THUR ELETT

It has come to the attention of this office that considerable controversy has arisen over the past years, among the users of Rosic Creek Road, as to its status as either a public or a private thoroughfare.

An extensive investigation has been conducted by this office, and as a result thereof, all parties using the road as access to their property are hereby advised that; pursuant to the provisions of 43 U.S.C.A. 932 and the court authorities construing that Statute, the State of Alaska declares Rosis Creek Road to be a public right of way.

You are further advised that the State of Alaska will take whatever legal action necessary in order to assure the rights of the public in Rosie Creek Road. It is not the intention of the District Attorney's Office to threaten any person, but merely to declare the rights of the public in Rosie Creek Road and hopefully to put at rest the controversies and the many hard feelings that have developed over the past years, because of the uncertain status of Rosie Creek Road.

If anyone has any questions with reference to this matter, please do not hesitate to call on me.

truly yours, Very State Carden and Sec. Berley

OBRALD J. VAN HOCMISSEN DISTRICT ATTORNEY
