RE: Taylor Highway, MP 87
Right-of-Way Encroachments

Fedor Kuzmin
P.O. Box 896
Delta Junction, AK 99737

Dear Mr. Kuzmin:

It has been brought to our attention that you have placed mining equipment and debris within the right-of-way of the Taylor Highway and adjacent to the area that you have been actively mining. Under no circumstance do we allow anyone to use the right-of-way for storage purposes. One of the requirements of the Lane Closure Permit #23917 that was issued to you reads 'Permittee shall cleanup litter and debris generated as a result of this permit.' We request that you remove these unauthorized items immediately. They potentially present a safety hazard to road users. The Taylor Highway is now officially closed to vehicle travel; however, numerous travelers pass along this highway throughout the winter. In addition, road maintenance activities by this department in the spring could potentially damage both ours and your equipment. We accept no responsibility for damage to your equipment left within the road right-of-way. Should the opportunity present itself we might remove your equipment and debris. Having to take this action may jeopardize your future use of the highway right-of-way.

Please contact me at (907) 451-5462 if you should wish to discuss this further.

Sincerely,

A handwritten signature in blue ink, appearing to read "Glenn Potts".

Glenn Potts
Right-of-Way Agent
