MEMORANDUM STATE OF ALASKA

TO: John F. Bennett, PLS
ROW Engineering Supervisor
Department of Transportation

DATE: November 20, 1991

FROM: Dean K. Dawson *Dean*
Reference Associate
Alaska State Archives
Department of Education

File: AP 8.00

SUBJECT: DENALI HIGHWAY
REQUEST

I finished researching your telephone request of November 5 and follow-up memo of November 6 regarding the 1950's construction of the Denali Highway. You were especially interested in the as-builts of Section "C" of the Highway. I consulted the following Record Groups within the Alaska State Archives and located no maps or backup construction data relating to the projects:

Record Group 14. Department of Highways. Finding Aid to Maps.

Record Group 25. Department of Transportation and Public Facilities, Design and Construction Division, Planning Section, Mapping and Inventory Unit. Boxes T491, T492.

Record Group 25. Department of Transportation and Public Facilities, Design and Construction Division. Miscellaneous Maps 1900 - 1960's. Mapcase Drawers #1 - 30.

Record Group 101. Office of the Territorial Governor, Central Files, Series 130, 1953 - 1958. Highway Engineer, File 50. Box 809.

If you haven't already done so, you may wish to contact the National Archives--Alaska Region for possible assistance. Record Group 30, Records of the Bureau of Public Roads might contain documents regarding your query. This address is:

National Archives--Alaska Region
654 West 3d Avenue, Room 012
Anchorage, AK 99501

Good luck in your search!
