I am writing to state my support for the application of Rudi and Natasha von Imhof to vacate the Section Line easement on their Campbell Lake property.

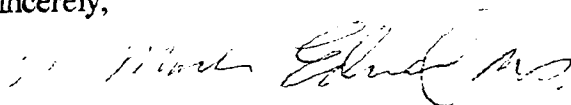

This Section Line easement is currently not in use and keeping it would have no benefit to the general public. Not vacating the section line, and potentially allowing public access to this property would not be in the best interest of public safety due to the following:

- The general public does not know of the lake safety procedures for motorized craft.
- Additional boating traffic from general public will interfere with aircraft operations and create safety hazards.
- The slope and grade at this location would make it very difficult or impossible to create a public access that would be ADA accessible, safe, or reasonable to maintain.

Furthermore, there is no need for public access to the lake as no fishing is allowed on the lake and it is virtually surrounded by private homes.

Please weigh the above points when considering the application for vacation of this Section Line. Thank you for your consideration of my thoughts and comments.

Sincerely,

Mark Edwards
