Peninsula by Monroe and Hutchins; corrected to June 1903 by Arthur Gibson.

Nelson Creek: stream, heads in a glacier, flows 3 miles E to Taiya River, 1 mile above its mouth on Taiya Inlet, 3.3 miles NW of Skagway, Coast Mountains; 59° 29' 55" N, 135° 21' 40" W; (map 45). Local name obtained by USGS field personnel and published on Federal maps since 1950.

Nelson Creek: stream, in Nutzotin Mountains, flows SW 2 miles to Chavolda Creek 4.5 miles SE of its junction with Chisana River, Alaska Range; 62° 08' N, 142° 01' W; (map 84). Local name reported in 1960 by USGS.

Nelson Creek: stream, on Kenai Peninsula, flows NW 1.5 miles to Sixmile Creek, 4.5 miles S of Sunrise, Chugach Mountains; 60° 48' 55" N, 149° 25' 35" W; (map 63). Local prospectors' name; reported about 1914 by B. L. Johnson (in Martin and others, 1915, pl. 2), USGS.

Nelson Glacier: glacier, heads on S slope of Mount Waters, trends SE 3.5 miles to its 1955 terminus 1.5 miles N of Berg Mountain, 16 miles E of Wrangell, Coast Mountains; 56° 28' 30" N, 131° 59' 30" W; (map 7). Local name reported by F. E. Wright and C. W. Wright (1908, p. 189), USGS.

Nelson Island: island, 0.4 miles long, in Narrow Strait, between Spruce Island and NE coast of Kodiak Island; 57° 53' 35" N, 152° 24' 40" W; BGN 1909; (map 34). Named in 1909 by Capt. Hodgkins, USC&GS, "probably * * * after Assistant John Nelson * * *, USC&GS."

Nelson Island: island, 2 miles long, in the Kuskokwim River 2 miles N of Tuluksak, Yukon-Kuskokwim Delta; 61° 08' N, 160° 56' W; (map 73). Name shown on 1898 field sheet by W. S. Post, USGS.

Nelson Island: island, 40 miles long, between Baird Inlet and Etolin Strait, between Kolovinerak and Ningaluk Rivers, 90 miles W of Bethel, Yukon-Kuskokwim Delta; 60° 40' N, 164° 45' W; (map 58). Named in 1880 by Henry Gannett for Edward William Nelson, who spent about 5 years in this area as an observer for the U.S. Signal Service and collector for the Smithsonian Institution.

Nelson Lagoon: lagoon, 20 miles long, 20 miles W of village of Port Moller, on Alaska Peninsula, Bristol Bay Lowland; 56° 00' N, 161° 00' W; (map 28). Named in 1882 by W. H. Dall, USC&GS, for Edward William Nelson, U.S. Signal Service, who explored the Yukon Delta region in 1877-81.

Nelson Lake: lake, 1 mile long, 20 miles E of Chalkyitsik, Porcupine Plateau; 66° 40' N, 142° 59' W; (map 120). Local name obtained in 1956 by T. E. Taylor and R. C. Foley, USGS.

Nelson Lake: lake, 2 miles long, 2 miles E of Long Lake and 12 miles NW of Beaver, Yukon Flats; 66° 29' 30" N, 147° 42' 00" W; (map 118). Probably named by William Yanert who showed it on a 1916 manuscript map of the Yukon Flats (Stuck, 1917, map facing p. 122).

Nelson Mountain: mountain, 2,044 ft., 29 miles NW of Beaver, Kokrines-Hodzana Highlands; 66° 41' N, 148° 05' W; (map 118). Local name obtained in 1956 by USGS.

Nelson Mountain: peak, 5,457 ft., 5.5 miles N of Hanagita Lake and 31 miles SW of McCarthy, Chugach Mountains; 61° 19' 45" N, 143° 49' 30" W; (map 67). Local name obtained by USGS and published on maps since 1954.

Nelson Reef: reef, in N part of Alitak Bay, at S end of Kodiak Island; 56° 56' 30" N, 154° 02' 30" W; (map 32). Name published in 1943 by USC&GS.

Nelson, Point: point of land, S point of entrance to Smeaton Bay, on E bank of Behm Canal, Coast Mountains; 55° 18' 05" N, 130° 55' 30" W; (map 3). Named by Capt. George

Vancouver, RN, "August 7, 1793, after Captain Horatio Nelson [later, Lord Nelson], RN, * * *" (Wagner, 1937, p. 399).

Nelsons Camp: locality, see Sooghmeghat.

Nelsonville: locality, on right bank of Nushagak River, 3 miles SW of Dillingham, Bristol Bay Lowland; 59° 00' 30" N, 158° 32' 00" W; (map 52). Variant: Dillingham, Kanakanak, Ke-ek-sel-hak. Named about 1944 for Senator Knute Nelson, 1843-1923, Governor of Minnesota 1893-95, and U.S. Senator, 1895-1923. Nelson, as a member of Senator Dillingham's subcommittee, made an extensive tour of Alaska in 1903. This location, which was then called "Dillingham," and an Eskimo village called "Ke-ek-sel-hak" was recorded on a 1910 manuscript map by H. C. Fassett, USBF. In 1944 the name "Dillingham" was transferred to Snag Point where the Dillingham post office had been since 1904; the name "Nelsonville" came into use about this time. The place is now a section of Kanakanak.

Nelsonville: village, see Dillingham.

Neltuschk-an: locality, see Neltushkin.

Neltushkin: locality, on N shore of Whitewater Bay, on W coast of Admiralty Island, Alexander Archipelago; 57° 15' 30" N, 134° 36' 15" W; (map 9). Variant: Nahltushkan, Naltuck-an, Neltuschk-an, Scutshon. Tlingit Indian village reported as "Neltuschk-an," meaning "town on outside of point," in 1885 by Aurel Krause. It was called "Scutskon" by Island Petroff in the 10th Census in 1880. In 1880 the population was 246 "but subsequently they moved to Killisnoo" (Hodge, 1910, p. 11). The BAE recorded the name as "Naltuck-an."

Nelupaki: point of land, see Kekurnoi, Cape.

Nelutahalik Creek: stream, in Yukon Delta, flows N 4 miles to Apoon Pass, 3.5 miles E of Pastol Bay and 38 miles NE of Kwiguk, Yukon-Kuskokwim Delta; 63° 02' N, 163° 28' W; (map 92). Variant: Nehlutahalik Slough. Eskimo name obtained in 1899 by R. L. Faris, USC&GS, who reported it as "Nehlutahalik."

Nemo Point: point of land, 13 miles S of Wrangell, on W coast of Wrangell Island, Alexander Archipelago; 56° 17' 00" N, 132° 21' 40" W; BGN 1923; (map 6). Variant: Duga Point, Laida Point, Wren Point. Named in 1923 by USC&GS for the triangulation station on the north side of the point.

Nemod Creek: stream, see Davis Creek.

Nenana Glacier: glacier, heads at 63° 32' N, 147° 36' W, trends SW 7 miles to head of Nenana River, 44 miles SE of Healy, Alaska Range; 63° 29' 30" N, 147° 47' 45" W; (map 87). Local name obtained in 1913 by J. W. Bagley, USGS; published by Moffit (1915, pl. 1).

Nenana Indian Mission: village, see Nenana.

Nenana Mountain: mountain, 7,881 ft., 37 miles NE of Cantwell and 42 miles SE of Healy, Alaska Range; 63° 32' 30" N, 147° 50' 00" W; (map 87). Name taken from the glacier and river which heads on it; reported in 1951 by USGS.

Nenana River: stream, heads at Nenana Glacier, in Alaska Range, flows N 140 miles to Tanana River at Nenana, Tanana Lowland; 64° 33' 50" N, 149° 06' 20" W; (map 100). Variant: Cantwell River, Nanana River, Neenana River, Tutlut River. Originally named Cantwell River by Lt. Allen (1887, map), USA, in 1885 for Lt. John C. Cantwell, of the Revenue-Cutter Service, who explored the Kobuk River region in 1884 and 1885. In 1898, W. J. Peters and A. H. Brooks, USGS, reported that the native name was "Tutlut," but Lt. J. C. Castner, USA (in Glenn and Abercrombie, 1899, p. 233), stated in 1898: "The largest, of twenty cabins, was opposite the mouth of the Nanana (Lieutenant Allen's Cantwell) River." The Tanana Indian name was spelled "Nenana" by Lt. Herron (1901, p. 48), USA. Local usage adopted the latter spelling. According to Father Julius Jette, S. J., the name "remains unexplained and seems as much a puzzle to them [the Indians] as it is to me."

Nenana River: village, see Ferry.

Nenana Slough: stream, see Little Nenana River.

Nenana: locality, see North Nenana.

Nenana: village, pop. 286, mile 411.7 on The Alaska Railroad, on left bank of Tanana River, E of mouth of Nenana River, 45 miles SW of Fairbanks, Tanana Lowland; 64° 34' N, 149° 05' W; BGN 1944; (map 100). Variant: Nenana Indian Mission, Saint Marks Indian Mission. Nenana, named for the nearby stream, became a base for railroad construction in 1916 near the location of the Nenana Indian Mission (also called St. Marks Indian Mission), established in 1907. On July 15, 1923, President Warren Harding drove the golden spike at the north end of the 700-foot steel bridge over the Tanana River, marking the completion of the railroad. The population of the village was 190 in 1910; 634 in 1920; 291 in 1930; 231 in 1939; and 242 in 1950. The Nenana post office was established in 1908 (Ricks, 1965, p. 45). See Tortella.

Nenevok Lake: lake, 4 miles long, extends NW-SE 8 miles, NW of Togiak Lake, 78 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 45' N, 159° 48' W; (map 53). Variant: Nanava-ak Lake, Nenevokuk Lake, Nunava-ak Lake. Eskimo name probably meaning "lake" shown on a 1898 fieldsheet by W. S. Post, USGS, whose party camped on its shore, September 10 of that year. The name was Published as "Nenevokuk" by Spurr (1900, map 10), USGS.

Nenevokuk Lake: lake, see Nenevok Lake.

Neniltschik oder Sunit, Cape: point of land, see Ninilchik, Cape.

Nepean Point: point of land, see Napean, Point.

Nepen Point: point of land, see Napean, Point.

Nepken Point: point of land, see Napean, Point.

Nepoverotni Rocks: rocks, see Nepovorotni Rocks.

Nepovorotni Rocks: rocks, in Sitka Sound, between Middle and Western Channels, 1.3 miles SW of Sitka, Alexander Archipelago; 57° 02' 22" N, 135° 21' 45" W; (map 9). Variant: Kamen Nepovorotnoy, Nepoverotni Rocks. Russian name meaning "not turning," given in 1809 by the navigator Ivan Vasiliev the first, published by Lt. Sarichev (1826, map 19), IRN, as "K[amen] Nepovorotnoy."

Nepovorotnoy, Kamen: rocks, see Nepovorotni Rocks.

Neprokhodnaya, Guba: bay, see No Thorofare Bay.

Neprop Island: island, see Impassible Island.

Nepropusknoi Island: island, see Impassible Island.

Nepropusknoy, Ostrov: island, see Impassible Island.

Neptune Bay: bight, 1.5 miles wide, on E shore of Kachemak Bay, on Kenai Peninsula, 9 miles SE of Homer, Chugach Mountains; 59° 33' N, 151° 24' W; (map 50). Local name reported by USGS or USC&GS in the 1940's.

Neptune Island: island, 0.3 miles long, in Blake Channel, on E coast of Wrangell Island, Alexander Archipelago; 56° 20' 50" N, 132° 00' 15" W; (map 6). Named by USC&GS for charting purposes; name published in 1924.

Neptune Point: point of land, on NE coast of Kenai Peninsula, at E entrance to Shotgun Cove, 5.5 miles NE of Whittier, Chugach Mountains; 60° 48' N, 148° 32' W; BGN 1915; (map 63). Named in 1914 by USC&GS.

Neragon Island: barrier island, 7.5 miles long, one of Sand Islands between Bering Sea and Scammon Bay, Yukon-Kuskokwim Delta; 61° 55' N, 165° 59' W; (map 75). Name reported by R. H. Sargent, USGS, in 1919.

Nerelna Creek: stream, heads in lake, flows NE 9 miles to Chitina River, 0.3 miles SW of delta of Kuskulana River and 72 miles NE of Valdez, Chugach Mountains; 61° 27' 40" N, 144° 10' 30" W; (map 68). Ahtena Indian name from an unpublished prospectors' map made in 1900.

Nerka, Lake: lake, 36 miles, long, extends S from Akulukpak River to River Bay, 30 miles N of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 32' N, 159° 00' W; BGN 1931; (map 52). Variant: Agouloukpak, Agulukok, Agulukpak, Agulukpok Lake, Akuliukhpak Lake, Cho-kwok-stchu-luk, Chung-nok-du-li, Pamiek Lake. So named in 1910 by USBF because the lake is a great spawning ground of the red or blue Back salmon (Nerka). The Eskimo name of the lake, "Agulukpak," meaning "big aguluk," was obtained in 1898 as "Agouloukpak" from A. Mittendorf, a local trader, by J. E. Spurr and W. S. Post, USGS. This is probably the same lake called "Pamiek" by Capt. Tebenkov (1852, map 4).

Nerpchiy, Ostrov: island, see Ikiginak Island.

Nerpichie Bay: bay, see Seal Bay.

Nerpichie Islets: islands, see Seal Islands.

Nerpichie: point of land, see Seal Cape.

Nerpichiy, Ostrov: island, see Ikiginak Island.

Nerpitchy Island: island, see Ikignak Island.

Neruokpuk Lake: lakes, see Neruokpak Lakes.

Neruokpuk Lakes: lake, see Peters, Lake.

Neruokpuk Lakes: lake, see Schrader, Lake.

Neruokpuk Lakes: lakes, include Lake Peters and Lake Schrader, in Franklin Mountains, extend 9.5 miles at head of Kekiktuk River, 19 miles W of Mount Michelson, Brooks Range; 69° 21' N, 145° 00' W; (map 139). Par. Narivukpuk Lake, Narvaqpak Lake, Neruokpuk Lake. Eskimo name reported by Leffingwell (1919, p. 98) to mean "big lake." Diamond Jenness spells it "Narivukpuk" and Orth recorded it as "Narvaqpak" in 1965.

Nerviak: bay, see Jacksmith Bay.

Nesbit Creek: stream, flows SW 6.5 miles to Kingsley Creek, 7 miles SE of Mount Bendeleben and 41 miles SW of Imurak Lake, Seward Peninsula Highlands; 65° 06' N, 163° 56' W; (map 110). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Nesbit, Point: point of land, see Nesbitt, Point.

Nesbitt Reef: reef, 0.2 miles long, off Point Nesbitt at S tip of Zarembo Island, Alexander Archipelago; 56° 13' 30" N, 132° 51' 30" W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow, USN; name published in 1887 on USC&GS Chart 706.

Nesbitt, Point: point of land, southernmost tip of Zarembo Island, Alexander Archipelago; 56° 14' N, 132° 52' W; (map 6). Variant: Point Nesbit. Named in September 1793, by Capt. George Vancouver, RN (Wagner, 1937, p. 399). It was discovered by James Johnstone September 1.

Ness Creek: stream, flows N 4 miles to Canoe Bay, E of Pavlof Bay, near SW end of Alaska Peninsula, Aleutian Range; 55° 32' 20" N, 161° 16' 40" W; (map 28). Named in 1929 by USGS.

Nesselrode, Mount: mountain, 8,105 ft., on Alaska-Canada boundary, 2.8 miles NE of Mount Bressler and 46 miles N of Juneau, Coast Mountains; 58° 57' 45" N, 134° 18' 45" W; BGN 1923; (map 11). Variant: Boundary Peak 98. Named in 1924 by Lawrence Martin, Department of State, for Count Karl Robert Nesselrode, 1780-1862, Russian Minister of Foreign Affairs, 1816-56, and a plenipotentiary in 1824 in negotiations with the United States regarding the Alaskan boundary.

Nest Creek: stream, flows N 3.5 miles to Bering Sea, 1.5 miles NE of Cape Chagak, on N coast Of Umnak Island, Aleutian Islands; 53° 32' N, 168° 12' W; (map 22). Name published by Byers (1959, pl. 41), USGS.

Nest Island: island, 500 ft. long, in Kiliuda Bay, on SE coast of Kodiak Island; 57° 17' 40" N, 152° 53' 30" W; BGN 1930; (map 34). Variant: Parrot Island. Descriptive name given in 1930 by USC&GS, "Because of duplications of the name Parrot * * *. The field party * * * called the group of islands located here Parrot Islands because hundreds of sea-parrots have the top of this island honeycombed with burrows * * *."

Nest Lake: lake, 0.5 miles long, on Kenai Peninsula, 0.8 miles S of Kayak Lake and 27 miles NE of Kenai, Cook Inlet Lowland; 60° 44' 10" N, 150° 34' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Nest Rock: rock, in Kuliliak Bay, on S coast of Unalaska Island, Aleutian Islands; 53° 27' 42" N, 167° 01' 50" W; BGN 1939; (map 23). Descriptive name given by USC&GS in 1938 because of the "large number of birds which nest on the islet during the summer months."

Nethkahati Creek: stream, heads in Ray Mountains, flows W 15 miles to Slokhenjikh Creek 2.5 miles ENE of that stream's junction with Melozitna River, Kokrines-Hodzana Highlands; 65° 48' 10" N, 152° 50' 00" W; (map 106). Koyukan Indian name referring to "stream junction" obtained in 1956 at Hughes by Orth.

Netholzende Lake: lake, 5.5 miles SE of Long Lake, 13 SE of Roundabout Mountain, Koyukuk Lowland; 65° 31' N, 156° 06' W; (map 108). Koyukan Indian name obtained in 1955 at Huslia by USGS.

Netland Glacier: glacier, heads 2 miles S of Alaska-Canada boundary, trends N 3 miles to its 1964 terminus in Canada, 5 miles W of junction of Tatshenshi and Asek Rivers and 92 miles W of Skagway, St. Elias Mountains; 59° 25' N, 137° 53' W; (map 45). Local name published by USGS in the 1950's.

Netland Island: island, 1 mile across, at mouth of Berg Bay, Glacier Bay National Monument 0.3 miles NW of Lars Island and 39 miles NW of Hoonah, St. Elias Mountains; 58° 32' 15" N, 136° 08' 45" W; BGN 1942; (map 10). Named by USC&GS in 1939 for Lars Netland, 1869-1934, a member of the U.S. section of the IBC from 1904-10. Netland aided in the reconnaissance survey of Berg Bay in 1907.

Netletna River: stream, flows N 45 miles to Innoko River, 20 miles NE of Holikachuck, Innoko Lowland; 63° 01' N, 158° 75' 00" W; (map 90). Indian name reported in 1954 by USGS.

Netsekawik: locality, on Golovnin Bay, on N shore of Norton Sound, Seward Peninsula Highlands; 64° 26' N, 162° 57' W; (map 95). Former Eskimo village or camp recorded in the 1890 Census (p. 162).

Neuberger Mount: mountain, 6,747 ft., 8 miles S of Tanacross, Alaska Range; 63° 16' N, 143° 26' W; BGN 1961; (map 85). Named for Richard Lewis Neuberger, 1912-60, who, as a

member of the U.S. Senate from Oregon, was a strong supporter of legislation that led to statehood for Alaska.

Neukeluk River: stream, see Niukluk River.

Neukluk River: stream, see Niukluk River.

Neumann Bay: lagoon, see Moffet Lagoon.

Neumann Island: island, 3 miles long, easternmost of Kudiakof Islands, near NW shore of Moffett Lagoon, 17 miles N of village of Cold Bay at SW end of Alaska Peninsula, Bristol Bay Lowland; 55° 26' 00" N, 162° 36' 30" W; BGN 1966; (map 29). Variant: Moffet Point. Named by USBF, 1888, for Rudolph Neumann, a member of the Alaska Commercial Company.

Neumann Point: point of land, see Moffet Point.

Neva Bay: bay, 0.3 miles across, on SW coast of Kruzof Island, Alexander Archipelago; 57° 02' 15" N, 135° 50' 40" W; (map 9). Variant: Bukhta Neva. Named "Bukhta Neva," or "Neva Bay," about 1849 by the Russian American Company, after the ship Neva.

Neva Channel: water passage, see Neva Strait.

Neva Cove: cove, extends S 0.6 miles, between Entrance and Otmeloi Points, at NW end of Narrow Strait, on N coast of Kodiak Island; 57° 54' 30" N, 152° 31' 15" W; (map 34). Local name published in 1943 by USC&GS.

Neva Creek: stream, flows SW 4 miles to Kougarok River, 15 miles N of its junction with Kuzitrin River, 45 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 28' N, 164° 42' W; (map 110). Prospectors' name reported in 1901 by T. G. Gardine (in Collier, 1902, pl. 12), USGS.

Neva Island: island, 0.1 miles across, 2.5 miles W of Sitka, in Sitka Sound, Alexander Archipelago; 57° 03' 30" N 135' 24' 20" W; (map 9). Variant: Nevi Island, Ostrov Nevy. Named in 1809 by the Russian navigator Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "Os[trov] Nevy," or "Nevy Island." See Nevski Island.

Neva Point: point of land, between Nakwasina Passage and Neva Strait, 15 miles NW of Sitka, on NW coast of Baranof Island, Alexander Archipelago; 57° 14' 10" N, 135° 33' 00" W; (map 9). Apparently named for Neva Strait by W. H. Dall, USC&GS, in the 1883 Coast Pilot (p. 153).

Neva Strait: water passage, 16 miles NW of Sitka, between Partishkof Island and NW coast of Baranof Island, Alexander Archipelago; 57° 15' N, 135° 34' W; (map 9). Variant: Neva Channel, Olga Strait. Named in 1804 by Capt. U. T. Lisianski, IRN, for his vessel the Neva. It was called "Ogle Strait" by Island Vasiliev in 1809 and included the water now known as "Olga Strait." "The present Neva Strait is the Olga Strait of the Russian chart of 1809, but not of M. D. Tebenkov." (U.S. Coast and Geodetic Survey, 1883,p. 156.)

Nevada Creek: stream, 1.7 miles long, on the W end of Douglas Island, flowing NE to Gastineau Channel, 6.5 miles SE of Juneau, Coast Mountains; 58° 13' 50" N, 134° 18' 15" W; (map 11). Local name reported in 1902 by W. J. Peters, USGS.

Nevada Creek: stream, flows NW to North Fork Kougarak River near its mouth, about 14 miles SW of Midnight Mountain and 45 miles W of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This stream cannot be precisely located on current maps.

Nevada Creek: stream, flows S 1.8 miles to Flambeau River, 17 miles NE of Nome, Seward Peninsula Highlands; 64° 43' N, 165° 05' W; (map 94). Prospectors' name reported on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Nevada Creek: stream, flows SE 5.1 miles to Poorman Creek, 3.3 miles SW of Poorman, Kilbuck-Kuskokwim Mountains; 64° 05' N, 155° 39' W; (map 98). Prospectors' name reported in 1921 by USGS.

Nevada Creek: stream, flows SW 0.5 miles to California Creek, 7 miles S of Rampart, Yukon-Tanana Highlands; 65° 24' 00" N, 150° 06' 40" W; (map 106). Prospectors' name shown on a manuscript map dated 1906; reported in 1956 by Orth.

Nevada Creek: stream, flows W 0.7 miles to Carbon Creek, 17 miles NE of Katalla, Chugach Mountains; 60° 23' N, 144° 12' W; (map 64). Prospectors' name published in 1907 by USGS.

Nevat Point: point of land, on S shore of Kasegaluk Lagoon, 13 miles SE of Icy Cape, Arctic Plain; 70° 15' N, 161° 21' W; (map 146). Eskimo name obtained by Orth in 1956.

Nevensky Island: island, 4.5 miles long, in Yukon River, between Arbor and Spangle Islands W of Marshall, Yukon-Kuskokwim Delta; 61° 54' N, 162° 07' W; (map 74). Name shown on a 1940 navigation chart of the Yukon River.

Never-Never Lake: lake, 0.7 miles long, W of Big Lake, 21 miles N of Anchorage, Cook Inlet Lowland; 61° 31' 25" N, 149° 58' 10" W; BGN 1957; (map 69). So named in 1956 by Lloyd E. Farley, because, "[since] the lake is isolated from roads and connecting lakes or streams, it appears as if it belonged to Never-Never Land."

Nevertolemute: locality, see Nvortulermiut.

Nevi Island: island, see Neva Island.

Nevidiskov Bay: bay, 3.6 miles across, formed by its E and W arms, on S coast of Attu Island, Aleutian Islands; 52° 46' 45" N, 172° 51' 00" E; BGN 1938; (map 13). Variant: Helughi Bay. Named for Michael Nevidiskov, navigator of the Russian vessel Yevdokia. Nevidiskov may have been the first Caucasian to land on Attu Island in 1745. He took a native islander, called "Temnac," home with him in order to learn the language spoken on the islands (Coxe, 1787, p. 30). Bancroft (1886, p. 111), spelled the name "Nevodchikof."

Nevidiskov Creek: stream, on S coast of Attu Island, flows S 1.3 miles to West Arm Nevidiskov Bay, Aleutian Islands; 52° 48' 20" N, 172° 49' 20" E; (map 13). Name derived from Nevidiskov Bay; published in 1948 by AMS.

Nevidiskov River: stream, on S coast of Attu Island, flows S 4.7 miles to Nevidiskov Bay, Aleutian Islands; 52° 48' 00" N, 172° 52' 05" E; (map 13). Name derived from Nevidiskov Bay; published in 1948 by AMS.

Nevski Island: island, 0.1 miles across, tied to Japonski Island, in Sitka Sound, 1.3 miles SW of Sitka, Alexander Archipelago; 57° 02' 40" N, 135° 21' 50" W; (map 9). Variant: Nevskoi Island, Ostrov Nevskoy. Named in 1809 by the Russian navigator Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Nevskoy," or "Nevskoy Island." This island was presumably named for the Russian warship Neva which was at Sitka in 1804. Nevski is also a Russian family name.

Nevskoi Island: island, see Nevski Island.

Nevskoy, Ostrov: island, see Nevski Island.

Nevy, Ostrov: island, see Neva Island.

New Andraefski: village, see Andraefsky.

New Andraefsky: village, see Andraefsky.

New Archangel: locality, see Fort Saint Michael.

New Archangel: town, see Sitka.

New Balaam: village, see Uzinki.

New Bogoslof Island: island, see Fire Island.

New Bonanza Creek: stream, flows SW 0.8 miles to Bonita Creek, 11 miles NE of Nome, Seward Peninsula Highlands; 64° 38' 20" N, 165° 12' 40" W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

New Boston: locality, site of town near Grant Creek on Douglas Island, 1 mile W of Juneau, Coast Mountains; 58° 18' N, 134° 27' W; (map 11). Variant: Union City. Name of a short-lived town mentioned by DeArmond (1957, p. 23).

New Chevak: village, see Chevak.

New Cornwall: area, extending from Pt. Staniforth in Canada to Pt. Rothsay in southeast Alaska. Named by Capt. George Vancouver, RN, about September 20, 1793, in honor of the English county.

New Cottonwood Creek: stream, flows SSW 17 miles to Noatak River, 5 miles E of confluence of Noatak and Nimiuktuk Rivers, Brooks Range; 68° 08' N, 159° 42' W; (map 131). Translation of an Eskimo name reported by Orth in 1956.

New Cutoff: channel, of Yukon River, 3.5 miles SW of Beaver, Yukon Flats; 66° 19' 30" N, 147° 30' 45" W; (map 118). Local name obtained in 1956 by USGS.

New Eddystone Cape: point of land, see Louise, Point.

New Eddystone Islands: islands, extend 1.4 miles off mainland, in Behm Canal, 3 miles N of Winstanley Island, Coast Mountains; 55° 31' N, 130° 54' W; (map 3). Named about 1865 by the British Admiralty, derived from New Eddystone Rock.

New Eddystone Point: point of land, see Louise, Point.

New Eddystone Rock: rock, elev. 230 ft., 500 ft. long, in Behm Canal, E of Revillagigedo Island, 3 miles N of Winstanley Island, Coast Mountains; 55° 30' 15" N, 130° 56' 10" W; (map 3). So named in 1793 by Capt. Vancouver, RN (1798, v. 4, p. 159) because of its resemblance to the lighthouse rock off Plymouth, England.

New Eldorado Creek: stream, flows SE 3.8 miles, joins Bonita Creek to form Osborn Creek, 12 miles NE of Nome, Seward Peninsula Highlands; 64° 38' N, 165° 10' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

New Fort Hamilton: locality, see New Hamilton.

New Halfway Lakes: lakes, 4 miles SE of Muddy Lake and 22 miles SE of Beaver, Yukon Flats; 66° 05' N, 147° 02' W; (map 118). Local name obtained in 1956 by USGS.

New Hamilton: locality, on right bank of Nanvaranak Slough near its mouth on Kwikpak Pass, 18 miles E of Kwiguk, Yukon-Kuskokwim Delta; 62° 43' 45" N, 163° 55' 10" W; (map 77). Variant: Elutuc, Nanvaranak, Nanvarnok, New Fort Hamilton, Ninvaug, Ninvok. The North American Transportation and Trading Company in 1899 established a supply depot here at a small Eskimo settlement called "Nanvaranak" after the adjacent stream. The trading company, however, called its depot and trading post "New Fort Hamilton." See Hamilton. In 1842-44 Lt. L. A. Zagoskin, IRN, showed an Eskimo village at or near this place called "Ninvaug."

New Harbor: bay, see Baralof Bay.

New Harbor: estuary, see Freshwater Bay.

New Heart Creek: stream, flows W 6.5 miles to Ipiavik Lagoon, 14 miles SE of Kivalina, Kotzebue-Kobuk Lowland; 67° 37' N, 164° 08' W; (map 128). Variant: Ahsigliirahgim, Ipauveerak, Koogowranga. Local name reported in 1950 by USC&GS.

New Igloo: locality, on right bank of Pilgrim River 2.5 miles SE of its junction with Kuzitrin River and 36 miles SE of Teller, Seward Peninsula Highlands; 65° 08' N, 165° 10' W; (map

111). Local name published in 1965 by USGS; named relative to Igloo to the north and Marys Igloo to the east.

New Jersey Creek: stream, flows E and N 7 miles to Bering Sea, on N coast of Umnak Island, Aleutian Islands; 53° 33' 30" N, 168° 35' 15" W; (map 22). Name published by Byers (1959, pl. 41), USGS.

New Kealavik: village, see Newtok.

New Knockhock: village, on right bank of Black River, 45 miles S of Kwiguk, Yukon-Kuskokwim Delta; 62° 07' 45" N, 164° 53' 40" W; (map 77). Variant: New Nakhak, Newnockhock. Eskimo village with a population of 122 in 1950. See Knockhock.

New Koliganek: locality, on left bank of Nushagak River, 8 miles SE of Koliganek and 70 miles NE of Dillingham, Bristol Bay Lowland; 59° 45' N, 157° 10' W; (map 52). Eskimo village or camp name published in 1954 by USGS.

New Lake: lake, 0.9 miles long, 2 miles S of Big Lake and 23 miles SW of Beaver, Yukon Flats; 66° 09' N, 148° 02' W; (map 118). Local name obtained in 1956 by USGS.

New Lakes: lakes, Little Kiska Island, Aleutian Islands; 51° 55' 12" N, 177° 39' 10" E; (map 14). An arbitrary name beginning with "N" to correspond to "N" grid used by the U.S. Army for tactical purposes during World War II. Published on a 1953 AMS map.

New Lowden: locality, on right bank of Yukon River, about 6 miles NE of Loudon and 48.5 miles E of Nulato, Koyukuk Lowland; 64° 40' 00" N, 156° 28' 30" W; (map 97). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by U.S. Dept. of Interior.

New Metlakahta: town, see Metlakatla.

New Metlakatla: town, see Metlakatla.

New Morzhovoi: village, see Morzhovoi.

New Nakhak: village, see New Knockhock.

New Norfolk: area, extending from New Cornwall to Cross Sound in southeast Alaska. Named by Capt. George Vancouver, RN, in honor of English county, after possession was taken by Joseph Whidbey and James Johnstone on August 16, 1794.

New Port Walter: locality, on N shore of Port Walter, 10 miles N of Port Alexander, on E coast of Baranof Island, Alexander Archipelago; 56° 23' 40" N, 134° 39' 00" W; (map 5). Variant: New Walter, Port Walter. Site of an abandoned saltery (herring packing plant) and fertilizer plant, probably built between 1917 and 1920. The Port Walter post office was established here in 1918; discontinued in 1921 (Ricks, 1965, p. 53).

New Reef: reefs, 2 reefs 0.1 miles long, in Disenchantment Bay, 1.5 miles N of Haenke Island, and 31 miles N of Yakutat, St. Elias Mountains; 59° 59' 30" N, 139° 32' 00" W; (map

46). Named by Tarr (1906, map facing p. 145), USGS. These reefs appeared after the earthquake of 1899, which caused an uplift of 1719 feet in this area (in Tarr and Martin, 1912, p. 21-22).

New Reefs: reefs, 0.2 miles across near head of Eleanor Cove, 14 miles NE of Yakutat, St. Elias Mountains; 59° 42' N, 139° 29' W; (map 46). Named by Tarr and Martin (1912, map 14 and p. 21), USGS. These reefs were created during the 1899 earthquake; they are not shown, however, on USC&GS Chart 8455, published in 1965.

New River Bay: bay, extends S 1.3 miles on S shore of Lake Minchumina, Tanana Lowland; 63° 51' 15" N, 152° 14' 45" W; (map 88). Local name reported in 1954 by USGS.

New Russia: locality, see Glory of Russia.

New Shoal: rock, see Westdahl Rock.

New Stuyahok: village, pop. 145, on right bank of Nushagak River, 10 miles NE of Ekwok and 52 miles NE of Dillingham, Bristol Bay Lowland; 59° 29' N, 157° 20' W; (map 52). Variant: New Stuyarok. Located on the site of the Eskimo village Of "Stuyarok." The name "New Stuyahok" first appeared in the 1950 Census with a population of 88. A post office was established here in 1961. (Ricks 1965, p. 45).

New Tokeen: village, see Tokeen.

New Trinity Island: island, "one of the Trinity Islands S of Kodiak Island." Name shown on Capt. John Meares' 1790 chart.

New Walter: locality, see New Port Walter.

New Whrailing River: stream, see Newhalen River.

New Year Gulch: ravine, trends SE 0.7 miles to Anvil Creek, 6 miles NE of Nome, Seward Peninsula Highlands; 64° 35' 20" N, 165° 22' 20" W; (map 94). Variant: New Years Gulch. Reported as "New Years Gull" on the 1902 "Map of the Nome and Snake River Country" by J. M. Davidson.

New Year Islands: islands, extend N-S 0.6 miles, off W coast of Knight Island, on E side of Knight Island Passage, 6 miles NE of Chenega, Chugach Mountains; 60° 19' 00" N, 147° 54' 45" W; (map 63). Name published in 1910 by USC&GS.

New Years Gulch: ravine, see New Year Gulch.

New York Creek: stream, flows 4 miles N to Bering Sea, E of Fox Point, on N coast of Umnak Island, Aleutian Islands; 53° 33' 00" N, 168° 16' 45" W; (map 22). Name published by Byers (1959, pl. 41), USGS.

New York Creek: stream, flows NE 4 miles, joins Little Joe Creek to form Beaver Creek, 11 miles SE of Ruby, Kilbuck-Kuskokwim Mountains; 64° 35' 30" N, 155° 24' 45" W, BGN 1936;

(map 98). Prospectors' name reported in 1908 by A. G. Maddren (in Brooks and others, 1909 p. 230), USGS.

New York Creek: stream, flows SE 3.3 miles to Kuskokwim River 0.9 miles N of its junction with Holokuk River, 0.5 miles W of Little Mountain Village, Kilbuck-Kuskokwim Mountains; 61° 33' N, 158° 35' W; BGN 1048; (map 72). Prospectors' name reported in 1914 by A. G. Maddren (in Brooks and others, 1915, p. 353), USGS.

New York Creek: stream, flows SW 10 miles to North Fork Baker Creek, 45 miles E of Tanana Yukon-Tanana Highlands; 65° 07' 25" N, 150° 29' 40" W; (map 106). Prospectors' name reported in 1904 by Prindle and Hess (1906, pl. 3), USGS.

New York Gulch: ravine, extends SW 1.3 miles to American Creek, 27 miles ESE of Tanana, Yukon-Tanana Highlands; 65° 06' 10" N, 151° 10' 15" W; (map 106). Prospectors' name reported in 1931 by J. B. Mertie, USGS.

New-Whalen River: stream, see Newhalen River.

New-Whraling River: stream, see Newhalen River.

Newchuklichargut: stream, see Grant Creek.

Newchuklikaket: stream, see Grant Creek.

Newcomer Creek: stream, see Cache Creek.

Newenham, Cape: point of land, in Bering Sea between Kuskokwim and Bristol Bays, 40 miles W of Hagemeister Island, Kilbuck-Kuskokwim Mountains; 58° 39' 00" N, 162° 10' 30" W; (map 39). Named July 16, 1778, by Lt. Williamson, RN, when he was sent ashore by Capt. James Cook, RN, for reconnaissance reasons. He "landed on the point, and, having climbed the highest hill * * * took possession of the country in his Majesty's name, and left on the hill a bottle, in which was described, on a piece of paper, the names of the ships, and the date of discovery" (Cook, 1785, v. 2, p. 432). Capt. Lutke (1836, p. 252-6) IRN, said that "Cap Newnham" is called "Black by the natives on account of its appearance."

Newhalen River: stream, heads at Sixmile Lake, Flows S 22 miles to Iliamna Lake, 3 miles S of Iliamna, Aleutian Range; 59° 43' N, 154° 53' W; BGN 1910; (map 51). Variant: Negheling River, Newrailing River, New-Whalen River, New Whalin River, New-Whraling River, New Whraling River, Noalen River, Nogheling River, Noghelin Painga, Noghelin River, Nogholem River, Nuwhalen River. Eskimo name reported in 1891 as "Noghelin Painga," meaning "mouth of the Noghelin," by A. B. Schanz in the 1890 Census. The present spelling was reported in 1900 by A. G. Maddren, USGS, and represents pronunciation of the Eskimo name by English-speaking prospectors.

Newhalen Village: village, see Newhalen.

Newhalen: village, pop. 63, on N shore of Iliamna Lake, at mouth of Newhalen River, 2.5 miles S of Iliamna, Bristol Bay Lowland; 59° 43' 20" N, 154° 54' 00" W; BGN 1910; (map 51). Variant: Newhalen Village, Newrailing Village, Nogheling, Noghelingamiut, Noghelingamute,

Nuwhalen Village. Eskimo name of a village listed in the 1890 Census as “Noghelingamute” or “people of The Noghelin,” population 16. (1893,p. 164). The present spelling is an anglicization of the name. There evidently were two villages of these people on Newhalen River in 1890; see Noghelin Painga.

Newhall, Mount: mountain, 1,651 ft., on SE shore of Unalaska Bay, on NE coast of Unalaska Island, Aleutian Islands; 53° 52' 39" N, 166° 29' 56" W; (map 23). Local name published in 1951 on a USGS map .

Newi-cargut: locality, see Nowi.

Newicargut: stream, see Nowitna River.

Newikargut: locality, see Nowi.

Newikargut: stream, see Nowitna River.

Newikargut: village, see Kokrines.

Newktok: village, see Newtok.

Newland Cape: point of land, on SW coast of Shuyak Island, 42 miles N of Kodiak Island; 58° 30' 30" N, 152° 39' 00" W; (map 43). Name published in 1926 by USC&GS.

Newlands Creek: stream, flows SE 2.5 miles to Quartz Creek, 10 miles SE of Long and 30 miles SSE of Ruby, Kilbuck-Kuskokwim Mountains; 64° 19' N, 155° 15' W; (map 98). Prospectors' name reported in 1913 by Eakin (1914, pl. 3), USGS. The stream's identity is in doubt.

Newlin Ridge: ridge, 0.5 miles long, on southwestern Little Kiska Island, Aleutian Islands; 51° 57' 15" N, 177° 38' 10" E; (map 14). An arbitrary name beginning with “N” to correspond to “N” grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map .

Newman Bay: bay, extends NE 3.5 miles, on SW coast of Sitkalidak Island, SE of Kodiak Island; 57° 06' N, 153° 22' W; (map 34). Local name published in 1943 by USC&GS.

Newman Creek: stream, flows N 7 miles to Dry Creek, 52 miles NE of Healy, Alaska Range; 64° 00' N, 147° 15' W; (map 87). Prospectors' name shown on a 1910 fieldsheet by J. W. Bagley, USGS; published by Capps (1912, pl. 1),USGS.

Newman Peak: mountain, 2,000 ft., on Attu Islands, 2.5 miles SW of Attu, Aleutian Islands; 52° 54' 35 N, 173° 12' 07" E; (map 13). Named by U.S. Army during World War II. Published in 1948 by AMS.

Newmann Island: island, see Operl Island.

Newport Entrance: water passage, between McClure and Stockton Islands, on Beaufort Sea coast, 22 miles NW of Flaxman Island, Arctic Plain; 70° 19' 18" N, 147° 12' 30" W (map 150).

So named by Leffingwell (1919, p. 98) "After the whale ship Newport, which is reported to have entered the lagoon at this place."

Newport Island: island, in Newport Entrance, on Beaufort Sea coast, W of Pole Island, Arctic Plain; (map 150). Named by Leffingwell (1919, p. 98). "After the whaleship Newport." This island is no longer shown on topographic maps

Newrailing River: stream, see Newhalen River.

Newrailing Village: village, see Newhalen.

Newtak: village, see Newtok.

Newtok: village, pop. 129, on Kealavik River N of Nelson Island, 36 miles NE of Cape Vancouver, Yukon-Kuskokwim Delta; 60° 56' N, 164° 38' W; (map 58). Variant: Keyaluvik, New Kealavik, Newtok, Newtak, Niuftak. Newly established Eskimo village reported in 1949 by USC&GS. Its population in 1950 was 69. See Old Kealavik.

Newton Creek: ravine, see Newton Gulch.

Newton Creek: stream, flows SE 1.5 miles to American River, 25 miles NE of Teller, Seward Peninsula Highlands; 65° 31' N, 165° 45' W; (map 111). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Newton Creek: stream, see Left Fork Dry Creek.

Newton Gulch Number One: ravine, see Newton Gulch.

Newton Gulch Number Two: stream, see Left Fork Dry Creek.

Newton Gulch: ravine, heads on S side of Newton Peak, trends S 15 miles to Dry Creek, 3 miles NE of Nome, Seward Peninsula Highlands; 64° 31' 50" N, 165° 19' 30" W; (map 94). Variant: Newton Creek, Newton Gulch No. 1. Prospectors' name reported in 1900 as "Newton Cr." by E. C. Barnard (in Brooks, 1901, pl. 17), USGS. Reported in 1904 as "gulch" and applied as above by T. G. Gerdine, USGS. See Left Fork Dry Creek.

Newton Peak: mountain, 1,152 ft., 4 miles NE of Nome, Seward Peninsula Highlands; 64° 33' N, 165° 19' W; (map 94). Variant: Dry Creek Mountain, Eagle Peak, Newton Rock. Local name reported in 1904 by T. G. Gerdine, USGS.

Newton Rock: mountain, see Newton Peak.

Newwhalin River: stream, see Newhalen River.

Nexeura: point of land, see Niksirok Point.

Niagara Creek: stream, flows SW 2.2 miles to Kougarok River 11 miles N of its junction with Kuzitritin River, 44 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 25' N, 164° 38'

W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Niaghapok Cape: point of land, see Niyghapak Point.

Niak Creek: stream, flows SW 4 miles to Chukchi Sea, 5 miles S of Cape Lisburne, Arctic Slope; 68° 49' N, 166° 12' W; (map 129). Variant: Neak Creek. Eskimo name reported in 1904 by J. B. Driggs, a Point Hope missionary. See Niak.

Niak: locality, site of an Eskimo campground, On Chukchi Sea coast, 4 miles S of Cape Lisburne, Arctic Slope; 68° 49' N, 166° 11' W; (map 129) Eskimo name reported in 1904 by J. B. Driggs, a Point Hope missionary. The name may mean "head."

Niakagon Buttes: mountain, 1,325 ft., between Chandler and Tuluga Rivers, 25 miles SE of Umiat, Arctic Plain; 69° 01' N, 151° 42' W; BGN 1949; (map 141). Eskimo name reported in 1949 by USGS.

Niako Island: island, in Sagavanirktok River. This name first appears on Surgeon John Simpson's 1853 native map on which he notes "First sleeping place of the natives of Pt. Barrow, traveling from Colville R. to Pt. Berens." Leffingwell (1919, p. 91) refers to it as "a small island at Heald Point * * *." This place cannot be definitely identified, but may refer to present-day Niakuk Islands near Heald Point.

Niako Island: islands, see Niakuk Islands.

Niakogon Mountain: mountain, 1,603 ft., 23 miles SE of junction of Colville and Killik Rivers, Brooks Range; 68° 53' N, 153° 03' W; (map 133). Eskimo name reported about 1950 by USGS Geologists during exploration of Naval Petroleum Reserve No. 4. Delta, near Heald Point, on Beaufort Sea coast, Arctic Plain; (map 150).

Niaktuvik Creek: stream, heads in Waring Mountains at 66° 59' N, 158° 50' W, flows NE 20 miles to Kobuk River, 41 miles NW of Shungnak, Brooks Range; 67° 10' 30" N, 158° 27' 00" W; (map 126). Eskimo name reported by Orth in 1956.

Niaktuvik, Mount: mountain, 1,300 ft., in Lisburne Hills, 15 miles SE of Cape Dyer, Arctic Slope; 68° 29' 30" N, 165° 50' 55" W; (map 129). Variant: Neeaxtouwik Mountain. Eskimo name reported by Orth in 1956.

Niakuk Islands: islands, off-shore group, extends 1.2 miles W of Heald Point, at mouth of Prudhoe Bay, on Beaufort Sea coast, 23 miles SE of Beechey Point, Arctic Plain; 70° 22' N, 148° 14' W; (map 150). Variant: Niako Island. Eskimo name meaning "head" [neaqoq]; reported by USC&GS in 1949. This name may be the same as that reported by Surgeon John Simpson on his 1853 native map as Niako. See Niako Island

Niblack Anchorage: estuary, extends W 2.5 miles off Moira Sound, on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 04' N, 132° 05' W; (map 4). Variant: Niblick Anchorage. Named in 1885 by Lt. Comdr. R. C. Clover, USN, for Ens. Albert Parker Niblack, USN, a member of his party. This name was later shown erroneously as "Niblick" on Brit. Adm. Chart 2431.

Niblack Hollow: ravine, 1 mile long, on SW coast of Cleveland Peninsula, Alexander Archipelago; 55° 34' 55" N, 132° 10' 00" W; (map 4). Local name published in 1927 by USC&GS; derived from Niblack Point.

Niblack Islands: islands, 2 miles long, in Ernest Sound between Deer and Etolin Islands, 34 miles SE of Wrangell, Alexander Archipelago; 56° 02' N, 132° 06' W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow, USN, for Ens. Albert Parker Niblack, USN, a member of his party.

Niblack Point: point of land, on SW coast of Cleveland Peninsula, Alexander Archipelago; 55° 33' N, 132° 07' W; (map 4). Variant: Niblick Point. Named in 1885 by Lt. Comdr. R. C. Clover, USN, for Ens. Albert Parker Niblack, USN, a member of his party. This name was later shown erroneously as "Niblick" on Brit. Adm. Chart 2431.

Niblack: locality, at head of Niblack Anchorage, on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 04' 00" N, 132° 08' 45" W; (map 4). The Niblack post office was established at this former mining camp in 1901 but was transferred in 1909 to Ketchikan (Ricks, 1965, p. 45). This site is shown as an abandoned mine on a 1957 USGS map .

Niblick Anchorage: estuary, see Niblack Anchorage.

Niblick Point: point of land, see Niblack Point.

Nichawak Mountain: mountain, 1,600 ft., 3 miles W of Mount Campbell and 65 miles SE of Cordova, Malaspina Coastal Plain; 60° 14' N, 143° 58' W; (map 65). Variant: Mount Nichawak, Nitchavak Mountain, Nitchawak Mountain. Native name reported in 1903 by G. C. Martin, USGS.

Nichawak River: stream, flows SW 12 miles to Controller Bay, 12 miles E of Katalla. Malaspina Coastal Plain; 60° 12' N, 144° 11' W; (map 64). Local name published in 1907 by USGS.

Nichenthrav Mountain: mountain, 6,461 ft., on W bank of East Fork Chandalar River, 20 miles N of Arctic Village, Brooks Range; 68° 25' N, 145° 22' W; (map 136). Kutchin Indian name reported in 1926 by J. B. Mertie, Jr. (in Smith, P. S., and others, 1929, pl. 1), USGS.

Nichin Cove: bay, 0.7 miles long, on E coast of Tuxekan Island, 26 miles N. of Craig, Alexander Archipelago; 55° 51' 15" N, 133° 13' 30" W; (map 4). Indian name published in 1964 by USC&GS.

Nichlson Creek: stream, flows 3 miles NW to Chagvan Bay, 21 miles NE of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 46' N, 161° 40' W; (map 39). Local name shown on a 1937 fieldsheet by J. B. Mertie, USGS.

Nicholas Island: island, see Green Island.

Nicholas Islands: islands, see Nichols Islands.

Nicholas Lake: lake, 1.6 miles long, W of Sarana Bay, eastern Attu Island, Aleutian Islands; 52° 52' 30" N, 173° 15' 00" E; (map 13). So named by the U.S. Army during its occupation of the island during World War II; name shown on an AMS map published in 1948.

Nicholls Hills: hills, see Nichols Hills.

Nichols Bay: estuary, extends NW 5 miles from Dixon Entrance, on S coast of Prince of Wales Island, Alexander Archipelago; 54° 41' 30" N, 132° 04' 45" W; (map 1). Named in 1880 by USC&GS for Lt. Comdr. Henry Ezra Nichols, USN.

Nichols Hills: hills, 116 ft., on E coast of Nushagak Peninsula, W of Nichols Spit, 36 miles SW of Dillingham, Bristol Bay Lowland; 58° 34' N, 158° 47' W; (map 40). Variant: Nicholls Hills, The Knolls, Ushki Hills. Named in 1890 by USBF probably for Lt. Comdr. Henry Ezra Nichols, USN, of the USC&GS steamer Hassler, who wrote a revised edition of the 1891 Coast Pilot. A descriptive name "Ushki," meaning "ears," was given by Capt. Tebenkov (1852, map 4), IRN.

Nichols Islands: islands, offshore chain, extends 2.5 miles in Tlevak Strait, between Dall and Goat Islands, Alexander Archipelago; 55° 10' N, 132° 59' W; BGN 1966; (map 4). Variant: Nicholas Islands, Sentinel Islands. Named in 1882 by W. H. Dall, USC&GS, for Lt. Comdr. Henry E. Nichols, USN, who reconnoitered this region in 1881. Nearby are The Sentinels. Nichols called the entire group "Sentinel Islands" in 1881.

Nichols Lake: lake, 1.3 miles long, at head of Nichols Bay, on S coast of Prince of Wales Island Alexander Archipelago; 54° 45' 15" N, 132° 11' 30" W (map 1). Name derived from Nichols Bay; published by USC&GS in 1923.

Nichols Mountain: mountain, 1,830 ft., on S coast of Prince of Wales Island, Alexander Archipelago, 54° 43' 35" N, 132° 11' 05" W; (map 1). Name derived from Nichols Bay; published by USC&GS in 1943.

Nichols Pass: water passage, see Nichols Passage.

Nichols Passage: water passage, extends N 15 miles from Clarence Strait to Revillagigedo Channel, between Annette and Gravina Islands, Alexander Archipelago; 55° 05' N, 131° 42' W; (map 3). Variant: Nichols Pass. Named by USC&GS for Lt. Comdr. Henry E. Nichols, USN, who made extensive surveys in this vicinity from 1881 to 1883 while in command of the survey steamer Hassler; published in 1883 Coast Pilot (p. 79) as "Nichols Pass."

Nichols Point: point of land, on E shore of Isanotski Strait, Aleutian Range; 54° 51' 30" N, 163° 23' 00" W; BGN 1926; (map 25). Variant: Knoll Point. Named by USC&GS in 1926 for Joseph R. Nichols, who died in 1925, and was responsible for the establishment of the cannery which formed the nucleus of the settlement of False Pass.

Nichols Spit: spit, 2.2 miles long, on E coast of Nushagak Peninsula, 6 miles NW of Protection Point and 33 miles SW of Dillingham, Bristol Bay Lowland; 58° 35' N, 158° 46' W; (map 40). Named in 1910 by USC&GS probably for Lt. Comdr. Henry Ezra Nichols, USN, of the USC&GS steamer Hassler.

Nicholson Lake: lake, 0.6 miles long, 9 miles NW of Old Man Lake and 45 miles WNW of Glennallen, Copper River Basin; 62° 13' 30" N, 146° 55' 30" W; (map 83). Variant: Nickolson Lake. Local name reported in 1949 by USGS.

Nicholson Rocks: rocks, in Western Channel, in Sitka Sound, 2 miles W of Sitka, Alexander Archipelago 57° 02' 39" N, 135° 24' 15" W; (map 9). Named in 1880 by USN, and published by USC&GS in the 1883 Coast Pilot (p. 142).

Nichta: village, see Nightmute.

Nichtmut: village, see Nightmute.

Nichutalino: stream, see Muddy River.

Nick, Mount: mountain, 5,364 ft., at head of Johnson Glacier, 60 miles NE of Nondalton, Aleutian Range; 60° 05' N, 153° 03' W; (map 61). Local name reported in 1920 on a USGS manuscript map. The name was possibly obtained originally from a USC&GS manuscript sheet.

Nickala Creek: ravine, see Nekula Gulch.

Nickel Creek: stream, heads in lake, flows N 23 miles to Tazlina River, 5 miles SW of Glennallen, Copper River Basin; 62° 05' N, 145° 41' W; (map 83). Local name reported by USGS (in Chapin, 1918, pl. 1).

Nickel: locality, on N tip of Fleming Island, 12 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 47' 40" N, 136° 19' 10" W; (map 9). Local name of a former mining camp reported by R. M. Overbeck (in Martin and others, 1919, pl. 2), USGS, which was established about 1911. A description of this nickel mining locality is given by W. T. Pecora (in Kesler and others, 1944 p 230) USGS. The camp was abandoned about 1942 when the workings were flooded.

Nicklason Lake: lake, 0.3 miles across, in Matanuska Valley, 5.4 miles NW of Palmer, Cook Inlet Lowland; 61° 37' 45" N, 149° 16' 00" W; (map 69). Local name reported in 1942 by AMS.

Nickle Creek: stream, flows NW 2.3 miles to North Creek which flows to Agiapuk River, 14 miles NE of Teller, Seward Peninsula Highlands; 65° 23' N, 165° 27' W; (map 111). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Nickle Creek: stream, flows NW 4 miles to Port Clarence, 10 miles SW of Teller, Seward Peninsula Highlands; 65° 08' N, 166° 32' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Nickoli Lake: lake, 1.5 miles long, N of Glenn Highway, W of Mendeltna Creek, 35 miles W of Glennallen, Copper River Basin; 62° 04' 30" N, 146° 33' 00" W; (map 83). Variant: Nikolai Lake. Local name reported as "Nikolai Lake" by USGS in 1949.

Nickolson Lake: lake, see Nicholson Lake.

Nicolai's Village: locality, see Skolai.

Nicolet Creek: stream, flows W 1 mile to Three Mile Bay, on S shore of Orca Inlet, 2 miles SW of Cordova, Chugach Mountains; 60° 32' N, 145° 47' W; BGN 1961; (map 64). Named by USFS in 1936 for "Ralph Nicolet, son of a pioneer family of Cordova, who was killed in 1929 while hunting in the vicinity."

Nicolie Creek: stream, flows NE 4.5 miles to Tyone Creek, 21 miles NE of Tahnetta Pass, Talkeetna Mountains; 62° 11' 20" N, 147° 11' 50" W; BGN 60; (map 82). Named in 1956 by USGS "for an Athapascan Indian.

Nicolo Point: point of land, see Saint Nicholas Point.

Nicoloffsky: locality, see Nikolaief.

Nido Peak, EI: mountain, 3,358 ft., between Stag Bay and Lisianski Inlet, on W coast of Chichagof Island, 4 miles W of Pelican, Alexander Archipelago; 57° 57' 40" N, 136° 20' 15" W; (map 9). Local name reported in 1951 by USGS; of Spanish derivation meaning "the nest." It probably was named after the El Nido gold mine, 2.5 miles to the east, which was opened in 1921. No mining has been done here since 1939 (Roseman, 1959, p. 200).

Niegieklik: stream, see Andreaky River.

Niegvienuk: point of land, see Black Point.

Nigag Mountain: mountain, 1,861 ft., 8 miles SW of Nagugun Lake and 50 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 34' N, 160° 29' W; (map 53). Eskimo name reported in 1954 by USGS.

Nigaktoviakvik Creek: stream, flows W 6 miles to Killik River 10 miles N of its junction with Easter Creek, Brooks Range; 68° 17' N, 154° 03' W; (map 133). Eskimo name reported in 1956 by T. E. Taylor, USGS.

Nigaktukvik Creek: stream, flows NW 3 miles from Mayukuit Mountain to Killik River, Brooks Range; 68° 12' N, 154° 07' W; (map 133). Eskimo name meaning "place where [Dall] sheep are snared," reported in 1956 by T. E. Taylor, USGS.

Nigalek: locality, see Nigalik.

Nigalik: locality, at mouth of Colville River, Arctic Plain; 70° 25' N, 150° 30' W; (map 149). Variant: Goosetown, Negaleh, Nigalek, Nigaluk, Nigamak, Nighali, Nikilik, Nirlik. Formerly one of the most famous Eskimo trading sites in northern Alaska for the coastal and inland Eskimo, who met here each spring to hunt and trade. Recorded in 1853 by Comdr. R. Maguire as "Nighali" and "Nigamak" and by John Simpson, as "Nigalek" (Leffingwell, 1919, p. 98). W. H. Dall's map of 1877 shows it as Nig-a-lek; the 10th Census of 1880 lists "Nigaluk." The name "Nilik" is derived from Nikilivik, the Eskimo name for the Pacific white-fronted goose (*Anser albifrons frontalis*) (Rausch, 1951, p. 158). See Nunatunga.

Nigaluk: locality, see Nigalik.

Nigamak: locality, see Nigalik.

Nigato: stream, see Yukon River.

Nigatuk Creek: stream, flows NE 6 miles to Tolishden Slough, 7 miles SW of Roundabout Mountain, Koyukuk Lowland; 65° 27' N, 156° 38' W; (map 108). Koyukan Indian name reported in 1955 by USGS.

Nigelius Point: point of land, on W bank, near head of Carroll Inlet on Revillagigedo Island, Alexander Archipelago; 55° 33' 30" N, 131° 21' 00" W; (map 3). Local navigators' name reported in 1904 by H. C. Fassett, USBF.

Nigeruk Creek: stream, flows 8.5 miles to Kobuk River 1 mile W of its junction with Kaliguricheark River, 34 miles NE of Kiana, Brooks Range; 67° 11' N, 159° 18' W; (map 127). Eskimo name shown on a 1901 fieldsheet by D. L. Raeburn, USGS.

Nighali: locality, see Nigalik.

Nighmut: village, see Nightmute.

Nighmute: village, see Nightmute.

Nightmute: village, pop. 127, on Nelson Island, Yukon-Kuskokwim Delta; 60° 28' 50" N, 164° 44' 00" W; BGN 1965; (map 58). Variant: Nichta, Nichtmut, Nighmute, Nightmut, Nigmute, Nigtmuit, Nigtmute, Nikhta. Eskimo village listed in the 1939 Census with a population of 78; 27 in 1950; and 237 in 1960. In 1964 many of the people moved west to a new location named Toksook Bay.

Nights Lodging Cape: point of land, see Nochlega Point.

Nigiakturik River: stream, see Nigisaktuvik River.

Nigiaktuvik River: stream, see Nigisaktuvik River.

Nigiklik-miout: locality, see Nigiklik.

Nigiklik-miut: locality, see Nigiklik.

Nigiklik: locality, at junction of Andraefsky and Yukon Rivers, Yukon-Kuskokwim Delta; 62° 02' N, 163° 15' W; (map 77). Variant: Nigiklikmiout, Nigiklik-miut, Nygykligmjut. Former Eskimo village or camp published in 1850 as "Nigiklik-miout" by Lt. L. A. Zagoskin, IRN; his map locates it at or near Pitkas Point.

Nigikmigoon River: stream, flows SW 23 miles to the Inglutalik River, 22 miles SE of Haycock, Nulato Hills; 65° 05' N, 160° 28' W; (map 109). Eskimo name reported in 1949 by the U.S. Army Corps of Engineers.

Nigikmiut Creek: stream, flows NW 6 miles to Bering Sea, 1 mile E of Kahnirukmiut and 18 miles SW of Cape Etolin, on N coast of Nunivak Island; 60° 18' 32" N, 166° 35' 30" W; (map 57). Eskimo name reported in 1937 by USAAF.

Nigiktlik Creek: stream, heads on Kitkonak Hill, flows SW 9.5 miles to Oligavik Creek, 21 miles SE of Cape Lisburne, Arctic Slope; 68° 45' 10" N, 165° 27' 25" W; (map 129). Variant: Kitkonuk Creek. Eskimo name reported in 1956 by Orth.

Nigisak River: stream, see Nigisaktuvik River.

Nigisakfogvik River: stream, see Nigisaktuvik River.

Nigisaktuvik River: stream, heads in lake at 69° 55' 30" N, 157° 46' 00" W, flows N 90 miles to the Meade River, 6 miles NW of village of Meade River, Arctic Plain; 70° 33' N, 157° 30' W; BGN 1949; (map 147). Variant: Nigiakturik River, Nigiaktuvik River, Nigisak River, Nigisakfogvik River. Eskimo name, reported to mean "place where east wind blows," shown on a 1923 field sheet by E. C. Guerin, USGS, as "Nigisak-fogvik River."

Niglaktak Lake: lake, 2 miles across, 0.1 miles E of Selawik, Kotzebue-Kobuk Lowland; 66° 36' N, 159° 57' W; (map 114). Eskimo name obtained by U.S. Army Corps of Engineers in 1955.

Nigmute: village, see Nightmute.

Nigtmuit: village, see Nightmute.

Nigtmute: village, see Nightmute.

Nigtun Lake: lake, 1.5 miles long, in Howard Pass, Brooks Range; 68° 13' 30" N, 156° 53' 00" W; (map 132). Eskimo name obtained at Noatak by Orth in 1956, meaning "drill" or "bit" [niogtun]. See Tukuto Lake.

Nigu Bluff: bluff, on right bank of Nigu River, 2.5 miles above its mouth and 22 miles NE of Howard Pass, Arctic Slope; 68° 29' N, 156° 26' W; BGN 1960; (map 132). Variant: Rainbow Bluff. Named in 1925 by Gerald FitzGerald, USGS, for the multi-colored chert in the bluff. "Nigu" is an Eskimo word for "rainbow."

Nigu Hills: hills, 3,000 ft., 5 miles long and 4 miles wide, in Brooks Range, N of Howard Hills, 10 miles NE of Howard Pass; 68° 23' N, 156° 33' W; (map 132). Named in 1966 by geologists of BP Exploration Company (Alaska) Inc.

Nigu Lake: lake, see Etivlik Lake.

Nigu River: stream, heads in Imakturok Pass, flows NW 70 miles to Etivluk River, 25 miles NW of Howard Pass, Brooks Range; 68° 32' N, 156° 28' U; BGN 1926; (map 132). Named in 1925 by Gerald FitzGerald (in Smith and Mertie, 1930, pl. 1), USGS, for a multi-colored chert bluff near the stream's mouth. See Nigu Bluff.

Niguanak Ridge: ridge, elev. 300 ft., 6 miles long, between Jago and Niguanak Rivers, 12 miles SE of Barter Island, Arctic Plain; 69° 57' N, 143° 13' W; (map 138). Eskimo name recorded on Barter Island in 1952 by USC&GS and refers in meaning to an “attempt to see animals.”

Niguanak River: stream, flows N 35 miles to Oruktalik Lagoon, 15 miles SE of Barter Island, Arctic Plain; 70° 04' N, 142° 59' W; (map 152). Local name derived from Niguanak Ridge, reported by USC&GS in 1952.

Nigvilnak: point of land, see Black Point.

Niitiltoktalogi Mountain: mountain, see Niitiltoktalogi Mountain.

Niitiltoktalogi Mountain: mountain, 2,050 ft., on N bank of Koyukuk River, 32 miles NNE of Hughes, Hogatza Highlands; 66° 25' N, 153° 40' W; (map 116). Variant: Niitiltoktalogi Mountain. Indian name published in 1956 by USGS.

Niivouk, Mount: hill, see Mugum Peak.

Nijik: locality, see Kijik.

Nijunjak: island, see Chernabura Island.

Nik River: stream, see Kenai River.

Nikabuna Lake: lake, 2.5 miles long, on Chulitna River, 23 miles NW of Nondalton, Alaska Range; 60° 06' N, 155° 26' W; BGN 1916; (map 61). Variant: Neekahueena, Neekahweena, Nikawina, Robinson Lake. Tanaina Indian name reported in 1902 as “Nikawina” by W. H. Osgood, USDA.

Nikabuna Lakes: lakes, a group of lakes 8 miles long, on the Chulitna River, 22 miles NW of Nondalton, Alaska Range; 60° 05' N, 155° 25' W; (map 61). Local name reported in 1909 by USGS.

Nikadavna Creek: stream, flows N 6 miles to the Chilchitna River, 40 miles NW of Nondalton, Alaska Range; 60° 28' N, 155° 28' W; (map 61). Variant: Chau-off-pad-le-rok, Necodayno, Nikadavno. Tanaina Indian name reported in 1914 as “Nikadavno” by R. H. Sargent and P. S. Smith, USGS. H. C. Fassett, USBF, seems to have recorded the Eskimo name of this stream as “Chau-off-pad-le-rok.”

Nikadavno: stream, see Nikadavna Creek.

Nikawina: lake, see Nikabuna Lake.

Nikhak: locality, see Kijik.

Nikhkak River: stream, see Kijik River.

Nikhkak: locality, see Kijik.

Nikhta: village, see Nightmute.

Nikhtagmut: locality, see Niktak.

Nikilik: locality, see Nigalik.

Nikipak Mountain: mountain, see Meat Mountain.

Nikishka Bay: bight, extends SW 4 miles from Boulder Point, along SE shore of Gompertz Channel, 14 miles N of Kenai, Cook Inlet Lowland; 60° 45' N, 151° 18' W; BGN 1952; (map 62). Variant: Nikishki Bay, Nikiska Bay. Name published in 1943 Coast Pilot (p. 99); derived from village of Nikishka, which was formerly located here.

Nikishka No. 1: locality, see Nikiski Wharf.

Nikishka No. 2: locality, on NW coast of Kenai Peninsula, 3.2 miles SW of Boulder Point and 12 miles N of Kenai, Cook Inlet Lowland; 60° 44' 20" N, 151° 19' 30" W; (map 62). Variant: Nikishka, Nikishki. Former Tanaina Indian Village and boat landing. The 1964 USC&GS Coast Pilot (p. 78) stated it is now a barge wharf; recent USGS maps indicate a site with two or three buildings. See Nikishka No. 3.

Nikishka No. 3: locality, on NW coast of Kenai Peninsula, 6 miles E of Boulder Point and 16 miles NNE of Kenai, Cook Inlet Lowland; (map 62). Variant: Kultuk, Titukilsk. Former Tanaina Indian village reported in 1930 by de Laguna (1934, p. 134). The names "Titukilsk and Nikishka" are combined in Ivan Petroff's 1880 Census and pertain to two small villages that had a total population of 57. Correlation of these two names with the present names, "Nikiski Wharf," "Nikishka No. 2," and "Nikishka No. 3," has not been possible. It appears that the name "Nikishka" was applied several villages north of Kenai, of which Titukilsk may have been one.

Nikishka: locality, see Nikishka No. 2.

Nikishki Bay: bight, see Nikishka Bay.

Nikishki: locality, see Nikishka No. 2.

Nikiska Bay: bight, see Nikishka Bay.

Nikiski Wharf: locality, on W coast of Kenai Peninsula, 10 miles NNW of Kenai, Cook Inlet Lowland; 60° 41' N, 151° 24' W; (map 62). Variant: Nikishka No. 1. Former Tanaina Indian village and boat landing reported as "Nikishka No. 1" in 1912 by USC&GS. The village is now known primarily as a wharf and petroleum-handling facility, according to the 1964 USC&GS Coast Pilot (p. 78). See Nikishka No. 3.

Nikkala Gulch: ravine, see Nekula Gulch.

Niklavik Creek: stream, heads in lake, flows E 18 miles to Inaru River, 29 miles S of Barrow, Arctic Plain; 70° 52' 10" N, 156° 57' 30" W; (map 147). Eskimo name obtained in 1956 at Wainwright by T. E. Taylor, USGS.

Niklavik Creek: stream, heads in swampland NW of Tunusiktok Lake and flows NW 25 miles to Kokolik River, 10.5 miles E of Point Lay Arctic Plain; 69° 45' N, 162° 37' W; (map 145). Eskimo name appearing on a field sheet by Gerald FitzGerald, USGS, dated 1923.

Nikok River: stream, flows E 15 miles to Salmon River, 36 miles NE of Kiana, Brooks Range; 67° N, 159° 48' W; (map 127). Eskimo name obtained in 1955 by U.S. Army Corps of Engineers.

Nikolai Bay: bay, 2 miles across, in Tustumena Lake, S of Caribou Island, on Kenai Peninsula, 25 miles SSE of Kenai, Cook Inlet Lowland; 60° 13' N, 151° 01' W; (map 62). Local name reported in 1904 by F. H. Moffitt, USGS; derived from Nikolai Creek.

Nikolai Butte: peak, 6,000 ft., NW of Lime Butte, 16 miles SE of McCarthy, Wrangell Mountains; 61° 23' N, 142° 27' W; (map 67). Named for Nikolai, the tyone or chief of the Copper River area, reported in 1908 by D. C. Witherspoon, USGS (in Moffitt and Capps, 1911, pl. 2).

Nikolai Cove: cove, 1 mile across, on SE shore of Castle Cape, 11 miles SE of Chignik, Aleutian Range; 56° 13' N, 158° 12' W; (map 30). Variant: Nikoli Cove. Name reported in 1923 by R. H. Sargent, USGS; published in 1927 by USGS.

Nikolai Creek: stream, flows 4 miles W to McCarthy Creek, 5 miles E of McCarthy, Wrangell Mountains; 61° 26' 45" N, 142° 46' 30" W; (map 67). The name was reported in 1900 by T. G. Gerdine, USGS. See Nikolai Butte.

Nikolai Creek: stream, heads in lake, flows SE 38 miles to Trading Bay, 12 miles SW of Tyonek. Cook Inlet Lowland; 61° 00' 45" N, 151° 28' 55" W; (map 70). Local name reported in 1927 by S. R. Capps (in Smith and others, 1930, pl. 3). USGS.

Nikolai Creek: stream, on Kenai Peninsula, flows N 18 miles to Tustumena Lake, 27 miles SSE of Kenai, Cook Inlet Lowland; 60° 11' 45" N, 151° 00' 30" W; (map 62). Local name published by D. H. Sleem on his map of Central Alaska dated 1910.

Nikolai Gulch: ravine, trends 1 mile SW to Dan Creek, 0.1 mile W of junction of Copper and Dan Creeks, SW of Nikolai Butte and 15 miles SE of McCarthy, Wrangell Mountains; 61° 22' N, 142° 29' W, (map 67). The name was reported in 1908 by D. C. Witherspoon' USGS (in Moffitt and Capps, 1911, pl. 2). See Nikolai Butte.

Nikolai Lake: lake, 0.6 miles long, on Kenai Peninsula, 2 miles S of Caribou Island in Tustumena Lake and 25 miles S of Kenai, Cook Inlet Lowland; 60° 11' 50" N, 151° 02' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Nikolai Lake: lake, see Nickoli Lake.

Nikolai Pass: pass, 3,700 ft., at head of Nikolai Creek, 10 miles NE of McCarthy, Wrangell Mountains; 61° 26' N, 142° 39' W; (map 67). Local name obtained by USGS and published on maps since 1964. See Nikolai Butte.

Nikolai Slough: stream, anabranch, heads at Koyukuk River, flows SE 23 miles to Bear Creek, 35 miles NE of Nulato, Koyukuk Lowland; 64° 52' N, 157° 00' W; (map 97). Local name reported in 1954 by USGS.

Nikolai: locality, see Skolai.

Nikolai: village, pop. 86, at junction of South Fork Kuskokwim and Little Tonzona Rivers, 46 miles E of McGrath, Kuskokwim Lowland; 62° 58' 10" N, 154° 09' 30" W; (map 80). Variant: Old Nikolai. Ingalik Indian village located at its present site about 1925, previously was situated several miles up the South Fork (Hosley, 1961 p. 95). In 1960 Hosley reported the village consisted of 12 cabins, 2 school buildings, and a Greek Catholic-Russian Orthodox church. The old village site up-river is now called "Old Nikolai."

Nikolaief: locality, on S coast of Alaska Peninsula at Dushkin Lagoon, 11 miles NNE of Belkofski, Aleutian Range; 55° 14' N, 161° 26' W; (map 28). Variant: Nicoloffsky, Nikolaievsky. Former Aleut village or camp, presumably named by the Russians after Tsar Nikolas: reported in the 1880 Census as "Nikolaievsky, Population 43, by Petroff (1884, p. 29).

Nikolaievsky: locality, see Nikolaief.

Nikolas Reef: reef, Cozian Reef.

Nikolay, Ostrov: island, see Green Island.

Nikoli Cove: cove, see Nikolai Cove.

Nikolski Anchorage: bay, see Nikolski Bay.

Nikolski Bay: bay, 4.5 miles across, on SW coast of Umnak Island, Aleutian Islands; 52° 57' 30" N, 168° 54' 00" W; BGN 1940; (map 21). Variant: Nikolski Anchorage, Nikolski Harbor. Named in 1939 by USC&GS, "from the village of Nikolski on Umnak Island."

Nikolski Harbor: bay, see Nikolski Bay.

Nikolski: village, pop. 92, on Nikolski Bay, on SW coast of Umnak Island, Aleutian Islands; 52° 56' 23" N, 168° 51' 35" W; BGN 1890; (map 21). Variant: Nikolskoje, Nikolsky, Oomnak, Recheshnaia, Recheshnoe, Retchchnoi, Riecheshno, Riechesnoe, Rjatscheschnoje, Rychesnoj, Umnak. Russian name published in 1868 by the U.S. Navy Hydrog. Office. Recorded in 1834 as "Recheshnoe," meaning "river," population 83, by Father Veniaminov (1840, v. 1, p. 151). Shown as "Nikolsky" on Petroff's 1880 Census map, and recorded with a population of 127. The population was 94 in 1890; 109 in 1929; 97 in 1939, and 64 in 1950.

Nikolskoi: locality, see Korovinski.

Nikolskoje: village, see Nikolski.

Nikolskoye, Seleniye: locality, see Korovinski.

Nikolsky: village, see Nikolski.

Nikonda Creek: stream, heads at Nikonda Glacier terminus flows NW 7 miles to Nabesna River, 11 miles S of Devils Mountain, Wrangell Mountains; 62° 11' N, 142° 51' W; (map 84). Indian name reported in 1902 by D. C. Witherspoon, USGS.

Nikonda Glacier: glacier, extends N 6 miles to its terminus at head of Nikonda Creek, 18 miles W of Euchre Mountain, E of Nabesna Glacier Wrangell Mountains; 62° 03' N, 142° 44' W, (map 84). Local name reported in 1959 by USGS.

Niksirok Point: point of land, at NW end of Elson Bay, 2.5 miles SW of Point Barrow, Arctic Plain; 71° 21' 15" N, 156° 31' 45" W; (map 153). Variant: Nexeura. Eskimo name recorded in 1965 at Barrow by Orth, USGS, and means "becoming hook." The Brit. Adm. Chart 2165 drawn in 1853 by Master Thomas Hull spells the name "Nexeura."

Niktak: locality, on Cape Prince of Wales, Kotzebue-Kobuk Lowland; 65° 35' N, 168° 03' W; (map 111). Variant: Nikhtagmut. Former Eskimo village or camp recorded as "Nikhtagmut" by Lt. Zagoskin (1847, p. 73), IRN.

Nil Desperandum Gulch: ravine, trends SE 0.9 miles to Lost Creek, 5 miles NE of Nome, Seward Peninsula Highlands; 64° 33' 20" N, 165° 14' 00" W; (map 94). Prospectors' name reported on the 1903 Champion Mining and Trading Co. map by George M. Ashford.

Nilak Point: point of land, see Nililak Point.

Nilak: locality, see Nililak.

Nile Point: point of land, on SW coast of Agattu Island, Aleutian Islands; 52° 23' 25" N, 173° 24' 50" E; (map 13). Named by U.S. Army during World War II.

Nilik River: stream, heads on North Aluk Hill, flows SW 30 miles to Ipewik River, 28 miles SE of Cape Dyer, Arctic Slope; 68° 30' 30" N, 165° 12' 05" W; (map 129). Variant: Ipewik River, North Kukpuk River, Savailok River. Eskimo name meaning "to pass wind" reported in 1955 by U.S. Army corps of Engineers.

Nilikluguk: village, pop. 40 (1950), on NW coast of Nelson Island, 12 miles NE of Cape Vancouver, Yukon-Kuskokwim Delta; 60° 39' N, 165° 09' W; (map 57). Eskimo village reported in 1937 by USC&GS.

Nililak Point: point of land, in Yukon Delta between Kwemuluk Pass and Kwiklokchum Channel, 0.5 miles N of Sheldon Point and 18 miles SW of Kwiguk, Yukon-Kuskokwim Delta; 62° 32' 30" N, 164° 51' 00" W; (map 77). Variant: Nilak Point, Neh-leel-ahk. Eskimo name obtained in 1948 by USC&GS.

Nililak: locality, on S bank of Kwikluak Pass, Yukon Delta, 14 miles SW of Kwiguk, Yukon-Kuskokwim Delta; 62° 35' 25" N, 164° 47' 05" W; (map 77). Variant: Nilak. Eskimo campsite reported in 1952 by USC&GS.

Nilimut Creek: stream, see Nilumat Creek.

Nilkoka River: stream, see Tolovana River.

Nillik: locality, on left bank of Selawik River, 21 miles E of Selawik, Kotzebue-Kobuk Lowland; 66° 36' N, 159° 15' W; (map 114). Eskimo camp reported in 1954 by the U.S. Army Corps of Engineers.

Nilumat Creek: stream, on W slope of Towak Mountain, flows SW 3 miles to Kokechik Bay, 3.5 miles S of Cape Romanzof, Yukon-Kuskokwim Delta; 61° 46' N, 166° 03' W; (map 75). Variant: Nilimut Creek, Nilumut River. Eskimo name reported by USC&GS in 1949.

Nilumut River: stream, see Nilumat Creek.

Nilunorat Hills: hills, 1,945 ft., SE of Angayucham Mountains and 60 miles NNW of Hughes, Hogatza Highlands; 66° 21' N, 155° 07' W; (map 116). Name reported in 1956 by USGS.

Nimgun Creek: stream, heads at Nimgun Lake flows S 22 miles to Goodnews River, 38 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 27' N, 160° 47' W; (map 53). Eskimo descriptive name reported to mean "to wind around," obtained about 1951 at Goodnews by J. M. Hoare, USGS.

Nimgun Lake: lake, 0.8 miles long, 9 miles NW of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 34' N, 160° 45' W; (map 53). Name derived from Nimgun Creek, published in 1951 by USGS.

Nimiuk Point: point of land, on Baldwin Peninsula, extends into Hotham Inlet, 18 miles SE of Kotzebue, Kotzebue-Kobuk Lowland; 66° 47' N, 162° 01' W; (map 113). Variant: Nimyuk, Ninvok, Ninvook. Eskimo name reported in 1884 by Lt. G. M. Stoney, USN, who says it signifies the cottonwood tree.

Nimrod Hill: ridge, elev. 1,560 ft., extends NW-SE 3 miles on E side of Imuruk Lake, Seward Peninsula Highlands; 65° 37' N, 163° 05' W; (map 110). Local name reported in 1951 by USGS.

Nimrod Peak: peak, 5,075 ft., 2 miles W of Squaw Mountain and 19 miles N of Eagle, Porcupine Plateau; 65° 04' 12" N, 141° 04' 00" W; BGN 1965; (map 103). Named in 1965 by USGS, for Edwin E. Robertson. (died 1941), who was known locally as "Nimrod."

Nimyuk: locality, probably near head of Unakserak River, Brooks Range; 67° 52' N, 153° 54' W; (map 125). Stoney (1900, map), USN, reports an Eskimo village consisting of two huts here in 1886, inhabited by three men, two women, and some children. It was probably not a permanent village but rather a convenient place for hunting and trading parties to camp. Stoney's text states that he traveled up the Kutuk [Koo-to-ark] River; however, his manuscript map locates Nimyuk at the head of the Unakserak River, which he does not name. If his text

is correct, Nimyuk should be located near the head of July Creek. “Nimyuk [Ningyak]” is an Eskimo name meaning “cottonwood.”

Nimyuk: point of land, see Nimiuk Point.

Nin Ridge: interfluvium, between Kichatna and Nakochna Rivers, 55 miles SW of Talkeetna, Alaska Range; 62° 09' 30" N, 151° 53' 00" W; (map 81). Tanaina Indian name obtained in 1899 by Lt. J. S. Herron, USA.

Nina Cove: cove, 1 mile long, S of Coning Inlet, on E coast of Long Island, Alexander Archipelago; 54° 49' 30" N, 132° 39' 10" W; BGN 1929; (map 1). Named in 1928 by USC&GS whose “field party suggested 'Ning' from the last syllable of 'Coning [Inlet]' but for the sake of euphony, the change to 'Nina' is recommended.”

Ninagiak Island: island, 1.2 miles long, in Hallo Bay, on S coast of Alaska Peninsula, in Katmai National Monument, 37 miles NE of Mount Katmai, Aleutian Range; 58° 27' 30" N, 154° 00' 00" W; (map 42). Variant: Ile Pina-ghiack, Ostrov Ninagiak. Eskimo name published by Capt. Tebenkov (1852, map 22), IRN.

Ninagiak River: stream, flows SE 10 miles to Hallo Bay, on E coast of Alaska Peninsula, in Katmai National Monument, 36 miles NE of Mount Katmai, Aleutian Range; 58° 28' 35" N, 154° 04' 30" W; (map 42). Reported in 1951 by USGS; probably named for Ninagiak Island.

Nine Pup: stream, flows NW 1 mile to Deadwood Creek, 36 miles SW of Circle, Yukon-Tanana Highlands; 65° 27' 25" N, 144° 56' 10" W; (map 104). Named “Nine Pup” by prospectors; reported in 1909 by B. L. Johnson (in Brooks and others, 1910, fig. 5), USGS.

Ninefoot Shoal: shoal, in Khaz Bay, 5.5 miles S of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 34' 45" N, 136° 05' 30" W; (map 9). Descriptive name given in 1917 by USC&GS and published in the 1917 Coast Pilot (p. 221).

Ninemile Camp: locality, on left bank of Yukon River, at junction of Ninemile Slough and Yukon River, 9 miles SW of Nulato, Koyukuk Lowland; 64° 36' N, 158° 17' W; (map 97). Local descriptive name reported in 1954 by USGS.

Ninemile Creek: stream, flows SW 9 miles from Ninemile Hills to John River, 53 miles SW of Wiseman, Brooks Range; 67° 00' 20" N, 151° 47' 00" W; (map 124). Local name reported in 1956 by USGS; probably so called because the mouth of the creek is about nine miles from Bettles.

Ninemile Creek: stream, heads at a glacier and flows NE 4.6 miles to Matanuska River, 33 miles NE of Palmer, Chugach Mountains; 61° 47' 15" N, 148° 12' 15" W; (map 69). Local name reported in 1948 by USGS.

Ninemile Creek: stream, heads at glacier terminus, in Nutzotin Mountains, flows NW 5 miles to Cooper Creek 7 miles SE of its junction with Nabesna River; 62° 21' N, 142° 35' W; (map 84). Local name reported by USGS in 1960. So named because it is about nine miles upstream from the mouth of Cooper Creek.

Ninemile Creek: stream, heads in Scotty Lake, flows S 12 miles to Moose Creek, 13 miles SW of Talkeetna, Cook Inlet Lowland; 62° 11' 30" N, 150° 23' 50" W; (map 81). Local descriptive name reported in 1958 by USGS.

Ninemile Creek: stream, on N end of Douglas Island, flowing 0.7 miles NW to Gastineau Channel, 1.2 miles E of Entrance Point and 6.4 miles NW of Juneau, Coast Mountains; 58° 20' 10" N, 134° 34' 30" W; (map 11). Local name published in 1962 by USGS.

Ninemile Hills: hills, 3,000 ft., 9 miles across, between Timber Creek and Wild River, on S side of Death Valley, 45 miles SW of Wiseman, Brooks Range; 67° 04' N, 151° 38' W; (map 124). Local name reported in 1956 by USGS; so called because Ninemile Creek heads in them.

Ninemile Island: island, extends NE-SW 4.8 miles in Yukon River, 10 miles NE of Ruby, Nowitna Lowland; 64° 50' N, 155° 12' W; (map 98). Variant: Lonesome Island. Local name reported about 1952 by USGS.

Ninemile Island: island, in Yukon River, 7 miles SW of Nulato, Koyukuk Lowland; 64° 38' N, 158° 13' W; (map 97). Variant: Center Island. Local descriptive name reported in 1954 by USGS.

Ninemile Lake: lake, 0.5 miles across, between Ninemile Hills and Ninemile Creek, 4 miles E of mouth of Ninemile Creek and 49 miles SW of Wiseman, Brooks Range; 67° 01' 15" N, 151° 38' 00" W; (map 124). Local name reported in 1956 by USGS; probably so called because it lies between Ninemile Creek and Ninemile Hills.

Ninemile Lake: lake, 0.7 miles long, 7 miles NE of Beaver, Yukon Flats; 66° 27' 10" N, 147° 15' 20" W; (map 118). Local name obtained in 1956 by USGS; name derived from the distance to Beaver via a year-round trail.

Ninemile Lake: lake, 0.8 miles long, 8 miles SE of Fort Yukon, Yukon Flats; 66° 30' 00" N, 145° 02' 30" W; (map 119). Local name reported in 1956 by USGS; so called because the lake is about 9 miles up the Yukon River from Fort Yukon.

Ninemile Lake: lake, 1.3 miles across, 22 miles SE of Beaver, Yukon Flats; 66° 11' 30" N, 146° 39' 30" W; (map 119). Local name obtained in 1956 by USGS.

Ninemile Mountain: mountain, 6,335 ft., 7.5 miles NW of Hyder, Coast Mountains; 56° 00' 45" N, 130° 08' 00" W; (map 7). Local descriptive name published in 1928 by USGS.

Ninemile Point: point of land, on N shore of Yukon River between Burns and Youngs Islands, 9 miles SW of Birches, Kokrines-Hodzana Highlands; 65° 04' N, 153° 48' W; (map 107). Local name obtained by USGS topographers in 1952. So named because it is 9 miles from Birches.

Ninemile Point: point of land, on right bank of Yukon River, between Straight and Ninemile Islands, 7 miles NE of Ruby, Nowitna Lowland; 64° 49' N, 155° 19' W; (map 98). Local name reported about 1952 by USGS.

Ninemile Point: point of land, on Seward Peninsula, extends into Kotzebue Sound, 7 miles E of Deering, Kotzebue-Kobuk Lowland; 66° 04' N, 162° 27' W; (map 113). Local name reported in 1950 by USGS.

Ninemile River: stream, flows NE 22 miles to Yukon River, 8 miles SW of Nulato, Nulato Hills; 64° 38' N, 158° 18' W; (map 97). Local descriptive name reported in 1954 by USGS.

Ninemile Slough: channel, in Yukon River, flows SW 5.2 miles around E side of Ninemile Island, 8 miles NE of Ruby, Nowitna Lowland; 64° 50' N, 155° 12' W; (map 98). Local name reported about 1952 by USGS.

Ninemile Slough: stream, an anabranch of Porcupine River, flows SW 5 miles 39 miles NE of Fort Yukon, Yukon Flats; 66° 49' N, 144° 00' W; (map 119). Local name obtained in 1956 by USGS.

Ninemile Slough: stream, anabranch, flows SW 6 miles around Ninemile Island to Yukon River, 9 miles SW of Nulato, Koyukuk Lowland; 64° 36' N, 158° 17' W; (map 97). Local descriptive name reported in 1914 by USGS.

Ninemile: locality, on left bank of Salmon River, 7.5 miles NW of Hyder, Coast Mountains; 56° 01' 15" N, 130° 04' 25" W; (map 7). Name published in 1920 by L. G. Westgate (in Brooks and others, 1922, fig. 1), USGS.

Nineteenmile: locality, 9.5 miles SE of Bearpaw and 55 miles SE of Bitshtini Mountains, Tanana Lowland; 64° 04' N, 150° 25' W; (map 99). A shelter station on the winter sled trail reported in 1932 by USGS.

Ninety-two Hunter Creek: stream, flows N 7 miles to Hunter Creek at W end of Forty-seven Gulch, 8 miles SE of Rampart, Yukon-Tanana Highlands; 65° 28' N, 149° 49' W; (map 105). Local name published by USGS (Mertie, 1937, pl. 1).

Ninetyeight Creek: stream, flows E 11 miles to Salcha River, 30 miles NW of Big Delta, Yukon-Tanana Highlands; 64° 33' N, 146° 16' W; (map 101). Variant: Ninety-eight Creek. Local name published in 1956 by USGS.

Ninetyeight Pup: stream, flows N 4 miles to Preacher Creek, 15 miles NW of Porcupine Dome and 50 miles SW of Circle, Yukon-Tanana Highlands; 65° 43' N, 145° 47' W; (map 104). Prospectors' name reported in 1952 by USGS topographers.

Ninetytwo Pup: stream, flows N 1.7 miles to Hoosier Creek, 11 miles SSE of Rampart, Yukon-Tanana Highlands; 65° 21' 20" N, 150° 01' 40" W; (map 106). Prospectors' name shown on a manuscript map dated 1906; reported in 1956 by Orth.

Ningalingfuk River: stream, see Ninglikfak River.

Ningaluk River: channel, see Ninglick River.

Ningeehak Beach: beach, extends SE 4 miles from Ikoygak Creek, along shore of Akeftapak Bay, 9 miles SE of Gambell, St. Lawrence Island; 63° 42' N, 171° 34' W; BGN 1951; (map

93). Variant: Ningehek Beach. Eskimo name often spelled “Ningehek” and meaning “little camp.”

Ningeehak: locality, site of camp, 2 miles NW of Aghnaghak Lagoon and 9 miles SE of Gambell, N coast of St. Lawrence Island; 63° 41' N, 171° 36' W; (map 93). Variant: Ningehek. Eskimo name recorded in 1965 by Orth, as “Ninehak,” meaning “little camp.” The name was first reported by O. W. Geist in 1932.

Ningehek Beach: beach, see Ningeehak Beach

Ningehek: locality, see Ningeehak.

Ninghak: lake, see Troutman Lake.

Ningikfak River: stream, see Ninglikfak River

Ninglick River: channel, flows W 44 miles from Baird Inlet to Bering Sea, just N of Nelson Island, 110 miles W of Bethel, Yukon-Kuskokwim Delta; 60° 53' N, 165° 04' W; (map 57) Variant: Ningaluk River, Ninglik Pass. Eskimo name obtained from the Rev. Jules Convert as “Ningaluk” in 1949 by USC&GS

Ninglik Pass: channel, see Ninglick River.

Ninglikfak River: stream, flows SW 20 miles to Hooper Bay, 2 miles N of Keoklevik River, Yukon-Kuskokwim Delta; 61° 29' N, 165° 45' W; (map 75). Variant: Ningalingfuk River, Ningikfak River. Eskimo name obtained at Hooper Bay by USC&GS in 1949.

Ningolik Valley: valley, extends N 9 miles along the Chandler River from junction of Aiyiak and Jiksikpuk Rivers, Brooks Range; 68° 55' N, 151° 53' W; (map 134). Eskimo name obtained at Anaktuvuk Pass in 1956 by T. E. Taylor, USGS; it means “has cottonwood [ningok].”

Ningyoyak Creek: stream, flows SW 6 miles to Midas Creek, 28 miles SE of Howard Pass, Brooks Range; 67° 51' N, 156° 22' W; (map 126). Eskimo name meaning “little cottonwood” relative to Midas Creek which is called “Ningyak” or “cottonwood”; recorded at Kobuk by Orth in 1956.

Ninilchik Dome: hill, 1,956 ft., on Kenai Peninsula, 9 miles W of Caribou Lake and 20 miles NE of Homer, Cook Inlet Lowland; 59° 54' 30" N, 151° 25' 30" W; (map 50). Local name reported and published by USGS in the 1950's.

Ninilchik River: stream, flows SW 21 miles to Cook Inlet at Ninilchik, 38 miles SW of Kenai, Cook Inlet Lowland; 60° 03' N, 151° 40' W, (map 62). Variant: Reka Ninilchika. Native name published by Capt. Tebenkov (1852, map 5), IRN, as “R[eka] Ninilchika” or “Ninilchik River.” See Ninilchik, village.

Ninilchik, Cape: point of land, 1.5 miles SW of Ninilchik and 39 miles SW of Kenai, Cook Inlet Lowland; 60° 02' N, 151° 42' W; (map 62). Variant: Cape Neniltschik oder Sunit, Mys

Ninilchika. Native name published by Capt. Tebenkov (1852, map 5), IRN, as “M[ys] Ninilchika” or “Cape Ninilchik.” See Ninilchik, village.

Ninilchik: village, pop. 169, on W coast of Kenai Peninsula, 38 miles SW of Kenai, Cook Inlet Lowland; 60° 03' N, 151° 40' W; BGN 1944; (map 62). Variant: Munina. This is an agricultural settlement, formerly a fur-farming and fishing village. Ivan Petroff (U.S. Bureau of the Census, 1884, p. 27), wrote “A number of 'colonial citizens,' or superannuated employe's [sic] of the old Russian Company, were ordered to settle some fifty or sixty [1820 or 1830] years ago at Ninilchik, and their descendants live there still.” Its population in 1880 was 53; in 1890, 81; in 1920, 87; in 1930, 124. A post office was obtained in the early 1940's.

Ninilchika, Mys: point of land, see Ninilchik, Cape.

Ninilchika, Reka: stream, see Ninilchik River.

Niniua-Tugat: lake, see Becharof Lake.

Ninivahut Lake: lake, 0.4 miles across, 0.7 miles S of Troutman Lake, 3 miles S of Gambell, Saint Lawrence Island, 63° 44' N, 171° 43' W; (map 93). Eskimo name reported in 1943 by USC&GS.

Ninuluk Bluff: ridge, 600 ft., 5 miles long, between Colville River and Ninuluk Creek, 28 miles SW of Umiat, Arctic Slope, 69° 09' N, 153° 15' W; BGN 1960; (map 142). Name proposed in 1956 by USGS for use in geologic map ping; derived from the name of the stream.

Ninuluk Creek: stream, heads at 69° 02' N, 152° 35' W, flows W, N, and NE 45 miles to Colville River, 20 miles SW of Umiat, Arctic Slope; 69° 14' N, 152° 52' W; BGN 1949; (map 141). Variant: Noviovak River. Eskimo name reported in 1901 by Peters and Schrader (1904, pl. 2), USGS.

Ninuluk Creek: stream, see Chandler River.

Ninvaug: locality, see New Hamilton.

Ninvok: locality, see New Hamilton.

Ninvok: point of land, see Nimiuk Point.

Ninvook: point of land, see Nimiuk Point.

Nioklakowik Slough: stream, see Kanyak River.

Nioklakowik Slough: stream, see Nagosakchowik Slough.

Nioktun Lake: lake, see Tukuto Lake.

Nip Hill: hill, 200 ft., on S end of Little Kiska Island, Aleutian Islands; 51° 56' 49" N, 177° 40' 10" E; (map 14). An arbitrary name beginning with “N” to correspond to “N” grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map .

Nipper Cove: cove, 0.5 miles across, E of Oksenof Point, on NW coast of Unimak Island, Aleutian Islands; 54° 53' 50" N, 164° 31' 30" W; BGN 1942; (map 24). Named by USC&GS for "Nipper, a horse used by the 1939 field party on the island. The horse was accidentally killed during the season."

Nipper Creek: stream, flows N 3.5 miles to Nipper Cove, E of Oksenof Point, on NW coast of Unimak Island, Aleutian Islands; 54° 53' 45" N, 164° 31' 00" W; BGN 1942; (map 24). Named in 1940 by USC&GS " * * * for Nipper Cove."

Nipple Butte: mountain, 2,500 ft., on Prince of Wales Island, near head of McKenzie Inlet, Alexander Archipelago; 55° 18' 35" N, 132° 19' 25" W; (map 4). Local name published in 1943 by USC&GS.

Nipple Gulch: stream, see Little Dixie Creek.

Nipple Mountain: mountain, 2,096 ft, on E coast of Gravina Island, 3.9 miles NW of Blank Point, Alexander Archipelago; 55° 18' N, 131° 43' W; (map 3). Descriptive name given in 1883 by Lt. Comdr. H. E. Nichols, USN.

Nipple Mountain: mountain, see Dixon, Mount.

Nipple, The: mountain, see Killinupak Mountain.

Nipples, The: mountains, 3,104 ft., on N coast of Kosciusko Island, Alexander Archipelago;; 56° 06' 55" N, 133° 28' 15" W; (map 6). Variant: Shakan Nipples. Local name used by fishermen and published by USC&GS in 1883 Coast Pilot (p. 101) as "Shaken Nipples"; as "The Nipples" in 1925 Coast Pilot (p. 198).

Niquette Harbor: estuary, 1.4 miles long, N coast of Duke Island, Alexander Archipelago; 54° 58' 30" N, 131° 23' 00" W; BGN 1917; (map 2). Local name reported in 1917 by USC&GS.

Nirlik: locality, see Nigalik.

Nish-thla-tot-li: bluff, see Unatlotly.

Nishlik Lake: lake, 6 miles long, among Tikchik Lakes, 5 miles N of Upnuk Lake and 105 miles SW of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 27' N, 158° 52' W; BGN 1932; (map 60). Eskimo name reported in 1915 by USBF.

Nismeni Cove: cove, 0.5 miles across, on Duffield Peninsula, N tip of Baranof Island, 35 miles N of Sitka Alexander Archipelago; 57° 33' 45" N, 135° 24' 00" W, (map 9). Named in 1895 by Lt. Comdr. E. K. Moore, USN, and published by USC&GS on Chart 8283.

Nismeni Point: point of land, on N coast of Duffield Peninsula, N tip of Baranof Island, Alexander Archipelago; 57° 33' 45" N, 135° 25' 00" W; (map 9). Variant: Lowlying Point, Mys Nizmenny, Nismenna Point. Russian name meaning "low," given in 1833 by the navigator Ens. Vasiliev (cnna), IRN; published in 1848 on Russian Hydrog. Dept. Chart 1397 as "M[ys] Nizmenny."

Nismenna Point: point of land, see Nismeni Point.

Nisua River: stream, flows SE 8 miles to Matogak River, 1 mile N of Hagemeister Strait and 9.4 miles NW of Hagemeister Island, Kilbuck-Kuskokwim Mountains; 58° 58' N, 160° 56' W; (map 39). Local name obtained in 1948 from Frank Waskey, trader and prospector; and published in 1951 by USGS. "Nisua" means "wheat [or wheat-roll]" in Finnish.

Nitak: locality, on E shore of Knik Arm, Cook Inlet, near Anchorage, Cook Inlet Lowland; 61° 20' N, 149° 50' W; (map 69). Variant: Nitakh. Former Indian village or camp listed in the 1880 Census as "Nitakh," population 15, by Petroff (1884, p. 29).

Nitakh: locality, see Nitak.

Nitalikh Island: island, see Great Sitkin Island.

Nitchavak Mountain: mountain, see Nichawak Mountain.

Nitchawak Mountain: mountain, see Nichawak Mountain.

Nitdlqaitaldatdlna: stream, see Wounded Cub Creek.

Nitrof Point: point of land, S tip of Amatignak Island, Delarof Islands, Aleutian Islands; 51° 13' 05" N, 179° 07' 30" W; (map 16). Southernmost point of the Aleutian Islands; name published by the USC&GS in 1954 Coast Pilot (p. 458).

Niuftak: village, see Newtok.

Niukluk River: stream, heads 5 miles NE of Mount Bendeleben, flows SW, then SE, 52 miles to Fish River, 34 miles NE of Solomon, Seward Peninsula Highlands; 64° 49' N, 163° 27' W; BGN 1911; (map 95). Variant: East Fork Neukluk River, Eaton River, Fish River, Icahluik, Ikiut-pak, Iklut-pak, Nea-kluk River, Neukeluk River, Neukluk River, North Fork Niukluk River, Shoestring Creek. This stream was considered the main fork of the Fish River and a route of travel between Golovnin Bay and Grantley Harbor until gold prospectors arrived in 1899 and detailed maps were constructed. Schrader and Brooks (1900, map 3), USGS, reported the "Neukluk" as tributary to the Fish River in 1899. The following year E. C. Barnard (in Brooks, 1901, pl. 17), USGS, reported and established the present spelling.

Niunak: island, see Chernabura Island.

Niunyak: island, see Chernabura Island.

Nivalghat Beach: beach, 1.5 miles W of Seepanpak Inlet, on N coast of Saint Lawrence Island, 63° 21' N, 169° 18' W; BGN 1951; (map 93). Eskimo name recommended by the Savoonga village council; reported in 1949 by Maj. H. B. Allen, USAF.

Nixon Fork Takotna River: stream, see Nixon Fork.

Nixon Fork: stream, flows SW 75 miles to Takotna River, 30 miles SW of Medfra, Kilbuck-Kuskokwim Mountains; 63° 02' N, 155° 40' W; BGN 1964; (map 89). Variant: Nixon River, Nixon Fork Takotna River, Nixons Fork, Tuentna River. Local name obtained in 1908 by A. G. Maddren, USGS. Alexander Kolmakov, in 1838, followed by Lt. L. A. Zagoskin, IRN, in 1842-44 gave the Indian name "Nochotno." A. G. Maddren, in 1908, called it by another Indian name "Tuentna."

Nixon River: stream, see Nixon Fork.

Nixon Shoal: shoal, in Peril Strait, on W coast of Duffield Peninsula, Baranof Island, 30 miles N of Sitka, Alexander Archipelago; 57° 28' 10" N, 135° 32' 00" W; (map 9). Name published by USC&GS in the 1901 Coast Pilot (p. 191).

Nixons Fork: stream, see Nixon Fork.

Niyan-kiya: point of land, see Cascade Point.

Niyghak Lake: lake, see Troutman Lake.

Niyghakpak Cliff: cliff, 0.5 miles long, E of Aghnaghak Lagoon, 10 miles SE of Gambell, on N coast of Saint Lawrence Island; 63° 39' 30" N, 171° 31' 20" W; BGN 1951; (map 93). Variant: Cliff Niyghak-pak, Cliff Niyghapek, Niyghak-Pak Cliff. Eskimo name recommended by the Gambell village council; reported in 1949 by Maj. H. B. Allen, USAF.

Niyghapak Point: point of land, formed by spur of Kinipaghulghat Mountains, 4.3 miles S of Northeast Cape, on E coast of Saint Lawrence Island; 63° 13' 30" N, 168° 44' 30" W; BGN 1951; (map 93). Variant: Cape Miyghapak, Cape Niyghapak, Niaghapak Cape, Niyghapak Cape. Eskimo name reported in 1932 by Otto W. Geist, Univ. of Alaska.

Niyghapek, Cliff: cliff, see Niyghapak Cliff.

Niyiklik Creek: stream, flows SW 4.4 miles to Ogotoruk Creek, E of Mad Hill, 8 miles E of Cape Thompson, Arctic Slope; 68° 09' 30" N, 165° 40' 35" W; BGN 1963; (map 129). Variant: Neeyiklik Creek. Eskimo name reported in 1962 by personnel of Project Chariot.

Niykhapakhit Lake: lake, 3 miles long, on S edge of Myghapowit Mountain, on Saint Lawrence Island; 63° 11' N, 169° 44' W; BGN 1951; (map 93). Eskimo name reported in 1949 by Maj. H. B. Allen, USAF.

Niyrakpak Lagoon: lagoon, extends SE 7 miles from Naskok Camp, along N coast of Saint Lawrence Island, 14 miles SE of Gambell; 63° 38' N, 171° 25' W; BGN 1951; (map 93). Variant: Big Lake, Navvookpuk, Niyghak-puk. Eskimo name meaning "big lake" [naivakhpak].

Nizena Glacier: glacier, see Nizina Glacier.

Nizhni Lake: lake, see Dolgoi Lake.

Nizhniye, Ozero: lake, see Dolgoi Lake.

Nizina Glacier: glacier, formed by Rohn and Regal Glaciers, trends 7 miles S to its terminus at head of Nizina River, 18 miles NE of McCarthy, Wrangell Mountains; 61° 35' N, 142° 29' W; (map 67). Variant: Nizena Glacier. Indian name applied in 1899 by Rohn (1900, p. 407), USGS.

Nizina Mountain: mountain, 7,535 ft., between Nizina and West Fork Glaciers, 17 miles NE of McCarthy, Wrangell Mountains; 61° 36' 45" N, 142° 34' 45" W; (map 67). Named for nearby river and glacier.

Nizina River: stream, flows 37 miles S and W from Nizina Glacier to Chitina River, 12 miles SW of McCarthy, Wrangell Mountains; 61° 21' N, 143° 14' W; (map 67). Variant: Nizzenah River. Indian name reported by Hayes (1892, p. 124): "We * * * camped on a stream flowing into the Pacific. This was the Nizzenah, a tributary of the Chittenah (Chitina), or eastern branch of Copper river."

Nizina River: stream, see Chitistone River.

Nizina: locality, on Chititu Creek, 5 miles SE of the junction of Chititu Creek and the Nizina River, 14 miles SE of McCarthy, St. Elias Mountains; 61° 18' 40" N, 142° 37' 30" W; (map 67). Mining camp established in 1902. The Nizina post office operated from 1903 to 1926.

Nizki Cove: cove, 1.1 miles across, between Alaid and Nizki Islands, Semichi Islands, Aleutian Islands, 52° 44' 50" N, 173° 56' 40" E; (map 13). Name derived from Nizki Island

Nizki Island: island, 3 miles long, middle island of Semichi Islands, Aleutian Islands; 52° 44' 10" N, 173° 59' 00" E; BGN 1938; (map 13). Variant: Oubeloi Island. Derived from Russian word [Nizkiy] meaning "low" and probably given by the U.S. Army; published by AMS in 1943. The island was shown in 1956 as "Oubeloi" by USGS.

Nizkoy, Ostrov: island, see Crooked Island.

Nizmennie Kamennie: island, see Treeless Island.

Nizmennie: island, see Low Island.

Nizmennie: point of land, see Low Cape.

Nizmenno Point: point of land, see Low Cape.

Nizmennoi, Mys: point of land, see Low Capt.

Nizmennoi: point of land, see Riou, Point.

Nizmennoy, Ostrov: island, see Low Island

Nizmenny, Ostrov: island, see Low Island.

Nizmennyy Kamenny Ostrov: island, see Treeless Island.

Nizmenny, Mys: point of land, see Dovolno Point.

Nizmenny, Mys: point of land, see Nismeni Point.

Nizmennyya, Mys: point of land, see Shoals Point.

Nizmynoy, Ostrov: island, see Low Island.

Nizzenah River: stream, see Nizina River.

Njoo Mountain: mountain, 45 miles NW of Arctic Village, Brooks Range; 68° 30' N, 147° 00' W (map 136). Variant: Jew Mountain, Nju Mountain. Kutchin Indian name obtained in 1928 by Gerald FitzGerald, USGS.

Nju Mountain: mountain, see Njoo Mountain.

No Creek: stream, flows NW 34 miles to Big Salmon Fork Little Tonzona River 1.5 miles SE of its junction with Little Tonzona River, 55 miles E of McGrath, Kuskokwim Lowland; 62° 56' 20" N, 153° 53' 40" W; (map 80). Local name obtained in 1958 by USGS.

No Grub Creek: stream, flows SW 2 miles to Salcha River, 37 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 40' N, 145° 37' W; (map 101). Named by prospectors and reported in 1910 by Ellsworth and Parker (in Brooks and others, 1911, p. 167), USGS.

No Lake Creek: stream, flows SW 20 miles to Ongivinuck River, 72 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 23' N, 159° 40' W; (map 53). Local name published in 1951 by USGS.

No Man Creek: stream, see No Mans Creek.

No Mans Creek: stream, flows NW 4.5 miles to Casadepaga River E of Big Four Creek, 26 miles NE of Solomon, Seward Peninsula Highlands; 64° 55' N, 164° 10' W; (map 95). Variant: No Man Creek. Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

No Name Bay: bay, extends E 4 miles to Keku Strait, on E coast of Kuiu Island, 15 miles NW of Point Baker, Alexander Archipelago; 56° 30' N, 133° 35' W; (map 6). Local name recorded in 1948 by USGS.

No Name Cove: cove, 0.7 miles across, on SW coast of Unalaska Island, Aleutian Islands; 53° 23' 15" N, 167° 40' 00" W; (map 23). Name reported by U.S. Army Corps of Engineers in 1942, and published in the 1944 Aleutian Coast Pilot (p. 50).

No Name Creek: stream, flows S 1.2 miles to Moose Creek, at Upper Canyon, 1.8 miles N of Wonder Lake, Alaska Range; 63° 30' 50" N, 150° 52' 45" W; (map 88). Local name reported in 1954 by USGS.

No Name Creek: stream, flows SE 1.5 miles to Chatanika River, 8 miles WNW of Mount Ryan and 48 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 17' 30" N, 146° 30' 10" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

No Name Lake: lake, 1.5 miles long, 1 mile E of Soule Glacier, in course of North Fork Soule River, 7 miles W of Hyder, Coast Mountains; 55° 53. 30" N, 130° 12' 30" W; (map 3). Local name reported in 1955 by USGS

No Name Lake: lake, 6 miles NE of Grayling Hill. 53 miles NE of Medfra, Kuskokwim Lowland; 63° 19' N, 153° 07' W; (map 89). Local name reported in 1958 by USGS.

No Thorofare Bay: bay, 1.5 miles long, 4.5 miles SE of Sitka, on W coast of Baranof Island, Alexander Archipelago; 57° 01' N, 135° 14' W; (map 9). Variant: Boroshki Bay, Bukhta Poroshki, Guba Neprokhodnaya, Paroshki Bay, Poroshki Bay. This is an 1882 translation by USC&GS of the name given in 1809 by the Russian navigator Ivan Vasiliev the first; reported by Lt. Sarichev (1826, map 19), IRN, as "Guba Neprokhodnaya."

No Thorofare Point: point of land, on NE coast of Woewodski Island, 15 miles S of Petersburg, Alexander Archipelago; 56° 35' 20" N, 132° 58' 40" W; (map 6). Variant: No-thoroughfare Point. Named in 1869 by Comdr. R. W. Meade, USN.

No Use Ledge: cliff, on W shore of Lynn Canal near its junction with Icy Strait, 0.6 miles N of Ansley Island and 26 miles W of Juneau, St. Elias Mountains; 58° 13' 25" N, 135° 07' 30" W; (map 11). Named in 1890 by USC&GS and published in the 1891-Coast Pilot (p. 195).

No, Mys: point of land, see Northeast Point.

No-thoroughfare Point: point of land, see No Thorofare Point.

No-yah-lik Peak: hill, see Noyalik Peak.

Noah Lake: lake, 1 mile long, 2 miles W of Tinjik Lake and 13 miles NE of Arctic Village, Brooks Range; 68° 18' N, 145° 25' W; (map 136). Local name reported in 1956 by R. C. Foley, USGS.

Noak, Mount: mountain, 2,010 ft., in Igichuk Hills, 19 miles NE of Cape Krusenstern, Arctic Slope; 67° 10' N, 163° 03' W; BGN 1962; (map 128). Variant: Igisooogrook Mountain. Eskimo name meaning "headland" obtained at Kotzebue in 1956 by Orth.

Noalen River: stream, see Newhalen River.

Noatak Canyon: canyon, of the Noatak River, 4 miles long, N of Maiyumerak Mountains, 40 miles NE of Noatak, Brooks Range; 67° 57' N, 161° 39' W; (map 127). Variant: Grand Canyon. The Noatak was first explored in July 1881, by S. B. McLenegan, USRCS, who referred to this feature as the first of "the Grand Canons of the Noatak * * * Here the perpendicular walls rose hundreds of feet On either side, seldom offering a foothold along the bases * * *" (Healy, 1887, p. 64). The first use of the name "Noatak Canyon" appears to have been by P. S. Smith (1930, pl. 5). The name "Grand Canyon" has been relegated to the broader valley area upstream.

Noatak River: stream, heads on Mount Igikpak in Schwatka Mountains at 67° 25' N, 154° 53" W, flows SW 425 miles to Kotzebue Sound at mouth of Hotham Inlet 7 miles N of Kotzebue Brooks Range; 67° 00' N, 162° 30' W; BGN 1944; (map 128). Variant: Igichuk River, Inland River, Noatok River, Noatuk River, Notoark River, Noyatag River, Nuatok River, Nunatak River, Nunatok River, Nunulak River. The early English name "Inland River" published by surgeon John Simpson, RN, on his 1853 "Native Map," appears to be a general translation of the Eskimo name "Nunulak" which he also recorded. The name "Nunatak" could also mean "new land" or "belong to the land."

Noatak: village, pop. 275, on right bank of Noatak River, 37 miles NE of Cape Krusenstern, Arctic Slope; 67° 34' N, 162° 58' W; (map 128). Eskimo village listed by Ivan Petroff in the 1880 Census as "Noatagamute," i.e. "Noatak [River] people." The population was 121 in 1910; 164 in 1920; 212 in 1930; 336 in 1939; and 326 in 1950. The Noatak post office was established in 1940 (Ricks, 1965, p. 46).

Noatok River: stream, see Noatak River.

Noatuk River: stream, see Noatak River.

Noaukta Slough: stream, distributary of Chakachatna River, flows SW 5 miles to McArthur River, 24 miles W of Tyonek, Cook Inlet Lowland; 61° 02' 10" N, 151° 50' 45" W; (map 70). Tanaina Indian name reported in 1958 by USGS.

Nobhill Creek: stream, flows NW 0.8 miles to Kasson Creek which flows to Solomon River, 9 miles NE of Solomon, Seward Peninsula Highlands; 64° 41' 40" N, 164° 23' 30" W; (map 95). Variant: Nob Hill Creek. Prospectors' name shown on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Nochak: locality, on Holitna River, Stony River Lowland; 61° N, 157° W; (map 72). Variant: Noh-chamiut. Former Eskimo village or camp recorded "Noh-chamiut," population 28, in the 1890 Census (p. 164).

Nochlega Point: point of land, on S coast of Afognak Island, 3.2 miles SW of Afognak, N of Kodiak Island; 57° 59' 40" N, 152° 51' 30" W; (map 34). Variant: Mys Nochlega, Nights Lodging Cape. Transliteration of "M[ys] Nochlega" a name given by Sub-Lt. Mikhail Murashev in 1839 or 1840, and published in 1849 on Russian Hydrog. Dept. Chart 1425. Baker (1906, p. 461) published "Nights Lodging Cape," the translation of Murashev's name. This name was changed to its present form in 1909 by USC&GS.

Nocotocargut: stream, see Beaver Creek.

Noctocargut: stream, see Birch Creek.

Nodales, Punta: point of land, see Martin Point.

Nododehon Lake: lake, 2.2 miles long, in Dulbi Flats, S of Nogoyalna Slough and 36 miles NW of Hochandochtla Mountain, Kokrines-Hodzana Highlands; 65° 48' N, 155° 55' W; (map 107). Koyukan Indian name obtained at Huslia in 1956 by Orth.

Nogadaneoda Lake: lake, 19 miles SW of Roundabout Mountain, Koyukuk Lowland; 65° 26' N, 157° 10' W; (map 108). Koyukan Indian name reported in 1955 by USGS.

Nogahabara Sand Dunes: dunes, 5 miles across, 28 miles NW of Roundabout Mountain, Koyukuk Lowland; 65° 41' N, 157° 57' W; (map 108). Koyukan Indian name reported in 1955 at Huslia by USGS.

