---

Mike, here is my follow-up on whether the University ROW Grant is public vs. private. My contact at BLM suggests it is public. But that is a general statement. I would want to obtain a copy of the ROW grant to see its terms and conditions before I would hang my hat on it. At this point the contractor first needs to get a DNR water permit while at the same time ask BLM whether there is any reason they cannot use the existing "public" Title V ROW Grant for the access to the Lake.

I don't know of any BLM ROWs that have been issued for exclusive/private use. The only ones that come to mind that might be considered in that category are the ones for access to privately owned property. We do have a few of those, but not many.

Very interesting. That is what I was wondering. On the DNR side of things they can issue a ROW that is either clearly "public" or clearly "private". But it sounds as if you are saying that a Title V ROW is only one flavor and that is "public". Are you aware of any Title V ROW grants that were issued as "non-public" or only for use of the applicant? Thanks, Vic. JohnB

It is a road ROW that was issued under Title V of FLPMA and is non-exclusive use as far as I can tell.

Vic, here's one for you to decode. See attached BLM abstract for the Toolik lake access road. I was hoping I could tell without pulling the file what type of ROW this is. Is it a public Title V ROW? Or is it some kind of a private ROW only for the use of the applicant? In the "code description" I figured that "176 R/W Granted" must mean some specific type of ROW but I'm not sure what. Thanks, JohnB