Nogak Creek: stream, flows N 28 miles to Kurupa River, 26 miles WNW of Kurupa Lake, Brooks Range; 68° 43'N; 155° 09' W; BGN 1960; (map 133). Eskimo name for the "caribou calf;" used by USGS geologists in 1950, during exploration of the Naval Petroleum Reserve No. 4.

Nogamut: locality, on E bank of Holitna River, 50 miles SW of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 01' N, 157° 40' W; BGN 1948; (map 72). Eskimo settlement or camp, now abandoned, reported as "Noga-mute" by W. R. Buckman, a local prospector, on his 1902-1903 manuscript map .

Nogeling: village, see Newhalen.

Noggai: locality, on Yukon River probably near junction of Koyukuk River, Koyukuk Lowland; 64° 57' N, 157° 33' W; (map 97). Former Indian village or camp, population 10, recorded in 1844 by Lt. L. A. Zagoskin, IRN (Hodge, 1910, p. 80).

Noghelin Painga: locality, at mouth of Newhalen River, 3 miles S of Iliamna, Aleutian Range; 59° 43' N, 154° 53' W; (map 51). Former Eskimo village or camp listed in the 1890 Census.

Noghelin Painga: stream, see Newhalen River.

Noghelin Painga: village, see Newhalen.

Noghelin River: stream, see Newhalen River.

Nogheling River: stream, see Newhalen River.

Nogheling Village: village, see Newhalen.

Nogheling: village, see Newhalen.

Noghelingamiut: village, see Newhalen.

Noghelingamute: village, see Newhalen.

Nogholem River: stream, see Newhalen River.

Nogoyalna Slough: stream, flows W 26 miles to Cutoff Slough, 28 miles NE of Roundabout Mountain, Koyukuk Lowland; 65° 54' N, 156° 02' W (map 108). Koyukan Indian name obtained in 1955 at Huslia by USGS.

Nogrilenten, Lake: lake, 1.3 miles long, on N bank of Koyukuk River, 35 miles NE of Hughes, Hogatza Highlands; 66° 24' N, 153° 21' W; (map 116). Indian name, reported to mean "falls lake," recorded at Hughes in 1956 by Orth. The water level of the lake is above that of the river, and the lake's outlet is a waterfall.

Noh-chamiut: locality, see Nochak.

Nohoolchintna: locality, site of a village, on N bank of South Fork Koyukuk River 3 miles upstream from its junction with Koyukuk River, Kanuti Flats; 66° 35' N, 151° 51' W; (map 117). Variant: Nohulchinta. Koyukan Indian village or camp of six families, reported in 1885 by Lt. Allen (1887, p. 100), USA; from the Indian name for the South Fork Koyukuk River, which Lt. Allen also reported.

Nohoolchintna: stream, see South Fork Koyukuk River.

Nohulchinta: locality, see Nohoolchintna.

Nohutno Lake: lake, see Lower Tazimina Lake.

Noisak: point of land, see Mordvinof, Cape.

Noisy Cape: point of land, NW tip of Uganik Island, E of Noisy Islands at mouth of Uganik Bay, Kodiak Island; 57° 55' 30" N, 153° 32' 30" W; (map 34). Name derived from Noisy Islands, reported in 1867 by USC&GS.

Noisy Islands: islands, two, each 0.5 miles long, extend 1.2 miles between Uganik Bay and Shelikof Strait, W of Uganik Island, N of Kodiak Island; 57° 55' 30" N, 153° 33' 15" W; BGN 1931; (map 34). Variant: Ostrova Sodomnyya, Sodomniia Islands, Zotschomnia Islands. Translation by USC&GS in 1867 of "O[strova] Sodomnyya," published by Capt. Tebenkov (1852, maps 22 and 23).

Noisy Mountain: ridge, 4,500 ft., extends NE 5.5 miles from Katmai Canyon, on Alaska Peninsula, in Katmai National Monument, 4 miles E of Mount Katmai, Aleutian Range; 58° 15' N, 154° 50' W; (map 42). Descriptive name reported in 1917 by R. F. Griggs, National Geographic Society, on account of the frequent rockfalls which kept the party awake.

Noisy Passage: water passage, 1.4 miles long, between Noisy Islands and Uganik Island, N of Kodiak Island; 57° 55' 30" N, 153° 32' 30" W; BGN 1931; (map 34). Name derived from Noisy Islands and given in 1931 by USC&GS.

Nok-khakat: locality, see Nok.

Nok: locality, on W bank of Koyukuk River above islands near its mouth, Koyukuk Lowland; 64° 55' N, 157° 35' W; (map 97). Variant: Nok-chakat, Nokhakate, Nokkahat, Nok-khakat. Former Indian village or camp, reported as "Nokhakate," population 50 in 1844, by Lt. L. A. Zagoskin, IRN (Hodge, 1910, p. 80).

Nokak: locality, see Nokogamiut.

Nokatlek River: stream, see Nokotlek River.

Nokchakat: locality, see Nok.

Nokhakate: locality, see Nok.

Nokhulchitna: stream, see South Fork Koyukuk River.

Nokkakat: locality, see Nok.

Nokliche: locality, see Nukleet.

Nokogamiut Island: island, in Yukon Delta, 2 miles long, at mouth of Kawanak Pass, 19 miles N of Kwiguk, Yukon-Kuskokwim Delta; 63° 03' N, 164° 35' W; (map 2). Eskimo name recorded in 1952 by USGS.

Nokogamiut: locality, on E coast of Nokogamiut Island, near mouth of Kawanak Pass and 20 miles N of Kwiguk, Yukon-Kuskokwim Delta, 63° 02' 45" N, 164° 33' 10" W; (map 92). Variant: Nokak, Nokok. Eskimo village, now abandoned, reported in 1899 by R. L. Faris, USC&GS.

Nokok: locality, see Nokogamiut.

Nokotlek Point: point of land, on Kasegaluk Lagoon, W point of entrance to Nokotlek River, 31 miles SW of Wainwright, Arctic Plain; 70° 20' N, 161° 01' W; (map 146). So named locally because of its relation to the Nokotlek River.

Nokotlek River: stream, flows NW 18 miles to Kasegaluk Lagoon, 16 miles E of Icy Cape and 31 miles SW of Wainwright, Arctic Plain; 70° 19' N, 160° 59' W; (map 146). Variant: Nokatlek River. Eskimo name reported in 1923 by USGS.

Nokratamiut: locality, see Nokrot.

Nokrot: locality, on Norton Sound, 2.2 miles NE of Point Romanof and 29 miles SW of St. Michael, Yukon-Kuskokwim Delta; 63° 13' N, 162° 46' W; (map 92). Variant: Azachagyamut, Nokratamiut, Nokrotmiut. Former Eskimo village, reported as "Nokrotmiut," meaning "Nokrot people," in 1898 by USC&GS.

Nokrotmiut: locality, see Nokrot.

Nolan Creek Lake: lake, 0.2 miles long, W of junction of Nolan and Wiseman Creeks, W of Midnight Dome and 5 miles NW of Wiseman, Brooks Range; 67° 28' N, 150° 15' W; (map 124). Local name obtained in 1956 by USGS topographers.

Nolan Creek: stream, 4 miles long, flows S through Nolan to Wiseman Creek, Brooks Range; 67° 27' 30" N, 150° 14' 00" W; BGN 1932; (map 124). Local name reported in 1909 by A. G. Maddren (in Brooks and others, 1910, pl. 7), USGS.

Nolan Creek: stream, flows NW 1.5 miles to Tisuk River, 40 miles NW of Nome, Seward Peninsula Highlands; 64° 56' N, 166° 17' W; (map 94). Prospectors' name reported on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Nolan: locality, pop. 5, at junction of Nolan and Wiseman Creeks, W of Midnight and Smith Creek Domes and 5.5 miles NW of Wiseman, Brooks Range; 67° 28' 30" N, 150° 13' 30" W; (map 124). Variant: Nolan Creek. This mining camp was named for the creek on which it is located; reported in 1928 by USGS. See Wiseman.

Nolan: village, see Wiseman.

Nolitna Creek: stream, flows NE 25 miles to Kanuti River 3 miles S of its junction with Kadakina Creek, 27 miles SE of Allakaket, Kanuti Flats; 66° 14' N, 152° 07' W; (map 117). Indian name obtained by Orth in 1956.

Nolitna Creek: stream, heads at North Fork Lake, flows NW 13 miles to Narten Slough, 14 miles SW of Beaver, Yukon Flats; 66° 12' N, 147° 58' W; (map 118). Indian name obtained in 1956 by T. E. Taylor, USGS.

Noluck Lake: lake, 2.5 miles long, on N slope of DeLong Mountains, 17 miles N of Thunder Mountain, Brooks Range; 68° 47' 30" N, 160° 00' 00" W; BGN 1961; (map 131). Variant: Lake Noruk. Named by the 1924 USGS exploring party "because of a disappointment, no luck."

Noluk, Lake: lake, see Noluck Lake.

Nome City: town, see Nome.

Nome Creek: stream, flows SW 23 miles to Beaver Creek, 48 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 23' 30" N, 147 08' 00" W; (map 105). Name published by USGS (Henshaw and Covert, 1908, pl. 9).

Nome Creek: stream, see Lost Creek

Nome Mountains: mountains, in group, 75 miles long and 20 miles wide, enclosed by Norton Sound, Bering Sea, Imuruk Basin, Pilgrim River, and Niukluk River, Seward Peninsula Highlands; 64° 50' N, 165° 00' W; (map 94). Name used by Schrader and Brooks (1900. map 3), USGS, after a cursory investigation of the area in 1899. In 1900 this area was well surveyed and the name was omitted from subsequent maps.

Nome Peninsula: peninsula, see Seward Peninsula.

Nome River: locality, on Nome River, about 4 miles E of Nome, Seward Peninsula Highlands; (map 94). Site of a mining camp listed in the 1915-16 Polk's Gazetteer. The site cannot be accurately located.

Nome River: stream, heads 4.5 miles W of Salmon Lake, flows S 40 miles to Norton Sound, 4 miles SE of Nome, Seward Peninsula Highlands; 64° 29' N; 165° 18' W; (map 94). Prospectors' name derived from Cape Nome and reported in 1899 by D. C. Witherspoon (in Schrader and Brooks, 1900, map 2), USGS.

Nome Stake Creek: stream, flows SW 4 miles to Fisher Creek, 12 miles SE of junction of Charley and Yukon Rivers, Yukon-Tanana Highlands; 65° 11' N, 142° 32' W; (map 103). Prospectors' name from an unpublished map by E. J. Chamberlain, dated 1902.

Nome, Cape: point of land, on Norton Sound, 12 miles SE of Nome and 20 miles SW of Solomon, Seward Peninsula Highlands; 64° 26' N, 165° 00' W; (map 95). Variant: Mys Sredniy, Mys Tolstoy, Mys Tolstyy. Named "M[ys] Tolstoy" meaning "blunt" or "broad" in 1833 by Capt. M. D. Tebenkov, IRN. The 1852 Russian Hydrog. Dept. Chart 1455 shows "M[ys] Sredniy (Tolstyy)," or "cape middle (broad)." "C[ape] Nome" appears on the 1853 Brit. Adm. Chart 2172. Its origin is generally attributed to an Admiralty draftsman's misinterpretation of " ? name" annotated on a manuscript chart constructed on board the H.M.S. Herald about 1850-1852. The "?" mark was taken as a "C" and the "a" was thought to be an "o." This is the explanation given by the Chief Cartographer of the British Admiralty in 1900.

Nome: town, pop. 2,316, on S coast of Seward Peninsula, on Norton Sound, Seward Peninsula Highlands; 64° 30' N, 165° 25' W; BGN 1944; (map 94). Variant: Anvil City, Nome City. Schrader and Brooks (1900, p. 11), USGS, who visited the town in October 1899, spoke of the "thriving young city of Nome, first called Anvil City, now officially Nome." Gold was found in the area in the summer of 1898 and the town got its start in October 1898 when six men met at the mouth of the Snake River and formed the Cape Nome mining district. The short-lived name "Anvil City" was derived from Anvil Creek, where the first major gold was found. In June, 1899, gold was found on the beaches of Nome and by August a number of men were prospecting the beaches. The news of the gold strike was carried to the States that winter and in early summer 1900 the rush was on. At the peak that summer there were 30,000 people at Nome, but 16,000 left in 13 weeks (Rickard, 1909, p. 308-337). Nome incorporated on April 9, 1901. The population was 12,488 in 1900; 2,600 in 1910; 852 in 1920; 1,213 in 1930; 1,559 in 1939; and 1,876 in 1950. A post office was established here in 1899 (Ricks, 1965, p. 47-48). The city is now the commercial hub of northwestern Alaska and has also become a center for Eskimo handicrafts.

Nondalton Lake: lake, see Sixmile Lake.

Nondalton Village: village, see Nondalton.

Nondalton: village, pop. 205, on W shore of Sixmile Lake, 15 miles N of Iliamna, Alaska Range; 59° 58' N, 154° 51' W; BGN 1910; (map 51). Variant: Nondalton Village, Noondalty Village. Tanaina Indian name recorded on a 1909 field sheet by D C. Witherspoon, USGS. Nondalton post office was established in 1938 (Ricks, 1965, p. 47). See Sixmile Lake.

Nondalty Lake: lake, see Sixmile Lake.

Nonvalnuk River: stream, see Nunavulnuk River.

Nonvianuk Lake: lake, 17 miles long, near head of Alaska Peninsula, 48 miles NW of Mount Katmai and 54 miles NE of Naknek, Aleutian Range; 59° 00' N, 155° 20' W; BGN 1957; (map 42). Variant: Nanwhyenuk Lake. Eskimo name reported in 1951 by USGS.

Nonvianuk River: stream, heads at Nonvianuk Lake, flows W 11 miles to Alagnak River, 48 miles SW of Kakhonak, Aleutian Range; 59° 01' 20" N, 155° 51' 00" W; (map 51). Eskimo name published in 1951 by USGS.

Noo-na: locality, see Nuna.

Noo-nuk-look: mountain, see Noonuklook Mountain.

Noobooa: island, see Barter Island.

Noocheck: bay, see Etches, Port.

Noocheek: locality, see Nuchek.

Noocleet, Cape: point of land, see Denbigh, Cape.

Noocleet: locality, see Nukleet.

Noodor Dome: mountain, 2,954 ft., 20 miles SW of Mount Schwatka and 26 miles NE of Livengood, Yukon-Tanana Highlands; 65° 48' 30" N, 147° 56' 00" W; (map 105). Local name published by USGS in the 1950's.

Nook: locality, see Kalulingmiut.

Nook: village, see Teller.

Nookak River: stream, see Reindeer River.

Nookati Creek: stream, heads in Kiana Hills, flows NE 7 miles to Squirrel River, 8 miles NNW of Deviation Peak and 25 miles NW of Kiana, Brooks Range; 67° 10' 30" N, 161° 10' 30" W; (map 127). Eskimo name obtained in 1955 by U.S. Army Corps of Engineers.

Nooke: village, see Teller.

Nookmut: village, see Teller.

Nookmute: locality, see Kalulingmiut.

Nookmute: village, see Teller.

Noolagvim Tessaya: lagoon, see Nulagvik Lagoon.

Nooluk River: stream, see Nuluk River.

Noon Creek: stream, flows SW 2.5 miles to Tisuk River, 16 miles E of Cape Douglas and 40 miles NW of Nome, Seward Peninsula Highlands; 64° 59' N, 166° 10' W; (map 94). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Noon Gulch: ravine, trends to Albert Creek, 8 miles N of Tahnetta Pass, 62° 00' N, 147° 20' W; (map 82). Local name published by Theodore Chapin (in Brooks and others, 1915, p. 128), USGS.

Noon Point: point of land, E tip of Pleasant Island, in Icy Strait, 40 miles W of Juneau, St. Elias Mountains; 58° 20' 30" N, 135° 32' 00" W; (map 11). Name published by USC&GS in the 1883 Coast Pilot (p. 190).

Noon Point: point of land, S tip of Jacob Island, 11 miles E of Stepovak Bay, Aleutian Range; 55° 43' 00" N, 159° 23' 30" W; (map 27). Variant: Mys Poludennie. Named by Lt. Woronkofski in 1837; published as "M[ys] Poludennie," or "noon point," on Russian Hydrog. Dept. Chart 1379 (1847). USC&GS published the translated name in 1888.

Noon Point: point of land, see Eightmile Point.

Noona-agamute: locality, see Nuna.

Noona-mekrot: point of land, see Sheldon Point.

Noonaghak Rock: rock, southernmost one of the Stolbi Rocks, in Bering Sea, 52 miles SE of Gambell, NE of Saint Lawrence Island, 63° 38' N, 170° 06' W; (map 93). Variant: Nunaghak Rock. Eskimo name reported by Otto W. Geist Univ. of Alaska, in 1932.

Noonaghak: rocks, see Stolbi Rocks.

Noondalty Lake: lake, see Sixmile Lake.

Noondalty Village: village, see Nondalton.

Noonuklook Mountain: mountain, 1,000 ft., between Ikikileruk and Akulik Creeks, 5 miles S of Chukchi Sea coast, 31 miles NNW of Mount Kelly, Arctic Slope; 68° 54' N, 164° 00' W; (map 130). Variant: Noo-nuk-look. Eskimo name reported in 1950 by USC&GS as Noo-nuk-look [Nunakluk]. It may mean "bad land (country)."

Nooravloaksmiut Island: island, 0.2 miles long, in Etolin Strait, 0.5 miles off E coast of Nunivak Island; 60° 12' 30" N, 165° 40' 00" W; (map 57). Variant: Nooravloaxmiut Island, Nuravloakh Island. Eskimo name obtained in 1949 by USC&GS

Nooravloaxmiut Island: island, see Nooravloaksmiut Island.

Noorvik: village, pop. 384, on right bank of Nazuruk Channel Kobuk River, 33 miles NW of Selawik, Kotzebue-Kobuk Lowland; 66° 50' N, 161° 03' W; BGN 1944; (map 114). Variant: Nurvik, Oksik. Eskimo village, at or near a camp or village, called "Oksik" on a manuscript map dated 1908, by an unknown author. The Noorvik post office was established in 1937. Its population was 280 in 1920; 198 in 1930; 211 in 1939; and 248 in 1950.

Nooscha: bay, see Etches, Port.

Noovookiak Cape: point of land, see Agtapuk Point.

Noovookiak, Cape: point of land, see Meruwtu Point.

Noovougahlawk Point: point of land, see Nuvugalak Point.

Noowoo: locality, see Nuwuk.

Noowooh: locality, see Nuwuk.

Noowooh: point of land, see Barrow Point.

Nooook: locality, see Nuwuk.

Nooook: point of land, see Barrow Point.

Nooya Lake: lake, 2 miles long, on mainland, 2 miles NE of Rudyerd Bay, Coast Mountains; 55° 37' N, 130° 45' W; (map 3). Local name reported in 1955 by USGS.

Nooyakaglik: lakes, see Nuyakaglik Lakes.

Noquashinski Bay: water passage, see Nakwasina Passage.

Nor-tah-rok-tah: lake, see Nutuvukti Lake.

Nor-to-rok-tee: lake, see Nutuvukti Lake.

Nora Creek: stream, flows NW 3 miles to Flat Creek, 19 miles S of junction of Charley and Yukon Rivers, Yukon-Tanana Highlands; 65° 03' N, 142° 48' W; (map 103). Prospectors' name from an unpublished map by E. J. Chamberlain, dated 1902.

Norak Lake: lake, 0.9 miles long, on Kenai Peninsula SW of Phalarope Lake, 9.3 miles SSW of Point Possession and 38 miles NE of Kenai, Cook Inlet Lowland; 60° 54' N, 150° 25' W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Norberg Creek: stream, flows NW 1.3 miles to Macklin Creek, 7 miles SW of Midnight Mountain and 48 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 45' N, 164° 49' W; (map 110). Variant: Stevens Creek. Prospectors' name published in 1955 by USGS. Reported as "Stevens Creek" on the "Map of Seward Peninsula" by Monroe and Hutchins, corrected up to 1903 by Arthur Gibson.

Norcross Island: island, see Jackson Island.

Nord Island: island, 0.5 miles across, in Gulf of Alaska, northernmost of Barren Islands, 1.5 miles Off NE coast of Ushagat Island, 72 miles NE of Afognak, Chugach Mountains; 58° 58' 15" N, 152° 09' 00" W; (map 43). Named in 1908 and published in 1910 by USC&GS. It is a French word meaning "north."

Nord, Cap du haul-fond: point of land, see Romanof Point.

Nordyke Island: island, 0.5 miles across, largest of Nordyke Islands, in Kamishak Bay, 27 miles SW of Augustine Island, Aleutian Range; 59° 10' 45" N, 154° 05' 15" W; (map 51). Name published by USGS in 1927.

Nordyke Islands: islands, group of, in Kamishak Bay, 5 miles NE of McNeil Head, 27 miles SW of Augustine Island, Aleutian Range; 59° 10' 40" N, 154° 05' 15" W; (map 51). Local name reported by K. F. Mather, USGS, in 1923 (in Brooks and others, 1925, pl. 3).

Norfolk Sound: water passage, see Sitka Sound.

Noriega, Punta: point of land, "south side of San Juan Bautista Island in Bucareli Bay," Alexander Archipelago; 55° 24' N, 133° 18' W; (map 4). Named by members of the 1779 Don Ignacio Arteaga expedition probably for a chaplain aboard the vessel La Princesa.

Norma Lagoon: bay, 3 miles across, at SW end of Izembek Lagoon, 13 miles W of village of Cold Bay, Bristol Bay Lowland; 55° 12' N, 163° 02' W; BGN 1965; (map 29). Named in 1888 by USBF.

Norris Glacier: glacier, heads in North Branch Norris Glacier, trends 8 miles SE to Grizzly Bar on Taku Inlet, 2.4 miles W of Taku Point and 14 miles NE of Juneau, Coast Mountains; 58° 24' 15" N, 134° 05' 00" W; BGN 1905; (map 11). Variant: Kadischle, Sitth Kadischle, Windom Glacier. Probably named in 1886 by navy officers for Dr. Basil Norris, surgeon, USN. In 1890 USC&GS called it "Windom Glacier" for William Windom, 1827-91, lawyer and statesman, who was congressman and senator from Ohio and Secretary of the Treasury under Presidents Garfield and Harrison. The report by C. W. Wright, USGS, that the name "Norris Glacier" represented local usage, persuaded BGN to rule in its favor in 1905. Miss E. R. Scidmore (1899, p. 81) gives the Indian name as "Kadischle."

Norris Mountain: mountain, 4,125 ft., near 1962 terminus of Norris and Taku Glaciers, 3.4 miles NW of Grizzly Bar on Taku Inlet and 14 miles NE of Juneau, Coast Mountains; 58° 26' 50" N, 134° 08' 20" W; (map 11). Name proposed in 1964 by members of the Juneau Icefield Research Project; derived from Norris Glacier.

Norris Outwash: moraine, see Grizzly Bar.

Norris-Taku Ridge: ridge, 1 mile long, extending from Taku Inlet N to Taku Glacier, 3 miles SE of Juncture Peak and 17 miles NE of Juneau, Coast Mountains; 58° 30' N, 134° 08' W; (map 11). Local name reported in 1965 by D. A. Brew and A. B. Ford, USGS.

Norse Cove: cove, see Kernel Cove.

Norseman Lake: lake, 0.5 miles long, W of junction of Stokhenjikh Creek and Melozitna River, 50 miles NW of Tanana, Kokrines-Hodzana Highlands; 65° 47' 30" N, 152° 56' 00" W; (map 106). Local name reported in 1956 by Orth; so named because a Norseman (airplane) landed here.

Norseman Lake: lake, 0.6 miles across, just W of Asigyukpak Spit near the shore of Bristol Bay, 2 miles W of Hagemeister Island, Kilbuck-Kuskokwim Mountains; 58° 39' 30" N, 161° 24'

30" W; (map 39). Local name published in 1952 by USGS; probably named for a kind of airplane.

North Alak Hills: mountain, see North Aluk Hill.

North Aluk Hill: mountain, 1,198 ft., at head of Nilik River, 28 miles ESE of Cape Lisburne, Arctic Slope; 68° 46' 55" N, 165° 06' 50" W; (map 129). Variant: North Alak Hills. See South Aluk Hill.

North Anchorage: anchorage, off Saint George, on N coast of Saint George Island, in Pribilof Islands; 56° 36' 20" N, 169° 33' 00" W; (map 38). A local name reported in 1875 by USC&GS.

North Arcuate Ridge: ridge, on N side of Okmok Caldera, on NE part of Umnak Island, Aleutian Islands; 54° 29' N, 168° 09' W; (map 22). Name published by Byers (1959, pl. 41), USGS.

North Arm Bay of Pillars: bay, see Rowan Bay.

North Arm Cabin Cove: cove, see Upper Arm Cabin Cove.

North Arm Creek: stream, flows SE 5 miles to North Arm Stikine River opposite Limb Island, 15 miles N of Wrangell, Coast Mountains; 56° 41' 00" N, 132° 18' 30" W; (map 6). Local name recorded in 1953 by USGS.

North Arm Duncan Canal: estuary, 5 miles long, at head of Duncan Canal, 12 miles W of Petersburg, on Kupreanof Island, Alexander Archipelago; 56° 48' N, 133° 17' W; (map 6). Local name recorded in 1960 by USGS.

North Arm Hood Bay: estuary, 5 miles across, entering Hood Bay, 11 miles SE of Angoon, on Admiralty Island, 11 miles SE of Angoon, Alexander Archipelago; 57° 23' N, 134° 23' W; (map 9). Name published in 1910 by USC&GS on Chart 8247.

North Arm Hoonah Sound: estuary, 1.5 miles across, 12 miles long, on Chichagof Island, 19 miles E of Chichagof, Alexander Archipelago; 57° 40' N, 135° 35' W; (map 9). Named in 1899 by USC&GS and published on Chart 8050.

North Arm Moira Sound: estuary, extends NW 4 miles, off Moira Sound, on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 04' 30" N; 132° 04' 30" W; (map 4). Named in 1894 by USC&GS.

North Arm Naknek Lake: bay, extends E 20 miles off Naknek Lake, on Alaska Peninsula, in Katmai National Monument, 33 miles NW of Mount Katmai, Aleutian Range; 58° 39' N, 155° 47' W; (map 42). Variant: Bay of Islands. Local name reported in 1951 by USGS.

North Arm Nuka Bay: estuary, 1.5 miles wide, on SE coast of Kenai Peninsula, 35 miles ESE of Homer, Chugach Mountains; 59° 32' N, 150° 35' W; (map 50). Local name reported by U. S. Grant and D. F. Higgins, USGS, in 1909 (in Brooks and others, 1910, pl. 3).

North Arm Stikine River: stream, flows W 11 miles from Stikine River to Frederick Sound, 8 miles SE of Petersburg, Coast Mountains; 56° 41' 30" N, 132° 32' 00" W; (map 6). Local name recorded in 1951 by USGS.

North Arm Three Arm Bay: bay, 0.4 miles across, part of Three Arm Bay, on W coast of Adak Island, Aleutian Islands; 51° 45' 40" N, 176° 51' 40" W; BGN 1936; (map 17). Descriptive name given by Lt. William Gibson, USN. See Low Point.

North Arm: bay, 1 mile across, extends N 3 miles from Farragut Bay, 2.5 miles NW of Read Island, 81 miles E of Coast Mountains; 57° 10' N, 133° 15' W; (map 8). Local name reported in 1951 by USGS.

North Arm: estuary. see West Arm Bay of Isles.

North Baird Glacier: glacier, heads at 57° 20' N, 132° 35' W, trends S 15 miles to Baird Glacier, 3 miles NE of Thomas Bay and 95 miles E of Sitka, Coast Mountains; 57° 08' N, 132° 47' W; (map 8). Name published in 1952 by USC&GS.

North Bay: bay, 5 miles across, on N coast of Saint Paul Island, in Pribilof Islands; 57° 13' N, 170° 13' W; (map 38). A local name reported in 1890 by USC&GS

North Bay: bight, 2.6 miles across, on N coast of Stuart Island, 16 miles NW of St. Michael, Yukon- Kuskokwim Delta; 63° 38' N, 162° 28' W; (map 92). Named in 1898 by USC&GS.

North Bay: cove, extends SW 1.8 miles from Tlevak Strait, on NE coast of Dall Island, Alexander Archipelago; 55° 13' N, 133° 06' W; (map 4). Descriptive name given in 1881 by Lt. Comdr. H. E. Nichols, USN.

North Beach: beach, 4 miles long, on N coast of Saint Paul Island, in Pribilof Islands; 57° 12' 40" N, 170° 13' 20" W; (map 38). A local name reported in 1965 by USBF.

North Bight: bay, 0.5 miles across, on W shore of Port Frederick, Chichagof Island, just S of Neka Bay and 9.3 miles SW of Hoonah, Alexander Archipelago; 58° 01' 45" N, 135° 38' 45" W; (map 11). Descriptive local name published in 1942 by USGS.

North Bradfield River: stream, see North Fork Bradfield River.

North Branch Norris Glacier: glacier, heads N of Guardian Mountain and trends S 4 miles to form Norris Glacier, 12 miles NE of Juneau, Coast Mountains; 58° 30' N, 134° 12' W; BGN 1965; (map 11). Named in 1964 by members of the Juneau Icefield Research Project.

North Branch Saint Michael Canal: watercourse, see Little Saint Michael Canal.

North Branch South Fork Chester Creek: stream, flows SW 1 mile to South Fork Chester Creek in Anchorage, Cook Inlet Lowland; 61° 11' 07" N, 149° 47' 56" W; (map 69). Local name published in 1954 by Northwest Mapping Service, Seattle, Wash.

North Branch Steelhead Creek: stream, see Topsy Creek.

North Branch Taku Glacier: glacier, see Matthes Glacier.

North Branch Trimble Glacier: glacier, in Tordrillo Mountains, heads on Mount Gerdine, trends NE 15 miles, joins South Branch Trimble Glacier to form Trimble Glacier, 55 miles NW of Tyonek, Alaska Range; 61° 42' 30" N, 152° 06' 30" W; BGN 1963; (map 70). Variant: Hayes Glacier. Named in 1961 by USGS. See Trimble Glacier.

North Burnett Island: island, 0.4 miles long, on E shore of Burnett Inlet, on SW coast of Etolin Island, Alexander Archipelago; 56° 04' 20" N, 132° 27' 30" W; BGN 1917; (map 6). Named by USC&GS for charting purposes: name published in 1916.

North Buttress: mountain, 9,828 ft., near headwaters of Big River, 93 miles SE of McGrath' Alaska Range; 61° 48' 10" N, 154° 08' 40" W; (map 71). Local name reported in 1958 by USGS.

North Cape: point of land, N point of entrance to Whale Bay, on SW coast of Baranof Island, Alexander Archipelago; 56° 35' 45" N, 135° 08' 15" W; (map 5). Variant: N Mys. Name published by USC&GS in 1883 Coast Pilot (p. 133); derived from "N Mys" published in 1850 by the Russian American Company.

North Cape: point of land, N tip of Spruce Island, NE of Kodiak Island; 57° 58' 00" N, 152° 25' 30" W; (map 34). Variant: Mys Syvernyy, Sievernie. Translation of the descriptive name "M[ys] Syvernyy" given by Sub-Lt. Mikhail Murashev in 1839 or 1840 and published in 1849 on Russian Hydrog. Dept. Chart 1425.

North Cape: point of land, on N tip of Atka Island, Aleutian Islands; 52° 25' N, 174° 09' W; (map 18). Variant: Sievernoi. Name published as "M[ys] Sievernoi," meaning "north cape," by Capt. Tebenkov (1852, map 27) IRN.

North Cape: point of land, on N tip of Kanaga Island, Aleutian Islands; 51° 56' 30" N, 177° 09' 20" W; BGN 1936; (map 17). Descriptive name given by Lt. William Gibson, USN. See Low Point.

North Cape: point of land, see Hall, Cape.

North Cape: point of land, see North Head.

North Cape: point of land, see Savoonga Point.

North Cape: point of land, see Stag Point.

North Capps Creek: stream, flows NE 5 miles to Capps Creek, 25 miles NW of Tyonek, Cook Inlet Lowland; 61° 19' 00" N, 151° 40' 50" W; BGN 1964; (map 70). Variant: North Fork Capps Creek. Named in 1963 by USGS.

North Channel Kiwalik River: stream, a distributary of Kiwalik River, flows NE 3 miles to Kiwalik Lagoon, 56 miles NW of Haycock, Seward Peninsula Highlands; 65° 58' N, 161° 50' W (map 109). Local name published on maps after 1950.

North Channel Yakataga River: stream, heads at terminus of Yakataga Glacier, flows W and SW 9 miles to Duktoth River, 4 miles NW of Cape Yakataga and 104 miles NW of Yakutat, St. Elias Mountains, 60° 06' 00" N, 142° 30' 30" W; (map 65). Variant: Yakataga River. Local name published in 1951 by the USGS.

North Cove: cove, 1 mile across, N Kagamil Island, 40 miles W of Umnak Island, Aleutian Islands, 53° 01' 35" N, 169° 43' 30" W; (map 22). Descriptive name published by USC&GS in 1944 Aleutian Coast Pilot (p. 74).

North Creek: stream, flows N from Shishaldin Volcano 13 miles to Bering Sea, on N central coast of Unimak Island, Aleutian Islands; 54° 54' 23" N, 163° 59' 00" W; (map 25). Descriptive name published in 1949 on a USGS map .

North Creek: stream, flows NE 13 miles to Agiapuk River, 20 miles NE of Teller, Seward Peninsula Highlands; 65° 27' N, 165° 50' W, (map 111). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

North Creek: stream, heads in Horn Mountains, flows SE 3 miles to Crooked Creek, 8.5 miles N of Tahnetta Pass, Talkeetna Mountains; 62° 00' 36" N, 147° 17' 00" W; (map 82). Local name recorded in 1949 by USGS.

North Crillon Glacier: glacier, in Glacier Bay National Monument, heads on W slope of Fairweather Range, trends SW 9 miles to its 1961 terminus on Crillon Inlet, 80 miles NW of Hoonah, St. Elias Mountains; 58° 38' 45" N, 137° 27' 30" W; BGN 1945; (map 10). Variant: Crillon Glacier, North Eastern Glacier. Called "Crillon Glacier" by W. H. Dall, USC&GS, in 1874 for Mount Crillon. At that time, Crillon Glacier was much more extensive and joined La Perouse Glacier near the latter's terminus. Since 1874 the Crillon Glacier has retreated, uncovering the valley now occupied by Crillon Lake. The glacier has dwindled to become two smaller glaciers; the one on the N, terminating in Crillon Inlet, is called North Crillon Glacier.

North Dawes Glacier: glacier, heads on Alaska-Canada boundary at 57° 40' N, 132° 50' W, trends SW to Endicott Arm, 5 miles WNW of Dawes Glacier and 95 miles NE of Sitka, Coast Mountains; 57° 34' N, 133° 01' W; (map 8). Local name reported in 1961 by USGS.

North Deception Lake: lake, 1 mile long, in Glacier Bay National Monument, alongside Brady Glacier, 1 mile N of South Deception Lake and 53 miles NW of Hoonah, St. Elias Mountains; 58° 23' 45" N, 136° 46' 30" W; BGN 1962; (map 10). Named by NPS in 1961 because it is a "self-dumping" lake, and for a period once each year it disappears.

North Dome: mountain, 2,700 ft., in Glacier Bay National Monument, 0.9 miles E of Crillon Lake and 76 miles NW of Hoonah, St. Elias Mountains; 58° 33' 35" N, 137° 20' 40" W; (map 10). Name published by the Harvard-Dartmouth expedition, 1933-34, Washburn and Goldthwait, 1936, map).

North East Arm: estuary, see Nunatak Fiord.

North East Cape: locality, see Northeast Cape.

North East Rookery: rookery, see Vostochnie Rookery.

North Eastern Glacier: glacier, see North Crillon Glacier.

North Entrance: water passage, on W coast of Prince of Wales Island, connects Big Salt Lake and Shinaku Inlet, 3.5 miles N of Klawock, Alexander Archipelago; 55° 36' 30" N, 133° 07' 30" W; (map 4). Local name recorded in 1949 by USGS.

North Flat: tidal flat, 1 mile long, in Wrangell Narrows, on W coast of Mitkof Island, 8 miles S of Petersburg, Alexander Archipelago, 56° 41' 30" N, 132° 56' 30" W; (map 6). Variant: Wrangell North Flat. This feature was originally called "Wrangell North Flat" in 1869 by Comdr. R. W. Meade, USN. Local usage shortened the name.

North Foreland: point of land, on NW shore of Cook Inlet, 2 miles S of Tyonek, Cook Inlet Lowland; 61° 02' 50" N, 151° 09' 40" W; (map 70). Named April 18, 1794, by Capt. George Vancouver, RN.

North Fork Anchor River: stream, on Kenai Peninsula, flows W 15 miles to Anchor River at village of Anchor Point, 14 miles NW of Homer, Cook Inlet Lowland; 59° 46' 30" N, 151° 50' 00" W; (map 50). Local name published on maps after 1950.

North Fork Aniakchak River: stream, on Alaska Peninsula, flows S 9 miles, joins the main stream 7 miles above its mouth, 18 miles W of Cape Kunmik, Aleutian Range; 56° 48' N, 157° 39' W; (map 31). Local name reported in 1924 by R. H. Sargent, USGS, and shown on a 1924 USGS map .

North Fork Baker Creek: stream, flows SE 13 miles to Baker Creek, 5 miles NW of Baker Lake, 47 miles ESE of Tanana, Yukon-Tanana Highlands; 65° 06' N, 150° 27' W; (map 106). Prospectors' name reported in 1906 by USGS (Prindle, 1908, pl. 5).

North Fork Big River: stream, flows SW 23 miles To Big River, 77 miles SE of McGrath, Alaska Range; 61° 58' N, 154° 37' W; (map 71). Local name reported in 1958 by USGS.

North Fork Big River: stream, heads at glacier Terminus NE of Lake Clark Pass, flows SE 13 miles to Big River, 37 miles NW of Kenai, Cook Inlet Lowland; 60° 46' N, 152° 13' W; (map 62). Local name reported in 1958 by USGS.

North Fork Bradfield River: stream, heads W of Mount Pounder at 56° 25' 55" N, 131° 16' 45" W, flows SW 20 miles to join the East Fork to form Bradfield River, 2 miles E of head of Bradfield Canal, Coast Mountains; 56° 14' N, 131° 27' W; BGN 1959; (map 7). Variant: Bradfield River, North Bradfield River. Named by IBC and published in 1927 on IBC sheet 5.

North Fork Bremner River: stream, heads at Bremner Glacier, flows W 24 miles to join South Fork Bremner River to form Bremner River, at S end of Twelvemile Canyon, 68 miles NE of Cordova, Chugach Mountains; 60° 59' 40" N, 143° 57' 00" W; (map 65). Variant: Bremner River. Local name reported by F. H. Moffit (1912, Pl. 5), USGS.

North Fork Buckland River: stream, flows SW 33 miles to the Buckland River, 50 miles NE of Haycock, Nulato Hills; 65° 45' N, 160° 02' W; (map 109). Local name published in 1951 by USGS.

North Fork Campbell Creek: stream, heads in Chugach Mountains, flows NW 13 miles, through Campbell Creek Canyon, to join South Fork to form Campbell Creek, 3.8 miles SE of Anchorage, Cook Inlet Lowland; 61° 10' 39" N, 149° 49' 20" W; (map 69). Local name reported in 1942 by AMS.

North Fork Canyon Creek: stream, in Kantishna Hills, flows E 5.7 miles to Canyon Creek, 19 miles NNW of Eielson Visitor Center, Alaska Range; 63° 41' 40" N, 150° 27' 40" W; (map 88). Name shown on a 1916 fieldsheet by C. E. Giffin, USGS.

North Fork Capps Creek: stream, see North Capps Creek.

North Fork Chandalar River: stream, flows SE 104 miles, through Chandalar Lake, joins Middle Fork Chandalar River to form Chandalar River, 23 miles SSE of Chandalar, Brooks Range; 67° 10' N, 148° 18' W; (map 123). Prospectors' name obtained in 1909 by A. G. Maddren (in Brooks and others, 1910 pl. 7), USGS.

North Fork Chena River: stream, flows SW 20 miles, joins West Fork Chena River to form Chena River, 49 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 03' 12" N, 146° 11' 00" W BGN 1965; (map 104). Variant: West Fork Chena River. Local name reported in 1903 by USGS (Prindle, 1905, pl. 16).

North Fork Chester Creek: stream, flows SW 1.3 miles to Chester Creek in Anchorage, Cook Inlet Lowland; 61° 12' 07" N, 149° 51' 10" W; (map 69). Local name published in 1954 by Northwest Mapping Service, Seattle, Wash.

North Fork Chuitna River: stream, see Chuit Creek.

North Fork Crescent River: stream, flows SE 15 miles, joins Lake Fork to form Crescent River, 53 miles SW of Kenai, Aleutian Range; 60° 21' 20" N, 152° 44' 40" W; (map 62). Local name reported in 1958 by USGS.

North Fork Dagislahkna Creek: stream, in Ray Mountains, flows SW 15 miles to Dagislahkna Creek 11 miles NW of that stream's junction with Tozitna River, 35 miles NNW of Tanana, Kokrines-Hodzana Highlands; 65° 40' N, 152° 23' W; BGN 1960; (map 106). Variant: Siskokhtanten. Name reported by Orth in 1956. The Indian name "Siskokhtanten" means "bear signs (dung)."

North Fork Deep Creek: stream, on Kenai Peninsula, flows SW 12 miles to Deep Creek, 8 miles NE of Ninilchik Dome and 26 miles NE of Homer, Cook Inlet Lowland; 59° 59' N, 151° 15' W; (map 50). Local name published on maps after 1950.

North Fork East Fork Chandalar River: stream, heads at 68° 00' N, 147° 28' W, flows SE 54 miles to East Fork Chandalar River 44 miles W of Christian, Brooks Range; 67° 19' N, 146° 50' W; (map 122). Local name published in 1951 by USGS

North Fork Elsie Creek: stream, see Eva Creek

North Fork Emma Creek: stream, flows NE 5 miles to Emma Creek, 40 miles S of Nenana, Alaska Range; 64° 00' 45" N, 148° 44' 10" W; (map 100). Named published in 1915 by GLO [BLM] survey Plateau

North Fork Fortymile River: stream, heads at junction of Independence and Slate Creeks, flows SE 44 miles to join South Fork to form Fortymile River, 42 miles SW of Eagle, Yukon-Tanana Highlands; 64° 14' N, 141° 45' W; (map 102). Local designation used as early as 1886; published in 1890 by USC&GS

North Fork Fox Creek: stream, flows SE 3.6 miles to Fox Creek, 21 miles NE of Nome, Seward Peninsula Highlands; 64° 46' N, 165° 03' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

North Fork Freshwater Creek: stream, flows SE 6.5 miles to Freshwater Creek, 11 miles N of Tenakee Springs, on E coast of Chichagof Island, Alexander Archipelago; 57° 56' 30" N, 135° 13' 30" W; BGN 1960; (map 9). Named in 1960 by USGS.

North Fork George River: stream, flows SE 28 miles to George River, 12 miles NE of its junction with Kuskokwim River and 28 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 62° 03' N, 157° 35' W; (map 79). Local name reported in 1915 by J. B. Mertie and G. L. Harrington, USGS.

North Fork Goodpaster River: stream, see Goodpaster River.

North Fork Harrison Creek: stream, flows SE 10 miles, joins South Fork Harrison Creek to form Harrison Creek, 44 miles SW of Circle, Yukon-Tanana Highlands; 65° 21' 45" N, 145° 07' 30" W; (map 104). Local name reported in 1896 by USGS (Spurr, 1898, pl. 50).

North Fork Hess Creek: stream, flows SW 21 miles to join South Fork Hess Creek to form Hess Creek, 14 miles NE of Livengood, Yukon-Tanana Highlands; 65° 42' 30" N, 148° 21' 30" W; (map 105). Local name reported in 1903 by USGS (Prindle, 1905, pl. 16).

North Fork Hot Springs Creek: stream, heads S of Wolf Mountain, flows SW 8.5 miles to Hot Springs Creek, 24 miles WNW of Birches, Kokrines-Hodzana Highlands; 65° 13' 10" N, 154° 21' 00" W; (map 107). Local name obtained in 1954 by USGS topographers.

North Fork Huslia River: stream, flows SE 40 miles to join South Fork Huslia River to form Huslia River, 38 miles NE of Roundabout Mountain, Koyukuk Lowland; 65° 53' N, 157° 36' W; (map 108). Local name obtained at Huslia in 1954 or 1955 by USGS.

North Fork Huslia River: stream, see Billy Hawk Creek.

North Fork Indian Creek: stream, see North Fork Indian River.

North Fork Indian River: stream, flows SW 12 miles to join South Fork Indian River to form the Indian River, 16 miles NW of Goodnews, Kilbuck-Kuskokwim Mountains, 59° 18' N, 161°

51' W; (map 53). Variant: North Fork Indian Creek. Name published as "North Fork Indian Creek, by G. L. Harrington (in Brooks, 1921, pl. 7), USGS.

North Fork Innoko River: stream, heads on W slope of Kuskokwim Mountains at 63° 44' 15" N, 155° 35' 30" W, flows NW and SW 100 miles to Innoko River, 48 miles N of Ophir and 64 miles S of Galena, Innoko Lowland; 63° 49' 20" N, 156° 37' 15" W; BGN 1963; (map 90). Variant: Reka Ttachejno, Takhakna, Tango Creek. Local name obtained in 1908 by A. G. Maddren, USGS. Indian name, apparently obtained in 1838 by Alexander Kolmakov; was written in 1842-44 as "R[eka] Ttachejno" by Lt. L. A. Zagoskin, IRN; later written by Father Jette in 1915 as "Takhakna."

North Fork Jones Creek: stream, heads in a lake flows NW 35 miles to Jones Creek 3 miles SE of its junction with East Fork Kuskokwim River, 51 miles E of McGrath, Kuskokwim Lowland; 63° 02' N, 153° 59' W; BGN 1964; (map 89). Local name reported in 1958 by USGS.

North Fork Kashwitna River: stream, heads in Talkeetna Mountains and flows SW 22 miles to Kashwitna River, 36 miles NW of Palmer, Cook Inlet Lowland; 61° 59' 10" N, 149° 50' 45" W; BGN 1937; (map 69). Local name reported about 1933 by USGS.

North Fork Kisaralik River: stream, 17 miles long, flows SW through North Fork Lakes to Kisaralik River, 76 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 23' N, 159° 41' W; BGN 1960; (map 59). Variant: Quicksilver Creek. Local name reported in 1956 by USGS.

North Fork Kougarok River: stream, heads at junction of French and Iron Creeks, flows SW 10 miles to Kougarok River, 45 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 35' N, 164° 44' W; (map 110). Prospectors' name reported in 1900 by Brooks (1901, pl. 11), USGS.

North Fork Koyukuk River: stream, flows S 90 miles from Als Mountain to Koyukuk River, 36.5 miles SW of Wiseman, Brooks Range; 67° 03' N, 151° 04' W; (map 124). Local name shown on an 1899 fieldsheet by T. G. Gerdine, USGS.

North Fork Kugrukuk River: stream, see Eldorado Creek.

North Fork Kun River: stream, see Iaslaktoli River.

North Fork Kuskokwim River: stream, flows SW 210 miles to Kuskokwim River, 4.5 miles E of Medfra, Kuskokwim Lowland; 63° 07' N, 154° 34' W; BGN 1964; (map 89). Variant: Kuskokwim River, Tichininik River. This stream was considered the "Kuskokwim River" by Lt. J. S. Herron, USA, in 1899. It is shown as "North Fork Kuskokwim River" on a map prepared in 1910 by A. G. Maddren, USGS. Its Indian name reported by Gordon (1917, p. 105) in 1907 was "Tichininik."

North Fork Kuzitrin River: stream, flows SW 7.5 miles to Kuzitrin River, 18 miles SW of Imurak Lake, Seward Peninsula Highlands; 65° 27' N, 163° 49' W; (map 110). Prospectors' name reported on a precinct map of Seward Peninsula by Monroe and Hutchins; corrected to June 1903 by Arthur Gibson.

North Fork Kwinink River: stream, flows SW 7 miles to Kwinink River, 8 miles NW of Elim, Se Ward Peninsula Highlands; 64° 41' N, 162° 30' W; (map 95). Prospectors' name shown on a precinct map of Seward Peninsula by Monroe and Hutchins, corrected up to June 1903 by Arthur Gibson.

North Fork Ladue River: stream, see North Ladue River.

North Fork Lake: lake, 1.9 miles long, at head of Nolitna Creek, 15 miles SW of Beaver, Yukon Flats; 66° 10' 40" N, 147° 42' 30" W; (map 118). Probably named by William Yanert who showed it on a 1916 manuscript map of the Yukon Flats (Stuck, 1917, map facing p. 122).

North Fork Lakes: lakes, two, 1.6 miles and 0.75 miles long, 7.5 miles N of Kisaralik Lake and 83 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 27' N, 159° 22' W; (map 59). Local name reported in 1955 by J. M. Hoare, USGS.

North Fork Manzanita Creek: stream, on E coast of Revillagigedo Island, heads in a lake, flows SE, through January Lake, 4.5 miles to Manzanita Creek, Alexander Archipelago; 55° 35' 20" N, 131° 00' 10" W; (map 3). Local name reported in 1955 by USGS.

North Fork Montana Creek: stream, flows SW 14 miles joining the Middle Fork to form Montana Creek, 11 miles SE of Talkeetna, Cook Inlet Lowland; 62° 11' 25" N, 149° 57' 00" W; (map 82). Local name recorded in 1950 by USGS.

North Fork Moose Creek: stream, in Kantishna Hills, flows NW 11 miles to Moose Creek, 5 miles ENE of Wonder Lake, Alaska Range; 63° 31' 10" N, 150° 44' 00" W; (map 88). Local name reported in 1905 by L. M. Prindle, USGS.

North Fork Mosquito Creek: stream, heads in Darby Mountains, flows SW 6.3 miles to Mosquito Creek, in Fish River basin, 39 miles SE of Imuruk Lake, Seward Peninsula Highlands; 65° 02' N, 162° 43' W; (map 110). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

North Fork Niukluk River: stream, see Niukluk River.

North Fork Noxapaga River: stream, see Eldorado Creek.

North Fork Nuluk River: stream, flows SW 11 miles to join South Fork Nuluk River to form Nuluk River, 26 miles N of Teller, Seward Peninsula Highlands; 65° 38' N, 166° 15' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

North Fork O'Brien Creek: stream, flows S 4 miles to Liberty Fork, 21 miles S of Eagle, Yukon-Tanana Highlands; 64° 30' N, 141° 10' W; (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

North Fork Ophir Creek: stream, see Ophir Creek.

North Fork Otter Creek: stream, flows SW 7.5 miles to join South Fork to form Otter Creek, 10 miles NE of Flat, Kilbuck-Kuskokwim Mountains; 62° 31' N, 157° 43' W; (map 79). Local name obtained in 1952 by USGS topographers.

North Fork Paint River: stream, flows E 6 miles To Paint River, 45 miles SW of Augustine Island; 59° 10' N, 154° 35' W; (map 51). Local name reported in 1923 by R. H. Sargent, USGS, and published by K. F. Mather (in Brooks and others, 1925, pl. 3).

North Fork Pioneer Creek: stream, flows SW 2.6 miles, joins Deadwood Creek to form Pioneer Creek, 20 miles S of Rampart, Yukon-Tanana Highlands; 65° 12' 20" N, 150° 06' 00" W; (map 106). Prospectors' name reported in 1905 by ARC Surveyors.

North Fork Porterfield Creek: stream, flows SE 2.5 miles to Porterfield Creek, 12 miles E of Wrangell, Coast Mountains; 56° 31' 20" N, 132° 04' 45" W; (map 6). Local name recorded in 1953 by USGS.

North Fork Preacher Creek: stream, heads E of Lime Peak, flows NW 33 miles to Preacher Creek, 48 miles SW of Circle, Yukon-Tanana Highlands; 65° 44' 30" N, 145° 43' 30" W; (map 104). Name reported by D. C. Witherspoon (in Prindle, 1906, pl. 1), USGS.

North Fork Quartz Creek: stream, flows SE 3.5 miles to Quartz Creek which flows to Kougarak River, 47 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 22' N, 164° 43' W; (map 110). Variant: Right Fork Quartz Creek. Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

North Fork Rainy Creek: stream, heads at glacier Terminus, flows SW 5.8 miles, joins West Fork to form Rainy Creek, 22 miles NW of Paxson, Alaska Range; 63° 17' 30" N, 145° 53' 35" W; (map 86). Local name reported in 1910 by C. E. Giffin, USGS.

North Fork Rex Creek: stream, flows N and SE 4.3 miles and joins the South Fork to form Rex Creek, on E coast of Alaska Peninsula, 2 miles NW of Dry Bay and 51 miles W of Karluk, Aleutian Range; 57° 39' 35" N, 155° 49' 00" W; (map 35). Descriptive local name obtained from J. L. McPherson of Iliamna and published by G. C. Martin (1921, pl. 10), USGS.

North Fork Ruth Glacier: glacier, trends S 6 miles From Mount Silverthrone to Ruth Amphitheater, between Mount Dan Beard and Explorers Peak, Alaska Range; 63° 03' N, 150° 40' W; (map 88). Mountain climbers' name published in 1954 By USGS.

North Fork Sakvailak River: stream, see Sakvailak River.

North Fork Salcha River: stream, heads at 64° 59' N, 144° 45' W, flows SW 36 miles to Salcha River, 38 miles NE of Big Delta, Yukon Tanana Highlands; 64° 39' N, 145° 21' W; (map 101). Named by prospectors and reported in 1903 by USGS (Prindle, 1913a, pl. 16).

North Fork Serpentine River: stream, flows NW 31 miles to Serpentine River, 26 miles SE of Shishmaref, Kotzebue-Kobuk Lowland; 66° 07' N, 165° 14' W; (map 112). Prospectors' name published by Collier (1902, pl. 12), USGS.

North Fork Ship Creek: stream, flows NW 10 miles to Ship Creek, 15 miles SE of Anchorage, Chugach Mountains; 61° 08' 40" N, 149° 27' 50" W; (map 69). Local name reported in 1951 by USGS.

North Fork Slug River: stream, 5 miles long, flows SSW to Slug River, 22 miles E of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 42' 30" N, 161° 38' 30" W; (map 39). Local name shown on a 1937 fieldsheet by J. B. Mertie, USGS.

North Fork Snake River: stream, flows SE 5.5 miles to join Goldbottom Creek to form Snake River, 13 miles N of Nome, Seward Peninsula Highlands; 64° 42' N, 165° 24' W; (map 94). Variant: Last Chance Creek, Saint Michael Creek, Waterfall Creek. Local name reported in 1899 by Schrader (1900c, p. 16), USGS. E. C. Barnard (in Brooks, 1901, pl. 17), USGS, applied "Waterfall Creek" to the head of this stream and extended Last Chance Creek along its lower course.

North Fork Snake River: stream, see Goldbottom Creek.

North Fork Soule River: stream, heads at a glacier, in Lincoln Mountains, flows SE through No Name Lake, 9 miles to Soule River, 3 miles NE of Glacier Point, Coast Mountains; 55° 50' 10" N, 130° 10' 45" W; (map 3). Local name reported in 1955 by USGS.

North Fork Squirrel River: stream, in Baird Mountains, flows S 35 miles to Squirrel River, 27 miles NW of Kiana, Brooks Range; 67° 14' N, 161° 10' W; (map 127). Variant: Omanha River. Local name in use as early as 1910.

North Fork Sulatna River: stream, flows S 14 miles to Sulatna River, 14 miles NW of Sulatna Crossing and 32 miles SW of Ruby, Kilbuck-Kuskokwim Mountains; 64° 18' N, 155° 48" W; (map 98). Local name reported about 1952 by USGS.

North Fork Swift River: stream, heads at glacier 15 miles NW of Mount Mausolus, flows SW 40 miles to Swift River, 28 miles NE of Tundra Lake and 85 miles NW of Lake Clark, Lime Hills; 61° 29' N, 155° 01' W; (map 71). Prospectors' name published in 1951 by USGS.

North Fork Texas Creek: stream, heads at E terminus of Texas Glacier, flows S 2 miles to join the West Fork to form Texas Creek, 5 miles S of Mount Bayard and the Alaska-Canada boundary, Coast Mountains; 56° 03' 10" N, 130° 05' 30" W; (map 7). Local name reported in 1928 by USGS.

North Fork Thumb River: stream, heads in lake and flows SW 3.5 miles to East Fork Thumb River, E of Karluk Lake on W central Kodiak Island; 57° 21' 00" N, 153° 57' 45" W; (map 34). Local name reported in 1954 by USGS.

North Fork Tlikakila River: stream, flows SE 10 miles to the Tlikakila River, 75 miles NE of Nondalton, Aleutian Range; 60° 40' 30" N, 153° 08' 30" W; (map 61). Local name reported in 1958 by USGS.

North Fork Trail Creek: stream, see Trail.

North Fork Twelvemile Creek: stream, flows SE 8 miles to Twelvemile Creek, 56 miles SW of Circle, Yukon-Tanana Highlands; 65° 24' N, 145° . 43' W; (map 104). Variant: East Fork Twelve mile Creek. Name originally published in 1905 as “East Fork Twelvemile Creek” by USGS, but local usage has since shown a preference for the present name.

North Fork Unalakleet River: stream, heads at 64° 25' N, 159° 22' W and flows SW 40 miles to Unalakleet River, 26 miles NE of Unalakleet Nulato Hills; 63° 58' 50” N, 159° 58' 30” W (map 91). Local name reported in 1898 by USC&GS.

North Fork White River: stream, flows SE 29 miles to White River, 50 miles NE of McCarthy, Alaska Range; 61° 45' N, 141° 34' W; (map 67). Local name reported in 1908 by D. C. Witherspoon (in Moffit and Knopf, 1910, pl. 2), USGS.

North Fork Yantarni Creek: stream, on Alaska Peninsula, flows S 2 miles to Yantarni Creek, 3 miles above that stream's mouth and 9 miles N of Cape Kunmik, Aleutian Range; 56° 54' N, 157° 12' W; (map 31). Local name reported in 1951 by USGS.

North Fork: locality, see Fortymile.

North Gland Lake: lake, 0.2 miles across, E of Vega Bay, Kiska Island, Aleutian Islands; 51° 55' 35' N, 177° 28' 00” E; (map 14). Named by the U.S. Army during its occupation of the island during World War II; published in 1943 by AMS. It was considered one of the “G” names in the “G” grid used for tactical purposes.

North Harbor Kai-gah-nee Harbors: bay, see North Kaigani Harbor.

North Harbor: anchorage, see Coal Harbor.

North Hather Creek: stream, heads in Kaiyuh Mountains, flows S 36 miles to Hather Creek 5.7 miles W of its junction with Magitchlie Creek, 56 miles NE of Holikachuck and 68 miles NW of Ophir Innoko Lowland; 63° 34' 20” N, 158° 28' 40” W; (map 90). Name published in 1965 by USGS.

North Head: point of land, N of Kiska Harbor on E coast of Kiska Island, Aleutian Islands; 51 5840” N, 177° 34' 30” E; BGN 1937; (map 14). Local name recorded by USC&GS in 1905.

North Head: point of land, N point of entrance of Coal Harbor on E shore of Zachary Bay, N coast of Unga Island, in Shumagin Islands, Aleutian Range; 55° 22' 00” N, 160° 36' 30” W; (map 28). Probably named in 1865 by Western Union Telegraph Expedition.

North Head: point of land, on N coast of Akutan Island, Krenitzin Islands, Aleutian Islands; 54° 13 30 N, 165° 51' 05” W; BGN 1904; (map 24). Variant: Mys Sigakh, North Cape, Sigak Cape. Local descriptive name reported by USBF in 1888. Capt. Tebenkov (1852, map 26) published the name as M[ys] Sigakh, or “Cape Sigakh.”

North Head: point of land, on N coast of Semisopochnoi Island, Aleutian Islands; 52° 01' 40” N, 179 37' 30” E; (map 15). Name published on a 1943 U.S. Army Corps of Engineers map .

North Head: promontory, on E shore of Iliamna Bay, at Kamishak Bay, Alaska Peninsula, 20 miles N of Augustine Island, Aleutian Range; 59° 37' 30" N, 153° 33' 30" W; BGN 1916; (map 51). Name published in 1913 on USC&GS Chart 3420. It was so named because it lies at north entrance to Iliamna Bay.

North Hill: hill, 1,642 ft., on NE side of Ear Mountain, 47 miles N of Teller, Seward Peninsula Highlands; 65° 56' 30" N, 166° 12' 00" W; (map 111). Descriptive name given in 1945 by a USGS field party.

North Hill: hill, 422 ft, SW of North Point, on N coast of Saint Paul Island, in Pribilof Islands; 57° 12' N, 170° 20' W; (map 38). Presumably a local name published in 1875 by USC&GS.

North Inian Pass: water passage, 6 miles long, between Icy Strait and Cross Sound, just N of Inian Islands, 35 miles NW of Hoonah, St. Elias Mountains; 58° 17' N, 136° 22' W; (map 10). Named in 1901 by J. F. Pratt, USC&GS and published in the 1901 Alaska Coast Pilot.

North Island: island, 0.2 miles across, at mouth of Port McArthur, in Affleck Canal, on S coast of Kuiu Island, Alexander Archipelago, 56° 04' N, 134° 06' W; (map 5). Named in 1886 by Lt. J. M. Helm, USN, for charting purposes, published in 1887 by USC&GS on Chart 706.

North Island: island, 0.4 miles long, off E shore of Favorite Channel, 1.2 miles SW of Yankee Cove and 27 miles NW of Juneau, Coast Mountains; 58° 34' 35" N, 134° 55' 40" W; (map 11). Named in 1880 either by Capt. L. A. Beardslee, USN, or by Comdr. R. W. Meade, USN, in 1869. Name was published by USC&GS in the 1883 Coast Pilot (p. 195).

North Island: island, 0.5 miles long, 1 mile NE of NE tip of Hawkins Island and 5 miles N of Cordova, Chugach Mountains; 60° 37' 30" N, 145° 43' 30" W; (map 64). Named in 1897 by Lt. Comdr. J. F. Moser, USN, while collecting hydrographic data and making harbor sketches along the coast of Alaska; probably so named because it is the northernmost island of a chain of islands.

North Island: island, 0.7 miles long, on W coast of Adak Island, at E entrance to Bay of Islands, Aleutian Islands; 51° 50' 10" N, 176° 47' 40" W; BGN 1936; (map 17). Descriptive name given in 1934 by members of the U.S. Navy Aleutian Island Survey Expedition.

North Island: island, 0.9 miles long, in El Capitan Passage, between El Capitan and Prince of Wales Islands, Alexander Archipelago; 55° 57' 30" N, 133° 18' 45" W; (map 4). Descriptive name given in 1881 by Comdr. Henry Glass, USN.

North Island: island, in Whitewater Bay, on Admiralty Island, 17 miles S of Angoon, Alexander Archipelago; 57° 14' 27" N, 134° 33' 45" W; (map 9). Named in 1881 by Comdr. Henry Glass USN, and published by USC&GS in the 1883 Coast Pilot (p. 175). So named because "it is off the 'North' Coast of Whitewater Bay."

North Island: island, see Raspberry Island.

North Island: island, see Singa Island.

North Junction: locality, see Big Timber.

North Kai-gah-nee Harbor: bay, see North Kaigani Harbor.

North Kaigani Harbor: bay, extends NW 1 mile off Kaigani Strait, on SE coast of Dall Island, Alexander Archipelago; 54° 45' 30" N, 132° 42' 50" W; (map 1). Variant: North Harbor Kai-gah-nee Harbors, North Kai-gah-nee Harbor. Haida Indian name published in 1883 by USC&GS Coast Pilot (p. 66) as "North Harbor Kai-gah-nee Harbors." See Kaigani Harbors.

North Kolomin Lake: lake, 0.5 miles long, on Kenai Peninsula, 6.5 miles S of Caribou Island in Tustumena Lake and 30 miles S of Kenai, Cook Inlet Lowland; 60° 08' N, 151° 03' W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

North Kukpuk River: stream, see Nilik River.

North Ladue River: stream, heads S of Divide Mountain, flows E across Alaska-Canada boundary to Ladue River in Yukon, Canada, Yukon-Tanana Highlands; 63° 16' N, 140° 53' W; BGN 1954; (map 85). Variant: North Fork Ladue River. Named "North Fork Ladue River" by the IBC survey crew, 1907-09.

North Lake: lake, 800 ft. long, on Prince of Wales Island, near head of Kasaan Bay, 0.8 miles N of village of Salt Chuck, Alexander Archipelago; 55° 38' 25" N, 132° 33' 25" W; (map 4). Local descriptive name recorded in 1949 by USGS.

North Ledge: rock, in Lynn Canal, 1.5 miles NW of Clear Point on Mansfield Peninsula and 19. miles SW of Juneau, Alexander Archipelago; 58° 15' 35" N, 134° 56' 45" W; (map 11). Named in 1890 by Lt. Comdr. H. B. Mansfield, USN, and published by USC&GS in the 1891 Coast Pilot (p. 162).

North Ledge: rock, in Wrangell Narrows, between Mitkof Island and Lindenberg Peninsula, 12 miles S of Petersburg, Alexander Archipelago; 56° 37' 45" N, 132° 56' 45" W; (map 6). Descriptive name given in 1869 by Comdr. R. W. Meade, USN.

North Marble Island: island, in Glacier Bay National Monument, in Glacier Bay, northernmost of Marble Islands, 45 miles NW of Hoonah, St. Elias Mountains; 58° 40' 15" N, 136° 03' 45" W; (map 10). Name published by the IBC (1923, map 10).

North Meadow Lake: lake, 0.3 miles across, 2.8 miles NE of Barrow, Arctic Plain; 71° 18' 30" N, 156° 39' 00" W; (map 153). Named about 1956 for scientific purposes.

North Mountain: mountain, 1,848 ft., 14 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 49' 30" N, 136° 19' 00" W; (map 9). Name published in 1919 by R. M. Overbeck (in Martin and others, 1919, pl. 2), USGS.

North Mouth Arolic River: stream, see North Mouth Arolik River.

North Mouth Arolik River: stream, N distributary of Arolik River, heads at 59° 38' N, 161° 36' W, flows NW 12 miles to Kuskokwim Bay, 43 miles N of Goodnews, Yukon-Kuskokwim Delta; 59° 42' N, 161° 53' W; (map 53). Variant: Kwiyadik Creek, North Mouth Arolic River.

Originally called by its Eskimo name "Kwiyadik Creek" in 1898 by J. E. Spurr and W. S. Post, USGS. It was named "North Mouth Arolic River" in 1914 by USC&GS; the present name was published in 1915 on Chart 9103.

North Nenana: locality, miles 415.4 on The Alaska Railroad, on right bank of Tanana River opposite mouth of Nenana River, miles NW of Nenana, Tanana Lowland; 64° 34' 30" N, 149° 06' 45" W; (map 100). Variant: Nenana, Neenana. In 1903 the U.S. Army Signal Corps established the Nenana telegraph station near here borrowing the Indian name from the stream debouching on the opposite side of the Tanana. The name "Nenana," however, was later used for a mission and town on the south bank of Tanana so that when a railroad station was established in this area on the north bank of the river in 1919, it was by necessity called "North Nenana." The Nenana post office, established in 1908, may have originally been located here, but more likely it was located at the Nenana Indian Mission across the river.

North Newton Peak: mountain, 1,060 ft., 0.7 miles N of Newton Peak and 5 miles NE of Nome, Seward Peninsula Highlands; 64° 34' N, 165° 19' W; (map 94). Local name published in 1956 by USGS.

North Nugget Spire: peak, 5,500 ft., 0.5 miles N of Nugget Mountain and 9 miles N of Juneau, Coast Mountains; 58° 26' 00" N, 134° 21' 10" W; (map 11). Local name reported in 1965 by D. A. Brew and A. B. Ford, USGS.

North Olga Lake: lake, see Akalura Lake.

North Olga Stream: stream, see Akalura Creek.

North Pass Sukkwan Strait: water passage, 5 miles long, connecting Sukkwan and Tlevak Straits N of Goat Island, Alexander Archipelago; 55° 13' 30" N, 132° 54' 00" W; BGN 1916; (map 4). Local name reported in 1916 by USC&GS.

North Pass: pass, between head of Peaceful River and George Creek on SE side of Attu Island, Aleutian Islands; 52° 50' 40" N, 173° 05' 00" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II; shown on an AMS map published in 1948.

North Pass: water passage, 1 mile long, between Saginaw Channel and Favorite Channel at N end of Shelter Island, 22 miles NW of Juneau, Alexander Archipelago; 58° 28' 30" N, 134° 56' 00" W; (map 11). Local descriptive name published in 1962 by USGS.

North Pass: water passage, between Tlevak Strait and South Pass, formed by Goat and Prince of Wales Islands, Alexander Archipelago; 55° 14' N, 132° 54' W; BGN 1916; (map 4). Named in 1916 by USC&GS.

North Pass: water passage, navigable width about 1.3 miles, forms NE approach to Kiska Harbor, between Kiska and Little Kiska Islands, Aleutian Islands; 51° 58' 20" N, 177° 36' 30" E; (map 14). Name shown on a 1943 AMS map .

North Passage Point: point of land, between Freshwater Bay and Iyoukeen Cove, on Chichagof Island, 11 miles NE of Tenakee Springs, Alexander Archipelago; 57° 51' N, 134°

56' W; (map 9). Named "North Point" in 1869 by Comdr. R. W. Meade, USN, and published as "North Passage Point" by USC&GS in the 1883 Coast Pilot (p. 179).

North Passage: water passage, 6 miles long, in Icy Strait just N of Lemesurier Island, 3 miles S of mouth of Glacial Bay, 28 miles NW of Hoonah, St. Elias Mountains; 58° 19' N, 136° 06' W; (map 10). Name published by USC&GS in 1904 on Chart 8304.

North Passage: water passage, between N coast of Liesnoi Island and Admiralty Island, at mouth of Eliza Harbor, 25 miles SE of Angoon, Alexander Archipelago; 57° 10' 30" N, 134° 16' 30" W; (map 9). Descriptive name given in 1889 by Lt. Comdr. H. B. Mansfield, USN, and published by USC&GS in the 1891 Coast Pilot (p. 143).

North Peak Mount McKinley: mountain, 19,470 ft., one of Churchill Peaks, 2 miles N of South Peak, in Mount McKinley National Park Alaska Range; 63° 06' N, 151° 00' W; (map 88). This descriptive name for the lower of Mount McKinley's two high peaks was used as early as 1910. See Mount McKinley.

North Peak: mountain, 5,745 ft., 28 miles SE of Mount Sorenson, 29 miles W of Eagle, Yukon-Tanana Highlands; 64° 48' 45" N, 142° 08' 48" W; (map 102). Variant: North Point. Local name shown as "North Point" on a 1905 manuscript map by E. J. Chamberlain, U.S. Deputy Surveyor. Local usage has changed the name to its present form.

North Peak: mountain, elev. 1,755 ft., between Andrefsky River and its East Fork, 48 miles N of Marshall, Nulato Hills; 62° 33' 30" N, 162° 24' 00" W; (map 77). Local name reported in 1916 by USGS.

North Pinnacle Rock: rock, at Cape Lazaref, on SE coast of Unimak Island, Aleutian Islands; 54° 36' 30" N, 163° 35' 00" W; (map 25). Descriptive name reported in 1926 by USC&GS.

North Point Baker: point of land, see Baker Point.

North Point: mountain, see North Peak.

North Point: point of land, 13 miles S of Petersburg, on SE coast of Kupreanof Island, Alexander Archipelago; 56° 37' 45" N, 132° 57' 30" W; (map 6). Named in 1879 by W. H. Dall, USC&GS.

North Point: point of land, N point of entrance to Kasnyku Bay, 9 miles N of Baranof, on NE coast of Baranof Island, Alexander Archipelago; 57° 13' 25" N, 134° 50' 30" W; (map 9). Descriptive name given in 1869 by Comdr. R. W. Meade, USN, and published by USC&GS in the 1883 Coast Pilot (p. 177).

North Point: point of land, N point of entrance to Kelp Bay, on S tip of Catherine Island, off Baranof Island, 14 miles SE of Todd, Alexander Archipelago; 57° 17' 40" N, 134° 49' 45" W; (map 9). Descriptive name given in 1895 by Lt. Comdr. E. K. Moore, USN, and published by USC&GS in the 1901 Coast Pilot (p. 160).

North Point: point of land, N point of entrance to Pond Bay, on SE coast of Dall Island, Alexander Archipelago; 55° 49' N, 132° 45' W; (map 1). Local descriptive name reported in 1951 by USGS.

North Point: point of land, NE point of Fire Island, 9 miles SW of Anchorage, Cook Inlet Lowland; 61° 10' 30" N, 150° 09' 30" W; BGN 1916; (map 70). Local descriptive name reported in 1916 by USC&GS.

North Point: point of land, northernmost tip of Stuart Island, 16 miles NW of St. Michael, Yukon Kuskokwim Delta; 63° 38' N, 162° 26' W (map 92). Local descriptive name obtained in 1952 by USC&GS.

North Point: point of land, on N coast of St. Paul Island, in Pribilof Islands, Aleutian Islands; 57° 13' N, 170° 18' W; (map 38). Variant: Nahsayvernia, Severnoye Point. This is a translation of the Russian name Mys Severnoy meaning north cape, reported by H. W. Elliott (1881, St. Paul notes) as "Nahsayvernia" meaning "'on the north shore,' from Russian 'sayvernie.'"

North Point: point of land, on N shore between Mitchell bay and Kootznahoo Inlet, 5.5 miles NE of Angoon, on Admiralty Island, Alexander Archipelago 57° 32' 50" N, 134° 27' 20" W; (map 9). Named in 1869 by Comdr. R. W. Meade, USN, and published by USC&GS in the 1883 Coast Pilot (p. 177).

North Point: point of land, see Lighthouse Point.

North Pole Hill: hill, 700 ft., on Prince of Wales Island, near head of Kasaan Bay, 1.5 miles NW of village of Salt Chuck, Alexander Archipelago 55° 38' N, 132° 36' W; BGN 1960; (map 4). Named by C. L. Sainsbury, USGS, in 1956, "because of the strong magnetic attraction centering near the hill."

North Pole: village, pop. 615, along Richardson Highway 12 miles SE of Fairbanks, Tanana Lowland; 64° 45' N, 147° 21' W; (map 100). Local name of a community incorporated in 1953.

North Penuk Island: island, in Penuk Islands group 16 miles S of Northeast Cape, off Saint Lawrence Island; 63° 05' N, 168° 49' W; (map 93). Local name published in 1923 by USC&GS.

North Pustoi Bay: cove, 0.8 miles across, 0.6 miles NW of Pustoi Island, at Fort Glenn, on NE coast of Umnak Island, Aleutian Islands; 53° 24' 05" N, 167° 50' 30" W; (map 23). Name derived from Pustoi Island; reported by U.S. Army Corps of Engineers in 1942.

North Quadra Mountain: mountain, 2,861 ft., on N shore of Boca de Quadra, NE of Quadra Point, Coast Mountains; 55° 06' 45" N, 130° 56' 50" W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

North Rapid: rapids, in Rose Channel, in Peril Strait, 25 miles SE of Chichagof, Alexander Archipelago; 57° 28' 00" N, 135° 33' 10" W; (map 9). Variant: First Rapid. Name published by

USC&GS in the 1883 Coast Pilot (p. 163). "At this point, at certain stages of the tide, the so-called First or Northern Rapid is formed, consisting of a race of great force and velocity."

North Rhine Peak: peak, 3,307 ft., 1.7 miles E of Hawthorne Peak and 9 miles NW of Juneau, Coast Mountains; 58° 15' 50" N, 134° 11' 40" W; (map 11). Local name reported in 1965 by D. A. Brew and A. B. Ford, USGS.

North Ridge: ridge, 0.8 miles long, extends N from E end of Pierucci Ridge, Attu Island, Aleutian Islands; 52° 54' 15" N, 173° 17' 45" E; (map 13). Named by U.S. Army during its Occupation of the island during World War II, shown on an AMS map published in 1948

North River: stream, heads at 64° 30' N, 159° 40' W, and flows SW 60 miles to Unalakleet River, 3.8 miles E of Unalakleet, Nulato Hills; 63° N, 160° 40' W; (map 91). Local name reported in 1906 by USC&GS

North Rock: rock, 7 miles SW of Goddard, in Necker Islands, off W coast of Baranof Island, Alexander Archipelago; 56° 44' 35" N, 135° 25' 55" W; (map 5). Local name used by fishermen; published in 1929 by USC&GS.

North Rock: rock, in Orca Inlet, 4.5 miles N of Cordova, Chugach Mountains; 60° 36' 40" N, 145° 43' 20" W; (map 64). Named in 1897 by Lt. Comdr. J. F. Moser, USN, while collecting hydrographic data and making harbor sketches along the coast of Alaska; probably named for nearby North Island.

North Rock: rock, on S coast of Amaknak Island, in Unalaska Bay, Unalaska Island, Aleutian Islands; 53° 52' 53" N, 166° 32' 06" W; (map 23). Named by W. H. Dall, USC&GS, in 1871, and published on USC&GS Chart 8901 in 1875

North Rocks: rocks, extend 0.8 miles in Pacific Ocean, 3 miles N of Forrester Island, Alexander Archipelago; 54° 52' 30" N, 133° 33' 45" W; (map 1). Local descriptive name published by USC&GS in 1943.

North Rocks: rocks, S of North Island, Bay of Islands, Adak Island, Aleutian Islands; 51° 50' 10" N, 176° 47' 35" W; BGN 1936; (map 17). Descriptive name given in 1934 by members of the U.S. Navy Aleutian Island Survey Expedition.

North Rookery: rookery, 1 mile W of Saint George, on N coast of Saint George Island, in Pribilof Islands; 56° 36' 10" N, 169° 34' 20" W; (map 38). Variant: Alga-anatorol'og. This seal rookery is mentioned by Elliott (1881, p. 60-61) as having 750 ft. of sea margin. The Aleut name is "Alga-anato-rolog," meaning " * * * a place where the seals do not go up * * * name being due to the ridge near the center of this rookery where there are no seals" (Putnam, 1903, p. 1013).

North Saddle Lake: lake, 0.8 miles long, on Revillagigedo Island W of Carroll Inlet 1.3 miles SW of Nigelius Point, Alexander Archipelago; 55° 32' 30" N, 131° 22' 40" W; (map 3). Named in 1923 by USFS.

North Salt Lagoon: lagoon, 0.8 miles across, between Elson Lagoon and Chukchi Sea, 4 miles NE of Barrow, Arctic Plain; 71° 20' N, 156° 37' W; (map 153). Variant: Imeakpuniglu,

Imikpaneraluk, Imukpunningmu. Named for scientific purposes (Carson and Hussey, 1962). This feature is probably the same lagoon recorded by Sgt. John Murdoch and published as "Imeakpuniglu" by Lt. P. H. Ray (1885, p. 55), USA, and reported by them to mean "big water, too." The Eskimo name is more closely rendered "Imikpaneraluk."

North Sandy Cove: cove, 1 mile across, in Glacier Bay National Monument, on E shore of Glacier Bay, 1.5 miles NE of Sturgess Island and 48 miles NW of Hoonah, St. Elias Mountains; 58° 44' N, 136° 01' W; (map 10). Name published in 1959 by NPS.

North Sealion Hill: hill, 645 ft., SW of Tolstoi Point, on E coast of Saint George Island, in Pribilof Islands; 56° 35' 20" N, 169° 29' 50" W (map 38). Variant: Alogh'-koverushka'. Local name reported in 1891 by Joseph Stanley-Brown, USGS. Putnam (1903, p. 1014), USC&GS, gives the Aleut-Russian name "Alogh'-koverushka" meaning "middle hill," that is, between Gull and South Sealion Hills.

North Semidi: island, see Aghiyuk Island.

North Snohomish Lake: lake, 0.6 miles long, N of Lake Snohomish, 9 miles SW of village of Lake Minchumina, Tanana Lowland; 63° 46' 45" N, 152° 29' 30" W; (map 88). Variant: Lake Tukomina. Local name reported in 1954 by USGS.

North Spit: point of land, extends SE 3.5 miles between Goodnews and Kuskokwim Bays, 10 miles SW of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 04' N, 161° 50' W; (map 53). Descriptive name reported by G. L. Harrington (in Brooks, 1921, pl. 7), USGS.

North Spit: spit, on N shore of Shagak Bay, on NW coast of Adak Island, Aleutian Islands, 51° 52' 40" N, 176° 44' 30" W; BGN 1936; (map 17). Descriptive name given in 1934 by members of the U.S. Navy Aleutian Island Survey Expedition.

North Star Creek: stream, flows SW 3.3 miles to Windy Creek, 26 miles N of Nome, Seward Peninsula Highlands; 64° 53' N, 165° 27' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

North Star Island: barrier island, 1.5 miles long, on Beaufort Sea coast, in Maguire Islands, 3 miles NW of Flaxman Islands, Arctic Plain; 70° 13' 30" N, 146° 20' 00" W; (map 151). Named by Leffingwell (1919, p. 98) about 1913 after the schooner North Star of the Canadian Arctic Expedition.

North Strait: water passage, see Kupreanof Strait.

North Summit Ear Mountain: peak, see Ears Peak.

North Trick Lake: lake, 1.3 miles across, in Glacier Bay National Monument, near terminus of Brady Glacier, 2.5 miles NE of Torch Bay and 50 miles WNW of Hoonah, St. Elias Mountains; 58° 22' 05" N, 136° 42' 10" W; BGN 1962; (map 10). So named in 1961 by NPS because the lake empties itself annually.

North Tuman Point: point of land, see Tuman Point.

North Twin Bay: bay, 1.3 miles across, 1 mile N of South Twin Bay on SW end of Elrington Island, 45 miles SE of Seward, Chugach Mountains; 59° 58' N, 148° 13' W; BGN 1929; (map 49). Descriptive name given in 1927 by USC&GS “because it is one of two bays of nearly equal size separated by a high headland.” See South Twin Bay.

North Twin Creek: stream, flows SE 5.2 miles to North Fork Chandalar River, 10 miles NNE of Chandalar, Brooks Range; 67° 38' 30" N, 148° 25' 00" W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

North Twin Glacier: glacier, in Tordrillo Mountains, trends SW 10 miles to its terminus at Skwentna River, 59 miles NW of Tyonek, Alaska Range; 61° 26' 15" N, 152° 44' 30" W; (map 70). Local descriptive name published in 1933 by USGS.

North Twin Peak: mountain, 1,494 ft., one of Twin Peaks, on W shore of Alitak Bay, at S end of Kodiak Island; 56° 54' 40" N, 154° 13' 30" W; (map 32). Descriptive name published in 1943 by USC&GS.

North Twin: peak, 7,703 ft., in Chigmit Mountains, 2.5 miles S of Iliamna Volcano, Aleutian Range; 59° 59' 45" N, 153° 04' 25" W; (map 51). Local descriptive name published in 1912 by USC&GS.

North Walrus Peak: peak, 2,930 ft., between Morzhovoi Bay and Thinpoint Cove, in Aleutian Range, at SW end of Alaska Peninsula, 24 miles NE of False Pass, Aleutian Range; 54° 58' 55" N 162° 51' 10" W; BGN 1966; (map 25). Variant: Morjecskoi pik, Morzhevskoy pik, Walrus Peak. Named “Morzhevskoy pik” meaning “walrus peak” by Capt. Lutke (1836, p. 272), IRN.

North Yoke Mountain: peak, 2,539 ft., one of two peaks on Yoke Mountain, 4 miles E of Jacksmith Bay, 28 miles N of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 30' N, 161° 38' W; (map 53). Named in 1914 by USC&GS; published in 1915 on Chart 9103.

North, Cape: point of land, see Barrow Point.

North-northeast Bight: bight, 1 mile across, on NE coast of Semisopochnoi Island, Aleutian Islands; 52° 01' 10" N, 179° 39' 20" E; (map 15). Name published on a 1943 U.S. Army Corps of Engineers map .

North-northwest Bight: bight, 0.5 miles across, on NW coast of Semisopochnoi Island, Aleutian Islands; 52° 01' 30" N, 179° 35' 50" E; (map 15). Name published on a 1943 U.S. Army Corps of Engineers map .

North-northwest Head: point of land, on NW coast of Semisopochnoi Island, Aleutian Islands; 52° 01' N, 179° 34' E; (map 15). Name published on a 1943 U.S. Army Corps of Engineers map .

Northeast Anchorage: cove, see Izhiga Cove.

Northeast Arm Uganik Bay: bay, extends inland SE 8.5 miles, on N coast of Kodiak Island; 57° 47' N, 153° 29' W; (map 34). Descriptive name given in 1897 by Lt. Comdr. J. F. Moser, USN, of the USBF steamer Albatross.

Northeast Arm: estuary, trends SW 1 mile to Mummy Bay, at S end of Knight Island, 11 miles SE of Chenega, Chugach Mountains; 60° 13' 45" N, 147° 47' 30" W; (map 63). Descriptive name published in 1911 by USC&GS.

Northeast Bay: bay, 1.7 miles across, on N shore of Iliamna Lake, 5 miles E of Iliamna, Aleutian Range; 59° 46' N, 154° 46' W; (map 51). Local name published in 1954 by USGS.

Northeast Bight: bay, 2 miles across, on NE coast of Nagai Island, in Shumagin Islands, Aleutian Range; 55° 10' N, 159° 53' W; (map 27). Variant: North East Bight. Named in 1916 by USC&GS.

Northeast Bluff: promontory, 500 ft., 3.5 miles long, between Austin Cove and Holtz Bay, on N coast of Attu Island, Aleutian Islands; 52° 59' 40" N, 173° 07' 30" E; (map 13). Name given by Lt. William Gibson, USN, who commanded the schooner U.S.S. Fenimore Cooper, during the North Pacific Exploring Expedition in 1855.

Northeast Branch Taku Glacier: glacier, see Demorest Glacier.

Northeast Cape: locality, pop. 20, on Northeast Cape, at E end of St. Lawrence Island; 63° 18' N, 168° 42' W; (map 93). Variant: North East Cape. Local name reported in 1961 as "North East Cape" (Rand McNally, 1961, p. 58).

Northeast Cape: point of land, about 2 miles NE of base of Seevookhan Mountain at E end of St. Lawrence Island; 63° 18' N, 168° 42' W; BGN 1951; (map 93). Variant: Cape Anderson, Cape Chichmareff, Cape Seevooka, Cape Sevookak Cape Sevuokuk, Cape Shishmaref, Cape Shishmarev, Sevooka Cape, Sevuokaa Cape Sevukok Cape, Sevuokuk Point. Descriptive name given in 1849 by Capt. Tebenkov (1852, map 3), IRN. Russian Hydrog. Dept. Chart 1455 (edition of 1852) shows it as "Cape Anderson," thus attempting to preserve the name Capt. James Cook, RN, gave to St. Lawrence Island in 1778. Adm. A. J. von Krusenstern, IRN, in his Hydrographic Memoirs, named it "Shishmarev," for Capt. Lt. Glieb Semeonovich Shishmarev, who surveyed St. Lawrence Island in 1821.

Northeast Cape: point of land, see Krugloi Point.

Northeast Cove: estuary, on W coast of Knight Island, extends NW 0.5 miles to Drier Bay, 12 miles NE of Chenega, Chugach Mountains; 60° 19' 20" N, 147° 44' 45" W; (map 63). Descriptive name reported in 1908 by U. S. Grant and D. F. Higgins (in Brooks and others, 1909, pl. 4), USGS.

Northeast Creek: stream, on Alaska Peninsula, flows SW 5 miles to Amber Bay, 10.5 miles NW of Cape Kunmik, Aleutian Range; 56° 52' N, 157° 24' W; (map 31). Local descriptive name reported in 1951 by USGS.

Northeast Fork Kahiltna Glacier: glacier, trend W 4 miles on N side of Kahiltna Peaks from Kahiltna Notch to Kahiltna Glacier, Alaska Range; 63° 02' N, 151° 10' W; (map 88). Mountain climbers' name published in 1954 by USGS.

Northeast Harbor: bay, 1.5 miles across, on W coast of Kodiak Island, 5.5 miles NE of Karluk; 57° 37' 50" N, 154° 21' 00" W; (map 35). Descriptive name reported in 1899 by Lt. Comdr. Jefferson F. Moser, USN, commander of the USBF steamer Albatross.

Northeast Harbor: bay, 3 miles across, on W coast of Little Koniuji Island, in Shumagin Islands, Aleutian Range; 55° 00' N, 159° 26' W; (map 26). Local name published in 1875 by W. H. Dall, USC&GS.

Northeast Harbor: harbor, 1 mile across, on SE coast of Sanak Island, in Sanak Islands, Aleutian Range; 54° 26' 30" N, 162° 35' 00" W; (map 25). Descriptive name reported by Ferdinand Westdahl, USC&GS commander of the Coast Survey steamer McArthur, who made surveys in this area in 1901.

Northeast Point: point of land, on N shore of Northeast Harbor, on SE coast of Sanak Island, in Sanak Islands, Aleutian Range; 54° 27' N, 162° 35' W; (map 25). Descriptive name given by W. H. Dall, USC&GS, and published in 1882 on USC&GS Chart 806;

Northeast Point: point of land, on NE coast of Semisopochnoi Island, Aleutian Islands; 52° 00' 40" N 179° 41' 00" E; (map 15). Name published on a 1943 U.S. Army Corps of Engineers map .

Northeast Point: point of land, on NE tip of Khantaak Island, in Yakutat Bay, 2 miles W of Oatmeal Island and 6 miles N of Yakutat, Malaspina Coastal Plain; 59° 38' 20" N, 139° 43' 05" W; (map 46). Variant: Mys NO. Named "Mys NO" by Capt. Tebenkov (1852 map 7) and interpreted by Baker (1906, p. 468) to mean "northeast cape."

Northeast Point: point of land, on NE tip of Saint Paul Island, in Pribilof Islands, Aleutian Islands; 57° 14' 50" N, 170° 05' 50" W; (map 38). Variant: Mys Vostochnyy, Vostochnie Point. Local descriptive name published by Tikhmeniev (1861, map) as "M[ys] Vostochnyy" meaning "east cape," and by USC&GS in 1875 as "Northeast Point."

Northeast Rocks: rocks, elev. 115 ft., in Bering Sea on NE coast of Kiska Island, 3 miles E of Kiska Volcano, Aleutian Islands; 52° 05' 50" N, 177° 40' 45" E; (map 14). Variant: Mallard Rocks. Name shown on a 1943 AMS map ; variant Shown on a 1943 USAAF map .

Northeast Twin: peak, 2,185 ft., on Twin Mountain, 9 miles N of Tooth Mountain and 20 miles N of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 23' N, 161° 42' W; (map 53). Variant: N. E. Twin. Descriptive name given in 1914 by USC&GS, published in 1915 on Chart 9103.

Northerly Island: island, 0.3 miles long, in St. John Harbor, on NW coast of Zarembo Island, Alexander Archipelago; 56° 26' 50" N, 132° 58' 20" W; (map 6). Descriptive name given in 1884 by officers Of U.S.S. Adams.

Northern Strait: water passage, see Kupreanof Strait.

Northland Glacier: glacier, needs in Kenai Mountains, trends NE 5.5 miles to its terminus, 6 miles S of Whittier, Chugach Mountains; 60° 41' 15" N, 148° 41' 30" W; BGN 1930; (map 63). Named in 1910 by Lawrence Martin for Northland College, Ashland, Wis.

Northumberland, Cape: point of land, S tip of Duke Island, Alexander Archipelago; 54° 51' 30" N, 131° 20' 30" W; (map 2). Named "by [Capt. G.] Vancouver, RN, August 14, 1793, in honor of the Duke of Northumberland" (Wagner, 1937, p. 400).

Northway Indian Village: village, between Nabesna River and Skate Lake, 1.5 miles N of Northway, Alaska Range; 62° 59' N, 141° 57' W; (map 84). Indian village reported in 1954 by USGS.

Northway Junction: locality, on Alaska Highway, 5.5 miles NE of Northway, Yukon-Tanana Highlands; 63° 01' N, 141° 48' W; (map 85). Northway, established as a link in the Northwest Staging Route during World War II, brought nearby Northway Junction into being because the site is at a road junction on the Alaska Highway.

Northway: village, pop. 196, on E bank of Nabesna Slough, 5.5 miles SW of Northway Junction, Alaska Range; 62° 58' N, 141° 56' W; (map 84). Northway was first built as a link in the Northwest Staging Route during World War II, and still serves as an important airport.

Northwest Arm Castle Bay: estuary, trends E 4 miles to Castle Bay, 6 miles SE of Chignik, Aleutian Range; 56° 13' 30" N, 158° 18' 10" W; (map 30). Local name reported in 1923 by R. H. Sargent, USGS.

Northwest Bay: bay, on NW side of Eleanor Island, extends NW 2 miles to Prince William Sound, 26 miles NE of Chenega, Chugach Mountains; 60° 34' 15" N, 147° 36' 00" W; (map 63). Local name published in 1910 by USC&GS.

Northwest Branch Taku Glacier: glacier, see West Branch Taku Glacier.

Northwest Cape: point of land, at NW tip of St. Lawrence Island about 1.7 miles W of base of Sevuokuk Mountain, 63° 47' N, 171° 45' W; BGN 1951; (map 93). Variant: Cape Sevookak, Cape Sevuokok, Cape Sevuokuk, Sevuokok Cape, Sevuokuk Cape, Sevuokuk Point. Descriptive name given in 1849 by Capt. M. D. Tebenkov (1852, map 3), IRN. See Chibukak, Cape.

Northwest Cape: point of land, see Chibukak Point.

Northwest Cape: point of land, see Sajaka, Cape.

Northwest Cape: point of land, see Sarichef Cape.

Northwest Cove: cove, see William Cove.

Northwest Fivefinger: island, see Akusha Island.

Northwest Fork Ruth Glacier: glacier, trends 4 miles E, from between S and E Buttresses on Mount McKinley to Mount Dan Beard then S 2 miles to join W Fork Ruth Glacier, Alaska Range; 63° 02' N, 150° 50' W; (map 88). Local name reported in 1954 by USGS.

Northwest Harbor: bay, 2 miles across, on N coast of Little Koniuji Island, in Shumagin Islands, Aleutian Range; 55° 03' 50" N, 159° 25' 00" W; (map 27). Variant: Agughum udda.

Local name published on an 1888 USC&GS chart. Possibly the same bay called by the Aleut "Agughum udda" meaning "bay of the creator," or "God's bay," according to Father Veniaminov (1840, v. 1, p. 263).

Northwest Head: point of land, on NW coast of Little Sitkin Island, Aleutian Islands; 51° 59' 15" N, 178° 27' 45" E; (map 15). Name published on a 1943 U.S. Army Corps of Engineers map .

Northwest Point: point of land, N tip of Kalgin Island, in Cook Inlet, 23 miles WSW of Kenai, Cook Inlet Lowland; 60° 31' N, 151° 56' W; (map 62). Local name reported in 1958 by USGS.

Northwest Point: point of land, on Buldir Island, Aleutian Islands; 52° 22' 30" N, 175° 53' 00" E; (map 14). Name shown on a 1950 AMS map .

Northwest Point: point of land, on NW coast of Kanaga Island, Aleutian Islands; 51° 44' 10" N, 177° 38' 05" W; (map 17). Descriptive name published by USC&GS in 1956 on Chart 9145.

Northwest Point: point of land, on NW coast of Saint Paul Island, in Pribilof Islands; 57° 12' N, 170° 23' W; (map 38). Name published on USC&GS Chart 886 (1890).

Northwest Reef: reef, off W coast of Otter Island, In Pribilof Islands; 57° 02' 50" N, 170° 25' 00" W; (map 38). Descriptive name published in 1903 by USC&GS.

Northwest Shoulder: point of land, see Kresta Point.

Northwest Tributary: glacier, see Cushing Glacier.

Northwestern Glacier: glacier, heads in Kenai Mountains, trends S 5.5 miles to its terminus at Northwestern Lagoon, 55 miles NE of Homer, Chugach Mountains; 59° 47' 30" W; 150° 03' 00" W; BGN 1910; (map 50). Name reported by U. S. Grant, USGS (in Brooks and others, 1910, pl. 3). Named for Northwestern Univ., Evanston, Ill.

Northwestern Lagoon: lagoon, extends SE 4.5 miles from Northwestern Glacier to Harris Bay, 32 miles SW of Seward, Chugach Mountains; 59° 44' N, 149° 55' W; (map 49). Variant: Harris Bay. Published in 1956 by USGS.

Norton Bay Station: village, see Koyuk.

Norton Bay: bay, extends NE 50 miles from NE end of Norton Sound; it is defined on S by line between Cape Darby and Cape Denbigh; 64° 30' N, 162° 00' W; (map 69). Name derived from Norton Sound; published by USC&GS in 1884.

Norton Sound Settlements: localities, on shores of Norton Sound, 64° N, 153° W. The 1890 Census combined the population of villages and camps in the area under this name.

Norton Sound: gulf, 125 miles long and 70 miles wide, extends E off Bering Sea, between Seward Peninsula on N and Yukon Delta on S; 64° N, 164° W; BGN 1944; (map 113). Variant: Norton Baie. Discovered in 1778 by Capt. Cook (1785, p. 485), RN, and named by

him “in honour of Sir Fletcher Norton [later Lord Grantley], Speaker of the House of Commons.”

Norutak Hills: hills, extends 23 miles long, S of Kobuk River and 3 miles NE of Lockwood Hills, Hogatza Highlands; 66° 38' N, 154° 20' W [E end]; 66° 45' N, 155° 07' W [W end]; BGN 1966; (map 116). Named in 1965 for Norutak Lake by W. W. Patton, Jr., USGS.

Norutak Lake: lake, 4.5 miles long, on divide between Hogatza and Kobuk Rivers, 51 miles N of Hughes, Hogatza Highlands; 66° 48' N, 154° 18' W; (map 116). Variant: Now-get-to-ark (Gull Lake). Eskimo name reported by Lt. J. C. Cantwell, USRCS, in 1885 as “Nor-u-tak” and by Lt. Stoney (1900, p. 53), who reported it as “Now-get-to-ark (Gull Lake).” W. C. Mendenhall (1902, p. 25) established the present spelling.

Norvell Creek: stream, flows NW 9 miles to Molly Creek, 80 miles SW of Eagle, Yukon-Tanana Highlands; 64° 09' 30" N, 143° 26' 00" W; (map 102). Local name published in 1956 by USGS.

Norway Point: point of land, on NE shore of Gastineau Channel, 1 mile N of Juneau, Coast Mountains; 58° 18' 30" N, 134° 26' 15" W; (map 11). The name which first appeared in print in 1917, was reportedly derived from a temporary encampment of Norwegian fishermen in the area (DeArmond, 1957, p. 33).

Nose Point: point of land, between Brow and Chin Points on NW coast of Revillagigedo Island, Alexander Archipelago; 55° 48' 20" N, 131° 42' 28" W; (map 3). Named in 1891 by USC&GS; Brow and Chin Points are nearby.

Nosovskoi: locality, site of a village, 6 miles NW of Scotch Cap, on SW coast of Unimak Island, Aleutian Islands; 54° 29' N, 164° 53' W; (map 24). Variant: Nosovskoy. Russian name reported in 1828 by Capt. F. P. Lutke. Its precise location is not known.

Nossuk Anchorage: anchorage, in Nossuk Bay, W coast of Prince of Wales Island, Alexander Archipelago; 55° 44' N, 133° 20' W; BGN 1914; (map 4). Indian name given in 1914 by USC&GS.

Nossuk Bay: estuary, 2 miles long, off Tonowek Bay, W coast of Prince of Wales Island, Alexander Archipelago; 55° 43' N, 133° 20' W; BGN 1914; (map 4). Indian name given in 1914 by USC&GS.

Notakok Mountain: mountain, 2,490 ft., 27 miles SW of Nulato, Nulato Hills; 64° 26' N, 158° 44' W; (map 97). Native name reported in 1939 by U.S. Army Corps of Engineers.

Notch Creek: stream, flows NE 7.4 miles to Kiruktagiak River, N of The Notch, 9.5 miles S of Castle Mountain and 34 miles NW of Anaktuvuk Pass, Arctic Slope; 68° 27' N, 152° 46' W; (map 134). Name derived from the notch, at the stream's mouth; given in 1949 by W. W. Patton, USGS.

Notch Creek: stream, flows SE 14 miles to Cross Creek 3 miles SW of its junction with Chisana River, Wrangell Mountains; 62° 09' 30" N, 142° 10' 25" W; (map 84). Name applied in 1902 by F. C. Schrader, USGS, as a contraction of an Indian name, “Not-chit-in-da.”

Notch Mountain: mountain, 2,200 ft., on E shore of Thorne Arm, on S coast of Revillagigedo Island, Alexander Archipelago; 55° 16' 25" N, 131° 14' 25" W; (map 3). Descriptive name given in 1883 by Lt. Comdr. H. E. Nichols, USN.

Notch, The: canyon, narrow and V-shaped, cut into a ridge on upper Kiruktagiak River, 11 miles S of Castle Mountain and 34 miles NW of Anaktuvok Pass, Arctic Slope; 68° 25' 30" N, 152° 48' 00" W; (map 134). Named by USGS geologists, about 1950, as "a good descriptive name for this unusual topographic feature."

Notch, The: gap, in high bank on N side of Thorofare River, Mount McKinley National Park, N of Muldrow Glacier, Alaska Range; 63° 24' 40" N, 150° 25' 12" W; BGN 1932; (map 88). Local name reported in 1932 by J. C. Reed and S. N. Stoner, USGS.

Notliagepia-ta: stream, see Patsy Slough

Notoark River: stream, see Noatak River.

Notochargut River: stream, see Dall River.

Notochaugat River: stream, see Dall River.

Notokakat River: stream, see Dall River.

Notoniono Creek: stream, heads in Indian Mountains, flows E 25 miles to Mentanontli River, 35 miles ENE of Hughes, Kokrines-Hodzana Highlands; 66° 12' N, 153° 06' W; (map 116). Indian name recorded at Hughes in 1956 by Orth. The name "Mentna-gle-glau" was recorded at Allakaket, for the same stream, and was reported to mean "head of waters below."

Nouchagak River: stream, see Nushagak River.

Nough-chack, Cap: point of land, see Nukshak, Cape.

Nounivak Island: island, see Nunivak Island.

Nounivok Island: island, see Nunivak Island.

Nourse River: stream, heads in a lake at 59° 44' 20" N, 135° 25' 20" W, flows SE 7 miles to Taiya River, 10 miles N of Skagway, Coast Mountains; 59° 35' 30" N, 135° 20' 00" W; (map 45). Name published in 1923 by the IBC on sheet 9.

Novaia Harbor: estuary, see Freshwater Bay.

Novaia: locality, "on lower Yukon River." Former Indian village or camp, population 52 in 1880, reported by Ivan Petroff.

Novakakat: locality, see Nowi.

Novakaket Island: island, 2.7 miles long, bounded by East Channel Yukon River, Novakaket Slough and Nowitna River, 37 miles NE of Ruby, Nowitna Lowland; 64° 55' N, 154° 18' W; (map 98). Local name reported about 1952 by USGS. This island was probably the location of the Indian village of Nowi. See Nowi.

Novakaket Slough: stream, distributary of Nowitna River, flows W and N 3.4 miles around Novakaket Island to East Channel Yukon River, 36 miles NE of Ruby, Nowitna Lowland; 64° 55' N, 154° 19' W; (map 98). Local name reported about 1952 by USGS.

Novales, Punta: point of land, "this may be present-day Cape Sitkagi." Discovered and named July 24, 1791 by Capt. Alessandro Malaspina for Manuel No Vales, one of the officers of the Descubierta (Wagner, 1937, p. 478).

Novarassi: locality, see Glory of Russia.

Novarupta Volcano: volcano, see Novarupta.

Novarupta: volcano, "of typical form and character which has arisen in the floor of the Valley [of Ten Thousand Smokes] between Broken Mountain and Trident," 7.5 miles W of Mount Katmai in Katmai National Monument, on Alaska Peninsula, Aleutian Range; 58° 16' N, 155° 09' W; BGN 1966; (map 42). Variant: Novarupta Volcano. Descriptive name (meaning new eruption) given in 1916 by R. F. Griggs, National Geographic Society, for this new volcano.

Novastoshnah Rookery: rookery, see Vostochnie Rookery.

Novastoshnah: locality, see Vostochnie.

Novatak Glacier: glacier, heads at 59° 33' N, 138° 40' W and trends SE 16 miles to its 1961 terminus, 3 miles W of Alsek River and 50 miles SE of Yakuta, St. Elias Mountains; 59° 23' 45" N, 138° 19' 30" W; (map 46). Name given by USGS in 1962. With the retreat of Nunatak Glacier during 1950-60, a new nunatak, or glacier island, appeared at 59° 38' 30" N, 138° 41' 00" W. For this reason this glacier, which heads near the nunatak, was named "Novatak [new nunatak] Glacier."

Novaya Gaban: estuary, see Freshwater Bay.

Novi Mountain: mountain, 3,396 ft., 72 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 59' N, 153° 27' W; (map 89). Local name reported in 1958 by USGS.

Novi River: stream, see Nowitna River.

Novie Balaam: village, see Uzinki.

Novikakat: locality, see Nowi.

Novikakat: stream, see Nowitna River.

Noviovak River: stream, see Ninuluk Creek.

Novo Arkhangelsk: locality, see Fort Saint Michael.

Novoarkhangelsk: town, see Sitka.

Novoeddiston Mys: point of land, see Louise, Point.

Novokhtolahamiut: locality, see Novoktolak.

Novotolak: locality, "in Kuskokwim district." Variant: Novokhtolahamiut. Former Eskimo village or camp reported in the 1890 Census as "Novokhtolahamiut," population 55.

Novy: islands, see Pribilof Islands.

Now-get-to ark: lake, see Norutak Lake.

Now-tow-vuck-toy: lake, see Nutuvukti Lake.

Nowall Point: point of land, see Nowell, Point.

Nowat Creek: stream, see Jungjuk Creek.

Nowat River: stream, see Crooked Creek.

Nowat River: stream, see Owhat River.

Nowater Creek: stream, flows S 3.5 miles to Susitna River, 80 miles SE of Healy, Alaska Range; 63° 01' 30" N, 147° 21' 30" W; BGN 1959; (map 87). Named in 1954 by USGS. "The name is descriptive because the lower course of the stream disappears in alluvial fan gravels except during periods of heavy runoff"

Nowel Peak: peak, see Eshamy Peak.

Nowell, Point: point of land, on E coast of Kenai Peninsula, at NW end of Knight Island Passage, 12 miles NE of Chenega, Chugach Mountains; 60° 26' 15" N, 147° 56' 05" W; (map 63). Variant: Nowall Point. Named by Capt. George Vancouver, RN, after Joseph Whidbey's examination June 5, 1794 (Wagner, 1937, p. 400).

Nowhere Creek: stream, flows NE 9 miles to the Oshetna River, 30 miles NW of Tahnetta Pass, Talkeetna Mountains; 62° 14' 15" N, 147° 54' 20" W; BGN 1960; (map 82). Named in 1956 by USGS "because this stream leads to very difficult passes."

Nowi River: stream, see Nowitna River.

Nowi: locality, on S bank of Yukon River at mouth of Nowitna River, Nowitna Lowland; 64° 55' N, 154° 17' W; (map 98). Variant: Newicargut, Newikargut, Novakakat, Novikakat, Nowikakat, Noya-kakat, Noyokakat. Former Ingalik Indian village or camp reported in 1867 by the Western Union Telegraph Expedition as "Newicargut." Ivan Petroff recorded three spellings, "Nowikakat," "Noya-kakat," and in the 1880 Census, "Noyokakat," population 107, (p. 12).

Nowikakat: locality, see Nowi.

Nowikakat: stream, see Nowitna River.

Nowikaket: stream, see Nowitna River.

Nowisk-Kay: cove, see Nowiskay Cove.

Nowiskay Cove: cove, 0.6 miles long, near head of North Arm Moira Sound, on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 07' 15" N, 132° 08' 30" W; (map 4). Variant: Nowisk-Kay. Name reported as "Nowisk-Kay" in 1897 by Lt. Comdr. J. F. Moser, USN, as being the name of an Indian who claimed mineral rights on the stream flowing into this cove.

Nowitna River: stream, flows NE 250 miles to East Channel Yukon River, 38 miles NE of Ruby, Nowitna Lowland; 64° 56' N, 154° 16' W; BGN 1907; (map 98). Variant: Newicargut, Newikargut, Novikakat, Novi River, Nowikakat, Nowikaket, Nowi River, Noyakakat. Indian name, often locally referred to as "The Novi" or "Novi River," reported in 1867 by the Western Union Telegraph Expedition as "Newicargut." The termination "-cargut," often written "-kakat," means "mouth [of a stream]."

Nowuk: locality, see Nuwuk.

Nowuk: point of land, see Barrow Point.

Noxapaga River: stream, heads 9.5 miles W of Imuruk Lake, flows SW 56 miles to Kuzitrin River, 15 miles NNW of Mount Bendeleben, Seward Peninsula Highlands; 65° 23' N, 164° 16' W; (map 110). Variant: Kugirukak River, Kugrukruk River, Nakhapagak. Eskimo name shown on a 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. Reported as "Kugrukruk River" in the 1900 by Brooks (1901, pl. 11), USGS.

Noxapaga: locality, on left bank of Noxapaga River, 32 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 29' N, 164° 14' W; (map 110). Site of a mining camp established about 1901 at the beginning of gold mining in the region; reported that year by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Noya-kakat: locality, see Nowi.

Noyakakat: stream, see Nowitna River.

Noyalik Peak: hill, 400 ft., on Chukchi Sea, S of Okpilatok Bluff, 9 miles S of Cape Lisburne, Arctic Slope; 68° 45' 20" N, 166° 11' 30" W; (map 129). Variant: No-yah-lik Peak. Eskimo descriptive name reported in 1950 by USGS to mean "like a sea gull."

Noyatag River: stream, see Noatak River.

Noyes Creek: stream, flows SW 5.5 miles to Cottonwood Creek which flows to Goodhope River, 16 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 48' N, 163° 33' W; BGN 1952; (map 110). Prospectors' name reported in 1901 by USGS (Collier, 1902, pl. 12).

Noyes Island: island, 7 miles across, SW of Gulf of Esquibel, Alexander Archipelago; 55° 30' N, 133° 40' W; (map 4). Named in 1879 by W. H. Dall, USC&GS, for William M. Noyes, USC&GS, stationed in Alaska from 1873 to 1880.

Noyes Mountain: mountain, 8,147 ft., in Mentasta Mountains, 10 miles NE of Jack Lake and 50 miles S of Tok, Alaska Range; 62° 39' N, 143° 10' W; BGN 1966; (map 84). Named in 1966 by U.S. Bureau of Public Roads for Gen. John R. Noyes, 1902-56, former Commanding General of the Alaska National Guard, and head of the Alaska Road Commission.

Noyes Peak: mountain, 2,500 ft., highest point on Noyes Island, Alexander Archipelago; 55° 31' 55" N, 133° 39' 40" W; (map 4). Named in 1923 by USC&GS.

Noyes Roadhouse: locality, site of roadhouse on N bank of Yukon River, NW of mouth of Kandik River, Porcupine Plateau; 65° 23' N, 142° 32' W; (map 103). Name recorded in 1903 by T. G. Gerdine and R. B. Oliver, USGS.

Noyes Slough: stream, anabranch of Chena River, flows W 7 miles around Garden Island and returns to 2 miles W of Fairbanks, Tanana Lowland; 64° 50' 30" N, 147° 48' 30" W; (map 100). Locally named for a "Mr. Noyes" (cna), who had a sawmill on this stream. The name was shown on a manuscript map of the Fairbanks Mining District by C. W. Joint in 1905.

Noyokakat: locality, see Nowi.

Nu-cha-la-woy-ya: locality, see Nuklukayet.

Nu-dru-vuk-puk: locality, site of an Eskimo village, at N end of Chandler Lake, at mouth of Inikaklik Creek, 26 miles WNW of Anaktuvuk Pass, Brooks Range; 68° 15' N, 152° 38' W; (map 134). Name reported in March 1886 by Lt. Stoney (1900, map), USN.

Nu-garth-pe-ak Ta-di-ok: stream, see Ice Creek.

Nu-klac-i-yat: locality, see Nuklukayet.

Nu-wayn-yuk: locality, see Golsovia.

Nu-wu-ak: island, see Barter Island.

Nu-ya-kok Nun-vuk: lake, see Tikchik Lake.

Nu-ya-kok: lake, see Nuyakuk Lake.

Nu-ya-kok: lake, see Tikchik Lake.

Nu-ya-kok: stream, see Nuyakuk River.

Nuatok River: stream, see Noatak River.

Nub Hill: mountain, see Knub Hill.

Nubbins Mountain: mountain, 1,900 ft., on Annette Island, N of Bingo Mountain, 7.2 miles of Metlakatla, Alexander Archipelago; 55° 14' 10" N, 131° 32' 45" W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Nubble Point: point of land, at NE end of MacDonald Spit on Kenai Peninsula, 6 miles NE of Seldovia, Chugach Mountains; 59° 29' 15" N, 151° 34' 00" W; (map 50). Named by W. H. Dall, USC&GS, in 1880.

Nubviakchugaluk: locality, on N shore of Norton Bay near mouth of Kwik River, Seward Peninsula Highlands; 64° 47' N, 161° 42' W; (map 96). Variant: Nubviakhchugaluk. Former Eskimo village or camp reported as "Nubviakhchugaluk," population 30, in the 1880 Census by Ivan Petroff.

Nubviakhchugaluk: locality, see Nubviakchugaluk.

Nuchalawoia: locality, see Nuklukayet.

Nuchek Creek: stream, on Hinchinbrook Island, flows 4.5 miles SW to Port Etches, 28 miles SW of Cordova, Chugach Mountains; 60° 22' N, 146° 29' W; (map 64). Name published in 1950 by USGS; derived from the nearby village of Nuchek.

Nuchek Harbor: lagoon, see Constantine Harbor.

Nuchek Island: island, see Hinchinbrook Island.

Nuchek: bay, see Etches, Port.

Nuchek: locality, on Hinchinbrook Island, on N shore of Port Etches, 35 miles SW of Cordova, Chugach Mountains; 60° 20' N, 146° 39' W; (map 64). Variant: Fort Konstantine, Helena, Konstantinovsk, Natchek, Natcheck, Noocheek, Nutschek. Site of an abandoned Eskimo village (Hodge, 1910, p. 90). The Russians built a stockade post here about 1793 called "Fort Konstantine" probably named for Grand Duke Constantine, the younger brother of Czar Alexander II. The population in 1880 was 74, in 1890, 145.

Nuchklunek Mountain: mountain, see Nuklunek Mountain.

Nuchljuagmjut: locality, see Nukluak.

Nuchluk River: stream, see Nukluk Creek.

Nuchtschak, Cape: point of land, see Nukshak, Cape.

Nuck-vuck-to-ark: stream, see Ambler River.

Nucksack Creek: stream, flows W to Kuzitrin River near its head, about 25 miles SW of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This stream cannot be precisely located on current maps.

Nucleet, Cape: point of land, see Denbigh, Cape.

Nucleet: locality, see Nukleet.

Nucleus Creek: stream, heads on Nucleus Mountain, in DeLong Mountains, flows NW and N 15 miles to Driftwood Creek, Brooks Range; 68° 43' 30" N, 160° 36' 00" W; BGN 1961; (map 131). Named in 1951 by USGS geologists for Nucleus Mountain

Nucleus Mountain: mountain, 4,250 ft., in DeLong Mountains, 7 miles W of Thunder Mountain, Brooks Range; 68° 33' 30" N, 160° 34' 00" W; BGN 1961; (map 131). Named in 1951 by USGS geologists because "it served as a landmark feature for field parties."

Nuclucayette: locality, see Nuklukayet.

Nuclue, Point: point of land, see Denbigh, Cape.

Nuclukayette: locality, see Nuklukayet.

Nude Creek: stream, flows NE to Burnt River which flows to Kugruk River, about 15 miles NE Of Imuruk Lake, Seward Peninsula Highlands; (map 110). Local name published on a precinct map of Seward Peninsula by Monroe and Hutchins; corrected to June 1903 by Arthur Gibson This stream cannot be precisely identified on current maps.

Nude Hill: hill, 304 ft., on eastern Little Kiska Island, Aleutian Islands; 51° 57' 10" N, 177° 42' 00" E (map 14). An arbitrary name beginning with "N" to correspond to "N" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map .

Nudrewok Lake: lake, see Selby, Lake.

Nue-le-ar-gu-wick: stream, see Nuleargowik River.

Nuekshat Island: island, 2 miles long, S of Anachlik Island, in Colville River Delta, Arctic Plain 70° 24' 30" N, 150° 26' 30" W; (map 149). Eskimo name meaning "winter fishing place," reported in 1951 by USC&GS.

Nuestra Senora de Dolores, Puerto: water passage. Lt. Don Jacinto Caamano gave this name July 23, 1792, to what appears to be the entrance to Kaigani Strait between Dall and Long Islands, Alexander Archipelago See Wagner (1937, p. 478).

Nuestra Senora de Regla, Ensenada de: bay, see Chatham, Port.

Nuestra Senora del Carmen, Entrada de: water passage, see Clarence Strait.

Nuestra Senora del Carmen: island, see Kayak Island.

Nugget Creek Glacier: glacier, branch of Norris Glacier, heads N of Nugget Mountain and trends W 2 miles to head of Nugget Creek, 8.5 miles N of Juneau, Coast Mountains; 58° 25'

45° N, 134° 25' 15" W; BGN 1930; (map 11). Variant: Nugget Glacier. Name reported by Adolph Knopf (1912a, pls. 1, 2, and 5), USGS.

Nugget Creek: ravine, see Nugget Gulch.

Nugget Creek: stream, flows 5.5 miles NW from Poss Mountain to Middle Fork Koyukuk River, 37 miles W of Chandalar, Brooks Range; 67° 29' 30" N, 149° 53' 00" W; (map 123). Prospectors' name obtained in 1901 by Schrader (1904, pl. 3), USGS.

Nugget Creek: stream, flows E 1 mile to Hastings Creek about 9 miles E of Nome, Seward Peninsula Highlands; 64° 28' N, 165° 06' W; (map 94). Variant: Taylor Creek. Prospectors' name shown as "Nugget or Taylor Cr." on the 1904 "Map of Cape Nome Precinct" by Arthur Gibson. This feature cannot be precisely identified on current maps.

Nugget Creek: stream, flows NE 1.7 miles to Seventymile River, 35 miles NW of Eagle, Yukon-Tanana Highlands; 64° 58' 55" N, 142° 15' 20" W; (map 102). Prospectors' name shown on a 1902 manuscript map by E. J. Chamberlain, U.S. Deputy Surveyor.

Nugget Creek: stream, flows NE 2 miles to American Creek which flows to Niukluk River, 26 miles NW of Solomon, Seward Peninsula, Highlands; 64° 54' N, 164° 33' W; (map 95). Prospectors' name reported on a 1901 map of Cape Nome gold fields by David Fox, Jr.

Nugget Creek: stream, flows NE 3 miles to Washington Creek, 17 miles SE of junction of Charley and Yukon Rivers, Yukon-Tanana Highlands; 65° 12' N, 142° 18' W; (map 103). Variant: Nuggett Gulch. Prospectors' name recorded by D. C. Witherspoon, USGS, in 1904-05 and published by Prindle (1906), USGS. Brooks (1907, p. 201), USGS, referred to the feature as Nugget Gulch.

Nugget Creek: stream, flows NW 0.8 miles to Solomon River near its head, 0.6 miles SW of Conway Creek and 15 miles NE of Solomon, Seward Peninsula Highlands; 64° 46' 30" N, 164° 17' 30" W; (map 95). Prospectors' name reported in 1907 by USGS geologists (Smith, P. S., 1910, pl. 4).

Nugget Creek: stream, flows NW 1.9 miles to Coarse Gold Creek which flows to Kougarok River, 17 miles SW of Midnight Mountain and 47 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 34' N, 164° 49' W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Nugget Creek: stream, flows NW 3 miles to Goldstream Creek, 14 miles NW of Fairbanks, Yukon Tanana Highlands; 64° 55' 00" N, 148° 07' 50" W; (map 100). Named by prospectors; shown in 1905 on a manuscript map by C. W. Joint.

Nugget Creek: stream, flows S 1 mile to Eureka Creek, 2.4 miles E of Eureka Dome and 19 miles S of Rampart, Yukon-Tanana Highlands; 65° 13' 09" N, 150° 09' 10" W; BGN 1965; (map 106). Prospectors' name reported in 1963 by Bond Taber, USGS.

Nugget Creek: stream, flows SE 2.5 miles to Quail Creek, 15 miles SE of Rampart, Yukon-Tanana Highlands; 65° 21' 30" N, 149° 47' 00" W; (map 105). Variant: Little Eldorado Creek. Name originally reported in 1904 as "Little Eldorado Creek" by L. M. Prindle and F. L. Hess

(in Brooks and others, 1905, fig. 6) USGS. Subsequently, local usage has changed the name to “Nugget.”

Nugget Creek: stream, flows SE 3 miles to Smallwood Creek, 13 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 57' N, 147° 21' W; (map 100). Named by prospectors; reported in 1903 by T. G. Gerdine as flowing to the Little Chena River (in Prindle, 1905, pl. 16), USGS.

Nugget Creek: stream, flows SW 3 miles to Fox Creek which flows to Arctic River, 9 miles SE of Ear Mountain and 43 miles NE of Teller, Seward Peninsula Highlands; 65° 51' N, 165° 59' W; (map 111). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Nugget Creek: stream, flows SW 4.4 miles to Grand Central River, 29 miles NE of Nome, Seward Peninsula Highlands; 64° 54' N, 165° 08' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Nugget Creek: stream, flows SW 6 miles to Tuluksak River, 4.6 miles N of Nyac and 37 miles SW of Aniak, Kilbuck-Kuskokwim Mountains; 61° 04' 30" N, 159° 57' 00" W; (map 73) Prospectors' name reported by A. G. Maddren, USGS, in 1914.

Nugget Creek: stream, flows W 3 miles to South Fork Chena River 5.5 miles S of that stream's junction with Chena River and 34 miles E of Fairbanks, Yukon-Tanana Highlands; 64° 50' 30" N, 146° 31' 00" W; (map 101). Local name reported in 1950 by USGS.

Nugget Creek: stream, heading in Nugget Creek Glacier and flowing generally W 5.5 miles to end of Mendenhall Glacier, 9 miles NW of Juneau, Coast Mountains; 58° 25' 30" N, 134° 32' 00" W; (map 11). Variant: Goat Creek. Name first appeared in the records of Sam E. Butts who located the “Lucky Sam” placer claim along the creek in 1900 (DeArmond, 1957, p. 33). The name was reported in 1903 by A. C. Spencer and C. W. Wright, USGS.

Nugget Creek: stream, heads at glacier terminus, flows SE 5 miles to Kuskulana River, 18 miles SW of Mount Blackburn, Wrangell Mountains; 61° 37' N, 143° 43' W; (map 67). So named in 1901 by T. G. Gerdine, USGS, because he found a large block of native copper near it.

Nugget Creek: stream, heads in a glacier, 2.7 miles SE of Porcupine Peak, flows 2.3 miles SE to Tsirku River, 1.8 miles E of terminus of Le Blondeau Glacier, and 31 miles SW of Skagway, St. Elias Mountains; 59° 17' 15" N, 136° 10' 25" W; (map 45). Prospectors' named reported by Wright (1904, p. 63), USGS.

Nugget Creek: stream, heads in Dutch Hills, flows SE 6 miles to Cache Creek, 29 miles NW of Talkeetna, Alaska Range; 62° 30' 38" N, 150° 55' 00" W; (map 81). Prospectors' name reported in 1906 by R. W. Porter, USGS.

Nugget Creek: stream, see Blind Creek.

Nugget Glacier: glacier, see Nugget Creek Glacier.

Nugget Gulch: ravine, trends NE about 0.5 miles to Gold Creek, at Silverbow Basin, 2.7 miles E of Juneau, Coast Mountains; 58° 18' 45" N, 134° 20' 45" W; (map 11). Probably a local mining name; published in 1906 by USGS (Spencer, A. C., pl. 17).

Nugget Gulch: ravine, trends NW 2.2 miles to Oregon Creek, 14 miles NW of Nome, Seward Peninsula Highlands; 64° 41' N, 165° 40' W; (map 94). Variant: Nugget Creek. Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Nugget Gulch: ravine, trends S 4 miles to Fortymile River, 37 miles S of Eagle, Yukon-Tanana Highlands; 64° 15' 30" N, 141° 12' 15" W; (map 102). Named by prospectors and reported in 1896 by Spurr (1898, pl. 46), USGS.

Nugget Gulch: ravine, trends SE 1.8 miles to Teddys Fork, 10 miles SW of Eagle, Yukon-Tanana Highlands; 64° 40' 15" N, 141° 23' 30" W; (map 102). Prospectors' name obtained in 1898 by E. C. Barnard, USGS.

Nugget Gulch: ravine, trends SW 0.8 miles to Bottom Dollar Creek, 2.4 miles S of Ketchem Dome and 35 miles SW of Circle, Yukon-Tanana Highlands; 65° 25' 40" N, 144° 49' 30" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Nugget Gulch: ravine, trends SW 0.9 miles to New Eldorado Creek, 14 miles NE of Nome, Seward Peninsula Highlands; 64° 40' 20" N, 165° 09' 40" W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Nugget Hill: hill, 320 ft., on NW tip of Little Kiska Island, Aleutian Islands; 51° 58' 23" N, 177° 38' 24" E; (map 14). An arbitrary name beginning with "N" to correspond to "N" grid used by the U.S. Army for tactical purposes during World War II; published on a 1953 AMS map .

Nugget Mountain: mountain, 5,587 ft., S of head of Nugget Glacier, 5.4 miles E of Bullard Mountain and 9 miles NE of Juneau, Coast Mountains; 58° 25' 40" N, 134° 21' 15" W; (map 11). Local name published in 1962 by USGS.

Nugget Towers: ridge, with series of peaks, extending 2 miles NE from Bullard Mountain, 10 miles N of Juneau, Coast Mountains; 58° 27' N, 134° 28' W; (map 11). Local name reported in 1965 by D. A. Brew and A. B. Ford, USGS.

Nuggett Gulch: stream, see Nugget Creek.

Nuggyklik, Reka: stream, see Andraefsky River.

Nugnugaluktuk River: stream, on Seward Peninsula, flows E 26 miles to Goodhope Bay, 37 miles NW of Deering, Kotzebue-Kobuk Lowland; 66° 12' N, 164° 06' W; (map 113). Eskimo name obtained in 1903 by D. C. Witherspoon, USGS.

Nuhinik Creek: stream, heads in lake, flows NE 9.5 miles to Easter Creek 11 miles SE of its junction with Killik River, Brooks Range; 68° 03' N, 153° 50' W; (map 133). Eskimo name reported in 1956 by Orth.

Nuhkahllanny: mountain, see Gold Mountain.

Nuhluk River: stream, see Nahtuk River.

Nuigalak Lake: lake, 5.5 miles across, between Kashunuk and Manokinak Rivers, 27 miles NE of Hazen Bay, Yukon-Kuskokwim Delta; 61° 32' N, 164° 38' W; (map 74). Variant: Nuigaluk Lake. Eskimo name reported by USC&GS as “Nu-ig-ga-luk” in 1951.

Nuigaluk Lake: lake, see Nuigalak Lake.

Nuka Bay: estuary, 10 miles wide, on E coast of Kenai Peninsula, 40 miles E of Seldovia, Chugach Mountains; 59° 19' N, 150° 33' W; (map 50). Variant: Guba Nuka, Zaliv Nuka. Eskimo name published by Lt. Sarichev (1826, map 5) as “Guba Nuka,” or “Nuke Bay”; derived from “nukaq” which refers to a “young bull caribou.”

Nuka Island Pass: water passage, see Nuka Passage.

Nuka Island Passage: stream, see Nuka River.

Nuka Island Passage: water passage, see Nuka Passage.

Nuka Island: island, 9 miles long, 1 mile off SE coast of Kenai Peninsula, 36 miles ESE of Seldovia, Chugach Mountains; 59° 22' N, 150° 40' W; BGN 1908; (map 50). Named in 1908 by USC&GS. See Nuka Bay.

Nuka Passage: water passage, 12 miles long, between Kenai Peninsula and Nuka Island, 35 miles ESE of Seldovia, Chugach Mountains; 59° 24' N, 150° 44' W; BGN 1931; (map 50). Variant: Nuka Island Pass, Nuka Island Passage. Name reported in 1909 by U. S. Grant and D. F. Higgins (in Brooks and others, 1910, pl. 3), USGS. See Nuka Bay.

Nuka Point: point of land, at S tip of Nuka Island, 37 miles SE of Seldovia, Chugach Mountains; 59° 17' 30" N, 150° 43' 00" W; BGN 1929; (map 50). Variant: South Point. Named in 1928 by USC&GS. See Nuka Bay.

Nuka Ridge: ridge, extends NW-SE 5 miles, on N slope of DeLong Mountains, 52 miles NE of Misheguk Mountain, Brooks Range; 68° 38' N, 159° 18' W; BGN 1960; (map 131). Named in 1952 by E. G. Sable, USGS, “for location in Nuka [River] drainage system.”

Nuka River: stream, heads in DeLong Mountains on Thunder Mountain and flows NE 50 miles to Colville River, 17 miles NW of Liberator Lake, Arctic Slope; 69° 01' N, 158° 54' W; BGN 1961; (map 132). Variant: Putkuruk Creek, Tripod Creek. Name shown on a 1925 fieldsheet by Gerald FitzGerald, USGS.

Nuka River: stream, on Kenai Peninsula, flows S 11 miles to Beauty Bay, at NW end of West Arm Nuka Bay, 32 miles ESE of Homer, Chugach Mountains; 59° 33' N, 150° 38' W; BGN 1929; (map 50). Variant: Nuka Island Passage. Named in 1929 by USC&GS. See Nuka Bay.

Nuka Rock: rock, in Gulf of Alaska, 0.5 miles S of Nuka Island and 37 miles SE of Seldovia, Chugach Mountains; 59° 17' N, 150° 43' W; BGN 1931; (map 50). Variant: South Rock. Named in 1931 by USC&GS for Nuka Point. See Nuka Bay.

Nuka, Guba: estuary, see Nuka Bay.

Nuka, Zaliv: estuary, see Nuka Bay.

Nukakalkak: point of land, see Kekurnoi, Cape.

Nukatpiat Mountain: mountain, 3,650 ft., S of Nigu River, 27 miles SE of Howard Pass, Brooks Range; 68° 02' N, 155° 56' W; (map 133). Eskimo name reported in 1956 by Orth.

Nukdik Point: point of land, on Chilkoot Inlet, 0.5 miles NE of Haines and 16 miles SW of Skagway, Coast Mountains; 59° 14' 40" N, 135° 25' 30" W; (map 45). Tlingit Indian name meaning "young grouse," published in 1923 on IBC Sheet 9 (1951 atlas).

Nukhl-iuag-miut: locality, see Nukluak.

Nukhluagmiut: locality, see Nukluak.

Nukhshak, Mys: point of land, see Nukshak, Cape.

Nuklakyet: locality, see Nuklukayet.

Nuklauket Pass: pass, 900 ft., 5 miles E of junction of Klatakhna Creek and Melozitna River, 41 miles NW of Tanana, Kokrines-Hodzana Highlands; 65° 41' 30" N, 152° 46' 00" W; (map 106). Indian name obtained in 1956 at Tanana by Orth. It refers in some way to the old Indian trading area "Nuklukayet" located at the junction of the Tanana and Yukon Rivers.

Nukleet: locality, on Cape Denbigh, at E end of Norton Sound, 12 miles NW of Shaktoolik, Nulato Hills; 64° 24' N, 161° 30' W; (map 96). Variant: Noocleet, Noklich, Nucleet, Nuklit. Eskimo name recorded in 1849 by Capt. M. D. Tebenkov, IRN. According to Baker (1906, p. 214), this is the Eskimo name for Cape Denbigh.

Nuklit, Cape: point of land, see Denbigh, Cape.

Nuklit: locality, see Nukleet.

Nukliuatmiut: locality, see Nukluak.

Nukluag-miout: locality, see Nukluak.

Nuklugaluk Creek: stream, flows NW 8 miles to Nukluk Creek, 48 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 41' N, 160° 54' W; (map 53). Eskimo name published in 1951 by USGS.

Nukluk Creek: stream, flows NW 16 miles to Kanektok River, 48 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 43' N, 160° 58' W (map 53). Variant: Nuchluk River. Eskimo name reported as "Nuchluk River" on an 1898 fieldsheet by W. S. Post, USGS published as "Nukluk Creek" (Spurr, 1900 map 10).

Nukluk Creek: stream, flows NW 16 miles to Kisaralik River, 45 miles SE of Bethel, Yukon-Kuskokwim Delta; 60° 44' N, 160° 23' W (map 59). Eskimo name reported in 1955 by J. M. Hoare, USGS.

Nukluk Mountain: mountain, 1,342 ft., 6 miles N of Spein Mountain, 44 miles SE of Bethel Kilbuck-Kuskokwim Mountains; 60° 41' 45" N, 160° 26' 00" W; (map 59). Eskimo name reported in 1955 by J. M. Hoare.

Nuklukahyet: locality, see Nuklukayet.

Nuklukaiet: locality, see Nuklukayet.

Nuklukayet: locality, at junction of Tanana and Yukon Rivers; 65° 10' N, 152° 00' W; (map 106). Variant: Nuchalawoia, Nu-cha-la-woy-ya, Nuclucayette, Nuclukayette, Nu-klac-i-yat, Nuklakyet, Nuklukahyet, Nuklukoyet, Nuklukyeto, Nukluyet, Nuklukaiet, Tukluyet. Former Indian trading camp and settlement located on the right bank of the Yukon River near the junction of the Tanana River, usually between the Tozitna River and Mission Hill; reported by Dall (1870, p. 57) as "Nuklukahyet." With the establishment of a trading station, about 1869, the area became a more permanent settlement. See Tanana. The name "Nuklukayet," and its variant spellings appear to be derived from the pronunciation (and possible spelling) of the Indian name as interpreted by Arthur Harper who named his trading post "Nukluyet." However, Archdeacon Stuck (1917, p. 140) reports that the Indians said, "there was never Such a name" and it is more correctly given as "Nu-cha-la-woy-ya [Nuchalawoia]," meaning "between the rivers." In the 1880 Census Petroff (1884, p. 12) listed "Nuklukaiet," population 27; 120 in 1890.

Nuklukoyet: locality, see Nuklukayet.

Nukluyet: locality, see Nuklukayet.

Nuklukyeto: locality, see Nuklukayet.

Nuklunek Mountain: mountain, 3,679 ft., 12 miles SE of Eek Mountains and 75 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 48' N, 160° 08' W; (map 53). Variant: Nuchklunek Mountain. Eskimo name reported in 1898 by J. E. Spurr and W. S. Post, USGS.

Nukmiute: village, see Teller.

Nukshak Island: island, 0.5 miles long, in Shelikof Strait, E of Cape Nukshak, on E coast of Alaska Peninsula, in Katmai National Monument, 38 miles NE of Mount Katmai, Aleutian Range; 58° 23' 25" N, 153° 57' 15" W; (map 43). Local name reported in 1951 by USGS: probably named after Cape Nukshak.

Nukshak, Cape: point of land, S point of entrance to Hallo Bay, on S coast of Alaska Peninsula, in Katmai National Monument, 38 miles NE of Mount Katmai, Aleutian Range; 58° 23' 30" N, 153° 58' 45" W; (map 43). Variant: Cap Nough-chack, Cape Nuchtschak, Mys Nukshak. Eskimo name reported as "C[ap] Noughchack" by von Krusenstern (1827, map 17) and published in 1847 as "M[y]s Nukshak" on Russian Hydrog. Dept. Chart 1378.

Nulagito: village, see Nulato.

Nulagvik Lagoon: lagoon, on shore of Chukchi Sea, 17 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 54' N, 164° 59' W; (map 128). Variant: Noolagvim Tessaya, Nulagwim Tasia. Eskimo name meaning "camping place" reported in 1966 by E. S. Burch.

Nulagwim Tasia: lagoon, see Nulagvik Lagoon

Nulahtuk: locality, see Nulatok.

Nulakhtolagamute: locality, see Nuloktolok

Nularvik River: stream, heads in Sadlerochit Mountains, flows NW 18 miles to Katakaturuk River 17 miles SW of its mouth in Camden Bay, 3 miles SE of Flaxman Island, Arctic Plain; 69° 46' N, 145° 19' W; (map 139). Eskimo name reported in 1956 by Orth to mean "place where a tent stood."

Nulato Hills: mountains, in group, 300 miles long and 80 miles wide, bounded on S and E by Yukon River, on N by lowlands of Selawik River and Selawik Lake, and on W by Norton Bay and Norton Sound; 66° 15' N, 159° 00' W [N end], 62° 00' N, 163° 00' W [S end]. General term derived from the village and river of the same name.

Nulato Island: island, in Yukon River, 1 mile SE of Nulato, Koyukuk Lowland; 64° 43' N, 158° 05' W; (map 97). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by U.S. Dept. of Interior.

Nulato River: stream, flows NE 71 miles to Yukon River, 1 mile SW of Nulato, Nulato Hills; 64° 42' N, 158° 08' W; (map 97). Koyukan Indian name reported in 1842-44 as "R[eka] Nulata" by Lt. L. A. Zagoskin, IRN.

Nulato: village, pop. 283, on right bank of Yukon River' 25 miles W of Galena, Nulato Hills; 64° 43' N, 158° 06' W; (map 97). Variant: Nulagito, Odinotchka. Nulato, named for the nearby stream, was founded in 1838 by the "Russian Creole" Malakhov (or Nalakov) when he built a small trading post, without a stockade, consisting of a few small buildings. When he temporarily left for a few months, the Indians burned it. In 1839 the same thing happened. In 1841 Vasili Derzhavin (Derabin) was sent by the Russian American Company to the post. Again, in 1842, it was built and consisted of several detached log houses without a stockade. In the spring of 1851 the post was surprised by Koyukan Indians and most of its inhabitants killed, including Derzhavin and an English naval officer from the H.M.S. Enterprise, Lt. Barnard, who was sent inland in search for information about Sir John Franklin and his party. A new fort surrounded by a stockade was built 2 or 3 years later at the village's present location 2 miles up the Yukon (Bancroft, 1886, 572-574). Nulato's population was 168 in 1880; 118 in 1890; 230 in 1910; 258 in 1920; 204 in 1930; 113 in 1940; and 176 in 1950. A post office was established in 1897.

Nulatok: locality, on right bank of Naylorun River, 5 miles N of its junction with Togiak River and 56 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 26' N, 160° 08' W; (map 53). Variant: Nulahtuk. Former Eskimo village, population 211, reported by Ivan Petroff in the 10th Census in 1880.

Nulavik: locality, on Chukchi Sea coast, 21 miles SW of Barrow, Artic Plain; 71° 01' 35" N, 157° 17' 40" W; (map 153). Variant: Siinaat Kivalik. Eskimo name recorded by USC&GS about 1950, meaning "camping place."

Nuleargowik River: stream, flows SW 9 miles to a lake, 11 miles NE of Selawik, Kotzebue-Kobuk Lowland; 66° 41' N, 159° 39' W; (map 114). Variant: Nue-le-ar-gu-wick, Nu-le-ar-gowik, Nuteargowik. Eskimo name obtained in 1886 by Lt. Stoney (1900, p. 101), USN, who wrote "The eleventh moon, Nue-le-ar-gu-wick, because the deer cohabit (nuele, wife, arguwick, deer)."

Nulhutno Creek: stream, see Tazimina River.

Nulhutno Lake: lake, see Lower Tazimina Lake.

Nulhutno River: stream, see Tazimina River.

Nulitna River: stream, flows NE 28 miles to Huslia River, 20 miles NW of Roundabout Mountain, Koyukuk Lowland; 65° 49' N, 156° 42' W; (map 108). Koyukan Indian name obtained at Huslia in 1955 by USGS.

Nuloktolgamute: locality, see Nuloktolok.

Nuloktolok: locality, on S part of Nelson Island, between Baird Inlet and Bering Sea, Yukon-Kuskokwim Delta; 60° 30' N, 164° 45' W; (map 58). Variant: Nulakhtolagamute, Nuloktolgamute, Nulukhtulogumut. Former Eskimo village or camp visited in 1878 by E. W. Nelson, U.S. Signal Service, and recorded as "Nulukhtulogumut." In the 1880 Census Ivan Petroff lists "Nulakhtolagamute," population 25.

Nuluak: locality, on S bank of Yukon River, S of Hills Island, Yukon-Kuskokwim Delta; 61° 53' N, 162° 56' W; (map 74). Variant: Nuchljuagmjut, Nukhl-iuag-miut, Nukhluagmiut, Nukliuatmiut, Nuklag-miout. Former Eskimo village or camp reported in 1844 by Lt. L. A. Zagoskin (map , 1850), IRN.

Nuluk River: stream, on Seward Peninsula, heads at junction of its North and South Forks, flows NW 32 miles to Arctic Lagoon, on Chukchi Sea, 48 miles NW of Teller, Kotzebue-Kobuk Lowland; 65° 56' N, 166° 52' W; (map 111). Variant: Nooluk River. Eskimo name reported in 1901 as "Nooluk" by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Nuluk River: stream, see Nahtuk River.

Nulukhtulogumut: locality, see Nuloktolok.

Nulvororok Channel: stream, distributary of Kobuk River, heads at Melvin Channel, Kobuk River, flows NW 5 miles to Nulvororok Lake, 48 miles NW of Selawik, Kotzebue-Kobuk Lowland; 66° 52' N, 161° 38' W; (map 114). Eskimo name obtained in 1955 by U.S. Army Corps of Engineers.

Nulvororok Lake: lake, 4 miles long, 49 miles NW of Selawik, Kotzebue-Kobuk Lowland; 66° 53' N, 161° 39' W; (map 114). Eskimo name obtained in 1955 by U.S. Army Corps of Engineers.

Number Four, Creek: stream, flows W 0.5 miles to Red Bay, on N coast of Prince of Wales Island, Alexander Archipelago; 56° 16' 45" N, 133° 17' 50" W; (map 6). Variant: Number Four Creek. Local descriptive name reported in 1949 by USGS.

Number Nineteen, Island: barrier island, see Karluk Island.

Number One Creek: stream, flows S 2.2 miles to Spruce Creek, 6.8 miles SE of Marshall, Nulato Hills; 61° 47' 20" N, 161° 59' 30" W; (map 73). Prospectors' name reported by Harrington (1918, map), USGS, in 1916; so called because the creek was considered the first stream tributary to Spruce Creek.

Number One, Creek: stream, flows W 0.5 miles to Red Bay, on N coast of Prince of Wales Island, Alexander Archipelago; 56° 17' 10" N, 133° 18' 20" W; (map 6). Variant: Number One Creek. Local descriptive name reported in 1949 by USGS.

Number One, Lake: lake, 1.6 miles long, at terminus of Anderson Glacier, 18 miles W of Valdez, Chugach Mountains; 61° 07' 45" N, 146° 48' 20" W; (map 68). Local name published in the 1950's by USGS.

Number Six Hill: ridge, see Chicken Ridge.

Number Three Bay: bight, 3 miles across, on NW coast of Kenai Peninsula, 18 miles NNE of Kenai, Cook Inlet Lowland; 60° 47' 30" N, 151° 03' 30" W; BGN 1916; (map 62). Local name reported in 1916 by USC&GS.

Number Three, Creek: stream, flows W 0.5 miles to Red Bay, on N coast of Prince of Wales Island, Alexander Archipelago; 56° 16' 55" N, 133° 17' 55" W; (map 6). Variant: Number Three Creek. Local descriptive name reported in 1949 by USGS.

Number Three, Lake: lake, 0.4 miles long, on Prince of Wales Island, near head of Kasaan Bay, 0.8 miles NW of village of Salt Chuck, Alexander Archipelago; 55° 38' 15" N, 132° 34' 40" W; (map 4). Name recorded in 1907-1908; and published in 1911 on a USGS map .

Number Two, Bluff: bluff, at junction of Alder Creek and Chatanika River, 25 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 10' N, 147° 16' W; (map 105). Local name published by USGS in the 1950's.

Number Two, Creek: stream, flows W 0.5 miles to Red Bay, on N coast of Prince of Wales Island, Alexander Archipelago; 56° 17' N, 133° 18' W; (map 6). Variant: Number Two Creek. Local descriptive name reported in 1950 by USGS.

Number Two, Lake: lake, see Ellen, Lake.

Numuk: locality, see Nuwuk.

Numuk: point of land, see Barrow Point.

Nun Mountain: mountain, 4,329 ft., 4.8 miles W of Lynn Sisters in Lynn Canal and 33 miles NW of Juneau, St. Elias Mountains; 58° 30' 15" N, 135° 15' 15" W; (map 11). Variant: Dome Peak. Name published in 1924 by USC&GS on Chart 8302. So named because of the fancied resemblance to a nun. The 1883 Coast Pilot (p. 182) shows a mountain called Dome Peak, named in 1869 by Comdr. R. W. Meade, USN, in the position of Nun Mountain

Nuna Creek: stream, flows SW 19 miles to Akillik River, 43 miles NW of Shungnak, Brooks Range; 67° 17' N, 158° 22' W; (map 126). Eskimo name meaning "land" reported by Orth in 1956.

Nuna Slough: stream, anabranch, flows SE 8 miles to Huslia River, 15 miles NW of Roundabout Mountain Koyukuk Lowland; 65° 45' N, 156° 36' W; (map 108). Local name reported in 1955 by USGS.

Nuna-runga: locality, see Nunatunga.

Nuna: locality, on Point Hope, Arctic Slope; 68° 21' N, 166° 47'; (map 129). Variant: Noona, Noona-agamute. Former Eskimo village or camp recorded as "Noo-na," by W. H. Dall (1877, p. 11), USC&GS. Petroff (1884, p. 4) lists "Noonaagamute," population 74, in the 1880 Census. Nuna means "land, earth."

Nunabiklu Slough: watercourse, 1.2 miles long, in Yukon Delta, E of Nunachik Pass at Hamilton and 21 miles NE of Kwiguk, Yukon-Kuskokwim Delta; 62° 53' 45" N, 163° 53' 15" W; (map 77). Eskimo name obtained in 1948 by USC&GS.

Nunachanaghamiut: locality, see Nunochok.

Nunachara gamut: locality, see Nunochok.

Nunachik Pass: watercourse, in Yukon Delta, extends NE-SW 6.3 miles between Apoon and Little Apoon Passes, 21 miles NE of Kwiguk, Yukon-Kuskokwim Delta; 62° 53' 45" N, 163° 53' 20" W; (map 77). Eskimo name obtained in 1899 by R. L. Faris, USC&GS.

Nunachogumut: locality, see Nunochok.

Nunachok: locality, see Nunachuk.

Nunachuak Creek: stream, flows NW 25 miles to Nushagak River at Nunachuak, 64 miles NE of Dillingham, Bristol Bay Lowland; 59° 38' N, 157° 04' W; BGN 1931; (map 52). Eskimo name reported in 1931 by USGS.

Nunachuak: village, pop. 50 (1940), on left bank of Nushagak River below its junction with Nunachuak Creek, 64 miles NE of Dillingham, Bristol Bay Lowland; 59° 38' N, 157° 04' W; BGN 1931; (map 52). Variant: Kakuak. Eskimo village reported in the 1930 Census.

Nunachuk: locality, 2 miles E of Kyigayalik Lake and 30 miles NW of Bethel, Yukon-Kuskokwim Delta; 60° 59' N, 162° 29' W; (map 58). Variant: Nunachok. Listed with a population of 44 in the 1950 Census.

Nunaghak Rock: rock, see Noonaghak.

Nunaikagamute: locality, see Nunaikak.

Nunaikagumute: locality, see Nunaikak.

Nunaikak: locality, on W bank of Yukon River, at or near Holy Cross, Innoko Lowland; 62° 12' N, 159° 17' W; (map 78). Variant: Khaigamute, Nunaikagamute, Nunaikagumute, Ookagamute, Ukagamut, Ukak, Yukagamut, Yukagamute. Former Eskimo village or camp reported in 1869 as "Nunaikagumute" by Raymond (1871, p. 25), U.S. Engineers. Baker (1906, p. 474) wrote, "May be identical with Khaigamute, or perhaps Ookagamute of Petroff, 1880." Hodge (1910, p. 97) wrote, "* Perhaps identical with Ukak."

Nunaka Valley: suburb, pop. 1,442, E of Anchorage, Cook Inlet Lowland; 61° 12' 24" N, 149° 46' 05" W; (map 69). Local name reported in 1954 by the city engineer of Anchorage.

Nunakhtagamute: locality, see Nunaktak.

Nunakogok River: stream, flows N 20 miles to Kogok River, 21 miles SW of St. Michael, Yukon-Kuskokwim Delta; 63° 11' 30" N, 162° 17' 30" W; (map 92). Variant: Kogok River. Eskimo name obtained in 1952 by USC&GS.

Nunakolak: locality, on Nelson Island, just N of Kangirivar Bay, 11 miles E of Cape Vancouver, Yukon-Kuskokwim Delta; 60° 32' N, 165° 06' W; (map 57). This place was once an Eskimo summer camp and is no longer used since establishment of village of Toksook Bay; reported in 1949 by USC&GS.

Nunaktak: locality, on right bank of Yukon River about 30 miles above Anvik, Innoko Lowland; 63° 03' N, 159° 21' W; (map 91). Variant: Nunakhtagamute. Former Eskimo village or camp reported in 1878-79 as "Nunakhtagamute," by E. W. Nelson, U.S. Signal Service.

Nunaktuau: locality, see Napawrax.

Nunaktuk Island: island, at mouth of Kwipak Pass, in Yukon Delta on Norton Sound, 2.8 miles long, 27 miles N of Kwiguk, Yukon-Kuskokwim Delta; 63° 05' N, 164° 37' W; (map 92). Eskimo name recorded in 1952 by USGS.

Nunalik: locality, on W coast of Afognak Island, at Cape Nuniliak, Kodiak Island; 58° 09' 45" N, 153° 13' 00" W; (map 43). Variant: Litnik, Malinovskie lietnik, Malinovski, Malinovskiy Lytnik, Nuniliak, Nunilyak. Former Eskimo summer camp published by Capt. Tebenkov (1852, map 23), IRN, as "S[eleniye] Nunalik," or "Nunalik Village;" reported in 1839 or 1840 by Sub-Lt. Mikhail Murashev, IRN, as "Malinovskiy Lytnik" or "Raspberry summer village," and published as such by the Russian American Company in 1849.

Nunalik: point of land, see Nuniliak, Cape.

Nunalyugak, Ostrov: island, see Crooked Island.

Nunamekrot: point of land, see Sheldon Point.

Nunamiut: locality, on W shore of Three Saints Bay, on SE coast of Kodiak Island; 57° 07' 20" N, 153° 30' 30" W; (map 34). Variant: Nunjagmut, Nunochoyamute, Old Harbor, Starri-gavan, Staruigavan, Three Saints Harbor, Ziatitz. Former Eskimo village name meaning "land people," published as "Nunochoyamute," population 160, in the 10th Census (1884, p. 11). Early Russian sources included this village in their descriptions of the settlement 1.5 miles to the southeast established by Shelikov in 1784. See Three Saints Harbor, locality.

Nunamiut: locality, see Three Saints Harbor.

Nunamiut: village, see Old Harbor.

Nunapitchuk: village, on right bank of Johnson River, 26 miles NW of Bethel, Yukon-Kuskokwim Delta; 60° 53' N, 162° 29' W, BGN 1937; (map 58). Eskimo village listed with a population of 121 in 1939 and 125 in 1950. This village has two groups of buildings sometimes referred to as Nunapitchuk No. 1 and Nunapitchuk No. 2.

Nunapitsinchak: locality, on right bank of Kwethluk River, 13 miles E of Bethel, Yukon-Kuskokwim Delta; 60° 47' 45" N, 161° 22' 30" W; (map 59). Eskimo settlement, of about 10 buildings, reported in 1951 by USC&GS.

Nunaria: locality, near Point Belcher, 13 miles NE of Wainwright, Arctic Plain; (map 146). Eskimo village abandoned when Sidaru was established; reported on British Admiralty chart 593 (1827-54). It was already deserted in 1883.

Nunaria: locality, see Nunatunga.

Nunaria: locality, see Sidaru.

Nunatak Cove: cove, 0.5 miles long, on E shore of Muir Inlet, Glacier Bay National Monument, 1 mile N of Sealers Island, and 65 miles NW of Hoonah, St. Elias Mountains; 58° 58' 40" N, 136° 06' 45" W; (map 10). Variant: Ankorage Cove. Name derived from "The Nunatak" mountain; published by USGS (Twenhofel and others, 1946, pl. 2). The name "Ankorage Cove" was given by members of the Glacier Bay Expedition of 1941 (Field, 1947, map), because since 1931 the cove has offered the best anchorage in the area.

Nunatak Fiord: estuary, heads at East Nunatak Glacier, extends NW 13 miles to Russell Fiord, 15 miles E of Yakutat Bay, St. Elias Mountains; 59° 51' N, 139° 16' W; (map 46). Variant: North East Arm. Named in 1899 by Harriman Alaska Expedition (in Gilbert, 1904, p. 58). It was called "North East Arm" by Lt. Comdr. Moser (1901, pl. 43), USN.

Nunatak Knob: mountain, 4,100 ft., in Glacier Bay National Monument, 2.6 miles S of Red Mountain, and 5 miles N of the 1954 terminus of Casement Glacier, 40 miles SW of Skagway, St. Elias Mountains; 59° 10' N, 135° 55' W; (map 45). Local name obtained by USGS field personnel and published on Federal maps since 1950.

Nunatak Knob: mountain, see Nunatak, The.

Nunatak River: stream, see Noatak River.

Nunatak, The: mountain, 1,205 ft., 0.7 miles N of Nunatak Cove, on Muir Inlet, Glacier Bay National Monument, 65 miles NW of Hoonah, St. Elias Mountains; 58° 59' 15" N, 136° 10' 55" W (map 10). Variant: Nunatak Knob. Local name reported by USGS (Twenhofel and others, 1946, pl. 1). This mountain was a nunatak from 1911 to 1929. It was called "Nunatak Knob" by members of the Glacier Bay Expedition of 1941 (Field, 1947, map)

Nunatak, The: mountain, 1,516 ft., near S shore of Nunatak Fiord, 2.3 miles NE of Mount Draper and 31 miles NE of Yakutat, St. Elias Mountains; 59° 49' 45" N, 139° 02' 00" W; (map 46). Named in 1899 by the Harriman Alaska Expedition (in Gilbert, 1904, p. 60).

Nunathloogagamiut: locality, 3 miles NE of Ingriruk Hill, 8 miles NE of Cape Mendenhall, Nunivak Island; 59° 53' 30" N, 165° 58' 00" W; (map 55). Variant: Nunathlugagamiut. Eskimo camp reported in 1942 by the U.S. Army Air Force.

Nunathloogagamiutbingoi Dunes: sand dunes, extend NE 3 miles along SE coast of Nunivak Island, from a point 1 mile N of Cape Mendenhall; 59° 50' N, 166° 05' W; (map 55). Variant: Nunathlugagamiut Dunes. Eskimo name reported in 1937 by USAAF.

Nunathlugagamiut Dunes: sand dunes, see Nunathloogagamiutbingoi Dunes.

Nunathlugagamiut: locality, see Nunathloogagamiut.

Nunatok River: stream, see Noatak River.

Nunatuk Glacier: glacier, see East Nunatak Glacier and West Nunatak Glacier.

Nunatunga: locality, on E side of Colville River Delta, Arctic Plain; 70° 26' N, 150° 15' W; (map 149). Variant: Nunaria, Nuna-runga. Shown on Maguires map (Great Britain, 1854, facing p. 186) as "Nuna-runga," and probably refers to a camp site. John Simpson's map, of the same period, would indicate that it is a form of the name "Nunamiut" [inland Eskimo], for at "Nigalek" he notes: "Where Point Barrow natives meet the Nunu-tang-meun or Inland Esquimaux annually in July." See Nigalik.

Nunava-ak Lake: lake, see Nenevok Lake.

Nunava: estuary, see Nunavak Bay.

Nunavachak Lake: lake, 1.5 miles long, on N shore of Bristol Bay, 17 miles SE of Togiak, Kilbuck-Kuskokwim Mountains; 58° 53' 30" N, 160° 03' 00" W; (map 39). Variant: Nunavarchak Lake. Eskimo name meaning "small lake" obtained about 1948 by USGS from Frank Waskey, local trader and prospector; erroneously published as "Nunavarchak Lake."

Nunavak Anukslak: lake, see Kayigyalik Lake.

Nunavak Bay: estuary, with N and S arms extending 3 miles off Chukchi Sea, 3 miles S of Barrow, Arctic Plain; 71° 15' N, 156° 53' W; (map 153). Variant: Nunava. Eskimo name recorded by USC&GS about 1950 and means "big land." P. H. Ray (1885, p. 55) records the locality name "Nunava."

Nunavakanuk Lake: lake, 9 miles long and 7 miles wide, NW of Kuzilvak Mountains and 45 miles S of Kwiguk, Yukon-Kuskokwim Delta; 62° 04' N, 164° 40' W; (map 77). Eskimo name obtained in 1948 by USC&GS.

Nunavakanukakslak Lake: lake, 5 miles long, along Johnson River, 3 miles NE of Nunapitchuk and 22 miles NW of Bethel, Yukon-Kuskokwim Delta, 60° 57' N, 162° 21' W; (map 58). Eskimo name reported in 1949 by USC&GS.

Nunavakanuthluk: locality, on Johnson River, at N end of Nunavakanukakslak Lake, 25 miles NW of Bethel, Yukon-Kuskokwim Delta; 60° 59' N, 162° 21' W; (map 58). Variant: Nunvagalovluk. Eskimo camp or small settlement that may now be abandoned. Its exact location is in doubt and may apply to a place closer to 60° 56' N, 162° 35' W.

Nunavakpak Lake: lake, 11 miles long, 20 miles NW of Fowler Island and 25 miles W of Bethel, Yukon-Kuskokwim Delta; 60° 48' N, 162° 36' W; (map 58). Variant: Big Lake. Eskimo name reported in 1949 by USC&GS.

Nunavarchak Lake: lake, see Nunavachak Lake.

Nunavarok: lake, see Baird Inlet.

Nunavaroke: lake, see Baird Inlet.

Nunavaugaluk Lake: lake, extends SE 16 miles to Snake River, 18 miles NW of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 09' N, 158° 22' W BGN 1932; (map 52). Variant: Nan-y-vuk-hak Lake, Nan-y-vak-ha-luk Lake. Eskimo name recorded by H. C. Fassett USBF, on a 1910 manuscript map as "Nan-y-vuk-ha-luk"; named "Lake Nunavaugaluk" by Mertie (1938b, pl. 1), USGS.

Nunaviksak Creek: stream, in DeLong Mountains, flows SSE 16 miles to Kugururok River, 10 miles NW of Misheguk Mountain, Brooks Range; 68° 23' N, 161° 27' W; (map 131). Eskimo name reported in 1956 by USGS.

Nunavoknakchlugamiut: locality, see Nanvogaloklak.

Nunavulnuk River: stream, flows NW 30 miles to Big St. Michael Canal, 11 miles SW of St. Michael, Yukon-Kuskokwim Delta; 63° 23' N, 162° 19' W; (map 92). Variant: Nonvalnuk River. Descriptive Eskimo name obtained in 1952 by USC&GS meaning "river which widens to form a lake."

Nundalti Lake: lake, see Sixmile Lake.

Nundei Cove: bay, 0.5 miles long, in Tuxekan Passage on W coast of Prince of Wales Island, 22 miles N of Craig, Alexander Archipelago; 55° 47' 30" N, 133° 12' 45" W; (map 4). Indian name published in 1964 by USC&GS.

Nuneevack Island: island, see Nunivak Island.

Nunevack Island: island, see Nunivak Island.

Nunez Point: point of land, SE tip of Bean Island, off S. coast of Prince of Wales Island, near entrance to Nichols Bay, Alexander Archipelago; 54° 41' 05" N, 132° 05' 30" W; (map 1). Variant: Cape Murray, Point Nunez, Punta de Nunez. Spanish name given on July 23, 1792, by Don Jacinto Caamano. This point was called "Cape Murray" by some of the early traders.

Nungatak River: stream, probable anabranch of Kashunuk River, heads at 61° 48' N, 163° 55' W, flows SW 60 miles to Kashunuk River, N of Nuigalak Lake, Yukon-Kuskokwim Delta; 61° 34' N, 164° 44' W; (map 74). Variant: Sohy Bay Slough. Eskimo name reported in 1949 by USC&GS.

Nuniak: island, see Chernabura Island.

Nunik: island, see Chernabura Island.

Nuniliak, Cape: point of land, 20 miles NW of Afognak, on W coast of Afognak Island, N of Kodiak Island; 58° 09' 45" N, 153° 13' 00" W; (map 43). Variant: Cape Malinovskoi, Malinovskie lietnik, Nunalik. Eskimo name reported by Sub-Lt. Mikhail Murashev in 1839 or 1840 who also called it "Malinovskoy," i.e. "raspberry"; it was called "M[ys] Malinovskoy (Nunilyak)," or "cape raspberry (Nunilyak)," by the Russian American Company in 1849.

Nuniliak: locality, see Nunalik village.

Nunilyak: locality, see Nunalik village.

Nunivachak Island: island, 1 mile long, 2 miles NW of Kigigak Island, at mouth of Ninglick River, 110 miles W of Bethel, Yukon-Kuskokwim Delta; 60° 51' N, 165° 05' W; (map 57). Eskimo name obtained at Tanunak in 1951 by USC&GS.

Nunivak Bar: island, 2 miles across, in Kuskokwim River, 31 miles SW of McGrath, Kilbuck-Kuskokwim Mountains; 62° 31' N, 155° 52' W; (map 79). Eskimo name published in 1954 by USGS.

Nunivak Island: island, 60 miles across, in Bering Sea, separated from Yukon-Kuskokwim Delta by Etolin Strait; 60° 00' N, 166° 00' W; BGN 1895; (map 57). Variant: Nounivak Island, Nounivok Island, Nuneevack Island, Nunevack Island, Nuniwak Island, Otkritie. Discovered on July 21, 1821, by Capt. Lt. M. N. Vasiliev, IRN, and named after his ship Otkritie (Discovery). A. K. Etolin and Khromchenko of the Russian American Company found the island about the same time. Capt. F. P. Lutke stated that the native name "Nounivak" [sic] had been properly retained on charts and added, had this course been followed in other cases, much confusion and embarrassment would have been avoided.

Nunivak Slough: stream, anabranch of Tanana River, 2 miles long, 7 miles N of Nenana, Tanana Lowland; 64° 40' N, 149° 08' W; (map 100). Probably named for the U.S. Revenue steamer Nunivak that plied the Yukon from 1899 to 1901. The name is published on recent USGS maps.

Nuniwak Island: island, see Nunivak Island.

Nunjagmut: locality, see Nunamiut.

Nunnungynakok: locality, see Kanulik.

Nunochogamute: locality, see Nunamiut.

Nunochogamute: locality, see Nunochok.

Nunochogmute: locality, see Nunochok.

Nunochok: locality, in the Big Lake region, Yukon-Kuskokwim Delta; 60° 30' N, 163° 00" W; (map 74). Variant: Nunachanaghamiut, Nunachara gamut, Nunachogumut, Nunochogamute, Nunochogmute. Former Eskimo village or camp reported in 1879 as "Nunachogumut" by E. W. Nelson, U.S. Signal Service. In the 1880 Census Petroff (1884, p. 11) lists "Nunochogamute," population 40; 135 in 1890.

Nunovalnak Bay: bay, see Nunovulnuk Harbor.

Nunovulnuk Harbor: cove, 0.4 miles across, on Norton Sound, E of Black Point, 24 miles SW of Unalakleet, Nulato Hills; 63° 33' N, 161° 05' W; (map 91). Variant: Nunovalnak Bay. Eskimo name reported in 1950 by USC&GS.

Nunsatuk River: stream, heads in Black Mountains, flows NE 35 miles to Kuskokwim River' 50 miles SW of McGrath, Kilbuck-Kuskokwim Mountains; 62° 17' 45" N, 156° 12' 45" W; (map 79). Eskimo name reported in 1954 by USGS.

Nuntragut Slough: stream, tributary of Porcupine River, flows SW 34 miles to Yukon River 11 miles NW of Fort Yukon, Yukon Flats; 66° 36' 40" N, 145° 39' 00" W; (map 119). Kutchin Indian name obtained in 1956 by T. E. Taylor, USGS.

Nunulak River: stream, see Noatak River.

Nunuthlhamut: locality, on left bank of Wood River, 13 miles N of Dillingham, Bristol Bay Lowland; 59° 15' N, 158° 32' W; (map 52). Eskimo village or camp shown as "Nu-huthl-hamut" on a 1910 manuscript map by H. C. Fassett, USBF.

Nunvagalovluk: locality, see Nunavakanuthluk.

Nunvarok: lake, see Baird Inlet.

Nunvogulukhluguk: locality, in the Big Lake region, Yukon-Kuskokwim Delta; 60° 30' N, 163° 00' W; (map 74). Former Eskimo village or camp reported in 1879 to mean “big lake” by E. W. Nelson, U.S. Signal Service.

Nunvotchuk Lake: lake, 1.7 miles long, on W bank of Yukon River SW of Russian Mission, Yukon-Kuskokwim Delta; 61° 46' 40" N, 161° 20' 30" W; (map 73). Eskimo name reported by USC&GS in 1949.

Nunvuk Mountain: mountain, 1 mile SW of Aleknagik Lake and 30 miles NW of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 23' N, 158° 59' W; (map 52). Eskimo name shown as “Nun-vuk” on a 1910 manuscript map by H. C. Fassett, USBF.

Nuogmiut Spit: point of land, see Nuok Spit.

Nuok Spit: point of land, W point of entrance to Hooper Bay, Yukon-Kuskokwim Delta; 61° 30' N, 166° 03' W; (map 75). Variant: Nuogmiut Spit. Eskimo name derived from the name of a settlement once located on the spit; reported by USC&GS in 1951.

Nuravloakh Island: island, see Nooravloaksmiut Island.

Nurse Lagoon: lagoon, 1.5 miles long, near village of Cold Bay, at SW end of Alaska Peninsula Bristol Bay Lowland; 55° 11' 30" N, 162° 39' 00" W; (map 29). Name published in 1943 on a USGS map .

Nurukomarot Channel: channel, in offshore mudflats of Yukon Delta, extends W 3.5 miles from Kaluchagun Island to Norton Sound, 12 miles W of Kwiguk, Yukon-Kuskokwim Delta; 62° 42' N, 164° 54' W; (map 77). Eskimo name obtained in 1899 by G. R. Putnam, USC&GS. Published in 1899 on Chart 9373.

Nurukomarot Channel: water passage, see Caseys Channel.

Nurvik: village, see Noorvik.

Nushagak Bay: bay, at mouth of Nushagak River, extends S 40 miles to Bristol Bay, E of Nushagak Peninsula, Bristol Bay Lowland; 58° 30' N, 158° 30' W; (map 40). Variant: Lower Nushagak River, Zaliv Nushagak. Eskimo name reported as “Zal[iv] Nushagak” by Capt. Tebenkov (1852, map 4), IRN.

Nushagak Hills: mountains, 1,400-2,400 ft., in group 35 miles across, 70 miles S of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 35' N, 157° 10' W; BGN 1937; (map 60). Eskimo name reported by USGS in 1934; so called because they are at the head of the Nushagak River.

Nushagak Peninsula: peninsula, 35 miles long, 15 miles wide, trends SE between Bristol and Nushagak Bays, 20 miles SW of Dillingham, Bristol Bay Lowland; 58° 39' N, 159° 03' W; (map 40). Named in 1910 by USC&GS after Nushagak Bay.

Nushagak Point: promontory, 250 ft., on E shore of Nushagak Bay, 6 miles S of Dillingham, Bristol Bay Lowland; 58° 57' N, 158° 29' W; (map 40). Eskimo name reported in 1909 by USC&GS: published in 1911 on Chart 9050.

Nushagak River: stream, heads at 60° 35' N, 156° 06' W and flows SW 242 miles to head of Nushagak Bay at Grassy Island, 3 miles S of Dillingham, Bristol Bay Lowland; 59° 03' N, 158° 23' W; BGN 1906; (map 52). Variant: Bristol River, Cook River, Nouchagak River, Nushegak River, Reka Nushagak, Reka Nushegak. Named about 1809 by the Russian navigator, Ivan Vasiliev the first; published as “Reka Nushegak” or “Nushegak River,” by Lt. Sarichev (1826, map 3), IRN. This feature was called “Bristol River” by Capt. James Cook, RN, in 1778.

Nushagak, Lake: lake, see Beverley, Lake.

Nushagak, Reka: stream, see Nushagak River.

Nushagak, Zaliv: bay, see Nushagak Bay.

Nushagak: lake, see Tikchik Lake.

Nushagak: locality, at Nushagak Point, on E shore of Nushagak Bay, 6 miles S of Dillingham, Bristol Bay Lowland; 58° 57' N, 158° 29' W; (map 40). Variant: Aleksandrovskiy, Alexander, Alexandra, Alexandroffsk, Alexandrovsk, Alexandrovski, Fort Alexander, Fort Alexandra, Fort Alexandrofskaia, Meshagak, Nushegak, Odinochka Aleksandrovskaia, Selenie, Aleksandrovskaia, Tuviarok. Former Eskimo village established as a trading post about 1819, called by the Russians “Aleksandrovsk,” probably for Alexander Baranov, Governor, under whose orders the post was founded. After the transfer of Alaska to the United States the settlement was referred to as “Fort” or “Redoubt Alexander” until a post office, called “Nushagak” after the river, was established in 1899 1.5 miles N of here at Carmel. The post office was discontinued in 1935 (Ricks, 1965, p. 48). The village population was 178 in 1880; 268 in 1890; 74 in 1910; 16 in 1920; 43 in 1930; and 7 in 1958. Nushagak was the principal village of several located nearby. See Bradford, Carmel, Kanulik, and Millerton.

Nushagak: village, see Dillingham.

Nushakantna River: stream, see Zitziana River.

Nushegak River: stream, see Nushagak River.

Nushegak, Reka: stream, see Nushagak River.

Nushegak: locality, see Nushagak.

Nushkolik Mountain: hill, 635 ft., on W bank of Kashunuk River, 7 miles W of Nuigalak Lake, Yukon-Kuskokwim Delta; 61° 33' N, 164° 56' W; (map 74). Variant: Nuskolik Hill, Kocheelagok. Eskimo name reported in 1951 by USC&GS.

Nushralutak Creek: stream, heads at Nakmaktuak Pass, flows NE 11 miles to Noatak River, 37 miles SE of Howard Pass, Brooks Range; 67° 45' N, 156° 15' W; (map 126). Eskimo name literally meaning “rough divide in the mountains,” reported in 1956 by Orth.

Nuskealik Lake: lake, 2.5 miles across, on W bank of Manokinak River, 5 miles SE of Nuigalak Lake, Yukon-Kuskokwim Delta; 61° 28' N, 164° 27' W; (map 74). Eskimo name obtained from Charlie Peterson, trader, at Hooper Bay, in 1951 by USC&GS.

Nuskolik Hill: hill, see Nushkolik Mountain.

Nusluik: stream, see Fish River.

Nusoaraq Creek: stream, see Nasorak Creek

Nusoaruk Creek: stream, see Nasorak Creek

Nut Island: island, 400 ft. long, in Sitkalidak Strait, 0.8 miles W of Cathedral Island, on SE coast of Kodiak Island; 57° 12' 15" N, 153° 09' 30" W; BGN 1930; (map 34). Descriptive name given by USC&GS in 1928, "because of the [nutlike] appearance of the island * * *."

Nut-vuck-to-wo-ark: stream, see Ambler River.

Nutchitalichaket: stream, see Birch Creek.

Nuteargowik: stream, see Nuleargowik River

Nuthatch Lake: lake, 0.3 miles long, on Kenai Peninsula, S of Lynx Lake, 36 miles NE of Kenai Cook Inlet Lowland; 60° 50' 40" N, 150° 23' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for the Red-Breasted Nuthatch (*Sitta canadensis*), a bird rarely found in Alaska (Gabrielson and Lincoln 1959, p. 633).

Nutirwik Creek: stream, flows N 5.5 miles then W 4.5 miles to Dietrich River, 10 miles NNW of Snowden Mountain and 46.5 miles NW of Chandalar, Brooks Range; 67° 56' N, 149° 50' W; (map 123). Named and reported in 1939 by Robert Marshall (1956, map) for his Eskimo friend and hunting companion, Nutirwik, or Harry Snowden.

Nutkwa Falls: waterfall, on Prince of Wales Island, between Nutkwa Inlet and Nutkwa Lagoon, Alexander Archipelago; 55° 07' 10" N, 132° 32' 20" W; (map 4). Name, possibly Indian, reported in 1951 by USGS.

Nutkwa Inlet: estuary, extends NE 6 miles off Hetta Inlet, on SW coast of Prince of Wales Island, Alexander Archipelago; 55° 02' N, 132° 36' W; (map 4). Variant: Nutqua Inlet. Indian name recorded in 1897 as "Nutqua" by Lt. Comdr. J. F. Moser, USN.

Nutkwa Lagoon: lagoon, 4 miles long, on SW coast of Prince of Wales Island, at head of Nutkwa Inlet, Alexander Archipelago; 55° 08' N, 132° 30' W; (map 4). Variant: Nutqua Lagoon. Indian name recorded in 1897 as Nutqua by Lt. Comdr. J. F. Moser, USN.

Nutkwa Point: point of land, between Keete and Nutkwa Inlets, on SW coast of Prince of Wales Island, Alexander Archipelago; 55° 04' 15" N, 132° 34' 05" W (map 4). Name, possibly Indian, reported in 1951 by USGS.

Nutmoyuk Creek: stream, flows NE 5.3 miles to Timber Creek, 13 miles S of Kiwalik Mountain and 32 miles SE of Imuruk Lake, Seward Peninsula Highlands; 65° 19' N, 162° 17' W; (map 110). Local name published on a precinct map of Seward Peninsula by Monroe and Hutchins, corrected to June 1903 by Arthur Gibson.

Nutqua Inlet: estuary, see Nutkwa Inlet.

Nutqua Lagoon: lagoon, see Nutkwa Lagoon

Nutschek: bay, see Etches, Port.

Nutschek: locality, see Nuchek.

Nutty Cove: bay, see Shakmanof Cove.

Nutuvukti Lake: lake, 6 miles long, NE of Akoliakruich Hills and 60 miles NNW of Hughes, Brooks Range; 67° 00' N, 154° 38' W; (map 116). Variant: Nor-tah-rok-tah, Nor-to-rok-tee, Now-tow-vuck-toy, Nutuwukti. Eskimo name reported in 1885 by Lt. Stoney (1900, p. 53), USN, as "Now-tow-vuk-toy" and by Lt. J. C. Cantwell (in Healy, 1887, p. 34), USRCS, as Nor-to-rok-tee" and "Nor-tah-rok-tah." Mendenhall (1902, p. 25), USGS, established the spelling as "Nutuvukti."

Nutuwukti: lake, see Nutuvukti Lake.

Nutzotin Mountains: mountain range, 5,000-8,000 ft., 70 miles long and 25 miles wide, between Nabesna River at NW end and White River in Canada at SE end; bounded on SW by Cooper Creek, Notch Creek, and Geohenda Creek; Alaska Range; 61° 50' N, 140° 50' W [SE end], 62° 30' N, 142° 30' W [NW end]; (map 84). Brooks (1900a, p. 446), USGS, and W. J. Peters note: "These snow-clad mountains, which seem to be distinct from the Saint Elias chain, we have called the Nutzotin Mountains." Named after the Nutzatin Indians of this region.

Nuvagapak Lagoon: bay, 4 miles across, between Nuvagapak Point and Aichilik River delta, 23 miles NW of Demarcation Point, Arctic Plain; 69° 52' N, 142° 12' W; (map 138). Eskimo name recorded on Barter Island in 1952 by USC&GS. It takes its name from the nearby point of land.

Nuvagapak Point: point of land, on SW shore of Beaufort Lagoon, 20 miles NW of Demarcation Point, Arctic Plain; 69° 53' N, 142° 18' W; (map 138). Eskimo name recorded on Barter Island in 1952 by USC&GS and means "big point."

Nuvoak Creek: stream, see Marsh Creek.

Nuvugalak Point: point of land, extends E into Marryat Lagoon from the spit, 9 miles NE of Point Hope, Arctic Slope; 68° 23' 45" N, 166° 30' 25" W; (map 129). Variant: Noovougahlawk Point, Nuvugalaq Point. Eskimo name reported in 1950 by USC&GS to mean "point of land" and spelled "Noo-vou-gah-lawk."

Nuvugalaq Point: point of land, see Nuvugalak Point.

Nuvuk: locality, see Nuwuk.

Nuvuk: point of land, see Barrow Point.

Nuvurarak Point: point of land, see Agtapuk Point.

Nuvwa: point of land, see Seppings, Cape.

Nuwaak Point: point of land, see Manning Point.

Nuwaak: point of land, see Collinson Point.

Nuwhalen River: stream, see Newhalen River.

Nuwhalen Village: village, see Newhalen.

Nuwuak Point: point of land, see Manning Point.

Nuwuak: locality, on coast of Beaufort Sea, at Manning Point, Arctic Plain; 70° 07' N, 143° 30' W; (map 152). Former Eskimo village or camp recorded by W. H. Dall (1877, map), USC&GS. The name means "point of land."

Nuwuak: point of land, see Collinson Point.

Nuwuk Lake: lake, 0.15 miles across, on Arctic Coast at Point Barrow, Arctic Plain; 71° 23' 20" N, 156° 28' 20" W; (map 153). Variant: Tuseraru. This feature was a fresh water lake and the main water supply for the now abandoned village of Nuwuk.

Nuwuk: locality, on Arctic Coast, at Point Barrow, Arctic Plain; 71° 23' 10" N, 156° 28' 10" W; BGN Sixth Report; (map 153). Variant: Kokmullit, Kunmudlin, Noowoo, Noo wooh, Noowook, Nowuk, Numuk, Nuvuk. Former Eskimo village reported in 1853 by John Simpson (1885, p. 237), who wrote, "signifies emphatically 'The Point.'" The population was 309 and the village consisted of 54 inhabited houses. In 1882 Lt. Ray (1885, p. 38), USA, reported a population of 150.

Nuwuk: point of land, see Barrow Point.

Nuwuksaqpaq: spit, see Kason Spit.

Nuyakaglik Lakes: lakes, 4 miles E of Kivalina, Kotzebue-Kobuk Lowland; 67° 43' N, 164° 22' W; (map 128). Variant: Nooyakaglik, Nuyaqaglik. Eskimo name meaning "sea gull place" reported in 1966 by E. S. Burch.

Nuyakuk Lake: lake, extends E 20 miles from junction of Portage Arm and Mirror Bay to Tikchik Lake, 65 miles N of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 52' N, 159° 00' W; BGN 1932; (map 52). Variant: Nu-ya-kok, Second Nuyakuk Lake, Tikchik Lake. Eskimo name shown as "Nu-ya-kok" on a 1910 manuscript map by H. C. Fassett, USBF; called "Second Nuyakuk Lake" in 1925 by USBF.

Nuyakuk River: stream, heads at Tikchik Lake, flows SE 36 miles to Nushagak River, 65 miles NE of Dillingham, Bristol Bay Lowland; 59° 50' N, 157° 27' W; BGN 1931; (map 52). Variant: Nu-ya-kok, Tichik River. The Eskimo name "Tikchik River" was published in 1898 by USC&GS; recorded as "Nu-ya-kok or [Tik-chik]" on a 1910 manuscript map by H. C. Fassett, USBF.

Nuyaqaglik: lakes, see Nuyakaglik Lakes.

Nuyukuk: lake, see Tikchik Lake.

Nuziamund Lake: lake, 0.8 miles long, 5 miles SE of Tetlin Lake, S of Old Albert Lake, 25 miles SE of Tok, Alaska Range; 63° 02' N, 142° 31' W; (map 85). Indian name published in 1965 by USGS.

Nuziamundcho Lake: lake, 2.1 miles long, on E bank of Kalutna River, 14 miles NW of Northway Junction, Alaska Range; 63° 06' N, 142° 12' W; (map 85). Indian name published in 1965 by USGS.

Nvortulermiut: locality, on Nelson Island, 7 miles S of Nightmute and 100 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 23' N, 164° 44' W; (map 58). Variant: Nevertolemute, Nvortulermuit. Former Eskimo village; according to USC&GS in 1951 "now abandoned * * * two or three sod huts * * * used occasionally as a fish camp." Its population was 10 in 1939.

Nvortulermuit: locality, see Nvortulermiut.

Nyac: village, pop. 54, on right bank of Tuluksak River, 40 miles SW of Aniak, Kilbuck-Kuskokwim Mountains; 61° 00' 20" N, 159° 56' 45" W; (map 73). This mining camp, established about 1915, received a post office, named "Nyac," in 1926 (Ricks, 1965, p. 48). The name is derived from the initials of the New York Alaska [Gold Dredging] Corporation.

Nyctea Hills: hills, 417 ft., on Nelson Island, 11 miles N of Kinarak Lake, and 87 miles W of Bethel, Yukon-Kuskokwim Delta; 60° 43' N, 164° 20' W; (map 58). Name used by personnel of Clarence Rhode National Wildlife Range; reported in 1965.

Nye Lake: lake, 0.7 miles long, 8.5 miles NW of Old Man Lake and 43 miles NW of Glennallen, Copper River Basin; 62° 14' N, 146° 52' W; (map 83). Local name reported in 1949 by USGS.

Nyghook Number One, Mount: hill, see Mugum Peak.

Nygook Number Two, Mount: hill, 658 ft., in Kookooligit Mountains, 15 miles SW of Savoonga, 33 miles SE of Gambell, on Saint Lawrence Island; 63° 33' N, 170° 48' W; (map 93). Eskimo name reported in 1932 by Otto W. Geist, Univ. of Alaska.

Nygvilnuk, Reka: stream, see Golsovia River.

Nygvylnuk, Reka: stream, see Golsovia River.

Nygykligmjut: locality, see Nigiklik.

Nygyklik: stream, see Andrafsky River.

Nykhta, Mys: point of land, see Prince of Wales, Cape.

Nyman Peninsula: peninsula, extends SW 1.8 miles, in Womens Bay, 5.5 miles SW of Kodiak, Kodiak Island; 57° 44' N, 152° 30' W; (map 34). Local name published in 1943 by USC&GS.

Nyman Spit: spit, extends SE 0.3 miles from Nyman Peninsula, in Womens Bay, 6 miles SW of Kodiak, Kodiak Island; 57° 43' 00" N, 152° 30' 40" W; (map 34). Local name published in 1943 by USC&GS.

O

O'Brien Creek: stream, flows E 13 miles to Copper River, 0.8 miles N of Taral and 65 miles NE of Valdez, Chugach Mountains; 61° 29' 00" N, 144° 27' 10" W; (map 68). Variant: Obrien Creek. Prospectors' name from a manuscript map of railroad surveys dated 1909.

O'Brien Creek: stream, flows N 1 mile to Candle Creek, 13.5 miles SW of Candle and 31 miles NE of Imuruk Lake, Seward Peninsula Highlands; 65° 45' N, 162° 10' W; (map 110). Prospectors' name reported on the 1903 "Map of Seward Peninsula by Arthur Gibson.

O'Brien Creek: stream, flows NE 3 miles to Klokerblok River, 14 miles NE of Solomon, Seward Peninsula Highlands; 64° 39' N, 164° 01' W; (map 95). Variant: Obrien Creek. Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

O'Brien Creek: stream, flows NW 1.7 miles to Matanuska River, 39 miles NE of Palmer, Chugach Mountains; 61° 46' 30" N, 148° 01' 45" W; (map 69). Local name reported in 1913 by USGS.

O'Brien Creek: stream, flows SE 0.7 miles to Willow Creek 0.8 miles E of its junction with Osborn Creek, 9 miles NE of Nome, Seward Peninsula Highlands; 64° 37' N, 165° 10' W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

O'Brien Creek: stream, flows SW 16 miles to Beaver Creek, 38 miles SE of Livengood, Yukon-Tanana Highlands; 65° 23' 30" N, 147° 17' 00" W; (map 105). Variant: Bryan Creek. Name originally published in 1906 as "Bryan Creek" by USGS, but according to a report by L. M. Prindle, USGS, in 1909, the prospectors had changed the name to O'Brien Creek.

O'Brien Creek: stream, flows SW 2.5 miles to Knik Arm Cook Inlet, 1.3 miles NE of Knik and 19 miles NE of Anchorage, Cook Inlet Lowland; 61° 28' 05" N, 149° 41' 50" W; (map 69). Local name reported in 1951 by USGS.

O'Brien Creek: stream, flows SW 20 miles to Buck Creek, 34 miles S of Eagle, Yukon-Tanana Highlands; 64° 19' N, 141° 25' W; (map 102). Variant: O'Brine Creek. Named by prospectors and reported in 1896 by Spurr (1898, pl. 46), USGS.

O'Brien Creek: stream, flows SW 9 miles to Tatalina River, 16 miles SE of Livengood, Yukon-Tanana Highlands; 65° 20' N, 148° 17' W; (map 105). Local name published by USGS in the 1950's.

O'Brine Creek: stream, see O'Brien Creek.

O'Connell Lake: lake, 0.3 miles long, E of Spenard, in Anchorage, Cook Inlet Lowland; 61° 11' 36" N, 149° 52' 45" W; (map 69). Local name reported in 1942 by AMS.

O'Connor Creek: stream, flows SW 10 miles to Goldstream Creek, 6 miles NW of Fairbanks, Yukon-Tanana Highlands; 64° 53' 40" N, 147° 52' 50" W; (map 100). Named by prospectors; reported in 1903 by T. G. Gerdine (in Prindle, 1905, pl. 16), USGS.

O'Donnel Creek: stream, flows SE 1 mile to Allene Creek, in Agiapuk River basin, 10 miles NE of Teller, Seward Peninsula Highlands; 65° 20' N, 166° 04' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

O'Donnell Creek: stream, flows 7.5 miles NE to East Arm Holtz Bay, Attu Island, Aleutian Islands; 52° 55' 05" N, 173° 09' 20" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II; shown on an AMS map published in 1948.

O'Donnell Valley: valley, 5 miles long, formed by O'Donnell Creek, Attu Island, Aleutian Islands; 52° 55' 05" N, 173° 09' 20" E; (map 13). Name shown on an AMS map published in 1948.

O'Keefe Hills: mountain, highest elev. 4,830 ft., between headwaters of Crooked Creek and South Fork Koyukuk River, 20 miles WSW of Chandalar, Brooks Range; 67° 22' N, 149° 13' W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

O'Malley Lake: lake, 2 miles long, at head of O'Malley River, S of Karluk Lake, Kodiak Island; 57° 15' 30" N, 153° 58' 00" W; (map 34). Local name reported in 1954 by USGS.

O'Malley River: stream, heads at O'Malley Lake, flows NW 0.5 miles to Karluk Lake, Kodiak Island; 57° 16' 40" N, 153° 59' 40" W; (map 34). Local name reported in 1954 by USGS.

O'Neel, Mount: mountain, 6,411 ft., at head of Grinnell Glacier, 37 miles N of Katalla, Chugach Mountains; 66° 42' N, 144° 50' W; BGN 1930; (map 64). Named about 1910 by Lawrence Martin, for A. C. O'Neel, "Chief Bridge Engineer, Copper River and Northwestern Railroad, who built a \$1,500,000 steel bridge near the base of this mountain in 1909-1910 across the Copper River, which is as large as the Mississippi at New Orleans, and never lost a man."

O-co-mon-e-look: locality, see O-con-o-ne-look.

O-con-o-ne-look: locality, probably located on Agiak Creek, Brooks Range; 67° 58' N, 153° 07' W; (map 125). Variant: O-co-mon-e-look. The exact location of this Eskimo village or camp reported by Lt. Stoney (1900, p. 44), USN, in 1886 is conjectural, but the above position fits his description: "we came to O-co-mon-e-look after crossing a pass * * *. The road then lay in the gorges * * *. When ten miles Northeast * * * I crossed another pass * * * and reached a chain of lakes [Chandler Lake] * * *."

O-kee-buck: island, see King Island.

Oak-pi-lah-took Bluff: hill, see Okpilatok Bluff.

Oakakhl: lake, see Kukaklik Lake.

Oakland Creek: stream, flows NE 0.5 miles to Discovery Creek which flows to Dome Creek, 22 miles NW of Solomon, Seward Peninsula Highlands; 64° 50' 45" N, 164° 44' 45" W; (map 95). Prospectors' name reported in 1908 by P. S. Smith (in Brooks and others, 1909, pl. 10), USGS.

Oakland Creek: stream, on Seward Peninsula, heads on Potato Mountain, flows NW 4.5 miles to Lopp Lagoon, 15 miles NE of Cape Prince of Wales and 48 miles NW of Teller, Kotzebue-Kobuk Lowland; 65° 43' N, 167° 38' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Gibson.

Oakpisoorook River: stream, see Okpiksugruk Creek.

Oakpisoorook River: stream, see Umarachek Creek.

Oakpisoorook: locality, see Okpiksugruk.

Oakwroorut Creek: stream, see Okrurat Creek.

Oallek Lake: lake, see Ualik Lake.

Oarlock Island: island, 2 miles across, between Admiralty Bay and Dease Inlet, S island of Kikiktak Islands, 34 miles SE of Barrow, Arctic Plain; 70° 57' N, 155° 40' W; BGN 1925; (map 148). Named by USGS in 1924 "because the charted outline resembles an oarlock."

Oasis Glacier: glacier, trends S 8 miles to Baird Glacier, 103 miles E of Sitka, Coast Mountains; 57° 11' N, 132° 38' W; BGN 1906; (map 8). So named in 1965 by A. S. Post, USGS, because of a small group of trees on the west side of the valley. "These are the only large trees in the immediate region which is otherwise a desolate area of bare rock and ice."

Oasis, The: point of rock, on W side of Oasis Glacier 0.6 miles N of its junction with Baird Glacier and 102 miles E of Sitka, Coast Mountains; 57° 11' 05" N, 132° 38' 50" W; (map 8). So named because of a small group of trees here, from which the name Oasis Glacier also is derived. Name reported in 1960 by USGS.

Oastler Mountain: mountain, 6,370 ft., 1 mile E of McGonagall Mountain and 14 miles NE of Mount McKinley, Alaska Range; 63° 14' 15" N, 150° 42' 00" W; (map 88). Mountain climbers' name published in 1954 by USGS. See Oastler Pass.

Oastler Pass: pass, 5,400 ft., in Mount McKinley National Park, N of Muldrow Glacier, 16 miles NE of Mount McKinley, Alaska Range; 63° 14' 30" N, 150° 40' 00" W; BGN 1948; (map 88). Named by NPS in the 1930's for Frank Richard Oastler, "naturalist and advocate of the National Park Service."

Oatcoosekruk Mountain: hill, see Utkusikrak Hill.

Ober Creek: stream, flows NE 17 miles to Jarvis Creek, 16 miles S of Delta Junction, Alaska Range; 63° 49' 20" N, 145° 40' 20" W; BGN 1937; (map 86). Local name reported on 1908 fieldsheet by J. W. Bagley, USGS.

Oberlin Ridge: ridge, in Glacier Bay National Monument, trends W 5 miles, S of Morse Glacier, 60 miles NW of Hoonah, St. Elias Mountains; 58° 51' 30" N, 136° 15' 00" W; (map 10). Named by members of the American Geographical Society Glacier Bay Expedition of 1941 (Field, 1947, map) for Oberlin College Ohio, because G. F. Wright was a member of the faculty of this college when he made his geological studies of the Muir Glacier in 1886.

Obernoi Point: point of land, E shore of Captains Bay, in Unalaska Bay, on NE coast of Unalaska Island, Aleutian Islands; 53° 51' 25" N, 166° 33' 40" W; (map 23). Named by W. H. Dall in 1872, from the Russian "Ober" meaning "upper."

Obesukrak River: stream, see Okpiksugruk Creek.

Obgorelyy, Ostrov: island, see Burnt Island.

Obgorielie Island: island, see Burnt Island.

Obi, Isla: island, see Ubi Island.

Oblaron Creek: stream, flows SW 10 miles to Selawik River, 7 miles NW of Selawik, Kotzebue-Kobuk Lowland; 66° 38' N, 160° 14' W; (map 114). Eskimo name obtained in 1955 by U.S. Army Corps of Engineers.

Obrien Creek: stream, see O'Brien Creek.

Obsechki Island: island, 200 ft. across, 6.5 miles SW of Sitka, on W coast of Baranof Island, Alexander Archipelago; 56° 58' 05" N, 135° 25' 20" W; (map 5). Variant: Obsetchiki Island, Obsetchka Island, Ostrov Obsechki. Named in 1809 by the Russian navigator Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Obsechki," meaning "misfire island."

Observation Island: island, 0.7 miles long, in Orca Inlet, off NE end of Hawkins Island, 4 miles N of Cordova, Chugach Mountains; 60° 37' N, 145° 44' W; (map 64). Named in 1897 by Lt. Comdr. J. F. Moser, USN, while collecting hydrographic data and making harbor sketches along the coast of Alaska.

Observation Island: island, 1.7 miles long, at W entrance to Steamer Bay, on W coast of Etolin Island, Alexander Archipelago; 56° 10' 00" N, 132° 43' 30" W; (map 6). Named in 1886 by Lt. Comdr. A. S. Snow USN, whose astronomical station was near the north end of this island.

Observation Islet: island, see Simonof Island.

Observation Mountain: mountain, 3,260 ft., on Alaska Peninsula, in Katmai National Monument, 8 miles SW of Mount Katmai, Aleutian Range; 58° 10' 15" N, 155° 07' 35" W; BGN 1924; (map 42). So named in 1916 by R. F. Griggs, National Geographic Society "because of the view of Mount Katmai."

Observation Peak: peak, 4,935 ft., on E end of Blackerby Ridge, at the head of Lemon Creek Glacier, 1.6 miles NE of Salmon Creek Reservoir and 1.5 miles NE of Juneau, Coast Mountains; 58° 21' 20" N, 134° 20' 15" W; (map 11). Local name published in 1962 by USGS.

Observation Point: point of land, on N shore of Shearwater Bay, N of Kiliuda Bay, on SE coast of Kodiak Island; 57° 20' 40" N, 152° 03' 30" W; (map 34). Descriptive name given by

USC&GS in 1926 because, "Astronomical observations for a survey of Shearwater Bay, in 1904, were made from this point."

Observation Point: point of land, on NE coast of Stuart Island, 14 miles NW of St. Michael, Yukon-Kuskokwim Delta; 63° 37' 30" N, 162° 22' 00" W; (map 92). Named in 1898 by USC&GS.

Observation Rock: island, 200 ft. long, in Nakat Harbor, at entrance into Nakat Inlet, Coast Mountains; 54° 49' 20" N, 130° 42' 20" W; (map 2). Named by Lt. Comdr. Nichols, USN (USC&GS, 1891, p. 79).

Observatory Island: island, see Pyramid Island.

Observatory Point: point of land, in Chernofski Harbor, on SW coast of Unalaska Island, Aleutian Islands; 53° 24' 02" N, 167° 31' 15" W; BGN 1939, (map 23). Descriptive name published in the 1931 Coast Pilot (pt. 2, p. 287).

Observatory Point: point of land, see Tent Point.

Obsetchiki Island: island, see Obsechki Island.

Obsetchka Island: island, see Obsechki Island.

Obsiekaiushie' Cape: point of land, see Drying Point.

Obsikhaiuschchi' Cape: point of land, see Drying Point.

Obsykhayushchiy, Mys: point of land, see Drying Point.

Ocalee Spit: spit, see Okalee Spit.

Occident Point: point of land, W tip of Whale Island, N or Kodiak Island; 57° 57' 25" N, 152° 51' 30" W; (map 34). Local name published in 1943 by USC&GS.

Ocean Bay: bight, 4.5 miles across, on SE coast of Sitkalidak Island, SE of Kodiak Island; 57° 05' N, 153° 10' W; (map 34). Local name published in 1943 by USC&GS.

Ocean Beach: beach, 1 mile long, on S coast of Unga Island, in Shumagin Islands, Aleutian Range; 55° 09' 40" N, 160° 32' 30" W; (map 28). Name shown on 1963 USC&GS chart.

Ocean Cape: peninsula, see Phipps Peninsula.

Ocean Cape: point of land, in Gulf of Alaska, at W tip of Phipps Peninsula, 4.6 miles W of Yakutat, Malaspina Coastal Plain; 59° 32' 30" N, 139° 51' 30" W; (map 46). Variant: Cape Morskoi, Cape Phipps, Mys Morskoy. Named "M[ys] Morskoy," meaning "maritime cape," by Capt. Tebenkov (1852, map 7), IRN. In 1875 it was called "Ocean Cape" on USC&GS Chart 751. This cape was also called "Cape Phipps" on early charts.

Ocean Creek: stream, flows SW 3 miles to Bering Sea, 2 miles E of Tin City and 48 miles NW of Teller, Seward Peninsula Highlands; 65° 33' N, 167° 53' W; (map 111). Variant: Lagoon Creek. Local name reported in 1900 by Brooks (1901, pl. 13), USG&GS.

Ocean Creek: stream, see Lagoon Creek.

Ocean Point: point of land, on Colville River, 25 miles S of Harrison Bay Arctic Plain, 70° 04' N, 151° 22' W; (map 149). Named by W. J. Peters and W. C. Schrader in 1901.

Oceanic: locality, at W end of Thumb Bay, on S coast of Knight Island, 7 miles SE of Chenega, Chugach Mountains; 60° 12' 30" N, 147° 49' 10" W; (map 63). Name of a settlement published in 1951 by USGS.

Ochesna: stream, see John River.

Ocolaksuk Lake: lake, 1.2 miles long, on W bank Of Yukon River 1.2 miles NW of Russian Mission, Yukon-Kuskokwim Delta; 61° 48' 15" N, 161° 21' 30" W; (map 73). Variant: Okolaksak Lake. Eskimo name reported by USC&GS in 1949.

Octallee Spit: spit, see Okalee Spit.

Octillee Spit: spit, see Okalee Spit.

Odd Fellows, Cape: point of land, see Starichkof, Cape.

Odgavigamut: locality, see Uknavig.

Odgovigamut: locality, see Uknavig.

Odiak Channel: water passage, 3 miles long, between Hawkins and Observation Islands, 3 miles N of Cordova, Chugach Mountains; 60° 35' N, 145° 30" W; (map 64). Named in 1897 by Lt. Comdr. J. F. Moser, USN, while collecting hydrographic data and making harbor sketches along the coast of Alaska.

Odiak Lake: lake, see Eyak Lake.

Odiak Slough: tidal flat, 0.8 miles long, at S edge of Cordova, Chugach Mountains; 60° 32' 30" N, 145° 46' 00" W; (map 64). Local name published in 1951 by USGS.

Odinakiy, Kamen: rock, see Lone Rock.

Odinakoi, Kamen: rock, see Lone Rock.

Odinochka Aleksandrovskaya: locality, see Nushagak.

Odinochka Chinik: locality, see Chinik.

Odinochka: locality, see Old Iliamna.

Odinochka: village, see English Bay.

Odinotchka: locality, see Alexeiev.

Odinotchka: village, see Nulato.

Odor Creek: stream, flows SW 5 miles from Robinson Mountains to Kaliakh River, W of Sunshine Point, 17 miles NW of Cape Yakataga, Malaspina Coastal Plain; 60° 10' 30" N, 142° 52' 30" W; BGN 1960; (map 65). So named in 1947 by USGS because a persistent odor of petroleum was noticed along the stream.

Oern Creek: stream, see Oerns Creek.

Oerns Creek: stream, flows NW 8 miles to Aaron Creek, 3 miles NE of Blake Channel, 13 miles N of mouth of Bradfield Canal, Coast Mountains; 56° 23' 00" N, 131° 56' 30" W; (map 7). Variant: Oern Creek. Name published as "Oern Creek" in 1927 on IBC sheet 5.

Oerns Creek: stream, see Aaron Creek.

Oesta de la Entrada del Principe, Punta: point of land, see Ommaney, Cape.

Oeufs, L'ile des: island, see Egg Island.

Offield Creek: stream, flows NW 2 miles to Coal Creek which flows to Solomon River, 15 miles NE of Solomon, Seward Peninsula Highlands; 64° 44' N, 164° 08' W; (map 95). Prospectors' name reported on a 1902 prospectors' manuscript map .

Offield Creek: stream, flows SW 5 miles to Grantley Harbor, 9 miles SE of Teller, Seward Peninsula Highlands; 65° 15' N, 166° 03' W; (map 111). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Ogalla Point: point of land, see Oglala Point.

Ogalvick: locality, see Uknavig.

Ogalvik: locality, see Uknavig.

Ogangan Island: island, 2 miles long, in Raven Bay, on S coast of Unalaska Island, Aleutian Islands; 53° 26' 45" N, 166° 52' 30" W; (map 23). This name was published in the 1944 Aleutian Coast Pilot (p. 54).

Ogavik: locality, see Uknavig.

Ogchul Island: island, 0.5 miles across, 4.5 miles SE of Amos Bay, on S coast of Umnak Island, Aleutian Islands; 52° 59' 50" N, 168° 24' 25" W; (map 21). Name published by USC&GS in 1944 Aleutian Coast Pilot (p. 71).

Ogden Passage: water passage, 4 miles long, 3 miles SW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 38' N, 136° 10' W; BGN 1908; (map 9). Named

in 1908 by A. Braid, USC&GS, for Herbert Gouverneur Ogden, born 1846, a charter member of the Board on Geographic Names. Herbert Ogden was appointed to USC&GS in 1863 where he served as expert on topography and cartography on various expeditions. In 1863 he was in charge of a party to locate the boundary between British Columbia and Alaska.

Ogden, Mount: mountain, elev. 7,484 ft., Boundary Peak 86 on Alaska-Canada boundary, 12 miles SE of terminus of Wright Glacier and 39 miles ENE of Juneau, Coast Mountains; 58° 25' 50" N, 133° 22' 30" W; BGN 1923; (map 12). Variant: Boundary Peak 86. Named by Lawrence Martin in 1923 by USC&GS for Herbert G. Ogden, USC&GS.

Oggrurak Creek: stream, see Okrurat Creek.

Ogilvie Mountains: mountains, in Alaska and Canada, extend SE 250 miles from 30 miles SE of Circle; drained by Kandik, Nation, and Tatonduk Rivers; Porcupine Plateau; 65° 30' N, 143° 30' W [W end], 64° 30' N, 136° 00' W [E end]. Variant: Ogilvie Range. Keele (1910, p. 13) noted the name Ogilvie range had been applied in former reports. The mountains were probably named for William Ogilvie, 1864 1912, Canadian explorer of the upper Yukon River.

Ogilvie Range: mountains, see Ogilvie Mountains.

Ogilvie, Mount: mountain, 7,780 ft., on Alaska-Canada boundary, on Storm Ridge, 1.1 miles NW of Gate Peak and 39 miles N of Juneau, Coast Mountains; 58° 51' 45" N, 134° 15' 20" W; BGN 1954; (map 11). Variant: Boundary Peak 95. Named in 1923 by Lawrence Martin for William Ogilvie, Canadian official whose surveys in 1893-95 helped establish the Alaska-Canada boundary.

Ogilvik: locality, see Uknavig.

Ogive Mountain: peak, 7,100 ft., W of Gulkana Glacier, 17 miles N of Paxson, Alaska Range; 63° 16' 25" N, 145° 27' 10" W; (map 86). Named between 1948 and 1955 by T. L. Pewe, USGS.

Oglala Island: island, see Eddy Island.

Oglala Pass: pass, between Rat and Amchitka Islands, Aleutian Islands; 51° 42' N, 178° 30' E; BGN 1937; (map 15). Named by the U.S. Navy for the U.S.S. Oglala in 1935.

Oglala Point: point of land, on NE coast of Kagalaska Island, Aleutian Islands; 51° 52' 15" N, 176° 17' 30" W; BGN 1936; (map 17). Variant: Oglalla Point. Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934, for the U.S.S. Oglala.

Oglala Point: point of land, see Argonne Point.

Ogliouga Island: island, see Ogliouga Island.

Ogliouga Island: island, 3 miles across, Delarof Islands, Aleutian Islands; 51° 36' N, 178° 39' W; BGN 1944; (map 16). Variant: Ogliouga Island, Ogloga Island. Name published by Capt. Lutke (1836, p. 323) as "Ogloga Ile" and, with Skagul Island, called the Delarof Islands. The

adopted form “Ogliuga” was published by the USC&GS in the 1944 Aleutian Coast Pilot (p. 120).

Ogliuga Pass: water passage, NE of Sea Otter Pass and SW of Oglinga Island, Delarof Islands, Aleutian Islands; 51° 35' N, 178° 41' W; (map 16). Name published in the 1946 supplement to the 1944 Aleutian Coast Pilot (U.S. Coast and Geodetic Survey, 1946, p. 119). Named for the island.

Oglodak Island: island, 1.2 miles across, W of Atka Pass, between Atka and Tagalak Islands, Aleutian Islands; 51° 59' N, 175° 27' W; BGN 1936; (map 18). Variant: Oglodok Island, Ogmodak Island, Ogmodakh Island. Name published by Capt. Lutke (1836, p. 320-21), possibly derived from the Aleut word “Agligak,” meaning “albatross.”

Oglodok Island: island, see Oglodak Island.

Ogloga Island: island, see Ogliuga Island.

Ogmodak Island: island, see Oglodak Island.

Ogmodakh Island: island, see Oglodak Island.

Ognedieshutshai Gora: volcano, see Makushin Volcano.

Ognedyshushchaya Gora: volcano, see Makushin Volcano.

Ogotoraq Creek: stream, see Ogotoruk Creek.

Ogotoruk Creek: stream, heads on Sigrikpak Ridge, flows W and SW 11 miles to Chukchi Sea, 6.7 miles SE of Cape Thompson, Arctic Slope; 68° 05' 52” N, 165° 45' 15” W, BGN 1963; (map 129). Variant: Akhotoruk Creek, Alhodoruk Creek, Augutorux Creek, Ogotoraq Creek, Owgootowram Koonga. Eskimo name meaning “poke (bag) “ reported in 1950 by USC&GS. Name derived from nearby Augutaurak (bluff); it is a variant spelling of the same name.

Ogotoruk Seavalley: sea valley, continuation of Ogotoruk Valley, in Chukchi Sea, 7 miles SE of Cape Thompson, Arctic Slope; 68° 04' N, 165° 45' W; BGN 1959; (map 129). Name reported and probably given in 1959 by D. W. Scholl, USGS. Named for Ogotoruk Creek. It is a drowned extension of this stream.

Ogotoruk Valley: valley, extends NE 7.3 miles from Chukchi Sea, E of Saligvik Ridge, 7 miles SE of Cape Thompson, Arctic Slope; 68° 09' N, 165° 43' W; BGN 1963; (map 129). Named about 1962 by personnel of Project Chariot.

Ogowinagak: locality, at mouth of Mukluktulik River on N shore of Norton Bay, 1.3 miles SW of Koyuk and 20 miles NW of Christmas Mountain, Seward Peninsula Highlands; 64° 55' N, 161° 13' W; (map 96). Variant: Ogowinanagak. Eskimo village or camp listed by Ivan Petroff in the 10th Census in 1880 as having a population of 20. It is now abandoned.

Ogowinanagak: locality, see Ogowinagak.

Ogriveg River: stream, distributary of Kobuk River, heads at Melvin Channel, Kobuk River, flows NW, then E, 10 miles to Ekichuk Lake, 48 miles NW of Selawik, Kotzebue-Kobuk Lowland; 66° 56' N, 161° 31' W; (map 114). Eskimo name obtained by U.S. Army Corps of Engineers in 1955.

Ogrooruk: bluff, see Ugrurak Bluff.

Ogsachak Creek: stream, flows SW 3.5 miles to Kukpuk River, W of Ogsachak Mountain, 17 miles N of Cape Thompson, Arctic Slope; 68° 22' 45" N, 165° 49' 00" W; BGN 1963; (map 129). Variant: Ogsaghaek Creek. Eskimo name recorded in 1960 as "Ogsaghaek" by D. C. Foote in connection with Project Chariot studies.

Ogsachak Mountain: mountain, 1,330 ft., in Lisburne Hills, N of junction of Ipewik and Kukpuk Rivers, 18 miles N of Cape Thompson Arctic Slope; 68° 23' N, 166° 15' W, BGN 1963; (map 129). Variant: Ogsaghaek Mountain. Eskimo name recorded in 1960 as "Ogsaghaek" by D. C. Foote in connection with Project Chariot studies.

Ogsachak: locality, at junction of Ogsachak Creek and Kukpuk River, 17 miles N of Cape Thompson, Arctic Slope; 68° 22' 45" N, 165° 49' 00" W; BGN 1963; (map 129). Variant: Ogsaghaek. Fish camp reported in 1960 by I. C. Foote in connection with Project Chariot studies; he spelled it "Ogsaghaek."

Ogsaghaek Creek: stream, see Ogsachak Creek.

Ogsaghaek Mountain: mountain, see Ogsachak Mountain.

Ogsaghaek: locality, see Ogsachak.

Ogsit Cape: point of land, see Aghsit Point.

Oguohaydok Ridge: ridge, 1,200 ft., in Kuskokwim Mountains, extends 7 miles W from Kuskokwim River between Jungjuk and Village Creeks, 32 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 49' 30" N, 158° 13' 00" W; BGN 1945; (map 72). Eskimo name said to mean "woman fell off mountain," referring to a local legend; reported in 1944 by USGS.

Oh-hagamiut: locality, see Oknagamut.

Ohio Creek: stream, flows NW 5.5 miles to East Fork Chena River, 12 miles ESE of Far Mountain and 66 miles SW of Circle, Yukon-Tanana Highlands; 65° 02' 15" N, 145° 24' 00" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Ohio Creek: stream, flows SE 0.8 miles to Hot Springs Slough, at village of Manley Hot Springs, 43 miles ESE of Tanana, Yukon-Tanana Highlands; 65° 00' 03" N, 150° 38' 30" W; (map 106). Name published by G. A. Waring (1917. fig. 11), USGS.

Ohio Creek: stream, flows SE 1.7 miles to Hutlinana Creek, 18 miles SE of Rampart, Yukon-Tanana Highlands; 65° 16' 50" N, 149° 54' 10" W; (map 105). Named by prospectors; reported in 1908 by USGS (Covert and Ellsworth, 1909, pl. 5)

Ohio Creek: stream, flows SE 4 miles to Jackson Creek which flows to Bonanza River, 4 miles NW of Solomon, Seward Peninsula Highlands; 64° 34' N, 164° 35' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Ohio Creek: Stream, heads at glacier terminus, flows SE 18 miles to Chulitna River, 37 miles SW of Cantwell, Talkeetna Mountains; 62° 58' 20" N, 149° 42' 00" W; (map 82). Local name reported in 1917 by S. R. Capps and J. B. Mertie, Jr. (in Brooks and others, 1919, pl. 2), USGS.

Ohio Creek: stream, in Kenai Mountains, flows W 2.5 miles to Bench Lake, 21 miles SE of Sunrise, Chugach Mountains; 60° 37' 30" N, 149° 38' 50" W; (map 63). Local name reported in 1951 by USGS.

Ohio Creek: stream, see Trilby Creek.

Ohio Rock: rock, in Tongass Narrows, off N coast of Gravina Island, opposite Ward Cove, Alexander Archipelago; 55° 23' 50" N, 131° 46' 10" W; (map 3). Local name published in the 1932 Coast Pilot (p. 104).

Ohkaiichsuk: stream, see Rabbit Creek.

Ohkaleeksout: stream, see Rabbit Creek.

Ohlegek Creek: stream, flows NW 2.5 miles to Niyrakpak Lagoon, 17 miles SE of Gambell, St. Lawrence Island; 63° 36' N, 171° 24' W; BGN 1951; (map 93). Variant: Ohlegek River, Olegek Creek. Eskimo name recommended by the Gambell village council and reported in 1949 by Maj. H. B. Allen, USAF.

Ohlegek River: stream, see Ohlegek Creek.

Ohlick: water passage, see Singauk Entrance.

Ohlson Mountain: mountain, 1,513 ft., on Kenai Peninsula, 5 miles N of Homer, Cook Inlet Lowland; 59° 43' N, 151° 32' W; (map 50). Local name reported and published by USGS in the 1950's.

Ohlson Slough: watercourse, see Honeymoon.

Ohmalik Creek: stream, see Omilak Creek.

Ohman Falls: waterfall, in Power Creek, 7 miles NE of Cordova, Chugach Mountains; 60° 35' 30" N, 145° 35' 00" W; (map 64). Local name published in 1951 by USGS.

Ohmer Slough: estuary, 0.7 miles long, off Duncan Canal, 0.5 miles S of Duncan Creek, on W coast of Lindenberg Peninsula, Kupreanof Island, Alexander Archipelago; 56° 46' N, 133°

13' W; BGN 1961; (map 6). Local name reported in 1933 by R. H. Sargent, USGS, who misapplied it to Mitchell Slough 4 miles to the southeast. The name is said to have been given for Earl Ohmer, a former resident of Petersburg who died about 1952.

Ohmer Slough: estuary, see Mitchell Slough.

Ohnak: locality, see Onak.

Ohogamiut: locality, see Akahamut.

Ohogamiut: village, pop. 50, on right bank of Yukon River 22 miles SE of Marshall, Yukon-Kuskokwim Delta; 61° 34' N, 161° 52' W; (map 73). Variant: E-ko-go-mute, Ikuak, Ohogamut. Eskimo name "Okhnagamiut," meaning "village (people) on other side (of river)." The name is shown as "Ohogamut" on a 1916 field sheet by R. H. Sargent, USGS. See Akahamut See Oknagamut.

Ohogamut: village, see Ohogamiut.

Ohpeelatuk: hills, see Aupilatuk Hills.

Ohtig Lake: lake, 3 miles long, 5 miles S of Chalkyitsik, Yukon Flats; 66° 35' N, 143° 44' W; (map 120). Tranjik-kutchin Indian name; obtained in 19S6 by T. E. Taylor, USGS.

Ohwat River: stream, see Owhat River.

Oil Bay: bay, extends N 3 miles off Cook Inlet, on S coast of Iniskin Peninsula, Aleutian Range; 59° 38' N, 153° 17' W; BGN 1906; (map 51). Local name published by G. C. Martin (1905, pl. 4), USGS.

Oil Creek: stream, flows SE S.7 miles to Shelakof Strait, on E coast of Alaska Peninsula, S miles SW of Cape Aklek and 47 miles W of Karluk, Aleutian Range; 57° 38' 40" N, 155° 41' 40" W; (map 35). Descriptive local name obtained from J. L. McPherson of Iliamna and published by Martin (1921, pl. 10), USGS.

Oil Creek: stream, flows W 0.S miles to Katalla Slough, 3 miles SE of Katalla, Malaspina Coastal Plain; 60° 11' N, 144° 26' W; (map 64). Local name reported in 1904 by USGS.

Oil Creek: stream, on S slope of Brower Ridge, flows S 1.5 miles to Gulf of Alaska, 2.8 miles NW of mouth of White River and 96 miles NW of Yakutat, St. Elias Mountains; 60° 03' 25" N, 142° 18' 00" W; (map 65). Local name reported by G. C. Martin, USGS, in 1904. So named because of oil discoveries made here about 1897.

Oil Lake: lake, 1.5 miles long, between Nechelik Channel Colville River and Ublutuoch River, 5 miles S of Harrison Bay, Arctic Plain; 70° 18' N, 151° 09 W; (map 149). Presumably named by personnel of the Naval Petroleum Reserve No. 4 explorations in the late 1940's.

Oil Point: point of land, at mouth of Oil Bay, 20 miles NE of Augustine Island, Aleutian Range; 59° 38' N, 153° 14' W; (map 51). Name published in 1916 by USC&GS.

Oil Reef: reef, at mouth of Oil Bay, 19 miles N of Augustine Island, Aleutian Range; 59° 37' 20" N, 153° 18' 00" W; BGN 1916; (map 51). Name published in 1913 on USC&GS Chart 3420.

Oiluluk Lake: lake, 0.4 miles across, 1 mile W of Okstukuk Lake and 23 miles N of Dillingham, Bristol Bay Lowland; 59° 33' N, 158° 20' W; (map 52). Eskimo name shown as "Oi-lu-luk" on a 1910 manuscript map by H. C. Fassett, USBF.

Oily Lake: lake, 5 miles long, on Malaspina Glacier, S of Samovar Hills and 53 miles NW of Yakutat, St. Elias Mountains; 60° 08' N, 140° 40' W; (map 66). Name published by USGS in 1959. A lake this size does not appear on the USGS 1951 map, therefore it may be relatively new or intermittent.

Oinak Point: point of land, see Ooynik Point.

Oinathluk Point: point of land, in Lake Beverly at entrance to Silver Horn, 46 miles NW of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 41' N, 158° 50' W; (map 52). Eskimo name shown on a 1910 manuscript map as "Oi-na-thluk Point" by H. C. Fassett, USBF.

Oinuklagowik: locality, see Uinuk.

OK Creek: stream, flows SE 3.7 miles to Jackson Creek which flows to Bonanza River, 5 miles NW of Solomon, Seward Peninsula Highlands; 64° 37' N, 164° 33' W; (map 95). Variant: West Fork Jackson Creek. Prospectors' name shown on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Ok-su-kok: lake, see Okstukuk Lake.

Okak Bend: bend, in Noatak River, 15 miles SW of Feniak Lake, Brooks Range; 68° 03' N, 158° 33' W; (map 132). Eskimo name meaning "tongue" [oqaq] reported by P. S. Smith (1913, p. 4S), USGS. He also mentions an abandoned Eskimo village located on the N side of the river on the bend.

Okalee Channel: channel, 4 miles long, between Kanak Island and Wingham Island, 10 miles SE of Katalla, Malaspina Coastal Plain; 60° 05' N, 144° 20' W; (map 64). Named in 1903 by J. F. Pratt, USC&GS for nearby Okalee Spit.

Okalee River: stream, flows SW 13 miles to Controller Bay, 20 miles SE of Katalla, Malaspina Coastal Plain; 60° 03' N, 144° 01' W; (map 64). Local name reported by F. H. Moffit (1914, pl. 1), USGS.

Okalee Spit: spit, extends 9 miles into SE end of Controller Bay, 15 miles SE of Katalla, Malaspina Coastal Plain; 66° 02' N, 144° 15' W; (map 64). Variant: Ocalee Spit, Octallee Spit, Octillee Spit, Okali Spit. Local name reported in 1903 by G. C. Martin (1905, pl. 3), USGS. It was also reported in 1903 as Ocalee Spit on a USC&GS preliminary chart.

Okali Spit: spit, see Okalee Spit.

Okalik Lake: lake, S miles long, between Teshekpuk Lake and Beaufort Sea, Arctic Plain; 70° 49' 15" N, 153° 23' 30" W; (map 148). Eskimo name (oqaqlik) reported by USGS in 1956, meaning "having tongue."

Okaveenok: village, see Teller Mission.

Okavigamut: locality, see Uknavik.

Okee Bay: bay, 2 miles across, on SW coast of Umnak Island, Aleutian Islands; 53° 01' 30" N, 168° 49' 15" W; (map 22). Local name reported in 1938 by USC&GS.

Okee Point: point of land, on SW coast of Umnak Island, Aleutian Islands; 53° 01' 00" N, 168° 51' 30" W; BGN 1940; (map 22). Name given in 1938 by USC&GS, "because the sheep station in the bay to the east is known locally as Okee Bay."

Okeekuk Mountain: mountain, see Okikak Mountain.

Okerokovik Creek: stream, see Okerokovik River.

Okerokovik River: stream, heads in Romanzof Mountains at 69° 23' N, 143° 16' W, flows 40 miles N to Jago River, 18 miles SE of Barter Island, Arctic Plain; 69° 51' N, 143° 25' W; BGN 1959; (map 138). Variant: Okerokovik Creek, Okrokovik River, Ukerukuvik River. Eskimo name reported by Leffingwell (1919, p. 98) to mean "place where there is a blubber cache." Diamond Jenness spells it "Ukerukuvik." I

Okfauchavuk Slough: watercourse, in Yukon Delta, extends E-W 2.6 miles between Kwipak Pass and Naringolapak Slough, 17 miles E of Kwiguk, Yukon-Kuskokwim Delta; 62° 42' 15" N, 163° 58' 00" W; (map 77). Variant: Okpfauchakuk Slough. Eskimo name obtained by R. L. Faris, USC&GS, in 1899.

Okhagamute: locality, see Oknagamut.

Okhkan Nayra Lagoon: lagoon, see Ongoveyuk Lagoon.

Okhnagamiut: locality, see Akahamut.

Okhnagamiut: locality, see Oknagamut.

Okhogamute: locality, see Oknagamut.

Okiben Island: island, see King Island.

Okikak Mountain: mountain, 1,076 ft., 36 miles SE of Savoonga, on St. Lawrence Island; 63° 21' N, 169° 39' W; BGN 1951; (map 93). Variant: Mount Ookikok, Okeekuk Mountain: Eskimo name reported in 1932 by O. W. Geist, Univ. of Alaska

Okilerit: locality, see Kitnepaluk.

Okinoyoktokawik: locality, on N shore of Norton Sound, about 19 miles W of Nome, Seward Peninsula Highlands; 64° 34' N, 166° 04' W; (map 94). Former Eskimo village or camp reported in the 1890 Census (1893, p. 162).

Okiotak Creek: stream, in Baird Mountains, flows NE 11 miles to Akikukchiak Creek 6 miles S of its junction with Noatak River, 60 miles NE of Noatak Brooks Range; 67° 52' N, 161° 02' W; (map 127). Eskimo name obtained in 1955 by U.S. Army Corps of Engineers.

Okiotak Peak: mountain, 5,320 ft., on E bank of Sadlerochit River, 3 miles NW of Lake Schrader and 23 miles NW of Mount Michelson, Brooks Range; 69° 26' N, 145° 08' W; BGN 1961; (map 139). Local name reported in 1960 by USGS. "Okiotak," the Eskimo name for the American gyrfalcon, is reported to mean "one that stays all winter."

Okipiksuk River: stream, see Okpiksak River.

Okivaki: rock, see Fairway Rock.

Okkutweek River: stream, see Owhat River.

Oklashok: stream, see Alatna River.

Oklighiat Hill: hill, 300 ft., 2.5 miles NE of Southwest Cape, 2 miles SE of Oongayuk Hill and 33 miles SE of Gambell, St. Lawrence Island; 63° 20' N, 171° 23' W; BGN 1951; (map 93). Variant: Oklighiat Peak. Eskimo name reported in 1949 by Maj. H. B. Allen, USAF.

Oklighiat Peak: hill, see Oklighiat Hill.

Oklune Mountains: mountains, see Ahklun Mountains.

Okmok Caldera: crater, 3,400 ft., 6.5 miles across, on NE part of Umnak Island, Aleutian Islands; 53° 26' N, 168° 07' W; BGN 1966; (map 22). Variant: Okmok Volcano. Name reported in 1946 by USGS.

Okmok Volcano: crater, see Okmok Caldera.

Okmok Volcano: mountain, see Okmok, Mount.

Okmok, Mount: mountain, 3,519 ft., at NW end, Umnak Island, Aleutian Islands; 53° 24' N, 168° 08' W; BGN 1966; (map 22). Variant: Okmok Volcano. Local name reported in 1946 by USGS.

Oknagak: locality, see Oknagamut.

Oknagamiut: locality, see Uknavig.

Oknagamut: locality, on N bank of Kuskokwim River 1.8 miles E. of Kalskag and 18 miles W of Aniak, Yukon-Kuskokwim Delta; 61° 33' 30" N, 160° 04' 30" W; (map 73). Variant: Ohhagamiut, Okhagamute, Okhnagamiut, Okhogamute, Oknagak, Oknagamute, Oohogamute, Ukhagmiut. Former Eskimo village, meaning "people [village] on the other

side of the river;" reported as "Ukhagmyut," by Lt. L. A. Zagoskin, IRN, in 1842-44. In 1879 W. E. Nelson, U.S. Signal Service, recorded "Okhagamute." Ivan Petroff's 1880 Census report lists a population of 130. The spelling "Oknagamut" was established by USC&GS in 1897 on the authority of Rev. J. H. Kilbuck, Moravian missionary. See Ohogamiut.

Oknakluk: lake, see Kukaklik Lake.

Oknakuchak River: stream, see Anerkochik River.

Oknavigamut: locality, see Uknavig.

Okok Point: locality, on right bank of Kobuk River, 28 miles NW of Selawik, Kotzebue-Kobuk Lowland; 66° 56' N, 160° 30' W; (map 114). Former trading post reported in 1927 by USGS.

Okok River: stream, flows SE 8 miles to Bering Sea, 3 miles NE of Southwest Cape, St. Lawrence Island; 63° 20' N, 171° 22' W; BGN 1951; (map 93). Variant: Ookook River. Eskimo name meaning "tongue" [oqaq], reported in 1949 by Maj. H. B. Allen, USAAF.

Okoklik Lake: lake, 2 miles long, NW of Lake Kangilipak, in Noatak River Valley, 49 miles SE of Misheguk Mountain, Brooks Range; 68° 01' N, 159° 16' W; (map 131). Eskimo name meaning "it is warm" reported by USGS in 1956.

Okokmilaga River: stream, formed by Sulugiak and Agiagiak Creeks, flows N 50 miles to Killik River 18 miles SE of its junction with Colville River, Brooks Range; 68° 49' N, 153° 26' W; (map 133). Variant: Chandler River. Name reported about 1946 by USGS geologists during exploration of Naval Petroleum Reserve No. 4. This stream is shown as "Chandler River" on 1924 fieldsheet by Gerald FitzGerald, USGS, because it was thought to drain Lt. Stoney's "Chandler Lake."

Okolaksak Lake: lake, see Ocolaksuk Lake.

Okonagun Creek: stream, flows N 7 miles to Middle Fork Okpikruak River 4.5 miles S of its junction with Okpikruak River, Brooks Range; 68° 31' N, 153° 29' W; (map 133). Eskimo name shown on location label attached to mineral claim stake. Claim reads "Kamik claim. East bank of Okonagoon Creek * * * Noatak-Kobuk Mining district. Billy Morry." Reported about 1950 by USGS geologists.

Okonchatelnie: point of land, see Termination Point.

Okonchatelnyy, Mys: point of land, see Termination Point.

Okotak Creek: stream, in DeLong Mountains, flows SW 20 miles to Trail Creek SW of Mishegak Mountain, Brooks Range; 68° 12' 15" N, 161° 18' 00" W; BGN 1961; (map 131). Eskimo name obtained at Noatak in 1956 by Orth, meaning "sheltered" or "protected from the wind" [oqotaq].

Okpeluk River: stream, see Okpilak River.

Okpfauchakuk Slough: watercourse, see Okfauchavuk Slough.

Okpikruak River: stream, flows NE 43 miles to Okokmilaga River 6 miles S of its junction with Killik River, Brooks Range; 68° 44' N, 153° 20' W; (map 133). Eskimo name reported in 1951 by USGS geologists during exploration of Naval Petroleum Reserve No. 4.

Okpiksak River: stream, flows N 17 miles to the Meade River, 42 miles S of Barrow, Arctic Plain; 70° 41' 45" N, 156° 37' 30" W; (map 147). Variant: Okpiksook River, Okipiksuk River, Okpiksuk River. Eskimo name referring to the "owl [ukpik]," shown on a 1923 fieldsheet by E. C. Guerin, USGS, as "Okpiksook River."

Okpiksook River: stream, see Okpiksak River.

Okpiksugruk Creek: stream, flows S 11.5 miles to Asikpak Lagoon, 12 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 51' 20" N, 164° 51' 00" W; BGN 1963; (map 128). Variant: Oakpisoorook River, Obesukrak River, Okpiksurok Creek, Okpisoorook River, Okpisuruk Creek, Okpisuruk River, Ookpiksoogrum Koonga, Uqpiqsugzum Kunga, West Fork Oakpisoorook River. Eskimo name meaning "there are lots of willows," reported in 1950 by USC&GS.

Okpiksugruk: locality, on left bank of Okpiksugruk Creek, 14 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 52' N, 164° 51' W; (map 128). Variant: Ookpiksoogruk, Uqpiqsuquq, Oakpisoorook. Eskimo name meaning "there are lots of willows" reported in 1966 by E. S. Burch.

Okpiksuk River: stream, see Okpiksak River.

Okpiktalik: locality, see Opiktulik.

Okpiktolik: locality, see Opiktulik.

Okpilak Glacier: glacier, 6 miles long, in Romanzof Mountains, at head of Okpilak River, 9 miles S of Mount Michelson, Brooks Range; 69° 09' N, 144° 12' W; BGN 1961; (map 139). Leffingwell does not list this as a geographic name, but his text (1919, pl. 18) includes photographs of Okpilak Glacier. Named for the stream that heads at its foot.

Okpilak Lake: lake, 0.5 miles long, on E bank of Okpilak River, 9 miles NE of Mount Michelson, Brooks Range; 69° 25' N, 144° 03' W; BCN 1961; (map 139). Name published in USGS Open File Report 498, dated 1959. It was named for the Okpilak River.

Okpilak River: stream, heads at Okpilak Glacier in Romanzof Mountains and flows N 70 miles to Camden Bay, Arctic Plain; 70° 04' N, 144° 03' W, BGN 1961; (map 151). Variant: Okpeluk River, Okpilok River. Eskimo name meaning "no willows," reported by Leffingwell (1919, p. 98), who explored to the stream's head in May 1907 with H. T. Arey.

Okpilak Valley: valley, 15 miles long, in N slope of Romanzof Mountains, 6 miles NE of Mount Michelson, Brooks Range; 69° 28' N, 144° 00' W; (map 139). Leffingwell does not list this but wrote (1919, p. 134) of "the deepening of the Okpilak Valley * * *."

Okpilatok Bluff: hill, 600 ft., on Chukchi Sea coast, 8 miles S of Cape Lisburne, Arctic Slope; 68° 46' N, 166° 11' W; (map 129). Variant: Oak-pi-lah-took Bluff. Eskimo descriptive name reported in 1950 by USGS to mean “red appearing” and spelled “Oak-pi-lain-took.”

Okpilok River: stream, see Okpilak River.

Okpirourak Creek: stream, heads at glacier near Fox Point, in Romanzof Mountains, flows 36 miles NE to Jago River, 24 miles S of Barter Island, Arctic Plain; 69° 44" N, 143° 37' W; (map 138). Eskimo name reported by Leffingwell (1919, p. 98) to mean “a few willows.”

Okpisorook River: stream, see Okpiksugruk Creek.

Okpisuruk Creek: stream, see Okpiksugruk Creek.

Okpisuruk River: stream, see Okpiksugruk Creek.

Okroknakpak Lakes: lakes, on left bank of Colville River, 32 miles E of Liberator Lake, Arctic Slope; 68° 53' N, 157° 00' W; (map 132). Eskimo name reported by T. E. Taylor, USGS, in 1956. It means “place of the big lemming” and is supposed to refer to the legend of the “huge lemming that ate people.” This area was once a popular hunting and fishing area.

Okrokovik River: stream, see Okerokovik River.

Okkurat Creek: stream, flows 2 miles W to Chukchi Sea, 5.8 miles S. of Cape Dyer, Arctic Slope; 68° 34' 08" N, 166° 13' 50" W; (map 129). Variant: Oakwroorut Creek, Oggrurak Creek. Eskimo descriptive name reported in 1950 by USGS to mean “white rocks” and spelled “Oak-wroo-rut.”

Oksenof Bay: beach, see Oksenof Beach.

Oksenof Beach: beach, 4.5 miles long, between Cave Point and Oksenof Point, on NW coast of Unimak Island, Aleutian Islands; 54° 49' 00" N, 164° 34' 30" W; BGN 1942; (map 24). Variant: Bukhta Oksenova, Oksenof Bay. Russian name reported by Father Veniaminov (1840, v. 2, p. 213) as “Bukh[ta] Oksenova”; i.e. “Oksenova Bay” and published as Oksenof Bay by Baker (1906, p. 479). The name Oksenof Beach was given by USC&GS in 1940 to eliminate the misleading term “bay.”

Oksenof Point: point of land, 5 miles SW of Cape Mordvinof, on NW coast of Unimak Island, Aleutian Islands; 54° 53' N, 164° 33' W; BGN 1942; (map 24). Variant: Cape Lapin, Cape Mordvinof, Mys Mordvinove, Mys Oksenova, Ragged Point. Named in 1940 by USC&GS. The Russians called this point “Mys Mordvinove (Oksenova);” i.e. “Cape Mordvinov (Oksenov)” (Capt. Tebenkov, 1852, map 25). Baker (1906, pl. 445) calls it Cape Mordvinof.

Oksenof: point of land, see Mordvinof, Cape.

Oksenova, Bukhta: beach, see Oksenof Beach.

Oksenova, Mys: point of land, see Mordvinof, Cape.

Oksenova, Mys: point of land, see Oksenof Point.

Okshokuhewhik Pass: watercourse, see Okshokwewhik Pass.

Okshokwewhik Pass: watercourse, in Yukon Delta, flows NE 20 miles from Kwikpak Pass to Norton Sound, Yukon-Kuskokwim Delta; 63° 13' N, 163° 50' W; (map 92). Variant: Okshokuhewhik Pass. Eskimo name reported in 1899 by G. R. Putnam, USC&GS; published in 1901 on Chart 9372.

Oksik Channel: stream, tributary of Kobuk River, flows W 10 miles to Nazuruk Channel, Kobuk River, 32 miles NW of Selawik, Kotzebue-Kobuk Lowland; 66° 54' N, 160° 54' W; (map 114). Eskimo name obtained in 1955 by U.S. Army Corps of Engineers.

Oksik Creek: stream, flows NW 12 miles to Oksik Channel, Kobuk River, 29 miles NW of Selawik, Kotzebue-Kobuk Lowland; 66° 52' N, 160° 48' W; (map 114). Eskimo name obtained in 1955 by U.S. Army Corps of Engineers.

Oksik: locality, see Tenmile Post.

Oksik: village, see Noorvik.

Oksotalik Creek: stream, flows SE 25 miles to Chukowan River 12 miles W of its junction with Holitna River, 67 miles SW of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 51' N, 158° 11' W; BGN 1948; (map 60). Eskimo name reported in 1945 by USGS to mean "place of heads."

Oksrukuyik: locality, on Sagavanirktok River, at mouth of Ribdon River, Arctic Slope; 68° 49' N, 148° 48' W; (map 135). Eskimo name reported in 1956 by USGS.

Okstukuk Lake: lake, 2 miles long, 16 miles SW of Kemuk Mountain and 35 miles N of Dillingham, Bristol Bay Lowland; 59° 33' N, 158° 18' W; BGN 1931; (map 52). Variant: Ok-su-kok. Eskimo name shown as "Ok-su-kok" on a 1910 manuscript map by H. C. Fassett, USBF.

Oksuguokok Lake: lake, 1.6 miles long, 5 miles N of Okstukuk Lake, and 41 miles N of Dillingham, Bristol Bay Lowland; 59° 37' N, 158° 20' W; (map 52). Eskimo name shown as "Ok-su-guok-ok" on a 1910 manuscript map by H. C. Fassett, USBF.

Okulak Lagoon: lagoon, see Aukulak Lagoon.

Okumiak, Mount: mountain, 1,565 ft., on a ridge between Wilson and Spruce Creeks 6 miles SE of Marshall, Nulato Hills; 61° 50' N, 161° 55' W; (map 73). Eskimo name reported by Harrington (1918, map), USGS, in 1916.

Okwega Pass: watercourse, in Yukon Delta, extends NE 7.5 miles from Apoon Pass to Pastol Bay, 40 miles NE of Kwiguk, Yukon-Kuskokwim Delta; 63° 07' N, 163° 31' W; (map 92). Eskimo name obtained in 1898 by USC&GS; published on Chart 9370.

Olaf Lake: lake, 1 mile long, 18 miles SE of Beaver, Yukon Flats; 66° 12' 20" N, 146° 52' 00" W; (map 119). Local name obtained in 1956 by USGS.

Olai, Gora: peak, see Alai, Mount.

Olai, Mount: peak, see Alai, Mount.

Olav Mountain: peak, see Alai, Mount.

Olavide, Punta: point of land, see Icy Cape.

Old Albert Lake: lake, 1.8 miles long, SE of Dathlalmund Lake, 22 miles S of Tok, Alaska Range; 63° 04' N, 142° 33' W; (map 85). Local name published by USGS in 1965.

Old Andreafsky: locality, on right bank of Yukon River, 3.5 miles NW of Pitkas Point and 44 miles NW of Marshall, Yukon-Kuskokwim Delta; 62° 03' 45" N, 163° 22' 45" W; (map 77). Variant: Andreafski, Andreafski Redoubt, Andreavski Redut, Andreafsky, Andreaivsky, Andreievsky. The surname "Andreyevskaya," i.e. "Andrew's," was applied to a fort established by the Russians about 1853. The redoubt was "built in the form of a square, the buildings making two of the sides, and a stockade the other two. It contained barracks, a store, magazine, cook-house and bath-house" (Dall, 1870, p. 231). It was the site of an Indian massacre in August 1855. Andreyevski Redoubt was located at or near the Eskimo village shown on early maps as Andreafski (or Andreafsky), but after a village of the same name was established on the Andreafsky River, the qualifying "Old" was added. See Andreafsky.

Old Auke Village: locality, see Auke.

Old Bogoslof Island: island, see Fire Island.

Old Buckland: village, see Buckland.

Old Cache Lake: lake, 1.5 miles long, E of Spectacle Lake and 6 miles SW of junction of Herron and Foraker Rivers, Tanana Lowland; 63° 35' 30" N, 152° 20' 00" W; (map 88). Local name reported in 1954 by USGS.

Old Camp: locality, on S bank of Porcupine River, at mouth of Salmon Trout River, 31 miles NE of Coleen Mountain, Porcupine Plateau; 67° 10' N, 141° 40' W; (map 121). Name reported in 1956 by USGS, for a place consisting of two cabins.

Old Channel Creek: stream, flows SW 2.5 miles to McCumber Creek, 26 miles SE of Delta Junction, Alaska Range; 63° 42' 05" N, 145° 32' 40" W; BGN 1937; (map 86). Local name reported in 1937 by USGS.

Old Chatanika: settlement, see Chatanika.

Old Chevak: locality, on N bank of Keoklevik River, 9 miles E of village of Hooper Bay, Yukon-Kuskokwim Delta; 61° 26' N, 165° 31' W; (map 75). This site was a village called "Chevak," until about 1950 when the Eskimo population moved to a new site also called "Chevak." The original site was abandoned because of occasional flooding from high storm-tides. The name "Chevak" refers in meaning to "a connecting slough."

Old Creek: stream, flows NW 25 miles to King Salmon River, on Alaska Peninsula, 20 miles SW of Ugashik, Bristol Bay Lowland; 57° 17' 15" N, 157° 42' 30" W; (map 36). Named in 1923 by R. H. Sargent, USGS, for "Sidney Old, one of his packers and packer with previous USGS expeditions."

Old Crow River: stream, heads at E end of Davidson Mountains, flows SE 175 miles across Alaska-Canada boundary to Porcupine River in Yukon, Canada, Porcupine Plateau; 67° 34' 30" N, 139° 50' 00" W; (map 137). Name reported in 1895 by USC&GS.

Old Cutoff Trading Post: locality, on left bank of Koyukuk River, 4 miles SW of Whitefish Lake and 15 miles NE of Roundabout Mountain, Koyukuk Lowland; 65° 45' N, 156° 23' W; (map 108). Trading post, now abandoned in favor of Huslia.

Old Cutoff: village, see Huslia.

Old Dummy Lake: lake, 1.7 miles long, 6.5 miles SE of junction of Kanuti Kilolitna and Kanuti Rivers, 24 miles SE of Allakaket, Kanuti Flats; 66° 08' N, 151° 51' W; (map 117). Local name published in 1951 by USGS; the lake is said to have been named for a deaf-mute Indian.

Old Fort Hamilton: village, see Hamilton.

Old Franks Creek: stream, flows NE through Old Franks Lake and Lake Mary 14 miles to Skowl Arm Kasaan Bay, on E coast of Prince of Wales Island; Alexander Archipelago; 55° 25' 30" N, 132° 28' 00" W; (map 4). Local name published in 1920 by USC&GS.

Old Franks Lake: lake, 1.5 miles long, in course of Old Franks Creek, on Prince of Wales Island, NW of Skowl Arm Kasaan Bay, Alexander Archipelago; 55° 26' 20" N, 132° 32' 00" W; (map 4). Local name published in 1920 by USC&GS.

Old Glory Creek: stream, flows NE 7.3 miles to Pinnell River which flows to Inmachuk River, 17 miles of Imuruk Lake, Seward Peninsula Highlands; 65° 52' N, 163° 05' W; BGN 1952; (map 110). Prospector's name reported in 1901 by USGS (Collier, 1902, pl. 12).

Old Grouchtop: mountain, 1,268 ft., W of Dishna River, 35 miles NW of Ophir and 65 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 19' N, 157° 35' W; (map 90). Name published in 1965 by USGS.

Old Hamilton: village, see Hamilton.

Old Harbor Bay: bay, see Starrigavan Bay.

Old Harbor: bay, see Barling Bay.

Old Harbor: bay, see Staraya Bay.

Old Harbor: cove, N side of Makushin Bay, W coast of Unalaska Island, Aleutian Islands; (map 23). Variant: Stary Gavan. Translation of the Russian "Star[y] Gavan," or "old harbor," by Capt. Tebenkov (1852, map 26), IRN. The name does not appear on modern maps. Baker (1906, p. 479) reported "the present settlement of Makushin is on its shores."

Old Harbor: cove, see Three Saints Harbor.

Old Harbor: locality, see Nunamiut.

Old Harbor: locality, see Three Saints Harbor.

Old Harbor: village, pop. 193, on W shore of Sitkalidak Strait, 56 miles SW of Kodiak, Kodiak Island; 57° 12' 15" N, 153° 18' 00" W; (map 34). Variant: Nunamiut, Staruigavan, Three Saints Harbor. Name reported in the 11th Census in 1890 (1893, p. 77) as "Old Harbor, named Staruigavan by the Russians and Nunamiut by the natives * * *." This settlement, containing now less than 100 people, was once an important station of the Russian Fur Company * * *." The Old Harbor post office was established in 1931 (Ricks, 1965, p.48). See Three Saints Harbor, locality.

Old Iliamna: locality, site of village, at E end of Iliamna Lake, on N bank of Iliamna River, 30 miles E of Iliamna, Aleutian Range; 59° 45' N, 153° 53' W; BGN 1941; (map 51). Variant: Iliamna, Ilyamna, Odinochka. Eskimo village reported by Ivan Petroff as "Ilyamna" in the 10th Census in 1880 (1884, p. 17). This site became known as "Old Iliamna" about 1935 after the people moved to a new location. Capt. Tebenkov (1852, map 5), IRN, recorded the name of "Odinochka," which is derived from "odinochnyy," meaning "isolated" or, possibly, "lone house."

Old John Lake: lake, 5 miles long, at head of Vanticlese Creek, 11 miles SE of Arctic Village, Brooks Range; 68° 04' N, 145° 03' W; (map 136). Local name for "an old Indian who lived on the lake"; name shown on a 1926 fieldsheet by Gerald FitzGerald, USGS.

Old John Mountain: mountain, 3,720 ft., 4 miles N of Old John Lake and 14 miles E of Arctic Village, Brooks Range; 68° 08' N, 144° 59' W; (map 136). Local name reported in 1956 by R. C. Foley, USGS.

Old Johns River: stream, see John River.

Old Kaguyak Bay: bay, 0.7 miles across, 1.5 miles S of Kaguyak, on SE coast of Kodiak Island; 56° 50' 20" N, 153° 46' 00" W; (map 33). Name derived from village of Kaguyak; published in 1943 by USC&GS.

Old Kaltag: locality, on right bank of Yukon River, 53 miles SW of Nulato and 21 miles S of Kaltag, Nulato Hills; 64° 01' N, 158° 49' W; (map 97). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by U.S. Dept. of Interior. This may be the site of "Lower Kaltag" listed in 1880 Census. See Kaltag.

Old Kasaan: locality, on N shore of Skowl Arm on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 26' N, 132° 23' W; (map 4). Variant: Chat-chee-nie, Gasan, Kasaan, Kasaan Bay, Kasian, Kasi-an, Kassan, Kassan Haade, Skowl. Former Haida Indian village possibly estate fished before 1800. "Chat-chee-nie" shown in John Work's list of 1836-41 may represent the Haida name for the town. The Tlingit Indian name, Kasaan, derived from "Kasi-an" meaning "pretty town," came into local usage; pronounced "Gasa'n" by the Haida (Hodge, 1907, p. 660), and so named because of the large number of ornate

totems located in the village. Listed by Ivan Petroff in the 1880 Census as Kasaan (and "Skowl"), population 173, which decreased to 46 in 1890. With the establishment in the 1890's of a salmon-packing plant on Kasaan Bay 8 miles to the north, this place was abandoned. The Haida settlement, that grew around the cannery, was known as "Kasaan," especially after the Kasaan post office was established in 1900 and the earlier site became "Old Kasaan." In 1916, this village site was part of Old Kasaan National Monument. The National Monument status was abolished in 1955 and the village site is now part of Old Kasaan Village Historical Area, administered by the U.S. Forest Service.

Old Kashunuk Village: locality, see Kashunuk Village.

Old Kealavik: locality, on Kealavik River near Newtok, Yukon-Kuskokwim Delta; 61° 00' N, 164° 45' W (map 58). Variant: Kealavik, Keyaluvik. Former Eskimo village reported in 1949 by USC&GS as "A sod hut village on the Kealavik River very recently abandoned in favor of New Kealavik. See Newtok."

Old Keegik: locality, see Kijik.

Old Khootznahoo: locality, see Letushkwin.

Old Kinognak: village, see Kinognak.

Old Knik: village, see Eklutna.

Old Kotzebue: locality, near mouth of Kobuk River, about 30 miles E of Kotzebue, Kotzebue-Kobuk Lowland; near 66° 50' N, 161° 00' W; (map 114). Site of an Eskimo village reported in 1953 by J. W. Van Stone.

Old Kukak: locality, see Kukak.

Old Kvichak: village, see Levelock.

Old Kwipakamiut: locality, see Kwipak.

Old Lost Creek: stream, flows W 20 miles to Yukon River, 18 miles NE of Stevens Village, Yukon Flats; 66° 08' 10" N, 148° 32' 40" W; (map 118). Local name obtained in 1956 by USGS.

Old Man Creek: stream, flows NE 11 miles to Little Nelchina River, 47 miles W of Glennallen, Copper River Basin; 62° 03' N, 146° 59' W; BGN, 1960; (map 83). Local name reported in 1935 by USGS

Old Man Creek: stream, flows S 17 miles to Mulchatna River, 85 miles NE of Dillingham, Bristol Bay Lowland; 59° 52' N, 156° 42' W; (map 52). Local name published in 1951 by USGS.

Old Man Creek: stream, heads at glacier, in Tordrillo Mountains, flows NE 11 miles to Skwentna River 71 miles NW of Tyonek, Alaska Range; 61° 57' 3" N, 152° 12' 45" W; (map 70). Local name reported in 1958 by USGS

Old Man Creek: stream, in Romanzof Mountains, heads on Mount Michelson, flows N 12 miles to Hulahula River, Brooks Range; 69° 29' N, 144° 23' W; BGN 1961; (map 139). Variant: Angayukasrakvik Creek. A translation of an Eskimo name used by USGS geologists in 1948. The Eskimo name "Angayukasrakuvik, refers to "old man" in its meaning' but was thought to be too long for map usage.

Old Man Creek: stream, see Kanuti River.

Old Man Lake: lake, 0.7 miles long, 6 miles SE of Peter John Mountain and 22 miles SE of Arctic Village, Brooks Range; 68° 01' 35" N, 144° 43' 30" W; (map 136). Local name reported in 1956 by R. C. Foley, USGS.

Old Man Lake: lake, 1.5 miles long, oxbow of Black River Slough, 13 miles NE of Fort Yukon, Yukon Flats; 66° 37' 25" N, 144° 47' 00" W; (map 119). Local name obtained in 1956 by USGS.

Old Man Lake: lake, 3.4 miles long, in course of Mendeltna Creek, 36 miles NW of Glennallen, Copper River Basin; 62° 08' N, 146° 40' W; (map 83). Local name reported by USGS (in Moffit, 1915, pl. 6).

Old Man River: locality, see Kanuti.

Old Man River: stream, see Kanuti River.

Old Man Rocks: rocks, off NE tip of Sedanka Island, in Fox Islands, Aleutian Islands; 53° 52' 15" N, 166° 04' 45" W; (map 23). Name given by J. J. Gilbert, commander of the USC&GS steamer Pathfinder during 1900-01.

Old McGrath: town, see McGrath.

Old Morzhovoi: village, see Morzhovoi.

Old Nikolai: village, see Nikolai.

Old Ninilchik: locality, pop. 20, near Ninilchik on W coast of Kenai Peninsula, 38 miles SW of Kenai, Cook Inlet Lowland; 60° 05' N, 151° 40' W; (map 62). This is an earlier site of Ninilchik. See Ninilchik.

Old Pastolik: locality, near Pastolik along Pastolik River 40 miles NE of Kwiguk, Yukon-Kuskokwim Delta; (map 77). This is probably an earlier site of Pastolik. See Pastolik.

Old Rampart: settlement, pop. 6, on right bank of Porcupine River opposite mouth of Salmon Trout River, 31 miles ENE of Coleen Mountain, Porcupine Plateau; 67° 10' N, 141° 40' W; (map 121). Variant: Old Village. FitzGerald (1944, p.241), USGS, wrote in 1939 "Old Rampart, one of the largest settlements on the Porcupine River west of the 141st meridian * * * a population of about 30 * * * has a small trading store and several well-built log cabins."

Old Red River: stream, see Ayakulik River.

Old Roadhouse Lake: lake, 0.7 miles long, N of Iliamna Lake, 3 miles NE of Iliamna, Aleutian Range; 59° 48' N, 154° 51' W; (map 51). Local name published in 1954 by USGS.

Old Saltery: locality, along Snake River about 3 miles N of its mouth on Nushagak Bay, 9 miles NW of Ekuk, Bristol Bay Lowland; 58° 55' N, 158° 46' W; (map 40). Local name reported during the 1930's by USGS.

Old Saulich: locality, on The Alaska Railroad, 17 miles W of Fairbanks, Tanana-Yukon Highlands; 64° 51' N, 148° 16' W; (map 100). Former railroad station. See Saulich.

Old Settlement: locality, see Staraya Artil.

Old Sitka Harbor: bay, see Starrigavan Bay.

Old Sitka Rocks: rocks, 5 miles NW of Sitka, off NW coast of Baranof Island, Alexander Archipelago; 57° 06' 45" N, 135° 24' 00" W; (map 9). Name published by USC&GS in the 1891 Coast Pilot (p. 177). They were named for Old Sitka, 2 miles to the north.

Old Sitka: locality, on NW coast of Baranof Island, on Starrigavan Bay, 5.5 miles N of Sitka, Alexander Archipelago; 57° 07' 50" N, 135° 22' 20" W; (map 9). Variant: Starri-gavan, Fort Archangel Gabriel, Mikhailovsk. Site of the Russian fort and settlement founded in 1799 by A. A. Baranov, called "Mikhailovsk," because it was put under the patronage of Saint Michael Archangel. The fort was destroyed by Tlingit Indians in June 1802, and when Russian settlement was reestablished in 1804 the fort, built in a new location, was called New Archangel. See Sitka. The old site became known to the Russians as "Starri-gavan" meaning "old harbor." This may be the same place listed in the 1880 census as "Old Sitka," population 73 (1884, P. 32).

Old Skwentna Roadhouse: locality, on W bank of Skwentna River, 56 miles NW of Tyonek, Alaska Range; 61° 52' 50" N, 151° 20' 45" W; (map 70). Site of a former roadhouse shown on a 1954 USGS map . This roadhouse was probably one of several built about 1915 to accommodate miners who traveled the winter trail from the Susitna River to the mining camps at Innoko and Iditarod (Smith and others, 1929, p. 69).

Old Snowy: peak, 9,700 ft., W of Gerstle Glacier, 31 miles N of Paxson, Alaska Range; 63° 28' 40" N, 145° 23' 35" W; (map 86). Name published on relatively recent maps.

Old Station Island: island, see Station Island.

Old Telida: village, see Telida.

Old Token: locality, on NW end of Marble Island, 38 miles NW of Craig, Alexander Archipelago, 55° 59' 45" N, 133° 27' 55" W; (map 4). Variant: Token, Tok-Hene, Tokhin, Tokhini. Site of an abandoned marble quarry; shown as "Token" on a 1951 USGS map . A post office was maintained here from 1909 to 1938 (Ricks, 1965, p. 65-66). Name is derived from the Tlingit Indian name "Tokhin," or "Tokhini," meaning "Tok River," which was applied to a stream on nearby Kosciusko Island. It was recorded in 1897 as "Tok-Hehe" and in 1901 as

“Tok-Hene” by Lt. Comdr. J. F. Moser, USN, commander of the USBF steamer Albatross. See Tokeen.

Old Tom Creek: stream, flows N 3 miles to mouth of McKenzie Inlet, on E coast of Prince of Wales Island, S of Skowl Arm Kasaan Bay, Alexander Archipelago; 55° 24' 15" N, 132° 23' 30" W; (map 4). Local name recorded in 1897 by Lt. Comdr. J. F. Moser, USN.

Old Tyonek Creek: stream, flows SE 11.8 miles to Beshta Bay, 6 miles SW of Tyonek, Cook Inlet Lowland; 61° 01' 50" N, 151° 18' 20" W; (map 70). Local name reported in 1958 by USGS.

Old Tyonek: settlement, on NW shore of Cook Inlet, 4.5 miles SW of Tyonek, Cook Inlet Lowland; 61° 02' 20" N, 151° 17' 00" W; BGN 1952, (map 70). Variant: Toyoniek, Toyonok, Tyonek Station. Tanaina Indian village reported by USGS about 1898.

Old Valdez: locality, on N shore of Port Valdez, 4 miles W of Valdez, Chugach Mountains; 61° 07' 45" N, 146° 21' 20" W; (map 68). Variant: Copper City. Former landing and mining camp called originally “Copper City”; established in 1897 as an outfitting point for miners. A post office was established here in 1899 and the town was incorporated July 1, 1901. In 1903 the town was moved to the delta at the head of Port Valdez. After the destructive earthquake of 1964, plans were made to move Valdez back to this, its original site.

Old Village Stream: stream, see Thoms Creek.

Old Village: locality, on right bank of Telaquana River, 0.5 miles W of Lake Telaquana and 72 miles NE of Nondalton, Alaska Range; 60° 57' 45" N, 154° 02' 00" W; (map 61). Name of a former native village; reported by Capps (1935, pl. 2), USGS. Recent USGS maps indicate an abandoned site with three or four buildings.

Old Village: settlement, see Old Rampart.

Old Woman Cabin: locality, see Old Woman.

Old Woman Creek: stream, flows N 6 miles to Lake Minchumina, between Giles and New River Bays, Tanana Lowland; 63° 51' 30" N, 152° 17' 00" W; (map 88). Local name reported in 1954 by USGS.

Old Woman Creek: stream, heads in lake, flows SE 40 miles to Sheenjek River, 7 miles W of Table Mountain and 40 miles NE of Arctic Village, Brooks Range; 68° 22' N, 143° 56' W; (map 137). Prospectors' name reported in 1926 by J. B. Mertie, USGS.

Old Woman Creek: stream, heads on Kikiktat Mountain, flows NE 5.5 miles to Hulahula River, 13 miles NW of Mount Michelson, Brooks Range; 69° 29' 30" N, 144° 26' 00" W, BGN 1961, (map 139). Variant: Akuasrakuvik Creek. A translation of an Eskimo name used by USGS geologists in 1948. The Eskimo name “Akuasrakuvik” refers to “old woman” in its meaning.

Old Woman Creek: stream, on N end of Kenai Peninsula, flows NE 2.5 miles to Sixmile Creek, 3 miles S of Sunrise, Chugach Mountains; 60° 50' 35" N, 149° 25' 50" W; (map 63). Local name reported in 1952 by USGS.

Old Woman Creek: stream, see Sunaghun Creek.

Old Woman River: stream, heads at 63° 28' 30" N, 159° 54' 50" W, flows N 50 miles to Unalakleet River, 31 miles NE of Unalakleet, Yukon-Kuskokwim Delta; 64° 01' 45" N, 159° 49' 50" W; (map 96). Local name reported about 1954 by U.S. Army Corps of Engineers.

Old Woman: locality, on N side of Old Woman Mountain, 35 miles NE of Unalakleet, Nulato Hills; 64° 03' N, 159° 48' W; (map 96). Variant: Old Woman Cabin. Site of a telegraph station established in 1903 by the Signal Corps, USA.

Old Womens Mountain: mountain, 1,300 ft., N of Womens Bay, 6.5 miles SW of Kodiak, Kodiak Island; 57° 44' N, 152° 33' W; (map 34). Local name published in 1943 by USC&GS.

Oldmans Bay: bay, 3 miles across, on W coast of Kalgin Island, in Cook Inlet, 30 miles WSW of Kenai, Cook Inlet Lowland; 60° 23' N, 152° 02' W; (map 62). Local name reported in 1958 by USGS.

Olds Mountain: mountain, 4,400 ft., 3 miles N of Sheep Mountain and 5 miles NE of Juneau, Coast Mountains; 58° 20' 05" N, 134° 18' 00" W; (map 11). Named for John Olds, 1850-1910, pioneer, Juneau miner, and hotel man. He went to Alaska from England in 1877 and did prospecting and mining around Wrangell and Sitka before going to Juneau in 1880 with the first group of miners to leave from Sitka (DeArmond, 1957, p. 33). The name "Olds Mountain" was published by W. J. Peters, USGS, in 1902.

Olds River: stream, heads in lake and flows NE 5.3 miles to Kalsin Bay, 13 miles S of Kodiak, Kodiak Island; 57° 35' 30" N, 152° 26' 30" W; (map 34). Local name reported in 1949 by USGS.

Ole Creek: stream, flows SE 10 miles to Independence Creek, 38 miles SW of Eagle, Yukon-Tanana Highlands; 64° 38' 45" N, 142° 24' 00" W; (map 102). Named by prospectors and reported in 1904 by D. C. Witherspoon, USGS.

Ole Creek: stream, heads at Reindeer Lake, flows NW 16 miles to Kvichak River, 85 miles E of Dillingham, Bristol Bay Lowland; 59° 18' N, 156° 04' W; (map 52). Variant: Pecks Creek. Local name published in 1956 by USGS.

Olegek Creek: stream, see Ohlegek Creek.

Oleny Island: island, see Deer Island.

Olga Bay: bay, 19 miles long, in SW part of Kodiak Island, 33 miles S of Karluk; 57° 05' N, 154° 25' W; (map 35). Russian "given-name" published in the 11th Census of 1890 (1893, p. 78).

Olga Creek: stream, flows W 1 mile to SW shore of Olga Bay, 35 miles S of Karluk, on SW coast of Kodiak Island; BGN 1939; (map 35). Variant: Red Salmon Creek, South Olga Stream. Named in 1939 by USC&GS. USC&GS reported the name Red Salmon Creek for this Feature in 1930. The name South Olga Stream was reported in 1900.

Olga Islands: islands, two, extend 1.2 miles in Dolgoi Harbor, off Dolgoi Island, Aleutian Range; 55° 06' 30" N, 161° 47' 40" W; (map 28). Local name reported in 1880 by W. H. Dall, USC&GS, and shown on 1882 coast chart.

Olga Narrows: water passage, between Moser and Olga Bays, in SW part of Kodiak Island, 38 miles SE of Karluk; 57° 03' 20" N, 154° 06' 40" W; BGN 1934; (map 35). Variant: The Narrows. Named for Olga Bay by USC&GS in 1934. It was called "The Narrows" in the 1931 Alaska Coast Pilot (pt. 2, p. 197).

Olga Point: point of land, on N tip of Krestof Island, 14 miles NW of Sitka, Alexander Archipelago; 57° 13' 40" N, 135° 32' 00" W; (map 9). Variant: Mys Olga. Name published in 1848 on Russian Hydrog. Dept. Chart 1397 as "M[ys] Olga," meaning "Cape Olga."

Olga Point: point of land, see Georgiana, Cape.

Olga Rock: rock, 10 miles SE of Dolgoi Island, at SW end of Aleutian Range; 54° 59' 20" N, 161° 30' 40" W; (map 25). Name reported by W. H. Dall, USC&GS, and published in 1882 on USC&GS Chart 806.

Olga Rock: rock, 2 miles W of Klokachef Island, 3 miles N of Salisbury Sound, off SW coast of Chichagof Island, 18 miles S of Chichagof, Alexander Archipelago; 57° 24' 40" N, 135° 56' 30" W; (map 9). Named by USC&GS and published in 1899 on Chart 8050.

Olga Sound: water passage, see Salisbury Sound.

Olga Strait: water passage, between Halleck and Krestof Islands, 11 miles NW of Sitka, Alexander Archipelago; 57° 11' N, 135° 27' W; (map 9). Variant: Krestof Strait, Proliv Krestovskoy, Proliv Olgi. Russian name given in 1833 by the navigator Ens. Vasiliev (cnna), IRN; published in 1848 on Russian Hydrog. Dept. Chart 1397 as "Pr[oliv] Olgi." This feature was called "Proliv Krestovskoy," meaning "cross strait," in 1809 by Lt. Sarichev (1826, map 19), IRN.

Olga Strait: water passage, see Neva Strait.

Olga Strait: water passage, see Salisbury Sound.

Olga, Point: point of land, see Klokachef Point.

Olgi, Mys: point of land, see Georgiana, Cape.

Olgi, Proliv: water passage, see Olga Strait.

Olgi, Proliv: water passage, see Salisbury Sound.

Olgonik: village, see Wainwright.

Olie Creek: stream, flows NW to Inmachuk River about 17 miles N of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name reported in 1901 by USGS (Collier, 1902, pl. 12). This stream cannot be identified on current maps.

Oligavik Creek: stream, heads on Mt. Buckland, in Lisburne Hills, flows NE and SE 30 miles to Tungnak Creek, 26 miles E of Cape Dyer, Arctic Slope; 68° 38' N, 165° 12' W; (map 129). Variant: Olikvik Creek, Oolikvik River, Tugnnuk Creek, Tungnak Creek, Tunгнаq Creek. Eskimo name reported to mean "flood" in 1955 by U.S. Army Corps of Engineers.

Olikatuk Channel: stream, distributary of Kobuk River, heads at Riley Channel and flows SW 20 miles to Hotham Inlet, 49 miles NW of Selawik, Kotzebue-Kobuk Lowland; 66° 40' N, 161° 47' W; (map 114). Eskimo name obtained in 1955 by U.S. Army Corps of Engineers.

Olikto Point: point of land, see Oliktok Point.

Oliktok Point: point of land, E point of entrance to Harrison Bay, on Beaufort Sea coast, 16 miles W of Beechey Point, Arctic Plain; 70° 30' 45" N, 149° 51' 30" W; (map 150). Variant: Beechey Point, Olikto Point, Oliktone Point, Point Berens. Eskimo name reported by Lt. W. J. S. Pullen, RN, as "Olikto," meaning "it shakes or trembles." On July 24, 1837, P. W. Dease and Thomas Simpson named it "Point Berens," after one of the directors of the Hudson's Bay Company (Simpson, 1843, p. 129). At variance with Sir John Franklin's text some of the earlier charts show this to be Beechey Point. E. de K. Leffingwell (1919, p. 93) writes, "the locative plural case, Oligtone, is used * * * by white men who have lived among the natives for many years."

Oliktone Point: point of land, see Oliktok Point.

Olikvik Creek: stream, see Oligavik Creek.

Olikvik Creek: stream, see Sakvelak Creek.

Olive Cove: cove, extends N 1 mile to Zimovia Strait, 22 miles S of Wrangell, on E coast of Etolin Island, Alexander Archipelago; 56° 11' 30" N, 132° 19' 00" W; (map 6). Local navigators' name reported in 1904 by H. C. Fassett, USBF.

Olive Creek: stream, flows E 3.5 miles to Olive Cove, 22 miles S of Wrangell and 4 miles SE of Anita Island, on E coast of Etolin Island, Alexander Archipelago; 56° 10' 45" N, 132° 19' 30" W; BGN 1930; (map 6). Local name reported in 1929 by USFS

Olive Creek: stream, flows S 3 miles to Tolovana River, 3 miles S of Livengood, Yukon-Tanana Highlands; 65° 28' 30" N, 148° 31' 00" W; (map 105). Prospected and named by Jay Livengood; reported in 1915 by USGS (Brooks and others, 1916, pl. 9).

Olive, Mount: hill, 862 ft., on right bank of Yukon River 5.5 miles SSW of Russian Mission, Yukon-Kuskokwim Delta; 61° 42' N, 161° 21' W; (map 73). Riverboat pilots' name shown on 1922 manuscript chart of the Yukon River.

Oliver Hill: hill, 500 ft., between Klikitarik Bay and Klikitarik Mountain, 18 miles E of St. Michael, Nulato Hills; 63° 27' N, 161° 26' W; (map 91). Local name reported in 1950 by USC&GS

Oliver Inlet: estuary, 3 miles long, at N end of Glass Peninsula, trends NW to Stephens Passage. 5 miles SW of False Arden and 11 miles SE of Juneau, Alexander Archipelago; 58° 08' 30" N, 134° 19' 45" W; (map 11). Named in 1890 by Lt. Comdr. H. B Mansfield, USN, and published by USC&GS in the 1891 Coast Pilot (p. 150).

Olivers Place: locality, see Shakan.

Ollaga Island: island, see Carlisle Island.

Olnes: locality, 16 miles N of Fairbanks, Yukon-Tanana Highlands; 65° 04' 30" N, 147° 40' 10" W; (map 105). Variant: Olness, Dome. Mining supply village and former railroad station on the Tanana Valley Railroad, reported in 1907 by USGS. The Olness post office was established in 1908, discontinued in 1910, and then reestablished as "Olnes" in 1922; finally discontinued in 1925. According to USGS it was named for a miner who spelled his name "Olnes" [cnna].

Olness: locality, see Olnes.

Olingooseenuk Mountain: mountain, 1,005 ft., 3.5 miles long, in Poovoot Range, 20 miles SE of Gambell, St. Lawrence Island; 63° 34' N, 171° 20' W; BGN 1951; (map 93). Variant: Yaghmelugak Mountain. Eskimo name reported in 1949 by Maj. H. B. Allen, USAF. According to Orth, 1965, the name is best rendered "otnosirnak"; sirnak means "walrus stomach."

Olokak River: stream, see Holokuk River.

Olor Island: island, 0.6 miles across, in Baird Inlet, 3 miles S of Kagalurpak Lake and 80 miles W of Bethel, Yukon-Kuskokwim Delta; 60° 50' 15" N, 164° 05' 30" W; (map 58). Name used by personnel of Clarence Rhode National Wildlife Range; reported in 1965.

Olrona: bay, see Wainwright Inlet.

Olsen Bay: bay, 2 miles wide, at N edge of Port Gravina, 20 miles NW of Cordova, Chugach Mountains; 60° 43' 20" N, 146° 12' 30" W; (map 64). Local name reported in 1908 by U. S. Grant and D. F. Higgins (in Brooks and others, 1909, pl. 4), USGS.

Olsen Cove: estuary, on S coast of Alaska, extends E 0.8 miles to Prince William Sound, 38 miles NE of Whittier, Chugach Mountains; 60° 52' 15" N, 147° 35' 15" W; (map 63). Local name reported in 1951 by USGS.

Olsen Creek: stream, heads in Fire Lake and flows N through Olsen Lake 1.4 miles to Kenai River, on Kenai Peninsula, 25 miles SE of Kenai, Cook Inlet Lowland; 60° 27' 30" N, 150° 32' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Olsen Island: island, 1 mile across, in Prince William Sound, 3.5 miles W of Fairmount Island, 38 miles NE of Whittier, Chugach Mountains; 60° 52' 15" N, 147° 33' 30" W; (map 63). Local name reported in 1905 by U. S. Grant. So named because "a Mr. Olsen has a fox ranch here."

Olsen Lake: lake, 0.3 miles long, on Kenai Peninsula W of Skilak Lake, 25 miles SE of Kenai, Cook Inlet Lowland; 60° 26' 45" N, 150° 32' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Olson Creek: stream, flows SE 9 miles to Beluga River, 12 miles N of Tyonek, Cook Inlet Lowland; 61° 14' 30" N, 151° 03' 50" W; (map 70). Local name reported in 1958 by USGS.

Olsens Lake: lake, 0.8 miles long, on S bank of Kanuti River, 6 miles E of Caribou Mountain and 47 miles SE of Bettles, Kokrines-Hodzana Highlands; 66° 24' 30" N, 150° 28' 30" W; (map 117). Local name reported in 1956 by T. E. Taylor, USGS.

Olsons Roadhouse: locality, see Tolstoi.

Olugooseenuk Mountain: hill, see Yaghmelingak Mountain.

Olumagwilute River: stream, flows S 6 miles to Kanektok River, 52 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 45' N, 160° 51' W; (map 53). Variant: Olumagwilute Creek. Eskimo name shown on an 1898 fieldsheet by W. S. Post, USGS; published as "Olumagwilute Creek" (Spurr, 1900, map 10).

Olympia Creek: stream, flows SE 7 miles to West Fork Chena River, 7 miles ENE of Chena Dome and 80 miles SW of Circle, Yukon-Tanana Highlands; 65° 07' N, 146° 14' W; (map 104). Named by prospectors and reported in 1913 by C. E. Ellsworth (in Ellsworth and Davenport, 1915b, pl. 12), USGS.

Olympic Creek: stream, flows S 4 miles to Slate Creek, 21 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 20' N, 161° 12' W; (map 53). Local name reported in 1948 or 1949 by Sam Marshall and John Haroldsen of Good News.

Omakstalia Point: bluff, elev. 25 ft., on S bank of Naknek River, on Alaska Peninsula, 9.3 miles SE of Naknek, Bristol Bay Lowland; 58° 42' 15" N, 156° 45' 15" W; (map 41). Eskimo name reported in 1952 by USGS.

Omalik Creek: stream, flows NW 9 miles to Chukchi Sea S of Omalik Lagoon, 44 miles SW of Point Lay, Arctic Plain; 69° 08' 30" N, 163° 32' 00" W; (map 145). Variant: Aumalik Creek. Eskimo name reported by USC&GS in 1949, and may mean "chief, amber, or cinders." It could also be a family name.

Omalik Creek: stream, see Omilak Creek.

Omalik Hill: hill, 400 ft., in Igichuk Hills, E of Noatak River, 21 miles NE of Kotzebue, Brooks Range; 67° 12' N, 162° 25' W; (map 128). Variant: Oomalik Hill. Eskimo name to refer to a "rich man," obtained at Kotzebue by Orth in 1956. See Omalik Creek.

Omalik Lagoon: lagoon, 1.5 miles long, on coast of Chukchi Sea, 11 miles NE of Cape Beaufort and 42 miles SW of Point Lay, Arctic Plain, 69° 09' N, 163° 30' W; (map 145). Variant: Aumalik Lagoon. Eskimo name reported by USC&GS in 1949. See Omalik Creek.

Omalik River: stream, heads in lake, flows N and W 11 miles to Kuk River, 23 miles S of Wainwright, Arctic Plain; 70° 18' 30" N, 159° 49' 55" W; BGN 1925; (map 146). Variant: Aumalik River. Eskimo name, meaning "chief," obtained in 1924 by USGS. Orth was told at Wainwright in 1965 that the name meant "amber."

Omaluruk Creek: stream, flows NE 6 miles through a low wetland to Kobuk River, 29 miles NW of Shungnak, Brooks Range; 67° 04' N, 158° 06' W; (map 126). Eskimo name reported by the U.S. Army Corps of Engineers in 1955.

Omanaca, Isla de: island, see Umnak Island.

Omanha River: stream, see North Fork Squirrel River.

Omanha River: stream, see Omar River.

Omar Creek: stream, flows N 2 miles to head of McKenzie Inlet, on Prince of Wales Island, S of Skowl Arm Kasaan Bay, Alexander Archipelago; 55° 19' 30" N, 132° 21' 25" W; (map 4). Name published in 1943 by USC&GS; undoubtedly given because the [Omar] Khayyam mine was located in this vicinity.

Omar Creek: stream, flows NE 3 miles to Khayyam Creek, 3.5 miles NW of Lois Dome and 46 miles NW of Coleen Mountain, Brooks Range; 67° 45' N, 142° 53' W; (map 121). Local name reported in 1956 by T. E. Taylor, USGS.

Omar River: stream, in Baird Mountains, flows SW 35 miles to Squirrel River, 16 miles NW of Kiana, Brooks Range; 67° 10' N, 161° 00' W; (map 127). Variant: Omanha River. Reported in 1939 by USGS.

Omega Creek: stream, flows S 9 miles to Baker Creek, 28 miles SSW of Rampart, Yukon-Tanana Highlands; 65° 06' 10" N, 150° 19' 45" W; BGN 1961; (map 106). Variant: Alpha Creek. Prospectors' name reported in 1904 by Prindle and Hess (1906, p. 91), USGS. Gold was discovered here in 1899.

Omega Gulch: ravine, trends W 1.6 miles to Crooked Creek 11.5 miles NE of its junction with Kuskokwim River, 42 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 62° 01' 20" N, 158° 15' 05" W; BGN 1945; (map 79). Local name obtained in 1944 by USGS.

Omega Island: island, 5 miles NE of Wosnesenski Island and 19 miles NE of Dolgoi Island, Aleutian Range; 55° 14' 35" N, 161° 14' 30" W; (map 28). Shown on a 1963 USGS map .

Omega Point: point of land, 3.6 miles SW of East Cape, on SW coast of Amchitka Island, Aleutian Islands; 51° 22' 00" N, 179° 22' 30" E; (map 15). Name shown on a 1955 AMS map .

Omeghok: locality, 3 miles SE of Taphook Point, 22 miles SE of Gambell, N coast of St. Lawrence Island; 63° 36' N, 171° 11' W; (map 93). Eskimo name reported in 1932 by O. W. Geist, Univ. of Alaska.

Omiaktalik, Lake: lake, 1 mile across, at mouth of Kaviruk River, 32 miles E of Teller, Seward Peninsula Highlands; 65° 12' N, 163° 16' W; (map 111). Eskimo name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Omicron Hill: mountain, 1,100 ft., 8 miles W of Eskimo Hill and 86 miles S of Wainwright, Arctic Slope; 69° 23' N, 160° 12' W; (map 144). So named by USGS geologists in 1950 "because this designation was used for their triangulation marker [USC&GS] situated atop this hill" (Chapman and Sable, 1960, p. 54).

Omik: locality, on Agattu Island, Aleutian Islands; 52° 25' N, 173° 35' E; (map 13). Former Aleut village or camp (Hodge, 1910, p. 121).

Omikmak Creek: stream, flows W 3.7 miles to Kuk River, 6.5 miles SE of Wainwright, Arctic Plain; 70° 35' N, 159° 50' W; (map 146). Eskimo name published in 1955 by AMS.

Omikmuktusuk River: stream, flows N 45 miles to Kaolik River, 48 miles S of Wainwright, Arctic Plain; 69° 54' N, 159° 57' W; (map 144). Eskimo name reported in 1956 by T. E. Taylor, USGS.

Omilak Creek: stream, heads in Darby Mountains, flows NW 20 miles to Fish River, 22 miles NE of Council and 37 miles S of Imuruk Lake, Seward Peninsula Highlands; 65° 02' N, 163° 02' W; BGN 1910; (map 110). Variant: Ohmalik Creek, Omalik Creek, Umalik. Eskimo name used by prospectors reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Omilak Mountain: mountain, 2,671 ft., in Darby Mountains, between North Fork and South Fork Mosquito River, 42 miles SE of Imuruk Lake, Seward Peninsula Highlands; 65° 03' N, 162° 37' W; (map 110). Local name reported in 1900 by Mendenhall (1901, pl. 18), USGS.

Omilak: locality, an right bank South Fork Mosquito Creek in Fish River basin, 42 miles SE of Imuruk Lake, Seward Peninsula Highlands; 65° 02' N, 162° 41' W; (map 110). Variant: Oonilak, Unilak. Site of a former mining camp. John C. Green of San Francisco "organized a small company, and in 1881 he and several others were landed at Golofnin Bay. Guided by the natives, they found a deposit of galena ore, which they called the Omilak, in the Fish River basin. There was started the first lode-mining enterprise in Alaska, except for the little done at Sitka. Work was continued for a number of years, but for one reason or another the venture was not successful" (Brooks, 1953, p. 373). The Omilak Post Office was established in 1908 and discontinued the following year (Ricks, 1965, p. 48).

Ommaney Bay: bay, 1 mile across, at S tip of Baranof Island, at SW point of entrance to Chatham Strait, Alexander Archipelago; 56° 10' 20" N, 134° 41' 00" W; BGN 1925; (map 5). Named in 1925 by USC&GS; name derived from Cape Ommaney.

Ommaney Peak: mountain, 2,005 ft., at S tip of Baranof Island, Alexander Archipelago; 56° 11' 00" N, 134° 40' 45" W; BGN 1925; (map 5). Named in 1925 by USC&GS; name derived from Cape Ommaney.

Ommaney, Cape: point of land, southern tip of Baranof Island, 4.5 miles SSW of Port Alexander, Alexander Archipelago; 56° 10' 00" N, 134° 40' 20" W; (map 5). Variant: Cape Chirikoff, Menzies Cape, Punta Oesta de la Entrada del Principe, South Point, Tschirikow. Named in 1789 by James Colnett, English fur trader. La Perouse called it "Tschirikow," for Capt. Alexie Ilich Chirikov, IRN, the Russian navigator who he thought landed in this area July 1741. Capt. Alessandro Malaspina, in 1791, called it "Punta Oesta de la Entrada del Principe," meaning "west Point of the prince's (chief's) entrance." In 1796-99 local traders called it "Menzie's Cape"; Capt. U. T. Lisianski called it "South Cape" in 1804.

Onak: locality, along N bank of Wulik River, 7 miles NE of Kivalina, Kotzebue-Kobuk Lowland; 67° 47' N, 164° 22' W; (map 128). Variant: Aunak, Aunaq, Ohnak. Eskimo name meaning "rotten fish" (or "rotten meat"), so called because fish stored here in early fall rot quickly, possibly due to a lack of permafrost. Name reported in 1966 by E. S. Burch.

Onasnoy, Mys: point of land, see Dangerous Cape.

Onatzno Point: point of land, see Dangerous Cape.

Onatznoj: point of land, see Dangerous Cape.

Onatzo: point of land, see Dangerous Cape.

One Hundred Ninety-seven and One-half Mile Creek: stream, see 197.5 Mile Creek.

One Hundred Ninety-six Mile Creek: stream, see 196 Mile Creek.

One Hundred Seventy-two Degree Pass: water passage, see Amukta Pass.

One Ninety-seven and One-half Mile Creek: stream, see 197.5 Mile Creek.

One Ninety-six Mile Creek: stream, see 196 Mile Creek.

One Thousand Eight Hundred Forty-eight Hill: mountain, see 1848.

One, Lake: lake, 1,800 ft. long, between Halfway Lake and Lake Two, 8 miles S of Talkeetna, Cook Inlet Lowland; 62° 12' 25" N, 150° 03' 00" W; (map 81). Local descriptive name reported in 1958 by USGS.

Onega Creek: stream, see Oniga Creek.

Oneida Rock: rock, 7.5 miles SW of Sanak Island, in Sanak Islands, Aleutian Range; 54° 28' 20" N, 162° 55' 40" W; (map 25). Name reported by Ferdinand Westdahl, USC&GS, commander of the Coast Survey steamer McArthur, who made surveys in this area in 1901.

Oneita Creek: stream, see Anita Creek.

Onekoksuk Creek: stream, flows S to Fish River, between Jarvis Creek and Niukluk River, about 36 miles NE of Solomon, Seward Peninsula Highlands; (map 95). Prospectors name

reported on the 1900 "Map of Nome Peninsula" by J M Davidson and B. D. Blakeslee. This stream cannot be precisely located on current maps.

Onelow Point: point of land, see Onslow Point.

Onemile Creek: stream, flows W 3.5 miles to Delta River, crosses Richardson Highway, 35 miles S of Delta Junction, Alaska Range; 63° 32' 25" N, 145° 51' 55" W; BGN 1930; (map 86). Local name reported in 1938 by USGS given because "the mouth of the stream is about one mile below Rapids Roadhouse."

Onestone Lake: lake, 1.7 miles long, between Shell Lake and Skwentna River, 59 miles NW of Tyonek, Alaska Range; 61° 55' 05" N, 151° 31' 45" W; (map 70). Local name reported in 1954 by USGS.

Onetree Rock: rock, on E shore of Redfish Bay, 9.3 miles NW of village of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 17' 45" N, 134° 51' 30" W; (map 5). Variant: One Tree Rock. Named in 1897 by Lt. Comdr. J. F. Moser, USN, commander of USBF steamer Albatross.

Ongivinuck River: stream, heads at Ongivinuk Lake, flows SW 25 miles to Togiak River, 66 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 24' N, 159° 49' W; (map 53). Variant: Anavinguk River, Anvaniek River, Reka Anvanyk. Eskimo name reported in 1898 by W. S. Post, USGS; Capt. Tebenkov (1852, map 4). IRN, published it as "R[eka] Anvanyk," meaning "Anvanyk River."

Ongivinuk Lake: lake, 1.5 miles across, at headwaters of Ongivinuck River, 9 miles E of Togiak Lake and 85 miles NE of Goodnews. Kilbuck-Kuskokwim Mountains; 59° 35' N, 159° 21' W; (map 53). Eskimo name published in 1951 by USGS.

Ongneak: locality, see Kalulingmiut.

Ongneak: point of land, see Douglas, Cape.

Ongoke River: stream, flows SE 20 miles of Amanka Lake, 60 miles NE of Hagemeister Island, Kilbuck-Kuskokwim Mountains; 59° 06' N, 159° 17' W; (map 53). Eskimo name reported in 1948 or 1949 by Frank Waskey, local trader and prospector.

Ongolgham Lagoon: lagoon, see Ongoveyuk Lagoon.

Ongorakvik River: stream, flows N 12 miles to Nokotlek River, 31 miles SW of Wainwright Arctic Plain; 70° 18' N, 160° 59' W; (map 146). Variant: Onguraakvik. Eskimo name recorded as "Ongura-akvik" at Wainwright in 1956 by Orth; reported to mean "driving place," or "place where birds were driven to be caught during molting."

Ongoveguk Lagoon: lagoon, see Ongoveyuk Lagoon.

Ongovehenok: locality, near Point Barrow, Arctic Plain, 71° 23' N, 156° 28' W; (map 153). Former Eskimo village or camp reported in the 1890 Census (1893, p. 162).

Ongoveyuk Lagoon: lagoon, 4 miles long, at mouth of Ongoveyuk River, 27 miles SE of Savoonga, N coast of St. Lawrence Island; 63° 26' N, 169° 48' W; BGN 1951; (map 93). Variant: Okhkan Nayra Lagoon, Ongolgham Lagoon, Ongoveguk Lagoon. Eskimo name reported in 1949 by Maj. H. B. Allen, USAF.

Ongoveyuk River: stream, flows N 15 miles to Ongoveyuk Lagoon, 28 miles SE of Savoonga, St. Lawrence Island; 63° 26' N, 169° 48' W; BGN 1951; (map 93). Eskimo name reported in 1949 by Maj. H. B. Allen, USAF.

Onguraakvik: stream, see Ongorakvik River.

Ongutvak Mountain: mountain, 2,000 ft., 4 miles S of Chikuminuk Lake, 125 miles SW of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 06' N, 158° 40' W; BGN 1932; (map 60). Eskimo name obtained in 1932 by Gerald FitzGerald, USGS.

Onieda Creek: stream, see Oniga Creek.

Oniga Creek: stream, flows SE 0.9 miles to Bonita Creek, 11 miles NE of Nome, Seward Peninsula Highlands; 64° 38' N, 165° 13' W; (map 94). Variant: Onega Creek, Onieda Creek. Prospectors' name shown on map dated September 1901 of Cape Nome gold fields by David Fox, Jr.

Onihitsk: locality, site of village, on E end of Sitkalidak Island, SE of Kodiak Island; 57° 09' N, 152° 52' W; (map 34). Variant: Anihitsk. Name was recorded in 1805 by Lisianski (1814, map facing p. 169).

Onion Bay: cove, 0.5 miles across, 17 miles NW of Afognak, on SW coast of Raspberry Island; Kodiak Islands; 58° 04' N, 153° 15' W; BGN 1909; (map 43). Local name reported in 1909 and published on Chart 8570 in 1910 by USC&GS.

Onion Portage: portage, across a neck of a meander of Kobuk River, 35 miles NW of Shungnak, Brooks Range; 67° 07' N, 158° 18' W; (map 126). Local name reported by Orth in 1956.

Onklat Creek: stream, flows 1 mile SW to Redfield Cove, 2.3 miles S of Humpback Point and 7 miles NE of Yakutat, Malaspina Coastal Plain; 59° 36' 50" N, 139° 34' 35" W; (map 46). Tlingit Indian name reported by Lt. Comdr. Moser (1902, p. 384), USN.

Onman, Cape: point of land, see Romanof Point.

Onnuteschuik Creek: stream, heads in York Mountains, flows SW 2.6 miles to Bering Sea, 20 miles SE of Cape Prince of Wales and 36 miles NW of Teller, Seward Peninsula Highlands, 65° 26' N, 167° 31' W; (map 111). Variant: Onuntasekwik Creek. Eskimo name published as "Onuntasekwik" on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Onokoruk River: stream, see Anikovik River.

Onokovuk River: stream, see Anikovik River.

Onolavik Lake: lake, 2 miles long, on W bank of Yukon River, 3 miles NW of Russian Mission, Yukon-Kuskokwim Delta; 61° 49' 15" N, 161° 23' 00" W; (map 73). Eskimo name reported by USC&GS in 1949.

Onslow Island: island, 4 miles long, in Clarence Strait, S of Etolin Island, Alexander Archipelago; 55° 52' 30" N, 132° 22' 00" W; (map 4). Variant: Onslow Rock. Named in 1887 by USC&GS; derived from Onslow Point.

Onslow Point: point of land, on a small island, at mouth of Ernest Sound, 5.5 miles S of Etolin Island, Alexander Archipelago; 55° 50' 20" N, 132° 18' 30" W; (map 4). Variant: Onelow Point. This feature was discovered on August 25, 1793, by James Johnstone, RN; named by Capt. George Vancouver, RN, "in honor of George, first Earl of Onslow, one of the friends of the Prince of Wales" (Wagner, 1937, P.401).

Onslow Rock: island, see Onslow Island.

Onug-anugemut: locality, see Onuganuk.

Onuganuk: locality, on Yukon Delta, at mouth of Kwikluak Pass, Yukon-Kuskokwim Delta; 62° 35' N, 164° 45' W; (map 77). Variant: Onuganugemut. Former Eskimo village or camp reported as "Onug-anugemut" by W. H. Dall (1870, p. 264).

Onuntasekwik Creek: stream, see Onnuteschuik Creek.

Oo-ghe-a-book Island: island, see King Island.

Oo-ghee-a-book Island: island, see King Island.

Oo-ghee-ak: rock, see Fairway Rock.

Oo-innakhtagowik: locality, see Uinuk.

Ooagalga Island: island, see Ugamak Island.

Ooailik: locality, see Ualik.

Ooalligamut: locality, see Ualik.

Ooallikh: locality, see Ualik.

Oogahik: stream, see Ugashik River.

Oogahik: village, see Ugashik.

Oogahluk Creek: stream, see Ugalak Creek.

Ooganak Bay: bay, see Uganik Bay.

Ooganak: locality, see Uganik.

Ooganok: bay, see Uganik Bay.

Oogashak: stream, see Ugashik River.

Oogashik: stream, see Ugashik River.

Oogashik: village, see Ugashik.

Oogavigmute: locality, see Uknavig.

Ooglaamie: town, see Barrow.

Ooglamie: town, see Barrow.

Ooglovia: locality, see Uglovaia.

Oogovigamute: locality, see Uknavig.

Oogovik: locality, see Uknavig.

Oogowigamute: locality, see Uknavig.

Oohack Island: island, see Ugak Island.

Oohack: bay, see Ugak Bay.

Oohaiack: locality, see Uhaiak.

Oohaiack: village, see Akhiok.

Oohanick: island, see Uganik Island.

Oohanick: locality, see Uganik.

Oohaskeck: locality, see Uhaskek.

Oohiack, Bay of: bay, see Uyak Bay.

Ooiak Bay: bay, see Uyak Bay.

Ooiak: village, see Uyak.

Ooiatsk: village, see Uyak.

Ooinukhlagowik: locality, see Uinuk.

Ooinuklagowik: locality, see Uinuk.

Ooinuktagowik: locality, see Uinuk.

Ookagamute: locality, see Nunaikak.

Ookakhl: lake, Kukaklik Lake.

Ookakht: lake, see Kukaklik Lake.

Ookamok: island, see Chirikof Island.

Ookeek: rock, see Fairway Rock.

Ookevok: village, see Ukivok.

Ookhogamute: locality, see Oknagamut.

Ookikok, Mount: mountain, see Okikak Mountain.

Ookivok: locality, see Ukivok.

Ooklik Dunes: sand dunes, on W coast of Cape Etolin, 26 miles SW of Cape Vancouver, on Nunivak Island; 60° 24' N, 166° 10' W; (map 57). Variant: Uklik Dunes. Eskimo name reported in 1937 by USAAF.

Ookook River: stream, see Okok River.

Ookpicksook: locality, see Ukpiksuk.

Ookpiksoogruk: locality, see Ukpiksugruk.

Ookpiksoogrum Koonga: stream, see Okpiksugruk Creek.

Ooksokwak River: stream, see Kinia River.

Ookwroorat Bluff: bluff, see Ugrurak Bluff.

Oolah Mountain: mountain, 7,500 ft., NW of Oolah Pass, on E side of Ulo Valley, 49 miles N of Wiseman, Brooks Range; 68° 06' 30" N, 150° 08' 00" W; BGN 1932; (map 134). Variant: Ulo Mountain. Named in 1932 by Marshall (1956, p. 160): "I pointed to the mountain just beyond the pass and said it looked exactly like an oolah [an Eskimo tool, used for scraping hides] * * *."

Oolah Pass: pass, 4,500 ft., between Kuyuktuvuk Creek and headwaters of Itkillik River, in Ulo Valley, SE of Oolah Mountain, 46 miles N of Wiseman, Brooks Range; 68° 04' 30" N, 150° 02' 00" W; BGN 1932; (map 134). Variant: Ulo Pass. Name taken from the neighboring mountain; reported by Marshall (1956, p. 160).

Oolah Valley: valley, extends NE 17 miles along Itkillik River from Snowheel Mountain, Brooks Range; 68° 08' 30" N, 150° 17' 00" W; (map 134). Variant: Ulo Valley. Local name for the nearby mountain; reported in 1956 by USGS.

Oolahoola River: river, see Hulahula.

Oolahpuk Mountain: mountain, 1,000 ft., in Kialeagak Mountains, 5 miles N of Southeast Cape and 86 miles SE of Gambell, St. Lawrence Island; 63° 00' N, 169° 37' W; BGN 1951; (map 93). Eskimo name meaning "big ula" [ulapak] reported in 1949 by Maj. H. B. Allen, USAF. The ula or ulu is a curved knife used for scraping; the mountain is so called because its shape resembles the ula.

Oolakaiya Hill: hill, see Ulakaia Hill.

Oolakukkogavik: village, see Utukakarvik.

Oolamnagavik River: stream, flows NE 38 miles to Colville River 3.5 miles SW of its junction with Killik River, Brooks Range; 68° 59' N, 154° 02' W; BGN 1949; (map 133). Eskimo name reported about 1946 by geologists during exploration of Naval Petroleum Reserve No. 4.

Oolamushak Hill: hill, 870 ft., at N end of Kialeagak Mountains, 6 miles N of Southeast Cape, on Saint Lawrence Island; 63° 02' N, 169° 37' W; BGN 1951; (map 93). Variant: Oolamushak Mountain, Ulamashak Mountain. Eskimo name reported in 1949 by Maj. H. B. Allen, USAF.

Oolamushak Mountain: hill, see Oolamushak Hill.

Ooliktome Islands: barrier islands, see Return Islands.

Oolikvik River: stream, see Oligavik Creek.

Oolokok Mountain: mountain, see Holokuk Mountain.

Oolokok River: stream, see Holokuk River.

Oomagahchyak: mountain, see Umagatsaiak Mountain.

Oomagahchyak: mountain, see Umagatsiak Hill.

Oomagahchyam Koogowranga: stream, see Umagatsiak Creek.

Oomagveerak: locality, see Umagvirak.

Oomalik Hill: hill, see Omalik Hill.

Oomanak Island: island, see Umnak Island.

Oomarachek Creek: stream, see Umarachek Creek.

Oomeyak: bend, see Umiak Bend.

Oomeyaluk Bay: bay, extends SE 4 miles from Emekyalok Point to Gheena Point, 67 miles SE of Gambell, S coast of St. Lawrence Island; 63° 10' N, 170° 06' W; BGN 1951; (map 93). Eskimo name recommended by the Savoonga village council and reported in 1949 by Maj. H. B. Allen, USAF.

Oommahahtchek Creek: stream, see Umahachek Creek.

Oomnak Island: island, see Umnak Island.

Oomnak: village, see Nikolski.

Oomyousik Cape: point of land, see Oomyousik Point.

Oomyousik Point: point of land, 24 miles SE of Savoonga, NE coast of St. Lawrence Island; 63° 28' 25" N, 169° 56' 30" W; BGN 1951; (map 93). Variant: Cape Oomyousik, Cape Oonyousik, Oomyousik Cape, Oomyousit Cape, Oonyousik Cape, Oonyousik Point. Eskimo name reported in 1932 by O. W. Geist, Univ. of Alaska, as "Oonyousik Point."

Oomyousit Cape: point of land, see Oomyousik Point.

Oonakagamute: locality, see Unakak.

Oonakhtolik: locality, see Ungalik.

Oonalakleet River: stream, see Unalakleet River.

Oonalakleet: village, see Unalakleet.

Oonalaklik: village, see Unalakleet.

Oonalashka: island, see Unalaska Island.

Oonalaska: village, see Unalaska.

Oonalga: locality, see Unalga.

Oonalgenskoi: locality, see Unalga.

Oonalgi, Ostrov: island, see Unalga Island.

Oonangashik: locality, see Unangashik.

Oone-agun: islands, see Four Mountains, Island of.

Oonella Island: island, see Unalga Island.

Oonemak Island: island, see Unimak Island.

Oongalambingoi Dunes: dunes, trend NE 4 miles along SE coast of Nunivak Island, 4 miles E of Ingriruk Hill, 8 miles NE of Cape Mendenhall; 159° 53' N, 165° 52' W; (map 55). Variant: Ungalambingoi. Eskimo name obtained in 1949 by USC&GS.

Oongayuk Hill: hill, 748 ft., 3 miles N of Southwest Cape, St. Lawrence Island; 63° 21' N, 171° 26' W; BGN 195I; (map 93). Variant: Oongayuk Peak, Ungayak Hill. Eskimo name reported in 1949 by Maj. H. B. Allen, USAF.

Oongayuk Peak: hill, see Oongayuk Hill.

Oongenskoi: village, see Unga.

Oongooriak Camp: locality, see Unguriak Camp.

Oongooviak Camp: locality, see Unguriak Camp.

Oonilak: locality, see Omilak.

Oonimak Island: island, see Unimak Island.

Oonongashik: locality, see Unangashik.

Oonyousik Cape: point of land, see Oomyousik Point.

Oonyousik Point: point of land, see Oomyousik Point.

Oosak: locality, see Usak.

Ooselik Creek: stream, see Itkilyariak Creek.

Ootivakh: town, see Barrow.

Ootiwakh: town, see Barrow.

Ootka, Lake: lake, 0.7 miles long, on Kenai Peninsula W of Shadura Lake, 12 miles NE of Kenai, Cook Inlet Lowland; 60° 42' N, 151° 03' W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Ootkaiowik: town, see Barrow.

Ootkeavic: town, see Barrow.

Ootkeawie: town, see Barrow.

Ootkiavie: town, see Barrow.

Ootokok River: stream, see Utukok River.

Ootokok: locality, see Otokkok.

Ootookok Cape: point of land, see Icy Cape.

Ootookok River: stream, see Utukok River.

Ootookok: locality, see Otokkok.

Ootookok: villages, see Utukok villages.

Oowik: watercourse, see Uwik Slough.

Ooyak Bay: bay, see Uyak Bay.

Ooyarockseevick: hill, see Uyaraksivik Hill.

Ooynik Point: point of land, 5 miles S of Gambell, W coast of St. Lawrence Island; 63° 43' N, 171° 44' W; BGN 1951; (map 93). Variant: Cape Ooynik, Cape Goynk, Oinak Point. Eskimo name reported in 1932 by O. W. Geist, Univ. of Alaska.

Ooynik, Cape: point of land, see Ooynik Point.

Oozinkee: village, see Uzinki.

Oozinkie: village, see Uzinki.

Opagarak River: stream, distributary of Aprothluk River, flows S 7.8 miles to mouth of Hazen Bay, Yukon-Kuskokwim Delta; 61° 04' N, 165° 27' W; (map 75). Eskimo name obtained at Chevak by USC&GS in 1951.

Opasnaia: bay, see Kazakof Bay.

Opasni Cape: point of land, see Opasni Point.

Opasnie Cape: point of land, see Opasni Point. Opasni Point: point of land, on NE coast of Whale Island, 3 miles SE of Afognak, N of Kodiak Island; 57° 58' 35" N, 152° 43' 10" W; BGN 190q (map 34). Variant: Dangerous Cape, Mys Opasnyy, Opasni Cape, Opasnie Cape. Transliteration of M[ys] Opasnyy, the name given to this point by Sub-Lt. Mikhail Murashev in 1839 or 1840 and published in 1849 on Russian Hydrog. Dept. Chart 142 j Baker (1906, p. 208) published Dangerous Cape," the translation of Murashev's name Because of duplication, the name was changed to its present form in 1909 by USC&GS.

Opasnie: point of land, see Dangerous Cape.

Opasnyy, Mys: point of land, see Dangerous Cape.

Opasnyy, Mys: point of land, see Opasni Point.

Open Bay: bay, 1.5 miles across, on S coast of Unalaska Island, Aleutian Islands; 53° 26' 45" N, 166° 47' 30" W; (map 23). Descriptive name given by USBF in 1888.

Open Bight: cove, 1.3 miles across, on N coast of Akutan Island, E of North Head, Krenitzin Islands Aleutian Islands; 54° 13' N, 165° 55' W; (map 24) Descriptive name reported in 1901 by J. J. Gilbert, USC&GS.

Open Creek: stream, flows NE 6 miles to Tuxedni Bay, 62 miles SW of Kenai, Aleutian Range; 60° 14' N, 152° 54' W; (map 62). Local name reported in 1958 by USGS.

Open Creek: stream, heads at lake, flows NW 2.4 miles to Fish Lake, 4.2 miles SE of Northway, Alaska Range; 62° 56' 15" N, 141° 48' 40" W (map 84). Local name published in 1955 by USGS.

Operl Island: island, 8 miles long, one of Kudiakof Islands, off SW end of Alaska Peninsula, Bristol Bas Lowland; 55° 23' N, 162° 46' W; BGN 1966: (map 29). Variant: Newmann Island. Named by USBF in 1888.

Operl Island: island, see Glen Island.

Ophelia Creek: stream, flows NW 3.5 miles to Wade Creek, 48 miles SW of Eagle, Yukon-Tanana Highlands; 64° 07' 30" N, 141° 32' 00" W; (map 102). Local name published in 1956 by USGS.

Ophir Creek: stream, flows 1 mile SW into Sherman Creek, 1 mile E of Comet, on Lynn Canal and 46 miles NW of Juneau, Coast Mountains; 58° 52' 00" N, 135° 06' 30" W; (map 11). Local name reported by R. B. Oliver, USGS, in 1906 and published in 1908.

Ophir Creek: stream, flows 13 miles N to Beaver Creek, 18 miles N of Pingpong Mountain and 62 miles NE of McCarthy, Alaska Range; 62° 00' N, 141° 27' W; (map 67). Local name obtained by USGS and published on maps since 1954.

Ophir Creek: stream, flows E 1 mile to Ransburg Creek which flows to Hastings Creek, 10 miles E of Nome, Seward Peninsula Highlands; 64° 29' 30".N, 165° 03' 30" W; (map 94). Prospectors name shown on the 1904 "Map of Cape Nome Precinct" by Arthur Gibson. This feature cannot be precisely identified on current maps.

Ophir Creek: stream, flows N 2.4 miles to Yankee River which flows to Mint River, 40 miles NW of Teller, Seward Peninsula Highlands; 65° 41' N, 167° 16' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Ophir Creek: stream, flows NE 15 miles to Nome Creek, 42 miles NE of Fairbanks, Tanana-Yukon Highlands; 65° 22' N, 147° 05' W; BGN 1945; (map 105). Prospectors' name published by USC&GS (Henshaw and Covert, 1908, pl. 9).

Ophir Creek: stream, flows NE 6 miles to Innoko River at Ophir, 32 miles NW of McGrath Kilbuck-Kuskokwim Mountains; 63° 08' 45" N, 156° 31' 05" W; (map 90). Prospectors, name obtained in 1908 by Maddren (1910, pl. 1), USGS.

Ophir Creek: stream, flows NW 4.8 miles to Donlin Creek, 2.4 miles NE of its junction with Flat Creek, 16 miles N of village of Crooked Creek and 43 miles NW of Sleetmute, Kilbuck-

Kuskokwim Mountains; 62° 05' 50" N, 158° 09' 30" W; BGN 1944; (map 79). Prospectors' name obtained in 1913 by Eakin (1914, pl. 1), USGS.

Ophir Creek: stream, flows NW to Cripple River, about 25 miles NW of Imuruk Lake Seward Peninsula Highlands; (map 110). Prospectors' name reported on a precinct map of Seward Peninsula by Monroe and Hutchins, corrected to June 1903 by Arthur Gibson. This stream cannot be precisely located on current maps.

Ophir Creek: stream, flows NW to Kuzitrin River, about 17 miles N of Mount Bendeleben, Seward Peninsula Highlands; (map 110). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This stream cannot be precisely located on current maps.

Ophir Creek: stream, flows SW 19 miles to Niukluk River, 2.8 miles NW of Council and 33 miles NE of Solomon, Seward Peninsula Highlands; 64° 55' N, 163° 45' W; (map 95). Prospectors' name reported in 1899 by Schrader and Brooks (1900, map 3), USGS.

Ophir Creek: stream, flows SW 7.6 miles to Sulatna River, 1.5 miles NW of Sulatna Crossing and 13 miles S of Long Kilbuck-Kuskokwim Mountains; 64° 12' 30" N, 155° 30' 20" W; (map 110). Prospectors, name reported in 1921 by USGS.

Ophir Creek: stream, heads 0.1 miles S of Sawmill Cove, flows SW 6 miles to Summit Lake, 2.5 miles SW of Yakutat, Malaspina Coastal Plain; 59° 30' 50" N, 139° 45' 30" W; (map 46). Local name published in 1959 by USGS.

Ophir Creek: stream, heads at Rockpile Pass and flows NW 14 miles to Whitefish Lake 22 miles SW of Aniak, Yukon-Kuskokwim Delta; 61° 20' N, 160° 00' W; (map 73). Variant: Hot Spring Creek. Prospectors' name shown on a 1914 field sheet by A. G. Maddren, USGS. It is reported that gold was discovered on this stream during the "Yellow River stampede" of the winter of 1901-02.

Ophir Gulch: ravine, trends SW to Ophir Creek, about 4 miles NW of Council and 35 miles NE of Solomon, Seward Peninsula Highlands; 64° 57' N, 163° 40' W; (map 95). Prospectors' name published in January 1900 by Schrader (1900c, p. 16), USGS.

Ophir: settlement, on W bank of Innoko River, near mouth of Ophir Creek and 35 miles NW of McGrath, Kilbuck-Kuskokwim Mountains; 63° 10' N, 156° 31' W; (map 90). Prospectors' name reported in 1908 by A. C. Maddren, USGS. Discovery of gold along Ophir Creek early in 1908 led to the establishment of a recording office in early summer 1908. Ophir post office was operated at intervals from 1909 to 1957. Its population 1910 was 122; in 1920, 22; in 1930, 19; and in 1960, 68.

Opiktillik: locality, see Opiktulik.

Opiktulik: locality, on N shore of Norton Sound 8 miles E of Solomon, Seward Peninsula Highlands, 64° 34' N, 164° 10' W; (map 95). Variant: Apiktalluk, Okpiktalik, Okpiktolik, Opiktillik, Oukviktoulia, Ukvikhtulig-mut, Ukvikhtuligmyut, Ukviktulik, Upiktalik. Former Eskimo village or camp reported in 1842-44 as "Oukviktoulia" and "Ukvikhtulig-mut" by Lt. L. A. Zagoskin, IRN. In the 1880 Census Petroff (1884, p. 11) listed "Okpiktolik," population 12, but

showed “Opiktalik” on his maps. The 1890 Census (p. 162) listed “Upiktalik” and included the population in the Norton Sound Settlements.

Or-kim-ya-nook: stream, see Colville River.

Oracle Mountain: mountain, 1,014 ft., 1.4 miles SE of Jagged Mountain and 6.5 miles SE of tip of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 37' 28" N, 162° 00' 28" W; (map 39). Local name published in 1951 by USGS.

Orange Creek: stream, see Black River.

Orange Creek: stream, see Grayling Fork Black River.

Orange Fork: stream, see Grayling Fork Black River.

Orange Glacier: glacier, heads 1.5 miles NE of Mount Stamy, trends NW 4 miles to 1961 terminus 1 mile SE of terminus of Variegated Glacier and 34 miles NE of Yakutat, St. Elias Mountains; 59° 58' 50" N, 139° 16' 45" W; (map 46). Descriptive name given by Tarr (1906, p. 145), USGS, “because of the orange color of the morainal debris.”

Orange Hill: hill, 3,510 ft., at terminus of Nabesna Glacier and 16 miles S of Devils Mountain Wrangell Mountains; 62° 12' 00" N, 142° 50' 15" W, BGN 1939; (map 84). So named in 1902 by F. C. Schrader, USGS “from its orange-red color, due to mineralization of the rocks.”

Orange River: stream, see Grayling Fork Black River.

Oratia, Mount: mountain, 5,400 ft., 5 miles N of Kagati Lake, 80 miles NE of Goodnews Kilbuck-Kuskokwim Mountains; 59° 55' N, 160° 01' W; (map 53). Variant: Ouchklune Peak. This mountain may have been named in 1898 by J. E. Spurr and W. S. Post, USGS.

Orazaba Reef: reef, see Orizaba Reef.

Orbin, Lake: lake, 0.3 miles long, drains E to Sargent Creek, 8.5 miles SW of Kodiak, Kodiak Island; 57° 42' 40" N, 152° 35' 00" W; (map 34). Local name reported in 1949 by USGS.

Orca Bay: bay, 14 miles wide at W end of Prince William Sound, 30 miles W of Cordova, Chugach Mountains; 60° 36' N, 146° 36' W; BGN 1906; (map 64). Variant: Puerto Cordova. Named in 1906 by Andrew Braid, USC&GS. The name was derived from the Orca Cannery of the Pacific Steam Whaling Co. The cannery was in turned named for one of the company's vessels. The bay was originally named “Puerto Cordova,” by Senor Don Salvador Fidalgo who visited the region in 1790. The name “Cordova” was adopted by Capt. Vancouver, RN, during his exploration of the Prince William Sound region in 1794. This name was in common use until the BGN, at Braid's suggestion, changed it to “Orca Bay” to avoid confusion with the Cordova Bay in Dixon Entrance (Wagner, 1937, p 444)

Orca Channel: water passage, 1.5 miles long, E of Observation Island, 4 miles N of Cordova, Chugach Mountains; 60° 37' 00" N, 145° 43' 30" W; (map 64). Named in 1897 by Lt. Comdr. J. F. Moser, USN.

Orca Creek: stream, on Hawkins Island, flows W 1.5 miles to Orca Bay, 6 miles NW of Cordova, Chugach Mountains; 60° 35' N, 145° 54' W; (map 64). Name published in 1950 by USGS.

Orca Inlet: water passage, 15 miles long, E of Hawkins Island and W of Cordova, Chugach Mountains; 60° 31' N, 145° 52' W; (map 64). Local name reported in 1909 by Grant and Higgins (1910, pl. 2), USGS.

Orca Point: point of land, on S shore of Boca de Quadra, at N tip of Peninsula Ridge, Coast Mountains; 55° 07' 10" N, 130° 51' 15" W; (map 3). Arbitrary name given in 1891 by USC&GS.

Orca: locality, on SE shore of Orca Inlet, 2.5 miles NE of Cordova, Chugach Mountains; 60° 39' 50" N, 145° 43' 00" W; (map 64). Named for a fishing vessel of the Pacific Steam Whaling Co. which opened a cannery here at the end of the 19th century. A post office was established here in July 1804, but discontinued in 1909 (Ricks, 1965, P. 49).

Orchard Creek: stream, flows W, through Orchard Lake, 19 miles to Shrimp Bay on NW coast of Revillagigedo Island, Alexander Archipelago, 55° 49' 45" N, 131° 28' 00" W; (map 3). Local name reported in 1920 by USFS.

Orchard Lake: lake, 3.5 miles long, near mouth of Orchard Creek, on NW coast of Revillagigedo Island, Alexander Archipelago; 55° 49' N, 131° 25' W; (map 3). Local name reported in 1920 by USFS.

Ordonez, Isla: island, "one of the Aleutian Islands west of Umnak Island." Name shown on a 1791 chart of Don Juan de la Bodega y Quadra. "In 1788 Francisco Ordonez was captain de navio" (Wagner, 1937, p. 480).

Oreel Rocks: rocks, see Shag Rocks.

Oreelie Rocks: rocks, see Shag Rocks.

Oregon Creek: stream, flows NE 2 miles to Mission Creek, 15 miles SW of Eagle, Yukon-Tanana Highlands; 64° 39' N, 141° 32' W; (map 102). Named by prospectors and reported by C. E. Ellsworth and R. W. Davenport, USGS.

Oregon Creek: stream, flows SW 4 miles to join Mystery Creek from SE, in Cripple River basin, 23 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 56' N, 163° 29' W; (map 110). Prospectors' name reported in 1901 by USGS (Collier, 1902, pl. 12).

Oregon Creek: stream, flows SW 5.3 miles to Cripple River, 15 miles NW of Nome, Seward Peninsula Highlands; 64° 41' N, 165° 45' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Oregon Creek: stream, heads in Bendeleben Mountains, flows SE 14 miles to Boston Creek which flows to Fish River, 33 miles S of Imuruk Lake, Seward Peninsula Highlands; 65° 06' N, 163° 12' W; (map 110). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Oregon River: stream, see Pargon River.

Oregon: locality, at junction of Nugget Gulch and Oregon Creek, 15 miles NW of Nome, Seward Peninsula Highlands; 64° 41' N, 165° 40' W; (map 94). Site of a mining camp; reported in 1951 by USGS.

Orel Anchorage: bay, 0.5 miles across, surrounded by islands, between Thetis and Petrof Bays, in S part of Tebenkof Bay, on W coast of Kuiu Island, Alexander Archipelago; 56° 25' N, 134° 08' W; BGN 1929; (map 5). Variant: Mary Frances Anchorage. Russian word "orel," meaning "eagle," given in 1928 by USC&GS.

Orel Rocks: reef, see Pamplona, Bajo.

Orensic: stream, see Hadweenzic River.

Orensik: stream, see Hadweenzic River.

Orenzik: stream, see Hadweenzic River.

Orevilla, Puente de: point of land, see Whitshed, Point.

Organ Creek: stream, flows NE 5 miles to Sixtymile Creek, 13 miles W of that stream's mouth and 62 miles W of Wiseman, Brooks Range; 67° 24' 00" N, 152° 26' 15" W; (map 124). Local name obtained in 1956 by USGS topographers.

Organ Mountain: mountain, 6,980 ft., 3.2 miles NW of Moraine Pass and 22 miles SE of Anchorage, Chugach Mountains; 61° 08' 00" N, 149° 14' 25" W; BGN 1952; (map 69). Descriptive name reported in 1932 by USGS because "a line of several high rock pinnacles on the crest of this mountain give it the appearance from below of an organ."

Organ Pipes: peaks, along N ridge of Hodgkins Mountain, 25 miles NW of Juneau, Coast Mountains, 58° 36' N, 134° 03' W; (map 11). Local name published by USGS in 1960.

Orient Point: point of land, easternmost point of Little Kiska Island, Aleutian Islands; 51° 57' 07" N, 177° 42' 25" E; BGN 1937; (map 14). Variant: East Point. Name published on a 1905 USC&GS chart.

Orient Point: point of land, on E coast of Whale Island, 5 miles SE of Afognak, N of Kodiak Island; 57° 56' 30" N, 152° 44' 15" W; BGN 1909; (map 34). Variant: East Point, Mys Vostochnyy, Vostochni. Descriptive name "M[ys] Vostochnyy" given by Sub-Lt. Mikhail Murashev in 1839 or 1840 and published on Russian Hydrog. Dept. Chart 1425. Baker (1906, p. 223) published "East Point," the translation of Murashev's name. Because of duplication the name was changed to "Orient Point" in 1909 by USC&GS.

Orieshik Island: island, see Egg Island.

Orin Gulch: ravine, extends NW 4,000 ft., between Big Skookum Creek and Chicago Gulch, near head of Mills Creek, 45 miles W of Talkeetna, Alaska Range; 62° 21' 30" N, 151° 30' 55" W; (map 81). Prospectors' name reported in 1911 by Capps (1913, fig. 7), USGS.

Orizaba Reef: reef, off Rock Point, on Norton Sound, 1 mile N of St. Michael, Yukon-Kuskokwim Delta; 63° 31' 10" N, 162° 01' 50" W; (map 92). Variant: Orazaba Reef. Local name obtained in 1952 by USC&GS; "derived from an old sailing vessel which foundered on it during a storm in days of Russian ownership of the territory."

Orlinie Cape: point of land, see Eagle Cape.

Orlova: locality, see Eagle Harbor.

Orlovsk, Seleniye: locality, see Eagle Harbor.

Orlovsk: locality, see Eagle Harbor.

Ormante, Mer d': sea, see Bering Sea.

Oro Fino Creek: stream, flows SE 1.3 miles to Adams Creek which flows to Shovel Creek, 10 miles NW of Solomon, Seward Peninsula Highlands; 64° 42' N, 164° 29' W; (map 95). Prospectors' name reported on a 1902 prospector's manuscript map .

Oro Grande Creek: stream, in Kigluaik Mountains, flows NE 8 miles to Cobblestone River, 30 miles SE of Teller, Seward Peninsula Highlands; 65° 01' N, 165° 30' W; (map 111). Local name reported about 1905 by USGS (Collier and others, 1908, pl. 8).

Oronikowaktalik Rock: rock, 20 ft., 600 ft. long, in Bering Sea, off N coast of Nunivak Island; 60° 21' 50" N, 166° 33' 40" W; (map 57). Variant: Oronixowaxtalik Rock. Eskimo name obtained in 1949 by USC&GS.

Oronixowaxtalik Rock: rock, see Oronikowaktalik Rock.

Orphan Creek: stream, flows S 1 mile to East Fork Solomon River, 14 miles NE of Solomon, Seward Peninsula Highlands; 64° 42' N, 164° 07' W; (map 95). Prospectors' name reported on a 1902 prospectors' manuscript map .

Orphan Creek: stream, flows W 2 miles to Troubelsome Creek, 15 miles SE of Rampart, Yukon-Tanana Highlands; 65° 22' N, 149° 44' W; (map 105). Named by prospectors; reported in 1901 by L. M. Prindle and F. L. Hess (in Brooks and others, 1905, fig. 6), USGS.

Orr Island: island, 7.5 miles long, between Marble and Prince of Wales Islands, Alexander Archipelago; 55° 57' N, 133° 24' W; (map 4). Named in 1904 by E. F. Dickins, USC&GS "after Captain Cyrus Orr, who resides at Shakan and gave us considerable information about this locality."

Orthmer Creek: stream, flows NE 4 miles, joins Marks Creek to form Flat Creek, 19 miles S of junction of Charley and Yukon Rivers, Yukon-Tanana Highlands; 65° 03' N, 142° 50" W;

(map 103). Variant: Othmer Creek. Prospectors' name shown as "Othmer" on an unpublished map by E. J Chamberlain dated 1902.

Orton Lake: lake, 0.9 miles long, on Revillagigedo Island, near head of Naha River, 8 miles NE of Loring, Alexander Archipelago; 55° 39' 20" N, 131° 26' 00" W; (map 3). Local name reported in 1948 by USGS

Oruktalik Entrance: water passage, connecting Oruktalik Lagoon and Beaufort Sea, 17 miles SW of Barter Island, Arctic Plain; 70° 04' 25" N, 142° 55' 30" W; BGN 1961; (map 152) Variant: Orutalik Entrance. Local name derived from the Eskimo name for Griffin Point, reported by USC&GS in 1952.

Oruktalik Lagoon: lagoon, 3 miles across, on coast of Beaufort Sea, 15 miles SE of Barter Island, Arctic Plain; 70° 04' N, 142° 56' W; BGN 1961; (map 152). Variant: Orutalik Lagoon. Local name derived from the Eskimo name for Griffin Point, reported by USC&GS in 1952.

Oruktalik Nuvugak: point of land, see Griffin Point.

Orum Creek: stream, flows W 10 miles to Steven; Creek, 3.6 miles N of Roughtop Mountain and 3 miles ENE of Tanana, Yukon-Tanana Highlands: 65° 14' 12" N, 150° 50' 20" W; BGN 1961; (map 106). Variant: Stevens Creek. Prospectors' name reported in 1906 by USGS (Prindle, 1908, pl. 5).

Orutalik Entrance: water passage, see Oruktalik Entrance.

Orutalik Lagoon: lagoon, see Oruktalik Lagoon.

Orville, Mount: peak, 10,495 ft., in Glacier Bay National Monument, in Fairweather Range, 846 miles NW of Hoonah, St. Elias Mountains; 58° 44' 1 N, 137° 16' 15" W; BGN 1962; (map 10). Name proposed to NPS by Senator Ernest Gruening in 1961 to honor Orville Wright 1871-1948, who with his brother Wilbur designed the first successful airplane. Air transportation has contributed greatly to the development of Alaska.

Orzenoy: bay, see Orzinski Bay.

Orzinski Bay: bay, between Elephant and Waterfall Points, extends W 0.7 miles inland from Stepovak Bay, near SW end of Alaska Peninsula, Aleutian Range; 55° 43' N, 160° 04' W; (map 28). Variant: Orzenoy, Ozernoi. Local name published by USC&GS on a 1909 chart. A cannery called "Ozernoi," possibly from the Russian adjective meaning "lake," was established here in 1889, according to Lt. Comdr. J. F. Moser, USN.

Osar Creek: stream, heads W of Crazy Notch, flows SW 10 miles along Denali Highway to Clearwater Creek, 41 miles S of Mount Hayes, Alaska Range; 63° 02' 10' N, 146° 53' 12" W; BGN 1959; (map 86). Named in 1954 by USGS geologists. "The name is the plural of the Swedish word for esker, and the stream parallels an esker through its entire upper course.

Osar Lake: lake, 2.2 miles long, 26 miles W of Paxson, Alaska Range; 63° 00' 15" N, 146° 20' 00" W; (map 86). Named "Asar Lake" in 1955 by T. L. Pewe, USGS, but published in 1959 by USGS as "Osar." "Asar" is the Scandinavian word for a esker.

Osar Stream: stream, heads in lake at terminus of Malaspina Glacier and flows S and E 5 miles to Yakutat Bay, 4 miles NE of Point Manby and 20 miles NW of Yakutat, Malaspina Coastal Plain; 59° 42' 30" N, 140° 11' 10" W; (map 46). Variant: Forney River. Named in 1891 by Russell (1892, pl. 4, p. 81). This is a Swedish term for what we now call an esker—a long narrow ridge of gravel and sand associated with a retreated glacier.

Osborn Creek: stream, formed by junction of Bonita and New Eldorado Creeks, flows SW 10 miles to Nome River, 6 miles NE of Nome, Seward Peninsula Highlands; 64° 33' N, 165° 13' W, (map 94). Prospectors' name reported in 1899 by D. C. Witherspoon (in Schrader and Brooks 1900, map 2), USGS.

Osborn Dome: mountain, 1,660 ft., E of New Eldorado Creek, 13 miles NE of Nome, Seward Peninsula Highlands; 64° 40' N, 165° 11' W, (map 94). Local name shown on the 1902 "Map of Nome and Snake River Country" by J. M. Davidson.

Osborn, Mount: mountain, 4,714 ft., in Kigluaik Mountains, 4.5 miles N of Tigaraha Mountain and 39 miles NE of Nome, Seward Peninsula Highlands; 65° 00' N, 165° 20' W; (map 94). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Oscar Creek: stream, flows E 1 mile to Cripple Creek which flows to Lower Willow Creek, 16 miles W of Solomon, Seward Peninsula Highlands; 64° 48' N, 164° 31' W; (map 95). Prospectors' name reported on a map of Cape Nome gold fields by David Fox Jr. dated 1901.

Oscar Island: island, 4.6 miles long formed by Beaver Creek and the Yukon River, 14 miles SW of Beaver, Yukon Flats; 66° 14' N, 147° 48' W; (map 118). Local name obtained by USGS; probably named for Oscar Reinoski who had a cabin there, according to a 1916 manuscript map by William Yanert (Stuck, 1917, map facing p. 122).

Oscar Lake: lake, 0.2 miles long, 1 mile E of Tanana, Kokrines-Hodzana Highlands; 65° 10' 30" N, 152° 02' 00" W; (map 106). Local name reported in 1952 by USGS.

Oscar Lake: lake, see Marion, Lake.

Oscarville: village, pop. 51, on right bank of Kuskokwim River, 5 miles S of Bethel, Yukon-Kuskokwim Delta; 60° 43' 30" N, 161° 46' 00" W; (map 59). About 1908 Oscar Samuelson settled at Napaiskak for a few years and then moved across the river where he opened a store and remained as a trader until his death in 1953. After the Oscarville store opened, a few Eskimo families settled near it, forming a village (Oswalt, 1963, p. 10). The village population was 11 in 1939 and 27 in 1950.

Oschesna: stream, see John River.

Oskerski Bay: bay, see Redoubt Bay.

Oshetna River: stream, flows NE 55 miles to Susitna River, 52 miles N of Tahnetta Pass and 72 miles NW of Gulkana, Copper River Basin; 62° 38' 30" N, 147° 23' 00" W; (map 82). Indian name adopted by the miners; reported in 1906 by USC&GS.

Oshibki Islet: island, see Error Island.

Oshibki, Ostrov: island, see Error Island.

Oshinpi Island: island, see Error Island.

Oshipki Island: island, see Error Island.

Osier Island: island, 0.3 miles long, in Disenchantment Bay, at mouth of Russell Fiord, 32 miles NE of Yakutat, St. Elias Mountains; 59° 59' 45" N, 139° 28' 15" W; (map 46). So named in 1891 by Russell (1892, p. 84), USGS, because "it is covered with a dense growth of willows." Osier is a name for various kinds of willows.

Oskawalik River: stream, heads in Chuilnuk Mountains, flows NE and NW 55 miles to Kuskokwim River, 9 miles S of village of Crooked Creek and 33 miles W of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 44' 45" N, 158° 10' 30" W; BGN 1948; (map 72). Variant: Oskowalit River. Eskimo name spelled "Oskawalit" on 1898 fieldsheet by W. S. Post, USGS, with the note "obtained from A. Lind, a trader." USGS reported the present spelling in 1945 and gave the meaning as "shoe-string or thong."

Oskawalik: locality, on right bank of Kuskokwim River opposite mouth of Oskawalik River, 8 miles SW of village of Crooked Creek and 34 miles W of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 44' 30" N, 158° 11' 30" W; BGN 1948; (map 72). Variant: Oskawalit, Oskwalit. Eskimo or Indian camp (Eskimo name) reported in 1913 by Brooks and Eakin (1914, pl. 1), USGS, as "Oskawalit."

Oskowalit: locality, see Oskawalik.

Oskowalit River: stream, see Oskawalik River.

Oskuvalowik Creek: stream, flows W 0.5 miles to Koozata River, 2 miles N of Koozata Lagoon, St. Lawrence Island; 63° 25' N, 170° 40' W; BGN 1951; (map 93). Eskimo name recommended by the Savoonga village council and reported in 1949 by Maj. H. B. Allen, USAF.

Oskwalit: locality, see Oskawalik.

Ospook Creek: stream, flows NW 8 miles to Kontrashibuna Lake, 34 miles NE of Nondalton, Aleutian Range; 60° 08' 30" N, 153° 53' 00" W; (map 61). Local name reported in 1954 by USGS.

Osprey, Lake: lake, 1.3 miles long, 10 miles N of village of Port Alexander, on SE coast of Baranof Island, Alexander Archipelago; 56° 24' N, 134° 40' W; BGN 1935; (map 5). Named in 1935 by USFS, "for an English ship that came to the rescue of the distressed white population of Sitka in 1879, Capt. A. Holmes A' Court in command."

Ossipee Channel: water passage, between Bushy and Shrubby Islands, off NE coast of Prince of Wales Island, Alexander Archipelago; 56° 05' 40" N, 132° 59' 00" W; (map 6). Named in 1895 by USC&GS for U.S.S. Ossipee.

Osten Island: island, 0.7 miles long, in Carroll Inlet, 2.5 miles S of Island Point, on Revillagigedo Island, Alexander Archipelago; 55° 24' 45" N, 131° 19' 28" W; (map 3). Local navigators' name obtained in 1904 by H. C. Fassett, USBF.

Ostovia Island: island, see Otstoia Island.

Ostraia Mountain: mountain, see Barometer Mountain.

Ostraya, Gora: mountain, see Barometer Mountain.

Ostrof Point: point of land, on island N of Icon Bay, on E coast of Spruce Island, off NE coast of Kodiak Island; 57° 54' 10" N, 152° 19' 30" W; (map 34) Descriptive Russian name "ostrov" meaning "island" reported in 1949 by USGS.

Ostrovka Point: point of land, between Dry Spruce Bay and Kupreanof Strait, 24 miles NW of Kodiak, Kodiak Island; 57° 55' 45" N, 153° 00' 00" W; BGN 1939; (map 34). Variant: Islet Cape. Transliteration of "M[ys] Ostrovka" meaning "cape of the little island," the name given by Sub.-Lt. M. Murashev, IRN, in 1839 or 1840 and published in 1849 on Russian Hydrog. Dept. Chart 1425. Baker (1906, p. 330) published "Islet Cape" as the translation of Murashev's name. Because of duplication the name was changed to its present form in 1937 by USC&GS.

Ostrovski: islands, see Pribilof Islands.

Ostrovski: locality, on W coast of Kenai Peninsula, on Kachemak Bay, Cook Inlet Lowland; 59° 35' N, 151° 30' W; (map 50). Russian name for a former Eskimo village reported with a population of 74 in the 1880 census (Petroff, 1884, p. 29).

Ostrovskoi Point: point of land, see East Cape.

Ostupleniya, Mys: point of land, see Retreat, Point.

Osvackamute: locality, see Aziavik.

Osviak River: stream, heads at 59° 06' N, 161° 00' W, flows SW 36 miles to Hagemeister Strait at Estus Point, 27 miles SE of Platinum, Kilbuck-Kuskokwim Mountains; 58° 47' N, 161° 12' W; (map 39). Variant: Aziavik, Azvichviak, Azvichvyak, Uzavigiak. Eskimo name reported in 1849 by Capt. Tebenkov (1852, map 4) as R[eka] Azvichvyak. In 1880 Ivan Petroff reported the name of the Eskimo village at its mouth as "Aziavik." According to Frank Waskey, local trader and prospector, "Uzavigiak" is a variation. The local name "Osviak River," reported in 1947 by USGS, was derived from this name.

Osviak: locality, on right bank of Osviak River 5 miles W of Estus Point, Kilbuck-Kuskokwim Mountains; 58° 49' N, 161° 18' W; (map 39). Variant: Azeviuk, Aziavigamut, Aziavigokhamiut, Aziavik, Osvackamute. This is probably the same Eskimo village listed in this dictionary as Aziavik." "Osviak" and "Osvachamute" appear to be more recent transcriptions of this abandoned village's name, "Osvachamute," shown on a 1937 fieldsheet by J. B. Mertie, Jr., USGS.

Osviak: locality, see Aziavik.

Ot-ke-a-vik: town, see Barrow.

Ot-ki-a-wing: town, see Barrow.

Otai, Mount: peak, see Alai, Mount.

Otcheredin, Mys: point of land, see Acheredin Point.

Otchyeryedinskiy, Mys: point of land, see Acheredin Point.

Othmer Creek: stream, see Orthmer Creek.

Otirgon Creek: stream, flows SW 5 miles to Nigu River, 23 miles SE of Howard Pass, Brooks Range; 68° 07' N, 155° 57' W; (map 133). Eskimo name meaning "backward creek," published by Irving (1954, p. 205).

Otis, Lake: lake, 0.2 miles long, 1.1 miles NW of confluence of North and South Forks Campbell Creek, in Anchorage, Cook Inlet Lowland; 61° 11' 32" N, 149° 50' 35" W; (map 69). Local name reported in 1942 by AMS.

Otkiawik: town, see Barrow.

Otkiovik: town, see Barrow.

Otkiwik: town, see Barrow.

Otkriti Bay: bay, 2.1 miles across, on S coast of Agattu Island, Aleutian Islands; 52° 23' N, 173° 35' E; BGN 1938; (map 13). Variant: Atkrito Bay, Gannon Bay. Descriptive Russian name, "Otkrytyy", meaning "open", and possibly taken from the nautical term "otkryed," meaning "open roadstead." This name was proposed by the U.S. Navy Hydrog. Office as "Atkrito Bay" in 1938. BGN approved the form "Otkriti" and it was published in the 1944 Aleutian Coast Pilot as "Otkviti [Gannon] Bay" (p. 136).

Otkritie: island, see Nunivak Island.

Otkroy Glaza: rock, see Eye Opener, The.

Otkryt Kamen: rocks, see Discovery Rocks.

Otkurak Creek: stream, flows S 4 miles to Noatak River, 35 miles SW of Survey Pass, Brooks Range; 67° 39' N, 155° 20' W; (map 125). Eskimo name referring to a certain kind of pot [Utkusik], recorded in Kobuk by Orth, USGS, in 1956.

Otkusekrak Mountain: hill, see Utkusikrak Hill.

Otma: island, see Attu Island.

Otmeli, Mys: point of land, see Otmeloi Point.

Otmeloi Island: island, 0.5 miles across, in Yakutat Bay, 0.2 miles N of Kriwoi Island and 6.5 miles NE of Yakutat, Malaspina Coastal Plain; 59° 38' 15" N, 139° 39' 15" W; (map 46). Variant: Ostrov Otmyloy, Shoals Island. So named "O[strov] Otmyloy," meaning "reef (or shoal) island" by Capt. M. D. Tebenkov (1852, may 7), IRN, because of a shoal extending off the island for nearly a mile. It was called "Shoals Island" in the 1883 Coast Pilot (p. 209).

Otmeloi Point: point of land, 9.3 miles NW of Kodiak, on N coast of Kodiak Island; 57° 54' 30" N, 152° 30' 50" W; (map 34). Variant: Mys Otmeli, Shoal Cape. Transliteration of the name "M[ys] Otmeli," given to this point by Sub-Lt. Mikhail Murashev in 1839 or 1840 and published in 1849 on Russian Hydrog. Dept. Chart 1425. Baker (1906, p. 572) published "Shoal Cape," the translation of Murashev's name. Because of duplication the name was changed to its present form in 1909 by USC&GS.

Otmeloy Vnutrenniy, Mys: point of land, see Inner Point.

Otmeloy Vnyshniy, Mys: point of land, see Shoals Point.

Otmeloi Cape: point of land, see Shoal Point.

Otmeloy Vnutrynney, Mys: point of land, see Inner Point.

Otmeloy Vnyschey, Mys: point of land, see Shoals Point.

Otmeloy, Mys: point of land, see Shoal Point.

Otokkok: locality, on Chukchi Sea coast, at Icy Cape, 48 miles SW of Wainwright, Arctic Plain; (map 146). Variant: Icy Cape, Ootokok, Ootookok, Otok-kok, Otukah, Utoqaq, Utuka, Utukok. Former Eskimo village or camp, listed as "Otok-kok," population 50, by Petroff (1884, p. 59); population 48 in 1890. In 1923 Sidney Paige, USGS, reported a population of 40 at "Icy Cape." The Eskimo word, "utoqaq," means "old" or "ancient" place.

Otokkok: villages, see Utukok villages.

Otokok River: stream, see Utukok River.

Otokok: villages, see Utukok villages.

Otokumuthamut: locality, on E shore of Togiak Bay, about 5 miles NW of Rocky Point and 70 miles NE of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 57' N, 160° 42' W; (map 39). Variant: O-tok-u-mut-ha-mut. Eskimo village or camp shown on 1910 manuscript map by H. C. Fassett, USBF. It is now abandoned.

Otookok: villages, see Utukok villages.

Otrubistoi Point: point of land, Afognak Bay, 1.8 miles N of Afognak, on S. coast of Afognak Island, N of Kodiak Island; 58° 48' 00" N, 152° 45' 30" W; (map 43). Variant: Bluff Cape.

Russian name from the word "Otrubnyy" given by Sub-Lt. Mikhail Murashev, IRN, in 1839 or 1840, and published by the Russian Hydrog. Dept. in 1849 on Chart 1425. Baker (1906, p. 139), USGS, translates the name for this feature as "Bluff Cape."

Otrubistoi: point of land, see Crag Point.

Otrubistoy, Mys: point of land, see Crag Point.

Otstoia Island: island, 0.2 miles across, in Peril Strait, off N coast of Duffield Peninsula on Baranof Island, 17 miles NW of Todd, Alexander Archipelago; 57° 33' 45" N, 135° 26' 45" W; (map 9). Variant: Distant Island, Ostovia Island, Ostrov Otstoya. Russian name meaning "distant," given in 1833 by the navigator Ens Vasiliev (cna) IRN; published in 1848 on Russian Hydro Dept. Chart 1397 as "Os[trov] Otstoya."

Otstoya, Ostrov: island, see Otstoia Island.

Otstuplenie: point of land, see Retreat, Point.

Otter Bay: bay, on S coast of Alaska Peninsula, W of Cape Aliaksin, on west shore of Beaver Bay, Aleutian Range; 55° 30' N, 160° 54' W; (map 28). Variant: Beaver Bay, Zaliv Babrovyy. Name translated from the Russian "Z[aliv] Bobrovyy," meaning "sea otter bay," published in 1847 on Russian Hydrog. Dept. Chart 1379, and shown as "Otter Bay" on an 1890 USBF chart. This feature has not been positively identified.

Otter Bay: bay, see Beaver Bay.

Otter Bight: bight, 2.6 miles across, on NE coast of Umnak Island, Aleutian Islands; 53° 26' 30" N, 167° 51' 00" W; BGN 1937; (map 23). Variant: Idak Cove. So named by USC&GS in 1937 "because its association with Otter Point."

Otter Cove: bay, 5 miles across, on SE coast of Unimak Island, Aleutian Islands; 54° 41' N, 163° 20' W; (map 25). Name reported by Ferdinand Westdahl USC&GS, commander of the Coast Survey steamer McArthur, who made surveys in this area in 1901.

Otter Creek: stream, flows NE 8 miles to Gakona River 38 miles N of its junction with Copper River, Copper River Basin; 62° 51' N, 145° 09' W, (map 83). Local name reported by USGS in 1949.

Otter Creek: stream, flows NW 7 miles to Becharof Lake, on Alaska Peninsula 49 miles NE of Ugashik, Aleutian Range; 57° 38' 35" N, 156° 07' 10" W; (map 36). Local name reported in 1902 by J. L. McPherson of Iliamna; published by G. C. Martin (1921, pl. 10), USGS.

Otter Creek: stream, flows SE 3.6 miles to Nome River, 4 miles SE of Nome, Seward Peninsula Highlands; 64° 29' N, 165° 17' W; (map 94). Prospectors' name reported in 1899 by D. C. Witherspoon (in Schrader and Brooks, 1900, map 2), USGS.

Otter Creek: stream, flows SE to Cripple River about 20 miles NW of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 "Map of Nome

Peninsula” by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Otter Creek: stream, flows SW 7 miles to Gompertz Channel of Cook Inlet, 26 miles NE of Kenai, Cook Inlet Lowland; 60° 52' 15" N, 150° 51' 55" W; (map 62). Local name reported in 1939 by USGS.

Otter Creek: stream, heads at 60° 53' N, 159° 53' W, flows NW 20 miles to Tuluksak River, 45 miles NE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 58' N, 160° 26' W; (map 59) Variant: Bear Creek. Local name reported in 1955 by J. M. Hoare, USGS.

Otter Creek: stream, heads at 63° 05' N, 161° 15' W and flows NE 30 miles to Anvik River, 43 miles SE of Unalakleet, Nulato Hills; 63° 14' 30" N, 160° 41' 50" W; (map 91). Local name reported by USC&GS in 1950.

Otter Creek: stream, heads at 67° 45' N, 144 37' W, flows SW 30 miles to Christian River 11 miles NW of Christian, Brooks Range; 67° 31' N, 145° 21" W; (map 122).Local name reported in 1956 by T. E. Taylor, USGS.

Otter Creek: stream, heads at junction of its North and South Forks, flows SW 20 miles to Iditarod River, 7 miles W of Flat and 53 miles NE of Holy Cross, Kilbuck-Kuskokwim Mountains; 62° 28, N, 158° 14' W; (map 79) Prospectors' name reported in 1910 by A. G. Maddren, USGS.

Otter Creek: stream, heads in Darby Mountains, flows NE 5.2 miles to Tubutulik River in Death Valley, 40 miles SE of Imuruk Lake, Seward Peninsula Highlands; 65° 08' N, 162° 17' W; (map 110). Prospectors' name published on 1908 “Map of Seward Peninsula” by Arthur Gibson.

Otter Creek: stream, heads in Kantishna Hills, flows NW 14 miles to Bearpaw River, 20 miles E of Chilchukabena Lake, Tanana Lowland; 63° 55' 40" N, 150° 50' 00" W; (map 88). Prospectors' name reported in 1905 by L. M. Prindle, USGS.

Otter Creek: stream, in Baird Mountains, flows W 5 miles to Canyon Creek 3.5 miles SSE of its junction with Squirrel River, 5.5 miles NNE of Kiana, Brooks Range; 67° 03' N, 160° 24' W; (map 127). Name used by prospectors; reported in 1910 by P. S. Smith (in Brooks and others, 1911, pl. 13),USGS.

Otter Creek: village, see Otter.

Otter Island: island, 0.8 miles long, 7 miles S of St. Paul Island, Pribilof Islands; 57° 02' 45" N, 170° 24' 00" W; (map 38). Variant: Bober, Bobrovi, Bobrovia, Bobrovoy, Sea Otter Island. Translation from the Russian O[strov] Bobrovoy meaning "otter island" and published by Capt. Lt. Vasiliev (1829, map 3), IRN.

Otter Island: island, see Hydra Island.

Otter Lake: lake, 0.4 miles long, S of Gakona Glacier terminus, 9 miles NE of Paxson, Alaska Range; 63° 05' 20" N, 145° 13' 30" W; (map 86). Name published on relatively recent maps.

Otter Lake: lake, 0.5 miles across, 1.1 miles E of Sixmile Lake and 7 miles NE of Anchorage, Cook Inlet Lowland; 61° 17' 24" N, 149° 44' 00" W; (map 69). Local name reported in 1906 by T. G. Gerdine and R. II. Sargent, USGS.

Otter Lake: lake, 0.6 miles across, on N end of Chichagof Island, 3.8 miles SE of Mud Bay and 19 miles NW of Hoonah, Alexander Archipelago; 58° 08' 15" N, 135° 53' 15" W; BGN 1960; (map 11). Local name reported by USGS in 1958 and published in 1962.

Otter Lake: lake, 0.7 miles long, 5 miles N of Little Lake Clark and 48 miles NE of Nondalton, Aleutian Range; 60° 29' N, 153° 47' W; (map 61). Local name reported in 1954 by USGS.

Otter Lake: lake, 1 mile long, on Kenai Peninsula, 0.6 miles NW of Rock Lake and 22 miles NE of Kenai, Cook Inlet Lowland; 60° 40' 15" N, 150° 40' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range for administrative purposes.

Otter Lake: lake, 2 miles long, NW of Big Lake, 25 miles SSW of village of Lake Minchumina, Kuskokwim Lowland; 63° 33' 15" N, 152° 33' 00" W; (map 88). Local name obtained in 1958 from Fabian Carey and "Val" Blackburn by USGS.

Otter Lake: lake, 3 miles long, on Chichagof Island, 11 miles SE of Pelican, Alexander Archipelago; 57° 48' 30" N, 136° 08' 00" W; BGN 1960; (map 9). Named in 1955 by USGS; published by Rossman (1959, map). It was so named because "its shores are the home of numerous otter families."

Otter Lake: lake, on NE end of Knight Island, N of Bay of Isles, 18 miles NE of Chenega, Chugach Mountains; 60° 25' 30" N, 147° 38' 30" W; (map 63). Local name reported in 1951 by USGS.

Otter Point Creek: stream, flows N 3.5 miles to Bering Sea, 20 miles NW of False Pass, on NW coast of Unimak Island, Aleutian Islands; 55° 03' 00" N, 163° 47' 45" W; (map 29). Name derived from Otter Point and reported by USC&GS in 1947.

Otter Point: point of land, 20 miles NW of False Pass, on the NE coast of Unimak Island, Aleutian Islands; 55° 03' N, 163° 47' W; (map 29). Local name published by USC&GS in 1902.

Otter Point: point of land, at Fort Glenn, in NE part of Umnak Island, Aleutian Islands; 53° 24' 50" N, 167° 50' 35" W; (map 23). Variant: Sheep Point. Named by USC&GS in 1937. It was called "Sheep Point" by the U.S. Army Corps of Engineers in 1942.

Otter Pond: lake, 0.3 miles long, N of Bear Lake, 17 miles SW of Beaver, Yukon Flats; 66° 17' 20" N, 147° 58' 30" W; (map 118). Probably named by William Yanert who showed it on a 1916 manuscript map of the Yukon Flats (Stuck, 1917, map facing p. 122).

Otter Sound: bay, see Sea Otter Sound.

Otter Strait: water passage, between Bird and Chernabura Islands, in Shumagin Islands, Aleutian Range; 54° 48' N, 159° 40' W; (map 26). Named in 1882 by W. H. Dall, USC&GS.

Otter: locality, between Otter Creek and Iditarod River, 6.7 miles W of Flat and 53 miles NW of Holy Cross, Kilbuck-Kuskokwim Mountains; 62° 27' 50" N, 158° 13' 20" W; (map 79). Variant: Otter City. Local name for a mining camp; name derived from Otter Creek. Reported in 1910 by A. G. Maddren, USGS. Population was about 50 at that time; the settlement was a distribution center for the mines.

Otters, Bay of: bay, see Beaver Inlet.

Otters, Sea of: sea, see Bering Sea.

Ottertail Creek: stream, flows SE 40 miles to East Fork Chandalar River, 8.5 miles SW of Arctic Village, Brooks Range; 68° 02' N, 145° 47' W; (map 136). Local name reported in 1926 by J. B. Mertie, Jr. (in Smith, P. S., and others, 1929, pl. 1), USGS.

Ottertail Creek: stream, flows SW 11 miles to East Fork Chena River, 56 miles N of Big Delta, Yukon-Tanana Highlands; 64° 57' 15" N, 145° 52' 45" W; (map 101). Named by prospectors; reported in 1909 by USGS (Capps, 1912, pl. 1).

Ottertail Ridge: ridge, elev. 3,270 ft., extends S 5 miles on W bank of Ottertail Creek, 11 miles E of Arctic Village, Brooks Range; 68° 07' N, 145° 58' W; (map 136). Local name "descriptive of the shape of the ridge"; reported in 1926 by Mertie, (in Smith, P. S., and others, 1929, pl. 1), USGS.

Otto Lake: lake, 0.4 miles long, 1 mile E of Jenny Island and 6 miles SE of Fort Yukon, Yukon Flats; 66° 30' 30" N, 145° 06' 00" W; (map 119). Local name obtained in 1956 by USGS.

Otto Lake: lake, 0.8 miles long, 3 miles SW of Healy, Alaska Range; 63° 50' 30" N, 149° 02' 00" W; BGN 1960; (map 87). Variant: Finn Lake, Ottos Lake. Named for Otto Maki, a Finnish homesteader upon whose land the lake stands; reported in 1959 by USGS.

Ottos Lake: lake, see Otto Lake.

Ottoway Valley: valley, 3 miles long, on Chultikana Creek, 2 miles NW of its mouth, on Klutina Lake, 49 miles NE of Valdez, Chugach Mountains; 61° 46' 45" N, 145° 49' 30" W; (map 68). Named in 1898 by Capt. W. R. Abercrombie, USA.

Otuk Creek: stream, flows N 21 miles to Iteriak Creek 4 miles S of its junction with E Fork Etivluk River, Brooks Range; 68° 35' N, 155° 46' W; BGN 1960; (map 133). Eskimo name used about 1950 by USGS geologists during exploration of the Naval Petroleum Reserve No. 4.

Otukah: locality, see Otokkok.

Otukah: villages, see Utukok villages.

Otviesnoi, Cape: point of land, see Upright, Cape.

Otvysnoy, Mys: point of land, see Upright, Cape.

Oubeloi Island: island, see Nizki Island.

Oubiennaia Bay: bay, see Massacre Bay.

Ouchklune Peak: mountain, see Oratia, Mount.

Ouchklune Range: mountain range, 5,000 ft., trends NW 6 miles from Atmugiak Creek, 75 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 54' N, 160° 01' W; (map 53). Eskimo name shown on a 1898 fieldsheet by W. S. Post, USGS.

Ouchtishich-cha-ga-mut: locality, on right bank of Kanektok River, 7 miles NE of Kwinhagak, 48 miles N of Goodnews, Yukon-Kuskokwim Delta; 59° 47' N, 161° 41' W; (map 53). Eskimo name shown on a 1898 fieldsheet by W. S. Post, USGS, with a note "name of a locality only no houses seen."

Oudagakh Strait: water passage, see Udagak Strait.

Ouektock: island, see Aiktak Island.

Ouektock: island, see Rootok Island.

Ougadakh Harbor: anchorage, see Dutch Harbor.

Ougagik: village, see Egegik.

Ougagouck, Fleuve: stream, see Egegik River.

Ougagouk: village, see Egegik.

Ougamantamuk Creek: stream, flows S 5 miles to Nanavochtshak Lake, 75 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 40' N, 159° 39' W; (map 53). Eskimo name shown on a 1898 fieldsheet by W. S. Post, USGS, who, with J. E. Spurr, camped along the stream, September 16, 1898.

Ougatchik Riviere: stream, see Ugashik River.

Ougavik: locality, see Uknavik.

Ouglovaia: locality, see Uglovaia.

Ougnagok: village, see Unga.

Oukamok: island, see Chirikof Island.

Oukevok: locality, see Ukivok.

Oukitshagamut: locality, on right bank of Kanektok River, 10 miles W of Amakatatee Creek, 64 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 51' N, 160° 38' W; (map 53).

Eskimo name meaning “Oukitshak people” shown as one cabin on a 1898 fieldsheet by W. S. Post, USGS.

Oukivak: village, see Ukivok.

Oukivok Island: island, see King Island.

Ouknadok Island: island, see Hog Island.

Ouknadok: locality, see Uknodok.

Oukviktoulia: locality, see Opiktulik.

Oukwak: locality, see Ukivok.

Oulliaghin Island: island, see Carlisle Island.

Oumakh Island: island, see Umak Island.

Oumalik Lakes: lakes, widely scattered group extending 18 miles between Ikpikpuk and Oumalik Rivers, Arctic Plain; 69° 45' N, 155° 15' W; (map 142). Named in the 1940's by the geologists on the Naval Petroleum Reserve No. 4 exploration; derived from the name of the Oumalik River.

Oumalik River: stream, heads at 69° 38' N, 156° 16' W, flows NE 140 miles to Chipp River, 34 miles S of Smith Bay, Arctic Plain; 70° 22' 20" N, 154° 58' 40" W; (map 148). This Eskimo name, meaning “chief, amber, or ashes,” seems to have been first used by geologists of the Naval Petroleum Reserve No. 4 probably in the late 1940's or early 1950's. See Omalik names.

Oumnak Island: island, see Umnak Island.

Oumnakh Island: island, see Umnak Island.

Ouna-nigh-mack, Ile: island, see Unavikshak Island.

Ounag-touti: locality, see Ungalik.

Ounalachka: island, see Unalaska Island.

Ounalakleet: village, see Unalakleet.

Ounalaklik River: stream, see Unalakleet River.

Ounalaklik: village, see Unalakleet.

Ounalaska: village, see Unalaska.

Ounalga Isle: island, see Unalga Island.

Ounalga Pass: water passage, see Unalga Pass.

Ounalima: peak, see Angutikada Peak.

Ounga Island: island, see Unga Island.

Ounga: rock, see Pinnacle Rock.

Ounga: village, see Unga.

Oungaklitalik River: stream, see Ungalik River.

Ounimak Detroit: water passage, see Unimak Pass.

Ounimak, Ile de: island, see Unimak Island.

Oupuk Creek: stream, see Aupuk Creek.

Our Creek: stream, flows NE 8.5 miles to Chatanika River, 15 miles NW of Fairbanks, Yukon-Tanana Highlands; 65° 03' 15" N, 147° 54' 15" W; (map 105). Named by prospectors; published in 1907 by USGS.

Our Creek: stream, flows NW 7 miles to North Fork Chandalar River, S of Bend Mountain, and 19 miles NNE of Chandalar, Brooks Range; 67° 45' 45" N, 148° 17' 00" W; (map 123). Prospectors' name obtained in 1909 by A. G. Maddren (in Brooks and others, 1910, pl. 7), USGS.

Our Creek: stream, flows W 1.3 miles to Wilson Creek Slough, 4 miles S of Marshall, Yukon-Kuskokwim Delta; 61° 49' 20" N, 162° 02' 45" W; (map 74). Miners' name published by Harrington (1918, map), USGS.

Our Creek: stream, flows W 16 miles to North Fork Innoko River, 61 miles NW of Medfra, Kilbuck-Kuskokwim Mountains; 63° 50' N, 155° 50' W; BGN 1963; (map 89). Local name reported in 1954 by USGS.

Our Creek: stream, flows W 7 miles to Molly Creek, 80 miles SW of Eagle, Yukon-Tanana Highlands; 64° 05' 45" N, 143° 22' 50" W; (map 102). Local name published in 1956 by USGS.

Our Creek: stream, heads in Sischu Mountains, flows N 16 miles to Nowitna River, 28 miles SE of Monzonite Hills, Kilbuck-Kuskokwim Mountains; 64° 01' 36" N, 154° 22' 40" W; (map 98). Local name reported in 1915 by H. M. Eakin (in Brooks and others, 1916, pl. 10), USGS.

Ourand, Mount: mountain, 6,080 ft., 1 mile NE of Mount Evans, 21 miles N of Valdez, Chugach Mountains; 61° 25' 30" N, 146° 08' 00" W; BGN 1931; (map 68). Named in 1898 by Capt. W. R. Abercrombie, USA, for Major Charles H. Ourand, USA.

Ouserdie Point: point of land, see Zeal Point.

Outchitak-Mioute: locality, see Uchitak.

Outer Iliasik Island: island, 3 miles long, 7 miles SW of Dolgoi Island, in Pavlof Islands, Aleutian Range; 55° 00' N, 161° 53' W; (maps 25, 28). Variant: Big Iliazhek, Eliazik, Ialiasik, Iliasik Islands, Iliaviki. Native name published in 1847 as "O[strov] Bol[shoi] Iliazhek" or "big Iliazhek island" on Russian Hydrog. Dept. Chart 1379. Outer and Inner Iliasik Islands comprise the Iliasik Islands; called "Eliazik" by Capt. Lutke (1836, p. 271), IRN, and "Ialiasik" by Capt. Tebenkov (1852, map 24), IRN.

Outer Island: island, 2 miles long, in Pye Islands, a. S entrance to Nuka Bay, 46 miles ESE of Seldovia, Chugach Mountains; 59° 21' N, 150° 25' W; BGN 1929; (map 50). Variant: Outer Pye Island. Descriptive name given by USC&GS in 1927 and so named because it is the last or outermost (farthest off-shore) of the Pye Islands.

Outer Point of Shoals: point of land, see Shoals Point.

Outer Point: point of land, at mouth of Fresh water Bay, on E coast of Chichagof Island, 9 miles NE of Tenakee Springs, Alexander Archipelago; 57° 50' 00" N, 134° 59' 15" W; (map 9). Variant: Bluff Point. Descriptive name given in 1881 by Comdr. Henry Glass, USN, and published by USC&GS in the 1883 Coast Pilot (p. 180).

Outer Point: point of land, at W tip of Baker Island, 4 miles N of Granite Point, Alexander Archipelago; 55° 22' 25" N, 133° 40' 30" W; (map 4). Local name recorded in 1948 by USGS

Outer Point: point of land, between Twelvemile Arm Kasaan Bay and Kina Cove, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 31' 15" N, 132° 31' 25" W; (map 4). Descriptive name published in 1911 by USC&GS.

Outer Point: point of land, W tip of Douglas Island, in Stephens Passage, 4 miles NW of Middle Point and 10 miles W of Juneau, Coast Mountains; 58° 18' 05" N, 134° 41' 15" W; (map 11). Descriptive name given by Lt. F. M. Symonds, USN, in 1880 and published by USC&GS in the 1883 Coast Pilot (p. 173).

Outer Pye Island: island, see Outer Island.

Outer Right Cape: point of land, east point of entrance to Kiliuda Bay, on SE coast of Kodiak Island; 57° 16' N, 152° 49' W; (map 34). Variant: Mys Pravoy, Pravo Cape, Right Cape, Starboard Cape. Descriptive name published in 1943 by USC&GS. Capt. Tebenkov (1852, map 23) published the name "M[ys] Pravoy," meaning "right hand cape." Baker (1906, p. 528) called this point "Right Cape" and (p. 596) "Starboard Cape."

Outer Rock: rock, awash at low tide, between Hodikof and Sarana Bays, off eastern Attu Island, 1.4 miles E of Hodikof Point, Aleutian Islands; 52° 52' 40" N, 173° 19' 00" E; (map 13). Descriptive name listed in the 1944 Aleutian Coast Pilot.

Outer Rock: rock, in Nazan Bay, off E coast of Atka Island, Aleutian Islands, 52° 11' N, 174° 07' W; (map 18). Variant: Vnechni Rock, Vnyshniy, Kamen. Name published as "K[amen]"

Vnyshniy," meaning "outer rock " by Capt. Tebenkov (1852, map 27), IRN. Not named on recent USGS maps or USC&GS charts.

Outer Rock: rocks, see Outer Rocks.

Outer Rocks: rocks, at W entrance to Khaz Bay, 7.5 miles SW of Chichagof, on west coast of Chichagof Island, Alexander Archipelago; 57° 33' 30" N, 136° 09' 30" W; BGN 1908; (map 9). Variant: Outer Rock. Descriptive name given in 1897 as "Outer Rock" by Lt. Comdr. E. K. Moore, USN, to one of the rocks. The name was applied to the group by USC&GS in 1908 and published in the 1908 Coast Pilot (p. 167) as "Outer Rocks."

Outer Seal Rock: rock, 3 miles W of Gurney Bay and 24 miles SW of Karluk, on W coast of Kodiak Island; 57° 18' 10" N, 154° 50' 20" W; (map 35). Descriptive name published by USC&GS in 1943. See Seal Rocks.

Outer Signal: rocks, elev. 50 ft., off NE coast of Sedanka Island, Aleutian Islands; 53° 48' 15" N, 166° 02' 20" W; (map 23). Variant: Cook's Rock. Named as one of "The Signals" by J. J. Gilbert, Comdr. of the USC&GS steamer Pathfinder during 1900-01

Outlet Cape: point of land, tip of Kupreanof Peninsula, between Kupreanof Strait and Viekoda Bay, on N coast of Kodiak Island; 57° 59' 55" N, 153° 17' 00" W; (map 34). Variant: Mys Vykhoda, Mys Vykhodnoy, Viekhoda. Translation of the descriptive name "M[ys] Vykhoda" given by Sub-Lt. Mikhail Murashev in 1839 or 1840 and published in 1849 on Russian Hydrog. Dept. Chart 1425.

Outlet Glacier: glacier, on N slope of Mount Veniaminof, trends N 3 miles to its terminus at head of Blueberry Creek, 10 miles W of Knife Peak, Aleutian Range; 56° 17' N, 159° 21' W; (map 30). Name reported in 1923 by R. H. Sargent, USGS; published in 1927 by USGS.

Outlook Point: mountain, 1,451 ft., 17 miles SE of Burnt Mountain and 30 miles SE of Christian, Yukon Flats; 67° 17' N, 144° 05' W; (map 122). Local name reported in 1927 by J. B. Mertie, USGS.

Outpost Creek: stream, heads on Outpost Mountain, flows W, NE, and W 18 miles to Chandler River, Arctic Slope, 69° 13' N, 151° 25' W BGN 1960; (map 141). Named by USGS geologists during exploration of Naval Petroleum Reserve No. 4 between 1944-53, for Outpost Mountain.

Outpost Island: island, 0.1 miles long, in Prince William Sound, 1.5 miles S of Fairmount Island, 42 miles NE of Whittier, Chugach Mountains; 60° 50' 40" N, 147° 27' 30" W; (map 63). Local name reported in 1951 by USGS.

Outpost Mountain: mountain, 1,305 ft., at head of Outpost Creek, 25 miles SE of Umiat, Arctic Slope; 69° 09' N, 151° 13' W; BGN 1964; (map 141). Variant: Natvaksukruk Hill. Named by USGS geologists in 1945 during exploration of Naval Petroleum Reserve No. 4. The Eskimo name according to T. E. Taylor USGS, is Natvaksukruk.

Outside Bay: bay, on SW coast of Naked Island trends SW 2 miles to Prince William Sound, miles NE of Chenega, Chugach Mountains; 60° 38' N, 147° 29' W; (map 63). Variant: Outside Harbor. Name published in 1943 by USC&GS.

Outside Harbor: bay, see Outside Bay.

Outuchiwenat Mountain: mountain, 4,000 ft, 1 mile SE of Mount Oratia, 80 miles NE of Good News, Kilbuck-Kuskokwim Mountains; 59° 54' N, 160° 00' W; (map 53). Eskimo name shown on a 1898 fieldsheet by W. S. Post, USGS.

Outwash Creek: stream, flows N 40 miles to Kurupa River 25 miles S of its junction with Colville River, Brooks Range; 68° 43' N, 155° 03' W; BGN 1960; (map 133). So named about 1950 by USGS geologists during exploration of Naval Petroleum Reserve No. 4, because "stream runs through a belt of terraced gravel that is part of an outwash plain from one of the glacial advances."

Ouzinkie: village, pop. 214, on W coast of Spruce Island, NE of Kodiak Island; 57° 55' 30" N, 152° 29' 50" W; BGN 1966; (map 34). Variant: New Balaam, Novie Balaam, Oozinkee, Oozinkie, Starling, Seleniye Ruskiy i Kreolovy, Skvortsova, Usinka, Uzinkee, Uzinki, Uzinkie. Transliteration by Baker (1906, p. 657) of "Uzenkiy," from "uzkiy," meaning "very narrow," derived from the Russian name given to Narrow Strait, upon which the village is located. The name was reported as "Oozinkie, where there are 15 creoles * * *," by Petroff (1881, p. 29). In 1849 the Russian American Company published the name "Selen[iye] Rus[kiy] i Kreolovy," meaning "village of Russians and creoles." "S[eleniye] Skvortsova," meaning "starling village" was published by Capt. Tebenkov (1852, map 23), IRN. Ouzinkie post office was established in 192?

Oval Island: island, see Easterly Island.

Oval Mountain: hill, 901 ft., 1 mile N of mouth of Ayakulik River, 25 miles SW of Karluk, on W coast of Kodiak Island; 57° 12' 20" N, 154° 31' 25" W; (map 35). Descriptive local name published in 1943 by USC&GS.

Oval Rock: rock, in Khaz Bay, 6 miles SW of Chichagof, off W coast of Chichagof Island, Alexander Archipelago; 57° 35' 00" N, 136° 08' 30" W; BGN 1908; (map 9). Variant: Egg Rock. Descriptive name given in 1908 by USC&GS, and published in 1909 on Chart 8280.

Over Creek: stream, flows NW 2 miles, from NW of Minnie Creek Lake to Middle Fork Koyukuk River, 3 miles SSW of mouth of Gold Creek and 38 miles W of Chandalar, Brooks Range; 67° 29' 00" N, 149° 55' 30" W; BGN 1932; (map 123). Name reported in 1931 by Marshall (USGS, 1934, pl. 6).

Over-The-Hill Portage: portage, 1.5 miles long, across neck of bend in Koyukuk River, 46 miles SW of Roundabout Mountain, Koyukuk Lowland; 65° 01' N, 157° 35' W; (map 108). Local name obtained at Huslia by USGS in 1954 or 1955.

Overhang Point: point of land, at head of Redfish Bay, 10.5 miles NW of village of Port Alexander, Alexander Archipelago; 56° 20' 40" N, 134° 51' 30" W; (map 5). Named in 1897 by Lt. Comdr. J. F. Moser, USN.

Overland Bluff: bluff, elev. 910 ft., W of junction of Eureka and Baker Creeks, 29 miles S of Rampart, Yukon-Tanana Highlands; 65° 05' 30" N, 150° 17' 30" W; BGN 1965; (map 106). Name reported in 1963 by Bond Taber, USGS, as having "long local usage."

Overland Roadhouse: locality, 4 miles S of Harding Lake and 34 miles NW of Big Delta, Yukon Tanana Highlands; 64° 22' N, 146° 52' W; (map 101). Name of a former roadhouse; reported in 1910 by USGS (Capps, 1912, pl. 1).

Overland Roadhouse: locality, see Fox Farm Lodge.

Oversight Creek: stream, flows NW to join Dividend Creek to form Telegram Creek, in Pilgrim River basin, 21 miles N of Solomon, Seward Peninsula Highlands; 64° 51' 45" N, 164° 34' 00" W; (map 95). Prospectors' name reported in 1908 by P. S. Smith (in Brooks and others, 1909, pl. 10), USGS.

Ovkekok: locality, see Ukivok.

Owalit Mountain: hill, 914 ft., 5 miles NW of Bunnell Cape, St. Lawrence Island; 63° 26' N, 171° 48' W; BGN 1951; (map 93). Variant: Miyook Mountain. Eskimo name reported in 1949 by Maj. H. B. Allen, USAF. According to Orth, in 1965, it means "the north one."

Owen, Mount: mountain, 7,820 ft., 9 miles SE of Mount Augusta and 51 miles NW of Yakutat, St. Elias Mountains; 60° 13' 30" N, 140° 15' 00" W; (map 66). Named by Russell (1891, p. 139), USGS, for David Dale Owen, 1807-60, American geologist.

Owens Cabins: locality, on left bank of Coleen River, 11 miles NW of Rabbit Mountain and 34 miles N of Coleen Mountain, Brooks Range; 67° 35' N, 142° 37' W; (map 121). Name reported in 1939 by FitzGerald (1944, p. 231), USGS.

Owens Ridge: ridge, 1.5 miles long, on NE side of Attu Island, 1.2 miles NE of Winter Lake, Aleutian Islands; 52° 56' 55" N, 173° 01' 20" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II; name shown on an AMS map published in 1948.

Owens: village, see Togiak.

Oweruk Creek: stream, see Kwiniuk River.

Owgootowram Koonga: stream, see Ogotoruk Creek.

Owgootowruk: bluff, see Augutaurak.

Owhat River: stream, heads N of Molybdenum Mountain and flows SW 40 miles to Kuskokwim River 3.8 miles E of Aniak, Kilbuck-Kuskokwim Mountains; 61° 36' N, 159° 25' W; BGN 1948; (map 73). Variant: Knowat River, Nowat River, Ohwat River, Okkutweek River, Yukwonilnuk River. Native name reported by A. G. Maddren, USGS, in 1914.

Owl Creek: stream, anabranch of Yukon River, heads W of Arbor Island, flows NW 4.5 miles to Center Slough, 8 miles W of Marshall, Yukon-Kuskokwim Delta; 61° 52' 30" N, 162° 20' 00" W, (map 74). Variant: Lithkealiktulik Slough. This is a partial translation of an Eskimo name "Lith-ke-a-lik-tu-lik," meaning "many owls," reported by USC&GS in 1951.

Owl Creek: stream, flows E 10 miles to Hodzana River 4.5 miles NW of Beaver, Yukon Flats; 66° 29' 15" N, 147° 58' 40" W; (map 118). Prospectors' name reported in 1902 by Lt. H. Erickson, USA.

Owl Creek: stream, flows NE 2 miles to Crow Creek, 54 miles S of Eagle, Yukon-Tanana Highlands; 64° 01' N, 141° 12' W; (map 102). Prospectors' name reported in 1903 by T. G. Gerdine, USGS. On early maps the stream is shown flowing to Cherry Creek.

Owl Creek: stream, flows NW 3 miles to Grayling Fork Black River, 34 miles NW of Midnight Hill, Porcupine Plateau; 66° 08' N, 142° 17' W; (map 120). Local name obtained in 1956 by T. E. Taylor and R. C. Foley, USGS.

Owl Creek: stream, flows SW 1 miles to Zone Creek 7.2 miles SE of Marshall, Nulato Hills; 61° 47' 25" N, 161° 57' 45" W; (map 73). Prospectors' name reported by Harrington (1918. map), USGS, in 1916.

Owl Gulch: ravine, extends SE 1.2 miles to Fourth of July Creek, 7 miles SW of that stream's junction with Yukon River and 33 miles NW of Eagle, Yukon-Tanana Highlands, 65° 07' 30" N, 142° 01' 00" W; (map 103). Local name published in 1956 by USGS.

Owl High: hills, extend W 10 miles just N of Owl Creek, 23 miles NW of Beaver, Kokrines-Hodzana Highlands; 66° 29' N, 148° 12' W; (map 118). Local name obtained in 1956 by USGS.

Owl Island: island, 0.8 miles across, in Sea Otter Sound, Alexander Archipelago; 55° 53' N, 133° 25' W; (map 4). Named in 1904 by E. F. Dickins, USC&GS, "for a signal station called Owl located here."

Owl Lake: lake, 0.5 miles across, on Kenai Peninsula, 2.6 miles SW of Swanson Lake and 30 miles NE of Kenai, Cook Inlet Lowland; 60° 48' 20" N, 150° 36' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, probably for Richardson's Owl or the Arctic Saw-whet (*Cryptoglaux funerea richardsoni*), an owl known to Alaskan Eskimos as "the blind one," because it is almost completely blinded by sunlight (Pearson, 1944, pt. 2, p. 106).

Owl Village: settlement, on right bank of a bend in Kashunuk River, 70 miles W of Marshall, Yukon-Kuskokwim Delta; 61° 46' N, 164° 13' W; (map 74). Variant: Anepoungwagavik, Anepangwagavigamiut, Anipaunorovik. This is a partial translation of an Eskimo village name reported by USC&GS in 1949. The name is rendered two ways: "Ane-poung-wa-ga-vik," reportedly meaning "place like an owl," and "Anepangwagavigamiut," reportedly meaning "people of the owl's place."

Owpuk Creek: stream, see Aupuk Creek.

Ox Point: point of land, on Whiting River, 2.6 miles NE of Port Snettisham and 34 miles SE of Juneau, Coast Mountains; 58° 01' 30" N, 133° 39' 25" W; (map 12). Named in 1888 by Lt. Comdr. C. M. Thomas, USN.

Oxadak Mountain: mountain, 7,410 ft., N head of Alinement Creek, 8.5 miles N of Apoon Mountain, and 43 miles N of Wiseman, Brooks Range; 68° 01' 30" N, 150° 14' 00" W; Named in 1939 by Marshall (1956, p. 162) who wrote, "Even more impressive *. * was the black mountain. *. which I had taken to be Oolah Mountain Actually it turned out to be : ' different peak, which we named Oxadak, after a venerable oldster of the Arctic Eskimos."

Oxide Creek: stream, flows NE 2.4 miles to Ophir Creek, 12 miles N of Council and 41 miles SW of Imurak Lake, Seward Peninsula Highlands; 65° 04' N, 163° 42' W; (map 110). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Oyagamut: locality, see Oyak.

Oyagaruk Creek: stream, heads in lake, flows SW 5 miles to Avalik River 6.5 miles E of its junction with Kuk River, 38 miles SE of Wainwright, Arctic Plain; 70° 07' N, 159° 24' W; (map 146). Variant: Oyararuk. Eskimo name recorded at Wainwright in 1956 as "Oyararuk," meaning "rocky," by Orth.

Oyagatut Creek: stream, flows NW 2.6 miles to Chukchi Sea, 19 miles E of Point Franklin, Arctic Plain; 70° 50' 40" N, 157° 56' 45" W; (map 147). Eskimo name reported in 1950 by USC&GS.

Oyak Creek: stream, tributary, heads at Kanektok River, flows W 25 miles to Kuskokwim Bay, 50 miles NW of Goodnews, Yukon-Kuskokwim Delta; 59° 48' N, 161° 57' W; (map 53). Name derived from former Eskimo village of Oyak; published in 1951 by USGS.

Oyak: locality, on E shore of Kuskokwim Bay at mouth of Oyak Creek, Yukon-Kuskokwim Delta; 59° 47' N, 161° 57' W; (map 53). Variant: Oyagamut. Former Eskimo village name, "Oyagamut," obtained in 1898 from missionary John H. Kilbuck by J. E. Spurr and W. S. Post, USGS.

Oyararuk: stream, see Oyagaruk Creek.

Oyster Rock: rock, on W coast of Kuiu Island, in Tebenkof Bay, Alexander Archipelago; 56° 25' 00" N, 134° 09' 40" W; BGN 1929; (map 5). Named in 1928 by USC&GS because "oysters were found here at low tide."

Oyukak Creek: stream, heads on W side of Oyukak Mountain, flows N 7 miles to Noatak River, Brooks Range; 67° 40' N, 155° 30' W; (map 125). Local name recorded in Kobuk by Orth, USGS, in 1956. It is named for the mountain.

Oyukak Mountain: mountain, 7,310 ft., in Schwatka Mountains, 18 miles NW of Mount Igikpak, Brooks Range; 67° 34' N, 155° 30' W; (map 125). Eskimo name reported to refer in meaning to the glacier or snow cap that covers the top of the mountain. Reported by USGS in 1956.

Oywoonat: point of land, see Chibukak Point.

Ozernoi: bay, see Orzinski Bay.

Ozerskoy Redut: locality, see Redoubt, The.

P

Paba, Isla de: island, see Fish Egg Island.

Pablof Harbor: anchorage, see Pavlof Harbor.

Pachtolik: locality, see Pastoliak.

Pachtolik: locality, see Pastolik.

Pacific Glacier: glacier, see Grand Pacific Glacier.

Pacific Shoal: shoal, on coast of Beaufort Sea, 5 miles E of Cape Halkett, at mouth of Harrison Bay, Arctic Plain; 70° 46' 30" N, 151° 56' 30" W; (map 149). Named in 1889 by Capt. C. H. Stockton, USN, for the whaling ship Pacific, whose master, Capt. Knowles, first reported this shoal (Leffingwell, 1919, p. 83-84).

Pack Creek: stream, flows E 8 miles to Seymour Canal, at mouth of Windfall Harbor, on Admiralty Island, 27 miles S of Juneau, Alexander Archipelago; 57° 54' 15" N, 134° 17' 20" W; (map 9). Named by USFS in 1939 for Charles Lathrop Pack, "editor of Nature Magazine and president of The American Tree Association."

Pack Gulch: ravine, extends 1.2 miles NE to Nizina River W of its junction with Chitistone River, 11 miles E of McCarthy, Wrangell Mountains; 61° 27' 00" N, 142° 36' 35" W; (map 67). Local name obtained by USGS and published on maps since 1954.

Pack Lake: lake, 0.5 miles long, on Kenai Peninsula N of Skilak Lake, 0.9 miles W of Engineer Lake and 30 miles E of Kenai, Cook Inlet Lowland; 60° 28' 45" N, 150° 21' 15" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Pack River: stream, see Ambler River.

Pack Sack Creek: stream, flows SE 9 miles to Buckland River, 47 miles NE of Haycock, Nulato Hills; 65° 50' N, 160° 36' W; (map 109). Local name published on maps after 1950.

Packer Creek: stream, see Parker Creek.

Packers Creek Lake: lake, 2 miles long, at head of Packers Creek on Kalgin Island, 23 miles WSW of Kenai, Cook Inlet Lowland; 60° 28' N, 151° 55' W; (map 62). Local name reported in 1958 by USGS.

Packers Creek: stream, heads in lake, flows NW 2 miles to Naknek River at South Naknek, on Alaska Peninsula, 1 mile SE of Naknek, Bristol Bay Lowland; 58° 43' 05" N, 156° 59' 40" W; (map 41). Local name reported in 1952 by USGS.

Packers Creek: stream, heads in Packers Creek Lake, on Kalgin Island, flows SE 1 mile to Cook Inlet, 23 miles WSW of Kenai, Cook Inlet Lowland; 60° 26' 30" N, 151° 53' 50" W; (map 62). Local name reported in 1958 by USGS.

Packers Spit: spit, 0.8 miles long, at mouth of East Arm Uganik Bay, on N coast of Kodiak Island; 57° 44' 30" N, 153° 30' 00" W; (map 34) Variant: Uganuk Spit. Descriptive name published in 1943 b) USC&GS. A fish-packing plant was located here in the late 1800's. This feature was called "Uganuk Spit" [for Uganik Island] in 189. by Lt. Comdr. J. F. Moser, USN, of the USRCS steamer Albatross.

Packsaddle Gulch: ravine, extends 2 miles up S slope of Strelshla Mountain, 40 miles NE of Palmer, Talkeetna Mountains; 61° 48' 25" N, 147° 58' 45" W; (map 69). Local name reported in 1931 by USGS.

Packsaddle Island: nunatak, 5,640 ft., in Kennicott Glacier, 16 miles NW of McCarthy, Wrangell Mountains; BGN 1966; 61° 38' 45" N, 143° 07' 30" W; (map 67). Named in 1965 by the Mountaineering Club of Alaska, "because its shape resembles a crosstree packsaddle used by pioneer miners."

Packwood Lake: lake, 300 ft., long, on Kenai Peninsula, 0.8 miles S of Eagle Lake and 19 miles NE of Homer, Cook Inlet Lowland; 59° 48' 50" N, 151° 08' 15" W; (map 50). Local name reported and published by USGS in the 1950's.

Pad Island: island, 0.5 miles across, on S coast of Alaska Peninsula, off E shore of Stepovak Bay Aleutian Range; 55° 44' 20" N, 159° 41' 00" W; (map 27). Local name published by USC&GS in 1947 Coast Pilot (v. 2, p. 305).

Paddle Creek: stream, flows E 10 miles to Little Black River, 48 miles SE of Chalkyitsik, Porcupine Plateau; 66° 02' 30" N, 143° 04' 00" W; (map 120). Local name obtained in 1956 by T. E. Taylor and R. C. Foley, USGS.

Paddle Lake: lake, 1 mile long, 3 miles NW of junction of Ishuktak Creek and Topagoruk River, 36 miles SE of village of Meade River, Arctic Plain; 70° 11' N, 156° 05' W; (map 147). Name published in 1966 by USGS.

Paddle Lake: lake, 1.1 miles long, on Kenai Peninsula between Chick and Channel Lakes, 30 miles NE of Kenai, Cook Inlet Lowland; 60° 46' 00" N, 150° 30' 20" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Paddle Mountain: peak, 4,720 ft., 4 miles NW of Arctic Village, Brooks Range; 68° 09' N, 145° 42' W; (map 136). Local name reported in 1956 by R. C. Foley, USGS.

Paddy Bay: estuary, on E coast of Kenai Peninsula, extends SE 2.5 miles to Dangerous Passage, 7.5 miles N of Chenega, Chugach Mountains, 60° 23' 15" N, 148° 04' 30" W; (map 63). Local name reported in 1905 by U.S. Grant, USGS.

Paddy Point: point of land, on an island at mouth of Paddy Bay, on W side of Dangerous Passage, 7.5 miles N of Chenega, Chugach Mountains; 60° 23' 15" N, 148° 04' 00" W; BGN 1934; (map 63). Named in 1933 by a USC&GS field party for nearby Paddy Bay.

Page Mountain: mountain, 3,315 ft., 32 miles NW of Medfra, Kilbuck-Kuskokwim Mountains; 63° 22' N, 155° 35' W; (map 89). Local name reported in 1954 by USGS.

Pagilak River: stream, heads E of Whale Mountain, flows 15 miles NW to Kongakut River, 23 miles SW of Demarcation Point, Brooks Range; 69° 22' N, 141° 33' W; (map 138). Eskimo name recorded on Barter Island in 1952 by USC&GS.

Pagomawik Pass: watercourse, see Bugomowik Pass.

Paguna Arm: bay, 2.7 miles wide and 5 miles long, on SE coast of Kenai Peninsula, 50 miles E of Homer, Chugach Mountains; 59° 36' 30" N, 150° 04' 00" W; BGN 1930; (map 50). Local Indian name reported by USC&GS, in 1930, to mean "black bear."

Pah Rapids: rapids, in the Kobuk River at mouth of Pah River; 66° 46' N, 156° 03' W; (map 115). Variant: Par Rapids. Name reported, and probably given, by Lt. J. C. Cantwell, USRCS, in 1885. See Pah River.

Pah River Flats: swamp, 10 miles across, in basin between Zane and Lockwood Hills, 50 miles NW of Hughes, Hogatza Highlands; 66° 25' N, 155° 50' W; (map 116). Locally named for the river and published by USGS in 1956.

Pah River: stream, heads at 66° 34' N, 155° 09' W, flows W 55 miles to Kobuk River 32 miles SE of Shungnak, Kotzebue-Kobuk Lowland; 66° 46' N, 156° 03' W; (map 115). Variant: Chok-way-chok, Par River, Shok-ah-bok-shegiak. Eskimo name meaning "stream mouth [pang, pai]" probably applied to the stream by Lt. G. M. Stoney, USN, in 1885, and spelled by him "Par." According to Lt. Cantwell (1885, p. 31), USRCS, the Eskimo name for the stream was "Chok-way-chok" (also spelled "Shok-ah-bok-shegiak") which he says refers to the "rapid current" at the stream's mouth. See Pah Rapids.

Pah: locality, on Kobuk at mouth of Pah River; 66° 46' N, 156° 03' W; (map 115). Variant: Par. Former Eskimo village or camp spelled "Par" in 1885 by Lt. Stoney (1900, map), USN, and the same year spelled "Pain" by Lt. Cantwell (1885, p. 31), USRCS. See Pah River.

Pahls-chat-nok: stream, see Mulchatna River.

Pahron Creek: stream, flows 14 miles NW to Meade River, 95 miles SE of Wainwright, Arctic Slope; 69° 33' N, 157° 32' W; BGN 1949; (map 143). Eskimo name reported by USGS in 1949.

Paiiqaaglim Kuugaqzanga: stream, see Payikaglim Creek.

Paimiut Hills: ridge, 1,200 ft., extends 20 miles along right bank of Yukon River, between Big Bend and Tuckers Sloughs, 12 miles SW of Holy Cross, Nulato Hills, 62° 00' N, 160° 13' W; (map 78). Local name reported in 1916 by G. L. Harrington and R. H. Sargent (in Harrington, 1918, pl. 1), USGS.

Paimiut Island: island, 4.8 miles long, in Yukon River, 17 miles SW of Holy Cross, Innoko Lowland; 61° 58' N, 160° 05' W; (map 73). Variant: Great Paimiut Island. Named for the village, shown on a 1916 field sheet by R. H. Sargent, USGS.

Paimiut Mountain: hill, 671 ft., on right bank of Yukon River, E of Paimiut and 40 miles ENE of Russian Mission, Nulato Hills; 61° 58' N, 160° 13' W; (map 73). Riverboat pilots' name shown on a 1922 manuscript chart of Yukon River.

Paimiut Slough: watercourse, distributary of Innoko River, flows SW 70 miles to Yukon River SW of Great Paimiut Island and 21 miles SW of Holy Cross, Innoko Lowland; 61° 56' 25" N, 160° 08' 35" W; (map 73). Named for the village; shown on Edwards' Track Chart of the Yukon, 1899, as "Pimute."

Paimiut Slough: watercourse, see Summer Slough.

Paimiut: locality, on Kokechik Bay, on E bank at mouth of Lithkealik River, 11 miles SE of Cape Romanzof, Yukon-Kuskokwim Delta; 61° 42' N, 165° 50' W; (map 75). Eskimo name referring to the "people of the stream's mouth" reported by USC&GS in 1951. At that time the name applied to "two groups of two or three frame houses each, about a quarter of a mile apart."

Paimiut: locality, see Bimiut.

Paimiut: locality, see Paimute.

Paimiut: settlement, on N bank of Yukon River, 22 miles-SW of Holy Cross, Nulato Hills; 61° 58' N, 160° 14' W; (map 73). Variant: Kuyikanuikpul, Paimjut, Paimut, Paimute, Pimute. This is a common Eskimo name, meaning "people of the stream's mouth," published in Russian in 1861 by P. Tikhmeniev, presumably from information received from Lt. L. A. Zagoskin, IRN, in 1842-44. Ivan Petroff lists "Paimute," population 50, in the 1830 Census. It may be the same place Capt. Raymond (1871, p. 25), USA, calls "Kuyikanuikpul." The village was originally located across the river, but was moved to higher ground about 1915. Hrdlicka (1943, p. 225) reports four villages with this name, in this vicinity, occupied at different seasons.

Paimjut: settlement, see Paimiut.

Paimut: locality, see Paimute.

Paimut: settlement, see Paimiut.

Paimute Slough: stream, see Innoko Slough.

Paimute: locality, on right bank of Kuskokwim River, about 22 miles NE of Bethel, Yukon-Kuskokwim Delta; (map 59). Variant: Paimiut, Paimut. Eskimo camp or settlement reported by the Russians who recorded the name as "Paimut." See Paimiut above. In 1861, P. Tikhmeniev, historian of the Russian American Company, placed the settlement on the left bank of the river. Its exact location is unknown. The population was 30 in 1880; but was probably abandoned shortly thereafter.

Paimute: settlement, see Paimiut.

Pain du Sucre: promontory, see Sugarloaf Mountain.

Paingakmeut: settlement, on left bank of Johnson River, N of mouth of Pikmiktalik River and 17 miles W of Bethel, Yukon-Kuskokwim Delta; 60° 45' 45" N, 162° 14' 45" W; (map 58). Eskimo camp or small settlement listed in the 1950 Census with a population of 44.

Painorouyun Slough: stream, flows NW 4.5 miles to Hooper Bay, 4.3 miles W of Keoklevik River, Yukon-Kuskokwim Delta; 61° 25' N, 165° 54' W; (map 75). Eskimo name reported by USC&GS in 1951.

Paint River: stream, formed by its Middle and South Forks, flows E 17 miles to Akjemguiga Cove in Kameshak Bay, 27 miles SE of Kakhonak, Aleutian Range; 59° 09' 30" N, 154° 14' 30" W; (map 51). Name published by K. F. Mather (in Brooks and others, 1925, pl. 3), USGS.

Painted Mountain: mountain, see Painted Peak.

Painted Mountain: peak, 2,920 ft., on E bank of Soluka Creek, on Alaska Peninsula in Katmai National Monument, 11 miles SE of Mount Katmai, Aleutian Range; 58° 07' 00" N, 154° 51' 30" W; BGN 1924; (map 42). So named in 1916 by R. F. Griggs, National Geographic Society, "because of its varied colors."

Painted Peak: mountain, 1,500 ft., on Revillagigedo Island, 1 mile E of Carroll Inlet and 5 miles N of Thorne Arm, Alexander Archipelago, 55° 27' 45" N, 131° 15' 25" W; BGN 1923; (map 3). Variant: Painted Mountain. Named in 1923 by USFS.

Painter Creek: stream, flows NW 13 miles to King Salmon River, 1 mile W of Mother Goose Lake, on Alaska Peninsula, 22 miles S of Ugashik, Bristol Bay Lowland; 57° 13' 20" N, 157° 25' 15" W; (map 36). Named in 1923 by R. H. Sargent, USGS, for "Al Painter," cook for Sargent's and earlier USGS expeditions.

Painter Point: point of land, at the confluence of Mason and Clayhill Sloughs, N of Clay Island, 10 miles E of Birches, Kokrines-Hodzana Highlands; 65° 07' 45" N, 153° 13' 00" W; (map 107). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the Department of Interior.

Painter Slough: stream, flows W 1 mile from Yukon River to Mason Slough, N of Painter Point and 10 miles E of Birches, Kokrines-Hodzana Highlands; 65° 09' 00" N, 153° 13' 30" W; (map 107). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the Department of the Interior.

Paiyun Creek: stream, flows SE 12 miles to Kanektok River, 70 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 53' 30" N, 160° 23' 05" W; (map 53). Eskimo name published in 1951 by USGS.

Pajara Creek: stream, flows SW 6 miles to Eldorado River, 15 miles NW of Solomon, Seward Peninsula Highlands; 64° 40' 30" N, 164° 54' 00" W; (map 95). Variant: Pajaro Creek. Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Pajara Creek: stream, see Rabbit Creek.

Pajaro Creek: stream, see Pajaro Creek.

Pakenham Point: point of land, between Barry Arm Port Wells and College Fiord, 63 miles SE of Anchorage, Chugach Mountains; 61° 20' N, 148° 04' W; (map 69). Named in 1794 by Capt. George Vancouver, RN, probably for Sir Thomas Pakenham, the commander of the West Indies station in 1786, while Vancouver was serving there (Wagner, 1937, p. 401).

Palarzook: locality, see Pelazuk.

Palazruk: locality, see Pelazuk.

Paldo Creek: stream, flows NW 17 miles to Salcha River 1.2 miles SW of junction of Lost Creek and 60 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 49' N, 144° 33' W; (map 101). Local name reported in 1958 by USGS.

Palisade Cliffs: cliffs, on N shore of Ikatán Bay, Aleutian Range; 54° 48' 40" N, 163° 20' 00" W; (map 25). Name published in 1912 by USC&GS.

Palisade Island: island, 0.5 miles across, in San Christoval Channel, N of San Fernando Island, Alexander Archipelago; 55° 34' 15" N, 133° 22' 15" W; (map 4). Name published in 1925 Coast Pilot (p. 146); derived from Palisade Point.

Palisade Lagoon: lagoon, 0.2 miles wide, at N end of Surprise Bay, on SE coast of Kenai Peninsula, 38 miles ESE of Homer, Chugach Mountains; 59° 31' N, 150° 29' W; BGN 1929; (map 50). So named by USC&GS in 1927, for nearby Palisade Peak.

Palisade Peak: peak, 3,442 ft., in Kenai Mountains, 38 miles ESE of Homer, Chugach Mountains; 59° 33' N, 150° 29' W; BGN 1929; (map 50). Named by USC&GS in 1927 as a suitable name for the peak because it "is a rugged peak and shows prominently."

Palisade Point: point of land, N tip of island in San Christoval Channel, N of Palisade Island, on N coast of San Fernando Island, Alexander Archipelago; 55° 34' 30" N, 133° 22' 00" W; (map 4). Variant: Mys de la Yempalizda, Punta de la Empalizada, Punta Empalizada. Translation of the name "Punta de la Empalizada" given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle.

Palisades Point: point of land, on N shore of Nazan Bay, on E coast of Atka Island, Aleutian Islands; 52° 13' 35" N, 174° 09' 15" W; (map 18). Descriptive name published by the USC&GS in the 1944 Aleutian Coast Pilot (p. 100), Applied because of the point's "prominent rocky bluffs."

Palisades, The: bluffs, on left bank of Yukon River, extend E from Weir Island to Lange Island, 9 miles SW of Kallands, Nowitna Lowland; 65° 06' 30" N, 153° 20' 00" W; (map 107). Named in 1885 by Lt. H. T. Allen, USA.

Palley Creek: stream, flows S 12 miles to Nushagak River, 88 miles S of Sleetmute, Kilbuk-Kuskokwim Mountains; 60° 29' N, 156° 59' W; (map 60) Local name reported in 1952 by USC&GS.

Palm Point: point of land, on S coast of Alaska, on W end of Katalla Bay, 1.7 miles SW of Katalla, Malaspina Coastal Plain; 60° 11' N, 144° 33' W; (map 64). Local name reported in 1904 by Martin (1905, pl. 3), USGS.

Palma Bay: bight, 7 miles across, in Glacier Bay National Monument, on Gulf of Alaska, between Icy Point and Boussole Bay, 60 miles NW of Hoonah, St. Elias Mountains; 58° 23' N, 137° 00' W; (map 10). Variant: Ice Bay, Icy Bay. Named "Baia de Palma" in 1792 by Capt. Alessandro Malaspina (U.S. Coast and Geodetic Survey, 1883, p. 201). See Wagner (1937, p. 481).

Palmer Creek: stream, flows E 1 mile to Shoup Bay, 0.1 miles S of terminus of Shoup Glacier 11.6 miles NW of Valdez, Chugach Mountains; 61° 08' 25" N, 146° 36' 25" W; (map 68). Prospectors' name reported in 1911h USGS.

Palmer Creek: stream, flows NW 5 miles to East Fork Chena River, 69 miles SW of Circle, Yukon-Tanana Highlands; 65° 01' 45" N, 145° 29' 10" W; (map 104). Named by prospectors; reported in 1911 by E. A. Porter (in Brooks and others, 1912, p. 244), USGS.

Palmer Creek: stream, flows S 5.8 miles to Knik River, E of Glenn Highway, 7 miles SE of Palmer, Cook Inlet Lowland; 61° 31' 10" N, 148° 58' 05" W; (map 69). Local name reported in 1942 by AMS.

Palmer Creek: stream, on Kenai Peninsula, flows S 2.5 miles to a marsh 1 mile NE of Beluga Lake, 3 miles NE of Homer, Cook Inlet Lowland; 59° 39' N, 151° 28' W; (map 50). Local name reported and published by USGS since 1950.

Palmer Creek: stream, on Kenai Peninsula, flows NW 11 miles to Resurrection Creek, 4.5 miles S of Hope, Chugach Mountains; 60° 51' 15" N, 149° 37' 55" W; (map 63). Local name reported in 1895 by Becker (1898, p. 82), USGS.

Palmer Creek: stream, see Coeur d'Alene Creek.

Palmer Siding: town, see Palmer.

Palmer Slough: stream, flows SW 8 miles from junction of Rabbit Slough and Spring Creek to N shore of Knik Arm, Cook Inlet Lowland; 61° 30' N, 149° 27' W; (map 69). Local name published on D. H. Sleem's 1910 map of central Alaska; derived from Palmer's trading post that was in the area.

Palmer, Mount: mountain, 6,940 ft., E of Hunter Creek Glacier, 25 miles SE of Palmer, Chugach Mountains; 61° 19' 15" N, 148° 39' 20" W; (map 69) Local name reported in 1960 by USGS.

Palmer: town, pop. 1,181, in Matanuska Valley, 37 miles NE of Anchorage, Cook Inlet Lowland; 61° 36' 00" N, 149° 06' 30" W; (map 69). Variant: Farmington, Palmer Siding, Warton. Agricultural supply town, established as a railroad station on the Matanuska Branch of The Alaska Railroad about 1916. The Palmer post office was established in 1917; discontinued in 1925. The Warton post office operated here from 1931 to 1935, and was then changed back to Palmer in 1935 (Ricks, 1965. p. 49, 50, 70). The town became the center of

the Alaska Rural Rehabilitation Corporation administered by the U.S. Dept. of the Interior, the supply center of a colony of about 180 farm families from midwest United States in the 1930's. Its population was 150 in 1939 and 890 in 1950. It is thought to have been named for George Palmer, trader in the Knik Arm area in the late 1800's.

Palmers Store: village, see Knik.

Palmito, Punta: point of land, "on the south side of San Juan Bautista Island, Bucareli Bay," Alexander Archipelago; 55° 24' N, 133° 17' W; (map 4). Spanish name meaning "little palm point" shown on a "piano" probably by Jose de Canizares in 1779. See Wagner (1937, p. 481).

Palmtree Islands: islands, 0.2 miles across, off W shore of Islas Bay, 16 miles NW of Chichagof, off W coast of Chichagof Island, Alexander Archipelago; 57° 49' 10" N, 136° 24' 30" W; (map 9). Name published in 1928 by USC&GS on Chart 8258.

Palo Alto Heights: ridge, see Chicken Ridge.

Palo Cano, Punta: point of land, "in Bucareli Bay, east side of San Fernando Island," Alexander Archipelago; (map 4). Spanish name shown on a "piano" probably by Jose de Canizares in 1779. See Wagner (1937, p. 481).

Paloma Pass: water passage, 0.7 miles long, near W end of Port Real Marina, between Lulu and Pigeon Islands, Alexander Archipelago; 55° 26' N, 133° 33' W; BGN 1923; (map 4). Spanish word meaning "pigeon" given in 1923 by USC&GS.

Palomas, Isla: island, see Pigeon Island.

Palomas, Ostrov de: island, see Pigeon Island.

Palonoi Point: point of land, "on the mainland, very near Point Rothsay, at mouth of Stikine River. Named Palonoi (fired) by Basargin, of the Rynda party, 1836" (Baker, 1906 p. 488).

Paltchikatno: locality, on Innoko River near junction of Dishna River, Innoko Lowland; 63° 36' N, 157° 17' W; (map 90). Variant: Tichaichachass. Former Indian village reported in 1850 as "Paltchikatno ou Tichaichachass" on Lt. L. A. Zagoskin's map.

Paltusey, Mys: point of land, see Halibut Point.

Pamatairutmut: locality, on left bank of Kanektok River, 10 miles E of Kwinhagak and 48 miles N of Goodnews, Yukon-Kuskokwim Delta; 59° 48' N, 161° 38' W; (map 53). Eskimo name was shown as a locality on an 1898 fieldsheet by W. S. Post, USGS.

Pamela, Mount: Peak, see Brooks, Mount.

Pamichtuk Lake: lake, 1 mile long, at head of Mashooshalluk Creek, 7 miles SE of Cairn Mountain and 61 miles NW of Wiseman, Brooks Range; 67° 46' N, 152° 12' W; BGN 1932; (map 124). An Eskimo word said to mean "other" reported by Robert Marshall in 1932.

Pamiek Lake: lake, see Nerka, Lake.

Pamplona Bank: reef, see Pamplona, Bajo.

Pamplona Rocks: reef, see Pamplona, Bajo.

Pamplona, Bajo: reef, in Gulf of Alaska, off Mt. Elias; (map 47). Variant: Orel Rocks, Pamplona Bank, Pamplona Rocks, Roca Pamplona. This reef seems to have been first reported July 15, 1779, by Jose de Canizares. Several other diaries of the Spanish expedition also mention the reef although Don Ignacio Arteaga and one of the others expressed opinions that it was only some white wood floating on the water. On Camacho's map of the expedition, the shoal appears at about 59° 10' N off Mount St. Elias (Wagner, 1937, p. 481). Capt. Vancouver, (1798, v. 3, p. 225), RN, refers to it as "Roca Pamplona of the Spaniards." Capt. Tebenkov, IRN, relates that Talin, mate of the Russian vessel Orel, meaning "Eagle," saw it in 1794 and named it "Orel" after his ship (Baker, 1906, p. 488). This feature was never subsequently found and what was seen may have been a tide rip and discolored water, which is common in this area, or a grounded mass of ice from Malaspina Glacier, which was more extensive then.

Panamaroff Creek: stream, heads in lake, flows NE 1 mile to head of Womens Bay, 8.5 miles SW of Kodiak, Kodiak Island; 57° 42' 00" N, 152° 33' 50" W; BGN 1965; (map 34). Variant: Lost Creek. Probably named for Cornelius Panamaroff, 1880[?]-1930, a native of Kodiak.

Panaphagrock: mountain, see Panapkagrak Mountain.

Panapkagrak Mountain: mountain, 2,460 ft., W of Wulik River, 40 miles NE of Kivalina, Brooks Range; 68° 05' N, 163° 19' W; (map 130). Variant: Panaphagrock, Panapkarroak Mountain. Descriptive Eskimo name meaning "old tent" reported as "Panapkarroak Mountain" in 1960 by D. C. Foote.

Panapkarroak Mountain: mountain, see Panapkagrak Mountain.

Pancake Creek: stream, see Pennant Creek.

Pancake Rock: island, 0.4 miles across, 3 miles W of Cape Starr, on W coast of Umnak Island, Aleutian Islands; 52° 56' 07" N, 169° 01' 45" W; BGN 1940; (map 21). Descriptive name given in 1938 by USC&GS. Pan de Azucar: mountain, see Augustine Volcano.

Pandora Peak: mountain peak, 6,214 ft., 2 miles SE of Flandreau Mountain and 22 miles NW of Valdez, Chugach Mountains; 61° 19' 34" N, 146° 43' 18" W; BGN 1965; (map 68). Named about 1959 by Nielson (1963, p. 135) for Pandora of Greek mythology; a woman given a box by Zeus from which all human ills escaped when she opened it.

Pandorga, Punta de: point of land, in the Prince William Sound area. Spanish name meaning "fat (bulky) point" shown on an unidentified manuscript map presumably copied from a Spanish map. The name is found on no other source.

Pangengi Creek: stream, see Panguingue Creek.

Pangokepek River: stream, see Pungokepek Creek.

Pangokeput River: stream, see Pungokepek Creek.

Pangokeput: lake, see Pungokepek Lake.

Panguingue Creek: stream, flows NE 8 miles to Nenana River, 6 miles NW of Healy, Alaska Range; 63° 56' 30" N, 149° 03' 25" W; (map 87) Variant: Pangengi Creek. Named for the Philippine card game; reported in 1952 as "Pangengi Creek" by USGS.

Panhandle Island: island, in South Pass, S of Signal Island, Alexander Archipelago; 55° 11' 35" N, 132° 51' 40" W; (map 4). Local name published in 1965 by USC&GS.

Panhat Point: point of land, on NE coast of Bainbridge Island, on W side of Prince of Wales Passage, 6 miles S of Chenega, Chugach Mountains; 60° 09' 00" N, 148° 03' 30" W; (map 63). Local name reported in 1951 by USGS.

Panic Creek: stream, flows NW 7 miles to Kiligwa River, 5 miles SW of Liberator Lake, Arctic Slope; 68° 49' 30" N, 158° 31' 00" W; BGN 1960; (map 132). Named in 1950 by B. H. Kent, USGS, "for concern for overdue personnel."

Panikpiak Creek: stream, flows NW 8 miles to Chukchi Sea, 7.5 miles NE of Cape Beaufort and 47 miles SW of Point Lay, Arctic Plain; 69° 06' 10" N, 163° 37' 30" W; (map 145). Eskimo name given to this stream by USC&GS in 1949. It was the name of an Eskimo that once lived in the area, and the name came to be applied to the locality, in a "possessive" sense, because it was there that mailsleds from Barrow and Kotzebue generally met.

Pankof Breaker: reef, 3 miles NE of East Anchor Cove, Ikatana Peninsula, on SE coast of Unimak Island, Aleutian Islands; 54° 42' 30" N, 163° 00' 30" W; (map 25). Name derived from Cape Pankof; reported by Ferdinand Westdahl, USC&GS, commander of the Coast Survey steamer McArthur, who made surveys in this area in 1901.

Pankof, Cape: point of land, on SE tip of Ikatana Peninsula, on SE coast of Unimak Island, Aleutian Islands; 54° 40' N, 163° 04' W; (map 25). Variant: Pankoff, Pankova. Russian name published in 1847 as "M[ys] Paknova" or "Pankof's Cape" by the Russian Hydrog. Dept. on Chart 1379. The USBF used the two "f" spelling of the name for this point in 1888.

Pankoff: point of land, see Pankof, Cape.

Pankova: point of land, see Pankof, Cape.

Pannell River: stream, see Pinnell River.

Panorama Mountain: mountain, 5,778 ft., 12 miles SE of Fang Mountain and 27 miles SE of Healy, Alaska Range; 63° 28' 45" N, 148° 47' 15" W; (map 87). Local descriptive name obtained in 1951 by USGS.

Panoramic Creek: stream, heads on Panoramic Peak of Granite Mountain, flows NE 6.4 miles to Arrow Creek, 22 miles SE of Delta Junction, Alaska Range; 63° 52' 35" N, 145° 19' 57" W; (map 86). Named between 1948 and 1955 by T. L. Pewe, USGS.

Panoramic Peak: peak, 5,150 ft., on N slope of Granite Mountain, 19 miles SE of Delta Junction, Alaska Range; 63° 48' 50" N, 145° 23' 50" W; (map 86). Named between 1848 and 1955 by T. L. Pewe, USGS.

Panowat Spit: spit, 6 miles long, between Kokechik Bay and Bering Sea, 1.6 miles S of Cape Romanzof, Yukon-Kuskokwim Delta; 61° 43' N, 166° 09' W; (map 75). Variant: Pungohat Spit. Eskimo name meaning "at the end of the hills," reported by USC&GS in 1951.

Panther Peak: mountain, see Loren Hill.

Papa Willie Creek: stream, flows S 40 miles to Yokontoh Slough, SE of Blackburn Island and 53 miles SE of Unalakleet, Innoko Lowland; 63° 23' N, 159° 23' W; BGN 1960; (map 91). Variant: Sisdlartna River. Local name reported in 1951 by U.S. Army Corps of Engineers.

Papa Willie Creek: watercourse, see Yokontoh Slough.

Papan River: stream, see Pargon River.

Papiak Point: bluff, elev. 50 ft., on N bank of Naknek River, on Alaska Peninsula, 9 miles SE of Naknek, Bristol Bay Lowland; 58° 42' 40" N, 156° 45' 40" W; (map 41). Eskimo name reported in 1952 by USGS.

Papigak Creek: stream, flows NE and N 6 miles to Chukchi Sea, 15 miles E of Point Franklin, Arctic Plain; 70° 49' 15" N, 158° 10' W; (map 147). Eskimo name reported in 1950 by USC&GS.

Papin River: stream, see Pargon River.

Papiok, Mount: mountain, 6,530 ft., 12 miles N of Mount Igikpak, Brooks Range; 67° 35' N, 154° 57' W; (map 125). Eskimo name recorded in Kobuk by Orth, USGS, in 1956 and reported to mean "tail of a fish."

Papka: locality, on N shore of Kuskokwim Bay, 10 miles SW of Eek Island and 57 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 03' N, 162° 28' W; (map 58). Variant: Papkamut. Former Eskimo camp or village reported by J. E. Spurr and W. S. Post, USGS, based on information received in 1898 from J. H. Kilbuck, Moravian missionary, who spelled it "Papkamut," i.e. "Papka people." This appears to be the same name as "Popokamiut."

Papkamut: locality, see Papka.

Papkes Landing: locality, on W coast of Mitkof Island, 9 miles S of Petersburg, Alexander Archipelago; 56° 40' 30" N, 132° 55' 55" W; (map 6). Local name recorded in 1953 by USGS. Current maps show a dock and three cabins here.

Papoose Cove: cove, 0.5 miles across, extends E to W side of Squaw Bay, 30 miles NE of Whit Tier, Chugach Mountains; 60° 50' 15" N, 147° 50' 00" W; (map 63). Local name reported in 1952 by USGS.

Papoose Creek: stream, heads on Syncline Mountain, flows N 1.7 miles to Alfred Creek, 58 miles NE of Palmer, Chugach Mountains; 61° 57' 00" N, 147° 29' 35" W; (map 69). Local name reported in 1952 by USGS.

Papoose Twins: lakes, each 1 mile long, E of Little Susitna River, 23 miles N of Anchorage, Cook Inlet Lowland; 61° 32' 10" N, 150° 05' 00" W; (map 70). Local name reported in 1958 by USGS.

Paps, The: hills, 500 ft., two small rounded hills, in Glacier Bay National Monument, 0.7 miles NE of Harbor Point, at mouth of Lituya Bay, 87 miles NW of Hoonah, Malaspina Coastal Plain; 58° 37' N, 137° 38' W; (map 10). Descriptive name published in 1875 by USC&GS on Chart 742. The first use of name is unknown.

Par Rapids: rapids, see Pah Rapids.

Par River: stream, see Pah River.

Par: locality, see Pah.

Para Point: point of land, SW point of Pearl Island, in Yukon River 17 miles NE of Russian Mission, Yukon-Kuskokwim Delta; 61° 55' 20" N, 160° 52' 15" W; (map 73). Variant: Pats Island. The origin of this name is unknown. It may represent a misreading of the name "Pats Island" shown on a 1916 fieldsheet by R. H. Sargent, USGS, which, because of filling, is now part of Pearl Island.

Paradise Camp: locality, at head of Slate Creek, 4.5 miles NE of Twin Mountain and 13 miles N of Nome, Seward Peninsula Highlands; 64° 42' N, 165° 21' W; (map 94). Site of a mining camp shown on the 1902 "Map of the Nome and Snake River Country" by J. M. Davidson.

Paradise Cove: cove, 0.5 miles wide, in Three Hole Bay, 26 miles SW of Seward, Chugach Mountains; 59° 45' 30" N, 149° 36' 30" W; BGN 1930; (map 49). Named by Capt. McMullen [cna] of the steamer Dora who applied the name to all of Three Hole Bay. The 1912 USC&GS field party restricted the application to this cove.

Paradise Creek: stream, heads in a glacial lake, flows NW 4.8 miles to Metal Creek, 23 miles SE of Palmer, Chugach Mountains; 61° 29' 30" N, 148° 27' 45" W; (map 69). Local name reported in 1960 by USGS.

Paradise Creek: stream, heads on Bonasila Dome, flows W and NE 34 miles to Bonasila Slough 3 miles W of its junction with Yukon River, 26 miles NW of Holy Cross, Nulato Hills; 62° 30' N, 160° 14' W; (map 78). Variant: Stanstrom Creek. Local name obtained in 1952 by USGS.

Paradise Creek: stream, on Kenai Peninsula, flows N 7.5 miles to Resurrection River, 7 miles NW of Seward, Chugach Mountains; 60° 11' 30" N, 149° 35' 10" W; (map 63). Local name reported about 1914 by B. L. Johnson (in Martin and others, 1915, pl. 2), USGS.

Paradise Creek: stream, see Bottley Creek.

Paradise Flats: tidal flats, 0.5 miles across, at head of Saook Bay, on N coast of Baranof Island, 7 miles SW of Todd, Alexander Archipelago; 57° 25' 15" N 135° 12' 45" W; (map 9). Named in 1895 by Lt. Comdr. E. K. Moore, USN, and published on Chart 8283.

Paradise Fork: stream, flows NE 16.6 miles to Sethkokna River, 73 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 57' N, 153° 19' W; (map 89). Local name reported in 1958 by USGS.

Paradise Hill: hill, E of Alaska Highway, 23 miles SE of Northway Junction, Alaska Range; 62° 47' N, 141° 16' W; (map 84). Local name reported by USGS in 1952.

Paradise Lake: lake, 2,000 ft. long, in the Matanuska Valley, 8.7 miles NW of Palmer, Cool; Inlet Lowland; 61° 37' 30" N, 149° 22' 30" W; (map 69). Local name reported in 1914 by GLO (BLM).

Paradise Lakes: lakes, extend NE-SW 4.5 miles in Paradise Valley, 22 miles NE of Seward. Chugach Mountains; 60° 21' 30" N, 149° 01' 30" W; (map 63). Local name reported in 1951 by USGS.

Paradise Pass: pass, 1,400 ft., between heads of Sethkokna River and Eden Creek, 28 miles NW of Telida, Kilbuck-Kuskokowim Mountains; 63° 45' 30" N, 153° 38' 00" W; (map 89). Local name reported in 1958 by USGS.

Paradise Valley: valley, extends NE-SW 7.5 miles on Kenai Peninsula, coursed by Snow River. 20 miles NE of Seward, Chugach Mountains; 60° 20' N, 149° 05' W; (map 63). Local name reported in 1951 by USGS.

Paradise: locality, W of Carlo Island, on right bank of Yukon River, 17 miles NW of Holy Cross, Nulato Hills; 62° 25' N, 160° 03' W; (map 78). Variant: Bonasila. Site of old native village shown on a 1902 fieldsheet by A. J. Collier, USGS. Both names, "Paradise" and "Bonasila," were used by the riverboat pilots from 1898 to 1910. The name "Bonasila" is derived from the nearby Bonasila River.

Paragon River: stream, see Pargon River.

Parakhodnaya, Bukhta: bay, see Steamer Bay

Parakhotnia Bay: bay, see Steamer Bay.

Parallel Creek: stream, flows E 4.5 miles to Chignik Lagoon, 7 miles W of Chignik, on S shore of Alaska Peninsula, Aleutian Range; 56° 19' N, 158° 35' W; (map 30). Named in 1923 by R. H. Sargent, USGS: so called because "its course is near and parallel to the 56° 20' N line."

Paralysis Point: point of land, W point of entrance to Security Bay, on N coast of Kuiu Island, Alexander Archipelago; 56° 51' 50" N, 134° 22' 45" W: (map 5). Variant: South Point. Named in 1881 by Comdr. H. Glass, USN; in 1869 called "South Point" by Comdr. R. W. Meade, USN.

Paramano Bay: bay, see Paramanof Bay.

Paramanof Bay: bay, 3 miles across, 22 miles NW of Afognak, on W coast of Afognak Island, N of Kodiak Island, 58° 18' N, 152° 55' W; (map 43). Variant: Paramano Bay, Paramanoff Bay, Paramanofskaia. Russian family (?) name given as "Paramonovskaya Bukhta" by the Russian American Company in 1849 and spelled "Paramanoff" by USC&GS and USBF.

Paramanof Mountain: mountain, 2,175 ft., 17 miles N of Afognak, on central Afognak Island, N of Kodiak Island; 58° 14' N; 152° 40' W; (map 43). Name derived from Paramanof Bay and published in 1952 on a USGS map.

Paramanof, Cape: point of land, 23 miles NW of Afognak, on W coast of Afognak Island, N of Kodiak Island; 58° 18' 20" N, 153° 03' 30" W; (map 43). Variant: Paramanoff, Paramonof, Paramonoff, Tanaak. Name derived from Paramanof Bay and published by the Russian American Company in 1849 as "M[ys] Paramonovskoy (Tanaak) The Russian Hydro. Dept. published the Aleut name "M[ys] Tanaak," or "cape Tanaak," for this feature in 1847 on Chart 137S, perhaps from the word "tang" which, according to R. H. Geoghegan, means "land" or "place."

Paramanoff Bay: bay, see Paramanof Bay.

Paramanoff: point of land, see Paramanof, Cape.

Paramanofskaia: bay, see Paramanof Bay.

Paramonof: point of land, see Paramanof, Cape.

Paramonoff: point of land, see Paramanof, Cape.

Paran Lakes: lakes, two, near head of Pargon River, Seward Peninsula Highlands; (map 110). Local name shown on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. The lakes cannot be identified on subsequent maps.

Paran River: stream, see Pargon River.

Parantulik River: stream, see Pargon River.

Parent Roadhouse: locality, see Parents Trading Post.

Parent Roadhouse: village, see Crooked Creek.

Parents Mountains: mountains, 1,281 ft., extend NE 12 miles from Chukchi Sea coast, between Kavroarak and Tasikpak Lagoons, 14 miles NW of Kivalina, Arctic Slope; 67° 57' N,

164° 48' W; (map 128). Variant: Angeyukangak, Ungayukaukurnik. Named in 1950 by USC&GS; it is a translation of the Eskimo name for the mountains transcribed as "Ungayukaukurnik."

Parents Trading Post: locality, at mouth of Crooked Creek 33 miles WNW of Sleetmute Kilbuck-Kuskokwim Mountains; 61° 52' 30" N, 158° 06' 30" W; (map 72). Variant: Parent Roadhouse, Portage Village. The trading post was reported in 1910 as "Portage Village" by C. G. Anderson (in Eakin, 1914, pl. 1), USGS. The name "Parent R. H." was reported for the same location on the 1923 map by the Alaska Road Commission.

Parents Trading Post: village, see Crooked Creek.

Parents: village, see Crooked Creek.

Pargan River: stream, see Pargon River.

Pargon River: stream, heads in Bendeleben Mountains, flows SE 32 miles to Fish River, 50 miles NE of Solomon, Seward Peninsula Highlands; 64° 59' N, 163° 06' W; BGN 1910; (map 95). Variant: Anaconda Creek, Oregon River, Papan River, Papin River, Paragon River, Paran River, Parantulik River, Pargan River. Local name derived from an Eskimo name and standardized in 1910 by BGN on the basis of local use. Reported as "Papin" in 1899 by Schrader and Brooks (1900, map 3), USGS. The variant names were used on subsequent mining and USGS maps.

Parida Island Reef: reef, in San Alberto Bay, 0.6 miles S of Parida Island, Alexander Archipelago; 55° 30' 30" N, 133° 14' 30" W; (map 4). Named by USC&GS and published in 1925 Coast Pilot (p. 143).

Parida Island: island, 1,250 ft., long, in San Alberto Bay, 5 miles NW of Craig, Alexander Archipelago; 55° 31' 10" N, 133° 14' 30" W; (map 4). Variant: Isla Partida, La Parida. Spanish name given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as "Isle Partida" or "divided island." According to Wagner (1937, p. 481-482), the word "parida" is a corruption of "partida."

Paris Creek: stream, on Douglas Island, flowing 1.5 miles NE to Glory Hole, 0.3 miles NW of Treadwell and 2.7 miles SE of Juneau, Coast Mountains; 58° 16' 35" N, 134° 22' 50" W; (map 11). Variant: French Pete's Creek, Hayes Creek, Parris Creek. Probably named by Pierre Erussard. The name is spelled Parris in a placer claim filed by him with M. A. Hayes and Henry Borien in 1881. The early miners called the stream both Hayes Creek for Michael Angelo Hayes, one of the locators, and French Pete's Creek for Pierre Erussard (DeArmond, 1957, p. 34). The name Paris Creek was published in 1893 by USC&GS.

Park Creek: stream, on Iniskin Peninsula, flows NE 5 miles to Chinitna Bay, Aleutian Range; 59° 49' 40" N, 153° 05' 45" W; (map 51). Named in 1921 by F. H. Moffit, USGS, because of the park-like view up the stream valley, when seen from a point near the shore of Chinitna Bay.

Park Peak: mountain, 4,800 ft., in British Mountains 2 miles W of Alaska-Canada boundary and 46 miles S of Demarcation Point, Brooks Range; 69° 02' N, 141° 06' W; (map 138).

Name reportedly contained in IBC survey notes; published on a 1944 Canadian topographic map.

Park: locality, see Parks.

Parka Creek: stream, see Scandinavian Creek.

Parker Creek: stream, flows NE 8 miles to Lake Minchumina, 1.7 miles SW of village of Lake Minchumina, Tanana Lowland; 63° 52' 00" N, 152° 21' 40" W; (map 88). Variant: Packer Creek. Local name reported in 1954 by USGS.

Parker Creek: stream, see Poker Creek.

Parker Group: islands, 0.5 miles across, in Sitka Sound, 3 miles W of Sitka, Alexander Archipelago; 57° 03' 40" N, 135° 25' 00" W; (map 9). Named in 1880 by the U.S. Navy and published by USC&GS in the 1883 Coast Pilot (p. 140).

Parker Hill: hill, see Kikikyak Hill.

Parker Lake: lake, 0.8 miles long, W of Kroto Creek, 23 miles SW of Talkeetna, Cook Inlet Lowland; 62° 02' 15" N, 150° 29' 15" W; (map 81). Local name reported in 1958 by USGS.

Parker Pass: pass, 14,500 ft., in Mount McKinley National Park, between Harper Glacier And Harper Icefall, 3 miles NE of summit of Mount McKinley, Alaska Range; 63° 06' 10" N, 150° 56' 30" W; BGN 1947; (map 88). Named in 1913 by Archdeacon Stuck (1921, p. 73) for Herschel Clifford Parker, 1867-1931, physicist and mining engineer, who accompanied Belmore Browne on the expedition which nearly succeeded in reaching the summit of Mount McKinley in 1912.

Parker Point: point of land, 8 miles NW of Angoon, on W coast of Admiralty Island, Alexander Archipelago; 57° 36' 45" N, 134° 40' 30" W; (map 9). Discovered by Lt. Joseph Whidbey, RN, July 20, 1794, and named by Capt. George Vancouver, RN, probably for Sir Peter Parker of the British Admiralty (Wagner, 1937, p. 401).

Parks Cinnabar Ledge: locality, see Parks.

Parks Creek: stream, flows NW 3 miles to Mink Creek SW of Birchwood, 17 miles NE of Anchorage, Cook Inlet Lowland; 61° 23' N, 149° 31' W; (map 69). Local name reported in 1960 by USGS.

Parks Creek: stream, flows SW 1.3 miles to Kuskokwim River, 2.7 miles NW of Red Devil and 8.7 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 47' 45" N, 157° 21' 10" W; BGN 1943; (map 72). Locally named for E. W. Parks. Reported in 1943 by USGS. See Parks.

Parks Prospect: locality, see Parks.

Parks: locality, on N bank of Kuskokwim River at mouth of Parks Creek, 2.7 miles NW of village of Red Devil and 8.8 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 47'

45° N, 157° 21' 10" W; (map 72). Variant: Park, Parks Cinnabar Ledge, Parks Prospect, Tliagenadeden, Tliagenaleden. Trading post and supply point named for Eugene W. Parks when a post office was located here from 1909 to 1910 with Parks as postmaster. A population of 11 was recorded here in 1940, but the more recent census does not list the place.

Parlor Harbor: anchorage, see Pavlof Harbor.

Paroshki Bay: bay, see No Thorofare Bay.

Parris Creek: stream, see Paris Creek.

Parrot Beach: beach, 50 yds. long, on Sredni Bight, on NE coast of Kiska Island, Aleutian Islands; 52° 04' 00" N, 177° 38' 03" E; (map 14). One of the "bird names" arbitrarily applied to features on Kiska Island in 1943 by USAAF for tactical purposes during World War II.

Parrot Island: island, 0.1 miles across, at mouth of Kazakof Bay, 9 miles NE of Afognak, on SE coast of Afognak Island; 58° 05' 20" N, 152° 34' 35" W; BGN 1910; (map 43). Named by C. G. Quillian, USC&GS, who surveyed the locality in 1909.

Parrot Island: island, see Nest Island.

Parrot Lake: lake, 1 mile long, on S end of Dall Island, N of Essowah Lakes, Alexander Archipelago; 54° 49' N, 132° 52' W; BGN 1935; (map 1). So named in 1935 by USGS "because of its proximity to Parrot Point."

Parrot Point: point of land, on W coast of Dall Island, 2 miles S of Port Bazan, Alexander Archipelago; 54° 47' 00" N, 132° 56' 30" W; BGN 1929; (map 1). Name derived from Parrot Rock; given by USC&GS in 1928.

Parrot Rock: island, 0.1 miles long, 0.8 miles SE of Parrot Point on SW coast of Dall Island, Alexander Archipelago; 54° 46' 40" N, 132° 55' 30" W; (map 1). Name published by USC&GS in the 1925 Alaska Coast Pilot (p. 164).

Parry Lake: lake, 0.8 miles long, on E coast of Baranof Island, N of Patterson Bay, Alexander Archipelago; 56° 39' N, 134° 41' W; BGN 1917; (map 5). Named in 1917 by USC&GS for Will H. Parry, 1864-1917, "a member of the Federal Trade Commission who had an interest in Alaska."

Parshas Bay: cove, 0.8 miles wide, at N edge of Port Gravina, 19 miles NW of Cordova, Chugach Mountains; 60° 43' 45" N, 146° 08' 30" W; (map 64). Local name derived from "Parshas Settlement" on east point of entrance; published by USC&GS in 1918.

Parshas Point: point of land, on N shore of Port Gravina, 19 miles NW of Cordova, Chugach Mountains; 60° 44' N, 146° 08' W; (map 64). Local name derived from "Parshas Settlement" on this point; published by USC&GS in 1918.

Parshas Settlement: locality, see Parshas.

Parshas: locality, on N shore of Port Gravina, 19 miles NW of Cordova, Chugach Mountains; 60° 44' N, 146° 08' W; BGN 1910; (map 64). Variant: Parshas Settlement. Local name for a small Indian settlement, reported in 1908 by Grant and Higgins (1910, pl. 1 and 2), USGS. Present maps show one building at this site.

Parson Falls Creek: stream, flows S 6 miles to Rude River, 10 miles NE of Cordova, Chugach Mountains; 60° 40' 30" N, 145° 33' 00" W; (map 64). Local name reported in 1913 by B. L. Johnson (in Brooks and others, 1914, pl. 7), USGS.

Parsons Peak: peak, 6,600 ft., 2.2 miles W of head of Taiya Inlet, 4 miles NW of Skagway, Coast Mountains; 59° 28' 40" N, 135° 25' 40" W; (map 45) Named in 1897 by USC&GS (Baker, 1906, P. 489).

Partennoi, Point: point of land, between Ilin Bay and head of Islas Bay, 16 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 50' 10" N, 136° 23' 20" W; (map 9) Russian name meaning "party" given by Staff-Capt. P. I. Ilin early in the 19th Century.

Partida, Isla: island, see Parida Island.

Partie Cape: point of land, see Party Cape.

Partin Creek: stream, heads at glacier terminus flows S 12 miles to Fountain River at Eldridge Glacier terminus, 41 miles N of Talkeetna, Alaska Range; 62° 54' N, 149° 57' W; (map 82). Local name reported in 1951 by USGS.

Partition Cove: bight, 1 mile across, on SE coast of Sitkalidak Island, SE of Kodiak Island; 57° 06' N, 153° 05' W; BGN 1934; (map 34). Descriptive name given in 1934 by USC&GS, because the "cove is partitioned or bisected through its center by an islet and tombolo: the beach at its head is an isthmus, only 50 to 200 meters across, forming a partition between the cove and McDonald Lagoon."

Partof Bay: cove, see Partov Cove.

Partof Point: point of land, on S tip of Partofshikof Island, between Kruzof and Baranof Islands, Alexander Archipelago; 57° 13' 45" N, 135° 34' 00" W; (map 9). Named in 1897 by Lt. Comdr. E. K. Moore, USN; first part of island name.

Partoffshikoff Island: island, see Partofshikof Island.

Partoffshikoff Island: island, see Partofshikof Island.

Partofs-Chikof Island: island, see Partofshikof Island.

Partofshikof Island: island, 8 miles long, between Kruzof and Baranof Islands, Alexander Archipelago, 57° 15' N, 135° 36' W; (map 9). Variant: Partovshchikov, Ostrov Partovshikov, Partoffschikof Island, Partoffshikoff Island, Partofs-Chikof Island, Partotovstchikoff Island, Partovschikoff Island, Partovshikov Island. Name published in 1848 on Russian Hydrog.

Dept. Chart 1397 as “Os[trov] Partovshchikov,” meaning “Partovshchikov Island.” This is probably a Russian proper name.

Partotovstchikoff Island: island, see Partofshikof Island.

Partov Bay: cove, see Partov Cove.

Partov Cove: bay, 1 mile across, on E coast of Umnak Island, Aleutian Islands; 53° 12' 25" N, 168° 19' 00" W; BGN 1939; (map 22). Variant: Glubokaia Bay, Glubokoi, Partof Bay, Partov Bay, Partovaia, Partovaya Bay. Russian name [from the French] published by Capt. Tebenkov (1852, map 25), IRN, as “Bukh[ta] Partovaya,” meaning “party cove.” This feature was called “Glubokaya,” meaning “deep,” by Capt. Lutke (1836, p. 298) IRN. The name was changed to “Partov Cove” in 1938 by USC&GS.

Partovaia: cove, see Partov Cove.

Partovaya Bay: cove, see Partov Cove.

Partovschikoff Island: island, see Partofshikof Island.

Partovshchikov, Ostrov: island, see Partofshikof Island.

Partovshikov, Ostrov: island, see Partofshikof Island.

Partway Lake: lake, 2 miles across, 8 miles NE of Kgun Lake and 48 miles SW of Marshall, Yukon-Kuskokwim Delta; 61° 38' N, 163° 28' W; (map 74). Local name published by USGS in 1966.

Party Cape: point of land, on NW coast of Shuyak Island, 50 miles N of Kodiak Island; 58° 37' 10" N, 152° 34' 00" W; (map 43). Variant: Partie Cape. Translation of the name “M[ys] Partiy,” from the French “partie,” published in 1819 by the Russian American Company.

Pasagshak Bay: bay, extends NE 3 miles, off Ugak Bay N of Pasagshak Point, on E coast of Kodiak Island; 57° 26' N, 152° 30' W; (map 34) Native name published in 1943 by USC&GS.

Pasagshak Point: point of land, E point of entrance to Pasagshak Bay on N shore of Ugak Bay, on E coast of Kodiak Island; 57° 25' 30" N 152° 08' 30" W; (map 34). Native name published in 1943 by USC&GS.

Paschtol: locality, see Pastoliak.

Paschtol: locality, see Pastolik.

Paschtolik: locality, see Pastoliak.

Paschtolik: locality, see Pastolik.

Pasco Creek: stream, flows SW 5 miles to Salcha River, 2 miles ESE of Caribou and 37 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 39' N, 145° 33' W; (map 101). Local name reported in 1958 by USGS.

Pasco Pass: pass, between the valleys of Glacier River and Wiseman Creek, N of Glacier Pass, 7.5 miles NW of Wiseman, Brooks Range; 67° 28' N, 150° 21' W; (map 124). Prospectors' name reported by F. C. Schrader, USGS, in 1899.

Pashtol: locality, see Pastoliak.

Pashtol: locality, see Pastolik.

Pashtolik, Reka: stream, see Pastoliak River.

Pashtolyak, Reka: stream, see Pastoliak River

Paso Point: point of land, on SW coast of Unalaska Island, Aleutian Islands; 53° 23' 10" N, 167° 41' 00" W; (map 23). Name given by USBF in 1888.

Pass Creek: stream, flows N 4.6 miles to Browns Fork Sulukna River, 52 miles NE of Medfra, Kilbuck-Kuskokwim Mountains; 63° 45' N, 153° 54' W; (map 89). Local name reported in 1958 by USGS.

Pass Creek: stream, flows NW 11 miles to Salmon River, 7 miles SE of Mount Plummer and 77 miles NE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 55' 30" N, 159° 30' 00" W; (map 59). Local name reported in 1955 by J. M. Hoare, USGS.

Pass Creek: stream, flows NW 4.5 miles to Kotsina River, 2 miles E of mouth of Clear Creek, 83 miles NE of Valdez, Wrangell Mountains; 61° 42' 50" N, 144° 02' 50" W; (map 68). Descriptive name given in 1900 by F. C. Schrader, USGS.

Pass Creek: stream, flows NW 5 miles to Goat Creek, 3.3 miles S of Tanada Lake, Wrangell Mountains; 62° 20' N, 143° 21' W; (map 84). Local name reported by USGS in 1960.

Pass Creek: stream, flows S 4 miles W of Eroded Mountain, to Tinayguk River, 3.5 miles NW of mouth of that stream and 25 miles NW of Wiseman, Brooks Range; 67° 36' 30" N, 151° 08' 00" W; (map 124). Local descriptive name obtained in 1956 by USGS topographers.

Pass Creek: stream, flows S 5 miles to Tatonduk River, 16 miles N of Eagle, Porcupine Plateau; 65° 01' 30" N, 141° 10' 00" W; BGN 1931; (map 103). So named in 1930 by J. B. Mertie, Jr., USGS, because it affords an easy route over the divide from the Tatonduk River to Hard Luck Creek.

Pass Creek: stream, flows SE 34 miles to Coleen River, 7 miles E of Lois Dome and 44 miles N of Coleen Mountain, Brooks Range; 67° 43' N, 142° 32' W; (map 121). Local name reported in 1956 by T. E. Taylor, USGS.

Pass Creek: stream, flows SE 5 miles from E of Ernie Lake to Mettenpherg Creek, 2 miles S of Colorado Creek and 70.5 miles W of Wiseman, Brooks Range; 67° 21' 30" N, 152° 46' 00" W; (map 124). Local descriptive name obtained in 1956 by USGS topographers.

Pass Creek: stream, flows SE 7 miles to Wide Bay, So of Mount Shannon, on S coast of Alaska Peninsula, 41 miles SE of Ugashik, Aleutian Range; 57° 24' 05" N, 156° 21' 25" W, (map 36). Local name reported in 1921 by Capps (1923, pl. 2), USGS.

Pass Creek: stream, flows SW 2.6 miles to Canyon Creek, 0.1 miles N of mouth of Divide Creek, 65 miles NE of Valdez, Chugach Mountains; 61° 22' 30" N, 144° 22' 30" W; (map 68). Local name published in 1914 by USGS.

Pass Creek: stream, heads at Belanger Pass, flows W 3.3 miles to Alfred Creek, 61 miles NE of Palmer, Talkeetna Mountains; 61° 57' 50" N, 147° 25' 30" W; (map 69). Local name reported in 1952 by USGS.

Pass Creek: stream, heads at Summit Lake in Chulitna Pass, flows W 5.7 miles to Chulitna River, 42 miles NE of Talkeetna, Talkeetna Mountains; 62° 54' 08" N, 149° 46' 15" W; (map 82). Local descriptive name reported by S. R. Capps and J. B. Mertie, Jr., USGS, in 1917.

Pass Creek: stream, heads in Clearwater Mountains, flows E 10 miles to Clearwater Creek, 8 miles N of Denali Highway and 34 miles SW of Mount Hayes, Alaska Range; 63° 09' 25" N, 146° 58' 30" W; (map 86). Name published on relatively recent maps.

Pass Creek: stream, heads in Dutch Hills, flows SE 1 mile to Cottonwood Creek, 27 miles NW of Talkeetna, Alaska Range; 62° 34' 10" N, 150° 47' 00" W; (map 81). Prospectors' name reported in the 1930's by USGS.

Pass Creek: stream, heads near Rainy Pass, in Teocalli Mountains, flows SE 10 miles to Happy River, 91 miles SW of Talkeetna, Alaska Range; 62° 10' 15" N, 152° 55' 20" W; BGN 1965; (map 81). Variant: Happy River. Local name reported in 1958 by USGS; so called because it heads just south of Rainy Pass.

Pass Creek: stream, heads on Fairview Mountain, flows NE 5.3 miles to Camp Creek, 45 miles W of Talkeetna, Alaska Range; 62° 24' 10" N, 151° 30' 40" W; (map 81). Prospectors' name reported in 1906 by R. W. Porter, USGS.

Pass Creek: stream, on Kenai Peninsula, flows NE 21 miles to Canyon Creek, 11 miles S of Sunrise, Chugach Mountains; 60° 43' 55" N, 149° 27' 00" W; (map 63) Local prospectors' name; reported in 1904 by Moffit (1906, pl. 2), USGS.

Pass Creek: stream, on Kenai Peninsula, flows NW 6 miles to Resurrection Creek, 10 miles SW of Hope, Chugach Mountains; 60° 46' 30" N, 149° 41' 00" W; (map 63). Local descriptive name reported in 1895 by Becker (1898, fig. 6), USGS.

Pass Creek: stream, see Happy River.

Pass Fork Dalzell Creek: stream, heads at Rainy Pass, in Teocalli Mountains, flows NW 5 miles to Dalzell Creek, 92 miles SE of McGrath, Alaska Range; 62° 14' 20" N, 153° 12' 15" W; (map 80). Local name reported in 1931 by USGS.

Pass Fork Hartman River: stream, heads at glacier E of Sled Pass, flows NE 6.7 miles to Hartman River, 94 miles NW of Tyonek, Alaska Range; 61° 41' 50" N, 153° 37' 30" W; (map 71). Local name reported in 1958 by USGS.

Pass Island: island, 0.1 miles across, off NE coast of Mummy Island, at N end of Long Channel, 6.5 miles NE of Chenega, Chugach Mountains; 60° 17' 45" N, 147° 53' 59" W; (map 63). Local name published in 1908 by USC&GS.

Passage Arm: estuary, see Passage Canal.

Passage Bay: cove, see Shotgun Cove.

Passage Canal: estuary, on NE coast of Kenai Peninsula, trends NE 14 miles from Whittier to S end of Port Wells, 36 miles NW of Chenega, Chugach Mountains; 60° 47' N, 148° 21' W; BGN 1915; (map 63). Variant: Passage Arm, Passage Channel, Portage Bay. Named in 1794 by Capt. Vancouver (1798. vl. 3, p. 181), presumably because this body of water leads to a portage connecting Prince William Sound with Cook Inlet.

Passage Channel: estuary, see Passage Canal.

Passage Island: island, 0.5 miles long, at entrance to Port Graham, on SW end of Kenai Peninsula, 8 miles SW of Seldovia, Chugach Mountains; 59° 22' 15" N, 151° 53' 00" W; (map 50). So named by Capt. Portlock (1789, p. 106) in 1786, because the island was at the entrance to what was erroneously thought to be a "strait [Port Graham] leading out to sea *."
*."

Passage Island: island, 0.9 miles long, in South Pass, 0.5 miles NE of Whisker Point, Alexander Archipelago; 55° 10' 35" N, 132° 52' 30" W; (map 4). Local name published in 1965 by USC&GS.

Passage Island: island, 200 ft. across, between Mitchell Bay and Davis Creek, 6 miles NE of Angoon, on W central Admiralty Island, Alexander Archipelago; 57° 31' 45" N, 134° 26' 00" W; (map 9). Variant: Passage Islet. Named in 1869 by Comdr. R. W. Meade, USN.

Passage Island: island, see High Island.

Passage Islands: islands, 0.2 miles across, in Middle Channel, Sitka Sound, 2 miles SW of Sitka, Alexander Archipelago; 57° 01' 45" N, 135° 22' 00" W; (map 9). Variant: Goloi Isles, Ostrov Goloy, Ostrov Prokhoda, Prokhoda Islands. This is an 1882 translation by USC&GS of the name given in 1809 by the Russian navigator Ivan Vasiliev the first; reported by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Prokhoda." These islands were called "Goloy," meaning "bare" by Capt. Tebenkov (1852, map 38), IRN.

Passage Islet: island, see Passage Island.

Passage Point: point of land, northernmost point of Knight Island, at NW entrance to Lower Passage, 22 miles NE of Chenega, Chugach Mountains; 60° 30' 55" N, 147° 41' 40" W; (map 63). Local name published in 1909 by USC&GS; derived from nearby Lower Passage.

Passage Point: point of land, on NE coast of Tanaklak Island, Aleutian Islands; 51° 57' 50" N, 176° 05' 30" W; BGN 1936; (map 17). Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934.

Passage Point: point of land, on W central Admiralty Island, between Mitchell Bay and NW point of entrance to Davis Creek, 5.8 miles NE of Angoon, Alexander Archipelago; 57° 31' 45" N, 134° 26' 30" W; (map 9). Local descriptive name reported in 1869 by Comdr. R. W. Meade, USN.

Passage Point: promontory, on the W coast of Sedanka Island, at the narrowest point on Udagak Strait, Aleutian Islands; 53° 45' N, 166° 15' W; (map 23). Named July 22, 1786 by Capt. Nathaniel Portlock (Wagner, 1937, p. 482).

Passage Rock: rock, 0.4 miles across, N of Tongass Island, in Nakat Bay, Coast Mountains; 54° 46' 52" N, 130° 44' 32" W; (map 2). Named in 1891 by Lt. Comdr. H. E. Nichols USN, published in the 1891 Coast Pilot (p. 79).

Passage Rock: rock, at mouth of Lituya Bay, Glacier Bay National Monument, 0.1 miles NW of Harbor Point and 88 miles NW of Hoonah Malaspina Coastal Plain; 58° 36' 45" N, 137° 39' 30" W; (map 10). Named in 1874 by W. H. Dall, USC&GS published in the 1883 Alaska Coast Pilot (p. 202).

Passless Creek: stream, flows SW 4 miles to Kutuk River, 9 miles E of Survey Pass, Brooks Range; 67° 51' N, 153° 46' W; BGN 1932; (map 125). Named by Robert Marshall in 1931 because a reported pass did not materialize.

Pastol Bay: bight, 28 miles across, off Norton Sound, 30 miles SW of St. Michael, Yukon-Kuskokwim Delta; 63° 12' N, 163° 15' W; (map 92). Variant: Guba Pastol, Pastole Bay, Pastoli Bay, Pastolik Bay, Zaliv Pastol. Name published by Sarichev (1826, map 4) as "Guba Pastol" or "Pastor Bay"; named for an early explorer or trader of the area. Petroff (U.S. Burl Census, 1880, map) reported the name as "Pastoli."

Pastol River: stream, see Pastoliak River.

Pastole Bay: bight, see Pastol Bay.

Pastoliak River: stream, in Yukon Delta, flows NW 30 miles to Pastol Bay, 48 miles SW of St. Michael, Yukon-Kuskokwim Delta; 63° 02' N, 163° 14' W; (map 92). Variant: Pastolik River, Pastol River, Reka Pashtolik, Reka Pashtolyak, Reka Pastol, Reka Pastolyagak, Reka Pastolyak. This is a diminutive form of the name "Pastolik" published by Lt. Sarichev (1826, map 4), IRN, as "R[eka] Pashtolyak."

Pastoliak: locality, on right bank of Pastolik River a few miles N of Pastolik, Yukon-Kuskokwim Delta; 63° 02' N, 163° 18' W; (map 92). Variant: Pastoliakh, Pachtolik, Pashtol,

Paschtolik, Pashtol. Former Eskimo village or camp reported as "Pastoliakh" in 1849 by Capt. M. D. Tebenkov, IRN. The original site of the village is now called "Old Pastolik."

Pastoliakh: locality, see Pastoliak.

Pastolik Bay: bight, see Pastol Bay.

Pastolik River: stream, in Yukon Delta, flows N 65 miles to Pastol Bay at Apoon Mouth, 41 miles NE of Kwiguk, Yukon-Kuskokwim Delta; 63° 02' N, 163° 20' W; (map 92). Variant: Reka Pastol. Name published by Capt. Tebenkov (1852, map 2) as "Reka Pastol" or "Pastor River." See Pastol Bay.

Pastolik River: stream, see Pastoliak River.

Pastolik: village, on right bank of Pastolik River, 40 miles NE of Kwiguk, Yukon-Kuskokwim Delta; 62° 59' 50" N, 163° 18' 15" W; (map 77). Eskimo settlement reported in 1842-44 by Lt. L. A. Zagoskin, IRN; it was recorded by him as "Pashtol." Dall (1870, p. 236) gives the name in 1867 as "Pastolik". The village population in 1890 was 113. The original village site is now called "Old Pastolik."

Pastolyagak, Reka: stream, see Pastoliak River.

Pastolyak, Reka: stream, see Pastoliak River.

Pat Creek: stream, flows S 1 mile to Tom Creek, 2 miles NW of Gilmore Dome and 13 miles NE of Fairbanks Yukon-Tanana Highlands; 64° 59' 30" N; 147° 26' 00" W; (map 100). Local name published in 1908 by USGS.

Pat Creek: stream, flows W 4 miles through Trout Lake to Zimovia Strait, 8.5 miles S of Wrangell], on NW coast of Wrangell Island, Alexander Archipelago; 56° 20' 30" N, 132° 20' 20" W; (map 6). Local name recorded in 1953 by USGS.

Pat Creek: stream, heads at Twin Lakes and flows SW 30 miles to Dall River, 7 miles NW of Stevens Village, Yukon Flats; 66° 06' N, 149° 03' W; (map 118). Local name obtained in 1956 by USGS.

Pataktak: point of land, see Demarcation Point.

Pataktuk: point of land, see Demarcation Point.

Patch Creek: stream, see Sam Patch Creek.

Patching Lake: lake, 3.3 miles long, on Revillagigedo Island, in course of Naha River, 6 miles E of Loring, Alexander Archipelago; 55° 36' N, 131° 29' W; BGN 1962; (map 3). Variant: Fortman Lake. Named for Fred Patching who was drowned in the Naha River; recorded in 1948 by USGS.

Paterson Creek: stream, flows NE 1 mile to Niukluk River, between Camp and Richter Creeks, 6 miles NW of Council and 30 miles NE of Solomon, Seward Peninsula Highlands;

(map 95). Variant: Peterson Creek. Prospectors' name shown as "Peterson" on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee, and as "Paterson" on a 1902 prospectors' manuscript map. This stream cannot be precisely located on current maps. See Lane Creek.

Pathfinder Channel: water passage, see Avatanak Strait.

Patricia Bight: cove, 1.2 miles across, on N coast of Agattu Islands, Aleutian Islands; 52° 30' 00" N, 173° 38' 30" E; BGN 1938; (map 13). This name was proposed in 1938 by the U.S. Navy Hydrog. Office, and was published in 1943 on an AMS map.

Patricia Creek: stream, flows NE 9 miles from Seven Dikes Mountain to Pass Creek, 53 miles NW of Coleen Mountain, Brooks Range; 67° 51' N, 142° 49' W; (map 121). Local name reported in 1956 by T. E. Taylor, USGS.

Patricia Point: point of land, at W entrance to Patricia Bight, on N coast of Agattu Islands, Aleutian Islands; 52° 30' 20" N, 173° 37' 25" E; BGN 1938; (map 13). This name was proposed in 1938 by the U.S. Navy Hydrog. Office, and was published in 1943 on an AMS map.

Patron Alonzo, Punta de: point of land, on Baker Island in Port Asumcion, Alexander Archipelago (map 4) Named by Francisco Antonio Maurelle about May 19, 1779. The man in charge of a launch party was called a patron and Alonzo Moreno was the patron of one of those under Maurelle (Wagner, 1937, p. 482). See Alonzo, Point.

Pats Island: point of land, see Para Point.

Patsy Slough: stream, anabranch, of Yukon River E of Big Island, flows SW 5 miles 3 miles NE of Nulato, Koyukuk Lowland; 64° 45' N, 158° 00' W; (map 97). Variant: Island Slough, Notliagepia-ta. Local name reported in 1954 by USGS. Name published as "Island Slough" in 1898 by USC&GS. Lt. L. A. Zagoskin, IRN, reported the Indian name, "Notliagepia-ta," in 1842-44.

Patsys Cabin: locality, on right bank of Yukon River, 41 miles SE of Kwiguk, Yukon-Kuskokwim Delta; 62° 15' N, 163° 51' W; (map 77). Variant: Patsys Village. This small settlement consisting of one or two cabins was reported in 1939 by USC&GS.

Patsys Village: locality, see Patsys Cabin.

Pattern Creek: stream, flows ENE 2.5 miles to Utukok River, 3 miles downstream from mouth of Driftwood Creek, Arctic Slope; 68° 52' 40" N, 161° 11' 00" W; BGN 1961; (map 131). Named by USGS geologists in 1950 "because its drainage pattern may indicate geological structure."

Patterson Bay: bay, 1 mile across, 4 miles long empties into South Arm Hoonah Sound, 12 miles E of Chichagof, on S central Chichagof Island Alexander Archipelago; 57° 40' N, 135° 45' W; (map 9) Name published in 1900 by USC&GS on Chart 8000; probably named for the survey steamer Patterson.

Patterson Bay: bay, see Deep Cove.

Patterson Bay: estuary, 6 miles long, on E coast of Baranof Island, 20 miles N of Port Alexander, Alexander Archipelago; 56° 33' 00" N, 134° 39' 30" W (map 5) Named in 1895 by USC&GS for its steamer Patterson.

Patterson Chutes: rapids, of Tanana River along SE side of Vachon Island, near mouth of Cosna River, Nowitna Lowland; 64° 51' 20" N 151° 20' 00" W; (map 99). Riverboat pilots' name published on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" by the U.S. Dept. of Interior.

Patterson Creek: stream, flows E 3.8 miles to Candle Creek at Camp 19, 6.2 miles SW of Candle and 37 miles NE of Imuruk Lake. Seward Peninsula Highlands; 65° 50' N, 162° 02' W; (map 110). Prospectors' name reported in 1903 by D. C. Witherspoon (in Moffit, 1905, pl. 2), USGS.

Patterson Creek: stream, flows NW 3.5 miles to South Fork Hess Creek, 10 miles NE of Livengood, Yukon-Tanana Highlands; 65° 39' 30" N, 148° 22' 45" W; (map 105). Named by prospectors; reported in 1916 by J. B. Mertie (in Brooks and others, 1918, pl. 13), USGS.

Patterson Creek: stream, formed by junction of Sullivan and Cache Creeks, flows W 26 miles to Tanana River E of Harper Bend, Nowitna Lowland; 65° 01' 30" N, 151° 31' 25" W; BGN 1965; (map 106). Variant: Cache Creek. Named in 1902 by Lt. G. S. Gibbs, U.S. Army Signal Corps, for H. W. Patterson who assisted him in making a map of the Tanana.

Patterson Glacier: glacier, heads 5 miles NE of Twin Peaks, trends SW 15 miles to head of Patterson River, 15 miles NE of Petersburg. Coast Mountains; 56° 57' 00" N, 132° 41' 25" W; (map 6). Named by W. H. Dall, USC&GS, in 1879, for Carlile P. Patterson, then Superintendent of USC&GS.

Patterson Island: island, 1.5 miles long, between Clarence Strait and Kasaan Bay, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 24' 15" N, 132° 11' 45" W; (map 4). Named in 1886 by Lt. Comdr. R. Clover. USN, "for the Coast Survey [USC&GS] steamer Patterson."

Patterson Mountains: mountains, see Sisters The.

Patterson Peaks: ridge, 4,780 ft., 2 miles NW of Patterson Glacier, 16 miles NE of Petersburg, Coast Mountains; 56° 58' 32" N, 132° 40' 20" W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for charting purposes; name published in 1888 on USC&GS Chart 705

Patterson Point: point of land, E point of entrance to Patterson Bay, on SE coast of Baranof Island, Alexander Archipelago; 56° 32' 30" N, 134° 38' 20" W, (map 5) Local name used by fishermen; published in 1901 by USC&GS.

Patterson Point: point of land, NE entrance point to Williwaw Cove, on N coast of Little Sitkin Island, Aleutian Islands; 51° 59' 15" N 178° 30' 15" E; BGN 1937; (map 15). Reported by

personnel of the U.S.S. Oglala in 1935; named for the USC&GS ship Patterson which was in these waters in 1904.

Patton Bay: bay, 4 miles wide, on SE coast of Montague Island, 70 miles SE of Seward, Chugach Mountains; 59° 56' N, 147° 25' W; BGN 1937; (map 49). Named in 1937 by USC&GS for Rear Adm. Raymond Stanton Patton, 1882-1937, who began his service in USC&GS in 1904. As commanding officer of the USC&GS steamer Explorer in 1914, he made surveys in Prince William Sound. In 1915 he was appointed chief of the Coast Pilot Section in the Washington Office, and during World War I served as Lieutenant and Lieutenant Commander in the Navy. He served as a member of the U.S. Geographic Board from December 1926 to June 1934. Rear Adm. Patton was appointed director of the U.S. Coast & Geodetic Survey in 1929, in which office he served continuously until his death on November 25, 1937.

Patton Cove: cove, 1.5 miles long, on SE coast of Ulak Island, Delarof Islands, Aleutian Islands; 51° 20' 45" N, 178° 57' 00" W; (map 16). Name published in the 1946 supplement to the 1944 Aleutian Coast Pilot (U.S. Coast and Geodetic Survey, 1946, p. 120).

Patton Glacier: glacier, about 1.2 miles long, in Glacier Bay National Monument, on NE slope of Mount Cadell, trends N to its 1947 terminus 1.5 miles S of the Plateau Glacier, 63 miles NW of Hoonah, St. Elias Mountains; 58° 54' N, 136° 18' W; (map 10). Named by members of the Glacier Bay Expedition of 1941 (Field, 1947, map) for J. L. Patton, one of G. F. Wright's companions on Muir Glacier in 1886.

Patton Island: island, 0.2 miles long, 4 miles E of Deer Island, at SW end of Aleutian Range; 54° 54' 20" N, 162° 08' 20" W; BGN 1943; (map 25) Named in 1940 by USC&GS for Admiral Raymond S. Patton 1882-1937, USC&GS, who explored the Prince William Sound area in 1914 and served as director of USC&GS from 1929 until his death in 1937.

Paugausailuk Hill: hill, see Pogoseluk Hill.

Paugausailuk Lagoon: lagoon, see Pusaluk Lagoon.

Paugausailum Tasia: lagoon, see Paugausailuk Lagoon.

Paugwik: village, see South Naknek.

Paul Bight: bight, 0.6 miles across, on Prince of Wales Island, between McKenzie Inlet and Skowl Arm Kasaan Bay, Alexander Archipelago; 55° 24' 30" N, 132° 23' 30" W; BGN 1930; (map 4). Named in 1930 by USFS "for Paul Young, a Kasaan native."

Paul Creek: stream, on Hawkins Island, flows N 1.2 miles to a lagoon on Orca Bay, 10 miles W of Cordova, Chugach Mountains; 60° 33' N, 146° 01' W; (map 64). Name published in 1950 by USGS.

Paul Island: island, 4 miles long, 13 miles E of Stepovak Bay, Aleutian Range; 55° 47' N, 159° 19' W; (map 27). Variant: Ostrov Sviatoy Paula. Named by Lt. Woronkofski in 1837; published as "O[strov] Sv[iatoy] Paula," or "St. Paul Island," on Russian Hydrog. Dept. Chart 1379 (1847). "Paul Island" was published in 1888 by USC&GS.

Paul Lake: lake, 2 miles long, 1.3 miles N of Port Johnson, on SE coast of Prince of Wales Island, Alexander Archipelago; 55° 08' 35" N, 132° 05' 00" W; (map 4). Local name reported in 1901 by A. H. Brooks, USGS. "This is the place where gold was first discovered in the Dolomi region. The discovery was made by Paul Johnson, an Indian boy, who first found the bright particles of gold on the shore of the lake" (Brooks, 1902, p. 84).

Paul Young Creek: stream, heads in a lake, flows E 5.5 miles to Kasaan Bay, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 35' 30" N, 132° 34' 40" W; (map 4). Local name recorded in 1949 by USGS.

Paulaluk Creek: stream, see Paulaluk River.

Paulaluk River: stream, flows 7 miles NW to Kongakut River, 20 miles SW of Demarcation Point, Brooks Range; 69° 25' N, 141° 31' W; (map 138). Variant: Paulaluk Creek. Eskimo name recorded on Barter Island in 1952 by USC&GS.

Paulina Creek: stream, heads on Cape Mountain, flows SE 1 mile to Bering Sea, 0.8 miles W of Tin City and 51 miles NW of Teller, Seward Peninsula Highlands; 65° 34' N, 167° 59' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Paulina Island: island, 0.4 miles long, in Klag Bay, 1.8 miles S of Chichagof, on W coast of Chichagof, Island, Alexander Archipelago; 57° 38' 15" N, 136° 05' 20" W; (map 9). Name published in 1928 by USC&GS on Chart 8280.

Pauline Creek: stream, flows NW 3.7 miles to Holtz Creek which flows to Kugruk River, 19 miles E of Imuruk Lake, Seward Peninsula Highlands; 65° 34' N, 162° 31' W; (map 110). Prospectors' name reported in 1903 by D. C. Witherspoon (in Moffit, 1905, pl. 2), USGS.

Pauline Lakes: lakes, two, each 0.7 miles long, E of Nabesna River, 2 miles NE of Northway, Alaska Range; 63° 00' N, 141° 53' W; (map 84). Local name reported by USGS in 1954.

Pauloff Harbor: harbor, see Pavlof Harbor.

Pauloff Harbor: village, pop. 77, on W shore of Pavlof Harbor, on N central coast of Sanak Island, 50 miles SE of False Pass, Aleutian Range; 54° 27' 45" N, 162° 41' 30" W; (map 25). Variant: Pavloff Harbor, Pavlof Harbor. A post office was established here in 1949, and probably is responsible for establishing the present spelling of the name which varies from that of the adjacent harbor.

Pauls Bay: bight, 0.7 miles across, on E shore of Perenos Bay, on N coast of Afognak Island, Kodiak Island; 58° 23' 40" N, 152° 21' 00" W; (map 43). Local name reported in 1952 by USGS.

Pauls Creek: stream, heads in lake, flows SW 34 miles to Naknek River, on Alaska Peninsula, 8.6 miles SE of Naknek, Bristol Bay Lowland; 58° 43' N, 156° 46' W; (map 41). Local name reported in 1952 by USGS.

Pauls Harbor: bight, see Saint Paul Harbor.

Pauls Harbor: town, see Kodiak.

Pauls Lake: lake, 1 mile long, on N coast of Afognak Island SE of Pauls Bay, 31 miles NE of Afognak, Kodiak Island; 58° 23' N, 152° 20' W; (map 43) Local name reported in 1952 by USGS.

Paulson Creek: stream, in Nutzotin Mountains, flows W 0.7 miles to Glacier Creek 1.5 miles SW of its junction with Chavolda Creek, 6 miles NW of Beaver Lake, Alaska Range; 62° 07' 30" N, 141° 52' 50" W; (map 84). Local name published in 1915 by USGS.

Paunagaktuk Bluff: bluff, elev. 1,000 ft., S tip of Natvatchiak Hill, on N bank of Chandler River, 18 miles SE of Umiat, Arctic Slope; 69° 08' N, 151° 48' W; (map 141). Eskimo name reported in 1956 by T. E. Taylor, USGS.

Paunraqviizak: hill, see Ponrakvirak Hill.

Paveloff Creek: stream, flows SW 2 miles to Bowser Creek, 1 mile N of Oil Bay and 23 miles N of Augustine Island, Aleutian Range; 59° 41' 10" N, 153° 18' 50" W; BGN 1962; (map 51). Named in 1951 by USGS for an early Russian prospector "who sampled oil seeps in the area in 1882."

Paviak Peak: peak, see Pistuk Peak.

Pavlof Bay: bay, extends N 21 miles off Pacific Ocean, on S coast of Alaska Peninsula, Aleutian Range; 55° 20' N, 161° 38' W; (map 28). Variant: Pavlofskie, Pavlovskaia Baie, Pavlovskie, Pawlowskaja Guba, Tachik, Tatschik. Russian name reported in French by Capt. Lutke (1836, p. 270), IRN, as "Pavlovskaia baie," meaning "Paul's bay." Father Veniaminov (1840, v. 1, p. 227) recorded "Pavlovskoy Zaliv" and gave the Aleut name as "Tachik." Ivan Petroff refers to Pavlof Bay in the 1880 Census.

Pavlof Harbor: anchorage, 0.5 miles across, in Freshwater Bay, 8.5 miles NE of Tenakee Springs, on E coast of Chichagof Island, Alexander Archipelago; 57° 50' 45" N, 135° 01' 30" W; (map 9). Variant: Freshwater Bay, Gavan Pavlova, Nasanki Harbor, Pablof Harbor, Parlor Harbor. Named "Gavan Pavlova," meaning "Paul's Harbor," in 1849 by Capt. Tebenkov (1852, map 8). In 1869 Comdr. R. W. Meade, USN, called it "Freshwater Bay." Baker (1906, p. 491) says "Its native [Indian] name is said to be Nasanki."

Pavlof Harbor: harbor, 0.3 miles across, on N central coast of Sanak Island, 50 miles SE of False Pass, Aleutian Range; 54° 27' 40" N, 162° 41' 30" W; (map 25). Variant: Pauloff Harbor, Pavloff Cove, Pavloff Harbor. Named "Pavloff Harbor" by USBF in 1888. The USC&GS published the name using the one "f" spelling in 1909.

Pavlof Harbor: village, see Pauloff Harbor.

Pavlof Islands: islands, group of seven, 23 miles across, near SW end of Alaska Peninsula, Aleutian Range; 55° 07' N, 161° 40' W; (map 28). Variant: Kadugin. Name reported by Father

Veniaminov (1840, v. 1, p. 252), as "Pavlovskiye Ostrova" or "Pavlov [Paul] Islands." The Aleut name was "Kadugin," meaning "narrow," according to Veniaminov.

Pavlof Lake: lake, 0.7 miles across, on E coast of Chichagof Island, in course of Pavlof River, 7.5 miles NE of Tenakee Springs, Alexander Archipelago; 57° 50' 30" N, 135° 03' 00" W; BGN 1933; (map 9) Local name derived from Pavlof Bay; reported in 1933 by USFS.

Pavlof Mountain: volcano, see Pavlof Volcano.

Pavlof River: stream, on E coast of Chichagof Island, flows E 8 miles to Pavlof Harbor, 8 miles NE of Tenakee Springs, Alexander Archipelago; 57° 50' 30" N, 135° 03' 00" W; (map 9). Local name reported in 1933 by USFS; named for Gerasin Vasilovich Pavlov, first assistant to the Russian Governor at the time of transfer of Alaska to the United States in 1867.

Pavlof Sister: volcano, active, 7,028 ft., NE satellite of Pavlof Volcano, on W side of Pavlof Bay, near SW end of Alaska Peninsula, Aleutian Range; 55° 27' 30" N, 161° 51' 00" W, (map 28). Named in 1929 by USGS.

Pavlof Volcano: volcano, 8,905 ft., on W side of Pavlof Bay, near SW end of Alaska Peninsula, Aleutian Range; 55° 25' 20" N, 161° 53' 30" W; (map 28). Variant: Pavloff Volcano, Pavlof Mountain, Pavlovskaya Sopka, Pavlovskoi Volcan, Pavlov Volcano. Russian name, meaning "Paul" or "Saint Paul", published as Pavlovskoi Volcan by Capt. Lutke (1836, p. 269), IRN; published as Pavlovskaya Sopka on a Russian Hydrog. Dept. Chart 1847. "Pavlov Volcano (smoking)" is shown on an 1890 USBF chart.

Pavlof: locality, on Settlement Point, on E shore of Pavlof Bay, near SW end of Alaska Peninsula, Aleutian Range; 55° 29' 30" N, 161° 28' 00" W; (map 28). Variant: Pavlooskoi, Pavlovsk Pavlovskoe, Pawlowskoje, Selenie. Former Aleut village or camp shown as "Seleniye," meaning "village," in 1852 by Capt. M. D. Tebenkov, IRN. Recorded as "Pavlovskoe" by Father Veniaminov (1840, v. 2, p. 203). An unnamed village was shown on Selenie Point on an 1890 USBF chart. USC&GS notes in 1925 Coast Pilot (p. 183) that no settlements or commercial enterprises existed on Pavlof Bay.

Pavloff Cove: harbor, see Pavlof Harbor.

Pavloff Harbor: harbor, see Pavlof Harbor.

Pavloff Harbor: village, see Pavloff Harbor.

Pavloff Volcano: volcano, see Pavlof Volcano.

Pavlofskie: bay, see Pavlof Bay.

Pavlooskoi: locality, see Pavlof.

Pavlov Volcano: volcano, see Pavlof Volcano.

Pavlova, Gavan: anchorage, see Pavlof Harbor.

Pavlovsk Gaven: bight, see Saint Paul Harbor.

Pavlovsk: locality, see Pavlof.

Pavlovskaia Baie: bay, see Pavlof Bay.

Pavlovskaya Sopka: volcano, see Pavlof Volcano.

Pavlovskaya: village, see Kenai.

Pavlovskie: bay, see Pavlof Bay.

Pavlovskoe: locality, see Pavlof.

Pavlovskoi Volcan: volcano, see Pavlof Volcano.

Pavlovsky Gavan: town, see Kodiak.

Paw Cape: point of land, on SW coast of Deer Island, at SW end of Aleutian Range; 54° 51' 50" N, 162° 23' 30" W, BGN 1912; (map 25). So named by USC&GS in 1939 "because it resembles a paw in shape."

Pawgowsaylum Tessaya: lagoon, see Paugausailuk Lagoon.

Pawik: village, see Naknek.

Pawlovskaia Guba: bay, see Pavlof Bay.

Pawlovskaia: locality, see Pavlof.

Paxson Lake: lake, 10 miles long, in the course of Gulkana River, 20 miles N of its junction with its West Fork, Alaska Range; 62° 55' N, 145° 32' W; BGN 1952; (map 83). Variant: Goolkana Lake, Gulkana Lake, Paxsons Lake. Named for the operator of a roadhouse at the north end of the lake about 1906; reported by the U.S. Army Signal Corps.

Paxson Mountain: mountain, 5,200 ft., at E end of Amphitheater Mountains, 3 miles WSW of Paxson, Alaska Range; 63° 00' 45" N, 145° 35' 00" W; (map 86). Named between 1948 and 1955 by T. L. Pewe, USGS.

Paxson: locality, on Richardson Highway, 3 miles SE of Summit Lake and 62 miles N of Gulkana, Alaska Range; 63° 02' 00" N, 145° 29' 35" W; (map 86). Variant: Paxson's Road House, Paxton, Paxtons. Name reported as "Paxson's Road House" on a 1910 fieldsheet by C. E. Giffin, USGS.

Paxsons Lake: lake, see Paxson Lake.

Paxton: locality, see Paxson.

Paxtons: locality, see Paxson.

Pay Dirt Creek: stream, flows S to Sinuk River, about 37 miles NW of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Payikaglim Creek: stream, flows SW 7 miles to Sapumik Creek, 30 miles NE of Kivalina, Brooks Range; 68° 08' N, 163° 57' W; (map 130). Variant: Payikahglimb Koogowranga, Paiiqaaglim Kuugaqzanga. Eskimo name meaning "rainbow fish [Dolly Varden trout: *Salvelinus malma spectabilis*]" reported in 1966 by E. S. Burch.

Payikahglimb Koogowranga: stream, see Payikaglim Creek.

Paystreak Creek: stream, flows NW 2.5 miles to Moose Creek, 13 miles NE of Livengood, Yukon-Tanana Highlands; 65° 37' 50" N, 148° 10' 45" W; (map 105). Named by prospectors, reported in 1916 by J. B. Mertie (in Brooks and others, 1918, pl. 13), USGS.

Paystreak Creek: stream, heads in Kigluaik Mountains, flows NW 4 miles to Pilgrim River, 13 miles N of Salmon Lake and 60 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 06' N, 164° 54' W; (map 110). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Peabody Mountains: mountain range, extends NE-SW 35 miles, W of Pearse and Portland Canals and E of Marten River, Coast Mountains; 55° 12' N, 130° 18' W; (map 3). Named in 1868 by Staff Comdr. David Pender, RN.

Peace Island: island, 1 mile long, in Yukon River N of Marten Island, 21 miles SW of Beaver, Yukon Flats; 66° 14' 30" N, 148° 06' 00" W; (map 118). Local name obtained in 1956 by USGS.

Peace River: stream, flows SW 30 miles to Koyuk River, 8 miles SW of Haycock, Seward Peninsula Highlands; 65° 09' N, 161° 25' W; BGN 1910; (map 109). Local name reported in 1909 by P. S. Smith USGS.

Peace River: stream, heads in Mikchalk Lake, flows S 2 miles to Lake Beverly, 49 miles NW of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 43' N, 158° 51' W; BGN 1931; (map 52) Variant: Gui-guok-lok. Local name obtained in 1931 from F. H. Waskey and Beverley Polley by Gerald FitzGerald, USGS. The Eskimo name "Gui-guok-lok" was recorded on a 1910 manuscript map by H. C. Fassett, USBF.

Peaceful River: stream, heads at North Pass and flows 4.8 miles SE to Pyramid Cove, on SE coast of Attu Island, Aleutian Islands; 52° 49' 37" N, 173° 11' 07" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II; shown on an AMS map published in 1948.

Peaceful Valley: valley, 2.5 miles long, formed by Peaceful River, on SE side of Attu Island, Aleutian Islands; 52° 49' 37" N, 173° 11' 07" E; (map 13). Name shown on an AMS map published in 1948.

Peacock Creek: stream, flows 1 mile NW to Kotsina River S of Surprise Creek, 36 miles NW of McCarthy, Wrangell Mountains; 61° 44' N, 143° 48' W; (map 67). Local name reported in 1900 by F. C. Schrader (Mendenhall and Schrader, 1903, pl. 3), USGS.

Peacock Island: island, near head of McKenzie Inlet, on Prince of Wales Island, S of Skowl Arm Kasaan Bay, Alexander Archipelago; 55° 20' 15" N, 132° 21' 30" W; (map 4). Local name reported in 1905 by E. F. Dickins, USC&GS.

Peacock Point: point of land, on SW coast of Unalaska Islands, Aleutian Islands; 53° 23' 40" N, 167° 36' 10" W; BGN 1939; (map 23). This descriptive name given by USC&GS in 1939 because of the resemblance of the feature "to that of the head and breast of a strutting peacock."

Peak Island: island, 2 miles across, in Prince William Sound, off N coast of Naked Island, 36 miles NE of Chenega, Chugach Mountains; 60° 42' N, 147° 23' W; (map 63). Variant: Little Naked Island. Local descriptive name published in 1900 by USC&GS. "So called because it was leased for blue-fox propagation under the name 'Peak' because of a high point of land."

Peak Point: point of land, "on the north shore of St. Matthew island, near its eastern end. Named Pik (peak) by Sarichef in his atlas of 1826" (Baker, 1906, p. 492). Variant: Mys Pik.

Peak Rock: pinnacle, 5,505 ft., 2.5 miles NE of Glacier Point, E of Ruth Glacier, Alaska Range; 62° 55' 08" N, 150° 32' 40" W; (map 81). Mountain climbers' name probably given by members of the 1945 Mazema Expedition to the area (Metcalf, 1945, map facing p. 11).

Peak, Cape: point of land, see Upright, Cape.

Peaked Island: island, 0.2 miles across, W of Cape Wrangell, off W coast of Attu Island, Aleutian Islands; 52° 55' 20" N, 172° 26' 35" E; (map 13). Name probably given by Lt. William Gibson, USN, who commanded the schooner U.S.S. Fenimore Cooper during the North Pacific Exploring Expedition of 1854-55.

Peanut Lake: lake, 1 mile long, 29 miles N of Angoon, on W coast of Admiralty Island, Alexander Archipelago; 57° 55' N, 134° 43' W; BGN 1929; (map 9). Descriptive name given in 1920 by USFS. 'So named because of its shape.'

Pear Lake: lake, 0.5 miles long, one of the Beaver Lakes, 26 miles N of Anchorage, Cook Inlet Lowland; 61° 35' 30" N. 149° 53' 50" W; (map 69). Local name reported in 1951 by USGS.

Peard Bay: bay, 20 miles across, on Chukchi Sea coast, S of Point Franklin, Arctic Plain; 70° 51' N, 158° 48' W; (map 147). Variant: Pearl Bay, Pedrl Bay. Capt. Beechey (1831, p. 306), RN., wrote "a bay on which I bestowed the name of my first lieutenant, Mr. Peard [Lt. George Peard, RN]."

Peard Cliff: cliff, elev. 50 ft., on S shore of Peard Bay, 10 miles S of Point Franklin, Arctic Plain; 70° 47' N, 158° 50' W; (map 147). Name recorded on Brit. Adm. Chart 593, 1827-55.

Pearl Bay: bay, see Peard Bay.

Pearl Creek: stream, flows N 2 miles, joins Barnes Creek to form Fish Creek, 2.5 miles NE of Gilmore Dome, 16 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 01' N, 147° 18' W; BGN 1933; (map 105). Named by prospectors; published in 1907 by USGS.

Pearl Creek: stream, flows SE 3.8 miles to Noyes Slough at Totem Park, 2.3 miles NW of Fairbanks, Tanana Lowland; 64° 52' N, 147° 47' W; (map 100). Local name reported in 1950 by USGS topographers.

Pearl Creek: stream, flows SW 0.7 miles to Blue Creek, S of Featherly Pass, on Alaska Peninsula, 45 miles NE of Ugashik, Aleutian Range; 57° 40' 45" N, 156° 18' 35" W; (map 36). Name reported in 1902 by J. L. McPherson of Iliamna; published by G. C. Martin (1921, pl. 10), USGS.

Pearl Creek: stream, flows W to North Fork Koyukuk River; 67° 25' N, 150° 45' W; (map 134). Prospectors' name reported in 1909 by Maddren (1910, pl. 7), USGS.

Pearl Creek: stream, see Yellow Pup.

Pearl Harbor: bay, 0.5 miles across, on E shore of Favorite Channel, 1 mile S of Dotsons Landing and 18 miles NW of Juneau, Coast Mountains; 58° 28' 30" N, 134° 47' 15" W; BGN 1930; (map 11). Variant: Lake Harbor. The source of the name is unknown. In 1903 it was known as Lake Harbor and was first called Pearl Harbor in 1905 in a mining claim by John Peterson (DeArmond, 1957, P34).

Pearl Island: island, 0.4 miles long, between Duncan Canal and Beecher Pass, 15 miles SW of Petersburg, on S coast of Kupreanof Island, Alexander Archipelago; 56° 36' 00" N, 133° 02' 30" W; BGN 1933; (map 6). Local name reported in 1933 by R. H. Sargent, USGS; name obtained from G. J. Hilderbrand, who lives on this island.

Pearl Island: island, 5 miles long, in Yukon River 17 miles NE of Russian Mission, Yukon-Kuskokwim Delta; 61° 56' N, 160° 48' W; (map 73). Variant: Buzzy Island. Riverboat pilots' name shown on a 1916 field sheet by R. H. Sargent, USGS. This name is applied to a small island northwest of, but now joined to, the above described land.

Pearl Island: island, see Perl Island.

Pearl Point: point of land, see Perlas Point.

Pearl Rock: rock, see Perl Rock.

Pearse Canal: water passage, extends NE 26 miles forms part of Alaska-Canada boundary, from Tongass Passage to Portland Canal, Coast Mountains; 54° 54' N, 130° 24' W; BGN 1953; (map 2). Variant: Pearse Inlet. Named in 1868 by David Pender, RN.

Pearse Canal: water passage, see Portland Canal.

Pearse Channel: water passage, see Portland Canal.

Peary Creek: stream, flows SW 3.2 miles to Flat Creek, 17 miles NW of the village of Crooked Creek and 45 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 62° 06' 15" N, 158° 14' 00" W; BGN 1945; (map 79). Local name obtained in 1944 by USGS.

Pease Inlet: bay, see Dease Inlet.

Pease Peak: peak, 7,750 ft. W of Pittock Pass, 12 miles SE of Denali Pass in Mt. McKinley National Park, Alaska Range; 62° 57' 00" N, 150° 45' 30" W; (map 81). Variant: Mount Pease. Mountain climbers' name published in the late 1940's.

Pease, Mount: peak, see Pease Peak.

Peasely Creek: stream, see Peasley Creek.

Peasley Creek: stream, flows W 4 miles to American River, 27 miles NE of Teller, Seward Peninsula; 65° 32' N, 165° 44' W; (map 111). Variant: Peasely Creek. Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Peavey Creek: stream, flows SE 12 miles to Koyukuk River, 20 miles SW of Bettles, Kanuti Flats; 66° 37' 30" N, 151° 52' 30" W; BGN 1932; (map 117). Local name in use since 1898; reported by Robert Marshall in 1931.

Peavey Slough: stream, anabranch, 4 miles long, on N bank of Koyukuk River 1.2 miles W of junction with its South Fork, 16 miles E of Allakaket, Kanuti Flats; 66° 35' N, 152° 01' W; (map 117). In 1890 the temporary settlement of "Peavey" was located on this slough. Change in course of the river has made the slough the main channel of the Koyukuk River at this point.

Peavey: locality, site of mining camp, on N bank of Koyukuk River 3.8 miles W of its junction with South Fork, 17 miles E of Allakaket, Kanuti Flats; 66° 35' N, 152° 03' W; (map 117). Variant: Peavy, Peavy Trading Post. Name reported in 1899 by G. H. Wonson, Master of the steamer Dorothy, on his map of the Koyukuk River. Archdeacon Stuck (1917, p. 346) wrote, "whenever a steamboat tied up, a few cabins were built * * * some sort of official from the General Land Office * * * laid out a town site with church and school and courthouse * * * the town was named Peavey, and blue-prints of it looked quite imposing."

Peavy Trading Post: locality, see Peavey.

Peavy: locality, see Peavey.

Pecks Creek: stream, flows W 22 miles to Kvichak River, 87 miles E of Dillingham, Bristol Bay Lowland; 59° 18' N, 156° 00' W; (map 52). Local name published in 1956 by USGS.

Pecks Creek: stream, see Ole Creek.

Pedersen Point: bluff, see Pederson Point.

Pedersen Point: point of land, SE tip of Moser Island, in Hoonah Sound, off S coast of Chichagof Island, Alexander Archipelago; 57° 39' 30" N, 135° 35' 30" W; (map 9). Variant: Pederson Point. Named in 1895 by Lt. Comdr. Moore, USN.

Pederson Glacier: glacier, trends E 3.2 miles to its terminus at Aialik Bay, 20 miles SW of Seward, Chugach Mountains; 59° 53' N, 149° 45' W; BGN 1910; (map 49). Named in 1908 by U. S. Grant, USGS.

Pederson Hill: hill, 450 ft., on N end of Mendenhall Peninsula, 0.6 miles S of Auke Lake and 9.5 miles NW of Juneau, Coast Mountains; 58° 22' 25" N, 134° 38' 00" W; (map 11). Presumably named for Albert Pederson, 1859-1929, who operated a nearby dairy (DeArmond, 1957, p. 34).

Pederson Point: bluff, elev. 60 ft., on E shore of Kvichak Bay, on Alaska Peninsula, 3 miles NW of Naknek, Bristol Bay Lowland; 58° 46' 15" N, 157° 03' 45" W; (map 41). Variant: Cape Suworof, Pedersen Point. Local name published by USBF in 1901 for "L. A. Pedersen, who established a cannery near here in 1890."

Pederson Point: point of land, see Pedersen Point.

Pediment Creek: stream, flows NW 20 miles to Okokmilaga River 4 miles SE of its junction with Killik River, Brooks Range; 68° 46' N, 153° 19' W; (map 133). Named in 1949 by W. W. Patton, USGS, associated with exploration of Naval Petroleum Reserve No. 4.

Pedmar, Mount: peak, 2,825 ft., N of Katmai Bay, on E coast of Alaska Peninsula, in Katmai National Monument, 16 miles SE of Mount Katmai, Aleutian Range; 58° 02' 20" N, 154° 49' 05" W; BGN 1924; (map 42). Named in 1916 by R. F. Griggs, National Geographic Society.

Pedrl Bay: bay, see Peard Bay.

Pedro Bay: village, pop. 53, at head of Pedro Bay, 38 miles NW of Augustine Island, Aleutian Range; 59° 47' 15" N, 154° 06' 30" W; (map 51). Variant: Pedro. Village listed in 1950 Census with a population of 44. A post office was established here in 1936 (Ricks, 1965, p. 50).

Pedro Bay: water passage, 5 miles long, in Iliamna Lake N of Porcupine 21 miles E of Iliamna, Aleutian Range; 59° 42' 30" N, 154° 13' 30" W; (map 51). Named published in 1912 on USC&GS Chart 8554.

Pedro Camp: locality, on right bank of Pedro Creek, 12 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 00' N, 147° 31' W; (map 105). Variant: Pedro. Local name of a mining camp reported to have existed by 1905 (Kitchener, 1954, p. 297). The name was derived from Pedro Creek, which in turn was named for Felix Pedro who discovered gold in the valley.

Pedro Creek: locality, on Pedro Creek, 10 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 59' N, 147° 33' W; (map 100). This former mining settlement derived its name from the stream on which it is located. The name was first shown in the 1915-16 Polk's Gazetteer.

Pedro Creek: stream, flows SE 4 miles to South Fork Hess Creek, 9 miles NNE of Livengood, Yukon-Tanana Highlands; 65° 38' 45" N, 148° 25' 20" W; (map 105). Prospectors' name

derived from the creek near Fairbanks that was named for Felix Pedro. Name reported in 1915 by Brooks (Brooks and others, 1916, pl. 9), USGS.

Pedro Creek: stream, flows SW 6.7 miles joins Gilmore Creek to form Goldstream Creek 10 miles NE of Fairbanks, Yukon-Tanana Highlands; 64° 59' N, 147° 33' W; (map 100). Named for Felix Pedro who discovered gold while prospecting in the valley in July, 1902, thereby starting the stampede to the area. Name reported in 1903 by T. G. Gerdine (in Prindle, 1905, pl. 16), USGS.

Pedro Creek: stream, heads on Swinging Dome, flows SW and SE 6 miles to Iditarod River, 15 miles SE of Flat, Kilbuck-Kuskokwim Mountains; 62° 16' 40" N, 158° 18' 10" W; (map 79). Prospectors' name obtained in 1952 by USGS topographers.

Pedro Dome: mountain, 2,600 ft., 15 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 02' N, 147° 30' W; (map 105). Local name derived from Pedro Creek, reported in 1903 by T. G. Gerdine (Prindle, 1905, pl. 13), USGS.

Pedro Glacier: glacier, trends SW 3 miles to its terminus at head of stream which drains into Miners Lake, 35 miles W of Valdez, Chugach Mountains; 61° 07' 30" N, 147° 22' 40" W; BGN 1910; (map 69). Name reported in 1908 by Grant and Higgins (1910, pl. 2), USGS.

Pedro Gulch: ravine, trends W to head of Big Creek, E of Chandalar River; 67° 30' N, 148° 05' W; Prospectors' name reported about 1923 by Mertie (1925, fig. 11), USGS.

Pedro Mountain: mountain, 1,581 ft., on Peninsula between Knutson and Pedro Bays, at E end of Iliamna Lake, 26 miles E of Iliamna, Aleutian Range; 59° 46' 30" N, 154° 10' 00" W; (map 51). Local name derived from Pedro Bay; published by USGS in 1954.

Pedro: locality, in the Goldstream Creek valley, 14 miles W of Fairbanks, Yukon-Tanana Highlands; 64° 50' N, 148° 20' W; (map 100). Local name of a roadhouse shown in Polk's Gazetteer in 1916. The roadhouse no longer exists.

Pedro: locality, see Pedro Camp.

Pedro: village, see Pedro Bay.

PEEIN-E-LUK Island: island, see Pieneluk Island.

Peel Island: island, see Herbert Graves Island.

Peeluk Creek: stream, see Peluk Creek.

Peenyiksahm Koonga: stream, see Shorty River.

Peep Rock: rock, in Karheen Passage, off SW coast of Tuxekan Island, Alexander Archipelago; 55° 49' 10" N, 133° 19' 45" W; (map 4). Name published in 1923 by USC&GS.

Peer Island: island, 200 ft. across, in Imperial Passage, 8 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 43' 45" N, 136° 16' 00" W; BGN 1926; (map 9). Named in 1926 by USC&GS for geographic point "Peer" which is located on the island.

Peerleshin: mountain, see Pereleshin Mountain.

Pegati Lake: lake, 4 miles long, joins Kagati Lake at its W terminus, 1 mile N of Nuklunek Mountain and 75 miles NE of Goodnews, Kilbuck- Kuskokwim Mountains; 59° 52' N, 160° 05' W; (map 53). Variant: Kagati Lake, Kanektuk Lake. Eskimo name shown on an 1898 fieldsheet by W. S. Post, USGS; published by Spurr (1900, map 10) as "Kagati Lake." Both Pegati and Kagati Lakes were called "Kanektuk Lake" in 1923 on a U.S. Bureau of Education map.

Pegeeluk Creek: stream, flows S 12 miles to Alatna River, 19 miles S of Survey Pass, Brooks Range; 67° 35' N, 154° 18' W; BGN 1932; (map 125). Eskimo name meaning "not very good" reported by Robert Marshall in 1931.

Peggy Lake: lake, 0.9 miles long, between Little Jack and Trail Creeks, 15 miles NW of Devils Mountain, Alaska Range; 62° 34' N, 143° 18' W; (map 84). Local name reported in 1951 by USGS.

Pegmatite Creek: stream, flows E and NW 3 miles to Little Gerstle River 11 miles SW of that stream's junction with Tanana River and 36 miles SE of Delta Junction, Alaska Range; 63° 39' 0S" N, 144° 57' 00" W; BGN 1937; (map 86). Local name reported in 1937 by USGS. Pegmatite is a coarse-grained igneous rock usually found in dikes.

Pegmatite Glacier: glacier, trends SW 1 mile between College and Gulkana Glaciers, 16 miles NNE of Paxson, Alaska Range; 63° 15' 40" N 145° 24' 10" W; (map 86). Named between 1948 and 1955 by T. L. Pewe, USGS.

Peirce, Cape: point of land, 2 miles S of Nanvak; Bay and 25 miles W of Calm Point on Hagemeister Island, Kilbuck-Kuskokwim Mountains; 58° 33' 15" N, 161° 46' 00" W; (map 39). Variant: Calm Point, Cave Point. Named in 1869 by USC&GS for Benjamin Peirce, then superintendent of the "Coast Survey." Capt. Tebenkov (1859, map 4), IRN, called it "M[ys] Peschera," meaning "cave point." This may be the "Calm Point" named by Capt. Cook (1785, v. 2, p. 431), RN, "from our having calm weather when off it."

Peirce, Mount: mountain, 2,000 ft., on N part of Nagai Island, Shumagin Islands, Aleutian Range; (map 27). Named by W. H. Dall, USC&GS, for Benjamin Peirce, 1809-80, a leading American mathematician and Superintendent of the U.S. Coast Survey (USC&GS) from 1867-74

Peisar Island: island, 1.3 miles long, 4 miles NW of Goddard, on W coast of Baranof Island, Alexander Archipelago; 56° 53' N, 135° 26' W; BGN 1897: (map 5). Variant: Ostrov Peysar, Peisar Islet. Named in 1809 by the Russian navigator Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "O[strov] Peysar," meaning "writer island."

Peisar Islet: island, see Peisar Island.

Pekalok Cape: promontory, see Southwest Cape

Pekaluk Cape: promontory, see Southwest Cape

Pekaluk Point: promontory, see Southwest Cape

Pektotolik Slough: distributary, in Yukon Delta extends N-S 15 miles between Tunurokpak Channel and Kwikluak Pass, 19 miles SE of Kwiguk, Yukon-Kuskokwim Delta; 62° 35' N, 164° 01' W; (map 77). Eskimo name obtained in 1899 by G R Putnam, USC&GS. Published in 1901 on Chart 9372.

Pelazuk: locality, on coast of Bering Sea, 8 miles SW of Cape Prince of Wales and 48 miles NW of Teller, Seward Peninsula Highlands; 65° 32' N, 167° 50' W; (map 111). Variant: Palarzook, Palazruk. Site of an Eskimo village reported in 1907 as “the old native village Palazruk” (Collier and others, 1908, p. 59). Although no population can be associated with the village, the 1954 USC&GS Coast Pilot stills refer to “The native village of Pelazuk” (p. 551). See Polaraskh-mute.

Pelazuk: locality, see Polaraskh-mute

Pelenga Bay: bight, 0.5 miles across, between Azimuth and Termination Points 5 miles N of Kodiak, Kodiak Island; 57° 51' 35" N, 152° 25' 00" W; (map 34). Transliteration of a Russian name meaning “magnetic azimuth” published in 1943 by USC&GS; name derived from Azimuth Point. See Azimuth Point.

Pelenga, Mys: point of land, see Azimuth Point.

Peler Creek: stream, flows SE to Cripple River, about 26 miles NW of Nome, Seward Peninsula Highlands; (map 94). Prospectors' name reported on the 1900 “Map of Nome Peninsula” by J. M. Davidson and B. D. Blakeslee; this feature has not been positively identified.

Pelfroy Creek: stream, flows NW to Kuzitrin River, about 17 miles N of Mount Bendeleben, Seward Peninsula Highlands; (map 110). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This stream cannot be precisely located on current maps.

Pelican City: village, see Pelican.

Pelican Creek: stream, on Chichagof Island, flows SW 5 miles to Lisianski Inlet at Pelican, Alexander Archipelago; 57° 57' 28" N, 136° 13' 00" W, BGN 1960; (map 9). Named in 1955 by D. L. Rossman, USGS, for the town of Pelican.

Pelican Harbor: bay, 0.3 miles across, at Pelican, on E shore of Lisianski Inlet, in NW part of Chichagof Island, Alexander Archipelago, 57° 57' 30" N, 136° 13' 30" W; (map 9). Named for the town of Pelican; published in 1961 by USC&GS on Chart 8260.

Pelican: village, pop. 135, on Lisianski Inlet, in NW part of Chichagof Island, Alexander Archipelago; 57° 57' 30" N, 136° 13' 30" W; BGN 1960; (map 9). Variant: Pelican City. Named

for a fishing boat The Pelican owned by Charles Raatikainen, a founder of the town. The corporate name of the town is "Pelican," although it is frequently called "Pelican City." In 1943 there was a cannery, a small sawmill, a school, and a hotel here. A post office was first established here in 1939 (Ricks, 1965, p. 50)

Peligro, Isla del: island, see Kalgin Island

Pellew, Point: point of land, at E side of entrance to Eaglek Bay, 35 miles NE of Whittier, Chugach Mountains; 60° 50' 30" N, 147° 39' 45" W; (map 63). Named in 1794 by Capt. Vancouver (1798, v 3, p. 184), "for Edward Pellew, admiral and first Viscount Exeter (Wagner, 1937, P. 401).

Pelly Mountains: mountain range, reported to lie S of Harrison Bay, W of Colville River Delta, Arctic Plain; (map 149). Variant: Pelly's Mountains. On July 24, 1837, Thomas Simpson (1843, p. 129) wrote, "In honour of the public spirited Governor of the Hudson's Bay Company, this chain was called Pelly's Mountains." John Simpson, RN, wrote of Erk-sin-ra, an Eskimo from whom he obtained much information for his native map, "whilst his description of the coast agreed so minutely in many particulars with the narrative and chart of Messrs. Dease and Simpson, he denied the existence of the Pelly Mountains, and maintained most positively that there are no hills on the west side of the Colville visible from the sea;" (Great Britain, 1855, p. 937). On August 9, 1889, Capt. Stockton (1890, p. 184), USN, wrote: "The first important error found in the charts and maps of this region was found here by the observation of the nonexistence of the Pelly Mountains * * *. The mountains certainly do not exist where placed by the charts, * * *."

Pelly Mountains: mountains, see Romanzof Mountains.

Pelly River: stream, see Stikine River.

Pelly's Mountains: mountain range, see Pelly Mountains.

Peluck Creek: stream, flows SW 0.6 miles to West Fork Buck Creek, in Mint River basin, 1 mile NE of Potato Mountain and 16 miles NE of Cape Prince of Wales, Seward Peninsula Highlands; 65° 39' 25" N, 167° 02' 20" W; (map 111). Prospectors' name reported in 1918 by Steidtmann and Cathcart (1922, fig. 14), USGS.

Peluk Creek: stream, flows NW to Anikovik River, about 15 miles E of Cape Prince of Wales, Seward Peninsula Highlands; (map 111). Prospectors' name shown on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This feature cannot be precisely identified on current maps.

Peluk Creek: stream, flows NW to Kuzitrin River near its head, about 15 miles SW of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name reported on a precinct map of Seward Peninsula by Monroe and Hutchins; corrected to June 1903 by Arthur Gibson. This stream cannot be precisely located on current maps.

Peluk Creek: stream, flows SW 8 miles to Bearing Sea, 6 miles SE of Cape Douglas and 46 miles NW of Nome, Seward Peninsula Highlands; 64° 57' N, 166° 32' W; (map 94). Variant:

Peeluk Creek. Eskimo name reported as "Peeluk" on the 1902 "Map of the Nome and Snake River Country" by J. M. Davidson. Subsequent maps show "Peluk."

Peluk Creek: stream, flows SW to Noxapaga River near its head, about 15 miles W of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name reported in 1900 by Brooks (1901, pl. 11), USGS. This feature cannot be precisely identified on current maps.

Peluk Creek: stream, in Baird Mountains, flows S 4.5 miles to Klery Creek 3 miles NE of its junction with Squirrel River, 12 miles NNW of Kiana, Brooks Range; 67° 08' N, 160° 33' W; (map 127). Name used by prospectors; reported in 1910 by P. S. Smith (in Brooks and others, 1911, pl. 13), USGS.

Pen Island: island, 350 ft. across, near head of Kasaan Bay, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 34' 35" N, 132° 30' 05" W; (map 4) Local name recorded in 1949 by USGS.

Pendant Point: point of land, S of Cape Sudak, on E coast of Tanaga Island, Aleutian Islands; 51° 50' 00" N, 177° 37' 30" W; (map 17). Name published by USC&GS in 1956 on Chart 9145.

Pendergast Pup: stream, flows E 1.8 miles to Coal Creek, 1.5 miles S of that stream's junction with Yukon River and 44 miles SE of Circle, Yukon-Tanana Highlands; 65° 20' N, 143° 06' W; (map 103). Local name reported in 1936 by Mertie (1938a, pl. 5), USGS.

Pendleton, Mount: mountain, 7,800 ft., in Mount McKinley National Park, 3 miles N of Easy Pass and 35 miles SW of confluence of Yanert Fork and Nenana River, Alaska Range; 63° 24' 56" N, 149° 42' 15" W; BGN 1961; (map 87). Named in 1961 by USGS for Thomas Percy Pendleton, 1886-1954, USGS, who, in 1919, as topographic engineer, mapped in this area.

Penelope Creek: stream, flows NW 4.5 miles to Casadepaga River, 23 miles NE of Solomon, Seward Peninsula Highlands; 64° 53' N, 164° 16' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Pengnok: locality, on Chukchi Sea coast near Cape Smyth, Arctic Plain; 71° 17' N, 156° 47' W; (map 153). Former Eskimo village or camp reported in the 1890 Census (1893, p. 162).

Penguin Creek: stream, flows W 12 miles to Bird Creek, 0.5 miles N of Turnagain Arm, 5.5 miles NW of Sunrise, Chugach Mountains; 60° 58' 45" N, 149° 27' 15" W, (map 63). Local name reported in 1899 by Lt. Herron (1901, sketch opposite p. 11), USA.

Penikl: island, see Pinnacle Island.

Peninsula Island: island, elev. 1,190 ft., 1.5 miles long, between Big Koniuji and Nagai Islands. in Shumagin Islands, Aleutian Range; 55° 11' N, 159° 40' W; (map 27). Named by W. H. Dall, USC&GS, in 187 and published in 1888 by the USBF.

Peninsula Lake: lake, 700 ft. long, on Nyman Peninsula, 6 miles SW of Kodiak, Kodiak Island, 57° 43' 20" N, 152° 30' 45" W; (map 34). Local descriptive name reported in 1949 by USGS.

Peninsula Point: point of land, S of Ward Cove, on SW coast of Revillagigedo Island, Alexander Archipelago; 55° 23' N, 131° 44' W; (map 3). Named about 1880 by local navigators; reported by USC&GS.

Peninsula Point: settlement, pop. 47, on Peninsula Point, S of Ward Cove, on SW coast of Revillagigedo Island, Alexander Archipelago; 55° 23' N, 131° 44' W; (map 3). This is an extension of the Ketchikan settlement area northwest along the highway.

Peninsula Ridge: ridge, extends S 20 miles from Boca de Quadra to Dixon Entrance, on E shore of Revillagigedo Channel, Coast Mountains; 54° 55' N, 130° 49' W; (maps 2, 3). Descriptive name given in 1883 by Lt. Comdr. Nichols, USN.

Peninsula, The: ridge, 3.7 miles long, trends NW on E bank of Copper River, 6 miles SE of mouth of Cleave Creek, 52 miles E of Valdez, Chugach Mountains; 61° 02' 00" N, 144° 44' 45" W; (map 68). Named in 1898 by Capt. W. R. Abercrombie, USA. It was called Cottonwood Island in 1885 by Lt. H. T. Allen, USA.

Peninsular Point: point of land, 3 miles N of Peril Strait, on Chichagof Island, 8 miles E of Todd, Alexander Archipelago; 57° 30' 30" N, 134° 50' 00" W; (map 9) Descriptive name published by USC&GS in the 1891 Coast Pilot (p. 162). It is on the south point of a peninsula in Chatham Arm.

Pennant Creek: stream, flows NE 1.3 miles to Niukluk River, 2 miles W of Council and 32 miles NE of Solomon, Seward Peninsula Highlands; 64° 54' N, 163° 44' W; (map 95). Variant: Pancake Creek. Prospectors' name published in 1956 by USGS. Shown as "Pancake" on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee.

Penney Creek: stream, see Penny Creek.

Penniman Glaciers: glaciers, two, trend E 1 mile from head of Baker glacier, 52 miles SE of Anchorage, Chugach Mountains; 61° 05' 30" N, 148° 19' 45" W; BGN 1929; (map 69). Named in 1914 by Dora Keen Handy for "the Penniman brothers of Philadelphia; James H., philanthropist, and Josiah H., president and provost of the Univ. of Pennsylvania."

Pennington Creek: stream, flows N 3 miles to Walker Fork, 50 miles S of Eagle, Yukon-Tanana Highlands; 64° 04' 30" N, 141° 15' 00" W; (map 102). Prospectors' name shown on a 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Pennock Island Reef: reef, see Pennock Reef.

Pennock Island: island, 3.3 miles long, between Gravina and Revillagigedo Islands, divides Tongass Narrows into its East and West Channels, Alexander Archipelago; 55° 19' 15" N, 131° 37' 30" W; (map 3) Named about 1895 by Capt. W. E. George, a local pilot, for Homer Pennock, a prospector who took a group of prospectors to the Cook Inlet area about 1900-1903. See Homer.

Pennock Island: village, pop. 50, on W coast of Pennock Island on Whiskey Cove, 0.5 miles S of Ketchikan, Alexander Archipelago; 55° 19' 40" N, 131° 37' 45" W; (map 3). This is a part of the Ketchikan settlement area.

Pennock Reef: reef, extends 0.7 miles in Tongass Narrows, 0.7 miles SW of Ketchikan, Alexander Archipelago; 55° 20' 18" N, 131° 39' 55" W; (map 3). Variant: Pennock Island Reef. Named in 1883 by W. H. Dall, USC&GS.

Pennsylvania Creek: stream, flows NE 0.8 miles to Slate Creek which flows to Pilgrim River, 25 miles NW of Solomon, Seward Peninsula Highlands; 64° 52' 45" N, 164° 49' 45" W; (map 95). Prospectors' name reported in 1908 on a field sheet by P. S. Smith, USGS.

Pennsylvania Creek: stream, flows NW 6 miles to Fish Creek, 56 miles SW of Eagle, Yukon-Tanana Highlands; 64° 22' 45" N, 142° 46' 10" W; (map 102). Prospectors' name shown on 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Pennsylvania Rock: rock, in Prince William Sound, between Seal and Smith Islands, 26 miles NE of Chenega, Chugach Mountains; 60° 26' 35" N, 147° 24' 05" W; (map 63). Name published in 1943 by USC&GS.

Penny Creek: stream, flows SE 2.9 miles to Solomon River, 6 miles NE of Solomon, Seward Peninsula Highlands; 64° 41' N, 164° 22' W; (map 95). Variant: Penney Creek. Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Penny Creek: stream, flows SW 0.8 miles to Telegram Creek, between Adventuress and Shoal Creeks, in Pilgrim River basin, 22 miles NW of Solomon, Seward Peninsula Highlands; 64° 52' 10" N, 164° 35' 20" W; (map 95). Prospectors' name reported in 1908 by P. S. Smith (in Brooks and others, 1909, pl. 10), USGS.

Penny River: stream, flows SW 13 miles to Norton Sound, 10 miles W of Nome, Seward Peninsula Highlands; 64° 32' N, 165° 45' W; (map 94). Variant: No Name River, Quartz Creek. Local name reported in 1899 by D. C. Witherspoon (in Schrader and Brooks, 1900, map 2) USGS. Witherspoon designated the upper reach "Quartz Creek." Schrader (1900c, p. 16) labeled the stream "No Name R."

Pensive Pup: ravine, in Nutzotin Mountains, extends SW 0.8 miles to Little Eldorado Creek 1.2 miles N of its junction with Bonanza Creek, 5.5 miles N of Beaver Lake, Alaska Range; 62° 07' N, 141° 51' W; (map 84). Name used by prospectors and published by S. R. Capps (in Brooks and others, 1915, p. 222), USGS.

Pentecost: point of land, see Izhut, Cape.

Pepper Lake: lake, 1.5 miles long, largest of the Swanson Lake, 15 miles S of Point Possession And 35 miles NE of Kenai, Cook Inlet Lowland; 60° 51' N, 150° 26' W; (map 62). Local name reported in 1958 by USGS

Pepper Point: point of land, on NE coast of Baker Island, W point of entrance to Port Asuncion, Alexander Archipelago; 55° 21' 30" N, 133° 30' 30" W; (map 4). Variant: Mys de la

Pimiyenta, Punta de la Pimienta. Translation of the name "Punta de la Pimienta" given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle.

Peratovich Island: island, see Peratrovich Island.

Peratovitch Island: island, see Peratrovich Island.

Peratrovich Island: island, 2.3 miles long, in Klawak Inlet, 0.6 miles N of Klawock, on W coast of Prince of Wales Island, Alexander Archipelago 55° 35' N, 133° 06' W; BGN 1952; (map 4). Variant: Graveyard Island, Peratovich Island, Peratovitch Island. Named in 1929 by USC&GS for "John Peratrovich, merchant and influential citizen of Klawock." This island was reported in 1929 by Capt. Patton, USC&GS, to be known locally as "Graveyard Island."

Percabes, Punta: point of land, see Persebes, Punta.

Perch Rock: rock, in Kuliliak Bay, on S coast of Unalaska Island, Aleutian Islands; 53° 27' 05" N, 167° 02' 50" W; BGN 1939; (map 23). Descriptive name given by USC&GS in 1937 "because birds always perch on this rock."

Percy Islands: islands, group 3.5 miles long, in Clarence Strait, W of Duke Island, Alexander Archipelago; 54° 57' N, 131° 35' W; (map 2). Named by W. H. Dall, USC&GS, and published in the 1883 Coast Pilot (p. 83).

Percy Point: point of land, W tip of Percy Islands, extends into Clarence Strait, Alexander Archipelago; 54° 56' 50" N, 131° 37' 00" W; (map 2). Variant: Pyerci Cape. Named by Capt. G. Vancouver, RN, August 14, 1793, "after the Percy family, the Dukes of Northumberland" (Wagner, 1937, p.402).

Perdidos, Rio de los: stream, see Copper River.

Perebluk: locality, on Port Clarence, Seward Peninsula Highlands; 65° 10' N, 166° 30' W; (map 111). Former Eskimo village or camp recorded in the 1890 Census (1893, p. 162).

Peregrebni Point: point of land, between Settler Cove and Kizhuyak Bay, on N coast of Kodiak Island; 57° 52' N, 152° 51' W; (map 34). Variant: Mys Peregrebnyy. Transliteration of the name "M[ys] Peregrebnyy," meaning "passable cape," given to this point by Murashev in 1839 or 1840 and published in 1849 on Russian Hydrog. Dept. Chart 1425.

Peregrebni: islands, see Barren Islands.

Peregrebnoy, Ostrov: island, see Wosnesenski Island.

Peregrebny Island: island, see Wosnesenski Island.

Peregrebnyy, Mys: point of land, see Peregrebni Point.

Peregrine Creek: stream, flows N 9 miles to Cobblestone Creek, 19 miles SE of Table Top and 43 miles NE of Anaktuvuk Pass Arctic Slope; 68° 27' 30" N, 150° 23' 00" W; (map 134). Named by USGS geologists during the exploration of Naval Petroleum Reserve No. 4; name

given in 1944. Named for the American peregrine falcon, *Falco peregrinus anatum*, which nests in this area.

Pereleshin Mountain: mountain, “on the mainland, east of the Stikine River and near the international boundary. Native name, from the Coast Survey. Has been written Peerleshin and Pereleshin, i.e. Pereles River” (Baker, 1906, p. 494). Variant: Peerleshin, Pereleshin.

Pereleshin: mountain, see Pereleshin Mountain.

Perenosa Bay: bay, 5 miles across, on N coast of Afognak Island, N of Kodiak Island; 58° 25' N, 152° 25' W; BGN 1934; Variant: Perenosnaia, Portage Bay. Transliteration by USC&GS in 1911 of the name “Pyeryenosnaya Bukhta” from “Pyeryenos” meaning “transport (transfer)” published by the Russian American Company in 1849. Baker (1906, p. 506) translated this name as “Portage.”

Perenosa Point: point of land, on W shore of Dry Spruce Bay, on N coast of Kodiak Island; 57° 56' 10" N, 153° 03' 30" W; BGN 1939; (map 34). Variant: Drying Point, Mys Perenosa, Portage Point. Transliteration in 1939 by USC&GS of “M[ys] Perenosa,” meaning “Transport Cape,” given by M. Murashev in 1839 or 1840 and published in 1849 on Russian Hydrog. Dept. Chart 1425. Baker (1906, p. 227) misapplied the name “Drying Point” [2 miles northeastward] to this location. See Drying Point.

Perenosa, Mys: point of land, see Perenosa Point.

Perenosnaia Bay: bay, see Balboa Bay.

Perenosnaia Bay: bay, see Portage Bay.

Perenosnaya Creek: bay, see Portage Bay.

Perenosnaya Islands: islands, see Portage Islands.

Perenosnaya, Bukhta: bay, see Balboa Bay.

Perenosnoi, Bukhta: bay, see Balboa Bay.

Perenosnoy, Zaliv: bay, see Portage Bay.

Pereshechnoi: bay, see Isthmus Bay.

Peresheek Point: point of land, 1.2 miles N of Goddard, on W coast of Baranof Island, Alexander Archipelago; 56° 51' 05" N, 135° 22' 50" W; (map 5). Russian name “peresheyek,” meaning “isthmus” published in 1943 by USC&GS.

Peresheychnoy, Ostrov: island, see Isthmus Island.

Peresheychnoy, Zaliv: bay, see Isthmus Bay.

Perevainoy Island: islands, see Perevalnie Islands.

Perevainoy: bay, see Carry Inlet.

Perevalnie Islands: islands, 1.5 miles long, off NE coast of Shuyak Island, 50 miles N of Kodiak Island, 58° 38' N, 152° 22' W; (map 43). Variant: Carry Inlet, Carry Island, Perevainoy Island, Perevalnie Islet, Perewamno Island, Portage Island. Transliteration by Baker (1906, p. 494), USGS, of the name "O[strov] Perevalnyy," meaning "draw across," published by the Russian American Company in 1849 for the largest island of this group. Baker used the generic "islet." See Carry Inlet.

Perevalnie Islet: islands, see Perevalnie Islands.

Perevalnie Passage: water passage, between Prevalnie Islands and NE coast of Shuyak Island, 50 miles N of Kodiak Island; 58° 38' N, 152° 21' W; BGN 1933; (map 43). Name derived from the Perevalnie Islands and given by USC&GS in 1931.

Perewamno Island: islands, see Perevalnie Islands.

Perewamno: bay, see Carry Inlet.

Perez, Entrada de: water passage, see Dixon Entrance.

Perginik: locality, see Bernirk

Pergniak: locality, see Bernirk.

Perhaps Creek: stream, flows SE 1 mile to Chatanika River, 9 miles NE of Twin Buttes and 39 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 15' 30" N, 146° 46' 00" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Perhaps Creek: stream, flows to Native Creek, about 3 miles N of Council and 33 miles NE of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This stream cannot be precisely located on current maps.

Perignak: locality, on Seahorse Islands, on Chukchi Sea coast near Point Franklin, Arctic Plain; 70° 53' N, 158° 42' W; (map 147). Variant: Pernyu. Former Eskimo village or camp reported in the 1890 Census (1893, p. 162).

Perignak: locality, see Bernirk.

Perignax: locality, see Bernirk.

Perigniak: locality, see Bernirk.

Peril Cape: point of land, at mouth of Izhut Bay, 20 miles NE of Afognak, on SE coast of Afognak Island, N of Kodiak Island; 58° 07' 30" N, 152° 16' 20" W; BGN 1910; (map 43). Named by USC&GS in 1910.

Peril Peak: peak, 7,040 ft., between Eklutna Glacier and its West Fork, 30 miles E of Anchorage, Chugach Mountains; 61° 13' N, 148° 59' W; BGN 1964; (map 69). Variant: Jane Russell Peaks, Marilyns Twins. So named in 1963 by the members of the Mountaineering Club of Alaska, because “of the danger and difficulty involved in climbing it.”

Peril Point: point of land, see Pogibshi Point.

Peril Strait: water passage, extends 45 miles from Salisburg Sound to Chatham Strait, between Chicagof and Baranof Islands, Alexander Archipelago; 57° 30' N, 135° 13' W; (map 9). Variant: Peril Straits, Pernicious Strait, Pogibshi Channel, Pogibshi Straits, Pogoobnoy Strait, Proliv Pogibshiy. Translation in 1882 by USC&GS of “Proliv Pogibshiy;” published in 1848 on Russian Hydrog. Dept. Chart 1397. The name is derived from “the circumstances that on its shores, in 1799, a large number of Aleuts (said To be 150) perished from eating poisonous mussels.” This account was reported by Capt. V. F. Lisianski who called this feature “pernicious strait.”

Peril Straits: island, see Elovoi Island.

Peril Straits: water passage, see Peril Strait.

Perkins Creek: stream, flows NW 3 miles to South Arm Moira Sound, on SE coast of Prince of Wales Island, Alexander Archipelago; 54° 56' 45" N, 132° 11' 00" W; (map 1). Local name reported in 1948 by USGS.

Perkinsville: locality, on left bank of Anvil Creek, 3.8 miles N of Nome, Seward Peninsula Highlands; 64° 33' N, 165° 25' W; (map 94). Site of mining camp and railroad station reported in 1904 by T. G. Gerdine, USGS. The exact date of the camp is unknown; however, gold was discovered on Anvil Creek in 1898 and the railroad was built in 1900.

Perl Island: island, 3 miles long, in Chugach Islands, 22 miles S of Seldovia, Chugach Mountains; 59° 07' N, 151° 40' W; BGN 1941; (map 50). Variant: Isla de Arriaga, Pearl Island, Middle Chugach Island. Called “Islands of Pearl” by the Harriman Alaska Expedition (1902, p. 360). The spelling was changed when it was realized that the island derived its name from Perl D. Blodgett who came to Alaska about 1883, and was active in various enterprises at Kodiak and on Cook Inlet. Blodgett established a fox farm on this island prior to his death about 1920. This island was named “Isle de Arriaga” about August 1, 1779, by Don Ignacio Arteaga “probably after his second pilot, Juan Pantoja y Arriaga” (Wagner, 1937, p. 428).

Perl Rock: rock, 500 ft. across, in Gulf of Alaska, 2.5 miles S of Perl Island and 25 miles S of Seldovia, Chugach Mountains; 59° 05' 30" N, 151° 41' 30" W; BGN 1941; (map 50). Variant: La Monja, Pearl Rock. Named by USGS in 1941. See Perl Island. This is probably the small island called “La Monja” in August 1779 by Don Ignacio Arteaga.

Perlas Point: point of land, on W coast of Prince of Wales Island in Trocadero Bay, 3 miles SE of Point Iphigenia, Alexander Archipelago; 55° 22' 05" N, 133° 04' 30" W; (map 4). Variant: Mys Perlas, Pearl Point, Punta de Perlas. Spanish name given in 1779 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle as “Punta de Perlas,” meaning “point of pearls.”

Pern Lakes: lakes, two, each 0.5 miles across, N of Howling Dog Canyon area of Porcupine River, 29 miles E of Coleen Mountain, Brooks Range; 67° 10' N, 141° 44' W; (map 121). Local name reported in 1956 by T. E. Taylor, USGS.

Pernicious Strait: water passage, see Peril Strait.

Pernyu: locality, see Bernirk.

Pernyu: locality, see Perignak.

Peronosnaya Bukhta: bay, see Portage Bay.

Peronosnaya, Bukhta: bay, see Balboa Bay.

Perouse Glacier, La: glacier, in Glacier Bay National Monument, heads on S slope of Mount Crillon, trends S 15 miles to Gulf of Alaska, 8 miles NW of Icy Point, 71 miles NW of Hoonah, St. Elias Mountains; 58° 27' N, 137° 17' W; (map 10). Named by W. H. Dall, USC&GS, in 1874 for Jean Francois de Galaup de la Perouse, 1741-88, French navigator who explored the coast in this area in 1786. The name was published in the 1883 Alaska Coast Pilot (p. 201). La Perouse was a member of the French Navy, and in 1782 was sent to Canada to attack the British forts on Hudson Bay. In 1785 he was given command of an expedition of exploration by Louis XVI. With two ships, the La Boussole and the L'Astrolabe, he sailed in 1786 from the Sandwich Islands to the Alaskan coast in the neighborhood of Mount St. Elias, where he mapped the coast and studied the Indians. On the way home from his explorations his two ships and crew were lost. Parts of his ships were found in 1827 on Santa Cruz Island in the New Hebrides in the South Pacific.

Perpendiculaire, Cape: point of land, see Upright, Cape.

Perret Ridge: ridge, elev. 2,916 ft., N of Fenner Lake, Semisopchnoi Island, Aleutian Islands; 51° 58' 30" N, 179° 39' 00" E; BGN 1952; (map 15). Named in 1950 by R. R. Coats, USGS, for Frank Perret, volcanologist, who died in 1950.

Perrier Inlet: estuary, see Taiya Inlet.

Perrier Pass: pass, see Chilkoot Pass.

Perry Creek: stream, flows NE 6 miles to Pinnell River, 16 miles N of Imuruk Lake, Seward Peninsula Highlands; 65° 49' N, 163° 04' W; BGN 1952; (map 110). Prospectors' name reported in 1903 by D. C. Witherspoon (in Moffitt, 1905, pl. 2), USGS.

Perry Creek: stream, flows to Hetta Inlet, 1.9 miles W of Gould Island, near center of Prince of Wales Island, Alexander Archipelago; 55° 16' 35" N, 132° 40' 05" W; (map 4). Local name reported in 1908 by C. W. Wright (in Brooks and others, 1909, pl. 3), USGS.

Perry Island: island, 6.5 miles long, in Prince William Sound, between Perry Passage and Lone Passage, 24 miles SE of Whittier, Chugach Mountains; 60° 43' N, 147° 55' W; (map 63). Name published on D. H. Sleem's map of Central Alaska, dated 1910. This is probably the same as the island called "Perry" by USC&GS in 1900, and "Stamie" by F. C. Schrader,

USGS, in 1900. Schrader reported that it had been “used as a blue fox farm by Kendall and Steamy [Stamie] since 1897.”

Perry Passage: water passage, 10 miles long, in Prince William Sound, between Perry and Culross Islands, 22 miles SE of Whittier, Chugach Mountains; 60° 43' N, 148° 03' W. BGN 1914; (map 63). Name reported in 1914 by USC&GS.

Perry, Point: point of land, northernmost point on Perry Island, on S side of Wells Passage, 25 miles SE of Whittier, Chugach Mountains; 60° 45' 05" N, 147° 57' 30" W; BGN 1914; (map 63). Name reported in 1914 by USC&GS.

Perry: village, see Perryville.

Perryville: village, pop. 111, on S coast of Alaska Peninsula 19 miles E of Stepovak Bay, Aleutian Range; 55° 54' 40" N, 159° 09' 00" W; (map 27). Variant: Perry. This “native” village was established to provide for people who were driven away from the vicinity of Mount Katmai by the eruption of 1912. It consists of a number of wooden houses, including a store and school (Coast Pilot, 1947, p. 297). It was originally called Perry, but later was referred to as Perryville, probably to conform with the post office that was established there in 1930 (Ricks, 1965, p. 50).

Persebes, Punta: point of land, on the E side of San Juan Bautista Island, Bucareli Bay, Alexander Archipelago; (map 4). Variant: Punta Percabes. Spanish name given by members of the 1779 Don Ignacio Arteaga expedition.

Perseverance Creek: stream, 0.5 miles long, drains Lake Perseverance into Connell Lake, 1.8 miles E of Ward Cove, on Revillagigedo Island, Alexander Archipelago; 55° 25' 05" N, 131° 40' 05" W; (map 3). Local name reported in 1954 by USGS.

Perseverance, Lake: lake, 1.3 miles long, on Revillagigedo Island, 3.4 miles N of Ketchikan, Alexander Archipelago; 55° 24' N, 131° 40' W; (map 3). Local name reported in 1954 by USGS.

Perseverance: locality, on SE side of Silverbow Basin, 3 miles E of Juneau, Coast Mountains; 58° 18' 45" N, 134° 20' 45" W; (map 11). Former mining camp named about 1885 by miners for the Perseverance claim and mine. A mill and other buildings of the camp were destroyed by a snowslide in 1895. The mining camp remained in existence until 1921 when the mine was closed (DeArmond, 1957, p. 34-35).

Persian Ridge: ridge, trending N 1 mile from Larry Hill, 3 miles NW of Gertrude Cove, westcentral Kiska Island, Aleutian Islands; 51° 58' 15" N, 177° 23' 30" E; (map 14). One of many arbitrary names applied to features on Kiska Island by USAAF for tactical purposes during World War II.

Peschan Point: point of land, see Peschani Point.

Peschanaia Bay: bay, see Sandy Bay.

Peschanaya: stream, see Sandy River.

Peschani Island: island, see Pyramid Island.

Peschani Point: point of land, 3 miles N of Rodman Bay, on Duffield Peninsula, on N coast of Baranof Island, Alexander Archipelago; 57° 32' 15" N, 135° 19' 15" W; (map 9). Variant: Mys Peschanyy, Peschan Point, Sandy Point, Stony Point. Russian name meaning "sandy," given in 1833 by the navigator Ens. Vasiliev; published in 1848 on Russian Hydrog. Dept. chart 1397 as "M[ys] Peschanyy."

Peschani Point: point of land, see Halibut Point.

Peschani: bay, see Martin Harbor.

Peschanoi: bight, see Shahakfka Cove.

Peschanoy, Zaliv: bight, see Shahakfka Cove.

Peschanyy Island: island, see Pyramid Island.

Peschanyy, Mys: point of land, see Halibut Point.

Peschanyy, Mys: point of land, see Peschani Point.

Peschanyy, Mys: point of land, see Pestchani Point.

Peschanyy, Ostrov: island, see Galankin Island.

Peshchannaya Bukhta: bay, see Sandy Bay.

Peshchanoye, Mys: point of land, see Icehouse Point.

Peshchanoye, Ozero: lake, see Icehouse Lake.

Peshchanyy, Zaliv: cove, see Sandy Cove.

Pesiak: island, see Martin Island.

Pesquera Island: island, 0.3 miles across, N Maurelle Islands, Alexander Archipelago; 55° 40' 40" N, 133° 39' 30" W; BGN 1925; (map 4). Spanish name meaning "a place for catching fish," given in 1924 by Capt. Maher USC&GS, because "surrounding waters... thronged with fishing craft, which report an enormous catch."

Pestchanaia: bay, see Martin Harbor.

Pestchani Point: point of land, on E shore of Kizhuyak Bay, on N coast of Kodiak Island; 57° 47' N, 152° 51' W; (map 34). Variant: Mys Peschanyy. Transliteration of the descriptive name "M[ys] Peschanyy," meaning "sandy cape," given to this point by Murashev in 1839 or 1840 and published in 1849 on Russian Hydrog. Dept. Chart 1425.

Pestchania: cove, see Sandy Cove.

Pestchanoe Lake: lake, see Icehouse Lake.

Pestchanoe Point: point of land, see Icehouse Point.

Pestriak Point: point of land, on SE coast of Spruce Island, 7 miles N of Kodiak, NE of Kodiak Island; 57° 53' 30" N, 152° 23' 00" W; (map 34). Variant: Pestriakof. See Pestriak, locality.

Pestriak: locality, site of village on SE coast of Spruce Island, 7 miles N of Kodiak, Kodiak Island; 57° 53' 30" N, 152° 23' 00" W; (map 34). Variant: Pestriakof, Seleniye Pestryakova. The Russian American Company published the name "Sel[eniye] Pestryakova" meaning "Eider duck Settlement," for this locality in 1849.

Pestriakof: locality, see Pestriak.

Pestriakof: point of land, see Pestriak Point.

Pestriakovo: point of land, see Eider Point.

Pestsovaia baie: bay, see Bluefox Bay.

Pet Lake: lake, 0.5 miles long, at head of tributary to Mashooshalluk Creek, in a passage between John and Allen Rivers, 50 ms. NW of Wise Man, Brooks Range; 67° 37' 30" N, 151° 55' 30" W; (map 124). Local name obtained in 1956 by USGS topographers.

Pet-meg-e a: stream, see Pitmegea River.

Pete Andrews Creek: stream, flows S 10 miles to Iliamna Lake, 9 miles SW of Iliamna, Bristol Bay Lowland; 59° 39' 35" N, 155° 04' 30" W; (map 51). Local name published by USGS in 1954.

Pete Dahl Slough: Stream, 11 miles long, distributary of Copper River, 15 miles SE of Cordova, Malaspina Coastal Plain; 60° 23' N, 145° 27' W; (map 64). Local name reported by Lt. Cmdr. Moser (1898, p. 132), USN.

Pete Larssen: bay, see Larsen Bay.

Peter Cleaver Lake: lake, 6 miles N of junction of Louie Creek and Koyukuk River and 5 miles NW of Roundabout Mountain, Koyukuk Lowland; 65° 34' N, 156° 48' W; (map 108). Local name obtained at Huslia by USGS in 1954 or 1955.

Peter Creek: stream, flows E 1 mile to Bryan Creek which flows to Serpentine River, 8 miles NE of Kougarok Mountain and 33 miles SE of Ear Mountain, Seward Peninsula Highlands; 65° 47' N, 165° 08' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Peter Creek: stream, see Peters Creek.

Peter Creek: stream, see Petes Creek.

Peter Island: island, 0.6 miles across, in Anderson Bay, S side of Makushin Bay, on Unalaska Island, Aleutian Islands; 53° 41' 40" N, 166° 50' 25" W; (map 23). Local name published in 1951 on a USGS map.

Peter John Mountain: mountain, 3,611 ft., 5 miles E of Old John Lake and 17 miles SE of Arctic Village, Brooks Range; 68° 05' N, 144° 51' W; (map 136). Local name reported in 1956 by R. C. Foley, USGS.

Peterboro Creek: stream, flows SW 2 miles to Bay Creek which flows to Grantley Harbor, 5 miles NE of Teller, Seward Peninsula Highlands; 65° 20' N, 166° 20' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Peterel Bank: submarine ridge, 16-20 miles wide, 28 miles long, in Bering Sea, off NE coast of Semisopochnoi Island, Aleutian Islands; 52° 08' N, 179° 48' E; BGN 1937; (map 15). Discovered by Lt. Comdr. F. H. Sherman, USN, in 1904, and named for his vessel, the USBF steamer Petrel. Name published on a 1906 USC&GS chart.

Peters Basin: basin, covered by Peters Glacier, extends NE 5 miles from Kahiltna Dome to Tluna Icefall, between Peters Dome and Mount Capps, Alaska Range; 63° 07' N, 151° 10' W; (map 88). Mountain climbers' name published in 1954 by USGS.

Peters Creek: locality, on Glenn Highway, E of Birchwood, 20 miles NE of Anchorage, Cook Inlet Lowland; 61° 24' 45" N, 149° 26' 15" W; (map 69). Local name reported in 1960 by USGS. Recent USGS maps indicate a site with five or six buildings.

Peters Creek: locality, on Peters Creek S of the junction of Martin Creek, 20 miles NW of Talkeetna, Alaska Range; 62° 22' 30" N, 150° 44' 00" W; (map 81) This place, shown with four buildings on recent maps, may be a road or supply camp for the mines off Cache Creek; reported in 1936 by USGS.

Peters Creek: stream, flows SW 18 miles to Willow Creek, 24 miles NW of Palmer, Talkeetna Mountains; 61° 47' 10" N, 149° 43' 15" W; (map 69). Variant: Peterson Creek. Local name reported in 1917 by S. R. Capps and J. B. Mertie (in Martin and others, 1919, pl. 1), USGS.

Peters Creek: stream, heads at glacier, flows NW 20 miles to Knik Arm, N of Birchwood, 20 miles NE of Anchorage, Cook Inlet Lowland; 61° 25' 35" N, 149° 30' 00" W; (map 69). Variant: Peter Creek. Local name reported in 1906 by T. G. Gerdine and R. H. Sargent, USGS.

Peters Creek: stream, heads in Dutch Hills, flows S 45 miles to Kahiltna River, 26 miles SW of Talkeetna, Alaska Range; 62° 10' 40" N, 150° 52' 45" W; (map 81). Prospectors' name reported in 1906 by R. W. Porter, USGS.

Peters Creek: stream, see Petes Creek.

Peters Dome: mountain, 10,600 ft., N of Peters Basin and W of Peters Glacier, 7.7 miles NW of summit of Mount McKinley, Alaska Range; 63° 08' 15" N, 151° 12' 00" W; (map 88). Local name reported in 1954 by USGS.

Peters Glacier: glacier, heads at Peters Basin, trends NE and N 12 miles to its terminus at the head of Muddy River, Alaska Range; 63° 16' 30" N, 150° 59' 30" W; BGN 1947; (map 88). Variant: Hanna Glacier. Named by A. H. Brooks in 1902 for William John Peters, 1864-1942, USGS, topographer and explorer, who was in charge of USGS explorations in Alaska from 1898 to 1901. It was also called "Henna Glacier" for Marcus Alonzo Hanna, U.S. Senator from Ohio, "friend and political warwick of President McKinley, for whom Mount McKinley was named."

Peters Glacier: glacier, in Franklin Mountains, on W slope of Mount Chamberlain, 2 miles SE of Lake Peters and 17 miles W of Mount Michelson, Brooks Range; 69° 16' 30" N, 144° 57' 00" W; (map 139). Named in 1959 by members of the Air Force Cambridge Research Center for Lake Peters.

Peters Hills: mountains, 3,800 ft., extend SW 18 miles from Tokositna River, 24 miles NW of Talkeetna, Alaska Range; 62° 31' 15" N, 150° 48' 30" W; (map 81). Local name reported in 1906 by R. W. Porter, USGS.

Peters Pass: Pass, 8,050 ft., between Peters Basin and Straightway Glacier, at southern base of Peters Dome, Alaska Range; 63° 06' 30" N, 151° 13' 30" W; (map 88). Mountain climbers' name published in 1954 by USGS.

Peters Point: point of land, NE point of Pearl Island, in the Yukon River 22 miles NE of Russian Mission, Yukon-Kuskokwim Delta; 61° 57' N, 160° 43' W; (map 73). Riverboat pilots' name shown on a 1916 field sheet by R. H. Sargent, USGS.

Peters, Lake: lake, 4.5 miles long, S lake of Neruokpuk Lakes, in Franklin Mountains, 19 miles W of Mount Michelson, Brooks Range; 69° 19' N, 145° 03' W; BGN 1961; (map 139). Variant: Lakes Peters and Schrader, Lake Schrader, Neruokpuk Lakes, Schrader Lake. Named for William John Peters, 1863-1942, USGS, topographer. This lake was originally named Lake Schrader by Leffingwell (1919, p. 57) who wrote, "The upper lake, Lake Schrader, which is about 4 miles long and a mile wide, fills the whole valley floor so that the water washes the steep rock walls in each side. The mountains here are about 3,000 feet high, * * *" However, Leffingwell's map (pl. 1) shows the names transposed, and it is this application that influenced subsequent map and local use.

Peters, Point: point of land, extends S from Deer Island, between Ernest Sound and Seward Passage, Alexander Archipelago; 55° 58' 30" N, 132° 01' 45" W; (map 4). Named by local fishermen and reported in 1904 by H. C. Fassett, USBF.

Petersburg Creek: stream, on Lindenberg Peninsula, Kupreanof Island, heads on N slope of Portage Mountain, flows SE 14 miles through Petersburg Lake to Wrangell Narrows at West Petersburg; Alexander Archipelago; 56° 48' 45" N, 132° 59' 30" W; (map 6). Local name published by USC&GS in 1932 Coast Pilot (p. 273).

Petersburg Lake: lake, 1 mile long, 9 miles NW of Petersburg, on Lindenberg Peninsula, Kupreanof Island, Alexander Archipelago; 56° 52' 30" N, 133° 10' 30" W; (map 6). Local name recorded in 1951 by USGS.

Petersburg: town, pop. 1,592, on N end of Mitkof Island, at N entrance to Wrangell Narrows, 32 miles NW of Wrangell, Alexander Archipelago; 56° 48' 10" N, 132° 58' 00" W; (map 6). Known as the "Little Norway" of Alaska. Petersburg is inhabited largely by Scandinavians whose chief occupation are fishing, canning, lumbering and fur farming. The town grew up around a salmon cannery and a sawmill built in 1897-99 by Peter Busch Mann, after whom it was named. A post office was obtained in 1900 (Ricks, 1965, p. 51). Two old storage plants, five canneries, and a sawmill are maintained here as well as an experimental fur farm under the direction of the University of Alaska. Petersburg's population was 1,252 in 1945; 1,323 in 1950. It is an outfitting point for game hunters and is well known for its "Petersburg" shrimp taken from nearby waters (Colby, 1945, p. 146).

Petersen Creek: stream, see Peterson Creek.

Petersen Islands: islands, 0.3 miles across, in Ernest Sound, 4.5 miles NE of Onslow Point, Alexander Archipelago; 55° 53' 05" N, 132° 13' 30" W; (map 4). Local name published in 1924 by USC&GS.

Peterson Bay: bay, 0.5 miles wide and 2.5 miles long, on S coast of Sanak Island, Aleutian Range; 54° 22' 45" N, 162° 37' 00" W; (map 25). Variant: King Cove. Named by USBF in 1888. This bay or Salmon Bay may be identical to the King Cove of W. H. Dall, USC&GS. See Salmon Bay.

Peterson Bay: bay, 1.7 miles wide, on E shore of Kachemak Bay, on Kenai Peninsula, 9 miles SE of Homer, Chugach Mountains; 59° 35' N, 151° 18' W; (map 50). Local name reported by USGS or USC&GS in the 1940's.

Peterson Creek: stream, heads on Auke Mountain and flows 7 miles NW to Salt Lake, 0.3 miles NW of Dotsons Landing and 19 miles NW of Juneau, 58° 29' 45" N, 134° 46' 45" W; (map 11). Variant: Cheechako Creek. Named for John G. Peterson, 1861-1916, a Juneau businessman and miner. In 1899 he staked a claim on the creek which he called Cheechako Creek. Later it become known as Peterson Creek (DeArmond, 1957, p. 35).

Peterson Creek: stream, heads on NW side of Blueberry Hill, flows SW 2.5 miles to Turnagain Arm, 13 miles E of Sunrise, Chugach Mountains; 60° 53' 10" N, 149° 02' 40" W; BGN 1966; (map 63). Variant: Petersen Creek. Local name reported in 1899 by Lt. Herron (1901, map facing p. 11), USA.

Peterson Creek: stream, see Paterson Creek.

Peterson Creek: stream, see Peters Creek.

Peterson Creek: stream, see Quiktalik Creek.

Peterson Island: island, 0.3 miles across, one of Sanak Islands, Aleutian Range; 54° 20' 25" N, 162° 36' 45" W; (map 25). Name reported by Ferdinand Westdahl, USC&GS, commander of the Coast Survey steamer McArthur, who made surveys in this area in 1901.

Peterson Lagoon: lagoon, 1.8 miles across, on N coast of Unimak Island, Aleutian Islands; 54° 56' 00" N, 164° 10' 30" W; (map 24). Local name published in 1951 by USGS.

Peterson Lake: lake, 0.4 miles across, one of the Seven Lakes, on Kenai Peninsula, at head of East Fork Moose River, 3 miles NW of Hidden Lake and 29 miles SE of Kenai, Cook Inlet Lowland; 60° 31' 30" N, 150° 23' 45" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Peterson Lake: lake, 0.9 miles long, on Peterson Creek, 3.8 miles SE of Salt Lake and 17 miles NW of Juneau, Coast Mountains; 58° 26' 45" N, 134° 44' 00" W; BGN 1929; (map 11). Variant: Reservoir Lake. Named for John G. Peterson, 1861-1916, Juneau businessman and miner who staked a claim on Peterson Creek in 1899. At that time the lake was recorded in mining records as Reservoir Lake, but by 1905 it became known as Peterson Lake (DeArmond, 1957, P. 35).

Peterson Point: point of land, on Kenai Peninsula, on E shore of Kachemak Bay, 10 miles ESE of Homer, Chugach Mountains; 59° 36' N, 151° 16' W; (map 50). Local name reported and published by USGS since 1950.

Petersville: locality, on Peters Creek, 24 miles NW of Talkeetna, Alaska Range; 62° 29' 45" N, 150° 46' 00" W; (map 81). Mining camp reported in 1934 by USGS. The Petersville post office was located here from 1936 to 1939 (Ricks, 1965, p. 51).

Petes Creek: stream, on Kenai Peninsula, flows NW 1 mile to Granite Creek 1.5 miles upstream from its junction with East Fork Sixmile Creek, 12 miles SE of Sunrise, Chugach Mountains; 60° 43' 55" N, 149° 16' 25" W; BGN 1966; (map 63). Variant: Peter Creek, Peters Creek. Local name reported in 1915 by USGS.

Petes Pass: water passage, E of Harbor Island, 34 miles SW of Seward, Chugach Mountains; 59° 39' N, 149° 39' W; (map 49). Local name reported in the early 1950's by USC&GS.

Petitski: island, see Bird Island.

Petkas Point: point of land, see Pitkas Point.

Petrel Island: island, 0.2 miles across, one of Chiachi Islands, 22 miles E of Stepovak Bay, Aleutian Range; 55° 52' 15" N, 159° 07' 05" W; (map 27). So named by W. H. Dall, USC&GS, in 1875 for the Northern Fork-Tailed Petrel, *Oceanodroma furcata furcata*.

Petrel Island: island, 0.7 miles long, in Pacific Ocean, 0.4 miles S of Forrester Island, Alexander Archipelago; 54° 45' 15" N, 133° 30' 40" W; (map 1). Name published by USC&GS in 1917.

Petrel Point: point of land, N tip of Semisopochnoi Island, Aleutian Islands; 52° 01' 45" N, 179° 36' 00" E; BGN 1937; (map 15). Named for Petrel Bank; reported by personnel of the U.S.S. Oglala in 1935.

Petrel Point: point of land, on W bank of Portland Canal 1.5 miles S of Halibut Bay; Coast Mountains; 55° 11' 40" N, 130° 07' 00" W; (map 3). Named in 1895 by USC&GS.

Petries Strait: water passage, see Shelikof Strait.

Petrof Bay: bay, 2.5 miles across, on Kuiu Island, at S end of Tebenkof Bay, Alexander Archipelago; 56° 25' N, 134° 05' W; BGN 1929; (map 5). Named in 1928 by USC&GS for Ivan Petroff, special census agent for Alaska in 1880, "who contributed largely to the written history of Alaska."

Petrof Falls: waterfall, N of Iliamna Lake on Newhalen River, 4 miles NW of Iliamna, Alaska Range; 59° 48' N, 154° 57' W; (map 51). Variant: Petroff Falls. Name published as "Petroff Falls" by Osgood (1904, p. 11-12), USDA.

Petrof Glacier: glacier, heads at 59° 31' N, 150° 49' W, in Kenai Mountains, trends S 9 miles to its terminus at lake, 1 mile N of Nuka Passage and 32 miles ESE of Seldovia, Chugach Mountains; 59° 23' 15" N, 150° 48' 00" W; (map 50). Probably named for Ivan Petroff, who did extensive research in the area for the 10th U.S. Census of 1880. Reported by U. S. Grant and D. F. Higgins, USGS (Martin and others, 1915, pl. 2).

Petrof Point: point of land, on Kenai Peninsula, on W shore of Nuka Passage, 33 miles ESE of Seldovia, Chugach Mountains; 59° 17' 30" N, 150° 45' 30" W; BGN 1931; (map 50). So named for nearby Petrof Glacier by USC&GS, in 1931.

Petrof, Point: point of land, on NW tip of Sanak Island, Aleutian Range; 54° 29' 40" N, 162° 49' 45" W; (map 25). Variant: McLoughlins Point, Mys Petrova. Russian name published by Capt. Tebenkov (1852, map 24), IRN, as "M[ys] Petrova" or "Petrof's Cape." According to USC&GS, "The residents of Sanak call Point Petrof, McLoughlins Point * * * Many years ago a man by that name lived at Point Petrof."

Petrof: village, see Nikolski.

Petroff Falls: waterfall, see Petrof Falls.

Petrokoy Lake: lake, 0.6 miles long, 2 miles NE of junction of Maclaren River and its West Fork and 30 miles S of Mount Hayes, Alaska Range; 63° 11' 30" N, 146° 30' 30" W; (map 86). Name published on relatively recent maps.

Petrova, Mys: point of land, see Petrof, Point.

Peulik, Mount: mountain, 4,835 ft., on S shore of Becharof Lake, on Alaska Peninsula, 43 miles NE of Ugashik. Aleutian Range; 57° 45' N, 156° 22' W; (map 36). Variant: Smoky Mountain. Aleut name reported in 1902 by W. H. Osgood, USDA, as "Smoky Mountain" or "Mount Peulik." According to G. C. Martin, USGS, "Peulik" means "smoking" or "smoking mountain."

Peysar, Ostrov: island, see Peisar Island.

Pfaff Peak: peak, 3,100 ft., 2.7 miles SW of Battle Lake and 50 miles S of Iliamna, Aleutian Range; 59° 01' N, 154° 57' W; (map 51). Local name published by USGS in 1951.

Phalarope Lake: lake, 0.7 miles long, N of Denali Highway, in course of Rock Creek, 27 miles NW of Paxson, Alaska Range; 63° 06' 20" N, 146° 20' 30" W; (map 86). So named in 1955 by T. L. Pewe, USGS, because the lake "is the habitat of a multitude of phalarope [a small shore bird] during the summer season."

Phalarope Lake: lake, 2 miles long, on Kenai Peninsula, 1.1 miles W of the Bedlam Lakes and 27 miles SW of Anchorage, Cook Inlet Lowland; 60° 55' N, 150° 24' W; (map 62). Named about 1963 by officials of Kenai National Moose Range, probably for the Northern Phalarope (*Lobipes lobatus*), the little swimming Sandpiper, which breeds from northern Alaska to the Aleutian Islands and is of great economic value, destroying immense numbers of mosquitoes and mosquito larvae. (Pearson, 1944, pl. 1, p. 217).

Phelan Creek: stream, heads 2.2 miles SW of Gulkana Glacier terminus, flows NW 16 miles to Delta River, 22 miles NW of Paxson, Alaska Range; 63° 20' 08" N, 145° 44' 30" W; (map 86). Named in 1898 by Capt. E. F. Glenn, USA

Phil, Lake: lake, 0.2 miles long, 9.4 miles SW of Kodiak, Kodiak Island; 57° 42' 30" N, 152° 36' 45" W; (map 34). Local name reported in 1949 by USGS.

Philacte Bay: bay, 2 miles across, at W end of Baird Inlet, 95 miles W of Bethel, Yukon-Kuskokwim Delta; 60° 50' N, 164° 26' W. (map 58). Name used by personnel of Clarence Rhode National Wildlife Range; reported in 1965 The name is derived from the scientific name, *Philacte canagica*, for the emperor goose.

Philadelphia Creek: stream, in York Mountains, flows SW 1 mile to Kanauguk River which flows to Bering Sea, 36 miles NW of Teller, Seward Peninsula Highlands; 65° 29' N, 167° 28' W; (map 111) Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Philip Smith Mountains: mountains, extend 130 miles from Sagavanirktok River and North Fork Chandalar River on SW to Canning River and East Fork Chandalar River on NE, Brooks Range; 68° 55' N, 145° 00' W [NE end], 68° 10' N, 149° 00' W [SW end]; (map 135). Named in 1950 by USGS after Philip Sidney Smith, 1877-1949, chief Alaska geologist of the Geological Survey from 1925 to 1946, and at one time the acting director of the Survey.

Phillips Gulch: ravine, trends NE 1 mile to Extra Dry Creek, 6 miles NE of Nome, Seward Peninsula Highlands; 64° 34' N, 165° 16' W; (map 94). Variant: Little Gulch. Prospectors' name published in 1956 by USGS. Reported as "Little Gulch" on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Phillips Rock: rock, in Gulf of Esquibel, W of St. Philip Island, Alexander Archipelago; 55° 38' 20" N, 133° 25' 55" W; (map 4). Local name recorded in 1951 by USGS.

Phillips: locality, on Yukon-Kuskokwim Portage trail, SE of Johnson River and 23 miles SE of Russian Mission, Yukon-Kuskokwim Delta; 61° 27' 50" N, 161° 06' 00" W; (map 73). This place probably represents a cabin or two on the trail, owned by the Phillips brothers (cnna).

Phipps Cape: point of land, on N end of Phipps Peninsula, N of Ankau Creek, 2.8 miles W of Yakutat, Malaspina Coastal Plain; 59° 33' N, 139° 50' W; (map 46). Local name reported in 1964 (Laguna and others, map 4).

Phipps Peninsula: peninsula, 3.5 miles long, in Gulf of Alaska, S of Monti Bay, 1 mile SW of Yakutat, Malaspina Coastal Plain; 59° 32' N, 139° 48' W; (map 46). Variant: Cape Morskoi, Cape Phipps, Cape Phips, Ocean Cape. Named "Cape Phipps" by Capt. George Dixon in 1787 for the Hon. Constantine John Phipps, Baron Mulgrave, English explorer, famous for his voyage to Spitzbergen and the Arctic Ocean in 1773 (U.S. Coast & Geodetic Survey, 1883, p. 208). There has been some confusion in the application of the name. The name Cape Phipps was applied to Ocean Cape by some of the early hydrographers, and in 1823 it was applied by Capt. C. V. Kromchenko to Point Carew. It was called "Phipps Peninsula" by Baker (1906, p. 496), USGS, and "Phipps Bay Peninsula" by IBC in 1928. See Mulgrave, Port.

Phipps Point: point of land, on Hinchinbrook Island, at entrance to Constantine Harbor, 33 miles SW of Cordova, Chugach Mountains; 60° 21' N, 146° 37' W; (map 64). Local name reported in 1902 by USC&GS.

Phipps, Cape: peninsula, see Phipps Peninsula.

Phipps, Cape: point of land, see Ocean Cape.

Phips, Cape: peninsula, see Phipps Peninsula.

Phocena Rocks: rocks, extends 0.3 miles off SW Coast of Gravina Island, 4.2 miles NW of Dall Head, Alexander Archipelago; 55° 10' 00" N, 131° 48' 20" W; BGN 1966; (map 3). Variant: Chick Rocks, Porpoise Rocks, Skole Rocks. Named in 1921 by USC&GS; derived from "Phocaena," the Latin term for "porpoise."

Phoebe Creek: stream, flows NW 5 miles from More northerly of Twin Lakes, joins Robert Creek to form Bettles River, 21 miles WNW of Chandalar, Brooks Range; 67° 35' 40" N, 149° 14' 00" W; (map 123). Prospectors' name; reported in 1899 by Schrader (1900b, pl. 60), USGS.

Phoenix Bay: bay, 0.6 miles across, on E shore of Perenosa Bay, on N coast of Afognak Island, N of Kodiak Island; 58° 25' 30" N, 152° 20' 30" W; BGN 1934; (map 43). Named by USC&GS in 1932 for the vessel Phoenix. This ship was the first one built in northwestern America, by James Shields, an Englishman in the Russian Navy, under the direction of Alexander Baranov, of the Shelikov Company, in 1794 (Bancroft, 1886, p. 329-331).

Phoenix Creek: stream, flows NE 4 miles to Seventymile River, 8 miles NW of Eagle, Yukon-Tanana Highlands; 64° 53' N, 141° 24' W; (map 102). Prospectors' name shown on a 1902 manuscript map by E. J. Chamberlain, U.S. Deputy Surveyor.

Phoenix Creek: stream, flows SE 1.5 miles to Canyon Creek 1 mile downstream from Dexter Creek, 23 miles NW of Solomon, Seward Peninsula Highlands; 64° 53' N, 164° 44' W; (map 95). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Phoenix Peak: peak, 5,155 ft., 2 miles SW of Iron Mountain and 3.5 miles W of Seward, Chugach Mountains; 60° 07' 23" N, 149° 32' 10" W; BGN 1966; (map 63). Named in 1965 by the Mountaineering Club of Alaska "for the first ship ever built in Alaska, which was constructed in nearby Resurrection Bay in 1794."

Phoenix: locality, on NW coast of Latouche Island, 22 miles SE of Chenega, Chugach Mountains; 60° 02' 33" N, 147° 54' 40" W; (map 63). Variant: The Madhouse. Name of a mining camp and wharf reported in 1909 by Grant and Higgins (1910, pl. 12), USGS. The camp is now abandoned.

Phonograph Creek: stream, flows SW 6.5 miles to Lisianski Inlet on NW part of Chichagof Island, 16 miles N of Chichagof, Alexander Archipelago; 57° 54' 30" N, 136° 08' 30" W; (map 9). Local name reported in 1951 by USGS.

Phosphorite Creek: stream, flows NW 5.5 miles to Saligvik Creek, S of its junction with Kukpuk River, 13 miles NE of Cape Thompson, Arctic Slope; 68° 15' 55' N, 165° 36' 20" W; BGN 1963; (map 129). Named by geologists about 1962 in connection with Project Chariot studies.

Pi Islands: islands, see Pye Islands.

Piasuk River: stream, part of Ikpikpuk River Distributary system, flows NE 25 miles to Smith Bay, 8 miles S of Cape Simpson, Arctic Plain; 70° 52' N, 154° 42' W; (map 148). Eskimo name reported by USC&GS in 1951. Orth was told in 1965, that it is "an Old Barrow name" of unknown meaning.

Piatidesiatnizi: point of land, see Izhut, Cape.

Piatimilni Island: island, see Fivemile Island.

Pichouligagamut: locality, on left bank of Kanektok River, 3 miles NE of Kwinhagak, 48 miles N of Goodnews, Yukon-Kuskokwim Delta; 59° 46' N, 161° 48' W; (map 53). Eskimo name meaning "Pichouligak people"; shown on an 1898 fieldsheet by W. S. Post, USGS, with a note: "deserted houses."

Pick River: stream, heads at 66° 32' N, 156° 30' W, flows NW 28 miles to Kobuk River 2 miles S of Shungnak, Kotzebue-Kobuk Lowland; 66° 52' N, 157° 09' W; Variant: She-kluck-she-uck. Named in 1886 by Lt. Stoney (1900, map), USN, who also gave its Eskimo name as "She-kluck-she-uck."

Pickarts Creek: stream, see Bergman Creek.

Pickerel Lake: lake, 3 miles long, at NW end of Nutzotin Mountains, Alaska Range; 62° 37' N, 142° 24' W; (map 84). Variant: Pickerel Lakes. Local name reported in 1955.

Pickerel Lakes: lake, see Pickerel Lake.

Pickerel Lakes: lakes, extend NE-SW 7 miles, 4 miles E of Nondalton and 16 miles NE of Iliamna Aleutian Range; 59° 59' N, 154° 42' W; (map 51). Named by prospectors prior to 1909; published by Martin and Katz (1912, pl. 1), USGS.

Pickerel Slough: lake, oxbow, 1.2 miles long, E of Yukon River and 10 miles N of Eagle, Porcupine Plateau; 64° 56' N, 141° 10' W; (map 102). Local name published in 1956 by USGS.

Picket Gate Crags: ridge, extending S 1 mile From Mount Moore, 6.5 miles SE of Mount Ogilvie and 36 miles N of Juneau, Coast Mountains; 58° 47' 40" N, 134° 07' 30" W; BGN 1965; (map 11). Named in 1964 by members of the Juneau Icefield Research Project.

Pickle Creek: stream, flows S 7.5 miles to Kahiltna River, 28 miles W of Talkeetna, Alaska Range; 62° 17' 15" N, 150° 58' 45" W; (map 81). Local name reported in 1958 by USGS.

Picnic Creek: stream, in DeLong Mountains, flows SSE 18 miles to Anisak River, Brooks Range; 68° 24' N, 159° 24' W; BGN 1960; (map 131). Named "Piknik" in 1953 by E. G. Sable And Island L. Tailleur, USGS, "for pleasant traverse of creek." The spelling was modified by BGN.

Picnic Harbor: cove, 0.6 miles wide, at head of Rocky Bay, on Kenai Peninsula, 17 miles SE of Seldovia, Chugach Mountains; 59° 15' 30" N, 151° 25' 00" W; (map 50). Local name published by USGS in 1951.

Picnic Lake: lake, 0.3 miles long, on Kenai Peninsula SE of Campsite Lake, 3.5 miles N of Hidden Lake and 34 miles E of Kenai, Cook Inlet Lowland; 60° 33' 10" N, 150° 16' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Picnic Point: point of land, on left bank of Nushagak River, opposite mouth of Wood River, 4 miles E of Dillingham, Bristol Bay Lowland; 59° 02' N, 158° 22' W; BGN 1932; (map 52). Local name reported in 1904 by H. C. Fassett, USBF.

Pie Lake: lake, 0.4 miles long, W of Nabesna River, 30 miles SW of Northway, Alaska Range; 62° 36' N, 142° 25' W; (map 84). Local name reported by USGS in 1960.

Pie Point: point of land, see Pio Point.

Piebles Passage: water passage, see Piehle Passage.

Piedras Island: island, 200 ft. long, between San Christoval Channel and San Alberto Bay, E of Cruz Islands, Alexander Archipelago; 55° 33' 35" N, 133° 17' 50" W; BGN 1908; (map 4). Variant: Rocky Island, Ysla de Piedras. Spanish name recorded in 1907 by E. F. Dickins, USC&GS; the name was taken from Ysla de Piedras, meaning "Island of Stones," given in 1775 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle. Baker (1906, p. 531) published the translation "Rocky Island."

Piehle Passage: water passage, 1.5 miles long, at N end of Khaz Peninsula, 9.5 miles SSE of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 31' 30" N, 136° 02' 00" W; (map 9). Variant: Hole in the Wall, Piebles Passage, Piehles Passage. Local name published by USC&GS in the 1927 Coast Pilot Suppl. (p. 18) as "Piebles Passage". The passage was reported in 1919 as "Hole in the Wall" by USGS.

Piehles Passage: water passage, see Piehle Passage.

Pieneluk Island: island, 1 mile long, in Apoon Pass of Yukon Delta, E of Pieneluk Slough, 29 miles NE of Kwiguk, Yukon-Kuskokwim Delta; 63° 01' N, 163° 47' W; (map 92). Variant: PEEIN-E-LUK Island. Eskimo name obtained in 1952 by USC&GS.

Pieneluk Slough: stream, in Yukon Delta, flows NE 2 miles to Apoon Pass, W of Pieneluk Island, 29 miles NE of Kwiguk, Yukon-Kuskokwim Delta; 63° 01' N, 163° 46' W; (map 92). Eskimo name obtained in 1952 by USC&GS.

Pierce Creek: stream, heads on Mount Susitna, flows SE 5.8 miles to Alexander Creek, 30 miles NW of Anchorage, Cook Inlet Lowland; 61° 29' 45" N, 150° 35' 35" W; (map 70). Local name reported in 1958 by USGS.

Pierce Peak: peak, 3,404 ft., 4 miles W of head of Thomas Bay and 95 miles E of Sitka, Coast Mountains; 57° 06' 50" N, 132° 56' 15" W; (map 8). Local name reported in 1961 by USGS.

Pierucci Ridge: ridge, 2.5 miles long, extending from Vanderlann Peak to North Ridge on E end of Attu Island, Aleutian Islands; 52° 53' 10" N, 173° 16' 30" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II; shown on an AMS map published in 1948.

Pies Islands: islands, see Pye Islands.

Pietmiektaligmiut: settlement, see Pikmiktalik.

Pietmiektalik River: stream, see Pikmiktalik River.

Pigeon Island: island, 0.5 miles long, near W end of Port Real Marina, between Baker and Lulu Islands, Alexander Archipelago; 55° 26' N, 133° 34' W; (map 4). Variant: Isla Palomas, Ostrov de Palomas, Ysla de Palomas. Translation of the name "Ysla de Palomas" given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle.

Pigoo Bluff: bluff, see Pingu Bluff.

Pigot Bay: estuary, extends SE 3 miles to Port Wells, 12 miles NE of Whittier, Chugach Mountains; 60° 49' 40" N, 148° 19' 30" W; BGN 1910; (map 63). Variant: Gannett Bay. Local name reported in 1908 by Grant and Higgins (1910, pls. 1, 2), USGS. Name derived from nearby Point Pigot.

Pigot Glacier: glacier, trends SE 4 miles to its terminus 3 miles NW of head of Pigot Bay, 10 miles NE of Whittier, Chugach Mountains; 60° 53' 00" N, 148° 27' 15" W; BGN 1910; (map

63). Local name reported in 1908 by Grant and Higgins (1910, pls. 1, 2), USGS. Name derived from nearby Point Pigot.

Pigot, Point: point of land, between Pigot Bay and Passage Canal, 12 miles NE of Whittier, Chugach Mountains; 60° 48' 15" N, 148° 20' 45" W; (map 63). Variant: Pigot Point. Named by Capt. George Vancouver, RN, in 1794 "probably in honor of Robert Pigot, one of the midshipmen on the [English vessel] Chatham" (Wagner, 1937, p. 402).

Piiniksaam Kuuna: stream, see Shorty River.

Pik Dunes: dunes, surrounding several small lakes, 17 miles S of Teshekpuk Lake, Arctic Plain; 70° 14' N, 153° 09' W; (map 148). Named by Orth in 1956. It is an Eskimo word (piq) meaning "dish (or pot)," descriptive of the lakes among the dunes.

Pik, Mys: point of land, see Peak Point.

Pik, Mys: point of land, see Upright, Cape.

Pikchowik River: stream, flows SE 12 miles to Nuyakuk River, 66 miles NE of Dillingham Bristol Bay Lowland; 59° 56' N, 157° 40' W; (map 52). Eskimo name reported in 1935 by BIA.

Pike Creek: stream, flows N 1 mile to Kuzitrin River at Brockways Bar 4 miles SSW of junction of Kougarok River, 17 miles W of Mount Bendeleben, Seward Peninsula Highlands; 65° 12' 35" N, 164° 39' 00" W; (map 110). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Pike Creek: stream, flows NE 2 miles to Lake Nerka, 40 miles NW of Dillingham, Kilbuck-Kuskokwim Mountains; 59° 33' N, 159° 02' W; (map 53). Local name reported in 1954 by USGS.

Pike Lake: lake, 0.4 miles long, 0.5 miles S of Beaver Lake, between Dome and Wolf Creeks 28 miles NNW of Birches, Kokrines-Hodzana Highlands; 65° 28' 15 " N, 154° 04' 00" W; (map 107). Local name obtained in 1952 by USGS topographers.

Pike Lakes: lakes, in a group 2 miles long, 2.5 miles E of Snug Harbor and 22 miles SE of Iliamna, Aleutian Range; 59° 30' 30" N, 154° 31' 30" W; (map 51). Local name published in 1954 by USGS

Pike Slough: stream, anabranch of Yukon River flows 4.5 miles along S side of Youngs Island, 4 miles SW of Birches, Nowitna Lowland; 65° 04' 30" N 153° 42' 00" W; (map 107). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by the Department of the Interior.

Pike Trap Creek: stream, flows SE 8 miles to Kaiyuh Slough, 1 mile W of The Forks, 20 miles SE of Nulato, Koyukuk Lowland; 64° 26' N, 157° . 59' W; (map 97). Variant: Gutqklaqatna. Appears to be a translation of an Indian name; reported in 1935 by Frederica de Laguna, BAE.

Pikmikhtalik, Reka: stream, see Pikmikhtalik River.

Pikhmikhtalik: settlement, see Pikmiktalik.

Pikhta: locality, see Pikta.

Pikmiktalik River: stream, flows N 45 miles to Norton Sound, 22 miles SW of St. Michael, Yukon-Kuskokwim Delta; 63° 16' 30" N, 162° 36' 00" W; (map 92). Variant: Pietmiektalik River, Reka Pikhmikhtalik, Reka Pytmykhtalik. Eskimo name recorded as "R[eka] Pikhmikhtalik" in 1842-44 by Lt. L. A. Zagoskin IRN.

Pikmiktalik River: stream, heads 6 miles S of Kukaklik Lake at 61° 32' N, 160° 31' W, flows SW 180 miles to Johnson River, 16 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 45' 45" N, 162° 14' 30" W; BGN 1965; (map 58). Variant: Pikwikralik River, Tundra River, Ptmichtalu River. Eskimo name reported in 1949 by USC&GS.

Pikmiktalik: settlement, pop. 14 (1940), on S bank of Pikmiktalik River, 8 miles E of Point Romanof and 23 miles SW of St. Michael, Yukon-Kuskokwim Delta; 63° 14' 15" N, 162° 35' 15" W; (map 92). Variant: Pietmiektaligmiut, Pikhmikhtalik, Pikniktalik. Small Eskimo village mentioned in 1842-44 by Lt. L. A. Zagoskin, IRN, who spelled the name "Pikhmikhtalik." The Russian Hydrog. Dept. spelled it "Piemiektaligmiut" in 1852 on Chart 1455. Lt. Zagoskin recorded a population here of 45 Eskimos in 4 houses. The 1880 Census listed a population of 10.

Pikniktalik: settlement, see Pikmiktalik.

Pikonik Mound: pingo, elev. 25 ft., between Colville and Miluveach Rivers, 9 miles S of Harrison Bay, Arctic Plain; 70° 21' 35" N, 150° 35' 10" W; (map 149). Eskimo name reported in 1951 by USC&GS to mean "lookout place." It may be from the word "pingogneq" meaning "high[?] hill."

Pikroka Creek: stream, flows NE 30 miles to the Meade River, 11 miles SE of village of Meade River, Arctic Plain; 70° 19' 30" N, 157° 10' 30" W; (map 147). Eskimo name obtained in 1956 at Wainwright by T. E. Taylor, USGS.

Piksiksak Creek: stream, flows N 13 miles to Meade River, 27 miles SE of village of Meade River, Arctic Plain; 70° 06' N, 157° 03' W; (map 147). Variant: Pisiksagiakvik River, Pisiksak River. Eskimo name shown on 1923 fieldsheet by E. C. Guerin, USGS, as "Pisiksagiakvik River."

Pikta: locality, on Seward Peninsula, at or near Tin City, SE of Cape Prince of Wales, Kotzebue- Kobuk Lowland; 65° 34' N, 167° 57' W; (map 111). Variant: Pikhta. Former Eskimo village or camp published as "Pikhta" in 1850 on Lt. L. A. Zagoskin's map.

Pikwikralik River: stream, see Pikmiktalik River.

Pilcher Mountain Creek: stream, flows W 2.8 miles to Poltes Slough, 1.5 miles N of Marshall, Yukon-Kuskokwim Delta; 61° 54' 10" N, 162° 06' 10" W; (map 74). Miners' name shown on a fieldsheet by R. H. Sargent, USGS, in 1916.

Pilcher Mountain: mountain, 1,948 ft., 4 miles NE of Marshall, Nulato Hills; 61° 55' 45" N, 161° 59' 30" W; (map 73). Local name reported by Harrington (1918, p. 11), USGS, in 1916; named for G. M. Pilcher, a miner who was elected local claim recorder October 25, 1913.

Pile Bay Village: village, pop. 48, on E shore of Iliamna Lake at head of Pile Bay, 36 miles ESE of Nondalton, Aleutian Range; 59° 46' 50" N, 143° 53' 00" W; (map 51). Local name derived from Pile Bay; published in 1952 by USGS.

Pile Bay: estuary, 16 miles long, on the E end of Iliamna Lake, 36 miles NW of Augustine Island, Aleutian Range; 59° 41' N, 154° 12' W; BGN 1910; (map 51). Variant: Spile Bay. Name shown as Spile Bay in 1906 by J. W. Walker on a manuscript map but shortened by local usage to Pile Bay. Name published by Martin and Katz (1912, pl. 1), USGS.

Pile River: stream, heads at a glacier at 60° 05' N, 153° 25' W, and flows SW 30 miles to Pile Bay, 35 miles NW of Augustine Island, Aleutian Range; 59° 47' 30" N, 153° 54' 35" W; BGN 1910; (map 51). Variant: Spile River, Syooknook River. Name reported as Syooknook River by W. E. Smith, Chief Engineer, Alaska Short Line Railway in 1907, but local usage favored Pile River because the stream flows to Pile Bay. The name published by Martin and Katz (1912, pl. 1), USGS.

Piledriver Cove: bay, 0.5 miles across, on Kuiu Island, on N shore of Tebenkof Bay, Alexander Archipelago; 56° 32' 30", N, 134° 11' 30" W; BGN 1954; (map 5). Named in 1929 by USC&GS for "a number of dolphins [buoys] placed in this cove as moorings for pile drivers."

Piledriver Cove: cove, 0.3 miles across, on W coast of Admiralty Island, 20 miles S of Juneau, Alexander Archipelago; 58° 05' 00" N, 134° 45' 15" W; (map 11). Local name published in 1950 by USGS.

Piledriver Roadhouse: locality, at the S end of Piledriver Slough at the crossing of the Fairbanks-Valdez Trail, 30 miles SE of Fairbanks, Tanana Lowland; 64° 36' N, 147° 05' W, (map 100). Variant: Thirtymile Roadhouse. Former roadhouse originally referred to as "Thirtymile Roadhouse" but after 1912 it was generally called "Piledriver" (Capps 1912, pl. 1).

Piledriver Rock: rock, on N coast of Hawkins Island, at entrance to Whiskey Cove, 13 miles W of Cordova, Chugach Mountains; 60° 32' 30" N, 146° 06' 45" W; (map 64). Name published in 1950 by USGS.

Piledriver Slough: stream, anabranch, flows NW 16 miles to Tanana River, 15 miles SE of Fairbanks, Tanana Lowland; 64° 43' 15" N, 147° 19' 20" W; (map 100). Variant: Chena Slough, Fairbanks Slough. This stream was originally considered part of Chena Slough, but called "Piledriver" about 1916 by USC&GS.

Pilgrim River: stream, heads in Salmon Lake, SE of Kigluaik Mountains, flows NE then W 55 miles to Kuzitrin River, 34 miles SE of Teller, Seward Peninsula Highlands; 65° 09' 25" N, 165° 13' 10" W; BGN 1965; (map 111). Variant: Kruzgamapa River, Kruzgamapah River, Kruzgamepa River. Prospectors' name shown on a precinct map of Seward Peninsula gold fields by Monroe and Hutchins, corrected up to June 1903 by Arthur Gibson. The Eskimo name "Kruzgamepa" was reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Pilgrim Springs: locality, on left bank of Pilgrim River, 13 miles NE of Salmon Lake and 25 miles SW of Mount Bendeleben, Seward Peninsula Highlands; 65° 06' N, 164° 55' W; (map 110). Variant: Kruzgamepa Hot Springs. Mineral springs and site of a resort. In the early days of gold mining on Seward Peninsula, about 1900, the property was known as "Kruzgamepa Hot Springs" and "was kept up as a resort, and was often visited by parties from Nome and other mining centers of the region; but the roadhouse and saloon building was burned in 1908 * * *" (Waring, 1917, p. 72). A mining town called "Pilgrim Springs" grew up here and "was active from 1923 to 1941. In 1939 there were 60 Eskimos there who have since moved to the Nome vicinity to work on defense projects and mining operations" (Balcom, 1965, p. 27). The Pilgrim Springs Post Office was established in 1924 and discontinued in 1941 (Ricks, 1965, p. 51).

Piling Point: point of land, on Stephens Passage, on NE coast of Mansfield Peninsula, 1.6 miles NE of Lone Mountain, and 14 miles W of Juneau, Alexander Archipelago; 58° 19' 15" N, 134° 48' 10" W; (map 11). Local name published in 1962 by USGS.

Pillar Cape: point of land, 27 miles NE of Afognak, on SE coast of Afognak Island, N of Kodiak Island; 58° 09' 00" N, 152° 06' 40" W; (map 43). Variant: Cape Kekur, Cape Whitsunday, Pillar Point. Translation by USC&GS of the name "M[ys] Kyekur," published by the Russian American Company in 1849. On Sunday June 7, 1778 Capt. Cook (1785, p. 404), RN, reported " * This promontory * f * was named, after the day, Cape Whitsunday. A large bay [Izhut Bay], which lies to the West of it, obtained the name of Whitsunday Bay * * *." See Kekur Island.

Pillar Cape: point of land, see Bold Cape.

Pillar Cape: point of land, see Kekur Point.

Pillar Creek: stream, flows NE 3 miles to Monashka Bay, 2 miles NW of Kodiak, Kodiak Island; 57° 25' 30" N, 152° 48' 55" W; (map 34). Name derived from Pillar Mountain and published in 1949 by USGS.

Pillar Mountain: mountain, 1,270 ft., 1 mile W of Kodiak, Kodiak Island; 57° 47' 20" N, 152° 26' 10" W; (map 34). Descriptive name given in 1869 by USC&GS, because of a note on map 16 published by G. A. Sarichev in 1826; "Na Gory stolb vozvyshen ot poverkhnosti morya na 150 Sazhen," meaning "on this mountain a pillar rises 150 fathoms above sea level."

Pillar Point: point of land, at mouth of Shearwater Bay, in Kiliuda Bay, on SE coast of Kodiak Island; 57° 19' 15" N, 152° 54' 30" W; (map 34). Descriptive name published in 1912 by USC&GS.

Pillar Point: point of land, see Pillar Cape.

Pillar Rock: rock, elev. 119 ft., in Bering Sea, 8.3 miles W of Wolf Point, on NW coast of Kiska Island, Aleutian Islands; 52° 07' 20" N, 177° 22' 00" E; BGN 1937; (map 14). Variant: Rocher en form de Colonne, Stolb, Viesokie Kamen. This is a translation of a descriptive name first reported in 1827 as "Rockier-en-form-de Colonne," meaning "Rock in the form of a Column," by Adm. A. J. von Krusenstern commander of the Russian American Company ship

Nadezhda. The Russians called it “Vysokiy kamen” meaning “High Rock” on the 1848 Russian Hydrog. Dept. Chart 1400, and “Stolb” meaning “Pillar” (Tebenkov, 1852, map 29).

Pillar: rock, see Stripe Rock.

Pillars, Bay of: bay, 1.5 miles across, on W coast of Kuiu Island, Alexander Archipelago; 56° 35' N, 134° 15' W; BGN 1933; (map 5). Variant: South Arm Bay of Pillars. Local descriptive name published by W. H. Dall, USC&GS, in 1883 Coast Pilot (p. 120); given because of “the abundance of rocky islands and pillars within it.”

Pillars, The: rocks, in Pacific Ocean, 3.5 miles E of Thumb Point on E coast of Umnak Island, Aleutian Islands; 53° 11' 30" N, 168° 14' 00" W; (map 22). Variant: Stolby. Translation of Russian name published by Capt. Tebenkov (1852, map 25), IRN, as “Stolby,” meaning “Pillars.”

Pillbox Rock: rock, W side of Gusty Bay, on NE coast of Tanaga Island, Aleutian Islands; 51° 51' 20" N, 177° 52' 15" W; (map 17). Name published by USC&GS in 1956 on Chart 9145.

Pillsbury Point: point of land, on N shore of Kootznahoo Inlet, 1.8 miles NE of Angoon, on W central Admiralty Island, Alexander Archipelago; 57° 31' 10" N, 134° 32' 30" W; (map 9). Named in 1869 by Comdr. R. W. Meade, USN, for Lt. Comdr. John Elliott Pillsbury, 1846-1919, USN, a member of his party. Pillsbury served one year in the Hydrographic Office and ten years in the Coast Survey Service. He was made rear admiral in 1908.

Pillsbury, Mount: peak, 5,790 ft., SE of McGinnis Glacier terminus, 21 miles SE of Mount Hayes, Alaska Range; 63° 34' 40" N, 146° 02' 40" W; BGN 1957; (map 86). Named in 1955 by the U.S. Army for Gen. George B. Pillsbury, 1878-1951, of the U.S. Army Corps of Engineers, who surveyed the original trail which later became the Richardson Highway.

Pilly Fork: stream, flows N, E, and NE 15 miles to Nuka River, 50 miles NE of Misheguk Mountain, Arctic Slope; 68° 49' N, 159° 36' W; (map 131). Name published by USGS in 1962.

Pilot Bluff: bluff, overlooks junction of Captain and Pilot Creeks in Chatanika River valley, 22 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 08' N, 147° 25' W; (map 105). Local name published by USGS in the 1950's.

Pilot Cabin: settlement, see Pilot Village.

Pilot Creek: stream, flows NW 5 miles to Chatanika River, 22 miles NF of Fairbanks, Yukon-Tanana Highlands; 65° 08' 40" N, 147° 25' 30" W; (map 105). Named by prospectors; reported in 1903 by T. G. Gerdine (Prindle, 1905, pl. 13), USGS.

Pilot Creek: stream, flows SE 9.5 miles to Nowitna River, 57 miles N of Medfra, Kilbuck-Kuskokwim Mountains; 63° 56' N, 154° 43' W; (map 89). Local name reported in 1915 by Mertie and Harrington (1924, pl. 3), USGS.

Pilot Harbor: cove, 0.7 miles wide, on shore of North Arm Nuka Bay, on SE coast of Kenai Peninsula, 36 miles ESE of Homer, Chugach Mountains; 59° 35' N, 150° 30' W; BGN 1908; (map 50). Named by USC&GS in 1908.

Pilot Knob: mountain, 1,845 ft., 6.5 miles SE of Spectacle Lake and 46 miles SW of Augustine Island, Aleutian Range; 59° 10' 15" N, 154° 37' 30" W; (map 51). Name published by K. F. Mather (in Brooks and others, 1925, pl. 3), USGS. It was probably reported by R. H. Sargent, USGS, in 1923.

Pilot Mountain Slough: stream, anabranch, flows NW 13 miles to Yukon River, 21 miles NE of Nulato, Koyukuk Lowland; 64° 48' N, 157° 25' W; (map 97). Local name reported in 1954 by USGS.

Pilot Mountain: mountain, 1,029 ft., 23 miles E of Nulato and 5 miles S of Yukon River, Koyukuk Lowland; 64° 45' N, 157° 19' W; (map 97). Variant: Little Mountain. Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers" published by U.S. Dept. of Interior. Lt. H. T. Allen, USA, in 1885 called it "Little Mountain."

Pilot Peak: mountain, 8,670 ft., 6 miles SE of Mount Haley and 27 miles NW of Valdez, Chugach Mountains; 61° 20' 50" N, 146° 54' 05" W; BGN 1965; (map 68). Named in 1955 by Nielsen (1963, p. 135) "because it is a very distinctive landmark that helped guide us back to camp * * *."

Pilot Point: point of land, SE tip of Hemlock Island, off W coast of Annette Island, Alexander Archipelago; 55° 09' 30" N, 131° 33' 20" W; (map 3). Named in 1896 by USC&GS.

Pilot Point: village, on E shore of Ugashik Bay, on N coast of Alaska Peninsula, 7 miles NW of Ugashik, Bristol Bay Lowland; 57° 33' 50" N, 157° 34' 45" W; (map 36). Variant: Pilot Station. Aleut and Eskimo village, with a cannery; reported in 1900 by Lt. Comdr. J. F. Moser, USN, as "Pilot Station," named for the Ugashik River pilots stationed there. The name was changed in 1933 when the Pilot Point Post Office was established. Of 120 Aleuts, one family survived the flu epidemic of 1918; the village was repopulated by Eskimo in 1923. Population was 114 in 1939; 76 in 1963.

Pilot Rock: rock, in Blying Sound, 3.2 miles NE of Aialik Cape, 28 miles S of Seward, Chugach Mountains; 59° 44' 30" N, 149° 28' W; BGN 1906; (map 49). Variant: Light House Rock. Named in June 1906 by BGN.

Pilot Station: village, pop. 219, on right bank of Yukon River, 2 miles NE of Hills Island and 26 miles W of Marshall, Yukon-Kuskokwim Delta; 61° 56' 20" N, 162° 52' 30" W; (map 74). Variant: Potiliuk. Local name, probably given by riverboat pilots, shown on a fieldsheet by R. H. Sargent, USGS, dated 1916. The present location of the site name has been moved about 0.3 miles to where Sargent shows a village called Potiliuk.

Pilot Station: village, see Pilot Point.

Pilot Village: settlement, on right bank of Yukon River, 18 miles NW of Marshall, Yukon-Kuskokwim Delta; 62° 00' 45" N, 162° 35' 15" W; (map 77). Variant: Pilot Cabin. Indian village or camp reported by USGS in 1929.

Pilotos, Islas de los: islands. name shown on a map by Don Juan de la Bodega y Quadra probably representing islands he saw July 7 and 8, 1788, which may have been some of the Shumagin Islands (Wagner, 1937, p. 484).

Pilzburg: city, see Juneau.

Pimenta Mountain: mountain, 1,900 ft., on E coast of Baker Island, Alexander Archipelago; 55° 21' 30" N, 133° 32' 00" W; BGN 1923; (map 4). Variant: Pimento Mountain, Pimienta Mountain. Spanish word meaning "pepper" given in 1923 by USC&GS; derived from Pepper Point.

Pimento Mountain: mountain, see Pimenta Mountain.

Pimienta Mountain: mountain, see Pimenta Mountain.

Pimienta, Punta de la: point of land, see Pepper Point.

Pimiyenta, Mys de la: point of land, see Pepper Point.

Pimute: settlement, see Paimiut.

Pin Peak: mountain, 1,370 ft., NW Coronation Island, Alexander Archipelago; 55° 54' 50" N, 133° 19' 50" W; (map 4) Descriptive name given in 1886 by Lt. Comdr. A. S. Snow, USN.

Pin Peak: mountain, 3,806 ft., near center of Prince of Wales Island, 9.5 miles E of Klawock, Alexander Archipelago; 55° 32' 15" N, 132° 50' 30" W; (map 4). Local name recorded in 1949 by USGS.

Pin Peaks: peaks, 5,730 ft., 2 miles SE of Church Peak, 18 miles NE of Petersburg, Coast Mountains; 56° 55' 25" N, 132° 33' 30" W; (map 6). Descriptive name given by Lt. Comdr. C. M. Thomas, USN, in 1887.

Pin Point: point of land, on Liesnoi Island, at mouth of Eliza Harbor, on Admiralty Island, 26 miles SE of Angoon, Alexander Archipelago; 57° 09' 30" N, 134° 15' 45" W; (map 9). Descriptive name given in 1889 by Lt. Comdr. H. B. Mansfield, USN, and published by USC&GS in the 1891 Coast Pilot (p. 142). Off the point is "a projecting ledge about 100 yards in length" from which the name is derived.

Pin Rock: rock, on N coast of Rat Island, Aleutian Islands; 51° 49' 20" N, 178° 18' 50" E; (map 15). Name shown on the 1951 USGS map.

Pina-ghiack, Ile: island, see Ninagiak Island.

Pinacle: island, see Pinnacle Island.

Pinaghat Cliff: cliff, E of Savoonga, N coast of St. Lawrence Island; 63° 42' N, 170° 28' W; (map 93). Eskimo name reported in 1932 by O. W. Geist, Univ. of Alaska.

Pinal, Punta del: point of land, near south point of San Fernando Island, Bucareli Bay, Alexander Archipelago. Spanish name meaning "point of the pine grove" given by the 1779 Don Ignacio Arteaga expedition.

Pinauk River: stream, see Pinguk River.

Pincer Point: point of land, 2 miles NE of Round Point, on W central Kanaga Island, Aleutian Islands; 51° 44' 25" N, 177° 30' 30" W; (map 17). Descriptive name published by USC&GS in 1956 on Chart 9145. This name was probably given because of the point's claw-like appearance.

Pincher Creek: stream, on Kenai Peninsula, flows N 5 miles to Chickaloon Bay, 10 miles SSE of Point Possession and 22 miles SSW of Anchorage, Cook Inlet Lowland; 60° 55' 30" N, 150° 11' 30" W; (map 62). Local name published by D. H. Sleem on his map of Central Alaska dated 1910.

Pine Creek: stream, flows E to W shore of Red Bay, between Goose and Duck Creeks, on N coast of Prince of Wales Island, Alexander Archipelago; 56° 18' 15" N, 133° 20' 45" W; (map 6). Named in 1886 by Lt. J. M. Helm, USN, for charting purposes; name published in 1837 by USC&GS on Chart 706.

Pine Creek: stream, flows N 4 miles to Beaver Creek 4 miles E of that stream's mouth, 46 miles NW of Big Delta, Yukon-Tanana Highlands; 64° 45' 55" N, 146° 19' 50" W; (map 101) Local name reported in 1958 by USGS.

Pine Creek: stream, flows N 4.5 miles to Sumner Strait, on N coast of Prince of Wales Island, Alexander Archipelago; 56° 19' 30" N, 133° 16' 35" W; (map 6) Local name published in 1943 by USC&GS

Pine Creek: stream, flows SE 3.4 miles to lagoon on Norton Sound, 4 miles E of Solomon, Seward Peninsula Highlands; 64° 34' N, 164° 18' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Pine Creek: stream, see Camp Creek.

Pine Creek: stream, see Foster Creek.

Pine Island: island, 1,250 ft. long, near E end of Port Real Marina, on SE coast of Lulu Island, Alexander Archipelago; 55° 26' 15" N, 133° 27' 10" W; (map 4). Variant: Isla del Pino, Ostrov de Pino, Ysla del Pino. Translation of the name "Ysla del Pino" given in 1779 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle.

Pine Island: island, see Spruce Island.

Pine Lake: lake, 0.3 miles across, 1.5 miles E of S tip of Hasselborg Lake, on E central Admiralty Island, Alexander Archipelago; 57° 39' 20" N, 134° 10' 15" W; (map 9) Local name reported in 1951 by USGS.

Pine Lake: lake, 0.5 miles long, on NW coast of Revillagigedo Island, 1 mile SE of Curlew Point, Alexander Archipelago; 55° 54' N, 131° 34' W; (map 3). Local name reported in 1955 by USGS.

Pine Point: point of land, E point of entrance to Red Bay, on N coast of Prince of Wales Island, Alexander Archipelago; 56° 20' 05" N, 133° 16' 15" W; (map 6) Named in 1886 by Lt. J. M. Helm, USN, for charting purposes; name published in 1887 on USC&GS Chart 706.

Pineda, Punta de: point of land, "on east side of Yakutat Bay in about 59° 44' N." Named by Capt. Alessandro Malaspina about 1791 "probably in honor of Arcadio Pineda" (Wagner, 1937, p. 484).

Pinekl: island, see Pinnacle Island.

Pinelak: bay, see Punelok Bay.

Ping-ing-a-look: stream, see Pingaluk River.

Pingaloorak: bluff, see Pingalurak Bluff.

Pingaluk River: stream, flows SW 22 miles to Alatna River, 28 miles SE of Survey Pass, Brooks Range; 67° 28' N, 153° 47' W; BGN 1912; (map 125). Variant: Ping-ing-a-look River, Pingingaluk River, Ringingalook River. Eskimo name reported by Lt. Stoney (1900, map), USN, in 1886 as "Ping-ing-a-look" but submitted by P. S. Smith, USGS, as "Pingaluk" in 1913. The name may mean "bad hill."

Pingaluligit Mountain: mountain, 3,120 ft., 24 miles SW of junction of Colville and Killik Rivers, Brooks Range; 68° 10' N, 154° 08' W; (map 133). Eskimo name meaning "humpy," reported in 1956 by Orth.

Pingalurak Bluff: bluff, on right bank of Omikviorok River, 1 mile NE of Ipiavik Lagoon and 11 miles SE of Kivalina, Kotzebue-Kobuk Lowland; 67° 39' N, 164° 09' W; (map 128). Variant: Pingaloorak, Pingaluuzaq. Eskimo name reported in 1966 by E. S. Burch.

Pingaluuzaq: bluff, see Pingalurak Bluff.

Pingarorok Hill: pingo, see Pingororok Hill.

Pingasagrook: locality, see Pingasagruk.

Pingasagruk: locality, site of an Eskimo village, on barrier bar between the Chukchi Sea and W end of Peard Bay, 27 miles NE of Wainwright, Arctic Plain, 70° 53' N, 159° 06' W; (map 146). Variant: Pingasagrook, Pingashuyaruk. Pingasagruk was "a very large old settlement that has long been abandoned * * *. According to the natives, this place was called "Pingashugaruk" and * * * several hundred people had lived there * * *." (Smith and Mertie, 1930, p. 105).

Pingashuyaruk: locality, see Pingasagruk

Pingau Hill: pingo, 43 ft., at NW end of Kivalina Lagoon, 10 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 50' N, 164° 47' W; (map 128). Variant: Pingo, Pingow. Eskimo name meaning “mound” reported in 1966 by E. S. Burch.

Pingeyiksak River: stream, see Shorty River.

Pingingaluk River: stream, see Pingaluk River.

Pingishugumute: locality, see Pingoshugarun.

Pingneyiksak: stream, see Sapumik Creek.

Pingo Lake: lake, 1.5 miles long, 2 miles N of Philacte Bay and 95 miles W of Bethel, Yukon-Kuskokwim Delta; 60° 53' N, 164° 33' W; (map 58). Name used by personnel of Clarence Rhode National Wildlife Range; reported in 1965. The name means “hill” or “mound” in Eskimo. The word has become a landform term referring to mounds formed by frost or freezing action above the permafrost.

Pingo: bluff, see Pingu Bluff.

Pingo: pingo, see Pingau Hill.

Pingoaceok: lake, see Pingoakeok.

Pingoakeok Lake: lake, 2 miles long, 7 miles SSE of Barrow, Arctic Plain; 71° 12' N, 156° 40' W; (map 153). Variant: Pingoaceok. Eskimo name that refers in meaning to a “pingo” or “mound,” published by R. F. Spencer (1959, map 2).

Pingok Island: barrier island, 6 miles long, largest of Jones Islands, on Beaufort Sea coast, 7 miles NW of Beechey Point, Arctic Plain; 70° 31' 10" N, 149° 31' 30" W; (map 150). Variant: Leavitt Island. Eskimo name reported to mean “mound” by Leffingwell (1919, p. 97) who originally named this “Leavitt Island, * * * the largest of the Jones Islands, * * * after Capt. George Leavitt of the whaling fleet.” The name, Leavitt Island, is now relegated to a small island just W of Pingok Island.

Pingokraluk Lagoon: lagoon, 4 miles long, SE of Siku Lagoon and 3.5 miles W of Demarcation Point, Arctic Plain; 69° 42' N, 141° 28' W; (map 138). Eskimo name recorded by USC&GS in 1952. It takes its name from the nearby point of land.

Pingokraluk Point: point of land, on W shore of Pingokraluk Lagoon, 4.5 miles W of Demarcation Point, Arctic Plain; 69° 42' 30" N, 141° 28' 30" W; (map 138). Eskimo name recorded on Barter Island in 1952 by USC&GS and reported to refer in meaning to a “pingo” located at this point.

Pingolee Island: barrier island, in Plover Islands, Arctic Plain; (map 153). Eskimo name, probably more correctly rendered “Pingolik” and meaning “having mound.” The name first appears on Brit. Adm. Chart 593, 1827-55, but the island has not been identified on present-day maps.

Pingoo: bluff, see Pingu Bluff.

Pingookoosik: locality, 2 miles W of Taphook Point, on Pungokosit Spit, St. Lawrence Island; 63° 37' N, 171° 17' W; (map 93). This is the site of an Eskimo camp or village. The name means “always a mound” [pungokosik].

Pingootikook Bay: bay, 4.5 miles wide, between Southeast Cape and Kialegik Point, St. Lawrence Island; 62° 58' N, 169° 36' W; BGN 1951. Eskimo name recommended by the Savoonga village council and reported in 1949 by Maj. H. B. Allen, USAF.

Pingorarok Hill: pingo, 107 ft., E of Kasegaluk Lagoon, 24 miles SW of Wainwright, Arctic Plain; 70° 22' N, 160° 43' W; (map 146). Variant: Pingororok Hill. Eskimo name reported by USGS in 1923. Pingo means “hill” or “mound” and thus the name may mean “many mounds.”

Pingorarok Pass: water passage, in barrier bar between Chukchi Sea and Kasegaluk Lagoon, 25 miles SW of Wainwright, Arctic Plain; 70° 22' N, 160° 49' W; (map 146). Name reported by USC&GS in 1949; probably derived from nearby Pingorarok Hill.

Pingoshugarun: locality, on Chukchi Sea coast, on one of Seahorse Islands, E of Point Franklin, Arctic Plain; 70° 53' N, 158° 42' W; (map 147). Variant: Pingishugumute, Pingosugrumiut, Pingosugtuk, Pinguishugamiut, Pinguishuk, Pinoshuragin, Tingo Shugarun. Former Eskimo village or camp name meaning “big mound [pingosugtuk]” or “pingosugrumiut,” meaning “people of the big mound,” shown on Brit. Adm. Chart 593 1827-53. Ivan Petroff's 10th Census of 1880 lists the name as “Pinoshuragin,” population 29.

Pingosugrumiut: locality, see Pingoshugarun.

Pingosugtuk: locality, see Pingoshugarun.

Pingow: pingo, see Pingau Hill.

Pingpong Mountain: mountain, 4,374 ft., on N bank of White River, 5 miles S of Rock Lake and 56 miles NE of McCarthy, Alaska Range; 61° 44' N, 141° 20' W; (map 67). Local name recorded in 1908 on a fieldsheet by S. R. Capps, USGS.

Pingston Creek: stream, heads at glacier, flows NW 40 miles to Tonzona River 20 miles SE of its junction with East Fork Kuskokwim River, 47 miles SE of Medfra, Kuskokwim Lowland; 63° 01' N, 153° 14' W; BGN 1964; (map 89). Local name reported in 1958 by USGS.

Pingu Bluff: bluff, 40 ft., on barrier bar between Chukchi Sea and Marryat Inlet, 6 miles NE of village of Point Hope, Arctic Slope; 68° 23' 35" N, 166° 33' 30" W; (map 129). Variant: Pigoo Bluff, Pingo, Pingoo. Eskimo name meaning “hill” reported in 1950 by USC&GS as “Pingoo.”

Pingucheak: barrier bar, 40 ft., between Chukchi Sea and Aiautak Lagoon, 15 miles SE of village of Point Hope, Arctic Slope; 68° 17' N, 166° 12' W; (map 129). Variant: Pinguçek. Eskimo name meaning “little hill” reported in 1956 by Orth.

Pinguçek: barrier bar, see Pingucheak.

Pinguishugamiut: locality, see Pingoshugarun.

Pinguishuk: locality, see Pingoshugarun.

Pinguk River: stream, on Seward Peninsula, flows NW 34 miles to Arctic Lagoon, 47 miles NW of Teller, Kotzebue-Kobuk Lowland; 65° 51' N, 167° 10' W; (map 111). Variant: Pinauk River. Eskimo name meaning "hill" obtained in 1901 by T. G. Gerdine, USGS.

Pingurbek Island: island, 8 miles long, in Etohin Strait, 5 miles W of Cape Avinof, 10 miles SW of Kipnuk, Yukon-Kuskokwim Delta; 59° 50' N, 164° 12' W; (map 54). Eskimo name reported in 1950 by USC&GS.

Pinik Islands: islands, see Punut Islands.

Pink Bluff: bluff, 1,000 ft., extends 2 miles along S bank of Salmon Fork Black River, 30 miles NW of Midnight Hill, Porcupine Plateau; 66° 27' N, 141° 33' W; (map 120). Local descriptive name; reported in 1956 by R. C. Foley, USGS.

Pinkidulia Cove: cove, 0.5 miles wide, on W shore of Akumwarvik Bay, 35 miles SW of Augustine Island, Aleutian Range; 59° 04' 30" N, 154° 11' 00" W; (map 51). Native name reported by R. H. Sargent, USGS, in 1923 and published by K. F. Mather (in Brooks and others, 1925, pl. 3), USGS.

Pinnacle Cape: point of land, see Kekurnoi, Cape.

Pinnacle Creek: stream, heads in Pinnacle Gulch, on Ear Mountain; flows SE 3 miles to Crosby Creek, Seward Peninsula Highlands; 65° 53' 25" N, 166° 10' 00" W; BGN 1954; (map 111). Named in 1954 relative to Pinnacle Gulch.

Pinnacle Glacier: glacier, heads at Pinnacle Pass, at N end of Hitchcock Hills, trends 3 miles W to Seward Glacier, 48 miles NW of Yakutat, St. Elias Mountains; 60° 09' N, 140° 23' W; (map 66). Name derived from Pinnacle Pass at which the glacier heads.

Pinnacle Gulch: ravine, heads between Ears Peak and East Peak, on Ear Mountain; trends SSE 1 mile along Pinnacle Creek, Seward Peninsula Highlands; 65° 55' N, 166° 12' W; BGN 1954; (map 111). So named by a USGS field party "because of pinnacle rock outcrops."

Pinnacle Island: island, 1.5 miles long, in Bering Sea, 10 miles S of St. Matthew Island; 60° 12' N, 172° 46' W; (map 56). Variant: Ile de Tours, Iles des Fleches, Ostrov Pyenikl, Ostrov Pinyekl, Penikl, Pinacle, Pinekl. Named by Capt. Cook (1785, p. 491), RN, on September 23, 1778, who wrote "a small island, whose elevated summit terminates in several pinnacle rocks." Capt. Lutke (1836, p. 342), IRN, translated this to "Ile de Tours [towers]" or "Ile des Fleches [spires]." The Russians transliterated the name to O[strov] Pyenikl (Sarichev, 1826, map 3) and O[strov] Pinekl (Tebenkov, 1852, map 20).

Pinnacle Mountain: mountain, 2,268 ft., 16 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 51' N, 136° 20' W; (map 9) Descriptive name published in 1928 by USC&GS on Chart 8258. "So named because of its spire-like shape."

Pinnacle Mountain: mountain, 2,600 ft., on Alaska Peninsula, 2 miles N of Meshik Lake and 27 miles W of Cape Kunmik, Aleutian Range; 56° 49' N, 157° 55' W; (map 31). Variant: Sugar Loaf. Local descriptive name reported in 1923 by R. H. Sargent, USGS; the peak has been used as a reference point in locating oil claims.

Pinnacle Mountain: mountain, 4,541 ft., 7 miles E of Sutton and 16 miles NE of Palmer, Chugach Mountains; 61° 42' 30" N, 148° 40' 05" W; (map 69) Local name reported in 1905 by G. C. Martin (1906, pl. 1), USGS.

Pinnacle Mountain: mountain, 5,350 ft., on Kenai Peninsula, 4 miles S of Sargent Icefield, 28 miles W of Seward, Chugach Mountains; 60° 06' 30" N, 148° 38' 15" W; (map 63). Local name reported in 1951 by USGS.

Pinnacle Pass Cliffs: ridge, see Pinnacle Pass Hills.

Pinnacle Pass Hills: ridge, 5,520 ft., extends 9 miles E-W between Seward and Pinnacle Glaciers, 5 miles S of Mount Owen and 47 miles NW of Yakutat, St. Elias Mountains; 60° 09' 30" N, 140° 20' 00" W; (map 66). Variant: Pinnacle Pass Cliffs. Originally named "Pinnacle Pass Cliffs" on a sketch map by M. B. Kerr (in Russell, 1891, pl. 8). The name "Pinnacle Pass Hills" was published on IBC Sheet 13 in 1928.

Pinnacle Pass: pass, 4,225 ft., between Hitchcock Hills and Pinnacle Pass Hills, 26 miles NW of Yakutat, St. Elias Mountains; 60° 08' 45" N, 140° 17' 00" W; (map 66). I. C. Russell (1891, p. 130), USGS, wrote: "The pass we named 'Pinnacle Pass,' on account of the many towering pinnacles overshadowing it."

Pinnacle Peak: mountain, 2,600 ft., on S side of Herendeen Bay, near SW end of Alaska Peninsula, Aleutian Range; 55° 43' 30" N, 160° 45' 00" W; (map 28). Descriptive name given in 1900 by USC&GS.

Pinnacle Peak: mountain, 3,215 ft., on W coast of Chichagof Island, 6 miles E of Chichagof, Alexander Archipelago; 57° 38' 45" N, 135° 56' 15" W; (map 9) Local descriptive name reported in 1951 by USGS.

Pinnacle Point: point of land, on W coast of Unga Island, in Shumagin Islands, Aleutian Range; 55° 16' 30" N, 160° 51' 00" W; (map 28). Descriptive name published in 1917 by USC&GS. So named because "there is prominent pinnacle on the shore."

Pinnacle Point: point of land, SE entrance point to Amlia Pass, W coast of Amlia Island, Aleutian Islands; 52° 06' 45" N, 174° 02' 00" W; (map 18). Descriptive name applied because of a prominent 95-ft. pinnacle on the shore and an 80-ft. off-lying pinnacle"; published by USC&GS in the 1944 Aleutian Coast Pilot (p. 90).

Pinnacle Rock: point of land, at NE end of Security Cove, 2 miles W of Chagvan Mountain and 12 miles NE of Cape Newenham, Kilbuk-Kuskokwim Mountains; 58° 43' N, 161° 52' W; (map 39). Descriptive name given in 1914 by USC&GS.

Pinnacle Rock: rock, 1 mile S of Mummy Island, 12 miles SW of Cordova, Chugach Mountains; 60° 27' N, 146° 02' W; (map 64). Descriptive name published in 1943 by USC&GS.

Pinnacle Rock: rock, 145 ft., off S coast of Akun Island, Aleutian Islands; 54° 06' 25" N, 165° 34' 25" W; (map 24). Named in 1901 by J. J. Gilbert, USC&GS.

Pinnacle Rock: rock, 172 ft., at Scotch Cap, on SW coast of Unimak Island, Aleutian Islands; 54° 24' 10" N, 164° 47' 30" W; (map 24). Variant: Hibahibgik, Ounga. Descriptive name published in 1900 by USC&GS. The Aleut name transcribed by Father Veniaminov, 1840, was Hibahibgik and that transcribed by Capt. F. P. Lutke 1830, was Ounga.

Pinnacle Rock: rock, 50 ft. high, off Cape Idalug, on N coast of Amlia Island, Aleutian Islands; 52° 09' 30" N, 173° 31' 45" W, (map 19). Descriptive name published on a 1951 USGS map.

Pinnacle Rock: rock, at E limit of Sandman Reefs, 22 miles SE of Deer Island, Aleutian Range; 54° 46' 15" N, 161° 45' 45" W; (map 25). Variant: Kekur. Translation by USBF in 1888 of the Russian word "kekur," meaning "an isolated pillar-like rock," published by Capt. Tebenkov (1852, map 24), IRN. See Kekur Island.

Pinnacle Rock: rock, at W end of Johnston Bay, off Kenai Peninsula, 26 miles SE of Seward, Chugach Mountains; 59° 55' 30" N, 148° 50' 00" W; (map 49). Local name reported in the 1940's by USC&GS.

Pinnacle Rock: rock, at W entrance to Jute Bay on E coast of Alaska Peninsula, 49 miles W of Karluk, Aleutian Range; 57° 32' 35" N, 155° 47' 15" W; (map 35). Descriptive name given by USC&GS in 1924.

Pinnacle Rock: rock, E of Pinusuk Island, in Chiachi Islands, 24 miles E of Stepovak Bay, Aleutian Range; 55° 51' 52" N, 159° 03' 10" W; (map 27) Named by W. H. Dall, USC&GS, in 1875.

Pinnacle Rock: rock, in Gulf of Alaska, 0.3 miles off SE; coast of Nuka Island, 38 miles SE of Seldovia, Chugach Mountains; 59° 19' 20" N, 150° 39' 00" W; (map 5). Descriptive name published by USGS in 1953

Pinnacle Rock: rock, in Gulf of Alaska, 0.4 miles SW of Cape St. Elias, Kayak Island, Malaspina Coastal Plain; 59° 47' 30" N, 144° 36' 15" W; (map 48). Descriptive name reported in 1903 by J. F. Pratt, USC&GS; published in 1904 on Chart 8513.

Pinnacle Rock: rock, in mouth of Bluefox Bay, N coast of Afognak Island, Kodiak Island, 58° 28' 10" N, 152° 41' 30" W; (map 43) Local descriptive name reported in 1952

Pinnacle Rock: rock, in mouth of Kalsin Bay, 10 miles S of Kodiak, Kodiak Island; 57° 39' 15" N, 152° 20' 30" W; (map 34). Descriptive local name published in 1943 by USC&GS.

Pinnacle Rock: rock, in Pavlof Harbor, on SW shore of Freshwater Bay, on Chichagof Island, 8 miles NE of Tenakee Springs, Alexander Archipelago; 57° 50' 45" N, 135° 01' 45" W; (map

9). Named by Comdr. R W. Meade, USN, published in 1869 on Hydrog. Chart 225. Name not shown on recent maps.

Pinnacle Rock: rock, see Second Priest Rock.

Pinnacle, The: pinnacle, 5,500 ft., 2 miles W of junction of Archangel and Reed Creeks, 15 miles NW of Palmer, Talkeetna Mountains; 61° 48' 30" N, 149° 15' 35" W; (map 69). Descriptive name reported in 1910 by F. J. Katz (in Brooks and others, 1911, p. 140), USGS.

Pinnacle, The: rock, off SW coast of Wosnesenski Island, 10 miles NE of Dolgoi Island, Aleutian Range; 55° 10' N, 161° 25' W; (map 28). Noted as "a remarkable pear-shaped pinnacle rock" by USC&GS in 1947 Coast Pilot (p. 331). Capt. Tebenkov (1852, map 24), IRN, showed some rocks in this area called "Kekuri," meaning "pillars"; these appear on an 1882 USC&GS chart as "Pinnacles," and again on a 1953 USGS map as "The Pinnacles."

Pinnacle: promontory, elev. 355 ft., on E coast of Ikatan Peninsula, on SE coast of Unimak Island, Aleutian Islands; 54° 41' 20" N, 163° 03' 00" W; (map 25). Descriptive name published in 1949 on a USGS map.

Pinnaichwakamiut: locality, see Binajoaksmiut.

Pinnell Mountain: mountain, 4,721 ft., 4.5 miles SW of Porcupine Dome and 55 miles SW of Circle, Yukon-Tanana Highlands; 65° 29' 45" N, 145° 40' 05" W; BGN 1960; (map 104). Variant: Porcupine Dome. Named by Lt. Comdr. R. Darling, USC&GS, for Robert E. Pinnell, who was accidentally killed on July 17, 1952, while climbing nearby Porcupine Dome. The mountain was considered a part of Porcupine Dome by Spurr (1898, p. 50), USGS.

Pinnell River: stream, flows N 17.7 miles to Inmachuk River, 20 miles N of Imuruk Lake, Seward Peninsula Highlands; 65° 53' N, 163° 04' W; BGN 1952; (map 110). Variant: Pannell River. Prospectors' name reported in 1901 by USGS (Collier, 1902, pl. 12). Published as "Pannell", by D. L. Reaburn (in Mendenhall, 1902, pl. 4a), USGS. Named after Jesse Pinnell, a miner from Nome.

Pinnyanaktuk: stream, see Binnyanaktuk Creek.

Pino, Isla del: island, see Pine Island.

Pino, Ostrov del: island, see Pine Island.

Pinochle Creek: stream, flows SW 5.5 miles to Hicks Creek, 42 miles NE of Palmer, Talkeetna Mountains; 61° 47' 40" N, 147° 56' 00" W; (map 69). Local name reported in 1952 by USGS.

Pinoshuragin: locality, see Pingoshugarun.

Pinta Bay: bay, 0.6 miles across, 7.5 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 45' 10" N, 136° 13' 00" W; BGN 1926; (map 9). Variant: Deep Bay. Named by the USC&GS and published in 1910 on Chart 8250. It was named for the

U.S.S. Pinta which navigated these waters during the late 19th century. The name at one time applied to Goulding Harbor and Pinta Bay was called "Deep Bay."

Pinta Bay: bay, see Goulding Harbor.

Pinta Cove: cove, 0.7 miles across, at N end of Chichagof Island, in Icy Strait, 1.6 miles SE of Point Adolphus and 49 miles W of Juneau, St. Elias Mountains; 58° 16' 10" N, 135° 44' 45" W; (map 11). Named in 1901 by E. F. Dickins, USC&GS, and published in the 1901 Coast Pilot (p. 204). The cove is named for the U.S.S. Pinta, a navy steamship used in Alaskan waters for several years.

Pinta Head: point of land, on Baranof Island, at W end of Peril Strait, in Canoe Pass, 26 miles NW of Sitka, Alexander Archipelago; 57° 24' 00" N, 135° 37' 40" W; (map 9). Named in 1884 by Comdr. J. B. Coghlan for the U.S.S. Pinta, USC&GS vessel, which navigated these waters. The name was published by USC&GS in the 1891 Coast Pilot (p. 181).

Pinta Lake: lake, 0.2 miles across, on Baranof Island, 1 mile NW of Lucky Chance Mountain and 12 miles SE of Sitka, Alexander Archipelago; 56° 57' 30" N, 135° 04' 00" W; (map 5). Local name recorded in 1951 by USGS.

Pinta Point: point of land, on N end of Kupreanof Island, 3.5 miles SE of Turnabout Island and 55 miles E of Sitka, Alexander Archipelago; 57° 07' 12" N, 133° 53' 20" W; BGN 1987; (map 8). Named in 1937 by USFS, probably for the Pinta Rocks 3 miles to the west.

Pinta Rock: rock, in Icy Strait, at mouth of Port Frederick, on Chichagof Island, 1.5 miles W of Crist Point and 8.8 miles N of Hoonah, Alexander Archipelago; 58° 10' 00" N, 135° 27' 25" W; (map 11). Named in 1901 by E. F. Dickins, USC&GS, and published in the 1901 Coast Pilot (p. 207-208). Named for the U.S.S. Pinta. See Pinta Cove.

Pinta Rocks: rocks, in Frederick Sound, off N coast of Kupreanof Island, 2.5 miles S of Turnabout Island and 58 miles E of Sitka, Alexander Archipelago; 57° 05' 20" N, 133° 58' 10" W; (map 8). Named by USC&GS; published in 1891 Coast Pilot (p. 141). The name was derived from the U.S.S. Pinta, which navigated these waters.

Pinta Rocks: rocks, in Frederick Sound, off NW tip of Kupreanof Island, 36 miles SE of Angoon, Alexander Archipelago; 56° 05' 10" N, 134° 00' 30" W; (map 9). Named by USC&GS and published in the 1891 Coast Pilot (p. 141). Named for the U.S.S. Pinta, USC&GS steamer, "which plied these waters."

Pinta, Mount: mountain, 1,352 ft., on W coast of Chichagof Island, 9 miles NW of Chichagof, Alexander Archipelago; 57° 46' N, 136° 14' W; (map 9). Name published in 1928 by USC&GS on Chart 8258; probably derived from Pinta Bay at the foot of the mountain to the east.

Pinta, Mount: mountain, 5,530 ft., 3 miles SE of Mount Ruhamah and 21 miles NE of Yakutat, St. Elias Mountains; 59° 40' 55" N, 139° 09' 35" W; BGN 1962; (map 46). Named in 1891 by Russell (1892, p. 88) for the U.S.S. Pinta, a "fourth rate man-of-war with small armament." It was used in 1885 by Lt. H. T. Allen, USA, and later by other Alaska survey parties.

Pintail Lake: lake, 0.7 miles long, on Kenai Peninsula SW of Quill Lake, 22 miles NE of Kenai, Cook Inlet Lowland; 60° 45' 15" N, 150° 45' 45" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for the Pintail, or Seapheasant (*Anas acuta*), an important game duck that breeds on the Arctic coast.

Pinto Creek: stream, flows N 4 miles to Savage River, 14 miles W of Healy, Alaska Range; 63° 48' 45" N, 149° 22' 20" W; BGN 1948; (map 87). Name reported by Woodbury Abbey, U.S. Army Corps of Engineers, on the blueprint of his 1921 Mount McKinley National Park survey.

Pinusuk Island: island, 1 mile across, in Chiachi Islands, 24 miles E of Stepovak Bay, Aleutian Range; 55° 51' 50" N, 159° 04' 00" W; (map 27). Aleut name reported in 1875 by W. H. Dall, USC&GS.

Pio Point: point of land, on N shore of North Passage, in Woewodski Harbor on S shore of Admiralty Island, 25 miles SSE of Angoon, Alexander Archipelago; 57° 10' 40" N, 134° 16' 15" W; BGN 1966; (map 9). Variant: Pie Point. Named in 1889 by Lt. Comdr. H. B. Mansfield, USN.

Pioneer Creek: stream, formed by junction of its North Fork and Deadwood Creek, flows SW 3.8 miles to Eureka Creek at village of Eureka, 23 miles S of Rampart, Yukon-Tanana Highlands; 65° 10' 30" N, 150° 13' 00" W; (map 106). Prospectors' name reported in 1904 by Prindle and Hess (1906, p. 85), USGS. Gold was discovered here on What Cheer Bar in 1902.

Pioneer Creek: stream, see Berry Creek.

Pioneer Gulch: ravine, in Peters Hills, trends N and E 1.4 miles to Peters Creek, 32 miles NW of Talkeetna, Alaska Range; 62° 31' 55" N, 150° 48' 50" W; (map 81). Prospectors' name reported in the 1930's by USGS.

Pioneer Gulch: ravine, trends NE 0.6 miles to Snake River, 0.4 miles downstream from Goldbottom Creek and 13 miles NW of Nome, Seward Peninsula Highlands; 64° 42' N, 165° 24' W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Pioneer Peak: mountain, 6,398 ft., on S bank of Knik River, 9 miles SE of Palmer, Chugach Mountains; 61° 28' 30" N, 149° 01' 45" W; (map 69). Local name reported in 1939 by USGS; named for the pioneers of the Matanuska Valley.

Pioneer Ridge: ridge, elev. 6,500-19,470 ft., in Mount McKinley National Park, W of Muldrow Glacier, extends NNE 9 miles from N summit of Mount McKinley to Gunsight Pass, Alaska Range; 63° 09' N, 150° 57' W; BGN 1947; (map 88). Named by Bradford Washburn about 1945 for "the sourdough party of Taylor, Anderson, McGonagall [McGonogal], and Lloyd, who made the first ascent of McKinley's North Peak, which was completed along the upper part of this ridge." See McKinley, Mount.

Pipe Creek: stream, on Kenai Peninsula, in Kenai Mountains, flows N 4 miles to Skilak Lake, 38 miles ESE of Kenai, Chugach Mountains; 60° 23' 45" N, 150° 13' 00" W; (map 62). Local name reported in 1959 by USGS.

Pipe Spit: spit, on Baldwin Peninsula, extends 0.3 miles into Hotham Inlet, 8 miles NE of Kotzebue, Kotzebue-Kobuk Lowland; 66° 57' N, 162° 20' W; (map 113). Named in 1885 by Lt. Stoney (1900, map), USN.

Pipeline Lake: lake, 600 ft. across, 18 miles SE of Cordova, Malaspina Coastal Plain; 60° 27' N, 145° 14' W; (map 64). Local name published in 1951 by USGS.

Piper Cove: cove, 0.7 miles across, on S coast of Little Tanaga Island, Aleutian Islands; 51° 48' 00" N, 176° 10' 30" W; BGN 1936; (map 17). Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934, for the U.S.S. Sandpiper.

Piper Island: island, in Schulze Cove, on N shore of Fish Bay, on Baranof Island, 25 miles NE of Sitka, Alexander Archipelago; 57° 23' 30" N, 135° 35' 30" W; (map 9). Named in 1880 by the U.S. Navy and published by USC&GS in the 1883 Coast Pilot (p. 161).

Pippin Lake: lake, 1 mile long, 3.2 miles N of Tonsina and 54 miles NE of Valdez, Chugach Mountains; 61° 42' 30" N, 145° 10' 00" W; BGN 1932; (map 68). Variant: Taktahni Lake. Local name reported in 1932 by C. F. Feuchsel, USGS, "for a local teamster named Joe Pippin who fell into the lake about 1924." The Ahtena Indian name was reported as Taktahni [presumably the name of a stream] meaning "high up" or "on top."

Pipsuk Bight: cove, 0.5 miles across, N of Pipsuk Point, on Barter Island, Arctic Plain; 70° 08' N, 143° 36' W; (map 152). Eskimo name reported by USC&GS in 1952.

Pipsuk Point: point of land, tip of Barter Island, 0.5 miles SE of Kaktovik, Arctic Plain; 70° 07' 45" N, 143° 35' 45" W; (map 152). Local Eskimo name reported by USC&GS in 1952.

Pirate Cove: bay, 0.1 miles across, 5 miles SW of Sitka, on W coast of Baranof Island, Alexander Archipelago; 56° 59' 15" N, 135° 22' 00" W; (map 5). Named for charting purposes; name published in 1943 by USC&GS.

Pirate Cove: cove, 0.3 miles across, on NE coast of Popof Island, in Shumagin Islands, Aleutian Range; 55° 21' 40" N, 160° 21' 25" W; (map 28). Variant: Pirates Cove. Local name used in 1880 and "based on the reputation of the place"; shown on a USBF chart in 1890.

Pirate Cove: cove, 0.5 miles wide, on W shore of Port Wells, 14 miles NE of Whittier, Chugach Mountains; 60° 52' 15" N, 148° 17' 30" W; (map 63). Local name reported in 1916 by J. W. Bagley, USGS.

Pirate Cove: locality, on Pirate Cove, on NE coast of Popof Island, in Shumagin Islands, Aleutian Range; 55° 21' 40" N, 160° 21' 50" W; (map 28). A post office was maintained here from 1909 to 1918, according to Ricks (1965, p. 51a). This once important cod-fishing station was abandoned before 1954

Pirate Creek: stream, flows SW 2.4 miles to Eldorado Creek in American River basin, 4 miles SW of Kougarak Mountain and 40 miles NE of Teller, Seward Peninsula Highlands; 65° 38' N, 165° 18' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Pirate Creek: stream, in Mount McKinley National Park, heads W of Muldrow Glacier and flows N and W 5 miles to East Fork Clearwater Creek, 13 miles SE of Wonder Lake, Alaska Range; 63° 21' 05" N, 150° 32' 20" W; (map 88). Variant: Whistler Creek, Windfall Creek. So named in 1923 by USGS, because "the drainage of this creek is a good illustration of stream piracy."

Pirate Creek: stream, in Zane Hills, flows SE 3 miles to Caribou Creek, 45 miles W of Hughes, Hogatza Highlands; 66° 08' N, 155° 49' W; (map 116). Named by mining engineers about 1940

Pirate Lake: lake, 3 miles long, 13 miles S of Spectacle Lake and 54 miles SW of Augustine Island, Aleutian Range; 59° 00' N, 154° 42' W; (map 51). Named by R. H. Sargent, USGS, in 1923 because stream piracy was evident in the vicinity. Published by K F. Mather (in Brooks and others, 1925, pl. 3), USGS.

Pirate Peak: peak, 3,315 ft., 15 miles S of Ruth Lake and 14 miles NE of Petersburg, coast Mountains; 56° 58' 20" N, 132° 43' 45" W; (map 6) Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for his steam launch Pirate.

Pirate Shake: locality, at N end of Nagai Island, in Shumagin Islands, Aleutian Range; 55° 13' 30" N, 159° 54' 25" W; (map 27). Local name published in USC&GS 1916 Coast Pilot (p. 171).

Pirates Cove: cove, see Pirate Cove.

Pisa Point: point of land, 0.9 miles E of Chichagof Harbor, on NE coast of Attu Island, Aleutian Islands; 52° 56' 03" N, 173° 16' 20" E; (map 13). Variant: Pisa Tower, Point Pisa. The descriptive name "Pisa Tower" was given by Lt. William Gibson, commander of the schooner U.S.S. Fenimore Cooper during the North Pacific Exploring Expedition by 1855 (Baker, 1906, p. 500). The name "Pisa Tower" was published in the 1944 Aleutian Coast Pilot (p. 130) and is mentioned in the 1946 Supplement to the above Coast Pilot (p. 16): "Pisa Point * * * a low point ending in reef. Pisa Tower is a prominent leaning pinnacle * * * on this point."

Pisa Tower: point of land, see Pisa Point.

Pish River: stream, on Seward Peninsula, flows NE 31 miles to Goodhope Bay, 35 miles NW of Deering, Kotzebue-Kobuk Lowland; 66° 10' N, 163° 57' W; (map 113). Variant: Kutuk River. Local name reported in 1903 by D. C. Witherspoon, USGS.

Pishak Island: island, 0.1 miles across, 2.9 miles SW of Goddard, in Necker Islands, on W coast of Baranof Island, Alexander Archipelago; 56° 48' 40" N, 135° 26' 00" W; (map 5). Name published in 1929 by USC&GS.

Pisiksagiakvik River: stream, see Piksiksak Creek

Pisiksak River: Stream, see Piksiksak Creek.

Piskuk Peak: peak, see Pistuk Peak.

Piskut Mountain: peak, see Pistuk Peak.

Piskut Peak: peak, see Pistuk Peak.

Pistuk Peak: peak, 5 miles W of Togiak Lake and 80 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 43' 30" N, 159° 42' 45" W; (map 53) Variant: Paviak Peak, Piskuk Peak, Piskut Mountain, Piskut Peak. Eskimo name shown as "Piskut Peak" or "Paviak Peak" on one 1898 fieldsheet by)) S. Post, USGS, and as "Piskut Mountain" on another. It was published as "Piskuk Peal By Spurr (1900, map 10), USGS.

Pit Rock: rock, on S shore of Kuluk Bay, on NE coast of Adak Island, Aleutian Islands; 51° 51' 38" N, 176° 34' 45" W; BGN 1936; (map 17). Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934, "for the survey signal Pit which was used by the Survey parties for two seasons."

Pit-mik-ha-mut: village, see Inakpuk.

Pitchfork Falls: falls, on stream flowing from Goat Lake to Skagway River, 1 mile NE of Clifton and 6 miles NW of Skagway, Coast Mountains, 59° 32' N, 135° 12' W; (map 45). Local name published in 1951 by USGS.

Pitchie: point of land, see Bird Cape.

Pitchuk Lake: lake, 0.5 miles long, 3 miles NW of Bettles, Brooks Range; 66° 156' N, 151° 48' W; (map 117). Local name reported in 1956 by T. E. Taylor, USGS.

Pitka Fork Hodzana River: stream, see Pitka Fork.

Pitka Fork: stream, heads at 62° 24' N, 154° 02' W, flows NW 75 miles to Middle Fork Kuskokwim River 7.5 miles SE of its junction with Kuskokwim River, 28 miles E of McGrath, Kuskokwim Lowland; 62° 56' N, 154° 45' W; (map 80). Local name reported in 1940 by USGS.

Pitka Fork: stream, heads at junction of Slate and Trout Creeks, flows S 20 miles to Hodzana River, 38 miles NW of Beaver, Kokrines Hodzana Highlands; 66° 41' N, 148° 28' W; (map 118). Variant: Pitka Fork Hodzana River. Local name reported in 1909 by A. G. Maddren (in Brooks and others, 1910, pl. 7), USGS.

Pitka Lake: lake, 1 mile long, 2.5 miles NW of Beaver, Yukon Flats; 66° 22' 40" N, 147° 30' 00" W; (map 118). Local name obtained in 1956 by USGS.

Pitka River: stream, flows NE 25 miles to Kateel River, 35 miles SW of Roundabout Mountain, Nulato Hills; 65° 29' N, 157° 46' W; (map 108). Local name obtained at Huslia by USGS in 1954 or 1955.

Pitkas Bar: bar, in Birch Creek, at mouth of Harrison Creek, 40 miles SW of Circle, Yukon-Tanana Highlands; 65° 20' N, 144° 45' W; (map 104). Named by prospectors for the two "halfbreeds named Pitka and Sorresco" (Mertie, 1937, p. 5), who made the first discovery of

gold on Birch Creek. The name was reported in 1908 by USGS (Covert and Ellsworth, 1909, pl. 4).

Pitkas Point: point of land, between Andrafsky and Yukon Rivers, 39 miles NW of Marshall, Yukon-Kuskokwim Delta; 62° 02' N, 163° 17' W; (map 77). Variant: Petkas Point. Local name reported as "Petkas Point" by USC&GS in 1898.

Pitkas Point: village, pop. 28, near junction of Andrafsky and Yukon Rivers, 40 miles NW of Marshall, Yukon-Kuskokwim Delta; 62° 02' N, 163° 17' W; (map 77). Eskimo village reported by USC&GS in 1898. Named for the trader "named Pitka whose store was a branch of the Northern Commercial Company's station at Andrafski." Its population was 50 in 1939 and 84 in 1950.

Pitkik Creek: stream, flows S 5 miles to Kobuk River 13 miles NW of Shungnak, Kotzebue-Kobuk Lowland; 66° 58' 30" N, 157° 34' 00" W; (map 115). Eskimo name shown on a 1927 manuscript map by the "trader at Selawik."

Pitkik Lake: lake, 2.5 miles long, an oxbow of Kobuk River, 14 miles NW of Shungnak, Brooks Range; 67° 01' N, 157° 33' W; (map 126). Eskimo name reported by the U.S. Army Corps of Engineers in 1955.

Pitmagillik: stream, see Pitmegea River.

Pitmegea River: stream, heads in De Long Mountains, flows NW 42 miles to Chukchi Sea at Cape Sabine, 40 miles NW of Mount Kelly, Arctic Slope; 68° 54' 40" N, 164° 37' 00" W; (map 130). Variant: Pet-meg-ea, Pitmigea, Pitmagillik. Eskimo name [Pitmegeak] obtained by John W. Kelly (or Kelley), prospector, who explored the stream in 1888, and published by Stockton (1890, p. 178).

Pitmigea: stream, see Pitmegea River.

Pitmik River: stream, heads in lake at 61 @33' 10" N, 162° 42' 50" W, flows NW 60 miles to Kashunuk River, 15 miles N of Kgun Lake and 52 miles W of Marshall, Yukon-Kuskokwim Delta; 61° 47' 15" N, 163° 38' 00" W; (map 74). Eskimo name obtained from a manuscript map of the Kashunuk River by "Father Delon," and reported by USC&GS in 1951.

Pitmik: village, see Inakpuk.

Pitt Island: island, 0.2 miles across, on W shore of Port Frederick, on Chichagof Island, 0.2 miles SW of Hoonah, Alexander Archipelago; 58° 06' 30" N, 135° 27' 10" W; (map 11). Variant: Harbor Island. Named in 1880 by the U.S. Navy and published by USC&GS in the 1883 Coast Pilot (p. 191). It is called Harbor Island in an 1880 Hydrog. Office notice.

Pitt Island: island, see Kruzof Island.

Pitt Point: point of land, northernmost point on coast of Beaufort Sea between Harrison and Smith Bays, Arctic Plain; 70° 55' N, 153° 10' W; (map 148). Variant: Point Pitt. Named July 26, 1837, by P. W. Dease and Thomas Simpson (Simpson, 1843, p. 143).

Pitt, Cape: point of land, see Muzon, Cape.

Pittalukruak Lake: lake, 4 miles across, SE of Admiralty Bay, 44 miles SE of Barrow, at mouth of Alaktak River, Arctic Plain; 70° 50' N, 155° 23' W; (map 148). Eskimo name reported by USC&GS in 1951, meaning “the old coming through place” referring to the need to go through this lake to get to the Alaktak River.

Pittman: railroad station, on The Alaska Railroad, 17 miles W of Palmer, Cook Inlet Lowland; 61° 35' 05" N, 149° 38' 30" W; (map 69). Named in 1918 by the builders of The Alaska Railroad.

Pittock Pass: pass, 7,250 ft., 12 miles SE of Denali Pass in Mt. McKinley National Park, Alaska Range; 62° 56' 55" N, 150° 45' 15" W; (map 81). Mountain climbers' name published in the late 1940's.

Pittock Peaks: peak, see Barrille, Mount.

Pittsberg Creek: stream, see Pittsburg Creek.

Pittsburg Creek: stream, flows SE 10 miles to Middle Fork Fortymile River, 52 miles SW of Eagle, Yukon-Tanana Highlands; 64° 26' 40" N, 142° 43' 30" W; (map 102). Variant: Pittsberg Creek. Named by prospectors and shown on a 1902 manuscript map by E. J. Chamberlain, U.S. Deputy Surveyor, as “Pittsberg Creek.”

Pivot Point: point of land, on S shore of Kiliuda Bay, on SE coast of Kodiak Island; 57° 18' N, 153° 01' W; BGN 1933; (map 34). Descriptive name given in 1931 by USC&GS, “because it marks a turn [in the channel] in the western part of Kiliuda Bay.”

Piyukenok River: stream, see Piyukenuk River.

Piyukenuk River: stream, heads in lake, flows W 8.5 miles to Kokechik River, 34 miles E of village of Hooper Bay, Yukon-Kuskokwim Delta; 61° 38' N, 165° 05' W; (map 75). Variant: Piyukenok River. Eskimo name reported by USC&GS in 1951.

Place Creek: stream, flows W 1 mile to Bonanza River near mouth of Cold Creek, about 14 miles NW of Solomon, Seward Peninsula Highlands; (map 95). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This stream cannot be precisely located on current maps.

Placer Creek: stream, flows N 9.2 miles to Goodhope River, 26 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 50' N, 164° 01' W; (map 110) Prospectors' name reported in 1901 by USGS (Collier, 1902, pl. 12).

Placer Creek: stream, flows SW 4 miles to Portage Lake, 5 miles NW of Whittier, Chugach Mountains; 60° 47' 15" N, 148° 49' 20" W; (map 63). Local name reported in 1913 by C. E. Giffin and J. W. Bagley (in Brooks and others, 1914, manuscript pl. 2), USGS.

Placer Creek: stream, heads at 64° 59' N, 142° 06' W, flows SE 3 miles to Seventymile River, 27 miles NW of Eagle, Yukon-Tanana Highlands; 64° 58' 30" N, 142° 00' 00" W; (map 102). Variant: Pleasant Creek. Local name published in 1956 by USGS.

Placer Creek: stream, heads in Horn Mountains, flows N 4 miles to Flat Creek, 3 miles SW of its junction with Little Nelchina River and 13 miles N of Tahnetta Pass, Talkeetna Mountains; 62° 04' 20" N, 147° 23' 15" W; BGN 1960; (map 82). Local name reported in 1917 by USGS. This creek has been prospected for placer gold.

Placer Creek: stream, heads near head of Alta Creek, flows SW 1 mile to Bonanza River, about 11 miles NW of Solomon, Seward Peninsula Highlands; (map 95) Prospectors' name reported on the 1900 "Map of Nome Peninsula" by J. M. Davidson and B. D. Blakeslee. This stream cannot be precisely located on current maps.

Placer Creek: stream, on Kenai Peninsula, heads at terminus of Lowell Glacier, flows NE 3 miles to Resurrection River, 13 miles NW of Seward, Chugach Mountains; 60° 16' 10" N, 149° 40' 30" W; BGN 1966; (map 63). Variant: Placer River. Local name reported in 1915 by USC&GS.

Placer Creek: stream, see Mead Creek.

Placer Lakes: lakes, 1 mile across, between Chuck River and Endicott Arm, 5 miles SE of Chuck Mining Camp and 70 miles SE of Juneau, Coast Mountains; 57° 31' 50" N, 133° 14' 00" W; (map 8). Local name reported in 1960 by USGS.

Placer River Glacier: glacier, see Lowell Glacier.

Placer River Glacier: glacier, see Spencer Glacier.

Placer River Valley: valley, on N end of Kenai Peninsula, trends N 9 miles to head of Turnagain Arm along Placer River 12 miles W of Whittier, Chugach Mountains; 60° 49' N, 149° 00' W; (map 63). Local name reported on recent USGS publications; derived from the Placer River that runs through the valley.

Placer River: stream, on Kenai Peninsula, flows N 16 miles to head of Turnagain Arm, 12 miles NW of Whittier, Chugach Mountains; 60° 50' N, 149° 00' W; BGN 1912; (map 63). Variant: Glacier River. Local name reported in 1906 by F. H. Moffit, USGS.

Placer River: stream, see Glacier River.

Placer River: stream, see Placer Creek.

Placerville: locality, 0.8 miles N of Poorman Creek and 8 miles SW of Poorman, Kilbuck-Kuskokwim Mountains; 64° 02' N, 155° 45' W; BGN 1937; (map 98). Placer mining camp reported in 1933 by J. B. Mertie, USGS. It is reported to be abandoned.

Plain Mountain: mountain, 1,998 ft., on E coast of Gravina Island, 2.8 miles NW of Blank Point, Alexander Archipelago; 55° 16' 50" N, 131° 43' 10" W; (map 3). Descriptive name given in 1883 by Lt. Comdr. H. E. Nichols, USN.

Planaria Lake: lake, 0.4 miles long, on Slide Mountain, 42 miles WSW of Glennallen, Copper River Basin; 62° 01' N, 146° 51' W; (map 83). Named in 1949 for the family of soft bodied aquatic worms (Planariidae); reported by USGS.

Plateau Glacier: glacier, in Glacier Bay National Monument, heads in Cushing Plateau, trends SE to Wachusett Inlet on Glacier Bay, 63 miles NW of Hoonah, St. Elias Mountains; 58° 55' N, 136° 15' W; BGN 1948; (map 10). Name published by American Geographical Society (Cooper, 1937, pl. 1); named for Cushing Plateau.

Plateau Lake: lake, 0.6 miles long, drains S to Berry Creek, 4 miles S of Alaska Highway, 49 miles NW of Tok, Alaska Range; 63° 37' 30" N, 144° 25' 4" W; (map 86). Name published on relatively recent maps.

Plateau Mountain: mountain, 5,330 ft., in Endicott Mountains, 16 miles E of Survey Pass, Brooks Range; 67° 49' N, 153° 30' W; BGN 1932; (map 125). Named by Robert Marshall in 1931 because "the top was a great plateau * * *."

Platinum Creek: stream, flows SE 3 miles to Salmon River, 25 miles NE of Cape Newenham, Kilbuck-Kuskokwim Mountains; 58° 53' 35" N, 161° 43' 30" W; BGN 1938; (map 39). Prospectors' name reported in 1933 by USGS and published by Mertie (1940, pl. I and p. 59). Much mining activity has occurred along this creek since platinum was discovered on Fox Gulch, one of its tributaries, in 1926.

Platinum Creek: stream, in Mentasta Mountains, flows SE 17 miles to Nebesna River, 7.5 miles NE of Devils Mountain, Alaska Range; 62° 26' N, 142° 45' W; (map 84). Named by prospectors who found what they thought to be platinum in the creek gravels; reported in 1903 by F. C. Schrader, USGS.

Platinum: village, pop. 43, near mouth of Smalls River on Goodnews Bay, 11 miles SW of Good News, Kilbuck-Kuskokwim Mountains; 59° 00' 45" N, 161° 49' 00" W; BGN 1938; (map 53). Variant: Agvik. Mining village so named because of platinum deposits in the vicinity. In 1937 Platinum was Alaska's newest boomtown with a population of 50, two trading posts, a roadhouse and a post office which was established in 1935 (Ricks, 1965, p. 51). Adjoining it was an Eskimo village, now abandoned, named "Agvik," reported to mean "small stone to sharpen knives." This name was obtained about 1951 at Goodnews by J. M. Hoare, USGS. In 1950 the population of Platinum was 72, and the town was the center of most of the commercial activity in the area (U.S. Coast and Geodetic Survey, 1954, p. 516). In 1960 the population had decreased to 43.

Platt Creek: stream, see Platte Creek.

Platte Creek: stream, flows N, joins Fox Creek to form Homestake Creek, 16 miles NE of Healy, Alaska Range; 63° 59' 00" N, 148° 33' 25" W; (map 87). Variant: Platt Creek. Local name reported in 1910 by D. C. Witherspoon (in Capps, 1912, pl. 2), USGS.

Plavezhnoi: lake, see Tazlina Lake.

Pleasant Bay Lake: lake, 0.7 miles long, 4 miles S of Mole Harbor, on E coast of Admiralty Island, 22 miles E of Angoon, Alexander Archipelago; 57° 36' 30" N, 134° 01' 30" W; (map 9). Named in 1904 by H. C. Fassett, USBF.

Pleasant Bay: bay, on Admiralty Island, on W shore of Seymour Canal, 2 miles SE of Mole Harbor and 48 miles S of Juneau, Alexander Archipelago; 57° 38' 40" N, 133° 59' 15" W; (map 8). Named by local navigators and reported in 1904 by H. C. Fassett, USBF.

Pleasant Camp: locality, on N bank of Klehini River, on Alaska-Canada boundary, at mouth of Jarvis Creek, 37 miles W of Skagway, St. Elias Mountains; 59° 27' 00" N, 136° 21' 30" W; (map 45) Local name of an International Boundary Station reported by Brooks (1900b, pl. 47 and p. 338), USGS. In 1900 a Northwest Mounted Police post and a customhouse were there.

Pleasant Creek: stream, heads in Yukon, Canada, at 65° 09' N, 140° 59' W, flows SW 5 miles to join Harrington Creek to form Hard Luck Creek, 23 miles N of Eagle, Porcupine Plateau; 65° 06' 40" N, 141° 04' 00" W; BGN 1965; (map 103). Named in 1930 by J. B. Mertie, Jr., USGS.

Pleasant Creek: stream, see Placer Creek.

Pleasant Island Reef: reef, 2.3 miles long, 0.6 miles off S coast of Pleasant Island, in Icy Strait, 45 miles W of Juneau, St. Elias Mountains; 58° 18' 45" N, 135° 38' 30" W; (map 11). Named in 1901 by E. F. Dickins, USC&GS for Pleasant Island The name was published in the 1901 Coast Pilot (p. 203).

Pleasant Island: island, 7.5 miles across, in Icy Strait, 0.3 miles SE of Gustavus and 44 miles W of Juneau, St. Elias Mountains; 58° 21' N, 135° 38' W; (map 11). Named in 1879 by W. H. Dall, USC&GS because of its "pleasant shore." The name was published in the 1883 Coast Pilot (p. 203).

Pleiades Islands: islands, trend N-S 1 mile in Knight Island Passage, 4 miles SE of Chenega' Chugach Mountains; 60° 14' 00" N, 148° 00' 40" W; BGN 1908; (map 63). Variant: Seven Sisters, Sisters Islands. Named in 1908 by USC&GS for "the seven daughters of Atlas transformed according to Greek mythology into a group of stars."

Plenty Bear Creek: stream, flows SW 14 miles to Meshik River, 16 miles SW of Vent Mountain, in Aniakchak Crater, Bristol Bay Lowland; 56° 4' N, 158° 25' W; (map 30). So named in 1923 by R. H. Sargent, USGS because of "the numerous bear encountered * * *" here.

Pleveznie: lake, see Tazlina Lake.

Plies, Islas des: island, see Sanak Island.

Plishnie Ostrova: islands, see Near Islands.

Plooma Island: island, see Pluma Island.

Plotnikof Lake: lake, 4 miles long, 4 miles E of Whale Bay, on S central Baranof Island, Alexander Archipelago; 56° 34' 00" N, 134° 53' 30" W; BGN 1935; (map 5). Variant: Lake Plotnikof. Named in 1935 by USFS "for Abrossin Plotnikof, one of the survivors of the Sitka massacre of 1802."

Plover Islands: barrier Islands, on Beaufort Sea coast, extend SE 35 miles from Plover Point to Mackay Inlet, Arctic Plain; 71° 15' N, 155° 3° W; (map 153). Variant: Plovers Group. Named "Plovers Group" in 1850 by Comdr. Thomas E. L. Moore, RN, after his ship the H.M.S. Plover, and originally applied to the islands NW of Ekilukruak Entrance (Leffingwell, 1919, p. 77).

Plover Lake: lake, 0.8 miles long, on Kenai Peninsula, NW of Killdeer Lake, 13 miles NNE of Kenai, Cook Inlet Lowland; 60° 43' 30" N, 151° 02' 3° W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Plover Point: point of land, at end of spit extending SE from Point Barrow, forming W side of Eluitkak Entrance, between Elson Lagoon and Beaufort Sea, Arctic Plain; 71° 91' 40" N, 156° 21' 28" W; (map 153). Named by British Admiralty for the H.M.S. Plover which wintered near the point of land in 1852-54, and published on master Thomas Hull's 1853 map.

Plover Rock: rock, between Middle and South Arms Kelp Bay, on NE coast of Baranof Island, 11 miles SE of Todd, Alexander Archipelago; 57° 19' N, 134° 56' W, (map 9). Named by Lt. Comdr. Moore, USN, and published by USC&GS in the 1901 Coast Pilot (p. 160).

Plovers Group: barrier islands, see Plover Islands.

Plum Bob Lake: lake, see Plumb Bob Lake.

Plum Island: island, 40 yds. across, U' of Ringgold Island, Bay of Islands, Adak Island, Aleutian Islands; 51° 48' 34" N, 176° 50' 35" W; BGN 1936; (map 17). Named by members of the U.S. Navy Aleutian Island Survey Expedition in 1934, "for Plum Island in Long Island Sound, N.Y."

Pluma Island: island, 0.2 miles across, 12.5 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 47' 35" N, 136° 19' 40" W; (map 9). Variant: Plooma Island. Published as "Plooma" by the USC&GS in the 1925 Coast Pilot (p. 322) and as "Plume" in 1928 on Chart 8258. It may be the Spanish word meaning "feather."

Plumb Bob Lake: lake, 0.6 miles long, S of Glenn Highway, 13 miles W of Glennallen, Copper River Basin; 62° 06' N, 145° 57' W; (map 83). Variant: Plum Bob Lake. Local name reported in 1951 by USGS. So named because its outline resembles a plumb bob, a metal weight for a plumb line used to determine verticality.

Plume Creek: stream, see Flume Creek.

Plummer, Mount: mountain, 3,768 ft., 70 miles NE of Bethel, in Kilbuck Mountains, Kilbuck-Kuskokwim Mountains; 60° 58' N, 159° 40' W; (map 59). Local name reported in 1914 by A. G. Maddren (in Brooks, 1915, pl. 11), USGS.

Plunge Creek: stream, flows NE 10 miles to Tupikchak Creek 46 miles NNW of Misheguk Mountain, Arctic Slope; 68° 44' N, 161° 23' W; (map 131). Named by USGS geologists "in 1950 because of its location near the west end of the plunging anticline" (Chapman and Sable, 1960, p. 54).

Pluvezna, Lake: lake, see Tazlina Lake.

Poa Island: island, 0.7 miles long, 1 mile SE of Akun Island, Krenitzin Islands, Aleutian Islands; 54° 07' 45" N, 165° 29' 50" W; (map 24). Variant: Foggy Island, Tumannoi Island. Named in 1888 by USBF for a genus of grasses. Capt. Tebenkov (1852, map 26), IRN, called it "O[strov] Tumannoi," meaning "foggy island."

Pocahontas Creek: stream, flows SW 17 miles to Mathews Slough, 30 miles NE of Hochandochtla Mountain, Kokrines-Hodzana Highlands; 65° 54' 50" N, 154° 21' 30" W; (map 107). Prospectors' name reported in 1913 by Eakin (1916, pl. 2), USGS.

Pochnoi Point: point of land, E tip of Semisopochnoi Island, Aleutian Islands; 51° 58' 30" N, 179° 45' 30" E; BGN 1937; (map 15). "Pochnoi" is part of the island name "Semisopochnoi," and was published on a 1935 chart of the U.S. Navy Hydrog. Office.

Pocket Island: island, 1.5 miles long, at S end of Frederick Sound, 17 miles SE of Petersburg, Coast Mountains; 56° 40' N, 132° 35' W; (map 6). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for charting purposes; name published in 1888 on USC&GS Chart 705.

Podder Island: island, 0.3 miles long, on E shore of Seldovia Bay, 1 mile SSW of Seldovia, Chugach Mountains; 59° 25' 30" N, 151° 42' 30" W; (map 50). Name reported by USC&GS in 1908.

Podsopochni Bay: bay, 1.5 miles across, on N coast of Atka Island, Aleutian Islands; 52° 04' 30" N, 174° 59' 00" W; (map 18). Named for Podsopochni Point; published by the USC&GS in the 1944 Aleutian Coast Pilot (P 97).

Podsopochni Cape: point of land, see Podsopochni Point.

Podsopochni Point: point of land, on NE coast of Atka Island, Aleutian Islands; 52° 05' N, 174° 57' W; (map 18). Variant: Podsopochni Cape. Russian name, meaning "under the peak [Mount Sergief]," published as "Podspotchnoi Cap," or "Cape Podspotchnoi" by Capt. Lutke (1836, p. 315), IRN. Published as "Podsopochni Point" by the USC&GS in 1944 Aleutian Coast Pilot (p. 97).

Poe Bay: estuary, 0.5 miles wide, extends S 0.8 miles to Passage Canal, 7 miles NE of Whittier, Chugach Mountains; 60° 49' 40" N, 148° 30' 20" W; BGN 1915; (map 63). Named in 1914 by USC&GS "in honor of the poet, Edgar Allen Poe, 1809-49."

Poe Glacier: glacier, see Seth Glacier.

Poe Island: island, 200 ft. across, northernmost island of Barrier Islands, in Cordova Bay, Alexander Archipelago; 54° 49' 50" N, 132° 26' 20" W; (map 1). Local name reported in 1951 by USGS.

Pogakhluk Lake: lake, see Amanka Lake.

Pogibshi Channel: water passage, see Peril Strait.

Pogibshi Island: island, see Near Island.

Pogibshi Point: point of land, at SW end of Deadman Reach, on W coast of Duffield Peninsula, on N coast of Baranof Island, Alexander Archipelago; 57° 30' 30" N, 135° 33' 00" W; BGN 1897; (map 9). Variant: Danger Point, Mys Pogibshiy, Peril Point. Russian name meaning "perilous," given in 1833 by the navigator Ens. Vasiliev; published in 1848 on Russian Hydrog. Dept. Chart 1397 as "M[ys] Pogibshiy."

Pogibshi Straits: water passage, see Peril Strait.

Pogibshi, Point: point of land, on SW end of Kenai Peninsula 6 miles WSW of Seldovia, Chugach Mountains; 59° 25' 30" N, 151° 53' 00" W; (map 50). Russian name meaning "perilous" and published by USC&GS in 1943 (Chart 8554).

Pogibshiy, Mys: point of land, see Pogibshi Point.

Pogibshiy, Proliv: water passage, see Peril Strait.

Pogik Bay: bay, 3.5 miles across, on coast of Beaufort Sea, 6 miles E of Pitt Point, Arctic Plain; 70° 53' N, 152° 51' W; (map 149). Eskimo name reported in 1950 by USC&GS referring to the "white belly fur of the caribou."

Pogik Point: point of land, on coast of Beaufort Sea, W tip of an island at mouth of Pogik Bay, 6 miles E of Pitt Point, Arctic Plain; 70° 54' 35" N, 152° 53' 30" W; (map 149). Variant: Ellice Point, Pogit Point. Eskimo name reported in 1950 by USC&GS, referring to the "white belly fur of the caribou." This feature appears to be the "Ellice Point" shown on the map of P. W. Dease and Thomas Simpson (Simpson, 1843, p. 134), named for "The Right Honourable Edward Ellice * * *."

Pogit Point: point of land, see Pogik Point.

Pogoobnoy Strait: water passage, see Peril Strait.

Pogopuk Creek: stream, heads SW of Mount Salisbury, flows N 24 miles to Kavik River, 55 miles W of Mount Michelson, Arctic Slope; 69° 23' N, 146° 30' W; (map 139). Named in the 1950's by USGS geologists.

Pogoreshapka: locality, on right bank of Yukon River about 20 miles below Holy Cross, Innoko Lowland; 62° 00' N, 160° 03' W; (map 73). Variant: Dagorashapka, Gagara-Shapka. Eskimo village or camp reported with a population of 121 by Petroff in the 1880 Census (1884, p. 12). W. H. Dall gave "Gagara-Shapka" as the Russian name, meaning "loon cap" for the village where the natives made birdskin caps "(for which Pogoreshapka [burnt hat] is a mistake)" (Hodge, 1910, p. 272). "Dagorashapka" was the name applied in 1869 to a nearby mountain by Capt. C. W. Raymond, U.S. Engineers.

Pogoseluk Hill: hill, 1.5 miles SE of Tusikpok Lagoon and 19 miles NW of Kivalina, Kotzebue-Kobuk Lowland; 67° 55' N, 165° 01' W (map 128). Variant: Paugausailuk Hill, Powgowsayluk. Eskimo name meaning "old bag"; so called because the hill resembles an old poke, "no longer watertight, but useful to carry things. Name reported in 1966 by E. S. Burch.

Pogromnaya, Mys: point of land, see Cave Point.

Pogromni: locality, on N shore of Unimak Island near Pogromni Volcano, Aleutian Islands; 54° 40' N, 164° 45' W; (map 24). Variant: Pogramnoi. Russian name, meaning "desolation," of a former Aleut village or camp reported in 1828 by Capt. F. P. Lutke, IRN.

Pogromnia: volcano, see Pogromni Volcano.

Pogromnoi First: point of land, see Sarichef Cape.

Pogromnoi Second: point of land, see Cave Point.

Pogromnoi Volcan: volcano, see Pogromni Volcano.

Pogromnoi: locality, see Pogromni.

Pogromnoi: point of land, see Cave Point.

Pogromskaia: volcano, see Pogromni Volcano.

Pogromni River: stream, flows N 12 miles to Bering Sea, 3.5 miles SW of Cave Point, NW coast of Unimak Island, Aleutian Islands; 54° 44' 30" N, 164° 38' 30" W; BGN 1942; (map 24). Russian name meaning "desolation" given by USC&GS in 1940, "because it drains an area south of Pogromni Volcano and because the former village called Pogromni was at its mouth."

Pogromni Volcano: volcano, 6,568 ft., on SW end of Unimak Island, Aleutian Islands; 54° 34' 15" N, 164° 41' 25" W; BGN 1899; (map 24). Variant: Devastation Volcano, Isanotskoi, Kugidach Jagutscha, Pogromnia, Pogromnoi Volcan, Pogromskaia, Pogromnoj. According to the 1883 Coast Pilot (p. 323), the name was published in 1836 by Capt. F. P. Lutke, IRN, as "Pogromnoi Volcan". Shown on Russian Hydrog. Dept. Chart 1379, dated 1847, as "Sopka Pogromnaya," meaning "desolation peak." Its Aleut name, according to Grewingk (1850, p. 177) is "Kugidach Jagutscha."

Pogromnoj: volcano, see Pogromni Volcano.

Point Agassiz Peninsula: peninsula, extends NW SE 7 miles into Frederick Sound, 12 miles NE of Petersburg, Coast Mountains; 56° 58' N, 132° 53' W; (map 6). Named by USC&GS for charting purposes; name published in 1925 Coast Pilot (p. 211).

Point Baker: village, pop. 38, on offshore island off NW tip of Prince of Wales Island, on Sumner Strait, Alexander Archipelago; 56° 21' 15" N, 133° 37' 15" W; (map 6). Fishing and logging village. The Point Baker post office was established in 1942 (Ricks, 1965, p. 52).

Point Creek: stream, flows NW 4.5 miles to Norton Sound, 6.4 miles NE of Tolstoi Point and 13 miles SW of Unalakleet, Nulato Hills; 63° 41' 25" N, 160° 52' 05" W; (map 91). Local name reported in 1952 by USC&GS.

Point Ellis Creek: stream, see Kutlaku Creek.

Point Ellis Lake: lake, see Kutlaku Lake.

Point Highfield Harbor: anchorage, see Highfield Anchorage.

Point Highfield, Anchorage off: anchorage, see Highfield Anchorage.

Point Hope: village, pop. 324, on foreland terminating at Point Hope on Chukchi Sea coast, Arctic Slope; 68° 21' N, 166° 47' W; BGN 1947; (map 129). Variant: Figarok, Hope, Teekee-voga-mouts, Tiekagamiut, Tigara, Tigarak, Tigera, Tikarakh, Tikeh, Tikek, Tikera, Tikeramiut, Tikerana, Tikeranmeun, Tikiqaaq, Tikira, Tikirah, Tikirahmun, Tikirak, Tikirat, Tikkerak, Tkok, Ttiekgakg, Ttikigakg. Eskimo village locally referred to as "Tikiqaaq" or "Tikarakh," but because of the post office name, the place is more commonly referred to as "Point Hope". The Eskimo name, recorded in 1861 as "Tiekagagmiut" by P. Tikhmeniev, which on Russian Hydrog. Dept. Chart 1495, becomes "Tiekaga", is derived from the Eskimo name for the point of land, which means "forefinger". This ancient village site was advantageous, because the protrusion of Point Hope into the sea brought the whale close to shore. The 1880 Census gave the population as 276. See Hope, Point and Ipiutak.

Point Lake: lake, 0.5 miles across, on Kenai Peninsula, on E shore of Tustumena Lake, 30 miles SE of Kenai, Cook Inlet Lowland; 60° 11' N, 150° 45' W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Point Lay Village: village, see Point Lay.

Point Lay: village, pop. 20, on barrier bar, along Chukchi Sea coast, at Point Lay, 43 miles SW of Icy Cape, Arctic Plain; 69° 45' 45" N, 163° 03' 00" W; (map 145). Variant: Kalee, Kali, Point Lay Village. The Eskimo name (Kali) for this village means "mound," which refers to the elevated area the village is located on. This is probably the remaining village of the so-called Kukpowruk people. See Kukpowruk.

Point Lockwood Rock: rock, in Wrangell Narrows, 18 miles S of Petersburg, between Woewodski and Sumner Islands, Alexander Archipelago; 56° 34' N, 132° 58' W; Local name used by fishermen; name published in 1901.

Point No Point: point of land, on S shore of Yukon River, N of Chicago Lakes, 12 miles NNE of Rampart, Yukon-Tanana Highlands; 65° 40' 30" N, 150° 02' 00" W; (map 130). Riverboat pilots' descriptive name for this long round inside shore of the river bend. Name shown on a manuscript track chart of the Yukon River dated 1900.

Point of Rocks: rocks, group of, in Knight Island Passage, off W coast of Squire Island, 6 miles SE of Chenega, Chugach Mountains; 60° 14' 59" N, 147° 57' 45" W; BGN 1908; (map 63). Descriptive name reported in 1908 by USC&GS.

Point of Shoals: point of land, see Shoals Point.

Point Pybus: point of land, see False Point Pybus.

Point Salisbury: point of land, see Bishop Point.

Point Shallow-Water: point of land, see Romanof Point.

Point Whitshed: locality, on Point Whitshed, 8 miles SW of Cordova, Chugach Mountains; 60° 12' N, 145° 54' W; (map 64). Name of a settlement listed in U.S. Census.

Pointed Rock: rock, at S end of Patton Bay, off Montague Island, 75 miles SE of Seward, Chugach Mountains; 59° 54' 10" N, 147° 26' 30" W; (map 49). Local name reported in the early 1950's by USC&GS.

Poison Cove: cove, 0.6 miles across, 7 miles S of Hoonah Sound, on S coast of Chichagof Island, 22 miles SE of Chichagof, Alexander Archipelago; 57° 31' 15" N, 135° 35' 00" W; (map 9). Named in 1869 by Comdr. R. W. Meade, USN, and published by USC&GS in the 1883 Coast Pilot (p. 163). This name was given because "near here 150 Aleuts were killed in 1799 from eating poisonous mussels."

Poison Creek: stream, flows SW 16 miles to Stink Creek 0.6 miles NW of its junction with Yukon River, 24 miles SW of Kaltag and 56 miles E of Unalakleet, Nulato Hills; 63° 59' 20" N, 158° 57' 10" W; (map 90). Local name reported in 1954 by USGS.

Poison Creek: stream, see Thayer Creek.

Pokainay Bay: estuary, see Quiet Harbor.

Pokang Bay: bay, see Pokok Bay.

Pokang Creek: stream, see Pokok Creek.

Pokatago Utesu, Mys: point of land, see Pokati Point.

Pokati Point: point of land, on S shore of Whale Passage, 18 miles NW of Kodiak, on N coast of Kodiak Island; 57° 55' 50" N, 152° 50' 50" W; (map 34). Variant: Mys Pokatago Utesu. Named "M[ys] Pokatago Utesu, meaning "cape of rolling rocks," by Sub-Lt. Mikhail Murashev in 1839 or 1840 and published in 1849 on Russian Hydrog. Dept. Chart 1495 The name was changed to its present form in 1909 by USC&GS.

Poker Creek: locality, at junction of Davis and Poker Creeks, 52 miles S of Eagle, Yukon-Tanana Highlands; 64° 03' 30" N, 141° 02' 50" W; (map 102). Mining camp reported in 1925 by ARC.

Poker Creek: stream, flows N 9 miles to Norton Sound, 2.7 miles NE of Tolstoi Point and 17 miles SW of Unalakleet, Nulato Hills; 63° 38' 45" N, 160° 56' 00" W; (map 91). Local name reported in 1906 by USGS.

Poker Creek: stream, flows NW 2 miles to Nenana River, 2.5 miles NW of Healy, Alaska Range; 63° 53' 30" N, 148° 59' 00" W; (map 87). Local name reported in 1950 by USGS.

Poker Creek: stream, flows SE 10 miles to Chatanika River, 20 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 08' 15" N, 147° 28' 40" W; (map 105). Named by prospectors; published in 1906 by USGS.

Poker Creek: stream, heads in Canada, flows W 3 miles to join Davis Creek to form Walker Fork, 52 miles S of Eagle, Yukon-Tanana Highlands; 64° 03' 30" N, 141° 02' 50" W; (map 102). Variant: Parker Creek. Named by prospectors and reported in 1896 by Spurr (1898, pl. 46), USGS. "In 1899 Poker Creek and the headwaters of Walker Fork were staked out in claims" (p. 116).

Poker Creek: stream, heads on W slope of Explorer Mountain, flows 5 miles SW to Sphinx Creek, 5 miles NW of Goodnews, Kilbuck- Kuskokwim Mountains; 59° 11' N, 161° 38' W; (map 53). Name reported in 1919 on a manuscript map by J. E. Spurr and W. S. Post, USGS.

Poker, Point: point of land, N of Sarana Bay. Attu Island, Aleutian Islands; 52° 53' 47" N, 173° 18' 10" E; (map 13). Named by the U.S. Army during its occupation of the island during World War II; shown on an AMS map published in 1948.

Poko Mountain: mountain, 3,243 ft., in De Long Mountains, 12.5 miles ENE of Igloo Mountain, W of junction of Tingmerkpuk and Kokolik Rivers, 39 miles NE of Mount Kelly, Brooks Range; 68° 48' 30" N, 162° 23' 00" W; (map 130). Named by USGS, shown on 1926 fieldsheet by Gerald FitzGerald, USGS. According to P. S. Smith's, USGS, notes it means "seal poke" (Chapman and Sable, 1960, p. 54).

Pokoinaia Bay: estuary, see Quiet Harbor.

Pokok Bay: bay, 2 miles across, on Beaufort Sea coast, W of Point Humphrey and 35 miles NW of Demarcation Point, Arctic Plain; 69° 59' N, 142° 32' W; (map 138). Variant: Humphrey Bay, Pokang Bay, Pokok Lagoon. Leffingwell (1919, p. 98) named and described this bay as being between Points Humphreys and Griffin; named for Pokok, a village once located on nearby Pokok Lagoon.

Pokok Bay: lagoon, see Pokok Lagoon.

Pokok Creek: stream, flows 2 miles N to Pokok Lagoon, 20 miles SE of Barter Island, Arctic Plain; 70° 02' 30" N, 142° 45' 30" W; (map 152). Variant: Pokang Creek. Local Eskimo name reported by USC&GS in 1952.

Pokok Lagoon: bay, see Pokok Bay.

Pokok Lagoon: lagoon, 1.5 miles long, on coast of Beaufort Sea, at mouth of Pokok Creek, NW of Pokok Bay, 20 miles SE of Barter Island, Arctic Plain; 70° 02' 45" N, 142° 46' 00" W;

(map 152). Variant: Pokang Bay, Pokok Bay. Local name reported by USC&GS in 1948. Present-day tradition among the Eskimo at Barter Island is that the village of Pokok was once located at the east end of this lagoon.

Pokok: locality, site of Eskimo camp on coast of Beaufort Sea, believed to have been located on Pokok Lagoon, Arctic Plain; (map 152). The Eskimo name "Pokang" is shown in this area on John Simpson's native map, 1853, as the farthest point seen by the Point Barrow natives. Leffingwell (1919, p. 98), places the name "Pokok" between Points Humphreys and Griffin. The present-day Eskimo at Barter Island say the village was once located at the E end of Pokok Lagoon.

Pokoynaya, Gavan: estuary, see Quiet Harbor.

Poktovik Creek: stream, heads in Poktovik Mountains flows S 8 miles to Noatak River, 17 miles SSW of Misheguk Mountain, Brooks Range; 68° 00' N, 161° 14' W; (map 131). Eskimo name reported by USGS in 1956.

Poktovik Mountains: mountains, 3,526 ft., in De Long Mountains, extend E-W 14 miles, 10 miles S of Misheguk Mountain, Brooks Range; 68° 05' N, 161° 15' W; (map 131). Eskimo name obtained at Noatak by Orth in 1956.

Polar Bear Creek: stream, 2 miles long, flows NW to Fork Creek, 13.5 miles NW of Heart Lake and 72 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 12' 10" N, 160° 01' 00" W; (map 59). Local name reported in 1955 by J. M Hoare, USGS.

Polar Bear Creek: stream, flows NE 6 miles to Cripple River, 26 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 56' N, 163° 41' W; (map 110). Prospectors' name reported in 1901 by USGS (Collier, 1902, pl. 12).

Polar Bear Mountain: mountain, see Polar Bear Peak.

Polar Bear Peak: mountain, 6,955 ft., at head of South Fork Eagle River, 21 miles E of Anchorage, Chugach Mountains; 61° 09' 10" N, 149° 11' 45" W; BGN 1966; (map 69). Variant: Polar Bear Mountain. So named in 1963 by members of the Mountaineering Club of Alaska because "the peak has a snow patch on its North face that resembles a polar bear skin."

Polar Bear Peak: peak, see Eagle Peak.

Polar Creek: stream, flows NE 1.4 miles to Bear Creek, 25 miles N of Haycock, Seward Peninsula Highlands; 65° 34' N, 161° 06' W; (map 109). Variant: Poplar Creek. Local name shown on a 1903 fieldsheet by D. C. Witherspoon, USGS.

Polar Creek: stream, flows NW to Kuzitrin River, downstream from mouth of Noxapaga River, about 15 miles NW of Mount Bendeleben, Seward Peninsula Highlands; (map 110). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This stream cannot be precisely located on current maps.

Polar Creek: stream, flows SW 1 mile to Sourdough Creek, 9.5 miles NW of Mount Ryan and 76 miles SW of Circle, Yukon-Tanana Highlands; 65° 20' 45" N, 146° 27' 50" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Polar Creek: stream, flows W to Kougarok River between Galvin and Louise Creeks, about 17 miles S of Midnight Mountain and 45 miles SW of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This stream cannot be precisely located on current maps.

Polaraskh-mute: locality, in vicinity of Cape York, on Bering Sea coast, about 35 miles NW of Teller, Seward Peninsula Highlands; (map 111). Variant: Pelazuk. Site of an Eskimo village or camp reported to have been visited in 1886 by Capt. D. B. Libby and M. W. Harrington, of the Western Union Telegraph Exploration. This may have been the village later known as "Pelazuk."

Polavina Hill: hill, see Polovina Hill.

Polavina Lake: lake, see Polovina Lake.

Polavina Point: point of land, see Halfway Point.

Polavina Sopka: hill, see Polovina Hill.

Polavina: rookery, see Polovina Rookery.

Pole Anchorage: bay, 0.6 miles long, W of Fishermans Harbor, SW coast of Kosciusko Island, Alexander Archipelago; 55° 58' N, 133° 49' W; (map 4). Local name published in 1901 by USC&GS; derived from Cape Pole.

Pole Island: barrier island, 2.5 miles long, on Beaufort Sea coast, westernmost island of Stockton Islands, 19.5 miles NW of Flaxman Island Arctic Plain; 70° 18' 15" N, 147° 02' 10" W, (map 150). In 1910 Leffingwell (1919, p. 98) wrote "This may not have been the original location, for there is no settled usage among the whalers." This island was named by whalers probably because a pole once was erected on its shore to identify the island.

Pole Point: point of land, on SW coast of Herbert Graves Island, 5 miles W of Chichagof, off W coast of Chichagof Island, Alexander Archipelago, 57° 39' 40" N, 136° 13' 45" W; (map 9). Local name published by USC&GS in the 1925 Coast Pilot (p. 319).

Pole, Cape: point of land, on SW coast of Kosciusko Island, Alexander Archipelago; 55° 57' 25" N, 133° 49' 00" W; (map 4). Named on September 22, 1793, by Capt. George Vancouver, RN, for Capt. Charles Morice Pole, RN (Wagner, 1937, p. 402).

Poleakoon, Point: point of land, on coast of Beaufort Sea, on SE shore of Smith Bay, Arctic Plain; 70° 49' N, 154° 01' W; (map 148). Variant: Point Poleakun. Eskimo name shown on Maguire's chart (Great Britain, 1854, facing p. 186). Leffingwell (1919, p. 98) spells it Poleakun.

Poleakun, Point: point of land, see Poleakoon, Point.

Poletica, Mount: peak, 7,620 ft., on Alaska-British Columbia boundary, 11 miles SE of Mount Canning, 37 miles SE of Skagway, Coast Mountains; 59° 07' 55" N, 134° 29' 00" W; BGN 1923; (map 44). Variant: Boundary Peak 102. Named in 1923 by Lawrence Martin for M. Pierre de Poletica, Russian minister to the U.S. and a plenipotentiary in the Alaska boundary negotiations with Great Britain in 1824.

Politofski Lake: lake, 1.4 miles long, 8 miles NE of Whale Bay, on S central Baranof Island, Alexander Archipelago; 56° 44' 30" N, 134° 56' 30" W; BGN 1935; (map 5). Named in 1935 by USFS "for one of the last ships built by the Russians at Sitka in 1863."

Polivnoi Rock: rock, between Umnak and Unalaska Islands, Aleutian Islands; 53° 16' 00" N, 167° 57' 48" W; (map 23). Variant: Kamen Polivnoy. Capt. Tebenkov (1852, map 26), IRN, published the Russian name as "K[amen] Polivnoy" meaning "rock awash".

Polivnoi Rock: rock, see Midway Rock.

Polivnoi Rocks: rock, see Surf Rock.

Polivnoi Rocks: rocks, three rocks in Woewodski Harbor, on SE coast of Admiralty Islands, 26 miles SE of Angoon, Alexander Archipelago; 57° 10' 30" N, 134° 15' 00" W; (map 9). Variant: Polivnoy Kamen, Polivnoy Rock. Russian word meaning "washed over (awash)" given in 1838 by Capt. Lt. D. F. Zarembo. Name applied to the larger of the three rocks in 1848 on Russian Hydrog. Dept. Chart 1396; USC&GS applied the name to all three rocks in 1891 Coast Pilot (p. 142).

Polivnoy Kamen: rocks, see Polivnoi Rocks.

Polivnoy Rock: rocks, see Polivnoi Rocks.

Polivnoy: rock, see Midway Rock.

Polk Creek: stream, flows NW 2.5 miles to head of Polk Inlet, on SE end of Prince of Wales Island, Alexander Archipelago; 55° 19' 00" N, 132° 27' 35" W; (map 4) Local name published in 1943 by USC&GS.

Polk Harbour: bay, see Wolk Harbor.

Polk Inlet: estuary, extends S 9 miles from Skowl Arm Kasaan Bay, near center of Prince of Wales Island, Alexander Archipelago; 55° 25' N, 132° 28' W; (map 4) Named by local fishermen and reported in 1904 by H. C. Fassett, USBF.

Polk Island: island, 0.8 miles long, in Clarence Strait, off SE coast of Prince of Wales Island, Alexander Archipelago; 55° 00' 30" N, 131° 58' 45" W; (map 3) Local navigators' name obtained in 1904 by H. C. Fassett, USBF.

Polk Point: point of land, in Highfield Anchorage, on N coast of Wrangell Island, Alexander Archipelago; 56° 29' 00" N, 132° 21' 30" W; (map 6). Variant: Rock Point. Local name

published in 1909 by USC&GS; “Rock Point” was reported to be in local use in 1904 by H. C. Fassett, USBF.

Polka Peninsula: peninsula, 0.4 miles long, in Glacier Bay National Monument, 1.4 miles NW of Point Villaluenga, on N shore of Grass Sound, 47 miles NW of Hoonah, St. Elias Mountains; 58° 13' 50" N, 136° 42' 30" W; BGN 1930; (map 10). Named by USC&GS in 1929. The point of the peninsula is marked by triangulation station Shelf. The Russian word for shelf is “polka,” the name given to the peninsula.

Polka Rock: rock, in Gulf of Alaska, 0.4 miles W of Polka Peninsula and 47 miles NW of Hoonah, Glacier Bay National Monument, St. Elias Mountains; 58° 13' 45" N, 136° 43' 10" W; BGN 1930; (map 10). Variant: Lone Rock. Probably named in 1929 by USC&GS. The name is derived from Polka Peninsula.

Pollard Gulch: ravine, trends 1.4 miles NW to Copper Creek 3.5 miles SE of its junction with Dan Creek and 19 miles SE of McCarthy, St. Elias Mountains; 61° 20' 05" N, 142° 24' 00" W; (map 67). Local name obtained by USGS and published on maps since 1954.

Polly Creek: stream, flows NE 9 miles to Fortymile River, 35 miles SW of Eagle, Yukon-Tanana Highlands; 64° 18' 25" N, 141° 26' 20" W; (map 102). Variant: Montana Creek. Named by prospectors and reported in 1909 by L. M. Prindle, USGS; called Montana Creek in 1898 by E. C. Barnard, USGS.

Polly Creek: stream, flows SE 8.5 miles to Cook Inlet, 1.9 miles W of Redoubt Point and 45 miles SW of Kenai, Aleutian Range; 60° 17' N, 152° 27' W; (map 62). Name used by local prospectors; reported in 1920 by USGS.

Polly Island: island, 3.5 miles long, in Yukon River 5 miles NNE of Fox Point Island, Innoko Lowland; 63° 07' N, 159° 45' W; (map 91). Riverboat pilots' name shown on a 1940 “Navigation Chart of the Tanana-Yukon Rivers” published by the U.S. Dept. of Interior.

Polnoi Island: island, see Brady Island.

Polocano, Point: point of land, on NE coast of San Fernando Island, Alexander Archipelago; 55° 32' 25" N, 133° 17' 15" W; (map 4). Local name published in 1943 by USC&GS.

Polovina Cliffs Rookery: rookery, see Little Polovina Rookery.

Polovina Cliffs Rookery: rookery, see Polovina Rookery.

Polovina Hill: hill, 470 ft., on E coast of St. Paul Island, in Pribilof Islands; 57° 11' 00" N, 170° 11' 30" W; (map 38). Variant: Polavina Hill, Polavina Sopka, Poluvina Hill. Russian name meaning “halfway” and taken from Halfway Point. It was published by USC&GS in 1875 as “Poluvina Mountain” (Chart 886) and reported by H. W. Elliott, USGS, in 1881 as “Polavina Sopka”. (sopochka), which means “halfway volcano.”

Polovina Lake: lake, 0.4 miles across, on E coast of St. Paul Island, Pribilof Islands; 57° 09' 30" N, 170° 11' 30" W; (map 38). Variant: Polavina Lake. Name reported by Elliott (1881, p. 55). See Polovina Hill.

Polovina Point: point of land, see Halfway Point.

Polovina Rookery: rookery, at Halfway Point, on E coast of St. Paul Island, in Pribilof Islands; 57° 09' 45" N, 170° 10' 30" W; (map 38). Variant: Polavina, Polovina Cliffs Rookery. Elliott (1881, p. 164) writes " 'Polavina,' meaning 'halfway,' so named because the point * * * is nearly half-way between Novastoshnah and the village [St. Paul]." See Polovina Hill.

Polovina Sands: beach, 1 mile long, between Tonki and Halfway Point, on SE coast of St. Paul Island, Pribilof Islands; 57° 09' 30" N, 170° 11' 30" W; (map 38). Local name reported in 1965 by USBF. See Polovina Hill.

Polovinnoi Point: point of land, see Halfway Point.

Polovinnoy, Mys: point of land, see Halfway Point.

Poltava Island: island, 1.3 miles long, in Pacific Ocean, near entrance to Port Wrangell, on S coast of Alaska Peninsula, 37 miles NE of Sutwil Island, Aleutian Range; 57° 00' 30" N, 156° 28' 30" W; (map 36). Variant: Ostrov Poltava, Pultava Island, Pultawa Island. Russian name given in 1832 by Ens. Vasiliev; published in 1836 by Capt. F. P. Lutke, IRN, as "O[strov] Poltava," meaning "Poltava Island."

Poltes Island: island, see Arbor Island.

Poltes Slough: stream, channel of Yukon River, extends 19 miles N and W of Moonlight Point and Arbor Island, NW of Marshall, Yukon- Kuskokwim Delta; 61° 58' N, 162° 14' W; (map 74). Riverboat pilots' name. So named for "Capt. Otto Polte, a steamboat captain who died in Seattle about 1940," and reported on a fieldsheet by R. H. Sargent, USGS, dated 1916.

Poludennie, Mys: point of land, see Noon Point.

Poluostrov, Mys: point of land, see Sabak, Cape.

Poluvina Hill: hill, see Polovina Hill.

Polychrome Glacier: glacier, 2 miles long, 6 miles SE of Polychrome Mountain and 40 miles SW of Healy, Alaska Range; 63° 27' 30" N, 149° 50' 25" W; (map 87). Name taken from the name of the pass into which it flows; published in 1954 by USGS.

Polychrome Mountain: mountain, NE peak 5,150 ft., SW peak 5,790 ft., 38 miles SW of Healy, Alaska Range; 63° 32' N, 149° 55' W; (map 87) Name taken from name of the adjoining pass; published in 1954 by USGS.

Polychrome Pass: pass, 3,500 ft., between Toklat River and East Fork Toklat River, S of Polychrome Mountain, 38 miles SW of Healy, Alaska Range; 63° 31' N, 149° 56' W; (map 87). Descriptive name reported in 1916 by C. E. Giffin, USGS.

Pomeroy Creek: stream, flows NW Island 1 mile to Iniskin Bay, 22 miles N of Augustine Island, Aleutian Range; 59° 40' 00" N, 153° 23' 20" W; BGN 1962; (map 51). Local name derived from Mount Pomeroy on which the stream heads and published by USGS in 1958.

Pomeroy Island: island, 0.5 miles long, in Cook Inlet, 3 miles S of Mount Pomeroy and 18 miles N of Augustine Island, Aleutian Range; 59° 37' N, 153° 22' W; BGN 1916; (map 51). Name derived from nearby Mount Pomeroy and published in 1915 on USC&GS Chart 8554.

Pomeroy, Mount: mountain, 2,385 ft., on Iniskin Peninsula, 21 miles N of Augustine Island, Aleutian Range; 59° 39' 30" N, 153° 21' 30" W; (map 51). Named for a local prospector Pomeroy, who joined another prospector, named Griffen, and formed the Alaska Petroleum Co. in 1897. Name published by G. C. Martin (1905, pl. 4), USGS.

Pond Bay: bay, 3 miles long, N coast of Duke Island, Alexander Archipelago; 54° 58' 30" N, 131° 20' 00" W; (map 2). Named in 1883 by Lt. Comdr. Nichols, USN, for Ens. C. F. Pond, USN, a member of his party.

Pond Bay: estuary, extends W 2 miles off Kaigani Strait, on SE coast of Dall Island, Alexander Archipelago; 54° 48' 30" N, 132° 44' 45" W; BGN 1929; (map 1). Variant: Seal Bay. Named in 1881 by Lt. Comdr. Nichols, USN, for Ens. Charles Fremont Pond, USN, a member of his party.

Pond Creek: stream, flows NE 9 miles to Wind; Cove in Imuruk Basin, 23 miles SE of Teller. Seward Peninsula Highlands; 65° 04' N, 165° 44' W; (map 111) Local name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS

Pond Creek: stream, flows SW 1 mile to Kilignak Creek 1.7 miles N of its junction with Ogotoruk Creek, 8 miles NE of Cape Thompson, Arctic Slope; 68° 10' 35" N, 165° 41' 20" W; BGN 1963; (map 129). Named about 1962 by personnel of Project Chariot.

Pond Island: island, 1.2 miles across, in Kelp Bay, on NE coast of Baranof Island, 23 miles NE of Sitka, Alexander Archipelago; 57° 17' N, 134° 53' N (map 9). Descriptive name given in 1895 by Lt. Comdr. Moore, USN, "because of two small ponds at the south end of the island." The name was published by USC&GS in the 1901 Coast Pilot (p. 160).

Pond Island: island, see Axel Lind Island

Pond Lake: lake, 0.3 miles long, on Kenai Peninsula, SE of Lonely Lake, 31 miles NE of Kenai, Cook Inlet Lowland; 60° 47' 10" N, 150° 32' 15" W, (map 62). Named about 1963 by officials of Kenai National Moose Range for administrative purposes.

Pond Reef: reef, extends 0.2 miles off SW coast of Revillagigedo Island, in Tongass Narrows, 1.5 miles SE of Point Higgins, Alexander Archipelago; 55° 26' 15" N, 131° 48' 45" W; (map 3). Local name published by USC&GS in the 1883 Coast Pilot (p. 81).

Pond Rock: rock, in Kaigani Strait, 0.5 miles NW of Channel Islands, E of Dall Island, Alexander Archipelago; 54° 53' 15" N, 132° 50' 00" W; (map 1). Named by Lt. Comdr. Nichols, USN in 1881. See Pond Bay.

Ponglevik River: stream, heads in lake S of Ungulungwak Hill, flows W 20 miles to Anakshek Pass, 33 miles S of Kwiguk, Yukon-Kuskokwim Delta; 62° 16' 10" N, 164° 35' 50" W; (map 77). Eskimo name obtained in 1948 by USC&GS.

Ponlouktoule Creek: stream, see Ponluktule Creek.

Ponluktule Creek: stream, flows NW 2 miles to Norton Sound, 1.8 miles S of Tolstoi Point and 19 miles SW of Unalakleet, Nulato Hills; 63° 36' 45" N, 161° 01' 00" W; (map 91). Variant: Ponlouktoule Creek. Eskimo word for "blackberry" reported in 1952 by USC&GS.

Ponrakvirak Hill: hill, 602 ft., 2 miles S of Iyikrok Mountain and 28 miles NE of Kivalina, Brooks Range; 67° 55' N, 163° 40' W; (map 128). Variant: Paunraqviizak, Pownrakveerak. Eskimo name meaning "little blackberry place" reported in 1966 by E. S. Burch.

Pontag Creek: stream, flows W 11 miles to North Fork Kuskokwim River, 42 miles NE of Medfra Kuskokwim Lowland; 63° 28' N, 153° 39' W, (map 89). Local name reported in 1958 by USGS.

Ponte Point: point of land, on W bank of Davis Creek, 0.5 miles S of Mitchell Bay on Admiralty Island, 5.5 miles NE of Angoon, Alexander Archipelago, 57° 31' 30" N, 134° 26' 25" W; (map 9). Variant: Ponte's Point. Named by Comdr. R. W. Meade, USN, in 1869, for a Mr. Ponte [cna], "an expert on coal" employed on board the USS Saginaw, which Meade commanded in 1868-1869 while mapping this area. The name does not appear on recent maps.

Ponte's Point: point of land, see Ponte Point.

Pony Cove: cove, 1 mile wide, on E coast of Aialik Peninsula, 26 miles S of Seward, Chugach Mountains; 59° 45' N, 149° 33' W; BGN 1930; (map 49). This was called "Pony Bay" by the 1928 USC&GS field party. The generic was changed by BGN "because of smallness of feature."

Pony Point: point of land, on S shore of Chiniak Bay 0.8 miles SE of Midway Point and 14 miles SE of Kodiak, Kodiak Island; 57° 37' N, 152° 15' W; (map 34). Local name reported in 1949 by USGS.

Poo wowa luk: locality, see Powoiliak Camp.

Poo-oosalook Lagoon: lagoon, see Pusaluk Lagoon.

Poo-oosalook Mountain: hill, see Pusaluk Mountain.

Poogooviliak: locality, see Powoiliak Camp.

Poogovellyak: locality, see Powoiliak Camp.

Poohseegrux Lagoon: lagoon, see Pusigrak Lagoon.

Pool Creek: stream, flows SW 6.5 miles to Smith Creek, 76 miles SW of Circle, Yukon-Tanana Highlands; 65° 17' N, 146° 20' W; (map 104). Named by prospectors; reported in 1903 by T. G. Gerdine (Prindle, 1905, pl. 13), USGS.

Poongook Islands: islands, see Penuk Islands.

Poonook: locality, see Penuk.

Poor Man Bay: cove, 0.8 miles across, in Kasaan Bay, on E coast of Prince of Wales Island, Alexander Archipelago; 55° 32' 45" N, 132° 25' 45" W; (map 4) Local name recorded in 1949 by USGS.

Poor Man Creek: stream, heads in a lake near head of Kasaan Peninsula, Prince of Wales Island, flows S 2 miles to Poor Man Bay, Alexander Archipelago; 55° 33' N, 132° 26' W; (map 4). Local name recorded in 1949 by USGS.

Poorman Creek: stream, flows N 0.9 miles to Crooked Creek, 8.5 miles NE of Tahnetta Pass and 65 miles SW of Gulkana, Talkeetna Mountains; 62° 00' 30" N, 147° 17' 00" W; BGN 1960; (map 82). Local name published by Theodore Chapin (in Brooks and others, 1915, fig. 3), USGS.

Poorman Creek: stream, heads at 64° 04' 45" N, 155° 23' 45" W, flows SW 15 miles to North Fork Innoko River, 55 miles SW of Ruby, Kilbuck-Kuskokwim Mountains; 63° 58' N, 155° 59' W; BGN 1936; (map 89). Local name reported in 1913 by Eakin (1914, pl. 2), USGS.

Poorman Creek: stream, heads in Dutch Hills, flows SE 2.3 miles to Cottonwood Creek, 27 miles NW of Talkeetna, Alaska Range; 62° 33' 45" N, 150° 47' 25" W; (map 81). Prospectors' name reported in 1906 by E. A. Porter, USGS.

Poorman Creek: stream, in Nutzotin Mountains, heads on Gold Hill, flows N 1 mile to Gold Run Creek, 6 miles NW of Beaver Lake, Alaska Range; 62° 07' 15" N, 141° 53' 20" W; BGN 1936; (map 84). Local name published by USGS (in Brooks and others, 1915, pl. 9).

Poorman: settlement, pop. 20, on left bank of Poorman Creek, 7 miles SW of Sulatna Crossing and 44 miles S of Ruby, Kilbuck- Kuskokwim Mountains; 64° 06' N, 155° 33' W; BGN 1944; (map 98). This mining camp came into being with the discovery of gold on Poorman Creek in 1913 and was named for the stream. A post office was maintained there from 1915 to 1952.

Pooseegruk Lagoon: lagoon, see Pusigrak Lagoon.

Poovkuk Mountain: mountain, see Poovookpuk Mountain.

Poovookpak Mountain: mountain, see Poovookpuk Mountain.

Poovookpuk Mountain: mountain, 1,517 ft., in Poovoot Range, 10 miles NW of Southwest Cape, St. Lawrence Island; 63° 27' N, 171° 34' W; BGN 1951; (map 93). Variant: Mount Poovukpuk, Mount Poovookpuk, Poovookpak Mountain, Poovkuk Mountain, Poovukpak,

Puvutpak. Eskimo name, meaning “big Puvat” [Puvutpak], reported in 1932 by O. W. Geist, Univ. of Alaska.

Poovoot Mountains: mountain range, See Poovoot Range.

Poovoot Range: mountain range, 1,517 ft.; extends SW 20 miles from Taphook Point, 20 miles SE of Gambell, St. Lawrence Island; 63° 30' N, 171° 28' W; BGN 1951; (map 93). Variant: Poovoot Mountains, Puvut Mountains. Eskimo name recommended by the Gambell village council and reported in 1949 by Maj. H. B. Allen, USAF.

Poovukpuk, Mount: mountain, see Poovookpuk Mountain.

Poovukpuk: mountain, see Poovookpuk Mountain.

Poowoiliak Camp: locality, see Powoiliak Camp.

Poovookpuk, Mount: mountain, see Poovookpuk Mountain.

Pop Mountain: mountain, 2,204 ft., on Annette Island, N of Trout Lake, between Janesville and Tired Mountains, Alexander Archipelago; 55° 10' N, 131° 29' W; BGN 1900; (map 3). Variant: Top Mountain. Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Pop Point: point of land, on N shore of Thorne Arm, on S coast of Revillagigedo Island, Alexander Archipelago; 55° 23' 35" N, 131° 12' 00" W; (map 3) Arbitrary name given in 1891 by USC&GS.

Pope Creek Dome: mountain, 2,850 ft., in Jack White Range, 20 miles E of Bettles, Brooks Range; 66° 57' N, 150° 58' W; (map 117). Local name reported in 1956 by T. E. Taylor, USGS.

Pope Creek: stream, flows N 6 miles to Harriet Creek 0.5 miles S of its junction with Koyukuk River, 39 miles SW of Wiseman, Brooks Range; 67° 01' 15" N, 151° 08' 00" W; BGN 1932; (map 124). Variant: Popes Creek. Local name reported by Robert Marshall to have been in use since 1898 and shown as “Popes Creek” on a map of the Koyukuk River, published in 1899, compiled by G. H. Wonson, master of the steamer Dorothy.

Poperechni Island: island, see Broad Island.

Poperechnoi Island: island, 4 miles long, 3 miles E of Dolgoi Island, one of Pavlof Islands, Aleutian Range; 55° 05' N, 161° 34' W; (map 28). Variant: Kuiagdak, Popereshnoi, Poperetchny. Named Poperechnoi, meaning “crosswise,” on Russian Hydrog. Dept. Chart 1379 (1847); the island is also shown on an 1890 USBF chart. The Aleut name is “Kuiagdak.”

Poperechnoi Islet: islands, see Crosswise Islands.

Poperechnoy, Ostrov: islands, see Crosswise Islands.

Poperechnyy, Ostrov: island, see Broad Island.

Popereschnoi: island, see Poperechnoi Island.

Poperech Islands: island, see Broad Island.

Poperechny: island, see Poperechnoi Island.

Popes Creek: stream, see Pope Creek.

Popes River: stream, or slough, flows W to Bering Sea, in Yukon Delta area, N of Scammon Bay; 62° 10' N, 165° 30' W; (map 76). The identity of the stream called "Popes" by Dall (1870, p. 275), is not certain. He lists it as the second stream, going north, between Scammon Bay and the Yukon delta. It may have been named by Dall for Frank L. Pope, assistant engineer of the Western Union Telegraph Expedition of 1865. The present application of the name was given by USC&GS in 1925.

Poplar Creek: stream, flows NE 3.3 miles to Bear Creek, 26 miles N of Haycock, Seward Peninsula Highlands; 65° 35' N, 161° 07' W; (map 109). Local name shown on a 1903 fieldsheet by D. C. Witherspoon, USGS.

Poplar Creek: stream, see Polar Creek.

Popocamiut: locality, see Popokamiut.

Popof Bay: bay, see Mill Bay.

Popof Cape: point of land, see Miller Point.

Popof Glacier: glacier, trends SE 5 miles to its 1953 terminus, 0.5 miles SE of Mount Basargin, 19 miles NE of Wrangell, Coast Mountains; 56° 43' 50" N, 132° 12' 10" W; (map 6). Variant: First Glacier, Little Glacier. Russian name given in 1863 by the surveying party of the Rynda. Feature was called "First [or Little] Glacier" in 1877 by Joseph Hunter, Canadian engineer and surveyor. See Rynda Island.

Popof Head: point of land, SE tip of Popof Island, in Shumagin Islands, Aleutian Range; 55° 15' N, 160° 20' W; (map 28). Local name published in 1872, and perhaps named for Vasili and Ivan Popof, traders and fur hunters here in 1762-63.

Popof Island: island, 0.8 miles long, in Chiniak Bay, S of Near Island, 1.5 miles S of Kodiak, Kodiak Island; 57° 46' 00" N, 152° 24' 10" W; (map 34). Variant: Ostrov Popov. Name published as "Os[trov] Popov," or "Popov Island," by Sarichev (1826, map 16).

Popof Island: island, 9 miles long, E of Unga Island in Shumagin Islands, Aleutian Range; 55° 19' N, 160° 24' W; BGN 1954; (map 28). Variant: Bopof Island, Popoff, Popovskoi. Popof is a Russian proper name, often written Popoff. Named Popovskoi by Capt. Tebenkov (1852, map 24), IRN, and on Russian Hydrog. Dept. Chart 1379 (1847); shown as Popof Island on 1890 USBF chart.

Popof Reef: reef, in Popof Strait, in Shumagin Islands, Aleutian Range; 55° 20' 25" N, 160° 30' 30" W; (map 28). Variant: Popoff Reefs. Named Popoff Reefs by W. H. Dall, USC&GS, and shown on 1872 USC&GS chart.

Popof Strait: water passage, extends 16 miles SE From Unga Strait to Pacific Ocean, between Unga and Popof Islands, in Shumagin Islands, Aleutian Range; 55° 16' N, 160° 30' W; (map 28). Surveyed and named in 1872 by W. H. Dall, USC&GS.

Popoff Island: island, see Kutkan Island.

Popoff Reefs: reef, see Popof Reef.

Popoff: island, see Popof Island.

Popofskaia: bay, see Mill Bay.

Popofskie: point of land, see Miller Point.

Popogg Bay: bay, see Mill Bay.

Popokamiut: locality, on right bank of Kuskokwim River at head of Kuskokwim Bay, 2 miles N of Papka and 56 miles SW of Bethel, Yukon-Kuskokwim Delta; 60° 04' N, 162° 28' W; (map 58). Variant: Popocamiut, Popokamute. Eskimo camp or village reported in 1914 by USC&GS. See Papka.

Popokamute: locality, see Popokamiut.

Popov, Ostrov: island, see Popof Island.

Popovich Creek: stream, see Popovitch Creek.

Popovitch Creek: stream, flows S 4 miles to Lignite Creek, 6 miles NE of Healy, Alaska Range; 63° 55' N, 148° 50' W; (map 87). Variant: Popovich Creek. Local name reported in 1916 as "Popovich Creek" by A. G. Maddren, USGS.

Popovskaya, Bukhta: bay, see Mill Bay.

Popovskoi: island, see Popof Island.

Porcupine Bay: bay, 0.4 miles across, at head of Islas Bay, 15 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 49' 50" N, 136° 22' 00" W; BGN 1908; (map 9). Variant: Ahues Bay, Porcupine Harbor. Named in 1908 by USC&GS and published in the 1908 Coast Pilot (p. 168). It was also locally called "Ahues Bay," for Capt. C. E. Ahues, master of a local fishing vessel

Porcupine Butte: mountain, 2,093 ft., in Tordrillo Mountains, between Hayes and Skwentna Rivers, 66 miles NW of Tyonek, Alaska Range; 61° 56' N, 151° 59' W; (map 70). Local name reported in 1958 by USGS.

Porcupine Cove: cove, 0.7 miles wide, on E coast of Aialik Peninsula, 18 miles SW of Seward, Chugach Mountains; 59° 51' N, 149° 35' W; (map 49) Local name reported in the early 1950's by USC&GS.

Porcupine Creek: stream, flows E 13 miles, joins Mammoth Creek to form Crooked Creek, 37 miles SW of Circle, Yukon-Tanana Highlands; 65° 33' 20" N, 145° 09' 00" W; (map 104). Named by prospectors; reported in 1896 by USGS (Spurr, 1898, pl. 50).

Porcupine Creek: stream, flows NE 5 miles to Cripple Creek, 75 miles SE of Bethel, Kilbuck-Kuskokwim Mountains; 60° 45' N, 159° 35' W; (map 59) Prospectors' name reported in 1914 by A. G. Maddren (in Brooks, 1915, pl. 11), US GS.

Porcupine Creek: stream, flows NW 1 5 miles to Steamer Bay, on W coast of Etolin Island, Alexander Archipelago; 56° 07' 40" N, 132° 39' 00" W; (map 6) Named in 1886 by Lt. Comdr. A. S. Snow USN; name published in 1887 on USC&GS Chart 706.

Porcupine Creek: stream, flows NW 20 miles to Salcha River, 49 miles NE of Big Delta, Yukon-Tanana Highlands; 64° 42' N, 144° 21' W; (map 101). Local name reported in 1958 by USGS.

Porcupine Creek: stream, flows S 4.5 miles to Middle Fork Koyukuk River, 2.5 miles N of mouth of Rosie Creek and 13 miles S of Wiseman, Brooks Range; 67° 13' 45" N, 150° 16' 00" W; (map 124). Local name shown on an 1899 fieldsheet by T. G. Gerdine, USGS.

Porcupine Creek: stream, flows SE and SW, 4.8 miles to Kuskulana River, 29 miles NW of McCarthy, Wrangell Mountains; 61° 35' N, 143° 48' W; (map 67). Local name reported on a manuscript map of Copper River and Northwestern Railway, Chitina Branch Line, dated 1909.

Porcupine Creek: stream, flows W 7 miles to Tanana River, 10 miles E. of Tok, Yukon-Tanana Highlands; 63° 23' N, 142° 41' W; (map 85). Local name reported by USGS in 1949.

Porcupine Creek: stream, heads at junction of Deadwood and Guggenheim Creeks, flows NW 7 miles to Dishna River, 22 miles NE of Flat, Kilbuck-Kuskokwim Mountains; 62° 40' 45" N, 157° 29' 30" W; (map 79). Local name obtained in 1952 by USGS topographers.

Porcupine Creek: stream, heads in a glacier 3.4 miles SW of Porcupine Peak, flows NE 8 miles to Klehini River, 0.7 miles NE of Porcupine, and 32 miles W of Skagway, St. Elias Mountains; 59° 25' 35" N, 136° 13' 10" W; (map 45). Variant: Tlachkahiniku. Prospectors' name reported in 1898 by J. A. Flemer, USC&GS. Aurel and Arthur Krause (1883, map) reported the Tlingit Indian name as "Tlachkahiniku."

Porcupine Creek: stream, heads in glacier, flows E 3.5 miles to Little Bremner River, 1.6 miles NW of mouth of East Fork and 63 miles E of Valdez, Chugach Mountains; 61° 06' 35" N, 144° 21' 50" W; (map 68). Name published by USGS (Moffit, 1914, pl. 1).

Porcupine Creek: stream, heads in Robinson Mountains and flows 3 miles SE and SW to North Channel Yakataga River, 5 miles NE of Cape Yakataga and 100 miles NW of Yakutat,

Chugach Mountains; 60° 07' 30" N, 142° 22' 10" W; BGN 1945; (map 65). Local name reported by USGS in 1945.

Porcupine Creek: stream, heads N of Indian Pass, flows SE 11 miles to Slana River 3.4 miles NE of its junction with Copper River, Alaska Range; 62° 43' N, 143° 53' W; BGN 1963; (map 84). Local name reported by USGS in 1936.

Porcupine Creek: stream, on Alaska Peninsula flows 5.6 miles NW to Becharof Creek 5.5 miles SE of its mouth at E end of Becharof Lake 54 miles NW of Karluk, Aleutian Range; 57° 43' 20" N, 155° 53' 30" W; (map 35). Variant: Arvesta Creek. Local name reported by S. R. Capps, USGS, in 1921. The name "Arvesta" was published for this stream by G. C. Martin (1921, pl. 10), USGS.

Porcupine Creek: stream, on Kenai Peninsula, flows NE 2 miles to Kenai Lake, 1 mile W of Porcupine Island, 20 miles NW of Seward, Chugach Mountains; 60° 23' 00" N, 149° 40' 30" W; (map 63). So named by USFS in 1960 "because it flows into Kenai Lake 1 mile west of Porcupine Island."

Porcupine Creek: stream, on N end of Kenai Peninsula, flows E 2.5 miles to Turnagain Arm, 0.5 miles NW of Hope, Chugach Mountains; 60° 55' 45" N, 149° 39' 25" W; (map 63). Local prospectors' name reported in 1904 by Moffit (1906, pl. 2), USGS.

Porcupine Creek: stream, see Primrose Creek.

Porcupine Creek: stream, see Sulphur Creek.

Porcupine Dome: mountain, 4,915 ft., 48 miles SW of Circle, Yukon-Tanana Highlands; 65° 31' N, 145° 31' W; (map 104). Named by prospectors; reported in 1896 by USGS (Spurr, 1898, pl. 39).

Porcupine Dome: mountain, see Pinnell Mountain.

Porcupine Glacier: glacier, 1.5 miles long, 1 mile SE of Thumb Cove, 10 miles SE of Seward, Chugach Mountains; 60° 00' N, 149° 17' W; BGN 1911; (map 49). Variant: Thumb Cove Glacier. Named in 1909 by U.S. Grant, USGS, "after local name of bay."

Porcupine Grass Lake: lake, 0.8 miles long, 2.3 miles NE of Tetlin, 19 miles SE of Tok, Alaska Range; 63° 10' N, 142° 28' W; (map 85). Local name published by USGS in 1965.

Porcupine Harbor: bay, see Porcupine Bay.

Porcupine Hill: peak, 4,000 ft., 2 miles E of summit of Mount Carmack and 7 miles N of Skagway, Coast Mountains; 59° 33' N, 135° 12' W (map 45). Name given in 1898 by John Nelson, USC&GS.

Porcupine House: locality, at junction of Mammoth and Porcupine Creeks, 37 miles SW of Circle, Yukon-Tanana Highlands; 65° 33' 20" N, 145° 09' 00" W; (map 104). Local name of a former roadhouse, derived from Porcupine Creek; reported in 1896 by USGS (Spurr, 1898, pl. 50).

Porcupine Island: island, 6 miles across, in Iliamna Lake between Pedro and Pile Bays, 36 miles NW of Augustine Island, Aleutian Range; 59° 45' N, 154° 08' W; (map 51). Name published by Martin and Katz (1912a, pl. 1), USGS.

Porcupine Island: island, on Kenai Peninsula, 0.7 miles across, in Kenai Lake, 22 miles NW of Seward, Chugach Mountains; 60° 24' 15" N, 149° 38' 00" W, (map 63). Named in 1898 by Mendenhall (1900, map 16), USGS.

Porcupine Islands: islands, 1 mile across, includes Winifred and Beric Islands, 15 miles NW of Chichagof, off W coast of Chichagof Island, Alexander Archipelago; 57° 48' N, 136° 23' W; BGN 1908; (map 9). Variant: Groundhog Islands. So named in 1908 by USC&GS "because of the porcupine shape of the wooded outer or Beric Island." The name was published in the 1908 Coast Pilot (p. 168).

Porcupine Lake: lake, 1.2 miles long, on Kenai Peninsula NW of Gavia Lake, 25 miles NE of Kenai, Cook Inlet Lowland; 60° 42' 15" N, 150° 37' 00" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Porcupine Lake: lake, 1.5 miles long, in Philip Smith Mountains 14 miles NW of Carter Pass; 68° 47' N, 146° 28' W; BGN 1960; (map 136). So named by USGS geologists in 1948 "because so many porcupines were seen in the area."

Porcupine Peak: mountain peak, 5,330 ft., 4.6 miles S of Porcupine, 33 miles W of Skagway, St. Elias Mountains; 59° 21' 15" N, 136° 13' 30" W; (map 45) Local name derived from the locality of Porcupine; reported by E. C. Robertson, geologist, and published in 1952 by USGS.

Porcupine Point: point of land, at S entrance to Port Fidalgo, 35 miles NW of Cordova, Chugach Mountains; 60° 44' 30" N, 146° 42' 00" W; (map 64). Named in 1898 by Capt. Abercrombie (1900, map), USA, during his exploration of the Copper River region.

Porcupine Ridge: ridge, 800 ft., extends E- W 8.5 miles between Takotna and Tatalina Rivers, 4 miles NW of McGrath, Kilbuck- Kuskokwim Mountains; 63° 00' N, 155° 45' W; (map 80). Local name published in 1921 by USGS.

Porcupine River: stream, heads in Canada at 65° 28' N, 139° 32' W, flows W 460 miles to Yukon River 2 miles NW of Fort Yukon, Yukon Flats; 66° 34' 30" N, 145° 19' 00" W; (map 119). BGN 1944. Name probably given before 1865 by agents of the Hudson's Bay Company.

Porcupine River: stream, heads in Lake Elfendahl, flows SW 1 mile through Lake Helen to Porcupine Bay, 15 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 49' 55" N, 136° 21' 10" W; (map 9). Named in 1928 by USC&GS for Porcupine Bay. The name was published in 1928 on Chart 8258.

Porcupine River: stream, right-hand tributary to Skagway River, about 5 miles NE of Skagway; (map 45). This river, crossed by a horse bridge on the "Skagway Trail" to White Pass, was well known during the Klondike gold rush. It is shown on a sketch map in "En

Route to the Klondike," a series of photographic views by F. LaRoche, published in 1898 by W. B. Conkey Co., Chicago. The river is not identified on modern maps.

Porcupine Rock: rock, 1.5 miles W of Porcupine Islands, 16 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago, 57° 48' 00" N, 136° 25' 10" W; (map 9). Named in 1908 by USC&GS probably for the Porcupine Islands. The name was published in the 1908 Coast Pilot (p. 168).

Porcupine: locality, 0.6 miles SW of mouth of Porcupine Creek, on Klehini River, 32 miles W of Skagway, St. Elias Mountains; 59° 25' 15" N, 136° 14' 15" W; (map 45). A mining camp named by prospectors for Porcupine Creek. The town was established in 1898 as a result of the discovery of gold along the creek. The following year it had a population of 200, and in 1901 a post office of this name was established. In 1903 the town consisted of a dozen or more houses and log cabins, a trading store, a hotel, and about 80 people during the summer, but during the winter it was practically deserted (Wright, 1904, p. 11).

Porfia, Cabo de: point of land, "near entrance to Port Santa Cruz in Bucareli Bay." Spanish name frequently given when there was difficulty in rounding a cape. Named by the 1779 Don Ignacio Arteaga expedition (Wagner, 1937, p. 485).

Porgo Creek: stream, in Baird Mountains, flows NE 8.5 miles to Noatak River, 5.5 miles NW of its junction with Kaluktavik River, 55 miles NE of Noatak, Brooks Range; 67° 58' 30" N, 161° 09' 00" W; (map 127). Eskimo name obtained in 1955 by U.S. Army Corps of Engineers.

Poroga, Ostrov: island, see Rapids Island.

Poroshki Bay: bay, see No Thorofare Bay.

Poroshki, Bukhta: bay, see No Thorofare Bay.

Porphyry Creek: stream, flows SE 4 miles to Willow Creek, 56 miles SW of Eagle, Yukon-Tanana Highlands; 64° 12' 40" N, 142° 26' 50" W; (map 102). Local name reported in 1956 by USGS.

Porphyry Gulch: ravine, extends N from Albert Creek, 8 miles N of Tahnetta Pass, 62° 00' N, 147° 20' W; (map 82). Local name published by G. C. Martin and J. B. Mertie (in Brooks and others, 1914, pl. 11), USGS.

Porphyry Gulch: ravine, on E slope of White Mountain, S of Nabesna, Wrangell Mountains; 62° 23' N, 143° 02' W; BGN 1939; (map 84). Local name reported in 1939 by P. S. Smith, USGS.

Porphyry Hill: hill, about 1,200 ft., 17 miles SE of Flat, Kilbuck-Kuskokwim Mountains; 62° 13' N, 157° 56' W; (map 79). Name reported in 1945 by USGS; but it appears the name has never become established or used.

Porphyry Mountain: mountain, 5,600 ft., E of Kennicott Glacier, 4 miles NE of McCarthy, Wrangell Mountains; 61° 28' 15" N, 142° 49' 30" W; (map 67). Local name reported in 1908

by D. C. Witherspoon (Moffit and Capps, 1911, pl. 3), USGS. So named because the mountain is largely composed of porphyry, a type of igneous rock.

Porpoise Harbor: bay, 1.8 miles across, on NW coast of Nagai Island, in Shumagin Islands, Aleutian Range; 55° 12' N, 159° 59' W; (map 27). Named by USC&GS in 1871 for the small schooner Porpoise which wintered here before that date.

Porpoise Islands: islands, group at junction of Icy Passage and Icy Strait, 5 miles S of village of Excursion Inlet and 38 miles W of Juneau, St. Elias Mountains; 58° 20' N, 135° 28' W; (map 11). Named in 1880 by the U.S. Navy and published by USC&GS in the 1883 Coast Pilot (p. 190).

Porpoise Point: point of land, on N shore of Boca de Quadra, 1.9 miles W of entrance to Mink Bay, Coast Mountains; 55° 05' 35" N, 130° 46' 20" W; (map 3). One of many arbitrary names applied to features in this area in 1891 by USC&GS.

Porpoise Rocks: rocks, near Hinchinbrook Island, at W entrance to Port Etches, 35 miles SW of Cordova, Chugach Mountains; 60° 19' N, 146° 41' W; (map 64). Variant: Bird Rocks, Los Negritos, Ostrova Ptichi. Name published in 1869 Coast Pilot (p. 156). They were called "Ostrova Ptichi," meaning "bird islands," in 1830 by the Russian pilot Ivan Chernovo. The rocks were called "Los Negritos," i.e. "the little black ones," on an anonymous 1779 Spanish "piano."

Porpoise Rocks: rocks, off NW coast of Nagai Island, in Shumagin Islands, Aleutian Range; 55° 14' 30" N, 159° 57' 30" W; (map 27). Name published on USC&GS Chart 8700 (1943).

Porpoise Rocks: rocks, see Phocena Rocks.

Port Alexander: village, pop. 18, on SE coast of Baranof Island, on W side of Chatham Strait, Alexander Archipelago; 56° 15' 00" N, 133° 38' 40" W; (map 5). Fishing village, once the center of the largest trolling fleet in Alaska (Balcom, 1965, p. 67). Named for the estuary it is located on. Its population was 107 in 1930; 87 in 1939; and 22 in 1950. The Port Alexander post office was established in 1926.

Port Alsworth: village, pop. 34, on SE shore of Lake Clark at Hardenburg Bay, 22 miles NE of Nondalton, Aleutian Range; 60° 12' N, 154° 19' W; BGN 1959; (map 61). Variant: Tanalian, Tanalian Point. Village and airfield. The Port Alsworth post office was established in 1950 (Ricks, 1965, p.52).

Port Althorp: locality, on N coast of Chichagof Island, on Port Althorp, 1.9 miles SE of Point Lucan, and 32 miles W of Hoonah, Alexander Archipelago; 58° 07' 55" N, 136° 19' 50" W; (map 10). Name derived from the bay of Port Althorp. A cannery was located here in 1941.

Port Armstrong: locality, on N shore of Port Armstrong, 3.3 miles N of village of Port Alexander, on S coast of Baranof Island, Alexander Archipelago; 56° 17' 50" N, 134° 39' 45" W; (map 5). Former cannery, now a herring reduction plant. In 1933 its population was estimated to be 100. The Port Armstrong post office was approved in 1913 but was never in operation (Ricks, 1965, p. 52).

Port Ashton: village, on E coast of Evans Island, NW shore of Sawmill Bay, 17 miles S of Chenega, Chugach Mountains; 60° 03' 30" N, 148° 03' 00" W; (map 63). Fishing village reported in 1943 by USC&GS. A post office was established here in 1952 (Ricks, 1965, p. 53).

Port Benney: locality, on E coast of Evans Island N side of Sawmill Bay, 16 miles SSE of Chenega, Chugach Mountains; 60° 03' 43" N, 148° 01' 02" W; (map 63). Fishing village reported in 1943 by USC&GS, now abandoned.

Port Chester: town, see Metlakatla.

Port Chilkoot: village, pop. 120, 0.4 miles S of Haines, on Portage Cove, Chilkoot Inlet, 17 miles SSW of Skagway, Coast Mountains; 59° 13' 45" N, 135° 26' 10" W; (map 45). Variant: Chilkoot Barracks, Fort William H. Seward. The War Department made a permanent military post here in 1904, called Fort William H. Seward in honor of the purchaser of Alaska. In 1922 the name was changed to Chilkoot Barracks after the Chilkoot tribe of Tlingit Indians living in this area. The post was abandoned in 1943 and the land and buildings were bought by private citizens who called the "new" town "Port Chilkoot." The fort had a population of 255 in 1910; 186 in 1920; 234 in 1930; and 337 in 1939. Port Chilkoot's population was 125 in 1950.

Port Chilkoot: village, see Glennallen.

Port Clarence River: stream, see Kuzitrin River.

Port Clarence: area, around bay of Port Clarence and Grantley Harbor, Seward Peninsula Highlands; 65° 15' N, 166° 30' W; (map 111). The 11th Census (U.S. Bureau of the Census, 1893, p. 8) listed a collective village of "Port Clarence" with a population of 485, of which 236 were native, and 249 were foreign.

Port Crawford: locality, on NW coast of Latouche Island, 17 miles SE of Chenega, Chugach Mountains; 60° 04' 09" N, 147° 52' 31" W; (map 63). Former mining camp reported in 1943 by USC&GS. Recent USGS maps indicate a site with one building.

Port Dick Creek: stream, flows E 4.5 miles to West Arm Port Dick, 17 miles SE of Seldovia, Chugach Mountains; 59° 18' 30" N, 151° 20' 00" W; (map 50). Local name reported by Grant and Higgins (1913, pl. 2), USGS.

Port Graham: village, pop. 139, on S shore of Port Graham, Kenai Peninsula, 7.5 miles SW of Seldovia, Chugach Mountains; 59° 21' 10" N, 151° 49' 30" W; BGN 1941; (map 50). Variant: Port Grahame. This place originally a cannery and wharf: reported by U. S. Grant and D. F. Higgins, USGS, in 1909. A post office was established in 1938, and discontinued in 1961.

Port Grahame: village, see Port Graham.

Port Heiden: village, pop. 74, on N shore of Alaska Peninsula, on N shore of Port Heiden, 20 miles W of Aniakchak Crater, Bristol Bay Lowland; 56° 55' N, 158° 41' W; (map 30). Variant: Mashik, Meshik, Mishik. This settlement was formerly an Eskimo village spelled "Mishik" by

USC&GS in 1902. The Port Heiden Airfield is located a few miles north. The Port Heiden post office operated from 1912 to 1915. The population of Port Heiden was 30 in 1920 and 51 in 1930.

Port Herbert: locality, at head of Port Herbert, 14 miles NW of Port Alexander, on E coast of Baranof Island, Alexander Archipelago; 56° 26' 35" N, 134° 44' 30" W; (map 5). Local name published by USC&GS in 1901 Coast Pilot (p. 149).

Port Higgins: settlement, pop. 66, on SW coast of Revillagigedo Island SE of Point Higgins, 8 miles NW of Ketchikan, Alexander Archipelago; 55° 27' N, 131° 49' W; (map 3). This is an extension of the settlement area northwest of Ketchikan along the highway.

Port Hobron: locality, on E shore of Port Hobron, N coast of Sitkalidak Island, SE of Kodiak Island; 57° 09' 40" N, 153° 09' 00" W; (map 34). Variant: Fugitive. Name derived from Port Hobron and published in 1952 by USGS. This name was probably given for an abandoned whaling station at this site. Baker (1906, p. 268) wrote, "Lisianski, 1805 (1814, p. 178), mentions a 'thriving village' of this name [Fugitive] on Sitkalidak island * * *. It appears to have been on or near the Port Hobron of recent maps."

Port Island: island, 250 ft. across, in Surveyor Passage, 2.5 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 41' 40" N, 136° 07' 50" W; BGN 1908; (map 9). Named in 1908 by the USC&GS and published in the 1908 Coast Pilot (p. 174). "The first syllable of the name 'Portlock [Capt. Nathaniel]' suggested this name." See Portlock Harbor.

Port Lions: village, pop. 190, on Settler Cove, near mouth of Kizhuyak Bay, 18 miles NW of Kodiak, N coast of Kodiak Island; 57° 52' N, 152° 53' W; BGN 1966; (map 34). The village was built in 1964 by the Lions International for the displaced inhabitants of Afognak. A tidal wave, resulting from an earthquake on March 27, 1964, destroyed most of their village. See Afognak.

Port Moller: village, pop. 33, on Entrance Point, Alaska Peninsula, Bristol Bay Lowland; 55° 59' 30" N, 160° 34' 30" W; (map 28). Variant: Mashik, Mashikh. Named for the bay; site of a cannery since about 1916. A post office was maintained here from 1952 to 1955. The native village at Port Moller was called Mashikh by Island Petroff in the 10th census in 1880.

Port Nellie Juan: locality, on E coast of Kenai Peninsula, NE shore of McClure Bay, 20 miles NW of Chenega, Chugach Mountains; 60° 33' 00" N, 148° 09' 45" W; (map 63). Variant: West Gable Cannery. Name of a cannery published on a 1952 USGS map.

Port O'Brien: locality, on E shore of Northeast Arm Uganik Bay, N coast of Kodiak Island; 57° 44' N, 153° 19' W; (map 34). Local name published in 1943 by USC&GS.

Port Protection: locality, on S shore of Wooden Wheel Cove, 2.2 miles S of village of Point Baker, on NW coast of Prince of Wales Island, Alexander Archipelago; 56° 19' 20" N, 133° 36' 35" W; (map 6). This is a trading post and fish-buying station. A general store is also maintained here (U.S. Coast and Geodetic Survey, 1962, p. 106).

Port Safety: locality, on spit between Safety and Norton Sounds, 6 miles E of Cape Nome and 14 miles SW of Solomon, Seward Peninsula Highlands; 64° 27' N, 164° 49' W; (map 95). Variant: Safety. Site of a mining camp established in the summer of 1900 at the height of the Nome gold rush (Brooks, 1901, p. 66). Safety Post Office established here in 1900 and discontinued in 1902 (Ricks, 1965, p. 55). Name was taken from the lagoon.

Port Snetisham: estuary, see Speel Arm.

Port Vita: locality, on E coast of Raspberry Island, 12 miles NW of Afognak, Kodiak Island, 58° 03' 50" N, 153° 04' 20" W; (map 43). A reduction and saltery plant by this name was reported in 1952 by USGS.

Port Wakefield: locality, on E coast of Raspberry Island, 11 miles NW of Afognak, Kodiak Island; 58° 03' 00" N, 153° 03' 10" W; (map 43). A reduction and saltery plant by this name was reported in 1952 by USGS. See Port Wakefield: settlement.

Port Wakefield: settlement, on W side of Kizhuyak Bay at N end of Kodiak Island, 1 mile E of Port Lions, 57° 52' 00" N, 152° 51' 30" W; (map 43) This settlement was originally located on Raspberry Island, but was partially destroyed by the March 1964 earthquake. In the summer of 1966 all salvageable buildings were to be moved to the new location and the original site abandoned.

Port Walter: locality, see Big Port Walter.

Port Walter: locality, see New Port Walter.

Port Whitshed: village, see Whitshed.

Port Whitshed: village, see Whitshed.

Port William: locality, on S coast of Shuyak Island, 40 miles N of Kodiak Island; 58° 29' 30" N, 152° 35' 00" W; (map 43). Variant: Port Williams. Local name published by USC&GS in 1926.

Port Williams: locality, see Port William.

Portage Arm: bay, 5 miles long, NW extension of Nuyakuk Lake, 105 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 54' N, 159° 05' W; BGN 1932; (map 53). So named in 1932 by Gerald FitzGerald, USGS, "because at the head of the arm is a low pass to Lake Chauekuktuli."

Portage Arm: water passage, 0.7 miles across, between Catherine Island and NE coast of Baranof Island, 26 miles NE of Sitka, Alexander Archipelago; 57° 20' N, 134° 54' W; (map 9). Named in 1895 by Lt. Comdr. Moore, USN, and published by USC&GS on Chart 8050.

Portage Bay: bay, 0.8 miles across, E arm of Makushin Bay, on Unalaska Island, Aleutian Islands; 53° 43' 40" N, 166° 55' 30" W; (map 23). This name was published in the 1944 Aleutian Coast Pilot (p. 45).

Portage Bay: bay, 3 miles across, at head of Alitak Bay, at S end of Kodiak Island; 56° 56' N, 153° 56' W; (map 33). Name reported in 1943 by USC&GS.

Portage Bay: bay, extends NW 6 miles to Frederick Sound, on N coast of Kupreanof Island, Alexander Archipelago; 57° 00' N, 133° 20' W; (map 6, 7). Variant: Perenosnaia Bay, Perenosnaya Bukhta, Perenosnaya Creek, Portage Harbor. Translation about 1882 by USC&GS of "Perenosnaya Bukhta;" Published in 1848 on Russian Hydrog. Dept. Chart 1396. It was called "Perenosnaya Creek" in 1869 by Comdr. R. W. Meade, USN.

Portage Bay: bay, see Balboa Bay.

Portage Bay: bay, see Chagvan Bay.

Portage Bay: bay, see Etienne Bay.

Portage Bay: bay, see Perenosa Bay.

Portage Bay: bay, trends SE 3 miles to N end of Kuiukta Bay, 10 miles SW of Chignik, Aleutian Range; 56° 11' N, 158° 33' W; (map 30). Local descriptive name reported by a 1951 USGS field party.

Portage Bay: bight, 0.5 miles across, 3 miles SE of Kake, on NW coast of Kupreanof Island, Alexander Archipelago; 56° 56' 40" N, 133° 53' 30" W; (map 6). Local descriptive name obtained in 1951 by USGS.

Portage Bay: bight, 2 miles across, on N shore of Ugak Bay, on E coast of Kodiak Island; 57° 28' N, 152° 37' W; (map 34). Variant: Kanatak, Zaliv Perenosnoy. Translation in 1865 by USC&GS of "Z[aliv] Perenosnoy" published by Capt. Tebenkov (1852, map 22). The Russian Hydrog. Dept. published the native name "Kanatak" on Chart 1379 in 1847.

Portage Bay: cove, 6 miles long, on SW shore of Lake Clark, 8 miles NE of Nondalton, Alaska Range; 60° 05' 30" N, 154° 42' 00" W; (map 61). Local name reported by F. J. Katz and G. C. Martin (1912a, pl. 1), USGS. So named because the bay is a short-cut to the mouth of the Chulitna River from the SW.

Portage Bay: cove, see Portage Cove.

Portage Bay: estuary, extends E 2 miles from Gould Island, at head of Hetta Inlet, on Prince of Wales Island, Alexander Archipelago; 55° 16' 50" N, 132° 34' 00" W; (map 4). Local name reported in 1905 by E. F. Dickins, USC&GS; so called because "There is a portage from here to Cholmondeley Sound."

Portage Bay: estuary, see Passage Canal.

Portage Bight: cove, 2.2 miles across, on NE coast of Tanaga Island, Aleutian Islands; 51° 50' N, 177° 44' W; (map 17). Name published by USC&GS in 1956 on Chart 9145.

Portage Cove: cove, 1.4 miles across, on W shore of Chilkoot Inlet, just S of Nukdik Point, 16 miles S of Skagway, Coast Mountains, 59° 14' N, 135° 25' W; (map 45). Variant: Portage Bay.

Named "Portage Bay" by local traders, but the name was changed to Portage Cove by the U.S. Navy in 1881, and this form was pub. fished by USC&GS in the 1883 Coast Pilot (P 199)

Portage Cove: cove, see Double Cove.

Portage Cove: estuary, extends 1 mile W off Behm. Canal, on NE coast of Revillagigedo Island, Alexander Archipelago; 55° 46' 25" N, 131° 02' 30" W; (map 3). Local navigators' name obtained in 1904 by H. C. Fassett, USBF.

Portage Creek: stream, flows N 7 miles to Kobuk River, 25 miles NW of Selawik, Hogatza Highlands; 66° 56' N, 160° 19' W; (map 114). Local name reported by the U.S. Army Corps of Engineers in 1955.

Portage Creek: stream, flows NE 1.7 miles to North Fork Kougarok River, SE of Harris Dome and 39 miles W of Imuruk Lake, Seward Peninsula Highlands; 65° 37' N, 164° 32' W; (map 110). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Portage Creek: stream, flows NE 8 miles to Medicine Lake, 26 miles SW of Circle, Yukon-Tanana Highlands; 65° 30' N, 144° 33' W; (map 104). Named by prospectors and reported in 1905 by D. C. Witherspoon (in Prindle, 1906, pl. 1), USGS.

Portage Creek: stream, flows NW 11 miles to Keefer Cutoff 0.5 miles E of its junction with Nushagak River, 28 miles NW of Naknek, Bristol Bay Lowland; 58° 54' 25" N, 157° 43' 20" W; (map 41). Local name reported by H. C. Fassett, USBF, in 1910.

Portage Creek: stream, flows NW 4 miles through Portage Valley to SE arm of Herendeen Bay, near SW end of Alaska Peninsula, Aleutian Range; 55° 41' 45" N, 160° 40' 40" W; (map 28). Named for Portage Valley; reported in 1929 by USGS.

Portage Creek: stream, flows S 5.5 miles to Lake Clark, 37 miles NE of Nondalton, Aleutian Range; 60° 21' N, 154° 01' W; BGN 1910; (map 61). Variant: Achteedeedung, Akhtididung, Akhtidung. Local name reported in 1902 by W. H. Osgood, USDA, who gives its Tanaina Indian name as "Achteedeedung."

Portage Creek: stream, flows SE 5 miles to Kugruk River, 30 miles NE of Imuruk Lake, Seward Peninsula Highlands; 65° 54' N, 162° 29' W, (map 110). Prospectors' name reported in 1908 by F. F. Henshaw (in Brooks and others, 1909, fig. 21), USGS.

Portage Creek: stream, flows SE 7 miles to West Fork Little Delta River, 60 miles E of Healy, Alaska Range; 64° 55' N, 147° 00' W; (map 87). Local name reported in 1910 by J. W. Bagley (in Capps, 1912, pl. 2), USGS.

Portage Creek: stream, flows SW 1.5 miles to Susitna River, 2.5 miles SW of Curry and 18 miles NE of Talkeetna, Talkeetna Mountains; 62° 34' 50" N, 150° 02' 20" W; (map 81). Local name reported in 1958 by USGS.

Portage Creek: stream, flows SW 19 miles to American River, 12 miles W of Kougarok Mountain and 36 miles NE of Teller, Seward Peninsula Highlands 65° 42' N, 165° 39' W;

(map 111). Prospectors' name reported in 1900 by Messrs. Kemp and David Fox (in Brooks 1901, pl. 11).

Portage Creek: stream, flows SW 30 miles to Susitna River, 41 miles SW of Cantwell, Talkeetna Mountains; 62° 49' 50" N, 149° 22' 40" W; (map 82). Named by Robert Muldrow, USGS, in 1898.

Portage Creek: stream, flows SW 4 miles to Birch Creek, 37 miles SW of Circle, Yukon-Tanana Highlands; 65° 21' 20" N, 144° 40' 35" W; (map 104). Named by prospectors; reported in 1904 by D. C. Witherspoon, USGS.

Portage Creek: stream, flows SW 4 miles to Golovnin Bay, 48 miles SE of Solomon, Seward Peninsula Highlands; 64° 30' N, 162° 51' W; (map 95). Variant: West Portage Creek. Prospectors' name shown as "West Portage" on a precinct map of Seward Peninsula by Monroe and Hutchins corrected up to June 1903 by Arthur Gibson.

Portage Creek: stream, flows SW 4 miles to Right Arm Iniskin Bay, 26 miles N of Augustine Island, Aleutian Range; 59° 44' N, 153° 21' W; (map 51). Name published by Moffit (1927, pl. 1). USGS.

Portage Creek: stream, flows SW 8 miles to Middle Fork Fortymile River, 50 miles SW of Eagle, Yukon-Tanana Highlands; 64° 27' 30" N, 142° 40' 40" W; (map 102). Named by prospectors and shown on 1902 manuscript map by E. J. Chamberlain, U.S. Deputy Surveyor.

Portage Creek: stream, flows W 1.5 miles to Portage Bay, on Prince of Wales Island, 2 miles E of Gould Island, Alexander Archipelago; 55° 16' 40" N, 132° 32' 30" W; (map 4). Local name published in 1943 by USC&GS

Portage Creek: stream, heads at 67° 43' N, 155° 04' W, flows SW 9 miles to Noatak River, 35 miles SW of Survey Pass, Brooks Range; 67° 08' N, 155° 18' W; (map 125). Name used by prospectors and reported by P. S. Smith (1913), USGS. So named because it heads at the best available pass between the headwaters of the Noatak and Alatna Rivers.

Portage Creek: stream, heads at Stoney Glacier, flows E 13 miles to Skwentna River, 78 miles NW of Tyonek, Alaska Range; 61° 58' 00" N, 152° 33' 45" W; (map 70). Named by Spurr (1900, p. 50), USGS, because it was along this stream he began his portage across the divide to the Kuskokwim River.

Portage Creek: stream, heads in lake, in Kiokluk Mountains, flows SE 25 miles to Holitna River 6 miles SW of its junction with Chuilnuk River, 45 miles SW of Sleetmute, Kilbuck-Kuskokwim Mountains; 61° 05' N, 157° 35' W; BGN 1948; (map 72) Locally named because the stream heads in a pass which is a portage between Kuskokwim and upper Holitna Rivers; reported in 1945 by USGS.

Portage Creek: stream, in Glacier Bay National Monument, flows W 4.5 miles to join Eagle Creek 2 miles N of its mouth, on Gulf of Alaska 90 miles NW of Hoonah, Malaspina Coastal Plain; 58° 40' 15" N, 137° 40' 25" W; (map 10). Name shown on an 1894 boundary survey map. (P. S. Smith, and others, 1933, p. 118).

Portage Creek: stream, on E coast of Alaska Peninsula, flows SW 5 miles to Puale Bay, 43 miles NW of Karluk, Aleutian Range; 57° 47' 05" N, 155° 32' 15" W; (map 35). Local name obtained in 1902 by USGS from J. L. McPherson of Iliamna.

Portage Creek: stream, on Kenai Peninsula, flows NW 7 miles to Placer River at head of Turnagain Arm, 16 miles SE of Sunrise, Chugach Mountains; 60° 49' 30" N, 148° 59' 15" W; (map 63) Local prospectors' name reported in 1904 by Moffit (1906, pl. 2), USGS.

Portage Creek: stream, see Traverse Creek.

Portage Creek: watercourse, see Talbiksok River.

Portage Fork: stream, flows SE 8 miles to Mosquito Creek, 100 miles SE of Sleetmute, Kilbuck-Kuskokwim Mountains; 60° 20' N, 156° 13' W; (map 60). Local name reported in 1952 by USC&GS.

Portage Glacier: glacier, on Kenai Peninsula, trends N 6 miles to Portage Lake, 4 miles W of Whittier, Chugach Mountains; 60° 46' N, 148° 48' W; (map 63). Local name reported in 1898 Mendenhall (1900, p. 273), USGS. So called because it was on a portage route between Prince William Sound and Turnagain Arm.

Portage Glacier: glacier, see Whittier Glacier.

Portage Harbor: bay, see Portage Bay.

Portage Island: island, see Perevalnie Islands.

Portage Islands: islands, 0.5 miles N of West Point on Kupreanof Island and 76 miles E of Sitka, Alexander Archipelago; 57° 01' 10" N, 133° 20' 50" W; (map 8). Variant: Perenosnaya Islands, Portage Islets. Named "Perenosnaya Islands" in 1869 by Comdr. R. W. Meade, USN. The name was suggested by "Perenosnaya Bay," now called "Portage Bay," one mile to the south. "Perenosnaya" is the Russian word meaning "portage." The name, "Portage Islets" was published by USC&GS in 1883 Alaska Coast Pilot (p. 125).

Portage Islets: islands, see Portage Islands.

Portage Lagoon: lagoon, 1.6 miles long, on N coast of Atka Island, Aleutian Islands; 52° 03' 10" N, 175° 02' 30" W; (map 18). Descriptive name applied to the lagoon because "when seen from the northwest, it appears to be a low passage through the island"; published by the USC&GS in the 1944 Aleutian Coast Pilot (p. 97).

Portage Lake: lake, 1 mile long, 3 miles S of Timber Lake and 28 miles NW of Arctic Village, Brooks Range; 68° 20' N, 146° 27' W; (map 136). Local name reported in 1956 by R. C. Foley, USGS.

Portage Lake: lake, 1.5 miles long, 2 miles E of Lachbuna Lake, 50 miles NE of Nondalton, Aleutian Range; 60° 30' 15" N, 153° 51' 30" W; (map 61). Local name reported in 1954 by USGS.

Portage Lake: lake, 1.5 miles long, on Afognak Island S of Discoverer Bay, 22 miles NE of Afognak, Kodiak Island; 58° 16' 30" N, 152° 25' 30" W; (map 43) Local name reported in 1952 by USGS.

Portage Lake: lake, on Kenai Peninsula, 1.7 miles long, at terminus of Portage Glacier, 4.5 miles W of Whittier, Chugach Mountains; 60° 47' N, 148° 49' W; (map 63). Local name published on recent USGS map s; derived from nearby Portage Glacier.

Portage Lake: lake, see Long Lake.

Portage Lakes: lakes, along Yukon- Kuskokwim Portage, largest are Kulik, Arhymot, and Kukaklik Lakes, Yukon- Kuskokwim Delta 61° 37' N, 160° 30' W; (map 73). This is a general name used to refer to the largest lakes between the two rivers on or near the portage.

Portage Lakes: lakes, two, on Kenai Peninsula, extend 0.5 miles NW of Birch Lake, 28 miles NE of Kenai, Cook Inlet Lowland; 60° 44' 00." N, 150° 32' 30" W; (map 62). Named about 1963 by officials of Kenai National Moose Range, for administrative purposes.

Portage Mountain: mountain, 3,650 ft., on W coast of Lindenberg Peninsula, Kupreanof Island, 12 miles NW of Petersburg, Alexander Archipelago; 56° 51' 40" N 133° 13' 45" W; (map 6). Variant: Portage Mountains. Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for charting purposes; name published in 1888 on USC&GS Chart 705.

Portage Mountains: mountain, see Portage Mountain.

Portage Mountains: mountains, 1,500 ft., N of Kuskokwim River, extends NE 25 miles from Kalskag and Arhymot Lake, Kilbuck- Kuskokwim Mountains; 61° 41' N, 160° 06' W; (map 73). Name shown on a manuscript map of unknown origin dated 1902; so called because the mountains lie close to the Yukon- Kuskokwim portage.

Portage Pass: pass, 3,900 ft., N of Cathedral Mountain, 86 miles NW of Tyonek, Alaska Range; 61° 58' 15" N, 152° 57' 45" W; (map 70). Name derived from nearby Portage Creek.

Portage Pass: pass, 600 ft., between Portage Lake and Passage Canal, 2.5 miles SW of Whittier, Chugach Mountains; 60° 45' 50" N, 148° 45' 30" W; (map 63). Local name published on recent USGS map s; derived from nearby Portage Glacier.

Portage Pass: pass, between Portage Creek and Wrong Branch Trail Creek, on Iniskin Peninsula, Aleutian Range; 59° 47' N, 153° 18' W; (map 51). Local name derived from Portage Creek and published by USGS in 1958.

Portage Point: point of land, between Portage Arm and Middle Arm Kelp Bay, on NE coast of Baranof Island, Alexander Archipelago; 57° 20' N, 134° 55' W; (map 9). Named in 1895 by Lt. Comdr. Moore, USN, and published by USC&GS in the 1901 Coast Pilot (p. 160).

Portage Point: point of land, see Drying Point.

Portage Point: point of land, see Kaskulu Point.

Portage Point: point of land, see Mikhail Point.

Portage Point: point of land, see Perenosa Point.

Portage Roadhouse: locality, at mouth of Carson Creek on NW shore of Norton Bay, 15 miles SW of Elim, Seward Peninsula Highlands; 64° 29' N, 162° 36' W; (map 95). Site of a roadhouse reported in 1909 by P. S. Smith and H. M. Eakin (in Brooks and others, 1910, pl. 8), USGS.

Portage Slough: watercourse, channel of Yukon River, flows 7.2 miles E of unnamed island to Grand Junction Point 6 miles S of Russian Mission, Yukon-Kuskokwim Delta; 61° 41' N, 161° 20' W; (map 73). Local name shown on a 1916 field sheet by R. H. Sargent, USGS; so called because it leads to the Yukon-Kuskokwim Portage.

Portage Valley: valley, extends NW 5 miles along course of Portage Creek to S shore of Herendeen Bay, on Alaska Peninsula, Aleutian Range; 55° 41' N, 160° 41' W; (map 28). Descriptive name applied in 1890 by Lt. Comdr. Z. L. Tanner, USN, because "it forms part of a portage between Herendeen Bay and Albatross Anchorage."

Portage Village: locality, see Parents Trading Post.

Portage Village: village, see Crooked Creek.

Portage: locality, near head of Tenakee Inlet, on central Chichagof Island, 15 miles E of Pelican, Alexander Archipelago; 57° 59' 25" N, 135° 50' 00" W; (map 9) Name published in 1942 by USGS. On present-day maps a cabin is shown here.

Portage: village, pop. 71, on Seward Highway, miles 64.2 on The Alaska Railroad, near head of Turnagain Arm, 16 miles SE of Sunrise, Chugach Mountains; 60° 50' 15" N, 148° 58' 45" W; (map 63). The railroad guide of 1919 lists the village as a flag stop. Recent USGS maps show it as a settlement of about 20 buildings. The 1966 railroad guide lists Portage as a major stop on The Alaska Railroad

Portal Camp: locality, 1.4 miles NW of Thane, on Gastineau Channel, 4 miles SE of Juneau, Coast Mountains; 58° 16' 40" N, 134° 18' 15" W; (map 11). Local name reported in 1917 by D. C. Witherspoon, USGS. This was the site of a temporary mining camp.

Portalus Valley: ravine, on Granite Mountain, extends N 1.5 miles, near head of Hajdukovich Creek, 21 miles SE of Delta Junction, Alaska Range; 63° 46' 40" N, 145° 21' 00" W; (map 86). Name published on relatively recent maps.

Porter Cove: cove, 0.5 miles across, on W shore of Thomas Bay, 4 miles N of Spurt Point and 100 miles E of Sitka, Coast Mountains; 57° 04' 30" N, 132° 52' 00" W; (map 8). Local name reported in 1961 by USGS.

Porter Peak: mountain, 4,836 ft., 2 miles E of Thomas Bay, 1 mile NE of Waterfall Peak and 100 miles E of Sitka, Coast Mountains; 57° 02' 55" N, 132° 46' 00" W; (map 8). Variant: Waterfall Peak. Name reported in 1964 by USC&GS.

Porterfield Creek: stream, flows SW 7 miles to Virginia Lake, 9 miles E of Wrangell, Coast Mountains; 56° 28' 35" N, 132° 08' 35" W; (map 6). Named in 1914 by E. Lester Jones, USBF for Lt. L. B. Porterfield, USN, commander of the USBF steamer Albatross in 1914.

Portillo Channel: water passage, 8 miles long, connecting Gulf of Esquibel and Ursua Channel between Lulu and San Fernando Islands, Alexander Archipelago; 55° 30' N, 133° 26' W; (map 4). Variant: Canal de Portillo. Named "Canal de Portillo, by Francisco Antonio Maurelle "about May 22, 1779, when he sailed through it, probably after Jose de Portillo who a little later became a minister of the Council of the Indies in Spain" (Wagner, 1937, p. 403).

Portillo, Canal de: water passage, see Portillo Channel.

Portland Canal: water passage, forms part of boundary between Alaska and British Columbia, Canada, extends NE 70 miles from NE end of Pearse Island, Coast Mountains; 55° 02' N, 130° 12' W; BGN 1953; (map 3). Variant: Brown Canal, Pearse Canal, Pearse Channel, Portland Inlet, Portlands Canal, Portlands Channel. Named by Capt. George Vancouver, RN, "August 15, 1793, no doubt after the Duke of Portland" (Wagner, 1937, p. 403). See Font, Straights du.

Portland City: village, see Hyder.

Portland Creek: stream, flows SE 2.3 miles to Niukluk River 2 miles above its junction with Fish River, 34 miles NE of Solomon, Seward Peninsula Highlands; 64° 50' N, 163° 30' W; (map 95). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Portland Creek: stream, flows SE 2.4 miles to Oxide Creek which flows to Ophir Creek, 12 miles NW of Council and 40 miles SW of Imuruk Lake, Seward Peninsula Highlands; 65° 03' N, 163° 44' W; (map 110). Prospectors' name published on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Portland Creek: stream, flows SE 4.5 miles to South Fork Koyukuk River, in South Fork Flats, 7 miles SW of O'Keefe Hills and 29 miles SW of Chandalar, Brooks Range; 67° 18' N, 149° 27' W; (map 123). Local name reported in 1956 by T. E. Taylor, USGS.

Portland Creek: stream, flows WNW 1 mile to Discovery Creek, 22 miles NW of Solomon, Seward Peninsula Highlands; 64° 52' N, 164° 43' W; (map 95) Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Portland Inlet: water passage, see Portland Canal.

Portland Island: island, 1.1 miles long, trends NW, in Stephens Passage, 2 miles S of Point Louisa and 12 miles NW of Juneau, Coast Mountains; 58° 20' 15" N, 134° 44' 15" W; (map 11). Named in 1880 by Capt. L. A. Beardslee USN and published by USC&GS in the 1883 Coast Pilot (p. 174).

Portland: village, see Hyder.

Portlands Canal: water passage, see Portland Canal.

Portlands Channel: water passage, see Portland Canal.

Portlock Glacier: glacier, on Kenai Peninsula, trends NW 6 miles to an unnamed stream, 3 miles E of Kachemak Bay and 18 miles E of Homer, Chugach Mountains; 59° 40' N, 151° 02' W; BGN 1913; (map 50). Named by A. H. Brooks, USGS, in 1913, for Capt. Nathaniel Portlock, commander of the English vessel King George, who with Capt. George Dixon, RN, commander of the English vessel Queen Charlotte, did extensive exploration along the south coast of Alaska in 1786 and 1787.

Portlock Harbor: bay, 5 miles across, 6 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 44' N, 136° 14' W; (map 9). Variant: Kuk-kan Harbor. Named in 1789 by Capt. Nathaniel Portlock. His ship was anchored in this harbor August 6 23 in 1787 (Wagner, 1937, p. 403). He published a sketch of the harbor in 1789. Lt. Comdr. H. E. Nichols, USN, regards the harbor the same as Kuk-kan of the Tlingit Indians (U.S. Coast and Geodetic Survey, 1891, p. 189).

Portlock: locality, on S coast of Kenai Peninsula, on S shore of Port Chatham, 16 miles S of Seldovia, Chugach Mountains; 59° 13' N, 151° 45' W; BGN 1944; (map 50). This locality was primarily established as a cannery. A post office was established there in 1921; discontinued in 1950 (Ricks, 1965, p. 53). It was probably named for Capt. Nathaniel Portlock, who explored the area in 1786-87.

Posesion, Punta de: point of land, in Port Etches, Hinchinbrook Island. Variant: Punta de la Primera Posesion, Punta de Sa Posesion. Name shown on the 1779 Don Ignacio Arteaga map as "Sa Posesion" but on a chart of the port it is given as "Punta de la Primera Posesion" (Wagner, 1937, p. 486).

Posliednaho Liesu: point of land, see Last Timber Point.

Posliedni Cape: point of land, see Posliedni Point.

Posliedni Point: point of land, at mouth of Perenosa Bay, 34 miles NE of Afognak, on N coast of Afognak Island, N of Kodiak Island; 58° 26' 00" N, 152° 19' 30 W; (map 43). Variant: Posliedni Cape. Russian name, "M[ys] Poslyedniy," meaning "last cape"; published by USC&GS in 1910.

Posliedni Point: point of land, on NE shore of Afognak Bay, 2.5 miles N of Afognak, on S coast of Afognak Island, N of Kodiak Island; 58° 03' 30" N, 154° 45' 25" W; (map 43). Russian name "M[ys] Poslyedniy" meaning "last cape" given by Sub-Lt. Mikhail Murashev, IRN, in 1839 or 1840 and published by the Russian Hydrog. Dept. in 1849 on Chart 1425.

Poslydnyago Lysu, Mys: point of land, see Last Timber Point.

Poss Mountain: mountain, elev. 6,100 ft., between South and Middle Forks of Koyukuk River, 33 miles W of Chandalar, Brooks Range; 67° 26' 30" N, 149° 45' 00" W; (map 123). Named about 1930 by Robert Marshall for Poss Postlethwaite, one of the oldest prospectors in the region.

Possession, Point: point of land, on Kenai Peninsula, between Cook Inlet and Turnagain Arm, 20 miles SW of Anchorage, Cook Inlet Lowland; 61° 02' 22" N, 150° 22' 30" W; (map 70). Variant: Mys Naseleniya. Named by Capt. Cook (1785, v. 2, p. 397), RN, on June 1, 1778, who "displayed the flag and took possession of the river and country in His Majesty's name." Capt. Tebenkov (1852, map 5), IRN, published the name "M[ys] Naseleniya," or "Populated Cape," for this point. See Possession.

Possession: locality, on Kenai Peninsula, SW of Point Possession, 22 miles SW of Anchorage, Cook Inlet Lowland; 61° 02' 00" N, 150° 24' 10" W; BGN 1916; (map 70). This is the site of a small Tanaina Indian village "occupied only during the summer" (U.S. Coast & Geodetic Survey, 1964, p. 79). Capt. Tebenkov (1852, map 5), IRN, called the nearby point "Mys Naseleniya," meaning "Populated Cape," indicating a settlement here.

Possum Creek: stream, heads in lake, flows S 1.3 miles to North Fork Montana Creek, 10 miles SE of Talkeetna, Talkeetna Mountains; 62° 13' 30" N, 149° 53' 00" W; (map 82). Local name recorded in 1950 by USGS.

Post Creek: stream, flows SW 2.2 miles to Niukluk River 1.2 miles E of its junction with Casadepaga River, 31 miles NE of Solomon, Seward Peninsula Highlands; 64° 59' N, 164° 02' W; (map 95). Prospectors' name reported in 1900 by E. C. Barnard (in Brooks, 1901, pl. 17), USGS.

Post Island: island, 0.6 miles across, 13 miles NW of Chichagof, on W coast of Chichagof Island, Alexander Archipelago; 57° 47' 30" N, 136° 20' 10" W; (map 9). Name published in 1928 by USC&GS on Chart 8258.

Post Lake: lake, 0.6 miles across, 17 miles S of junction of South Fork Kuskokwim and Post Rivers, 88 miles SE of McGrath, Alaska Range; 62° 08' 45" N, 153° 31' 20" W; (map 80). Local name obtained in 1958 by USGS.

Post River: stream, heads at a glacier, 3.6 miles W of Strand Pass, flows N 45 miles to South Fork Kuskokwim River, 79 miles SE of McGrath, Alaska Range; 62° 24' N, 153° 28' W; (map 90). Named in 1902 by A. H. Brooks, USGS, for W. S. Post, USGS, who descended the Kuskokwim River with J. E. Spurr in 1898.

Pot Creek: stream, on Seward Peninsula, flows NE 6.8 miles to Cripple River, 29 miles SW of Deering, Kotzebue-Kobuk Lowland; 66° 00' N, 163° 44' W; (map 113). Prospectors' name reported in 1901 by Moffit (1905, pl. 2), USGS.

Potainikof, Cape: point of land, 6.5 miles NE of Cape Korovin, on NW coast of Atka Island, Aleutian Islands; 52° 22' 30" N, 174° 20' 00" W; BGN 1965; (map 18). Variant: Cap Potainikoff, Mys Potaynikov. Russian name meaning "hidden place" or "secret place" referring to rocks off the point which are revealed only by breakers in rough weather.

Potainikoff, Cap: point of land, see Potainikof, Cape.

Potato Creek: stream, 40 miles long, heads in Alaska, flows NE into Canada to Surprise Creek 8 miles from its junction with Old Crow River, Porcupine Plateau; 68° 09' N, 140° 24'

W; BGN 1953; (map 137). Variant: Schaefer Creek, Shaefer Creek, Shafer Creek. Local name reported in 1949 by Cpl. E. A. Kirk, Royal Canadian Mounted Police. The name "Schaefer Creek" had been mistakenly applied to this stream during the IBC survey in 1911 and was so shown until 1950.

Potato Creek: stream, flows E 4 miles to Candle Creek, 10.4 miles SW of Candle and 33 miles NE of Imurok Lake, Seward Peninsula Highlands; 65° 47' N, 162° 06' W; (map 110). Prospectors' name reported in 1903 by D. C. Witherspoon (in Moffit, 1905, pl. 2), USGS.

Potato Creek: stream, on Seward Peninsula, heads SW of Potato Mountain, flows NW 6 miles to Lopp Lagoon, 14 miles NE of Cape Prince of Wales and 49 miles NW of Teller, Kotzebue- Kobuk Lowland; 65° 43' N, 167° 42' W; BGN 1948; (map 111). Prospectors' name reported in 1901 by T. G. Gerdine (in Collier, 1902, pl. 12), USGS.

Potato Creek: stream, see Lynx Creek.

Potato Mountain: mountain, 1,400 ft., SE of Lopp Lagoon, 15 miles E of Cape Prince of Wales and 44 miles NW of Teller, Seward Peninsula Highlands; 65° 39' N, 167° 34' W; (map 111). Variant: Cone Hill, Conical Hill, Konicheskaya Sopka. Local name published in 1900 on USC&GS Chart 9380; reported in 1927 as "Conical Hill" by Capt. Beechey (1831, map facing p. 328), RN. In 1852 it was called "Konicheskaya Sopka," meaning "Conical Volcano," by the Russian Hydrog. Dept.

Potato Point: point of land, in Valdez Arm at W entrance to Valdez Narrows, 15 miles SW of Valdez, Chugach Mountains; 61° 03' 25" N, 146° 41' 35" W; (map 68). Named in 1898 by Capt. W. R. Abercrombie, USA.

Potatopatch Lake: lake, 0.3 miles long, W of Shahafka Cove, 1.2 miles NE of Kodiak, Kodiak Island; 57° 47' 55" N; 152° 22' 30" W; (map 34). Local name published in 1943 by USC&GS.

Potaynikov, Mys: point of land, see Potainikof, Cape.

Pothole Glacier: glacier, in Tordrillo Mountains, trends SW 9 miles to its terminus at Nagishlamina River, 49 miles NW of Tyonek, Alaska Range; 61° 17' 45" N, 152° 33' 30" W; BGN 1930; (map 70). Descriptive name given in 1927 by S. R. Capps (in Smith and others, 1930, p. 148) USGS.

Pothole Lake: lake, 1 mile long, in Kenai Mountains on Kenai Peninsula, 3.5 miles ESE of Skilak Lake and 44 miles SE of Kenai, Chugach Mountains; 60° 22' N, 150° 02' W; (map 62). Local name reported in 1959 by USGS.

Potiliuk: village, see Pilot Station.

Potlatch Creek: stream, flows SW 11 miles to Chena River, 14 miles E of Fairbanks, Tanana Lowland; 64° 49' N, 147° 16' W; (map 100). Local name reported in 1916 by USGS (Waring, 1917, fig. 8).

Potoniek Lake: lake, 3 miles long, 48 miles NW of Selawik, Kotzebue-Kobuk Lowland; 66° 55' N, 161° 33' W; (map 114). Eskimo name obtained in 1955 by US Army Corps of Engineers.

Potter Creek: stream, heads on McHugh Peak, in Chugach Mountains, flows 3.5 miles to Turnagain Arm Cook Inlet, 12 miles S of Anchorage, Cook Inlet Lowland; 61° 03' 00" N, 149° 47' 30" W; (map 69). Local name reported in 1912 by USC&GS.

Potter Hill: suburb, on Seward-Anchorage Highway, at Rabbit Creek, 9 miles S of Anchorage. Cook Inlet Lowland; 61° 05' N, 149° 49' W; (map 69). Local name reported in 1964 by USGS; name derived from nearby Potter Creek.

Potter Point: point of land, E point of entrance to Knudson Cove, in Clover Passage, on W coast of Revillagigedo Island, Alexander Archipelago; 55° 28' 40" N, 131° 47' 20" W; (map 3). Local name reported in 1954 by USGS.

Potter Pup Creek: stream, flows W 1 mile to Gold Run which flows to Bluestone River, 13 miles SE of Teller, Seward Peninsula Highlands; 65° 05' N, 166° 12' W; (map 111). Variant: Potter Pup. Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Potter Pup: stream, see Potter Pup Creek.

Potter Rock: rock, at SE end of Tongass Narrows (East Channel), 0.7 miles ESE of Pennock Island, Alexander Archipelago; 55° 18' 10" N, 131° 34' 30" W; (map 3) Local name published by USC&GS in the 1917 Coast Pilot (p. 52).

Potter: settlement, pop. 14, mile 100.6 on The Alaska Railroad, near mouth of Potter Creek, 11 miles S of Anchorage, Cook Inlet Lowland; 61° 03' 10" N, 149° 47' 30" W; (map 69). Local name reported in the 1919 Railway Guide Index; name derived from nearby Potter Creek.

Pouch Creek: stream, flows SW 1 mile to Elliott Creek, 1.9 miles SE of Alice Peak and 81 miles NE of Valdez, Wrangell Mountains; 61° 38' 30" N 144° 05' 00" W; (map 68). Prospectors' name reported in 1903 by Mendenhall (1905, fig. 10), USGS.

Poul Creek: stream, heads 1.2 miles SW of Munday Peak, flows S 3 miles to Gulf of Alaska, 1.7 miles E of Umbrella Reef and 86 miles NW of Yakutat, St. Elias Mountains; 60° 01' 20" N, 141° 59' 45" W; (map 65). Named for Angel Poul who located oil lands near Cape Yakataga in 1897. Name reported in 1903 by G C. Martin, USGS.

Poul Point: point of land, on NE coast of Bering Lake, 11 miles NE of Katalla, Chugach Mountains; 60° 18' N, 144° 17' W; (map 64). Local name used by prospectors, reported in 1905 by G. C. Martin, USGS.

Pounder, Mount: mountain, 6,502 ft., on Alaska-Canada boundary, 28 miles N of Unuk River at Burroughs Bay, Coast Mountains; 56° 27' N, 131° 10' W; BGN 1923; (map 7). Named in 1923 for John Pounder, a Canadian IBC surveyor

Poundstone Rock: rock, in Favorite Channel, 1.3 miles S of Sentinel Island and 24 miles NW of Juneau, Coast Mountains; 58° 31' 45" N, 135° 55' 45" W; (map 11). Named in 1890 by Lt. Comdr. H. B. Mansfield, USN for Ens. Homer Clark Poundstone, a member of his party. The name was published by USC&GS in the 1891 Coast Pilot (p. 151).

Povero Island: island, see Povorotni Island.

Poverotni Island: island, see Povorotni Island.

Poverotni Point: point of land, see Lockwood, Point.

Poverotnoi Point: point of land, see Povorotni Point.

Poverotnyy, Mys: point of land, see Lockwood, Point.

Poverty Creek: stream, flows NW 1.5 miles to Charley River 28 miles SW of that stream's junction with Yukon River, Yukon-Tanana Highlands; 65° 03' N, 143° 16' W; (map 103). Prospectors' name; from an unpublished map by E. J. Chamberlain, dated 1902. In 1956 USGS applied this name to a stream northeast of Essie Creek, instead of one to the south as the Chamberlain map shows it.

Poverty Island: island, see Refuge Island.

Poverty Rock: island, see Refuge Island.

Povorot Point: point of land, see Povorotni Point.

Povorota, Mys: point of land, see Course Point.

Povorotni Island: island, 0.1 miles across, in Peril Strait, at SW end of Deadman Reach, off N coast of Baranof Island, Alexander Archipelago; 57° 30' 50" N, 135° 33' 20" W; BGN 1897; (map 9). Variant: Canoe Island, Ostrov Povorotnyy, Povero Island, Poverotni Island, Return Island, Turnabout Island. Russian name meaning "turnabout," given in 1833 by the navigator Ens. Vasiliev; published in 1848 on Russian Hydrog. Dept. Chart 1397 as "Os[trov] Povorotnyy."

Povorotni Point: point of land, N point of entrance to Redoubt Bay, 7.5 miles SW of Sitka, on W coast of Baranof Island, Alexander Archipelago; 56° 57' N, 135° 24' W; (map 5). Variant: Mys Povorotnoy, Poverotnoi Point, Povorot Point Turnabout Point. Named in 1809 by the Russian navigator Ivan Vasiliev the first; published by Lt. Sarichev (1826, map 19), IRN, as "M[ys] Poyorotnoy," meaning "turnabout island."

Povorotni, Ostrov: island, see Turning Island.

Povorotni: point of land, see Vanderbilt Point.

Povorotnoi, Mys: point of land, see Protection Point.

Povorotnoy, Mys: point of land, see Povorotni Point.

Povorotny Island: island, see Turnabout Island.

Povorotnyy, Mys: point of land, see Protection Point.

Povorotnyy, Mys: point of land, see Turner, Point.

Povorotnyy, Ostrov: island, see Povorotni Island.

Povorotnyy, Ostrov: island, see Turnabout Island.

Pow Island: island, 0.3 miles across, in Hassler Harbor, off Revillagigedo Channel, on NE coast of Annette Island, Alexander Archipelago; 55° 13' 00" N, 131° 25' 45" W; (map 8). Named in 1883 by Lt. Comdr. H. E. Nichols, USN.

Powder Creek: stream, flows NE to Burnt River which flows to Kugruk River, about 15 miles NE of Imuruk Lake, Seward Peninsula Highlands; (map 110). Local name published on precinct map of Seward Peninsula by Monroe and Hutchins; corrected to June 1903 by Arthur Gibson. This stream cannot be precisely identified on current maps.

Powder Point: point of land, on NW coast of Latouche Island, 18 miles SE of Chenega, Chugach Mountains; 60° 03' 05" N, 147° 54' 20" W; BGN 1919; (map 63). Local name published in 1917 by USC&GS; so called "because blasting powder for mining purposes was once stored here."

Powder Top, Mount: mountain peak, 9,140 ft., 1.3 miles E of Flat Top Peak, 30 miles NW of Valdez, Chugach Mountains; 61° 25' 55" N, 106° 53' 17" W; BGN 1965; (map 68). Named about 1955 by Nielsen (1963, p. 135) because of the powder snow on its summit.

Powee Creek: stream, flows S 2 miles to Dome Creek, 28 miles S of Eagle, Yukon-Tanana Highlands; 64° 23' N, 141° 11' W; (map 102). Prospectors' name shown on an 1898 manuscript map by C. A. Woodruff, Fort Cudahy, Canada.

Powell Creek: stream, flows E 2 miles to Casadepaga River, 19 miles NE of Solomon, Seward Peninsula Highlands; 64° 50' N, 164° 20' W; (map 95). Prospectors' name reported in 1905 by T. G. Gerdine, USGS.

Powell Gulch: ravine, extends SE 2.9 miles to Chisna River, S of Chisna Pass, 23 miles NE of Paxson, Alaska Range; 63° 07' 45" N, 144° 48' 05" W; (map 86). "Named by prospectors for A. W. Powell, engineer and pioneer in the Copper River country." The name was reported in 1900 by T. G. Gerdine, USGS.

Powell Knob: peak, see Powell Peak.

Powell Peak: peak, 2,662 ft., 1 mile W of head of Thomas Bay and 98 miles E of Sitka, Coast Mountains; 57° 05' 30" N, 132° 51' 30" W; (map 8). Variant: Powell Knob. Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for John Wesley Powell, 1834-1902, geologist and ethnologist; name published in 1888 by USC&GS. Powell served as a major in the Union Army and professor of geology at Wesleyan College. He made The first geological and

geographical survey of the Colorado River for the Smithsonian Institution in 1869. Later he was engaged in geological and ethnological studies in geological and ethnological studies in Arizona and Utah. He helped establish the U.S. Geological Survey in 1879 and was its director, 1881 -94.

Powell Peak: peak, 4,475 ft., 3.2 miles NE of Dyke Mountain and 42 miles N of Valdez, Chugach Mountains; 61° 43' 35" N, 146° 02' 55" W; (map 68). Named in 1898 by Capt. W. R. Abercrombie, USA, probably for Addison M. Powell, a guide.

Power Creek: stream, flows SW 9 miles to Eyak Lake, 5 miles NE of Cordova, Chugach Mountains 60° 35' N, 145° 39' W; (map 64). Local name published in 1951 by USGS.

Power Creek: stream, flows SW to Turner Creek which flows to Noxapaga River, about 33 miles SW of Imuruk Lake, Seward Peninsula Highlands; (map 110). Prospectors' name shown on a map of Cape Nome gold fields by David Fox, Jr., dated 1901. This stream cannot be precisely located on current maps.

Power Lake: lake, 0.5 miles long, on Prince of Wales Island, near head of Kasaan Bay, N of village of Salt Chuck, Alexander Archipelago; 55° 37' 50" N, 132° 32' 30" W; (map 4). Local name recorded in 1949 by USGS.

Powerline Pass: pass, 3,550 ft., 2 miles NNE of Suicide Peak and 15 miles SE of Anchorage, Chugach Mountains; 61° 03' 15" N, 149° 32' 40" W; BGN 1966; (map 69). Local name reported in 1966 by the Mountaineering Club of Alaska. So named because a "major powerline crosses the pass and many people follow it."

Powerline Ridge: ridge, 1.5 miles long, extends NE from Sheep Creek, 7 miles E of Juneau, Coast Mountains; 58° 17' 15" N, 134° 15' 00" W; (map 11). Local descriptive name reported in 1965 by D. A. Brew and A. B. Ford, USGS.

Powers Creek: stream, flows SW 7 miles to Norton Sound, 4.3 miles N of Unalakleet, Nulato Hills; 63° 56' N, 160° 50' W; (map 91). Local name reported in 1952 by USC&GS.

Powers Creek: stream, flows W 1 mile to Dick Creek, 13 miles NE of Katalla, Chugach Mountains; 60° 20' N, 144° 19' W; (map 64). Local name published in 1907 by USGS.

Powers Creek: stream, heads in Sumdum Glacier, flows SW 2 miles to Endicott Arm, 3 miles E of Round Islet and 48 miles SE of Juneau, Coast Mountains; 57° 45' 40" N, 133° 31' 00" W; (map 8). Prospectors' name reported by Spencer and Wright (1906, fig. 3), USGS. A small amount of placer gold was found along this creek about 1880.

Powgowsayluk: hill, see Pogoseluk Hill.

Pownrakveerak: hill, see Ponrakvirak Hill.

Powoeluk: locality, see Powoiliak Camp.

Powoilak: bay, see Powoiliak Bay.

Powoiliak Bay: bay, S of W end of Koozata Lagoon, on S coast of St. Lawrence Island, 35 miles SE of Gambell; 63° 25' N, 171° 00' W; (map 93). Variant: Powoilak. Eskimo name reported in 1949 by Maj. H. B. Allen, USAF; in 1965 Orth recorded the name as "Powailak."

Powoiliak Camp: locality, on S coast of St. Lawrence Island, 6 miles NE of Southwest Cape, at Powoiliak Point; 63° 22' N, 171° 17' W; BGN 1951; (map 93). Variant: Poogooviliak, Poogovellyak, Poowoiliak Camp, Poo wo'wa luk, Powoeluk, Powoiliak, Pugupiliak, Puguiviliak. Eskimo camp reported in 1932 by O. W. Geist, Univ. of Alaska. In 1849 Capt. M. D. Tebenkov, IRN, recorded "Puguiviliak" at or near this point; in 1900 the Bureau of Education published "Powoeluk" and in 1904 "Pao wo'wa luk" (Baker, 1906, p. 510 and 514).

Powoiliak Point: point of land, 6 miles NE of Southwest Cape, S coast of St. Lawrence Island; 63° 22' N, 171° 17' W; BGN 1951; (map 93). Variant: Cape Powoiliak, Cape Pugupiliak, Cape Puguiviliak, Powoiliak Cape, Powoiliak Cape, Puguiviliak Cape, Southwest Cape. Eskimo name reported in 1932 by O. W. Geist, Univ. of Alaska.

Powoiliak: locality, see Powoiliak Camp.

Powoiliak Cape: point of land, see Powoiliak Point.

Practolus Creek: stream, flows SE 1 mile to Cripple River, 16 miles NW of Nome, Seward Peninsula Highlands; 64° 41' 30" N, 165° 44' 00" W; (map 94). Prospectors' name shown on the 1904 "Map of Cape Nome Precinct" by Arthur Gibson.

Prairie Basin: valley, on Peterson Creek, 15 miles NW of Juneau, Coast Mountains; 58° 28' N, 134° 44' W; (map 11). Named in 1899 by J. G. Peterson (DeArmond, 1957, p. 35).

Prairie Creek: stream, heads in Stephan Lake, flows SW 8 miles to Talkeetna River, 39 miles NE of Talkeetna, Talkeetna Mountains; 62° 36' 00" N, 149° 03' 30" W; (map 82). Local name recorded in 1952 by USGS.

Pratt Cove: bight, 1.5 miles wide, on W coast of Ulak Island, Delarof Islands, Aleutian Islands; 51° 22' 00" N, 178° 58' 45" W; (map 16). Name published in the 1946 supplement to the 1944 Aleutian Coast Pilot (U.S. Coast and Geodetic Survey, 1946, p. 120).

Pratt Point: point of land, E tip of Little Sitkin Island, Aleutian Islands; 51° 56' 45" N, 178° 35' 15" E; BGN 1957; (map 15). Reported by personnel of the U.S.S. Oglala in 1935. Named for Capt. J. F. Pratt, 1848-1929, of the USC&GS ship Patterson which was in these waters in 1904.

Pratt, Mount: mountain, 7,950 ft., 1.5 miles W of United States-Canada boundary, 32 miles ENE of Petersburg, Coast Mountains; 56° 57' 15" N, 132° 07' 30" W; (map 6). Named in 1895 by USC&GS for John F. Pratt, USC&GS.

Pravoi Cape: point of land, see Outer Right Cape.

Pravoi, Mys: point of land, see Right Hand Point.

Pravoy, Mys: point of land, see Outer Right Cape.

Prazdnic Island: island, see Holiday Island.

Prazdnichnoi: island, see Holiday Island.

Prazdnichnoy, Ostrov: island, see Holiday Island.

Praznic Island: island, see Holiday Island.

Preacher Creek: stream, heads at 65° 33' N, 146° 24' W, and flows NE 68 miles to Birch Creek, 33 miles SE of Fort Yukon, Yukon Flats; 66° 08' 20" N, 144° 50' 00" W; (map 119). Named for Robert McDonald, Church of England missionary at Fort Yukon, reported to have made the first discovery of gold on an unidentified stream in this area. Later, prospectors believing that they had reached the scene of this discovery, named this stream "Preacher Creek" in honor of the clergyman (Brooks, 1953, p. 311); name published in 1895 by USC&GS.

Preacher Creek: stream, see Loper Creek.

Preble Peak: peak, 5,195 ft., 3 miles E of head of Thomas Bay and 105 miles E of Sitka, Coast Mountains; 57° 06' 25" N, 132° 43' 30" W; (map 8). Named in 1887 by Lt. Comdr. C. M. Thomas, USN, for Rear Adm. George Henry Preble, 1761-1807, USN. The name was published in 1888 by USC&GS on Chart 705.

Precipices, Valley of: canyon, 5 miles long, along Ernie Creek, W of Blackface Mountain, 24 miles E of Anaktuvuk Pass, Brooks Range; 68° 02' 30" N, 150° 49' 00" W; (map 134). So named by Marshall (1956, p. 16), about 1930, who wrote "the valley was bounded by high, dark and dangerous looking precipices, surpassing, in my estimation, the grandeur of Yosemite. We called it the 'Valley of Precipices'."

Premier Creek: stream, flows SE 1 mile to Canyon Creek, upstream from Dexter Creek, 23 miles NW of Solomon, Seward Peninsula Highlands; 64° 52' N, 164° 47' W; (map 95). Variant: Anita Creek. Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Premier Creek: stream, heads on Arkose Ridge, in Talkeetna Mountains, flows SW 3 miles to Moose Creek, 7.5 miles N of Palmer, Cook Inlet Lowland; 61° 42' 40" N, 149° 05' 10" W; (map 69). Local name reported in 1951 by USGS; derived from nearby Premier mine.

Prendergast Ridge: ridge, see Prendergat Ridge.

Prendergat Ridge: ridge, 2.8 miles long, S of East Arm Holtz Bay, on E end of Attu Island, Aleutian Islands; 52° 54' N, 173° 10' E; (map 13). Variant: Prendergast Ridge. Named by the U.S. Army during its occupation of the island during World War II; shown as Prendergast Ridge on an AMS map published in 1948.

President Bay: bay, 0.2 miles across, on Windy Passage, 4.5 miles SE of Goddard, on W Coast of Baranof Island, Alexander Archipelago; 56° 47' N, 135 W; (map 5). Named by USC&GS for charting purposes. name published in the 1932 Coast Pilot, (p 369).

Presidents Chair: peak, 10,372 ft., 6 miles SW of Chisana Pass and 30 miles N of McCarthy Wrangell Mountains; 61° 51' 30" N, 142° 45' 00" W (map 67). Local name obtained by USGS and published on maps since 1954.

Presno Creek: ravine, see Ina Gulch.

Preston Creek: stream, flows S 2 miles to Macklin Creek which flows to Kougarok River, 8 miles SW of Midnight Mountain and 49 miles NW of Imuruk Lake, Seward Peninsula Highlands; 65° 44' N, 164° 50' W; (map 110). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson.

Pretty Creek: stream, flows SE 7 miles to Beluga River, 14 miles NE of Tyonek, Cook Inlet Lowland; 61° 15' 10" N, 150° 58' 30" W; (map 70). Local descriptive name reported in 1958 by USGS.

Pribieli Islets: islands, see Sound Islands.

Pribilie Islands: islands, see Sound Islands.

Pribilof Islands: islands, in Bering Sea, consisting of St. Paul, St. George, Walrus, and Otter Islands, 57° N, 170° W; BGN 1890; (map 38). Variant: Fur Seal Islands, Kotovy, Lebedevski, Novy, Ostrovski, Prybiloff Islands Pribilov Islands, Pribulow, Pribyloff Islands, Privilof Islands, Sieverny, Seal Islands. Zouboff, Zoubov. Named by Lt. G. A. Sarichev about 1792 for Gerassim Gavrilovich Pribilov (died 1796), who, while an employee of the Lebedev-Lastochkin Company, discovered St. George Island, one of the Pribilof Islands, in June 1786. The islands were first referred to as "Novy," meaning "new," and "Lebedevski," the name of the owner of Pribilov's vessel. G. I. Shelikov called the islands "Zoubov" for the then Russian Minister of the Interior. They were also referred to as "Kotovy," meaning "fur seal," and "Sieverny," meaning "north" (relative to Unalaska Island).

Pribilov Islands: islands, see Pribilof Islands.

Pribulow: islands, see Pribilof Islands.

Pribyloff Islands: islands, see Pribilof Islands.

Price Creek: stream, heads in York Mountains, flows SE 2 miles to Bering Sea, 30 miles NW of Teller Seward Peninsula Highlands; 65° 24' N, 167° 20' W; (map 111) Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibson

Price Island: island, 0.4 miles across, off E coast of Admiralty Island, 1.8 miles SW of Gambier Island and 62 miles NE of Sitka, Alexander Archipelago; 57. 25' 50" N, 133° 53' 10" W; (map 8). Named in 1889 by Lt. Comdr. H. B. Mansfield, USN; name published by USC&GS in 1891 Coast Pilot (p. 114).

Price River: stream, formed by Key and Wolf Creeks, flows W 45 miles to Ikpikpuk River 36 miles N of its head, Arctic Plain; 69° 53' N, 54° 42' W; BGN 1925; (map 142). Named in 1924

by USGS for C. M. Price, USN, an enlisted man who accompanied Ens. W. L. Howard on his expedition from Fort Cosmos, on the Kobuk River, to Point Barrow, in the spring of 1886.

Price River: stream, see Key Creek.

Priest Bay: bay, see Mill Bay.

Priest Point: point of land, see Kalekta, Cape.

Priest River: stream, heads at terminus of Guyot Glacier and Rows 7 miles SW to Guyot Bay, 0.5 miles N of Icy Cape and 74 miles NW of Yakutat, Malaspina Coastal Plain; 60° 57' 15" N, 141° 41' 00" W; (map 47). Local name published by USGS in 1948.

Priest Rock: rock, in Makushin Bay, on W coast of Unalaska Island, S of Makushin, Aleutian Is., 53° 45' 52" N, 166° 59' 15" W; (map 23). Name published in 1951 on a USGS map.

Priest Rock: rock, off Cape Darby in Norton Sound, 53 miles SE of Solomon, Seward Peninsula Highlands; 64° 19' N, 162° 47' W; (map 95). Local name reported about 1940 by USC&GS and published on Chart 9382.

Priest Rock: rock, off Cape Kalekta, on NE coast of Unalaska Island, Aleutian Islands; 54° 00' 32" N, 166° 22' 30" W; (map 23). Descriptive name used locally because of the resemblance of the rock to a Russian priest. Capt. Lutke (1836, p. 281), IRN, says: "The broken-down cliffs and isolated rocks sometimes take the most fantastic forms; as, for example, the one just in front of Cape Kalekta exactly resembles an old man having his head inclined and his arms crossed on his breast."

Prikhoda Island: island, see Prokoda Island.

Primera, Punta de la: point of land, see Posesion, Punta de.

Primrose Creek: stream, on Kenai Peninsula, heads 1 mile N of Lost Lake, flows NE 6 miles to Kenai Lake, 16 miles N of Seward, Chugach Mountains; 60° 20' 30" N, 149° 22' 00" W; BGN 1961; (map 63). Variant: Porcupine Creek. Named in 1960 by USFS; derived from nearby Primrose mine.

Primrose Ridge: ridge, extends 5 miles from Sanctuary River to Savage River, 14 miles W of village of McKinley Park, Alaska Range; 63° 45' N, 149° 24' W; BGN 1963; (map 87). So named in 1962 by NPS because "this ridge is the only place in the park where the primrose *Primula Tschuktschorum*, has been observed."

Primrose: locality, on Kenai Peninsula, miles 18.4 on The Alaska Railroad and Seward Highway, 15 miles N of Seward, Chugach Mountains; 60° 20' 35" N, 149° 20' 30" W; (map 63). Variant: Lake Kenai. Listed as a flag stop on The Alaska Railroad in the railroad guide of 1919. Recent USGS maps indicate a site with just one building.

Primus Creek: stream, heads in De Long Mountains, flows SW 12 miles to Buccaneer Creek, 51 miles WNW of Howard Pass, Brooks Range; 68° 22' N, 158° 52' W; BGN 1960; (map 132). Named in 1951 by I. L. Tailleux, USGS, "for a stove used for camp cooking."

Prince Creek: stream, flows SE 3.5 miles to Bonanza Creek, between Butte and First Chance Creeks, 9 miles SE of Flat and 50 miles NW of Sleetmute, Kilbuck-Kuskokwim Mountains; 62° 20' N, 157° 54' W; (map 79). Name shown on a 1910 manuscript map of "Iditarod Placer Fields."

Prince Creek: stream, heads in a lake, flows E 45 miles to Colville River, 7.5 miles SW of Umiat, Arctic Slope; 69° 19' N, 152° 25' W; BGN 1925; (map 141). Named by personnel of 1924 USGS Expedition for a lead dog named "Prince," killed by mosquitoes and buried on the bank of this stream.

Prince Ernest Sound: water passage, see Ernest Sound.

Prince Frederick Sound: water passage, see Frederick Sound.

Prince Fredericks Sound: water passage, see Frederick Sound.

Prince Guillermo, Entrada del: gulf, see Prince William Sound.

Prince Island: island, 0.2 miles across, in mouth of Appleton Cove at N end of Baranof Island, 21 miles S of Tanakee Springs, Alexander Archipelago; 57° 28' 45" N, 135° 16' 30" W; (map 9). Local name reported in 1951 by USGS.

Prince Menshikoff, Cap du: bluff, see Menshikof, Cape.

Prince of Wales Archipelago: islands, extend 135 miles, 65 miles across, Alexander Archipelago; 55° 30' N, 133° 00' W; BGN 1919; (map 4). Name given on September 20, 1793, by Capt. Vancouver, RN, "to the archipelago which he only suspected to be one [island] at the time" (Wagner, 1937, p. 403).

Prince of Wales Creek: stream, on Seward Peninsula, flows NW 8 miles to Lopp Lagoon, 8 miles NE of Cape Prince of Wales and 52 miles NW of Teller, Kotzebue-Kobuk Lowland; 65° 40' N, 167° 50' W; (map 111). Prospectors' name reported on the 1908 "Map of Seward Peninsula" by Arthur Gibon.

Prince of Wales Island: island, 132 miles long, 45 miles across, largest island of Alexander Archipelago; 55° 21' 30" N, 133° 36' 15" W, to 54° 41' 30" N, 132° 00' 50" W; BGN 1944; (map 4). According to Baker (1906, p. 511), "The earliest use of this name appears to be in the treaty between Great Britain and Russia of February 16-28, 1825"; obviously named for the Prince of Wales of England.

Prince of Wales Passage: water passage, see Elrington Passage.

Prince of Wales Passage: water passage, trends SW 18 miles from Knight Island Passage to Port Bainbridge, between Bainbridge and Evans Islands, Chugach Mountains; 60° 05' N, 148° 05' W; BGN 1910; (map 63). Variant: Flemming Passage. Named in 1787 by Samuel Hayward of Capt. Portlock's vessel (Portlock, 1789, p. 245).

Prince of Wales Peninsula: peninsula, see Seward Peninsula.

Prince of Wales Shoal: shoal, in Chukchi Sea, extends NE 20 miles from Cape Prince of Wales, at W end of Seward Peninsula; 65° 55' N, 168° 00' W; (map 111). Named and identified in 1890 on USC&GS Chart 900.

Prince of Wales, Cape: point of land, westernmost point of Seward Peninsula, 55 miles NW of Teller, Seward Peninsula Highlands; 65° 36' N, 168° 05' W; BGN 1944; (map 111). Variant: Cape Kigmil, Mys Gvozdeva, Mys Nykhta, Mys Printsya Valliyskago ili Nykhta. Named on Sunday, May 9, 1778, by Capt. Cook (1785, v. 2, p. 443), RN, who said, "This point of land, which I named Cape Prince of Wales, is the more remarkable, by being the Western extremity of all America hitherto known." The Eskimo name, published by Sarichev (1826, map 4), was "M[ys] Nykhta," that is, "Nykhta Cape." It is reported that in 1728 Bering named it "Mys Gvozdeva," or "Gvozdev Cape," probably for Michael Gvozdev, a Russian surveyor who made explorations in this area.

Prince Shoal: shoal, 0.3 miles across, at mouth of Purik Harbor, on Khantaak Island, 2.2 miles NW of Yakutat, Malaspina Coastal Plain; 59° 34' 20" N, 139° 46' 20" W; (map 46). Named by Lt. Giles B. Harber, USN, in 1892; published in 1901 by USC&GS on Chart 8455.

Prince William Sound: gulf, 70 miles wide, extends 30 miles N off Gulf of Alaska, E of Kenai Peninsula, bounded on S by Montague Island and Hinchinbrook Island; 60° 45' N, 147° 00' W; BGN Sixth Report; (map 63). Variant: Chugach Sound, Chugatch Sound, Chugatskay Zaliv, Entrada del Prince Guillermo, Guba Chugatskaya ili Printsya Villiama, Sandwich Sound, Tchousatskoi Golfe. Named by Capt. Cook (1785, v. 2, p. 366), RN, about May 20, 1778. It was called "Entrada del Prince Guillermo" by LaPerouse in 1786. The Eskimo name, published by Lt. Sarichev (1826, map 5), IRN, was "Guba Chugatskaya," or "Chugach Gulf."

Princesa de Asturias: bay, "on northwest side of Unalaska Island." Named by Martinez about July 28, 1788 (Wagner, 1937, p. 486).

Princesa Island: island, 1 mile long; E island of Twin Islands, Maurelle Islands, Alexander Archipelago, 55° 39' 30" N, 133° 40' 00" W; (map 4). Spanish name meaning "princess"; published in the 1925 Alaska Coast Pilot (p. 185).

Princess Bay: bay, extends N 7 miles off Behm Canal, on SE coast of Revillagigedo Channel, W of Smeaton Island, Alexander Archipelago; 55° 19' N, 131° 00' W; (map 3). Local navigators' name obtained in 1904 by H. C. Fassett, USBF.

Princess Head: point of land, on E shore of Unalaska Bay, on NE coast of Unalaska Island, Aleutian Islands; 53° 59' 03" N, 166° 24' 25" W; (map 23). Variant: Princes Head. Name reported in 1871 by W. H. Dall and published in 1900 by USC&GS. It was shown on the 1875 USC&GS Chart 821 as Princes Head.

Princess Peak: peak, 6,585 ft., in Taku Range, 1 mile S of The Dukes and 18 miles N of Juneau, Coast Mountains; 58° 33' 38" N, 134° 22' 30" W; BGN 1965; (map 11). Variant: Empress Peak. Named in 1964 by members of the Juneau Icefield Research Project.

Princess Peak: peak, see Snowy Mountain.

Princess Rock: rock, between Sanak and Caton Islands, Sanak Islands, Aleutian Range; 54° 24' 00" N, 162° 30' 30" W; (map 25). Name reported by Ferdinand Westdahl, USC&GS, commander of the Coast Survey steamer McArthur, who made surveys in this area in 1901.

Princeton Glacier: glacier, on E side of Kenai Peninsula, heads in Sargent Icefield, trends SE 5 miles to its terminus, 1 mile NW of head of Nassau Fiord, 18 miles W of Chenega, Chugach Mountains; 60° 18' N, 148° 22' W; BGN 1910; (map 63). Named in 1909 by George W. Perkins, USC&GS; presumably for Princeton University, Princeton, New Jersey.

Principe Carlos, Entrada de: water passage, "the entrance to Prince William Sound west of Montague Island." Named by Martinez in 1788. See Wagner (1937, p. 487).

Principe, Ensenada de: water passage, see Chatham Strait.

Principe, Ensenada deli: water passage, see Chatham Strait.

Prindle Volcano: volcano, 4,580 ft., E of Dennison Fork, 50 miles NE of Tok, Yukon- Tanana Highlands; 63° 43' N, 141° 38' W; BGN 1962; (map 85) Named by Waldo Smith, USGS, for Louis Marcus Prindle, 1865-1956, USGS geologist who published a photograph of this cinder cone (Mertie, 1931, pl. 8 B).

Prindle, Mount: mountain, 5,286 ft., 31 miles NW of Chena Hot Springs and 72 miles SW of Circle, Yukon-Tanana Highlands; 65° 27' 40" N, 146° 28' 25" W; (map 104). Named in 1960 by USGS for Louis Marcus Prindle, 1865-1956, USGS geologist, who worked in central Alaska from 1902 through 1911.

Prinsep, Mount: mountain, 6,342 ft., on Alaska-Canada boundary, 2.6 miles NW of Chilkat Peak and 33 miles W of Skagway, St. Elias Mountains; 59° 31' 30" N, 136° 14' 15" W; BGN 1954; (map 45). Named "Prinsep Peak" in 1926 by United States and Canada for G. T. Prinseps, Ottawa, surveyor with the Canadian section of the IBC.

Printsa Valliyskago ili Nykhta, Mys: point of land, see Cape Prince of Wales.

Printsa Villiama, Guba: gulf, see Prince William Sound.

Pritchard Rock: rock, NW of Whale Island, in Galankin Islands, 1.5 miles S of Sitka, Alexander Archipelago; 57° 01' 44" N, 135° 20' 52" W; (map 9). Variant: Pritchard Shoals. Named in 1880 by the U.S. Navy and published by USC&GS on Chart 725.

Pritchard Shoals: rock, see Pritchard Rock.

Privilof Islands: islands, see Pribilof Islands.

Problem Creek: stream, flows NE 0.5 miles to Mystery Creek which flows to Shovel Creek, 6 miles N of Solomon, Seward Peninsula Highlands; 64° 39' N, 164° 28' W; (map 95). Prospectors' name shown as "Problem Gh." on Arthur Gibson's "Map of Cape Nome Precinct" dated 1904.

Procession Rocks: rocks, group of, in Port Bainbridge, off S coast of Bainbridge Island, 22 miles SW of Chenega, Chugach Mountains; 60° 25' N, 148° 17' W; (map 63). Local name reported in 1905 by USC&GS.

Procrastination Creek: stream, flows NE 5 miles to Coleen River, 7 miles E of Lois Dome and 44 miles N of Coleen Mountain, Brooks Range; 67° 43' N, 142° 32' W; (map 121). Local name reported in 1956 by T. E. Taylor, USGS.

Profile Point: promontory, 184 ft., on S shore of Nazan Bay, on E coast of Atka Island, Aleutian Islands; 52° 10' 40" N, 174° 09' 00" W; (map 18). Name published in 1943 on a USC&GS chart.

Profit Island: island, see Gui Kangulas.

Progressive Creek: stream, flows SW 5 miles to Tanana River, 5.5 miles ENE of Big Delta, Yukon-Tanana Highlands; 64° 10' 30" N, 145° 41' 15 " W; (map 101). Local name reported in 1950 by USGS.

Project Peak: peak, see Emperor Peak.

Prokhoda Islands: islands, see Passage Islands.

Prokhoda Point: point of land, S tip of Little Sitkin Island, Rat Islands, Aleutian Islands; 51° 54' 05" N, 178° 30' 15" E; BGN 1937; (map 15). Name published by U.S. Navy Hydrog. Office on a 1935 chart; derived from the Russian word "prokhoda," meaning "passage."

Prokhoda, Ostrov: island, see Prokoda Island.

Prokhoda, Ostrov: islands, see Passage Islands.

Prokoda Island: island, 0.3 miles long, in Narrow Strait, 9.3 miles NW of Kodiak, between Spruce and Kodiak Islands; 57° 54' 40" N, 152° 30' 20" W; BGN 1909; (map 34). Variant: Ostrov Prokhoda, Prikhoda Island. Transliteration in 1909 by USC&GS of the name "Os[trov] Prokhoda" meaning "passage island" given by Capt. Tebenkov (1852, map 23).

Prolewy Point: point of land, on E coast of Lindenberg Peninsula, Kupreanof Island, W shore of Frederick Sound, 2 miles N of Petersburg, Alexander Archipelago; 56° 50' 10" N, 132° 56' 20" W; (map 6). Variant: Mys Proliv, Proliva Point. Name published by USC&GS in 1883 Coast Pilot (p. 115); derived from the Russian name "Mys Proliv" given in 1838 by G. Lindenberg.

Prolewy Rock: rock, in Sergius Narrows of Peril Strait, off NW coast of Baranof Island, Alexander Archipelago; 57° 24' 20" N, 135° 37' 40" W; (map 9) Russian word from "proliv," meaning "strait"; probably given in 1884 by Comdr. J. B. Coghlan, USN.

Prolewy Rocks: island, 1 mile long, in N end of Wrangell Narrows, 1 mile N of Petersburg, Alexander Archipelago; 56° 59' 30" N, 132 57 W; (map 6). Variant: Middle Rock. Russian name from "proliv" meaning "strait" given in 1884 by Comdr. J. B. Coghlan, USN; called "Middle Rock in 1868 by Comdr. R. W. Meade, USN.

Proliv, Mys: point of land, see Prolewy Point.

Proliva Point: point of land, see Prolewy Point.

Prominence, Cape: point of land, between Usuf and Open Bays, S coast of Unalaska Island, Aleutian Islands; 53° 26' 45" N, 166° 45' 15" W; (map 23). Variant: Cape Idaliuk, Idalyukh Cape, Eedalook. Named by USBF in 1888. This cape was called "M[ys] Idalyukh," or "Cape Idalyukh," by Capt. Tebenkov (1852, map 26), IRN.

Prominent Rock: rock, at Cape Aksit, on SE coast of Unimak Island, Aleutian Islands; 54° 39' 18" N, 163° 25' 20" W; (map 25). Descriptive name published in 1949 on a USGS map.

Promisla Bay: bay, 0.7 miles across, on S coast of Krestof Island, 9.5 miles NW of Sitka, Alexander Archipelago; 57° 09' N, 135° 30' W; (map 9). Variant: Providence Bay, Zaliv Promysla. Russian name meaning "providence," given in 1833 by the navigator Ens. Vasiliev; published in 1848 on Russian Hydrog. Dept. Chart 1397 as "Zal[iv] Promysla" (from "Bozhiy Promysl").

Promontory Cove: cove, 1 mile across, on SW shore of Unimak Bight on S coast of Unimak Island, Aleutian Islands; 54° 32' N, 164° 20' W; (map 24). Named in 1888 by USBF; derived from nearby "Promontory Cape" which was later changed to Cape Lutke.

Promontory Hill: hill, 1,000 ft., on S coast of Unimak Island, Aleutian Islands; 54° 25' 45" N, 164° 31' 00" W; (map 24). Descriptive name published in 1902 by USC&GS.

Promontory, Cape: point of land, see Lutke Cape.

Promontory, The: point of land, see Rocky Point.

Promysla, Zaliv: bay, see Promisla Bay.

Propagation Island: island, see Tanginak Island.

Propas'tchy-koverushka: hill, see South Sealion Hill.

Propas'tcky: point of land, see Sea Lion Point.

Prospect Bay: bay, see Warner Bay.

Prospect Creek: stream, flows NE 0.7 miles to Discovery Creek, 12 miles NE of Nome, Seward Peninsula Highlands; 64° 37' N, 165° 04' W; (map 94). Prospectors' name shown on map dated September 1901 of Cape Nome goldfields by David Fox, Jr.

Prospect Creek: stream, flows SE 5 miles to Mallard Cove, in Port Snettisham, 29 miles SE of Juneau, Coast Mountains; 58° 02' 50" N, 133° 48' 15" W; BGN 1937; (map 12). Name published in 1921 by USFS.

Prospect Creek: stream, flows W 0.6 miles to Snake River, 8 miles NW of Nome, Seward Peninsula Highlands; 64° 38' N, 165° 28' W; (map 94). Prospectors' name reported in 1899 by D. C. Witherspoon (in Schrader and Brooks, 1900, map 2), USGS.

Prospect Creek: stream, flows W 14 miles to Jim River 12 miles E of its junction with South Fork Koyukuk River, 27 miles SE of Bettles, Kokrines-Hodzana Highlands; 66° 47' 30" N, 150° 44' 00" W; (map 117). Local name reported in 1956 by T. E. Taylor, USGS.

Prospect Creek: stream, heads at glacier, flows W 6.3 miles to Johnson River, 40 miles NE of Paxson, Alaska Range; 63° 31' 55" N, 144° 49' 2" W; BGN 1937; (map 86). Local name shown on a 1927 manuscript map of the "Endicott and Haley Hunting Expedition."

Prospect Creek: stream, heads in Dutch Hill, flows W, between Blank and First Creeks, 1.5 miles to Dutch Creek, 35 miles NW of Talkeetna, Alaska Range; 62° 35' 25" N, 151° 02' 4" W, (map 81). Prospectors' name reported in the 1930 s by USGS.

Prospect Glacier: glacier, on Resurrection Peninsula, trends E 1 mile to its terminus, 8 miles SE of Seward, Chugach Mountains; 60° 01' 35" N, 149° 16' 05" W; BGN 1911; (map 63). So named in 1908 by Grant and Higgins (1913, p. 55), USGS, "because of a copper prospect situated at the edge of the glacier."

Prospect Gulch: ravine, tributary to Gold Creek, about 2 miles W of Juneau, Coast Mountains; 58° 18' N, 134° 20' W; (map 11). Miners' name for a gulch subsequently destroyed by mining operations (DeArmond, 1957, p. 22).

Prospect Head: mountain, see Ship Mountain.

Prospect Point: point of land, in Port Snettisham, on N shore of Mallard Cove, 2.5 miles N of Sharp Point and 29 miles SE of Juneau, Coast Mountains; 58° 02' 55" N, 133° 47' 35" W; (map 12). Name derived from Prospect Creek; published in 1940 by USC&GS.

Prospect Point: point, on right bank of Yukon River, 26 miles NE of Nulato, Koyukuk Lowland; 64° 48' N, 157° 16' W; (map 97). Riverboat pilots' name shown on a 1940 "Navigation Chart of the Tanana-Yukon Rivers, published by U.S. Dept. of Interior.

Prospectors Peak: mountain peak, 5,516 ft., 9.5 miles NE of Valdez, Chugach Mountains; 61° 11' 45" N, 146° 03' 10" W; BGN 1960; (map 68). Named in 1959 by L. E. Nielsen "in memory of all the prospectors of 1898 who crossed over the Valdez Glacier."

Protassof Bay: bay, S tip of Bechevin Bay, between Nichols Point and Morzhovoi, at SW tip of Aleutian Range; 54° 53' N, 163° 22' W; (map 25). Russian name reported in 1926 by USC&GS, but not shown on any maps.

Protassof: village, see Morzhovoi.

Protection Bay: bay, 1.7 miles across, on S coast of Unalaska Island, Aleutian Islands; 53° 35' N, 166° 32' W; (map 23). Name given in 1888 by the USBF.

Protection Head: point of land, on N coast of Prince of Wales Island, 3 miles SW of village of Point Baker, Alexander Archipelago; 56° 18' 45" N, 133° 39' 30" W; (map 6). Named in 1901 by USC&GS.

Protection Point: point of land, on E coast of Nushagak Peninsula, between Bristol and Nushagak Bays, 39 miles SW of Dillingham, Bristol Bay Lowland; 58° 29' 30" N, 158° 41' 45" W; (map 40). Variant: Mys Povorotnoi, Mys Povorotnyy. Name given as "M[ys] Povorotnoi," meaning "Turn Point" by Capt. Tebenkov (1852, map 4), IRN, because the coast line turns at this point. Renamed "Protection Point" in 1890 by USBF.

Protection, Port: bay, extends NW 3.5 miles to Sumner Strait, 1 mile S of village of Point Baker, on N coast of Prince of Wales Island, Alexander Archipelago; 56° 20' N, 133° 38' W; (map 6). Named by Capt. George Vancouver, RN, who on September 8, 1793, rode out a storm here.

Protestant Episcopal Mission of Our Savior: locality, see Tanana.

Providence Bay: bay, see Promisla Bay.

Providence, Cape: point of land, on E coast of Unalaska Island, Aleutian Islands; (map 23). Baker (1906, p. 513) reports that the cape is "not identified," and that the name was given in 1778 by Capt. Cook (1785, v. 2, p. 527), RN. The name was published by Galiano (atlas, map 3), in 1802.

Providence, Cape: point of land, trends SE 7 miles between Port Wrangell and Chiginagak Bay on the S shore of the Alaska Peninsula, Aleutian Range; 56° 59' N, 156° 33' W; (map 31). Variant: Cap der Vorsehung, Cape Prowitschenia, Mys Provideniya, Mys Prividinya, Naluktchvak. Named "Mys Provideniya," i.e. "Cape Providence," by Ens. Vasiliev, IRN, in 1831; his skin-boat-bidarka was wrecked here and Vasiliev narrowly escaped drowning. The Aleut called the point of land "Naluktchvak," according to Lutke (1836, p. 277).

Providence, Point: point of land, on W coast of Prince of Wales Island, between Bucareli Bay and Port Estrella, at entrance to Ulloa Channel, Alexander Archipelago; 55° 21' 30" N, 133° 16' 00" W; (map 4). Variant: Ostrov Providens, Punta de la Providencia. Translation of the name "Punta de la Providencia" given in 1775-79 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle.

Providencia, Punta de la: point of land, see Providence, Point.

Provideniya, Mys: point of land, see Providence, Cape.

Providens, Ostrov: point of land, see Providence, Point.

Providiniya, Mys: point of land, see Providence, Cape.

Provodnik: island, see Leader Island.

Prowitschenia, Cape: point of land, see Providence, Cape.

Prudhoe Bay: bay, 9.6 miles across, between Heald Point and Point McIntyre, on Beaufort Sea coast, 15 miles SE of Beechey Point, Arctic Plain, 70° 22' N, 148° 22' W; (map 150). Variant: Prudoe Bay. So named by Franklin, RN (1828, p. 159) August 16, 1826. Leffingwell (1919, p. 98) writes, "Probably this bay includes 'Yarborough Inlet'," but Franklin's map does not indicate this.

Prudhoe Mound: pingo, elev. 30 ft., 3 miles inland from S shore of Prudhoe Bay, on Beaufort Sea coast, Arctic Plain; 70° 17' N, 148° 29' W; (map 150). Named and used as a triangulation station by Leffingwell (1919,p.41) in 1911.

Prudoe Bay: bay, see Prudhoe Bay.

Prybiloff Islands: islands, see Pribilof Islands.

Psalm Lake: lake, 0.4 miles long, SW of Birchwood and 16 miles NE of Anchorage, Cook Inlet Lowland; 61° 22' 50" N, 149° 33' 35" W; BGN 1962; (map 69). Variant: Cleo Lake. Biblical name given in 1962 by the Western Area Alaska Camp Committee of the Methodist Church. The area is used as a church retreat.

Ptarmigan Creek: stream, 9 miles long, on Seward Peninsula, heads at 65° 16' 25" N, 164° 58' 05" W, flows S to Kuzitrin River, 26 miles W of Mount Bendeleben and 38 miles S of Taylor, Seward Peninsula Highlands; 65° 11' 20" N, 164° 55' 40" W; BGN 1966; (map 110). Variant: Big Ptarmigan Creek. Prospectors' name reported in 1901 by T. G. Gerdine, USGS.

Ptarmigan Creek: stream, flows E 1.2 miles to Homestake Creek, 15 miles NE of Healy, Alaska Range; 63° 59' 20" N, 148° 33' 50" W; (map 87). Prospectors' name shown on a 1910 fieldsheet by J. W. Bagley, USGS; published by Capps (1912, pl. 1), USGS.

Ptarmigan Creek: stream, flows E 3.2 miles to Limestone Creek 2 miles N of its junction with Middle Fork Chistochina River and 28 miles NE of Paxson, Alaska Range; 63° 07' 00" N, 144° 38' 18" W; (map 86). Name reported in 1952 by USGS.

Ptarmigan Creek: stream, flows N 1.4 miles to Lower Willow Creek which flows to Casadepaga River, 18 miles N of Solomon, Seward Peninsula Highlands; 64° 49' N, 164° 28' W; (map 95) Prospectors' name reported on a map of Cape Nome goldfields by David Fox, Jr., dated 1901.

Ptarmigan Creek: stream, flows NW 1 mile to Fox River, 25 miles NE of Solomon, Seward Peninsula Highlands; 64° 46' 48" N, 163° 47' 45" W; (map 95) Prospectors' name reported on a map of Cape Nome goldfields by David Fox, Jr., dated 1901.

Ptarmigan Creek: stream, flows SE 2.2 miles to Candle Creek, 12.5 miles SW of Candle and 32 miles NE of Imuruk Lake, Seward Peninsula Highlands; 65° 45' N, 162° 08' W; (map 110). Prospectors' name reported in 1903 by D. C. Witherspoon (in Moffit, 1905, pl. 2), USGS.

Ptarmigan Creek: stream, flows SE 7.5 miles, joins Eagle Creek to form Birch Creek, 50 miles SW of Circle, Yukon-Tanana Highlands; 65° 26' 20" N, 145° 31' 45" W; (map 104). Variant: Birch Creek. Named by prospectors; reported in 1903 by USGS (Prindle, 1905, pl. 13).

Ptarmigan Creek: stream, flows SE 8 miles to Basin Creek, 6 miles SW of Long and 28 miles SW of Ruby, Kilbuck-Kuskokwim Mountains; 64° 20' 48" N, 155° 39' 48" W; (map 98). Prospectors' name reported in 1913 by Eakin (1914, pl. 3), USGS.

Ptarmigan Creek: stream, flows SW 0.8 miles, joins Derby Creek at Norton Sound, 8.5 miles ESE of Nome, Seward Peninsula Highlands; 64° 28' N, 165° 09' W; (map 94). Prospectors' name reported in 1904 by T. G. Gerdine, USGS.

Ptarmigan Creek: stream, flows SW 25 miles to the Chilikadrotna River, 40 miles N of Nondalton, Alaska Range; 60° 35' 15" N, 154° 52' 00" W; (map 61). Local name reported in 1954 by USGS.

Ptarmigan Creek: stream, flows SW 4 miles to Chatanika River, 7 miles NE of Twin Buttes and 41 miles NE of Fairbanks, Yukon-Tanana Highlands; 65° 14' 15" N, 146° 49' 15" W; (map 104). Prospectors' name reported in 1954 or 1955 by USGS topographers.

Ptarmigan Creek: stream, heads at Rock Lake, flows NE, through Ptarmigan Lake, 15 miles to Beaver Creek, 72 miles NE of McCarthy, Alaska Range; 61° 52' N, 141° 09' W; BGN 1922; (map 67). Local name reported in 1908-09 by IBC surveyors; published in 1914 on IBC Sheet 32 (1918 atlas).

Ptarmigan Creek: stream, heads in Rampart Mountains, flows NE and NW 20 miles to Tozitna River, 24 miles N of Tanana, Kokrines-Hodzana Highlands; 65° 31' 40" N, 152° 08' 30" W; BGN 1959; (map 106). Variant: South Fork Tozitna River. Local name reported in 1956 by Orth.

Ptarmigan Creek: stream, heads in small glacier, flows 6 miles SW to North Fork Bremner River, 2.5 miles NW of 1950 terminus of Bremner Glacier and 81 miles NE of Cordova, Chugach Mountains; 60° 51' 55" N, 143° 31' 30" W; (map 65). Local name published by Moffit (1914, pl. 1), USGS.

Ptarmigan Creek: stream, heads in Thompson Pass, flows NE 6 miles to Tsina River at Ptarmigan, "2 miles NE of Valdez, Chugach Mountains; 61° 11' 20" N, 145° 38' 00" W; (map 68). Name reported in 1900 by F. C. Schrader, USGS.

Ptarmigan Creek: stream, heads on Molybdenum Ridge, flows NE 7.5 miles to Delta Creek N of its junction with Hayes Creek, 15 miles NE of Mount Hayes, Alaska Range; 63° 48' 25" N, 146° 28' 40" W; (map 86). Name reported in 1952 by USGS.

Ptarmigan Creek: stream, in Glacier Bay National Monument, flows N 2.2 miles to Glacier Bay, 2.5 miles NW of Reid Inlet and 74 miles NW of Hoonah, St. Elias Mountains; 58° 53' 15" N, 136° 53' 00" W; BGN 1962; (map 10). Local name reported in 1961 by NPS.

Ptarmigan Creek: stream, in Ptarmigan Valley, heads in lake at Houston Pass, flows S 9.5 miles to Styx River 1 mile E of its junction with South Fork Kuskokwim River, 89 miles NW of Tyonek, Alaska Range; 61° 55' N, 153° 09' W; (map 71). Local name reported in 1958 by USGS.

Ptarmigan Creek: stream, on Alaska Peninsula flows W 6 miles to Meadow Lake, 28 miles NW of Augustine Island, Aleutian Range; 59° 38' 40" N, 153° 59' 00" W; (map 51). Variant: Ptarmigan Flat. Name originally reported as Ptarmigan Flat by W. E. Smith, Chief Engineer, Short Line Railway, but name was transferred by local usage to the stream and published by Martin and Katz (1912a, pl. 1), USGS.

Ptarmigan Creek: stream, on Kenai Peninsula, heads at Ptarmigan Lake, flows W 3 miles to Kenai Lake, 20 miles N of Seward, Chugach Mountains; 60° 24' 15" N, 149° 22' 03" W; (map 63). Local name reported in 1904 by Moffit (1906, pl. 2), USGS.

Ptarmigan Creek: stream, see Big Ptarmigan Creek.

Ptarmigan Creek: stream, see Little Ptarmigan Creek.

Ptarmigan Dome: mountain, 3,267 ft., 1.4 miles NNE of North Dome, 75 miles NW of Hoonah, St. Elias Mountains; 58° 34' 45" N, 137° 19' 15" W (map 10). Name reported by members of the Harvard-Dartmouth Expedition, 1933-34 (Washburn and Goldthwait, 1935, map).

Ptarmigan Drop Roadhouse: locality, see Ptarmigan.

Ptarmigan Drop: locality, along Richardson Highway, 1 mile SW of Ptarmigan and 21 miles NE of Valdez, Chugach Mountains; 61° 11' N, 145° 39' W; (map 68). Name published by USGS (Moffit and Maddren, 1909, pl. 1) because of the abrupt drop of the highway to a roadhouse once popular with travelers. The name may also apply to the abrupt drop of Ptarmigan Creek forming a canyon across a ridge.

Ptarmigan Flat: stream, see Ptarmigan Creek.

Ptarmigan Glacier: glacier, heads on N slope of Cairn Peak, trends N 2 miles to stream flowing to 1962 terminus of Lemon Creek Glacier 5 miles N of Juneau, Coast Mountains; 58° 23' 10" N, 134° 22' 30" W; (map 11). Name published in 1962 by USGS.

Ptarmigan Gulch: ravine, 1.2 miles long, in Russian Mountains, on left bank of Mission Creek 11 miles NE of Aniak, Kilbuck-Kuskokwim Mountains; 61° 37' 45" N, 159° 12' 50" W; BGN 1948; (map 73) Local name reported in 1945 by USGS; given "for the abundance of ptarmigan that flock there during certain seasons of the year."

Ptarmigan Gulch: ravine, trends SE 2.5 miles to Harrison Creek, 42 miles SW of Circle, Yukon-Tanana Highlands; 65° 21' 25" N, 144° 59' 20" W; (map 104). Named by prospectors; reported in 1896 by USGS (Spurr, 1898, pl. 50).

Ptarmigan Head: hill, 2,850 ft., on Kenai Peninsula in Caribou Hills, 5 miles N of Caribou Lake and 28 miles N of Homer, Cook Inlet Lowland; 59° 59' N, 151° 04' W; (map 50). Local name reported and published by USGS in the 1950's.

Ptarmigan Island: island, 0.7 miles long, in Baird Inlet, 4 miles NE of Kalarvik Point and 82 miles W of Bethel, Yukon-Kuskokwim Delta; 60° 44' N, 164° 08' W; (map 58). Name used by personnel of Clarence Rhode National Wildlife Range; reported in 1965.

Ptarmigan Lake: lake, 0.25 miles across, 3.2 miles NE of Jumbo Dome and 14 miles NE of Healy, Alaska Range; 63° 59' 15" N, 148° 35' 30" W; (map 87). Local name obtained in 1910 by J. W. Bagley, USGS.

Ptarmigan Lake: lake, 2.5 miles long, in course of Ptarmigan Creek, 2 miles NE of Rock Lake and 64 miles NE of McCarthy, Alaska Range; 61° 51' 30" N, 141° 10' 00" W; (map 67). Local name reported in 1908 by S. R. Capps, USGS (Moffit and Knopf, 1910, pl. 1); applied to lake now called Rock Lake. Present application proposed in 1963 by USGS.

Ptarmigan Lake: lake, on Kenai Peninsula, extends SE 4 miles from head of Ptarmigan Creek, 21 miles NE of Seward, Chugach Mountains 60° 23' 45" N, 149° 15' 00" W; (map 63). Local name reported in 1838 by Mendenhall (1900, map 16), USGS.

Ptarmigan Lake: lake, see Rock Lake.

Ptarmigan Peak: mountain, 2,972 ft., on Baranof Island, 9.4 miles NW of Port Alexander, Alexander Archipelago; 56° 22' N, 134° 46' W; (map 5). Local name recorded in 1951 by USGS.

Ptarmigan Point: point of land, S point of entrance to Alpine Cove, near head of Deadman Bay, on S coast of Kodiak Island; 57° 07' 4S' N, 153° 47' 00" W; (map 34). Local name reported in 1954 by USGS.

Ptarmigan Ridge: ridge, 1.5 miles long, along W edge of Ptarmigan Glacier, 5 miles N of Juneau. Coast Mountains; 58° 22' 30" N, 134° 23' 00" W; (map 11). Local name reported in 1965 by D. A. Brew and A. B. Ford, USGS.

Ptarmigan Rock: promontory, NE of Slate Creek, 3 miles NE of Mount Brynteson and 12 miles N of Nome, Seward Peninsula Highlands; 64° 40' N, 165° 20' W; (map 94). Prospectors' name shown on the 1902 "Map of the Nome and Snake River Country" by J. M. Davidson.

Ptarmigan Valley: valley, extends NE 20 miles from junction of Ptarmigan Creek and Styx River, 100 miles SE of McGrath, Alaska Range; 62° 05' N, 153° 05' W; (map 80). Local name reported-in 1931 by USGS

Ptarmigan: locality, along Richardson Highway at junction of Ptarmigan Creek and Tsina River 1 mile E of Ptarmigan Drop and 22 miles NE of Valdez, Chugach Mountains; 61° 11' 20" N, 145° 37' 20" W; (map 68). Variant: Ptarmigan Drop Roadhouse. This place originated as a roadhouse or station on the Valdez winter trail.

Ptichey, Ostrov: island, see Bird Island.

Ptichi Island: island, see Bird Island.

Ptichi, Cape: point of land, see Bird Cape.

Ptichi, Ostrova: rocks, see Porpoise Rocks.

Ptichie Island: island, see Bird Island.

Ptichiy, Mys: point of land, see Bird Point.

Ptichiy, Ostrov: island, see Bird Island.

Ptichnie: island, see Bird Island.

Ptichnoi: island, see Bird Island.

Ptitchny: island, see Bird Island.

Ptitsa: point of land, see Bird Cape.

Ptmichtalu River: stream, see Pikmiktalik River.

Ptumichtalu River: stream, see Pikmiktalik River.

Puale Bay: bay, 9 miles across, on E coast of Alaska Peninsula, 37 miles NW of Karluk, Aleutian Range; 57° 41' N, 155° 29' W; BGN 1943; (map 35). Variant: Cold Bay. Name published by Capt. Lutke (1836, p. 276), IRN, as “Pouale” and spelled without the “o” by USC&GS in 1943. This feature was called “Bukh[t] Studenaya” meaning “Cold Bay” by the Russian Hydrog. Dept. in 1847 “on account of the strong cold winds drawing through a deep ravine from Becharof Lake.”

Publituk Creek: stream, flows W 15 miles to John River, 5 miles NE of Cairn Mountain and 66 miles NW of Wiseman, Brooks Range; 67° 53' N, 152° 17' W; BGN 1932; (map 124). Named by Robert Marshall about 1930, it is an Eskimo word “denoting the hollow, drumlike sound one hears while walking on shell ice.”

Puckmummie Creek: stream, flows NW 3 miles to Casadepaga River 0.3 miles S of its junction with Niukluk River, 30 miles NE of Solomon, Seward Peninsula Highlands; 64° 58' N, 164° 05' W; (map 95). Variant: Pukmonie Creek. Eskimo name spelled “Pukmonie” on the 1900 “Map of Nome Peninsula” by J. M. Davidson and B. D. Blakeslee. “Puckmummie” reported in 1907 by USGS geologists (Smith, P. S., 1910, pl. 3).

Puddin Lake: lake, 1 mile across near head of Prince Creek, 24 miles N of junction of Killik and Colville Rivers, Arctic Slope; 69° 18' 30” N, 153° 27' 00” W; BGN 1959; (map 142). Descriptive name given in 1959 by William P. Brosge, USGS, because it was a “good description of the [pudding-like] bog surrounding this lake.”

Puddingstone Hill: promontory, 4,200 ft., SW end of a ridge between Chickaloon River and Boulder Creek, 31 miles NE of Palmer, Talkeetna Mountains; 61° 51' 30” N, 148° 10' 30” W; (map 69) Local name reported in 1913 by USGS.

Puente, Punta de: point of land, see Zaikof Point.

Puercas, Las: islands, "south of Point San Roque, Bucareli Bay," Alexander Archipelago; (map 4). Spanish name meaning "the sows" given by the 1779 Arteaga expedition (Wagner, 1937, p. 487).

Puertezuelo, El: cove, "in Port San Antonio in Bucareli Bay," Alexander Archipelago; (map 4). Spanish name here meaning "little port" given by the 1779 Arteaga expedition. (Wagner, 1937, p. 487).

Puerto: estuary, see Fidalgo, Port.

Puff Creek: stream, flows SE 2 miles to Fish River, 11 miles SE of Council and 30 miles NE of Solomon, Seward Peninsula Highlands; 64° 45' N, 163° 32' W; (map 95). Prospectors' name reported on a map of Cape Nome gold fields by David Fox, Jr., dated 1901.

Puffin Bay: bay, 1 mile across, 8 miles NW of Cape Ommaney, on S coast of Baranof Island, Alexander Archipelago; 56° 15' 30" N, 134° 48' 00" W; (map 5). Variant: Toporkof Bay, Toporkoff Bay, Toporkov Bay, Toporkova Bukhta. Name published by USC&GS in 1883 Coast Pilot (p. 132); derived from "Toporkova Bukhta"; published in 1850 by the Russian American Company.

Puffin Island: island, 0.2 miles long, 0.5 miles SW of Sitkalidak Island, SE of Kodiak Island; 57° 00' 20" N, 153° 21' 15" W; (map 34). Variant: Ostrov Toporkov, Toporkof. Translation of "O[strov] Toporkov" published by Capt. Tebenkov (1852, map 23). This probably refers to the tufted puffin, *Lunda cirrhata*, one of the more abundant sea birds in this area. It is sometimes referred to as the sea-plant.

Puffin Island: island, 0.2 miles long, between Saint Paul Harbor and Chiniak Bay, 2 miles S of Kodiak, Kodiak Island; 57° 45' 20" N, 152° 26' 00" W; (map 34). Variant: Ostrov Toporkov, Toporkof. Transliteration of the name "Os[strov] Toporkov" published by Sarichev (1826, map 16).

Puffin Island: island, 0.5 miles long, on E side of Glacier Bay, 14 miles N of Strawberry Island, St. Elias Mountains; 58° 43' 45" N, 136° 00' 00" W; BGN 1954; (maps 10, 11). Variant: Cliff Island. So named in 1948 by BGN "because it is a nesting place for puffins"; USC&GS in 1940 proposed the name "Cliff Island" because of the bold cliff on the north shore.

Puffin Island: island, 2 miles NW of Chamisso Island, 58 miles SW of Selawik, Kotzebue-Kobuk Lowland; 66° 14' N, 161° 51' W; (map 114). Named in 1826 by Capt. Beechey (1831, p. 255), RN. He wrote, "Detached from Chamisso there is a steep rock which by way of distinction we named Puffin Island." The horned puffin is one of the most abundant Alaskan sea birds.

Puffin Peak: peak, 1,539 ft., on E end of E Amatuli Island, in Barren Islands, 72 miles NE of Afognak, Chugach Mountains; 58° 55' 10" N, 151° 58' 25" W; (map 43). Name published by USC&GS in 1911 on Chart 8555.

Puffin Point: point of land, 7.5 miles NW of Cape Ommaney, on S coast of Baranof Island, Alexander Archipelago; 56° 14' 10" N, 134° 48' 10" W; (map 5). Variant: Mys Toporkovy,

Toporkof Point, Toporkov Point. Name published by USC&GS in 1883 Coast Pilot (p. 132); derived from "Mys Topor-kovy"; published in 1850 by the Russian American Company.

Puffy Creek: stream, flows 2 miles S to Puffy Slough, 6 miles E of Katalla, Malaspina Coastal Plain; 60° 12' N, 141° 20' W; (map 64). Local name reported in 1904 by G. C. Martin as being named for McIver Forbes Morrison McIver Campbell, head of Clan McIver of Scotland, who was nicknamed "Puffy." He was probably associated with early oil exploration in the region.

Puffy River: stream, see Edwardes River.

Puffy Slough: stream, flows W 2.5 miles to Redwood Bay, 5 miles E of Katalla, Malaspina Coastal Plain; 60° 11' N, 144° 22' W; (map 64). Local name reported in 1904 by G. C. Martin. Name is derived from nearby creek.

Puget Bay: bay, 6.5 miles across, on SE coast of Kenai Peninsula, 35 miles SE of Seward, Chugach Mountains; 59° 56' N, 148° 31' W; BGN 1910; (map 49) Name reported in 1910 by USGS.

Puget Cove: cove, 0.6 miles long, 0.7 miles E of Shipyard Cove on Yakutat Roads, 1 mile N of Yakutat, Malaspina Coastal Plain; 59° 33' 55" N, 139° 43' 00" W; (map 46). Named by W. H. Dall, USC&GS, in 1879 for Lt. Peter Puget, RN, companion of Capt. George Vancouver, RN, who explored this area in 1794. The name was published in the 1883 Coast Pilot (p. 209).

Puget Glacier: glacier, heads on Pinnacle Mountain, Kenai Peninsula, trends SE 6 miles to its terminus, 1.5 miles N of Puget Bay, 34 miles SE of Seward, Chugach Mountains; 60° 06' 45" N, 148° 37' 45" W; BGN 1910; (map 63). Named in 1908 by Grant and Higgins (1910, pls. 1, 2), USGS. Name derived from nearby Cape Puget.

Puget Peninsula: peninsula, 21 miles long, between Yakutat Bay and Russell Fiord, 15 miles NE of Yakutat, St. Elias Mountains; 59° 45' N, 139° 30' W; (map 46). Named by Tarr and Martin (1906, p. 146), USGS, for Lt. Peter Puget, RN, a member of Capt. George Vancouver's party.

Puget, Cape: point of land, on SE coast of Kenai Peninsula, at junction of Port Bainbridge and Puget Bay, 38 miles SE of Seward, Chugach Mountains; 59° 56' 35" N, 148° 26' 30" W; (map 49) Named about June 1, 1974, by Lt. Joseph Whidbey, RN, for Lt. Peter Puget, RN, also of Capt. George Vancouver's party (Vancouver, 1798, v. 3, p. 176).

Puguiviliak: locality, see Powoiliak Camp.

Pugupiliak Cape: point of land, see Powoiliak Point.

Pugupiliak: locality, see Powoiliak Camp.

Pugutak Lake: lake, 3.5 miles long, between Mumik and Tunusiktok Lakes, 22 miles SE of Point Lay, Arctic Plain; 69° 36' N, 162° 12' W; (map 145). Eskimo name obtained at Point Lay by Orth in 1956, meaning "bag" (poq).

Puguviliak Cape: point of land, see Powooiliak Point.

Puguviliak: locality, see Powooiliak Camp.

Puivlik Bluff: bluff, on right bank of Colville River N of junction of Killik River, Arctic Slope; 69° 02' N, 153° 51' W; (map 142). Eskimo name obtained in 1956 at Anaktuvuk Pass by T. E. Taylor, USGS.

Puk Palik Lake: lake, 7 miles long, W of Takslesluk Lake, 15 miles NE of Baird Inlet, Yukon-Kuskokwim Delta; 61° 02' N, 163° 14' W; (map 74). Eskimo name obtained at Bethel by USC&GS in 1949.

Pukmonie Creek: stream, see Puckmummie Creek.

Puknikruk: locality, on Kuk River, 25 miles S of Wainwright, Arctic Plain; 70° 17' 05" N, 159° 52' 50" W; (map 146). Eskimo name reported in 1955 by AMS.

Pulizzi Island: island, 0.2 miles across, in Icy Bay, off N coast of Chichagof Island, 1 mile E of Spasski Bay and 35 miles SW of Juneau, Alexander Archipelago; 58° 06' 10" N, 135° 17' 25" W; (map 11). Named in 1901 by E. F. Dickins, USC&GS, and published in the 1901 Coast Pilot (p. 204).

Pullin Lake: lake, 0.6 miles long, 1.5 miles SE of Northway, Alaska Range; 62° 57' N, 141° 53' W; (map 84). Local name reported by USGS in 1954.

Pulpit Rocks: rocks, in Chapel Cove, on SW coast of Adak Island, Aleutian Islands; 51° 38' 45" N, 176° 48' 25" W; (map 17). Descriptive name published by USC&GS in the 1944 Aleutian Coast Pilot (p. 113).

Pultava Island: island, see Poltava Island.

Pultawa Island: island, see Poltava Island.

Pumahknuk Pond: lake, see Pumaknak Pond.

Pumaknak Pond: lake, 0.3 miles across, N of Pond Creek, 8.6 miles NE of Cape Thompson, Arctic Slope; 68° 11' 20" N, 165° 40' 00" W; BGN 1963; (map 129). Variant: Pumahknuk Pond. Eskimo name reported in 1962 by personnel of Project Chariot.

Pumice Creek: stream, flows NW 33 miles to King Salmon River, on Alaska Peninsula, 19 miles SW of Ugashik, Bristol Bay Lowland; 57° 19' 00" N, 157° 42' 30" W; (map 36). Descriptive name given in 1923 by R. H. Sargent, USGS; suggested by "the pumice particles from Aniakchak Volcano which cover its valley."

Pumicestone Bay: bay, 2 miles across, SW coast of Unalaska Island, Aleutian Islands; 53° 32' N, 167° 08' W; (map 23). Variant: Aliuksuk, Alyukhsyuk, Mokrovskoi, Moorovskoy, Morkovskoi. Named by USBF in 1888. This name was published as "Zaliv Mokrovskoy," meaning "Wet Bay," by Lt. Sarichev (1826, map 14, dated 1792), IRN. It was also supposed to have been called "Alyukso" in 1802 by Sarichev. The Aleut name reported by Father

Veniaminov (1840, v. 1, p. 165) is "Alyukhsyuk," possibly from the word "aluik," meaning "river otter."

Punak Lagoon: lagoon, see Punak Lagoon.

Punch Hill: mountain, 1,935 ft., at SE end of Dall Ridge, on Gravina Island, Alexander Archipelago; 55° 11' 10" N, 131° 45' 05" W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols, USN. See Puppets, The.

Punchbowl Cove: estuary, on mainland, extends S 2.2 miles, off Rudyerd Bay, Coast Mountains; 55° 33' N, 130° 48' W; (map 3). Descriptive name given in 1891 by USC&GS.

Punchbowl Lake: lake, 4 miles long, on mainland S of Rudyerd Bay, Coast Mountains, 55° 31' N, 130° 44' W; BGN 1923; (map 3). Named in 1923 by USFS.

Punelok Bay: bay, 1.5 miles wide, 4 miles E of Savoonga, N coast of St. Lawrence Island; 63° 41' N, 170° 21' W; BGN 1951 (map 93). Variant: Pinelak. Reported in 1949 by Maj. H. B. Allen, USAF. According to Orth, 1965, this is pronounced locally "pinelak."

Pungohat Spit: spit, see Panowat Spit.

Pungokepuk Creek: stream, heads at Pungokepuk Lake, flows SW 12 miles to Togiak River, 50 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 16' N, 160° 12' W; (map 53). Variant: Pangokepuk River, Pangokeput River. Eskimo name reported in 1948 or 1949 by Frank Waskey, local trader and prospector, as "Pangokeput River."

Pungokepuk Lake: lake, 5 miles long, trends SW to head of Pungokepuk Creek, 18 miles SW of Togiak Lake and 64 miles NE of Goodnews, Kilbuck-Kuskokwim Mountains; 59° 18' N, 159° 54' W; (map 53). Variant: Pangokeput. Eskimo name reported in 1948 or 1949 by Frank Waskey, local trader and prospector, as "Pangokeput Lake."

Pungokosit Spit: spit, 4 miles long, part of barrier bar forming Nyrakpak Lagoon, 16 miles SE of Gambell, N coast of St. Lawrence Island; 63° 37' N, 171° 19' W; BGN 1951; (map 93). Eskimo name reported in 1932 by O. W. Geist, Univ. of Alaska. Orth reported its meaning, obtained at Gambell in 1965, as "always a mound."

Punishment Point: point of land, on NE coast of Baker Island, in Port Mayoral, Alexander Archipelago; 55° 23' 25" N, 133° 27' 30" W; (map 4). Variant: Mys de Kastigo, Punta de Castigo. Translation of the name "Punta de Castigo" given in 1775-1779 by Don Juan de la Bodega y Quadra and Francisco Antonio Maurelle.

Punk Lake: lake, 0.5 miles long, in Mentasta Mountains between Platinum and Totschunda Creeks, 5 miles E of Devils Mountain, Alaska Range; 62° 27' 00" N, 142° 45' 40" W; (map 84). Local name reported by USGS in 1960.

Punnick Creek: stream, see Pujuk Creek.

Punoarat Point: point of land, N point of Angyoyaravak Bay, 18 miles S of village of Hooper Bay, Yukon-Kuskokwim Delta; 61° 18' N, 165° 50' W; (map 75). Eskimo name obtained in 1951 at Hooper Bay by USC&GS.

Punok Creek: stream, heads in lake at 61° 07' N 164° 18' W, flows NW 20 miles to Azun River Yukon-Kuskokwim Delta; 61° 11' N, 164° 37' W; (map 74). Named in 1965 by Orth for an Eskimo village of the same name located on this stream and reported by USC&GS in 1951. The existence of this village has not been verified and thus the name may merely refer to a fishing camp.

Punok: locality, on Punok Creek, near Azun River, Yukon-Kuskokwim Delta; 61° 08' N, 164° 35' W j (map 74). Eskimo name for a village reported by USC&GS in 1951. This place is unverified and may merely refer to a fishing camp.

Puntade: point of land, see Steele Point.

Puntilla Creek: stream, flows N 9.5 miles to Happy River, Ptarmigan Valley, 100 miles SE of McGrath, Alaska Range; 62° 08' 45" N, 153° 00' 40" W; (map 80). Local name reported in 1931 by USGS.

Puntilla Lake: lake, 0.9 miles long, in course of Squaw Creek, S of Rainy Pass Lodge and 86 miles SW of Talkeetna, Alaska Range; 62° 05' 20" N, 152° 43' 45" W; (map 81). Local name reported in 1945 by USGS.

Puntilla Mountain: mountain, 4,800 ft., 2 miles SW of Rainy Pass Lodge, 87 miles SW of Talkeetna, Alaska Range; 62° 04' 15" N, 152° 46' 05" W; (map 81). Local name reported in 1958 by USGS.

Punuck Creek: stream, see Punuk Creek.

Punuck Lagoon: lagoon, see Punuk Lagoon.

Punuck Mountain: hills, see Punuk Hills.

Punuk Creek: stream, flows NE 3 miles to lagoon on Chukchi Sea coast, between Mutaktuk and Ikikileruk Creeks, 11 miles E of Cape Sabine, Arctic Slope; 68° 56' 20" N, 164° 09' 30" W; (map 130). Variant: Punuck Creek, Punnick Creek. Eskimo name said to mean "skinny" referring to a time when "two families starved near here" (Chapman and Sable, 1960, p. 54). Reported in 1950 by USC&GS.

Punuk Creek: stream, see Mutaktuk Creek.

Punuk Hills: hills, 800 ft., extend N-S 3 miles between Mutaktuk and Ikikileruk Creeks, 31 miles NNW of Mount Kelly, Arctic Slope; 68° 52' N, 164° 09' W; (map 130). Variant: Punuck Mountain. Eskimo name reported in 1950 as "Punuck Mountain" by USC&GS. See Punuk Creek.

Punuk Islands: islands, three, extend 2 miles in Bering Sea, SE of Saint Lawrence Island; 63° 05' N, 168° 49' W; BGN 1951; (map 93). Variant: Pinik Islands, Poongook Islands. Eskimo name obtained in 1849 by Capt. M. D. Tebenkov, IRN.

Punuk Lagoon: lagoon, 2 miles long, on Chukchi Sea coast, 11 miles E of Cape Sabine; Arctic Slope; 68° 57' N, 164° 10' W; (map 130) Variant: Punuck Lagoon, Punak Lagoon. Eskimo name reported in 1950 by USC&GS as Punuck Lagoon. See Punuk Creek. The name is reported to mean “skinny” (Chapman and Sable 1910, p. 54)

Punuk: locality, on one of Punuk Islands, in Bering Sea SE of St. Lawrence Island; 63° 05' N, 168° 49' W; (map 93). Variant: Poonook. Former Eskimo village or camp listed as “Poonook” by H. W. Elliott (1886, p. 443)

Pup Island, The: island, see Pup Island.

Pup Island: island, 0.3 miles long, in Keku Strait, on NE coast of Kuiu Island, Alexander Archipelago; 56° 49' 20" N, 133° 53' 15" W; (map 6). Named in 1892 by Lt. W. Island Moore, USN.

Pup Island: island, 0.6 miles long, at S entrance to Clover Passage, between Betton and Revillagigedo Islands, Alexander Archipelago; 55° 29' N, 131° 49' W; BGN 1966; (map 3). Variant: The Pup Island. Local name reported in 1904 by H. C. Fassett USBF.

Pup Island: island, see Hump Island.

Pup Lake: lake, 1,000 ft. long, easternmost of the Beaver Lakes, 25 miles N of Anchorage. Cook Inlet Lowland; 61° 34' 50" N, 149° 48' 45" W; (map 69). Local name reported in 1950 by USGS.

Pup, The: hill, 585 ft., 0.5 miles S of W end of Lake Fenner on Semisopochnoi Island Aleutian Islands; about 51° 57' 45" N, 179° 37' 20" E; Descriptive name probably given in 1943 by U.S. Army Corps of Engineers. “A small extinct volcanic mountain.”

Pupik Hills: hills, 2,560 ft., extend E-W 16 miles between Aniak River and Fauna Creek. 10 miles SW of Howard Pass. Brooks Range; 68° 06' N, 157° 20' W; (map 132). Eskimo name obtained at Noatak in 1956 by Orth and reported to mean “tail”. The hills were probably so named because they form a tail-like appendage from the main mountain range.

Puppets, The: mountains, two, 1,900 ft., at SW end of Dall Ridge, on Gravina Island, Alexander Archipelago; 55° 10' 45" N, 131° 46' 30" W; (map 3). Named in 1883 by Lt. Comdr. H. E. Nichols. USN. Punch and Judy Hills are nearby; “Punch” and “Judy” are the traditional names of the principal characters in the puppet show in which the husband quarrels with his wife and does outrageous and tragic things in a ludicrous way.

Purcell Mountain: mountain, 3,831 ft., 42 miles SW of Shungnak, Hogatza Highlands; 66° 20' N, 157° 39' W; (map 115). Named in 1886 by Lt. Stoney (1900, map). USN, for Ens. J. L. Purcell, USN, a member of his 1884 and 1885 expeditions.

Purcell Mountains: mountains, 3,831 ft., trend W 45 miles from Wheeler Creek to Ingruksukrok Creek between Selawik and Huslia Rivers. Hogatza Highlands; 66° 09' N, 156° 22' W [E end], 66° 21' N, 157° 54' W [W end]; BGN 1966; (map 115). Local name reported by USGS in 1965 to have been in use for 60 years; derived from Purcell Mountain, the highest point in the mountains.

Purches Creek: stream, flows W 17 miles to Peters Creek, 23 miles NW of Palmer, Talkeetna Mountains; 61° 49' 15" N, 149° 38' 15" W; (map 69). Local name reported in 1910 by F. J. Katz (in Brooks and others, 1911, fig. 18), USGS.

Purgatory: locality, on N bank of Yukon River, 20 miles SW of Beaver, Yukon Flats; 66° 16' N, 148° 03' W; (map 118). Former riverboat landing and cabin of the Yanert brothers, William and Herman; named by William Yanert in 1903 ("Jessen's Weekly" newspaper, Oct. 9, 1958); name shown in 1916 on a manuscript map by Yanert (in Stuck, 1917, map facing p. 122).

Purinton Creek: stream, heads on Anthracite Ridge, flows SW 6 miles to Matanuska River, 35 miles NE of Palmer, Talkeetna Mountains; 61° 47' 15" N, 148° 08' 05" W; (map 69). Local name reported in 1905 by G. C. Martin (1906, p. 18), USGS.

Purple Bluff: bluff, trends NE-SW 4 miles, on E coast of Montague Island, 4.5 miles SW of Montague Peak, Chugach Mountains; 60° 03' 30" N, 147° 21' 00" W; (map 63). Local name reported in 1951 by USGS.
